EXTERNAL SENDER

Good afternoon,

Consistent with our March 7 email, please find the attached documents responsive to your request for information under Chapter 552 of the Texas Government Code.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.

We appreciate your patience as we continue to process your request in accordance with the terms of the PIA. We require additional time to review our records and produce additional responsive documents. We will provide you any additional responsive documents—to the extent such information is not excepted from disclosure under state or federal law—by 5:00 p.m. on April 25, 2022. *See* Tex. Gov't Code § 552.221(d).

Kind regards,

Jennifer Williams
Legal Assistant to the General Counsel
Office of the Texas Secretary of State

Good afternoon,

Please see the attached letter, with enclosures, in response to your request for information under Chapter 552 of the Texas Government Code.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.

The information you requested also contains an access device number that is collected, assembled, or maintained by or for a governmental body. This information is confidential under section 552.136 of the Texas

AMERICAN OVERSIGHT

Government Code. Section 552.136 allows us to withhold this specific information without requesting a ruling from the attorney general. You have the right to appeal our decision to withhold this information from you. Instructions for appeal are attached. If you do not want to appeal, you do not need to do anything else.

As stated in the letter, we require more time to continue reviewing our records and produce additional responsive information. We will provide you additional responsive documents—to the extent such information is not excepted from disclosure under state or federal law—by 5:00 p.m. on April 4, 2022. *See* Tex. Gov't Code § 552.221(d).

November Highlights…

CITGO REPORTS THIRD QUARTER 2021 RESULTS

AMERICAN OVERSIGHT

CITGO reported a modest net loss of $4 million for the third quarter, but posted its second consecutive quarter of positive EBITDA[1] due to improving crack spreads and recovering gasoline, diesel and jet fuel demand. EBITDA in the third quarter was $194 million.

Planned and unplanned refinery outages, compressed margins in the Supply, Marketing and Lubes businesses and several one-time corporate events helped drive the narrow net loss.

"While our quarterly results were challenged despite an improved market environment, we are working to address operational issues as we move into the fourth quarter. Increased mobility is creating more demand for our products, and we will continue working hard to improve our operations so that we are well-positioned to fully capture available margins," said CITGO President and CEO Carlos Jordá. "I'm confident we are taking the necessary steps to finish 2021 strong."

[1]Earnings before interest, taxes, depreciation and amortization

CITGO DONATES MEALS TO HOUSTON-AREA HEALTHCARE WORKERS

To show its appreciation for the herculean efforts of healthcare workers during the COVID-19 pandemic, CITGO will provide 5,000 lunches to healthcare workers in the Harris Health System's network of hospitals, clinics and related facilities through early 2022. CITGO delivered the first meals Friday, November 18th.

The Harris Health System serves Harris County with two full-service hospitals, 18 community health centers, five same-day clinics, three multi-specialty clinic locations, a dental center and dialysis center, as well as school-based clinics and mobile health units.

CITGO is committed to investing in the strength and well-being of the communities it serves, both through direct corporate contributions and through the company's TeamCITGO employee volunteer organization.

CITGO CELEBRATES NATIONAL STEM DAY WITH CITGO INNOVATION ACADEMY STUDENTS

CITGO joined its Innovation Academies in Houston, Corpus Christi, Lake Charles and Lemont in marking National STEM Day on November 8, 2021.

To celebrate National STEM (Science, Technology, Engineering and Math) Day, CITGO helped support STEM demonstrations and experiments at the multiple CITGO Innovation Academies hosted at middle and high schools throughout our service area. At E. K. Key Elementary in Sulphur, Louisiana, for example, more than 500 students rotated through 11 hands-on STEM stations where they experimented with subjects ranging from aviation, chemistry, computer coding, robotics, engineering and more.

CITGO is a strong advocate for STEM education, with hopes of nurturing a path for opportunity among students in the communities we call home. CITGO launched the STEM Talent Pipeline program in 2016, aimed at increasing access to Science, Technology, Engineering and Math related educational opportunities by supporting and encouraging students to pursue a career in STEM. The program provides grants to schools and educational organizations in its operational communities including Lake Charles, Corpus Christi, Houston and Lemont. Along with financial support, CITGO encourages its employees to share their knowledge and experience with students and young professionals through classroom presentations and hands-on demonstrations.

The first CITGO Innovation Academy was launched in 2013 at Foy H. Moody High School in Corpus Christi, Texas.

CITGO RAISES MORE THAN $700K FOR THE MUSCULAR DYSTROPHY ASSOCIATION AT 35TH ANNUAL GOLF CHALLENGE

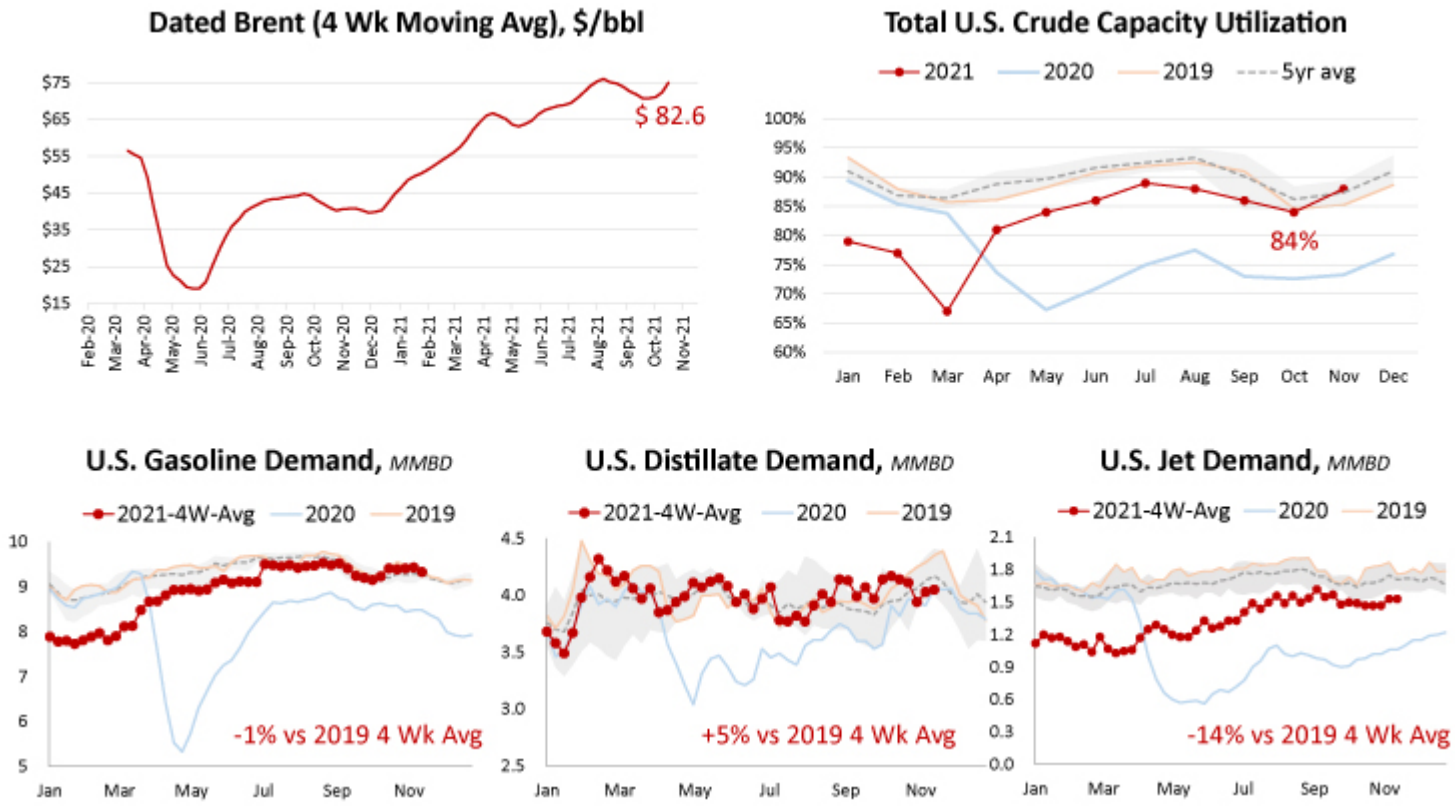
Continuing its decades-long partnership with the Muscular Dystrophy Association (MDA), CITGO Petroleum Corporation recently held its 35th annual Corporate Golf Challenge benefiting MDA. Held at the Golf Club of Houston, the event gathered 61 sponsors and raised more than $700,000 for families living with muscular dystrophy, ALS and related neuromuscular diseases that severely weaken muscle strength and mobility.

Earlier this year, the CITGO-MDA golf tournament in Corpus Christi set a new fundraising record, raising more than $314,000. During 2021 alone, CITGO Marketers and Retailers raised more than $1 million through Shamrocks Against Dystrophy mobile sales and golf tournaments. Throughout the year, CITGO

employees, Marketers and Retailers hold fundraisers benefiting MDA.

Since 1986, CITGO has raised more than $255 million through annual fundraising campaigns that support MDA's research grants and Care Center network at the nation's top medical institutions nationwide.

KEY REFINING INDUSTRY INDICES



Domestic gasoline demand remains slightly below 2019. Globally, economies are reducing COVID restrictions, improving mobility and gasoline consumption. Exports have been at high levels for four consecutive months. Margins remain robust.

Diesel fundamentals have improved, with rising demand and declining stocks. As port bottlenecks clear, truck and rail activity is expected to increase, furthering demand. International commercial flights remain 20% below 2019, but as many countries are reopening their borders to vaccinated international travelers, jet demand should increase, giving further support to distillate margins.

Attachments:	image001.png Dallas County_Partial Manual Count_November 2020 Election.xlsx
Sensitivity:	Personal

Hi Michael,

Thanks for chatting earlier and apologies for bothering you on your travels! I've attached the chart of the partial manual count numbers that your office provided us after the November 2020 election.

You'll see the red highlighted cells (J15 and K15) show that the electronic count for candidate Matt Sterett was 1, while the manual count was 11. We presume this was because of a data entry/clerical error, but wanted to make sure and confirm with your office.

Please let us know if y'all have any information on this you'd like to provide so we can note it in our progress report.

Much appreciated!

Best,

Sam Taylor

DEBTOR'S APPLICATION FOR ENTRY OF AN ORDER APPROVING THE EMPLOYMENT AND RETENTION OF BHARAT CAPITAL, LLC AS CONSULTANT [Docket No. 709]

DEBTOR'S APPLICATION FOR ENTRY OF AN ORDER APPROVING THE EMPLOYMENT AND RETENTION OF EAVES LAW FIRM AS SPECIAL COUNSEL [Docket No. 710]

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000008

UNITED STATES BANKRUPTCY COURT
FOR THE SOUTHERN DISTRICT OF TEXAS
HOUSTON DIVISION

In re:	Chapter 11
WALKER COUNTY HOSPITAL CORPORATION, d/b/a HUNTSVILLE MEMORIAL HOSPITAL,	Case No. 19-36300
Debtor and Debtor in Possession. [1]	

DEBTOR'S APPLICATION FOR ENTRY OF AN ORDER APPROVING THE EMPLOYMENT AND RETENTION OF BHARAT CAPITAL, LLC AS CONSULTANT

If you object to the relief requested, you must respond in writing. Unless otherwise directed by the Court, you must file your response electronically at https://ecf.uscourts.gov/ within twenty-one days from the date this motion was filed. If you do not have electronic filing privileges, you must file a written objection that is actually received by the clerk within twenty-one days from the date this motion was filed. Otherwise, the Court may treat the pleading as unopposed and grant the relief requested.

Walker County Hospital Corporation, d/b/a Huntsville Memorial Hospital (the "***Debtor***"), by and through its undersigned counsel, files this application (the "***Application***") for entry of an order, substantially in the form submitted herewith, authorizing the Debtor to retain and employ Bharat Capital, LLC ("***Bharat***") as its consultant to identify and value potential opioid litigation claims the Debtor may have against third parties on a contingency fee basis. In support of this application, the Debtor submits the declaration of Sanjay Nayar, the Managing Member of Bharat (the "***Nayar Declaration***"), which is attached to this application as **Exhibit A**. In further support of this application, the Debtor respectfully states as follows:

[1] The last four digits of the Debtor's federal tax identification number are: 0960. The location of the Debtor's service address is: Walker County Hospital Corporation d/b/a Huntsville Memorial Hospital, c/o Healthcare Management Partners, LLC, 1033 Demonbreun Street, Suite 300, Nashville, TN 37203.

AMERICAN OVERSIGHT

JURISDICTION AND VENUE

1. The United States Bankruptcy Court for the Southern District of Texas (the "***Court***") has jurisdiction over this matter pursuant to 28 U.S.C. § 1334 and the *Amended Standing Order of Reference from the United States District Court for the Southern District of Texas*, dated May 24, 2012. This is a core proceeding under 28 U.S.C. § 157(b)(2). The Debtor confirms its consent, pursuant to Rule 7008 of the Federal Rules of Bankruptcy Procedures (the "***Bankruptcy Rules***"), to the entry of a final order by the Court in connection with this Application to the extent that it is later determined that the Court, absent consent of the parties, cannot enter final orders or judgments in connection herewith consistent with Article III of the United States Constitution.

2. Venue is proper pursuant to 28 U.S.C. §§ 1408 and 1409.

BACKGROUND

3. On November 11, 2019 (the "***Petition Date***"), the Debtor filed a voluntary petition for relief in this Court, pursuant to chapter 11 of the Bankruptcy Code, commencing this case (the "***Chapter 11 Case***").

4. The Debtor continues to operate its business as a debtor in possession, pursuant to sections 1107(a) and 1008 of the Bankruptcy Code.

5. No request for the appointment of a trustee or examiner has been made in this Chapter 11 Case, nor have any committees been appointed or designated. An official committee of unsecured creditors (the "***Committee***") has been appointed in this Chapter 11 Case.

6. A description of the Debtor's business, the reasons for commencing this Chapter 11 Case, the relief sought from this Court, and the facts and circumstances supporting this motion are set forth in the *Declaration of Steven L. Smith in Support of First Day Motions* (the "***First Day Declaration***").

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000010

7. The Debtor holds potential opioid litigation claims against third parties who have engaged in violations of law in the fraudulent marketing and sale of certain highly addictive, opiate-derived painkillers for purposes for which they are neither safe nor effective (the "***Claims***"). The Debtor estimates these claims are worth in excess of $1,300,000 to the estate. The Debtor seeks to retain Bharat so that Bharat can assist the Debtor in identifying and valuing potential claims against specific third parties. In addition, Bharat will assist the Debtor in monetizing claims that will take longer than a year to realize payment on by introducing the Debtor to third parties interested in purchasing such claims from the Debtor.

RELIEF REQUESTED

8. By this application, the Debtor seeks entry of an order authorizing the Debtor to engage Bharat as consultant to assist the Debtor and special counsel, The Eaves Law Firm, in identifying and valuing the Claims on a contingency fee basis, in accordance with the terms and conditions set forth in the *Consulting Agreement*, a form of which is attached to the Nayar Declaration as **Exhibit 1** (the "***Engagement Letter***").

BASIS FOR RELIEF

9. The bases for the relief requested in this application are sections 327(a) and 330 of title 11 of the United States Code (the "***Bankruptcy Code***"), Rules 2014(a) and 2016 of the Bankruptcy Rules, and Local Rules 2014-1 and 2016-1 of the Bankruptcy Local Rules for the United States Bankruptcy Court for the Southern District of Texas (the "***Local Rules***").

BHARAT'S QUALIFICATIONS

10. Bharat is an advisory company specializing in advising attorneys, liquidating trusts and other litigation stakeholders on how to optimize their legal funding transactions. Bharat has extensive expertise and experience advising plaintiffs in similar opioid cases, including multiple health care providers, in addition to advising plaintiffs on how to monetize their claims. Bharat is

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000011

well qualified to represent the Debtor as consultant in identifying specific third parties and valuing the Claims.

11. Given Bharat's breadth of experience in these and similar matters, Bharat is abundantly qualified to assist the Debtor in these Claims.

SERVICES TO BE PROVIDED

12. Bharat will assist the Debtor in identifying and valuing potential claims the Debtor may have against third parties. Bharat will also use its best efforts to monetize claims that may take longer than a year to payout by introducing the Debtor to potential purchases of such claims.

PROFESSIONAL COMPENSATION

13. **Contingency Fees**. Subject to Court approval, and in accordance with the Bankruptcy Code, the Bankruptcy Rules, and the Local Rules, the Debtor will compensate Bharat in accordance with the terms and provisions of the Engagement Letter, which provides that: (i) if Bharat is able to identify Claims that result in cash proceeds to the Debtor, Bharat shall be paid 3.0% of the total amount of these proceeds (the "***Contingency Fee***"); and (ii) upon the consummation of any sale of the Debtor's Claims to a third party that Bharat introduced the Debtor to, Bharat will be compensated: (a) in the amount of $10,000 if the sale is for $500,000 or less; or (b) $20,000 if the sale is over $500,000 (the "***Referral Fee***" and together with the Contingency Fee, the "***Contingency Fee Schedule***").

14. The Debtor believes that the rates described above for Bharat's services under the Contingency Fee Schedule are competitive and are in line with the rates charged by Bharat for similar services in other similar cases and by its competitors. The Contingency Fee Schedule anticipates that a substantial commitment of professional time and effort would be required of Bharat and its professionals. No advance or retainer is contemplated by Bharat's Engagement

AMERICAN OVERSIGHT

Letter. The Debtor believes that Bharat's rates are reasonable given the quality of Bharat's services and its professionals' expertise in prosecuting similar Claims.

15. **Remittances and Reports**. Upon the successful resolution of any Claims, all proceeds recovered (the "***Gross Proceeds***") will be deposited into a segregated attorney trust account while Bharat seeks this Court's approval of compensation pursuant to the Bankruptcy Code.

16. The Debtor believes that the Contingency Fee Schedule described above is comparable to compensation generally charged by consultants of similar stature to Bharat for comparable engagements. Further, the Debtor believes that the Contingency Fee Schedule described above is consistent with Bharat's normal and customary billing practices for cases of this size and complexity that require the level and scope of services outlined.

17. The terms and conditions of the Engagement Letter were negotiated between the Debtor and Bharat at arm's length and in good faith, and they reflect the parties' mutual agreement as to the substantial efforts that will be required in this engagement. The fees have been agreed upon by the parties in anticipation of a substantial commitment of professional time and effort that will be required of Bharat and its professionals, in light of the fact that such commitment may foreclose other opportunities for Bharat and with the understanding that the actual time and commitment required of Bharat and its professionals to perform services thereunder may vary substantially from week to week or month or to month.

18. In light of the foregoing, and given the numerous issues that Bharat may be required to address in the performance of the services pursuant to the Engagement Letter, Bharat's commitment to the variable level of time and effort necessary to address all such issues as they arise, and the market prices for Bharat's services for engagements of this nature, the Debtor

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000013

believes the Contingency Fee Schedule is reasonable and should be approved under section 330 of the Bankruptcy Code.

19. Accordingly, the Debtor has determined, in the exercise of its sound business judgment, that the Engagement Letter, including the Contingency Fee Schedule, (a) appropriately reflects the nature of the services provided by Bharat, (b) contains reasonable terms and conditions of employment, and (c) should be approved.

20. The Debtor also seeks a waiver from the terms and obligations set forth in the *Order Establishing Procedures for Interim Compensation and Reimbursement of Expenses for Professionals* [D.I. 202] (the "***Interim Compensation Order***") to allow Bharat to apply for the allowance of compensation for services rendered to the Engagement Letter by filing the following: (a) upon the occurrence of any settlements or sale of Claims, but prior to final resolution of all Claims, short-form statement that includes the amount of fees paid based on the Contingency Fee Schedule; and (b) upon the conclusion of services, a final fee application for final allowance of compensation for the services rendered in accordance with section 330 and 331 of the Bankruptcy Code, the Bankruptcy Rules, the Local Rules, and any orders entered by the Court.

21. As set forth in the Nayar Declaration, compensation to be paid to Bharat under the Engagement Letter is a mathematical function of the applicable percentage according to the Contingency Fee Schedule, multiplied by the amount for which any Claim(s) is resolved, either by settlement or judgment, all of which are subject to approval by the Court after notice and an opportunity to be heard. Therefore, the Debtor submits that Bharat should not be required to maintain or provide time records to the Debtor, the Court, or the U.S. Trustee related to the services provided pursuant to the Engagement Letter, as Bharat would if it were being retained and paid on an hourly basis. Furthermore, the Debtor believes that Bharat's requirement to apply to the Court

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000014

periodically for allowance of compensation for professional services rendered pursuant to the Engagement Letter should be satisfied by filing a short form statement that includes the amount of fees paid and the final fee application. The Debtor has been advised that Bharat intends to comply with the U.S. Trustee's requests for information and additional disclosures as set forth in the U.S. Trustee Guidelines.

COMPENSATION RECEIVED BY BHARAT FROM THE DEBTOR

22. Pursuant to Bankruptcy Rule 2016(b), Bharat has neither shared nor agreed to share (a) any compensation it has received or may receive with another party or person, other than with the partners and associates of Bharat nor (b) any compensation another person or party has received or may receive.

23. Bharat has not received any compensation from the Debtor.

NO DUPLICATION OF SERVICES

24. In addition to this Application, the Debtor has retained (a) Waller Lansden Dortch & Davis, LLP, as general bankruptcy counsel and avoidance action counsel and (b) Healthcare Management Partners, LLC, as financial advisor. The Debtor is mindful of the need to avoid duplication of services and the Debtor understands that Bharat will use its reasonable efforts to work cooperatively with the Debtor's other professionals to avoid any unnecessary duplication of services and to integrate any respective work performed by those professionals on behalf of the Debtor.

BHARAT'S DISINTERESTEDNESS

25. To the best of the Debtor's knowledge (a) Bharat is a "disinterested person" within the meaning of section 101(14) of the Bankruptcy Code, as required by section 327(a) of the Bankruptcy Code, and does not hold or represent an interest adverse to the Debtor's estate and

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000015

(b) Bharat has no connection to the Debtor, its creditors, or other parties in interest, except as may be disclosed in the Nayar Declaration.

26. Bharat will continue to review its files periodically during the pendency of this Chapter 11 Case, to ensure that no conflicts or other disqualifying circumstances exist or arise.

27. If any new relevant facts or relationships are discovered or arise, Bharat will use reasonable efforts to identify such further developments and will promptly file a supplemental declaration, as required by Rules 2014(a) of the Bankruptcy Rules.

BASIS FOR RELIEF REQUESTED

28. Section 327(a) of the Bankruptcy Code provides that a debtor in possession may, with the court's approval, employ professionals that do not hold or represent an interest adverse to the estate and that are "disinterested persons," as defined by section 101(14) of the Bankruptcy Code, to represent or assist the debtor in possession in carrying out its duties under the Bankruptcy Code. *See* 11 U.S.C. § 101(14). Additionally, section 1107(b) of the Bankruptcy Code provides that a professional is not disqualified for employment by a chapter 11 debtor in possession under section 327(a) of the Bankruptcy Code solely because of its employment by or representation of the debtor before the commencement of the case. *See* 11 U.S.C. § 1107(b).

29. Bharat's services will enable the Debtor to execute faithfully their duties as a debtor in possession, and are necessary to the successful functioning of the Chapter 11 Case. Based upon both its extensive experience and expertise, Bharat is both well-qualified and uniquely able to assist the Debtor in identifying and valuing the Claims in an efficient, cost-effective, and timely manner. As stated above, the Debtor does not believe that Bharat holds or represents any interest adverse to the Debtor's estate, and they believe that Bharat is a "disinterested person" under the Bankruptcy Code. Accordingly, the Debtor submits that the retention of Bharat is in the best interests of the Debtor, their estate, and their creditors and should be approved by the Court.

AMERICAN OVERSIGHT

RESERVATION OF RIGHTS

30. Nothing contained in this application is intended or should be construed as an admission as to the validity of any claim against the Debtor, a waiver of the Debtor's rights to dispute any claim, or an approval or assumption of any agreement, contract, or lease under section 365 of the Bankruptcy Code.

31. Similarly, if this Court grants the relief sought in this application, any payment made pursuant to the Court's order is not intended and should not be construed as an admission as to the validity of any claim or a waiver of the Debtor's rights to dispute such claim subsequently.

NOTICE

32. The Debtor provided advance notice to counsel to the Committee of the relief sought in this Application.

33. The Debtor has provided notice of this application by electronic mail, facsimile, or overnight mail to: (a) the Office of the United States Trustee for the Southern District of Texas; (b) counsel to the Committee; and (c) all parties entitled to notice pursuant to Rule 2002 of the Bankruptcy Rules.

34. Given the nature of the relief requested in this motion, the Debtor submits that no other or further notice is necessary or required.

NO PRIOR REQUEST

35. The Debtor has not made a prior request to this Court or any other court for the relief sought in this motion.

[*Remainder of Page Intentionally Left Blank*]

AMERICAN OVERSIGHT

WALKER COUNTY HOSPITAL CORPORATION, d/b/a HUNTSVILLE MEMORIAL HOSPITAL,	Case No. 19-36300
Debtor and Debtor in Possession. [1]	

DECLARATION OF SANJAY NAYAR IN SUPPORT OF DEBTOR'S APPLICATION FOR ENTRY OF AN ORDER APPROVING THE EMPLOYMENT AND RETENTION OF BHARAT CAPITAL, LLC AS CONSULTANT

Pursuant to 28 U.S.C. § 1746, I, John Bharat, hereby declare and state as follows:

FOUNDATION

1. I am the Managing Member of Bharat Capital, LLC ("***Bharat***"). I obtained a bachelor degree in economics from the University of Pennsylvania in 1996 and have been a CFA holder since 2001. I submit this declaration (this "***Declaration***"), pursuant to sections 327(a) and 329 of title 11 of the United States Code (the "***Bankruptcy Code***"), Rules 2014 and 2016(b) of the Federal Rules of Bankruptcy Procedure (the "***Bankruptcy Rules***"), Rules 2014 and 2016 of the Local Rules for the United States Bankruptcy Court for the Southern District of Texas (the "***Local Rules***"), and the *Guidelines for Reviewing Applications for Compensation and Reimbursement of Expenses Filed Under 11 U.S.C. § 330 by Attorneys in Larger Chapter 11 Cases*, effective November 1, 2013 (the "***U.S. Trustee Fee Guidelines***"), in support of the *Debtor's Application for Entry of an Order Approving the Employment and Retention of Bharat*

[1] The last four digits of the Debtor's federal tax identification number are: 0960. The location of the Debtor's service address is: Walker County Hospital Corporation d/b/a Huntsville Memorial Hospital, c/o Healthcare Management Partners, LLC, 1033 Demonbreun Street, Suite 300, Nashville, TN 37203.

AMERICAN OVERSIGHT

Capital, LLC as Consultant (the "***Application***").[2] Unless otherwise stated in this Declaration, I have personal knowledge of the facts set forth herein.

THE DEBTOR'S RETENTION OF BHARAT

2. Bharat is an advisory company specializing in advising attorneys, liquidating trusts and other litigation stakeholders on how to optimize their legal funding transactions. Bharat has extensive expertise and experience advising plaintiffs in similar opioid cases, including multiple health care providers, in addition to advising plaintiffs on how to monetize their claims. Bharat is well qualified to represent the Debtor as consultant in identifying specific third parties and valuing the Claims.

3. Given Bharat's breadth of experience in these and similar matters, I believe Bharat is abundantly qualified to assist the Debtor in these Claims.

SERVICES TO BE PROVIDED

4. Bharat will assist the Debtor in identifying and valuing potential claims the Debtor may have against third parties. Bharat will also use its best efforts to monetize claims that may take longer than a year to payout by introducing the Debtor to potential purchases of such claims.

PREPETITION PAYMENTS TO BHARAT

5. Pursuant to Bankruptcy Rule 2016(b), Bharat has neither shared nor agreed to share (a) any compensation it has received or may receive with another party or person, other than with the partners and associates of Bharat nor (b) any compensation another person or party has received or may receive.

6. Bharat has not received any compensation from the Debtor.

[2] Capitalized terms used herein but not otherwise defined shall have the meanings set forth in the Application.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000021

BHARAT'S FEES FOR SERVICES TO BE RENDERED IN CONNECTION WITH THE CLAIMS

7. **Contingency Fees**. Subject to Court approval, and in accordance with the Bankruptcy Code, the Bankruptcy Rules, and the Local Rules, the Debtor will compensate Bharat in accordance with the terms and provisions of the Engagement Letter, which provides that: (i) if Bharat is able to identify Claims that result in cash proceeds to the Debtor, Bharat shall be paid 3.0% of the total amount of these proceeds (the "***Contingency Fee***"); and (ii) upon the consummation of any sale of the Debtor's Claims to a third party that Bharat introduced the Debtor to, Bharat will be compensated: (a) in the amount of $10,000 if the sale is for $500,000 or less; or (b) $20,000 if the sale is over $500,000 (the "***Referral Fee***" and together with the Contingency Fee, the "***Contingency Fee Schedule***").

8. The rates described above for Bharat's services under the Contingency Fee Schedule are competitive and are in line with the rates charged by Bharat for similar services in other similar cases and by its competitors. The Contingency Fee Schedule anticipates that a substantial commitment of professional time and effort would be required of Bharat and its professionals. No advance or retainer is contemplated by Bharat's Engagement Letter. I believe that Bharat's rates are reasonable given the quality of Bharat's services and its professionals' expertise in prosecuting similar Claims.

9. **Remittances and Reports**. Upon the successful resolution of any Claims, all proceeds recovered (the "***Gross Proceeds***") will be deposited into a segregated attorney trust account while Bharat seeks this Court's approval of compensation pursuant to the Bankruptcy Code.

10. The Debtor believes that the Contingency Fee Schedule described above is comparable to compensation generally charged by consultants of similar stature to Bharat for

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000022

comparable engagements. Further, the Debtor believes that the Contingency Fee Schedule described above is consistent with Bharat's normal and customary billing practices for cases of this size and complexity that require the level and scope of services outlined.

11. The terms and conditions of the Engagement Letter were negotiated between the Debtor and Bharat at arm's length and in good faith, and they reflect the parties' mutual agreement as to the substantial efforts that will be required in this engagement. The fees have been agreed upon by the parties in anticipation of a substantial commitment of professional time and effort that will be required of Bharat and its professionals, in light of the fact that such commitment may foreclose other opportunities for Bharat and with the understanding that the actual time and commitment required of Bharat and its professionals to perform services thereunder may vary substantially from week to week or month or to month.

BHARAT'S DISINTERESTEDNESS

12. To the best of my knowledge, information, and belief (a) other than its prior representations of the Debtor and its representation in connection with the Chapter 11 Case, Bharat has no connection with the Debtor except as disclosed herein; (b) Bharat does not represent, and has not represented, any entity other than the Debtor in the Chapter 11 Case; (c) Bharat does not have any connection with, and has not represented in the past, the United States Trustee for the Southern District of Texas, or any person employed by the Office of the United States Trustee for the Southern District of Texas; and (d) Bharat does not have any connection with the Debtor's creditors, any other party in interest, or their respective attorneys and accountants.

13. HMP together with its professional service provider affiliates (the "***Firm***") utilizes certain procedures (the "***Firm Procedures***") to determine its relationships, if any, to

AMERICAN OVERSIGHT

parties that may have a connection to the Debtor in the Chapter 11 Case. In implementing the Firm Procedures, the following actions were taken to identify parties that may have connections to the Debtor and to determine the Firm's relationship with such parties:

(a) Bharat reviewed the list of interested parties and significant creditors (the "***Interested Parties***") annexed hereto as **Schedule 1**.

(a) There are no known connections between former or recent clients of the Firm and the Potential Parties in Interest.

(b) No matches between the Interested Parties and the entities in Bharat's client database were identified.

14. Based on the search of names set forth in Schedule 1, Bharat concluded it has no connections with the Debtor and the Interested Parties.

15. I am confident that our diligence has resulted, to the greatest extent possible, in the disclosure of all potential conflicts. However, if Bharat discovers additional information that requires disclosure, Bharat will file a supplemental disclosure with the Court. Additionally, to the extent that issues may arise which would cause the Debtor to be adverse to any of Bharat's clients, Bharat will obtain and disclose waivers or, to the extent that it would not be appropriate for Bharat to represent the Debtor with respect to such matters, other counsel employed by the Debtor will represent the Debtor in connection with such matters.

16. Based upon information available to me at this time, I believe that Bharat is a "disinterested person" pursuant to section 101(14) of the Bankruptcy Code, and that Bharat does not hold or represent an interest adverse to the Debtor or their estates as required by section 327(a) of the Bankruptcy Code. Specifically, I do not believe that the connections between Bharat and the entities listed herein will impair Bharat's ability to represent the Debtor in this Chapter 11 Case.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000024

17. No promises have been received by Bharat or any member or associate thereof as to payment or compensation in connection with this case other than in accordance with the provisions of the Bankruptcy Code and the Bankruptcy Rules. Other than with members and regular associates of the firm, Bharat has no agreement with any other entity to share with such entity any compensation received by Bharat.

18. The foregoing constitutes the statement of Bharat pursuant to sections 327(a), 329 and 504 of the Bankruptcy Code and Bankruptcy Rules 2014(a) and 2016(b).

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge, information, and belief.

EXHIBIT 1

ENGAGEMENT LETTER

AMERICAN OVERSIGHT

CONSULTING AGREEMENT

THIS CONSULTING AGREEMENT (this "**Agreement**"), effective as of August __, 2021 is between _____ located in _____ and Bharat Capital, LLC (**"Consultant"**) located in Lake Forest, IL

RECITALS

A. The Company desires to engage Consultant for certain consulting services, and Consultant desires to provide such consulting services to the Company.

B. The Company and Consultant desire to set forth their agreement with respect to the term of Consultant's engagement by the Company, the ownership of Work (as defined below) developed or created by Consultant, the Confidential Information (as defined below), non-disclosure and use and other matters described herein.

AGREEMENT

As a condition to and in consideration of Consultant's engagement by and compensation from the Company, in consideration of the covenants and promises contained herein and any access to Confidential Information, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Company and Consultant (each, a "**Party**," and collectively, the "**Parties**") agree as follows:

1. Consulting Services and Term.

1.1 Engagement; Scope of Duties. The Company hereby engages Consultant, and Consultant hereby accepts such engagement, to assist the Company as a financial advisor in identifying, and valuing potential claims the Company may have against third parties. Included in the engagement, the Consultant will use best efforts to monetize claims that take longer than a year to payout.

Term and Termination. The term (the "**Term**") of this Agreement shall commence on the date hereof and expire upon termination of this Agreement. This Agreement may be terminated (i) by the Company, for any reason or no reason, upon written notice to Consultant; (ii) by Consultant, for any or no reason, upon thirty (30) days' prior written notice to the Company; or (iii) by either the Company or Consultant, upon a material breach of this Agreement by Consultant or the Company, respectively, upon written notice to the other Party.

1.2 Independent Contractor. The relationship between the Parties is, and will be for all purposes, an independent contractor relationship as between the Company, on the one hand, and Consultant, on the other hand, and neither this Agreement nor anything contained in this Agreement, or implied, will constitute any other relationship. Without limiting the generality of the foregoing, in performing the Consulting Services for the Company pursuant to this Agreement, Consultant shall act in the capacity of an independent contractor with respect to the Company, and Consultant shall not be deemed an employee or agent of the Company.

2. Consulting Fees; Cooperation.

2.1 Consulting Fees. During the Term, if the Consultant is able to identify claims that result in cash proceeds to the Company, Consultant shall be paid 3.0% of the total amount of these proceeds (gross of legal or any other fees).

In addition, Consultant will also seek to monetize any claims that have a duration of greater than a year by introducing Company to capital sources. Upon the consummation of any sale of the Company's claims to a third party that Consultant introduced Company to, Consultant will be

AMERICAN OVERSIGHT

compensated: (a) in the amount of $10,000 if the sale is for $500,000 or less; or (b) $20,000 if the sale is over $500,000.

2.2 Consultant Obligations. The Company shall not provide workers' compensation, disability insurance, Social Security, unemployment compensation coverage, or any other statutory benefit to Consultant. Consultant shall, at his own expense, comply with all, and be solely responsible for any liability arising out of, applicable provisions of workers' compensation laws, unemployment compensation laws, federal Social Security law, the Fair Labor Standards Act, and federal, state and local income tax laws, and all other applicable federal, state and local laws, regulations and codes relating to terms and conditions of employment required to be fulfilled by employers or independent contractors.

2.3 Income Tax Treatment. Consultant and the Company acknowledge that the Company intends to deduct the Consulting Fees as an ordinary and necessary business expense for income tax purposes. Consultant agrees and represents and warrants that, except as otherwise required in writing by the Internal Revenue Service (the "**IRS**"), Consultant shall (i) treat the Consulting Fees as ordinary income for income tax purposes, (ii) be responsible for all withholding obligations, and (iii) pay on a timely basis all taxes due in respect of the Consulting Fees (the "**Consultant's Taxes**"). Except as otherwise required by the IRS, if Consultant reports the receipt of the Consulting Fees as other than ordinary income and/or fails to pay the Consultant's Taxes, Consultant shall indemnify and hold the Company harmless from any and all taxes, penalties, interest, losses, liabilities, costs and expenses, including reasonable attorneys' fees and accounting fees, that are incurred by the Company as the result thereof.

3. Confidential Information.

3.1 Covenants. During the Term and thereafter, Consultant shall not copy, disclose, utilize or exploit any Confidential Information (as defined below) other than in connection with the performance of Consultant's duties and obligations to the Company, without the prior written consent of the Company (which may be granted or withheld in its absolute discretion), except to the extent that such Confidential Information is requested to be disclosed pursuant to any law, regulation or order of any court or regulatory commission, department or agency, or is disclosed by Consultant to a regulatory commission, department or agency in accordance with the applicable whistleblower provisions, including pursuant to the Dodd-Frank Act and SEC Rule 21F-17. In the event of any such request, Consultant shall immediately notify the Company of such fact, and shall thereafter cooperate with the Company (at its expense) in any lawful response to such legal process as the Company may request, in which event Consultant may disclose Confidential Information to the extent, and at the time, Consultant is legally required to do so pursuant to any applicable legal process. Notwithstanding the foregoing, Consultant may disclose this Agreement to his immediate family, and legal and financial advisors. Consultant further agrees to deliver promptly to the Company upon termination of this Agreement, or at any other time at the Company's request, all documents and computer media in any form (and all copies thereof) containing Confidential Information and/or Work.

3.2 Definition. "**Confidential Information**" means all confidential information, proprietary information, trade secrets or other information (whether oral or written), documents or materials (i) that are not publicly available and (ii) that, prior to termination of this Agreement, (a) have been or are provided to Consultant by the Company, one of its Affiliates, or a client of either of the foregoing, or (b) Consultant otherwise develops or has access to. Confidential Information may include, without limitation, information relating to costs, profits, databases, personnel, operational methods, financial models, potential transactions, pending negotiations, computer programs, algorithms, pending patent applications, systems, contractual negotiations, terms of agreements, client lists, financial results, business developments, or internal controls and security procedures, as well as information received from third parties that may be subject to

AMERICAN OVERSIGHT

confidentiality agreements or obligations, legal privileges, or other restrictions on the use or disclosure of such information. The foregoing is not an exhaustive list and Confidential Information also may include, without limitation, any other information, documents or materials that may be identified as confidential or proprietary, or which would otherwise appear to a reasonable person, in the context in which the information, documents or materials are received, provided or learned, to have such status. For the avoidance of doubt, this Agreement shall be considered Confidential Information.

3.3 **Attorney Client Interest.** The Parties agree that no attorney-client relationship has been or will be created between the Consultant, on the one hand, and the Company and its clients, on the other hand. The Parties explicitly agree that any privileged information, communications and materials that are inadvertently disclosed by the Company to Consultant or that are exchanged between Company and its clients shall be treated as Common Interest Materials (as defined in Section 4.4 hereof).

3.4 **Common Interest.** The Parties acknowledge that they share a common, joint and mutual legal interest in cooperating with each other in order to pursue the legal matters and their favorable outcome. To the extent that the Parties ' furtherance of the Business Purpose involves any exchange of proprietary documents and information, attorney work product or otherwise privileged information developed by the Parties (collectively, the "Common Interest Materials"), any such exchange shall not diminish the confidentiality of the Common Interest Materials, nor shall it constitute a waiver of any applicable privilege or protection. Further, any counsel or consultant retained by a Party to assist with the Business Purpose with respect to the Common Interest Materials shall be bound by, and entitled to the benefits of this provision_

4. **Warranty**. Consultant hereby represents and warrants that (i) he has the legal right and capacity to enter into this Agreement; (ii) Consultant's engagement by the Company and performance of his duties in connection therewith will not breach any confidentiality or other agreement with any former employer or other third party to which Consultant is bound; (iii) Consultant is not a party to, or bound by the terms of, any agreement (iv) restricting Consultant from using or disclosing any confidential or proprietary information in the course of Consultant's performance of the Consulting Services on behalf of the Company, (v) restricting Consultant from competing, directly or indirectly, with the business of any party, or (vi) that otherwise in any way prohibits, restricts, limits, would be breached by, or otherwise would be in conflict with Consultant's performance of the Consulting Services for the Company; (vii) Consultant has not previously granted, pledged or made any other disposition to any Person of any right, title or interest in or to the Work, and shall not make any such disposition to any Person other than the Company; (viii) the Work (excluding any materials submitted by the Company to Consultant) is and will be original creations by Consultant and does not and will not improperly use or disclose any trade secrets or confidential information or other property of any former employer of Consultant or of any other third party; (ix) neither the Work nor the production, exploitation and/or use by the Company of the Work or any portion thereof (excluding any materials submitted by the Company to Consultant), in any manner or media throughout the world, will, to Consultant's knowledge, in any way infringe or otherwise violate any intellectual property, privacy or other right of any Person; and (x) the Work does not and will not contain or embed any inventions that were created, conceived, developed, reduced to practice or caused to be created, conceived, developed or reduced to practice, alone or jointly, by Consultant prior to the date hereof.

5. **Severability and Blue Penciling**. If any clause, term or provision of this Agreement, or the application thereof to any Person or circumstance, shall to any extent be deemed by a court of competent jurisdiction to be invalid or unenforceable, then the remainder of this Agreement and the application of such clause, term or provision to Persons or circumstances other than those in respect of which it is invalid and unenforceable, shall not be affected thereby, and shall be valid

AMERICAN OVERSIGHT

and be enforced to the fullest extent permitted by law. If any court of competent jurisdiction shall deem any provision of this Agreement too restrictive, the other provisions shall stand, and the court shall modify the provision at issue to the point of greatest restriction permissible by law.

6. Governing Law; Waiver of Jury Trial; Consent to Arbitration.

6.1 This Agreement and the rights and obligations of the Parties hereunder shall be governed in all respects, including validity, interpretation and effect, by the laws of the State of Delaware, without regard to its rules of conflicts of law.

6.2 Each Party hereby irrevocably and unconditionally waives the right to seek remedies in court, including any right to a jury trial, and agrees to submit exclusively to binding arbitration (to be conducted in the manner set forth below) any dispute, controversy or claim between the Parties (or their respective heirs, successors, assigns or Affiliates) arising out of, relating to, or in connection with this Agreement or Consultant's engagement hereunder.

6.3 The arbitration shall be conducted in accordance with the Expedited Procedures of the Commercial Arbitration Rules of the American Arbitration Association (the "**AAA**") in effect at the time of the arbitration, except as such rules may be modified by mutual agreement of the Parties. The seat of the arbitration shall be Chicago, Illinois, and the arbitration shall be conducted in English. The arbitration shall be conducted by one arbitrator, and any discovery allowed by the applicable rules shall be further limited in scope. If the Parties have not agreed upon an arbitrator within thirty (30) days after the filing of the Request for Arbitration, then either Party may request the AAA to appoint the arbitrator.

6.4 The arbitral award shall be in writing, state the reasons for the award, and be final and binding on the Parties. Any award rendered by the arbitrator shall be final and binding, and judgment may be entered on it in any court of competent jurisdiction at the time such award is rendered or as otherwise provided by law.

6.5 The arbitrator shall not have authority to award punitive or other damages not measured by the prevailing Party's actual damages, and the Parties hereby irrevocably waive any claim thereto. The Parties, their representatives, other participants and the arbitrator shall hold the existence, content and result of any arbitration in the strictest of confidence and shall not disclose the same except as required by law and in connection with the confirmation and enforcement of any arbitral award.

** ** **

IN WITNESS WHEREOF, the Company and Consultant have executed this Consulting Agreement as of the date first set forth above.

In re: WALKER COUNTY HOSPITAL CORPORATION, d/b/a HUNTSVILLE MEMORIAL HOSPITAL, Debtor and Debtor in Possession.[1]	Chapter 11 Case No. 19-36300 Re: Docket No. 525

ORDER APPROVING THE EMPLOYMENT AND RETENTION OF BHARAT CAPITAL, LLC AS CONSULTANT

Upon consideration the application (the "***Application***")[2] filed by the above-captioned Debtor; and the Court having found that it has jurisdiction to consider the Application and the relief requested therein pursuant to 28 U.S.C. §§ 157 and 1334; and upon consideration of the Nayar Declaration in support thereof; and the Court having found that consideration of the Application and the relief requested therein is a core proceeding pursuant to 28 U.S.C. § 157(b); and the Court having found that venue of this proceeding in this District is proper pursuant to 28 U.S.C. §§ 1408 and 1409; and it appearing that notice of the Application as set forth therein is sufficient under the circumstances; and the Court having reviewed the Application and having considered statements in support of the Application at the hearing held before this Court (the "***Hearing***"); and the Court having determined that the legal and factual bases set forth in the Application and at the Hearing establish just cause for the relief granted herein; and upon all of the proceedings had before the Court; and after due deliberation and sufficient cause appearing therefor,

[1] The last four digits of the Debtor's federal tax identification number are: 0960. The location of the Debtor's service address is: Walker County Hospital Corporation d/b/a Huntsville Memorial Hospital, c/o Healthcare Management Partners, LLC, 1033 Demonbreun Street, Suite 300, Nashville, TN 37203.

[2] Capitalized terms used herein but not otherwise defined shall have the meanings ascribed to them in the Application.

AMERICAN OVERSIGHT

IT IS THEREFORE ORDERED:

1. The Debtor is hereby authorized, pursuant to sections 327(a) and 330 of the Bankruptcy Code, Bankruptcy Rules 2014 and 2016, and Local Rule 2014-1(b), to employ and retain Bharat to assist the Debtor in identifying and valuing potential claims against specific third parties on the terms set forth in the Application and the Engagement Letter, effective immediately, as modified herein.

2. The terms of the Engagement Letter, attached to the Nayar Declaration as **Exhibit 1**, are approved in all respects except as limited or modified herein.

3. The terms and obligations set forth in the Interim Compensation Procedures Order are hereby waived with respect to Bharat. Instead, Bharat shall apply for the allowance of compensation for services rendered by filing the following: (a) upon the occurrence of any settlements with defendants but prior to Bharat's final resolution of all Claims, short-form statements that include the amount of fees paid based on the Contingency Fee Schedule; and (b) upon the conclusion of its services, a final fee application for final allowance of compensation for professional services rendered under the Engagement Letter in accordance with sections 330 and 331 of the Bankruptcy Code, the Bankruptcy Rules, the Local Rules, and any applicable orders of this Court. Bharat shall be excused from time-keeping reporting requirements, with respect to its activities under the Engagement Letter, in applying for allowance of compensation for professional services as authorized herein.

4. Notwithstanding anything to the contrary herein, the U.S. Trustee shall have the right to object to upon the occurrence of any settlements with Defendants but prior to Bharat's final resolution of the Claims' final fee applications (including expense reimbursement) on all grounds, including the reasonableness standard provided in section 330 of the Bankruptcy Code.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000037

Accordingly, nothing in this Order or the record shall constitute a finding of fact or conclusion of law binding the U.S. Trustee, on appeal or otherwise, with respect to the reasonableness of Bharat's fees.

5. Bharat shall use its reasonable efforts to avoid any duplication of services provided by any of the Debtor's other retained professionals in this Chapter 11 Case.

6. The relief granted herein shall be binding upon any chapter 11 trustee appointed in the Chapter 11 Case, or upon any chapter 7 trustee appointed in the event of a subsequent conversion of the Chapter 11 Case to a case under chapter 7.

7. The Debtor and Bharat are authorized to take all actions necessary to effectuate the relief granted pursuant to this Order in accordance with the Application.

8. Notice of the Application as provided therein is deemed to be good and sufficient notice of such Application, and the requirements of the Bankruptcy Code, the Bankruptcy Rules, and the Local Rules are satisfied by the contents of the Application.

9. To the extent the Application is inconsistent with this Order, the terms of this Order shall govern.

10. The terms and conditions of this Order shall be immediately effective and enforceable upon its entry.

11. This Court retains exclusive jurisdiction with respect to all matters arising from or related to the implementation, interpretation, and enforcement of this Order.

Dated: _____, 2022
Houston, Texas

HONORABLE DAVID R. JONES
UNITED STATES BANKRUPTCY JUDGE

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000038

UNITED STATES BANKRUPTCY COURT
FOR THE SOUTHERN DISTRICT OF TEXAS
HOUSTON DIVISION

In re:	Chapter 11
WALKER COUNTY HOSPITAL CORPORATION, d/b/a HUNTSVILLE MEMORIAL HOSPITAL,	Case No. 19-36300
Debtor and Debtor in Possession. [1]	

DEBTOR'S APPLICATION FOR ENTRY OF AN ORDER APPROVING THE EMPLOYMENT AND RETENTION OF EAVES LAW FIRM AS SPECIAL COUNSEL

If you object to the relief requested, you must respond in writing. Unless otherwise directed by the Court, you must file your response electronically at https://ecf.uscourts.gov/ within twenty-one days from the date this motion was filed. If you do not have electronic filing privileges, you must file a written objection that is actually received by the clerk within twenty-one days from the date this motion was filed. Otherwise, the Court may treat the pleading as unopposed and grant the relief requested.

Walker County Hospital Corporation, d/b/a Huntsville Memorial Hospital (the "***Debtor***"), by and through its undersigned counsel, files this application (the "***Application***") for entry of an order, substantially in the form submitted herewith, authorizing the Debtor to retain and employ Eaves Law Firm ("***Eaves***") as its attorneys to pursue Claims (as defined below) on a contingency fee basis. In support of this application, the Debtor submits the declaration of John Eaves, a partner of Eaves (the "***Eaves Declaration***"), which is attached to this application as **Exhibit A**. In further support of this application, the Debtor respectfully states as follows:

JURISDICTION AND VENUE

1. The United States Bankruptcy Court for the Southern District of Texas (the "***Court***") has jurisdiction over this matter pursuant to 28 U.S.C. § 1334 and the *Amended*

[1] The last four digits of the Debtor's federal tax identification number are: 0960. The location of the Debtor's service address is: Walker County Hospital Corporation d/b/a Huntsville Memorial Hospital, c/o Healthcare Management Partners, LLC, 1033 Demonbreun Street, Suite 300, Nashville, TN 37203.

AMERICAN OVERSIGHT

Standing Order of Reference from the United States District Court for the Southern District of Texas, dated May 24, 2012. This is a core proceeding under 28 U.S.C. § 157(b)(2). The Debtor confirms its consent, pursuant to Rule 7008 of the Federal Rules of Bankruptcy Procedures (the "***Bankruptcy Rules***"), to the entry of a final order by the Court in connection with this Application to the extent that it is later determined that the Court, absent consent of the parties, cannot enter final orders or judgments in connection herewith consistent with Article III of the United States Constitution.

2. Venue is proper pursuant to 28 U.S.C. §§ 1408 and 1409.

BACKGROUND

3. On November 11, 2019 (the "***Petition Date***"), the Debtor filed a voluntary petition for relief in this Court, pursuant to chapter 11 of the Bankruptcy Code, commencing this case (the "***Chapter 11 Case***").

4. The Debtor continues to operate its business as a debtor in possession, pursuant to sections 1107(a) and 1008 of the Bankruptcy Code.

5. No request for the appointment of a trustee or examiner has been made in this Chapter 11 Case, nor have any committees been appointed or designated. An official committee of unsecured creditors (the "***Committee***") has been appointed in this Chapter 11 Case.

6. A description of the Debtor's business, the reasons for commencing this Chapter 11 Case, the relief sought from this Court, and the facts and circumstances supporting this motion are set forth in the *Declaration of Steven L. Smith in Support of First Day Motions* (the "***First Day Declaration***").

7. The Debtor holds claims against a multitude of potential defendants identified on pages one and two of the form *Opioid Authority to Represent for Hospitals/Facilities* agreement (the "***Defendants***"), attached to the Eaves Declaration as **Exhibit 1** (the "***Engagement Letter***")

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000040

who have engaged in violations of law in the fraudulent marketing and sale of certain highly addictive, opiate-derived painkillers for purposes for which they are neither safe nor effective (the "***Claims***"). The Debtor estimates these claims are worth in excess of $1,300,000 to the estate.

RELIEF REQUESTED

8. By this application, the Debtor seeks entry of an order authorizing Eaves to pursue the Claims on a contingency fee basis, in accordance with the terms and conditions set forth in the Engagement Letter.

BASIS FOR RELIEF

9. The bases for the relief requested in this application are sections 327(a) and 330 of title 11 of the United States Code (the "***Bankruptcy Code***"), Rules 2014(a) and 2016 of the Bankruptcy Rules, and Local Rules 2014-1 and 2016-1 of the Bankruptcy Local Rules for the United States Bankruptcy Court for the Southern District of Texas (the "***Local Rules***").

EAVES' QUALIFICATIONS

10. Eaves is a boutique law firm located in Jackson, Mississippi specializing in representing plaintiffs in, among other things, opioid cases. Eaves has extensive expertise and experience the representation of plaintiffs in such cases: (a) In Re: National Prescription Opiate Litigation [MDL No. 02804]; (b) In re Roundup Products Liability Litigation [MDL No. 02741]; (d) IN RE: Ashley Madison Customer Data Security Breach Litigation [MDL No. 02669]; (e) In Re: Oil Spill by the Oil Rig "Deepwater Horizon" in the Gulf of Mexico, on April 20, 2010 [MDL No. 2179]; (f) Asbestosis Litigation; (g) Breast Implant Litigation; and (h) various drug product liability cases.

11. Eaves is well qualified to represent the Debtor as special counsel in prosecuting the Claims. Eaves' team of attorneys represent hospitals in conjunction with Barrett Law Firm, who represents 840 hospitals across the United States in similar law suits. Working with accounting

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000041

experts, we have developed a model and process that uses traditional hospital accounting methods to calculate, to the penny, the amounts lost as a result of these Claims.

12. Given Eaves' breadth of experience in these and similar matters, Eaves is abundantly qualified to represent the Debtor in these Claims.

SERVICES TO BE PROVIDED

13. Eaves has agreed to analyze, prosecute, and/or settle the Claims against the Defendants in accordance with the terms and conditions set forth in the Engagement Letter. The terms of the Engagement Letter reflect the mutual agreement negotiated at arm's length and in good faith between the Debtor and Eaves as to the substantial efforts that may be required of Eaves throughout the course of its representation of the Debtor.

PROFESSIONAL COMPENSATION

14. **Contingency Fees**. Subject to Court approval, and in accordance with the Bankruptcy Code, the Bankruptcy Rules, and the Local Rules, the Debtor will compensate Eaves in accordance with the terms and provisions of the Engagement Letter, which provides a compensation structure (the "***Contingency Fee Schedule***") for Eaves' work related to the Claims, in relevant part as follows:

> (a) **Pre-Judgment.** Eaves shall earn legal fees on a contingency basis of 33% of the cash value of any recoveries obtained from any Defendants of all Claims settled prior to a judgment being rendered against such Defendants.
>
> (b) **Post Judgment**. Eaves shall earn legal fees on a contingency basis of 40% of the cash value of any recoveries obtained from any Defendants of all Claims obtained through a judgment against such Defendants.

15. The Debtor believes that the rates described above for Eaves' services under the Contingency Fee Schedule are competitive and are in line with the rates charged by Eaves for similar services in other similar cases and by its competitors. The Contingency Fee Schedule anticipates that a substantial commitment of professional time and effort would be required of

AMERICAN OVERSIGHT

Eaves and its professionals. No advance or retainer is contemplated by Eaves' Engagement Letter. The Debtor believes that Eaves' rates are reasonable given the quality of Eaves' services and its professionals' expertise in prosecuting similar Claims.

16. **Remittances and Reports**. Upon the successful resolution of any Claims, all proceeds recovered by Eaves (the "***Gross Proceeds***") will be deposited into a segregated attorney trust account while Eaves seeks this Court's approval of compensation pursuant to the Bankruptcy Code.

17. In addition to the compensation set forth in the Contingency Fee Schedule, upon Eaves' request for such reimbursement pursuant to the Bankruptcy Code, the Debtor shall reimburse Eaves for reasonable and documented out-of-pocket expenses from the Gross Proceeds as described in the Engagement Letter. Reasonable out-of-pocket expense items include, but are not limited to, the following: expert witnesses, shipping costs of records, court filing fees; reasonable costs of pleading filing services; mediation fees, deposition expenses; costs to domesticate and collect out of state judgments, entity name/officer verifications at $10.00 per entity; service of process; travel expenses, photocopying at 10 cents per page, postage, and telephone charges; and witness fees and costs. In the event that there are insufficient Gross Proceeds to cover the out of pocket expenses, the Debtor will not be responsible for such shortfall. Eaves will work cooperatively with other retained professionals in the Chapter 11 Case to avoid duplicative and/or competing efforts.

18. The Debtor seeks to retain Eaves on a contingency fee basis for the services provided under the Engagement Letter, such that Eaves' contingency fees will be earned only to the extent recoveries are obtained by the Debtor's estate with respect to Claims. Thus, if for some

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000043

unforeseen reason, there is insufficient cash recoveries to cover the entire out of pocket expenses related to Eaves' prosecution of the Claims, Eaves will not seek reimbursement of any deficiency.

19. The Debtor believes that the Contingency Fee Schedule described above is comparable to compensation generally charged by counsel of similar stature to Eaves for comparable engagements. Further, the Debtor believes that the Contingency Fee Schedule described above is consistent with Eaves' normal and customary billing practices for cases of this size and complexity that require the level and scope of services outlined.

20. The terms and conditions of the Engagement Letter were negotiated between the Debtor and Eaves at arm's length and in good faith, and they reflect the parties' mutual agreement as to the substantial efforts that will be required in this engagement. The fees have been agreed upon by the parties in anticipation of a substantial commitment of professional time and effort that will be required of Eaves and its professionals, in light of the fact that such commitment may foreclose other opportunities for Eaves and with the understanding that the actual time and commitment required of Eaves and its professionals to perform services thereunder may vary substantially from week to week or month or to month.

21. In light of the foregoing, and given the numerous issues that Eaves may be required to address in the performance of the services pursuant to the Engagement Letter, Eaves' commitment to the variable level of time and effort necessary to address all such issues as they arise, and the market prices for Eaves' services for engagements of this nature, the Debtor believes the Contingency Fee Schedule is reasonable and should be approved under section 330 of the Bankruptcy Code.

22. Accordingly, the Debtor has determined, in the exercise of its sound business judgment, that the Engagement Letter, including the Contingency Fee Schedule, (a) appropriately

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000044

reflects the nature of the services provided by Eaves, (b) contains reasonable terms and conditions of employment, and (c) should be approved.

23. The Debtor also seeks a waiver from the terms and obligations set forth in the *Order Establishing Procedures for Interim Compensation and Reimbursement of Expenses for Professionals* [D.I. 202] (the "***Interim Compensation Order***") to allow Eaves to apply for the allowance of compensation for services rendered and reimbursement of expenses incurred pursuant to the Engagement Letter by filing the following: (a) upon the occurrence of any settlements with Defendants but prior to Eaves' final resolution of the Claims, short-form statement that includes the amount of fees paid based on the Contingency Fee Schedule and a reasonably detailed itemization of expenses incurred and paid; and (b) upon the conclusion of services, a final fee application for final allowance of compensation for the services rendered and reimbursement of expenses incurred in accordance with section 330 and 331 of the Bankruptcy Code, the Bankruptcy Rules, the Local Rules, and any orders entered by the Court.

24. As set forth in the Eaves Declaration, compensation to be paid to Eaves under the Engagement Letter is a mathematical function of the applicable percentage according to the Contingency Fee Schedule, multiplied by the amount for which any Claim(s) is resolved, either by settlement or judgment, all of which are subject to approval by the Court after notice and an opportunity to be heard. Therefore, the Debtor submits that Eaves should not be required to maintain or provide time records to the Debtor, the Court, or the U.S. Trustee related to the services provided pursuant to the Engagement Letter, as Eaves would if it were being retained and paid on an hourly basis. Furthermore, the Debtor believes that Eaves' requirement to apply to the Court periodically for allowance of compensation for professional services rendered pursuant to the Engagement Letter should be satisfied by filing a short form statement that includes the amount of

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000045

fees paid and a detailed itemization of expenses incurred, including any filing fees advanced by Eaves, and the final fee application. The Debtor has been advised that Eaves intends to comply with the U.S. Trustee's requests for information and additional disclosures as set forth in the U.S. Trustee Guidelines.

25. The Debtor understands that the requested compensation application process described above is similar to how avoidance action counsel in other cases has sought allowance of its compensation earned on a contingency basis. *See, e.g., In re Southern Foods Grp., LLC*, Case No. 19-36313 (Bankr. S.D. Tex. 2020) [Dkt. No. 2802]; *In re CR Holding Liquidating, Inc.*, Case No. 19-10210 (Bankr. D. Del. 2019) [Dkt. No. 770]; *In re Sears Holding Corp.*, Case No. 18-23538 (Bankr. S.D.N.Y. 2018) [Dkt. No. 4379]; *In re Central Grocers, Inc.*, Case No. 17-13886 (Bankr. N.D. Ill. 2017) [Dkt. No. 1372]; *In re APP Winddown LLC*, Case No 16-12551 (Bankr. D. Del. 2016) [Dkt. No. 1000].

COMPENSATION RECEIVED BY EAVES FROM THE DEBTOR

26. Pursuant to Bankruptcy Rule 2016(b), Eaves has neither shared nor agreed to share (a) any compensation it has received or may receive with another party or person, other than with the partners and associated counsel of Eaves nor (b) any compensation another person or party has received or may receive.

27. Eaves has not received any compensation from the Debtor.

NO DUPLICATION OF SERVICES

28. In addition to this Application, the Debtor has retained (a) Waller Lansden Dortch & Davis, LLP, as general bankruptcy counsel and avoidance action counsel and (b) Healthcare Management Partners, LLC, as financial advisor. The Debtor is mindful of the need to avoid duplication of services and the Debtor understands that Eaves will use its reasonable efforts to work cooperatively with the Debtor's other professionals to avoid any unnecessary duplication of

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000046

services and to integrate any respective work performed by those professionals on behalf of the Debtor.

EAVES' DISINTERESTEDNESS

29. To the best of the Debtor's knowledge (a) Eaves is a "disinterested person" within the meaning of section 101(14) of the Bankruptcy Code, as required by section 327(a) of the Bankruptcy Code, and does not hold or represent an interest adverse to the Debtor's estate and (b) Eaves has no connection to the Debtor, its creditors, or other parties in interest, except as may be disclosed in the Eaves Declaration.

30. Eaves will continue to review its files periodically during the pendency of this Chapter 11 Case, to ensure that no conflicts or other disqualifying circumstances exist or arise.

31. If any new relevant facts or relationships are discovered or arise, Eaves will use reasonable efforts to identify such further developments and will promptly file a supplemental declaration, as required by Rules 2014(a) of the Bankruptcy Rules.

BASIS FOR RELIEF REQUESTED

32. Section 327(a) of the Bankruptcy Code provides that a debtor in possession may, with the court's approval, employ professionals that do not hold or represent an interest adverse to the estate and that are "disinterested persons," as defined by section 101(14) of the Bankruptcy Code, to represent or assist the debtor in possession in carrying out its duties under the Bankruptcy Code. *See* 11 U.S.C. § 101(14). Additionally, section 1107(b) of the Bankruptcy Code provides that a professional is not disqualified for employment by a chapter 11 debtor in possession under section 327(a) of the Bankruptcy Code solely because of its employment by or representation of the debtor before the commencement of the case. *See* 11 U.S.C. § 1107(b).

33. Eaves' services will enable the Debtor to execute faithfully their duties as a debtor in possession, and are necessary to the successful functioning of the Chapter 11 Case. Based upon

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000047

both its extensive experience and expertise, Eaves is both well-qualified and uniquely able to pursue the Claims in an efficient, cost-effective, and timely manner. As stated above, the Debtor does not believe that Eaves holds or represents any interest adverse to the Debtor's estate, and they believe that Eaves is a "disinterested person" under the Bankruptcy Code. Accordingly, the Debtor submits that the retention of Eaves is in the best interests of the Debtor, their estate, and their creditors and should be approved by the Court.

RESERVATION OF RIGHTS

34. Nothing contained in this application is intended or should be construed as an admission as to the validity of any claim against the Debtor, a waiver of the Debtor's rights to dispute any claim, or an approval or assumption of any agreement, contract, or lease under section 365 of the Bankruptcy Code.

35. Similarly, if this Court grants the relief sought in this application, any payment made pursuant to the Court's order is not intended and should not be construed as an admission as to the validity of any claim or a waiver of the Debtor's rights to dispute such claim subsequently.

NOTICE

36. The Debtor provided advance notice to counsel to the Committee of the relief sought in this Application.

37. The Debtor has provided notice of this application by electronic mail, facsimile, or overnight mail to: (a) the Office of the United States Trustee for the Southern District of Texas; (b) counsel to the Committee; and (c) all parties entitled to notice pursuant to Rule 2002 of the Bankruptcy Rules.

38. Given the nature of the relief requested in this motion, the Debtor submits that no other or further notice is necessary or required.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000048

NO PRIOR REQUEST

39. The Debtor has not made a prior request to this Court or any other court for the relief sought in this motion.

AMERICAN OVERSIGHT

UNITED STATES BANKRUPTCY COURT
FOR THE SOUTHERN DISTRICT OF TEXAS
HOUSTON DIVISION

In re: WALKER COUNTY HOSPITAL CORPORATION, d/b/a HUNTSVILLE MEMORIAL HOSPITAL, Debtor and Debtor in Possession. [1]	Chapter 11 Case No. 19-36300

DECLARATION OF JOHN EAVES IN SUPPORT OF DEBTOR'S APPLICATION FOR ENTRY OF AN ORDER APPROVING THE EMPLOYMENT AND RETENTION OF EAVES LAW FIRM AS SPECIAL COUNSEL

Pursuant to 28 U.S.C. § 1746, I, John Eaves, hereby declare and state as follows:

FOUNDATION

1. I am the sole owner of Eaves Law Firm ("***Eaves***"). I am admitted to practice before the courts of the State of Mississippi, the State of Arkansas, the United States Supreme Court, and various federal courts throughout the United States, to include various appellant courts. I submit this declaration (this "***Declaration***"), pursuant to sections 327(a) and 329 of title 11 of the United States Code (the "***Bankruptcy Code***"), Rules 2014 and 2016(b) of the Federal Rules of Bankruptcy Procedure (the "***Bankruptcy Rules***"), Rules 2014 and 2016 of the Local Rules for the United States Bankruptcy Court for the Southern District of Texas (the "***Local Rules***"), and the *Guidelines for Reviewing Applications for Compensation and Reimbursement of Expenses Filed Under 11 U.S.C. § 330 by Attorneys in Larger Chapter 11 Cases*, effective November 1, 2013 (the "***U.S. Trustee Fee Guidelines***"), in support of the *Debtor's Application for Entry of an Order Approving the Employment and Retention of the Eaves Law Firm as*

[1] The last four digits of the Debtor's federal tax identification number are: 0960. AMERICAN OVERSIGHT

Special Counsel (the "***Application***").[2] Unless otherwise stated in this Declaration, I have personal knowledge of the facts set forth herein.

THE DEBTOR'S RETENTION OF EAVES

2. Eaves is a boutique law firm located in Jackson, Mississippi specializing in representing plaintiffs in, among other things, opioid cases. Eaves has extensive expertise and experience the representation of plaintiffs in such cases: (a) In Re: National Prescription Opiate Litigation [MDL No. 02804]; (b) In re Roundup Products Liability Litigation [MDL No. 02741]; (d) IN RE: Ashley Madison Customer Data Security Breach Litigation [MDL No. 02669]; (e) In Re: Oil Spill by the Oil Rig "Deepwater Horizon" in the Gulf of Mexico, on April 20, 2010 [MDL No. 2179]; (f) Asbestosis Litigation; (g) Breast Implant Litigation; and (h) various drug product liability cases.

3. Eaves is well qualified to represent the Debtor as special counsel in prosecuting the Claims. Eaves' team of attorneys represent hospitals in conjunction with Barrett Law Firm, who represents 840 hospitals across the United States in similar law suits. Working with accounting experts, we have developed a model and process that uses traditional hospital accounting methods to calculate, to the penny, the amounts lost as a result of these Claims.

SERVICES TO BE PROVIDED

4. Eaves has agreed to analyze, prosecute, and/or settle the Claims against the Defendants in accordance with the terms and conditions set forth in the Engagement Letter. The terms of the Engagement Letter reflect the mutual agreement negotiated at arm's length and in good faith between the Debtor and Eaves as to the substantial efforts that may be required of Eaves throughout the course of its representation of the Debtor.

[2] Capitalized terms used herein but not otherwise defined shall have the meanings set forth in the Application.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000053

PREPETITION PAYMENTS TO EAVES

5. Pursuant to Bankruptcy Rule 2016(b), Eaves has neither shared nor agreed to share (a) any compensation it has received or may receive with another party or person, other than with the partners and associated counsel of Eaves nor (b) any compensation another person or party has received or may receive.

6. Eaves has not received any compensation from the Debtor.

EAVES' FEES FOR SERVICES TO BE RENDERED IN CONNECTION WITH THE CLAIMS

7. Except as described herein, pursuant to the terms and conditions of the Engagement Letter and subject to the Court's approval, Eaves intends to charge for its legal services with respect to the Claims as set forth below.

8. **Contingency Fees**. Subject to Court approval, and in accordance with the Bankruptcy Code, the Bankruptcy Rules, and the Local Rules, the Debtor will compensate Eaves in accordance with the terms and provisions of the Engagement Letter, which provides a compensation structure (the "***Contingency Fee Schedule***") for Eaves' work related to the Claims, in relevant part as follows:

> (a) **Pre-Judgment.** Eaves shall earn legal fees on a contingency basis of 33% of the cash value of any recoveries obtained from any Defendants of all Claims settled prior to a judgment being rendered against such Defendants.
>
> (b) **Post Judgment**. Eaves shall earn legal fees on a contingency basis of 40% of the cash value of any recoveries obtained from any Defendants of all Claims obtained through a judgment against such Defendants.

9. The rates described above for Eaves' Services under the Contingency Fee Schedule are competitive and are in line with the rates charged by Eaves for similar services in similar cases and by its competitors. The Contingency Fee Schedule anticipates that a substantial commitment of professional time and effort would be required of Eaves and its professionals. No

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000054

advance or retainer is contemplated by Eaves' Engagement Letter. Eaves' rates are reasonable given the quality of Eaves' services and its professionals' expertise in prosecuting similar Claims.

10. **Remittances and Reports**. Upon the successfully resolution of any Claims, all proceeds recovered by Eaves (the "***Gross Proceeds***") will be deposited into a segregated attorney trust account.

11. In addition to the compensation set forth in the Contingency Fee Schedule, upon Eaves' request for such reimbursement pursuant to the Bankruptcy Code, the Debtor shall reimburse Eaves for reasonable and documented out-of-pocket expenses from the Gross Proceeds as described in the Engagement Letter. Reasonable out-of-pocket expense items include, but are not limited to, the following: expert witnesses, shipping costs of records, court filing fees; reasonable costs of pleading filing services; mediation fees, deposition expenses; costs to domesticate and collect out of state judgments, entity name/officer verifications at $10.00 per entity; service of process; travel expenses, photocopying at 10 cents per page, postage, and telephone charges; and witness fees and costs. In the event that there are insufficient Gross Proceeds to cover the out of pocket expenses, the Debtor will not be responsible for such shortfall. Eaves will work cooperatively with other retained professionals in the Chapter 11 Case to avoid duplicative and/or competing efforts.

12. The Debtor seeks to retain Eaves on a contingency fee basis for the services provided under the Engagement Letter, such that Eaves' contingency fees will be earned only to the extent recoveries are obtained by the Debtor's estate with respect to Claims. Thus, if for some unforeseen reason, there is insufficient cash recoveries to cover the entire out of pocket

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000055

expenses related to Eaves' prosecution of the Claims, Eaves will not seek reimbursement of any deficiency.

13. The Contingency Fee Schedule described above is comparable to compensation generally charged by counsel of similar stature to Eaves for comparable engagements. Further, the Contingency Fee Schedule described above is consistent with Eaves' normal and customary billing practices for cases of this size and complexity that require the level and scope of services outlined.

14. The terms and conditions of the Engagement Letter were negotiated between the Debtor and Eaves at arm's length and in good faith, and they reflect the parties' mutual agreement as to the substantial efforts that will be required in this engagement. The fees have been agreed upon by the parties in anticipation of a substantial commitment of professional time and effort that will be required of Eaves and its professionals, in light of the fact that such commitment may foreclose other opportunities for Eaves and with the understanding that the actual time and commitment required of Eaves and its professionals to perform services thereunder may vary substantially from week to week or month or to month.

EAVES' DISINTERESTEDNESS

15. To the best of my knowledge, information, and belief (a) other than its prior representations of the Debtor and its representation in connection with the Chapter 11 Case, Eaves has no connection with the Debtor except as disclosed herein; (b) Eaves does not represent, and has not represented, any entity other than the Debtor in the Chapter 11 Case; (c) Eaves does not have any connection with, and has not represented in the past, the United States Trustee for the Southern District of Texas, or any person employed by the Office of the United States Trustee for the Southern District of Texas; and (d) Eaves does not have any connection

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000056

with the Debtor's creditors, any other party in interest, or their respective attorneys and accountants.

16. To check and clear conflicts, and in preparing my declaration, Eaves used a set of procedures that it has developed to ensure compliance with the requirements of the Texas Rules of Professional Conduct, conflicts rules observed by the Fifth Circuit Court of Appeals, the Bankruptcy Code, and the Bankruptcy Rules regarding the retention of professionals in chapter 11 cases. Pursuant to these procedures, Eaves performed the following actions to determine whether Eaves or any of its attorneys has any connections with, has in the past represented, or is currently representing potential parties in interest in the Chapter 11 Case:

(a) A list of interested parties (the "***Interested Parties***") was created using information provided by the Debtor and additional information identified by Eaves. The list of Interested Parties is comprised of the following entities, whose identities are set forth in **Schedule 1**, attached hereto:

(i) the Debtor and certain non-debtor affiliates;

(ii) the Debtor's top 20 unsecured creditors;

(iii) the Debtor's prepetition and postpetition advisors, attorneys, and other professionals;

(iv) officers, managers, and board members of the Debtor serving currently or within the past two years;

(v) the Debtor's cash management banks, landlords, utility providers, insurers, insurance brokers, and taxing authorities;

(vi) parties adverse to the Debtor in significant litigation;

(vii) lienholders on property of the Debtor's estates;

(viii) United States Bankruptcy Judges in the Southern District of Texas; and

(ix) United States Trustee for the Southern District of Texas, Houston Division, and their attorneys.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000057

(b) Eaves compared each of the Interested Parties to the names that Eaves maintains in its master conflicts database. Eaves' client database includes: (i) the name of each current or former client; (ii) the names of any entities materially related to, or materially adverse to, such current or former client; (iii) the names of the Eaves attorneys responsible for such current or former clients; (iv) the status of the matter as either "active" or "inactive"; and (v) the dates on which the matter was opened and/or closed. Eaves also circulated the list of Interested Parties to its attorneys, who were required to disclose any actual or potential conflicts of interest as part of Waller's normal conflicts screening procedures; and

(c) No matches between the Interested Parties and the entities in Eaves' client database were identified.

17. Based on the search of names set forth in Schedule 1, Eaves concluded it has no connections with the Debtor and the Interested Parties.

18. I am confident that our diligence has resulted, to the greatest extent possible, in the disclosure of all potential conflicts. However, if Eaves discovers additional information that requires disclosure, Eaves will file a supplemental disclosure with the Court. Additionally, to the extent that issues may arise which would cause the Debtor to be adverse to any of Eaves' clients, Eaves will obtain and disclose waivers or, to the extent that it would not be appropriate for Eaves to represent the Debtor with respect to such matters, other counsel employed by the Debtor will represent the Debtor in connection with such matters.

19. Based upon information available to me at this time, I believe that Eaves is a "disinterested person" pursuant to section 101(14) of the Bankruptcy Code, and that Eaves does not hold or represent an interest adverse to the Debtor or their estates as required by section 327(a) of the Bankruptcy Code. Specifically, I do not believe that the connections between Eaves and the entities listed herein will impair Eaves' ability to represent the Debtor in this Chapter 11 Case.

20. No promises have been received by Eaves or any member or associate thereof as to payment or compensation in connection with this case other than in accordance with the

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000058

provisions of the Bankruptcy Code and the Bankruptcy Rules. Other than with members and regular associates of the firm, Eaves has no agreement with any other entity to share with such entity any compensation received by Eaves.

21. Consistent with the U.S. Trustee Fee Guidelines, I state as follows:

- Eaves has not agreed to a variation of its standard or customary billing arrangements for this engagement.
- None of Eaves' professionals included in this engagement have varied their rate based on the geographic location of the Chapter 11 Case.
- Eaves will be retained by the Debtor pursuant to the Engagement Letter. The material terms of the prepetition engagement are the same as the terms described in the Application and herein.
- The Debtor has approved or will be approving a prospective budget and staffing plan for Eaves' engagement for the postpetition period as appropriate. In accordance with the U.S. Trustee Guidelines, the budget may be amended as necessary to reflect changed or unanticipated developments.

22. The foregoing constitutes the statement of Eaves pursuant to sections 327(a), 329 and 504 of the Bankruptcy Code and Bankruptcy Rules 2014(a) and 2016(b).

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge, information, and belief.

Executed on January 27, 2022

/s/ John Eaves

and/or any other possible defendant that may be revealed during the course of litigation, which have engaged in violations of law in the fraudulent marketing and sales of certain highly addictive, opiate-derived painkillers for purposes for which they are neither safe nor effective ("Claim").

1. For services rendered and to be rendered, Client conveys and assigns to my attorneys an undivided contingent interest in said Claim in the following percentages: 33% if no lawsuit is filed or a lawsuit is filed but settled before trial, or, 40% in the event trial is necessary. Client understands that its attorneys agree to advance necessary court costs and expenses, for which Client shall be ultimately responsible at the conclusion of its case after the deduction of attorney's fees. **Should Client incur expenses in the collection of information needed to process its Claim, Client shall submit the invoiced expenses to ELF and same will be deducted prior to the calculation of attorney's fees.**

2. ELF has the right to employ additional counsel in its sole discretion. Any and all co-counsel fees will be deducted from the percentage of attorney's fees listed above.

3. ELF is given the right to withdraw from this case after giving Client reasonable written notice.

4. It is agreed and understood that this employment is upon a contingent fee basis, and if no recovery is made, Client will not owe ELF any sum whatsoever as attorney's fees or expenses.

5. Client agrees that except upon the express written consent of ELF or as required by law, neither Client nor ELF will use or disclose to any third-party any Confidential Information, other than for the sole purpose of providing the services to Client by ELF.

AMERICAN OVERSIGHT

6. If any provision of this Authority to Represent/contract is determined to be unenforceable or not in compliance with any applicable ethical or bar association rule, regulation, law, or code provision, this Authority to Represent/contract shall be reformed to enable compliance with such rule, regulation, law, or code. In any event, the illegality, unenforceability, or lack of compliance with law, regulation, or ethical standards of any one provision of this Authority to Represent/contract shall not automatically render any other provision of this Authority to Represent/contract invalid as well. This Authority to Represent/contract shall be governed by and interpreted by the laws and ethical obligations of Washington, D.C.

7. In the event of disagreement between Client or ELF, the Parties shall endeavor in good faith to resolve those differences amicably and fairly with each other. If no agreement can be reached, the disagreements, disputes, or claims shall be resolved by a binding and confidential arbitration administered by JAMS exclusively pursuant to its Comprehensive Arbitration Rules and Procedures ("JAMS Rules") in Washington, D.C. ("the Forum"). Such arbitration will be conducted by a single arbitrator ("the Arbitrator") who is a member of the JAMS panel of neutrals in the Forum, to be selected by mutual agreement or in accordance with the JAMS Rules. The Arbitrator will have the power to determine all disputes, claims, and issues between us, including the scope or applicability of this agreement to arbitrate, regardless of legal basis or theory and whether based on alleged intentional or unintentional conduct. The laws of the District of Columbia shall govern the performance of this Authority to Represent/contract.

Notwithstanding this, the Federal Arbitration Act shall govern this arbitration provision and any arbitration proceedings between the Parties. The Parties agree that the Arbitrator shall make written findings of fact and conclusions of law. Each Party understands that, by agreeing to arbitrate any disputes between them, it is giving up

AMERICAN OVERSIGHT

rights, including the right to a trial by jury, to the broader discovery permitted in court proceedings, and to appeal. All costs for such third-party resolution (whether by an agreed third-party or JAMS) shall be split equally between Client and ELF, and each side shall be responsible for its own fees and expenses, regardless of the outcome.

8. The recitals hereto are incorporated herein and made a part of this Authority to Represent/contract. The provisions contained in paragraphs 5, 6, and 7 shall survive the termination of this Authority to Represent/contract.

9. This Authority to Represent/contract sets forth the entire agreement and understanding between the Parties with respect to the subject matter hereof and supersedes any and all other contracts, agreements, and negotiations, whether written or oral, with respect thereto. The Parties agree that this Authority to Represent/contract shall not be altered or amended in any way except in writing and signed by all Parties, and that the terms and conditions and duties of the same shall be affirmatively discharged in full and in good faith.

10. Each Party represents and warrants to the other Parties that the individual executing this Authority to Represent/contract on its behalf has the requisite power and authority to bind that Party to the terms hereof. Digitally executed and scanned, faxed, emailed, and/or photocopies of physically executed copies of this Authority to Represent/contract shall be binding upon all signatories and may be executed simultaneously in two or more counterparts, each of which taken together shall constitute a single Authority to Represent/contract.

UNITED STATES BANKRUPTCY COURT
FOR THE SOUTHERN DISTRICT OF TEXAS
HOUSTON DIVISION

In re: WALKER COUNTY HOSPITAL CORPORATION, d/b/a HUNTSVILLE MEMORIAL HOSPITAL, Debtor and Debtor in Possession.[1]	Chapter 11 Case No. 19-36300 Re: Docket No. _____

ORDER APPROVING THE EMPLOYMENT AND RETENTION OF EAVES LAW FIRM AS SPECIAL COUNSEL

Upon consideration the application (the "***Application***")[2] filed by the above-captioned Debtor; and the Court having found that it has jurisdiction to consider the Application and the relief requested therein pursuant to 28 U.S.C. §§ 157 and 1334; and upon consideration of the Eaves Declaration in support thereof; and the Court having found that consideration of the Application and the relief requested therein is a core proceeding pursuant to 28 U.S.C. § 157(b); and the Court having found that venue of this proceeding in this District is proper pursuant to 28 U.S.C. §§ 1408 and 1409; and it appearing that notice of the Application as set forth therein is sufficient under the circumstances; and the Court having reviewed the Application and having considered statements in support of the Application at the hearing held before this Court (the "***Hearing***"); and the Court having determined that the legal and factual bases set forth in the Application and at the Hearing establish just cause for the relief granted herein; and upon all of the proceedings had before the Court; and after due deliberation and sufficient cause appearing therefor,

[1] The last four digits of the Debtor's federal tax identification number are: 0960. The location of the Debtor's service address is: Walker County Hospital Corporation d/b/a Huntsville Memorial Hospital, c/o Healthcare Management Partners, LLC, 1033 Demonbreun Street, Suite 300, Nashville, TN 37203.

[2] Capitalized terms used herein but not otherwise defined shall have the meanings ascribed to them in the Application.

AMERICAN OVERSIGHT

IT IS THEREFORE ORDERED:

1. The Debtor is hereby authorized, pursuant to sections 327(a) and 330 of the Bankruptcy Code, Bankruptcy Rules 2014 and 2016, and Local Rule 2014-1(b), to employ and retain Eaves to pursue the Claims on the terms set forth in the Application and the Engagement Letter, effective immediately, as modified herein, and to pay fees and reimburse expenses of Eaves related to the pursuit of the Claims on the terms and at the times specified in the Engagement Letter, subject to the modifications set forth herein.

2. The terms of the Engagement Letter, attached to the Eaves Declaration as **Exhibit 1**, are approved in all respects except as limited or modified herein.

3. The terms and obligations set forth in the Interim Compensation Procedures Order are hereby waived with respect to Eaves. Instead, Eaves shall apply for the allowance of compensation for services rendered and reimbursement of expenses incurred by filing the following: (a) upon the occurrence of any settlements with Defendants but prior to Eaves' final resolution of the Claims, short-form statements that include the amount of fees paid based on the Contingency Fee Schedule and a reasonably detailed itemization of expenses incurred and paid; and (b) upon the conclusion of its services, a final fee application for final allowance of compensation for professional services rendered and reimbursement of expenses incurred under the Engagement Letter in accordance with sections 330 and 331 of the Bankruptcy Code, the Bankruptcy Rules, the Local Rules, and any applicable orders of this Court. Eaves shall be excused from time-keeping reporting requirements, with respect to its activities under the Engagement Letter, in applying for allowance of compensation for professional services as authorized herein.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000071

4. Notwithstanding anything to the contrary herein, the U.S. Trustee shall have the right to object to upon the occurrence of any settlements with Defendants but prior to Eaves' final resolution of the Claims' final fee applications (including expense reimbursement) on all grounds, including the reasonableness standard provided in section 330 of the Bankruptcy Code. Accordingly, nothing in this Order or the record shall constitute a finding of fact or conclusion of law binding the U.S. Trustee, on appeal or otherwise, with respect to the reasonableness of Eaves' fees.

5. Eaves shall use its reasonable efforts to avoid any duplication of services provided by any of the Debtor's other retained professionals in this Chapter 11 Case.

6. The relief granted herein shall be binding upon any chapter 11 trustee appointed in the Chapter 11 Case, or upon any chapter 7 trustee appointed in the event of a subsequent conversion of the Chapter 11 Case to a case under chapter 7.

7. The Debtor and Eaves are authorized to take all actions necessary to effectuate the relief granted pursuant to this Order in accordance with the Application.

8. Notice of the Application as provided therein is deemed to be good and sufficient notice of such Application, and the requirements of the Bankruptcy Code, the Bankruptcy Rules, and the Local Rules are satisfied by the contents of the Application.

9. To the extent the Application is inconsistent with this Order, the terms of this Order shall govern.

10. The terms and conditions of this Order shall be immediately effective and enforceable upon its entry.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000072

11. This Court retains exclusive jurisdiction with respect to all matters arising from or related to the implementation, interpretation, and enforcement of this Order.

Greg Abbott News

In Fort Worth, Governor Abbott Defends His Covid-19 Response Amid Criticism From Challengers
By Jack Fink
KTVT

At his first campaign stop in North Texas since kicking-off his bid for a third term, Governor Greg Abbott touted the state's fast-growing economy.

During the Saturday morning event at the Fort Worth Zoo, the Governor also warned his 350 supporters they need to fight back against any effort to defund the police and open border policies. "We are not going to allow these big government socialists to destroy our great state with their radical agenda."

While Abbott is focused on the general election in November, he is facing seven challengers in the Republican primary, some of whom said they got into the race because they didn't like how the Governor responded to the pandemic early-on.

They include former Texas GOP Chair Allen West, and former State Senator Don Huffines of Dallas who have repeatedly criticized the Governor for not fully reopening the state fast enough.

Asked how he responded to their criticisms, the Governor said, "Well for one, Texas was one of the first states to open fully, 100 percent, and you've seen the economic results articulated today. Texas is leading the nation with regard to the job recovery."

This week, the likely Democratic nominee for Governor, former El Paso Congressman Beto O'Rourke criticized the Governor's response to the pandemic, along with the Mayors of Austin and Brownsville who support him. "We need augmented staff and the Governor has the power to help deploy medical professionals to critical areas around the state and he's been very slow and late to do that."

The Governor responded by saying, "We have responded to every request for additional staffing needs. Right now, Texas has provided more than 5,000 staff for hospitals and we're going to be adding another one thousand over the coming week or two. There were no unmet needs as it concerned testing equipment."

The candidates will continue to ramp-up their campaigns as the March 1 primary draws closer.

[BACK TO TOP]

Texas Gov. Greg Abbott Discussed Key Issues, Controversial Topics At Beaumont Event
By James Grant and Tiana Johnson
KBMT

Gov. Greg Abbott covered a multitude of key and controversial topics at a Beaumont event as he seeks re-election for his third term as Texas governor.

"From the top of the ballot to the bottom of the ballot, in Jefferson County and in the state of Texas, it will be Republicans who are going to be winning in 2022," Gov. Abbott said.

The event was held at Pour09. The Texas governor covered topics such as critical race theory in state schools and the defunding of police, both of which he is against.

AMERICAN OVERSIGHT

Gov. Abbott said he wants to make it a law that any Texas city that defunds police will be defunded.

“Austin, Texas defunded their police and it will come as no surprise that as a result this past year, Austin set an all-time record with the highest number of murders they've ever had,” he said.

The governor expressed his clear support for state law enforcement.

“Law enforcement in Texas alone has seized enough fentanyl to kill every man, woman and child in Texas, California, New York, Florida and Illinois combined,” he said.

The governor spoke out against President Biden’s border policy and spoke up for protecting the second amendment right of Texas citizens.

During his speech, he recognized the Golden Triangle stating that the area is vital to the state’s economy.

“Hundreds of thousands of jobs are in the energy sector in the lone star state,” he said. “Many in the region that we gather in tonight.”

Gov. Abbott claimed that Texas has one of the strongest governments in America. He compared the Texas economy to that of countries like Brazil, stating that Texas’ was stronger.

The Texas governor said more Texans have jobs than ever before in state history.

“As we gather in Jefferson County today, Texas now ranks number one in the United States as the best state in America to start a small business,” he said.

According to the Texas governor, the state’s strong economy is what draws people from out of state.

Beto O’Rourke also recognized Jefferson’s County’s importance to Texas when he stopped in Beaumont in early December of 2021.

“The golden triangle is so important for this state,” O’Rourke said. “I mean whether you're looking at energy or jobs, I've been listening to a lot of these great school teachers who are here. The future of public education you find it right here in these communities where we are today.”

Gov. Greg Abbot ended his speech by encouraging Texans to vote Republican. He said their are people running for office who hate how America the way it is.

“We cannot let them destroy our state or our country," Abbott said. "The way that we save our state and the way we protect the future of America is we band together and we start right now, tonight, in Jefferson County, working every single day all the way to next November, making sure that we beat Beto. We beat the democrats. We keep Texas red.”

Early voting starts Feb. 14 and Texas will hold its primary elections on March 1. The deadline to register to be able to vote in March 2022 is Monday, January 31, 2022.

State News

Texas Launches Digital Ballot-By-Mail Tracking System
By Kelsey Thompson
KXAN

Voters utilizing ballot-by-mail offerings can now track the status of their ballot online with the launch of a new digital tool. The digital initiative was created through House Bill 1382 during the 87th Texas Legislature.

The digital tool lives on the Texas Secretary of State's website, under the "My Voter Portal" tab. Officials required the launch of the program come in time for the March primary elections.

State of Texas: 'People have just put it off' – Groups seek funds to help fight COVID vaccine hesitancy
"I'm excited that the statewide Ballot by Mail tracking tool is now available online through the Secretary of State's website," Rep. John Bucy III (D-Austin) said in the release. "We passed H.B. 1382 to increase accessibility, efficiency, and transparency for Texas voters. This is the type of common sense modernization needed in Texas elections."

Those using the tool will fill out their personal information into the online form, including their name, date of birth, driver's license number or Department of Public Safety I.D., address and the last four digits of their social security number. From there, the tracker will trace and report the current status of a person's ballot-by-mail application or ballot as it makes its way through the system.

To check your latest voter registration status, click on the "Am I Registered?" tab under the "My Voter Portal."

[BACK TO TOP]

Donald Trump Wades Deeper Into Texas Politics With 20 Endorsements In Primary Races
By Cayla Harris
San Antonio Express News

Former President Donald Trump has endorsed at least 20 candidates across Texas, throwing his political weight behind more primary hopefuls here than in any other state so far.

His endorsements have mostly been limited to incumbent GOP politicians in reliably red districts and are split about evenly between federal and state seats. Political experts say his involvement likely won't make a noticeable difference in the state's primary elections because Trump tends to back candidates who would likely be successful anyway.

Still, the former president's endorsements in Texas are the most he's made in any state, with Michigan next at 14, according to a tally kept by Ballotpedia, a nonpartisan politics tracker.

Trump's intense focus on Texas is likely linked to its political weight, experts say. Though 2022 is a midterm election year, Republicans' success here will foreshadow the political tides ahead of the next presidential contest in 2024, when Trump might run again.

"If the Republican Party doesn't have Texas, they are in deep, deep trouble for the presidency, because it's the largest treasure trove of electoral votes," said Paul Brace, a political science professor at Rice University. "Texas is the keystone to any Republican's path to the presidency. And so (Trump's) attention to Texas reflects that. Texas looms large in all Republican calculations for securing the presidency."

Plus, Texas Republicans are overwhelmingly aligned with Trump and have been willing to push his policies at all levels of government. Attorney General Ken Paxton, for example, led an unsuccessful lawsuit in 2020 to overturn presidential election results in several blue states.

And in the Legislature, state lawmakers have worked to pass Trump-backed bills that would mandate election audits in the future. Though the the measures did not pass last year, Gov. Greg Abbott directed the secretary of state's office to conduct an audit of 2020 election results in Texas' four largest counties.

Nod for Paxton

At the federal level, Trump has endorsed nine sitting members of Congress, many of them in North Texas. At the statewide level, he's backed Lt. Gov. Dan Patrick, one of his most ardent supporters, and Abbott, who faces primary challenges from the right but is widely favored to win his primary.

"Trump, at least at the top of the ticket, is not really going very far out on a limb, with maybe one exception," Brace said. "Down ballot, Trump is supporting Republican incumbents in Texas. News flash: Dog bites man. That is not really an audacious position for him to take."

That exception, potentially, is Paxton, a loyal but scandal-ridden follower of the former president. Paxton, who is under indictment on felony fraud charges and faces an FBI investigation into accusations that he accepted bribes and abused his power, faces three high-profile primary challengers: Land Commissioner George P. Bush, U.S. Rep. Louie Gohmert of Tyler and former Texas Supreme Court Justice Eva Guzman.

TRUMP'S TEXAS PRIMARY ENDORSEMENTS

The former president has endorsed 20 Texas Republicans ahead of the 2022 primary elections.

They are:

Gov. Greg Abbott

Lt. Gov. Dan Patrick

Attorney General Ken Paxton

Land Commissioner candidate Dawn Buckingham

Agriculture Commissioner Sid Miller

U.S. Rep. Michael Burgess

U.S. Rep. John Carter

U.S. Rep. Michael Cloud

U.S. Rep. Pat Fallon

U.S. Rep. Ronny Jackson

U.S. Rep. Michael McCaul

U.S. Rep. August Pfluger

AMERICAN OVERSIGHT

U.S. Rep. Beth Van Duyne

U.S. Rep. Roger Williams

State Sen. Angela Paxton

State Senate candidate Pete Flores

State Senate candidate Mayes Middleton

State Senate candidate Kevin Sparks

State Rep. Ryan Guillen

Tim O'Hare, candidate for Tarrant County Commissioners Court Judge

For two months, Trump teased an endorsement in the race but wouldn't commit. Bush groveled for his support, while Paxton said he was confident he would obtain it in the end.

Trump got behind Paxton in July, calling him a "patriot." In that race, Trump's seal of approval "likely will give Paxton the edge he needs against a conservative challenge within the Republican Party," Brace said.

'Plus factor' in GOP primary

For other candidates, Trump's support could provide extra content for fundraising, news releases or campaign ads, drawing in a few additional voters who already have a positive opinion of the former president.

"He's still popular among Republicans," said Richard Longoria, a political science professor at the University of Texas Rio Grande Valley. "So they're going to listen to what he says and take that for what it is."

Trump has endorsed Agriculture Commissioner Sid Miller, who is seeking a third term and faces two primary challengers, including state Rep. James White, R-Hillister. And Trump has backed state Sen. Dawn Buckingham, a Lakeway Republican vying for the Republican nomination to succeed Bush as land commissioner.

Buckingham faces an eight-way primary and has used Trump's endorsement in campaign material, touting his support in November mailers and asking recipients to "join President Trump and the many Texans already standing with me to defend Texas."

"If you already like Trump, and then the candidate says, 'Well, Trump likes me,' that's a reason for you to support their candidacy," Longoria said. "So it's basically another check on the list of plus factors for particular candidates."

In the statehouse, the former president has backed five candidates to date, including former state Sen. Pete Flores, who is making a comeback bid, and state Rep. Ryan Guillen, a South Texas Republican who converted from the Democratic Party just months ago.

Ninety-eight percent of Trump-backed candidates won their primary races in 2020. But for the most part, the candidates were incumbents or strong fundraisers who were already favored to win, Longoria added.

In some cases, Trump's approval could sway "low-information" voters — but those individuals don't tend to participate in primary elections, he said. In the end, the success rate only "makes him look good."

AMERICAN OVERSIGHT

"The actual effect is probably negligible," Longoria said. "If they were going to win with or without an endorsement, then it doesn't make much of a difference."

[BACK TO TOP]

"They Are Us. There's No Distinction": Terror Of Synagogue Standoff Is No Isolated Incident To Texas Jewish Leaders
By Alexa Ura
Texas Tribune

In the hours after a rabbi and three congregants were taken hostage at a synagogue in North Texas, Jewish leaders in Houston began planning a vigil.

They had wondered whether gathering virtually Saturday night was the right choice. At the time, they didn't know that the hostages at Congregation Beth Israel in Colleyville would be freed after a nearly 11-hour standoff. They only imagined that the attack could go through the night, said Rabbi Scott Hausman-Weiss, who was involved in the preparations. There were security measures to be considered, even for a Zoom meeting. Still, they wanted to offer comfort to their people.

The Congregation Beth Israel congregants being held captive were hundreds of miles away, but the reach of the assault was felt far and wide.

While what occurred Saturday in a small city near Fort Worth appears to have been an isolated incident, it was not a standalone occurrence, as Jewish Americans have been publicly targeted and terrorized with increased frequency in recent years.

"They are us. There's no distinction. Anywhere they are in danger, we are," Hausman-Weiss, the founding rabbi of the Congregation Shma Koleinu, said Sunday morning in an interview, describing the reverberations of attacks on Jewish communities.

On what is regularly observed as a day of rest and worship in Judaism, a man — since confirmed by authorities as a British national — took hostages during Saturday morning services at the synagogue. The hostages, including Rabbi Charlie Cytron-Walker, made it out physically unharmed while the hostage-taker was killed after a rescue team breached the building.

Shortly after news emerged that the hostages were safe, hundreds of participants logged into the Houston Zoom meeting late Saturday night for what had turned into a gathering of prayer and thanks giving. Hausman-Weiss delivered a piece he hoped would uplift a community in pain.

"We know that a broken heart can do horrific damage in the throes of seeking to be heard," Hausman-Weiss told those who had gathered. "But we will not allow this to break us. We will not allow our resolve that strives to lift all human spirits to be deterred."

The hostage-taking is the latest in a series of antisemitic attacks and incidents around Texas and the United States. From October to December, there were at least 10 antisemitic incidents in the state, primarily in Central Texas, according to the Anti-Defamation League, which advocates for justice for Jewish people.

Last fall, officials investigated a fire that caused about $25,000 in damage to an Austin synagogue. That came after students vandalized an Austin high school with swastikas, homophobic language and anti-Black racist slurs. Around the same time, about a dozen people displayed a banner targeting Jewish people at a highway

AMERICAN OVERSIGHT

overpass in Austin. The banner included a link to a website for an antisemitic group that the Anti-Defamation League says includes neo-Nazis. Antisemitic flyers were also recently scattered in various cities and neighborhoods in Hays County, south of Austin.

Around the United States in 2021, Jews have been threatened and attacked and their houses of worship have been vandalized. In Los Angeles, a university is responding to a slew of antisemitic remarks made by students. In Tennessee, an assistant high school principal was removed from her job in August and reassigned after posting antisemitic messages online.

Even the halls of power have featured such hate in recent months — last October, the U.S. State Department found a swastika in one of its elevators.

“What’s happening today is a whole other level, when human life is at risk,” Renee Lafair, regional director for the Anti-Defamation League in Austin, said Saturday afternoon while the hostages were still held captive at Beth Israel. “I think when you see a series of antisemitic incidents that grow in frequency and grow in scope and danger, for a lot of people in the Jewish community this brings fears of greater societal issues and harkens back to some of our history, so it makes people concerned and scared.

“When antisemitism increases, it’s usually a sign of greater issues of hate and division going on in society.”

Responses to the standoff in Colleyville on Saturday underscored how the sense of danger to other Jewish communities was not as isolated as the hostage-taking in Colleyville appeared to be.

Law enforcement in other Texas communities, including Fort Worth and Harris County, said they were increasing patrols around synagogues. Similar precautionary measures were taken in large cities like Los Angeles. Other Jewish leaders in Texas took to Facebook to alert congregants. Rabbi Mara Nathan of San Antonio’s Temple Beth-El wrote that while the hostage-taking in Colleyville appeared to be an “isolated event perpetuated by a single actor,” they would maintain a “heightened sense of security.”

Security conversations around places of worship have in recent years taken place in the shadow of deadly attacks, like the 2018 shooting at the Tree of Life Congregation in Pittsburgh, in which an armed man shouting antisemitic slurs opened fired inside the synagogue and killed 11 congregants.

In a statement released Sunday afternoon, Cytron-Walker, the Colleyville rabbi, pointed to multiple security courses he and his congregation had received as the reason he and other hostages survived.

“In the last hour of our hostage crisis, the gunman became increasingly belligerent and threatening,” Cytron-Walker said. “Without the instruction we received, we would not have been prepared to act and flee when the situation presented itself."

Local Dallas television station WFAA captured video showing people running out a door of the synagogue, followed by a man, who appears to be holding a gun, who opens the same door and then closes it.

News reports have indicated the hostage-taker demanded the release of Aafia Siddiqui, a Pakistani neuroscientist who is in federal prison in Texas after being convicted of attempting to kill U.S. soldiers, though an attorney for Siddiqui has since condemned “any violence perpetrated” in her name. FBI officials have said the hostage-taker was “singularly focused on one issue and it was not specifically related to the Jewish community.”

But the hostage-taker’s decision to choose a synagogue as the place to carry out his demands cannot be separated from antisemitism, Jewish leaders in Texas said on Sunday.

AMERICAN OVERSIGHT

“The expression wasn’t antisemitic, but it was built on some concept of antisemitism,” said Rabbi Joshua Fixler, an associate rabbi at Congregation Emanu El in Houston.
“I do think that sometimes there can be a setting aside of antisemitism as not a serious of concern as other issues and other hatreds and that is one of the things that leads Jews to continue to be threatened by antisemitism,” Fixler said.

On Sunday, President Joe Biden called the hostage situation in Colleyville an “act of terror” and denounced acts driven by antisemitism. Gov. Greg Abbott did not explicitly denounce antisemitism immediately following the attack, though he announced the escape of the hostages Saturday night in a post on Twitter, saying prayers were answered. On Sunday, Abbott also said on Twitter that he had spoken to Israeli Prime Minister Naftali Bennett.

On Sunday, Jewish leaders around Texas acknowledged that the fear renewed by the hostage situation could affect congregants’ willingness to return to in-person services. It would take time to understand the full impact on their congregations and communities and the work that would be needed to support them, they said.

“This is a day of both gratitude and recognition of the layered feelings of fear,” said Rabbi Kim Herzog Cohen of Temple Emanu-El Dallas. “I think we have to continue to support each other and the incredible wisdom of our faith traditions to guide us in how to be able to give each other courage and speak the truth of our souls and our hearts to understand what are the systemic reasons [behind why] extremism and hatred can grow.”

The reach of Saturday’s hostage-taking has already stretched beyond Texas and even the United States.

"Once again, Jews have come under attack simply because they are Jews,” Shimon Koffler Fogel, the CEO of the Canada-based Centre for Israel and Jewish Affairs, said in a statement. “While Texas feels like it is far from Canada, incidents like this have a serious impact on Jews around the world who will have emerged from the Sabbath this week with two thoughts. One of horror and concern for their fellow Jews; and one of relief that this week, it wasn't their synagogue that was targeted.

Business/Economy

Business Owners Continue To Face Staffing Shortages, High Food Costs As New COVID-19 Rules Go Into Effect
By Candy Rodriguez
KXAN

Starting Monday, Austin businesses are being told to follow the city’s new COVID-19 orders or face a fine of $1,000. However, Gov. Greg Abbott says business owners should not worry about it.

The new rule goes into effect at noon Monday. The city is requiring businesses to put up signs about vaccines and masking. One of the signs encourages masks and vaccines in general. The other sign shows customers the COVID precautions businesses are taking. Businesses that fail to put up the signs could face a hefty fine each day they do not have the signs up.

AISD give substitutes a raise, offers more incentives to work during COVID-19 surge
The state says this order is in violation of state law so the rules don’t need to be followed.

Yet, this is not the only challenge business owners are facing. Staffing shortages and supply chain issues are leaving some on the brink of closure.

In east Austin, Longhorn Daquiris is in need of workers.

The daiquiri shop and seafood restaurant owner Andrea Villescaz has a location in Austin and San Marcos. She said they are looking for around 15 people or more to hire from cashiers, cooks, and even a delivery driver. They need the help as several of their employees are currently out sick and quarantined. The lack of workers has the owner and her family working around the clock to fill in the gaps. In hopes of attracting new employees, they've increased the pay from $10 dollars an hour to $13.

They are not the only ones, several other businesses have done the same rising wages as high as $20 an hour.

However, the staffing shortage issue they've been facing for the last four months is not the only challenge. Villescaz says they are also dealing with a rise in food costs.

Central Texas universities begin semester virtually, anticipating COVID-19 surge
"It's already gone up like triple the inflation so it's hard to even still have anywhere near the same profit margin, it's really hard," Villescaz said. "If you raise the price a little bit and then you upset the people and it's like we're stuck in a hard spot."

In December, those at the Texas Restaurant Association conducted a study where they found that nearly 80% of restaurants across the state have reported they do not have enough employees.

"It's a real struggle those food costs and labor costs are up between 80% to 90% for our restaurant operators across the state compared to pre-pandemic numbers," explained Kelsey Erickson Streufert with the association.

Immigration/Border Security

Texas Border Patrol Agents Find More Than 20 Illegal Immigrants Motel 'Stash Houses'
By Adam Sabes
Fox News

More than 20 illegal immigrants were found in a Texas motel where rooms were being used as "stash houses."

Officials from the U.S. Border Patrol and the Texas Department of Public Safety found more than 20 illegal immigrants in multiple rooms of a Laredo motel on Jan. 13, according to the U.S. Border Patrol Laredo Sector.

Authorities were responding to a report of "suspicious activity" at the motel when the discovery was made.

"During the morning of Jan. 13, #TXDPS troopers and U.S. Border Patrol agents responded to a report of suspicious activity at a local motel in central Laredo. Once on scene, agents and troopers encountered over 20 undocumented individuals in multiple rooms of the motel," a Facebook post from the US Border Patrol Laredo Sector said.

The U.S. Border Patrol Laredo Sector also said that their agents and law enforcement partners "remain vigilant for actions by the criminal elements that attempt to exploit those they seek to smuggle for profit."

AMERICAN OVERSIGHT

Just two days earlier, the U.S. Border Patrol Laredo Sector also announced that agents stopped a narcotics smuggling attempt and seized almost 400 lbs. of marijuana.
Border patrol agents were responding to a report of a suspicious vehicle on Jan. 10 in Laredo and found an abandoned SUV after it ran into a traffic sign.

Agents found five bundles of marijuana inside the vehicle, which is estimated to have a street value of $313,040 and weighs 391 lbs.

"Laredo Sector Border Patrol agents continue to secure the Nation's borders and prevent the smuggling of drugs into the country. Part of their mission is to target and investigate potential violators of the law and stop transnational criminal organizations from their illegally [sic] activities by utilizing state-of-the-art intelligence data, equipment, collection, and analytics to coordinate the seizure of contraband before it can be distributed in our communities," the Facebook post said.

Minnesota Man Battling COVID-19 Moved To Texas Hospital After Lawsuit Over Ventilator
By Paul Blume
KMSP

A Buffalo, Minnesota man suffering from a devastating case of COVID-19 is in Texas where his family is hoping and praying doctors there can save his life.

Scott Quiner's family went to court last week to get a restraining order to keep Allina Health from pulling the plug on the ventilator that was keeping him alive in Minnesota.

Minnesota man battling COVID-19 moved to Texas hospital after ventilator lawsuit
A man battling COVID-19 has been moved to a Texas facility for new treatment, after his family sued to block a Minnesota hospital from removing him from a ventilator.

FOX 9 does not have all the specifics of Quiner's medical records, but his loved ones and their attorney report the 55-year old father of three was unvaccinated when he was first diagnosed with COVID-19 in late October, around Halloween.

He required deep sedation, a breathing tube, and a ventilator when his oxygen levels got dangerously low and did not improve.

Scott's wife, Anne Quiner claims Allina threatened to pull the plug on that ventilator last week and that is when she went to court to fight.

Anne has power of attorney over Scott's healthcare decisions. She hired lawyer Marjorie Holsten to stop Allina from pulling the plug on the ventilator, a move she believes would have killed him.

"This is a life-saving thing. It is going to be critical," explained Holsten, who admits she has never handled a case like this one.

The Quiners have stated in public comments and social media that Allina would not treat Scott with certain drugs, nor would they attempt other extraordinary measures that might save his life. When the medical team

allegedly told the family that Scott had just a couple more days on the ventilator, Holsten rushed to court to obtain the restraining order. The judge signed it Thursday.

"It was mentioned on Monday, confirmed on Tuesday," said Holsten. "By Tuesday, they said, ok, Thursday at noon, we pull the plug. I don't think the judge wanted to be on the wrong side of saying, 'Of course, you should be able to pull the plug' so the judge was correct doing that."

Over the weekend, Scott was transferred on a med flight to an unidentified hospital in Texas, apparently willing to meet the family's medical wishes for life-saving treatments. By Sunday evening, he was already said to be improving on the ventilator while being weaned from the heavy sedatives, and provided extra nutrients.

His family claims that it appears most of his major organs are functioning well, except his lungs.

"I think the world is watching what is going on with Scott," Holsten told FOX 9's Paul Blume. "And as he gets better and better, we are going to see that you know what, there are protocols that should be used that hospitals have not been using. And I am hoping that changes are going to be made as a result of this case."

Allina would not discuss specifics of Quiner's medical condition and case history, but provided FOX 9 with a brief written statement that read in part: "Allina Health is grateful the family was able to find a health care facility that meets their needs and we continue to wish them all the best."

Meantime, the Quiners have raised tens of thousands of dollars for Scott's emergency, life-saving care through a pair of online fundraisers in recent days, boosted by significant online coverage of his case.

Opinion/Editorial

Analysis: The Never-Ending Fight Over Voting In The U.S.
By Ross Ramsey
Texas Tribune

On the national holiday celebrating Martin Luther King Jr., more than 53 years after his assassination in 1968, voting rights remain in the center ring of American politics.

With the party primary season already underway, Texas is busy in court, defending restrictive new voting laws and challenges to new political maps for its congressional delegation, the state Legislature and the State Board of Education that were drawn after the 2020 census.

The state's eligible voters have two more weeks to register in time to vote in those primaries. Early voting begins in four weeks. The March 1 primary elections are in six weeks.

But the rules of engagement are still being debated in the courts, in Congress and in the campaigns themselves.

The state of Texas was sued over its new political maps before the governor had signed them — a signal that the never-ending cycle of litigation over redistricting is alive and well. That early suit wasn't unexpected in a state that has been caught violating protections for voters of color in every decade since the Voting Rights Act took effect in 1965. A second lawsuit challenging the maps landed right after Gov. Greg Abbott signed the legislation, and the U.S. Department of Justice later joined the dogpile.

That litigation will likely last for years. In the short term, an adverse court ruling could force the state to delay its primary elections while the maps are revised or replaced. That's what happened before the 2012 elections that followed redistricting.

This year's candidates have already filed for office; drawing new maps and delaying the primary could reopen the filing to new people.

The restrictions on voting approved by legislators and the governor during last year's special sessions have also gone to court. Those are statewide changes, spurred by pandemic-inspired voting practices in 2020 in the state's biggest county, like drive-thru voting, 24-hour voting and sending mail-in ballot applications to all registered voters, whether they requested them or not.

That legislation prompted Democrats in the Texas House to walk out at the end of the regular session to prevent a vote, and later, to leave the state for Washington, D.C., to block consideration in special sessions.

One reason they chose Washington was to lobby members of Congress to pass voting legislation that would override legislation like what was then being considered in Texas.

Congress didn't get to it until late last year, after the Texas legislation had passed — and after opponents filed federal lawsuits to stop it.

That has turned into the imbroglio of the month, as the White House and the U.S. Senate have locked horns over Democrats' proposed overhaul of the country's electoral system.

Politico pulled together a lengthy list of ideas now included in the federal bill, which has grown to more than 700 pages.

It would require same-day voter registration and automatic registration when people get their driver's licenses, expanding vote-by-mail options to all voters, adding to the list of documents that can be used for voter ID, and barring restrictions on food and water for people waiting in line to vote.

It would make Election Day a federal holiday and reinstate "preclearance" laws that require states with histories of discrimination — like Texas — to get federal permission before putting new voting and election laws in place.

It would ban partisan gerrymandering, the practice of drawing political maps to unfairly favor one political party and hobble another.

It would make it more difficult to interfere with or harass the people who count votes, keep most voting machinery disconnected from the internet and require paper ballots in most systems.

It even gets into campaign finance, attempting to force disclosure from organizations that currently don't have to disclose their sources of funds — so-called dark money operations.

That bill is in trouble, with Senate Republicans holding firm against it and a couple of Democrats whose votes are critical saying they will not support it. The Texas Democratic legislators who decamped to Washington to lobby for it may be in for another disappointment.

In the meantime, the state's new voting and election laws remain in effect and, like the political maps, in the hands of federal judges who will decide whether state and federal lawmakers are fortifying or dismantling Americans' and Texans' right to vote.

AMERICAN OVERSIGHT

It was a fight 50 years ago, and it still is.

[BACK TO TOP]

Ron DeSantis Welcomes You to Florida, America's New Texas
By David Reaboi
Newsweek

For conservatives all over the world, Texas has long been something of a promised land, boasting decades of government policy hospitable to freedom and the kind of straight-talking, kind people who'd greet you warmly even on a busy street. It's a place well-known for a rugged toughness, an embrace of tradition and a fearless independent streak.

Considering also the romantic notions that have attached to that state since films began to romanticize the Wild West over the last century, it's remarkable that Texas' once-nonpareil position in the conservative imagination has been displaced so quickly—and by a place that was long thought of as a blue-leaning swing state.

By last week, when Governor Ron DeSantis gave his State of the State Address in Tallahassee, Florida had already eclipsed Texas as the most energetic, forward-looking red state in America, having captured the imagination of hundreds of thousands of conservatives who have flocked here—and millions in other states and countries who are watching, often jealously, from afar. (Even from Texas.)

DeSantis' insistence on protecting normal life in Florida through the COVID insanity of the last two years has distinguished him in American politics. Through his own stubborn resistance to what he has called "blind adherence to Faucian declarations," he has made Florida a true beacon of sanity. By now, every Floridian knows how this happened, and most will never forget it.

In March 2020, the nation was in the grip of COVID hysteria, and America was locked down. In every state, stores, offices and factories closed as workers and business owners struggled to prove to nameless mandarins that their very livelihoods qualify as "essential." President Donald Trump, while skeptical of Anthony Fauci's edicts, nevertheless cowed to the pressure of the media and allowed his chief medical advisor to promote draconian lockdown policies.

Absurdly, gyms and even public beaches and parks boarded up. Violators of local COVID-inspired rules and closures were slapped with massive fines. As crime initially dropped during the lockdowns, municipalities repurposed their police forces as lockdown enforcers—levying massive fines on businesses that dared to open or allow customers to enter without masks.

Conservatives were shocked that, even in the liberty-minded Lone Star State, people's lives were being crushed by power-mad politicians. In Dallas, Shelley Luther was issued a large fine and was then jailed merely for keeping her hair salon open. Fearing the backlash from a lockdown-obsessed national and local media, Texas Governor Greg Abbott vacillated, failing to decisively bring the state back to normal.

As every conservative knows, things unfolded differently in Florida. By mid-June 2020, Governor DeSantis had had enough—both of lockdowns and the local municipalities that were raising millions in punitive fines for violating the lockdowns and mandates, especially in blue-leaning parts of South Florida.

DeSantis couldn't order those municipalities to relax their COVID restrictions, but he could make it impossible for the offending towns to profit from them. The governor's Executive Order 21-133 gave amnesty to thousands of businesses and individuals that had been swamped with millions in debilitating local fines.

AMERICAN OVERSIGHT

Immediately, even the last cities that were holdouts to draconian COVID restrictions began to relax. Restaurant owners could begin to operate without the local police looking over their shoulders; gyms could be free of law enforcement spot-checking mask compliance. Florida, suddenly, was open for business again.

"In Florida," the governor said last week, "we have protected the right of our citizens to earn a living, provided our businesses with the ability to prosper, fought back against unconstitutional federal mandates and ensured our kids have the opportunity to thrive." By design, his state has "become the escape hatch for those chafing under authoritarian, arbitrary and seemingly never-ending mandates and restrictions."

Watching DeSantis' example in Florida—and in the absence of leadership in the White House—voters in Texas and other red states slowly began to demand similar measures. It's not an exaggeration to postulate that, had DeSantis not been as decisive and fearless in his own early-stage COVID actions in Florida, governors and other officeholders in even the most conservative states would not have had the courage to open and return to normal for many more months.

Of course, the governor's leadership on COVID has defined his first term in office, but that alone doesn't account for his near-universal popularity with Republican voters. Several clips from DeSantis' speech last week spread far and wide on social media. Thanks to his competence and resistance to intense pressure from Democrats and the corporate media across a whole host of issues, the governor has become America's de facto conservative leader. Accordingly, his State of the State Address last week was greeted—especially on Twitter—like a national event.

Troublingly for Trump loyalists in Mar-a-Lago, the enthusiasm with which Republicans across the country greet a new statement or memorable, combative press conference from DeSantis indicates that the governor has filled the void in what was previously seen as the party of Donald Trump.

DeSantis has taken the reins with creative, aggressive policy solutions to many of the issues left unaddressed over the four years of the Trump administration. The governor's tangible solutions to hot-button issues such as critical race theory indoctrination, election integrity, Big Tech censorship, protecting the unborn and immigration—all elaborated in his State of the State Address—stand in stark contrast to the former president's notable inability to do more than simply talk about them.

In a way, DeSantis' recent speech brought back memories of early 2009, when, also left without a national Republican figure in office, conservatives thrilled to the late Rush Limbaugh's speech at that year's Conservative Political Action Conference. That speech didn't catapult Limbaugh to national political office, but it did signal that what Rush called the "titular head of the Republican Party" was up for grabs.

What the political future looks like for Florida's governor is hard to tell. DeSantis isn't running for president—as far as we know. And Trump hasn't specifically announced his intentions. But in the last two years, the governor has captured the imagination and support of many millions, both inside and outside Florida.

Even as many blue state conservatives (and especially Californians) decamp to Texas, with both Trump and DeSantis in Florida, there can be no denying the gravitational pull the Sunshine State now has for the American Right. There is a sense here that this place is the future, especially as GOP voter registration has now overtaken Democratic voter registration for the first time in the state's history. Most Florida Republicans have no doubt who to thank for that.

Greg Abbott News

In Fort Worth, Governor Abbott Defends His Covid-19 Response Amid Criticism From Challengers
By Jack Fink
KTVT

At his first campaign stop in North Texas since kicking-off his bid for a third term, Governor Greg Abbott touted the state's fast-growing economy.

During the Saturday morning event at the Fort Worth Zoo, the Governor also warned his 350 supporters they need to fight back against any effort to defund the police and open border policies. "We are not going to allow these big government socialists to destroy our great state with their radical agenda."

While Abbott is focused on the general election in November, he is facing seven challengers in the Republican primary, some of whom said they got into the race because they didn't like how the Governor responded to the pandemic early-on.

They include former Texas GOP Chair Allen West, and former State Senator Don Huffines of Dallas who have repeatedly criticized the Governor for not fully reopening the state fast enough.

Asked how he responded to their criticisms, the Governor said, "Well for one, Texas was one of the first states to open fully, 100 percent, and you've seen the economic results articulated today. Texas is leading the nation with regard to the job recovery."

This week, the likely Democratic nominee for Governor, former El Paso Congressman Beto O'Rourke criticized the Governor's response to the pandemic, along with the Mayors of Austin and Brownsville who support him. "We need augmented staff and the Governor has the power to help deploy medical professionals to critical areas around the state and he's been very slow and late to do that."

The Governor responded by saying, "We have responded to every request for additional staffing needs. Right now, Texas has provided more than 5,000 staff for hospitals and we're going to be adding another one thousand over the coming week or two. There were no unmet needs as it concerned testing equipment."

The candidates will continue to ramp-up their campaigns as the March 1 primary draws closer.

Texas Gov. Greg Abbott Discussed Key Issues, Controversial Topics At Beaumont Event

By James Grant and Tiana Johnson
KBMT

Gov. Greg Abbott covered a multitude of key and controversial topics at a Beaumont event as he seeks re-election for his third term as Texas governor.

”From the top of the ballot to the bottom of the ballot, in Jefferson County and in the state of Texas, it will be Republicans who are going to be winning in 2022,” Gov. Abbott said.

The event was held at Pour09. The Texas governor covered topics such as critical race theory in state schools and the defunding of police, both of which he is against.

Gov. Abbott said he wants to make it a law that any Texas city that defunds police will be defunded.

“Austin, Texas defunded their police and it will come as no surprise that as a result this past year, Austin set an all-time record with the highest number of murders they've ever had,” he said.

The governor expressed his clear support for state law enforcement.

“Law enforcement in Texas alone has seized enough fentanyl to kill every man, woman and child in Texas, California, New York, Florida and Illinois combined,” he said.

The governor spoke out against President Biden’s border policy and spoke up for protecting the second amendment right of Texas citizens.

During his speech, he recognized the Golden Triangle stating that the area is vital to the state’s economy.

“Hundreds of thousands of jobs are in the energy sector in the lone star state,” he said. “Many in the region that we gather in tonight.”

Gov. Abbott claimed that Texas has one of the strongest governments in America. He compared the Texas economy to that of countries like Brazil, stating that Texas’ was stronger.

The Texas governor said more Texans have jobs than ever before in state history.

“As we gather in Jefferson County today, Texas now ranks number one in the United States as the best state in America to start a small business,” he said.

AMERICAN OVERSIGHT

According to the Texas governor, the state's strong economy is what draws people from out of state.

Beto O'Rourke also recognized Jefferson's County's importance to Texas when he stopped in Beaumont in early December of 2021.

"The golden triangle is so important for this state," O'Rourke said. "I mean whether you're looking at energy or jobs, I've been listening to a lot of these great school teachers who are here. The future of public education you find it right here in these communities where we are today."

Gov. Greg Abbot ended his speech by encouraging Texans to vote Republican. He said their are people running for office who hate how America the way it is.

"We cannot let them destroy our state or our country," Abbott said. "The way that we save our state and the way we protect the future of America is we band together and we start right now, tonight, in Jefferson County, working every single day all the way to next November, making sure that we beat Beto. We beat the democrats. We keep Texas red."

Early voting starts Feb. 14 and Texas will hold its primary elections on March 1. The deadline to register to be able to vote in March 2022 is Monday, January 31, 2022.

Texas Launches Digital Ballot-By-Mail Tracking System
By Kelsey Thompson
KXAN

Voters utilizing ballot-by-mail offerings can now track the status of their ballot online with the launch of a new digital tool. The digital initiative was created through House Bill 1382 during the 87th Texas Legislature.

The digital tool lives on the Texas Secretary of State's website, under the "My Voter Portal" tab. Officials required the launch of the program come in time for the March primary elections.

State of Texas: 'People have just put it off' – Groups seek funds to help fight COVID vaccine hesitancy
"I'm excited that the statewide Ballot by Mail tracking tool is now available online through the Secretary of State's website," Rep. John Bucy III (D-Austin) said in the release. "We passed H.B. 1382 to increase accessibility, efficiency, and transparency for Texas voters. This is the type of common sense modernization needed in Texas elections."

AMERICAN OVERSIGHT

Those using the tool will fill out their personal information into the online form, including their name, date of birth, driver's license number or Department of Public Safety I.D., address and the last four digits of their social security number. From there, the tracker will trace and report the current status of a person's ballot-by-mail application or ballot as it makes its way through the system.

To check your latest voter registration status, click on the "Am I Registered?" tab under the "My Voter Portal."

Donald Trump Wades Deeper Into Texas Politics With 20 Endorsements In Primary Races
By Cayla Harris
San Antonio Express News

Former President Donald Trump has endorsed at least 20 candidates across Texas, throwing his political weight behind more primary hopefuls here than in any other state so far.

His endorsements have mostly been limited to incumbent GOP politicians in reliably red districts and are split about evenly between federal and state seats. Political experts say his involvement likely won't make a noticeable difference in the state's primary elections because Trump tends to back candidates who would likely be successful anyway.

Still, the former president's endorsements in Texas are the most he's made in any state, with Michigan next at 14, according to a tally kept by Ballotpedia, a nonpartisan politics tracker.

Trump's intense focus on Texas is likely linked to its political weight, experts say. Though 2022 is a midterm election year, Republicans' success here will foreshadow the political tides ahead of the next presidential contest in 2024, when Trump might run again.

"If the Republican Party doesn't have Texas, they are in deep, deep trouble for the presidency, because it's the largest treasure trove of electoral votes," said Paul Brace, a political science professor at Rice University. "Texas is the keystone to any Republican's path to the presidency. And so (Trump's) attention to Texas reflects that. Texas looms large in all Republican calculations for securing the presidency."

Plus, Texas Republicans are overwhelmingly aligned with Trump and have been willing to push his policies at all levels of government. Attorney General Ken Paxton, for example, led an unsuccessful lawsuit in 2020 to overturn presidential election results in several blue states.

AMERICAN OVERSIGHT

And in the Legislature, state lawmakers have worked to pass Trump-backed bills that would mandate election audits in the future. Though the the measures did not pass last year, Gov. Greg Abbott directed the secretary of state's office to conduct an audit of 2020 election results in Texas' four largest counties.

Nod for Paxton

At the federal level, Trump has endorsed nine sitting members of Congress, many of them in North Texas. At the statewide level, he's backed Lt. Gov. Dan Patrick, one of his most ardent supporters, and Abbott, who faces primary challenges from the right but is widely favored to win his primary.

"Trump, at least at the top of the ticket, is not really going very far out on a limb, with maybe one exception," Brace said. "Down ballot, Trump is supporting Republican incumbents in Texas. News flash: Dog bites man. That is not really an audacious position for him to take."

That exception, potentially, is Paxton, a loyal but scandal-ridden follower of the former president. Paxton, who is under indictment on felony fraud charges and faces an FBI investigation into accusations that he accepted bribes and abused his power, faces three high-profile primary challengers: Land Commissioner George P. Bush, U.S. Rep. Louie Gohmert of Tyler and former Texas Supreme Court Justice Eva Guzman.

TRUMP'S TEXAS PRIMARY ENDORSEMENTS

The former president has endorsed 20 Texas Republicans ahead of the 2022 primary elections.

They are:

Gov. Greg Abbott

Lt. Gov. Dan Patrick

Attorney General Ken Paxton

Land Commissioner candidate Dawn Buckingham

Agriculture Commissioner Sid Miller

U.S. Rep. Michael Burgess

U.S. Rep. John Carter

U.S. Rep. Michael Cloud

U.S. Rep. Pat Fallon

AMERICAN OVERSIGHT

U.S. Rep. Ronny Jackson

U.S. Rep. Michael McCaul

U.S. Rep. August Pfluger

U.S. Rep. Beth Van Duyne

U.S. Rep. Roger Williams

State Sen. Angela Paxton

State Senate candidate Pete Flores

State Senate candidate Mayes Middleton

State Senate candidate Kevin Sparks

State Rep. Ryan Guillen

Tim O'Hare, candidate for Tarrant County Commissioners Court Judge

For two months, Trump teased an endorsement in the race but wouldn't commit. Bush groveled for his support, while Paxton said he was confident he would obtain it in the end.

Trump got behind Paxton in July, calling him a "patriot." In that race, Trump's seal of approval "likely will give Paxton the edge he needs against a conservative challenge within the Republican Party," Brace said.

'Plus factor' in GOP primary

For other candidates, Trump's support could provide extra content for fundraising, news releases or campaign ads, drawing in a few additional voters who already have a positive opinion of the former president.

"He's still popular among Republicans," said Richard Longoria, a political science professor at the University of Texas Rio Grande Valley. "So they're going to listen to what he says and take that for what it is."

Trump has endorsed Agriculture Commissioner Sid Miller, who is seeking a third term and faces two primary challengers, including state Rep. James White, R-Hillister. And Trump has backed state Sen. Dawn Buckingham, a Lakeway Republican vying for the Republican nomination to succeed Bush as land commissioner.

AMERICAN OVERSIGHT

Buckingham faces an eight-way primary and has used Trump's endorsement in campaign material, touting his support in November mailers and asking recipients to "join President Trump and the many Texans already standing with me to defend Texas."

"If you already like Trump, and then the candidate says, 'Well, Trump likes me,' that's a reason for you to support their candidacy," Longoria said. "So it's basically another check on the list of plus factors for particular candidates."

In the statehouse, the former president has backed five candidates to date, including former state Sen. Pete Flores, who is making a comeback bid, and state Rep. Ryan Guillen, a South Texas Republican who converted from the Democratic Party just months ago.

Ninety-eight percent of Trump-backed candidates won their primary races in 2020. But for the most part, the candidates were incumbents or strong fundraisers who were already favored to win, Longoria added.

In some cases, Trump's approval could sway "low-information" voters — but those individuals don't tend to participate in primary elections, he said. In the end, the success rate only "makes him look good."

"The actual effect is probably negligible," Longoria said. "If they were going to win with or without an endorsement, then it doesn't make much of a difference."

"They Are Us. There's No Distinction": Terror Of Synagogue Standoff Is No Isolated Incident To Texas Jewish Leaders
By Alexa Ura
Texas Tribune

In the hours after a rabbi and three congregants were taken hostage at a synagogue in North Texas, Jewish leaders in Houston began planning a vigil.

They had wondered whether gathering virtually Saturday night was the right choice. At the time, they didn't know that the hostages at Congregation Beth Israel in Colleyville would be freed after a nearly 11-hour standoff. They only imagined that the attack could go through the night, said Rabbi Scott Hausman-Weiss, who was involved in the preparations. There were security measures to be considered, even for a Zoom meeting. Still, they wanted to offer comfort to their people.

The Congregation Beth Israel congregants being held captive were hundreds of miles away, but the reach of the assault was felt far and wide.

AMERICAN OVERSIGHT

While what occurred Saturday in a small city near Fort Worth appears to have been an isolated incident, it was not a standalone occurrence, as Jewish Americans have been publicly targeted and terrorized with increased frequency in recent years.

“They are us. There’s no distinction. Anywhere they are in danger, we are,” Hausman-Weiss, the founding rabbi of the Congregation Shma Koleinu, said Sunday morning in an interview, describing the reverberations of attacks on Jewish communities.

On what is regularly observed as a day of rest and worship in Judaism, a man — since confirmed by authorities as a British national — took hostages during Saturday morning services at the synagogue. The hostages, including Rabbi Charlie Cytron-Walker, made it out physically unharmed while the hostage-taker was killed after a rescue team breached the building.

Shortly after news emerged that the hostages were safe, hundreds of participants logged into the Houston Zoom meeting late Saturday night for what had turned into a gathering of prayer and thanks giving. Hausman-Weiss delivered a piece he hoped would uplift a community in pain.

“We know that a broken heart can do horrific damage in the throes of seeking to be heard,” Hausman-Weiss told those who had gathered. “But we will not allow this to break us. We will not allow our resolve that strives to lift all human spirits to be deterred.”

The hostage-taking is the latest in a series of antisemitic attacks and incidents around Texas and the United States. From October to December, there were at least 10 antisemitic incidents in the state, primarily in Central Texas, according to the Anti-Defamation League, which advocates for justice for Jewish people.

Last fall, officials investigated a fire that caused about $25,000 in damage to an Austin synagogue. That came after students vandalized an Austin high school with swastikas, homophobic language and anti-Black racist slurs. Around the same time, about a dozen people displayed a banner targeting Jewish people at a highway overpass in Austin. The banner included a link to a website for an antisemitic group that the Anti-Defamation League says includes neo-Nazis. Antisemitic flyers were also recently scattered in various cities and neighborhoods in Hays County, south of Austin.

Around the United States in 2021, Jews have been threatened and attacked and their houses of worship have been vandalized. In Los Angeles, a university is responding to a slew of antisemitic remarks made by students. In Tennessee, an assistant high school principal was removed from her job in August and reassigned after posting antisemitic messages online.

Even the halls of power have featured such hate in recent months — last October, the U.S. State Department found a swastika in one of its elevators.

AMERICAN OVERSIGHT

“What’s happening today is a whole other level, when human life is at risk,” Renee Lafair, regional director for the Anti-Defamation League in Austin, said Saturday afternoon while the hostages were still held captive at Beth Israel. “I think when you see a series of antisemitic incidents that grow in frequency and grow in scope and danger, for a lot of people in the Jewish community this brings fears of greater societal issues and harkens back to some of our history, so it makes people concerned and scared.

“When antisemitism increases, it’s usually a sign of greater issues of hate and division going on in society.”

Responses to the standoff in Colleyville on Saturday underscored how the sense of danger to other Jewish communities was not as isolated as the hostage-taking in Colleyville appeared to be.

Law enforcement in other Texas communities, including Fort Worth and Harris County, said they were increasing patrols around synagogues. Similar precautionary measures were taken in large cities like Los Angeles. Other Jewish leaders in Texas took to Facebook to alert congregants. Rabbi Mara Nathan of San Antonio’s Temple Beth-El wrote that while the hostage-taking in Colleyville appeared to be an “isolated event perpetuated by a single actor,” they would maintain a “heightened sense of security.”

Security conversations around places of worship have in recent years taken place in the shadow of deadly attacks, like the 2018 shooting at the Tree of Life Congregation in Pittsburgh, in which an armed man shouting antisemitic slurs opened fired inside the synagogue and killed 11 congregants.

In a statement released Sunday afternoon, Cytron-Walker, the Colleyville rabbi, pointed to multiple security courses he and his congregation had received as the reason he and other hostages survived.

“In the last hour of our hostage crisis, the gunman became increasingly belligerent and threatening,” Cytron-Walker said. “Without the instruction we received, we would not have been prepared to act and flee when the situation presented itself."

Local Dallas television station WFAA captured video showing people running out a door of the synagogue, followed by a man, who appears to be holding a gun, who opens the same door and then closes it.

News reports have indicated the hostage-taker demanded the release of Aafia Siddiqui, a Pakistani neuroscientist who is in federal prison in Texas after being convicted of attempting to kill U.S. soldiers, though an attorney for Siddiqui has since condemned “any violence perpetrated” in her name. FBI officials have said the hostage-taker was “singularly focused on one issue and it was not specifically related to the Jewish community.”

AMERICAN OVERSIGHT

But the hostage-taker's decision to choose a synagogue as the place to carry out his demands cannot be separated from antisemitism, Jewish leaders in Texas said on Sunday.

"The expression wasn't antisemitic, but it was built on some concept of antisemitism," said Rabbi Joshua Fixler, an associate rabbi at Congregation Emanu El in Houston. "I do think that sometimes there can be a setting aside of antisemitism as not a serious of concern as other issues and other hatreds and that is one of the things that leads Jews to continue to be threatened by antisemitism," Fixler said.

On Sunday, President Joe Biden called the hostage situation in Colleyville an "act of terror" and denounced acts driven by antisemitism. Gov. Greg Abbott did not explicitly denounce antisemitism immediately following the attack, though he announced the escape of the hostages Saturday night in a post on Twitter, saying prayers were answered. On Sunday, Abbott also said on Twitter that he had spoken to Israeli Prime Minister Naftali Bennett.

On Sunday, Jewish leaders around Texas acknowledged that the fear renewed by the hostage situation could affect congregants' willingness to return to in-person services. It would take time to understand the full impact on their congregations and communities and the work that would be needed to support them, they said.

"This is a day of both gratitude and recognition of the layered feelings of fear," said Rabbi Kim Herzog Cohen of Temple Emanu-El Dallas. "I think we have to continue to support each other and the incredible wisdom of our faith traditions to guide us in how to be able to give each other courage and speak the truth of our souls and our hearts to understand what are the systemic reasons [behind why] extremism and hatred can grow."

The reach of Saturday's hostage-taking has already stretched beyond Texas and even the United States.

"Once again, Jews have come under attack simply because they are Jews," Shimon Koffler Fogel, the CEO of the Canada-based Centre for Israel and Jewish Affairs, said in a statement. "While Texas feels like it is far from Canada, incidents like this have a serious impact on Jews around the world who will have emerged from the Sabbath this week with two thoughts. One of horror and concern for their fellow Jews; and one of relief that this week, it wasn't their synagogue that was targeted.

Business/Economy

Business Owners Continue To Face Staffing Shortages, High Food Costs As New COVID-19 Rules Go Into Effect
By Candy Rodriguez
KXAN

AMERICAN OVERSIGHT

Starting Monday, Austin businesses are being told to follow the city's new COVID-19 orders or face a fine of $1,000. However, Gov. Greg Abbott says business owners should not worry about it.

The new rule goes into effect at noon Monday. The city is requiring businesses to put up signs about vaccines and masking. One of the signs encourages masks and vaccines in general. The other sign shows customers the COVID precautions businesses are taking. Businesses that fail to put up the signs could face a hefty fine each day they do not have the signs up.

AISD give substitutes a raise, offers more incentives to work during COVID-19 surge
The state says this order is in violation of state law so the rules don't need to be followed.

Yet, this is not the only challenge business owners are facing. Staffing shortages and supply chain issues are leaving some on the brink of closure.

In east Austin, Longhorn Daquiris is in need of workers.

The daiquiri shop and seafood restaurant owner Andrea Villescaz has a location in Austin and San Marcos. She said they are looking for around 15 people or more to hire from cashiers, cooks, and even a delivery driver. They need the help as several of their employees are currently out sick and quarantined. The lack of workers has the owner and her family working around the clock to fill in the gaps. In hopes of attracting new employees, they've increased the pay from $10 dollars an hour to $13.

They are not the only ones, several other businesses have done the same rising wages as high as $20 an hour.

However, the staffing shortage issue they've been facing for the last four months is not the only challenge. Villescaz says they are also dealing with a rise in food costs.

Central Texas universities begin semester virtually, anticipating COVID-19 surge
"It's already gone up like triple the inflation so it's hard to even still have anywhere near the same profit margin, it's really hard," Villescaz said. "If you raise the price a little bit and then you upset the people and it's like we're stuck in a hard spot."

In December, those at the Texas Restaurant Association conducted a study where they found that nearly 80% of restaurants across the state have reported they do not have enough employees.

"It's a real struggle those food costs and labor costs are up between 80% to 90% for our restaurant operators across the state compared to pre-pandemic numbers," explained Kelsey Erickson Streufert with the association.

Immigration/Border Security

Texas Border Patrol Agents Find More Than 20 Illegal Immigrants Motel 'Stash Houses'
By Adam Sabes
Fox News

More than 20 illegal immigrants were found in a Texas motel where rooms were being used as "stash houses."

Officials from the U.S. Border Patrol and the Texas Department of Public Safety found more than 20 illegal immigrants in multiple rooms of a Laredo motel on Jan. 13, according to the U.S. Border Patrol Laredo Sector.

Authorities were responding to a report of "suspicious activity" at the motel when the discovery was made.

"During the morning of Jan. 13, #TXDPS troopers and U.S. Border Patrol agents responded to a report of suspicious activity at a local motel in central Laredo. Once on scene, agents and troopers encountered over 20 undocumented individuals in multiple rooms of the motel," a Facebook post from the US Border Patrol Laredo Sector said.

The U.S. Border Patrol Laredo Sector also said that their agents and law enforcement partners "remain vigilant for actions by the criminal elements that attempt to exploit those they seek to smuggle for profit."

Just two days earlier, the U.S. Border Patrol Laredo Sector also announced that agents stopped a narcotics smuggling attempt and seized almost 400 lbs. of marijuana. Border patrol agents were responding to a report of a suspicious vehicle on Jan. 10 in Laredo and found an abandoned SUV after it ran into a traffic sign.

Agents found five bundles of marijuana inside the vehicle, which is estimated to have a street value of $313,040 and weighs 391 lbs.

"Laredo Sector Border Patrol agents continue to secure the Nation’s borders and prevent the smuggling of drugs into the country. Part of their mission is to target and investigate potential violators of the law and stop transnational criminal organizations from their illegally [sic] activities by utilizing state-of-the-art intelligence data, equipment, collection, and analytics to coordinate the seizure of contraband before it can be distributed in our communities," the Facebook post said.

Minnesota Man Battling COVID-19 Moved To Texas Hospital After Lawsuit Over Ventilator

By Paul Blume
KMSP

A Buffalo, Minnesota man suffering from a devastating case of COVID-19 is in Texas where his family is hoping and praying doctors there can save his life.

Scott Quiner's family went to court last week to get a restraining order to keep Allina Health from pulling the plug on the ventilator that was keeping him alive in Minnesota.

Minnesota man battling COVID-19 moved to Texas hospital after ventilator lawsuit
A man battling COVID-19 has been moved to a Texas facility for new treatment, after his family sued to block a Minnesota hospital from removing him from a ventilator.

FOX 9 does not have all the specifics of Quiner's medical records, but his loved ones and their attorney report the 55-year old father of three was unvaccinated when he was first diagnosed with COVID-19 in late October, around Halloween.

He required deep sedation, a breathing tube, and a ventilator when his oxygen levels got dangerously low and did not improve.

Scott's wife, Anne Quiner claims Allina threatened to pull the plug on that ventilator last week and that is when she went to court to fight.

Anne has power of attorney over Scott's healthcare decisions. She hired lawyer Marjorie Holsten to stop Allina from pulling the plug on the ventilator, a move she believes would have killed him.

"This is a life-saving thing. It is going to be critical," explained Holsten, who admits she has never handled a case like this one.

The Quiners have stated in public comments and social media that Allina would not treat Scott with certain drugs, nor would they attempt other extraordinary measures that might save his life. When the medical team allegedly told the family that Scott had just a couple more days on the ventilator, Holsten rushed to court to obtain the restraining order. The judge signed it Thursday.

"It was mentioned on Monday, confirmed on Tuesday," said Holsten. "By Tuesday, they said, ok, Thursday at noon, we pull the plug. I don't think the judge wanted to be on the wrong side of saying, 'Of course, you should be able to pull the plug' so the judge was correct doing that."

Over the weekend, Scott was transferred on a med flight to an unidentified hospital in Texas, apparently willing to meet the family's medical wishes for life-saving treatments.

AMERICAN OVERSIGHT

By Sunday evening, he was already said to be improving on the ventilator while being weaned from the heavy sedatives, and provided extra nutrients.

His family claims that it appears most of his major organs are functioning well, except his lungs.

"I think the world is watching what is going on with Scott," Holsten told FOX 9's Paul Blume. "And as he gets better and better, we are going to see that you know what, there are protocols that should be used that hospitals have not been using. And I am hoping that changes are going to be made as a result of this case."

Allina would not discuss specifics of Quiner's medical condition and case history, but provided FOX 9 with a brief written statement that read in part: "Allina Health is grateful the family was able to find a health care facility that meets their needs and we continue to wish them all the best."

Meantime, the Quiners have raised tens of thousands of dollars for Scott's emergency, life-saving care through a pair of online fundraisers in recent days, boosted by significant online coverage of his case.

Opinion/Editorial

Analysis: The Never-Ending Fight Over Voting In The U.S.
By Ross Ramsey
Texas Tribune

On the national holiday celebrating Martin Luther King Jr., more than 53 years after his assassination in 1968, voting rights remain in the center ring of American politics.

With the party primary season already underway, Texas is busy in court, defending restrictive new voting laws and challenges to new political maps for its congressional delegation, the state Legislature and the State Board of Education that were drawn after the 2020 census.

The state's eligible voters have two more weeks to register in time to vote in those primaries. Early voting begins in four weeks. The March 1 primary elections are in six weeks.

But the rules of engagement are still being debated in the courts, in Congress and in the campaigns themselves.

The state of Texas was sued over its new political maps before the governor had signed them — a signal that the never-ending cycle of litigation over redistricting is alive and well. That early suit wasn't unexpected in a state that has been caught violating

AMERICAN OVERSIGHT

protections for voters of color in every decade since the Voting Rights Act took effect in 1965. A second lawsuit challenging the maps landed right after Gov. Greg Abbott signed the legislation, and the U.S. Department of Justice later joined the dogpile.

That litigation will likely last for years. In the short term, an adverse court ruling could force the state to delay its primary elections while the maps are revised or replaced. That's what happened before the 2012 elections that followed redistricting.

This year's candidates have already filed for office; drawing new maps and delaying the primary could reopen the filing to new people.

The restrictions on voting approved by legislators and the governor during last year's special sessions have also gone to court. Those are statewide changes, spurred by pandemic-inspired voting practices in 2020 in the state's biggest county, like drive-thru voting, 24-hour voting and sending mail-in ballot applications to all registered voters, whether they requested them or not.

That legislation prompted Democrats in the Texas House to walk out at the end of the regular session to prevent a vote, and later, to leave the state for Washington, D.C., to block consideration in special sessions.

One reason they chose Washington was to lobby members of Congress to pass voting legislation that would override legislation like what was then being considered in Texas.

Congress didn't get to it until late last year, after the Texas legislation had passed — and after opponents filed federal lawsuits to stop it.

That has turned into the imbroglio of the month, as the White House and the U.S. Senate have locked horns over Democrats' proposed overhaul of the country's electoral system.

Politico pulled together a lengthy list of ideas now included in the federal bill, which has grown to more than 700 pages.

It would require same-day voter registration and automatic registration when people get their driver's licenses, expanding vote-by-mail options to all voters, adding to the list of documents that can be used for voter ID, and barring restrictions on food and water for people waiting in line to vote.

It would make Election Day a federal holiday and reinstate "preclearance" laws that require states with histories of discrimination — like Texas — to get federal permission before putting new voting and election laws in place.

It would ban partisan gerrymandering, the practice of drawing political maps to unfairly favor one political party and hobble another.

AMERICAN OVERSIGHT

It would make it more difficult to interfere with or harass the people who count votes, keep most voting machinery disconnected from the internet and require paper ballots in most systems.

It even gets into campaign finance, attempting to force disclosure from organizations that currently don't have to disclose their sources of funds — so-called dark money operations.

That bill is in trouble, with Senate Republicans holding firm against it and a couple of Democrats whose votes are critical saying they will not support it. The Texas Democratic legislators who decamped to Washington to lobby for it may be in for another disappointment.

In the meantime, the state's new voting and election laws remain in effect and, like the political maps, in the hands of federal judges who will decide whether state and federal lawmakers are fortifying or dismantling Americans' and Texans' right to vote.

It was a fight 50 years ago, and it still is.

[BACK TO TOP]

Ron DeSantis Welcomes You to Florida, America's New Texas
By David Reaboi
Newsweek

For conservatives all over the world, Texas has long been something of a promised land, boasting decades of government policy hospitable to freedom and the kind of straight-talking, kind people who'd greet you warmly even on a busy street. It's a place well-known for a rugged toughness, an embrace of tradition and a fearless independent streak.

Considering also the romantic notions that have attached to that state since films began to romanticize the Wild West over the last century, it's remarkable that Texas' once-nonpareil position in the conservative imagination has been displaced so quickly—and by a place that was long thought of as a blue-leaning swing state.

By last week, when Governor Ron DeSantis gave his State of the State Address in Tallahassee, Florida had already eclipsed Texas as the most energetic, forward-looking red state in America, having captured the imagination of hundreds of thousands of conservatives who have flocked here—and millions in other states and countries who are watching, often jealously, from afar. (Even from Texas.)

DeSantis' insistence on protecting normal life in Florida through the COVID insanity of the last two years has distinguished him in American politics. Through his own stubborn resistance to what he has called "blind adherence to Faucian declarations," he has made Florida a true beacon of sanity. By now, every Floridian knows how this happened, and most will never forget it.

AMERICAN OVERSIGHT

In March 2020, the nation was in the grip of COVID hysteria, and America was locked down. In every state, stores, offices and factories closed as workers and business owners struggled to prove to nameless mandarins that their very livelihoods qualify as "essential." President Donald Trump, while skeptical of Anthony Fauci's edicts, nevertheless cowed to the pressure of the media and allowed his chief medical advisor to promote draconian lockdown policies.

Absurdly, gyms and even public beaches and parks boarded up. Violators of local COVID-inspired rules and closures were slapped with massive fines. As crime initially dropped during the lockdowns, municipalities repurposed their police forces as lockdown enforcers—levying massive fines on businesses that dared to open or allow customers to enter without masks.

Conservatives were shocked that, even in the liberty-minded Lone Star State, people's lives were being crushed by power-mad politicians. In Dallas, Shelley Luther was issued a large fine and was then jailed merely for keeping her hair salon open. Fearing the backlash from a lockdown-obsessed national and local media, Texas Governor Greg Abbott vacillated, failing to decisively bring the state back to normal.

As every conservative knows, things unfolded differently in Florida. By mid-June 2020, Governor DeSantis had had enough—both of lockdowns and the local municipalities that were raising millions in punitive fines for violating the lockdowns and mandates, especially in blue-leaning parts of South Florida.

DeSantis couldn't order those municipalities to relax their COVID restrictions, but he could make it impossible for the offending towns to profit from them. The governor's Executive Order 21-133 gave amnesty to thousands of businesses and individuals that had been swamped with millions in debilitating local fines.

Immediately, even the last cities that were holdouts to draconian COVID restrictions began to relax. Restaurant owners could begin to operate without the local police looking over their shoulders; gyms could be free of law enforcement spot-checking mask compliance. Florida, suddenly, was open for business again.

"In Florida," the governor said last week, "we have protected the right of our citizens to earn a living, provided our businesses with the ability to prosper, fought back against unconstitutional federal mandates and ensured our kids have the opportunity to thrive." By design, his state has "become the escape hatch for those chafing under authoritarian, arbitrary and seemingly never-ending mandates and restrictions."

Watching DeSantis' example in Florida—and in the absence of leadership in the White House—voters in Texas and other red states slowly began to demand similar measures. It's not an exaggeration to postulate that, had DeSantis not been as decisive and fearless in his own early-stage COVID actions in Florida, governors and other officeholders in

AMERICAN OVERSIGHT

even the most conservative states would not have had the courage to open and return to normal for many more months.

Of course, the governor's leadership on COVID has defined his first term in office, but that alone doesn't account for his near-universal popularity with Republican voters. Several clips from DeSantis' speech last week spread far and wide on social media. Thanks to his competence and resistance to intense pressure from Democrats and the corporate media across a whole host of issues, the governor has become America's de facto conservative leader. Accordingly, his State of the State Address last week was greeted—especially on Twitter—like a national event.

Troublingly for Trump loyalists in Mar-a-Lago, the enthusiasm with which Republicans across the country greet a new statement or memorable, combative press conference from DeSantis indicates that the governor has filled the void in what was previously seen as the party of Donald Trump.

DeSantis has taken the reins with creative, aggressive policy solutions to many of the issues left unaddressed over the four years of the Trump administration. The governor's tangible solutions to hot-button issues such as critical race theory indoctrination, election integrity, Big Tech censorship, protecting the unborn and immigration—all elaborated in his State of the State Address—stand in stark contrast to the former president's notable inability to do more than simply talk about them.

In a way, DeSantis' recent speech brought back memories of early 2009, when, also left without a national Republican figure in office, conservatives thrilled to the late Rush Limbaugh's speech at that year's Conservative Political Action Conference. That speech didn't catapult Limbaugh to national political office, but it did signal that what Rush called the "titular head of the Republican Party" was up for grabs.

What the political future looks like for Florida's governor is hard to tell. DeSantis isn't running for president—as far as we know. And Trump hasn't specifically announced his intentions. But in the last two years, the governor has captured the imagination and support of many millions, both inside and outside Florida.

Even as many blue state conservatives (and especially Californians) decamp to Texas, with both Trump and DeSantis in Florida, there can be no denying the gravitational pull the Sunshine State now has for the American Right. There is a sense here that this place is the future, especially as GOP voter registration has now overtaken Democratic voter registration for the first time in the state's history. Most Florida Republicans have no doubt who to thank for that.

Paxton Sues Biden In Attempt To Revive Border Wall Construction
By Jasper Scherer
Houston Chronicle

Texas Attorney General Ken Paxton on Thursday sued the Biden administration for halting construction of the southern border wall, arguing that Department of Homeland Security officials must spend funds approved by Congress for the barrier under the Trump administration.

In a lawsuit filed in the U.S. District Court for the Southern District of Texas, Paxton joined with Missouri Attorney General Eric Schmitt — a fellow Republican — to contend that President Joe Biden ran afoul of the law when he issued an executive order pausing all wall construction on his first day in office.

AMERICAN OVERSIGHT

The argument mirrors one from Senate Republicans who earlier this year requested that a nonpartisan watchdog agency review whether Biden's order had infringed upon Congress' "constitutional power of the purse." The Government Accountability Office found that Biden was authorized to delay the wall funding, though Paxton's lawsuit notes the agency also recommended that the White House submit a timeline for spending the funds.

"The President and his agencies may not unilaterally override duly enacted appropriations bills to fulfill a campaign promise," the lawsuit reads.

Paxton and Schmitt argue that Biden is violating the constitutional doctrine known as the separation of powers, which generally divides the federal government into three separate branches. They also contend that Biden violated a 1974 law that established restraints on when the president and other officials could withhold funds approved by Congress.

Biden, who vowed throughout his presidential campaign to stop building the wall, said upon signing his executive order that "a massive wall that spans the entire southern border is not a serious policy solution." In June, he diverted $2.2 billion in wall funding to the Department of Defense for military construction projects.

Texas Republicans, including Paxton and Gov. Greg Abbott, have been some of the loudest critics of Biden's border policies, blaming the White House for a surge in migrant encounters along the southern border.

Last month, the Legislature approved roughly $1 billion for Abbott's plan to continue building the wall, part of a $1.8 billion spending package that also funds a surge in state troopers to the border.

On HoustonChronicle.com: Texas lawmakers approve $1.8B for border security requested by Abbott

The federal government built about 450 miles of new barriers during the Trump administration, mostly in Arizona.

Land Commissioner George P. Bush, a Republican who is trying to unseat Paxton in the 2022 primary, filed a similar lawsuit in July — one that was also based on the argument that Congress had already approved wall funding.

On Thursday, Bush senior adviser J.R. Hernandez responded to Paxton on Twitter, criticizing the attorney general for filing "the exact (same) lawsuit" as Bush.

"They say immitation (sic) is the most sincere form of flattery but maybe if you weren't so plagued with scandal you'd be more focused on the #bidenbordercrisis," Hernandez wrote.

Patterson, Who Led Alamo Transition, Appointed To State's 1836 Project Advisory Panel
By Scott Huddleston
San Antonio Express News

Jerry Patterson, who oversaw a 2011 transition at the Alamo as state land commissioner when the General Land Office replaced the Daughters of the Republic of Texas as the site's custodian, is one of three people appointed by Lt. Gov. Dan Patrick to serve on the nine-member 1836 Project Advisory Committee.

The project, named for the year Texas won independence from Mexico before becoming a U.S. state 10 years later, is touted in a news release from Patrick's office as an effort "to promote patriotic education and increase awareness of the Texas values that continue to stimulate boundless prosperity across this state." Some critics have said they're worried the committee, in its zeal, will omit controversial aspects of the state's history, including racial unrest and social and economic disparities.

Also appointed by Patrick were Sherry Sylvester of San Antonio, former senior adviser to Patrick and a Distinguished Senior Fellow at the Texas Public Policy Foundation, with a focus on Texas history and identity; and State Sen. Brandon Creighton, R-Conroe, an eighth-generation Texan.

The release noted that Patterson, of Austin, served as land commissioner and state senator, is a U.S. Marines veteran and was named 2007 Texan of the year by Celebrate Texas, a nonprofit group that promotes Texas independence events.

"The 1836 Project will play a key role in ensuring that future generations learn the truth about Texas history, and about the core values that have contributed to making Texas the greatest state in the country," Patrick said in a release.

Gov. Greg Abbott announced his three appointments to the panel last month: author-educator Carolina Castillo Crimm of Huntsville, retired as history professor emeritus at Sam Houston State University; history scholar Don Frazier of Kerrville, director of The Texas Center at Schreiner University and former professor at McMurry University in Abilene; and Kevin Roberts of Liberty Hill, CEO of the Texas Public Policy Foundation.

The other three appointments, by House Speaker Dade Phelan, have not been announced.

Under House Bill 2497, which Abbott signed in June, the committee primarily is tasked with producing a pamphlet on the state's history for Texans receiving driver's licenses. It also will create a gubernatorial award to celebrate student knowledge of the state's history, and advise state agencies on how they relay historical facts in museums, landmarks, state parks and other areas.

But Patterson said the group's work will be focused on the pamphlet. Even though Patrick has taken a lead roll in securing state funding for an extensive public-private makeover of the Alamo that includes construction of a museum, Patterson said he doesn't foresee the panel's work having a direct impact on the Alamo project, whose key partners include the city of San Antonio and nonprofit Alamo Trust.

"The Alamo is part of our history and I can't see how anything we do will affect the Alamo in any significant way. The biggest problem we have is covering the wide expanse and lengthy narrative of Texas in a single pamphlet," Patterson said.

In the final years of his tenure as land commissioner from 2003 to January 2015, Patterson oversaw change at the Alamo, but retained the DRT as the site's operations contractor. He helped negotiate an Alamo exhibit of the state-owned "victory or death" letter signed by William Barret Travis; opened the first-ever Alamo exhibit devoted extensively to Tejano defenders and survivors of the 1836 battle; and helped negotiate the donation of artifacts to the Alamo by musician Phil Collins.

Patterson also promoted the concept of reclaiming as much of the Alamo's historic footprint as possible, and putting it under management of a "single authority."

AMERICAN OVERSIGHT

Texas Attorney General Ken Paxton Sues Biden Administration In Bid To Force Construction Of U.S.-Mexico Border Wall
By Uriel J. Garcia
Texas Tribune

Texas Attorney General Ken Paxton and his counterpart from Missouri filed a lawsuit on Thursday against the Biden administration, claiming it broke the law by halting border wall construction along the U.S.-Mexico border.

"The Biden administration's flat refusal to use funds that have already been set aside by Congress to build the border wall is not only illegal and unconstitutional," Paxton said, "It's also wrong, and it leaves states like Texas and Missouri footing the bill."

On Inauguration Day, Biden ordered a pause on all border wall construction and an assessment of federal government contracts already awarded for the project, calling former President Donald Trump's signature promise a "waste of money" and saying that it was "not a serious policy solution."

The lawsuit, filed against Biden and Department of Homeland Security Secretary Alejandro Mayorkas in the U.S. district court in Victoria, argues that Congress had set aside $1.375 billion to construct barriers along the southwest border and that the Biden administration doesn't have the constitutional authority to refuse to spend money that Congress authorized for border wall construction.

Trump's administration erected about 80 miles of new barrier before he left office, including 21 miles along the Texas-Mexico border.

The Department of Homeland Security didn't immediately respond to an emailed request for comment.

This lawsuit is the second filed by Paxton and Missouri Attorney General Eric Schmitt against the Biden administration.

Earlier this year, Paxton and Schmitt sued the Biden administration, claiming it had violated administrative law by ending the Migrant Protection Protocols, a Trump-era program unofficially called "remain in Mexico," which forces asylum-seeking migrants to stay in Mexico as their legal cases are pending. The lawsuit argued that human trafficking would increase if MPP was rescinded and that it would cause the two states financial harm.

District Judge Matthew J. Kacsmaryk agreed with Paxton and Schmitt; the Biden administration has said it will obey the judge's order and restart the policy next month.

Mexico's government had previously agreed to receive the migrants under the Trump administration, but it hasn't said if it will do the same for the Biden administration.

"We need to finish President Trump's wall," Schmitt said on Thursday during an El Paso news conference announcing the new lawsuit.

State News

Republicans Slam Rodney Ellis' Proposal To Redistrict Harris County, Claim It Will Create 'Chaos'
By Zach Despart

AMERICAN OVERSIGHT

Houston Chronicle

The two Republican Harris County commissioners say a proposal by Democrats to redraw commissioner precinct boundaries will cut services and dilute the influence to of conservative residents.

The proposed map by Precinct 1 Commissioner Rodney Ellis would significantly alter the shapes of precincts 3 and 4, the two represented by Republicans. Precinct 4 would arch along the county's northern edge from Katy to Baytown, while Precinct 3 would be entirely west of Loop 610.

New Harris County commissioner precinct boundaries proposed by Precinct 1 Commissioner Rodney Ellis would likely benefit Democrats.
New Harris County commissioner precinct boundaries proposed by Precinct 1 Commissioner Rodney Ellis would likely benefit Democrats.

Precinct 3 Commissioner Tom Ramsey called Ellis's map "the most corrupt plan I have ever seen my 45 years in doing work in Harris County."

"The objective is control," Ramsey said Thursday on the Michael Berry Show on radio. "The objective is to create the most chaos as possible, because (the Democrats) cannot stand the fact that 3 and 4 function very well. … It drives them crazy, so they want to blow it up."

Ramsey said he is particularly concerned that Precinct 4 would by far have the largest share of residents living in unincorporated areas, who rely on the county for services like parks and community centers. Ramsey predicted a strain on that precinct would lead to cutbacks.

Precinct 4 Commissioner Jack Cagle said the Ellis map, if approved, could allow Democrats to finally capture a fourth seat on Commissioners Court, which would allow them to set tax rates without any input from Republicans. In an email to constituents, Cagle predicted that would lead to future tax increases.

Cagle has proposed a map of his own. It largely keeps the current shapes of the precincts intact, while ceding parts of precincts 3 and 4 to precincts 1 and 2.

Commissioners Court redraws the four precinct boundaries after every decennial census. The process is needed to ensure each precinct has roughly the same population; precincts 3 and 4 grew much faster over the past decade, and, therefore, would lose some constituents.

Much as Republicans have done with Texas Legislature and U.S. House districts during the last two decades, the Democrats who control Harris County also can shift boundaries for their political advantage.

The highest political priority for county Democrats is to protect Precinct 2, which Adrian Garcia won by less than 1 percent in 2018. The Ellis proposal would transfer a corridor of Republican-leaning communities in northeast Harris County, including Huffman and Crosby, from Precinct 2 to Precinct 4. Garcia's precinct also would gain parts of heavily Democratic Precinct 1, including East Houston and a portion of Acres Homes.

Those changes, if approved, likely would help make Garcia's re-election bid next year much easier.

More than 100 residents testified at a public hearing Thursday on the redistricting proposals, mostly in opposition to the Ellis plan. Several said they oppose a precinct that stretches more than 50 miles from the west to east sides of the county.

AMERICAN OVERSIGHT

“Harris County residents will be in grave danger in a hurricane as response teams will have to travel the distance from Katy to Baytown,” said Precinct 3 resident Michelle Heinz.

Chris Daniel, a former Republican county district clerk, said it is more important for commissioner precincts to have sensible shapes than legislative districts because they also contain parks, community centers and trails. He cautioned against making significant changes to the current boundaries.

“These are lines that are very difficult to move because of infrastructure that’s in place,” Daniel said.

Precinct 3 resident Adrian Ozuna said he supported Ellis’s proposal because it keeps minority communities like Sharpstown in a single precinct, a key goal of the Voting Rights Act. Abel Garza praised the Ellis plan because it places Aldine entirely in Precinct 1 instead of dividing the mostly Latino community into three precincts.

“There was a point in time where nobody wanted Aldine,” Garza said. “We welcome any map where we can work with one commissioner instead of three. That way we know who to contact or, more importantly, who to yell at when things aren’t getting done.”

Some residents are tired of the politicking involved in drawing districts. Marc Anderson submitted a proposal calling for the county to be divided neatly into four quadrants, with Houston in the middle, and call it a day.

“Stop trying to carve it up in some weird way,” he wrote in his proposal. “This should give each precinct a good mix of different communities and different demographics and would be fairly middle of the road politically.”

Poor Texans Wait In Limbo As Dems Squabble In D.C.
By Robert Downen
Houston Chronicle

It was once a unifying policy for Democrats.

But now, child tax credits are at the center of an increasingly bitter budget fight on Capitol Hill, a battle that will have profound implications for the millions of poor families in Harris County and Texas.

At issue are child tax credits that were expanded in March as part of the latest federal COVID-19 stimulus package.

The legislation upped the per-child credits from $2,000 to $3,600 per child under age 6 and from $2,000 to $3,000 for children older than 6.

The expansion also allowed families to receive some of the money in direct, monthly installments.

And, per Columbia University researchers, it also helped raise millions of children out of poverty just as the delta variant began to overwhelm hospitals, shutter businesses and, yet again, push millions of Americans into unemployment seemingly overnight.

About 1 in 6 American children live in poverty — one of the highest rates among all developed nations — and so it makes sense the widespread use and popularity of the child tax credit expansion.

AMERICAN OVERSIGHT

In the four months since the program was opened, more than $61 billion has been allocated to American families in need, according to a report released last week by the U.S. Department of Treasury and Internal Revenue Service.

Texans have received about one-tenth of that money, with about $6.2 billion paid through roughly 3,600 credits — an average of roughly $444 per month, per child, according to the report.

Now, with the extension set to sunset at year's end, child tax credits are among a handful of policies that have left Congressional Democrats at an impasse as they try to pass an ambitious, budget bill of around $2 trillion that would, among things, extend the credits through 2025.

The budget proposal, once pegged at $3.5 trillion, is being scaled back to win over two moderate Democrats — West Virginia Sen. Joe Manchin and Arizona Sen. Krysten Sinema. With united Republican opposition, Democratic leaders need support from both to pass the bill in the evenly divided Senate.

President Joe Biden is reportedly considering extending the child tax credit expansion for just one year as a compromise to satisfy moderates. Manchin has proposed means-testing the program, which would shrink the number of eligible children by an estimated 37 million. Regardless of how the standoff shakes out, it will have real consequences for millions of low-income people in Texas and Harris County, where roughly 1 in 5 children live in poverty.

"That is hundreds of thousands of children in Harris County, one of the most prosperous counties in the most prosperous country in the world," County Judge Lina Hidalgo said this week.

Texas was one of two dozen states that opted to end other COVID relief programs before they were set to expire in September. The move was favored by Republicans and some businesses who argued that the programs were keeping people out of the workforce — claims that have been questioned by economists and poverty researchers.

No wonder, then, that Harris County leaders have gone on the offensive while they can.

Last week, county commissioners approved $500,000 to fund outreach efforts to low-income families who may qualify for the child tax credits, but have been unable to navigate an application process that some have decried as confusing and arbitrary.

Hidalgo said the outreach efforts are part of a broader "paradigm shift" in poverty prevention.

Parents seeking the credits still have until Nov. 15 to apply for the program.

What happens after that? All bets are off — and all eyes are on two senators who can turn into reality what was once a Democratic Party pipedream.

[BACK TO TOP]

Texas Voters Will Decide Eight State Constitutional Amendments On Nov. 2. How Would They Impact You?
By Sami Sparber
Dallas Morning News

With early voting for the Nov. 2 election underway, Texas voters are deciding whether to approve eight changes to the state constitution, including two that stem from issues that arose from the state's response COVID-19.

AMERICAN OVERSIGHT

A majority of voters must support each of the proposed amendments, which were greenlit by the Legislature earlier this year, to put the changes on the books. Early voting runs through Oct 29.

Here's what you need to know about how the proposed constitutional amendments could impact Texans and their communities.

Pandemic response

Two of the proposed amendments respond to government restrictions that were imposed during the COVID-19 pandemic. Officials across the political spectrum have come under fire for their handling of the ongoing health crisis, whether it be over shutdowns or mask mandates.

Proposition 3 would prohibit any governmental entity from enacting any rule prohibiting or limiting religious services.

The proposed change, hailed by supporters as protecting religious freedom, comes after some places of worship were limited during pandemic lockdowns.

What you'll see on the ballot: "The constitutional amendment to prohibit this state or a political subdivision of this state from prohibiting or limiting religious services of religious organizations."

Proposition 6 would allow residents in nursing homes and similar long-term care facilities to designate an essential caregiver who could not be denied in-person visitation.

The proposed amendment responds to facility closures earlier in the pandemic, when residents were isolated from loved ones for months.

What you'll see on the ballot: "The constitutional amendment establishing a right for residents of certain facilities to designate an essential caregiver for in-person visitation."

Elections for judges

Proposition 4 would require judicial candidates to be Texas residents with a license to practice law in Texas, to be a practicing lawyer or judge for at least eight to 10 years before election and not have had their law license revoked or suspended during that time.

Supporters say the proposal is meant to ensure a higher quality judiciary. Critics worry the stricter requirements could exclude younger, more diverse lawyers from judicial appointments or races.

What you'll see on the ballot: "The constitutional amendment changing the eligibility requirements for a justice of the supreme court, a judge of the court of criminal appeals, a justice of a court of appeals, and a district judge."

Proposition 5 would allow the State Commission on Judicial Conduct to take complaints, conduct investigations and take other action against a candidate running for state judicial offices. The commission currently only handles officeholders, not candidates.

The lawmakers behind the proposed amendment said it seeks to "ensure that judicial elections are fair" by holding candidates and sitting judges to the same standards.

What you'll see on the ballot: "The constitutional amendment providing additional powers to the State Commission on Judicial Conduct with respect to candidates for judicial office."

AMERICAN OVERSIGHT

County infrastructure
Proposition 2 would authorize counties to issue bonds to fund transportation and infrastructure projects in neglected or underdeveloped areas. Cities can already issue these bonds, but not counties.

The amendment would allow counties to use increases in property tax revenue in the area to repay the bonds. Critics, such as the state Republican Party, argue the proposal would create more local debt.

What you'll see on the ballot: "The constitutional amendment authorizing a county to finance the development or redevelopment of transportation or infrastructure in unproductive, underdeveloped, or blighted areas in the county."

Other proposed amendments
Proposition 1 would allow the Professional Rodeo Cowboys Association and the Women's Professional Rodeo Association to hold charity raffles at rodeo events, much like Texas' professional sports teams do at their home games.

What you'll see on the ballot: "The constitutional amendment authorizing the professional sports team charitable foundations of organizations sanctioned by the Professional Rodeo Cowboys Association or the Women's Professional Rodeo Association to conduct charitable raffles at rodeo venues."

Proposition 7 would allow a surviving spouse of a person who is disabled and receiving homestead exemptions on school district property taxes to continue to take advantage of the exemption, as long as the surviving spouse is 55 or older.

What you'll see on the ballot: "The constitutional amendment to allow the surviving spouse of a person who is disabled to receive a limitation on the school district ad valorem taxes on the spouse's residence homestead if the spouse is 55 years of age or older at the time of the person's death."

Proposition 8 would extend tax exemptions to a surviving spouse of a member of the military who dies because of any injuries sustained during their service, whether it is related to combat or not.

What you'll see on the ballot: "The constitutional amendment authorizing the legislature to provide for an exemption from ad valorem taxation of all or part of the market value of the residence homestead of the surviving spouse of a member of the armed services of the United States who is killed or fatally injured in the line of duty."

Education

Allen ISD Parents Refile Mask Mandate Lawsuit, Adding McKinney ISD, TEA As Defendants
By Francesca D'Annunzio
Dallas Morning News

An attorney representing parents in Allen ISD refiled a federal civil rights lawsuit today over their school district's lack of a mask mandate, adding the parents as plaintiffs to a lawsuit originally filed late last month against Frisco ISD, Lago Vista ISD, Hurst-Euless-Bedford ISD and Grapevine-Colleyville ISD.

AMERICAN OVERSIGHT

The amended complaint — filed in U.S. district court in the Western District of Texas instead of the Eastern District, as it was at first, adds three defendants: the Texas Education Agency, McKinney ISD and Tomball ISD, in the Houston suburbs.

The lawsuit seeks a temporary restraining order and permanent injunction that, if successful, would require the Texas Education Agency to adhere to Centers for Disease Control and Prevention guidelines for all the districts named in the case — including universal masking.

The change of venue means that instead of receiving a ruling in the Eastern District from U.S. District Judge Sean Jordan, who was initially assigned to the case, the lawsuit will be heard by U.S. District Judge Robert Pitman.

Jordan was nominated by a Republican, former President Donald Trump, and Pitman was nominated by former President Barack Obama, a Democrat.

Allen ISD said in a prepared statement late Thursday that the plaintiffs' attorney, Martin Cirkiel, is "forum shopping" — or choosing to file in a court that will treat the lawsuit's claims more favorably.

"Once again, this process will cost Allen ISD considerable man hours and legal fees to defend itself in court," the statement read.

The district also said it would continue to follow its COVID-19 safety procedures "that have resulted in low active case rates," of 0.16% of the student population.

Cirkiel, McKinney ISD and the Texas Education Agency did not immediately respond to requests for comment.

Previous lawsuit
Allen ISD parents dropped their original civil rights lawsuit two weeks ago, after Jordan denied their request for a temporary restraining order against the school district. He had not yet ruled on a permanent injunction.

Officials said the district has already spent tens of thousands of dollars defending the suit.

"To hear the AISD lawyers argue they don't have a legal duty to protect our kids from other kids really shocked and hurt me," Therissa Grefsrud, a district parent named in the lawsuit, said after the first hearing in early October.

"And then to see them essentially light a cigar and claim victory … there aren't winners in this COVID-19 pandemic."

Allen ISD said in a prepared statement after the denial that it was an "important victory" and that its strong case in court likely influenced the parents to drop the case, but their attorney denied that.

"This decision was not made because we feel AISD is providing reasonable COVID safeguards based on medical guidance. This decision was not made because we feel AISD has a strong legal case," their attorney's office said in a prepared statement at the time.

