Dear Marwah:

Open records requests are processed through the Assembly Chief Clerk's office for billing purposes only. You submitted an open records request to Representative Brandtjen. The records are being provided in electronic format and, thus, there is no charge for any location or reproduction costs. Accordingly, all records that are responsive to your request are attached to this email.

Subject: RE: Public Records Law Request (WI-REP-22-0019)

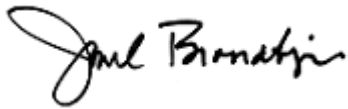

American Oversight,

This is in response to your public records request in the attached document.

Responsive records have been delivered to the Office of the Assembly Chief Clerk and they will contact with you with instructions on how to retrieve those records.

We now consider this matter closed.

Thank you,

Janel Brandtjen
Wisconsin State Representative
22nd Assembly District

Subject: RE: :EXTERNAL: Wisconsin Committee Hearing

Hello Melodie,

I spoke with Rep. Brandtjen on the phone right before her trip to Arizona. My company is in Dallas, Texas but I had previously visited the legislature in AZ to demonstrate these concepts. She mentioned on our call this opportunity might be available so I expressed interest then to come visit the Wisconsin legislature and discuss and demonstrate our secure ballot concepts.

Right now, I have flexibility for the week of August 9. Would any days that week work for me to address the Campaigns & Elections Committee?

Please advise and kindly let Janel know that I appreciate the follow up and interest!

Best regards,

Kent Mansfield

Subject: :EXTERNAL: Wisconsin Committee Hearing

Hi Kent,

Janel met you in Arizona and was wondering if you'd be interested in coming here to speak to the Campaigns & Elections Committee during a public hearing. She was thinking the beginning of August on a Tuesday, Wednesday or Thursday.

Please let me know if you are interested and what day(s) would work for you.

Thank you,

Melodie Duesterbeck

Authentix Corporate Governance

- Authentix is overseen by a board of directors supported by clearly articulated policies and best-in-class management systems and processes. Multiple quality certifications and annual quality audits conducted.
- Board level audit and compliance committees in place to ensure the highest standards of corporate governance. Audited financial statements produced each year. U.S. Federal Government contracts in place and ongoing.
- Strict adherence to the Foreign Corrupt Practices Act of the US (FCPA) and all anti-bribery and accounting provisions tightly monitored. Annual business ethics training and compliance certifications are required for global management and all sales teams. Annual reviews of all intermediaries and consultants conducted.
- Culture of global citizenship and transparency with a 24/7 reporting hotline for anonymous reporting of any suspected violations of our policies.

Authentix Certifications

Our Unique Security Document Printing Capabilities

Overt Features

- Unique, controlled supply of genuine watermarked security paper
- Secure holographic foil that acts as a visual deterrent and anti-copy feature
- Branded Multiplexed UV overprint of hologram, personalizing with custom images
- Custom complex security background designs at banknote-level quality

Covert and Semi-Covert Features

- Thermochromic and other specialty inks including optically variable designs
- Stealth numbering, UV and IR wavelength inks as well as custom signature taggants provide an extra level of security and can be verified by using handheld or custom mounted detectors
- Multi-colored micro-numismatic invisible UV designs – all custom artwork done in house at secure Intergraf accredited site
- Unique forensic fraud detection technology built into security inks

Wisconsin Secure Election Ballot Discussion

Why Use a Secure “Copy-Proof” Election Ballot?

- Confirm that only state authorized ballots are sent to voters, used in voting locations, counted, and stored
- Eliminate the chance for unauthorized ballot forms to enter anywhere in voting ecosystem, including those to be machine read
- Aggregated chain of custody tracking from:
 - Authentix > State Storage > Digital Printers > Precincts
 - Authentix > State Storage > Mail-Out > Precincts
- Serialized ballots could enable each voter to keep a ‘receipt’ of unique ballot submission but also be anonymous
- Securitized ballot paper supplied directly to third-party digital printing vendor for controlled distribution and tracking

