# COMMON SENSE WISCONSIN ELECTION UNIFORMITY INITIATIVE

*“Elections belong to the people.”*

~~ Abraham Lincoln

**Election fairness and uniformity is an absolute and fundamental right. As such, it deserves a place in the Wisconsin Constitution.**

**Common Sense Wisconsin is calling on the Legislature and all 72 of Wisconsin counties to give our citizens an opportunity to vote on securing election uniformity a place in our Constitution. If uniformity is worthy of constitutional protection for taxation and form or government, then certainly protecting the vote – arguably the most fundamental of all rights – is also worthy.**

By proposing a constitutional amendment, the Legislature will take away the ability of the Governor to veto the measure and will put the matter directly into the hands of Wisconsin voters. It will also protect Wisconsin against current efforts in Congress to take voting rights away from the states and federalize elections.

One thing all Wisconsinites can agree on is that elections must be conducted in a fair and equitable manner, that all voters are treated equally, and that all votes are counted equally. For this to be reality, four fundamental principles are essential:

1. Election laws must be uniform throughout the state. Voters must be treated the same and votes must be counted uniformly, whether they are in Superior or South Milwaukee, Madison or Minocqua;
2. Election laws must be reliable and predictable. Last minute changes and altering of the rules breeds confusion among voters and distrust in the system;
3. The administration of elections must be carried out in a transparent manner that does not favor any political party over another. Elections are not held for Democrats or Republicans – they are held for we, the people;
4. The funding and administration of elections cannot be turned over to private organizations.

It is undisputed that these principles were compromised in 2020.

- It is undisputed that absentee ballots were processed differently from jurisdiction to jurisdiction and those differences were significant. For example, the precisely same absentee ballot would have been counted in some jurisdictions while being rejected in others. Common Sense says that is not fair or equitable to all Wisconsin voters.
- It is undisputed that the opportunity to vote early (“in person absentee”) differed massively based upon where a voter lived in the state. Common Sense says that all voters should have as fair and equitable access to voting.
- It is undisputed that more than 6 million dollars of out-of-state corporate money was funneled into a handful of big Wisconsin cities for public election operations. Worse yet, out of state operatives from these shadowy groups went into these cities and helped run the elections (and actually handled ballots). Whether it is a left leaning or a right leaning group, outside organizations should never be given power to administer elections.
- It is undisputed that the basic election rules for the 2020 election were in a constant state of flux and chaos. Some officials, including the Governor of Wisconsin, used COVID as an excuse to ignore state law or change the rules to favor one political party over the others.

- The mayor of Milwaukee shut down all but 5 voting stations in his city in a brazen attempt to aide his own campaign.
- Governor Evers tried to shut down in-person voting altogether. Less than 24 hours before the polls opened, Evers unilaterally tried to disallow in-person voting in a naked attempt to suppress the vote. Just days before Evers declared he had no such power.
- It is undisputed that last-minute attempts to change the rules via the courts contribute to the confusion. Common Sense says that voters will have far more trust in elections when the basic rules are set well in advance and politicians, bureaucrats, and courts are prohibited from making last minute changes (which invariably are sought to bring last-minute advantage to one side or the other).

These facts are not disputed, and clearly demonstrate Wisconsin needs to take action to be sure that every voter and every ballot is treated fairly and uniformly. It is also becoming apparent that the current Governor will obstruct attempts to enact common sense reform via the statutory process.

Wisconsin citizens' right of uniformity is already constitutionally protected for taxation (Article VIII, Section 1), for town government (Article IV, Section 23), and for the enactment of general laws (Article IV, Section 32).

