Re: Public Records Request R009205-030821

Ms. Shaw,

Please find the enclosed records responsive to your request. The records have been redacted in accordance with A.R.S § 31-211(C). They have been redacted to remove personal identifying information such as home addresses, telephone numbers, as well as Social Security and Employee Identification numbers. The records have also been redacted to remove information that if released could endanger the life or safety of a person.

Should you have any questions, please contact our office at (602) -542-5886.

Sincerely,

Amy Mueller

Amy Mueller
Program Project Specialist II
Public Access Unit

NOTICE: A.R.S. 31-221(E) *prohibits* any active inmate from viewing or obtaining any inmate records, including his or her own prison records, except as provided in A.R.S. § 31-221(D) and Rule 123 of the Arizona Supreme Court.

Subject: ACTION - Emergency ACIS CAB Approval Request (CW 13479)

To CAB Board members, there is an Emergency Change to ACIS that we are requesting your approval so B&D can deploy it to the Production environment tonight (4/15/21), dependent on successful UAT testing.

This production issue was reported on 4/14/21 as TFS# 44905 (CW Incident #411640)- User unable to update Medical Grievances. There is no workaround at this time.

The emergency fix is a code modification. B&D is to deploy the code fix into the UAT environment this afternoon for Michele Simmons to perform her UAT. Once she is satisfied with the testing, and the emergency CAB has been approved, we will notify B&D to deploy to production, There will be no system outage required to deploy the code.

The Cherwell change request (#13479) will be presented in the next CAB meeting.

Joe M., Dan tested the Hot fix for Bug #44877 and it failed. Will B&D be able to extract Bug #44771 (which caused Bug #44877) from the push Release 44 scheduled for tonight? There is a CAB meeting today at 1430 to discuss the delay in the push. Based on your response, Operations will decide to go forth with the push this evening.

Sandy - This fix did require CAB approval because it was a hot fix applied to UAT that was not previously apart of UAT PROD 44.

> The fix to bug 44877 does not require a CAB approval since it will be deployed as a part of release 44. The ACIS production releases are considered "routine changes" to the Production environment and have been pre-approved by the CAB, pending on the business stakeholders approval of their UAT for each release.

Hello All,

ACIS version 44 was scheduled for deployment today. On the call today it was discussed that this would be delayed a day due to bug 44877. This bug was a regression issue that resulted in the fix for bug 44771. Although this bug has a “low” priority designation it was felt that it is important to not deploy version 44 without this fix due to possible data corruption issues. The fix for the bug was addressed over the weekend by the development team and is being tested by QA at the moment. Pending the approval of the fix by QA we will deploy to UAT for ADC approval which we anticipate will happen today. We all discussed on the status call today to target tomorrow for pushing version 44 to Production after hours.

AMERICAN OVERSIGHT

Al and Jey mentioned this would likely require CAB approval and wanted me to notify this group for approval.

Additionally, we have bug 44297 which is a medium severity bug. There are 2 issues reported in this bug (should probably be 2 different bugs). The first issue was resolved and another was discovered. The fix for the second appears to have brough the first issue back. The bug is currently assigned to the developer to investigate but it came up on the call today that there are still issues and ADC requested wanted to know what the implications are. Essentially, the fix for issue 2 will be fixed with version 44 and the first will not be fixed until version 45. If this is a problem please let us know.

Thanks,

Aaron Pratt

Subject: Update on Active EUIL Items
Date: Wednesday, April 7, 2021 3:14:59 PM

Barbara,

As discussed I would provide you an update on active EUIL items. The chart below provides the current status of all active items reported.

ACTIVE CR	STATUS
28992	Delivered to FUAT/Testing ongoing by ADC/Several bugs being resolved by ADC/No ETA on ADC approval
29221	Delivered to FUAT/Testing ongoing by ADC/Several bugs being resolved by ADC/No ETA on ADC approval
39463	Delivered to FUAT/Testing ongoing by ADC/Several bugs being resolved by ADC/No ETA on ADC approval
42364	Delivered to FUAT/Testing ongoing by ADC/Several bugs being resolved by ADC/No ETA on ADC approval
35680	Delivered to FUAT/Testing paused by ADC due to bug 44758/No ETA on ADC approval
42866	Delivered to FUAT/Testing paused by ADC due to bug 44495/No ETA on ADC approval
41273	Delivered to FUAT/Testing paused by ADC due to bugs 44782 & 44798 assigned to B&D (Matt)/No ETA on ADC approval
43330	Development completed by B&D/B&D working on issues with Keefe test environment/FUAT moved to 4/27
30307	Development completed/Currently in QA where issues were identified and being resolved/FUAT moved to 4/16
41403	Development completed/Currently in QA where issues were identified and being resolved/FUAT moved to 4/14
41279	Development completed/Currently in QA where issues were identified and being resolved/FUAT moved to 4/16
40392	Approved in FUAT/Moved to UAT for deployment on 4/19
43532	FUAT delivery date is confirmed for 4/26
32023	FUAT delivery date is confirmed for 4/28
37366	FUAT delivery date is confirmed for 4/29

Subject: EUIL Tracking
Date: Monday, April 5, 2021 11:15:10 AM
Attachments: ACIS System Improvement and EUIL Hours Tracking 422021.xlsx

---

Attached is the latest EUIL Hours Tracking we discussed this morning. I will continue to save Thad's updates on Friday's and forward to you so we have a static weekly report to review and have a historical perspective if needed. We have now moved our review meetings to Monday which will allow us to see the latest information produced on Friday.

As discussed this morning the total approved hours represents a very small increase of 11 hours based on three cancellations by George Martinez on CR's 42019, 41276 and 42018, these hours only represent what accredited work was performed up to the cancellation.

Appreciate the great communication and efforts to ensure all data being reported is accurate and agreed upon by both groups!

Joe

> >
> > This production issue was reported on 3/30/21 as TFS# 44812 (CW#408358)- Classification actions are receiving an incorrect pop up failure citing the need for an STG polygraph for reduction for inmates with an STG or CSG suspect code. The work around proposed by B&D until a normal PROD push cycle (4/12/21) is staff intensive because it would require any affected classification to be finalized by OSB Administration, and at present there are only 5 staff members with that capability. Additionally, it would require staff in the field to notify us via email since there is no trigger for the OSB Administration.
> >
> > The emergency fix is a C+ code modification. As a result, regression testing is required to fully test this change. B&D is to deploy the code fix into the UAT environment this afternoon for Marlene Coffey to perform her testing. Once she is satisfied with the testing, and the emergency CAB has been approved, we will notify B&D to deploy to production, There will be no system outage required to deploy the code.
> >
> > The Cherwell change request will be presented in the next CAB meeting.

Here is a brief writeup that we can share with ADCRR if desired. Or we can meet if they want to. The attached diagram goes along with the write to help understand the flow. Let me know what you think. Thanks.

_____

EXPLANATION OF CHANGE REQUEST DEPENDENCIES

Code Branches

In most cases change requests can be released on demand independent of each other. Historically this has been the case for the great majority of change requests. In order for change requests to be released on an ad-hoc schedule a set of "Feature" environments were created. This consists of 2 separate branches of code (Feature-QA and Feature-UAT) which are separate from the normal "bug-fixing" environments and branches of code that are on a 2 week release cycle. The "Feature-QA" branch contains code changes made by developers for change requests. The code changes are made up of sets of code modifications (large and small) called "changesets". When a developer checks in a changeset, each of these changesets is associated to a CR in TFS. Similarly, code "check-ins" are performed against the "bug-fixing" branches of code to resolve bug fixes. These are merged and deployed on the normal 2 week cycle to UAT and PROD environments.

Code Merging

When it comes time to deploy a CR to the "Feature-UAT" environment all the changesets that have been associated with the CR are gathered up and "merged" with the existing code in the Feature-UAT branch. Normally the changeset is a modification of an existing code file. A code file may have code changes for more than one CR at the same time. Since we normally release each CR independent of each other it becomes necessary to separate the changes for each of the CRs in the code file and only move the changes relating to the CR being deployed. To deal with this, the code "source control" software (TFS) will only move (merge) the individual lines of code that were modified for the CR being deployed rather than taking the latest version of the entire code file. It does this to avoid pulling in changes to other lines of code that were modified for a different CR that are not yet ready to be deployed.

Case of Dependencies

Normally when several CRs are in process at the same time they cross different modules and the case of multiple CRs sharing changes in the same file is rare. When they do, the conflicting lines of code can normally be resolved and separated on deployed using the line by line merge process described above. In some rare cases when a CR is large enough to include code changes to many files and many lines of code, and if there are other CRs that share the same code files, the ability for

AMERICAN OVERSIGHT

software and humans to separate these lines of code becomes increasingly more difficult. The more changesets there are and the more CRs sharing the code files will compound this complexity. In the case of CR28892 and the 3 other CRs dependent on it, not only were the CRs sharing the same code files but code "blocks" contained changes for more than one CR and *even individual lines of code contained changes for more that one CR*. When this happens, the normal line by line selection process during code merge completely breaks down. Normally a CR has 5-10 changesets to merge and in the case of 28992 there were over 200 changesets in addition to the changesets for the related CRs. This is what created the dependencies between the 4 sentence calc change requests and why they needed to be deployed together.

Avoiding Dependencies

We are evaluating different strategies for avoiding this situation in the future. One possible solution is to create a separate branch of code for larger CRs so that code stays separate from other CR code changes during development. The downside of this is that more environments need to be created and maintained and kept up to date with merges from the bug fix branches. Increased support is also needed to maintain and administer these environments. These separate environments are not usually needed when a simple single environment dedicated to CR changes can effectively be maintained in the majority of cases. We will continue to evaluate the needs based on the size and scope of future CRs while evaluating the other CRs undergoing concurrent development. We will likely choose a separate branch of code in the future for large CRs.

AMERICAN OVERSIGHT

I know you guys are busy so I'm sorry for bugging you!

But it just occurred to me that Joe said he cannot release my CR's 1 at a time, they have to all be released as a group? For CR's:

28992 - TIS Violators
39463 - SBD not allowed to be prior to Date of Offense
29221 - TIS Lifers
42364 - Flat/Earning option

Even if it will probably be months before we get 28992 passed? I already have 2 bugs, and I have 3 more I am about to enter on that one :(

It just doesn't make sense.....if 1 of them is good to go, why can't we get it into PROD? like now? and not have to wait for months before they can fix all of the bugs I am submitting in TFS :(

Sincerely,

Brittany Cassiano

Subject: RE: ADC still not updating resolved bugs

Hi All,

Please find below the updated list that still have some bugs assigned to ADC since months.
Prod version is now 2021.43.1.11 :

ID	Assigned To	State	Tags	Area Path	Iteration Path
43267	Christae Spivey	Resolved	Bug; REPORTS; Service Desk	Aims2\20-Reports	Aims2\PROD 2020\v2020.36.X (PROD Release 36)
43478	Amanda Adkins	Resolved	REPORTS; Service Desk	Aims2\20-Reports	Aims2\PROD 2020\v2020.36.X (PROD Release 36)
44080	Spencer Scott	Resolved	DIM; Service Desk	Aims2\18-Document Image Mgmt	Aims2\PROD 2020\v2020.37.X (PROD Release 37)
44032	Stacy Paul	Resolved	REPORTS; Service Desk	Aims2\20-Reports	Aims2\PROD 2021\v2021.38.X (PROD Release 38)
43764	Joseph Hinsberg	Resolved	Service Desk; Warrants	Aims2\14-Warrants and Detainers\Warrants	Aims2\PROD 2021\v2021.40.X (PROD Release 40)
44421	Bill Meola	Resolved	OMS; Service Desk	Aims2\11-Community Corrections\OMS	Aims2\PROD 2021\v2021.40.X (PROD Release 40)
43635	Jey Whitson	Resolved	Detainers; Production	Aims2\14-Warrants and Detainers\Detainers	Aims2\PROD 2021\v2021.42.X (PROD Release 42)
43973	Mike Newsome	Resolved	RMS; Service Desk	Aims2\11-Community Corrections\RMS	Aims2\PROD 2021\v2021.42.X (PROD Release 42)
44521	Michele Simmons	Resolved	REPORTS; Service Desk	Aims2\20-Reports	Aims2\PROD 2021\v2021.42.X (PROD Release 42)
44612	Michele Simmons	Resolved	Programs; Service Desk	Aims2\07-Programs	Aims2\PROD 2021\v2021.42.X (PROD Release 42)
44614	Michele Simmons	Resolved	Grievance; Service Desk	Aims2\16-Grievance	Aims2\PROD 2021\v2021.42.X (PROD Release 42)

Thanks,

Best Regards,

Importance: High

Good morning,

Any updates on the below ? Can we bring this to ADC staff attention during the ADC daily or weekly meetings ?

Best Regards,
Wissem ben Aissa.

Subject: ADC still not updating resolved bugs

Hi All,

We are still not able to reduce the number of production non-closed bugs in ACIS to less than 100, and one of the reason is that ADC Staffs are not updating those to assign them back to us or to close them.
Dean I remember you stated we need some kind of rule defined with ADC so that if they do not close a resolved bug assigned to them for more than one month, it will be closed by us ?

Can we require ADC to look at the below bugs (46 resolved) and make a decision by updating the status, by end of February ?
That will allow us to have around 60 non closed bugs, by end of February, instead of an overall 110 currently :

ID	Assigned To	State	Area Path	Resolved Date	Iteration Path	Module Name	Severity
43858	Brittany Cassiano	Resolved	Aims2\20-Reports	12/7/2020 20:02	Aims2\PROD 2020\v2020.36.X (PROD Release 36)	20 Reports	3 - Medium

AMERICAN OVERSIGHT

already have 2 bugs, and I have 3 more I am about to enter on that one :(

It just doesn't make sense.....if 1 of them is good to go, why can't we get it into PROD? like now? and not have to wait for months before they can fix all of the bugs I am submitting in TFS :(

Herb,

We can discuss it as there are some interdependencies between all of these. Aaron may be able to provide the specific reasoning via this email and if further discussion is warranted I will set up a meeting.

Best Regards,

Joe

Joe;

Not sure why there needs to be a delay in the deployment of the other CR's if they test and are ready for production. I really think that decision needs to be re-evaluated so that we can at least have some of the other functionality we need now versus waiting for the Violator CR to be fully ready for production, which may take some time.

I know you guys are busy so I'm sorry for bugging you!

But it just occurred to me that Joe said he cannot release my CR's 1 at a time, they have to all be released as a group? For CR's:

28992 - TIS Violators
39463 - SBD not allowed to be prior to Date of Offense
29221 - TIS Lifers
42364 - Flat/Earning option

Even if it will probably be months before we get 28992 passed? I already have 2 bugs, and I have 3 more I am about to enter on that one :(

It just doesn't make sense.....if 1 of them is good to go, why can't we get it into PROD? like now? and not have to wait for months before they can fix all of the bugs I am submitting in TFS :(

Subject: Re: response to Business Insider journalist

Hi Dean - Please find our following response below that we sent to the reporter.

The Department utilizes multiple resources to accomplish its statutory requirements, including the calculation of sentences and the timely release of inmates from their legally imposed sentences. An automated calculation method is not part of this process. Regardless of the sentence calculation method, the Department can not solely rely upon any automated sentence calculation method and each sentence is manually reviewed and certified by our staff for accuracy prior to release. The Department takes this responsibility very seriously as inmates rely on it to receive justice according to the law, and the public relies on it to ensure accurate time is spent incarcerated for crimes committed.

The source documentation includes Presentence investigative reports which are not transmitted electronically, current and prior criminal history which must be manually obtained, and Judicially imposed sentence order which are also unavailable electronically from the numerous county and court systems For these reasons, the calculation process will always require human interaction.

As planned from inception, the system design occurred prior to passage of SB1310 and was never intended to automatically calculate this sentence modification. Well established and administered procedures have been implemented and remain in place to address this and any future statutory requirements.

Judy

Hi Judy,

Thank you for the time on the phone yesterday, I appreciate you were very busy.

My group communications director has asked me, to ask you, for a copy of the response to the Business Insider journalist that ADCRR sent, would you be willing to share it with us?

For complete transparency, we sent the following to the reporter:

"Our role as a digital and data services company is to provide ADCRR with a software tool to assist with offender management. We confirm our software is working optimally based on the criteria provided by our customer. We stand by the accuracy of our software and remain ready to make any and all adjustments to our software upon customer request."

Thanks

Dean

AMERICAN OVERSIGHT

We have looked extensively in “Parking Lot Items” for some opportunities to provide ADC with system improvements that require minimal number of hours and still provide ADC with beneficial results. We value our partnership with ADC and as such we are continuing to look

for opportunities like those proposed below that provide advantageous results in very short timeframes. All of the items are stand alone and not associated with current proposed work or items in development. We look forward to your approval of this proposed work and working together

on projects such as these to the benefit of ADC.

Best Regards,

Joe

TFS ID	Module Name	Title of Change Request	Hours
38843	Banner	Global: No indication of which episode you are in when selecting a previous episode	80
42387	Classification	Classification Arrest and Escape History page should display all Criminal History Record Data on one screen with scrolling not pagination	180
42860	Discipline	Disciplinary- Stop the system from pre-populating loss of visitation on the disc charge of 22B.	140
42627	Grievances	Grievance: Cannot Differentiate between Inmate Submitted date and entry into ACIS date	120
43000	Intake	Need the ability to update the modified date for Emergency contacts when the inmate has no emergency contact	120
33817	OMS	UC-CC-OMS-37: Judgment Creditor Report column value on CC Closeout Dashboard should default to "N/A" for ISC offender	100
42316	OMS	OMS offender address info have ASIC auto note when the address is marked primary	80
40393	Programs	UC-PR-5.10: Once an inmate turns 23 their SPED status should change.	160
42592	Programs	Need the ability to print passes for a cycle	140
42631	Programs	WIPP: Cannot see what the inmate's projected pay is	180
32220	Programs-Assessments	UC-PR-5.0: Add a "Section 504" Yes/No button on the Education screen with a drop down of what the ADA education accommodation is.	120
37371	RMS	UC-CC-RMS-01: No Address Verified checkbox on Home Plan screen	100
43034	RMS	MVD screen- Need the ability to change the State and type in the City (when State is other than Arizona) in MVD Details section	120
28697	Sentence Calc	Intake - Legal Summary -Inmate Name	120
42633	Transportation	Add Locator Code as a filter on the Transportation Queue	80
42634	Transportation	Add a "Select All" button on the Transportation Queue	80
42636	Transportation	Add a "Delete" button on the Transportation Queue	80
42643	Transportation	Transportation Queue: Unable to edit the reason an inmate is moving	80
42644	Transportation	Transportation Queue: Unable to multi-select filter options	160
42481	Visitation	Visitation:Cannot search by Inmate on the Visitation dashboards	160
41336	Warrants	Warrants - Entered in ACJIS Flag needs to be visible on warrants dashboard results	120
43869	Victim Services	Requestor should be required when adding a new victim	120

> - The issue only occurred in the 11 am count on 3/16, not the counts before or after.
> - When opening an emergency count at the 11 am count on 3/16, this inmate did display.
> - Aaron from B&D explained that the issue is due to a piece of SQL code that updates a

AMERICAN OVERSIGHT

procedure for counts (for the purpose of optimizing the db performance) was introduced to production two and half weeks ago with release 41.
- However, this code was never checked in, nor tested in any of the environments, which is an oversight on the B&D side.

Conclusion

- At this time, it looks like a one-off issue since the code has been in production for over two weeks and we only encountered this issue once on 3/16. It is probably an edge case which would require more research to identify.
- We agree (1) for B&D to do more research and testing to identify the edge case, (2) alert Operations and management, and (3) implement an emergency fix or wait for the next regular release once we find out more information about this issue and the piece of code.

Respectfully,

Sandy Wang

Charles Grant Grant						
	EIP	474	EIP - Inmate [redacted] is a max custody inmate not offered education please review his phase appears he should be a 3	Assigned	Justin Baker	4-Low
	Classification	763	Classification - Please remove inmate from deputy warden queue	Assigned	Justin Baker	4-Low
	Classification	782	Classification - Triggered for reclass and it would appear that his most serious prior disappeared, dropping his score by 11 points. I believe was a juvenile offense	Assigned	Justin Baker	4-Low
	Discipline	786	Multiple Modules - 20 forfeitures were assessed by DHO, however those sanctions were suspended for 30 days	Assigned	Justin Baker	3-Medium
	Population Mgmt Cell Screening	787	Population Mgmt Cell Screening - Cell management shows a conflict but all green bars.	Assigned	Hagay Hazan	4-Low
	Grievance	963	Grievance - Grievance 20-024799 for inmate [redacted] Grievance is displaying pop up "The Grievance is closed because the Due Date has been exceeded"	Assigned	Justin Baker	4-Low
	Grievance	964	Grievance - Grievance 20-024234 is stuck at informal submitted, unable to proceed to informal response or further. Receiving popup box "The Grievance is closed because the Due Date has been exceeded."	Assigned	Justin Baker	4-Low
	Warrants	965	Warrants - Addresses for approved warrants are having their related last known address marked inactive on the CC_OMS_OFFENDER_ADDRESS_INFO page seemingly at random.	Assigned	Justin Baker	3-Medium
	Grievance	983	Grievance - This is a true bug. AQ trigger reason for Grievance Appeal returned to Grievance Coordinator due to Data Entry Error is not correct.	Assigned	Justin Baker	3-Medium
	Classification	781	Classification - Inmate [redacted] has 2 probation felony convictions. This is not being reflected in the prior criminal history calculations.	Pending Deployment	Justin Baker	4-Low
	Document Image Mgmt	952	Document Image Mgmt - I can't upload a PC document. tried three times. With inmate in context: [redacted]	Pending Information	Justin Baker	4-Low
	Document Image Mgmt	954	Document Image Mgmt - When I scan a document to myself, then pull it from my email and put it in a folder, when it is uploaded in documents in ACIS, it just uploads the folder not the document.	Pending Information	Justin Baker	4-Low
	Warrants	723	Reports - ADC RPT 3430 has no apparent rules on how it default sorts the results	Reconsider	Hagay Hazan	4-Low

AMERICAN OVERSIGHT

	Module	RequestID	Subject	Request Status	Technician	Priority
	Warrants	743	Warrants - When a user clicks the "delete warrant" button on a warrant in the Warrant saved status, it appropriately cancels the warrant, but it is not making a Warrant Log Entry on he FSU review page time stamping the action.	Reconsider	Justin Baker	3-Medium
	Visitation	784	Visitation - For the past week the Visitation Action Queue Results screen shows 4 overdue under the Deputy Warden Role. However, when the Go icon is pressed, these names do not appear	Reconsider	Hagay Hazan	3-Medium
	Discipline	813	Discipline - DISCIPLINARY CASE WAS SENT TO DIRR FOR DIRECTORS REVIEW ON 2ND APPEAL. DIRECTOR ENTERED UPHOLD BY MISTAKE AND NEEDS THIS CASE TO BE RE-SET TO DIRR AGAIN TO DISMISS THE CASE.	Reconsider	Justin Baker	4-Low
	Discipline	953	Discipline - I try to schedule the hearing it takes several minute	Reconsider	Justin Baker	4-Low
	Discipline	957	Discipline - 12/10/2020 between 14:35-15:00 and 12/9/2020 at approximately the same times, whenever I try to schedule the hearing it takes several minutes then I get an "Error 524".	Reconsider	Justin Baker	3-Medium
	Sentence Calc	1021	Sentence Calc - When an absconder warrant is submitted to supervisor for approval the abscond days immediately are applied to the sentence worksheet prior to warrant being issued.	Reconsider	Justin Baker	3-Medium

Count 19

Chris Nelson						
	Classification	718	Classification - When a Classification is finalized from the Max Placement Forms, the Classification Admin Decision from the Max Forms translates over to the Reclass screen with a label of "Cental Office Administrator Override"	Assigned	Justin Baker	3-Medium
	Sentence Calc	798	Sentence Calc - ACIS is applying the CST (community supervision time) to the SED instead of the CSBD from the ruling sentence (B1)	Assigned	Justin Baker	3-Medium
	Sentence Calc	840	Sentence Calc - Transition earlier than base ERCD	Assigned	Justin Baker	3-Medium
	Classification	988	Classification -	Assigned	Justin Baker	3-Medium
	Global Case Notes	1014	Global Case Notes - Strange Case Note appears to have migrated from AIMS	Assigned	Justin Baker	4-Low
	Other	1080	IHP - Trigger will not clear from DQ queue	Assigned	Justin Baker	3-Medium

Joe-

The 211 hours of work that was done on those CR's prior to being cancelled as previously discussed are approved.

Please ensure this is captured and noted in your reports.

Thank you.

Hey Justin,

Below is the list of Service Desk members:

Chris Nelson - cnelson1@azadc.gov

Brian Makris - bmakris@azadc.gov

Michael Saltmarsh - msaltmarsh@azadc.gov

Charles Grant - cgrant@azadc.gov

German Rios-Lazos - grios@azadc.gov

Senior leadership:

Holly Greene - hgreene@azadc.gov

Perry Craglow - pcraglow@azadc.gov

Joe Nicoletti - jnicole@azadc.gov

Rusty Johnson - sjohnson@azadc.gov

Sandy Wang - swang@azadc.gov

This is for adding us to the mailing lists for UAT and PROD release email notifications.

Respectfully,

Chris Nelson

Holly and Rusty,

We have identified that your MQ went down this morning for at least 7 minutes. Just want to make you aware of this so you can ask your administrator about this incident and look into the possible cause.

Best Regards,

Joe

Rusty,

This may help with question you had today about ensuring no billing for System Performance and/or Tuning..

Joe

Subject: FW: Follow up...

Holly and Rusty,

I was able to follow up with Dean on billable items and non-billable items of the contract, i.e. What you could be billed for as we discussed. The email from Dean below provides our position on billable and non-billable items and should provide the information needed.

As we discussed recently there was discussion or reference to 1200 hours (20-30 hours per week) for System
Performance and/or Tuning. This can be put to rest as there will be no billing for this type of work . Dean has previously agreed in an email to ADC that such work should be covered under Maintenance and thus not billable.

I hope this provides the information you were seeking.

Best Regards,

Joe

Subject: Follow up...

Hello Rocky

First I would like to say it was a pleasure speaking to you last Wednesday, following from that call we agreed to share some information. Please see attached the last version of the SLA agreement and License that was sent to ADCRR. This issue has been taking some time to resolve and conclude, so I am formally asking we set a deadline of the 25th September to conclude both topics, is that achievable?

We agreed that I share with you the BDNA expectation around the billable items and non-billable items of the contract. As far as BNDNA are concerned, there is no confusion around these items as they are stated within the contract and subsequent amendments. However it seems that there is some clarification requested on the ADCRR side.

For clarity:

Anything that is related to the maintenance of the system, as it was implemented on the 2nd December 2019, is considered Maintenance.

Anything that enhances, improves, changes, modifies the system in any way or is found to not be the fault of BDNA is considered chargeable and the hours shall be deducted from the M&O Support Hours.

As discussed on the telephone and during our call on the 2nd September 2020, Business and Decision, from this point forward will notify ADCRR in writing of an item that shall require hours to be deducted from the M&O Support Hours, this process will be the same as that which is being executed today for EUIL. ADCRR shall approve, ahead of BND commencing any work, the use of the M&O hours for the item that has been quoted. We hope this will make those M&O hours more

AMERICAN OVERSIGHT

controllable for ADC.

In the event that a support ticket is raised with BDNA, that requires BNDNA to perform tasks that go beyond triage of the ticket, and it subsequently is found that the issue is not the fault of BDNA, then BDNA will notify ADC that hours related to the remediation of this will require hours from the M&O hours. BDNA will await the approval of ADCRR before commencing any remediation.

Finally – I understand that there is outstanding approval from past M&O activities for Performance Improvements, Document Storage, and other items, (192hrs) that I would like to seek approval so that we can move forward with a clear and clean situation with the above future approval process, could you please provide feedback on these topics, the items are detailed in the below screenshot highlighted in red.

M&O Work Item	Time Period	Credit	Debit	Balance	Period Totals
M/O Signed Agreement	5/1/2020	10,000		10,000.00	
Hours in Arrears	Pre-Signed Agreement	100	721.50	9,378.50	
Project Management	5/24/2020 - 7/31/2020		180.00	9,198.50	736.25
Performance Improvement	5/24/2020 - 7/31/2020		322.50	8,876.00	
Document Storage	5/24/2020 - 7/31/2020		147.00	8,729.00

MAINTENANCE AND OPERATION Addendum

ADDENDUM 10 TO ADOC14-00003350/14-25-23

Pursuant to Section V.B of the September 25, 2013 Request for Proposal Number ADOC14-00003350/14-25-23 ("RFP"), the October 23, 2013 Proposal for Replacement of the Adult Inmate Management System, the May 13, 2014 Final Proposal Revision for Replacement of the Adult Inmate Management System, and the documents incorporated thereto (collectively, the "Contract"), the Arizona Department of Corrections ("ADC") and Business & Decision, North America, Inc. ("B&D") (together, the "Parties") hereby enter into this official Contract Addendum (the "Addendum").

This Addendum is intended to amend, supplement, and modify the Contract. To the extent any terms in this Amendment conflict with any term in the Contract as it previously existed, it is the intent of the Parties that the terms of this Addendum shall control. However, the Parties reaffirm their respective responsibilities pursuant to the original Contract, including previous Amendments, to the extent they are not modified by this Addendum. The Parties further agree that this Amendment may be executed in counterparts, effective immediately, upon both Parties signing.

Overview

This document represents the Service Level Addendum ("SLA" or "Addendum") for the maintenance and operation of the Mi-Case offender case management software, which consists of all Mi-Case modules, code, the Mi-Case Interface Server, Mi-Case AWS Environment, and the Mi-Case Telerik Server (collectively, the "Software") for the Arizona Department of Corrections, Rehabilitation & Reentry ("ADCRR") and Business & Decision, North America (PA), Inc. ("B&D"). The "Services" that are within the scope of this SLA are defined in Appendix 1 and incorporated throughout this SLA by reference.

Under the terms of this SLA, maintenance and operation Services shall be available on-call 12-hours per day, 7-days per week, with an agreed response time from the receipt of each request.

ADCRR Information Technology (IT) is responsible for first-line and second-line support. ADCRR IT support will attempt to resolve any non-product related issue prior to raising a third-line support ticket to B&D. ADCRR shall be responsible for specific problem determination and resolution for those items and issues that are not included within the Software.

The role of **first-line support** incident management is to attempt to collect as much information and diagnostics about the incident as possible. First-line may even resolve the issue when possible. This will reduce resolution time for all minor incidents (e.g. 'My computer doesn't work'; OR, 'My password needs to be reset').

AMERICAN OVERSIGHT

The role of **second-line support** of incident management is comprised of staff to rule out end user training needs and end user errors (e.g. 'How do I upload a document'; OR, 'I cannot locate a specific report').

If first and/or second-line support cannot resolve the issue, ADCRR IT support personnel will raise a **third-line** support ticket with B&D. See Appendix 3 for reference to B&D key resources.

If a third-line support ticket is determined to be a software defect, part of Operations, or Maintenance, B&D agrees to provide a resolution within the time-period set forth in Exhibit G In the event that a software defect results in general service interruption of the Software or in essential elements of the Software, B&D agrees to provide resolution within the soonest possible time frame.

The third-line support ticket procedure defined below shall be followed.

1 Third-line Support Ticket Procedure

1.1. In the event ADCRR IT support is unable to resolve the problem with the Software, the representative will submit a third-line support ticket with the B&D Customer Service Helpdesk ("B&D-CSH"). To raise a support ticket with B&D-CSH, ADCRR IT support shall follow the following procedure:

1.2. Contact the B&D-CSH by telephone, email or entering a support ticket within the B&D-CSH online Service Desk (SD) (as set forth in Section 2), and provide the following information:

1.2.1. Contact details (contact name, location, and telephone number)

1.2.2. The name of the module in which the problem or failure arose or occurred in the software

1.2.3. Any unique reference number used by ADCRR's internal IT Service Desk (if applicable)

1.2.4. All problem details including: date/time of problem, content of any error message (if applicable), its opinion of the support ticket priority, the nature of problem, any precursors to problem, whether the problem may be easily replicated, and any other associated and/or relevant information such as screen dumps (screen shots), reports and data files.

1.3 ADCRR shall be responsible for ensuring that support tickets are raised only by those individuals designated to do so.

1.4 Upon receipt of the support ticket, it will be categorized according to the priority levels set forth in Appendix 7. B&D will at all times, use its best efforts to respond to support tickets as quickly as possible in accordance with the target response and resolution times set out in Exhibit G.

1.5 The process flow of a support ticket will follow the agreed process flow as detailed in Appendix 5.

1.6 As part of the B&D-CSH, the B&D Issue Response Team ("IRT") will inform ADCRR IT if a site visit is required to resolve a support ticket.

1.7 When a support ticket is passed to the B&D IRT, the IRT member appointed to resolve the support ticket shall determine whether the resolution of the problem requires application software or data to be repaired. If repairs are required, then the IRT member may require and request further information from ADCRR to resolve the problem. Any time that is associated with the collection, definition or confirmation of further information will be excluded from the target response times set out in Exhibit G. Once the IRT member has determined what is likely to be required to resolve the problem, they will inform the ADCRR IT Service Desk of the

AMERICAN OVERSIGHT

current state of the support ticket. Once a resolution path has been determined then the IRT member will inform the ADCRR IT Service Desk personnel and close the support ticket in line with the support ticket closure flow Appendix 5. In the event that a response cannot be provided within the target response times set out in Exhibit G the support ticket shall be escalated in accordance with the Escalation Procedure defined in section 4.

1.8 If a resolution of a support ticket is likely to result in a material impact on the Software or its related products, the IRT member will seek authorization from the ADCRR IT prior to carrying out any action that is likely to have such impact. If the support ticket is a change request (as defined in section 3) the IRT member will carry out an impact analysis detailing the nature and cost of the change. No changes will be made without prior written authorization from ADCRR. The IRT member will inform the ADCRR IT Service Desk personnel and close the support ticket in line with the support ticket closure flow Appendix 5

1.9 Should the investigation of a support ticket by the IRT indicate that the problem resulted from an enhancement or modification of the Software or its related products where such enhancement or modification is implemented by ADCRR without B&D assistance or requested by ADCRR pursuant to Section III.10.a of the RFP, the IRT member will inform ADCRR at the earliest opportunity indicating that any work to be carried out can be conducted on a chargeable basis in line with the time and materials rate card as Appendix 6 for the implementation of the change. In order to progress on any such works thereafter, B&D would require a written agreement and authorization from ADCRR IT
Leadership to correct problems not covered by this SLA. The IRT member will inform ADCRR IT personnel and close the support ticket in line with the support ticket closure flow Appendix 5.

1.10 If ADCRR disagrees with the IRT's findings, a report of the findings from both the IRT staff and the ADCRR IT Service Desk will be provided to the named Support Delivery Manager for B&D for assessment and resolution. If after 5 business days (or a time period mutually agreed upon) there is no resolution on the IRT's disagreement, the executive representatives for both the ADCRR and B&D will negotiate the same findings for ultimate resolution.

1.11 Support tickets will be closed by mutual agreement between ADCRR IT Service Desk and the IRT member on the occurrence of any of the following:

1.11.1. ADCRR and the IRT members agree that the perceived problem was due to the operator's misunderstanding of the Software specification, or equivalent documentation, and as such, no fix is required.

1.11.2. ADCRR agrees that the Software is operating in line with the specifications.

1.11.3. Non-recurrence of an incident, which cannot be reproduced, despite repeated efforts to do so, within a set period of 5 days. This period of non-recurrence can be mutually adjusted if conditions warrant a longer or shorter time range. In the above case, the support ticket will not be included in any resolution targets.

1.11.4. The IRT member has concluded that the issue is related to system defect and a system defect has been created within the defect management tool.

1.11.5. The IRT member has concluded that the issue is related to data defect and a data defect has been created within the defect management tool.

1.11.6. The IRT member has notified the ADCRR IT Service Desk that there is a previously known defect that is already entered in the defect tracking system.

1.11.7. The IRT member has requested further clarification or information relating to the support ticket and ADCRR has failed to provide further clarification or information

AMERICAN OVERSIGHT

within 5 business days of the support ticket being opened and following at least 1 email reminder after the support ticket being opened.

1.11.8. Following the IRT member deploying an immediate 'hot' fix to the UAT environment and ADCRR failing to test the appropriate target resolution time detailed in Exhibit G.

1.12 A standardized monthly '**support ticket report**' of all support tickets will be provided by the B&D-CSH to the ADCRR IT leadership team.

The monthly support ticket report will:

1.12.1. Show all active support tickets (for the entire time-period of the report).

1.12.2. Show all support tickets opened and closed during the entire time-period of the report including each target response and target resolution times.

1.12.3. The support ticket report will show the status (such as "in development", "under investigation" or "under review by the Customer") for each support ticket and any other comments or pertinent information about that support ticket for all reported support tickets.

1.13 The date for future monthly meetings (or other mutually agreed upon timeframe) between the ADCRR IT leadership and the B&D will be set at the conclusion of the current months standing meeting.

2 Methods of Contacting B&D

ADCRR may contact B&D-CSH by using any of the following means:

2.1 By entering a support ticket in the online B&D-CSH Service Desk at: http://servicedesk.bndna.com and following the ADCRR IT Service Desk Guide detailed in Appendix 2.

2.2 By telephoning the B&D-CSH on *1(833) 564 2273* or such other telephone number provided by B&D to the ADCRR with two-week notification (or other mutually agreed upon timeframe). Phone calls may be backed up by e-mails. The B&D-CSH will log the call and pass this information on to an appropriate IRT member. The ADCRR IT Service Desk personnel making the call should have available to them as much information about the problem as possible, and as a minimum, the information requirements set out in section 1.2.

2.3 By sending an email to ServiceDesk@bndna.com, or such other email address provided by B&D to ADCRR with two-week notification (or other mutually agreed upon timeframe). The email will give as much detail as possible with, as a minimum, the information requirements set out in section 1.2. Email contact is suitable for any requirement; however the target response times will commence the time of receipt of the communication.

2.4 All support tickets for priority 1 (critical) and 2 (high) items should be immediately followed by a telephone call to B&D-CSH.

3 Change Requests / Variations to Service

3.1 ADCRR IT leadership or other designated personnel shall be entitled at any time during the term of this agreement to request in writing to B&D a change request or variation to the Services already provided. ADCRR shall provide B&D with full particulars of any requested change or variation and such additional information as B&D shall reasonably require.

AMERICAN OVERSIGHT

3.2 All change requests shall be requested formally by ADCRR IT leadership or other designated personnel.

3.3 Following receipt of a change request or variation to the Services pursuant to section 3.1 above, B&D will respond within five (5) business days and shall inform ADCRR IT leadership or other designated personnel in writing whether it considers such change request or variation to the Services to be technically feasible. If so, any amendment or variation to the changes and /or Services that it would make as a result of such request, a formal estimate of effort (EOE) will be provided by B&D to ADCRR IT leadership or other designated personnel.

3.4 As part of the EOE, B&D will notify ADCRR IT leadership or other designated personnel of the not to exceed number of hours required to implement the change request.

3.5 ADCRR shall notify B&D within five (5) business days of receipt of the EOE referred to in section 3.3 above if it wishes to proceed with the change request or variation to the Services as provided by B&D. ADCRR IT leadership will, as part of this notification to proceed (NTP), identify whether the pre-arranged 10,000 hours of change effort is to be utilized as part of the implementation of the change. In the event that the 10,000 hours of change effort is not to be used for the implementation of the change, ADCRR will provide B&D with an appropriate purchase order for the effort, prior to beginning work, in line with the time and materials rate card as noted in Appendix 6 for the implementation of the change.

3.6 If ADCRR identifies further changes to the original change request discussed in 3.1 then the process will revert back to section 3.1 above. Failure by ADCRR to notify B&D within the five (5) business day period shall be deemed to constitute the ADCRRs non-acceptance of the proposal.

3.7 Upon receipt of the NTP by ADCRR IT, B&D will plan the development and identify a projected start date and estimated completion date.

3.8 Upon approval of the development plan by ADCRR IT, B&D will commence work on the change
request in line with the development plan.

3.9 During working on the change request B&D will track actual hours against the estimate and report progress weekly to ADCRR IT leadership with an appropriate email. B&D can never bill ADCRR for unapproved hours, hours not used in the EOE, or other undocumented work.

3.10 The IRT shall be responsible for carrying out any Software change requests agreed between B&D and ADCRR under the terms of this Addendum, and for reporting to ADCRR.

3.11 If rework hours appear to jeopardize on-time release delivery, the Contractor shall present a written mitigation plan to ADC, including the provision of additional resources at no additional cost to ADC.

3.12 A change request from ADCRR to B&D should include the information detailed in the most current approved change request form.

3.13 Upon the completion of the software development lifecycle of the change request, B&D will formally request the approval to promote the change request to the User Acceptance Testing (UAT) environment and provide Quality Control documentation consisting of Performed systems tests on all MSRs and MnSRs unless exceptions are approved by ADC. Systems tests shall include unit testing, functional testing, regression testing using automated regression testing tools, and support ADC's UAT.

3.13.1 ADCRR will then test the change request

AMERICAN OVERSIGHT

3.13.1.1 Any support, not identified as correcting a Bug, B&D provides during UAT testing will be billed
against the change request while working within the parameters defined in section 3.11.

3.13.1.3 Any changes made by ADCRR to the requirements or expectations of the change request will need to be done formally in writing and will trigger the process detailed in 3.1

3.14 Following approval to promote the change request to the UAT environment, B&D will formally notify ADCRR IT that the change is ready for the ADCRR UAT process.

AMERICAN OVERSIGHT

3.15 Upon the completion and formal approval provided by ADCRR IT that the change has passed their UAT process, a formal request to B&D will be made to promote the change to production.

3.16 Formal acceptance of the change and all deductions of the 10,000 hours of change effort consumed for the change will be submitted to ACDRR for Approval and any outstanding monies due for the change shall be invoiced and paid for by ADCRR when the change is either promoted to production or 30 business days after the change has been delivered to the UAT environment and accepted by ADCRR.

3.17 A standardized weekly report by email of all change requests will be provided by the B&D-CSH to the ADCRR IT leadership team. This report will show no less than:

3.17.4 All open change requests (for the entire time-period of the report).

3.17.5 All change requests closed during the entire time-period of the report.

3.17.6 The status (such as “in development”, “under investigation” or “waiting for CMRB”) for all open Change Requests.

4 Escalation Procedures

Any matter escalated under the Addendum shall have two stages:

4.1 Stage 1

If the support ticket has not been resolved within the appropriate Target Resolution Time or the support ticket does not meet an exception as shown in Appendix 3, the IRT member(s) tasked with the issue will inform the B&D-CSH of the reason for failure to reach resolution and his/her best analysis of the resources and time-scales required to resolve the problem. The B&D-CSH will then refer the matter to B&D's Customer Service Manager, who will determine any additional or alternate resources necessary and ensure they are applied to the issue and inform ADCRR IT leadership of the escalation. The B&D-CSH will inform ADCRR IT leadership of the issue's escalation, and the appropriate Manager of B&D shall be informed of the Stage 1 escalation.

4.2 Stage 2

4.2.1 If the support ticket has not been resolved within a time period equal to double that specified as the Target Resolution Time for the relevant priority level, or the support ticket does not meet an exception as shown in Appendix 3, the B&D Manager shall inform the relevant Director of B&D if the issue is not likely to be resolved by the next escalation time limit.