The federal class-action lawsuit filed on behalf of more than 1,000 parents in early September alleged that the Allen school district's refusal to require masks violated students' constitutional rights to life, liberty and the pursuit of happiness.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000121

Other COVID-19 protocol lawsuits filed in Texas and other states are alleging discrimination against disabled students. But the legal complaints filed against North Texas districts allege a violation of the constitutional rights of all students, according to a statement from the plaintiffs' law firm.

Allen ISD and many other parents in the district dispute the lawsuit's claim that not requiring masks — which public-health experts say can slow the virus' spread — is a violation of constitutional rights.

"The District, however, strongly disagrees that the students' constitutional rights have been violated by leaving masks as an option for students and staff," spokesman David Hicks said in a prepared statement to The Dallas Morning News last month.

Allen parents previously told The News that they felt legal action was the last recourse they had to keep their children safe. In the weeks leading up to the lawsuit's filing, parents protested outside school board meetings, sent Allen ISD a grievance letter with hundreds of signatures and pleaded with the district to change its policy.

Parents said the litigation wasn't about the money, but about health and safety — especially for kids too young to be vaccinated.

"I want my kids to be in a safe learning environment," Grefsrud, a registered nurse specializing in infection prevention and epidemiology, said last month. "And I think that all of our kids in this community deserve a safe learning environment."

COVID-19 cases among children
New admissions for coronavirus patients are declining in the four most populous North Texas counties, according to UT Southwestern Medical Center, and city data show that Allen's active cases of the virus have decreased for six consecutive weeks.

But a disproportionate number of severe cases are occurring among children.

During the most recent COVID-19 surge over the summer, pediatric COVID-19 hospitalizations were seen at unprecedented levels, peaking in early September. Providers said they saw an uptick in kids testing positive for the disease in August and September compared with prior months.

As of Oct. 21, Allen ISD has at least 40 active cases of COVID-19, according to the district's dashboard. Half of the cases are in elementary school students, data show.

With Texans Falling Short Of College Degree Goals, State Prioritizes Credentials, Earnings
By Megan Menchaca
Austin American Statesman

Texas is the first state to set higher education goals connected directly with the earnings related to postsecondary credentials in new guidelines set by the Texas Higher Education Coordinating Board.

The board, which oversees all higher education in the state, unanimously approved changes to its so-called 60x30 plan that would increase its focus on adult learners, prioritize "credentials of value" and give college students equitable access to information and resources.

The primary goal of the initial 60x30 plan was for at least 60 percent of Texans ages 25-34 obtain a certificate or degree by 2030. The plan, adopted in 2015, also aimed to have college graduates complete programs with

AMERICAN OVERSIGHT

marketable skills and to keep undergraduate student loan debt from exceeding 60 percent of first-year wages by 2030.
The board updated the primary goal to track “credentials of value” obtained by young Texans in addition to certificate or degrees during its quarterly meeting on Thursday. It also will be monitoring the percent of Texans ages 35-64 who obtain certificates, degrees or credentials of value by 2030 and collect more data on the finances associated with those credentials, such as median earnings and net cost of attendance.

Melissa Henderson, the board’s associate commissioner for strategic partnerships, said credentials of value can include degrees and certificates along with badges, apprenticeships and industry certifications. Along with the typical degrees and certificates, she said these credentials help students establish a path into the workforce.

“We've already laid a strong foundation for the Texas workforce over the past two decades by increasing postsecondary attainment,” Henderson said. “However, the modern economy demands more that we award credentials that offer purpose in the economy, value in the labor market and opportunity for a good job and meaningful career.”

The change comes as Harrison Keller, the Texas commissioner of higher education, acknowledges that the board was not on track to meet its primary 60x30 goal in the next nine years. About 44.5% of Texans aged between 25 to 34 obtained a certificate or degree in 2019, and the state is currently forecast to grow that number to approximately 54.5% by 2030, according to data presented at the meeting.

“We're going to have to double down on our engagement and enrollment as students,” Keller said. “We're particularly going to have to work with our institutions on having more flexible short-term credentials that are valuable for individuals and aligned with current emergent workforce needs.”

As part of an effort to make information more accessible, the board plans to publish data in the future about the career trajectories and earnings associated with different types of credentials. The board is also working with the Texas Workforce Commission to create a state credential database with a list of available credentials, Keller said.

“A lot of folks told us .. was that while cost was a barrier (in pursuing credentials), on the same magnitude were issues related to advising,” Keller said. “Folks might know that they might need some additional training, some additional education to advance in their careers, but they weren't sure what kind of education they should pursue or how that might lead to a better job.”

The board approved plans to track the percentage of graduates with “no or low student debt” related to their potential earnings based on the credentials they earn. Nearly 40 of Texas college students had student debt during the 2019-20 academic year, according to a report on student financial aid in Texas higher education.

Keller said two students who graduate from college might have the same amount of debt, but they could have different projected earnings based on the degree they graduate with. He said if the state doesn’t maintain or improve its commitment to need-based financial aid, more students could have high and unsustainable levels of debt when they complete their credentials.

“Included in that notion of (measuring) high debt or no debt also is an emphasis on the shared responsibility among the students and their families, the institutions and also the state of Texas, and ensuring that these higher education credentials are going to be accessible and affordable,” Keller said.

Henderson said the COVID-19 pandemic had demonstrated how quickly specific jobs and marketable skills can change, and so college credentials must propel graduates into careers that equip them for their future while also providing greater economic mobility and low student debt.

AMERICAN OVERSIGHT

"Manageable student debt is essential to expand economic mobility for historically underserved populations who have often had the greatest means that the least access to higher education and support services," Henderson said. "This combination of increased value and economic mobility for students also translates into greater economic prosperity."

[BACK TO TOP]

ACLU Of Texas Sues Houston-Area School District Over Gender-Based Dress Code's Long-Hair Policy
By Allyson Waller
Texas Tribune

The American Civil Liberties Union of Texas is suing a Houston-area school district over a dress code policy it says has led to multiple students being disciplined for having long hair.

Plaintiffs in the lawsuit include six boys and a nonbinary student ages 7-17 from Magnolia Independent School District. According to the lawsuit, which was filed in federal district court Thursday morning, the Magnolia ISD gender-based policy "imposed immense and irreparable harm" on the students, some of whom claim they have worn long hair for years while attending school in the district without any repercussions.

The lawsuit says the students have been threatened with or sent to in-school suspension for weeks at a time; some were placed in a "disciplinary alternative education program," leading three of them to unenroll from the school district. The suit also states that while the plaintiffs have been disciplined for the length of their hair, other students with long hair, such as those on high school football teams, have not faced discipline.

"To be kicked out, pushed out, of school entirely simply because of their gender and their hair is really unconscionable," ACLU of Texas staff attorney Brian Klosterboer said.

Klosterboer said the ACLU warned Magnolia ISD numerous times about how its dress code policy's gender-specific requirements violate equal protection under the 14th Amendment and Title IX, which prohibits discrimination in education institutions on the basis of sex.

In a statement, Magnolia ISD disagreed with the ACLU's claims and said it was reviewing "the lawsuit with its legal counsel and looks forward to the opportunity to respond to the Court."

"This system of differentiated dress and grooming standards have been affirmed by courts and does not inhibit equal access to educational opportunities under Title IX," the district said. "The rules are included in the student handbook each year and are similar to the codes of approximately half of the public school districts in Texas."

In a letter sent to the district in August, the ACLU of Texas said it filed a grievance in 2019 on behalf of a Magnolia ISD parent who said her son was told to cut his hair or he'd be sent to in-school suspension. The letter also cited reports the ACLU of Texas received about students repeatedly being threatened with disciplinary action or being suspended for having long hair.

Danielle Miller, whose 11-year-old child is nonbinary and a plaintiff in the lawsuit against the district, said she received a phone call from her child's school at the beginning of this school year and was told that her child would have to cut their hair. The Texas Tribune does not disclose children's names for privacy reasons.

Miller said her child was "just in absolute devastation and tears" when she told them they would have to cut their hair.

"... Based on [my child's] reaction and how harsh and traumatized they were, I realized that we weren't going to be cutting [their] hair," Miller said.

Miller's child was placed in in-school suspension for nine days, she said. The suspension was postponed during a 60-day window to appeal the decision, which has almost run its course, Miller said.

Miller said her child has had long hair for a couple of years and that their hair length had never been a problem before.

"I have no idea what changed," Miller said. "[The district is] not saying anything, they're not responding to anybody in the community about it."

The district said its administration and board of trustees have heard from a small group of parents about concerns over the dress code policy, and they "are currently in the process of considering parent grievances on this subject matter."

According to Magnolia ISD's 2021-22 student handbook, hair must "be no longer than the bottom of a dress shirt collar, bottom of the ear, and out of the eyes for male students." Hair also cannot "be pinned up in any fashion" or "worn in a ponytail or bun for male students."

However, the ACLU argues many of the plaintiffs have worn long hair for years while enrolled in Magnolia ISD and have not faced any discipline until this year. Klosterboer said some school districts in Texas tend to rely on "old and outdated case law" as the basis for their dress code policies.

Another plaintiff, a 9-year-old Latino student identified in the lawsuit as A.C., wears long hair that he keeps in a ponytail and out of his face. His family was told on the first day of school this year that he would need to cut his hair or be sent to in-school suspension, the lawsuit says. His mother said many men in A.C.'s family wear long hair, including his dad and uncle. A.C. did not cut his hair and was placed in in-school suspension for five weeks, where he was separated from other students and wasn't able to attend his regular classes.

In September, he was sent to a "disciplinary alternative education program" outside of school for seven weeks, where he faced potentially harsher punishment. According to the lawsuit, students who don't comply with the school district's hair length policy and are sent to the alternative education program may be required to have a parent sit in class with them, go to before- or after-school detention, or lose their desk, among other measures.

This month, A.C.'s family unenrolled him from the district. However, the suit says his placement in an alternative education program has made it difficult for him to enroll in another district and he is now being home-schooled.

"Magnolia ISD has harshly punished my son and driven him out of school entirely because he is a boy with long hair. ... The district needs to stop harming our children," Azucena Laredo, A.C.'s mother, said in a statement.

In 2020, a federal judge granted two Black students from a Houston-area school district temporary relief after they were told they would have to cut their hair, which they wore in dreadlocks, to abide by district dress code policy. The case, which caught national attention, also landed on the radar of Texas lawmakers, who introduced their own version of the CROWN Act, legislation that would prohibit hair discrimination based on hair texture and protective styles that are usually associated with race. The legislation, House Bill 392, advanced out of committee during the regular session but was not taken up on the House floor for a vote.

Outside of Texas, federal courts have ruled in cases from Indiana and North Carolina that gender-specific dress codes could be linked to gender discrimination under federal law, according to the ACLU and the Texas Association of School Boards.

Energy

Your Gasoline, Natural Gas And Electric Bills Are All Going Up This Winter
By Marcy de Luna
Houston Chronicle

Energy prices are climbing across the board, squeezing households already paying more for gasoline, natural gas and electricity and threatening to slow economic recovery that depends on consumer spending.

Gasoline prices are running more than $1 higher than a year ago. Natural gas prices have more than doubled, surging by one-third in just the last month. Average retail electricity prices are up about 50 percent. With winter heating season yet to come, analysts are warning consumers to brace for even higher prices — particularly if colder-than-expected weather adds to demand for natural gas, heating oil and electricity.

The surge in energy costs is forcing difficult choices for many families as they juggle bills for rent, food and utilities. At Love Network, a Baytown a nonprofit that assists low-income people, the number of applicants seeking help paying utility bills has already jumped nearly 60 percent in October, to 550 in the first three weeks of the month from 350 in all of September.

“I’ve had clients say they have to choose between paying their light bill, water bill or rent,” said program manager Brittnay Joseph.

U.S. consumers were paying 25 percent more for energy in September than a year earlier, the Labor Department reported, and energy costs might be taking an even bigger bite out of Houston household budgets. Energy prices jumped 35 percent from a year earlier in August, the most recent regional data available, according to the Labor Department.

Ada Gonzales, 66, said she can barely cover the $900 a month rent for her small home near Baytown with the $10.50 an hour she earns at a bakery, and the prospects of paying even more for heat and electricity makes her worry that she might have to cut back on food, clothes or medicine. She estimates she is already paying $55 more a month on gasoline to get to work, which has forced her to cut back on items on her grocery list such as paper towels.

“I am having problems keeping a roof over my head let alone staying warm this winter,” Gonzales said. “I live on a small budget. It is a battle to survive.”

End of cheap energy?
The surge in prices could signal that an era of cheap energy is over, analysts said. The reasons are straightforward. Energy demand is soaring as the global economy emerges from the pandemic, but supplies are not keeping up.

Oil and gas companies, under pressure from shareholders to deliver higher profits, have cut spending on new oil and gas developments and ramped up production cautiously after two oil busts in five years. Investors, eyeing the energy transition, are reluctant to devote capital to oil and gas projects that could become obsolete before

AMERICAN OVERSIGHT

they pay off. Renewable sources such as wind and solar are advancing rapidly, but are not yet able to fill all the gaps.

“We need to transition to cleaner sources of energy,” said Patrick Jankowski, an economist at the Greater Houston Partnership, a business-financed economic development group. “But this illustrates how painful that transition is going to be both financially and physically if people find themselves in houses where they can't afford to turn the thermostat up and be as warm as they would like.”

The transition also could be painful for the broader economy, which depends on consumer spending for about 70 percent of economic activity. Economists often compare rising energy prices to taxes — unavoidable costs that reduce discretionary spending on goods and services from electronics to new cars to restaurant meals.

Moody’s Analytics, the economic research arm of the bond rating agency, estimates that every $1 increase in a barrel of crude oil drains $3 billion from the pockets of American consumers, and crude prices have risen about $40 a barrel to more than $80 over the past year. In the fourth quarter alone, consumers will spend $28 billion more on energy than they did during that same period in 2020, according to Moody’s.

“It is a big change from last winter,” said Chris Lafakis, an energy economist at Moody's Analytics. “It's going to drain consumer spending.”

Rising energy prices can also spark broader inflation as businesses pass along higher costs of transportation, production and materials to consumers, further eroding household’s spending power and potentially spurring the Federal Reserve to boost interest rates to slow the economy and ease price pressures, with implications for rate-sensitive industries such as housing and autos. Many of the recessions in the post-World War II era were caused by the Fed raising rates to squeeze inflation from the economy.

“Almost every household item that we have, from cereal to bathroom tissue, is made using energy sources,” said Ramanan Krishnamoorti, chief energy officer at the University of Houston. “That can quickly increase prices on the shelves.”

Pinched at the pump

Gasoline is one of the most visible indicators of rising energy costs. Gasoline prices, updated almost daily on gas station signs, have climbed to seven-year highs, up more than $1 a gallon over the past year to an average of $2.85 in Houston and $3.30 nationally, according to the fuel-price tracking service GasBuddy.

And they are likely to climb as global energy demand squeezes oil markets and pushes the price of crude, the major component of gasoline, even higher, said Patrick DeHaan, senior petroleum analyst at GasBuddy. Adding to the pressure are looming natural gas shortages in Europe and Asia, which are leading power plants, factories and other industrial customers to switch to coal and petroleum fuels, increasing demand and prices.

DeHaan said there are too many variables — including how long OPEC and its allies will restrict production — to forecast how high gasoline prices might go. But, he added, “We're especially susceptible right now to any supply disruptions because oil demand is very strong. I'm pessimistic about U.S. gasoline prices.

Aaron Armstrong, a junior studying accounting at Prairie View A&M, estimates his spending on gasoline to commute to a part-time job at a Kohl’s department store has risen 20 percent to about $60 per month, making a tight budget even tighter. With higher energy costs eating into the earnings he uses to help cover college expenses and rent, he worries he’ll have to cut spending on books or even groceries.

Armstrong said he is looking to work more hours to help make ends meet, but that presents another problem.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000127

“I’ll have to spend more money on gas,” Armstrong said.

The other gas
For much of the past few years, natural gas, a byproduct of oil drilling, was so cheap that it was more economical for producers to just burn the gas away than pay the costs of transporting it.

Those days are gone. The spot market price for natural gas, which spent most of last year below, $2 per million British thermal units, has soared above $5 per million Btus and is projected to average nearly $6 over the next few months, according to Energy Departments. U.S. households are forecast to spend 30 percent more on natural gas this winter compared to last year’s heating costs, the Energy Department said.

Several factors have contributed to dramatic turnaround in prices. Global demand is strong and growing, not only because of the economic recovery, but also because nations are shifting power generation and industrial processes to cleaner-burning natural gas from coal. U.S. exports of liquefied natural gas tripled in the first six months of the year to an average of 9.6 billion cubic feet per day from 2.8 billion during the same period in 2020.

U.S. natural gas production, meanwhile, has stayed flat at about 91.5 billion cubic feet per day. Heading into the winter, natural gas stockpiles are running about 5 percent below average for this time of year.

Natural gas rates charged by the Houston utility CenterPoint on recent bills are nearly 30 percent higher than a year ago, according to filings with the Texas Railroad Commission, which regulates natural gas utilities. The rates are the pass-through costs of gas purchased by CenterPoint and separate from the utility’s distribution fees. The cost of natural gas accounts for about half of monthly bills.

Power connections
Natural gas-fired power plants generate about half the electricity in Texas and the country, so power prices are inevitably tied to gas prices. And they, too, are rising.

When Texas consumers get hit with higher electricity prices will largely depend on when their retail contracts end, but prices advertised on the state’s electricity shopping website Power to Choose are up 50 percent to an average of 12 cents per kilowatt hour from about 8 cents a year ago, according to Paul Paras, co-founder of the Houston electricity shopping service Real Simple Energy

In addition, Texas electric utilities received approval from regulators to increase their distribution fees by a penny per kilowatt hour as of Sept. 1. That would add $15 a month to the bill of a household using 1,500 kilowatt hours.

Houston resident Eric Oliver, a 24-year-old mental health technician, estimates he spends about $180 a month for gasoline and $155 per month on utilities for his two-bedroom apartment. With his energy bills increasing, Oliver said he’ll have to reduce other spending, like going out to a restaurant or the movies, and try to cut back driving, except to go to work.

“I am in my first apartment and this is my first time paying my own bills,” he said. “This affects how I live my life. Things will be tight budget wise.”

Texas Power Plants Must Make ‘Best Efforts’ To Fix Problems That Led To Electric Grid Failure
Dallas Morning News

Operators of power plants and transmission lines that are part of the Texas electric grid have until Dec. 1 to make their "best efforts" to fix known problems that led to failures during last February's deadly freeze and to implement decade-old winterization recommendations that state regulators largely disregarded until this year.

That's the crux of new rules approved Thursday by the Texas Public Utility Commission — rules that the agency says will boost the grid's resiliency heading into winter, which starts in about eight weeks.

Under the rules, electric companies will be required to document that they have taken certain winterization measures — but they won't be penalized if they suffer weather-related failures or outages.

Still, members of the utility commission called the new rules a step toward greater oversight, because Texas previously had no winterization requirements. They also said "more robust and year-round preparation standards" are being developed — in conjunction with a comprehensive state weather study — although those standards won't be in place anytime soon.

The rules approved Thursday are "operational standards to be ready for this winter," said Peter Lake, chairman of the utility commission. They'll ensure that "the physical resiliency of our grid is vastly improved this winter over last winter."

But not everyone sees it that way.

"Really, at the end of the day, it just feels like they are telling operators — 'Go out and do your best,'" said Adrian Shelley with the watchdog group Public Citizen. "You would hope that (plant operators and distribution companies) were already doing their best."

Meanwhile, there's a large potential hole in the effort to get the state's power grid ready for this winter that is beyond the Public Utility Commission's purview.

The Texas Railroad Commission, which regulates the natural gas industry, has yet to put in place any new winterization mandates for wellheads and pipelines, and it also is considering enacting a rule that would allow their operators to opt out of having them designated as "critical infrastructure" within the electricity supply chain that must winterize — simply by paying a $150 application fee.

The railroad commission is taking public comment on its proposed critical-infrastructure rule until Nov. 1, with final adoption expected by Dec. 1. But a committee of state lawmakers recently excoriated the agency for it, so the rule's fate appears to be up in the air.

"You sound like you missed the urgency message" to safeguard the grid, state Sen. John Whitmire, D-Houston, told Wei Wang, executive director of the railroad commission, during a hearing three weeks ago. "That is unsatisfactory. You have unified this body" in anger at the agency.

"This is the Achilles heel right now" in grid preparations, state Sen. Lois Kolkhorst, R-Brenham, said during the same hearing. Natural gas suppliers "were as much of the problem as everything else" during the February calamity.

A lack of consistent natural gas supply for gas-fueled power plants was among the top causes of the widespread and lengthy power outages during February's massive failure of the state's electric grid, according to a preliminary report last month from the Federal Energy Regulatory Commission — coming in second behind a lack of weatherization at power plants of all types.

AMERICAN OVERSIGHT

But the natural gas industry has been scrambling since that disaster to avoid blame and the potential for increased regulation, paying for a report issued in April that largely absolved it of responsibility.

At least 210 Texans died for reasons related to the severe winter freeze in February — when the power grid faltered just when needed most — and property damage has been estimated at more than $200 billion.

Under the rules for this winter approved Thursday by the Public Utility Commission, operators of power plants and transmission lines have the ability to assert a "good cause exception" to certain of the new winterization requirements — meaning they essentially can apply to opt out.

In most cases, however, the exceptions granted to them would be temporary, and they would have to provide documentation of specific causes for their noncompliance and a schedule to come into compliance. Regulators also would have to sign off on the exceptions.

Overall, the winterization measures that power plants and transmission companies now must take — or at least make their best efforts to put in place — are largely those that were recommended in two reports from nearly 10 years ago, after a winter storm in 2011 caused widespread power outages on the Texas grid.

Those decade-old recommendations have never before been made into requirements, either by Texas lawmakers or state regulators. They include such things as heat tracing to protect pipes from the cold, insulation of critical parts and installation of wind breaks or enclosures for cold-sensitive equipment and sensors, as well as efforts to ensure "onsite fuel security."

The "highest-ranking representative, official, or officer" with authority over the particular plant or transmission facility also will have to provide a notarized statement that the actions have been taken. In addition, the operator of the state's power grid — the Electric Reliability Council of Texas — has the authority to inspect all facilities with 48 hours' notice.

Some power plant operators say they haven't been waiting for the new rules to get their facilities ready for the upcoming winter.

"We're voluntarily hardening our power generation fleet to withstand a once-in-a-100-year event like (the February winter storms), and we're going beyond the 2011 NERC recommendations," said Vistra Corp. spokeswoman Meranda Cohn, referring to the report by the North American Electric Reliability Corp.

Still, Public Citizen's Shelley called the new rules weak and said he's concerned the grid overall remains extremely vulnerable.

The new rules are "better than nothing," he said. "But if we have another storm at the same intensity as (the one in February), then I think people should be very concerned."

Business/Economy

Pandemic Habits Show Up In Deloitte Survey Of Dallas-Fort Worth Holiday Shoppers
By Maria Halkias
Dallas Morning News

Dallas-Fort Worth residents have started their holiday shopping earlier and are worried about online orders arriving on time.

The pandemic overhang has sealed some shopping habits while other patterns were temporary, according to results of a Deloitte survey of D-FW shoppers released on Friday.

The survey results track some popular themes of the stay-at-home economy that dominated last year. Pet spending is down this year and shoppers say they plan to spend more on clothing than they did last year when few wardrobes needed updating just to stay home.

The Deloitte survey is the second one released this week that says people are less interested in shopping on Thanksgiving, Black Friday and Cyber Monday. Adobe Analytics' new forecast released Wednesday found the same trend.

Overall, 41% of respondents and 43% of low-income shoppers said they aren't shopping on the traditional big days, said Sam Loughry, Deloitte's retail leader in the Dallas office.

That's up significantly — by about 12 percentage points — from last year.

Last year, Black Friday was pretty dead in stores as the crowds stayed home due to the pandemic and retailers accommodated them instead with deals online.

And this year, the lack of interest in the Black Friday and Cyber Monday may partly be because holiday shopping is starting earlier. About 63% said they're going to shop before Thanksgiving, even earlier than last year, due to supply chain worries, Loughry said.

Almost half of shoppers are anticipating out-of-stock items and believe the hardest-hit categories will be electronics (53%) and toys (37%).

But spending in D-FW is holding up, Loughry said. On average, local households said they will spend $1,586, or 7% higher than the national average of $1,463. Local residents plan to spend about 4% less than last year when they doubled down on items for the home, but the forecast is up 11% from 2019.

"Folks in D-FW said their financial situation has held steady more than the national average and they plan to spend more on gifts this year than last year," Loughry said. About 78% said their household finances are the same or better than last year vs. 68% a year ago.

And online shopping habits have firmed up, he said. D-FW shoppers said they are planning to spend 60% of their holiday budgets online.

About 77% of D-FW shoppers say they continue to be motivated by free shipping and are willing to wait almost a week for a package to arrive. Almost a third (31%) said they will pay an average of about $6 for same-day delivery but won't pay for delivery times of 3 to 7 days.

About 30% of shoppers are planning to use the buy-online-and-pick-up-in-store option, about the same as last year and slightly down from 38% in 2019.

Maybe they've learned that they don't even have to get out of the car: 26% of shoppers plan to use curbside pickup, down slightly from 29% last year but well above 2019, when only 16% said they would use the service. More stores have adopted curbside pickup, and more shoppers tried it during the pandemic.

AMERICAN OVERSIGHT

This year, Deloitte also asked the CEOs of 30 retail companies with annual sales of at least $1 billion to respond to a survey.

“They said there will be fewer promotions (discounts) and prices will be higher,” Loughry said.

Sounds like another reason to just shop early and buy what’s in stock.

Immigration/Border Security

Texas Sen. Ted Cruz Files Bill To Send Migrants To Martha's Vineyard, Other Coastal Cities
By Benjamin Wermund
San Antonio Express News

U.S. Sen. Ted Cruz has filed a bill to establish ports of entry in Martha’s Vineyard, Palo Alto, Calif., and other coastal cities, a bit of legislative trolling that the Texas Republican says is an effort to “alleviate the massive overload at the southern border by establishing new ports of entry in Democrat-led communities.”

The bill — a messaging effort unlikely to go far in the Democratic-led Congress — would direct the Homeland Security Department to transfer migrants from Texas border towns to 13 new ports of entry, including Cambridge, Mass., home of Harvard University, and Rehoboth Beach, Del., a regular vacation spot for President Joe Biden.

“If Washington Democrats had to endure even a fraction of the suffering South Texas families, farmers, ranchers and small businesses have had to face, our nation’s immigration laws would be enforced, the wall would be built and the Remain in Mexico policy would be reimplemented,” said Cruz, a member of the Senate Judiciary Committee.

The bill is the latest example of Cruz and other Republicans seeking to keep the spotlight on the U.S.-Mexico border, where federal officials have posted unprecedented numbers of encounters with migrants for much of this year. Biden has said he is working to rebuild an immigration system left in shambles by former President Donald Trump, while Republicans say he refuses to take the issue seriously.

Democrats were quick to pan Cruz’s bill. U.S. Rep. Bill Keating, a Massachusetts Democrat whose district includes Nantucket, another city that Cruz would target, called it a “lame political stunt.”

“Why is it that whenever Ted Cruz is facing a crisis in Texas, his mind seems to wander to vacation destinations?” Keating tweeted. “First it was Cancún, now it’s Nantucket and Martha’s Vineyard.”

Cruz drew national attention when he flew to Cancún, Mexico during the winter freeze that paralyzed the state last February.

Transportation

Hundreds Of American Airlines Regional Flight Attendants Vote To Strike, But Walkout Still Distant
By Kyle Arnold

AMERICAN OVERSIGHT

Dallas Morning News

Flight attendants at one of American Airlines' regional carriers voted unanimously to strike, setting up a showdown with the company over wages and benefits even though an actual walkout is still a distant possibility.

Piedmont employees represented by the Association of Flight Attendants have spent the last three years trying to negotiate a new contract with claims that starting flight attendants make less than $17,000 a year and 10-year veterans make only $28,000 a year.

The union said those talks stalled after the company offered a new contract with small pay increases and higher health premiums. Flight attendants would earn less under the proposed contract when pay and premiums are taken together, according to the union.

About 75% of the company's 350 flight attendants participated in the strike vote.

Piedmont Airlines, a wholly owned subsidiary of American Airlines, is based in Salisbury, Md., and is a key regional carrier that flies under the American Eagle flag.

"We are already paid less than our counterparts at other regional carriers, and far less than mainline flight attendants doing the same work at the American Airlines Group," said AFA Piedmont president Keturah Johnson in a statement.

Flight attendants and other airline workers are prohibited from striking by federal rules until they are given permission to do so by federal labor regulators. AFA members participated Thursday in informational pickets at Philadelphia International Airport.

It would still be months or longer before flight attendants at Piedmont could actually walk off the job and disrupt the company's flight operations. Airline employees and unions are under complex federal rules and workers must get permission from the National Mediation Board before being allowed to strike.

To do that, the union would need to prove to the mediation board that negotiations are at an impasse. The board could call for a 30-day "cooling-off period" before leading to a strike deadline.

In a statement, Piedmont said it's still working toward "getting a competitive contract."

"We are in agreement our team members deserve the best contract and we are committed to delivering that to them," Piedmont said in a statement. "We look forward to getting back to negotiations in November."

"We've seen in the last few months how delicate the aviation system is, and how much it depends on every worker," said AFA International president Sara Nelson in a statement. "Piedmont Flight Attendants want a fair deal, but if it takes a strike, we've got their backs across the industry."

Health Care

As Delta Wave Fades, Texas Children's Battles Fatigue - And A Troubling Chain Of Infections
By Nora Mishanec
Houston Chronicle

AMERICAN OVERSIGHT

Isaiah Gonzalez grimaced as the nurse approached his hospital bed, his small hands bound with surgical tape to safeguard the tubes delivering a steady flow of antibodies to his bloodstream. He squeezed his pink-stained eyelids shut as the masked nurse put a thermometer in his armpit to check whether his skyhigh fever had fallen. He was thinking of monkeys.

“I want to go to the zoo,” the 3-year-old said, reaching for his mother as his face twisted in distress.

It has taken all Isaiah’s powers of imagination to escape the confines of his bed in the intensive care unit at Texas Children’s Hospital. He is battling multisystem inflammatory syndrome in children, or MIS-C, a dangerous but poorly understood illness that arose with the coronavirus pandemic last year. Fevered and weak, the Bayview resident was hospitalized earlier this month as the inflammation attacked his heart, kidneys and blood vessels.

Hospitalizations like Isaiah’s were relatively rare throughout the COVID-19 pandemic. But as the delta tsunami recedes, it has left in its wake a troubling chain of infections among children too young to be vaccinated — and a deepening exhaustion among the health workers caring for them. The uncertainty about the coming months is adding to their fatigue, in a region where vaccination rates remain far below the levels required to stamp out community spread.

“Our resilience is not unlimited,” said Dr. Lara Shekerdemian, chief of critical care at Texas Children’s and the physician overseeing Isaiah’s treatment.

Shekerdemian and her staff are still reeling from the stress of the “surprise” summertime surge that sickened children at an alarming rate, inundating the five units devoted to intensive care at the nation’s largest pediatric hospital. Soft-spoken but formidable, with a gentle English accent, she leaned against a nurses’ station as she recalled recent months when patients waited in the hallways for an empty bed.

The hospital’s intensive care units are no longer jammed with young coronavirus patients, but MIS-C presents a new challenge, even as the virus appears to be in retreat. Of the many mysteries of the pandemic, the rise of MIS-C — a rare but treatable syndrome that typically affects school-aged children weeks after a COVID exposure — may be the most puzzling for pediatricians. More than 5,200 American children have been diagnosed with MIS-C since it was first observed at the beginning of the pandemic; 46 have died.

“We never thought, 20 months ago, that it would be like this,” said Shekerdemian.

The future of the pandemic, and how deeply it may affect the holiday season, depends, as ever, on the vagaries of viral mutation and human behavior. That’s according to Catherine Troisi, an infectious disease epidemiologist at UTHealth School of Public Health who studied HIV/AIDS before shifting her focus to coronavirus last year.

“Is a new variant going to arrive that is more infectious than delta?” Troisi said.

The answer, for now, appears to be no. The waning delta variant, which sickened children far more than previous strains, is still out-competing all other mutations.

More critical, she said, is whether mandates and other efforts aimed at vaccine hold-outs — some 30 percent of eligible Americans — will curb case counts before families gather at Thanksgiving and the winter holidays. Troisi is monitoring the data for signs of hope, both as an epidemiologist and as a grandmother who wants to visit her grandchildren at Christmastime.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000134

But vaccination rates among Texas teenagers remain stubbornly below 50 percent, even as many high schoolers return to their classrooms unmasked. That may be a worrying harbinger for what is to come when vaccines are approved for kids ages 5 to 11, Troisi said, as some parents remain hesitant despite public health messaging promoting the shots.

“A lot of it is in our control as a community,” she said.

While children suffered from severe COVID infections at a far lower rate than adults early on in the pandemic, the idea that kids like Isaiah are safe from the disease crumbled with the delta wave, blindsiding pediatric health care providers with an unprecedented crush of childhood cases. The persistence of MIS-C is compounding their anxiety about the coming months.

“We got a false sense of security,” said Nicole Leathers, an ICU nurse manager at Texas Children’s. “And then we had this delta variant followed by a bunch of MIS-C and we were like, ‘Oh wait, this is completely different.’”

When Gia Gonzalez, 19, fell ill with a mild case of COVID last month, she monitored her son Isaiah for signs of sickness; he never showed any, so she didn’t worry.

Then came the phone call every mother dreads.

On HoustonChronicle.com: New moms fight for their lives away from newborns, as Houston sees rise in pregnant COVID patients

She was finishing her shift at the Bayview Circle K convenience store where she works earlier this month when her mother called to say Isaiah was lethargic and running a high fever.

Gia rushed home to nurse her son through the night. He woke every few minutes to sip the diluted yellow Gatorade she put in his Spider-Man sippy cup. By morning, a vivid rash had bloomed across his eyes and cheeks. He was so weak he couldn’t move.

“It was scary,” Gia said. “He wouldn’t talk or eat.”

The listless boy in the bed bore no resemblance to the normally energetic 3-year-old Gia had raised: a shaggy-haired troublemaker who loved to jump on the bed and race around the backyard with his cousins. As Gia looked as her son, she felt fear and confusion. It had happened so fast.

Like the facial rash, the sudden onset of Isaiah’s symptoms is typical of the inflammatory syndrome, which can infect otherwise healthy children, even those who had no discernible signs of COVID. It usually begins two to three weeks after a COVID exposure.

When Isaiah became unresponsive the following afternoon, Gia called an ambulance. She packed a backpack of essentials, including the fraying Paw Patrol blanket that Isaiah carried everywhere. Paramedics transported them to the hospital, where he was admitted to the ICU.

Timing was on his side.

Had he fallen ill during the summer surge, he may have had to wait for a bed. At its peak in late August, nearly 100 children were hospitalized daily with COVID in the greater Houston area. Two months later, pediatric COVID hospitalizations have dropped by two-thirds. But those numbers do not capture the steady trickle of patients like Isaiah, who are nominally negative for the virus but suffering from its cruel after-effects.

AMERICAN OVERSIGHT
TX-SOS-22-0155-B-000135

Gia had never heard of MIS-C, so the doctors explained the diagnosis. They told her it is treatable with intravenous medicines to protect her son's heart, kidneys and other organs from lasting damage.

With braces taped to his hands to prevent the intravenous tubes from kinking, Isaiah barely slept their first night in the ICU. Gia lay awake beside him, their bodies fitting snugly in the child-sized hospital bed.

She is not the only one who has been losing sleep.

Even at a well-funded metroplitan hospital like Texas Children's, the relentless pace and erratic trajectory of the pandemic has left staffers fatigued and overworked. Leathers, the ICU nurse manager, said the experience has broken down the hierarchy between doctors and nurses and forced many to jettison the "brash, tough Navy Seal mentality" that used to predominate.

Leathers worked the pediatric ICU floors one recent Sunday, even though she wasn't on duty. It was a taxing shift. One patient died, another went into cardiac arrest. Before the pandemic, she might have brushed it off. But instead, Leathers called her manager to decompress.

"I cried the whole way home," Leathers said.

Isaiah was discharged from the ICU late Wednesday, but he is due back at the hospital for an echocardiogram in five days. The doctors must determine whether the inflammation has caused any lasting damage to his heart.

Gia hopes Isaiah recovers in time for his 4th birthday on Oct. 30. To celebrate, she is planning to take him trick-or-treating for Halloween. He will be dressed as Spider-Man.

Mother and son are looking forward to resuming their regular trips to the zoo, where they made bi-weekly visits throughout the pandemic.

It's been a while since they've seen the monkeys.

Paxton Sues Biden In Attempt To Revive Border Wall Construction
By Jasper Scherer
Houston Chronicle

Texas Attorney General Ken Paxton on Thursday sued the Biden administration for halting construction of the southern border wall, arguing that Department of Homeland

AMERICAN OVERSIGHT

Security officials must spend funds approved by Congress for the barrier under the Trump administration.

In a lawsuit filed in the U.S. District Court for the Southern District of Texas, Paxton joined with Missouri Attorney General Eric Schmitt — a fellow Republican — to contend that President Joe Biden ran afoul of the law when he issued an executive order pausing all wall construction on his first day in office.

The argument mirrors one from Senate Republicans who earlier this year requested that a nonpartisan watchdog agency review whether Biden's order had infringed upon Congress' "constitutional power of the purse." The Government Accountability Office found that Biden was authorized to delay the wall funding, though Paxton's lawsuit notes the agency also recommended that the White House submit a timeline for spending the funds.

"The President and his agencies may not unilaterally override duly enacted appropriations bills to fulfill a campaign promise," the lawsuit reads.

Paxton and Schmitt argue that Biden is violating the constitutional doctrine known as the separation of powers, which generally divides the federal government into three separate branches. They also contend that Biden violated a 1974 law that established restraints on when the president and other officials could withhold funds approved by Congress.

Biden, who vowed throughout his presidential campaign to stop building the wall, said upon signing his executive order that "a massive wall that spans the entire southern border is not a serious policy solution." In June, he diverted $2.2 billion in wall funding to the Department of Defense for military construction projects.

Texas Republicans, including Paxton and Gov. Greg Abbott, have been some of the loudest critics of Biden's border policies, blaming the White House for a surge in migrant encounters along the southern border.

Last month, the Legislature approved roughly $1 billion for Abbott's plan to continue building the wall, part of a $1.8 billion spending package that also funds a surge in state troopers to the border.

On HoustonChronicle.com: Texas lawmakers approve $1.8B for border security requested by Abbott

The federal government built about 450 miles of new barriers during the Trump administration, mostly in Arizona.

Land Commissioner George P. Bush, a Republican who is trying to unseat Paxton in the 2022 primary, filed a similar lawsuit in July — one that was also based on the argument that Congress had already approved wall funding.

AMERICAN OVERSIGHT

On Thursday, Bush senior adviser J.R. Hernandez responded to Paxton on Twitter, criticizing the attorney general for filing "the exact (same) lawsuit" as Bush.

"They say immitation (sic) is the most sincere form of flattery but maybe if you weren't so plagued with scandal you'd be more focused on the #bidenbordercrisis," Hernandez wrote.

Patterson, Who Led Alamo Transition, Appointed To State's 1836 Project Advisory Panel
By Scott Huddleston
San Antonio Express News

Jerry Patterson, who oversaw a 2011 transition at the Alamo as state land commissioner when the General Land Office replaced the Daughters of the Republic of Texas as the site's custodian, is one of three people appointed by Lt. Gov. Dan Patrick to serve on the nine-member 1836 Project Advisory Committee.

The project, named for the year Texas won independence from Mexico before becoming a U.S. state 10 years later, is touted in a news release from Patrick's office as an effort "to promote patriotic education and increase awareness of the Texas values that continue to stimulate boundless prosperity across this state." Some critics have said they're worried the committee, in its zeal, will omit controversial aspects of the state's history, including racial unrest and social and economic disparities.

Also appointed by Patrick were Sherry Sylvester of San Antonio, former senior adviser to Patrick and a Distinguished Senior Fellow at the Texas Public Policy Foundation, with a focus on Texas history and identity; and State Sen. Brandon Creighton, R-Conroe, an eighth-generation Texan.

The release noted that Patterson, of Austin, served as land commissioner and state senator, is a U.S. Marines veteran and was named 2007 Texan of the year by Celebrate Texas, a nonprofit group that promotes Texas independence events.

"The 1836 Project will play a key role in ensuring that future generations learn the truth about Texas history, and about the core values that have contributed to making Texas the greatest state in the country," Patrick said in a release.

Gov. Greg Abbott announced his three appointments to the panel last month: author-educator Carolina Castillo Crimm of Huntsville, retired as history professor emeritus at Sam Houston State University; history scholar Don Frazier of Kerrville, director of The Texas Center at Schreiner University and former professor at McMurry University in Abilene; and Kevin Roberts of Liberty Hill, CEO of the Texas Public Policy Foundation.

AMERICAN OVERSIGHT

The other three appointments, by House Speaker Dade Phelan, have not been announced.

Under House Bill 2497, which Abbott signed in June, the committee primarily is tasked with producing a pamphlet on the state's history for Texans receiving driver's licenses. It also will create a gubernatorial award to celebrate student knowledge of the state's history, and advise state agencies on how they relay historical facts in museums, landmarks, state parks and other areas.

But Patterson said the group's work will be focused on the pamphlet. Even though Patrick has taken a lead roll in securing state funding for an extensive public-private makeover of the Alamo that includes construction of a museum, Patterson said he doesn't foresee the panel's work having a direct impact on the Alamo project, whose key partners include the city of San Antonio and nonprofit Alamo Trust.

"The Alamo is part of our history and I can't see how anything we do will affect the Alamo in any significant way. The biggest problem we have is covering the wide expanse and lengthy narrative of Texas in a single pamphlet," Patterson said.

In the final years of his tenure as land commissioner from 2003 to January 2015, Patterson oversaw change at the Alamo, but retained the DRT as the site's operations contractor. He helped negotiate an Alamo exhibit of the state-owned "victory or death" letter signed by William Barret Travis; opened the first-ever Alamo exhibit devoted extensively to Tejano defenders and survivors of the 1836 battle; and helped negotiate the donation of artifacts to the Alamo by musician Phil Collins.

Patterson also promoted the concept of reclaiming as much of the Alamo's historic footprint as possible, and putting it under management of a "single authority."

[BACK TO TOP]

Texas Attorney General Ken Paxton Sues Biden Administration In Bid To Force Construction Of U.S.-Mexico Border Wall
By Uriel J. Garcia
Texas Tribune

Texas Attorney General Ken Paxton and his counterpart from Missouri filed a lawsuit on Thursday against the Biden administration, claiming it broke the law by halting border wall construction along the U.S.-Mexico border.

"The Biden administration's flat refusal to use funds that have already been set aside by Congress to build the border wall is not only illegal and unconstitutional," Paxton said, "It's also wrong, and it leaves states like Texas and Missouri footing the bill."

On Inauguration Day, Biden ordered a pause on all border wall construction and an assessment of federal government contracts already awarded for the project, calling

AMERICAN OVERSIGHT

former President Donald Trump's signature promise a "waste of money" and saying that it was "not a serious policy solution."

The lawsuit, filed against Biden and Department of Homeland Security Secretary Alejandro Mayorkas in the U.S. district court in Victoria, argues that Congress had set aside $1.375 billion to construct barriers along the southwest border and that the Biden administration doesn't have the constitutional authority to refuse to spend money that Congress authorized for border wall construction.

Trump's administration erected about 80 miles of new barrier before he left office, including 21 miles along the Texas-Mexico border.

The Department of Homeland Security didn't immediately respond to an emailed request for comment.

This lawsuit is the second filed by Paxton and Missouri Attorney General Eric Schmitt against the Biden administration.

Earlier this year, Paxton and Schmitt sued the Biden administration, claiming it had violated administrative law by ending the Migrant Protection Protocols, a Trump-era program unofficially called "remain in Mexico," which forces asylum-seeking migrants to stay in Mexico as their legal cases are pending. The lawsuit argued that human trafficking would increase if MPP was rescinded and that it would cause the two states financial harm.

District Judge Matthew J. Kacsmaryk agreed with Paxton and Schmitt; the Biden administration has said it will obey the judge's order and restart the policy next month.

Mexico's government had previously agreed to receive the migrants under the Trump administration, but it hasn't said if it will do the same for the Biden administration.

"We need to finish President Trump's wall," Schmitt said on Thursday during an El Paso news conference announcing the new lawsuit.

State News

Republicans Slam Rodney Ellis' Proposal To Redistrict Harris County, Claim It Will Create 'Chaos'
By Zach Despart
Houston Chronicle

The two Republican Harris County commissioners say a proposal by Democrats to redraw commissioner precinct boundaries will cut services and dilute the influence to of conservative residents.

AMERICAN OVERSIGHT

The proposed map by Precinct 1 Commissioner Rodney Ellis would significantly alter the shapes of precincts 3 and 4, the two represented by Republicans. Precinct 4 would arch along the county's northern edge from Katy to Baytown, while Precinct 3 would be entirely west of Loop 610.

New Harris County commissioner precinct boundaries proposed by Precinct 1 Commissioner Rodney Ellis would likely benefit Democrats.
New Harris County commissioner precinct boundaries proposed by Precinct 1 Commissioner Rodney Ellis would likely benefit Democrats.

Precinct 3 Commissioner Tom Ramsey called Ellis's map "the most corrupt plan I have ever seen my 45 years in doing work in Harris County."

"The objective is control," Ramsey said Thursday on the Michael Berry Show on radio. "The objective is to create the most chaos as possible, because (the Democrats) cannot stand the fact that 3 and 4 function very well. … It drives them crazy, so they want to blow it up."

Ramsey said he is particularly concerned that Precinct 4 would by far have the largest share of residents living in unincorporated areas, who rely on the county for services like parks and community centers. Ramsey predicted a strain on that precinct would lead to cutbacks.

Precinct 4 Commissioner Jack Cagle said the Ellis map, if approved, could allow Democrats to finally capture a fourth seat on Commissioners Court, which would allow them to set tax rates without any input from Republicans. In an email to constituents, Cagle predicted that would lead to future tax increases.

Cagle has proposed a map of his own. It largely keeps the current shapes of the precincts intact, while ceding parts of precincts 3 and 4 to precincts 1 and 2.

Commissioners Court redraws the four precinct boundaries after every decennial census. The process is needed to ensure each precinct has roughly the same population; precincts 3 and 4 grew much faster over the past decade, and, therefore, would lose some constituents.

Much as Republicans have done with Texas Legislature and U.S. House districts during the last two decades, the Democrats who control Harris County also can shift boundaries for their political advantage.

The highest political priority for county Democrats is to protect Precinct 2, which Adrian Garcia won by less than 1 percent in 2018. The Ellis proposal would transfer a corridor of Republican-leaning communities in northeast Harris County, including Huffman and

AMERICAN OVERSIGHT

Crosby, from Precinct 2 to Precinct 4. Garcia's precinct also would gain parts of heavily Democratic Precinct 1, including East Houston and a portion of Acres Homes.

Those changes, if approved, likely would help make Garcia's re-election bid next year much easier.

More than 100 residents testified at a public hearing Thursday on the redistricting proposals, mostly in opposition to the Ellis plan. Several said they oppose a precinct that stretches more than 50 miles from the west to east sides of the county.

"Harris County residents will be in grave danger in a hurricane as response teams will have to travel the distance from Katy to Baytown," said Precinct 3 resident Michelle Heinz.

Chris Daniel, a former Republican county district clerk, said it is more important for commissioner precincts to have sensible shapes than legislative districts because they also contain parks, community centers and trails. He cautioned against making significant changes to the current boundaries.

"These are lines that are very difficult to move because of infrastructure that's in place," Daniel said.

Precinct 3 resident Adrian Ozuna said he supported Ellis's proposal because it keeps minority communities like Sharpstown in a single precinct, a key goal of the Voting Rights Act. Abel Garza praised the Ellis plan because it places Aldine entirely in Precinct 1 instead of dividing the mostly Latino community into three precincts.

"There was a point in time where nobody wanted Aldine," Garza said. "We welcome any map where we can work with one commissioner instead of three. That way we know who to contact or, more importantly, who to yell at when things aren't getting done."

Some residents are tired of the politicking involved in drawing districts. Marc Anderson submitted a proposal calling for the county to be divided neatly into four quadrants, with Houston in the middle, and call it a day.

"Stop trying to carve it up in some weird way," he wrote in his proposal. "This should give each precinct a good mix of different communities and different demographics and would be fairly middle of the road politically."

Poor Texans Wait In Limbo As Dems Squabble In D.C.
By Robert Downen
Houston Chronicle

It was once a unifying policy for Democrats.

AMERICAN OVERSIGHT

But now, child tax credits are at the center of an increasingly bitter budget fight on Capitol Hill, a battle that will have profound implications for the millions of poor families in Harris County and Texas.

At issue are child tax credits that were expanded in March as part of the latest federal COVID-19 stimulus package.

The legislation upped the per-child credits from $2,000 to $3,600 per child under age 6 and from $2,000 to $3,000 for children older than 6.

The expansion also allowed families to receive some of the money in direct, monthly installments.

And, per Columbia University researchers, it also helped raise millions of children out of poverty just as the delta variant began to overwhelm hospitals, shutter businesses and, yet again, push millions of Americans into unemployment seemingly overnight.

About 1 in 6 American children live in poverty — one of the highest rates among all developed nations — and so it makes sense the widespread use and popularity of the child tax credit expansion.

In the four months since the program was opened, more than $61 billion has been allocated to American families in need, according to a report released last week by the U.S. Department of Treasury and Internal Revenue Service.

Texans have received about one-tenth of that money, with about $6.2 billion paid through roughly 3,600 credits — an average of roughly $444 per month, per child, according to the report.

Now, with the extension set to sunset at year's end, child tax credits are among a handful of policies that have left Congressional Democrats at an impasse as they try to pass an ambitious, budget bill of around $2 trillion that would, among things, extend the credits through 2025.

The budget proposal, once pegged at $3.5 trillion, is being scaled back to win over two moderate Democrats — West Virginia Sen. Joe Manchin and Arizona Sen. Krysten Sinema. With united Republican opposition, Democratic leaders need support from both to pass the bill in the evenly divided Senate.

President Joe Biden is reportedly considering extending the child tax credit expansion for just one year as a compromise to satisfy moderates. Manchin has proposed means-testing the program, which would shrink the number of eligible children by an estimated 37 million. Regardless of how the standoff shakes out, it will have real consequences for

AMERICAN OVERSIGHT

millions of low-income people in Texas and Harris County, where roughly 1 in 5 children live in poverty.

“That is hundreds of thousands of children in Harris County, one of the most prosperous counties in the most prosperous country in the world,” County Judge Lina Hidalgo said this week.

Texas was one of two dozen states that opted to end other COVID relief programs before they were set to expire in September. The move was favored by Republicans and some businesses who argued that the programs were keeping people out of the workforce — claims that have been questioned by economists and poverty researchers.

No wonder, then, that Harris County leaders have gone on the offensive while they can.

Last week, county commissioners approved $500,000 to fund outreach efforts to low-income families who may qualify for the child tax credits, but have been unable to navigate an application process that some have decried as confusing and arbitrary.

Hidalgo said the outreach efforts are part of a broader “paradigm shift” in poverty prevention.

Parents seeking the credits still have until Nov. 15 to apply for the program.

What happens after that? All bets are off — and all eyes are on two senators who can turn into reality what was once a Democratic Party pipedream.

[BACK TO TOP]

Texas Voters Will Decide Eight State Constitutional Amendments On Nov. 2. How Would They Impact You?
By Sami Sparber
Dallas Morning News

With early voting for the Nov. 2 election underway, Texas voters are deciding whether to approve eight changes to the state constitution, including two that stem from issues that arose from the state’s response COVID-19.

A majority of voters must support each of the proposed amendments, which were greenlit by the Legislature earlier this year, to put the changes on the books. Early voting runs through Oct 29.

Here’s what you need to know about how the proposed constitutional amendments could impact Texans and their communities.

Pandemic response

AMERICAN OVERSIGHT

Two of the proposed amendments respond to government restrictions that were imposed during the COVID-19 pandemic. Officials across the political spectrum have come under fire for their handling of the ongoing health crisis, whether it be over shutdowns or mask mandates.

Proposition 3 would prohibit any governmental entity from enacting any rule prohibiting or limiting religious services.

The proposed change, hailed by supporters as protecting religious freedom, comes after some places of worship were limited during pandemic lockdowns.

What you'll see on the ballot: "The constitutional amendment to prohibit this state or a political subdivision of this state from prohibiting or limiting religious services of religious organizations."

Proposition 6 would allow residents in nursing homes and similar long-term care facilities to designate an essential caregiver who could not be denied in-person visitation.

The proposed amendment responds to facility closures earlier in the pandemic, when residents were isolated from loved ones for months.

What you'll see on the ballot: "The constitutional amendment establishing a right for residents of certain facilities to designate an essential caregiver for in-person visitation."

Elections for judges
Proposition 4 would require judicial candidates to be Texas residents with a license to practice law in Texas, to be a practicing lawyer or judge for at least eight to 10 years before election and not have had their law license revoked or suspended during that time.

Supporters say the proposal is meant to ensure a higher quality judiciary. Critics worry the stricter requirements could exclude younger, more diverse lawyers from judicial appointments or races.

What you'll see on the ballot: "The constitutional amendment changing the eligibility requirements for a justice of the supreme court, a judge of the court of criminal appeals, a justice of a court of appeals, and a district judge."

Proposition 5 would allow the State Commission on Judicial Conduct to take complaints, conduct investigations and take other action against a candidate running for state judicial offices. The commission currently only handles officeholders, not candidates.

The lawmakers behind the proposed amendment said it seeks to "ensure that judicial elections are fair" by holding candidates and sitting judges to the same standards.

AMERICAN OVERSIGHT

What you'll see on the ballot: "The constitutional amendment providing additional powers to the State Commission on Judicial Conduct with respect to candidates for judicial office."

County infrastructure
Proposition 2 would authorize counties to issue bonds to fund transportation and infrastructure projects in neglected or underdeveloped areas. Cities can already issue these bonds, but not counties.

The amendment would allow counties to use increases in property tax revenue in the area to repay the bonds. Critics, such as the state Republican Party, argue the proposal would create more local debt.

What you'll see on the ballot: "The constitutional amendment authorizing a county to finance the development or redevelopment of transportation or infrastructure in unproductive, underdeveloped, or blighted areas in the county."

Other proposed amendments
Proposition 1 would allow the Professional Rodeo Cowboys Association and the Women's Professional Rodeo Association to hold charity raffles at rodeo events, much like Texas' professional sports teams do at their home games.

What you'll see on the ballot: "The constitutional amendment authorizing the professional sports team charitable foundations of organizations sanctioned by the Professional Rodeo Cowboys Association or the Women's Professional Rodeo Association to conduct charitable raffles at rodeo venues."

Proposition 7 would allow a surviving spouse of a person who is disabled and receiving homestead exemptions on school district property taxes to continue to take advantage of the exemption, as long as the surviving spouse is 55 or older.

What you'll see on the ballot: "The constitutional amendment to allow the surviving spouse of a person who is disabled to receive a limitation on the school district ad valorem taxes on the spouse's residence homestead if the spouse is 55 years of age or older at the time of the person's death."

Proposition 8 would extend tax exemptions to a surviving spouse of a member of the military who dies because of any injuries sustained during their service, whether it is related to combat or not.

What you'll see on the ballot: "The constitutional amendment authorizing the legislature to provide for an exemption from ad valorem taxation of all or part of the market value of the residence homestead of the surviving spouse of a member of the armed services of the United States who is killed or fatally injured in the line of duty."

AMERICAN OVERSIGHT

Education

Allen ISD Parents Refile Mask Mandate Lawsuit, Adding McKinney ISD, TEA As Defendants
By Francesca D'Annunzio
Dallas Morning News

An attorney representing parents in Allen ISD refiled a federal civil rights lawsuit today over their school district's lack of a mask mandate, adding the parents as plaintiffs to a lawsuit originally filed late last month against Frisco ISD, Lago Vista ISD, Hurst-Euless-Bedford ISD and Grapevine-Colleyville ISD.

The amended complaint — filed in U.S. district court in the Western District of Texas instead of the Eastern District, as it was at first, adds three defendants: the Texas Education Agency, McKinney ISD and Tomball ISD, in the Houston suburbs.

The lawsuit seeks a temporary restraining order and permanent injunction that, if successful, would require the Texas Education Agency to adhere to Centers for Disease Control and Prevention guidelines for all the districts named in the case — including universal masking.

The change of venue means that instead of receiving a ruling in the Eastern District from U.S. District Judge Sean Jordan, who was initially assigned to the case, the lawsuit will be heard by U.S. District Judge Robert Pitman.

Jordan was nominated by a Republican, former President Donald Trump, and Pitman was nominated by former President Barack Obama, a Democrat.

Allen ISD said in a prepared statement late Thursday that the plaintiffs' attorney, Martin Cirkiel, is "forum shopping" — or choosing to file in a court that will treat the lawsuit's claims more favorably.

"Once again, this process will cost Allen ISD considerable man hours and legal fees to defend itself in court," the statement read.

The district also said it would continue to follow its COVID-19 safety procedures "that have resulted in low active case rates," of 0.16% of the student population.

Cirkiel, McKinney ISD and the Texas Education Agency did not immediately respond to requests for comment.

Previous lawsuit
Allen ISD parents dropped their original civil rights lawsuit two weeks ago, after Jordan denied their request for a temporary restraining order against the school district. He had not yet ruled on a permanent injunction.

AMERICAN OVERSIGHT

Officials said the district has already spent tens of thousands of dollars defending the suit.

“To hear the AISD lawyers argue they don’t have a legal duty to protect our kids from other kids really shocked and hurt me,” Therissa Grefsrud, a district parent named in the lawsuit, said after the first hearing in early October.

“And then to see them essentially light a cigar and claim victory … there aren’t winners in this COVID-19 pandemic.”

Allen ISD said in a prepared statement after the denial that it was an “important victory” and that its strong case in court likely influenced the parents to drop the case, but their attorney denied that.

“This decision was not made because we feel AISD is providing reasonable COVID safeguards based on medical guidance. This decision was not made because we feel AISD has a strong legal case,” their attorney’s office said in a prepared statement at the time.

The federal class-action lawsuit filed on behalf of more than 1,000 parents in early September alleged that the Allen school district’s refusal to require masks violated students’ constitutional rights to life, liberty and the pursuit of happiness.

Other COVID-19 protocol lawsuits filed in Texas and other states are alleging discrimination against disabled students. But the legal complaints filed against North Texas districts allege a violation of the constitutional rights of all students, according to a statement from the plaintiffs’ law firm.

Allen ISD and many other parents in the district dispute the lawsuit’s claim that not requiring masks — which public-health experts say can slow the virus’ spread — is a violation of constitutional rights.

“The District, however, strongly disagrees that the students’ constitutional rights have been violated by leaving masks as an option for students and staff,” spokesman David Hicks said in a prepared statement to The Dallas Morning News last month.

Allen parents previously told The News that they felt legal action was the last recourse they had to keep their children safe. In the weeks leading up to the lawsuit’s filing, parents protested outside school board meetings, sent Allen ISD a grievance letter with hundreds of signatures and pleaded with the district to change its policy.

Parents said the litigation wasn’t about the money, but about health and safety — especially for kids too young to be vaccinated.

AMERICAN OVERSIGHT

"I want my kids to be in a safe learning environment," Grefsrud, a registered nurse specializing in infection prevention and epidemiology, said last month. "And I think that all of our kids in this community deserve a safe learning environment."

COVID-19 cases among children
New admissions for coronavirus patients are declining in the four most populous North Texas counties, according to UT Southwestern Medical Center, and city data show that Allen's active cases of the virus have decreased for six consecutive weeks.

But a disproportionate number of severe cases are occurring among children.

During the most recent COVID-19 surge over the summer, pediatric COVID-19 hospitalizations were seen at unprecedented levels, peaking in early September. Providers said they saw an uptick in kids testing positive for the disease in August and September compared with prior months.

As of Oct. 21, Allen ISD has at least 40 active cases of COVID-19, according to the district's dashboard. Half of the cases are in elementary school students, data show.

[BACK TO TOP]

With Texans Falling Short Of College Degree Goals, State Prioritizes Credentials, Earnings
By Megan Menchaca
Austin American Statesman

Texas is the first state to set higher education goals connected directly with the earnings related to postsecondary credentials in new guidelines set by the Texas Higher Education Coordinating Board.

The board, which oversees all higher education in the state, unanimously approved changes to its so-called 60x30 plan that would increase its focus on adult learners, prioritize "credentials of value" and give college students equitable access to information and resources.

The primary goal of the initial 60x30 plan was for at least 60 percent of Texans ages 25-34 obtain a certificate or degree by 2030. The plan, adopted in 2015, also aimed to have college graduates complete programs with marketable skills and to keep undergraduate student loan debt from exceeding 60 percent of first-year wages by 2030.
The board updated the primary goal to track "credentials of value" obtained by young Texans in addition to certificate or degrees during its quarterly meeting on Thursday. It also will be monitoring the percent of Texans ages 35-64 who obtain certificates, degrees or credentials of value by 2030 and collect more data on the finances associated with those credentials, such as median earnings and net cost of attendance.

AMERICAN OVERSIGHT

Melissa Henderson, the board's associate commissioner for strategic partnerships, said credentials of value can include degrees and certificates along with badges, apprenticeships and industry certifications. Along with the typical degrees and certificates, she said these credentials help students establish a path into the workforce.

"We've already laid a strong foundation for the Texas workforce over the past two decades by increasing postsecondary attainment," Henderson said. "However, the modern economy demands more that we award credentials that offer purpose in the economy, value in the labor market and opportunity for a good job and meaningful career."

The change comes as Harrison Keller, the Texas commissioner of higher education, acknowledges that the board was not on track to meet its primary 60x30 goal in the next nine years. About 44.5% of Texans aged between 25 to 34 obtained a certificate or degree in 2019, and the state is currently forecast to grow that number to approximately 54.5% by 2030, according to data presented at the meeting.

"We're going to have to double down on our engagement and enrollment as students," Keller said. "We're particularly going to have to work with our institutions on having more flexible short-term credentials that are valuable for individuals and aligned with current emergent workforce needs."

As part of an effort to make information more accessible, the board plans to publish data in the future about the career trajectories and earnings associated with different types of credentials. The board is also working with the Texas Workforce Commission to create a state credential database with a list of available credentials, Keller said.

"A lot of folks told us .. was that while cost was a barrier (in pursuing credentials), on the same magnitude were issues related to advising," Keller said. "Folks might know that they might need some additional training, some additional education to advance in their careers, but they weren't sure what kind of education they should pursue or how that might lead to a better job."

The board approved plans to track the percentage of graduates with "no or low student debt" related to their potential earnings based on the credentials they earn. Nearly 40 of Texas college students had student debt during the 2019-20 academic year, according to a report on student financial aid in Texas higher education.

Keller said two students who graduate from college might have the same amount of debt, but they could have different projected earnings based on the degree they graduate with. He said if the state doesn't maintain or improve its commitment to need-based financial aid, more students could have high and unsustainable levels of debt when they complete their credentials.

"Included in that notion of (measuring) high debt or no debt also is an emphasis on the shared responsibility among the students and their families, the institutions and also the

AMERICAN OVERSIGHT

state of Texas, and ensuring that these higher education credentials are going to be accessible and affordable," Keller said.

Henderson said the COVID-19 pandemic had demonstrated how quickly specific jobs and marketable skills can change, and so college credentials must propel graduates into careers that equip them for their future while also providing greater economic mobility and low student debt.

"Manageable student debt is essential to expand economic mobility for historically underserved populations who have often had the greatest means that the least access to higher education and support services," Henderson said. "This combination of increased value and economic mobility for students also translates into greater economic prosperity."

ACLU Of Texas Sues Houston-Area School District Over Gender-Based Dress Code's Long-Hair Policy
By Allyson Waller
Texas Tribune

The American Civil Liberties Union of Texas is suing a Houston-area school district over a dress code policy it says has led to multiple students being disciplined for having long hair.

Plaintiffs in the lawsuit include six boys and a nonbinary student ages 7-17 from Magnolia Independent School District. According to the lawsuit, which was filed in federal district court Thursday morning, the Magnolia ISD gender-based policy "imposed immense and irreparable harm" on the students, some of whom claim they have worn long hair for years while attending school in the district without any repercussions.

The lawsuit says the students have been threatened with or sent to in-school suspension for weeks at a time; some were placed in a "disciplinary alternative education program," leading three of them to unenroll from the school district. The suit also states that while the plaintiffs have been disciplined for the length of their hair, other students with long hair, such as those on high school football teams, have not faced discipline.

"To be kicked out, pushed out, of school entirely simply because of their gender and their hair is really unconscionable," ACLU of Texas staff attorney Brian Klosterboer said.

Klosterboer said the ACLU warned Magnolia ISD numerous times about how its dress code policy's gender-specific requirements violate equal protection under the 14th Amendment and Title IX, which prohibits discrimination in education institutions on the basis of sex.

AMERICAN OVERSIGHT

In a statement, Magnolia ISD disagreed with the ACLU's claims and said it was reviewing “the lawsuit with its legal counsel and looks forward to the opportunity to respond to the Court.”

“This system of differentiated dress and grooming standards have been affirmed by courts and does not inhibit equal access to educational opportunities under Title IX,” the district said. “The rules are included in the student handbook each year and are similar to the codes of approximately half of the public school districts in Texas.”

In a letter sent to the district in August, the ACLU of Texas said it filed a grievance in 2019 on behalf of a Magnolia ISD parent who said her son was told to cut his hair or he’d be sent to in-school suspension. The letter also cited reports the ACLU of Texas received about students repeatedly being threatened with disciplinary action or being suspended for having long hair.

Danielle Miller, whose 11-year-old child is nonbinary and a plaintiff in the lawsuit against the district, said she received a phone call from her child’s school at the beginning of this school year and was told that her child would have to cut their hair. The Texas Tribune does not disclose children’s names for privacy reasons.

Miller said her child was “just in absolute devastation and tears” when she told them they would have to cut their hair.

“... Based on [my child’s] reaction and how harsh and traumatized they were, I realized that we weren’t going to be cutting [their] hair,” Miller said.

Miller’s child was placed in in-school suspension for nine days, she said. The suspension was postponed during a 60-day window to appeal the decision, which has almost run its course, Miller said.

Miller said her child has had long hair for a couple of years and that their hair length had never been a problem before.

“I have no idea what changed,” Miller said. “[The district is] not saying anything, they’re not responding to anybody in the community about it.”

The district said its administration and board of trustees have heard from a small group of parents about concerns over the dress code policy, and they “are currently in the process of considering parent grievances on this subject matter.”

According to Magnolia ISD’s 2021-22 student handbook, hair must “be no longer than the bottom of a dress shirt collar, bottom of the ear, and out of the eyes for male students.” Hair also cannot “be pinned up in any fashion” or “worn in a ponytail or bun for male students.”

AMERICAN OVERSIGHT

However, the ACLU argues many of the plaintiffs have worn long hair for years while enrolled in Magnolia ISD and have not faced any discipline until this year. Klosterboer said some school districts in Texas tend to rely on "old and outdated case law" as the basis for their dress code policies.

Another plaintiff, a 9-year-old Latino student identified in the lawsuit as A.C., wears long hair that he keeps in a ponytail and out of his face. His family was told on the first day of school this year that he would need to cut his hair or be sent to in-school suspension, the lawsuit says. His mother said many men in A.C.'s family wear long hair, including his dad and uncle. A.C. did not cut his hair and was placed in in-school suspension for five weeks, where he was separated from other students and wasn't able to attend his regular classes.

In September, he was sent to a "disciplinary alternative education program" outside of school for seven weeks, where he faced potentially harsher punishment. According to the lawsuit, students who don't comply with the school district's hair length policy and are sent to the alternative education program may be required to have a parent sit in class with them, go to before- or after-school detention, or lose their desk, among other measures.

This month, A.C.'s family unenrolled him from the district. However, the suit says his placement in an alternative education program has made it difficult for him to enroll in another district and he is now being home-schooled.

"Magnolia ISD has harshly punished my son and driven him out of school entirely because he is a boy with long hair. ... The district needs to stop harming our children," Azucena Laredo, A.C.'s mother, said in a statement.

In 2020, a federal judge granted two Black students from a Houston-area school district temporary relief after they were told they would have to cut their hair, which they wore in dreadlocks, to abide by district dress code policy. The case, which caught national attention, also landed on the radar of Texas lawmakers, who introduced their own version of the CROWN Act, legislation that would prohibit hair discrimination based on hair texture and protective styles that are usually associated with race. The legislation, House Bill 392, advanced out of committee during the regular session but was not taken up on the House floor for a vote.

Outside of Texas, federal courts have ruled in cases from Indiana and North Carolina that gender-specific dress codes could be linked to gender discrimination under federal law, according to the ACLU and the Texas Association of School Boards.

Energy

Your Gasoline, Natural Gas And Electric Bills Are All Going Up This Winter

AMERICAN OVERSIGHT

By Marcy de Luna
Houston Chronicle

Energy prices are climbing across the board, squeezing households already paying more for gasoline, natural gas and electricity and threatening to slow economic recovery that depends on consumer spending.

Gasoline prices are running more than $1 higher than a year ago. Natural gas prices have more than doubled, surging by one-third in just the last month. Average retail electricity prices are up about 50 percent. With winter heating season yet to come, analysts are warning consumers to brace for even higher prices — particularly if colder-than-expected weather adds to demand for natural gas, heating oil and electricity.

The surge in energy costs is forcing difficult choices for many families as they juggle bills for rent, food and utilities. At Love Network, a Baytown a nonprofit that assists low-income people, the number of applicants seeking help paying utility bills has already jumped nearly 60 percent in October, to 550 in the first three weeks of the month from 350 in all of September.

“I’ve had clients say they have to choose between paying their light bill, water bill or rent,” said program manager Brittnay Joseph.

U.S. consumers were paying 25 percent more for energy in September than a year earlier, the Labor Department reported, and energy costs might be taking an even bigger bite out of Houston household budgets. Energy prices jumped 35 percent from a year earlier in August, the most recent regional data available, according to the Labor Department.

Ada Gonzales, 66, said she can barely cover the $900 a month rent for her small home near Baytown with the $10.50 an hour she earns at a bakery, and the prospects of paying even more for heat and electricity makes her worry that she might have to cut back on food, clothes or medicine. She estimates she is already paying $55 more a month on gasoline to get to work, which has forced her to cut back on items on her grocery list such as paper towels.

“I am having problems keeping a roof over my head let alone staying warm this winter,” Gonzales said. “I live on a small budget. It is a battle to survive.”

End of cheap energy?
The surge in prices could signal that an era of cheap energy is over, analysts said. The reasons are straightforward. Energy demand is soaring as the global economy emerges from the pandemic, but supplies are not keeping up.

Oil and gas companies, under pressure from shareholders to deliver higher profits, have cut spending on new oil and gas developments and ramped up production cautiously after two oil busts in five years. Investors, eyeing the energy transition, are reluctant to devote capital to oil and gas projects that could become obsolete before they pay off. Renewable

AMERICAN OVERSIGHT

sources such as wind and solar are advancing rapidly, but are not yet able to fill all the gaps.

“We need to transition to cleaner sources of energy,” said Patrick Jankowski, an economist at the Greater Houston Partnership, a business-financed economic development group. “But this illustrates how painful that transition is going to be both financially and physically if people find themselves in houses where they can't afford to turn the thermostat up and be as warm as they would like.”

The transition also could be painful for the broader economy, which depends on consumer spending for about 70 percent of economic activity. Economists often compare rising energy prices to taxes — unavoidable costs that reduce discretionary spending on goods and services from electronics to new cars to restaurant meals.

Moody’s Analytics, the economic research arm of the bond rating agency, estimates that every $1 increase in a barrel of crude oil drains $3 billion from the pockets of American consumers, and crude prices have risen about $40 a barrel to more than $80 over the past year. In the fourth quarter alone, consumers will spend $28 billion more on energy than they did during that same period in 2020, according to Moody’s.

“It is a big change from last winter,” said Chris Lafakis, an energy economist at Moody's Analytics. “It's going to drain consumer spending.”

Rising energy prices can also spark broader inflation as businesses pass along higher costs of transportation, production and materials to consumers, further eroding household’s spending power and potentially spurring the Federal Reserve to boost interest rates to slow the economy and ease price pressures, with implications for rate-sensitive industries such as housing and autos. Many of the recessions in the post-World War II era were caused by the Fed raising rates to squeeze inflation from the economy.

“Almost every household item that we have, from cereal to bathroom tissue, is made using energy sources,” said Ramanan Krishnamoorti, chief energy officer at the University of Houston. “That can quickly increase prices on the shelves.”

Pinched at the pump

Gasoline is one of the most visible indicators of rising energy costs. Gasoline prices, updated almost daily on gas station signs, have climbed to seven-year highs, up more than $1 a gallon over the past year to an average of $2.85 in Houston and $3.30 nationally, according to the fuel-price tracking service GasBuddy.

And they are likely to climb as global energy demand squeezes oil markets and pushes the price of crude, the major component of gasoline, even higher, said Patrick DeHaan, senior petroleum analyst at GasBuddy. Adding to the pressure are looming natural gas shortages in Europe and Asia, which are leading power plants, factories and other industrial customers to switch to coal and petroleum fuels, increasing demand and prices.

AMERICAN OVERSIGHT

DeHaan said there are too many variables — including how long OPEC and its allies will restrict production — to forecast how high gasoline prices might go. But, he added, "We're especially susceptible right now to any supply disruptions because oil demand is very strong. I'm pessimistic about U.S. gasoline prices.

Aaron Armstrong, a junior studying accounting at Prairie View A&M, estimates his spending on gasoline to commute to a part-time job at a Kohl's department store has risen 20 percent to about $60 per month, making a tight budget even tighter. With higher energy costs eating into the earnings he uses to help cover college expenses and rent, he worries he'll have to cut spending on books or even groceries.

Armstrong said he is looking to work more hours to help make ends meet, but that presents another problem.

"I'll have to spend more money on gas," Armstrong said.

The other gas

For much of the past few years, natural gas, a byproduct of oil drilling, was so cheap that it was more economical for producers to just burn the gas away than pay the costs of transporting it.

Those days are gone. The spot market price for natural gas, which spent most of last year below, $2 per million British thermal units, has soared above $5 per million Btus and is projected to average nearly $6 over the next few months, according to Energy Departments. U.S. households are forecast to spend 30 percent more on natural gas this winter compared to last year's heating costs, the Energy Department said.

Several factors have contributed to dramatic turnaround in prices. Global demand is strong and growing, not only because of the economic recovery, but also because nations are shifting power generation and industrial processes to cleaner-burning natural gas from coal. U.S. exports of liquefied natural gas tripled in the first six months of the year to an average of 9.6 billion cubic feet per day from 2.8 billion during the same period in 2020.

U.S. natural gas production, meanwhile, has stayed flat at about 91.5 billion cubic feet per day. Heading into the winter, natural gas stockpiles are running about 5 percent below average for this time of year.

Natural gas rates charged by the Houston utility CenterPoint on recent bills are nearly 30 percent higher than a year ago, according to filings with the Texas Railroad Commission, which regulates natural gas utilities. The rates are the pass-through costs of gas purchased by CenterPoint and separate from the utility's distribution fees. The cost of natural gas accounts for about half of monthly bills.

Power connections

Natural gas-fired power plants generate about half the electricity in Texas and the country, so power prices are inevitably tied to gas prices. And they, too, are rising.

AMERICAN OVERSIGHT

When Texas consumers get hit with higher electricity prices will largely depend on when their retail contracts end, but prices advertised on the state's electricity shopping website Power to Choose are up 50 percent to an average of 12 cents per kilowatt hour from about 8 cents a year ago, according to Paul Paras, co-founder of the Houston electricity shopping service Real Simple Energy

In addition, Texas electric utilities received approval from regulators to increase their distribution fees by a penny per kilowatt hour as of Sept. 1. That would add $15 a month to the bill of a household using 1,500 kilowatt hours.

Houston resident Eric Oliver, a 24-year-old mental health technician, estimates he spends about $180 a month for gasoline and $155 per month on utilities for his two-bedroom apartment. With his energy bills increasing, Oliver said he'll have to reduce other spending, like going out to a restaurant or the movies, and try to cut back driving, except to go to work.

"I am in my first apartment and this is my first time paying my own bills," he said. "This affects how I live my life. Things will be tight budget wise."

Texas Power Plants Must Make 'Best Efforts' To Fix Problems That Led To Electric Grid Failure
Dallas Morning News

Operators of power plants and transmission lines that are part of the Texas electric grid have until Dec. 1 to make their "best efforts" to fix known problems that led to failures during last February's deadly freeze and to implement decade-old winterization recommendations that state regulators largely disregarded until this year.

That's the crux of new rules approved Thursday by the Texas Public Utility Commission — rules that the agency says will boost the grid's resiliency heading into winter, which starts in about eight weeks.

Under the rules, electric companies will be required to document that they have taken certain winterization measures — but they won't be penalized if they suffer weather-related failures or outages.

Still, members of the utility commission called the new rules a step toward greater oversight, because Texas previously had no winterization requirements. They also said "more robust and year-round preparation standards" are being developed — in conjunction with a comprehensive state weather study — although those standards won't be in place anytime soon.

AMERICAN OVERSIGHT

The rules approved Thursday are "operational standards to be ready for this winter," said Peter Lake, chairman of the utility commission. They'll ensure that "the physical resiliency of our grid is vastly improved this winter over last winter."

But not everyone sees it that way.

"Really, at the end of the day, it just feels like they are telling operators — 'Go out and do your best,'" said Adrian Shelley with the watchdog group Public Citizen. "You would hope that (plant operators and distribution companies) were already doing their best."

Meanwhile, there's a large potential hole in the effort to get the state's power grid ready for this winter that is beyond the Public Utility Commission's purview.

The Texas Railroad Commission, which regulates the natural gas industry, has yet to put in place any new winterization mandates for wellheads and pipelines, and it also is considering enacting a rule that would allow their operators to opt out of having them designated as "critical infrastructure" within the electricity supply chain that must winterize — simply by paying a $150 application fee.

The railroad commission is taking public comment on its proposed critical-infrastructure rule until Nov. 1, with final adoption expected by Dec. 1. But a committee of state lawmakers recently excoriated the agency for it, so the rule's fate appears to be up in the air.

"You sound like you missed the urgency message" to safeguard the grid, state Sen. John Whitmire, D-Houston, told Wei Wang, executive director of the railroad commission, during a hearing three weeks ago. "That is unsatisfactory. You have unified this body" in anger at the agency.

"This is the Achilles heel right now" in grid preparations, state Sen. Lois Kolkhorst, R-Brenham, said during the same hearing. Natural gas suppliers "were as much of the problem as everything else" during the February calamity.

A lack of consistent natural gas supply for gas-fueled power plants was among the top causes of the widespread and lengthy power outages during February's massive failure of the state's electric grid, according to a preliminary report last month from the Federal Energy Regulatory Commission — coming in second behind a lack of weatherization at power plants of all types.

But the natural gas industry has been scrambling since that disaster to avoid blame and the potential for increased regulation, paying for a report issued in April that largely absolved it of responsibility.

At least 210 Texans died for reasons related to the severe winter freeze in February — when the power grid faltered just when needed most — and property damage has been estimated at more than $200 billion.

AMERICAN OVERSIGHT

Under the rules for this winter approved Thursday by the Public Utility Commission, operators of power plants and transmission lines have the ability to assert a "good cause exception" to certain of the new winterization requirements — meaning they essentially can apply to opt out.

In most cases, however, the exceptions granted to them would be temporary, and they would have to provide documentation of specific causes for their noncompliance and a schedule to come into compliance. Regulators also would have to sign off on the exceptions.

Overall, the winterization measures that power plants and transmission companies now must take — or at least make their best efforts to put in place — are largely those that were recommended in two reports from nearly 10 years ago, after a winter storm in 2011 caused widespread power outages on the Texas grid.

Those decade-old recommendations have never before been made into requirements, either by Texas lawmakers or state regulators. They include such things as heat tracing to protect pipes from the cold, insulation of critical parts and installation of wind breaks or enclosures for cold-sensitive equipment and sensors, as well as efforts to ensure "onsite fuel security."

The "highest-ranking representative, official, or officer" with authority over the particular plant or transmission facility also will have to provide a notarized statement that the actions have been taken. In addition, the operator of the state's power grid — the Electric Reliability Council of Texas — has the authority to inspect all facilities with 48 hours' notice.

Some power plant operators say they haven't been waiting for the new rules to get their facilities ready for the upcoming winter.

"We're voluntarily hardening our power generation fleet to withstand a once-in-a-100-year event like (the February winter storms), and we're going beyond the 2011 NERC recommendations," said Vistra Corp. spokeswoman Meranda Cohn, referring to the report by the North American Electric Reliability Corp.

Still, Public Citizen's Shelley called the new rules weak and said he's concerned the grid overall remains extremely vulnerable.

The new rules are "better than nothing," he said. "But if we have another storm at the same intensity as (the one in February), then I think people should be very concerned."

Pandemic Habits Show Up In Deloitte Survey Of Dallas-Fort Worth Holiday Shoppers

By Maria Halkias
Dallas Morning News

Dallas-Fort Worth residents have started their holiday shopping earlier and are worried about online orders arriving on time.

The pandemic overhang has sealed some shopping habits while other patterns were temporary, according to results of a Deloitte survey of D-FW shoppers released on Friday.

The survey results track some popular themes of the stay-at-home economy that dominated last year. Pet spending is down this year and shoppers say they plan to spend more on clothing than they did last year when few wardrobes needed updating just to stay home.

The Deloitte survey is the second one released this week that says people are less interested in shopping on Thanksgiving, Black Friday and Cyber Monday. Adobe Analytics' new forecast released Wednesday found the same trend.

Overall, 41% of respondents and 43% of low-income shoppers said they aren't shopping on the traditional big days, said Sam Loughry, Deloitte's retail leader in the Dallas office.

That's up significantly — by about 12 percentage points — from last year.

Last year, Black Friday was pretty dead in stores as the crowds stayed home due to the pandemic and retailers accommodated them instead with deals online.

And this year, the lack of interest in the Black Friday and Cyber Monday may partly be because holiday shopping is starting earlier. About 63% said they're going to shop before Thanksgiving, even earlier than last year, due to supply chain worries, Loughry said.

Almost half of shoppers are anticipating out-of-stock items and believe the hardest-hit categories will be electronics (53%) and toys (37%).

But spending in D-FW is holding up, Loughry said. On average, local households said they will spend $1,586, or 7% higher than the national average of $1,463. Local residents plan to spend about 4% less than last year when they doubled down on items for the home, but the forecast is up 11% from 2019.

"Folks in D-FW said their financial situation has held steady more than the national average and they plan to spend more on gifts this year than last year," Loughry said. About 78% said their household finances are the same or better than last year vs. 68% a year ago.

AMERICAN OVERSIGHT

And online shopping habits have firmed up, he said. D-FW shoppers said they are planning to spend 60% of their holiday budgets online.

About 77% of D-FW shoppers say they continue to be motivated by free shipping and are willing to wait almost a week for a package to arrive. Almost a third (31%) said they will pay an average of about $6 for same-day delivery but won't pay for delivery times of 3 to 7 days.

About 30% of shoppers are planning to use the buy-online-and-pick-up-in-store option, about the same as last year and slightly down from 38% in 2019.

Maybe they've learned that they don't even have to get out of the car: 26% of shoppers plan to use curbside pickup, down slightly from 29% last year but well above 2019, when only 16% said they would use the service. More stores have adopted curbside pickup, and more shoppers tried it during the pandemic.

This year, Deloitte also asked the CEOs of 30 retail companies with annual sales of at least $1 billion to respond to a survey.

"They said there will be fewer promotions (discounts) and prices will be higher," Loughry said.

Sounds like another reason to just shop early and buy what's in stock.

Immigration/Border Security

Texas Sen. Ted Cruz Files Bill To Send Migrants To Martha's Vineyard, Other Coastal Cities
By Benjamin Wermund
San Antonio Express News

U.S. Sen. Ted Cruz has filed a bill to establish ports of entry in Martha's Vineyard, Palo Alto, Calif., and other coastal cities, a bit of legislative trolling that the Texas Republican says is an effort to "alleviate the massive overload at the southern border by establishing new ports of entry in Democrat-led communities."

The bill — a messaging effort unlikely to go far in the Democratic-led Congress — would direct the Homeland Security Department to transfer migrants from Texas border towns to 13 new ports of entry, including Cambridge, Mass., home of Harvard University, and Rehoboth Beach, Del., a regular vacation spot for President Joe Biden.

"If Washington Democrats had to endure even a fraction of the suffering South Texas families, farmers, ranchers and small businesses have had to face, our nation's immigration laws would be enforced, the wall would be built and the Remain in Mexico

AMERICAN OVERSIGHT

policy would be reimplemented," said Cruz, a member of the Senate Judiciary Committee.

The bill is the latest example of Cruz and other Republicans seeking to keep the spotlight on the U.S.-Mexico border, where federal officials have posted unprecedented numbers of encounters with migrants for much of this year. Biden has said he is working to rebuild an immigration system left in shambles by former President Donald Trump, while Republicans say he refuses to take the issue seriously.

Democrats were quick to pan Cruz's bill. U.S. Rep. Bill Keating, a Massachusetts Democrat whose district includes Nantucket, another city that Cruz would target, called it a "lame political stunt."

"Why is it that whenever Ted Cruz is facing a crisis in Texas, his mind seems to wander to vacation destinations?" Keating tweeted. "First it was Cancún, now it's Nantucket and Martha's Vineyard."

Cruz drew national attention when he flew to Cancún, Mexico during the winter freeze that paralyzed the state last February.

Transportation

Hundreds Of American Airlines Regional Flight Attendants Vote To Strike, But Walkout Still Distant
By Kyle Arnold
Dallas Morning News

Flight attendants at one of American Airlines' regional carriers voted unanimously to strike, setting up a showdown with the company over wages and benefits even though an actual walkout is still a distant possibility.

Piedmont employees represented by the Association of Flight Attendants have spent the last three years trying to negotiate a new contract with claims that starting flight attendants make less than $17,000 a year and 10-year veterans make only $28,000 a year.

The union said those talks stalled after the company offered a new contract with small pay increases and higher health premiums. Flight attendants would earn less under the proposed contract when pay and premiums are taken together, according to the union.

About 75% of the company's 350 flight attendants participated in the strike vote.

Piedmont Airlines, a wholly owned subsidiary of American Airlines, is based in Salisbury, Md., and is a key regional carrier that flies under the American Eagle flag.

AMERICAN OVERSIGHT

“We are already paid less than our counterparts at other regional carriers, and far less than mainline flight attendants doing the same work at the American Airlines Group,” said AFA Piedmont president Keturah Johnson in a statement.

Flight attendants and other airline workers are prohibited from striking by federal rules until they are given permission to do so by federal labor regulators. AFA members participated Thursday in informational pickets at Philadelphia International Airport.

It would still be months or longer before flight attendants at Piedmont could actually walk off the job and disrupt the company’s flight operations. Airline employees and unions are under complex federal rules and workers must get permission from the National Mediation Board before being allowed to strike.

To do that, the union would need to prove to the mediation board that negotiations are at an impasse. The board could call for a 30-day “cooling-off period” before leading to a strike deadline.

In a statement, Piedmont said it’s still working toward “getting a competitive contract.”

“We are in agreement our team members deserve the best contract and we are committed to delivering that to them,” Piedmont said in a statement. “We look forward to getting back to negotiations in November.”

“We’ve seen in the last few months how delicate the aviation system is, and how much it depends on every worker,” said AFA International president Sara Nelson in a statement. “Piedmont Flight Attendants want a fair deal, but if it takes a strike, we’ve got their backs across the industry.”

[BACK TO TOP]

Health Care

As Delta Wave Fades, Texas Children's Battles Fatigue - And A Troubling Chain Of Infections
By Nora Mishanec
Houston Chronicle

Isaiah Gonzalez grimaced as the nurse approached his hospital bed, his small hands bound with surgical tape to safeguard the tubes delivering a steady flow of antibodies to his bloodstream. He squeezed his pink-stained eyelids shut as the masked nurse put a thermometer in his armpit to check whether his skyhigh fever had fallen. He was thinking of monkeys.

“I want to go to the zoo,” the 3-year-old said, reaching for his mother as his face twisted in distress.

AMERICAN OVERSIGHT

It has taken all Isaiah's powers of imagination to escape the confines of his bed in the intensive care unit at Texas Children's Hospital. He is battling multisystem inflammatory syndrome in children, or MIS-C, a dangerous but poorly understood illness that arose with the coronavirus pandemic last year. Fevered and weak, the Bayview resident was hospitalized earlier this month as the inflammation attacked his heart, kidneys and blood vessels.

Hospitalizations like Isaiah's were relatively rare throughout the COVID-19 pandemic. But as the delta tsunami recedes, it has left in its wake a troubling chain of infections among children too young to be vaccinated — and a deepening exhaustion among the health workers caring for them. The uncertainty about the coming months is adding to their fatigue, in a region where vaccination rates remain far below the levels required to stamp out community spread.

"Our resilience is not unlimited," said Dr. Lara Shekerdemian, chief of critical care at Texas Children's and the physician overseeing Isaiah's treatment.

Shekerdemian and her staff are still reeling from the stress of the "surprise" summertime surge that sickened children at an alarming rate, inundating the five units devoted to intensive care at the nation's largest pediatric hospital. Soft-spoken but formidable, with a gentle English accent, she leaned against a nurses' station as she recalled recent months when patients waited in the hallways for an empty bed.

The hospital's intensive care units are no longer jammed with young coronavirus patients, but MIS-C presents a new challenge, even as the virus appears to be in retreat. Of the many mysteries of the pandemic, the rise of MIS-C — a rare but treatable syndrome that typically affects school-aged children weeks after a COVID exposure — may be the most puzzling for pediatricians. More than 5,200 American children have been diagnosed with MIS-C since it was first observed at the beginning of the pandemic; 46 have died.

"We never thought, 20 months ago, that it would be like this," said Shekerdemian.

The future of the pandemic, and how deeply it may affect the holiday season, depends, as ever, on the vagaries of viral mutation and human behavior. That's according to Catherine Troisi, an infectious disease epidemiologist at UTHealth School of Public Health who studied HIV/AIDS before shifting her focus to coronavirus last year.

"Is a new variant going to arrive that is more infectious than delta?" Troisi said.

The answer, for now, appears to be no. The waning delta variant, which sickened children far more than previous strains, is still out-competing all other mutations.

More critical, she said, is whether mandates and other efforts aimed at vaccine hold-outs — some 30 percent of eligible Americans — will curb case counts before families gather at Thanksgiving and the winter holidays. Troisi is monitoring the data for signs of hope,

AMERICAN OVERSIGHT

both as an epidemiologist and as a grandmother who wants to visit her grandchildren at Christmastime.

But vaccination rates among Texas teenagers remain stubbornly below 50 percent, even as many high schoolers return to their classrooms unmasked. That may be a worrying harbinger for what is to come when vaccines are approved for kids ages 5 to 11, Troisi said, as some parents remain hesitant despite public health messaging promoting the shots.

“A lot of it is in our control as a community,” she said.

While children suffered from severe COVID infections at a far lower rate than adults early on in the pandemic, the idea that kids like Isaiah are safe from the disease crumbled with the delta wave, blindsiding pediatric health care providers with an unprecedented crush of childhood cases. The persistence of MIS-C is compounding their anxiety about the coming months.

“We got a false sense of security,” said Nicole Leathers, an ICU nurse manager at Texas Children’s. “And then we had this delta variant followed by a bunch of MIS-C and we were like, ‘Oh wait, this is completely different.’”

When Gia Gonzalez, 19, fell ill with a mild case of COVID last month, she monitored her son Isaiah for signs of sickness; he never showed any, so she didn’t worry.

Then came the phone call every mother dreads.

On HoustonChronicle.com: New moms fight for their lives away from newborns, as Houston sees rise in pregnant COVID patients

She was finishing her shift at the Bayview Circle K convenience store where she works earlier this month when her mother called to say Isaiah was lethargic and running a high fever.

Gia rushed home to nurse her son through the night. He woke every few minutes to sip the diluted yellow Gatorade she put in his Spider-Man sippy cup. By morning, a vivid rash had bloomed across his eyes and cheeks. He was so weak he couldn’t move.

“It was scary,” Gia said. “He wouldn’t talk or eat.”

The listless boy in the bed bore no resemblance to the normally energetic 3-year-old Gia had raised: a shaggy-haired troublemaker who loved to jump on the bed and race around the backyard with his cousins. As Gia looked as her son, she felt fear and confusion. It had happened so fast.

Like the facial rash, the sudden onset of Isaiah’s symptoms is typical of the inflammatory syndrome, which can infect otherwise healthy children, even those who had no

AMERICAN OVERSIGHT

discernible signs of COVID. It usually begins two to three weeks after a COVID exposure.

When Isaiah became unresponsive the following afternoon, Gia called an ambulance. She packed a backpack of essentials, including the fraying Paw Patrol blanket that Isaiah carried everywhere. Paramedics transported them to the hospital, where he was admitted to the ICU.

Timing was on his side.

Had he fallen ill during the summer surge, he may have had to wait for a bed. At its peak in late August, nearly 100 children were hospitalized daily with COVID in the greater Houston area. Two months later, pediatric COVID hospitalizations have dropped by two-thirds. But those numbers do not capture the steady trickle of patients like Isaiah, who are nominally negative for the virus but suffering from its cruel after-effects.

Gia had never heard of MIS-C, so the doctors explained the diagnosis. They told her it is treatable with intravenous medicines to protect her son's heart, kidneys and other organs from lasting damage.

With braces taped to his hands to prevent the intravenous tubes from kinking, Isaiah barely slept their first night in the ICU. Gia lay awake beside him, their bodies fitting snugly in the child-sized hospital bed.

She is not the only one who has been losing sleep.

Even at a well-funded metroplitan hospital like Texas Children's, the relentless pace and erratic trajectory of the pandemic has left staffers fatigued and overworked. Leathers, the ICU nurse manager, said the experience has broken down the hierarchy between doctors and nurses and forced many to jettison the "brash, tough Navy Seal mentality" that used to predominate.

Leathers worked the pediatric ICU floors one recent Sunday, even though she wasn't on duty. It was a taxing shift. One patient died, another went into cardiac arrest. Before the pandemic, she might have brushed it off. But instead, Leathers called her manager to decompress.

"I cried the whole way home," Leathers said.

Isaiah was discharged from the ICU late Wednesday, but he is due back at the hospital for an echocardiogram in five days. The doctors must determine whether the inflammation has caused any lasting damage to his heart.

Gia hopes Isaiah recovers in time for his 4th birthday on Oct. 30. To celebrate, she is planning to take him trick-or-treating for Halloween. He will be dressed as Spider-Man.

Wall Street Vs. Texas politicians: Could Their Tense Relationship Worsen Before It Gets Better?
By Max Abelson
Bloomberg

Outside San Antonio this month, a veteran of Texas politics got so upset about Wall Street's retreat from fossil fuels that he compared the oil industry's fight for funding to the civil rights struggle.

In Dallas, a hedge fund manager trading junk bonds on his iPhone lamented his upcoming move to the posh Highland Park neighborhood, fearing locals might brand him an outsider even though he relocated from New York years ago.

And at an Austin diner, a finance executive whose grandfather was governor hoped for compromise between Wall Street and the Lone Star State, but warned it may get worse before it gets better.

Welcome to the tense battle brewing between Big Finance and Texas. Just a few months ago, drawn by the promise of low taxes and light regulation, some of the largest banks and asset managers in the U.S. were ramping up their flight from the coasts.

Then Gov. Greg Abbott signed a law banning state investments in firms that cut ties to oil and gas and another blocking local governments from working with banks that limit their lending to gun companies. That halted business for some top municipal-bond underwriters.

JPMorgan Chase & Co., Bank of America Corp., Citigroup Inc. and Goldman Sachs Group Inc. have all stopped muni underwriting in the state, at least for now.

But what's happening in Texas isn't just about muni bonds or a Republican governor leaning to the hard right in a bid to win reelection next November. It's a broader conflict between a state that would be among the world's top economies if it were its own country and an industry whose leaders have begun to raise their voices on social issues from racial equity to climate change while pledging to consider stakeholders besides investors.

Interviews with more than a dozen bankers, traders and investors suggest that when Texas decides banks have gone too far, it presages a bigger struggle over corporate power and the reach of Wall Street's influence.

Bigger than munis
"This is much bigger than the municipal bond business," said Phil Gramm, a former Republican U.S. senator from Texas. "This is the beginning of telling Wall Street that if you're going to discriminate due to your fealty to special interest groups, you're going to have to pay for it."

Gramm helped write the law that allowed for the creation of Citigroup and other Wall Street giants, and later was vice chairman of UBS AG's investment bank. He prefers to use what he calls the language of the civil rights movement, comparing an oil driller's ability to borrow funds to the right to sit at segregated lunch counters: "Discrimination is discrimination."

Until recently, the finance industry's ties to Texas had never looked stronger.

AMERICAN OVERSIGHT

Goldman Sachs has been on the hunt for a new Dallas-area campus that could be its biggest in the U.S. outside Manhattan.

And Vanguard Group announced a new Dallas-Fort Worth office not too far from fresh space for hedge fund Canyon Partners.

Inside an Austin restaurant called Cisco's, where a wall of luminaries includes a photo of former Gov. Bill Clements, his grandson George Seay ate huevos rancheros with biscuits and gravy.

Seay, founder of investment firm Annandale Capital, said it was "a big, big move" when JPMorgan boss Jamie Dimon and other top executives said in 2019 they're redefining the purpose of corporations to benefit workers and communities, not just shareholders.

The way he sees it, things are coming to a head in Texas because corporations have "become woke" just as Abbott, who's running for a third term, is signaling to supporters that he's the biggest conservative in town.

Texas all but banned abortion this year and stopped transgender high school athletes from playing on teams that don't align with their birth certificate. When North Carolina passed a parallel bathroom bill five years ago, corporate boycotts helped pressure the state to abandon it.

"That's not going to work down here," Seay said last week.

Instead of one side getting its way on social issues, he said, executives and politicians will have to each make compromises. "You can be friends with someone who doesn't agree with you."

'We need the brains'
When Bobby Tudor moved to Texas decades ago, Goldman Sachs colleagues told him he was making a mistake. But then they gave him a hard time around bonus season because he got to keep so much more of it than colleagues in New York, where taxes are higher.

"My answer was: 'Move to Texas, dude,'" Tudor said.

Some of them did.

Tudor, who co-founded the energy-focused investment bank Tudor, Pickering, Holt & Co., said Texas didn't start this fight. Corporate leaders are "feeling compelled to speak out and take positions on all sorts of matters that aren't necessarily central to their business."

In an office that looks down on the Houston Ship Channel, he said people in Texas feel their "version of a great world isn't the same as Larry Fink's." He added that the Greater Houston Partnership, a group of business leaders he has helped run, supports the right of businesses to require vaccinations, something Abbott has tried to ban.

Asked about the tension, Abbott said "people and businesses vote with their feet, and month after month they are choosing to move to Texas." He cited the pull of "no corporate or personal income taxes, a predictable regulatory climate, and a young, growing, and skilled workforce."

The fight is already spreading past Texas.

AMERICAN OVERSIGHT

Last week, a panel in Louisiana delayed approving a $700 million state bond sale set to be underwritten by JPMorgan while the attorney general presses for information on the bank's gun policies. Dimon told Congress this year that his bank doesn't finance gun companies that sell military-style weapons to consumers.

Over the years, it's frustrated Dallas real estate investor and developer Lucy Billingsley to watch Texas pass socially conservative laws she can't support. Even so, she adores the state's pro-business environment, those low taxes and light regulation.

She wants finance firms to embrace that same calculus.

"Come engage and lead," she said. "We need the brains — and we need to make this a better place."

[BACK TO TOP]

Gubernatorial Hopeful Don Huffines Says His Texas Senate Loss Tainted By 'Election Irregularities'
By Robert T. Garrett
Dallas Morning News

GOP gubernatorial hopeful Don Huffines is alleging there were voter irregularities in his losing race against Democratic state Sen. Nathan Johnson of Dallas in 2018.

Johnson won by some 24,300 votes out of nearly 294,000 cast and at the time, Huffines conceded and tweeted a pledge that he would work for a smooth transition with Johnson.

Although Huffines in 2018 did not publicly suggest that Johnson's 8-point victory was tainted, his concession tweet has been deleted and he said last week that he believes he was "ripped off in '18 when I lost my election."

Election "fraud" has become a campaign issue for Republicans since former President Donald Trump called the 2020 presidential contest rigged, even after dozens of judges, some of whom he appointed, and his own Justice Department dismissed the allegation as baseless.

After the November 2018 midterms, "numerous Texans" came to Huffines with "concerns of election irregularities in Dallas County, including in SD 16," or Senate District 16, he recounted Thursday in a written statement to The Dallas Morning News.

A day earlier, Huffines claimed he'd been "ripped off" in the 2018 state Senate race at a gubernatorial candidate forum in Decatur.

Moderator Shelley Luther, the former Dallas hair salon owner who went to jail for refusing to shut down during the coronavirus pandemic, asked Huffines and fellow Republicans running for governor for their thoughts on "election integrity," early voting and mail-in ballots. Huffines cited his 2018 defeat as illustrating why the state needs a bigger agency to investigate vote fraud.

In 2018, through an election lawyer he didn't name, Huffines recounted that he relayed the allegations to Attorney General Ken Paxton's office. So did some of the other unnamed Texans who had shared their suspicions with him, Huffines said.

"Unfortunately, due to being heavily understaffed, the AG's office is just not able to sufficiently investigate everything that comes their way," he said in his statement to The News.

At Wednesday night's forum, which Gov. Greg Abbott declined to attend, Huffines said people can "dream on" if they think the attorney general's office has sufficient staff to be able to thoroughly investigate election irregularities.

"People have cheated in an election since there's ever been elections," Huffines said at the event, sponsored by a tea party-style group, Wise County Conservatives.

"I think the cavemen probably cheated each other," he said. "Republicans cheat. Democrats cheat. There's no question about that."

Huffines is proposing a new 500-person agency for anti-corruption and election-related probes.

"They're going to be familiar with every law, every election law," he told conservative activists in Wise County, speaking of the proposed agency.

"They're going to know where the software is, who owns the software, where the machines are. They're going to be in between the two parties. They are going to follow the ballots. Most important, you've got somebody that you can call when you know other people are cheating."

As of late Saturday, the plan was not mentioned in the issues section of his campaign website.

Nor did Huffines spokeswoman Hannah Sacia respond to queries about where in state government the "government corruption and election integrity division," as Huffines called it at the forum, would be located.

While Paxton has an election fraud unit, his budget request to the Legislature about a year ago does not specify how many people work in the office, which is apparently a part of his office's Special Prosecutions Division. In December, the Houston Chronicle reported that the office had 17 law enforcement sergeants and four prosecutors.

Last week, a Paxton spokesman did not respond to an email requesting the number of full-time employees who are investigating alleged voting irregularities.

"Expecting for the AG's office to investigate all potential fraud is simply unrealistic," Huffines said in his statement to The News.

Johnson, a lawyer who specializes in commercial litigation and bankruptcy in the Dallas office of the international law firm Holland & Knight, ran as a centrist Democrat. He criticized Huffines, a real estate developer, for veering too far right. "I can help you get your party back," Johnson told Republicans at the time.

Senate District 16, though recently changed by GOP map makers, stretched east from DFW International Airport to Rowlett, north to Addison and south to Uptown Dallas.

Told of Huffines' Wednesday remarks, Johnson late last week said, "I do recall that shortly after the election he expressed the opinion that there were some irregularities, hinting at fraud."

However, "at the time he did not, so far as I know, push the notion that absent the 'irregularities,' he would have won," Johnson said in a text message. "The notion is laughable, and I believe he knows that. Which makes any present suggestion to the contrary disingenuous political BS."

Sacia, the Huffines spokeswoman, did not respond to Johnson's remarks.

As Texas Politics Become Nationalized, Gov. Greg Abbott Moves To Squash GOP Critics Outside Of State

By Gromer Jeffers Jr.
Dallas Morning News

The nationalization of Texas politics has created a challenge for Texas Gov. Greg Abbott, who's had to fend off criticism of his border security approach and endure former President Donald Trump's insistence on election audits.

Moderates and Democrats charge that Abbott has gone too far right with his conservative agenda. They decry his plan to finish Trump's border wall, deplore the state's new law that limits mail-in voting and denounce Texas' law that bans abortion after six weeks of pregnancy.

Gov. Greg Abbott is pushing back on accusations that he hasn't thrown enough military muscle into stopping a surge of migrants at the Texas-Mexico border. Abbott, shown at a Fort Worth press conference after signing a border-security funding bill into law in Fort Worth last month, said on Fox News' Tucker Carlson show late Thursday that Texas has 6,500 National Guard and state troopers on the border.

That's just a sample of the bounty of conservative legislation approved by the Legislature this year over four legislative sessions. Abbott also has banned vaccine mandates and passports.

But that isn't enough for some national conservative voices that influence conservative voters.

Ordinarily, what folks outside the state think about the Texas governor isn't of great concern. It's the view inside Texas that counts the most.

But Abbott is dueling with Florida Republican Ron DeSantis for the conservative title of America's governor. The person who fills that role could be a contender for a national ticket in 2024, depending on whether Trump makes another run for the White House.

More urgently, Republican activists are swayed by the coverage they see on conservative media networks. If the national media has negative perceptions of an elected leader or political candidate, it could result in a backlash at the polls.

"Between COVID and the border situation, local issues have become nationalized," said former Dallas County Republican Party Chairman Jonathan Neerman. "Border security is a very important issue to voters around the country, and they naturally focus on Texas because that's where the issues with migrants have been."

Former state Sen. Donald Huffines of Dallas and former Texas GOP Chairman Allen West of Garland are the leading challengers against Abbott in the 2022 Republican primary for governor. They have been pointed in their criticism of Abbott's record, including on border security issues.

Neerman doesn't put much stock in that criticism, countering that Abbott should be heavily favored to win his March primary contest. But he does add that national figures dabbling into Texas politics often have a distorted view.

"Whether it's election security or border security, this governor has done an awful lot," Neerman said. "And this legislative session showed that, but it's not going to satisfy people who don't live in the state."

AMERICAN OVERSIGHT

Tucker Carlson criticism

For the past several weeks Abbott's record on border security hasn't been satisfactory to popular Fox News host Tucker Carlson. Last month, Carlson, whose show is the highest-rated news program on cable television, began lambasting Abbott for not deploying enough personnel to interrupt a rising tide of unauthorized immigrants that Republicans blame on President Joe Biden's immigration policies.

Although Abbott has secured nearly $3 billion from the Legislature this year to significantly ramp up the state's border security effort, including a plan to put 2,500 Texas Military Department personnel there, some staunch conservatives are calling it too little, too late.

Even more galling to Abbott and his supporters, Carlson invited Huffines and West to appear a week apart on his prime-time show to discuss the governor's alleged failure to supply enough soldiers. That prompted a flurry of Abbott social media posts supportive of the soldiers. "Join me in thanking the Texas National Guard for their daily work to secure our border," Abbott tweeted on Sept. 22.

Secure in the need to respond, Abbott last Thursday appeared on Carlson's show. Interested parties waited for fireworks.

Abbott had been prepped for a tense exchange, but it didn't occur. Carlson asked the governor a couple of questions about border security. They bashed Biden's efforts.

"We now have 6,500 National Guard and DPS troopers on the border to help secure the border. And as we're talking right now, they are identifying locations on the border where they are laying down razor wire to secure all the possible crossings that these caravans may be coming to," Abbott told Carlson.

Abbott said the National Guard and Department of Public Safety were placing large metal shipping containers at places that "could be crossings" for migrant caravans sighted in Mexico. He said state officials have advised him that portions of his proposed state-built border wall will be erected by Dec. 31.

Carlson didn't challenge Abbott, and the short segment closed without fireworks.

The Trump factor

The Abbott/Carlson episode comes after Trump prodded Abbott to support a forensic audit of the 2020 Texas elections. Yes, the same elections that resulted in Trump's comfortable victory over Joe Biden in the Lone Star State's presidential contest.

Though it was difficult and perhaps unwise for Abbott to publicly engage with Trump, he'll probably make more appearances on national conservative shows, especially if designed to defend his name.

"This is part of the nationalization of state politics in Texas," said Jim Henson, director of the Texas Politics Project at the University of Texas at Austin. "It's very hard to ignore that kind of criticism because your base is plugged into those media outlets."

Henson said Republicans across the U.S., including those in Texas, are eager to appear on conservative networks. Frequent voters watch the shows on networks like Fox News.

"A lot of state officials, including in Texas, benefit from appearing on those shows because it's a great way to get their message out, and building some degree of a national profile is a bonus," Henson said. "But there's a downside to that. You can't guarantee the most well-known figures on those outlets are going to always be your friend, are going to always approve of what you do and are always going to be on your side."

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000178

In the contentious era of Trump, Republican voters are increasing connected to national themes. That's why Abbott and GOP lawmakers pushed a legislative agenda filled with issues familiar to folks across the country, including the new elections law, banning the teaching of critical race theory, curbing so-called social media censorship and regulating transgender athletes.

At a forum earlier this spring, several Republican candidates to replace the late Ron Wright in Congress touted their ability to get on national television. Jake Ellzey eventually won the race over Susan Wright, the Trump-backed candidate.

And it's not just Republicans who crave the national spotlight. Texas Democrats are swayed by progressive programming on networks such as MSNBC and CNN.

"You kind of make a deal with the devil and then you're kind of stuck with it," Henson said. "There's that dynamic in which there's a slant to the discussion and the coverage, and it can benefit you, but then you have to deal with it when it hurts you."

[BACK TO TOP]

Texas Legislature

With Grades Like These For Political Maps, Texas Won't Be Making The Honor Roll
By Ross Ramsey
Texas Tribune

Republican legislators in Texas and Democratic legislators in Illinois have something in common: When it comes to drawing new political maps, they don't play fair.

The Redistricting Report Card, a collaboration between the Princeton Electoral Innovation Lab and RepresentUS, gives the new Texas congressional map an F for partisan fairness, saying it's drawn for "significant Republican advantage."

The congressional map scored better on competitiveness, meriting a C. But it got another F for geographic features, with the graders saying it has a lot of non-compact districts and that more districts split counties than necessary. In this case, a C is "average for the category, could be better, but also could be worse," and an "F" is "poor for the category, could be much better."

With Republican majorities in both the House and the Senate, and Republicans in every single statewide office, it's fair to say Republicans are responsible for those results.

Democrats would never do that, right?

Turn your attention to the great state of Illinois. The Redistricting Report Card gives Illinois' new congressional maps an F in every category: partisan fairness, competitiveness and geographic features. Their governor is a Democrat, as are both houses of their Legislature. The state has 17 seats in its congressional delegation, and 14 of the districts are drawn to favor Democrats. Based on the results of the last presidential race, that ought to be more in the range of 10 Democrats and seven Republicans.

The two states illustrate the conflict of interest wired into their redistricting laws, which let the people who hold legislative seats draw the districts where they compete to keep their jobs and their party majorities.

It's designed for political majorities to continue their dominance and for incumbents in both parties to keep their powerful posts, and it shouldn't be a surprise when it works the way it's rigged to work.

Texas' new congressional map has more Democratic seats than the current map, if you're measuring districts according to their average margins of support for Democrats and Republicans.

Those gains didn't come from Republicans: Lawmakers, according to an analysis by FiveThirtyEight, cut the number of competitive districts — those with less than a 5-percentage-point advantage for either party — from six to just one. The other 37 districts are solidly Republican or Democratic.

Texas has 13 Democrats and 23 Republicans in its congressional delegation now; the new maps, which add two seats overall, have 13 districts where Joe Biden would have won in 2020 and 25 where Donald Trump would have won, according to Texas Legislative Council data.

If the 2020 presidential result is the measure, that delegation ought to have about 20 Republicans and 18 Democrats.

Texas lawmakers also drew maps for themselves, now signed into law by the governor and already the subject of litigation over the legality and fairness of the new districts. The report card gives the Texas House map a C for fairness and a C for geographic features, but an F for competitiveness. That's an indication that the maps were drawn, as much as possible, to favor one party or the other — not to set up general election fights either side might win. Overall, it still favors Republicans, but not to the extent the congressional map does.

The Texas Senate map also scored better than the state's congressional map for partisan fairness. But the project gave it F grades for both competitiveness and geographic features. It could be more competitive, in other words, and the districts could be a lot more compact.

If the maps hold — remember that they're being contested in federal court — they point to a lot of uncontested general elections for federal and state legislative seats. That moves the focus to the primaries, which can be competitive no matter which party has the upper hand.

Those are harder to rig.

State News

Get Updates On The U.S. Supreme Court Hearings On Texas' Near-Total Abortion Ban
Texas Tribune

The U.S. Supreme Court will hear two high-profile legal challenges to Texas' near-total abortion ban that prohibits the procedure as early as six weeks, which is before many people know they are pregnant. The arguments are slated to begin around 9 a.m. Central time Monday.

Under Senate Bill 8, enforcement of the new restrictions is left to private citizens instead of state officials because it allows anyone to file lawsuits against people who perform or assist someone in getting an abortion. People or groups that are successfully sued can face penalties of at least $10,000. It's a restrictive law that, if upheld, ends abortion access for millions across the state. The most recent court ruling on the issue allowed the law to remain in effect while the law works its way through the appeals system.

The arguments the high court is hearing Monday, however, are not expected to be focused on the constitutionality of abortion. The first case, brought by the U.S. Department of Justice, is about whether the U.S. can file legal battles targeting Texas, judges and others to prevent people from being sued under the state's new abortion law. This could bring clarity to who can be sued in any attempt to challenge SB 8 from being enforced. In the second case, brought by abortion providers, the court will consider whether a state "can insulate from federal-court review a law that prohibits the exercise of a constitutional right" by offloading its enforcement to the general public.

But while the arguments in the cases brought Monday are narrow, the justices can ask any questions and ultimately issue any ruling they wish — which makes it hard to predict exactly what could happen. However, watchers of the court and legal experts agree a broad ruling is unlikely. It is also unlikely that a ruling will come Monday.

Listen to the proceedings live here, follow the coverage of The Texas Tribune's Reese Oxner below and check out our related coverage.

Read more coverage about the state's near-total abortion ban here:

- We annotated the provisions of Senate Bill 8 that outline the enforcement process, perhaps the most unusual aspect of the state's near-total ban.
- The law's unusual enforcement mechanism is leaving abortion providers across the state without a playbook to respond and few options to fight the restrictions in court.
- This new law is the latest, most devastating blow from lawmakers who have been on a warpath to steamroll abortion access for decades. Getting an abortion in Texas has become more difficult than anywhere else in the nation.
- While the law has widely been referred to a six-week ban, the reality is closer to two weeks. Calling it strictly a six-week ban fails to take into account the nuance in circumstances many people face when it comes to pregnancy.
- A Texas doctor from San Antonio is already facing two lawsuits for performing an abortion illegally under the state's new law. He announced that he performed the procedure in a Washington Post column, saying that he "wanted to make sure that Texas didn't get away with its bid to prevent this blatantly unconstitutional law from being tested."
- In addition to this Texas law, advocates on both sides are closely watching a highly anticipated Mississippi case heading to the U.S. Supreme Court that could overturn Roe v. Wade. If the court were to overturn Roe, however, it could lead "trigger laws" across 12 states — including Texas — that ban all abortions to go into effect.

[BACK TO TOP]

How Today's Near-Total Abortion Ban In Texas Was 20 Years In The Making.
By Kevin Reynolds
Texas Tribune

Here is a list of Texas laws since 2000 that restrict abortion access.

2000 – First parental notification law goes into effect

Doctors must notify a parent 48 hours before an abortion is performed on a child under the age of 18. Notification can be waived if a teen seeks permission from a judge for the procedure, known as "judicial bypass."

2003 – The "Women's Right to Know Act."

- All abortions after 16 weeks must take place in an outpatient surgery center or a hospital.
- Women must wait 24 hours before getting an abortion.
- Additions to the law come in 2011.

2005 – 24-week ban, more restrictions for teens

- All abortions banned after 24 weeks of pregnancy.
- Tightens previous parental notification law. Doctors must have court order or parental permission to perform an abortion on underage teens. A requirement that the required form must be notarized, was added in 2006.
- All abortions banned after 24 weeks of pregnancy.
- State funding provided to crisis pregnancy centers and other nonprofit organizations that counsel pregnant patients against having an abortion.

2011 – Sonogram law, taxpayer dollar restrictions

- Women are required to get a sonogram 24 hours before an abortion.
- A physician must display and describe the sonogram to the woman, including the dimensions and features of the embryo or fetus. Also, the physician must describe and make the heartbeat of the fetus audible so that the woman can hear if a heartbeat is present.
- Texas agencies can no longer use tax dollars to provide or "promote" abortions and they are forbidden from from contracting with facilities that provide abortion care.

2013 – More restrictions on doctors, facilities, patients, "medication" abortion

- Doctors performing an abortion must have admitting privileges at a hospital within 30 miles of the abortion facility.
- Abortion after 20 weeks post-fertilization is banned, unless a patient is at risk of death or the fetus has a severe medical problem.
- Doctors administering medication abortion must follow a state-mandated protocol.
- All abortion facilities must meet the standards of ambulatory surgical centers, even if a facility provides abortion only by administering pills to swallow.

2017 – Second-trimester abortions, restrictions on insurance coverage

- Texas banned the most-used procedure for second-trimester abortions, forcing doctors to either use experimental procedures or stop providing second-trimester abortions altogether. Abortion rights advocates challenged this law as an undue burden on the right to abortion, and a court agreed and stopped the law from going into effect.
- Texas bans insurers from including coverage for abortion in a comprehensive health insurance plan, requiring people to purchase separate coverage for abortion care.

2019 – Stricter rules on government partnerships, assistance

- Criminal penalties for abortion providers who do not provide medical treatment to a fetus if born after an abortion. This scenario is virtually impossible because all abortions are banned after 20 weeks and a fetus is not viable until 24 weeks.

AMERICAN OVERSIGHT

- Government entities prevented from entering partnerships or providing assistance to clinics that are affiliated with abortion providers, even if they do not provide abortion themselves. This cuts off vital support to communities who rely on these low-cost clinics for basic health care like birth control, gynecological exams, cancer screenings, diabetes testing and much more.

2021 – Texas Heartbeat Law

- Bans abortion as early as six weeks in pregnancy, when an embryo's cardiac activity is detected — before many people know they are pregnant.
- Also authorizes private individuals to file civil lawsuits to "enforce" the abortion ban. This allows anyone to sue the health care provider and seek a court order that would block the patient's abortion and prevent the provider from performing any abortion after approximately six weeks in pregnancy.

[BACK TO TOP]

Texas' New Abortion Restrictions Facing Biggest Legal Review Yet Monday At U.S. Supreme Court
By Morgan O'Hanlon
Dallas Morning News

The U.S. Supreme Court will soon make a decision that will put a more lasting end to the legal ping pong match playing out in the federal courts system over enforcement of the country's most restrictive abortion law.

For months, the U.S. Department of Justice has been battling Texas over a new law that outlaws abortion after about six weeks of pregnancy. A series of rulings, appeals and requests have been filed in federal courts across the country as the DOJ attempts to block enforcement as the battle plays out.

The injunction hearing Monday will settle the question of whether the law can be enforced for the time being. Although it's possible that the Supreme Court will weigh in on the constitutionality of the law, thus reexamining Roe v. Wade, it's widely expected that the court will set a later trial date. That would mean the future of abortion access across the country will more likely be decided in a case challenging Mississippi's abortion restrictions, in which arguments are set to begin on Dec. 1.

Currently, enforcement continues because the 5th Circuit Court of Appeals allowed it to resume, overriding a previous injunction placed on the law by a federal district judge in Travis County.

Because the injunction is stayed, lawsuits can be filed in the future against those who break the law while the injunction was active. So far only three lawsuits are known to have been filed under SB 8 — all against a San Antonio physician who publicized an illegal abortion he performed after SB 8 went into effect.

In federal courts, lawsuits including the DOJ case focus on getting an injunction on the law and challenging its constitutionality. The DOJ has argued an injunction is necessary because the Texas law is currently infringing upon what it says is a constitutional right to abortion. Additionally, it says the state's attempt to circumvent rule of law through an unusual enforcement mechanism sets a dangerous precedent.

Meanwhile, in Texas state courts, plaintiffs who provide women's healthcare have attempted to ward off litigation by seeking injunctive orders against the most likely enforcers bill: vocal anti abortion groups and individuals like Texas Right to Life.

The DOJ lawsuit isn't the only lawsuit filed to challenge the Senate Bill 8. More than a dozen lawsuits challenging the law have already been filed, with the one brought by President Joe Biden's Department of Justice currently carrying the most momentum.

AMERICAN OVERSIGHT

Legal action against SB 8
These are the SB 8 lawsuits you need to know about:

Filed by: U.S. Attorney General Merrick Garland challenged the constitutionality of SB 8.

Status: Injunction hearing set to begin November 1 to make a decision about the DOJ's request that the Supreme Court block enforcement of the law. Currently, the stay placed by the 5th Circuit is set to last at least until arguments in the case are heard, which could be weeks or months.

This case, filed in the Western District of Texas, claims the new law is unconstitutional under Supreme Court precedent and accuses Texas of undermining the rule of law by attempting to avoid judicial review.

Filed by: Planned Parenthood affiliates challenge to potential SB 8 enforcers.

Status: Injunction granted, court date set for April 2022. Stay halts proceedings until lifted.

This case filed in State District Court in Travis County attempts to block enforcement of SB 8 against three Planned Parenthood clinics in Texas and one of its physicians by Texas Right to Life and its collaborators. Although a stay has indefinitely postponed proceedings, the injunctive relief remains in effect and a court date still stands for April. A request to lift the stay has been denied by the Texas Supreme Court.

Filed by: Attorney Elizabeth Myers filed multiple on behalf of abortion providers, clinics, attorneys and abortion funds to challenge potential SB 8 enforcers.

Status: Stayed; indefinitely postponed.

Temporary restraining orders protecting her clients from being sued by Texas Right to Life and its collaborators have expired. A panel of five Texas judges put a stay on these cases, indefinitely postponing proceedings in these cases, including a hearing originally scheduled for Oct. 4 in which Myers sought an extension of injunctive relief for her clients. A request to lift the stay has been denied by the Texas Supreme Court.

Filed by: Whole Woman's Health, Planned Parenthood and other abortion clinics and providers to challenge the constitutionality of SB 8.

Status: Emergency injunctive relief denied, arguments to be heard in December.

The first federal lawsuit against the new abortion law was blocked by the 5th Circuit Court of Appeals. Arguments in this case will begin in December.

Lawsuit filed under SB 8 provisions
Filed by: Two out-of-state former lawyers and an anti-abortion rights Houston resident.

Status: The cases in State District Court haven't had hearings set.

Former attorneys in Arkansas and Illinois filed lawsuits in September against Dr. Alan Braid, who in a Washington Post opinion column became the first Texas abortion provider to publicly reveal he violated the law that took effect on Sept. 1, The Associated Press reported. Shortly after those lawsuits were filed, Houston resident became the first anti-abortion rights party to filed a lawsuit under the law.

Business/Economy

Texas Triangle Is Key To Economic Growth, But Brings Big Changes
By Chris Tomlinson
Houston Chronicle

The biggest Texas industries in 1960 were agriculture and oil and natural gas, and most of the state's 9 million residents lived in small towns outside Houston, San Antonio, Dallas-Fort Worth and Austin.

Politics were simpler then, with conservative Democrats holding almost every elected office. Whites made up the majority and enforced strict segregation and systemic oppression of people of color. Any white man who showed up at a state university with tuition could attend, though few jobs required more than a high school diploma and the right flesh tone.

The biggest challenges businesses faced were the weather and a lack of good farm-to-market roads. Chambers of commerce demanded low taxes, limited government and lax labor laws, which the Legislature happily delivered.

Tomlinson: Texas must change beef culture to fight climate change

Too many Texans long for those days of yore, and some politicians are trying their best to resurrect them. But the authors of a new book, "The Texas Triangle: An Emerging Power in the Global Economy," explain why those days are gone and how continued success requires new thinking.

I've been pounding on this theme for years, but the book's authors are far more qualified to make the case. They include Henry Cisneros, former San Antonio mayor and secretary of housing and urban development during the Clinton administration; David Hendricks, former San Antonio Express-News business editor; J.H. Cullum Clark, director of the Bush Institute-SMU Economic Growth Initiative; and William Fulton, director of the Kinder Institute for Urban Research.

Texas A&M Press gave them 300 pages to explore how far Texas has come, its current strengths and weaknesses, and where we might go next.

The Texas Triangle is drawn on the interstates between San Antonio, Houston and Dallas-Fort Worth. More than 80 percent of Texas's population growth has been within the triangle since 1960, and 60 percent of Texans live and work within it today.

The triangle's economic activity totaled $1.3 trillion in 2018, producing more than Mexico, Indonesia or Saudi Arabia. It accounted for 6.9 percent of U.S. gross domestic product.

Nearly 60 percent of the state's population is non-Anglo, and soon Hispanics will be the largest ethnic group. Finance, insurance and real estate are Texas's most lucrative fields, followed by manufacturing. Oil and gas comes in third, with business services fourth and government fifth.

"Texas is more closely linked to the world economy, and through a more complex web of connections, than ever before," the authors write. "Now that Texas is an urban state, it must shed its own self-image as rural. Texas's enormous growth requires new thinking about policies and priorities."

AMERICAN OVERSIGHT

Ask any business owner, and he or she will tell you the most critical need is a trained workforce. The authors demonstrate with detailed statistics how the state fails to provide Texas kids with the education they need to meet the economy's needs.

The triangle's rapid growth also has failed to expand access to health care. Housing in metropolitan areas is becoming unaffordable, taking up 30 percent of the average workers' pay. Texas' urban freeways are among the most congested in the nation, and our public transportation system is a joke.

When we don't provide Texans with a good education, access to health care, secure housing or a convenient way to get to work, we set them up to fail.

"The question is whether these populations of color will be undereducated, underperforming, underproductive, and alienated, leading to an impoverished and contentious future for all citizens," the authors write.

"The Texas Triangle" is not another liberal screed, though. The authors recognize that our success comes from a culture that limits government, keeps taxes low and encourages innovation. In addition to calling on Republicans to acknowledge the growing need for public services, the authors urge Democrats not to turn Texas into another California.

Looking ahead, demographers predict that San Antonio, Houston, Austin and Dallas-Fort Worth will grow into each other. By 2050, the triangle will grow 148 percent to include 35.3 million people — about two-thirds of all Texans. The Texas Triangle will look more like today's Tokyo-Osaka-Kobe corridor than the cotton fields of the past.

The question is whether Texas' larger, denser population will enjoy a decent standard of living.

"The Texas Triangle economy will be larger, but how much larger will depend on how well the urban education system prepares students," the authors said.

Will Texas schools begin computer science in elementary school? Will children learn calculus in high school to study artificial intelligence in college? How many languages will Texans speak?

Texas' economy will require different skills and new industries in big cities. For a brighter future, we need to reimagine Texas' identity and culture before innovation leaves us behind.

[BACK TO TOP]

Why Black Friday And Cyber Monday Deals Won't Be The Same In 2021
By Amanda Drane
Houston Chronicle

Black Friday and Cyber Monday deals won't be as sweet as they normally are, and they may not be worth waiting for given the way some items are selling out.

I'm wont to say good riddance to the days of rowdy shoppers fighting over TVs on Thanksgiving. Still, the markdowns that drove them to such madness may be missed as retailers rein in Black Friday offerings amid surging demand, tight supplies and labor shortages that are driving up their cost of doing business.

Before the pandemic economy spurred demand and hampered supply, retailers boasted vast inventories that were expensive to store. It was cost-effective to mark them down, lure people in and purge supplies. Retailers no longer have that problem.

AMERICAN OVERSIGHT

“Demand is there,” said Venky Shankar, research director at the Center for Retailing Studies. “They don’t have to stimulate demand with discounts.”

And gone are the lavish inventories.

Online out-of-stock messages are up 172 percent over this time last year and up 360 percent compared with 2019, according to Adobe Analytics, noting that customers are encountering so-called “stockouts” most often with clothes, sporting goods, baby products and electronics.

“It’ll get tighter and tighter towards Christmas,” Shankar said. “People are also panicking and buying online, buying a lot of things and making the shortages more acute ahead of time.”

Holiday decorations, too, are in tight supply. Retailers ranging from large chains such as Party City to local retailers like Kuhl-Linscomb are struggling to get holiday decorations they’ve ordered on shelves — even after six months of waiting. Congested ports are the main obstacle.

Normally inventories are at their highest heading into November and prices fall by around 5 percent heading into the shopping season, Adobe said. Then, of course, prices drop to their lowest point after retailers roll out holiday deals. But instead of prices declining ahead of holiday deals, they are up 3 percent.

Compounding the higher starting price point, retailers won’t mark prices down as much as they did in pre-pandemic years. Adobe predicts that consumers will pay about 9 percent more on Cyber Monday, with markdowns landing between 5 and 25 percent, down from the typical 10 to 30 percent.

Still, retailers will need to offer some discounts to meet consumer expectations and stay competitive.

“They have to give some discounts because people are used to getting discounts,” Shankar said.

Retailers are already rolling them out to meet the demands of people shopping earlier. About 65 percent of Houstonians plan to shop before Thanksgiving to help make sure that the item they want is in stock and that they have enough time to ship it, according to a survey from consultancy Deloitte.

You’ll still find the best deals Thanksgiving week, analysts predict. That’s if supplies last.

Health Care

COVID-19 Breakthrough Infections May Be More Serious In Communities Of Color, Researchers Warn
By Alejandra Canales
Dallas Morning News

While fully vaccinated people are a small percentage of those who contract COVID-19, some researchers are worried that racial disparities may persist among so-called “breakthrough” infections.

One major challenge, these experts said, is that many state and county health departments do not track breakthrough cases. And even when they track breakthrough cases, they often don’t track those cases by race.

AMERICAN OVERSIGHT

Last month, in an opinion piece in The Washington Post, two researchers at Boston University and a prominent New York physician warned that the lack of data could hinder public health officials' efforts to combat the coronavirus, particularly in communities of color that have been hit hardest by COVID-19.

"That there would be potential racial and ethnic inequities in COVID-19 outcomes among vaccinated people should be no surprise," wrote Dr. Oni Blackstock, a New York HIV physician and founder of Health Justice; and Alexandra Skinner, a research fellow, and Julia Raifman, an assistant professor, both at Boston University School of Public Health.

"Historical and present-day policies, driven by structural racism, have created striking racial and ethnic inequities in wealth, health, education, work, housing and medical care," they wrote in The Washington Post.

"Non-white Americans are thus more likely to hold front-line jobs, less likely to be able to work from home and more likely to live in crowded homes or neighborhoods," they wrote. "These factors increase the risk of coronavirus exposure regardless of vaccination status."

All of the COVID-19 vaccines have proven to be extremely effective at preventing severe illness and deaths. Still, breakthrough infections have gained the spotlight with high profile cases like that of Dallas Mayor Eric Johnson, 46, who said last week that while he is fully vaccinated, he has tested positive for COVID-19.

Last month, Colin Powell, the nation's first Black secretary of state, died at 84 from COVID-19 complications. His age and underlying health conditions may have put him at higher risk.

Public health experts say it's important to monitor data to help identify which populations may continue to be more vulnerable to infection.

"COVID hit [our society] in the context of structural racism and structural inequities in the United States due to historical policies and modern day policies," said Raifman.

"This is a very important time for policies to counter structural inequities as well as to counter the immediate effects of the COVID pandemic," she said.

Julia Raifman, an assistant professor in the Department of Health Policy and Management at the Boston University School of Public Health
Raifman poses for a photo on October 1, 2020. She has developed a database stockpiling all states' policies for dealing with COVID. It has become a go-to source for journalists (including the Wall Street Journal), scholars (25 publications have cited the database), and state lawmakers.

Cecilia Tomori, the director of global public health and community health at Johns Hopkins School of Nursing, agreed that it's important to monitor disparities. "The equity dimension consistently gets overlooked until people point out that it needs to be tracked," she said.

At the national level, the Centers for Disease Control and Prevention transitioned in May to tracking only breakthrough infections that resulted in hospitalization or death.

New CDC data compiled from 14 states and two cities shows how often coronavirus infections occur in vaccinated and unvaccinated people. People who were not vaccinated were six times more likely to catch COVID-19 than people who were vaccinated. These unvaccinated people were then 12 times more likely to die from COVID-19 than those who had been vaccinated.

AMERICAN OVERSIGHT

The federal data separates breakthrough infections and their outcomes by age group. Older people who were vaccinated were much less likely to die from a breakthrough infection than their unvaccinated peers. But age is a big risk factor for dying from a breakthrough infection, according to reporting from the New York Times.

Dallas County is one of the few in Texas tracking coronavirus infections in people who have been fully vaccinated, and that data is broken down by race.

“We definitely want to see if there are any particular subgroups that may have more breakthrough [infections] for whatever reason,” said Dr. Philip Huang, director of Dallas County Health and Human Services.

As of mid-October, a cumulative total of 11,300 people have tested positive for COVID-19 despite being fully vaccinated, according to data from Dallas County Health and Human Services. Of those, 528 people who were fully vaccinated had to be hospitalized, and 123 people who had breakthrough infections died.

Huang emphasized that although the number of breakthrough infections sounds large, it represents a very small proportion — only 2.8% — of total cases in Dallas County. The county has had a total of 402,023 COVID-19 cases.

He said county health officials are also monitoring any differences on the basis of which vaccine an individual received.

Raifman said that tracking the data and looking for any disparities is the best way to manage these disparities. When made aware of Dallas County’s data, Raifman said that, to fully evaluate any disparities, the county would need more data on hospitalizations and deaths resulting from breakthrough infections, broken down by race, ethnicity and age.

Having good data on what’s happening with breakthrough cases, Raifman said, is the best way to reduce deaths, keep people in the workforce and keep kids growing up with their parents. This data helps public health officials determine when different population segments would benefit from more vaccines and plan strategies to deliver those doses.

Raifman and many other researchers have documented throughout the pandemic how inequities made people of color more vulnerable to worse COVID-19 outcomes. For example, people of color often face higher occupational exposure to COVID-19.

A study published in the Journal of the American Medical Association: Internal Medicine looked at excess deaths of Latinos in California from March to August of last year. (Excess deaths are the difference between the observed number of deaths in a certain period and expected numbers of deaths in the same period.) The researchers showed that people who worked jobs like cooks and farmworkers had higher exposure to COVID-19 and the highest rates of excess mortality.

But the researchers did not see excess mortality among white health care professionals.

“We know that a lot of what was driving those disparities in the first year was simply access to the means to protect yourself from infection,” Alicia Riley, an assistant professor of sociology at the University of California, Santa Cruz, told The Dallas Morning News. Riley was one of the authors of the JAMA Internal Medicine study.

“Personal protective equipment and N-95 masks helped protect the people with the most privilege, despite their workplace exposure,” she said.

AMERICAN OVERSIGHT

In June, the Occupational Safety and Health Administration finally released an emergency workplace safety rule requiring that health care employers implement an infection-control plan to protect their employees from COVID-19. But, the initial draft of the rule submitted to the White House had been intended to cover all workers, according to reporting from Bloomberg Law.

Blackstock, the New York physician, worries that if structural factors that put people at risk for exposure to COVID-19 haven't changed, these trends on the disproportionate impact of COVID-19 on people of color could continue.

Other research during the pandemic has also shown that people of color were more vulnerable to severe disease due to higher rates of underlying medical conditions, Raifman said. And people of color who get COVID-19 may have lower quality health care compared to that of white people, she said.

"Policies that control the pandemic are really important for reducing racial disparities," Raifman said. "When we don't have policies in place to control the pandemic, it really exacerbates disparities."

Vaccinated people can still transmit the virus to other people, Huang said. That's the reason that the county health department recommends that vaccinated people should also still wear masks when indoors and in a crowded setting, he said.

"Even if any one individual's risk is pretty low, at a population level, [the risk] adds up," Justin Feldman, a fellow at the François-Xavier Bagnoud Center for Health and Human Rights at Harvard University, told The News.

Writing in Slate in September, Feldman argued that "there are three main reasons I think we need to take breakthrough infections seriously. First, vaccinated people can still transmit the virus to people who are unvaccinated, including children who are not yet eligible for the vaccine.

"Second, there are people whose health conditions put them at high risk of hospitalization and death even if they are vaccinated. This includes people with certain immunocompromised conditions who may not respond as well to vaccines, even with a booster shot," he wrote.

"Third, we are still learning about the risks of long COVID among the vaccinated. Even if a small percentage of breakthrough infections lead to persisting symptoms, that adds up to a large number of people when infections are widespread," he wrote.

A CDC study published last month showed that 70% of vaccinated people incarcerated in a federal prison in Texas tested positive for COVID-19. "That is an exceptional circumstance, because these are extremely bad conditions, so the exposure levels are very high," Feldman said. "But to me, that reinforces the main point of my Slate piece: that if exposure is high, breakthrough infections can be a serious problem."

"If we continue to allow a lot of deaths to happen and a lot of [community] spread to happen," he said, "we're going to have a lot of people who are vaccinated dying of COVID — even if it's a small percentage [of overall deaths]."

Feldman told The News that officials should be trying to prevent breakthrough infections through non-pharmaceutical interventions, including mask requirements, improved workplace protections and paid sick leave for quarantine.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000190

"All of the [COVID-19] mitigation strategies are stronger together, and policies effectively scale up [these] strategies," Raifman said. "If we just say we recommend them, then what ends up happening is that the highest-income places have great ventilation and great rapid testing programs and great vaccine coverage.

"I think unfortunately when there's really widespread community transmission, breakthrough cases are not rare," she said. "We have to realize that controlling community transmission is good for everyone."

Austin Voters To Consider Police Staffing Proposition, A Potential Second Rebuke To The City's Leftward Policy Shift
By Brad Johnson
The Texan

Austin voters face another public safety-focused ballot proposition and referendum on the direction of their city, its policies, and those who've approved them. On Tuesday, Proposition A will be featured on Austin's November general election ballot.
The items within Proposition A are:

- Mandate a minimum staffing level within the Austin Police Department (APD) of two officers per 1,000 residents
- Establish a minimum 35 percent community response time standard
- Require 40 additional hours of training
- Oblige the mayor, city council, and city staff to enroll in the Citizens Police Academy
- Facilitate minority officer hiring through foreign language proficiency metrics

Austin has more than surpassed its historical homicide total, currently at 75 with two months remaining. Through September, APD crime stats show an 88 percent increase in murders, a 25 percent increase in sexual assault, a 38 percent increase in arson incidents, and a 112 percent increase in the theft of vehicle parts.

Overall, however, crime is slightly down from 2020 which itself saw a spike in crime from 2019. Crimes against persons are down 5 percent and crimes against property are down 9 percent compared to 2020.

All the while, APD is reeling from an attrition crisis within its ranks, losing 15 to 22 officers per month. APD is down over 300 officers from its staffing level two years ago. Another 150 to 200 officers are likely to leave in January next year before changes to the retirement system kick in.

The causes for attrition are a mix of internal and external leadership factors compounded by the staffing shortage. Patrol shifts most days are not fully staffed and delayed cadet classes by the council have failed to fill the void left by departing officers.

This proposition is another installation of the broader clash between the immovable object of Austin's progressive policies and the unstoppable force of a burgeoning backlash of voters across parties.

And something's got to give.

Since about 2018, the Austin City Council has been united behind sea change policies that pulled the city even further left than its traditional locus. Lighter bail policies, the recission of a public camping ban, and a massive

AMERICAN OVERSIGHT

cut to the police department budget were the signature accomplishments of a progressive cadre of organizations with growing influence.

To comply with a new state law setting punishments for large cities that cut funding to their police departments, the city council voted to restore most of the funding cut in 2020 — achieved mainly by placing the 911 call center and forensic lab back under the APD umbrella. But the 150 positions cut from authorization were not restored, and the current roughly 200 vacancies are on top of that cluster nixed last year.

But those policies have spurred a formidable recoil from conservatives and moderates from both parties. The homeless camping ban was restored in a lopsided May election and the same group behind that effort, Save Austin Now, is also behind Proposition A.

The group turned in over 30,000 signatures of registered voters to secure its place on the ballot.

Since then, a heated campaign has taken root with over a million dollars on both sides of the political football.

As of October 26, Save Austin Now had raised over $1 million from nearly 2,000 donors and the "No On Prop A" campaign had raised over $1 million from 165 donors.

A massive chunk, nearly half, for the campaign opposed to the proposition came from billionaire progressive benefactor George Soros' Open Society Policy Center.

The "no" side has the support of Mayor Steve Adler, all but one city council member, and a litany of progressive groups and figures.

The ranks of support, meanwhile, include the Austin Police Officers Association, Councilwoman Mackenzie Kelly, three former Austin mayors, and Governor Greg Abbott.

One group that's been a focus of contention is the Austin Firefighters Association (AFA) which officially opposes Prop A, but only half of the organization's 1,200-member body voted in the internal election. Of that half, 57 percent opposed Prop A.

AFA President Bob Nicks has remained active in opposing Prop A on social media and in press statements, sparring frequently with Save Austin Now through the official union Twitter Account.

Locked in a political fight for the direction of the city, the two sides have each accused their opposites of misrepresenting the issue. In a debate last Thursday hosted by Talk 1370AM, anti-Prop A debaters claimed that Austin Police Chief Joseph Chacon is against the proposition. Chacon has said multiple times he is not taking a position on the issue, despite Adler saying publicly more than once that he was against it — including during the press conference announcing Chacon as the city's choice to head the department permanently.

Those opposed to Prop A have accused Save Austin Now of overselling the public safety threat caused by increasing trends of certain categories of crime, such as hyper-focusing on the murder rate rather than the overall crimes against persons. Compared with 2021's figures, overall crimes against persons in 2019 were about 700 incidents higher — close to on par with last year's total.

Most pointedly, Adler spent a large portion of his 2021 State of the City speech accusing the pro-Prop A push of being "right-wing misinformation."

Another feature has been the potential cost of Prop A should it pass. The city's official estimate places the first-year cost between $54 million and $120 million, with the range based on population projections. Save Austin

AMERICAN OVERSIGHT

Now pegs the estimate at $30 million to $35 million — or $100,000 per officer needed to reach the staffing minimum. They also contend it will likely be even lower because it will be next to impossible to hire the entire 300 to 350 officers needed to meet the minimum in one year.

The city's estimate also includes costs for one-time capital expenditures such as a new substation and training facility.

In the first year, either the city's low-end estimate or Save Austin Now's would amount to less than 5 percent of the city's general fund budget. Those opposed to Prop A contend its passage would require cuts for things like libraries and parks, but those two items in this year's budget amount to only 14 percent of the general fund.

Early voting for the election finished on Friday last week and it lagged substantially behind May's early voting turnout despite having three more days of ballot casting. That indicates voters have been less enthusiastic to vote in this election than May's, but it's unclear which side may benefit. But even if Save Austin Now's side cannot replicate May's landslide in its entirety, that result presents ample slack before the scales tip the other way.

The anti-Prop A side is hoping not to replicate its lackadaisical effort against the camping ban reinstatement, and this time is far more organized and well-funded.

Ultimately, it is the voters of Austin who have the final say and on Tuesday they have a choice: ratify the city's efforts to "reimagine" its police department or deliver a second heavy blow in a year to the progressive movement driving Texas' capital city even further left.

Brandon Daniel, Who Killed Austin Officer Jaime Padron, Found Dead In Texas Death Row Cell
By Tony Plohetski
Austin American Statesman

A software engineer sentenced to death in the 2012 fatal shooting of Austin police officer Jaime Padron was discovered dead in his cell on Texas death row, officials said Sunday.

Authorities are investigating how Brandon Daniel, 33, died, according to a statement from the Texas Department of Criminal Justice. However, officials said foul play does not appear to be the cause.

TDCJ spokesman Robert Hurst said that at 4:25 a.m. Saturday, a correctional officer at the Polunsky Unit in Livingston was doing security rounds when he found Daniel "unresponsive on his bunk. Officers entered the cell and determined that he was not breathing."

Medics arrived at the bunk a short time later, but Daniel was pronounced dead at 5:10 a.m., the statement said. As with all deaths of a person in prison not under a doctor's care, the Office of Inspector General is investigating and an autopsy will be performed.

Daniel shot and killed Padron on April 6, 2012, as the two struggled on the floor of a Wal-Mart near Interstate 35 and East Parmer Lane in North Austin. Padron, a Marine veteran and father of two girls, had been responding to complaints from the store's employees about a possibly intoxicated shoplifter.

Daniel was quickly arrested, and police found a magazine containing six hollow-point bullets in his pocket and $57 worth of food, alcohol and other store items in his backpack.

At downtown police headquarters, in a videotaped interview, Daniel told homicide detectives he had gone into the store with the intention to steal some vegetables but attempted to flee when he saw the police officer. At least three times, witnesses said, he had admitted, "I killed a cop."

Jurors deliberated for an hour before finding Daniel guilty of capital murder in February 2014, and they then needed just eight hours of discussion before sentencing the former software engineer to die.

The next year, Daniel sent state District Judge Brenda Kennedy a letter asking to waive his appeals.

“I want justice to be served, and I feel the punishment is appropriate for my crime,” he wrote. “We are both interested in saving the taxpayer’s money, the time of all involved and in sparing my family and the victim’s family any more angst than necessary. And finally, I would like my time in prison to be the least amount as possible.”

But Daniel’s appeals continued. Most recently, in 2018, the U.S. Supreme Court rejected his appeal without comment after Daniel’s attorneys argued that Kennedy had improperly communicated with jurors, among other claims.

It also said that his attorneys during trial acted deficiently by missing evidence that Daniel was autistic. The diagnosis could have explained what prosecutors called Daniel's lack of remorse and use of drugs and alcohol to self-medicate, giving jurors a reason to choose a sentence of life in prison instead of capital punishment, the appeal said.

No execution date had been set for Daniel.

A North Austin elementary school has been named in honor of Padron, who had been an Austin officer for three years but had worked for the San Angelo Police Department for 14 years.

Opinion/Editorial

Will Declines In Community College Enrollment Widen Texas’ Skilled Labor Gap?
Dallas Morning News

It’s no secret that the pandemic has taken a toll on K-12 student achievement. But now another consequence of the virus is having an impact on post-high school education in Texas.

According to a recent report from the Texas Higher Education Coordinating Board, community college enrollment in Texas is now lower than enrollment at the state’s four-year universities — for the first time since the 1990s.

About 80,000 fewer students, roughly an 11% drop, enrolled at community colleges during the pandemic. That compares to a 2% enrollment increase at public universities, flat enrollment at independent universities and a 10% gain at institutions specializing in health care.

The decline in enrollment hit all regions of the state but was particularly eye-opening in the Upper Rio Grande, Central Texas and the Dallas-Fort Worth area, which posted double-digit declines of 15.3%, 14.8% and 14.3%, respectively. Since 2019, all but four public community and state colleges in Texas reported enrollment declines.

This enrollment drop at community colleges deserves the attention of policymakers who have an ambitious goal of at least 60% of Texans ages 25-34 having a certificate or degree by 2030. Businesses, educators and lawmakers have touted community colleges as bridges for high school graduates to obtain marketable jobs and a less expensive way to complete prerequisites before moving on to a four-year institution.

A shortage of skilled workers existed prior to the pandemic, but now declining community college enrollment is worsening the shortage. By some estimates more than 70% of Texas jobs will require a postsecondary credential in the next decade or so, often the kind community colleges can offer. However, roughly one-third of Texas high school graduates fail to earn an additional degree or credential within six years of graduation.

And the report documents other disquieting trends about higher education in the state. Since 2019, according to the coordinating board, overall enrollment has dropped 5.5% among white students, 4.9% among Hispanic students and 3.8% among Black students.

And while women still outnumber men on college campuses, male enrollment increased by around 23,000 students from 2020 to 2021, while female enrollment decreased by roughly the same amount. So right now, about 40,000 fewer women are enrolled in higher education in Texas than before the pandemic. And the Legislature has done the state's 50 community college districts no favors, providing community colleges across Texas with significantly less than their funding request this year.

It is critical that our state removes barriers to community college enrollment and that community college students — often working adults with family and child care responsibilities — understand that a two-year degree can open doors to a better job and a brighter future. Texas needs an educated, skilled and adaptable workforce, and community colleges are an important pathway toward that goal.

SMU's $1.5 Billion Fundraising Campaign Targets The Needs Of North Texas
Dallas Morning News

Universities have multiple challenges, not the least of which are keeping pace with the educational demands of our society and providing opportunities for students from underserved communities to obtain a life-changing education.

Needless to say, that takes money and sustained commitments, which is why Southern Methodist University recently set what could be the biggest fundraising target ever by a private university in Texas. Even by the rarefied standards of university fundraising campaigns, $1.5 billion for scholarships, faculty research, educational partnerships and athletics is a remarkably lofty target.

Not only is this goal achievable in a community that embraces philanthropy and that answered SMU's call previously, it also is an important investment in the future of North Texas. SMU, for example, wants to raise more than $450 million to offer more need- and merit-based scholarships with a focus of making sure that students in North Texas who are eligible for Pell Grants can afford an SMU education.

Federal data shows that 9% of students received Pell Grants, which are awarded based on family income and the cost of college attendance, from 2019-20 and university stats show that roughly 12% of SMU's undergraduate students are currently Pell-eligible, more than half of whom come from North Texas.

SMU's thrust is significant for several reasons. Educational debt is an impediment for many students, especially for first-generation college students who worry that they will graduate with crushing financial obligations or

AMERICAN OVERSIGHT

drop out without a degree but debt obligations. These students may be mired in low-paying jobs when a college education would have given them brighter prospects. This dynamic also hurts employers, who will struggle to find talented and diverse workforces.

SMU also plans to raise and invest more than $600 million to step up its research capabilities to become an R1 university, a Carnegie Classification of Institutions of Higher Education designation reserved for institutions with a high volume of research and talented faculty. SMU has advanced from R3 status to R2 status and now has its sights on the top level. Further improvement in the rankings depends on the school's ability to continue to hire star-quality research faculty and provide them with top-flight resources, including post-doctoral staff.

SMU also is pursuing teaching, corporate, industrial and nonprofit partnerships, such as the West Dallas STEM School and Dedman School of Law legal clinics for those who cannot afford representation. And since this is Texas, SMU wants $450 million to invest in athletic facilities, programs, student-athletes and community outreach programs.

So far, the campaign is off to a good start with more than $654 million in pledges, including more than 90 individual contributions of $1 million. The pledges exceed the more than $542 million that SMU raised during a campaign from 1997 to 2002 and are on pace to eclipse the $1.15 billion that SMU raised between 2008 and 2015. And the results are tangible. The latter campaign delivered 689 endowed scholarships, 54 new endowed faculty positions and significant funding for 24 major new facilities or renovations.

North Texans regularly demonstrate great generosity for great causes, and we hope and expect our community will step up again. If SMU succeeds here the university will be stronger for it and our city and region will reap benefits from it for generations to come.

Texas Needs To Watch, Learn From The Deadly Alec Baldwin Shooting On Film Set
Houston Chronicle

Vexing questions remain about what actually happened Oct. 21 on the set of a movie being made near Santa Fe, N.M., when an antique Colt .45 discharged as it was being used as a prop by actor Alec Baldwin during rehearsal of a scene. A projectile from the revolver struck and killed Halyna Hutchins, director of photography on the movie, a Western called "Rust." Joel Souza, the director, was standing beside Hutchins and was injured.

The tragic incident prompted understandable anguish on the part of all who knew the 42-year-old Hutchins, a highly regarded cinematographer, as well as a wife and mother. Ongoing police investigations are asking how a gun that was declared "cold" — that is, safe to fire — as it was handed to Baldwin could have killed someone.

What happened on a New Mexico movie set also should prompt serious soul-searching far beyond the movie industry. We have in mind those among us who don't take firearms seriously enough. Texas elected officials, careless in their Second Amendment convictions and craven in their kowtowing to gun-rights zealots, come to mind immediately.

Similar accidents on movie sets have happened before, although they are rare, thanks in large part to strict safety rules. A 2016 Associated Press investigation found that at least 43 people had died on sets in the U.S., going back to 1990; more than 150 had suffered serious injuries. A tiny percentage of those deaths were specifically attributed to firearms being used as props, even though guns are integral to countless movies.

AMERICAN OVERSIGHT

The gun death most often remembered is that of 28-year-old Brandon Lee, son of the late martial arts star Bruce Lee. The younger Lee died in 1993 while filming a scene for the movie “The Crow” after being hit by a .44-caliber slug fired from a prop gun supposed to have been filled only with blank rounds.

Lee’s death was the last recorded accidental death by a gun that was being used as a prop on a movie set. Nearly a decade prior, actor Jon-Erik Hexum was killed on the set of the TV series “Cover Up.” He shot himself in the head while playing Russian roulette with a gun loaded with blanks, which can still be deadly at very close range.

Investigators say there was "some complacency" in how weapons were handled on a movie set where Alec Baldwin accidentally shot and killed a cinematographer and wounded another person. (Oct. 27) Video: Associated Press

In large part because of those two deaths, film makers today are expected to rigidly adhere to page after page of detailed regulations regarding firearms on set. Their bible, so to speak, is “Safety Bulletin” No. 1, posted anytime a set will involve the use of firearms and compiled and distributed by the Industry-Wide Labor-Management Safety Committee.

The bulletin goes on to lay out comprehensive instructions for firearms protocol. The general rules include never pointing a firearm at anyone; never placing your finger on the trigger until you’re ready to shoot; knowing where and what your intended target is; no horseplay with any firearms; never discharging a weapon when the barrel is clogged; and never laying down a firearm or leaving it unattended. Additional regulations speak to movie-production specifics.

Those basic instructions, of course, are well-established rules familiar to all who deal with firearms regularly, from law enforcement officers to the military. It includes many members of the National Rifle Association, particularly those members who recall when their organization was dedicated primarily to shooting safety and basic firearms instruction, rather than to high-pressure lobbying and the wholly invented notion of Second Amendment absolutism that it has championed of late. Mistakes happen, rules are broken and people get careless, but those who know guns best are well aware that rules, regulations and strict protocols save lives.

While cops, soldiers, NRA firearms instructors and responsible gun owners — not to mention Hollywood filmmakers — are usually dead serious about firearms, Texas lawmakers are not. They’re irresponsible “huckleberries” when it comes to gun sense.

A responsible elected official would not have supported legislation in the previously concluded session that makes it almost as easy for an adult Texan to walk into a sporting-goods store and purchase a gun as it is to buy a fishing rod or a camping tent.

Make your choice, put down your credit card and pass a perfunctory background check, and you’re not only a gun owner but fully authorized to carry it with you just about anywhere you want to go. No licensing needed, no training in laws and safety, no demonstrated proficiency in shooting. Just grab that gun and go.

Go to church with it on your hip or in your purse; go to Applebee’s and tuck into the Sizzlin’ Caramel Apple Blondie armed; sit in the stands locked and loaded at Little League games; pray in a pew at church with a pistol on your hip. You’ll never know when and where you’ll have to whip it out and use it, regardless of your skill level or good judgment.

No wonder so many Texas police chiefs opposed the so-called permitless-carry legislation that Gov. Greg Abbott signed in June.

AMERICAN OVERSIGHT

Firearms are ubiquitous on movie sets; deaths and injuries are rare. Firearms are ubiquitous in American society, particularly in Texas and the South; deaths and injuries are anything but rare.

In 2020, gun violence killed nearly 20,000 Americans, the highest total in two decades, according to data from the Gun Violence Archive. An additional 24,000 people in this country used a gun to kill themselves. Those figures combined are 25 times higher than any other developed nation.

And the state with the highest number of gun deaths in 2020, in 2019, and many years before that? That would be Texas, Our Texas, with 3,683 last year.

Mortality data from 2019, the most recent year for which the U.S. Centers for Disease Control and Prevention has reported, shows that even on a per-capita basis, gunshots kill more Texans each year than in America's other largest states, including California, Pennsylvania, Illinois and New York, where fewer than 900 accidental gun deaths took place. Among the six biggest states, only Florida's gun death rate matched our own.

In the wake of the tragic New Mexico incident, the movie industry is already considering even stricter rules, including potentially banning real guns on sets, and relying on computer-generated images instead. A senior California lawmaker has already filed a bill that would ban the use of live ammunition, and guns capable of firing it, from sets.

Given Texas' terrible track record of deadly shootings, including some of the nation's worst mass shootings, a Texas lawmaker truly committed to the public's safety would be looking for solutions, too. Worthy ideas abound: investment in community violence interruption programs, prohibiting individuals convicted of domestic violence crimes from possessing firearms, pushing for secure storage of guns at home, funding gun-violence research, to name a few.

If only ideas and common sense were enough. They aren't though, not without political courage.

We live in Texas, of course, where gun laws are more relaxed than they were in the real Wild West of Dodge City, Tombstone and Old Tascosa. Until we begin electing lawmakers serious about gun safety and violence prevention, thousands of dead Texans will continue to be collateral damage in our faux Wild West. To the gun lobby and those irresponsible officials who profess their fealty to it, lax gun laws are more important than life itself.

Wall Street Vs. Texas politicians: Could Their Tense Relationship Worsen Before It Gets Better?
By Max Abelson
Bloomberg

Outside San Antonio this month, a veteran of Texas politics got so upset about Wall Street's retreat from fossil fuels that he compared the oil industry's fight for funding to the civil rights struggle.

In Dallas, a hedge fund manager trading junk bonds on his iPhone lamented his upcoming move to the posh Highland Park neighborhood, fearing locals might brand him an outsider even though he relocated from New York years ago.

And at an Austin diner, a finance executive whose grandfather was governor hoped for compromise between Wall Street and the Lone Star State, but warned it may get worse before it gets better.

Welcome to the tense battle brewing between Big Finance and Texas. Just a few months ago, drawn by the promise of low taxes and light regulation, some of the largest banks and asset managers in the U.S. were ramping up their flight from the coasts.

Then Gov. Greg Abbott signed a law banning state investments in firms that cut ties to oil and gas and another blocking local governments from working with banks that limit their lending to gun companies. That halted business for some top municipal-bond underwriters.

JPMorgan Chase & Co., Bank of America Corp., Citigroup Inc. and Goldman Sachs Group Inc. have all stopped muni underwriting in the state, at least for now.

But what's happening in Texas isn't just about muni bonds or a Republican governor leaning to the hard right in a bid to win reelection next November. It's a broader conflict between a state that would be among the world's top economies if it were its own country and an industry whose leaders have begun to raise their voices on social issues from racial equity to climate change while pledging to consider stakeholders besides investors.

Interviews with more than a dozen bankers, traders and investors suggest that when Texas decides banks have gone too far, it presages a bigger struggle over corporate power and the reach of Wall Street's influence.

Bigger than munis
"This is much bigger than the municipal bond business," said Phil Gramm, a former Republican U.S. senator from Texas. "This is the beginning of telling Wall Street that if

AMERICAN OVERSIGHT

you're going to discriminate due to your fealty to special interest groups, you're going to have to pay for it."

Gramm helped write the law that allowed for the creation of Citigroup and other Wall Street giants, and later was vice chairman of UBS AG's investment bank. He prefers to use what he calls the language of the civil rights movement, comparing an oil driller's ability to borrow funds to the right to sit at segregated lunch counters: "Discrimination is discrimination."

Until recently, the finance industry's ties to Texas had never looked stronger.

Goldman Sachs has been on the hunt for a new Dallas-area campus that could be its biggest in the U.S. outside Manhattan.

And Vanguard Group announced a new Dallas-Fort Worth office not too far from fresh space for hedge fund Canyon Partners.

Inside an Austin restaurant called Cisco's, where a wall of luminaries includes a photo of former Gov. Bill Clements, his grandson George Seay ate huevos rancheros with biscuits and gravy.

Seay, founder of investment firm Annandale Capital, said it was "a big, big move" when JPMorgan boss Jamie Dimon and other top executives said in 2019 they're redefining the purpose of corporations to benefit workers and communities, not just shareholders.

The way he sees it, things are coming to a head in Texas because corporations have "become woke" just as Abbott, who's running for a third term, is signaling to supporters that he's the biggest conservative in town.

Texas all but banned abortion this year and stopped transgender high school athletes from playing on teams that don't align with their birth certificate. When North Carolina passed a parallel bathroom bill five years ago, corporate boycotts helped pressure the state to abandon it.

"That's not going to work down here," Seay said last week.

Instead of one side getting its way on social issues, he said, executives and politicians will have to each make compromises. "You can be friends with someone who doesn't agree with you."

'We need the brains'

When Bobby Tudor moved to Texas decades ago, Goldman Sachs colleagues told him he was making a mistake. But then they gave him a hard time around bonus season because he got to keep so much more of it than colleagues in New York, where taxes are higher.

"My answer was: 'Move to Texas, dude,'" Tudor said.

AMERICAN OVERSIGHT

Some of them did.

Tudor, who co-founded the energy-focused investment bank Tudor, Pickering, Holt & Co., said Texas didn't start this fight. Corporate leaders are "feeling compelled to speak out and take positions on all sorts of matters that aren't necessarily central to their business."

In an office that looks down on the Houston Ship Channel, he said people in Texas feel their "version of a great world isn't the same as Larry Fink's." He added that the Greater Houston Partnership, a group of business leaders he has helped run, supports the right of businesses to require vaccinations, something Abbott has tried to ban.

Asked about the tension, Abbott said "people and businesses vote with their feet, and month after month they are choosing to move to Texas." He cited the pull of "no corporate or personal income taxes, a predictable regulatory climate, and a young, growing, and skilled workforce."

The fight is already spreading past Texas.

Last week, a panel in Louisiana delayed approving a $700 million state bond sale set to be underwritten by JPMorgan while the attorney general presses for information on the bank's gun policies. Dimon told Congress this year that his bank doesn't finance gun companies that sell military-style weapons to consumers.

Over the years, it's frustrated Dallas real estate investor and developer Lucy Billingsley to watch Texas pass socially conservative laws she can't support. Even so, she adores the state's pro-business environment, those low taxes and light regulation.

She wants finance firms to embrace that same calculus.

"Come engage and lead," she said. "We need the brains — and we need to make this a better place."

[BACK TO TOP]

Gubernatorial Hopeful Don Huffines Says His Texas Senate Loss Tainted By 'Election Irregularities'
By Robert T. Garrett
Dallas Morning News

GOP gubernatorial hopeful Don Huffines is alleging there were voter irregularities in his losing race against Democratic state Sen. Nathan Johnson of Dallas in 2018.

Johnson won by some 24,300 votes out of nearly 294,000 cast and at the time, Huffines conceded and tweeted a pledge that he would work for a smooth transition with Johnson.

AMERICAN OVERSIGHT

Although Huffines in 2018 did not publicly suggest that Johnson's 8-point victory was tainted, his concession tweet has been deleted and he said last week that he believes he was "ripped off in '18 when I lost my election."

Election "fraud" has become a campaign issue for Republicans since former President Donald Trump called the 2020 presidential contest rigged, even after dozens of judges, some of whom he appointed, and his own Justice Department dismissed the allegation as baseless.

After the November 2018 midterms, "numerous Texans" came to Huffines with "concerns of election irregularities in Dallas County, including in SD 16," or Senate District 16, he recounted Thursday in a written statement to The Dallas Morning News.

A day earlier, Huffines claimed he'd been "ripped off" in the 2018 state Senate race at a gubernatorial candidate forum in Decatur.

Moderator Shelley Luther, the former Dallas hair salon owner who went to jail for refusing to shut down during the coronavirus pandemic, asked Huffines and fellow Republicans running for governor for their thoughts on "election integrity," early voting and mail-in ballots. Huffines cited his 2018 defeat as illustrating why the state needs a bigger agency to investigate vote fraud.

In 2018, through an election lawyer he didn't name, Huffines recounted that he relayed the allegations to Attorney General Ken Paxton's office. So did some of the other unnamed Texans who had shared their suspicions with him, Huffines said.

"Unfortunately, due to being heavily understaffed, the AG's office is just not able to sufficiently investigate everything that comes their way," he said in his statement to The News.

At Wednesday night's forum, which Gov. Greg Abbott declined to attend, Huffines said people can "dream on" if they think the attorney general's office has sufficient staff to be able to thoroughly investigate election irregularities.

"People have cheated in an election since there's ever been elections," Huffines said at the event, sponsored by a tea party-style group, Wise County Conservatives.

"I think the cavemen probably cheated each other," he said. "Republicans cheat. Democrats cheat. There's no question about that."

Huffines is proposing a new 500-person agency for anti-corruption and election-related probes.

"They're going to be familiar with every law, every election law," he told conservative activists in Wise County, speaking of the proposed agency.

AMERICAN OVERSIGHT

“They’re going to know where the software is, who owns the software, where the machines are. They’re going to be in between the two parties. They are going to follow the ballots. Most important, you’ve got somebody that you can call when you know other people are cheating.”

As of late Saturday, the plan was not mentioned in the issues section of his campaign website.

Nor did Huffines spokeswoman Hannah Sacia respond to queries about where in state government the “government corruption and election integrity division,” as Huffines called it at the forum, would be located.

While Paxton has an election fraud unit, his budget request to the Legislature about a year ago does not specify how many people work in the office, which is apparently a part of his office’s Special Prosecutions Division. In December, the Houston Chronicle reported that the office had 17 law enforcement sergeants and four prosecutors.

Last week, a Paxton spokesman did not respond to an email requesting the number of full-time employees who are investigating alleged voting irregularities.

“Expecting for the AG’s office to investigate all potential fraud is simply unrealistic,” Huffines said in his statement to The News.

Johnson, a lawyer who specializes in commercial litigation and bankruptcy in the Dallas office of the international law firm Holland & Knight, ran as a centrist Democrat. He criticized Huffines, a real estate developer, for veering too far right. “I can help you get your party back,” Johnson told Republicans at the time.

Senate District 16, though recently changed by GOP map makers, stretched east from DFW International Airport to Rowlett, north to Addison and south to Uptown Dallas.

Told of Huffines’ Wednesday remarks, Johnson late last week said, “I do recall that shortly after the election he expressed the opinion that there were some irregularities, hinting at fraud.”

However, “at the time he did not, so far as I know, push the notion that absent the ‘irregularities,’ he would have won,” Johnson said in a text message. “The notion is laughable, and I believe he knows that. Which makes any present suggestion to the contrary disingenuous political BS.”

Sacia, the Huffines spokeswoman, did not respond to Johnson’s remarks.

AMERICAN OVERSIGHT

As Texas Politics Become Nationalized, Gov. Greg Abbott Moves To Squash GOP Critics Outside Of State

By Gromer Jeffers Jr.
Dallas Morning News

The nationalization of Texas politics has created a challenge for Texas Gov. Greg Abbott, who's had to fend off criticism of his border security approach and endure former President Donald Trump's insistence on election audits.

Moderates and Democrats charge that Abbott has gone too far right with his conservative agenda. They decry his plan to finish Trump's border wall, deplore the state's new law that limits mail-in voting and denounce Texas' law that bans abortion after six weeks of pregnancy.

Gov. Greg Abbott is pushing back on accusations that he hasn't thrown enough military muscle into stopping a surge of migrants at the Texas-Mexico border. Abbott, shown at a Fort Worth press conference after signing a border-security funding bill into law in Fort Worth last month, said on Fox News' Tucker Carlson show late Thursday that Texas has 6,500 National Guard and state troopers on the border.

That's just a sample of the bounty of conservative legislation approved by the Legislature this year over four legislative sessions. Abbott also has banned vaccine mandates and passports.

But that isn't enough for some national conservative voices that influence conservative voters.

Ordinarily, what folks outside the state think about the Texas governor isn't of great concern. It's the view inside Texas that counts the most.

But Abbott is dueling with Florida Republican Ron DeSantis for the conservative title of America's governor. The person who fills that role could be a contender for a national ticket in 2024, depending on whether Trump makes another run for the White House.

More urgently, Republican activists are swayed by the coverage they see on conservative media networks. If the national media has negative perceptions of an elected leader or political candidate, it could result in a backlash at the polls.

"Between COVID and the border situation, local issues have become nationalized," said former Dallas County Republican Party Chairman Jonathan Neerman. "Border security is a very important issue to voters around the country, and they naturally focus on Texas because that's where the issues with migrants have been."

Former state Sen. Donald Huffines of Dallas and former Texas GOP Chairman Allen West of Garland are the leading challengers against Abbott in the 2022 Republican

AMERICAN OVERSIGHT

primary for governor. They have been pointed in their criticism of Abbott's record, including on border security issues.

Neerman doesn't put much stock in that criticism, countering that Abbott should be heavily favored to win his March primary contest. But he does add that national figures dabbling into Texas politics often have a distorted view.

"Whether it's election security or border security, this governor has done an awful lot," Neerman said. "And this legislative session showed that, but it's not going to satisfy people who don't live in the state."

Tucker Carlson criticism

For the past several weeks Abbott's record on border security hasn't been satisfactory to popular Fox News host Tucker Carlson. Last month, Carlson, whose show is the highest-rated news program on cable television, began lambasting Abbott for not deploying enough personnel to interrupt a rising tide of unauthorized immigrants that Republicans blame on President Joe Biden's immigration policies.

Although Abbott has secured nearly $3 billion from the Legislature this year to significantly ramp up the state's border security effort, including a plan to put 2,500 Texas Military Department personnel there, some staunch conservatives are calling it too little, too late.

Even more galling to Abbott and his supporters, Carlson invited Huffines and West to appear a week apart on his prime-time show to discuss the governor's alleged failure to supply enough soldiers. That prompted a flurry of Abbott social media posts supportive of the soldiers. "Join me in thanking the Texas National Guard for their daily work to secure our border," Abbott tweeted on Sept. 22.

Secure in the need to respond, Abbott last Thursday appeared on Carlson's show. Interested parties waited for fireworks.

Abbott had been prepped for a tense exchange, but it didn't occur. Carlson asked the governor a couple of questions about border security. They bashed Biden's efforts.

"We now have 6,500 National Guard and DPS troopers on the border to help secure the border. And as we're talking right now, they are identifying locations on the border where they are laying down razor wire to secure all the possible crossings that these caravans may be coming to," Abbott told Carlson.

Abbott said the National Guard and Department of Public Safety were placing large metal shipping containers at places that "could be crossings" for migrant caravans sighted in Mexico. He said state officials have advised him that portions of his proposed state-built border wall will be erected by Dec. 31.

Carlson didn't challenge Abbott, and the short segment closed without fireworks.

AMERICAN OVERSIGHT

The Trump factor
The Abbott/Carlson episode comes after Trump prodded Abbott to support a forensic audit of the 2020 Texas elections. Yes, the same elections that resulted in Trump's comfortable victory over Joe Biden in the Lone Star State's presidential contest.

Though it was difficult and perhaps unwise for Abbott to publicly engage with Trump, he'll probably make more appearances on national conservative shows, especially if designed to defend his name.

"This is part of the nationalization of state politics in Texas," said Jim Henson, director of the Texas Politics Project at the University of Texas at Austin. "It's very hard to ignore that kind of criticism because your base is plugged into those media outlets."

Henson said Republicans across the U.S., including those in Texas, are eager to appear on conservative networks. Frequent voters watch the shows on networks like Fox News.

"A lot of state officials, including in Texas, benefit from appearing on those shows because it's a great way to get their message out, and building some degree of a national profile is a bonus," Henson said. "But there's a downside to that. You can't guarantee the most well-known figures on those outlets are going to always be your friend, are going to always approve of what you do and are always going to be on your side."

In the contentious era of Trump, Republican voters are increasing connected to national themes. That's why Abbott and GOP lawmakers pushed a legislative agenda filled with issues familiar to folks across the country, including the new elections law, banning the teaching of critical race theory, curbing so-called social media censorship and regulating transgender athletes.

At a forum earlier this spring, several Republican candidates to replace the late Ron Wright in Congress touted their ability to get on national television. Jake Ellzey eventually won the race over Susan Wright, the Trump-backed candidate.

And it's not just Republicans who crave the national spotlight. Texas Democrats are swayed by progressive programming on networks such as MSNBC and CNN.

"You kind of make a deal with the devil and then you're kind of stuck with it," Henson said. "There's that dynamic in which there's a slant to the discussion and the coverage, and it can benefit you, but then you have to deal with it when it hurts you."

[BACK TO TOP]

Texas Legislature

With Grades Like These For Political Maps, Texas Won't Be Making The Honor Roll

AMERICAN OVERSIGHT

By Ross Ramsey
Texas Tribune

Republican legislators in Texas and Democratic legislators in Illinois have something in common: When it comes to drawing new political maps, they don't play fair.

The Redistricting Report Card, a collaboration between the Princeton Electoral Innovation Lab and RepresentUS, gives the new Texas congressional map an F for partisan fairness, saying it's drawn for "significant Republican advantage."

The congressional map scored better on competitiveness, meriting a C. But it got another F for geographic features, with the graders saying it has a lot of non-compact districts and that more districts split counties than necessary. In this case, a C is "average for the category, could be better, but also could be worse," and an "F" is "poor for the category, could be much better."

With Republican majorities in both the House and the Senate, and Republicans in every single statewide office, it's fair to say Republicans are responsible for those results.

Democrats would never do that, right?

Turn your attention to the great state of Illinois. The Redistricting Report Card gives Illinois' new congressional maps an F in every category: partisan fairness, competitiveness and geographic features. Their governor is a Democrat, as are both houses of their Legislature. The state has 17 seats in its congressional delegation, and 14 of the districts are drawn to favor Democrats. Based on the results of the last presidential race, that ought to be more in the range of 10 Democrats and seven Republicans.

The two states illustrate the conflict of interest wired into their redistricting laws, which let the people who hold legislative seats draw the districts where they compete to keep their jobs and their party majorities.

It's designed for political majorities to continue their dominance and for incumbents in both parties to keep their powerful posts, and it shouldn't be a surprise when it works the way it's rigged to work.

Texas' new congressional map has more Democratic seats than the current map, if you're measuring districts according to their average margins of support for Democrats and Republicans.

Those gains didn't come from Republicans: Lawmakers, according to an analysis by FiveThirtyEight, cut the number of competitive districts — those with less than a 5-percentage-point advantage for either party — from six to just one. The other 37 districts are solidly Republican or Democratic.

AMERICAN OVERSIGHT

Texas has 13 Democrats and 23 Republicans in its congressional delegation now; the new maps, which add two seats overall, have 13 districts where Joe Biden would have won in 2020 and 25 where Donald Trump would have won, according to Texas Legislative Council data.

If the 2020 presidential result is the measure, that delegation ought to have about 20 Republicans and 18 Democrats.

Texas lawmakers also drew maps for themselves, now signed into law by the governor and already the subject of litigation over the legality and fairness of the new districts. The report card gives the Texas House map a C for fairness and a C for geographic features, but an F for competitiveness. That's an indication that the maps were drawn, as much as possible, to favor one party or the other — not to set up general election fights either side might win. Overall, it still favors Republicans, but not to the extent the congressional map does.

The Texas Senate map also scored better than the state's congressional map for partisan fairness. But the project gave it F grades for both competitiveness and geographic features. It could be more competitive, in other words, and the districts could be a lot more compact.

