Dear fellow state legislators,

When the Arizona Audit report comes out any day now, we must be ready to respond immediately.

Attached is the letter I intend to sign. **Please message me back only if you, as an elected official, would like to sign the letter below.** We need to have this WITH STATE LEGISLATORS' SIGNATURES at-the-ready once the Arizona report is made public. We must command the narrative before the Left does. **Simply tell me if you are a YES.**

We have put a lot of thought and effort into crafting this letter into just how it is. Attorney Christina Bobb of OAN assisted us in this effort.

Please do not message me back if you are a NO or if you are undecided. We can discuss this on the call tomorrow, but the letter goes out as is. Thank you.

In service,
Wendy

Legislators are publicly elected officials. Legislator emails sent or received involving legislative business may be subject to the Right to Know provisions of the Montana Constitution and may be considered a "public record" pursuant to Montana law. As such, email, sent or received, its sender and receiver, and the email contents, may be subject to public disclosure, except as otherwise provided by Montana law.

To the citizens of the United States of America,

We the undersigned state legislators of the United States are vested with the plenary power by our US Constitution (Article 2 Section 1 Clause 2) to oversee the election of the president of the United States.

It has come to our attention from an audit of 2.1 million ballots in Arizona complemented by an in-depth canvass of votes in Arizona, as well as through multiple different data reviews of voting by independent experts; that our representative republic suffered a corrupted 2020 election.

In addition to Arizona, sworn affidavits have accumulated from our own states detailing rampant corruption and mismanagement in the election process. Multiple audits either underway or about to start, canvasses underway or about to start, and lawsuits challenging the validity of several counties in our states, have already shown fraud and inaccuracies.

We have come to the conclusion that all 50 states need to be forensically audited. Voter rolls should be scrubbed with a canvass of the voters to ensure future integrity of our elections.

If results from these measures prove an inaccurate election was held, as has been shown in Arizona, and is being shown in many other states; then it is clear that certification of our electors was improperly rendered in January 2021 of the November 2020 United States presidential election.

We call on each state to decertify its electors where it has been shown the elections were certified prematurely and inaccurately.

Once it is shown that either Joe Biden would receive fewer than 270 tallied electoral votes, or Donald Trump would receive more than 270 electoral votes, then we call for the US House of Representatives to convene and vote per the US Constitution by means of one vote per state to decide the rightful winner of the election in accordance with the constitutional process of choosing electors.

This is our historic obligation to restore the election integrity of the vote as the bedrock of our democratic republic.

If we do not have accurate and fair elections, we do not have a country.

Signed,

Senator Wendy Rogers, Arizona

We will put together a draft statement now and then fill in the blanks once the Arizona Audit results come out.

We have several states below not represented. Goal is to get all 50 states. **Need your help to fill in those gaps.**

Please get hold of counterpart state legislators in the states we're lacking.

Reply All by filling in legislators' names for states we lack and also include those new additions to the group email above. Thanks.

Remember, it is up to us STATE LEGISLATORS to get our country back by auditing the TRUTH of 2020.

Friend,

[Quick, name ONE thing Biden has actually made better.](#)

Go on, I'll wait. But I suspect you can't name even one. I sure can't.

Now Biden's administration is making noises about coming in to mess with Arizona's audit of the Maricopa ballots, to try to stop the audit- as all of the involved Democrats have also tried.

They expect you to trust a Soros-funded Democrat Secretary of State. And a Democrat-controlled Board of Supervisors. And a Democrat President who directly benefitted from the unlikely Arizona result.

We in the Arizona Senate don't buy it. We will keep working to bring clarity and transparency to this dubious election!

[I am Senator Wendy Rogers, the pro-Trump firebrand Arizona State Senator who is fighting for Election Integrity in Arizona! Can you help me stand up to the Leftist Dems trying to keep us in the dark about the 2020 election?](#)

[ef6465da-a512-d717-5b70-91eb06b9c89e.jpeg](#)

The incompetent, far-Left Secretary of State, Katie Hobbs, obviously objects to the audit- we are basically saying she messed up, intentionally or unintentionally.

