**Attachments:** 3-7-22 15 Day Letter to OAG - American Oversight PIR 22-0220.pdf, 3-7-22 15 Day Letter to Requestor - American Oversight PIR 22-0220.pdf, FW list\_Redacted.pdf, FW Updates to our meeting with you Dec 10 2021\_redacted.pdf, Fwd third party candidates.pdf

EXTERNAL SENDER

Good afternoon,

Please see the attached letter, with enclosures, in response to your request for information under Chapter 552 of the Texas Government Code.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.

Certain information has also been withheld from the attached production pending a determination from the Attorney General's Open Records Division on our request for a ruling.

As stated in the letter, we require more time to continue reviewing our records and produce additional responsive information. We will provide you additional responsive documents—to the extent such information is not excepted from disclosure under state or federal law—by 5:00 p.m. on April 4, 2022. *See* Tex. Gov't Code § 552.221(d).

Kind regards,

Jennifer Williams  
Legal Assistant to the General Counsel  
Office of the Texas Secretary of State

# The State of Texas

Executive Division  
Capitol Building, 1E.8

Emma Lewis  
American Oversight

*Sent via Electronic Mail in care of Dylan Winters to: [records@americanoversight.org](mailto:records@americanoversight.org)*

Re: Request for records, TX-SOS-22-0154, received: February 10, 2022  
(SOS PIR No. 22-0220)

Dear Ms. Lewis:

Please find enclosed a copy of the written comments, without exhibits, submitted to the attorney general. The comments are regarding the request for a decision on whether information withheld from you in response to your February 10, 2022 request for records (the "Request") is confidential under Chapter 552 of the Texas Government Code.

Consistent with our February 25, 2022 letter, please find the enclosed documents responsive to Item 2 of the Request.<sup>1</sup> We require more time to continue reviewing our records and produce additional responsive information. We will provide you additional responsive documents—to the extent such information is not excepted from disclosure under state or federal law—by 5:00 p.m. on April 4, 2022. *See* Tex. Gov't Code § 552.221(d).

If you have any questions or need additional information, please do not hesitate to contact our office at (512) 463-5770.

Sincerely,

A handwritten signature in blue ink, appearing to read "Adam Bitter".

Dear Secretary Scott,

Attached is a letter from the counties which contributed to the meeting with you December 10, 2021, in Ft. Worth together with our "one page updates" from our counties: Harris, Dallas, Central Texas (Bexar Bell, Hays, Travis and Williamson Counties) and Tarrant County.

Thank you again very much for meeting with us.

Please regard us as supporters and a resource.

We are happy to provide any additional information we can and respond to any questions you or your staff may have in a manner that would be the most convenient to you and / or your staff.

God bless you and God bless Texas,

Jay Meadows - Tarrant County  
Alan Vera - Harris County  
Melinda Maxwell - Dallas County  
Paul Parker - Travis, Bexar, Williamson, Bell and Hays Counties  
Scott Britton - Collin County

January 22, 2022

Dear Secretary Scott,

Thanks again for our Ft. Worth meeting and we all so appreciate your openness and publication of the Phase 1 Audit results. Please regard us as supporters and a resource. Our prayers are with you, as the chief elections officer in Texas, and as you seek to “do the right thing.”

We share information developed through tireless efforts of citizens in participating counties to better understand the election processes and contribute toward safeguarding elections. You suggested that we broaden participation. We are seeking Independents, Democrats, and faith-based groups to join in our efforts.

The four “one-pagers,” attached, summarize findings clearly established in the data and report relevant behavior seen across the participating counties, **Tarrant, Harris, Dallas** and on a combined basis for **Travis, Bexar, Williamson, Bell and Hays**. Please recall, Scott Britton, a key technical leader on the Tarrant County team, resides and serves as a Precinct Chair in **Collin County**. He is close to the Election Administrator and Sheriff there and provides the insights into Collin County. Please use these findings as they relate to your Phase 1 Audit findings and inform on conducting Phase 2.

We summarize our findings as follows:

- Significant questions exist regarding Elections Administrator responses to the Phase 1 Audit.
- Discrepancies exist between the Secretary of State’s and the County Registration and Voting records because:
  - a. Tens of thousands of continuing disparities between the Secretary of State election data and the county election data, constantly changing and evolving long after the November 2020 election;
  - b. Scores and scores of changed voting records; and
  - c. **Unknown whether a.) and b.) are beyond innocent errors and occurring maliciously and / or because of dereliction of duty or incompetence (that a full investigation including a forensic audit would reveal). In all cases the magnitude of discrepancies signal we have problems and underlying vulnerabilities that must be acknowledged and addressed for this year’s Mid-Terms and beyond.**
- Separately from the above, we also continue to see and encounter **willful manufacturing of a material number of votes and the bullying / harassment of poll workers**.
  - a. As you know, we continue to properly submit voter registration residency challenges such as the 488 in September in Harris County that have not been acted on by the Elections Administrator.

