Subject: 2nd Dose Vax Plan
Date: Monday, January 25, 2021 1:34:27 PM

DOH Partners,

Here is the tentative schedule for the 2nd doses required. We trying to engineer so it is scalable from the start, to facilitate 1st vaccines. As a start- please see our initial schedule for your scheduling.

People vaccinated on Jan 15th:

- 41 people scheduled
- Return date: Feb 3rd
- No more than 6 an hour
- First appointment 8am, last appointment 4:15

People vaccinated on Jan 18th:

- 60 people scheduled
- Return date: Feb 10th
- No more than 10 an hour, 5 each 30 minute increment
- First appointment 8am, last appointment 4:15

People vaccinated on 19th:

- 60 people scheduled
- Return date: Feb 9th
- No more than 10 an hour, 5 each 30 minute increment
- First appointment 8am, last appointment 4:15

People vaccinated on 20th:

- 95 people scheduled
- Return date: Feb 10th
- No more than 12 an hour, 6 each 30 minute increment
- First appointment 8am, last appointment 4:15

People vaccinated on 21th:

- 144 people scheduled
- Return date: Feb 11th
- 18 an hour, 9 each 30 minute increments
- First appointment 8am, last appointment 4:15

People vaccinated on 22nd:

- 129 people scheduled
- Return date: Feb 12th
- 17 an hour, 8 or 7 each 30 minute increments

- First appointment 8am, last appointment 4:15

Subject: Curative Solution in Monroe County
Date: Friday, January 15, 2021 10:49:18 AM

Luis,

In a conversation this morning with the Director of Health of Monroe County, Bob Eadie, whom we are working on for the public VAX program, he inquired about the process and or allowances to permit, explore and or engage with Curative to provide mobile VAX here in Monroe. He is aware of the partnership which exists with Baptist Health South Florida and Curative and reached out to expedite and clarify the process to engage

I advised him you Luis or your designee would be the most appropriate and that you would extend the courtesies due this important partner-

Thanks you,

James -

Subject: DOH Scheduling Protocol Proposal for High Risk 65+ Monroe County
Date: Wednesday, January 13, 2021 12:04:03 PM

Eric,

Pursuant to our conversation this morning with a small revision for an allowance to complete for 1A that are outstanding, a few remaining employees and community first responders. This protocol will also be limited to the approximate/estimated 3000 whom have been listed by DOH high risk at this time AKA (special circumstances) and NOT related to the newly deemed simple "65 plus" recommendation though CDC yesterday. Relevant to that point, we have accepted some 65 plus as "one offs" when we have a space, *but we are committed to address 1A and High Risk as a priority in partnership with DOH*

- 1. Scheduling** - The ownership and control of the list which exists will remain under the control of DOH Monroe, only relevant information needed to confirm ID will be sent with scheduling slots, (2) the calling and contact will remain the role of DOH Monroe. (3) Transmission of the list will be in accord with the schedule below, but will be **requested to be for 2 vaccination days in advance**. As an example- we would receive today **Wednesday 1/12 by end of day 5 pm** those whom are scheduled for **Friday (1/15)** in advance to allow for preparation the vax for administration.
- 2. Days of Week and Times**- We will be providing exclusively time for DOH High Risk Patients, **M-F 13:00 to 17:00 with the final schedule time to be 16:15 daily**
- 3. Capacity/Frequency – We request 13 per hour scheduled** grouped practically in 4 per hour slots (i.e. top of the hour and every 15 minutes totaling 13 per hour) handled by DOH under a model which then would yield (*in section 2*) approx. **52 per day*** on an ongoing basis. **Based on vaccine supplies this number could expand, based on our supplies or supplies assigned by DOH to Baptist Health South Florida (Monroe)*
- 4. This week**- **We are filled for 1/14 (b) We can accept 40 for this Friday 1/15** under the same frequency and times based on previously scheduled 1A persons prior to this arrangement.
- 5. Transmission** of the list shall be sent to myself, VP Candy Fincke, and Karmaria Royal in accord with (section 1) above.
- 6. Please clarify** that these high risk parties are DOH deemed "residents of the Keys" and that we are not concerned with IDs which may show out of state or out of County addresses.

Note- Please advise those scheduled that they *may* be asked depending on arrival

time that they be held outside for a short period to prevent noise and crowding in the Hospital, this should be a short que if at all. We are moving efficiently since inception including recovery observation period of 15 or 30 minutes.

-
(b) parking will normal and they are to present to the Main entrance and be prepared to exchange their mask for a new mask, and an expedited CDC questionnaire and temperature check.

-
With thanks and appreciation for our partnership- I look forward to any question or comments for clarification,

James

Subject: Draft
Date: Monday, February 15, 2021 12:23:22 PM

Bob and Eric and Mary,

As we have brought to the close the 2nd does for *almost all*, I am getting approval from PR for this to be the template to be send to the ongoing inquires which number about 40 a day... they usually start with “I want to get on the list” is the reason for the opening line.

Please give me your comments..

Dear xxxx,,

We are not maintaining a list of those whom are seeking vaccinations for several reasons foremost fact that we have no remaining doses available. To clarify the doses which were scheduled and administered at Mariner’s Hospital up though January 20th , *were donated unused employee allocations* to the Community, which Baptist Health South Florida received from the initial Federal distribution to Hospitals for their Employees.

Additionally, while we received names from the DOH 65+ list to schedule those patients, the doses are not connected to the actual Monroe County vaccination program, which does remains ongoing. It is not probable that we will receive any additional vaccination allocation, as our employees have been vaccinated.

I am sorry this was the answer I was hoping to give you, but I encourage you seek the vaccination under any one of the plans outlined herein.

With thanks,

James Muro

Option #1 - Publix Pharmacies: eligible customers can access COVID-19 vaccine **appointment availability beginning Thursday, January 21**. This includes the addition of Martin, Monroe, and Palm Beach counties: <https://www.publix.com/covid-vaccine/florida>

Option #2- Winn Dixie: has a working site as of this writing

www.winndixie.com/pharmacy/covid and (b) CVS is slated to get allocations in the first several weeks of March

Option # 3- For those whom are not categorized 1A (and not over 65) but whom may be eligible under the progressive CDC Guidelines please to the DOH website in which they are planning and have deployed a website, which will update those on the list. Monroe.floridahealth.gov

I agree excellent job !!! and related to the prescreening, are any questions asked (inset) which may self-preclude them from receiving the VAX? We are all used to being lied to for many reasons, but wanted to see if they are being asked to prevent chance of not getting the appointment for those questions below. **(All do not preclude but can require different observation or information steps)** We have a cover sheet to our consent form which lists these questions prior to entry into Florida Shots.

Can you answer “YES” to any of the below questions:

1. Did you have COVID in the last 90 days?
2. Have you had any COVID symptoms in the last 14 days?
3. Have you had any cosmetic fillers in the last 30 days?
4. Have you ever gone to the emergency room for an allergic reaction?
5. Do you carry an adrenaline auto injector (EpiPen)?
6. Did you have a Herpes Zoster/shingle vaccine in the past 2 weeks?
7. Have you had any vaccine in the last 4 weeks?

Thank you for your partnership,

James

Subject: Fwd: Manatee County COVID-19 Vaccine Rollout 65 & Over - OUTRAGED!!!

Commissioner Baugh:

I respectfully request that Manatee County immediately revise its COVID-19 Vaccination Program to restrict all vaccinations to legal Florida residents.

I'm following up with you (also copying others that my request went to) regarding an email you forwarded to me on December 29th from Nicholas Azzara, Information Outreach Manager in the County Administrator's Office, in response to my outrage over "Snowbirds" and illegal immigrants being vaccinated before Florida residents. In it, he referenced that Chief L. had called to tell him that Orange Co received a stern call from Tallahassee because of an early residency requirement they put in place. He stated that because the vaccines are being paid through federal funds, no residency restrictions may be put in place, PER THE GOV'S OFFICE [My Caps]. It then went on to state that Manatee County announced their plan correctly of making the vaccine available to anyone age 65 and over. I am providing evidence from the State of Florida that they have not prohibited Florida counties from imposing residency requirements on COVID-19 vaccinations and in fact the County is fully authorized to restrict the vaccine to Florida residents.