4.2.2 The Director of B&D and ADCRR IT leadership will mutually determine an appropriate course of action and whether to allocate additional or alternate resources, including outside agencies if appropriate. ADCRR will be kept informed of the status of the escalated issue, and the B&D Customer Service Manager will inform the originating ADCRR IT leadership or other designated personnel of the Stage 2 escalation.

4.3 B&D Management

A list of the B&D Directors, Managers will be provided to the ADCRR IT leadership upon initiation of this contract as Appendix 3 and this list will be updated whenever a change is made to the B&D Management.

AMERICAN OVERSIGHT

5 SLA Key Performance Indicators and % Holdback

The key metrics shall be used in accordance with the M&O Addendum to measure B&D's performance of the M&O service. These key metrics are detailed in Appendix 4 – Exhibit G.

ALL OTHER REQUIREMENTS, SPECIFICATIONS, TERMS AND CONDITIONS REMAIN UNCHANGED

ACKNOWLEDGEMENT AND AUTHORIZATION

This Contract Addendum is not binding against the State of Arizona unless signed by an authorized representative of the Contractor and then accepted in writing by an authorized representative of the State.

BUSINESS & DECISION, NORTH AMERICA, INC. HEREBY ACKNOWLEDGES RECEIPT AND UNDERSTANDING OF THE ABOVE ADDENDUM	THE ABOVE REFERENCED CONTRACT ADDENDUM IS HEREBY EXECUTED THIS DATE BY ARIZONA DEPARTMENT OF CORRECTIONS, REHABILITATION & REENTRY

Appendix 1 - THE SERVICES

The Services: The Services shall include the following:

1) Operations - B&D shall provide qualified personnel, resources, and supplies to support the operation of any module or functionality of the Software that is implemented to meet the SLAs defined in the contract.

2) Maintenance - Maintenance shall include supporting the Software once any module or functionality is implemented at any ADC sites. Maintenance shall include:

   a) Activities necessary for the Software to perform efficiently under the standards and conditions for which it is approved

   b) Activities necessary to ensure that all data and programs are current, and errors and defects are corrected

   c) Activities necessary to meet new or revised Arizona or federal requirements

   d) Implementation of edits and audits required to meet Arizona and federal requirements

   e) Changes to established report, screen, or database formats, such as sort sequence, new data elements, or report items

   f) Addition of new values and changes to existing system tables and reference tables, and conversion of prior records as necessary

   g) Activities related to file growth and partitioning

   h) Data and file maintenance activities for updates to all databases and files

AMERICAN OVERSIGHT

i) Ongoing activities to ensure system tuning, performance, response time, database stability, and processing

j) Changes to the job scripts or system parameters concerning the frequency, number and media of reports

k) Updates to software, operating systems or other system components requiring version updates, manufacturer "patches," and other routine manufacturers' updates to software

l) Maintenance of security for user accounts

m) Responses to production problems and emergency situations according to ADC-approved guidelines

n) Investigation and correction of batch job failures and defects

o) Repair of jobs scheduled or run incorrectly, problems due to system hardware or software failures, problems due to operator/scheduler error, problems due to program or control language errors, security problems, corrupted files or databases, documentation or problems due to jobs run with incorrect data

p) Response to "emergency requests" which are problems having a significant impact on the end user's ability to perform their job. These requests will require "emergency fixes" and shall be resolved within 24 hours of notification.

3) Support in event of notification of system problems as specified in this contract
4) Evaluation of support tickets
5) Determining the extent of any change required to deal with a support ticket
6) Progression, documentation and resolution of all support tickets
7) Impact analysis of requests for changes to the product
8) Progression of approved change requests
9) Provision, upon request, of timely reports both written (as described in Section 1.13), and verbal (as requested by ADCRR) detailing the progress of support tickets
10) Remote installation of application software upgrades

AMERICAN OVERSIGHT

11) On-site installation of application software upgrades as mutually agreed upon by B&D and ADCRR
12) Agreement of acceptance criteria testing for software upgrades
13) Holding master development copies (by B&D and in escrow pursuant to Tab 7, Section 7.2.3 of the May 13, 2014 Final Proposal Revision for Replacement of the Adult Inmate Management System) of the Software and all associated documentation as produced by B&D.
14) Assuring ADCRR has latest copies of all software included in the project and associated documentation
15) Maintenance of relevant documentation where applicable

AMERICAN OVERSIGHT

Appendix 6 – TIME AND MATERIALS RATE CARD

10.5 Cost Schedule C– Modification Activities: The following **blended hourly rate** is provided for the ADC AIMS project for going system changes and modifications in-line with the change control procedure previously documented.

Unless otherwise agreed upon in writing between ADCRR and B&D, the Blended Hourly Rate for applicable Services from SFY 2017 through SFY 2025 shall be-: $105

AMERICAN OVERSIGHT

Appendix 7 – PRIORITY LEVELS

Category	System Status	Priority
Critical	Indicates the entire Solution is unavailable for use resulting in a critical impact on operations.	1
High	Indicates a Module is unavailable for use where the Solution is usable but is severely limited, and no workaround for that Module exists.	2
Medium	The operation of a function in the application is restricted but use of other functions is not impacted or where a requirement is not being met, but the application is otherwise usable.	3
Low	Minimal business impact. Indicates that the problem results in little impact on operations or there is reasonable circumvention of the problem. For example, misspelled words, graphical designs.	4

---------- Forwarded message ---------
From: **Charles Spannagel** <Charles.Spannagel@bndna.com>
Date: Mon, Aug 10, 2020 at 2:48 PM
Subject: ACIS - ADCRR IT Leadership Meeting Notes 8/7/2020
To: Holly Greene <hgreene@azadc.gov>, Rusty Johnson <sjohnson@azadc.gov>, Joseph Nicoletti <jnicole@azadc.gov>, Joseph Profiri <jprofiri@azadc.gov>, Keith Barrier <kbarrier@azadc.gov>, Sandy Wang <swang@azadc.gov>

Please find the meeting notes below. If you have any comments or feedback please let me know. Thank you.

1: System Monitoring: ADCRR IT Leadership is dissatisfied with the current state of the performance monitoring of the ACIS System. This is a customer service issue for ADCRR IT Leadership and need it to be addressed.

- Request is to review system alerts
  - Review communication practices between B&D and ADCRR
- System Monitoring Tools
- **ADCRR IT is scheduling an internal meeting**
- **Charles to schedule B&D Internal Meeting**

2: SLA Agreement is currently with Procurement and will update B&D once an update is available

AMERICAN OVERSIGHT

3: High Level Governance Meeting is scheduled for 8/13/2020. Proposed agenda below:

- EUIL Ledger (see below)
- M&O Hours (see below)
- Service Desk Statistics
- OCI Involvement and Updates (Enforcer)
- Issues/Concerns (Round Robin)
- Success (Round Robin)

4: DB Refresh Schedule

- As of July 3rd all Database (DB) refreshes stopped automatically
  - B&D will do DB Refreshes on request and estimates it's 10 hours per environment (TRAIN, UAT, RPT_DEV)
  - B&D will only charge for the actual hours spent on the work

5: Excel Workbook in TFS

- B&D is under the impression from the information that George Martinez supplied to Matt DeClue that this is an issue for ADCRR IT Desktop Support. We ask that you first research this further internally.

6: ADCRR IT Leadership has requested the following:

- Explanation for why items that were previously "free" or considered part of maintenance and upkeep are now chargeable
- A detailed list of everything that will be chargeable moving forward

7: Keefe Social Security Number issue is currently being worked internally by ADCRR

8: Enforcer discovery close to completion by ADCRR IT and OPS. Once complete B&D will work with ADCRR on possible solutions for the ongoing End User dissatisfaction

Subject: ACIS - ADCRR IT Leadership Meeting Agenda

Please let me know what agenda items you want added to the meeting tomorrow.

1: System Monitoring – It's B&Ds opinion that the current monitoring system that is in place is working appropriately and B&D is required to report on the system performance monthly. B&D does not provide customers access directly to their monitoring tools and AD-Hoc Reports may be requested.

2: SLA Update (currently with Joe P)

3: High Level Governance Meeting

2: 4th Quarter EUILS

Ranking	Sponsor	Title	Module	Area of Concentration or Related Process	Functional Impact (What do we gain?)	Brief Description and Goal Being Requested	Justification	CR/ TFS #
1	Stacey Crabtree	**Senate Bill 1310 & Drug Possession Transition (SB1496)**	Sentence Calculation	Sentence Structure and Transition	Calculations Enhancements	New calculation requirements in legislation for Truth-in-Sentencing that allows inmates who meet set criteria to earn time-served credit at a faster rate.	In July, 2019, legislation was passed that added a whole new calculation to Truth-In-Sentencing inmates. There is no system workaround to account for these inmates and the time comp unit is having to rely on ad hoc reports to catch all of these inmates. Both of these programs are monitored closely by the community.	42176 42177
2	Stacey Crabtree	**DNHW (Do Not House With) Screen/Data Changes**	Do Not House With (DNHW)	Inmate Housing	Workflow Improvement	Display the locator code and pending movements of inmates on the Do Not House With screen, and enable the ability to screen for Do Not House With at associated locator codes.	There is currently a staff-intensive workaround that involves looking up each of the inmates on the 'Do Not House With' list and verifying their locator code. In addition, the current tool in ACIS does not identify a conflict between those units which could result in inmates being placed at risk.	43532
3	Stacey Crabtree	**Letterhead**	Global	Forms	Workflow Improvement	Allow all letterheads, footers, forms, logos, signatures, and footers to be configurable by ADCRR.	The headers and footers of letters and forms generated in ACIS are not currently configurable by ADCRR. We need the ability to update these on our own, because the information needs to be updated when there's a change to the director, governor, administrators, phone numbers, or agency name change.	43511
4	Stacey Crabtree	**Transportation Order Search and Tracking During Movement**	Transportation	Transportation and Movement Queue	Workflow Improvement	Add an ADC# search and filter to the Transportation Queue and Travel Orders screens. Additionally, after an inmate is moved through the Transportation Queue, they should display on the 'out count' of the receiving prison.	Staff have to search through an average of 500+ inmates in the Transportation Queue to find a single inmate to move. The addition of an ADC# search will shorten the number of steps the staff need to perform in order to find a single inmate on the Transportation Queue. The next part of the problem is that once an inmate is moved using this same Transportation Queue, they are in 'en-route" status; this means the inmate is not showing up on either the sending or receiving prison's 'out count'. This results in inmates not being accounted for in a timely manner.	41171 40748
5	Stacey Crabtree	**Classification: Mental Health Overrides**	Classification	Steps & Inmate Privileges	Workflow Improvement	Allow the ability to do step reviews for inmates in mental health units and facility overrides at max units.	Inmates receiving mental health treatment in max custody are not able to participate in the Step Program; this results in inmates not receiving the appropriate privileges.	37366
6	Stacey Crabtree	**Gang Intelligence Search**	Security Threat Group	Gang Search	Data Integrity	When a Criminal Street Gang (CSG) is changed to a Security Threat Group (STG), all inmates tagged as the former CSG should remain tagged but now as an STG.	Criminal Street Gangs (CSG) can be certified as Security Threat Groups (STG) by the Director. When this is done, there is no way to identify those inmates associated to those gangs in the Gang Intelligence Search; we lose the data of the tags when the gang changed over from a CSG to an STG. This change request will display those inmates who were in a CSG but were recertified as an STG.	42463
7a	Karen Hellman	**Warrants**	Warrants	Warrants	Workflow Improvement	Users are unable to modify the Fugitive Services Unit (FSU) Review screen on a warrant that's not in FSU Review status. The FSU Review screen should be able to be modified regardless of warrant status.	This will eliminate the need for multiple users' involvement in order to facilitate the completion of the FSU Review screen. Current workaround involves three staff members to process their portion of a warrant, as opposed to one staff member being able to process a warrant in the legacy system.	40685
7b	Karen Hellman	**Warrants**	Warrants	Legal Documents	Data Integrity	The "Current Release Status" and "Release Type" fields are not correct on the first page of a printed warrant.	The printed warrant is a legal document which is reviewed by the Board of Executive Clemency (BOEC), lawyers, judges and other law enforcement agencies. This would eliminate the workaround of having to make written changes to the document, which results in additional process steps.	41273
8	Karen Hellman	**Home Plans**	RMS	Home Plans	Workflow Improvement	Implement the following for new Release Unit processes to be added in ACIS: 1) All homeless home plans need to have the homeless toggle in the home plan selected. When the homeless toggle is active, the homeless home plan needs to automatically route to the "Release Unit" CC Office. 2) TR to ADD and ADD release types do not need a Home Plan; Home Plan column on Release Dashboard should not reflect a "pending" status. 3) When release type is TR to ADD or ADD, TR to ADD cannot be denied for homeless. 4) Release Unit role/workflow needs to be added to existing homeless home plan approval	Release Unit roles/processes were not part of the initial ACIS implementation. This request will add those roles/processes to ACIS, which will result in more efficient release and home plan workflows	43533
9	Gergana Kovatcheva	**Payroll**	Programs	Inmate Pay, KeepTrak	Workflow Improvement	Unable to enter number with decimals for hours completed on Manage Participation screen. Requesting ability to pay in partial hour increments.	Without the ability to pay inmates in partial hours, inmate's time is being rounded up. This results in the overpayment to inmates. Additionally, when the inmate works for an IGA, ADCRR is reimbursed only at the actual hours worked, resulting in a significant increase in WIPP funds being paid for work not performed.	31001
10	Gretchen Mcclellan Singh	**Victim Services: Type of Victim**	Victim Services	Process efficiency	Improved User Experience	Add a new column on the Victim Search screen called "Type of Victim" so that staff can quickly and easily see which type of victim they are viewing (i.e: true victim, judge, county attorney, arresting agency, courtesy notice, etc.) without having to click into each profile.	It's time consuming for the victim services staff to click into the profile of each victim to verify their type. During phone calls with victims, staff need to be able to quickly look up the victim's information and see right away what type of victim they are before giving out any information because not all types of victims are entitled to the same information.	35571
11	Stacey Crabtree	**Enforcer: LOP Start/Stop**	Interfaces	Loss-of-Privileges (LOP) Start/Stop	Workflow Improvement	When an inmate receives an LOP sanction, his Status should remain Active and his Class of Service (COS) should change to "nocall". When LOP expires in ACIS, it should change the COS in Enforcer from "nocall" to current COS.	This manual workaround is labor-intensive; it requires the Disciplinary Coordinators to keep track when an inmate's Loss-of-Privileges expires and make adjustments in Enforcer and KeepTrak.	41272 41276 42018 42020
12	Stacey Crabtree	**Enforcer: Phase Level**	Interfaces	Phase Level, KeepTrak, Enforcer, Visitation, Property,	Workflow Improvement	When a phase (step) in Close Management is changed, it should be reflected in the Banner,	Changes in phase levels affects numerous privileges the inmate receives, such as the number of calls he can make	32023 41275

AMERICAN OVERSIGHT

				Work Assignments and Recreation.		Count Sheet, and EIP Summary.	per day, visitation, property, work assignments and recreation.	41279 42438
13	Stacey Crabtree	**Make Corrections to submitted Protective Custody**	Protective Custody	Protective Custody (PC) Data Corrections	Data Integrity and Improved User Experience	The request is to add the ability to make corrections to the Protective Custody forms after they have been submitted.	After any of the Protective Custody forms have been submitted, they can no longer be edited in ACIS. So, if a mistake was made then the only workaround is to create an Incident Report (IR) and upload the physical form with the corrections into the system. However, it's then easy for users to not see the uploaded forms and the incorrect data is still in ACIS on the Protective Custody screens.	42702
14	Stacey Crabtree	**Enforcer: Visitor PAN**	Interfaces	Visitor Personal Allowed Numbers (PAN)	Workflow Improvement	When a visitor profile is active in ACIS, it should be active in Enforcer and vice versa. This is not happening right now in Enforcer. Also, all of the Visitor Personal Allowed Numbers (PAN) within Enforcer should become inactive when an inmate is released and this is also not currently occurring.	The workaround is to manually make the changes in Enforcer so the field needs to submit a Service Desk ticket when they are made aware of the issue. This workflow is both time consuming and staff intensive and should be automated.	35680 41403 42019
15	Vanessa Headstream	**Medical Quality of Care**	Interfaces	eOMIS Updates	Data Integrity and Improved User Experience	Implement the following on the Medical/Mental Health screens and eOMIS interface: 1.) Update the eOMIS interface to receive quantiferon gold from eOMIS and display the results on the Medical screen in ACIS. 2.) Display mental health scores for inmates returning to custody that previously have had the same mental health score. Currently ACIS only displays the mental health score of a returning inmate if their mental health score has changed. 3.) Display medical holds on the inmate holds screen. Currently the medical holds are only displayed on the medical screen so users have to look in two separate places for inmate holds.	First, including quantiferon gold in ACIS will allow staff to see the results in ACIS rather than only in eOMIS, which not all staff have access to. Second, displaying mental health scores of returning inmates when their score has not changed will help to avoid confusion and manual entries having to be made for these inmates on the mental health screens. Finally, displaying medical holds on the inmate holds screen will make it easier for staff to see which holds an inmate currently has rather than having to look in two separate places for this information.	43534
16	Gergana Kovatcheva	**1099**	Intake	Reports	Workflow Improvement	Provide SSN field for inmates from ACIS to KeepTrak.	The IRS is requiring that ADCRR provides the SSN of inmates earning more than $600. Currently, the SSN is not sent to KeepTrak where the report would be generated from. ADCRR has already paid several hundred thousand dollars to the IRS because of this	43330

- **NO JAR SESSIONS ALLOWED TO BE SCHEDULED**
  - Expectation is that there is a better understanding of what it will take to estimate more accurately moving forward based on the previous 20 EUILs
  - Analyze original estimates versus final estimates to see what lessons can be learned and put into practice moving forward
  - Where is work similar (Change a field name) and similar estimates could be used without JAR sessions
  - B&D to produce estimates for 4th Quarter items and that is all at this point

3: Low Hanging Fruit

CR	Module Name	Title of Change Request	Estimated Effort (Days)	Hours
40748	Count	COUNT- Inmates leaving PHX Complex to Prisons around the state were scheduled through the Transportation Module.	30	240
42624	Discipline	Disciplinary- Admin need to ability to add and or de-activate disciplinary charges within ACIS. Currently this admin is unable and when I requested help from B&D I was advised to enter a bug.	30	240
42866	Count	BUG: For the PRT-500 Count Sheet to utilize more of the paper it's printed on. The aims1 count sheet displayed twice as many. EXPECTED RESULTS: To be able to add more inmates per sheet of paper like AIMS1. Whether it's the PRT 500 or count sheets printed through the count module.	15	120
42723	Intake	Inmate Search: Include a filter for Inmate Status and Gender	15	120
42693	Programs	Auto-populate Quality Review screen with as much information as possible	15	120
31001	Programs	UC-PR-3.06: Unable to enter number with decimals for Hours Completed on Manage Participation screen	15	120
36603	Programs	UC-PR-2.60: Priority Ranking Report should not appear for WIPP / Work	15	120
42699	Intake	Fingerprint Date should display the most recent admission date	15	120
39610	Interfaces-Medical	UC-PR-2.40: COIII / COIV roles unable to access Medical and Mental Health screen (POA section only)	15	120
39679	Interfaces-Medical	Centurion: SMI-C should not be a field that can be manually entered by anyone except for an Admin.	15	120
39886	Interfaces-Medical	Centurion: The mental health tab should not be accessible by everyone	15	120
40864	Interfaces-Medical	Medical Notes should only be visible to medical and mental health staff	15	120
39726	Programs	Exemptions should delete upon return to custody	15	120
42865	Discipline	Disciplinary-Rule Violation Summary page- violation code provides the description of the violation.	15	120
42928	Discipline	Make hearing date/time required fields for a Minor Disciplinary Violation	15	120
39730	Grievances	UC-GR-05: Formal Grievance Response limited to 255 characters	15	120
39731	Grievances	UC-GR-02: Appeal Grievance Response limited to 255 characters	15	120
40794	Intake	Medical shows as completed on the Intake Dashboard for PVT's	15	120
42630	Programs	WIPP: In assignment history, the user can't tell which cycle the inmate is/was assigned to	15	120
42692	Programs	Increase character limit for Quality Review questions	15	120
42996	RMS	MVD tab should be displayed even if the inmate is not eligible	15	120

Hi Dean -

This is a follow-up from last week. I can certainly try to push to 4pm today.

4	4/14/2020	42177 Entered as a Change Request by ADC (Spencer Scott)	
5	10/8/2020	ADC sends Excel File with Parking Lot List 42176 list in backlog (Elizabeth)	
6	10/15/2020	ADC sends Excel File with Q4 ACIS Requests, 42176 and 42177 are combined (Elizabeth)	New calculation requirements in legislation for Truth-in-Sentencing that allows inmates who meet set criteria to earn time-served credit at a faster rate. In July, 2019, legislation was passed that added a whole new calculation to Truth-In-Sentencing inmates. There is no system workaround to account for these inmates and the time comp unit is having to rely on ad hoc reports to catch all of these inmates. Both of these programs are monitored closely by the community.
7	10/15/2020	Trevor email to Charles that he would need a 2 hour session to define the scope of 42176 & 42177	
8	10/15/2020	Charles Indicated that Holly will not authorize any Requirement session for Q4 EUIL	
9	10/15/2020	Thad has 42176 and 42177 added to EUIL Project in Xpert	
10	10/23/2020	Janet Emails Trevor asking if 42176 and 42177 will be combined or separate	
11	10/23/2020	Elizabeth Emails Trevor asking "Do you want to combine CRs 42176 and 42177 into one ticket number or how do you want to handle it? In the end it should be one estimate from B&D but do you want separate requirements documents from us or should we put them into one document?"	
12	10/23/2020	Trevor Email to Elizabeth/Janet/Al/Spencer recommending we combine them. (At the time, I didn't know the difference between the two)	
13	10/23/2020	Email from Spencer Jey and Herb recommended to keep the CRs separate.	In our discussion today with Jey and Herb, they are recommending that we keep these two separated. I'm not an expert in Sentence Calc, but they were convinced we should not combine them. If BND still feels we should combine these two work efforts, we can have a discussion to determine the best path forward.
14	10/23/2020	Email from Trevor to Elizabeth/Spencer/Janet/Al that I agree with Herb and Brittany.	I trust that Brittany / Herb know more than I do and no issues on my end if they are separate.
15	11/5/2020	42176 Tagged as 4Q2020 Parking Lot	
16	11/19/2020	Eli confirms that 42176 is being worked on by ADC.	Requirements Doc Completed? "No - This will take some time to complete because it's very complicated."
17	11/23/2020	Janet sends Trevor a copy of Drug Transition Program FSD that ADC created using Standard Transition Program FSD	(no context here, don't know why they did this)
18	12/4/2020	Elizabeth/Janet send me the ADC Requirements document for 42177	
19	12/7/2020	Email from Janet that ADC requesting to do 42177 first	Hello Trevor: Based on our last discussion of both SB's 42176 and 42177, (and the decision being made to do 42177 first), when do you propose me setting up a 1st review with you and my team for SB42176? As before, I would let you drive it to extract your information; we would be using an updated FSD, etc.
20	12/7/2020	Trevor Email to Janet no date yet, will follow up when estimate is submitted for 42177	
21	12/15/2020	B&D started estimate process for 42177	
22	12/17/2020	Email from Spencer asking for status, 42176 is tagged as "Need Jar Session" & "We would like to start JAR sessions the week after Christmas for CR42176. We need B&D's BA availability to select days that will work for all stakeholders."	I'm not sure how this information was given to ADC - Seems like Trevor wasn't copied on an email since there is a gap.
23	12/18/2020	Trevor emails Joe "42176 - Have not estimated, not received an ADC requirements interview. Do we need a JAR session to define requirements?	
24	12/18/2020	42177 estimate sent to ADC	
25	12/29/2020	Spencer Emails B&D - Same message as 12/17	42176 is tagged as "Need Jar Session" & "We would like to start JAR sessions the week after Christmas for CR42176. We need B&D's BA availability to select days that will work for all stakeholders."
26	12/31/2020	Elizabeth has a status that 42176 "JAR sessions need to be set up. An email was sent to Trevor requesting B&D's availability next week."	Trevor not sure what email is being referenced or if he has one.
27	1/5/2021	Spencer emails Joe "We have not received any feedback from this request. I was also asked to express our	(at this point ADC still has not provided a

AMERICAN OVERSIGHT

		need for scheduling JAR sessions to begin ASAP for CR42176."	requirements document or approved an estimate)
28	1/5/2021	Joe replies to Spencer we are working on estimates and will have update tomorrow	
29	1/5/2021	Joe emails spencer specifically about 42176 asking if we need a session to define the requirements	
30	1/5/2021	Spencer emails Joe 42176 requires all new FSDS, there will be many JAR session.	
31	1/5/2021	Trevor emails Joe "I've never received an ADC requirements document. We haven't estimated it yet, so we can't have Jar sessions yet. Maybe he means 42177"	
32	1/5/2021	Joe emails spencer "We have not received a requirements document on CR42176, do you mean 42177?"	
33	1/5/2021	Spencer emails Joe "Please work with Cindy and Trevor. They are best aware of its status."	
34	1/5/2021	Joe loops Trevor into email thread to respond to ADC	
35	1/5/2021	Trevor emails Spencer and ADC "I reviewed my emails and see that 42176 and 42177 should be treated as separate change requests. (They were originally grouped together). I received an ADC requirements interview document for 42177 and we estimated it. I don't have any record of a requirements interview for 42176 and we have not estimated it. "	
36	1/6/2021	Joe emails Spencer "42176 Email on 1/5/21 to Spencer detailed that we have not received requirements and therefore unable to estimate."	
37	1/6/2021	Spencer emails Joe "Thanks for the status update below on those Awaiting Estimates. There appears to be some confusion regarding how to address 42176. When we began this round, it was decided that we would get the estimate for 42177 prior to starting with 42176. For 42176, an entire new FSD will need to be written. The Interview Sheets are in place for modifications to existing FSDs, but are inadequate for such an undertaking as will be required in 42176. We will need B&D to host requirements gathering sessions with our SMEs in order to develop the requirements and ultimately for B&D to author the FSDs for acceptance, prior to the estimate phase. If we aren't on the same page, I think it would be helpful to pull in my leadership to have a meeting to discuss next steps."	
38	1/8/2021	Joe emails Spencer "On 42176 you are requesting B&D to host requirements gathering sessions with your SMEs in order to develop the requirements and ultimately for B&D to author the FSDs (we already do this) for acceptance, prior to the estimate phase. Having us take the lead on gathering information and developing the requirements for an estimate is outside the normal process where you have gathered the appropriate information and provided us the requirements for estimating these requests. The FSD's are always prepared by us. If you want us to proceed with this approach we can do so; however, it is important to note that you will be charged the necessary hours required for these information gathering sessions and development of requirements work, even if you decide not to move forward with the project."	
39	1/11/2021	Spencer emails Joe "I spoke at length with Brittany and Janet about this situation. We'd like to propose the following: Using the Senate Bill 1310 Policy, Brittany will copy/paste data into the Interview Sheet by end of this week. Once your team reviews our submission, you can advise if this will be sufficient for B&D to supply the estimate. Would it be helpful to have the full Statute and Policy included? "	
40	1/11/2021	Joe emails Spencer "I am not sure our review of the Senate Bill 1310 Policy alone would be sufficient to provide an estimate. Obviously your review of the policy in conjunction with your determination of what functions should be implemented for ADC to be compliant would be best. Again, having the full stature and policy may not be sufficient. We may be back at same conclusion as mentioned in my email that this would require hours for information gathering and developing the requirements. I will visit with our team and provide a response asap."	
41	1/13/2021	Joe to Spencer "This approach would still require us to charge the necessary hours required for these information gathering sessions and development of requirements work, even if you decide not to move forward with the project. Let me know if you wish to proceed under these conditions?"	
42	1/13/2021	Spencer to Joe "I'm going to ask that you look at the completed interview sheets (once they've been submitted), prior to making that determination. I am being told the policy should be enough to answer the interview questions that would be required to generate an estimate the normal way."	
43	1/20/2021	Elizabeth emails Joe that Spencer and Janet are working on CR 42176 Requirements	
44	1/21/2021	Sandy Acknowledges that ADC is working on 42176 requirements	
45	1/26/2021	Elizabeth sends the requirements for B&D to provide an estimate	
46	2/3/2021	Janet emails Trevor - Just giving you a heads up; there may be an addendum of a slight additional detail added to CR42177. We are speaking with Brittany now; I will follow up with you as soon as I know more. Janet	
47	2/8/2021	Eli asks for status on CRs waiting for estimates (42176 is included)

I also wanted to follow up on the status of the 4th quarter EUILs and Enforcer list of CRs. We were told that we would have them on 10/9/2020. Again, the goal of the M&O Discussion with Deputy Director Profiri was to move quickly and identify work to keep B&D fully staffed. Please send the 4th Quarter EUILs and CRs and Eli and I will schedule a review of the "low hanging fruit" asap.

AMERICAN OVERSIGHT

Area of Concentration or Related Process	Functional Impact (What do we gain?)	Brief Description and Goal Being Requested
Sentence Structure and Transition	Calculations Enhancements	New calculation requirements in legislation for Truth-in-Sentencing that allows inmates who meet set criteria to earn time-served credit at a faster rate.
Inmate Housing	Workflow Improvement	Display the locator code and pending movements of inmates on the Do Not House With screen, and enable the ability to screen for Do Not House With at associated locator codes.
Forms	Workflow Improvement	Allow all letterheads, footers, forms, logos, signatures, and footers to be configurable by ADCRR.
Transportation and Movement Queue	Workflow Improvement	Add an ADC# search and filter to the Transportation Queue and Travel Orders screens. Additionally, after an inmate is moved through the Transportation Queue, they should display on the 'out count' of the receiving prison.
Steps & Inmate Privileges	Workflow Improvement	Allow the ability to do step reviews for inmates in mental health units and facility overrides at max units.
Gang Search	Data Integrity	When a Criminal Street Gang (CSG) is changed to a Security Threat Group (STG), all inmates tagged as the former CSG should remain tagged but now as an STG.
Warrants	Workflow Improvement	Users are unable to modify the Fugitive Services Unit (FSU) Review screen on a warrant that's not in FSU Review status. The FSU Review screen should be able to be modified regardless of warrant status.

AMERICAN OVERSIGHT

Legal Documents	Data Integrity	The "Current Release Status" and "Release Type" fields are not correct on the first page of a printed warrant.
Home Plans	Workflow Improvement	Implement the following for new Release Unit processes to be added in ACIS: 1) All homeless home plans need to have the homeless toggle in the home plan selected. When the homeless toggle is active, the homeless home plan needs to automatically route to the "Release Unit" CC Office. 2) TR to ADD and ADD release types do not need a Home Plan; Home Plan column on Release Dashboard should not reflect a "pending" status. 3) When release type is TR to ADD or ADD, TR to ADD cannot be denied for homeless. 4) Release Unit role/workflow needs to be added to existing homeless home plan approval
Inmate Pay, KeepTrak	Workflow Improvement	Unable to enter number with decimals for hours completed on Manage Participation screen. Requesting ability to pay in partial hour increments.
Process efficiency	Improved User Experience	Add a new column on the Victim Search screen called "Type of Victim" so that staff can quickly and easily see which type of victim they are viewing (i.e: true victim, judge, county attorney, arresting agency, courtesy notice, etc.) without having to click into each profile.
Loss-of-Privileges (LOP) Start/Stop	Workflow Improvement	When an inmate receives an LOP sanction, his Status should remain Active and his Class of Service (COS) should change to "nocall". When LOP expires in ACIS, it should change the COS in Enforcer from "nocall" to current COS.
Phase Level, KeepTrak, Enforcer, Visitation, Property, Work Assignments and Recreation.	Workflow Improvement	When a phase (step) in Close Management is changed, it should be reflected in the Banner, Count Sheet, and EIP Summary.

AMERICAN OVERSIGHT

Protective Custody (PC) Data Corrections	Data Integrity and Improved User Experience	The request is to add the ability to make corrections to the Protective Custody forms after they have been submitted.
Visitor Personal Allowed Numbers (PAN)	Workflow Improvement	When a visitor profile is active in ACIS, it should be active in Enforcer and vice versa. This is not happening right now in Enforcer. Also, all of the Visitor Personal Allowed Numbers (PAN) within Enforcer should become inactive when an inmate is released and this is also not currently occurring.
eOMIS Updates	Data Integrity and Improved User Experience	Implement the following on the Medical/Mental Health screens and eOMIS interface: 1.) Update the eOMIS interface to receive quantiferon gold from eOMIS and display the results on the Medical screen in ACIS. 2.) Display mental health scores for inmates returning to custody that previously have had the same mental health score. Currently ACIS only displays the mental health score of a returning inmate if their mental health score has changed. 3.) Display medical holds on the inmate holds screen. Currently the medical holds are only displayed on the medical screen so users have to look in two separate places for inmate holds.
Reports	Workflow Improvement	Provide SSN field for inmates from ACIS to KeepTrak.

AMERICAN OVERSIGHT

Justification	CR/ TFS #
In July, 2019, legislation was passed that added a whole new calculation to Truth-In-Sentencing inmates. There is no system workaround to account for these inmates and the time comp unit is having to rely on ad hoc reports to catch all of these inmates. Both of these programs are monitored closely by the community.	42176 42177
There is currently a staff-intensive workaround that involves looking up each of the inmates on the 'Do Not House With' list and verifying their locator code. In addition, the current tool in ACIS does not identify a conflict between those units which could result in inmates being placed at risk.	43532
The headers and footers of letters and forms generated in ACIS are not currently configurable by ADCRR. We need the ability to update these on our own, because the information needs to be updated when there's a change to the director, governor, administrators, phone numbers, or agency name change.	43511
Staff have to search through an average of 500+ inmates in the Transportation Queue to find a single inmate to move. The addition of an ADC# search will shorten the number of steps the staff need to perform in order to find a single inmate on the Transportation Queue. The next part of the problem is that once an inmate is moved using this same Transportation Queue, they are in "en-route" status; this means the inmate is not showing up on either the sending or receiving prison's 'out count'. This results in inmates not being accounted for in a timely manner.	41171 40748
Inmates receiving mental health treatment in max custody are not able to participate in the Step Program; this results in inmates not receiving the appropriate privileges.	37366
Criminal Street Gangs (CSG) can be certified as Security Threat Groups (STG) by the Director. When this is done, there is no way to identify those inmates associated to those gangs in the Gang Intelligence Search; we lose the data of the tags when the gang changed over from a CSG to an STG. This change request will display those inmates who were in a CSG but were recertified as an STG.	42463
This will eliminate the need for multiple users' involvement in order to facilitate the completion of the FSU Review screen. Current workaround involves three staff members to process their portion of a warrant, as opposed to one staff member being able to process a warrant in the legacy system.	40685

AMERICAN OVERSIGHT

The printed warrant is a legal document which is reviewed by the Board of Executive Clemency (BOEC), lawyers, judges and other law enforcement agencies. This would eliminate the workaround of having to make written changes to the document, which results in additional process steps.	41273
Release Unit roles/processes were not part of the initial ACIS implementation. This request will add those roles/processes to ACIS, which will result in more efficient release and home plan workflows	43533
Without the ability to pay inmates in partial hours, inmate's time is being rounded up. This results in the overpayment to inmates. Additionally, when the inmate works for an IGA, ADCRR is reimbursed only at the actual hours worked, resulting in a significant increase in WIPP funds being paid for work not performed.	31001
It's time consuming for the victim services staff to click into the profile of each victim to verify their type. During phone calls with victims, staff need to be able to quickly look up the victim's information and see right away what type of victim they are before giving out any information because not all types of victims are entitled to the same information.	35571
This manual workaround is labor-intensive; it requires the Disciplinary Coordinators to keep track when an inmate's Loss-of-Privileges expires and make adjustments in Enforcer and KeepTrak.	41272 41276 42018 42020
Changes in phase levels affects numerous privileges the inmate receives, such as the number of calls he can make per day, visitation, property, work assignments and recreation.	32023 41275 41279 42438

AMERICAN OVERSIGHT

After any of the Protective Custody forms have been submitted, they can no longer be edited in ACIS. So, if a mistake was made then the only workaround is to create an Incident Report (IR) and upload the physical form with the corrections into the system. However, it's then easy for users to not see the uploaded forms and the incorrect data is still in ACIS on the Protective Custody screens.	42702
The workaround is to manually make the changes in Enforcer so the field needs to submit a Service Desk ticket when they are made aware of the issue. This workflow is both time consuming and staff intensive and should be automated.	35680 41403 42019
First, including quantiferon gold in ACIS will allow staff to see the results in ACIS rather than only in eOMIS, which not all staff have access to. Second, displaying mental health scores of returning inmates when their score has not changed will help to avoid confusion and manual entries having to be made for these inmates on the mental health screens. Finally, displaying medical holds on the inmate holds screen will make it easier for staff to see which holds an inmate currently has rather than having to look in two separate places for this information.	43534
The IRS is requiring that ADCRR provides the SSN of inmates earning more than $600. Currently, the SSN is not sent to KeepTrak where the report would be generated from. ADCRR has already paid several hundred thousand dollars to the IRS because of this	43330

Total records : 128

	Module	RequestID	Subject	Request Status	Technician	Priority
Brian Makris						
	Sentence Calc	411	Sentence Calc - Transition Release Date miscalculating on mixed ruling sentence	Assigned	Justin Baker	4-Low
	Classification	664	Classification - Inmate came to Max Custody in June of 2019. 6 month review was conducted in January of 2020. Next reclass should not be triggering until January/February of 2021.	Assigned	Justin Baker	4-Low
	Classification	800	Classification - Two Unit Admin review recommendations are being completed.	Assigned	Justin Baker	3-Medium
	Classification	944	Classification - Juvenile conviction not counting for most serious prior/other conviction. This bug was resolved on 12/03/2020 and appears to be broken again	Assigned	Justin Baker	3-Medium
	Interfaces	1018	Interfaces eOMIS - Inmates [redacted] medical score is in eOMIS and will not transfer over to ACIS	Assigned	Justin Baker	3-Medium

AMERICAN OVERSIGHT

	Module	RequestID	Subject	Request Status	Technician	Priority
	Classification	642	Classification - Inmate [redacted] received an o/r and appears on the 1630 report but the o/r does not appear correctly in the classification history CU Override Column.	Pending Deployment	Justin Baker	4-Low
	Population Mgmt Cell Screening	1024	Population Mgmt Cell Screening - [redacted] and [redacted] have both been verified to be group 3 violent inmates,	Pending Deployment	Justin Baker	3-Medium
	Population Mgmt Protective Custody	1029	Population Mgmt Protective Custody - I/M [redacted] - PC review is corrupted and staff are unable to complete the informal review. When staff attempt to complete the review, it gives an error	Pending Deployment	Justin Baker	3-Medium
	Visitation	1068	Visitation - I/M [redacted] #[redacted] On the registration screen it shows that the minors need to be attached to an adult. but the minors are already attached	Pending Deployment	Justin Baker	3-Medium
	Interfaces	1069	Global Action Queue - shows a visitor applicant pending ACJIS	Pending Deployment	Justin Baker	3-Medium

Count 10

Charles Grant Grant

	EIP	474	EIP - Inmate [redacted] is a max custody inmate not offered education please review his phase appears he should be a 3	Assigned	Justin Baker	4-Low
	Classification	763	Classification - Please remove inmate from deputy warden queue	Assigned	Justin Baker	4-Low
	Classification	782	Classification - Triggered for reclass and it would appear that his most serious prior disappeared, dropping his score by 11 points. I believe was a juvenile offense	Assigned	Justin Baker	4-Low
	Discipline	786	Multiple Modules - 20 forfeitures were assessed by DHO, however those sanctions were suspended for 30 days	Assigned	Justin Baker	3-Medium
	Population Mgmt Cell Screening	787	Population Mgmt Cell Screening - Cell management shows a conflict but all green bars.	Assigned	Hagay Hazan	4-Low
	Grievance	963	Grievance - Grievance 20-024799 for inmate [redacted] Grievance is displaying pop up "The Grievance is closed because the Due Date has been exceeded"	Assigned	Justin Baker	4-Low
	Grievance	964	Grievance - Grievance 20-024234 is stuck at informal submitted, unable to proceed to informal response or further. Receiving popup box "The Grievance is closed because the Due Date has been exceeded."	Assigned	Justin Baker	4-Low
	Warrants	965	Warrants - Addresses for approved warrants are having their related last known address marked inactive on the CC_OMS_OFFENDER_ADDRESS_INFO page seemingly at random.	Assigned	Justin Baker	3-Medium

AMERICAN OVERSIGHT

	Module	RequestID	Subject	Request Status	Technician	Priority
	Grievance	983	Grievance - This is a true bug. AQ trigger reason for Grievance Appeal returned to Grievance Coordinator due to Data Entry Error is not correct.	Assigned	Justin Baker	3-Medium
	Warrants	997	Warrants - Unable to print a warrant using the generate warrant button on the warrant detail screen for ADC [redacted]	Assigned	Justin Baker	4-Low
	Classification	781	Classification - Inmate [redacted] has 2 probation felony convictions. This is not being reflected in the prior criminal history calculations.	Pending Deployment	Justin Baker	4-Low
	Grievance	961	Grievance - I am unable to find Grievance Case #20-024902 for inmate [redacted] Eyman SMU I, A70 in ACIS-Grievances.	Pending Deployment	Justin Baker	4-Low
	Grievance	968	Grievance - Description: Inmate was assigned a number for a grievance but now it cannot be located in ACIS	Pending Deployment	Justin Baker	4-Low
	Document Image Mgmt	952	Document Image Mgmt - I can't upload a PC document. tried three times. With inmate in context: [redacted]	Pending Information	Justin Baker	4-Low
	Document Image Mgmt	954	Document Image Mgmt - When I scan a document to myself, then pull it from my email and put it in a folder, when it is uploaded in documents in ACIS, it just uploads the folder not the document.	Pending Information	Justin Baker	4-Low
	Warrants	723	Reports - ADC RPT 3430 has no apparent rules on how it default sorts the results	Reconsider	Hagay Hazan	4-Low
	Warrants	743	Warrants - When a user clicks the "delete warrant" button on a warrant in the Warrant saved status, it appropriately cancels the warrant, but it is not making a Warrant Log Entry on he FSU review page time stamping the action.	Reconsider	Justin Baker	3-Medium
	Visitation	784	Visitation - For the past week the Visitation Action Queue Results screen shows 4 overdue under the Deputy Warden Role. However, when the Go icon is pressed, these names do not appear	Reconsider	Hagay Hazan	3-Medium
	Discipline	813	Discipline - DISCIPLINARY CASE WAS SENT TO DIRR FOR DIRECTORS REVIEW ON 2ND APPEAL. DIRECTOR ENTERED UPHOLD BY MISTAKE AND NEEDS THIS CASE TO BE RE-SET TO DIRR AGAIN TO DISMISS THE CASE.	Reconsider	Justin Baker	4-Low
	Discipline	953	Discipline - I try to schedule the hearing it takes several minute	Reconsider	Justin Baker	4-Low
	Discipline	957	Discipline - 12/10/2020 between 14:35-15:00 and 12/9/2020 at approximately the same times, whenever I try to schedule the hearing it takes several minutes then I get an "Error 524".	Reconsider	Justin Baker	3-Medium

AMERICAN OVERSIGHT

	Module	RequestID	Subject	Request Status	Technician	Priority
	Sentence Calc	1021	Sentence Calc - When an absconder warrant is submitted to supervisor for approval the abscond days immediately are applied to the sentence worksheet prior to warrant being issued.	Reconsider	Justin Baker	3-Medium

Count 22

Chris Nelson

	Population Mgmt Count	558	Population Mgmt Count - Inmate number appears in count sheet and system, but not name	Assigned	Hagay Hazan	3-Medium
	Classification	718	Classification - When a Classification is finalized from the Max Placement Forms, the Classification Admin Decision from the Max Forms translates over to the Reclass screen with a label of "Cental Office Administrator Override"	Assigned	Justin Baker	3-Medium
	Population Mgmt Count	749	Population Mgmg Count -	Assigned	Hagay Hazan	3-Medium
	Sentence Calc	798	Sentence Calc - ACIS is applying the CST (community supervision time) to the SED instead of the CSBD from the ruling sentence (B1)	Assigned	Justin Baker	3-Medium
	Sentence Calc	840	Sentence Calc - Transition earlier than base ERCD	Assigned	Justin Baker	3-Medium
	Reports	887	Reports -	Assigned	Justin Baker	3-Medium
	EIP	949	EIP - Inmate's phase did not drop after major discipline.	Assigned	Justin Baker	3-Medium
	Classification	988	Classification -	Assigned	Justin Baker	3-Medium
	Global Case Notes	1014	Global Case Notes - Strange Case Note appears to have migrated from AIMS	Assigned	Justin Baker	4-Low
	Other	1080	IHP - Trigger will not clear from DQ queue	Assigned	Justin Baker	3-Medium
	Reports	389	Reports - Report inconsistencies	Pending Information	Not Assigned	3-Medium
	Other	629	Multiple Modules - Information input into ACIS appears to not be saved in system	Pending Information	Justin Baker	3-Medium
	Visitation	708	Visitation - Unable to process visitor application for a returned inmate	Pending Information	Justin Baker	3-Medium
	Reports	630	Reports - Report 2110 missing information needed	Reconsider	Hagay Hazan	3-Medium
	Visitation	677	Visitation - Long load times on visitation pages	Reconsider	Hagay Hazan	3-Medium
	Global Events	693	Global Events - Unable to initiate a new PC review	Reconsider	Hagay Hazan	3-Medium
	Community Corrections RMS	729	Community Correctios RMS - when trying to update Mode of transportation it will not allow us to do it.	Reconsider	Hagay Hazan	3-Medium

Subject: RE: 42176:SB1310 - Earned Release Credit Date Drug Offenses Release (DPR) Estimate Discussion

Ok – we have our marching orders

Produce estimate with what we have (unless we discover that something is missing)

My take on this is that this should be our #1 priority – we need to get this out as soon as possible

Also we will need to let Joe know when we expect to have our estimate ready for the estimate review committee

How's this for a schedule – Let me know

- This morning – review requirements given – identify any deficiencies
- Barring any deficiencies
    - This afternoon – discuss the requirements and develop a strategy
    - Tomorrow morning – put together estimates for each component
    - Tomorrow afternoon – review the estimates as a team and make sure they are ready for the estimate review committee
- If there are deficiencies in the requirements
    - This afternoon write up as a exhaustive list of questions as we can
    - Tomorrow morning contact ADC and try to get answers to the questions
    - Tomorrow afternoon – discuss the requirements and develop a strategy
    - Friday morning – put together estimates for each component
    - Friday afternoon – review the estimates as a team and make sure they are ready for the estimate review committee

Your thoughts

Thad

Here is how we will proceed.