AMERICAN OVERSIGHT

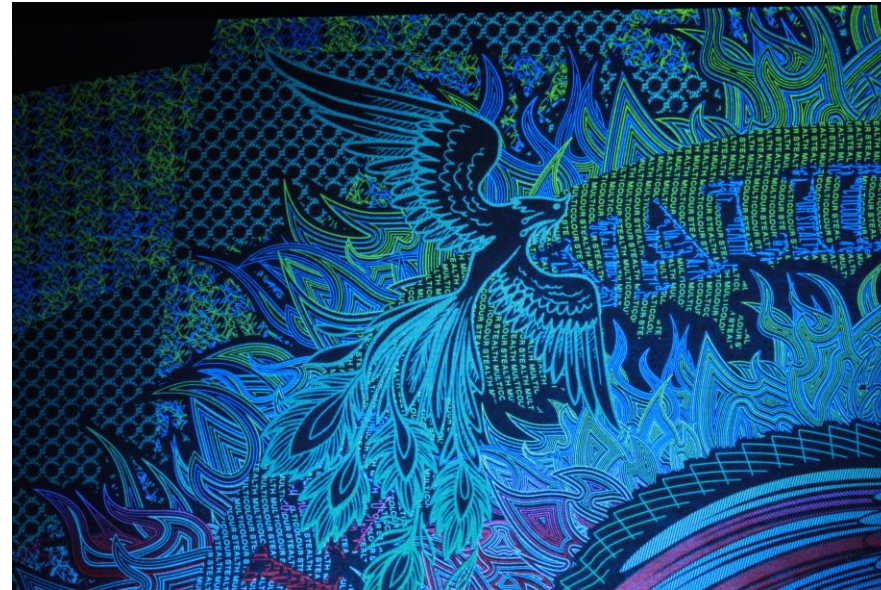

[illegible]

What Security Features are Present?

Covert Microtext

- **MICRONUMISMATICS (COVERT)**
 - *A unique security design technique requiring banknote software graphics and a high level of knowledge.
 - *Helps to protect the “infill” from fraudulent alterations.
 - *Once damaged, impossible to accurately reinstate.
 - *A major feature to deter/prevent professional counterfeit.