You may recall that I responded to your December email saying that I had already reached out to the Governor's Office and subsequently to my Senators and Congressman regarding the genesis of this "no residency requirement." I received this email I'm forwarding to you from the Florida Department of Health

via the Governor's office today in response to one of my complaints to them. The State of Florida is stating in this email that, and I quote, "**Please note that counties do have the option to choose to vaccinate Florida residents first, but this is not a statewide practice and thus will vary across Florida.**" Please note that the bold and larger size font were made by the State.

I respectfully reiterate my request that Manatee County immediately revise their COVID-19 Vaccination Program to restrict all vaccinations to legal Florida residents. Once all legal Florida residents are vaccinated, or at least had the opportunity to be vaccinated, I would request that it be extended to "Snowbirds" and illegal immigrants in that order.

It's my understanding that the vaccine is being distributed to states based on resident population. As such, for that and other reasons, it is a clear disservice and disenfranchisement of Florida residents to have others vaccinated ahead of them. I hope this evidence from the State causes the County to reconsider its current vaccination plan and change it so that it properly cares for Florida residents first. I would also add that I am under 65, so I am not fighting for this for my immediate personal gain. I'm doing this because it is the right thing to do. I would appreciate a response as to whether the County is going to place Florida residents first and if so when, so that I may know whether I need to continue my efforts.

Thank you for your consideration.

Sincerely,
Mike Warren

Thank you for writing to Governor DeSantis. The Governor's Office of Citizen Services recently forwarded your email to the Department of Health for assistance in responding.

Nonresidents and part-time residents are eligible to receive the COVID-19 vaccine in Florida. It is our goal in Florida for everyone to be able to easily get a COVID-19 vaccine as the supply permits.

Please note that counties do have the option to choose to vaccinate Florida residents first, but this is not a statewide practice and thus will vary across Florida.

To view the most up to date information about COVID-19 vaccines in Florida, visit the Department of Health Website here:

<https://floridahealthcovid19.gov/covid-19-vaccines-in-florida/>

For updates about the vaccine and distribution from Governor Ron DeSantis, text 'flcovid19' to 888777.

OUTRAGED!!!

Dear GOV DeSantis:

Manatee County is rolling out the over 65 vaccine. Unlike some other FL counties, it is encouraging that Snowbirds (non-residents) and illegal aliens sign up for the limited vaccines available. This is outrageous and I cannot believe that you would allow this to happen. The FL Snowbirds come from states that are being allocated doses based on the Snowbirds residency, yet county officials and bureaucrats are dispensing it to them here in FL. To top it off illegal aliens are being encouraged to take vaccines allocated to resident populations. Both of these actions take away vaccines issued based on residency and are detrimental to the health of legal Floridians. I encourage you to immediately execute a short executive order prohibiting ANY further COVID-19 vaccinations to any non-residents and/or illegal aliens and requiring that it only be given to legal Florida residents, to remain in effect until further notice.

Thank you,

Mike Warren

CC: Michael Warren <warrenm2692@gmail.com>

My spouse and I are outraged at the Manatee County COVID-19 vaccine rollout as being presented right now via livestream. They are not requiring FL residency to receive a vaccine (unlike other FL counties), specifically telling Snowbirds that they can get the vaccine. Manatee County is receiving limited amounts of the vaccine yet unelected bureaucrats are threatening the health of residents by encouraging non-resident vaccinations. To top it off, I also heard where illegal aliens are being offered this vaccine. What the He** is going on? THIS IS OUTRAGEOUS!!!! Let the Snowbirds return to their state of residence and get the vaccine there where their state was allocated amounts based on their residence. Let the illegals return to their country for same. I will do everything to encourage anyone getting COVID-19 to sue Manatee County, every Commissioner and every unelected bureaucrat involved in this debacle. This is OUTRAGEOUS!!!

Mike Warren

Subject: Re: Vaccinations

Commissioner

I am writing you regarding the lack of communication coming from both the Manatee County government and the Manatee County health department regarding the vaccine process. Nothing and the website has been broken for some time.

As compared to Sarasota County which has been providing daily videos and updates on the progress. Almost all Facebook posts have been answered by staff in a timely manner.

We are lucky to get one answer on a Facebook post from Manatee County.

My confidence in the whole database implementation and ongoing processing is dropping rapidly.

I can't even verify information on my registration. I have to call. No capability to send a test notification. I don't even know if I can ask for that.

I don't even know if the notification is working for my registration.

I received a call 2 days ago from a Manatee County gov. phone number 941-749-3500 while I was on a conference call. I called that number back after I was finished with my call and it rolled over to the vaccine call center. I tried to explain to the agent what happened and the response was we didn't call you. They indicated they keep a record of calls and stated that they would have called on 941-742-4300. I tried to further explain that there would be no need for Manatee County to call me other than for a vaccine appointment.

It didn't matter to them. They said they would have called twice. Never got second call. Are they truly tracking calls and from what numbers?

I am still thinking that I may have missed my opportunity to get an appointment and I was thrown back in the lottery pool.

I am not trying to buck the line. I am just stating my lack of confidence in the system implementation and lack of communication.

I remember a tech guy explaining the Lottery selection process to the BOCC at a meeting and I thought he stated that they select a subset of the Excel spreadsheet and then randomly select registrations within that subset. Is that truly random

when someone personally selects the subset before randomization takes place?
I realize the system is working for some folks since spots are being filled. I
question if it is working in all cases.
Maybe it will get better.
Please take a look at Sarasota County communications.
Manatee County can do much better.

Thank you

Subject: RE: 2nd Dose Vax Plan

On Feb 10th: Since we're covering people vaccinated on Jan 18th and Jan 20th, it needs to be 20 an hour, 8 or 7 each 30 minute increments. Starting at 7:30am ending at 4:15.

That's the only correction. Thanks James!

Subject: 2nd Dose Vax Plan

DOH Partners,

Here is the tentative schedule for the 2nd doses required. We trying to engineer so it is scalable from the start, to facilitate 1st vaccines. As a start- please see our initial schedule for your scheduling.

People vaccinated on Jan 15th:

- 41 people scheduled
- Return date: Feb 3rd
- No more than 6 an hour
- First appointment 8am, last appointment 4:15

People vaccinated on Jan 18th:

- 60 people scheduled
- Return date: Feb 10th
- No more than 10 an hour, 5 each 30 minute increment
- First appointment 8am, last appointment 4:15

People vaccinated on 19th:

- 60 people scheduled
- Return date: Feb 9th
- No more than 10 an hour, 5 each 30 minute increment
- First appointment 8am, last appointment 4:15

People vaccinated on 20th:

- 95 people scheduled
- Return date: Feb 10th
- No more than 12 an hour, 6 each 30 minute increment
- First appointment 8am, last appointment 4:15

People vaccinated on 21th:

- 144 people scheduled
- Return date: Feb 11th
- 18 an hour, 9 each 30 minute increments
- First appointment 8am, last appointment 4:15

People vaccinated on 22nd:

- 129 people scheduled
- Return date: Feb 12th
- 17 an hour, 8 or 7 each 30 minute increments
- First appointment 8am, last appointment 4:15

Revised- with some corrections....

