EXTERNAL SENDER

Ms. Colombo,

This email is in response to your public records request sent to the office of State Senator Matt Huffman on December 3, 2021. Specifically, you requested, in relevant part, the following documents:

“All calendars or calendar entries for Senate President Matt Huffman (including any calendars maintained on their behalf) from January 1, 2021, through the date the search is conducted.”

Initially, please note that the records searched were from January 1, 2021 through December 2, 2021 (i.e. the day prior to the date of your request). See *State ex rel. Hogan Lovells U.S., L.L.P. v. Dept. of Rehab. & Correction*, 2018-Ohio-5133 (holding that only records that were created or received prior to the date of the request were subject to disclosure); see also *State ex rel. Taxpayers Coalition v. Lakewood*, 86 Ohio St.3d 385 (holding that there is no duty to provide access to records that did not exist at the time of the record request).

I have gathered and reviewed those records. The records responsive to your request are attached. If, for some reason, you do not receive or are unable to access the attached PDF, please let me know. If I don't hear from you otherwise, I will assume that you successfully received this email and its attachment.

Please note that certain items were redacted pursuant to R.C. § 149.011(G) because they do not “document the organization, functions, policies, decisions, procedures, operations, or other activities” of Senator Huffman’s senate office; thus, they are not records under R.C. 149.011(G) and 149.43. See *State ex rel. Dispatch Printing Co. v. Johnson*, 106 Ohio St.3d 160.

I hope this information is helpful.

Regards,

Frank

SD 12/ Scheduling Meeting

QUESTIONS:

1. What is the role of nonprofits and civil society in helping provide agile solutions to schools?
2. As the pace of economic transformation accelerates, how can we make sure schools are able to respond quickly with tailored approaches to workforce readiness that are aligned to the demands and opportunities in their local and regional communities?
3. There's a growing realization that a 4-year college degree is not necessarily the only pathway to a successful future-ready career. And at the same time, too many Ohioans graduate high school without any kind of plan for continuing their education. How can we ensure students are guided toward high potential career pathways, including but not limited to college degrees?

Confirmed speakers include:

- Jon Husted, Ohio Lieutenant Governor and Director of the Office of Workforce Transformation
- Paolo DeMaria, Ohio's Superintendent of Public Instruction
- Nan Whaley, Mayor of Dayton, Ohio
- Michael Kanaan, Head of AI and ML at the US Air Force. We'll share updates as other invitees confirm.
- Falon Donohue, Partner at Narya Capital and former CEO of VentureOhio
- Stephen White, SVP at COSI
- Dr. Debbie Jackson, Interim Department Chair of Teacher Education at Cleveland State University

Discussion will center around the following:
What does "reopen" mean? Full time, five days, four days, Hybrid? Is your state leaving the decision to the local school district?
What actions are being taken to safely reopen schools?
If not reopening, why not?
What is the role of the Legislature in developing the plans for reopening schools?
What has worked and why?
What has failed?
How are states addressing Learning and Student Engagement Loss?

TOPICS FOR DISCUSSION:
Budget Items -OAIS has an interest in the following issues (among others):
Athletic Eligibility for International Students and other OHSAA Reforms: OAIS fought for this amendment in 2019 with help from Sen. Antani; the House eliminated it in its sub bill.
Personnel Files: The Executive and House budgets would require private schools to send their currently confidential personnel files to any school requesting them for an applicant, thereby exposing many private schools to liability to defamation claims.
Payment in Lieu of Transportation: OAIS supports changes to have payments based on % of quoted cost to transport student instead of a flat \$250 payment.
CollegeCredit Plus: The House added an OAIS-supported opt-out from CCP to the budget
ClevelandScholarship: OAIS would support increasing the line item and voucher amounts.

<u>Run of Show:</u>

Beth Wanless will welcome guests and introduce President Huffman

President Huffman - opening remarks (7 minutes)

Beth will ask the following questions depending on how much time (7 minutes):

It's a very busy time of year as the operating budget process is underway. Could you tell us a bit about what your caucus' major budget priorities are for this year?

The House included their school funding reform legislation in HB 110, the operating budget. Do you plan to retain this legislation as-is?

As you know, REALTORS are small business owners. They're entrepreneurs in every sense of the word and many of our members take advantage of the small business income deduction to help grow and reinvest in their businesses. In 2019 your caucus fought to retain the BID, thank you for your efforts to prevent that tax increase on our members that was

proposed in the budget. We have not seen any increases relating to the BID during this budget process and instead see a 2% decrease in personal income tax rates across the board in the House's budget. Will your caucus keep this tax cut, will you cut more?

