EXTERNAL SENDER

Good afternoon,

Consistent with our May 26 email, please see the attached documents responsive to Item 2 of your February 9 Request.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.

We appreciate your patience as we continue to process your request in accordance with the terms of the PIA. We require additional time to review our records and produce additional responsive documents. We will provide you any additional responsive documents—to the extent such information is not excepted from disclosure under state or federal law—by 5:00 p.m. on July 7, 2022. *See* Tex. Gov't Code § 552.221(d).

Kind regards,

Jennifer Williams
Legal Assistant to the General Counsel
Office of the Texas Secretary of State

Hello Sam,

I left you a voicemail this morning and then realized I had your email also. I am interested in helping the SOS office with the audit just announced.

I have an extensive background as an IT leader (most recently at the IT Director level) across global organizations, including PepsiCo, Occidental Petroleum and Triumph Group. I have a background solving some of the most ambiguous and challenging technology problems supporting my various business stakeholders. I have experience building and making presentations and working with high-value stakeholders. I also have experience in running a cyber security taskforce audit team.

I am currently in transition because of Covid challenges at my last company, so I have some time to help while I continue to look for my next opportunity.

I realize this is probably not the typical way to apply for a position with the SOS office, but I was assuming (perhaps wrong), that these audits won't be hiring using the traditional methods. I also realize it's very early in the process/determination and that a budget still is required from the legislature.

But I wanted to reach out as early as possible and offer my services to help. I live in Grapevine which is a suburb of Tarrant County, and I am passionate about my community, my state and my country and would love an opportunity to support the SOS in any way with this effort.

Do I have election or polling experience - no.? But I have all the intangibles to be highly successful in supporting this audit and I am a citizen in Tarrant County where I can help make a difference.

I would love an opportunity to talk with you or someone from the SOS office about this audit and how I might can help and be part of the team.

Sincerely,
Teresa Leeth

Dear Secretary John Scott,

It is a pleasure to meet you. I have been following the news that four Texas counties recently received approval to conduct forensic audits for the 2020 presidential election, so I thought it would be prudent to introduce myself and our firm, Intersec Worldwide.

Intersec Worldwide was selected as a finalist earlier this year by Senate President Karen Fann in Arizona for the Maricopa County forensic audit. Senator Fann stated that she and her committee felt confident our firm would be able to complete the forensic audit perfectly, but we were ultimately not selected as their decision was based on price.

What qualifies Intersec Worldwide is that our VP Digital Forensics & Incident Response is a former Federal Agent in Cybersecurity, he has built forensic audit teams from scratch at companies such as Mastercard and Nike and he has experience testifying before Congress. Intersec Worldwide was named 2021 Top Digital Forensics Services firm by Enterprise Security Magazine, and we have zero political affiliations.

We would like the opportunity to present the forensic audit phases to you that we presented to Senator Fann.

Would you and your committee members like to schedule a call?

Yours sincerely,

David Hughes | Vice President

Dear Mr. Esparza,

I respectfully request that you add Bexar County in San Antonio to your counties to be comprehensively and forensically audited.

I am a resident of Bexar County in San Antonio and I am certain you will find abnormalities in past elections.

If there is any volunteer work that I can perform to help this happen do not hesitate to call on me.

Thank you,

Pamela Senuta

Hello,

We live in, and are registered to vote in Johnson County, which I just verified using the Texas registration website. We recently got our new voting cards as well.

Strangely, my husband recently got a jury summons from Tarrant County, indicating that after 30 years not living there, he is somehow still on their voter rolls.

I know there are issues with voting in Tarrant County. I have sent letters that I would happily volunteer for the 2020 election audit, but there was no response.

So who exactly is responsible for straightening out this (probably illegal) mess?

Thank you,
Patty Boston

Dear Office of the Secretary of State of Texas,

I am a resident of Dallas county. I and my colleagues have been extremely concerned about the state of our election systems in this country and in Texas. It is clear there were many irregularities with the November 2020 election in Texas. I am disappointed in the weak election “audit” that has recently passed which is not designed to truly forensically audit the election to confirm integrity or root out all election abnormalities. I was excited to volunteer to help in a true forensic audit in my county!

We demand a full forensic audit that will properly expose the rot in our election systems.

We are counting on you, our elected officials. We are intelligent enough to understand the details.

Respectfully,

Preeti Malladi, MD

Dear Ms. Taylor,

Thank you so much for the recent decision to audit the counties listed. I have a feeling there are more that could be included, but at least this is a good start.

I am not sure if you will need assistance in these audits but depending on your needs, I would be willing to help in some capacity.

Please feel free to save my email for future contact if I may be of assistance.

Yours in health,

Velvete H. Womack, LMT, PhD

Hello,

Where would one go to apply to volunteer in the audit?

Thank you,

Tana Hensley
Concerned Texan

Thank you for requesting this audit. I hope its an honest, extensive, and thorough audit. Arizona's audit was incomplete do after all the hard work and time spent on that audit, 'America's Audit' and still no one held the Elections Committee in contempt for not turning over the data from the machines and other router reports, then it was only another failure and the only reason for the failure is because no one is holding anyone accountable and clearly when you're not following a subpoena you should be held in contempt and the machines should have been confiscated. So no one really wanted to find out the truth in the AZ Audit. They did it for show and only people who are paying attention bc we are the ones that know there's a reason why the democrats won't turn over the equipment and even erased data that is illegal to do, they are hiding something.

Hello Mr. Taylor-

I am interested in volunteering for the Collin County election audit effort. I do live in Collin County, I am a registered voter, and I voted in the 2020 election. I did work for a County government entity for almost 15 years, and I have subsequently worked for a company that supports municipal, county, and state government entities. I feel strongly about supporting any effort to provide transparency in relation to the voting methods/results in our County.

If you are not the appropriate person to express my interest in volunteering to, could you please point me to the correct office/person?

Thank you for your help,
Laurie Taylor