But notice how all the Dems are so dead set against the Arizona Senate having a second look at this count:

The Justice Department weighed in for the first time as Arizona's top elections official, Democratic Secretary of State Katie Hobbs, separately outlined a series of problems observed by election experts representing her office who have monitored the recount, including ballots that were left

unattended.

Hobbs later told reporters that she was among a bipartisan group of secretaries of state who met with Justice Department officials on Thursday to voice concerns about what is happening in Arizona.

“This is potentially precedent-setting,” she said. “We think they’re writing the playbook here to take this across the country.”

In an interview with The Washington Post, Hobbs said that she is not sure what actions the Justice Department will take. “I think that they’re at a place where they don’t think they legally can send in observers,” she said. “But they’re certainly paying attention to what’s going on.”

They will stop at nothing, clearly.

For my sake, I'll tell you what I told them:

“Do not touch Arizona ballots or machines unless you want to spend time in an Arizona prison!”

The Senate official comments just as strong:

“Arizona has the authority to conduct this audit without interference from the Feds!” On Thursday morning, it announced simply: “The audit continues!”

Multiple courts already determined we have the legal authority to subpoena the ballots for this audit. The Dems are just terrified that we will find the truth: That Arizona went for President Trump.

[d25e5912-aac9-2deb-6818-a0a7598dd672.jpeg](#)

Over 100 Leftist lawyers are here. They have tried to stop us, but America's Audit goes on. And we will fight any attempt by Biden to stop us from getting to the truth!

We have followed the law. Katie Hobbs did not. We need this information to determine better what needs to be fixed in our elections- including limiting what this Socialist Nutzo can do!

I share YOUR concerns about election integrity. We are fighting for all of us!

[Help us set the record straight. This is all about truth!](#)

Stand with me for election integrity!

[My election in 2020 made this possible. Help us to see this to its conclusion.](#)

Send Biden a message - HANDS OFF ARIZONA!

Thank you and God bless you.

Dear Theresa,

I am writing you today with grave news. Right as the meat of the 2022 election campaign for Secretary of State candidates is heating up nation wide, the media is going on a full-blown assault against Election Integrity Patriots. [And I need your help to fight back!](#)

And of these races, no state is more important than what happens in the Arizona Secretary of State race, the epicenter of 2020 election fraud. [This is why I, Mark Finchem, am doing everything I can to win this seat for Election Integrity Conservatives in 2022.](#)

I have been leading the vanguard not only in America's audit in Maricopa, which highlighted and revealed unprecedented election fraud which lead to President Trump's illegal loss in his campaign for re-election, but I have also been developing foolproof safeguard measures such as watermarking ballots to secure our elections for good.

And the mainstream media has been attacking me for a year because of this.

And now they are doubling down.

The *Washington Post* just released this hit piece on me and many campaigns such as mine for election integrity.

About me, the *Washington Post* writes:

Bolick's primary challenger, Mark Finchem, is a leading driver of a conspiracy theory that the election was stolen in Arizona's second-largest county, Pima County. He is a state House lawmaker and introduced a bill to let Republican lawmakers get hold of voter data there. "I expect to see criminal prosecution out of it," he said, without citing any evidence.

Conspiracy theory? There is ample proof that there was fraud. The only conspiracy is to pretend there wasn't.

And of course I expect to see criminal prosecution of it! I demand PERP

MT-SEN-21-1718-A-000009

WALKS!

But this is revealing...

Logically, given that I have been one of the loudest and most active in the nation in terms of constantly providing new evidence, they say I have provided none.

This means there are only two options.

1. They have neither read nor watched literally anything that I have put out.
2. They KNOW I have provided the evidence but they are trying to brainwash into believing that it doesn't exist.