If the maps hold — remember that they're being contested in federal court — they point to a lot of uncontested general elections for federal and state legislative seats. That moves the focus to the primaries, which can be competitive no matter which party has the upper hand.

Those are harder to rig.

[BACK TO TOP]

State News

Get Updates On The U.S. Supreme Court Hearings On Texas' Near-Total Abortion Ban
Texas Tribune

The U.S. Supreme Court will hear two high-profile legal challenges to Texas' near-total abortion ban that prohibits the procedure as early as six weeks, which is before many people know they are pregnant. The arguments are slated to begin around 9 a.m. Central time Monday.

Under Senate Bill 8, enforcement of the new restrictions is left to private citizens instead of state officials because it allows anyone to file lawsuits against people who perform or assist someone in getting an abortion. People or groups that are successfully sued can face penalties of at least $10,000. It's a restrictive law that, if upheld, ends abortion

AMERICAN OVERSIGHT

access for millions across the state. The most recent court ruling on the issue allowed the law to remain in effect while the law works its way through the appeals system.

The arguments the high court is hearing Monday, however, are not expected to be focused on the constitutionality of abortion. The first case, brought by the U.S. Department of Justice, is about whether the U.S. can file legal battles targeting Texas, judges and others to prevent people from being sued under the state's new abortion law. This could bring clarity to who can be sued in any attempt to challenge SB 8 from being enforced. In the second case, brought by abortion providers, the court will consider whether a state "can insulate from federal-court review a law that prohibits the exercise of a constitutional right" by offloading its enforcement to the general public.

But while the arguments in the cases brought Monday are narrow, the justices can ask any questions and ultimately issue any ruling they wish — which makes it hard to predict exactly what could happen. However, watchers of the court and legal experts agree a broad ruling is unlikely. It is also unlikely that a ruling will come Monday.

Listen to the proceedings live here, follow the coverage of The Texas Tribune's Reese Oxner below and check out our related coverage.

Read more coverage about the state's near-total abortion ban here:

- We annotated the provisions of Senate Bill 8 that outline the enforcement process, perhaps the most unusual aspect of the state's near-total ban.
- The law's unusual enforcement mechanism is leaving abortion providers across the state without a playbook to respond and few options to fight the restrictions in court.
- This new law is the latest, most devastating blow from lawmakers who have been on a warpath to steamroll abortion access for decades. Getting an abortion in Texas has become more difficult than anywhere else in the nation.
- While the law has widely been referred to a six-week ban, the reality is closer to two weeks. Calling it strictly a six-week ban fails to take into account the nuance in circumstances many people face when it comes to pregnancy.
- A Texas doctor from San Antonio is already facing two lawsuits for performing an abortion illegally under the state's new law. He announced that he performed the procedure in a Washington Post column, saying that he "wanted to make sure that Texas didn't get away with its bid to prevent this blatantly unconstitutional law from being tested."
- In addition to this Texas law, advocates on both sides are closely watching a highly anticipated Mississippi case heading to the U.S. Supreme Court that could overturn Roe v. Wade. If the court were to overturn Roe, however, it could lead "trigger laws" across 12 states — including Texas — that ban all abortions to go into effect.

AMERICAN OVERSIGHT

How Today's Near-Total Abortion Ban In Texas Was 20 Years In The Making.
By Kevin Reynolds
Texas Tribune

Here is a list of Texas laws since 2000 that restrict abortion access.

2000 – First parental notification law goes into effect

Doctors must notify a parent 48 hours before an abortion is performed on a child under the age of 18. Notification can be waived if a teen seeks permission from a judge for the procedure, known as "judicial bypass."

2003 – The "Women's Right to Know Act."

- All abortions after 16 weeks must take place in an outpatient surgery center or a hospital.
- Women must wait 24 hours before getting an abortion.
- Additions to the law come in 2011.

2005 – 24-week ban, more restrictions for teens

- All abortions banned after 24 weeks of pregnancy.
- Tightens previous parental notification law. Doctors must have court order or parental permission to perform an abortion on underage teens. A requirement that the required form must be notarized, was added in 2006.
- All abortions banned after 24 weeks of pregnancy.
- State funding provided to crisis pregnancy centers and other nonprofit organizations that counsel pregnant patients against having an abortion.

2011 – Sonogram law, taxpayer dollar restrictions

- Women are required to get a sonogram 24 hours before an abortion.
- A physician must display and describe the sonogram to the woman, including the dimensions and features of the embryo or fetus. Also, the physician must describe and make the heartbeat of the fetus audible so that the woman can hear if a heartbeat is present.
- Texas agencies can no longer use tax dollars to provide or "promote" abortions and they are forbidden from from contracting with facilities that provide abortion care.

2013 – More restrictions on doctors, facilities, patients, "medication" abortion

- Doctors performing an abortion must have admitting privileges at a hospital within 30 miles of the abortion facility.
- Abortion after 20 weeks post-fertilization is banned, unless a patient is at risk of death or the fetus has a severe medical problem.

AMERICAN OVERSIGHT

- Doctors administering medication abortion must follow a state-mandated protocol.
- All abortion facilities must meet the standards of ambulatory surgical centers, even if a facility provides abortion only by administering pills to swallow.

2017 – Second-trimester abortions, restrictions on insurance coverage

- Texas banned the most-used procedure for second-trimester abortions, forcing doctors to either use experimental procedures or stop providing second-trimester abortions altogether. Abortion rights advocates challenged this law as an undue burden on the right to abortion, and a court agreed and stopped the law from going into effect.
- Texas bans insurers from including coverage for abortion in a comprehensive health insurance plan, requiring people to purchase separate coverage for abortion care.

2019 – Stricter rules on government partnerships, assistance

- Criminal penalties for abortion providers who do not provide medical treatment to a fetus if born after an abortion. This scenario is virtually impossible because all abortions are banned after 20 weeks and a fetus is not viable until 24 weeks.
- Government entities prevented from entering partnerships or providing assistance to clinics that are affiliated with abortion providers, even if they do not provide abortion themselves. This cuts off vital support to communities who rely on these low-cost clinics for basic health care like birth control, gynecological exams, cancer screenings, diabetes testing and much more.

2021 – Texas Heartbeat Law

- Bans abortion as early as six weeks in pregnancy, when an embryo's cardiac activity is detected — before many people know they are pregnant.
- Also authorizes private individuals to file civil lawsuits to “enforce” the abortion ban. This allows anyone to sue the health care provider and seek a court order that would block the patient’s abortion and prevent the provider from performing any abortion after approximately six weeks in pregnancy.

Texas’ New Abortion Restrictions Facing Biggest Legal Review Yet Monday At U.S. Supreme Court
By Morgan O’Hanlon
Dallas Morning News

The U.S. Supreme Court will soon make a decision that will put a more lasting end to the legal ping pong match playing out in the federal courts system over enforcement of the country’s most restrictive abortion law.

For months, the U.S. Department of Justice has been battling Texas over a new law that outlaws abortion after about six weeks of pregnancy. A series of rulings, appeals and requests have been filed in federal courts across the country as the DOJ attempts to block enforcement as the battle plays out.

The injunction hearing Monday will settle the question of whether the law can be enforced for the time being. Although it's possible that the Supreme Court will weigh in on the constitutionality of the law, thus reexamining Roe v. Wade, it's widely expected that the court will set a later trial date. That would mean the future of abortion access across the country will more likely be decided in a case challenging Mississippi's abortion restrictions, in which arguments are set to begin on Dec. 1.

Currently, enforcement continues because the 5th Circuit Court of Appeals allowed it to resume, overriding a previous injunction placed on the law by a federal district judge in Travis County.

Because the injunction is stayed, lawsuits can be filed in the future against those who break the law while the injunction was active. So far only three lawsuits are known to have been filed under SB 8 — all against a San Antonio physician who publicized an illegal abortion he performed after SB 8 went into effect.

In federal courts, lawsuits including the DOJ case focus on getting an injunction on the law and challenging its constitutionality. The DOJ has argued an injunction is necessary because the Texas law is currently infringing upon what it says is a constitutional right to abortion. Additionally, it says the state's attempt to circumvent rule of law through an unusual enforcement mechanism sets a dangerous precedent.

Meanwhile, in Texas state courts, plaintiffs who provide women's healthcare have attempted to ward off litigation by seeking injunctive orders against the most likely enforcers bill: vocal anti abortion groups and individuals like Texas Right to Life.

The DOJ lawsuit isn't the only lawsuit filed to challenge the Senate Bill 8. More than a dozen lawsuits challenging the law have already been filed, with the one brought by President Joe Biden's Department of Justice currently carrying the most momentum.

Legal action against SB 8
These are the SB 8 lawsuits you need to know about:

Filed by: U.S. Attorney General Merrick Garland challenged the constitutionality of SB 8.

Status: Injunction hearing set to begin November 1 to make a decision about the DOJ's request that the Supreme Court block enforcement of the law. Currently, the stay placed by the 5th Circuit is set to last at least until arguments in the case are heard, which could be weeks or months.

AMERICAN OVERSIGHT

This case, filed in the Western District of Texas, claims the new law is unconstitutional under Supreme Court precedent and accuses Texas of undermining the rule of law by attempting to avoid judicial review.

Filed by: Planned Parenthood affiliates challenge to potential SB 8 enforcers.

Status: Injunction granted, court date set for April 2022. Stay halts proceedings until lifted.

This case filed in State District Court in Travis County attempts to block enforcement of SB 8 against three Planned Parenthood clinics in Texas and one of its physicians by Texas Right to Life and its collaborators. Although a stay has indefinitely postponed proceedings, the injunctive relief remains in effect and a court date still stands for April. A request to lift the stay has been denied by the Texas Supreme Court.

Filed by: Attorney Elizabeth Myers filed multiple on behalf of abortion providers, clinics, attorneys and abortion funds to challenge potential SB 8 enforcers.

Status: Stayed; indefinitely postponed.

Temporary restraining orders protecting her clients from being sued by Texas Right to Life and its collaborators have expired. A panel of five Texas judges put a stay on these cases, indefinitely postponing proceedings in these cases, including a hearing originally scheduled for Oct. 4 in which Myers sought an extension of injunctive relief for her clients. A request to lift the stay has been denied by the Texas Supreme Court.

Filed by: Whole Woman's Health, Planned Parenthood and other abortion clinics and providers to challenge the constitutionality of SB 8.

Status: Emergency injunctive relief denied, arguments to be heard in December.

The first federal lawsuit against the new abortion law was blocked by the 5th Circuit Court of Appeals. Arguments in this case will begin in December.

Lawsuit filed under SB 8 provisions
Filed by: Two out-of-state former lawyers and an anti-abortion rights Houston resident.

Status: The cases in State District Court haven't had hearings set.

Former attorneys in Arkansas and Illinois filed lawsuits in September against Dr. Alan Braid, who in a Washington Post opinion column became the first Texas abortion provider to publicly reveal he violated the law that took effect on Sept. 1, The Associated Press reported. Shortly after those lawsuits were filed, Houston resident became the first anti-abortion rights party to filed a lawsuit under the law.

Business/Economy

Texas Triangle Is Key To Economic Growth, But Brings Big Changes
By Chris Tomlinson
Houston Chronicle

The biggest Texas industries in 1960 were agriculture and oil and natural gas, and most of the state's 9 million residents lived in small towns outside Houston, San Antonio, Dallas-Fort Worth and Austin.

Politics were simpler then, with conservative Democrats holding almost every elected office. Whites made up the majority and enforced strict segregation and systemic oppression of people of color. Any white man who showed up at a state university with tuition could attend, though few jobs required more than a high school diploma and the right flesh tone.

The biggest challenges businesses faced were the weather and a lack of good farm-to-market roads. Chambers of commerce demanded low taxes, limited government and lax labor laws, which the Legislature happily delivered.

Tomlinson: Texas must change beef culture to fight climate change

Too many Texans long for those days of yore, and some politicians are trying their best to resurrect them. But the authors of a new book, "The Texas Triangle: An Emerging Power in the Global Economy," explain why those days are gone and how continued success requires new thinking.

I've been pounding on this theme for years, but the book's authors are far more qualified to make the case. They include Henry Cisneros, former San Antonio mayor and secretary of housing and urban development during the Clinton administration; David Hendricks, former San Antonio Express-News business editor; J.H. Cullum Clark, director of the Bush Institute-SMU Economic Growth Initiative; and William Fulton, director of the Kinder Institute for Urban Research.

Texas A&M Press gave them 300 pages to explore how far Texas has come, its current strengths and weaknesses, and where we might go next.

The Texas Triangle is drawn on the interstates between San Antonio, Houston and Dallas-Fort Worth. More than 80 percent of Texas's population growth has been within the triangle since 1960, and 60 percent of Texans live and work within it today.

The triangle's economic activity totaled $1.3 trillion in 2018, producing more than Mexico, Indonesia or Saudi Arabia. It accounted for 6.9 percent of U.S. gross domestic product.

AMERICAN OVERSIGHT

Nearly 60 percent of the state's population is non-Anglo, and soon Hispanics will be the largest ethnic group. Finance, insurance and real estate are Texas's most lucrative fields, followed by manufacturing. Oil and gas comes in third, with business services fourth and government fifth.

"Texas is more closely linked to the world economy, and through a more complex web of connections, than ever before," the authors write. "Now that Texas is an urban state, it must shed its own self-image as rural. Texas's enormous growth requires new thinking about policies and priorities."

Ask any business owner, and he or she will tell you the most critical need is a trained workforce. The authors demonstrate with detailed statistics how the state fails to provide Texas kids with the education they need to meet the economy's needs.

The triangle's rapid growth also has failed to expand access to health care. Housing in metropolitan areas is becoming unaffordable, taking up 30 percent of the average workers' pay. Texas' urban freeways are among the most congested in the nation, and our public transportation system is a joke.

When we don't provide Texans with a good education, access to health care, secure housing or a convenient way to get to work, we set them up to fail.

"The question is whether these populations of color will be undereducated, underperforming, underproductive, and alienated, leading to an impoverished and contentious future for all citizens," the authors write.

"The Texas Triangle" is not another liberal screed, though. The authors recognize that our success comes from a culture that limits government, keeps taxes low and encourages innovation. In addition to calling on Republicans to acknowledge the growing need for public services, the authors urge Democrats not to turn Texas into another California.

Looking ahead, demographers predict that San Antonio, Houston, Austin and Dallas-Fort Worth will grow into each other. By 2050, the triangle will grow 148 percent to include 35.3 million people — about two-thirds of all Texans. The Texas Triangle will look more like today's Tokyo-Osaka-Kobe corridor than the cotton fields of the past.

The question is whether Texas' larger, denser population will enjoy a decent standard of living.

"The Texas Triangle economy will be larger, but how much larger will depend on how well the urban education system prepares students," the authors said.

Will Texas schools begin computer science in elementary school? Will children learn calculus in high school to study artificial intelligence in college? How many languages will Texans speak?

AMERICAN OVERSIGHT

Texas' economy will require different skills and new industries in big cities. For a brighter future, we need to reimagine Texas' identity and culture before innovation leaves us behind.

Why Black Friday And Cyber Monday Deals Won't Be The Same In 2021
By Amanda Drane
Houston Chronicle

Black Friday and Cyber Monday deals won't be as sweet as they normally are, and they may not be worth waiting for given the way some items are selling out.

I'm wont to say good riddance to the days of rowdy shoppers fighting over TVs on Thanksgiving. Still, the markdowns that drove them to such madness may be missed as retailers rein in Black Friday offerings amid surging demand, tight supplies and labor shortages that are driving up their cost of doing business.

Before the pandemic economy spurred demand and hampered supply, retailers boasted vast inventories that were expensive to store. It was cost-effective to mark them down, lure people in and purge supplies. Retailers no longer have that problem.

"Demand is there," said Venky Shankar, research director at the Center for Retailing Studies. "They don't have to stimulate demand with discounts."

And gone are the lavish inventories.

Online out-of-stock messages are up 172 percent over this time last year and up 360 percent compared with 2019, according to Adobe Analytics, noting that customers are encountering so-called "stockouts" most often with clothes, sporting goods, baby products and electronics.

"It'll get tighter and tighter towards Christmas," Shankar said. "People are also panicking and buying online, buying a lot of things and making the shortages more acute ahead of time."

Holiday decorations, too, are in tight supply. Retailers ranging from large chains such as Party City to local retailers like Kuhl-Linscomb are struggling to get holiday decorations they've ordered on shelves — even after six months of waiting. Congested ports are the main obstacle.

Normally inventories are at their highest heading into November and prices fall by around 5 percent heading into the shopping season, Adobe said. Then, of course, prices drop to their lowest point after retailers roll out holiday deals. But instead of prices declining ahead of holiday deals, they are up 3 percent.

AMERICAN OVERSIGHT

Compounding the higher starting price point, retailers won't mark prices down as much as they did in pre-pandemic years. Adobe predicts that consumers will pay about 9 percent more on Cyber Monday, with markdowns landing between 5 and 25 percent, down from the typical 10 to 30 percent.

Still, retailers will need to offer some discounts to meet consumer expectations and stay competitive.

"They have to give some discounts because people are used to getting discounts," Shankar said.

Retailers are already rolling them out to meet the demands of people shopping earlier. About 65 percent of Houstonians plan to shop before Thanksgiving to help make sure that the item they want is in stock and that they have enough time to ship it, according to a survey from consultancy Deloitte.

You'll still find the best deals Thanksgiving week, analysts predict. That's if supplies last.

Health Care

COVID-19 Breakthrough Infections May Be More Serious In Communities Of Color, Researchers Warn
By Alejandra Canales
Dallas Morning News

While fully vaccinated people are a small percentage of those who contract COVID-19, some researchers are worried that racial disparities may persist among so-called "breakthrough" infections.

One major challenge, these experts said, is that many state and county health departments do not track breakthrough cases. And even when they track breakthrough cases, they often don't track those cases by race.

Last month, in an opinion piece in The Washington Post, two researchers at Boston University and a prominent New York physician warned that the lack of data could hinder public health officials' efforts to combat the coronavirus, particularly in communities of color that have been hit hardest by COVID-19.

"That there would be potential racial and ethnic inequities in COVID-19 outcomes among vaccinated people should be no surprise," wrote Dr. Oni Blackstock, a New York HIV physician and founder of Health Justice; and Alexandra Skinner, a research fellow,

AMERICAN OVERSIGHT

and Julia Raifman, an assistant professor, both at Boston University School of Public Health.

“Historical and present-day policies, driven by structural racism, have created striking racial and ethnic inequities in wealth, health, education, work, housing and medical care,” they wrote in The Washington Post.

“Non-white Americans are thus more likely to hold front-line jobs, less likely to be able to work from home and more likely to live in crowded homes or neighborhoods,” they wrote. “These factors increase the risk of coronavirus exposure regardless of vaccination status.”

All of the COVID-19 vaccines have proven to be extremely effective at preventing severe illness and deaths. Still, breakthrough infections have gained the spotlight with high profile cases like that of Dallas Mayor Eric Johnson, 46, who said last week that while he is fully vaccinated, he has tested positive for COVID-19.

Last month, Colin Powell, the nation’s first Black secretary of state, died at 84 from COVID-19 complications. His age and underlying health conditions may have put him at higher risk.

Public health experts say it’s important to monitor data to help identify which populations may continue to be more vulnerable to infection.

“COVID hit [our society] in the context of structural racism and structural inequities in the United States due to historical policies and modern day policies,” said Raifman.

“This is a very important time for policies to counter structural inequities as well as to counter the immediate effects of the COVID pandemic,” she said.

Julia Raifman, an assistant professor in the Department of Health Policy and Management at the Boston University School of Public Health
Raifman poses for a photo on October 1, 2020. She has developed a database stockpiling all states' policies for dealing with COVID. It has become a go-to source for journalists (including the Wall Street Journal), scholars (25 publications have cited the database), and state lawmakers.

Cecilia Tomori, the director of global public health and community health at Johns Hopkins School of Nursing, agreed that it’s important to monitor disparities. “The equity dimension consistently gets overlooked until people point out that it needs to be tracked,” she said.

At the national level, the Centers for Disease Control and Prevention transitioned in May to tracking only breakthrough infections that resulted in hospitalization or death.

AMERICAN OVERSIGHT

New CDC data compiled from 14 states and two cities shows how often coronavirus infections occur in vaccinated and unvaccinated people. People who were not vaccinated were six times more likely to catch COVID-19 than people who were vaccinated. These unvaccinated people were then 12 times more likely to die from COVID-19 than those who had been vaccinated.

The federal data separates breakthrough infections and their outcomes by age group. Older people who were vaccinated were much less likely to die from a breakthrough infection than their unvaccinated peers. But age is a big risk factor for dying from a breakthrough infection, according to reporting from the New York Times.

Dallas County is one of the few in Texas tracking coronavirus infections in people who have been fully vaccinated, and that data is broken down by race.

“We definitely want to see if there are any particular subgroups that may have more breakthrough [infections] for whatever reason,” said Dr. Philip Huang, director of Dallas County Health and Human Services.

As of mid-October, a cumulative total of 11,300 people have tested positive for COVID-19 despite being fully vaccinated, according to data from Dallas County Health and Human Services. Of those, 528 people who were fully vaccinated had to be hospitalized, and 123 people who had breakthrough infections died.

Huang emphasized that although the number of breakthrough infections sounds large, it represents a very small proportion — only 2.8% — of total cases in Dallas County. The county has had a total of 402,023 COVID-19 cases.

He said county health officials are also monitoring any differences on the basis of which vaccine an individual received.

Raifman said that tracking the data and looking for any disparities is the best way to manage these disparities. When made aware of Dallas County’s data, Raifman said that, to fully evaluate any disparities, the county would need more data on hospitalizations and deaths resulting from breakthrough infections, broken down by race, ethnicity and age.

Having good data on what’s happening with breakthrough cases, Raifman said, is the best way to reduce deaths, keep people in the workforce and keep kids growing up with their parents. This data helps public health officials determine when different population segments would benefit from more vaccines and plan strategies to deliver those doses.

Raifman and many other researchers have documented throughout the pandemic how inequities made people of color more vulnerable to worse COVID-19 outcomes. For example, people of color often face higher occupational exposure to COVID-19.

A study published in the Journal of the American Medical Association: Internal Medicine looked at excess deaths of Latinos in California from March to August of last year.

AMERICAN OVERSIGHT

(Excess deaths are the difference between the observed number of deaths in a certain period and expected numbers of deaths in the same period.) The researchers showed that people who worked jobs like cooks and farmworkers had higher exposure to COVID-19 and the highest rates of excess mortality.

But the researchers did not see excess mortality among white health care professionals.

“We know that a lot of what was driving those disparities in the first year was simply access to the means to protect yourself from infection,” Alicia Riley, an assistant professor of sociology at the University of California, Santa Cruz, told The Dallas Morning News. Riley was one of the authors of the JAMA Internal Medicine study.

“Personal protective equipment and N-95 masks helped protect the people with the most privilege, despite their workplace exposure,” she said.

In June, the Occupational Safety and Health Administration finally released an emergency workplace safety rule requiring that health care employers implement an infection-control plan to protect their employees from COVID-19. But, the initial draft of the rule submitted to the White House had been intended to cover all workers, according to reporting from Bloomberg Law.

Blackstock, the New York physician, worries that if structural factors that put people at risk for exposure to COVID-19 haven’t changed, these trends on the disproportionate impact of COVID-19 on people of color could continue.

Other research during the pandemic has also shown that people of color were more vulnerable to severe disease due to higher rates of underlying medical conditions, Raifman said. And people of color who get COVID-19 may have lower quality health care compared to that of white people, she said.

“Policies that control the pandemic are really important for reducing racial disparities,” Raifman said. “When we don’t have policies in place to control the pandemic, it really exacerbates disparities.”

Vaccinated people can still transmit the virus to other people, Huang said. That’s the reason that the county health department recommends that vaccinated people should also still wear masks when indoors and in a crowded setting, he said.

“Even if any one individual’s risk is pretty low, at a population level, [the risk] adds up,” Justin Feldman, a fellow at the François-Xavier Bagnoud Center for Health and Human Rights at Harvard University, told The News.

Writing in Slate in September, Feldman argued that “there are three main reasons I think we need to take breakthrough infections seriously. First, vaccinated people can still transmit the virus to people who are unvaccinated, including children who are not yet eligible for the vaccine.

AMERICAN OVERSIGHT

"Second, there are people whose health conditions put them at high risk of hospitalization and death even if they are vaccinated. This includes people with certain immunocompromised conditions who may not respond as well to vaccines, even with a booster shot," he wrote.

"Third, we are still learning about the risks of long COVID among the vaccinated. Even if a small percentage of breakthrough infections lead to persisting symptoms, that adds up to a large number of people when infections are widespread," he wrote.

A CDC study published last month showed that 70% of vaccinated people incarcerated in a federal prison in Texas tested positive for COVID-19. "That is an exceptional circumstance, because these are extremely bad conditions, so the exposure levels are very high," Feldman said. "But to me, that reinforces the main point of my Slate piece: that if exposure is high, breakthrough infections can be a serious problem."

"If we continue to allow a lot of deaths to happen and a lot of [community] spread to happen," he said, "we're going to have a lot of people who are vaccinated dying of COVID — even if it's a small percentage [of overall deaths]."

Feldman told The News that officials should be trying to prevent breakthrough infections through non-pharmaceutical interventions, including mask requirements, improved workplace protections and paid sick leave for quarantine.

"All of the [COVID-19] mitigation strategies are stronger together, and policies effectively scale up [these] strategies," Raifman said. "If we just say we recommend them, then what ends up happening is that the highest-income places have great ventilation and great rapid testing programs and great vaccine coverage.

"I think unfortunately when there's really widespread community transmission, breakthrough cases are not rare," she said. "We have to realize that controlling community transmission is good for everyone."

Criminal Justice

Austin Voters To Consider Police Staffing Proposition, A Potential Second Rebuke To The City's Leftward Policy Shift
By Brad Johnson
The Texan

Austin voters face another public safety-focused ballot proposition and referendum on the direction of their city, its policies, and those who've approved them. On Tuesday, Proposition A will be featured on Austin's November general election ballot.
The items within Proposition A are:

AMERICAN OVERSIGHT

- Mandate a minimum staffing level within the Austin Police Department (APD) of two officers per 1,000 residents
- Establish a minimum 35 percent community response time standard
- Require 40 additional hours of training
- Oblige the mayor, city council, and city staff to enroll in the Citizens Police Academy
- Facilitate minority officer hiring through foreign language proficiency metrics

Austin has more than surpassed its historical homicide total, currently at 75 with two months remaining. Through September, APD crime stats show an 88 percent increase in murders, a 25 percent increase in sexual assault, a 38 percent increase in arson incidents, and a 112 percent increase in the theft of vehicle parts.

Overall, however, crime is slightly down from 2020 which itself saw a spike in crime from 2019. Crimes against persons are down 5 percent and crimes against property are down 9 percent compared to 2020.

All the while, APD is reeling from an attrition crisis within its ranks, losing 15 to 22 officers per month. APD is down over 300 officers from its staffing level two years ago. Another 150 to 200 officers are likely to leave in January next year before changes to the retirement system kick in.

The causes for attrition are a mix of internal and external leadership factors compounded by the staffing shortage. Patrol shifts most days are not fully staffed and delayed cadet classes by the council have failed to fill the void left by departing officers.

This proposition is another installation of the broader clash between the immovable object of Austin's progressive policies and the unstoppable force of a burgeoning backlash of voters across parties.

And something's got to give.

Since about 2018, the Austin City Council has been united behind sea change policies that pulled the city even further left than its traditional locus. Lighter bail policies, the recission of a public camping ban, and a massive cut to the police department budget were the signature accomplishments of a progressive cadre of organizations with growing influence.

To comply with a new state law setting punishments for large cities that cut funding to their police departments, the city council voted to restore most of the funding cut in 2020 — achieved mainly by placing the 911 call center and forensic lab back under the APD umbrella. But the 150 positions cut from authorization were not restored, and the current roughly 200 vacancies are on top of that cluster nixed last year.

AMERICAN OVERSIGHT

But those policies have spurred a formidable recoil from conservatives and moderates from both parties. The homeless camping ban was restored in a lopsided May election and the same group behind that effort, Save Austin Now, is also behind Proposition A.

The group turned in over 30,000 signatures of registered voters to secure its place on the ballot.

Since then, a heated campaign has taken root with over a million dollars on both sides of the political football.

As of October 26, Save Austin Now had raised over $1 million from nearly 2,000 donors and the "No On Prop A" campaign had raised over $1 million from 165 donors.

A massive chunk, nearly half, for the campaign opposed to the proposition came from billionaire progressive benefactor George Soros' Open Society Policy Center.

The "no" side has the support of Mayor Steve Adler, all but one city council member, and a litany of progressive groups and figures.

The ranks of support, meanwhile, include the Austin Police Officers Association, Councilwoman Mackenzie Kelly, three former Austin mayors, and Governor Greg Abbott.

One group that's been a focus of contention is the Austin Firefighters Association (AFA) which officially opposes Prop A, but only half of the organization's 1,200-member body voted in the internal election. Of that half, 57 percent opposed Prop A.

AFA President Bob Nicks has remained active in opposing Prop A on social media and in press statements, sparring frequently with Save Austin Now through the official union Twitter Account.

Locked in a political fight for the direction of the city, the two sides have each accused their opposites of misrepresenting the issue. In a debate last Thursday hosted by Talk 1370AM, anti-Prop A debaters claimed that Austin Police Chief Joseph Chacon is against the proposition. Chacon has said multiple times he is not taking a position on the issue, despite Adler saying publicly more than once that he was against it — including during the press conference announcing Chacon as the city's choice to head the department permanently.

Those opposed to Prop A have accused Save Austin Now of overselling the public safety threat caused by increasing trends of certain categories of crime, such as hyper-focusing on the murder rate rather than the overall crimes against persons. Compared with 2021's figures, overall crimes against persons in 2019 were about 700 incidents higher — close to on par with last year's total.

AMERICAN OVERSIGHT

Most pointedly, Adler spent a large portion of his 2021 State of the City speech accusing the pro-Prop A push of being "right-wing misinformation."

Another feature has been the potential cost of Prop A should it pass. The city's official estimate places the first-year cost between $54 million and $120 million, with the range based on population projections. Save Austin Now pegs the estimate at $30 million to $35 million — or $100,000 per officer needed to reach the staffing minimum. They also contend it will likely be even lower because it will be next to impossible to hire the entire 300 to 350 officers needed to meet the minimum in one year.

The city's estimate also includes costs for one-time capital expenditures such as a new substation and training facility.

In the first year, either the city's low-end estimate or Save Austin Now's would amount to less than 5 percent of the city's general fund budget. Those opposed to Prop A contend its passage would require cuts for things like libraries and parks, but those two items in this year's budget amount to only 14 percent of the general fund.

Early voting for the election finished on Friday last week and it lagged substantially behind May's early voting turnout despite having three more days of ballot casting. That indicates voters have been less enthusiastic to vote in this election than May's, but it's unclear which side may benefit. But even if Save Austin Now's side cannot replicate May's landslide in its entirety, that result presents ample slack before the scales tip the other way.

The anti-Prop A side is hoping not to replicate its lackadaisical effort against the camping ban reinstatement, and this time is far more organized and well-funded.

Ultimately, it is the voters of Austin who have the final say and on Tuesday they have a choice: ratify the city's efforts to "reimagine" its police department or deliver a second heavy blow in a year to the progressive movement driving Texas' capital city even further left.

Brandon Daniel, Who Killed Austin Officer Jaime Padron, Found Dead In Texas Death Row Cell
By Tony Plohetski
Austin American Statesman

A software engineer sentenced to death in the 2012 fatal shooting of Austin police officer Jaime Padron was discovered dead in his cell on Texas death row, officials said Sunday.

Authorities are investigating how Brandon Daniel, 33, died, according to a statement from the Texas Department of Criminal Justice. However, officials said foul play does not appear to be the cause.

AMERICAN OVERSIGHT

TDCJ spokesman Robert Hurst said that at 4:25 a.m. Saturday, a correctional officer at the Polunsky Unit in Livingston was doing security rounds when he found Daniel "unresponsive on his bunk. Officers entered the cell and determined that he was not breathing."

Medics arrived at the bunk a short time later, but Daniel was pronounced dead at 5:10 a.m., the statement said. As with all deaths of a person in prison not under a doctor's care, the Office of Inspector General is investigating and an autopsy will be performed.

Daniel shot and killed Padron on April 6, 2012, as the two struggled on the floor of a Wal-Mart near Interstate 35 and East Parmer Lane in North Austin. Padron, a Marine veteran and father of two girls, had been responding to complaints from the store's employees about a possibly intoxicated shoplifter.

Daniel was quickly arrested, and police found a magazine containing six hollow-point bullets in his pocket and $57 worth of food, alcohol and other store items in his backpack.

At downtown police headquarters, in a videotaped interview, Daniel told homicide detectives he had gone into the store with the intention to steal some vegetables but attempted to flee when he saw the police officer. At least three times, witnesses said, he had admitted, "I killed a cop."

Jurors deliberated for an hour before finding Daniel guilty of capital murder in February 2014, and they then needed just eight hours of discussion before sentencing the former software engineer to die.

The next year, Daniel sent state District Judge Brenda Kennedy a letter asking to waive his appeals.

"I want justice to be served, and I feel the punishment is appropriate for my crime," he wrote. "We are both interested in saving the taxpayer's money, the time of all involved and in sparing my family and the victim's family any more angst than necessary. And finally, I would like my time in prison to be the least amount as possible."

But Daniel's appeals continued. Most recently, in 2018, the U.S. Supreme Court rejected his appeal without comment after Daniel's attorneys argued that Kennedy had improperly communicated with jurors, among other claims.

It also said that his attorneys during trial acted deficiently by missing evidence that Daniel was autistic. The diagnosis could have explained what prosecutors called Daniel's lack of remorse and use of drugs and alcohol to self-medicate, giving jurors a reason to choose a sentence of life in prison instead of capital punishment, the appeal said.

No execution date had been set for Daniel.

AMERICAN OVERSIGHT

A North Austin elementary school has been named in honor of Padron, who had been an Austin officer for three years but had worked for the San Angelo Police Department for 14 years.

Will Declines In Community College Enrollment Widen Texas' Skilled Labor Gap?
Dallas Morning News

It's no secret that the pandemic has taken a toll on K-12 student achievement. But now another consequence of the virus is having an impact on post-high school education in Texas.

According to a recent report from the Texas Higher Education Coordinating Board, community college enrollment in Texas is now lower than enrollment at the state's four-year universities — for the first time since the 1990s.

About 80,000 fewer students, roughly an 11% drop, enrolled at community colleges during the pandemic. That compares to a 2% enrollment increase at public universities, flat enrollment at independent universities and a 10% gain at institutions specializing in health care.

The decline in enrollment hit all regions of the state but was particularly eye-opening in the Upper Rio Grande, Central Texas and the Dallas-Fort Worth area, which posted double-digit declines of 15.3%, 14.8% and 14.3%, respectively. Since 2019, all but four public community and state colleges in Texas reported enrollment declines.

This enrollment drop at community colleges deserves the attention of policymakers who have an ambitious goal of at least 60% of Texans ages 25-34 having a certificate or degree by 2030. Businesses, educators and lawmakers have touted community colleges as bridges for high school graduates to obtain marketable jobs and a less expensive way to complete prerequisites before moving on to a four-year institution.

A shortage of skilled workers existed prior to the pandemic, but now declining community college enrollment is worsening the shortage. By some estimates more than 70% of Texas jobs will require a postsecondary credential in the next decade or so, often the kind community colleges can offer. However, roughly one-third of Texas high school graduates fail to earn an additional degree or credential within six years of graduation.

And the report documents other disquieting trends about higher education in the state. Since 2019, according to the coordinating board, overall enrollment has dropped 5.5% among white students, 4.9% among Hispanic students and 3.8% among Black students.

AMERICAN OVERSIGHT

And while women still outnumber men on college campuses, male enrollment increased by around 23,000 students from 2020 to 2021, while female enrollment decreased by roughly the same amount. So right now, about 40,000 fewer women are enrolled in higher education in Texas than before the pandemic. And the Legislature has done the state's 50 community college districts no favors, providing community colleges across Texas with significantly less than their funding request this year.

It is critical that our state removes barriers to community college enrollment and that community college students — often working adults with family and child care responsibilities — understand that a two-year degree can open doors to a better job and a brighter future. Texas needs an educated, skilled and adaptable workforce, and community colleges are an important pathway toward that goal.

SMU's $1.5 Billion Fundraising Campaign Targets The Needs Of North Texas
Dallas Morning News

Universities have multiple challenges, not the least of which are keeping pace with the educational demands of our society and providing opportunities for students from underserved communities to obtain a life-changing education.

Needless to say, that takes money and sustained commitments, which is why Southern Methodist University recently set what could be the biggest fundraising target ever by a private university in Texas. Even by the rarefied standards of university fundraising campaigns, $1.5 billion for scholarships, faculty research, educational partnerships and athletics is a remarkably lofty target.

Not only is this goal achievable in a community that embraces philanthropy and that answered SMU's call previously, it also is an important investment in the future of North Texas. SMU, for example, wants to raise more than $450 million to offer more need- and merit-based scholarships with a focus of making sure that students in North Texas who are eligible for Pell Grants can afford an SMU education.

Federal data shows that 9% of students received Pell Grants, which are awarded based on family income and the cost of college attendance, from 2019-20 and university stats show that roughly 12% of SMU's undergraduate students are currently Pell-eligible, more than half of whom come from North Texas.

SMU's thrust is significant for several reasons. Educational debt is an impediment for many students, especially for first-generation college students who worry that they will graduate with crushing financial obligations or drop out without a degree but debt obligations. These students may be mired in low-paying jobs when a college education would have given them brighter prospects. This dynamic also hurts employers, who will struggle to find talented and diverse workforces.

AMERICAN OVERSIGHT

SMU also plans to raise and invest more than $600 million to step up its research capabilities to become an R1 university, a Carnegie Classification of Institutions of Higher Education designation reserved for institutions with a high volume of research and talented faculty. SMU has advanced from R3 status to R2 status and now has its sights on the top level. Further improvement in the rankings depends on the school's ability to continue to hire star-quality research faculty and provide them with top-flight resources, including post-doctoral staff.

SMU also is pursuing teaching, corporate, industrial and nonprofit partnerships, such as the West Dallas STEM School and Dedman School of Law legal clinics for those who cannot afford representation. And since this is Texas, SMU wants $450 million to invest in athletic facilities, programs, student-athletes and community outreach programs.

So far, the campaign is off to a good start with more than $654 million in pledges, including more than 90 individual contributions of $1 million. The pledges exceed the more than $542 million that SMU raised during a campaign from 1997 to 2002 and are on pace to eclipse the $1.15 billion that SMU raised between 2008 and 2015. And the results are tangible. The latter campaign delivered 689 endowed scholarships, 54 new endowed faculty positions and significant funding for 24 major new facilities or renovations.

North Texans regularly demonstrate great generosity for great causes, and we hope and expect our community will step up again. If SMU succeeds here the university will be stronger for it and our city and region will reap benefits from it for generations to come.

Texas Needs To Watch, Learn From The Deadly Alec Baldwin Shooting On Film Set
Houston Chronicle

Vexing questions remain about what actually happened Oct. 21 on the set of a movie being made near Santa Fe, N.M., when an antique Colt .45 discharged as it was being used as a prop by actor Alec Baldwin during rehearsal of a scene. A projectile from the revolver struck and killed Halyna Hutchins, director of photography on the movie, a Western called "Rust." Joel Souza, the director, was standing beside Hutchins and was injured.

The tragic incident prompted understandable anguish on the part of all who knew the 42-year-old Hutchins, a highly regarded cinematographer, as well as a wife and mother. Ongoing police investigations are asking how a gun that was declared "cold" — that is, safe to fire — as it was handed to Baldwin could have killed someone.

What happened on a New Mexico movie set also should prompt serious soul-searching far beyond the movie industry. We have in mind those among us who don't take firearms seriously enough. Texas elected officials, careless in their Second Amendment

AMERICAN OVERSIGHT

convictions and craven in their kowtowing to gun-rights zealots, come to mind immediately.

Similar accidents on movie sets have happened before, although they are rare, thanks in large part to strict safety rules. A 2016 Associated Press investigation found that at least 43 people had died on sets in the U.S., going back to 1990; more than 150 had suffered serious injuries. A tiny percentage of those deaths were specifically attributed to firearms being used as props, even though guns are integral to countless movies.

The gun death most often remembered is that of 28-year-old Brandon Lee, son of the late martial arts star Bruce Lee. The younger Lee died in 1993 while filming a scene for the movie “The Crow” after being hit by a .44-caliber slug fired from a prop gun supposed to have been filled only with blank rounds.

Lee’s death was the last recorded accidental death by a gun that was being used as a prop on a movie set. Nearly a decade prior, actor Jon-Erik Hexum was killed on the set of the TV series “Cover Up.” He shot himself in the head while playing Russian roulette with a gun loaded with blanks, which can still be deadly at very close range.

Investigators say there was "some complacency" in how weapons were handled on a movie set where Alec Baldwin accidentally shot and killed a cinematographer and wounded another person. (Oct. 27) Video: Associated Press

In large part because of those two deaths, film makers today are expected to rigidly adhere to page after page of detailed regulations regarding firearms on set. Their bible, so to speak, is “Safety Bulletin” No. 1, posted anytime a set will involve the use of firearms and compiled and distributed by the Industry-Wide Labor-Management Safety Committee.

The bulletin goes on to lay out comprehensive instructions for firearms protocol. The general rules include never pointing a firearm at anyone; never placing your finger on the trigger until you’re ready to shoot; knowing where and what your intended target is; no horseplay with any firearms; never discharging a weapon when the barrel is clogged; and never laying down a firearm or leaving it unattended. Additional regulations speak to movie-production specifics.

Those basic instructions, of course, are well-established rules familiar to all who deal with firearms regularly, from law enforcement officers to the military. It includes many members of the National Rifle Association, particularly those members who recall when their organization was dedicated primarily to shooting safety and basic firearms instruction, rather than to high-pressure lobbying and the wholly invented notion of Second Amendment absolutism that it has championed of late. Mistakes happen, rules are broken and people get careless, but those who know guns best are well aware that rules, regulations and strict protocols save lives.

AMERICAN OVERSIGHT

While cops, soldiers, NRA firearms instructors and responsible gun owners — not to mention Hollywood filmmakers — are usually dead serious about firearms, Texas lawmakers are not. They're irresponsible "huckleberries" when it comes to gun sense.

A responsible elected official would not have supported legislation in the previously concluded session that makes it almost as easy for an adult Texan to walk into a sporting-goods store and purchase a gun as it is to buy a fishing rod or a camping tent.

Make your choice, put down your credit card and pass a perfunctory background check, and you're not only a gun owner but fully authorized to carry it with you just about anywhere you want to go. No licensing needed, no training in laws and safety, no demonstrated proficiency in shooting. Just grab that gun and go.

Go to church with it on your hip or in your purse; go to Applebee's and tuck into the Sizzlin' Caramel Apple Blondie armed; sit in the stands locked and loaded at Little League games; pray in a pew at church with a pistol on your hip. You'll never know when and where you'll have to whip it out and use it, regardless of your skill level or good judgment.

No wonder so many Texas police chiefs opposed the so-called permitless-carry legislation that Gov. Greg Abbott signed in June.

Firearms are ubiquitous on movie sets; deaths and injuries are rare. Firearms are ubiquitous in American society, particularly in Texas and the South; deaths and injuries are anything but rare.

In 2020, gun violence killed nearly 20,000 Americans, the highest total in two decades, according to data from the Gun Violence Archive. An additional 24,000 people in this country used a gun to kill themselves. Those figures combined are 25 times higher than any other developed nation.

And the state with the highest number of gun deaths in 2020, in 2019, and many years before that? That would be Texas, Our Texas, with 3,683 last year.

Mortality data from 2019, the most recent year for which the U.S. Centers for Disease Control and Prevention has reported, shows that even on a per-capita basis, gunshots kill more Texans each year than in America's other largest states, including California, Pennsylvania, Illinois and New York, where fewer than 900 accidental gun deaths took place. Among the six biggest states, only Florida's gun death rate matched our own.

In the wake of the tragic New Mexico incident, the movie industry is already considering even stricter rules, including potentially banning real guns on sets, and relying on computer-generated images instead. A senior California lawmaker has already filed a bill that would ban the use of live ammunition, and guns capable of firing it, from sets.

AMERICAN OVERSIGHT

Given Texas' terrible track record of deadly shootings, including some of the nation's worst mass shootings, a Texas lawmaker truly committed to the public's safety would be looking for solutions, too. Worthy ideas abound: investment in community violence interruption programs, prohibiting individuals convicted of domestic violence crimes from possessing firearms, pushing for secure storage of guns at home, funding gun-violence research, to name a few.

If only ideas and common sense were enough. They aren't though, not without political courage.

We live in Texas, of course, where gun laws are more relaxed than they were in the real Wild West of Dodge City, Tombstone and Old Tascosa. Until we begin electing lawmakers serious about gun safety and violence prevention, thousands of dead Texans will continue to be collateral damage in our faux Wild West. To the gun lobby and those irresponsible officials who profess their fealty to it, lax gun laws are more important than life itself.

Why Gov. Greg Abbott V. Beto O'Rourke Is A Rare Heavyweight Battle In Texas Politics
By Jeremy Wallace
Houston Chronicle

Democrat Beto O'Rourke announced Monday that he will challenge Gov. Greg Abbott in his bid for re-election, setting up a heavyweight battle for governor that is unlike anything Texas has seen in decades.

"I'm running to try to help bring this state together," O'Rourke said. "To do the really big things that are before us right now and to get past the divisiveness, the extremism and the real small politics and policies of Greg Abbott."

No Democrat has won a governor's race in Texas since Ann Richards in 1990. But O'Rourke brings star power that Democrats have lacked. He has strong name recognition and has proven fundraising muscle, having raised a record $79 million in a narrow loss to U.S. Sen. Ted Cruz in 2018.

In taking on Abbott, O'Rourke is challenging perhaps the most powerful Republican in the state. Abbott, a 64-year-old native of Wichita Falls, has won seven straight statewide campaigns for office dating back to 1996 and had amassed over $50 million for his re-election.

At a political event in Floresville on Monday, Abbott called O'Rourke too liberal for Texas, an argument the governor was making with 30-second ads even before O'Rourke made up his mind to run.

HOW DID BETO O'ROURKE GET HERE?

WHY HE'S A CONTENDER: O'Rourke emerged on the statewide political map during his 2018 campaign for Senate, when he raised nearly $80 million. The core of his campaign was decrying the pettiness and partisanship in American politics and pitching himself as someone who'd be able to work across the aisle: "We can be defined by our fears or we can be known by our ambition and aspirations." A key to that campaign was visiting all 254 Texas counties, including heavily Republican areas where he would not win even 5 percent of the vote. Those travels helped give him national attention, leading to TV interviews on "The Ellen DeGeneres Show," "The Late Show with Stephen Colbert" and with Oprah Winfrey.

SERVICE IN CONGRESS: O'Rourke served six years in the U.S. House representing his hometown of El Paso from 2013 to 2019. Possibly his hallmark achievement was legislation expanding mental health care for military veterans even if they received a less-than-honorable discharge, an idea that was an outgrowth of El Paso having one of the highest suicide rates for veterans.

ROOTS: O'Rourke grew up in a wealthy, politically active family, His father was an El Paso county commissioner and was the county judge for four years. After O'Rourke attended a private, all-male boarding school in Virginia, he attended Columbia University where he earned a bachelor's degree in English. After college, he was a bass player in a punk music band before later returning to Texas. In 1998, at just 26 years old, he helped launch a technology firm called Stanton Street Technology Group.

START IN POLITICS: O'Rourke built his career on beating incumbents. First in 2005, O'Rourke defeated an incumbent city councilman in El Paso. Then in 2012, O'Rourke challenged incumbent Congressman Silvestre Reyes in a Democratic primary. O'Rourke won and served three terms in the Democratic minority in the House.

AMERICAN OVERSIGHT

TEXAS GOVERNOR'S RACES SINCE 1994

2018
Greg Abbott, Republican 56%
Lupe Valdez, Democrat 43%

2014
Greg Abbott, Republican 59%
Wendy Davis, Democrat 39%

2010
Rick Perry, Republican 55%
Bill White, Democrat 42%

2006
Rick Perry, Republican 39%
Chris Bell, Democrat 30%
Carole Keeton Strayhorn, Independent 18%
Kinky Friedman, Independent, 12%

2002
Rick Perry, Republican 58%
Tony Sanchez, Democrat 40%

1998
George W. Bush, Republican 68%
Gary Mauro, Democrat 31%

1994
George W. Bush, Republican, 53%
Ann Richards, Democrat 46%

“We talked earlier about the values that Texans share, and if you look at issue after issue after issue that Beto campaigned on for presidency of the United States, they weren’t just at odds with Texans — they were hostile to Texans,” said Abbott, who is seeking a third term.

The 1994 election, when George W. Bush beat Richards, was the last governor’s campaign with the “sizzle and pop” of what is setting up in 2022, said Cal Jillson, a political science professor at Southern Methodist University in Dallas.

“This is what we have all been waiting for,” Jillson said.

What makes the race so special is that O’Rourke is without question the best known and best fundraiser among Texas Democrats — and nearly the same can be said of Abbott among Republicans. For the past 26 years, the former Texas Supreme Court justice and Texas attorney general has blown out every opponent, whether in a primary or general election.

Since Bush beat Richards, no Democrat running for governor has won even 43 percent of the vote. In 2010, former Mayor Bill White was a substantive candidate against then-Gov. Rick Perry but didn’t have the fundraising and energy that O’Rourke brings to the table, Jillson said.

AMERICAN OVERSIGHT

The recent past has shown that money alone won't do it in Texas, which has 20 media markets. In 2014, Democrat Wendy Davis was a big fundraiser, but she couldn't crack 40 percent against Abbott in his first race for governor.

"It's not just luck" that Abbott hasn't had a competitive race in more than 25 years, Jillson said. A lot of work goes into building a machine that stops would-be challengers from emerging.

But O'Rourke has built a political career of beating established incumbents, starting with races for the El Paso City Council in 2005 and for Congress in 2012. Though he started his 2019 campaign for the White House as an early front-runner, O'Rourke's polling and fundraising tanked after Joe Biden jumped into the race.

Before Abbott and O'Rourke can face off, they need to get through the primary elections set for March 1. Abbott is facing at least two significant GOP primary opponents in former Texas GOP Chairman Allen West and former state Sen. Don Huffines. They have been attacking Abbott for not being conservative enough during his two terms as governor.

Who will run against O'Rourke in March is still being determined. Candidates have until Dec. 13 to get on the ballot for the primary.

Oil, guns and governance

O'Rourke's challenge comes as Democrats inch closer to Republicans in long-red Texas, thanks to surging voter registrations and Republicans losing ground in the state's biggest cities. After O'Rourke's close call in 2018, Biden came within 6 percentage points of beating former President Donald Trump for Texas' 38 Electoral College votes. It was the closest a Democrat has come to beating a Republican for president in Texas since Jimmy Carter won the state in 1976.

In an interview with the Houston Chronicle, O'Rourke, 49, said he will call for expanding Medicaid to cover more of the working poor, improving schools and fixing the Texas power grid so there will not be a repeat of February's winter storm that left millions without electricity.

"He's done a lot of damage to this state," O'Rourke said. "He's taking Texas in the wrong direction. The people of Texas understand that. So my challenge, and my opportunity, is to present the alternative."

Abbott is already on the campaign trail, championing the oil and gas industry that powers the Texas economy and provides 200,000 jobs in drilling alone, not counting refineries and pipelines. He's pledged to finish Trump's border wall in the state, and this year he signed into law a measure allowing unlicensed Texans to carry concealed handguns in public.

Abbott has made clear that guns will be a big piece of his debate with O'Rourke. During a campaign stop in Corpus Christi last week, he told the crowd he's fighting "Joe Biden from coming in and taking your guns the way that Beto O'Rourke said he was going to do."

That is a reference to O'Rourke's pledge in 2019 while he was running for the Democratic nomination for president: "Hell yes, we're going to take your AR-15, your AK-47."

O'Rourke made those comments during a debate in Houston just two weeks after a gunman killed seven and wounded 22 others during a shooting spree in Midland and Odessa. A month earlier, a different gunman used a semi-automatic rifle to kill 23 people at a Walmart in O'Rourke's hometown of El Paso.

AMERICAN OVERSIGHT

He said talking to the mother of a teenager who bled to death on the sidewalk in Odessa after being shot with an AR-15 convinced him that just banning future sales is not enough — assault-style rifles need to be taken off the streets with a mandatory gun buyback program.

He said far more extreme is Abbott signing the permitless carry legislation that allows anyone over 18 to carry a concealed handgun without any training or permits.

“I look forward to having this conversation with the governor,” O’Rourke said. “We are a proud gun-owning state. I count myself among those who grew up with guns, who grew up hunting with relatives, friends.”

He still supports a mandatory buyback program for semi-automatic rifles.

“We’ve got to find a way to get these weapons of war out of our communities because of the danger that they pose,” he said. “We can protect the Second Amendment and reduce gun violence in Texas.”

[BACK TO TOP]

Beto O'Rourke Is Now In The Race For Texas Governor. But Can He Actually Beat Greg Abbott?
By John C. Moritz
Austin American Statesman

When El Paso’s Beto O’Rourke burst onto the political scene four years ago as a charismatic but little-known outsider, he was about to catch the best political wave Texas Democrats had seen in a generation.

Republican Donald Trump was two years into his term and his bombastic style of politics was proving to be an anathema for many independents and moderate Republicans, especially in the Texas suburbs. Ted Cruz, the incumbent U.S. senator O'Rourke was running against, not only turned off some of the same Republicans who disliked Trump, but he generated a visceral antipathy that jolted energy into Texas Democrats who for decades had come to expect defeat in statewide elections.

But the landscape for O'Rourke, who on Monday formally announced his candidacy for governor, has changed markedly since 2018. And many political insiders say the shift has not been in O'Rourke's – or any Democrat's – favor.

El Pasoan Beto O'Rourke officially kicked off his presidential campaign in 2019.
"O'Rourke's problem is going to be that by every indication a year, nearly a year in advance, it looks like the 2022 elections are going to be substantially Republican-leaning," said Larry Sabato, the director of the Center for Politics at the University of Virginia and keen observer of national elections. "And Texas has proven beyond any doubt it is still a Republican state."

O'Rourke took dead aim at two-term Republican Gov. Greg Abbott in the video released early Monday to launch his campaign. He faulted the incumbent for the failure of the state's electric grid that kept millions of Texans without the power to heat their homes and cook their meals during the deadly winter storms in February. He hammered Abbott for his conservative policies to further restrict abortion and further expand gun rights.

But Abbott, undefeated in statewide elections dating back to the 1990s, has been ready for O'Rourke's challenge for months and has shown almost delightful enthusiasm in linking the former three-term congressman to Democratic President Joe Biden. And Biden is already far more unpopular in Texas than Trump ever was as president.

"It's a tough road for Beto. It's going to be a slog," said Brandon Rottinghaus, a political science professor at the University of Houston and the author of Inside Texas Politics. Even though Rottinghaus said Abbott's job-performance numbers "among independents are underwater," the governor still has the power of incumbency and has been adroit in his ability to tie O'Rourke to Biden.

"I think you'd rather be the governor right now than the challenger to the governor," Rottinghaus said.

Gov. Greg Abbott waves to supporters as he and his wife, Cecilia, arrive for an event where he announced his bid for re-election, Friday, July 14, 2017, in San Antonio.
Harold Cook, a Texas Democratic political analyst and commentator who no longer works for candidates, acknowledged that any Democrat running statewide in 2022 is running uphill. But the sunny side of the equation, Cook said, is that Abbott put at risk his reputation as a steady pragmatist when he lurched to the right during this year's legislative sessions in his effort to outflank conservative challengers in his own primary.

"There's no question that this is a tougher race for Beto than the one he ran against Cruz," Cook said. "The good news is, Greg Abbott has never been a weaker candidate than he is right now."

A University of Texas/Texas Tribune poll released last month showed Abbott with a comfortable 9 percentage point lead over O'Rourke. But the same poll also showed only 43% of respondents approved of the governor's job performance while 48% said they disapproved. But the governor still polled ahead of Biden, whose job approval rating was an anemic 35%.

Abbott's team wasted little time in the effort to tighten the link between O'Rourke and the president, accusing both of being hostile to law enforcement while encouraging illegal immigration.

"Beto O'Rourke has demonstrated he has more in common with President Biden than he does with Texans," said Abbott campaign spokesman Mark Miner.

But Clyde Barrow, chairman of the political science department at the University of Texas Rio Grande Valley, warned against putting too much stock in polling or Texans' attitude toward Biden more than 11 months before the 2022 general election.

"By the time we get around to the gubernatorial election, (Biden's recently passed) infrastructure bill will start to kick in," Barrow said. "There's $35 billion of that money coming into Texas. Nobody has really campaigned hard on many of the policies that were adopted by Biden."

Sabato said the Abbott-O'Rourke race will likely once more put Texas politics front and center in the national debate next near, just as the Cruz-O'Rourke matchup did in 2018. O'Rourke, already a national figure since 2018 and even more so after his short-lived run for the 2020 Democratic nomination, likely will again attract support from a nationwide donor base, Sabato said.

Abbott, too, has emerged as a national figure during his second term and has already proven himself a prodigious fundraiser in Texas and beyond.

"It goes without saying there will be a ton of national money on both sides," said Sabato. "It isn't just going to be Texas money."

Both candidates still have to survive their respective primaries. No candidate with a statewide base or even a recognizable name has joined O'Rourke on the Democratic side. Abbott's best-known GOP foes are former Texas Republican Party Chairman Allen West and former state Sen. Don Huffines. Both remain far behind in the few polls conducted so far.

AMERICAN OVERSIGHT

Assuming both Abbott and O'Rourke emerge as their party's nominee, Rottinghaus said the bigger burden will likely be on the Democrat to show he still has the magic that was on display in the Senate race four years ago.

“Can you catch lightning in a bottle twice?” he said. “That’s going to be hard to do.”

[BACK TO TOP]

Beto O’Rourke Went After Assault Rifles In His Run For President. Will That Hurt Him With Gun-Loving Texans?
By James Pollard and Patrick Svitek
Texas Tribune

Still raw from a deadly mass shooting that took place in his hometown of El Paso, Beto O’Rourke unapologetically defended his support for a mandatory assault weapon buyback program at a September 2019 debate in Houston.

“Hell yes, we’re going to take your AR-15, your AK-47,” O’Rourke famously said to roaring applause from a crowd at Texas Southern University. “We’re not going to allow it to be used against our fellow Americans anymore.”

At the time, the former congressman was seeking the Democratic nomination for president, trying to distinguish himself among primary voters in a wide field of candidates. Now, he’s running for governor in a state with the most gun owners in the nation against an incumbent who routinely touts his record on relaxing firearm restrictions.

In an interview with The Texas Tribune to announce his run, O’Rourke said he won’t be backing down from his message on guns. He also said many Texans who support gun rights, regardless of party, agree that most people shouldn’t have access to assault rifles.

“Most of us understand the responsibility that comes with owning a firearm, and we will vigorously protect that Second Amendment right and also protect the lives of those around us,” he said. “But I think most of us also understand that we should not have military-style weapons used against our fellow Texans. We have four of the worst mass shootings in U.S. history right here in Texas that took place over the last five years.”

O’Rourke also turned the tables on Abbott, accusing him of being the one to promote “extremist” gun policies when he signed the permitless carry bill into law this year allowing most Texans to carry handguns without training or a license.

“What I think you’ll also find is most Texans reject Greg Abbott’s extreme, divisive policies when it comes to firearms, like signing the law for the permitless carry bill,” he said, adding that the bill was opposed by members of law enforcement worried it could endanger officers.

O’Rourke made his iconic gun statement at the third Democratic presidential debate, which fell about five weeks after a gunman went on a shooting rampage at an El Paso Walmart targeting Hispanic people. The shooter killed 23 people in what federal law enforcement classified as an act of domestic terrorism.

The tragedy prompted O’Rourke to suspend his presidential campaign events and anchor himself in the city he represented for six years in Congress and six other years on the El Paso City Council.

O'Rourke told The Atlantic the event changed his approach to the presidential race. And the refrain — "Hell yes" — became a T-shirt and fundraising tool for a presidential campaign that ended several weeks after the debate performance.

Jordan Berry, a GOP political consultant, said O'Rourke is compromised in Texas.

Texans take the Second Amendment "really seriously," he said, adding that his gun stance will "hurt him across the board," particularly with swing voters.

But in 2019, a poll found that there were more Texans who said they supported a mandatory buyback program to turn in all assault weapons than those who opposed it. Nearly half of Texans supported the buyback program, while about 29% said they opposed it, according to a poll by the University of Texas at Tyler. The rest of the respondents either were neutral or unsure.

A University of Texas/Texas Tribune poll from October 2019 found that 59% of Texas voters support a nationwide ban on semiautomatic weapons, compared to 33% who oppose the policy. The approval rating included 86% of Democrats, 56% of independents and 35% of Republicans.

For Joshua Blank, research director for the Texas Politics Project at UT, the idea that O'Rourke is in "grave danger" with Texans on the issue of gun control is overly simplistic.

In fact, Blank said Republicans pushing gun legislation in the first legislative session after the El Paso shooting may have given O'Rourke an "entry point" on the issue.

Some 55% of voters polled in October said they disapproved of a new Texas permitless carry law that allows most Texans to carry handguns without training or a license.

"In a vacuum, Beto's comments certainly create a challenge for him in Texas," Blank said. "But considered in the context of the Legislature passing permitless carry, which has majority opposition, and in the first legislative session after the mass shootings … I think it is a conversation that Beto is willing to have."

Democrats in rural Midland and Taylor counties — both of which supported U.S. Sen. Ted Cruz over O'Rourke in 2018 by about three-fourths of the vote — said they're not turned off by O'Rourke's gun stance.

Midland Democratic Party Chair Cathy Broadrick worked for the federal prison system for 20 years and had to qualify annually to operate a variety of weapons, including the M16, a rifle similar to the AR-15.

While she doesn't look down on gun enthusiasts who want to shoot such weapons — noting the "blood pumping" fun there is to be had — Broadrick said such automatic rifles shouldn't be accessible to all.

"I understand all these people that scream freedom and their constitutional rights," said Broadrick, a self-described country girl who hunted birds. "But if you've ever stood on the firing line and you've shot an M16, you realize the power that that weapon holds."

For his part, O'Rourke said he too grew up in a family of responsible gun owners.

"Most of us grew up with firearms. I did at my house, where my dad kept a gun for protection, where we had guns for hunting, where I was taught how to safely use a gun by my great uncle Raymond, who was sheriff's deputy and the jail captain at the El Paso County jail," he said.

AMERICAN OVERSIGHT

While Broadrick acknowledged that Democrats have debated the wisdom of O'Rourke's comments, she doesn't think his words will damage his political future because she believes few Texans own AR-15s.

The people who supported O'Rourke in his 2018 Senate campaign will still turn out for him this cycle, Broadrick added.

"I think Republicans will try to make an issue of it, but Beto wasn't going to get those voters anyway," she said.

Taylor County Democratic Party Chair Elizabeth Smyser said she hopes Texans interested in solutions to gun violence will have compassion for the spirit with which O'Rourke tackled this issue, noting the suffering he witnessed in El Paso. Smyser said while there may be some single-issue voters on guns that O'Rourke has lost, there is also a sizable "middle ground."

"Those people in the middle that see and have heard the stories of all the gun violence and that are tired of kids getting mowed down in their classrooms or don't want to see Latinos getting targeted again — there are a lot of people that feel that those things are far more extreme than what Beto said off the cuff in a moment of despair," Smyser said.

The rural Democrats said they expect O'Rourke to still be popular among Democrats and other voters in the race.

"The minute I say the word 'Beto,' I know I'm gonna have 200 people show up," Broadrick said. "And in red Midland, Texas, that's substantial — in an area with 80% Republican, mostly, that you can still get a lot of people to turn out."

Administration News

Carrollton Rep. Michelle Beckley Seeks Democratic Nomination For Texas Lieutenant Governor
By Philip Jankowski
Dallas Morning News

Two-term North Texas state Rep. Michelle Beckley will launch her Democratic campaign for lieutenant governor Tuesday in a bid to challenge a powerful and well-funded incumbent in Republican Dan Patrick.

Beckley, in an interview with The Dallas Morning News, said she will seek to frame Patrick and his "extremism" agenda as a politician more beholden to his powerful donors than to his own convictions.

But before she can face Patrick, Beckley must first clear a field of Democrats. She joins Houston accountant and businessman Mike Collier and former ABC political commentator Matthew Dowd in the race for the Democratic nomination.

Winning will be a challenge as Collier is years ahead in establishing connections with Democrats across the state while Dowd benefits from the national recognition from his appearances on national TV and as an adviser for former President George W. Bush.

However, recent polling shows that a majority of Texas Democrats have not made up their mind about who they will vote for in the primary. That, in part, led Beckley to enter the race.

"The field is wide open," Beckley said. "That is the reality of the situation."

AMERICAN OVERSIGHT

Beckley, 51, said she believes she can gobble up that real estate of undecided Democrats by focusing on her electability and record. Of the three, Beckley is the only one to win an election and the only one who can point to a voting record as proof of her progressive bona fides.

Beckley first won election to the Texas House in 2018 in an election that saw several Republican House seats flip. Beckley's election was enough of a surprise to Democrats that she didn't receive a congratulatory call from the state party until well after her contest was decided because no one had expected a Democrat to have a chance in Denton County, she said.

Flipping the seat immediately made her a high-profile Democrat in the Texas House. Holding it in a difficult 2020 reelection campaign furthered that.

Known as much for her bluntness as the blue streak in her hair, the Carrollton bird shop owner has become a reliable progressive who often leans into her liberalness. The blue streak is gone — "My hair is tired," Beckley said — but the liberal politics remain.

Expanding Medicaid, fully funding public education and legalizing marijuana are among her top priorities. She also said that fixing Texas' troubled electric grid will be one of the centerpieces of her campaign platform.

"The vast majority of voters in general are not happy with what happened in the Legislature," she said. "You've got your bounties on women, you've got a gun free for all. People want Medicaid fully funded. All of these are popular positions that our lieutenant governor does not have because he caters to the furthest right of the right."

Beckley's candidacy for lieutenant governor comes after she suspended a campaign for Congress.

She announced in June that she would challenge Republican Congresswoman Beth Van Duyne while she was still in Washington during the quorum break earlier this year that failed to thwart the Texas GOP's controversial voter integrity laws. The timing of her announcement was somewhat awkward as Democrats attempted to combat the GOP's narrative that they had only fled Austin as a political fundraising stunt.

She ended that campaign after Republicans drew her out of that district as well as her state house district during redistricting.

Winning the March 1 primary will be the first test. If Beckley is successful, she will face Patrick and the $26 million campaign war chest he has amassed, according to the most recent campaign finance reports.

Ed Espinoza, executive director of Progress Texas, said that he was glad to see a woman jump into the race and that he expects the field to grow.

"She has demonstrated that she is a tough candidate that has won tough races," Espinoza said. Winning will "take money and resolve. I don't know what her fundraising ability is. But she certainly brings a lot of resolve to the race."

Michelle Beckley, One Of The Texas House's Most Liberal Members, Joins Democratic Primary For Lieutenant Governor
By James Barragan
Texas Tribune

Democratic state Rep. Michelle Beckley of Carrollton, who gained national attention for joining lawmakers who fled to Washington, D.C., to block a Republican election bill this summer, is running for lieutenant governor, expanding her party's primary to three contenders.

In her campaign announcement on Tuesday, Beckley said she was running because Republican incumbent Dan Patrick is implementing policies that "hurt Texas business and make life harder for all Texans."

"I'm running for Lieutenant Governor because politicians are putting ideology ahead of results that matter to Texans," she said. "In the last legislative session alone, they worked to limit voters' rights, put bounties on women, marginalize minorities, and make-up false boogeymen in our schools, and the health and wealth of Texans suffered. I'm running to stop them."

Beckley joins a race that already includes political commentator Matthew Dowd and Houston accountant and auditor Mike Collier, who was the Democratic nominee for the position in 2018 and came within 5 percentage points of beating Patrick. She said she was recruited to run for the position but did not say by who.

Beckley said she joined the race to give Democratic voters another option and a candidate with more legislative experience.

"Neither one of those candidates has won an election," she said. "I won an election in a hard district and improved my margins."

Collier has lost two statewide elections. First in 2014, when he ran for state comptroller against Republican Glenn Hegar and again in 2018 against Patrick. Dowd has not sought elected office before but was a political strategist for some of Texas politics' biggest names, including Republican George W. Bush and Democrat Bob Bullock.

Beckley, the owner of a pet shop, entered Texas politics in 2018 when she flipped a traditionally Republican district in Denton County by ousting three-term incumbent Ron Simmons, who had authored the so-called transgender "bathroom bill" in 2017. Her victory was a surprise to many political observers, but Beckley said she plans to use the same shoe-leather approach to winning over voters in the lieutenant governor's race.

Beckley said Republicans will have a fundraising advantage over her, but she plans to raise enough money to get her message out and win over voters.

"I was outspent 10-to-1 my first election. Nobody thought I was gonna win that either," she said. "I've done it before. So I'm confident I could do it again. I wouldn't be running if I didn't think that."

Beckley said her top priorities as lieutenant governor would be expanding Medicaid, fixing shortcomings in the state's power grid and fully funding public education. Those issues are in line with the priorities of the other candidates in the Democratic primary.

But Beckley, one of the most liberal members of the Texas House, is also known for her support for marijuana legalization, abortion rights and her call for more gun control after the 2019 mass shootings in El Paso and Midland-Odessa.

Beckley said she is a candidate who can bring "balance" to the position of lieutenant governor. Issues like marijuana legalization and Medicaid expansion would benefit rural communities whose farmers could benefit from growing marijuana for business and whose struggling hospitals would be helped by a change in the health care system, she said.

AMERICAN OVERSIGHT

But she does not back down from the positions she's taken on immigration, abortion rights and guns, saying she's portrayed as a liberal when she believes her actions are in step with the majority of Texas voters.

"Our state has gone to the extreme and I am the values of the moderate," she said. "In many other states I would not be considered liberal at all."

Beckley said Patrick is "the extreme of the extremes" and puts the interests of his donors ahead of those of average Texans.

"He told people to sacrifice their grandparents for the pandemic," Beckley said, pointing to Patrick's comments early in the pandemic that a failing economy was worse than the coronavirus.

Since her election to the House, Beckley has been a thorn in the side of the GOP majority, often butting heads with the chamber's leadership and vocally opposing their policies in debates and in the press. Former House Speaker Dennis Bonnen derided her as "vile" in a secret recording with a political operative.

Beckley said she doesn't plan to change her combative approach to politics during her statewide race.

"It's a benefit," she said. "The voters know I'm going there to fight for what they vote me in for."

Beckley's blunt talk has sometimes landed her in trouble with her own party. After she was elected to the House in 2018, some Democrats in Denton County accused her of making insensitive racial comments during the campaign trail, when she said the only Spanish she spoke was "tacos and burritos."

Beckley apologized for the comments but denied any racial bias. As her statewide race kicks off, Beckley said she will try to run on her record and not worry about past allegations.

"I've learned that people will say anything they want to about you," she said. "I do have a voting record that is the antithesis of what those unfounded conversations were."

Earlier this year, Beckley announced a run for Congressional District 24 in North Texas currently held by U.S. Rep. Beth Van Duyne, R-Irving. But Beckley suspended her campaign after lawmakers redrew the district to make it much more favorable to Van Duyne. At the same time, Republicans redrew her Texas House district to be more favorable for Republicans.

She considered several other offices, including municipal positions, before landing on running for lieutenant governor.

"They can't draw me out of Texas," she said.

Beckley welcomed former El Paso congressman Beto O'Rourke's entry into the governor's race as a development that could help Democrats down-ballot.

"It's great for the Democratic Party," she said. "He has the infrastructure that we need. He is the strong voice that we need and he will help Texans. He will bring people to the polls."

Viral Video Shows Crowd At Texas Church Chanting 'Let's Go Brandon' During An Event

AMERICAN OVERSIGHT

By Malak Silmi
Houston Chronicle

A video posted Saturday on Twitter showing a crowd chanting "Let's go Brandon" during an event at Cornerstone Church has been viewed more than 2 million times.

According to the Associated Press, the slogan is a stand in for “F--- Joe Biden” and became popular among Republicans after a post-NASCAR race interview in October. During an interview with NASCAR driver Brandon Brown, the crowd could be heard chanting the vulgar phrase. The reporter, however, believed the crowd was chanting "Let's go Brandon."

The video that emerged from the popular San Antonio church was recorded some time during the three-day "ReAwaken America" conference that took place Nov. 11-13.

On HoustonChronicle.com: Texas AG Ken Paxton gets grilled on Fox News over 'inconsistent' vaccine stances

Among the speakers at the conference was Michael Flynn, the former National Security Advisor to Donald Trump who resigned less than a month into the role because he lied to the FBI about his contacts with Russia.

PatriotTakes, an organization that exposes far-right disinformation, shared the video on Twitter with the caption "The Q-Anon crowd is at televangelist John Hagee’s Cornerstone Church in San Antonio. They are chanting, “Let’s Go Brandon” from the church pews."

A second video posted by PatriotTakes shows that the chants may have been led from the stage and not spontaneously from the crowd.

Texas State Rep. Ina Minjarez To Run For Bexar County Judge
By Daniel Friend
The Texan

After exploring a bid for over a month, state Rep. Ina Minjarez (D-San Antonio) officially launched her campaign for Bexar County judge on Monday, forgoing reelection to the Texas Legislature.

“Over the course of my career, I have worked to support working families, small businesses, seniors — our everyday neighbors,” said Minjarez in a video. “This year alone, I worked to bring our community over one million dollars in funding to our higher education institutions, library services, the children’s courts, local infrastructure projects, and economic growth programs that have helped veterans and local businesses in Bexar County”

Minjarez was first elected to House District (HD) 124 in the Texas House of Representatives in April 2015 during a special election and was sworn in shortly before the end of the 84th Regular Legislative Session.

Her decision to run for the top executive position in Bexar County comes after the current county judge, Nelson Wolff, decided not to seek reelection.

Had she sought reelection to her state House seat, Minjarez would have had more of an upper hand than in previous years, as redistricting left her district slightly more Democratic.

The Texas Partisan Index rating — a metric based on election results in 2018 and 2020 — for HD 124 shifted from a seat where Democrats carried about 65 percent of the vote (D-65%) to D-68% after the new maps were signed into law.

HD 124 covers the southwestern portion of San Antonio and includes Lackland Airforce Base.

Minjarez's retirement from the legislature follows a wide swath of her colleagues who have done the same.

A list of the open seats in the state legislature can be found on The Texan's 2022 Election War Room.

Education

Texas Education Board Considers How Middle Schools Teach Climate Change And Sexuality As Officials Fight Over Library Books
By Brian Lopez
Texas Tribune

When the 15 members of the State Board of Education meet at its regular quarterly meeting this week, the elected group is expected to talk about how climate change and sexuality are taught to middle school students. It's part of a regular process that takes place every eight years.

But there's another topic not on the agenda that at least one board member says needs to be discussed, and that's how much say the board has about what goes on a school's library shelf.

Last Monday, Gov. Greg Abbott called on both the Texas Education Agency and the state education board for the removal of books with "overtly sexual" content in school libraries and to develop standards for what gets into libraries. The governor chimed in after state Rep. Matt Krause, a Fort Worth Republican, launched an investigation into certain school districts over the types of books students can access.

Ever since Krause published a list of around 850 books — most of which are about race and sexuality — and began asking districts if they had them on the shelves, the question of who polices nontextbooks available in schools has been unresolved. The Texas Association of School Boards says the decision is one local schools make.

But at least one state board of education member, Pat Hardy, who represents Tarrant and Parker counties as well as part of Dallas County, says the board needs more clarity on what role the board has in these decisions.

"Don't just throw the hot potato our way and say 'Y'all take on that responsibility,'" she said.

Last week, Keven Ellis, education board chairperson, said Texas public school families "should have the reassurance that their children are not at risk of being confronted with pornographic and obscene material when they are in school."

But exactly what form that reassurance takes is unclear.

The state board typically works on standards that textbook publishers need to meet. But as they take up science and health standards this week, some similar topics that concern parents — and lately, lawmakers — will be surfacing, primarily about sexuality.

AMERICAN OVERSIGHT

Last year, the board approved expanding the state's seventh- and eighth-grade health and sex education curriculum to include forms of birth control beyond abstinence and education about sexually transmitted infection. However, the Republican majority board once again fell short of being more inclusive of the LGBTQ community, rejecting pushes to include lessons on sexual orientation, gender identity and consent.

At least one of the 13 textbooks that the State Board of Education will consider contains supplementary materials that touch on those topics — although teachers are not required to teach them. Once approved, they would then be available for school districts to adopt.

Dan Quinn, a spokesperson for the left-leaning Texas Freedom Network, said allowing this book to be adopted by school districts will give teachers a tool to talk about these topics.

Quinn's group believes the board must revise its health curriculum to include those topics. The board will meet from Tuesday through Friday.

"This vote really is a test for whether the state board of education in Texas has moved past the culture wars and the political circuses," Quinn said.

Hardy said she'll have a hard time voting for a textbook that includes things that aren't in the state-approved standards. Hardy said parents have the option to teach their children about things that aren't in the state-approved standards.

"The standards we chose reflect what we heard from parents as to what they wanted," Hardy said.

The state board is also set to vote on new science standards for middle schoolers with the most attention being drawn to what eighth graders are learning about climate change, Quinn said.

The last time the state board adopted new science standards in 2009, the chair at the time said climate change was a "bunch of hooey." Over a decade later, the current board made changes to its high school curriculum last year with climate change being addressed in some high school courses and now moves to do the same in middle schools.

Under the proposed eighth grade science guidelines, students are expected to learn how "natural events and human activity can impact global climate." For Quinn and scientists, that's where the problem lies. Human activity and natural events do, have and will continue to impact global climate. There is no "can," he said.

Hardy said she likes the way the climate change standards are currently worded as she wants children to learn both the good and bad that come from fossil fuels — such as how it has elevated and supported the Texas economy.

On Nov. 4, climate scientists across the state sent a letter to the state board urging that they revise the proposed curriculum to reflect that human activity such as the release of greenhouse gases have affected the climate.

"Teaching about climate change doesn't just prepare students to succeed in college-level work if they choose to further their education after high school," wrote Andrew Dessler, professor of atmospheric sciences and the Reta A. Haynes chair in geosciences at Texas A&M University. "It also helps students become informed voters who understand the stakes and can make responsible decisions as we work together to find real solutions to the problem."

Energy

Permian Basin Roars Back To Life, With Oil Output On Track To Set A Record In December
Dallas Morning News

Oil output in the Permian Basin is projected to hit a record as the largest U.S. shale patch leads the recovery in domestic production from its COVID-19 induced slump.

Supplies from the prolific oil field of West Texas and New Mexico are set to increase to 4.95 million barrels a day in December, according to a U.S. government report Monday. That surpasses the record set in March 2020, right before the pandemic wreaked widespread demand destruction globally, triggering production shutdowns and bankruptcies across the U.S.

Crude supplies from the basin now exceed that of each OPEC member except Saudi Arabia, underscoring the Permian's ascendancy to its role as a globally important swing producer. Its bounce-back has been driven by low break-even costs, and the largest U.S. drillers are almost exclusively focusing their limited domestic plans for expansion on the sprawling oil patch, at the expense of other shale basins. Total U.S. output is still a long way off from a full recovery.

One reason drillers aren't incentivized to boost output in other basins is because most market observers estimate that the global oil market will become oversupplied next year. Last week, the Energy Information Administration projected that global oil supply is set to average 101.42 million barrels a day in 2022, while worldwide demand is seen at 100.88 million barrels a day.

Still, record Permian output won't be enough to significantly reduce oil prices in the near future as long as overall demand continues to outpace supply.

Production in the Bakken in North Dakota and the Eagle Ford in South Texas are both still down from pre-pandemic levels. Output in other shale regions is set to rise modestly with gains ranging 2,000-5,000 barrels a day, the agency said.

The backlog of oil wells that have already been drilled and are waiting to be fracked, known as DUCs, have sunk to the lowest volume since 2014, the agency said in its Drilling Productivity Report.

But U.S. oil explorers are making more money than at any time since the shale revolution began over a decade ago, according to Deloitte LLP. And this may just be the beginning. Free cash flow, the key metric watched by investors, probably will increase by 38% next year, presuming oil prices remain elevated, according to Bloomberg Intelligence.

After effectively subsidizing consumers through the 2010s with break-neck drilling that depressed global oil prices, the shale industry appears to have struck a winning formula: moderating production, limiting reinvestment in new wells and shaving debt. Crucially, executives now understand that any output growth must be carefully measured, and not take market share from OPEC and its allies, for fear of sparking repeats of the bruising price wars of 2014 and 2020.

"Public-company investors just don't want to see companies spend a ton of money only to slam the price," said Nick O'Grady, chief executive officer of Northern Oil & Gas Inc. "It becomes self-defeating. And that's the experience of public investors for the last 10 years."

AMERICAN OVERSIGHT

Publicly traded companies are unwilling to budge from austerity programs popular with investors.

“Our investors want cash back,” Scott Sheffield, CEO of Irving-based Pioneer Natural Resources, said on Bloomberg TV this month.

Business/Economy

Texas Born Cookie Delivery Service Tiff’s Treats Is Now Worth $500 Million
By Dom DiFurio
Dallas Morning News

Cookie delivery service Tiff’s Treats is now worth $500 million after the completion of a recent $30 million funding round, the Austin-based company announced today.

The company began in Leon Chen’s Austin apartment in 1999 when he and Tiffany began dating while attending the University of Texas. The founders moved the company into its first real kitchen space in 2000, and have been opening locations across the state ever since.

The second-ever Tiff’s Treats location opened was in downtown Dallas in 2006, and the company expanded outside of its home state for the first time in 2016. The company now has 70 retail distribution centers across the southern U.S. and employs 1,700 workers. It’s sold more than $200 million warm cookies to date.

The company plans to invest the $30 million it raised in continuing its national expansion and development of its e-commerce platform.

“We continue to invest in our direct-to-consumer, on-demand gifting and delivery platform from the ground up, resulting in a best-in-class giving and receiving experience for customers,” cofounder Leon Chen said in a statement Tuesday. “With our technology, we manage the entire delivery experience, utilizing our own delivery drivers and highly-committed in-house customer service team. We are focused on our mission to connect people through warm moments. Warm cookies are the vehicle, but our purpose is much bigger than that.”

The company just opened a Kessler Park location in August, its 17th in the Dallas area. And the Chen’s are releasing their first book early next year which will delve into the couple’s last two decades of entrepreneurship.

Tiff’s has had a number of high-profile Texas figures and celebrities invest in the company over the years including former Dallas Mayor Mike Rawlings, Dirk Nowitzki and Kendra Scott.

“Every day we are lucky to be an integral part of some of the most significant moments in people’s lives, fulfilling our mission of connecting people through warm moments,” cofounder and president Tiffany Chen said.

Welcome To Musklandia: Austin Adjusts To Life With Tesla And Its Eccentric Billionaire Boss Elon Musk
By Kara Carlson
Austin American Statesman

AMERICAN OVERSIGHT

Welcome to life in Musklandia.

As Elon Musk's sphere of influence in Austin and across Texas seems to expand by the day, the eccentric Texas-based billionaire is taking the region and the state along on the wild and often weird roller-coaster ride that is his life.

It's been a little more than a month since Musk announced Oct. 7 that Tesla is moving its headquarters to Austin, but even before that, Musk was already spending an increasing amount of time in Austin. He has been moving more of his companies into the region since at least 2020, most notably with Tesla's $1.1 million manufacturing facility currently being built in southeastern Travis County.

Construction crews work on the $1.1 billion Tesla facility in southeastern Travis County in October.
As Austin becomes ground zero for all things Musk, that leaves the rest of us figuring out how to navigate the new landscape — good, bad and odd.

"Musk is a modern-day Albert Einstein in the eyes of many, and the richest person in the world by a wide margin. He's going to bring a lot more limelight and focus on Austin," said Dan Ives, an analyst with Wedbush Securities.

Musk and Austin are likely to become inextricably linked in the coming years, Ives said.

"When the average person in the world thinks Austin, Texas, they're not going to the music festival or Dell or for the great city it is. Tesla and Elon Musk are going to become synonymous with Austin," Ives said.

Roger Kay, an analyst with Endpoint Technologies, said Musk's status and personality are sure to have an impact on Central Texas.

"He's the richest guy in the world, which is interesting. So what he'll do immediately is upstage (Dell Technologies founder and CEO) Michael Dell, at least on that," Kay said. "Michael has been the kind of king of Austin, I would say, all up until this point."

Expanding presence
While the $1.1 billion Tesla manufacturing facility and Tesla's planned headquarters move to Austin have drawn the most attention, Musk's ventures have been quietly expanding in Central Texas for some time now. They include Musk's tunneling and infrastructure company, the Boring Co., which has facilities in Pflugerville and Bastrop; a potential SpaceX expansion somewhere in Austin; a potential Neuralink office; and the headquarters of his private foundation, the Musk Foundation.

Also, a Tesla subsidiary, Tesla Energy, was recently licensed to operate as an energy provider in Texas, according to documents filed with the Texas Public Utility Commission. The company is already building the first Tesla solar neighborhood in Austin, called SunHouse at Easton Park, with solar- and alternative-powered energy.

Meanwhile, SpaceX — Musk's aerospace and rocket company — has multiple facilities around Texas, including a launch site near Boca Chica in far South Texas.

What's not clear is whether Musk has a residence in Austin. Although various media outlets have listed Austin as his home, he has never publicly confirmed that. Musk announced last year that he had moved to Texas but said his main residence is a small home near Boca Chica on the SpaceX campus.

Whether Musk actually lives in Austin or not, his influence in and impact on Central Texas can't be denied.

AMERICAN OVERSIGHT
TX-SOS-22-0155-B-000252

Kay said the influx of Tesla and other Musk-related companies will lead to higher salaries in the local tech industry, as well as add to the region's already booming housing market and send real estate prices even higher.

"For some people there will be good opportunities. Other people," Kay said, "are going to be irritated."

'Most powerful voice in the world'
One of the places where Musk has drawn the most attention — and perhaps created the most irritation — has been on social media. Musk is active on Twitter, where he has more than 63 million followers.

With his immense wealth and such a huge audience, the influence of what Musk posts on social media shouldn't be downplayed, Ives said.

Eccentric Tesla CEO Elon Musk recently became the first person in history with an estimated net worth of more than $300 billion.

"He is one of, if not the most powerful voice in the world in terms of social media and a following," Ives said. "If Musk talks, everyone's listening. When you're on the right side of that, it's great. When you're on the wrong side of that, it's a lot of downsides."

Few days go by without Musk making some sort of headline on social media, whether it be for company news, cryptic personal statements, political commentary or just posting a meme.

One example was early last week, as after polling his Twitter followers on whether he should sell 10% of his Tesla stock, Musk sold about 900,000 shares, netting over $1.1 billion. His trust also sold more than 3.5 million shares worth $3.88 billion. The stock options that were sold would expire next year and still leave Musk with about 170 million Tesla shares.

More sales later in the week, from both Musk and his trust, have brought the total stock sold to 6.4 million shares, worth a total of $6.9 billion. The sales so far amount to less than 4% of the shares he holds.

Ives said that while a sale of some stock has been expected to pay upcoming taxes, holding a Twitter poll to sell the stock is "another soap opera that can only happen to one company and one CEO in the world, Musk."

Here are a few more highlights and lowlights from Musk on social media in the past month:

- Over the weekend, he clashed with U.S. Sen. Bernie Sanders on Twitter after the former presidential candidate from Vermont said the extremely wealthy should pay their fair share. Musk tweeted: “I keep forgetting that you’re still alive,” and later added, “Want me to sell more stock, Bernie? Just say the word …”
- He criticized Tesla co-founder Martin Eberhard, with whom he has feuded for years, on Twitter. He claimed to "wish he never met" the co-founder, whom he considers the "worst person I’ve ever worked with in my entire career,” and said that Eberhard “came damn close to killing Tesla.”
- He tweeted a crass comment at Oregon Sen. Ron Wyden after the politician tweeted in support of a billionaires income tax and said Musk paying taxes shouldn't be dependent on a Twitter poll.
- He temporarily changed his Twitter name to Lord Edge, likely a reference to the phrase “edge lord.”
- He tweeted a joke that he was considering starting a new university in Texas, whose name could be used to form a rude acronym.
- He acknowledged on Twitter that Tesla's self-driving was having software issues and announced that an update would be rolled back after Tesla owners reported cars behaving erratically.

AMERICAN OVERSIGHT

- He pushed back on President Joe Biden's proposed tax plan, dubbed the Billionaires Income Tax, which would add a tax on the assets, not income, of billionaires. "Eventually, they run out of other people's money, and then they come for you," Musk tweeted on the same day he gained $36 billion in personal wealth from the Tesla stock surge.
- He called Biden a "puppet" for the United Auto Workers union and pushed back on his plan for electric-vehicle purchase tax credits proposed in the president's infrastructure bill. The plan would exclude nonunion automakers, such as Tesla.
- He exchanged tweets with David Beasley, director of the U.N.'s World Food Program, who urged Musk to donate 2% of his estimated net worth, or about $6 billion, to help fight world hunger. Musk said if the program laid out a detailed plan for how exactly the $6 billion would be used and the donation went through open source accounting, he would donate. Beasley said that was possible, and he would meet him anywhere, "earth or space," to discuss further. No donation has been made.

While most of that social media activity hasn't focused directly on Austin or Texas, there are signs Musk is starting to take more of an interest in what's going on in the Lone Star State.

'Going to be some ruffled feathers'

When Musk announced he was moving Tesla's headquarters to Austin, he didn't mention previous clashes he'd had with California officials. However, industry analysts say that while Austin is more affordable than Silicon Valley and still has the tech and engineering talent Musk needs for his companies, it seems clear he decided he preferred Texas' more business-friendly environment over California's more regulation-heavy approach.

"I think Musk selected Texas in particular because of its kind of frontier style. He's always thought that California's heavy regulatory environment was not particularly conducive to his style," Kay said. "He's made it really clear that he doesn't think public authorities have any business telling him what to do."

All of which means officials in Texas — and in Austin — could eventually find themselves getting the same pushback California did from Musk if regulatory conditions rub him the wrong way.

Musk tends to do what he wants and is clever and aggressive in how he goes about disputes, Kay said. At the same time, he will bring a lot of jobs and tax revenue to the region, which gives him cards to play.

"He'll say, 'Well, listen, you want me to just pick up stakes and go to Mississippi?'" Kay said. "There's probably going to be some ruffled feathers there when he says, 'It's my way or the highway and now I own your highway, You can't say anything about it. You do — well, then I'll bring all my resources to bear upon you.'"

It remains to be seen how Musk might aim to influence state or local policymaking.

In September, Gov. Greg Abbott said that Musk supported Texas' social policies. In response, Musk tweeted: "In general, I believe government should rarely impose its will upon the people, and, when doing so, should aspire to maximize their cumulative happiness. That said, I would prefer to stay out of politics."

However, Musk has weighed in on some Austin political issues already.

"Austin should be its city, not a San Francisco copycat," Musk said in a Halloween tweet replying to a tweet about Proposition A, which didn't pass earlier this month. The proposition would have required the city of Austin to hire hundreds more police officers.

Whatever positions Musk takes, they are sure to have influence in Austin, across the state and globally, Ives said — in large part because of Musk's immense wealth and the power that affords him.

AMERICAN OVERSIGHT

Musk recently became the first person in the Bloomberg Billionaires Index to have an estimated net worth of more than $300 billion, making him not only the wealthiest person in the country but also the richest person in history. Musk's current estimated net worth is somewhere between $280 billion and $300 billion.

Having Musk and Tesla here comes with "exponentially more positives than negatives for Austin," Ives said. "But Austin has to embrace Tesla and Elon, and not just treat him like any other business person. There are 300 billion reasons he's not."

Immigration/Border Security

Group Of 225 Migrants Apprehended In West Texas Border Town
By Bob Price
Breitbart

Del Rio Sector Border Patrol agents apprehended a large group of migrants who illegally crossed near Eagle Pass, Texas. The group of 250 is part of an increasing number of migrants apprehended in the Eagle Pass Station area of responsibility.

“The station is averaging over 500 apprehensions per day so far this month, making Eagle Pass the new hot spot for Del Rio Sector,” Del Rio Sector Border Patrol officials tweeted. “We continue to adjust operations with our constant focus on national security.”
Border Patrol officials previously stated that human smugglers utilize large groups, like this group of 250 migrants, to tie up law enforcement assets in the area in order to run drugs or so-called “high-value” migrants into the U.S.

In September, Haitian migrants make the Del Rio Sector and the city of Del Rio, Texas, the new ground zero of human smuggling activity along the U.S.-Mexico Border. Del Rio Sector officials say that with 500 migrants being apprehended per day, Eagle Pass is now that center of activity.

Over the weekend, Eagle Pass Station agents apprehended more than 1,600 migrants.

During the month of October, the first month of the new fiscal year, Del Rio Sector agents apprehended 28,073 migrants, Breitbart Texas reported. This represents an apprehension rate of about 900 migrants per day. Now, Eagle Pass Station agents alone are apprehended about 500 per day.

These apprehensions are part of the nearly 160,000 migrant apprehensions in October detailed in a leaked Border Patrol document reviewed by Breitbart. This is up by 129 percent from the previous October report.

A source within U.S. Customs and Border Protection speaking to Breitbart under the condition of anonymity said that of the more than 158,000 migrants apprehended in October, only 59,000 were returned to Mexico under the Title 42 coronavirus protection protocol put in place by the Centers for Disease Control and Prevention under the Trump administration.

Nearly 100,000 migrants required longer detention in temporary holding facilities while awaiting processing for delayed removal under the order or in the case of more than 60,000 migrants, release into the United States.

Abbott Shares Barbed Wire Fencing Photos To Tout Border Wall Progress In South Texas
By Hayden Sparks
The Texan

Months after promising a Texas wall on the border with Mexico, Governor Greg Abbott tweeted two images on Friday depicting barbed wire fencing and heralded the barrier as part of the state's efforts against illegal immigration.

"Construction of strategic fencing continues along the Texas-Mexico border. Miles of razor wire is being used to repel illegal immigrant crossings into our state," Abbott wrote. "Progress is being made on our border wall. Texas is securing the border."

The tweet included an image of rolls of barbed wire fencing and another image of a completed chain-linked fence with barbed wire perched at the top facing both directions. In the second photograph, a male construction worker in a yellow vest is accompanying a convoy of front-loaders traveling parallel to the fence.

Abbott launched the border fence project in June after the end of the 87th legislature's regular session. The border wall has received hundreds of millions of dollars of state funding and donations, including a donation in excess of $53 million from Timothy Mellon, a Wyoming billionaire with a history of supporting GOP candidates.

Mellon's grandfather was the late Treasury Secretary Andrew M. Mellon.

The Texas legislature provided an additional $1.02 billion in border security funding during the second called session, most of which was for the border fence.

Both Republicans and Democrats supported the additional border fence funding, though some lawmakers pushed back on the idea that the border is a disaster area that requires an influx of spending on security.

President Biden stopped construction on the federal government's border wall almost as soon as he took office in January. However, Chris Magnus, the Arizona police chief Biden has nominated to lead U.S. Customs and Border Protection, stated in a hearing that he was open to resuming a part of the border wall if it was prudent.

There were more than 1.15 million apprehensions of illegal aliens in Texas border patrol sectors in Fiscal Year 2021, not including the estimated number of people who evaded custody, which could be up to two or more individuals per arrest.

All three of Abbott's challengers in the Republican primary, Chad Prather, Don Huffines, and Allen West, have made border security a key issue in their campaigns. In fact, in the first few weeks of his candidacy, Huffines touted the endorsement of Uvalde Mayor Don McLaughlin.

When he backed Huffines in May, McLaughlin called Abbott a "fraud" and noted that schools had to be shut down in Uvalde due to illegal immigration threatening the safety of the town, which is near the southern border.

Abbott's GOP opponents have criticized him for failing to reduce illegal crossings and have made campaign pledges to introduce more stringent policies and be more confrontational with the federal government on the issue.

While border security is primarily a federal responsibility, Abbott ramped up the state's border response in March with an effort known as Operation Lone Star, which has resulted in the arrests of tens of thousands of illegal aliens and the seizure of thousands of pounds of narcotics.

AMERICAN OVERSIGHT

In a statement to The Texan on Monday, Department of Public Safety (DPS) Press Secretary Ericka Miller provided the most recent statistics for Operation Lone Star, which are current through November 11.

"Since Operation Lone Star began, DPS has made 9,162 criminal arrests, including 1,864 for criminal trespassing. There have also been 7,230 felony charges filed. In addition, DPS has made more than 77,500 migrant apprehensions and referrals, and there have been 929 vehicle pursuits," Miller wrote.

Feds Arrest Nine Suspects in Smuggling Incident Near Del Rio That Killed Eight People
By Hayden Sparks
The Texan

Nine Texans and an individual from Ohio are facing life sentences for their alleged roles in a human smuggling operation that resulted in the deaths of eight people and the serious injury of several others, the United States Department of Justice (DOJ) stated last week.
According to a press release, a Texas Department of Public Safety (DPS) officer attempted to stop 25-year-old Sebastian Tovar of Toledo, Ohio, while he was driving a Dodge Ram in the Del Rio area on March 15.

A chase ensued that ended with Tovar colliding with oncoming traffic, killing eight people and seriously injuring another in his vehicle. All nine individuals Tovar was transporting were illegal aliens. Two American citizens not inside Tovar's truck were also injured, per the DOJ.

"After the crash, U.S. Border Patrol (USBP) agents encountered a Ford F-150 stopped in traffic near the crash site. USBP agents directed the Ford to turn around and subsequently all occupants of the Ford fled the vehicle, absconding into nearby brush," the press release stated.

"USBP agents were able to locate 12 undocumented noncitizens who bolted from the Ford. After interviewing two of the undocumented noncitizens, USBP agents determined that the occupants of the Dodge and Ford were part of a human smuggling operation that was illegally transporting 20 undocumented noncitizens in the U.S."
The government indicated that Tovar, 33-year-old Nicolas Mondragon-Gonzalez of Austin, 34-year-old Veronica Torres-Mendez of Austin, 40-year-old Jennifer Davis of San Antonio, 19-year-old Ruben Rodriguez-Jaimes of Bastrop, 32-year-old Lauren Malmquist of Round Rock, and 23-year-old Eduardo Benitez of Bastrop are charged with one count of transporting illegal aliens resulting in death. If found guilty, they face sentences of life imprisonment.

Tovar is also looking at one count of transportation of illegal aliens resulting in serious bodily injury and one charge of conspiracy, for which he could be sentenced to 20 years each.

29-year-old Marco Hernandez of Paige and 21-year-old Jose Rodriguez of Austin, in addition to everyone else charged, are accused of up to several counts of transporting illegal aliens. They face up to ten years in prison on each of those counts.

Hernandez is the only defendant named in the 11-count indictment who authorities had not yet taken into custody as of Tuesday, according to the DOJ.

AMERICAN OVERSIGHT

O'Rourke's Bid For Governor Means Abbott Will Be Forced To Campaign To The General Electorate
By Erica Grieder
Houston Chronicle

It's official: Texas Democrats have a candidate for next year's gubernatorial race.

A credible candidate, too, in former Texas congressman Beto O'Rourke, who came within 3 percentage points of unseating U.S. Sen. Ted Cruz in 2018.

The El Paso Democrat made the long-awaited announcement on Monday morning. He also released a list of planned campaign events, which will take him through south Texas this week for meetings with organizers, health care workers and law enforcement officers, and to Houston on Friday evening, for a campaign kickoff rally.

"I'm running for governor, and I want to tell you why," O'Rourke said in his launch video, on YouTube. "This past February, when the electricity grid failed, and millions of our fellow Texans were without power — which meant that the lights wouldn't turn on, the heat wouldn't run, and pretty soon their pipes froze and the water stopped flowing — they were abandoned by those who were elected to serve and look out for them."

It's a strong opening salvo, and one that illustrates why Gov. Greg Abbott, a Republican, can't be thrilled about O'Rourke's announcement.

On HoustonChronicle.com: What you need to know about Beto O'Rourke as he challenges Texas Gov. Greg Abbott

"I welcome the challenge," Abbott said in response to the announcement, which came as he was in south Texas for a press conference with state Rep. Ryan Guillen, a Democrat who is switching parties to join the GOP.

Certainly, Republicans are full of bravado, citing President Joe Biden's sinking approval ratings in Texas, as well as O'Rourke's mixed track record at the polls.

While O'Rourke won three congressional races and then stunned political observers with his strong showing in 2018, he came up short in his Senate bid, then dropped out of the 2020 presidential race before voting began.

In the aftermath of two August 2019 mass shootings in Texas—one inside a Wal-Mart in his hometown of El Paso, the second in Midland and Odessa—he declared his support for a mandatory buyback program for assault weapons. Those are comments that you can expect to hear on a loop and divorced from context for the next 12 months.

But behind this GOP bravado is, surely, some recognition of the facts. Any race is in some sense a referendum on the incumbent, and Abbott is much more vulnerable than he was four years ago when he beat Democrat Lupe Valdez, a former Dallas County sheriff, by nearly 13 points.

Since 2018, we've seen more than 70,000 Texans die due to the COVID-19 pandemic — a scourge for which Abbott mandated a largely hands-off approach. We also saw some 200 hundred Texans die, in February, due to the failure of our statewide electricity grid, which has yet to be fixed. This year alone, Abbott has pursued a far-right agenda that has led to passage of a near-total abortion ban and new restrictions on voting rights (O'Rourke was an outspoken critic of the latter). There have been attacks on transgender children, and, more recently, an attempt to ban books at school libraries.

AMERICAN OVERSIGHT

O'Rourke obviously has more baggage than he did four years ago, when he emerged from relative obscurity like a bolt of lightning. Democrats in 2018 rode a wave of dissatisfaction with President Donald Trump to success at the polls.

But the same could be said of Abbott, a two-term governor with a record he must defend — and which O'Rourke plans to highlight via contrast ads, he tells the Texas Tribune's Patrick Svitek.

Recent polls suggest that O'Rourke will give Abbott a run for his money; While Abbott enters the race as the favorite — a Democrat hasn't won a statewide election in Texas since 1994 —the well-known and energetic O'Rourke can force the governor to defend his record to voters who turn out next year: Republicans can't be thrilled about that prospect.

Incidentally, there's another clear upside: We presumably can stop talking about Matthew McConaughey now, right?

This is no disrespect to the Academy-Award winning actor and author, who seems like a genuinely nice person. But good Lord, he's had Texas political observers gnashing their teeth since expressing some interest in next year's gubernatorial race.

"I'm actually trying to look at the idea and give it serious consideration," McConaughey said in April. As well he might; polls have found him leading Abbott in a hypothetical matchup.

But he hasn't subsequently engaged much with the Texans who have been in the trenches battling state government over the past year. In an interview with Kara Swisher of the New York Times last month, he was equivocal about Texas's new abortion law and its citizen enforcement clause — "feels a little juvenile in its implementation" — and demurred outright when asked about the state's highly controversial "election integrity" measure, Senate Bill 1.

"You know, I don't know enough about that to be able to discuss the details on how I feel about that," McConaughey said.

But he added, "I think it should be easier to vote."

To be clear, McConaughey — or anyone else — still has time to jump in. The filing deadline for candidates is Dec. 13. And, for that matter, there's no guarantee that O'Rourke will end up in a one-on-one showdown with Abbott. The governor is facing a primary challenge from two candidates to his right, former state Sen. Don Huffines and former Texas GOP chair Allen West.

But with O'Rourke's announcement, the stage is set for a likely showdown between him and Abbott — one that will put both men to the test, decide whether Texas continues on its increasingly conservative course and again turn a national spotlight on Texas.

Greg Abbott News

Why Gov. Greg Abbott V. Beto O'Rourke Is A Rare Heavyweight Battle In Texas Politics
By Jeremy Wallace
Houston Chronicle

Democrat Beto O'Rourke announced Monday that he will challenge Gov. Greg Abbott in his bid for re-election, setting up a heavyweight battle for governor that is unlike anything Texas has seen in decades.

"I'm running to try to help bring this state together," O'Rourke said. "To do the really big things that are before us right now and to get past the divisiveness, the extremism and the real small politics and policies of Greg Abbott."

No Democrat has won a governor's race in Texas since Ann Richards in 1990. But O'Rourke brings star power that Democrats have lacked. He has strong name recognition and has proven fundraising muscle, having raised a record $79 million in a narrow loss to U.S. Sen. Ted Cruz in 2018.

In taking on Abbott, O'Rourke is challenging perhaps the most powerful Republican in the state. Abbott, a 64-year-old native of Wichita Falls, has won seven straight statewide campaigns for office dating back to 1996 and had amassed over $50 million for his re-election.

At a political event in Floresville on Monday, Abbott called O'Rourke too liberal for Texas, an argument the governor was making with 30-second ads even before O'Rourke made up his mind to run.

HOW DID BETO O'ROURKE GET HERE?

WHY HE'S A CONTENDER: O'Rourke emerged on the statewide political map during his 2018 campaign for Senate, when he raised nearly $80 million. The core of his campaign was decrying the pettiness and partisanship in American politics and pitching himself as someone who'd be able to work across the aisle: "We can be defined by our fears or we can be known by our ambition and aspirations." A key to that campaign was visiting all 254 Texas counties, including heavily Republican areas where he would not win even 5 percent of the vote. Those travels helped give him national attention, leading to TV interviews on "The Ellen DeGeneres Show," "The Late Show with Stephen Colbert" and with Oprah Winfrey.

SERVICE IN CONGRESS: O'Rourke served six years in the U.S. House representing his hometown of El Paso from 2013 to 2019. Possibly his hallmark achievement was legislation expanding mental health care for military veterans even if they received a less-

AMERICAN OVERSIGHT

than-honorable discharge, an idea that was an outgrowth of El Paso having one of the highest suicide rates for veterans.

ROOTS: O'Rourke grew up in a wealthy, politically active family, His father was an El Paso county commissioner and was the county judge for four years. After O'Rourke attended a private, all-male boarding school in Virginia, he attended Columbia University where he earned a bachelor's degree in English. After college, he was a bass player in a punk music band before later returning to Texas. In 1998, at just 26 years old, he helped launch a technology firm called Stanton Street Technology Group.

START IN POLITICS: O'Rourke built his career on beating incumbents. First in 2005, O'Rourke defeated an incumbent city councilman in El Paso. Then in 2012, O'Rourke challenged incumbent Congressman Silvestre Reyes in a Democratic primary. O'Rourke won and served three terms in the Democratic minority in the House.

TEXAS GOVERNOR'S RACES SINCE 1994

2018
Greg Abbott, Republican 56%
Lupe Valdez, Democrat 43%

2014
Greg Abbott, Republican 59%
Wendy Davis, Democrat 39%

2010
Rick Perry, Republican 55%
Bill White, Democrat 42%

2006
Rick Perry, Republican 39%
Chris Bell, Democrat 30%
Carole Keeton Strayhorn, Independent 18%
Kinky Friedman, Independent, 12%

2002
Rick Perry, Republican 58%
Tony Sanchez, Democrat 40%

1998
George W. Bush, Republican 68%
Gary Mauro, Democrat 31%

1994
George W. Bush, Republican, 53%
Ann Richards, Democrat 46%

AMERICAN OVERSIGHT

“We talked earlier about the values that Texans share, and if you look at issue after issue after issue that Beto campaigned on for presidency of the United States, they weren’t just at odds with Texans — they were hostile to Texans,” said Abbott, who is seeking a third term.

The 1994 election, when George W. Bush beat Richards, was the last governor’s campaign with the “sizzle and pop” of what is setting up in 2022, said Cal Jillson, a political science professor at Southern Methodist University in Dallas.

“This is what we have all been waiting for,” Jillson said.

What makes the race so special is that O’Rourke is without question the best known and best fundraiser among Texas Democrats — and nearly the same can be said of Abbott among Republicans. For the past 26 years, the former Texas Supreme Court justice and Texas attorney general has blown out every opponent, whether in a primary or general election.

Since Bush beat Richards, no Democrat running for governor has won even 43 percent of the vote. In 2010, former Mayor Bill White was a substantive candidate against then-Gov. Rick Perry but didn’t have the fundraising and energy that O’Rourke brings to the table, Jillson said.

The recent past has shown that money alone won’t do it in Texas, which has 20 media markets. In 2014, Democrat Wendy Davis was a big fundraiser, but she couldn’t crack 40 percent against Abbott in his first race for governor.

“It’s not just luck” that Abbott hasn’t had a competitive race in more than 25 years, Jillson said. A lot of work goes into building a machine that stops would-be challengers from emerging.

But O’Rourke has built a political career of beating established incumbents, starting with races for the El Paso City Council in 2005 and for Congress in 2012. Though he started his 2019 campaign for the White House as an early front-runner, O’Rourke’s polling and fundraising tanked after Joe Biden jumped into the race.

Before Abbott and O’Rourke can face off, they need to get through the primary elections set for March 1. Abbott is facing at least two significant GOP primary opponents in former Texas GOP Chairman Allen West and former state Sen. Don Huffines. They have been attacking Abbott for not being conservative enough during his two terms as governor.

Who will run against O’Rourke in March is still being determined. Candidates have until Dec. 13 to get on the ballot for the primary.

Oil, guns and governance

AMERICAN OVERSIGHT

O’Rourke’s challenge comes as Democrats inch closer to Republicans in long-red Texas, thanks to surging voter registrations and Republicans losing ground in the state’s biggest cities. After O’Rourke’s close call in 2018, Biden came within 6 percentage points of beating former President Donald Trump for Texas’ 38 Electoral College votes. It was the closest a Democrat has come to beating a Republican for president in Texas since Jimmy Carter won the state in 1976.

In an interview with the Houston Chronicle, O’Rourke, 49, said he will call for expanding Medicaid to cover more of the working poor, improving schools and fixing the Texas power grid so there will not be a repeat of February’s winter storm that left millions without electricity.

“He’s done a lot of damage to this state,” O’Rourke said. “He’s taking Texas in the wrong direction. The people of Texas understand that. So my challenge, and my opportunity, is to present the alternative.”

Abbott is already on the campaign trail, championing the oil and gas industry that powers the Texas economy and provides 200,000 jobs in drilling alone, not counting refineries and pipelines. He’s pledged to finish Trump’s border wall in the state, and this year he signed into law a measure allowing unlicensed Texans to carry concealed handguns in public.

Abbott has made clear that guns will be a big piece of his debate with O’Rourke. During a campaign stop in Corpus Christi last week, he told the crowd he’s fighting “Joe Biden from coming in and taking your guns the way that Beto O’Rourke said he was going to do.”

That is a reference to O’Rourke’s pledge in 2019 while he was running for the Democratic nomination for president: “Hell yes, we’re going to take your AR-15, your AK-47.”

O’Rourke made those comments during a debate in Houston just two weeks after a gunman killed seven and wounded 22 others during a shooting spree in Midland and Odessa. A month earlier, a different gunman used a semi-automatic rifle to kill 23 people at a Walmart in O’Rourke’s hometown of El Paso.

He said talking to the mother of a teenager who bled to death on the sidewalk in Odessa after being shot with an AR-15 convinced him that just banning future sales is not enough — assault-style rifles need to be taken off the streets with a mandatory gun buyback program.

He said far more extreme is Abbott signing the permitless carry legislation that allows anyone over 18 to carry a concealed handgun without any training or permits.

AMERICAN OVERSIGHT

“I look forward to having this conversation with the governor,” O’Rourke said. “We are a proud gun-owning state. I count myself among those who grew up with guns, who grew up hunting with relatives, friends.”

He still supports a mandatory buyback program for semi-automatic rifles.

“We’ve got to find a way to get these weapons of war out of our communities because of the danger that they pose,” he said. “We can protect the Second Amendment and reduce gun violence in Texas.”

[BACK TO TOP]

Beto O'Rourke Is Now In The Race For Texas Governor. But Can He Actually Beat Greg Abbott?
By John C. Moritz
Austin American Statesman

When El Paso’s Beto O’Rourke burst onto the political scene four years ago as a charismatic but little-known outsider, he was about to catch the best political wave Texas Democrats had seen in a generation.

Republican Donald Trump was two years into his term and his bombastic style of politics was proving to be an anathema for many independents and moderate Republicans, especially in the Texas suburbs. Ted Cruz, the incumbent U.S. senator O'Rourke was running against, not only turned off some of the same Republicans who disliked Trump, but he generated a visceral antipathy that jolted energy into Texas Democrats who for decades had come to expect defeat in statewide elections.

But the landscape for O'Rourke, who on Monday formally announced his candidacy for governor, has changed markedly since 2018. And many political insiders say the shift has not been in O'Rourke's – or any Democrat's – favor.

El Pasoan Beto O'Rourke officially kicked off his presidential campaign in 2019. "O'Rourke's problem is going to be that by every indication a year, nearly a year in advance, it looks like the 2022 elections are going to be substantially Republican-leaning," said Larry Sabato, the director of the Center for Politics at the University of Virginia and keen observer of national elections. "And Texas has proven beyond any doubt it is still a Republican state."

O'Rourke took dead aim at two-term Republican Gov. Greg Abbott in the video released early Monday to launch his campaign. He faulted the incumbent for the failure of the state's electric grid that kept millions of Texans without the power to heat their homes and cook their meals during the deadly winter storms in February. He hammered Abbott for his conservative policies to further restrict abortion and further expand gun rights.

AMERICAN OVERSIGHT

But Abbott, undefeated in statewide elections dating back to the 1990s, has been ready for O'Rourke's challenge for months and has shown almost delightful enthusiasm in linking the former three-term congressman to Democratic President Joe Biden. And Biden is already far more unpopular in Texas than Trump ever was as president.

"It's a tough road for Beto. It's going to be a slog," said Brandon Rottinghaus, a political science professor at the University of Houston and the author of Inside Texas Politics. Even though Rottinghaus said Abbott's job-performance numbers "among independents are underwater," the governor still has the power of incumbency and has been adroit in his ability to tie O'Rourke to Biden.

"I think you'd rather be the governor right now than the challenger to the governor," Rottinghaus said.

Gov. Greg Abbott waves to supporters as he and his wife, Cecilia, arrive for an event where he announced his bid for re-election, Friday, July 14, 2017, in San Antonio. Harold Cook, a Texas Democratic political analyst and commentator who no longer works for candidates, acknowledged that any Democrat running statewide in 2022 is running uphill. But the sunny side of the equation, Cook said, is that Abbott put at risk his reputation as a steady pragmatist when he lurched to the right during this year's legislative sessions in his effort to outflank conservative challengers in his own primary.

"There's no question that this is a tougher race for Beto than the one he ran against Cruz," Cook said. "The good news is, Greg Abbott has never been a weaker candidate than he is right now."

A University of Texas/Texas Tribune poll released last month showed Abbott with a comfortable 9 percentage point lead over O'Rourke. But the same poll also showed only 43% of respondents approved of the governor's job performance while 48% said they disapproved. But the governor still polled ahead of Biden, whose job approval rating was an anemic 35%.

Abbott's team wasted little time in the effort to tighten the link between O'Rourke and the president, accusing both of being hostile to law enforcement while encouraging illegal immigration.

"Beto O’Rourke has demonstrated he has more in common with President Biden than he does with Texans," said Abbott campaign spokesman Mark Miner.

But Clyde Barrow, chairman of the political science department at the University of Texas Rio Grande Valley, warned against putting too much stock in polling or Texans' attitude toward Biden more than 11 months before the 2022 general election.

"By the time we get around to the gubernatorial election, (Biden's recently passed) infrastructure bill will start to kick in," Barrow said. "There's $35 billion of that money

AMERICAN OVERSIGHT

coming into Texas. Nobody has really campaigned hard on many of the policies that were adopted by Biden."

Sabato said the Abbott-O'Rourke race will likely once more put Texas politics front and center in the national debate next near, just as the Cruz-O'Rourke matchup did in 2018. O'Rourke, already a national figure since 2018 and even more so after his short-lived run for the 2020 Democratic nomination, likely will again attract support from a nationwide donor base, Sabato said.

Abbott, too, has emerged as a national figure during his second term and has already proven himself a prodigious fundraiser in Texas and beyond.

"It goes without saying there will be a ton of national money on both sides," said Sabato. "It isn't just going to be Texas money."

Both candidates still have to survive their respective primaries. No candidate with a statewide base or even a recognizable name has joined O'Rourke on the Democratic side. Abbott's best-known GOP foes are former Texas Republican Party Chairman Allen West and former state Sen. Don Huffines. Both remain far behind in the few polls conducted so far.

Assuming both Abbott and O'Rourke emerge as their party's nominee, Rottinghaus said the bigger burden will likely be on the Democrat to show he still has the magic that was on display in the Senate race four years ago.

“Can you catch lightning in a bottle twice?” he said. “That’s going to be hard to do.”

[BACK TO TOP]

Beto O’Rourke Went After Assault Rifles In His Run For President. Will That Hurt Him With Gun-Loving Texans?
By James Pollard and Patrick Svitek
Texas Tribune

Still raw from a deadly mass shooting that took place in his hometown of El Paso, Beto O’Rourke unapologetically defended his support for a mandatory assault weapon buyback program at a September 2019 debate in Houston.

“Hell yes, we’re going to take your AR-15, your AK-47,” O’Rourke famously said to roaring applause from a crowd at Texas Southern University. “We’re not going to allow it to be used against our fellow Americans anymore.”

At the time, the former congressman was seeking the Democratic nomination for president, trying to distinguish himself among primary voters in a wide field of candidates. Now, he’s running for governor in a state with the most gun owners in the

AMERICAN OVERSIGHT

nation against an incumbent who routinely touts his record on relaxing firearm restrictions.

In an interview with The Texas Tribune to announce his run, O'Rourke said he won't be backing down from his message on guns. He also said many Texans who support gun rights, regardless of party, agree that most people shouldn't have access to assault rifles.

"Most of us understand the responsibility that comes with owning a firearm, and we will vigorously protect that Second Amendment right and also protect the lives of those around us," he said. "But I think most of us also understand that we should not have military-style weapons used against our fellow Texans. We have four of the worst mass shootings in U.S. history right here in Texas that took place over the last five years."

O'Rourke also turned the tables on Abbott, accusing him of being the one to promote "extremist" gun policies when he signed the permitless carry bill into law this year allowing most Texans to carry handguns without training or a license.

"What I think you'll also find is most Texans reject Greg Abbott's extreme, divisive policies when it comes to firearms, like signing the law for the permitless carry bill," he said, adding that the bill was opposed by members of law enforcement worried it could endanger officers.

O'Rourke made his iconic gun statement at the third Democratic presidential debate, which fell about five weeks after a gunman went on a shooting rampage at an El Paso Walmart targeting Hispanic people. The shooter killed 23 people in what federal law enforcement classified as an act of domestic terrorism.

The tragedy prompted O'Rourke to suspend his presidential campaign events and anchor himself in the city he represented for six years in Congress and six other years on the El Paso City Council.

O'Rourke told The Atlantic the event changed his approach to the presidential race. And the refrain — "Hell yes" — became a T-shirt and fundraising tool for a presidential campaign that ended several weeks after the debate performance.

Jordan Berry, a GOP political consultant, said O'Rourke is compromised in Texas.

Texans take the Second Amendment "really seriously," he said, adding that his gun stance will "hurt him across the board," particularly with swing voters.

But in 2019, a poll found that there were more Texans who said they supported a mandatory buyback program to turn in all assault weapons than those who opposed it. Nearly half of Texans supported the buyback program, while about 29% said they opposed it, according to a poll by the University of Texas at Tyler. The rest of the respondents either were neutral or unsure.

AMERICAN OVERSIGHT

A University of Texas/Texas Tribune poll from October 2019 found that 59% of Texas voters support a nationwide ban on semiautomatic weapons, compared to 33% who oppose the policy. The approval rating included 86% of Democrats, 56% of independents and 35% of Republicans.

For Joshua Blank, research director for the Texas Politics Project at UT, the idea that O'Rourke is in "grave danger" with Texans on the issue of gun control is overly simplistic.

In fact, Blank said Republicans pushing gun legislation in the first legislative session after the El Paso shooting may have given O'Rourke an "entry point" on the issue.

Some 55% of voters polled in October said they disapproved of a new Texas permitless carry law that allows most Texans to carry handguns without training or a license.

"In a vacuum, Beto's comments certainly create a challenge for him in Texas," Blank said. "But considered in the context of the Legislature passing permitless carry, which has majority opposition, and in the first legislative session after the mass shootings … I think it is a conversation that Beto is willing to have."

Democrats in rural Midland and Taylor counties — both of which supported U.S. Sen. Ted Cruz over O'Rourke in 2018 by about three-fourths of the vote — said they're not turned off by O'Rourke's gun stance.

Midland Democratic Party Chair Cathy Broadrick worked for the federal prison system for 20 years and had to qualify annually to operate a variety of weapons, including the M16, a rifle similar to the AR-15.

While she doesn't look down on gun enthusiasts who want to shoot such weapons — noting the "blood pumping" fun there is to be had — Broadrick said such automatic rifles shouldn't be accessible to all.

"I understand all these people that scream freedom and their constitutional rights," said Broadrick, a self-described country girl who hunted birds. "But if you've ever stood on the firing line and you've shot an M16, you realize the power that that weapon holds."

For his part, O'Rourke said he too grew up in a family of responsible gun owners.

"Most of us grew up with firearms. I did at my house, where my dad kept a gun for protection, where we had guns for hunting, where I was taught how to safely use a gun by my great uncle Raymond, who was sheriff's deputy and the jail captain at the El Paso County jail," he said.

AMERICAN OVERSIGHT

While Broadrick acknowledged that Democrats have debated the wisdom of O'Rourke's comments, she doesn't think his words will damage his political future because she believes few Texans own AR-15s.

The people who supported O'Rourke in his 2018 Senate campaign will still turn out for him this cycle, Broadrick added.

"I think Republicans will try to make an issue of it, but Beto wasn't going to get those voters anyway," she said.

Taylor County Democratic Party Chair Elizabeth Smyser said she hopes Texans interested in solutions to gun violence will have compassion for the spirit with which O'Rourke tackled this issue, noting the suffering he witnessed in El Paso. Smyser said while there may be some single-issue voters on guns that O'Rourke has lost, there is also a sizable "middle ground."

"Those people in the middle that see and have heard the stories of all the gun violence and that are tired of kids getting mowed down in their classrooms or don't want to see Latinos getting targeted again — there are a lot of people that feel that those things are far more extreme than what Beto said off the cuff in a moment of despair," Smyser said.

The rural Democrats said they expect O'Rourke to still be popular among Democrats and other voters in the race.

"The minute I say the word 'Beto,' I know I'm gonna have 200 people show up," Broadrick said. "And in red Midland, Texas, that's substantial — in an area with 80% Republican, mostly, that you can still get a lot of people to turn out."

Administration News

Carrollton Rep. Michelle Beckley Seeks Democratic Nomination For Texas Lieutenant Governor
By Philip Jankowski
Dallas Morning News

Two-term North Texas state Rep. Michelle Beckley will launch her Democratic campaign for lieutenant governor Tuesday in a bid to challenge a powerful and well-funded incumbent in Republican Dan Patrick.

Beckley, in an interview with The Dallas Morning News, said she will seek to frame Patrick and his "extremism" agenda as a politician more beholden to his powerful donors than to his own convictions.

AMERICAN OVERSIGHT

But before she can face Patrick, Beckley must first clear a field of Democrats. She joins Houston accountant and businessman Mike Collier and former ABC political commentator Matthew Dowd in the race for the Democratic nomination.

Winning will be a challenge as Collier is years ahead in establishing connections with Democrats across the state while Dowd benefits from the national recognition from his appearances on national TV and as an adviser for former President George W. Bush.

However, recent polling shows that a majority of Texas Democrats have not made up their mind about who they will vote for in the primary. That, in part, led Beckley to enter the race.

“The field is wide open,” Beckley said. “That is the reality of the situation.”

Beckley, 51, said she believes she can gobble up that real estate of undecided Democrats by focusing on her electability and record. Of the three, Beckley is the only one to win an election and the only one who can point to a voting record as proof of her progressive bona fides.

Beckley first won election to the Texas House in 2018 in an election that saw several Republican House seats flip. Beckley’s election was enough of a surprise to Democrats that she didn’t receive a congratulatory call from the state party until well after her contest was decided because no one had expected a Democrat to have a chance in Denton County, she said.

Flipping the seat immediately made her a high-profile Democrat in the Texas House. Holding it in a difficult 2020 reelection campaign furthered that.

Known as much for her bluntness as the blue streak in her hair, the Carrollton bird shop owner has become a reliable progressive who often leans into her liberalness. The blue streak is gone — “My hair is tired,” Beckley said — but the liberal politics remain.

Expanding Medicaid, fully funding public education and legalizing marijuana are among her top priorities. She also said that fixing Texas’ troubled electric grid will be one of the centerpieces of her campaign platform.

“The vast majority of voters in general are not happy with what happened in the Legislature,” she said. “You’ve got your bounties on women, you’ve got a gun free for all. People want Medicaid fully funded. All of these are popular positions that our lieutenant governor does not have because he caters to the furthest right of the right.”

Beckley’s candidacy for lieutenant governor comes after she suspended a campaign for Congress.

She announced in June that she would challenge Republican Congresswoman Beth Van Duyne while she was still in Washington during the quorum break earlier this year that

AMERICAN OVERSIGHT

failed to thwart the Texas GOP's controversial voter integrity laws. The timing of her announcement was somewhat awkward as Democrats attempted to combat the GOP's narrative that they had only fled Austin as a political fundraising stunt.

She ended that campaign after Republicans drew her out of that district as well as her state house district during redistricting.

Winning the March 1 primary will be the first test. If Beckley is successful, she will face Patrick and the $26 million campaign war chest he has amassed, according to the most recent campaign finance reports.

Ed Espinoza, executive director of Progress Texas, said that he was glad to see a woman jump into the race and that he expects the field to grow.

"She has demonstrated that she is a tough candidate that has won tough races," Espinoza said. Winning will "take money and resolve. I don't know what her fundraising ability is. But she certainly brings a lot of resolve to the race."

[BACK TO TOP]

Michelle Beckley, One Of The Texas House's Most Liberal Members, Joins Democratic Primary For Lieutenant Governor
By James Barragan
Texas Tribune

Democratic state Rep. Michelle Beckley of Carrollton, who gained national attention for joining lawmakers who fled to Washington, D.C., to block a Republican election bill this summer, is running for lieutenant governor, expanding her party's primary to three contenders.

In her campaign announcement on Tuesday, Beckley said she was running because Republican incumbent Dan Patrick is implementing policies that "hurt Texas business and make life harder for all Texans."

"I'm running for Lieutenant Governor because politicians are putting ideology ahead of results that matter to Texans," she said. "In the last legislative session alone, they worked to limit voters' rights, put bounties on women, marginalize minorities, and make-up false boogeymen in our schools, and the health and wealth of Texans suffered. I'm running to stop them."

Beckley joins a race that already includes political commentator Matthew Dowd and Houston accountant and auditor Mike Collier, who was the Democratic nominee for the position in 2018 and came within 5 percentage points of beating Patrick. She said she was recruited to run for the position but did not say by who.

AMERICAN OVERSIGHT

Beckley said she joined the race to give Democratic voters another option and a candidate with more legislative experience.

“Neither one of those candidates has won an election,” she said. “I won an election in a hard district and improved my margins.”

Collier has lost two statewide elections. First in 2014, when he ran for state comptroller against Republican Glenn Hegar and again in 2018 against Patrick. Dowd has not sought elected office before but was a political strategist for some of Texas politics’ biggest names, including Republican George W. Bush and Democrat Bob Bullock.

Beckley, the owner of a pet shop, entered Texas politics in 2018 when she flipped a traditionally Republican district in Denton County by ousting three-term incumbent Ron Simmons, who had authored the so-called transgender “bathroom bill” in 2017. Her victory was a surprise to many political observers, but Beckley said she plans to use the same shoe-leather approach to winning over voters in the lieutenant governor’s race.

Beckley said Republicans will have a fundraising advantage over her, but she plans to raise enough money to get her message out and win over voters.

“I was outspent 10-to-1 my first election. Nobody thought I was gonna win that either,” she said. “I've done it before. So I'm confident I could do it again. I wouldn't be running if I didn't think that.”

Beckley said her top priorities as lieutenant governor would be expanding Medicaid, fixing shortcomings in the state’s power grid and fully funding public education. Those issues are in line with the priorities of the other candidates in the Democratic primary.

But Beckley, one of the most liberal members of the Texas House, is also known for her support for marijuana legalization, abortion rights and her call for more gun control after the 2019 mass shootings in El Paso and Midland-Odessa.

Beckley said she is a candidate who can bring “balance” to the position of lieutenant governor. Issues like marijuana legalization and Medicaid expansion would benefit rural communities whose farmers could benefit from growing marijuana for business and whose struggling hospitals would be helped by a change in the health care system, she said.

But she does not back down from the positions she’s taken on immigration, abortion rights and guns, saying she’s portrayed as a liberal when she believes her actions are in step with the majority of Texas voters.

“Our state has gone to the extreme and I am the values of the moderate,” she said. “In many other states I would not be considered liberal at all.”

AMERICAN OVERSIGHT

Beckley said Patrick is “the extreme of the extremes” and puts the interests of his donors ahead of those of average Texans.

“He told people to sacrifice their grandparents for the pandemic,” Beckley said, pointing to Patrick’s comments early in the pandemic that a failing economy was worse than the coronavirus.

Since her election to the House, Beckley has been a thorn in the side of the GOP majority, often butting heads with the chamber’s leadership and vocally opposing their policies in debates and in the press. Former House Speaker Dennis Bonnen derided her as “vile” in a secret recording with a political operative.

Beckley said she doesn’t plan to change her combative approach to politics during her statewide race.

“It's a benefit,” she said. “The voters know I'm going there to fight for what they vote me in for.”

Beckley’s blunt talk has sometimes landed her in trouble with her own party. After she was elected to the House in 2018, some Democrats in Denton County accused her of making insensitive racial comments during the campaign trail, when she said the only Spanish she spoke was “tacos and burritos.”

Beckley apologized for the comments but denied any racial bias. As her statewide race kicks off, Beckley said she will try to run on her record and not worry about past allegations.

“I've learned that people will say anything they want to about you,” she said. “I do have a voting record that is the antithesis of what those unfounded conversations were.”

Earlier this year, Beckley announced a run for Congressional District 24 in North Texas currently held by U.S. Rep. Beth Van Duyne, R-Irving. But Beckley suspended her campaign after lawmakers redrew the district to make it much more favorable to Van Duyne. At the same time, Republicans redrew her Texas House district to be more favorable for Republicans.

She considered several other offices, including municipal positions, before landing on running for lieutenant governor.

“They can’t draw me out of Texas,” she said.

Beckley welcomed former El Paso congressman Beto O’Rourke’s entry into the governor’s race as a development that could help Democrats down-ballot.

AMERICAN OVERSIGHT

“It's great for the Democratic Party,” she said. “He has the infrastructure that we need. He is the strong voice that we need and he will help Texans. He will bring people to the polls.”

Viral Video Shows Crowd At Texas Church Chanting 'Let's Go Brandon' During An Event
By Malak Silmi
Houston Chronicle

A video posted Saturday on Twitter showing a crowd chanting "Let's go Brandon" during an event at Cornerstone Church has been viewed more than 2 million times.

According to the Associated Press, the slogan is a stand in for “F--- Joe Biden” and became popular among Republicans after a post-NASCAR race interview in October. During an interview with NASCAR driver Brandon Brown, the crowd could be heard chanting the vulgar phrase. The reporter, however, believed the crowd was chanting "Let's go Brandon."

The video that emerged from the popular San Antonio church was recorded some time during the three-day "ReAwaken America" conference that took place Nov. 11-13.

On HoustonChronicle.com: Texas AG Ken Paxton gets grilled on Fox News over 'inconsistent' vaccine stances

Among the speakers at the conference was Michael Flynn, the former National Security Advisor to Donald Trump who resigned less than a month into the role because he lied to the FBI about his contacts with Russia.

PatriotTakes, an organization that exposes far-right disinformation, shared the video on Twitter with the caption "The Q-Anon crowd is at televangelist John Hagee’s Cornerstone Church in San Antonio. They are chanting, “Let’s Go Brandon” from the church pews."

A second video posted by PatriotTakes shows that the chants may have been led from the stage and not spontaneously from the crowd.

Texas State Rep. Ina Minjarez To Run For Bexar County Judge
By Daniel Friend
The Texan

AMERICAN OVERSIGHT

After exploring a bid for over a month, state Rep. Ina Minjarez (D-San Antonio) officially launched her campaign for Bexar County judge on Monday, forgoing reelection to the Texas Legislature.

"Over the course of my career, I have worked to support working families, small businesses, seniors — our everyday neighbors," said Minjarez in a video. "This year alone, I worked to bring our community over one million dollars in funding to our higher education institutions, library services, the children's courts, local infrastructure projects, and economic growth programs that have helped veterans and local businesses in Bexar County"

Minjarez was first elected to House District (HD) 124 in the Texas House of Representatives in April 2015 during a special election and was sworn in shortly before the end of the 84th Regular Legislative Session.

Her decision to run for the top executive position in Bexar County comes after the current county judge, Nelson Wolff, decided not to seek reelection.

Had she sought reelection to her state House seat, Minjarez would have had more of an upper hand than in previous years, as redistricting left her district slightly more Democratic.

The Texas Partisan Index rating — a metric based on election results in 2018 and 2020 — for HD 124 shifted from a seat where Democrats carried about 65 percent of the vote (D-65%) to D-68% after the new maps were signed into law.

HD 124 covers the southwestern portion of San Antonio and includes Lackland Airforce Base.

Minjarez's retirement from the legislature follows a wide swath of her colleagues who have done the same.

A list of the open seats in the state legislature can be found on The Texan's 2022 Election War Room.

Education

Texas Education Board Considers How Middle Schools Teach Climate Change And Sexuality As Officials Fight Over Library Books
By Brian Lopez
Texas Tribune

When the 15 members of the State Board of Education meet at its regular quarterly meeting this week, the elected group is expected to talk about how climate change and

AMERICAN OVERSIGHT

sexuality are taught to middle school students. It’s part of a regular process that takes place every eight years.

But there’s another topic not on the agenda that at least one board member says needs to be discussed, and that’s how much say the board has about what goes on a school’s library shelf.

Last Monday, Gov. Greg Abbott called on both the Texas Education Agency and the state education board for the removal of books with "overtly sexual" content in school libraries and to develop standards for what gets into libraries. The governor chimed in after state Rep. Matt Krause, a Fort Worth Republican, launched an investigation into certain school districts over the types of books students can access.

Ever since Krause published a list of around 850 books — most of which are about race and sexuality — and began asking districts if they had them on the shelves, the question of who polices nontextbooks available in schools has been unresolved. The Texas Association of School Boards says the decision is one local schools make.

But at least one state board of education member, Pat Hardy, who represents Tarrant and Parker counties as well as part of Dallas County, says the board needs more clarity on what role the board has in these decisions.

“Don't just throw the hot potato our way and say ‘Y’all take on that responsibility,’” she said.

Last week, Keven Ellis, education board chairperson, said Texas public school families "should have the reassurance that their children are not at risk of being confronted with pornographic and obscene material when they are in school."

But exactly what form that reassurance takes is unclear.

The state board typically works on standards that textbook publishers need to meet. But as they take up science and health standards this week, some similar topics that concern parents — and lately, lawmakers — will be surfacing, primarily about sexuality.

Last year, the board approved expanding the state’s seventh- and eighth-grade health and sex education curriculum to include forms of birth control beyond abstinence and education about sexually transmitted infection. However, the Republican majority board once again fell short of being more inclusive of the LGBTQ community, rejecting pushes to include lessons on sexual orientation, gender identity and consent.

At least one of the 13 textbooks that the State Board of Education will consider contains supplementary materials that touch on those topics — although teachers are not required to teach them. Once approved, they would then be available for school districts to adopt.

AMERICAN OVERSIGHT

Dan Quinn, a spokesperson for the left-leaning Texas Freedom Network, said allowing this book to be adopted by school districts will give teachers a tool to talk about these topics.

Quinn's group believes the board must revise its health curriculum to include those topics. The board will meet from Tuesday through Friday.

"This vote really is a test for whether the state board of education in Texas has moved past the culture wars and the political circuses," Quinn said.

Hardy said she'll have a hard time voting for a textbook that includes things that aren't in the state-approved standards. Hardy said parents have the option to teach their children about things that aren't in the state-approved standards.

"The standards we chose reflect what we heard from parents as to what they wanted," Hardy said.

The state board is also set to vote on new science standards for middle schoolers with the most attention being drawn to what eighth graders are learning about climate change, Quinn said.

The last time the state board adopted new science standards in 2009, the chair at the time said climate change was a "bunch of hooey." Over a decade later, the current board made changes to its high school curriculum last year with climate change being addressed in some high school courses and now moves to do the same in middle schools.

Under the proposed eighth grade science guidelines, students are expected to learn how "natural events and human activity can impact global climate." For Quinn and scientists, that's where the problem lies. Human activity and natural events do, have and will continue to impact global climate. There is no "can," he said.

Hardy said she likes the way the climate change standards are currently worded as she wants children to learn both the good and bad that come from fossil fuels — such as how it has elevated and supported the Texas economy.

On Nov. 4, climate scientists across the state sent a letter to the state board urging that they revise the proposed curriculum to reflect that human activity such as the release of greenhouse gases have affected the climate.

"Teaching about climate change doesn't just prepare students to succeed in college-level work if they choose to further their education after high school," wrote Andrew Dessler, professor of atmospheric sciences and the Reta A. Haynes chair in geosciences at Texas A&M University. "It also helps students become informed voters who understand the stakes and can make responsible decisions as we work together to find real solutions to the problem."

Energy

Permian Basin Roars Back To Life, With Oil Output On Track To Set A Record In December
Dallas Morning News

Oil output in the Permian Basin is projected to hit a record as the largest U.S. shale patch leads the recovery in domestic production from its COVID-19 induced slump.

Supplies from the prolific oil field of West Texas and New Mexico are set to increase to 4.95 million barrels a day in December, according to a U.S. government report Monday. That surpasses the record set in March 2020, right before the pandemic wreaked widespread demand destruction globally, triggering production shutdowns and bankruptcies across the U.S.

Crude supplies from the basin now exceed that of each OPEC member except Saudi Arabia, underscoring the Permian's ascendancy to its role as a globally important swing producer. Its bounce-back has been driven by low break-even costs, and the largest U.S. drillers are almost exclusively focusing their limited domestic plans for expansion on the sprawling oil patch, at the expense of other shale basins. Total U.S. output is still a long way off from a full recovery.

One reason drillers aren't incentivized to boost output in other basins is because most market observers estimate that the global oil market will become oversupplied next year. Last week, the Energy Information Administration projected that global oil supply is set to average 101.42 million barrels a day in 2022, while worldwide demand is seen at 100.88 million barrels a day.

Still, record Permian output won't be enough to significantly reduce oil prices in the near future as long as overall demand continues to outpace supply.

Production in the Bakken in North Dakota and the Eagle Ford in South Texas are both still down from pre-pandemic levels. Output in other shale regions is set to rise modestly with gains ranging 2,000-5,000 barrels a day, the agency said.

The backlog of oil wells that have already been drilled and are waiting to be fracked, known as DUCs, have sunk to the lowest volume since 2014, the agency said in its Drilling Productivity Report.

But U.S. oil explorers are making more money than at any time since the shale revolution began over a decade ago, according to Deloitte LLP. And this may just be the beginning. Free cash flow, the key metric watched by investors, probably will increase by 38% next year, presuming oil prices remain elevated, according to Bloomberg Intelligence.

AMERICAN OVERSIGHT

After effectively subsidizing consumers through the 2010s with break-neck drilling that depressed global oil prices, the shale industry appears to have struck a winning formula: moderating production, limiting reinvestment in new wells and shaving debt. Crucially, executives now understand that any output growth must be carefully measured, and not take market share from OPEC and its allies, for fear of sparking repeats of the bruising price wars of 2014 and 2020.

"Public-company investors just don't want to see companies spend a ton of money only to slam the price," said Nick O'Grady, chief executive officer of Northern Oil & Gas Inc. "It becomes self-defeating. And that's the experience of public investors for the last 10 years."

Publicly traded companies are unwilling to budge from austerity programs popular with investors.

"Our investors want cash back," Scott Sheffield, CEO of Irving-based Pioneer Natural Resources, said on Bloomberg TV this month.

Texas Born Cookie Delivery Service Tiff's Treats Is Now Worth $500 Million
By Dom DiFurio
Dallas Morning News

Cookie delivery service Tiff's Treats is now worth $500 million after the completion of a recent $30 million funding round, the Austin-based company announced today.

The company began in Leon Chen's Austin apartment in 1999 when he and Tiffany began dating while attending the University of Texas. The founders moved the company into its first real kitchen space in 2000, and have been opening locations across the state ever since.

The second-ever Tiff's Treats location opened was in downtown Dallas in 2006, and the company expanded outside of its home state for the first time in 2016. The company now has 70 retail distribution centers across the southern U.S. and employs 1,700 workers. It's sold more than $200 million warm cookies to date.

The company plans to invest the $30 million it raised in continuing its national expansion and development of its e-commerce platform.

"We continue to invest in our direct-to-consumer, on-demand gifting and delivery platform from the ground up, resulting in a best-in-class giving and receiving experience for customers," cofounder Leon Chen said in a statement Tuesday. "With our technology, we manage the entire delivery experience, utilizing our own delivery drivers and highly-

AMERICAN OVERSIGHT

committed in-house customer service team. We are focused on our mission to connect people through warm moments. Warm cookies are the vehicle, but our purpose is much bigger than that."

The company just opened a Kessler Park location in August, its 17th in the Dallas area. And the Chen's are releasing their first book early next year which will delve into the couple's last two decades of entrepreneurship.

Tiff's has had a number of high-profile Texas figures and celebrities invest in the company over the years including former Dallas Mayor Mike Rawlings, Dirk Nowitzki and Kendra Scott.

"Every day we are lucky to be an integral part of some of the most significant moments in people's lives, fulfilling our mission of connecting people through warm moments," cofounder and president Tiffany Chen said.

Welcome To Musklandia: Austin Adjusts To Life With Tesla And Its Eccentric Billionaire Boss Elon Musk
By Kara Carlson
Austin American Statesman

Welcome to life in Musklandia.

As Elon Musk's sphere of influence in Austin and across Texas seems to expand by the day, the eccentric Texas-based billionaire is taking the region and the state along on the wild and often weird roller-coaster ride that is his life.

It's been a little more than a month since Musk announced Oct. 7 that Tesla is moving its headquarters to Austin, but even before that, Musk was already spending an increasing amount of time in Austin. He has been moving more of his companies into the region since at least 2020, most notably with Tesla's $1.1 million manufacturing facility currently being built in southeastern Travis County.

Construction crews work on the $1.1 billion Tesla facility in southeastern Travis County in October.
As Austin becomes ground zero for all things Musk, that leaves the rest of us figuring out how to navigate the new landscape — good, bad and odd.

"Musk is a modern-day Albert Einstein in the eyes of many, and the richest person in the world by a wide margin. He's going to bring a lot more limelight and focus on Austin," said Dan Ives, an analyst with Wedbush Securities.

Musk and Austin are likely to become inextricably linked in the coming years, Ives said.

AMERICAN OVERSIGHT

"When the average person in the world thinks Austin, Texas, they're not going to the music festival or Dell or for the great city it is. Tesla and Elon Musk are going to become synonymous with Austin," Ives said.

Roger Kay, an analyst with Endpoint Technologies, said Musk's status and personality are sure to have an impact on Central Texas.

"He's the richest guy in the world, which is interesting. So what he'll do immediately is upstage (Dell Technologies founder and CEO) Michael Dell, at least on that," Kay said. "Michael has been the kind of king of Austin, I would say, all up until this point."

Expanding presence

While the $1.1 billion Tesla manufacturing facility and Tesla's planned headquarters move to Austin have drawn the most attention, Musk's ventures have been quietly expanding in Central Texas for some time now. They include Musk's tunneling and infrastructure company, the Boring Co., which has facilities in Pflugerville and Bastrop; a potential SpaceX expansion somewhere in Austin; a potential Neuralink office; and the headquarters of his private foundation, the Musk Foundation.

Also, a Tesla subsidiary, Tesla Energy, was recently licensed to operate as an energy provider in Texas, according to documents filed with the Texas Public Utility Commission. The company is already building the first Tesla solar neighborhood in Austin, called SunHouse at Easton Park, with solar- and alternative-powered energy.

Meanwhile, SpaceX — Musk's aerospace and rocket company — has multiple facilities around Texas, including a launch site near Boca Chica in far South Texas.

What's not clear is whether Musk has a residence in Austin. Although various media outlets have listed Austin as his home, he has never publicly confirmed that. Musk announced last year that he had moved to Texas but said his main residence is a small home near Boca Chica on the SpaceX campus.

Whether Musk actually lives in Austin or not, his influence in and impact on Central Texas can't be denied.

Kay said the influx of Tesla and other Musk-related companies will lead to higher salaries in the local tech industry, as well as add to the region's already booming housing market and send real estate prices even higher.

"For some people there will be good opportunities. Other people," Kay said, "are going to be irritated."

'Most powerful voice in the world'

One of the places where Musk has drawn the most attention — and perhaps created the most irritation — has been on social media. Musk is active on Twitter, where he has more than 63 million followers.

AMERICAN OVERSIGHT

With his immense wealth and such a huge audience, the influence of what Musk posts on social media shouldn't be downplayed, Ives said.

Eccentric Tesla CEO Elon Musk recently became the first person in history with an estimated net worth of more than $300 billion.

"He is one of, if not the most powerful voice in the world in terms of social media and a following," Ives said. "If Musk talks, everyone's listening. When you're on the right side of that, it's great. When you're on the wrong side of that, it's a lot of downsides."

Few days go by without Musk making some sort of headline on social media, whether it be for company news, cryptic personal statements, political commentary or just posting a meme.

One example was early last week, as after polling his Twitter followers on whether he should sell 10% of his Tesla stock, Musk sold about 900,000 shares, netting over $1.1 billion. His trust also sold more than 3.5 million shares worth $3.88 billion. The stock options that were sold would expire next year and still leave Musk with about 170 million Tesla shares.

More sales later in the week, from both Musk and his trust, have brought the total stock sold to 6.4 million shares, worth a total of $6.9 billion. The sales so far amount to less than 4% of the shares he holds.

Ives said that while a sale of some stock has been expected to pay upcoming taxes, holding a Twitter poll to sell the stock is "another soap opera that can only happen to one company and one CEO in the world, Musk."

Here are a few more highlights and lowlights from Musk on social media in the past month:

- Over the weekend, he clashed with U.S. Sen. Bernie Sanders on Twitter after the former presidential candidate from Vermont said the extremely wealthy should pay their fair share. Musk tweeted: “I keep forgetting that you’re still alive,” and later added, “Want me to sell more stock, Bernie? Just say the word …”
- He criticized Tesla co-founder Martin Eberhard, with whom he has feuded for years, on Twitter. He claimed to "wish he never met" the co-founder, whom he considers the "worst person I’ve ever worked with in my entire career,” and said that Eberhard “came damn close to killing Tesla.”
- He tweeted a crass comment at Oregon Sen. Ron Wyden after the politician tweeted in support of a billionaires income tax and said Musk paying taxes shouldn't be dependent on a Twitter poll.
- He temporarily changed his Twitter name to Lord Edge, likely a reference to the phrase “edge lord.”
- He tweeted a joke that he was considering starting a new university in Texas, whose name could be used to form a rude acronym.

AMERICAN OVERSIGHT

- He acknowledged on Twitter that Tesla's self-driving was having software issues and announced that an update would be rolled back after Tesla owners reported cars behaving erratically.
- He pushed back on President Joe Biden's proposed tax plan, dubbed the Billionaires Income Tax, which would add a tax on the assets, not income, of billionaires. "Eventually, they run out of other people's money, and then they come for you," Musk tweeted on the same day he gained $36 billion in personal wealth from the Tesla stock surge.
- He called Biden a "puppet" for the United Auto Workers union and pushed back on his plan for electric-vehicle purchase tax credits proposed in the president's infrastructure bill. The plan would exclude nonunion automakers, such as Tesla.
- He exchanged tweets with David Beasley, director of the U.N.'s World Food Program, who urged Musk to donate 2% of his estimated net worth, or about $6 billion, to help fight world hunger. Musk said if the program laid out a detailed plan for how exactly the $6 billion would be used and the donation went through open source accounting, he would donate. Beasley said that was possible, and he would meet him anywhere, "earth or space," to discuss further. No donation has been made.

While most of that social media activity hasn't focused directly on Austin or Texas, there are signs Musk is starting to take more of an interest in what's going on in the Lone Star State.

'Going to be some ruffled feathers'

When Musk announced he was moving Tesla's headquarters to Austin, he didn't mention previous clashes he'd had with California officials. However, industry analysts say that while Austin is more affordable than Silicon Valley and still has the tech and engineering talent Musk needs for his companies, it seems clear he decided he preferred Texas' more business-friendly environment over California's more regulation-heavy approach.

"I think Musk selected Texas in particular because of its kind of frontier style. He's always thought that California's heavy regulatory environment was not particularly conducive to his style," Kay said. "He's made it really clear that he doesn't think public authorities have any business telling him what to do."

All of which means officials in Texas — and in Austin — could eventually find themselves getting the same pushback California did from Musk if regulatory conditions rub him the wrong way.

Musk tends to do what he wants and is clever and aggressive in how he goes about disputes, Kay said. At the same time, he will bring a lot of jobs and tax revenue to the region, which gives him cards to play.

"He'll say, 'Well, listen, you want me to just pick up stakes and go to Mississippi?'" Kay said. "There's probably going to be some ruffled feathers there when he says, 'It's my

AMERICAN OVERSIGHT

way or the highway and now I own your highway, You can't say anything about it. You do — well, then I'll bring all my resources to bear upon you.'"

It remains to be seen how Musk might aim to influence state or local policymaking.

In September, Gov. Greg Abbott said that Musk supported Texas' social policies. In response, Musk tweeted: "In general, I believe government should rarely impose its will upon the people, and, when doing so, should aspire to maximize their cumulative happiness. That said, I would prefer to stay out of politics."

However, Musk has weighed in on some Austin political issues already.

"Austin should be its city, not a San Francisco copycat," Musk said in a Halloween tweet replying to a tweet about Proposition A, which didn't pass earlier this month. The proposition would have required the city of Austin to hire hundreds more police officers.

Whatever positions Musk takes, they are sure to have influence in Austin, across the state and globally, Ives said — in large part because of Musk's immense wealth and the power that affords him.

Musk recently became the first person in the Bloomberg Billionaires Index to have an estimated net worth of more than $300 billion, making him not only the wealthiest person in the country but also the richest person in history. Musk's current estimated net worth is somewhere between $280 billion and $300 billion.

Having Musk and Tesla here comes with "exponentially more positives than negatives for Austin," Ives said. "But Austin has to embrace Tesla and Elon, and not just treat him like any other business person. There are 300 billion reasons he's not."

Immigration/Border Security

Group Of 225 Migrants Apprehended In West Texas Border Town
By Bob Price
Breitbart

Del Rio Sector Border Patrol agents apprehended a large group of migrants who illegally crossed near Eagle Pass, Texas. The group of 250 is part of an increasing number of migrants apprehended in the Eagle Pass Station area of responsibility.

"The station is averaging over 500 apprehensions per day so far this month, making Eagle Pass the new hot spot for Del Rio Sector," Del Rio Sector Border Patrol officials tweeted. "We continue to adjust operations with our constant focus on national security."

AMERICAN OVERSIGHT

Border Patrol officials previously stated that human smugglers utilize large groups, like this group of 250 migrants, to tie up law enforcement assets in the area in order to run drugs or so-called "high-value" migrants into the U.S.

In September, Haitian migrants make the Del Rio Sector and the city of Del Rio, Texas, the new ground zero of human smuggling activity along the U.S.-Mexico Border. Del Rio Sector officials say that with 500 migrants being apprehended per day, Eagle Pass is now that center of activity.

Over the weekend, Eagle Pass Station agents apprehended more than 1,600 migrants.

During the month of October, the first month of the new fiscal year, Del Rio Sector agents apprehended 28,073 migrants, Breitbart Texas reported. This represents an apprehension rate of about 900 migrants per day. Now, Eagle Pass Station agents alone are apprehended about 500 per day.

These apprehensions are part of the nearly 160,000 migrant apprehensions in October detailed in a leaked Border Patrol document reviewed by Breitbart. This is up by 129 percent from the previous October report.

A source within U.S. Customs and Border Protection speaking to Breitbart under the condition of anonymity said that of the more than 158,000 migrants apprehended in October, only 59,000 were returned to Mexico under the Title 42 coronavirus protection protocol put in place by the Centers for Disease Control and Prevention under the Trump administration.

Nearly 100,000 migrants required longer detention in temporary holding facilities while awaiting processing for delayed removal under the order or in the case of more than 60,000 migrants, release into the United States.

Abbott Shares Barbed Wire Fencing Photos To Tout Border Wall Progress In South Texas
By Hayden Sparks
The Texan

Months after promising a Texas wall on the border with Mexico, Governor Greg Abbott tweeted two images on Friday depicting barbed wire fencing and heralded the barrier as part of the state's efforts against illegal immigration.

"Construction of strategic fencing continues along the Texas-Mexico border. Miles of razor wire is being used to repel illegal immigrant crossings into our state," Abbott wrote. "Progress is being made on our border wall. Texas is securing the border."

AMERICAN OVERSIGHT

The tweet included an image of rolls of barbed wire fencing and another image of a completed chain-linked fence with barbed wire perched at the top facing both directions. In the second photograph, a male construction worker in a yellow vest is accompanying a convoy of front-loaders traveling parallel to the fence.

Abbott launched the border fence project in June after the end of the 87th legislature's regular session. The border wall has received hundreds of millions of dollars of state funding and donations, including a donation in excess of $53 million from Timothy Mellon, a Wyoming billionaire with a history of supporting GOP candidates.

Mellon's grandfather was the late Treasury Secretary Andrew M. Mellon.

The Texas legislature provided an additional $1.02 billion in border security funding during the second called session, most of which was for the border fence.

Both Republicans and Democrats supported the additional border fence funding, though some lawmakers pushed back on the idea that the border is a disaster area that requires an influx of spending on security.

President Biden stopped construction on the federal government's border wall almost as soon as he took office in January. However, Chris Magnus, the Arizona police chief Biden has nominated to lead U.S. Customs and Border Protection, stated in a hearing that he was open to resuming a part of the border wall if it was prudent.

There were more than 1.15 million apprehensions of illegal aliens in Texas border patrol sectors in Fiscal Year 2021, not including the estimated number of people who evaded custody, which could be up to two or more individuals per arrest.

All three of Abbott's challengers in the Republican primary, Chad Prather, Don Huffines, and Allen West, have made border security a key issue in their campaigns. In fact, in the first few weeks of his candidacy, Huffines touted the endorsement of Uvalde Mayor Don McLaughlin.

When he backed Huffines in May, McLaughlin called Abbott a "fraud" and noted that schools had to be shut down in Uvalde due to illegal immigration threatening the safety of the town, which is near the southern border.

Abbott's GOP opponents have criticized him for failing to reduce illegal crossings and have made campaign pledges to introduce more stringent policies and be more confrontational with the federal government on the issue.

While border security is primarily a federal responsibility, Abbott ramped up the state's border response in March with an effort known as Operation Lone Star, which has resulted in the arrests of tens of thousands of illegal aliens and the seizure of thousands of pounds of narcotics.

AMERICAN OVERSIGHT

In a statement to The Texan on Monday, Department of Public Safety (DPS) Press Secretary Ericka Miller provided the most recent statistics for Operation Lone Star, which are current through November 11.

"Since Operation Lone Star began, DPS has made 9,162 criminal arrests, including 1,864 for criminal trespassing. There have also been 7,230 felony charges filed. In addition, DPS has made more than 77,500 migrant apprehensions and referrals, and there have been 929 vehicle pursuits," Miller wrote.

Feds Arrest Nine Suspects in Smuggling Incident Near Del Rio That Killed Eight People
By Hayden Sparks
The Texan

Nine Texans and an individual from Ohio are facing life sentences for their alleged roles in a human smuggling operation that resulted in the deaths of eight people and the serious injury of several others, the United States Department of Justice (DOJ) stated last week. According to a press release, a Texas Department of Public Safety (DPS) officer attempted to stop 25-year-old Sebastian Tovar of Toledo, Ohio, while he was driving a Dodge Ram in the Del Rio area on March 15.

A chase ensued that ended with Tovar colliding with oncoming traffic, killing eight people and seriously injuring another in his vehicle. All nine individuals Tovar was transporting were illegal aliens. Two American citizens not inside Tovar's truck were also injured, per the DOJ.

"After the crash, U.S. Border Patrol (USBP) agents encountered a Ford F-150 stopped in traffic near the crash site. USBP agents directed the Ford to turn around and subsequently all occupants of the Ford fled the vehicle, absconding into nearby brush," the press release stated.

"USBP agents were able to locate 12 undocumented noncitizens who bolted from the Ford. After interviewing two of the undocumented noncitizens, USBP agents determined that the occupants of the Dodge and Ford were part of a human smuggling operation that was illegally transporting 20 undocumented noncitizens in the U.S."
The government indicated that Tovar, 33-year-old Nicolas Mondragon-Gonzalez of Austin, 34-year-old Veronica Torres-Mendez of Austin, 40-year-old Jennifer Davis of San Antonio, 19-year-old Ruben Rodriguez-Jaimes of Bastrop, 32-year-old Lauren Malmquist of Round Rock, and 23-year-old Eduardo Benitez of Bastrop are charged with one count of transporting illegal aliens resulting in death. If found guilty, they face sentences of life imprisonment.

AMERICAN OVERSIGHT

Tovar is also looking at one count of transportation of illegal aliens resulting in serious bodily injury and one charge of conspiracy, for which he could be sentenced to 20 years each.

29-year-old Marco Hernandez of Paige and 21-year-old Jose Rodriguez of Austin, in addition to everyone else charged, are accused of up to several counts of transporting illegal aliens. They face up to ten years in prison on each of those counts.

Hernandez is the only defendant named in the 11-count indictment who authorities had not yet taken into custody as of Tuesday, according to the DOJ.

Opinion/Editorial

O'Rourke's Bid For Governor Means Abbott Will Be Forced To Campaign To The General Electorate
By Erica Grieder
Houston Chronicle

It's official: Texas Democrats have a candidate for next year's gubernatorial race.

A credible candidate, too, in former Texas congressman Beto O'Rourke, who came within 3 percentage points of unseating U.S. Sen. Ted Cruz in 2018.

The El Paso Democrat made the long-awaited announcement on Monday morning. He also released a list of planned campaign events, which will take him through south Texas this week for meetings with organizers, health care workers and law enforcement officers, and to Houston on Friday evening, for a campaign kickoff rally.

"I'm running for governor, and I want to tell you why," O'Rourke said in his launch video, on YouTube. "This past February, when the electricity grid failed, and millions of our fellow Texans were without power — which meant that the lights wouldn't turn on, the heat wouldn't run, and pretty soon their pipes froze and the water stopped flowing — they were abandoned by those who were elected to serve and look out for them."

It's a strong opening salvo, and one that illustrates why Gov. Greg Abbott, a Republican, can't be thrilled about O'Rourke's announcement.

On HoustonChronicle.com: What you need to know about Beto O'Rourke as he challenges Texas Gov. Greg Abbott

"I welcome the challenge," Abbott said in response to the announcement, which came as he was in south Texas for a press conference with state Rep. Ryan Guillen, a Democrat who is switching parties to join the GOP.

AMERICAN OVERSIGHT

Certainly, Republicans are full of bravado, citing President Joe Biden's sinking approval ratings in Texas, as well as O'Rourke's mixed track record at the polls.

While O'Rourke won three congressional races and then stunned political observers with his strong showing in 2018, he came up short in his Senate bid, then dropped out of the 2020 presidential race before voting began.

In the aftermath of two August 2019 mass shootings in Texas—one inside a Wal-Mart in his hometown of El Paso, the second in Midland and Odessa—he declared his support for a mandatory buyback program for assault weapons. Those are comments that you can expect to hear on a loop and divorced from context for the next 12 months.

But behind this GOP bravado is, surely, some recognition of the facts. Any race is in some sense a referendum on the incumbent, and Abbott is much more vulnerable than he was four years ago when he beat Democrat Lupe Valdez, a former Dallas County sheriff, by nearly 13 points.

Since 2018, we've seen more than 70,000 Texans die due to the COVID-19 pandemic — a scourge for which Abbott mandated a largely hands-off approach. We also saw some 200 hundred Texans die, in February, due to the failure of our statewide electricity grid, which has yet to be fixed. This year alone, Abbott has pursued a far-right agenda that has led to passage of a near-total abortion ban and new restrictions on voting rights (O'Rourke was an outspoken critic of the latter). There have been attacks on transgender children, and, more recently, an attempt to ban books at school libraries.

O'Rourke obviously has more baggage than he did four years ago, when he emerged from relative obscurity like a bolt of lightning. Democrats in 2018 rode a wave of dissatisfaction with President Donald Trump to success at the polls.

But the same could be said of Abbott, a two-term governor with a record he must defend — and which O'Rourke plans to highlight via contrast ads, he tells the Texas Tribune's Patrick Svitek.

Recent polls suggest that O'Rourke will give Abbott a run for his money; While Abbott enters the race as the favorite — a Democrat hasn't won a statewide election in Texas since 1994 —the well-known and energetic O'Rourke can force the governor to defend his record to voters who turn out next year: Republicans can't be thrilled about that prospect.

Incidentally, there's another clear upside: We presumably can stop talking about Matthew McConaughey now, right?

This is no disrespect to the Academy-Award winning actor and author, who seems like a genuinely nice person. But good Lord, he's had Texas political observers gnashing their teeth since expressing some interest in next year's gubernatorial race.

AMERICAN OVERSIGHT

“I’m actually trying to look at the idea and give it serious consideration,” McConaughey said in April. As well he might; polls have found him leading Abbott in a hypothetical matchup.

But he hasn’t subsequently engaged much with the Texans who have been in the trenches battling state government over the past year. In an interview with Kara Swisher of the New York Times last month, he was equivocal about Texas’s new abortion law and its citizen enforcement clause — “feels a little juvenile in its implementation” — and demurred outright when asked about the state’s highly controversial “election integrity” measure, Senate Bill 1.

“You know, I don’t know enough about that to be able to discuss the details on how I feel about that,” McConaughey said.

But he added, “I think it should be easier to vote.”

To be clear, McConaughey — or anyone else — still has time to jump in. The filing deadline for candidates is Dec. 13. And, for that matter, there’s no guarantee that O’Rourke will end up in a one-on-one showdown with Abbott. The governor is facing a primary challenge from two candidates to his right, former state Sen. Don Huffines and former Texas GOP chair Allen West.

But with O’Rourke’s announcement, the stage is set for a likely showdown between him and Abbott — one that will put both men to the test, decide whether Texas continues on its increasingly conservative course and again turn a national spotlight on Texas.

Gov. Abbott Asks State Agencies To 'Carefully Assess Implications' From Fed Infrastructure Act Funds
By Monica Madden
KRQE

Gov. Greg Abbott urged state agencies to think twice before accepting funds from the federal Infrastructure Investment and Jobs Act, in a letter sent out Tuesday morning.

As the federal government begins allocating funding to state and local governments, Abbott asked agency leaders to "carefully assess" the implications of federal funding agreements. Texas is set to receive about $35 billion from the infrastructure deal, according to a White House analysis.

"Should the acceptance of any federal funds hinder or needlessly constrain the state, commit the state to ongoing costs for which there is not an appropriation available, or require an agency to implement a federal policy contrary to the law or policy of this state, the agreement proposed by the federal agency should not be signed," Abbott wrote.
Vance Ginn, the chief economist for the Texas Public Policy Foundation, applauded the governor's cautious approach.

"I really suggested that we look at this closely. We reject funds that are coming down if we really don't need them," he said. "If that is going to set us up for future spending in things that that state does not need, then we shouldn't have it down in that direction."

Ginn said he hopes most of the funding is earmarked as one-time expenditures. The White House provided estimates about how much each Texas sector should receive, but state agencies are still figuring out the details of how and when they can spend it.

"Whenever the state receives some sort of money from the federal government with taxpayer dollars going through the federal level, there usually will be some sort of strings attached," Ginn said. "Because we don't want to leave is what we call fiscal cliffs — where you put additional money into a certain area, and that money dries up and now you don't have the money available in the future."

U.S. Rep. Henry Cuellar, D-Laredo, said he thinks the spending outlines are "pretty straightforward" for state agencies to follow.

"It was a bipartisan bill. So, if there were any concerns, I think that our Republican friends would have brought that up or would not agree to that," Cuellar said. "…My prediction is that most the grand majority of these dollars will be accepted by the state of Texas."

Some of the Biden Administrations allocation estimates for Texas include the following:

- $26.9 billion for highway programs
- $3.3 billion for public transportation expansion
- $2.9 billion for clean water improvement
- $1.2 billion for airport expansion
- $537 million for bridge repairs
- $408 million for electric vehicle charging stations
- $100 million for broadband expansion

AMERICAN OVERSIGHT

- $53 million for wildfire protection
- $42 million for cybersecurity protection

Cuellar said Abbott's letter to state agencies was on par with his typical "hesitation when it comes to federal dollars," but emphasized the need for these investments in the state now.

"Those are things that are very basic that the state of Texas has taken advantage of and I think we should take advantage of that as soon as possible," he said. "Texas is growing our federal dollars, our state dollars — we need to do more to make sure that we get our roads paved, and create new highways in the state of Texas so our economy keeps growing."

Beto O'Rourke Lays Out His Priorities For Texas At Amarillo Rally
By Michael Cuviello
Amarillo Globe News

Beto O'Rourke returned to Amarillo for his gubernatorial campaign rally greeted by an enthusiastic crowd Monday at Sam Houston Park.

The former U.S. Congressman from El Paso who is seeking the Democratic nomination for Texas governor in 2022 visited Amarillo during several campaign stops around the region this week.

"When we decide that we are going to come together regardless of the differences that would otherwise divide us and decide that we are going to unify on the common ground before us, I believe there is no stopping what we can do," O'Rourke said.

He spoke about his experience this week with educational leaders and students from the Amarillo area and the value of education. O' Rourke said he was inspired by the personal story of student Letty Ramirez and her sacrifices to better herself, all while being a parent.

"I cannot think of anything more important than ensuring that we have a job and one that pays and provides purpose in our life," O'Rourke said to the crowd. "We have to put our money where our mouth is."

When speaking of low salaries and the loss of teachers in education in the state, O'Rourke said we need to take better care of the people who educate our children.

On healthcare, O'Rourke said Gov. Greg Abbott and current leaders are failing to expand Medicaid, to the detriment of the citizens of Texas who have a great need for such measures. He said people should not be going broke because of a medical issue arising.

"I will expand Medicaid and bring those dollars here to get the care that we need," O'Rourke said.

O'Rourke got some of his loudest applause when he told the crowd that, if governor, he would work to legalize marijuana, reducing needless arrests for a legal substance in many other states. He talked about how veterans who could use the drug are instead given much more dangerous opiates.

O'Rourke said common-ground issues like this go across political boundaries.

Taking shots at the current governor over his hot button stances on such issues as voting restrictions, the new current permitless carry law and denying the right to abortion.

AMERICAN OVERSIGHT

“Thanks to this permitless carry program, there is no way to know if those carrying are criminals or not; it makes us all less safe,” O’Rourke said. “As governor, I will repeal that program.”

He said that the thousands of people that have been rejected for licensed carry now go unchecked without any type of background check.

During his speech, the right to women’s healthcare such as abortion was another of O’ Rourke’s priorities. He derided the current measures by the current governor to restrict access to women’s healthcare.

Jennifer Gregg, who attended the rally, said she was very excited to see the candidate come to the city. She said that one of her top priorities for a candidate was women’s health care.

“I really think his ideas are badly needed, especially in my field of healthcare,” Gregg said. “I like his common sense approach on guns.”

Gubernatorial candidate Beto O' Rourke addresses supporters at Sam Houston Park in Amarillo Monday.
Carole McDaniel said that she really respects that O’Rourke has come to the area multiple times and thinks his leadership is what the state needs.

“This is his eighth time here," McDaniel said. “His words about education and paying teachers are essential to me. Also, let's bring Medicaid to Texas that we choose not to expand it makes no sense for our needs.”

She also said that his views on women’s healthcare and access are badly needed.

Asked earlier in the day about his stance on the Second Amendment and the misinformation about his views, O'Rourke clarified his stance.

“We’re Texans. We will defend the Second Amendment and we will also ensure that we have the kind of responsible gun ownership that protects the lives of those around us. We’re a little more than two years removed from a mass shooting in Midland-Odessa that killed eight. From another the month before that killed 23 in El Paso, we have four of the deadliest mass shootings in U.S. history, just in Texas and just in the last five years.”

Attendees of the Beto' O Rourke rally at Sam Houston Park hold signs of support Monday evening.
Emphasizing that while he believed in the right to bear arms, he said there should be checks and balances.

“I think some common-sense measures, like universal background checks, like extreme risk protection orders, and just making sure that if someone wants to carry a firearm in public that they go through training, and a background check like we used to have," he said. "But instead of doing that, our current governor has signed into law a permit-less carry bill that allows anyone, including violent criminals, to carry a loaded firearm in public without a background check. And it's why law enforcement police chiefs’ sheriffs alike were opposed to this measure because it makes us less safe at a time of the rising crime in Texas. So, let’s protect the Second Amendment and let’s do a better job of protecting the lives of those in our communities.”

When asked about the crowd response, O’Rourke said he delighted with the turnout and enthusiasm of the crowd.

“Focusing on jobs, great schools and Medicaid are not just ideas - these are good for Texas," O’ Rourke said.

Texas Secretary Of State Talks Election Audit, Voting Bill And More With KVUE's Ashley Goudeau
KVUE

Texas Secretary of State John B. Scott recently sat down with KVUE's Ashley Goudeau to talk about his appointment to the position, his goals and experience so far in the role of the state's chief election officer.

Scott was an attorney in Fort Worth prior to his appointment by Gov. Greg Abbott in late October.

"Honored, in just a simple word," he said about his appointment to the position.

The Fort Worth attorney also briefly represented former President Donald Trump in a lawsuit challenging the 2020 general election results in Pennsylvania. Scott later withdrew from the case, according to The Texas Tribune.

"They had an interesting case, set of facts, went up there and the law changed a little bit because of the Third Court of Appeals ... on an elector's clause decision, and so a lot of the ideas that might have been relevant were no longer that," Scott said about his brief stint representing Trump. "So there was kind of a change of, I guess goals, and I no longer really needed to be involved in the case."

Gov. Greg Abbott appoints Fort Worth attorney as Texas Secretary of State
Scott also spoke about his role in leading the full audit of the 2020 general election in four of the state's counties: Collin, Dallas, Harris and Tarrant. The Texas Secretary of State's Office launched the audit before Scott stepped into the role. He told Goudeau that his office was "not trying to go back" and change election results, but was instead like election processes "sitting through a test" to see if the processes in place were still functioning.

"And again, people need to understand, we're not trying to go back. There is no way to go back and change any election results," Scott said in part.

Scott previously served as deputy attorney general for civil litigation for Abbott when he served as the state attorney general. Scott oversaw all civil litigation, including over 22,000 lawsuits involving Texas, according to the governor's office. He was then appointed the first chief operating officer of the Health and Human Services Commission.

After returning to private practice, Abbott appointed him as the chair of the board for the Department of Information resources, where he developed the strategic plan for technology and security at Texas executive branch agencies and boards.

To watch the full responses on the ongoing election audit, his brief time representing the former president and other topics discussed in the 24-minute interview, check out the YouTube video here.

Texas Legislature

With 31 Lawmakers Moving On, Texas Legislature Has Room To Get Redder
By Cayla Harris

AMERICAN OVERSIGHT

San Antonio Express News

More than two dozen members of the Texas Legislature are retiring or running for a different seat next year, creating a slew of vacancies that could push both chambers to become redder and more polarized by the time lawmakers reconvene in 2023.

Many of the outgoing members are center-right or establishment politicians with years of experience, opening up seats for younger and more ideologically extreme replacements. In many cases, their districts were redrawn to strengthen the GOP's hold on the Legislature, eliminating all but a few of the battleground contests that tend to attract more moderate candidates.

Those changes, paired with new political maps that leave little opening for Democrats to gain ground in November, have laid the groundwork for an even more conservative Legislature, even as Republicans toast the 2021 legislative session as the most conservative in the state's history.

"The tides are shifting again," said state Rep. Dan Huberty, a moderate Republican from north Houston who is not seeking re-election. "You have different political leaders, and the constituency has a view of what they want. You're going to see a shift. I would assume it's going to be more conservative."

The Capitol is also poised to lose some of its longest tenured legislators to retirement, draining "a generation of policy expertise" on areas such as health care, education, agriculture and the border, said Brandon Rottinghaus, a political science professor at the University of Houston. The average tenure of the departing members is 13 years.

Still, it's not unusual for a mass reshuffling after a redistricting cycle, the once-a-decade process of redrawing the state's political maps. In some cases, the new maps make re-election harder for incumbents, either by drawing them out of their districts or changing the political lean. In others, the changes could open up new opportunities for sitting representatives to run for higher office.

Twenty-five representatives in the 150-member Texas House don't plan to return next year, a total that was solidified Monday, the deadline for candidates to file for the March primaries. Two incumbent Democrats are also facing off against each other in the same district, and only one of them can come back.

In the Senate, the more reliably conservative chamber, just one member is seeking a higher office. Four members plan to retire, including the chamber's most moderate members on both sides of the aisle — Sen. Eddie Lucio, a Brownsville Democrat, and Republican Sens. Kel Seliger of Amarillo and Larry Taylor of Friendswood.

In all, 31 members definitely won't return to the Capitol in 2023, and that list could grow if sitting members lose their primary or general election contests. Following the 2012 elections, after the last redistricting cycle, the final total was 49.

Redistricting fuels polarization

In both chambers, redistricting shored up GOP support across the state, making it likely that even more Republicans will head to Austin for the 2023 legislative session.

Republicans currently hold 18 seats in the 31-member Senate, and that could grow after next year's general election. Former president Donald Trump carried 16 state Senate districts in 2020, but the new map would increase that total to 19.

AMERICAN OVERSIGHT

It’s the same story in the House, where Republicans currently hold 85 seats. Trump secured 76 of those districts last year, but he would have won 85 of them under the new setup.

“This cycle will shape Texas politics as much as any other we’ve seen in the past decade,” Rottinghaus said. “The effect will be profound on the legislative process. I think the balance of power will lead to Republicans having a lot more control, because they're able to develop and harness the authority of leadership.”

