EXTERNAL SENDER

Good afternoon,

Consistent with our July 8 email, please find the attached zipped folder containing documents responsive to your request for information under Chapter 552 of the Texas Government Code.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.

We appreciate your patience as we continue to process your request in accordance with the terms of the PIA. We require additional time to review our records and produce additional responsive documents. We will provide you additional responsive documents on a rolling basis—to the extent such information is not excepted from disclosure under state or federal law—with our next production by 5:00 p.m. on August 19, 2022. *See* Tex. Gov't Code § 552.221(d).

Kind regards,

Jennifer Williams

AMERICAN OVERSIGHT

Texas Secretary of State Full Forensic Audit of 2020 General Election

The Texas Secretary of State's office has announced a full forensic audit of the 2020 General Election in Dallas, Harris, Tarrant and Collin counties. The full forensic audit is being conducted in two phases, the first of which is already underway. The purpose of this audit is to ensure all Texas voters can have confidence in the elections systems in our state, and to address any outstanding issues county election officials may face that undermines the integrity of our elections.

Phase 1: Testing Voting Machine Accuracy, Cybersecurity Assessments, and Identifying and Removing Ineligible Voters Who Cast Ballots in 2020 (Already Completed or Underway)

- After every single Texas election, counties are required to conduct a partial manual count of electronic voting system ballots within 72 hours of the polls closing to ensure the accuracy of the tabulation of electronic voting systems results (Sec. 127.201).
- All counties are required to undergo an Election Security Assessment (ESA) of the county's election system (Sec. 279.003). All 254 counties have completed these assessments.
- Under both state and federal law, the Texas Secretary of State's office is empowered to maintain the accuracy of the statewide voter registration list to ensure that ineligible voters – including deceased individuals, individuals registered in multiple states or counties, and non-U.S. citizens – do not remain on the voter rolls (Secs. 18.061 – 18.0681).
- As part of the audit process, the office has received reports from the Electronic Registration Information Center (ERIC) regarding voters who may have voted twice in state and across state lines. We have also received a report of persons who may have been deceased when a vote was cast in their name. Finally, we have identified potential non-U.S. citizen voters and have directed county voter registrars to take action to verify the eligibility of registered voters and cancel their registration if they do not present proof of eligibility. Once that action has been taken, our office evaluates the persons cancelled and refers any instances of possible illegal voting to the Office of the Texas Attorney General for investigation (Sec. 31.006).

Phase 2: Comprehensive Election Records Examination (Spring 2022)

- As part of the Texas Secretary of State's duty to assist and advise all election authorities with regard to the application, operation, and interpretation of the Texas Election Code (Sec. 31.004) and to obtain and maintain uniformity in the application of the Code (Sec. 31.003), the office will conduct a comprehensive election records examination over the next several months to ensure election

AMERICAN OVERSIGHT

administration procedures were properly followed during the 2020 General Election.

- The records examined from each county will include – but are not limited to – the following types of documents:
    - Logic & Accuracy Testing Records for Voting Machines, including:
        - All test ballots voted
        - Test Deck Records
        - Testing Media
    - Early Voting and Election Day Materials, including:
        - List of registered voters used in the 2020 General Election
        - Daily Early Voting Rosters for in-person voting
        - Chain of Custody forms that document the seals on the ballot boxes
        - Chain of Custody delivery and pickup of equipment at voting sites
        - Statements of Residence
        - Reasonable Impediment Declarations
        - Limited Ballot Applications
        - Audit Logs from applicable Voting System Devices
        - List of Rejected Provisional Ballots and reason for rejection
        - Ballot and Seal Certificates
        - Hand Delivery of a Ballot by Mail Roster and Forms
        - Receipts of Sealed Early Voting Ballot Boxes
    - Signature Verification Committee Materials
    - Early Voting Ballot Board Materials, including:
        - Receipt of Sealed Early Voting Ballot Boxes
        - Poll List of Mail Voters
        - Notice of Rejected Carriers and reasons
    - Central Counting Station Plan
    - Training Materials
- County election officials must retain these records for 22 months under both federal law (52 USC 20701) and state law (Texas Election Code Sec. 66.058).
- All of this information is available to the general public (Sec. 1.012).
- After a thorough examination of the abovementioned records and materials in each county, irregularities or deviations from election administration procedures that may have affected the accuracy of the electronic voting system ballot count could trigger a full manual recount of ballots in the affected precincts or polling locations, pursuant to the Secretary of State's authority to ensure the accuracy of the tabulation of electronic voting system results (Sec. 127.202).

Dear Bruce, Michael, Isabel and Heider:

Thank you for your service to Texas voters and for your commitment to transparency in our election process. As indicated in our office's previous communications, the Texas Secretary of State's office is conducting the largest and most comprehensive forensic audit of the November 2020 General Election in your respective counties. The purpose of this audit is to provide clarity and confidence for Texas voters that all applicable laws and procedures were followed during the 2020 Election, and to identify any irregularities or issues that need to be addressed going forward.

Enclosed, please find a comprehensive list of documents and records our office will be examining as part of Phase 2 of the Full Forensic Audit, as well as requests for information from your office that will be instrumental in completing the audit process. We request that your respective offices begin locating the documents listed to prepare for our Forensic Audit Division's on-site examinations, which will be coordinated at a mutually convenient time in January 2022.

In the near term, we request that you provide us the following information, in writing, to our office by **Tuesday, December 21st** in order to guide the next phase of the forensic audit process:

- **A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.**
- **Whether any voting sites were closed or added due to an emergency or other necessity**
- **Any known procedural or chain of custody defects**
- **Any other issues discovered that you would like to disclose now that may be relevant to our audit process**

AMERICAN OVERSIGHT

- **A list of complaints received and resolved, with a description of any known investigative steps or known resolution.**
- **A detailed accounting of the following:**
    - **Total Early Voting Ballots by Mail Requested**
    - **Total Early Voting Ballots by Mail Sent out**
    - **Total Early Voting Ballots requested by FPCA**
    - **Breakdown of Early Voting Ballots by Mail accepted/rejected**
    - **Total number of mail ballot voters that cancelled their mail ballot without surrendering the mailed ballot and voted in person**
    - **Total number of mail ballot voters that surrendered their mail ballot and voted in person**
- **A detailed accounting of the following:**
    - **Total Number of Provisional Votes Cast**
    - **A list of Provisional Voters by reason for voting provisionally**
    - **Total Number of Provisional Votes cast for voters lacking ID**
    - **Total number of Provisional Voted Accepted/Rejected**
- **List of entities that conducted recounts or had election contests**

We thank you in advance for your responses to this initial audit survey and request that you begin preparing the enclosed list of documents and records for our agency's review.

Please feel free to reach out to our office directly if you have any questions or concerns.

Sincerely,

John B. Scott
Texas Secretary of State

Encl.: 2020 Forensic Election Audit – Phase 2: Comprehensive Records Examination

AMERICAN OVERSIGHT

2020 Forensic Election Audit

Phase 2: Comprehensive Records Examination

The purpose of this document is to outline the records and procedures that the Texas Secretary of State's office is reviewing for the forensic audit of the 2020 General Election in Collin, Dallas, Tarrant, and Harris counties. The specific review process for each category will be based on the county's response to the initial survey questions provided. Once the scope is established on a county-by-county basis, we will provide detailed documentation regarding the specific review of each applicable category.

We recognize that some counties may use different terminology for certain forms and procedures. The terminology used in this document is based on commonly used terms in the Texas Election Code and based on industry standards. To the extent that counties use different terminologies to describe the election materials and procedures used in the November 2020 General Election, county election officials will have the opportunity to provide an explanation in their responses ahead of our office's on-site visits.

Election Security

The following questions pertain to each county's election security measures. Please elaborate to the fullest extent possible in your responses:

- Do you have badge-controlled access to your election office?
- Do you keep track of who enters into the office, especially sensitive areas?
- Are visitors escorted at all times?
- Do you keep track of who enters the ballot programming area? Are the number of people authorized to access the programming area limited?
- Did your county attend Texas Secretary of State webinars that discussed the Election Security Toolkit?
- Did your county create individual versions of all six documents that address the procedures in your county?
- If you did not complete all 6 documents, which of these did you complete?
    - Vendor Risk Management Policy (VRMP)
    - Continuity of Operations Plan (COOP)
    - Incident Response Plan (IRP)
    - Election Information Security Policy (EISP)
    - Election System Security Plan (ESSP)
    - Election Security Best Practices
- Does your county have an offsite version of the Election Security Toolkit in a printed or electronically stored format?
- Does your county have a segmented election network?
- Does your county have a next generation firewall?

AMERICAN OVERSIGHT

- Does your county IT Department regularly patch and maintain the latest software version throughout the division?
- Does your county employ the Principle of Least Privilege?

Acceptance Testing Records if New Voting System was Used for the First Time

An examination of the following records will gauge the percentage of equipment that did not pass the acceptance testing and, therefore, was not operable during the November 2020 General Election:

- Logs for each device tested
- Logs that show if a device did not function properly or had to be returned for vendor review or service

L&A Testing Records

An examination of the following documents and records will determine if the voting system accurately recorded the test voters' choices and therefore demonstrated that the voting system accurately recorded voters' ballot choices:

- Public Notice of Logic and Accuracy (L&A) Test
- All test ballots voted in the election
- Tally Sheets
- Test Deck Records
- List of participants who voted test ballots
- Records showing test outcomes and if tests had to be repeated
- Testing media, including:
    - memory sticks
    - mobile ballot boxes (MBBs)
    - paper ballots used for L&A test voting and tabulation)
- All testing seals or other test materials

Election Preparation

An examination of the following documents and records will determine whether or not protocols to secure the voting system and ballot were followed to protect the integrity of the election:

- List of Presiding Judges and Alternate Judges by Precinct and Party
- Notification of Election Training Program
- Ballot Programming: Please indicate whether your vendor programmed your ballot or if the ballot was programmed by in-house staff.
- Electronic Poll Books (EPBs) programming: Please indicate how your EPBs were programmed and at what intervals was the Official List of Registered Voters on the EPB updated.