Common Sense Wisconsin is calling for the following:

1. The current Legislature should immediately draft and introduce the **Elections Equity and Uniformity Amendment**, hold hearings, and proceed to first passage. The amendment should include provisions to ensure the four fundamental principles previously outlined are met.
2. Regardless of the action or inaction in Madison, every Wisconsin county should place on its November 2022 ballot an advisory referendum asking if the Elections Equity and Uniformity Amendment should be placed on a statewide ballot. To ensure uniformity across the state, we propose the following language for counties:

**Question: Should the Wisconsin Legislature prepare and place on the statewide ballot a Constitutional Amendment requiring that election administration, access to ballots, and counting of ballots be as nearly uniform as practicable?**

3. The subsequent Legislature should proceed to final passage immediately upon convening and place the measure on a statewide ballot for approval by the people of Wisconsin.

*Common Sense Wisconsin is an advocacy group of Wisconsin citizens committed to advancing conservative solutions that can solve real world problems and help build a better and stronger Wisconsin for everyone. We are committed to bringing practical thinking and actionable solutions to issues that far too many only talk about.*

*Common Sense will be releasing a series of such initiatives and proposals centered around education, jobs and economic development that properly identifies government's role and responsibilities, and then meets those responsibilities in an efficient and effective way.*

Subject: Elections Question Follow-up

---

Good afternoon, Mr. Koch.

Thank you for contacting my office regarding audits relating to the November 2020 general election. As you know, there have been a number of concerning issues identified about the lead-up to, and conduct of, that election. I believe that it is important that we fully and transparently assess those issues so that we can ensure accountability and better process in the future. To that end, the Legislature is proceeding on a number of fronts to exercise its oversight authority.

First, the Joint Legislative Audit Committee voted on February 11<sup>th</sup>, 2021 to order the non-partisan Legislative Audit Bureau to perform an audit of the previous election. You can read more about that [here](#). Second, the Assembly Committee on Campaigns and Elections, of which I am vice-chair, is also pursuing an investigation into specific allegations that have been raised. I authored [the resolution](#) formally initiating the investigation. Here is [a statement](#) I released about it earlier this year.

While I expect that all of these investigations will take some time to run their course, it is important that we be methodical in fully examining all of the issues that were raised during the previous election.

Thanks again for reaching out to me about this. Please don't hesitate to contact me in the future about this or any other issues.

Yours truly,

[Representative Joe Sanfelippo](#)

Subject: Forensic audits ?

---

Gentlemen,

I know what I would be doing if I were a Republican member of the Wisconsin Legislature. I would be making plans and organizing my colleagues to start legal actions to demand a comprehensive forensic audit of the Wisconsin 2020 election in every county where an irregular suspension of ballot counting took place and also a forensic investigation into the ballot dumps that took place in the wee hours of the morning of Nov. 4th. I would also be making known that legal charges and challenges related to the city of Green Bay related to democrat activist Michael Spitzer-Rubenstein will be pursued. And also an investigation into possible collusion between officials of Green Bay, Wi. and officials of Racine, Wi. related to the 2020 election. You and I know that what took place on Nov. 3rd was unprecedented, and as slimy and smarmy as possible. The SCOTUS and VP Mike Pence may have betrayed a huge number of Americans but in our state we do not have to cave in to those traitors. There is hope thanks to the courageous officials in Arizona. You must not let the shenanigans that took place in Wisconsin be any less important. Join Arizona and now Michigan's Antrim County to clean up the mess created by the demOCRAT communist party and possible foreign actors and make things RIGHT!

## **FORENSIC EVIDENCE: Dominion Voting Machines Had Unauthorized "Implant"**

The above title is the title of an article found on the site [DailyTrumpReport.com](https://DailyTrumpReport.com). After reading the article the following is the comment posted by a friend of mine who is very knowledgeable about computers, software, networking and servers. His comment is in response to the original article after a forensic audit was performed in Michican.