Follow the exact same process as we do for all CR's:

AMERICAN OVERSIGHT

Elicit enough requirements to create an estimate.

Review the estimate for my approval

Share estimate with ADCRR

Await ADCRR approval to commence work.

Run a JAR session to create a full specification.

Have ADCRR approve the specification before development commences.

Thanks

Dean

Notes

Currently have Requirements document from ADC

> <<CR#42176 - SB1310 - Earned Release Credit Date Drug Offenses Release (DPR).pdf>>

Track record with Sentence Calc is that what we have done with estimates has not been good for either party

The team discussed 5 approaches / Options for moving forward

The team is recommending a modified approach

- Option 5
- Followed by preferably Option 4
- And if not Option 4 then option 3

Based on your feedback the team will reconvene and proceed accordingly

Option 1 - Proceed with the requirements that we have

- Expected outcome:
  - Track record is that this is a shot in the dark
  - Expect to result in Low confidence estimate
  - Expect to find out requirements for many things that we didn't consider which we will then need to make the case that they are out of scope, but without an FSD this sometimes proves difficult
  - There is a high probability that this estimate is off either high or low

Option 2 - insist on JAR session(s)

- Expected Outcome:
  - Will result in a better understanding
  - Confidence is better but not optimal
  - Still will not identify all of the exceptions and even possibly not all of the use cases

AMERICAN OVERSIGHT

- Nothing is written to fall back on
- Scope is not nailed down yet
- Expect to result in a medium or low confidence estimate

Option 3 - Insist on complete FSD

- Expected Outcome:
  - Track record is that they will still identify things that weren't discussed that will need to be dealt with in a subsequent Change request
  - Expect to result in a medium confidence estimate

Option 4 - Take an agile approach

- Expected outcome:
  - Have ADC identify stories that we incorporate into sprints
  - Don't know the complete scope or costs until all of the iterations are complete

Option 5 - recommend interim solution

- Make sure there is a report that identifies the affected inmates
- Modify the manual lock capability to allow for unknown manual release dates which will allow for ADC to deal with this manually and maybe other things that come up that we don't know about today
- Follow this by automating the Earned Release Credit solution

Created with OneNote.

> Hi Joe,

AMERICAN OVERSIGHT

Here are the questions from the team on CR 42176 to send to ADC.

If possible we'd like to have a session with herb an Brittany if these questions lead to more questions and clarifications.

Req Letter	Questions
A.	Are there any exceptions that apply?
A.	Is this completely separate from TIS?
E.	What conditions are signed? Is this 42177? Do both CRs need to be completed?
F.	What does the 85.7% mean? More clarification
F.	Do the TIS guidelines for exceptions apply or not?
F.	Where in RMS, which screens?
G.	Information on the VSED? What do you mean may be eligible?
H.	Are we missing a requirement or document error?
K.	Are we still going to display the release types or not? What does "hold" mean?
L.	Does the CST still calculates as regular TIS rules?
L.	CSED is referring to the DPR CSED or the original?
L.	What happens to the new release dates in mixed ruling case?
L.	Do these only apply to ruling sentences? or any sentence in the chain?

Thank you,

Trevor Baker

Subject: RE: 42176:SB1310 - Earned Release Credit Date Drug Offenses Release (DPR) Estimate Discussion

Ok – we have our marching orders

Produce estimate with what we have (unless we discover that something is missing)

My take on this is that this should be our #1 priority – we need to get this out as soon as possible

Also we will need to let Joe know when we expect to have our estimate ready for the estimate review committee

How's this for a schedule – Let me know

- This morning – review requirements given – identify any deficiencies
- Barring any deficiencies
    - This afternoon – discuss the requirements and develop a strategy
    - Tomorrow morning – put together estimates for each component
    - Tomorrow afternoon – review the estimates as a team and make sure they are ready for the estimate review committee
- If there are deficiencies in the requirements

AMERICAN OVERSIGHT

- This afternoon write up as a exhaustive list of questions as we can
- Tomorrow morning contact ADC and try to get answers to the questions
- Tomorrow afternoon – discuss the requirements and develop a strategy
- Friday morning – put together estimates for each component
- Friday afternoon – review the estimates as a team and make sure they are ready for the estimate review committee

Your thoughts

Thad

Notes

Currently have Requirements document from ADC

> <<CR#42176 - SB1310 - Earned Release Credit Date Drug Offenses Release (DPR).pdf>>

Track record with Sentence Calc is that what we have done with estimates has not been good for either party

The team discussed 5 approaches / Options for moving forward

The team is recommending a modified approach

- Option 5
- Followed by preferably Option 4
- And if not Option 4 then option 3

AMERICAN OVERSIGHT

Based on your feedback the team will reconvene and proceed accordingly

Option 1 - Proceed with the requirements that we have

- Expected outcome:
    - Track record is that this is a shot in the dark
    - Expect to result in Low confidence estimate
    - Expect to find out requirements for many things that we didn't consider which we will then need to make the case that they are out of scope, but without an FSD this sometimes proves difficult
    - There is a high probability that this estimate is off either high or low

Option 2 - insist on JAR session(s)

- Expected Outcome:
    - Will result in a better understanding
    - Confidence is better but not optimal
    - Still will not identify all of the exceptions and even possibly not all of the use cases
    - Nothing is written to fall back on
    - Scope is not nailed down yet
    - Expect to result in a medium or low confidence estimate

Option 3 - Insist on complete FSD

- Expected Outcome:
    - Track record is that they will still identify things that weren't discussed that will need to be dealt with in a subsequent Change request
    - Expect to result in a medium confidence estimate

Option 4 - Take an agile approach

- Expected outcome:
    - Have ADC identify stories that we incorporate into sprints
    - Don't know the complete scope or costs until all of the iterations are complete

Option 5 - recommend interim solution

AMERICAN OVERSIGHT

- Make sure there is a report that identifies the affected inmates
- Modify the manual lock capability to allow for unknown manual release dates which will allow for ADC to deal with this manually and maybe other things that come up that we don't know about today
- Follow this by automating the Earned Release Credit solution

Created with OneNote.

Subject: RE: 42176:SB1310 - Earned Release Credit Date Drug Offenses Release (DPR) Estimate Discussion

Hi Joe,

Here are the questions from the team on CR 42176 to send to ADC.
If possible we'd like to have a session with herb an Brittany if these questions lead to more questions and clarifications.

Req Letter	Questions
A.	Are there any exceptions that apply?
A.	Is this completely separate from TIS?
E.	What conditions are signed? Is this 42177? Do both CRs need to be completed?
F.	What does the 85.7% mean? More clarification
F.	Do the TIS guidelines for exceptions apply or not?
F.	Where in RMS, which screens?
G.	Information on the VSED? What do you mean may be eligible?
H.	Are we missing a requirement or document error?
K.	Are we still going to display the release types or not? What does "hold" mean?
L.	Does the CST still calculates as regular TIS rules?
L.	CSED is referring to the DPR CSED or the original?
L.	What happens to the new release dates in mixed ruling case?
L.	Do these only apply to ruling sentences? or any sentence in the chain?

Notes

Currently have Requirements document from ADC

<<CR#42176 - SB1310 - Earned Release Credit Date Drug Offenses Release (DPR).pdf>>

Track record with Sentence Calc is that what we have done with estimates has not been good for either party

The team discussed 5 approaches / Options for moving forward

The team is recommending a modified approach

- Option 5
- Followed by preferably Option 4
- And if not Option 4 then option 3

Based on your feedback the team will reconvene and proceed accordingly

Option 1 - Proceed with the requirements that we have

- Expected outcome:
  - Track record is that this is a shot in the dark
  - Expect to result in Low confidence estimate
  - Expect to find out requirements for many things that we didn't consider which we will then need to make the case that they are out of scope, but without an FSD this sometimes proves difficult
  - There is a high probability that this estimate is off either high or low

Option 2 - insist on JAR session(s)

- Expected Outcome:
  - Will result in a better understanding
  - Confidence is better but not optimal
  - Still will not identify all of the exceptions and even possibly not all of the use cases
  - Nothing is written to fall back on
  - Scope is not nailed down yet
  - Expect to result in a medium or low confidence estimate

AMERICAN OVERSIGHT

Option 3 - Insist on complete FSD

- Expected Outcome:
    - Track record is that they will still identify things that weren't discussed that will need to be dealt with in a subsequent Change request
    - Expect to result in a medium confidence estimate

Option 4 - Take an agile approach

- Expected outcome:
    - Have ADC identify stories that we incorporate into sprints
    - Don't know the complete scope or costs until all of the iterations are complete

Option 5 - recommend interim solution

- Make sure there is a report that identifies the affected inmates
- Modify the manual lock capability to allow for unknown manual release dates which will allow for ADC to deal with this manually and maybe other things that come up that we don't know about today
- Follow this by automating the Earned Release Credit solution

Created with OneNote.

Subject: DNHW and STG Change Requests
Date: Wednesday, February 24, 2021 4:12:56 PM
Attachments: image001.png

In looking into Change Requests in TFS, here is what I see:

DNHW

It looks like all outstanding issues were incorporated into 43532, and it looks as if it was submitted by B&D for FSD approval in January

STG

There is a list of items that are outstanding items for STG – I can't speak to their urgency or importance:

9972 Renounced STG or Non Disc (AIMS2-021)
17478 STG and Gang Affiliation Multiple Affiliations
18494 STG: Text box in Mug Photo to capture Scars, Marks, Tattoos (SMT's)
25181 UC-POP-General Development: Protective Custody: Debriefed Protective Custody inmates need to be included in the PC process
28702 AIMS2-055: Programs-UC-PR-2.01: Update table for E, C & M STG validation status used in GV calculation

36605	TIS on/after: 07/13/1995-Refused to sign for ERCD not applying to sentence	Aims2\03-Sentence Calc	Offenders who have refused conditions for an early release will still have that release date/type showing on their record. Potential for a release error?
41954	Forfeitures are not applying correctly on a consecutive sentence	Aims2\03-Sentence Calc	Forfeitures are not applying to the correct sentence in some situations, potentially resulting in inaccurate release dates.
41955	CSBD, CSED and TR days are not adjusting when Date of Sentence is greater than CSBD release date	Aims2\03-Sentence Calc	For short, TR eligible sentences, dates are calculated that may indicate the offenders release has already passed.
41956	UC-SE 10.1 A SENTENCE THAT HAS BEEN 'EARLY TERMINATED' IS SHOWING ACTIVE ON INMATE STATUS	Aims2\03-Sentence Calc	This likely prevents the ability to ignore this sentence from the sentence order/mapping - potentially resulting in inaccurate dates for sentences mapped to the sentence in question.
44105	CR36608/21283 UC-SE-3.3 OLD CODE NOT CALCULATING WITH DISCIPLINE	Aims2\03-Sentence Calc	Potentially doubling the number of forfeitures for Old Code offenders, potentially resulting in late release dates.
42860	Disciplinary- Stop the system from pre-populating loss of visitation on the disc charge of 22B.	Aims2\08-Discipline	This will potentially be incorrectly stripping away visitation/phone privileges from offenders.
43279	New Code Violator not calculating correctly	Aims2\M and O Items\EUIL Items\2020 May	B&D Estimated this but was placed on hold. This impacts both the release date calculations and presence of VCSED release type for New Code Offenders. Potential for release error or holding too long. All of these will be manually calculated and tracked.
31598	US-SE-4.3 and also release type definitions...AIMS2 not utilizing PR eligibility criteria	Aims2\M and O Items\EUIL Items\2020 May	B&D Estimated this but was placed on hold. The lack of this change means that PR eligible New Code offenders are not evaluated for their eligibility for the PR release. Basically anyone within the PR date window gets the projected PR release. Potential for a release error for offenders who are PR ineligible.

Subject:	Note RE Eli"s Transition
Date:	Wednesday, February 24, 2021 11:21:09 AM

Hello Eli and Sandy-

I believe the two of you are currently working through a transition plan.

For me, please ensure that the weekly Wednesday meeting to review the ACIS status report (included in the binder) is rescheduled with me by the new designated person. This weekly status report is also sent via email by Eli to me, Denel Pickering, Joe Miles, Rusty, and Barbara Corella. So that will need to be transitioned as well.

Any meetings with Joe Miles will need to be handed to the new person, but I also want to be included on the invite to those meetings. Those meetings should also include Rusty and Sandy.

Thank you!! :)

Subject: CR42176: Sent Calc SB1310

Hello Joe-

Please continue on with the estimation efforts for the SB1310 change request 42176.

Also, when do you think you will have that completed?

Respectfully,

Holly Greene

	Module	RequestID	Subject	Request Status	Technician	Priority
Brian Makris						
	Sentence Calc	411	Sentence Calc - Transition Release Date miscalculating on mixed ruling sentence	Assigned	Justin Baker	4-Low
	Classification	664	Classification - Inmate came to Max Custody in June of 2019. 6 month review was conducted in January of 2020. Next reclass should not be triggering until January/February of 2021.	Assigned	Justin Baker	4-Low
	Classification	800	Classification - Two Unit Admin review recommendations are being completed.	Assigned	Justin Baker	3-Medium
	Classification	944	Classification - Juvenile conviction not counting for most serious prior/other conviction. This bug was resolved on 12/03/2020 and appears to be broken again	Assigned	Justin Baker	3-Medium
	Interfaces	1018	Interfaces eOMIS - Inmates [redacted] medical score is in eOMIS and will not transfer over to ACIS	Assigned	Justin Baker	3-Medium

AMERICAN OVERSIGHT

	Module	RequestID	Subject	Request Status	Technician	Priority
	Classification	642	Classification - Inmate [redacted] received an o/r and appears on the 1630 report but the o/r does not appear correctly in the classification history CU Override Column.	Pending Deployment	Justin Baker	4-Low
	Population Mgmt Cell Screening	1024	Population Mgmt Cell Screening - [redacted] and [redacted] have both been verified to be group 3 violent inmates,	Pending Deployment	Justin Baker	3-Medium
	Population Mgmt Protective Custody	1029	Population Mgmt Protective Custody - I/M [redacted] - PC review is corrupted and staff are unable to complete the informal review. When staff attempt to complete the review, it gives an error	Pending Deployment	Justin Baker	3-Medium
	Visitation	1068	Visitation - I/M [redacted] # [redacted] On the registration screen it shows that the minors need to be attached to an adult. but the minors are already attached	Pending Deployment	Justin Baker	3-Medium
	Interfaces	1069	Global Action Queue - shows a visitor applicant pending ACJIS	Pending Deployment	Justin Baker	3-Medium

Count 10

Charles Grant Grant

	EIP	474	EIP - Inmate [redacted] is a max custody inmate not offered education please review his phase appears he should be a 3	Assigned	Justin Baker	4-Low
	Classification	763	Classification - Please remove inmate from deputy warden queue	Assigned	Justin Baker	4-Low
	Classification	781	Classification - Inmate [redacted] has 2 probation felony convictions. This is not being reflected in the prior criminal history calculations.	Assigned	Justin Baker	4-Low
	Classification	782	Classification - Triggered for reclass and it would appear that his most serious prior disappeared, dropping his score by 11 points. I believe was a juvenile offense	Assigned	Justin Baker	4-Low
	Discipline	786	Multiple Modules - 20 forfeitures were assessed by DHO, however those sanctions were suspended for 30 days	Assigned	Justin Baker	3-Medium
	Population Mgmt Cell Screening	787	Population Mgmt Cell Screening - Cell management shows a conflict but all green bars.	Assigned	Hagay Hazan	4-Low
	Grievance	963	Grievance - Grievance 20-024799 for inmate [redacted] Grievance is displaying pop up "The Grievance is closed because the Due Date has been exceeded"	Assigned	Justin Baker	4-Low
	Grievance	964	Grievance - Grievance 20-024234 is stuck at informal submitted, unable to proceed to informal response or further. Receiving popup box "The Grievance is closed because the Due Date has been exceeded."	Assigned	Justin Baker	4-Low

AMERICAN OVERSIGHT

	Module	RequestID	Subject	Request Status	Technician	Priority
	Warrants	965	Warrants - Addresses for approved warrants are having their related last known address marked inactive on the CC_OMS_OFFENDER_ADDRESS_INFO page seemingly at random.	Assigned	Justin Baker	3-Medium
	Grievance	983	Grievance - This is a true bug. AQ trigger reason for Grievance Appeal returned to Grievance Coordinator due to Data Entry Error is not correct.	Assigned	Justin Baker	3-Medium
	Warrants	997	Warrants - Unable to print a warrant using the generate warrant button on the warrant detail screen for ADC [redacted]	Assigned	Justin Baker	4-Low
	Grievance	961	Grievance - I am unable to find Grievance Case #20-024902 for inmate [redacted] Eyman SMU I, A70 in ACIS-Grievances.	Pending Deployment	Justin Baker	4-Low
	Grievance	968	Grievance - Description: Inmate was assigned a number for a grievance but now it cannot be located in ACIS	Pending Deployment	Justin Baker	4-Low
	Document Image Mgmt	952	Document Image Mgmt - I can't upload a PC document. tried three times. With inmate in context: [redacted]	Pending Information	Justin Baker	4-Low
	Document Image Mgmt	954	Document Image Mgmt - When I scan a document to myself, then pull it from my email and put it in a folder, when it is uploaded in documents in ACIS, it just uploads the folder not the document.	Pending Information	Justin Baker	4-Low
	Warrants	723	Reports - ADC RPT 3430 has no apparent rules on how it default sorts the results	Reconsider	Hagay Hazan	4-Low
	Warrants	743	Warrants - When a user clicks the "delete warrant" button on a warrant in the Warrant saved status, it appropriately cancels the warrant, but it is not making a Warrant Log Entry on he FSU review page time stamping the action.	Reconsider	Justin Baker	3-Medium
	Visitation	784	Visitation - For the past week the Visitation Action Queue Results screen shows 4 overdue under the Deputy Warden Role. However, when the Go icon is pressed, these names do not appear	Reconsider	Hagay Hazan	3-Medium
	Discipline	813	Discipline - DISCIPLINARY CASE WAS SENT TO DIRR FOR DIRECTORS REVIEW ON 2ND APPEAL. DIRECTOR ENTERED UPHOLD BY MISTAKE AND NEEDS THIS CASE TO BE RE-SET TO DIRR AGAIN TO DISMISS THE CASE.	Reconsider	Justin Baker	4-Low
	Discipline	953	Discipline - I try to schedule the hearing it takes several minute	Reconsider	Justin Baker	4-Low
	Discipline	957	Discipline - 12/10/2020 between 14:35-15:00 and 12/9/2020 at approximately the same times, whenever I try to schedule the hearing it takes several minutes then I get an "Error 524".	Reconsider	Justin Baker	3-Medium

AMERICAN OVERSIGHT

	Module	RequestID	Subject	Request Status	Technician	Priority
	Sentence Calc	1021	Sentence Calc - When an absconder warrant is submitted to supervisor for approval the abscond days immediately are applied to the sentence worksheet prior to warrant being issued.	Reconsider	Justin Baker	3-Medium

Count 22

Chris Nelson

	Population Mgmt Count	558	Population Mgmt Count - Inmate number appears in count sheet and system, but not name	Assigned	Hagay Hazan	3-Medium
	Classification	718	Classification - When a Classification is finalized from the Max Placement Forms, the Classification Admin Decision from the Max Forms translates over to the Reclass screen with a label of "Cental Office Administrator Override"	Assigned	Justin Baker	3-Medium
	Population Mgmt Count	749	Population Mgmg Count -	Assigned	Hagay Hazan	3-Medium
	Sentence Calc	798	Sentence Calc - ACIS is applying the CST (community supervision time) to the SED instead of the CSBD from the ruling sentence (B1)	Assigned	Justin Baker	3-Medium
	Sentence Calc	840	Sentence Calc - Transition earlier than base ERCD	Assigned	Justin Baker	3-Medium
	Reports	887	Reports -	Assigned	Justin Baker	3-Medium
	EIP	949	EIP - Inmate's phase did not drop after major discipline.	Assigned	Justin Baker	3-Medium
	Classification	988	Classification -	Assigned	Justin Baker	3-Medium
	Global Case Notes	1014	Global Case Notes - Strange Case Note appears to have migrated from AIMS	Assigned	Justin Baker	4-Low
	Reports	389	Reports - Report inconsistencies	Pending Information	Not Assigned	3-Medium
	Other	629	Multiple Modules - Information input into ACIS appears to not be saved in system	Pending Information	Justin Baker	3-Medium
	Visitation	708	Visitation - Unable to process visitor application for a returned inmate	Pending Information	Justin Baker	3-Medium
	Reports	630	Reports - Report 2110 missing information needed	Reconsider	Hagay Hazan	3-Medium
	Visitation	677	Visitation - Long load times on visitation pages	Reconsider	Hagay Hazan	3-Medium
	Global Events	693	Global Events - Unable to initiate a new PC review	Reconsider	Hagay Hazan	3-Medium
	Community Corrections RMS	729	Community Correctios RMS - when trying to update Mode of transportation it will not allow us to do it.	Reconsider	Hagay Hazan	3-Medium

Count 16

German Rios-Lazo

	Programs	601	Programs - Pay Cycle evaluations for inmate [redacted] for pay period 14 Kitchen-Cook display as Unsatisfactory on the Inmate Pay History screen but display as Exceeds on the Attendance Session Details screen.	Assigned	Justin Baker	3-Medium

AMERICAN OVERSIGHT

	Module	RequestID	Subject	Request Status	Technician	Priority
	Classification	648	Classification - Inmate came to Max Custody in June of 2019. 6 month review was conducted in January of 2020. Next reclass should not be triggering until January/February of 2021.	Assigned	Justin Baker	3-Medium
	Global Case Management	771	Global Case Management - When inmate was transferred, he should have been assigned to the appropriate case load at his receiving unit.	Assigned	Hagay Hazan	3-Medium
	Visitation	776	Visitation - I/M [redacted] #[redacted] (Santa Cruz) Applications were sent pending ACJIS last week. Today the visitation officer could not find them on ACIS.	Assigned	Hagay Hazan	3-Medium
	Discipline	789	Multiple Modules - Release dates are incorrect on ADC [redacted] Sentence Worksheet. Inmate had received 360 PCIII and 50 forfeitures. However, 60 days were rescinded back in May 2020 and out of those 50 forfeitures, 10 of them are mandatory forfeitures.	Assigned	Justin Baker	3-Medium
	Sentence Calc	806	Sentence Calc - Initial or Final Release Audits do not reset when earliest release date has changed to a later date.	Assigned	Justin Baker	3-Medium
	Interfaces	907	Interfaces - Hello - This ticket involves the PC-AIMS2 files (I-20 interface requirement) and will probably be directed to Wissem BenAissa at B&D.	Assigned	Justin Baker	2-High

The response was:

ResponseCode: 1
ResponseStatus: Error
ResponseText: "Unable to process request."

I imagine this inmate will need manual intervention on the KeepTrak side.

What we are seeing is that payroll has been restarted apparently from ACIS and is processing now. Look at this Transaction Batch to see the progress (it looks like it is posting 100 or more every few minutes. The reason it failed last night was that our security database server went off line and both users and service accounts were unable to authenticate.

Good Morning Michele, I have spoken with Christine White in inmate banking and she stated that you are the one to contact. I am getting reports that the inmate pay has not been posted to Keefe banking, I have attached the Pay Detail Report for Globe for pay period 17. If I need to to do a cherwell ticket for ACIS not communicating to Keefe Banking please let me know. Thank you

AMERICAN OVERSIGHT

From:	Holly Greene on behalf of Holly Greene <hgreene@azadc.gov>
To:	Rusty Johnson; Vitale, John; Joe Miles
Subject:	ACIS/KeepTrack Payroll Issue Timeline and Summary
Date:	Friday, February 19, 2021 3:07:27 PM

Hello Team-

Below is the timeline and summary I put together for ADCRR executive leadership.

I'd like to see this level of detail used for all communications between us for critical technical incidents.

I will schedule a meeting with this group next week to talk through everything noted below and how we can work more effectively with each other during future events.

Issue Summary:

On 2/18 at 11:50 PM AZ, ACIS attempted to create the payroll batch with the KeepTrak application. KeepTrak responded to the job with an error and as such, the batch could not be created and processed.

Cause:

Keefe experienced an outage with their security database server the evening of 2/18. This caused an authentication issue for both user and security accounts which impacted the ability to create the payroll batch.

IT Vendor Support Owners:

B&D: Aaron Pratt

Keefe: John Vitale and Raja Kasinadhuni

Vendor Management Liaisons:

B&D: Joe Miles

Keefe: John Vitale

ADCRR: George Martinez

Event Timeline (AZ MT):

2:19 PM: Payroll, Penny Brackett, confirmed that the batch job is about half-way through completion

12:58 PM: Updated ACIS communication was sent to all ADC staff stating that the ETA is 3hrs to completion of the payroll updates

12:09 PM: Keefe, John Vitale, confirmed that payroll was restarted from ACIS and it is processing

11:30 AM: B&D, Aaron Pratt, confirmed that B&D restarted payroll and that the API is responding

AMERICAN OVERSIGHT

properly. The estimated time to complete payroll is within 3 hours (2:30 to 3 PM)

11:18 AM: B&D, Aaron Prartt, provided a status update stating that they are able to re-run the payroll without ADCRR needing to change the post date. They can pass a parameter to the process to tell it what date to run with (yesterday's date was used). They will alert the team's once they begin the restart.

11:13 AM: INC0439097 was submitted to the Keefe service desk

10:46 AM: Joe Miles stated that B&D validated that the normal batch operation ran at 11:50 PM AZ MT on 2/18, but the KeepTrak system was unavailable. This prevented distribution. B&D is working to resend.

10:15 AM: IT PMO confirmed that B&D will send an update to the teams regarding the status of the issue

10:07 AM: IT PMO response notes that Keefe is investigating the issue and B&D is looking to re-run the file

9:58 AM: Operations escalated this issue to Payroll, IT leadership and PMO

9:17 AM: ACIS urgent communication was sent to all ADC staff alerting to the inmate banking issue

8:13 AM: Issue was escalated to the Payroll, Lynda Wade, who confirmed the issue and that this issue had been reported to Keefe

02/19 @ 7:57 AM: Issue with posting of inmate pay was reported to Michele Simmons via email by a CO IV

02/18 @ 11:50 PM: ACIS payroll batch process failed

Resolution:

The Keefe security database servers were brought back online. B&D re-ran payroll in ACIS and it is now processing as desired.

General Observations:

- ADCRR discovered and reported the issue with Payroll. Our Vendor support should consider enhancing their monitoring methods to alert them of a job failure, server outages, or other high impact technical incidents. This will allow for faster response and resolution times.
- Disconnects in communication such as missing contacts, slow responses, owners, etc. appeared to slow this process down. Stronger communication pathways between the Vendors could have lessened the time of impact for this issue. With the information received thus far, I speculate that this issue could have been resolved in far less time. ADCRR IT needs to facilitate all communications between the vendors during critical technical incidents using both email and a bridge for real-time updates. Operations must also directly engage IT leadership more quickly when a critical technical incident is realized. No template was used by our vendors to provide updates to ADCRR. Each should consider constructing their own so as to relay the clear and consistent details regarding the outage. Standard mailing lists should also be considered for use by our vendors for status update communications.

Preventative Actions:

AMERICAN OVERSIGHT

B&D will implement a broader text notification process to ensure real time failures are provided to ADCRR.

Keefe has scheduled a meeting with ADCRR on 2/23 to discuss their monitoring. They are looking to add monitoring to detect an outage failure in the future.

ADCRR will implement their Major Incident Management plan by mid-March. This will include an escalation process, bridge number, vendor contact list, and internal IT contact list.

Have a great weekend

Respectfully,

Holly Greene

AMERICAN OVERSIGHT

create the payroll batch.
Support Owner(s) Aaron Pratt/B&D, Keeptrack/Unknown
Liaison Owner for each vendor-Joe Miles/B&D, Keeptrack/Unknown
Estimated time to resolve-Unknown as KeepTrack has not responded at this time. B&D is resending the payroll batch now and will be able to affirm the problem still exists with KeepTrack or KeepTrack can
now successfully accept and process the payroll batch.
Preventative action-KeepTrack would need to provide this. Regarding real time notification by B&D to ADC of failure by KeepTrack to accept payroll batch, B&D will implement a broader text notification process to ensure real time failures are provided to ADC asap.

Thank you,

Good Morning Michele, I have spoken with Christine White in inmate banking and she stated that you are the one to contact. I am getting reports that the inmate pay has not been posted to Keefe banking, I have attached the Pay Detail Report for Globe for pay period 17. If I need to to do a cherwell ticket for ACIS not communicating to Keefe Banking please let me know. Thank you

Communication between B&D and Keefe is critical to ensure successful receipt of the file. This should not be a failure to find results and react based on, but rather an orchestrated event between all parties to discuss the risks and quick mitigation. A bridge call between the two parties is recommended...

AMERICAN OVERSIGHT

Sandy,

Aaron has verified that when we conducted the normal batch operation at 11:50 PM last night the KeepTrak system was not available or there was a network issue that prevented distribution. Aaron is working on a pass through on our side to keep same payroll date and resend. If unable to do this we will work through George to get batch resent as postdated. Aaron can provide an ETA on resolution here shortly.

Joe

Hi Joe-

A few things:

1) We need timelines to be associated for most of these deliverables. Please provide. Provided dates and other information below.
2) Regarding the monitoring license, my notes indicate that you were still researching. You stated that there may be some licensing issues, but that was regarding TFS, not necessarily monitoring. I understand licensing issues and costs, but this needs to be presented to Procurement. Possible mis-communication on this as we will not be able to provide access to monitoring.
3) With respect to TFS, you were going to get me a list of existing licenses so that we may review and redistribute. Working on assembling the list of all existing ADC TFS licenses

Joe

AMERICAN OVERSIGHT

Minutes Weekly Touchpoint Meeting With ADC

Attendees: Joe Miles, Holly Greene, Rusty Johnson

ADC Meeting February 10, 2021

- Joe provided an update that B&D is focused on completing 6 CR Items from approved 2nd Quarter EUIL list.
- Joe re-affirmed that requested information from Barbara Corella in ADOA purchasing was provided on CR Items 42624, 42693, 42701, 42723.
- Joe spoke about revised Property Module proposal and that a final meeting with operations group is being scheduled asap for their approval of additional items that were identified for inclusion into the revised proposal.
- Joe shared that a Portfolio Meeting was being scheduled for end of February that will review SLA targets in relationship to results.
- Holly and Joe discussed that a support model needs to be identified for better communication and effective clearinghouse for tickets in ADC and B&D systems. Joe will be scheduling a meeting with Help Desk Staff from both B&D and ADC to identify issues and develop an effective program.
- Holly discussed the needs to have an Incident Management Report be distributed weekly to her and Rusty. Joe is working with B&D staff to develop the report.
- Joe reported that he had presented to Dean Allen a request by Holly for her or Rusty be invited to monitor our bridge discussions on events such as the one on Monday evening February 1 that was associated with B&D deployment release and restricted unit count from being cleared. Joe shared that the request was denied as it presented coordination issues. Holly indicated that a separate bridge would be required for communication between B&D and ADC that would be coordinated by Joe. This was agreed upon by Holly and Joe.
- Holly restated that any CR's that are part of future deployments be shared with her and Rusty in advance of any deployments. Joe will check on how this process could work.
- Joe reported that he had presented to Dean Allen a request by Holly for access to the system monitoring application that tracks and reports on system performance. Joe shared that the request was denied due to licensing issues. Holly accepted the reasoning for the decision.
- Joe Miles reported on Enforcer workgroup meetings that have been ongoing to assist ICS on 3 issues that Enforcer is having in ACIS. Interim solutions have been identified for some of the issues and a more permanent solution will be forthcoming when ICS delivers a new API endpoint sometime in late February.

I approve this request. It's necessary to maintain our business. Please proceed forward with fulfillment.

Hi Joe-

Please work with Rusty to put together the proper SOP for such a request.

Thanks,

Holly

This morning in production we are having offenders with active warrants (absconder status) being added to most of the CCO's case summary throwing numbers off. I will be entering a

AMERICAN OVERSIGHT

separate bug but thought I would give you a heads up

I entered a Cherwell 394661 this morning. I believe this is due to TFS Bug 42968.

Module: RMS

Feature

2021.39.2.11

Title of Bug: Offender with Abscond status showing on CCO Case summary's across the state

Bug Priority : MED

Bug Description: Offender that have warrants are now showing on CCO case summary's

Expected results: Once a warrant is written offenders should not show on case summary's

Steps to Reproduce (or include screenshots/AIMS1 & AIMS2 report/video):

1. Review CCO case summary for CCO
2. Black Canyon / Barraza examples
3. [redacted]

Joe, I am forwarding you the email thread from Community Corrections regarding a production issue they are experiencing since Release 39 was deployed to Production this past Monday 2/1. TFS # 42968 was originally part of release 38, however it did not pass UAT so it was removed from Release 38 and put back to backlog. However, the code for #42968 was included in Release 39 even though it was not tagged for that release. and now is causing production issue(s) for Community Corrections.

Community Corrections is asking to have the related code reverted in PROD by this Friday and Aaron is looking into this. Once B&D comes up with a plan, we will require an emergency CAB approval.

Holly and Rusty,

Attached are minutes from our meeting today.

Regards,

Joe

AMERICAN OVERSIGHT

Minutes Weekly Touchpoint Meeting With ADC

Attendees: Joe Miles, Holly Greene, Rusty Johnson

ADC Meeting February 3, 2021

- Joe Miles provided an update on 6 CR Items from approved 2nd Quarter EUIL list that ADC has asked B&D to be focused on for completion. 4 of the items started development back in August 2020 and assurance was provided that these items would be top priority.
- Joe Miles shared that an email was provided to Barbara Corella in ADOA purchasing that confirmed CR Items 42624, 42693, 42701, 42723 were in FUAT status by the estimated date as indicated on EUIL Tracking Spreadsheet.
- Joe Miles spoke about Property Module proposal and stated that a work group meeting was held with operations to review the initial proposed work and additional items were identified for inclusion into revised proposal. A meeting is being scheduled with Holly, Rusty and operations group to review the revised proposal and get final approval or rejection.
- Holly has asked Joe Miles to conduct a Portfolio Meeting every month for the purposes of reviewing SLA targets in relationship to results. Joe Miles is in process of capturing the required information and will be scheduling the first meeting at end of February.
- Joe Miles shared that Justin Baker from B&D Service Desk had received 20 tickets in one day from ADC employee Michael Saltmarsh and that this was very excessive. Holly provided clarification that this employee was working with their Help Desk Group to clean up aged tickets. Joe indicated that B&D was not aware of this work. Holly and Joe agreed that a support model needs to be identified for better communication and effective clearinghouse for tickets in ADC and B&D systems. Justin will be working with ADC Help Desk Staff to implement an effective program.
- Holly requested that an Incident Management Report be distributed weekly to her and Rusty. Joe will work with Holly to identify what should be included in the report.
- Holly and Joe discussed the outage incident that occurred on Monday evening February 1 that was associated with B&D deployment release and restricted unit count from being cleared. Holly has asked that in the future either her or Rusty be invited to monitor our bridge discussions on events such as these. Joe stated that he would discuss the request with Dean.
- Holly requested that any CR's that are part of future deployments be shared with her and Rusty in advance of any deployments. Joe will check on how this process could work.
- Holly requested access to the system monitoring application that tracks and reports on system performance. This report will be included in the monthly portfolio presentation. Joe stated that he would discuss the request with Dean.
- Joe Miles reported on Enforcer workgroup meetings that have been ongoing to assist ICS on 3 issues that Enforcer is having in ACIS. The issues are associated with Inmate PAN (Personal Allowed Number); Inmate Location in the ENF where there is this concept of a SITE; LOCATION and Suspension - there is no correct method of applying LOP (loss of privilege) from ACIS to ENF. Interim solutions have been identified for some of the issues and a more permanent solution will be forthcoming when ICS delivers a new API endpoint sometime in late February.

Yes, not a problem. However, the change request Dan is testing is supposed to be in Feature and the link you sent is for UAT. So are all reports change requests going directly to UAT?

Thank-you,

Elizabeth Charif

Date: Wednesday, February 3, 2021 1:25:57 PM

This report is available to test in the UAT environment and this version of the report is pulling the data from the Feature UAT database. This allows us to utilized the UAT test reports environment without setting up new servers for Feature UAT and provides the same results.

The report to test is RPT 0500-42866 under the Population Management Category.

Yes, not a problem. However, the change request Dan is testing is supposed to be in Feature and the link you sent is for UAT. So are all reports change requests going directly to UAT?

Thank-you,

Elizabeth Charif

Hi Joe,

In your next status call with ADC can you remind them that they need to be using the following link to test reports in UAT?

https://adc.aims2.us/Login_mi-ui.aspx?ReturnUrl=%2fReportViewNew.aspx

We are getting bugs about reports not working but that's because they are not using this link that we've sent them. They will need to use this link until Dean and Chris finish the Telerik server upgrade in UAT.

Thanks,
Aaron

Hello B&D-

I just received a call from Keith Barrier stating that he has received reports that count is not clearing in Tucson, Douglas, and CACF.

Please help to determine why and report back to this group.

Thanks,

Holly

Subject: ACIS ISSUE: Unable to Clear Count

Hello B&D-

I just received a call from Keith Barrier stating that he has received reports that count is not clearing in Tucson, Douglas, and CACF.

Please help to determine why and report back to this group.

Thanks,

Holly

I see a number of lessons learned: gathering contact information of those affected, full descriptions of the issue, on-call pathways and escalation (both sides), IT communications (both sides), and establishing a bridge whereby all tech parties jump on the line to actively discuss and work through the issue (even if that means hopping on & off the line to place/take calls).

Let's discuss tomorrow.

Subject: Status
Date: Monday, February 1, 2021 4:18:46 PM

Barbara,

As discussed today I would verify FUAT delivery on the following items:

42624: Delivered to ADC for FUAT acceptance testing on 1/12/21
42693: Delivered to ADC for FUAT acceptance testing on 1/19/21
42701: Delivered to ADC for FUAT acceptance testing on 1/13/21
42723: Delivered to ADC for FUAT acceptance testing on 1/11/21

As you probably know Feature UAT (FUAT) is where ADC begins acceptance testing. Once ADC signs off as accepted we merge the code for the CR into the regular code base for release with the next version. ADC can test it again if they want along with any bug fixes for that release when it gets to UAT. So essentially depending when ADC signs off in FUAT it may take anywhere from 2 days to 2 weeks to get to UAT depending on where we are in the 2 week cycle when they approve.

You may already be aware of this process; however, thought it might be beneficial.

Best Regards,

Joe

Attachments: image001.png
image002.png
image003.png
image004.png

Hi,
We have a new person starting today that will work on the ACIS project as a QA and needs to be background checked
His name is Matt Mollenkopf and he is cc'd on this email
He will not be on site, he will be working remotely, so he does not need a badge. He will be on the project indefinitely (as long as we have the contract)
He will be looking at sensitive information in ACIS while he is doing his job (QA'ing).
We haven't done this in some time. In the past the process was:

- you will send him a Background Questionnaire for Corrections form
- He will need to fill It out and submit it back to you
- >From there the background check was done
- When approved he will have to view the ACJIS video, sign the ACJIS form and return it to you

Let me know if I've missed anything or if there are new procedures

Thad

AMERICAN OVERSIGHT

From: Joe Miles on behalf of Joe Miles <joe.miles@bndna.com>
To: Rocky Advani; Holly Greene; Barbara Corella; Denel Pickering; Rusty Johnson
Subject: B & D Update Meeting
Date: Sunday, January 31, 2021 3:20:58 PM
Attachments: ACIS System Improvement and EUIL Hours Tracking Revised 13121.xlsx

---

ALL,

In preparation for our meeting tomorrow I have attached a revised EUIL Tracking Spreadsheet document that incorporated all of the changes requested by Barbara and a number of enhancements that should make
reviewing the data much easier. The incorporated changes are as follows:

- Added 9 columns for tracking additional information as requested by Barbara.
- Highlighted items 40386, 31001, 40794, 40864, 42630 in complete section; Barbara had requested a review of these items at next meeting; all 5 items are now in production.
- Incorporated a category change to the M&O – All Categories spreadsheet tab by adding sections for Active, Pending, Complete and Cancelled that should allow for easier review.
- Modified the Summary spreadsheet tab by incorporating the sections and cross referencing of data.

Best Regards,

Joe

Subject: Re: Bug: 43645

I clearly disagree. The FSD clearly states a PC Movement hold is a conflict with a PC Banner and a GP banner. The FSD does not clearly define how you would program

any of them, but it clearly states you would program them as conflicts. This is not a change, it is a bug.