AMERICAN OVERSIGHT

Early Voting In Person

An examination of the following documents will provide a summary of all processes executed to conduct in-person Early Voting:

- **Election Workers**
  - List of Early Voting Deputies, Alternate Deputies and Early Voting Clerks
  - Lists of Early Voting Workers who dropped out of the election, the date they dropped out and the names of the replacement workers
    - Please indicate the training that any emergency replacement workers received.
  - List of "no show" Early Voting workers

- **Documentation related to Ordering and Providing Notice of the Election**
  - Order of November General Election for State and County Officers (GESCO)
  - Location of the Main Early Voting Polling Place as noted on the Order of Election
  - List of Early Voting Branch Polling Places as noted on the Order of Election
  - Notice of General Election (copy of posted notice and publication)
    - Record for Posting Notice of Election if posted in this manner

- **Documentation for Ballot Corrections, if applicable**
  - Notice of Ballot Correction, if applicable
  - Notice of Ballot Destruction, if applicable
  - Record of Ballot Destruction, if applicable
  - Notice of Ballot Reprint Order, if applicable

- **Documentation for Tracking Ballots**
  - Register of Official Ballots for Early Voting at the Main Location (if ballots are pre-serialized, if not the number of ballot cards delivered)
  - Register of Official Ballots for Early Voting at a Branch Location (if ballots are pre-serialized, if not the number of ballot cards delivered)

- **Polling Place Paperwork**
  - Combination Forms for each day of Early Voting OR a report generated by the general custodian to accurately create a summary of all processes that were required to be executed as noted on paper Combination Forms
  - Daily Balancing Envelope or Report (contain copy of daily returns for Early Voting, to the extent possible)
  - Ballot Styles of voters who were given a ballot vs. how many votes of each ballot style should have been cast, based on voter registration precinct (this identifies when a voter is given the wrong ballot style)
  - Results Tapes/Suspend Reports
  - List of Declared Write-In Candidates for posting in the voting booth
  - Reasonable Impediment Declarations, if applicable
  - Statements of Residence, if applicable
  - Standard Affidavits

AMERICAN OVERSIGHT

- Registration Omissions List

- **Other Information to be Reviewed**
  - List of Registered Voters that was used in the 2020 Presidential Election (electronic copy).
  - List of any Early Voting Site that had to be closed or changed according to county records
  - Signature Roster for Hand Delivery of a Ballot by Mail Forms (usually this process is only done only on Election Day, but the hand delivery period was extended only for the November 3, 2020 General Election)

- **Chain of Custody Paperwork**
  - Chain of Custody forms (Record of Early Voting Ballot Seals) that document the seals on the ballot boxes for each day of Early Voting
  - Chain of Custody delivery of equipment to voting sites (with seal numbers and equipment serial numbers noted) (signatures of persons who delivered equipment)
  - Chain of Custody of pickup of equipment from voting sites (with seal numbers and equipment serial numbers noted) (signatures of persons who picked up equipment)
  - Chain of Custody forms for when troubleshooters picked up completed forms from Early Voting sites for daily processing
  - List of Early Voting Daily seals for Provisional Secure Container

- **Voting System Equipment Management**
  - Trouble Logs and equipment replacement records
  - Troubleshooter visit logs
  - Equipment returned to vendor for technical support
  - Call Center Event/Complaint Logs

- **Poll Watcher Paperwork**
  - Poll Watcher Certificates of Appointment

Ballot by Mail – Early Voting

An examination of these documents and records will determine whether Early Voting by Mail was conducted in accordance with state and federal law:

- Applications for Ballot by Mail (ABBMs)
- List of Annual ABBM Voters
- List of Declared Write-In Candidates
- Notices of Improper Delivery (and to whom they were sent)
- Emails from the county to voters regarding ABBM and Federal Post Card Application (FPCA) rejections
- Notices of Rejected ABBMs and reasons

- Verification of Provisional Ballots and Seal Numbers
- Review Notices of Outcome to Provisional Voter
    - Number of provisional ballots accepted
    - Number of provisional ballots rejected
- Breakdown of percentage of Provisional Ballots counted and rejected

Signature Verification Committee

An examination of the following documents related to the Signature Verification Committee (SVC) will determine whether there was party balance on the Committee and who was responsible for the processes of accepting and rejecting signatures:

AMERICAN OVERSIGHT

- Order Calling for Signature Verification Committee – date posted
- Notification of Appointed Members to SVC
- Notice of Appointment of SVC
- Chain of custody forms when ballots were transmitted to Central Counting Station from SVC
- Poll Watcher Certificates of Appointment for SVC

Early Voting Ballot Board

An examination of the following documents related to the Early Voting Ballot Board (EVBB) will determine whether there was party balance and properly review adjudications, acceptances and rejections, as well as who was responsible for those processes:

- Order for EVBB
- Notice of Convening of EVBB
- Notification of members appointed to the EVBB
- Notice of appointment of the EVBB
- Notice of delivery of balloting materials to the EVBB (Receipt of Sealed Early Voting Ballot Boxes)
- Chain of Custody forms when ballots were delivered to the EVBB
- Samples of Notice of Rejected Ballot by Mail and reasons for rejection
- Samples of Notice of Rejected FPCAs Carriers and reasons for rejection
- Poll Watcher Certificates of Appointment

Central Counting Station

An examination of these documents will determine whether the Central Counting Station (CCS) Plan was followed along with all applicable laws and procedures, and whether proper Chain of Custody procedures for voted ballots were followed:

- Central Counting Station Plan
  - Please indicate whether it posted 5 days before Election Day, as required by law.
- Public Notice of Test of Automatic Tabulating Equipment
- Certification of First Test of Automated Tabulating Equipment
- Oaths for Early Voting Ballot Board and Central Counting Station Personnel
- Chain of Custody documents related to the transmittal of ballots to the CCS from Election Day polling places, Early Voting Clerk's storage, or Early Voting Ballot Board.

Partial Manual Count Records

An examination of these documents and records will determine whether the Partial Manual Count was performed according to the law, as well as who performed the count:

- All records associated with the post-election Partial Manual Count
  - Please indicate who performed the partial manual count.
- Record of the Partial Manual Count results submitted to the Texas Secretary of State's office
- Poll Watcher Certificates of Appointment, if any

AMERICAN OVERSIGHT

Post-Election and Canvass Records

An examination of these documents will determine whether certification of election results was conducted properly and whether proper documentation to support the official results was provided:

- Canvass of the General Election
- Summary of Precinct Returns
- Canvass reports by official in charge of certifying results
- Records of any recounts requested and performed after the election
- Records related to any election contests filed

Records Retention

An examination of these documents and records will determine whether Chain of Custody of records was maintained, and whether officials properly followed the 1st to 60th day rule and the 61st day to 22-month retention rule. If records must be opened, please supply a copy of the court order:

- Records of seal numbers put on and taken off records when the initial 60-day period for records retention ended
- Record of seals that were placed on the ballots and other materials on the 61st day for the remainder of the 22-month record retention period
    - Please indicate whether records were stored in a locked in a surveilled room.
- Please indicate whether county officials keep a log of anyone accessing the room where the records/ballots are stored.
- Please indicate whether any court order necessitated the unsealing of the records.
    - Provide a copy of any court order requesting opening of the records.

Central Counting Station Test Records

An examination of these records will validate the test procedures that were performed before and after counting on the automatic tabulating equipment:

- Central Counting Station (CCS) Plan
- Certification of 1st test of automated tabulating equipment
- Records from 2nd Logic and Accuracy (L&A) test before ballots are counted in the CCS
- Certification of the 3rd L&A test after ballots were counted at the Central Counting Station
- Records indicating whether there was a + or – 4 ballots tabulated that necessitated a recounting of ballots at the CCS
- Copy of final reports (unofficial results, precinct returns) signed by the presiding judge of the CCS

Training Materials

An examination of these materials will determine whether poll workers were trained according to all state and federal laws and procedures. Examining the training materials allows auditors to know if the poll workers were instructed to perform their duties accurately:

- Manuals, PowerPoint presentations, materials that were used in poll worker training and sent to the field
- An example of the forms kit that was deployed to the field, if possible
- Training attendance records, including in-person and online training

General

Any video surveillance records that were recorded from the time the election was ordered until the canvass was completed.

Additional Audit Compliance Questions

1. Are any of your election materials that are required for the audit, stored at facility not under your control?
2. How quickly could you access the materials from the storage vendor?
3. Will it take longer than one month to locate and have your records ready for examination?
4. Do you still have the same voting systems as when your county conducted the 2020 Presidential Election?
5. Of the records listed in the Audit requirements, please specify which are electronically stored and which are physical copies.
6. Are there any records that you may not be able to produce? If so, why?
7. Are there any permanent staff members who have left your office since the Presidential Election? Please give names and job duties.

Dear Bruce, Michael, Isabel and Heider:

Thank you for your service to Texas voters and for your commitment to transparency in our election process. As indicated in our office's previous communications, the Texas Secretary of State's office is conducting the largest and most comprehensive forensic audit of the November 2020 General Election in your respective counties. The purpose of this audit is to provide clarity and confidence for Texas voters that all applicable laws and procedures were followed during the 2020 Election, and to identify any irregularities or issues that need to be addressed going forward.

Enclosed, please find a comprehensive list of documents and records our office will be examining as part of Phase 2 of the Full Forensic Audit, as well as requests for information from your office that will be instrumental in completing the audit process. We request that your respective offices begin locating the documents listed to prepare for our Forensic Audit Division's on-site examinations, which will be coordinated at a mutually convenient time in January 2022.

In the near term, we request that you provide us the following information, in writing, to our office by **Tuesday, December 21st** in order to guide the next phase of the forensic audit process:

- **A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.**
- **Whether any voting sites were closed or added due to an emergency or other necessity**
- **Any known procedural or chain of custody defects**
- **Any other issues discovered that you would like to disclose now that may be relevant to our audit process**

AMERICAN OVERSIGHT

- **A list of complaints received and resolved, with a description of any known investigative steps or known resolution.**
- **A detailed accounting of the following:**
    - **Total Early Voting Ballots by Mail Requested**
    - **Total Early Voting Ballots by Mail Sent out**
    - **Total Early Voting Ballots requested by FPCA**
    - **Breakdown of Early Voting Ballots by Mail accepted/rejected**
    - **Total number of mail ballot voters that cancelled their mail ballot without surrendering the mailed ballot and voted in person**
    - **Total number of mail ballot voters that surrendered their mail ballot and voted in person**
- **A detailed accounting of the following:**
    - **Total Number of Provisional Votes Cast**
    - **A list of Provisional Voters by reason for voting provisionally**
    - **Total Number of Provisional Votes cast for voters lacking ID**
    - **Total number of Provisional Voted Accepted/Rejected**
- **List of entities that conducted recounts or had election contests**

We thank you in advance for your responses to this initial audit survey and request that you begin preparing the enclosed list of documents and records for our agency's review.

Please feel free to reach out to our office directly if you have any questions or concerns.

Sincerely,

John B. Scott
Texas Secretary of State

Encl.: 2020 Forensic Election Audit – Phase 2: Comprehensive Records Examination

AMERICAN OVERSIGHT

2020 Forensic Election Audit

Phase 2: Comprehensive Records Examination

The purpose of this document is to outline the records and procedures that the Texas Secretary of State's office is reviewing for the forensic audit of the 2020 General Election in Collin, Dallas, Tarrant, and Harris counties. The specific review process for each category will be based on the county's response to the initial survey questions provided. Once the scope is established on a county-by-county basis, we will provide detailed documentation regarding the specific review of each applicable category.