--Maxx--

**How can this even be a surprise ?? These machines were used in South America; Venezuela, Peru and Brazil for years and ever since the communists dictators have always been elected. And we are to believe this is not the very reason the democrats pushed for getting these machines and software into as many U. S. states as possible. The owners of the machines and software have been watching how the Chinese create software. EVERYTHING China produces that is electronic always has software that "contains back doors" and "two way interaction through the Internet" even though it may not be required to operate. Through Wi-Fi, connections are made without anybody knowing or deliberately making the connections. China has been using the Internet to spy on and collect data from the American public for a very long time.**

**The citizens of every state that want to insure election integrity MUST DEMAND THAT ALL ELECTION MACHINERY THAT CONNECTS TO THE INTERNET BE BANNED. They must also demand that all access to the Internet, especially via WiFi, be disconnected at all polling places going so far as to having WiFi blocked or jammed at polling places. This may require**

**the voting machines be located in "safe rooms" where WiFi access is totally blocked.**

**If this is not done then the next Nov. 2020 type election is almost guaranteed.**

Subject: Fwd: Zuckerberg financed Wisconsin election fraud in 5 democrAT cities

---

Everybody,

The link included below is an article which is from the site REALCONSERVATIVESUNIT.COM. It exposes much information about the Wisconsin 2020 election that Mark Zuckerberg had a lot to do with. It exposes what I had heard before, that there was collusion involving Zuckerberg's monetary grants and the 5 largest cities in Wisconsin controlled by the democrATS. It concludes that Wisconsin's Constitution related to election laws was deeply violated by many Wisconsin city officials using Zuckerberg's bribes.

This whole story needs to be investigated by the Wisconsin Legislature. Zuckerberg should be charged with "election tampering" and if the Legislature won't do it then they should tell us "little people" how to do it. AS FAR AS THE QUESTION OF "STANDING IN THE COURTS" IS CONCERNED EVERY WISCONSIN CITIZEN THAT VOTES HAS BEEN AFFECTED BY ZUCKERBERGS INTERFERENCE IN OUR ELECTION SO WE HAVE ALL THE STANDING NECESSARY!!!

<https://realconservativesunite.com/2021/05/12/report-zuckerberg-s-grant-program-demanded-control-of-elections/>

# ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

## ENCOURAGING A RETURN TO WORK

WISCONSIN ASSEMBLY  
**GOP**

### **Workforce Recovery Bill Passes Legislature**

The [bill](#) I co-authored to help address the current worker shortage in Wisconsin passed the Legislature. It will encourage unemployed individuals to return-to-work to make sure the state's economy continues to grow. It ends Wisconsin's participation in federal unemployment compensation enhancement programs which actually dis-incentivize people from returning to work.

The shortage of workers has reached a crisis point for many employers in our state. Numerous businesses are raising wages and offering sign-on bonuses but are still unable to find enough people to meet demand. They are competing with the government for workers.

The federal benefit supplement provides an additional \$300 per week on top of state benefits and extends the length of eligibility beyond the normal 26 weeks. The enhancements aren't set to expire until September 2021.

The bill also ensures that individuals who file for Unemployment Insurance are actively searching for a job to be eligible to collect benefits. The governor waived that requirement last year through an emergency rule.

Twenty five other states have moved to end the additional federal payments and at least 36 have reinstated requirements that those receiving benefits have to look for work. Businesses can't wait until September for workers to come off the sidelines. They need help now.

According to an [SR Poll Results](#) report, 71 percent of voters favor ending the enhanced federal unemployment payments. This includes 67 percent of independents and 59 percent of Democrats. If the legislation is signed by Governor Evers, the Wisconsin unemployment compensation program will return to pre-pandemic operations and provide an ongoing safety net for those who truly need it.

## Borrowing Less - Investing More

	Governor	Republicans
State Highway Program	\$67 million	Over \$130 Million ✓
Local Road Improvement Program	\$75 Million	\$100 Million ✓
New Bonding	Over \$500 Million!	Less Than \$225 Million ✓

Source: Executive Budget Proposal & LFB Publications

### Infrastructure - Borrowing Less, Investing More

This week, the Joint Finance Committee advanced measures that will invest more into vital infrastructure while borrowing significantly less money than what the governor proposed for the state budget. In fact, we are looking to have the lowest amount of new bonding for transportation in over 20 years.