The new vacancies have also created a field for more ideologically extreme members to run for office — a trend seen nationwide as both state and national politics become increasingly polarized, and as money floods to those candidates, said Jennifer Clark, a political science professor at the University of Houston.

“It seems that increasingly moderate members are being sidelined and not stepping up and running for these seats,” she said. “And then this is self-reinforcing, of course, because then we see growing polarization and even more of a reluctance on the part of moderates to enter into these races.”

Moderates depart the House

In 2011, Huberty was one of 37 mostly Republican freshmen in the Texas House — a mix of conservatives and moderates who rode the tea party wave into office, including three members who had served in the House previously, lost their seats and then gained them back that year.

By 2023, few of the moderate new members elected from that class will remain, with most of the remaining holdouts — including Huberty, John Frullo of Lubbock, Lyle Larson of San Antonio and Jim Murphy of Houston — declining to seek re-election next year.

Huberty rejected the idea that moderate Republicans are leaving Austin because they are fed up with the direction of the Legislature or are being pushed out by more conserative members.

“It's just the nature of the business,” Huberty said. “The average tenure of a state rep is about five years. It’s like a running back in the NFL: it doesn't last very long. I don't see anything that's a cause-and-effect, like, 'Oh my god, everything's gone so far to the right, I just don't want to do it anymore.'”

The 2023 session would be far from the first time the Legislature’s makeup has shifted to the right. But when that has happened in recent years, the more conservative freshmen were largely constrained by House leadership, led by former speaker Joe Straus, a moderate Republican from San Antonio. The current speaker, state Rep. Dade Phelan of Beaumont, rarely stood in the way of conservative priorities during his first year wielding the gavel.

“The speaker is definitely not Joe Straus in terms of his ideology,” said Jon Taylor, a political science professor at the University of Texas at San Antonio. “He’s much more conservative ... He's not as conservative, obviously, as (Lt. Gov.) Dan Patrick, but nonetheless more conservative. So, I think you'll see a push by those more on the right side of the Republican Party in the Legislature next session.”

State Rep. Mayes Middleton, a Wallisville Republican who chairs the conservative House Freedom Caucus, praised the “awesome” slate of GOP candidates running for the Texas House this cycle.

“I've talked with a lot of them,” Middleton said. “They have the fire in the belly that it takes to go fight for our shared conservative values and make sure these policies get across the finish line.”

Middleton, one of the most conservative members of the Texas House, is now running for a vacant state Senate seat with Patrick’s endorsement.

AMERICAN OVERSIGHT

The direction of the Legislature has also prompted some House Democrats to call it quits, though it's unclear if they will be replaced by more progressive members.

One of the departing Democrats, state Rep. Ina Minjarez of San Antonio, said she decided to forego re-election and run for Bexar County judge in part because she was fed up with the Legislature's hard-right turn — a trend she expects will continue next session.

"We're not working on the issues, on the policies that really make the quality of life better for people in this state," Minjarez said. "To me, it's become nothing but a bunch of rhetoric and a bunch of political games."

Senate drifting further right
In the Senate, Lucio's seat could be the sole competitive race next year. The other open districts are solidly Republican, and those who are likely to replace the outgoing members are ideologically further right than their predecessors — or are, at least, closely allied with Patrick, the leader of the upper chamber.

Seliger was known for frequent fallouts with Patrick, defying him at times and blocking passage of priority bills. But state Rep. Phil King, the Weatherford Republican vying to replace him, has already earned Patrick's stamp of approval.

Taylor, one of the most moderate members of the Senate, is also poised to be replaced by a more conservative successor. Those running to replace him include Middleton and Robin Armstrong, a physician backed by Attorney General Ken Paxton, a tea party favorite. (Armstrong gained attention last year when he controversially administered hydroxychloroquine to COVID-19 patients at the Texas City nursing home where he works.)

It's difficult to say whether ideological shifts in the Senate may help pass some conservative legislation that had failed this year, like a ban on COVID vaccine mandates, Seliger said. Those who replace outgoing GOP members will also be Republicans who share many of the same values as their predecessors — and some could dissent behind closed doors, he said.

"The things that go all the way through are the things approved by the lieutenant governor," he said. "That will not change."

State News

The Newest Texans Are Not Who You Think They Are
By Tom Foster
Texas Monthly

hat an attractive crowd!" cheered Fredrik Eklund, the Swedish-born celebrity real estate broker who stars on the hit Bravo reality show Million Dollar Listing. He stood on the patio of a newly built home in Tarrytown, the tony neighborhood that hugs the shores of Lake Austin, addressing the local brokers who were packed into the yard. It was the launch party for the Austin branch of Douglas Elliman, a brokerage famous in New York and California for selling luxury homes and high-rise condos.

Eklund, who wore a double-breasted navy linen jacket, snug-fitting white slacks, and sockless dress shoes, seemed a little surprised that the crowd had matched him ankle for stylish ankle, but he didn't linger on it. Speeches had to be made, toasts given, and then he'd board a plane for Miami first thing in the morning, after

AMERICAN OVERSIGHT

fewer than 24 hours in the Texas capital. For the moment, his job was simply to be seen, to lend some sizzle to the occasion. Not only was Elliman moving in on Texas real estate, it had brought its biggest gun, Eklund, one of the country's top real estate brokers, who also happens to be a bona fide TV star.

Not that Austin—or this house—needed any help in the sizzle category. The three-story brick-and-shingle mansion had sold in two days for considerably more than its $16.25 million asking price, to an out-of-town buyer whose identity was confidential (but who was rumored to be to an entrepreneur from Los Angeles). During the party, celebrated interior designer Fern Santini glided from room to room in a silk Pucci caftan aswirl with soft pinks and yellows, showing off the many style innovations she'd brought to the home, which was sold fully furnished. Brass mesh paneling encircled a spiral staircase. Blue-and-gold cowhide carpeted the ceiling of the third-floor man cave. Outside on the meticulous lawn, a bearded bartender wore pointy boots with skinny black jeans and a flat-brim Stetson. This was rootsy old Austin taken to its most glamorous—or, depending on your perspective, its most absurd—conclusion.

Eklund has built his New York–based Elliman subsidiary, the Eklund Gomes Team, around what he calls the "golden triangle" of U.S. real estate: New York, Miami, and L.A. But as he and his partners got wind of Texas's booming population and economy in recent years, they started planning to expand here—to Houston, Austin, and Dallas, another kind of golden triangle. As he would tell me later, "I was in Beverly Hills yesterday, and Texas real estate was the only thing anyone wanted to talk to me about."

In the black-lacquered Tarrytown kitchen, I spoke to a visitor from California who suggested the reality was a little more complicated. "Nobody's actually moving here," he said, smiling conspiratorially. "Nobody's leaving L.A. They're looking for a tax shelter or something."

He was exaggerating, of course. For one thing, a string of high-profile corporate relocations from California had grabbed headlines (Charles Schwab to Denton County, Hewlett Packard Enterprise to Houston, Oracle to Austin), and the Elliman team had spent the day meeting with Texas economic development officials in the governor's office. Eklund's publicist, Alexander Ali, noted that Elliman was especially excited about the arrival of Tesla, which is in the process of building what it's calling its Gigafactory near the Austin airport—a structure the size of 165 football fields that would theoretically create 15,000 jobs. Ali suggested that a few high-profile celebrities who'd moved from the West Coast were inspiring others. "Elon Musk and Joe Rogan have such cult followings," he said. "And when celebrities move, people pay attention."

And then he leaned in close again and confided that he wasn't sure this whole scene was entirely welcome. "Does the community not love it?" he asked.

In fact, breakneck growth in recent years has stirred up all sorts of conflicts across the city, much as it has elsewhere in the state, which is perhaps why Ali made certain to explain that this evening's party was also a benefit for the Health Alliance for Austin Musicians.

Later that night, at an after-party downtown in a dimly lit cocktail bar called the Roosevelt Room, the waitstaff tried in vain to enforce the establishment's mask mandate while huddles of partygoers talked about the challenges and rewards of surfing this real estate wave. One Dallas agent told me there are simply too many faux chateaus in Big D and not enough contemporary homes to suit the tastes of newcomers. In Austin, developers can't build high-rise condos fast enough. In Houston, buyers from abroad—the United Arab Emirates, China, parts of post-Brexit Europe—are scooping up many of the high-end properties.

At the after-party, I also met U.S. congressman John Carter, a former Williamson County district court judge who's been a law-and-order, free-market Republican representing Round Rock and the other far-northern suburbs of Austin since 2003. Carter was talking with a circle of real estate developers, including an executive from the Related Companies—one of the largest commercial developers in the country, responsible for

AMERICAN OVERSIGHT
TX-SOS-22-0155-B-000302

Manhattan's Hudson Yards and similar megaprojects in London, Abu Dhabi, and beyond. Though he hadn't made it out to Tarrytown for the open house ("Sheesh," he said when I mentioned the sale price), Carter had met the Elliman team as part of the firm's goodwill tour. "I think they're creating enthusiasm," he said. "They realize they don't want to change what makes us a great place to be, so let's hope they don't. We still want to be Central Texas." And how might one do that? "Be cautious," he said.

Of course, nothing about the evening—or the pace of the state's growth—seemed especially cautious.

The Big Picture

The Texas population grew by about four million people in the past decade—far more than any other state in raw numbers, and enough as a percentage to make it the third-fastest-growing state in the nation over that period, behind Utah and Idaho. Roughly 3,800 more people move here every week than move out of state. Tick down any list of the fastest-growing cities in the country, and Texas shows up again and again. Fort Worth, Austin, and San Antonio all landed on the list of cities with a population gain of at least 100,000 over the past decade, according to the U.S. Census Bureau, which released its latest data in August. Frisco easily topped the list of large cities, followed by a lot of other suburbs and exurbs, such as New Braunfels, McKinney, and Conroe.

You get the idea: the Texas population is booming.

That growth, of course, has come with plenty of hand-wringing about everything from an overheated housing market to fears of a hostile takeover by liberal coastal elites. News headlines have stoked those worries in the past two years. And then there was Greg Abbott's 2018 campaign slogan: "Don't California My Texas." But perhaps unsurprisingly, partisans may have it wrong.

For one thing, despite all the public focus on Californication, there are intriguing signs that many of the newest arrivals share key characteristics with lifelong Texans. Many are coming for abundant jobs, lower taxes, fewer regulations, and a more reasonable cost of living (which may be hard to believe for Texan buyers and renters fretting over the housing market but is a fact).

The Great Migration, by the Numbers

It's also worth noting that people moving from elsewhere make up only about half of Texas's population growth; the other half comes from births outpacing deaths. Of the people moving here, about 40 percent come from other countries and 60 percent from other states—though that balance has tipped back and forth a few times in recent years. Californians are hardly the full story.

Perhaps the most surprising Texas statistic that landed with the latest census: those of Hispanic or Latino origin, Asians, and members of other racial and ethnic minority groups made up about 95 percent of the population growth from 2010 to 2020. (95 percent!) That's 3.8 million new non-Anglos in Texas, compared with about 200,000 non-Hispanic whites. Rogelio Saenz, a demographer at the University of Texas at San Antonio and a native of the Rio Grande Valley, has a memorable way of driving that statistic home. "Essentially, that means we added the equivalent of the cities of Houston and San Antonio in [non-Anglos]," he told me. "And we added the city of Brownsville in [non-Hispanic whites]."

The census revealed just how close Hispanic Texans are to becoming a plurality. When it was published, they constituted 39.3 percent of the population, whereas non-Hispanic whites constituted 39.8 percent. That threshold will be crossed any day now, and by 2050, less than 30 percent of Texans will be non-Hispanic white.

Hispanic Texans, however, are not the fastest-growing ethnic group in the state. That honor goes to Asian Texans. While the proportion of Asians in the state remains just 5.4 percent, the group has gained nearly three times as many new members as Anglo Texans have over the past decade. Whereas Texas gained 187,252 non-

AMERICAN OVERSIGHT
TX-SOS-22-0155-B-000303

Hispanic whites in that period, it gained 613,092 Asians. In some areas of Denton and Collin counties, north of Dallas, or Fort Bend County, just southwest of Houston, Asian immigrants are the driving force of growth.

Whatever their ethnicities, Californians are coming to Texas in much higher numbers than are migrants from any other state. In 2019 about 42 percent of net domestic immigrants came from California. For all the hyperventilating about Californians ruining certain Texas cities, however, the fastest-growing parts of the state owe much of their growth to Texans shuffling around from city to city. In fact, a primary reason Texas is growing so fast is that we tend to stick around as compared to natives of other states, meaning there's less out-migration to offset the in-migration. About 82 percent of people born in Texas still live here, making it the so-called stickiest state in the country.

Bill Fulton, director of the Kinder Institute for Urban Research at Rice University, in Houston, points out that "basically all the population growth is in the Texas Triangle," the relatively tight space defined by the Dallas–Fort Worth, Houston, and Austin–San Antonio regions. He recently wrote a book with former San Antonio mayor Henry Cisneros, "and we found that the Texas Triangle favorably compared to virtually all other mega-regions in the U.S., including Southern California and the Northeast Corridor. It is a true economic powerhouse."

That's just one of the ways Texas's population growth is changing the landscape. In the booming cities, Fulton points out, the influx of a young professional class has led to a flowering of high-rise and mid-rise apartment buildings, as well as multiunit home lots. At the same time, suburbs have become more diverse than they were in the days of white flight from urban neighborhoods, in the sixties, in part because today gentrifying city neighborhoods are edging out non-white residents. Rural and small-town Texas, meanwhile, is shrinking. In fact, 142 of the state's 254 counties are declining in population, some of them precipitously. Schleicher County, between San Angelo and Sonora, lost 29 percent of its population in ten years, the steepest drop in the state.

The diversification of the suburbs could fundamentally alter the political map by changing reliable Republican standbys to perennial toss-ups. Dying small towns carry less electoral weight. Gerrymandering of districts, now pursued as avidly by Republicans as it once was by Democrats, will continue to redraw electoral maps to maintain the current political order. But at some point, likely soon, the old assumptions will simply no longer hold true, and the keys to winning Texas will change.

The continued growth of the Texas economy, meanwhile, will increasingly rely on newcomers from other states and countries—to both provide jobs and fill them. In turn, pressure will mount for Texas to better educate and train its homegrown workforce to remain competitive, especially as our population ages. Dramatic shifts in the economic and cultural landscape of the U.S.—as well as in Texas itself—have landed the Lone Star State an opportunity to lead the country into the future. Figuring out how to respond requires understanding the forces that brought us here.

The Growth Propellant

Half an hour's drive southwest of Killeen, within sight of U.S. 183, a patch of prairie has been blasted into a barren crater by eruptions of highly refined kerosene and liquid oxygen that combust and emerge as a torrent of fire from a tangle of tubes and wires—the guts of a rocket engine test model—with such violence that the technicians in charge must watch from a control center eight hundred yards away.

Here, at the edge of the unincorporated Central Texas community of Briggs, which has a population of about 430, is where Tom Markusic met me on a blazing hot afternoon. He's the CEO and founder of Firefly Aerospace, a company that builds rockets to take satellites to space and ultimately, he hopes, to ferry supplies to the moon and other celestial bodies. The company recently won a $93.3 million contract with NASA to construct a lunar lander, and it has built a simulated moonscape here in Briggs, alongside the test-firing field and a small rocket factory.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000304

Markusic, who worked for NASA, SpaceX, Blue Origin, and Virgin Galactic before launching Firefly in 2014, chose Texas for his company's headquarters in part because he knew nobody would get in his way. It's the same reason Jeff Bezos tests and launches his rockets near Van Horn, and Elon Musk launches his in Boca Chica. "There's a different view of property ownership in Texas," Markusic told me as we settled down in a dark conference room inside one of the factory buildings. "There's a clear cultural expectation that your land is [yours] to do with as you choose—within the confines of the prevailing zoning and such, of course. So, the neat thing is, so long as you are a good neighbor, people leave you alone and let you do what you need to do."

"Time is our most precious commodity," Tom Markusic explained, "and we can move a lot faster here in Texas."

In particular, Markusic explained, he needed the freedom to act fast. Firefly, which was valued at more than $1 billion earlier this year and plans to grow its workforce from roughly three hundred at the start of 2021 to nearly a thousand by the end of 2023, competes with some of the world's most deep-pocketed and aggressive entrepreneurs. "Time is our most precious commodity," Markusic explained, "and we can move a lot faster here in Texas." In other states, he said, "you're almost working from a position of presumed guilt, and then you have to prove you're not doing anything wrong. In Texas, it's set up to presume that you're not breaking the law. That allows us to operate our site without extensive permitting. The only permitting that's required at this site right now that I'm aware of is our septic." The company has to abide by state and federal environmental laws, he added, but there were no bureaucratic approvals to secure before his team could start firing up the rocket blaster.

He compared that to a previous experience when he was building a test facility for Virgin in California: "When we went in to get the permitting, they wanted to classify it as a power plant. And you can imagine if you want to build a power plant, that's going to be a tough permitting slog. It was just a silly, one-size-fits-all way of thinking."

His comments echo those of several high-profile recent California defectors, including Musk, who told the Wall Street Journal last December, upon announcing his move to Texas, that he wished California would "just get out of the way" of innovators. That was a couple of weeks after Joe Lonsdale, an influential venture capitalist and cofounder of big-data contractor Palantir, explained his move to Austin from Silicon Valley, also in the WSJ. "Forty years ago . . . you could accomplish anything in the Golden State," Lonsdale wrote in an op-ed that quickly went viral. "Government policy facilitated the entrepreneurial spirit. Dreamers and doers could thrive. The burst of activity in tech, finance, medicine, energy and many other industries lasted for decades. But now a state like Texas provides these opportunities without the problems and baggage California has accumulated." Just a few years ago, calling Texas more fertile for innovators than Silicon Valley would have raised more than a few eyebrows among the entrepreneurial elite. Texas is home to fifty Fortune 500 companies, sure, and its GDP is nearly $2 trillion, more than that of any state not named California. But the future was being built elsewhere—specifically the West Coast. Now that has changed, and the pandemic hastened the shift. In Musk's case, legal battles with officials over COVID-19 restrictions at Tesla's Fremont, California, factory were a clear catalyst for the company's eventual announcement, this October, that it would be moving its headquarters to Austin.

Of course, wealthy moguls and investors also stand to reap handsome personal financial benefits by setting up in Texas. The state famously doesn't charge income tax (though high property taxes make up the difference for a lot of homeowners). More importantly for the investor class, Texas doesn't charge capital gains tax. California's personal-income tax, by comparison, is the highest in the U.S., at 13.3 percent for sums of more than $1 million a year. The capital gains rate is similar.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000305

And then there are the corporate incentives. Texas has long been known for luring companies away from other states with generous packages containing various tax breaks. Tesla recently negotiated a tax break worth nearly $60 million over 10 years to build its Gigafactory in Del Valle, in exchange for investing $1.1 billion in the plant and vowing to hire at least half of its expected employees from Travis County. At the time of this writing, Samsung was negotiating with Williamson County and the City of Taylor to build a potential $17 billion chipmaking plant there. The South Korean electronics giant had rejected an initial offer from the City of Austin that included almost $650 million in incentives over 10 years; the company wanted a 100 percent tax abatement for 25 years.

Whether economic incentives for business relocation come from a city, a county, or the state's Texas Enterprise Fund (former governor Rick Perry's legacy), they're almost always controversial, with opponents pointing out all the ways they can strain existing infrastructure—roads, water, schools, the electric grid—and end up costing a community as much as it gives away in incentives. The math of whether a deal ends up benefiting a community can be endlessly debated, though. Proponents argue that landing a big corporate relocation spurs investment in communities and creates jobs (though Perry also had terrific luck getting donations from a source tied to the companies his administration locked in with incentives, as a New York Times investigation famously found). A new plant like Tesla's or Samsung's will ideally lead to local home construction, investment in the local service economy, and eventual relocation of suppliers.

"HP Enterprise, Google, all these technology-based companies cannot meet their workforce demands with the current Texas workforce," said Steven Pedigo. "It just doesn't happen."

Regardless of how the math of individual economic development deals stacks up, virtually everyone agrees there's value in diversifying the state's economy. Though Texas relies a lot less on oil and gas than it did a few decades ago, fossil fuels still represent one of the largest sectors of the economy and the dominant one in the state's largest city, Houston. This puts the state at risk as the energy industry transitions away from petroleum. As Rice's Bill Fulton put it, "Houston is at a critical juncture right now. The business leaders have to get out in front to the energy transition so we remain the energy capital of the world but not the fossil fuel capital." Failing to make that shift, he said, would make Houston "the next Detroit." While Texas has, in recent years, added jobs in software development and cloud computing, those gains have been outpaced, sometimes drastically, by those in California and other states. Which only underscores the urgency many local leaders feel.

Even Firefly wrangled roughly $1.2 million in incentives from the City of Cedar Park when it established its headquarters there, back in 2014, and earlier this year it picked up an additional $4.3 million in incentives. That package, in addition to paying the company for each job it creates (and for purchasing and renovating a building), shells out $10,000 in cash directly to each employee who buys a home in Cedar Park. In return, Firefly pledged to create nearly seven hundred jobs in the area, with an average salary of $90,000, by the year 2030.

That sounds like a big benefit, but there's a catch, not just in Cedar Park but all across Texas: companies that relocate and expand here find it tough to hire Texans to fill many of the kinds of jobs that require the most education, expertise, and experience. "We haven't done a very good job of educating our workforce," said Steven Pedigo, at the University of Texas at Austin's LBJ Urban Lab. Those who come to Texas from other states are more likely to have college degrees than native Texans. "HP Enterprise, Google, all these technology-based companies cannot meet their workforce demands with the current Texas workforce. It just doesn't happen."

Which raises a question: If not Texans, who exactly is filling all those new jobs?

The Art of the Suburb

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000306

The immaculate streets of Frisco, in the far northern reaches of metro Dallas, nearly sparkled under a cloudless sky. It was a Thursday morning, and Dana Baird, a former Dallas TV news reporter who's now the City of Frisco's director of communications, piloted her Honda SUV from one commercial development to another, tracing the history of one of the fastest-growing cities in the country. First up was the Stonebriar Centre ("Our first economic engine," Baird said). Then the Frisco RoughRiders minor league ballpark ("Our first sports venue—the convention and visitors bureau now calls us Sports City USA"). Then the Ikea, the headquarters of the Dallas Stars National Hockey League team, the sprawling Hall office park, the stadium and practice facility of the FC Dallas professional soccer team, and ultimately, the pièce de résistance: the Star District, the gleaming headquarters of the Dallas Cowboys and surrounding office buildings, restaurants, shops, and other amenities.

It was 1987 when Baird's boss, city manager George Purefoy, settled into his job leading Frisco's development. A native of Mineral Wells, he'd been the city manager in Columbus, a hamlet that abuts Interstate 10 between Houston and San Antonio, when he decided it was time to level up and head somewhere with more growth potential. "I took out a map one night, and for some reason I followed Preston Road up through the Metroplex, because it was kind of a growth corridor, and it came up to Frisco," he told me. At that time, it had around five thousand residents and was essentially still a small rail town. But Purefoy saw it as a kind of suburban start-up, a little old place that could eventually grow into something altogether different. "So, I thought, 'If the city manager job ever opens up there, I'll apply.' And that night my wife and I prayed on it, and not one week later I got a call from the City of Frisco asking me to apply."

A soft-spoken, throwback gentleman who brings to mind Ward Cleaver, Purefoy became the first and only city manager Frisco has ever had—though he likes to joke that he's had an entirely different job every five years as the city has ballooned. Today's Frisco population of around 200,000 is almost double that of a decade ago, and the city projects it will reach 300,000 in the next five years or so.

There are a few keys to the success of Frisco. For one thing, abundant land and the expectation of growth: even before Purefoy showed up, city leaders had annexed land on both sides of multiple roads that stretched out from the center of town, creating what he calls "octopus arms" that would come to frame the area's eventual sprawl. Among Purefoy's first acts was securing an abundant water supply for the town and cleaning up the finances. He was essentially laying a foundation on which to replicate or improve on what the city of Plano, just south across the Sam Rayburn Tollway, had begun building a few decades prior.

Perhaps most important to Frisco was the counterintuitive fact that Dallas Area Rapid Transit (DART), the metro area's commuter light-rail system, did not extend past Plano. Whereas the communities served by DART have to dedicate a one percent sales tax to the rail system, Frisco voters elected to use that same cut of money to incentivize businesses to move in and also to buy land for parks and other amenities. The result is that entertainment is so plentiful that many Frisco residents have little reason to leave. The city is less a bedroom community for Dallas than a thriving place all its own that just happens to be adjacent to one of the largest cities in the U.S.

In economic development circles, Frisco is known for its mastery of public-
private partnerships. To help build the Star District, for instance, the city, its economic and community development corporations, and Frisco Independent School District kicked in a collective $115 million, and in return Frisco's high school football and soccer players get to use the Cowboys' spectacular indoor stadium. The whole deal came together in three months, Baird told me—lightning speed for a giant commercial development on prime property in a city center. The same strategy built Toyota Stadium, which FC Dallas shares with the high schools.

"We're basically a city of immigrants," George Purefoy said, "either from within the United States or from outside the United States."

AMERICAN OVERSIGHT

The result is a town that regularly lands on the lists of best places to live and best places to do business in America—which in turn helps it stay on the lists of fastest-growing places. And it's not all strip malls and subdivisions. Frisco has the second-largest skate park in Texas, after Houston; the largest private collection of contemporary Texas sculpture; and one of the largest collections of historic train cars in the Southwest.

It's not slowing down anytime soon. Earlier this year the military-grade eyeglass maker Wiley X announced it was coming to Frisco from Livermore, California, and that it hoped to bring its one hundred employees along. In 2019 iconic Texas brand Dr Pepper announced it would move its headquarters from Plano to the Star. The Professional Golfers' Association of America announced in 2018 that it would move from Palm Beach County, Florida, to Frisco. The smoothie company Jamba moved there in 2016. The list goes on.

The competition for corporate relocations or expansions can be a full-contact sport among cities—sometimes even adjacent ones—but the effects often ripple out. Though Frisco lost out on one of the greatest economic development deals in the area's history—neighboring Plano landed Toyota's North American headquarters, which was relocating from Southern California—the runner-up still managed to reap the benefits. The carmaker's campus, which opened in 2017, sits at the northwest corner of Plano, close to residential areas of Frisco. Baird remembers running a trade booth back when Toyota employees were starting to explore the area and the company had set up a kind of relocation bazaar at a hotel. Because Frisco had so many new neighborhoods sprouting up, thousands of Toyota employees ended up settling there, leading to rumors of whole neighborhoods being colonized by transplanted Californians. Today, the median household income is about $127,000—more than double the number for Texas overall—and the median home value is about $400,000.

When I asked Baird whether residents of Frisco ever grouse about all the growth and newcomers, she looked at me sideways. Purefoy pointed out that in a place whose population is almost entirely newcomers, it would be hard to look askance at other fresh arrivals. "We're basically a city of immigrants," he said, "either from within the United States or from outside the United States."

Sunitha Cheruvu, who helped lead an effort to build a Hindu temple in Frisco.

The New Face of Immigration

If the city that George Purefoy built is a triumph of capitalism and Texas's natural inclination toward sprawl, it is also a marvel of something more surprising: the diversification of the suburbs in terms of race, ethnicity, and national origin.

According to the 2020 census, Texas is now the fifth-most diverse state in the country, just ahead of New Jersey and New York. (At the top of the list: Hawaii and California.) And in the major metro areas, the census showed a clear pattern of cities with static diversity levels abutting suburban counties where diversity is surging. One measure of diversity is the census-calculated Diversity Index, which demonstrates the likelihood that any two people in a community will represent different ethnic or racial groups. In Dallas County, the Diversity Index grew by just 2 percent from 2010 to 2020. In Collin County, which includes part of Frisco, that number grew by 19.8 percent.

In Frisco, the largest and fastest-growing minority group is Asian Americans, who make up nearly 21 percent of the city's population. Some 14 percent of the surrounding county's population traces its origins to India, with those hailing from South Korea, Japan, and China making up much of the rest. Many are new not just to the North Dallas suburbs but to the U.S. Nearly 23 percent of Frisco residents were born in another country.

Anamika Mukherjee, a preschool teacher, was born in India and moved to Frisco five years ago, after her husband's job had taken them to California, Connecticut, Brazil, and, finally, North Texas. She told me that Frisco sometimes reminds her of Little India, a famously large ethnic enclave in New Jersey that she and her

AMERICAN OVERSIGHT

husband used to visit when they lived in Connecticut. “I have three Indian stores within easy reach of my house,” she said, “and you can find every single thing you might want.”

She can thank, at least in part, Sunitha Cheruvu. Born in southern India, in the state of Andhra Pradesh, Cheruvu grew up in New York and New Jersey. After she met her husband, who is from Texas, she moved with him to Plano. They were happy, but as practicing Hindus they had to travel more than thirty minutes to worship at a temple in Irving.

She and members of five other families from the area joined forces to build a temple nearer to their homes, and in 2009 they ended up buying a piece of land in Frisco, on the site of a former gardening company. They gathered in a small trailer while their first permanent building was under construction. And then, in 2015, they opened a second, larger, gleaming ivory structure that they believe is the largest Hindu worship hall in the nation, at 34,000 square feet.

Cheruvu now lives, along with many other members of her faith, in the Eldorado Crossing neighborhood, in a two-story brick-facade home whose backyard fence adjoins what’s now called the Karya Siddhi Hanuman Temple. “I can look out my window and see the rajagopuram,” she told me, referring to the temple’s ornate entrance tower, which rises seventy feet between two large elephant statues. “It’s beautiful during sunrise and sunset.”

In fact, all throughout Frisco, the suburban shopping centers and green spaces show signs of diversity, such as Korean dessert shops and Taiwanese teahouses. The Frisco school district recently introduced a three-week cricket unit as part of the PE curriculum. The student body at Roach Middle School, near the Hanuman Temple, is 37 percent non-Hispanic white, 28 percent Asian, 18 percent Black, 11 percent Hispanic, and 6 percent of a category that includes American Indian, Pacific Islander, and two or more races. At McSpedden Elementary, just down the road, 68 percent of the students are Asian. A few miles away in Plano, Russell Creek Park is the only park in North America to boast seven cricket pitches.

In 2019 Cheruvu helped start the City of Frisco’s Inclusion Committee, of which she’s the vice chair. The committee has polled residents about issues regarding diversity and inclusivity, and it has spearheaded events such as the first official city celebrations of Diwali, Kwanzaa, and Lunar New Year.

All of which has given Frisco a reputation far beyond the state’s borders. As a Dallas Morning News story put it, shortly before the temple’s opening, “Young parents in India know Frisco is the place to raise a family.” The story cited DFW-based tech companies as part of the allure but credited word of mouth as the greater force. Cheruvu told me the same thing. A week after the temple opened, it hosted a livestreamed chant marathon for nearly eight hundred that lasted more than 24 hours and set a Guinness World Record.

To demographers who study Texas, the story of Indian Frisco is both fascinating and no great surprise: fascinating because it’s such a transformation from just one or two census cycles ago, and no great surprise because Frisco is hardly the only place in Texas to see the trend.

The call-and-response continued: It is even harder . . . to make . . . a new home . . . Everything is new . . . Everything is strange.

It was a few minutes before the lunch bell in Johnny Rios’s English language arts class at the Language Institute for Newcomers, a specialty school in an annex building that connects two adjacent high school campuses in the Alief Independent School District, which straddles the city limits of Houston on its southwest side. The fifteen teenagers in this class—seven Hondurans, four Guatemalans, three Salvadorans, and one Nicaraguan—attended LINC because they were new to the U.S., and some had no experience with English. They were reading Growing Together, by the Cuban American children’s book author Carmen Agra Deedy.

AMERICAN OVERSIGHT
TX-SOS-22-0155-B-000309

LINC, which was established in 2003, typically serves about three hundred students. They complete a one- or two-year program, depending on how much help they need (some come with no schooling background whatsoever), after which they join the rest of the student body at one of the district's high schools: Elsik or Hastings right next door, or a third school a couple of blocks away. Together, the three serve an astounding 11,200 students.

Much has been made in recent years in the national media about the diversity of Houston, and no place showcases it better than Alief. A mostly lower-income area, Alief is one of the country's most diverse communities. Unlike that of Frisco, Alief's population of roughly 113,000 doesn't fluctuate much, but every year droves of newcomers land here, as others who are more established disperse to the wider region. To drive through Alief is to tour the world—Vietnamese stores on this block, Chinese stores on the next, followed by Salvadoran shops, Mexican shops, Nigerian shops, and on and on. The distinctive rooflines of mosques and Buddhist temples punctuate the horizon.

In her twelve years working for Alief ISD, first as a teacher and now as the ESL department chair for LINC, Dulce Segovia has seen wave after wave of migrants from different parts of the world. There were the hundreds of Burmese students who showed up six years ago. Four years ago, there was a surge of unaccompanied boys from Central America. Today the district is expecting hundreds of Afghan refugees any day, many of them kids. "For me, this is very raw and real, because I went through the same thing forty-two years ago," Segovia told me. She's a former refugee herself, having arrived in Alief in 1980 with her aunt after escaping war in El Salvador. "We asked for asylum, and we did exactly what our students are doing now"—worked hard to find their place in a new country. She referred to the migrants massing at the border in Del Rio, as thousands of Haitians had in the weeks right before I visited Alief, and remembered an incident from childhood when someone called Salvadoran refugees cockroaches—"because there were so many of us and they couldn't get rid of us."

Segovia grew up in the nearby Sharpstown area, earned degrees in English and in curriculum and instruction at the University of Houston, and eventually came back for work. "Alief is family," she and her colleagues like to say. In some ways she means that literally: many immigrant students, even unaccompanied minors, end up in Alief because they have extended family members in the area. Roughly 65 percent of students live in apartments or multifamily units.

Some also arrive in the community with pressing needs: no shoes, no familiarity with indoor plumbing. The school district provides vision and dental care, social workers to visit families, and other basic services. As superintendent HD Chambers puts it, "Not only are we teaching children how to read and write, how to add and subtract, but we're teaching and helping people from all of these different ethnicities and cultures how to come in and adapt to our country."

Chambers, who started his career as an assistant football coach and economics teacher in the Aldine district, on the north side of Houston, has, to his surprise, ended up dedicating his career to educating diverse populations. He landed in Alief ten years ago and has built a reputation as a passionate and innovative leader whose mantra is "meeting students where they are—as opposed to where we wish they were."

It's a mission that not only resonates with colleagues like Segovia—who cites it regularly—but derives from what sounds like a deep sense of patriotism. For an educator, Chambers said, the only response to the rapid diversification of the population "is to do everything you can to make sure that these individuals . . . regardless of where they come from, are educated in a way that will sustain our republic and our democracy and the things that our country was founded on."

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000310

Of the population changes Chambers and his colleagues have observed in their district, one of the starkest in recent years has been the fluctuation in Texas's Hispanic population: even as Hispanic Texans become the state's dominant demographic group, fewer and fewer Mexicans are migrating to Texas. According to one analysis by Rogelio Saenz, of UT–San Antonio, Mexican migration to Texas has plunged. There are multiple reasons for this, from militarization of the border and the aging of Mexico's population to the improving economic fortunes of Mexican women, who are having fewer children later in life. Of the Mexicans who do come to the U.S., many are now better-educated and have higher incomes than in the past. This year the Hispanic population at LINC largely comprises refugees from Central and South American countries—most from El Salvador, Honduras, and Guatemala, which are wracked by organized crime and sagging economies.

Whereas some years the LINC classrooms serve kids speaking dozens of languages (there are more than ninety languages spoken in the surrounding community), in 2021 the vast majority of students are native Spanish speakers. Of the Hispanic students, very few come from Mexico. "Can you imagine the ganas, the desire, to better their lives?" Saenz had asked me, referring to Central American refugees. "They are walking, sometimes unaccompanied, without their parents, hundreds or thousands of miles, and then we have them here and have the possibility that they can be our future workforce."

A few blocks from LINC, in a sprawling, glassy new building that opened in 2018, Jennifer Baker works to make that possible. Baker helps run the Center for Advanced Careers, where Alief students train to work in construction, IT, health care, and other high-demand industries that don't require college degrees for many well-paying jobs. There are state-of-the-art robot arms in the advanced manufacturing lab. There's a working pet day care in the veterinary science lab and a working auto shop. In the wood shop, they build furniture for Mattress Mack at Gallery Furniture. "They have to make money to pay for our operations," Baker said.

With Hispanic Texans on pace to be the dominant demographic group, their lower average educational attainment looms as a crisis for the state's economy. Whereas nearly 95 percent of non-Hispanic white Texans aged 25 and over have at least a high school degree, that number is less than 70 percent for the Hispanic population. One of the ways that students who are starting at a disadvantage can gain an edge, superintendent Chambers believes, is by getting vocational training that directly meets employers' needs. Vocational programs are nothing new in high schools, of course, but the scope of the program in Alief looks more like that of a community college, and its partnerships with employers run deep.

"You know the company Trio Electric?" Baker asked me, referring to the Houston-based commercial electrical contractor. "They wrote our electrical curriculum. Their workforce shortage is tremendous. They provide all the equipment, all the supplies. And then after the students' junior year, they give them an internship in the summertime that pays four thousand dollars. Kids in this neighborhood making four thousand dollars—you might as well tell them they're making a million bucks. So then, senior year, they're more excited to finish out the program. And then they go in for interviews, and up to twenty-five of our kids will have a good chance to get hired."

As she spoke, a voice periodically boomed out of the PA system advising prospective students to rotate to the next lab. Signs in the lobby welcomed a delegation of recruiters from CenterPoint Energy. "I've given over five hundred tours of this building," Baker said, her voice catching, "and I spend a lot of time showing people what my kids can do. A lot of them get it, but we're still in the baby stages of businesses realizing the gold mine of talent they have here."

The Not-So-Great Sorting

Peter Rex's Texas journey doesn't have much in common with that of the students at LINC. The 39-year-old embarked on a career in business, he told me, when he realized, after consulting with the abbot at a Catholic monastery, that capitalism would be his best avenue for serving Jesus and helping people on the widest scale possible. Rex subsequently made a bundle of money for himself and his investors by buying and managing

AMERICAN OVERSIGHT
TX-SOS-22-0155-B-000311

undervalued apartment complexes in Texas and Florida after the Great Recession, from what at the time was his base, in Tampa. In 2016 he moved to San Francisco to start a portfolio of real estate and insurance tech businesses, and then moved to Seattle in 2018 to be closer to Amazon's and Microsoft's headquarters and learn from their empire-building prowess.

In both of those West Coast tech hubs, he realized, some of his employees couldn't afford to buy homes. But more importantly, he wrote in a June 2020 WSJ op-ed, "both [cities] have become hostile to the principles and policies that enable people to live abundantly in the broadest sense." In Rex's view, he wrote, not only were West Coast state governments stifling free enterprise, but the culture was stifling freedom of speech and freedom of religion. "In both San Francisco and Seattle, many of our Christian and Muslim friends and employees have expressed concern that their deeply held views are being driven from the public square."

Rex wrote the op-ed to announce his move to Austin. "In Texas, the quintessential American ideals of family, faith, and freedom still reign supreme," he wrote, adding that "as the West Coast becomes more insular and exclusive, other parts of the country will become the biggest drivers of tech innovation." The column came out at the height of the first wave of the coronavirus pandemic and the presidential campaign season. Conservative media and the financial press quickly elevated Rex's move as a signal moment—and talked up Rex as a tech titan (which he's not). As the pandemic drove a wave of individuals and companies to move to Texas and Florida from California and New York, Rex's story came to define part of the narrative: migrants were leaving the coastal hubs not just because they couldn't justify overpaying for shoebox apartments during a lockdown but because they'd finally had it with failed liberal policies that created expensive cities riddled with crime and homelessness and livable only for the superrich.

"We didn't feel safe talking about having voted for Donald Trump in 2016," Marie Bailey told me.

For Marie Bailey, a realtor who lives in Prosper, just north of Frisco, that line of thinking sounds familiar. When she and her husband moved their family from El Segundo, California, to North Texas four and a half years ago, they were effectively giving up on their lifelong home for reasons she cites as "cost of living mixed with politics. We didn't feel safe talking about having voted for Donald Trump in 2016," she told me. "And then you get a seven-hundred-dollar car-registration bill, and voters vote in higher gas prices—I mean, who does that?" The Baileys bought a new-construction home in the Windsong Ranch community, across the street from a lagoon with an artificial beach, and Marie quickly spotted a business opportunity to help other escaping Californians find similarly soft landings. She got her realtor's license and, to find clients, started a Facebook group called "Move to Texas From California!" Today that community has 34,700 members, and Bailey's business is booming.

From her perspective, conservative Californians' desire to flee has grown throughout the pandemic, as frustrated families sought a place where their kids could return to school sooner. "I had people coming here crying when they'd see kids playing on playgrounds," Bailey said. "They couldn't do that in California." Although she shares those sentiments and sees migration to Texas as a "red wave," Bailey also knows the full picture is complicated.

In fact, Bailey and Peter Rex landed at the center of an argument that has circulated in political circles for years. It holds that a great ideological sorting is underway, in which like-minded people gravitate toward one another, often across state lines. Those who see California as a nanny state will escape to a more enlightened Texas, while those who see Texas as a fundamentalist petro-state will escape to a more enlightened California or Colorado. Swap California for New York and Texas for Florida, and the argument stays largely the same.

At the same time, many Texans have seized on Governor Abbott's rallying cry "Don't California My Texas." Indeed, his 2018 reelection campaign played out against a changing electoral map. Barack Obama lost Texas by sixteen points in 2012. Hillary Clinton lost the state four years later by nine. And Joe Biden came within six.

AMERICAN OVERSIGHT
TX-SOS-22-0155-B-000312

Some previously deep-red suburban counties now trend purple or even blue. Abbott was arguing that new Texans might be responsible for the change and that it wasn't welcome (though he's also, at various times, argued the opposite: that folks coming from California are conservatives who should be embraced).

But according to Derek Ryan, a GOP political consultant who leads voter-targeting efforts for candidates up and down the ballot, there's very little data to support either argument—that Texas is growing more conservative because of ideological sorting or that it's becoming more liberal at the hands of Californians. One of Ryan's clients is Congressman John Carter, whom I'd met earlier at that bar in Austin, and who represents several fast-changing suburban cities. Ryan has watched the evolving Texas suburbs closely; he's seen migration patterns in person and in the data.

To identify likely new Texans in the data, Ryan looked at those who registered to vote after the 2018 election and ended up voting in 2020, and then he zeroed in on the subset over the age of thirty—to rule out young people, including longtime Texas residents, who were probably registering for the first time. He turned up 1.3 million voters, "but trying to figure out their political ideology is tricky because they haven't necessarily voted in a Republican or Democratic primary," he said.

So, he turned to modeling data, the kind of information voter-targeting groups use to identify friendly targets based on their consumer spending habits, income levels, homeownership, and so on. "There are literally hundreds of data points to model people and determine if they're likely Democratic or Republican voters," he explained.

According to Ryan's best analysis, 50.4 percent of his possible new Texans were likely Democratic voters, and 49.6 percent were likely Republicans. "So, you know," he said, "we hear a lot about these people moving from blue states and bringing blue-state politics with them, but it doesn't necessarily appear that that's the case. It's closer to right in the middle. There are certainly some hard-core liberals moving here that are still voting that way, but it appears that it's a wash as far as Republicans versus Democrats."

Rice University's Bill Fulton has looked at myriad possible explanations for the ebb and flow of migration from California and found that, as he wrote in a post on the Kinder Institute's website, "the driving force is not a pull into Texas but a push out of California: home prices." That is, when the price of a house goes up on the West Coast, people come to Texas. When the prices ease, fewer make the move.

Of course, Fulton published that piece before the governor signed one of the nation's most restrictive abortion laws, effectively outlawing the procedure, as well as one of the nation's most severe restrictions on voting—on top of a law discriminating against transgender students and one permitting the open carry of handguns without permits or training. The City of Chicago's economic development arm took out a full-page ad in the Dallas Morning News trying to lure alarmed Texans away. The real estate bonanza had, meanwhile, prompted northwest Arkansas to begin trying to lure away Austinites being priced out, and California-based companies such as Salesforce began offering to help any of their Texas employees to relocate in the face of Abbott's actions.

Still, Fulton speaks for many who study migration into the state when he says he doesn't expect the flow of new Texans to slow down anytime soon. "Texas may be hot in the summer, and you may not agree with the politics. It may be sprawling, and you may have to buy an F150 pickup. But it is probably unparalleled in the country right now as a place of economic opportunity." For many, he said, it's still "a place where you can get ahead."

Houston-Area School District Drops Gender-Based Policy On Long Hair
By Allyson Waller
Texas Tribune

A Houston-area school district has reversed a dress code policy that prohibited male and nonbinary students from wearing long hair — more than a month after a lawsuit accused the district of enforcing a discriminatory rule.

The Magnolia Independent School District's school board voted on Monday night to alter its dress code and eliminate the policy, according to the American Civil Liberties Union of Texas. The ACLU of Texas said the district reached a settlement agreement that allows for students who were previously disciplined under the school's former hair policy to "have their records expunged."

The district confirmed Tuesday that under the agreement, male students will no longer have to keep their hair within a certain length. It will also make its dress code policy on earrings gender-neutral. The district's 2021-2022 student handbook currently says earrings should be worn only by female students and "earrings worn by boys will be confiscated and may not be returned to the student."

The ACLU of Texas announced in October it was suing the district on behalf of seven students over the district's hair policy, which stated that hair must "be no longer than the bottom of a dress shirt collar, bottom of the ear, and out of the eyes for male students." The lawsuit claimed the district violated students' right to equal protection under the Fourteenth Amendment and Title IX, a federal law that prohibits discrimination on the basis of sex in educational institutions that receive federal dollars.

In a temporary ruling in late October, Chief Judge Lee H. Rosenthal of the United States District Court for the Southern District of Texas said plaintiffs' legal arguments had "a substantial likelihood of success." Last month, Rosenthal issued a preliminary injunction that required the district to suspend enforcement of gender-specific provisions in its dress and grooming code.

Brian Klosterboer, a staff attorney with the ACLU of Texas, said the school board's decision Monday might lead other school districts across the state to take a closer look at their gender-based dress code policies and reconsider them.

"School districts shouldn't wait until students are actually harmed under these policies, and they've been forced to file complaints or lawsuits," Klosterboer said. "They should take proactive steps to update their dress codes in accordance with federal law."

Concerns over dress codes have sprouted across Texas school districts in recent years, with the ACLU of Texas estimating that nearly 500 of the state's more than 1,200 districts have "outdated and unconstitutional dress codes."

The issue has already attracted legal scrutiny in other parts of the state. Barbers Hill ISD near Houston was sued last year after two Black students who wore their hair in dreadlocks were punished for breaking the district's hair policy for male students. The case is still ongoing, and a preliminary injunction was issued in August 2020 that suspended enforcement of the hair policy.

Danielle Miller, whose child Tristan is nonbinary and was one of the seven plaintiffs in the lawsuit against Magnolia ISD, said in a statement she and her family are relieved by the district's decision to get rid of its hair length policy.

AMERICAN OVERSIGHT

"Our community never gave up fighting to put an end to this harmful policy," Miller said. "We hope today's result will be a sign to other school districts in Texas that changing discriminatory policies like these is the right thing to do."

Parents Upset 14-Year-Old Students At Texas School Assigned 'Pornographic' Book
By Christina Aguayo
KTSM

A reading assignment at Eastlake High School is being described as pornographic and has parents concerned, saying the sexually graphic nature of the book is completely inappropriate and should not be assigned to students, especially with out parental consent.

The book is called The Perks of Being a Wallflower and it's not new to controversy. In fact, according to Marshall Libraries, it has been challenged or banned by numerous entities every year since 2003.

Elda Marmolejos, who has a child enrolled in Eastlake High, said she feels the book should not be assigned to such a young age group, especially with out parental consent.

"My concern is that my child was assigned a very inappropriate book by his English Teacher. There was no parent consent form sent out for me to sign. He basically said that the book was graphic and they needed to act like adults. The content is very inappropriate. It talks about sex, drugs, alcohol [and] minor abuse. It goes into detail about teenager being raped and she goes to get an abortion without parental consent. It is very graphic and it is very inappropriate for such a young age group to be reading and just having access to it at a Texas public school. [There is also a part] Where two boys are having sex and the book goes into detail about [it.]

Judge linked to racial slur video says sedative left her with 'zero recollection'
Marmolejos said she feels as though the school let her down.

"I believe that a teacher's job is to teach children or students how to think not what to think. I think it should be up to the parents to decide what's appropriate. We try to teach them morals at home we try to teach them wrong from right.

Such sexual content is something that a parent should sit down with their child and talk about. That is not the teachers role. We have lived in the state of Texas for years, my kids have grown up here and I never thought that I would have to be dealing with this.

As far as parent consent, I think the teacher should have used more transparency. He did send out a syllabubs at the beginning of the year but the only thing it said is that there was controversial material. That is broad."

Marmolejos said she met with the Principal of Eastlake High School and librarians from the school and the SISD, but she said she felt they spent the entire meeting trying to 'defend' the teacher and convince her they followed policy.

In a meeting that was taped by Marmolejos, with the consent of all in the meeting, a school administrator said, "What I want to do is we're validating why he chose the book – we want to go through the rest of the policies legal and local."

At another point in the meeting another school administrator said, "Is the content appropriate for the freshman? I think you and I can both agree its very very questionable. It's probably not the most appropriate."

AMERICAN OVERSIGHT

Popular payroll system targeted in ransomware attack
Marmolejos also spoke at an SISD board meeting however the book was not on the agenda.

In a previous interview with KTSM 9 News Anchor Christina Aguayo, Governor Greg Abbott talked about his order to remove pornography from schools, and launch investigations into those schools who kept in on the shelves,

Marmolejos said she would do anything to safeguard her children, even alert the governor, who signed an executive order which says pornography must be removed from public schools

"I saw the image that was in one of these books that was available for students in schools and it is clearly unequivocally pornography. There is a state law against providing pornography to anyone under the age of 18. There's a state law against providing porn to anyone under the age of 18 and that's exactly what some of these schools have done, as a result these schools have been immediately removing these books from their libraries. That's what we expect from these schools, and more importantly that's what parents expect from these schools. Parents they want their child to go school and learn not to be indoctrinated into something that would involve pornography. My job as governor and the job of education leaders in the state is to make sure we are educating our children to be competitive in the workforce not indoctrinating them with things like pornography. - Governor Greg Abbott

Socorro ISD officials tell KTSM 9 that their policy allows parents to request a formal review – after the informal inquiry that was made about this particular book. They add that the school and the district are reviewing how parents are notified about books with a graphic nature being used in class.

Analysis: Some Texas Lawmakers Are Worried About The Wrong Reading Problem
By Ross Ramsey
Texas Tribune

Texas has a problem that's bigger than the stories in the books at the school library.

If you were put on the spot and asked what needs to be done in public education in Texas, and if you were a candidate in the upcoming GOP primaries, boxing up some of the books available in schools might be the first thing on your lips. Maybe you'd also fret over subversive ideas in social studies and history texts.

But dictating what students are allowed to read depends on their ability to read in the first place. Falling test scores and learning lost to the pandemic might not light up the crowds at political rallies, but it's a bigger issue than books that offend legislators' tender sensibilities.

Election years are like that.

With any luck, you can push these debates out of mind until 2022 gets here in a couple of weeks. After that, it'll be almost impossible to ignore. It's already difficult to ignore: As of Monday, the people who'll be on the ballot have all filed their papers with the parties and the state. The regular Austin spots where pols go to raise money are bustling with check-writing lobbyists and other interested parties. Voting in the primaries starts in the third week of February. The wave of political advertising will start as soon as the holiday advertising stops.

Some voters cope by tuning everything out. Turnout in party primary elections in Texas is dismal. In 2020, a presidential election year when turnout is usually at its highest, 12.4% of registered voters showed up for the

AMERICAN OVERSIGHT

Republican primary and 12.9% voted in the Democratic primary. Most — 74.6% — didn't vote in those primaries. The numbers are even lower when you look at the whole voting age population of the state — the registered voters and the Texans who haven't registered. Less than 20% of the state's adults went to the polls two years ago.

Others cope by limiting their attention only to the candidates on their own side of the party line. That cuts the noise in half.

Some spend their attention carefully, sticking to issues that they care about and ignoring the noisy wedge issues that sometimes overwhelm political conversation and turn the public square — or the living room — into a kennel full of barking dogs.

Some candidates benefit from the barking, and from the fears stirred by whistles only their followers can hear. Besides, it's easier to get a crowd stirred up by something uncomfortable in a young adult novel than by descending scores on math tests.

Want a taste? In 2019, 48% of third graders and 56% of fifth graders met or exceeded the standard on STAAR tests in Texas public schools, according to the Texas Education Agency. In spring of 2021, 30% of third graders and 43% of fifth graders were up to standard on those tests.

Wars over the contents of books are as old as books. It would be sweet if people fought as hard over why students don't spend enough time in libraries in the first place. But content fights are better political issues, raising voter passion without risking a debate on the overall quality of education kids are getting in Texas.

Education is hard — for teachers, students, makers of policy and law, and politicians. It's easier, unless voters are unusually focused, to sway an election with a debate over books most people will never open than to sway it with a debate about STAAR reading assessments that have dropped in every single grade in Texas elementary and middle schools over the last two years.

What's written in books is only a problem for people who can read. But in Texas politics, the quality of education isn't what draws a crowd to the polls. If it was, politicians would be recommending books to read instead of pulling titles off the shelves.

Austin Chamber Of Commerce Granted $100k For Austin Employment Growth
KTBC

The Austin Chamber of Commerce has been awarded a $100,000 grant from Texas Mutual Insurance Company as part of a $2 million request for proposal that has already awarded 44 different organizations across the state.

The grant is being received through the Chamber of Commerce's 501©(3) designated organization, the Quality of Life Foundation. The foundation focuses on increasing opportunities of employment and career advancement in the Austin community.

"We're incredibly grateful to Texas Mutual for granting us the funds to progress the important work that the Chamber is doing for workforce development," Laura Huffman, president and chief executive officer of the Austin Chamber of Commerce, said.

AMERICAN OVERSIGHT

"This funding ensures our programs can focus on doing the work that is vital to this region: reducing unemployment, growing the region's talent pipeline, and seeking out more opportunities for career growth. Through these initiatives, the Austin region will continue its rapid expansion into new industries and remain a hub for job seekers and employers around the world."

The grant will help support a new platform created by the Quality of Life Foundation, the "512 Career Bridge". It will assist K-12 students, job-seeking adults, and the general public to explore in-demand jobs, attend career panels and events, and other career-related opportunities. The Foundation plans on working and engaging with local businesses, career professionals, and schools in Austin to create a diverse area of opportunity.

To view the full list of workforce development and safety training grant recipients, visit the Texas Mutual website.

UTEP Awarded $500K Grant To Grow Aerospace And Advanced Manufacturing Sectors In Region
By Chris Babcock
KTSM

As part of the initial phase of the Build Back Better Regional Challenge, the University of Texas at El Paso, along with several regional and national partners, will look to build on UTEP's success and increasing prominence in the aerospace and advanced manufacturing fields to bring more jobs and spur growth in the economy of West Texas, via a $500,000 grant from the Economic Development Administration (EDA).

Officials say the project will be managed and executed by the newly formed West Texas Aerospace and Defense Manufacturing Coalition, which is led by UTEP and includes several national and regional partners such as the City of El Paso and the El Paso Chamber.

The group proposes to catalyze economic growth in aerospace and defense manufacturing by developing the El Paso Makes Advanced Manufacturing District and the West Texas Advanced Technology Corridor.

According to officials, the aim is to create 4,000 new engineering and technologist positions and 13,000 technical positions in aerospace and defense manufacturing in West Texas by 2030. The coalition also will work to bring 300 of the region's manufacturers into aerospace and defense supply chains in that same timeframe.

The West Texas region includes El Paso, Hudspeth, Culberson, Jeff Davis, Brewster and Presidio counties.

"Aerospace and defense manufacturing represents a transformational economic development opportunity for El Paso and West Texas…As a national leader in aerospace, defense, and additive manufacturing research and development, UTEP is grateful for this U.S. Economic Development Administration grant to help develop more high-paying jobs in the region while enhancing U.S. competitiveness. We have a great foundation to build upon and we look forward to working closely with partners to plan next steps."

As finalists in the challenge, UTEP and its collaborators will now have the opportunity to strengthen their proposal and compete for an additional award of up to $100 million.

UTEP's proposal, titled "Reclaiming Aerospace and Defense Manufacturing Dominance through Frontier Technologies," aims to help close America's gap in aerospace and defense manufacturing capabilities while

AMERICAN OVERSIGHT

providing the potential for economic growth and job opportunities for UTEP students and other residents across West Texas.

Sixty projects were named finalists out of 529 applicants that submitted entries to the Build Back Better Regional Challenge in October, according to the U.S. Department of Commerce.

Each of the projects targets a sector of the economy that is specific to the applicant's geographic region.

"We have built this strategy from the strength of significant aerospace, defense and advanced manufacturing capabilities and activities that, if better connected and resourced, could make West Texas a strategic national hub for aerospace and defense manufacturing," said Ahsan Choudhuri, Ph.D., associate vice president for the Aerospace Center (cSETR) at UTEP and principal investigator for the project.

Anchoring the region's capabilities and competitive advantages are the research preeminence and talent development pipelines at UTEP's Aerospace and Keck centers. Both research centers are national leaders in supplying a diverse, industry-ready, highly skilled workforce. They are also widely regarded as leading innovators in aerospace, defense and additive manufacturing technologies.

"Being selected as a finalist is a huge accomplishment and fantastic opportunity for our region…our community's success is a direct result of a focused strategy to leverage our community's assets, such as UTEP's students and team. We are also ideally located for success due to our proximity to Fort Bliss and nearby investment in the aerospace industry. We look forward to our continued work with UTEP, the Chamber, and our other coalition partners to grow the regional aerospace and defense manufacturing industry cluster and, ultimately, advance our community's quality of life by creating jobs and investment."

The coalition has identified several core strategic manufacturing strengths in our region that will contribute to strengthening the nation's defense and industrial sectors.

These include additive manufacturing, robotics and automation, precision and high temperature machining, advanced tool and die making, and electronics. Areas of potential growth opportunity regionally are in electronics manufacturing and cybersecurity for manufacturing.

"There is vast untapped opportunity in the region for job creation in aerospace and defense manufacturing, including three military bases – Fort Bliss, White Sands Missile Range and Holloman Air Force Base," said Ryan Wicker, Ph.D., executive director of the W.M. Keck Center for 3D Innovation at UTEP, and co-principal investigator of the project. "West Texas is part of the fourth-largest manufacturing hub in the world, which also includes Juárez, Mexico, and Doña Ana County, New Mexico."

In the past decade, these research hubs have trained and placed more than 600 engineering graduates in the aerospace, defense and advanced manufacturing industries. In the 2019-20 academic year alone, Lockheed Martin hired 101 UTEP engineering students across its business units from these research centers.

Additionally, the Keck and Aerospace centers have performed agency and industry sponsored research and development work valued at more than $90 million since their inception.

"I am grateful to UTEP for their partnership in championing economic development investments," said U.S. Rep. Veronica Escobar. "I look forward to seeing how this innovative project will help get our aerospace and defense manufacturing industry to the next level."

The finalists in the Build Back Better Regional Challenge will now compete for Phase 2 funding. The deadline to submit applications for those awards is March 15, 2022

New Amazon Facility Set To Bring Economic Boom To The Coastal Bend
By Michael Gibson
KIII

The Nueces County Development Commission came together virtually to discuss the topic of Amazon's "Last Mile Facility" being built by the airport.

Work crews are busy converting the old Baker Hughes Oilfield service operations center into Amazon's "Last Mile Facility." The Nueces County Development Commission met with Amazon company officials in a virtual meeting to give county leaders the newest and latest information about the 140-thousand square foot package delivery facility.

Nueces County Judge Barbara Canales was eager to discuss the benefits that the facility will have for the local economy.

"It's going to be the largest last mile network of its kind," Canales said, "So, I think that's really great. They're going to start with 50 employees and then ramp up to 150, and the starting pay is $15.50 an hour."

Canales told 3News that Amazon also told the County that it's looking at getting packages to Corpus Christi customers faster than it's 2-day prime promise.

"We might have the opportunity for same-day delivery. That's kind of a big deal for a lot of us," Canales said.

While there aren't actually any Amazon employees currently on-site at the facility, sometime early next year the facility is supposed to be up and running.

Canales saying that once Amazon opens its facility, the county will then try and get the company to build a larger distribution center in the area like it has already done in San Antonio.

"We are going to let them move in and be happy about their presence," Canales said, "But get right to work in the concept of 'hey, we think we are ripe and primed for the distribution center.'"

Canales believes that the Corpus Christi area would be the perfect spot due to being the bridge between San Antonio and the border, especially after the I-69 corridor is completed. Canales adds that it also makes good sense for Amazon to want to be a bigger part of a growing and thriving area.

Waco Job Market 'Booming,' City Leaders Believe Central Freight Workers Won't Be Jobless Long
By Alicia Naspretto
KXXV

There's now less than a week left before Central Freight Lines ends its 96-year-run in Waco and more than 2000 employees nationwide are still struggling to process the unexpected closure.

Many showed up for work Tuesday morning and found the gate closed and security on the property.

AMERICAN OVERSIGHT

Hundreds of local workers employed at the Waco headquarters will soon be jobless, but the Greater Waco Chamber of Commerce told 25 News it doesn't expect them to be without a job for long.

"The silver lining to all of this is our economy here in Waco is just booming right now and there's lot of opportunities for those individuals to be replaced into new employment and to be reskilled if they choose to do so," Senior VP for Economic Development Kris Collins said.

The City of Waco and the mayor refused interviews with 25 News but released the following statement also boasting about the local economy.

"The job market in Waco is strong, and we feel confident with the number of new businesses and industries coming in that people will be able to find jobs. There are many industries who are interested in hiring from our Waco workforce."

Kris Collins said they knew Central Freight had struggled for a while financially, but the closure was still a shock to everyone.

"I think anytime a long-tenured employer decides to close their doors, especially abruptly like this, it tends to have a rippling effect emotionally through the community," she said. "Certainly, it's going to be impactful to those individuals and how it's going to impact their households, but hopefully that's a short-term issue they're going to face."

Collins also said the Chamber has programs to help connect those workers with open positions in the area.

25 News also called Central Freight Lines for two days, but they have not been available for comment.

Immigration/Border Security

"I Thought He Was Going To Kill Me": Migrants Say Return Of Trump-Era Border Policy Will Put Asylum Seekers In Danger
By Uriel J. Garcia
Texas Tribune

Lisbet was facing jail time in her native Cuba for questioning the integrity of an election, she said. So she and her husband sold their belongings and bought a round-trip plane ticket to Nicaragua, lying to Cuban immigration officials that they were taking a vacation.

They left their two daughters with Lisbet's mother and told their older daughter they would reunite later in another country.

After traveling through Central America and Mexico, Lisbet and her husband reached the El Paso-Ciudad Juárez international bridge in May 2019 and asked for asylum in the United States — joining thousands of other migrants who have made the same journey.

Immigration authorities sent her husband to an immigration detention center in Houston and sent Lisbet back to Juárez under a policy called the Migrant Protection Protocols, or MPP. Informally known as "remain in Mexico," the policy was aimed at deterring migrants from crossing the U.S.-Mexico border.

In Juárez, she said a Mexican police officer began harassing her, then stalking her — and later raped her so violently she had to undergo reconstructive surgery.

“I thought he was going to kill me,” she said. “All I kept thinking about was if I was going to be able to see my daughters again.”

Following a federal judge’s order, the Biden administration last week began to restart MPP, which during the Trump administration forced Lisbet and thousands of other asylum-seeking migrants to stay in Mexican border cities as their cases made their way through U.S. immigration courts.

Officials said the program would first be revived in an undisclosed border city, then migrants would be enrolled into MPP at El Paso, Laredo, Brownsville and San Diego.

Some human rights advocates, and migrants who have been placed in MPP, say reviving the program puts more migrants in danger of being targeted by criminals in Mexican border cities. Human Rights First, a New York-based organization, recorded 1,544 cases of killings, rapes and kidnappings of migrants who were forced to remain in Mexico between MPP’s launch in January 2019 and January 2021, when the Biden administration suspended the policy.

Texas Attorney General Ken Paxton joined the attorney general of Missouri to sue the Biden administration in April, claiming that suspending the policy violated administrative law. District Judge Matthew J. Kacsmaryk, a Trump appointee in Amarillo, agreed, but the administration appealed all the way up to the U.S. Supreme Court, which denied the administration’s request to temporarily pause Kacsmaryk’s ruling.

The case went back to the 5th U.S. Circuit Court of Appeals, which on Monday ruled to uphold Kacsmaryk’s ruling.

In the lawsuit, Paxton also argued that without MPP, human trafficking would increase and force the states to expend resources on migrants ─ such as providing driver’s licenses, educating migrant children and providing hospital care.

“I will continue to fight to restore safety and order along our southern border, making sure that this essential program is implemented in full compliance with the court’s order,” Paxton said in a statement.

Under the Biden administration’s version of MPP, migrants from all of the Western hemisphere can be sent into Mexico ─ previously it included migrants only from Spanish-speaking countries and Brazil. The migrants can receive a COVID-19 vaccine before immigration officials return them to Mexico.

Tami Goodlette, director of litigation for the Texas-based Refugee and Immigrant Center for Education and Legal Services, said the Biden administration “must stop fueling cruel and heartless cycles of displacement.”

“Instead of providing care and safety for migrants, the U.S. is actively choosing to create an environment of rampant danger and abuse where vulnerable people are at an increased risk of violence and exploitation,” Goodlette said.

Lisbet, 37, was one of the 71,000 people sent back to Mexico during the Trump administration, and the asylum cases of more than 25,000 migrants placed in MPP remain pending, according to the Transactional Records Access Clearinghouse at Syracuse University.

AMERICAN OVERSIGHT

TX-SOS-22-0155-B-000322

Lisbet, who asked to be identified only by her first name because her daughters are still in Cuba and she fears the government may retaliate against them, called the policy "an injustice because it's denying a human being the possibility of seeking safety."

Gabriel, a 45-year-old who was forced to stay in Juárez for a year and a half, fled Venezuela in April 2019 and requested asylum at Santa Teresa, New Mexico. Immigration officials sent him to Juárez, where he said he lived for 16 months before he was reunited with his sister in South Carolina.

Unlike Lisbet, he was able to get a work permit in Mexico and find a stable place to live. He said he felt lucky that he wasn't a victim of violence or the elements: Two boys in a migrant camp died of hypothermia while he was in Juárez, he said, and a Cuban man was shot to death in a city plaza.

"The MPP the way I lived it, was not 100% humane," said Gabriel, who asked to be identified with a pseudonym because he fears the Venezuelan government might retaliate against his two children. "A lot of the people who went through it with me felt discouraged and duped because the program didn't give them any hope."

"They couldn't do anything for me"

After Lisbet cast her ballot in Cuba's constitutional referendum in February 2019, she said she stayed near the voting booths awaiting the results instead of going back home as she'd been told. When she refused to leave, voting officials accused her of interfering in the process and called the police.

A plainclothes officer took her to a police station, where Lisbet, who was three months pregnant, insisted the vote was a sham. She said the angry officer struck her face, causing her to fall. The officer put Lisbet in a cell as she bled through her pants. She said she was denied medical care until three days later, when police took her to a hospital and a doctor told her she had lost the baby.

"I was devastated and filled with anger," Lisbet said. "My husband was scared and he said, 'If we don't leave, we're not going to be alive much longer.'"

When Lisbet and her husband reached the international bridge at the Texas-Mexico border, she said immigration officials placed them in a makeshift camp in El Paso, separating them by gender and taking away their belongings.

She was in the camp for 40 days before officials gave her a court date and then dropped Lisbet and six other asylum-seeking women in the middle of Juárez. The seven of them put their money together to rent a hotel for the night.

"We were all confused and disoriented because we were told there would be shelter and none of us knew each other," she said. "I was desperate because my husband was the one with all the money."

That night, Lisbet called relatives in Cuba. She said her brother put her in touch with a friend in the U.S., who wired Lisbet money to Juárez to buy food, clothing and lodging. Relatives also told her that her husband was in a detention center — he'd called them earlier.

Her first court date was in El Paso roughly two months later, in August 2019. After she made her case for asylum, she was sent back to Juárez, where she rented a house with other asylum-seekers. She couldn't legally work, so she said she cleaned homes and helped vendors set up food stands in exchange for food.

Between her second and third court dates, Lisbet said a Juárez police officer began to harass her, asking for sexual favors and threatening her with deportation if she refused. She said she started moving from house to house to avoid the officer.

AMERICAN OVERSIGHT
TX-SOS-22-0155-B-000323

On Oct. 17, 2019, he seized her passport after she refused his sexual advances again, she said. The following day, she said she filed a complaint with the police. The angry officer then showed up at the house where she was staying, Lisbet said, and threatened to have her killed for reporting him. She said she went to the international bridge and told the immigration officials about the officer's harassment and threats, begging to enter the U.S.

"I kept crying to them, but without any compassion, they just told me no, they couldn't do anything for me," Lisbet said.

On the night of Dec. 7, 2019, two days before her court hearing in El Paso, she was walking in an empty street alone when the officer found her and raped her.

"I was in shock," she said. "I couldn't believe the physical pain I was in. I also started to feel shame because I would have to explain to people what happened to me."

A couple found her in the street and called an ambulance, which took her to a hospital where a doctor performed reconstructive surgery to repair the damage from the attack.

She didn't want to tell her husband, who by then had been released into the U.S. and was living in Austin with a cousin. (Lisbet said they never figured out why her husband wasn't placed in MPP.)

But her husband kept asking why she had ignored his calls and text messages for three days. She finally told him what had happened.

"He started to cry a lot, he started to worry even more," she said.

Lisbet said she still hasn't told her mother and daughters about the rape. She said she doesn't have the courage.

Another chance

Recuperating in a hospital bed, Lisbet missed her court hearing — she sent her hospital records with another asylum-seeker, hoping the U.S. immigration officials wouldn't throw out her case. The woman came back with bad news: Lisbet's asylum claim was closed because she hadn't made the hearing, and immigration officials had issued a deportation order for her if she ever entered the U.S. illegally.

"I felt defeated," she said. "I thought to myself, 'I guess I'm going to have to stay here and just try to make a life for myself.'"

Lisbet said she stayed with a friend for eight months before the police officer who attacked her began to threaten the woman. Lisbet didn't want her friend to get hurt, so she went to the international bridge in July 2020 and asked to enter the country.

This time, they sent Lisbet to a detention center in El Paso, where she told an immigration officer about losing her baby in Cuba and the Juárez officer who had raped her.

"I remember him telling me, 'You can cry and throw a fit, but you're being deported back to Cuba regardless,'" Lisbet says.

A fellow detainee told Lisbet about Diocesan Migrant & Refugees Services. Marysol Castro, a staff attorney for the organization, took Lisbet's asylum claim to the Department of Justice's Board of Immigration Appeals and asked to have her case reopened.

AMERICAN OVERSIGHT

In December 2020, Lisbet was released from the detention center and went to Louisville, Kentucky, to reunite with her husband, who had moved there to live with a relative.

Three months later, Castro received a letter from the immigration board that it agreed to reopen Lisbet's asylum case.

Lisbet says it's been a tumultuous two and a half years. She and her husband don't work because they are not legally allowed to, she said. Their relative in Kentucky is supporting them.

She said she doesn't know when her case will be resolved — or when she's going to see her daughters, who are now 17 and 7.

"I feel a lot of pain and sadness of course because it's been hard," Lisbet said. "But I keep thinking if I stayed in Cuba, I could have been imprisoned and kept away from my daughters.

So what gives me hope is that now that I'm physically OK in the U.S. that I have a chance of seeing my daughters again."

Opinion/Editorial

Democrats Should Stick To Their Guns When It Comes To Firearm Safety — Even In Texas
By Erica Grieder
Houston Chronicle

Once upon a time, Democrats running for statewide office in Texas were reluctant to get crossways with Second Amendment enthusiasts in this historically gun-friendly state.

There's also been a widespread assumption among political observers that former U.S. Rep. Beto O'Rourke damaged his statewide prospects in Texas — perhaps irretrievably — when he took issue with assault weapons during his brief bid for the 2020 Democratic presidential nomination.

"Hell yes, we're going to take your AR-15, your AK-47," O'Rourke said in a September 2019 debate, hosted by Texas Southern University.

Whether you agree or disagree with that proposal, there's something quite refreshing about the El Pasoan's refusal to backpedal or flip-flop on gun safety since entering the 2022 gubernatorial race.

O'Rourke has said that he still supports a mandatory buyback program for assault weapons — a position he came to after an August 2019 massacre at an El Paso Walmart that killed 23, followed just weeks later by another mass shooting, in Midland-Odessa, that left eight dead including the shooter. Both were carried out by gunmen wielding semi-automatic rifles.

And on Monday, at a rally in Amarillo, O'Rourke went after Gov. Greg Abbott directly over the issue of permitless carry. Under a new law signed by the governor earlier this year, Texans no longer need a license — or a background check or any sort of training — to carry a handgun in public.

AMERICAN OVERSIGHT

“Whatever he might say, this governor really does not trust law enforcement,” the Democrat told a crowd of several hundred people.

The Texas sheriffs and police chiefs who opposed the permitless carry bill had, he noted, testified that over the past five years they denied some 37,000 applications for licenses to carry a handgun, after deeming the applicants too great a threat to their communities. That’s to say nothing of the people who didn’t bother to apply, because they knew they couldn’t pass the background check, he added.

“Well, now,” O’Rourke continued, “...violent criminals — at a time of rising violent crime — are in no way checked through that license-to-carry program.”

If elected, he said, he’ll seek to repeal the permitless carry law — a lofty goal, given that Republicans are likely to retain control of the Texas Legislature. But it’s also a clear-sighted statement of purpose.

Republicans, needless to say, have taken notice — and even more strikingly, they appear to be playing defense.

“Robert Francis O’Rourke wants to disarm Texans like this woman,” Abbott tweeted Monday evening, adding a link to a Fox News story about a Harris County woman who shot and killed a man during the course of an alleged attempted robbery.

“Criminals don’t care what the law is; they will carry guns anyway,” the Republican governor added.

Criminals don’t care what the law is. Indeed. That’s a profound insight, and one that should definitely serve as the basis for sound policymaking.

One wonders why we have any laws at all, much less a state penal code that includes thousands of the darn things.

One also wonders whether Abbott — a former state attorney general and Texas Supreme Court justice — is under the impression that his constituents are goldfish, and therefore unable to remember his own previous pronouncements on the subject of crime prevention.

Asked about his support of a new state law banning abortions after six weeks with no exceptions for victims of rape and incest, Abbott delivered this platitude: “Rape is a crime, and Texas will work tirelessly to make sure we eliminate all rapists from the streets of Texas by aggressively going out and arresting them and prosecuting them and getting them off the streets. So goal No. 1 in the state of Texas is to eliminate rape.”

Basically, Abbott is for law and order and the rights of crime victims except when he isn’t.

The conversation O’Rourke is insisting on, and compelling Abbott to engage with, is one that many Texans have long been hoping for.

This is, as noted, a generally gun-friendly state. But in recent years, Republicans have passed a number of far-right priorities, including permitless carry, that are opposed by a majority of Texans, according to public polls.

Meanwhile, almost all gun-safety proposals filed in recent legislative sessions have fizzled ignominiously, even as gun violence continues to end lives and traumatize communities.

On Sunday, for example, a gunman opened fire on a crowd of mourners who had gathered in Baytown for a vigil. One young mother of a special needs child was killed and 13 others were injured. The vigil was in

AMERICAN OVERSIGHT

memory of another recent murder victim. While there's not necessarily a direct line between state laws and such terrors, it would be absurd to assume they have no connection whatsoever.

Or consider the tragedy last month in Lubbock, in which Chad Read, a 54-year-old father of three, was shot to death by his ex-wife's boyfriend, Kyle Carruth, after arriving at her house to pick up his son for a court-ordered visit. Carruth has not been charged in conjunction with the killing, which his defense lawyer has called "a justifiable homicide."

The attorney general's office is investigating. But in the meantime, video of the episode, released by Read's widow, depicts a bleak reality. An altercation that could have ended in angry words instead ended in death, because one man had ready access to a deadly weapon and no qualms about using it, even though he had no need to do so.

We may be used to this grim status quo, but it's more radical than anything O'Rourke is proposing. Many forget that President Bill Clinton signed an assault weapons ban into law in 1994, though it lapsed a decade later. And while polls show O'Rourke trailing Abbott, the crowds turning out for the former congressman in places like Amarillo and Lubbock explain why the governor seems a bit uneasy.

"We trust law enforcement; we want to see greater public safety; and we want to make sure that we protect the Second Amendment as well as protecting the lives of the people in our lives," O'Rourke said, at the Amarillo event. "We can do that; we are Texans."

It's bracing to hear such candor—and confidence—from a statewide candidate.

Greg Abbott News

Gov. Abbott Asks State Agencies To 'Carefully Assess Implications' From Fed Infrastructure Act Funds
By Monica Madden
KRQE

Gov. Greg Abbott urged state agencies to think twice before accepting funds from the federal Infrastructure Investment and Jobs Act, in a letter sent out Tuesday morning.

As the federal government begins allocating funding to state and local governments, Abbott asked agency leaders to "carefully assess" the implications of federal funding agreements. Texas is set to receive about $35 billion from the infrastructure deal, according to a White House analysis.

"Should the acceptance of any federal funds hinder or needlessly constrain the state, commit the state to ongoing costs for which there is not an appropriation available, or require an agency to implement a federal policy contrary to the law or policy of this state, the agreement proposed by the federal agency should not be signed," Abbott wrote. Vance Ginn, the chief economist for the Texas Public Policy Foundation, applauded the governor's cautious approach.

"I really suggested that we look at this closely. We reject funds that are coming down if we really don't need them," he said. "If that is going to set us up for future spending in things that that state does not need, then we shouldn't have it down in that direction."

Ginn said he hopes most of the funding is earmarked as one-time expenditures. The White House provided estimates about how much each Texas sector should receive, but state agencies are still figuring out the details of how and when they can spend it.

"Whenever the state receives some sort of money from the federal government with taxpayer dollars going through the federal level, there usually will be some sort of strings attached," Ginn said. "Because we don't want to leave is what we call fiscal cliffs — where you put additional money into a certain area, and that money dries up and now you don't have the money available in the future."

U.S. Rep. Henry Cuellar, D-Laredo, said he thinks the spending outlines are "pretty straightforward" for state agencies to follow.

"It was a bipartisan bill. So, if there were any concerns, I think that our Republican friends would have brought that up or would not agree to that," Cuellar said. "…My prediction is that most the grand majority of these dollars will be accepted by the state of Texas."

AMERICAN OVERSIGHT

Some of the Biden Administrations allocation estimates for Texas include the following:

- $26.9 billion for highway programs
- $3.3 billion for public transportation expansion
- $2.9 billion for clean water improvement
- $1.2 billion for airport expansion
- $537 million for bridge repairs
- $408 million for electric vehicle charging stations
- $100 million for broadband expansion
- $53 million for wildfire protection
- $42 million for cybersecurity protection

Cuellar said Abbott's letter to state agencies was on par with his typical "hesitation when it comes to federal dollars," but emphasized the need for these investments in the state now.

"Those are things that are very basic that the state of Texas has taken advantage of and I think we should take advantage of that as soon as possible," he said. "Texas is growing our federal dollars, our state dollars — we need to do more to make sure that we get our roads paved, and create new highways in the state of Texas so our economy keeps growing."

Beto O'Rourke Lays Out His Priorities For Texas At Amarillo Rally
By Michael Cuviello
Amarillo Globe News

Beto O'Rourke returned to Amarillo for his gubernatorial campaign rally greeted by an enthusiastic crowd Monday at Sam Houston Park.

The former U.S. Congressman from El Paso who is seeking the Democratic nomination for Texas governor in 2022 visited Amarillo during several campaign stops around the region this week.

"When we decide that we are going to come together regardless of the differences that would otherwise divide us and decide that we are going to unify on the common ground before us, I believe there is no stopping what we can do," O'Rourke said.

He spoke about his experience this week with educational leaders and students from the Amarillo area and the value of education. O' Rourke said he was inspired by the personal story of student Letty Ramirez and her sacrifices to better herself, all while being a parent.

AMERICAN OVERSIGHT

“I cannot think of anything more important than ensuring that we have a job and one that pays and provides purpose in our life,” O’Rourke said to the crowd. "We have to put our money where our mouth is.”

When speaking of low salaries and the loss of teachers in education in the state, O'Rourke said we need to take better care of the people who educate our children.

On healthcare, O’Rourke said Gov. Greg Abbott and current leaders are failing to expand Medicaid, to the detriment of the citizens of Texas who have a great need for such measures. He said people should not be going broke because of a medical issue arising.

“I will expand Medicaid and bring those dollars here to get the care that we need,” O’Rourke said.

O'Rourke got some of his loudest applause when he told the crowd that, if governor, he would work to legalize marijuana, reducing needless arrests for a legal substance in many other states. He talked about how veterans who could use the drug are instead given much more dangerous opiates.

O’Rourke said common-ground issues like this go across political boundaries.

Taking shots at the current governor over his hot button stances on such issues as voting restrictions, the new current permitless carry law and denying the right to abortion.

“Thanks to this permitless carry program, there is no way to know if those carrying are criminals or not; it makes us all less safe,” O’Rourke said. “As governor, I will repeal that program.”

He said that the thousands of people that have been rejected for licensed carry now go unchecked without any type of background check.

During his speech, the right to women’s healthcare such as abortion was another of O’ Rourke’s priorities. He derided the current measures by the current governor to restrict access to women’s healthcare.

Jennifer Gregg, who attended the rally, said she was very excited to see the candidate come to the city. She said that one of her top priorities for a candidate was women’s health care.

“I really think his ideas are badly needed, especially in my field of healthcare,” Gregg said. “I like his common sense approach on guns.”

Gubernatorial candidate Beto O' Rourke addresses supporters at Sam Houston Park in Amarillo Monday.
Carole McDaniel said that she really respects that O’Rourke has come to the area multiple times and thinks his leadership is what the state needs.

AMERICAN OVERSIGHT

“This is his eighth time here," McDaniel said. “His words about education and paying teachers are essential to me. Also, let's bring Medicaid to Texas that we choose not to expand it makes no sense for our needs.”

She also said that his views on women’s healthcare and access are badly needed.

Asked earlier in the day about his stance on the Second Amendment and the misinformation about his views, O'Rourke clarified his stance.

“We’re Texans. We will defend the Second Amendment and we will also ensure that we have the kind of responsible gun ownership that protects the lives of those around us. We’re a little more than two years removed from a mass shooting in Midland-Odessa that killed eight. From another the month before that killed 23 in El Paso, we have four of the deadliest mass shootings in U.S. history, just in Texas and just in the last five years.”

Attendees of the Beto' O Rourke rally at Sam Houston Park hold signs of support Monday evening.
Emphasizing that while he believed in the right to bear arms, he said there should be checks and balances.

“I think some common-sense measures, like universal background checks, like extreme risk protection orders, and just making sure that if someone wants to carry a firearm in public that they go through training, and a background check like we used to have," he said. "But instead of doing that, our current governor has signed into law a permit-less carry bill that allows anyone, including violent criminals, to carry a loaded firearm in public without a background check. And it's why law enforcement police chiefs’ sheriffs alike were opposed to this measure because it makes us less safe at a time of the rising crime in Texas. So, let’s protect the Second Amendment and let’s do a better job of protecting the lives of those in our communities.”

When asked about the crowd response, O’Rourke said he delighted with the turnout and enthusiasm of the crowd.

“Focusing on jobs, great schools and Medicaid are not just ideas - these are good for Texas," O’ Rourke said.

Administration News

Texas Secretary Of State Talks Election Audit, Voting Bill And More With KVUE's Ashley Goudeau
KVUE

AMERICAN OVERSIGHT

Texas Secretary of State John B. Scott recently sat down with KVUE's Ashley Goudeau to talk about his appointment to the position, his goals and experience so far in the role of the state's chief election officer.

Scott was an attorney in Fort Worth prior to his appointment by Gov. Greg Abbott in late October.

"Honored, in just a simple word," he said about his appointment to the position.

The Fort Worth attorney also briefly represented former President Donald Trump in a lawsuit challenging the 2020 general election results in Pennsylvania. Scott later withdrew from the case, according to The Texas Tribune.

"They had an interesting case, set of facts, went up there and the law changed a little bit because of the Third Court of Appeals ... on an elector's clause decision, and so a lot of the ideas that might have been relevant were no longer that," Scott said about his brief stint representing Trump. "So there was kind of a change of, I guess goals, and I no longer really needed to be involved in the case."

Gov. Greg Abbott appoints Fort Worth attorney as Texas Secretary of State
Scott also spoke about his role in leading the full audit of the 2020 general election in four of the state's counties: Collin, Dallas, Harris and Tarrant. The Texas Secretary of State's Office launched the audit before Scott stepped into the role. He told Goudeau that his office was "not trying to go back" and change election results, but was instead like election processes "sitting through a test" to see if the processes in place were still functioning.

"And again, people need to understand, we're not trying to go back. There is no way to go back and change any election results," Scott said in part.

Scott previously served as deputy attorney general for civil litigation for Abbott when he served as the state attorney general. Scott oversaw all civil litigation, including over 22,000 lawsuits involving Texas, according to the governor's office. He was then appointed the first chief operating officer of the Health and Human Services Commission.

After returning to private practice, Abbott appointed him as the chair of the board for the Department of Information resources, where he developed the strategic plan for technology and security at Texas executive branch agencies and boards.

To watch the full responses on the ongoing election audit, his brief time representing the former president and other topics discussed in the 24-minute interview, check out the YouTube video here.

AMERICAN OVERSIGHT

Texas Legislature

With 31 Lawmakers Moving On, Texas Legislature Has Room To Get Redder
By Cayla Harris
San Antonio Express News

More than two dozen members of the Texas Legislature are retiring or running for a different seat next year, creating a slew of vacancies that could push both chambers to become redder and more polarized by the time lawmakers reconvene in 2023.

Many of the outgoing members are center-right or establishment politicians with years of experience, opening up seats for younger and more ideologically extreme replacements. In many cases, their districts were redrawn to strengthen the GOP's hold on the Legislature, eliminating all but a few of the battleground contests that tend to attract more moderate candidates.

Those changes, paired with new political maps that leave little opening for Democrats to gain ground in November, have laid the groundwork for an even more conservative Legislature, even as Republicans toast the 2021 legislative session as the most conservative in the state's history.

"The tides are shifting again," said state Rep. Dan Huberty, a moderate Republican from north Houston who is not seeking re-election. "You have different political leaders, and the constituency has a view of what they want. You're going to see a shift. I would assume it's going to be more conservative."

The Capitol is also poised to lose some of its longest tenured legislators to retirement, draining "a generation of policy expertise" on areas such as health care, education, agriculture and the border, said Brandon Rottinghaus, a political science professor at the University of Houston. The average tenure of the departing members is 13 years.

Still, it's not unusual for a mass reshuffling after a redistricting cycle, the once-a-decade process of redrawing the state's political maps. In some cases, the new maps make re-election harder for incumbents, either by drawing them out of their districts or changing the political lean. In others, the changes could open up new opportunities for sitting representatives to run for higher office.

Twenty-five representatives in the 150-member Texas House don't plan to return next year, a total that was solidified Monday, the deadline for candidates to file for the March primaries. Two incumbent Democrats are also facing off against each other in the same district, and only one of them can come back.

In the Senate, the more reliably conservative chamber, just one member is seeking a higher office. Four members plan to retire, including the chamber's most moderate members on both sides of the aisle — Sen. Eddie Lucio, a Brownsville Democrat, and Republican Sens. Kel Seliger of Amarillo and Larry Taylor of Friendswood.

AMERICAN OVERSIGHT

In all, 31 members definitely won't return to the Capitol in 2023, and that list could grow if sitting members lose their primary or general election contests. Following the 2012 elections, after the last redistricting cycle, the final total was 49.

Redistricting fuels polarization

In both chambers, redistricting shored up GOP support across the state, making it likely that even more Republicans will head to Austin for the 2023 legislative session.

Republicans currently hold 18 seats in the 31-member Senate, and that could grow after next year's general election. Former president Donald Trump carried 16 state Senate districts in 2020, but the new map would increase that total to 19.

It's the same story in the House, where Republicans currently hold 85 seats. Trump secured 76 of those districts last year, but he would have won 85 of them under the new setup.

"This cycle will shape Texas politics as much as any other we've seen in the past decade," Rottinghaus said. "The effect will be profound on the legislative process. I think the balance of power will lead to Republicans having a lot more control, because they're able to develop and harness the authority of leadership."

The new vacancies have also created a field for more ideologically extreme members to run for office — a trend seen nationwide as both state and national politics become increasingly polarized, and as money floods to those candidates, said Jennifer Clark, a political science professor at the University of Houston.

"It seems that increasingly moderate members are being sidelined and not stepping up and running for these seats," she said. "And then this is self-reinforcing, of course, because then we see growing polarization and even more of a reluctance on the part of moderates to enter into these races."

Moderates depart the House

In 2011, Huberty was one of 37 mostly Republican freshmen in the Texas House — a mix of conservatives and moderates who rode the tea party wave into office, including three members who had served in the House previously, lost their seats and then gained them back that year.

By 2023, few of the moderate new members elected from that class will remain, with most of the remaining holdouts — including Huberty, John Frullo of Lubbock, Lyle Larson of San Antonio and Jim Murphy of Houston — declining to seek re-election next year.

Huberty rejected the idea that moderate Republicans are leaving Austin because they are fed up with the direction of the Legislature or are being pushed out by more conserative members.

AMERICAN OVERSIGHT

“It's just the nature of the business,” Huberty said. “The average tenure of a state rep is about five years. It’s like a running back in the NFL: it doesn't last very long. I don't see anything that's a cause-and-effect, like, 'Oh my god, everything's gone so far to the right, I just don't want to do it anymore.'”

The 2023 session would be far from the first time the Legislature’s makeup has shifted to the right. But when that has happened in recent years, the more conservative freshmen were largely constrained by House leadership, led by former speaker Joe Straus, a moderate Republican from San Antonio. The current speaker, state Rep. Dade Phelan of Beaumont, rarely stood in the way of conservative priorities during his first year wielding the gavel.

“The speaker is definitely not Joe Straus in terms of his ideology,” said Jon Taylor, a political science professor at the University of Texas at San Antonio. “He’s much more conservative ... He's not as conservative, obviously, as (Lt. Gov.) Dan Patrick, but nonetheless more conservative. So, I think you'll see a push by those more on the right side of the Republican Party in the Legislature next session.”

State Rep. Mayes Middleton, a Wallisville Republican who chairs the conservative House Freedom Caucus, praised the “awesome” slate of GOP candidates running for the Texas House this cycle.

“I've talked with a lot of them,” Middleton said. “They have the fire in the belly that it takes to go fight for our shared conservative values and make sure these policies get across the finish line.”

Middleton, one of the most conservative members of the Texas House, is now running for a vacant state Senate seat with Patrick’s endorsement.

The direction of the Legislature has also prompted some House Democrats to call it quits, though it’s unclear if they will be replaced by more progressive members.

One of the departing Democrats, state Rep. Ina Minjarez of San Antonio, said she decided to forego re-election and run for Bexar County judge in part because she was fed up with the Legislature’s hard-right turn — a trend she expects will continue next session.

“We're not working on the issues, on the policies that really make the quality of life better for people in this state,” Minjarez said. “To me, it's become nothing but a bunch of rhetoric and a bunch of political games.”

Senate drifting further right

In the Senate, Lucio’s seat could be the sole competitive race next year. The other open districts are solidly Republican, and those who are likely to replace the outgoing

AMERICAN OVERSIGHT

members are ideologically further right than their predecessors — or are, at least, closely allied with Patrick, the leader of the upper chamber.

Seliger was known for frequent fallouts with Patrick, defying him at times and blocking passage of priority bills. But state Rep. Phil King, the Weatherford Republican vying to replace him, has already earned Patrick's stamp of approval.

Taylor, one of the most moderate members of the Senate, is also poised to be replaced by a more conservative successor. Those running to replace him include Middleton and Robin Armstrong, a physician backed by Attorney General Ken Paxton, a tea party favorite. (Armstrong gained attention last year when he controversially administered hydroxychloroquine to COVID-19 patients at the Texas City nursing home where he works.)

It's difficult to say whether ideological shifts in the Senate may help pass some conservative legislation that had failed this year, like a ban on COVID vaccine mandates, Seliger said. Those who replace outgoing GOP members will also be Republicans who share many of the same values as their predecessors — and some could dissent behind closed doors, he said.

"The things that go all the way through are the things approved by the lieutenant governor," he said. "That will not change."

[BACK TO TOP]

State News

The Newest Texans Are Not Who You Think They Are
By Tom Foster
Texas Monthly

hat an attractive crowd!" cheered Fredrik Eklund, the Swedish-born celebrity real estate broker who stars on the hit Bravo reality show Million Dollar Listing. He stood on the patio of a newly built home in Tarrytown, the tony neighborhood that hugs the shores of Lake Austin, addressing the local brokers who were packed into the yard. It was the launch party for the Austin branch of Douglas Elliman, a brokerage famous in New York and California for selling luxury homes and high-rise condos.

Eklund, who wore a double-breasted navy linen jacket, snug-fitting white slacks, and sockless dress shoes, seemed a little surprised that the crowd had matched him ankle for stylish ankle, but he didn't linger on it. Speeches had to be made, toasts given, and then he'd board a plane for Miami first thing in the morning, after fewer than 24 hours in the Texas capital. For the moment, his job was simply to be seen, to lend some sizzle to the occasion. Not only was Elliman moving in on Texas real estate, it had brought its biggest gun, Eklund, one of the country's top real estate brokers, who also happens to be a bona fide TV star.

AMERICAN OVERSIGHT

Not that Austin—or this house—needed any help in the sizzle category. The three-story brick-and-shingle mansion had sold in two days for considerably more than its $16.25 million asking price, to an out-of-town buyer whose identity was confidential (but who was rumored to be to an entrepreneur from Los Angeles). During the party, celebrated interior designer Fern Santini glided from room to room in a silk Pucci caftan aswirl with soft pinks and yellows, showing off the many style innovations she'd brought to the home, which was sold fully furnished. Brass mesh paneling encircled a spiral staircase. Blue-and-gold cowhide carpeted the ceiling of the third-floor man cave. Outside on the meticulous lawn, a bearded bartender wore pointy boots with skinny black jeans and a flat-brim Stetson. This was rootsy old Austin taken to its most glamorous—or, depending on your perspective, its most absurd—conclusion.

Eklund has built his New York–based Elliman subsidiary, the Eklund Gomes Team, around what he calls the "golden triangle" of U.S. real estate: New York, Miami, and L.A. But as he and his partners got wind of Texas's booming population and economy in recent years, they started planning to expand here—to Houston, Austin, and Dallas, another kind of golden triangle. As he would tell me later, "I was in Beverly Hills yesterday, and Texas real estate was the only thing anyone wanted to talk to me about."

In the black-lacquered Tarrytown kitchen, I spoke to a visitor from California who suggested the reality was a little more complicated. "Nobody's actually moving here," he said, smiling conspiratorially. "Nobody's leaving L.A. They're looking for a tax shelter or something."

He was exaggerating, of course. For one thing, a string of high-profile corporate relocations from California had grabbed headlines (Charles Schwab to Denton County, Hewlett Packard Enterprise to Houston, Oracle to Austin), and the Elliman team had spent the day meeting with Texas economic development officials in the governor's office. Eklund's publicist, Alexander Ali, noted that Elliman was especially excited about the arrival of Tesla, which is in the process of building what it's calling its Gigafactory near the Austin airport—a structure the size of 165 football fields that would theoretically create 15,000 jobs. Ali suggested that a few high-profile celebrities who'd moved from the West Coast were inspiring others. "Elon Musk and Joe Rogan have such cult followings," he said. "And when celebrities move, people pay attention."

And then he leaned in close again and confided that he wasn't sure this whole scene was entirely welcome. "Does the community not love it?" he asked.

In fact, breakneck growth in recent years has stirred up all sorts of conflicts across the city, much as it has elsewhere in the state, which is perhaps why Ali made certain to explain that this evening's party was also a benefit for the Health Alliance for Austin Musicians.

Later that night, at an after-party downtown in a dimly lit cocktail bar called the Roosevelt Room, the waitstaff tried in vain to enforce the establishment's mask mandate

AMERICAN OVERSIGHT

while huddles of partygoers talked about the challenges and rewards of surfing this real estate wave. One Dallas agent told me there are simply too many faux chateaus in Big D and not enough contemporary homes to suit the tastes of newcomers. In Austin, developers can't build high-rise condos fast enough. In Houston, buyers from abroad—the United Arab Emirates, China, parts of post-Brexit Europe—are scooping up many of the high-end properties.

At the after-party, I also met U.S. congressman John Carter, a former Williamson County district court judge who's been a law-and-order, free-market Republican representing Round Rock and the other far-northern suburbs of Austin since 2003. Carter was talking with a circle of real estate developers, including an executive from the Related Companies—one of the largest commercial developers in the country, responsible for Manhattan's Hudson Yards and similar megaprojects in London, Abu Dhabi, and beyond. Though he hadn't made it out to Tarrytown for the open house ("Sheesh," he said when I mentioned the sale price), Carter had met the Elliman team as part of the firm's goodwill tour. "I think they're creating enthusiasm," he said. "They realize they don't want to change what makes us a great place to be, so let's hope they don't. We still want to be Central Texas." And how might one do that? "Be cautious," he said.

Of course, nothing about the evening—or the pace of the state's growth—seemed especially cautious.

The Big Picture

The Texas population grew by about four million people in the past decade—far more than any other state in raw numbers, and enough as a percentage to make it the third-fastest-growing state in the nation over that period, behind Utah and Idaho. Roughly 3,800 more people move here every week than move out of state. Tick down any list of the fastest-growing cities in the country, and Texas shows up again and again. Fort Worth, Austin, and San Antonio all landed on the list of cities with a population gain of at least 100,000 over the past decade, according to the U.S. Census Bureau, which released its latest data in August. Frisco easily topped the list of large cities, followed by a lot of other suburbs and exurbs, such as New Braunfels, McKinney, and Conroe.

You get the idea: the Texas population is booming.

That growth, of course, has come with plenty of hand-wringing about everything from an overheated housing market to fears of a hostile takeover by liberal coastal elites. News headlines have stoked those worries in the past two years. And then there was Greg Abbott's 2018 campaign slogan: "Don't California My Texas." But perhaps unsurprisingly, partisans may have it wrong.

For one thing, despite all the public focus on Californication, there are intriguing signs that many of the newest arrivals share key characteristics with lifelong Texans. Many are coming for abundant jobs, lower taxes, fewer regulations, and a more reasonable cost of living (which may be hard to believe for Texan buyers and renters fretting over the housing market but is a fact).

AMERICAN OVERSIGHT

The Great Migration, by the Numbers
It's also worth noting that people moving from elsewhere make up only about half of Texas's population growth; the other half comes from births outpacing deaths. Of the people moving here, about 40 percent come from other countries and 60 percent from other states—though that balance has tipped back and forth a few times in recent years. Californians are hardly the full story.

Perhaps the most surprising Texas statistic that landed with the latest census: those of Hispanic or Latino origin, Asians, and members of other racial and ethnic minority groups made up about 95 percent of the population growth from 2010 to 2020. (95 percent!) That's 3.8 million new non-Anglos in Texas, compared with about 200,000 non-Hispanic whites. Rogelio Saenz, a demographer at the University of Texas at San Antonio and a native of the Rio Grande Valley, has a memorable way of driving that statistic home. "Essentially, that means we added the equivalent of the cities of Houston and San Antonio in [non-Anglos]," he told me. "And we added the city of Brownsville in [non-Hispanic whites]."

The census revealed just how close Hispanic Texans are to becoming a plurality. When it was published, they constituted 39.3 percent of the population, whereas non-Hispanic whites constituted 39.8 percent. That threshold will be crossed any day now, and by 2050, less than 30 percent of Texans will be non-Hispanic white.

Hispanic Texans, however, are not the fastest-growing ethnic group in the state. That honor goes to Asian Texans. While the proportion of Asians in the state remains just 5.4 percent, the group has gained nearly three times as many new members as Anglo Texans have over the past decade. Whereas Texas gained 187,252 non-Hispanic whites in that period, it gained 613,092 Asians. In some areas of Denton and Collin counties, north of Dallas, or Fort Bend County, just southwest of Houston, Asian immigrants are the driving force of growth.

Whatever their ethnicities, Californians are coming to Texas in much higher numbers than are migrants from any other state. In 2019 about 42 percent of net domestic immigrants came from California. For all the hyperventilating about Californians ruining certain Texas cities, however, the fastest-growing parts of the state owe much of their growth to Texans shuffling around from city to city. In fact, a primary reason Texas is growing so fast is that we tend to stick around as compared to natives of other states, meaning there's less out-migration to offset the in-migration. About 82 percent of people born in Texas still live here, making it the so-called stickiest state in the country.

Bill Fulton, director of the Kinder Institute for Urban Research at Rice University, in Houston, points out that "basically all the population growth is in the Texas Triangle," the relatively tight space defined by the Dallas–Fort Worth, Houston, and Austin–San Antonio regions. He recently wrote a book with former San Antonio mayor Henry Cisneros, "and we found that the Texas Triangle favorably compared to virtually all other

AMERICAN OVERSIGHT

mega-regions in the U.S., including Southern California and the Northeast Corridor. It is a true economic powerhouse."

That's just one of the ways Texas's population growth is changing the landscape. In the booming cities, Fulton points out, the influx of a young professional class has led to a flowering of high-rise and mid-rise apartment buildings, as well as multiunit home lots. At the same time, suburbs have become more diverse than they were in the days of white flight from urban neighborhoods, in the sixties, in part because today gentrifying city neighborhoods are edging out non-white residents. Rural and small-town Texas, meanwhile, is shrinking. In fact, 142 of the state's 254 counties are declining in population, some of them precipitously. Schleicher County, between San Angelo and Sonora, lost 29 percent of its population in ten years, the steepest drop in the state.

The diversification of the suburbs could fundamentally alter the political map by changing reliable Republican standbys to perennial toss-ups. Dying small towns carry less electoral weight. Gerrymandering of districts, now pursued as avidly by Republicans as it once was by Democrats, will continue to redraw electoral maps to maintain the current political order. But at some point, likely soon, the old assumptions will simply no longer hold true, and the keys to winning Texas will change.

The continued growth of the Texas economy, meanwhile, will increasingly rely on newcomers from other states and countries—to both provide jobs and fill them. In turn, pressure will mount for Texas to better educate and train its homegrown workforce to remain competitive, especially as our population ages. Dramatic shifts in the economic and cultural landscape of the U.S.—as well as in Texas itself—have landed the Lone Star State an opportunity to lead the country into the future. Figuring out how to respond requires understanding the forces that brought us here.

The Growth Propellant

Half an hour's drive southwest of Killeen, within sight of U.S. 183, a patch of prairie has been blasted into a barren crater by eruptions of highly refined kerosene and liquid oxygen that combust and emerge as a torrent of fire from a tangle of tubes and wires—the guts of a rocket engine test model—with such violence that the technicians in charge must watch from a control center eight hundred yards away.

Here, at the edge of the unincorporated Central Texas community of Briggs, which has a population of about 430, is where Tom Markusic met me on a blazing hot afternoon. He's the CEO and founder of Firefly Aerospace, a company that builds rockets to take satellites to space and ultimately, he hopes, to ferry supplies to the moon and other celestial bodies. The company recently won a $93.3 million contract with NASA to construct a lunar lander, and it has built a simulated moonscape here in Briggs, alongside the test-firing field and a small rocket factory.

Markusic, who worked for NASA, SpaceX, Blue Origin, and Virgin Galactic before launching Firefly in 2014, chose Texas for his company's headquarters in part because he knew nobody would get in his way. It's the same reason Jeff Bezos tests and launches his

AMERICAN OVERSIGHT

rockets near Van Horn, and Elon Musk launches his in Boca Chica. “There’s a different view of property ownership in Texas,” Markusic told me as we settled down in a dark conference room inside one of the factory buildings. “There’s a clear cultural expectation that your land is [yours] to do with as you choose—within the confines of the prevailing zoning and such, of course. So, the neat thing is, so long as you are a good neighbor, people leave you alone and let you do what you need to do.”

“Time is our most precious commodity,” Tom Markusic explained, “and we can move a lot faster here in Texas.”

In particular, Markusic explained, he needed the freedom to act fast. Firefly, which was valued at more than $1 billion earlier this year and plans to grow its workforce from roughly three hundred at the start of 2021 to nearly a thousand by the end of 2023, competes with some of the world’s most deep-pocketed and aggressive entrepreneurs. “Time is our most precious commodity,” Markusic explained, “and we can move a lot faster here in Texas.” In other states, he said, “you’re almost working from a position of presumed guilt, and then you have to prove you’re not doing anything wrong. In Texas, it’s set up to presume that you’re not breaking the law. That allows us to operate our site without extensive permitting. The only permitting that’s required at this site right now that I’m aware of is our septic.” The company has to abide by state and federal environmental laws, he added, but there were no bureaucratic approvals to secure before his team could start firing up the rocket blaster.

He compared that to a previous experience when he was building a test facility for Virgin in California: “When we went in to get the permitting, they wanted to classify it as a power plant. And you can imagine if you want to build a power plant, that’s going to be a tough permitting slog. It was just a silly, one-size-fits-all way of thinking.”

His comments echo those of several high-profile recent California defectors, including Musk, who told the Wall Street Journal last December, upon announcing his move to Texas, that he wished California would “just get out of the way” of innovators. That was a couple of weeks after Joe Lonsdale, an influential venture capitalist and cofounder of big-data contractor Palantir, explained his move to Austin from Silicon Valley, also in the WSJ. “Forty years ago . . . you could accomplish anything in the Golden State,” Lonsdale wrote in an op-ed that quickly went viral. “Government policy facilitated the entrepreneurial spirit. Dreamers and doers could thrive. The burst of activity in tech, finance, medicine, energy and many other industries lasted for decades. But now a state like Texas provides these opportunities without the problems and baggage California has accumulated.”
Just a few years ago, calling Texas more fertile for innovators than Silicon Valley would have raised more than a few eyebrows among the entrepreneurial elite. Texas is home to fifty Fortune 500 companies, sure, and its GDP is nearly $2 trillion, more than that of any state not named California. But the future was being built elsewhere—specifically the West Coast. Now that has changed, and the pandemic hastened the shift. In Musk’s case, legal battles with officials over COVID-19 restrictions at Tesla’s Fremont, California,

AMERICAN OVERSIGHT

factory were a clear catalyst for the company's eventual announcement, this October, that it would be moving its headquarters to Austin.

Of course, wealthy moguls and investors also stand to reap handsome personal financial benefits by setting up in Texas. The state famously doesn't charge income tax (though high property taxes make up the difference for a lot of homeowners). More importantly for the investor class, Texas doesn't charge capital gains tax. California's personal-income tax, by comparison, is the highest in the U.S., at 13.3 percent for sums of more than $1 million a year. The capital gains rate is similar.

And then there are the corporate incentives. Texas has long been known for luring companies away from other states with generous packages containing various tax breaks. Tesla recently negotiated a tax break worth nearly $60 million over 10 years to build its Gigafactory in Del Valle, in exchange for investing $1.1 billion in the plant and vowing to hire at least half of its expected employees from Travis County. At the time of this writing, Samsung was negotiating with Williamson County and the City of Taylor to build a potential $17 billion chipmaking plant there. The South Korean electronics giant had rejected an initial offer from the City of Austin that included almost $650 million in incentives over 10 years; the company wanted a 100 percent tax abatement for 25 years.

Whether economic incentives for business relocation come from a city, a county, or the state's Texas Enterprise Fund (former governor Rick Perry's legacy), they're almost always controversial, with opponents pointing out all the ways they can strain existing infrastructure—roads, water, schools, the electric grid—and end up costing a community as much as it gives away in incentives. The math of whether a deal ends up benefiting a community can be endlessly debated, though. Proponents argue that landing a big corporate relocation spurs investment in communities and creates jobs (though Perry also had terrific luck getting donations from a source tied to the companies his administration locked in with incentives, as a New York Times investigation famously found). A new plant like Tesla's or Samsung's will ideally lead to local home construction, investment in the local service economy, and eventual relocation of suppliers.

"HP Enterprise, Google, all these technology-based companies cannot meet their workforce demands with the current Texas workforce," said Steven Pedigo. "It just doesn't happen."

Regardless of how the math of individual economic development deals stacks up, virtually everyone agrees there's value in diversifying the state's economy. Though Texas relies a lot less on oil and gas than it did a few decades ago, fossil fuels still represent one of the largest sectors of the economy and the dominant one in the state's largest city, Houston. This puts the state at risk as the energy industry transitions away from petroleum. As Rice's Bill Fulton put it, "Houston is at a critical juncture right now. The business leaders have to get out in front to the energy transition so we remain the energy capital of the world but not the fossil fuel capital." Failing to make that shift, he said, would make Houston "the next Detroit." While Texas has, in recent years, added jobs in software development and cloud computing, those gains have been outpaced,

AMERICAN OVERSIGHT

sometimes drastically, by those in California and other states. Which only underscores the urgency many local leaders feel.

Even Firefly wrangled roughly $1.2 million in incentives from the City of Cedar Park when it established its headquarters there, back in 2014, and earlier this year it picked up an additional $4.3 million in incentives. That package, in addition to paying the company for each job it creates (and for purchasing and renovating a building), shells out $10,000 in cash directly to each employee who buys a home in Cedar Park. In return, Firefly pledged to create nearly seven hundred jobs in the area, with an average salary of $90,000, by the year 2030.

That sounds like a big benefit, but there's a catch, not just in Cedar Park but all across Texas: companies that relocate and expand here find it tough to hire Texans to fill many of the kinds of jobs that require the most education, expertise, and experience. "We haven't done a very good job of educating our workforce," said Steven Pedigo, at the University of Texas at Austin's LBJ Urban Lab. Those who come to Texas from other states are more likely to have college degrees than native Texans. "HP Enterprise, Google, all these technology-based companies cannot meet their workforce demands with the current Texas workforce. It just doesn't happen."

Which raises a question: If not Texans, who exactly is filling all those new jobs?

The Art of the Suburb

The immaculate streets of Frisco, in the far northern reaches of metro Dallas, nearly sparkled under a cloudless sky. It was a Thursday morning, and Dana Baird, a former Dallas TV news reporter who's now the City of Frisco's director of communications, piloted her Honda SUV from one commercial development to another, tracing the history of one of the fastest-growing cities in the country. First up was the Stonebriar Centre ("Our first economic engine," Baird said). Then the Frisco RoughRiders minor league ballpark ("Our first sports venue—the convention and visitors bureau now calls us Sports City USA"). Then the Ikea, the headquarters of the Dallas Stars National Hockey League team, the sprawling Hall office park, the stadium and practice facility of the FC Dallas professional soccer team, and ultimately, the pièce de résistance: the Star District, the gleaming headquarters of the Dallas Cowboys and surrounding office buildings, restaurants, shops, and other amenities.

It was 1987 when Baird's boss, city manager George Purefoy, settled into his job leading Frisco's development. A native of Mineral Wells, he'd been the city manager in Columbus, a hamlet that abuts Interstate 10 between Houston and San Antonio, when he decided it was time to level up and head somewhere with more growth potential. "I took out a map one night, and for some reason I followed Preston Road up through the Metroplex, because it was kind of a growth corridor, and it came up to Frisco," he told me. At that time, it had around five thousand residents and was essentially still a small rail town. But Purefoy saw it as a kind of suburban start-up, a little old place that could eventually grow into something altogether different. "So, I thought, 'If the city manager

AMERICAN OVERSIGHT

job ever opens up there, I'll apply.' And that night my wife and I prayed on it, and not one week later I got a call from the City of Frisco asking me to apply."

A soft-spoken, throwback gentleman who brings to mind Ward Cleaver, Purefoy became the first and only city manager Frisco has ever had—though he likes to joke that he's had an entirely different job every five years as the city has ballooned. Today's Frisco population of around 200,000 is almost double that of a decade ago, and the city projects it will reach 300,000 in the next five years or so.

There are a few keys to the success of Frisco. For one thing, abundant land and the expectation of growth: even before Purefoy showed up, city leaders had annexed land on both sides of multiple roads that stretched out from the center of town, creating what he calls "octopus arms" that would come to frame the area's eventual sprawl. Among Purefoy's first acts was securing an abundant water supply for the town and cleaning up the finances. He was essentially laying a foundation on which to replicate or improve on what the city of Plano, just south across the Sam Rayburn Tollway, had begun building a few decades prior.

Perhaps most important to Frisco was the counterintuitive fact that Dallas Area Rapid Transit (DART), the metro area's commuter light-rail system, did not extend past Plano. Whereas the communities served by DART have to dedicate a one percent sales tax to the rail system, Frisco voters elected to use that same cut of money to incentivize businesses to move in and also to buy land for parks and other amenities. The result is that entertainment is so plentiful that many Frisco residents have little reason to leave. The city is less a bedroom community for Dallas than a thriving place all its own that just happens to be adjacent to one of the largest cities in the U.S.

In economic development circles, Frisco is known for its mastery of public-private partnerships. To help build the Star District, for instance, the city, its economic and community development corporations, and Frisco Independent School District kicked in a collective $115 million, and in return Frisco's high school football and soccer players get to use the Cowboys' spectacular indoor stadium. The whole deal came together in three months, Baird told me—lightning speed for a giant commercial development on prime property in a city center. The same strategy built Toyota Stadium, which FC Dallas shares with the high schools.

"We're basically a city of immigrants," George Purefoy said, "either from within the United States or from outside the United States."

The result is a town that regularly lands on the lists of best places to live and best places to do business in America—which in turn helps it stay on the lists of fastest-growing places. And it's not all strip malls and subdivisions. Frisco has the second-largest skate park in Texas, after Houston; the largest private collection of contemporary Texas sculpture; and one of the largest collections of historic train cars in the Southwest.

AMERICAN OVERSIGHT

It's not slowing down anytime soon. Earlier this year the military-grade eyeglass maker Wiley X announced it was coming to Frisco from Livermore, California, and that it hoped to bring its one hundred employees along. In 2019 iconic Texas brand Dr Pepper announced it would move its headquarters from Plano to the Star. The Professional Golfers' Association of America announced in 2018 that it would move from Palm Beach County, Florida, to Frisco. The smoothie company Jamba moved there in 2016. The list goes on.

The competition for corporate relocations or expansions can be a full-contact sport among cities—sometimes even adjacent ones—but the effects often ripple out. Though Frisco lost out on one of the greatest economic development deals in the area's history—neighboring Plano landed Toyota's North American headquarters, which was relocating from Southern California—the runner-up still managed to reap the benefits. The carmaker's campus, which opened in 2017, sits at the northwest corner of Plano, close to residential areas of Frisco. Baird remembers running a trade booth back when Toyota employees were starting to explore the area and the company had set up a kind of relocation bazaar at a hotel. Because Frisco had so many new neighborhoods sprouting up, thousands of Toyota employees ended up settling there, leading to rumors of whole neighborhoods being colonized by transplanted Californians. Today, the median household income is about $127,000—more than double the number for Texas overall—and the median home value is about $400,000.

When I asked Baird whether residents of Frisco ever grouse about all the growth and newcomers, she looked at me sideways. Purefoy pointed out that in a place whose population is almost entirely newcomers, it would be hard to look askance at other fresh arrivals. "We're basically a city of immigrants," he said, "either from within the United States or from outside the United States."

Sunitha Cheruvu, who helped lead an effort to build a Hindu temple in Frisco.

The New Face of Immigration

If the city that George Purefoy built is a triumph of capitalism and Texas's natural inclination toward sprawl, it is also a marvel of something more surprising: the diversification of the suburbs in terms of race, ethnicity, and national origin.

According to the 2020 census, Texas is now the fifth-most diverse state in the country, just ahead of New Jersey and New York. (At the top of the list: Hawaii and California.) And in the major metro areas, the census showed a clear pattern of cities with static diversity levels abutting suburban counties where diversity is surging. One measure of diversity is the census-calculated Diversity Index, which demonstrates the likelihood that any two people in a community will represent different ethnic or racial groups. In Dallas County, the Diversity Index grew by just 2 percent from 2010 to 2020. In Collin County, which includes part of Frisco, that number grew by 19.8 percent.

In Frisco, the largest and fastest-growing minority group is Asian Americans, who make up nearly 21 percent of the city's population. Some 14 percent of the surrounding

AMERICAN OVERSIGHT

county's population traces its origins to India, with those hailing from South Korea, Japan, and China making up much of the rest. Many are new not just to the North Dallas suburbs but to the U.S. Nearly 23 percent of Frisco residents were born in another country.

Anamika Mukherjee, a preschool teacher, was born in India and moved to Frisco five years ago, after her husband's job had taken them to California, Connecticut, Brazil, and, finally, North Texas. She told me that Frisco sometimes reminds her of Little India, a famously large ethnic enclave in New Jersey that she and her husband used to visit when they lived in Connecticut. "I have three Indian stores within easy reach of my house," she said, "and you can find every single thing you might want."

She can thank, at least in part, Sunitha Cheruvu. Born in southern India, in the state of Andhra Pradesh, Cheruvu grew up in New York and New Jersey. After she met her husband, who is from Texas, she moved with him to Plano. They were happy, but as practicing Hindus they had to travel more than thirty minutes to worship at a temple in Irving.

She and members of five other families from the area joined forces to build a temple nearer to their homes, and in 2009 they ended up buying a piece of land in Frisco, on the site of a former gardening company. They gathered in a small trailer while their first permanent building was under construction. And then, in 2015, they opened a second, larger, gleaming ivory structure that they believe is the largest Hindu worship hall in the nation, at 34,000 square feet.

Cheruvu now lives, along with many other members of her faith, in the Eldorado Crossing neighborhood, in a two-story brick-facade home whose backyard fence adjoins what's now called the Karya Siddhi Hanuman Temple. "I can look out my window and see the rajagopuram," she told me, referring to the temple's ornate entrance tower, which rises seventy feet between two large elephant statues. "It's beautiful during sunrise and sunset."

In fact, all throughout Frisco, the suburban shopping centers and green spaces show signs of diversity, such as Korean dessert shops and Taiwanese teahouses. The Frisco school district recently introduced a three-week cricket unit as part of the PE curriculum. The student body at Roach Middle School, near the Hanuman Temple, is 37 percent non-Hispanic white, 28 percent Asian, 18 percent Black, 11 percent Hispanic, and 6 percent of a category that includes American Indian, Pacific Islander, and two or more races. At McSpedden Elementary, just down the road, 68 percent of the students are Asian. A few miles away in Plano, Russell Creek Park is the only park in North America to boast seven cricket pitches.

In 2019 Cheruvu helped start the City of Frisco's Inclusion Committee, of which she's the vice chair. The committee has polled residents about issues regarding diversity and inclusivity, and it has spearheaded events such as the first official city celebrations of Diwali, Kwanzaa, and Lunar New Year.

AMERICAN OVERSIGHT

All of which has given Frisco a reputation far beyond the state's borders. As a Dallas Morning News story put it, shortly before the temple's opening, "Young parents in India know Frisco is the place to raise a family." The story cited DFW-based tech companies as part of the allure but credited word of mouth as the greater force. Cheruvu told me the same thing. A week after the temple opened, it hosted a livestreamed chant marathon for nearly eight hundred that lasted more than 24 hours and set a Guinness World Record.

To demographers who study Texas, the story of Indian Frisco is both fascinating and no great surprise: fascinating because it's such a transformation from just one or two census cycles ago, and no great surprise because Frisco is hardly the only place in Texas to see the trend.

The call-and-response continued: It is even harder . . . to make . . . a new home . . . Everything is new . . . Everything is strange.

It was a few minutes before the lunch bell in Johnny Rios's English language arts class at the Language Institute for Newcomers, a specialty school in an annex building that connects two adjacent high school campuses in the Alief Independent School District, which straddles the city limits of Houston on its southwest side. The fifteen teenagers in this class—seven Hondurans, four Guatemalans, three Salvadorans, and one Nicaraguan—attended LINC because they were new to the U.S., and some had no experience with English. They were reading Growing Together, by the Cuban American children's book author Carmen Agra Deedy.

LINC, which was established in 2003, typically serves about three hundred students. They complete a one- or two-year program, depending on how much help they need (some come with no schooling background whatsoever), after which they join the rest of the student body at one of the district's high schools: Elsik or Hastings right next door, or a third school a couple of blocks away. Together, the three serve an astounding 11,200 students.

Much has been made in recent years in the national media about the diversity of Houston, and no place showcases it better than Alief. A mostly lower-income area, Alief is one of the country's most diverse communities. Unlike that of Frisco, Alief's population of roughly 113,000 doesn't fluctuate much, but every year droves of newcomers land here, as others who are more established disperse to the wider region. To drive through Alief is to tour the world—Vietnamese stores on this block, Chinese stores on the next, followed by Salvadoran shops, Mexican shops, Nigerian shops, and on and on. The distinctive rooflines of mosques and Buddhist temples punctuate the horizon.

In her twelve years working for Alief ISD, first as a teacher and now as the ESL department chair for LINC, Dulce Segovia has seen wave after wave of migrants from different parts of the world. There were the hundreds of Burmese students who showed up six years ago. Four years ago, there was a surge of unaccompanied boys from Central America. Today the district is expecting hundreds of Afghan refugees any day, many of

AMERICAN OVERSIGHT

them kids. “For me, this is very raw and real, because I went through the same thing forty-two years ago,” Segovia told me. She’s a former refugee herself, having arrived in Alief in 1980 with her aunt after escaping war in El Salvador. “We asked for asylum, and we did exactly what our students are doing now”—worked hard to find their place in a new country. She referred to the migrants massing at the border in Del Rio, as thousands of Haitians had in the weeks right before I visited Alief, and remembered an incident from childhood when someone called Salvadoran refugees cockroaches—“because there were so many of us and they couldn’t get rid of us.”

Segovia grew up in the nearby Sharpstown area, earned degrees in English and in curriculum and instruction at the University of Houston, and eventually came back for work. “Alief is family,” she and her colleagues like to say. In some ways she means that literally: many immigrant students, even unaccompanied minors, end up in Alief because they have extended family members in the area. Roughly 65 percent of students live in apartments or multifamily units.

Some also arrive in the community with pressing needs: no shoes, no familiarity with indoor plumbing. The school district provides vision and dental care, social workers to visit families, and other basic services. As superintendent HD Chambers puts it, “Not only are we teaching children how to read and write, how to add and subtract, but we’re teaching and helping people from all of these different ethnicities and cultures how to come in and adapt to our country.”

Chambers, who started his career as an assistant football coach and economics teacher in the Aldine district, on the north side of Houston, has, to his surprise, ended up dedicating his career to educating diverse populations. He landed in Alief ten years ago and has built a reputation as a passionate and innovative leader whose mantra is “meeting students where they are—as opposed to where we wish they were.”

It’s a mission that not only resonates with colleagues like Segovia—who cites it regularly—but derives from what sounds like a deep sense of patriotism. For an educator, Chambers said, the only response to the rapid diversification of the population “is to do everything you can to make sure that these individuals . . . regardless of where they come from, are educated in a way that will sustain our republic and our democracy and the things that our country was founded on.”

Of the population changes Chambers and his colleagues have observed in their district, one of the starkest in recent years has been the fluctuation in Texas’s Hispanic population: even as Hispanic Texans become the state’s dominant demographic group, fewer and fewer Mexicans are migrating to Texas. According to one analysis by Rogelio Saenz, of UT–San Antonio, Mexican migration to Texas has plunged. There are multiple reasons for this, from militarization of the border and the aging of Mexico’s population to the improving economic fortunes of Mexican women, who are having fewer children later in life. Of the Mexicans who do come to the U.S., many are now better-educated and have higher incomes than in the past. This year the Hispanic population at LINC largely comprises refugees from Central and South American countries—most from El Salvador,

AMERICAN OVERSIGHT

Honduras, and Guatemala, which are wracked by organized crime and sagging economies.

Whereas some years the LINC classrooms serve kids speaking dozens of languages (there are more than ninety languages spoken in the surrounding community), in 2021 the vast majority of students are native Spanish speakers. Of the Hispanic students, very few come from Mexico. “Can you imagine the ganas, the desire, to better their lives?” Saenz had asked me, referring to Central American refugees. “They are walking, sometimes unaccompanied, without their parents, hundreds or thousands of miles, and then we have them here and have the possibility that they can be our future workforce.”

A few blocks from LINC, in a sprawling, glassy new building that opened in 2018, Jennifer Baker works to make that possible. Baker helps run the Center for Advanced Careers, where Alief students train to work in construction, IT, health care, and other high-demand industries that don’t require college degrees for many well-paying jobs. There are state-of-the-art robot arms in the advanced manufacturing lab. There’s a working pet day care in the veterinary science lab and a working auto shop. In the wood shop, they build furniture for Mattress Mack at Gallery Furniture. “They have to make money to pay for our operations,” Baker said.

With Hispanic Texans on pace to be the dominant demographic group, their lower average educational attainment looms as a crisis for the state’s economy. Whereas nearly 95 percent of non-Hispanic white Texans aged 25 and over have at least a high school degree, that number is less than 70 percent for the Hispanic population. One of the ways that students who are starting at a disadvantage can gain an edge, superintendent Chambers believes, is by getting vocational training that directly meets employers’ needs. Vocational programs are nothing new in high schools, of course, but the scope of the program in Alief looks more like that of a community college, and its partnerships with employers run deep.

“You know the company Trio Electric?” Baker asked me, referring to the Houston-based commercial electrical contractor. “They wrote our electrical curriculum. Their workforce shortage is tremendous. They provide all the equipment, all the supplies. And then after the students’ junior year, they give them an internship in the summertime that pays four thousand dollars. Kids in this neighborhood making four thousand dollars—you might as well tell them they’re making a million bucks. So then, senior year, they’re more excited to finish out the program. And then they go in for interviews, and up to twenty-five of our kids will have a good chance to get hired.”

As she spoke, a voice periodically boomed out of the PA system advising prospective students to rotate to the next lab. Signs in the lobby welcomed a delegation of recruiters from CenterPoint Energy. “I’ve given over five hundred tours of this building,” Baker said, her voice catching, “and I spend a lot of time showing people what my kids can do. A lot of them get it, but we’re still in the baby stages of businesses realizing the gold mine of talent they have here.”

AMERICAN OVERSIGHT

The Not-So-Great Sorting

Peter Rex's Texas journey doesn't have much in common with that of the students at LINC. The 39-year-old embarked on a career in business, he told me, when he realized, after consulting with the abbot at a Catholic monastery, that capitalism would be his best avenue for serving Jesus and helping people on the widest scale possible. Rex subsequently made a bundle of money for himself and his investors by buying and managing undervalued apartment complexes in Texas and Florida after the Great Recession, from what at the time was his base, in Tampa. In 2016 he moved to San Francisco to start a portfolio of real estate and insurance tech businesses, and then moved to Seattle in 2018 to be closer to Amazon's and Microsoft's headquarters and learn from their empire-building prowess.

In both of those West Coast tech hubs, he realized, some of his employees couldn't afford to buy homes. But more importantly, he wrote in a June 2020 WSJ op-ed, "both [cities] have become hostile to the principles and policies that enable people to live abundantly in the broadest sense." In Rex's view, he wrote, not only were West Coast state governments stifling free enterprise, but the culture was stifling freedom of speech and freedom of religion. "In both San Francisco and Seattle, many of our Christian and Muslim friends and employees have expressed concern that their deeply held views are being driven from the public square."

Rex wrote the op-ed to announce his move to Austin. "In Texas, the quintessential American ideals of family, faith, and freedom still reign supreme," he wrote, adding that "as the West Coast becomes more insular and exclusive, other parts of the country will become the biggest drivers of tech innovation." The column came out at the height of the first wave of the coronavirus pandemic and the presidential campaign season. Conservative media and the financial press quickly elevated Rex's move as a signal moment—and talked up Rex as a tech titan (which he's not). As the pandemic drove a wave of individuals and companies to move to Texas and Florida from California and New York, Rex's story came to define part of the narrative: migrants were leaving the coastal hubs not just because they couldn't justify overpaying for shoebox apartments during a lockdown but because they'd finally had it with failed liberal policies that created expensive cities riddled with crime and homelessness and livable only for the superrich.

"We didn't feel safe talking about having voted for Donald Trump in 2016," Marie Bailey told me.

For Marie Bailey, a realtor who lives in Prosper, just north of Frisco, that line of thinking sounds familiar. When she and her husband moved their family from El Segundo, California, to North Texas four and a half years ago, they were effectively giving up on their lifelong home for reasons she cites as "cost of living mixed with politics. We didn't feel safe talking about having voted for Donald Trump in 2016," she told me. "And then you get a seven-hundred-dollar car-registration bill, and voters vote in higher gas prices—I mean, who does that?" The Baileys bought a new-construction home in the Windsong Ranch community, across the street from a lagoon with an artificial beach, and

AMERICAN OVERSIGHT

Marie quickly spotted a business opportunity to help other escaping Californians find similarly soft landings. She got her realtor's license and, to find clients, started a Facebook group called "Move to Texas From California!" Today that community has 34,700 members, and Bailey's business is booming.

From her perspective, conservative Californians' desire to flee has grown throughout the pandemic, as frustrated families sought a place where their kids could return to school sooner. "I had people coming here crying when they'd see kids playing on playgrounds," Bailey said. "They couldn't do that in California." Although she shares those sentiments and sees migration to Texas as a "red wave," Bailey also knows the full picture is complicated.

In fact, Bailey and Peter Rex landed at the center of an argument that has circulated in political circles for years. It holds that a great ideological sorting is underway, in which like-minded people gravitate toward one another, often across state lines. Those who see California as a nanny state will escape to a more enlightened Texas, while those who see Texas as a fundamentalist petro-state will escape to a more enlightened California or Colorado. Swap California for New York and Texas for Florida, and the argument stays largely the same.

At the same time, many Texans have seized on Governor Abbott's rallying cry "Don't California My Texas." Indeed, his 2018 reelection campaign played out against a changing electoral map. Barack Obama lost Texas by sixteen points in 2012. Hillary Clinton lost the state four years later by nine. And Joe Biden came within six. Some previously deep-red suburban counties now trend purple or even blue. Abbott was arguing that new Texans might be responsible for the change and that it wasn't welcome (though he's also, at various times, argued the opposite: that folks coming from California are conservatives who should be embraced).

But according to Derek Ryan, a GOP political consultant who leads voter-targeting efforts for candidates up and down the ballot, there's very little data to support either argument—that Texas is growing more conservative because of ideological sorting or that it's becoming more liberal at the hands of Californians. One of Ryan's clients is Congressman John Carter, whom I'd met earlier at that bar in Austin, and who represents several fast-changing suburban cities. Ryan has watched the evolving Texas suburbs closely; he's seen migration patterns in person and in the data.

To identify likely new Texans in the data, Ryan looked at those who registered to vote after the 2018 election and ended up voting in 2020, and then he zeroed in on the subset over the age of thirty—to rule out young people, including longtime Texas residents, who were probably registering for the first time. He turned up 1.3 million voters, "but trying to figure out their political ideology is tricky because they haven't necessarily voted in a Republican or Democratic primary," he said.

So, he turned to modeling data, the kind of information voter-targeting groups use to identify friendly targets based on their consumer spending habits, income levels,

AMERICAN OVERSIGHT

homeownership, and so on. “There are literally hundreds of data points to model people and determine if they’re likely Democratic or Republican voters,” he explained.

According to Ryan’s best analysis, 50.4 percent of his possible new Texans were likely Democratic voters, and 49.6 percent were likely Republicans. “So, you know,” he said, “we hear a lot about these people moving from blue states and bringing blue-state politics with them, but it doesn’t necessarily appear that that’s the case. It’s closer to right in the middle. There are certainly some hard-core liberals moving here that are still voting that way, but it appears that it’s a wash as far as Republicans versus Democrats.”

Rice University’s Bill Fulton has looked at myriad possible explanations for the ebb and flow of migration from California and found that, as he wrote in a post on the Kinder Institute’s website, “the driving force is not a pull into Texas but a push out of California: home prices.” That is, when the price of a house goes up on the West Coast, people come to Texas. When the prices ease, fewer make the move.

Of course, Fulton published that piece before the governor signed one of the nation’s most restrictive abortion laws, effectively outlawing the procedure, as well as one of the nation’s most severe restrictions on voting—on top of a law discriminating against transgender students and one permitting the open carry of handguns without permits or training. The City of Chicago’s economic development arm took out a full-page ad in the Dallas Morning News trying to lure alarmed Texans away. The real estate bonanza had, meanwhile, prompted northwest Arkansas to begin trying to lure away Austinites being priced out, and California-based companies such as Salesforce began offering to help any of their Texas employees to relocate in the face of Abbott’s actions.

Still, Fulton speaks for many who study migration into the state when he says he doesn’t expect the flow of new Texans to slow down anytime soon. “Texas may be hot in the summer, and you may not agree with the politics. It may be sprawling, and you may have to buy an F150 pickup. But it is probably unparalleled in the country right now as a place of economic opportunity.” For many, he said, it’s still “a place where you can get ahead.”

Houston-Area School District Drops Gender-Based Policy On Long Hair
By Allyson Waller
Texas Tribune

A Houston-area school district has reversed a dress code policy that prohibited male and nonbinary students from wearing long hair — more than a month after a lawsuit accused the district of enforcing a discriminatory rule.

The Magnolia Independent School District’s school board voted on Monday night to alter its dress code and eliminate the policy, according to the American Civil Liberties Union

AMERICAN OVERSIGHT

of Texas. The ACLU of Texas said the district reached a settlement agreement that allows for students who were previously disciplined under the school's former hair policy to "have their records expunged."

The district confirmed Tuesday that under the agreement, male students will no longer have to keep their hair within a certain length. It will also make its dress code policy on earrings gender-neutral. The district's 2021-2022 student handbook currently says earrings should be worn only by female students and "earrings worn by boys will be confiscated and may not be returned to the student."

The ACLU of Texas announced in October it was suing the district on behalf of seven students over the district's hair policy, which stated that hair must "be no longer than the bottom of a dress shirt collar, bottom of the ear, and out of the eyes for male students." The lawsuit claimed the district violated students' right to equal protection under the Fourteenth Amendment and Title IX, a federal law that prohibits discrimination on the basis of sex in educational institutions that receive federal dollars.

In a temporary ruling in late October, Chief Judge Lee H. Rosenthal of the United States District Court for the Southern District of Texas said plaintiffs' legal arguments had "a substantial likelihood of success." Last month, Rosenthal issued a preliminary injunction that required the district to suspend enforcement of gender-specific provisions in its dress and grooming code.

Brian Klosterboer, a staff attorney with the ACLU of Texas, said the school board's decision Monday might lead other school districts across the state to take a closer look at their gender-based dress code policies and reconsider them.

"School districts shouldn't wait until students are actually harmed under these policies, and they've been forced to file complaints or lawsuits," Klosterboer said. "They should take proactive steps to update their dress codes in accordance with federal law."

Concerns over dress codes have sprouted across Texas school districts in recent years, with the ACLU of Texas estimating that nearly 500 of the state's more than 1,200 districts have "outdated and unconstitutional dress codes."

The issue has already attracted legal scrutiny in other parts of the state. Barbers Hill ISD near Houston was sued last year after two Black students who wore their hair in dreadlocks were punished for breaking the district's hair policy for male students. The case is still ongoing, and a preliminary injunction was issued in August 2020 that suspended enforcement of the hair policy.

Danielle Miller, whose child Tristan is nonbinary and was one of the seven plaintiffs in the lawsuit against Magnolia ISD, said in a statement she and her family are relieved by the district's decision to get rid of its hair length policy.

AMERICAN OVERSIGHT

“Our community never gave up fighting to put an end to this harmful policy,” Miller said. “We hope today’s result will be a sign to other school districts in Texas that changing discriminatory policies like these is the right thing to do.”

Parents Upset 14-Year-Old Students At Texas School Assigned ‘Pornographic’ Book
By Christina Aguayo
KTSM

A reading assignment at Eastlake High School is being described as pornographic and has parents concerned, saying the sexually graphic nature of the book is completely inappropriate and should not be assigned to students, especially with out parental consent.

The book is called The Perks of Being a Wallflower and it’s not new to controversy. In fact, according to Marshall Libraries, it has been challenged or banned by numerous entities every year since 2003.

Elda Marmolejos, who has a child enrolled in Eastlake High, said she feels the book should not be assigned to such a young age group, especially with out parental consent.

“My concern is that my child was assigned a very inappropriate book by his English Teacher. There was no parent consent form sent out for me to sign. He basically said that the book was graphic and they needed to act like adults. The content is very inappropriate. It talks about sex, drugs, alcohol [and] minor abuse. It goes into detail about teenager being raped and she goes to get an abortion without parental consent. It is very graphic and it is very inappropriate for such a young age group to be reading and just having access to it at a Texas public school. [There is also a part] Where two boys are having sex and the book goes into detail about [it.]

Judge linked to racial slur video says sedative left her with ‘zero recollection’
Marmolejos said she feels as though the school let her down.

“I believe that a teacher’s job is to teach children or students how to think not what to think. I think it should be up to the parents to decide what’s appropriate. We try to teach them morals at home we try to teach them wrong from right.

Such sexual content is something that a parent should sit down with their child and talk about. That is not the teachers role. We have lived in the state of Texas for years, my kids have grown up here and I never thought that I would have to be dealing with this.

As far as parent consent, I think the teacher should have used more transparency. He did send out a syllabubs at the beginning of the year but the only thing it said is that there was controversial material. That is broad.”

AMERICAN OVERSIGHT

Marmolejos said she met with the Principal of Eastlake High School and librarians from the school and the SISD, but she said she felt they spent the entire meeting trying to 'defend' the teacher and convince her they followed policy.

In a meeting that was taped by Marmolejos, with the consent of all in the meeting, a school administrator said, "What I want to do is we're validating why he chose the book – we want to go through the rest of the policies legal and local."

At another point in the meeting another school administrator said, "Is the content appropriate for the freshman? I think you and I can both agree its very very questionable. It's probably not the most appropriate."

Popular payroll system targeted in ransomware attack
Marmolejos also spoke at an SISD board meeting however the book was not on the agenda.

In a previous interview with KTSM 9 News Anchor Christina Aguayo, Governor Greg Abbott talked about his order to remove pornography from schools, and launch investigations into those schools who kept in on the shelves,

Marmolejos said she would do anything to safeguard her children, even alert the governor, who signed an executive order which says pornography must be removed from public schools

"I saw the image that was in one of these books that was available for students in schools and it is clearly unequivocally pornography. There is a state law against providing pornography to anyone under the age of 18. There's a state law against providing porn to anyone under the age of 18 and that's exactly what some of these schools have done, as a result these schools have been immediately removing these books from their libraries. That's what we expect from these schools, and more importantly that's what parents expect from these schools. Parents they want their child to go school and learn not to be indoctrinated into something that would involve pornography. My job as governor and the job of education leaders in the state is to make sure we are educating our children to be competitive in the workforce not indoctrinating them with things like pornography. - Governor Greg Abbott

Socorro ISD officials tell KTSM 9 that their policy allows parents to request a formal review – after the informal inquiry that was made about this particular book. They add that the school and the district are reviewing how parents are notified about books with a graphic nature being used in class.

Analysis: Some Texas Lawmakers Are Worried About The Wrong Reading Problem
By Ross Ramsey

AMERICAN OVERSIGHT

Texas Tribune

Texas has a problem that's bigger than the stories in the books at the school library.

If you were put on the spot and asked what needs to be done in public education in Texas, and if you were a candidate in the upcoming GOP primaries, boxing up some of the books available in schools might be the first thing on your lips. Maybe you'd also fret over subversive ideas in social studies and history texts.

But dictating what students are allowed to read depends on their ability to read in the first place. Falling test scores and learning lost to the pandemic might not light up the crowds at political rallies, but it's a bigger issue than books that offend legislators' tender sensibilities.

Election years are like that.

With any luck, you can push these debates out of mind until 2022 gets here in a couple of weeks. After that, it'll be almost impossible to ignore. It's already difficult to ignore: As of Monday, the people who'll be on the ballot have all filed their papers with the parties and the state. The regular Austin spots where pols go to raise money are bustling with check-writing lobbyists and other interested parties. Voting in the primaries starts in the third week of February. The wave of political advertising will start as soon as the holiday advertising stops.

Some voters cope by tuning everything out. Turnout in party primary elections in Texas is dismal. In 2020, a presidential election year when turnout is usually at its highest, 12.4% of registered voters showed up for the Republican primary and 12.9% voted in the Democratic primary. Most — 74.6% — didn't vote in those primaries. The numbers are even lower when you look at the whole voting age population of the state — the registered voters and the Texans who haven't registered. Less than 20% of the state's adults went to the polls two years ago.

Others cope by limiting their attention only to the candidates on their own side of the party line. That cuts the noise in half.

Some spend their attention carefully, sticking to issues that they care about and ignoring the noisy wedge issues that sometimes overwhelm political conversation and turn the public square — or the living room — into a kennel full of barking dogs.

Some candidates benefit from the barking, and from the fears stirred by whistles only their followers can hear. Besides, it's easier to get a crowd stirred up by something uncomfortable in a young adult novel than by descending scores on math tests.

Want a taste? In 2019, 48% of third graders and 56% of fifth graders met or exceeded the standard on STAAR tests in Texas public schools, according to the Texas Education

AMERICAN OVERSIGHT

Agency. In spring of 2021, 30% of third graders and 43% of fifth graders were up to standard on those tests.

Wars over the contents of books are as old as books. It would be sweet if people fought as hard over why students don't spend enough time in libraries in the first place. But content fights are better political issues, raising voter passion without risking a debate on the overall quality of education kids are getting in Texas.

Education is hard — for teachers, students, makers of policy and law, and politicians. It's easier, unless voters are unusually focused, to sway an election with a debate over books most people will never open than to sway it with a debate about STAAR reading assessments that have dropped in every single grade in Texas elementary and middle schools over the last two years.

What's written in books is only a problem for people who can read. But in Texas politics, the quality of education isn't what draws a crowd to the polls. If it was, politicians would be recommending books to read instead of pulling titles off the shelves.

Business/Economy

Austin Chamber Of Commerce Granted $100k For Austin Employment Growth
KTBC

The Austin Chamber of Commerce has been awarded a $100,000 grant from Texas Mutual Insurance Company as part of a $2 million request for proposal that has already awarded 44 different organizations across the state.

The grant is being received through the Chamber of Commerce's 501©(3) designated organization, the Quality of Life Foundation. The foundation focuses on increasing opportunities of employment and career advancement in the Austin community.

"We're incredibly grateful to Texas Mutual for granting us the funds to progress the important work that the Chamber is doing for workforce development," Laura Huffman, president and chief executive officer of the Austin Chamber of Commerce, said.

"This funding ensures our programs can focus on doing the work that is vital to this region: reducing unemployment, growing the region's talent pipeline, and seeking out more opportunities for career growth. Through these initiatives, the Austin region will continue its rapid expansion into new industries and remain a hub for job seekers and employers around the world."

The grant will help support a new platform created by the Quality of Life Foundation, the "512 Career Bridge". It will assist K-12 students, job-seeking adults, and the general public to explore in-demand jobs, attend career panels and events, and other career-

AMERICAN OVERSIGHT

related opportunities. The Foundation plans on working and engaging with local businesses, career professionals, and schools in Austin to create a diverse area of opportunity.

To view the full list of workforce development and safety training grant recipients, visit the Texas Mutual website.

UTEP Awarded $500K Grant To Grow Aerospace And Advanced Manufacturing Sectors In Region
By Chris Babcock
KTSM

As part of the initial phase of the Build Back Better Regional Challenge, the University of Texas at El Paso, along with several regional and national partners, will look to build on UTEP's success and increasing prominence in the aerospace and advanced manufacturing fields to bring more jobs and spur growth in the economy of West Texas, via a $500,000 grant from the Economic Development Administration (EDA).

Officials say the project will be managed and executed by the newly formed West Texas Aerospace and Defense Manufacturing Coalition, which is led by UTEP and includes several national and regional partners such as the City of El Paso and the El Paso Chamber.

The group proposes to catalyze economic growth in aerospace and defense manufacturing by developing the El Paso Makes Advanced Manufacturing District and the West Texas Advanced Technology Corridor.

According to officials, the aim is to create 4,000 new engineering and technologist positions and 13,000 technical positions in aerospace and defense manufacturing in West Texas by 2030. The coalition also will work to bring 300 of the region's manufacturers into aerospace and defense supply chains in that same timeframe.

The West Texas region includes El Paso, Hudspeth, Culberson, Jeff Davis, Brewster and Presidio counties.

"Aerospace and defense manufacturing represents a transformational economic development opportunity for El Paso and West Texas…As a national leader in aerospace, defense, and additive manufacturing research and development, UTEP is grateful for this U.S. Economic Development Administration grant to help develop more high-paying jobs in the region while enhancing U.S. competitiveness. We have a great foundation to build upon and we look forward to working closely with partners to plan next steps."

As finalists in the challenge, UTEP and its collaborators will now have the opportunity to strengthen their proposal and compete for an additional award of up to $100 million.

AMERICAN OVERSIGHT

UTEP's proposal, titled "Reclaiming Aerospace and Defense Manufacturing Dominance through Frontier Technologies," aims to help close America's gap in aerospace and defense manufacturing capabilities while providing the potential for economic growth and job opportunities for UTEP students and other residents across West Texas.

Sixty projects were named finalists out of 529 applicants that submitted entries to the Build Back Better Regional Challenge in October, according to the U.S. Department of Commerce.

Each of the projects targets a sector of the economy that is specific to the applicant's geographic region.

"We have built this strategy from the strength of significant aerospace, defense and advanced manufacturing capabilities and activities that, if better connected and resourced, could make West Texas a strategic national hub for aerospace and defense manufacturing," said Ahsan Choudhuri, Ph.D., associate vice president for the Aerospace Center (cSETR) at UTEP and principal investigator for the project.

Anchoring the region's capabilities and competitive advantages are the research preeminence and talent development pipelines at UTEP's Aerospace and Keck centers. Both research centers are national leaders in supplying a diverse, industry-ready, highly skilled workforce. They are also widely regarded as leading innovators in aerospace, defense and additive manufacturing technologies.

"Being selected as a finalist is a huge accomplishment and fantastic opportunity for our region…our community's success is a direct result of a focused strategy to leverage our community's assets, such as UTEP's students and team. We are also ideally located for success due to our proximity to Fort Bliss and nearby investment in the aerospace industry. We look forward to our continued work with UTEP, the Chamber, and our other coalition partners to grow the regional aerospace and defense manufacturing industry cluster and, ultimately, advance our community's quality of life by creating jobs and investment."

The coalition has identified several core strategic manufacturing strengths in our region that will contribute to strengthening the nation's defense and industrial sectors.

These include additive manufacturing, robotics and automation, precision and high temperature machining, advanced tool and die making, and electronics. Areas of potential growth opportunity regionally are in electronics manufacturing and cybersecurity for manufacturing.

"There is vast untapped opportunity in the region for job creation in aerospace and defense manufacturing, including three military bases – Fort Bliss, White Sands Missile Range and Holloman Air Force Base," said Ryan Wicker, Ph.D., executive director of the W.M. Keck Center for 3D Innovation at UTEP, and co-principal investigator of the

AMERICAN OVERSIGHT

project. “West Texas is part of the fourth-largest manufacturing hub in the world, which also includes Juárez, Mexico, and Doña Ana County, New Mexico.”

In the past decade, these research hubs have trained and placed more than 600 engineering graduates in the aerospace, defense and advanced manufacturing industries. In the 2019-20 academic year alone, Lockheed Martin hired 101 UTEP engineering students across its business units from these research centers.

Additionally, the Keck and Aerospace centers have performed agency and industry sponsored research and development work valued at more than $90 million since their inception.

“I am grateful to UTEP for their partnership in championing economic development investments,” said U.S. Rep. Veronica Escobar. “I look forward to seeing how this innovative project will help get our aerospace and defense manufacturing industry to the next level.”

The finalists in the Build Back Better Regional Challenge will now compete for Phase 2 funding. The deadline to submit applications for those awards is March 15, 2022

New Amazon Facility Set To Bring Economic Boom To The Coastal Bend
By Michael Gibson
KIII

The Nueces County Development Commission came together virtually to discuss the topic of Amazon's "Last Mile Facility" being built by the airport.

Work crews are busy converting the old Baker Hughes Oilfield service operations center into Amazon's "Last Mile Facility." The Nueces County Development Commission met with Amazon company officials in a virtual meeting to give county leaders the newest and latest information about the 140-thousand square foot package delivery facility.

Nueces County Judge Barbara Canales was eager to discuss the benefits that the facility will have for the local economy.

"It's going to be the largest last mile network of its kind," Canales said, "So, I think that's really great. They're going to start with 50 employees and then ramp up to 150, and the starting pay is $15.50 an hour."

Canales told 3News that Amazon also told the County that it's looking at getting packages to Corpus Christi customers faster than it's 2-day prime promise.

"We might have the opportunity for same-day delivery. That's kind of a big deal for a lot of us," Canales said.

AMERICAN OVERSIGHT

While there aren't actually any Amazon employees currently on-site at the facility, sometime early next year the facility is supposed to be up and running.

Canales saying that once Amazon opens its facility, the county will then try and get the company to build a larger distribution center in the area like it has already done in San Antonio.

"We are going to let them move in and be happy about their presence," Canales said, "But get right to work in the concept of 'hey, we think we are ripe and primed for the distribution center.'"

Canales believes that the Corpus Christi area would be the perfect spot due to being the bridge between San Antonio and the border, especially after the I-69 corridor is completed. Canales adds that it also makes good sense for Amazon to want to be a bigger part of a growing and thriving area.

Waco Job Market 'Booming,' City Leaders Believe Central Freight Workers Won't Be Jobless Long
By Alicia Naspretto
KXXV

There's now less than a week left before Central Freight Lines ends its 96-year-run in Waco and more than 2000 employees nationwide are still struggling to process the unexpected closure.

Many showed up for work Tuesday morning and found the gate closed and security on the property.

Hundreds of local workers employed at the Waco headquarters will soon be jobless, but the Greater Waco Chamber of Commerce told 25 News it doesn't expect them to be without a job for long.

"The silver lining to all of this is our economy here in Waco is just booming right now and there's lot of opportunities for those individuals to be replaced into new employment and to be reskilled if they choose to do so," Senior VP for Economic Development Kris Collins said.

The City of Waco and the mayor refused interviews with 25 News but released the following statement also boasting about the local economy.

"The job market in Waco is strong, and we feel confident with the number of new businesses and industries coming in that people will be able to find jobs. There are many industries who are interested in hiring from our Waco workforce."

AMERICAN OVERSIGHT

Kris Collins said they knew Central Freight had struggled for a while financially, but the closure was still a shock to everyone.

"I think anytime a long-tenured employer decides to close their doors, especially abruptly like this, it tends to have a rippling effect emotionally through the community," she said. "Certainly, it's going to be impactful to those individuals and how it's going to impact their households, but hopefully that's a short-term issue they're going to face."

Collins also said the Chamber has programs to help connect those workers with open positions in the area.

25 News also called Central Freight Lines for two days, but they have not been available for comment.

Immigration/Border Security

"I Thought He Was Going To Kill Me": Migrants Say Return Of Trump-Era Border Policy Will Put Asylum Seekers In Danger
By Uriel J. Garcia
Texas Tribune

Lisbet was facing jail time in her native Cuba for questioning the integrity of an election, she said. So she and her husband sold their belongings and bought a round-trip plane ticket to Nicaragua, lying to Cuban immigration officials that they were taking a vacation.

They left their two daughters with Lisbet's mother and told their older daughter they would reunite later in another country.

After traveling through Central America and Mexico, Lisbet and her husband reached the El Paso-Ciudad Juárez international bridge in May 2019 and asked for asylum in the United States — joining thousands of other migrants who have made the same journey.

Immigration authorities sent her husband to an immigration detention center in Houston and sent Lisbet back to Juárez under a policy called the Migrant Protection Protocols, or MPP. Informally known as "remain in Mexico," the policy was aimed at deterring migrants from crossing the U.S.-Mexico border.

In Juárez, she said a Mexican police officer began harassing her, then stalking her — and later raped her so violently she had to undergo reconstructive surgery.

"I thought he was going to kill me," she said. "All I kept thinking about was if I was going to be able to see my daughters again."

AMERICAN OVERSIGHT

Following a federal judge's order, the Biden administration last week began to restart MPP, which during the Trump administration forced Lisbet and thousands of other asylum-seeking migrants to stay in Mexican border cities as their cases made their way through U.S. immigration courts.

Officials said the program would first be revived in an undisclosed border city, then migrants would be enrolled into MPP at El Paso, Laredo, Brownsville and San Diego.

Some human rights advocates, and migrants who have been placed in MPP, say reviving the program puts more migrants in danger of being targeted by criminals in Mexican border cities. Human Rights First, a New York-based organization, recorded 1,544 cases of killings, rapes and kidnappings of migrants who were forced to remain in Mexico between MPP's launch in January 2019 and January 2021, when the Biden administration suspended the policy.

Texas Attorney General Ken Paxton joined the attorney general of Missouri to sue the Biden administration in April, claiming that suspending the policy violated administrative law. District Judge Matthew J. Kacsmaryk, a Trump appointee in Amarillo, agreed, but the administration appealed all the way up to the U.S. Supreme Court, which denied the administration's request to temporarily pause Kacsmaryk's ruling.

The case went back to the 5th U.S. Circuit Court of Appeals, which on Monday ruled to uphold Kacsmaryk's ruling.

In the lawsuit, Paxton also argued that without MPP, human trafficking would increase and force the states to expend resources on migrants — such as providing driver′s licenses, educating migrant children and providing hospital care.

"I will continue to fight to restore safety and order along our southern border, making sure that this essential program is implemented in full compliance with the court's order," Paxton said in a statement.

Under the Biden administration′s version of MPP, migrants from all of the Western hemisphere can be sent into Mexico — previously it included migrants only from Spanish-speaking countries and Brazil. The migrants can receive a COVID-19 vaccine before immigration officials return them to Mexico.

Tami Goodlette, director of litigation for the Texas-based Refugee and Immigrant Center for Education and Legal Services, said the Biden administration "must stop fueling cruel and heartless cycles of displacement."

"Instead of providing care and safety for migrants, the U.S. is actively choosing to create an environment of rampant danger and abuse where vulnerable people are at an increased risk of violence and exploitation," Goodlette said.

AMERICAN OVERSIGHT

Lisbet, 37, was one of the 71,000 people sent back to Mexico during the Trump administration, and the asylum cases of more than 25,000 migrants placed in MPP remain pending, according to the Transactional Records Access Clearinghouse at Syracuse University.

Lisbet, who asked to be identified only by her first name because her daughters are still in Cuba and she fears the government may retaliate against them, called the policy "an injustice because it's denying a human being the possibility of seeking safety."

Gabriel, a 45-year-old who was forced to stay in Juárez for a year and a half, fled Venezuela in April 2019 and requested asylum at Santa Teresa, New Mexico. Immigration officials sent him to Juárez, where he said he lived for 16 months before he was reunited with his sister in South Carolina.

Unlike Lisbet, he was able to get a work permit in Mexico and find a stable place to live. He said he felt lucky that he wasn't a victim of violence or the elements: Two boys in a migrant camp died of hypothermia while he was in Juárez, he said, and a Cuban man was shot to death in a city plaza.

"The MPP the way I lived it, was not 100% humane," said Gabriel, who asked to be identified with a pseudonym because he fears the Venezuelan government might retaliate against his two children. "A lot of the people who went through it with me felt discouraged and duped because the program didn't give them any hope."

"They couldn't do anything for me"
After Lisbet cast her ballot in Cuba's constitutional referendum in February 2019, she said she stayed near the voting booths awaiting the results instead of going back home as she'd been told. When she refused to leave, voting officials accused her of interfering in the process and called the police.

A plainclothes officer took her to a police station, where Lisbet, who was three months pregnant, insisted the vote was a sham. She said the angry officer struck her face, causing her to fall. The officer put Lisbet in a cell as she bled through her pants. She said she was denied medical care until three days later, when police took her to a hospital and a doctor told her she had lost the baby.

"I was devastated and filled with anger," Lisbet said. "My husband was scared and he said, 'If we don't leave, we're not going to be alive much longer.'"

When Lisbet and her husband reached the international bridge at the Texas-Mexico border, she said immigration officials placed them in a makeshift camp in El Paso, separating them by gender and taking away their belongings.

AMERICAN OVERSIGHT

She was in the camp for 40 days before officials gave her a court date and then dropped Lisbet and six other asylum-seeking women in the middle of Juárez. The seven of them put their money together to rent a hotel for the night.

"We were all confused and disoriented because we were told there would be shelter and none of us knew each other," she said. "I was desperate because my husband was the one with all the money."
That night, Lisbet called relatives in Cuba. She said her brother put her in touch with a friend in the U.S., who wired Lisbet money to Juárez to buy food, clothing and lodging. Relatives also told her that her husband was in a detention center — he'd called them earlier.

Her first court date was in El Paso roughly two months later, in August 2019. After she made her case for asylum, she was sent back to Juárez, where she rented a house with other asylum-seekers. She couldn't legally work, so she said she cleaned homes and helped vendors set up food stands in exchange for food.

Between her second and third court dates, Lisbet said a Juárez police officer began to harass her, asking for sexual favors and threatening her with deportation if she refused. She said she started moving from house to house to avoid the officer.

On Oct. 17, 2019, he seized her passport after she refused his sexual advances again, she said. The following day, she said she filed a complaint with the police. The angry officer then showed up at the house where she was staying, Lisbet said, and threatened to have her killed for reporting him. She said she went to the international bridge and told the immigration officials about the officer's harassment and threats, begging to enter the U.S.

"I kept crying to them, but without any compassion, they just told me no, they couldn't do anything for me," Lisbet said.

On the night of Dec. 7, 2019, two days before her court hearing in El Paso, she was walking in an empty street alone when the officer found her and raped her.

"I was in shock," she said. "I couldn't believe the physical pain I was in. I also started to feel shame because I would have to explain to people what happened to me."

A couple found her in the street and called an ambulance, which took her to a hospital where a doctor performed reconstructive surgery to repair the damage from the attack.

She didn't want to tell her husband, who by then had been released into the U.S. and was living in Austin with a cousin. (Lisbet said they never figured out why her husband wasn't placed in MPP.)

But her husband kept asking why she had ignored his calls and text messages for three days. She finally told him what had happened.

AMERICAN OVERSIGHT

“He started to cry a lot, he started to worry even more,” she said.

Lisbet said she still hasn’t told her mother and daughters about the rape. She said she doesn’t have the courage.

Another chance

Recuperating in a hospital bed, Lisbet missed her court hearing — she sent her hospital records with another asylum-seeker, hoping the U.S. immigration officials wouldn’t throw out her case. The woman came back with bad news: Lisbet’s asylum claim was closed because she hadn’t made the hearing, and immigration officials had issued a deportation order for her if she ever entered the U.S. illegally.

“I felt defeated,” she said. “I thought to myself, ‘I guess I’m going to have to stay here and just try to make a life for myself.’”

Lisbet said she stayed with a friend for eight months before the police officer who attacked her began to threaten the woman. Lisbet didn’t want her friend to get hurt, so she went to the international bridge in July 2020 and asked to enter the country.

This time, they sent Lisbet to a detention center in El Paso, where she told an immigration officer about losing her baby in Cuba and the Juárez officer who had raped her.

“I remember him telling me, ‘You can cry and throw a fit, but you’re being deported back to Cuba regardless,’” Lisbet says.

A fellow detainee told Lisbet about Diocesan Migrant & Refugees Services. Marysol Castro, a staff attorney for the organization, took Lisbet’s asylum claim to the Department of Justice’s Board of Immigration Appeals and asked to have her case reopened.

In December 2020, Lisbet was released from the detention center and went to Louisville, Kentucky, to reunite with her husband, who had moved there to live with a relative.

Three months later, Castro received a letter from the immigration board that it agreed to reopen Lisbet’s asylum case.

Lisbet says it’s been a tumultuous two and a half years. She and her husband don’t work because they are not legally allowed to, she said. Their relative in Kentucky is supporting them.

She said she doesn’t know when her case will be resolved — or when she’s going to see her daughters, who are now 17 and 7.

AMERICAN OVERSIGHT

"I feel a lot of pain and sadness of course because it's been hard," Lisbet said. "But I keep thinking if I stayed in Cuba, I could have been imprisoned and kept away from my daughters.

So what gives me hope is that now that I'm physically OK in the U.S. that I have a chance of seeing my daughters again."

Democrats Should Stick To Their Guns When It Comes To Firearm Safety — Even In Texas
By Erica Grieder
Houston Chronicle

Once upon a time, Democrats running for statewide office in Texas were reluctant to get crossways with Second Amendment enthusiasts in this historically gun-friendly state.

There's also been a widespread assumption among political observers that former U.S. Rep. Beto O'Rourke damaged his statewide prospects in Texas — perhaps irretrievably — when he took issue with assault weapons during his brief bid for the 2020 Democratic presidential nomination.

"Hell yes, we're going to take your AR-15, your AK-47," O'Rourke said in a September 2019 debate, hosted by Texas Southern University.

Whether you agree or disagree with that proposal, there's something quite refreshing about the El Pasoan's refusal to backpedal or flip-flop on gun safety since entering the 2022 gubernatorial race.

O'Rourke has said that he still supports a mandatory buyback program for assault weapons — a position he came to after an August 2019 massacre at an El Paso Walmart that killed 23, followed just weeks later by another mass shooting, in Midland-Odessa, that left eight dead including the shooter. Both were carried out by gunmen wielding semi-automatic rifles.

And on Monday, at a rally in Amarillo, O'Rourke went after Gov. Greg Abbott directly over the issue of permitless carry. Under a new law signed by the governor earlier this year, Texans no longer need a license — or a background check or any sort of training — to carry a handgun in public.

"Whatever he might say, this governor really does not trust law enforcement," the Democrat told a crowd of several hundred people.

AMERICAN OVERSIGHT

The Texas sheriffs and police chiefs who opposed the permitless carry bill had, he noted, testified that over the past five years they denied some 37,000 applications for licenses to carry a handgun, after deeming the applicants too great a threat to their communities. That's to say nothing of the people who didn't bother to apply, because they knew they couldn't pass the background check, he added.

"Well, now," O'Rourke continued, "...violent criminals — at a time of rising violent crime — are in no way checked through that license-to-carry program."

If elected, he said, he'll seek to repeal the permitless carry law — a lofty goal, given that Republicans are likely to retain control of the Texas Legislature. But it's also a clear-sighted statement of purpose.

Republicans, needless to say, have taken notice — and even more strikingly, they appear to be playing defense.

"Robert Francis O'Rourke wants to disarm Texans like this woman," Abbott tweeted Monday evening, adding a link to a Fox News story about a Harris County woman who shot and killed a man during the course of an alleged attempted robbery.

"Criminals don't care what the law is; they will carry guns anyway," the Republican governor added.

Criminals don't care what the law is. Indeed. That's a profound insight, and one that should definitely serve as the basis for sound policymaking.

One wonders why we have any laws at all, much less a state penal code that includes thousands of the darn things.

One also wonders whether Abbott — a former state attorney general and Texas Supreme Court justice — is under the impression that his constituents are goldfish, and therefore unable to remember his own previous pronouncements on the subject of crime prevention.

Asked about his support of a new state law banning abortions after six weeks with no exceptions for victims of rape and incest, Abbott delivered this platitude: "Rape is a crime, and Texas will work tirelessly to make sure we eliminate all rapists from the streets of Texas by aggressively going out and arresting them and prosecuting them and getting them off the streets. So goal No. 1 in the state of Texas is to eliminate rape."

Basically, Abbott is for law and order and the rights of crime victims except when he isn't.

The conversation O'Rourke is insisting on, and compelling Abbott to engage with, is one that many Texans have long been hoping for.

AMERICAN OVERSIGHT

This is, as noted, a generally gun-friendly state. But in recent years, Republicans have passed a number of far-right priorities, including permitless carry, that are opposed by a majority of Texans, according to public polls.

Meanwhile, almost all gun-safety proposals filed in recent legislative sessions have fizzled ignominiously, even as gun violence continues to end lives and traumatize communities.

On Sunday, for example, a gunman opened fire on a crowd of mourners who had gathered in Baytown for a vigil. One young mother of a special needs child was killed and 13 others were injured. The vigil was in memory of another recent murder victim. While there's not necessarily a direct line between state laws and such terrors, it would be absurd to assume they have no connection whatsoever.

Or consider the tragedy last month in Lubbock, in which Chad Read, a 54-year-old father of three, was shot to death by his ex-wife's boyfriend, Kyle Carruth, after arriving at her house to pick up his son for a court-ordered visit. Carruth has not been charged in conjunction with the killing, which his defense lawyer has called "a justifiable homicide."

The attorney general's office is investigating. But in the meantime, video of the episode, released by Read's widow, depicts a bleak reality. An altercation that could have ended in angry words instead ended in death, because one man had ready access to a deadly weapon and no qualms about using it, even though he had no need to do so.

We may be used to this grim status quo, but it's more radical than anything O'Rourke is proposing. Many forget that President Bill Clinton signed an assault weapons ban into law in 1994, though it lapsed a decade later. And while polls show O'Rourke trailing Abbott, the crowds turning out for the former congressman in places like Amarillo and Lubbock explain why the governor seems a bit uneasy.

"We trust law enforcement; we want to see greater public safety; and we want to make sure that we protect the Second Amendment as well as protecting the lives of the people in our lives," O'Rourke said, at the Amarillo event. "We can do that; we are Texans."

It's bracing to hear such candor—and confidence—from a statewide candidate.

Governor Abbott Announces Additional Funding For Operation Lone Star
WBAP

Texas Governor Greg Abbott announced on Monday that his Public Safety Office will award an additional $38.4 million for law enforcement, jail operations, and court administration activities in direct support of Operation Lone Star.

The Governor's PSO has awarded $74.8 million in OLS funds to cities and counties in proximity to the Texas-Mexico border since the operation was launched in March 2021.

"From deterring illegal immigration, to preventing the smuggling of drugs and weapons, to curtailing human trafficking, the deployment of resources and personnel needed to arrest and jail criminals along the border is imperative to our comprehensive border security strategy under Operation Lone Star," said Governor Abbott. "This additional funding will strengthen our response to the border crisis and ensure our law enforcement and local partners have the resources they need to keep our communities safe in the federal government's absence."

The additional funding includes $19.5 million for specialized law enforcement equipment and supplies, $16 million for additional overtime, $1.9 million for construction of regional emergency communication radio towers, and $800,000 for travel costs associated with non-border counties providing law enforcement assistance to border disaster-declared counties.

Abbott Adds $38M In Operation Lone Star Funding At Texas-Mexico Border
By Andrew Schnitker and Russell Falcon
KXAN

Gov. Greg Abbott's office announced another $38 million for Operation Lone Star on the Southern border.

The governor and other leaders were at the border this weekend to observe wall construction the state started.

During a press conference at the border, the governor claimed uncontrolled illegal immigration at the border has resulted in more than 1.2 million people being apprehended. Abbott said people aren't only illegally immigrating from Mexico but are using the Texas border to get in from several countries across the globe, including China and Russia.

The new allotment includes $19.5 million for special equipment; $16 million for additional overtime and pay, including for court personnel; and some $800,000 for travel costs from non-border counties to send personnel to the border.

The governor's public safety office has awarded $74.8 million in funds to cities and counties near the Texas-Mexico border since the operation launched in March 2021.

AMERICAN OVERSIGHT

“From deterring illegal immigration, to preventing the smuggling of drugs and weapons, to curtailing human trafficking, the deployment of resources and personnel needed to arrest and jail criminals along the border is imperative to our comprehensive border security strategy under Operation Lone Star,” Abbott said in a statement.

Texas Governor's Decision: Whether To Pardon George Floyd
By Paul J. Weber
Washington Post

Doling out pardons is a holiday tradition for Texas Gov. Greg Abbott, who around every Christmas grants them to a handful of ordinary citizens, typically for minor offenses committed years or decades ago.

But one name stands out on his desk: George Floyd.

Abbott has not said whether he will posthumously pardon Floyd this year for a 2004 drug arrest in Houston by a former officer whose police work is no longer trusted by prosecutors. Texas’ parole board — stacked with Abbott appointees — unanimously recommended a pardon for Floyd in October.

Since then, the two-term Republican governor, who is up for reelection in 2022, has given no indication of whether he will grant what would be only the second posthumous pardon in Texas history. Floyd, who was Black, spent much of his life in Houston before moving to Minnesota, where his death under the knee of a white police officer last year led to a U.S. reckoning on race and policing.

“It doesn’t matter who you think George Floyd was, or what you think he stood for or didn’t stand for,” said Allison Mathis, a public defender in Houston who submitted Floyd’s pardon application. “What matters is he didn’t do this. It’s important for the governor to correct the record to show he didn’t do this.”

A spokeswoman for Abbott did not respond to requests for comment.

Pardons restore the rights of the convicted and forgive them in the eyes of the law. Floyd’s family and supporters said a posthumous pardon for him in Texas would show a commitment to accountability.

In February 2004, Floyd was arrested in Houston for selling $10 worth of crack in a police sting. He pleaded guilty to a drug charge and served 10 months in prison.

His case happened to be among dozens that prosecutors revisited in the fallout over a deadly drug raid in 2019 that resulted in murder charges against an officer, Gerald Goines, who is no longer with the Houston force. Prosecutors say Goines lied to obtain a search warrant in the 2019 raid that left a husband and wife dead, and the office of Harris County District Attorney Kim Ogg has since dismissed more than 160 drug convictions tied to Goines.

Goines has pleaded not guilty and his attorneys accuse Ogg of launching the review for political gain.

Abbott has several primary challengers from the far right, and his ongoing silence about a potential pardon for Floyd has raised questions by Mathis and others over whether political calculations are at play. His office has not responded to those charges.

Abbott attended Floyd’s memorial service last year in Houston, where he met with the family and floated the idea of a “George Floyd Act” that would take aim at police brutality. But Abbott never publicly supported such

AMERICAN OVERSIGHT

a measure months later when lawmakers returned to the Capitol, where Republicans instead made police funding a priority.

State Sen. Royce West, a Democrat who carried the "George Floyd Act" in the Senate, said he understands the politics if Abbott was waiting until after the GOP primary elections in March. But he said the governor should act on the recommendation.

"As he's always said, he is a law and order governor," West said. "And this would be following the law."

Lt. Gov. Dan Patrick: Biden Should Be Addressing The Country On The Border Crisis
Fox News

Dan Patrick, the lieutenant governor of Texas, told Fox News' "The Ingraham Angle" Monday that President Biden ought to approach the crisis playing out on the southern border in the same forum he designated to address the American people on the omicron variant.

DAN PATRICK: *"Jason [Chaffetz, the guest host], they [the Biden administration] would be lying to say that [the border is not a crisis] or clueless, and I don't believe they're clueless. This is a plan that they set about to let millions of people invade our country. They don't care who they are, including terrorists. You know, tomorrow night the president's going to address the nation on omicron, what he should be addressing the nation is on an issue as serious as the border."*

State News

Texas Law Allows Residents' Sensitive Personal Information To Be Exposed On County Websites
By Carolina Cuellar
Texas Public Radio

For more than a decade, some Texas county clerks' offices have left thousands of unredacted social security numbers online — exposing people to COVID relief fund theft and other identity crimes. County clerks never told people they were exposed, and the state government hasn't prioritized protecting this crucial piece of their personal information.

Even county clerks are at risk.

Hidalgo County Clerk Arturo Guajardo Jr. waited to see the printed screenshot of a document found on his department's public records website — which anyone can access.

"Let me see it. Are you sure it's mine?," he said. Unbeknownst to him, his own office had uploaded a document without redacting his social security number. Texas Public Radio had previously contacted Guajardo to notify him of the exposure.

"I remember you telling me that. Wow, that is my number," he said in disbelief after looking at the document. He laughed. "I'm filling out the [redaction request] form right after this," he said.

AMERICAN OVERSIGHT

Since 2007, the state government no longer allows social security numbers on certain documents and must redact this information if they receive a redaction request. State law further allows county clerks to review and redact older records, many of which contain unredacted social security numbers. But they aren't required to do so. And many do not, alarming privacy advocates.

"So very problematic," said Emory Roane, the Policy Counsel with Privacy Rights Clearinghouse, as he shook his head and sighed. "Very, very alarming."

Social security numbers should be kept confidential because they're unique and associated with a person since birth, Roan said. They're used throughout peoples' lives for things like loans, medical paperwork and, more recently, obtaining COVID-19 relief funds.

Criminals can use this identifier along with other basic pieces of information to commit identity crimes such as financial, medical or benefit fraud.

"If we have a dataset right now that has people's social security numbers publicly available, that is an enormous risk to all of those Texans that are included in that information," said Roane.

These numbers are on public records that residents are required to file with their county clerk's office.

The availability of social security numbers is problematic for the state's residents, and county clerks should allocate time and resources to solve this issue, according to State Sen. Juan "Chuy" Hinojosa of McAllen.

"It is within their domain. They've been entrusted with the information. They need to f****** deal with it," he said.

Currently, counties are only legally obligated to provide redaction request forms to people who want their social security numbers removed from public view. However, they aren't responsible for notifying those whose numbers are on county websites.

While some counties have taken action, including one that agreed to pull the numbers after TPR showed them their vulnerability, others still refuse to do so even after TPR reached out.

In 2020, Texas ranked among the top states for identity theft, according to the Federal Trade Commission 2020 Data Book. That year, they received almost 135,000 identity thefts reports from Texas.

Access to such information can lead to a myriad of crimes with a long-lasting impact. In 2020, according to the FTC, loan and lease fraud were among the most common forms of fraud in Texas. While the FTC does not have estimates on how much money was lost solely to identity theft at a state level, in 2020, they reported more than $200 million in fraud losses in Texas, of which identity theft was by far the most common.

A 2007 law changes accountability for county clerks

Most Texans could face legal penalties for disclosing a social security number, but a 2007 change in state law exempts county clerks from criminal liability for doing just that.

Living peoples' social security numbers had been deemed confidential under a 2005 amendment to an existing Texas law. Then-Texas Attorney General Greg Abbott reinforced this point in a 2007 opinion which states: "Texans have a legitimate expectation that their SSNs will remain confidential."

AMERICAN OVERSIGHT

But county clerks claimed that redacting old documents required too much work and money which “halted business and commerce.”

Abbott walked back his stance while the Texas legislature amended the law to absolve county clerks.

As of this 2007 amendment, county clerks are not liable for providing documents that contain unredacted social security numbers.

While Abbott, now governor, expressed his support in favor of social security number confidentiality, he still has not addressed the problem. His office did not respond to multiple requests for comment.

Another 2007 amendment also allowed for social security number redaction requests and prohibited social security numbers on certain document types. Now, forms may require only limited disclosure of a few social security number digits, but thousands of documents already filed in 2007 were not retroactively redacted.