Well the rule is in the FSD, since that is what you copied in the email. The FSD is silent on how the designation

in table would appear, but it clearly says it will identify the conflict between a PS and PC, a PS and a GP, and a PC and a GP.

AMERICAN OVERSIGHT

I need to find it in an FSD and if not potentially a change request.

Cc: Elizabeth Charif <echarif@azadc.gov>; Joe Miles <joe.miles@bndna.com>
Subject: Re: Bug: 43645

OK, so this is what those rules mean in ACIS:

Rule 1 is the same as PC in the banner with an STG code of S or N/A

Rule 2 is the same as PC in the banner with an STG code of D

Rule 3 is the same as GP in the banner with an active 'Protective Custody Hold (805)' hold from movement holds

Rule 4 is the same as GP in the banner and no active 'Protective Custody Hold (805)' hold from movement holds

AMERICAN OVERSIGHT

In AIMS all of this was completed with DT08 comments which were movement holds. The DT08 comment

of PS changed the "banner" in AIMS to PC; the DT08 comment DP changed the banner to DPC. The DT08 comment PC

did not change the banner, but identified the inmate in cell screening and detention database as being the PC review process.

Holly,

We have a little problem with our SLA Governance Meeting tomorrow. The SLA agreement is not signed by ADCRR. My suggestion is I will have something similar to this PPT prepared that you and I will review today and we review it with your team tomorrow. It will obviously have some significant gaps because of the work hours, burn, breakdown, still being outstanding. However, I think we can still have a positive meeting. Talk to you in 30.

Hello Joe-

Here's one email from Charles.

---------- Forwarded message ---------
From: **Charles Spannagel** <Charles.Spannagel@bndna.com>
Date: Wed, Oct 14, 2020 at 3:39 PM
Subject: ACIS Status Meeting Minutes 10/9/2020
To: Holly Greene <hgreene@azadc.gov>, Joseph Nicoletti <jnicole@azadc.gov>, Joseph Profiri <jprofiri@azadc.gov>, Keith Francen <keith.francen@bndna.com>, Rusty Johnson <sjohnson@azadc.gov>, Rocky Advani <radvani@azadc.gov>
CC: Dean Allen <dean.allen@bndna.com>, Chris Masson <chris.masson@bndna.com>, Thad Lowry <thad.lowry@bndna.com>, Aaron Pratt <aaron.pratt@bndna.com>, Robert Spedding <robert.spedding@bndna.com>

Please find the meeting notes below.

1: M&O Hours Power Point Review

Attendees

Deputy Director Joe Profiri

Rusty Johnson

Dean Allen

Charles Spannagel

EUIL-CR-PL Bulletins

AMERICAN OVERSIGHT

- Dean has provided an initial list of EUIL-CR Bulletins to Deputy Director Profiri to review
- Holly has tasked her team with creating "one pagers" for all items remaining in the Parking Lot (400 page Playbook that will reside in Deputy Director Profiri's office)
- Deputy Director Profiri requests collaboration between B&D and ADCRR to fine tune these informational sheets
    - Dean has tasked B&D Business Analysts with creating Bulletins for the remaining EUIL items
    - Charles will coordinate efforts with ADCRR IT PMO for collaboration
        - This collaboration will become an ongoing agenda item for the Friday ACIS Leadership Meeting

M&O Hours Name Change

- The current title of M&O Hours has caused confusion over the true purpose of the annually allotted 10,000 Hours
    - The 10,000 hours are to be used for System Improvements
    - Maintenance and Operations Support is part of the Support Contract
        - System issues (Bugs) is covered by the Support Contract
        - Maintenance of Environments is covered by the Support Contract
    - Items related to improving the system would fall under the annual 10,000 hour allotment
        - EUIL, CRs, PL Items
    - **Recommendation to remove the title of "Maintenance and Operations" to "System Improvement Hours"**

B&D Staffing Model and Workload

- B&D currently has 3 Developers without work to be done on EUIL-CR items
- Deputy Director Profiri and Dean suggest reviewing all PL items for "Low Hanging Fruit"
    - Items that will not require lengthy JAR sessions
    - Items that will not require lengthy Development
    - Items that will be pushed into Production in a timely manner
    - Items that will keep B&D fully staffed
    - Charles to collaborate with ADCRR IT PMO to produce a recommended list to move forward
        - This collaboration will become an ongoing agenda item for the Friday ACIS Leadership Meeting
- Deputy Director Profiri and Dean suggest reviewing the "Property Module" which could be brought online and a huge "win" with the Operational Staff

AMERICAN OVERSIGHT

B&D Staff to review the Property Module and gauge work effort

- Charles to work with Rusty to review the upcoming "Enforcer" Change Requests

JAR Sessions and Estimate Concerns

- EUIL 43279 "New Code Violator not Calculating Correctly" caused concern when the estimate went from 660 hours to 2600+ hours
    - Additional Scope from ADCRR Operations caused increase in estimation hours
        - 4th Quarter EUIL-CR Items will hold JAR sessions prior to any estimation
        - B&D staff will call out immediately when "Scope Creep" occurs

2: **Low Hanging Fruit**

- Eli will send the ADCRR List to Charles to review with B&D BA's (Trevor and Cindy)
- Charles will send the list back to ADCRR when complete
- Charles and Eli to meet and move this initiative forward as quickly as possible

3: Rocky Update

- Rocky and Dean are continuing their discussion over billable hours and criteria for billable hours

4: ACIS Leadership Meeting Requests

- Holly has requested for all future meetings that Charles include both the link on Sharepoint and the actual document **"ACIS MNO and EUIL Hours Tracking"** for the excel workbook stored on Sharepoint
- Charles will incorporate this into the meeting on 10/16/2020

5: Documents to be sent by Charles

- Charles was asked to send the **ADCRR MO Hours Discussion PPT**, **ACIS**

AMERICAN OVERSIGHT

Deployment Incident and the **ACIS System Property Proposal Document** by 10/9/2020
- All documents sent by 10/9/2020
- Documents attached again

Health Check **Error! Bookmark not defined.**

Overview

The ACIS application was offline on 9/25/2020 during a PROD deployment push. The deployment process has many checks and balances in place to catch for errors. In this case the process returned a success even though the underlying driver was not 100% successful.

Incident

1. An outage occurred due to an issue with the base image.
2. The base image failed to completely install the Oracle driver even though the Oracle driver installer reported a successful and complete install
3. The prod push revealed this problem as a 500 error on the front end and background services.

Troubleshooting & Quality

Initial

The short term solution is to do a build from the PROD base image in the morning, the day of a production push to ensure the base image is error free.

Long term

In the long term this problem is possibly resolved on a newer version of the Oracle Driver. ACIS is using Oracle 12.2, where the latest Oracle version is 19 (2 versions newer). There may also be a different type of Oracle driver install that returns more verbose error handling. Troubleshooting and research is required on both of these items.

AMERICAN OVERSIGHT

Summary

To maintain the uptime of the ACIS application the PROD base image will be tested on the morning of a PROD push to allow time to address quality issues before a deployment is completed.

Thank you Joe.

It is not ADCRR servers. It is our connection thru our provider. We have escalated this and working on the problem.

We will advise when the problem has been corrected.

Thanks to your tram for notifying us. We really appreciate it!

To: Rusty Johnson
Cc: Holly Greene
Subject: RE: System Improvements Approval
Date: Thursday, January 28, 2021 2:35:28 PM

Rusty,

CR 40707 was cancelled and Homeless Home Plan requirements were included in CR 43533. We should have had CR 43533 on our list and I will make sure it is included in the approved for development work at 1077 Hours.

Thank you for bringing it to our attention,

Joe

Subject: RE: System Improvements Approval

Rusty,

I am investigating the issue on this, the most recent list I provided stating we were starting work on was based on confirmation from the development team. You are correct CR 43533 should have been on that list and I will see why it was left off, I believe you are correct about CR 40707 being combined which is why it was left off list they were confirming.

Will have an answer asap!

Joe

Joe-

Your original list contained CR# 40707 Homeless Home Plan but it is not on the list you just sent us? Is there a reason it is not on this list? It also appears this change

AMERICAN OVERSIGHT

may have been combined with 43533. It too is not on this list.

Can you please look into this?

Sincerely,

Rusty Johnson

Joe-

You are correct.

The approval does not include that recent list. We will be discussing that request in the very near future.

This approval was for your first request.

Hi, Joe, George Martinez is working on the maintenance request and will reach out to you in terms of additional information needed to complete the process.

One question we have is on the dates - you mentioned 1/27 or 2/13. Did you mean 1/30 instead? 1/27 is a Wednesday and 1/30 Sunday. Please confirm that it is 1/30 or 2/13.

AMERICAN OVERSIGHT

Based on your list, I see some that are 'whole' which could be tackled, but I also see some that are just fractions of the whole and wouldn't serve a positive result because of codependency. There is also one which was combined into another change that is not on your list. Let's discuss this information in our next meeting.

35571 Victim Type on Search screen: **Whole/Complete Change - On list for 104.32hrs**
37366 MH Step Reviews: **Whole/Complete Change - On list for 323hrs**

40685 Warrant FSU: **Whole/Complete Change - On list for 210hrs**

40707 Homeless Home Plan: **Change was combined into 43533 - Change 43533 is on list for 1077hrs - Please validate that this change has been combined.**
41272 LOP to Keeptrak: **Fraction of Enforcer LOP fix - 3 additional changes need to be completed: 41276, 42018 & 42020 - Single change is on list for 400hrs**
41273 Warrant Release Status: **Whole/Complete Change - On list for 425hrs**

41279 EIP not updating when discipline dismissed: **Fraction of Enforcer Phase Level fix - 3 additional changes need to be completed: 32023, 41275, & 42438 - Change 41279 is on list for 121hrs**
41403 Inactivate visitors when inmate is released: **Fraction of Enforcer PAN file fix - 2 additional changes need to be completed: 42019 & 35680 - Change 41403 is on list for 105hrs**
42177 Drug Transition Program: Fraction of Change - One additional change needs to be completed: 42176 - Change 41277 is on list for 2230hrs

42438 Disc DW review EIP Phase Drop: **Fraction of Enforcer Phase Level fix - 3 additional changes need to be completed: 32023, 41275, 41275 & 41279- Change 42438 is on list for 195hrs**
42463 CSG to STG: **Whole/Complete Change - On list for 61hrs**

43330 SSN to Keeptrak: **Whole/Complete Change - On list for 157hrs**

43532 DNHW: **Whole/Complete Change - On list for 549hrs**

Respectfully,

Holly Greene

Subject: ACTION: B&D ACIS Portfolio Monthly Meeting

Hello Joe-

A long while back, I asked B&D to work to reignite the monthly portfolio (governance) review. This includes system health, incident ticket counts (and age), changes implemented and those outstanding, bugs implemented and those outstanding. This touches on SLAs and if B&D is satisfying them.

This needs to get back on track and on our calendars. Please look to the end of each month beginning in February, to reintroduce these meetings. As a side note, our Deputy Director no longer needs to be included in these regular meetings.

Thank you,

Holly

Holly,

We have added a signature approval line to the ACIS System Improvement Bulletin that we distribute regularly. I have attached an example for your review and welcome any feedback. This would be the new bulletin going forward and would require your signature and return to us.

Joe

Subject: ACTION: ACIS Satisfaction Survey - Annual Recap

Hello Sandy and Joe-

We've had a number of items pushed to production this year. Some which may have had a significant impact on the user experience.

With that, I'd like the two of you to work together on creating a survey for our ACIS user community to essentially check the pulse of their experience.

Some things that come to mind to ask/explore are:

- Have the changes implemented and defects corrected, had any impact (positive or negative)
- Have the users positively adapted to the product
- Does the community see additional efficiencies
- How many workarounds were correct and what were they
- How many workarounds remain and what are they
- How many new workarounds were established and what are they
- What are the top 5 incidents reported to B&D and ADCRR Service Desk

Included in this email are James from OCI, Stacey from Operations and some members of the PMO team who I feel would contribute greatly to this effort.

I'd like you to pitch your plan back to me no later than 2/19. This should include your survey, audience identification, communication draft (announcement of the survey, deadline, etc.), and how we will report and use this information.

My goal is to see this rolled out to the community in mid-February or early March with results for review by mid to late March. *I'm not opposed to anything being accomplished ahead of schedule.

Thank you!

Subject: Maintenance Window Request
Date: Friday, January 15, 2021 3:10:58 PM

Holly,

We are requesting approval of a maintenance window for database index rebuilding that will not require an outage. This would be performed on either the weekend of January 27 or February 13, whichever you prefer, and conducted on Saturday from 6:00pm to 10:00pm and then Sunday from 6:00pm to 10:00pm of the selected weekend.

Best Regards,

Joe

Subject:	ACTION: ACIS Satisfaction Survey - Annual Recap
Date:	Friday, January 15, 2021 11:59:37 AM

Hello Sandy and Joe-

We've had a number of items pushed to production this year. Some which may have had a significant impact on the user experience.

With that, I'd like the two of you to work together on creating a survey for our ACIS user community to essentially check the pulse of their experience.

Some things that come to mind to ask/explore are:

- Have the changes implemented and defects corrected, had any impact (positive or negative)
- Have the users positively adapted to the product
- Does the community see additional efficiencies
- How many workarounds were correct and what were they
- How many workarounds remain and what are they
- How many new workarounds were established and what are they
- What are the top 5 incidents reported to B&D and ADCRR Service Desk

Included in this email are James from OCI, Stacey from Operations and some members of the PMO team who I feel would contribute greatly to this effort.

I'd like you to pitch your plan back to me no later than 2/19. This should include your survey, audience identification, communication draft (announcement of the survey, deadline, etc.), and how we will report and use this information.

My goal is to see this rolled out to the community in mid-February or early March with results for review by mid to late March. *I'm not opposed to anything being accomplished ahead of schedule.

Thank you!

Holly

Subject: Approval Request
Date: Thursday, January 14, 2021 10:59:38 AM

Holly

I would like to request your approval to move forward with development of the following CR's from EUIL 4th quarter list. Obviously I am continuing to push outstanding CR's to completion asap and release of these would allow us to get moving on completion of some beneficial solutions for ADC.

35571 Victim Type on Search screen
37366 MH Step Reviews
40685 Warrant FSU
40707 Homeless Home Plan
41272 LOP to Keeptrak
41273 Warrant Release Status
41279 EIP not updating when discipline dismissed
41403 Inactivate visitors when inmate is released
42177 Drug Transition Program
42438 Disc DW review EIP Phase Drop
42463 CSG to STG
43330 SSN to Keeptrak
43532 DNHW

Your consideration of this request would be most appreciated!

Joe

Thad,

AMERICAN OVERSIGHT

The report has been validated as working in UAT. I sent an email to Marlene to confirm that one report with all of the missing classification notices for the missing time period is ok. Waiting for a response. After confirmation what we need to do is:

Step 1. Deploy to PROD. (do we need approval for this?)

Step 2. Run scheduled report manually.

Step 3. revert PROD report back original state so that 8pm they will get the regularly scheduled report for 1/12/2020.

Subject: RE: Scheduled reports in PROD

Hi All,

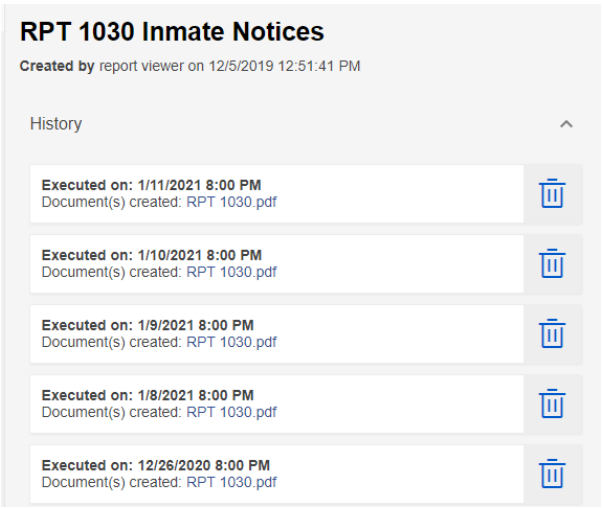
Modified the procedure (RPT 1030) to run the scheduler data for the missed period 26th Dec to 6th Jan and the changes were checked into TFS.

Dev doesn't have any data for this period .Validated at backend in UAT and INT and looks good .

Please let us know if Keith can deploy to UAT prior to PROD and run through scheduler for high level testing from Telerik.

Change set # 29862

@Chris Masson/Aaron : After the Scheduler runs and PDF file gets created, we may need your help to rename the file in PROD so that when the scheduler runs at night as per cycle it doesn't get overwritten.



@Keith Francen :Once scheduler writes PDF and everything looks good. We need to rollback to previous version to have the report run daily.

Thanks,

Harika

Hi Harika,

I think the single PDF for the entire missing period should work.

The report result shows the date the reclassification is finalized for each individual inmate. And they should be in order from 12/27/2020 inmates to 1/7/2021 inmates.

Ran as a schedule Telerik will have no issue with that. The question on whether a single file for all missing inmates for the date range needs to be sent to ADC for an answer.

Subject: RE: Scheduled reports in PROD

FYI, I ran the report at backend in INT as PROD is throwing insufficient privileges and INT got refreshed yesterday.

The query is returning **334 rows** of data for the missed period which I am assuming may not even have any problem at Telerik end to generate in a single file.

Subject: RE: Scheduled reports in PROD

I even modified this procedure at back end and the ran between these periods and the report is returning any rows dev and UAT /PROD.

I thought of creating replica of the existing report with adding new input parameter since it doesn't any have any inmates whose custody or internal risk is changed and approved.

AND class_st_dtm >= TRUNC(26-DEC-20') AND class_st_dtm < TRUNC(sysdate -2).

Is it okay if we hardcode for the entire my missing cycle at a glance?

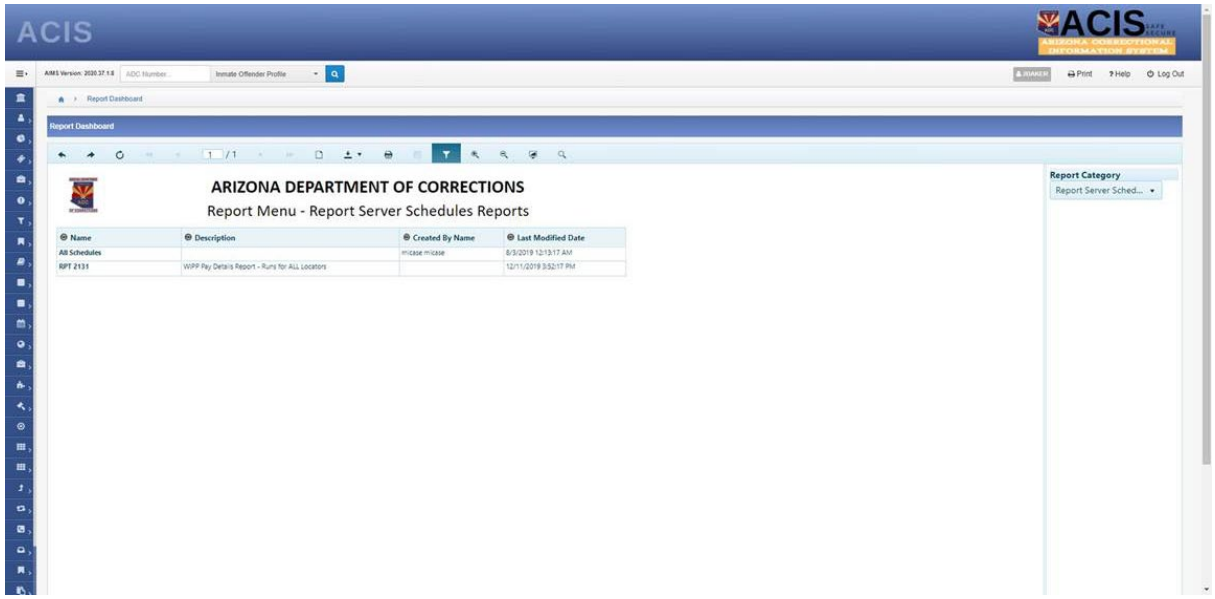
Subject: Scheduled reports in PROD

Hi Chris,

It was my understanding that the issue was resolved in PROD with the scheduled report though its still coming up on the bug review meetings.

First it seems ADCRR is expecting on this screen to show all of the reports that have been ran? Is that the correct behavior for this table to display more than just this one WIPP report?



Secondly she's looking for specifically report 1030. I found that it is running again and its a daily report. She needs the report runs from 12/27/2020 – 1/7/2020 in order to notify these inmates of their classification changes. Are you able go in as an admin and run these missing reports. See below:

Thad,

AMERICAN OVERSIGHT

The report has been validated as working in UAT. I sent an email to Marlene to confirm that one report with all of the missing classification notices for the missing time period is ok. Waiting for a response. After confirmation what we need to do is:

Step 1. Deploy to PROD. (do we need approval for this?)

Step 2. Run scheduled report manually.

Step 3. revert PROD report back original state so that 8pm they will get the regularly scheduled report for 1/12/2020.

Subject: RE: Scheduled reports in PROD

Hi All,

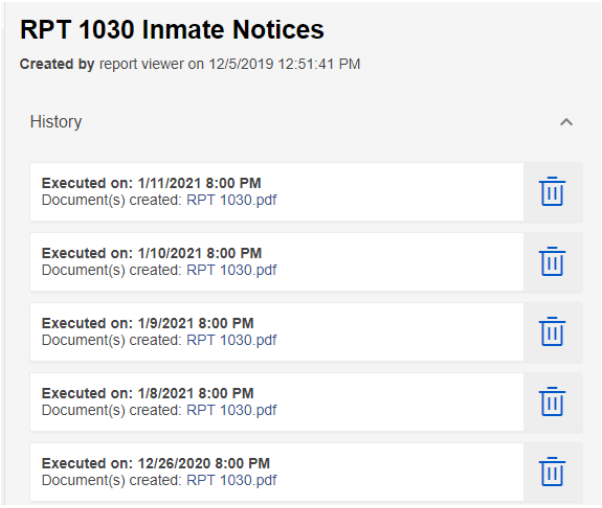
Modified the procedure (RPT 1030) to run the scheduler data for the missed period 26th Dec to 6th Jan and the changes were checked into TFS.

Dev doesn't have any data for this period .Validated at backend in UAT and INT and looks good .

Please let us know if Keith can deploy to UAT prior to PROD and run through scheduler for high level testing from Telerik.

Change set # 29862

@Chris Masson/Aaron : After the Scheduler runs and PDF file gets created, we may need your help to rename the file in PROD so that when the scheduler runs at night as per cycle it doesn't get overwritten.



@Keith Francen :Once scheduler writes PDF and everything looks good. We need to rollback to previous version to have the report run daily.

Thanks,

Harika

Hi Harika,

I think the single PDF for the entire missing period should work.

The report result shows the date the reclassification is finalized for each individual inmate. And they should be in order from 12/27/2020 inmates to 1/7/2021 inmates.

Subject: RE: Scheduled reports in PROD

FYI, I ran the report at backend in INT as PROD is throwing insufficient privileges and INT got refreshed yesterday.

The query is returning **334 rows** of data for the missed period which I am assuming may not even have any problem at Telerik end to generate in a single file.

Subject: RE: Scheduled reports in PROD

I even modified this procedure at back end and the ran between these periods and the report is returning any rows dev and UAT /PROD.

I thought of creating replica of the existing report with adding new input parameter since it doesn't any have any inmates whose custody or internal risk is changed and approved.

AND class_st_dtm >= TRUNC(26-DEC-20') AND class_st_dtm < TRUNC(sysdate -2).

Is it okay if we hardcode for the entire my missing cycle at a glance?

Thad,

The report has been validated as working in UAT. I sent an email to Marlene to confirm that one report with all of the missing classification notices for the missing time period is ok. Waiting for a response. After confirmation what we need to do is:

Step 1. Deploy to PROD. (do we need approval for this?)

Step 2. Run scheduled report manually.

AMERICAN OVERSIGHT

Step 3. revert PROD report back original state so that 8pm they will get the regularly scheduled report for 1/12/2020.

Hi Harika,

AMERICAN OVERSIGHT

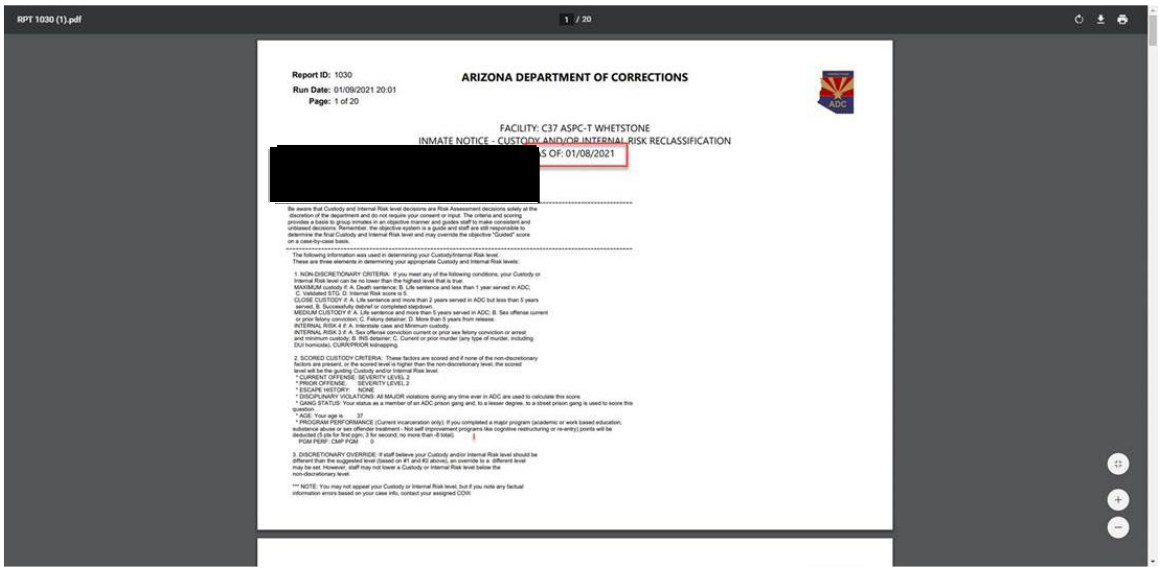
I think the single PDF for the entire missing period should work.

The report result shows the date the reclassification is finalized for each individual inmate. And they should be in order from 12/27/2020 inmates to 1/7/2021 inmates.



RPT 1030 (1).pdf

1 / 20

Report ID: 1030
Run Date: 01/09/2021 20:01
Page: 1 of 20

ARIZONA DEPARTMENT OF CORRECTIONS

FACILITY: C37 ASPC-T WHETSTONE
INMATE NOTICE - CUSTODY AND/OR INTERNAL RISK RECLASSIFICATION
[redacted] AS OF: 01/08/2021

Subject: RE: Scheduled reports in PROD

I even modified this procedure at back end and the ran between these periods and the report is returning any rows dev and UAT /PROD.

I thought of creating replica of the existing report with adding new input parameter since it doesn't any have any inmates whose custody or internal risk is changed and approved.

AND class_st_dtm >= TRUNC(26-DEC-20') AND class_st_dtm < TRUNC(sysdate -2).

Is it okay if we hardcode for the entire my missing cycle at a glance?

Subject: RE: Scheduled reports in PROD

Procedure has hardcoded date logic:

AND class_st_dtm >= TRUNC(SYSDATE) – 1

This will need replacing with a parameter which has a default value of sysdate -1 in Telerik for the purpose of the schedule, but can be executed with a given date.

Subject: RE: Scheduled reports in PROD

Perfect – so it's our fault – yes that does change things

First – we should look to see if it is possible to run the reports parameterized by dates. Then estimate how much effort that would take

Our scheduler was down for 2 weeks – what can we do so this won't happen again / or to let us know it's down when it happens and not find out 2 weeks later

Hey Justin

It looks like RPT 2131 is just in the wrong category which is why it shows here. Clicking on 'All Schedules' shows you the full list of reports that have been ran which is correct.

As for the missing reports – there's no way for me to do that. If we need to recover these missing reports then we will have to modify the report to accept input parameters of the given days and then run the schedule each time to run it for that day. Not an easy task and I'll defer to @Thad Lowry and @Joe Miles over us doing that.

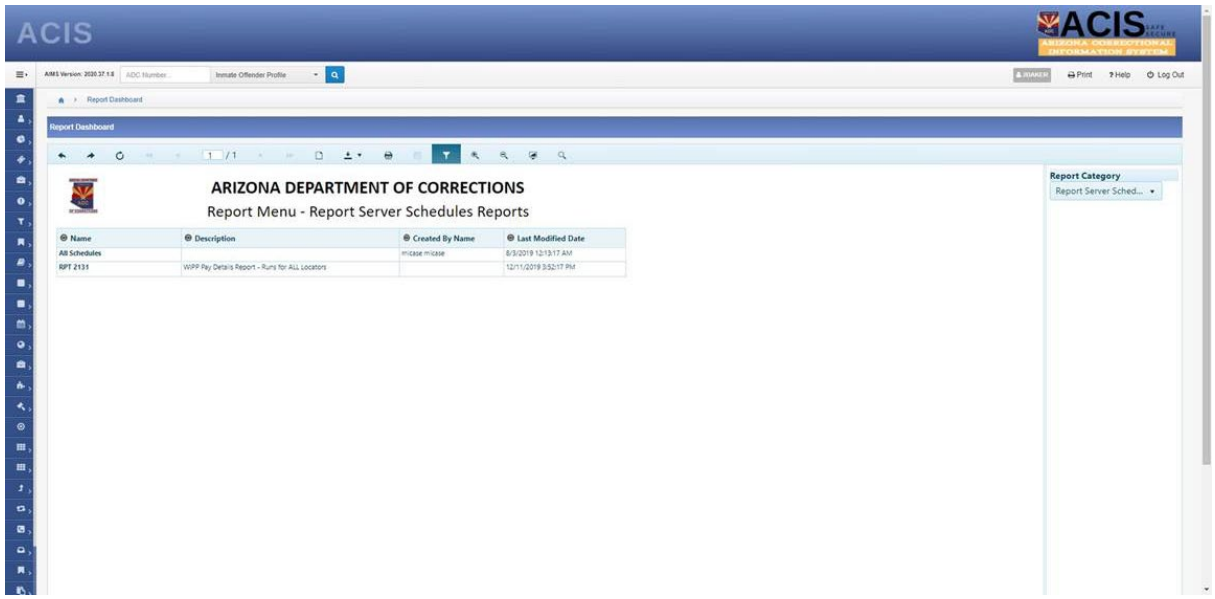
Subject: Scheduled reports in PROD

Hi Chris,

It was my understanding that the issue was resolved in PROD with the scheduled report though its still coming up on the bug review meetings.

First it seems ADCRR is expecting on this screen to show all of the reports that have been ran? Is that the correct behavior for this table to display more than just this one WIPP report?



Secondly she's looking for specifically report 1030. I found that it is running again and its a daily report. She needs the report runs from 12/27/2020 – 1/7/2020 in order to notify these inmates of their classification changes. Are you able go in as an admin and run these missing reports. See below:

Subject: RE: Scheduled reports in PROD

I even modified this procedure at back end and the ran between these periods and the report is returning any rows dev and UAT /PROD.

I thought of creating replica of the existing report with adding new input parameter since it doesn't any have any inmates whose custody or internal risk is changed and approved.

AND class_st_dtm >= TRUNC(26-DEC-20') AND class_st_dtm < TRUNC(sysdate -2).

Is it okay if we hardcode for the entire my missing cycle at a glance?

Subject: RE: Scheduled reports in PROD

Procedure has hardcoded date logic:

AND class_st_dtm >= TRUNC(SYSDATE) – 1

This will need replacing with a parameter which has a default value of sysdate -1 in Telerik for the purpose of the schedule, but can be executed with a given date.

Subject: RE: Scheduled reports in PROD

Perfect – so it's our fault – yes that does change things

First – we should look to see if it is possible to run the reports parameterized by dates. Then estimate how much effort that would take

Our scheduler was down for 2 weeks – what can we do so this won't happen again / or to let us know it's down when it happens and not find out 2 weeks later

Thad

Just so you understand the problem – our scheduling service on the prod server quit working on 12/27 until 1/8, meaning they are missing reports that should have been ran.

Subject: RE: Scheduled reports in PROD

Running reports with as of dates – doesn't always work – need to look at this on a case by case basis – we would need a change request that we could charge the time to, to investigate and the ADC would need to agree to pay for the investigation time if they don't want to go forward

Hey Justin

It looks like RPT 2131 is just in the wrong category which is why it shows here. Clicking on 'All Schedules' shows you the full list of reports that have been ran which is correct.

As for the missing reports – there's no way for me to do that. If we need to recover these missing reports then we will have to modify the report to accept input parameters of the given days and then run the schedule each time to run it for that day. Not an easy task and I'll defer to @Thad Lowry and @Joe Miles over us doing that.

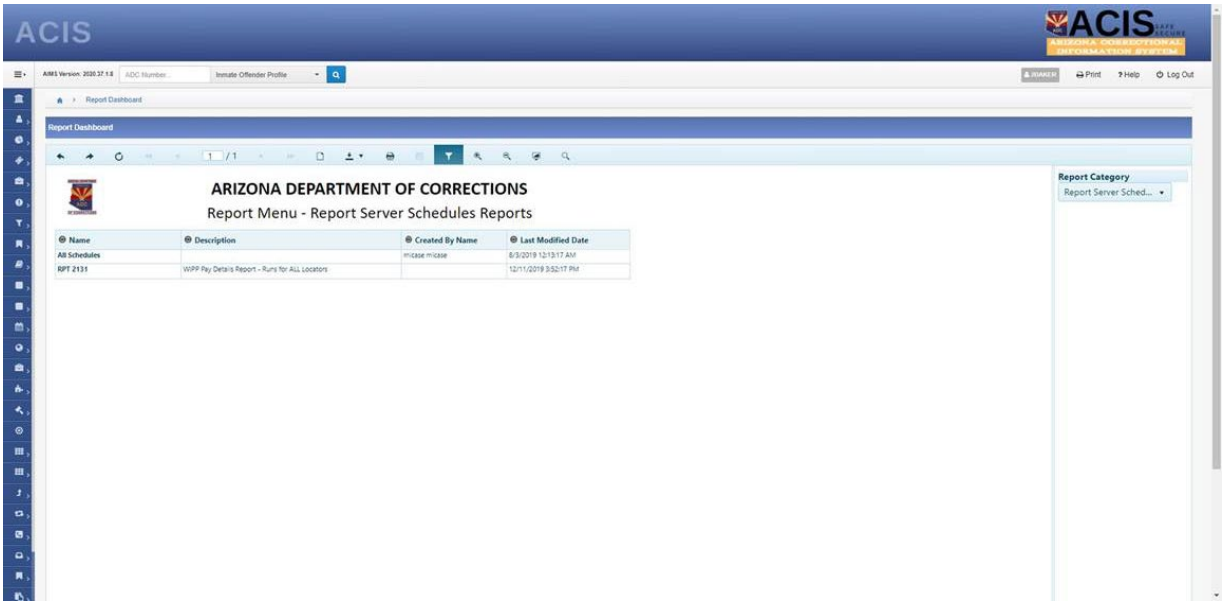
Subject: Scheduled reports in PROD

Hi Chris,

It was my understanding that the issue was resolved in PROD with the scheduled report though its still coming up on the bug review meetings.

First it seems ADCRR is expecting on this screen to show all of the reports that have been ran? Is that the correct behavior for this table to display more than just this one WIPP report?

AMERICAN OVERSIGHT



Secondly she's looking for specifically report 1030. I found that it is running again and its a daily report. She needs the report runs from 12/27/2020 – 1/7/2020 in order to notify these inmates of their classification changes. Are you able go in as an admin and run these missing reports. See below:

Thank you,

I'm not tracking....is this still an issue? I don't want workarounds, I need sustained accessibility.

Joe - Can you help shed some light on this?

Respectfully,

Holly Greene

Subject: ESCALATION: ACIS Report Issues

Hello Joe (Miles)-

We need the below report issue expedited.

Critical ACIS reports are experiencing an issue and require swift resolution ASAP to meet the deliverable to our Legislature.

H310I662/1970
H310I779/1520
H310I746/1220
H310I665/1210
H310I664/1190
H310I672/1140
ACI Cap
H310I672/1140

Please assign appropriately and have that person work with Josh Connolly, Brandi Merritt, and Armando Gonzalez (see the email thread for addresses).

Please provide regular updates to Rusty and Joe with Perry on CC.

Please provide the resolution details to me and James O'Neil.

AMERICAN OVERSIGHT

Respectfully,

Holly Greene

Thanks Josh,

any emphasis to reduce the time to publish this report is appreciated. It is used by leadership with legislatures as we go into session this month and is a critical communication tool for them at this time.

Thanks, James

Subject: ESCALATION: ACIS Report Issues

Hello Joe (Miles)-

We need the below report issue expedited.

Critical ACIS reports are experiencing an issue and require swift resolution ASAP to meet the deliverable to our Legislature.

H310I662/1970
H310I779/1520
H310I746/1220
H310I665/1210
H310I664/1190
H310I672/1140
ACI Cap
H310I672/1140

Please assign appropriately and have that person work with Josh Connolly, Brandi Merritt, and Armando Gonzalez (see the email thread for addresses).

Please provide regular updates to Rusty and Joe with Perry on CC.

Please provide the resolution details to me and James O'Neil.

AMERICAN OVERSIGHT

Respectfully,

Holly Greene

Subject: Re: Request

Joe
Attached is your spreadsheet sent back with revised columns on Tab 2. Also, I have sorted everything under the Amendment 9 items and ranked them on status then estimated FUAT delivery. I have highlighted those items I want a status on prior to the next meeting. These are items that according to your sheet entered FUAT in 2020. The red item is very late. The yellow items were within the last month but I am unclear as to the difference between a 7 - Deployed to FUAT and an 8-Accepted in FUAT. Please clarify.

At the next meeting we will discuss the 2a -Received requirements for Estimation status as there are numerous of those items and I would like to know how long they have been with you for estimate.
Finally we will review all 5a - In development status that have a FUAT delivery date that has either past or is upcoming before the next regularly scheduled meeting.

Thanks and email me if you have any questions.

Thanks,

Barbara

Greetings,

We need to inform AZDOC that not allowing there to be TEST inmate in production it will limit the ability to establish development implemented in production is working as desired. We will have to wait for a real inmate to have action taken on their account that reflects what we need to TEST the development.

With that insight, we need to have TEST scenarios written, that can be used to TRACK a real inmate when that written scenario is done to an inmate.

General Items are:
#1: Inmate PAN
#2: Inmate LOCATOIN
#3: Inmate loss of privilege (SUSPENSION) --- This new item of the API is being developed.

Kind Regards,
Steve Shieldes

Steve & Joe,

Tim sent me an update that ADC does not have any inmate Test accounts:

There is no test account, there are testing environments. But any and all data in the production environment is and must be that belonging to an actual inmate as it is a matter of public record.

On Wed, Jan 6, 2021 at 12:07 PM Timothy Arnold <tarnold@azadc.gov> wrote:
Hi,

Is there an Inmate test account we can use in ACIS? We want to test some issues that Enforcer is having.

Thank You,

Tim Arnold

Can we setup inmate test accounts for IC Solutions and BNDNA to run tests on data sent using the API outside of the ACIS database?

Hello Joe-

Please see the below email and the accompanying attached document.

I have instructed Eli to proceed with adding a note in the weekly status summary.

This is a Q2 parking lot change item which has been pushed by several months. So while the date shows 2/17/21, it was originally slated for October 2020. Development began in August 2020.

I accept the need to flex, but I do not expect it to occur at exhaust.

Thank you,

Holly

To: Holly Greene <hgreene@azadc.gov>

Hi Holly,

Attached is the item fact sheet for 28992. The development date for this one has been moved out several times. The original completion date for development was 10/23/20 and the latest development completion date is now 2/17/21 (testing to begin 2/18/21).

Do you want anything mentioned in the weekly status summary that we are escalating this one to Joe Miles?

Thank-you,

Elizabeth Charif

AMERICAN OVERSIGHT

Item Fact Sheet

Item #: 28992

Type: Parking Lot (2Q2020)

Module: Sentence Calculation

Area of Concentration: Community Supervision End Date

Description of Goal Being Requested:

Requesting to correct the calculation of the Community Supervision End Date (CSED) for violators. Presently, it takes 30 minutes to 1 hour to manually lock a violator. There is a monthly average of 300 violators which needs to be managed.

Functional Impact:

Correction of this calculation will minimize errors and eliminate the need to 'manually lock' violators with the correct date.

> Hi Marlene,
>
> As I mentioned there were some very old emails that were retriggered. In the report you mentioned that the date of the PC email was for December 2019. Also, the system should not have any further issues after resending the old emails that were still in the queue. We may need to look at bugs from a year ago to see if it was ever a reported bug that PC emails were going to the incorrect group of people but my guess is that this will be the case. Also do you have instances of new PC events that are sending emails to the wrong group of people? Based on what we are seeing this is not the case.

Subject: Re: ACIS Communication - ACIS Email Notifications

That doesn't address the entire problem though. The emails are only supposed to go to the identified staff that are assigned to the complex where the inmate is housed. In the example provided it is clear the staff recipients are from all over the state, not just one complex. This became such an overwhelming issue that we have in essence had to turn off all of the emails the PC module is supposed to send because basically the system was "spamming" the staff.

On Wed, Dec 23, 2020 at 1:24 PM Joe Miles <joe.miles@bndna.com> wrote:

> Here is update on email issue:
>
> On 12/21 there was an update to the mail sending service to allow us to better track history of the emails sent for bugs such as 43308 and 42513. In order to make these changes it was necessary to add certain columns to the DB table that is used to track emails needing to be sent. When the script ran to update the table it essentially reactivated some old emails that were never sent probably due to ADC mail server outages but this is not clear. The update script did not distinguish between emails waiting in the queue and those that had been in the queue previously but had failed for a variety of reasons. (no recipient, too many recipients, prior email server outages could be possible reasons) . As a result all the emails in the queue were updated to be sent again and those that could be were. So the emails that went out were probably emails that should have gone out but had failed previously over the past year or so since go live. In any event email should continue to function normally now.

Holly and Joe,

Marlene has submitted a Cherwell ticket for this bug. In the ticket, she stated "Please elevate to B&D as a true bug, Severity Medium, Priority 1 Previous related bugs are 40663 and 40905"

We had a production deployment last night, not sure if the emails were triggered by the deployment.

Subject: ACIS Communication - ACIS Email Notifications
To:

Module: Protective Custody

Audience: Wardens, Deputy Wardens, Associate Deputy Wardens, CO IVs, SSU staff

The ACIS system inappropriately sent out multiple emails to a large number of staff last night. The emails were sent with two separate subject lines: "Prot Cust DW Review Status Change" and "Recommendation Alternative GP Placement - NOT Accepted". Please disregard the emails. The ACIS support team has redirected all emails from the Protective Custody module to the Protective Custody Administrator with the exception of the notices to mental health staff as required by policy. We are elevating the problem to the vendor. We apologize for the inconvenience.

AMERICAN OVERSIGHT

Hello again, Joe-

The table below contains the original estimates we received on 11/23/20. It matches what I initially sent to you. I was ready to pull the trigger on consumption of hours from M&O, but I'm now more informed. It appears what I received was not a cap.

I'd like these 6 to remain at 1223.32.