We are also making investments in two major pieces of critical emergency response and public safety infrastructure in need of updating and rebuilding. The Wisconsin Interoperable System for Communications (WISCOM) is a statewide trunked radio network which enables first responders from different jurisdictions to communicate with each other during daily operations, natural disasters, and large-scale events.

Also, Next Generation 911 allows for better communication with the individual calling 911 including accurate location detection, texting, video messaging, telematics capabilities, and enhanced communication for deaf and hard of hearing individuals.

## Gov. Evers Proposed TWICE as much Borrowing for Wisconsin's Roads

Source: Executive Budget Proposal & LFB Publications

### Looking Ahead to America's 250th Anniversary

I had the honor to author [Assembly Bill 388](#), which creates a commission for the upcoming celebration of the United States Semiquincentennial. Our founding fathers established the United States with the signing of the Declaration of Independence in 1776. Our country will be celebrating its 250<sup>th</sup> anniversary in 2026.

To commemorate this significant milestone, Congress passed legislation in 2016 creating the U.S. Semiquincentennial. Since then, more than a quarter of states have introduced or passed legislation or an executive order establishing a 250<sup>th</sup> anniversary organization.

The establishment of this commission will provide the opportunity for citizens across Wisconsin to be part of a national celebration of our country's founding. We need to remember the historic events that have occurred and honor the brave men and women who have stood up for the core values of our country that have allowed us the liberty and freedoms we enjoy today.

The bill creates a commission with a member makeup that is similar to the 100<sup>th</sup> Anniversary State Capitol Commemorative Commission. The commission would be responsible for

planning, preparing and implementing programs and events that highlight the founding of the United States and recognize Wisconsin's role and impact in the nation's past, present and future.

Each state has the unique opportunity to invite its citizens, communities and state and local governments to join in celebrating the founding of our great country and the contributions their state has made to move our country forward.

Subject: letter of reprimand sent to Gina(election facilitator) from Wisc. Elect. Commission not followed

---

Gina was working the polls on Tuesday, April 6th. John the election chief where I was an election official at Lane School at the end of the day told us election officials that we could leave when the ballots weren't sealed yet. I told John I'm not leaving until the ballots are sealed. The rest of the election officials left. John said he was waiting for Gina to give final directions. I believe when John and Gina realized that I wasn't leaving until the ballots were sealed that John said to me to seal the ballots. This all happened very quickly after the other election officials left. I sent you the correspondence from the Wisconsin Election Commission on their findings at what was done by them. So you could look at see that correspondence and determine if what was done by Gina followed what the WEC did?

Thank you for your time and effort in keeping our elections fair!!!

**Subject: Mark Zuckerberg et al**

---

**Dear Wisconsin Legislators,**

**I applaud all of you for writing many new bills to try to stop the fraud in our election system. However, why is the entire Republican membership in the legislature not joining in the filing of law suits against Mark Zuckerberg and his companies for the blatant election tampering and manipulation that he and his organizations are responsible for? There is no excuse for not taking legal action against him, the members of the Wisconsin Election Commission and the mayors of all cities that received funding from Zuckerberg. He knew full well what his money was being provided for. Election fraud was the goal, plain and simple.**

**No one is allowed to facilitate any actions that cause the election process of our state to be compromised and that is what Zuckerberg and his organizations did.**