Privacy protection varies by county

Across Texas, there are rampant inconsistencies in county clerks’ handling of social security numbers.

Texas Public Radio reached out to 16 Texas counties with the same questions about their social security number privacy policies. TPR chose counties based on their public records databases’ security levels and made sure to include the six most populated counties. Eight responded.

While some counties have taken the initiative of automatically redacting past records with computer software, other county clerks say they will not redact them without a request from the person whose number is exposed.

However, those county clerks haven’t alerted citizens whose numbers are exposed or have to take steps to protect themselves.

“You would expect that when a government agency exposes information of this level of sensitivity, the bare minimum would require notification to the individuals,” said Roane, the privacy advocate.

Rachel German, an instructor in the Masters of Security and Privacy Program at the University of Texas School of Information, said this is probably a case of limited resources and county clerks’ duty to make these documents publicly available.

But, she said, that shouldn't keep them from protecting people’s social security numbers.

“I do believe that there's an obligation for them to take it down once it's been notified to them that this information is out there,” said German.

Some counties have prioritized protecting this information. Others haven’t.

Fort Bend County purchased software to automatically redact personal identifiers like social security numbers even after the law was amended to absolve them from criminal liability.

“Although we follow [2007 law], we have been proactive in automated redaction of all our public records containing SSNs,” said Laura Richard, Fort Bend County Clerk, in an email.

Other counties like Bexar County did the same. “We didn't think it was a great idea to wait for people to let us know to redact them if we knew what documents had social security numbers,” said Raquel Montalvo, Senior Recording Division Chief.

However, Bexar County did not address all social security number exposures. Once TPR reached out to the Bexar County Clerk’s office, senior recording division chief Raquel Montalvo said they’d go back and redact the documents they missed.

Unlike Fort Bend or Bexar County, Brazos County interprets the law as to not allow automatic redactions of social security numbers on any documents. “There is not authorization per statute for us to automatically redact Social Security Numbers,” said Karen McQueen, Brazos County Clerk, in an email.

On top of the likelihood that someone might not know they’re vulnerable, the form they’re required to submit can itself be a liability.

The Denton County Clerk’s office had social security number redaction requests posted online as recently as 2018, some of them with the requestor’s social security number visible.

TPR contacted the Denton County Clerk’s office and they removed all redaction requests with unredacted social security numbers from the database. However, Juli Luke, the Denton County Clerk, did not express any intention to redact other documents with exposures.

The Hidalgo County Clerk’s office, whose county clerk’s own social security number was displayed, said they had no immediate plans to redact the numbers retroactively.

“The county clerk and a district clerk, by law, are exempt from having to redact them,” said Annette Muniz, Hidalgo County Clerk's Office chief deputy.

Muniz said the office will only redact documents with an official request from the filer. “When individuals come to us and tell us that something's been filed with their social security number, depending on what it is, we can keep it from view from the public, but they would have to let us know,” she said.

But, according to Muniz, it’s too resource-intensive to notify people who don’t know their social security number is visible. “For us to go out and inform them that would be really, really difficult and really costly to the county,” Muniz said.

On their website, the Attorney General of Texas lists ways to protect against identity theft, including not sharing personal information over the internet “unless you have a trusted relationship with the requestor and you initiated the contact.”

TPR sent 10 emails over two months requesting an interview and notifying the Attorney General’s office that social security numbers were on Texas county government websites without the filers’ knowledge. In an email, they responded by referencing the relevant Texas government codes.

Texas state laws
Texas privacy protection laws are lacking compared to other states.

For example, California does not exempt government entities from legal responsibility if social security numbers are unknowingly exposed. California also allows consumers to contact businesses about what personal information they may have.

In cases of breaches — where someone who is unauthorized accesses sensitive personal information — mandatory disclosure laws require the attacked entity to notify those whose data is compromised.

Texas was one of the last states to pass data breach notification laws and this protection does not extend to victims of government agency breaches.

“There's no real obligation on the government agency that is exposing this information currently to notify individuals,” Emory Roane said.

States with strong privacy protection laws like California include government agencies in legislation like breach notification laws.

“You would expect that when a government agency exposes information of this level of sensitivity, the bare minimum would require notification to the individuals,” Roane said, “we would certainly expect that the attorney general would then publish that disclosure that exposure on their website along with any other data breaches that they've received from businesses.”

Finding Solutions
German, the security and privacy professor, said the Texas Legislature should address the issue of unredacted social security numbers.

“It needs to come from above, in the Texas government, to require that they make this a priority. That [county governments] put the man power towards this when it's discovered and reported to them,“ she said.

However, state lawmakers disagree it’s their responsibility.

“The counties have to make this a priority. I can't believe that their excuse is gonna be that we don't have the resources,” Senator Hinojosa said.

He said the hundreds of millions in COVID relief money Hidalgo county received should go towards fixing this exposure. If county clerks are looking to remedy the situation, they need to contact legislators. “If they want any adjustment, change the law, they have to come and ask us. And they have not requested any type of change,” he said.

Hidalgo County clerk Guajardo Jr. insists that lack of funding and state lawmakers’ support hinders his department from fixing what he knows is a problem.

“I am in complete agreement that we could do more to protect these social security numbers,” Guajardo said.

However, the state government doesn’t enforce or provide resources for county clerks to improve the security of their records.

Guajardo said the county clerk’s office only receives a general fund from the county that hasn’t changed in about 10 or 15 years. Their only financing option for any initiative outside their allocated funds is by adding filing fees to every document requested from the department.

In other words, the best a county clerk with insufficient funds could do is lobby for a bill that allows them to charge extra from people requesting public records and Guajardo has little hope the legislature would agree to an increase in fees.

AMERICAN OVERSIGHT

“What we would need is for the state legislature or U.S. Congress to say, ‘We want you now to redact anything that has a social security number on it, and here's how you're going to pay for it.’” he said, “And then it would fall into place perfectly.”

After TPR showed Guajardo that his social security number is on the website he’s responsible for, he said he’s working with Kofile, the company that runs the website, to lessen the accessibility of social security numbers in the online database. But they are still not redacting documents without official requests or informing those who are exposed.

If you’re concerned your social security number is compromised, reach out to the county clerk’s office where your documents are filed to see if your social security number is redacted.

If your sensitive personal information is publicly available, you may request a redaction through the corresponding county clerk and, in most cases, they must redact your social security number.

If your identity is stolen, the Attorney General of Texas’ website contains resources on what to do if you’re an identity theft victim.

You can also reach out to the Identity Theft Resource Center for help on how to deal with and recover from identity theft.

Education

Gov. Abbott Directs $123M In Federal Covid-19 Relief Funding Toward Education In Texas
By Megan Menchaca
Austin American Statesman

Gov. Greg Abbott said Monday that Texas will provide $123.3 million in federal COVID-19 relief money for education.

The final round of money from the relief fund came through the Coronavirus Response and Relief Supplemental Appropriations Act, a bill that includes nearly $82 billion in aid for education.

Congress initially established the Governor's Emergency Education Relief Fund under the Coronavirus Aid, Relief, and Economic Security Act in March 2020 to provide local educational agencies and higher education institutions with emergency assistance in response to the pandemic.

Through the relief fund, Texas has invested more than $362 million for higher education and $67.5 million for K-12 public education since the beginning of the pandemic. The state has previously allocated the governor’s relief money for items such as emergency student support, improving distance education course offerings, and information security and accessibility.

This round of funding includes $20 million for the Supplemental Special Education Services program, which provides grants to families of eligible students served by special education. It also includes $10 million for charter school grants to expand the number of charter schools in the state.

“The State of Texas remains committed to students and their success in our education systems," Gov. Greg Abbott said.

“The State of Texas remains committed to students and their success in our education systems — that includes ensuring parents have an option to send their kids to a high-quality charter school and providing direct support to families with children who have special needs,” Abbott said in a news release.

Texas also is providing $25 million to nurses for loan repayment, financial aid, and nursing education and $17.5 million for credentials for digital skills, data analytics and programs for front-line health care workers.

Other funding includes more than $30 million to improve student enrollment, retention and credential completion and $12.5 million for student financial aid programs, including transfer grants and the Texas Leadership Scholarship Program.

“In addition to Texas’ commitment to student success programs, this funding will help ensure that students of all ages will not only enter into a higher education program, but they will leave as quickly as possible with a high-value degree or credential,” Abbott said.

The remaining funding will support work to improve the state’s educational and workforce data infrastructure ($5 million) and Commercial Driver License training and repayment ($3 million).

“We have also quickly become a leader in workforce education, reskilling, and upskilling, and this additional funding will ensure a talent-strong Texas that continues to create and import jobs for decades to come,” Abbott said.

Texas Education Commissioner Mike Morath said in the news release that Abbott and legislative leaders have made public education a top priority even as COVID-19 created various challenges for schools.

"For some of our most at-risk students, this significant new round of funding will prioritize getting families across Texas direct access to special education and other targeted supplemental services to support their children’s varied educational needs,” Morath said.

Harrison Keller, Texas commissioner of higher education, said state leaders recognized during the pandemic that investments in higher education are essential for Texas’ economic recovery and future competitiveness.

“This commitment reflects a vision that has allowed Texas to become one of only a few states that prioritized discretionary federal stimulus funds for higher education,” Keller said. “We are grateful for these strategic investments in building a talent strong Texas.”

Musk Teases Huge Job Number At Austin-Area Tesla Factory
By Jaclyn Ramkissoon and Kathryn Hardison
KXAN

Travis County’s Tesla gigafactory, which is expected to start production any day now, could have a bigger economic impact on the Austin area than originally thought, Austin Business Journal reports.

Tesla headquarters officially move to Austin

AMERICAN OVERSIGHT

ABJ reported CEO Elon Musk wrote on Twitter last week the factory will be a $10 billion-plus investment "over time" and will create at least 20,000 direct jobs and 100,000 indirect jobs.

ABJ said if those plans play out, that could make the electric automaker one of the largest, if not the largest, private-sector employer in the Austin area. ABJ reports according to its records, as of July, popular grocer H-E-B held the No. 1 spot with roughly 19,000 workers.

Tesla intends to produce its Cybertruck, Model 3, Model Y SUV and Semi tractor-trailer at the factory.

Tesla production plant on track to finish on time, state filings suggest
ABJ spoke to several analysts who cover the company; they said the gigafactory is critical to the company's production plans. One of them even stated, "Austin will be the core production artery for Tesla by 2023."

DHS To Close Some Gaps In Border Wall In Ongoing Effort To Clean Up Trump-Era Projects
By Priscilla Alvarez
KVIA

The Department of Homeland Security plans to close small gaps in the border wall, make adjustments to prevent flooding and complete prior construction of access roads, the department announced Monday.

In one of his first actions in office, President Joe Biden ordered a pause on wall construction and called for a review of projects and funds. Over the course of the year, the administration has terminated border wall contracts and gradually returned land to property owners that had been seized for barrier construction.

But as a result of the review, DHS has determined there is some work that must be completed.

Those activities include completing/installing drainage to prevent flooding, disposing of residual materials that are not required to complete work, and closing "small gaps that remain open from prior construction activities and remediating incomplete gates."

The work will be done in the US Border Patrol's San Diego, El Centro, Yuma, Tucson, El Paso, and Del Rio sectors. The work the administration will undertake is focused on addressing life, safety, environmental, and remediation requirements, the department said.

DHS has previously announced efforts to address unfinished projects, like repairs of border barriers in San Diego and in the Rio Grande Valley.

"The type of work that is required will vary by Sector and will be executed with available funding in priority locations identified by CBP," DHS said in a statement. "The Administration continues to call on Congress to cancel remaining border wall funding and instead fund smarter border security measures that are proven to be more effective at improving safety and security at the border."

DHS is using already-appropriated funds to address environmental issues stemming from the Trump administration's wall construction and for construction clean up.

AMERICAN OVERSIGHT

The Biden administration's decision to halt construction has attracted criticism from Republicans, including Texas Gov. Greg Abbott who announced an initiative this year to build barriers along the Texas-Mexico border. Over the weekend, Abbott unveiled construction of a border wall underway in south Texas, while blaming the Biden administration for allegedly failing to "enforce the immigration laws."

Gov. Abbott Asked Texas Landowners To Report Damage Caused By Migration. Here Are The Results So Far.
By Anastasiya Bolton
KENS

Texas landowners near the border with Mexico have been vocal for a while about the damages migration causes.

Broken fences, rammed gates and injury to livestock are common as migrants try to circumvent Border Patrol checkpoints and get north, several law enforcement officials along the border told KENS 5.

In July, Governor Greg Abbott urged Texas landowners to complete a self-reporting damage survey to help estimate the costs, KENS 5 obtained the results of the survey so far.

"It's really unbelievable," said Susan Kibbe, Executive Director of South Texans Property Rights Association (STPRA). "The amount of damage especially in some areas just because of where these ranchers are, sustain hundreds of thousands of dollars' worth of damage."

Kibbe told KENS 5, the association's first landowner meeting was in 2005 to talk border security and immigration reform.

"It hasn't been resolved, hasn't been solved," Kibbe told KENS 5. "And now there is no border security. So, you know, we're trying to get the word out and do the best we can to make a difference."

So far, landowners and the counties have been paying the cost of migration.

"That's a federal issue," Kibbe said. "That's been back and forth over the past decade."

"These smugglers drive through fences," she added, "ram gates, cut locks. Those fences are for a purpose that's [to] separate cattle. So, when they do that, and go through multiple properties, then you have livestock exposed to sometimes public roads, mixed, where a whole year's breeding season is diminished. It hits the pocketbook."

Kibbe told KENS 5 the association didn't have current estimates of landowner damages.

In July, Governor Abbott asked the landowners to help get that figure, and "inform the state's ongoing efforts to secure the border," as the press release stated.

Through a Public Information Request, KENS 5 obtained the results of the survey from July through November 2021.

The Excel spread sheets KENS 5 was provided, showed the state received 53 reports from owners and renters in multiple counties, including Maverick, Travis, Hidalgo counties, as well as Val Verde, Starr, Live Oak, Lavaca, Jackson and Webb.

Entries included information that some damaged structures were homes, some businesses. Some structures were uninhabitable, others, people were still able to occupy.

In a recent interview with KENS 5's Niccole Caan, Abbott said the survey accomplishes several things.

"It provides us insight and information about the different ways that different communities have been harmed," Abbott said. "We are aggregating all of those costs, and we're submitting those costs to Washington D.C. because the local communities had to bear those costs, but they shouldn't have to pay for them. It should be the federal government that pays for those costs."

The survey results obtained by KENS 5 so far don't show a complete picture of what landowners are dealing with. For example, it appears not everyone provided damage estimates when filling out their forms.

The individual reported estimated uninsured damages ranging from 3,000 to 100,000 dollars.

The estimates provide a window, though, into some of the daily challenges of border communities.

"This is just inhumane all the way around to all of us," Kibbe told KENS 5. "To the migrants, to landowners, to the citizens of this nation. And so, we just need somebody to our federal government to step up to the plate and do the job."

The border survey is still available for Texans to report damage related to border crisis.

Transportation

In Texas Supreme Court Case, State Argues That Dallas-Houston Bullet Train Developer Can't Use Eminent Domain
By Alexa Ura
Texas Tribune

The Texas attorney general's office has put its weight behind a landowner's case against the companies developing a controversial Dallas-Houston bullet train, arguing they can't force people to sell parcels needed for the high-speed rail project.

Weighing in on the matter at the invitation of the Texas Supreme Court, the attorney general's office offered the latest twist in the nearly decade-long fight over a 240-mile line that would connect Dallas and Houston. While the project has picked up support from leaders of urban areas, it's encountered hard resistance from residents of the rural counties on its proposed path.

One of those residents, Leon County landowner James Miles, sued Texas Central after the private company sought permission to survey his 600-acre property in 2015 as part of its efforts to examine the land for the project. Miles asked the courts to declare that the company did not have the right to enter his property because it does not have the eminent domain authority granted to railroad companies.

He won at a trial court, but the legal dispute reached the Texas Supreme Court after a state appellate court in Corpus Christi sided with Texas Central and a related company.

In a legal brief filed with the Texas Supreme Court on Friday, deputies for Texas Attorney General Ken Paxton argued the high court should reverse that appellate decision and rule in Miles' favor because the companies fall short of the Texas Constitution's definition of a rail company.

"The [companies] may only make preliminary examinations and surveys of private landowners' properties for the purpose of constructing and operating a bullet train if they are either railroad companies or interurban electric railway companies," the state wrote in its brief. "In the State's view, the [companies] are neither."

That leaves them with "no authority to enter, examine, survey or condemn Miles' land," the state wrote.

The state's legal brief turns largely on the meaning of a portion of the state Transportation Code that gives private entities the ability to exercise eminent domain if they are "operating a railroad." Reading at times as a semantic study in how to interpret tenses and grammar in state statute, the state said the companies could not be classified in that way because they "currently own no trains and have constructed no tracks or train depots."

"The rules of grammar confirm that the Respondents are not railroad companies," the AG's office argued.

In the litigation, the companies have contended they meet that definition under the Transportation Code because they have performed the preliminary activities needed to construct a railroad, creating a reasonable probability that they would operate a railroad in the future.

The state also disagreed with the companies on this point, saying they could not show a likelihood of procuring sufficient financing to complete the project.

Texas Central representatives did not immediately respond to a request for comment. The company has previously promised to fund the project — at a cost around $20 billion — with the support of private investors and without public funds.

Company executives have previously said they would prefer not to use eminent domain "at all" and would rather work out amicable sales agreements for the thousands of parcels needed to construct the project across 10 counties. The company has also vowed to minimize how much the line will impact the land around it.

The high-speed rail project has been mired by setbacks and controversy for the better part of a decade. In both courthouses and at the Capitol, opponents have zeroed in on Texas Central's claim that state law gives it the right to use eminent domain and force unwilling owners to sell their land.

The push for the Dallas-Houston bullet train has been built on its promise of establishing a line on which trains could run at speeds of up to 205 mph to cut a trip that would normally take four hours by car down to 90 minutes.

But securing the land along its proposed route has proven a challenge. In 2020, Texas Central said it had secured more than 600 parcels covering just about 40% of the lots — not the land — it needs for the project. Given fierce opposition to the project in rural areas, eminent domain is seen as likely to become a necessity at some point.

In Leon County, one proposal would bisect Miles' 600 acres with a 100-foot right-of-way, according to the legal filings.

On Monday, opponents of the rail described the attorney general's brief as a "strong show of support for Texas private property rights."

AMERICAN OVERSIGHT

"The brief filed by the [attorney general's office] is clear that the past activities, corporate structure and financial state of the project coupled with the very high level of uncertainty that the project would ever even be built does not meet a threshold that would support Texas Central's claim that it has eminent domain authority," the group Texans Against High-Speed Rail said in a press release.

Opinion/Editorial

Gov. Greg Abbott Building The Border Wall Back Better
By Cal Thomas
Washington Times

During a debate with George H.W. Bush in New Hampshire in 1980, the moderator asked that Ronald Reagan's microphone be "turned off for the moment." Reagan was angry and said something that might be applied to the failure of the Biden administration to use materials lying unused in Texas paid for during the Trump administration to construct the border wall. Said Reagan, "I paid for this microphone." The clear implication was that since he paid for it, he ought to be able to use it.

Gov. Greg Abbott of Texas is making a similar argument. He believes the Biden administration, either to spite former President Donald Trump or because it is not interested in securing the border, refuses to use materials already paid for by taxpayers to resume construction of the wall. As a result, Mr. Abbott has ordered that construction resume, using state taxpayer funds and new materials.

More than $100 million of taxpayer money was spent on materials for the border wall during the Trump administration. They should be made available to Mr. Abbott, but the Biden administration won't allow it. Mr. Biden canceled contracts for its construction after entering office last January.

The Texas Department of Transportation is set to pay nearly $25 million to construct a nearly two-mile concrete barrier along the border in Eagle Pass. The Texas Tribune reports: "Under the project, the state has also contracted for a temporary fence near the right of way along State Loop 480, which the Department of Public Safety has designated a high-traffic area for illegal immigration."

Officers from the Texas Department of Public Safety are patrolling parts of the border where federal border control officers cannot be found. Immigrants who cross are being charged with trespassing and put in jail.

Sen. Joe Manchin is a weak gate guard on Build Back Better socialism
Mr. Abbott has said: "The Biden administration has abandoned its responsibilities to secure the border, and Texans are suffering as a result. The problems along the border are only getting worse due to President Biden's inaction. Property is being destroyed, deadly drugs and illegal weapons are being smuggled into communities throughout the state, law enforcement is having to redirect their resources, and county judges and mayors face skyrocketing expenses. Texas is doing more than any state has ever done to protect the border, but it is clear that more is needed. In the Biden administration's absence, Texas is stepping up to get the job done by building the border wall. Through this comprehensive public safety effort, we will secure the border, slow the influx of unlawful immigrants, and restore order in our border communities."

As some media outlets (mostly Fox) show pictures of migrants illegally entering the country, and new reports find some are coming from other than Central American countries, opinion appears to be shifting. A Fox poll last spring found an increase in the portion of respondents saying the migrants "hurt" the country, and that

attitude is seen across the board: “independents (+21), Republicans (+20), whites (+18), men (+16), women (+14), Blacks (+11) and Democrats (+8) are more likely to think immigrants hurt rather than help.”

Governor Abbott Announces Additional Funding For Operation Lone Star
WBAP

Texas Governor Greg Abbott announced on Monday that his Public Safety Office will award an additional $38.4 million for law enforcement, jail operations, and court administration activities in direct support of Operation Lone Star.

The Governor's PSO has awarded $74.8 million in OLS funds to cities and counties in proximity to the Texas-Mexico border since the operation was launched in March 2021.

"From deterring illegal immigration, to preventing the smuggling of drugs and weapons, to curtailing human trafficking, the deployment of resources and personnel needed to arrest and jail criminals along the border is imperative to our comprehensive border security strategy under Operation Lone Star," said Governor Abbott. "This additional funding will strengthen our response to the border crisis and ensure our law enforcement and local partners have the resources they need to keep our communities safe in the federal government's absence."

The additional funding includes $19.5 million for specialized law enforcement equipment and supplies, $16 million for additional overtime, $1.9 million for construction of regional emergency communication radio towers, and $800,000 for travel costs associated with non-border counties providing law enforcement assistance to border disaster-declared counties.

Abbott Adds $38M In Operation Lone Star Funding At Texas-Mexico Border
By Andrew Schnitker and Russell Falcon
KXAN

Gov. Greg Abbott's office announced another $38 million for Operation Lone Star on the Southern border.

The governor and other leaders were at the border this weekend to observe wall construction the state started.

During a press conference at the border, the governor claimed uncontrolled illegal immigration at the border has resulted in more than 1.2 million people being apprehended. Abbott said people aren't only illegally immigrating from Mexico but are using the Texas border to get in from several countries across the globe, including China and Russia.

AMERICAN OVERSIGHT

The new allotment includes $19.5 million for special equipment; $16 million for additional overtime and pay, including for court personnel; and some $800,000 for travel costs from non-border counties to send personnel to the border.

The governor's public safety office has awarded $74.8 million in funds to cities and counties near the Texas-Mexico border since the operation launched in March 2021.

"From deterring illegal immigration, to preventing the smuggling of drugs and weapons, to curtailing human trafficking, the deployment of resources and personnel needed to arrest and jail criminals along the border is imperative to our comprehensive border security strategy under Operation Lone Star," Abbott said in a statement.

Texas Governor's Decision: Whether To Pardon George Floyd
By Paul J. Weber
Washington Post

Doling out pardons is a holiday tradition for Texas Gov. Greg Abbott, who around every Christmas grants them to a handful of ordinary citizens, typically for minor offenses committed years or decades ago.

But one name stands out on his desk: George Floyd.

Abbott has not said whether he will posthumously pardon Floyd this year for a 2004 drug arrest in Houston by a former officer whose police work is no longer trusted by prosecutors. Texas' parole board — stacked with Abbott appointees — unanimously recommended a pardon for Floyd in October.

Since then, the two-term Republican governor, who is up for reelection in 2022, has given no indication of whether he will grant what would be only the second posthumous pardon in Texas history. Floyd, who was Black, spent much of his life in Houston before moving to Minnesota, where his death under the knee of a white police officer last year led to a U.S. reckoning on race and policing.

"It doesn't matter who you think George Floyd was, or what you think he stood for or didn't stand for," said Allison Mathis, a public defender in Houston who submitted Floyd's pardon application. "What matters is he didn't do this. It's important for the governor to correct the record to show he didn't do this."

A spokeswoman for Abbott did not respond to requests for comment.

Pardons restore the rights of the convicted and forgive them in the eyes of the law. Floyd's family and supporters said a posthumous pardon for him in Texas would show a commitment to accountability.

AMERICAN OVERSIGHT

In February 2004, Floyd was arrested in Houston for selling $10 worth of crack in a police sting. He pleaded guilty to a drug charge and served 10 months in prison.

His case happened to be among dozens that prosecutors revisited in the fallout over a deadly drug raid in 2019 that resulted in murder charges against an officer, Gerald Goines, who is no longer with the Houston force. Prosecutors say Goines lied to obtain a search warrant in the 2019 raid that left a husband and wife dead, and the office of Harris County District Attorney Kim Ogg has since dismissed more than 160 drug convictions tied to Goines.

Goines has pleaded not guilty and his attorneys accuse Ogg of launching the review for political gain.

Abbott has several primary challengers from the far right, and his ongoing silence about a potential pardon for Floyd has raised questions by Mathis and others over whether political calculations are at play. His office has not responded to those charges.

Abbott attended Floyd's memorial service last year in Houston, where he met with the family and floated the idea of a "George Floyd Act" that would take aim at police brutality. But Abbott never publicly supported such a measure months later when lawmakers returned to the Capitol, where Republicans instead made police funding a priority.

State Sen. Royce West, a Democrat who carried the "George Floyd Act" in the Senate, said he understands the politics if Abbott was waiting until after the GOP primary elections in March. But he said the governor should act on the recommendation.

"As he's always said, he is a law and order governor," West said. "And this would be following the law."

Texas Law Allows Residents' Sensitive Personal Information To Be Exposed On County Websites
By Carolina Cuellar
Texas Public Radio

For more than a decade, some Texas county clerks' offices have left thousands of unredacted social security numbers online — exposing people to COVID relief fund theft and other identity crimes. County clerks never told people they were exposed, and the state government hasn't prioritized protecting this crucial piece of their personal information.

Even county clerks are at risk.

Hidalgo County Clerk Arturo Guajardo Jr. waited to see the printed screenshot of a document found on his department's public records website — which anyone can access.

"Let me see it. Are you sure it's mine?," he said. Unbeknownst to him, his own office had uploaded a document without redacting his social security number. Texas Public Radio had previously contacted Guajardo to notify him of the exposure.

"I remember you telling me that. Wow, that is my number," he said in disbelief after looking at the document. He laughed. "I'm filling out the [redaction request] form right after this," he said.

Since 2007, the state government no longer allows social security numbers on certain documents and must redact this information if they receive a redaction request. State law further allows county clerks to review and redact older records, many of which contain unredacted social security numbers. But they aren't required to do so. And many do not, alarming privacy advocates.

"So very problematic," said Emory Roane, the Policy Counsel with Privacy Rights Clearinghouse, as he shook his head and sighed. "Very, very alarming."

Social security numbers should be kept confidential because they're unique and associated with a person since birth, Roan said. They're used throughout peoples' lives for things like loans, medical paperwork and, more recently, obtaining COVID-19 relief funds.

AMERICAN OVERSIGHT

Criminals can use this identifier along with other basic pieces of information to commit identity crimes such as financial, medical or benefit fraud.

“If we have a dataset right now that has people’s social security numbers publicly available, that is an enormous risk to all of those Texans that are included in that information,” said Roane.

These numbers are on public records that residents are required to file with their county clerk's office.

The availability of social security numbers is problematic for the state’s residents, and county clerks should allocate time and resources to solve this issue, according to State Sen. Juan “Chuy” Hinojosa of McAllen.

“It is within their domain. They've been entrusted with the information. They need to f****** deal with it,” he said.

Currently, counties are only legally obligated to provide redaction request forms to people who want their social security numbers removed from public view. However, they aren’t responsible for notifying those whose numbers are on county websites.

While some counties have taken action, including one that agreed to pull the numbers after TPR showed them their vulnerability, others still refuse to do so even after TPR reached out.

In 2020, Texas ranked among the top states for identity theft, according to the Federal Trade Commission 2020 Data Book. That year, they received almost 135,000 identity thefts reports from Texas.

Access to such information can lead to a myriad of crimes with a long-lasting impact. In 2020, according to the FTC, loan and lease fraud were among the most common forms of fraud in Texas. While the FTC does not have estimates on how much money was lost solely to identity theft at a state level, in 2020, they reported more than $200 million in fraud losses in Texas, of which identity theft was by far the most common.

A 2007 law changes accountability for county clerks

Most Texans could face legal penalties for disclosing a social security number, but a 2007 change in state law exempts county clerks from criminal liability for doing just that.

Living peoples’ social security numbers had been deemed confidential under a 2005 amendment to an existing Texas law. Then-Texas Attorney General Greg Abbott reinforced this point in a 2007 opinion which states: “Texans have a legitimate expectation that their SSNs will remain confidential.”

AMERICAN OVERSIGHT

But county clerks claimed that redacting old documents required too much work and money which “halted business and commerce.”

Abbott walked back his stance while the Texas legislature amended the law to absolve county clerks.

As of this 2007 amendment, county clerks are not liable for providing documents that contain unredacted social security numbers.

While Abbott, now governor, expressed his support in favor of social security number confidentiality, he still has not addressed the problem. His office did not respond to multiple requests for comment.

Another 2007 amendment also allowed for social security number redaction requests and prohibited social security numbers on certain document types. Now, forms may require only limited disclosure of a few social security number digits, but thousands of documents already filed in 2007 were not retroactively redacted.

Privacy protection varies by county

Across Texas, there are rampant inconsistencies in county clerks’ handling of social security numbers.

Texas Public Radio reached out to 16 Texas counties with the same questions about their social security number privacy policies. TPR chose counties based on their public records databases’ security levels and made sure to include the six most populated counties. Eight responded.

While some counties have taken the initiative of automatically redacting past records with computer software, other county clerks say they will not redact them without a request from the person whose number is exposed.

However, those county clerks haven’t alerted citizens whose numbers are exposed or have to take steps to protect themselves.

“You would expect that when a government agency exposes information of this level of sensitivity, the bare minimum would require notification to the individuals,” said Roane, the privacy advocate.

Rachel German, an instructor in the Masters of Security and Privacy Program at the University of Texas School of Information, said this is probably a case of limited resources and county clerks’ duty to make these documents publicly available.

But, she said, that shouldn't keep them from protecting people’s social security numbers.

AMERICAN OVERSIGHT

“I do believe that there's an obligation for them to take it down once it's been notified to them that this information is out there,” said German.

Some counties have prioritized protecting this information. Others haven’t.

Fort Bend County purchased software to automatically redact personal identifiers like social security numbers even after the law was amended to absolve them from criminal liability.

“Although we follow [2007 law], we have been proactive in automated redaction of all our public records containing SSNs,” said Laura Richard, Fort Bend County Clerk, in an email.

Other counties like Bexar County did the same. “We didn't think it was a great idea to wait for people to let us know to redact them if we knew what documents had social security numbers,” said Raquel Montalvo, Senior Recording Division Chief.

However, Bexar County did not address all social security number exposures. Once TPR reached out to the Bexar County Clerk’s office, senior recording division chief Raquel Montalvo said they’d go back and redact the documents they missed.

Unlike Fort Bend or Bexar County, Brazos County interprets the law as to not allow automatic redactions of social security numbers on any documents. “There is not authorization per statute for us to automatically redact Social Security Numbers,” said Karen McQueen, Brazos County Clerk, in an email.

On top of the likelihood that someone might not know they’re vulnerable, the form they’re required to submit can itself be a liability.

The Denton County Clerk’s office had social security number redaction requests posted online as recently as 2018, some of them with the requestor’s social security number visible.

TPR contacted the Denton County Clerk’s office and they removed all redaction requests with unredacted social security numbers from the database. However, Juli Luke, the Denton County Clerk, did not express any intention to redact other documents with exposures.

The Hidalgo County Clerk’s office, whose county clerk’s own social security number was displayed, said they had no immediate plans to redact the numbers retroactively.

“The county clerk and a district clerk, by law, are exempt from having to redact them,” said Annette Muniz, Hidalgo County Clerk's Office chief deputy.

Muniz said the office will only redact documents with an official request from the filer. “When individuals come to us and tell us that something's been filed with their social

AMERICAN OVERSIGHT

security number, depending on what it is, we can keep it from view from the public, but they would have to let us know," she said.

But, according to Muniz, it's too resource-intensive to notify people who don't know their social security number is visible. "For us to go out and inform them that would be really, really difficult and really costly to the county," Muniz said.

On their website, the Attorney General of Texas lists ways to protect against identity theft, including not sharing personal information over the internet "unless you have a trusted relationship with the requestor and you initiated the contact."

TPR sent 10 emails over two months requesting an interview and notifying the Attorney General's office that social security numbers were on Texas county government websites without the filers' knowledge. In an email, they responded by referencing the relevant Texas government codes.

Texas state laws
Texas privacy protection laws are lacking compared to other states.

For example, California does not exempt government entities from legal responsibility if social security numbers are unknowingly exposed. California also allows consumers to contact businesses about what personal information they may have.

In cases of breaches — where someone who is unauthorized accesses sensitive personal information — mandatory disclosure laws require the attacked entity to notify those whose data is compromised.

Texas was one of the last states to pass data breach notification laws and this protection does not extend to victims of government agency breaches.

"There's no real obligation on the government agency that is exposing this information currently to notify individuals," Emory Roane said.

States with strong privacy protection laws like California include government agencies in legislation like breach notification laws.

"You would expect that when a government agency exposes information of this level of sensitivity, the bare minimum would require notification to the individuals," Roane said, "we would certainly expect that the attorney general would then publish that disclosure that exposure on their website along with any other data breaches that they've received from businesses."

Finding Solutions
German, the security and privacy professor, said the Texas Legislature should address the issue of unredacted social security numbers.

AMERICAN OVERSIGHT

“It needs to come from above, in the Texas government, to require that they make this a priority. That [county governments] put the man power towards this when it's discovered and reported to them,“ she said.

However, state lawmakers disagree it’s their responsibility.

“The counties have to make this a priority. I can't believe that their excuse is gonna be that we don't have the resources,” Senator Hinojosa said.

He said the hundreds of millions in COVID relief money Hidalgo county received should go towards fixing this exposure. If county clerks are looking to remedy the situation, they need to contact legislators. “If they want any adjustment, change the law, they have to come and ask us. And they have not requested any type of change,” he said.

Hidalgo County clerk Guajardo Jr. insists that lack of funding and state lawmakers’ support hinders his department from fixing what he knows is a problem.

“I am in complete agreement that we could do more to protect these social security numbers,” Guajardo said.

However, the state government doesn’t enforce or provide resources for county clerks to improve the security of their records.

Guajardo said the county clerk’s office only receives a general fund from the county that hasn’t changed in about 10 or 15 years. Their only financing option for any initiative outside their allocated funds is by adding filing fees to every document requested from the department.

In other words, the best a county clerk with insufficient funds could do is lobby for a bill that allows them to charge extra from people requesting public records and Guajardo has little hope the legislature would agree to an increase in fees.

“What we would need is for the state legislature or U.S. Congress to say, ‘We want you now to redact anything that has a social security number on it, and here's how you're going to pay for it.’” he said, “And then it would fall into place perfectly.”

After TPR showed Guajardo that his social security number is on the website he’s responsible for, he said he’s working with Kofile, the company that runs the website, to lessen the accessibility of social security numbers in the online database. But they are still not redacting documents without official requests or informing those who are exposed.

If you’re concerned your social security number is compromised, reach out to the county clerk’s office where your documents are filed to see if your social security number is redacted.

AMERICAN OVERSIGHT

If your sensitive personal information is publicly available, you may request a redaction through the corresponding county clerk and, in most cases, they must redact your social security number.

If your identity is stolen, the Attorney General of Texas' website contains resources on what to do if you're an identity theft victim.

You can also reach out to the Identity Theft Resource Center for help on how to deal with and recover from identity theft.

Education

Gov. Abbott Directs $123M In Federal Covid-19 Relief Funding Toward Education In Texas
By Megan Menchaca
Austin American Statesman

Gov. Greg Abbott said Monday that Texas will provide $123.3 million in federal COVID-19 relief money for education.

The final round of money from the relief fund came through the Coronavirus Response and Relief Supplemental Appropriations Act, a bill that includes nearly $82 billion in aid for education.

Congress initially established the Governor's Emergency Education Relief Fund under the Coronavirus Aid, Relief, and Economic Security Act in March 2020 to provide local educational agencies and higher education institutions with emergency assistance in response to the pandemic.

Through the relief fund, Texas has invested more than $362 million for higher education and $67.5 million for K-12 public education since the beginning of the pandemic. The state has previously allocated the governor's relief money for items such as emergency student support, improving distance education course offerings, and information security and accessibility.

This round of funding includes $20 million for the Supplemental Special Education Services program, which provides grants to families of eligible students served by special education. It also includes $10 million for charter school grants to expand the number of charter schools in the state.

"The State of Texas remains committed to students and their success in our education systems," Gov. Greg Abbott said.

AMERICAN OVERSIGHT

“The State of Texas remains committed to students and their success in our education systems — that includes ensuring parents have an option to send their kids to a high-quality charter school and providing direct support to families with children who have special needs,” Abbott said in a news release.

Texas also is providing $25 million to nurses for loan repayment, financial aid, and nursing education and $17.5 million for credentials for digital skills, data analytics and programs for front-line health care workers.

Other funding includes more than $30 million to improve student enrollment, retention and credential completion and $12.5 million for student financial aid programs, including transfer grants and the Texas Leadership Scholarship Program.

“In addition to Texas’ commitment to student success programs, this funding will help ensure that students of all ages will not only enter into a higher education program, but they will leave as quickly as possible with a high-value degree or credential,” Abbott said.

The remaining funding will support work to improve the state’s educational and workforce data infrastructure ($5 million) and Commercial Driver License training and repayment ($3 million).

“We have also quickly become a leader in workforce education, reskilling, and upskilling, and this additional funding will ensure a talent-strong Texas that continues to create and import jobs for decades to come,” Abbott said.

Texas Education Commissioner Mike Morath said in the news release that Abbott and legislative leaders have made public education a top priority even as COVID-19 created various challenges for schools.

"For some of our most at-risk students, this significant new round of funding will prioritize getting families across Texas direct access to special education and other targeted supplemental services to support their children’s varied educational needs,” Morath said.

Harrison Keller, Texas commissioner of higher education, said state leaders recognized during the pandemic that investments in higher education are essential for Texas’ economic recovery and future competitiveness.

“This commitment reflects a vision that has allowed Texas to become one of only a few states that prioritized discretionary federal stimulus funds for higher education,” Keller said. “We are grateful for these strategic investments in building a talent strong Texas.”

Business/Economy

Musk Teases Huge Job Number At Austin-Area Tesla Factory
By Jaclyn Ramkissoon and Kathryn Hardison
KXAN

Travis County's Tesla gigafactory, which is expected to start production any day now, could have a bigger economic impact on the Austin area than originally thought, Austin Business Journal reports.

Tesla headquarters officially move to Austin
ABJ reported CEO Elon Musk wrote on Twitter last week the factory will be a $10 billion-plus investment "over time" and will create at least 20,000 direct jobs and 100,000 indirect jobs.

ABJ said if those plans play out, that could make the electric automaker one of the largest, if not the largest, private-sector employer in the Austin area. ABJ reports according to its records, as of July, popular grocer H-E-B held the No. 1 spot with roughly 19,000 workers.

Tesla intends to produce its Cybertruck, Model 3, Model Y SUV and Semi tractor-trailer at the factory.

Tesla production plant on track to finish on time, state filings suggest
ABJ spoke to several analysts who cover the company; they said the gigafactory is critical to the company's production plans. One of them even stated, "Austin will be the core production artery for Tesla by 2023."

Immigration/Border Security

DHS To Close Some Gaps In Border Wall In Ongoing Effort To Clean Up Trump-Era Projects
By Priscilla Alvarez
KVIA

The Department of Homeland Security plans to close small gaps in the border wall, make adjustments to prevent flooding and complete prior construction of access roads, the department announced Monday.

In one of his first actions in office, President Joe Biden ordered a pause on wall construction and called for a review of projects and funds. Over the course of the year, the administration has terminated border wall contracts and gradually returned land to property owners that had been seized for barrier construction.

AMERICAN OVERSIGHT

But as a result of the review, DHS has determined there is some work that must be completed.

Those activities include completing/installing drainage to prevent flooding, disposing of residual materials that are not required to complete work, and closing "small gaps that remain open from prior construction activities and remediating incomplete gates."

The work will be done in the US Border Patrol's San Diego, El Centro, Yuma, Tucson, El Paso, and Del Rio sectors. The work the administration will undertake is focused on addressing life, safety, environmental, and remediation requirements, the department said.

DHS has previously announced efforts to address unfinished projects, like repairs of border barriers in San Diego and in the Rio Grande Valley.

"The type of work that is required will vary by Sector and will be executed with available funding in priority locations identified by CBP," DHS said in a statement. "The Administration continues to call on Congress to cancel remaining border wall funding and instead fund smarter border security measures that are proven to be more effective at improving safety and security at the border."

DHS is using already-appropriated funds to address environmental issues stemming from the Trump administration's wall construction and for construction clean up.

The Biden administration's decision to halt construction has attracted criticism from Republicans, including Texas Gov. Greg Abbott who announced an initiative this year to build barriers along the Texas-Mexico border. Over the weekend, Abbott unveiled construction of a border wall underway in south Texas, while blaming the Biden administration for allegedly failing to "enforce the immigration laws."

[BACK TO TOP]

Gov. Abbott Asked Texas Landowners To Report Damage Caused By Migration. Here Are The Results So Far.
By Anastasiya Bolton
KENS

Texas landowners near the border with Mexico have been vocal for a while about the damages migration causes.

Broken fences, rammed gates and injury to livestock are common as migrants try to circumvent Border Patrol checkpoints and get north, several law enforcement officials along the border told KENS 5.

AMERICAN OVERSIGHT

In July, Governor Greg Abbott urged Texas landowners to complete a self-reporting damage survey to help estimate the costs, KENS 5 obtained the results of the survey so far.

“It's really unbelievable,” said Susan Kibbe, Executive Director of South Texans Property Rights Association (STPRA). “The amount of damage especially in some areas just because of where these ranchers are, sustain hundreds of thousands of dollars’ worth of damage.”

Kibbe told KENS 5, the association’s first landowner meeting was in 2005 to talk border security and immigration reform.

“It hasn't been resolved, hasn't been solved,” Kibbe told KENS 5. “And now there is no border security. So, you know, we're trying to get the word out and do the best we can to make a difference.”

So far, landowners and the counties have been paying the cost of migration.

“That's a federal issue,” Kibbe said. “That's been back and forth over the past decade.”

“These smugglers drive through fences,” she added, “ram gates, cut locks. Those fences are for a purpose that’s [to] separate cattle. So, when they do that, and go through multiple properties, then you have livestock exposed to sometimes public roads, mixed, where a whole year’s breeding season is diminished. It hits the pocketbook.”

Kibbe told KENS 5 the association didn’t have current estimates of landowner damages.

In July, Governor Abbott asked the landowners to help get that figure, and “inform the state’s ongoing efforts to secure the border,” as the press release stated.

Through a Public Information Request, KENS 5 obtained the results of the survey from July through November 2021.

The Excel spread sheets KENS 5 was provided, showed the state received 53 reports from owners and renters in multiple counties, including Maverick, Travis, Hidalgo counties, as well as Val Verde, Starr, Live Oak, Lavaca, Jackson and Webb.

Entries included information that some damaged structures were homes, some businesses. Some structures were uninhabitable, others, people were still able to occupy.

In a recent interview with KENS 5’s Niccole Caan, Abbott said the survey accomplishes several things.

“It provides us insight and information about the different ways that different communities have been harmed,” Abbott said. “We are aggregating all of those costs, and we're submitting those costs to Washington D.C. because the local communities had to

AMERICAN OVERSIGHT

bear those costs, but they shouldn't have to pay for them. It should be the federal government that pays for those costs."

The survey results obtained by KENS 5 so far don't show a complete picture of what landowners are dealing with. For example, it appears not everyone provided damage estimates when filling out their forms.

The individual reported estimated uninsured damages ranging from 3,000 to 100,000 dollars.

The estimates provide a window, though, into some of the daily challenges of border communities.

"This is just inhumane all the way around to all of us," Kibbe told KENS 5. "To the migrants, to landowners, to the citizens of this nation. And so, we just need somebody to our federal government to step up to the plate and do the job."

The border survey is still available for Texans to report damage related to border crisis.

Transportation

In Texas Supreme Court Case, State Argues That Dallas-Houston Bullet Train Developer Can't Use Eminent Domain
By Alexa Ura
Texas Tribune

The Texas attorney general's office has put its weight behind a landowner's case against the companies developing a controversial Dallas-Houston bullet train, arguing they can't force people to sell parcels needed for the high-speed rail project.

Weighing in on the matter at the invitation of the Texas Supreme Court, the attorney general's office offered the latest twist in the nearly decade-long fight over a 240-mile line that would connect Dallas and Houston. While the project has picked up support from leaders of urban areas, it's encountered hard resistance from residents of the rural counties on its proposed path.

One of those residents, Leon County landowner James Miles, sued Texas Central after the private company sought permission to survey his 600-acre property in 2015 as part of its efforts to examine the land for the project. Miles asked the courts to declare that the company did not have the right to enter his property because it does not have the eminent domain authority granted to railroad companies.

He won at a trial court, but the legal dispute reached the Texas Supreme Court after a state appellate court in Corpus Christi sided with Texas Central and a related company.

AMERICAN OVERSIGHT

In a legal brief filed with the Texas Supreme Court on Friday, deputies for Texas Attorney General Ken Paxton argued the high court should reverse that appellate decision and rule in Miles' favor because the companies fall short of the Texas Constitution's definition of a rail company.

"The [companies] may only make preliminary examinations and surveys of private landowners' properties for the purpose of constructing and operating a bullet train if they are either railroad companies or interurban electric railway companies," the state wrote in its brief. "In the State's view, the [companies] are neither."

That leaves them with "no authority to enter, examine, survey or condemn Miles' land," the state wrote.

The state's legal brief turns largely on the meaning of a portion of the state Transportation Code that gives private entities the ability to exercise eminent domain if they are "operating a railroad." Reading at times as a semantic study in how to interpret tenses and grammar in state statute, the state said the companies could not be classified in that way because they "currently own no trains and have constructed no tracks or train depots."

"The rules of grammar confirm that the Respondents are not railroad companies," the AG's office argued.

In the litigation, the companies have contended they meet that definition under the Transportation Code because they have performed the preliminary activities needed to construct a railroad, creating a reasonable probability that they would operate a railroad in the future.

The state also disagreed with the companies on this point, saying they could not show a likelihood of procuring sufficient financing to complete the project.

Texas Central representatives did not immediately respond to a request for comment. The company has previously promised to fund the project — at a cost around $20 billion — with the support of private investors and without public funds.

Company executives have previously said they would prefer not to use eminent domain "at all" and would rather work out amicable sales agreements for the thousands of parcels needed to construct the project across 10 counties. The company has also vowed to minimize how much the line will impact the land around it.

The high-speed rail project has been mired by setbacks and controversy for the better part of a decade. In both courthouses and at the Capitol, opponents have zeroed in on Texas Central's claim that state law gives it the right to use eminent domain and force unwilling owners to sell their land.

AMERICAN OVERSIGHT

The push for the Dallas-Houston bullet train has been built on its promise of establishing a line on which trains could run at speeds of up to 205 mph to cut a trip that would normally take four hours by car down to 90 minutes.

But securing the land along its proposed route has proven a challenge. In 2020, Texas Central said it had secured more than 600 parcels covering just about 40% of the lots — not the land — it needs for the project. Given fierce opposition to the project in rural areas, eminent domain is seen as likely to become a necessity at some point.

In Leon County, one proposal would bisect Miles' 600 acres with a 100-foot right-of-way, according to the legal filings.

On Monday, opponents of the rail described the attorney general's brief as a "strong show of support for Texas private property rights."

"The brief filed by the [attorney general's office] is clear that the past activities, corporate structure and financial state of the project coupled with the very high level of uncertainty that the project would ever even be built does not meet a threshold that would support Texas Central's claim that it has eminent domain authority," the group Texans Against High-Speed Rail said in a press release.

[BACK TO TOP]

Opinion/Editorial

Gov. Greg Abbott Building The Border Wall Back Better
By Cal Thomas
Washington Times

During a debate with George H.W. Bush in New Hampshire in 1980, the moderator asked that Ronald Reagan's microphone be "turned off for the moment." Reagan was angry and said something that might be applied to the failure of the Biden administration to use materials lying unused in Texas paid for during the Trump administration to construct the border wall. Said Reagan, "I paid for this microphone." The clear implication was that since he paid for it, he ought to be able to use it.

Gov. Greg Abbott of Texas is making a similar argument. He believes the Biden administration, either to spite former President Donald Trump or because it is not interested in securing the border, refuses to use materials already paid for by taxpayers to resume construction of the wall. As a result, Mr. Abbott has ordered that construction resume, using state taxpayer funds and new materials.

More than $100 million of taxpayer money was spent on materials for the border wall during the Trump administration. They should be made available to Mr. Abbott, but the Biden administration won't allow it. Mr. Biden canceled contracts for its construction after entering office last January.

AMERICAN OVERSIGHT

The Texas Department of Transportation is set to pay nearly $25 million to construct a nearly two-mile concrete barrier along the border in Eagle Pass. The Texas Tribune reports: “Under the project, the state has also contracted for a temporary fence near the right of way along State Loop 480, which the Department of Public Safety has designated a high-traffic area for illegal immigration.”

Officers from the Texas Department of Public Safety are patrolling parts of the border where federal border control officers cannot be found. Immigrants who cross are being charged with trespassing and put in jail.

Sen. Joe Manchin is a weak gate guard on Build Back Better socialism
Mr. Abbott has said: “The Biden administration has abandoned its responsibilities to secure the border, and Texans are suffering as a result. The problems along the border are only getting worse due to President Biden’s inaction. Property is being destroyed, deadly drugs and illegal weapons are being smuggled into communities throughout the state, law enforcement is having to redirect their resources, and county judges and mayors face skyrocketing expenses. Texas is doing more than any state has ever done to protect the border, but it is clear that more is needed. In the Biden administration’s absence, Texas is stepping up to get the job done by building the border wall. Through this comprehensive public safety effort, we will secure the border, slow the influx of unlawful immigrants, and restore order in our border communities.”

As some media outlets (mostly Fox) show pictures of migrants illegally entering the country, and new reports find some are coming from other than Central American countries, opinion appears to be shifting. A Fox poll last spring found an increase in the portion of respondents saying the migrants “hurt” the country, and that attitude is seen across the board: “independents (+21), Republicans (+20), whites (+18), men (+16), women (+14), Blacks (+11) and Democrats (+8) are more likely to think immigrants hurt rather than help.”

Dear NASS Cybersecurity Committee, Chief Deputies, Elections Deputies, Communication Directors, and IT Directors –

Happy Friday! I hope this email finds you all well. I'm writing with a couple of federal legislative updates:

New Cybersecurity Grant Program in Infrastructure Investment and Jobs Act

You may have seen that the Infrastructure Investment and Jobs Act contains a $1 billion cybersecurity grant program for SLTT governments. The bill authorizes funding over four years as follows:

- for fiscal year 2022, $200,000,000
- for fiscal year 2023, $400,000,000
- for fiscal year 2024, $300,000,000
- for fiscal year 2025, $100,000,000

States must make 80 percent of the funds available to local governments. There is an investment (match) requirement for grant recipients of 10 percent for 2022, 20 percent for 2023, 30 percent for 2024, and 40 percent for 2025. The funding formula for states is based on total population and rural population. The grant program will be administered by FEMA and coordinated by CISA. The funds authorized by this legislation must still be appropriated.

Many of the details of this program will be determined by DHS (CISA and FEMA). This grant program is not election-specific. There are opportunities for the funds to impact elections that will presumably involve coordination between the state election office and the executive branch.

The full bill is attached; this legislation begins on page 844 and is titled "State and Local Cybersecurity Improvement Act." NASS will facilitate opportunities for you to receive more information and provide input. Please let us know if you have any questions in the meantime.

Cyber Incident Reporting Act of 2021 as Amendment to NDAA in Senate

Senator Peters and a bipartisan group of co-sponsors proposed an amendment to the Senate NDAA containing the Senate version of the Cyber Incident Reporting Act of 2021. I've attached an updated summary of the legislation. Also attached is the full amendment; this act begins on page 52. There were some changes compared to the standalone bill, but most relate to the rulemaking procedures. All of the following is still in the bill:

AMERICAN OVERSIGHT

- A requirement for “covered entities” to report “covered cyber incidents” to CISA within 72 hours of the reasonable belief that the incident occurred. Covered entities include federal contractors and critical infrastructure owners and operators, and covered cyber incidents include substantial incidents experienced by a covered entity. The CISA Director is responsible for further defining covered entities and covered cyber incidents through rulemaking.
- Requirement for all entities except for individuals and specifically defined small organizations to report ransom payments to CISA within 24 hours.
- Provides CISA enforcement mechanisms when entities do not comply with reporting requirements including direct engagement, issuing subpoenas, and referral to the Attorney General for further action. **However, SLTT government entities are excluded from the enforcement mechanisms for failure to comply with reporting requirements.**

As a reminder, language requiring cyber incident reporting was included as an amendment in the House NDAA, but there are key differences between the House version and the Senate version. Of particular note, the House version does not include a provision that excludes SLTT government entities from non-compliance penalties. If this amendment is included in the Senate NDAA, the differences between the versions will need to be worked out in conference.

Now is the time to contact your Senators to share your thoughts on this legislation. If you have any questions, NASS staff would be happy to seek clarification from congressional staff.

I hope you all have a nice weekend.

Best,
Lindsey

Subject: NASS Cybersecurity Committee: Senate version of Cyber Incident Reporting Act introduced

Dear NASS Cybersecurity Committee, Chief Deputies, Elections Deputies, Communication Directors and IT Directors –

AMERICAN OVERSIGHT

Senator Peters and Senator Portman introduced their version of the Cyber Incident Reporting Act of 2021 yesterday. There were some changes from the discussion draft they previously provided to NASS (referenced in the two emails below). Attached to this email is the bill as introduced and an updated summary prepared by NASS staff.

Most of the changes were not substantial – clarifying language was added, the sections were reorganized, etc. One substantive change from the discussion draft to the introduced version is the timeline for submitting required reports. As introduced, the bill requires certain entities to report certain cybersecurity incidents to CISA within 72 hours of the reasonable belief that the incident occurred and to report ransom payments within 24 hours of making a payment. (The discussion draft gave CISA more flexibility in determining reporting timeframes.)

All of the following is still in the Peters/Portman Senate version of the bill:

- Requirement for the CISA Director to, through rulemaking, define a subset of critical infrastructure entities as "covered entities" who will be required to report any "covered cybersecurity incidents" to CISA. Covered cybersecurity incidents will also be defined by CISA in the rule.
- Requirement for all entities except for individuals and specifically defined small businesses to report ransom payments to CISA
- Provides CISA enforcement mechanisms when entities do not comply with reporting requirements including direct engagement, issuing subpoenas, civil action, and referral to the Attorney General for further action. **However, SLTT government entities are excluded from the enforcement mechanisms for failure to comply with reporting requirements.**

As described in the email directly below, a House version of this bill (with key differences addressed below) was included as an amendment in the version of the NDAA that the House approved last week. **Media reports suggest there will be efforts to add incident reporting language to the Senate version of the NDAA.** It is not clear whether an amendment to the Senate NDAA would use the House language or the language from Senator Peters' (D-MI) and Senator Portman's (R-OH) draft. There is also a possibility the Senate would incorporate language from another bipartisan bill with similar goals: S.2407 - Cyber Incident Notification Act of 2021. Any differences between the House and Senate versions of the NDAA would have to be worked out in conference.

In the meantime, the Senate Homeland Security and Government Affairs Committee is likely to consider the Peters/Portman legislation as a standalone bill. A mark-up will likely be scheduled in the very near future. Senator Peters' staff suggested that any feedback on the legislation has more potential to be impactful if received by the end of this week. I would be happy to pass along any feedback or questions you may have.

Best,
Lindsey

Sent: Friday, September 24, 2021 5:01 PM
Cc: Reynolds, Leslie <[redacted]; Dodd, Stacy <[redacted]; Milhofer, John [redacted]>; Maria Benson [redacted]
Subject: NASS Cybersecurity Committee: House version of Cyber Incident Reporting Act in House NDAA

Dear NASS Cybersecurity Committee, Chief Deputies, Elections Deputies, Communication Directors and IT Directors –

Last night, the House approved the National Defense Authorization Act (NDAA) with an amendment that would require some critical infrastructure entities to report certain cybersecurity incidents to CISA. The language of the amendment is included in this report of amendments that were approved earlier this week by the House Rules Committee (see amendment 108 on page 319). Attached is a summary of the amendment prepared by NASS staff.

As we noted in a previous email (see below), the Senate has also drafted legislation to require some critical infrastructure entities to report cyber incidents to CISA. The Senate draft has many similarities to the language approved in the House NDAA, but there are several key differences (see below). The Senate draft was not included in the Senate version of NDAA that was introduced yesterday. It's not clear if the Senate will approve the NDAA with the incident reporting language as an amendment, and if it does, whether it would use the House language or the language from Senator Peters' (D-MI) and Senator Portman's (R-OH) draft. Any differences between the House and Senate versions of NDAA would have to be worked out in conference. The Senate could also move forward with the legislation as a standalone bill.

We will keep you informed as we learn of any movement. If you have questions or feedback on this legislation, whether it be support, concerns or preferences between the versions, the best place to direct your feedback right now is to the Senate – Senator Peters' staff has encouraged NASS members to share your individual feedback with his office and/or Senator Portman's office either directly or through NASS. I would be happy to pass your feedback along or track down answers to your questions. Depending on your thoughts, you may also consider reaching out to your Senators.

Comparison of House NDAA language and draft Senate bill:

Provisions in **BOTH** House NDAA version and the Senate bill:

- Requires the CISA Director to make a rule that would define a subset of critical infrastructure entities as "covered entities" who will be required to report any "covered cybersecurity incidents" to CISA. Covered cybersecurity incidents will also be defined by

AMERICAN OVERSIGHT

CISA in the rule.

- The CISA Director shall follow up with covered entities who do not report a suspected covered incident. The legislation would give the CISA Director subpoena power for situations where entities still do not comply after direct engagement from CISA and provides mechanisms for enforcement through civil action and/or providing information to the Attorney General for action.

Provisions from the Senate draft bill that **ARE NOT** in the House NDAA version:

- The Senate version directs the CISA Director to create requirements for all entities except for small businesses and individuals to report ransom payments while the House version does not. The House version focuses only on covered incident reports by covered entities.
- The Senate version excludes SLTT government entities from penalties for failure to comply with reporting requirements. **The House version does not include a provision that excludes SLTT government entities from non-compliance penalties.**

Please let me know if you have any questions. I hope everyone has a nice weekend.

Best,
Lindsey

Subject: NASS Cybersecurity Committee: Discussion Draft of Cyber Incident Reporting Act from Senator Peters and Senator Portman

Dear NASS Cybersecurity Committee, Chief Deputies, Elections Deputies, and IT Directors –

Attached is a discussion draft of the Cyber Incident Reporting Act from Chairman Peters and Ranking Member Portman of the Senate Homeland Security and Governmental Affairs Committee as well as a summary prepared by NASS staff. This draft is subject to change, but a version of it will likely be introduced soon. Chairman Peters' staff asked NASS staff to distribute this language to our members and solicit feedback or questions. They asked for feedback as soon as possible. You may reach out directly to either Senator Peters' (D-MI) or Senator Portman's (R-OH) office or send me your

AMERICAN OVERSIGHT

feedback/questions, and I will happily pass it along/track down answers.

Senator Peters' staff said this bill is similar though not identical to the House version being prepared by Chairman Thompson, Ranking Member Katko and Cybersecurity Subcommittee Chairwoman Clarke of the House Homeland Security Committee. Representative Thompson and Representative Katko discussed their bill during our recent meeting, but we do not yet have language.

Media reports suggest there are efforts to include this legislation in the annual National Defense Authorization Act this year. So there is a possibility of it moving quickly.

The attached summary covers most details of the draft legislation. To concisely summarize the most relevant elements, this bill would authorize the CISA Director to make a rule that:

- Requires all entities, except for individuals and specifically defined small businesses, to report to CISA any ransom payments they make in response to a ransomware attack; and
- Define a subset of critical infrastructure entities as "covered entities" who will be required to report any "covered cybersecurity incidents" to CISA. Covered cybersecurity incidents will also be defined by CISA in the rule.
- The CISA Director shall follow up with entities who do not report a suspected covered incident or ransom payment. This bill would give the CISA Director subpoena power for situations where entities still do not comply after direct engagement from CISA.
- Though this legislation would require your offices (through the CISA rule) to report any ransom payments (related to ransomware attacks) to CISA and would authorize CISA to require your offices to report some cybersecurity incidents, the legislation excludes State, Local, Tribal and Territorial (SLTT) government entities from the penalties for failure to comply with the reporting requirements.

Please let me know if you have any questions.

Best,
Lindsey

AMERICAN OVERSIGHT

H. R. 3684

One Hundred Seventeenth Congress of the United States of America

AT THE FIRST SESSION

Begun and held at the City of Washington on Sunday, the third day of January, two thousand and twenty-one

An Act

To authorize funds for Federal-aid highways, highway safety programs, and transit programs, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Infrastructure Investment and Jobs Act".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. References.

DIVISION A—SURFACE TRANSPORTATION

Sec. 10001. Short title.
Sec. 10002. Definitions.
Sec. 10003. Effective date.

TITLE I—FEDERAL-AID HIGHWAYS

Subtitle A—Authorizations and Programs

Sec. 11101. Authorization of appropriations.
Sec. 11102. Obligation ceiling.
Sec. 11103. Definitions.
Sec. 11104. Apportionment.
Sec. 11105. National highway performance program.
Sec. 11106. Emergency relief.
Sec. 11107. Federal share payable.
Sec. 11108. Railway-highway grade crossings.
Sec. 11109. Surface transportation block grant program.
Sec. 11110. Nationally significant freight and highway projects.
Sec. 11111. Highway safety improvement program.
Sec. 11112. Federal lands transportation program.
Sec. 11113. Federal lands access program.
Sec. 11114. National highway freight program.
Sec. 11115. Congestion mitigation and air quality improvement program.
Sec. 11116. Alaska Highway.
Sec. 11117. Toll roads, bridges, tunnels, and ferries.
Sec. 11118. Bridge investment program.
Sec. 11119. Safe routes to school.
Sec. 11120. Highway use tax evasion projects.
Sec. 11121. Construction of ferry boats and ferry terminal facilities.
Sec. 11122. Vulnerable road user research.
Sec. 11123. Wildlife crossing safety.
Sec. 11124. Consolidation of programs.
Sec. 11125. GAO report.
Sec. 11126. Territorial and Puerto Rico highway program.
Sec. 11127. Nationally significant Federal lands and Tribal projects program.
Sec. 11128. Tribal high priority projects program.
Sec. 11129. Standards.
Sec. 11130. Public transportation.
Sec. 11131. Reservation of certain funds.

AMERICAN OVERSIGHT

Sec. 11132. Rural surface transportation grant program.
Sec. 11133. Bicycle transportation and pedestrian walkways.
Sec. 11134. Recreational trails program.
Sec. 11135. Updates to Manual on Uniform Traffic Control Devices.

Subtitle B—Planning and Performance Management

Sec. 11201. Transportation planning.
Sec. 11202. Fiscal constraint on long-range transportation plans.
Sec. 11203. State human capital plans.
Sec. 11204. Prioritization process pilot program.
Sec. 11205. Travel demand data and modeling.
Sec. 11206. Increasing safe and accessible transportation options.

Subtitle C—Project Delivery and Process Improvement

Sec. 11301. Codification of One Federal Decision.
Sec. 11302. Work zone process reviews.
Sec. 11303. Transportation management plans.
Sec. 11304. Intelligent transportation systems.
Sec. 11305. Alternative contracting methods.
Sec. 11306. Flexibility for projects.
Sec. 11307. Improved Federal-State stewardship and oversight agreements.
Sec. 11308. Geomatic data.
Sec. 11309. Evaluation of projects within an operational right-of-way.
Sec. 11310. Preliminary engineering.
Sec. 11311. Efficient implementation of NEPA for Federal land management projects.
Sec. 11312. National Environmental Policy Act of 1969 reporting program.
Sec. 11313. Surface transportation project delivery program written agreements.
Sec. 11314. State assumption of responsibility for categorical exclusions.
Sec. 11315. Early utility relocation prior to transportation project environmental review.
Sec. 11316. Streamlining of section 4(f) reviews.
Sec. 11317. Categorical exclusion for projects of limited Federal assistance.
Sec. 11318. Certain gathering lines located on Federal land and Indian land.
Sec. 11319. Annual report.

Subtitle D—Climate Change

Sec. 11401. Grants for charging and fueling infrastructure.
Sec. 11402. Reduction of truck emissions at port facilities.
Sec. 11403. Carbon reduction program.
Sec. 11404. Congestion relief program.
Sec. 11405. Promoting Resilient Operations for Transformative, Efficient, and Cost-saving Transportation (PROTECT) program.
Sec. 11406. Healthy Streets program.

Subtitle E—Miscellaneous

Sec. 11501. Additional deposits into Highway Trust Fund.
Sec. 11502. Stopping threats on pedestrians.
Sec. 11503. Transfer and sale of toll credits.
Sec. 11504. Study of impacts on roads from self-driving vehicles.
Sec. 11505. Disaster relief mobilization study.
Sec. 11506. Appalachian Regional Commission.
Sec. 11507. Denali Commission.
Sec. 11508. Requirements for transportation projects carried out through public-private partnerships.
Sec. 11509. Reconnecting communities pilot program.
Sec. 11510. Cybersecurity tool; cyber coordinator.
Sec. 11511. Report on emerging alternative fuel vehicles and infrastructure.
Sec. 11512. Nonhighway recreational fuel study.
Sec. 11513. Buy America.
Sec. 11514. High priority corridors on the National Highway System.
Sec. 11515. Interstate weight limits.
Sec. 11516. Report on air quality improvements.
Sec. 11517. Roadside highway safety hardware.
Sec. 11518. Permeable pavements study.
Sec. 11519. Emergency relief projects.
Sec. 11520. Study on stormwater best management practices.
Sec. 11521. Stormwater best management practices reports.
Sec. 11522. Invasive plant elimination program.
Sec. 11523. Over-the-road bus tolling equity.
Sec. 11524. Bridge terminology.

AMERICAN OVERSIGHT

Sec. 11525. Technical corrections.
Sec. 11526. Working group on covered resources.
Sec. 11527. Blood transport vehicles.
Sec. 11528. Pollinator-friendly practices on roadsides and highway rights-of-way.
Sec. 11529. Active transportation infrastructure investment program.
Sec. 11530. Highway cost allocation study.

TITLE II—TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION

Sec. 12001. Transportation Infrastructure Finance and Innovation Act of 1998 amendments.
Sec. 12002. Federal requirements for TIFIA eligibility and project selection.

TITLE III—RESEARCH, TECHNOLOGY, AND EDUCATION

Sec. 13001. Strategic innovation for revenue collection.
Sec. 13002. National motor vehicle per-mile user fee pilot.
Sec. 13003. Performance management data support program.
Sec. 13004. Data integration pilot program.
Sec. 13005. Emerging technology research pilot program.
Sec. 13006. Research and technology development and deployment.
Sec. 13007. Workforce development, training, and education.
Sec. 13008. Wildlife-vehicle collision research.
Sec. 13009. Transportation Resilience and Adaptation Centers of Excellence.
Sec. 13010. Transportation access pilot program.

TITLE IV—INDIAN AFFAIRS

Sec. 14001. Definition of Secretary.
Sec. 14002. Environmental reviews for certain tribal transportation facilities.
Sec. 14003. Programmatic agreements for tribal categorical exclusions.
Sec. 14004. Use of certain tribal transportation funds.
Sec. 14005. Bureau of Indian Affairs road maintenance program.
Sec. 14006. Study of road maintenance on Indian land.
Sec. 14007. Maintenance of certain Indian reservation roads.
Sec. 14008. Tribal transportation safety needs.
Sec. 14009. Office of Tribal Government Affairs.

DIVISION B—SURFACE TRANSPORTATION INVESTMENT ACT OF 2021

Sec. 20001. Short title.
Sec. 20002. Definitions.

TITLE I—MULTIMODAL AND FREIGHT TRANSPORTATION

Subtitle A—Multimodal Freight Policy

Sec. 21101. Office of Multimodal Freight Infrastructure and Policy.
Sec. 21102. Updates to National Freight Plan.
Sec. 21103. State collaboration with National Multimodal Freight Network.
Sec. 21104. Improving State freight plans.
Sec. 21105. Implementation of National Multimodal Freight Network.
Sec. 21106. Multi-State freight corridor planning.
Sec. 21107. State freight advisory committees.

Subtitle B—Multimodal Investment

Sec. 21201. National infrastructure project assistance.
Sec. 21202. Local and regional project assistance.
Sec. 21203. National culvert removal, replacement, and restoration grant program.
Sec. 21204. National multimodal cooperative freight research program.
Sec. 21205. Rural and Tribal infrastructure advancement.

Subtitle C—Railroad Rehabilitation and Improvement Financing Reforms

Sec. 21301. RRIF codification and reforms.
Sec. 21302. Substantive criteria and standards.
Sec. 21303. Semiannual report on transit-oriented development eligibility.

TITLE II—RAIL

Sec. 22001. Short title.

Subtitle A—Authorization of Appropriations

Sec. 22101. Grants to Amtrak.
Sec. 22102. Federal Railroad Administration.

AMERICAN OVERSIGHT

Sec. 22103. Consolidated rail infrastructure and safety improvements grants.
Sec. 22104. Railroad crossing elimination program.
Sec. 22105. Restoration and enhancement grants.
Sec. 22106. Federal-State partnership for intercity passenger rail grants.
Sec. 22107. Amtrak Office of Inspector General.

Subtitle B—Amtrak Reforms

Sec. 22201. Amtrak findings, mission, and goals.
Sec. 22202. Composition of Amtrak's Board of Directors.
Sec. 22203. Station agents.
Sec. 22204. Increasing oversight of changes to Amtrak long-distance routes and other intercity services.
Sec. 22205. Improved oversight of Amtrak accounting.
Sec. 22206. Improved oversight of Amtrak spending.
Sec. 22207. Increasing service line and asset line plan transparency.
Sec. 22208. Passenger experience enhancement.
Sec. 22209. Amtrak smoking policy.
Sec. 22210. Protecting Amtrak routes through rural communities.
Sec. 22211. State-Supported Route Committee.
Sec. 22212. Enhancing cross border service.
Sec. 22213. Creating quality jobs.
Sec. 22214. Amtrak daily long-distance service study.

Subtitle C—Intercity Passenger Rail Policy

Sec. 22301. Northeast Corridor planning.
Sec. 22302. Northeast Corridor Commission.
Sec. 22303. Consolidated rail infrastructure and safety improvements.
Sec. 22304. Restoration and enhancement grants.
Sec. 22305. Railroad crossing elimination program.
Sec. 22306. Interstate rail compacts.
Sec. 22307. Federal-State partnership for intercity passenger rail grants.
Sec. 22308. Corridor identification and development program.
Sec. 22309. Surface Transportation Board passenger rail program.

Subtitle D—Rail Safety

Sec. 22401. Railway-highway crossings program evaluation.
Sec. 22402. Grade crossing accident prediction model.
Sec. 22403. Periodic updates to highway-rail crossing reports and plans.
Sec. 22404. Blocked crossing portal.
Sec. 22405. Data accessibility.
Sec. 22406. Emergency lighting.
Sec. 22407. Comprehensive rail safety review of Amtrak.
Sec. 22408. Completion of hours of service and fatigue studies.
Sec. 22409. Positive train control study.
Sec. 22410. Operating crew member training, qualification, and certification.
Sec. 22411. Transparency and safety.
Sec. 22412. Research and development.
Sec. 22413. Rail research and development center of excellence.
Sec. 22414. Quarterly report on positive train control system performance.
Sec. 22415. Speed limit action plans.
Sec. 22416. New passenger service pre-revenue safety validation plan.
Sec. 22417. Federal Railroad Administration accident and incident investigations.
Sec. 22418. Civil penalty enforcement authority.
Sec. 22419. Advancing safety and innovative technology.
Sec. 22420. Passenger rail vehicle occupant protection systems.
Sec. 22421. Federal Railroad Administration reporting requirements.
Sec. 22422. National Academies study on trains longer than 7,500 feet.
Sec. 22423. High-speed train noise emissions.
Sec. 22424. Critical incident stress plans.
Sec. 22425. Requirements for railroad freight cars placed into service in the United States.
Sec. 22426. Railroad point of contact for public safety issues.
Sec. 22427. Controlled substances testing for mechanical employees.

TITLE III—MOTOR CARRIER SAFETY

Sec. 23001. Authorization of appropriations.
Sec. 23002. Motor carrier safety advisory committee.
Sec. 23003. Combating human trafficking.
Sec. 23004. Immobilization grant program.
Sec. 23005. Commercial motor vehicle enforcement training and support.
Sec. 23006. Study of commercial motor vehicle crash causation.

AMERICAN OVERSIGHT

Sec. 23007. Promoting women in the trucking workforce.
Sec. 23008. State inspection of passenger-carrying commercial motor vehicles.
Sec. 23009. Truck Leasing Task Force.
Sec. 23010. Automatic emergency braking.
Sec. 23011. Underride protection.
Sec. 23012. Providers of recreational activities.
Sec. 23013. Amendments to regulations relating to transportation of household goods in interstate commerce.
Sec. 23014. Improving Federal-State motor carrier safety enforcement coordination.
Sec. 23015. Limousine research.
Sec. 23016. National Consumer Complaint Database.
Sec. 23017. Electronic logging device oversight.
Sec. 23018. Transportation of agricultural commodities and farm supplies.
Sec. 23019. Modification of restrictions on certain commercial driver's licenses.
Sec. 23020. Report on human trafficking violations involving commercial motor vehicles.
Sec. 23021. Broker guidance relating to Federal motor carrier safety regulations.
Sec. 23022. Apprenticeship pilot program.
Sec. 23023. Limousine compliance with Federal safety standards.

TITLE IV—HIGHWAY AND MOTOR VEHICLE SAFETY

Subtitle A—Highway Traffic Safety

Sec. 24101. Authorization of appropriations.
Sec. 24102. Highway safety programs.
Sec. 24103. Highway safety research and development.
Sec. 24104. High-visibility enforcement programs.
Sec. 24105. National priority safety programs.
Sec. 24106. Multiple substance-impaired driving prevention.
Sec. 24107. Minimum penalties for repeat offenders for driving while intoxicated or driving under the influence.
Sec. 24108. Crash data.
Sec. 24109. Review of Move Over or Slow Down Law public awareness.
Sec. 24110. Review of laws, safety measures, and technologies relating to school buses.
Sec. 24111. Motorcyclist Advisory Council.
Sec. 24112. Safe Streets and Roads for All grant program.
Sec. 24113. Implementation of GAO recommendations.

Subtitle B—Vehicle Safety

Sec. 24201. Authorization of appropriations.
Sec. 24202. Recall completion.
Sec. 24203. Recall engagement.
Sec. 24204. Motor vehicle seat back safety standards.
Sec. 24205. Automatic shutoff.
Sec. 24206. Petitions by interested persons for standards and enforcement.
Sec. 24207. Child safety seat accessibility study.
Sec. 24208. Crash avoidance technology.
Sec. 24209. Reduction of driver distraction.
Sec. 24210. Rulemaking report.
Sec. 24211. Global harmonization.
Sec. 24212. Headlamps.
Sec. 24213. New Car Assessment Program.
Sec. 24214. Hood and bumper standards.
Sec. 24215. Emergency medical services and 9–1–1.
Sec. 24216. Early warning reporting.
Sec. 24217. Improved vehicle safety databases.
Sec. 24218. National Driver Register Advisory Committee repeal.
Sec. 24219. Research on connected vehicle technology.
Sec. 24220. Advanced impaired driving technology.
Sec. 24221. GAO report on crash dummies.
Sec. 24222. Child safety.

TITLE V—RESEARCH AND INNOVATION

Sec. 25001. Intelligent Transportation Systems Program Advisory Committee.
Sec. 25002. Smart Community Resource Center.
Sec. 25003. Federal support for local decisionmaking.
Sec. 25004. Bureau of Transportation Statistics.
Sec. 25005. Strengthening mobility and revolutionizing transportation grant program.
Sec. 25006. Electric vehicle working group.

AMERICAN OVERSIGHT

Sec. 25007. Risk and system resilience.
Sec. 25008. Coordination on emerging transportation technology.
Sec. 25009. Interagency Infrastructure Permitting Improvement Center.
Sec. 25010. Rural opportunities to use transportation for economic success initiative.
Sec. 25011. Safety data initiative.
Sec. 25012. Advanced transportation research.
Sec. 25013. Open research initiative.
Sec. 25014. Transportation research and development 5-year strategic plan.
Sec. 25015. Research planning modifications.
Sec. 25016. Incorporation of Department of Transportation research.
Sec. 25017. University transportation centers program.
Sec. 25018. National travel and tourism infrastructure strategic plan.
Sec. 25019. Local hiring preference for construction jobs.
Sec. 25020. Transportation workforce development.
Sec. 25021. Intermodal Transportation Advisory Board repeal.
Sec. 25022. GAO cybersecurity recommendations.
Sec. 25023. Volpe oversight.
Sec. 25024. Modifications to grant program.
Sec. 25025. Drug-impaired driving data collection.
Sec. 25026. Report on marijuana research.
Sec. 25027. GAO study on improving the efficiency of traffic systems.

TITLE VI—HAZARDOUS MATERIALS

Sec. 26001. Authorization of appropriations.
Sec. 26002. Assistance for local emergency response training grant program.
Sec. 26003. Real-time emergency response information.

TITLE VII—GENERAL PROVISIONS

Sec. 27001. Performance measurement, transparency, and accountability.
Sec. 27002. Coordination regarding forced labor.
Sec. 27003. Department of Transportation spectrum audit.
Sec. 27004. Study and reports on the travel and tourism activities of the Department.

TITLE VIII—SPORT FISH RESTORATION AND RECREATIONAL BOATING SAFETY

Sec. 28001. Sport fish restoration and recreational boating safety.

DIVISION C—TRANSIT

Sec. 30001. Definitions.
Sec. 30002. Metropolitan transportation planning.
Sec. 30003. Statewide and nonmetropolitan transportation planning.
Sec. 30004. Planning programs.
Sec. 30005. Fixed guideway capital investment grants.
Sec. 30006. Formula grants for rural areas.
Sec. 30007. Public transportation innovation.
Sec. 30008. Bus testing facilities.
Sec. 30009. Transit-oriented development.
Sec. 30010. General provisions.
Sec. 30011. Public transportation emergency relief program.
Sec. 30012. Public transportation safety program.
Sec. 30013. Administrative provisions.
Sec. 30014. National transit database.
Sec. 30015. Apportionment of appropriations for formula grants.
Sec. 30016. State of good repair grants.
Sec. 30017. Authorizations.
Sec. 30018. Grants for buses and bus facilities.
Sec. 30019. Washington Metropolitan Area Transit Authority safety, accountability, and investment.

DIVISION D—ENERGY

Sec. 40001. Definitions.

TITLE I—GRID INFRASTRUCTURE AND RESILIENCY

Subtitle A—Grid Infrastructure Resilience and Reliability

Sec. 40101. Preventing outages and enhancing the resilience of the electric grid.
Sec. 40102. Hazard mitigation using disaster assistance.
Sec. 40103. Electric grid reliability and resilience research, development, and demonstration.

AMERICAN OVERSIGHT

Sec. 40104. Utility demand response.
Sec. 40105. Siting of interstate electric transmission facilities.
Sec. 40106. Transmission facilitation program.
Sec. 40107. Deployment of technologies to enhance grid flexibility.
Sec. 40108. State energy security plans.
Sec. 40109. State energy program.
Sec. 40110. Power marketing administration transmission borrowing authority.
Sec. 40111. Study of codes and standards for use of energy storage systems across sectors.
Sec. 40112. Demonstration of electric vehicle battery second-life applications for grid services.
Sec. 40113. Columbia Basin power management.

Subtitle B—Cybersecurity

Sec. 40121. Enhancing grid security through public-private partnerships.
Sec. 40122. Energy Cyber Sense program.
Sec. 40123. Incentives for advanced cybersecurity technology investment.
Sec. 40124. Rural and municipal utility advanced cybersecurity grant and technical assistance program.
Sec. 40125. Enhanced grid security.
Sec. 40126. Cybersecurity plan.
Sec. 40127. Savings provision.

TITLE II—SUPPLY CHAINS FOR CLEAN ENERGY TECHNOLOGIES

Sec. 40201. Earth Mapping Resources Initiative.
Sec. 40202. National Cooperative Geologic Mapping Program.
Sec. 40203. National Geological and Geophysical Data Preservation Program.
Sec. 40204. USGS energy and minerals research facility.
Sec. 40205. Rare earth elements demonstration facility.
Sec. 40206. Critical minerals supply chains and reliability.
Sec. 40207. Battery processing and manufacturing.
Sec. 40208. Electric drive vehicle battery recycling and second-life applications program.
Sec. 40209. Advanced energy manufacturing and recycling grant program.
Sec. 40210. Critical minerals mining and recycling research.
Sec. 40211. 21st Century Energy Workforce Advisory Board.

TITLE III—FUELS AND TECHNOLOGY INFRASTRUCTURE INVESTMENTS

Subtitle A—Carbon Capture, Utilization, Storage, and Transportation Infrastructure

Sec. 40301. Findings.
Sec. 40302. Carbon utilization program.
Sec. 40303. Carbon capture technology program.
Sec. 40304. Carbon dioxide transportation infrastructure finance and innovation.
Sec. 40305. Carbon storage validation and testing.
Sec. 40306. Secure geologic storage permitting.
Sec. 40307. Geologic carbon sequestration on the outer Continental Shelf.
Sec. 40308. Carbon removal.

Subtitle B—Hydrogen Research and Development

Sec. 40311. Findings; purpose.
Sec. 40312. Definitions.
Sec. 40313. Clean hydrogen research and development program.
Sec. 40314. Additional clean hydrogen programs.
Sec. 40315. Clean hydrogen production qualifications.

Subtitle C—Nuclear Energy Infrastructure

Sec. 40321. Infrastructure planning for micro and small modular nuclear reactors.
Sec. 40322. Property interests relating to certain projects and protection of information relating to certain agreements.
Sec. 40323. Civil nuclear credit program.

Subtitle D—Hydropower

Sec. 40331. Hydroelectric production incentives.
Sec. 40332. Hydroelectric efficiency improvement incentives.
Sec. 40333. Maintaining and enhancing hydroelectricity incentives.
Sec. 40334. Pumped storage hydropower wind and solar integration and system reliability initiative.
Sec. 40335. Authority for pumped storage hydropower development using multiple Bureau of Reclamation reservoirs.

AMERICAN OVERSIGHT

Sec. 40336. Limitations on issuance of certain leases of power privilege.

Subtitle E—Miscellaneous

Sec. 40341. Solar energy technologies on current and former mine land.
Sec. 40342. Clean energy demonstration program on current and former mine land.
Sec. 40343. Leases, easements, and rights-of-way for energy and related purposes on the outer Continental Shelf.

TITLE IV—ENABLING ENERGY INFRASTRUCTURE INVESTMENT AND DATA COLLECTION

Subtitle A—Department of Energy Loan Program

Sec. 40401. Department of Energy loan programs.

Subtitle B—Energy Information Administration

Sec. 40411. Definitions.
Sec. 40412. Data collection in the electricity sector.
Sec. 40413. Expansion of energy consumption surveys.
Sec. 40414. Data collection on electric vehicle integration with the electricity grids.
Sec. 40415. Plan for the modeling and forecasting of demand for minerals used in the energy sector.
Sec. 40416. Expansion of international energy data.
Sec. 40417. Plan for the National Energy Modeling System.
Sec. 40418. Report on costs of carbon abatement in the electricity sector.
Sec. 40419. Harmonization of efforts and data.

Subtitle C—Miscellaneous

Sec. 40431. Consideration of measures to promote greater electrification of the transportation sector.
Sec. 40432. Office of public participation.
Sec. 40433. Digital climate solutions report.
Sec. 40434. Study and report by the Secretary of Energy on job loss and impacts on consumer energy costs due to the revocation of the permit for the Keystone XL pipeline.
Sec. 40435. Study on impact of electric vehicles.
Sec. 40436. Study on impact of forced labor in China on the electric vehicle supply chain.

TITLE V—ENERGY EFFICIENCY AND BUILDING INFRASTRUCTURE

Subtitle A—Residential and Commercial Energy Efficiency

Sec. 40501. Definitions.
Sec. 40502. Energy efficiency revolving loan fund capitalization grant program.
Sec. 40503. Energy auditor training grant program.

Subtitle B—Buildings

Sec. 40511. Cost-effective codes implementation for efficiency and resilience.
Sec. 40512. Building, training, and assessment centers.
Sec. 40513. Career skills training.
Sec. 40514. Commercial building energy consumption information sharing.

Subtitle C—Industrial Energy Efficiency

PART I—INDUSTRY

Sec. 40521. Future of industry program and industrial research and assessment centers.
Sec. 40522. Sustainable manufacturing initiative.

PART II—SMART MANUFACTURING

Sec. 40531. Definitions.
Sec. 40532. Leveraging existing agency programs to assist small and medium manufacturers.
Sec. 40533. Leveraging smart manufacturing infrastructure at National Laboratories.
Sec. 40534. State manufacturing leadership.
Sec. 40535. Report.

Subtitle D—Schools and Nonprofits

Sec. 40541. Grants for energy efficiency improvements and renewable energy improvements at public school facilities.

AMERICAN OVERSIGHT

Sec. 40542. Energy efficiency materials pilot program.

Subtitle E—Miscellaneous

Sec. 40551. Weatherization assistance program.
Sec. 40552. Energy Efficiency and Conservation Block Grant Program.
Sec. 40553. Survey, analysis, and report on employment and demographics in the energy, energy efficiency, and motor vehicle sectors of the United States.
Sec. 40554. Assisting Federal Facilities with Energy Conservation Technologies grant program.
Sec. 40555. Rebates.
Sec. 40556. Model guidance for combined heat and power systems and waste heat to power systems.

TITLE VI—METHANE REDUCTION INFRASTRUCTURE

Sec. 40601. Orphaned well site plugging, remediation, and restoration.

TITLE VII—ABANDONED MINE LAND RECLAMATION

Sec. 40701. Abandoned Mine Reclamation Fund authorization of appropriations.
Sec. 40702. Abandoned mine reclamation fee.
Sec. 40703. Amounts distributed from Abandoned Mine Reclamation Fund.
Sec. 40704. Abandoned hardrock mine reclamation.

TITLE VIII—NATURAL RESOURCES-RELATED INFRASTRUCTURE, WILDFIRE MANAGEMENT, AND ECOSYSTEM RESTORATION

Sec. 40801. Forest Service Legacy Road and Trail Remediation Program.
Sec. 40802. Study and report on feasibility of revegetating reclaimed mine sites.
Sec. 40803. Wildfire risk reduction.
Sec. 40804. Ecosystem restoration.
Sec. 40805. GAO study.
Sec. 40806. Establishment of fuel breaks in forests and other wildland vegetation.
Sec. 40807. Emergency actions.
Sec. 40808. Joint Chiefs Landscape Restoration Partnership program.

TITLE IX—WESTERN WATER INFRASTRUCTURE

Sec. 40901. Authorizations of appropriations.
Sec. 40902. Water storage, groundwater storage, and conveyance projects.
Sec. 40903. Small water storage and groundwater storage projects.
Sec. 40904. Critical maintenance and repair.
Sec. 40905. Competitive grant program for large-scale water recycling and reuse program.
Sec. 40906. Drought contingency plan funding requirements.
Sec. 40907. Multi-benefit projects to improve watershed health.
Sec. 40908. Eligible desalination projects.
Sec. 40909. Clarification of authority to use coronavirus fiscal recovery funds to meet a non-Federal matching requirement for authorized Bureau of Reclamation water projects.
Sec. 40910. Federal assistance for groundwater recharge, aquifer storage, and water source substitution projects.

TITLE X—AUTHORIZATION OF APPROPRIATIONS FOR ENERGY ACT OF 2020

Sec. 41001. Energy storage demonstration projects.
Sec. 41002. Advanced reactor demonstration program.
Sec. 41003. Mineral security projects.
Sec. 41004. Carbon capture demonstration and pilot programs.
Sec. 41005. Direct air capture technologies prize competitions.
Sec. 41006. Water power projects.
Sec. 41007. Renewable energy projects.
Sec. 41008. Industrial emissions demonstration projects.

TITLE XI—WAGE RATE REQUIREMENTS

Sec. 41101. Wage rate requirements.

TITLE XII—MISCELLANEOUS

Sec. 41201. Office of Clean Energy Demonstrations.
Sec. 41202. Extension of Secure Rural Schools and Community Self-Determination Act of 2000.

DIVISION E—DRINKING WATER AND WASTEWATER INFRASTRUCTURE

Sec. 50001. Short title.

AMERICAN OVERSIGHT

Sec. 50002. Definition of Administrator.

TITLE I—DRINKING WATER

Sec. 50101. Technical assistance and grants for emergencies affecting public water systems.
Sec. 50102. Drinking water State revolving loan funds.
Sec. 50103. Source water petition program.
Sec. 50104. Assistance for small and disadvantaged communities.
Sec. 50105. Reducing lead in drinking water.
Sec. 50106. Operational sustainability of small public water systems.
Sec. 50107. Midsize and large drinking water system infrastructure resilience and sustainability program.
Sec. 50108. Needs assessment for nationwide rural and urban low-income community water assistance.
Sec. 50109. Rural and low-income water assistance pilot program.
Sec. 50110. Lead contamination in school drinking water.
Sec. 50111. Indian reservation drinking water program.
Sec. 50112. Advanced drinking water technologies.
Sec. 50113. Cybersecurity support for public water systems.
Sec. 50114. State response to contaminants.
Sec. 50115. Annual study on boil water advisories.

TITLE II—CLEAN WATER

Sec. 50201. Research, investigations, training, and information.
Sec. 50202. Wastewater efficiency grant pilot program.
Sec. 50203. Pilot program for alternative water source projects.
Sec. 50204. Sewer overflow and stormwater reuse municipal grants.
Sec. 50205. Clean water infrastructure resiliency and sustainability program.
Sec. 50206. Small and medium publicly owned treatment works circuit rider program.
Sec. 50207. Small publicly owned treatment works efficiency grant program.
Sec. 50208. Grants for construction and refurbishing of individual household decentralized wastewater systems for individuals with low or moderate income.
Sec. 50209. Connection to publicly owned treatment works.
Sec. 50210. Clean water State revolving funds.
Sec. 50211. Water infrastructure and workforce investment.
Sec. 50212. Grants to Alaska to improve sanitation in rural and Native villages.
Sec. 50213. Water data sharing pilot program.
Sec. 50214. Final rating opinion letters.
Sec. 50215. Water infrastructure financing reauthorization.
Sec. 50216. Small and disadvantaged community analysis.
Sec. 50217. Stormwater infrastructure technology.
Sec. 50218. Water Reuse Interagency Working Group.
Sec. 50219. Advanced clean water technologies study.
Sec. 50220. Clean watersheds needs survey.
Sec. 50221. Water Resources Research Act amendments.
Sec. 50222. Enhanced aquifer use and recharge.

DIVISION F—BROADBAND

TITLE I—BROADBAND GRANTS FOR STATES, DISTRICT OF COLUMBIA, PUERTO RICO, AND TERRITORIES

Sec. 60101. Findings.
Sec. 60102. Grants for broadband deployment.
Sec. 60103. Broadband DATA maps.
Sec. 60104. Report on future of Universal Service Fund.
Sec. 60105. Broadband deployment locations map.

TITLE II—TRIBAL CONNECTIVITY TECHNICAL AMENDMENTS.

Sec. 60201. Tribal connectivity technical amendments.

TITLE III—DIGITAL EQUITY ACT OF 2021

Sec. 60301. Short title.
Sec. 60302. Definitions.
Sec. 60303. Sense of Congress.
Sec. 60304. State Digital Equity Capacity Grant Program.
Sec. 60305. Digital Equity Competitive Grant Program.
Sec. 60306. Policy research, data collection, analysis and modeling, evaluation, and dissemination.

AMERICAN OVERSIGHT

Sec. 60307. General provisions.

TITLE IV—ENABLING MIDDLE MILE BROADBAND INFRASTRUCTURE

Sec. 60401. Enabling middle mile broadband infrastructure.

TITLE V—BROADBAND AFFORDABILITY

Sec. 60501. Definitions.
Sec. 60502. Broadband affordability.
Sec. 60503. Coordination with certain other Federal agencies.
Sec. 60504. Adoption of consumer broadband labels.
Sec. 60505. GAO report.
Sec. 60506. Digital discrimination.

TITLE VI—TELECOMMUNICATIONS INDUSTRY WORKFORCE

Sec. 60601. Short title.
Sec. 60602. Telecommunications interagency working group.
Sec. 60603. Telecommunications workforce guidance.
Sec. 60604. GAO assessment of workforce needs of the telecommunications industry.

DIVISION G—OTHER AUTHORIZATIONS

TITLE I—INDIAN WATER RIGHTS SETTLEMENT COMPLETION FUND

Sec. 70101. Indian Water Rights Settlement Completion Fund.

TITLE II—WILDFIRE MITIGATION

Sec. 70201. Short title.
Sec. 70202. Definitions.
Sec. 70203. Establishment of Commission.
Sec. 70204. Duties of Commission.
Sec. 70205. Powers of Commission.
Sec. 70206. Commission personnel matters.
Sec. 70207. Termination of Commission.

TITLE III—REFORESTATION

Sec. 70301. Short title.
Sec. 70302. Reforestation following wildfires and other unplanned events.
Sec. 70303. Report.

TITLE IV—RECYCLING PRACTICES

Sec. 70401. Best practices for battery recycling and labeling guidelines.
Sec. 70402. Consumer recycling education and outreach grant program; Federal procurement.

TITLE V—BIOPRODUCT PILOT PROGRAM

Sec. 70501. Pilot program on use of agricultural commodities in construction and consumer products.

TITLE VI—CYBERSECURITY

Subtitle A—Cyber Response and Recovery Act

Sec. 70601. Short title.
Sec. 70602. Declaration of a significant incident.

Subtitle B—State and Local Cybersecurity Improvement Act

Sec. 70611. Short title.
Sec. 70612. State and Local Cybersecurity Grant Program.

TITLE VII—PUBLIC-PRIVATE PARTNERSHIPS

Sec. 70701. Value for money analysis.

TITLE VIII—FEDERAL PERMITTING IMPROVEMENT

Sec. 70801. Federal permitting improvement.

TITLE IX—BUILD AMERICA, BUY AMERICA

Subtitle A—Build America, Buy America

Sec. 70901. Short title.

PART I—BUY AMERICA SOURCING REQUIREMENTS

Sec. 70911. Findings.

AMERICAN OVERSIGHT

Sec. 70912. Definitions.
Sec. 70913. Identification of deficient programs.
Sec. 70914. Application of Buy America preference.
Sec. 70915. OMB guidance and standards.
Sec. 70916. Technical assistance partnership and consultation supporting Department of Transportation Buy America requirements.
Sec. 70917. Application.

PART II—MAKE IT IN AMERICA

Sec. 70921. Regulations relating to Buy American Act.
Sec. 70922. Amendments relating to Buy American Act.
Sec. 70923. Made in America Office.
Sec. 70924. Hollings Manufacturing Extension Partnership activities.
Sec. 70925. United States obligations under international agreements.
Sec. 70926. Definitions.
Sec. 70927. Prospective amendments to internal cross-references.

Subtitle B—BuyAmerican.gov

Sec. 70931. Short title.
Sec. 70932. Definitions.
Sec. 70933. Sense of Congress on buying American.
Sec. 70934. Assessment of impact of free trade agreements.
Sec. 70935. Judicious use of waivers.
Sec. 70936. Establishment of BuyAmerican.gov website.
Sec. 70937. Waiver Transparency and Streamlining for contracts.
Sec. 70938. Comptroller General report.
Sec. 70939. Rules of construction.
Sec. 70940. Consistency with international agreements.
Sec. 70941. Prospective amendments to internal cross-references.

Subtitle C—Make PPE in America

Sec. 70951. Short title.
Sec. 70952. Findings.
Sec. 70953. Requirement of long-term contracts for domestically manufactured personal protective equipment.

TITLE X—ASSET CONCESSIONS

Sec. 71001. Asset concessions.

TITLE XI—CLEAN SCHOOL BUSES AND FERRIES

Sec. 71101. Clean school bus program.
Sec. 71102. Electric or low-emitting ferry pilot program.
Sec. 71103. Ferry service for rural communities.
Sec. 71104. Expanding the funding authority for renovating, constructing, and expanding certain facilities.

DIVISION H—REVENUE PROVISIONS

TITLE I—HIGHWAY TRUST FUND

Sec. 80101. Extension of Highway Trust Fund expenditure authority.
Sec. 80102. Extension of highway-related taxes.
Sec. 80103. Further additional transfers to trust fund.

TITLE II—CHEMICAL SUPERFUND

Sec. 80201. Extension and modification of certain superfund excise taxes.

TITLE III—CUSTOMS USER FEES

Sec. 80301. Extension of customs user fees.

TITLE IV—BOND PROVISIONS

Sec. 80401. Private activity bonds for qualified broadband projects.
Sec. 80402. Carbon dioxide capture facilities.
Sec. 80403. Increase in national limitation amount for qualified highway or surface freight transportation facilities.

TITLE V—RELIEF FOR TAXPAYERS AFFECTED BY DISASTERS OR OTHER CRITICAL EVENTS

Sec. 80501. Modification of automatic extension of certain deadlines in the case of taxpayers affected by Federally declared disasters.

AMERICAN OVERSIGHT

Sec. 80502. Modifications of rules for postponing certain acts by reason of service in combat zone or contingency operation.
Sec. 80503. Tolling of time for filing a petition with the tax court.
Sec. 80504. Authority to postpone certain tax deadlines by reason of significant fires.

TITLE VI—OTHER PROVISIONS

Sec. 80601. Modification of tax treatment of contributions to the capital of a corporation.
Sec. 80602. Extension of interest rate stabilization.
Sec. 80603. Information reporting for brokers and digital assets.
Sec. 80604. Termination of employee retention credit for employers subject to closure due to COVID–19.

DIVISION I—OTHER MATTERS

Sec. 90001. Extension of direct spending reductions through fiscal year 2031.
Sec. 90002. Strategic Petroleum Reserve drawdown and sale.
Sec. 90003. Findings regarding unused unemployment insurance funds.
Sec. 90004. Requiring manufacturers of certain single-dose container or single-use package drugs payable under part B of the Medicare program to provide refunds with respect to discarded amounts of such drugs.
Sec. 90005. Extension of enterprise guarantee fees.
Sec. 90006. Moratorium on implementation of rule relating to eliminating the anti-kickback statute safe harbor protection for prescription drug rebates.
Sec. 90007. Rescission of COVID–19 appropriations.
Sec. 90008. Spectrum auctions.

DIVISION J—APPROPRIATIONS

TITLE I—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES

TITLE II—COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES

TITLE III—ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES

TITLE IV—FINANCIAL SERVICES AND GENERAL GOVERNMENT

TITLE V—DEPARTMENT OF HOMELAND SECURITY

TITLE VI—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES

TITLE VII—LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES

TITLE VIII—TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES

TITLE IX—GENERAL PROVISIONS—THIS DIVISION

DIVISION K—MINORITY BUSINESS DEVELOPMENT

Sec. 100001. Short title.
Sec. 100002. Definitions.
Sec. 100003. Minority Business Development Agency.

TITLE I—EXISTING INITIATIVES

Subtitle A—Market Development, Research, and Information

Sec. 100101. Private sector development.
Sec. 100102. Public sector development.
Sec. 100103. Research and information.

Subtitle B—Minority Business Development Agency Business Center Program

Sec. 100111. Definition.
Sec. 100112. Purpose.
Sec. 100113. Establishment.
Sec. 100114. Grants and cooperative agreements.
Sec. 100115. Minimizing disruptions to existing MBDA Business Center program.
Sec. 100116. Publicity.

TITLE II—NEW INITIATIVES TO PROMOTE ECONOMIC RESILIENCY FOR MINORITY BUSINESSES

Sec. 100201. Annual diverse business forum on capital formation.

AMERICAN OVERSIGHT

Sec. 100202. Agency study on alternative financing solutions.
Sec. 100203. Educational development relating to management and entrepreneurship.

TITLE III—RURAL MINORITY BUSINESS CENTER PROGRAM

Sec. 100301. Definitions.
Sec. 100302. Business centers.
Sec. 100303. Report to Congress.

Sec. 100706. Separability.
Sec. 100707. Executive Order 11625.
Sec. 100708. Authorization of appropriations.

SEC. 2. REFERENCES.

Except as expressly provided otherwise, any reference to "this Act" contained in any division of this Act shall be treated as referring only to the provisions of that division.

AMERICAN OVERSIGHT

DIVISION A—SURFACE TRANSPORTATION

SEC. 10001. SHORT TITLE.

This division may be cited as the "Surface Transportation Reauthorization Act of 2021".

SEC. 10002. DEFINITIONS.

In this division:

(1) DEPARTMENT.—The term "Department" means the Department of Transportation.

(2) SECRETARY.—The term "Secretary" means the Secretary of Transportation.

SEC. 10003. EFFECTIVE DATE.

Except as otherwise provided, this division and the amendments made by this division take effect on October 1, 2021.

TITLE I—FEDERAL-AID HIGHWAYS

Subtitle A—Authorizations and Programs

SEC. 11101. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—The following amounts are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) FEDERAL-AID HIGHWAY PROGRAM.—For the national highway performance program under section 119 of title 23, United States Code, the surface transportation block grant program under section 133 of that title, the highway safety improvement program under section 148 of that title, the congestion mitigation and air quality improvement program under section 149 of that title, the national highway freight program under section 167 of that title, the carbon reduction program under section 175 of that title, to carry out subsection (c) of the PROTECT program under section 176 of that title, and to carry out section 134 of that title—

(A) $52,488,065,375 for fiscal year 2022;
(B) $53,537,826,683 for fiscal year 2023;
(C) $54,608,583,217 for fiscal year 2024;
(D) $55,700,754,881 for fiscal year 2025; and
(E) $56,814,769,844 for fiscal year 2026.

(2) TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM.—For credit assistance under the transportation infrastructure finance and innovation program under chapter 6 of title 23, United States Code, $250,000,000 for each of fiscal years 2022 through 2026.

(3) FEDERAL LANDS AND TRIBAL TRANSPORTATION PROGRAMS.—

(A) TRIBAL TRANSPORTATION PROGRAM.—For the tribal transportation program under section 202 of title 23, United States Code—

(i) $578,460,000 for fiscal year 2022;
(ii) $589,960,000 for fiscal year 2023;
(iii) $602,460,000 for fiscal year 2024;

AMERICAN OVERSIGHT

(iv) $612,960,000 for fiscal year 2025; and
(v) $627,960,000 for fiscal year 2026.

(B) FEDERAL LANDS TRANSPORTATION PROGRAM.—

(i) IN GENERAL.—For the Federal lands transportation program under section 203 of title 23, United States Code—

(I) $421,965,000 for fiscal year 2022;
(II) $429,965,000 for fiscal year 2023;
(III) $438,965,000 for fiscal year 2024;
(IV) $447,965,000 for fiscal year 2025; and
(V) $455,965,000 for fiscal year 2026.

(ii) ALLOCATION.—Of the amount made available for a fiscal year under clause (i)—

(I) the amount for the National Park Service is—

(aa) $332,427,450 for fiscal year 2022;
(bb) $338,867,450 for fiscal year 2023;
(cc) $346,237,450 for fiscal year 2024;
(dd) $353,607,450 for fiscal year 2025; and
(ee) $360,047,450 for fiscal year 2026;

(II) the amount for the United States Fish and Wildlife Service is $36,000,000 for each of fiscal years 2022 through 2026; and

(III) the amount for the Forest Service is—

(aa) $24,000,000 for fiscal year 2022;
(bb) $25,000,000 for fiscal year 2023;
(cc) $26,000,000 for fiscal year 2024;
(dd) $27,000,000 for fiscal year 2025; and
(ee) $28,000,000 for fiscal year 2026.

(C) FEDERAL LANDS ACCESS PROGRAM.—For the Federal lands access program under section 204 of title 23, United States Code—

(i) $285,975,000 for fiscal year 2022;
(ii) $291,975,000 for fiscal year 2023;
(iii) $296,975,000 for fiscal year 2024;
(iv) $303,975,000 for fiscal year 2025; and
(v) $308,975,000 for fiscal year 2026.

(4) TERRITORIAL AND PUERTO RICO HIGHWAY PROGRAM.—For the territorial and Puerto Rico highway program under section 165 of title 23, United States Code—

(A) $219,000,000 for fiscal year 2022;
(B) $224,000,000 for fiscal year 2023;
(C) $228,000,000 for fiscal year 2024;
(D) $232,500,000 for fiscal year 2025; and
(E) $237,000,000 for fiscal year 2026.

(5) NATIONALLY SIGNIFICANT FREIGHT AND HIGHWAY PROJECTS.—For nationally significant freight and highway projects under section 117 of title 23, United States Code—

(A) $1,000,000,000 for fiscal year 2022;
(B) $1,000,000,000 for fiscal year 2023;
(C) $1,000,000,000 for fiscal year 2024;
(D) $900,000,000 for fiscal year 2025; and
(E) $900,000,000 for fiscal year 2026.

(b) OTHER PROGRAMS.—

(1) IN GENERAL.—The following amounts are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

AMERICAN OVERSIGHT

(A) BRIDGE INVESTMENT PROGRAM.—To carry out the bridge investment program under section 124 of title 23, United States Code—

(i) $600,000,000 for fiscal year 2022;
(ii) $640,000,000 for fiscal year 2023;
(iii) $650,000,000 for fiscal year 2024;
(iv) $675,000,000 for fiscal year 2025; and
(v) $700,000,000 for fiscal year 2026.

(B) CONGESTION RELIEF PROGRAM.—To carry out the congestion relief program under section 129(d) of title 23, United States Code, $50,000,000 for each of fiscal years 2022 through 2026.

(C) CHARGING AND FUELING INFRASTRUCTURE GRANTS.—To carry out section 151(f) of title 23, United States Code—

(i) $300,000,000 for fiscal year 2022;
(ii) $400,000,000 for fiscal year 2023;
(iii) $500,000,000 for fiscal year 2024;
(iv) $600,000,000 for fiscal year 2025; and
(v) $700,000,000 for fiscal year 2026.

(D) RURAL SURFACE TRANSPORTATION GRANT PROGRAM.—To carry out the rural surface transportation grant program under section 173 of title 23, United States Code—

(i) $300,000,000 for fiscal year 2022;
(ii) $350,000,000 for fiscal year 2023;
(iii) $400,000,000 for fiscal year 2024;
(iv) $450,000,000 for fiscal year 2025; and
(v) $500,000,000 for fiscal year 2026.

(E) PROTECT GRANTS.—

(i) IN GENERAL.—To carry out subsection (d) of the PROTECT program under section 176 of title 23, United States Code, for each of fiscal years 2022 through 2026—

(I) $250,000,000 for fiscal year 2022;
(II) $250,000,000 for fiscal year 2023;
(III) $300,000,000 for fiscal year 2024;
(IV) $300,000,000 for fiscal year 2025; and
(V) $300,000,000 for fiscal year 2026.

(ii) ALLOCATION.—Of the amounts made available under clause (i)—

(I) for planning grants under paragraph (3) of that subsection—

(aa) $25,000,000 for fiscal year 2022;
(bb) $25,000,000 for fiscal year 2023;
(cc) $30,000,000 for fiscal year 2024;
(dd) $30,000,000 for fiscal year 2025; and
(ee) $30,000,000 for fiscal year 2026;

(II) for resilience improvement grants under paragraph (4)(A) of that subsection—

(aa) $175,000,000 for fiscal year 2022;
(bb) $175,000,000 for fiscal year 2023;
(cc) $210,000,000 for fiscal year 2024;
(dd) $210,000,000 for fiscal year 2025; and
(ee) $210,000,000 for fiscal year 2026;

(III) for community resilience and evacuation route grants under paragraph (4)(B) of that subsection—

AMERICAN OVERSIGHT

(aa) $25,000,000 for fiscal year 2022;
(bb) $25,000,000 for fiscal year 2023;
(cc) $30,000,000 for fiscal year 2024;
(dd) $30,000,000 for fiscal year 2025; and
(ee) $30,000,000 for fiscal year 2026; and

(IV) for at-risk coastal infrastructure grants under paragraph (4)(C) of that subsection—
(aa) $25,000,000 for fiscal year 2022;
(bb) $25,000,000 for fiscal year 2023;
(cc) $30,000,000 for fiscal year 2024;
(dd) $30,000,000 for fiscal year 2025; and
(ee) $30,000,000 for fiscal year 2026.

(F) REDUCTION OF TRUCK EMISSIONS AT PORT FACILITIES.—

(i) IN GENERAL.—To carry out the reduction of truck emissions at port facilities under section 11402, $50,000,000 for each of fiscal years 2022 through 2026.

(ii) TREATMENT.—Amounts made available under clause (i) shall be available for obligation in the same manner as if those amounts were apportioned under chapter 1 of title 23, United States Code.

(G) NATIONALLY SIGNIFICANT FEDERAL LANDS AND TRIBAL PROJECTS.—

(i) IN GENERAL.—To carry out the nationally significant Federal lands and tribal projects program under section 1123 of the FAST Act (23 U.S.C. 201 note; Public Law 114–94), $55,000,000 for each of fiscal years 2022 through 2026.

(ii) TREATMENT.—Amounts made available under clause (i) shall be available for obligation in the same manner as if those amounts were apportioned under chapter 1 of title 23, United States Code.

(2) GENERAL FUND.—

(A) BRIDGE INVESTMENT PROGRAM.—

(i) IN GENERAL.—In addition to amounts made available under paragraph (1)(A), there are authorized to be appropriated to carry out the bridge investment program under section 124 of title 23, United States Code—

(I) $600,000,000 for fiscal year 2022;
(II) $640,000,000 for fiscal year 2023;
(III) $650,000,000 for fiscal year 2024;
(IV) $675,000,000 for fiscal year 2025; and
(V) $700,000,000 for fiscal year 2026.

(ii) ALLOCATION.—Amounts made available under clause (i) shall be allocated in the same manner as if made available under paragraph (1)(A).

(B) NATIONALLY SIGNIFICANT FEDERAL LANDS AND TRIBAL PROJECTS PROGRAM.—In addition to amounts made available under paragraph (1)(G), there is authorized to be appropriated to carry out section 1123 of the FAST Act (23 U.S.C. 201 note; Public Law 114–94) $300,000,000 for each of fiscal years 2022 through 2026.

(C) HEALTHY STREETS PROGRAM.—There is authorized to be appropriated to carry out the Healthy Streets program under section 11406 $100,000,000 for each of fiscal years 2022 through 2026.

AMERICAN OVERSIGHT

(D) TRANSPORTATION RESILIENCE AND ADAPTATION CENTERS OF EXCELLENCE.—There is authorized to be appropriated to carry out section 520 of title 23, United States Code, $100,000,000 for each of fiscal years 2022 through 2026.

(E) OPEN CHALLENGE AND RESEARCH PROPOSAL PILOT PROGRAM.—There is authorized to be appropriated to carry out the open challenge and research proposal pilot program under section 13006(e) $15,000,000 for each of fiscal years 2022 through 2026.

(c) RESEARCH, TECHNOLOGY, AND EDUCATION AUTHORIZATIONS.—

(1) IN GENERAL.—The following amounts are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(A) HIGHWAY RESEARCH AND DEVELOPMENT PROGRAM.—To carry out section 503(b) of title 23, United States Code, $147,000,000 for each of fiscal years 2022 through 2026.

(B) TECHNOLOGY AND INNOVATION DEPLOYMENT PROGRAM.—To carry out section 503(c) of title 23, United States Code, $110,000,000 for each of fiscal years 2022 through 2026.

(C) TRAINING AND EDUCATION.—To carry out section 504 of title 23, United States Code—

(i) $25,000,000 for fiscal year 2022;
(ii) $25,250,000 for fiscal year 2023;
(iii) $25,500,000 for fiscal year 2024;
(iv) $25,750,000 for fiscal year 2025; and
(v) $26,000,000 for fiscal year 2026.

(D) INTELLIGENT TRANSPORTATION SYSTEMS PROGRAM.—To carry out sections 512 through 518 of title 23, United States Code, $110,000,000 for each of fiscal years 2022 through 2026.

(E) UNIVERSITY TRANSPORTATION CENTERS PROGRAM.—To carry out section 5505 of title 49, United States Code—

(i) $80,000,000 for fiscal year 2022;
(ii) $80,500,000 for fiscal year 2023;
(iii) $81,000,000 for fiscal year 2024;
(iv) $81,500,000 for fiscal year 2025; and
(v) $82,000,000 for fiscal year 2026.

(F) BUREAU OF TRANSPORTATION STATISTICS.—To carry out chapter 63 of title 49, United States Code—

(i) $26,000,000 for fiscal year 2022;
(ii) $26,250,000 for fiscal year 2023;
(iii) $26,500,000 for fiscal year 2024;
(iv) $26,750,000 for fiscal year 2025; and
(v) $27,000,000 for fiscal year 2026.

(2) ADMINISTRATION.—The Federal Highway Administration shall—

(A) administer the programs described in subparagraphs (A), (B), and (C) of paragraph (1); and

(B) in consultation with relevant modal administrations, administer the programs described in paragraph (1)(D).

(3) APPLICABILITY OF TITLE 23, UNITED STATES CODE.—Amounts authorized to be appropriated by paragraph (1) shall—

AMERICAN OVERSIGHT

(A) be available for obligation in the same manner as if those funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of a project or activity carried out using those funds shall be 80 percent, unless otherwise expressly provided by this division (including the amendments by this division) or otherwise determined by the Secretary; and

(B) remain available until expended and not be transferable, except as otherwise provided by this division.

(d) PILOT PROGRAMS.—The following amounts are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) WILDLIFE CROSSINGS PILOT PROGRAM.—For the wildlife crossings pilot program under section 171 of title 23, United States Code—

(A) $60,000,000 for fiscal year 2022;
(B) $65,000,000 for fiscal year 2023;
(C) $70,000,000 for fiscal year 2024;
(D) $75,000,000 for fiscal year 2025; and
(E) $80,000,000 for fiscal year 2026.

(2) PRIORITIZATION PROCESS PILOT PROGRAM.—

(A) IN GENERAL.—For the prioritization process pilot program under section 11204, $10,000,000 for each of fiscal years 2022 through 2026.

(B) TREATMENT.—Amounts made available under subparagraph (A) shall be available for obligation in the same manner as if those amounts were apportioned under chapter 1 of title 23, United States Code.

(3) RECONNECTING COMMUNITIES PILOT PROGRAM.—

(A) PLANNING GRANTS.—For planning grants under the reconnecting communities pilot program under section 11509(c), $30,000,000 for each of fiscal years 2022 through 2026.

(B) CAPITAL CONSTRUCTION GRANTS.—For capital construction grants under the reconnecting communities pilot program under section 11509(d)—

(i) $65,000,000 for fiscal year 2022;
(ii) $68,000,000 for fiscal year 2023;
(iii) $70,000,000 for fiscal year 2024;
(iv) $72,000,000 for fiscal year 2025; and
(v) $75,000,000 for fiscal year 2026.

(C) TREATMENT.—Amounts made available under subparagraph (A) or (B) shall be available for obligation in the same manner as if those amounts were apportioned under chapter 1 of title 23, United States Code, except that those amounts shall remain available until expended.

(e) DISADVANTAGED BUSINESS ENTERPRISES.—

(1) FINDINGS.—Congress finds that—

(A) while significant progress has occurred due to the establishment of the disadvantaged business enterprise program, discrimination and related barriers continue to pose significant obstacles for minority- and women-owned businesses seeking to do business in Federally assisted surface transportation markets across the United States;

(B) the continuing barriers described in subparagraph (A) merit the continuation of the disadvantaged business enterprise program;

AMERICAN OVERSIGHT

(C) Congress has received and reviewed testimony and documentation of race and gender discrimination from numerous sources, including congressional hearings and roundtables, scientific reports, reports issued by public and private agencies, news stories, reports of discrimination by organizations and individuals, and discrimination lawsuits, which show that race- and gender-neutral efforts alone are insufficient to address the problem;

(D) the testimony and documentation described in subparagraph (C) demonstrate that discrimination across the United States poses a barrier to full and fair participation in surface transportation-related businesses of women business owners and minority business owners and has impacted firm development and many aspects of surface transportation-related business in the public and private markets; and

(E) the testimony and documentation described in subparagraph (C) provide a strong basis that there is a compelling need for the continuation of the disadvantaged business enterprise program to address race and gender discrimination in surface transportation-related business.

(2) DEFINITIONS.—In this subsection:

(A) SMALL BUSINESS CONCERN.—

(i) IN GENERAL.—The term "small business concern" means a small business concern (as the term is used in section 3 of the Small Business Act (15 U.S.C. 632)).

(ii) EXCLUSIONS.—The term "small business concern" does not include any concern or group of concerns controlled by the same socially and economically disadvantaged individual or individuals that have average annual gross receipts during the preceding 3 fiscal years in excess of $26,290,000, as adjusted annually by the Secretary for inflation.

(B) SOCIALLY AND ECONOMICALLY DISADVANTAGED INDIVIDUALS.—The term "socially and economically disadvantaged individuals" has the meaning given the term in section 8(d) of the Small Business Act (15 U.S.C. 637(d)) and relevant subcontracting regulations issued pursuant to that Act, except that women shall be presumed to be socially and economically disadvantaged individuals for purposes of this subsection.

(3) AMOUNTS FOR SMALL BUSINESS CONCERNS.—Except to the extent that the Secretary determines otherwise, not less than 10 percent of the amounts made available for any program under this division (other than section 14004), division C, and section 403 of title 23, United States Code, shall be expended through small business concerns owned and controlled by socially and economically disadvantaged individuals.

(4) ANNUAL LISTING OF DISADVANTAGED BUSINESS ENTERPRISES.—Each State shall annually—

(A) survey and compile a list of the small business concerns referred to in paragraph (3) in the State, including the location of the small business concerns in the State; and

(B) notify the Secretary, in writing, of the percentage of the small business concerns that are controlled by—

AMERICAN OVERSIGHT

(i) women;

(ii) socially and economically disadvantaged individuals (other than women); and

(iii) individuals who are women and are otherwise socially and economically disadvantaged individuals.

(5) UNIFORM CERTIFICATION.—

(A) IN GENERAL.—The Secretary shall establish minimum uniform criteria for use by State governments in certifying whether a concern qualifies as a small business concern for the purpose of this subsection.

(B) INCLUSIONS.—The minimum uniform criteria established under subparagraph (A) shall include, with respect to a potential small business concern—

(i) on-site visits;

(ii) personal interviews with personnel;

(iii) issuance or inspection of licenses;

(iv) analyses of stock ownership;

(v) listings of equipment;

(vi) analyses of bonding capacity;

(vii) listings of work completed;

(viii) examination of the resumes of principal owners;

(ix) analyses of financial capacity; and

(x) analyses of the type of work preferred.

(6) REPORTING.—The Secretary shall establish minimum requirements for use by State governments in reporting to the Secretary—

(A) information concerning disadvantaged business enterprise awards, commitments, and achievements; and

(B) such other information as the Secretary determines to be appropriate for the proper monitoring of the disadvantaged business enterprise program.

(7) COMPLIANCE WITH COURT ORDERS.—Nothing in this subsection limits the eligibility of an individual or entity to receive funds made available under this division, division C, and section 403 of title 23, United States Code, if the entity or person is prevented, in whole or in part, from complying with paragraph (3) because a Federal court issues a final order in which the court finds that a requirement or the implementation of paragraph (3) is unconstitutional.

(8) SENSE OF CONGRESS ON PROMPT PAYMENT OF DBE SUBCONTRACTORS.—It is the sense of Congress that—

(A) the Secretary should take additional steps to ensure that recipients comply with section 26.29 of title 49, Code of Federal Regulations (the disadvantaged business enterprises prompt payment rule), or any corresponding regulation, in awarding Federally funded transportation contracts under laws and regulations administered by the Secretary; and

(B) such additional steps should include increasing the ability of the Department to track and keep records of complaints and to make that information publicly available.

SEC. 11102. OBLIGATION CEILING.

(a) GENERAL LIMITATION.—Subject to subsection (e), and notwithstanding any other provision of law, the obligations for Federal-

AMERICAN OVERSIGHT

aid highway and highway safety construction programs shall not exceed—

(1) $57,473,430,072 for fiscal year 2022;
(2) $58,764,510,674 for fiscal year 2023;
(3) $60,095,782,888 for fiscal year 2024;
(4) $61,314,170,545 for fiscal year 2025; and
(5) $62,657,105,821 for fiscal year 2026.

(b) EXCEPTIONS.—The limitations under subsection (a) shall not apply to obligations under or for—

(1) section 125 of title 23, United States Code;
(2) section 147 of the Surface Transportation Assistance Act of 1978 (23 U.S.C. 144 note; 92 Stat. 2714);
(3) section 9 of the Federal-Aid Highway Act of 1981 (95 Stat. 1701);
(4) subsections (b) and (j) of section 131 of the Surface Transportation Assistance Act of 1982 (96 Stat. 2119);
(5) subsections (b) and (c) of section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (101 Stat. 198);
(6) sections 1103 through 1108 of the Intermodal Surface Transportation Efficiency Act of 1991 (105 Stat. 2027);
(7) section 157 of title 23, United States Code (as in effect on June 8, 1998);
(8) section 105 of title 23, United States Code (as in effect for fiscal years 1998 through 2004, but only in an amount equal to $639,000,000 for each of those fiscal years);
(9) Federal-aid highway programs for which obligation authority was made available under the Transportation Equity Act for the 21st Century (112 Stat. 107) or subsequent Acts for multiple years or to remain available until expended, but only to the extent that the obligation authority has not lapsed or been used;
(10) section 105 of title 23, United States Code (as in effect for fiscal years 2005 through 2012, but only in an amount equal to $639,000,000 for each of those fiscal years);
(11) section 1603 of SAFETEA–LU (23 U.S.C. 118 note; 119 Stat. 1248), to the extent that funds obligated in accordance with that section were not subject to a limitation on obligations at the time at which the funds were initially made available for obligation;
(12) section 119 of title 23, United States Code (as in effect for fiscal years 2013 through 2015, but only in an amount equal to $639,000,000 for each of those fiscal years);
(13) section 119 of title 23, United States Code (as in effect for fiscal years 2016 through 2021, but only in an amount equal to $639,000,000 for each of those fiscal years); and
(14) section 119 of title 23, United States Code (but, for fiscal years 2022 through 2026, only in an amount equal to $639,000,000 for each of those fiscal years).

(c) DISTRIBUTION OF OBLIGATION AUTHORITY.—For each of fiscal years 2022 through 2026, the Secretary—

(1) shall not distribute obligation authority provided by subsection (a) for the fiscal year for—
(A) amounts authorized for administrative expenses and programs by section 104(a) of title 23, United States Code; and

AMERICAN OVERSIGHT

(B) amounts authorized for the Bureau of Transportation Statistics;

(2) shall not distribute an amount of obligation authority provided by subsection (a) that is equal to the unobligated balance of amounts—

(A) made available from the Highway Trust Fund (other than the Mass Transit Account) for Federal-aid highway and highway safety construction programs for previous fiscal years the funds for which are allocated by the Secretary (or apportioned by the Secretary under section 202 or 204 of title 23, United States Code); and

(B) for which obligation authority was provided in a previous fiscal year;

(3) shall determine the proportion that—

(A) the obligation authority provided by subsection (a) for the fiscal year, less the aggregate of amounts not distributed under paragraphs (1) and (2) of this subsection; bears to

(B) the total of the sums authorized to be appropriated for the Federal-aid highway and highway safety construction programs (other than sums authorized to be appropriated for provisions of law described in paragraphs (1) through (13) of subsection (b) and sums authorized to be appropriated for section 119 of title 23, United States Code, equal to the amount referred to in subsection (b)(14) for the fiscal year), less the aggregate of the amounts not distributed under paragraphs (1) and (2) of this subsection;

(4) shall distribute the obligation authority provided by subsection (a), less the aggregate amounts not distributed under paragraphs (1) and (2), for each of the programs (other than programs to which paragraph (1) applies) that are allocated by the Secretary under this division and title 23, United States Code, or apportioned by the Secretary under section 202 or 204 of that title, by multiplying—

(A) the proportion determined under paragraph (3); by

(B) the amounts authorized to be appropriated for each such program for the fiscal year; and

(5) shall distribute the obligation authority provided by subsection (a), less the aggregate amounts not distributed under paragraphs (1) and (2) and the amounts distributed under paragraph (4), for Federal-aid highway and highway safety construction programs that are apportioned by the Secretary under title 23, United States Code (other than the amounts apportioned for the national highway performance program in section 119 of title 23, United States Code, that are exempt from the limitation under subsection (b)(14) and the amounts apportioned under sections 202 and 204 of that title) in the proportion that—

(A) amounts authorized to be appropriated for the programs that are apportioned under title 23, United States Code, to each State for the fiscal year; bears to

(B) the total of the amounts authorized to be appropriated for the programs that are apportioned under title 23, United States Code, to all States for the fiscal year.

AMERICAN OVERSIGHT

(d) REDISTRIBUTION OF UNUSED OBLIGATION AUTHORITY.—Notwithstanding subsection (c), the Secretary shall, after August 1 of each of fiscal years 2022 through 2026—

(1) revise a distribution of the obligation authority made available under subsection (c) if an amount distributed cannot be obligated during that fiscal year; and

(2) redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year, giving priority to those States having large unobligated balances of funds apportioned under sections 144 (as in effect on the day before the date of enactment of MAP–21 (Public Law 112–141; 126 Stat. 405)) and 104 of title 23, United States Code.

(e) APPLICABILITY OF OBLIGATION LIMITATIONS TO TRANSPORTATION RESEARCH PROGRAMS.—

(1) IN GENERAL.—Except as provided in paragraph (2), obligation limitations imposed by subsection (a) shall apply to contract authority for transportation research programs carried out under chapter 5 of title 23, United States Code.

(2) EXCEPTION.—Obligation authority made available under paragraph (1) shall—

(A) remain available for a period of 4 fiscal years; and

(B) be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years.

(f) REDISTRIBUTION OF CERTAIN AUTHORIZED FUNDS.—

(1) IN GENERAL.—Not later than 30 days after the date of distribution of obligation authority under subsection (c) for each of fiscal years 2022 through 2026, the Secretary shall distribute to the States any funds (excluding funds authorized for the program under section 202 of title 23, United States Code) that—

(A) are authorized to be appropriated for the fiscal year for Federal-aid highway programs; and

(B) the Secretary determines will not be allocated to the States (or will not be apportioned to the States under section 204 of title 23, United States Code), and will not be available for obligation, for the fiscal year because of the imposition of any obligation limitation for the fiscal year.

(2) RATIO.—Funds shall be distributed under paragraph (1) in the same proportion as the distribution of obligation authority under subsection (c)(5).

(3) AVAILABILITY.—Funds distributed to each State under paragraph (1) shall be available for any purpose described in section 133(b) of title 23, United States Code.

SEC. 11103. DEFINITIONS.

Section 101(a) of title 23, United States Code, is amended—

(1) in paragraph (4)—

(A) in subparagraph (A), by inserting "assessing resilience," after "surveying,";

(B) in subparagraph (G), by striking "and" at the end;

(C) by redesignating subparagraph (H) as subparagraph (I); and

(D) by inserting after subparagraph (G) the following:

AMERICAN OVERSIGHT

"(H) improvements that reduce the number of wildlife-vehicle collisions, such as wildlife crossing structures; and";

(2) by redesignating paragraphs (17) through (34) as paragraphs (18), (19), (20), (21), (22), (23), (25), (26), (27), (28), (29), (30), (31), (32), (33), (34), (35), and (36), respectively;

(3) by inserting after paragraph (16) the following:

"(17) NATURAL INFRASTRUCTURE.—The term 'natural infrastructure' means infrastructure that uses, restores, or emulates natural ecological processes and—

"(A) is created through the action of natural physical, geological, biological, and chemical processes over time;

"(B) is created by human design, engineering, and construction to emulate or act in concert with natural processes; or

"(C) involves the use of plants, soils, and other natural features, including through the creation, restoration, or preservation of vegetated areas using materials appropriate to the region to manage stormwater and runoff, to attenuate flooding and storm surges, and for other related purposes.";

(4) by inserting after paragraph (23) (as so redesignated) the following:

"(24) RESILIENCE.—The term 'resilience', with respect to a project, means a project with the ability to anticipate, prepare for, or adapt to conditions or withstand, respond to, or recover rapidly from disruptions, including the ability—

"(A)(i) to resist hazards or withstand impacts from weather events and natural disasters; or

"(ii) to reduce the magnitude or duration of impacts of a disruptive weather event or natural disaster on a project; and

"(B) to have the absorptive capacity, adaptive capacity, and recoverability to decrease project vulnerability to weather events or other natural disasters."; and

(5) in subparagraph (A) of paragraph (32) (as so redesignated)—

(A) by striking the period at the end and inserting "; and";

(B) by striking "through the implementation" and inserting the following: "through—

"(i) the implementation"; and

(C) by adding at the end the following:

"(ii) the consideration of incorporating natural infrastructure.".

SEC. 11104. APPORTIONMENT.

(a) ADMINISTRATIVE EXPENSES.—Section 104(a)(1) of title 23, United States Code, is amended by striking subparagraphs (A) through (E) and inserting the following:

"(A) $490,964,697 for fiscal year 2022;
"(B) $500,783,991 for fiscal year 2023;
"(C) $510,799,671 for fiscal year 2024;
"(D) $521,015,664 for fiscal year 2025; and
"(E) $531,435,977 for fiscal year 2026.".

(b) DIVISION AMONG PROGRAMS OF STATE SHARE.—Section 104(b) of title 23, United States Code, is amended in subsection (b)—

AMERICAN OVERSIGHT

(1) in the matter preceding paragraph (1), by inserting "the carbon reduction program under section 175, to carry out subsection (c) of the PROTECT program under section 176," before "and to carry out section 134";

(2) in paragraph (1), by striking "63.7 percent" and inserting "59.0771195921461 percent";

(3) in paragraph (2), by striking "29.3 percent" and inserting "28.7402203421251 percent";

(4) in paragraph (3), by striking "7 percent" and inserting "6.70605141316253 percent";

(5) by striking paragraph (4) and inserting the following:

"(4) CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.—

"(A) IN GENERAL.—For the congestion mitigation and air quality improvement program, an amount determined for the State under subparagraphs (B) and (C).

"(B) TOTAL AMOUNT.—The total amount for the congestion mitigation and air quality improvement program for all States shall be—

"(i) $2,536,490,803 for fiscal year 2022;
"(ii) $2,587,220,620 for fiscal year 2023;
"(iii) $2,638,965,032 for fiscal year 2024;
"(iv) $2,691,744,332 for fiscal year 2025; and
"(v) $2,745,579,213 for fiscal year 2026.

"(C) STATE SHARE.—For each fiscal year, the Secretary shall distribute among the States the total amount for the congestion mitigation and air quality improvement program under subparagraph (B) so that each State receives an amount equal to the proportion that—

"(i) the amount apportioned to the State for the congestion mitigation and air quality improvement program for fiscal year 2020; bears to

"(ii) the total amount of funds apportioned to all States for that program for fiscal year 2020.";

(6) in paragraph (5)—

(A) by striking subparagraph (B) and inserting the following:

"(B) TOTAL AMOUNT.—The total amount set aside for the national highway freight program for all States shall be—

"(i) $1,373,932,519 for fiscal year 2022;
"(ii) $1,401,411,169 for fiscal year 2023;
"(iii) $1,429,439,392 for fiscal year 2024;
"(iv) $1,458,028,180 for fiscal year 2025; and
"(v) $1,487,188,740 for fiscal year 2026."; and

(B) by striking subparagraph (D); and

(7) by striking paragraph (6) and inserting the following:

"(6) METROPOLITAN PLANNING.—

"(A) IN GENERAL.—To carry out section 134, an amount determined for the State under subparagraphs (B) and (C).

"(B) TOTAL AMOUNT.—The total amount for metropolitan planning for all States shall be—

"(i) $ 438,121,139 for fiscal year 2022;
"(ii) $446,883,562 for fiscal year 2023;
"(iii) $455,821,233 for fiscal year 2024;
"(iv) $464,937,657 for fiscal year 2025; and

AMERICAN OVERSIGHT

"(v) $474,236,409 for fiscal year 2026.

"(C) STATE SHARE.—For each fiscal year, the Secretary shall distribute among the States the total amount to carry out section 134 under subparagraph (B) so that each State receives an amount equal to the proportion that—

"(i) the amount apportioned to the State to carry out section 134 for fiscal year 2020; bears to

"(ii) the total amount of funds apportioned to all States to carry out section 134 for fiscal year 2020.

"(7) CARBON REDUCTION PROGRAM.—For the carbon reduction program under section 175, 2.56266964565637 percent of the amount remaining after distributing amounts under paragraphs (4), (5), and (6).

"(8) PROTECT FORMULA PROGRAM.—To carry out subsection (c) of the PROTECT program under section 176, 2.91393900690991 percent of the amount remaining after distributing amounts under paragraphs (4), (5), and (6).".

(c) CALCULATION OF AMOUNTS.—Section 104(c) of title 23, United States Code, is amended—

(1) in paragraph (1)—

(A) in the matter preceding subparagraph (A), by striking "each of fiscal years 2016 through 2020" and inserting "fiscal year 2022 and each fiscal year thereafter";

(B) in subparagraph (A)—

(i) by striking clause (i) and inserting the following:

"(i) the base apportionment; by"; and

(ii) in clause (ii)(I), by striking "fiscal year 2015" and inserting "fiscal year 2021"; and

(C) by striking subparagraph (B) and inserting the following:

"(B) GUARANTEED AMOUNTS.—The initial amounts resulting from the calculation under subparagraph (A) shall be adjusted to ensure that each State receives an aggregate apportionment that is—

"(i) equal to at least 95 percent of the estimated tax payments paid into the Highway Trust Fund (other than the Mass Transit Account) in the most recent fiscal year for which data are available that are—

"(I) attributable to highway users in the State; and

"(II) associated with taxes in effect on July 1, 2019, and only up to the rate those taxes were in effect on that date;

"(ii) at least 2 percent greater than the apportionment that the State received for fiscal year 2021; and

"(iii) at least 1 percent greater than the apportionment that the State received for the previous fiscal year."; and

(2) in paragraph (2)—

(A) by striking "fiscal years 2016 through 2020" and inserting "fiscal year 2022 and each fiscal year thereafter"; and

(B) by inserting "the carbon reduction program under section 175, to carry out subsection (c) of the PROTECT program under section 176," before "and to carry out section 134".

AMERICAN OVERSIGHT

(d) METROPOLITAN PLANNING.—Section 104(d)(1)(A) of title 23, United States Code, is amended by striking "paragraphs (5)(D) and (6) of subsection (b)" each place it appears and inserting "subsection (b)(6)".

(e) SUPPLEMENTAL FUNDS.—Section 104 of title 23, United States Code, is amended by striking subsection (h).

(f) BASE APPORTIONMENT DEFINED.—Section 104 of title 23, United States Code, is amended—

(1) by redesignating subsection (i) as subsection (h); and

(2) in subsection (h) (as so redesignated)—

(A) by striking "means" in the matter preceding paragraph (1) and all that follows through "the combined amount" in paragraph (1) and inserting "means the combined amount";

(B) by striking "and to carry out section 134; minus" and inserting "the carbon reduction program under section 175, to carry out subsection (c) of the PROTECT program under section 176, and to carry out section 134."; and

(C) by striking paragraph (2).

SEC. 11105. NATIONAL HIGHWAY PERFORMANCE PROGRAM.

Section 119 of title 23, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (2), by striking "and" at the end;

(B) in paragraph (3), by striking the period at the end and inserting "; and"; and

(C) by adding at the end the following:

"(4) to provide support for activities to increase the resiliency of the National Highway System to mitigate the cost of damages from sea level rise, extreme weather events, flooding, wildfires, or other natural disasters.";

(2) in subsection (d)(2), by adding at the end the following:

"(Q) Undergrounding public utility infrastructure carried out in conjunction with a project otherwise eligible under this section.

"(R) Resiliency improvements on the National Highway System, including protective features described in subsection (k)(2).

"(S) Implement activities to protect segments of the National Highway System from cybersecurity threats.";

(3) in subsection (e)(4)(D), by striking "analysis" and inserting "analyses, both of which shall take into consideration extreme weather and resilience"; and

(4) by adding at the end the following:

"(k) PROTECTIVE FEATURES.—

"(1) IN GENERAL.—A State may use not more than 15 percent of the funds apportioned to the State under section 104(b)(1) for each fiscal year for 1 or more protective features on a Federal-aid highway or bridge not on the National Highway System, if the protective feature is designed to mitigate the risk of recurring damage or the cost of future repairs from extreme weather events, flooding, or other natural disasters.

"(2) PROTECTIVE FEATURES DESCRIBED.—A protective feature referred to in paragraph (1) includes—

"(A) raising roadway grades;

AMERICAN OVERSIGHT

"(B) relocating roadways in a base floodplain to higher ground above projected flood elevation levels or away from slide prone areas;

"(C) stabilizing slide areas;

"(D) stabilizing slopes;

"(E) lengthening or raising bridges to increase waterway openings;

"(F) increasing the size or number of drainage structures;

"(G) replacing culverts with bridges or upsizing culverts;

"(H) installing seismic retrofits on bridges;

"(I) adding scour protection at bridges, installing riprap, or adding other scour, stream stability, coastal, or other hydraulic countermeasures, including spur dikes; and

"(J) the use of natural infrastructure to mitigate the risk of recurring damage or the cost of future repair from extreme weather events, flooding, or other natural disasters.

"(3) SAVINGS PROVISION.—Nothing in this subsection limits the ability of a State to carry out a project otherwise eligible under subsection (d) using funds apportioned under section 104(b)(1).".

SEC. 11106. EMERGENCY RELIEF.

Section 125 of title 23, United States Code, is amended—

(1) in subsection (a)(1), by inserting "wildfire," after "severe storm,";

(2) by striking subsection (b) and inserting the following:

"(b) RESTRICTION ON ELIGIBILITY.—Funds under this section shall not be used for the repair or reconstruction of a bridge that has been permanently closed to all vehicular traffic by the State or responsible local official because of imminent danger of collapse due to a structural deficiency or physical deterioration."; and

(3) in subsection (d)—

(A) in paragraph (2)(A)—

(i) by striking the period at the end and inserting "; and";

(ii) by striking "a facility that meets the current" and inserting the following: "a facility that—

"(i) meets the current"; and

(iii) by adding at the end the following:

"(ii) incorporates economically justifiable improvements that will mitigate the risk of recurring damage from extreme weather, flooding, and other natural disasters.";

(B) by redesignating paragraph (3) as paragraph (4); and

(C) by inserting after paragraph (2) the following:

"(3) PROTECTIVE FEATURES.—

"(A) IN GENERAL.—The cost of an improvement that is part of a project under this section shall be an eligible expense under this section if the improvement is a protective feature that will mitigate the risk of recurring damage or the cost of future repair from extreme weather, flooding, and other natural disasters.

AMERICAN OVERSIGHT

"(B) PROTECTIVE FEATURES DESCRIBED.—A protective feature referred to in subparagraph (A) includes—

"(i) raising roadway grades;

"(ii) relocating roadways in a floodplain to higher ground above projected flood elevation levels or away from slide prone areas;

"(iii) stabilizing slide areas;

"(iv) stabilizing slopes;

"(v) lengthening or raising bridges to increase waterway openings;

"(vi) increasing the size or number of drainage structures;

"(vii) replacing culverts with bridges or upsizing culverts;

"(viii) installing seismic retrofits on bridges;

"(ix) adding scour protection at bridges, installing riprap, or adding other scour, stream stability, coastal, or other hydraulic countermeasures, including spur dikes; and

"(x) the use of natural infrastructure to mitigate the risk of recurring damage or the cost of future repair from extreme weather, flooding, and other natural disasters.".

SEC. 11107. FEDERAL SHARE PAYABLE.

Section 120 of title 23, United States Code, is amended—

(1) in subsection (c)—

(A) in paragraph (1), in the first sentence, by inserting "vehicle-to-infrastructure communication equipment," after "breakaway utility poles,";

(B) in subparagraph (3)(B)—

(i) in clause (v), by striking "or" at the end;

(ii) by redesignating clause (vi) as clause (vii); and

(iii) by inserting after clause (v) the following:

"(vi) contractual provisions that provide safety contingency funds to incorporate safety enhancements to work zones prior to or during roadway construction activities; or"; and

(C) by adding at the end the following:

"(4) POOLED FUNDING.—Notwithstanding any other provision of law, the Secretary may waive the non-Federal share of the cost of a project or activity under section 502(b)(6) that is carried out with amounts apportioned under section 104(b)(2) after considering appropriate factors, including whether—

"(A) decreasing or eliminating the non-Federal share would best serve the interests of the Federal-aid highway program; and

"(B) the project or activity addresses national or regional high priority research, development, and technology transfer problems in a manner that would benefit multiple States or metropolitan planning organizations.";

(2) in subsection (e)—

(A) in paragraph (1), by striking "180 days" and inserting "270 days"; and

(B) in paragraph (4), by striking "permanent"; and

(3) by adding at the end the following:

"(l) FEDERAL SHARE FLEXIBILITY PILOT PROGRAM.—

AMERICAN OVERSIGHT

"(1) ESTABLISHMENT.—Not later than 180 days after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Secretary shall establish a pilot program (referred to in this subsection as the 'pilot program') to give States additional flexibility with respect to the Federal requirements under this section.

"(2) PROGRAM.—

"(A) IN GENERAL.—Notwithstanding any other provision of law, a State participating in the pilot program (referred to in this subsection as a 'participating State') may determine the Federal share on a project, multiple-project, or program basis for projects under any of the following:

"(i) The national highway performance program under section 119.

"(ii) The surface transportation block grant program under section 133.

"(iii) The highway safety improvement program under section 148.

"(iv) The congestion mitigation and air quality improvement program under section 149.

"(v) The national highway freight program under section 167.

"(vi) The carbon reduction program under section 175.

"(vii) Subsection (c) of the PROTECT program under section 176.

"(B) REQUIREMENTS.—

"(i) MAXIMUM FEDERAL SHARE.—Subject to clause (iii), the Federal share of the cost of an individual project carried out under a program described in subparagraph (A) by a participating State and to which the participating State is applying the Federal share requirements under the pilot program may be up to 100 percent.

"(ii) MINIMUM FEDERAL SHARE.—No individual project carried out under a program described in subparagraph (A) by a participating State and to which the participating State is applying the Federal share requirements under the pilot program shall have a Federal share of 0 percent.

"(iii) DETERMINATION.—The average annual Federal share of the total cost of all projects authorized under a program described in subparagraph (A) to which a participating State is applying the Federal share requirements under the pilot program shall be not more than the average of the maximum Federal share of those projects if those projects were not carried out under the pilot program.

"(C) SELECTION.—

"(i) APPLICATION.—A State seeking to be a participating State shall—

"(I) submit to the Secretary an application in such form, at such time, and containing such information as the Secretary may require; and

"(II) have in place adequate financial controls to allow the State to determine the average annual

AMERICAN OVERSIGHT

Federal share requirements under the pilot program.

"(ii) REQUIREMENT.—For each of fiscal years 2022 through 2026, the Secretary shall select not more than 10 States to be participating States.".

SEC. 11108. RAILWAY-HIGHWAY GRADE CROSSINGS.

(a) IN GENERAL.—Section 130(e) of title 23, United States Code, is amended—

(1) in the heading, by striking "PROTECTIVE DEVICES" and inserting "RAILWAY-HIGHWAY GRADE CROSSINGS"; and

(2) in paragraph (1)—

(A) in subparagraph (A), by striking "and the installation of protective devices at railway-highway crossings" in the matter preceding clause (i) and all that follows through "2020." in clause (v) and inserting the following: ", the installation of protective devices at railway-highway crossings, the replacement of functionally obsolete warning devices, and as described in subparagraph (B), not less than $245,000,000 for each of fiscal years 2022 through 2026."; and

(B) by striking subparagraph (B) and inserting the following:

"(B) REDUCING TRESPASSING FATALITIES AND INJURIES.—A State may use funds set aside under subparagraph (A) for projects to reduce pedestrian fatalities and injuries from trespassing at grade crossings.".

(b) FEDERAL SHARE.—Section 130(f)(3) of title 23, United States Code, is amended by striking "90 percent" and inserting "100 percent".

(c) INCENTIVE PAYMENTS FOR AT-GRADE CROSSING CLOSURES.—Section 130(i)(3)(B) of title 23, United States Code, is amended by striking "$7,500" and inserting "$100,000".

(d) EXPENDITURE OF FUNDS.—Section 130(k) of title 23, United States Code, is amended by striking "2 percent" and inserting "8 percent".

(e) GAO STUDY.—Not later than 3 years after the date of enactment of this Act, the Comptroller General of the United States shall submit to Congress a report that includes an analysis of the effectiveness of the railway-highway crossings program under section 130 of title 23, United States Code.

(f) SENSE OF CONGRESS RELATING TO TRESPASSER DEATHS ALONG RAILROAD RIGHTS-OF-WAY.—It is the sense of Congress that the Department should, where feasible, coordinate departmental efforts to prevent or reduce trespasser deaths along railroad rights-of-way and at or near railway-highway crossings.

SEC. 11109. SURFACE TRANSPORTATION BLOCK GRANT PROGRAM.

(a) IN GENERAL.—Section 133 of title 23, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (1)—

(i) in subparagraph (B)—

(I) by adding "or" at the end;

(II) by striking "facilities eligible" and inserting the following: "facilities—

"(i) that are eligible"; and

(III) by adding at the end the following:

AMERICAN OVERSIGHT

"(ii) that are privately or majority-privately owned, but that the Secretary determines provide a substantial public transportation benefit or otherwise meet the foremost needs of the surface transportation system described in section 101(b)(3)(D);";

(ii) in subparagraph (E), by striking "and" at the end;

(iii) in subparagraph (F), by striking the period at the end and inserting "; and"; and

(iv) by adding at the end the following:

"(G) wildlife crossing structures.";

(B) in paragraph (3), by inserting "148(a)(4)(B)(xvii)," after "119(g),";

(C) by redesignating paragraphs (4) through (15) as paragraphs (5), (6), (7), (8), (9), (10), (11), (12), (13), (20), (21), and (22), respectively;

(D) in paragraph (5) (as so redesignated), by striking "railway-highway grade crossings" and inserting "projects eligible under section 130 and installation of safety barriers and nets on bridges";

(E) in paragraph (7) (as so redesignated)—

(i) by inserting "including the maintenance and restoration of existing recreational trails," after "section 206"; and

(ii) by striking "the safe routes to school program under section 1404 of SAFETEA–LU (23 U.S.C. 402 note)" and inserting "the safe routes to school program under section 208";

(F) by inserting after paragraph (13) (as so redesignated) the following:

"(14) Projects and strategies designed to reduce the number of wildlife-vehicle collisions, including project-related planning, design, construction, monitoring, and preventative maintenance.

"(15) The installation of electric vehicle charging infrastructure and vehicle-to-grid infrastructure.

"(16) The installation and deployment of current and emerging intelligent transportation technologies, including the ability of vehicles to communicate with infrastructure, buildings, and other road users.

"(17) Planning and construction of projects that facilitate intermodal connections between emerging transportation technologies, such as magnetic levitation and hyperloop.

"(18) Protective features, including natural infrastructure, to enhance the resilience of a transportation facility otherwise eligible for assistance under this section.

"(19) Measures to protect a transportation facility otherwise eligible for assistance under this section from cybersecurity threats."; and

(G) by adding at the end the following:

"(23) Rural barge landing, dock, and waterfront infrastructure projects in accordance with subsection (j).

"(24) Projects to enhance travel and tourism.";

(2) in subsection (c)—

(A) in paragraph (2), by striking "paragraphs (4) through (11)" and inserting "paragraphs (5) through (15) and paragraph (23)";

AMERICAN OVERSIGHT

(B) in paragraph (3), by striking "and" at the end;

(C) by redesignating paragraph (4) as paragraph (5); and

(D) by inserting after paragraph (3) the following:

"(4) for a bridge project for the replacement of a low water crossing (as defined by the Secretary) with a bridge; and";

(3) in subsection (d)—

(A) in paragraph (1)—

(i) in the matter preceding subparagraph (A), by striking "reservation" and inserting "set aside"; and

(ii) in subparagraph (A)—

(I) in the matter preceding clause (i), by striking "the percentage specified in paragraph (6) for a fiscal year" and inserting "55 percent for each of fiscal years 2022 through 2026"; and

(II) by striking clauses (ii) and (iii) and inserting the following:

"(ii) in urbanized areas of the State with an urbanized area population of not less than 50,000 and not more than 200,000;

"(iii) in urban areas of the State with a population not less than 5,000 and not more than 49,999; and

"(iv) in other areas of the State with a population less than 5,000; and";

(B) by striking paragraph (3) and inserting the following:

"(3) LOCAL CONSULTATION.—

"(A) CONSULTATION WITH METROPOLITAN PLANNING ORGANIZATIONS.—For purposes of clause (ii) of paragraph (1)(A), a State shall—

"(i) establish a process to consult with all metropolitan planning organizations in the State that represent an urbanized area described in that clause; and

"(ii) describe how funds allocated for areas described in that clause will be allocated equitably among the applicable urbanized areas during the period of fiscal years 2022 through 2026.

"(B) CONSULTATION WITH REGIONAL TRANSPORTATION PLANNING ORGANIZATIONS.—For purposes of clauses (iii) and (iv) of paragraph (1)(A), before obligating funding attributed to an area with a population less than 50,000, a State shall consult with the regional transportation planning organizations that represent the area, if any."; and

(C) by striking paragraph (6);

(4) in subsection (e)(1), in the matter preceding subparagraph (A), by striking "fiscal years 2016 through 2020" and inserting "fiscal years 2022 through 2026";

(5) in subsection (f)—

(A) in paragraph (1)—

(i) by inserting "or low water crossing (as defined by the Secretary)" after "a highway bridge"; and

(ii) by inserting "or low water crossing (as defined by the Secretary)" after "other than a bridge";

(B) in paragraph (2)(A)—

(i) by striking "activities described in subsection (b)(2) for off-system bridges" and inserting "activities

AMERICAN OVERSIGHT

described in paragraphs (1)(A) and (10) of subsection (b) for off-system bridges, projects and activities described in subsection (b)(1)(A) for the replacement of low water crossings with bridges, and projects and activities described in subsection (b)(10) for low water crossings (as defined by the Secretary),"; and

(ii) by striking "15 percent" and inserting "20 percent"; and

(C) in paragraph (3), in the matter preceding subparagraph (A)—

(i) by striking "bridge or rehabilitation of a bridge" and inserting "bridge, rehabilitation of a bridge, or replacement of a low water crossing (as defined by the Secretary) with a bridge"; and

(ii) by inserting "or, in the case of a replacement of a low water crossing with a bridge, is determined by the Secretary on completion to have improved the safety of the location" after "no longer a deficient bridge";

(6) in subsection (g)—

(A) in the subsection heading, by striking "LESS THAN 5,000" and inserting "LESS THAN 50,000"; and

(B) by striking paragraph (1) and inserting the following:

"(1) IN GENERAL.—Notwithstanding subsection (c), and except as provided in paragraph (2), up to 15 percent of the amounts required to be obligated by a State under clauses (iii) and (iv) of subsection (d)(1)(A) for each fiscal year may be obligated on—

"(A) roads functionally classified as rural minor collectors or local roads; or

"(B) on critical rural freight corridors designated under section 167(e).."; and

(7) by adding at the end the following:

"(j) RURAL BARGE LANDING, DOCK, AND WATERFRONT INFRASTRUCTURE PROJECTS.—

"(1) IN GENERAL.—A State may use not more than 5 percent of the funds apportioned to the State under section 104(b)(2) for eligible rural barge landing, dock, and waterfront infrastructure projects described in paragraph (2).

"(2) ELIGIBLE PROJECTS.—An eligible rural barge landing, dock, or waterfront infrastructure project referred to in paragraph (1) is a project for the planning, designing, engineering, or construction of a barge landing, dock, or other waterfront infrastructure in a rural community or a Native village (as defined in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602)) that is off the road system.

"(k) PROJECTS IN RURAL AREAS.—

"(1) SET ASIDE.—Notwithstanding subsection (c), in addition to the activities described in subsections (b) and (g), of the amounts apportioned to a State for each fiscal year to carry out this section, not more than 15 percent may be—

"(A) used on eligible projects under subsection (b) or maintenance activities on roads functionally classified as rural minor collectors or local roads, ice roads, or seasonal roads; or

"(B) transferred to—

AMERICAN OVERSIGHT

"(i) the Appalachian Highway System Program under 14501 of title 40; or

"(ii) the Denali access system program under section 309 of the Denali Commission Act of 1998 (42 U.S.C. 3121 note; Public Law 105–277).

"(2) SAVINGS CLAUSE.—Amounts allocated under subsection (d) shall not be used to carry out this subsection, except at the request of the applicable metropolitan planning organization.".

(b) SET-ASIDE.—

(1) IN GENERAL.—Section 133(h) of title 23, United States Code, is amended—

(A) in paragraph (1)—

(i) in the heading, by striking "RESERVATION OF FUNDS" and inserting "IN GENERAL"; and

(ii) in the matter preceding subparagraph (A), by striking "for each fiscal year" and all that follows through "and" at the end of subparagraph (A)(ii) and inserting the following: "for fiscal year 2022 and each fiscal year thereafter—

"(A) the Secretary shall set aside an amount equal to 10 percent to carry out this subsection; and";

(B) by striking paragraph (2) and inserting the following:

"(2) ALLOCATION WITHIN A STATE.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), funds set aside for a State under paragraph (1) shall be obligated within that State in the manner described in subsection (d), except that, for purposes of this paragraph (after funds are made available under paragraph (5))—

"(i) for fiscal year 2022 and each fiscal year thereafter, the percentage referred to in paragraph (1)(A) of that subsection shall be deemed to be 59 percent; and

"(ii) paragraph (3) of subsection (d) shall not apply.

"(B) LOCAL CONTROL.—A State may allocate up to 100 percent of the funds referred to in subparagraph (A)(i) if—

"(i) the State submits to the Secretary a plan that describes—

"(I) how funds will be allocated to counties, metropolitan planning organizations, regional transportation planning organizations as described in section 135(m), or local governments;

"(II) how the entities described in subclause (I) will carry out a competitive process to select projects for funding and report selected projects to the State;

"(III) the legal, financial, and technical capacity of the entities described in subclause (I);

"(IV) how input was gathered from the entities described in subclause (I) to ensure those entities will be able to comply with the requirements of this subsection; and

"(V) how the State will comply with paragraph (8); and

AMERICAN OVERSIGHT

"(ii) the Secretary approves the plan submitted under clause (i).";

(C) by striking paragraph (3) and inserting the following:

"(3) ELIGIBLE PROJECTS.—Funds set aside under this subsection may be obligated for—

"(A) projects or activities described in section 101(a)(29) or 213, as those provisions were in effect on the day before the date of enactment of the FAST Act (Public Law 114–94; 129 Stat. 1312);

"(B) projects and activities under the safe routes to school program under section 208; and

"(C) activities in furtherance of a vulnerable road user safety assessment (as defined in section 148(a)).";

(D) in paragraph (4)—

(i) by striking subparagraph (A);

(ii) by redesignating subparagraph (B) as subparagraph (A);

(iii) in subparagraph (A) (as so redesignated)—

(I) by redesignating clauses (vii) and (viii) as clauses (viii) and (ix), respectively;

(II) by inserting after clause (vi) the following:

"(vii) a metropolitan planning organization that serves an urbanized area with a population of 200,000 or fewer;";

(III) in clause (viii) (as so redesignated), by striking "responsible" and all that follows through "programs; and" and inserting a semicolon;

(IV) in clause (ix) (as so redesignated)—

(aa) by inserting "that serves an urbanized area with a population of over 200,000" after "metropolitan planning organization"; and

(bb) by striking the period at the end and inserting "; and"; and

(V) by adding at the end the following:

"(x) a State, at the request of an entity described in clauses (i) through (ix).";

(iv) by adding at the end the following:

"(B) COMPETITIVE PROCESS.—A State or metropolitan planning organization required to obligate funds in accordance with paragraph (2) shall develop a competitive process to allow eligible entities to submit projects for funding that achieve the objectives of this subsection.

"(C) SELECTION.—A metropolitan planning organization for an area described in subsection (d)(1)(A)(i) shall select projects under the competitive process described in subparagraph (B) in consultation with the relevant State.

"(D) PRIORITIZATION.—The competitive process described in subparagraph (B) shall include prioritization of project location and impact in high-need areas as defined by the State, such as low-income, transit-dependent, rural, or other areas.";

(E) in paragraph (5)(A), by striking "reserved under this section" and inserting "set aside under this subsection";

(F) in paragraph (6)—

(i) in subparagraph (B), by striking "reserved" and inserting "set aside"; and

AMERICAN OVERSIGHT

(ii) by adding at the end the following:

"(C) IMPROVING ACCESSIBILITY AND EFFICIENCY.—

"(i) IN GENERAL.—A State may use an amount equal to not more than 5 percent of the funds set aside for the State under this subsection, after allocating funds in accordance with paragraph (2)(A), to improve the ability of applicants to access funding for projects under this subsection in an efficient and expeditious manner by providing—

"(I) to applicants for projects under this subsection application assistance, technical assistance, and assistance in reducing the period of time between the selection of the project and the obligation of funds for the project; and

"(II) funding for 1 or more full-time State employee positions to administer this subsection.

"(ii) USE OF FUNDS.—Amounts used under clause (i) may be expended—

"(I) directly by the State; or

"(II) through contracts with State agencies, private entities, or nonprofit entities.";

(G) by redesignating paragraph (7) as paragraph (8);

(H) by inserting after paragraph (6) the following:

"(7) FEDERAL SHARE.—

"(A) REQUIRED AGGREGATE NON-FEDERAL SHARE.—The average annual non-Federal share of the total cost of all projects for which funds are obligated under this subsection in a State for a fiscal year shall be not less than the average non-Federal share of the cost of the projects that would otherwise apply.

"(B) FLEXIBLE FINANCING.—Subject to subparagraph (A), notwithstanding section 120—

"(i) funds made available to carry out section 148 may be credited toward the non-Federal share of the costs of a project under this subsection if the project—

"(I) is an eligible project described in section 148(e)(1); and

"(II) is consistent with the State strategic highway safety plan (as defined in section 148(a));

"(ii) the non-Federal share for a project under this subsection may be calculated on a project, multiple-project, or program basis; and

"(iii) the Federal share of the cost of an individual project in this section may be up to 100 percent.

"(C) REQUIREMENT.—Subparagraph (B) shall only apply to a State if the State has adequate financial controls, as certified by the Secretary, to account for the average annual non-Federal share under this paragraph."; and

(I) in subparagraph (A) of paragraph (8) (as so redesignated)—

(i) in the matter preceding clause (i), by striking "describes" and inserting "includes"; and

(ii) by striking clause (ii) and inserting the following:

"(ii) a list of each project selected for funding for each fiscal year, including, for each project—

AMERICAN OVERSIGHT

"(I) the fiscal year during which the project was selected;

"(II) the fiscal year in which the project is anticipated to be funded;

"(III) the recipient;

"(IV) the location, including the congressional district;

"(V) the type;

"(VI) the cost; and

"(VII) a brief description.".

(2) STATE TRANSFERABILITY.—Section 126(b)(2) of title 23, United States Code, is amended—

(A) by striking the period at the end and inserting "; and";

(B) by striking "reserved for a State under section 133(h) for a fiscal year may" and inserting the following: "set aside for a State under section 133(h) for a fiscal year—

"(A) may"; and

(C) by adding at the end the following:

"(B) may only be transferred if the Secretary certifies that the State—

"(i) held a competition in compliance with the guidance issued to carry out section 133(h) and provided sufficient time for applicants to apply;

"(ii) offered to each eligible entity, and provided on request of an eligible entity, technical assistance; and

"(iii) demonstrates that there were not sufficiently suitable applications from eligible entities to use the funds to be transferred.".

SEC. 11110. NATIONALLY SIGNIFICANT FREIGHT AND HIGHWAY PROJECTS.

(a) IN GENERAL.—Section 117 of title 23, United States Code, is amended—

(1) in the section heading, by inserting "**multimodal**" before "**freight**";

(2) in subsection (a)(2)—

(A) in subparagraph (A), by inserting "in and across rural and urban areas" after "people";

(B) in subparagraph (C), by inserting "or freight" after "highway";

(C) in subparagraph (E), by inserting "or freight" after "highway"; and

(D) in subparagraph (F), by inserting ", including highways that support movement of energy equipment" after "security";

(3) in subsection (b), by adding at the end the following: "(3) GRANT ADMINISTRATION.—The Secretary may—

"(A) retain not more than a total of 2 percent of the funds made available to carry out this section for the National Surface Transportation and Innovative Finance Bureau to review applications for grants under this section; and

"(B) transfer portions of the funds retained under subparagraph (A) to the relevant Administrators to fund

AMERICAN OVERSIGHT

the award and oversight of grants provided under this section.";

(4) in subsection (c)(1)—

(A) by redesignating subparagraph (H) as subparagraph (I); and

(B) by inserting after subparagraph (G) the following:

"(H) A multistate corridor organization.";

(5) in subsection (d)—

(A) in paragraph (1)(A)—

(i) in clause (iii)(II), by striking "or" at the end;

(ii) in clause (iv), by striking "and" at the end; and

(iii) by adding at the end the following:

"(v) a wildlife crossing project;

"(vi) a surface transportation infrastructure project that—

"(I) is located within the boundaries of or functionally connected to an international border crossing area in the United States;

"(II) improves a transportation facility owned by a Federal, State, or local government entity; and

"(III) increases throughput efficiency of the border crossing described in subclause (I), including—

"(aa) a project to add lanes;

"(bb) a project to add technology; and

"(cc) other surface transportation improvements;

"(vii) a project for a marine highway corridor designated by the Secretary under section 55601(c) of title 46 (including an inland waterway corridor), if the Secretary determines that the project—

"(I) is functionally connected to the National Highway Freight Network; and

"(II) is likely to reduce on-road mobile source emissions; or

"(viii) a highway, bridge, or freight project carried out on the National Multimodal Freight Network established under section 70103 of title 49; and"; and

(B) in paragraph (2)(A), in the matter preceding clause (i)—

(i) by striking "$600,000,000" and inserting "30 percent"; and

(ii) by striking "fiscal years 2016 through 2020, in the aggregate," and inserting "each of fiscal years 2022 through 2026";

(6) in subsection (e)—

(A) in paragraph (1), by striking "10 percent" and inserting "not less than 15 percent";

(B) in paragraph (3)—

(i) in subparagraph (A), by striking "and" at the end;

(ii) in subparagraph (B), by striking the period at the end and inserting "; and"; and

(iii) by adding at the end the following:

AMERICAN OVERSIGHT

"(C) the effect of the proposed project on safety on freight corridors with significant hazards, such as high winds, heavy snowfall, flooding, rockslides, mudslides, wildfire, wildlife crossing onto the roadway, or steep grades."; and

(C) by adding at the end the following:

"(4) REQUIREMENT.—Of the amounts reserved under paragraph (1), not less than 30 percent shall be used for projects in rural areas (as defined in subsection (i)(3))."

(7) in subsection (f)(2), by inserting "(including a project to replace or rehabilitate a culvert, or to reduce stormwater runoff for the purpose of improving habitat for aquatic species)" after "environmental mitigation";

(8) in subsection (h)—

(A) in paragraph (2), by striking "and" at the end;

(B) in paragraph (3), by striking the period at the end and inserting a semicolon; and

(C) by adding at the end the following:

"(4) enhancement of freight resilience to natural hazards or disasters, including high winds, heavy snowfall, flooding, rockslides, mudslides, wildfire, wildlife crossing onto the roadway, or steep grades;

"(5) whether the project will improve the shared transportation corridor of a multistate corridor organization, if applicable; and

"(6) prioritizing projects located in States in which neither the State nor an eligible entity in that State has been awarded a grant under this section.";

(9) in subsection (i)(2), by striking "other grants under this section" and inserting "grants under subsection (e)";

(10) in subsection (j)—

(A) by striking the subsection designation and heading and all that follows through "The Federal share" in paragraph (1) and inserting the following:

"(j) FEDERAL ASSISTANCE.—

"(1) FEDERAL SHARE.—

"(A) IN GENERAL.—Except as provided in subparagraph (B) or for a grant under subsection (q), the Federal share";

(B) in paragraph (1), by adding at the end the following:

"(B) SMALL PROJECTS.—In the case of a project described in subsection (e)(1), the Federal share of the cost of the project shall be 80 percent."; and

(C) in paragraph (2)—

(i) by striking "Federal assistance other" and inserting "Except for grants under subsection (q), Federal assistance other"; and

(ii) by striking "except that the total Federal" and inserting the following: "except that—

"(A) for a State with a population density of not more than 80 persons per square mile of land area, based on the 2010 census, the maximum share of the total Federal assistance provided for a project receiving a grant under this section shall be the applicable share under section 120(b); and

"(B) for a State not described in subparagraph (A), the total Federal";

AMERICAN OVERSIGHT

(11) by redesignating subsections (k) through (n) as subsections (l), (m), (n), and (p), respectively;

(12) by inserting after subsection (j) the following:

"(k) EFFICIENT USE OF NON-FEDERAL FUNDS.—

"(1) IN GENERAL.—Notwithstanding any other provision of law and subject to approval by the Secretary under paragraph (2)(B), in the case of any grant for a project under this section, during the period beginning on the date on which the grant recipient is selected and ending on the date on which the grant agreement is signed—

"(A) the grant recipient may obligate and expend non-Federal funds with respect to the project for which the grant is provided; and

"(B) any non-Federal funds obligated or expended in accordance with subparagraph (A) shall be credited toward the non-Federal cost share for the project for which the grant is provided.

"(2) REQUIREMENTS.—

"(A) APPLICATION.—In order to obligate and expend non-Federal funds under paragraph (1), the grant recipient shall submit to the Secretary a request to obligate and expend non-Federal funds under that paragraph, including—

"(i) a description of the activities the grant recipient intends to fund;

"(ii) a justification for advancing the activities described in clause (i), including an assessment of the effects to the project scope, schedule, and budget if the request is not approved; and

"(iii) the level of risk of the activities described in clause (i).

"(B) APPROVAL.—The Secretary shall approve or disapprove each request submitted under subparagraph (A).

"(C) COMPLIANCE WITH APPLICABLE REQUIREMENTS.—Any non-Federal funds obligated or expended under paragraph (1) shall comply with all applicable requirements, including any requirements included in the grant agreement.

"(3) EFFECT.—The obligation or expenditure of any non-Federal funds in accordance with this subsection shall not—

"(A) affect the signing of a grant agreement or other applicable grant procedures with respect to the applicable grant;

"(B) create an obligation on the part of the Federal Government to repay any non-Federal funds if the grant agreement is not signed; or

"(C) affect the ability of the recipient of the grant to obligate or expend non-Federal funds to meet the non-Federal cost share for the project for which the grant is provided after the period described in paragraph (1).";

(13) in subsection (n) (as so redesignated), by striking paragraph (1) and inserting the following:

"(1) IN GENERAL.—Not later than 60 days before the date on which a grant is provided for a project under this section, the Secretary shall submit to the Committees on Commerce, Science, and Transportation and Environment and Public Works of the Senate and the Committee on Transportation

AMERICAN OVERSIGHT

and Infrastructure of the House of Representatives a report describing the proposed grant, including—

"(A) an evaluation and justification for the applicable project; and

"(B) a description of the amount of the proposed grant award.";

(14) by inserting after subsection (n) (as so redesignated) the following:

"(o) APPLICANT NOTIFICATION.—

"(1) IN GENERAL.—Not later than 60 days after the date on which a grant recipient for a project under this section is selected, the Secretary shall provide to each eligible applicant not selected for that grant a written notification that the eligible applicant was not selected.

"(2) INCLUSION.—A written notification under paragraph (1) shall include an offer for a written or telephonic debrief by the Secretary that will provide—

"(A) detail on the evaluation of the application of the eligible applicant; and

"(B) an explanation of and guidance on the reasons the application was not selected for a grant under this section.

"(3) RESPONSE.—

"(A) IN GENERAL.—Not later than 30 days after the eligible applicant receives a written notification under paragraph (1), if the eligible applicant opts to receive a debrief described in paragraph (2), the eligible applicant shall notify the Secretary that the eligible applicant is requesting a debrief.

"(B) DEBRIEF.—If the eligible applicant submits a request for a debrief under subparagraph (A), the Secretary shall provide the debrief by not later than 60 days after the date on which the Secretary receives the request for a debrief."; and

(15) by striking subsection (p) (as so redesignated) and inserting the following:

"(p) REPORTS.—

"(1) ANNUAL REPORT.—

"(A) IN GENERAL.—Notwithstanding any other provision of law, not later than 30 days after the date on which the Secretary selects a project for funding under this section, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes the reasons for selecting the project, based on any criteria established by the Secretary in accordance with this section.

"(B) INCLUSIONS.—The report submitted under subparagraph (A) shall specify each criterion established by the Secretary that the project meets.

"(C) AVAILABILITY.—The Secretary shall make available on the website of the Department of Transportation the report submitted under subparagraph (A).

"(D) APPLICABILITY.—This paragraph applies to all projects described in subparagraph (A) that the Secretary selects on or after October 1, 2021.

"(2) COMPTROLLER GENERAL.—

AMERICAN OVERSIGHT

"(A) ASSESSMENT.—The Comptroller General of the United States shall conduct an assessment of the establishment, solicitation, selection, and justification process with respect to the funding of projects under this section.

"(B) REPORT.—Not later than 1 year after the date of enactment of the Surface Transportation Reauthorization Act of 2021 and annually thereafter, the Comptroller General of the United States shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes, for each project selected to receive funding under this section—

"(i) the process by which each project was selected;

"(ii) the factors that went into the selection of each project; and

"(iii) the justification for the selection of each project based on any criteria established by the Secretary in accordance with this section.

"(3) INSPECTOR GENERAL.—Not later than 1 year after the date of enactment of the Surface Transportation Reauthorization Act of 2021 and annually thereafter, the Inspector General of the Department of Transportation shall—

"(A) conduct an assessment of the establishment, solicitation, selection, and justification process with respect to the funding of projects under this section; and

"(B) submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a final report that describes the findings of the Inspector General of the Department of Transportation with respect to the assessment conducted under subparagraph (A).

"(q) STATE INCENTIVES PILOT PROGRAM.—

"(1) ESTABLISHMENT.—There is established a pilot program to award grants to eligible applicants for projects eligible for grants under this section (referred to in this subsection as the 'pilot program').

"(2) PRIORITY.—In awarding grants under the pilot program, the Secretary shall give priority to an application that offers a greater non-Federal share of the cost of a project relative to other applications under the pilot program.

"(3) FEDERAL SHARE.—

"(A) IN GENERAL.—Notwithstanding any other provision of law, the Federal share of the cost of a project assisted with a grant under the pilot program may not exceed 50 percent.

"(B) NO FEDERAL INVOLVEMENT.—

"(i) IN GENERAL.—For grants awarded under the pilot program, except as provided in clause (ii), an eligible applicant may not use Federal assistance to satisfy the non-Federal share of the cost under subparagraph (A).

"(ii) EXCEPTION.—An eligible applicant may use funds from a secured loan (as defined in section 601(a)) to satisfy the non-Federal share of the cost under subparagraph (A) if the loan is repayable from non-Federal funds.

AMERICAN OVERSIGHT

"(4) RESERVATION.—

"(A) IN GENERAL.—Of the amounts made available to provide grants under this section, the Secretary shall reserve for each fiscal year $150,000,000 to provide grants under the pilot program.

"(B) UNUTILIZED AMOUNTS.—In any fiscal year during which applications under this subsection are insufficient to effect an award or allocation of the entire amount reserved under subparagraph (A), the Secretary shall use the unutilized amounts to provide other grants under this section.

"(5) SET-ASIDES.—

"(A) SMALL PROJECTS.—

"(i) IN GENERAL.—Of the amounts reserved under paragraph (4)(A), the Secretary shall reserve for each fiscal year not less than 10 percent for projects eligible for a grant under subsection (e).

"(ii) REQUIREMENT.—For a grant awarded from the amount reserved under clause (i)—

"(I) the requirements of subsection (e) shall apply; and

"(II) the requirements of subsection (g) shall not apply.

"(B) RURAL PROJECTS.—

"(i) IN GENERAL.—Of the amounts reserved under paragraph (4)(A), the Secretary shall reserve for each fiscal year not less than 25 percent for projects eligible for a grant under subsection (i).

"(ii) REQUIREMENT.—For a grant awarded from the amount reserved under clause (i), the requirements of subsection (i) shall apply.

"(6) REPORT TO CONGRESS.—Not later than 2 years after the date of enactment of this subsection, the Secretary shall submit to the Committee on Environment and Public Works and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes the administration of the pilot program, including—

"(A) the number, types, and locations of eligible applicants that have applied for grants under the pilot program;

"(B) the number, types, and locations of grant recipients under the pilot program;

"(C) an assessment of whether implementation of the pilot program has incentivized eligible applicants to offer a greater non-Federal share for grants under the pilot program; and

"(D) any recommendations for modifications to the pilot program.

"(r) MULTISTATE CORRIDOR ORGANIZATION DEFINED.—For purposes of this section, the term 'multistate corridor organization' means an organization of a group of States developed through cooperative agreements, coalitions, or other arrangements to promote regional cooperation, planning, and shared project implementation for programs and projects to improve transportation system management and operations for a shared transportation corridor.

AMERICAN OVERSIGHT

"(s) ADDITIONAL AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts made available from the Highway Trust Fund, there are authorized to be appropriated to carry out this section, to remain available for a period of 3 fiscal years following the fiscal year for which the amounts are appropriated—

"(1) $1,000,000,000 for fiscal year 2022;
"(2) $1,100,000,000 for fiscal year 2023;
"(3) $1,200,000,000 for fiscal year 2024;
"(4) $1,300,000,000 for fiscal year 2025; and
"(5) $1,400,000,000 for fiscal year 2026.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by striking the item relating to section 117 and inserting the following:

"117. Nationally significant multimodal freight and highway projects.".