CR/ TFS #	Title	Module	Hours
43532	DNHW (Do Not House With) Screen/Data Changes	Do Not House With (DNHW)	533
37366	Classification: Mental Health Overrides	Classification	158
42463	Gang Intelligence Search	Security Threat Group	61
40685	Warrants	Warrants	210
35571	Victim Services: Type of Victim	Victim Services	104.32
43330	1099	Intake	157
		TOTAL	**1,223.32**

AMERICAN OVERSIGHT

This is presenting a moving target for me and one which is tough to manage.

Please provide confirmation of the true totals for those which were already estimated (noted below). I realize there are items which are still undergoing the estimation effort, so please know that I'm not looking for those estimates at this time.

Please respond to all on this email communication.

CR/ TFS #	Title	Module	Hours
42463	Gang Intelligence Search	Security Threat Group	61
35571	Victim Services: Type of Victim	Victim Services	104.32
43330	1099	Intake	157
40685	Warrants	Warrants	210
37366	Classification: Mental Health Overrides	Classification	158 - original estimate received 323 - modified estimate received
43532	DNHW (Do Not House With) Screen/Data Changes	Do Not House With (DNHW)	533 - original estimate received 549 - modified estimate received
42176 **42177**	Senate Bill 1310 & Drug Possession Transition (SB1496)	Sentence Calculation	Estimate received for 42177 so far (2230 hours)
43511	Letterhead	Global	
41273	Warrants	Warrants	425
43533	Home Plans	RMS	
41272 41276 42018 42020	Enforcer: LOP Start/Stop	Interfaces	Estimate received only for 41272 so far (400 hours)
32023 41275 41279 **42438**	Enforcer: Phase Level	Interfaces	Estimate received only for 42438 so far (195 hours)

AMERICAN OVERSIGHT

Subject: Re: ACIS Communication - ACIS Email Notifications

I believe that no one is receiving emails regarding new PC cases at all because of the changes I had to make in the admin tables because everytime we tried to allow the system to send the emails, it sent anywhere from 2-16 emails per event (to the same person). The only emails that I am aware of that are still allowed based on the admin tables are the ones to the PCU CO IVs, to me and the ones between the CO IV/SSU and DW when an extension is requested and/or granted. The open bugs for PC emails are: 44130 (resolved) 42513 and 43308.

> As I mentioned there were some very old emails that were retriggered. In the report you mentioned that the date of the PC email was for December 2019. Also, the system should not have any further issues after resending the old emails that were still in the queue. We may need to look at bugs from a year ago to see if it was ever a reported bug that PC emails were going to the incorrect group of people but my guess is that this will be the case. Also do you have instances of new PC events that are sending emails to the wrong group of people? Based on what we are seeing this is not the case.

That doesn't address the entire problem though. The emails are only supposed to go to the identified staff that are assigned to the complex where the inmate is housed. In the example provided it is clear the staff recipients are from all over the state, not just one complex. This became such an overwhelming issue that we have in essence had to turn off all of the emails the PC module is supposed to send because basically the system was "spamming" the staff.

AMERICAN OVERSIGHT

emails sent for bugs such as 43308 and 42513. In order to make these changes it was necessary to add certain columns to the DB table that is used to track emails needing to be sent. When the script ran to update the table it essentially reactivated some old emails that were never sent probably due to ADC mail server outages but this is not clear. The update script did not distinguish between emails waiting in the queue and those that had been in the queue previously but had failed for a variety of reasons. (no recipient, too many recipients, prior email server outages could be possible reasons) . As a result all the emails in the queue were updated to be sent again and those that could be were. So the emails that went out were probably emails that should have gone out but had failed previously over the past year or so since go live. In any event email should continue to function normally now.

Best Regards,

Joe

Holly and Joe,

Marlene has submitted a Cherwell ticket for this bug. In the ticket, she stated "Please elevate to B&D as a true bug, Severity Medium, Priority 1 Previous related bugs are 40663 and 40905"

We had a production deployment last night, not sure if the emails were triggered by the deployment.

Module: Protective Custody

Audience: Wardens, Deputy Wardens, Associate Deputy Wardens, CO IVs, SSU staff

The ACIS system inappropriately sent out multiple emails to a large number of staff last night. The emails were sent with two separate subject lines: "Prot Cust DW Review Status Change" and "Recommendation Alternative GP Placement - NOT Accepted". Please disregard the emails. The ACIS support team has redirected all emails from the Protective Custody module to the Protective Custody Administrator with the exception of the notices to mental health staff as required by policy. We are elevating the problem to the vendor. We apologize for the inconvenience.

Subject: B&D Ticket Management

Hi Joe-

I had it on the tip of my brain, but the memory seized while we were on the phone.

I would like you to schedule a meeting with me and Perry Craglow the week of 1/11/21 to discuss the Service Desk process, ticket management and communication.

Previously, we received a report from Charles which contained all of the tickets my team submitted to B&D for resolution (these are incidents, not known project related TFS parking lot/bugs/euil). It was a great report.

I'd like to begin receiving that type of report regularly and we'd provide the same to you. I also would like to have a regular meeting to discuss the metrics and if SLAs are met/missed, etc.

As fo the Service Desk process, I'm hearing there are gaps in our support, ADCRR IT and possibly B&D. With that, I'd like to have the two support teams come together to talk through the process and allow them to express whether or not it's working; and if there's anything we need to do to make it more successful.

This meeting should focus on the incident intake process, communications/interactions with the customer community, and resolution expectations based on the type of issue and its priority.

Let's use the meeting time to talk through those pieces noted above and to work through next steps with regard to intent, subject, action, audience, and conversational cadence.

Respectfully,

Holly Greene

Holly and Joe,
Marlene has submitted a Cherwell ticket for this bug. In the ticket, she stated "Please elevate to B&D as a true bug, Severity Medium, Priority 1 Previous related bugs are 40663 and 40905"
We had a production deployment last night, not sure if the emails were triggered by the deployment.

Subject: ACIS Communication - ACIS Email Notifications
To:

Module: Protective Custody

Audience: Wardens, Deputy Wardens, Associate Deputy Wardens, CO IVs, SSU staff

The ACIS system inappropriately sent out multiple emails to a large number of staff last night. The emails were sent with two separate subject lines: "Prot Cust DW Review Status Change" and "Recommendation Alternative GP Placement - NOT Accepted". Please disregard the emails. The ACIS support team has redirected all emails from the Protective Custody module to the Protective Custody Administrator with the exception of the notices to mental health staff as required by policy. We are elevating the problem to the vendor. We apologize for the inconvenience.

I don't really know. I never received any of the emails, but I received several calls complaining about it. I went into Admin tables and changed all of the notifications for PC except those going to Mental Health. I only received one more after I made the changes, but it was a different reason type. Maybe we will see tonight. The samples that were sent to me were all from about 2000 hours last night.

AMERICAN OVERSIGHT

Regarding ACIS Q4 work estimates, I had requested that the hours provided be capped. It appears a few of them were re-estimated and others were not firmed up before information was provided.

This is presenting a moving target for me and one which is tough to manage.

Please provide confirmation of the true totals for those which were already estimated (noted below). I realize there are items which are still undergoing the estimation effort, so please know that I'm not looking for those estimates at this time.

Please respond to all on this email communication.

CR/ TFS #	Title	Module	Hours
42463	Gang Intelligence Search	Security Threat Group	61
35571	Victim Services: Type of Victim	Victim Services	104.32
43330	1099	Intake	157
40685	Warrants	Warrants	210
37366	Classification: Mental Health Overrides	Classification	158 - original estimate received 323 - modified estimate received
43532	DNHW (Do Not House With) Screen/Data Changes	Do Not House With (DNHW)	533 - original estimate received 549 - modified estimate received
42176 **42177**	Senate Bill 1310 & Drug Possession Transition (SB1496)	Sentence Calculation	Estimate received for 42177 so far (2230 hours)

Hi Eli-

Please see the attached proposed estimation of work for the ACIS Property module. I need you to help us find out if these changes are needed, and if they will have a positive impact on the Property module. It's my understanding that the module is not functional at all. So this change should actually breathe life into it.

Please schedule a meeting with the stakeholder(s) of the module and include Joe Miles, me and Sandy in that meeting.

Respectfully,

Holly Greene

Hello Joe-

Attached is a status report which Eli provides to me weekly. The information contained in this report is tracked by ADCRR and we do cross reference said information with B&D resources.

We are tracking all Change request items which are in hopper (EUIL, Parking Lot and Amendment 9).

Please let us know if you have any questions. **I will look to Eli to send this to this group via email on a weekly basis.**

Respectfully,

Holly Greene

Reporting Period: 12/08/20 - 12/14/20			
ADCRR Contact	Elizabeth Charif	**Phone, Email:**	602-542-4885, echarif@azadc.gov
High-Level Summary	• 6 items (1 Parking Lot, 5 EUIL) were tested and approved to move forward. They are expected to move to Production on 12/21/20. • 480 hours were billed for the 4 items that moved to Production on 12/07/20. • 1 item was cancelled and removed from the EUIL list since it was no longer needed. • 3 items completed development and began testing by Operations. • The new bug opened last week for Old Code not calculating correctly with discipline is currently with B&D. However, there has been an ongoing dialogue between B&D and ADCRR to get the bug resolved as quickly as possible. • Item 40386 remains on the escalation list until the bug affecting it has been resolved. That bug was re-tested by Marlene on 12/14 and sent back to B&D as partially resolved. The two Amendment 9 items remain on the escalation list this week as well.		

Quantitative Metrics: Remediation Items

	EUIL	Parking Lot	Amend 9
Total Items (12/14)	154	330	2
Total Items (12/07)	155	330	2
Total Hours Billed	509.5 (6)	744 (6)	1,000
Actual Hours Spent	2,253.5 hours \ $225,350		
Hours Remaining	7,746.5 hours \ $774,650		0
Estimated Approved Hours	5,115 hours \ $511,500 (2Q2020) 3,360 hours \ $336,000 (Low Hanging Fruit)		1,000 hours \ $100,000
Total Estimated Approved Hours	9,475 hours \ $947,500		

Item Status Summary

30	In Progress	19	Completed	3	Escalation	186	Cancelled

Hi Eli,

I have updated the ACIS System Improvement and EUIL Hours Tracking Spreadsheet and the M and O Tasks Project Plan on SharePoint

Both are up to date as of noon today

Thad

Date: Tuesday, December 15, 2020 12:43:15 PM
Attachments: image001.png
image002.png
image003.png
image004.png

Oracle patches are released quarterly, windows patches are monthly. I can't speak to if ADCRR needs to perform updates on their side. Maybe Keith knows?

1. Oracle NON-PROD: DB instance is running oracle-ee version 19.0.0.0.ru-2020-04.rur-2020-04.r1. Upgrade to version 19.0.0.0.ru-2020-10.rur-2020-10.r1
2. Oracle PROD: DB instance is running oracle-ee version 12.2.0.1.ru-2019-07.rur-2019-07.r1. Upgrade to version 12.2.0.1.ru-2020-10.rur-2020-10.r1
3. Windows patches are applied as part of the DevOps deployment process. Each time a deployment occurs the latest patches are applied as part of the process. PROD windows patches are frozen to the October release due to the last 2 incidents. We anticipate to resume the PROD patching process in January.
4. Load Balancers are AWS ELB, a SaaS service patched/updated by AWS.

You should not have to perform any updates on your side

Thad

Subject: Re: Oracle Database Patching

Hello,

Thank you for the response. So that I can fully ascertain what degree of risk certain patching schedules would be, can you please let me know the following?

1. What is the current patching level of the Oracle database? When was it last patched?
   1. If the production database is updated, do the databases within ADCRR need to be updated at the same time and to the exact same level?
2. Are there other items in the environment that require patching? (Load balancers, web servers, etc.)
   2A. If so, what are those items (Operating System/program) and when were they last patched?

Depending on how many patches need to happen, and how severe the corresponding vulnerabilities are, would drive the patching timeline.

Hi Joe,

I hope you are well and enjoyed Thanksgiving?

Its hard to believe it, but it has been a year since we switched ACIS on for ADCRR. Not sure where the time has gone, I think this pandemic has made the months fly by!

One of my team decided to pull together a little retrospective of the system since go live! It is nothing formal and I am sure the figures could be looked at from different angles, but I liked the output and thought that you would appreciate it too.

I have attached it for your edification.

Thanks and stay safe sir!

Dean

Subject: Re: ACIS Governnace
Date: Tuesday, November 24, 2020 9:02:43 AM

Jeff-

Not a good plan. Any actions you feel can be taken, requires research on your part. This does not become a leadership decision until we are presented with the known facts - pros and cons - impact.

If this is one of their reports which they created, then you must work with B&D to ensure that we do not sever their responsibility from the report.

Review the M&O information you should have received yesterday which lists all of the reports covered by B&D.

Work with Joe Miles to find out what we can and can't do so as not to back ourselves into a corner.

Please, be thoughtful regarding your next steps and come to your leadership team with a plan.

Thanks,

Holly

On Tue, Nov 24, 2020 at 8:55 AM Jeff Woodward <jwoodward@azadc.gov> wrote:

> Holly,
>
> I have no problem editing B&D's existing report, and that would actually be the easiest and quickest option since we do have that access, but I imagine that B&D would no longer want to be responsible for that report once we've modified it. If that's not an issue then I'll go ahead and just make the change, barring any objections from anyone in this thread.

Thank you, Joe.

Hi Eli-

Please follow-up with the Stakeholders on these two items. I'd like a status update before the end of the week.

Respectfully,

Holly Greene

> Holly and Rusty,
>
> Per your inquiry I have been working with the development team on issues associated with EUIL items 21283 and 36608 as part of the Amendment 9 group. These two items have been reported as deployed to F/UAT and showing 80% complete for some time. I am not sure what Charles has reported to you on these items; however, after extensive discussion with the development team and Dean Allen these two items should have been reported as 100% complete as both are functioning as designed per ADC original requirements.
>
> Apparently for some time ADC has been reporting BUG issues with these items stating that the expected calculation data is not being produced. The calculation data being provided is exactly what it should be based on the original requirement. The development team shared with me that what ADC is expecting would require enhancements on both and be processed as new system improvements.

AMERICAN OVERSIGHT

We can discuss on our call today.

AMERICAN OVERSIGHT

Remove access for everyone
- And then add back access for all of the people that you have identified

If you miss anyone and they request access we will confirm with you that they are intended to have access and then grant access as requested

Thanks,

Thad

Subject: Re: Incident Report
Date: Wednesday, November 11, 2020 1:44:22 PM

Thank you, Joe. I'd like to discuss this further as I'm unclear as to what was specifically deployed that caused the outage.

This issue has occurred multiple times with no change to the long term solution proposed in September and October. There seems to be slight differences in the long term proposed in the attached from those in the past, but have any been implemented yet? If not, when can we expect implementation and testing outside of prod pushes so as to minimize impact to prod? Is this causing any corruption to those changes pushed? Have some been drawn back? Is there any correlation between one or more of the changes to the outage cause?

My expectation is the exploration of root cause is presented to ADCRR and if possible, that paths of testing a solution is done so in a lateral environment to prove the stability and sustainability prior to final deployment to prod. This would mean that the test environment is a precise replica - drivers, data and all.

Thanks,

Holly

Attached is the incident report for the outage on 11/9 as promised.

Best Regards,

Joe

AMERICAN OVERSIGHT

ACIS Deployment Incident

Overview 1

Incidents 1

Monitoring & Notifications **Error! Bookmark not defined.**

Initial 1

Additional monitoring & notifications **Error! Bookmark not defined.**

Reporting on the queue **Error! Bookmark not defined.**

Health Check **Error! Bookmark not defined.**

Overview

The ACIS application was offline on 11/09/2020 during a PROD deployment push. The deployment process has many checks and balances in place to catch for errors. In this case the process returned a success even though the underlying driver was not 100% successful.

Incident

1. An outage occurred due to an issue with the base image.
2. The base image failed to completely configure IIS with the corresponding websites.
3. The prod push revealed this problem as default IIS welcome page

Troubleshooting & Quality

Immediate

To solve this one, the base image was reverted back to 10/24. PROD is now locked into this proven/working base image. The strategy is to continue this operation for 30 days.

Long term

Since the problem is now a systemic issue a multi-pronged approach will be taken.

1. PROD Base image using the 10/24 proven/working base image. -complete
2. Additional testing steps on the base image process
3. Evaluate changing the Oracle driver from EXE to MSI
4. PROD architecture change ie: PRODA/PRODB method

AMERICAN OVERSIGHT

Summary

The immediate proposed solutions will be documented and flushed out prior to implementation.

AMERICAN OVERSIGHT

Hello Rocky

First I would like to say it was a pleasure speaking to you last Wednesday, following from that call we agreed to share some information. Please see attached the last version of the SLA agreement and License that was sent to ADCRR. This issue has been taking some time to resolve and conclude, so I am formally asking we set a deadline of the 25th September to conclude both topics, is that achievable?

We agreed that I share with you the BDNA expectation around the billable items and non-billable items of the contract. As far as BNDNA are concerned, there is no confusion around these items as they are stated within the contract and subsequent amendments. However it seems that there is some clarification requested on the ADCRR side.

For clarity:

Anything that is related to the maintenance of the system, as it was implemented on the 2nd December 2019, is considered Maintenance.

Anything that enhances, improves, changes, modifies the system in any way or is found to not be the fault of BDNA is considered chargeable and the hours shall be deducted from the M&O Support Hours.

As discussed on the telephone and during our call on the 2nd September 2020, Business and Decision, from this point forward will notify ADCRR in writing of an item that shall require hours to be deducted from the M&O Support Hours, this process will be the same as that which is being executed today for EUIL. ADCRR shall approve, ahead of BND commencing any work, the use of the M&O hours for the item that has been quoted. We hope this will make those M&O hours more controllable for ADC.

In the event that a support ticket is raised with BDNA, that requires BNDNA to perform tasks that go beyond triage of the ticket, and it subsequently is found that the issue is not the fault of BDNA, then BDNA will notify ADC that hours related to the remediation of this will require hours from the M&O hours. BDNA will await the approval of ADCRR before commencing any remediation.

AMERICAN OVERSIGHT

Finally – I understand that there is outstanding approval from past M&O activities for Performance Improvements, Document Storage, and other items, (192hrs) that I would like to seek approval so that we can move forward with a clear and clean situation with the above future approval process, could you please provide feedback on these topics, the items are detailed in the below screenshot highlighted in red.

M&O Work Item	Time Period	Credit	Debit	Balance	Period Totals
M/O Signed Agreement	5/1/2020	10,000		10,000.00	
Hours in Arrears	Pre-Signed Agreement	100	721.50	9,378.50	
Project Management	5/24/2020 - 7/31/2020		180.00	9,198.50	736.25
Performance Improvement	5/24/2020 - 7/31/2020		322.50	8,876.00	
Document Storage	5/24/2020 - 7/31/2020		147.00	8,729.00	
Excessive Postback	5/24/2020 - 7/31/2020		14.50	8,714.50	
AD HOC Support	5/24/2020 - 7/31/2020		68.25	8,646.25	
Arbritration	5/24/2020 - 7/31/2020		2.00	8,644.25	
Parking Lot	5/24/2020 - 7/31/2020		2.00	8,642.25	
Project Management	8/3/2020 - 8/7/2020		10.00		51.50
Performance Improvement	8/3/2020 - 8/7/2020		4.50		
Document Storage	8/3/2020 - 8/7/2020		4.50		
40707: RMS Homeless Home Plans	8/3/2020 - 8/7/2020		16.75		
40748: COUNT - Inmates Leaving	8/3/2020 - 8/7/2020		5.75		
AD HOC Support	8/3/2020 - 8/7/2020		10		
Project Management	8/10/2020 - 8/14/2020		24.5		32.75
Performance Improvement	8/10/2020 - 8/14/2020		3		
Document Storage	8/10/2020 - 8/14/2020		1.5		
AD HOC Support	8/10/2020 - 8/14/2020		3.75		
Project Management	8/17/2020 - 8/21/2020		35.00		66
Performance Improvement	8/17/2020 - 8/21/2020		11.50		
Document Storage	8/17/2020 - 8/21/2020		3.00		
AD HOC Support	8/17/2020 - 8/21/2020		16.50		
Project Management	8/24/2020 - 8/28/2020		20.00		42.5
Performance Improvement	8/24/2020 - 8/28/2020		2.50		
Document Storage	8/24/2020 - 8/28/2020		12.50		
AD HOC Support	8/24/2020 - 8/28/2020		7.50		
Total				8,642.25	192.75

Feel free to call me should you wish to discuss these items.

Thanks

Dean

As discussed on the telephone and during our call on the 2nd September 2020, Business and Decision, from this point forward will notify ADCRR in writing of an item that shall require hours to be deducted from the M&O Support Hours, this process will be the same as that which is being executed today for EUIL. ADCRR shall approve, ahead of BND commencing any work, the use of the M&O hours for the item that has been quoted. We hope this will make those M&O hours more controllable for ADC.

In the event that a support ticket is raised with BDNA, that requires BNDNA to perform tasks that go beyond triage of the ticket, and it subsequently is found that the issue is not the fault of BDNA, then BDNA will notify ADC that hours related to the remediation of this will require hours from the M&O hours. BDNA will await the approval of ADCRR before commencing any remediation.

Finally – I understand that there is outstanding approval from past M&O activities for Performance Improvements, Document Storage, and other items, (192hrs) that I would like to seek approval so that we can move forward with a clear and clean situation with the above future approval process, could you please provide feedback on these topics, the items are detailed in the below screenshot highlighted in red.

AMERICAN OVERSIGHT

M&O Work Item	Time Period	Credit	Debit	Balance	Period Totals
M/O Signed Agreement	5/1/2020	10,000		10,000.00	
Hours in Arrears	Pre-Signed Agreement	100	721.50	9,378.50	
Project Management	5/24/2020 - 7/31/2020		180.00	9,198.50	736.25
Performance Improvement	5/24/2020 - 7/31/2020		322.50	8,876.00	
Document Storage	5/24/2020 - 7/31/2020		147.00	8,729.00	
Excessive Postback	5/24/2020 - 7/31/2020		14.50	8,714.50	
AD HOC Support	5/24/2020 - 7/31/2020		68.25	8,646.25	
Arbritration	5/24/2020 - 7/31/2020		2.00	8,644.25	
Parking Lot	5/24/2020 - 7/31/2020		2.00	8,642.25	
Project Management	8/3/2020 - 8/7/2020		10.00		51.50
Performance Improvement	8/3/2020 - 8/7/2020		4.50		
Document Storage	8/3/2020 - 8/7/2020		4.50		
40707: RMS Homeless Home Plans	8/3/2020 - 8/7/2020		16.75		
40748: COUNT - Inmates Leaving	8/3/2020 - 8/7/2020		5.75

To: Joseph Profiri
Subject: Introduction
Date: Friday, October 23, 2020 7:00:37 AM

Joe,

Hope all is well with you this morning! As Dean stated in the introduction yesterday I will be working with ADC on delivery of services from Business and Decision. I have already reached out to Holly and will be meeting with other support staff members next week.

I would love the opportunity to have a short introductory phone call with you anytime you have available. If you could provide your contact number and best date and time for a phone call it would be much appreciated.

Look forward to working with all the great ADC staff on behalf of Business and Decision.

Best Regards,

Joe

Holly,

Sounds great will set up meeting with you three for early next week.

Appreciate all the quick email responses and information!

Best Regards,

Joe

Hello Joe-

Below is a communication I sent to the teams earlier today concerning the body of work to consume the Additional Remediation hours. Please schedule time with me, Rusty Johnson (Deputy CIO) and Elizabeth Charif (BA) to review and answer any questions you may have. **Their email addresses are located in the CC field of this message.*

Respectfully,

Holly Greene

Hello everyone-

The low-hanging fruit list provided by B&D below has my full approval to begin development work. We, ADCRR, received and signed the formal MiCase Change Request approval forms for both 31001 and 40748 as these two crossed the Q4 list. Both forms were sent back to Eli this morning so she may communicate out as appropriate. I do not expect MiCase forms the remaining items on the list below as the rest do not cross into Q4 items.

Hi Eli-

I look to you to take the lead and begin the coordination efforts of development work between all required parties.

Respectfully,

Holly Greene

Thank you, Charles.

Below notes the conversion to hours which totals: **3240**. Items **40748 and 31001** are noted on the Q4 list which was provided to B&D so they may assign estimates to each Q4 item using the same process as they did for those noted below. Once we receive the estimates for Q4, we will have an internal discussion concerning the next steps.

CR	Module Name	Title of Change Request	Estimated Effort (Days)	Hours
40748	Count	COUNT- Inmates leaving PHX Complex to Prisons around the state were scheduled through the Transportation Module.	30	240
42624	Discipline	Disciplinary- Admin need to ability to add and or de-activate disciplinary charges within ACIS.	30	240

AMERICAN OVERSIGHT

		Currently this admin is unable and when I requested help from B&D I was advised to enter a bug.		
42866	Count	BUG: For the PRT-500 Count Sheet to utilize more of the paper it's printed on. The aims1 count sheet displayed twice as many. EXPECTED RESULTS: To be able to add more inmates per sheet of paper like AIMS1. Whether it's the PRT 500 or count sheets printed through the count module.	15	120
42723	Intake	Inmate Search: Include a filter for Inmate Status and Gender	15	120
42693	Programs	Auto-populate Quality Review screen with as much information as possible	15	120
31001	Programs	UC-PR-3.06: Unable to enter number with decimals for Hours Completed on Manage Participation screen	15	120
36603	Programs	UC-PR-2.60: Priority Ranking Report should not appear for WIPP / Work	15	120
42699	Intake	Fingerprint Date should display the most recent admission date	15	120
39610	Interfaces-Medical	UC-PR-2.40: COIII / COIV roles unable to access Medical and Mental Health screen (POA section only)	15	120
39679	Interfaces-Medical	Centurion: SMI-C should not be a field that can be manually entered by anyone except for an Admin.	15	120
39886	Interfaces-Medical	Centurion: The mental health tab should not be accessible by everyone	15	120
40864	Interfaces-Medical	Medical Notes should only be visible to medical and mental health staff	15	120

Hi Charles-

Just seeking some clarification:

1. Is it possible these estimations will change?
2. How many hours do the days translate to?

Respectfully,

						New calculation requirements in legislation for	In July, 2019, legislation was passed that added a whole new calculation to Truth-In-Sentencing inmates. There is	

AMERICAN OVERSIGHT

1	Stacey Crabtree	**Senate Bill 1310 & Drug Possession Transition (SB1496)**	Sentence Calculation	Sentence Structure and Transition	Calculations Enhancements	Truth-in-Sentencing that allows inmates who meet set criteria to earn time-served credit at a faster rate.	no system workaround to account for these inmates and the time comp unit is having to rely on ad hoc reports to catch all of these inmates. Both of these programs are monitored closely by the community.	42176 42177
2	Stacey Crabtree	**DNHW (Do Not House With) Screen/Data Changes**	Do Not House With (DNHW)	Inmate Housing	Workflow Improvement	Display the locator code and pending movements of inmates on the Do Not House With screen, and enable the ability to screen for Do Not House With at associated locator codes.	There is currently a staff-intensive workaround that involves looking up each of the inmates on the 'Do Not House With' list and verifying their locator code. In addition, the current tool in ACIS does not identify a conflict between those units which could result in inmates being placed at risk.	43532
3	Stacey Crabtree	**Letterhead**	Global	Forms	Workflow Improvement	Allow all letterheads, footers, forms, logos, signatures, and footers to be configurable by ADCRR.	The headers and footers of letters and forms generated in ACIS are not currently configurable by ADCRR. We need the ability to update these on our own, because the information needs to be updated when there's a change to the director, governor, administrators, phone numbers, or agency name change.	43511
4	Stacey Crabtree	**Transportation Order Search and Tracking During Movement**	Transportation	Transportation and Movement Queue	Workflow Improvement	Add an ADC# search and filter to the Transportation Queue and Travel Orders screens. Additionally, after an inmate is moved through the Transportation Queue, they should display on the 'out count' of the receiving prison.	Staff have to search through an average of 500+ inmates in the Transportation Queue to find a single inmate to move. The addition of an ADC# search will shorten the number of steps the staff need to perform in order to find a single inmate on the Transportation Queue. The next part of the problem is that once an inmate is moved using this same Transportation Queue, they are in "en-route" status; this means the inmate is not showing up on either the sending or receiving prison's 'out count'. This results in inmates not being accounted for in a timely manner.	41171 40748
5	Stacey Crabtree	**Classification: Mental Health Overrides**	Classification	Steps & Inmate Privileges	Workflow Improvement	Allow the ability to do step reviews for inmates in mental health units and facility overrides at max units.	Inmates receiving mental health treatment in max custody are not able to participate in the Step Program; this results in inmates not receiving the appropriate privileges.	37366
6	Stacey Crabtree	**Gang Intelligence Search**	Security Threat Group	Gang Search	Data Integrity	When a Criminal Street Gang (CSG) is changed to a Security Threat Group (STG), all inmates tagged as the former CSG should remain tagged but now as an STG.	Criminal Street Gangs (CSG) can be certified as Security Threat Groups (STG) by the Director. When this is done, there is no way to identify those inmates associated to those gangs in the Gang Intelligence Search; we lose the data of the tags when the gang changed over from a CSG to an STG. This change request will display those inmates who were in a CSG but were recertified as an STG.	42463
7a	Karen Hellman	**Warrants**	Warrants	Warrants	Workflow Improvement	Users are unable to modify the Fugitive Services Unit (FSU) Review screen on a warrant that's not in FSU Review status. The FSU Review screen should be able to be modified regardless of warrant status.	This will eliminate the need for multiple users' involvement in order to facilitate the completion of the FSU Review screen. Current workaround involves three staff members to process their portion of a warrant, as opposed to one staff member being able to process a warrant in the legacy system.	40685
7b	Karen Hellman	**Warrants**	Warrants	Legal Documents	Data Integrity	The "Current Release Status" and "Release Type" fields are not correct on the first page of a printed warrant.	The printed warrant is a legal document which is reviewed by the Board of Executive Clemency (BOEC), lawyers, judges and other law enforcement agencies. This would eliminate the workaround of having to make written changes to the document, which results in additional process steps.	41273
8	Karen Hellman	**Home Plans**	RMS	Home Plans	Workflow Improvement	Implement the following for new Release Unit processes to be added in ACIS: 1) All homeless home plans need to have the homeless toggle in the home plan selected. When the homeless toggle is active, the homeless home plan needs to automatically route to the "Release Unit" CC Office. 2) TR to ADD and ADD release types do not need a Home Plan; Home Plan column on Release Dashboard should not reflect a "pending" status. 3) When release type is TR to ADD or ADD, TR to ADD cannot be denied for homeless. 4) Release Unit role/workflow needs to be added to existing homeless home plan approval	Release Unit roles/processes were not part of the initial ACIS implementation. This request will add those roles/processes to ACIS, which will result in more efficient release and home plan workflows	43533
9	Gergana Kovatcheva	**Payroll**	Programs	Inmate Pay, KeepTrak	Workflow Improvement	Unable to enter number with decimals for hours completed on Manage Participation screen. Requesting ability to pay in partial hour increments.	Without the ability to pay inmates in partial hours, inmate's time is being rounded up. This results in the overpayment to inmates. Additionally, when the inmate works for an IGA, ADCRR is reimbursed only at the actual hours worked, resulting in a significant increase in WIPP funds being paid for work not performed.	31001
10	Gretchen Mcclellan Singh	**Victim Services: Type of Victim**	Victim Services	Process efficiency	Improved User Experience	Add a new column on the Victim Search screen called "Type of Victim" so that staff can quickly and easily see which type of victim they are viewing (i.e: true victim, judge, county attorney, arresting agency, courtesy notice, etc.) without having to click into each profile.	It's time consuming for the victim services staff to click into the profile of each victim to verify their type. During phone calls with victims, staff need to be able to quickly look up the victim's information and see right away what type of victim they are before giving out any information because not all types of victims are entitled to the same information.	35571
11	Stacey Crabtree	**Enforcer: LOP Start/Stop**	Interfaces	Loss-of-Privileges (LOP) Start/Stop	Workflow Improvement	When an inmate receives an LOP sanction, his Status should remain Active and his Class of Service (COS) should change to "nocall". When LOP expires in ACIS, it should change the COS in Enforcer from "nocall" to current COS.	This manual workaround is labor-intensive; it requires the Disciplinary Coordinators to keep track when an inmate's Loss-of-Privileges expires and make adjustments in Enforcer and KeepTrak.	41272 41276 42018 42020
12	Stacey Crabtree	**Enforcer: Phase Level**	Interfaces	Phase Level, KeepTrak, Enforcer, Visitation, Property, Work Assignments and Recreation.	Workflow Improvement	When a phase (step) in Close Management is changed, it should be reflected in the Banner, Count Sheet, and EIP Summary.	Changes in phase levels affects numerous privileges the inmate receives, such as the number of calls he can make per day, visitation, property, work assignments and recreation.	32023 41275 41279 42438
13	Stacey Crabtree	**Make Corrections to submitted Protective Custody**	Protective Custody	Protective Custody (PC) Data Corrections	Data Integrity and Improved User Experience	The request is to add the ability to make corrections to the Protective Custody forms after they have been submitted.	After any of the Protective Custody forms have been submitted, they can no longer be edited in ACIS. So, if a mistake was made then the only workaround is to create an Incident Report (IR) and upload the physical form with the corrections into the system. However, it's then easy for users to not see the uploaded forms and the incorrect data is still in ACIS on the Protective Custody screens.	42702
14	Stacey Crabtree	**Enforcer: Visitor PAN**	Interfaces	Visitor Personal Allowed Numbers (PAN)	Workflow Improvement	When a visitor profile is active in ACIS, it should be active in Enforcer and vice versa. This is not happening right now in Enforcer. Also, all of the Visitor Personal Allowed Numbers (PAN) within Enforcer should become inactive when an inmate is released and this is also not currently occurring.	The workaround is to manually make the changes in Enforcer so the field needs to submit a Service Desk ticket when they are made aware of the issue. This workflow is both time consuming and staff intensive and should be automated.	35680 41403 42019
15	Vanessa Headstream	**Medical Quality of Care**	Interfaces	eOMIS Updates	Data Integrity and Improved User Experience	Implement the following on the Medical/Mental Health screens and eOMIS interface: 1.) Update the eOMIS interface to receive quantiferon gold from eOMIS and display the results on the Medical screen in ACIS. 2.) Display mental health scores for inmates returning to custody that previously have had the same mental health score. Currently ACIS only displays the mental health score of a returning inmate if their mental health score has changed. 3.) Display medical holds on the inmate holds screen. Currently the medical holds are only displayed on the medical screen so users have to look in two separate places for inmate holds.	First, including quantiferon gold in ACIS will allow staff to see the results in ACIS rather than only in eOMIS, which not all staff have access to. Second, displaying mental health scores of returning inmates when their score has not changed will help to avoid confusion and manual entries having to be made for these inmates on the mental health screens. Finally, displaying medical holds on the inmate holds screen will make it easier for staff to see which holds an inmate currently has rather than having to look in two separate places for this information.	43534
16	Gergana Kovatcheva	**1099**	Intake	Reports	Workflow Improvement	Provide SSN field for inmates from ACIS to KeepTrak.	The IRS is requiring that ADCRR provides the SSN of inmates earning more than $600. Currently, the SSN is not sent to KeepTrak where the report would be generated from. ADCRR has already paid several hundred thousand dollars to the IRS because of this	43330

- **NO JAR SESSIONS ALLOWED TO BE SCHEDULED**
  - Expectation is that there is a better understanding of what it will take to estimate more accurately moving forward based on the previous 20 EUILs
  - Analyze original estimates versus final estimates to see what lessons can be learned and put into practice moving forward
  - Where is work similar (Change a field name) and similar estimates could be used without JAR sessions
  - B&D to produce estimates for 4th Quarter items and that is all at this point

3: Low Hanging Fruit

CR	Module Name	Title of Change Request	Estimated	Hours

AMERICAN OVERSIGHT

			Effort (Days)	
40748	Count	COUNT- Inmates leaving PHX Complex to Prisons around the state were scheduled through the Transportation Module.	30	240
42624	Discipline	Disciplinary- Admin need to ability to add and or de-activate disciplinary charges within ACIS. Currently this admin is unable and when I requested help from B&D I was advised to enter a bug.	30	240
42866	Count	BUG: For the PRT-500 Count Sheet to utilize more of the paper it's printed on. The aims1 count sheet displayed twice as many. EXPECTED RESULTS: To be able to add more inmates per sheet of paper like AIMS1. Whether it's the PRT 500 or count sheets printed through the count module.	15	120
42723	Intake	Inmate Search: Include a filter for Inmate Status and Gender	15	120
42693	Programs	Auto-populate Quality Review screen with as much information as possible	15	120
31001	Programs	UC-PR-3.06: Unable to enter number with decimals for Hours Completed on Manage Participation screen	15	120
36603	Programs	UC-PR-2.60: Priority Ranking Report should not appear for WIPP / Work	15	120
42699	Intake	Fingerprint Date should display the most recent admission date	15	120
39610	Interfaces-Medical	UC-PR-2.40: COIII / COIV roles unable to access Medical and Mental Health screen (POA section only)	15	120
39679	Interfaces-Medical	Centurion: SMI-C should not be a field that can be manually entered by anyone except for an Admin.	15	120
39886	Interfaces-Medical	Centurion: The mental health tab should not be accessible by everyone	15	120
40864	Interfaces-Medical	Medical Notes should only be visible to medical and mental health staff	15	120
39726	Programs	Exemptions should delete upon return to custody	15	120
42865	Discipline	Disciplinary-Rule Violation Summary page- violation code provides the description of the violation.	15	120
42928	Discipline	Make hearing date/time required fields for a Minor Disciplinary Violation	15	120
39730	Grievances	UC-GR-05: Formal Grievance Response limited to 255 characters	15	120
39731	Grievances	UC-GR-02: Appeal Grievance Response limited to 255 characters	15	120

Subject: B&D Recommended CR List Estimations
Date: Thursday, October 15, 2020 3:53:34 PM
Attachments: image002.png

Good afternoon,

Please find the initial estimated efforts below. We believe upon initial review that these items will not go above the days listed in the right hand column. Thank you.

CR	Module Name	Title of Change Request	Estimated Effort (Days)
40748	Count	COUNT- Inmates leaving PHX Complex to Prisons around the state were scheduled through the Transportation Module.	30
42624	Discipline	Disciplinary- Admin need to ability to add and or de-activate disciplinary charges within ACIS. Currently this admin is unable and when I requested help from B&D I was advised to enter a bug.	30
42866	Count	BUG: For the PRT-500 Count Sheet to utilize more of the paper it's printed on. The aims1 count sheet displayed twice as many.	15
		EXPECTED RESULTS: To be able to add more inmates per sheet of paper like AIMS1. Whether it's the PRT 500 or count sheets printed through the count module.	
42723	Intake	Inmate Search: Include a filter for Inmate Status and Gender	15
42693	Programs	Auto-populate Quality Review screen with as much information as possible	15
31001	Programs	UC-PR-3.06: Unable to enter number with decimals for Hours Completed on Manage Participation screen	15
36603	Programs	UC-PR-2.60: Priority Ranking Report should not appear for WIPP / Work	15
42699	Intake	Fingerprint Date should display the most recent admission date	15
39610	Interfaces-Medical	UC-PR-2.40: COIII / COIV roles unable to access Medical and Mental Health screen (POA section only)	15
39679	Interfaces-Medical	Centurion: SMI-C should not be a field that can be manually entered by anyone except for	15

AMERICAN OVERSIGHT

		an Admin.	
39886	Interfaces-Medical	Centurion: The mental health tab should not be accessible by everyone	15
40864	Interfaces-Medical	Medical Notes should only be visible to medical and mental health staff	15
39726	Programs	Exemptions should delete upon return to custody	15
42865	Discipline	Disciplinary-Rule Violation Summary page-violation code provides the description of the violation.	15
42928	Discipline	Make hearing date/time required fields for a Minor Disciplinary Violation	15
39730	Grievances	UC-GR-05: Formal Grievance Response limited to 255 characters	15
39731	Grievances	UC-GR-02: Appeal Grievance Response limited to 255 characters	15
40794	Intake	Medical shows as completed on the Intake Dashboard for PVT's	15
42630	Programs	WIPP: In assignment history, the user can't tell which cycle the inmate is/was assigned to	15
42692	Programs	Increase character limit for Quality Review questions	15
42996	RMS	MVD tab should be displayed even if the inmate is not eligible	15
42778	BOEC	Rename "Schedule Inmate BOEC Hearing" in the left hand navigation to "Schedule Pardon Hearing"	15
42934	Classification	Add certain App areas to the Quick Search	15
42701	Global	Case Notes - Anchor the panel so user doesn't have to scroll down each time the page is changed	15

AMERICAN OVERSIGHT

42362	Sentence Calc	SENTENCE CALC - THE SENTENCE WORKSHEET SHOULD OPEN DIRECTLY TO THE FINAL RULING	15

Hello Rocky-

Please see below and add to the itemization of hours you're working on with Dean Allen.

Please advise of the direction Rusty and I should take.

Thank you,

Holly

>
> Individual statements I can provide along with the package/procedure and improvement stats. Database tuning is not broken down by those stats but rather I/O, cache hits/misses, memory, blocking sessions, etc. I think if she is looking for a general health report I can give her the comprehensive rolling 2 week AWR reports (weekly) or modify TOADs health check summary report and provide that. Database tuning is all about num, relative trends, and is an iterative process.

AMERICAN OVERSIGHT

PROD as soon as possible.

Issues:

Inmates that remain on the PC Dashboard after the PC review has been completed can't have a new PC review initiated. At this time, there are as many as 12 inmates who are in detention in excess of 30 days and require a PC review, but due to this bug the PC review can't be initiated. There is no manual workaround available in ACIS for this, and we can't complete the review in any other manner.

Respectfully,

Marlene Coffey, ADW

Protective Custody Unit

ACIS Administrator

602-542-0126

Charles-

We have the Q4 list as we indicated. We will be completing our review tomorrow and should have the list available for your review. The Q4 list contains some of the higher priority Enforcer CR's.

Thank you. We apologize for the delay.

Sincerely,

Rusty Johnson

I also wanted to follow up on the status of the 4th quarter EUILs and Enforcer list of CRs. We were told that we would have them on 10/9/2020. Again, the goal of the M&O Discussion with Deputy Director Profiri was to move quickly and identify work to keep B&D fully staffed. Please send the 4th Quarter EUILs and CRs and Eli and I will schedule a review of the "low hanging fruit" asap.

AMERICAN OVERSIGHT

From: **Marlene Coffey** <mcoffey@azadc.gov>
Date: Wed, Oct 14, 2020 at 11:16 AM
Subject: PC Dashboard Bug for CAB
To: George Martinez <gmartinez1@azadc.gov>

Requesting an emergency push of a script into UAT first, then if successful into PROD as soon as possible.

Issues:

Inmates that remain on the PC Dashboard after the PC review has been completed can't have a new PC review initiated. At this time, there are as many as 12 inmates who are in detention in excess of 30 days and require a PC review, but due to this bug the PC review can't be initiated. There is no manual workaround available in ACIS for this, and we can't complete the review in any other manner.

Respectfully,

Marlene Coffey, ADW

Protective Custody Unit

AMERICAN OVERSIGHT

In addition there was 60,000+ sql calls daily from an ADC server to the dev schema that could not be identified any reason for operations. Some of these sql statements were running multiple hours. So access from this server/service to the micase_dev schema was denied at the database access level"

>
> "Last week, Hagay and Harika had me do several tasks for Ad Hoc Reports.