**We don't need a law to enforce that aspect of our elections. Secret ballot implies this standard.**

Subject: Overseeing Elections

---

A Bill was not needed to execute your constitutional duty of overseeing all elections and setting the times, places, and manner of elections. Your authority is found in the US constitution Article 1, Section 4, Clause 1: The Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof. I am strongly urging the Senate to issue subpoenas for all ballots, voting machines, system files, etc used in the November election in Wisconsin for an independent forensic audit. Wisconsin, like most states, uses the Mason's Manual of Legislative Procedure to outline the duties of state legislatures. It reads, "A legislative body or a committee, when acting within the scope of its authority to conduct an investigation, may summon and examine witnesses, require the production of and examine books, records and papers." (Page 292, Sec. 802, Summons, Subpoenas and Warrants, 1). This section also states, "When a subpoena duces tecum has been issued under statutory authority showing that the purpose of the examination was within the scope of the inquiry authorize, the court cannot cancel the subpoena nor enjoin the issuance of any further subpoena" (Page 292, Sec. 802, Summons, Subpoenas and Warrants, 6). The Senate has legal authority to conduct their own legislative investigation via subpoenas of all ballots, tabulators, routers, passwords, machines, records, etc. All cases where counties, cities, towns challenged the Senate's authority have ended in judges denying their challenges. This proved true in Arizona; with Judge Timothy Thomason's ruling: "The Court finds that that Subpoenas are legal and enforceable. There is no question that the Senators have the power to issue legislative subpoenas. The Subpoenas comply with the statutory requirements for legislative subpoenas. The Senate also has broad constitutional power to oversee elections. The Arizona legislature clearly has the power to investigate and examine election reform matters. Accordingly, the Senators have the power to subpoena material as part of an inquiry into election reform measures. As such, the Subpoenas have a proper legislative purpose. The Subpoenas also do not violate separation of powers principles. Production of the subpoenaed materials would not violate confidentiality laws." With the numerous incidents that occurred in Wisconsin during the November 2020 general election, it is crucial the Legislature audits the whole state to ensure this was not a statewide issue that potentially affected all races. Only legal votes should be counted. Thank you for your consideration.

---

I suspect "EVERYTHING" the Republican majority legislature puts forward will be vetoed by Evers' not because they are in any way not good or not valid but ONLY because they are not part of his demonic democRAT agenda to destroy America one state at a time. Show us a list of the bills passed by the legislature and the bills Evers has vetoed PLEASE. I know what the list will look like. That is why the Wisconsin voters need to see for themselves what Evers has accomplished with his agenda controlled by the DNC directly from D.C. We cannot wait any longer to start impeachment or recall procedures against this person and his administration.

And maybe calling for a forensic audit of the 2016 election will prove that it too was fraudulent primarily due to the late night/early morning ballot dumps in Milwaukee, Dane, Brown and Racine counties. I will never believe that Scott Walker was defeated fairly using the democRAT and MSM talking point that it was "disgruntled suburban women" that made the difference. I know enough about area politics to know that is pure B.S. Go back and check, especially in Milwaukee and Dane counties. Enough of this nonsense. **The 2020 election was not the first election blatantly stolen by the democRAT communist party.**

Subject: Investing in Wisconsin's Infrastructure

**ROBIN J. VOS**  
SPEAKER OF THE WISCONSIN STATE ASSEMBLY

## Workforce Recovery Bill Passes Legislature

The [bill](#) I co-authored to help address the current worker shortage in Wisconsin passed the Legislature. It will encourage unemployed individuals to return-to-work to make sure the state's economy continues to grow. It ends Wisconsin's participation in federal unemployment compensation enhancement programs which actually dis-incentivize people from returning to work.

The shortage of workers has reached a crisis point for many employers in our state. Numerous businesses are raising wages and offering sign-on bonuses but are still unable to find enough people to meet demand. They are competing with the government for workers.

The federal benefit supplement provides an additional \$300 per week on top of state benefits and extends the length of eligibility beyond the normal 26 weeks. The enhancements aren't set to expire until September 2021.

The bill also ensures that individuals who file for Unemployment Insurance are actively searching for a job to be eligible to collect benefits. The governor waived that requirement last year through an emergency rule.

Twenty five other states have moved to end the additional federal payments and at least 36 have reinstated requirements that those receiving benefits have to look for work. Businesses can't wait until September for workers to come off the sidelines. They need help now.