(c) EFFICIENT USE OF NON-FEDERAL FUNDS.—

(1) IN GENERAL.—Notwithstanding any other provision of law, in the case of a grant described in paragraph (2), section 117(k) of title 23, United States Code, shall apply to the grant as if the grant was a grant provided under that section.

(2) GRANT DESCRIBED.—A grant referred to in paragraph (1) is a grant that is—

(A) provided under a competitive discretionary grant program administered by the Federal Highway Administration;

(B) for a project eligible under title 23, United States Code; and

(C) in an amount greater than $5,000,000.

SEC. 11111. HIGHWAY SAFETY IMPROVEMENT PROGRAM.

(a) IN GENERAL.—Section 148 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (4)(B)—

(i) in clause (i), by inserting "that provides for the safety of all road users, as appropriate, including a multimodal roundabout" after "improvement";

(ii) in clause (vi), by inserting "or a grade separation project" after "devices";

(iii) by striking clause (viii) and inserting the following:

"(viii) Construction or installation of features, measures, and road designs to calm traffic and reduce vehicle speeds.";

(iv) by striking clause (xxvi) and inserting the following:

"(xxvi) Installation or upgrades of traffic control devices for pedestrians and bicyclists, including pedestrian hybrid beacons and the addition of bicycle movement phases to traffic signals."; and

(v) by striking clauses (xxvii) and (xxviii) and inserting the following:

"(xxvii) Roadway improvements that provide separation between pedestrians and motor vehicles or between bicyclists and motor vehicles, including medians, pedestrian crossing islands, protected bike lanes, and protected intersection features.

AMERICAN OVERSIGHT

"(xxviii) A pedestrian security feature designed to slow or stop a motor vehicle.

"(xxix) A physical infrastructure safety project not described in clauses (i) through (xxviii).";

(B) by redesignating paragraphs (9) through (12) as paragraphs (10), (12), (13), and (14), respectively;

(C) by inserting after paragraph (8) the following:

"(9) SAFE SYSTEM APPROACH.—The term 'safe system approach' means a roadway design—

"(A) that emphasizes minimizing the risk of injury or fatality to road users; and

"(B) that—

"(i) takes into consideration the possibility and likelihood of human error;

"(ii) accommodates human injury tolerance by taking into consideration likely accident types, resulting impact forces, and the ability of the human body to withstand impact forces; and

"(iii) takes into consideration vulnerable road users.";

(D) by inserting after paragraph (10) (as so redesignated) the following:

"(11) SPECIFIED SAFETY PROJECT.—

"(A) IN GENERAL.—The term 'specified safety project' means a project carried out for the purpose of safety under any other section of this title that is consistent with the State strategic highway safety plan.

"(B) INCLUSION.—The term 'specified safety project' includes a project that—

"(i) promotes public awareness and informs the public regarding highway safety matters (including safety for motorcyclists, bicyclists, pedestrians, individuals with disabilities, and other road users);

"(ii) facilitates enforcement of traffic safety laws;

"(iii) provides infrastructure and infrastructure-related equipment to support emergency services;

"(iv) conducts safety-related research to evaluate experimental safety countermeasures or equipment; or

"(v) supports safe routes to school noninfrastructure-related activities described in section 208(g)(2).";

(E) in paragraph (13) (as so redesignated)—

(i) by redesignating subparagraphs (G), (H), and (I) as subparagraphs (H), (I), and (J), respectively; and

(ii) by inserting after subparagraph (F) the following;

"(G) includes a vulnerable road user safety assessment;"; and

(F) by adding at the end the following:

"(15) VULNERABLE ROAD USER.—The term 'vulnerable road user' means a nonmotorist—

"(A) with a fatality analysis reporting system person attribute code that is included in the definition of the term 'number of non-motorized fatalities' in section 490.205 of title 23, Code of Federal Regulations (or successor regulations); or

AMERICAN OVERSIGHT

"(B) described in the term 'number of non-motorized serious injuries' in that section.

"(16) VULNERABLE ROAD USER SAFETY ASSESSMENT.—The term 'vulnerable road user safety assessment' means an assessment of the safety performance of the State with respect to vulnerable road users and the plan of the State to improve the safety of vulnerable road users as described in subsection (l).";

(2) in subsection (c)—

(A) in paragraph (1)(A), by striking "subsections (a)(11)" and inserting "subsections (a)(13)"; and

(B) in paragraph (2)—

(i) in subparagraph (A)(vi), by inserting "and to differentiate the safety data for vulnerable road users, including bicyclists, motorcyclists, and pedestrians, from other road users" after "crashes";

(ii) in subparagraph (B)(i), by striking "(including motorcyclists), bicyclists, pedestrians," and inserting ", vulnerable road users (including motorcyclists, bicyclists, pedestrians),"; and

(iii) in subparagraph (D)—

(I) in clause (iv), by striking "and" at the end;

(II) in clause (v), by striking the semicolon at the end and inserting "; and"; and

(III) by adding at the end the following:

"(vi) improves the ability of the State to differentiate the fatalities and serious injuries of vulnerable road users, including bicyclists, motorcyclists, and pedestrians, from other road users;";

(3) in subsection (d)(2)(B)(i), by striking "subsection (a)(11)" and inserting "subsection (a)(13)";

(4) in subsection (e), by adding at the end the following:

"(3) FLEXIBLE FUNDING FOR SPECIFIED SAFETY PROJECTS.—

"(A) IN GENERAL.—To advance the implementation of a State strategic highway safety plan, a State may use not more than 10 percent of the amounts apportioned to the State under section 104(b)(3) for a fiscal year to carry out specified safety projects.

"(B) RULE OF CONSTRUCTION.—Nothing in this paragraph requires a State to revise any State process, plan, or program in effect on the date of enactment of this paragraph.

"(C) EFFECT OF PARAGRAPH.—

"(i) REQUIREMENTS.—A project carried out under this paragraph shall be subject to all requirements under this section that apply to a highway safety improvement project.

"(ii) OTHER APPORTIONED PROGRAMS.—Nothing in this paragraph prohibits the use of funds made available under other provisions of this title for a specified safety project that is a noninfrastructure project.";

(5) in subsection (g), by adding at the end the following:

"(3) VULNERABLE ROAD USER SAFETY.—If the total annual fatalities of vulnerable road users in a State represents not less than 15 percent of the total annual crash fatalities in the State, that State shall be required to obligate not less than 15 percent of the amounts apportioned to the State under

AMERICAN OVERSIGHT

section 104(b)(3) for the following fiscal year for highway safety improvement projects to address the safety of vulnerable road users."; and

(6) by adding at the end the following:

"(l) VULNERABLE ROAD USER SAFETY ASSESSMENT.—

"(1) IN GENERAL.—Not later than 2 years after the date of enactment of this subsection, each State shall complete a vulnerable road user safety assessment.

"(2) CONTENTS.—A vulnerable road user safety assessment under paragraph (1) shall include—

"(A) a quantitative analysis of vulnerable road user fatalities and serious injuries that—

"(i) includes data such as location, roadway functional classification, design speed, speed limit, and time of day;

"(ii) considers the demographics of the locations of fatalities and serious injuries, including race, ethnicity, income, and age; and

"(iii) based on the data, identifies areas as 'high-risk' to vulnerable road users; and

"(B) a program of projects or strategies to reduce safety risks to vulnerable road users in areas identified as high-risk under subparagraph (A)(iii).

"(3) USE OF DATA.—In carrying out a vulnerable road user safety assessment under paragraph (1), a State shall use data from the most recent 5-year period for which data is available.

"(4) REQUIREMENTS.—In carrying out a vulnerable road user safety assessment under paragraph (1), a State shall—

"(A) take into consideration a safe system approach; and

"(B) consult with local governments, metropolitan planning organizations, and regional transportation planning organizations that represent a high-risk area identified under paragraph (2)(A)(iii).

"(5) UPDATE.—A State shall update the vulnerable road user safety assessment of the State in accordance with the updates required to the State strategic highway safety plan under subsection (d).

"(6) REQUIREMENT FOR TRANSPORTATION SYSTEM ACCESS.—The program of projects developed under paragraph (2)(B) may not degrade transportation system access for vulnerable road users.

"(7) GUIDANCE.—

"(A) IN GENERAL.—Not later than 1 year after the date of enactment of this subsection, the Secretary shall develop guidance for States to carry out this subsection.

"(B) CONSULTATION.—In developing the guidance under this paragraph, the Secretary shall consult with the States and relevant safety stakeholders.".

(b) HIGH-RISK RURAL ROADS.—

(1) STUDY.—Not later than 2 years after the date of enactment of this Act, the Secretary shall update the study under section 1112(b)(1) of MAP–21 (23 U.S.C. 148 note; Public Law 112–141).

(2) PUBLICATION OF REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall publish on the website of the Department of Transportation an update

AMERICAN OVERSIGHT

to the report described in section 1112(b)(2) of MAP–21 (23 U.S.C. 148 note; Public Law 112–141).

(3) BEST PRACTICES MANUAL.—Not later than 180 days after the date on which the report is published under paragraph (2), the Secretary shall update the best practices manual described in section 1112(b)(3) of MAP–21 (23 U.S.C. 148 note; Public Law 112–141).

SEC. 11112. FEDERAL LANDS TRANSPORTATION PROGRAM.

Section 203(a) of title 23, United States Code, is amended—

(1) in paragraph (1)(D), by striking "$10,000,000" and inserting "$20,000,000"; and

(2) by adding at the end the following:

"(6) NATIVE PLANT MATERIALS.—In carrying out an activity described in paragraph (1), the entity carrying out the activity shall consider, to the maximum extent practicable—

"(A) the use of locally adapted native plant materials; and

"(B) designs that minimize runoff and heat generation.".

SEC. 11113. FEDERAL LANDS ACCESS PROGRAM.

(a) FEDERAL SHARE.—Section 201 of title 23, United States Code, is amended—

(1) in subsection (b)(7)(B), by striking "determined in accordance with section 120", and inserting "be up to 100 percent"; and

(2) in subsection (c)(8)(A), by striking "5 percent" and inserting "20 percent".

(b) FEDERAL LANDS ACCESS PROGRAM.—Section 204(a) of title 23, United States Code, is amended—

(1) in paragraph (1)(A)—

(A) in the matter preceding clause (i), by inserting "context-sensitive solutions," after "restoration,";

(B) in clause (i), by inserting ", including interpretive panels in or adjacent to those areas" after "areas";

(C) in clause (v), by striking "and" at the end;

(D) by redesignating clause (vi) as clause (ix); and

(E) by inserting after clause (v) the following:

"(vi) contextual wayfinding markers;

"(vii) landscaping;

"(viii) cooperative mitigation of visual blight, including screening or removal; and"; and

(2) by adding at the end the following:

"(6) NATIVE PLANT MATERIALS.—In carrying out an activity described in paragraph (1), the Secretary shall ensure that the entity carrying out the activity considers, to the maximum extent practicable—

"(A) the use of locally adapted native plant materials; and

"(B) designs that minimize runoff and heat generation.".

SEC. 11114. NATIONAL HIGHWAY FREIGHT PROGRAM.

Section 167 of title 23, United States Code, is amended—

(1) in subsection (e)—

(A) in paragraph (2), by striking "150 miles" and inserting "300 miles"; and

AMERICAN OVERSIGHT

(B) by adding at the end the following:

"(3) RURAL STATES.—Notwithstanding paragraph (2), a State with a population per square mile of area that is less than the national average, based on the 2010 census, may designate as critical rural freight corridors a maximum of 600 miles of highway or 25 percent of the primary highway freight system mileage in the State, whichever is greater.";

(2) in subsection (f)(4), by striking "75 miles" and inserting "150 miles"; and

(3) in subsection (i)(5)(B)—

(A) in the matter preceding clause (i), by striking "10 percent" and inserting "30 percent";

(B) in clause (i), by striking "and" at the end;

(C) in clause (ii), by striking the period at the end and inserting a semicolon; and

(D) by adding at the end the following:

"(iii) for the modernization or rehabilitation of a lock and dam, if the Secretary determines that the project—

"(I) is functionally connected to the National Highway Freight Network; and

"(II) is likely to reduce on-road mobile source emissions; and

"(iv) on a marine highway corridor, connector, or crossing designated by the Secretary under section 55601(c) of title 46 (including an inland waterway corridor, connector, or crossing), if the Secretary determines that the project—

"(I) is functionally connected to the National Highway Freight Network; and

"(II) is likely to reduce on-road mobile source emissions.".

SEC. 11115. CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.

Section 149 of title 23, United States Code, is amended—

(1) in subsection (b)—

(A) in the matter preceding paragraph (1), by striking "subsection (d)" and inserting "subsections (d) and (m)(1)(B)(ii)"

(B) in paragraph (7), by inserting "shared micromobility (including bikesharing and shared scooter systems)," after "carsharing,";

(C) in paragraph (8)—

(i) in subparagraph (A)—

(I) in the matter preceding clause (i), by inserting "replacements or" before "retrofits";

(II) by striking clause (i) and inserting the following:

"(i) verified technologies (as defined in section 791 of the Energy Policy Act of 2005 (42 U.S.C. 16131)) for motor vehicles (as defined in section 216 of the Clean Air Act (42 U.S.C. 7550)); or"; and

(III) in clause (ii)(II), by striking "or" at the end; and

(ii) in subparagraph (B), by inserting "replacements or" before "retrofits"; and

AMERICAN OVERSIGHT

(iii) by adding at the end the following:

"(C) the purchase of medium- or heavy-duty zero emission vehicles and related charging equipment;";

(D) in paragraph (9), by striking the period at the end and inserting a semicolon; and

(E) by adding at the end the following:

"(10) if the project is for the modernization or rehabilitation of a lock and dam that—

"(A) is functionally connected to the Federal-aid highway system; and

"(B) the Secretary determines is likely to contribute to the attainment or maintenance of a national ambient air quality standard; or

"(11) if the project is on a marine highway corridor, connector, or crossing designated by the Secretary under section 55601(c) of title 46 (including an inland waterway corridor, connector, or crossing) that—

"(A) is functionally connected to the Federal-aid highway system; and

"(B) the Secretary determines is likely to contribute to the attainment or maintenance of a national ambient air quality standard.";

(2) in subsection (c), by adding at the end the following:

"(4) LOCKS AND DAMS; MARINE HIGHWAYS.—For each fiscal year, a State may not obligate more than 10 percent of the funds apportioned to the State under section 104(b)(4) for projects described in paragraphs (10) and (11) of subsection (b).";

(3) in subsection (f)(4)(A), by inserting "and nonroad vehicles and nonroad engines used in construction projects or port-related freight operations" after "motor vehicles";

(4) in subsection (g)—

(A) in paragraph (1)(B)—

(i) in the subparagraph heading, by inserting "REPLACEMENT OR" before "RETROFIT";

(ii) by striking "The term 'diesel retrofit'" and inserting "The term 'diesel replacement or retrofit'"; and

(iii) by inserting "or retrofit" after "replacement";

(B) in paragraph (2), in the matter preceding subparagraph (A), by inserting "replacement or" before "retrofit"; and

(C) in paragraph (3), by inserting "replacements or" before "retrofits";

(5) in subsection (k)(1), by striking "that reduce such fine particulate matter emissions in such area, including diesel retrofits." and inserting "that—

"(A) reduce such fine particulate matter emissions in such area, including diesel replacements or retrofits; and

"(B) to the extent practicable, prioritize benefits to disadvantaged communities or low-income populations living in, or immediately adjacent to, such area.";

(6) in subsection (l), by adding at the following:

"(3) ASSISTANCE TO METROPOLITAN PLANNING ORGANIZATIONS.—

AMERICAN OVERSIGHT

"(A) IN GENERAL.—On the request of a metropolitan planning organization, the Secretary may assist the metropolitan planning organization tracking progress made in minority or low-income populations as part of a performance plan under this subsection.

"(B) SAVINGS PROVISION.—Nothing in this paragraph provides the Secretary the authority—

"(i) to change the performance measures under section 150(c)(5) or the performance targets established under section 134(h)(2) or 150(d); or

"(ii) to establish any other Federal requirement."; and

(7) by striking subsection (m) and inserting the following: "(m) OPERATING ASSISTANCE.—

"(1) IN GENERAL.—A State may obligate funds apportioned under section 104(b)(4) in an area of the State that is otherwise eligible for obligations of such funds for operating costs—

"(A) under chapter 53 of title 49; or

"(B) on—

"(i) a system for which CMAQ funding was eligible, made available, obligated, or expended in fiscal year 2012; or

"(ii) a State-supported Amtrak route with a valid cost-sharing agreement under section 209 of the Passenger Rail Investment and Improvement Act of 2008 (49 U.S.C. 24101 note; Public Law 110–432) and no current nonattainment areas under subsection (d).

"(2) NO TIME LIMITATION.—Operating assistance provided under paragraph (1) shall have no imposed time limitation if the operating assistance is for—

"(A) a route described in subparagraph (B) of that paragraph; or

"(B) a transit system that is located in—

"(i) a non-urbanized area; or

"(ii) an urbanized area with a population of 200,000 or fewer.".

SEC. 11116. ALASKA HIGHWAY.

Section 218 of title 23, United States Code, is amended to read as follows:

"§ 218. Alaska Highway

"(a) Recognizing the benefits that will accrue to the State of Alaska and to the United States from the reconstruction of the Alaska Highway from the Alaskan border at Beaver Creek, Yukon Territory, to Haines Junction in Canada and the Haines Cutoff Highway from Haines Junction in Canada to Haines, Alaska, the Secretary may provide for the necessary reconstruction of the highway using funds awarded through an applicable competitive grant program, if the highway meets all applicable eligibility requirements for the program, except for the specific requirements established by the agreement for the Alaska Highway Project between the Government of the United States and the Government of Canada. In addition to the funds described in the previous sentence, notwithstanding any other provision of law and on agreement with the State of Alaska, the Secretary is authorized to expend on such highway or the Alaska Marine Highway System

AMERICAN OVERSIGHT

any Federal-aid highway funds apportioned to the State of Alaska under this title at a Federal share of 100 per centum. No expenditures shall be made for the construction of the portion of such highways that are in Canada unless an agreement is in place between the Government of Canada and the Government of the United States (including an agreement in existence on the date of enactment of the Surface Transportation Reauthorization Act of 2021) that provides, in part, that the Canadian Government—

"(1) will provide, without participation of funds authorized under this title, all necessary right-of-way for the reconstruction of such highways;

"(2) will not impose any highway toll, or permit any such toll to be charged for the use of such highways by vehicles or persons;

"(3) will not levy or assess, directly or indirectly, any fee, tax, or other charge for the use of such highways by vehicles or persons from the United States that does not apply equally to vehicles or persons of Canada;

"(4) will continue to grant reciprocal recognition of vehicle registration and driver's licenses in accordance with agreements between the United States and Canada; and

"(5) will maintain such highways after their completion in proper condition adequately to serve the needs of present and future traffic.

"(b) The survey and construction work undertaken in Canada pursuant to this section shall be under the general supervision of the Secretary.

"(c) For purposes of this section, the term 'Alaska Marine Highway System' includes all existing or planned transportation facilities and equipment in Alaska, including the lease, purchase, or construction of vessels, terminals, docks, floats, ramps, staging areas, parking lots, bridges and approaches thereto, and necessary roads.

"(d) Notwithstanding any other provision of law, a project assisted under this section in the State of Alaska shall be treated as a project on a Federal-aid highway under chapter 1.".

SEC. 11117. TOLL ROADS, BRIDGES, TUNNELS, AND FERRIES.

(a) IN GENERAL.—Section 129(c) of title 23, United States Code, is amended in the matter preceding paragraph (1) by striking "the construction of ferry boats and ferry terminal facilities, whether toll or free," and inserting "the construction of ferry boats and ferry terminal facilities (including ferry maintenance facilities), whether toll or free, and the procurement of transit vehicles used exclusively as an integral part of an intermodal ferry trip,".

(b) DIESEL FUEL FERRY VESSELS.—

(1) IN GENERAL.—Notwithstanding section 147(b), in the case of a project to replace or retrofit a diesel fuel ferry vessel that provides substantial emissions reductions, the Federal share of the cost of the project may be up to 85 percent, as determined by the State.

(2) SUNSET.—The authority provided by paragraph (1) shall terminate on September 30, 2025.

SEC. 11118. BRIDGE INVESTMENT PROGRAM.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by inserting after section 123 the following:

AMERICAN OVERSIGHT

"§ 124. Bridge investment program

"(a) DEFINITIONS.—In this section:

"(1) ELIGIBLE PROJECT.—

"(A) IN GENERAL.—The term 'eligible project' means a project to replace, rehabilitate, preserve, or protect 1 or more bridges on the National Bridge Inventory under section 144(b).

"(B) INCLUSIONS.—The term 'eligible project' includes—

"(i) a bundle of projects described in subparagraph (A), regardless of whether the bundle of projects meets the requirements of section 144(j)(5); and

"(ii) a project to replace or rehabilitate culverts for the purpose of improving flood control and improved habitat connectivity for aquatic species.

"(2) LARGE PROJECT.—The term 'large project' means an eligible project with total eligible project costs of greater than $100,000,000.

"(3) PROGRAM.—The term 'program' means the bridge investment program established by subsection (b)(1).

"(b) ESTABLISHMENT OF BRIDGE INVESTMENT PROGRAM.—

"(1) IN GENERAL.—There is established a bridge investment program to provide financial assistance for eligible projects under this section.

"(2) GOALS.—The goals of the program shall be—

"(A) to improve the safety, efficiency, and reliability of the movement of people and freight over bridges;

"(B) to improve the condition of bridges in the United States by reducing—

"(i) the number of bridges—

"(I) in poor condition; or

"(II) in fair condition and at risk of falling into poor condition within the next 3 years;

"(ii) the total person miles traveled over bridges—

"(I) in poor condition; or

"(II) in fair condition and at risk of falling into poor condition within the next 3 years;

"(iii) the number of bridges that—

"(I) do not meet current geometric design standards; or

"(II) cannot meet the load and traffic requirements typical of the regional transportation network; and

"(iv) the total person miles traveled over bridges that—

"(I) do not meet current geometric design standards; or

"(II) cannot meet the load and traffic requirements typical of the regional transportation network; and

"(C) to provide financial assistance that leverages and encourages non-Federal contributions from sponsors and stakeholders involved in the planning, design, and construction of eligible projects.

"(c) GRANT AUTHORITY.—

"(1) IN GENERAL.—In carrying out the program, the Secretary may award grants, on a competitive basis, in accordance with this section.

AMERICAN OVERSIGHT

"(2) GRANT AMOUNTS.—Except as otherwise provided, a grant under the program shall be—

"(A) in the case of a large project, in an amount that is—

"(i) adequate to fully fund the project (in combination with other financial resources identified in the application); and

"(ii) not less than $50,000,000; and

"(B) in the case of any other eligible project, in an amount that is—

"(i) adequate to fully fund the project (in combination with other financial resources identified in the application); and

"(ii) not less than $2,500,000.

"(3) MAXIMUM AMOUNT.—Except as otherwise provided, for an eligible project receiving assistance under the program, the amount of assistance provided by the Secretary under this section, as a share of eligible project costs, shall be—

"(A) in the case of a large project, not more than 50 percent; and

"(B) in the case of any other eligible project, not more than 80 percent.

"(4) FEDERAL SHARE.—

"(A) MAXIMUM FEDERAL INVOLVEMENT.—Federal assistance other than a grant under the program may be used to satisfy the non-Federal share of the cost of a project for which a grant is made, except that the total Federal assistance provided for a project receiving a grant under the program may not exceed the Federal share for the project under section 120.

"(B) OFF-SYSTEM BRIDGES.—In the case of an eligible project for an off-system bridge (as defined in section 133(f)(1))—

"(i) Federal assistance other than a grant under the program may be used to satisfy the non-Federal share of the cost of a project; and

"(ii) notwithstanding subparagraph (A), the total Federal assistance provided for the project shall not exceed 90 percent of the total eligible project costs.

"(C) FEDERAL LAND MANAGEMENT AGENCIES AND TRIBAL GOVERNMENTS.—Notwithstanding any other provision of law, Federal funds other than Federal funds made available under this section may be used to pay the remaining share of the cost of a project under the program by a Federal land management agency or a Tribal government or consortium of Tribal governments.

"(5) CONSIDERATIONS.—

"(A) IN GENERAL.—In awarding grants under the program, the Secretary shall consider—

"(i) in the case of a large project, the ratings assigned under subsection (g)(5)(A);

"(ii) in the case of an eligible project other than a large project, the quality rating assigned under subsection (f)(3)(A)(ii);

"(iii) the average daily person and freight throughput supported by the eligible project;

AMERICAN OVERSIGHT

"(iv) the number and percentage of bridges within the same State as the eligible project that are in poor condition;

"(v) the extent to which the eligible project demonstrates cost savings by bundling multiple bridge projects;

"(vi) in the case of an eligible project of a Federal land management agency, the extent to which the grant would reduce a Federal liability or Federal infrastructure maintenance backlog;

"(vii) geographic diversity among grant recipients, including the need for a balance between the needs of rural and urban communities; and

"(viii) the extent to which a bridge that would be assisted with a grant—

"(I) is, without that assistance—

"(aa) at risk of falling into or remaining in poor condition; or

"(bb) in fair condition and at risk of falling into poor condition within the next 3 years;

"(II) does not meet current geometric design standards based on—

"(aa) the current use of the bridge; or

"(bb) load and traffic requirements typical of the regional corridor or local network in which the bridge is located; or

"(III) does not meet current seismic design standards.

"(B) REQUIREMENT.—The Secretary shall—

"(i) give priority to an application for an eligible project that is located within a State for which—

"(I) 2 or more applications for eligible projects within the State were submitted for the current fiscal year and an average of 2 or more applications for eligible projects within the State were submitted in prior fiscal years of the program; and

"(II) fewer than 2 grants have been awarded for eligible projects within the State under the program;

"(ii) during the period of fiscal years 2022 through 2026, for each State described in clause (i), select—

"(I) not fewer than 1 large project that the Secretary determines is justified under the evaluation under subsection (g)(4); or

"(II) 2 eligible projects that are not large projects that the Secretary determines are justified under the evaluation under subsection (f)(3); and

"(iii) not be required to award a grant for an eligible project that the Secretary does not determine is justified under an evaluation under subsection (f)(3) or (g)(4).

"(6) CULVERT LIMITATION.—Not more than 5 percent of the amounts made available for each fiscal year for grants under the program may be used for eligible projects that consist solely of culvert replacement or rehabilitation.

"(d) ELIGIBLE ENTITY.—The Secretary may make a grant under the program to any of the following:

AMERICAN OVERSIGHT

"(1) A State or a group of States.

"(2) A metropolitan planning organization that serves an urbanized area (as designated by the Bureau of the Census) with a population of over 200,000.

"(3) A unit of local government or a group of local governments.

"(4) A political subdivision of a State or local government.

"(5) A special purpose district or public authority with a transportation function.

"(6) A Federal land management agency.

"(7) A Tribal government or a consortium of Tribal governments.

"(8) A multistate or multijurisdictional group of entities described in paragraphs (1) through (7).

"(e) ELIGIBLE PROJECT REQUIREMENTS.—The Secretary may make a grant under the program only to an eligible entity for an eligible project that—

"(1) in the case of a large project, the Secretary recommends for funding in the annual report on funding recommendations under subsection (g)(6), except as provided in subsection (g)(1)(B);

"(2) is reasonably expected to begin construction not later than 18 months after the date on which funds are obligated for the project; and

"(3) is based on the results of preliminary engineering.

"(f) COMPETITIVE PROCESS AND EVALUATION OF ELIGIBLE PROJECTS OTHER THAN LARGE PROJECTS.—

"(1) COMPETITIVE PROCESS.—

"(A) IN GENERAL.—The Secretary shall—

"(i) for the first fiscal year for which funds are made available for obligation under the program, not later than 60 days after the date on which the template under subparagraph (B)(i) is developed, and in subsequent fiscal years, not later than 60 days after the date on which amounts are made available for obligation under the program, solicit grant applications for eligible projects other than large projects; and

"(ii) not later than 120 days after the date on which the solicitation under clause (i) expires, conduct evaluations under paragraph (3).

"(B) REQUIREMENTS.—In carrying out subparagraph (A), the Secretary shall—

"(i) develop a template for applicants to use to summarize project needs and benefits, including benefits described in paragraph (3)(B)(i); and

"(ii) enable applicants to use data from the National Bridge Inventory under section 144(b) to populate templates described in clause (i), as applicable.

"(2) APPLICATIONS.—An eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

"(3) EVALUATION.—

"(A) IN GENERAL.—Prior to providing a grant under this subsection, the Secretary shall—

AMERICAN OVERSIGHT

"(i) conduct an evaluation of each eligible project for which an application is received under this subsection; and

"(ii) assign a quality rating to the eligible project on the basis of the evaluation under clause (i).

"(B) REQUIREMENTS.—In carrying out an evaluation under subparagraph (A), the Secretary shall—

"(i) consider information on project benefits submitted by the applicant using the template developed under paragraph (1)(B)(i), including whether the project will generate, as determined by the Secretary—

"(I) costs avoided by the prevention of closure or reduced use of the bridge to be improved by the project;

"(II) in the case of a bundle of projects, benefits from executing the projects as a bundle compared to as individual projects;

"(III) safety benefits, including the reduction of accidents and related costs;

"(IV) person and freight mobility benefits, including congestion reduction and reliability improvements;

"(V) national or regional economic benefits;

"(VI) benefits from long-term resiliency to extreme weather events, flooding, or other natural disasters;

"(VII) benefits from protection (as described in section 133(b)(10)), including improving seismic or scour protection;

"(VIII) environmental benefits, including wildlife connectivity;

"(IX) benefits to nonvehicular and public transportation users;

"(X) benefits of using—

"(aa) innovative design and construction techniques; or

"(bb) innovative technologies; or

"(XI) reductions in maintenance costs, including, in the case of a federally-owned bridge, cost savings to the Federal budget; and

"(ii) consider whether and the extent to which the benefits, including the benefits described in clause (i), are more likely than not to outweigh the total project costs.

"(g) COMPETITIVE PROCESS, EVALUATION, AND ANNUAL REPORT FOR LARGE PROJECTS.—

"(1) IN GENERAL.—

"(A) APPLICATIONS.—The Secretary shall establish an annual date by which an eligible entity submitting an application for a large project shall submit to the Secretary such information as the Secretary may require, including information described in paragraph (2), in order for a large project to be considered for a recommendation by the Secretary for funding in the next annual report under paragraph (6).

"(B) FIRST FISCAL YEAR.—Notwithstanding subparagraph (A), for the first fiscal year for which funds are

AMERICAN OVERSIGHT

made available for obligation for grants under the program, the Secretary may establish a date by which an eligible entity submitting an application for a large project shall submit to the Secretary such information as the Secretary may require, including information described in paragraph (2), in order for a large project to be considered for immediate execution of a grant agreement.

"(2) INFORMATION REQUIRED.—The information referred to in paragraph (1) includes—

"(A) all necessary information required for the Secretary to evaluate the large project; and

"(B) information sufficient for the Secretary to determine that—

"(i) the large project meets the applicable requirements under this section; and

"(ii) there is a reasonable likelihood that the large project will continue to meet the requirements under this section.

"(3) DETERMINATION; NOTICE.—On making a determination that information submitted to the Secretary under paragraph (1) is sufficient, the Secretary shall provide a written notice of that determination to—

"(A) the eligible entity that submitted the application;

"(B) the Committee on Environment and Public Works of the Senate; and

"(C) the Committee on Transportation and Infrastructure of the House of Representatives.

"(4) EVALUATION.—The Secretary may recommend a large project for funding in the annual report under paragraph (6), or, in the case of the first fiscal year for which funds are made available for obligation for grants under the program, immediately execute a grant agreement for a large project, only if the Secretary evaluates the proposed project and determines that the project is justified because the project—

"(A) addresses a need to improve the condition of the bridge, as determined by the Secretary, consistent with the goals of the program under subsection (b)(2);

"(B) will generate, as determined by the Secretary—

"(i) costs avoided by the prevention of closure or reduced use of the bridge to be improved by the project;

"(ii) in the case of a bundle of projects, benefits from executing the projects as a bundle compared to as individual projects;

"(iii) safety benefits, including the reduction of accidents and related costs;

"(iv) person and freight mobility benefits, including congestion reduction and reliability improvements;

"(v) national or regional economic benefits;

"(vi) benefits from long-term resiliency to extreme weather events, flooding, or other natural disasters;

"(vii) benefits from protection (as described in section 133(b)(10)), including improving seismic or scour protection;

"(viii) environmental benefits, including wildlife connectivity;

"(ix) benefits to nonvehicular and public transportation users;

AMERICAN OVERSIGHT

"(x) benefits of using—

"(I) innovative design and construction techniques; or

"(II) innovative technologies; or

"(xi) reductions in maintenance costs, including, in the case of a federally-owned bridge, cost savings to the Federal budget;

"(C) is cost effective based on an analysis of whether the benefits and avoided costs described in subparagraph (B) are expected to outweigh the project costs;

"(D) is supported by other Federal or non-Federal financial commitments or revenues adequate to fund ongoing maintenance and preservation; and

"(E) is consistent with the objectives of an applicable asset management plan of the project sponsor, including a State asset management plan under section 119(e) in the case of a project on the National Highway System that is sponsored by a State.

"(5) RATINGS.—

"(A) IN GENERAL.—The Secretary shall develop a methodology to evaluate and rate a large project on a 5-point scale (the points of which include 'high', 'medium-high', 'medium', 'medium-low', and 'low') for each of—

"(i) paragraph (4)(B);

"(ii) paragraph (4)(C); and

"(iii) paragraph (4)(D).

"(B) REQUIREMENT.—To be considered justified and receive a recommendation for funding in the annual report under paragraph (6), a project shall receive a rating of not less than 'medium' for each rating required under subparagraph (A).

"(C) INTERIM METHODOLOGY.—In the first fiscal year for which funds are made available for obligation for grants under the program, the Secretary may establish an interim methodology to evaluate and rate a large project for each of—

"(i) paragraph (4)(B);

"(ii) paragraph (4)(C); and

"(iii) paragraph (4)(D).

"(6) ANNUAL REPORT ON FUNDING RECOMMENDATIONS FOR LARGE PROJECTS.—

"(A) IN GENERAL.—Not later than the first Monday in February of each year, the Secretary shall submit to the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Environment and Public Works and Appropriations of the Senate a report that includes—

"(i) a list of large projects that have requested a recommendation for funding under a new grant agreement from funds anticipated to be available to carry out this subsection in the next fiscal year;

"(ii) the evaluation under paragraph (4) and ratings under paragraph (5) for each project referred to in clause (i);

"(iii) the grant amounts that the Secretary recommends providing to large projects in the next fiscal year, including—

AMERICAN OVERSIGHT

"(I) scheduled payments under previously signed multiyear grant agreements under subsection (j);

"(II) payments for new grant agreements, including single-year grant agreements and multiyear grant agreements; and

"(III) a description of how amounts anticipated to be available for the program from the Highway Trust Fund for that fiscal year will be distributed; and

"(iv) for each project for which the Secretary recommends a new multiyear grant agreement under subsection (j), the proposed payout schedule for the project.

"(B) LIMITATIONS.—

"(i) IN GENERAL.—The Secretary shall not recommend in an annual report under this paragraph a new multiyear grant agreement provided from funds from the Highway Trust Fund unless the Secretary determines that the project can be completed using funds that are anticipated to be available from the Highway Trust Fund in future fiscal years.

"(ii) GENERAL FUND PROJECTS.—The Secretary—

"(I) may recommend for funding in an annual report under this paragraph a large project using funds from the general fund of the Treasury; but

"(II) shall not execute a grant agreement for that project unless—

"(aa) funds other than from the Highway Trust Fund have been made available for the project; and

"(bb) the Secretary determines that the project can be completed using funds other than from the Highway Trust Fund that are anticipated to be available in future fiscal years.

"(C) CONSIDERATIONS.—In selecting projects to recommend for funding in the annual report under this paragraph, or, in the case of the first fiscal year for which funds are made available for obligation for grants under the program, projects for immediate execution of a grant agreement, the Secretary shall—

"(i) consider the amount of funds available in future fiscal years for multiyear grant agreements as described in subparagraph (B); and

"(ii) assume the availability of funds in future fiscal years for multiyear grant agreements that extend beyond the period of authorization based on the amount made available for large projects under the program in the last fiscal year of the period of authorization.

"(D) PROJECT DIVERSITY.—In selecting projects to recommend for funding in the annual report under this paragraph, the Secretary shall ensure diversity among projects recommended based on—

"(i) the amount of the grant requested; and

"(ii) grants for an eligible project for 1 bridge compared to an eligible project that is a bundle of projects.

AMERICAN OVERSIGHT

"(h) ELIGIBLE PROJECT COSTS.—A grant received for an eligible project under the program may be used for—

"(1) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities;

"(2) construction, reconstruction, rehabilitation, acquisition of real property (including land related to the project and improvements to the land), environmental mitigation, construction contingencies, acquisition of equipment, and operational improvements directly related to improving system performance; and

"(3) expenses related to the protection (as described in section 133(b)(10)) of a bridge, including seismic or scour protection.

"(i) TIFIA PROGRAM.—On the request of an eligible entity carrying out an eligible project, the Secretary may use amounts awarded to the entity to pay subsidy and administrative costs necessary to provide to the entity Federal credit assistance under chapter 6 with respect to the eligible project for which the grant was awarded.

"(j) MULTIYEAR GRANT AGREEMENTS FOR LARGE PROJECTS.—

"(1) IN GENERAL.—A large project that receives a grant under the program in an amount of not less than $100,000,000 may be carried out through a multiyear grant agreement in accordance with this subsection.

"(2) REQUIREMENTS.—A multiyear grant agreement for a large project described in paragraph (1) shall—

"(A) establish the terms of participation by the Federal Government in the project;

"(B) establish the maximum amount of Federal financial assistance for the project in accordance with paragraphs (3) and (4) of subsection (c);

"(C) establish a payout schedule for the project that provides for disbursement of the full grant amount by not later than 4 fiscal years after the fiscal year in which the initial amount is provided;

"(D) determine the period of time for completing the project, even if that period extends beyond the period of an authorization; and

"(E) attempt to improve timely and efficient management of the project, consistent with all applicable Federal laws (including regulations).

"(3) SPECIAL FINANCIAL RULES.—

"(A) IN GENERAL.—A multiyear grant agreement under this subsection—

"(i) shall obligate an amount of available budget authority specified in law; and

"(ii) may include a commitment, contingent on amounts to be specified in law in advance for commitments under this paragraph, to obligate an additional amount from future available budget authority specified in law.

"(B) STATEMENT OF CONTINGENT COMMITMENT.—The agreement shall state that the contingent commitment is not an obligation of the Federal Government.

"(C) INTEREST AND OTHER FINANCING COSTS.—

AMERICAN OVERSIGHT

"(i) IN GENERAL.—Interest and other financing costs of carrying out a part of the project within a reasonable time shall be considered a cost of carrying out the project under a multiyear grant agreement, except that eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the project at the time of borrowing.

"(ii) CERTIFICATION.—The applicant shall certify to the Secretary that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

"(4) ADVANCE PAYMENT.—Notwithstanding any other provision of law, an eligible entity carrying out a large project under a multiyear grant agreement—

"(A) may use funds made available to the eligible entity under this title for eligible project costs of the large project until the amount specified in the multiyear grant agreement for the project for that fiscal year becomes available for obligation; and

"(B) if the eligible entity uses funds as described in subparagraph (A), the funds used shall be reimbursed from the amount made available under the multiyear grant agreement for the project.

"(k) UNDERTAKING PARTS OF PROJECTS IN ADVANCE UNDER LETTERS OF NO PREJUDICE.—

"(1) IN GENERAL.—The Secretary may pay to an applicant all eligible project costs under the program, including costs for an activity for an eligible project incurred prior to the date on which the project receives funding under the program if—

"(A) before the applicant carries out the activity, the Secretary approves through a letter to the applicant the activity in the same manner as the Secretary approves other activities as eligible under the program;

"(B) a record of decision, a finding of no significant impact, or a categorical exclusion under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) has been issued for the eligible project; and

"(C) the activity is carried out without Federal assistance and in accordance with all applicable procedures and requirements.

"(2) INTEREST AND OTHER FINANCING COSTS.—

"(A) IN GENERAL.—For purposes of paragraph (1), the cost of carrying out an activity for an eligible project includes the amount of interest and other financing costs, including any interest earned and payable on bonds, to the extent interest and other financing costs are expended in carrying out the activity for the eligible project, except that interest and other financing costs may not be more than the cost of the most favorable financing terms reasonably available for the eligible project at the time of borrowing.

"(B) CERTIFICATION.—The applicant shall certify to the Secretary that the applicant has shown reasonable diligence in seeking the most favorable financing terms under subparagraph (A).

AMERICAN OVERSIGHT

"(3) NO OBLIGATION OR INFLUENCE ON RECOMMENDATIONS.—An approval by the Secretary under paragraph (1)(A) shall not—

"(A) constitute an obligation of the Federal Government; or

"(B) alter or influence any evaluation under subsection (f)(3)(A)(i) or (g)(4) or any recommendation by the Secretary for funding under the program.

"(l) FEDERALLY-OWNED BRIDGES.—

"(1) DIVESTITURE CONSIDERATION.—In the case of a bridge owned by a Federal land management agency for which that agency applies for a grant under the program, the agency—

"(A) shall consider options to divest the bridge to a State or local entity after completion of the project; and

"(B) may apply jointly with the State or local entity to which the bridge may be divested.

"(2) TREATMENT.—Notwithstanding any other provision of law, section 129 shall apply to a bridge that was previously owned by a Federal land management agency and has been transferred to a non-Federal entity under paragraph (1) in the same manner as if the bridge was never federally owned.

"(m) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project assisted under this section shall be treated as a project on a Federal-aid highway under this chapter.

"(n) CONGRESSIONAL NOTIFICATION.—Not later than 30 days before making a grant for an eligible project under the program, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a written notification of the proposed grant that includes—

"(1) an evaluation and justification for the eligible project; and

"(2) the amount of the proposed grant.

"(o) REPORTS.—

"(1) ANNUAL REPORT.—Not later than August 1 of each fiscal year, the Secretary shall make available on the website of the Department of Transportation an annual report that lists each eligible project for which a grant has been provided under the program during the fiscal year.

"(2) GAO ASSESSMENT AND REPORT.—Not later than 3 years after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Comptroller General of the United States shall—

"(A) conduct an assessment of the administrative establishment, solicitation, selection, and justification process with respect to the funding of grants under the program; and

"(B) submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that describes—

"(i) the adequacy and fairness of the process under which each eligible project that received a grant under the program was selected; and

"(ii) the justification and criteria used for the selection of each eligible project.

"(p) LIMITATION.—

AMERICAN OVERSIGHT

"(1) LARGE PROJECTS.—Of the amounts made available out of the Highway Trust Fund (other than the Mass Transit Account) to carry out this section for each of fiscal years 2022 through 2026, not less than 50 percent, in aggregate, shall be used for large projects.

"(2) UNUTILIZED AMOUNTS.—If, in fiscal year 2026, the Secretary determines that grants under the program will not allow for the requirement under paragraph (1) to be met, the Secretary shall use the unutilized amounts to make other grants under the program during that fiscal year.

"(q) TRIBAL TRANSPORTATION FACILITY BRIDGE SET ASIDE.—

"(1) IN GENERAL.—Of the amounts made available from the Highway Trust Fund (other than the Mass Transit Account) for a fiscal year to carry out this section, the Secretary shall use, to carry out section 202(d)—

"(A) $16,000,000 for fiscal year 2022;
"(B) $18,000,000 for fiscal year 2023;
"(C) $20,000,000 for fiscal year 2024;
"(D) $22,000,000 for fiscal year 2025; and
"(E) $24,000,000 for fiscal year 2026.

"(2) TREATMENT.—For purposes of section 201, funds made available for section 202(d) under paragraph (1) shall be considered to be part of the tribal transportation program.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by inserting after the item relating to section 123 the following:

"124. Bridge investment program.".

SEC. 11119. SAFE ROUTES TO SCHOOL.

(a) IN GENERAL.—Chapter 2 of title 23, United States Code, is amended by inserting after section 207 the following:

"§ 208. Safe routes to school

"(a) DEFINITIONS.—In this section:

"(1) IN THE VICINITY OF SCHOOLS.—The term 'in the vicinity of schools', with respect to a school, means the approximately 2-mile area within bicycling and walking distance of the school.

"(2) PRIMARY, MIDDLE, AND HIGH SCHOOLS.—The term 'primary, middle, and high schools' means schools providing education from kindergarten through 12th grade.

"(b) ESTABLISHMENT.—Subject to the requirements of this section, the Secretary shall establish and carry out a safe routes to school program for the benefit of children in primary, middle, and high schools.

"(c) PURPOSES.—The purposes of the program established under subsection (b) shall be—

"(1) to enable and encourage children, including those with disabilities, to walk and bicycle to school;

"(2) to make bicycling and walking to school a safer and more appealing transportation alternative, thereby encouraging a healthy and active lifestyle from an early age; and

"(3) to facilitate the planning, development, and implementation of projects and activities that will improve safety and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.

"(d) APPORTIONMENT OF FUNDS.—

AMERICAN OVERSIGHT

"(1) IN GENERAL.—Subject to paragraphs (2), (3), and (4), amounts made available to carry out this section for a fiscal year shall be apportioned among the States so that each State receives the amount equal to the proportion that—

"(A) the total student enrollment in primary, middle, and high schools in each State; bears to

"(B) the total student enrollment in primary, middle, and high schools in all States.

"(2) MINIMUM APPORTIONMENT.—No State shall receive an apportionment under this section for a fiscal year of less than $1,000,000.

"(3) SET-ASIDE FOR ADMINISTRATIVE EXPENSES.—Before apportioning under this subsection amounts made available to carry out this section for a fiscal year, the Secretary shall set aside not more than $3,000,000 of those amounts for the administrative expenses of the Secretary in carrying out this section.

"(4) DETERMINATION OF STUDENT ENROLLMENTS.—Determinations under this subsection relating to student enrollments shall be made by the Secretary.

"(e) ADMINISTRATION OF AMOUNTS.—Amounts apportioned to a State under this section shall be administered by the State department of transportation.

"(f) ELIGIBLE RECIPIENTS.—Amounts apportioned to a State under this section shall be used by the State to provide financial assistance to State, local, Tribal, and regional agencies, including nonprofit organizations, that demonstrate an ability to meet the requirements of this section.

"(g) ELIGIBLE PROJECTS AND ACTIVITIES.—

"(1) INFRASTRUCTURE-RELATED PROJECTS.—

"(A) IN GENERAL.—Amounts apportioned to a State under this section may be used for the planning, design, and construction of infrastructure-related projects that will substantially improve the ability of students to walk and bicycle to school, including sidewalk improvements, traffic calming and speed reduction improvements, pedestrian and bicycle crossing improvements, on-street bicycle facilities, off-street bicycle and pedestrian facilities, secure bicycle parking facilities, and traffic diversion improvements in the vicinity of schools.

"(B) LOCATION OF PROJECTS.—Infrastructure-related projects under subparagraph (A) may be carried out on any public road or any bicycle or pedestrian pathway or trail in the vicinity of schools.

"(2) NONINFRASTRUCTURE-RELATED ACTIVITIES.—

"(A) IN GENERAL.—In addition to projects described in paragraph (1), amounts apportioned to a State under this section may be used for noninfrastructure-related activities to encourage walking and bicycling to school, including public awareness campaigns and outreach to press and community leaders, traffic education and enforcement in the vicinity of schools, student sessions on bicycle and pedestrian safety, health, and environment, and funding for training, volunteers, and managers of safe routes to school programs.

"(B) ALLOCATION.—Not less than 10 percent and not more than 30 percent of the amount apportioned to a

AMERICAN OVERSIGHT

State under this section for a fiscal year shall be used for noninfrastructure-related activities under this paragraph.

"(3) SAFE ROUTES TO SCHOOL COORDINATOR.—Each State shall use a sufficient amount of the apportionment of the State for each fiscal year to fund a full-time position of coordinator of the safe routes to school program of the State.

"(h) CLEARINGHOUSE.—

"(1) IN GENERAL.—The Secretary shall make grants to a national nonprofit organization engaged in promoting safe routes to schools—

"(A) to operate a national safe routes to school clearinghouse;

"(B) to develop information and educational programs on safe routes to school; and

"(C) to provide technical assistance and disseminate techniques and strategies used for successful safe routes to school programs.

"(2) FUNDING.—The Secretary shall carry out this subsection using amounts set aside for administrative expenses under subsection (d)(3).

"(i) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project assisted under this section shall be treated as a project on a Federal-aid highway under chapter 1.".

(b) CONFORMING AMENDMENTS.—

(1) The analysis for chapter 2 of title 23, United States Code, is amended by inserting after the item relating to section 207 the following:

"208. Safe routes to school.".

(2) Section 1404 of SAFETEA–LU (23 U.S.C. 402 note; Public Law 109–59) is repealed.

(3) The table of contents in section 1(b) of SAFETEA–LU (Public Law 109–59; 119 Stat. 1144) is amended by striking the item relating to section 1404.

SEC. 11120. HIGHWAY USE TAX EVASION PROJECTS.

Section 143(b)(2)(A) of title 23, United States Code, is amended by striking "fiscal years 2016 through 2020" and inserting "fiscal years 2022 through 2026".

SEC. 11121. CONSTRUCTION OF FERRY BOATS AND FERRY TERMINAL FACILITIES.

Section 147 of title 23, United States Code, is amended by striking subsection (h) and inserting the following:

"(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) to carry out this section—

"(1) $110,000,000 for fiscal year 2022;
"(2) $112,000,000 for fiscal year 2023;
"(3) $114,000,000 for fiscal year 2024;
"(4) $116,000,000 for fiscal year 2025; and
"(5) $118,000,000 for fiscal year 2026.".

SEC. 11122. VULNERABLE ROAD USER RESEARCH.

(a) DEFINITIONS.—In this subsection:

AMERICAN OVERSIGHT

(1) ADMINISTRATOR.—The term "Administrator" means the Secretary, acting through the Administrator of the Federal Highway Administration.

(2) VULNERABLE ROAD USER.—The term "vulnerable road user" has the meaning given the term in section 148(a) of title 23, United States Code.

(b) ESTABLISHMENT OF RESEARCH PLAN.—The Administrator shall establish a research plan to prioritize research on roadway designs, the development of safety countermeasures to minimize fatalities and serious injuries to vulnerable road users, and the promotion of bicycling and walking, including research relating to—

(1) roadway safety improvements, including traffic calming techniques and vulnerable road user accommodations appropriate in a suburban arterial context;

(2) the impacts of traffic speeds, and access to low-traffic stress corridors, on safety and rates of bicycling and walking;

(3) tools to evaluate the impact of transportation improvements on projected rates and safety of bicycling and walking; and

(4) other research areas to be determined by the Administrator.

(c) VULNERABLE ROAD USER ASSESSMENTS.—The Administrator shall—

(1) review each vulnerable road user safety assessment submitted by a State under section 148(l) of title 23, United States Code, and other relevant sources of data to determine what, if any, standard definitions and methods should be developed through guidance to enable a State to collect pedestrian injury and fatality data; and

(2) in the first progress update under subsection (d)(2), provide—

(A) the results of the determination described in paragraph (1); and

(B) the recommendations of the Secretary with respect to the collection and reporting of data on the safety of vulnerable road users.

(d) SUBMISSION; PUBLICATION.—

(1) SUBMISSION OF PLAN.—Not later than 180 days after the date of enactment of this Act, the Administrator shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives the research plan described in subsection (b).

(2) PROGRESS UPDATES.—Not later than 2 years after the date of enactment of this Act, and biannually thereafter, the Administrator shall submit to the Committees described in paragraph (1)—

(A) updates on the progress and findings of the research conducted pursuant to the plan described in subsection (b); and

(B) in the first submission under this paragraph, the results and recommendations described in subsection (c)(2).

AMERICAN OVERSIGHT

SEC. 11123. WILDLIFE CROSSING SAFETY.

(a) DECLARATION OF POLICY.—Section 101(b)(3)(D) of title 23, United States Code, is amended, in the matter preceding clause (i), by inserting "resilient," after "efficient,".

(b) WILDLIFE CROSSINGS PILOT PROGRAM.—

(1) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by adding at the end the following:

"§ 171. Wildlife crossings pilot program

"(a) FINDING.—Congress finds that greater adoption of wildlife-vehicle collision safety countermeasures is in the public interest because—

"(1) according to the report of the Federal Highway Administration entitled 'Wildlife-Vehicle Collision Reduction Study', there are more than 1,000,000 wildlife-vehicle collisions every year;

"(2) wildlife-vehicle collisions—

"(A) present a danger to—

"(i) human safety; and

"(ii) wildlife survival; and

"(B) represent a persistent concern that results in tens of thousands of serious injuries and hundreds of fatalities on the roadways of the United States; and

"(3) the total annual cost associated with wildlife-vehicle collisions has been estimated to be $8,388,000,000; and

"(4) wildlife-vehicle collisions are a major threat to the survival of species, including birds, reptiles, mammals, and amphibians.

"(b) ESTABLISHMENT.—The Secretary shall establish a competitive wildlife crossings pilot program (referred to in this section as the 'pilot program') to provide grants for projects that seek to achieve—

"(1) a reduction in the number of wildlife-vehicle collisions; and

"(2) in carrying out the purpose described in paragraph (1), improved habitat connectivity for terrestrial and aquatic species.

"(c) ELIGIBLE ENTITIES.—An entity eligible to apply for a grant under the pilot program is—

"(1) a State highway agency, or an equivalent of that agency;

"(2) a metropolitan planning organization (as defined in section 134(b));

"(3) a unit of local government;

"(4) a regional transportation authority;

"(5) a special purpose district or public authority with a transportation function, including a port authority;

"(6) an Indian tribe (as defined in section 207(m)(1)), including a Native village and a Native Corporation (as those terms are defined in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602));

"(7) a Federal land management agency; or

"(8) a group of any of the entities described in paragraphs (1) through (7).

"(d) APPLICATIONS.—

AMERICAN OVERSIGHT

"(1) IN GENERAL.—To be eligible to receive a grant under the pilot program, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

"(2) REQUIREMENT.—If an application under paragraph (1) is submitted by an eligible entity other than an eligible entity described in paragraph (1) or (7) of subsection (c), the application shall include documentation that the State highway agency, or an equivalent of that agency, of the State in which the eligible entity is located was consulted during the development of the application.

"(3) GUIDANCE.—To enhance consideration of current and reliable data, eligible entities may obtain guidance from an agency in the State with jurisdiction over fish and wildlife.

"(e) CONSIDERATIONS.—In selecting grant recipients under the pilot program, the Secretary shall take into consideration the following:

"(1) Primarily, the extent to which the proposed project of an eligible entity is likely to protect motorists and wildlife by reducing the number of wildlife-vehicle collisions and improve habitat connectivity for terrestrial and aquatic species.

"(2) Secondarily, the extent to which the proposed project of an eligible entity is likely to accomplish the following:

"(A) Leveraging Federal investment by encouraging non-Federal contributions to the project, including projects from public-private partnerships.

"(B) Supporting local economic development and improvement of visitation opportunities.

"(C) Incorporation of innovative technologies, including advanced design techniques and other strategies to enhance efficiency and effectiveness in reducing wildlife-vehicle collisions and improving habitat connectivity for terrestrial and aquatic species.

"(D) Provision of educational and outreach opportunities.

"(E) Monitoring and research to evaluate, compare effectiveness of, and identify best practices in, selected projects.

"(F) Any other criteria relevant to reducing the number of wildlife-vehicle collisions and improving habitat connectivity for terrestrial and aquatic species, as the Secretary determines to be appropriate, subject to the condition that the implementation of the pilot program shall not be delayed in the absence of action by the Secretary to identify additional criteria under this subparagraph.

"(f) USE OF FUNDS.—

"(1) IN GENERAL.—The Secretary shall ensure that a grant received under the pilot program is used for a project to reduce wildlife-vehicle collisions.

"(2) GRANT ADMINISTRATION.—

"(A) IN GENERAL.—A grant received under the pilot program shall be administered by—

"(i) in the case of a grant to a Federal land management agency or an Indian tribe (as defined in section 207(m)(1), including a Native village and a Native Corporation (as those terms are defined in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C.

AMERICAN OVERSIGHT

1602))), the Federal Highway Administration, through an agreement; and

"(ii) in the case of a grant to an eligible entity other than an eligible entity described in clause (i), the State highway agency, or an equivalent of that agency, for the State in which the project is to be carried out.

"(B) PARTNERSHIPS.—

"(i) IN GENERAL.—A grant received under the pilot program may be used to provide funds to eligible partners of the project for which the grant was received described in clause (ii), in accordance with the terms of the project agreement.

"(ii) ELIGIBLE PARTNERS DESCRIBED.—The eligible partners referred to in clause (i) include—

"(I) a metropolitan planning organization (as defined in section 134(b));

"(II) a unit of local government;

"(III) a regional transportation authority;

"(IV) a special purpose district or public authority with a transportation function, including a port authority;

"(V) an Indian tribe (as defined in section 207(m)(1)), including a Native village and a Native Corporation (as those terms are defined in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602));

"(VI) a Federal land management agency;

"(VII) a foundation, nongovernmental organization, or institution of higher education;

"(VIII) a Federal, Tribal, regional, or State government entity; and

"(IX) a group of any of the entities described in subclauses (I) through (VIII).

"(3) COMPLIANCE.—An eligible entity that receives a grant under the pilot program and enters into a partnership described in paragraph (2) shall establish measures to verify that an eligible partner that receives funds from the grant complies with the conditions of the pilot program in using those funds.

"(g) REQUIREMENT.—The Secretary shall ensure that not less than 60 percent of the amounts made available for grants under the pilot program each fiscal year are for projects located in rural areas.

"(h) ANNUAL REPORT TO CONGRESS.—

"(1) IN GENERAL.—Not later than December 31 of each calendar year, the Secretary shall submit to Congress, and make publicly available, a report describing the activities under the pilot program for the fiscal year that ends during that calendar year.

"(2) CONTENTS.—The report under paragraph (1) shall include—

"(A) a detailed description of the activities carried out under the pilot program;

"(B) an evaluation of the effectiveness of the pilot program in meeting the purposes described in subsection (b); and

AMERICAN OVERSIGHT

"(C) policy recommendations to improve the effectiveness of the pilot program.

"(i) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project assisted under this section shall be treated as a project on a Federal-aid highway under this chapter.".

(2) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by inserting after the item relating to section 170 the following:

"171. Wildlife crossings pilot program.".

(c) WILDLIFE VEHICLE COLLISION REDUCTION AND HABITAT CONNECTIVITY IMPROVEMENT.—

(1) IN GENERAL.—Chapter 1 of title 23, United States Code (as amended by subsection (b)(1)), is amended by adding at the end the following:

"§ 172. Wildlife-vehicle collision reduction and habitat connectivity improvement

"(a) STUDY.—

"(1) IN GENERAL.—The Secretary shall conduct a study (referred to in this subsection as the 'study') of the state, as of the date of the study, of the practice of methods to reduce collisions between motorists and wildlife (referred to in this section as 'wildlife-vehicle collisions').

"(2) CONTENTS.—

"(A) AREAS OF STUDY.—The study shall—

"(i) update and expand on, as appropriate—

"(I) the report entitled 'Wildlife Vehicle Collision Reduction Study: 2008 Report to Congress'; and

"(II) the document entitled 'Wildlife Vehicle Collision Reduction Study: Best Practices Manual' and dated October 2008; and

"(ii) include—

"(I) an assessment, as of the date of the study, of—

"(aa) the causes of wildlife-vehicle collisions;

"(bb) the impact of wildlife-vehicle collisions on motorists and wildlife; and

"(cc) the impacts of roads and traffic on habitat connectivity for terrestrial and aquatic species; and

"(II) solutions and best practices for—

"(aa) reducing wildlife-vehicle collisions; and

"(bb) improving habitat connectivity for terrestrial and aquatic species.

"(B) METHODS.—In carrying out the study, the Secretary shall—

"(i) conduct a thorough review of research and data relating to—

"(I) wildlife-vehicle collisions; and

"(II) habitat fragmentation that results from transportation infrastructure;

"(ii) survey current practices of the Department of Transportation and State departments of transportation to reduce wildlife-vehicle collisions; and

AMERICAN OVERSIGHT

"(iii) consult with—

"(I) appropriate experts in the field of wildlife-vehicle collisions; and

"(II) appropriate experts on the effects of roads and traffic on habitat connectivity for terrestrial and aquatic species.

"(3) REPORT.—

"(A) IN GENERAL.—Not later than 18 months after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Secretary shall submit to Congress a report on the results of the study.

"(B) CONTENTS.—The report under subparagraph (A) shall include—

"(i) a description of—

"(I) the causes of wildlife-vehicle collisions;

"(II) the impacts of wildlife-vehicle collisions; and

"(III) the impacts of roads and traffic on—

"(aa) species listed as threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

"(bb) species identified by States as species of greatest conservation need;

"(cc) species identified in State wildlife plans; and

"(dd) medium and small terrestrial and aquatic species;

"(ii) an economic evaluation of the costs and benefits of installing highway infrastructure and other measures to mitigate damage to terrestrial and aquatic species, including the effect on jobs, property values, and economic growth to society, adjacent communities, and landowners;

"(iii) recommendations for preventing wildlife-vehicle collisions, including recommended best practices, funding resources, or other recommendations for addressing wildlife-vehicle collisions; and

"(iv) guidance, developed in consultation with Federal land management agencies and State departments of transportation, State fish and wildlife agencies, and Tribal governments that agree to participate, for developing, for each State that agrees to participate, a voluntary joint statewide transportation and wildlife action plan—

"(I) to address wildlife-vehicle collisions; and

"(II) to improve habitat connectivity for terrestrial and aquatic species.

"(b) WORKFORCE DEVELOPMENT AND TECHNICAL TRAINING.—

"(1) IN GENERAL.—Not later than 3 years after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Secretary shall, based on the study conducted under subsection (a), develop a series of in-person and online workforce development and technical training courses—

"(A) to reduce wildlife-vehicle collisions; and

"(B) to improve habitat connectivity for terrestrial and aquatic species.

"(2) AVAILABILITY.—The Secretary shall—

AMERICAN OVERSIGHT

"(A) make the series of courses developed under paragraph (1) available for transportation and fish and wildlife professionals; and

"(B) update the series of courses not less frequently than once every 2 years.

"(c) STANDARDIZATION OF WILDLIFE COLLISION AND CARCASS DATA.—

"(1) STANDARDIZED METHODOLOGY.—

"(A) IN GENERAL.—The Secretary, acting through the Administrator of the Federal Highway Administration (referred to in this subsection as the 'Secretary'), shall develop a quality standardized methodology for collecting and reporting spatially accurate wildlife collision and carcass data for the National Highway System, considering the practicability of the methodology with respect to technology and cost.

"(B) METHODOLOGY.—In developing the standardized methodology under subparagraph (A), the Secretary shall—

"(i) survey existing methodologies and sources of data collection, including the Fatality Analysis Reporting System, the General Estimates System of the National Automotive Sampling System, and the Highway Safety Information System; and

"(ii) to the extent practicable, identify and correct limitations of those existing methodologies and sources of data collection.

"(C) CONSULTATION.—In developing the standardized methodology under subparagraph (A), the Secretary shall consult with—

"(i) the Secretary of the Interior;

"(ii) the Secretary of Agriculture, acting through the Chief of the Forest Service;

"(iii) Tribal, State, and local transportation and wildlife authorities;

"(iv) metropolitan planning organizations (as defined in section 134(b));

"(v) members of the American Association of State Highway Transportation Officials;

"(vi) members of the Association of Fish and Wildlife Agencies;

"(vii) experts in the field of wildlife-vehicle collisions;

"(viii) nongovernmental organizations; and

"(ix) other interested stakeholders, as appropriate.

"(2) STANDARDIZED NATIONAL DATA SYSTEM WITH VOLUNTARY TEMPLATE IMPLEMENTATION.—The Secretary shall—

"(A) develop a template for State implementation of a standardized national wildlife collision and carcass data system for the National Highway System that is based on the standardized methodology developed under paragraph (1); and

"(B) encourage the voluntary implementation of the template developed under subparagraph (A).

"(3) REPORTS.—

"(A) METHODOLOGY.—The Secretary shall submit to Congress a report describing the standardized methodology

AMERICAN OVERSIGHT

developed under paragraph (1) not later than the later of—

"(i) the date that is 18 months after the date of enactment of the Surface Transportation Reauthorization Act of 2021; and

"(ii) the date that is 180 days after the date on which the Secretary completes the development of the standardized methodology.

"(B) IMPLEMENTATION.—Not later than 4 years after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Secretary shall submit to Congress a report describing—

"(i) the status of the voluntary implementation of the standardized methodology developed under paragraph (1) and the template developed under paragraph (2)(A);

"(ii) whether the implementation of the standardized methodology developed under paragraph (1) and the template developed under paragraph (2)(A) has impacted efforts by States, units of local government, and other entities—

"(I) to reduce the number of wildlife-vehicle collisions; and

"(II) to improve habitat connectivity;

"(iii) the degree of the impact described in clause (ii); and

"(iv) the recommendations of the Secretary, including recommendations for further study aimed at reducing motorist collisions involving wildlife and improving habitat connectivity for terrestrial and aquatic species on the National Highway System, if any.

"(d) NATIONAL THRESHOLD GUIDANCE.—The Secretary shall—

"(1) establish guidance, to be carried out by States on a voluntary basis, that contains a threshold for determining whether a highway shall be evaluated for potential mitigation measures to reduce wildlife-vehicle collisions and increase habitat connectivity for terrestrial and aquatic species, taking into consideration—

"(A) the number of wildlife-vehicle collisions on the highway that pose a human safety risk;

"(B) highway-related mortality and the effects of traffic on the highway on—

"(i) species listed as endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

"(ii) species identified by a State as species of greatest conservation need;

"(iii) species identified in State wildlife plans; and

"(iv) medium and small terrestrial and aquatic species; and

"(C) habitat connectivity values for terrestrial and aquatic species and the barrier effect of the highway on the movements and migrations of those species.".

(2) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code (as amended by subsection (b)(2))

AMERICAN OVERSIGHT

is amended by inserting after the item relating to section 171 the following:

"172. Wildlife-vehicle collision reduction and habitat connectivity improvement.".

(d) WILDLIFE CROSSINGS STANDARDS.—Section 109(c)(2) of title 23, United States Code, is amended—

(1) in subparagraph (E), by striking "and" at the end;

(2) by redesignating subparagraph (F) as subparagraph (G); and

(3) by inserting after subparagraph (E) the following:

"(F) the publication of the Federal Highway Administration entitled 'Wildlife Crossing Structure Handbook: Design and Evaluation in North America' and dated March 2011; and".

(e) WILDLIFE HABITAT CONNECTIVITY AND NATIONAL BRIDGE AND TUNNEL INVENTORY AND INSPECTION STANDARDS.—Section 144 of title 23, United States Code, is amended—

(1) in subsection (a)(2)—

(A) in subparagraph (B), by inserting ", resilience," after "safety";

(B) in subparagraph (D), by striking "and" at the end;

(C) in subparagraph (E), by striking the period at the end and inserting "; and"; and

(D) by adding at the end the following:

"(F) to ensure adequate passage of aquatic and terrestrial species, where appropriate.";

(2) in subsection (b)—

(A) in paragraph (4), by striking "and" at the end;

(B) in paragraph (5), by striking the period at the end and inserting "; and"; and

(C) by adding at the end the following:

"(6) determine if the replacement or rehabilitation of bridges and tunnels should include measures to enable safe and unimpeded movement for terrestrial and aquatic species."; and

(3) in subsection (i), by adding at the end the following:

"(3) REQUIREMENT.—The first revision under paragraph (2) after the date of enactment of the Surface Transportation Reauthorization Act of 2021 shall include techniques to assess passage of aquatic and terrestrial species and habitat restoration potential.".

SEC. 11124. CONSOLIDATION OF PROGRAMS.

Section 1519(a) of MAP–21 (Public Law 112–141; 126 Stat. 574; 129 Stat. 1423) is amended, in the matter preceding paragraph (1), by striking "fiscal years 2016 through 2020" and inserting "fiscal years 2022 through 2026".

SEC. 11125. GAO REPORT.

(a) IN GENERAL.—Section 1433 of the FAST Act (23 U.S.C. 101 note; Public Law 114–94) is repealed.

(b) CLERICAL AMENDMENT.—The table of contents in section 1(b) of the FAST Act (Public Law 114–94; 129 Stat. 1312) is amended by striking the item relating to section 1433.

SEC. 11126. TERRITORIAL AND PUERTO RICO HIGHWAY PROGRAM.

Section 165 of title 23, United States Code, is amended—

AMERICAN OVERSIGHT

(1) in subsection (a), by striking paragraphs (1) and (2) and inserting the following:

"(1) for the Puerto Rico highway program under subsection (b)—

"(A) $173,010,000 shall be for fiscal year 2022;
"(B) $176,960,000 shall be for fiscal year 2023;
"(C) $180,120,000 shall be for fiscal year 2024;
"(D) $183,675,000 shall be for fiscal year 2025; and
"(E) $187,230,000 shall be for fiscal year 2026; and

"(2) for the territorial highway program under subsection (c)—

"(A) $45,990,000 shall be for fiscal year 2022;
"(B) $47,040,000 shall be for fiscal year 2023;
"(C) $47,880,000 shall be for fiscal year 2024;
"(D) $48,825,000 shall be for fiscal year 2025; and
"(E) $49,770,000 shall be for fiscal year 2026.";

(2) in subsection (b)(2)(C)(iii), by inserting "and preventative maintenance on the National Highway System" after "chapter 1"; and

(3) in subsection (c)(7), by striking "paragraphs (1) through (4) of section 133(c) and section 133(b)(12)" and inserting "paragraphs (1), (2), (3), and (5) of section 133(c) and section 133(b)(13)".

SEC. 11127. NATIONALLY SIGNIFICANT FEDERAL LANDS AND TRIBAL PROJECTS PROGRAM.

Section 1123 of the FAST Act (23 U.S.C. 201 note; Public Law 114–94) is amended—

(1) in subsection (c)(3), by striking "$25,000,000" and all that follows through the period at the end and inserting "$12,500,000.";

(2) in subsection (g)—

(A) by striking the subsection designation and heading and all that follows through "The Federal" in paragraph (1) and inserting the following:

"(g) COST SHARE.—

"(1) FEDERAL SHARE.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the Federal";

(B) in paragraph (1), by adding at the end the following:

"(B) TRIBAL PROJECTS.—In the case of a project on a tribal transportation facility (as defined in section 101(a) of title 23, United States Code), the Federal share of the cost of the project shall be 100 percent."; and

(C) in paragraph (2), by striking "other than those made available under title 23 or title 49, United States Code,"; and

(3) by striking subsection (h) and inserting the following:

"(h) USE OF FUNDS.—

"(1) IN GENERAL.—For each fiscal year, of the amounts made available to carry out this section—

"(A) 50 percent shall be used for eligible projects on Federal lands transportation facilities and Federal lands access transportation facilities (as those terms are defined in section 101(a) of title 23, United States Code); and

AMERICAN OVERSIGHT

"(B) 50 percent shall be used for eligible projects on tribal transportation facilities (as defined in section 101(a) of title 23, United States Code).

"(2) REQUIREMENT.—Not less than 1 eligible project carried out using the amount described in paragraph (1)(A) shall be in a unit of the National Park System with not less than 3,000,000 annual visitors.

"(3) AVAILABILITY.—Amounts made available to carry out this section shall remain available for a period of 3 fiscal years following the fiscal year for which the amounts are appropriated.".

SEC. 11128. TRIBAL HIGH PRIORITY PROJECTS PROGRAM.

Section 1123(h) of MAP–21 (23 U.S.C. 202 note; Public Law 112–141) is amended—

(1) by redesignating paragraph (2) as paragraph (3);

(2) in paragraph (3) (as so redesignated), in the matter preceding subparagraph (A), by striking "paragraph (1)" and inserting "paragraphs (1) and (2)"; and

(3) by striking the subsection designation and heading and all that follows through the period at the end of paragraph (1) and inserting the following:

"(h) FUNDING.—

"(1) SET-ASIDE.—For each of fiscal years 2022 through 2026, of the amounts made available to carry out the tribal transportation program under section 202 of title 23, United States Code, for that fiscal year, the Secretary shall use $9,000,000 to carry out the program.

"(2) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts made available under paragraph (1), there is authorized to be appropriated $30,000,000 out of the general fund of the Treasury to carry out the program for each of fiscal years 2022 through 2026.".

SEC. 11129. STANDARDS.

Section 109 of title 23, United States Code, is amended—

(1) in subsection (d)—

(A) by striking "(d) On any" and inserting the following:

"(d) MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES.—

"(1) IN GENERAL.—On any";

(B) in paragraph (1) (as so designated), by striking "promote the safe" and inserting "promote the safety, inclusion, and mobility of all users"; and

(C) by adding at the end the following:

"(2) UPDATES.—Not later than 18 months after the date of enactment of the Surface Transportation Reauthorization Act of 2021 and not less frequently than every 4 years thereafter, the Secretary shall update the Manual on Uniform Traffic Control Devices.";

(2) in subsection (o)—

(A) by striking "Projects" and inserting:

"(A) IN GENERAL.—Projects"; and

(B) by inserting at the end the following:

"(B) LOCAL JURISDICTIONS.—Notwithstanding subparagraph (A), a local jurisdiction may use a roadway design guide recognized by the Federal Highway Administration and adopted by the local jurisdiction that is different from the roadway design guide used by the State in which

AMERICAN OVERSIGHT

the local jurisdiction is located for the design of projects on all roadways under the ownership of the local jurisdiction (other than a highway on the National Highway System) for which the local jurisdiction is the project sponsor, provided that the design complies with all other applicable Federal laws."; and

(3) by adding at the end the following:

"(s) ELECTRIC VEHICLE CHARGING STATIONS.—

"(1) STANDARDS.—Electric vehicle charging infrastructure installed using funds provided under this title shall provide, at a minimum—

"(A) non-proprietary charging connectors that meet applicable industry safety standards; and

"(B) open access to payment methods that are available to all members of the public to ensure secure, convenient, and equal access to the electric vehicle charging infrastructure that shall not be limited by membership to a particular payment provider.

"(2) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project to install electric vehicle charging infrastructure using funds provided under this title shall be treated as if the project is located on a Federal-aid highway.".

SEC. 11130. PUBLIC TRANSPORTATION.

(a) IN GENERAL.—Section 142(a) of title 23, United States Code, is amended by adding at the end the following:

"(3) BUS CORRIDORS.—In addition to the projects described in paragraphs (1) and (2), the Secretary may approve payment from sums apportioned under paragraph (2) or (7) of section 104(b) for carrying out a capital project for the construction of a bus rapid transit corridor or dedicated bus lanes, including the construction or installation of—

"(A) traffic signaling and prioritization systems;

"(B) redesigned intersections that are necessary for the establishment of a bus rapid transit corridor;

"(C) on-street stations;

"(D) fare collection systems;

"(E) information and wayfinding systems; and

"(F) depots.".

(b) TECHNICAL CORRECTION.—Section 142 of title 23, United States Code, is amended by striking subsection (i).

SEC. 11131. RESERVATION OF CERTAIN FUNDS.

(a) OPEN CONTAINER REQUIREMENTS.—Section 154(c)(2) of title 23, United States Code, is amended—

(1) in the paragraph heading, by striking "2012" and inserting "2022";

(2) by striking subparagraph (A) and inserting the following:

"(A) RESERVATION OF FUNDS.—

"(i) IN GENERAL.—On October 1, 2021, and each October 1 thereafter, in the case of a State described in clause (ii), the Secretary shall reserve an amount equal to 2.5 percent of the funds to be apportioned to the State on that date under each of paragraphs (1) and (2) of section 104(b) until the State certifies to the Secretary the means by which the State will

AMERICAN OVERSIGHT

use those reserved funds in accordance with subparagraphs (A) and (B) of paragraph (1), and paragraph (3).

"(ii) STATES DESCRIBED.—A State referred to in clause (i) is a State—

"(I) that has not enacted or is not enforcing an open container law described in subsection (b); and

"(II) for which the Secretary determined for the prior fiscal year that the State had not enacted or was not enforcing an open container law described in subsection (b).."; and

(3) in subparagraph (B), in the matter preceding clause (i), by striking "subparagraph (A)" and inserting "subparagraph (A)(i)".

(b) REPEAT INTOXICATED DRIVER LAWS.—Section 164(b)(2) of title 23, United States Code, is amended—

(1) in the paragraph heading, by striking "2012" and inserting "2022";

(2) by striking subparagraph (A) and inserting the following:

"(A) RESERVATION OF FUNDS.—

"(i) IN GENERAL.—On October 1, 2021, and each October 1 thereafter, in the case of a State described in clause (ii), the Secretary shall reserve an amount equal to 2.5 percent of the funds to be apportioned to the State on that date under each of paragraphs (1) and (2) of section 104(b) until the State certifies to the Secretary the means by which the State will use those reserved funds in accordance with subparagraphs (A) and (B) of paragraph (1), and paragraph (3).

"(ii) STATES DESCRIBED.—A State referred to in clause (i) is a State—

"(I) that has not enacted or is not enforcing a repeat intoxicated driver law; and

"(II) for which the Secretary determined for the prior fiscal year that the State had not enacted or was not enforcing a repeat intoxicated driver law."; and

(3) in subparagraph (B), in the matter preceding clause (i), by striking "subparagraph (A)" and inserting "subparagraph (A)(i)".

SEC. 11132. RURAL SURFACE TRANSPORTATION GRANT PROGRAM.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code (as amended by section 11123(c)(1)), is amended by adding at the end the following:

"§ 173. Rural surface transportation grant program

"(a) DEFINITIONS.—In this section:

"(1) PROGRAM.—The term 'program' means the program established under subsection (b)(1).

"(2) RURAL AREA.—The term 'rural area' means an area that is outside an urbanized area with a population of over 200,000.

"(b) ESTABLISHMENT.—

AMERICAN OVERSIGHT

"(1) IN GENERAL.—The Secretary shall establish a rural surface transportation grant program to provide grants, on a competitive basis, to eligible entities to improve and expand the surface transportation infrastructure in rural areas.

"(2) GOALS.—The goals of the program shall be—

"(A) to increase connectivity;

"(B) to improve the safety and reliability of the movement of people and freight; and

"(C) to generate regional economic growth and improve quality of life.

"(3) GRANT ADMINISTRATION.—The Secretary may—

"(A) retain not more than a total of 2 percent of the funds made available to carry out the program and to review applications for grants under the program; and

"(B) transfer portions of the funds retained under subparagraph (A) to the relevant Administrators to fund the award and oversight of grants provided under the program.

"(c) ELIGIBLE ENTITIES.—The Secretary may make a grant under the program to—

"(1) a State;

"(2) a regional transportation planning organization;

"(3) a unit of local government;

"(4) a Tribal government or a consortium of Tribal governments; and

"(5) a multijurisdictional group of entities described in paragraphs (1) through (4).

"(d) APPLICATIONS.—To be eligible to receive a grant under the program, an eligible entity shall submit to the Secretary an application in such form, at such time, and containing such information as the Secretary may require.

"(e) ELIGIBLE PROJECTS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary may make a grant under the program only for a project that is—

"(A) a highway, bridge, or tunnel project eligible under section 119(d);

"(B) a highway, bridge, or tunnel project eligible under section 133(b);

"(C) a project eligible under section 202(a);

"(D) a highway freight project eligible under section 167(h)(5);

"(E) a highway safety improvement project, including a project to improve a high risk rural road (as those terms are defined in section 148(a));

"(F) a project on a publicly-owned highway or bridge that provides or increases access to an agricultural, commercial, energy, or intermodal facility that supports the economy of a rural area; or

"(G) a project to develop, establish, or maintain an integrated mobility management system, a transportation demand management system, or on-demand mobility services.

"(2) BUNDLING OF ELIGIBLE PROJECTS.—

"(A) IN GENERAL.—An eligible entity may bundle 2 or more similar eligible projects under the program that are—

AMERICAN OVERSIGHT

"(i) included as a bundled project in a statewide transportation improvement program under section 135; and

"(ii) awarded to a single contractor or consultant pursuant to a contract for engineering and design or construction between the contractor and the eligible entity.

"(B) ITEMIZATION.—Notwithstanding any other provision of law (including regulations), a bundling of eligible projects under this paragraph may be considered to be a single project, including for purposes of section 135.

"(f) ELIGIBLE PROJECT COSTS.—An eligible entity may use funds from a grant under the program for—

"(1) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

"(2) construction, reconstruction, rehabilitation, acquisition of real property (including land related to the project and improvements to the land), environmental mitigation, construction contingencies, acquisition of equipment, and operational improvements.

"(g) PROJECT REQUIREMENTS.—The Secretary may provide a grant under the program to an eligible project only if the Secretary determines that the project—

"(1) will generate regional economic, mobility, or safety benefits;

"(2) will be cost effective;

"(3) will contribute to the accomplishment of 1 or more of the national goals under section 150;

"(4) is based on the results of preliminary engineering; and

"(5) is reasonably expected to begin construction not later than 18 months after the date of obligation of funds for the project.

"(h) ADDITIONAL CONSIDERATIONS.—In providing grants under the program, the Secretary shall consider the extent to which an eligible project will—

"(1) improve the state of good repair of existing highway, bridge, and tunnel facilities;

"(2) increase the capacity or connectivity of the surface transportation system and improve mobility for residents of rural areas;

"(3) address economic development and job creation challenges, including energy sector job losses in energy communities as identified in the report released in April 2021 by the interagency working group established by section 218 of Executive Order 14008 (86 Fed. Reg. 7628 (February 1, 2021));

"(4) enhance recreational and tourism opportunities by providing access to Federal land, national parks, national forests, national recreation areas, national wildlife refuges, wilderness areas, or State parks;

"(5) contribute to geographic diversity among grant recipients;

"(6) utilize innovative project delivery approaches or incorporate transportation technologies;

AMERICAN OVERSIGHT

"(7) coordinate with projects to address broadband infrastructure needs; or

"(8) improve access to emergency care, essential services, healthcare providers, or drug and alcohol treatment and rehabilitation resources.

"(i) GRANT AMOUNT.—Except as provided in subsection (k)(1), a grant under the program shall be in an amount that is not less than $25,000,000.

"(j) FEDERAL SHARE.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the Federal share of the cost of a project carried out with a grant under the program may not exceed 80 percent.

"(2) FEDERAL SHARE FOR CERTAIN PROJECTS.—The Federal share of the cost of an eligible project that furthers the completion of a designated segment of the Appalachian Development Highway System under section 14501 of title 40, or addresses a surface transportation infrastructure need identified for the Denali access system program under section 309 of the Denali Commission Act of 1998 (42 U.S.C. 3121 note; Public Law 105–277) shall be up to 100 percent, as determined by the State.

"(3) USE OF OTHER FEDERAL ASSISTANCE.—Federal assistance other than a grant under the program may be used to satisfy the non-Federal share of the cost of a project carried out with a grant under the program.

"(k) SET ASIDES.—

"(1) SMALL PROJECTS.—The Secretary shall use not more than 10 percent of the amounts made available for the program for each fiscal year to provide grants for eligible projects in an amount that is less than $25,000,000.

"(2) APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM.—The Secretary shall reserve 25 percent of the amounts made available for the program for each fiscal year for eligible projects that further the completion of designated routes of the Appalachian Development Highway System under section 14501 of title 40.

"(3) RURAL ROADWAY LANE DEPARTURES.—The Secretary shall reserve 15 percent of the amounts made available for the program for each fiscal year to provide grants for eligible projects located in States that have rural roadway fatalities as a result of lane departures that are greater than the average of rural roadway fatalities as a result of lane departures in the United States, based on the latest available data from the Secretary.

"(4) EXCESS FUNDING.—In any fiscal year in which qualified applications for grants under this subsection do not allow for the amounts reserved under paragraphs (1), (2), or (3) to be fully utilized, the Secretary shall use the unutilized amounts to make other grants under the program.

"(l) CONGRESSIONAL REVIEW.—

"(1) NOTIFICATION.—Not less than 60 days before providing a grant under the program, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives—

"(A) a list of all applications determined to be eligible for a grant by the Secretary;

AMERICAN OVERSIGHT

"(B) each application proposed to be selected for a grant, including a justification for the selection; and

"(C) proposed grant amounts.

"(2) COMMITTEE REVIEW.—Before the last day of the 60-day period described in paragraph (1), each Committee described in paragraph (1) shall review the list of proposed projects submitted by the Secretary.

"(3) CONGRESSIONAL DISAPPROVAL.—The Secretary may not make a grant or any other obligation or commitment to fund a project under the program if a joint resolution is enacted disapproving funding for the project before the last day of the 60-day period described in paragraph (1).

"(m) TRANSPARENCY.—

"(1) IN GENERAL.—Not later than 30 days after providing a grant for a project under the program, the Secretary shall provide to all applicants, and publish on the website of the Department of Transportation, the information described in subsection (l)(1).

"(2) BRIEFING.—The Secretary shall provide, on the request of an eligible entity, the opportunity to receive a briefing to explain any reasons the eligible entity was not selected to receive a grant under the program.

"(n) REPORTS.—

"(1) ANNUAL REPORT.—The Secretary shall make available on the website of the Department of Transportation at the end of each fiscal year an annual report that lists each project for which a grant has been provided under the program during that fiscal year.

"(2) COMPTROLLER GENERAL.—

"(A) ASSESSMENT.—The Comptroller General of the United States shall conduct an assessment of the administrative establishment, solicitation, selection, and justification process with respect to the awarding of grants under the program for each fiscal year.

"(B) REPORT.—Each fiscal year, the Comptroller General shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes, for the fiscal year—

"(i) the adequacy and fairness of the process by which each project was selected, if applicable; and

"(ii) the justification and criteria used for the selection of each project, if applicable.

"(o) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project assisted under this section shall be treated as a project on a Federal-aid highway under this chapter.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code (as amended by section 11123(c)(2)), is amended by inserting after the item relating to section 172 the following:

"173. Rural surface transportation grant program.".

SEC. 11133. BICYCLE TRANSPORTATION AND PEDESTRIAN WALKWAYS.

Section 217 of title 23, United States Code, is amended—

(1) in subsection (a)—

AMERICAN OVERSIGHT

(A) by striking "pedestrian walkways and bicycle" and inserting "pedestrian walkways and bicycle and shared micromobility"; and

(B) by striking "safe bicycle use" and inserting "safe access for bicyclists and pedestrians";

(2) in subsection (d), by striking "a position" and inserting "up to 2 positions";

(3) in subsection (e), by striking "bicycles" each place it appears and inserting "pedestrians or bicyclists";

(4) in subsection (f), by striking "and a bicycle" and inserting "or a bicycle or shared micromobility"; and

(5) in subsection (j), by striking paragraph (2) and inserting the following:

"(2) ELECTRIC BICYCLE.—

"(A) IN GENERAL.—The term 'electric bicycle' means a bicycle—

"(i) equipped with fully operable pedals, a saddle or seat for the rider, and an electric motor of less than 750 watts;

"(ii) that can safely share a bicycle transportation facility with other users of such facility; and

"(iii) that is a class 1 electric bicycle, class 2 electric bicycle, or class 3 electric bicycle.

"(B) CLASSES OF ELECTRIC BICYCLES.—

"(i) CLASS 1 ELECTRIC BICYCLE.—For purposes of subparagraph (A)(iii), the term 'class 1 electric bicycle' means an electric bicycle, other than a class 3 electric bicycle, equipped with a motor that—

"(I) provides assistance only when the rider is pedaling; and

"(II) ceases to provide assistance when the speed of the bicycle reaches or exceeds 20 miles per hour.

"(ii) CLASS 2 ELECTRIC BICYCLE.—For purposes of subparagraph (A)(iii), the term 'class 2 electric bicycle' means an electric bicycle equipped with a motor that—

"(I) may be used exclusively to propel the bicycle; and

"(II) is not capable of providing assistance when the speed of the bicycle reaches or exceeds 20 miles per hour.

"(iii) CLASS 3 ELECTRIC BICYCLE.—For purposes of subparagraph (A)(iii), the term 'class 3 electric bicycle' means an electric bicycle equipped with a motor that—

"(I) provides assistance only when the rider is pedaling; and

"(II) ceases to provide assistance when the speed of the bicycle reaches or exceeds 28 miles per hour.".

SEC. 11134. RECREATIONAL TRAILS PROGRAM.

Section 206 of title 23, United States Code, is amended by adding at the end the following:

"(j) USE OF OTHER APPORTIONED FUNDS.—Funds apportioned to a State under section 104(b) that are obligated for a recreational trail or a related project shall be administered as if the funds were made available to carry out this section.".

AMERICAN OVERSIGHT

SEC. 11135. UPDATES TO MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES.

In carrying out the first update to the Manual on Uniform Traffic Control Devices under section 109(d)(2) of title 23, United States Code, to the greatest extent practicable, the Secretary shall include updates necessary to provide for—

(1) the protection of vulnerable road users (as defined in section 148(a) of title 23, United States Code);

(2) supporting the safe testing of automated vehicle technology and any preparation necessary for the safe integration of automated vehicles onto public streets;

(3) appropriate use of variable message signs to enhance public safety;

(4) the minimum retroreflectivity of traffic control devices and pavement markings; and

(5) any additional recommendations made by the National Committee on Uniform Traffic Control Devices that have not been incorporated into the Manual on Uniform Traffic Control Devices.

Subtitle B—Planning and Performance Management

SEC. 11201. TRANSPORTATION PLANNING.

(a) METROPOLITAN TRANSPORTATION PLANNING.—Section 134 of title 23, United States Code, is amended—

(1) in subsection (d)—

(A) in paragraph (3), by adding at the end the following:

"(D) CONSIDERATIONS.—In designating officials or representatives under paragraph (2) for the first time, subject to the bylaws or enabling statute of the metropolitan planning organization, the metropolitan planning organization shall consider the equitable and proportional representation of the population of the metropolitan planning area."; and

(B) in paragraph (7)—

(i) by striking "an existing metropolitan planning area" and inserting "an existing urbanized area (as defined by the Bureau of the Census)"; and

(ii) by striking "the existing metropolitan planning area" and inserting "the area";

(2) in subsection (g)—

(A) in paragraph (1), by striking "a metropolitan area" and inserting "an urbanized area (as defined by the Bureau of the Census)"; and

(B) by adding at the end the following:

"(4) COORDINATION BETWEEN MPOS.—If more than 1 metropolitan planning organization is designated within an urbanized area (as defined by the Bureau of the Census) under subsection (d)(7), the metropolitan planning organizations designated within the area shall ensure, to the maximum extent practicable, the consistency of any data used in the planning process, including information used in forecasting travel demand.

AMERICAN OVERSIGHT

"(5) SAVINGS CLAUSE.—Nothing in this subsection requires metropolitan planning organizations designated within a single urbanized area to jointly develop planning documents, including a unified long-range transportation plan or unified TIP.";

(3) in subsection (i)(6), by adding at the end the following:

"(D) USE OF TECHNOLOGY.—A metropolitan planning organization may use social media and other web-based tools—

"(i) to further encourage public participation; and

"(ii) to solicit public feedback during the transportation planning process."; and

(4) in subsection (p), by striking "paragraphs (5)(D) and (6) of section 104(b) of this title" and inserting "section 104(b)(6)".

(b) STATEWIDE AND NONMETROPOLITAN TRANSPORTATION PLANNING.—Section 135(f)(3) of title 23, United States Code, is amended by adding at the end the following:

"(C) USE OF TECHNOLOGY.—A State may use social media and other web-based tools—

"(i) to further encourage public participation; and

"(ii) to solicit public feedback during the transportation planning process.".

(c) CONFORMING AMENDMENT.—Section 135(i) of title 23, United States Code, is amended by striking "paragraphs (5)(D) and (6) of section 104(b) of this title" and inserting "section 104(b)(6)".

(d) HOUSING COORDINATION.—Section 134 of title 23, United States Code, is amended—

(1) in subsection (a)(1), by inserting "better connect housing and employment," after "urbanized areas";

(2) in subsection (g)(3)(A), by inserting "housing," after "economic development,";

(3) in subsection (h)(1)(E), by inserting ", housing," after "growth";

(4) in subsection (i)—

(A) in paragraph (4)(B)—

(i) by redesignating clauses (iii) through (vi) as clauses (iv) through (vii), respectively; and

(ii) by inserting after clause (ii) the following:

"(iii) assumed distribution of population and housing;"; and

(B) in paragraph (6)(A), by inserting "affordable housing organizations," after "disabled,"; and

(5) in subsection (k)—

(A) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and

(B) by inserting after paragraph (3) the following:

"(4) HOUSING COORDINATION PROCESS.—

"(A) IN GENERAL.—Within a metropolitan planning area serving a transportation management area, the transportation planning process under this section may address the integration of housing, transportation, and economic development strategies through a process that provides for effective integration, based on a cooperatively developed and implemented strategy, of new and existing transportation facilities eligible for funding under this title and chapter 53 of title 49.

AMERICAN OVERSIGHT

"(B) COORDINATION IN INTEGRATED PLANNING PROCESS.—In carrying out the process described in subparagraph (A), a metropolitan planning organization may—

"(i) consult with—

"(I) State and local entities responsible for land use, economic development, housing, management of road networks, or public transportation; and

"(II) other appropriate public or private entities; and

"(ii) coordinate, to the extent practicable, with applicable State and local entities to align the goals of the process with the goals of any comprehensive housing affordability strategies established within the metropolitan planning area pursuant to section 105 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12705) and plans developed under section 5A of the United States Housing Act of 1937 (42 U.S.C. 1437c–1).

"(C) HOUSING COORDINATION PLAN.—

"(i) IN GENERAL.—A metropolitan planning organization serving a transportation management area may develop a housing coordination plan that includes projects and strategies that may be considered in the metropolitan transportation plan of the metropolitan planning organization.

"(ii) CONTENTS.—A plan described in clause (i) may—

"(I) develop regional goals for the integration of housing, transportation, and economic development strategies to—

"(aa) better connect housing and employment while mitigating commuting times;

"(bb) align transportation improvements with housing needs, such as housing supply shortages, and proposed housing development;

"(cc) align planning for housing and transportation to address needs in relationship to household incomes within the metropolitan planning area;

"(dd) expand housing and economic development within the catchment areas of existing transportation facilities and public transportation services when appropriate, including higher-density development, as locally determined;

"(ee) manage effects of growth of vehicle miles traveled experienced in the metropolitan planning area related to housing development and economic development;

"(ff) increase share of households with sufficient and affordable access to the transportation networks of the metropolitan planning area;

"(II) identify the location of existing and planned housing and employment, and transportation options that connect housing and employment; and

AMERICAN OVERSIGHT

"(III) include a comparison of transportation plans to land use management plans, including zoning plans, that may affect road use, public transportation ridership, and housing development.".

SEC. 11202. FISCAL CONSTRAINT ON LONG-RANGE TRANSPORTATION PLANS.

Not later than 1 year after the date of enactment of this Act, the Secretary shall amend section 450.324(f)(11)(v) of title 23, Code of Federal Regulations, to ensure that the outer years of a metropolitan transportation plan are defined as "beyond the first 4 years".

SEC. 11203. STATE HUMAN CAPITAL PLANS.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code (as amended by section 11132(a)), is amended by adding at the end the following:

"§ 174. State human capital plans

"(a) IN GENERAL.—Not later than 18 months after the date of enactment of this section, the Secretary shall encourage each State to develop a voluntary plan, to be known as a 'human capital plan', that provides for the immediate and long-term personnel and workforce needs of the State with respect to the capacity of the State to deliver transportation and public infrastructure eligible under this title.

"(b) PLAN CONTENTS.—

"(1) IN GENERAL.—A human capital plan developed by a State under subsection (a) shall, to the maximum extent practicable, take into consideration—

"(A) significant transportation workforce trends, needs, issues, and challenges with respect to the State;

"(B) the human capital policies, strategies, and performance measures that will guide the transportation-related workforce investment decisions of the State;

"(C) coordination with educational institutions, industry, organized labor, workforce boards, and other agencies or organizations to address the human capital transportation needs of the State;

"(D) a workforce planning strategy that identifies current and future human capital needs, including the knowledge, skills, and abilities needed to recruit and retain skilled workers in the transportation industry;

"(E) a human capital management strategy that is aligned with the transportation mission, goals, and organizational objectives of the State;

"(F) an implementation system for workforce goals focused on addressing continuity of leadership and knowledge sharing across the State;

"(G) an implementation system that addresses workforce competency gaps, particularly in mission-critical occupations;

"(H) in the case of public-private partnerships or other alternative project delivery methods to carry out the transportation program of the State, a description of workforce needs—

AMERICAN OVERSIGHT

"(i) to ensure that the transportation mission, goals, and organizational objectives of the State are fully carried out; and

"(ii) to ensure that procurement methods provide the best public value;

"(I) a system for analyzing and evaluating the performance of the State department of transportation with respect to all aspects of human capital management policies, programs, and activities; and

"(J) the manner in which the plan will improve the ability of the State to meet the national policy in support of performance management established under section 150.

"(2) PLANNING PERIOD.—If a State develops a human capital plan under subsection (a), the plan shall address a 5-year forecast period.

"(c) PLAN UPDATES.—If a State develops a human capital plan under subsection (a), the State shall update the plan not less frequently than once every 5 years.

"(d) RELATIONSHIP TO LONG-RANGE PLAN.—

"(1) IN GENERAL.—Subject to paragraph (2), a human capital plan developed by a State under subsection (a) may be developed separately from, or incorporated into, the long-range statewide transportation plan required under section 135.

"(2) EFFECT OF SECTION.—Nothing in this section requires a State, or authorizes the Secretary to require a State, to incorporate a human capital plan into the long-range statewide transportation plan required under section 135.

"(e) PUBLIC AVAILABILITY.—Each State that develops a human capital plan under subsection (a) shall make a copy of the plan available to the public in a user-friendly format on the website of the State department of transportation.

"(f) SAVINGS PROVISION.—Nothing in this section prevents a State from carrying out transportation workforce planning—

"(1) not described in this section; or

"(2) not in accordance with this section.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code (as amended by section 11132(b)), is amended by inserting after the item relating to section 173 the following:

"174. State human capital plans.".

SEC. 11204. PRIORITIZATION PROCESS PILOT PROGRAM.

(a) DEFINITIONS.—In this section:

(1) ELIGIBLE ENTITY.—The term "eligible entity" means any of the following:

(A) A metropolitan planning organization that serves an area with a population of over 200,000.

(B) A State.

(2) METROPOLITAN PLANNING ORGANIZATION.—The term "metropolitan planning organization" has the meaning given the term in section 134(b) of title 23, United States Code.

(3) PRIORITIZATION PROCESS PILOT PROGRAM.—The term "prioritization process pilot program" means the pilot program established under subsection (b)(1).

(b) ESTABLISHMENT.—

(1) IN GENERAL.—The Secretary shall establish and solicit applications for a prioritization process pilot program.

AMERICAN OVERSIGHT

(2) PURPOSE.—The purpose of the prioritization process pilot program shall be to support data-driven approaches to planning that, on completion, can be evaluated for public benefit.

(c) PILOT PROGRAM ADMINISTRATION.—

(1) IN GENERAL.—An eligible entity participating in the prioritization process pilot program shall—

(A) use priority objectives that are developed—

(i) in the case of an urbanized area with a population of over 200,000, by the metropolitan planning organization that serves the area, in consultation with the State;

(ii) in the case of an urbanized area with a population of 200,000 or fewer, by the State in consultation with all metropolitan planning organizations in the State; and

(iii) through a public process that provides an opportunity for public input;

(B) assess and score projects and strategies on the basis of—

(i) the contribution and benefits of the project or strategy to each priority objective developed under subparagraph (A);

(ii) the cost of the project or strategy relative to the contribution and benefits assessed and scored under clause (i); and

(iii) public support;

(C) use the scores assigned under subparagraph (B) to guide project selection in the development of the transportation plan and transportation improvement program; and

(D) ensure that the public—

(i) has opportunities to provide public comment on projects before decisions are made on the transportation plan and the transportation improvement program; and

(ii) has access to clear reasons why each project or strategy was selected or not selected.

(2) REQUIREMENTS.—An eligible entity that receives a grant under the prioritization process pilot program shall use the funds as described in each of the following, as applicable:

(A) METROPOLITAN TRANSPORTATION PLANNING.—In the case of a metropolitan planning organization that serves an area with a population of over 200,000, the entity shall—

(i) develop and implement a publicly accessible, transparent prioritization process for the selection of projects for inclusion on the transportation plan for the metropolitan planning area under section 134(i) of title 23, United States Code, and section 5303(i) of title 49, United States Code, which shall—

(I) include criteria identified by the metropolitan planning organization, which may be weighted to reflect the priority objectives developed under paragraph (1)(A), that the metropolitan planning organization has determined support—

AMERICAN OVERSIGHT

(aa) factors described in section 134(h) of title 23, United States Code, and section 5303(h) of title 49, United States Code;

(bb) targets for national performance measures under section 150(b) of title 23, United States Code;

(cc) applicable transportation goals in the metropolitan planning area or State set by the applicable transportation agency; and

(dd) priority objectives developed under paragraph (1)(A);

(II) evaluate the outcomes for each proposed project on the basis of the benefits of the proposed project with respect to each of the criteria described in subclause (I) relative to the cost of the proposed project; and

(III) use the evaluation under subclause (II) to create a ranked list of proposed projects; and

(ii) with respect to the priority list under section 134(j)(2)(A) of title 23 and section 5303(j)(2)(A) of title 49, United States Code, include projects according to the rank of the project under clause (i)(III), except as provided in subparagraph (D).

(B) STATEWIDE TRANSPORTATION PLANNING.—In the case of a State, the State shall—

(i) develop and implement a publicly accessible, transparent process for the selection of projects for inclusion on the long-range statewide transportation plan under section 135(f) of title 23, United States Code, which shall—

(I) include criteria identified by the State, which may be weighted to reflect statewide priorities, that the State has determined support—

(aa) factors described in section 135(d) of title 23, United States Code, and section 5304(d) of title 49, United States Code;

(bb) national transportation goals under section 150(b) of title 23, United States Code;

(cc) applicable transportation goals in the State; and

(dd) the priority objectives developed under paragraph (1)(A);

(II) evaluate the outcomes for each proposed project on the basis of the benefits of the proposed project with respect to each of the criteria described in subclause (I) relative to the cost of the proposed project; and

(III) use the evaluation under subclause (II) to create a ranked list of proposed projects; and

(ii) with respect to the statewide transportation improvement program under section 135(g) of title 23, United States Code, and section 5304(g) of title 49, United States Code, include projects according to the rank of the project under clause (i)(III), except as provided in subparagraph (D).

(C) ADDITIONAL TRANSPORTATION PLANNING.—If the eligible entity has implemented, and has in effect, the

AMERICAN OVERSIGHT

requirements under subparagraph (A) or (B), as applicable, the eligible entity may use any remaining funds from a grant provided under the pilot program for any transportation planning purpose.

(D) EXCEPTIONS TO PRIORITY RANKING.—In the case of any project that the eligible entity chooses to include or not include in the transportation improvement program under section 134(j) of title 23, United States Code, or the statewide transportation improvement program under section 135(g) of title 23, United States Code, as applicable, in a manner that is contrary to the priority ranking for that project established under subparagraph (A)(i)(III) or (B)(i)(III), the eligible entity shall make publicly available an explanation for the decision, including—

(i) a review of public comments regarding the project;

(ii) an evaluation of public support for the project;

(iii) an assessment of geographic balance of projects of the eligible entity; and

(iv) the number of projects of the eligible entity in economically distressed areas.

(3) MAXIMUM AMOUNT.—The maximum amount of a grant under the prioritization process pilot program is $2,000,000.

(d) APPLICATIONS.—To be eligible to participate in the prioritization process pilot program, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

SEC. 11205. TRAVEL DEMAND DATA AND MODELING.

(a) DEFINITION OF METROPOLITAN PLANNING ORGANIZATION.—In this section, the term "metropolitan planning organization" has the meaning given the term in section 134(b) of title 23, United States Code.

(b) STUDY.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, and not less frequently than once every 5 years thereafter, the Secretary shall carry out a study that—

(A) gathers travel data and travel demand forecasts from a representative sample of States and metropolitan planning organizations;

(B) uses the data and forecasts gathered under subparagraph (A) to compare travel demand forecasts with the observed data, including—

(i) traffic counts;

(ii) travel mode share and public transit ridership; and

(iii) vehicle occupancy measures; and

(C) uses the information described in subparagraphs (A) and (B)—

(i) to develop best practices or guidance for States and metropolitan planning organizations to use in forecasting travel demand for future investments in transportation improvements;

(ii) to evaluate the impact of transportation investments, including new roadway capacity, on travel

AMERICAN OVERSIGHT

behavior and travel demand, including public transportation ridership, induced highway travel, and congestion;

(iii) to support more accurate travel demand forecasting by States and metropolitan planning organizations; and

(iv) to enhance the capacity of States and metropolitan planning organizations—

(I) to forecast travel demand; and

(II) to track observed travel behavior responses, including induced travel, to changes in transportation capacity, pricing, and land use patterns.

(2) SECRETARIAL SUPPORT.—The Secretary shall seek opportunities to support the transportation planning processes under sections 134 and 135 of title 23, United States Code, through the provision of data to States and metropolitan planning organizations to improve the quality of plans, models, and forecasts described in this subsection.

(3) EVALUATION TOOL.—The Secretary shall develop a publicly available multimodal web-based tool for the purpose of enabling States and metropolitan planning organizations to evaluate the effect of investments in highway and public transportation projects on the use and conditions of all transportation assets within the State or area served by the metropolitan planning organization, as applicable.

SEC. 11206. INCREASING SAFE AND ACCESSIBLE TRANSPORTATION OPTIONS.

(a) DEFINITION OF COMPLETE STREETS STANDARDS OR POLICIES.—In this section, the term "Complete Streets standards or policies" means standards or policies that ensure the safe and adequate accommodation of all users of the transportation system, including pedestrians, bicyclists, public transportation users, children, older individuals, individuals with disabilities, motorists, and freight vehicles.

(b) FUNDING REQUIREMENT.—Notwithstanding any other provision of law, each State and metropolitan planning organization shall use to carry out 1 or more activities described in subsection (c)—

(1) in the case of a State, not less than 2.5 percent of the amounts made available to the State to carry out section 505 of title 23, United States Code; and

(2) in the case of a metropolitan planning organization, not less than 2.5 percent of the amounts made available to the metropolitan planning organization under section 104(d) of title 23, United States Code.

(c) ACTIVITIES DESCRIBED.—An activity referred to in subsection (b) is an activity to increase safe and accessible options for multiple travel modes for people of all ages and abilities, which, if permissible under applicable State and local laws, may include—

(1) adoption of Complete Streets standards or policies;

(2) development of a Complete Streets prioritization plan that identifies a specific list of Complete Streets projects to improve the safety, mobility, or accessibility of a street;

(3) development of transportation plans—

AMERICAN OVERSIGHT

(A) to create a network of active transportation facilities, including sidewalks, bikeways, or pedestrian and bicycle trails, to connect neighborhoods with destinations such as workplaces, schools, residences, businesses, recreation areas, healthcare and child care services, or other community activity centers;

(B) to integrate active transportation facilities with public transportation service or improve access to public transportation;

(C) to create multiuse active transportation infrastructure facilities, including bikeways or pedestrian and bicycle trails, that make connections within or between communities;

(D) to increase public transportation ridership; and

(E) to improve the safety of bicyclists and pedestrians;

(4) regional and megaregional planning to address travel demand and capacity constraints through alternatives to new highway capacity, including through intercity passenger rail; and

(5) development of transportation plans and policies that support transit-oriented development.

(d) FEDERAL SHARE.—The Federal share of the cost of an activity carried out under this section shall be 80 percent, unless the Secretary determines that the interests of the Federal-aid highway program would be best served by decreasing or eliminating the non-Federal share.

(e) STATE FLEXIBILITY.—A State or metropolitan planning organization, with the approval of the Secretary, may opt out of the requirements of this section if the State or metropolitan planning organization demonstrates to the Secretary, by not later than 30 days before the Secretary apportions funds for a fiscal year under section 104, that the State or metropolitan planning organization—

(1) has Complete Streets standards and policies in place; and

(2) has developed an up-to-date Complete Streets prioritization plan as described in subsection (c)(2).

Subtitle C—Project Delivery and Process Improvement

SEC. 11301. CODIFICATION OF ONE FEDERAL DECISION.

(a) IN GENERAL.—Section 139 of title 23, United States Code, is amended—

(1) in the section heading, by striking "**decisionmaking**" and inserting "**decisionmaking and One Federal Decision**";

(2) in subsection (a)—

(A) by redesignating paragraphs (2) through (8) as paragraphs (4), (5), (6), (8), (9), (10), and (11), respectively;

(B) by inserting after paragraph (1) the following:

"(2) AUTHORIZATION.—The term 'authorization' means any environmental license, permit, approval, finding, or other administrative decision related to the environmental review process that is required under Federal law to site, construct, or reconstruct a project.

AMERICAN OVERSIGHT

"(3) ENVIRONMENTAL DOCUMENT.—The term 'environmental document' includes an environmental assessment, finding of no significant impact, notice of intent, environmental impact statement, or record of decision under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).";

(C) in subparagraph (B) of paragraph (5) (as so redesignated), by striking "process for and completion of any environmental permit" and inserting "process and schedule, including a timetable for and completion of any environmental permit"; and

(D) by inserting after paragraph (6) (as so redesignated) the following:

"(7) MAJOR PROJECT.—

"(A) IN GENERAL.—The term 'major project' means a project for which—

"(i) multiple permits, approvals, reviews, or studies are required under a Federal law other than the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

"(ii) the project sponsor has identified the reasonable availability of funds sufficient to complete the project;

"(iii) the project is not a covered project (as defined in section 41001 of the FAST Act (42 U.S.C. 4370m)); and

"(iv)(I) the head of the lead agency has determined that an environmental impact statement is required; or

"(II) the head of the lead agency has determined that an environmental assessment is required, and the project sponsor requests that the project be treated as a major project.

"(B) CLARIFICATION.—In this section, the term 'major project' does not have the same meaning as the term 'major project' as described in section 106(h).";

(3) in subsection (b)(1)—

(A) by inserting ", including major projects," after "all projects"; and

(B) by inserting "as requested by a project sponsor and" after "applied,";

(4) in subsection (c)—

(A) in paragraph (6)—

(i) in subparagraph (B), by striking "and" at the end;

(ii) in subparagraph (C), by striking the period at the end and inserting "; and"; and

(iii) by adding at the end the following:

"(D) to calculate annually the average time taken by the lead agency to complete all environmental documents for each project during the previous fiscal year."; and

(B) by adding at the end the following:

"(7) PROCESS IMPROVEMENTS FOR PROJECTS.—

"(A) IN GENERAL.—The Secretary shall review—

"(i) existing practices, procedures, rules, regulations, and applicable laws to identify impediments to meeting the requirements applicable to projects under this section; and

AMERICAN OVERSIGHT

"(ii) best practices, programmatic agreements, and potential changes to internal departmental procedures that would facilitate an efficient environmental review process for projects.

"(B) CONSULTATION.—In conducting the review under subparagraph (A), the Secretary shall consult, as appropriate, with the heads of other Federal agencies that participate in the environmental review process.

"(C) REPORT.—Not later than 2 years after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that includes—

"(i) the results of the review under subparagraph (A); and

"(ii) an analysis of whether additional funding would help the Secretary meet the requirements applicable to projects under this section.";

(5) in subsection (d)—

(A) in paragraph (8)—

(i) in the paragraph heading, by striking "NEPA" and inserting "ENVIRONMENTAL";

(ii) in subparagraph (A)—

(I) by inserting "and except as provided in subparagraph (D)" after "paragraph (7)";

(II) by striking "permits" and inserting "authorizations"; and

(III) by striking "single environment document" and inserting "single environmental document for each kind of environmental document";

(iii) in subparagraph (B)(i)—

(I) by striking "an environmental document" and inserting "environmental documents"; and

(II) by striking "permits issued" and inserting "authorizations"; and

(iv) by adding at the end the following:

"(D) EXCEPTIONS.—The lead agency may waive the application of subparagraph (A) with respect to a project if—

"(i) the project sponsor requests that agencies issue separate environmental documents;

"(ii) the obligations of a cooperating agency or participating agency under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) have already been satisfied with respect to the project; or

"(iii) the lead agency determines that reliance on a single environmental document (as described in subparagraph (A)) would not facilitate timely completion of the environmental review process for the project."; and

(B) by adding at the end the following:

"(10) TIMELY AUTHORIZATIONS FOR MAJOR PROJECTS.—

"(A) DEADLINE.—Except as provided in subparagraph (C), all authorization decisions necessary for the construction of a major project shall be completed by not later

AMERICAN OVERSIGHT

than 90 days after the date of the issuance of a record of decision for the major project.

"(B) DETAIL.—The final environmental impact statement for a major project shall include an adequate level of detail to inform decisions necessary for the role of the participating agencies and cooperating agencies in the environmental review process.

"(C) EXTENSION OF DEADLINE.—The head of the lead agency may extend the deadline under subparagraph (A) if—

"(i) Federal law prohibits the lead agency or another agency from issuing an approval or permit within the period described in that subparagraph;

"(ii) the project sponsor requests that the permit or approval follow a different timeline; or

"(iii) an extension would facilitate completion of the environmental review and authorization process of the major project.";

(6) in subsection (g)(1)—

(A) in subparagraph (B)—

(i) in clause (ii)(IV), by striking "schedule for and cost of" and inserting "time required by an agency to conduct an environmental review and make decisions under applicable Federal law relating to a project (including the issuance or denial of a permit or license) and the cost of"; and

(ii) by adding at the end the following:

"(iii) MAJOR PROJECT SCHEDULE.—To the maximum extent practicable and consistent with applicable Federal law, in the case of a major project, the lead agency shall develop, in concurrence with the project sponsor, a schedule for the major project that is consistent with an agency average of not more than 2 years for the completion of the environmental review process for major projects, as measured from, as applicable—

"(I) the date of publication of a notice of intent to prepare an environmental impact statement to the record of decision; or

"(II) the date on which the head of the lead agency determines that an environmental assessment is required to a finding of no significant impact.";

(B) by striking subparagraph (D) and inserting the following:

"(D) MODIFICATION.—

"(i) IN GENERAL.—Except as provided in clause (ii), the lead agency may lengthen or shorten a schedule established under subparagraph (B) for good cause.

"(ii) EXCEPTIONS.—

"(I) MAJOR PROJECTS.—In the case of a major project, the lead agency may lengthen a schedule under clause (i) for a cooperating Federal agency by not more than 1 year after the latest deadline established for the major project by the lead agency.

"(II) SHORTENED SCHEDULES.—The lead agency may not shorten a schedule under clause

AMERICAN OVERSIGHT

(i) if doing so would impair the ability of a cooperating Federal agency to conduct necessary analyses or otherwise carry out relevant obligations of the Federal agency for the project.";

(C) by redesignating subparagraph (E) as subparagraph (F); and

(D) by inserting after subparagraph (D) the following:

"(E) FAILURE TO MEET DEADLINE.—If a cooperating Federal agency fails to meet a deadline established under subparagraph (D)(ii)(I)—

"(i) the cooperating Federal agency shall submit to the Secretary a report that describes the reasons why the deadline was not met; and

"(ii) the Secretary shall—

"(I) transmit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a copy of the report under clause (i); and

"(II) make the report under clause (i) publicly available on the internet.";

(7) in subsection (n), by adding at the end the following:

"(3) LENGTH OF ENVIRONMENTAL DOCUMENT.—

"(A) IN GENERAL.—Notwithstanding any other provision of law and except as provided in subparagraph (B), to the maximum extent practicable, the text of the items described in paragraphs (4) through (6) of section 1502.10(a) of title 40, Code of Federal Regulations (or successor regulations), of an environmental impact statement for a project shall be 200 pages or fewer.

"(B) EXEMPTION.—An environmental impact statement for a project may exceed 200 pages, if the lead agency establishes a new page limit for the environmental impact statement for that project."; and

(8) by adding at the end the following:

"(p) ACCOUNTABILITY AND REPORTING FOR MAJOR PROJECTS.—

"(1) IN GENERAL.—The Secretary shall establish a performance accountability system to track each major project.

"(2) REQUIREMENTS.—The performance accountability system under paragraph (1) shall, for each major project, track, at a minimum—

"(A) the environmental review process for the major project, including the project schedule;

"(B) whether the lead agency, cooperating agencies, and participating agencies are meeting the schedule established for the environmental review process; and

"(C) the time taken to complete the environmental review process.

"(q) DEVELOPMENT OF CATEGORICAL EXCLUSIONS.—

"(1) IN GENERAL.—Not later than 60 days after the date of enactment of this subsection, and every 4 years thereafter, the Secretary shall—

"(A) in consultation with the agencies described in paragraph (2), identify the categorical exclusions described in section 771.117 of title 23, Code of Federal Regulations (or successor regulations), that would accelerate delivery

AMERICAN OVERSIGHT

of a project if those categorical exclusions were available to those agencies;

"(B) collect existing documentation and substantiating information on the categorical exclusions described in subparagraph (A); and

"(C) provide to each agency described in paragraph (2)—

"(i) a list of the categorical exclusions identified under subparagraph (A); and

"(ii) the documentation and substantiating information under subparagraph (B).

"(2) AGENCIES DESCRIBED.—The agencies referred to in paragraph (1) are—

"(A) the Department of the Interior;

"(B) the Department of the Army;

"(C) the Department of Commerce;

"(D) the Department of Agriculture;

"(E) the Department of Energy;

"(F) the Department of Defense; and

"(G) any other Federal agency that has participated in an environmental review process for a project, as determined by the Secretary.

"(3) ADOPTION OF CATEGORICAL EXCLUSIONS.—

"(A) IN GENERAL.—Not later than 1 year after the date on which the Secretary provides a list under paragraph (1)(C), an agency described in paragraph (2) shall publish a notice of proposed rulemaking to propose any categorical exclusions from the list applicable to the agency, subject to the condition that the categorical exclusion identified under paragraph (1)(A) meets the criteria for a categorical exclusion under section 1508.1 of title 40, Code of Federal Regulations (or successor regulations).

"(B) PUBLIC COMMENT.—In a notice of proposed rulemaking under subparagraph (A), the applicable agency may solicit comments on whether any of the proposed new categorical exclusions meet the criteria for a categorical exclusion under section 1508.1 of title 40, Code of Federal Regulations (or successor regulations).".

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by striking the item relating to section 139 and inserting the following:

"139. Efficient environmental reviews for project decisionmaking and One Federal Decision.".

SEC. 11302. WORK ZONE PROCESS REVIEWS.

The Secretary shall amend section 630.1008(e) of title 23, Code of Federal Regulations, to ensure that the work zone process review under that subsection is required not more frequently than once every 5 years.

SEC. 11303. TRANSPORTATION MANAGEMENT PLANS.

(a) IN GENERAL.—The Secretary shall amend section 630.1010(c) of title 23, Code of Federal Regulations, to ensure that only a project described in that subsection with a lane closure for 3 or more consecutive days shall be considered to be a significant project for purposes of that section.

AMERICAN OVERSIGHT

(b) NON-INTERSTATE PROJECTS.—Notwithstanding any other provision of law, a State shall not be required to develop or implement a transportation management plan (as described in section 630.1012 of title 23, Code of Federal Regulations (or successor regulations)) for a highway project not on the Interstate System if the project requires not more than 3 consecutive days of lane closures.

SEC. 11304. INTELLIGENT TRANSPORTATION SYSTEMS.

(a) IN GENERAL.—The Secretary shall develop guidance for using existing flexibilities with respect to the systems engineering analysis described in part 940 of title 23, Code of Federal Regulations (or successor regulations).

(b) IMPLEMENTATION.—The Secretary shall ensure that any guidance developed under subsection (a)—

(1) clearly identifies criteria for low-risk and exempt intelligent transportation systems projects, with a goal of minimizing unnecessary delay or paperwork burden;

(2) is consistently implemented by the Department nationwide; and

(3) is disseminated to Federal-aid recipients.

(c) SAVINGS PROVISION.—Nothing in this section prevents the Secretary from amending part 940 of title 23, Code of Federal Regulations (or successor regulations), to reduce State administrative burdens.

SEC. 11305. ALTERNATIVE CONTRACTING METHODS.

(a) ALTERNATIVE CONTRACTING METHODS FOR FEDERAL LAND MANAGEMENT AGENCIES AND TRIBAL GOVERNMENTS.—Section 201 of title 23, United States Code, is amended by adding at the end the following:

"(f) ALTERNATIVE CONTRACTING METHODS.—

"(1) IN GENERAL.—Notwithstanding any other provision of law (including the Federal Acquisition Regulation), a contracting method available to a State under this title may be used by the Secretary, on behalf of—

"(A) a Federal land management agency, in using any funds pursuant to section 203, 204, or 308;

"(B) a Federal land management agency, in using any funds pursuant to section 1535 of title 31 for any of the eligible uses described in sections 203(a)(1) and 204(a)(1) and paragraphs (1) and (2) of section 308(a); or

"(C) a Tribal government, in using funds pursuant to section 202(b)(7)(D).

"(2) METHODS DESCRIBED.—The contracting methods referred to in paragraph (1) shall include, at a minimum—

"(A) project bundling;

"(B) bridge bundling;

"(C) design-build contracting;

"(D) 2-phase contracting;

"(E) long-term concession agreements; and

"(F) any method tested, or that could be tested, under an experimental program relating to contracting methods carried out by the Secretary.

"(3) EFFECT.—Nothing in this subsection—

"(A) affects the application of the Federal share for the project carried out with a contracting method under this subsection; or

AMERICAN OVERSIGHT

"(B) modifies the point of obligation of Federal salaries and expenses.".

(b) COOPERATION WITH FEDERAL AND STATE AGENCIES AND FOREIGN COUNTRIES.—Section 308(a) of title 23, United States Code, is amended by adding at the end the following:

"(4) ALTERNATIVE CONTRACTING METHODS.—

"(A) IN GENERAL.—Notwithstanding any other provision of law (including the Federal Acquisition Regulation), in performing services under paragraph (1), the Secretary may use any contracting method available to a State under this title.

"(B) METHODS DESCRIBED.—The contracting methods referred to in subparagraph (A) shall include, at a minimum—

"(i) project bundling;

"(ii) bridge bundling;

"(iii) design-build contracting;

"(iv) 2-phase contracting;

"(v) long-term concession agreements; and

"(vi) any method tested, or that could be tested, under an experimental program relating to contracting methods carried out by the Secretary.".

(c) USE OF ALTERNATIVE CONTRACTING METHODS.—In carrying out an alternative contracting method under section 201(f) or 308(a)(4) of title 23, United States Code, the Secretary shall—

(1) in consultation with the applicable Federal land management agencies, establish clear procedures that are—

(A) applicable to the alternative contracting method; and

(B) to the maximum extent practicable, consistent with the requirements applicable to Federal procurement transactions;

(2) solicit input on the use of the alternative contracting method from the affected industry prior to using the method; and

(3) analyze and prepare an evaluation of the use of the alternative contracting method.

SEC. 11306. FLEXIBILITY FOR PROJECTS.

Section 1420 of the FAST Act (23 U.S.C. 101 note; Public Law 114–94) is amended—

(1) in subsection (a), by striking "and on request by a State, the Secretary may" in the matter preceding paragraph (1) and all that follows through the period at the end of paragraph (2) and inserting the following: ", on request by a State, and if in the public interest (as determined by the Secretary), the Secretary shall exercise all existing flexibilities under—

"(1) the requirements of title 23, United States Code; and

"(2) other requirements administered by the Secretary, in whole or in part."; and

(2) in subsection (b)(2)(A), by inserting "(including regulations)" after "environmental law".

SEC. 11307. IMPROVED FEDERAL-STATE STEWARDSHIP AND OVERSIGHT AGREEMENTS.

(a) DEFINITION OF TEMPLATE.—In this section, the term "template" means a template created by the Secretary for Federal-State stewardship and oversight agreements that—

AMERICAN OVERSIGHT

(1) includes all standard terms found in stewardship and oversight agreements, including any terms in an attachment to the agreement;

(2) is developed in accordance with section 106 of title 23, United States Code, or any other applicable authority; and

(3) may be developed with consideration of relevant regulations, guidance, or policies.

(b) REQUEST FOR COMMENT.—

(1) IN GENERAL.—Not later than 60 days after the date of enactment of this Act, the Secretary shall publish in the Federal Register the template and a notice requesting public comment on ways to improve the template.

(2) COMMENT PERIOD.—The Secretary shall provide a period of not less than 60 days for public comment on the notice under paragraph (1).

(3) CERTAIN ISSUES.—The notice under paragraph (1) shall allow comment on any aspect of the template and shall specifically request public comment on—

(A) whether the template should be revised to delete standard terms requiring approval by the Secretary of the policies, procedures, processes, or manuals of the States, or other State actions, if Federal law (including regulations) does not specifically require an approval;

(B) opportunities to modify the template to allow adjustments to the review schedules for State practices or actions, including through risk-based approaches, program reviews, process reviews, or other means; and

(C) any other matters that the Secretary determines to be appropriate.

(c) NOTICE OF ACTION; UPDATES.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, after considering the comments received in response to the Federal Register notice under subsection (b), the Secretary shall publish in the Federal Register a notice that—

(A) describes any proposed changes to be made, and any alternatives to such changes, to the template;

(B) addresses comments in response to which changes were not made to the template; and

(C) prescribes a schedule and a plan to execute a process for implementing the changes referred to in subparagraph (A).

(2) APPROVAL REQUIREMENTS.—In addressing comments under paragraph (1)(B), the Secretary shall include an explanation of the basis for retaining any requirement for approval of State policies, procedures, processes, or manuals, or other State actions, if Federal law (including regulations) does not specifically require the approval.

(3) IMPLEMENTATION.—

(A) IN GENERAL.—Not later than 60 days after the date on which the notice under paragraph (1) is published, the Secretary shall make changes to the template in accordance with—

(i) the changes described in the notice under paragraph (1)(A); and

AMERICAN OVERSIGHT

(ii) the schedule and plan described in the notice under paragraph (1)(C).

(B) UPDATES.—Not later than 1 year after the date on which the revised template under subparagraph (A) is published, the Secretary shall update existing agreements with States according to the template updated under subparagraph (A).

(d) INCLUSION OF NON-STANDARD TERMS.—Nothing in this section precludes the inclusion in a Federal-State stewardship and oversight agreement of non-standard terms to address a State-specific matter, including risk-based stewardship and Department oversight involvement in individual projects of division interest.

(e) COMPLIANCE WITH NON-STATUTORY TERMS.—

(1) IN GENERAL.—The Secretary shall not enforce or otherwise require a State to comply with approval requirements that are not required by Federal law (including regulations) in a Federal-State stewardship and oversight agreement.

(2) APPROVAL AUTHORITY.—Notwithstanding any other provision of law, the Secretary shall not assert approval authority over any matter in a Federal-State stewardship and oversight agreement reserved to States.

(f) FREQUENCY OF REVIEWS.—Section 106(g)(3) of title 23, United States Code, is amended—

(1) by striking "annual";

(2) by striking "The Secretary" and inserting the following:

"(A) IN GENERAL.—The Secretary"; and

(3) by adding at the end the following:

"(B) FREQUENCY.—

"(i) IN GENERAL.—Except as provided in clauses (ii) and (iii), the Secretary shall carry out a review under subparagraph (A) not less frequently than once every 2 years.

"(ii) CONSULTATION WITH STATE.—The Secretary, after consultation with a State, may make a determination to carry out a review under subparagraph (A) for that State less frequently than provided under clause (i).

"(iii) CAUSE.—If the Secretary determines that there is a specific reason to require a review more frequently than provided under clause (i) with respect to a State, the Secretary may carry out a review more frequently than provided under that clause.".

SEC. 11308. GEOMATIC DATA.

(a) IN GENERAL.—The Secretary shall develop guidance for the acceptance and use of information obtained from a non-Federal entity through geomatic techniques, including remote sensing and land surveying, cartography, geographic information systems, global navigation satellite systems, photogrammetry, or other remote means.

(b) CONSIDERATIONS.—In carrying out this section, the Secretary shall ensure that acceptance or use of information described in subsection (a) meets the data quality and operational requirements of the Secretary.

(c) PUBLIC COMMENT.—Before issuing any final guidance under subsection (a), the Secretary shall provide to the public—

(1) notice of the proposed guidance; and

AMERICAN OVERSIGHT

(2) an opportunity to comment on the proposed guidance.

(d) SAVINGS CLAUSE.—Nothing in this section—

(1) requires the Secretary to accept or use information that the Secretary determines does not meet the guidance developed under this section; or

(2) changes the current statutory or regulatory requirements of the Department.

SEC. 11309. EVALUATION OF PROJECTS WITHIN AN OPERATIONAL RIGHT-OF-WAY.

(a) IN GENERAL.—Chapter 3 of title 23, United States Code, is amended by adding at the end the following:

"§ 331. Evaluation of projects within an operational right-of-way

"(a) DEFINITIONS.—

"(1) ELIGIBLE PROJECT OR ACTIVITY.—

"(A) IN GENERAL.—In this section, the term 'eligible project or activity' means a project or activity within an existing operational right-of-way (as defined in section 771.117(c)(22) of title 23, Code of Federal Regulations (or successor regulations))—

"(i)(I) eligible for assistance under this title; or

"(II) administered as if made available under this title;

"(ii) that is—

"(I) a preventive maintenance, preservation, or highway safety improvement project (as defined in section 148(a)); or

"(II) a new turn lane that the State advises in writing to the Secretary would assist public safety; and

"(iii) that—

"(I) is classified as a categorical exclusion under section 771.117 of title 23, Code of Federal Regulations (or successor regulations); or

"(II) if the project or activity does not receive assistance described in clause (i) would be considered a categorical exclusion if the project or activity received assistance described in clause (i).

"(B) EXCLUSION.—The term 'eligible project or activity' does not include a project to create a new travel lane.

"(2) PRELIMINARY EVALUATION.—The term 'preliminary evaluation', with respect to an application described in subsection (b)(1), means an evaluation that is customary or practicable for the relevant agency to complete within a 45-day period for similar applications.

"(3) RELEVANT AGENCY.—The term 'relevant agency' means a Federal agency, other than the Federal Highway Administration, with responsibility for review of an application from a State for a permit, approval, or jurisdictional determination for an eligible project or activity.

"(b) ACTION REQUIRED.—

"(1) IN GENERAL.—Subject to paragraph (2), not later than 45 days after the date of receipt of an application by a State for a permit, approval, or jurisdictional determination for an

AMERICAN OVERSIGHT

eligible project or activity, the head of the relevant agency shall—

"(A) make at least a preliminary evaluation of the application; and

"(B) notify the State of the results of the preliminary evaluation under subparagraph (A).

"(2) EXTENSION.—The head of the relevant agency may extend the review period under paragraph (1) by not more than 30 days if the head of the relevant agency provides to the State written notice that includes an explanation of the need for the extension.

"(3) FAILURE TO ACT.—If the head of the relevant agency fails to meet a deadline under paragraph (1) or (2), as applicable, the head of the relevant agency shall—

"(A) not later than 30 days after the date of the missed deadline, submit to the State, the Committee on Environment and Public Works of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes why the deadline was missed; and

"(B) not later than 14 days after the date on which a report is submitted under subparagraph (A), make publicly available, including on the internet, a copy of that report.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 3 of title 23, United States Code, is amended by adding at the end the following:

"331. Evaluation of projects within an operational right-of-way.".

SEC. 11310. PRELIMINARY ENGINEERING.

(a) IN GENERAL.—Section 102 of title 23, United States Code, is amended—

(1) by striking subsection (b); and

(2) in subsection (a), in the second sentence, by striking "Nothing in this subsection" and inserting the following:

"(b) SAVINGS PROVISION.—Nothing in this section".

(b) CONFORMING AMENDMENT.—Section 144(j) of title 23, United States Code, is amended by striking paragraph (6).

SEC. 11311. EFFICIENT IMPLEMENTATION OF NEPA FOR FEDERAL LAND MANAGEMENT PROJECTS.

Section 203 of title 23, United States Code, is amended by adding at the end the following:

"(e) EFFICIENT IMPLEMENTATION OF NEPA.—

"(1) DEFINITIONS.—In this subsection:

"(A) ENVIRONMENTAL DOCUMENT.—The term 'environmental document' means an environmental impact statement, environmental assessment, categorical exclusion, or other document prepared under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

"(B) PROJECT.—The term 'project' means a highway project, public transportation capital project, or multimodal project that—

"(i) receives funds under this title; and

"(ii) is authorized under this section or section 204.

AMERICAN OVERSIGHT

"(C) PROJECT SPONSOR.—The term 'project sponsor' means the Federal land management agency that seeks or receives funds under this title for a project.

"(2) ENVIRONMENTAL REVIEW TO BE COMPLETED BY FEDERAL HIGHWAY ADMINISTRATION.—The Federal Highway Administration may prepare an environmental document pursuant to the implementing procedures of the Federal Highway Administration to comply with the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) if—

"(A) requested by a project sponsor; and

"(B) all areas of analysis required by the project sponsor can be addressed.

"(3) FEDERAL LAND MANAGEMENT AGENCIES ADOPTION OF EXISTING ENVIRONMENTAL REVIEW DOCUMENTS.—

"(A) IN GENERAL.—To the maximum extent practicable, if the Federal Highway Administration prepares an environmental document pursuant to paragraph (2), that environmental document shall address all areas of analysis required by a Federal land management agency.

"(B) INDEPENDENT EVALUATION.—Notwithstanding any other provision of law, a Federal land management agency shall not be required to conduct an independent evaluation to determine the adequacy of an environmental document prepared by the Federal Highway Administration pursuant to paragraph (2).

"(C) USE OF SAME DOCUMENT.—In authorizing or implementing a project, a Federal land management agency may use an environmental document previously prepared by the Federal Highway Administration for a project addressing the same or substantially the same action to the same extent that the Federal land management agency could adopt or use a document previously prepared by another Federal agency.

"(4) APPLICATION BY FEDERAL LAND MANAGEMENT AGENCIES OF CATEGORICAL EXCLUSIONS ESTABLISHED BY FEDERAL HIGHWAY ADMINISTRATION.—In carrying out requirements under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) for a project, the project sponsor may use categorical exclusions designated under that Act in the implementing regulations of the Federal Highway Administration, subject to the conditions that—

"(A) the project sponsor makes a determination, in consultation with the Federal Highway Administration, that the categorical exclusion applies to the project;

"(B) the project satisfies the conditions for a categorical exclusion under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

"(C) the use of the categorical exclusion does not otherwise conflict with the implementing regulations of the project sponsor, except any list of the project sponsor that designates categorical exclusions.

"(5) MITIGATION COMMITMENTS.—The Secretary shall assist the Federal land management agency with all design and mitigation commitments made jointly by the Secretary and the project sponsor in any environmental document prepared by the Secretary in accordance with this subsection.".

AMERICAN OVERSIGHT

SEC. 11312. NATIONAL ENVIRONMENTAL POLICY ACT OF 1969 REPORTING PROGRAM.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by inserting after section 156 the following:

"§ 157. National Environmental Policy Act of 1969 reporting program

"(a) DEFINITIONS.—In this section:

"(1) CATEGORICAL EXCLUSION.—The term 'categorical exclusion' has the meaning given the term in section 771.117(c) of title 23, Code of Federal Regulations (or a successor regulation).

"(2) DOCUMENTED CATEGORICAL EXCLUSION.—The term 'documented categorical exclusion' has the meaning given the term in section 771.117(d) of title 23, Code of Federal Regulations (or a successor regulation).

"(3) ENVIRONMENTAL ASSESSMENT.—The term 'environmental assessment' has the meaning given the term in section 1508.1 of title 40, Code of Federal Regulations (or a successor regulation).

"(4) ENVIRONMENTAL IMPACT STATEMENT.—The term 'environmental impact statement' means a detailed statement required under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

"(5) FEDERAL AGENCY.—The term 'Federal agency' includes a State that has assumed responsibility under section 327.

"(6) NEPA PROCESS.—The term 'NEPA process' means the entirety of the development and documentation of the analysis required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), including the assessment and analysis of any impacts, alternatives, and mitigation of a proposed action, and any interagency participation and public involvement required to be carried out before the Secretary undertakes a proposed action.

"(7) PROPOSED ACTION.—The term 'proposed action' means an action (within the meaning of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.)) under this title that the Secretary proposes to carry out.

"(8) REPORTING PERIOD.—The term 'reporting period' means the fiscal year prior to the fiscal year in which a report is issued under subsection (b).

"(9) SECRETARY.—The term 'Secretary' includes the governor or head of an applicable State agency of a State that has assumed responsibility under section 327.

"(b) REPORT ON NEPA DATA.—

"(1) IN GENERAL.—The Secretary shall carry out a process to track, and annually submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report containing, the information described in paragraph (3).

"(2) TIME TO COMPLETE.—For purposes of paragraph (3), the NEPA process—

"(A) for an environmental impact statement—

"(i) begins on the date on which the Notice of Intent is published in the Federal Register; and

AMERICAN OVERSIGHT

"(ii) ends on the date on which the Secretary issues a record of decision, including, if necessary, a revised record of decision; and

"(B) for an environmental assessment—

"(i) begins on the date on which the Secretary makes a determination to prepare an environmental assessment; and

"(ii) ends on the date on which the Secretary issues a finding of no significant impact or determines that preparation of an environmental impact statement is necessary.

"(3) INFORMATION DESCRIBED.—The information referred to in paragraph (1) is, with respect to the Department of Transportation—

"(A) the number of proposed actions for which a categorical exclusion was issued during the reporting period;

"(B) the number of proposed actions for which a documented categorical exclusion was issued by the Department of Transportation during the reporting period;

"(C) the number of proposed actions pending on the date on which the report is submitted for which the issuance of a documented categorical exclusion by the Department of Transportation is pending;

"(D) the number of proposed actions for which an environmental assessment was issued by the Department of Transportation during the reporting period;

"(E) the length of time the Department of Transportation took to complete each environmental assessment described in subparagraph (D);

"(F) the number of proposed actions pending on the date on which the report is submitted for which an environmental assessment is being drafted by the Department of Transportation;

"(G) the number of proposed actions for which an environmental impact statement was completed by the Department of Transportation during the reporting period;

"(H) the length of time that the Department of Transportation took to complete each environmental impact statement described in subparagraph (G);

"(I) the number of proposed actions pending on the date on which the report is submitted for which an environmental impact statement is being drafted; and

"(J) for the proposed actions reported under subparagraphs (F) and (I), the percentage of those proposed actions for which—

"(i) funding has been identified; and

"(ii) all other Federal, State, and local activities that are required to allow the proposed action to proceed are completed.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by inserting after the item relating to section 156 the following:

"157. National Environmental Policy Act of 1969 reporting program.".

SEC. 11313. SURFACE TRANSPORTATION PROJECT DELIVERY PROGRAM WRITTEN AGREEMENTS.

Section 327 of title 23, United States Code, is amended—

AMERICAN OVERSIGHT

(1) in subsection (a)(2)(G), by inserting ", including the payment of fees awarded under section 2412 of title 28" before the period at the end;

(2) in subsection (c)—

(A) by striking paragraph (5) and inserting the following:

"(5) except as provided under paragraph (7), have a term of not more than 5 years;";

(B) in paragraph (6), by striking the period at the end and inserting "; and"; and

(C) by adding at the end the following:

"(7) for any State that has participated in a program under this section (or under a predecessor program) for at least 10 years, have a term of 10 years.";

(3) in subsection (g)(1)—

(A) in subparagraph (B), by striking "and" at the end;

(B) in subparagraph (C), by striking "annual";

(C) by redesignating subparagraph (C) as subparagraph (D); and

(D) by inserting after subparagraph (B) the following:

"(C) in the case of an agreement period of greater than 5 years pursuant to subsection (c)(7), conduct an audit covering the first 5 years of the agreement period; and"; and

(4) by adding at the end the following:

"(m) AGENCY DEEMED TO BE FEDERAL AGENCY.—A State agency that is assigned a responsibility under an agreement under this section shall be deemed to be an agency for the purposes of section 2412 of title 28.".

SEC. 11314. STATE ASSUMPTION OF RESPONSIBILITY FOR CATEGORICAL EXCLUSIONS.

Section 326(c)(3) of title 23, United States Code, is amended—

(1) by striking subparagraph (A) and inserting the following:

"(A) except as provided under subparagraph (C), shall have a term of not more than 3 years;";

(2) in subparagraph (B), by striking the period at the end and inserting "; and"; and

(3) by adding at the end the following:

"(C) shall have a term of 5 years, in the case of a State that has assumed the responsibility for categorical exclusions under this section for not fewer than 10 years.".

SEC. 11315. EARLY UTILITY RELOCATION PRIOR TO TRANSPORTATION PROJECT ENVIRONMENTAL REVIEW.

Section 123 of title 23, United States Code, is amended to read as follows:

"§ 123. Relocation of utility facilities

"(a) DEFINITIONS.—In this section:

"(1) COST OF RELOCATION.—The term 'cost of relocation' includes the entire amount paid by a utility properly attributable to the relocation of a utility facility, minus any increase in the value of the new facility and any salvage value derived from the old facility.

"(2) EARLY UTILITY RELOCATION PROJECT.—The term 'early utility relocation project' means utility relocation activities

AMERICAN OVERSIGHT

identified by the State for performance before completion of the environmental review process for the transportation project.

"(3) ENVIRONMENTAL REVIEW PROCESS.—The term 'environmental review process' has the meaning given the term in section 139(a).

"(4) TRANSPORTATION PROJECT.—The term 'transportation project' means a project.

"(5) UTILITY FACILITY.—The term 'utility facility' means any privately, publicly, or cooperatively owned line, facility, or system for producing, transmitting, or distributing communications, power, electricity, light, heat, gas, oil, crude products, water, steam, waste, stormwater not connected with highway drainage, or any other similar commodity, including any fire or police signal system or street lighting system, that directly or indirectly serves the public.

"(6) UTILITY RELOCATION ACTIVITY.—The term 'utility relocation activity' means an activity necessary for the relocation of a utility facility, including preliminary and final design, surveys, real property acquisition, materials acquisition, and construction.

"(b) REIMBURSEMENT TO STATES.—

"(1) IN GENERAL.—If a State pays for the cost of relocation of a utility facility necessitated by the construction of a transportation project, Federal funds may be used to reimburse the State for the cost of relocation in the same proportion as Federal funds are expended on the transportation project.

"(2) LIMITATION.—Federal funds shall not be used to reimburse a State under this section if the payment to the utility—

"(A) violates the law of the State; or

"(B) violates a legal contract between the utility and the State.

"(3) REQUIREMENT.—A reimbursement under paragraph (1) shall be made only if the State demonstrates to the satisfaction of the Secretary that the State paid the cost of the utility relocation activity from funds of the State with respect to transportation projects for which Federal funds are obligated subsequent to April 16, 1958, for work, including utility relocation activities.

"(4) REIMBURSEMENT ELIGIBILITY FOR EARLY RELOCATION PRIOR TO TRANSPORTATION PROJECT ENVIRONMENTAL REVIEW PROCESS.—

"(A) IN GENERAL.—In addition to the requirements under paragraphs (1) through (3), a State may carry out, at the expense of the State, an early utility relocation project for a transportation project before completion of the environmental review process for the transportation project.

"(B) REQUIREMENTS FOR REIMBURSEMENT.—Funds apportioned to a State under this title may be used to pay the costs incurred by the State for an early utility relocation project only if the State demonstrates to the Secretary, and the Secretary finds that—

"(i) the early utility relocation project is necessary to accommodate a transportation project;

AMERICAN OVERSIGHT

"(ii) the State provides adequate documentation to the Secretary of eligible costs incurred by the State for the early utility relocation project;

"(iii) before the commencement of the utility relocation activities, an environmental review process was completed for the early utility relocation project that resulted in a finding that the early utility relocation project—

"(I) would not result in significant adverse environmental impacts; and

"(II) would comply with other applicable Federal environmental requirements;

"(iv) the early utility relocation project did not influence—

"(I) the environmental review process for the transportation project;

"(II) the decision relating to the need to construct the transportation project; or

"(III) the selection of the transportation project design or location;

"(v) the early utility relocation project complies with all applicable provisions of law, including regulations issued pursuant to this title;

"(vi) the early utility relocation project follows applicable financial procedures and requirements, including documentation of eligible costs and the requirements under section 109(l), but not including requirements applicable to authorization and obligation of Federal funds;

"(vii) the transportation project for which the early utility relocation project was necessitated was included in the applicable transportation improvement program under section 134 or 135;

"(viii) before the cost incurred by a State is approved for Federal participation, environmental compliance pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) has been completed for the transportation project for which the early utility relocation project was necessitated; and

"(ix) the transportation project that necessitated the utility relocation activity is approved for construction.

"(C) SAVINGS PROVISION.—Nothing in this paragraph affects other eligibility requirements or authorities for Federal participation in payment of costs incurred for utility relocation activities.

"(c) APPLICABILITY OF OTHER PROVISIONS.—Nothing in this section affects the applicability of other requirements that would otherwise apply to an early utility relocation project, including any applicable requirements under—

"(1) section 138;

"(2) the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.), including regulations under part 24 of title 49, Code of Federal Regulations (or successor regulations);

"(3) title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.); or

AMERICAN OVERSIGHT

"(4) an environmental review process.".

SEC. 11316. STREAMLINING OF SECTION 4(F) REVIEWS.

Section 138(a) of title 23, United States Code, is amended—

(1) in the fourth sentence, by striking "In carrying out" and inserting the following:

"(4) STUDIES.—In carrying out";

(2) in the third sentence—

(A) by striking "such land, and (2) such program" and inserting the following: "the land; and

"(B) the program";

(B) by striking "unless (1) there is" and inserting the following: "unless—

"(A) there is"; and

(C) by striking "After the" and inserting the following: "(3) REQUIREMENT.—After the";

(3) in the second sentence—

(A) by striking "The Secretary of Transportation" and inserting the following:

"(2) COOPERATION AND CONSULTATION.—

"(A) IN GENERAL.—The Secretary"; and

(B) by adding at the end the following:

"(B) TIMELINE FOR APPROVALS.—

"(i) IN GENERAL.—The Secretary shall—

"(I) provide an evaluation under this section to the Secretaries described in subparagraph (A); and

"(II) provide a period of 30 days for receipt of comments.

"(ii) ASSUMED ACCEPTANCE.—If the Secretary does not receive comments by 15 days after the deadline under clause (i)(II), the Secretary shall assume a lack of objection and proceed with the action.

"(C) EFFECT.—Nothing in subparagraph (B) affects—

"(i) the requirements under—

"(I) subsections (b) through (f); or

"(II) the consultation process under section 306108 of title 54; or

"(ii) programmatic section 4(f) evaluations, as described in regulations issued by the Secretary."; and

(4) in the first sentence, by striking "It is declared to be" and inserting the following:

"(1) IN GENERAL.—It is".

SEC. 11317. CATEGORICAL EXCLUSION FOR PROJECTS OF LIMITED FEDERAL ASSISTANCE.

Section 1317(1) of MAP–21 (23 U.S.C. 109 note; Public Law 112–141) is amended—

(1) in subparagraph (A), by striking "$5,000,000" and inserting "$6,000,000"; and

(2) in subparagraph (B), by striking "$30,000,000" and inserting "$35,000,000".

SEC. 11318. CERTAIN GATHERING LINES LOCATED ON FEDERAL LAND AND INDIAN LAND.

(a) DEFINITIONS.—In this section:

(1) FEDERAL LAND.—

AMERICAN OVERSIGHT

(A) IN GENERAL.—The term "Federal land" means land the title to which is held by the United States.

(B) EXCLUSIONS.—The term "Federal land" does not include—

(i) a unit of the National Park System;

(ii) a unit of the National Wildlife Refuge System;

(iii) a component of the National Wilderness Preservation System;

(iv) a wilderness study area within the National Forest System; or

(v) Indian land.

(2) GATHERING LINE AND ASSOCIATED FIELD COMPRESSION OR PUMPING UNIT.—

(A) IN GENERAL.—The term "gathering line and associated field compression or pumping unit" means—

(i) a pipeline that is installed to transport oil, natural gas and related constituents, or produced water from 1 or more wells drilled and completed to produce oil or gas; and

(ii) if necessary, 1 or more compressors or pumps to raise the pressure of the transported oil, natural gas and related constituents, or produced water to higher pressures necessary to enable the oil, natural gas and related constituents, or produced water to flow into pipelines and other facilities.

(B) INCLUSIONS.—The term "gathering line and associated field compression or pumping unit" includes a pipeline or associated compression or pumping unit that is installed to transport oil or natural gas from a processing plant to a common carrier pipeline or facility.

(C) EXCLUSIONS.—The term "gathering line and associated field compression or pumping unit" does not include a common carrier pipeline.

(3) INDIAN LAND.—The term "Indian land" means land the title to which is held by—

(A) the United States in trust for an Indian Tribe or an individual Indian; or

(B) an Indian Tribe or an individual Indian subject to a restriction by the United States against alienation.

(4) PRODUCED WATER.—The term "produced water" means water produced from an oil or gas well bore that is not a fluid prepared at, or transported to, the well site to resolve a specific oil or gas well bore or reservoir condition.

(5) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

(b) CERTAIN GATHERING LINES.—

(1) IN GENERAL.—Subject to paragraph (2), the issuance of a sundry notice or right-of-way for a gathering line and associated field compression or pumping unit that is located on Federal land or Indian land and that services any oil or gas well may be considered by the Secretary to be an action that is categorically excluded (as defined in section 1508.1 of title 40, Code of Federal Regulations (as in effect on the date of enactment of this Act)) for purposes of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) if the gathering line and associated field compression or pumping unit—

AMERICAN OVERSIGHT

(A) are within a field or unit for which an approved land use plan or an environmental document prepared pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) analyzed transportation of oil, natural gas, or produced water from 1 or more oil or gas wells in the field or unit as a reasonably foreseeable activity;

(B) are located adjacent to or within—

(i) any existing disturbed area; or

(ii) an existing corridor for a right-of-way; and

(C) would reduce—

(i) in the case of a gathering line and associated field compression or pumping unit transporting methane, the total quantity of methane that would otherwise be vented, flared, or unintentionally emitted from the field or unit; or

(ii) in the case of a gathering line and associated field compression or pumping unit not transporting methane, the vehicular traffic that would otherwise service the field or unit.

(2) APPLICABILITY.—Paragraph (1) shall apply to Indian land, or a portion of Indian land—

(A) to which the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) applies; and

(B) for which the Indian Tribe with jurisdiction over the Indian land submits to the Secretary a written request that paragraph (1) apply to that Indian land (or portion of Indian land).

(c) EFFECT ON OTHER LAW.—Nothing in this section—

(1) affects or alters any requirement—

(A) relating to prior consent under—

(i) section 2 of the Act of February 5, 1948 (62 Stat. 18, chapter 45; 25 U.S.C. 324); or

(ii) section 16(e) of the Act of June 18, 1934 (48 Stat. 987, chapter 576; 102 Stat. 2939; 114 Stat. 47; 25 U.S.C. 5123(e)) (commonly known as the "Indian Reorganization Act");

(B) under section 306108 of title 54, United States Code; or

(C) under any other Federal law (including regulations) relating to Tribal consent for rights-of-way across Indian land; or

(2) makes the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) applicable to land to which that Act otherwise would not apply.

SEC. 11319. ANNUAL REPORT.

(a) DEFINITION OF COVERED PROJECT.—In this section, the term "covered project" means a project or activity carried out with funds provided by the Department, including a project carried out under title 23 or 49, United States Code—

(1) that is more than 5 years behind schedule; or

(2) for which the total amount spent on the project or activity is not less than $1,000,000,000 more than the original cost estimate for the project or activity.

(b) REQUIREMENT.—Not later than 1 year after the date of enactment of this Act, and annually thereafter, the Secretary shall

AMERICAN OVERSIGHT

submit to Congress a report on covered projects of the Department, which shall include, for each covered project—

(1) a brief description of the covered project, including—

(A) the purpose of the covered project;

(B) each location in which the covered project is carried out;

(C) the contract or award number of the covered project, if applicable;

(D) the year in which the covered project was initiated;

(E) the Federal share of the total cost of the covered project; and

(F) each primary contractor, subcontractor, grant recipient, and subgrantee recipient of the covered project;

(2) an explanation of any change to the original scope of the covered project, including by the addition or narrowing of the initial requirements of the covered project;

(3) the original expected date for completion of the covered project;

(4) the current expected date for completion of the covered project;

(5) the original cost estimate for the covered project, as adjusted to reflect increases in the Consumer Price Index for All Urban Consumers, as published by the Bureau of Labor Statistics;

(6) the current cost estimate for the covered project, as adjusted to reflect increases in the Consumer Price Index for All Urban Consumers, as published by the Bureau of Labor Statistics;

(7) an explanation for a delay in completion or an increase in the original cost estimate for the covered project, including, where applicable, any impact of insufficient or delayed appropriations; and

(8) the amount of and rationale for any award, incentive fee, or other type of bonus, if any, awarded for the covered project.

Subtitle D—Climate Change

SEC. 11401. GRANTS FOR CHARGING AND FUELING INFRASTRUCTURE.

(a) PURPOSE.—The purpose of this section is to establish a grant program to strategically deploy publicly accessible electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, and natural gas fueling infrastructure along designated alternative fuel corridors or in certain other locations that will be accessible to all drivers of electric vehicles, hydrogen vehicles, propane vehicles, and natural gas vehicles.

(b) GRANT PROGRAM.—Section 151 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) by striking "Not later than 1 year after the date of enactment of the FAST Act, the Secretary shall" and inserting "The Secretary shall periodically"; and

(B) by striking "to improve the mobility" and inserting "to support changes in the transportation sector that help achieve a reduction in greenhouse gas emissions and improve the mobility";

AMERICAN OVERSIGHT

(2) in subsection (b)(2), by inserting "previously designated by the Federal Highway Administration or" before "designated by";

(3) by striking subsection (d) and inserting the following:

"(d) REDESIGNATION.—

"(1) INITIAL REDESIGNATION.—Not later than 180 days after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Secretary shall update and redesignate the corridors under subsection (a).

"(2) SUBSEQUENT REDESIGNATION.—The Secretary shall establish a recurring process to regularly update and redesignate the corridors under subsection (a).";

(4) in subsection (e)—

(A) in paragraph (1), by striking "and" at the end;

(B) in paragraph (2)—

(i) by striking "establishes an aspirational goal of achieving" and inserting "describes efforts, including through funds awarded through the grant program under subsection (f), that will aid efforts to achieve"; and

(ii) by striking "by the end of fiscal year 2020." and inserting "; and"; and

(C) by adding at the end the following:

"(3) summarizes best practices and provides guidance, developed through consultation with the Secretary of Energy, for project development of electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure and natural gas fueling infrastructure at the State, Tribal, and local level to allow for the predictable deployment of that infrastructure."; and

(5) by adding at the end the following:

"(f) GRANT PROGRAM.—

"(1) DEFINITION OF PRIVATE ENTITY.—In this subsection, the term 'private entity' means a corporation, partnership, company, or nonprofit organization.

"(2) ESTABLISHMENT.—Not later than 1 year after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Secretary shall establish a grant program to award grants to eligible entities to carry out the activities described in paragraph (6).

"(3) ELIGIBLE ENTITIES.—An entity eligible to receive a grant under this subsection is—

"(A) a State or political subdivision of a State;

"(B) a metropolitan planning organization;

"(C) a unit of local government;

"(D) a special purpose district or public authority with a transportation function, including a port authority;

"(E) an Indian tribe (as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304));

"(F) a territory of the United States;

"(G) an authority, agency, or instrumentality of, or an entity owned by, 1 or more entities described in subparagraphs (A) through (F); or

"(H) a group of entities described in subparagraphs (A) through (G).

AMERICAN OVERSIGHT

"(4) APPLICATIONS.—To be eligible to receive a grant under this subsection, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary shall require, including—

"(A) a description of how the eligible entity has considered—

"(i) public accessibility of charging or fueling infrastructure proposed to be funded with a grant under this subsection, including—

"(I) charging or fueling connector types and publicly available information on real-time availability; and

"(II) payment methods to ensure secure, convenient, fair, and equal access;

"(ii) collaborative engagement with stakeholders (including automobile manufacturers, utilities, infrastructure providers, technology providers, electric charging, hydrogen, propane, and natural gas fuel providers, metropolitan planning organizations, States, Indian tribes, and units of local governments, fleet owners, fleet managers, fuel station owners and operators, labor organizations, infrastructure construction and component parts suppliers, and multi-State and regional entities)—

"(I) to foster enhanced, coordinated, public-private or private investment in electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure;

"(II) to expand deployment of electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure;

"(III) to protect personal privacy and ensure cybersecurity; and

"(IV) to ensure that a properly trained workforce is available to construct and install electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure;

"(iii) the location of the station or fueling site, such as consideration of—

"(I) the availability of onsite amenities for vehicle operators, such as restrooms or food facilities;

"(II) access in compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.);

"(III) height and fueling capacity requirements for facilities that charge or refuel large vehicles, such as semi-trailer trucks; and

"(IV) appropriate distribution to avoid redundancy and fill charging or fueling gaps;

"(iv) infrastructure installation that can be responsive to technology advancements, such as accommodating autonomous vehicles, vehicle-to-grid technology, and future charging methods; and

AMERICAN OVERSIGHT

"(v) the long-term operation and maintenance of the electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure, to avoid stranded assets and protect the investment of public funds in that infrastructure; and

"(B) an assessment of the estimated emissions that will be reduced through the use of electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure, which shall be conducted using the Alternative Fuel Life-Cycle Environmental and Economic Transportation (AFLEET) tool developed by Argonne National Laboratory (or a successor tool).

"(5) CONSIDERATIONS.—In selecting eligible entities to receive a grant under this subsection, the Secretary shall—

"(A) consider the extent to which the application of the eligible entity would—

"(i) improve alternative fueling corridor networks by—

"(I) converting corridor-pending corridors to corridor-ready corridors; or

"(II) in the case of corridor-ready corridors, providing redundancy—

"(aa) to meet excess demand for charging or fueling infrastructure; or

"(bb) to reduce congestion at existing charging or fueling infrastructure in high-traffic locations;

"(ii) meet current or anticipated market demands for charging or fueling infrastructure;

"(iii) enable or accelerate the construction of charging or fueling infrastructure that would be unlikely to be completed without Federal assistance;

"(iv) support a long-term competitive market for electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure that does not significantly impair existing electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure providers;

"(v) provide access to electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure in areas with a current or forecasted need; and

"(vi) deploy electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure for medium- and heavy-duty vehicles (including along the National Highway Freight Network established under section 167(c)) and in proximity to intermodal transfer stations;

"(B) ensure, to the maximum extent practicable, geographic diversity among grant recipients to ensure that electric vehicle charging infrastructure, hydrogen fueling

AMERICAN OVERSIGHT

infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure is available throughout the United States;

"(C) consider whether the private entity that the eligible entity contracts with under paragraph (6)—

"(i) submits to the Secretary the most recent year of audited financial statements; and

"(ii) has experience in installing and operating electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure; and

"(D) consider whether, to the maximum extent practicable, the eligible entity and the private entity that the eligible entity contracts with under paragraph (6) enter into an agreement—

"(i) to operate and maintain publicly available electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas infrastructure; and

"(ii) that provides a remedy and an opportunity to cure if the requirements described in clause (i) are not met.

"(6) USE OF FUNDS.—

"(A) IN GENERAL.—An eligible entity receiving a grant under this subsection shall only use the funds in accordance with this paragraph to contract with a private entity for acquisition and installation of publicly accessible electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure that is directly related to the charging or fueling of a vehicle.

"(B) LOCATION OF INFRASTRUCTURE.—Any publicly accessible electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure acquired and installed with a grant under this subsection shall be located along an alternative fuel corridor designated under this section, on the condition that any affected Indian tribes are consulted before the designation.

"(C) OPERATING ASSISTANCE.—

"(i) IN GENERAL.—Subject to clauses (ii) and (iii), an eligible entity that receives a grant under this subsection may use a portion of the funds to provide to a private entity operating assistance for the first 5 years of operations after the installation of publicly available electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure while the facility transitions to independent system operations.

"(ii) INCLUSIONS.—Operating assistance under this subparagraph shall be limited to costs allocable to operating and maintaining the electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure and service.

AMERICAN OVERSIGHT

"(iii) LIMITATION.—Operating assistance under this subparagraph may not exceed the amount of a contract under subparagraph (A) to acquire and install publicly accessible electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure.

"(D) TRAFFIC CONTROL DEVICES.—

"(i) IN GENERAL.—Subject to this paragraph, an eligible entity that receives a grant under this subsection may use a portion of the funds to acquire and install traffic control devices located in the right-of-way to provide directional information to publicly accessible electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure acquired, installed, or operated with the grant.

"(ii) APPLICABILITY.—Clause (i) shall apply only to an eligible entity that—

"(I) receives a grant under this subsection; and

"(II) is using that grant for the acquisition and installation of publicly accessible electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure.

"(iii) LIMITATION ON AMOUNT.—The amount of funds used to acquire and install traffic control devices under clause (i) may not exceed the amount of a contract under subparagraph (A) to acquire and install publicly accessible charging or fueling infrastructure.

"(iv) NO NEW AUTHORITY CREATED.—Nothing in this subparagraph authorizes an eligible entity that receives a grant under this subsection to acquire and install traffic control devices if the entity is not otherwise authorized to do so.

"(E) REVENUE.—

"(i) IN GENERAL.—An eligible entity receiving a grant under this subsection and a private entity referred to in subparagraph (A) may enter into a cost-sharing agreement under which the private entity submits to the eligible entity a portion of the revenue from the electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure.

"(ii) USES OF REVENUE.—An eligible entity that receives revenue from a cost-sharing agreement under clause (i) may only use that revenue for a project that is eligible under this title.

"(7) CERTAIN FUELS.—The use of grants for propane fueling infrastructure under this subsection shall be limited to infrastructure for medium- and heavy-duty vehicles.

"(8) COMMUNITY GRANTS.—

"(A) IN GENERAL.—Notwithstanding paragraphs (4), (5), and (6), the Secretary shall reserve 50 percent of the amounts made available each fiscal year to carry out this section to provide grants to eligible entities in accordance with this paragraph.

AMERICAN OVERSIGHT

"(B) APPLICATIONS.—To be eligible to receive a grant under this paragraph, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

"(C) ELIGIBLE ENTITIES.—An entity eligible to receive a grant under this paragraph is—

"(i) an entity described in paragraph (3); and

"(ii) a State or local authority with ownership of publicly accessible transportation facilities.

"(D) ELIGIBLE PROJECTS.—The Secretary may provide a grant under this paragraph for a project that is expected to reduce greenhouse gas emissions and to expand or fill gaps in access to publicly accessible electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure, including—

"(i) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

"(ii) the acquisition and installation of electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure that is directly related to the charging or fueling of a vehicle, including any related construction or reconstruction and the acquisition of real property directly related to the project, such as locations described in subparagraph (E), to expand access to electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure.

"(E) PROJECT LOCATIONS.—A project receiving a grant under this paragraph may be located on any public road or in other publicly accessible locations, such as parking facilities at public buildings, public schools, and public parks, or in publicly accessible parking facilities owned or managed by a private entity.

"(F) PRIORITY.—In providing grants under this paragraph, the Secretary shall give priority to projects that expand access to electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure within—

"(i) rural areas;

"(ii) low- and moderate-income neighborhoods; and

"(iii) communities with a low ratio of private parking spaces to households or a high ratio of multi-unit dwellings to single family homes, as determined by the Secretary.

"(G) ADDITIONAL CONSIDERATIONS.—In providing grants under this paragraph, the Secretary shall consider the extent to which the project—

"(i) contributes to geographic diversity among eligible entities, including achieving a balance between urban and rural communities; and

"(ii) meets current or anticipated market demands for charging or fueling infrastructure, including faster

AMERICAN OVERSIGHT

charging speeds with high-powered capabilities necessary to minimize the time to charge or refuel current and anticipated vehicles.

"(H) PARTNERING WITH PRIVATE ENTITIES.—An eligible entity that receives a grant under this paragraph may use the grant funds to contract with a private entity for the acquisition, construction, installation, maintenance, or operation of electric vehicle charging infrastructure, hydrogen fueling infrastructure, propane fueling infrastructure, or natural gas fueling infrastructure that is directly related to the charging or fueling of a vehicle.

"(I) MAXIMUM GRANT AMOUNT.—The amount of a grant under this paragraph shall not be more than $15,000,000.

"(J) TECHNICAL ASSISTANCE.—Of the amounts reserved under subparagraph (A), the Secretary may use not more than 1 percent to provide technical assistance to eligible entities.

"(K) ADDITIONAL ACTIVITIES.—The recipient of a grant under this paragraph may use not more than 5 percent of the grant funds on educational and community engagement activities to develop and implement education programs through partnerships with schools, community organizations, and vehicle dealerships to support the use of zero-emission vehicles and associated infrastructure.

"(9) REQUIREMENTS.—

"(A) PROJECT TREATMENT.—Notwithstanding any other provision of law, any project funded by a grant under this subsection shall be treated as a project on a Federal-aid highway under this chapter.

"(B) SIGNS.—Any traffic control device or on-premises sign acquired, installed, or operated with a grant under this subsection shall comply with—

"(i) the Manual on Uniform Traffic Control Devices, if located in the right-of-way; and

"(ii) other provisions of Federal, State, and local law, as applicable.

"(10) FEDERAL SHARE.—

"(A) IN GENERAL.—The Federal share of the cost of a project carried out with a grant under this subsection shall not exceed 80 percent of the total project cost.

"(B) RESPONSIBILITY OF PRIVATE ENTITY.—As a condition of contracting with an eligible entity under paragraph (6) or (8), a private entity shall agree to pay the share of the cost of a project carried out with a grant under this subsection that is not paid by the Federal Government under subparagraph (A).

"(11) REPORT.—Not later than 3 years after the date of enactment of this subsection, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives and make publicly available a report on the progress and implementation of this subsection.".

SEC. 11402. REDUCTION OF TRUCK EMISSIONS AT PORT FACILITIES.

(a) ESTABLISHMENT OF PROGRAM.—

AMERICAN OVERSIGHT

(1) IN GENERAL.—The Secretary shall establish a program to reduce idling at port facilities, under which the Secretary shall—

(A) study how ports and intermodal port transfer facilities would benefit from increased opportunities to reduce emissions at ports, including through the electrification of port operations;

(B) study emerging technologies and strategies that may help reduce port-related emissions from idling trucks; and

(C) coordinate and provide funding to test, evaluate, and deploy projects that reduce port-related emissions from idling trucks, including through the advancement of port electrification and improvements in efficiency, focusing on port operations, including heavy-duty commercial vehicles, and other related projects.

(2) CONSULTATION.—In carrying out the program under this subsection, the Secretary may consult with the Secretary of Energy and the Administrator of the Environmental Protection Agency.

(b) GRANTS.—

(1) IN GENERAL.—In carrying out subsection (a)(1)(C), the Secretary shall award grants to fund projects that reduce emissions at ports, including through the advancement of port electrification.

(2) COST SHARE.—A grant awarded under paragraph (1) shall not exceed 80 percent of the total cost of the project funded by the grant.

(3) COORDINATION.—In carrying out the grant program under this subsection, the Secretary shall—

(A) to the maximum extent practicable, leverage existing resources and programs of the Department and other relevant Federal agencies; and

(B) coordinate with other Federal agencies, as the Secretary determines to be appropriate.

(4) APPLICATION; SELECTION.—

(A) APPLICATION.—The Secretary shall solicit applications for grants under paragraph (1) at such time, in such manner, and containing such information as the Secretary determines to be necessary.

(B) SELECTION.—The Secretary shall make grants under paragraph (1) by not later than April 1 of each fiscal year for which funding is made available.

(5) REQUIREMENT.—Notwithstanding any other provision of law, any project funded by a grant under this subsection shall be treated as a project on a Federal-aid highway under chapter 1 of title 23, United States Code.

(c) REPORT.—Not later than 1 year after the date on which all of the projects funded with a grant under subsection (b) are completed, the Secretary shall submit to Congress a report that includes—

(1) the findings of the studies described in subparagraphs (A) and (B) of subsection (a)(1);

(2) the results of the projects that received a grant under subsection (b);

(3) any recommendations for workforce development and training opportunities with respect to port electrification; and

AMERICAN OVERSIGHT

(4) any policy recommendations based on the findings and results described in paragraphs (1) and (2).

SEC. 11403. CARBON REDUCTION PROGRAM.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code (as amended by section 11203(a)), is amended by adding at the end the following:

"§ 175. Carbon reduction program

"(a) DEFINITIONS.—In this section:

"(1) METROPOLITAN PLANNING ORGANIZATION; URBANIZED AREA.—The terms 'metropolitan planning organization' and 'urbanized area' have the meaning given those terms in section 134(b).

"(2) TRANSPORTATION EMISSIONS.—The term 'transportation emissions' means carbon dioxide emissions from on-road highway sources of those emissions within a State.

"(3) TRANSPORTATION MANAGEMENT AREA.—The term 'transportation management area' means a transportation management area identified or designated by the Secretary under section 134(k)(1).

"(b) ESTABLISHMENT.—The Secretary shall establish a carbon reduction program to reduce transportation emissions.

"(c) ELIGIBLE PROJECTS.—

"(1) IN GENERAL.—Subject to paragraph (2), funds apportioned to a State under section 104(b)(7) may be obligated for projects to support the reduction of transportation emissions, including—

"(A) a project described in section 149(b)(4) to establish or operate a traffic monitoring, management, and control facility or program, including advanced truck stop electrification systems;

"(B) a public transportation project that is eligible for assistance under section 142;

"(C) a project described in section 101(a)(29) (as in effect on the day before the date of enactment of the FAST Act (Public Law 114–94; 129 Stat. 1312)), including the construction, planning, and design of on-road and off-road trail facilities for pedestrians, bicyclists, and other nonmotorized forms of transportation;

"(D) a project described in section 503(c)(4)(E) for advanced transportation and congestion management technologies;

"(E) a project for the deployment of infrastructure-based intelligent transportation systems capital improvements and the installation of vehicle-to-infrastructure communications equipment, including retrofitting dedicated short-range communications (DSRC) technology deployed as part of an existing pilot program to cellular vehicle-to-everything (C–V2X) technology;

"(F) a project to replace street lighting and traffic control devices with energy-efficient alternatives;

"(G) the development of a carbon reduction strategy in accordance with subsection (d);

"(H) a project or strategy that is designed to support congestion pricing, shifting transportation demand to nonpeak hours or other transportation modes, increasing

AMERICAN OVERSIGHT

vehicle occupancy rates, or otherwise reducing demand for roads, including electronic toll collection, and travel demand management strategies and programs;

"(I) efforts to reduce the environmental and community impacts of freight movement;

"(J) a project to support deployment of alternative fuel vehicles, including—

"(i) the acquisition, installation, or operation of publicly accessible electric vehicle charging infrastructure or hydrogen, natural gas, or propane vehicle fueling infrastructure; and

"(ii) the purchase or lease of zero-emission construction equipment and vehicles, including the acquisition, construction, or leasing of required supporting facilities;

"(K) a project described in section 149(b)(8) for a diesel engine retrofit;

"(L) a project described in section 149(b)(5) that does not result in the construction of new capacity; and

"(M) a project that reduces transportation emissions at port facilities, including through the advancement of port electrification.

"(2) FLEXIBILITY.—In addition to the eligible projects under paragraph (1), a State may use funds apportioned under section 104(b)(7) for a project eligible under section 133(b) if the Secretary certifies that the State has demonstrated a reduction in transportation emissions—

"(A) as estimated on a per capita basis; and

"(B) as estimated on a per unit of economic output basis.

"(d) CARBON REDUCTION STRATEGY.—

"(1) IN GENERAL.—Not later than 2 years after the date of enactment of the Surface Transportation Reauthorization Act of 2021, a State, in consultation with any metropolitan planning organization designated within the State, shall develop a carbon reduction strategy in accordance with this subsection.

"(2) REQUIREMENTS.—The carbon reduction strategy of a State developed under paragraph (1) shall—

"(A) support efforts to reduce transportation emissions;

"(B) identify projects and strategies to reduce transportation emissions, which may include projects and strategies for safe, reliable, and cost-effective options—

"(i) to reduce traffic congestion by facilitating the use of alternatives to single-occupant vehicle trips, including public transportation facilities, pedestrian facilities, bicycle facilities, and shared or pooled vehicle trips within the State or an area served by the applicable metropolitan planning organization, if any;

"(ii) to facilitate the use of vehicles or modes of travel that result in lower transportation emissions per person-mile traveled as compared to existing vehicles and modes; and

"(iii) to facilitate approaches to the construction of transportation assets that result in lower transportation emissions as compared to existing approaches;

AMERICAN OVERSIGHT

"(C) support the reduction of transportation emissions of the State;

"(D) at the discretion of the State, quantify the total carbon emissions from the production, transport, and use of materials used in the construction of transportation facilities within the State; and

"(E) be appropriate to the population density and context of the State, including any metropolitan planning organization designated within the State.

"(3) UPDATES.—The carbon reduction strategy of a State developed under paragraph (1) shall be updated not less frequently than once every 4 years.

"(4) REVIEW.—Not later than 90 days after the date on which a State submits a request for the approval of a carbon reduction strategy developed by the State under paragraph (1), the Secretary shall—

"(A) review the process used to develop the carbon reduction strategy; and

"(B)(i) certify that the carbon reduction strategy meets the requirements of paragraph (2); or

"(ii) deny certification of the carbon reduction strategy and specify the actions necessary for the State to take to correct the deficiencies in the process of the State in developing the carbon reduction strategy.

"(5) TECHNICAL ASSISTANCE.—At the request of a State, the Secretary shall provide technical assistance in the development of the carbon reduction strategy under paragraph (1).

"(e) SUBALLOCATION.—

"(1) IN GENERAL.—For each fiscal year, of the funds apportioned to the State under section 104(b)(7)—

"(A) 65 percent shall be obligated, in proportion to their relative shares of the population of the State—

"(i) in urbanized areas of the State with an urbanized area population of more than 200,000;

"(ii) in urbanized areas of the State with an urbanized population of not less than 50,000 and not more than 200,000;

"(iii) in urban areas of the State with a population of not less than 5,000 and not more than 49,999; and

"(iv) in other areas of the State with a population of less than 5,000; and

"(B) the remainder may be obligated in any area of the State.

"(2) METROPOLITAN AREAS.—Funds attributed to an urbanized area under paragraph (1)(A)(i) may be obligated in the metropolitan area established under section 134 that encompasses the urbanized area.