People vaccinated on Jan 15th:

- 41 people scheduled
- **Return date: Feb 3rd**
- No more than 6 an hour
- First appointment 8am, last appointment 4:15

People vaccinated on Jan 18th:

- 60 people scheduled
- **Return date: Feb 9th**
- No more than 10 an hour, 5 each 30 minute increment
- First appointment 8am, last appointment 4:15
-

People vaccinated on 19th:

- 60 people scheduled
- **Return date: Feb 10th**
- **20 an hour, 8 or 7 each 30 minute increments**
- **First appointment at 7:30am, last appointment at 4:15.**

People vaccinated on 20th:

- 95 people scheduled
- **Return date: Feb 10th**
- **20 an hour, 8 or 7 each 30 minute increments**
- **First appointment at 7:30am, last appointment at 4:15.**

***There would be an overflow of 5 people on the Feb 10th since our daily goal is 150. Please schedule those extra 5 people on 9th instead thank you!**

People vaccinated on 21th:

- 144 people scheduled
- **Return date: Feb 11th**
- 18 an hour, 9 each 30 minute increments
- First appointment 8am, last appointment 4:15

People vaccinated on 22nd:

- 129 people scheduled
- **Return date: Feb 12th**
- 17 an hour, 8 or 7 each 30 minute increments
- First appointment 8am, last appointment 4:15

Subject: Fine Tune Vaccine Lottery

The lottery in this county is unfair to full time over 75 residents who are not in a nursing home. I registered on January 7 at 10:40pm, got two numbers [REDACTED] (error message for one of them). Of course, I have not been lucky in the lottery.

It matters because my [REDACTED]

It matters because for nearly one year the only activity we can do is go out for a drive and go to doctor appointments. He is a former teacher and craves talking to others besides his wife! It matters because if I get it, "he will have to go to a nursing home."

SUGGESTION: Short of asking doctors to get involved perhaps a resident who has a legitimate "parking pass" and proof thereof could be put in ahead in the "lottery".

Thank you in advance,

Lorraine [REDACTED]

Hello Blake and Peter ... I wanted to follow up also on the conversation we had with Miami Dade College Dean of Nursing Tommie Norris and Asst. VP of Development Ana Martinez yesterday and put you all in touch to get the ball rolling. MDC has graciously committed to providing nursing students and faculty to assist vax efforts in our interest areas and is particularly interested in supporting efforts at CHI's Everglades Clinic in Florida City near the Homestead Campus. We are excited to partner, facilitate and support the effort in any way we can.

Thank you,

Subject: LEO and Essential 1A Front Line VAX Guidance
Date: Thursday, January 14, 2021 1:10:12 PM

LEO and EMS Partners,

Commencing tomorrow on 1/15/21 as a result of a solidified partnership with DOH Monroe to play a primary role in vaccinating the 65 plus in Monroe County, we are compelled to place a timeline on LEO and EMS Vaccinations assuring space, staff and supply to protect the most vulnerable of our Community.

Pursuant to that mission *we ask that we finalize those 1A and LEO members ASAP in que to schedule & receive the vaccine no later than **Saturday 1/16/21 at noon** though your normal scheduling agent whom will communicate directly with myself.*

Please note – this will have NO effect on those whom have received the VAX or who will, in receiving their “booster” or second shot as expected.

-
-

With appreciation for your understanding and ongoing service, and will update on an ongoing basis.

James Muro

**Emergency Manager
Director of Security and Safety
Mariners and Fishermen’s Hospitals.**

Edgar,

I hope you are doing well.

Commissioner Forester has asked to know the number of Monroe County COVID-19 patients who have been hospitalized in the Baptist system for treatment. Is this information that you have?

THX Bob

Subject: Ocean Reef Community Foundation & Funding for Vaccination Programs
Date: Thursday, January 7, 2021 2:00:31 PM

Hello Mr. Eadie ... Our Foundation seeks to support efforts to facilitate, accelerate, and increase availability of COVID-19 Vaccinations in *underserved* areas of Monroe County, Homestead and Florida City (not Ocean Reef itself). We have some community members in discussions at with folks at a high level with the state who have given us reason to believe that because of our desire to provide funding for such efforts could result in more vaccines being allocated to these areas more quickly for pilot programs, PODS and public mass vaccination events (?). Of course, we would want to coordinate closely with DOH and the county and would not want to interfere in or duplicate any plans you already have. We are talking to a number of partners including Baptist, CHI, and Curative, as well as MDC and CFK nursing schools -- but things are moving much more quickly than I expected. I had talked a bit with Matt Massoud, who gave me your email address, but wanted to know more before reaching out to you. We recognize that you are the expert authority and first want to ask what we could do to help you and get your feedback on options we are considering before doing anything. I am sure that you and your team are extraordinarily busy but would appreciate it someone there can reply, contact me at your convenience or let me know a good time to connect. Thanks to you all for the work you're doing for our community!

Thank you,

Yurianna Mikolay

Subject: Ocean Reef Update
Date: Thursday, January 14, 2021 11:13:02 AM

Good morning ... I wanted to reach out to let you both know that the Medical Center at Ocean Reef received vaccines through the Florida Shots Program and supply a bit more background in case you get any additional questions about it. I am sorry that you were caught unaware, I must say I assumed that the County would be advised of vaccines being distributed through that program (and you know what they say about assuming!). As always, I hope it's clear through our ongoing outreach that we respect and are striving to support and complement your tremendous effort in any way we can.

This is the information I have been provided about the Ocean Reef program to share with you FYI:

In the first week of December, the Medical Center at Ocean Reef (MCOR) received notification, and an application from the state of Florida to apply for the anticipated receipt and distribution of the Pfizer vaccine. That application was filled out within hours, and submitted under the strict protocol and guidance as required by the state. On December 10th the vaccination was approved and it was announced on December 11th. The most significant part of our application was that the MCOR supports a community of residents of which the vast majority are seniors 65 and over, many with multiple high risk conditions. Furthermore, we understand that there are only 50 hospitals and one medical center in Florida with the ability to receive and store the Pfizer vaccines at -80 degrees. The Medical Center at Ocean Reef has that refrigerated storage capability. On December 23rd Governor DeSantis announced that he would be making the vaccine available for seniors the age of 65+ and high risk individuals. Shortly thereafter community vaccine sites started in Palm Beach, Broward, and Dade County, and qualifying seniors had started receiving vaccines. After the first of the year MCOR was notified that they should make preparations for the receipt of the vaccine, with confirmation of their ability to receive and store the vaccine.

During those preparations, MCOR contacted the College of the Florida Keys (Nursing Program), to assist the initiative, and train nurses for an expanded program in the rest of the Keys. Ocean Reef, though it's community foundation (ORCF) already had a relationship with the College as they made a significant financial commitment to build the college's Key Largo campus. Furthermore, as soon as the Governor announced the expansion of the program to include seniors, the Ocean Reef Community Foundation, though their COVID Relief Fund, searched for ways to support a widespread initiative in the Florida Keys, Homestead and Florida City. Ocean Reef Community Foundation's COVID Relief (ORCF-CR) initiative has been working diligently to bring relief and support to those in the surrounding communities. To date they raised over \$1.2 million from the members of Ocean Reef, and have awarded almost \$800,000 in grants to supply food, FKOC emergency grants to individuals to cover basic needs, COVID tests and Wi-Fi for schools, assistance for healthcare workers, oximeters and tablets for patients suffering or dying from the virus to be able to FaceTime with loved ones...and a myriad of other opportunities in our surrounding communities.

On December 29th, ORCF-CR formulated a plan (named Crossing Bridges) to financially support any endeavor to get vaccinations in those communities. Since that day, they have been in talks with Baptist Hospital, Community Health of South Florida, and Curative as to how they could partner to rapidly bring vaccines to those communities. Therefore, in addition to training nurses for a potential Baptist Hospital supported vaccination site at Coral Shores High School in Key Largo, and in Key West at the College of the Florida Keys, they will help store and stage the vaccine for its use heading south to those areas, including Mariners Hospital. As recently as this afternoon (1/14/21), they are meeting with Community Health of South Florida to support a potential initiative in Marathon, and are in continued discussion with Curative to bring vaccination vans to faith based organizations and hard to reach communities.

I would add also that not only ORC residents are being vaccinated here. Thousands of people are employed in the community and those who meet the state guidelines are also being vaccinated, effectively removing their numbers from the demand on the vaccine available in surrounding areas.

If you have any questions at all please let me know and I will put you directly in touch with someone from the Med Center at Ocean Reef.