AMERICAN OVERSIGHT

10/2 - Harika requested that I push RPT 2230 from dev to UAT

10/2 – Harika had me investigate the deployment of RPT 0960

10/1 – I removed the user activity report from Prod. (this could probably be billed internal)

9/30 – investigated user activity report

9/29 Harika and Hagay had me investigate RPT 0960”

Date:	Thursday, October 8, 2020 10:01:32 AM
Attachments:	ADCRR-BD MO Hours Discussion Final.pptx image002.png

Good morning,

Please find the below notes and power point from our meeting on Tuesday. I will add these notes to our leadership meeting this Friday. Thank you.

Attendees

Deputy Director Joe Profiri
Rusty Johnson
Dean Allen
Charles Spannagel

EUIL-CR-PL Bulletins

- Dean has provided an initial list of EUIL-CR Bulletins to Deputy Director Profiri to review
- Holly has tasked her team with creating "one pagers" for all items remaining in the Parking Lot (400 page Playbook that will reside in Deputy Director Profiri's office)
- Deputy Director Profiri requests collaboration between B&D and ADCRR to fine tune these informational sheets
    - Dean has tasked B&D Business Analysts with creating Bulletins for the remaining EUIL items
    - Charles will coordinate efforts with ADCRR IT PMO for collaboration
        - This collaboration will become an ongoing agenda item for the Friday ACIS Leadership Meeting

M&O Hours Name Change

- The current title of M&O Hours has caused confusion over the true purpose of the annually allotted 10,000 Hours
    - The 10,000 hours are to be used for System Improvements
    - Maintenance and Operations Support is part of the Support Contract
        - System issues (Bugs) is covered by the Support Contract
        - Maintenance of Environments is covered by the Support Contract
    - Items related to improving the system would fall under the annual 10,000 hour allotment
        - EUIL, CRs, PL Items
    - **Recommendation to remove the title of "Maintenance and Operations" to "System Improvement Hours"**

AMERICAN OVERSIGHT

B&D Staffing Model and Workload

- B&D currently has 3 Developers without work to be done on EUIL-CR items
- Deputy Director Profiri and Dean suggest reviewing all PL items for "Low Hanging Fruit"
    - Items that will not require lengthy JAR sessions
    - Items that will not require lengthy Development
    - Items that will be pushed into Production in a timely manner
    - Items that will keep B&D fully staffed
    - Charles to collaborate with ADCRR IT PMO to produce a recommended list to move forward
        - This collaboration will become an ongoing agenda item for the Friday ACIS Leadership Meeting
- Deputy Director Profiri and Dean suggest reviewing the "Property Module" which could be brought online and a huge "win" with the Operational Staff
    - B&D Staff to review the Property Module and gauge work effort
- Charles to work with Rusty to review the upcoming "Enforcer" Change Requests

JAR Sessions and Estimate Concerns

- EUIL 43279 "New Code Violator not Calculating Correctly" caused concern when the estimate went from 660 hours to 2600+ hours
    - Additional Scope from ADCRR Operations caused increase in estimation hours
        - 4th Quarter EUIL-CR Items will hold JAR sessions prior to any estimation
        - B&D staff will call out immediately when "Scope Creep" occurs

I was just told that reports 0960 and 2230 are B&D Reports so we are wondering why we would be charged anything for those? I think that at least the one was also indicated by your staff in the email response.

Sincerely,

Rusty Johnson

Hi Charles-

Can you please have someone explain what the following hours are for: 2.5 Hours – Backend support for Ad Hoc reports, research/kill runaway report and removal from schedule. I checked with Jeff and Josh and the only thing they said was there was a problem with a report timing out. We are just trying to figure out what exactly is going on with the Ad-Hoc reports now that they are using Telerik, and if there is something going on what can be done to correct it.

Sincerely,

Rusty Johnson

Holly and Rusty I am scheduled to meet with Eli and Spencer at 2:30 to review EUIL Items (active CR's) this is non billable. Would it be ok to get the hours approved via email and without a phone meeting as long as I receive proper documentation from the developers for the 2.5 hours?

Please let me know. Thank you.

Hi Charles-

Can you please have someone explain what the following hours are for: 2.5 Hours – Backend support for Ad Hoc reports, research/kill runaway report and removal from schedule. I checked with Jeff and Josh and the only thing they said was there was a problem with a report timing out. We are just trying to figure out what exactly is going on with the Ad-Hoc reports now that they are using Telerik, and if there is something going on what can be done to correct it.

Sincerely,

Rusty Johnson

ACIS Deployment Incident

Overview 1

Incidents 1

Monitoring & Notifications **Error! Bookmark not defined.**

Initial 1

Additional monitoring & notifications **Error! Bookmark not defined.**

Reporting on the queue **Error! Bookmark not defined.**

Health Check **Error! Bookmark not defined.**

Overview

The ACIS application was offline on 9/25/2020 during a PROD deployment push. The deployment process has many checks and balances in place to catch for errors. In this case the process returned a success even though the underlying driver was not 100% successful.

Incident

1. An outage occurred due to an issue with the base image.
2. The base image failed to completely install the Oracle driver even though the Oracle driver installer reported a successful and complete install
3. The prod push revealed this problem as a 500 error on the front end and background services.

Troubleshooting & Quality

Initial

The short term solution is to do a build from the PROD base image in the morning, the day of a production push to ensure the base image is error free.

Long term

In the long term this problem is possibly resolved on a newer version of the Oracle Driver. ACIS is using Oracle 12.2, where the latest Oracle version is 19 (2 versions newer). There may also be a different type of Oracle driver install that returns more verbose error handling. Troubleshooting and research is required on both of these items.

AMERICAN OVERSIGHT

Summary

To maintain the uptime of the ACIS application the PROD base image will be tested on the morning of a PROD push to allow time to address quality issues before a deployment is completed.

Holly,

Last week we worked 2.5 hours on Ad Hoc. I spoke with Chris Masson and he has indicated that the ADCRR Report Writers are doing well with the Production tool.

1 Hour – Project Management (Correspondence, meetings, and turn over process)

1.5 Hours – Backend support for Ad Hoc reports, research/kill runaway report and removal from schedule

Holly in regards to hours, I am requesting that I have the ability to bill for up to 2 hours per week towards M&O in order to facilitate meetings with Eli or other meetings that

may pop up. I would submit a meeting notes to you at the conclusion of the meetings and I believe your team would time track it as well. Please let me know.

Subject: ACIS Meeting Notes 9-25-2020
Date: Tuesday, September 29, 2020 5:25:22 PM
Attachments: image008.png

Please find my notes from our leadership meeting. The meeting was 30 minutes long.

1. Charles to work with Eli on documentation and presentation of M&O Hours and EUIL Hours moving forward.
    a. Charles and Eli met on 9/25/2020 and reviewed the documentation as seen below. Charles has requested formally to have 2 hours a week budgeted for meetings with Eli to be pulled from the M&O bucket.
    b. Charles discussed the 10,000 M&O Remediation Hours along with the additional 10,000 M&O Hours
        i. Highlighted that M&O Remediation Hours and M&O Hours are to be used for system improvements
        ii. System Maintenance and Bug Fixing are not part of the M&O hours above
    c. Charles and Eli to collaborate and make the ledgers more digestible and comprehensive moving forward

2. Trevor and Cindy have prepared documents that highlight the upcoming EUIL/CR items that will be put in Production or have already been put in Production
    a. EUIL/CR highlights will be delivered to Dean who will share with Deputy Director Profiri
    b. Deputy Director Profiri will disperse as he deems fit

3. Charles will send a request for formal acceptance of the EUIL Items that have been accepted in Production (EUIL 40167, EUIL 40629 and EUIL 41361)
    a. The final amount of hours used by B&D to develop each item will be included in the email
    b. Holly will reply with formal acceptance via email

4. B&D has formally requested that deployments be moved from Fridays to Wednesdays
    a. Charles discussed this request during Monday's (9/28/2020) scheduled bug call with ADCRR
    b. Sandy will bring this request to ADCRR's CAB

5. Rocky and Dean are continuing to work through legal questions and clarifications
    a. Rocky hoping to have an update for the group by 10/2/2020

6. Service Account Discussion
    a. Rusty and Joe Nicoletti to meet and discuss further actions required and/or needed

7. Changes to Letterhead
    a. B&D's stance is that this is a chargeable ask
    b. Rocky to discuss with Dean

8. Emergency (Hot Fix) Pushes
    a. A follow up meeting to be scheduled between Sandy, Charles and Hagay

5: **Changes to Letterhead Follow Up**

1. B&D in the process of estimating the work effort behind the change request listed below by Sandy Wang

"Victim Services has requested that their letterhead on the letters that are generated in ACIS are updated to reflect the agency's new name and the new administrator at Victim Services. However, B&D is saying this is a change request. They can't send these letters out with the wrong names in the letterhead and we can't change them ourselves. Here's the changes they need made:

1. The header should read:
Arizona Department of Corrections
Rehabilitation & Reentry
2. Remove Jaquel Moody and replace with Gretchen McClellan-Singh, our new Administrator."

6: **Deploy Schedule/Deploy Day**

1. B&D is requesting to move the deployment day from Friday to Wednesday
    a. This gives B&D and ADCRR two days to trouble shoot any issues that may arise
    b. Wednesdays has a bug call scheduled already where the release can be discussed
    c. Unlikely to have any PTO issues from staff on either side

7: **Emergency Push – Hot Fix**

1. B&D held an internal meeting on 9/22/2020 to discuss workflow (Charles to schedule a follow up meeting with Sandy to further dive into the details)
    a. ADCRR should not request an Emergency Fix 2 days prior to a deployment
    b. 2 days needed (as a minimum) in order to complete a "hotfix" pus to UAT for testing
        i. This is once the fix is in QA
    c. QA is a virtual environment (emergency environment) in order to address "hotfix" items

AMERICAN OVERSIGHT

1 Hour – Project Management (Correspondence, meetings, and turn over process)

1.5 Hours – Backend support for Ad Hoc reports, research/kill runaway report and removal from schedule

Holly in regards to hours, I am requesting that I have the ability to bill for up to 2 hours per week towards M&O in order to facilitate meetings with Eli or other meetings that may pop up. I would submit a meeting notes to you at the

conclusion of the meetings and I believe your team would time track it as well. Please let me know.

Hi Joe,

I sent these last week as a zip file but I got a bounce back for some reason, in any event, here are the Enhancement Bulletins we spoke about. Let me know they arrive safely!

Feel free to pass on any comments. I wonder if it would be a good idea for the folks at ADCRR to add any additional comments, in particular maybe some metrics to how the enhancement has improved operations?

I am out of the office until Thursday, so if we could schedule the call, we discussed, with the team on Thursday or Friday I would appreciate it.

Thanks and have a great day.

Dean

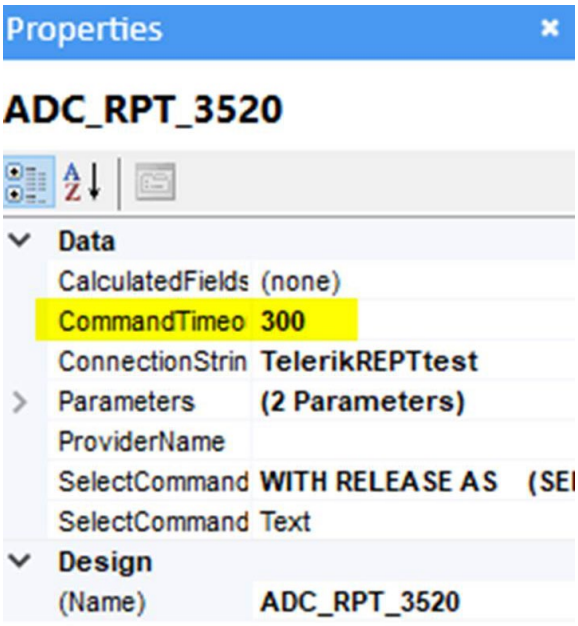
Subject: RE: Telerik PROD Issues?
Date: Monday, September 28, 2020 12:04:45 PM
Attachments: image005.png
image006.png

Hi Jeff,

I just tested 3520 and found the same, that it times out on the Report Server. It also times out when I run it in the designer as well. It appears the issue is the length of time the query takes to execute, and by default, Telerik has a default 30 second command timeout to prevent runaway queries. If you set the **CommandTimeout** property to a higher threshold in the Report Designer the report(s) run successfully. For example, I just set 3520 to 120 seconds and it ran fine.



That should resolve your error.

Thanks
Chris

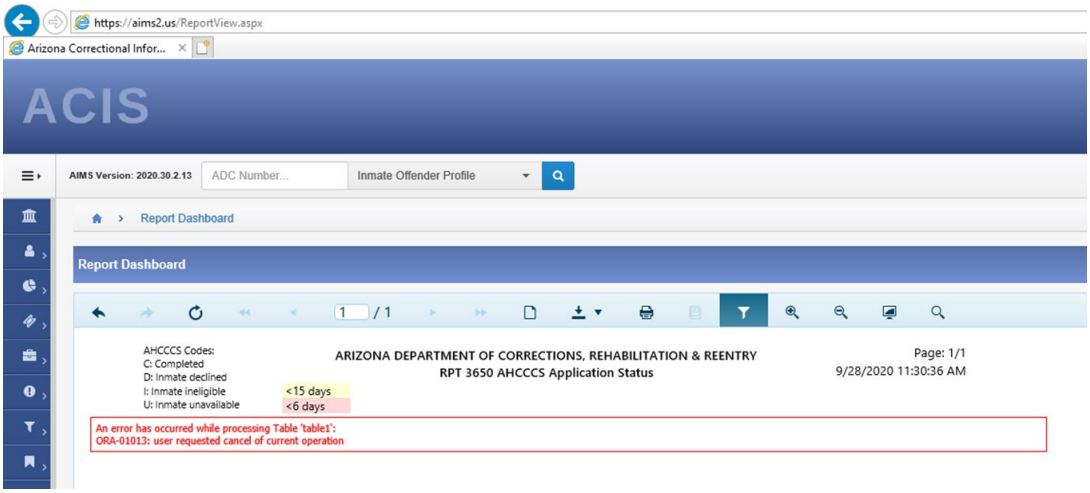
Subject: Telerik PROD Issues?

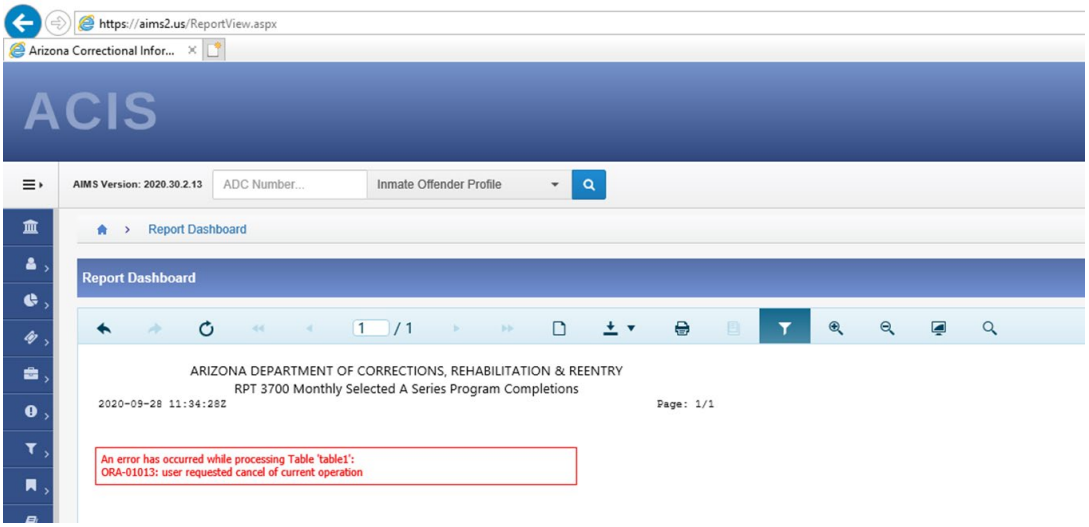
AMERICAN OVERSIGHT

Hello all,

I'm receiving an error when trying to run some reports in ACIS/Telerik PROD this morning. I'm not sure if it's coincidence or not, but they all seem to be reports that are using built-in queries for the data source vs. having a stored procedure for the data source.

Receiving the same error in several reports (ADC RPT 3520, ADC RPT 3650, ADC RPT 3700), which were all working fine on Friday:





Any ideas what the problem is here?

Thanks!

Total				8,633.25	206.5

3: **4th Quarter CR's**

-

1. B&D needs the 4th Quarter list to begin prepping for JAR sessions
    a. 4 items from the original list have been placed on hold (**5115 CR-EUIL Hours + 1000 Amendment 9 Items = 6115 total Remediation Hours approved for work**)

AMERICAN OVERSIGHT

i. CR's need input from B&D in order to maximize Developer Resources

-

4: **Service Account Discussion**

-

1. Meeting held on 9/22/2020 @ 11AM with Rusty Johnson, Joe Nicoletti, Aaron Pratt and Keith Francen
    a. Ask was to provide a list of Service Account within the system
        i. List sent to group by Aaron Pratt at 11:35AM on 9/22/2020

-

5: **Changes to Letterhead Follow Up**

-

1. B&D in the process of estimating the work effort behind the change request listed below by Sandy Wang

-

"Victim Services has requested that their letterhead on the letters that are generated in ACIS are updated to reflect the agency's new name and the new administrator at Victim Services. However, B&D is saying this is a change request. They can't send these letters out with the wrong names in the letterhead and we can't change them ourselves. Here's the changes they need made:
1. The header should read:
Arizona Department of Corrections
Rehabilitation & Reentry
2. Remove Jaquel Moody and replace with Gretchen McClellan-Singh, our new Administrator."

-

6: **Deploy Schedule/Deploy Day**

-

1. B&D is requesting to move the deployment day from Friday to Wednesday
    a. This gives B&D and ADCRR two days to trouble shoot any issues that may arise
    b. Wednesdays has a bug call scheduled already where the release can be discussed
    c. Unlikely to have any PTO issues from staff on either side

7: **Emergency Push – Hot Fix**

-

AMERICAN OVERSIGHT

1. B&D held an internal meeting on 9/22/2020 to discuss workflow (Charles to schedule a follow up meeting with Sandy to further dive into the details)
    a. ADCRR should not request an Emergency Fix 2 days prior to a deployment
    b. 2 days needed (as a minimum) in order to complete a "hotfix" pus to UAT for testing
        i. This is once the fix is in QA
    c. QA is a virtual environment (emergency environment) in order to address "hotfix" items

Rusty,

This is the response from the Infrastructure resource:

" The time debugging was for performance issues and then figuring out why it would not run in UAT. It would not run in UAT because one of the parameters that was used to collect selection criteria was based on a view that they did not have permission to. So for UAT and PROD I created the grants and synonym."

Charles-

Can you have the developer expand on what this was about:
1.5hrs – Debug ADC report 3650

We have very little information. It appears that Aaron Bailey was involved in this but we are not sure why and he did not pass any info on to us about a problem with a report.

Sincerely,

Rusty Johnson

Hi Charles-

We asked to have the spreadsheets rather than screenshots for your time tracking. This request also came out of the meeting with Profiri and Dean as well.

I hope that helps.

Thanks,

Holly

Holly,

I'm sorry but I'm not following. What spreadsheets are you referring to?

Per Holly's email (9/15/2020 @ 3:18pm) the hours for the week of 9-7-2020 have been approved. The other hours are pending the outcome of Dean and Rocky's discussions.

EMERGENCY PUSHES

1: Emergency pushes "Hot Fixes" can be done as a 1 off solution. This workflow was agreed to per Charles Minutes from 7/7/2020 sent @10:52AM to ADCRR IT Leadership.

1. Key Factors:
    a. Identification of the issue
        i. Module
        ii. Role
        iii. Affected dependencies (items within the package)
        iv. Analysis of risk versus benefits
    b. Identification of Staff (ADCRR SME, B&D Resources, ADCRR IT) required to make decision to push
    c. Timeline
1. Where does the SLA factor in
    a. SLAs are already factored in with timeframes established
        i. ***M&O Agreement Outstanding***
    b. Charles, Hagay and Sand to have a continued discussion

AD – HOC DISCUSSION

-

1: Decision was made to use the Telerik Tool in Production

1. Chris Masson working with Rusty to provide user accounts
2. B&D to continue support of the Ad Hoc team until the full time move to the Production Report Writer

M&O Hours

1. All M&O Development hours to follow the process of the EUIL/CRs
2. B&D to review ongoing efforts (Performance Improvement, Document Storage, etc) and provide an estimate to Holly by 9/25/2020

AMERICAN OVERSIGHT

Service Account Discussion

-

1. Charles and Hagay to work with Rusty, Joe N and Keith Barrier on identifying Service Accounts that will need to be evaluated for their security permissions

Charles out Friday

1. Hagay will fill in

-

Hello Charles-

Per our conversation, we approve the consumption of 9 hours for Ad Hoc Support time used from 9/7 - 9/11.

All previous hours from 8/3 to 9/4 remain unapproved until Dean and Rocky have concluded their discussions and provide direction to me.

Respectfully,

Holly Greene

Subject: Re: Telerick

Chris-

The initial users for the Ad-Hoc Reports using Telerik will be:

Josh Connolly (existing)
Michael Gomez (existing)
Jeff Woodward (existing)

Greg Denning no longer works for ADCRR. He continues as a Contractor but will no longer be developing any reports. He continues to have some access in ACIS due to his vendor role.

All-

This meeting is for B&D to provide a demo to ADCRR of the ACIS production environment report query function/tool in the application. Charles is not in the office today, so I have added Hagay Hazan (Charles' back-up). I also added Chris Masson to the invite as he was slated to provide the demo.

Thanks,

Holly

Holly,

Again I apologize for the late cancellation of our touch base. I am hoping to be back in the office tomorrow but will let you know first thing. This is the last time you will see any hours for anything non Ad Hoc related moving forward unless it's an initiative you approve with the appropriate estimate and so on. Please see below.

156 - Performance Improvement	6
157 - Document Storage	2.25
158 - Excessive Post Back	1
2 - AD HOC Support	2

Ad Hoc: 1 hour Dev/Mig, 1 hour QA.

All-

Charles and I spoke about this and decided that the Governance meeting will remain, but it will be a light meeting.

Respectfully,

Holly Greene

AMERICAN OVERSIGHT

Hi Charles,

I hope your weekend is going well. As discussed in the meeting last Friday. We would like to set up a time for the Ad-Hoc demo with Chris Masson sometime this week. It should include everyone on this email list - Holly and Rusty being optional. After review of everyone's calendar, here are some times that are all available. Those of you who see a conflict with these time slots, please let us know.

Tuesday 12:00 - 2:00PM

Wednesday 1:00 - 2:00PM

Thursday 1:00 - 2:00PM

Friday 12:00 - 5:00PM

We look forward to seeing the demo. Thank you for your support.

Respectfully,

Joseph Nicoletti

Holly,

Please find the hours below. This will be the last week hours will be submitted in this format. Moving forward we will use the same process we use for EUILs. When we have an ongoing work effort like Ad-Hoc we can use the ceiling like we had discussed previously. We are continuing to fine tune our time tracking system to better drill down into all activities.

Project Management	8/3/2020 - 8/7/2020		10.00	8,632.25	51.50
Performance Improvement	8/3/2020 - 8/7/2020		4.50	8,627.75	
Document Storage	8/3/2020 - 8/7/2020		4.50	8,623.25	
40707: RMS Homeless Home Plans	8/3/2020 - 8/7/2020		16.75	8,606.50	
40748: COUNT - Inmates Leaving	8/3/2020 - 8/7/2020		5.75	8,600.75	
AD HOC Support	8/3/2020 - 8/7/2020		10	8,590.75	
Project Management	8/10/2020 - 8/14/2020		24.5		32.75
Performance Improvement	8/10/2020 - 8/14/2020		3		
Document Storage	8/10/2020 - 8/14/2020		1.5		
AD HOC Support	8/10/2020 - 8/14/2020		3.75	8,587.00	
Project Management	8/17/2020 - 8/21/2020		35.00		66
Performance Improvement	8/17/2020 - 8/21/2020		11.50		
Document Storage	8/17/2020 - 8/21/2020		3.00		
AD HOC Support	8/17/2020 - 8/21/2020		16.50		
Project Management	8/24/2020 - 8/28/2020		20.00		42.5
Performance Improvement	8/24/2020 - 8/28/2020		2.50		
Document Storage	8/24/2020 - 8/28/2020		12.50		
AD HOC Support	8/24/2020 - 8/28/2020		7.50		
Total				8,478.50	

Project Management: 20 Hours

- Meetings, Project Plan(s), Planning and Communications

Performance Improvement: 2.50 Hours

- DEV work and Code Migration

Document Storage: 12.50 Hours

- Migration and continued clean up

Ad Hoc: 7.50

- Dev & Migration – 5.5
- QA - 2

To: Holly Greene; Rusty Johnson; Keith Barrier; Joseph Nicoletti; Sandy Wang
Subject: ACIS Leadership Meeting Agenda 8/28/2020
Date: Tuesday, September 1, 2020 9:32:07 AM
Attachments: image001.png

1: Leadership Agenda (9/2/2020)

1. Ad-Hoc Discussion (RPT-DEV)

    a. Charles to schedule demo with Chris Masson upon his return **(Joe Nicoletti proposed times in bold)**

        i. **Tuesday 12:00 - 2:00PM**
        ii. **Wednesday 1:00 - 2:00PM**
        iii. **Thursday 1:00 - 2:00PM**
        iv. **Friday 12:00 - 5:00PM**

2. Billing Hours and the reporting of Billable items **(Previously Sent Email to Holly on 8/13/2020)**

    1: M&O Support Hours (Bug Fixes) – we continue to flex our resources to meet the defect needs, we don't report these specific hours but focus on the completion by priority of defects.
    2: M&O EUIL Hours (10,000 hours – for the first year following the signing of the amendment) - We provide fixed price estimates based on the agreed scope and report of the percentage of complete per EUIL item. As we discussed yesterday, if the scope changes (hopefully not) we will provide an update asap.
    3: M&O Remediation Hours (10,000 hours for every year on support contract) - AD Hoc can be reported based on the activities identified by the task (BA, DEV, QA, PM).

3. Refresh Schedule (calendar month)

    a. **Last refresh was 6/27/2020**
    b. **Next refresh is 9/5/2020**

4. 30 Day testing definition (30 Business Days vs. 30 Calendar Days)

    a. **To be discussed during the Leadership Meeting on 9/2/2020**

5. Charles Backup

    a. **To be discussed during the Leadership Meeting on 9/2/2020**

Other agenda items

AMERICAN OVERSIGHT

6. DPS File Bug (43076) vs. CR

    a. **No back charging if the DPS File Bug is determined to be a CR**
    b. **Mutually decided that a new FSD is required**
    c. **Charles and Sandy to follow up**

7. Identification of the service accounts and lockdown

    a. **In reference to Lynda Wade's email "Re: Pay Cycle 2 (Important)" 7/28/2020 @7:43am**
        i. **Lynda deleted a User Account in KeepTrack which caused bugs**
        ii. **B&D indicated that a User Error caused by Staff which requires B&D's support will be chargeable to M&O Remediation Hours**
        iii. **ADCRR IT Leadership has requested an audit of users security**

8. Process for handling "High" severity production bugs

    a. **In regards to bug 43374 emergency push to PROD ADCRR IT Leadership has requested a breakdown of how we handle individual bugs as opposed to pushing the entire package**

AMERICAN OVERSIGHT

From: Holly Greene on behalf of Holly Greene <hgreene@azadc.gov>
To: Charles Spannagel
Cc: Rusty Johnson; Holly Greene
Subject: M&O Hours Meeting
Date: Monday, August 31, 2020 3:27:24 PM

Hi Charles-

Please cancel the M&O Hours Touchpoint tomorrow. Once we have some clearer direction concerning billable time, we can reignite the meetings. I hope that the meeting on 9/2 offers that direction.

Many thanks,

Holly

Attachments: image003.png

Good afternoon,

The agenda is light this week because of the upcoming leadership meeting next Wednesday. I only have a couple items but please add whatever you would like. Thank you very much.

1: Leadership Agenda (8/2/2020)
   1. Ad-Hoc Discussion
      a. Charles to schedule demo with Chris Masson upon his return (he has been out all week)
   2. Billing Hours and Reporting
   3. Refresh Schedule
   4. 30 Day testing definition
   5. Charles Backup

2: TFS EXCEL

3: TBD

Subject: ACIS Leadership Meeting Notes - 8-21-2020
Date: Tuesday, August 25, 2020 4:12:34 PM
Attachments: image003.png

Please find the meeting notes below. Thank you.

1: Leadership Meeting Scheduled for 9/2/2020. Agenda topics below.

1. RPT-DEV (Ad Hoc)
    a. Charles to schedule a demo for the existing Ad Hoc Report writer in ACIS.

2. Refresh Schedule
    a. Environments for ADCRR have not been refreshed since the end of June
        i. If the refresh schedule is monthly, why hasn't it happened yet?
        ii. What do the estimated 10 hours an environment equate to from a work effort standpoint?

3. Testing
    a. Stated by Charles that the 30 Day timeline clock officially stops when a bug is detected in UAT-Feature. The clock resumes once the fix is in place.

4. Enforcer
    a. Sandy sent an email with the 12 associated CR items for the Enforcer initiative. Charles to share with B&D team to review and suggest a possible plan of attack.

5. M&O Agreement
    a. Licensing and M&O Agreement with Legal and Procurement. Will be sent to B&D when ready.

6. Charles' Backup
    a. ADCRR IT Leadership would like the name for who backs up Charles when he is out.

7. Contract
    a. ADCRR IT Leadership has formally requested that B&D comes to the meeting on 9/2/2020 with highlighted areas from the contract that cover the following items.
        i. Billable Hours and Items for the M&O time period
            1. ADCRR IT Leadership would like work hours that can be tracked by:
                a. Resource
                b. Task/Project
                    i. Task/Project Description
                c. Total hours
        ii. System Maintenance and Responsibilities from B&D to maintain the system
            1. Ad-Hoc Reporting Environment
            2. Environment Refresh Schedule
        iii. Staff Utilization

Harika,

The DISTINCT is there to eliminate duplicates, so it can't just be removed. I'll have to rewrite these 2 stored procedures.

Thanks.

Harika,

This stored procedure works fine as-is in RPTDEV...can you tell me why DISTINCT is allowed in RPTDEV and UAT but not PROD? Is PROD on an older version of Oracle? If so, that would have been good information for us to have, so we wouldn't develop our queries in ways that are not supported by PROD.

Thanks.

Please see another email below.

- *We have granted access to a limited number of AD Hoc Report developers to:*
  - *the Non Prod database where they have read only access and the capability to create and edit their own views that they can then use in writing AD Hoc Reports*

I'd like to understand why this has changed. There are no other communications indicating that we would never be supported. If a higher Report environment is supported, I would like to gain access to it so we can continue to write our reports for our Agency and other entities.

Respectfully,

Holly Greene

I think we've had this conversation before – perhaps with different people which is why I've added Aaron and Dwight

My understanding for what we've agreed to do is:

- No one has direct write access to Prod Report Servers or Prod Databases
  - Certain individuals have Read Only access to production for other purposes (not for Ad

AMERICAN OVERSIGHT

Hoc report development)

- The prod database is copied down to our non prod databases on a periodic basis (roughly monthly to date) so the non Prod database is roughly up to date with live data

- We have granted access to a limited number of AD Hoc Report developers to:
  - the Non Prod database where they have read only access and the capability to create and edit their own views that they can then use in writing AD Hoc Reports

  - the Non Prod Telerik Report Server where they can create AD Hoc reports by writing SQL which can use the views they've created

- We still need to create a process for how these AD Hoc reports will be QA'd, tested in UAT and promoted into production where they can be stored in certain places that will allow them to be run or scheduled
  - For now we'll deal with them via email on request until we work out this process

Upon looking into this we may have given people access to the production Telerik Server which we will need to revoke and give them access to the Telerik Test Server

Right now the group of people that have the capability described here are:

1. <mgomez@azadc.gov>	Michael Gomez
2. <mdolny@azadc.gov>	Michael Dolny
3. <jconnolly@azadc.gov>	Joshua Connolly
4. <jsquires@azadc.gov>	John Squires
5. <pschroed@azadc.gov>	"SCHROEDER PHIL"
6. <jtaranti@azadc.gov>	James Tarantino
7. <jwhitson@azadc.gov>	Jacob Whitson
8. <hgreene@azadc.gov>	Holly Greene
9. <hhaley@azadc.gov>	Herbert Haley
10.	George Martinez

AMERICAN OVERSIGHT

<gmartinez1@azadc.gov>	
11. <bcassiano@azadc.gov>	Brittany Cassiano
12. <abailey1@azadc.gov>	Aaron Bailey
13. lvelamakanni@azadc.gov	Lalitha Velamakanni

And with this email John Hall is asking for inclusion into this group

Also to reduce confusion there should be a process developed to add others to this group

Please let me know if I have anything wrong or if you would like to discuss this further

Thanks,

Thad

What kind of access? Read Only?

Do they need to create Views? AD Hoc reports?

Something else?

AMERICAN OVERSIGHT

I would expect that production access is Read Only

- So then the question is – what are you going to do with this Read only access in SQL Developer?

If it's ADHoc access – are you going to try to develop ADHoc reports in the production reporting Schema?

- Seems very risky

I think we need a strategy from ADC on what access is going to be provided to who for what purpose

I don't let any of the developers have any access to production or the reporting Production schema what so ever

They can only get full access to the UAT or QA databases on a request basis for a specific number of hours so they can debug an issue that is not reproducable in the other non prod environments, with strict instructions not to create or modify any data and certainly not to create new views or table structures

We have a Reporting Development environment that would seem a much safer environment for you to use as a sandbox to create AD Hoc reports. Once you are satisfied that the report does what you want it to do, it can be promoted to the other environments (perhaps UAT) where you can test to make sure it's good and ultimately to the production environments.

- One problem might be the freshness of the data – right now all of our environments are refreshed monthly with the release of a data migration
    - Once we go live we will need to figure out another strategy to keep our data fresh – however PII standards will insist that the data will need to be scrubbed before it is placed in a non prod environment so things like SSN#'s and addresses will need to be changed before the data can be used in non Prod

To: Holly Greene
Subject: ACIS Follow Up Items
Date: Thursday, August 20, 2020 1:50:56 PM
Attachments: image002.png

Good afternoon,

I am following up on the topics of AD-HOC/RPT DEV, staff utilization and refresh schedule. In our 1 on 1 meeting later this afternoon we can discuss in further detail.

1: AD-HOC/RPT DEV

1. We are officially pulling the SOW for Telerik off the table. We viewed this as a solution for an environment we were not contractually obligated to support.
2. The RFP and Contract states that we provide the following environments: Production, UAT, Training, Disaster Recovery (DR). There is nothing in the RFP or Contract that states we supply a 'Development Environment' for Report Writing (Ad Hoc).
3. We are required to offer an Ad-Hoc Report Writing Tool that does exist today and is available for use in the Production Environment.
4. We can also offer our services to build and maintain reports for ACIS similar to what we provided during the project. These hours would be billed towards the M&O Remediation/EUIL Hours initially and then pulled from the M&O allotted 10,000 annual hours. These would not be considered general support hours.
5. We also can offer to build and maintain a full development environment for your team. This would require an entire new SOW, which we will only prepare if there is sufficient interest from ADCRR.

2: Staff Utilization

1. We are currently satisfying our contractual commitment to M&O support of the ACIS system.
2. In the past our staff was solely focused on fixing bugs which led to a greater number of bugs being "fixed".
    a. We are now supporting EUIL items
    b. We are now supporting ServiceDesk
    c. We are continuing to support the ACIS system in all areas
3. Here is the resource list you asked for ACIS M&O Staff

3: Refresh Schedule

1. We are committed to refreshing the UAT and UAT Feature Environment Monthly
    a. If ADCRR feels this is not the right frequency we will refresh the environment upon whatever schedule ADCRR requests. The hours for the additional requests will be billed toward the M&O Remediation Hours. In addition to an agreed upon schedule ADCRR can also make on demand requests which will also be billed toward the M&O Remediation Hours.

Subject: M&O Hours 8/10/2020 - 8/14/2020
Date: Tuesday, August 18, 2020 4:26:05 PM
Attachments: image006.png

Please find the hours below with notes. Holly there are 1.5 hours in Document Storage and I am meeting with the team to understand why they are there when I told them we met our limit. Please bear with me while I drill down into that.

M&O Work Item	Time Period	Credit	Debit	Balance	Period Totals
M/O Signed Agreement	5/1/2020	10,000		10,000.00	
Hours in Arrears	Pre-Signed Agreement	100	721.50	9,378.50	
Project Management	5/24/2020 - 7/31/2020		180.00	9,198.50	736.25
Performance Improvement	5/24/2020 - 7/31/2020		322.50	8,876.00	
Document Storage	5/24/2020 - 7/31/2020		147.00	8,729.00	
Excessive Postback	5/24/2020 - 7/31/2020		14.50	8,714.50	
AD HOC Support	5/24/2020 - 7/31/2020		68.25	8,646.25	
Arbritration	5/24/2020 - 7/31/2020		2.00	8,644.25	
Parking Lot	5/24/2020 - 7/31/2020		2.00	8,642.25	
Project Management	8/3/2020 - 8/7/2020		10.00	8,632.25	51.50
Performance Improvement	8/3/2020 - 8/7/2020		4.50	8,627.75	
Document Storage	8/3/2020 - 8/7/2020		4.50	8,623.25	
40707: RMS Homeless Home Plans	8/3/2020 - 8/7/2020		16.75	8,606.50	
40748: COUNT - Inmates Leaving	8/3/2020 - 8/7/2020		5.75	8,600.75	
AD HOC Support	8/3/2020 - 8/7/2020		10	8,590.75	
Project Management	8/10/2020 - 8/14/2020		24.5		32.75
Performance Improvement	8/10/2020 - 8/14/2020		3		
Document Storage	8/10/2020 - 8/14/2020		1.5		
AD HOC Support	8/10/2020 - 8/14/2020		3.75	8,587.00	
Total				8,590.75	

Project Management: 24.5 Hours

- Meetings, Project Plan(s), Planning and Communications

Performance Improvement: 3 Hours

- DEV work and Code Migration

Document Storage: 1.5 Hours

- Migration

Ad Hoc: 3.75

- 1.5 HR QA
- 2.25 HR Migration (Urgent requests for Covid Report)

Date:	Tuesday, August 18, 2020 4:06:33 PM
Attachments:	image001.png image002.png

Please find my notes from our leadership meeting (8/13). I have included my takeaways from the Governance meeting and outstanding action items at the bottom of this email. Thank you.

1: M&O Staff Utilization

- ADCRR IT Leadership has concerns over the following
  - BUG Fixes dropped significantly this past week (14 bugs) previously B&D had averaged ~40
    - What is the staff utilization?
    - Sandy Wang highlighted the paragraph listed below from Amendment 9

> The Parties shall iteratively develop the EUIL with monthly additions to the EUIL. The goal shall be to identify and resolve ADCRR authorized items on the approved EUIL as quickly as reasonably possible (e.g., utilization of the full 10,000 Additional Remediation Hours as quickly as reasonably possible against the prioritized EUIL). The Parties agree that B&D shall provide a target of the equivalent of 10 FTEs, or more, (in addition to the FTEs that B&D shall utilize to satisfy its M&O Hours) to provide the Additional Remediation Hours and as may be needed to exhaust the remaining 10,000 M&O Hours.

- Holly has requested a roster of the employees that are assigned to M&O Support and M&O Remediation Hours

2: Refresh Schedule

- B&D has indicated that there will be a monthly refresh for the UAT and UAT Feature Environment
  - Next Refresh has not been scheduled yet
  - ADCRR IT Leadership feels that this does not support the RPT_DEV (Ad Hoc) effort and wants an explanation for why RPT_DEV is "Chargeable"
  - ADCRR IT Leadership feels that this monthly schedule does no support the 30 Day time window for UAT Feature Testing as well
  - ADCRR IT Leadership would also like to know who authorized the stopping of the refreshes and why was this not communicated to them?

3: Customer Service

- ADCRR IT Leadership is dissatisfied currently with the level of customer service
  - Example: In TFS the excel document functionality stopped working for ADCRR
    - ADCRR requested help in understanding why this functionality stopped
    - B&D was unable to replicate on our side
    - B&D offered advice on what the issue may be (32Bit vs 64Bit, Office 2013 vs Office 2016)
    - None of these recommendations fixed the problem, thus B&D indicated that this

AMERICAN OVERSIGHT

was an ADCRR Helpdesk Issue
    - ADCRR IT Leadership expectation is that B&D does everything it can to help solve the issues at hand

4: Governance Takeaways

- Significant progress has been made with the development of EUIL Items and the testing process is thoroughly underway
- There is a need for a Glossary/Index with Key Phrases and Terms (Charles and Sandy will work together)
- We need to stress the successes that we are achieving as a group. There is tremendous teamwork and collaboration happening and that is fantastic for both organizations

5: Action Items

- SIGN OFF NEEDED FOR HOURS 8/7/2020 and 8/14/2020
- M&O Agreement needs to be signed
- UAT Feature Bug Tracking Spreadsheet needs to be developed (Charles)

missing files from 08/15/20 and 08/16/20? This is holding up our production processing. Please note, these files need to be processed in order. We are looking for the following files:

20200815.CI
20200816.CI

Thanks for your feedback.

Good morning, Holly & ADCRR Team - PC-AIMS2 data was delivered overnight and we are back to current data for use in our PC-based applications, including the external Visitation application and Inmate Data Search.

Charles - Thank you to you and your team for checking the B&D side to find out where the file delivery process was held up.

Take good care,
- josh C.

I think until we know what the contract says and what are going to be the sticking point about what can be charged and what can not be charged we should postpone this meeting. The Ad Hoc team is still developing reports and they are being pushed in a timely manner. Jey brought up in the Governance meeting how appreciate OPS was of the Covid report and turn around time. I think we need to get everyone on the same page once and for all before we go down any roads we may have to back peddle out of.

Holly,

Hope all is well with you! As a Valued Customer for Business and Decision-Mi-Case we are requesting your response to the attached reference form being submitted to State of Indiana.

I have populated all of the contact information to make participation a little easier, so if you could take a few minutes to complete the requested information that would be most appreciated!! Once the document is completed just submit it to the email address noted in the form by the deadline.

Thank you in advance for assisting us in this effort!

Joe Miles

Subject:	Contract Review
Date:	Thursday, August 13, 2020 6:03:34 PM

Hello Charles-

Upon review of the contract, I found as section for **Resource Capacity Utilization and Capacity Planning**, wherein it explains the following:

The Contractor shall be responsible (for <sec>) performing resource capacity utilization and capacity planning for the Solution. The Contractor shall implement needed expansions of hardware and network at the Contractor's own expense, subject to ADC approval, before resource degradation impacts Solution performance through the life of the contract.

I take this to to mean that any capacity management is B&D's expense and thus, we shall not be charged for document storage and performance improvement as it relates to the above.

Further, under **Application Support**, it reads:

The Contractor shall perform application support for the Solution to keep it operating as expected including but not limited to the following services:

Monitoring and reporting system performance
Investigation as to why data was not processed
Monitoring and reporting computer resource usage
Preparing and participating in application system problem review meetings
Creating special holiday, year-end, and production calendar schedules
Preliminary investigation of problems not identified by customer
Environments support
Ad hoc schedule changes
Data resource management
Mass changes
Business rules changes

All other application support services shall be performed on a daily (and/or as needed) basis.

This appears to speak to our earlier conversation concerning the support of our environments with respect to data refreshes. The regression to a monthly update does not comply with the standards of the contract as this is aligned with environment support and data resource management. Further, the preliminary investigation of problems not identified by the customer is not being adhered to as there are no known proactive measures in place on the B&D side to alert the ADCRR when a problem arises.