Now, logic would tell me that they know what I've said, given the main stream media's countless hit pieces against me this year.

Which means this is a targeted propaganda campaign by the left.

Fortunately for us, they make their aim very clear.

The ultimate win for them would be to put in place secretaries of state, who oversee how elections are conducted in most states and sign off on the results. More than any other category of elected official, secretaries of state could be instrumental in overturning the popular vote in their state — an unprecedented move in American history — or take other actions that throw results into question.

Ahead of the 2022 elections, there are a number of viable Republican candidates in states that could decide the next presidential election who question whether Trump actually lost in 2020. And they are proposing big changes to how elections are run.

This is what they don't want to have happen.

This is their agenda:

- Don't let Election Integrity Conservatives oversee how elections are conducted, or sign off on them.
- They don't want us to overthrow fraudulent elections that have been falsely and illegally declared.
- They don't want Conservatives to decide the next Presidential Elections.
- They don't want Conservatives to look into 2020 fraud.
- And definitely don't want changes to the system that allowed fraud in the first place!

They make all of this abundantly clear in the above two paragraphs.

So right now, the question is clear. Will we let the Washington Post and Liberal-Propaganda Fake News Media dictate this election? [Or will we make sure that can never happen?](#)

That is exactly what I am trying to accomplish here in Arizona. [But we need the bankroll to be able to push back against attacks like this and go on the offensive.](#)

And this takes money. [This is why we have a crucial end of quarter deadline coming up. We need to raise \\$50,000 to put us in a good position for 2022.](#)
[Can you help with a generous donation today?](#)

[Donate as much as you can! \\$25, \\$50, \\$100, \\$250 or more could make the difference!](#)

Friend,

After the last month, my thought is: find someone who loves you as much as Joe Biden loves illegal aliens.

[I am Senator Wendy Rogers, the pro-Trump firebrand Arizona State Senator who is implementing America First in Arizona! I am getting bills passed fighting back against Biden's border crisis. I have a huge deadline in just 2 days - can you help me meet my goal before March 31st?](#)

[f6afc71b-9d98-43d4-aec0-dbdb78690082.jpg](#)

Joe Biden's crisis at the border has revealed where his priorities really are.

This is a guy who had the National Guard come and "defend the Capitol"... and then told the Guardsmen to sleep in a cold parking garage in the middle of January. Remember?

[c82431e0-c6bc-4938-be88-d2c75a037ac6.jpg](#)

But then he goes and pays over \$90 million to house the illegals that HE invited, that HE let in to the country, in hotels!!!

I can't even fathom the value system of making honorable serving National Guardsmen sleep in parking garages while you put illegal aliens, breaking our laws and creating havoc in our society, in posh hotels.

But that's not all!

Biden promised us all \$2,000 checks, which didn't happen. But he IS paying illegal aliens and felons \$1,400 each:

The Center for Immigration Studies on Monday estimated that at least 2.1 million illegals could be eligible for \$4.38 billion wired directly into their

checking accounts, just like the hundreds of millions of legal Americans who started receiving checks last week.

What's more, said the Center's Research Director Steven A. Camarota, the number could be double his estimate based on Social Security Administration data.

Think about this for a moment: over \$4 billion we don't have going to illegals, while we aren't getting what was promised to us. Outrageous!

Biden is actively trying to shut down the country again- instituting a federal mask mandate and keeping schools closed the rest of this school year. The science behind this is questionable at best.

While he was doing this, he's letting in tens of thousands of illegal aliens with COVID, and then releasing them onto a helpless American population.

Homeland Security Secretary Alejandro Mayorkas has admitted that some illegal migrants have been released into the United States without being tested for COVID-19 at the border - but he can't say exactly how many.

Mayorkas was grilled by lawmakers during a congressional hearing on Wednesday about the surge of migrants illegally crossing the border, how many of them have been tested for COVID-19 and whether they are spreading the virus in the US.