How will your caucus fight for small business owners and Ohio taxpayers this general assembly?

A major budget priority we have is to ask the legislature to support the funding request made by the Dept. of Commerce and the Division of Real Estate and Professional Licensing. They are requesting funds to help modernize their licensing systems to allow our 36,000 members and other licensees to conduct business online. Currently, many licensing business functions must be done by mail, or in-person. The funding will allow for online transfers of a real estate license from one company to another, renewal of credentials, filing new applications for credentials and obtaining certificates of licensure. One of our members put it best, why can we track a pizza order from the oven to our driveway on our phone, but we can't transfer our license online? The speed of business in Ohio depends on this funding and we ask you and your caucus to fully approve their funding request.

As you know a major priority for Ohio REALTORS this year is to find ways to help Ohioans who have never owned a home save for hat purchase. First-time homebuyers are the lowest share of buyers since 1987, and they're waiting much later in life to buy - if at all. One program that many states have enacted or are exploring is the creation of a First-Time Homebuyer Savings Account program (SB 24 Peterson/Gavarone). We're currently working with stakeholders to "fine tune" the language. We respectfully ask for your support of the legislation as this is something that helps all Ohioans who have not owned a home.

The budget must be wrapped up by the end of July, so there is an end in sight. Once the budget is done and sent to Governor DeWine, how will you and your caucus focus your efforts? What are your major priorities for 2022?

And what can Ohio REALTORS help with?

Audience Q&A (5 minutes)

American Rescue Plan Funding: Ohio's Targeted Community Alternatives to Prison Program And COVID-19 Testing & Mitigation Strategies in State and Local Justice Systems
The Problem: With the advent of the COVID-19 pandemic, one of the hardest hit settings quickly became justice systems at the local, state, and federal levels with jails and prisons among the largest hotspots. To date, America's justice system has experienced [over 661,000 infections](https://www.nytimes.com/interactive/2020/us/coronavirus-us-cases.html) and more than 2,990 deaths of incarcerated individuals and correctional officials. In response to the growing cases and deaths, federal lawmakers pursued a number of avenues to help states safely reduce overcrowded prison and jail populations while protecting public safety.
American Rescue Plan Funding: Congressional and White House leadership included [language providing \\$1.8 billion for state and local prisons and jails](https://urldefense.proofpoint.com/v2/url?u=https-3A__www.congress.gov_bill_117th-2Dcongress_house-2Dbill_1319_text_rh-23toc-2DH139302117389454AAD5217358E8BF4D&d=DwMFaQ&c=euGZstcaTD1lvimEN8b7jXrWqOf-v5A_CdpgnVfiiMM&r=-gg01l6yH9-3SzA42VyGkGRb846dF4RHYz-yc_WkE3M&m=oHaiE4LuZM1r_DeZ3P-9-zd1ntH3DR6_lr7ohLeBDZE&s=_omt0zXn6weDv_FRQwF5RgR3FO_0XcwkoEqlwjQ1TlU&e=) for the purpose of detecting, preventing, and mitigating the spread of the virus behind bars in the original version of the American Rescue Plan. Due to parliamentary procedures with the budget reconciliation process, that funding outlay was ultimately incorporated as a part of the broader [\\$47.8 billion from the Department of Health and Human Services \(HHS\) going to states and localities to respond to the pandemic. The Justice Action Network has confirmed with the legislative sponsors and senior officials at the White House and HHS that this money can be used to address the pandemic in state and local prisons and jails, including to mitigate the spread of COVID-19 by transferring individuals from incarcerated facilities to other programs](https://urldefense.proofpoint.com/v2/url?u=https-3A__www.congress.gov_bill_117th-2Dcongress_house-2Dbill_1319_text-23toc-2DHC8815B0371524C91B5262C01E2A06C37&d=DwMFaQ&c=euGZstcaTD1lvimEN8b7jXrWqOf-v5A_CdpgnVfiiMM&r=-gg01l6yH9-3SzA42VyGkGRb846dF4RHYz-yc_WkE3M&m=oHaiE4LuZM1r_DeZ3P-9-zd1ntH3DR6_lr7ohLeBDZE&s=xZSBOBdhO_UtVY8JbK0xlV3PV378HmUbBNAjyaNHCzE&e=)

(e.g. supervised release, home confinement, halfway homes, etc.).