Shannon, I look forward to our call tomorrow and learning how we can best partner to help!

Thank you,

Yurianna Mikolay

Subject: Press Release Finalization
Date: Wednesday, January 13, 2021 3:27:29 PM

DOH Partners,

Can we do a meeting today to finalize? The main objection from the proposed is we cannot be the point of contact for any aspect or form of this endeavor, and a more clear commitment that we are assisting with the High Risk only at this time, but not prepared for “all over 65 list at this time”. We have already had 35 present personally today who are on the high risk list based on being told to come here, by unknown persons or rumor. (2) We are getting dozens of calls an hour and impeding operations at our ability to handle 1A and or trying to schedule, so we can get this right....

We can do as late a start as 415 for the meeting, if you can do Ill send an invite for today if yes
Karmaria can assist... ..

Thanks,

James

Sorry no

I am forwarding this to Dr. Bencie because there are different levels for the seniors , whether they're in assisted-living or in a long-term care facility, all of that is being coordinated through the the state, Walgreens , CVS and health departments.

I will also do some research

Dear Commissioner Baugh and Dr. Bencie,

I want to thank you both for your unparalleled response to my concerns over my attempt to receive the COVID vaccine.

I thankfully received the shot at 1:19pm this afternoon when I had the pleasure of meeting Dr. Hernandez who was extraordinarily kind.

I guess I didn't realize how stressful the last year has been, because when the technician was ready to inject me, I became choked up. I feel like you all helped to save my life.

Please accept my deepest appreciation for helping me.

Dear Commissioner Baugh and Dr. Bencie,

I want to thank you both for your unparalleled response to my concerns over my attempt to receive the COVID vaccine.

I thankfully received the shot at 1:19pm this afternoon when I had the pleasure of meeting Dr. Hernandez who was extraordinarily kind.

I guess I didn't realize how stressful the last year has been, because when the technician was ready to inject me, I became choked up. I feel like you all helped to save my life.

Please accept my deepest appreciation for helping me.

On its surface the lottery system appears fair. Perhaps the Commission should have the system broken down by age brackets. For example, 80+, 75-79, 70-74, 65-69.

I am writing to thank you and the entire Manatee County team on the work you have done to safely dispense the Covid-19 vaccine in our area.

I am a new resident to Bradenton and Florida (we moved here from Ohio last year). Believe me, I am the envy of friends from across the country who are still struggling to receive their inoculations. The people who were at Tom Bennett Park yesterday (Wednesday, January 27, 2021) were kind, patient, polite and extremely professional. I feel so fortunate to have selected this part of Florida for my new residence.

I tried to thank as many of your workers that I could yesterday, but I wanted you to know that your efforts are sincerely appreciated. More importantly, if communities across the country followed your lead, we would have (as the medication becomes available) the entire population of our country vaccinated in no time.

Bravo, Ms. Baugh, bravo to you and your team.

PS I am scheduled for my second shot on February 22nd!

Thank you

Good afternoon Cindy/Amy,

Thank you both for all your support during the pandemic. We received our first direct vaccine allocations this week.

We received the following this week (so far):

- 3,500 Moderna
- 2,350 Pfizer

We are centralizing our administration process for our entire health care system (see hospital sites below). In order to refine our schedule at future sites and maximize future allocations, can you please share the amount of we are expected to receive (next week-4 weeks, if possible).

Thank you in advance,

Luis

Monaca-
First, so glad your mom was able to receive a vaccine. Second, I've copied our incredible dedicated staff that have made this happen. My sincere thanks for your message, it is very meaningful to our team. I know I missed some key players and hope that those included here pass your message on.

Thank you, Cheri Coryea

County Administrator

Dear Cheri and John,

Hope this email finds you both well. This morning my mom received the 1st round of the COVID vaccine at Tom Bennet Park. What an amazingly efficient operation! The entire process took about 30 minutes and everyone was so incredibly nice. I know this has been a major undertaking for Manatee County and beyond. I send my heartfelt gratitude for your hard work and diligence in the vaccine rollout. My mom and I very much appreciate you and the entire team!

All my best,
Monaca

Subject: Curative Solution in Monroe County

Luis,

In a conversation this morning with the Director of Health of Monroe County, Bob Eadie, whom we are working on for the public VAX program, he inquired about the process and or allowances to permit, explore and or engage with Curative to provide mobile VAX here in Monroe. He is aware of the partnership which exists with Baptist Health South Florida and Curative and reached out to expedite and clarify the process to engage

I advised him you Luis or your designee would be the most appropriate and that you would extend the courtesies due this important partner-

Thanks you,

James -

Hello,

At this time the Governor has stated that those residents 65 and older and health care workers should receive the vaccine. Tiering by age was not in the final Executive Order.

I would ask Mr. Saur to explain the lottery system through the county to you. Please understand we are working together to get vaccine into our residents as quickly as we receive it.

Thank you,
Dr. Bencie

This is a predicament, you just have no one to check your status. They won't even verify that your number is in the system.

They are all very polite and just say there is nothing they can do to check your status. Keep by the phone 24/7 for fear of missing a call.

I am not asking for any special treatment, but thought you would like to know what some of us are experiencing. Is there anyway you know of that folks can check on the status. We all have receipt numbers but they don't check them.

Frustrating.

Subject: DRAFT PR: Another 3,000 COVID-19 vaccination appointments will be booked this week

Commissioners, an early heads up on this press release I'll be distributing this news by noon today.

Another 3,000 COVID-19 vaccination appointments will be booked this week

MANATEE COUNTY, FL (Feb. 16, 2021) – The Florida Division of Emergency Management will host a "pop-up" vaccination spot at Premier Sports Campus, 5895 Post Blvd., Lakewood Ranch this week for 3,000 Manatee County residents who live in zip codes 34202 and 34211.

Manatee County 311 Call Center yesterday began calling residents from those zip codes to book the appointments for Wednesday, Thursday and Friday of this week. Patients will be given information on their second dose when they're on site for their first dose this week. The 311 Call Center has also booked 5,100 appointments for Bennett Park occurring Thursday and Friday of this week.

"This unique opportunity was made possible by Governor DeSantis calling (Schroeder-Manatee Ranch President) Rex Jensen wanting to do a vaccination site near Lakewood Ranch. The Governor has been trying to find large areas of neighborhoods to target."

Public Safety Director Jacob Saur today confirmed that the County has received word from state officials that severe winter storms in other areas of the country may delay the arrival of vaccines in Florida. County officials are confident that all scheduled first and second dose appointments will take place.

As of Feb. 15, 31,932 vaccinations have been administered at Manatee County's points of distribution (Bennett Park and the Public Safety Center). 36,765 Manatee County residents have received either a first or the complete series of the vaccine.

For more information on Manatee County Government, visit www.mymanatee.org or call (941) 748-4501. You can also follow us on Facebook at www.facebook.com/manatee.county.fl and on Twitter [@ManateeGov](https://twitter.com/ManateeGov).

Subject: Draft

Bob and Eric and Mary,

As we have brought to the close the 2nd does for *almost all*, I am getting approval from PR for this to be the template to be send to the ongoing inquires which number about 40 a day... they usually start with "I want to get on the list" is the reason for the opening line.

Please give me your comments..

Dear xxxx,,

We are not maintaining a list of those whom are seeking vaccinations for several reasons foremost fact that we have no remaining doses available. To clarify the doses which were scheduled and administered at Mariner's Hospital up though January 20th, *were donated unused employee allocations* to the Community, which Baptist Health South Florida received from the initial Federal distribution to Hospitals for their Employees.

Additionally, while we received names from the DOH 65+ list to schedule those patients, the doses are not connected to the actual Monroe County vaccination program, which does remains ongoing. It is not probable that we will receive any additional vaccination allocation, as our employees have been vaccinated.

I am sorry this was the answer I was hoping to give you, but I encourage you seek the vaccination under any one of the plans outlined herein.

