EXTERNAL SENDER

Good afternoon,

Consistent with our August 19 email, please find the attached zipped folder containing documents responsive to your request for information under Chapter 552 of the Texas Government Code.

The responsive documents contain personal, non-governmental email addresses that are considered confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold certain email addresses without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.

The responsive information includes file names, locations, and other computer information that “has no other significance than its use as a tool for the maintenance, manipulation, or protection of public property.” *See* Open Records Decision No. 581 at 7 (1990). The Attorney General’s Open Records Division has concluded that this type of information is not subject to the Public Information Act and thus need not be released in response to a public-information request. *See* Open Records Decision No. 581 at 7; OR2019-14210 at 2 (May 29, 2019) (file names and locations); OR2019-09843 at 2 (Apr. 11, 2019) (username and password information). Thus, this information has been redacted.

We appreciate your patience as we continue to process your request in accordance with the terms of the PIA. We require additional time to review our records and produce additional responsive documents. We will provide you additional responsive documents on a rolling basis—to the extent such information is not excepted from disclosure under state or federal law—with our next production by 5:00 p.m. on September 23, 2022. *See* Tex. Gov’t Code § 552.221(d).

Encl.: 2020 Forensic Election Audit – Phase 2: Comprehensive Records Examination

2020 Forensic Election Audit

Phase 2: Comprehensive Records Examination

The purpose of this document is to outline the records and procedures that the Texas Secretary of State's office is reviewing for the forensic audit of the 2020 General Election in Collin, Dallas, Tarrant, and Harris counties. The specific review process for each category will be based on the county's response to the initial survey questions provided. Once the scope is established on a county-by-county basis, we will provide detailed documentation regarding the specific review of each applicable category.

We recognize that some counties may use different terminology for certain forms and procedures. The terminology used in this document is based on commonly used terms in the Texas Election Code and based on industry standards. To the extent that counties use different terminologies to describe the election materials and procedures used in the November 2020 General Election, county election officials will have the opportunity to provide an explanation in their responses ahead of our office's on-site visits.

It really is and Dan is the one that showed me the one on the 3rd floor. If you get a chance today can you get a hold of him and go look at it? We need to get that one on order and the other technology items quickly because of shipping issues. They have a larger one in the 4th floor conference room.

That might be worth having. The kids all have these at their schools. It is pretty good tech.

Morning Chad:

Dan Teczar came by yesterday afternoon to visit with you. One of the technology needs he suggested for us and wanted to show you was the Smart Board that are being utilized in the agency now. They start at about 10,000 and go up. They are similar to this <https://www.smartboards.com/collections/interactive-displays> . They are a whiteboard/computer/projector basically all rolled into one.