Ohio's highly successful Targeted Community Alternatives to Prison (T-CAP) program is a natural fit for these funds. Research shows that mitigation goes beyond vaccination and must include efforts to reduce incarcerated populations to better facilitate social distancing and reduce community spread. T-CAP ensures Ohio's non-violent fifth degree felony offenders are rehabilitated in the community, rather than a state prison. Ohio's current prison capacity is around 39,000 inmates, but the actual population remains around 44,000, even with pandemic-related reductions. T-CAP has led to a 3.5 percent reduction in fifth degree felony offenders in state prison with 60 of Ohio's 88 counties participating. The House-passed version of the state budget expands this program to all 88 counties and T-CAP's roughly \$50 million cost over the biennium could be covered by these ARP funds.

How States and Localities Can Access Funds: The initial contract opportunity posted by HHS did not include specific references to prisons or jails and unfortunately did not clarify how local justice systems could receive funds. HHS has already sent the first \$10 billion for testing and mitigation activities to states' CDC accounts, which are now accessible via state public health departments. The Department is expected to issue clarifying guidance in the coming weeks or months for the remaining \$37.8 billion. Corrections directors can receive funds now by getting in touch with their state's public health departments and inquiring about the \$10 billion that has already been sent to states' CDC accounts. The Department of Health and Human Services has confirmed this money can be used on testing and mitigation strategies in prisons and jails. Entities with questions or concerns can contact Michael Baker, Senior Policy Advisor, Office of Intergovernmental and External Affairs, Department of Health and Human Services, michael.baker@hhs.gov.

1)SC3944 - Increase the State Child Protection Allocation (SCPA) within line item ODJFS 600523 by \$50M/year and restore earmark language to "not less than" as used in HB 166.

2)SC3943 - The SCPA is housed within ODJFS Line Item 600523.. By changing the language from "up to" to "no less than", ODJFS will have flexibility to add unspent funds within that line item to the SCPA earmark, as they have done occasionally in the past. Current language "up to" essentially is a cap and may prevent ODJFS from doing this if there are unspent funds. By changing to "no less than" that cap is removed.

3)SC3945 and SC3945-1 - Would restore TANF funding to the Kinship Caregiver Program. The executive version zeroed out this line item and the House put in 10 million each year. We have had two amendments drafted, one for 15M/year and one for 10M/year.

- The success of the organization is in large part due to local and regional partners, elected officials, and the existing business community that have been crucial to business growth and the state's economy.

- We are in the process of producing a celebratory video and marketing campaign, highlighting stakeholders throughout Ohio in honor of our 10th anniversary - and we'd like you to participate.

- Invited stakeholders are being asked to give a brief interview about their experience with JobsOhio. The end use of video/testimonials would include the 10th anniversary compilation video (mentioned above), or in select digital content (like social media, Annual Report, etc).

Questions for Senate President Matt Huffman(9:15am):

- How have you experienced JobsOhio as a resource and partner during your time as a legislator?

- How do you think an organization like JobsOhio gives the state a competitive advantage in terms of business attraction and growth?

- The three main components of JobsOhio are:*
 - A privatized structure that can move at the speed of business and protect proprietary client information (companies won't want to work with Ohio if they don't think their information can be kept confidential)*
 - Stable funding through JobsOhio's acquisition of the liquor enterprise allows the organization to fund deals and initiatives on a long-term basis, has provided stability and the opportunity to invest throughout the pandemic (giving us an edge over other states who have had to pause or scale back their economic development programming), and allows JobsOhio to hire talented staff from within the private industry sectors that they represent*
 - The JobsOhio Regional Network - JobsOhio relies on 6 regional network partners (One Columbus) to deliver statewide resources with a local touch*

- Can you describe some of JobsOhio's most impactful 'wins' in your district?

- Since inception, JobsOhio and partners have won over 140 projects, representing over 7,000 new jobs with over \$300 million in new payroll, and nearly \$3.5 billion in new investment in the Ohio's 12th State Senate District
- Last year (2020), JobsOhio utilized their new Inclusion Grant to assist 7 Allen County Companies - these small businesses will create 25 new jobs

You were a member of Ohio House Leadership in 2011 when JobsOhio was created - today, you're the Senate President. Former Speaker Bill Batchelder is now Chairman Emeritus of JobsOhio - reflect for us, if you will, on just how far JobsOhio and Ohio has come in the last decade?