With thanks,

James Muro

Option #1 - Publix Pharmacies: eligible customers can access COVID-19 vaccine **appointment availability beginning Thursday, January 21**. This includes the addition of Martin, Monroe, and Palm Beach counties: <https://www.publix.com/covid-vaccine/florida>

Option #2- Winn Dixie: has a working site as of this writing www.winndixie.com/pharmacy/covid and (b) CVS is slated to get allocations in the first several weeks of March

Option # 3- For those whom are not categorized 1A (and not over 65) but whom may be eligible under the progressive CDC Guidelines please to the DOH website in which they are planning and have deployed a website, which will update those on the list. Monroe.floridahealth.gov

I agree excellent job !!! and related to the prescreening, are any questions asked (inset) which may self-preclude them from receiving the VAX? We are all used to being lied to for many reasons, but wanted to see if they are being asked to prevent chance of not getting the appointment for those questions below. **(All do not preclude but can require different observation or information steps)** We have a cover sheet to our consent form which lists these questions prior to entry into Florida Shots.

Can you answer "YES" to any of the below questions:

1. Did you have COVID in the last 90 days?
2. Have you had any COVID symptoms in the last 14 days?
3. Have you had any cosmetic fillers in the last 30 days?
4. Have you ever gone to the emergency room for an allergic reaction?
5. Do you carry an adrenaline auto injector (EpiPen)?
6. Did you have a Herpes Zoster/shingle vaccine in the past 2 weeks?
7. Have you had any vaccine in the last 4 weeks?

Thank you for your partnership,

James

LOL, I agree!!

also I just have some classification on the scheduling of the booster which you and I discussed previously, as to whom and how to set the second date.

Thanks,

James

I agree excellent job !!! and related to the prescreening, are any questions asked (inset) which may self-preclude them from receiving the VAX? We are all used to being lied to for many reasons, but wanted to see if they are being asked to prevent chance of not getting the appointment for those questions below. **(All do not preclude but can require different observation or information steps)** We have a cover sheet to our consent form which lists these questions prior to entry into Florida Shots.

Can you answer “YES” to any of the below questions:

1. Did you have COVID in the last 90 days?
2. Have you had any COVID symptoms in the last 14 days?
3. Have you had any cosmetic fillers in the last 30 days?
4. Have you ever gone to the emergency room for an allergic reaction?
5. Do you carry an adrenaline auto injector (EpiPen)?
6. Did you have a Herpes Zoster/shingle vaccine in the past 2 weeks?
7. Have you had any vaccine in the last 4 weeks?

Thank you for your partnership,

James

Subject: FL DOH Scheduled COVID Vaccinations, Mariners 1.15.21 and 1.18.21

I agree excellent job !!! and related to the prescreening, are any questions asked (inset) which may self-preclude them from receiving the VAX? We are all used to being lied to for many reasons, but wanted to see if they are being asked to prevent chance of not getting the appointment for those questions below. **(All do not preclude but can require different observation or information steps)** We have a cover sheet to our consent form which lists these questions prior to entry into Florida Shots.

Can you answer “YES” to any of the below questions:

1. **Did you have COVID in the last 90 days?**
2. Have you had any COVID symptoms in the last 14 days?
3. Have you had any cosmetic fillers in the last 30 days?
4. Have you ever gone to the emergency room for an allergic reaction?
5. Do you carry an adrenaline auto injector (EpiPen)?
6. Did you have a Herpes Zoster/shingle vaccine in the past 2 weeks?
7. Have you had any vaccine in the last 4 weeks?

Thank you for your partnership,

James

Good afternoon James.

Attached, please find the COVID vaccination schedule for Mariners: Thursday, 1/21/2021. I apologize for it arriving to you later in the afternoon.

We are working diligently to fill Friday, 1/22/2021 – but will await your guidance on how many we have before going too crazy!!!

Have a great night.

Good afternoon James.

Attached, please find the COVID vaccination schedule for Mariners: Wednesday, 1/20/2021. I apologize for it arriving to you later in the afternoon. We did our best to fill those spots that you (kindly) opened up for us.

We may still continue to receive calls this evening. If you'd like us to continue to schedule for 1/20/2021 @ Mariners, please let me know how you'd like me to get you that updated information or additions to the schedule.

Or, we can close the 1/20/2021 for scheduling, and keep our fingers crossed for additional opportunities to schedule later in the week.

Please feel free to call/email with questions.

Thank you.

Vanessa,

I was curious about how to get COVID-19 vaccines for Cypress Springs Retirement living off Town Center Parkway. They are not a nursing home, but everyone in there is over the age of 65. My mom lives there and they still do not know when vaccines will be offered in house. Most people living there do not have a vehicle and some do not even have family or an advocate to speak up for them. I was on the Publix vaccine site for over an hour on Friday (getting on right at 7 am) and I watched as the 4 closest counties filled up. I don't have time to spend over an hour every day to try and get my mom on the vaccine list. She is now on the Manatee county call back list, but who knows how long that will take. I wanted you to know since that facility is in your district. I follow Christian Ziegler in Sarasota County and he has been very vocal on getting seniors vaccinated, so I decided to reach out to you to see if you could be the voice to get this moving in the right direction for these seniors in our county.

Thank you.

Hi Courtney,

I am very excited for this opportunity.

Our community in Charlotte County is Kings Gate Golf and Country Club, 24000 Rampart Blvd, Port Charlotte, FL 33980.

We would be able to use the existing roundabout as a drive-thru:

I look forward to hearing from your team.

If I should be onsite to meet anyone, please let me know.

Here is Pat's contact:

LETTERS FROM OUR READERS

Manatee organized in distributing vaccine

Your front-page headline Dec. 30, "Vaccine Chaos," was unnecessarily alarmist, at least where Manatee County is concerned.

While the sign-up for an appointment wasn't 100% straightforward, we figured it out and got our COVID-19 vaccinations on Wednesday afternoon. We went from home to vaccination site, received the vaccine, waited 15 minutes to see if we'd have a reaction and arrived back home again, all in one hour.

In Lee County, hundreds of seniors lined up overnight Sunday to get a chance at a shot Monday afternoon on a first-come, first-served basis. Now *that* is a recipe for chaos.

The Manatee County Department of Health was extremely organized under difficult circumstances and their operation may serve as a model for other counties.

Jake can you help on this issue please

Sent from my iPhone

On Jan 26, 2021, at 5:16 PM, [REDACTED]

Dear Commissioners Baugh and Whitmore:

You were kind enough to respond to my previous request for my wife, a healthcare worker in Manatee County, to receive her second Moderna vaccine on the correct date of January 31st whereas she had been scheduled for January 26th a 23-day interval which was not correct.

She had been contacted to disregard the January 23rd date but has not received further confirmation for the follow-up second vaccination.

Jeff Cordes was helpful in obtaining the cancelation but he is out of town now

Would you be kind enough to have someone contact her to set an appointment for her second vaccination which should be done within 28 days give or take a few days. Her phone number is [REDACTED] and my phone number is [REDACTED] if I could be copied as well please

Thank you. I know everyone has a lot on their plate under the circumstances

I mentioned to Ms Whitmore, for what it's worth, that I was the attorney for the [REDACTED] quite a few years ago.

Best regards

[REDACTED]

Dr. Bencie,

I just got off the phone with [REDACTED]

It sounds like she was inadvertently contacted by the 311 operators for an appointment earlier than recommended.

I have his wife's point of contact and we will be calling her this morning to provide an update on her booster vaccination date.

I will follow-up with the team scheduling the appointments to ensure this is an isolated case.

Subject: Press Release Finalization

DOH Partners,

Can we do a meeting today to finalize? The main objection from the proposed is we cannot be the point of contact for any aspect or form of this endeavor, and a more clear commitment that we are assisting with the High Risk only at this time, but not prepared for "all over 65 list at this time". We have already had 35 present personally today who are on the high risk list based on being told to come here, by unknown persons or rumor. (2) We are getting

dozens of calls an hour and impeding operations at our ability to handle 1A and or trying to schedule, so we can get this right....