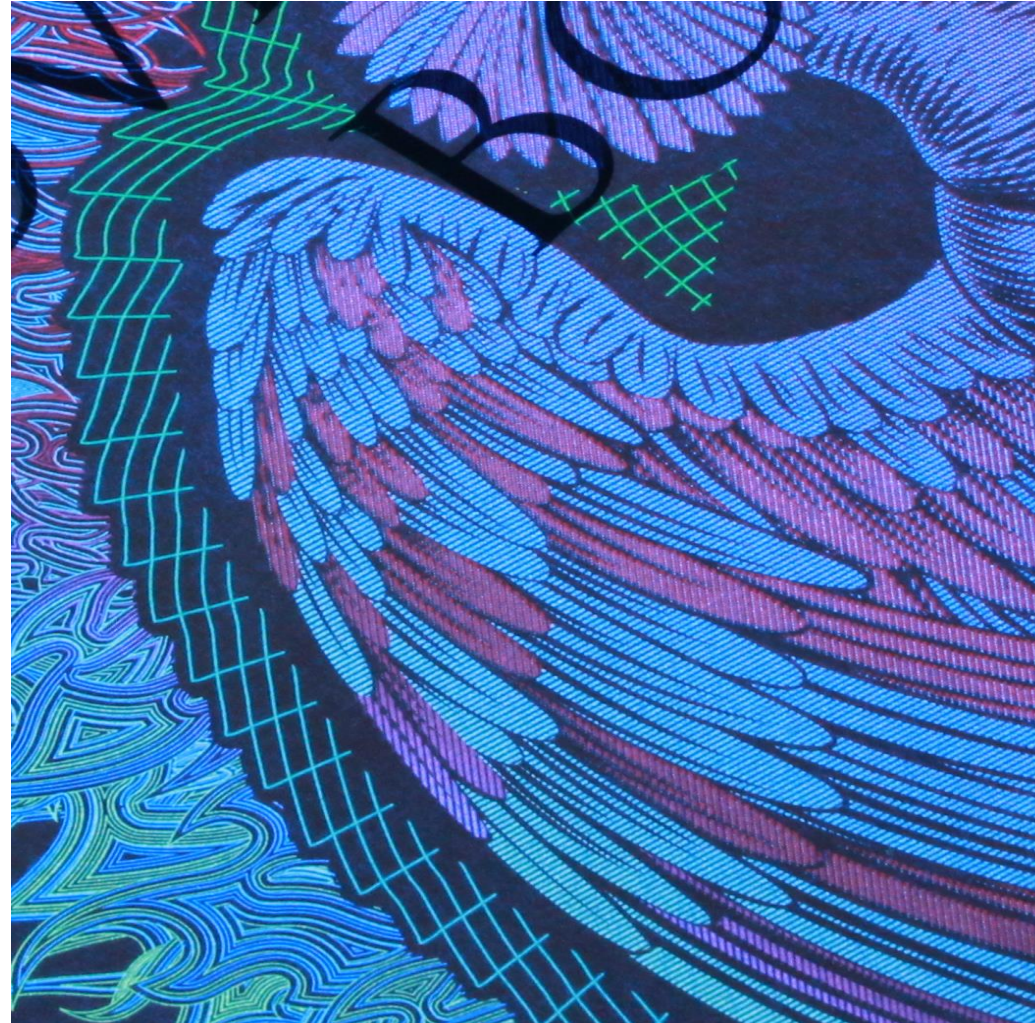

What Security Features are Present?

Covert Raster

SPECIAL RASTER (COVERT)

- *Raster images are sophisticated security graphics which are impossible to reverse engineer.
- *The Security Designer takes a high resolution image. The resulting, personalised security screens generate interference patterns when copied.
- *Printed in both visible and UV inks.

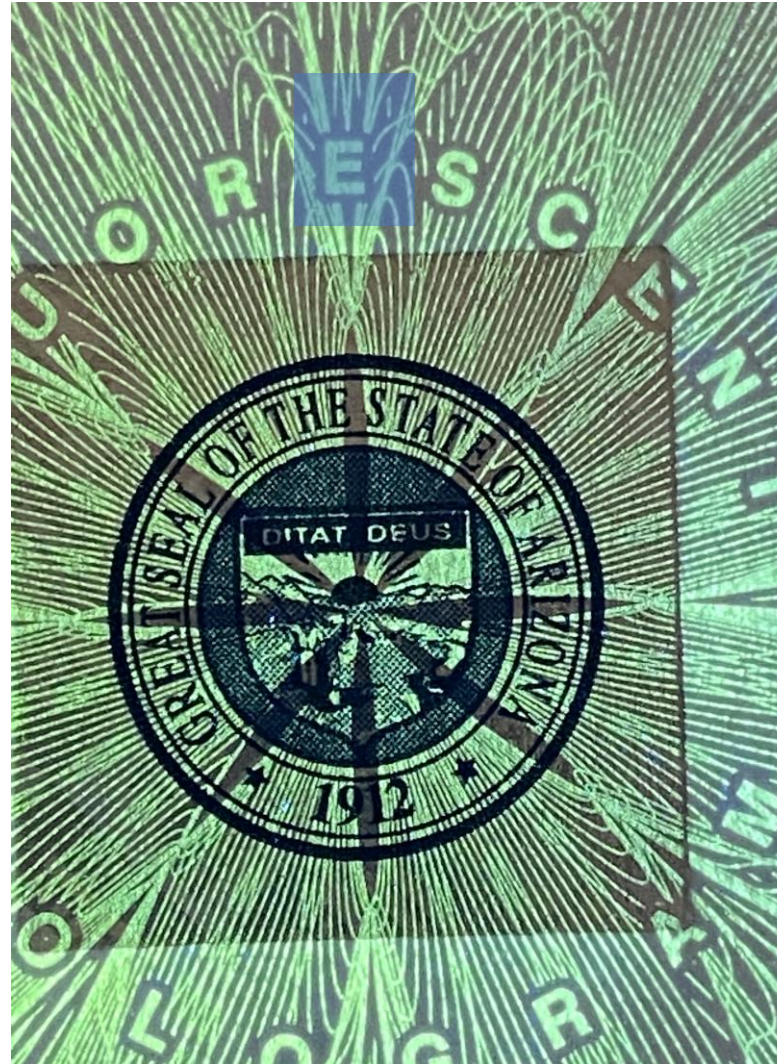

What Security Features are Present?