Why did we need JobsOhio in the first place? Why was it important to privatize economic development in Ohio?

What makes you optimistic about Ohio's future?

<i>
</i><i>**Opening remarks- do not have to stay on for for the entire call** </i>
<i>
</i>
<i>The audience (currently sitting at roughly 150 registrants) will be mostly business owners, local chamber officials, and leaders at non-profits around the state (ie. Local chapters of Goodwill). The event was not distributed to media for participation, but we do intend on sharing the information learned from the speakers during the webinar through media releases in the future.
</i>
<i>Both employers and workers across Ohio have been plagued by the situation known as the "benefit cliff", which occurs when lower-income workers move up the income scale but then fall outside of the eligibility range for federal and state support programs. A new "Employment Incentive Program" has been created that will provide cash stipends to help offset reductions in public assistance benefits to participants that achieve certain benchmarks. This will put beneficiaries on a path to self-sufficiency and success and improve the ability of employers to hire workers to meet their business needs and remove impediments to advancing or promoting valuable employees.
</i>
<i>
</i>
<i>Attendees will learn about:</i>
<i>•The pilot program in Allen County that served as the model for the state;</i>
<i>•How the Employment Incentive Program can be copied in other parts of Ohio;</i>
<i>•The program as approved in the state budget through the Ohio Department of Job and Family Services;</i>
<i>•Real-life examples of how this program will benefit employees and employers.</i>
<i>There will be time for questions and answers.</i>
<i>
</i>
<i>Speakers include:</i>
<i>•Jed Metzger, President & CEO of the Lima/Allen County Chamber of Commerce</i>
<i>•Joe Patton with Allen County OhioMeansJobs</i>
<i>•Kara Bertke-Wente with Ohio Department of Job & Family Services</i>
<i>•Representatives

Agenda:
Introduction - Shawn Brown
Welcome and introductions
Thank you - Local Control during pandemic - appreciation for letting us run our districts as is best for our individual area - Bill Reichert
Mandating Vaccine - Bill Reichert
• Is not mandatory for public schools at this time
Concern is being voiced from past students' parents about how this was handled at the higher education level
ESSER 2 and ESSER 3 funds - Shawn Brown
By Ohio law, ODE cannot distribute these funds without approval from the Controlling Board The total appropriation needed for districts to access their remaining allocation of ESSER II funds, as well as their ESSER III funds, exceeds the Controlling Board's legal limits to appropriate those funds . Legislative action will be necessary for districts to access their allocated funds
Substitute Teacher Bill - Brenda Boeke
Thanks for pushing this through, but can we look at making this permanent?
Financial Literacy - Bill Ruane
I would like more information regarding this bill - "students who take one unit of advanced computer science in lieu of algebra II from completing one-half unit of instruction in financial literacy to satisfy the math unit requirements and instead requires them to complete the one-half unit of instruction in financial literacy as an elective."
Backpack Bill - Bill Reichert
• \$125 million from ESSER went to this for Educational Savings Account
• Long Term effects - where will this money come from?
• Auxiliary services, transportation, assessment, accountability, due process for students, accepting all
Bus Driver Shortage - Jason Wood
• Pre-Trip Certification-reevaluate requirements . Consideration for driver years of experience

Use 5181 Coldwater Creek Rd., Celina OH 45822 (the current Langenkamp Farm/Home) as an address to get close and then follow event signage, which will lead you to parking areas.The parcel is located west of Burntwood Creek near the Green Road and ColdwaterCreek Road intersection.

This event is entirely outdoors and includes a walking tour of the site.
Please dress appropriately for the conditions and the weather. Boots and full-length pants are strongly recommended for the site tour.

<i><u>Background:</u></i>
<i>Groundbreaking for the Burntwood-Langenkamp Wetland Conservation project near Grand Lake St. Mary's. This project will be the fourth treatment train associated with nutrient-reduction efforts at Grand Lake St. Mary's. The Lake Facilities Authority has purchased property in Butler Township with Clean Ohio grant funding. Following acquisition, the H2Ohio program is funding construction of a passive wetland treatment train featuring three created wetlands, several acres of planted trees, and a large buffer area of planted grasses/forbs.