He could not confirm exactly how many migrants have been released into Texas without being tested for the virus.

Mayorkas also couldn't immediately say how many of the illegal migrants who have been tested have actually come back positive.

[DailyMail.com](#) has asked Homeland Security for the exact figures.

It came as lawmakers raised concerns that Americans returning to the US via plane from other countries have to show a negative COVID test - under a new Biden policy - but those crossing the border illegally don't have to.

So citizens must prove they are COVID negative- but Biden is letting thousands of sick illegals in???

In what world does any of this make sense? Arizona is a border state- and we will bear the brunt of the malfeasance of Biden's disaster at the border!

It is up to us in Arizona to fix this!

[e8413dfb-48cd-43b8-8644-5113367ecf0f.png](#)

Guard to the border to plug the gaps, and put the cartels and smugglers in jail for good!

Arizona faces a crisis. Our Southern Border has been given BY BIDEN to the cartels and gangs. Human traffickers smuggle underage children here for a life in prostitution or worse. No sane or compassionate person could see this disaster and let it happen without taking action.

If the incompetent Biden Administration won't take action, Arizona must!

The Left-wing press will be on my back nonstop. They will call everyone racist, because that's what they do. I need your help so I can get the truth out!

[I have a big quarterly deadline on March 31, with a goal of \\$25,000. Will you stand with me for our border?](#)

I want to keep my promises and fight for you!

[Help me send a message to Biden - America will do what he is not, and Arizona is the front line!](#)

[DailyMail.com](#) has asked Homeland Security for the exact figures.

It came as lawmakers raised concerns that Americans returning to the US via plane from other countries have to show a negative COVID test - under a new Biden policy - but those crossing the border illegally don't have to.

So citizens must prove they are COVID negative- but Biden is letting thousands of sick illegals in???

In what world does any of this make sense? Arizona is a border state- and we will bear the brunt of the malfeasance of Biden's disaster at the border!

It is up to us in Arizona to fix this!

Guard to the border to plug the gaps, and put the cartels and smugglers in jail for good!

Arizona faces a crisis. Our Southern Border has been given BY BIDEN to the cartels and gangs. Human traffickers smuggle underage children here for a life in prostitution or worse. No sane or compassionate person could see this disaster and let it happen without taking action.

If the incompetent Biden Administration won't take action, Arizona must!

The Left-wing press will be on my back nonstop. They will call everyone racist, because that's what they do. I need your help so I can get the truth out!

[I have a big quarterly deadline on March 31, with a goal of \\$25,000. Will you stand with me for our border?](#)

Dear Theresa,

My name is Mark Finchem. I am the proud Arizona Representative leading the way in election integrity: from pioneering the Maricopa audit to developing world-class watermarks and security systems to verify and solidify ballot-integrity, I fight every day to make sure our elections are protected.

This is why I am running for Secretary of State of Arizona. We desperately need our elections cleaned up. I am a six-sigma process engineer – I know how to get this job done.

[You can support my campaign here.](#) Right now, we are fighting back against the media that is silencing our movement. Every dollar helps tremendously.

President Trump just put out a challenge...

"It's really interesting, everybody wants me on television, I get the highest ratings by far, they need ratings to survive, and yet I put out a challenge to debate me about the massive election fraud, which took place in the 2020 Presidential Election, and there are no takers – think of it, zero takers for the so-called 'ratings machine.'

The reason is, they know they can't win. All I have to do is lay out the facts- they are irrefutable. I've supposedly won all my political debates, but this would be the easiest of them all! Swing state by swing state, they get decimated. This is the Hoax and the Scam and the Crime of the Century. Just remember, no takers!"

A very reasonable challenge, and something which needs to be done. But no one will even engage. This is how scared the media is of letting the true narrative of the election integrity movement get out! They won't let it happen!

RINO Turncoat Liz Cheney is threatening our President so that if he brings up election integrity, she will try and trap him and punish him for AM-SEN-21-1718-A-000020

speaking the truth.