We recognize that some counties may use different terminology for certain forms and procedures. The terminology used in this document is based on commonly used terms in the Texas Election Code and based on industry standards. To the extent that counties use different terminologies to describe the election materials and procedures used in the November 2020 General Election, county election officials will have the opportunity to provide an explanation in their responses ahead of our office's on-site visits.

Election Security

The following questions pertain to each county's election security measures. Please elaborate to the fullest extent possible in your responses:

- Do you have badge-controlled access to your election office?
- Do you keep track of who enters into the office, especially sensitive areas?
- Are visitors escorted at all times?
- Do you keep track of who enters the ballot programming area? Are the number of people authorized to access the programming area limited?
- Did your county attend Texas Secretary of State webinars that discussed the Election Security Toolkit?
- Did your county create individual versions of all six documents that address the procedures in your county?
- If you did not complete all 6 documents, which of these did you complete?
    - Vendor Risk Management Policy (VRMP)
    - Continuity of Operations Plan (COOP)
    - Incident Response Plan (IRP)
    - Election Information Security Policy (EISP)
    - Election System Security Plan (ESSP)
    - Election Security Best Practices
- Does your county have an offsite version of the Election Security Toolkit in a printed or electronically stored format?
- Does your county have a segmented election network?
- Does your county have a next generation firewall?

AMERICAN OVERSIGHT

- Does your county IT Department regularly patch and maintain the latest software version throughout the division?
- Does your county employ the Principle of Least Privilege?

Acceptance Testing Records if New Voting System was Used for the First Time

An examination of the following records will gauge the percentage of equipment that did not pass the acceptance testing and, therefore, was not operable during the November 2020 General Election:

- Logs for each device tested
- Logs that show if a device did not function properly or had to be returned for vendor review or service

L&A Testing Records

An examination of the following documents and records will determine if the voting system accurately recorded the test voters' choices and therefore demonstrated that the voting system accurately recorded voters' ballot choices:

- Public Notice of Logic and Accuracy (L&A) Test
- All test ballots voted in the election
- Tally Sheets
- Test Deck Records
- List of participants who voted test ballots
- Records showing test outcomes and if tests had to be repeated
- Testing media, including:
    - memory sticks
    - mobile ballot boxes (MBBs)
    - paper ballots used for L&A test voting and tabulation)
- All testing seals or other test materials

Election Preparation

An examination of the following documents and records will determine whether or not protocols to secure the voting system and ballot were followed to protect the integrity of the election:

- List of Presiding Judges and Alternate Judges by Precinct and Party
- Notification of Election Training Program
- Ballot Programming: Please indicate whether your vendor programmed your ballot or if the ballot was programmed by in-house staff.
- Electronic Poll Books (EPBs) programming: Please indicate how your EPBs were programmed and at what intervals was the Official List of Registered Voters on the EPB updated.

Phase 1 Progress Report:
Full Forensic Audit of November 2020 General Election

On September 23, 2021, the office of the Texas Secretary of State (SOS) announced a full forensic audit of the November 2020 General Election in Collin, Dallas, Harris and Tarrant counties. Combined, a total of 3,885,875 votes were cast in these four counties in the November 2020 election – approximately 35% of the roughly 11.3 million votes cast statewide.

During Phase 1 of the full forensic audit, the SOS announced it would review available data and documents concerning the security and accuracy of voting systems used in each of the four counties, as well as the counties' work to maintain the accuracy of their respective lists of registered voters.

The below progress report on Phase 1 of the full forensic audit outlines the SOS's findings within four categories:

I. Completion of the statutorily required partial manual count of electronic voting system ballots;
II. Completion of statutorily required Election Security Assessments (ESAs) and dedication of remediation funds to address any gaps in security;
III. Maintaining the accuracy of the statewide voter registration database; and
IV. Identifying potential non-U.S. citizens who are registered to vote in Texas and who cast a ballot in the November 2020 election, individuals registered in Texas and another state who cast more than one ballot in the November 2020 election, and potential votes cast in the name of deceased people.

This information, together with each of the four counties' timely responses to the SOS's pre-audit survey, will help guide the SOS's in-person comprehensive document examinations conducted in Phase 2. To the extent any information was not made available to our office before the publication of this report, the SOS will endeavor to include any outstanding data figures in the final forensic audit report released after the completion of Phase 2.

I. Partial Manual Count of Electronic Voting System Ballots

Pursuant to Section 127.201 of the Texas Election Code, Texas counties are required to initiate a partial manual count of electronic voting system ballots within 72 hours of the polls closing, and are required to complete the partial manual count not later than the 21st day after Election Day. The purpose of this requirement is to ensure that votes cast and counted on electronic voting systems were tabulated accurately. To be used in Texas elections, voting systems must be certified

AMERICAN OVERSIGHT

by the U.S. Election Assistance Commission (EAC) and certified by the State of Texas through an examination by the SOS and the Office of the Texas Attorney General, under TEC Chapter 122. All information regarding voting system certification is available on the Texas SOS web site.

Under TEC Section 127.201, counties are required to conduct a manual count in at least one percent of the election precincts or in three precincts, whichever is greater, in which an electronic voting system was used in a general election. The SOS is responsible for choosing the race(s) and precinct(s) used to conduct the partial manual count in a general election. For the November 2020 Election, the office of Texas Railroad Commissioner was chosen as the race for which counties conducted their respective partial manual counts. In order to protect the security and integrity of the voted ballots, the SOS has provided alternate Election Day locations for the partial manual count for counties that are part of the Countywide Polling Place Program (CWPP). This is done to ensure that the accuracy of the voting system equipment is thoroughly audited in a specific location while also ensuring that fewer election office personnel are handling voted ballots from across the county. None of the four counties reported any discrepancies in Election Day ballots counted electronically versus those counted by hand.

Under Sec. 127.201(e), counties are required to deliver a written report of the results of the partial manual count to the SOS within three days of completing the count.

In Collin County, precincts 126, 209 and 66 were chosen for the partial manual count. Among these three precincts, the results provided to the SOS office showed a 17 vote discrepancy between electronic and hand counts. Collin County indicated that the discrepancy between the electronic count and hand count in these precincts was due to the use of direct-recording electronic (DRE) voting machines in curbside voting for individuals who are physically unable to enter the polling place. The DREs that Collin County employed for curbside voting do not produce a paper record and therefore were not included in the manual count. The SOS office will verify this explanation during its on-site examination of records in Collin County as part of Phase 2 of the full forensic audit.

In Dallas County, precincts 1062, 1111, 1726, 2003, 3401, 4046 and 4269 were included in the partial manual count. Among these seven precincts, the results of the partial manual count provided to the SOS office showed a 10 vote discrepancy between electronic and hand counts. The 10 vote discrepancy in early in-person votes in precinct 1111 appears to have resulted from a data entry error by county officials when transmitting the partial manual count report to the SOS. The SOS office will verify the cause of this discrepancy during its on-site examination of records in Dallas County as part of Phase 2 of the full forensic audit.

In Harris County, precincts 130, 188, 553, 600, 668, 783, 791, 924, 948 and 952 were included in the partial manual count. Among these 10 precincts, the results of the partial manual count provided to the SOS office showed a 5 vote discrepancy between electronic and hand counts. Because Harris County employed DRE devices during the November 2020 General Election, a hand count of ballots cast on DRE systems was impossible. Therefore, Harris County was only able to provide electronic and manual count figures for mail ballots cast. Harris County indicated that the 5 ballot discrepancy occurred due to an error in the manual counting of mail-in ballots. The SOS office will verify this explanation during its on-site examination of Harris County's records as part of Phase 2.

II. Election Security Assessments

Pursuant to Section 279.003 of the Texas Election Code, all 254 Texas counties are required to undergo an Election Security Assessment (ESA) to identify potential gaps in the cybersecurity and physical security postures of each county's election office, and recommend steps the county must take to address the issues identified. In 2018, the EAC released $23,252,604 in Help America Vote Act (HAVA) funds to strengthen the security of Texas' election infrastructure. While a portion of those funds were used to conduct the ESAs at no cost to the counties, additional funding was reserved for remediation in the event that county elections offices needed assistance to fill gaps in their respective cybersecurity postures.

Contracts for the ESAs were executed with each county through the Texas Department of Information Resources (DIR) Managed Security Services (MSS) program. Although the results of these assessments are confidential under state law, we are able to disclose the following information regarding each county's request for remediation funds to enhance election security:

- **Collin County**'s ESA was completed in July 2020. The county requested $120,000 in federal HAVA funds, which required $16,000 in matching funds from the county. Collin County used a portion of these funds for security enhancements that included additional ballot scanners and security cameras.

- **Dallas County**'s ESA was completed in February 2019. The county requested $120,000 in federal HAVA funds, requiring a $16,000 match from the county. Security enhancements included products to secure band service to help improve and secure network communication between E-pollbooks and the data center. The combination of features provide for an end-to-end, highly secure encrypted environment to transport voter registration data.

AMERICAN OVERSIGHT

- **Harris County**'s ESA was completed in February 2020. The county requested $120,000 in federal HAVA funds, which required $16,000 in county matching funds. Security enhancements included E-pollbook software development and maintenance.

- **Tarrant County**'s ESA was completed in October 2020. The county requested $120,000 in federal HAVA funds, requiring a $16,000 county match. Security enhancements included: upgrading and repairing election equipment containers used to transport and secure equipment during distribution to polling locations; curbside voting equipment; security components for the voter registration system; and security cameras and video surveillance equipment.

III. Accuracy of Statewide Voter Registration List[1]

The National Voter Registration Act of 1993 (NVRA) requires states to adopt and implement procedures to maintain accurate and current voter registration lists. Additionally, states are required to implement a voter registration list maintenance program that makes a reasonable effort to remove ineligible persons from the voter lists in accordance with the NVRA and state law.

Likewise, the Texas Election Code (TEC) enumerates the importance of maintaining accurate voter registration lists through defining the acquisition of data from other specified agencies, outlining the procedures and processes required of the SOS and county voter registrars, and identifying the criteria used to match this information with the statewide voter registration list. Specifically, Sections 18.068 and 18.0681 of the Texas Election Code require the SOS to conduct comparative reviews of the statewide voter registration list with information received under TEC Chapter 16. Following the identification of matched records, the SOS is required to send this information to county voter registrars for further review. It is the responsibility of the county voter registrar to review these records on the grounds of eligibility and/or to eliminate duplicative records to ensure the accuracy and integrity of the county voter list.