According to an [SR Poll Results](#) report, 71 percent of voters favor ending the enhanced federal unemployment payments. This includes 67 percent of independents and 59 percent of Democrats. If the legislation is signed by Governor Evers, the Wisconsin unemployment

compensation program will return to pre-pandemic operations and provide an ongoing safety net for those who truly need it.

The infographic features a white outline of the state of Wisconsin at the top center. Below it is a red banner with the text 'Borrowing Less - Investing More'. The main content is a table comparing the Governor's proposed spending with the Republicans' proposed spending for three infrastructure programs. Each Republican proposal is marked with a green checkmark.

	<b>Governor</b>	<b>Republicans</b>
<i>State Highway Program</i>	\$67 million	<b>Over \$130 Million</b> ✓
<i>Local Road Improvement Program</i>	\$75 Million	<b>\$100 Million</b> ✓
<i>New Bonding</i>	Over \$500 Million!	<b>Less Than \$225 Million</b> ✓

Source: Executive Budget Proposal & LFB Publications

## **Infrastructure - Borrowing Less, Investing More**

This week, the Joint Finance Committee advanced measures that will invest more into vital infrastructure while borrowing significantly less money than what the governor proposed for

the state budget. In fact, we are looking to have the lowest amount of new bonding for transportation in over 20 years.

We are also making investments in two major pieces of critical emergency response and public safety infrastructure in need of updating and rebuilding. The Wisconsin Interoperable System for Communications (WISCOM) is a statewide trunked radio network which enables first responders from different jurisdictions to communicate with each other during daily operations, natural disasters, and large-scale events.

Also, Next Generation 911 allows for better communication with the individual calling 911 including accurate location detection, texting, video messaging, telematics capabilities, and enhanced communication for deaf and hard of hearing individuals.

## Looking Ahead to America's 250th Anniversary

I had the honor to author [Assembly Bill 388](#), which creates a commission for the upcoming celebration of the United States Semiquincentennial. Our founding fathers established the

United States with the signing of the Declaration of Independence in 1776. Our country will be celebrating its 250<sup>th</sup> anniversary in 2026.

To commemorate this significant milestone, Congress passed legislation in 2016 creating the U.S. Semiquincentennial. Since then, more than a quarter of states have introduced or passed legislation or an executive order establishing a 250<sup>th</sup> anniversary organization.

The establishment of this commission will provide the opportunity for citizens across Wisconsin to be part of a national celebration of our country's founding. We need to remember the historic events that have occurred and honor the brave men and women who have stood up for the core values of our country that have allowed us the liberty and freedoms we enjoy today.

The bill creates a commission with a member makeup that is similar to the 100<sup>th</sup> Anniversary State Capitol Commemorative Commission. The commission would be responsible for planning, preparing and implementing programs and events that highlight the founding of the United States and recognize Wisconsin's role and impact in the nation's past, present and future.

Each state has the unique opportunity to invite its citizens, communities and state and local governments to join in celebrating the founding of our great country and the contributions their state has made to move our country forward.

Good afternoon Ms. Redell,

Thank you for providing these records to American Oversight. Could your office provide any information about the search conducted for these records? In particular, can you/whoever performed the search:

1. Provide the names of the individual's accounts that were searched in response to this request.
2. State whether or not any individual's personal email accounts were searched, if they were used to conduct official business.
3. Confirm that each of the 35 requested key terms were utilized in this search.

Thanks very much.

Best,

Emma Lewis  
Counsel  
American Oversight

RE: Resource Information to Assist in Forthcoming Wisconsin Forensic Audit the 2020 Vote

Dear Representative Sanfelippo,

Your work done on the Elections Committee is very much appreciated. Due to a forthcoming forensic audit in Wisconsin, I provide resource information that may assist to identify issues and legal challenges.