"(3) DISTRIBUTION AMONG URBANIZED AREAS OF OVER 50,000 POPULATION.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the amounts that a State is required to obligate under clauses (i) and (ii) of paragraph (1)(A) shall be obligated in urbanized areas described in those clauses based on the relative population of the areas.

"(B) OTHER FACTORS.—The State may obligate the funds described in subparagraph (A) based on other factors if—

AMERICAN OVERSIGHT

"(i) the State and the relevant metropolitan planning organizations jointly apply to the Secretary for the permission to base the obligation on other factors; and

"(ii) the Secretary grants the request.

"(4) COORDINATION IN URBANIZED AREAS.—Before obligating funds for an eligible project under subsection (c) in an urbanized area that is not a transportation management area, a State shall coordinate with any metropolitan planning organization that represents the urbanized area prior to determining which activities should be carried out under the project.

"(5) CONSULTATION IN RURAL AREAS.—Before obligating funds for an eligible project under subsection (c) in a rural area, a State shall consult with any regional transportation planning organization or metropolitan planning organization that represents the rural area prior to determining which activities should be carried out under the project.

"(6) OBLIGATION AUTHORITY.—

"(A) IN GENERAL.—A State that is required to obligate in an urbanized area with an urbanized area population of 50,000 or more under this subsection funds apportioned to the State under section 104(b)(7) shall make available during the period of fiscal years 2022 through 2026 an amount of obligation authority distributed to the State for Federal-aid highways and highway safety construction programs for use in the area that is equal to the amount obtained by multiplying—

"(i) the aggregate amount of funds that the State is required to obligate in the area under this subsection during the period; and

"(ii) the ratio that—

"(I) the aggregate amount of obligation authority distributed to the State for Federal-aid highways and highway safety construction programs during the period; bears to

"(II) the total of the sums apportioned to the State for Federal-aid highways and highway safety construction programs (excluding sums not subject to an obligation limitation) during the period.

"(B) JOINT RESPONSIBILITY.—Each State, each affected metropolitan planning organization, and the Secretary shall jointly ensure compliance with subparagraph (A).

"(f) FEDERAL SHARE.—The Federal share of the cost of a project carried out using funds apportioned to a State under section 104(b)(7) shall be determined in accordance with section 120.

"(g) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project assisted under this section shall be treated as a project on a Federal-aid highway under this chapter.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code (as amended by section 11203(b)) is amended by inserting after the item relating to section 174 the following:

"175. Carbon reduction program.".

SEC. 11404. CONGESTION RELIEF PROGRAM.

(a) IN GENERAL.—Section 129 of title 23, United States Code, is amended by adding at the end the following:

"(d) CONGESTION RELIEF PROGRAM.—

AMERICAN OVERSIGHT

"(1) DEFINITIONS.—In this subsection:

"(A) ELIGIBLE ENTITY.—The term 'eligible entity' means any of the following:

"(i) A State, for the purpose of carrying out a project in an urbanized area with a population of more than 1,000,000.

"(ii) A metropolitan planning organization, city, or municipality, for the purpose of carrying out a project in an urbanized area with a population of more than 1,000,000.

"(B) INTEGRATED CONGESTION MANAGEMENT SYSTEM.—The term 'integrated congestion management system' means a system for the integration of management and operations of a regional transportation system that includes, at a minimum, traffic incident management, work zone management, traffic signal timing, managed lanes, real-time traveler information, and active traffic management, in order to maximize the capacity of all facilities and modes across the applicable region.

"(C) PROGRAM.—The term 'program' means the congestion relief program established under paragraph (2).

"(2) ESTABLISHMENT.—The Secretary shall establish a congestion relief program to provide discretionary grants to eligible entities to advance innovative, integrated, and multimodal solutions to congestion relief in the most congested metropolitan areas of the United States.

"(3) PROGRAM GOALS.—The goals of the program are to reduce highway congestion, reduce economic and environmental costs associated with that congestion, including transportation emissions, and optimize existing highway capacity and usage of highway and transit systems through—

"(A) improving intermodal integration with highways, highway operations, and highway performance;

"(B) reducing or shifting highway users to off-peak travel times or to nonhighway travel modes during peak travel times; and

"(C) pricing of, or based on, as applicable—

"(i) parking;

"(ii) use of roadways, including in designated geographic zones; or

"(iii) congestion.

"(4) ELIGIBLE PROJECTS.—Funds from a grant under the program may be used for a project or an integrated collection of projects, including planning, design, implementation, and construction activities, to achieve the program goals under paragraph (3), including—

"(A) deployment and operation of an integrated congestion management system;

"(B) deployment and operation of a system that implements or enforces high occupancy vehicle toll lanes, cordon pricing, parking pricing, or congestion pricing;

"(C) deployment and operation of mobility services, including establishing account-based financial systems, commuter buses, commuter vans, express operations, paratransit, and on-demand microtransit; and

AMERICAN OVERSIGHT

"(D) incentive programs that encourage travelers to carpool, use nonhighway travel modes during peak period, or travel during nonpeak periods.

"(5) APPLICATION; SELECTION.—

"(A) APPLICATION.—To be eligible to receive a grant under the program, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

"(B) PRIORITY.—In providing grants under the program, the Secretary shall give priority to projects in urbanized areas that are experiencing a high degree of recurrent congestion.

"(C) FEDERAL SHARE.—The Federal share of the cost of a project carried out with a grant under the program shall not exceed 80 percent of the total project cost.

"(D) MINIMUM AWARD.—A grant provided under the program shall be not less than $10,000,000.

"(6) USE OF TOLLING.—

"(A) IN GENERAL.—Notwithstanding subsection (a)(1) and section 301 and subject to subparagraphs (B) and (C), the Secretary shall allow the use of tolls on the Interstate System as part of a project carried out with a grant under the program.

"(B) REQUIREMENTS.—The Secretary may only approve the use of tolls under subparagraph (A) if—

"(i) the eligible entity has authority under State, and if applicable, local, law to assess the applicable toll;

"(ii) the maximum toll rate for any vehicle class is not greater than the product obtained by multiplying—

"(I) the toll rate for any other vehicle class; and

"(II) 5;

"(iii) the toll rates are not charged or varied on the basis of State residency;

"(iv) the Secretary determines that the use of tolls will enable the eligible entity to achieve the program goals under paragraph (3) without a significant impact to safety or mobility within the urbanized area in which the project is located; and

"(v) the use of toll revenues complies with subsection (a)(3).

"(C) LIMITATION.—The Secretary may not approve the use of tolls on the Interstate System under the program in more than 10 urbanized areas.

"(7) FINANCIAL EFFECTS ON LOW-INCOME DRIVERS.—A project under the program—

"(A) shall include, if appropriate, an analysis of the potential effects of the project on low-income drivers; and

"(B) may include mitigation measures to deal with any potential adverse financial effects on low-income drivers.".

(b) HIGH OCCUPANCY VEHICLE USE OF CERTAIN TOLL FACILITIES.—Section 129(a) of title 23, United States Code, is amended—

AMERICAN OVERSIGHT

(1) by redesignating paragraph (10) as paragraph (11); and

(2) by inserting after paragraph (9) the following:

"(10) HIGH OCCUPANCY VEHICLE USE OF CERTAIN TOLL FACILITIES.—Notwithstanding section 102(a), in the case of a toll facility that is on the Interstate System and that is constructed or converted after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the public authority with jurisdiction over the toll facility shall allow high occupancy vehicles, transit, and paratransit vehicles to use the facility at a discount rate or without charge, unless the public authority, in consultation with the Secretary, determines that the number of those vehicles using the facility reduces the travel time reliability of the facility.".

SEC. 11405. PROMOTING RESILIENT OPERATIONS FOR TRANSFORMATIVE, EFFICIENT, AND COST-SAVING TRANSPORTATION (PROTECT) PROGRAM.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code (as amended by section 11403(a)), is amended by adding at the end the following:

"§ 176. Promoting Resilient Operations for Transformative, Efficient, and Cost-saving Transportation (PROTECT) program

"(a) DEFINITIONS.—In this section:

"(1) EMERGENCY EVENT.—The term 'emergency event' means a natural disaster or catastrophic failure resulting in—

"(A) an emergency declared by the Governor of the State in which the disaster or failure occurred; or

"(B) an emergency or disaster declared by the President.

"(2) EVACUATION ROUTE.—The term 'evacuation route' means a transportation route or system that—

"(A) is owned, operated, or maintained by a Federal, State, Tribal, or local government;

"(B) is used—

"(i) to transport the public away from emergency events; or

"(ii) to transport emergency responders and recovery resources; and

"(C) is designated by the eligible entity with jurisdiction over the area in which the route is located for the purposes described in subparagraph (B).

"(3) PROGRAM.—The term 'program' means the program established under subsection (b)(1).

"(4) RESILIENCE IMPROVEMENT.—The term 'resilience improvement' means the use of materials or structural or nonstructural techniques, including natural infrastructure—

"(A) that allow a project—

"(i) to better anticipate, prepare for, and adapt to changing conditions and to withstand and respond to disruptions; and

"(ii) to be better able to continue to serve the primary function of the project during and after weather events and natural disasters for the expected life of the project; or

AMERICAN OVERSIGHT

"(B) that—

"(i) reduce the magnitude and duration of impacts of current and future weather events and natural disasters to a project; or

"(ii) have the absorptive capacity, adaptive capacity, and recoverability to decrease project vulnerability to current and future weather events or natural disasters.

"(b) ESTABLISHMENT.—

"(1) IN GENERAL.—The Secretary shall establish a program, to be known as the 'Promoting Resilient Operations for Transformative, Efficient, and Cost-saving Transportation program' or the 'PROTECT program'.

"(2) PURPOSE.—The purpose of the program is to provide grants for resilience improvements through—

"(A) formula funding distributed to States to carry out subsection (c);

"(B) competitive planning grants to enable communities to assess vulnerabilities to current and future weather events and natural disasters and changing conditions, including sea level rise, and plan transportation improvements and emergency response strategies to address those vulnerabilities; and

"(C) competitive resilience improvement grants to protect—

"(i) surface transportation assets by making the assets more resilient to current and future weather events and natural disasters, such as severe storms, flooding, drought, levee and dam failures, wildfire, rockslides, mudslides, sea level rise, extreme weather, including extreme temperature, and earthquakes;

"(ii) communities through resilience improvements and strategies that allow for the continued operation or rapid recovery of surface transportation systems that—

"(I) serve critical local, regional, and national needs, including evacuation routes; and

"(II) provide access or service to hospitals and other medical or emergency service facilities, major employers, critical manufacturing centers, ports and intermodal facilities, utilities, and Federal facilities;

"(iii) coastal infrastructure, such as a tide gate to protect highways, that is at long-term risk to sea level rise; and

"(iv) natural infrastructure that protects and enhances surface transportation assets while improving ecosystem conditions, including culverts that ensure adequate flows in rivers and estuarine systems.

"(c) ELIGIBLE ACTIVITIES FOR APPORTIONED FUNDING.—

"(1) IN GENERAL.—Except as provided in paragraph (2), funds apportioned to the State under section 104(b)(8) shall be obligated for activities eligible under subparagraph (A), (B), or (C) of subsection (d)(4).

"(2) PLANNING SET-ASIDE.—Of the funds apportioned to a State under section 104(b)(8) for each fiscal year, not less

AMERICAN OVERSIGHT

than 2 percent shall be for activities described in subsection (d)(3).

"(3) REQUIREMENTS.—

"(A) PROJECTS IN CERTAIN AREAS.—If a project under this subsection is carried out, in whole or in part, within a base floodplain, the State shall—

"(i) identify the base floodplain in which the project is to be located and disclose that information to the Secretary; and

"(ii) indicate to the Secretary whether the State plans to implement 1 or more components of the risk mitigation plan under section 322 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5165) with respect to the area.

"(B) ELIGIBILITIES.—A State shall use funds apportioned to the State under section 104(b)(8) for—

"(i) a highway project eligible for assistance under this title;

"(ii) a public transportation facility or service eligible for assistance under chapter 53 of title 49; or

"(iii) a port facility, including a facility that—

"(I) connects a port to other modes of transportation;

"(II) improves the efficiency of evacuations and disaster relief; or

"(III) aids transportation.

"(C) SYSTEM RESILIENCE.—A project carried out by a State with funds apportioned to the State under section 104(b)(8) may include the use of natural infrastructure or the construction or modification of storm surge, flood protection, or aquatic ecosystem restoration elements that are functionally connected to a transportation improvement, such as—

"(i) increasing marsh health and total area adjacent to a highway right-of-way to promote additional flood storage;

"(ii) upgrades to and installation of culverts designed to withstand 100-year flood events;

"(iii) upgrades to and installation of tide gates to protect highways;

"(iv) upgrades to and installation of flood gates to protect tunnel entrances; and

"(v) improving functionality and resiliency of stormwater controls, including inventory inspections, upgrades to, and preservation of best management practices to protect surface transportation infrastructure.

"(D) FEDERAL COST SHARE.—

"(i) IN GENERAL.—Except as provided in subsection (e)(1), the Federal share of the cost of a project carried out using funds apportioned to the State under section 104(b)(8) shall not exceed 80 percent of the total project cost.

"(ii) NON-FEDERAL SHARE.—A State may use Federal funds other than Federal funds apportioned to the State under section 104(b)(8) to meet the non-

AMERICAN OVERSIGHT

Federal cost share requirement for a project under this subsection.

"(E) ELIGIBLE PROJECT COSTS.—

"(i) IN GENERAL.—Except as provided in clause (ii), eligible project costs for activities carried out by a State with funds apportioned to the State under section 104(b)(8) may include the costs of—

"(I) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

"(II) construction, reconstruction, rehabilitation, and acquisition of real property (including land related to the project and improvements to land), environmental mitigation, construction contingencies, acquisition of equipment directly related to improving system performance, and operational improvements.

"(ii) ELIGIBLE PLANNING COSTS.—In the case of a planning activity described in subsection (d)(3) that is carried out by a State with funds apportioned to the State under section 104(b)(8), eligible costs may include development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, other preconstruction activities, and other activities consistent with carrying out the purposes of subsection (d)(3).

"(F) LIMITATIONS.—A State—

"(i) may use not more than 40 percent of the amounts apportioned to the State under section 104(b)(8) for the construction of new capacity; and

"(ii) may use not more than 10 percent of the amounts apportioned to the State under section 104(b)(8) for activities described in subparagraph (E)(i)(I).

"(d) COMPETITIVE AWARDS.—

"(1) IN GENERAL.—In addition to funds apportioned to States under section 104(b)(8) to carry out activities under subsection (c), the Secretary shall provide grants on a competitive basis under this subsection to eligible entities described in paragraph (2).

"(2) ELIGIBLE ENTITIES.—Except as provided in paragraph (4)(C), the Secretary may make a grant under this subsection to any of the following:

"(A) A State or political subdivision of a State.

"(B) A metropolitan planning organization.

"(C) A unit of local government.

"(D) A special purpose district or public authority with a transportation function, including a port authority.

"(E) An Indian tribe (as defined in section 207(m)(1)).

"(F) A Federal land management agency that applies jointly with a State or group of States.

"(G) A multi-State or multijurisdictional group of entities described in subparagraphs (A) through (F).

AMERICAN OVERSIGHT

"(3) PLANNING GRANTS.—Using funds made available under this subsection, the Secretary shall provide planning grants to eligible entities for the purpose of—

"(A) in the case of a State or metropolitan planning organization, developing a resilience improvement plan under subsection (e)(2);

"(B) resilience planning, predesign, design, or the development of data tools to simulate transportation disruption scenarios, including vulnerability assessments;

"(C) technical capacity building by the eligible entity to facilitate the ability of the eligible entity to assess the vulnerabilities of the surface transportation assets and community response strategies of the eligible entity under current conditions and a range of potential future conditions; or

"(D) evacuation planning and preparation.

"(4) RESILIENCE GRANTS.—

"(A) RESILIENCE IMPROVEMENT GRANTS.—

"(i) IN GENERAL.—Using funds made available under this subsection, the Secretary shall provide resilience improvement grants to eligible entities to carry out 1 or more eligible activities under clause (ii).

"(ii) ELIGIBLE ACTIVITIES.—

"(I) IN GENERAL.—An eligible entity may use a resilience improvement grant under this subparagraph for 1 or more construction activities to improve the ability of an existing surface transportation asset to withstand 1 or more elements of a weather event or natural disaster, or to increase the resilience of surface transportation infrastructure from the impacts of changing conditions, such as sea level rise, flooding, wildfires, extreme weather events, and other natural disasters.

"(II) INCLUSIONS.—An activity eligible to be carried out under this subparagraph includes—

"(aa) resurfacing, restoration, rehabilitation, reconstruction, replacement, improvement, or realignment of an existing surface transportation facility eligible for assistance under this title;

"(bb) the incorporation of natural infrastructure;

"(cc) the upgrade of an existing surface transportation facility to meet or exceed a design standard adopted by the Federal Highway Administration;

"(dd) the installation of mitigation measures that prevent the intrusion of floodwaters into surface transportation systems;

"(ee) strengthening systems that remove rainwater from surface transportation facilities;

"(ff) upgrades to and installation of structural stormwater controls;

AMERICAN OVERSIGHT

"(gg) a resilience project that addresses identified vulnerabilities described in the resilience improvement plan of the eligible entity, if applicable;

"(hh) relocating roadways in a base floodplain to higher ground above projected flood elevation levels, or away from slide prone areas;

"(ii) stabilizing slide areas or slopes;

"(jj) installing riprap;

"(kk) lengthening or raising bridges to increase waterway openings, including to respond to extreme weather;

"(ll) increasing the size or number of drainage structures;

"(mm) installing seismic retrofits on bridges;

"(nn) adding scour protection at bridges;

"(oo) adding scour, stream stability, coastal, and other hydraulic countermeasures, including spur dikes;

"(pp) vegetation management practices in transportation rights-of-way to improve roadway safety, prevent against invasive species, facilitate wildfire control, and provide erosion control; and

"(qq) any other protective features, including natural infrastructure, as determined by the Secretary.

"(iii) PRIORITY.—The Secretary shall prioritize a resilience improvement grant to an eligible entity if—

"(I) the Secretary determines—

"(aa) the benefits of the eligible activity proposed to be carried out by the eligible entity exceed the costs of the activity; and

"(bb) there is a need to address the vulnerabilities of surface transportation assets of the eligible entity with a high risk of, and impacts associated with, failure due to the impacts of weather events, natural disasters, or changing conditions, such as sea level rise, wildfires, and increased flood risk; or

"(II) the eligible activity proposed to be carried out by the eligible entity is included in the applicable resilience improvement plan under subsection (e)(2).

"(B) COMMUNITY RESILIENCE AND EVACUATION ROUTE GRANTS.—

"(i) IN GENERAL.—Using funds made available under this subsection, the Secretary shall provide community resilience and evacuation route grants to eligible entities to carry out 1 or more eligible activities under clause (ii).

"(ii) ELIGIBLE ACTIVITIES.—An eligible entity may use a community resilience and evacuation route grant under this subparagraph for 1 or more projects that strengthen and protect evacuation routes that are

AMERICAN OVERSIGHT

essential for providing and supporting evacuations caused by emergency events, including a project that—

"(I) is an eligible activity under subparagraph (A)(ii), if that eligible activity will improve an evacuation route;

"(II) ensures the ability of the evacuation route to provide safe passage during an evacuation and reduces the risk of damage to evacuation routes as a result of future emergency events, including restoring or replacing existing evacuation routes that are in poor condition or not designed to meet the anticipated demand during an emergency event, and including steps to protect routes from mud, rock, or other debris slides;

"(III) if the eligible entity notifies the Secretary that existing evacuation routes are not sufficient to adequately facilitate evacuations, including the transportation of emergency responders and recovery resources, expands the capacity of evacuation routes to swiftly and safely accommodate evacuations, including installation of—

"(aa) communications and intelligent transportation system equipment and infrastructure;

"(bb) counterflow measures; or

"(cc) shoulders;

"(IV) is for the construction of new or redundant evacuation routes, if the eligible entity notifies the Secretary that existing evacuation routes are not sufficient to adequately facilitate evacuations, including the transportation of emergency responders and recovery resources;

"(V) is for the acquisition of evacuation route or traffic incident management equipment or signage; or

"(VI) will ensure access or service to critical destinations, including hospitals and other medical or emergency service facilities, major employers, critical manufacturing centers, ports and intermodal facilities, utilities, and Federal facilities.

"(iii) PRIORITY.—The Secretary shall prioritize community resilience and evacuation route grants under this subparagraph for eligible activities that are cost-effective, as determined by the Secretary, taking into account—

"(I) current and future vulnerabilities to an evacuation route due to future occurrence or recurrence of emergency events that are likely to occur in the geographic area in which the evacuation route is located; and

"(II) projected changes in development patterns, demographics, and extreme weather events based on the best available evidence and analysis.

"(iv) CONSULTATION.—In providing grants for community resilience and evacuation routes under this subparagraph, the Secretary may consult with the

AMERICAN OVERSIGHT

Administrator of the Federal Emergency Management Agency, who may provide technical assistance to the Secretary and to eligible entities.

"(C) AT-RISK COASTAL INFRASTRUCTURE GRANTS.—

"(i) DEFINITION OF ELIGIBLE ENTITY.—In this subparagraph, the term 'eligible entity' means any of the following:

"(I) A State (including the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands) in, or bordering on, the Atlantic, Pacific, or Arctic Ocean, the Gulf of Mexico, Long Island Sound, or 1 or more of the Great Lakes.

"(II) A political subdivision of a State described in subclause (I).

"(III) A metropolitan planning organization in a State described in subclause (I).

"(IV) A unit of local government in a State described in subclause (I).

"(V) A special purpose district or public authority with a transportation function, including a port authority, in a State described in subclause (I).

"(VI) An Indian tribe in a State described in subclause (I).

"(VII) A Federal land management agency that applies jointly with a State or group of States described in subclause (I).

"(VIII) A multi-State or multijurisdictional group of entities described in subclauses (I) through (VII).

"(ii) GRANTS.—Using funds made available under this subsection, the Secretary shall provide at-risk coastal infrastructure grants to eligible entities to carry out 1 or more eligible activities under clause (iii).

"(iii) ELIGIBLE ACTIVITIES.—An eligible entity may use an at-risk coastal infrastructure grant under this subparagraph for strengthening, stabilizing, hardening, elevating, relocating, or otherwise enhancing the resilience of highway and non-rail infrastructure, including bridges, roads, pedestrian walkways, and bicycle lanes, and associated infrastructure, such as culverts and tide gates to protect highways, that are subject to, or face increased long-term future risks of, a weather event, a natural disaster, or changing conditions, including coastal flooding, coastal erosion, wave action, storm surge, or sea level rise, in order to improve transportation and public safety and to reduce costs by avoiding larger future maintenance or rebuilding costs.

"(iv) CRITERIA.—The Secretary shall provide at-risk coastal infrastructure grants under this subparagraph for a project—

"(I) that addresses the risks from a current or future weather event or natural disaster, including coastal flooding, coastal erosion, wave action, storm surge, or sea level change; and

AMERICAN OVERSIGHT

"(II) that reduces long-term infrastructure costs by avoiding larger future maintenance or rebuilding costs.

"(v) COASTAL BENEFITS.—In addition to the criteria under clause (iv), for the purpose of providing at-risk coastal infrastructure grants under this subparagraph, the Secretary shall evaluate the extent to which a project will provide—

"(I) access to coastal homes, businesses, communities, and other critical infrastructure, including access by first responders and other emergency personnel; or

"(II) access to a designated evacuation route.

"(5) GRANT REQUIREMENTS.—

"(A) SOLICITATIONS FOR GRANTS.—In providing grants under this subsection, the Secretary shall conduct a transparent and competitive national solicitation process to select eligible projects to receive grants under paragraph (3) and subparagraphs (A), (B), and (C) of paragraph (4).

"(B) APPLICATIONS.—

"(i) IN GENERAL.—To be eligible to receive a grant under paragraph (3) or subparagraph (A), (B), or (C) of paragraph (4), an eligible entity shall submit to the Secretary an application in such form, at such time, and containing such information as the Secretary determines to be necessary.

"(ii) PROJECTS IN CERTAIN AREAS.—If a project is proposed to be carried out by the eligible entity, in whole or in part, within a base floodplain, the eligible entity shall—

"(I) as part of the application, identify the floodplain in which the project is to be located and disclose that information to the Secretary; and

"(II) indicate in the application whether, if selected, the eligible entity will implement 1 or more components of the risk mitigation plan under section 322 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5165) with respect to the area.

"(C) ELIGIBILITIES.—The Secretary may make a grant under paragraph (3) or subparagraph (A), (B), or (C) of paragraph (4) only for—

"(i) a highway project eligible for assistance under this title;

"(ii) a public transportation facility or service eligible for assistance under chapter 53 of title 49;

"(iii) a facility or service for intercity rail passenger transportation (as defined in section 24102 of title 49); or

"(iv) a port facility, including a facility that—

"(I) connects a port to other modes of transportation;

"(II) improves the efficiency of evacuations and disaster relief; or

"(III) aids transportation.

"(D) SYSTEM RESILIENCE.—A project for which a grant is provided under paragraph (3) or subparagraph (A), (B),

AMERICAN OVERSIGHT

or (C) of paragraph (4) may include the use of natural infrastructure or the construction or modification of storm surge, flood protection, or aquatic ecosystem restoration elements that the Secretary determines are functionally connected to a transportation improvement, such as—

"(i) increasing marsh health and total area adjacent to a highway right-of-way to promote additional flood storage;

"(ii) upgrades to and installing of culverts designed to withstand 100-year flood events;

"(iii) upgrades to and installation of tide gates to protect highways; and

"(iv) upgrades to and installation of flood gates to protect tunnel entrances.

"(E) FEDERAL COST SHARE.—

"(i) PLANNING GRANT.—The Federal share of the cost of a planning activity carried out using a planning grant under paragraph (3) shall be 100 percent.

"(ii) RESILIENCE GRANTS.—

"(I) IN GENERAL.—Except as provided in subclause (II) and subsection (e)(1), the Federal share of the cost of a project carried out using a grant under subparagraph (A), (B), or (C) of paragraph (4) shall not exceed 80 percent of the total project cost.

"(II) TRIBAL PROJECTS.—On the determination of the Secretary, the Federal share of the cost of a project carried out using a grant under subparagraph (A), (B), or (C) of paragraph (4) by an Indian tribe (as defined in section 207(m)(1)) may be up to 100 percent.

"(iii) NON-FEDERAL SHARE.—The eligible entity may use Federal funds other than Federal funds provided under this subsection to meet the non-Federal cost share requirement for a project carried out with a grant under this subsection.

"(F) ELIGIBLE PROJECT COSTS.—

"(i) RESILIENCE GRANT PROJECTS.—Eligible project costs for activities funded with a grant under subparagraph (A), (B), or (C) of paragraph (4) may include the costs of—

"(I) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

"(II) construction, reconstruction, rehabilitation, and acquisition of real property (including land related to the project and improvements to land), environmental mitigation, construction contingencies, acquisition of equipment directly related to improving system performance, and operational improvements.

"(ii) PLANNING GRANTS.—Eligible project costs for activities funded with a grant under paragraph (3) may include the costs of development phase activities,

AMERICAN OVERSIGHT

including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, other preconstruction activities, and other activities consistent with carrying out the purposes of that paragraph.

"(G) LIMITATIONS.—

"(i) IN GENERAL.—An eligible entity that receives a grant under subparagraph (A), (B), or (C) of paragraph (4)—

"(I) may use not more than 40 percent of the amount of the grant for the construction of new capacity; and

"(II) may use not more than 10 percent of the amount of the grant for activities described in subparagraph (F)(i)(I).

"(ii) LIMIT ON CERTAIN ACTIVITIES.—For each fiscal year, not more than 25 percent of the total amount provided under this subsection may be used for projects described in subparagraph (C)(iii).

"(H) DISTRIBUTION OF GRANTS.—

"(i) IN GENERAL.—Subject to the availability of funds, an eligible entity may request and the Secretary may distribute funds for a grant under this subsection on a multiyear basis, as the Secretary determines to be necessary.

"(ii) RURAL SET-ASIDE.—Of the amounts made available to carry out this subsection for each fiscal year, the Secretary shall use not less than 25 percent for grants for projects located in areas that are outside an urbanized area with a population of over 200,000.

"(iii) TRIBAL SET-ASIDE.—Of the amounts made available to carry out this subsection for each fiscal year, the Secretary shall use not less than 2 percent for grants to Indian tribes (as defined in section 207(m)(1)).

"(iv) REALLOCATION.—For any fiscal year, if the Secretary determines that the amount described in clause (ii) or (iii) will not be fully utilized for the grant described in that clause, the Secretary may reallocate the unutilized funds to provide grants to other eligible entities under this subsection.

"(6) CONSULTATION.—In carrying out this subsection, the Secretary shall—

"(A) consult with the Assistant Secretary of the Army for Civil Works, the Administrator of the Environmental Protection Agency, the Secretary of the Interior, and the Secretary of Commerce; and

"(B) solicit technical support from the Administrator of the Federal Emergency Management Agency.

"(7) GRANT ADMINISTRATION.—The Secretary may—

"(A) retain not more than a total of 5 percent of the funds made available to carry out this subsection and to review applications for grants under this subsection; and

"(B) transfer portions of the funds retained under subparagraph (A) to the relevant Administrators to fund the award and oversight of grants provided under this subsection.

AMERICAN OVERSIGHT

"(e) RESILIENCE IMPROVEMENT PLAN AND LOWER NON-FEDERAL SHARE.—

"(1) FEDERAL SHARE REDUCTIONS.—

"(A) IN GENERAL.—A State that receives funds apportioned to the State under section 104(b)(8) or an eligible entity that receives a grant under subsection (d) shall have the non-Federal share of a project carried out with the funds or grant, as applicable, reduced by an amount described in subparagraph (B) if the State or eligible entity meets the applicable requirements under that subparagraph.

"(B) AMOUNT OF REDUCTIONS.—

"(i) RESILIENCE IMPROVEMENT PLAN.—Subject to clause (iii), the amount of the non-Federal share of the costs of a project carried out with funds apportioned to a State under section 104(b)(8) or a grant under subsection (d) shall be reduced by 7 percentage points if—

"(I) in the case of a State or an eligible entity that is a State or a metropolitan planning organization, the State or eligible entity has—

"(aa) developed a resilience improvement plan in accordance with this subsection; and

"(bb) prioritized the project on that resilience improvement plan; and

"(II) in the case of an eligible entity not described in subclause (I), the eligible entity is located in a State or an area served by a metropolitan planning organization that has—

"(aa) developed a resilience improvement plan in accordance with this subsection; and

"(bb) prioritized the project on that resilience improvement plan.

"(ii) INCORPORATION OF RESILIENCE IMPROVEMENT PLAN IN OTHER PLANNING.—Subject to clause (iii), the amount of the non-Federal share of the cost of a project carried out with funds under subsection (c) or a grant under subsection (d) shall be reduced by 3 percentage points if—

"(I) in the case of a State or an eligible entity that is a State or a metropolitan planning organization, the resilience improvement plan developed in accordance with this subsection has been incorporated into the metropolitan transportation plan under section 134 or the long-range statewide transportation plan under section 135, as applicable; and

"(II) in the case of an eligible entity not described in subclause (I), the eligible entity is located in a State or an area served by a metropolitan planning organization that incorporated a resilience improvement plan into the metropolitan transportation plan under section 134 or the long-range statewide transportation plan under section 135, as applicable.

"(iii) LIMITATIONS.—

AMERICAN OVERSIGHT

"(I) MAXIMUM REDUCTION.—A State or eligible entity may not receive a reduction under this paragraph of more than 10 percentage points for any single project carried out with funds under subsection (c) or a grant under subsection (d).

"(II) NO NEGATIVE NON-FEDERAL SHARE.—A reduction under this paragraph shall not reduce the non-Federal share of the costs of a project carried out with funds under subsection (c) or a grant under subsection (d) to an amount that is less than zero.

"(2) PLAN CONTENTS.—A resilience improvement plan referred to in paragraph (1)—

"(A) shall be for the immediate and long-range planning activities and investments of the State or metropolitan planning organization with respect to resilience of the surface transportation system within the boundaries of the State or metropolitan planning organization, as applicable;

"(B) shall demonstrate a systemic approach to surface transportation system resilience and be consistent with and complementary of the State and local mitigation plans required under section 322 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5165);

"(C) shall include a risk-based assessment of vulnerabilities of transportation assets and systems to current and future weather events and natural disasters, such as severe storms, flooding, drought, levee and dam failures, wildfire, rockslides, mudslides, sea level rise, extreme weather, including extreme temperatures, and earthquakes;

"(D) may—

"(i) designate evacuation routes and strategies, including multimodal facilities, designated with consideration for individuals without access to personal vehicles;

"(ii) plan for response to anticipated emergencies, including plans for the mobility of—

"(I) emergency response personnel and equipment; and

"(II) access to emergency services, including for vulnerable or disadvantaged populations;

"(iii) describe the resilience improvement policies, including strategies, land-use and zoning changes, investments in natural infrastructure, or performance measures that will inform the transportation investment decisions of the State or metropolitan planning organization with the goal of increasing resilience;

"(iv) include an investment plan that—

"(I) includes a list of priority projects; and

"(II) describes how funds apportioned to the State under section 104(b)(8) or provided by a grant under the program would be invested and matched, which shall not be subject to fiscal constraint requirements; and

"(v) use science and data and indicate the source of data and methodologies; and

AMERICAN OVERSIGHT

"(E) shall, as appropriate—

"(i) include a description of how the plan will improve the ability of the State or metropolitan planning organization—

"(I) to respond promptly to the impacts of weather events and natural disasters; and

"(II) to be prepared for changing conditions, such as sea level rise and increased flood risk;

"(ii) describe the codes, standards, and regulatory framework, if any, adopted and enforced to ensure resilience improvements within the impacted area of proposed projects included in the resilience improvement plan;

"(iii) consider the benefits of combining hard surface transportation assets, and natural infrastructure, through coordinated efforts by the Federal Government and the States;

"(iv) assess the resilience of other community assets, including buildings and housing, emergency management assets, and energy, water, and communication infrastructure;

"(v) use a long-term planning period; and

"(vi) include such other information as the State or metropolitan planning organization considers appropriate.

"(3) NO NEW PLANNING REQUIREMENTS.—Nothing in this section requires a metropolitan planning organization or a State to develop a resilience improvement plan or to include a resilience improvement plan under the metropolitan transportation plan under section 134 or the long-range statewide transportation plan under section 135, as applicable, of the metropolitan planning organization or State.

"(f) MONITORING.—

"(1) IN GENERAL.—Not later than 18 months after the date of enactment of this section, the Secretary shall—

"(A) establish, for the purpose of evaluating the effectiveness and impacts of projects carried out with a grant under subsection (d)—

"(i) subject to paragraph (2), transportation and any other metrics as the Secretary determines to be necessary; and

"(ii) procedures for monitoring and evaluating projects based on those metrics; and

"(B) select a representative sample of projects to evaluate based on the metrics and procedures established under subparagraph (A).

"(2) NOTICE.—Before adopting any metrics described in paragraph (1), the Secretary shall—

"(A) publish the proposed metrics in the Federal Register; and

"(B) provide to the public an opportunity for comment on the proposed metrics.

"(g) REPORTS.—

"(1) REPORTS FROM ELIGIBLE ENTITIES.—Not later than 1 year after the date on which a project carried out with a grant under subsection (d) is completed, the eligible entity that carried out the project shall submit to the Secretary a

AMERICAN OVERSIGHT

report on the results of the project and the use of the funds awarded.

"(2) REPORTS TO CONGRESS.—

"(A) ANNUAL REPORTS.—The Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives, and publish on the website of the Department of Transportation, an annual report that describes the implementation of the program during the preceding calendar year, including—

"(i) each project for which a grant was provided under subsection (d);

"(ii) information relating to project applications received;

"(iii) the manner in which the consultation requirements were implemented under subsection (d);

"(iv) recommendations to improve the administration of subsection (d), including whether assistance from additional or fewer agencies to carry out the program is appropriate;

"(v) the period required to disburse grant funds to eligible entities based on applicable Federal coordination requirements; and

"(vi) a list of facilities that repeatedly require repair or reconstruction due to emergency events.

"(B) FINAL REPORT.—Not later than 5 years after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Secretary shall submit to Congress a report that includes the results of the reports submitted under subparagraph (A).

"(h) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project assisted under this section shall be treated as a project on a Federal-aid highway under this chapter.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code (as amended by section 11403(b)), is amended by inserting after the item relating to section 175 the following:

"176. Promoting Resilient Operations for Transformative, Efficient, and Cost-saving Transportation (PROTECT) program.".

SEC. 11406. HEALTHY STREETS PROGRAM.

(a) DEFINITIONS.—In this section:

(1) COOL PAVEMENT.—The term "cool pavement" means a pavement with reflective surfaces with higher albedo to decrease the surface temperature of that pavement.

(2) ELIGIBLE ENTITY.—The term "eligible entity" means—

(A) a State;

(B) a metropolitan planning organization;

(C) a unit of local government;

(D) a Tribal government; and

(E) a nonprofit organization working in coordination with an entity described in subparagraphs (A) through (D).

(3) LOW-INCOME COMMUNITY.—The term "low-income community" means a census block group in which not less than 30 percent of the population lives below the poverty line

AMERICAN OVERSIGHT

(as defined in section 673 of the Community Services Block Grant Act (42 U.S.C. 9902)).

(4) POROUS PAVEMENT.—The term "porous pavement" means a paved surface with a higher than normal percentage of air voids to allow water to pass through the surface and infiltrate into the subsoil.

(5) PROGRAM.—The term "program" means the Healthy Streets program established under subsection (b).

(6) STATE.—The term "State" has the meaning given the term in section 101(a) of title 23, United States Code.

(7) TRIBAL GOVERNMENT.—The term "Tribal government" means the recognized governing body of any Indian or Alaska Native tribe, band, nation, pueblo, village, community, component band, or component reservation, individually identified (including parenthetically) in the list published most recently as of the date of enactment of this Act pursuant to section 104 of the Federally Recognized Indian Tribe List Act of 1994 (25 U.S.C. 5131).

(b) ESTABLISHMENT.—The Secretary shall establish a discretionary grant program, to be known as the "Healthy Streets program", to provide grants to eligible entities—

(1) to deploy cool pavements and porous pavements; and

(2) to expand tree cover.

(c) GOALS.—The goals of the program are—

(1) to mitigate urban heat islands;

(2) to improve air quality; and

(3) to reduce—

(A) the extent of impervious surfaces;

(B) stormwater runoff and flood risks; and

(C) heat impacts to infrastructure and road users.

(d) APPLICATION.—

(1) IN GENERAL.—To be eligible to receive a grant under the program, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(2) REQUIREMENTS.—The application submitted by an eligible entity under paragraph (1) shall include a description of—

(A) how the eligible entity would use the grant funds; and

(B) the contribution that the projects intended to be carried out with grant funds would make to improving the safety, health outcomes, natural environment, and quality of life in low-income communities and disadvantaged communities.

(e) USE OF FUNDS.—An eligible entity that receives a grant under the program may use the grant funds for 1 or more of the following activities:

(1) Conducting an assessment of urban heat islands to identify hot spot areas of extreme heat or elevated air pollution.

(2) Conducting a comprehensive tree canopy assessment, which shall assess the current tree locations and canopy, including—

(A) an inventory of the location, species, condition, and health of existing tree canopies and trees on public facilities; and

(B) an identification of—

AMERICAN OVERSIGHT

(i) the locations where trees need to be replaced;

(ii) empty tree boxes or other locations where trees could be added; and

(iii) flood-prone locations where trees or other natural infrastructure could mitigate flooding.

(3) Conducting an equity assessment by mapping tree canopy gaps, flood-prone locations, and urban heat island hot spots as compared to—

(A) pedestrian walkways and public transportation stop locations;

(B) low-income communities; and

(C) disadvantaged communities.

(4) Planning activities, including developing an investment plan based on the results of the assessments carried out under paragraphs (1), (2), and (3).

(5) Purchasing and deploying cool pavements to mitigate urban heat island hot spots.

(6) Purchasing and deploying porous pavement to mitigate flooding and stormwater runoff in—

(A) pedestrian-only areas; and

(B) areas of low-volume, low-speed vehicular use.

(7) Purchasing of trees, site preparation, planting of trees, ongoing maintenance and monitoring of trees, and repairing of storm damage to trees, with priority given to—

(A) to the extent practicable, the planting of native species; and

(B) projects located in a neighborhood with lower tree cover or higher maximum daytime summer temperatures compared to surrounding neighborhoods.

(8) Assessing underground infrastructure and coordinating with local transportation and utility providers.

(9) Hiring staff to conduct any of the activities described in paragraphs (1) through (8).

(f) PRIORITY.—In awarding grants to eligible entities under the program, the Secretary shall give priority to an eligible entity—

(1) proposing to carry out an activity or project in a low-income community or a disadvantaged community;

(2) that has entered into a community benefits agreement with representatives of the community; or

(3) that is partnering with a qualified youth or conservation corps (as defined in section 203 of the Public Lands Corps Act of 1993 (16 U.S.C. 1722)).

(g) DISTRIBUTION REQUIREMENT.—Of the amounts made available to carry out the program for each fiscal year, not less than 80 percent shall be provided for projects in urbanized areas (as defined in section 101(a) of title 23, United States Code).

(h) FEDERAL SHARE.—

(1) IN GENERAL.—Except as provided under paragraph (2), the Federal share of the cost of a project carried out under the program shall be 80 percent.

(2) WAIVER.—The Secretary may increase the Federal share requirement under paragraph (1) to 100 percent for projects carried out by an eligible entity that demonstrates economic hardship, as determined by the Secretary.

(i) MAXIMUM GRANT AMOUNT.—An individual grant under this section shall not exceed $15,000,000.

AMERICAN OVERSIGHT

(j) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project assisted under this section shall be treated as a project on a Federal-aid highway under chapter 1 of title 23, United States Code.

Subtitle E—Miscellaneous

SEC. 11501. ADDITIONAL DEPOSITS INTO HIGHWAY TRUST FUND.

(a) IN GENERAL.—Section 105 of title 23, United States Code, is repealed.

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by striking the item relating to section 105.

SEC. 11502. STOPPING THREATS ON PEDESTRIANS.

(a) DEFINITION OF BOLLARD INSTALLATION PROJECT.—In this section, the term "bollard installation project" means a project to install raised concrete or metal posts on a sidewalk adjacent to a roadway that are designed to slow or stop a motor vehicle.

(b) ESTABLISHMENT.—Not later than 1 year after the date of enactment of this Act and subject to the availability of appropriations, the Secretary shall establish and carry out a competitive grant pilot program to provide assistance to State departments of transportation and local government entities for bollard installation projects designed to prevent pedestrian injuries and acts of terrorism in areas used by large numbers of pedestrians.

(c) APPLICATION.—To be eligible to receive a grant under this section, a State department of transportation or local government entity shall submit to the Secretary an application at such time, in such form, and containing such information as the Secretary determines to be appropriate, which shall include, at a minimum—

(1) a description of the proposed bollard installation project to be carried out;

(2) a description of the pedestrian injury or terrorism risks with respect to the proposed installation area; and

(3) an analysis of how the proposed bollard installation project will mitigate those risks.

(d) USE OF FUNDS.—A recipient of a grant under this section may only use the grant funds for a bollard installation project.

(e) FEDERAL SHARE.—The Federal share of the costs of a bollard installation project carried out with a grant under this section may be up to 100 percent.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary to carry out this section $5,000,000 for each of fiscal years 2022 through 2026.

(g) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project assisted under this section shall be treated as a project on a Federal-aid highway under chapter 1 of title 23, United States Code.

SEC. 11503. TRANSFER AND SALE OF TOLL CREDITS.

(a) DEFINITIONS.—In this section:

(1) ORIGINATING STATE.—The term "originating State" means a State that—

(A) is eligible to use a credit under section 120(i) of title 23, United States Code; and

AMERICAN OVERSIGHT

(B) has been selected by the Secretary under subsection (d)(2).

(2) PILOT PROGRAM.—The term "pilot program" means the pilot program established under subsection (b).

(3) RECIPIENT STATE.—The term "recipient State" means a State that receives a credit by transfer or by sale under this section from an originating State.

(4) STATE.—The term "State" has the meaning given the term in section 101(a) of title 23, United States Code.

(b) ESTABLISHMENT OF PILOT PROGRAM.—The Secretary shall establish and implement a toll credit exchange pilot program in accordance with this section.

(c) PURPOSES.—The purposes of the pilot program are—

(1) to identify the extent of the demand to purchase toll credits;

(2) to identify the cash price of toll credits through bilateral transactions between States;

(3) to analyze the impact of the purchase or sale of toll credits on transportation expenditures;

(4) to test the feasibility of expanding the pilot program to allow all States to participate on a permanent basis; and

(5) to identify any other repercussions of the toll credit exchange.

(d) SELECTION OF ORIGINATING STATES.—

(1) APPLICATION.—In order to participate in the pilot program as an originating State, a State shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including, at a minimum, such information as is required for the Secretary to verify—

(A) the amount of unused toll credits for which the State has submitted certification to the Secretary that are available to be sold or transferred under the pilot program, including—

(i) toll revenue generated and the sources of that revenue;

(ii) toll revenue used by public, quasi-public, and private agencies to build, improve, or maintain highways, bridges, or tunnels that serve the public purpose of interstate commerce; and

(iii) an accounting of any Federal funds used by the public, quasi-public, or private agency to build, improve, or maintain the toll facility, to validate that the credit has been reduced by a percentage equal to the percentage of the total cost of building, improving, or maintaining the facility that was derived from Federal funds;

(B) the documentation of maintenance of effort for toll credits earned by the originating State; and

(C) the accuracy of the accounting system of the State to earn and track toll credits.

(2) SELECTION.—Of the States that submit an application under paragraph (1), the Secretary may select not more than 10 States to be designated as an originating State.

(3) LIMITATION ON SALES.—At any time, the Secretary may limit the amount of unused toll credits that may be offered for sale under the pilot program.

AMERICAN OVERSIGHT

(e) TRANSFER OR SALE OF CREDITS.—

(1) IN GENERAL.—In carrying out the pilot program, the Secretary shall provide that an originating State may transfer or sell to a recipient State a credit not previously used by the originating State under section 120(i) of title 23, United States Code.

(2) WEBSITE SUPPORT.—The Secretary shall make available a publicly accessible website on which originating States shall post the amount of toll credits, verified under subsection (d)(1)(A), that are available for sale or transfer to a recipient State.

(3) BILATERAL TRANSACTIONS.—An originating State and a recipient State may enter into a bilateral transaction to sell or transfer verified toll credits.

(4) NOTIFICATION.—Not later than 30 days after the date on which a credit is transferred or sold, the originating State and the recipient State shall jointly submit to the Secretary a written notification of the transfer or sale, including details on—

(A) the amount of toll credits that have been sold or transferred;

(B) the price paid or other value transferred in exchange for the toll credits;

(C) the intended use by the recipient State of the toll credits, if known;

(D) the intended use by the originating State of the cash or other value transferred;

(E) an update on the toll credit balance of the originating State and the recipient State; and

(F) any other information about the transaction that the Secretary may require.

(5) USE OF CREDITS BY TRANSFEREE OR PURCHASER.—A recipient State may use a credit received under paragraph (1) toward the non-Federal share requirement for any funds made available to carry out title 23 or chapter 53 of title 49, United States Code, in accordance with section 120(i) of title 23, United States Code.

(6) USE OF PROCEEDS FROM SALE OF CREDITS.—An originating State shall use the proceeds from the sale of a credit under paragraph (1) for the construction costs of any project in the originating State that is eligible under title 23, United States Code.

(f) REPORTING REQUIREMENTS.—

(1) INITIAL REPORT.—Not later than 1 year after the date on which the pilot program is established, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the progress of the pilot program.

(2) FINAL REPORT.—Not later than 3 years after the date on which the pilot program is established, the Secretary shall—

(A) submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that—

(i) determines whether a toll credit marketplace is viable and cost-effective;

AMERICAN OVERSIGHT

(ii) describes the buying and selling activities under the pilot program;

(iii) describes the average sale price of toll credits;

(iv) determines whether the pilot program could be expanded to more States or all States or to non-State operators of toll facilities;

(v) provides updated information on the toll credit balance accumulated by each State; and

(vi) describes the list of projects that were assisted by the pilot program; and

(B) make the report under subparagraph (A) publicly available on the website of the Department.

(g) TERMINATION.—

(1) IN GENERAL.—The Secretary may terminate the pilot program or the participation of any State in the pilot program if the Secretary determines that—

(A) the pilot program is not serving a public benefit; or

(B) it is not cost effective to carry out the pilot program.

(2) PROCEDURES.—The termination of the pilot program or the participation of a State in the pilot program shall be carried out consistent with Federal requirements for project closeout, adjustment, and continuing responsibilities.

SEC. 11504. STUDY OF IMPACTS ON ROADS FROM SELF-DRIVING VEHICLES.

(a) IN GENERAL.—Not later than 60 days after the date of enactment of this Act, the Secretary shall initiate a study on the existing and future impacts of self-driving vehicles to transportation infrastructure, mobility, the environment, and safety, including impacts on—

(1) the Interstate System (as defined in section 101(a) of title 23, United States Code);

(2) urban roads;

(3) rural roads;

(4) corridors with heavy traffic congestion;

(5) transportation systems optimization; and

(6) any other areas or issues relevant to operations of the Federal Highway Administration that the Secretary determines to be appropriate.

(b) CONTENTS OF STUDY.—The study under subsection (a) shall include specific recommendations for both rural and urban communities regarding the impacts of self-driving vehicles on existing transportation system capacity.

(c) CONSIDERATIONS.—In carrying out the study under subsection (a), the Secretary shall—

(1) consider the need for and recommend any policy changes to be undertaken by the Federal Highway Administration on the impacts of self-driving vehicles as identified under paragraph (2); and

(2) for both rural and urban communities, include a discussion of—

(A) the impacts that self-driving vehicles will have on existing transportation infrastructure, such as signage and markings, traffic lights, and highway capacity and design;

(B) the impact on commercial and private traffic flows;

AMERICAN OVERSIGHT

(C) infrastructure improvement needs that may be necessary for transportation infrastructure to accommodate self-driving vehicles;

(D) the impact of self-driving vehicles on the environment, congestion, and vehicle miles traveled; and

(E) the impact of self-driving vehicles on mobility.

(d) COORDINATION.—In carrying out the study under subsection (a), the Secretary shall consider and incorporate relevant current and ongoing research of the Department.

(e) CONSULTATION.—In carrying out the study under subsection (a), the Secretary shall convene and consult with a panel of national experts in both rural and urban transportation, including—

(1) operators and users of the Interstate System (as defined in section 101(a) of title 23, United States Code), including private sector stakeholders;

(2) States and State departments of transportation;

(3) metropolitan planning organizations;

(4) the motor carrier industry;

(5) representatives of public transportation agencies or organizations;

(6) highway safety and academic groups;

(7) nonprofit entities with experience in transportation policy;

(8) National Laboratories (as defined in section 2 of the Energy Policy Act of 2005 (42 U.S.C. 15801));

(9) environmental stakeholders; and

(10) self-driving vehicle producers, manufacturers, and technology developers.

(f) REPORT.—Not later than 1 year after the date on which the study under subsection (a) is initiated, the Secretary shall submit a report on the results of the study to—

(1) the Committee on Environment and Public Works of the Senate; and

(2) the Committee on Transportation and Infrastructure of the House of Representatives.

SEC. 11505. DISASTER RELIEF MOBILIZATION STUDY.

(a) DEFINITION OF LOCAL COMMUNITY.—In this section, the term "local community" means—

(1) a unit of local government;

(2) a political subdivision of a State or local government;

(3) a metropolitan planning organization (as defined in section 134(b) of title 23, United States Code);

(4) a rural planning organization; or

(5) a Tribal government.

(b) STUDY.—

(1) IN GENERAL.—The Secretary shall carry out a study to determine the utility of incorporating the use of bicycles into the disaster preparedness and disaster response plans of local communities.

(2) REQUIREMENTS.—The study carried out under paragraph (1) shall include—

(A) a vulnerability assessment of the infrastructure in local communities as of the date of enactment of this Act that supports active transportation, including bicycling, walking, and personal mobility devices, with a particular focus on areas in local communities that—

AMERICAN OVERSIGHT

(i) have low levels of vehicle ownership; and

(ii) lack sufficient active transportation infrastructure routes to public transportation;

(B) an evaluation of whether disaster preparedness and disaster response plans should include the use of bicycles by first responders, emergency workers, and community organization representatives—

(i) during a mandatory or voluntary evacuation ordered by a Federal, State, Tribal, or local government entity—

(I) to notify residents of the need to evacuate;

(II) to evacuate individuals and goods; and

(III) to reach individuals who are in need of first aid and medical assistance; and

(ii) after a disaster or emergency declared by a Federal, State, Tribal, or local government entity—

(I) to participate in search and rescue activities;

(II) to carry commodities to be used for life-saving or life-sustaining purposes, including—

(aa) water;

(bb) food;

(cc) first aid and other medical supplies; and

(dd) power sources and electric supplies, such as cell phones, radios, lights, and batteries;

(III) to reach individuals who are in need of the commodities described in subclause (II); and

(IV) to assist with other disaster relief tasks, as appropriate; and

(C) a review of training programs for first responders, emergency workers, and community organization representatives relating to—

(i) competent bicycle skills, including the use of cargo bicycles and electric bicycles, as applicable;

(ii) basic bicycle maintenance;

(iii) compliance with relevant traffic safety laws;

(iv) methods to use bicycles to carry out the activities described in clauses (i) and (ii) of subparagraph (2)(B); and

(v) exercises conducted for the purpose of—

(I) exercising the skills described in clause (i); and

(II) maintaining bicycles and related equipment.

(c) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that—

(1) describes the results of the study carried out under subsection (b); and

(2) provides recommendations, if any, relating to—

(A) the methods by which to incorporate bicycles into disaster preparedness and disaster response plans of local communities; and

AMERICAN OVERSIGHT

(B) improvements to training programs described in subsection (b)(2)(C).

SEC. 11506. APPALACHIAN REGIONAL COMMISSION.

(a) DEFINITIONS.—Section 14102(a)(1) of title 40, United States Code, is amended—

(1) in subparagraph (G)—

(A) by inserting "Catawba," after "Caldwell,"; and

(B) by inserting "Cleveland," after "Clay,";

(2) in subparagraph (J), by striking "and Spartanburg" and inserting "Spartanburg, and Union"; and

(3) in subparagraph (M), by inserting ", of which the counties of Brooke, Hancock, Marshall, and Ohio shall be considered to be located in the North Central subregion" after "West Virginia".

(b) FUNCTIONS.—Section 14303(a) of title 40, United States Code, is amended—

(1) in paragraph (9), by striking "and" at the end;

(2) in paragraph (10), by striking the period at the end and inserting "; and"; and

(3) by adding at the end the following:

"(11) support broadband access in the Appalachian region.".

(c) CONGRESSIONAL NOTIFICATION.—

(1) IN GENERAL.—Subchapter II of chapter 143 of subtitle IV of title 40, United States Code, is amended by adding at the end the following:

"§ 14323. Congressional notification

"(a) IN GENERAL.—In the case of a project described in subsection (b), the Appalachian Regional Commission shall provide to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate notice of the award of a grant or other financial assistance not less than 3 full business days before awarding the grant or other financial assistance.

"(b) PROJECTS DESCRIBED.—A project referred to in subsection (a) is a project that the Appalachian Regional Commission has selected to receive a grant or other financial assistance under this subtitle in an amount not less than $50,000.".

(2) CLERICAL AMENDMENT.—The analysis for subchapter II of chapter 143 of subtitle IV of title 40, United States Code, is amended by adding at the end the following:

"14323. Congressional notification.".

(d) HIGH-SPEED BROADBAND DEPLOYMENT INITIATIVE.—Section 14509 of title 40, United States Code, is amended—

(1) by striking subsection (a) and inserting the following:

"(a) IN GENERAL.—The Appalachian Regional Commission may provide technical assistance, make grants, enter into contracts, or otherwise provide amounts to individuals or entities in the Appalachian region for projects and activities to increase affordable access to broadband networks throughout the Appalachian region.";

(2) by redesignating subsections (b) through (d) as subsections (c) through (e), respectively;

(3) by inserting after subsection (a) the following:

"(b) ELIGIBLE PROJECTS AND ACTIVITIES.—A project or activity eligible to be carried out under this section is a project or activity—

AMERICAN OVERSIGHT

"(1) to conduct research, analysis, and training to increase broadband adoption efforts in the Appalachian region; or

"(2) for the construction and deployment of broadband service-related infrastructure in the Appalachian region.";

(4) in subsection (d) (as so redesignated), in the matter preceding paragraph (1), by striking "subsection (b)" and inserting "subsection (c)"; and

(5) by adding at the end the following:

"(f) REQUEST FOR DATA.—Before making a grant for a project or activity described in subsection (b)(2), the Appalachian Regional Commission shall request from the Federal Communications Commission, the National Telecommunications and Information Administration, the Economic Development Administration, and the Department of Agriculture data on—

"(1) the level and extent of broadband service that exists in the area proposed to be served by the broadband service-related infrastructure; and

"(2) the level and extent of broadband service that will be deployed in the area proposed to be served by the broadband service-related infrastructure pursuant to another Federal program.

"(g) REQUIREMENT.—For each fiscal year, not less than 65 percent of the amounts made available to carry out this section shall be used for grants for projects and activities described in subsection (b)(2).".

(e) APPALACHIAN REGIONAL ENERGY HUB INITIATIVE.—

(1) IN GENERAL.—Subchapter I of chapter 145 of subtitle IV of title 40, United States Code, is amended by adding at the end the following:

"§ 14511. Appalachian regional energy hub initiative

"(a) IN GENERAL.—The Appalachian Regional Commission may provide technical assistance to, make grants to, enter into contracts with, or otherwise provide amounts to individuals or entities in the Appalachian region for projects and activities—

"(1) to conduct research and analysis regarding the economic impact of an ethane storage hub in the Appalachian region that supports a more-effective energy market performance due to the scale of the project, such as a project with the capacity to store and distribute more than 100,000 barrels per day of hydrocarbon feedstock with a minimum gross heating value of 1,700 Btu per standard cubic foot;

"(2) with the potential to significantly contribute to the economic resilience of the area in which the project is located; and

"(3) that will help establish a regional energy hub in the Appalachian region for natural gas and natural gas liquids, including hydrogen produced from the steam methane reforming of natural gas feedstocks.

"(b) LIMITATION ON AVAILABLE AMOUNTS.—Of the cost of any project or activity eligible for a grant under this section—

"(1) except as provided in paragraphs (2) and (3), not more than 50 percent may be provided from amounts made available to carry out this section;

"(2) in the case of a project or activity to be carried out in a county for which a distressed county designation is in effect under section 14526, not more than 80 percent may

AMERICAN OVERSIGHT

be provided from amounts made available to carry out this section; and

"(3) in the case of a project or activity to be carried out in a county for which an at-risk county designation is in effect under section 14526, not more than 70 percent may be provided from amounts made available to carry out this section.

"(c) SOURCES OF ASSISTANCE.—Subject to subsection (b), a grant provided under this section may be provided from amounts made available to carry out this section, in combination with amounts made available—

"(1) under any other Federal program; or

"(2) from any other source.

"(d) FEDERAL SHARE.—Notwithstanding any provision of law limiting the Federal share under any other Federal program, amounts made available to carry out this section may be used to increase that Federal share, as the Appalachian Regional Commission determines to be appropriate.".

(2) CLERICAL AMENDMENT.—The analysis for subchapter I of chapter 145 of title 40, United States Code, is amended by adding at the end the following:

"14511. Appalachian regional energy hub initiative.".

(f) AUTHORIZATION OF APPROPRIATIONS.—Section 14703 of title 40, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (4), by striking "and" at the end;

(B) in paragraph (5), by striking the period at the end and inserting "; and"; and

(C) by adding at the end the following:

"(6) $200,000,000 for each of fiscal years 2022 through 2026.";

(2) in subsection (c), by striking "$10,000,000 may be used to carry out section 14509 for each of fiscal years 2016 through 2021" and inserting "$20,000,000 may be used to carry out section 14509 for each of fiscal years 2022 through 2026";

(3) by redesignating subsections (d) and (e) as subsections (e) and (f), respectively; and

(4) by inserting after subsection (c) the following:

"(d) APPALACHIAN REGIONAL ENERGY HUB INITIATIVE.—Of the amounts made available under subsection (a), $5,000,000 shall be used to carry out section 14511 for each of fiscal years 2022 through 2026.".

(g) TERMINATION.—Section 14704 of title 40, United States Code, is amended by striking "2021" and inserting "2026".

SEC. 11507. DENALI COMMISSION.

(a) DENALI ACCESS SYSTEM PROGRAM.—Notwithstanding subsection (j) of section 309 of the Denali Commission Act of 1998 (42 U.S.C. 3121 note; Public Law 105–277), there is authorized to be appropriated $20,000,000 for each of fiscal years 2022 through 2026 to carry out that section.

(b) TRANSFERS OF FUNDS.—Section 311(c) of the Denali Commission Act of 1998 (42 U.S.C. 3121 note; Public Law 105–277) is amended—

(1) in paragraph (1), by striking "and" at the end;

(2) in paragraph (2), by striking the period at the end and inserting "; and"; and

(3) by adding at the end the following:

AMERICAN OVERSIGHT

"(3) notwithstanding any other provision of law, shall—

"(A) be treated as if directly appropriated to the Commission and subject to applicable provisions of this Act; and

"(B) not be subject to any requirements that applied to the funds before the transfer, including a requirement in an appropriations Act or a requirement or regulation of the Federal agency from which the funds are transferred.".

SEC. 11508. REQUIREMENTS FOR TRANSPORTATION PROJECTS CARRIED OUT THROUGH PUBLIC-PRIVATE PARTNERSHIPS.

(a) DEFINITIONS.—In this section:

(1) PROJECT.—The term "project" means a project (as defined in section 101 of title 23, United States Code) that—

(A) is carried out, in whole or in part, using Federal financial assistance; and

(B) has an estimated total cost of $100,000,000 or more.

(2) PUBLIC-PRIVATE PARTNERSHIP.—The term "public-private partnership" means an agreement between a public agency and a private entity to finance, build, and maintain or operate a project.

(b) REQUIREMENTS FOR PROJECTS CARRIED OUT THROUGH PUBLIC-PRIVATE PARTNERSHIPS.—With respect to a public-private partnership, as a condition of receiving Federal financial assistance for a project, the Secretary shall require the public partner, not later than 3 years after the date of opening of the project to traffic—

(1) to conduct a review of the project, including a review of the compliance of the private partner with the terms of the public-private partnership agreement;

(2)(A) to certify to the Secretary that the private partner of the public-private partnership is meeting the terms of the public-private partnership agreement for the project; or

(B) to notify the Secretary that the private partner of the public-private partnership has not met 1 or more of the terms of the public-private partnership agreement for the project, including a brief description of each violation of the public-private partnership agreement; and

(3) to make publicly available the certification or notification, as applicable, under paragraph (2) in a form that does not disclose any proprietary or confidential business information.

(c) NOTIFICATION.—If the Secretary provides Federal financial assistance to a project carried out through a public-private partnership, not later than 30 days after the date on which the Federal financial assistance is first obligated, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a notification of the Federal financial assistance made available for the project.

(d) VALUE FOR MONEY ANALYSIS.—

(1) PROJECT APPROVAL AND OVERSIGHT.—Section 106(h)(3) of title 23, United States Code, is amended—

(A) in subparagraph (C), by striking "and" at the end;

AMERICAN OVERSIGHT

(B) by redesignating subparagraph (D) as subparagraph (E); and

(C) by inserting after subparagraph (C) the following:

"(D) for a project in which the project sponsor intends to carry out the project through a public-private partnership agreement, shall include a detailed value for money analysis or similar comparative analysis for the project; and".

(2) SURFACE TRANSPORTATION BLOCK GRANT PROGRAM.—Paragraph (21) of section 133(b) of title 23, United States Code (as redesignated by section 1109(a)(1)(C)), is amended by inserting ", including conducting value for money analyses or similar comparative analyses," after "oversight".

(3) TIFIA.—Section 602(a) of title 23, United States Code, is amended by adding at the end the following:

"(11) PUBLIC-PRIVATE PARTNERSHIPS.—In the case of a project to be carried out through a public-private partnership, the public partner shall have—

"(A) conducted a value for money analysis or similar comparative analysis; and

"(B) determined the appropriateness of the public-private partnership agreement.".

(e) APPLICABILITY.—This section and the amendments made by this section shall only apply to a public-private partnership agreement entered into on or after the date of enactment of this Act.

SEC. 11509. RECONNECTING COMMUNITIES PILOT PROGRAM.

(a) DEFINITION OF ELIGIBLE FACILITY.—

(1) IN GENERAL.—In this section, the term "eligible facility" means a highway or other transportation facility that creates a barrier to community connectivity, including barriers to mobility, access, or economic development, due to high speeds, grade separations, or other design factors.

(2) INCLUSIONS.—In this section, the term "eligible facility" may include—

(A) a limited access highway;

(B) a viaduct; and

(C) any other principal arterial facility.

(b) ESTABLISHMENT.—The Secretary shall establish a pilot program through which an eligible entity may apply for funding, in order to restore community connectivity—

(1) to study the feasibility and impacts of removing, retrofitting, or mitigating an existing eligible facility;

(2) to conduct planning activities necessary to design a project to remove, retrofit, or mitigate an existing eligible facility; and

(3) to conduct construction activities necessary to carry out a project to remove, retrofit, or mitigate an existing eligible facility.

(c) PLANNING GRANTS.—

(1) ELIGIBLE ENTITIES.—The Secretary may award a grant (referred to in this section as a "planning grant") to carry out planning activities described in paragraph (2) to—

(A) a State;

(B) a unit of local government;

(C) a Tribal government;

AMERICAN OVERSIGHT

(D) a metropolitan planning organization; and

(E) a nonprofit organization.

(2) ELIGIBLE ACTIVITIES DESCRIBED.—The planning activities referred to in paragraph (1) are—

(A) planning studies to evaluate the feasibility of removing, retrofitting, or mitigating an existing eligible facility to restore community connectivity, including evaluations of—

(i) current traffic patterns on the eligible facility proposed for removal, retrofit, or mitigation and the surrounding street network;

(ii) the capacity of existing transportation networks to maintain mobility needs;

(iii) an analysis of alternative roadway designs or other uses for the right-of-way of the eligible facility, including an analysis of whether the available right-of-way would suffice to create an alternative roadway design;

(iv) the effect of the removal, retrofit, or mitigation of the eligible facility on the mobility of freight and people;

(v) the effect of the removal, retrofit, or mitigation of the eligible facility on the safety of the traveling public;

(vi) the cost to remove, retrofit, or mitigate the eligible facility—

(I) to restore community connectivity; and

(II) to convert the eligible facility to a different roadway design or use, compared to any expected costs for necessary maintenance or reconstruction of the eligible facility;

(vii) the anticipated economic impact of removing, retrofitting, or mitigating and converting the eligible facility and any economic development opportunities that would be created by removing, retrofitting, or mitigating and converting the eligible facility; and

(viii) the environmental impacts of retaining or reconstructing the eligible facility and the anticipated effect of the proposed alternative use or roadway design;

(B) public engagement activities to provide opportunities for public input into a plan to remove and convert an eligible facility; and

(C) other transportation planning activities required in advance of a project to remove, retrofit, or mitigate an existing eligible facility to restore community connectivity, as determined by the Secretary.

(3) TECHNICAL ASSISTANCE PROGRAM.—

(A) IN GENERAL.—The Secretary may provide technical assistance described in subparagraph (B) to an eligible entity.

(B) TECHNICAL ASSISTANCE DESCRIBED.—The technical assistance referred to in subparagraph (A) is technical assistance in building organizational or community capacity—

(i) to engage in transportation planning; and

AMERICAN OVERSIGHT

(ii) to identify innovative solutions to infrastructure challenges, including reconnecting communities that—

(I) are bifurcated by eligible facilities; or

(II) lack safe, reliable, and affordable transportation choices.

(C) PRIORITIES.—In selecting recipients of technical assistance under subparagraph (A), the Secretary shall give priority to an application from a community that is economically disadvantaged.

(4) SELECTION.—The Secretary shall—

(A) solicit applications for—

(i) planning grants; and

(ii) technical assistance under paragraph (3); and

(B) evaluate applications for a planning grant on the basis of the demonstration by the applicant that—

(i) the eligible facility is aged and is likely to need replacement or significant reconstruction within the 20-year period beginning on the date of the submission of the application;

(ii) the eligible facility—

(I) creates barriers to mobility, access, or economic development; or

(II) is not justified by current and forecast future travel demand; and

(iii) on the basis of preliminary investigations into the feasibility of removing, retrofitting, or mitigating the eligible facility to restore community connectivity, further investigation is necessary and likely to be productive.

(5) AWARD AMOUNTS.—A planning grant may not exceed $2,000,000 per recipient.

(6) FEDERAL SHARE.—The total Federal share of the cost of a planning activity for which a planning grant is used shall not exceed 80 percent.

(d) CAPITAL CONSTRUCTION GRANTS.—

(1) ELIGIBLE ENTITIES.—The Secretary may award a grant (referred to in this section as a "capital construction grant") to the owner of an eligible facility to carry out an eligible project described in paragraph (3) for which all necessary feasibility studies and other planning activities have been completed.

(2) PARTNERSHIPS.—An owner of an eligible facility may, for the purposes of submitting an application for a capital construction grant, if applicable, partner with—

(A) a State;

(B) a unit of local government;

(C) a Tribal government;

(D) a metropolitan planning organization; or

(E) a nonprofit organization.

(3) ELIGIBLE PROJECTS.—A project eligible to be carried out with a capital construction grant includes—

(A) the removal, retrofit, or mitigation of an eligible facility; and

(B) the replacement of an eligible facility with a new facility that—

(i) restores community connectivity; and

(ii) is—

AMERICAN OVERSIGHT

(I) sensitive to the context of the surrounding community; and

(II) otherwise eligible for funding under title 23, United States Code.

(4) SELECTION.—The Secretary shall—

(A) solicit applications for capital construction grants; and

(B) evaluate applications on the basis of—

(i) the degree to which the project will improve mobility and access through the removal of barriers;

(ii) the appropriateness of removing, retrofitting, or mitigating the eligible facility, based on current traffic patterns and the ability of the replacement facility and the regional transportation network to absorb transportation demand and provide safe mobility and access;

(iii) the impact of the project on freight movement;

(iv) the results of a cost-benefit analysis of the project;

(v) the opportunities for inclusive economic development;

(vi) the degree to which the eligible facility is out of context with the current or planned land use;

(vii) the results of any feasibility study completed for the project; and

(viii) the plan of the applicant for—

(I) employing residents in the area impacted by the project through targeted hiring programs, in partnership with registered apprenticeship programs, if applicable; and

(II) contracting and subcontracting with disadvantaged business enterprises.

(5) MINIMUM AWARD AMOUNTS.—A capital construction grant shall be in an amount not less than $5,000,000 per recipient.

(6) FEDERAL SHARE.—

(A) IN GENERAL.—Subject to subparagraph (B), a capital construction grant may not exceed 50 percent of the total cost of the project for which the grant is awarded.

(B) MAXIMUM FEDERAL INVOLVEMENT.—Federal assistance other than a capital construction grant may be used to satisfy the non-Federal share of the cost of a project for which the grant is awarded, except that the total Federal assistance provided for a project for which the grant is awarded may not exceed 80 percent of the total cost of the project.

(7) COMMUNITY ADVISORY BOARD.—

(A) IN GENERAL.—To help achieve inclusive economic development benefits with respect to the project for which a grant is awarded, a grant recipient may form a community advisory board, which shall—

(i) facilitate community engagement with respect to the project; and

(ii) track progress with respect to commitments of the grant recipient to inclusive employment, contracting, and economic development under the project.

AMERICAN OVERSIGHT

(B) MEMBERSHIP.—If a grant recipient forms a community advisory board under subparagraph (A), the community advisory board shall be composed of representatives of—

(i) the community;

(ii) owners of businesses that serve the community;

(iii) labor organizations that represent workers that serve the community; and

(iv) State and local government.

(e) REPORTS.—

(1) USDOT REPORT ON PROGRAM.—Not later than January 1, 2026, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that evaluates the program under this section, including—

(A) information about the level of applicant interest in planning grants, technical assistance under subsection (c)(3), and capital construction grants, including the extent to which overall demand exceeded available funds; and

(B) for recipients of capital construction grants, the outcomes and impacts of the highway removal project, including—

(i) any changes in the overall level of mobility, congestion, access, and safety in the project area; and

(ii) environmental impacts and economic development opportunities in the project area.

(2) GAO REPORT ON HIGHWAY REMOVALS.—Not later than 2 years after the date of enactment of this Act, the Comptroller General of the United States shall issue a report that—

(A) identifies examples of projects to remove highways using Federal highway funds;

(B) evaluates the effect of highway removal projects on the surrounding area, including impacts to the local economy, congestion effects, safety outcomes, and impacts on the movement of freight and people;

(C) evaluates the existing Federal-aid program eligibility under title 23, United States Code, for highway removal projects;

(D) analyzes the costs and benefits of and barriers to removing underutilized highways that are nearing the end of their useful life compared to replacing or reconstructing the highway; and

(E) provides recommendations for integrating those assessments into transportation planning and decision-making processes.

(f) TECHNICAL ASSISTANCE.—Of the funds made available to carry out this section for planning grants, the Secretary may use not more than $15,000,000 during the period of fiscal years 2022 through 2026 to provide technical assistance under subsection (c)(3).

(g) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project assisted under this section shall be treated as a project on a Federal-aid highway under chapter 1 of title 23, United States Code.

SEC. 11510. CYBERSECURITY TOOL; CYBER COORDINATOR.

(a) DEFINITIONS.—In this section:

AMERICAN OVERSIGHT

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Federal Highway Administration.

(2) CYBER INCIDENT.—The term "cyber incident" has the meaning given the term "incident" in section 3552 of title 44, United States Code.

(3) TRANSPORTATION AUTHORITY.—The term "transportation authority" means—

(A) a public authority (as defined in section 101(a) of title 23, United States Code);

(B) an owner or operator of a highway (as defined in section 101(a) of title 23, United States Code);

(C) a manufacturer that manufactures a product related to transportation; and

(D) a division office of the Federal Highway Administration.

(b) CYBERSECURITY TOOL.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Administrator shall develop a tool to assist transportation authorities in identifying, detecting, protecting against, responding to, and recovering from cyber incidents.

(2) REQUIREMENTS.—In developing the tool under paragraph (1), the Administrator shall—

(A) use the cybersecurity framework established by the National Institute of Standards and Technology and required by Executive Order 13636 of February 12, 2013 (78 Fed. Reg. 11739; relating to improving critical infrastructure cybersecurity);

(B) establish a structured cybersecurity assessment and development program;

(C) coordinate with the Transportation Security Administration and the Cybersecurity and Infrastructure Security Agency;

(D) consult with appropriate transportation authorities, operating agencies, industry stakeholders, and cybersecurity experts; and

(E) provide for a period of public comment and review on the tool.

(c) DESIGNATION OF CYBER COORDINATOR.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Administrator shall designate an office as a "cyber coordinator", which shall be responsible for monitoring, alerting, and advising transportation authorities of cyber incidents.

(2) REQUIREMENTS.—The office designated under paragraph (1) shall, in coordination with the Transportation Security Administration and the Cybersecurity and Infrastructure Security Agency—

(A) provide to transportation authorities a secure method of notifying the Federal Highway Administration of cyber incidents;

(B) share the information collected under subparagraph (A) with the Transportation Security Administration and the Cybersecurity and Infrastructure Security Agency;

(C) monitor cyber incidents that affect transportation authorities;

AMERICAN OVERSIGHT

(D) alert transportation authorities to cyber incidents that affect those transportation authorities;

(E) investigate unaddressed cyber incidents that affect transportation authorities; and

(F) provide to transportation authorities educational resources, outreach, and awareness on fundamental principles and best practices in cybersecurity for transportation systems.

SEC. 11511. REPORT ON EMERGING ALTERNATIVE FUEL VEHICLES AND INFRASTRUCTURE.

(a) DEFINITIONS.—In this section:

(1) EMERGING ALTERNATIVE FUEL VEHICLE.—The term "emerging alternative fuel vehicle" means a vehicle fueled by hydrogen, natural gas, or propane.

(2) EMERGING ALTERNATIVE FUELING INFRASTRUCTURE.—The term "emerging alternative fueling infrastructure" means infrastructure for fueling an emerging alternative fuel vehicle.

(b) REPORT.—Not later than 1 year after the date of enactment of this Act, to help guide future investments for emerging alternative fueling infrastructure, the Secretary shall submit to Congress and make publicly available a report that—

(1) includes an evaluation of emerging alternative fuel vehicles and projections for potential locations of emerging alternative fuel vehicle owners during the 5-year period beginning on the date of submission of the report;

(2) identifies areas where emerging alternative fueling infrastructure will be needed to meet the current and future needs of drivers during the 5-year period beginning on the date of submission of the report;

(3) identifies specific areas, such as a lack of pipeline infrastructure, that may impede deployment and adoption of emerging alternative fuel vehicles;

(4) includes a map that identifies concentrations of emerging alternative fuel vehicles to meet the needs of current and future emerging alternative fueling infrastructure;

(5) estimates the future need for emerging alternative fueling infrastructure to support the adoption and use of emerging alternative fuel vehicles; and

(6) includes a tool to allow States to compare and evaluate different adoption and use scenarios for emerging alternative fuel vehicles, with the ability to adjust factors to account for regionally specific characteristics.

SEC. 11512. NONHIGHWAY RECREATIONAL FUEL STUDY.

(a) DEFINITIONS.—In this section:

(1) HIGHWAY TRUST FUND.—The term "Highway Trust Fund" means the Highway Trust Fund established by section 9503(a) of the Internal Revenue Code of 1986.

(2) NONHIGHWAY RECREATIONAL FUEL TAXES.—The term "nonhighway recreational fuel taxes" means taxes under section 4041 and 4081 of the Internal Revenue Code of 1986 with respect to fuel used in vehicles on recreational trails or back country terrain (including vehicles registered for highway use when used on recreational trails, trail access roads not eligible for funding under title 23, United States Code, or back country terrain).

AMERICAN OVERSIGHT

(3) RECREATIONAL TRAILS PROGRAM.—The term "recreational trails program" means the recreational trails program under section 206 of title 23, United States Code.

(b) ASSESSMENT; REPORT.—

(1) ASSESSMENT.—Not later than 1 year after the date of enactment of this Act and not less frequently than once every 5 years thereafter, as determined by the Secretary, the Secretary shall carry out an assessment of the best available estimate of the total amount of nonhighway recreational fuel taxes received by the Secretary of the Treasury and transferred to the Highway Trust Fund for the period covered by the assessment.

(2) REPORT.—After carrying out each assessment under paragraph (1), the Secretary shall submit to the Committees on Finance and Environment and Public Works of the Senate and the Committees on Ways and Means and Transportation and Infrastructure of the House of Representatives a report that includes—

(A) to assist Congress in determining an appropriate funding level for the recreational trails program—

(i) a description of the results of the assessment; and

(ii) an evaluation of whether the current recreational trails program funding level reflects the amount of nonhighway recreational fuel taxes collected and transferred to the Highway Trust Fund; and

(B) in the case of the first report submitted under this paragraph, an estimate of the frequency with which the Secretary anticipates carrying out the assessment under paragraph (1), subject to the condition that such an assessment shall be carried out not less frequently than once every 5 years.

(c) CONSULTATION.—In carrying out an assessment under subsection (b)(1), the Secretary may consult with, as the Secretary determines to be appropriate—

(1) the heads of—

(A) State agencies designated by Governors pursuant to section 206(c)(1) of title 23, United States Code, to administer the recreational trails program; and

(B) division offices of the Department;

(2) the Secretary of the Treasury;

(3) the Administrator of the Federal Highway Administration; and

(4) groups representing recreational activities and interests, including hiking, biking and mountain biking, horseback riding, water trails, snowshoeing, cross-country skiing, snowmobiling, off-highway motorcycling, all-terrain vehicles and other offroad motorized vehicle activities, and recreational trail advocates.

SEC. 11513. BUY AMERICA.

Section 313 of title 23, United States Code, is amended—

(1) by redesignating subsection (g) as subsection (h); and

(2) by inserting after subsection (f) the following:

"(g) WAIVERS.—

"(1) IN GENERAL.—Not less than 15 days before issuing a waiver under this section, the Secretary shall provide to the public—

AMERICAN OVERSIGHT

"(A) notice of the proposed waiver;

"(B) an opportunity for comment on the proposed waiver; and

"(C) the reasons for the proposed waiver.

"(2) REPORT.—Not less frequently than annually, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the waivers provided under this section.".

SEC. 11514. HIGH PRIORITY CORRIDORS ON THE NATIONAL HIGHWAY SYSTEM.

(a) HIGH PRIORITY CORRIDORS.—Section 1105(c) of the Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102–240; 105 Stat. 2032; 133 Stat. 3018) is amended—

(1) by striking paragraph (84) and inserting the following:

"(84) The Central Texas Corridor, including the route—

"(A) commencing in the vicinity of Texas Highway 338 in Odessa, Texas, running eastward generally following Interstate Route 20, connecting to Texas Highway 158 in the vicinity of Midland, Texas, then following Texas Highway 158 eastward to United States Route 87 and then following United States Route 87 southeastward, passing in the vicinity of San Angelo, Texas, and connecting to United States Route 190 in the vicinity of Brady, Texas;

"(B) commencing at the intersection of Interstate Route 10 and United States Route 190 in Pecos County, Texas, and following United States Route 190 to Brady, Texas;

"(C) following portions of United States Route 190 eastward, passing in the vicinity of Fort Hood, Killeen, Belton, Temple, Bryan, College Station, Huntsville, Livingston, Woodville, and Jasper, to the logical terminus of Texas Highway 63 at the Sabine River Bridge at Burrs Crossing and including a loop generally encircling Bryan/College Station, Texas;

"(D) following United States Route 83 southward from the vicinity of Eden, Texas, to a logical connection to Interstate Route 10 at Junction, Texas;

"(E) following United States Route 69 from Interstate Route 10 in Beaumont, Texas, north to United States Route 190 in the vicinity of Woodville, Texas;

"(F) following United States Route 96 from Interstate Route 10 in Beaumont, Texas, north to United States Route 190 in the vicinity of Jasper, Texas; and

"(G) following United States Route 190, State Highway 305, and United States Route 385 from Interstate Route 10 in Pecos County, Texas, to Interstate 20 at Odessa, Texas."; and

(2) by adding at the end the following:

"(92) United States Route 421 from the interchange with Interstate Route 85 in Greensboro, North Carolina, to the interchange with Interstate Route 95 in Dunn, North Carolina.

"(93) The South Mississippi Corridor from the Louisiana and Mississippi border near Natchez, Mississippi, to Gulfport, Mississippi, shall generally follow—

"(A) United States Route 84 from the Louisiana border at the Mississippi River passing in the vicinity of Natchez,

AMERICAN OVERSIGHT

Brookhaven, Monticello, Prentiss, and Collins, Mississippi, to the logical terminus with Interstate Route 59 in the vicinity of Laurel, Mississippi, and continuing on Interstate Route 59 south to the vicinity of Hattiesburg, Mississippi; and

"(B) United States Route 49 from the vicinity of Hattiesburg, Mississippi, south to Interstate Route 10 in the vicinity of Gulfport, Mississippi, following Mississippi Route 601 south and terminating near the Mississippi State Port at Gulfport.

"(94) The Kosciusko to Gulf Coast corridor commencing at the logical terminus of Interstate Route 55 near Vaiden, Mississippi, running south and passing east of the vicinity of the Jackson Urbanized Area, connecting to United States Route 49 north of Hattiesburg, Mississippi, and generally following United States Route 49 to a logical connection with Interstate Route 10 in the vicinity of Gulfport, Mississippi.

"(95) The Interstate Route 22 spur from the vicinity of Tupelo, Mississippi, running south generally along United States Route 45 to the vicinity of Shannon, Mississippi.

"(96) The route that generally follows United States Route 412 from its intersection with Interstate Route 35 in Noble County, Oklahoma, passing through Tulsa, Oklahoma, to its intersection with Interstate Route 49 in Springdale, Arkansas.

"(97) The Louie B. Nunn Cumberland Expressway from the interchange with Interstate Route 65 in Barren County, Kentucky, east to the interchange with United States Highway 27 in Somerset, Kentucky.

"(98) The route that generally follows State Route 7 from Grenada, Mississippi, to Holly Springs, Mississippi, passing in the vicinity of Coffeeville, Water Valley, Oxford, and Abbeville, Mississippi, to its logical connection with Interstate Route 22 in the vicinity of Holly Springs, Mississippi.

"(99) The Central Louisiana Corridor commencing at the logical terminus of Louisiana Highway 8 at the Sabine River Bridge at Burrs Crossing and generally following portions of Louisiana Highway 8 to Leesville, Louisiana, and then eastward on Louisiana Highway 28, passing in the vicinity of Alexandria, Pineville, Walters, and Archie, to the logical terminus of United States Route 84 at the Mississippi River Bridge at Vidalia, Louisiana.

"(100) The Central Mississippi Corridor, including the route—

"(A) commencing at the logical terminus of United States Route 84 at the Mississippi River and then generally following portions of United States Route 84 passing in the vicinity of Natchez, Brookhaven, Monticello, Prentiss, and Collins, to Interstate Route 59 in the vicinity of Laurel, Mississippi, and continuing on Interstate Route 59 north to Interstate Route 20 and on Interstate Route 20 to the Mississippi–Alabama State border; and

"(B) commencing in the vicinity of Laurel, Mississippi, running south on Interstate Route 59 to United States Route 98 in the vicinity of Hattiesburg, connecting to United States Route 49 south then following United States Route 49 south to Interstate Route 10 in the vicinity of

AMERICAN OVERSIGHT

Gulfport and following Mississippi Route 601 southerly terminating near the Mississippi State Port at Gulfport.

"(101) The Middle Alabama Corridor including the route—

"(A) beginning at the Alabama–Mississippi border generally following portions of I–20 until following a new interstate extension paralleling United States Highway 80, specifically—

"(B) crossing Alabama Route 28 near Coatopa, Alabama, traveling eastward crossing United States Highway 43 and Alabama Route 69 near Selma, Alabama, traveling eastwards closely paralleling United States Highway 80 to the south crossing over Alabama Routes 22, 41, and 21, until its intersection with I–65 near Hope Hull, Alabama;

"(C) continuing east along the proposed Montgomery Outer Loop south of Montgomery, Alabama where it would next join with I–85 east of Montgomery, Alabama;

"(D) continuing along I–85 east bound until its intersection with United States Highway 280 near Opelika, Alabama or United States Highway 80 near Tuskegee, Alabama;

"(E) generally following the most expedient route until intersecting with existing United States Highway 80 (JR Allen Parkway) through Phenix City until continuing into Columbus, Georgia.

"(102) The Middle Georgia Corridor including the route—

"(A) beginning at the Alabama–Georgia Border generally following the Fall Line Freeway from Columbus, Georgia to Augusta, Georgia, specifically—

"(B) travelling along United States Route 80 (JR Allen Parkway) through Columbus, Georgia and near Fort Benning, Georgia, east to Talbot County, Georgia where it would follow Georgia Route 96, then commencing on Georgia Route 49C (Fort Valley Bypass) to Georgia Route 49 (Peach Parkway) to its intersection with Interstate Route 75 in Byron, Georgia;

"(C) continuing north along Interstate Route 75 through Warner Robins and Macon, Georgia where it would meet Interstate Route 16, then following Interstate Route 16 east it would next join United States Route 80 and then onto State Route 57;

"(D) commencing with State Route 57 which turns into State Route 24 near Milledgeville, Georgia would then bypass Wrens, Georgia with a newly constructed bypass, and after the bypass it would join United States Route 1 near Fort Gordon into Augusta, Georgia where it will terminate at Interstate Route 520.".

(b) DESIGNATION AS FUTURE INTERSTATES.—Section 1105(e)(5)(A) of the Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102–240; 109 Stat. 597; 133 Stat. 3018) is amended in the first sentence—

(1) by inserting "subsection (c)(84)," after "subsection (c)(83),"; and

(2) by striking "and subsection (c)(91)" and inserting "subsection (c)(91), subsection (c)(92), subsection (c)(93)(A), subsection (c)(94), subsection (c)(95), subsection (c)(96), subsection

AMERICAN OVERSIGHT

(c)(97), subsection (c)(99), subsection (c)(100), subsection (c)(101), and subsection (c)(102)".

(c) NUMBERING OF PARKWAY.—Section 1105(e)(5)(C)(i) of the Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102–240; 109 Stat. 598; 133 Stat. 3018) is amended—

(1) by striking the fifteenth sentence and inserting the following: "The route referred to in subsection (c)(84)(A) is designated as Interstate Route I–14 North. The route referred to in subsection (c)(84)(B) is designated as Interstate Route I–14 South. The Bryan/College Station, Texas loop referred to in subsection (c)(84)(C) is designated as Interstate Route I–214."; and

(2) by adding at the end the following: "The route referred to in subsection (c)(97) is designated as Interstate Route I–365. The routes referred to in subsections (c)(84)(C), (c)(99), (c)(100), (c)(101), and (c)(102) are designated as Interstate Route I–14. The routes referred to in subparagraphs (D), (E), (F), and (G) of subsection (c)(84) and subparagraph (B) of subsection (c)(100) shall each be given separate Interstate route numbers.".

(d) GAO REPORT ON DESIGNATION OF SEGMENTS AS PART OF INTERSTATE SYSTEM.—

(1) DEFINITION OF APPLICABLE SEGMENT.—In this subsection, the term "applicable segment" means the route described in paragraph (92) of section 1105(c) of the Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102–240; 105 Stat. 2032).

(2) REPORT.—

(A) IN GENERAL.—Not later than 2 years after the date on which the applicable segment is open for operations as part of the Interstate System, the Comptroller General of the United States shall submit to Congress a report on the impact, if any, during that 2-year period of allowing the continuation of weight limits that applied before the designation of the applicable segment as a route on the Interstate System.

(B) REQUIREMENTS.—The report under subparagraph (A) shall—

(i) be informed by the views and documentation provided by the State highway agency (or equivalent agency) in the State in which the applicable segment is located;

(ii) describe any impacts on safety and infrastructure on the applicable segment;

(iii) describe any view of the State highway agency (or equivalent agency) in the State in which the applicable segment is located on the impact of the applicable segment; and

(iv) focus only on the applicable segment.

SEC. 11515. INTERSTATE WEIGHT LIMITS.

Section 127 of title 23, United States Code, is amended—

(1) in subsection (l)(3)(A)—

(A) in the matter preceding clause (i), in the first sentence, by striking "clauses (i) through (iv) of this subparagraph" and inserting "clauses (i) through (v)"; and

(B) by adding at the end the following:

AMERICAN OVERSIGHT

"(v) The Louie B. Nunn Cumberland Expressway (to be designated as a spur of Interstate Route 65) from the interchange with Interstate Route 65 in Barren County, Kentucky, east to the interchange with United States Highway 27 in Somerset, Kentucky."; and

(2) by adding at the end the following:

"(v) OPERATION OF VEHICLES ON CERTAIN NORTH CAROLINA HIGHWAYS.—If any segment in the State of North Carolina of United States Route 17, United States Route 29, United States Route 52, United States Route 64, United States Route 70, United States Route 74, United States Route 117, United States Route 220, United States Route 264, or United States Route 421 is designated as a route on the Interstate System, a vehicle that could operate legally on that segment before the date of such designation may continue to operate on that segment, without regard to any requirement under subsection (a).

"(w) OPERATION OF VEHICLES ON CERTAIN OKLAHOMA HIGHWAYS.—If any segment of the highway referred to in paragraph (96) of section 1105(c) of the Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102–240; 105 Stat. 2032) is designated as a route on the Interstate System, a vehicle that could operate legally on that segment before the date of such designation may continue to operate on that segment, without any regard to any requirement under this section.".

SEC. 11516. REPORT ON AIR QUALITY IMPROVEMENTS.

(a) IN GENERAL.—Not later than 3 years after the date of enactment of this Act, the Comptroller General of the United States shall submit a report that evaluates the congestion mitigation and air quality improvement program under section 149 of title 23, United States Code (referred to in this section as the "program"), to—

(1) the Committee on Environment and Public Works of the Senate; and

(2) the Committee on Transportation and Infrastructure of the House of Representatives.

(b) CONTENTS.—The evaluation under subsection (a) shall include an evaluation of—

(1) the reductions of ozone, carbon monoxide, and particulate matter that result from projects under the program;

(2) the cost-effectiveness of the reductions described in paragraph (1);

(3) the result of investments of funding under the program in minority and low-income communities that are disproportionately affected by ozone, carbon monoxide, and particulate matter;

(4) the effectiveness, with respect to the attainment or maintenance of national ambient air quality standards under section 109 of the Clean Air Act (42 U.S.C. 7409) for ozone, carbon monoxide, and particulate matter, of performance measures established under section 150(c)(5) of title 23, United States Code, and performance targets established under subsection (d) of that section for traffic congestion and on-road mobile source emissions;

(5) the extent to which there are any types of projects that are not eligible funding under the program that would

AMERICAN OVERSIGHT

be likely to contribute to the attainment or maintenance of the national ambient air quality standards described in paragraph (4); and

(6) the extent to which projects under the program reduce sulfur dioxide, nitrogen dioxide, and lead.

SEC. 11517. ROADSIDE HIGHWAY SAFETY HARDWARE.

(a) IN GENERAL.—To the maximum extent practicable, the Secretary shall develop a process for third party verification of full-scale crash testing results from crash test labs, including a method for formally verifying the testing outcomes and providing for an independent pass/fail determination. In establishing such a process, the Secretary shall seek to ensure the independence of crash test labs by ensuring that those labs have a clear separation between device development and testing in cases in which lab employees test devices that were developed within the parent organization of the employee.

(b) CONTINUED ISSUANCE OF ELIGIBILITY LETTERS.—Until the implementation of the process described in subsection (a) is complete, the Secretary may, and is encouraged to, ensure that the Administrator of the Federal Highway Administration continues to issue Federal-aid reimbursement eligibility letters for roadside safety hardware as a service to States.

(c) REPORT TO CONGRESS.—

(1) IN GENERAL.—If the Secretary seeks to discontinue issuing the letters described in subsection (b), the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report at least 1 year before discontinuing the letters.

(2) INCLUSIONS.—The report described in paragraph (1) shall include a summary of the third-party verification process described in subsection (a) that will replace the Federal Highway Administration issuance of eligibility letters and any other relevant information that the Secretary deems necessary.

SEC. 11518. PERMEABLE PAVEMENTS STUDY.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall carry out a study—

(1) to gather existing information on the effects of permeable pavements on flood control in different contexts, including in urban areas, and over the lifetime of the permeable pavement;

(2) to perform research to fill gaps in the existing information gathered under paragraph (1); and

(3) to develop—

(A) models for the performance of permeable pavements in flood control; and

(B) best practices for designing permeable pavement to meet flood control requirements.

(b) DATA SURVEY.—In carrying out the study under subsection (a), the Secretary shall develop—

(1) a summary, based on available literature and models, of localized flood control capabilities of permeable pavement that considers long-term performance and cost information; and

AMERICAN OVERSIGHT

(2) best practices for the design of localized flood control using permeable pavement that considers long-term performance and cost information.

(c) PUBLICATION.—The Secretary shall make a report describing the results of the study under subsection (a) publicly available.

SEC. 11519. EMERGENCY RELIEF PROJECTS.

(a) DEFINITION OF EMERGENCY RELIEF PROJECT.—In this section, the term "emergency relief project" means a project carried out under the emergency relief program under section 125 of title 23, United States Code.

(b) IMPROVING THE EMERGENCY RELIEF PROGRAM.—Not later than 90 days after the date of enactment of this Act, the Secretary shall—

(1) revise the emergency relief manual of the Federal Highway Administration—

(A) to include and reflect the definition of the term "resilience" (as defined in section 101(a) of title 23, United States Code);

(B) to identify procedures that States may use to incorporate resilience into emergency relief projects; and

(C) to encourage the use of Complete Streets design principles and consideration of access for moderate- and low-income families impacted by a declared disaster;

(2) develop best practices for improving the use of resilience in—

(A) the emergency relief program under section 125 of title 23, United States Code; and

(B) emergency relief efforts;

(3) provide to division offices of the Federal Highway Administration and State departments of transportation information on the best practices developed under paragraph (2); and

(4) develop and implement a process to track—

(A) the consideration of resilience as part of the emergency relief program under section 125 of title 23, United States Code; and

(B) the costs of emergency relief projects.

SEC. 11520. STUDY ON STORMWATER BEST MANAGEMENT PRACTICES.

(a) STUDY.—Not later than 180 days after the date of enactment of this Act, the Secretary and the Administrator of the Environment Protection Agency shall offer to enter into an agreement with the Transportation Research Board of the National Academy of Sciences to conduct a study—

(1) to estimate pollutant loads from stormwater runoff from highways and pedestrian facilities eligible for assistance under title 23, United States Code, to inform the development of appropriate total maximum daily load (as defined in section 130.2 of title 40, Code of Federal Regulations (or successor regulations)) requirements;

(2) to provide recommendations regarding the evaluation and selection by State departments of transportation of potential stormwater management and total maximum daily load compliance strategies within a watershed, including environmental restoration and pollution abatement carried out under

AMERICAN OVERSIGHT

section 328 of title 23, United States Code (including any revisions to law (including regulations) that the Transportation Research Board determines to be appropriate); and

(3) to examine the potential for the Secretary to assist State departments of transportation in carrying out and communicating stormwater management practices for highways and pedestrian facilities that are eligible for assistance under title 23, United States Code, through information-sharing agreements, database assistance, or an administrative platform to provide the information described in paragraphs (1) and (2) to entities issued permits under the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.).

(b) REQUIREMENTS.—If the Transportation Research Board enters into an agreement under subsection (a), in conducting the study under that subsection, the Transportation Research Board shall—

(1) review and supplement, as appropriate, the methodologies examined and recommended in the report of the National Academies of Sciences, Engineering, and Medicine entitled "Approaches for Determining and Complying with TMDL Requirements Related to Roadway Stormwater Runoff" and dated 2019;

(2) consult with—

(A) the Secretary;

(B) the Administrator of the Environmental Protection Agency;

(C) the Secretary of the Army, acting through the Chief of Engineers; and

(D) State departments of transportation; and

(3) solicit input from—

(A) stakeholders with experience in implementing stormwater management practices for projects; and

(B) educational and technical stormwater management groups.

(c) REPORT.—If the Transportation Research Board enters into an agreement under subsection (a), not later than 18 months after the date of enactment of this Act, the Transportation Research Board shall submit to the Secretary, the Committee on Environment and Public Works of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives a report describing the results of the study.

SEC. 11521. STORMWATER BEST MANAGEMENT PRACTICES REPORTS.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Federal Highway Administration.

(2) BEST MANAGEMENT PRACTICES REPORT.—The term "best management practices report" means—

(A) the 2014 report sponsored by the Administrator entitled "Determining the State of the Practice in Data Collection and Performance Measurement of Stormwater Best Management Practices"; and

(B) the 1997 report sponsored by the Administrator entitled "Stormwater Best Management Practices in an Ultra-Urban Setting: Selection and Monitoring".

(b) REISSUANCE.—Not later than 1 year after the date of enactment of this Act, the Administrator shall update and reissue each

AMERICAN OVERSIGHT

best management practices report to reflect new information and advancements in stormwater management.

(c) UPDATES.—Not less frequently than once every 5 years after the date on which the Administrator reissues a best management practices report described in subsection (b), the Administrator shall update and reissue the best management practices report until the earlier of the date on which—

(1) the best management practices report is withdrawn; or

(2) the contents of the best management practices report are incorporated (including by reference) into applicable regulations of the Administrator.

SEC. 11522. INVASIVE PLANT ELIMINATION PROGRAM.

(a) DEFINITIONS.—In this section:

(1) INVASIVE PLANT.—The term "invasive plant" means a nonnative plant, tree, grass, or weed species, including, at a minimum, cheatgrass, Ventenata dubia, medusahead, bulbous bluegrass, Japanese brome, rattail fescue, Japanese honeysuckle, phragmites, autumn olive, Bradford pear, wild parsnip, sericea lespedeza, spotted knapweed, garlic mustard, and palmer amaranth.

(2) PROGRAM.—The term "program" means the grant program established under subsection (b).

(3) TRANSPORTATION CORRIDOR.—The term "transportation corridor" means a road, highway, railroad, or other surface transportation route.

(b) ESTABLISHMENT.—The Secretary shall carry out a program to provide grants to States to eliminate or control existing invasive plants or prevent introduction of or encroachment by new invasive plants along and in areas adjacent to transportation corridor rights-of-way.

(c) APPLICATION.—To be eligible to receive a grant under the program, a State shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(d) ELIGIBLE ACTIVITIES.—

(1) IN GENERAL.—Subject to this subsection, a State that receives a grant under the program may use the grant funds to carry out activities to eliminate or control existing invasive plants or prevent introduction of or encroachment by new invasive plants along and in areas adjacent to transportation corridor rights-of-way.

(2) PRIORITIZATION OF PROJECTS.—In carrying out the program, the Secretary shall give priority to projects that utilize revegetation with native plants and wildflowers, including those that are pollinator-friendly.

(3) PROHIBITION ON CERTAIN USES OF FUNDS.—Amounts provided to a State under the program may not be used for costs relating to mowing a transportation corridor right-of-way or the adjacent area unless—

(A) mowing is identified as the best means of treatment according to best management practices; or

(B) mowing is used in conjunction with another treatment.

AMERICAN OVERSIGHT

(4) LIMITATION.—Not more than 10 percent of the amounts provided to a State under the program may be used for the purchase of equipment.

(5) ADMINISTRATIVE AND INDIRECT COSTS.—Not more than 5 percent of the amounts provided to a State under the program may be used for the administrative and other indirect costs (such as full time employee salaries, rent, insurance, subscriptions, utilities, and office supplies) of carrying out eligible activities.

(e) REQUIREMENTS.—

(1) COORDINATION.—In carrying out eligible activities with a grant under the program, a State shall coordinate with—

(A) units of local government, political subdivisions of the State, and Tribal authorities that are carrying out eligible activities in the areas to be treated;

(B) local regulatory authorities, in the case of a treatment along or adjacent to a railroad right-of-way; and

(C) with respect to the most effective roadside control methods, State and Federal land management agencies and any relevant Tribal authorities.

(2) ANNUAL REPORT.—Not later than 1 year after the date on which a State receives a grant under the program, and annually thereafter, that State shall provide to the Secretary an annual report on the treatments carried out using funds from the grant.

(f) FEDERAL SHARE.—

(1) IN GENERAL.—The Federal share of the cost of an eligible activity carried out using funds from a grant under the program shall be—

(A) in the case of a project that utilizes revegetation with native plants and wildflowers, including those that are pollinator-friendly, 75 percent; and

(B) in the case of any other project not described in subparagraph (A), 50 percent.

(2) CERTAIN FUNDS COUNTED TOWARD NON-FEDERAL SHARE.—A State may include amounts expended by the State or a unit of local government in the State to address current invasive plant populations and prevent future infestation along or in areas adjacent to transportation corridor rights-of-way in calculating the non-Federal share required under the program.

(g) FUNDING.—There is authorized to be appropriated to carry out the program $50,000,000 for each of fiscal years 2022 through 2026.

SEC. 11523. OVER-THE-ROAD BUS TOLLING EQUITY.

Section 129(a) of title 23, United States Code, is amended—

(1) in paragraph (3)(B)(i), by inserting ", together with the results of the audit under paragraph (9)(C)," after "the audits"; and

(2) in paragraph (9)—

(A) by striking "An over-the-road" and inserting the following:

"(A) IN GENERAL.—An over-the-road";

(B) in subparagraph (A) (as so designated), by striking "public transportation buses" and inserting "public transportation vehicles"; and

AMERICAN OVERSIGHT

(C) by adding at the end the following:

"(B) REPORTS.—

"(i) IN GENERAL.—Not later than 90 days after the date of enactment of this subparagraph, a public authority that operates a toll facility shall report to the Secretary any rates, terms, or conditions for access to the toll facility by public transportation vehicles that differ from the rates, terms, or conditions applicable to over-the-road buses.

"(ii) UPDATES.—A public authority that operates a toll facility shall report to the Secretary any change to the rates, terms, or conditions for access to the toll facility by public transportation vehicles that differ from the rates, terms, or conditions applicable to over-the-road buses by not later than 30 days after the date on which the change takes effect.

"(iii) PUBLICATION.—The Secretary shall publish information reported to the Secretary under clauses (i) and (ii) on a publicly accessible internet website.

"(C) ANNUAL AUDIT.—

"(i) IN GENERAL.—A public authority (as defined in section 101(a)) with jurisdiction over a toll facility shall—

"(I) conduct or have an independent auditor conduct an annual audit of toll facility records to verify compliance with this paragraph; and

"(II) report the results of the audit, together with the results of the audit under paragraph (3)(B), to the Secretary.

"(ii) RECORDS.—After providing reasonable notice, a public authority described in clause (i) shall make all records of the public authority pertaining to the toll facility available for audit by the Secretary.

"(iii) NONCOMPLIANCE.—If the Secretary determines that a public authority described in clause (i) has not complied with this paragraph, the Secretary may require the public authority to discontinue collecting tolls until an agreement with the Secretary is reached to achieve compliance.".

SEC. 11524. BRIDGE TERMINOLOGY.

(a) CONDITION OF NHS BRIDGES.—Section 119(f)(2) of title 23, United States Code, is amended by striking "structurally deficient" each place it appears and inserting "in poor condition".

(b) NATIONAL BRIDGE AND TUNNEL INVENTORIES.—Section 144(b)(5) of title 23, United States Code, is amended by striking "structurally deficient bridge" and inserting "bridge classified as in poor condition".

(c) TRIBAL TRANSPORTATION FACILITY BRIDGES.—Section 202(d) of title 23, United States Code, is amended—

(1) in paragraph (1), by striking "deficient bridges eligible for the tribal transportation program" and inserting "bridges eligible for the tribal transportation program classified as in poor condition, having low load capacity, or needing geometric improvements"; and

(2) in paragraph (3)(C), by striking "structurally deficient or functionally obsolete" and inserting "classified as in poor

AMERICAN OVERSIGHT

condition, having a low load capacity, or needing geometric improvements".

SEC. 11525. TECHNICAL CORRECTIONS.

(a) Section 101(b)(1) of title 23, United States Code, is amended by inserting "Highways" after "and Defense".

(b) Section 104(f)(3) of title 23, United States Code, is amended—

(1) in the paragraph heading, by striking "FEDERAL HIGHWAY ADMINISTRATION" and inserting "AN OPERATING ADMINISTRATION OF THE DEPARTMENT OF TRANSPORTATION"; and

(2) in subparagraph (A), by striking "the Federal Highway Administration" and inserting "an operating administration of the Department of Transportation".

(c) Section 108(c)(3)(F) of title 23, United States Code, is amended—

(1) by inserting "of 1969 (42 U.S.C. 4321 et seq.)" after "Policy Act"; and

(2) by striking "this Act" and inserting "this title".

(d) Section 112(b)(2) of title 23, United States Code, is amended by striking "(F) (F) Subparagraphs" and inserting the following: "(F) EXCLUSION.—Subparagraphs".

(e) Section 115(c) of title 23, United States Code, is amended by striking "section 135(f)" and inserting "section 135(g)".

(f) Section 130(g) of title 23, United States Code, is amended—

(1) in the third sentence—

(A) by striking "and Transportation," and inserting "and Transportation"; and

(B) by striking "thereafter,," and inserting "thereafter,"; and

(2) in the fifth sentence, by striking "railroad highway" and inserting "railway-highway".

(g) Section 135(g) of title 23, United States Code, is amended—

(1) in paragraph (3), by striking "operators),," and inserting "operators),"; and

(2) in paragraph (6)(B), by striking "5310, 5311, 5316, and 5317" and inserting "5310 and 5311".

(h) Section 139 of title 23, United States Code (as amended by section 11301), is amended—

(1) in subsection (b)(1), by inserting "(42 U.S.C. 4321 et seq.)" after "of 1969";

(2) in subsection (c), by inserting "(42 U.S.C. 4321 et seq.)" after "of 1969" each place it appears; and

(3) in subsection (k)(2), by inserting "(42 U.S.C. 4321 et seq.)" after "of 1969".

(i) Section 140(a) of title 23, United States Code, is amended, in the third sentence, by inserting a comma after "Secretary".

(j) Section 148(i)(2)(D) of title 23, United States Code, is amended by striking "safety safety" and inserting "safety".

(k) Section 166(a)(1) of title 23, United States Code, is amended by striking the paragraph designation and heading and all that follows through "A public authority" and inserting the following: "(1) AUTHORITY OF PUBLIC AUTHORITIES.—A public authority".

(l) Section 201(c)(6)(A)(ii) of title 23, United States Code, is amended by striking "(25 U.S.C. 450 et seq.)" and inserting "(25 U.S.C. 5301 et seq.)".

AMERICAN OVERSIGHT

(m) Section 202 of title 23, United States Code, is amended—

(1) by striking "(25 U.S.C. 450 et seq.)" each place it appears and inserting "(25 U.S.C. 5301 et seq.)";

(2) in subsection (a)(10)(B), by striking "(25 U.S.C. 450e(b))" and inserting "(25 U.S.C. 5307(b))"; and

(3) in subsection (b)(5), in the matter preceding subparagraph (A), by inserting "the" after "agreement under".

(n) Section 206(d)(2)(G) of title 23, United States Code, is amended by striking "use of recreational trails" and inserting "uses of recreational trails".

(o) Section 207 of title 23, United States Code, is amended—

(1) in subsection (g)—

(A) by striking "(25 U.S.C. 450j–1)" and inserting "(25 U.S.C. 5325)"; and

(B) by striking "(25 U.S.C. 450j–1(f))" and inserting "(25 U.S.C. 5325(f))";

(2) in subsection (l)—

(A) in paragraph (1), by striking "(25 U.S.C. 458aaa–5)" and inserting "(25 U.S.C. 5386)";

(B) in paragraph (2), by striking "(25 U.S.C. 458aaa–6)" and inserting "(25 U.S.C. 5387)";

(C) in paragraph (3), by striking "(25 U.S.C. 458aaa–7)" and inserting "(25 U.S.C. 5388)";

(D) in paragraph (4), by striking "(25 U.S.C. 458aaa–9)" and inserting "(25 U.S.C. 5390)";

(E) in paragraph (5), by striking "(25 U.S.C. 458aaa–10)" and inserting "(25 U.S.C. 5391)";

(F) in paragraph (6), by striking "(25 U.S.C. 458aaa–11)" and inserting "(25 U.S.C. 5392)";

(G) in paragraph (7), by striking "(25 U.S.C. 458aaa–14)" and inserting "(25 U.S.C. 5395)";

(H) in paragraph (8), by striking "(25 U.S.C. 458aaa–15)" and inserting "(25 U.S.C. 5396)"; and

(I) in paragraph (9), by striking "(25 U.S.C. 458aaa–17)" and inserting "(25 U.S.C. 5398)"; and

(3) in subsection (m)(2)—

(A) by striking "505" and inserting "501"; and

(B) by striking "(25 U.S.C. 450b; 458aaa)" and inserting "(25 U.S.C. 5304; 5381)".

(p) Section 217(d) of title 23, United States Code, is amended by striking "104(b)(3)" and inserting "104(b)(4)".

(q) Section 323(d) of title 23, United States Code, is amended in the matter preceding paragraph (1), in the second sentence, by inserting "(42 U.S.C. 4321 et seq.)" after "of 1969".

(r) Section 325 of title 23, United States Code, is repealed.

(s) Section 504(g)(6) of title 23, United States Code, is amended by striking "make grants or to" and inserting "make grants to".

(t) The analysis for chapter 3 of title 23, United States Code, is amended by striking the item relating to section 325.

SEC. 11526. WORKING GROUP ON COVERED RESOURCES.

(a) DEFINITIONS.—In this section:

(1) COVERED RESOURCE.—The term "covered resource" means a common variety material used in transportation infrastructure construction and maintenance, including stone, sand, and gravel.

AMERICAN OVERSIGHT

(2) STATE.—The term "State" means each of the several States, the District of Columbia, and each territory or possession of the United States.

(3) WORKING GROUP.—The term "Working Group" means the working group established under subsection (b).

(b) ESTABLISHMENT.—Not later than 120 days after the date of enactment of this Act, the Secretary shall establish a working group to conduct a study on access to covered resources for infrastructure projects.

(c) MEMBERSHIP.—

(1) APPOINTMENT.—The Secretary shall appoint to the Working Group individuals with knowledge and expertise in the production and transportation of covered resources.

(2) REPRESENTATION.—The Working Group shall include not less than 1 representative of each of the following:

(A) State departments of transportation.

(B) State agencies associated with covered resources protection.

(C) State planning and geologic survey and mapping agencies.

(D) Commercial motor vehicle operators, including small business operators and operators who transport covered resources.

(E) Covered resources producers.

(F) Construction contractors.

(G) Labor organizations.

(H) Metropolitan planning organizations and regional planning organizations.

(I) Indian Tribes, including Tribal elected leadership or Tribal transportation officials.

(J) Any other stakeholders that the Secretary determines appropriate.

(3) TERMINATION.—The Working Group shall terminate 180 days after the date on which the Secretary receives the report under subsection (f)(1).

(d) DUTIES.—In carrying out the study required under subsection (b), the Working Group shall analyze—

(1) the use of covered resources in transportation projects funded with Federal dollars;

(2) how the proximity of covered resources to such projects affects the cost and environmental impact of those projects;

(3) whether and how State, Tribal, and local transportation and planning agencies consider covered resources when developing transportation projects; and

(4) any challenges for transportation project sponsors regarding access and proximity to covered resources.

(e) CONSULTATION.—In carrying out the study required under subsection (b), the Working Group shall consult with, as appropriate—

(1) chief executive officers of States;

(2) State, Tribal, and local transportation and planning agencies;

(3) other relevant State, Tribal, and local agencies, including State agencies associated with covered resources protection;

(4) members of the public with industry experience with respect to covered resources;

AMERICAN OVERSIGHT

(5) other Federal entities that provide funding for transportation projects; and

(6) any other stakeholder the Working Group determines appropriate.

(f) REPORTS.—

(1) WORKING GROUP REPORT.—Not later than 2 years after the date on which the Working Group is established, the Working Group shall submit to the Secretary a report that includes—

(A) the findings of the study required under subsection (b), including a summary of comments received during the consultation process under subsection (e); and

(B) any recommendations to preserve access to and reduce the costs and environmental impacts of covered resources for infrastructure projects.

(2) DEPARTMENTAL REPORT.—Not later than 90 days after the date on which the Secretary receives the report under paragraph (1), the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a summary of the findings under the report and any recommendations, as appropriate.

SEC. 11527. BLOOD TRANSPORT VEHICLES.

Section 166(b) of title 23, United States Code, is amended by adding at the end the following:

"(6) BLOOD TRANSPORT VEHICLES.—The public authority may allow blood transport vehicles that are transporting blood between a collection point and a hospital or storage center to use the HOV facility if the public authority establishes requirements for clearly identifying such vehicles.".

SEC. 11528. POLLINATOR-FRIENDLY PRACTICES ON ROADSIDES AND HIGHWAY RIGHTS-OF-WAY.

(a) IN GENERAL.—Chapter 3 of title 23, United States Code (as amended by section 11309(a)), is amended by adding at the end the following:

"§ 332. Pollinator-friendly practices on roadsides and highway rights-of-way

"(a) IN GENERAL.—The Secretary shall establish a program to provide grants to eligible entities to carry out activities to benefit pollinators on roadsides and highway rights-of-way, including the planting and seeding of native, locally-appropriate grasses and wildflowers, including milkweed.

"(b) ELIGIBLE ENTITIES.—An entity eligible to receive a grant under this section is—

"(1) a State department of transportation;

"(2) an Indian tribe; or

"(3) a Federal land management agency.

"(c) APPLICATION.—To be eligible to receive a grant under this section, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a pollinator-friendly practices plan described in subsection (d).

"(d) POLLINATOR-FRIENDLY PRACTICES PLAN.—

AMERICAN OVERSIGHT

"(1) IN GENERAL.—An eligible entity shall include in the application under subsection (c) a plan that describes the pollinator-friendly practices that the eligible entity has implemented or plans to implement, including—

"(A) practices relating to mowing strategies that promote early successional vegetation and limit disturbance during periods of highest use by target pollinator species on roadsides and highway rights-of-way, such as—

"(i) reducing the mowing swath outside of the State-designated safety zone;

"(ii) increasing the mowing height;

"(iii) reducing the mowing frequency;

"(iv) refraining from mowing monarch and other pollinator habitat during periods in which monarchs or other pollinators are present;

"(v) use of a flushing bar and cutting at reduced speeds to reduce pollinator deaths due to mowing; or

"(vi) reducing raking along roadsides and highway rights-of-way;

"(B) implementation of an integrated vegetation management plan that includes approaches such as mechanical tree and brush removal, targeted and judicious use of herbicides, and mowing, to address weed issues on roadsides and highway rights-of-way;

"(C) planting or seeding of native, locally-appropriate grasses and wildflowers, including milkweed, on roadsides and highway rights-of-way to enhance pollinator habitat, including larval host plants;

"(D) removing nonnative grasses from planting and seeding mixes, except for use as nurse or cover crops;

"(E) obtaining expert training or assistance on pollinator-friendly practices, including—

"(i) native plant identification;

"(ii) establishment and management of locally-appropriate native plants that benefit pollinators;

"(iii) land management practices that benefit pollinators; and

"(iv) pollinator-focused integrated vegetation management; or

"(F) any other pollinator-friendly practices the Secretary determines to be appropriate.

"(2) COORDINATION.—In developing a plan under paragraph (1), an eligible entity that is a State department of transportation or a Federal land management agency shall coordinate with applicable State agencies, including State agencies with jurisdiction over agriculture and fish and wildlife.

"(3) CONSULTATION.—In developing a plan under paragraph (1)—

"(A) an eligible entity that is a State department of transportation or a Federal land management agency shall consult with affected or interested Indian tribes; and

"(B) any eligible entity may consult with nonprofit organizations, institutions of higher education, metropolitan planning organizations, and any other relevant entities.

"(e) AWARD OF GRANTS.—

AMERICAN OVERSIGHT

"(1) IN GENERAL.—The Secretary shall provide a grant to each eligible entity that submits an application under subsection (c), including a plan under subsection (d), that the Secretary determines to be satisfactory.

"(2) AMOUNT OF GRANTS.—The amount of a grant under this section—

"(A) shall be based on the number of pollinator-friendly practices the eligible entity has implemented or plans to implement; and

"(B) shall not exceed $150,000.

"(f) USE OF FUNDS.—An eligible entity that receives a grant under this section shall use the funds for the implementation, improvement, or further development of the plan under subsection (d).

"(g) FEDERAL SHARE.—The Federal share of the cost of an activity carried out with a grant under this section shall be 100 percent.

"(h) BEST PRACTICES.—The Secretary shall develop and make available to eligible entities best practices for, and a priority ranking of, pollinator-friendly practices on roadsides and highway rights-of-way.

"(i) TECHNICAL ASSISTANCE.—On request of an eligible entity that receives a grant under this section, the Secretary shall provide technical assistance with the implementation, improvement, or further development of a plan under subsection (d).

"(j) ADMINISTRATIVE COSTS.—For each fiscal year, the Secretary may use not more than 2 percent of the amounts made available to carry out this section for the administrative costs of carrying out this section.

"(k) REPORT.—Not later than 1 year after the date on which the first grant is provided under this section, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the implementation of the program under this section.

"(l) AUTHORIZATION OF APPROPRIATIONS.—

"(1) IN GENERAL.—There is authorized to be appropriated to carry out this section $2,000,000 for each of fiscal years 2022 through 2026.

"(2) AVAILABILITY.—Amounts made available under this section shall remain available for a period of 3 years after the last day of the fiscal year for which the funds are authorized.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 3 of title 23, United States Code (as amended by section 11309(b)), is amended by adding at the end the following:

"332. Pollinator-friendly practices on roadsides and highway rights-of-way.".

SEC. 11529. ACTIVE TRANSPORTATION INFRASTRUCTURE INVESTMENT PROGRAM.

(a) IN GENERAL.—Subject to the availability of appropriations, the Secretary shall carry out an active transportation infrastructure investment program to make grants, on a competitive basis, to eligible organizations to construct eligible projects to provide safe and connected active transportation facilities in an active transportation network or active transportation spine.

(b) APPLICATION.—

AMERICAN OVERSIGHT

(1) IN GENERAL.—To be eligible to receive a grant under this section, an eligible organization shall submit to the Secretary an application in such manner and containing such information as the Secretary may require.

(2) ELIGIBLE PROJECTS PARTIALLY ON FEDERAL LAND.—With respect to an application for an eligible project that is located in part on Federal land, an eligible organization shall enter into a cooperative agreement with the appropriate Federal agency with jurisdiction over such land to submit an application described in paragraph (1).

(c) APPLICATION CONSIDERATIONS.—In making a grant for construction of an active transportation network or active transportation spine under this section, the Secretary shall consider the following:

(1) Whether the eligible organization submitted a plan for an eligible project for the development of walking and bicycling infrastructure that is likely to provide substantial additional opportunities for walking and bicycling, including effective plans—

(A) to create an active transportation network connecting destinations within or between communities, including schools, workplaces, residences, businesses, recreation areas, and other community areas, or create an active transportation spine connecting two or more communities, metropolitan regions, or States; and

(B) to integrate active transportation facilities with transit services, where available, to improve access to public transportation.

(2) Whether the eligible organization demonstrates broad community support through—

(A) the use of public input in the development of transportation plans; and

(B) the commitment of community leaders to the success and timely implementation of an eligible project.

(3) Whether the eligible organization provides evidence of commitment to traffic safety, regulations, financial incentives, or community design policies that facilitate significant increases in walking and bicycling.

(4) The extent to which the eligible organization demonstrates commitment of State, local, or eligible Federal matching funds, and land or in-kind contributions, in addition to the local match required under subsection (f)(1), unless the applicant qualifies for an exception under subsection (f)(2).

(5) The extent to which the eligible organization demonstrates that the grant will address existing disparities in bicyclist and pedestrian fatality rates based on race or income level or provide access to jobs and services for low-income communities and disadvantaged communities.

(6) Whether the eligible organization demonstrates how investment in active transportation will advance safety for pedestrians and cyclists, accessibility to jobs and key destinations, economic competitiveness, environmental protection, and quality of life.

(d) USE OF FUNDS.—

(1) IN GENERAL.—Of the amounts made available to carry out this section and subject to paragraphs (2) and (3), the Secretary shall obligate—

AMERICAN OVERSIGHT

(A) not less than 30 percent to eligible projects that construct active transportation networks that connect people with public transportation, businesses, workplaces, schools, residences, recreation areas, and other community activity centers; and

(B) not less than 30 percent to eligible projects that construct active transportation spines.

(2) PLANNING AND DESIGN GRANTS.—Each fiscal year, the Secretary shall set aside not less than $3,000,000 of the funds made available to carry out this section to provide planning grants for eligible organizations to develop plans for active transportation networks and active transportation spines.

(3) ADMINISTRATIVE COSTS.—Each fiscal year, the Secretary shall set aside not more than $2,000,000 of the funds made available to carry out this section to cover the costs of administration, research, technical assistance, communications, and training activities under the program.

(4) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection prohibits an eligible organization from receiving research or other funds under title 23 or 49, United States Code.

(e) GRANT TIMING.—

(1) REQUEST FOR APPLICATION.—Not later than 30 days after funds are made available to carry out this section for a fiscal year, the Secretary shall publish in the Federal Register a request for applications for grants under this section for that fiscal year.

(2) SELECTION OF GRANT RECIPIENTS.—Not later than 150 days after funds are made available to carry out this section for a fiscal year, the Secretary shall select grant recipients of grants under this section for that fiscal year.

(f) FEDERAL SHARE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the Federal share of the cost of an eligible project carried out using a grant under this section shall not exceed 80 percent of the total project cost.

(2) EXCEPTION FOR DISADVANTAGED COMMUNITIES.—For eligible projects serving communities with a poverty rate of over 40 percent based on the majority of census tracts served by the eligible project, the Secretary may increase the Federal share of the cost of the eligible project up to 100 percent of the total project cost.

(g) ASSISTANCE TO INDIAN TRIBES.—In carrying out this section, the Secretary may enter into grant agreements, self-determination contracts, and self-governance compacts under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5301 et seq.) with Indian tribes that are eligible organizations, and such agreements, contracts, and compacts shall be administered in accordance with that Act.

(h) REPORTS.—

(1) INTERIM REPORT.—Not later than September 30, 2024, the Secretary shall submit to Congress a report containing the information described in paragraph (3).

(2) FINAL REPORT.—Not later than September 30, 2026, the Secretary shall submit to Congress a report containing the information described in paragraph (3).

AMERICAN OVERSIGHT

(3) REPORT INFORMATION.—A report submitted under this subsection shall contain the following, with respect to the period covered by the applicable report:

(A) A list of grants made under this section.

(B) Best practices of eligible organizations that receive grants under this section in implementing eligible projects.

(C) Impediments experienced by eligible organizations that receive grants under this section in developing and shifting to active transportation.

(i) RULE REQUIRED.—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue a final rule that encourages the use of the programmatic categorical exclusion, expedited procurement techniques, and other best practices to facilitate productive and timely expenditures for eligible projects that are small, low-impact, and constructed within an existing built environment.

(j) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There is authorized to be appropriated to the Secretary to carry out this section $200,000,000 for each of fiscal years 2022 through 2026.

(2) AVAILABILITY.—The amounts made available to carry out this section shall remain available until expended.

(k) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project assisted under this section shall be treated as a project on a Federal-aid highway under chapter 1 of title 23, United States Code.

(l) DEFINITIONS.—In this section:

(1) ACTIVE TRANSPORTATION.—The term "active transportation" means mobility options powered primarily by human energy, including bicycling and walking.

(2) ACTIVE TRANSPORTATION NETWORK.—The term "active transportation network" means facilities built for active transportation, including sidewalks, bikeways, and pedestrian and bicycle trails, that connect between destinations within a community or metropolitan region.

(3) ACTIVE TRANSPORTATION SPINE.—The term "active transportation spine" means facilities built for active transportation, including sidewalks, bikeways, and pedestrian and bicycle trails that connect between communities, metropolitan regions, or States.

(4) COMMUNITY.—The term "community" means a geographic area that is socioeconomically interdependent and may include rural, suburban, and urban jurisdictions.

(5) ELIGIBLE ORGANIZATION.—The term "eligible organization" means—

(A) a local or regional governmental organization, including a metropolitan planning organization or regional planning organization or council;

(B) a multicounty special district;

(C) a State;

(D) a multistate group of governments; or

(E) an Indian tribe.

(6) ELIGIBLE PROJECT.—The term "eligible project" means an active transportation project or group of projects—

(A) within or between a community or group of communities, at least one of which falls within the jurisdiction

AMERICAN OVERSIGHT

of an eligible organization, which has submitted an application under this section; and

(B) that has—

(i) a total cost of not less than $15,000,000; or

(ii) with respect to planning and design grants, planning and design costs of not less than $100,000.

(7) INDIAN TRIBE.—The term "Indian tribe" has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304).

(8) TOTAL PROJECT COST.—The term "total project cost" means the sum total of all costs incurred in the development of an eligible project that are approved by the Secretary as reasonable and necessary, including—

(A) the cost of acquiring real property;

(B) the cost of site preparation, demolition, and development;

(C) expenses related to the issuance of bonds or notes;

(D) fees in connection with the planning, execution, and financing of the eligible project;

(E) the cost of studies, surveys, plans, permits, insurance, interest, financing, tax, and assessments;

(F) the cost of construction, rehabilitation, reconstruction, and equipping the eligible project;

(G) the cost of land improvements;

(H) contractor fees;

(I) the cost of training and education related to the safety of users of any bicycle or pedestrian network or spine constructed as part of an eligible project; and

(J) any other cost that the Secretary determines is necessary and reasonable.

SEC. 11530. HIGHWAY COST ALLOCATION STUDY.

(a) IN GENERAL.—Not later than 4 years after the date of enactment of this Act, the Secretary, in coordination with State departments of transportation, shall carry out a highway cost allocation study to determine the direct costs of highway use by various types of users.

(b) INCLUSIONS.—The study under subsection (a) shall include an examination of—

(1) the Federal costs occasioned in the design, construction, rehabilitation, and maintenance of Federal-aid highways by—

(A) the use of vehicles of different dimensions, weights, number of axles, and other specifications; and

(B) the frequency of those vehicles in the traffic stream;

(2) the safety-, emissions-, congestion-, and noise-related costs of highway use by various types of users, and other costs as determined by the Secretary; and

(3) the proportionate share of the costs described in paragraph (1) that are attributable to each class of highway users.

(c) REQUIREMENTS.—In carrying out the study under subsection (a), the Secretary shall—

(1) ensure that the study examines only direct costs of highway use;

(2) capture the various driving conditions in different geographic areas of the United States;

AMERICAN OVERSIGHT

(3) to the maximum extent practicable, distinguish between costs directly occasioned by a highway user class and costs occasioned by all highway user classes; and

(4) compare the costs occasioned by various highway user classes with the user fee revenue contributed to the Highway Trust Fund by those highway user classes.

(d) REPORTS.—

(1) INTERIM REPORTS.—Not less frequently than annually during the period during which the Secretary is carrying out the study under subsection (a), the Secretary shall submit to Congress an interim report on the progress of the study.

(2) FINAL REPORT.—On completion of the study under subsection (a), the Secretary shall submit to Congress a final report on the results of the study, including the recommendations under subsection (e).

(e) RECOMMENDATIONS.—On completion of the study under subsection (a), the Secretary, in coordination with the Secretary of the Treasury, shall develop recommendations for a set of revenue options to fully cover the costs occasioned by highway users, including recommendations for—

(1) changes to existing revenue streams; and

(2) new revenue streams based on user fees.

TITLE II—TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION

SEC. 12001. TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION ACT OF 1998 AMENDMENTS.

(a) DEFINITIONS.—Section 601(a) of title 23, United States Code, is amended—

(1) in subparagraph (E) of paragraph (10), by striking "3 years" and inserting "5 years"; and

(2) in paragraph (12)—

(A) by striking subparagraph (E) and inserting the following:

"(E) a project to improve or construct public infrastructure—

"(i) that—

"(I) is located within walking distance of, and accessible to, a fixed guideway transit facility, passenger rail station, intercity bus station, or intermodal facility, including a transportation, public utility, or capital project described in section 5302(3)(G)(v) of title 49, and related infrastructure; or

"(II) is a project for economic development, including commercial and residential development, and related infrastructure and activities—

"(aa) that incorporates private investment;

"(bb) that is physically or functionally related to a passenger rail station or multimodal station that includes rail service;

AMERICAN OVERSIGHT

"(cc) for which the project sponsor has a high probability of commencing the contracting process for construction by not later than 90 days after the date on which credit assistance under the TIFIA program is provided for the project; and

"(dd) that has a high probability of reducing the need for financial assistance under any other Federal program for the relevant passenger rail station or service by increasing ridership, tenant lease payments, or other activities that generate revenue exceeding costs; and

"(ii) for which, by not later than September 30, 2026, the Secretary has—

"(I) received a letter of interest; and

"(II) determined that the project is eligible for assistance;";

(B) in subparagraph (F), by striking the period at the end and inserting a semicolon; and

(C) by adding at the end the following:

"(G) an eligible airport-related project (as defined in section 40117(a) of title 49) for which, not later than September 30, 2025, the Secretary has—

"(i) received a letter of interest; and

"(ii) determined that the project is eligible for assistance; and

"(H) a project for the acquisition of plant and wildlife habitat pursuant to a conservation plan that—

"(i) has been approved by the Secretary of the Interior pursuant to section 10 of the Endangered Species Act of 1973 (16 U.S.C. 1539); and

"(ii) in the judgment of the Secretary, would mitigate the environmental impacts of transportation infrastructure projects otherwise eligible for assistance under this title.".

(b) ELIGIBILITY.—Section 602(a)(2) of title 23, United States Code, is amended—

(1) in subparagraph (A)(iv)—

(A) by striking "a rating" and inserting "an investment-grade rating"; and

(B) by striking "$75,000,000" and inserting "$150,000,000"; and

(2) in subparagraph (B)—

(A) by striking "the senior debt" and inserting "senior debt"; and

(B) by striking "credit instrument is for an amount less than $75,000,000" and inserting "total amount of other senior debt and the Federal credit instrument is less than $150,000,000".

(c) FEDERAL REQUIREMENTS.—Section 602(c)(1) of title 23, United States Code, is amended in the matter preceding subparagraph (A) by striking "and the requirements of section 5333(a) of title 49 for rail projects," and inserting "the requirements of section 5333(a) of title 49 for rail projects, and the requirements of sections 47112(b) and 50101 of title 49 for airport-related projects,".

AMERICAN OVERSIGHT

(d) PROCESSING TIMELINES.—Section 602(d) of title 23, United States Code, is amended—

(1) by redesignating paragraphs (1) and (2) as paragraphs (2) and (3), respectively;

(2) in paragraph (3) (as so redesignated), by striking "paragraph (1)" and inserting "paragraph (2)"; and

(3) by inserting before paragraph (2) (as so redesignated) the following:

"(1) PROCESSING TIMELINES.—Except in the case of an application described in subsection (a)(8) and to the maximum extent practicable, the Secretary shall provide an applicant with a specific estimate of the timeline for the approval or disapproval of the application of the applicant, which, to the maximum extent practicable, the Secretary shall endeavor to complete by not later than 150 days after the date on which the applicant submits a letter of interest to the Secretary.".

(e) MATURITY DATE OF CERTAIN SECURED LOANS.—Section 603(b)(5) of title 23, United States Code, is amended—

(1) in subparagraph (A), in the matter preceding clause (i), by striking "subparagraph (B)" and inserting "subparagraphs (B) and (C)"; and

(2) by adding at the end the following:

"(C) LONG LIVED ASSETS.—In the case of a capital asset with an estimated life of more than 50 years, the final maturity date of the secured loan shall be the lesser of—

"(i) 75 years after the date of substantial completion of the project; or

"(ii) 75 percent of the estimated useful life of the capital asset.".

(f) SECURED LOANS.—Section 603(c)(4)(A) of title 23, United States Code, is amended—

(1) by striking "Any excess" and inserting the following:

"(i) IN GENERAL.—Except as provided in clause (ii), any excess"; and

(2) by adding at the end the following:

"(ii) CERTAIN APPLICANTS.—In the case of a secured loan or other secured Federal credit instrument provided after the date of enactment of the Surface Transportation Reauthorization Act of 2021, if the obligor is a governmental entity, agency, or instrumentality, the obligor shall not be required to prepay the secured loan or other secured Federal credit instrument with any excess revenues described in clause (i) if the obligor enters into an agreement to use those excess revenues only for purposes authorized under this title or title 49.".

(g) TECHNICAL AMENDMENT.—Section 602(e) of title 23, United States Code, is amended by striking "section 601(a)(1)(A)" and inserting "section 601(a)(2)(A)".

(h) STREAMLINED APPLICATION PROCESS.—Section 603(f) of title 23, United States Code, is amended by adding at the end the following:

"(3) ADDITIONAL TERMS FOR EXPEDITED DECISIONS.—

"(A) IN GENERAL.—Not later than 120 days after the date of enactment of this paragraph, the Secretary shall implement an expedited decision timeline for public agency borrowers seeking secured loans that meet—

AMERICAN OVERSIGHT

"(i) the terms under paragraph (2); and

"(ii) the additional criteria described in subparagraph (B).

"(B) ADDITIONAL CRITERIA.—The additional criteria referred to in subparagraph (A)(ii) are the following:

"(i) The secured loan is made on terms and conditions that substantially conform to the conventional terms and conditions established by the National Surface Transportation Innovative Finance Bureau.

"(ii) The secured loan is rated in the A category or higher.

"(iii) The TIFIA program share of eligible project costs is 33 percent or less.

"(iv) The applicant demonstrates a reasonable expectation that the contracting process for the project can commence by not later than 90 days after the date on which a Federal credit instrument is obligated for the project under the TIFIA program.

"(v) The project has received a categorical exclusion, a finding of no significant impact, or a record of decision under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

"(C) WRITTEN NOTICE.—The Secretary shall provide to an applicant seeking a secured loan under the expedited decision process under this paragraph a written notice informing the applicant whether the Secretary has approved or disapproved the application by not later than 180 days after the date on which the Secretary submits to the applicant a letter indicating that the National Surface Transportation Innovative Finance Bureau has commenced the creditworthiness review of the project.".

(i) FUNDING.—

(1) IN GENERAL.—Section 608(a) of title 23, United States Code, is amended—

(A) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively;

(B) by inserting after paragraph (3) the following:

"(4) LIMITATION FOR CERTAIN PROJECTS.—

"(A) TRANSIT-ORIENTED DEVELOPMENT PROJECTS.—For each fiscal year, the Secretary may use to carry out projects described in section 601(a)(12)(E) not more than 15 percent of the amounts made available to carry out the TIFIA program for that fiscal year.

"(B) AIRPORT-RELATED PROJECTS.—The Secretary may use to carry out projects described in section 601(a)(12)(G)—

"(i) for each fiscal year, not more than 15 percent of the amounts made available to carry out the TIFIA program under the Surface Transportation Reauthorization Act of 2021 for that fiscal year; and

"(ii) for the period of fiscal years 2022 through 2026, not more than 15 percent of the unobligated carryover balances (as of October 1, 2021).''; and

(C) by striking paragraph (6) (as so redesignated) and inserting the following:

"(6) ADMINISTRATIVE COSTS.—Of the amounts made available to carry out the TIFIA program, the Secretary may use

AMERICAN OVERSIGHT

not more than $10,000,000 for each of fiscal years 2022 through 2026 for the administration of the TIFIA program.".

(2) CONFORMING AMENDMENT.—Section 605(f)(1) of title 23, United States Code, is amended by striking "section 608(a)(5)" and inserting "section 608(a)(6)".

(j) STATUS REPORTS.—Section 609 of title 23, United States Code, is amended by adding at the end the following:

"(c) STATUS REPORTS.—

"(1) IN GENERAL.—The Secretary shall publish on the website for the TIFIA program—

"(A) on a monthly basis, a current status report on all submitted letters of interest and applications received for assistance under the TIFIA program; and

"(B) on a quarterly basis, a current status report on all approved applications for assistance under the TIFIA program.

"(2) INCLUSIONS.—Each monthly and quarterly status report under paragraph (1) shall include, at a minimum, with respect to each project included in the status report—

"(A) the name of the party submitting the letter of interest or application;

"(B) the name of the project;

"(C) the date on which the letter of interest or application was received;

"(D) the estimated project eligible costs;

"(E) the type of credit assistance sought; and

"(F) the anticipated fiscal year and quarter for closing of the credit assistance.".

(k) STATE INFRASTRUCTURE BANK PROGRAM.—Section 610 of title 23, United States Code, is amended—

(1) in subsection (d)—

(A) in paragraph (1)(A), by striking "fiscal years 2016 through 2020" and inserting "fiscal years 2022 through 2026";

(B) in paragraph (2), by striking "fiscal years 2016 through 2020" and inserting "fiscal years 2022 through 2026"; and

(C) in paragraph (3), by striking "fiscal years 2016 through 2020" and inserting "fiscal years 2022 through 2026"; and

(2) in subsection (k), by striking "fiscal years 2016 through 2020" and inserting "fiscal years 2022 through 2026".

(l) REPORT.—Not later than September 30, 2025, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the impact of the amendment relating to airport-related projects under subsection (a)(2)(C) and subsection (i)(1)(B), including—

(1) information on the use of TIFIA program (as defined in section 601(a) of title 23, United States Code) funds for eligible airport-related projects (as defined in section 40117(a) of title 49, United States Code); and

(2) recommendations for modifications to the TIFIA program.

AMERICAN OVERSIGHT

SEC. 12002. FEDERAL REQUIREMENTS FOR TIFIA ELIGIBILITY AND PROJECT SELECTION.

(a) IN GENERAL.—Section 602(c) of title 23, United States Code, is amended by adding at the end the following:

"(3) PAYMENT AND PERFORMANCE SECURITY.—

"(A) IN GENERAL.—The Secretary shall ensure that the design and construction of a project carried out with assistance under the TIFIA program shall have appropriate payment and performance security, regardless of whether the obligor is a State, local government, agency or instrumentality of a State or local government, public authority, or private party.

"(B) WRITTEN DETERMINATION.—If payment and performance security is required to be furnished by applicable State or local statute or regulation, the Secretary may accept such payment and performance security requirements applicable to the obligor if the Federal interest with respect to Federal funds and other project risk related to design and construction is adequately protected.

"(C) NO DETERMINATION OR APPLICABLE REQUIREMENTS.—If there are no payment and performance security requirements applicable to the obligor, the security under section 3131(b) of title 40 or an equivalent State or local requirement, as determined by the Secretary, shall be required.".

(b) APPLICABILITY.—The amendments made by this section shall apply with respect to any agreement for credit assistance entered into on or after the date of enactment of this Act.

TITLE III—RESEARCH, TECHNOLOGY, AND EDUCATION

SEC. 13001. STRATEGIC INNOVATION FOR REVENUE COLLECTION.

(a) IN GENERAL.—The Secretary shall establish a program to test the feasibility of a road usage fee and other user-based alternative revenue mechanisms (referred to in this section as "user-based alternative revenue mechanisms") to help maintain the long-term solvency of the Highway Trust Fund, through pilot projects at the State, local, and regional level.

(b) GRANTS.—

(1) IN GENERAL.—The Secretary shall provide grants to eligible entities to carry out pilot projects under this section.

(2) APPLICATIONS.—To be eligible for a grant under this section, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(3) OBJECTIVES.—The Secretary shall ensure that, in the aggregate, the pilot projects carried out using funds provided under this section meet the following objectives:

(A) To test the design, acceptance, equity, and implementation of user-based alternative revenue mechanisms, including among—

(i) differing income groups; and

(ii) rural and urban drivers, as applicable.

AMERICAN OVERSIGHT

(B) To provide recommendations regarding adoption and implementation of user-based alternative revenue mechanisms.

(C) To quantify and minimize the administrative costs of any potential user-based alternative revenue mechanisms.

(D) To test a variety of solutions, including the use of independent and private third-party vendors, for the collection of data and fees from user-based alternative revenue mechanisms, including the reliability and security of those solutions and vendors.

(E) To test solutions to ensure the privacy and security of data collected for the purpose of implementing a user-based alternative revenue mechanism.

(F) To conduct public education and outreach to increase public awareness regarding the need for user-based alternative revenue mechanisms for surface transportation programs.

(G) To evaluate the ease of compliance and enforcement of a variety of implementation approaches for different users of the surface transportation system.

(H) To ensure, to the greatest extent practicable, the use of innovation.

(I) To consider, to the greatest extent practicable, the potential for revenue collection along a network of alternative fueling stations.

(J) To evaluate the impacts of the imposition of a user-based alternative revenue mechanism on—

(i) transportation revenues;

(ii) personal mobility, driving patterns, congestion, and transportation costs; and

(iii) freight movement and costs.

(K) To evaluate options for the integration of a user-based alternative revenue mechanism with—

(i) nationwide transportation revenue collections and regulations;

(ii) toll revenue collection platforms;

(iii) transportation network company fees; and

(iv) any other relevant transportation revenue mechanisms.

(4) ELIGIBLE ENTITY.—An entity eligible to apply for a grant under this section is—

(A) a State or a group of States;

(B) a local government or a group of local governments; or

(C) a metropolitan planning organization (as defined in section 134(b) of title 23, United States Code) or a group of metropolitan planning organizations.

(5) USE OF FUNDS.—An eligible entity that receives a grant under this section shall use the grant to carry out a pilot project to address 1 or more of the objectives described in paragraph (3).

(6) CONSIDERATION.—The Secretary shall consider geographic diversity in awarding grants under this subsection.

(7) FEDERAL SHARE.—The Federal share of the cost of a pilot project carried out under this section may not exceed—

AMERICAN OVERSIGHT

(A) 80 percent of the total cost of a project carried out by an eligible entity that has not otherwise received a grant under this section; and

(B) 70 percent of the total cost of a project carried out by an eligible entity that has received at least 1 grant under this section.

(c) LIMITATION ON REVENUE COLLECTED.—Any revenue collected through a user-based alternative revenue mechanism established using funds provided under this section shall not be considered a toll under section 301 of title 23, United States Code.

(d) RECOMMENDATIONS AND REPORT.—Not later than 3 years after the date of enactment of this Act, the Secretary, in coordination with the Secretary of the Treasury and the Federal System Funding Alternative Advisory Board established under section 13002(g)(1), shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that—

(1) summarizes the results of the pilot projects under this section and the national pilot program under section 13002; and

(2) provides recommendations, if applicable, to enable potential implementation of a nationwide user-based alternative revenue mechanism.

(e) FUNDING.—

(1) IN GENERAL.—Of the funds made available to carry out section 503(b) of title 23, United States Code, for each of fiscal years 2022 through 2026 $15,000,000 shall be used for pilot projects under this section.

(2) FLEXIBILITY.—If, by August 1 of each fiscal year, the Secretary determines that there are not enough grant applications to meet the requirements of this section for that fiscal year, the Secretary shall transfer to the national pilot program under section 13002 or to the highway research and development program under section 503(b) of title 23, United States Code—

(A) any funds reserved for a fiscal year under paragraph (1) that the Secretary has not yet awarded under this section; and

(B) an amount of obligation limitation equal to the amount of funds that the Secretary transfers under subparagraph (A).

(f) REPEAL.—

(1) IN GENERAL.—Section 6020 of the FAST Act (23 U.S.C. 503 note; Public Law 114–94) is repealed.

(2) CLERICAL AMENDMENT.—The table of contents in section 1(b) of the FAST Act (Public Law 114–94; 129 Stat. 1312) is amended by striking the item relating to section 6020.

SEC. 13002. NATIONAL MOTOR VEHICLE PER-MILE USER FEE PILOT.

(a) DEFINITIONS.—In this section:

(1) ADVISORY BOARD.—The term "advisory board" means the Federal System Funding Alternative Advisory Board established under subsection (g)(1).

(2) COMMERCIAL VEHICLE.—The term "commercial vehicle" has the meaning given the term commercial motor vehicle in section 31101 of title 49, United States Code.

AMERICAN OVERSIGHT

(3) HIGHWAY TRUST FUND.—The term "Highway Trust Fund" means the Highway Trust Fund established under section 9503 of the Internal Revenue Code of 1986.

(4) LIGHT TRUCK.—The term "light truck" has the meaning given the term in section 523.2 of title 49, Code of Federal Regulations (or successor regulations).

(5) MEDIUM- AND HEAVY-DUTY TRUCK.—The term "medium- and heavy-duty truck" has the meaning given the term "commercial medium- and heavy-duty on-highway vehicle" in section 32901(a) of title 49, United States Code.

(6) PASSENGER MOTOR VEHICLE.—The term "passenger motor vehicle" has the meaning given the term in section 32101 of title 49, United States Code.

(7) PER-MILE USER FEE.—The term "per-mile user fee" means a revenue mechanism that—

(A) is applied to road users operating motor vehicles on the surface transportation system; and

(B) is based on the number of vehicle miles traveled by an individual road user.

(8) PILOT PROGRAM.—The term "pilot program" means the pilot program established under subsection (b)(1).

(9) VOLUNTEER PARTICIPANT.—The term "volunteer participant" means—

(A) an owner or lessee of a private, personal motor vehicle who volunteers to participate in the pilot program;

(B) a commercial vehicle operator who volunteers to participate in the pilot program; or

(C) an owner of a motor vehicle fleet who volunteers to participate in the pilot program.

(b) ESTABLISHMENT.—

(1) IN GENERAL.—The Secretary, in coordination with the Secretary of the Treasury, and consistent with the recommendations of the advisory board, shall establish a pilot program to demonstrate a national motor vehicle per-mile user fee—

(A) to restore and maintain the long-term solvency of the Highway Trust Fund; and

(B) to improve and maintain the surface transportation system.

(2) OBJECTIVES.—The objectives of the pilot program are—

(A) to test the design, acceptance, implementation, and financial sustainability of a national motor vehicle per-mile user fee;

(B) to address the need for additional revenue for surface transportation infrastructure and a national motor vehicle per-mile user fee; and

(C) to provide recommendations relating to the adoption and implementation of a national motor vehicle per-mile user fee.

(c) PARAMETERS.—In carrying out the pilot program, the Secretary, in coordination with the Secretary of the Treasury, shall—

(1) provide different methods that volunteer participants can choose from to track motor vehicle miles traveled;

(2) solicit volunteer participants from all 50 States, the District of Columbia, and the Commonwealth of Puerto Rico;

(3) ensure an equitable geographic distribution by population among volunteer participants;

AMERICAN OVERSIGHT

(4) include commercial vehicles and passenger motor vehicles; and

(5) use components of and, where appropriate, coordinate with—

(A) the States that received a grant under section 6020 of the FAST Act (23 U.S.C. 503 note; Public Law 114–94) (as in effect on the day before the date of enactment of this Act); and

(B) eligible entities that received a grant under section 13001.

(d) METHODS.—

(1) TOOLS.—In selecting the methods described in subsection (c)(1), the Secretary shall coordinate with entities that voluntarily provide to the Secretary for use under the pilot program any of the following vehicle-miles-traveled collection tools:

(A) Third-party on-board diagnostic (OBD-II) devices.

(B) Smart phone applications.

(C) Telemetric data collected by automakers.

(D) Motor vehicle data obtained by car insurance companies.

(E) Data from the States that received a grant under section 6020 of the FAST Act (23 U.S.C. 503 note; Public Law 114–94) (as in effect on the day before the date of enactment of this Act).

(F) Motor vehicle data obtained from fueling stations.

(G) Any other method that the Secretary considers appropriate.

(2) COORDINATION.—

(A) SELECTION.—The Secretary shall determine which collection tools under paragraph (1) are selected for the pilot program.

(B) VOLUNTEER PARTICIPANTS.—In a manner that the Secretary considers appropriate, the Secretary shall enable each volunteer participant to choose 1 of the selected collection tools under paragraph (1).

(e) MOTOR VEHICLE PER-MILE USER FEES.—For the purposes of the pilot program, the Secretary of the Treasury shall establish, on an annual basis, per-mile user fees for passenger motor vehicles, light trucks, and medium- and heavy-duty trucks, which amount may vary between vehicle types and weight classes to reflect estimated impacts on infrastructure, safety, congestion, the environment, or other related social impacts.

(f) VOLUNTEER PARTICIPANTS.—The Secretary, in coordination with the Secretary of the Treasury, shall—

(1)(A) ensure, to the extent practicable, that the greatest number of volunteer participants participate in the pilot program; and

(B) ensure that such volunteer participants represent geographically diverse regions of the United States, including from urban and rural areas; and

(2) issue policies relating to the protection of volunteer participants, including policies that—

(A) protect the privacy of volunteer participants; and

(B) secure the data provided by volunteer participants.

(g) FEDERAL SYSTEM FUNDING ALTERNATIVE ADVISORY BOARD.—

AMERICAN OVERSIGHT

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary shall establish an advisory board, to be known as the "Federal System Funding Alternative Advisory Board", to assist with—

(A) providing the Secretary with recommendations related to the structure, scope, and methodology for developing and implementing the pilot program;

(B) carrying out the public awareness campaign under subsection (h); and

(C) developing the report under subsection (n).

(2) MEMBERSHIP.—The advisory board shall include, at a minimum, the following representatives and entities, to be appointed by the Secretary:

(A) State departments of transportation.

(B) Any public or nonprofit entity that led a surface transportation system funding alternatives pilot project under section 6020 of the FAST Act (23 U.S.C. 503 note; Public Law 114–94) (as in effect on the day before the date of enactment of this Act).

(C) Representatives of the trucking industry, including owner-operator independent drivers.

(D) Data security experts with expertise in personal privacy.

(E) Academic experts on surface transportation systems.

(F) Consumer advocates, including privacy experts.

(G) Advocacy groups focused on equity.

(H) Owners of motor vehicle fleets.

(I) Owners and operators of toll facilities.

(J) Tribal groups or representatives.

(K) Any other representatives or entities, as determined appropriate by the Secretary.

(3) RECOMMENDATIONS.—Not later than 1 year after the date on which the advisory board is established under paragraph (1), the advisory board shall provide the Secretary with the recommendations described in subparagraph (A) of that paragraph, which the Secretary shall use in implementing the pilot program.

(h) PUBLIC AWARENESS CAMPAIGN.—

(1) IN GENERAL.—The Secretary, with guidance from the advisory board, may carry out a public awareness campaign to increase public awareness regarding a national motor vehicle per-mile user fee, including distributing information—

(A) related to the pilot program;

(B) from the State surface transportation system funding alternatives pilot program under section 6020 of the FAST Act (23 U.S.C. 503 note; Public Law 114–94) (as in effect on the day before the date of enactment of this Act); and

(C) related to consumer privacy.

(2) CONSIDERATIONS.—In carrying out the public awareness campaign under this subsection, the Secretary shall consider issues unique to each State.

(i) REVENUE COLLECTION.—The Secretary of the Treasury, in coordination with the Secretary, shall establish a mechanism to collect motor vehicle per-mile user fees established under subsection (e) from volunteer participants, which—

AMERICAN OVERSIGHT

(1) may be adjusted as needed to address technical challenges; and

(2) may allow independent and private third-party vendors to collect the motor vehicle per-mile user fees and forward such fees to the Treasury.

(j) AGREEMENT.—The Secretary may enter into an agreement with a volunteer participant containing such terms and conditions as the Secretary considers necessary for participation in the pilot program.

(k) LIMITATION.—Any revenue collected through the mechanism established under subsection (i) shall not be considered a toll under section 301 of title 23, United States Code.

(l) HIGHWAY TRUST FUND.—The Secretary of the Treasury shall ensure that any revenue collected under subsection (i) is deposited into the Highway Trust Fund.

(m) PAYMENT.—Not more than 60 days after the end of each calendar quarter in which a volunteer participant has participated in the pilot program, the Secretary of the Treasury, in consultation with the Secretary of Transportation, shall estimate an amount of payment for each volunteer based on the vehicle miles submitted by the volunteer for the calendar quarter and issue such payment to such volunteer participant.

(n) REPORT TO CONGRESS.—Not later than 1 year after the date on which volunteer participants begin participating in the pilot program, and each year thereafter for the duration of the pilot program, the Secretary and the Secretary of the Treasury shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that includes an analysis of—

(1) whether the objectives described in subsection (b)(2) were achieved;

(2) how volunteer participant protections in subsection (f)(2) were complied with;

(3) whether motor vehicle per-mile user fees can maintain the long-term solvency of the Highway Trust Fund and improve and maintain the surface transportation system, which shall include estimates of administrative costs related to collecting such motor vehicle per mile user fees;

(4) how the privacy of volunteers was maintained; and

(5) equity impacts of the pilot program, including the impacts of the pilot program on low-income commuters.

(o) FUNDING.—

(1) IN GENERAL.—Of the funds made available to carry out section 503(b) of title 23, United States Code, for each of fiscal years 2022 through 2026 $10,000,000 shall be used to carry out the pilot program under this section.

(2) EXCESS FUNDS.—Any excess funds remaining after carrying out the pilot program under this section shall be available to make grants for pilot projects under section 13001.

SEC. 13003. PERFORMANCE MANAGEMENT DATA SUPPORT PROGRAM.

Section 6028(c) of the FAST Act (23 U.S.C. 150 note; Public Law 114–94) is amended by striking "fiscal years 2016 through 2020" and inserting "fiscal years 2022 through 2026".

AMERICAN OVERSIGHT

SEC. 13004. DATA INTEGRATION PILOT PROGRAM.

(a) ESTABLISHMENT.—The Secretary shall establish a pilot program—

(1) to provide research and develop models that integrate, in near-real-time, data from multiple sources, including geolocated—

(A) weather conditions;

(B) roadway conditions;

(C) incidents, work zones, and other nonrecurring events related to emergency planning; and

(D) information from emergency responders; and

(2) to facilitate data integration between the Department, the National Weather Service, and other sources of data that provide real-time data with respect to roadway conditions during or as a result of severe weather events, including, at a minimum—

(A) winter weather;

(B) heavy rainfall; and

(C) tropical weather events.

(b) REQUIREMENTS.—In carrying out subsection (a)(1), the Secretary shall—

(1) address the safety, resiliency, and vulnerability of the transportation system to disasters; and

(2) develop tools for decisionmakers and other end-users who could use or benefit from the integrated data described in that subsection to improve public safety and mobility.

(c) TREATMENT.—Except as otherwise provided in this section, the Secretary shall carry out activities under the pilot program under this section as if—

(1) those activities were authorized under chapter 5 of title 23, United States Code; and

(2) the funds made available to carry out the pilot program were made available under that chapter.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $2,500,000 for each of fiscal years 2022 through 2026, to remain available until expended.

SEC. 13005. EMERGING TECHNOLOGY RESEARCH PILOT PROGRAM.

(a) ESTABLISHMENT.—The Secretary shall establish a pilot program to conduct emerging technology research in accordance with this section.

(b) ACTIVITIES.—The pilot program under this section shall include—

(1) research and development activities relating to leveraging advanced and additive manufacturing technologies to increase the structural integrity and cost-effectiveness of surface transportation infrastructure; and

(2) research and development activities (including laboratory and test track supported accelerated pavement testing research regarding the impacts of connected, autonomous, and platooned vehicles on pavement and infrastructure performance)—

(A) to reduce the impact of automated and connected driving systems and advanced driver-assistance systems on pavement and infrastructure performance; and

AMERICAN OVERSIGHT

(B) to improve transportation infrastructure design in anticipation of increased usage of automated driving systems and advanced driver-assistance systems.

(c) TREATMENT.—Except as otherwise provided in this section, the Secretary shall carry out activities under the pilot program under this section as if—

(1) those activities were authorized under chapter 5 of title 23, United States Code; and

(2) the funds made available to carry out the pilot program were made available under that chapter.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2022 through 2026, to remain available until expended.

SEC. 13006. RESEARCH AND TECHNOLOGY DEVELOPMENT AND DEPLOYMENT.

(a) IN GENERAL.—Section 503 of title 23, United States Code, is amended—

(1) in subsection (a)(2), by striking "section 508" and inserting "section 6503 of title 49";

(2) in subsection (b)—

(A) in paragraph (1)—

(i) in subparagraph (C), by striking "and" at the end;

(ii) in subparagraph (D), by striking the period at the end and inserting a semicolon; and

(iii) by adding at the end the following:

"(E) engage with public and private entities to spur advancement of emerging transformative innovations through accelerated market readiness; and

"(F) consult frequently with public and private entities on new transportation technologies.";

(B) in paragraph (2)(C)—

(i) by redesignating clauses (x) through (xv) as clauses (xi) through (xvi), respectively; and

(ii) by inserting after clause (ix) the following:

"(x) safety measures to reduce the number of wildlife-vehicle collisions;";

(C) in paragraph (3)—

(i) in subparagraph (B)(viii), by inserting ", including weather," after "events"; and

(ii) in subparagraph (C)—

(I) in clause (xv), by inserting "extreme weather events and" after "withstand";

(II) in clause (xviii), by striking "and" at the end;

(III) in clause (xix), by striking the period at the end and inserting "; and"; and

(IV) by adding at the end the following:

"(xx) studies on the deployment and revenue potential of the deployment of energy and broadband infrastructure in highway rights-of-way, including potential adverse impacts of the use or nonuse of those rights-of-way.";

(D) in paragraph (6)—

AMERICAN OVERSIGHT

(i) in subparagraph (A), by striking "and" at the end;

(ii) in subparagraph (B), by striking the period at the end and inserting "; and"; and

(iii) by adding at the end the following:

"(C) to support research on non-market-ready technologies in consultation with public and private entities.";

(E) in paragraph (7)(B)—

(i) in the matter preceding clause (i), by inserting "innovations by leading" after "support";

(ii) in clause (iii), by striking "and" at the end;

(iii) in clause (iv), by striking the period at the end and inserting "; and"; and

(iv) by adding at the end the following:

"(v) the evaluation of information from accelerated market readiness efforts, including non-market-ready technologies, in consultation with other offices of the Federal Highway Administration, the National Highway Traffic Safety Administration, and other key partners.";

(F) in paragraph (8)(A), by striking "future highway" and all that follows through "needs." and inserting the following: "current conditions and future needs of highways, bridges, and tunnels of the United States, including—

"(i) the conditions and performance of the highway network for freight movement;

"(ii) intelligent transportation systems;

"(iii) resilience needs; and

"(iv) the backlog of current highway, bridge, and tunnel needs."; and

(G) by adding at the end the following:

"(9) ANALYSIS TOOLS.—The Secretary may develop interactive modeling tools and databases that—

"(A) track the full condition of highway assets, including interchanges, and the reconstruction history of those assets;

"(B) can be used to assess transportation options;

"(C) allow for the monitoring and modeling of network-level traffic flows on highways; and

"(D) further Federal and State understanding of the importance of national and regional connectivity and the need for long-distance and interregional passenger and freight travel by highway and other surface transportation modes."; and

(3) in subsection (c)—

(A) in paragraph (1)—

(i) in the matter preceding subparagraph (A), by inserting "use of rights-of-way permissible under applicable law," after "structures,";

(ii) in subparagraph (D), by striking "and" at the end;

(iii) in subparagraph (E), by striking the period at the end and inserting "; and"; and

(iv) by adding at the end the following:

"(F) disseminating and evaluating information from accelerated market readiness efforts, including non-market-ready technologies, to public and private entities.";

AMERICAN OVERSIGHT

(B) in paragraph (2)—

(i) in subparagraph (B)(iii), by striking "improved tools and methods to accelerate the adoption" and inserting "and deploy improved tools and methods to accelerate the adoption of early-stage and proven innovative practices and technologies and, as the Secretary determines to be appropriate, support continued implementation"; and

(ii) by adding at the end the following:

"(D) REPORT.—Not later than 2 years after the date of enactment of this subparagraph and every 2 years thereafter, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives and make publicly available on an internet website a report that describes—

"(i) the activities the Secretary has undertaken to carry out the program established under paragraph (1); and

"(ii) how and to what extent the Secretary has worked to disseminate non-market-ready technologies to public and private entities.";

(C) in paragraph (3)—

(i) by redesignating subparagraphs (C) and (D) as subparagraphs (D) and (E), respectively;

(ii) by inserting after subparagraph (B) the following:

"(C) HIGH-FRICTION SURFACE TREATMENT APPLICATION STUDY.—

"(i) DEFINITION OF INSTITUTION.—In this subparagraph, the term 'institution' means a private sector entity, public agency, research university or other research institution, or organization representing transportation and technology leaders or other transportation stakeholders that, as determined by the Secretary, is capable of working with State highway agencies, the Federal Highway Administration, and the highway construction industry to develop and evaluate new products, design technologies, and construction methods that quickly lead to pavement improvements.

"(ii) STUDY.—The Secretary shall seek to enter into an agreement with an institution to carry out a study on the use of natural and synthetic calcined bauxite as a high-friction surface treatment application on pavement.

"(iii) REPORT.—Not later than 18 months after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Secretary shall submit a report on the results of the study under clause (ii) to—

"(I) the Committee on Environment and Public Works of the Senate;

"(II) the Committee on Transportation and Infrastructure of the House of Representatives;

"(III) the Federal Highway Administration; and

AMERICAN OVERSIGHT

"(IV) the American Association of State Highway and Transportation Officials.";

(iii) in subparagraph (D) (as so redesignated), by striking "fiscal years 2016 through 2020" and inserting "fiscal years 2022 through 2026"; and

(iv) in subparagraph (E) (as so redesignated)—

(I) in clause (i), by striking "annually" and inserting "once every 3 years"; and

(II) in clause (ii)—

(aa) in subclause (III), by striking "and" at the end;

(bb) in subclause (IV), by striking the period at the end and inserting a semicolon; and

(cc) by adding at the end the following:

"(V) pavement monitoring and data collection practices;

"(VI) pavement durability and resilience;

"(VII) stormwater management;

"(VIII) impacts on vehicle efficiency;

"(IX) the energy efficiency of the production of paving materials and the ability of paving materials to enhance the environment and promote sustainability; and

"(X) integration of renewable energy in pavement designs."; and

(D) by adding at the end the following:

"(5) ACCELERATED IMPLEMENTATION AND DEPLOYMENT OF ADVANCED DIGITAL CONSTRUCTION MANAGEMENT SYSTEMS.—

"(A) IN GENERAL.—The Secretary shall establish and implement a program under the technology and innovation deployment program established under paragraph (1) to promote, implement, deploy, demonstrate, showcase, support, and document the application of advanced digital construction management systems, practices, performance, and benefits.

"(B) GOALS.—The goals of the accelerated implementation and deployment of advanced digital construction management systems program established under subparagraph (A) shall include—

"(i) accelerated State adoption of advanced digital construction management systems applied throughout the construction lifecycle (including through the design and engineering, construction, and operations phases) that—

"(I) maximize interoperability with other systems, products, tools, or applications;

"(II) boost productivity;

"(III) manage complexity;

"(IV) reduce project delays and cost overruns; and

"(V) enhance safety and quality;

"(ii) more timely and productive information-sharing among stakeholders through reduced reliance on paper to manage construction processes and deliverables such as blueprints, design drawings,

AMERICAN OVERSIGHT

procurement and supply-chain orders, equipment logs, daily progress reports, and punch lists;

"(iii) deployment of digital management systems that enable and leverage the use of digital technologies on construction sites by contractors, such as state-of-the-art automated and connected machinery and optimized routing software that allows construction workers to perform tasks faster, safer, more accurately, and with minimal supervision;

"(iv) the development and deployment of best practices for use in digital construction management;

"(v) increased technology adoption and deployment by States and units of local government that enables project sponsors—

"(I) to integrate the adoption of digital management systems and technologies in contracts; and

"(II) to weigh the cost of digitization and technology in setting project budgets;

"(vi) technology training and workforce development to build the capabilities of project managers and sponsors that enables States and units of local government—

"(I) to better manage projects using advanced construction management technologies; and

"(II) to properly measure and reward technology adoption across projects of the State or unit of local government;

"(vii) development of guidance to assist States in updating regulations of the State to allow project sponsors and contractors—

"(I) to report data relating to the project in digital formats; and

"(II) to fully capture the efficiencies and benefits of advanced digital construction management systems and related technologies;

"(viii) reduction in the environmental footprint of construction projects using advanced digital construction management systems resulting from elimination of congestion through more efficient projects; and

"(ix) enhanced worker and pedestrian safety resulting from increased transparency.

"(C) FUNDING.—For each of fiscal years 2022 through 2026, the Secretary shall obligate from funds made available to carry out this subsection $20,000,000 to accelerate the deployment and implementation of advanced digital construction management systems.

"(D) PUBLICATION.—

"(i) IN GENERAL.—Not less frequently than annually, the Secretary shall issue and make available to the public on a website a report on—

"(I) progress made in the implementation of advanced digital management systems by States; and

AMERICAN OVERSIGHT

"(II) the costs and benefits of the deployment of new technology and innovations that substantially and directly resulted from the program established under this paragraph.

"(ii) INCLUSIONS.—The report under clause (i) may include an analysis of—

"(I) Federal, State, and local cost savings;

"(II) project delivery time improvements;

"(III) congestion impacts; and

"(IV) safety improvements for roadway users and construction workers.".

(b) ADVANCED TRANSPORTATION TECHNOLOGIES AND INNOVATIVE MOBILITY DEPLOYMENT.—Section 503(c)(4) of title 23, United States Code, is amended—

(1) in the heading, by inserting "AND INNOVATIVE MOBILITY" before "DEPLOYMENT";

(2) by striking subparagraph (A) and inserting the following:

"(A) IN GENERAL.—The Secretary shall provide grants to eligible entities to deploy, install, and operate advanced transportation technologies to improve safety, mobility, efficiency, system performance, intermodal connectivity, and infrastructure return on investment.";

(3) in subparagraph (B)—

(A) in clause (i), by striking "the enhanced use" and inserting "optimization";

(B) in clause (v)—

(i) by striking "transit," and inserting "work zone, weather, transit, paratransit,"; and

(ii) by striking "and accessible transportation" and inserting ", accessible, and integrated transportation and transportation services";

(C) by redesignating clauses (i) through (viii) as clauses (iii), (iv), (v), (vi), (vii), (ix), (x), and (xi), respectively;

(D) by inserting before clause (iii) (as so redesignated) the following:

"(i) improve the mobility of people and goods;

"(ii) improve the durability and extend the life of transportation infrastructure;";

(E) in clause (iv) (as so redesignated), by striking "deliver" and inserting "protect the environment and deliver";

(F) by inserting after clause (vii) (as so redesignated) the following:

"(viii) facilitate account-based payments for transportation access and services and integrate payment systems across modes;";

(G) in clause (x) (as so redesignated), by striking "or" at the end;

(H) in clause (xi) (as so redesignated)—

(i) by inserting "vehicle-to-pedestrian," after "vehicle-to-infrastructure,"; and

(ii) by striking the period at the end and inserting "; or"; and

(I) by adding at the end the following:

"(xii) incentivize travelers—

AMERICAN OVERSIGHT

"(I) to share trips during periods in which travel demand exceeds system capacity; or

"(II) to shift trips to periods in which travel demand does not exceed system capacity.";

(4) in subparagraph (C)—

(A) in clause (i), by striking "Not later" and all that follows through "thereafter" and inserting "Each fiscal year for which funding is made available for activities under this paragraph"; and

(B) in clause (ii)—

(i) in subclause (I), by inserting "mobility," after "safety,"; and

(ii) in subclause (II)—

(I) in item (bb), by striking "and" at the end;

(II) in item (cc), by striking the period at the end and inserting "; and"; and

(III) by adding at the end the following:

"(dd) facilitating payment for transportation services.";

(5) in subparagraph (D)—

(A) in clause (i), by striking "Not later" and all that follows through "thereafter" and inserting "Each fiscal year for which funding is made available for activities under this paragraph"; and

(B) in clause (ii)—

(i) by striking "In awarding" and inserting the following:

"(I) IN GENERAL.—Subject to subclause (II), in awarding"; and

(ii) by adding at the end the following:

"(II) RURAL SET-ASIDE.—Not less than 20 percent of the amounts made available to carry out this paragraph shall be reserved for projects serving rural areas.";

(6) in subparagraph (E)—

(A) by redesignating clauses (iii) through (ix) as clauses (iv), (v), (vi), (vii), (viii), (xi), and (xiv), respectively;

(B) by inserting after clause (ii) the following:

"(iii) advanced transportation technologies to improve emergency evacuation and response by Federal, State, and local authorities;";

(C) by inserting after clause (viii) (as so redesignated) the following:

"(ix) integrated corridor management systems;

"(x) advanced parking reservation or variable pricing systems;";

(D) in clause (xi) (as so redesignated)—

(i) by inserting ", toll collection," after "pricing"; and

(ii) by striking "or" at the end;

(E) by inserting after clause (xi) (as so redesignated) the following:

"(xii) technology that enhances high occupancy vehicle toll lanes, cordon pricing, or congestion pricing;

"(xiii) integration of transportation service payment systems;";

(F) in clause (xiv) (as so redesignated)—

AMERICAN OVERSIGHT

(i) by striking "and access" and inserting ", access, and on-demand transportation service";

(ii) by inserting "and other shared-use mobility applications" after "ridesharing"; and

(iii) by striking the period at the end and inserting a semicolon; and

(G) by adding at the end the following:

"(xv) retrofitting dedicated short-range communications (DSRC) technology deployed as part of an existing pilot program to cellular vehicle-to-everything (C–V2X) technology, subject to the condition that the retrofitted technology operates only within the existing spectrum allocations for connected vehicle systems; or

"(xvi) advanced transportation technologies, in accordance with the research areas described in section 6503 of title 49.";

(7) in subparagraph (F)(ii)(IV), by striking "efficiency and multimodal system performance" and inserting "mobility, efficiency, multimodal system performance, and payment system performance";

(8) in subparagraph (G)—

(A) by redesignating clauses (vi) through (viii) as clauses (vii) through (ix), respectively; and

(B) by inserting after clause (v) the following:

"(vi) improved integration of payment systems;";

(9) in subparagraph (I)(i), by striking "fiscal years 2016 through 2020" and inserting "fiscal years 2022 through 2026";

(10) in subparagraph (J), by striking "50" and inserting "80"; and

(11) in subparagraph (N)—

(A) in the matter preceding clause (i), by striking ", the following definitions apply";

(B) in clause (i), by striking "representing a population of over 200,000"; and

(C) in clause (iii), in the matter preceding subclause (I), by striking "a any" and inserting "any".

(c) CENTER OF EXCELLENCE ON NEW MOBILITY AND AUTOMATED VEHICLES.—Section 503(c) of title 23, United States Code (as amended by subsection (a)(3)(D)), is amended by adding at the end the following:

"(6) CENTER OF EXCELLENCE.—

"(A) DEFINITIONS.—In this paragraph:

"(i) HIGHLY AUTOMATED VEHICLE.—The term 'highly automated vehicle' means a motor vehicle that—

"(I) has a taxable gross weight (as defined in section 41.4482(b)–1 of title 26, Code of Federal Regulations (or successor regulations)) of 10,000 pounds or less; and

"(II) is equipped with a Level 3, Level 4, or Level 5 automated driving system (as defined in the SAE International Recommended Practice numbered J3016 and dated June 15, 2018 (or a subsequent standard adopted by the Secretary)).

"(ii) NEW MOBILITY.—The term 'new mobility' includes shared services such as—

"(I) docked and dockless bicycles;

AMERICAN OVERSIGHT

"(II) docked and dockless electric scooters; and
"(III) transportation network companies.

"(B) ESTABLISHMENT.—Not later than 1 year after the date of enactment of the Surface Transportation Reauthorization Act of 2021, the Secretary shall establish a Center of Excellence to collect, conduct, and fund research on the impacts of new mobility and highly automated vehicles on land use, urban design, transportation, real estate, equity, and municipal budgets.

"(C) REPORT.—Not later than 1 year after the date on which the Center of Excellence is established, the Secretary shall submit a report that describes the results of the research regarding the impacts of new mobility and highly automated vehicles to the Committees on Environment and Public Works and Commerce, Science, and Transportation of the Senate and the Committees on Transportation and Infrastructure and Energy and Commerce of the House of Representatives.

"(D) PARTNERSHIPS.—In establishing the Center of Excellence under subparagraph (B), the Secretary shall enter into appropriate partnerships with any institution of higher education (as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)) or public or private research entity.".

(d) ACCELERATED IMPLEMENTATION AND DEPLOYMENT OF ADVANCED DIGITAL CONSTRUCTION MANAGEMENT SYSTEMS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that includes—

(1) a description of—

(A) the current status of the use of advanced digital construction management systems in each State; and

(B) the progress of each State toward accelerating the adoption of advanced digital construction management systems; and

(2) an analysis of the savings in project delivery time and project costs that can be achieved through the use of advanced digital construction management systems.