Each county voter registrar, pursuant to TEC Section 18.061, is required to provide to the SOS on an expedited basis the information necessary to maintain the registration list for their respective counties. This includes the electronic submission of all voter registration related maintenance activities. Data collected and represented in this progress report is dependent on the electronic submission of information from the counties included in this audit to the statewide voter registration database. All four counties currently use an independent voter registration system.

Please note that removal of ineligible and/or deceased voters from the statewide voter registration list in and of itself does not indicate that any illegal votes were cast. These maintenance activities are prescribed by state law to ensure the integrity and accuracy of the statewide voter registration list. Voter list maintenance is performed on a regular and ongoing basis in Texas to prevent ineligible voters from casting ballots and to prevent individuals from casting ballots using another person's voter registration information.

[1] The data in this section reflects information in the SOS's statewide voter registration database as of December 7, 2021.

AMERICAN OVERSIGHT

Ineligibility Due to Death

Section 18.068 of the Texas Election Code requires a quarterly comparison of the statewide voter registration list to identify all potential deceased voters. To meet this requirement, the SOS implemented a comparative analysis of the statewide system to records provided by the Local Registrars of Death, Clerks of the Court, the Bureau of Vital Statistics, the Electronic Registration Information Center (ERIC), and the Social Security Administration, in accordance with the Texas Election Code.

Based on the matching criteria outlined in TEC 18.068 and the SOS's administrative rules (1 Tex. Admin. Code § 81.6(a)), records that are strong matched with the above identified sources are cancelled by the state system. 'Strong' matches are those whose last name, date of birth, and full Social Security Number are all an exact match. Records that are considered 'weak' matches, on the other hand, require an additional review process to be conducted by each individual county voter registrar. Since November 2020, 190,227 strong matched records have been cancelled by the state and 67,551 weak matched records have been provided to county voter registrars statewide for further review. Overall, since November 2020, a review of the voter registration system indicates that 257,778 potential deceased voters were identified through the statewide voter registration system, resulting in the identification and cancellation of 224,585 voter registrations for deceased voters.

An overview of the data of the counties included in this audit is indicated below for the time period of November 2020 to the present.

Cancellation of Deceased Voter Registrations

County	Strong Matches Cancelled by State	Weak Matches Provided to County	Number of Reviews Completed by County	Number of Reviews Remaining Unresolved	Weak Matches Cancelled by County	Total Number of Cancellations
Collin	4,074	1,674	1,619	55	815	4,889
Dallas	12,507	6,153	6,153	0	2,419	14,926
Harris	19,064	11,361	11,356	5	4,850	23,914
Tarrant	11,876	4,740	4,730	10	2,079	13,955

Ineligibility due to Felony Conviction

TEC Section 16.003 requires the Department of Public Safety (DPS) to prepare and file an abstract of final judgment of a felony conviction for any person 18 years of age or over each weekday. The SOS compares this information to the statewide voter registration records and provides this information to county voter registrars for further review.

A review of the cancellation trend reports indicates that 1,628 potential felon voters were identified, investigated and had their voter registrations cancelled statewide since November 2020. Specifically, a review of data related to the felon process for the respective counties examined in this audit found the following information since November 2020:

AMERICAN OVERSIGHT

Cancellation of Felon Voter Registrations

County	Number of Reviews Remaining Unresolved	Total Number of Cancellations
Collin	114	0
Dallas	46	16
Harris	65	13
Tarrant	103	4

The SOS has limited visibility into all notices provided to county voter registrars from various local and court authorities, which occur independent of the statewide system. However, when these records are cancelled, those cancellations are ultimately reported in the SOS's statewide voter registration database.

Ineligibility due to Non-U.S. Citizenship

TEC Section 18.068, TEC Section 16.0332, and Section 62.113 of the Government Code require the SOS to compare the statewide voter registration records to identify any possible non-U.S. citizen records and to provide this information to county voter registrars for further review. Voting records in need of review are identified through a comparison of voter registration records, data provided by DPS, and information reported under Section 62.113 of the Texas Government Code.

Based on the matching criteria outlined in the TEC, all records that matched with the above identified sources are sent to county voter registrars for further review. As with the felon process, information obtained through the numerous court authorities prevents the SOS from tracking the overall number of notices provided to county voter registrars from these sources as some notifications are independent of the statewide system. However, all voter registration cancellations are reported to the SOS through the statewide voter registration system. Since November 2020, a review of the cancellation trend reports suggest that 74 potential non-U.S. citizen voters were identified, investigated and voter registrations cancelled statewide from data provided by local and court authorities, including responses to jury summons in which an individual indicated that he or she is not a U.S. citizen.

Beginning in September of 2021, the SOS implemented a comparative process utilizing DPS citizenship data pursuant to a 2019 settlement agreement. Since that time, 11,737 possible non-U.S. citizen voter records have been sent to county registrars for review statewide. Of the 11,737 records, 278 voting records have been cancelled due to confirmation of non-U.S. citizenship by the county. Additionally, 2,049 voter records have been cancelled for failure to respond to a notice from the county voter registrar requesting documentation of proof of citizenship. Overall, 2,327 voting records have been removed from the active statewide voter registration list as a result of this agreed-upon process, which has now been codified into state law.

A review of data specifically related to this maintenance activity for Collin, Dallas, Harris and Tarrant counties is listed below. Voting records currently under review and/or pending response from a voter as part of the examination process are not reflected as this information has not been electronically submitted to the statewide voter registration system. It is important to note that some

AMERICAN OVERSIGHT

voter records may have been examined and resolved as part of the deceased, felony, and/or duplicate process.

Cancellation of Non-U.S. Citizen Voter Registrations

County	Number of Records Provided to County	Number of Cancellations for Confirmed Non-U.S. citizenship	Number of Cancellations for Failure to Respond to Notice of Examination	Number of Reviews Remaining in State System	Total Number of Cancellations
Collin	327	0	0	14	0
Dallas	1,385	5	1,188	0	1,193
Harris	3,063	0	0	11	0
Tarrant	708	1	0	528	1

Due to the lack of data available to track the status of this maintenance activity, the SOS requested an update from all Texas counties on the agreed-upon noncitizen review process. Collin County indicated that 273 notices had been sent to possible noncitizens requesting proof of citizenship and the review of these records remains in progress at this time. Tarrant County indicated that it was in the process of reviewing each of the records and confirming citizenship documentation with DPS. No status update was provided from Dallas or Harris County. Dallas County has reported no outstanding reviews to complete. The SOS will work to determine what steps were taken to investigate these records in Harris County.

The NVRA requires that states complete their generalized programs to remove voters from the rolls not later than 90 days before a federal primary or general election (52 U.S.C. § 20507(c)). The SOS has provided notice to county registrars that the 90-day period for the March 1, 2022 primary election has begun. Under the NVRA, the only permissible voter removal programs that voter registrars may undertake until after the primary election, and any subsequent primary runoff election, is to remove voters who voluntarily cancel their voter registration, voters who are deceased, and voters who are finally convicted of a felony or adjudicated mentally incompetent for voting.

Duplicate Registration Records

TEC Section 18.0681 requires the SOS to periodically compare the county voter registration records to determine if any voters have more than one voter registration record on file. Upon completion of the statewide database comparative process, potentially duplicative records are sent to county voter registrars with the oldest registration record for further investigation.

If the duplicative records are within the same county, the voter registrar may merge the records following a determination that each record belongs to the same voter using the procedure for the correction of registration records under TEC Section 15.022. If the records are located in more than one county, the registrar of the county with the oldest record may deliver a written confirmation notice in accordance with Section 15.051 or cancel the registration of the voter in accordance with Section 16.031(a)(1), provided that the voter's record in the county with the newest registration record is not on the suspense list.

AMERICAN OVERSIGHT

A review of the cancellation trend reports from the statewide voter registration system indicated that during the timeline included in this audit, 11,803 duplicative records were within the same county of registration. This figure does not include records that were reviewed and merged within the same county of registration to retain voting participation information. Additionally, the review reveals that 437,559 duplicative records were cancelled for voters having a voter registration record in more than one county. Overall, the state review process resulted in the identification and removal of 449,362 duplicate voter registrations from the statewide voter registration list.

A review of data specifically for Collin, Dallas, Harris and Tarrant counties is listed below for the timeframe of November 2020 to the present.

Cancellation of Duplicate Voter Registrations

County	Number of Cancellations Within the Same County	Number of Cancellations Outside the County	Number of Reviews Remaining in State System	Total Number of Cancellations
Collin	200	19,564	66	19,764
Dallas	81	39,717	1	39,798
Harris	1,117	53,255	7,801	54,372
Tarrant	615	30,160	28	30,775

IV. Non-U.S. Citizen Voters, Cross-State Duplicate Voters and Deceased Voters

Non-U.S. Citizen Voters

As noted above, the SOS comparative process utilizing DPS citizenship data pursuant to a 2019 settlement agreement has identified 11,737 possible non-U.S. citizen voter records statewide. Those records have been sent to county voter registrars for further review. Potential non-U.S. citizen records do not indicate an illegal vote has been cast, and are not resolved until the county investigation is complete and the voter has been removed from the statewide voter list due to non-U.S. citizenship.

In the four counties included in this audit, the breakdown of the possible non-U.S. citizen voter records were as follows:

County	Possible non-U.S. citizen voter records identified
Collin	327
Dallas	1,385
Harris	3,063
Tarrant	708

The SOS is actively reviewing the 2,327 voting records that have recently been cancelled throughout the state as part of this review process for voter participation history. Of those 2,327, county voter registrars reported 278 registered voters as confirmed non-U.S. citizens. The SOS, in coordination with county voter registrars, continues to verify the number of non-U.S. citizens registered to vote statewide to identify those that may have voted in the November 2020 election.

AMERICAN OVERSIGHT

All records with voting history suggesting the potential of an illegal vote cast will be referred to the Office of the Attorney General (OAG) for further investigation, pursuant to Sec. 31.006 of the Texas Election Code.

While several counties took action promptly to work their potential non-U.S. citizen matches, others did not begin investigating or send notices of examination until mid to late November of 2021. As a result, the 30-day window in which the registrant could provide proof of U.S. citizenship fell *after* the federally-required NVRA moratorium on voter registration cancellations had begun. This means that many potential non-U.S. citizens identified through the agreed-upon process would have until, at the latest, May 25th, 2022 to respond to a notice of examination before their voter registration is cancelled.

Cross-State Duplicate Voters

Section 18.062 of the Texas Election Code requires the SOS to participate in an interstate crosscheck program to prevent duplication of registration in more than one state or jurisdiction. As a member of the Electronic Registration Information Center (ERIC), the State of Texas—through the SOS's Elections Division—works with the 31 other member states to compare voter registration lists and voter participation records to identify voters whose addresses may have changed, as well as to identify any voters who may have voted in more than one state or jurisdiction.