Matthew Deperno at [depernow.com](http://depernow.com) in Antrim County, MI provided on his website a tab named All Expert (i.e. Cytech CyFir, CyberNinjas, etc) Reports (i.e. SQL database swaps, ballot anomalies, security deficiencies, to name just a few) <https://www.depernow.com/all-expert-reports.html>. These issues are in common with Wisconsin. Deperno also made very strong points about the need to 1) inspect absentee ballots, 2) view the signatures, 3) how the ballots were folded, and 4) the type of paper that was used for these ballots.

Please listen to this YouTube link

<https://www.youtube.com/watch?v=6C8ITt7VK5A>, LizHarrisStrikesBack, before it is taken down. Liz Harris, was in charge of door-to-door canvassers in Maricopa County to make affidavits of voters against the registration roll. On that link were BobbyPiton.com and Edward Solomon to explain the mathematics behind the algorithm to turn the votes in the 2020 election. Piton stated that Edward Solomon's work showed, "... nobody's vote mattered... Edward proved it... the vote in a lot of other places and worldwide that we were cheated... they made it that nobody's vote counted... they predetermined the winners..." Solomon explained that Biden's mail-in vote was a continuous function of election day percentage and aggregate percentage. They back solved the proportion of mail-ins to election day votes from it. Solomon proved through graphs and mathematics in this article <https://docs.google.com/document/d/1-9qbBtTqiGIAurJjEbtVt6lBUi9MKTqPR-xb3FpHx-A/edit> The following link is a Spreadsheet

example to enter in all precinct data and obtain a Plane Equation

[https://docs.google.com/spreadsheets/d/1R78hoPiP\\_sleD3L7QtvuE5R-3kf2Xob20bMXQeChke8/edit#gid=173566074](https://docs.google.com/spreadsheets/d/1R78hoPiP_sleD3L7QtvuE5R-3kf2Xob20bMXQeChke8/edit#gid=173566074). The graph show that votes are “flat.” Solomon

further showed what a fair election graph looks like. A standard deviation has a normal line shape. Maricopa County election showed the standard mean of deviation didn't exist. I suggest that someone create a spreadsheet like Solomon's on Wisconsin in preparation of legal challenges.

I strongly support the work done by the persons mentioned in this letter. IF the ex Justice Michael Gableman overseeing the three retired officers investigation does not touch upon the many issues in the All Expert Reports on DepernoLaw.com, then the contract between Majority Assembly Speaker Robin Voss and them does not go deep enough. Wisconsin election integrity could improve after a forensic audit with followup action.

Thank you in advance for your consideration of these important issues. Thank you for your continued leadership and service to Wisconsin.

Respectfully,

Marie Rajkovacz

Subject: Wastefully spending

---

Today I read about double dipping ex-police officers investigating elections at taxpayer expense. Isn't it bad enough that taxpayers shoulder the expense of lawsuits filed by state leadership, now more wasted taxpayer dollars. Don't they have better things to spend their efforts on, especially since the government spent so much time out of session during the pandemic. For the record, I am a 40 year resident of West Allis and feel that we need more funds returned to the communities instead of wasting it.

**Re: Public Records Law Request**

Dear Representative Sanfelippo:

Pursuant to Wisconsin's public records law, Wis. Stat. §§ 19.31–19.39, American Oversight makes the following request for copies of records.

On May 26, 2021, Wisconsin State Assembly Speaker Robin Vos indicated that the legislature would hire three former law enforcement officers and a supervising attorney to investigate the November 2020 election.<sup>1</sup> Speaker Vos indicated that these investigators would possess subpoena power and might potentially refer their findings to prosecutors.<sup>2</sup> This announcement follows an April announcement that the Assembly Campaigns and Elections Committee would undertake a “formal investigation” of the election<sup>3</sup> as well as a similar announcement immediately following the November 2020 election.<sup>4</sup>

American Oversight seeks records with the potential to shed light on the legislature's decision to investigate the results of the November 2020 election.