The Gateway Pundit Reports:

Vicious Liz Cheney is now openly threatening President Trump.

The turncoat Republican and serial liar warned President Trump that any “lying” about the election results could result in criminal penalties.

Cheney hopes that if she gaslights the American public long enough they will excuse the fraud in the 2020 election.

Weakling GOP House Leader Kevin McCarthy allows this from Republican Caucus members.

They both need to go.

Yes, in America this is what political debates have come to. One side trying to speak the truth, and the other threatening to throw you in jail if you disagree with them.

This isn't America. This isn't Freedom. This is Maoist. **Silence those who disagree with you so no one learns the truth.**

[And this is why I need your help.](#) Every day we are fighting to loudly proclaim the truth of election integrity and put pressure on AG Mark Brnovich to demand perp walks! [Please donate today with anything you can! Make a rush donation of \\$50 tonight to help us keep up the pressure!](#)

MEDIA ADVISORY

PHOENIX, December 8, 2021... FOR IMMEDIATE RELEASE

House Majority Whip Representative Leo Biasiucci (LD-5), Senate Majority Whip Senator Sonny Borrelli (LD-5) and Representative Mark Finchem (LD-11), announce a Public Hearing on Election Integrity.

DATE: December 13, 2021

TIME: 0900-1700 MST

LOCATION: Hilton El Conquistador Hotel and Convention Center, 10000 N. Oracle Road, Oro Valley, AZ.

ACCESS: By ticket only, the event will be live-streamed for all to watch.

“On November 7, 2020, an anonymous report of election system fraud was made to the United States Department of Justice and ALL members of the Arizona House and Senate. The allegation that 35,000 fictitious votes had been entered into the Pima County election was related by an individual who claimed to be in the room when the plan was revealed to lower-level Pima County Democratic Party leaders.

“Over the last 12 months a few Members of the Legislature and resources from various election integrity organizations have conducted a quiet, but fruitful investigation into the substance and reliability of the allegation.

“Our elections are a system, and systems require active maintenance. Without attention to detail, the bureaucratic machine inevitably runs amok. We are elected to identify defects and fix them.” Rep. Biasiucci

“We found significant discrepancies in the Maricopa County Election through the audit, which gives us all pause to consider what has happened in other counties? To think that we would not find similar problems in other counties is not a credible position for any elected official to take.” Sen. Sonny Borrelli

“With consent of the Governed goes the right of the Governed to to examine, and if warranted, conduct an audit of the elections that they participate in.

Elections belong to the People, not the government.” Rep. Finchem

On November 30, 2020, we held a Public Hearing on Election Integrity that gave the public an opportunity to present evidence and sworn testimony to the joint panel of Members of the State Legislature regarding the 2020 General Election. The mission of the Public Hearing on Election Integrity was to, "receive evidence and testimony that could serve to prove or disprove alleged discrepancies in the 2020 General Election." Arizona citizens and expert witnesses submitted sworn affidavits, under penalty of perjury, to the panel detailing inconsistencies they encountered during the election process.

Pima County voters who have first-person knowledge of a violation of Arizona elections law, a violation of the Arizona Elections Procedure Manual, and who may have physical evidence are asked to contact Sen. Kelly Townsend (LD-16) at 602-926-4467.

Dear Theresa,

On this upcoming Christmas Day, we celebrate the coming of our Savior from sin and death, predicted over hundred of years by hundreds of prophets so there would be no mistake that God sent his chosen Son, Jesus of Nazareth.

I pray for peace on earth, goodwill towards all men and women, no matter their creed, color, ethnic background or faith. We are all children of God, the creator of the universe and all that is in it. Hallelujah, our savior is born!

Merry Christmas,

Dear Theresa,

Today is the day.

My name is Mark Finchem and right now I am hosting a Pima County Election Hearing, just like the one that got the Maricopa Audit started!