Covert Guilloche

CUSTOM GUILLOCHE TOOL (COVERT)

- *Anti-copy feature exploiting fine line security graphics.
- *Difficult to accurately copy, scan or reproduce.
- *Customised guilloche patterns have been created specifically for this document.

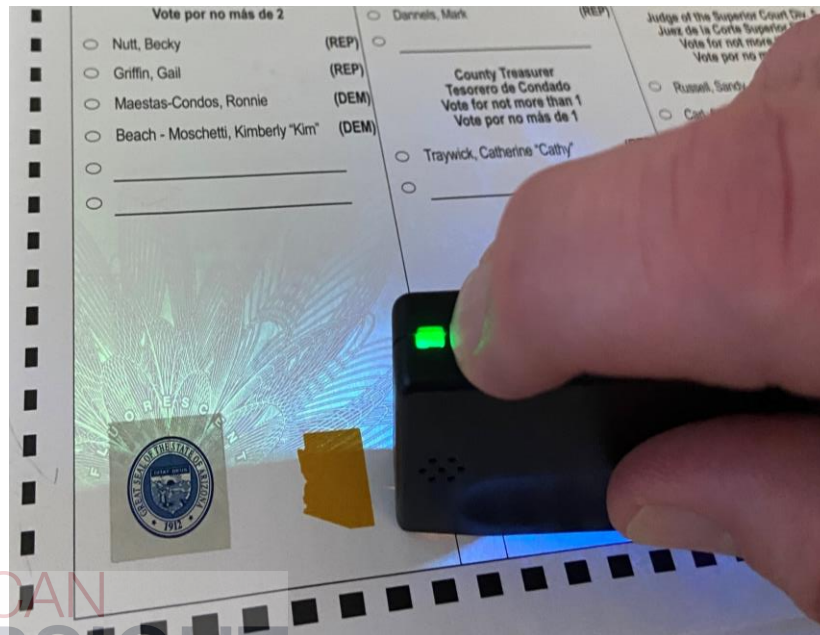

What Security Features are Present?

Signature Detection

Visible Ink with Covert Signature Embedded Taggant – Machine Readable

- Highly secure unique signature using ink embedded micron level taggants
- Can be printed in combination with most visible or clear inks and will remain completely covert and impossible to reverse engineer
- Used by Authentix in protection of currency, pharmaceuticals, high security documents, etc.