## Requested Records

American Oversight requests that your office produce the following records “as soon as practicable and without delay”:<sup>5</sup>

All email communications (including emails, complete email chains, calendar invitations, and attachments thereto) sent from January 10, 2021, through the date of the search by Representative Joe Sanfelippo anyone communicating on their behalf, such as a scheduler or assistant, or anyone serving as their chief of staff, regarding investigations, inquiries, audits, or other reviews of the November 2020 election’s administration and results, including, but not limited to, regarding the investigation announced by Speaker Vos on May 26, the resolution passed by the Assembly authorizing an investigation,<sup>6</sup> the audit conducted by the Legislative Audit Bureau,<sup>7</sup> the role of external funding to local elections administrators,<sup>8</sup> or investigations of election results in other jurisdictions.<sup>9</sup> In addition to the legislator’s official email accounts, the search should include those sent or received from the specified officials’ personal accounts if they were used to conduct official business.

For this request, American Oversight believes that records containing the terms below are likely to be responsive records, and requests that your office, at a minimum, employ the following search terms to identify responsive records:

### Suggested Search Terms:

- |                      |              |
|----------------------|--------------|
| 1. Audit             | 9. Dominion  |

|  | 35. “Zuck bucks”                   |

In an effort to accommodate your agency and reduce the number of potentially responsive records to be processed and produced, American Oversight has limited its request to emails sent by the specified officials. To be clear, however, American Oversight still requests that complete email chains be produced, displaying both sent and received messages. This means, for example, that both Rep. Sanfelippo’s response to an email containing one of the key terms listed above and the initial received message are responsive to this request and should be produced.

Please provide all responsive records from January 10, 2021, through the date the search is conducted.

### **Fee Waiver Request**

In accordance with Wis. Stat. § 19.35(3)(e), American Oversight respectfully requests that the records be produced without charge. Providing American Oversight with a waiver of fees is in the “public interest” because American Oversight will, in accordance with its organizational mission, make the records available to the public without charge. These disclosures will likely contribute to a better understanding of relevant government procedures by the general public.

American Oversight’s work is aimed solely at serving the public interest. As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight’s financial interest. Rather, American Oversight’s mission is to serve the public by promoting transparency in government, educating the public about government activities, and ensuring the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media.<sup>10</sup> American Oversight also makes materials it gathers available on its public

website<sup>11</sup> and promotes their availability on social media platforms, such as Facebook and Twitter.<sup>12</sup>

The public has a significant interest in the Wisconsin state legislature's investigation of the November 2020 election results.<sup>13</sup> Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of the government, including whether or to what extent partisan motivations or external actors guided the decision to open an investigation. American Oversight is committed to transparency and makes the responses agencies provide to public records requests publicly available, and the public's understanding of the government's activities would be enhanced through American Oversight's analysis and publication of these records.

American Oversight asks that if its request for a fee waiver is denied in whole or in part, that you contact us prior to incurring any costs.

### **Guidance Regarding the Search & Processing of Requested Records**

Please search all locations and systems likely to have responsive records regarding official business. **You may not exclude searches of files or emails in the personal custody of your officials, such as personal email accounts.** Emails conducting government business sent or received on the personal account of the authority's officer or employee constitutes a record for purposes of Wisconsin's public records laws.<sup>14</sup>

In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records.<sup>15</sup> If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release.

Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records

potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

### **Conclusion**

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to American Oversight, please do not hesitate to contact American Oversight to discuss this request. American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your agency can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in an electronic format by email. Alternatively, please provide responsive material in native format or in PDF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will accelerate release of responsive records to American Oversight, please also provide responsive material on a rolling basis.

We share a common mission to promote transparency in government. American Oversight looks forward to working with your agency on this request. If you do not understand any part of this request, please contact Emma Lewis at [records@americanoversight.org](mailto:records@americanoversight.org) or (202) 919-6303. Also, if American Oversight's request for a fee waiver is not granted in full, please contact us immediately upon making such a determination.

Sincerely,

*/s/ Emma Lewis*