The SOS, in collaboration with other states, is currently conducting a thorough review of voters who may have voted in more than one state or jurisdiction as well as voters that have been identified through the cross-state program as deceased. This extensive review includes the sharing of information such as voter identification verification and voter participation records.

Though this collaborative work is still in progress with other states or jurisdictions, the SOS is actively engaged in a review of 509 voter records in which the voter may have cast a vote in the 2020 November General Election in more than one state or jurisdiction. Initially, the work involves the elimination of any records that were erroneously matched due to missing or incomplete data and/or data entry errors to clearly identify remaining records that warrant further investigation. The continued review of the remaining records is expected to be completed in January 2022, contingent upon timely information sharing from other ERIC member states in which cross-state duplicate votes may have been cast. Upon completion of the review process, all records indicating potential illegal voter registration and/or voter participation across more than one state or jurisdiction will be referred to the OAG for further investigation. Below is a breakdown of the information specific to the counties included in this audit review.[2]

County	Number of Potential Cross-State Voters Under Review
Collin	9
Dallas	12
Harris	27
Tarrant	12

[2] These figures are current as of December 29, 2021.

AMERICAN OVERSIGHT

Deceased Voters

Additionally, the SOS has completed an initial review of 236 potentially deceased voters who were recorded as having voted in the 2020 November General Election. Like the cross-state review process, the initial work involves the elimination of any records that were erroneously matched due to missing or incomplete data and/or data entry errors to clearly identify remaining records that warrant further investigation. Of the 236 potential deceased voters included on the initial review list, 169 have been eliminated as erroneous matches. The investigation of the remaining 67 records is ongoing and is expected to be completed in January 2022. Below is a breakdown of the information specific to the counties included in this audit review.[3]

Hello Keith and the TEAM team,

Tarrant County has been working on these records for weeks now. As of today, this office has:

1. Attended the SOS trainings on this topic: our staff participated on the webinars conducted by the SOS on September 8, 2021.
2. Examined the records provided by the SOS: As stated in Election Advisory No. 2021-11, an voter registrar may "*…not immediately cancel any voter's registration simply because they are identified as a potential non-U.S. citizen in the initial file or a weekly file*", therefore a thorough review of each voter's record has been conducted to ensure compliance with the advisory and the Texas Election Code. As of this email, this list has 700 names on it.
3. Requested additional documentation from DPS: for a small sample of voters on the list, we requested DPS to provide us with copies of the paperwork submitted to their offices. We must point out that in some cases voters on the list provided by the SOS indicate in the DPS paperwork that they are US Citizens.
4. Met with County Leaders and Attorneys to review and discuss the advisory: because this was a new process originating from a very specific circumstance, I felt it was important to have our legal team take a look and provide feedback.
5. Started the process of translating the notice of examination to Vietnamese: although the State of Texas is a state that requires voting materials in languages other than Spanish and English, the SOS only provides translations to Spanish. Because of this, we have an additional requirement to have materials translated, and the layout of documents redesigned. This last step is currently under way.

We'll admit that the November 2, 2021 election has had an impact on the progress, and we could be done by now had the two events not overlapped. We estimate that the notices should start mailing out within 2 weeks of receiving the finalized, translated documents.

EXTERNAL EMAIL ALERT! Think Before You Click!

Hello Everyone,

As you know, we sent your office records of possible non-United States citizens registered to vote in your counties on September 10, 2021. In addition, we have since that time been sending weekly information to you regarding currently registered voters who, in the previous week, presented evidence of non-citizenship to the Department of Public Safety when they were issued a new or renewed driver license or identification card and were registered to vote prior to their most recent DPS visit. As indicated in Election Advisory No. 2021-11, this process is being conducted in accordance with the parties' settlement agreement in the litigation regarding the Secretary of State's January 2019 list maintenance activity.

It appears that a number of counties have taken no action on this information. As a reminder, SB 1113 was passed during the 87th Regular Session of the Texas Legislature. This bill allows our office to discontinue your access to Chapter 19 funds if you fail to timely perform your list maintenance activities, including action regarding possible non-citizens on the voter lists.

Please send our office a status update by Wednesday, November 17 regarding your progress with regard to the possible non-citizen voter records that we have sent you over the last two months through the agreed-upon process. Send the update to the TEAM team at elections@sos.texas.gov.

Thank you and let us know if you have any questions.

ANNIE'S LIST PRESS STATEMENT ON AUDIT OF TEXAS' 2020 ELECTION RESULTS

TEXAS - Following a call from former President Donald Trump for Governor Abbott to add an election audit bill to the third special session agenda, the Texas Secretary of State announced that he will conduct an audit of the 2020 election results in four of the state's most populous counties in Texas.

"Republicans have been targeting urban counties where people of color and young voters turned out to vote in 2020," said Royce Brooks, Executive Director of Annie's List. "Despite his failed leadership, Abbott is letting Trump run Texas and he's running it right into the ground," said Brooks.

###

Annie's List has won more than 160 races across the state - making it one of the most successful political organizations in Texas. Since its founding in 2003, Annie's List has raised more than $20 million to help progressive women run efficient and effective campaigns.

Hi Darlene,

We'll be releasing our Phase 1 progress report within the next hour, so you'll see some of the information you're looking for. However, do want to respond directly to your questions below.

1. No – Texas is not conducting a 'Risk Limiting Audit,' as Representative Toth and others have alleged. A Risk Limiting Audit is part of SB 598 passed by the legislature earlier this year, and will be conducted following each election going forward, pursuant to state law. Our full forensic audit that is underway now goes much further than a risk-limiting audit, and yes – part of the results is comparing ballots counted by machine versus those counted by hand. We document the discrepancies in those counts and will be verifying the counties' explanations for those discrepancies during our on-site visits in Phase 2.
2. Dallas County did provide several other documents that were too large to send or to include in that .pdf attachment, and those will be part of our analysis in Phase 2 of the full forensic audit. You're correct that all we asked for was numbers, but Dallas County sent us raw data files instead.
3. The Legislature has provided our office approximately $4 million for our agency to establish a Forensic Audit Division, and we have hired several new staff members as a result. We have not been authorized to provide any of those funds to Harris County for purposes of this audit.

Will be in touch again soon.

Hey Sam,

Trying to reach you!

Here are a few questions:

1. I spoke with Steve Toth who said Texas was conducting a risk limiting audit, not a forensic audit. He said the paper ballots needed to be checked against the electronic ballots, for example. Will Texas be looking at ballot counts to see if they match up to machine counts when possible? So which kind of audit is the Texas audit?

2. Dallas didn't give you an answer to questions other districts answered -- such as total early voting ballots by mail requested, total early voting ballots by mail sent out. Were you able to get that information? Why did they say the file was too large when all you wanted was a number?

3. Harris County seemed to indicate that they didn't have the resources to comply because they were going to be involved in a lot of elections. Will the SOS office provide staffing or money to get the job done for example?

Thanks,

Darlene McCormick Sanchez

Good Morning:

Have we received any paperwork from the respective counties on the audit? There were specific items requested with a return date to us of December 21, 2021. Has any of this been received?

In the near term, we request that you provide us the following information, in writing, to our office by **Tuesday, December 21st** in order to guide the next phase of the forensic audit process:

- A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.
- Whether any voting sites were closed or added due to an emergency or other necessity
- Any known procedural or chain of custody defects
- Any other issues discovered that you would like to disclose now that may be relevant to our audit process
- A list of complaints received and resolved, with a description of any known investigative steps or known resolution.
- A detailed accounting of the following: o Total Early Voting Ballots by Mail Requested o Total Early Voting Ballots by Mail Sent out o Total Early Voting Ballots requested by FPCA o Breakdown of Early Voting Ballots by Mail accepted/rejected o Total number of mail ballot voters that cancelled their mail ballot without surrendering the mailed ballot and voted in person o Total number of mail ballot voters that surrendered their mail ballot and voted in person
- A detailed accounting of the following: o Total Number of Provisional Votes Cast o A list of Provisional Voters by reason for voting provisionally o Total Number of Provisional Votes cast for voters lacking ID o Total number of Provisional Voted Accepted/Rejected
- List of entities that conducted recounts or had election contests We thank you in advance for your responses to this initial audit survey and request that you begin preparing the enclosed list of documents and records for our agency's review.

AMERICAN OVERSIGHT

OFFICE OF ISABEL LONGORIA
ELECTIONS ADMINISTRATOR
HARRIS COUNTY ★ STATE OF TEXAS

December 21, 2021

John B. Scott
Texas Secretary of State
Elections Division
P.O. Box 12060
Austin, Texas 78711-2060

Dear Secretary Scott:

I write in response to your letter dated December 10, 2021, regarding "Phase 2 of the Full Forensic Audit," in which you asked my office to compile a list of responses by December 21, and you provided an almost 8-page list of documents indicating you would like our office to "begin locating the documents listed to prepare for our Forensic Audit Division's on-site examinations, which will be coordinated at a mutually convenient time in January 2022." That is an impossible timeline by which to complete the tasks requested.

Our office is in the process of preparing to hold six elections over the course of the next six months, four of which are countywide elections, some even ordered by the state legislature: a special election in January, the Primary elections in March, a likely runoff for the special election, the May 7 uniform election, the May 24 Primary election runoff and the election for Precinct Chairs, and the likely runoff for the May 7 uniform election. Every day from now until June 2022 there is either voting actively occurring or a critical deadline our office must complete for at least one of those six elections. Thus, it would be cumbersome and potentially irresponsible for us to divert staff and resources away from active elections to host an "audit" of a past, certified election.

Additionally, the extensive requirements of Senate Bill 1 will be in effect, for the first time, for the Republican and Democratic Primary Elections. Planning and executing the implementation of such a wide sweeping legislation is a massive undertaking and requires my staff's full time and attention. Because your office has released little guidance on how to implement these important new provisions, we are left to sort through the logistics on our own in hopes that they meet the undisclosed SOS standards.

In short, taking hundreds of hours from staff time to pull documents listed in your prior letter instead of working toward implementation of SB1, nor preparing for the massive election calendar over the next six months, would be asking us to put the 2022 Primaries and compliance with Senate Bill 1 in jeopardy.

AMERICAN OVERSIGHT

Since I was sworn into office on November 18, 2020, 15 days after the November 2020 Presidential Election concluded, the Elections Administrator's Office has endeavored to run elections fairly, equitably, accurately, and smoothly. That is why we are doing everything in our power to fully prepare for the upcoming 2022 elections for the sake of Harris County voters.

We attach responses to the questions in your December 10, 2021 letter. For the remainder of your requests, we await your call to discuss the time and resources it would take to go through the documents.

