Subject: Biden-Harris policies are killing jobs
Date: Saturday, April 17, 2021 5:40:46 PM

Dear friends,

Every day it is becoming clearer that our great nation is at a crossroads. Over the past four years, we saw firsthand the results of innovative policies and the impact they had on the American people.

Unfortunately, the policies from the current Biden-Harris Administration are deconstructing these in record time, resulting in a negative impact on the American people. One example is the elimination of the Keystone pipeline, a Biden-Harris policy decision which is projected to result in the loss of approximately 11,000 jobs.

There are better solutions to keep America First in all areas of life: jobs, security, opportunity, and innovation. The America First Policy Institute is committed to developing data-driven research and then educating the public on the results.

Our Chair, Linda McMahon, and our President & CEO, Brooke Rollins, are working nonstop for you. Check out this story on [Foxnews.com: America First Policy Institute president calls out repeal of 1776 Commission and proposed corporate tax hike.](#)

America First Policy Institute

Dear Federal, State, Local, & Tribal Leaders,

Yesterday, we launched the America First Policy Institute to bring together the best minds, the hardest workers, the most dedicated champions, and the most energetic voices of the White House in which we served. To learn more about the America First Policy Institute, visit www.AmericaFirstPolicy.com to support our efforts.

When I joined the White House as Director of Intergovernmental Affairs, I was excited to serve all of the country's State, Local, and Tribal leaders advancing federalism for the American people. The Institute will conduct and develop the most thorough research in everything from healthcare policy, to national security, to job creation, to criminal justice, and beyond on behalf of the American people.

As we do, we will bring our expertise and innovation to bear — and uniquely in the policy sphere, we will do it from the same people-oriented perspective we brought to the Administration.

To give you a sneak preview of what's to come, we are inviting you to join a discussion today, Wednesday, April 14, 2021, from 11:30-12:00 PM Eastern, to hear from:

- **Brooke Rollins, former White House Domestic Policy Council Director** and current President & CEO of the America First Policy Institute
- **Linda McMahon, former Administrator of the Small Business Administration** and current Chairman of the America First Policy Institute
- **Larry Kudlow, former Director of the United States Economic Council** and current Vice Chairman of the America First Policy Institute

To register to join the call [please click here to reserve your spot](#) -- we have limited availability but want to ensure you hear first about our priorities.

The Lynde and Harry Bradley Foundation cordially invites you to attend our annual Bradley Prizes event on Monday, September 13 at the National Building Museum in Washington, DC. The event will begin at 7:00 p.m., but if you are able we would love for you to join us for our private reception at 5:30 p.m.

This year we will be honoring three outstanding conservatives for their accomplishments and ongoing work – Roger Ream, Amity Shlaes and Mollie Ziegler Hemingway. We expect nearly 500 leaders from across the movement – from philanthropists, to think tank executives, elected officials, right-of-center communicators and academics - to gather to celebrate the Prize Winners and enjoy the fellowship of like-minded guests.

We look forward to hearing from you and thank you for your service and leadership. You can register for the 2021 Bradley Prizes [here](#) utilizing the registration code **Prizes21VIP**.

Subject: Launch of the America First Policy Institute's Center for a Healthy America
Date: Wednesday, July 28, 2021 5:04:13 PM

Hi Adrian, Katherine, and Casey,

Please see the below invitation to Governor DeSantis from Former Governor Bobby Jindal and the team at the America First Policy Institute. If you have any questions or would like to discuss further, I am available at your convenience at (662) 791-9160. Thank you for your consideration.

Dear Governor DeSantis,

On Thursday, August 5th, the America First Policy Institute's Center for a Healthy America is hosting a recorded panel session about the Center's policy and engagement priorities. As a widely respected leader on healthcare and COVID-19, our President and CEO, Brooke Rollins, and our Center chair, Former Governor Bobby Jindal, would like to invite you to join the panel virtually. The discussion would occur between 8:30 - 9:00a EST on 8/5 (the time commitment is only 15 minutes but the specific time window is still to be confirmed and we would be open to working with you on best time). The format would include pre-planned questions with yourself, another Governor, Brooke, and Governor Jindal. If you agree to participate, the Center director, Dr. Heidi Overton (cc'd), will work with your staff on logistics, questions, and run-of-show. The panel will then be released on AFPI's website and social media as a "livestream" during the Center's launch, which is currently planned for the week after Labor Day. We are happy to answer any questions and look forward to hearing from you.

Please note that the formal announcement of Governor Jindal's role is not expected until the Center launches in early September so your confidence on this point is appreciated.

A short introduction to the Center for a Healthy America is included below.