We can do as late a start as 415 for the meeting, if you can do Ill send an invite for today if yes Karmaria can assist... ..

Thanks,

James

Subject: request for priority Covid-19 vaccinations

Good morning Commissioners, Dr. Bencie and Supt. Saunders,

I realize there is a severe shortage of Covid-19 vaccines at this time. However, I wanted to share an idea for consideration with you for when those supply challenges begin to ease.

I appreciate the efforts of all to create the vaccination pool for candidates over 65

and over. I am hopeful, and request your consideration, that we could create a separate category and prioritization within the pool for school district employees who are 65 and older and have daily, direct contact with students.

I know you're all working under incredible stress during this pandemic and I deeply appreciate your ongoing efforts under such pressure. The vaccine roll-out and communication to residents have been stellar, providing residents confidence. For that, we are fortunate to have you all in leadership positions in this moment.

Thanks very much for considering this possibility.

Charlie Kennedy

Dr Bencie, it has been my understanding we could not deviate from the Governor's order of "65 and older". Is or his not the case?

Subject: request for priority Covid-19 vaccinations

Good morning Commissioners, Dr. Bencie and Supt. Saunders,

I realize there is a severe shortage of Covid-19 vaccines at this time. However, I wanted to share an idea for consideration with you for when those supply challenges begin to ease.

I appreciate the efforts of all to create the vaccination pool for candidates over 65 and over. I am hopeful, and request your consideration, that we could create a separate category and prioritization within the pool for school district employees who are 65 and older and have daily, direct contact with students.

I know you're all working under incredible stress during this pandemic and I deeply appreciate your ongoing efforts under such pressure. The vaccine roll-out and communication to residents have been stellar, providing residents confidence. For that, we are fortunate to have you all in leadership positions in this moment.

Thanks very much for considering this possibility.

Charlie Kennedy
Manatee County School Board, District 2
work (941) 708-8770

Some media are reporting shortages of vaccine. We received our first Pfizer vaccine on January 8 and were advised we would be contacted regarding second vaccine appointment. I went on your COVID website which lists all second vaccine tentative dates for those that received the Moderna vaccine. However, following is posted for those that received initial Pfizer vaccine on January 8.

Jan. 8 - Second dose to be scheduled soon for end of January (You will be contacted 5-7 days before this date to confirm the appointment day)

This is the only date where a future tentative second appointment is not listed. End of January as listed above is next Friday if you are not administering on weekends. If this is true, we are at day 7 prior to end of month. I believe the Pfizer vaccine protocol for second vaccine is 21 days.

I hope you can shed some light on this, and confirm if second vaccine will truly be at the end of the month.

Thank you,

Good morning,
We look forward to receiving our second dose tomorrow morning between 10am and 11am. When we received confirmation of this time slot last week initially my wife was slotted for 9am to 10am and I was 10am to 11am even though we received our first dose on January 8 at the same time. We were both on the same registration application. When I spoke with someone last week she confirmed through a supervisor that we both can receive our second vaccine tomorrow in the 10am to 11am time slot.

As you can imagine receiving our second vaccine is of great importance so I just want to confirm. We are [REDACTED] and [REDACTED]

Thank you,

Date: Tuesday, January 19, 2021 5:24:18 PM

Good evening everyone,

As Dr. G states below, I am indeed disappointed to report that our plan to launch as soon as next week with Baptist-provided vaccine will not be possible due to a rather sudden change in vaccine availability. Having just been with you in Key West on Thursday to report that I was confident that we could obtain 1,000 doses of vaccine weekly for Key West, I came to learn differently over the past few days. Despite strong initial supplies of vaccine coming to Baptist from the State of Florida over the first few weeks, we have not recently received the allocation of doses we need to continue our vaccination plans. In fact, today Baptist Health announced that it is canceling the appointments made for the public to be vaccinated. This updated information has now gone out via our vaccine website: <https://baptisthealth.net/Coronavirus/Vaccine>

I sincerely apologize for this unforeseen change in direction. As of the time I visited with you, all indications were that we could request as much vaccine as we needed and we would have it. I will keep in touch with you should vaccine availability improve in the coming weeks. It may still be beneficial to proceed with establishment of the open POD in Key West to augment the number of sites in Key West where the vaccine may be received by the public. This way, when greater amounts of the vaccine are available, you will be ready and able to receive and administer vaccine whether that be from Baptist Health or directly from the State.

Please feel free to contact me to discuss further.

Ralph Rios

Good afternoon:

Let me re-emphasize my gratitude for coming to CFK to discuss and plan for the possibility of mass vaccinations for our residents. As you have since learned, the governor has changed the manner by which he wants to distribute the vaccine. Mr. Rios from Baptist Health received new information that he would like to share with the group as it will affect their involvement with our initiative.

Regardless, please know that CFK has and will continue to make available all of the resources at its disposal to have an effective and expeditious process.

Please call me directly if you have any questions.

Jg

BTW - AHEC will be doing drive through rapid testing at the Key West Campus starting on Friday 4/22 from 10 am to 2 pm and in the weeks following, on Monday and Friday at the same time.

Hi Jessica and Mary,

Please find the attached excel sheet with the clients who were vaccinated. The date on the bottom is the date we're requesting for them to be back for their second dose.

This includes everyday but Friday(Jan 22nd). I'll have that to you all in the morning.

Please let me know if there's any questions or concerns.

Thank you,

Karmaria Royal

External Email: Exercise Caution

Good Morning All – we are willing to assist with calling and scheduling to ensure these folks get their second doses. The sooner we can get lists of who was vaccinated on each day the sooner we can get to work on this. We are getting worried calls, texts, and emails from these folks and this can be minimized if we can get going!

Thanks.

Hi James.

Thank you for the clarification. We are willing to get started on this, but I need a list of which clients were vaccinated. I thought that Eric was discussing this with you...But may have gotten my signals mixed!!

Please let me know how I can help. Once we have the list we can start to work on this.

Thanks.

Subject: FW: 2nd Dose Vax Plan

Revised- with some corrections....

People vaccinated on Jan 15th:

- 41 people scheduled
- **Return date: Feb 3rd**
- No more than 6 an hour
- First appointment 8am, last appointment 4:15

People vaccinated on Jan 18th:

- 60 people scheduled
- **Return date: Feb 9th**
- No more than 10 an hour, 5 each 30 minute increment
- First appointment 8am, last appointment 4:15
-

People vaccinated on 19th:

- 60 people scheduled
- **Return date: Feb 10th**
- **20 an hour, 8 or 7 each 30 minute increments**
- **First appointment at 7:30am, last appointment at 4:15.**

People vaccinated on 20th:

- 95 people scheduled
- **Return date: Feb 10th**
- **20 an hour, 8 or 7 each 30 minute increments**
- **First appointment at 7:30am, last appointment at 4:15.**

***There would be an overflow of 5 people on the Feb 10th since our daily goal is 150. Please schedule those extra 5 people on 9th instead thank you!**

People vaccinated on 21th:

- 144 people scheduled
- **Return date: Feb 11th**
- 18 an hour, 9 each 30 minute increments
- First appointment 8am, last appointment 4:15

People vaccinated on 22nd:

- 129 people scheduled
- **Return date: Feb 12th**
- 17 an hour, 8 or 7 each 30 minute increments
- First appointment 8am, last appointment 4:15

Subject: RE: 2nd Dose Vax Plan

On Feb 10th: Since we're covering people vaccinated on Jan 18th and Jan 20th, it needs to be 20 an hour, 8 or 7 each 30 minute increments. Starting at 7:30am ending at 4:15.

That's the only correction. Thanks James!

Subject: FW: 2nd Dose Vax Plan

Revised- with some corrections....