Yes, the Pima Audit is materializing, and we know what we find – more fraud. We know the evidence is there, we just need the resources to fully examine it!

We will have a host of subject matter experts ready to testify and ready to get down to business. And we aren't pulling any punches.

From statistical and real number analysis from returned ballots, combined with robust canvassing and door knocking, we are bringing an arsenal of high-power resources to a problem that demands all of our attention.

But we know what happened last time. We revealed and uncovered ballot tampering and criminal activities that should result in JAIL TIME. And the media is covering it up and AG Mark Brnovich isn't doing his job.

This means we need to make a sound which no one can silence, and this means putting our own resources into pushing forward election integrity. And this is expensive.

Remember, we have the media and the establishment pushing against this cause. This means it is our own dollars being put to work. And every dime is worth it because we cannot put a price tag on election integrity.

We must not. If we do, then the Democrats will always win. If not by votes, then by strongarming Republicans into admitting defeat because we are too scared to pursue the truth!

And we have an outstanding lineup, folks.

- Senator Sonny Borrelli
- Representative Leo Biasiucci
- Senator Wendy Rogers

- Senator Kelly Townsend
- Representative Mark Finchem
- Representative Theresa Martinez
- Representative Neal Carter
- Representative Judy Burges

Folks, there's a reason that President Trump endorsed me for Secretary of State in Arizona. Because I'm a fighter, and I get things done.

Don't forget that I paid for the original Election Integrity hearings out of pocket. I will do whatever it takes to get this done.

But none of this happens without your urgent and continued support. We have a critical fundraising deadline for raising \$50,000 by the end of the month. This is what it takes to get the word out on Election Integrity and also make sure that we have the warchest necessary for victory in 2022.

Now is the time. We MUST hit this by the end of the year or we won't be able to accomplish what we need to accomplish to ensure our elections are secure. And your donation is the difference.

Can you help out with a generous donation today to make sure that our elections are secure?

Donate \$50, \$100, \$250, or \$1,000 or more to protect American Democracy!

Thank you and God bless you!

Dear Theresa,

I am Mark Finchem. I am the proud America first election integrity patriot pushing for and developing nationwide watermarking and authentication measures for balloting.

And this month is absolutely critical for the movement.[We are coming up on and end of month fundraising goal of fifty thousand dollars, which we absolutely need to hit if we are to be able to fight against the Anti-American Democrats in 2022.](#)

I am proud to announce that we are hosting a hearing on Election Integrity on December 13th. It is absolutely important to put pressure on the necessary officials to audit Pima County.

We need to once again ring first-hand witnesses to who can speak to what they saw in 2020. This is a critical next step in investigations of fraud in Arizona.

But do not forget - we are a statewide epicenter of a national problem.

Just this week, we received shocking news out of Wisconsin.

It was just reported that there are over 119,000 on the voter rolls in Wisconsin that have been on the voter rolls for over a CENTURY.

And these are just those registered as “active” voters.

If you add in inactive voters?

That number balloons to over half a million. **These are the types of numbers that you would expect when Dictators when fraudulent elections in the Middle East.**

We cannot let this happen in America again. We are better than that.

A few more findings:

Wisconsin had only four and a half million citizens who reached the age of majority. How many on the voter rolls?

SEVEN MILLION.

64,000 voters were switched to inactive AFTER the election was over even though they were recorded as voting.

The point here is grim but simple folks: there was clear and abundant fraud in the 2020 election, and the election hearing in less than a week will go a long way to establishing the crucial next steps.

[And this is why I urgently need your support.](#)

The media is doing everything it can to contain and suppress the election integrity narrative. This means it is up to our campaign to make sure that we dig and investigate and get the word out.

[And unfortunately, this takes lots of money. This is why we have a fundraising goal of 50,000 by the end of the month. Can you help with a rush donation of 25, 50, or 100 tonight?](#)