Please let us know your thoughts.

Respectfully,

Holly Greene

Subject: Billable Hours and Breakdown
Date: Thursday, August 13, 2020 3:09:02 PM
Attachments: image002.png

Holly,

I would like to discuss with you first. I am referencing the email I sent 7/10/2020 @ 11:33AM. I want to go over what I can deliver to you again and see if we can get closer to what your expectations are within what I can do.

> ***Our system is not set up to dive down into the detail as requested by ADCRR IT Leadership. We can do this manually but we would need to estimate this for ADCRR IT Leadership and if approved it would come out of the 10,000 M&O Remediation Hours.***
>
> ***1: M&O Support Hours (Bug Fixes) – we continue to flex our resources to meet the defect needs, we don't report these specific hours but focus on the completion by priority of defects.***
>
> ***2: M&O EUIL Hours (10,000 hours – for the first year following the signing of the amendment) - We provide fixed price estimates based on the agreed scope and report of the percentage of complete per EUIL item. As we discussed yesterday, if the scope changes (hopefully not) we will provide an update asap.***
>
> ***3: M&O Remediation Hours (10,000 hours for every year on support contract) - AD Hoc can be reported based on the activities identified by the task (BA, DEV, QA, PM).***

For line item #3 we started to give a further breakdown this week.

You had previously asked for the PM activities and I thought the best way to illustrate this was within the EUIL activities. These activities carry over across items 1-3.

- EUIL ITEMS
  - JAR Sessions
  - Estimations
    - BA Analysis
    - BA FSD
    - QA Analysis
    - DEV Analysis
    - Internal Meetings with B&D Team for Scope and Build Review
  - Project Management
    - Meetings
      - Scheduling
      - Note Taking
      - Follow Up Communications (ADCRR IT & Operations)

AMERICAN OVERSIGHT

Additional add on responsibilities based off of follow up items

- Resource Management
  - Time Planning
  - Resource Allocation
- Risk Management
  - Parallel work effort
  - Downstream system implications
  - Overall System Management
- ACRRR Operational Involvement
  - SME Touchbase
  - OPS Leadership
  - EUIL Communications for the "house"
- ADCRR IT Leadership & PMO
  - EUIL related items as needed

- Development
  - BA
    - Ad Hoc meetings for EUIL items that may arise
  - DEV
    - Ad Hoc meetings for EUIL items that may arise
    - Build
    - Test
    - Validation
    - Deployment
  - QA
    - Test Scripts
    - Testing

In regards to the issue of environment Data refresh and it being chargeable. I believe the stance from B&D will be that the environments will be refreshed monthly and if an additional refresh is requested than that will be chargeable. We believe the best way to test the updated functionality and is for the Tester to create Test Data.

Thank you Sandy,

I have sent my itemized list of billable items to leadership to validate and hope to have it in time for the meeting. I would also like to discuss the TFS issue and the reported downtime this morning from Joe Nicoletti.

Subject: Agenda items for tomorrow's IT Leadership meeting

Here is what I have for tomorrow's meeting:

- Review action items from 8/7
- Resource utilization between M&O and EUILs - the latest bug release only contains 14 items, compared to the typical 40-50 per release. We were told the resources were spread to EUILs.

Hey guys,

I apologize but will have to get my full agenda items out later this evening. I'm back down at the hospital with my wife. The main things I wanted to review are:

1: Chargeable vs Non Chargeable
2: Microsoft End of Life issue (2013) TFS and Excel

Subject: ACIS - ADCRR IT Leadership Meeting Notes 8/7/2020
Date: Monday, August 10, 2020 2:48:01 PM
Attachments: image011.png
image012.png

Please find the meeting notes below. If you have any comments or feedback please let me know. Thank you.

1: System Monitoring: ADCRR IT Leadership is dissatisfied with the current state of the performance monitoring of the ACIS System. This is a customer service issue for ADCRR IT Leadership and need it to be addressed.

- Request is to review system alerts
    - Review communication practices between B&D and ADCRR
- System Monitoring Tools
- **ADCRR IT is scheduling an internal meeting**
- **Charles to schedule B&D Internal Meeting**

2: SLA Agreement is currently with Procurement and will update B&D once an update is available

3: High Level Governance Meeting is scheduled for 8/13/2020. Proposed agenda below:

- EUIL Ledger (see below)
- M&O Hours (see below)
- Service Desk Statistics
- OCI Involvement and Updates (Enforcer)
- Issues/Concerns (Round Robin)
- Success (Round Robin)

4: DB Refresh Schedule

- As of July 3rd all Database (DB) refreshes stopped automatically
    - B&D will do DB Refreshes on request and estimates it's 10 hours per environment (TRAIN, UAT, RPT_DEV)
    - B&D will only charge for the actual hours spent on the work

5: Excel Workbook in TFS

- B&D is under the impression from the information that George Martinez supplied to Matt DeClue that this is an issue for ADCRR IT Desktop Support. We ask that you first research this further internally.

6: ADCRR IT Leadership has requested the following:

- Explanation for why items that were previously "free" or considered part of maintenance and upkeep are now chargeable
- A detailed list of everything that will be chargeable moving forward

7: Keefe Social Security Number issue is currently being worked internally by ADCRR

8: Enforcer discovery close to completion by ADCRR IT and OPS. Once complete B&D will work with ADCRR on possible solutions for the ongoing End User dissatisfaction

Subject: ACIS - ADCRR IT Leadership Meeting Agenda

Please let me know what agenda items you want added to the meeting tomorrow.

1: System Monitoring – It's B&Ds opinion that the current monitoring system that is in place is working appropriately and B&D is required to report on the system performance monthly. B&D does not provide customers access directly to their monitoring tools and AD-Hoc Reports may be requested.

2: SLA Update (currently with Joe P)

3: High Level Governance Meeting

Good morning,

Please find the attached estimates for CR's 40748 and 40707. These CR's were originally approved during the Go Live time period but not implemented due to the work freeze that occurred post Go Live and Pre M&O. We would like to move forward on these once approved and would need JAR sessions scheduled as quickly as possible. Please let us know the next steps. Thank you.

Subject: Reference Request
To: hgreene@azadc.gov <hgreene@azadc.gov>

Holly,

Hope all is well with you! As a Valued Customer for Business and Decision-Mi-Case we are requesting your response to the attached reference form being submitted to State of Indiana.

I have populated all of the contact information to make participation a little easier, so if you could take a few minutes to complete the requested information that would be most appreciated!! Once the document is completed just submit it to the email address noted in the form by the deadline.

Thank you in advance for assisting us in this effort!

Joe Miles

VENDOR NAME

Business and Decision – Mi-Case

REFERENCE CONTACT INFORMATION

Reference Company Name	State of Arizona, Department of Corrections
Contact Name	Holly Greene
Contact Title	Acting Chief Information Officer
Company Mailing Address	1645 W. Jefferson Street, Suite 2115, MC310
Company City, State, Zip	Phoenix, Arizona 85007
Company Website Address	https://corrections.az.gov/
Contact Telephone Number	(602) 364-0600
Contact Fax Number	
Contact Email	hgreene@azadc.gov
Industry of Company	Public Sector - Corrections

QUESTIONS: Please provide a response to each of the questions listed below regarding the vendor listed above.

1. If you decline to provide a reference, please indicate that below and provide any comments you would be willing to share regarding the reason.

AMERICAN OVERSIGHT

2. Does the vendor currently provide your company with Victim Notification System Services?

3. How long did you/have you and/or members of your team worked with the vendor? Please provide the specific dates of service.

4. What was the vendor's turnover rate? If high or medium, what were the causes?

5. With what type of internal and external stakeholders did the vendor have to communicate with?

6. Has the vendor been cited for any financial audit issues? If you are able to, please describe the issue briefly, and any corrective actions required. Did the vendor ultimately address the issue(s) in a satisfactory manner?

7. Has the vendor been subject to any requests for corrective action to cure performance issues? If you are able to, please describe the issue briefly, and any corrective actions required. Did the vendor ultimately address the issue(s) in a satisfactory manner?

8. Would you rate your experience with the quality of services/work provided by vendor as poor, satisfactory, or superior? Please elaborate on why you are giving the vendor this rating.

9. Would you rate the vendor's knowledge of your business as poor, satisfactory, or superior? Please elaborate on why you are giving the vendor this rating.

10. Would you rate the overall quality of the vendor's staff as poor, satisfactory, or superior? Please elaborate on why you are giving the vendor this rating.

11. Would you describe the quality of the vendor's engagement and communication with stakeholders (internal and external) throughout the project as poor, satisfactory, or superior? Please elaborate on why you are giving the vendor this rating.

AMERICAN OVERSIGHT

12. Would you rate the vendor's ability to provide appropriate staff and resources for the project, as needed, at all times as poor, satisfactory, or superior? Please elaborate on why you are giving the vendor this rating.

13. Would you rate the vendor's performance regarding cost and/or schedule overruns on the project as poor, satisfactory, or superior? Please elaborate on why you are giving the vendor this rating.

14. Are there any other topics you believe Indiana should consider during its reference evaluation or comments you would like to share?

15. Would your overall rating of the vendor be poor, satisfactory, or superior?

Date:	Wednesday, August 5, 2020 3:40:34 PM
Attachments:	image003.png

Good afternoon,

Phil Wussow and Justin Baker have provided their updated estimates from Phil's discovery work into CR 40940. We do have some outlined questions below that will need to be answered by the ADCRR staff. Please see Phil's message.

"I have completed our analysis to determine all areas of the application that would need to be updated as a result of allowing more than one Initial Classification to exist for an episode.

The following are a questions that need to be directed to ADC regarding how to handle certain cases in the code.

Questions:

1. ***During the classification process, If it is an Initial Classification and the inmate has less than 180 days left to serve, then set the due date of the action queue for 1 day instead of 3.***

2. ***During the classification process, the classification cannot result in a custody level decrease if it has been less than 180 days since the initial classification. Should we count the 180 days from the first Initial Classification for the doc episode or from the most recent one?***

3. ***PKG_FITS . PR_CUS_180_DAY_RECOMMITMENTS checks to see if an Initial Classification has been completed and over 180 days old. Should we count the 180 days from the first Initial Classification or the most recent one?***

4. ***PKG_FITS . PR_CUS_180_DAY_TRANSFERS checks to see if an Initial Classification has been completed and over 180 days old. Should we count the 180 days from the first Initial Classification or the most recent one?***

The development time to complete this effort will be about 30 hours and 36 hours for QA."

TOTAL HOURS: 66

Please have the appropriate staff from OPS answer the outlined questions and we will proceed with your approval. Thank you.

Subject: Re: EUIL Jar Sessions
Date: Wednesday, August 5, 2020 2:07:10 PM

Yes. However, it is understood that JAR sessions may not be necessary for some. My instruction is to schedule the session anyway and in that session, it will be announced whether it is required to proceed. This is to ensure a forum was provided in the event someone objects and wishes to proceed. It is to document the outcome for tracking purposes should we find a JAR session should have been held. If that time is scheduled for 1 hour, but 5min was used, then 5min should be billed (or however that works in terms of billable time).

Respectfully,

Holly Greene

Date:	Tuesday, August 4, 2020 10:48:15 PM
Attachments:	image009.png image007.png

Hello Spencer-

Feedback is always at the ready and provided.

Our Wednesday report is a status report which contains the billable time as well as a number of other items we've talked through. The difference is in the details. The hours contribute to the story, but that's not the full story. Charles' Monday report of billable time is for review by Rusty and me. His report work is not intended to be in the place of your report work.

As for guessing, please refrain from assuming intentions of use as leadership will decide how we need to use this information. As Rusty, I and Sandy have explained, the current focus is to document our (ADCRR) work as this part of general and good practice. And as Charles and I have discussed at length, he and I will be looking to build our ability to forecast hours of use amongst many other things.

Our directives to the team and the team's output based on said instruction have produced some good successes in developing the proper structure for managing this body of work. We will continue to work with you and others on creating maturing overall support for M&O.

As a gentle reminder, please ensure to follow your chain of command and include your leadership on your direct messages to me or messages to other members of the leadership hierarchy.

Thank you for all that you do. Please keep up the good work.

-Holly

On Tue, Aug 4, 2020 at 10:17 PM Spencer Scott <sscott3@azadc.gov> wrote:

> I have a number of other questions that I'll contemplate in the coming days, but I do have quick question for you now. What is your thoughts on the differences between Charles' Monday report and my Wednesday report? I assume you don't want the same information regurgitated. This information would help be tailor what other questions follow.
>
> I'm guessing you are looking for an analysis/audit of Charles' metrics that validates their claims of hours used recently? Or possibly an analysis of what we project to use in the coming weeks or months?
>
> As an aside FYI, I did incorporate your specific Questions into the CR Tracking Report for this week. That was the sort of feedback I'm searching for here. I know we will refine the reports over the coming weeks, but having feedback accelerates that learning curve.

AMERICAN OVERSIGHT

On Tue, Aug 4, 2020 at 5:07 PM Holly Greene <hgreene@azadc.gov> wrote:

All-

Just to reiterate:

- The approval of M&O annual and Additional Remediation Hours consumed is a weekly process
- Every Monday, Charles meets with me and Rusty to review the hours consumed the week prior
- Once Rusty and I approve, Charles will send an email to this group noting such and if there are any action items for the PMO space
- If the hours are not approved, it will follow the same communication flow. However, I will also take action separately to work with Senior Leadership.
- If the hours are approved, but with action - this will be noted in the email and I ask that the PMO work with the proper resources should further instruction be required
- These hours will then be added into Spencer's weekly report which will be delivered to me and Rusty every Wednesday
- If new hours/body of work are added to the docket each week, I need to be made aware before the hours are provided each Monday. Basically, there should be no surprises in the consumption of hours. If there is a spike, then this should be communicated well in advance and addressed during the Monday meeting.
- The hours should be added to the Billable Hours tracking sheet. In theory, the majority of the hours approved (when tallied) should align with the estimated total amount of hours to tackle the EUIL/Parking Lot list of 20+ which are coming out of the Additional Remediation bucket. There should be only a small percentage of hours which fall outside of that scope and we should have a firm understanding of what that body of work looks like (example: inclusion to the Keefe/ACIS request from Gergana, and others). There should also be a small percentage of hours used which fall into the Annual M&O bucket. Those too should be accounted for and represented somehow on this spreadsheet.

Let me know if there are questions.

Thanks,

Holly

Hi Charles-

I've removed all others. ADCRR has sought responses from B&D on this inquiry item for over 1.5 months now. My last email to Cindy (and the group) received no response from B&D. This was on 7/22.

Please coordinate a time this week to work with Gergana on this inquiry. If we are missing something, we need to understand what that is and how we can achieve fulfilling it.

If this cannot be achieved, my next step will be to escalate to Dean and Deputy Director Profiri.

Thank you,

Holly

Subject: Re: Inquiry: ACIS interface with KeepTrak

Hi Cindy (et al)-

I appreciate the response, but need to know from B&D what our next steps should be. This one continues to fall to the back burner without solid direction. I need B&D to assist with researching the legality and though it was not part of the initial spec, it's present in ACIS, so I'd like further explanation as to why (in M&O) this would be considered a CR.

I'm seeking solutions and direction from our support vendor.

I look to you (and Charles) to schedule a meeting with ADCRR to discuss further as email seems to be dragging this on.

Thank you,

Holly Greene

> Hi Holly,

AMERICAN OVERSIGHT

I guess since this was not one of the data elements included in the spec. we would need a CR to add this field to the interface file. I have verified that the field currently exists in ACIS, however, I am not able to speak to any legality questions of sharing this information.

Thank you,

Subject: Inquiry: ACIS interface with KeepTrak

Hi Charles-

I met with Gergana today and she stated that she will soon have to produce a 1099 report of the inmates. In this report, she will need to correlate the inmate Social Security number to the KeepTrak information.

Today, KeepTrak does not receive/call on SSN info of the inmates. John Vitale with KeepTrak stated that they can create a field in KeepTra which can populate the SSN. This will assist with the report which Gergana needs to run.

Will we be able to pop the SSN from ACIS in KeepTrak? Are there legal issues behind why KeepTrak cannot receive the SSN?

Respectfully,

Holly Greene

ACIS Leadership Meeting 7/31/2020

1: User Deletion Error (Lynda Wade – Keep Trak): Below is the screenshot of the email message from Lynda Wade:

From: Lynda Wade <lwade@azadc.gov>
Sent: Monday, July 27, 2020 5:55 PM
To: Aaron Pratt <aaron.pratt@bndna.com>
Cc: Vitale, John <jvitale@keefegroup.com>; gmartinez1 <gmartinez1@azadc.gov>; Gravier, Timothy <tgravier@keefegroup.com>; Miller, Wendy <wmiller@keefegroup.com>; Penny Brackett <pbrackett@azadc.gov>; Gergana Kovatcheva <gkovatcheva@azadc.gov>; Thad Lowry <thad.lowry@bndna.com>; Trevor Baker <trevor.baker@bndna.com>; Luis Blázquez <luis.blazquez@bndna.com>; Jey Whitson1 <jwhitson@azadc.gov>; Charles Spannagel <Charles.Spannagel@bndna.com>; Holly Greene <hgreene@azadc.gov>; Sharamitaro, Melissa <Melissa.Sharamitaro@keefegroup.com>; Sandy Wang <swang@azadc.gov>
Subject: Re: Pay Cycle 2 (Important)

Hello All! I was just informed that I deleted a Keep Trak user that shouldn't have been deleted. I apologize… and from the user description… it looked like a generic AIMS2 testing user that was not Active and no longer being used… the Active box was unchecked. I truly did not know that it was associated with the payroll interface. I know now!! 😱… I try to keep the Keep Trak user's current and delete users that no longer require Keep Trak Access. I am so sorry for the inconvenience this caused. Myself and my staff were never given instructions on which critical users should never be modified or deleted. I am hoping that the roles are being modified so critical users cannot be modified or deleted in error?

Sincerely!

Lynda Wade

Accounting Specialist Manager

LWADE@AZADC.GOV

B&D wants to inform ADCRR that they will be billed additional support hours if an issue arises that is not directly related to the ACIS system as built and functioning by B&D. This is if an issue is caused by an ADCRR User.

- **ADCRR will NOT be charged for this incident**
- ADCRR IT Leadership requests the following
  - RCA for exactly what happened
  - Is this preventable?
    - Audit of Security Profiles attached to users
    - Collaboration with Keep Trak Team for RCA

2: EUIL Hours Validation

- Hours are sent to Holly and Rusty for initial approval by 12pm each Monday for a 3pm Review
  - Hours are then sent to Spencer for validation
- Use of Spencer's "Banking Ledger" will be presented each Friday for final sign off
  - Statues of Each EUIL Item in Development
    - Estimated Delivery Update Review
- Initial Review of "Bank Ledger" set for Wednesday between Spencer and Charles

3: RCA (Scaling Incident) write up from Matt Declue was great and exactly what ADCRR IT Leadership was looking for

4: Staff from OCI (Process Improvement Specialist) will be added to the meeting in regards to Sherwell data review.

5: Two items from Go Live Change Requests (***Signed FSDs for Change Requests 40748 and 40707***).

- What are the estimates for these CR's
  - Charles sent message to BA team on Friday and will follow up on

6: Hours for Phil's additional discovery for CR 40940 (40 hours) will be completed with his report by 8/5/2020. The plan included the following:

1. Search all the C# code in the solution for any calls to get the initial classification.
2. Search all of the database packages and procedures for any calls to get the initial classification.
3. Search all background services for any calls to get the initial classification.
4. Search all report procedures for any calls to get the initial classification.
5. Search all database scheduled jobs for any calls to get the initial classification.
6. Search workflows for any calls to get the initial classification.

7: EUIL Testing:

- Does the clock stop once there has been a bug identified in UAT Feature?
- When does the clock start? The items were pushed in late afternoon on the 27th, does that mean the clock date is the 27th or the 28th ?

8: Operations has indicated that the 4 items are bugs and should be treated as such not as change requests (these CR's were a part of Amendment 2)

9: M&O Items

- Keith Barrier (Security Team) has been added to the weekly agenda in order to cover security topics

10: SLAs

- Charles to follow up with Dean on the status of B&D internal review.

11: Build out of IT Support Model

- Currently in place at ADCRR

12: New Business Interfaces with New Vendors

- Currently no new topics or action items

13: Services and system health report portfolio

- B&D to continue to review the best way to deliver the system performance reports
  - ADCRR IT leadership has requested access to the Reporting tools
  - Charles to hold internal meetings with B&D to look at solutions

Hi Thad,

Attached is the corrected version of 40707. So that one and 40748 are ready to go. How would you like to coordinate on next steps and timeline?

> > Good afternoon. I wanted to make sure I got this to you prior to our meeting today. I fully understand that this will require further conversation. In an effort to improve the system we have continued work on the areas listed below. This was not authorized ahead of time and that is my responsibility and fault. I believe that with the M&O Hours Tracking Process that Spencer and I worked on this will not be an issue in the future and I will require weekly sign off moving forward. I have highlighted the positive attributes to these endeavors. Again, our sole purpose in these efforts is to improve the system based off of the feedback we received from our BA's walkthrough and the feedback from Operations post Go-Live.

> >   - If we tune query "B" to run in 3 seconds it would save 3,000 seconds
> >   - To the end user that executes Query "A" one time there would be a very minor difference 2 seconds to 1 second.

AMERICAN OVERSIGHT

- Also, to the end user that runs query "B" one time they would see a small difference 4 seconds to 3 seconds
- Overall all of these improvements would have a cumulative effect of decreased response times for everyone

    - **This is an ongoing process and the work effort can be capped at a specified hours**

Document Storage

- Storing pdf documents in the database was having a cumulative effect of:

    - Increased response times because of processing millions of records in the document table (currently 1,683,520 records)
    - Increased DB size to the tune of an average of 1 GB day – 30 GB's / month
    - Growing at average of 100 records per day and 1024x MB's per day
    - Increased amount of time and storage needed to back up the database
    - Increased amount of time and storage needed to clone the database to other environments (6 – TRAIN, UAT, Data Replication (Prod Reports), RPT_DEV, DR)
    - Increased amount of time it would take to stand up the DR environment

        - **20 estimated additional hours for completion**

Excessive Postbacks

- Every time a user clicked on a dropdown box (causing a spinning blue circle) this added many seconds of delay to complete actions
- Eliminating the spinning circles has a cumulative effect of reducing response time and reducing the amount of time it takes to complete actions

    - Previously, each click was taking 3 seconds for the UI to respond
    - Now, each click is instantaneous
    - There are 75 active prison units in the system
    - If every unit has 20 inmates who need to be verified on each count:

        - This creates a combined 75 minutes of staff time, each count, across the entire complexes
        - Count is conducted 4 times per day, that's 300 minutes of time saving alone – 5 hours of time for Accountability Officers throughout the state, every day.

            - **Each screen requires 20-30 hours of working and testing. Collaboration needed with Operations to identify additional screens.**

AP0357 - AZ DOC - M&O Development Hours	10-May	17-May	24-May	31-May	7-Jun	14-Jun	21-Jun	29-Jun	5-Jul	12-Jul	19-Jul	Grand Total

AMERICAN OVERSIGHT

ACIS Scaling Incident

Overview 1

Incident Monday 7/20/2020 1

Response 1

Root Cause 1

Overview

The customer reported “Multiple ADCRR staff across multiple locations are reporting being able to log into ACIS, however once they try to search for Inmates or navigate the site, ACIS shows loading for several minutes, then fails with an error message." BNDNA found an issue occurred causing the ACIS frontend instances to have only (2) nodes when the business day started. Typically, the autoscaling initiates scale up which increases the front end instance count (15).

Incident Monday 7/20/2020

1. 8:48AM: the customer (Dan Ford and Spencer) contact the ACIS PM Charles Spannagel that ACIS is down. BNDNA has all hands on deck, dev, infrastructure, database, qa, pm, leadership staff
2. 8:54AM: Issue is found, ACIS scaling up
3. 9:00AM: Customer report: “Multiple ADCRR staff across multiple locations are reporting being able to log into ACIS, however once they try to search for Inmates or navigate the site, ACIS shows loading for several minutes, then fails with an error message."
4. 9:10 AM: Issue is confirmed fixed by BNDNA QA team

Response

- The front end instances were scaled up to 15 nodes in less than 5 minutes. The load was then rebalanced from (2) instances across the 15 nodes. An additional 5 instances were temporarily added for a total of 22 instances in service to meet the backpressure demand.
- After the load charts indicated the traffic returned to a normal level the instance count was dropped down to the regular peak level of 15 nodes.

Root Cause

- The root cause was found to be a latent autoscaler capacity setting. The quantity was correct in the infrastructure code but not applied to the autoscaler. To double check this didn’t happen again, the next 2 autoscaler events were human monitored.

Holly and Aaron,

I want to circle back with your team to see where these two approved CR's falls on your current priority list. The FSD's were written by Trevor and approved as you can see below. We can begin development on these items immediately once approved. Please let us know. Thank you.

Hi Thad,

Attached is the corrected version of 40707. So that one and 40748 are ready to go. How would you like to coordinate on next steps and timeline?

Aaron

Spencer -

Correct. I've not approved the hours ending on 7/26. I've only approved up through 7/19.

As for the hours in question, it was assumed that all discrepancies were understood. If you did not get the answer/clarification needed, please work with Charles. Also, please remember to work with Aaron and Jeff regarding the AdHoc hours; and with the BAs regarding JAR session tracking.

The approval process is to be a weekly now (as this was always the intent). Charles will send the hours to me and Rusty for review. Once we've discussed with Charles, he will then send to you to add into your report. Charles will work with you on this process and circle back with me regarding any questions / clarification needed. We will adjust the process at a later point if we see it's necessary.

Hope this helps.

-Holly

Subject: Re: M&O Development Hours - Approval Needed

Thank you kindly. I approve the hours.

1: Performance Improvement - we recommend a cap of 520 hours. **- I would like to cap at 550 with a notification threshold at 450. If the threshold reaches 450, ADCRR should be alerted by Charles (or other B&D designated person) that we are coming close to pushing to 550. We should determine next steps before meeting or exceeding the 550.**

2: Document Storage - we were referring to a positive effect that this has on other things like Disaster Recovery and backups, Once this is implemented we will not be billing any hours to it in the future. It's a onetime thing. **- I am good with this. If this should change, I request that ADCRR be notified within a reasonable amount of time.**

3: Excessive Post Backs - There is more than development, there is analysis, setting up test data, unit test, possibly setting up integration tests, QA

- If there are a lot of drop downs on the page that cause delays (blue spinning circles) we have to rewrite the page to AJAX calls instead of postbacks (which is somewhat formulaic)
- If it's something other than drop downs and the page needs to be rewritten, then it's not formulaic at all.
- We can work collaboratively to identify the screens and areas to tackle next and put a Project Plan together around this initiative alone? **- Let's talk through this piece upon Charles' return.**

Respectfully,

Holly Greene

On Mon, Jul 27, 2020 at 6:47 PM Dean Allen <dean.allen@bndna.com> wrote:

Hello Holly,

The agreed 100 hours were to be taken from the total of 721.5 from the chart below (from the email Charles sent on May 27, 2020 – attached). Which resulted in a total of 621.5 hrs.

TASKS	3/8	3/15	3/22	3/29	4/5	4/12	4/19	4/26	5/3	5/10	5/17	Grand Total
AP0357 - AZ DOC - M&O Development Hours	33.0	46.0	31.0	51.5	45.0	26.0	29.0	22.8	18.0	261.5	157.8	721.5
100-Performance Imp										37.0	22.0	59.0
101-Doc Storage										92.0	75.3	167.3
102-Perfomance ReworkFixing Defects										97.5	60.5	158.0
2 - AD HOC Support	29.0	34.0	29.0	21.5	42.0	23.5	25.5	19.3	13.0	33.0		269.8
3 - Arbitration	4.0	10.0		28.0	2.0	2.5	3.5	3.5	3.0			56.5
4 - Parking Lot		2.0	2.0	2.0	1.0				2.0	2.0		11.0

Looking at the chart at the very bottom of this email chain I come to the conclusion that Charles should be looking for approval of the hours from the week commencing 24th May 2020 onwards.

I have taken the chart from the bottom of the email and reconstructed it below:

AP0357 - AZ DOC - M&O Development Hours	24-May	31-May	7-Jun	14-Jun	21-Jun	29-Jun	5-Jul	12-Jul	19-Jul	Grand Total
155 - Project Management	14.5	24	16	12	9	16	11	27.5	23	153
156 - Performance Improvement	57.5	31	21	96	41	8	1	20.5	30	306
157 - Document Storage	10	27.5	16	12	2	7	6	17	25	122.5
158 - Excessive Post Back	10									10
2 - AD HOC Support		3.25	9.5	7.5	5.25	9.5	10	1	12	58
3 – Arbitration				2						2
4 - Parking Lot										0
TOTAL										651.5

I hope that answers your question?

Thanks

Dean

Subject: Re: M&O Development Hours - Approval Needed

Hi Charles-

For PI, I'd like to see the recommended annual cap of hours.

For DS, regarding the stand-up of the DR, are you referring to Disaster Recovery? If so, I would think any DR is to be covered under M&O. As for data storage and maintenance to ensure data is fully preserved, would that too fall under M&O? Are the number of hours monthly, annual, all-time or something else? We may want to consider defining a standard and a cap depending on need and use.

For EP, this seems to fall under performance. I'd like to engage one of your techs in conversation to help me understand the work being performed for each each screen and how many screens there are. Surely there's a repeatable process to be found somewhere. This seems somewhat exaggerated.

For the hours, please give me a look back at the hours in arrears as well (add to this outline). I'd like to ensure that 100 was removed from the total as agreed to between Dean and Deputy Director.

Thank you!!

> Good afternoon. I wanted to make sure I got this to you prior to our meeting today. I fully understand that this will require further conversation. In an effort to improve the system we have continued work on the areas listed below. This was not authorized ahead of time and that is my responsibility and fault. I believe that with the M&O Hours Tracking Process that Spencer and I worked on this will not be an issue in the future and I will require weekly sign off moving forward. I have highlighted the positive attributes to these endeavors. Again, our sole purpose in these efforts is to improve the system based off of the feedback we received from our BA's walkthrough and the feedback from Operations post Go-Live.

Holly,

Thank you for the email and approval. Please see the hours for last week below. I will be in attendance for the leadership meeting this week and will send out a proposed agenda on Thursday morning.

AP0357 - AZ DOC - M&O Development Hours	24-May	31-May	7-Jun	14-Jun	21-Jun	29-Jun	5-Jul	12-Jul	19-Jul	26-Jul	Grand Total
155 - Project Management	14.5	24	16	12	9	16	11	27.5	23	27	180
156 - Performance Improvement	57.5	31	21	96	41	8	1	20.5	30	15.5	321.5
157 - Document Storage	10	27.5	16	12	2	7	6	17	25	18	140.5
158 - Excessive Post Back	10										10
2 - AD HOC Support		3.25	9.5	7.5	5.25	9.5	10	1	12	3	61
3 - Arbitration				2							2
4 - Parking Lot											2
TOTAL											**717**

Subject: Re: M&O Development Hours - Approval Needed

Thank you kindly. I approve the hours.

AMERICAN OVERSIGHT

1: Performance Improvement - we recommend a cap of 520 hours. **- I would like to cap at 550 with a notification threshold at 450. If the threshold reaches 450, ADCRR should be alerted by Charles (or other B&D designated person) that we are coming close to pushing to 550. We should determine next steps before meeting or exceeding the 550.**

2: Document Storage - we were referring to a positive effect that this has on other things like Disaster Recovery and backups, Once this is implemented we will not be billing any hours to it in the future. It's a onetime thing. **- I am good with this. If this should change, I request that ADCRR be notified within a reasonable amount of time.**

3: Excessive Post Backs - There is more than development, there is analysis, setting up test data, unit test, possibly setting up integration tests, QA

- If there are a lot of drop downs on the page that cause delays (blue spinning circles) we have to rewrite the page to AJAX calls instead of postbacks (which is somewhat formulaic)
- If it's something other than drop downs and the page needs to be rewritten, then it's not formulaic at all.
- We can work collaboratively to identify the screens and areas to tackle next and put a Project Plan together around this initiative alone? **- Let's talk through this piece upon Charles' return.**

Respectfully,

Holly Greene

Subject: Re: M&O Development Hours - Approval Needed

Hi Charles-

For PI, I'd like to see the recommended annual cap of hours.

For DS, regarding the stand-up of the DR, are you referring to Disaster Recovery? If so, I would think any DR is to be covered under M&O. As for data storage and maintenance to ensure data is fully preserved, would that too fall under M&O? Are the number of hours monthly, annual, all-time or something else? We may want to consider defining a standard and a cap depending on need and use.

For EP, this seems to fall under performance. I'd like to engage one of your techs in conversation to help me understand the work being performed for each each screen and how many screens there are. Surely there's a repeatable process to be found somewhere. This seems somewhat exaggerated.

For the hours, please give me a look back at the hours in arrears as well (add to this outline). I'd like to ensure that 100 was removed from the total as agreed to between Dean and Deputy Director.

Thank you!!

Holly

> Good afternoon. I wanted to make sure I got this to you prior to our meeting today. I fully understand that this will require further conversation. In an effort to improve the system we have continued work on the areas listed below. This was not authorized ahead of time and that is my responsibility and fault. I believe that with the M&O Hours Tracking Process that Spencer and I worked on this will not be an issue in the future and I will require weekly sign off moving forward. I have highlighted the positive attributes to these endeavors. Again, our sole purpose in these efforts is to improve the system based off of the feedback we received from our BA's walkthrough and the feedback from Operations post Go-Live.

AMERICAN OVERSIGHT

- **20 estimated additional hours for completion**

Excessive Postbacks

- Every time a user clicked on a dropdown box (causing a spinning blue circle) this added many seconds of delay to complete actions
- Eliminating the spinning circles has a cumulative effect of reducing response time and reducing the amount of time it takes to complete actions
    - Previously, each click was taking 3 seconds for the UI to respond
    - Now, each click is instantaneous
    - There are 75 active prison units in the system
    - If every unit has 20 inmates who need to be verified on each count:
        - This creates a combined 75 minutes of staff time, each count, across the entire complexes
        - Count is conducted 4 times per day, that's 300 minutes of time saving alone – 5 hours of time for Accountability Officers throughout the state, every day.
            - **Each screen requires 20-30 hours of working and testing. Collaboration needed with Operations to identify additional screens.**

AP0357 - AZ DOC - M&O Development Hours	10-May	17-May	24-May	31-May	7-Jun	14-Jun	21-Jun	29-Jun	5-Jul	12-Jul	19-Jul	Grand Total

In B&D/ADCRR case it is a vault for the source code of the Mi-Case software. The software is the intellectual property of B&D and in the wrong hands could pose as a business risk, as this is a commercial asset that is protected by copyright. So a company such as Iron Mountain provide a place where B&D can safely place the code so

AMERICAN OVERSIGHT

that in the event of a contract breach (as confirmed by a court) or in the unlikely event that B&D is no longer in business, then ADCRR can gain access to the source code, in order to provide business continuity. It is to this point that the contact at Iron Mountain is asking whether a 'release condition' has occurred. If ADCRR were to release the IP to ADCRR without a condition being met they would be in hot water with B&D.

All of our clients operate in the same manner. I am not sure what ADCRR want with the source code for. If it is to validate that the solution is what it should be in the ESCROW account, then I know other clients have paid Iron Mountain to create a working version of the source code that is deposited. I understand that Iron Mountain will charge ADCRR a fee for this service.

I am happy to have a call on the subject if the above is not clear, feel free to call my cell.

Thanks

Dean

Hello Patrick-

I have included our vendor partner representatives, Charles Spannagel and Matt DeClue to answer the status of the depositor. My understanding is that deposits have been made and ADCRR should be authorized to access what is currently available.

Matt and Charles-

Please confirm.

Respectfully,

Holly Greene

Attachments: M&O Hours Approval
image001.png
image002.png

Hello Holly,

The agreed 100 hours were to be taken from the total of 721.5 from the chart below (from the email Charles sent on May 27, 2020 – attached). Which resulted in a total of 621.5 hrs.

TASKS	3/8	3/15	3/22	3/29	4/5	4/12	4/19	4/26	5/3	5/10	5/17	Grand Total
AP0357 - AZ DOC - M&O Development Hours	33.0	46.0	31.0	51.5	45.0	26.0	29.0	22.8	18.0	261.5	157.8	721.5
100-Performance Imp										37.0	22.0	59.0
101-Doc Storage										92.0	75.3	167.3
102-Perfomance ReworkFixing Defects										97.5	60.5	158.0
2 - AD HOC Support	29.0	34.0	29.0	21.5	42.0	23.5	25.5	19.3	13.0	33.0		269.8
3 - Arbitration	4.0	10.0		28.0	2.0	2.5	3.5	3.5	3.0			56.5
4 - Parking Lot		2.0	2.0	2.0	1.0				2.0	2.0		11.0

Looking at the chart at the very bottom of this email chain I come to the conclusion that Charles should be looking for approval of the hours from the week commencing 24th May 2020 onwards.

I have taken the chart from the bottom of the email and reconstructed it below:

AP0357 - AZ DOC - M&O Development Hours	24-May	31-May	7-Jun	14-Jun	21-Jun	29-Jun	5-Jul	12-Jul	19-Jul	Grand Total
155 - Project Management	14.5	24	16	12	9	16	11	27.5	23	153
156 - Performance Improvement	57.5	31	21	96	41	8	1	20.5	30	306
157 - Document Storage	10	27.5	16	12	2	7	6	17	25	122.5
158 - Excessive Post Back	10									10
2 - AD HOC Support		3.25	9.5	7.5	5.25	9.5	10	1	12	58
3 – Arbitration				2						2
4 - Parking Lot										0
TOTAL										651.5

I hope that answers your question?

Thanks

Dean

Subject: Re: M&O Development Hours - Approval Needed

Hi Charles-

For PI, I'd like to see the recommended annual cap of hours.

For DS, regarding the stand-up of the DR, are you referring to Disaster Recovery? If so, I would think any DR is to be covered under M&O. As for data storage and maintenance to ensure data is fully preserved, would that too fall under M&O? Are the number of hours monthly, annual, all-time or something else? We may want to consider defining a standard and a cap depending on need and use.

For EP, this seems to fall under performance. I'd like to engage one of your techs in conversation to help me understand the work being performed for each each screen and how many screens there are. Surely there's a repeatable process to be found somewhere. This seems somewhat exaggerated.

For the hours, please give me a look back at the hours in arrears as well (add to this outline). I'd like to ensure that 100 was removed from the total as agreed to between Dean and Deputy Director.

Thank you!!

Holly

> Holly,
>
> Good afternoon. I wanted to make sure I got this to you prior to our meeting today. I fully understand that this will require further conversation. In an effort to improve the system we have continued work on the areas listed below. This was not authorized ahead of time and that is my responsibility and fault. I believe that with the M&O Hours Tracking Process that Spencer and I worked on this will not be an issue in the future and I will require weekly sign off moving forward. I have highlighted the positive attributes to these endeavors. Again, our sole purpose in these efforts is to improve the system based off of the feedback we received from our BA's walkthrough and the feedback from Operations post Go-Live.

>   - **20 estimated additional hours for completion**

AMERICAN OVERSIGHT

Excessive Postbacks

- Every time a user clicked on a dropdown box (causing a spinning blue circle) this added many seconds of delay to complete actions
- Eliminating the spinning circles has a cumulative effect of reducing response time and reducing the amount of time it takes to complete actions
    - Previously, each click was taking 3 seconds for the UI to respond
    - Now, each click is instantaneous
    - There are 75 active prison units in the system
    - If every unit has 20 inmates who need to be verified on each count:
        - This creates a combined 75 minutes of staff time, each count, across the entire complexes
        - Count is conducted 4 times per day, that's 300 minutes of time saving alone – 5 hours of time for Accountability Officers throughout the state, every day.
            - **Each screen requires 20-30 hours of working and testing. Collaboration needed with Operations to identify additional screens.**

AP0357 - AZ DOC - M&O Development Hours	10-May	17-May	24-May	31-May	7-Jun	14-Jun	21-Jun	29-Jun	5-Jul	12-Jul	19-Jul	Grand Total

We should be able to run this process on our end and it should catch everything up that was missed if the new credentials work.
Action Item: B&D to run the process and notify of results.
Action Item: Keefe and ADC to validate success.

Payroll
This one is date sensitive and depends on running the day of post date so it will be difficult to fix this by running the interface again. John, if we get you an export can you import into KeepTrak?
Action Item: B&D to get an export of the Payroll data missed on 7/23.
Action Item: Keefe to import payroll records.
Action Item: Keefe and ADC to validate success.

Please let me know if you see any issues with these plans and if we are ok to start the execution of discipline restitutions and utility fees.

Thanks,
Aaron

Importance: High

Hi Lynda,

We have had issues with the interface to KeepTrak all week (discipline restitutions and utility fees so far). The problem actual started last Friday and we contacted John Vitale at Keefe Group and copied Spencer and George. When we did not hear back, we opened a ticket with Keefe Group on Monday and have followed up each day but have not heard a response yet as to what the problem might be. @Gravier, Timothy has been our contact. Our logs indicate we are getting failures from the KeepTrak API when attempting to create a batch. It appears that Payroll is also affected by this issue as we are getting the same error message when the payroll ran last night.

Early this morning I notified Tim that payroll was also affected and that the issue would likely escalate quickly. I also notified our internal senior management of this situation. Unfortunately there is not much more we can do on our side at the moment. Once the technical problem is determined by Keefe Group we will have some catch up to do.

Thanks,

Aaron Pratt

I'm not sure. We would need to take some time to investigate what would happen. I don't think so. I would not want to generate the payroll again when the pay engine runs at 4pm and thinks that today is a post date again.

Thanks,
Aaron

image002.png

Here is our update:

Discipline Restitutions
We should be able to run this process on our end and it should catch everything up that was missed if the new credentials work.
Action Item: B&D to run the process and notify of results. **COMPLETE**
Action Item: Keefe and ADC to validate success.

Utility Fees
We should be able to run this process on our end and it should catch everything up that was missed if the new credentials work.
Action Item: B&D to run the process and notify of results. We ran this process. We ran into errors on this and are investigating.
Action Item: Keefe and ADC to validate success.

Payroll
This one is date sensitive and depends on running the day of post date so it will be difficult to fix this by running the interface again. John, if we get you an export can you import into KeepTrak?
Action Item: B&D to get an export of the Payroll data missed on 7/23. **COMPLETE. Please find the attached payroll data that failed yesterday and needs to be imported to KeepTrak.**
Action Item: Keefe to import payroll records.
Action Item: Keefe and ADC to validate success.
Thanks,
Aaron

Subject: RE: Pay Cycle 2 (Important)
Importance: High

Hi Lynda,

We have had issues with the interface to KeepTrak all week (discipline restitutions and utility fees so far). The problem actual started last Friday and we contacted John Vitale at Keefe Group and copied Spencer and George. When we did not hear back, we opened a ticket with Keefe Group on Monday and have followed up each day but have not heard a response yet as to what the problem might be. @Gravier, Timothy has been our contact. Our logs indicate we are getting failures from the KeepTrak

AMERICAN OVERSIGHT

API when attempting to create a batch. It appears that Payroll is also affected by this issue as we are getting the same error message when the payroll ran last night.

Early this morning I notified Tim that payroll was also affected and that the issue would likely escalate quickly. I also notified our internal senior management of this situation. Unfortunately there is not much more we can do on our side at the moment. Once the technical problem is determined by Keefe Group we will have some catch up to do.