Best Regards,
Miles

Center for a Healthy America

The United States healthcare system has the world's best medical innovation, specialty care, and scientific discovery, yet our fractured healthcare system does not serve Americans to its fullest potential. With rising consumer costs and diminished consumer control over the past half century, healthcare affordability and access have become top concerns of Americans. The America First Policy Institute (AFPI) is identifying innovative policies to put healthcare back into the hands of the American people — stripping power away from the nexus of big insurance and big government that invade the doctor-patient relationship and bankrupt households. AFPI will research and develop policies that put the patient and doctor in control, dignify life, promote better health and health outcomes, improve access to high-quality care, and lower healthcare costs. As a result of these efforts, Americans will become

healthier and able to fully embrace life, liberty, and the pursuit of happiness.

America First Policy Institute

Dear friends,

When I joined the White House to serve as the Director of the Domestic Policy Council, I was excited to serve the American people — and make a little history while doing it.

The policies we developed were in line with the ideas I had spent two decades pursuing in the public square: restoring hope to American communities, reviving American entrepreneurship and industry, and returning a governing voice to the American people.

What we saw in 2017-2020 was not just a singular moment. Sound solutions and innovation — low taxes, education freedom, energy independence, strong national defense, the prioritization of the American worker, and beyond — work.

Men and women of every race, every faith, every ethnicity, every origin, every station — who were the backbone, hope, and sustenance of our republic since its creation benefitted from these policies.

Our work has just begun. Today we launch the America First Policy Institute.

The Institute will conduct and develop the most thorough research in everything from healthcare policy, to national security, to job creation, to criminal justice, and beyond on behalf of the American people.

We are bringing together the best minds, the hardest workers, the most dedicated champions, and the most energetic voices of the White House in which we served.

The policies we developed were in line with the ideas I had spent two decades pursuing in the public square: restoring hope to American communities, reviving American entrepreneurship and industry, and returning a governing voice to the American people.

What we saw in 2017-2020 was not just a singular moment. Sound solutions and innovation — low taxes, education freedom, energy independence, strong national defense, the prioritization of the American worker, and beyond — work.

Men and women of every race, every faith, every ethnicity, every origin, every station — who were the backbone, hope, and sustenance of our republic since its creation benefitted from these policies.

Our work has just begun. Today we launch the America First Policy Institute.

The Institute will conduct and develop the most thorough research in everything from healthcare policy, to national security, to job creation, to criminal justice, and beyond on behalf of the American people.

We are bringing together the best minds, the hardest workers, the most dedicated champions, and the most energetic voices of the White House in which we served.

Won't you join us? There is no greater cause — and no one I would rather have alongside us.

For your freedom and ours—

America First Policy Institute

Dear Federal, State, Local, & Tribal Leaders,

Yesterday, we launched the America First Policy Institute to bring together the best minds, the hardest workers, the most dedicated champions, and the most energetic voices of the White House in which we served. To learn more about the America First Policy Institute, visit www.AmericaFirstPolicy.com to support our efforts.

When I joined the White House as Director of Intergovernmental Affairs, I was excited to serve all of the country's State, Local, and Tribal leaders advancing federalism for the American people. The Institute will conduct and develop the most thorough research in everything from healthcare policy, to national security, to job creation, to criminal justice, and beyond on behalf of the American people.

As we do, we will bring our expertise and innovation to bear — and uniquely in the policy sphere, we will do it from the same people-oriented perspective we brought to the Administration.

To give you a sneak preview of what's to come, we are inviting you to join a discussion today, Wednesday, April 14, 2021, from 11:30-12:00 PM Eastern, to hear from:

- **Brooke Rollins, former White House Domestic Policy Council Director** and current President & CEO of the America First Policy Institute
- **Linda McMahon, former Administrator of the Small Business Administration** and current Chairman of the America First Policy Institute
- **Larry Kudlow, former Director of the United States Economic Council** and current Vice Chairman of the America First Policy Institute

To register to join the call [please click here to reserve your spot](#) — we have limited availability but want to ensure you hear first about our priorities.

Respectfully,

Douglas L. Hoelscher

Chief Operating Officer

Morgan,

Attached is the formal invitation requesting Governor DeSantis to deliver the dinner keynote at the Bradley Foundation's Donors Summit on Tuesday, February 23, 2021 in Charleston, South Carolina. Full details are provided.

I discussed this opportunity with Adrian Lukis, copied, last Friday morning when I met with him.

I am copying both Rick Graber, President and CEO of the Bradley Foundation, as well as Terri Famer, their Vice President for Events. Terri is coordinating this event and can be reached on her cell at 414.975.4116.

Thank you for your consideration.

Best,

Tarren