John, you know our backgrounds. You've met us. We are not making this up. It is time to publicly acknowledge the vulnerabilities in our Texas voting systems meriting:

1. Further continuing attention to voter roll clean-up, enhanced reconciliation between Secretary of State and County registration and voting data and addressing voting systems errors; and
2. Working together openly across our state to reduce the vulnerabilities in our election systems that malicious actors continue to utilize to change / add votes.

We renew our strong suggestion that you obtain the perspective of Russell Ramsland on serious anomalies detected in our electronic voting equipment. Ramsland's willingness to meet when and where convenient for you has been confirmed. We stand ready to set up this meeting by your contacting any of us.

Complementing the four county Phase 2 Audits, a thorough independent forensic audit is merited. Collin County, with its cooperating Election Administrator, needs only your request to begin. Ramsland could take and analyze the forensic snapshots. This will provide additional data, one way or the other, as you and your staff continue to analyze the Phase 1 results, our findings and data, information and data received from others, and the forthcoming Phase 2 results.

We are happy to provide any additional information we obtain. Whether via phone, Zoom call, meeting in your office (as you will see below Paul Parker is close by), in Ft. Worth or any of our locations we remain willing to confer with you further.

God bless you and God bless Texas,

Jay Meadows – Tarrant County, (817) 475-1696

Alan Vera – Harris County, (713) 253-6569

Melinda Maxwell – Dallas County, (214) 734-1199

Paul Parker - Travis, Bexar, Williamson, Bell and Hays Counties, (214) 280-7716

Scott Britton – Collin County, (214) 208-5051

Attachments: "One-pagers" for Tarrant, Harris, Dallas and on a combined basis for Travis, Bexar, Williamson, Bell and Hays Counties

## Harris County

---

- Organized ballot harvesting rings operating with impunity.
- No credible chain of custody for critical election documents.
- Large discrepancies in precinct data between # of voters and # of ballots.
- Locally posted election data doesn't match what's sent to SOS.
- Fake photo IDs (TXDL) in use in last 4 elections.
- Poll watcher obstruction rampant and uncorrected.
- Improper cancellation of mail ballots surrendered by voters at polls.
- Widespread "errors" allowing thousands of provisional voters to vote regular ballots.
- EA refusing to take required action on 5,300 voters with illegal residence addresses.
- Military mail ballots sent out without complete L&A test.
- L&A tests have been chaotic for last 2 years.
- EA not running "hash code tests" on election equipment.
- EA training of election judges and workers is totally unsatisfactory.
- Chaos at election night equipment turn-in causing election judges to quit.
- Election workers remain unpaid by temp agency contracted by EA.
- Electronic poll books missing mail ballot voters in 3 of last 4 elections.
- Assignment of election judges and clerks is in chaos with inexperienced EA staff.
- Deceased voters still on the voter rolls—some 19-26 years after their deaths.
- Information on individual voters is continually altered on the daily voter roster.
- EA continues to require election workers to wear masks, despite Governor's order.
- Over 33% of ED polls in November 2021 opened late due to equipment problems.,
- Help lines for election judges are understaffed---judges on hold for over an hour.

## Dallas County Texas, November 3, 2020 General and Joint Election Previous Elections Administrator

---

10s of thousands of vote roster anomalies identified, including but not limited to:

- Absentee Ballot Reported Returned 3 to 27 Days after Return Date by Dallas County.
- Absentee Ballot Reported Returned Prior to Being Requested.
- Absentee Early Vote purged in early voting and in Final Vote Roster.
- Absentee Early Vote Reported Only by Texas SOS.
- Absentee Early Vote Roster Entries - Differences in Timeliness of Reporting between Dallas County and TX SOS.
- Absentee Vote changed to VOTER VOTED AT POLLS in Final Vote Roster.
- Absentee Vote Not Reported by Texas SOS for Dallas County.
- In-Person Early Vote changed to VOTER VOTED BY ABSENTEE BALLOT in Final Vote Roster.
- In-Person Early Vote Not Reported to Texas SOS by Dallas County.
- In-Person Early Vote Prior to October 13, 2020, the first day of early voting.
- In-Person Early Vote Reported Only by Texas SOS.
- In-Person Early Vote reported only in Final Vote Roster as VOTER VOTED EARLY IN PERSON.

Additionally:

- Registrations at approximately 68 postal business locations with no residential address provided.
- 201 potential irregular votes cast, found by concerned citizens in brief opening research of votes cast from P.O. Boxes or postal businesses with no residential address provided.
- 15 out of 15 votes from one virtual business address with no residential address provided have voter registration irregularities, including APT # misrepresentation written on many applications.
- 3 out of 15 votes from one virtual business address with no residential address provided, or 20%, have MISSING REGISTRATIONS.
- 3 votes cast from one address with no record of registration show as In-Person Early Vote, begging the question, "HOW DID VOTERS NOT REGISTERED CHECK IN AND CAST A VOTE IN PERSON?" Did these "people" actually "check in" and "vote in person" or were the e-pollbooks and voting machines hacked - inserting, voting and deleting VUID's in the days right around the election, as discovered in other states?
- 1 vote from the virtual business address investigated shows a Registration Application signed SIX (6) MONTHS AFTER the 3 November 2020 general and joint election.
- 5,039 more votes reported on TX SOS website than on Dallas County website at end of early voting
- Texas Election Code (TEC): Sec. 52.0061 appears potentially violated by county judge and previous elections administrator. Ballots were reprinted WITHOUT NOTIFYING the Secretary of State according to General Counsel of TX SOS office showing no record. This was concurrent with negotiating, announcing and receiving fifteen million dollars from Zuckerberg funded CTCL.