Thanks,

Aaron Pratt

AMERICAN OVERSIGHT

From: Charles Spannagel on behalf of Charles Spannagel <Charles.Spannagel@bndna.com>
To: Holly Greene; Joseph Nicoletti; Rusty Johnson; Sandy Wang
Subject: ACIS - Leadership Meeting Agenda 7/24/2020 Notes
Date: Friday, July 24, 2020 12:04:44 PM
Attachments: image003.png

Please let me know if there is anything I have missed or that you would like to add. Thank you.

1: Charles OOO next week – can we cancel our meetings?
- For future OOO we should have shadows in place for any meetings that will need to cover for me

2: M&O SLA Agreement – Charles to update
- Dean meeting with Orange (legal) and will provide an update when possible

3: Cherwell Raw Data Meeting Scheduled
- Meeting Scheduled for 8/6/2020 @2pm

4: ACIS RCA Form Review
- Charles to provide RCA form upon review with B&D internally

5: Enforcer ADCRR IT Meeting (to be scheduled)
- George to provide information to Rusty about all aspects of Enforcer that will be used to guide future meetings with B&D

6: Review the project plan to see the status of the change requests and expected deployment dates for those change requests that have completed development/QA. (I added this for last week's meeting, but did not see any mentioning in your minutes)
- Additional documents and presentation documents needed for 10K foot view

7: Walk thru the environment structure you provided us on July 23.
- Sandy is satisfied with the diagram

Action Items

1: Review of the action items from the week before.
- PM Details and activities still needed

2: Cherwell Meeting
- Make sure Scott Schneider is included

3: Charles to provide SOW for AD Hoc Environment (per conversation with Holly)

4: Environment Failover Structure and Process

5: Charles to update Change Management Documentation with updated workflow (JAR Sessions first)

Hi Charles-

We need to talk through the escalation process of Incidents internal to B&D as well as those owned by other vendors. Please schedule some time with Scott Schnyer, Joe Nicoletti, Rusty and I when you return. This is something that I feel we can dial in.

Respectfully,

Holly Greene

Hi Lynda,

We have had issues with the interface to KeepTrak all week (discipline restitutions and utility fees so far). The problem actual started last Friday and we contacted John Vitale at Keefe

AMERICAN OVERSIGHT

Group and copied Spencer and George. When we did not hear back, we opened a ticket with Keefe Group on Monday and have followed up each day but have not heard a response yet as to what the problem might be. @Gravier, Timothy has been our contact. Our logs indicate we are getting failures from the KeepTrak API when attempting to create a batch. It appears that Payroll is also affected by this issue as we are getting the same error message when the payroll ran last night.

Early this morning I notified Tim that payroll was also affected and that the issue would likely escalate quickly. I also notified our internal senior management of this situation. Unfortunately there is not much more we can do on our side at the moment. Once the technical problem is determined by Keefe Group we will have some catch up to do.

Thanks,

Aaron Pratt

Charles, Spencer, Sandy-

As a gentle reminder, my ask is that the details of the bug are either attached in a separate document or noted in the body of the email itself. I don't know what I'm approving in this case and I (and others) must have this information going forward.

I will approve so as not to create a bottleneck for this one. However, if something breaks, I expect B&D will work with those necessary on the ADRR side to remediate quickly.

Respectfully,

Holly Greene

As there is no impact to users in the system, Operations does not oppose pushing this outside of cycle.

Subject: Re: Cherwell Spreadsheet Review
Date: Thursday, July 23, 2020 11:45:46 AM

Hi Charles-

No, as the intent is to review together to mitigate assumptions leading up to the meeting. This is to help B&D understand how we cataloged things on our end and then we can work together (and internally) to refine.

We'd like to also review what B&D has and how they cataloged their items during this session.

Therefore, our document will be provided the day of the meeting.

Thanks for your understanding.

-Holly

Attachments: image003.png

Holly,

Good afternoon. I wanted to make sure I got this to you prior to our meeting today. I fully understand that this will require further conversation. In an effort to improve the system we have continued work on the areas listed below. This was not authorized ahead of time and that is my responsibility and fault. I believe that with the M&O Hours Tracking Process that Spencer and I worked on this will not be an issue in the future and I will require weekly sign off moving forward. I have highlighted the positive attributes to these endeavors. Again, our sole purpose in these efforts is to improve the system based off of the feedback we received from our BA's walkthrough and the feedback from Operations post Go-Live.

Performance Improvement. The performance improvement items are a combination of many small changes.

- Every week – we run a report that identifies which SQL queries are using the most CPU time
  - This is a combination of the length of time it takes to run and the number of times that it is run
    - So query "A" that executes for 2 second and is executed 5000 times an hour would count as 10,000
    - Whereas query "B" that take 4 seconds to run but is only executed 1000 times an hour would count as 4000
  - We take the top ten query consumers and tune them
    - If we tune query "A" to run in 1 second – it would save 5,000 seconds
    - If we tune query "B" to run in 3 seconds it would save 3,000 seconds
  - To the end user that executes Query "A" one time there would be a very minor difference 2 seconds to 1 second.
  - Also, to the end user that runs query "B" one time they would see a small difference 4 seconds to 3 seconds
  - Overall all of these improvements would have a cumulative effect of decreased response times for everyone
    - **This is an ongoing process and the work effort can be capped at a specified hours**

Document Storage

- Storing pdf documents in the database was having a cumulative effect of:
  - Increased response times because of processing millions of records in the document table (currently 1,683,520 records)
  - Increased DB size to the tune of an average of 1 GB day – 30 GB's / month
  - Growing at average of 100 records per day and 1024x MB's per day
  - Increased amount of time and storage needed to back up the database
  - Increased amount of time and storage needed to clone the database to other environments (6 – TRAIN, UAT, Data Replication (Prod Reports), RPT_DEV, DR)
  - Increased amount of time it would take to stand up the DR environment
    - **20 estimated additional hours for completion**

Excessive Postbacks

- Every time a user clicked on a dropdown box (causing a spinning blue circle) this added many seconds of delay to complete actions
- Eliminating the spinning circles has a cumulative effect of reducing response time and reducing the amount of time it takes to complete actions
  - Previously, each click was taking 3 seconds for the UI to respond
  - Now, each click is instantaneous
  - There are 75 active prison units in the system
  - If every unit has 20 inmates who need to be verified on each count:
    - This creates a combined 75 minutes of staff time, each count, across the entire complexes
    - Count is conducted 4 times per day, that's 300 minutes of time saving alone – 5 hours of time for Accountability Officers throughout the state, every day.
      - **Each screen requires 20-30 hours of working and testing. Collaboration needed with Operations to identify additional screens.**

AP0357 - AZ DOC - M&O Development Hours	10-May	17-May	24-May	31-May	7-Jun	14-Jun	21-Jun	29-Jun	5-Jul	12-Jul	19-Jul	Grand Total

Good morning,

I would like to formally request that B&D push the bug referenced above to Production. It is a stored procedure and will have no impact on users in the system.

Thank you.

Hi Charles-

Please help clarify, is it the build of a dashboard which is chargeable? If so, then let's refrain from a dashboard build (for now)and just provide us access to the various tools.

After speaking with the technical team that oversees the system performance and maintenance an Executive Dashboard is not feasible at this point (at least as something that could be done quickly) due to that fact that we are using multiple applications to monitor the system. I also want to note that this would be a "chargeable" endeavor.

Subject: ADCRR - ACIS Leadership Meeting Agenda 7/17/2020 - Meeting Minutes
Date: Sunday, July 19, 2020 7:06:40 PM
Attachments: Micase NONProd.png
Micase Prod-DR.png
image009.png

Good evening,

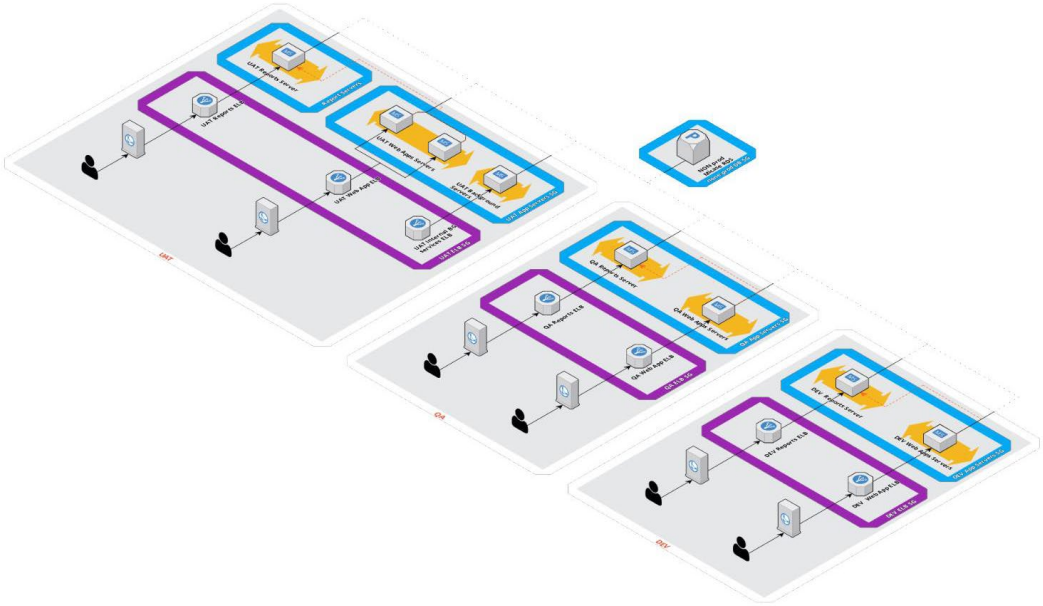
Please find the below notes from last week's leadership meeting. If you have any questions or additional feedback please let me know. Thank you.

1. Enforcer Migration Discussion w/Raj (Charles)
   - ADCRR IT sent IC Solutions a flat file that overwrote that data after go live which reversed all of the inmate updates that had been sent during the cutover window
   - FSD that was agreed to prior to go live, tested and approved was determined during the go live to have incorrect info, thus B&D had to make changes to the code in order to fix the issues
   - **Charles Take** – Better testing needed in the future with a more collaborative approach and possibly a "playbook" implemented.
   - *Still receiving tickets with Enforcer and touches Visitation, Disciplinary, LOP, Keefe, ICS, Suspension Issues*

2. Protective Custody – email from Steve to be resent (Charles)
   - It was revealed that the data base correction for inmates that have completed the PC Process, have been transferred, but remained on the PC dashboard (Bug 41945) appears to have been the cause of the bugs (42795, 42790, 42776) above failing due to a regression of the PC module.
     1. Summary Points:
        1. Unit testing in the Dev environment did not reveal the issue as they were concentrating on the Dashboard.
        2. QA Regression did not pick up on the issue before the deployment because not enough sampling of the PC AQ's were not checked.
     2. Future Migration Efforts to Prevent PC Issues:
        1. Implemented more significant sampling of all PC action queues before deployment.
        2. Implemented more selecting inmates from the dashboard in different stages (initial, informal, formal) and completing the PC process.
        3. Implemented more selection of inmates to remove inmates from PC.
     3. ***Disclaimer:*** we cannot always prevent these occurrences from happening in the future, but, we will endeavor to pursue significant regression techniques to mitigate as much as possible.

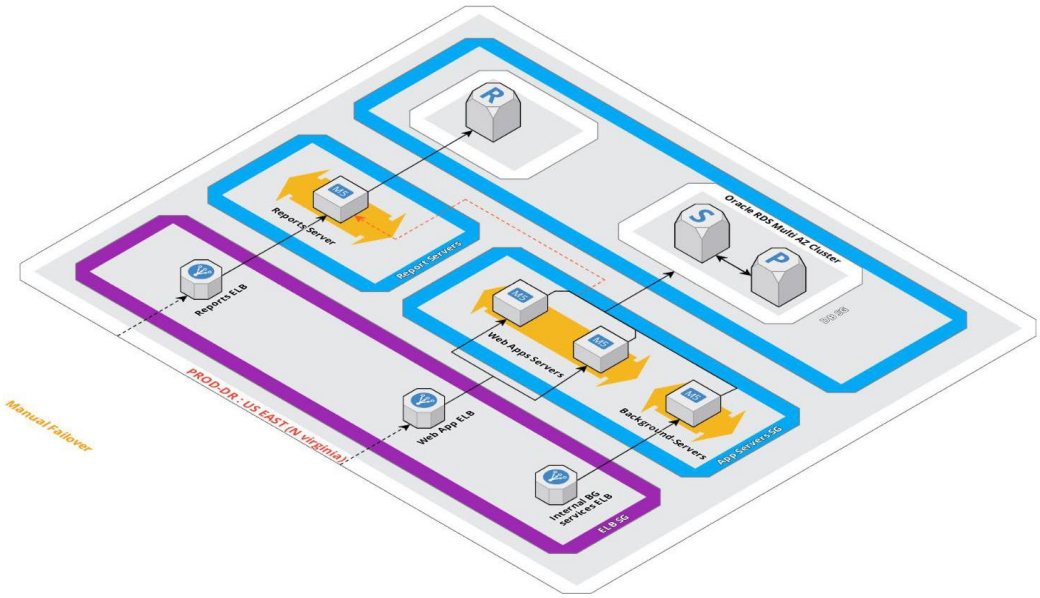
3. Environment Diagram (Charles)

NON-PROD



PROD

AMERICAN OVERSIGHT



4. Change Management Philosophy (Charles)
    - ADC requests items to be worked by supplying a Scope Document
    - B&D estimates the work based on the provided document
    - ADC approves the estimate and to move forward with JAR
    - B&D conducts JAR sessions and creates (or updates) FSD
    - If JAR sessions cover items out of scope defined in original Scope Document
        - B&D re-estimates the work
        - ADC approves estimate
    - ADC approves FSD and to proceed on Development
    - B&D develops new functionality
    - B&D QA's new functionality
    - B&D delivers new functionality to EUIL UAT environment
    - ADC approves new functionality
    - B&D delivers new functionality in PROD
5. SLA Signoff
    - ADCRR IT Leadership Meeting occurring on 7/17/2020
6. M&O Hours Discussion (is there any official feedback from Charles' email sent to Holly on 7/7/2020 @ 10:20AM)

Follow Up & Action Items

1: Charles to schedule 1 on 1 time with Holly Wednesday and Thursday afternoons work best for Holly

2: Charles to submit System SLAs

3: Enforcer RCA needed with ADCRR IT (George Martinez, Tim Arnold, Sandy Wang, Rusty Johnson), (Steve ICS), and BND

4: Meeting to be scheduled with Holly, James O'Neil, Rusty, Joe N, to review Cherwell Tickets

5: Additional Environment Document needed that details the content of each environment, functionality, purpose, failover

6: Charles to follow up with Dean on Ad-Hoc Telerik Scheduling access for Aaron and Jeff

7: Meeting with Holly to initially cover Change Management, Ad-Hoc Service Level, Portfolio Documentation, review Sharepoint M&O Folder, M&O Hour Reporting Discussions (1. Fine 2. Pending 3. Preliminary Ok – need to be looked at over time and possibly fine-tuned)

8: EUIL Items (Estimated Delivery Date, Percentage Complete, Request – more details on PM activities)

-

MAINTENANCE AND OPERATION Addendum

ADDENDUM 10 TO ADOC14-00003350/14-25-23

Pursuant to Section V.B of the September 25, 2013 Request for Proposal Number ADOC14-00003350/14-25-23 ("RFP"), the October 23, 2013 Proposal for Replacement of the Adult Inmate Management System, the May 13, 2014 Final Proposal Revision for Replacement of the Adult Inmate Management System, and the documents incorporated thereto (collectively, the "Contract"), the Arizona Department of Corrections ("ADC") and Business & Decision, North America, Inc. ("B&D") (together, the "Parties") hereby enter into this official Contract Addendum (the "Addendum").

This Addendum is intended to amend, supplement, and modify the Contract. To the extent any terms in this Amendment conflict with any term in the Contract as it previously existed, it is the intent of the Parties that the terms of this Addendum shall control. However, the Parties reaffirm their respective responsibilities pursuant to the original Contract, including previous Amendments, to the extent they are not modified by this Addendum. The Parties further agree that this Amendment may be executed in counterparts, effective immediately, upon both Parties signing.

Overview

This document represents the Service Level Addendum (“SLA”) for the maintenance and operation of the Mi-Case offender case management software (the “Software”) for the Arizona Department of Corrections, Rehabilitation & Reentry (“ADCRR”) and Business & Decision, North America (PA), Inc. (“B&D”).

Contractor M&O support (not chargeable items) for the Solution will include the following:

· Operations - The Contractor shall provide qualified personnel, resources, and supplies to support the operation of any module or functionality of the Solution that is implemented to meet the SLAs defined in the contract.

· Maintenance - Maintenance shall include supporting the Solution once any module or functionality is implemented at any ADC sites. Maintenance shall include:

· Activities necessary for the Solution to perform efficiently under the standards and conditions for which it is approved

· Activities necessary to ensure that all data and programs are current, and errors and defects are corrected

· Activities necessary to meet new or revised Arizona or federal requirements

· Implementation of edits and audits required to meet Arizona and federal requirements

AMERICAN OVERSIGHT

· Changes to established report, screen, or database formats, such as sort sequence, new data elements, or report items

· Addition of new values and changes to existing system tables and reference tables, and conversion of prior records as necessary

· Activities related to file growth and partitioning

· Data and file maintenance activities for updates to all databases and files

· Ongoing activities to ensure system tuning, performance, response time, database stability, and processing

· Changes to the job scripts or system parameters concerning the frequency, number and media of reports

· Updates to software, operating systems or other system components requiring version updates, manufacturer "patches," and other routine manufacturers' updates to software

· Maintenance of security for user accounts

· Responses to production problems and emergency situations according to ADC-approved guidelines

· Investigation and correction of batch job failures and defects

· Repair of jobs scheduled or run incorrectly, problems due to system hardware or software failures, problems due to operator/scheduler error, problems due to program or control language errors, security problems, corrupted files or databases, documentation or problems due to jobs run with incorrect data

· Response to "emergency requests" which are problems having a significant impact on the end user's ability to perform their job. These requests will require "emergency fixes" and shall be resolved within 24 hours of notification.

Under the terms of this SLA, Maintenance and Operation services shall be available on-call 12-hours per day, 7-days per week, with an agreed response time from the receipt of each request.

ADCRR Information Technology (IT) is responsible for first-line and second-line support. ADCRR IT support will attempt to resolve any non-product related issue prior to raising a third-line support ticket to B&D. ADCRR shall be responsible for specific problem determination and resolution for those items and issues that are not included within the Mi-Case Application. The Mi-Case Application consists of all modules, code, the Mi-Case Interface Server, Mi-Case AWS Environment and the Mi-Case Telerik Server.

The role of **first-line support** incident management is to attempt to collect as much information and diagnostics about the incident as possible. First-line may even resolve the issue when possible. This will reduce resolution time for all minor incidents (e.g. ‘My computer doesn’t work’; OR, ‘My password needs to be reset’).

AMERICAN OVERSIGHT

The role of **second-line support** of incident management is comprised of staff to rule out end user training needs and end user errors (e.g. 'How do I upload a document'; OR, 'I cannot locate a specific report').

If first and/or second-line support cannot resolve the issue, ADCRR IT support personnel will raise a **third-line** support ticket with B&D. See Appendix 3 for reference to B&D key resources.

If a third-line support ticket is determined to be a software defect, part of Operations, or Maintenance, B&D agrees to provide a resolution within the time-period set forth in Exhibit G In the event that a software defect results in general service interruption of the Software or in essential elements of the Software, B&D agrees to provide resolution within the soonest possible time frame.

The third-line support ticket procedure defined below shall be followed.

1 Third-line Support Ticket Procedure

1.1. In the event ADCRR IT support is unable to resolve the problem with the Software, the representative will submit a third-line support ticket with the B&D Customer Service Helpdesk ("B&D-CSH"). To raise a support ticket with B&D-CSH, ADCRR IT support shall follow the following procedure:

1.2. Contact the B&D-CSH by telephone, email or entering a support ticket within the B&D-CSH online Service Desk (SD) (as set forth in Section 2), and provide the following information:

1.2.1. Contact details (contact name, location, and telephone number)

1.2.2. The name of the module in which the problem or failure arose or occurred in the software

1.2.3. Any unique reference number used by ADCRR's internal IT Service Desk (if applicable)

1.2.4. All problem details including: date/time of problem, content of any error message (if applicable), its opinion of the support ticket priority, the nature of problem, any precursors to problem, whether the problem may be easily replicated, and any other associated and/or relevant information such as screen dumps (screen shots), reports and data files.

1.3 ADCRR shall be responsible for ensuring that support tickets are raised only by those individuals designated to do so.

1.4 Upon receipt of the support ticket, it will be categorized according to the priority levels set forth in Appendix 7. B&D will at all times, use its best efforts to respond to support tickets as quickly as possible in accordance with the target response and resolution times set out in Exhibit G.

1.5 The process flow of a support ticket will follow the agreed process flow as detailed in Appendix 5.

1.6 As part of the B&D-CSH, the B&D Issue Response Team ("IRT") will inform ADCRR IT if a site visit is required to resolve a support ticket.

1.7 When a support ticket is passed to the B&D IRT, the IRT member appointed to resolve the support ticket shall determine whether the resolution of the problem requires application software or data to be repaired. If repairs are required, then the IRT member may require and request further information from ADCRR to resolve the problem. Any time that is associated with the collection, definition or confirmation of further information will be excluded from the target response times set out in Exhibit G. Once the IRT member has determined what is likely to be required to resolve the problem, they will inform the ADCRR IT Service Desk of the

AMERICAN OVERSIGHT

current state of the support ticket. Once a resolution path has been determined then the IRT member will inform the ADCRR IT Service Desk personnel and close the support ticket in line with the support ticket closure flow Appendix 5. In the event that a response cannot be provided within the target response times set out in Exhibit G the support ticket shall be escalated in accordance with the Escalation Procedure defined in section 4.

1.8 If a resolution of a support ticket is likely to result in a material impact on the Software or its related products, the IRT member will seek authorization from the ADCRR IT prior to carrying out any action that is likely to have such impact. If the support ticket is a change request (as defined in section 3) the IRT member will carry out an impact analysis detailing the nature and cost of the change. No changes will be made without prior written authorization from ADCRR. The IRT member will inform the ADCRR IT Service Desk personnel and close the support ticket in line with the support ticket closure flow Appendix 5

1.9 Should the investigation of a support ticket by the IRT indicate that the problem resulted from an addition to or modification of the Software or its related products by ADCRR, the IRT member will inform ADCRR at the earliest opportunity indicating that any work to be carried out can be conducted on a chargeable basis in line with the time and materials rate card as Appendix 6 for the implementation of the change. In order to progress on any such works thereafter, B&D would require a written agreement and authorization from ADCRR IT Leadership to correct problems not covered by this SLA. The IRT member will inform ADCRR IT personnel and close the support ticket in line with the support ticket closure flow Appendix 5.

1.10 If ADCRR disagrees with the IRT's findings, a report of the findings from both the IRT staff and the ADCRR IT Service Desk will be provided to the named Support Delivery Manager for B&D for assessment and resolution. If after 5 business days (or a time period mutually agreed upon) there is no resolution on the IRT's disagreement, the executive representatives for both the ADCRR and B&D will negotiate the same findings for ultimate resolution.

1.11 Support tickets will be closed by mutual agreement between ADCRR IT Service Desk and the IRT member on the occurrence of any of the following:

1.11.1. ADCRR and the IRT members agree that the perceived problem was due to the operator's misunderstanding of the Software specification, or equivalent documentation, and as such, no fix is required.

1.11.2. ADCRR agrees that the Software is operating in line with the specifications.

1.11.3. Non-recurrence of an incident, which cannot be reproduced, despite repeated efforts to do so, within a set period of 5 days. This period of non-recurrence can be mutually adjusted if conditions warrant a longer or shorter time range. In the above case, the support ticket will not be included in any resolution targets.

1.11.4. The IRT member has concluded that the issue is related to system defect and a system defect has been created within the defect management tool.

1.11.5. The IRT member has concluded that the issue is related to data defect and a data defect has been created within the defect management tool.

1.11.6. The IRT member has notified the ADCRR IT Service Desk that there is a previously known defect that is already entered in the defect tracking system.

1.11.7. The IRT member has requested further clarification or information relating to the support ticket and ADCRR has failed to provide further clarification or information within 5 business days of the support ticket being opened and following at least 1 email reminder after the support ticket being opened.

AMERICAN OVERSIGHT

1.11.8. Following the IRT member deploying an immediate 'hot' fix to the UAT environment and ADCRR failing to test the appropriate target resolution time detailed in Exhibit G.

1.12 A standardized monthly '**support ticket report**' of all support tickets will be provided by the B&D-CSH to the ADCRR IT leadership team.

The monthly support ticket report will:

1.12.1. Show all active support tickets (for the entire time-period of the report).

1.12.2. Show all support tickets opened and closed during the entire time-period of the report including each target response and target resolution times.

1.12.3. The support ticket report will show the status (such as "in development", "under investigation" or "under review by the Customer") for each support ticket and any other comments or pertinent information about that support ticket for all reported support tickets.

1.13 The date for future monthly meetings (or other mutually agreed upon timeframe) between the ADCRR IT leadership and the B&D will be set at the conclusion of the current months standing meeting.

2 Methods of Contacting B&D

ADCRR may contact B&D-CSH by using any of the following means:

2.1 By entering a support ticket in the online B&D-CSH Service Desk at: http://servicedesk.bndna.com and following the ADCRR IT Service Desk Guide detailed in Appendix 2.

2.2 By telephoning the B&D-CSH on *1(833) 564 2273* or such other telephone number provided by B&D to the ADCRR with two-week notification (or other mutually agreed upon timeframe). Phone calls may be backed up by e-mails. The B&D-CSH will log the call and pass this information on to an appropriate IRT member. The ADCRR IT Service Desk personnel making the call should have available to them as much information about the problem as possible, and as a minimum, the information requirements set out in section 1.2.

2.3 By sending an email to ServiceDesk@bndna.com, or such other email address provided by B&D to ADCRR with two-week notification (or other mutually agreed upon timeframe). The email will give as much detail as possible with, as a minimum, the information requirements set out in section 1.2. Email contact is suitable for any requirement; however the target response times will commence the time of receipt of the communication.

2.4 All support tickets for priority 1 (critical) and 2 (high) items should be immediately followed by a telephone call to B&D-CSH.

3 Change Requests / Variations to Service

3.1 ADCRR IT leadership or other designated personnel shall be entitled at any time during the term of this agreement to request in writing to B&D a change request or variation to the services already provided. ADCRR shall provide B&D with full particulars of any requested change or variation and such additional information as B&D shall reasonably require.

3.2 All change requests shall be requested formally by ADCRR IT leadership or other designated personnel.

AMERICAN OVERSIGHT

3.3 Following receipt of a change request or variation to the services pursuant to section 3.1 above, B&D will respond within five (5) business days and shall inform ADCRR IT leadership or other designated personnel in writing whether it considers such change request or variation to the services to be technically feasible. If so, any amendment or variation to the changes and /or services that it would make as a result of such request, a formal estimate of effort (EOE) will be provided by B&D to ADCRR IT leadership or other designated personnel.

3.4 As part of the EOE, B&D will notify ADCRR IT leadership or other designated personnel of the not to exceed number of hours required to implement the change request.

3.5 ADCRR shall notify B&D within five (5) business days of receipt of the EOE referred to in section 3.3 above if it wishes to proceed with the change request or variation to the services as provided by B&D. ADCRR IT leadership will, as part of this notification to proceed (NTP), identify whether the pre-arranged 10,000 hours of change effort is to be utilized as part of the implementation of the change. In the event that the 10,000 hours of change effort is not to be used for the implementation of the change, ADCRR will provide B&D with an appropriate purchase order for the effort, prior to beginning work, in line with the time and materials rate card as noted in Appendix 6 for the implementation of the change.

3.6 If ADCRR identifies further changes to the original change request discussed in 3.1 then the process will revert back to section 3.1 above. Failure by ADCRR to notify B&D within the five (5) business day period shall be deemed to constitute the ADCRRs non-acceptance of the proposal.

3.7 Upon receipt of the NTP by ADCRR IT, B&D will plan the development and identify a projected start date and estimated completion date.

3.8 Upon approval of the development plan by ADCRR IT, B&D will commence work on the change
request in line with the development plan.

3.9 During working on the change request B&D will track actual hours against the estimate and report progress weekly to ADCRR IT leadership with an appropriate email. B&D can never bill ADCRR for unapproved hours, hours not used in the EOE, or other undocumented work.

3.10 The IRT shall be responsible for carrying out any Software change requests agreed between B&D and ADCRR under the terms of this Addendum, and for reporting to ADCRR.

3.11 If rework hours appear to jeopardize on-time release delivery, the Contractor shall present a written mitigation plan to ADC, including the provision of additional resources at no additional cost to ADC.

3.12 A change request from ADCRR to B&D should include the information detailed in the most current approved change request form.

3.13 Upon the completion of the software development lifecycle of the change request, B&D will formally request the approval to promote the change request to the User Acceptance Testing (UAT) environment and provide Quality Control documentation consisting of Performed systems tests on all MSRs and MnSRs unless exceptions are approved by ADC. Systems tests shall include unit testing, functional testing, regression testing using automated regression testing tools, and support ADC's UAT.

3.13.1 ADCRR will then test the change request

3.13.1.1 Any support, not identified as correcting a Bug, B&D provides during UAT testing will be billed
against the change request while working within the parameters defined in section 3.11.

AMERICAN OVERSIGHT

3.13.1.3 Any changes made by ADCRR to the requirements or expectations of the change request will need to be done formally in writing and will trigger the process detailed in 3.1

3.14 Following approval to promote the change request to the UAT environment, B&D will formally notify ADCRR IT that the change is ready for the ADCRR UAT process.

AMERICAN OVERSIGHT

3.15 Upon the completion and formal approval provided by ADCRR IT that the change has passed their UAT process, a formal request to B&D will be made to promote the change to production.

3.16 Formal acceptance of the change and all deductions of the 10,000 hours of change effort consumed for the change will be submitted to ACDRR for Approval and any outstanding monies due for the change shall be invoiced and paid for by ADCRR when the change is either promoted to production or 30 business days after the change has been delivered to the UAT environment and accepted by ADCRR.

3.17 A standardized weekly report by email of all change requests will be provided by the B&D-CSH to the ADCRR IT leadership team. This report will show no less than:

3.17.4 All open change requests (for the entire time-period of the report).

3.17.5 All change requests closed during the entire time-period of the report.

3.17.6 The status (such as “in development”, “under investigation” or “waiting for CMRB”) for all open Change Requests.

4 Escalation Procedures

Any matter escalated under the Addendum shall have two stages:

4.1 Stage 1

If the support ticket has not been resolved within the appropriate Target Resolution Time or the support ticket does not meet an exception as shown in Appendix 3, the IRT member(s) tasked with the issue will inform the B&D-CSH of the reason for failure to reach resolution and his/her best analysis of the resources and time-scales required to resolve the problem. The B&D-CSH will then refer the matter to B&D's Customer Service Manager, who will determine any additional or alternate resources necessary and ensure they are applied to the issue and inform ADCRR IT leadership of the escalation. The B&D-CSH will inform ADCRR IT leadership of the issue's escalation, and the appropriate Manager of B&D shall be informed of the Stage 1 escalation.

4.2 Stage 2

4.2.1 If the support ticket has not been resolved within a time period equal to double that specified as the Target Resolution Time for the relevant priority level, or the support ticket does not meet an exception as shown in Appendix 3, the B&D Manager shall inform the relevant Director of B&D if the issue is not likely to be resolved by the next escalation time limit.

4.2.2 The Director of B&D and ADCRR IT leadership will mutually determine an appropriate course of action and whether to allocate additional or alternate resources, including outside agencies if appropriate. ADCRR will be kept informed of the status of the escalated issue, and the B&D Customer Service Manager will inform the originating ADCRR IT leadership or other designated personnel of the Stage 2 escalation.

4.3 B&D Management

A list of the B&D Directors, Managers will be provided to the ADCRR IT leadership upon initiation of this contract as Appendix 3 and this list will be updated whenever a change is made to the B&D Management.

AMERICAN OVERSIGHT

5 SLA Key Performance Indicators and % Holdback

The key metrics shall be used in accordance with the M&O Addendum to measure B&D's performance of the M&O service. These key metrics are detailed in Appendix 4 – Exhibit G.

ALL OTHER REQUIREMENTS, SPECIFICATIONS, TERMS AND CONDITIONS REMAIN UNCHANGED

ACKNOWLEDGEMENT AND AUTHORIZATION

This Contract Addendum is not binding against the State of Arizona unless signed by an authorized representative of the Contractor and then accepted in writing by an authorized representative of the State.

Appendix 1 - THE SERVICES

Excerpt from Contract

Hardware and Software

The Contractor shall acquire any hardware or software required by the Solution, including licensed software, in such a manner that it may be legally used in the Solution. The Contractor shall ensure that both the hardware and software is upgradable and expandable with regular maintenance to ensure optimum performance. The Contractor must provide an unlimited number of licenses for State users for all hardware and software, including third-party software during the entire term of the contract.

Licenses for hardware or software must allow transfer to the State during Turnover activities defined in Section III.D.11. Offerors shall itemize hardware and software in their proposal on the cost schedules provided in Attachment D. Schedules will include price per user for each license.

The Services: The Services shall include the following:

1. Support in event of notification of system problems as specified in this contract
2. Evaluation of support tickets
3. Determining the extent of any change required to deal with a support ticket
4. Progression, documentation and resolution of all support tickets
5. Impact analysis of requests for changes to the product
6. Progression of approved change requests
7. Provision, upon request, of timely reports both written (as described in Section 1.13), and verbal (as requested by ADCRR) detailing the progress of support tickets
8. Remote installation of application software upgrades
9. On-site installation of application software upgrades as mutually agreed upon by B&D and ADCRR

AMERICAN OVERSIGHT

10. Agreement of acceptance criteria testing for software upgrades
11. Holding master development copies (by B&D and in escrow) of any software included in the products and all associated documentation as produced by B&D
12. Assuring ADCRR has latest copies of all software included in the project and associated documentation
13. Maintenance of relevant documentation where applicable

AMERICAN OVERSIGHT

Appendix 7 – PRIORITY LEVELS

Category	System Status	Priority
Critical	Indicates the entire Solution is unavailable for use resulting in a critical impact on operations.	1
High	Indicates a Module is unavailable for use where the Solution is usable but is severely limited, and no workaround for that Module exists.	2
Medium	The operation of a function in the application is restricted but use of other functions is not impacted or where a requirement is not being met, but the application is otherwise usable.	3
Low	Minimal business impact. Indicates that the problem results in little impact on operations or there is reasonable circumvention of the problem. For example, misspelled words, graphical designs.	4

Subject: ACIS Issue (7/17)
Date: Friday, July 17, 2020 5:36:21 PM

Hi Charles-

I was informed that there was an issue with ACIS today which was caused by a problem with Cloudflare.

If not mistaken, I believe B&D is monitoring Cloudflare. If they are not, then they should be.

Please ensure that a) we gain access to the monitoring tools used by B&D; b) that we are notified when issues occur and when they may be crossing the threshold of becoming an issue (proactive communication).

Please work with Joe Nicoletti on this item and put together a plan which addresses monitoring and notification of occurence (issue lifecycle of open to resolve). I'd like these issues tracked as well (what is their frequency/when/how long, etc.). This will help with identifying any patterns.

Respectfully,

Holly Greene

Thanks Harika. The 3580 front end failed UAT, so I'm re-working it and will probably put it back on the deployment list next week.

Subject: ADC RPT 3480 Broken in PROD

Hi Phil and Harika,

This report is currently broken in PROD and is returning no results because I believe the new version of the stored procedure was promoted, but not the report front end.

Why was the stored procedure promoted without the Telerik front end? And why was it deployed in the morning during our business hours? I thought deployments to PROD only happened after hours. We also have yet to receive any kind of notification that anything was promoted to PROD today.

Either way, please promote the Telerik front end to fix this report.

Thanks!

>
> ADC RPT 3580 returns results just fine, something that it never did in RPTDEV, with the exact same parameters. However, I need to make formatting changes to the Telerik front end, so please hold off on promoting this one again.
>
> This issue with RPT 3580 I think really highlights the clear performance differences between RPTDEV and UAT. The exact same report in UAT returns a month's worth of data in under 30 seconds, while in RPTDEV it literally never finishes loading a single day of data.

AMERICAN OVERSIGHT

Because the report never loaded in RPTDEV, I had to blindly assume that the front end was built out and formatted correctly and ask you guys to promote to UAT, just to see how it looks. This is 2 weeks in a row now that this report has failed UAT simply because I can't see how it looks in RPTDEV, and potentially this exact same thing will happen again next week.

The RPTDEV performance issues are greatly impeding our ability to develop reports, and I don't believe this is a sustainable way for us to work. We can further discuss this in our checkpoint call this afternoon.

Thanks.

>
> Herb, Brittany, Elianna and Trevor had a spirited collaboration on the best way to approach this EUIL item and Sentence Calculation as a whole. I have included Trevor's plan below for discussion. Herb, Brittany and Eliana were in a preliminary agreement on Trevor's proposed plan and once we have official sign off we will begin development for the first part

AMERICAN OVERSIGHT

of the plan immediately.

Trevor and ADCRR IT & OPS, thank you for your fantastic effort and commitment.

Trevor's Proposal:

After completing multiple jar sessions and gathering the information for CR 28992, I recommend that we split this change request in half.

The first half 28992-1 Covers the following Scenarios/Requirements below and Includes the additional out of scope discipline rule.

The first half provides a stopping point where QA and UAT can complete end to end testing on TIS sentences without dependencies on any other EUIL items.

28992-1 TIS + Discipline Rule

Create VCSED Release Type

- Update Sentence Worksheet

Save Audits as Note Types

Abscond Days only apply to the violated Sentences.

TIS Violator Process

Transition Program Violator Process

True Temporary Release Violator Process

Discipline Business Rule when inmate serving VCSED

- Guilty PCIII and ERC are not applied to calculation when discipline violation is found guilty.
- Restorations and Rescissions completed do not apply to the sentence
- Violators with new convictions: Discipline ERC and PCIII penalties begin applying again after the new sentence begin date.
- Carry Over – PCIII time that carries over into a new sentence applies from the new sentence begin date to the PCIII end date from the ticket.

AMERICAN OVERSIGHT

The second half includes the new code sentence structures and dependencies that may require re-prioritization or working in tandem.

28992-2 New Code plus mixed Sentence Structures

New Code

Parole Violator Process
Home Arrest Violator Process
Work Furlough Violator Process
Temporary Release Violator Process
Mandatory Release Violator Process
Provisional Release Violator Process

Mixed Sentence Structure
Violated New Code sentence with new TIS Conviction
Violated TIS sentence with new Code Conviction

Additionally through the jar sessions we have discovered the following information.

28992-2 appears to be dependent on CR-28079 BOEC Certification Date.

Completing 28992-1 will free up 33168 to continue.

Thank you,

Trevor Baker

Steven, I've added some additional information to the TFS ticket which you had reassigned to Arron Pratt:

Steven, the files you are pointing out are in the Archive folder after they are sent to DPS via FTP. If you look in the files, you will see there is missing information as outlined in the ticket. Your team will have to look at all the files and determine where the changes in information occurred and what should have been added to the files.

The file is being sent and received, but the query that DPS runs (DCQI) is returning no results for any new inmates from what I understand. I think Jey, or Jennifer could explain in more detail, but we looked up some new inmate numbers, and they were not in any of the files that are being sent to DPS, from the moment they were admitted on.

Good afternoon,

I wanted to send this email in regards to the RCA for the PC issues we faced in June. I have included our Dev team to also reply to this email with their own explanations for what they saw and why the "fix" of one bug led to more issues. Steven has done a great job summarizing again what the over all issue is and what the QA process is around testing.

@Hassen Bengamra @Wissem BenAissa @Ons Jannene on this email we have Holly Green the Deputy CIO for ADCRR and her leadership team. Please respond to this email if you see anything Steven has missed in his explanation.

Thank you.

Sent: Friday, July 10, 2020 12:48 PM
To: Charles Spannagel <Charles.Spannagel@bndna.com>
Subject: June Protective Custody Issues RCA.

Hello Charles,
Regarding the PC issues that occurred after go live in early June.
In my back and forth between myself and the developers approximately June 17th, 2020 (See related emails that you were included on)
regarding the root cause for bugs:

1. 42795
2. 42790
3. 42776

It was revealed that the data base correction for inmates that have completed the PC Process, have been transferred, but remained on the PC dashboard (Bug 41945 appears to have been the cause

AMERICAN OVERSIGHT

of the bugs listed above failing due to a regression of the PC module.

The attempted fix was to try to correct the dashboard.

This bug is still not resolved, but, was deployed and returned back to the developer for further work.

However, the database changed apparently performed some record change that did not allow the action queues for PC 805-5, 805-4, 805-11 for some existing PC Events in progress to fail.
However, any new PC event Action Queues were passing.

In my daily regression test, I was not able to detect this issue. I was testing new events, and the events I picked from the dashboard or Action Queues did not throw any errors in my testing. (somehow, I chose action queues and inmates that worked).
Hassen and Ons upon realizing the issue because of the newly assigned bugs, quickly corrected the issue for the inmates with existing action queues for PC.

We deployed these bugs as soon as possible after they were resolved.

In summary:

1. Unit testing in the Dev environment did not reveal the issue as they were concentrating on the Dashboard.
2. QA Regression did not pick up on the issue before the deployment because not enough sampling of the PC AQ's were not checked.

Future mitigation efforts to prevent PC issues in place are:

1. Implemented more significant sampling of all PC action queues before deployment.
2. Implemented more selecting inmates from the dashboard in different stages (initial, informal, formal) and completing the PC process.
3. Implemented more selectin of inmates to remove inmates from PC.

Finally, we cannot always prevent these occurrences from happening in the future, but, we will endeavor to pursue significant regression techniques to mitigate as much as possible.

I am reminded of my initial QA experience whereby we often quoted:
"99 bugs in the code, 99 bugs in the code, fix the bug, recompile, 100 bugs in the code."

I hope this explanation makes sense and can be helpful moving forward.

Please let me know if you have any questions. Thank you.

FYI...

Attached is the most recent error report received from DPS. It's 8 months now that our agency's data isn't being updated on ACJIS. Any ADC number created from the time ACIS went live can't be found if you run a DCQI or find ADCRR notations on ACCH (Arizona Computerized Criminal History) which is causing a lot of confusion and questions from other law enforcement agencies that count on this information. *For example: Ex-Offenders being able to purchase guns due to lack of criminal history information.*

AMERICAN OVERSIGHT

DPS's DOC database is updated weekly using the weekly input file from DOC. 'DCQI' is an inquiry function against the DPS's OBSC database which contains DOC data.

DPS has not received DOC# [redacted] and DOC# [redacted] data from ADOC and those doc number data is missing from our database.

Thank you, Melody

Subject: Re: DCQI Returns

Hi Melody and Jennifer,

George and I talked, I think he just wanted to ensure everyone is talking about the same file. I think the next question (unless George wants to correct me on this) is, are we actually missing some fields within the file that need to be there? Neither of us are familiar with the DCQI data that was being referenced below. I'm really not familiar with the contents at all, I just transfer the files, but I want to make sure everyone is on the same page so we can work to resolve the issue.

George,

I don't know the name of the file nor do I have a copy of it. It is done on the IT side of the house. The information is somehow pulled from ACIS and then sent via file/feed over to DPS in order to be uploaded to ACJIS.

Mirisue,

Maybe some over there in your IT can advise George.

Thank you,