Sincerely,

Isabel Longoria
Harris County Elections Administrator

1. **A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.**
   Our office has gathered information and is in the process of comparing for any percentage discrepancies.

2. **Whether any voting sites were closed or added due to an emergency or other necessity.**
   Yes, three locations were closed for the remainder of a day due to weather-related issues.

3. **Any known procedural or chain of custody defects.**
   Procedural and Chain of Custody documents from the November 2020 Election have been maintained and are available for review to ascertain the existence and nature of any defects.

4. **Any other issues discovered that you would like to disclose now that may be relevant to our audit process.**
   Please see response to no. 3.

5. **A list of complaints received and resolved, with a description of any known investigative steps or known resolution.**
   Our office is in the process of gathering the ADA complaints from Nov 2020.

6. **A detailed accounting of the following:**
   a. **Total Early Voting Ballots by Mail Requested** 194,566 (does not include FPCA or Emergency ballot applications)
   b. **Total Early Voting Ballots by Mail Sent out** 206,020

TARRANT COUNTY
ELECTIONS ADMINISTRATION

December 21, 2021

Honorable John Scott
Texas Secretary of State
P.O. Box 12060
Austin, TX 78711-2060

Mr. Secretary,

I am in receipt of your letter dated December 10, 2021. I sincerely appreciate the work being done by your office to provide clarity and confidence to all Texas voters about the 2020 Election and, as we have said from the day the audit was announced, Tarrant County stands ready to assist your office in the process. I am 100% confident that the outcome will show, once again, what has been clear from the beginning: that Texas has safe and secure elections, and that the 2020 Presidential Election was not an exception.

The list below is our response to the information you requested us to provide in writing by today:

- *A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.*

  Official results are not generated per location, but rather per election precinct as required in Chapter 67 of the Texas Election Code. To produce the numbers per location as requested, we have turned to other documentation we use to check on the progress of the election activities.

  During Early Voting, Lead Clerks are required to call in to our office and report, at the end of every day, the number of voters checked into the electronic poll book and the number of ballots cast in the ballot scanner. While the number of voters checked in is accessible from our offices, the fact that the voting system is air-gapped leaves no choice but to obtain this information through a phone call. Using that daily phone report, we have verified that while there are minor discrepancies, all of them are below the 1% threshold you have inquired about.

  For Election Day, we compared the number of voters who signed in on the electronic poll book to the numbers of ballots cast as reported by the ballot scanners on election night. As a regular practice, Tarrant County does a comparison of these two numbers on election night, which allows us to detect any potential problems and address them immediately, and we keep a record of what was done that night (we call it the Election-night audit). That report, however, ***does not include the provisional ballots that are approved by the ballot board after election day***, hence there are minor variations that are not considered red flags. The table below summarizes the 16 sites (out of 323) that fall within the specified range:

Please note Tarrant County is currently engaged in litigation which may impact the ability of the Tarrant County Elections Administration to retrieve some of the data sought by the Secretary of State's Office. Specifically, an individual sought and received a Temporary Restraining Order and then an Agreed Temporary Injunction which has led to the powering down and secure storage of various servers and hard drives used in the November 2020 election. This lawsuit seeks to allow the plaintiff to access some data and information on these devices pursuant to the Texas Public Information Act. Should the Secretary of State wish to consider having Tarrant County approach the District Court with jurisdiction over the information to seek permission to access the information to aid your audit, please contact us so that we may explore that possibility.

Finally, the Tarrant County Elections Administration will assist the Secretary of State in procuring a secure space for the performance of this audit in January 2022. However, because the Elections Administration will be in the midst of preparing for the March 2022 primary elections, it is highly likely such a work area for the Secretary of State would be in a building separate from the main Elections Administration office. The Elections Administration will also assist in finding a way to transport the data, documents, and other information sought by the Secretary of State to this secure location.

In closing, Mr. Secretary, I want to reiterate once again that we are here to assist your office and fully cooperate in this process. I know you and your staff will understand the need to balance out the workload of this project with the conduct of the Primary and Municipal elections happening in the first half of 2022. The successful completion of both projects will be our utmost priority for the new year.

Sincerely,

Heider Garcia

Hello Keith and the TEAM team,

Tarrant County has been working on these records for weeks now. As of today, this office has:

1. Attended the SOS trainings on this topic: our staff participated on the webinars conducted by the SOS on September 8, 2021.
2. Examined the records provided by the SOS: As stated in Election Advisory No. 2021-11, an voter registrar may "*…not immediately cancel any voter's registration simply because they are identified as a potential non-U.S. citizen in the initial file or a weekly file*", therefore a thorough review of each voter's record has been conducted to ensure compliance with the advisory and the Texas Election Code. As of this email, this list has 700 names on it.
3. Requested additional documentation from DPS: for a small sample of voters on the list, we requested DPS to provide us with copies of the paperwork submitted to their offices. We must point out that in some cases voters on the list provided by the SOS indicate in the DPS paperwork that they are US Citizens.
4. Met with County Leaders and Attorneys to review and discuss the advisory: because this was a new process originating from a very specific circumstance, I felt it was important to have our legal team take a look and provide feedback.
5. Started the process of translating the notice of examination to Vietnamese: although the State of Texas is a state that requires voting materials in languages other than Spanish and English, the SOS only provides translations to Spanish. Because of this, we have an additional requirement to have materials translated, and the layout of documents redesigned. This last step is currently under way.

We'll admit that the November 2, 2021 election has had an impact on the progress, and we could be done by now had the two events not overlapped. We estimate that the notices should start mailing out within 2 weeks of receiving the finalized, translated documents.

EXTERNAL EMAIL ALERT! Think Before You Click!

Hello Everyone,

As you know, we sent your office records of possible non-United States citizens registered to vote in your counties on September 10, 2021. In addition, we have since that time been sending weekly information to you regarding currently registered voters who, in the previous week, presented evidence of non-citizenship to the Department of Public Safety when they were issued a new or renewed driver license or identification card and were registered to vote prior to their most recent DPS visit. As indicated in Election Advisory No. 2021-11, this process is being conducted in accordance with the parties' settlement agreement in the litigation regarding the Secretary of State's January 2019 list maintenance activity.

It appears that a number of counties have taken no action on this information. As a reminder, SB 1113 was passed during the 87th Regular Session of the Texas Legislature. This bill allows our office to discontinue your access to Chapter 19 funds if you fail to timely perform your list maintenance activities, including action regarding possible non-citizens on the voter lists.

Please send our office a status update by Wednesday, November 17 regarding your progress with regard to the possible non-citizen voter records that we have sent you over the last two months through the agreed-upon process. Send the update to the TEAM team at elections@sos.texas.gov.

Thank you and let us know if you have any questions.

RE: Initial Audit Survey

Dear Secretary Scott,

Thank you so much for reaching out to our office, and also for your kind words in regards to the transparency in the election process that we strive for here in Collin County. With every passing election we become more efficient and adept in what we are asked to do as an election department in the great State of Texas. It is our hope that through this audit process our hard work and dedication to transparency is evident in the findings and documentation that we are able to provide to you.

As requested in your previous letter (dated December 10, 2021), the following are the responses of the Collin County Election Department to the initial audit survey that was contained within said letter. We hope that the information provided below helps guide you into Phase 2 of this audit. The following are our responses:

- **A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.**

We had no locations that had a 1% discrepancy between the number of voters that checked in to the number of votes cast at that location.

- **Whether any voting sites were closed or added due to an emergency or other necessity**

We had no voting sites that were closed or added due to an emergency during the November 2020 General and Special Election.

- **Any known procedural or chain of custody defects**

Looking back on the November 2020 General and Special Election we can acknowledge some defects in our chain of custody process that was in play then. It is important to note that we are constantly enhancing our processes to become more efficient each election. An area of deficiency that we noticed from the November 2020 election was the tracking of full ballot boxes as they moved from a polling location to our office. We were able to indicate what location a full ballot box came from, however, there was some uncertainty about what specific tabulator the box was in at the location. Some of our larger locations had multiple DS200s, adding a level of difficulty in tracking this information. We have since changed how we track each piece of equipment that we have at each location by adding serialized barcodes to all hardware devices. These barcodes were also added to location tabulator USB/media sticks, which we noticed was another deficiency in our process. We now know specifically what USB/media stick went into each device pre-delivery and tabulation instead of the backend of the process. These changes have enhanced our security and chain of custody moving forward.

- **Any other issues discovered that you would like to disclose now that may be relevant to our audit process**

There are no other issues that we have discovered that may be relevant to the Secretary of State's audit process.

DALLAS COUNTY ELECTIONS DEPARTMENT

Memorandum

Date: April 24, 2021

To: Michael Scarpello

From: Rivelino Lopez

Re: **300 Provisional Ballots**

Issue

On February 8, 2021, the Logistics Manager found 318 Provisional Ballots from the 2020 Presidential Election in the warehouse. Apparently, the ballots were not processed correctly in November because when delivered to a regional site, the ballots were mishandled by a manager and placed inside a supply box rather than in a provisional ballot transfer case. This chain-of-custody issue is problematic because certain voters' ballots that should have been counted were not counted

Action

DCED consulted with the Civil Division of the DA's Office and the SOS and was instructed to 1) Research whether the Provisional Ballots would have counted, 2) Update the voters' VR, but do not give the voters credit for voting. 3) Prepare a brief report of what happened with details on how to prevent the issue from happening in future.

DCED found that 63 of the 318 Provisional Ballots would have been counted if processed in a timely manner but that the votes would not have affected the outcome of any elections.

To prevent future occurrences, the regional site procedures were modified so that provisional ballots would not be processed at the site and only processed by the ballot board at the DCED.

Subject: RE: Audit Report Questions

Hi Holly,

Sorry I missed your calls this morning, been in and out of the office and just got a chance to check my messages.

First – all four counties did respond to our December 10th request for initial information – those responses are linked in the Phase 1 progress report here: https://www.sos.texas.gov/elections/forms/initial-audit-survey-responses.pdf

I would note all four counties responded by the deadline of December 21st.

The partial manual counts, by law, are conducted in either 1% of precincts or three precincts, whichever is greater, pursuant to Sec. 127.201 of the Texas Election Code. In Dallas, Tarrant and Harris counties it was 1% of precincts, and in Collin County it was 3 precincts. Collin County has less than 300 voting precincts, so 3 precincts is greater than 1% of precincts in Collin County as a whole.

Depending on any additional irregularities that are revealed in our examination of documents under Phase 2, the Secretary of State's office has the authority to conduct "a manual or automatic count of any portion of any number of ballots from any precinct," per Sec. 127.202. In our summary of the two-phase audit, the SOS announced that irregularities or deviations from election administration procedures that may have affected the accuracy of the electronic voting system ballot count could trigger a full manual recount of ballots in the affected precincts or polling locations, pursuant to our office's authority under Sec. 127.202.