People vaccinated on Jan 15th:

- 41 people scheduled
- Return date: Feb 3rd
- No more than 6 an hour
- First appointment 8am, last appointment 4:15

People vaccinated on Jan 18th:

- 60 people scheduled
- Return date: Feb 9th
- No more than 10 an hour, 5 each 30 minute increment
- First appointment 8am, last appointment 4:15
-

People vaccinated on 19th:

- 60 people scheduled
- Return date: Feb 10th
- 20 an hour, 8 or 7 each 30 minute increments
- First appointment at 7:30am, last appointment at 4:15.

People vaccinated on 20th:

- 95 people scheduled
- Return date: Feb 10th

- 20 an hour, 8 or 7 each 30 minute increments
 - First appointment at 7:30am, last appointment at 4:15.
- *There would be an overflow of 5 people on the Feb 10th since our daily goal is 150. Please schedule those extra 5 people on 9th instead thank you!

People vaccinated on 21th:

- 144 people scheduled
- Return date: Feb 11th
- 18 an hour, 9 each 30 minute increments
- First appointment 8am, last appointment 4:15

People vaccinated on 22nd:

- 129 people scheduled
- Return date: Feb 12th
- 17 an hour, 8 or 7 each 30 minute increments
- First appointment 8am, last appointment 4:15

Subject: RE: 2nd Dose Vax Plan

On Feb 10th: Since we're covering people vaccinated on Jan 18th and Jan 20th, it needs to be 20 an hour, 8 or 7 each 30 minute increments. Starting at 7:30am ending at 4:15.

That's the only correction. Thanks James!

Good afternoon Cindy/Amy,

Thank you both for all your support during the pandemic. We received our first direct vaccine allocations this week.

We received the following this week (so far):

- 3,500 Moderna
- 2,350 Pfizer

We are centralizing our administration process for our entire health care system (see hospital sites below). In order to refine our schedule at future sites and maximize future allocations, can you please share the amount of we are expected to receive (next week-4 weeks, if possible).

Thank you in advance,

Luis

Subject: Draft

Bob and Eric and Mary,

As we have brought to the close the 2nd does for *almost all*, I am getting approval from PR for this to be the template to be send to the ongoing inquires which number about 40 a day... they usually start with "I want to get on the list" is the reason for the opening line.

Please give me your comments..

Dear xxxx,,

We are not maintaining a list of those whom are seeking vaccinations for several reasons foremost fact that we have no remaining doses available. To clarify the doses which were scheduled and administered at Mariner's Hospital up though January 20th , *were donated unused employee allocations* to the Community, which Baptist Health South Florida received from the initial Federal distribution to Hospitals for their Employees.

Additionally, while we received names from the DOH 65+ list to schedule those patients, the doses are not connected to the actual Monroe County vaccination program, which does remains ongoing. It is not probable that we will receive any additional vaccination allocation, as our employees have been vaccinated.

I am sorry this was the answer I was hoping to give you, but I encourage you seek the vaccination under any one of the plans outlined herein.

With thanks,

James Muro

Option #1 - Publix Pharmacies: eligible customers can access COVID-19 vaccine **appointment availability beginning Thursday, January 21**. This includes the addition of Martin, Monroe, and Palm Beach counties: <https://www.publix.com/covid-vaccine/florida>

Option #2- Winn Dixie: has a working site as of this writing www.winndixie.com/pharmacy/covid and (b) CVS is slated to get allocations in the first several weeks of March

Option # 3- For those whom are not categorized 1A (and not over 65) but whom may be eligible under the progressive CDC Guidelines please to the DOH website in which they are planning and have deployed a website, which will update those on the list. Monroe.floridahealth.gov

Good afternoon James.

Attached, please find the COVID vaccination schedule for Mariners: Wednesday, 1/20/2021. I apologize for it arriving to you later in the afternoon. We did our best to fill those spots that you (kindly) opened up for us.

We may still continue to receive calls this evening. If you'd like us to continue to schedule for 1/20/2021 @ Mariners, please let me know how you'd like me to get you that updated information or additions to the schedule.

Or, we can close the 1/20/2021 for scheduling, and keep our fingers crossed for additional opportunities to schedule later in the week.

Please feel free to call/email with questions.

Thank you.

Good afternoon James.

Attached, please find the COVID vaccination schedule for Mariners: Thursday, 1/21/2021. I apologize for it arriving to you later in the afternoon.

We are working diligently to fill Friday, 1/22/2021 – but will await your guidance on how many we have before going too crazy!!!

Have a great night.

Good afternoon James.

Attached, please find the COVID vaccination schedule for Mariners: Wednesday, 1/20/2021. I apologize for it arriving to you later in the afternoon. We did our best to fill those spots that you (kindly) opened up for us.

We may still continue to receive calls this evening. If you'd like us to continue to schedule for 1/20/2021 @ Mariners, please let me know how you'd like me to get you that updated information or additions to the schedule.

Or, we can close the 1/20/2021 for scheduling, and keep our fingers crossed for additional opportunities to schedule

later in the week.

Please feel free to call/email with questions.

Thank you.

We can do this!! Absolutely. We will call them and screen them as we are everyone else.
Can you please give us an update on numbers/availability of vaccine?? We currently have about 50 on the schedule for tomorrow, Friday.

We can certainly keep going, but don't want to have to call people BACK to cancel.

Please let us know.

Jessica,

GM... as we go into the final day are you amicable if push to you the email requests that I have had whom have presented here with family members whom ARE of 65 but were not on the list. Feel free to screen them under normal protocol, but I have asked them to email me to keep order and stop emotional responses locally. If you agree, I have on the email that they sent, name contact and DOB.

With thanks for your help

James

Jessica and Bob et al,

At this hour today, we were advised that the supply that is in the possession at this time **DOES NOT** allow us to **schedule past Tuesday 1/19/20**. We are not confident as if it to assure the 2nd does or system wide supply. This may change and we are actively seeking more information on this status and will update at once. We are not sharing this with the public at this time and request the same from the DOH to prevent complications and misinformation from proliferating through the County.

With appreciation for the partnership,

James

DOH Team,

On Tuesday (or ASAP) or when you are all back we would like to get "Florida shots trained" clerical assistance for an ongoing basis, **(M-F 745-1700)** which will free our nursing staff to VAX This will go a long way to free up clinical team. I can make a mission request in Web EOC, but I think there are people ready in AHEC if I recall. **With this assist, we can increase our daily numbers by 30% the DOH list.**

With thanks again,

James

Good afternoon James.

Attached, please find the COVID vaccination schedule for Mariners: Wednesday, 1/20/2021. I apologize for it arriving to you later in the afternoon. We did our best to fill those spots that you (kindly) opened up for us. We may still continue to receive calls this evening. If you'd like us to continue to schedule for 1/20/2021 @ Mariners, please let me know how you'd like me to get you that updated information or additions to the schedule. Or, we can close the 1/20/2021 for scheduling, and keep our fingers crossed for additional opportunities to schedule later in the week.

Please feel free to call/email with questions.

Thank you.

DOH Partners,

We are happy to share that we completed 187 today from the combined lists, again with zero waste. We also handled [REDACTED] from the list Eric provided, everyone else on the list you provided should be "recycled" to your active list.

With thanks, and have a good weekend...

James

Good afternoon James.

Attached, please find the COVID vaccination schedule for Mariners: Thursday, 1/21/2021. I apologize for it arriving to you later in the afternoon.
We are working diligently to fill Friday, 1/22/2021 – but will await your guidance on how many we have before going too crazy!!!

Have a great night.

Jessica Lariz

Good afternoon James.

Attached, please find the COVID vaccination schedule for Mariners: Wednesday, 1/20/2021. I apologize for it arriving to you later in the afternoon. We did our best to fill those spots that you (kindly) opened up for us.
We may still continue to receive calls this evening. If you'd like us to continue to schedule for 1/20/2021 @ Mariners, please let me know how you'd like me to get you that updated information or additions to the schedule.
Or, we can close the 1/20/2021 for scheduling, and keep our fingers crossed for additional opportunities to schedule later in the week.

Please feel free to call/email with questions.

Thank you.

Subject:

Good morning,

Wanted to let you know I worked the first 4.5 hours of the shift on the ED floor. The board was FULL again tonight with lots of holds.