## Bexar, Bell, Hays, Travis and Williamson Counties

- Voters interviewed in all counties comparing method of voting in 2020 election to state and county records
  - Significant discrepancies found in all counties, including:
    - Voters who claim to have voted in 2020 but State and County records show them as not voting
    - Voters who did not vote but records indicate a vote in their name
    - Voters who voted in person but their record indicates voted Absentee ballot
    - Thousands of instances where SoS and County records do not match
      - Ex: Williamson County voter VUID 1136046061
        - She said she voted Early In-Person like she has done for years
        - SoS records shows she voted Absentee
        - Williamson Cty record shows no vote
- 10 – 16% of voter records surveyed did not reside at the voter registration address as of Oct '20.
- Dead voters and voters who have moved still on the rolls after over 20 years: Bexar County VUID 1065931583 passed away in 2000; VUID 1066637932 moved to CA and registered there in 1985, still registered in Bexar. Some Travis County voters have made repeated unsuccessful requests to their county to have their obsolete registrations removed.
- There are a minimum of 22 fraternity/sorority houses on the voter rolls in Travis County with 766 registrations. Of these, 168 are 35 years old or older with a dozen of those voters over the age of 65, and one age 97 (VUID 1140096738).
- One county’s audit logs for the November 3, 2020, election shows an anonymous user logged in to the system at 2:17 pm and updated Voter Registrations data. Multiple hundreds of voter registrations were changed at exactly the same time and date stamp.
- Bexar County has failed its legal requirement to fulfill a PIA request within 10 business days. Request for voter records (ref # R008505-120521) was issued 12/5/21 and has still not been completed as of 1/18/22 despite repeated follow up requests.
- Unusual distribution of registered voters from mail store locations. Voters disproportionately concentrated in a few stores. Frequent use of “APT” or “STE” to describe a mail box address.

	Registered Voters (1000s)	UPS				USPS				FedEx				Other				Total			
		# stores in Cty	stores w/ voters	Qty Registered	Qty Voted	# stores in Cty	stores w/ voters	Qty Registered	Qty Voted	# stores in Cty	stores w/ voters	Qty Registered	Qty Voted	# stores in Cty	stores w/ voters	Qty Registered	Qty Voted	# stores in Cty	stores w/ voters	Qty Registered	Qty Voted

# Tarrant County

---

- 81 pages of suspicious findings
  - Votes counted from vacant lots, addresses which don't exist, P.O. boxes, inaccurate registered voter roll addresses, excessive multi voters at addresses that can't accommodate the numbers, etc., etc.
- Suspicious Texas Phase 1 Audit findings and EA response
  - 700+ Tarrant County potential non-US citizen registrations
  - 2,000+ discrepancies in 7 sampled precincts between the Precinct Report and Electronic Count / Hand Count
  - Failure to disclose the Runbeck printing error that resulted in the Ballot Board manually remaking 20-30k Absentee ballots the day of and day after the November 2020 Election.
  - Misstatements regarding 11,700+ surrendered Absentee ballots that were voted in-person
- Only 30% accuracy in May and June 2021 Tarrant Election Day "Register of Official Ballots" Reconciliations of the number of cast votes cast across all in-person voting locations
  - 3,300+ more ballots cast than ballots issued
  - 38,000+ ballots un-accounted for
  - Since 2019 Tarrant County has disabled reconciliation of voting locations with central reporting or by Precincts making it difficult to identify how votes entered the election system
- Race total reconciliations between electronic voting at polling locations and paper ballots produced at polling locations do not exist. The paper ballots are collected by polling locations but reported by Precinct. Race totals are reconciled after the election and before certification by the County Commissioners by comparing the original USB drive to a copy of the USB drive made during the Election.
- As far as we know, Tarrant County is the last remaining county in Texas with Internet transmission of "unofficial" votes, accumulated "unofficial" votes held on an Internet-connected server with voting tabulations run, all totally capable of being monitored or changed by hackers from the 1<sup>st</sup> day of Absentee and Early In-Person Voting through to Election Day
- \$1.6 million grant coming from Mark Zuckerberg distributed by the CTCL (Center for Tech and Civic Life) was made to Tarrant County for the Nov 2020 elections
  - The grant was offered by CTCL on 10/12/2020 and formally accepted by the county on 11/3/2020.
  - The grant was a 21% "boost" in Tarrant County election spending