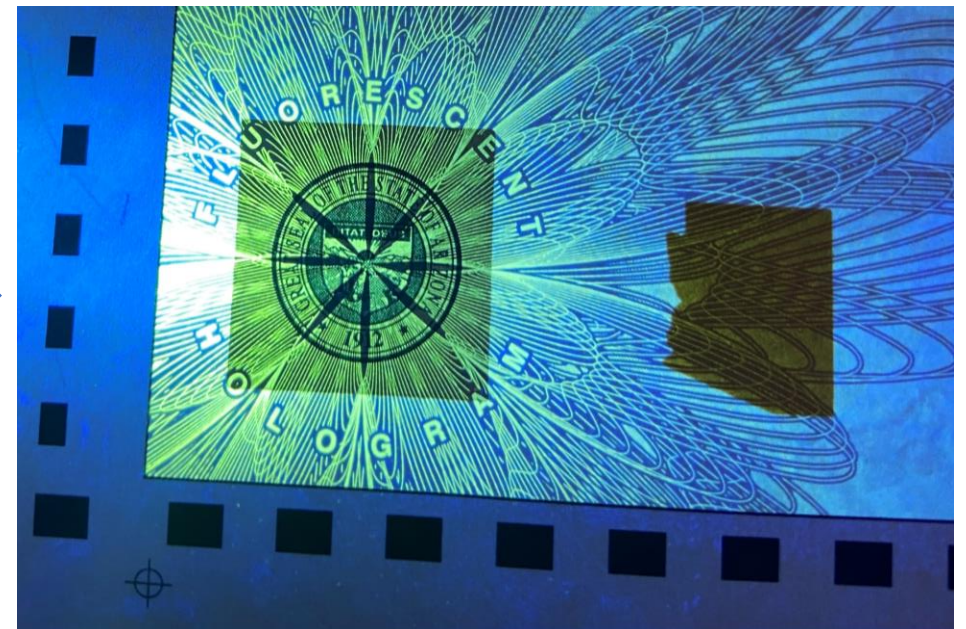

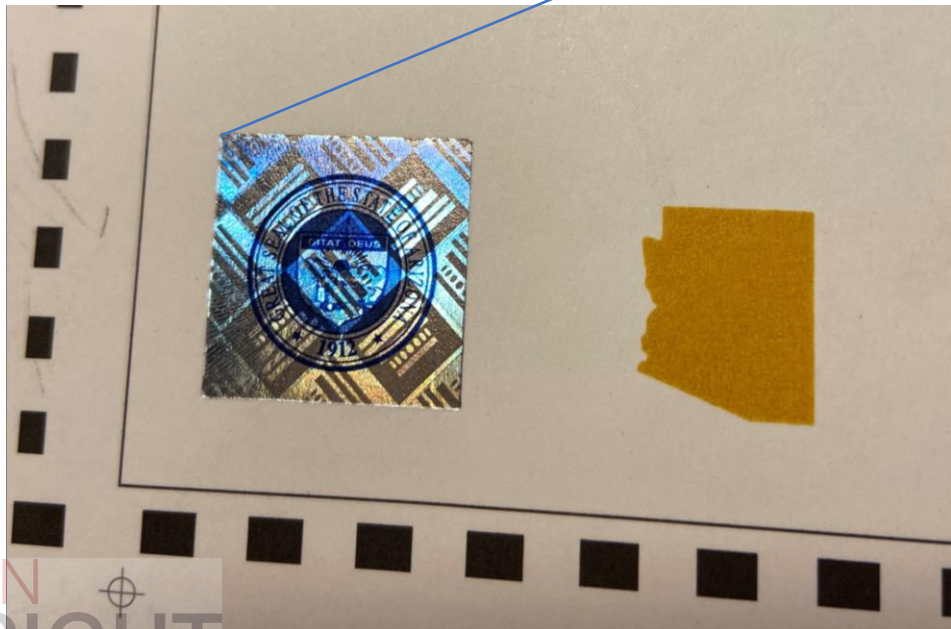

What Security Features are Present?

Holographic Translucence

Holographic Image Custom Made and Overprinted with Covert UV Translucence

- Highly secure banknote equivalent Holography with custom overprint of state seals
- Patented UV Imagery Visible when illuminated for non-copiable feature