On December 1st, we entered the 90-day federally required moratorium on voter registration cancellations under the National Voter Registration Act (NVRA). You'll see on page 8 of the report, we provided the latest status update on voter list maintenance before the 90-day cancellation moratorium went into effect:

> *Due to the lack of data available to track the status of this maintenance activity, the SOS requested an update from all Texas counties on the agreed-upon noncitizen review process. Collin County indicated that 273 notices had been sent to possible noncitizens requesting proof of citizenship and the review of these records remains in progress at this time. Tarrant County indicated that it was in the process of reviewing each of the records and confirming citizenship documentation with DPS. No status update was provided from Dallas or Harris County. Dallas County has reported no outstanding reviews to complete. The SOS will work to determine what steps were taken to investigate these records in Harris County.*
>
> *The NVRA requires that states complete their generalized programs to remove voters from the rolls not later than 90 days before a federal primary or general election (52 U.S.C. § 20507(c)). The SOS has provided notice to county registrars that the 90-day period for the March 1, 2022 primary election has begun. Under the NVRA, the only permissible voter removal programs that voter registrars may undertake until after the primary election, and any subsequent primary runoff election, is to remove voters who voluntarily cancel their voter registration, voters who are deceased, and voters who are finally convicted of a felony or adjudicated mentally incompetent for voting.*

Hope this helps – let me know if you need any additional information.

Best,

Good Afternoon Sam,

I am working on a story and have a few questions about Phase I of the Forensic audit:

Wondering if the counties, Harris County in particular, have fully cooperated with requests? I know that Harris County commissioners court instructed their county attorney to block audit efforts, and would like to know if possible what requests the SOS office has made and whether the county has responded in any way- affirmatively or negatively.

Also, I note the manual recounts are limited to 1% of each county. In Phase 2 are there any plans to conduct additional manual recounts in Harris County?

Has the SOS office had any communication with Harris County regarding non-citizen or unresolved felon voter registrations?

My deadline is 4:00 pm.

I can be reached at 512-799-2027.

Subject: RE: Audits

Yes sir, we are referring instances of possible illegal voting to the Attorney General's office for investigation. While our office is not a law enforcement authority, and thus has no ability to bring charges for crimes committed, we are doing everything we can to collect the relevant information and provide it to the AG's office so they can prosecute accordingly.

The authority that we do have under the new voting law (SB 1) is to pull funding from counties who do not remove illegally registered voters (including non-U.S. citizens) from their county voter rolls. If a county fails to comply, we can pull their funding until they do so. Beyond that, the Texas Secretary of State's office has little enforcement authority, as that authority lies in the Attorney General's office.

Happy to answer any other questions you may have. Thanks again for reaching out.

Thank you for your prompt response! That's the document I'm working off of, actually. You will be investigating voter rolls. Will you be investigating the people who actually voted? I guess that's the sign in sheets at the polling stations? If it's discovered that a significant number of people who voted in the last election were illegal, will anything be done? If the outcome of an election has been changed by illegal votes, we need to do more than just promise to do better in the next election, although doing better in the next election is definitely better than not doing better.

Hi Fred,

Thanks for reaching out. I want to make sure you saw Phase 1 of our audit plan announced yesterday – which clearly states that not only are we conducting a full forensic review to make sure election officials followed the law, we are also examining the voter rolls for illegal voters – including deceased voters, duplicate/out-of-state registrations, and non-U.S. citizens – to remove them from the rolls and ensure that ineligible voters are not able to cast votes in future elections.

Please see the full memo here: https://www.sos.texas.gov/about/forms/9-28-21-forensic-audit-summary.pdf

Hello!

I'm concerned that the process for auditing Texas' elections as found on your website lists in the last step that the cure for irregularities or discrepancies is a recount. What if there are, as in Arizona, a large number of illegal voters? A recount will only count the same illegal votes again and not change the outcome.

AMERICAN OVERSIGHT

Everyone understands that when the dead vote it is because someone still alive has stolen their identity, but the same is true of people who move out of county and aren't purged from the rolls, as well as many other categories of false voters whose identities can be stolen to game the system. Threatening simple recounts when discrepancies are found is music to the ears of vote hustlers because they know their illegal votes are already in the system. What are you doing to create justice in those situations?

Thank you,
Fred Tarbox

Hi Sam,

Can you send me the responses from the election administrators for the Dec. 21 survey?

Also, will you be in tomorrow morning? I've got a couple of follow up questions.

I truly appreciate the time you've given me already.

RE: Initial Audit Survey

Dear Secretary Scott,

Thank you so much for reaching out to our office, and also for your kind words in regards to the transparency in the election process that we strive for here in Collin County. With every passing election we become more efficient and adept in what we are asked to do as an election department in the great State of Texas. It is our hope that through this audit process our hard work and dedication to transparency is evident in the findings and documentation that we are able to provide to you.

As requested in your previous letter (dated December 10, 2021), the following are the responses of the Collin County Election Department to the initial audit survey that was contained within said letter. We hope that the information provided below helps guide you into Phase 2 of this audit. The following are our responses:

- **A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.**

We had no locations that had a 1% discrepancy between the number of voters that checked in to the number of votes cast at that location.

- **Whether any voting sites were closed or added due to an emergency or other necessity**

We had no voting sites that were closed or added due to an emergency during the November 2020 General and Special Election.

- **Any known procedural or chain of custody defects**

Looking back on the November 2020 General and Special Election we can acknowledge some defects in our chain of custody process that was in play then. It is important to note that we are constantly enhancing our processes to become more efficient each election. An area of deficiency that we noticed from the November 2020 election was the tracking of full ballot boxes as they moved from a polling location to our office. We were able to indicate what location a full ballot box came from, however, there was some uncertainty about what specific tabulator the box was in at the location. Some of our larger locations had multiple DS200s, adding a level of difficulty in tracking this information. We have since changed how we track each piece of equipment that we have at each location by adding serialized barcodes to all hardware devices. These barcodes were also added to location tabulator USB/media sticks, which we noticed was another deficiency in our process. We now know specifically what USB/media stick went into each device pre-delivery and tabulation instead of the backend of the process. These changes have enhanced our security and chain of custody moving forward.

- **Any other issues discovered that you would like to disclose now that may be relevant to our audit process**

There are no other issues that we have discovered that may be relevant to the Secretary of State's audit process.

TARRANT COUNTY
ELECTIONS ADMINISTRATION

December 21, 2021

Honorable John Scott
Texas Secretary of State
P.O. Box 12060
Austin, TX 78711-2060

Mr. Secretary,

I am in receipt of your letter dated December 10, 2021. I sincerely appreciate the work being done by your office to provide clarity and confidence to all Texas voters about the 2020 Election and, as we have said from the day the audit was announced, Tarrant County stands ready to assist your office in the process. I am 100% confident that the outcome will show, once again, what has been clear from the beginning: that Texas has safe and secure elections, and that the 2020 Presidential Election was not an exception.

The list below is our response to the information you requested us to provide in writing by today:

- *A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.*

  Official results are not generated per location, but rather per election precinct as required in Chapter 67 of the Texas Election Code. To produce the numbers per location as requested, we have turned to other documentation we use to check on the progress of the election activities.

  During Early Voting, Lead Clerks are required to call in to our office and report, at the end of every day, the number of voters checked into the electronic poll book and the number of ballots cast in the ballot scanner. While the number of voters checked in is accessible from our offices, the fact that the voting system is air-gapped leaves no choice but to obtain this information through a phone call. Using that daily phone report, we have verified that while there are minor discrepancies, all of them are below the 1% threshold you have inquired about.

  For Election Day, we compared the number of voters who signed in on the electronic poll book to the numbers of ballots cast as reported by the ballot scanners on election night. As a regular practice, Tarrant County does a comparison of these two numbers on election night, which allows us to detect any potential problems and address them immediately, and we keep a record of what was done that night (we call it the Election-night audit). That report, however, ***does not include the provisional ballots that are approved by the ballot board after election day***, hence there are minor variations that are not considered red flags. The table below summarizes the 16 sites (out of 323) that fall within the specified range:

Please note Tarrant County is currently engaged in litigation which may impact the ability of the Tarrant County Elections Administration to retrieve some of the data sought by the Secretary of State's Office. Specifically, an individual sought and received a Temporary Restraining Order and then an Agreed Temporary Injunction which has led to the powering down and secure storage of various servers and hard drives used in the November 2020 election. This lawsuit seeks to allow the plaintiff to access some data and information on these devices pursuant to the Texas Public Information Act. Should the Secretary of State wish to consider having Tarrant County approach the District Court with jurisdiction over the information to seek permission to access the information to aid your audit, please contact us so that we may explore that possibility.

Finally, the Tarrant County Elections Administration will assist the Secretary of State in procuring a secure space for the performance of this audit in January 2022. However, because the Elections Administration will be in the midst of preparing for the March 2022 primary elections, it is highly likely such a work area for the Secretary of State would be in a building separate from the main Elections Administration office. The Elections Administration will also assist in finding a way to transport the data, documents, and other information sought by the Secretary of State to this secure location.

In closing, Mr. Secretary, I want to reiterate once again that we are here to assist your office and fully cooperate in this process. I know you and your staff will understand the need to balance out the workload of this project with the conduct of the Primary and Municipal elections happening in the first half of 2022. The successful completion of both projects will be our utmost priority for the new year.

Sincerely,

Heider Garcia

OFFICE OF ISABEL LONGORIA
ELECTIONS ADMINISTRATOR
HARRIS COUNTY ★ STATE OF TEXAS

December 21, 2021

John B. Scott
Texas Secretary of State
Elections Division
P.O. Box 12060
Austin, Texas 78711-2060

Dear Secretary Scott:

I write in response to your letter dated December 10, 2021, regarding "Phase 2 of the Full Forensic Audit," in which you asked my office to compile a list of responses by December 21, and you provided an almost 8-page list of documents indicating you would like our office to "begin locating the documents listed to prepare for our Forensic Audit Division's on-site examinations, which will be coordinated at a mutually convenient time in January 2022." That is an impossible timeline by which to complete the tasks requested.

Our office is in the process of preparing to hold six elections over the course of the next six months, four of which are countywide elections, some even ordered by the state legislature: a special election in January, the Primary elections in March, a likely runoff for the special election, the May 7 uniform election, the May 24 Primary election runoff and the election for Precinct Chairs, and the likely runoff for the May 7 uniform election. Every day from now until June 2022 there is either voting actively occurring or a critical deadline our office must complete for at least one of those six elections. Thus, it would be cumbersome and potentially irresponsible for us to divert staff and resources away from active elections to host an "audit" of a past, certified election.