Pt. [REDACTED] was in the hall bed outside the Med room when I came to work at 7pm. Calls had been made to Crystal Health Nursing Home that the pt. was ready to be returned. This poor old woman laid there for hours as we kept trying to get the nursing home to call FL Keys Amb for pickup. Phyllis had already given report, Sami had explained to the nurse Shannon on the 1st floor that Dr. Mahoney was not going to admit her and she needed to call FL Keys amb. for pickup. You can see from my nursing notes that I had a very hard time getting them to first answer the phone and then respond to calling for transport. I don't know what can be done, if anything to make sure this does not happen again. Crystal Health is notorious for not answering the phone but this was much worse tonight.

Another possible situation was Saturday night right after that double fatality accident on US-1. As you will see the entire night shift coming from North of the hospital was late arriving due to the highway shut down. Wendy received a call around 1930 from FHP that if we received a Hispanic male as a patient with possible burns or road injury to call them as it was a hit and run situation. Shortly after that there was a young man and I can't remember if one or two other men came to the front window asking about any possible patients from the accident as they were looking for a family member. Claudia without telling them specific information told them that no one was here from that accident. We in the ER saw this exchange on the camera. Approx. 15 minutes later they came in again and Mark from Radiology and myself went to Registration to assess the situation to make sure the girls were safe. I think it was 3 family members were there and they kept asking for the young

man from the accident and were again told that no one from the accident was here at this hospital. I told them to call FHP. I ended up getting a patient via Rescue in the back door into room 6 and the EMS guys told me that on their way to the back door they were flagged down by these family members who were out in the front ER parking lot if they had this patient [REDACTED] (or some last name like that) in the back of the rig. EMS said they were still in the parking lot. I went out the front entrance and stayed on the concrete rise and asked who they were looking for. There were about 6 people out there. They said the guy's name again and said they called FHP and were forwarded to MCSO and they said they would call the scene and get back to them. The woman of the group then stated "I have a friend who is EMS and they told me they have him in the back of the EMS and are stabilizing him and will be airlifting him out." I just repeated again for them to call FHP. The weird thing about this situation is HOW WOULD THEY KNOW THE VICTIMS NAME ALREADY. Long story short, if you are able to look at the video recording of between 8pm and 9pm from the lobby and front entrance we all think that the gentleman wearing the light blue sweatshirt with the hood up may have been the other motorcycle rider who fled the scene. We as in all the staff working in the ER Saturday night. Matt, Mark, Claudia, Gina (may be forgetting someone else)

I'm off for the next 3 days but if you have any questions or concerns please text me or call.

Tanya

I think it was 3 family members were there and they kept asking for the young man from the accident and were again told that no one from the accident was here at this hospital. I told them to call FHP. I ended up getting a patient via Rescue in the back door into room 6 and the EMS guys told me that on their way to the back door they were flagged down by these family members who were out in the front ER parking lot if they had this patient [REDACTED] (or some last name like that) in the back of the rig. EMS said they were still in the parking lot. I went out the front entrance and stayed on the concrete rise and asked who they were looking for. There were about 6 people out there. They said the guy's name again and said they called FHP and were forwarded to MCSO and they said they would call the scene and get back to them. The woman of the group then stated "I have a friend who is EMS and they told me they have him in the back of the EMS and are stabilizing him and will be airlifting him out." I just repeated again for them to call FHP. The weird thing about this situation is HOW WOULD THEY KNOW THE VICTIMS NAME ALREADY. Long story short, if you are able to look at the video recording of between 8pm and 9pm from the lobby and front entrance we all think that the gentleman wearing the light blue sweatshirt with the hood up may have been the other motorcycle rider who fled the scene. We as in all the staff working in the ER Saturday night. Matt, Mark, Claudia, Gina (may be forgetting someone else)

I'm off for the next 3 days but if you have any questions or concerns please text me or call.

Tanya

Subject: Press Release Finalization

DOH Partners,

Can we do a meeting today to finalize? The main objection from the proposed is we cannot be the point of contact for any aspect or form of this endeavor, and a more clear commitment that we are assisting with the High Risk only at this time, but not prepared for "all over 65 list at this time". We have already had 35 present personally today who are on the high risk list based on being told to come here, by unknown persons or rumor. (2) We are getting dozens of calls an hour and impeding operations at our ability to handle 1A and or trying to schedule, so we can get this right....

We can do as late a start as 415 for the meeting, if you can do Ill send an invite for today if yes Karmaria can assist... ..

Thanks,

James

Hi Steve,

Good morning. I hope you are doing well.

We are very excited to take on this project and want it to be successful. Can you please send me a template to pre-register people? Also, I am not sure how long it takes to administer the shot and observe, but is it a reasonable expectation to have 9 time blocks (8am-4pm) with 166 patients each?

Hi Courtney,

I am very excited for this opportunity.

Our community in Charlotte County is Kings Gate Golf and Country Club, 24000 Rampart Blvd, Port Charlotte, FL 33980.

We would be able to use the existing roundabout as a drive-thru:

I look forward to hearing from your team.

If I should be onsite to meet anyone, please let me know.

Here is Pat's contact:

Subject: Urgent Communication Related to Vaccine week ending 1.22.21
Date: Tuesday, January 19, 2021 12:38:01 PM

Mr. Eadie,

With pleasure I am able to report that we have adequate supplies to finish this week for vaccinations on for Monroe County. Based on supplies on hand or allocated to us from our partners-

The Wednesday list I know is "in process" I understand but wanted to revise it as follows:

Wednesday 1/20 We can schedule **141** persons commencing at **9 am and finishing at 16:30**, yielding a rate of 20 an hour

Thursday 1/21 We can schedule **141** persons commencing at **9 am and finishing at 16:30**, yielding a rate of 20 an hour

Friday 1/22 We can schedule **141** persons commencing at **8 am and finishing at 16:00**, yielding a rate of 20 an hour

We ask this time to **not** schedule anyone past this Friday 1/22 due to supply assurances We are willing to assist in some form of the DOH "extra doses" not allocated to Public (600 weekly), which should total 100 weekly, predicted to be the Moderna variant. The specifics will have to be approved by Senior leadership and Dr. Barrow whom is charge of the pharmacy.

With appreciation for the partnership,

James

Subject: Urgent Re-Schedule Request from 14:15 today
Date: Thursday, January 21, 2021 3:01:20 PM

Jessica,

We have a request for reschedule, for a couple whom was scheduled for today and had bad information that they were canceled from a press release, can we place them on tomorrows list as they are coming from Key West and they are in their 80's

-

With thanks,

James

Subject: Urgent Vax Information for 1.20.21
Date: Tuesday, January 19, 2021 9:41:07 AM

Eric,

Pursuant to our conversation moments ago, we are authorized based on supply, to proceed to populate your scheduled list **for tomorrow 1/21 in accordance with you protocols, with an rate of 15 per hour, and expanding the window to 10:00 v. 13:00 start time.**

We will update before 1300 today related to the supply chain and scheduling for 1/22.

With thanks for your understanding during these challenging times.

James

Jessica,

After speaking to our Dr. of Pharmacy, Please feel comfortable setting **the full 140 VAX reservations tomorrow starting at 830 am...** we want go as hard as we can Thurs and then adjust for Friday if we need too.

With thanks,

James

Subject: RE: [External] Mariners

Never mind!!! I have called all of the ones that we had scheduled. They are getting in. A hand full didn't go because of what they heard on the TV, they have been rescheduled for tomorrow.
Many are saying that they called Mariners and hear the automated message that says "no more first doses as of 1/20". And, I'm told, there is a sign on the door.

We are handling it on a case by case basis. But, the good news is, they are all getting SHOT!!! YAY!

THANK YOU JAMES!

***External Email: Exercise Caution!**

Hi James.

Do you have someone that you could call at Mariners? We are having people call and tell us that they are being told, by Mariners, not to come to their SCHEDULED apt.

Oh boy. Please let me know.