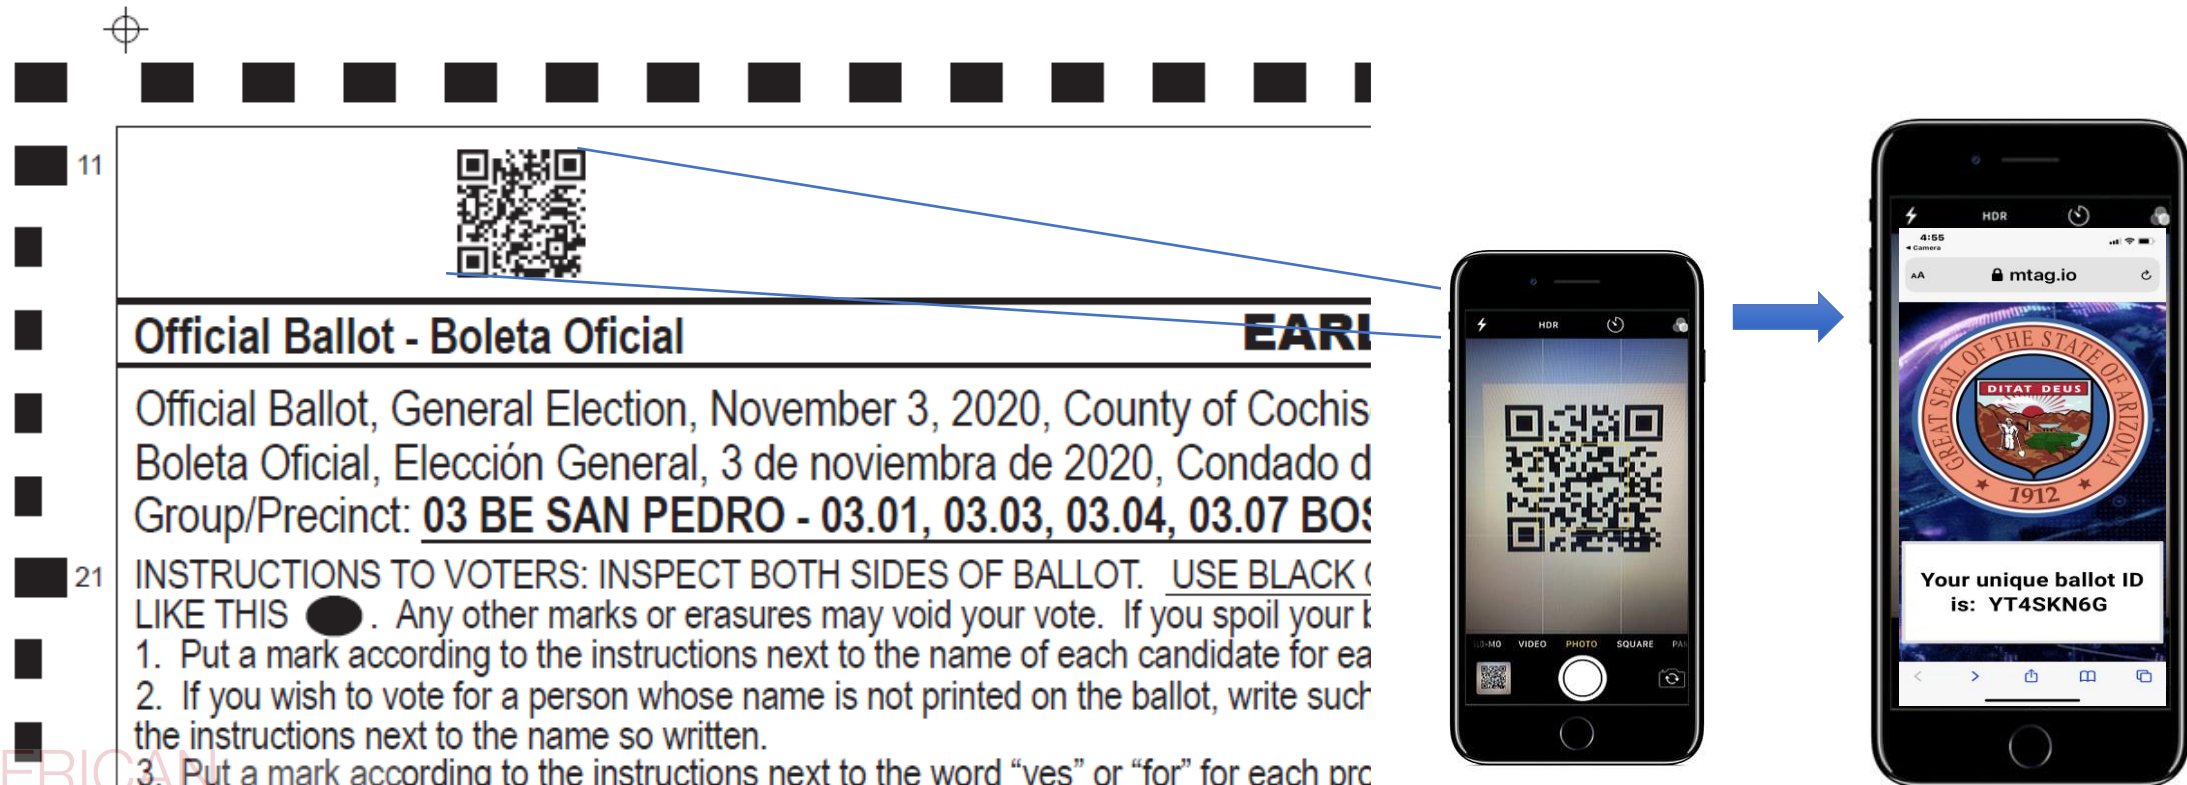

What Other Features are Possible?

Ballot Validation

Secure QR Code on Ballot with Unique Serial Number

- Voter can scan variable QR code and anonymously retain ballot serial number (state has no record of individual's personal information after scan)
- After Election is closed/tabulated/certified, voter can confirm ballot was received and counted by making inquiry using previous registration info. – possibly see image of ballot if imaging system can be implemented on intake points.