Additionally, the extensive requirements of Senate Bill 1 will be in effect, for the first time, for the Republican and Democratic Primary Elections. Planning and executing the implementation of such a wide sweeping legislation is a massive undertaking and requires my staff's full time and attention. Because your office has released little guidance on how to implement these important new provisions, we are left to sort through the logistics on our own in hopes that they meet the undisclosed SOS standards.

In short, taking hundreds of hours from staff time to pull documents listed in your prior letter instead of working toward implementation of SB1, nor preparing for the massive election calendar over the next six months, would be asking us to put the 2022 Primaries and compliance with Senate Bill 1 in jeopardy.

AMERICAN OVERSIGHT

Since I was sworn into office on November 18, 2020, 15 days after the November 2020 Presidential Election concluded, the Elections Administrator's Office has endeavored to run elections fairly, equitably, accurately, and smoothly. That is why we are doing everything in our power to fully prepare for the upcoming 2022 elections for the sake of Harris County voters.

We attach responses to the questions in your December 10, 2021 letter. For the remainder of your requests, we await your call to discuss the time and resources it would take to go through the documents.

Sincerely,

Isabel Longoria
Harris County Elections Administrator

Hi Bob,

The total $4M figure is for hiring new staff, including their travel budgets for on-site visits to the four counties during the audit process, so it's not possible to parse out exactly how much will be used on the 2020 General Election Audit vs the additional four-county audits required under Rep. Slaton's amendment to SB 1 (the one requiring us to randomly choose two counties over 300,000 and two counties under 300,000 for audits going forward). In short, this overall figure is for costs to conduct both current and ongoing election audits required under law passed by the lege.

Here's our full statement:

"We thank Governor Abbott, Lieutenant Governor Patrick, Speaker Phelan, Senator Nelson and Representative Bonnen for approving critical funds to support the Texas Secretary of State's Forensic Audit Division. In order to complete our ongoing full forensic audit of the 2020 General Election and conduct subsequent audits as required by SB 1, our agency will be using these funds to dedicate additional staff to oversee audit activities, including: verifying counties' removal of ineligible voters from the rolls, meticulously reviewing each county's election materials for our comprehensive document examination, and ensuring compliance with state and federal election laws. These resources are essential for maintaining the integrity of Texas elections and identifying issues that must be fixed in order to restore voters' confidence in our state's election systems."

Sam,

Did you say how much of the $4M would be used for the 2020, four-county audit?

I see reference in Trib story (below).

Thanks,

Bob

In a statement later Friday, the secretary of state's office referenced both its 2020 audit and future audits required under the new state law, saying that the latest funds would be used for "additional staff to oversee audit activities," such as "verifying counties' removal of ineligible voters from the rolls ... and ensuring compliance with state and federal election laws."

Hi Sam,

This letter says the SoS has received reports of dead people voting, non-citizens voting and people voting in multiple states or multiple times in Texas. How many such reports did it receive, when did it receive those

AMERICAN OVERSIGHT

reports and has it been able to verify any of the allegations? And, if so, how many votes have been rejected due to any of the above issues?

Good afternoon Sam,

My name is Jessica Corso and I'm a reporter for Law360. Harris County Attorney Christian Menefee filed a public records request yesterday for the information related to the Secretary of State's audit of the 2020 election results in the county. I'm writing a story about it and had a number of questions:

1. Why is the SoS conducting this audit now, nearly a full year after the election was held?

2. What evidence does the SoS have that fraud or voting irregularities may have occurred in these counties?

3. Is it true, as Menefee says, that you didn't contact his office before announcing the audit and that you haven't told Harris County's attorneys what documents or information you are looking for? If not, why not?

4. What documents and/or information are you looking for?

My deadline on this is noon central time.

If you'd like to give me a call, I can be reached at 646-350-1495

Thank you,

--

Ms. Wang,

Thank you for reaching out. The results of the partial manual count in our Phase 1 progress report were taken directly from the partial manual count report that Tarrant county sent to our office following the November 2020 General Election. I have attached the file here. You can click on the 'Tarrant County' tab to see the results.

If you look at page 2 of our Phase 1 progress report, you will see the following paragraph regarding the Election Day ballots chosen (which is why the numbers you outlined below do not match up):

> *Under TEC Section 127.201, counties are required to conduct a manual count in at least one percent of the election precincts or in three precincts, whichever is greater, in which an electronic voting system was used in a general election. The SOS is responsible for choosing the race(s) and precinct(s) used to conduct the partial manual count in a general election. For the November 2020 Election, the office of Texas Railroad Commissioner was chosen as the race for which counties conducted their respective partial manual counts. In order to protect the security and integrity of the voted ballots, the SOS has provided alternate Election Day locations for the partial manual count for counties that are part of the Countywide Polling Place Program (CWPP). This is done to ensure that the accuracy of the voting system equipment is thoroughly audited in a specific location while also ensuring that fewer election office personnel are handling voted ballots from across the county. None of the four counties reported any discrepancies in Election Day ballots counted electronically versus those counted by hand.*

We published the numbers of the electronic count (those counted by ballot tabulators) versus the hand count (counted manually) exactly as they were reported to us by all four counties, including Tarrant County.

Our office can assure you that should we discover any additional discrepancies during our Phase 2 in-person comprehensive document examinations, those will be included in the final report.

Hello, Mr. Secretary of State John Scott:

I am a citizen live in Tarrant County, Texas.

I have read the released documents of TX SOS election audit phase 1. I took this audit seriously and hope it approves the election been with integrity or finds the problems.

Just want to report this finding about the SOS audit hand-count results for Tarrant County seven precinct ballots .

The hand count comparison results of the seven precincts have been reported in SOS document dated on Dec.31,2021. This document shows the hand count results agreed to the electronical results. However, neither the numbers of the electronic count or the comparison numbers from hand counts of the seven precincts were agreed to the county report: - precinct report - published in Tarrant county website: https://www.tarrantcounty.com/content/dam/main/elections/2020/1120/reports/precinct.pdf

Tarrant County Precinct report vs Electronic count/handcount:

Prcnt 1061: 176 vs 714
Prcnt 1460: 1744 vs 1510
Prcnt 2381: 392 vs 738
Prcnt 3160: 1768 vs 1878
Prcnt 4285: 487 vs 354
Prcnt 4452: 2415 vs 2098
Prcnt 4591: 2230 vs 1869

Please see the attached details and each top page of the seven precinct reports by the

AMERICAN OVERSIGHT

county for backing up this finding.

There are more discrepancies between absentee ballots, early voting in person and Election day in person in this hand count samples when comparing to the county published election results. The discrepancies are material. Thus the hand count results are 100% false!!

What is "the electronic count"? Where "the electronic count " numbers come from? Who provided "the electronic count" to Phase 1 for the sampling check? Who conducted the hand count? I suggest that the SOS audit requires a full hand count/verification on all Ballots of Tarrant County due this false results - this is what would happen to a private business when such false information provided for a Tax audit - Our government should not be an exception. Each task conducted should be fully transparent to citizens. I personally would like to be a citizen observer if any hand count conducted in the county.

I would like to request a formal response regarding to my report and my questions. I would love to answer any question from you.

Thanks!

Sincerely,

Xiaomei Wang

Hi Janelle,

Election audits have been underway for several months to identify and remove illegally registered voters, and we refer these cases to the Attorney General's office.

Texas counties receive lists of potentially illegally registered voters for their voter registrars to investigate and cancel their registration if they do not present proof of eligibility. This is required by both federal and state law and the counties are familiar with this process.

That is the part of the audit that is already underway. More details to come on additional elements of the audit in the near future.

Hi Sam,

Janelle Bludau here with KHOU 11 News in Houston. Working on a story today about the forensic audit announcement. Is there anyone with the Secretary of State's Office available for a Zoom interview to discuss how this will all work?

We'd specifically like to get answers to these questions for our viewers -

What prompted this audit now? Has it been going on for months? If so, what has been discovered?

Why these 4 counties?

How much will this cost and who will foot the bill?

Thanks so much,

I just wanted to clarify a few points that I have read in other stories about the election audit. I'm writing it up for the Austin Chronicle.

A) The $4 million LBB moved to SoS was intended to fund the four-county audit, plus future audits. I assume this $4 million is intended to cover this biennium? Do you have more specifics on how many staff members you will need?

Also, the Dallas Morning News, in its September article, notes future random audits. For the life of me, I don't see that in SB 1, but maybe I have done a lousy keyword search. Can you point me to that section? Or is it in a separate bill?

B) Reading through the summary of SB 1 again, I see it requires SoS to produce a report on Dec. 31 about how many non-citizen voters have been purged from the rolls. Is that report available?

C) I kept the memo that you sent us in September about the two phases of the audit. I think -- because you included sections of code -- you're implying nothing being asked of these four counties isn't already in code. In other words, they're not doing anything new. It's the collection of data already required by law. Am I reading that correctly?

D) Do we actually know this is the largest forensic audit in the country?

Feel free to send me any statements you have sent to other reporters. Just trying to get all these details straight in my head. Thanks.

Report to the 87th Legislature Under Section 16.0332(e), Texas Election Code Relating to Voter Registration Cancellations Due to Non-U.S. Citizenship

Section 16.0332 of the Texas Election Code sets forth procedures for the cancellation of voters who are excused or disqualified from jury service because of citizenship status or who indicate a lack of citizenship status in connection with a motor vehicle or Department of Public Safety record. Subsection (e), added by Senate Bill 1 (87th Leg., 2nd C.S., 2021), requires the Secretary of State (SOS) to provide a report to the Legislature, not later than December 31 of each year, of the number of voter registrations canceled under Section 16.0332 during the calendar year.

Pursuant to Section 16.0332(e), the SOS submits the following information regarding the number of voting records canceled statewide in 2021 due to confirmation of non-citizenship by the county or due to a voter's failure to respond to a notice from the county voter registrar requesting documentation of proof of citizenship:

Number of Cancellations for Non-U.S. Citizenship	Number of Cancellations for Failure to Respond to Notice of Examination Based on Non-U.S. Citizenship*	Total Number of Cancellations
382	2,170	2,552

The above figures were retrieved from the statewide voter registration database as of December 29, 2021.

* Prior to September 2021, the Secretary of State's system did not capture whether a voter was canceled for failure to respond to a notice of examination based specifically on non-U.S. citizenship or any other ground.

Hi Jack,

Election audits have been underway for several months to identify and remove illegally registered voters, and we refer these cases to the Attorney General's office.

Best,

Good morning Sam,

Hope all is well. Reaching out again with some questions that I hope you will answer for me:

- when was the decision made to do a forensic audit of Dallas, Tarrant, Collin, and Harris counties?

- who made the decision to do this?

- what led up to this decision — why is it being done?

- what's the scope of it?

Thanks very much!