\$1.5M grant award agreement with the Grand Lake St. Mary's Lake Facilities Authority will fund engineering, design, permitting, construction and vegetation seeding costs for this 89-acre property. Final total-acreage of wetland restoration will depend on the engineering and design, but a passive wetland treatment train is planned for a large proportion of that acreage. The Lake Facilities Authority purchased the property in Butler Township with Clean Ohio grant funding, which is separately administered by the Ohio Public Works Commission

Speaking: Legislative Panel -- Milwaukee, WI, USA

1. All three of you have passed major school choice legislation this year. Can you tell us about the legislation passed in your states and why you chose 2021 as the year to push for these reforms? (see attached overview of each state's 2021 legislative wins)

2. How did COVID and the impact of the pandemic either help or hurt your ability to pass these reforms?

3. What obstacles did you encounter during the process and how did you overcome them?

4. Was there a point during the process where you doubted if the legislation would pass? If so, what motivated you to continue pushing forward to pass the legislation?

5. We know working on school choice policy isn't easy. What advice would you give to fellow legislators about working to pass school choice policy?

<i>"HB 126 on behalf of our firm's client, the Coalition for Fair Property Tax Valuations. We are supportive of Chairman Merrin's bill in general, which is currently pending in Ways and Means Committee, but we recommended in testimony today that the Senate go a step further than tinkering around the edges with changes to the property tax challenge system in which government (school districts) fights with government (county auditors) over government (accurate property tax valuations) while taxpayers are caught bearing the brunt. What we are proposing is similar to SB 123 (Coley) from the 132nd General Assembly, of which President Huffman was a co-sponsor and eliminate the district's ability to challenge property valuations altogether."</i>

Discuss a school based health center proposal for the one-time American Rescue Plan Act (ARPA) funds coming to the state.
<i>
"As you may recall, OACHC supports Ohio's 57 Federally Qualified Health Centers and FQHC look-Alikes (more commonly referred to as Community Health Centers), comprising more than 450 sites spread throughout 74 of Ohio's 88 counties serving 854,000 patients. We would welcome the opportunity to discuss a proposal for the state of Ohio, through its ARPA funding allocation, to provide a path of recovery for Ohio's most vulnerable communities through increased access to quality care provided by School Based Health Centers (SBHCs). FQHC providers will expand capacity with high-need Kindergarten through 12th grade schools and collaborate to open new and/or expand SBHC locations. In addition to offering COVID-19 testing and vaccines, providing comprehensive primary care, including mental health services, in schools will ensure our children and school communities have access to the right kind of care, at the right time, and in the most cost-effective setting."</i></i>

Strategy Sessions (3)

The Year of School Choice 2021
2021 was a historic year for families with a dozen states creating or expanding education choice programs. What's driving this revolution to empower parents with education scholarship accounts and microgrants, and what will this year's dramatic expansion mean for the future? Join policymakers, parents and education leaders as they explore these strategic and timely questions.

Moderator:
Dr. Cara Candal, Managing Director, Policy, ExcelinEd

Panelists:
Emily Ann Gullickson, CEO & Founder, A for Arizona
Senator Patricia Rucker, West Virginia
Ryan Walters, Secretary of Education, Oklahoma
Juliette Harrell, Parent Skills for Success in Learning, Work, and Life: How Durable Skills Transform A Student's Experience

Every child has tremendous potential and it's important our education system provides a personalized, engaging framework so that students are able to develop their cognitive, emotional, social, and academic skills. Combined, these skills put every learner on a successful path of life-long learning and fulfillment. This session will explore how states can design systems to support the whole child, engage adolescents in their own development, and how "Durable Skills" will provide students with the necessary tools to be successful on their personal pathways throughout life.

Moderator:
Adam Peshek, Senior Fellow, Education, Stand Together

Panelists:
Cherisse Campbell, Zone Superintendent, Fulton County Schools
Jake Hirsch-Allen, PPP, Workforce Development and Skills Lead, LinkedIn
Tim Taylor, President, America Succeeds

Course Access: Personalization, Opportunity and Choice
Can course access take individualized learning to the next level? There's no reason why every student shouldn't be able to access courses and classes beyond their assigned school. Venture into a modern education where virtual learning infrastructure creates course access, closes opportunity gaps, and opens up high-quality learning experiences for all students.

Moderator:
Gerard Robinson, Vice President for Education, Advanced Studies in Culture Foundation

Panelists:
Denise Forte, Interim CEO, The Education Trust
Dr. Cory Kanth, Statewide Online Education Program Lead Educational Specialist, Utah State Board of Education
Julie Young, Vice President, Arizona State University