(e) OPEN CHALLENGE AND RESEARCH PROPOSAL PILOT PROGRAM.—

(1) IN GENERAL.—The Secretary shall establish an open challenge and research proposal pilot program under which eligible entities may propose open highway challenges and research proposals that are linked to identified or potential research needs.

(2) REQUIREMENTS.—A research proposal submitted to the Secretary by an eligible entity shall address—

(A) a research need identified by the Secretary or the Administrator of the Federal Highway Administration; or

(B) an issue or challenge that the Secretary determines to be important.

(3) ELIGIBLE ENTITIES.—An entity eligible to submit a research proposal under the pilot program under paragraph (1) is—

(A) a State;

AMERICAN OVERSIGHT

(B) a unit of local government;

(C) a university transportation center under section 5505 of title 49, United States Code;

(D) a private nonprofit organization;

(E) a private sector organization working in collaboration with an entity described in subparagraphs (A) through (D); and

(F) any other individual or entity that the Secretary determines to be appropriate.

(4) PROJECT REVIEW.—The Secretary shall—

(A) review each research proposal submitted under the pilot program under paragraph (1); and

(B) provide to the eligible entity a written notice that—

(i) if the research proposal is not selected—

(I) notifies the eligible entity that the research proposal has not been selected for funding;

(II) provides an explanation as to why the research proposal was not selected, including if the research proposal does not cover an area of need; and

(III) if applicable, recommend that the research proposal be submitted to another research program and provide guidance and direction to the eligible entity and the proposed research program office; and

(ii) if the research proposal is selected, notifies the eligible entity that the research proposal has been selected for funding.

(5) FEDERAL SHARE.—

(A) IN GENERAL.—The Federal share of the cost of an activity carried out under this subsection shall not exceed 80 percent.

(B) NON-FEDERAL SHARE.—All costs directly incurred by the non-Federal partners, including personnel, travel, facility, and hardware development costs, shall be credited toward the non-Federal share of the cost of an activity carried out under this subsection.

(f) CONFORMING AMENDMENT.—Section 167 of title 23, United States Code, is amended—

(1) by striking subsection (h); and

(2) by redesignating subsections (i) through (l) as subsections (h) through (k), respectively.

SEC. 13007. WORKFORCE DEVELOPMENT, TRAINING, AND EDUCATION.

(a) SURFACE TRANSPORTATION WORKFORCE DEVELOPMENT, TRAINING, AND EDUCATION.—Section 504(e) of title 23, United States Code, is amended—

(1) in paragraph (1)—

(A) by redesignating subparagraphs (D) through (G) as subparagraphs (E), (F), (H), and (I), respectively;

(B) by inserting after subparagraph (C) the following:

"(D) pre-apprenticeships, apprenticeships, and career opportunities for on-the-job training;";

(C) in subparagraph (E) (as so redesignated), by striking "or community college" and inserting ", college, community college, or vocational school"; and

AMERICAN OVERSIGHT

(D) by inserting after subparagraph (F) (as so redesignated) the following:

"(G) activities associated with workforce training and employment services, such as targeted outreach and partnerships with industry, economic development organizations, workforce development boards, and labor organizations;";

(2) in paragraph (2), by striking "paragraph (1)(G)" and inserting "paragraph (1)(I)"; and

(3) in paragraph (3)—

(A) by striking the period at the end and inserting a semicolon;

(B) by striking "including activities" and inserting the following: "including—

"(A) activities"; and

(C) by adding at the end the following:

"(B) activities that address current workforce gaps, such as work on construction projects, of State and local transportation agencies;

"(C) activities to develop a robust surface transportation workforce with new skills resulting from emerging transportation technologies; and

"(D) activities to attract new sources of job-creating investment.".

(b) TRANSPORTATION EDUCATION AND TRAINING DEVELOPMENT AND DEPLOYMENT PROGRAM.—Section 504(f) of title 23, United States Code, is amended—

(1) in the subsection heading, by striking "DEVELOPMENT" and inserting "AND TRAINING DEVELOPMENT AND DEPLOYMENT";

(2) by striking paragraph (1) and inserting the following:

"(1) ESTABLISHMENT.—The Secretary shall establish a program to make grants to educational institutions or State departments of transportation, in partnership with industry and relevant Federal departments and agencies—

"(A) to develop, test, and review new curricula and education programs to train individuals at all levels of the transportation workforce; or

"(B) to implement the new curricula and education programs to provide for hands-on career opportunities to meet current and future needs.";

(3) in paragraph (2)—

(A) in the matter preceding subparagraph (A), by striking "shall" and inserting "may";

(B) in subparagraph (A), by inserting "current or future" after "specific"; and

(C) in subparagraph (E)—

(i) by striking "in nontraditional departments";

(ii) by inserting "construction," after "such as"; and

(iii) by inserting "or emerging" after "industrial";

(4) by redesignating paragraph (3) as paragraph (4); and

(5) by inserting after paragraph (2) the following:

"(3) REPORTING.—The Secretary shall establish minimum reporting requirements for grant recipients under this subsection, which may include, with respect to a program carried out with a grant under this subsection—

AMERICAN OVERSIGHT

"(A) the percentage or number of program participants that are employed during the second quarter after exiting the program;

"(B) the percentage or number of program participants that are employed during the fourth quarter after exiting the program;

"(C) the median earnings of program participants that are employed during the second quarter after exiting the program;

"(D) the percentage or number of program participants that obtain a recognized postsecondary credential or a secondary school diploma (or a recognized equivalent) during participation in the program or by not later than 1 year after exiting the program; and

"(E) the percentage or number of program participants that, during a program year—

"(i) are in an education or training program that leads to a recognized postsecondary credential or employment; and

"(ii) are achieving measurable skill gains toward such a credential or employment.".

(c) USE OF FUNDS.—Section 504 of title 23, United States Code, is amended by adding at the end the following:

"(i) USE OF FUNDS.—The Secretary may use funds made available to carry out this section to carry out activities related to workforce development and technical assistance and training if—

"(1) the activities are authorized by another provision of this title; and

"(2) the activities are for entities other than employees of the Secretary, such as States, units of local government, Federal land management agencies, and Tribal governments.".

SEC. 13008. WILDLIFE-VEHICLE COLLISION RESEARCH.

(a) GENERAL AUTHORITIES AND REQUIREMENTS REGARDING WILDLIFE AND HABITAT.—Section 515(h)(2) of title 23, United States Code, is amended—

(1) in subparagraph (K), by striking "and" at the end;

(2) by redesignating subparagraphs (D), (E), (F), (G), (H), (I), (J), (K), and (L) as subparagraphs (E), (F), (G), (H), (I), (K), (L), (M), and (O), respectively;

(3) by inserting after subparagraph (C) the following:

"(D) a representative from a State, local, or regional wildlife, land use, or resource management agency;";

(4) by inserting after subparagraph (I) (as so redesignated) the following:

"(J) an academic researcher who is a biological or ecological scientist with expertise in transportation issues;"; and

(5) by inserting after subparagraph (M) (as so redesignated) the following:

"(N) a representative from a public interest group concerned with the impact of the transportation system on terrestrial and aquatic species and the habitat of those species; and".

(b) ANIMAL DETECTION SYSTEMS RESEARCH AND DEVELOPMENT.—Section 516(b)(6) of title 23, United States Code, is amended

AMERICAN OVERSIGHT

by inserting ", including animal detection systems to reduce the number of wildlife-vehicle collisions" after "systems".

SEC. 13009. TRANSPORTATION RESILIENCE AND ADAPTATION CENTERS OF EXCELLENCE.

(a) IN GENERAL.—Chapter 5 of title 23, United States Code, is amended by adding at the end the following:

"§ 520. Transportation Resilience and Adaptation Centers of Excellence

"(a) DEFINITION OF CENTER OF EXCELLENCE.—In this section, the term 'Center of Excellence' means a Center of Excellence for Resilience and Adaptation designated under subsection (b).

"(b) DESIGNATION.—The Secretary shall designate 10 regional Centers of Excellence for Resilience and Adaptation and 1 national Center of Excellence for Resilience and Adaptation, which shall serve as a coordinator for the regional Centers, to receive grants to advance research and development that improves the resilience of regions of the United States to natural disasters and extreme weather by promoting the resilience of surface transportation infrastructure and infrastructure dependent on surface transportation.

"(c) ELIGIBILITY.—An entity eligible to be designated as a Center of Excellence is—

"(1) an institution of higher education (as defined in section 102 of the Higher Education Act of 1965 (20 U.S.C. 1002)); or

"(2) a consortium of nonprofit organizations led by an institution of higher education.

"(d) APPLICATION.—To be eligible to be designated as a Center of Excellence, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a proposal that includes a description of the activities to be carried out with a grant under this section.

"(e) SELECTION.—

"(1) REGIONAL CENTERS OF EXCELLENCE.—The Secretary shall designate 1 regional Center of Excellence in each of the 10 Federal regions that comprise the Standard Federal Regions established by the Office of Management and Budget in the document entitled 'Standard Federal Regions' and dated April 1974 (circular A–105).

"(2) NATIONAL CENTER OF EXCELLENCE.—The Secretary shall designate 1 national Center of Excellence to coordinate the activities of all 10 regional Centers of Excellence to minimize duplication and promote coordination and dissemination of research among the Centers.

"(3) CRITERIA.—In selecting eligible entities to designate as a Center of Excellence, the Secretary shall consider—

"(A) the past experience and performance of the eligible entity in carrying out activities described in subsection (g);

"(B) the merits of the proposal of an eligible entity and the extent to which the proposal would—

"(i) advance the state of practice in resilience planning and identify innovative resilience solutions for transportation assets and systems;

AMERICAN OVERSIGHT

"(ii) support activities carried out under the PROTECT program under section 176;

"(iii) support and build on work being carried out by another Federal agency relating to resilience;

"(iv) inform transportation decisionmaking at all levels of government;

"(v) engage local, regional, Tribal, State, and national stakeholders, including, if applicable, stakeholders representing transportation, transit, urban, and land use planning, natural resources, environmental protection, hazard mitigation, and emergency management; and

"(vi) engage community groups and other stakeholders that will be affected by transportation decisions, including underserved, economically disadvantaged, rural, and predominantly minority communities; and

"(C) the local, regional, Tribal, State, and national impacts of the proposal of the eligible entity.

"(f) GRANTS.—Subject to the availability of appropriations, the Secretary shall provide to each Center of Excellence a grant of not less than $5,000,000 for each of fiscal years 2022 through 2031 to carry out the activities described in subsection (g).

"(g) ACTIVITIES.—In carrying out this section, the Secretary shall ensure that a Center of Excellence uses the funds from a grant under subsection (f) to promote resilient transportation infrastructure, including through—

"(1) supporting climate vulnerability assessments informed by climate change science, including national climate assessments produced by the United States Global Change Research Program under section 106 of the Global Change Research Act of 1990 (15 U.S.C. 2936), relevant feasibility analyses of resilient transportation improvements, and transportation resilience planning;

"(2) development of new design, operations, and maintenance standards for transportation infrastructure that can inform Federal and State decisionmaking;

"(3) research and development of new materials and technologies that could be integrated into existing and new transportation infrastructure;

"(4) development, refinement, and piloting of new and emerging resilience improvements and strategies, including natural infrastructure approaches and relocation;

"(5) development of and investment in new approaches for facilitating meaningful engagement in transportation decisionmaking by local, Tribal, regional, or national stakeholders and communities;

"(6) technical capacity building to facilitate the ability of local, regional, Tribal, State, and national stakeholders—

"(A) to assess the vulnerability of transportation infrastructure assets and systems;

"(B) to develop community response strategies;

"(C) to meaningfully engage with community stakeholders; and

"(D) to develop strategies and improvements for enhancing transportation infrastructure resilience under

AMERICAN OVERSIGHT

current conditions and a range of potential future conditions;

"(7) workforce development and training;

"(8) development and dissemination of data, tools, techniques, assessments, and information that informs Federal, State, Tribal, and local government decisionmaking, policies, planning, and investments;

"(9) education and outreach regarding transportation infrastructure resilience; and

"(10) technology transfer and commercialization.

"(h) FEDERAL SHARE.—The Federal share of the cost of an activity under this section, including the costs of establishing and operating a Center of Excellence, shall be 50 percent.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 5 of title 23, United States Code, is amended by adding at the end the following:

"520. Transportation Resilience and Adaptation Centers of Excellence.".

SEC. 13010. TRANSPORTATION ACCESS PILOT PROGRAM.

(a) DEFINITIONS.—In this section:

(1) METROPOLITAN PLANNING ORGANIZATION.—The term "metropolitan planning organization" has the meaning given the term in section 134(b) of title 23, United States Code.

(2) STATE.—The term "State" has the meaning given the term in section 101(a) of title 23, United States Code.

(3) SURFACE TRANSPORTATION MODES.—The term "surface transportation modes" means—

(A) driving;

(B) public transportation;

(C) walking;

(D) cycling; and

(E) a combination of any of the modes of transportation described in subparagraphs (A) through (D).

(4) PILOT PROGRAM.—The term "pilot program" means the transportation pilot program established under subsection (b).

(5) REGIONAL TRANSPORTATION PLANNING ORGANIZATION.—The term "regional transportation planning organization" has the meaning given the term in section 134(b) of title 23, United States Code.

(b) ESTABLISHMENT.—Not later than 1 year after the date of enactment of this Act, the Secretary shall establish a transportation pilot program.

(c) PURPOSE.—The purpose of the pilot program is to develop or procure an accessibility data set and make that data set available to each eligible entity selected to participate in the pilot program—

(1) to improve the transportation planning of those eligible entities by—

(A) measuring the level of access by surface transportation modes to important destinations, which may include—

(i) jobs;

(ii) health care facilities;

(iii) child care services;

(iv) educational and workforce training facilities;

(v) housing;

(vi) food sources;

AMERICAN OVERSIGHT

(vii) points within the supply chain for freight commodities;

(viii) domestic or international markets; and

(ix) connections between surface transportation modes; and

(B) disaggregating the level of access by surface transportation modes by a variety of—

(i) population categories, which may include—

(I) low-income populations;

(II) minority populations;

(III) age;

(IV) disability; and

(V) geographical location; or

(ii) freight commodities, which may include—

(I) agricultural commodities;

(II) raw materials;

(III) finished products; and

(IV) energy commodities; and

(2) to assess the change in accessibility that would result from new transportation investments.

(d) ELIGIBLE ENTITIES.—An entity eligible to participate in the pilot program is—

(1) a State;

(2) a metropolitan planning organization; or

(3) a regional transportation planning organization.

(e) APPLICATION.—To be eligible to participate in the pilot program, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including information relating to—

(1) previous experience of the eligible entity measuring transportation access or other performance management experience, if applicable;

(2) the types of important destinations to which the eligible entity intends to measure access;

(3) the types of data disaggregation the eligible entity intends to pursue;

(4) a general description of the methodology the eligible entity intends to apply; and

(5) if the applicant does not intend the pilot program to apply to the full area under the jurisdiction of the applicant, a description of the geographic area in which the applicant intends the pilot program to apply.

(f) SELECTION.—

(1) IN GENERAL.—The Secretary shall seek to achieve diversity of participants in the pilot program by selecting a range of eligible entities that shall include—

(A) States;

(B) metropolitan planning organizations that serve an area with a population of 200,000 people or fewer;

(C) metropolitan planning organizations that serve an area with a population of over 200,000 people; and

(D) regional transportation planning organizations.

(2) INCLUSIONS.—The Secretary shall seek to ensure that, among the eligible entities selected under paragraph (1), there is—

(A) a range of capacity and previous experience with measuring transportation access; and

AMERICAN OVERSIGHT

(B) a variety of proposed methodologies and focus areas for measuring level of access.

(g) DUTIES.—For each eligible entity participating in the pilot program, the Secretary shall—

(1) develop or acquire an accessibility data set described in subsection (c); and

(2) submit the data set to the eligible entity.

(h) METHODOLOGY.—In calculating the measures for the data set under the pilot program, the Secretary shall ensure that methodology is open source.

(i) AVAILABILITY.—The Secretary shall make an accessibility data set under the pilot program available to—

(1) units of local government within the jurisdiction of the eligible entity participating in the pilot program; and

(2) researchers.

(j) REPORT.—Not later than 2 years after the date of enactment of this Act, and every 2 years thereafter, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the results of the pilot program, including the feasibility of developing and providing periodic accessibility data sets for all States, regions, and localities.

(k) TRANSPORTATION SYSTEM ACCESS.—

(1) IN GENERAL.—The Secretary shall establish consistent measures that States, metropolitan planning organizations, and regional transportation planning organizations may choose to adopt to assess the level of safe and convenient access by surface transportation modes to important destinations as described in subsection (c)(1)(A).

(2) SAVINGS PROVISION.—Nothing in this section provides the Secretary the authority—

(A) to establish a performance measure or require States or metropolitan planning organizations to set a performance target for access as described in paragraph (1); or

(B) to establish any other Federal requirement.

(l) FUNDING.—The Secretary shall carry out the pilot program using amounts made available to the Secretary for administrative expenses to carry out programs under the authority of the Secretary.

(m) SUNSET.—The pilot program shall terminate on the date that is 8 years after the date on which the pilot program is implemented.

TITLE IV—INDIAN AFFAIRS

SEC. 14001. DEFINITION OF SECRETARY.

In this title, the term "Secretary" means the Secretary of the Interior.

SEC. 14002. ENVIRONMENTAL REVIEWS FOR CERTAIN TRIBAL TRANSPORTATION FACILITIES.

(a) DEFINITION OF TRIBAL TRANSPORTATION SAFETY PROJECT.—

(1) IN GENERAL.—In this section, the term "tribal transportation safety project" means a project described in paragraph (2) that is eligible for funding under section 202 of title 23, United States Code.

AMERICAN OVERSIGHT

(2) PROJECT DESCRIBED.—A project described in this paragraph is a project that corrects or improves a hazardous road location or feature or addresses a highway safety problem through 1 or more of the activities described in any of the clauses under section 148(a)(4)(B) of title 23, United States Code.

(b) REVIEWS OF TRIBAL TRANSPORTATION SAFETY PROJECTS.—

(1) IN GENERAL.—The Secretary or the Secretary of Transportation, as applicable, or the head of another Federal agency responsible for a decision related to a tribal transportation safety project shall complete any approval or decision for the review of the tribal transportation safety project required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) or any other applicable Federal law on an expeditious basis using the shortest existing applicable process.

(2) REVIEW OF APPLICATIONS.—Not later than 45 days after the date of receipt of a complete application by an Indian tribe for approval of a tribal transportation safety project, the Secretary or the Secretary of Transportation, as applicable, shall—

(A) take final action on the application; or

(B) provide the Indian tribe a schedule for completion of the review described in paragraph (1), including the identification of any other Federal agency that has jurisdiction with respect to the project.

(3) DECISIONS UNDER OTHER FEDERAL LAWS.—In any case in which a decision under any other Federal law relating to a tribal transportation safety project (including the issuance or denial of a permit or license) is required, not later than 45 days after the Secretary or the Secretary of Transportation, as applicable, has made all decisions of the lead agency under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to the project, the head of the Federal agency responsible for the decision shall—

(A) make the applicable decision; or

(B) provide the Indian tribe a schedule for making the decision.

(4) EXTENSIONS.—The Secretary or the Secretary of Transportation, as applicable, or the head of the Federal agency may extend the period under paragraph (2) or (3), as applicable, by an additional 30 days by providing the Indian tribe notice of the extension, including a statement of the need for the extension.

(5) NOTIFICATION AND EXPLANATION.—In any case in which a required action is not completed by the deadline under paragraph (2), (3), or (4), as applicable, the Secretary, the Secretary of Transportation, or the head of a Federal agency, as applicable, shall—

(A) notify the Committees on Indian Affairs and Environment and Public Works of the Senate and the Committee on Natural Resources of the House of Representatives of the failure to comply with the deadline; and

(B) provide to the Committees described in subparagraph (A) a detailed explanation of the reasons for the failure to comply with the deadline.

AMERICAN OVERSIGHT

SEC. 14003. PROGRAMMATIC AGREEMENTS FOR TRIBAL CATEGORICAL EXCLUSIONS.

(a) IN GENERAL.—The Secretary and the Secretary of Transportation shall enter into programmatic agreements with Indian tribes that establish efficient administrative procedures for carrying out environmental reviews for projects eligible for assistance under section 202 of title 23, United States Code.

(b) INCLUSIONS.—A programmatic agreement under subsection (a)—

(1) may include an agreement that allows an Indian tribe to determine, on behalf of the Secretary and the Secretary of Transportation, whether a project is categorically excluded from the preparation of an environmental assessment or environmental impact statement under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(2) shall—

(A) require that the Indian tribe maintain adequate capability in terms of personnel and other resources to carry out applicable agency responsibilities pursuant to section 1507.2 of title 40, Code of Federal Regulations (or successor regulations);

(B) set forth the responsibilities of the Indian tribe for making categorical exclusion determinations, documenting the determinations, and achieving acceptable quality control and quality assurance;

(C) allow—

(i) the Secretary and the Secretary of Transportation to monitor compliance of the Indian tribe with the terms of the agreement; and

(ii) the Indian tribe to execute any needed corrective action;

(D) contain stipulations for amendments, termination, and public availability of the agreement once the agreement has been executed; and

(E) have a term of not more than 5 years, with an option for renewal based on a review by the Secretary and the Secretary of Transportation of the performance of the Indian tribe.

SEC. 14004. USE OF CERTAIN TRIBAL TRANSPORTATION FUNDS.

Section 202(d) of title 23, United States Code, is amended by striking paragraph (2) and inserting the following:

"(2) USE OF FUNDS.—Funds made available to carry out this subsection shall be used—

"(A) to carry out any planning, design, engineering, preconstruction, construction, and inspection of new or replacement tribal transportation facility bridges;

"(B) to replace, rehabilitate, seismically retrofit, paint, apply calcium magnesium acetate, sodium acetate/formate, or other environmentally acceptable, minimally corrosive anti-icing and deicing composition; or

"(C) to implement any countermeasure for tribal transportation facility bridges classified as in poor condition, having a low load capacity, or needing geometric improvements, including multiple-pipe culverts.".

AMERICAN OVERSIGHT

SEC. 14005. BUREAU OF INDIAN AFFAIRS ROAD MAINTENANCE PROGRAM.

There are authorized to be appropriated to the Director of the Bureau of Indian Affairs to carry out the road maintenance program of the Bureau—

(1) $50,000,000 for fiscal year 2022;
(2) $52,000,000 for fiscal year 2023;
(3) $54,000,000 for fiscal year 2024;
(4) $56,000,000 for fiscal year 2025; and
(5) $58,000,000 for fiscal year 2026.

SEC. 14006. STUDY OF ROAD MAINTENANCE ON INDIAN LAND.

(a) DEFINITIONS.—In this section:

(1) INDIAN LAND.—The term "Indian land" has the meaning given the term "Indian lands" in section 3 of the Native American Business Development, Trade Promotion, and Tourism Act of 2000 (25 U.S.C. 4302).

(2) INDIAN TRIBE.—The term "Indian tribe" has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304).

(3) ROAD.—The term "road" means a road managed in whole or in part by the Bureau of Indian Affairs.

(4) SECRETARY.—The term "Secretary" means the Secretary, acting through the Assistant Secretary for Indian Affairs.

(b) STUDY.—Not later than 2 years after the date of enactment of this Act, the Secretary, in consultation with the Secretary of Transportation, shall carry out a study to evaluate—

(1) the long-term viability and useful life of existing roads on Indian land;

(2) any steps necessary to achieve the goal of addressing the deferred maintenance backlog of existing roads on Indian land;

(3) programmatic reforms and performance enhancements necessary to achieve the goal of restructuring and streamlining road maintenance programs on existing or future roads located on Indian land; and

(4) recommendations on how to implement efforts to coordinate with States, counties, municipalities, and other units of local government to maintain roads on Indian land.

(c) TRIBAL CONSULTATION AND INPUT.—Before beginning the study under subsection (b), the Secretary shall—

(1) consult with any Indian tribes that have jurisdiction over roads eligible for funding under the road maintenance program of the Bureau of Indian Affairs; and

(2) solicit and consider the input, comments, and recommendations of the Indian tribes described in paragraph (1).

(d) REPORT.—On completion of the study under subsection (b), the Secretary, in consultation with the Secretary of Transportation, shall submit to the Committees on Indian Affairs and Environment and Public Works of the Senate and the Committees on Natural Resources and Transportation and Infrastructure of the House of Representatives a report on the results and findings of the study.

(e) STATUS REPORT.—Not later than 2 years after the date of enactment of this Act, and not less frequently than every 2 years thereafter, the Secretary, in consultation with the Secretary of Transportation, shall submit to the Committees on Indian Affairs

AMERICAN OVERSIGHT

and Environment and Public Works of the Senate and the Committees on Natural Resources and Transportation and Infrastructure of the House of Representatives a report that includes a description of—

(1) the progress made toward addressing the deferred maintenance needs of the roads on Indian land, including a list of projects funded during the fiscal period covered by the report;

(2) the outstanding needs of the roads that have been provided funding to address the deferred maintenance needs;

(3) the remaining needs of any of the projects referred to in paragraph (1);

(4) how the goals described in subsection (b) have been met, including—

(A) an identification and assessment of any deficiencies or shortfalls in meeting the goals; and

(B) a plan to address the deficiencies or shortfalls in meeting the goals; and

(5) any other issues or recommendations provided by an Indian tribe under the consultation and input process under subsection (c) that the Secretary determines to be appropriate.

SEC. 14007. MAINTENANCE OF CERTAIN INDIAN RESERVATION ROADS.

The Commissioner of U.S. Customs and Border Protection may transfer funds to the Director of the Bureau of Indian Affairs to maintain, repair, or reconstruct roads under the jurisdiction of the Director, subject to the condition that the Commissioner and the Director shall mutually agree that the primary user of the subject road is U.S. Customs and Border Protection.

SEC. 14008. TRIBAL TRANSPORTATION SAFETY NEEDS.

(a) DEFINITIONS.—In this section:

(1) ALASKA NATIVE.—The term "Alaska Native" has the meaning given the term "Native" in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602).

(2) ALASKA NATIVE VILLAGE.—The term "Alaska Native village" has the meaning given the term "Native village" in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602).

(3) INDIAN TRIBE.—The term "Indian tribe" has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304).

(b) BEST PRACTICES, STANDARDIZED CRASH REPORT FORM.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation, in consultation with the Secretary, Indian tribes, Alaska Native villages, and State departments of transportation shall develop—

(A) best practices for the compiling, analysis, and sharing of motor vehicle crash data for crashes occurring on Indian reservations and in Alaska Native communities; and

(B) a standardized form for use by Indian tribes and Alaska Native communities to carry out those best practices.

(2) PURPOSE.—The purpose of the best practices and standardized form developed under paragraph (1) shall be to improve the quality and quantity of crash data available to

AMERICAN OVERSIGHT

and used by the Federal Highway Administration, State departments of transportation, Indian tribes, and Alaska Native villages.

(3) REPORT.—On completion of the development of the best practices and standardized form under paragraph (1), the Secretary of Transportation shall submit to the Committees on Indian Affairs and Environment and Public Works of the Senate and the Committees on Natural Resources and Transportation and Infrastructure of the House of Representatives a report describing the best practices and standardized form.

(c) USE OF IMARS.—The Director of the Bureau of Indian Affairs shall require all law enforcement offices of the Bureau, for the purpose of reporting motor vehicle crash data for crashes occurring on Indian reservations and in Alaska Native communities—

(1) to use the crash report form of the applicable State; and

(2) to upload the information on that form to the Incident Management Analysis and Reporting System (IMARS) of the Department of the Interior.

(d) TRIBAL TRANSPORTATION PROGRAM SAFETY FUNDING.—Section 202(e)(1) of title 23, United States Code, is amended by striking "2 percent" and inserting "4 percent".

SEC. 14009. OFFICE OF TRIBAL GOVERNMENT AFFAIRS.

Section 102 of title 49, United States Code, is amended—

(1) in subsection (e)(1)—

(A) in the matter preceding subparagraph (A), by striking "6 Assistant" and inserting "7 Assistant";

(B) in subparagraph (C), by striking "and" after the semicolon;

(C) by redesignating subparagraph (D) as subparagraph (E); and

(D) by inserting after subparagraph (C) the following:

"(D) an Assistant Secretary for Tribal Government Affairs, who shall be appointed by the President; and"; and

(2) in subsection (f), by striking the subsection designation and heading and all that follows through the end of paragraph (1) and inserting the following:

"(f) OFFICE OF TRIBAL GOVERNMENT AFFAIRS.—

"(1) ESTABLISHMENT.—There is established in the Department an Office of Tribal Government Affairs, under the Assistant Secretary for Tribal Government Affairs—

"(A) to oversee the tribal self-governance program under section 207 of title 23;

"(B) to plan, coordinate, and implement policies and programs serving Indian Tribes and Tribal organizations;

"(C) to coordinate Tribal transportation programs and activities in all offices and administrations of the Department; and

"(D) to be a participant in any negotiated rulemakings relating to, or having an impact on, projects, programs, or funding associated with the Tribal transportation program under section 202 of title 23.".

AMERICAN OVERSIGHT

DIVISION B—SURFACE TRANSPORTATION INVESTMENT ACT OF 2021

SEC. 20001. SHORT TITLE.

This division may be cited as the "Surface Transportation Investment Act of 2021".

SEC. 20002. DEFINITIONS.

In this division:

(1) DEPARTMENT.—The term "Department" means the Department of Transportation.

(2) SECRETARY.—The term "Secretary" means the Secretary of Transportation.

TITLE I—MULTIMODAL AND FREIGHT TRANSPORTATION

Subtitle A—Multimodal Freight Policy

SEC. 21101. OFFICE OF MULTIMODAL FREIGHT INFRASTRUCTURE AND POLICY.

(a) IN GENERAL.—Chapter 1 of title 49, United States Code, is amended by adding at the end the following:

"§ 118. Office of Multimodal Freight Infrastructure and Policy

"(a) DEFINITIONS.—In this section:

"(1) DEPARTMENT.—The term 'Department' means the Department of Transportation.

"(2) FREIGHT OFFICE.—The term 'Freight Office' means the Office of Multimodal Freight Infrastructure and Policy established under subsection (b).

"(3) SECRETARY.—The term 'Secretary' means the Secretary of Transportation.

"(b) ESTABLISHMENT.—The Secretary shall establish within the Department an Office of Multimodal Freight Infrastructure and Policy.

"(c) PURPOSES.—The purposes of the Freight Office shall be—

"(1) to carry out the national multimodal freight policy described in section 70101;

"(2) to administer and oversee certain multimodal freight grant programs within the Department in accordance with subsection (d);

"(3) to promote and facilitate the sharing of information between the private and public sectors with respect to freight issues;

"(4) to conduct research on improving multimodal freight mobility, and to oversee the freight research activities of the various agencies within the Department;

"(5) to assist cities and States in developing freight mobility and supply chain expertise;

"(6) to liaise and coordinate with other Federal departments and agencies; and

AMERICAN OVERSIGHT

"(7) to carry out other duties, as prescribed by the Secretary.

"(d) ADMINISTRATION OF POLICIES AND PROGRAMS.—The Freight Office shall—

"(1) develop and manage—

"(A) the national freight strategic plan described in section 70102; and

"(B) the National Multimodal Freight Network established under section 70103;

"(2)(A) oversee the development and updating of the State freight plans described in section 70202; and

"(B) provide guidance or best practices relating to the development and updating of State freight plans under that section;

"(3)(A) administer multimodal freight grant programs, including multimodal freight grants established under section 117 of title 23; and

"(B) establish procedures for analyzing and evaluating applications for grants under those programs;

"(4) assist States in the establishment of—

"(A) State freight advisory committees under section 70201; and

"(B) multi-State freight mobility compacts under section 70204; and

"(5) provide to the Bureau of Transportation Statistics input regarding freight data and planning tools.

"(e) ASSISTANT SECRETARY.—

"(1) IN GENERAL.—The Freight Office shall be headed by an Assistant Secretary for Multimodal Freight, who shall—

"(A) be appointed by the President, by and with the advice and consent of the Senate; and

"(B) have professional standing and demonstrated knowledge in the field of freight transportation.

"(2) DUTIES.—The Assistant Secretary shall—

"(A) report to the Under Secretary of Transportation for Policy;

"(B) be responsible for the management and oversight of the activities, decisions, operations, and personnel of the Freight Office;

"(C) work with the modal administrations of the Department to encourage multimodal collaboration; and

"(D) carry out such additional duties as the Secretary may prescribe.

"(f) CONSOLIDATION AND ELIMINATION OF DUPLICATIVE OFFICES.—

"(1) CONSOLIDATION OF OFFICES AND OFFICE FUNCTIONS.—The Secretary may consolidate into the Freight Office any office or office function within the Department that the Secretary determines has duties, responsibilities, resources, or expertise that support the purposes of the Freight Office.

"(2) ELIMINATION OF OFFICES.—The Secretary may eliminate any office within the Department if the Secretary determines that—

"(A) the purposes of the office are duplicative of the purposes of the Freight Office;

AMERICAN OVERSIGHT

"(B) the office or the functions of the office have been substantially consolidated with the Freight Office pursuant to paragraph (1);

"(C) the elimination of the office will not adversely affect the requirements of the Secretary under any Federal law; and

"(D) the elimination of the office will improve the efficiency and effectiveness of the programs and functions conducted by the office.

"(g) STAFFING AND BUDGETARY RESOURCES.—

"(1) IN GENERAL.—The Secretary shall ensure that the Freight Office is adequately staffed and funded.

"(2) STAFFING.—

"(A) TRANSFER OF POSITIONS TO FREIGHT OFFICE.—Subject to subparagraph (B), the Secretary may transfer to the Freight Office any position within any other office of the Department if the Secretary determines that the position is necessary to carry out the purposes of the Freight Office.

"(B) REQUIREMENT.—If the Secretary transfers a position to the Freight Office pursuant to subparagraph (A), the Secretary, in coordination with the appropriate modal administration of the Department, shall ensure that the transfer of the position does not adversely affect the requirements of the modal administration under any Federal law.

"(3) BUDGETARY RESOURCES.—

"(A) TRANSFER OF FUNDS FROM CONSOLIDATED OR ELIMINATED OFFICES.—

"(i) IN GENERAL.—To carry out the purposes of the Freight Office, the Secretary may transfer to the Freight Office from any office or office function that is consolidated or eliminated under subsection (f) any funds allocated for the consolidated or eliminated office or office function.

"(ii) RETRANSFER.—Any portion of any funds or limitations of obligations transferred to the Freight Office pursuant to clause (i) may be transferred back to, and merged with, the original account.

"(B) TRANSFER OF FUNDS ALLOCATED FOR ADMINISTRATIVE COSTS.—

"(i) IN GENERAL.—The Secretary may transfer to the Freight Office any funds allocated for the administrative costs of the programs referred to in subsection (d)(3).

"(ii) RETRANSFER.—Any portion of any funds or limitations of obligations transferred to the Freight Office pursuant to clause (i) may be transferred back to, and merged with, the original account.

"(h) WEBSITE.—

"(1) DESCRIPTION OF FREIGHT OFFICE.—The Secretary shall make publicly available on the website of the Department a description of the Freight Office, including a description of—

"(A) the programs managed or made available by the Freight Office; and

"(B) the eligibility requirements for those programs.

AMERICAN OVERSIGHT

"(2) CLEARINGHOUSE.—The Secretary may establish a clearinghouse for tools, templates, guidance, and best practices on a page of the website of the Department that supports the purposes of this section.

"(i) NOTIFICATION TO CONGRESS.—Not later than 1 year after the date of enactment of this section, and not less frequently than once every 180 days thereafter until the date on which the Secretary determines that the requirements of this section have been met, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a notification that—

"(1) describes—

"(A) the programs and activities administered or overseen by the Freight Office; and

"(B) the status of those programs and activities;

"(2) identifies—

"(A) the number of employees working in the Freight Office as of the date of the notification;

"(B) the total number of employees expected to join the Freight Office to support the programs and activities described in paragraph (1); and

"(C) the total number of positions that, as a result of the consolidation of offices under this section, were—

"(i) eliminated; or

"(ii) transferred, assigned, or joined to the Freight Office;

"(3)(A) indicates whether the Secretary has consolidated into the Freight Office any office or office function pursuant to subsection (f)(1); and

"(B) if the Secretary has consolidated such an office or function, describes the rationale for the consolidation;

"(4)(A) indicates whether the Secretary has eliminated any office pursuant to subsection (f)(2); and

"(B) if the Secretary has eliminated such an office, describes the rationale for the elimination;

"(5) describes any other actions carried out by the Secretary to implement this section; and

"(6) describes any recommendations of the Secretary for legislation that may be needed to further implement this section.

"(j) SAVINGS PROVISIONS.—

"(1) EFFECT ON OTHER LAW.—Except as otherwise provided in this section, nothing in this section alters or affects any law (including regulations) with respect to a program referred to in subsection (d).

"(2) EFFECT ON RESPONSIBILITIES OF OTHER AGENCIES.—Except as otherwise provided in this section, nothing in this section abrogates the responsibilities of any agency, operating administration, or office within the Department that is otherwise charged by law (including regulations) with any aspect of program administration, oversight, or project approval or implementation with respect to a program or project subject to the responsibilities of the Freight Office under this section.

"(3) EFFECT ON PENDING APPLICATIONS.—Nothing in this section affects any pending application under a program referred to in subsection (d) that was received by the Secretary

AMERICAN OVERSIGHT

on or before the date of enactment of the Surface Transportation Investment Act of 2021.

"(k) AUTHORIZATION OF APPROPRIATIONS.—

"(1) IN GENERAL.—There are authorized to be appropriated to the Secretary such sums as are necessary to carry out this section.

"(2) CERTAIN ACTIVITIES.—Authorizations under subsections (f) and (g) are subject to appropriations.".

(b) GAO REVIEW.—The Comptroller General of the United States shall—

(1) conduct a review of the activities carried out by the Secretary pursuant to section 118 of title 49, United States Code; and

(2) develop recommendations regarding additional activities—

(A) to improve the consolidation of duplicative functions within the Department; and

(B) to promote increased staff efficiency for program management within the Department.

(c) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 49, United States Code, is amended by inserting after the item relating to section 117 the following:

"118. Office of Multimodal Freight Infrastructure and Policy.".

(d) CONFORMING AMENDMENTS.—

(1) Section 70101(c) of title 49, United States Code, is amended, in the matter preceding paragraph (1), by striking "Under Secretary of Transportation for Policy" and inserting "Assistant Secretary for Multimodal Freight".

(2) Section 70102 of title 49, United States Code, is amended—

(A) in subsection (a), in the matter preceding paragraph (1), by striking "Not later" and all that follows through "the Under Secretary of Transportation for Policy" and inserting "The Assistant Secretary for Multimodal Freight (referred to in this section as the 'Assistant Secretary')";

(B) in subsection (b)(4), in the matter preceding subparagraph (A), by striking "Under Secretary" and inserting "Assistant Secretary";

(C) in subsection (c), by striking "Under Secretary" and inserting "Assistant Secretary"; and

(D) in subsection (d), in the matter preceding paragraph (1), by striking "Under Secretary" and inserting "Assistant Secretary".

(3) Section 70103 of title 49, United States Code, is amended—

(A) in subsection (a), in the matter preceding paragraph (1), by striking "Under Secretary of Transportation for Policy" and inserting "Assistant Secretary for Multimodal Freight (referred to in this section as the 'Assistant Secretary')";

(B) by striking subsection (b);

(C) by redesignating subsections (c) and (d) as subsections (b) and (c), respectively;

(D) in subsection (b) (as so redesignated)—

(i) in the subsection heading, by striking "FINAL NETWORK" and inserting "DESIGNATION OF NATIONAL MULTIMODAL FREIGHT NETWORK";

AMERICAN OVERSIGHT

(ii) in paragraph (1), in the matter preceding subparagraph (A), by striking "Not later" and all that follows through "Under Secretary" and inserting "The Assistant Secretary";

(iii) in paragraph (2), in the matter preceding subparagraph (A), by striking "Under Secretary" and inserting "Assistant Secretary"; and

(iv) in paragraph (3), in the matter preceding subparagraph (A), by striking "Under Secretary" and inserting "Assistant Secretary"; and

(E) in subsection (c) (as so redesignated)—

(i) by striking "subsection (c)" each place it appears and inserting "subsection (b)"; and

(ii) by striking "Under Secretary" and inserting "Assistant Secretary".

(4) Section 116(d)(1) of title 49, United States Code, is amended by striking subparagraph (D).

SEC. 21102. UPDATES TO NATIONAL FREIGHT PLAN.

Section 70102(b) of title 49, United States Code, is amended—

(1) in paragraph (10), by striking "and" at the end;

(2) in paragraph (11), by striking the period at the end and inserting a semicolon; and

(3) by adding at the end the following:

"(12) best practices for reducing environmental impacts of freight movement (including reducing local air pollution from freight movement, stormwater runoff, and wildlife habitat loss resulting from freight facilities, freight vehicles, or freight activity);

"(13) possible strategies to increase the resilience of the freight system, including the ability to anticipate, prepare for, or adapt to conditions, or withstand, respond to, or recover rapidly from disruptions, including extreme weather and natural disasters;

"(14) strategies to promote United States economic growth and international competitiveness;

"(15) consideration of any potential unique impacts of the national freight system on rural and other underserved and historically disadvantaged communities;

"(16) strategies for decarbonizing freight movement, as appropriate; and

"(17) consideration of the impacts of e-commerce on the national multimodal freight system.".

SEC. 21103. STATE COLLABORATION WITH NATIONAL MULTIMODAL FREIGHT NETWORK.

Subsection (b) of section 70103 of title 49, United States Code (as redesignated by section 21101(d)(3)(C)), is amended—

(1) in paragraph (3), by striking subparagraph (C) and inserting the following:

"(C) provide to the States an opportunity to submit proposed designations from the States in accordance with paragraph (4).."; and

(2) in paragraph (4)—

(A) in subparagraph (C)(i), by striking "20 percent" and inserting "30 percent"; and

(B) by adding at the end the following:

AMERICAN OVERSIGHT

"(E) CONDITION FOR ACCEPTANCE.—The Secretary shall accept from a State a designation under subparagraph (D) only if the Secretary determines that the designation meets the applicable requirements of subparagraph (A).".

SEC. 21104. IMPROVING STATE FREIGHT PLANS.

(a) IN GENERAL.—Section 70202 of title 49, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (9), by striking "and" at the end;

(B) by redesignating paragraph (10) as paragraph (17); and

(C) by inserting after paragraph (9) the following:

"(10) the most recent commercial motor vehicle parking facilities assessment conducted by the State under subsection (f);

"(11) the most recent supply chain cargo flows in the State, expressed by mode of transportation;

"(12) an inventory of commercial ports in the State;

"(13) if applicable, consideration of the findings or recommendations made by any multi-State freight compact to which the State is a party under section 70204;

"(14) the impacts of e-commerce on freight infrastructure in the State;

"(15) considerations of military freight;

"(16) strategies and goals to decrease—

"(A) the severity of impacts of extreme weather and natural disasters on freight mobility;

"(B) the impacts of freight movement on local air pollution;

"(C) the impacts of freight movement on flooding and stormwater runoff; and

"(D) the impacts of freight movement on wildlife habitat loss; and"; and

(2) by adding at the end the following:

"(f) COMMERCIAL MOTOR VEHICLE PARKING FACILITIES ASSESSMENTS.—As part of the development or updating, as applicable, of a State freight plan under this section, each State that receives funding under section 167 of title 23, in consultation with relevant State motor carrier safety personnel, shall conduct an assessment of—

"(1) the capability of the State, together with the private sector in the State, to provide adequate parking facilities and rest facilities for commercial motor vehicles engaged in interstate transportation;

"(2) the volume of commercial motor vehicle traffic in the State; and

"(3) whether there exist any areas within the State with a shortage of adequate commercial motor vehicle parking facilities, including an analysis (economic or otherwise, as the State determines to be appropriate) of the underlying causes of such a shortage.

"(g) PRIORITY.—Each State freight plan under this section shall include a requirement that the State, in carrying out activities under the State freight plan—

"(1) enhance reliability or redundancy of freight transportation; or

AMERICAN OVERSIGHT

"(2) incorporate the ability to rapidly restore access and reliability with respect to freight transportation.

"(h) APPROVAL.—

"(1) IN GENERAL.—The Secretary of Transportation shall approve a State freight plan described in subsection (a) if the plan achieves compliance with the requirements of this section.

"(2) SAVINGS PROVISION.—Nothing in this subsection establishes new procedural requirements for the approval of a State freight plan described in subsection (a).".

(b) STUDIES.—For the purpose of facilitating the integration of intelligent transportation systems into the freight transportation network powered by electricity, the Secretary, acting through the Assistant Secretary for Multimodal Freight, shall conduct a study relating to—

(1) preparing to supply power to applicable electrical freight infrastructure; and

(2) safely integrating freight into intelligent transportation systems.

(c) ALIGNMENT OF TRANSPORTATION PLANNING.—Section 70202 of title 49, United States Code, is amended—

(1) in subsection (d), by striking "5-year" and inserting "8-year"; and

(2) in subsection (e)(1), by striking "5 years" and inserting "4 years".

SEC. 21105. IMPLEMENTATION OF NATIONAL MULTIMODAL FREIGHT NETWORK.

Not later than 30 days after the date of enactment of this Act, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that—

(1) describes the status of the designation of the final National Multimodal Freight Network required under section 70103 of title 49, United States Code;

(2) explains the reasons why the designation of the network referred to in paragraph (1) has not been finalized, if applicable; and

(3) estimates the date by which that network will be designated.

SEC. 21106. MULTI-STATE FREIGHT CORRIDOR PLANNING.

(a) IN GENERAL.—Chapter 702 of title 49, United States Code, is amended—

(1) by redesignating section 70204 as section 70206; and

(2) by inserting after section 70203 the following:

"§ 70204. Multi-State freight corridor planning

"(a) CONSENT TO MULTI-STATE FREIGHT MOBILITY COMPACTS.—Congress recognizes the right of States, cities, regional planning organizations, federally recognized Indian Tribes, and local public authorities (including public port authorities) that are regionally linked with an interest in a specific nationally or regionally significant multi-State freight corridor to enter into multi-State compacts to promote the improved mobility of goods, including—

"(1) identifying projects along the corridor that benefit multiple States;

AMERICAN OVERSIGHT

"(2) assembling rights-of-way; and

"(3) performing capital improvements.

"(b) FINANCING.—A multi-State freight compact established by entities under subsection (a) may provide that, in order to carry out the compact, the relevant States or other entities may—

"(1) accept contributions from a unit of State or local government;

"(2) use any Federal or State funds made available for freight mobility infrastructure planning or construction, including applying for grants;

"(3) subject to such terms and conditions as the States consider to be advisable—

"(A) borrow money on a short-term basis; and

"(B) issue—

"(i) notes for borrowing under subparagraph (A); and

"(ii) bonds; and

"(4) obtain financing by other means permitted under applicable Federal or State law.

"(c) ADVISORY COMMITTEES.—

"(1) IN GENERAL.—A multi-State freight compact under this section may establish a multi-State freight corridor advisory committee, which shall include representatives of State departments of transportation and other public and private sector entities with an interest in freight mobility, such as—

"(A) ports;

"(B) freight railroads;

"(C) shippers;

"(D) carriers;

"(E) freight-related associations;

"(F) third-party logistics providers;

"(G) the freight industry workforce;

"(H) environmental organizations;

"(I) community organizations; and

"(J) units of local government.

"(2) ACTIVITIES.—An advisory committee established under paragraph (1) may—

"(A) advise the parties to the applicable multi-State freight compact with respect to freight-related priorities, issues, projects, and funding needs that impact multi-State—

"(i) freight mobility; and

"(ii) supply chains;

"(B) serve as a forum for States, Indian Tribes, and other public entities to discuss decisions affecting freight mobility;

"(C) communicate and coordinate multi-State freight priorities with other organizations;

"(D) promote the sharing of information between the private and public sectors with respect to freight issues; and

"(E) provide information for consideration in the development of State freight plans under section 70202.

"(d) GRANTS.—

"(1) ESTABLISHMENT.—The Secretary of Transportation (referred to in this section as the 'Secretary') shall establish a program under which the Secretary shall provide grants

AMERICAN OVERSIGHT

to multi-State freight compacts, or States seeking to form a multi-State freight compact, that seek to improve a route or corridor that is a part of the National Multimodal Freight Network established under section 70103.

"(2) NEW COMPACTS.—

"(A) IN GENERAL.—To incentivize the establishment of multi-State freight compacts, the Secretary may award a grant for operations costs in an amount of not more than $2,000,000 to—

"(i) a multi-State freight compact established under subsection (a) during the 2-year period beginning on the date of establishment of the multi-State freight compact; or

"(ii) States seeking to form a multi-State freight compact described in that subsection.

"(B) ELIGIBILITY.—

"(i) NEW MULTI-STATE FREIGHT COMPACTS.—A multi-State freight compact shall be eligible for a grant under this paragraph only during the initial 2 years of operation of the compact.

"(ii) STATES SEEKING TO FORM A COMPACT.—States seeking to form a multi-State freight compact shall be eligible for a grant under this paragraph during—

"(I) the 2-year period beginning on the date on which an application for a grant under this paragraph with respect to the proposed compact is submitted to the Secretary; or

"(II) if the compact is formed before the date on which a grant under this paragraph is awarded in accordance with subclause (I), the initial 2 years of operation of the compact.

"(C) REQUIREMENTS.—To be eligible to receive a grant under this paragraph, a multi-State freight compact or the applicable States seeking to form a multi-State freight compact shall—

"(i) submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require;

"(ii) provide a non-Federal match equal to not less than 25 percent of the operating costs of the multi-State freight compact; and

"(iii) commit to establishing a multi-State freight corridor advisory committee under subsection (c)(1) during the initial 2-year period of operation of the compact.

"(3) EXISTING COMPACTS.—

"(A) IN GENERAL.—The Secretary may award a grant to multi-State freight compacts that are not eligible to receive a grant under paragraph (2) for operations costs in an amount of not more than $1,000,000.

"(B) REQUIREMENTS.—To be eligible to receive a grant under this paragraph, a multi-State freight compact shall—

"(i) submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require;

"(ii) provide a non-Federal match of not less than 50 percent of the operating costs of the compact; and

AMERICAN OVERSIGHT

"(iii) demonstrate that the compact has established a multi-State freight corridor advisory committee under subsection (c)(1).

"(4) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary $5,000,000 for each fiscal year to carry out this subsection.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 702 of title 49, United States Code, is amended by striking the item relating to section 70204 and inserting the following:

"70204. Multi-State freight corridor planning.
"70206. Savings provision.".

SEC. 21107. STATE FREIGHT ADVISORY COMMITTEES.

Section 70201 of title 49, United States Code, is amended—

(1) in subsection (a), by striking "representatives of ports, freight railroads," and all that follows through the period at the end and inserting the following: "representatives of—

"(1) ports, if applicable;
"(2) freight railroads, if applicable;
"(3) shippers;
"(4) carriers;
"(5) freight-related associations;
"(6) third-party logistics providers;
"(7) the freight industry workforce;
"(8) the transportation department of the State;
"(9) metropolitan planning organizations;
"(10) local governments;
"(11) the environmental protection department of the State, if applicable;
"(12) the air resources board of the State, if applicable;
"(13) economic development agencies of the State; and
"(14) not-for-profit organizations or community organizations.";

(2) in subsection (b)(5), by striking "70202." and inserting "70202, including by providing advice regarding the development of the freight investment plan.";

(3) by redesignating subsection (b) as subsection (c); and

(4) by inserting after subsection (a) the following:

"(b) QUALIFICATIONS.—Each member of a freight advisory committee established under subsection (a) shall have qualifications sufficient to serve on a freight advisory committee, including, as applicable—

"(1) general business and financial experience;
"(2) experience or qualifications in the areas of freight transportation and logistics;
"(3) experience in transportation planning;
"(4) experience representing employees of the freight industry;
"(5) experience representing a State, local government, or metropolitan planning organization; or
"(6) experience representing the views of a community group or not-for-profit organization.".

AMERICAN OVERSIGHT

Subtitle B—Multimodal Investment

SEC. 21201. NATIONAL INFRASTRUCTURE PROJECT ASSISTANCE.

Subtitle III of title 49, United States Code, is amended by adding at the end the following:

"CHAPTER 67—MULTIMODAL INFRASTRUCTURE INVESTMENTS

"6701. National infrastructure project assistance.
"6702. Local and regional project assistance.

"§ 6701. National infrastructure project assistance

"(a) DEFINITIONS.—In this section:

"(1) DEPARTMENT.—The term 'Department' means the Department of Transportation.

"(2) ELIGIBLE ENTITY.—The term 'eligible entity' means—

"(A) a State or a group of States;

"(B) a metropolitan planning organization;

"(C) a unit of local government;

"(D) a political subdivision of a State;

"(E) a special purpose district or public authority with a transportation function, including a port authority;

"(F) a Tribal government or a consortium of Tribal governments;

"(G) a partnership between Amtrak and 1 or more entities described in subparagraphs (A) through (F); and

"(H) a group of entities described in any of subparagraphs (A) through (G).

"(3) PROGRAM.—The term 'program' means the program established by subsection (b).

"(4) SECRETARY.—The term 'Secretary' means the Secretary of Transportation.

"(5) STATE.—The term 'State' means—

"(A) any of the several States;

"(B) the District of Columbia;

"(C) the Commonwealth of Puerto Rico;

"(D) the Commonwealth of the Northern Mariana Islands;

"(E) the United States Virgin Islands;

"(F) Guam;

"(G) American Samoa; and

"(H) any other territory or possession of the United States.

"(b) ESTABLISHMENT.—There is established a program under which the Secretary shall provide to eligible entities grants, on a competitive basis pursuant to single-year or multiyear grant agreements, for projects described in subsection (d).

"(c) APPLICATIONS.—

"(1) IN GENERAL.—To be eligible for a grant under the program, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary determines to be appropriate.

"(2) PLAN FOR DATA COLLECTION.—An application under paragraph (1) shall include a plan for data collection and analysis described in subsection (g).

AMERICAN OVERSIGHT

"(d) ELIGIBLE PROJECTS.—The Secretary may provide a grant under the program only for a project—

"(1) that is—

"(A) a highway or bridge project carried out on—

"(i) the National Multimodal Freight Network established under section 70103;

"(ii) the National Highway Freight Network established under section 167 of title 23; or

"(iii) the National Highway System (as defined in section 101(a) of title 23);

"(B) a freight intermodal (including public ports) or freight rail project that provides a public benefit;

"(C) a railway-highway grade separation or elimination project;

"(D) an intercity passenger rail project;

"(E) a public transportation project that is—

"(i) eligible for assistance under chapter 53; and

"(ii) part of a project described in any of subparagraphs (A) through (D); or

"(F) a grouping, combination, or program of interrelated, connected, or dependent projects of any of the projects described in subparagraphs (A) through (E); and

"(2) the eligible project costs of which are—

"(A) reasonably anticipated to equal or exceed $500,000,000; or

"(B) for any project funded by the set-aside under subsection (m)(2)—

"(i) more than $100,000,000; but

"(ii) less than $500,000,000.

"(e) GEOGRAPHICAL DISTRIBUTION.—In providing grants under this section, the Secretary shall ensure among grant recipients—

"(1) geographical diversity; and

"(2) a balance between rural and urban communities.

"(f) PROJECT EVALUATION AND SELECTION.—

"(1) REQUIREMENTS.—The Secretary may select a project described in subsection (d) to receive a grant under the program only if the Secretary determines that—

"(A) the project is likely to generate national or regional economic, mobility, or safety benefits;

"(B) the project is in need of significant Federal funding;

"(C) the project will be cost-effective;

"(D) with respect to related non-Federal financial commitments, 1 or more stable and dependable sources of funding and financing are available—

"(i) to construct, operate, and maintain the project; and

"(ii) to cover cost increases; and

"(E) the applicant has, or will have, sufficient legal, financial, and technical capacity to carry out the project.

"(2) EVALUATION CRITERIA.—In awarding a grant under the program, the Secretary shall evaluate—

"(A) the extent to which a project supports achieving a state of good repair for each existing asset to be improved by the project;

"(B) the level of benefits a project is expected to generate, including—

AMERICAN OVERSIGHT

"(i) the costs avoided by the prevention of closure or reduced use of the asset to be improved by the project;

"(ii) reductions in maintenance costs over the life of the applicable asset;

"(iii) safety benefits, including the reduction of serious injuries and fatalities and related costs;

"(iv) improved person or freight throughput, including improved mobility and reliability; and

"(v) environmental benefits and health impacts, such as—

"(I) reductions in greenhouse gas emissions;

"(II) air quality benefits;

"(III) preventing stormwater runoff that would be a detriment to aquatic species; and

"(IV) improved infrastructure resilience;

"(C) the benefits of the project, as compared to the costs of the project;

"(D) the number of persons or volume of freight, as applicable, supported by the project; and

"(E) national and regional economic benefits of the project, including with respect to short- and long-term job access, growth, or creation.

"(3) ADDITIONAL CONSIDERATIONS.—In selecting projects to receive grants under the program, the Secretary shall take into consideration—

"(A) contributions to geographical diversity among grant recipients, including a balance between the needs of rural and urban communities;

"(B) whether multiple States would benefit from a project;

"(C) whether, and the degree to which, a project uses—

"(i) construction materials or approaches that have—

"(I) demonstrated reductions in greenhouse gas emissions; or

"(II) reduced the need for maintenance of other projects; or

"(ii) technologies that will allow for future connectivity and automation;

"(D) whether a project would benefit—

"(i) a historically disadvantaged community or population; or

"(ii) an area of persistent poverty;

"(E) whether a project benefits users of multiple modes of transportation, including—

"(i) pedestrians;

"(ii) bicyclists; and

"(iii) users of nonvehicular rail and public transportation, including intercity and commuter rail; and

"(F) whether a project improves connectivity between modes of transportation moving persons or goods nationally or regionally.

"(4) RATINGS.—

"(A) IN GENERAL.—In evaluating applications for a grant under the program, the Secretary shall assign the project proposed in the application a rating described in

AMERICAN OVERSIGHT

subparagraph (B), based on the information contained in the applicable notice published under paragraph (5).

"(B) RATINGS.—

"(i) HIGHLY RECOMMENDED.—The Secretary shall assign a rating of 'highly recommended' to projects that, in the determination of the Secretary—

"(I) are exemplary projects of national or regional significance; and

"(II) would provide significant public benefit, as determined based on the applicable criteria described in this subsection, if funded under the program.

"(ii) RECOMMENDED.—The Secretary shall assign a rating of 'recommended' to projects that, in the determination of the Secretary—

"(I) are of national or regional significance; and

"(II) would provide public benefit, as determined based on the applicable criteria described in this subsection, if funded under the program.

"(iii) NOT RECOMMENDED.—The Secretary shall assign a rating of 'not recommended' to projects that, in the determination of the Secretary, should not receive a grant under the program, based on the applicable criteria described in this subsection.

"(C) TECHNICAL ASSISTANCE.—

"(i) IN GENERAL.—On request of an eligible entity that submitted an application under subsection (c) for a project that is not selected to receive a grant under the program, the Secretary shall provide to the eligible entity technical assistance and briefings relating to the project.

"(ii) TREATMENT.—Technical assistance provided under this subparagraph shall not be considered a guarantee of future selection of the applicable project under the program.

"(5) PUBLICATION OF PROJECT EVALUATION AND SELECTION CRITERIA.—Not later than 90 days after the date of enactment of this chapter, the Secretary shall publish and make publicly available on the website of the Department a notice that contains a detailed explanation of—

"(A) the method by which the Secretary will determine whether a project satisfies the applicable requirements described in paragraph (1);

"(B) any additional ratings the Secretary may assign to determine the means by which a project addresses the selection criteria and additional considerations described in paragraphs (2) and (3); and

"(C) the means by which the project requirements and ratings referred to in subparagraphs (A) and (B) will be used to assign an overall rating for the project under paragraph (4).

"(6) PROJECT SELECTION PRIORITY.—In awarding grants under the program, the Secretary shall give priority to projects to which the Secretary has assigned a rating of 'highly recommended' under paragraph (4)(B)(i).

"(g) DATA COLLECTION AND ANALYSIS.—

AMERICAN OVERSIGHT

"(1) PLAN.—

"(A) IN GENERAL.—An eligible entity seeking a grant under the program shall submit to the Secretary, together with the grant application, a plan for the collection and analysis of data to identify in accordance with the framework established under paragraph (2)—

"(i) the impacts of the project; and

"(ii) the accuracy of any forecast prepared during the development phase of the project and included in the grant application.

"(B) CONTENTS.—A plan under subparagraph (A) shall include—

"(i) an approach to measuring—

"(I) the criteria described in subsection (f)(2); and

"(II) if applicable, the additional requirements described in subsection (f)(3);

"(ii) an approach for analyzing the consistency of predicted project characteristics with actual outcomes; and

"(iii) any other elements that the Secretary determines to be necessary.

"(2) FRAMEWORK.—The Secretary may publish a standardized framework for the contents of the plans under paragraph (1), which may include, as appropriate—

"(A) standardized forecasting and measurement approaches;

"(B) data storage system requirements; and

"(C) any other requirements the Secretary determines to be necessary to carry out this section.

"(3) MULTIYEAR GRANT AGREEMENTS.—The Secretary shall require an eligible entity, as a condition of receiving funding pursuant to a multiyear grant agreement under the program, to collect additional data to measure the impacts of the project and to accurately track improvements made by the project, in accordance with a plan described in paragraph (1).

"(4) REPORTS.—

"(A) PROJECT BASELINE.—Before the date of completion of a project for which a grant is provided under the program, the eligible entity carrying out the project shall submit to the Secretary a report providing baseline data for the purpose of analyzing the long-term impact of the project in accordance with the framework established under paragraph (2).

"(B) UPDATED REPORT.—Not later than 6 years after the date of completion of a project for which a grant is provided under the program, the eligible entity carrying out the project shall submit to the Secretary a report that compares the baseline data included in the report under subparagraph (A) to project data collected during the period—

"(i) beginning on the date that is 5 years after the date of completion of the project; and

"(ii) ending on the date on which the updated report is submitted.

"(h) ELIGIBLE PROJECT COSTS.—

AMERICAN OVERSIGHT

"(1) IN GENERAL.—An eligible entity may use a grant provided under the program for—

"(A) development-phase activities and costs, including planning, feasibility analysis, revenue forecasting, alternatives analysis, data collection and analysis, environmental review and activities to support environmental review, preliminary engineering and design work, and other preconstruction activities, including the preparation of a data collection and post-construction analysis plan under subsection (g); and

"(B) construction, reconstruction, rehabilitation, acquisition of real property (including land relating to the project and improvements to that land), environmental mitigation (including projects to replace or rehabilitate culverts or reduce stormwater runoff for the purpose of improving habitat for aquatic species), construction contingencies, acquisition of equipment, protection, and operational improvements directly relating to the project.

"(2) INTEREST AND OTHER FINANCING COSTS.—The interest and other financing costs of carrying out any part of a project under a multiyear grant agreement within a reasonable period of time shall be considered to be an eligible project cost only if the applicable eligible entity certifies to the Secretary that the eligible entity has demonstrated reasonable diligence in seeking the most favorable financing terms.

"(i) COST SHARING.—

"(1) IN GENERAL.—The total amount awarded for a project under the program may not exceed 60 percent of the total eligible project costs described in subsection (h).

"(2) MAXIMUM FEDERAL INVOLVEMENT.—

"(A) IN GENERAL.—Subject to subparagraph (B), Federal assistance other than a grant awarded under the program may be provided for a project for which a grant is awarded under the program.

"(B) LIMITATION.—The total amount of Federal assistance provided for a project for which a grant is awarded under the program shall not exceed 80 percent of the total cost of the project.

"(C) NON-FEDERAL SHARE.—Secured loans or financing provided under section 603 of title 23 or section 22402 of this title and repaid with local funds or revenues shall be considered to be part of the local share of the cost of a project.

"(3) APPLICATION TO MULTIYEAR AGREEMENTS.—Notwithstanding any other provision of this title, in any case in which amounts are provided under the program pursuant to a multiyear agreement, the disbursed Federal share of the cost of the project may exceed the limitations described in paragraphs (1) and (2)(B) for 1 or more years if the total amount of the Federal share of the cost of the project, once completed, does not exceed those limitations.

"(j) GRANT AGREEMENTS.—

"(1) IN GENERAL.—A project for which an eligible entity receives a multiyear grant under the program shall be carried out in accordance with this subsection.

"(2) TERMS.—A multiyear grant agreement under this subsection shall—

AMERICAN OVERSIGHT

"(A) establish the terms of Federal participation in the applicable project;

"(B) establish the maximum amount of Federal financial assistance for the project;

"(C) establish a schedule of anticipated Federal obligations for the project that provides for obligation of the full grant amount;

"(D) describe the period of time for completing the project, regardless of whether that period extends beyond the period of an authorization; and

"(E) facilitate timely and efficient management of the applicable project by the eligible entity carrying out the project, in accordance with applicable law.

"(3) SPECIAL RULES.—

"(A) IN GENERAL.—A multiyear grant agreement under this subsection—

"(i) shall provide for the obligation of an amount of available budget authority specified in law;

"(ii) may include a commitment, contingent on amounts to be specified in law in advance for commitments under this paragraph, to obligate an additional amount from future available budget authority specified in law; and

"(iii) shall provide that any funds disbursed under the program for the project before the completion of any review required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) may only cover costs associated with development-phase activities described in subsection (h)(1)(A).

"(B) CONTINGENT COMMITMENT.—A contingent commitment under this paragraph is not an obligation of the Federal Government, including for purposes of section 1501 of title 31.

"(4) SINGLE-YEAR GRANTS.—The Secretary may only provide to an eligible entity a full grant under the program in a single year if all reviews required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to the applicable project have been completed before the receipt of any program funds.

"(k) CONGRESSIONAL NOTIFICATION.—

"(1) IN GENERAL.—Not later than 30 days before the date on which the Secretary publishes the selection of projects to receive grants under the program, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a written notice that includes—

"(A) a list of all project applications reviewed by the Secretary as part of the selection process;

"(B) the rating assigned to each project under subsection (f)(4);

"(C) an evaluation and justification with respect to each project for which the Secretary will—

"(i) provide a grant under the program; and

"(ii) enter into a multiyear grant agreement under the program;

AMERICAN OVERSIGHT

"(D) a description of the means by which the Secretary anticipates allocating among selected projects the amounts made available to the Secretary to carry out the program; and

"(E) anticipated funding levels required for the 3 fiscal years beginning after the date of submission of the notice for projects selected for grants under the program, based on information available to the Secretary as of that date.

"(2) CONGRESSIONAL DISAPPROVAL.—The Secretary may not provide a grant or any other obligation or commitment to fund a project under the program if a joint resolution is enacted disapproving funding for the project before the last day of the 30-day period described in paragraph (1).

"(l) REPORTS.—

"(1) TRANSPARENCY.—Not later than 60 days after the date on which the grants are announced under the program, the Secretary shall publish on the website of the Department a report that includes—

"(A) a list of all project applications reviewed by the Secretary as part of the selection process under the program;

"(B) the rating assigned to each project under subsection (f)(4); and

"(C) a description of each project for which a grant has been provided under the program.

"(2) COMPTROLLER GENERAL.—

"(A) ASSESSMENT.—The Comptroller General of the United States shall conduct an assessment of the administrative establishment, solicitation, selection, and justification process with respect to the funding of grants under the program.

"(B) REPORT.—Not later than 18 months after the date on which the initial grants are awarded for projects under the program, the Comptroller General shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes, as applicable—

"(i) the adequacy and fairness of the process by which the projects were selected; and

"(ii) the justification and criteria used for the selection of the projects.

"(m) AUTHORIZATION OF APPROPRIATIONS.—

"(1) IN GENERAL.—There is authorized to be appropriated to the Secretary to carry out the program $2,000,000,000 for each of fiscal years 2022 through 2026.

"(2) OTHER PROJECTS.—Of the amounts made available under paragraph (1), 50 percent shall be set aside for projects that have a project cost of—

"(A) more than $100,000,000; but

"(B) less than $500,000,000.

"(3) ADMINISTRATIVE EXPENSES.—Of the amounts made available to carry out the program for each fiscal year, the Secretary may reserve not more than 2 percent for the costs of—

"(A) administering and overseeing the program; and

AMERICAN OVERSIGHT

"(B) hiring personnel for the program, including personnel dedicated to processing permitting and environmental review issues.

"(4) TRANSFER OF AUTHORITY.—The Secretary may transfer any portion of the amounts reserved under paragraph (3) for a fiscal year to the Administrator of any of the Federal Highway Administration, the Federal Transit Administration, the Federal Railroad Administration, or the Maritime Administration to award and oversee grants in accordance with this section.

"(n) ADDITIONAL REQUIREMENTS.—

"(1) IN GENERAL.—Each project that receives a grant under this chapter shall achieve compliance with the applicable requirements of—

"(A) subchapter IV of chapter 31 of title 40;

"(B) title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.); and

"(C) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

"(2) MODAL REQUIREMENTS.—The Secretary shall, with respect to a project funded by a grant under this section, apply—

"(A) the requirements of title 23 to a highway, road, or bridge project;

"(B) the requirements of chapter 53 to a transit project; and

"(C) the requirements of section 22905 to a rail project.

"(3) MULTIMODAL PROJECTS.—

"(A) IN GENERAL.—Except as otherwise provided in this paragraph, if an eligible project is a multimodal project, the Secretary shall—

"(i) determine the predominant modal component of the project; and

"(ii) apply the applicable requirements described in paragraph (2) of the predominant modal component to the project.

"(B) EXCEPTIONS.—

"(i) PASSENGER OR FREIGHT RAIL COMPONENT.—The requirements of section 22905 shall apply to any passenger or freight rail component of a project.

"(ii) PUBLIC TRANSPORTATION COMPONENT.—The requirements of section 5333 shall apply to any public transportation component of a project.".

SEC. 21202. LOCAL AND REGIONAL PROJECT ASSISTANCE.

(a) IN GENERAL.—Chapter 67 of subtitle III of title 49, United States Code (as added by section 21201), is amended by adding at the end the following:

"§ 6702. Local and regional project assistance

"(a) DEFINITIONS.—In this section:

"(1) AREA OF PERSISTENT POVERTY.—The term 'area of persistent poverty' means—

"(A) any county (or equivalent jurisdiction) in which, during the 30-year period ending on the date of enactment of this chapter, 20 percent or more of the population continually lived in poverty, as measured by—

"(i) the 1990 decennial census;

AMERICAN OVERSIGHT

"(ii) the 2000 decennial census; and

"(iii) the most recent annual small area income and poverty estimate of the Bureau of the Census;

"(B) any census tract with a poverty rate of not less than 20 percent, as measured by the 5-year data series available from the American Community Survey of the Bureau of the Census for the period of 2014 through 2018; and

"(C) any territory or possession of the United States.

"(2) ELIGIBLE ENTITY.—The term 'eligible entity' means—

"(A) a State;

"(B) the District of Columbia;

"(C) any territory or possession of the United States;

"(D) a unit of local government;

"(E) a public agency or publicly chartered authority established by 1 or more States;

"(F) a special purpose district or public authority with a transportation function, including a port authority;

"(G) a federally recognized Indian Tribe or a consortium of such Indian Tribes;

"(H) a transit agency; and

"(I) a multi-State or multijurisdictional group of entities described in any of subparagraphs (A) through (H).

"(3) ELIGIBLE PROJECT.—The term 'eligible project' means—

"(A) a highway or bridge project eligible for assistance under title 23;

"(B) a public transportation project eligible for assistance under chapter 53;

"(C) a passenger rail or freight rail transportation project eligible for assistance under this title;

"(D) a port infrastructure investment, including—

"(i) inland port infrastructure; and

"(ii) a land port-of-entry;

"(E) the surface transportation components of an airport project eligible for assistance under part B of subtitle VII;

"(F) a project for investment in a surface transportation facility located on Tribal land, the title or maintenance responsibility of which is vested in the Federal Government;

"(G) a project to replace or rehabilitate a culvert or prevent stormwater runoff for the purpose of improving habitat for aquatic species that will advance the goal of the program described in subsection (b)(2); and

"(H) any other surface transportation infrastructure project that the Secretary considers to be necessary to advance the goal of the program.

"(4) PROGRAM.—The term 'program' means the Local and Regional Project Assistance Program established under subsection (b)(1).

"(5) RURAL AREA.—The term 'rural area' means an area that is located outside of an urbanized area.

"(6) SECRETARY.—The term 'Secretary' means the Secretary of Transportation.

"(7) URBANIZED AREA.—The term 'urbanized area' means an area with a population of more than 200,000 residents, based on the most recent decennial census.

AMERICAN OVERSIGHT

"(b) ESTABLISHMENT.—

"(1) IN GENERAL.—The Secretary shall establish and carry out a program, to be known as the 'Local and Regional Project Assistance Program', to provide for capital investments in surface transportation infrastructure.

"(2) GOAL.—The goal of the program shall be to fund eligible projects that will have a significant local or regional impact and improve transportation infrastructure.

"(c) GRANTS.—

"(1) IN GENERAL.—In carrying out the program, the Secretary may make grants to eligible entities, on a competitive basis, in accordance with this section.

"(2) AMOUNT.—Except as otherwise provided in this section, each grant made under the program shall be in an amount equal to—

"(A) not less than $5,000,000 for an urbanized area;

"(B) not less than $1,000,000 for a rural area; and

"(C) not more than $25,000,000.

"(3) LIMITATION.—Not more than 15 percent of the funds made available to carry out the program for a fiscal year may be awarded to eligible projects in a single State during that fiscal year.

"(d) SELECTION OF ELIGIBLE PROJECTS.—

"(1) NOTICE OF FUNDING OPPORTUNITY.—Not later than 60 days after the date on which funds are made available to carry out the program, the Secretary shall publish a notice of funding opportunity for the funds.

"(2) APPLICATIONS.—To be eligible to receive a grant under the program, an eligible entity shall submit to the Secretary an application—

"(A) in such form and containing such information as the Secretary considers to be appropriate; and

"(B) by such date as the Secretary may establish, subject to the condition that the date shall be not later than 90 days after the date on which the Secretary issues the solicitation under paragraph (1).

"(3) PRIMARY SELECTION CRITERIA.—In awarding grants under the program, the Secretary shall evaluate the extent to which a project—

"(A) improves safety;

"(B) improves environmental sustainability;

"(C) improves the quality of life of rural areas or urbanized areas;

"(D) increases economic competitiveness and opportunity, including increasing tourism opportunities;

"(E) contributes to a state of good repair; and

"(F) improves mobility and community connectivity.

"(4) ADDITIONAL SELECTION CRITERIA.—In selecting projects to receive grants under the program, the Secretary shall take into consideration the extent to which—

"(A) the project sponsors collaborated with other public and private entities;

"(B) the project adopts innovative technologies or techniques, including—

"(i) innovative technology;

"(ii) innovative project delivery techniques; and

"(iii) innovative project financing;

AMERICAN OVERSIGHT

"(C) the project has demonstrated readiness; and

"(D) the project is cost effective.

"(5) TRANSPARENCY.—

"(A) IN GENERAL.—The Secretary, shall evaluate, through a methodology that is discernible and transparent to the public, the means by which each application submitted under paragraph (2) addresses the criteria under paragraphs (3) and (4) or otherwise established by the Secretary.

"(B) PUBLICATION.—The methodology under subparagraph (A) shall be published by the Secretary as part of the notice of funding opportunity under the program.

"(6) AWARDS.—Not later than 270 days after the date on which amounts are made available to provide grants under the program for a fiscal year, the Secretary shall announce the selection by the Secretary of eligible projects to receive the grants in accordance with this section.

"(7) TECHNICAL ASSISTANCE.—

"(A) IN GENERAL.—On request of an eligible entity that submitted an application under paragraph (2) for a project that is not selected to receive a grant under the program, the Secretary shall provide to the eligible entity technical assistance and briefings relating to the project.

"(B) TREATMENT.—Technical assistance provided under this paragraph shall not be considered a guarantee of future selection of the applicable project under the program.

"(e) FEDERAL SHARE.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the Federal share of the cost of an eligible project carried out using a grant provided under the program shall not exceed 80 percent.

"(2) EXCEPTION.—The Federal share of the cost of an eligible project carried out in a rural area, a historically disadvantaged community, or an area of persistent poverty using a grant under this subsection may exceed 80 percent, at the discretion of the Secretary.

"(3) TREATMENT OF OTHER FEDERAL FUNDS.—Amounts provided under any of the following programs shall be considered to be a part of the non-Federal share for purposes of this subsection:

"(A) The tribal transportation program under section 202 of title 23.

"(B) The Federal lands transportation program under section 203 of title 23.

"(C) The TIFIA program (as defined in section 601(a) of title 23).

"(D) The Railroad Rehabilitation and Improvement Financing Program under chapter 224.

"(f) OTHER CONSIDERATIONS.—

"(1) IN GENERAL.—Of the total amount made available to carry out the program for each fiscal year—

"(A) not more than 50 percent shall be allocated for eligible projects located in rural areas; and

"(B) not more than 50 percent shall be allocated for eligible projects located in urbanized areas.

"(2) HISTORICALLY DISADVANTAGED COMMUNITIES AND AREAS OF PERSISTENT POVERTY.—Of the total amount made

AMERICAN OVERSIGHT

available to carry out the program for each fiscal year, not less than 1 percent shall be awarded for projects in historically disadvantaged communities or areas of persistent poverty.

"(3) MULTIMODAL AND GEOGRAPHICAL CONSIDERATIONS.—In selecting projects to receive grants under the program, the Secretary shall take into consideration geographical and modal diversity.

"(g) PROJECT PLANNING.—Of the amounts made available to carry out the program for each fiscal year, not less than 5 percent shall be made available for the planning, preparation, or design of eligible projects.

"(h) TRANSFER OF AUTHORITY.—Of the amounts made available to carry out the program for each fiscal year, the Secretary may transfer not more than 2 percent for a fiscal year to the Administrator of any of the Federal Highway Administration, the Federal Transit Administration, the Federal Railroad Administration, or the Maritime Administration to award and oversee grants and credit assistance in accordance with this section.

"(i) CREDIT PROGRAM COSTS.—

"(1) IN GENERAL.—Subject to paragraph (2), at the request of an eligible entity, the Secretary may use a grant provided to the eligible entity under the program to pay the subsidy or credit risk premium, and the administrative costs, of an eligible project that is eligible for Federal credit assistance under—

"(A) chapter 224; or

"(B) chapter 6 of title 23.

"(2) LIMITATION.—Not more than 20 percent of the funds made available to carry out the program for a fiscal year may be used to carry out paragraph (1).

"(j) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $1,500,000,000 for each of fiscal years 2022 through 2026, to remain available for a period of 3 fiscal years following the fiscal year for which the amounts are appropriated.

"(k) REPORTS.—

"(1) ANNUAL REPORT.—The Secretary shall make available on the website of the Department of Transportation at the end of each fiscal year an annual report that describes each eligible project for which a grant was provided under the program during that fiscal year.

"(2) COMPTROLLER GENERAL.—Not later than 1 year after the date on which the initial grants are awarded for eligible projects under the program, the Comptroller General of the United States shall—

"(A) review the administration of the program, including—

"(i) the solicitation process; and

"(ii) the selection process, including—

"(I) the adequacy and fairness of the process; and

"(II) the selection criteria; and

"(B) submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report describing the findings of the review

AMERICAN OVERSIGHT

under subparagraph (A), including recommendations for improving the administration of the program, if any.".

(b) STUDY.—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall conduct, and submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report describing the results of, a study of how changes to Federal share matching requirements and selection criteria, such as using State population data in Department discretionary programs, may impact the allocations made to States.

(c) CLERICAL AMENDMENT.—The analysis for subtitle III of title 49, United States Code, is amended by adding at the end the following:

"CHAPTER 67—MULTIMODAL INFRASTRUCTURE INVESTMENTS

"6701. National infrastructure project assistance.
"6702. Local and regional project assistance.".

SEC. 21203. NATIONAL CULVERT REMOVAL, REPLACEMENT, AND RESTORATION GRANT PROGRAM.

(a) IN GENERAL.—Chapter 67 of title 49, United States Code (as amended by section 21202(a)), is amended by adding at the end the following:

"§ 6703. National culvert removal, replacement, and restoration grant program

"(a) DEFINITIONS.—In this section:

"(1) DIRECTOR.—The term 'Director' means the Director of the United States Fish and Wildlife Service.

"(2) INDIAN TRIBE.—The term 'Indian Tribe' has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304).

"(3) PROGRAM.—The term 'program' means the annual competitive grant program established under subsection (b).

"(4) SECRETARY.—The term 'Secretary' means the Secretary of Transportation.

"(5) UNDERSECRETARY.—The term 'Undersecretary' means the Undersecretary of Commerce for Oceans and Atmosphere.

"(b) ESTABLISHMENT.—The Secretary, in consultation with the Undersecretary, shall establish an annual competitive grant program to award grants to eligible entities for projects for the replacement, removal, and repair of culverts or weirs that—

"(1) would meaningfully improve or restore fish passage for anadromous fish; and

"(2) with respect to weirs, may include—

"(A) infrastructure to facilitate fish passage around or over the weir; and

"(B) weir improvements.

"(c) ELIGIBLE ENTITIES.—An entity eligible to receive a grant under the program is—

"(1) a State;

"(2) a unit of local government; or

"(3) an Indian Tribe.

"(d) GRANT SELECTION PROCESS.—The Secretary, in consultation with the Undersecretary and the Director, shall establish a process for determining criteria for awarding grants under the program, subject to subsection (e).

AMERICAN OVERSIGHT

"(e) PRIORITIZATION.—The Secretary, in consultation with the Undersecretary and the Director, shall establish procedures to prioritize awarding grants under the program to—

"(1) projects that would improve fish passage for—

"(A) anadromous fish stocks listed as an endangered species or a threatened species under section 4 of the Endangered Species Act of 1973 (16 U.S.C. 1533);

"(B) anadromous fish stocks identified by the Undersecretary or the Director that could reasonably become listed as an endangered species or a threatened species under that section;

"(C) anadromous fish stocks identified by the Undersecretary or the Director as prey for endangered species, threatened species, or protected species, including Southern resident orcas (Orcinus orcas); or

"(D) anadromous fish stocks identified by the Undersecretary or the Director as climate resilient stocks; and

"(2) projects that would open up more than 200 meters of upstream habitat before the end of the natural habitat.

"(f) FEDERAL SHARE.—The Federal share of the cost of a project carried out with a grant to a State or a unit of local government under the program shall be not more than 80 percent.

"(g) TECHNICAL ASSISTANCE.—The Secretary, in consultation with the Undersecretary and the Director, shall develop a process to provide technical assistance to Indian Tribes and underserved communities to assist in the project design and grant process and procedures.

"(h) ADMINISTRATIVE EXPENSES.—Of the amounts made available for each fiscal year to carry out the program, the Secretary, the Undersecretary, and the Director may use not more than 2 percent to pay the administrative expenses necessary to carry out this section.

"(i) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the program $800,000,000 for each of fiscal years 2022 through 2026.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 67 of title 49, United States Code (as added by section 21202(c)), is amended by adding at the end the following:

"6703. National culvert removal, replacement, and restoration grant program.".

SEC. 21204. NATIONAL MULTIMODAL COOPERATIVE FREIGHT RESEARCH PROGRAM.

(a) IN GENERAL.—Chapter 702 of title 49, United States Code (as amended by section 21106(a)), is amended by inserting after section 70204 the following:

"§ 70205. National multimodal cooperative freight research program

"(a) ESTABLISHMENT.—Not later than 1 year after the date of enactment of this section, the Secretary of Transportation (referred to in this section as the 'Secretary') shall establish and support a national cooperative freight transportation research program.

"(b) ADMINISTRATION BY NATIONAL ACADEMY OF SCIENCES.—

"(1) IN GENERAL.—The Secretary shall enter into an agreement with the National Academy of Sciences to support and

AMERICAN OVERSIGHT

carry out administrative and management activities under the program established under subsection (a).

"(2) ADVISORY COMMITTEE.—To assist the National Academy of Sciences in carrying out this subsection, the National Academy shall establish an advisory committee, the members of which represent a cross-section of multimodal freight stakeholders, including—

"(A) the Department of Transportation and other relevant Federal departments and agencies;

"(B) State (including the District of Columbia) departments of transportation;

"(C) units of local government, including public port authorities;

"(D) nonprofit entities;

"(E) institutions of higher education;

"(F) labor organizations representing employees in freight industries; and

"(G) private sector entities representing various transportation modes.

"(c) ACTIVITIES.—

"(1) NATIONAL RESEARCH AGENDA.—

"(A) IN GENERAL.—The advisory committee established under subsection (b)(2), in consultation with interested parties, shall recommend a national research agenda for the program in accordance with subsection (d), which shall include a multiyear strategic plan.

"(B) ACTION BY INTERESTED PARTIES.—For purposes of subparagraph (A), an interested party may—

"(i) submit to the advisory committee research proposals;

"(ii) participate in merit reviews of research proposals and peer reviews of research products; and

"(iii) receive research results.

"(2) RESEARCH CONTRACTS AND GRANTS.—

"(A) IN GENERAL.—The National Academy of Sciences may award research contracts and grants under the program established under subsection (a) through—

"(i) open competition; and

"(ii) merit review, conducted on a regular basis.

"(B) EVALUATION.—

"(i) PEER REVIEW.—A contract or grant for research under subparagraph (A) may allow peer review of the research results.

"(ii) PROGRAMMATIC EVALUATIONS.—The National Academy of Sciences may conduct periodic programmatic evaluations on a regular basis of a contract or grant for research under subparagraph (A).

"(C) DISSEMINATION OF FINDINGS.—The National Academy of Sciences shall disseminate the findings of any research conducted under this paragraph to relevant researchers, practitioners, and decisionmakers through—

"(i) conferences and seminars;

"(ii) field demonstrations;

"(iii) workshops;

"(iv) training programs;

"(v) presentations;

"(vi) testimony to government officials;

AMERICAN OVERSIGHT

"(vii) publicly accessible websites;
"(viii) publications for the general public; and
"(ix) other appropriate means.

"(3) REPORT.—Not later than 1 year after the date of establishment of the program under subsection (a), and annually thereafter, the Secretary shall make available on a public website a report that describes the ongoing research and findings under the program.

"(d) AREAS FOR RESEARCH.—The national research agenda under subsection (c)(1) shall consider research in the following areas:

"(1) Improving the efficiency and resiliency of freight movement, including—
"(A) improving the connections between rural areas and domestic and foreign markets;
"(B) maximizing infrastructure utility, including improving urban curb-use efficiency;
"(C) quantifying the national impact of blocked railroad crossings;
"(D) improved techniques for estimating and quantifying public benefits derived from freight transportation projects; and
"(E) low-cost methods to reduce congestion at bottlenecks.
"(2) Adapting to future trends in freight, including—
"(A) considering the impacts of e-commerce;
"(B) automation; and
"(C) zero-emissions transportation.
"(3) Workforce considerations in freight, including—
"(A) diversifying the freight transportation industry workforce; and
"(B) creating and transitioning a workforce capable of designing, deploying, and operating emerging technologies.

"(e) FEDERAL SHARE.—
"(1) IN GENERAL.—The Federal share of the cost of an activity carried out under this section shall be up to 100 percent.
"(2) USE OF NON-FEDERAL FUNDS.—In addition to using funds made available to carry out this section, the National Academy of Sciences may seek and accept additional funding from public and private entities capable of accepting funding from the Department of Transportation, States, units of local government, nonprofit entities, and the private sector.

"(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary $3,750,000 for each fiscal year to carry out the program established under subsection (a), to remain available until expended.

"(g) SUNSET.—The program established under subsection (a) shall terminate 5 years after the date of enactment of this section.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 702 of title 49, United States Code (as amended by section 21106(b)), is amended by inserting after the item relating to section 70204 the following:

"70205. National multimodal cooperative freight research program.".

AMERICAN OVERSIGHT

SEC. 21205. RURAL AND TRIBAL INFRASTRUCTURE ADVANCEMENT.

(a) DEFINITIONS.—In this section:

(1) BUILD AMERICA BUREAU.—The term "Build America Bureau" means the National Surface Transportation and Innovative Finance Bureau established under section 116 of title 49, United States Code.

(2) ELIGIBLE ENTITY.—The term "eligible entity" means—

(A) a unit of local government or political subdivision that is located outside of an urbanized area with a population of more than 150,000 residents, as determined by the Bureau of the Census;

(B) a State seeking to advance a project located in an area described in subparagraph (A);

(C) a federally recognized Indian Tribe; and

(D) the Department of Hawaiian Home Lands.

(3) ELIGIBLE PROGRAM.—The term "eligible program" means any program described in—

(A) subparagraph (A) or (B) of section 116(d)(1) of title 49, United States Code;

(B) section 118(d)(3)(A) of that title (as added by section 21101(a)); or

(C) chapter 67 of that title (as added by section 21201).

(4) PILOT PROGRAM.—The term "pilot program" means the Rural and Tribal Assistance Pilot Program established under subsection (b)(1).

(b) ESTABLISHMENT.—

(1) IN GENERAL.—The Secretary shall establish within the Build America Bureau a pilot program, to be known as the "Rural and Tribal Assistance Pilot Program", to provide to eligible entities the assistance and information described in paragraph (2).

(2) ASSISTANCE AND INFORMATION.—In carrying out the pilot program, the Secretary may provide to an eligible entity the following:

(A) Financial, technical, and legal assistance to evaluate potential projects reasonably expected to be eligible to receive funding or financing assistance under an eligible program.

(B) Assistance with development-phase activities, including—

(i) project planning;

(ii) feasibility studies;

(iii) revenue forecasting and funding and financing options analyses;

(iv) environmental review;

(v) preliminary engineering and design work;

(vi) economic assessments and cost-benefit analyses;

(vii) public benefit studies;

(viii) statutory and regulatory framework analyses;

(ix) value for money studies;

(x) evaluations of costs to sustain the project;

(xi) evaluating opportunities for private financing and project bundling; and

(xii) any other activity determined to be appropriate by the Secretary.

AMERICAN OVERSIGHT

(C) Information regarding innovative financing best practices and case studies, if the eligible entity is interested in using innovative financing methods.

(c) ASSISTANCE FROM EXPERT FIRMS.—The Secretary may retain the services of expert firms, including counsel, in the field of municipal and project finance to assist in providing financial, technical, and legal assistance to eligible entities under the pilot program.

(d) WEBSITE.—

(1) DESCRIPTION OF PILOT PROGRAM.—

(A) IN GENERAL.—The Secretary shall make publicly available on the website of the Department a description of the pilot program, including—

(i) the resources available to eligible entities under the pilot program; and

(ii) the application process established under paragraph (2)(A).

(B) CLEARINGHOUSE.—The Secretary may establish a clearinghouse for tools, templates, and best practices on the page of the website of the Department that contains the information described in subparagraph (A).

(2) APPLICATIONS.—

(A) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary shall establish a process by which an eligible entity may submit to the Secretary an application under the pilot program, in such form and containing such information as the Secretary may require.

(B) ONLINE PORTAL.—The Secretary shall develop and make available to the public an online portal through which the Secretary may receive applications under subparagraph (A), on a rolling basis.

(C) APPROVAL.—

(i) IN GENERAL.—Not later than 60 days after the date on which the Secretary receives a complete application under subparagraph (A), the Secretary shall provide to each eligible entity that submitted the application a notice describing whether the application is approved or disapproved.

(ii) ADDITIONAL WRITTEN NOTIFICATION.—

(I) IN GENERAL.—Not later than 30 days after the date on which the Secretary provides to an eligible entity a notification under clause (i), the Secretary shall provide to the eligible entity an additional written notification of the approval or disapproval of the application.

(II) DISAPPROVED APPLICATIONS.—If the application of an eligible entity is disapproved under this subparagraph, the additional written notification provided to the eligible entity under subclause (I) shall include an offer for a written or telephonic debrief by the Secretary that will provide an explanation of, and guidance regarding, the reasons why the application was disapproved.

(iii) INSUFFICIENT APPLICATIONS.—The Secretary shall not approve an application under this subparagraph if the application fails to meet the applicable criteria established under this section.

AMERICAN OVERSIGHT

(3) DASHBOARD.—The Secretary shall publish on the website of the Department a monthly report that includes, for each application received under the pilot program—

(A) the type of eligible entity that submitted the application;

(B) the location of each potential project described in the application;

(C) a brief description of the assistance requested;

(D) the date on which the Secretary received the application; and

(E) the date on which the Secretary provided the notice of approval or disapproval under paragraph (2)(C)(i).

(e) EXPERTS.—An eligible entity that receives assistance under the pilot program may retain the services of an expert for any phase of a project carried out using the assistance, including project development, regardless of whether the expert is retained by the Secretary under subsection (c).

(f) FUNDING.—

(1) IN GENERAL.—For each of fiscal years 2022 through 2026, the Secretary may use to carry out the pilot program, including to retain the services of expert firms under subsection (c), any amount made available to the Secretary to provide credit assistance under an eligible program that is not otherwise obligated, subject to paragraph (2).

(2) LIMITATION.—The amount used under paragraph (1) to carry out the pilot program shall be not more than—

(A) $1,600,000 for fiscal year 2022;

(B) $1,800,000 for fiscal year 2023;

(C) $2,000,000 for fiscal year 2024;

(D) $2,200,000 for fiscal year 2025; and

(E) $2,400,000 for fiscal year 2026.

(3) GEOGRAPHICAL DISTRIBUTION.—Not more than 20 percent of the funds made available to carry out the pilot program for a fiscal year may be used for projects in a single State during that fiscal year.

(g) SUNSET.—The pilot program shall terminate on the date that is 5 years after the date of enactment of this Act.

(h) NONAPPLICABILITY.—Nothing in this section limits the ability of the Build America Bureau or the Secretary to establish or carry out any other assistance program under title 23 or title 49, United States Code.

(i) ADMINISTRATION BY BUILD AMERICA BUREAU.—Section 116(d)(1) of title 49, United States Code (as amended by section 21101(d)(4)), is amended by adding at the end the following:

"(D) The Rural and Tribal Assistance Pilot Program established under section 21205(b)(1) of the Surface Transportation Investment Act of 2021.".

Subtitle C—Railroad Rehabilitation and Improvement Financing Reforms

SEC. 21301. RRIF CODIFICATION AND REFORMS.

(a) CODIFICATION OF TITLE V OF THE RAILROAD REVITALIZATION AND REGULATORY REFORM ACT OF 1976.—Part B of subtitle V of title 49, United States Code, is amended—

AMERICAN OVERSIGHT

(1) by inserting after chapter 223 the following chapter analysis:

"22406. Authorization of appropriations.";

(2) by inserting after the chapter analysis the following section headings:

"§ 22401. Definitions

"§ 22402. Direct loans and loan guarantees

"§ 22403. Administration of direct loans and loan guarantees

"§ 22404. Employee protection";

(3) by inserting after the section heading for section 22401, as added by paragraph (2), the text of section 501 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821);

(4) by inserting after the section heading for section 22402, as added by paragraph (2), the text of section 502 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 822);

(5) by inserting after the section heading for section 22403, as added by paragraph (2), the text of section 503 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 823); and

(6) by inserting after the section heading for section 22404, as added by paragraph (2), the text of section 504 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 836).

(b) CONFORMING REPEALS.—

(1) REPEALS.—

(A) Sections 501, 502, 503, and 504 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821, 822, 823, and 836) are repealed.

(B) Section 9003(j) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (45 U.S.C. 822 note) is repealed.

(2) SAVINGS PROVISION.—The repeals under paragraph (1) shall not affect the rights and duties that matured under the repealed sections, the penalties that were incurred under such sections, or any proceeding authorized under any such section that commenced before the date of enactment of this Act.

(c) DEFINITIONS.—

(1) HEADINGS.—Section 22401 of title 49, United States Code, as added by subsection (a)(2), and amended by subsection (a)(3), is further amended—

(A) in paragraph (1)—

(i) by striking "(1)(A) The" and inserting the following:

"(1) COST.—

"(A) The"; and

AMERICAN OVERSIGHT

(ii) by indenting subparagraphs (B) through (F) appropriately; and

(B) in each of paragraphs (2) through (14), by inserting a paragraph heading, the text of which is comprised of the term defined in the paragraph.

(2) OTHER TECHNICAL AMENDMENTS.—Section 22401 of title 49, United States Code, as added by subsection (a)(2), and amended by subsection (a)(3) and paragraph (1) of this subsection, is further amended—

(A) in the matter preceding paragraph (1), by striking "For purposes of this title:" and inserting "In this chapter:";

(B) in paragraph (11), by striking "under this title" and inserting "under this chapter";

(C) by amending paragraph (12) to read as follows: "(12) RAILROAD.—The term 'railroad' includes—

"(A) any railroad or railroad carrier (as such terms are defined in section 20102); and

"(B) any rail carrier (as defined in section 24102).";

(D) by redesignating paragraph (14) as paragraph (15); and

(E) by inserting after paragraph (13) the following: "(14) SECRETARY.—The term 'Secretary' means the Secretary of Transportation.".

(d) DIRECT LOANS AND LOAN GUARANTEES.—Section 22402 of title 49, United States Code, as added by subsection (a)(2), and amended by subsection (a)(4), is further amended—

(1) in subsection (a)—

(A) in paragraph (2), by inserting "entities implementing" before "interstate compacts";

(B) in paragraph (5)—

(i) by inserting "entities participating in" before "joint ventures"; and

(ii) by striking "and" at the end; and

(C) by striking paragraph (6) and inserting the following:

"(6) limited option freight shippers that own or operate a plant or other facility, solely for the purpose of constructing a rail connection between a plant or facility and a railroad; and

"(7) private entities with controlling ownership in 1 or more freight railroads other than Class I carriers.";

(2) in subsection (b)—

(A) by amending paragraph (1) to read as follows: "(1) IN GENERAL.—Direct loans and loan guarantees authorized under this section shall be used—

"(A) to acquire, improve, or rehabilitate intermodal or rail equipment or facilities, including track, components of track, cuts and fills, stations, tunnels, bridges, yards, buildings, and shops, and to finance costs related to those activities, including pre-construction costs;

"(B) to develop or establish new intermodal or railroad facilities;

"(C) to develop landside port infrastructure for seaports serviced by rail;

"(D) to refinance outstanding debt incurred for the purposes described in subparagraph (A) , (B), or (C);

AMERICAN OVERSIGHT

"(E) to reimburse planning, permitting, and design expenses relating to activities described in subparagraph (A), (B), or (C); or

"(F) to finance economic development, including commercial and residential development, and related infrastructure and activities, that—

"(i) incorporates private investment of greater than 20 percent of total project costs;

"(ii) is physically connected to, or is within ½ mile of, a fixed guideway transit station, an intercity bus station, a passenger rail station, or a multimodal station, provided that the location includes service by a railroad;

"(iii) demonstrates the ability of the applicant to commence the contracting process for construction not later than 90 days after the date on which the direct loan or loan guarantee is obligated for the project under this chapter; and

"(iv) demonstrates the ability to generate new revenue for the relevant passenger rail station or service by increasing ridership, increasing tenant lease payments, or carrying out other activities that generate revenue exceeding costs."; and

(B) by striking paragraph (3);

(3) in subsection (c)—

(A) in paragraph (1), by striking "of title 49, United States Code"; and

(B) in paragraph (5), by striking "title 49, United States Code," and inserting "this title";

(4) in subsection (e), by amending paragraph (1) to read as follows:

"(1) DIRECT LOANS.—The interest rate on a direct loan under this section shall be not less than the yield on United States Treasury securities of a similar maturity to the maturity of the secured loan on the date of execution of the loan agreement.";

(5) in subsection (f)—

(A) in paragraph (3)—

(i) in the matter preceding subparagraph (A)—

(I) by striking "An applicant may propose and" and inserting "Upon receipt of a proposal from an applicant under this section,"; and

(II) by striking "tangible asset" and inserting "collateral described in paragraph (6)";

(ii) in subparagraph (B)(ii), by inserting ", including operating or tenant charges, facility rents, or other fees paid by transportation service providers or operators for access to, or the use of, infrastructure, including rail lines, bridges, tunnels, yards, or stations" after "user fees";

(iii) in subparagraph (C), by striking "$75,000,000" and inserting "$150,000,000"; and

(iv) by adding at the end the following:

"(D) Revenue from projected freight or passenger demand for the project based on regionally developed economic forecasts, including projections of any modal diversion resulting from the project."; and

AMERICAN OVERSIGHT

(B) by adding at the end the following:

"(5) COHORTS OF LOANS.—Subject to the availability of funds appropriated by Congress under section 22406(a)(2), for any direct loan issued before the date of enactment of the Fixing America's Surface Transportation Act (Public Law 114–94) pursuant to sections 501 through 504 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94-210), the Secretary shall repay the credit risk premiums of such loan, with interest accrued thereon, not later than—

"(A) 60 days after the date of enactment of the Surface Transportation Investment Act of 2021 if the borrower has satisfied all obligations attached to such loan; or

"(B) if the borrower has not yet satisfied all obligations attached to such loan, 60 days after the date on which all obligations attached to such loan have been satisfied.

"(6) COLLATERAL.—

"(A) TYPES OF COLLATERAL.—An applicant or infrastructure partner may propose tangible and intangible assets as collateral, exclusive of goodwill. The Secretary, after evaluating each such asset—

"(i) shall accept a net liquidation value of collateral; and

"(ii) shall consider and may accept—

"(I) the market value of collateral; or

"(II) in the case of a blanket pledge or assignment of an entire operating asset or basket of assets as collateral, the market value of assets, or, the market value of the going concern, considering—

"(aa) inclusion in the pledge of all the assets necessary for independent operational utility of the collateral, including tangible assets such as real property, track and structure, motive power, equipment and rolling stock, stations, systems and maintenance facilities and intangible assets such as long-term shipping agreements, easements, leases and access rights such as for trackage and haulage;

"(bb) interchange commitments; and

"(cc) the value of the asset as determined through the cost or market approaches, or the market value of the going concern, with the latter considering discounted cash flows for a period not to exceed the term of the direct loan or loan guarantee.

"(B) APPRAISAL STANDARDS.—In evaluating appraisals of collateral under subparagraph (A), the Secretary shall consider—

"(i) adherence to the substance and principles of the Uniform Standards of Professional Appraisal Practice, as developed by the Appraisal Standards Board of the Appraisal Foundation; and

"(ii) the qualifications of the appraisers to value the type of collateral offered.

"(7) REPAYMENT OF CREDIT RISK PREMIUMS.—The Secretary shall return credit risk premiums paid, and interest accrued

AMERICAN OVERSIGHT

on such premiums, to the original source when all obligations of a loan or loan guarantee have been satisfied. This paragraph applies to any project that has been granted assistance under this section after the date of enactment of the Surface Transportation Investment Act of 2021.";

(6) in subsection (g), by amending paragraph (1) the read as follows:

"(1) repayment of the obligation is required to be made within a term that is not longer than the shorter of—

"(A) 75 years after the date of substantial completion of the project;

"(B) the estimated useful life of the rail equipment or facilities to be acquired, rehabilitated, improved, developed, or established, subject to an adequate determination of long-term risk; or

"(C) for projects determined to have an estimated useful life that is longer than 35 years, the period that is equal to the sum of—

"(i) 35 years; and

"(ii) the product of—

"(I) the difference between the estimated useful life and 35 years; multiplied by

"(II) 75 percent.";

(7) in subsection (h)—

(A) in paragraph (3)—

(i) in subparagraph (A)—

(I) by striking "of title 49, United States Code";

(II) by striking "the National Railroad Passenger Corporation" and inserting "Amtrak"; and

(III) by striking "of that title"; and

(ii) in subparagraph (B), by striking "section 504 of this Act" and inserting "section 22404"; and

(B) in paragraph (4), by striking "(b)(1)(E)" and inserting "(b)(1)(F)";

(8) in subsection (i)—

(A) by amending paragraph (4) to read as follows:

"(4) STREAMLINED APPLICATION REVIEW PROCESS.—

"(A) IN GENERAL.—Not later than 180 days after the date of enactment of the Surface Transportation Investment Act of 2021, the Secretary shall implement procedures and measures to economize and make available an streamlined application process or processes at the request of applicants seeking loans or loan guarantees.

"(B) CRITERIA.—Applicants seeking loans and loan guarantees under this section shall—

"(i) seek a total loan or loan guarantee value not exceeding $150,000,000;

"(ii) meet eligible project purposes described in subparagraphs (A) and (B) of subsection (b)(1); and

"(iii) meet other criteria considered appropriate by the Secretary, in consultation with the Council on Credit and Finance of the Department of Transportation.

"(C) EXPEDITED CREDIT REVIEW.—The total period between the submission of an application and the approval or disapproval of an application for a direct loan or loan guarantee under this paragraph may not exceed 90 days.

AMERICAN OVERSIGHT

If an application review conducted under this paragraph exceeds 90 days, the Secretary shall—

"(i) provide written notice to the applicant, including a justification for the delay and updated estimate of the time needed for approval or disapproval; and

"(ii) publish the notice on the dashboard described in paragraph (5).";

(B) in paragraph (5)—

(i) in subparagraph (E), by striking "and" at the end;

(ii) in subparagraph (F), by adding "; and" at the end; and

(iii) by adding at the end the following:

"(G) whether the project utilized the streamlined application process under paragraph (4)."; and

(C) by adding at the end the following:

"(6) CREDITWORTHINESS REVIEW STATUS.—

"(A) IN GENERAL.—The Secretary shall maintain status information related to each application for a loan or loan guarantee, which shall be provided to the applicant upon request, including—

"(i) the total value of the proposed loan or loan guarantee;

"(ii) the name of the applicant or applicants submitting the application;

"(iii) the proposed capital structure of the project to which the loan or loan guarantee would be applied, including the proposed Federal and non-Federal shares of the total project cost;

"(iv) the type of activity to receive credit assistance, including whether the project is new construction, the rehabilitation of existing rail equipment or facilities, or the refinancing an existing loan or loan guarantee;

"(v) if a deferred payment is proposed, the length of such deferment;

"(vi) the credit rating or ratings provided for the applicant;

"(vii) if other credit instruments are involved, the proposed subordination relationship and a description of such other credit instruments;

"(viii) a schedule for the readiness of proposed investments for financing;

"(ix) a description of any Federal permits required, including under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and any waivers under section 5323(j) (commonly known as the 'Buy America Act');

"(x) other characteristics of the proposed activity to be financed, borrower, key agreements, or the nature of the credit that the Secretary considers to be fundamental to the creditworthiness review;

"(xi) the status of the application in the pre-application review and selection process;

"(xii) the cumulative amounts paid by the Secretary to outside advisors related to the application, including financial and legal advisors;

AMERICAN OVERSIGHT

"(xiii) a description of the key rating factors used by the Secretary to determine credit risk, including—

"(I) the factors used to determine risk for the proposed application;

"(II) an adjectival risk rating for each identified factor, ranked as either low, moderate, or high;

"(xiv) a nonbinding estimate of the credit risk premium, which may be in the form of—

"(I) a range, based on the assessment of risk factors described in clause (xiii); or

"(II) a justification for why the estimate of the credit risk premium cannot be determined based on available information; and

"(xv) a description of the key information the Secretary needs from the applicant to complete the credit review process and make a final determination of the credit risk premium.

"(B) REPORT UPON REQUEST.—The Secretary shall provide the information described in subparagraph (A) not later than 30 days after a request from the applicant.

"(C) EXCEPTION.—Applications processed using the streamlined application review process under paragraph (4) are not subject to the requirements under this paragraph.";

(9) in subsection (l)(2)(A)(iii), by striking "under this title" and inserting "under this chapter";

(10) in subsection (m)(1), by striking "under this title" and inserting "under this chapter"; and

(11) by adding at the end the following:

"(n) NON-FEDERAL SHARE.—The proceeds of a loan provided under this section may be used as the non-Federal share of project costs for any grant program administered by the Secretary if such loan is repayable from non-Federal funds.".

(e) ADMINISTRATION OF DIRECT LOANS AND LOAN GUARANTEES.—Section 22403 of title 49, United States Code, as added by subsection (a)(2), and amended by subsection (a)(5), is further amended—

(1) in subsection (a)—

(A) by striking "The Secretary shall" and inserting the following:

"(1) IN GENERAL.—The Secretary shall";

(B) in paragraph (1), as designated by subparagraph (A), by striking "section 502" and inserting "section 22402"; and

(C) by adding at the end the following:

"(2) DOCUMENTATION.—An applicant meeting the size standard for small business concerns established under section 3(a)(2) of the Small Business Act (15 U.S.C. 632(a)(2)) may provide unaudited financial statements as documentation of historical financial information if such statements are accompanied by the applicant's Federal tax returns and Internal Revenue Service tax verifications for the corresponding years.";

(2) in subsection (d)(3), by striking "section 502(f)" and inserting "section 22402(f)";

(3) in subsection (l)(3)(B), by striking "serving a direct loan" and inserting "servicing a direct loan"; and

(4) in each of subsections (b) through (m), as applicable—

AMERICAN OVERSIGHT

(A) by striking "section 502" each place it appears and inserting "section 22402"; and

(B) by striking "this title" each place it appears and inserting "this chapter".

(f) EMPLOYEE PROTECTION.—Section 22404 of title 49, United States Code, as added by subsection (a)(2), and amended by subsection (a)(6), is further amended—

(1) in subsection (a)—

(A) by striking "not otherwise protected under title V of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 771 et seq.),";

(B) by striking "under this title" and inserting "under this chapter";

(C) by striking "within 120 days after the date of enactment of this title" and inserting "not later than 120 days after February 5, 1976"; and

(D) by striking "within 150 days after the date of enactment of this title" and inserting "not later than 150 days after February 5, 1976";

(2) in subsection (b)—

(A) in the matter preceding paragraph (1)—

(i) by striking "applicable financial assistance under this title" and inserting "applicable financial assistance under this chapter"; and

(ii) by striking "from financial assistance under this title" and inserting "from financial assistance under this chapter";

(B) in paragraph (3), by striking "under this title" and inserting "under this chapter"; and

(C) in paragraph (4), by striking "to this title" and inserting "to this chapter"; and

(3) in subsection (c), by striking "to this title" and inserting "to this chapter".

(g) SUBSTANTIVE CRITERIA AND STANDARDS.—Chapter 224 of title 49, United States Code, as added by subsection (a), and amended by subsections (c) through (f), is further amended by adding at the end the following:

"§ 22405. Substantive criteria and standards

"The Secretary shall—

"(1) publish in the Federal Register and post on a website of the Department of Transportation the substantive criteria and standards used by the Secretary to determine whether to approve or disapprove applications submitted under section 22402; and

"(2) ensure that adequate procedures and guidelines are in place to permit the filing of complete applications not later than 30 days after the publication referred to in paragraph (1).".

(h) AUTHORIZATION OF APPROPRIATIONS.—Chapter 224 of title 49, United States Code, as added by subsection (a), and amended by subsections (c) through (g), is further amended by adding at the end the following:

"§ 22406. Authorization of appropriations.

"(a) AUTHORIZATION.—

AMERICAN OVERSIGHT

"(1) IN GENERAL.—There is authorized to be appropriated for credit assistance under this chapter, which shall be provided at the discretion of the Secretary, $50,000,000 for each of fiscal years 2022 through 2026.

"(2) REFUND OF PREMIUM.—There is authorized to be appropriated to the Secretary $70,000,000 to repay the credit risk premium in accordance with section 22402(f)(5).

"(3) AVAILABILITY.—Amounts appropriated pursuant to this subsection shall remain available until expended.

"(b) USE OF FUNDS.—

"(1) IN GENERAL.—Credit assistance provided under subsection (a) may not exceed $20,000,000 for any loan or loan guarantee.

"(2) ADMINISTRATIVE COSTS.—Not less than 3 percent of the amounts appropriated pursuant to subsection (a) in each fiscal year shall be made available to the Secretary for use in place of charges collected under section 22403(l)(1) for passenger railroads and freight railroads other than Class I carriers.

"(3) SHORT LINE SET-ASIDE.—Not less than 50 percent of the amounts appropriated pursuant to subsection (a)(1) for each fiscal year shall be set aside for freight railroads other than Class I carriers.".

(i) CLERICAL AMENDMENT.—The analysis for title 49, United States Code, is amended by inserting after the item relating to chapter 223 the following:

"224 . Railroad rehabilitation and improvement financing .....22401".

(j) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) NATIONAL TRAILS SYSTEM ACT.—Section 8(d) of the National Trails System Act (16 U.S.C. 1247(d)) is amended by inserting "(45 U.S.C. 801 et seq.) and chapter 224 of title 49, United States Code" after "1976".

(2) PASSENGER RAIL REFORM AND INVESTMENT ACT.—Section 11315(c) of the Passenger Rail Reform and Investment Act of 2015 (23 U.S.C. 322 note; Public Law 114–94) is amended by striking "sections 502 and 503 of the Railroad Revitalization and Regulatory Reform Act of 1976" and inserting "sections 22402 and 22403 of title 49, United States Code".

(3) PROVISIONS CLASSIFIED IN TITLE 45, UNITED STATES CODE.—

(A) RAILROAD REVITALIZATION AND REGULATORY REFORM ACT OF 1976.—Section 101 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 801) is amended—

(i) in subsection (a), in the matter preceding paragraph (1), by striking "It is the purpose of the Congress in this Act to" and inserting "The purpose of this Act and chapter 224 of title 49, United States Code, is to"; and

(ii) in subsection (b), in the matter preceding paragraph (1), by striking "It is declared to be the policy of the Congress in this Act" and inserting "The policy of this Act and chapter 224 of title 49, United States Code, is".

(B) RAILROAD INFRASTRUCTURE FINANCING IMPROVEMENT ACT.—The Railroad Infrastructure Financing

AMERICAN OVERSIGHT

Improvement Act (subtitle F of title XI of Public Law 114–94) is amended—

(i) in section 11607(b) (45 U.S.C. 821 note), by striking "All provisions under sections 502 through 504 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 801 et seq.)" and inserting "All provisions under section 22402 through 22404 of title 49, United States Code,"; and

(ii) in section 11610(b) (45 U.S.C. 821 note), by striking "section 502(f) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 822(f)), as amended by section 11607 of this Act" and inserting "section 22402(f) of title 49, United States Code".

(C) TRANSPORTATION EQUITY ACT FOR THE 21ST CENTURY.—Section 7203(b)(2) of the Transportation Equity Act for the 21st Century (Public Law 105–178; 45 U.S.C. 821 note) is amended by striking "title V of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821 et seq.)" and inserting "chapter 224 of title 49, United States Code,".

(D) HAMM ALERT MARITIME SAFETY ACT OF 2018.—Section 212(d)(1) of Hamm Alert Maritime Safety Act of 2018 (title II of Public Law 115–265; 45 U.S.C. 822 note) is amended, in the matter preceding subparagraph (A), by striking "for purposes of section 502(f)(4) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 822(f)(4))" and inserting "for purposes of section 22402 of title 49, United States Code".

(E) MILWAUKEE RAILROAD RESTRUCTURING ACT.—Section 15(f) of the Milwaukee Railroad Restructuring Act (45 U.S.C. 914(f)) is amended by striking "Section 516 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 836)" and inserting "Section 22404 of title 49, United States Code,".

(F) ROCK ISLAND RAILROAD TRANSITION AND EMPLOYEE ASSISTANCE ACT.—Section 104(b) of the Rock Island Railroad Transition and Employee Assistance Act (45 U.S.C. 1003(b)) is amended—

(i) in paragraph (1)—

(I) by striking "title V of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821 et seq.)" and inserting "chapter 224 of title 49, United States Code,"; and

(II) by striking "and section 18(b) of the Milwaukee Railroad Restructuring Act"; and

(ii) in paragraph (2), by striking "title V of the Railroad Revitalization and Regulatory Reform Act of 1976, and section 516 of such Act (45 U.S.C. 836)" and inserting "chapter 224 of title 49, United States Code, including section 22404 of such title,".

(4) TITLE 49.—

(A) NATIONAL SURFACE TRANSPORTATION AND INNOVATIVE FINANCE BUREAU.—Section 116(d)(1)(B) of title 49, United States Code, is amended by striking "sections 501 through 503 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821–823)" and inserting "sections 22401 through 22403".

AMERICAN OVERSIGHT

(B) PROHIBITED DISCRIMINATION.—Section 306(b) of title 49, United States Code, is amended—

(i) by striking "chapter 221 or 249 of this title," and inserting "chapter 221, 224, or 249 of this title, or"; and

(ii) by striking ", or title V of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821 et seq.)".

(C) PASSENGER RAIL REFORM AND INVESTMENT ACT OF 2015.—Section 11311(d) of the Passenger Rail Reform and Investment Act of 2015 (Public Law 114–94; 49 U.S.C. 20101 note) is amended by striking ", and section 502 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 822)".

(D) GRANT CONDITIONS.—Section 22905(c)(2)(B) of title 49, United States Code, is amended by striking "section 504 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 836)" and inserting "section 22404".

(E) PASSENGER RAIL INVESTMENT AND IMPROVEMENT ACT OF 2008.—Section 205(g) of the Passenger Rail Investment and Improvement Act of 2008 (division B of Public Law 110–432; 49 U.S.C. 24101 note) is amended by striking "title V of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821 et seq.)" and inserting "chapter 224 of title 49, United States Code".

(F) AMTRAK AUTHORITY.—Section 24903 of title 49, United States Code, is amended—

(i) in subsection (a)(6), by striking "and the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 801 et seq.)" and inserting ", the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 801 et seq.), and chapter 224 of this title"; and

(ii) in subsection (c)(2), by striking "and the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 801 et seq.)" and inserting ", the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 801 et seq.), and chapter 224 of this title".

SEC. 21302. SUBSTANTIVE CRITERIA AND STANDARDS.

Not later than 180 days after the date of enactment of this Act, the Secretary shall update the publicly available credit program guide in accordance with the provisions of chapter 224 of title 49, United States Code, as added by section 21301.

SEC. 21303. SEMIANNUAL REPORT ON TRANSIT-ORIENTED DEVELOPMENT ELIGIBILITY.

Not later than 6 months after the date of enactment of this Act, and every 6 months thereafter, the Secretary shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that identifies—

(1) the number of applications submitted to the Department for a direct loan or loan guarantee under section 22402(b)(1)(E) of title 49, United States Code, as amended by section 21301;

(2) the number of such loans or loan guarantees that were provided to the applicants; and

AMERICAN OVERSIGHT

(3) for each such application, the reasons for providing or declining to provide the requested loan or loan guarantee.

TITLE II—RAIL

SEC. 22001. SHORT TITLE.

This title may be cited as the "Passenger Rail Expansion and Rail Safety Act of 2021".

Subtitle A—Authorization of Appropriations

SEC. 22101. GRANTS TO AMTRAK.

(a) NORTHEAST CORRIDOR.—There are authorized to be appropriated to the Secretary for grants to Amtrak for activities associated with the Northeast Corridor the following amounts:

(1) For fiscal year 2022, $1,570,000,000.
(2) For fiscal year 2023, $1,100,000,000.
(3) For fiscal year 2024, $1,200,000,000.
(4) For fiscal year 2025, $1,300,000,000.
(5) For fiscal year 2026, $1,400,000,000.

(b) NATIONAL NETWORK.—There are authorized to be appropriated to the Secretary for grants to Amtrak for activities associated with the National Network the following amounts:

(1) For fiscal year 2022, $2,300,000,000.
(2) For fiscal year 2023, $2,200,000,000.
(3) For fiscal year 2024, $2,450,000,000.
(4) For fiscal year 2025, $2,700,000,000.
(5) For fiscal year 2026, $3,000,000,000.

(c) OVERSIGHT.—The Secretary may withhold up to 0.5 percent from the amount appropriated for each fiscal year pursuant to subsections (a) and (b) for the costs of oversight of Amtrak.

(d) STATE-SUPPORTED ROUTE COMMITTEE.—The Secretary may withhold up to $3,000,000 from the amount appropriated for each fiscal year pursuant to subsection (b) for use by the State-Supported Route Committee established under section 24712(a) of title 49, United States Code.

(e) NORTHEAST CORRIDOR COMMISSION.—The Secretary may withhold up to $6,000,000 from the amount appropriated for each fiscal year pursuant to subsection (a) for use by the Northeast Corridor Commission established under section 24905(a) of title 49, United States Code.

(f) INTERSTATE RAIL COMPACTS.—The Secretary may withhold up to $3,000,000 from the amount appropriated for each fiscal year pursuant to subsection (b) for grants authorized under section 22910 of title 49, United States Code.

(g) ACCESSIBILITY UPGRADES.—

(1) IN GENERAL.—The Secretary shall withhold $50,000,000 from the amount appropriated for each fiscal year pursuant to subsections (a) and (b) for grants to assist Amtrak in financing capital projects to upgrade the accessibility of the national rail passenger transportation system by increasing the number of existing facilities that are compliant with the requirements under the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) until the Secretary determines

AMERICAN OVERSIGHT

Amtrak's existing facilities are in compliance with such requirements.

(2) SAVINGS PROVISION.—Nothing in paragraph (1) may be construed to prevent Amtrak from using additional funds appropriated pursuant to this section to carry out the activities authorized under such paragraph.

(h) CORRIDOR DEVELOPMENT.—In addition to the activities authorized under subsection (b), Amtrak may use up to 10 percent of the amounts appropriated under subsection (b) in each fiscal year to support Amtrak-operated corridors selected under section 22306 for—

(1) planning and capital costs; and

(2) operating assistance consistent with the Federal funding limitations under section 22908 of title 49, United States Code.

SEC. 22102. FEDERAL RAILROAD ADMINISTRATION.

(a) SAFETY AND OPERATIONS.—There are authorized to be appropriated to the Secretary for the operations of the Federal Railroad Administration and to carry out railroad safety activities the following amounts:

(1) For fiscal year 2022, $248,000,000.
(2) For fiscal year 2023, $254,000,000.
(3) For fiscal year 2024, $263,000,000.
(4) For fiscal year 2025, $271,000,000.
(5) For fiscal year 2026, $279,000,000.

(b) RAILROAD RESEARCH AND DEVELOPMENT.—There are authorized to be appropriated to the Secretary for the use of the Federal Railroad Administration for activities associated with railroad research and development the following amounts:

(1) For fiscal year 2022, $43,000,000.
(2) For fiscal year 2023, $44,000,000.
(3) For fiscal year 2024, $45,000,000.
(4) For fiscal year 2025, $46,000,000.
(5) For fiscal year 2026, $47,000,000.

(c) TRANSPORTATION TECHNOLOGY CENTER.—The Secretary may withhold up to $3,000,000 from the amount appropriated for each fiscal year pursuant to subsection (b) for activities authorized under section 20108(d) of title 49, United States Code.

(d) RAIL RESEARCH AND DEVELOPMENT CENTER OF EXCELLENCE.—The Secretary may withhold up to 10 percent of the amount appropriated for each fiscal year under subsection (b) for grants authorized under section 20108(j) of title 49, United States Code.

SEC. 22103. CONSOLIDATED RAIL INFRASTRUCTURE AND SAFETY IMPROVEMENTS GRANTS.

(a) IN GENERAL.—There is authorized to be appropriated to the Secretary for grants under section 22907 of title 49, United States Code, $1,000,000,000 for each of fiscal years 2022 through 2026.

(b) OVERSIGHT.—The Secretary may withhold up to 2 percent from the amount appropriated for each fiscal year pursuant to subsection (a) for the costs of project management oversight of grants authorized under title 49, United States Code.

SEC. 22104. RAILROAD CROSSING ELIMINATION PROGRAM.

(a) IN GENERAL.—There is authorized to be appropriated to the Secretary for grants under section 22909 of title 49, United

AMERICAN OVERSIGHT

States Code, as added by section 22305, $500,000,000 for each of fiscal years 2022 through 2026.

(b) PLANNING PROJECTS.—Not less than 3 percent of the amount appropriated in each fiscal year pursuant to subsection (a) year shall be used for planning projects described in section 22909(d)(6) of title 49, United States Code.

(c) HIGHWAY-RAIL GRADE CROSSING SAFETY INFORMATION AND EDUCATION PROGRAM.—Of the amount appropriated under subsection (a) in each fiscal year, 0.25 percent shall be used for contracts or grants to carry out a highway-rail grade crossing safety information and education program—

(1) to help prevent and reduce pedestrian, motor vehicle, and other accidents, incidents, injuries, and fatalities; and

(2) to improve awareness along railroad rights-of-way and at highway-rail grade crossings.

(d) OVERSIGHT.—The Secretary may withhold up to 2 percent from the amount appropriated for each fiscal year pursuant to subsection (a) for the costs of project management oversight of grants authorized under title 49, United States Code.

SEC. 22105. RESTORATION AND ENHANCEMENT GRANTS.

(a) IN GENERAL.—There is authorized to be appropriated to the Secretary for grants under section 22908 of title 49, United States Code, $50,000,000 for each of fiscal years 2022 through 2026.

(b) OVERSIGHT.—The Secretary may withhold up to 1 percent of the amount appropriated for each fiscal year pursuant to subsection (a) for the costs of project management oversight of grants authorized under title 49, United States Code.

SEC. 22106. FEDERAL-STATE PARTNERSHIP FOR INTERCITY PASSENGER RAIL GRANTS.

(a) IN GENERAL.—There is authorized to be appropriated to the Secretary for grants under section 24911 of title 49, United States Code, $1,500,000,000 for each of fiscal years 2022 through 2026.

(b) OVERSIGHT.—The Secretary may withhold up to 2 percent of the amount appropriated under subsection (a) for the costs of project management oversight of grants authorized under title 49, United States Code.

SEC. 22107. AMTRAK OFFICE OF INSPECTOR GENERAL.

There are authorized to be appropriated to the Office of Inspector General of Amtrak the following amounts:

(1) For fiscal year 2022, $26,500,000.
(2) For fiscal year 2023, $27,000,000.
(3) For fiscal year 2024, $27,500,000.
(4) For fiscal year 2025, $28,000,000.
(5) For fiscal year 2026, $28,500,000.

Subtitle B—Amtrak Reforms

SEC. 22201. AMTRAK FINDINGS, MISSION, AND GOALS.

(a) FINDINGS.—Section 24101(a) of title 49, United States Code, is amended—

(1) in paragraph (1), by striking "between crowded urban areas and in other areas of" and inserting "throughout";

AMERICAN OVERSIGHT

(2) in paragraph (4), by striking "to Amtrak to achieve a performance level sufficient to justify expending public money" and inserting "in order to meet the intercity passenger rail needs of the United States";

(3) in paragraph (5)—

(A) by inserting "intercity passenger and" before "commuter"; and

(B) by inserting "and rural" after "major urban;" and

(4) by adding at the end the following:

"(9) Long-distance routes are valuable resources of the United States that are used by rural and urban communities.".

(b) GOALS.—Section 24101(c) of title 49, United States Code, is amended—

(1) by amending paragraph (1) to read as follows:

"(1) use its best business judgment in acting to maximize the benefits of Federal investments, including—

"(A) offering competitive fares;

"(B) increasing revenue from the transportation of mail and express;

"(C) offering food service that meets the needs of its customers;

"(D) improving its contracts with rail carriers over whose tracks Amtrak operates;

"(E) controlling or reducing management and operating costs; and

"(F) providing economic benefits to the communities it serves;";

(2) in paragraph (11), by striking "and" at the end;

(3) in paragraph (12), by striking the period at the end and inserting "; and"; and

(4) by adding at the end the following:

"(13) support and maintain established long-distance routes to provide value to the Nation by serving customers throughout the United States and connecting urban and rural communities.".

(c) INCREASING REVENUES.—Section 24101(d) of title 49, United States Code, is amended to read as follows:

"(d) INCREASING REVENUES.—Amtrak is encouraged to make agreements with private sector entities and to undertake initiatives that are consistent with good business judgment and designed to generate additional revenues to advance the goals described in subsection (c).".

SEC. 22202. COMPOSITION OF AMTRAK'S BOARD OF DIRECTORS.

(a) SELECTION; COMPOSITION; CHAIR.—Section 24302(a) of title 49, United States Code, is amended—

(1) in paragraph (1)—

(A) in subparagraph (B), by striking "President" and inserting "Chief Executive Officer"; and

(B) in subparagraph (C), by inserting ", at least 1 of whom shall be an individual with a disability (as defined in section 3 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102)) who has a demonstrated history of, or experience with, accessibility, mobility, and inclusive transportation in passenger rail or commuter rail" before the period at the end;

AMERICAN OVERSIGHT

(2) in paragraph (2), by striking "and try to provide adequate and balanced representation of the major geographic regions of the United States served by Amtrak";

(3) by redesignating paragraph (5) as paragraph (7); and

(4) by striking paragraph (4) and inserting the following:

"(4) Of the individuals appointed pursuant to paragraph (1)(C)—

"(A) 2 individuals shall reside in or near a location served by a regularly scheduled Amtrak service along the Northeast Corridor;

"(B) 4 individuals shall reside in or near regions of the United States that are geographically distributed outside of the Northeast Corridor, of whom—

"(i) 2 individuals shall reside in States served by a long-distance route operated by Amtrak;

"(ii) 2 individuals shall reside in States served by a State-supported route operated by Amtrak; and

"(iii) an individual who resides in a State that is served by a State-supported route and a long-distance route may be appointed to serve either position referred to in clauses (i) and (ii);

"(C) 2 individuals shall reside either—

"(i) in or near a location served by a regularly scheduled Amtrak service on the Northeast Corridor; or

"(ii) in a State served by long-distance or a State-supported route; and

"(D) each individual appointed to the Board pursuant to this paragraph may only fill 1 of the allocations set forth in subparagraphs (A) through (C).

"(5) The Board shall elect a chairperson and vice chairperson, other than the Chief Executive Officer of Amtrak, from among its membership. The vice chairperson shall act as chairperson in the absence of the chairperson.

"(6) The Board shall meet at least annually with—

"(A) representatives of Amtrak employees;

"(B) representatives of persons with disabilities; and

"(C) the general public, in an open meeting with a virtual attendance option, to discuss financial performance and service results.".

(b) RULE OF CONSTRUCTION.—None of the amendments made by subsection (a) may be construed as affecting the term of any director serving on the Amtrak Board of Directors under section 24302(a)(1)(C) of title 49, United States Code, as of the date of enactment of this Act.

SEC. 22203. STATION AGENTS.

Section 24312 of title 49, United States Code, is amended by adding at the end the following:

"(c) AVAILABILITY OF STATION AGENTS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), beginning on the date that is 1 year after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, Amtrak shall ensure that at least 1 Amtrak ticket agent is employed at each station building—

AMERICAN OVERSIGHT

"(A) that Amtrak owns, or operates service through, as part of a long-distance or Northeast Corridor passenger service route;

"(B) where at least 1 Amtrak ticket agent was employed on or after October 1, 2017; and

"(C) for which an average of 40 passengers boarded or deboarded an Amtrak train per day during all of the days in fiscal year 2017 when the station was serviced by Amtrak, regardless of the number of Amtrak trains servicing the station per day.

"(2) EXCEPTION.—Paragraph (1) shall not apply to any station building in which a commuter rail ticket agent has the authority to sell Amtrak tickets.".

SEC. 22204. INCREASING OVERSIGHT OF CHANGES TO AMTRAK LONG-DISTANCE ROUTES AND OTHER INTERCITY SERVICES.

(a) AMTRAK ANNUAL OPERATIONS REPORT.—Section 24315(a)(1) of title 49, United States Code, is amended—

(1) in subparagraph (G), by striking "and" at the end;

(2) in subparagraph (H), by adding "and" at the end; and

(3) by adding at the end the following:

"(I) any change made to a route's or service's frequency or station stops;".

(b) 5-YEAR BUSINESS LINE PLANS.—Section 24320(b)(2) of title 49, United States Code, is amended—

(1) by redesignating subparagraphs (B) through (L) as subparagraphs (C) through (M), respectively; and

(2) by inserting after subparagraph (A) the following:

"(B) a detailed description of any plans to permanently change a route's or service's frequency or station stops for the service line;".

SEC. 22205. IMPROVED OVERSIGHT OF AMTRAK ACCOUNTING.

Section 24317 of title 49, United States Code, is amended—

(1) in subsection (a)(2), by striking "and costs among Amtrak business lines" and inserting ", including Federal grant funds, and costs among Amtrak service lines";

(2) by amending subsection (b) to read as follows:

"(b) ACCOUNT STRUCTURE.—

"(1) IN GENERAL.—The Secretary of Transportation, in consultation with Amtrak, shall define, maintain, and periodically update an account structure and improvements to accounting methodologies, as necessary, to support the Northeast Corridor and the National Network.

"(2) NOTIFICATION OF SUBSTANTIVE CHANGES.—The Secretary shall notify the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Appropriations of the Senate, the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Appropriations of the House of Representatives regarding any substantive changes made to the account structure, including changes to—

"(A) the service lines described in section 24320(b)(1); and

"(B) the asset lines described in section 24320(c)(1).";

(3) in subsection (c), in the matter preceding paragraph (1), by inserting ", maintaining, and updating" after "defining";

AMERICAN OVERSIGHT

(4) in subsection (d), in the matter preceding paragraph (1), by inserting ", maintaining, and updating" after "defining";

(5) by amending subsection (e) to read as follows:

"(e) IMPLEMENTATION AND REPORTING.—

"(1) IN GENERAL.—Amtrak, in consultation with the Secretary of Transportation, shall maintain and implement any account structures and improvements defined under subsection (b) to enable Amtrak to produce sources and uses statements for each of the service lines described in section 24320(b)(1) and, as appropriate, each of the asset lines described in section 24320(c)(1), that identify sources and uses of revenues, appropriations, and transfers between accounts.

"(2) UPDATED SOURCES AND USES STATEMENTS.—Not later than 30 days after the implementation of subsection (b), and monthly thereafter, Amtrak shall submit to the Secretary of Transportation updated sources and uses statements for each of the service lines and asset lines referred to in paragraph (1). The Secretary and Amtrak may agree to a different frequency of reporting.";

(6) by striking subsection (h); and

(7) by redesignating subsection (i) as subsection (h).

SEC. 22206. IMPROVED OVERSIGHT OF AMTRAK SPENDING.

(a) ALLOCATION OF COSTS AND REVENUES.—Section 24318(a) of title 49, United States Code, is amended by striking "Not later than 180 days after the date of enactment of the Passenger Rail Reform and Investment Act of 2015,".

(b) GRANT PROCESS AND REPORTING.—Section 24319 of title 49, United States Code, is amended—

(1) in the section heading, by inserting "**and reporting**" after "**process**";

(2) by amending subsection (a) to read as follows:

"(a) PROCEDURES FOR GRANT REQUESTS.—The Secretary of Transportation shall—

"(1) establish and maintain substantive and procedural requirements, including schedules, for grant requests under this section; and

"(2) report any changes to such procedures to—

"(A) the Committee on Commerce, Science, and Transportation of the Senate;

"(B) the Committee on Appropriations of the Senate;

"(C) the Committee on Transportation and Infrastructure of the House of Representatives; and

"(D) the Committee on Appropriations of the House of Representatives.";

(3) in subsection (b), by striking "grant requests" and inserting "a grant request annually, or as additionally required,";

(4) by amending subsection (c) to read as follows:

"(c) CONTENTS.—

"(1) IN GENERAL.—Each grant request under subsection (b) shall, as applicable—

"(A) categorize and identify, by source, the Federal funds and program income that will be used for the upcoming fiscal year for each of the Northeast Corridor and National Network in 1 of the categories or subcategories set forth in paragraph (2);

AMERICAN OVERSIGHT

"(B) describe the operations, services, programs, projects, and other activities to be funded within each of the categories set forth in paragraph (2), including—

"(i) the estimated scope, schedule, and budget necessary to complete each project and program; and

"(ii) the performance measures used to quantify expected and actual project outcomes and benefits, aggregated by fiscal year, project milestone, and any other appropriate grouping; and

"(C) describe the status of efforts to improve Amtrak's safety culture.

"(2) GRANT CATEGORIES.—

"(A) OPERATING EXPENSES.—Each grant request to use Federal funds for operating expenses shall—

"(i) include estimated net operating costs not covered by other Amtrak revenue sources;

"(ii) specify Federal funding requested for each service line described in section 24320(b)(1); and

"(iii) be itemized by route.

"(B) DEBT SERVICE.—A grant request to use Federal funds for expenses related to debt, including payment of principle and interest, as allowed under section 205 of the Passenger Rail Investment and Improvement Act of 2008 (Public Law 110–432; 49 U.S.C. 24101 note).

"(C) CAPITAL.—A grant request to use Federal funds and program income for capital expenses shall include capital projects and programs primarily associated with—

"(i) normalized capital replacement programs, including regularly recurring work programs implemented on a systematic basis on classes of physical railroad assets, such as track, structures, electric traction and power systems, rolling stock, and communications and signal systems, to maintain and sustain the condition and performance of such assets to support continued railroad operations;

"(ii) improvement projects to support service and safety enhancements, including discrete projects implemented in accordance with a fixed scope, schedule, and budget that result in enhanced or new infrastructure, equipment, or facilities;

"(iii) backlog capital replacement projects, including discrete projects implemented in accordance with a fixed scope, schedule, and budget that primarily replace or rehabilitate major infrastructure assets, including tunnels, bridges, stations, and similar assets, to reduce the state of good repair backlog on the Amtrak network;

"(iv) strategic initiative projects, including discrete projects implemented in accordance with a fixed scope, schedule, and budget that primarily improve overall operational performance, lower costs, or otherwise improve Amtrak's corporate efficiency; and

"(v) statutory, regulatory, or other legally mandated projects, including discrete projects implemented in accordance with a fixed scope, schedule, and budget that enable Amtrak to fulfill specific legal or regulatory mandates.

AMERICAN OVERSIGHT

"(D) CONTINGENCY.—A grant request to use Federal funds for operating and capital expense contingency shall include—

"(i) contingency levels for specified activities and operations; and

"(ii) a process for the utilization of such contingency.

"(3) MODIFICATION OF CATEGORIES.—The Secretary of Transportation and Amtrak may jointly agree to modify the categories set forth in paragraph (2) if such modifications are necessary to improve the transparency, oversight, or delivery of projects funded through grant requests under this section.";

(5) in subsection (d)(1)(A)—

(A) by inserting "complete" after "submits a";

(B) by striking "shall complete" and inserting "shall finish"; and

(C) in clause (ii), by striking "incomplete or";

(6) in subsection (e)—

(A) in paragraph (1)—

(i) by striking "and other activities to be funded by the grant" and inserting "programs, projects, and other activities to be funded by the grant, consistent with the categories required for Amtrak in a grant request under subsection (c)(1)(A)"; and

(ii) by striking "or activities" and inserting "programs, projects, and other activities"; and

(B) in paragraph (3)—

(i) by redesignating subparagraphs (A) and (B) as subparagraphs (B) and (C), respectively; and

(ii) by inserting before subparagraph (B), as redesignated, the following:

"(A) using an otherwise allowable approach to the method prescribed for a specific project or category of projects under paragraph (2) if the Secretary and Amtrak agree that a different payment method is necessary to more successfully implement and report on an operation, service, program, project, or other activity;";

(7) by redesignating subsection (h) as subsection (j); and

(8) by inserting after subsection (g) the following:

"(h) APPLICABLE LAWS AND REGULATIONS.—

"(1) SINGLE AUDIT ACT OF 1984.—Notwithstanding section 24301(a)(3) of this title and section 7501(a)(13) of title 31, Amtrak shall be deemed a 'non-Federal entity' for purposes of chapter 75 of title 31.

"(2) REGULATIONS AND GUIDANCE.—The Secretary of Transportation may apply some or all of the requirements set forth in the regulations and guidance promulgated by the Secretary relating to the management, administration, cost principles, and audit requirements for Federal awards.

"(i) AMTRAK GRANT REPORTING.—The Secretary of Transportation shall determine the varying levels of detail and information that will be included in reports for operations, services, program, projects, program income, cash on hand, and other activities within each of the grant categories described in subsection (c)(2).".

(c) CONFORMING AMENDMENTS.—

(1) REPORTS AND AUDITS.—Section 24315(b)(1) of title 49, United States Code, is amended—

AMERICAN OVERSIGHT

(A) in subparagraph (A), by striking "the goal of section 24902(b) of this title; and" and inserting "the goal described in section 24902(a);";

(B) in subparagraph (B), by striking the period at the end and inserting "; and"; and

(C) by adding at the end the following:

"(C) shall incorporate the category described in section 24319(c)(2)(C).".

(2) CLERICAL AMENDMENT.—The analysis for chapter 243 of title 49, United States Code, is amended by striking the item relating to section 24319 and inserting the following:

"24319. Grant process and reporting.".

SEC. 22207. INCREASING SERVICE LINE AND ASSET LINE PLAN TRANSPARENCY.

(a) IN GENERAL.—Section 24320 of title 49, United States Code, is amended—

(1) in the section heading, by striking "**business line and asset plans**" and inserting "**service line and asset line plans**";

(2) in subsection (a)—

(A) in paragraph (1)—

(i) by striking "of each year" and inserting ", 2020, and biennially thereafter";

(ii) by striking "5-year business line plans and 5-year asset plans" and inserting "5-year service line plans and 5-year asset line plans"; and

(iii) by adding at the end the following: "During each year in which Amtrak is not required to submit a plan under this paragraph, Amtrak shall submit to Congress updated financial sources and uses statements and forecasts with the annual report required under section 24315(b).."; and

(B) in paragraph (2), by striking "asset plan required in" and inserting "asset line plan required under";

(3) in subsection (b)—

(A) in the subsection heading, by striking "BUSINESS" and inserting "SERVICE";

(B) in paragraph (1)—

(i) in the paragraph heading, by striking "BUSINESS" and inserting "SERVICE";

(ii) by striking "business" each place such term appears and inserting "service";

(iii) by amending subparagraph (B) to read as follows:

"(B) Amtrak State-supported train services.";

(iv) in subparagraph (C), by striking "routes" and inserting "train services"; and

(v) by adding at the end the following:

"(E) Infrastructure access services for use of Amtrak-owned or Amtrak-controlled infrastructure and facilities.";

(C) in paragraph (2)—

(i) in the paragraph heading, by striking "BUSINESS" and inserting "SERVICE";

(ii) by striking "business" each place such term appears and inserting "service";

AMERICAN OVERSIGHT

(iii) in subparagraph (A), by striking "Strategic Plan and 5-year asset plans" and inserting "5-year asset line plans";

(iv) in subparagraph (F) (as redesignated by section 22204(b)(1)), by striking "profit and loss" and inserting "sources and uses";

(v) by striking subparagraph (G) (as redesignated by section 22204(b)(1));

(vi) by redesignating subparagraphs (H) through (M) (as redesignated by section 22204(b)(1)) as subparagraphs (G) through (L), respectively; and

(vii) by amending subparagraph (I) (as so redesignated) to read as follows:

"(I) financial performance for each route, if deemed applicable by the Secretary, within each service line, including descriptions of the cash operating loss or contribution;";

(D) in paragraph (3)—

(i) in the paragraph heading, by striking "BUSINESS" and inserting "SERVICE";

(ii) by striking "business" each place such term appears and inserting "service";

(iii) by redesignating subparagraphs (A), (B), (C), and (D) as clauses (i), (ii), (iii), and (iv), respectively, and moving such clauses 2 ems to the right;

(iv) by inserting before clause (i), as redesignated, the following:

"(A) not later than 180 days after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, submit to the Secretary, for approval, a consultation process for the development of each service line plan that requires Amtrak to—";

(v) in subparagraph (A), as amended by clause (iv)—

(I) in clause (iii), as redesignated, by inserting "and submit the final service line plan required under subsection (a)(1) to the State-Supported Route Committee" before the semicolon at the end;

(II) in clause (iv), as redesignated, by inserting "and" after the semicolon at the end; and

(III) by adding at the end the following:

"(v) for the infrastructure access service line plan, consult with the Northeast Corridor Commission and other entities, as appropriate, and submit the final asset line plan under subsection (a)(1) to the Northeast Corridor Commission;"; and

(vi) by redesignating subparagraphs (E) and (F) as subparagraphs (B) and (C), respectively;

(E) by redesignating paragraph (4) as paragraph (5); and

(F) by inserting after paragraph (3)(C), as redesignated, the following:

"(4) 5-YEAR SERVICE LINE PLANS UPDATES.—Amtrak may modify the content to be included in the service line plans described in paragraph (1), upon the approval of the Secretary, if the Secretary determines that such modifications are necessary to improve the transparency, oversight, and delivery

AMERICAN OVERSIGHT

of Amtrak services and the use of Federal funds by Amtrak."; and

(4) in subsection (c)—

(A) in the subsection heading, by inserting "LINE" after "ASSET";

(B) in paragraph (1)—

(i) in the paragraph heading, by striking "CATEGORIES" and inserting "LINES";

(ii) in the matter preceding subparagraph (A), by striking "asset plan for each of the following asset categories" and inserting "asset line plan for each of the following asset lines";

(iii) by redesignating subparagraphs (A), (B), (C), and (D) as subparagraphs (B), (C), (D), and (E), respectively;

(iv) by inserting before subparagraph (B), as redesignated, the following:

"(A) Transportation, including activities and resources associated with the operation and movement of Amtrak trains, onboard services, and amenities.";

(v) in subparagraph (B), as redesignated, by inserting "and maintenance-of-way equipment" after "facilities"; and

(vi) in subparagraph (C), as redesignated, by striking "Passenger rail equipment" and inserting "Equipment";

(C) in paragraph (2)—

(i) in the paragraph heading, by inserting "LINE" after "ASSET";

(ii) in the matter preceding subparagraph (A), by inserting "line" after "asset";

(iii) in subparagraph (A), by striking "category" and inserting "line";

(iv) in subparagraph (C)(iii)(III), by striking "and" at the end;

(v) by amending subparagraph (D) to read as follows:

"(D) annual sources and uses statements and forecasts for each asset line; and"; and

(vi) by adding at the end the following:

"(E) other elements that Amtrak elects to include.";

(D) in paragraph (3)—

(i) in the paragraph heading, by inserting "LINE" after "ASSET";

(ii) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii) and moving such clauses 2 ems to the right;

(iii) by inserting before clause (i), as redesignated, the following:

"(A) not later than 180 days after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, submit to the Secretary, for approval, a consultation process for the development of each asset line plan that requires Amtrak to—";

(iv) in subparagraph (A), as added by clause (iii)—

(I) in clause (i), as redesignated—

AMERICAN OVERSIGHT

(aa) by striking "business" each place such term appears and inserting "service";

(bb) by inserting "line" after "asset" each place such term appears; and

(cc) by adding "and" at the end; and

(II) in clause (ii), as redesignated—

(aa) by inserting "consult with the Secretary of Transportation in the development of asset line plans and," before "as applicable"; and

(bb) by inserting "line" after "5-year asset";

(v) by redesignating subparagraph (C) as subparagraph (B); and

(vi) in subparagraph (B), as redesignated, by striking "category" and inserting "line";

(E) by redesignating paragraphs (4), (5), (6), and (7) as paragraphs (5), (6), (7), and (8), respectively;

(F) by inserting after paragraph (3) the following:

"(4) 5-YEAR ASSET LINE PLAN UPDATES.—Amtrak may modify the content to be included in the asset line plans described in paragraph (1), on approval of the Secretary, if the Secretary determines that such modifications are necessary to improve the transparency, oversight, and delivery of Amtrak services and the use of Federal funds by Amtrak.";

(G) in paragraph (5)(A), as redesignated, by inserting ", but shall not include corporate services (as defined pursuant to section 24317(b))" after "national assets"; and

(H) in paragraph (7), as redesignated, by striking "paragraph (4)" and inserting "paragraph (5)".

(b) CLERICAL AMENDMENT.—The analysis for chapter 243 of title 49, United States Code, is amended by striking the item relating to section 24320 and inserting the following:

"24320. Amtrak 5-year service line and asset line plans.".

(c) EFFECTIVE DATES.—Section 11203(b) of the Passenger Rail Reform and Investment Act of 2015 (49 U.S.C. 24320 note) is amended—

(1) by striking "business" each place such term appears and inserting "service"; and

(2) by inserting "line" after "asset" each place such term appears.

SEC. 22208. PASSENGER EXPERIENCE ENHANCEMENT.

(a) IN GENERAL.—Section 24305(c)(4) of title 49, United States Code, is amended by striking "only if revenues from the services each year at least equal the cost of providing the services".

(b) FOOD AND BEVERAGE SERVICE WORKING GROUP.—

(1) IN GENERAL.—Section 24321 of title 49, United States Code, is amended to read as follows:

"§ 24321. Food and beverage service

"(a) WORKING GROUP.—

"(1) ESTABLISHMENT.—Not later than 180 days after enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, Amtrak shall establish a working group to provide recommendations to improve Amtrak's onboard food and beverage service.

AMERICAN OVERSIGHT

"(2) MEMBERSHIP.—The working group shall consist of individuals representing—

"(A) Amtrak;

"(B) the labor organizations representing Amtrak employees who prepare or provide on-board food and beverage service;

"(C) nonprofit organizations representing Amtrak passengers; and

"(D) States that are providing funding for State-supported routes.

"(b) REPORT.—Not later than 1 year after the establishment of the working group pursuant to subsection (a), the working group shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives containing recommendations for improving Amtrak's food and beverage service, including—

"(1) ways to improve the financial performance of Amtrak;

"(2) ways to increase and retain ridership;

"(3) the differing needs of passengers traveling on long-distance routes, State supported routes, and the Northeast Corridor;

"(4) Amtrak passenger survey data about the food and beverages offered on Amtrak trains;

"(5) ways to incorporate local food and beverage items on State-supported routes; and

"(6) any other issue that the working group determines to be appropriate.

"(c) IMPLEMENTATION.—Not later than 180 days after the submission of the report pursuant to subsection (b), Amtrak shall submit a plan for implementing the recommendations of the working group, and an explanation for any of the working group's recommendations it does not agree with and does not plan on implementing to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives.

"(d) SAVINGS CLAUSE.—Amtrak shall ensure that no Amtrak employee who held a position on a long-distance or Northeast Corridor route as of the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, is involuntarily separated because of the development and implementation of the plan required under this section.".

(2) CLERICAL AMENDMENT.—The analysis for chapter 243 of title 49, United States Code, is amended by striking the item relating to section 24321 and inserting the following:

"24321. Food and beverage service.".

SEC. 22209. AMTRAK SMOKING POLICY.

(a) IN GENERAL.—Chapter 243 of title 49, United States Code, is amended by adding at the end the following:

"§ 24323. Prohibition on smoking on Amtrak trains

"(a) PROHIBITION.—Beginning on the date of enactment of this section, Amtrak shall prohibit smoking, including the use of electronic cigarettes, onboard all Amtrak trains.

"(b) ELECTRONIC CIGARETTE DEFINED.—In this section, the term 'electronic cigarette' means a device that delivers nicotine or other

AMERICAN OVERSIGHT

substances to a user of the device in the form of a vapor that is inhaled to simulate the experience of smoking.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 243 of title 49, United States Code, is amended by adding at the end the following:

"24323. Prohibition on smoking on Amtrak trains.".

SEC. 22210. PROTECTING AMTRAK ROUTES THROUGH RURAL COMMUNITIES.

Section 24706 of title 49, United States Code, is amended—

(1) in subsection (a), by striking "subsection (b) of this section, at least 180 days" and inserting "subsection (c), not later than 180 days";

(2) by redesignating subsections (b) and (c) as subsections (c) and (e), respectively;

(3) by inserting after subsection (a) the following:

"(b) DISCONTINUANCE OR SUBSTANTIAL ALTERATION OF LONG-DISTANCE ROUTES.—Except as provided in subsection (c), in an emergency, or during maintenance or construction outages impacting Amtrak routes, Amtrak may not discontinue, reduce the frequency of, suspend, or substantially alter the route of rail service on any segment of any long-distance route in any fiscal year in which Amtrak receives adequate Federal funding for such route on the National Network."; and

(4) by inserting after subsection (c), as redesignated, the following:

"(d) CONGRESSIONAL NOTIFICATION OF DISCONTINUANCE.—Except as provided in subsection (c), not later than 210 days before discontinuing service over a route, Amtrak shall give written notice of such discontinuance to all of the members of Congress representing any State or district in which the discontinuance would occur.".

SEC. 22211. STATE-SUPPORTED ROUTE COMMITTEE.

(a) STATE-SUPPORTED ROUTE COMMITTEE.—Section 24712(a) of title 49, United States Code, is amended—

(1) in paragraph (1)—

(A) by striking "Not later than 180 days after the date of enactment of the Passenger Rail Reform and Investment Act of 2015, the Secretary of Transportation shall establish" and inserting "There is established"; and

(B) by inserting "current and future" before "rail operations";

(2) by redesignating paragraphs (4), (5), and (6) as paragraphs (5), (6), and (7), respectively;

(3) by inserting after paragraph (3) the following:

"(4) ABILITY TO CONDUCT CERTAIN BUSINESS.—If all of the members of 1 voting bloc described in paragraph (3) abstain from a Committee decision, agreement between the other 2 voting blocs consistent with the procedures set forth in such paragraph shall be deemed sufficient for purpose of achieving unanimous consent.";

(4) in paragraph (5), as redesignated, in the matter preceding subparagraph (A)—

(A) by striking "convene a meeting and shall define and implement" and inserting "define and periodically update"; and

AMERICAN OVERSIGHT

(B) by striking "not later than 180 days after the date of establishment of the Committee by the Secretary"; and

(5) in paragraph (7), as redesignated—

(A) in the paragraph heading, by striking "ALLOCATION METHODOLOGY" and inserting "METHODOLOGY POLICY";

(B) in subparagraph (A), by striking "allocation methodology" and inserting "methodology policy";

(C) by amending subparagraph (B) to read as follows:

"(B) REVISIONS TO COST METHODOLOGY POLICY.—

"(i) REQUIREMENT TO REVISE AND UPDATE.—Subject to rules and procedures established pursuant to clause (iii), not later than March 31, 2022, the Committee shall revise and update the cost methodology policy required and previously approved under section 209 of the Passenger Rail Investment and Improvement Act of 2008 (49 U.S.C. 20901 note). The Committee shall implement a revised cost methodology policy during fiscal year 2023. Not later than 30 days after the adoption of the revised cost methodology policy, the Committee shall submit a report documenting and explaining any changes to the cost methodology policy and plans for implementation of such policy, including a description of the improvements to the accounting information provided by Amtrak to the States, to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives. The revised cost methodology policy shall ensure that States will be responsible for costs attributable to the provision of service for their routes.

"(ii) IMPLEMENTATION IMPACTS ON FEDERAL FUNDING.—To the extent that a revision developed pursuant to clause (i) assigns to Amtrak costs that were previously allocated to States, Amtrak shall request with specificity such additional funding in the general and legislative annual report required under section 24315 or in any appropriate subsequent Federal funding request for the fiscal year in which the revised cost methodology policy will be implemented.

"(iii) PROCEDURES FOR CHANGING METHODOLOGY.—Notwithstanding section 209(b) of the Passenger Rail Investment and Improvement Act of 2008 (49 U.S.C. 20901 note), the rules and procedures implemented pursuant to paragraph (5) shall include—

"(I) procedures for changing the cost methodology policy in accordance with clause (i); and

"(II) procedures or broad guidelines for conducting financial planning, including operating and capital forecasting, reporting, data sharing, and governance.";

(D) in subparagraph (C)—

(i) in the matter preceding clause (i), by striking "allocation methodology" and inserting "methodology policy";

(ii) in clause (i), by striking "and" at the end;

(iii) in clause (ii)—

AMERICAN OVERSIGHT

(I) by striking "allocate" and inserting "assign"; and

(II) by striking the period and inserting "; and"; and

(iv) by adding at the end the following:

"(iii) promote increased efficiency in Amtrak's operating and capital activities."; and

(E) by adding at the end the following:

"(D) INDEPENDENT EVALUATION.—Not later than March 31 of each year, the Committee shall ensure that an independent entity selected by the Committee has completed an evaluation to determine whether State payments for the most recently concluded fiscal year are accurate and comply with the applicable cost allocation methodology.".

(b) INVOICES AND REPORTS.—Section 24712(b) of title 49, United States Code, is amended to read as follows:

"(b) INVOICES AND REPORTS.—

"(1) INVOICES.—Amtrak shall provide monthly invoices to the Committee and to each State that sponsors a State-supported route that identify the operating costs for such route, including fixed costs and third-party costs.

"(2) REPORTS.—

"(A) IN GENERAL.—The Committee shall determine the frequency and contents of—

"(i) the financial and performance reports that Amtrak is required to provide to the Committee and the States; and

"(ii) the planning and demand reports that the States are required to provide to the Committee and Amtrak.

"(B) MONTHLY STATISTICAL REPORT.—

"(i) DEVELOPMENT.—Consistent with the revisions to the policy required under subsection (a)(7)(B), the Committee shall develop a report that contains the general ledger data and operating statistics from Amtrak's accounting systems used to calculate payments to States.

"(ii) PROVISION OF NECESSARY DATA.—Not later than 30 days after the last day of each month, Amtrak shall provide to the States and to the Committee the necessary data to complete the report developed pursuant to clause (i) for such month.".

(c) DISPUTE RESOLUTION.—Section 24712(c) of title 49, United States Code, is amended—

(1) in paragraph (1)—

(A) by striking "(a)(4)" and inserting "(a)(5)"; and

(B) by striking "(a)(6)" and inserting "(a)(7)"; and

(2) in paragraph (4), by inserting "related to a State-supported route that a State sponsors that is" after "amount".

(d) PERFORMANCE METRICS.—Section 24712(e) of title 49, United States Code, is amended by inserting ", including incentives to increase revenue, reduce costs, finalize contracts by the beginning of the fiscal year, and require States to promptly make payments for services delivered" before the period at the end.

(e) STATEMENT OF GOALS AND OBJECTIVES.—Section 24712(f) of title 49, United States Code, is amended—

AMERICAN OVERSIGHT

(1) in paragraph (1), by inserting ", and review and update, as necessary," after "shall develop";

(2) in paragraph (2), by striking "Not later than 2 years after the date of enactment of the Passenger Rail Reform and Investment Act of 2015, the Committee shall transmit the statement" and inserting "As applicable, based on updates, the Committee shall submit an updated statement"; and

(3) by adding at the end the following:

"(3) SENSE OF CONGRESS.—It is the sense of Congress that—

"(A) the Committee shall be the forum where Amtrak and the States collaborate on the planning, improvement, and development of corridor routes across the National Network; and

"(B) such collaboration should include regular consultation with interstate rail compact parties and other regional planning organizations that address passenger rail.".

(f) OTHER REFORMS RELATED TO STATE-SUPPORTED ROUTES.—Section 24712 of title 49, United States Code, as amended by subsections (a) through (e), is further amended—

(1) by redesignating subsections (g) and (h) as subsections (k) and (l), respectively; and

(2) by inserting after subsection (f) the following:

"(g) NEW STATE-SUPPORTED ROUTES.—

"(1) CONSULTATION.—In developing a new State-supported route, Amtrak shall consult with—

"(A) the State or States and local municipalities through which such new service would operate;

"(B) commuter authorities and regional transportation authorities in the areas that would be served by the planned route;

"(C) host railroads;

"(D) the Administrator of the Federal Railroad Administration; and

"(E) other stakeholders, as appropriate.

"(2) STATE COMMITMENTS.—Notwithstanding any other provision of law, before beginning construction necessary for, or beginning operation of, a State-supported route that is initiated on or after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, Amtrak shall enter into a memorandum of understanding, or otherwise secure an agreement, with each State that would be providing funding for such route for sharing—

"(A) ongoing operating costs and capital costs in accordance with the cost methodology policy referred to in subsection (a)(7) then in effect; or

"(B) ongoing operating costs and capital costs in accordance with the maximum funding limitations described in section 22908(e).

"(3) APPLICATION OF TERMS.—In this subsection, the terms 'capital costs' and 'operating costs' shall apply in the same manner as such terms apply under the cost methodology policy developed pursuant to subsection (a)(7).

"(h) COST METHODOLOGY POLICY UPDATE IMPLEMENTATION REPORT.—Not later than 18 months after the updated cost methodology policy required under subsection (a)(7)(B) is implemented,

AMERICAN OVERSIGHT

the Committee shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that assesses the implementation of the updated policy.

"(i) IDENTIFICATION OF STATE-SUPPORTED ROUTE CHANGES.—Amtrak shall—

"(1) not later than 120 days before the submission of the general and legislative annual report required under section 24315(b), consult with the Committee and any additional States through which a State-supported route may operate regarding any proposed changes to such route; and

"(2) include in such report an update of any planned or proposed changes to State-supported routes, including the introduction of new State-supported routes, including—

"(A) the timeframe in which such changes would take effect; and

"(B) whether Amtrak has entered into commitments with the affected States pursuant subsection (g)(2).

"(j) ECONOMIC ANALYSIS.—Not later than 3 years after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, the Committee shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that—

"(1) describes the role of the State-supported routes in economic development; and

"(2) examines the impacts of the State-supported routes on local station areas, job creation, transportation efficiency, State economies, and the national economy.".

SEC. 22212. ENHANCING CROSS BORDER SERVICE.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, Amtrak, after consultation with the Secretary, the Secretary of Homeland Security, relevant State departments of transportation, Canadian governmental agencies and entities, and owners of the relevant rail infrastructure and facilities, shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives regarding enhancing Amtrak passenger rail service between the United States and Canada that—

(1) identifies challenges to Amtrak operations in Canada, including delays associated with custom and immigration inspections in both the United States and Canada; and

(2) includes recommendations to improve such cross border service, including the feasibility of and costs associated with a preclearance facility or facilities.

(b) ASSISTANCE AND SUPPORT.—The Secretary, the Secretary of State, and the Secretary of Homeland Security may provide assistance and support requested by Amtrak that is necessary to carry out this section, as determined appropriate by the respective Secretary.

SEC. 22213. CREATING QUALITY JOBS.

Section 121 of the Amtrak Reform and Accountability Act of 1997 (49 U.S.C. 24312 note) is amended—

(1) by redesignating subsection (d) as subsection (f); and

(2) by inserting after subsection (c) the following:

AMERICAN OVERSIGHT

"(d) FURLOUGHED WORK.—Amtrak may not contract out work within the classification of work performed by an employee in a bargaining unit covered by a collective bargaining agreement entered into between Amtrak and an organization representing Amtrak employees during the period such employee has been laid off and has not been recalled to perform such work.

"(e) AGREEMENT PROHIBITIONS ON CONTRACTING OUT.—This section does not—

"(1) supersede a prohibition or limitation on contracting out work covered by an agreement entered into between Amtrak and an organization representing Amtrak employees; or

"(2) prohibit Amtrak and an organization representing Amtrak employees from entering into an agreement that allows for contracting out the work of a furloughed employee that would otherwise be prohibited under subsection (d).".

SEC. 22214. AMTRAK DAILY LONG-DISTANCE SERVICE STUDY.

(a) IN GENERAL.—The Secretary shall conduct a study to evaluate the restoration of daily intercity rail passenger service along—

(1) any Amtrak long-distance routes that, as of the date of enactment of this Act, were discontinued; and

(2) any Amtrak long-distance routes that, as of the date of enactment of this Act, occur on a nondaily basis.

(b) INCLUSIONS.—The study under subsection (a) shall—

(1) evaluate all options for restoring or enhancing to daily-basis intercity rail passenger service along each Amtrak route described in that subsection;

(2) select a preferred option for restoring or enhancing the service described in paragraph (1);

(3) develop a prioritized inventory of capital projects and other actions that are required to restore or enhance the service described in paragraph (1), including cost estimates for those projects and actions;

(4) develop recommendations for methods by which Amtrak could work with local communities and organizations to develop activities and programs to continuously improve public use of intercity passenger rail service along each route; and

(5) identify Federal and non-Federal funding sources required to restore or enhance the service described in paragraph (1), including—

(A) increased Federal funding for Amtrak based on applicable reductions or discontinuations in service; and

(B) options for entering into public-private partnerships to restore that service.

(c) OTHER FACTORS WHEN CONSIDERING EXPANSIONS.—In evaluating intercity passenger rail routes under this section, the Secretary may evaluate potential new Amtrak long-distance routes, including with specific attention provided to routes in service as of April 1971 but not continued by Amtrak, taking into consideration whether those new routes would—

(1) link and serve large and small communities as part of a regional rail network;

(2) advance the economic and social well-being of rural areas of the United States;

(3) provide enhanced connectivity for the national long-distance passenger rail system; and

AMERICAN OVERSIGHT

(4) reflect public engagement and local and regional support for restored passenger rail service.

(d) CONSULTATION.—In conducting the study under this section, the Secretary shall consult, through working groups or other forums as the Secretary determines to be appropriate, with—

(1) Amtrak;

(2) each State along a relevant route;

(3) regional transportation planning organizations and metropolitan planning organizations, municipalities, and communities along those relevant routes, to be selected by the Secretary;

(4) host railroad carriers the tracks of which may be used for a service described in subsection (a);

(5) organizations representing onboard Amtrak employees;

(6) nonprofit organizations representing Amtrak passengers;

(7) relevant regional passenger rail authorities and federally recognized Indian Tribes; and

(8) such other entities as the Secretary may select.

(e) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that includes—

(1) the preferred options selected under subsection (b)(2), including the reasons for selecting each option;

(2) the information described in subsection (b)(3);

(3) the funding sources identified pursuant to subsection (b)(5);

(4) the estimated costs and public benefits of restoring or enhancing intercity rail passenger transportation in the region impacted for each relevant Amtrak route; and

(5) any other information the Secretary determines to be appropriate.

(f) FUNDING.—There are authorized to be appropriated to the Secretary to conduct the study under this section and to carry out the consultations required by subsection (d)—

(1) $7,500,000 for fiscal year 2022; and

(2) $7,500,000 for fiscal year 2023.

Subtitle C—Intercity Passenger Rail Policy

SEC. 22301. NORTHEAST CORRIDOR PLANNING.

Section 24904 of title 49, United States Code, is amended—

(1) by striking subsections (a) and (d);

(2) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively;

(3) by inserting before subsection (c), as redesignated, the following:

"(a) NORTHEAST CORRIDOR SERVICE DEVELOPMENT PLAN.—

"(1) IN GENERAL.—Not later than March 31, 2022, the Northeast Corridor Commission established under section 24905 (referred to in this section as the 'Commission') shall submit a service development plan to Congress.

"(2) CONTENTS.—The plan required under paragraph (1) shall—

AMERICAN OVERSIGHT

"(A) identify key state-of-good-repair, capacity expansion, and capital improvement projects planned for the Northeast Corridor;

"(B) provide a coordinated and consensus-based plan covering a 15-year period;

"(C) identify service objectives and the capital investments required to meet such objectives;

"(D) provide a delivery-constrained strategy that identifies—

"(i) capital investment phasing;

"(ii) an evaluation of workforce needs; and

"(iii) strategies for managing resources and mitigating construction impacts on operations; and

"(E) include a financial strategy that identifies funding needs and potential funding sources.

"(3) UPDATES.—The Commission shall update the service development plan not less frequently than once every 5 years.

"(b) NORTHEAST CORRIDOR CAPITAL INVESTMENT PLAN.—

"(1) IN GENERAL.—Not later than November 1 of each year, the Commission shall—

"(A) develop an annual capital investment plan for the Northeast Corridor; and

"(B) submit the capital investment plan to—

"(i) the Secretary of Transportation;

"(ii) the Committee on Commerce, Science, and Transportation of the Senate; and

"(iii) the Committee on Transportation and Infrastructure of the House of Representatives.

"(2) CONTENTS.—The plan required under paragraph (1) shall—

"(A) reflect coordination across the entire Northeast Corridor;

"(B) integrate the individual capital plans developed by Amtrak, States, and commuter authorities in accordance with the cost allocation policy developed and approved under section 24905(c);

"(C) cover a period of 5 fiscal years, beginning with the fiscal year during which the plan is submitted;

"(D) notwithstanding section 24902(b), document the projects and programs being undertaken to advance the service objectives and capital investments identified in the Northeast Corridor service development plan developed under subsection (a), and the asset condition needs identified in the Northeast Corridor asset management plans, after considering—

"(i) the benefits and costs of capital investments in the plan;

"(ii) project and program readiness;

"(iii) the operational impacts; and

"(iv) Federal and non-Federal funding availability;

"(E) categorize capital projects and programs as primarily associated with 1 of the categories listed under section 24319(c)(2)(C);

"(F) identify capital projects and programs that are associated with more than 1 category described in subparagraph (E); and

"(G) include a financial plan that identifies—

AMERICAN OVERSIGHT

"(i) funding sources and financing methods;

"(ii) the status of cost sharing agreements pursuant to the cost allocation policy developed under section 24905(c);

"(iii) the projects and programs that the Commission expects will receive Federal financial assistance; and

"(iv) the eligible entity or entities that the Commission expects—

"(I) to receive the Federal financial assistance referred to in clause (iii); and

"(II) to implement each capital project.

"(3) REVIEW AND COORDINATION.—The Commission shall require that the information described in paragraph (2) be submitted in a timely manner to allow for a reasonable period of review by, and coordination with, affected agencies before the Commission submits the capital investment plan pursuant to paragraph (1).";

(4) in subsection (c), as redesignated, by striking "spent only on—" and all that follows and inserting "spent only on capital projects and programs contained in the Commission's capital investment plan for the prior fiscal year."; and

(5) by amending subsection (d), as redesignated, to read as follows:

"(d) NORTHEAST CORRIDOR CAPITAL ASSET MANAGEMENT SYSTEM.—

"(1) IN GENERAL.—Amtrak and other infrastructure owners that provide or support intercity rail passenger transportation along the Northeast Corridor shall develop an asset management system and use and update such system, as necessary, to develop submissions to the Northeast Corridor capital investment plan described in subsection (b).

"(2) FEATURES.—The system required under paragraph (1) shall develop submissions that—

"(A) are consistent with the transit asset management system (as defined in section 5326(a)(3)); and

"(B) include—

"(i) an inventory of all capital assets owned by the developer of the plan;

"(ii) an assessment of condition of such capital assets;

"(iii) a description of the resources and processes that will be necessary to bring or to maintain such capital assets in a state of good repair; and

"(iv) a description of changes in the condition of such capital assets since the submission of the prior version of the plan.".

SEC. 22302. NORTHEAST CORRIDOR COMMISSION.

Section 24905 of title 49, United States Code, is amended—

(1) in subsection (a)(1)(D), by inserting "authorities" after "carriers";

(2) in subsection (b)(3)(B)—

(A) in clause (i)—

(i) by inserting ", including ridership trends," after "transportation"; and

(ii) by striking "and" at the end;

AMERICAN OVERSIGHT

(B) in clause (ii)—

(i) by inserting "first year of the" after "the delivery of the"; and

(ii) by striking the period at the end and inserting "; and"; and

(C) by adding at the end the following:

"(iii) progress in assessing and eliminating the state-of-good-repair backlog.";

(3) in subsection (c)—

(A) in paragraph (1)—

(i) in the paragraph heading, by striking "DEVELOPMENT OF POLICY" and inserting "POLICY";

(ii) in subparagraph (A), by striking "develop a standardized policy" and inserting "develop and maintain the standardized policy first approved on September 17, 2015, and update, as appropriate,";

(iii) by amending subparagraph (B) to read as follows:

"(B) develop timetables for implementing and maintaining the policy;";

(iv) in subparagraph (C), by striking "the policy and the timetable" and inserting "updates to the policy and timetables"; and

(v) by amending subparagraph (D) to read as follows:

"(D) support the efforts of the members of the Commission to implement the policy in accordance with the timetables developed pursuant to subparagraph (B);";

(B) by amending paragraph (2) to read as follows: "(2) IMPLEMENTATION.—

"(A) IN GENERAL.—In accordance with the timetables developed pursuant to paragraph (1)(B), Amtrak and commuter authorities on the Northeast Corridor shall implement the policy developed under paragraph (1) in their agreements for usage of facilities or services.

"(B) EFFECT OF FAILURE TO IMPLEMENT OR COMPLY WITH POLICY.—If the entities referred to in subparagraph (A) fail to implement the policy in accordance with paragraph (1)(D) or fail to comply with the policy thereafter, the Surface Transportation Board shall—

"(i) determine the appropriate compensation in accordance with the procedures and procedural schedule applicable to a proceeding under section 24903(c), after taking into consideration the policy developed under paragraph (1); and

"(ii) enforce its determination on the party or parties involved."; and

(C) in paragraph (4), by striking "public authorities providing commuter rail passenger transportation" and inserting "commuter authorities"; and

(4) in subsection (d)—

(A) by striking "2016 through 2020" and inserting "2022 through 2026"; and

(B) by striking "section 11101(g) of the Passenger Rail Reform and Investment Act of 2015" and inserting "section 22101(e) of the Passenger Rail Expansion and Rail Safety Act of 2021".

AMERICAN OVERSIGHT

SEC. 22303. CONSOLIDATED RAIL INFRASTRUCTURE AND SAFETY IMPROVEMENTS.

(a) IN GENERAL.—Section 22907 of title 49, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (1), by inserting "(including the District of Columbia)" after "State";

(B) in paragraph (6), by inserting "rail carrier and intercity rail passenger transportation are" before "defined";

(C) by redesignating paragraphs (8) through (11) as paragraphs (10) through (13), respectively; and

(D) by inserting after paragraph (7) the following:

"(8) An association representing 1 or more railroads described in paragraph (7).";

"(9) A federally recognized Indian Tribe.";

(2) in subsection (c)—

(A) in paragraph (3), by adding "or safety" after "congestion";

(B) in paragraph (6), by striking "and" and inserting "or";

(C) by redesignating paragraphs (11) and (12) as paragraphs (12) and (13), respectively;

(D) by inserting after paragraph (10) the following:

"(11) The development and implementation of measures to prevent trespassing and reduce associated injuries and fatalities."; and

(E) by inserting after paragraph (13), as redesignated, the following:

"(14) Research, development, and testing to advance and facilitate innovative rail projects, including projects using electromagnetic guideways in an enclosure in a very low-pressure environment.

"(15) The preparation of emergency plans for communities through which hazardous materials are transported by rail.

"(16) Rehabilitating, remanufacturing, procuring, or overhauling locomotives, provided that such activities result in a significant reduction of emissions."; and

(3) in subsection (h), by adding at the end the following:

"(4) GRADE CROSSING AND TRESPASSING PROJECTS.—Applicants may use costs incurred previously for preliminary engineering associated with highway-rail grade crossing improvement projects under subsection (c)(5) and trespassing prevention projects under subsection (c)(11) to satisfy the non-Federal share requirements.".

(b) RULE OF CONSTRUCTION.—The amendments made by subsection (a) may not be construed to affect any grant, including any application for a grant, made under section 22907 of title 49, United States Code, before the date of enactment of this Act.

(c) TECHNICAL CORRECTION.—

(1) IN GENERAL.—Section 22907(l)(1)(A) of title 49, United States Code, is amended by inserting ", including highway construction over rail facilities as an alternative to construction or improvement of a highway-rail grade crossing," after "under chapter 227".

(2) APPLICABILITY.—The amendment made by paragraph (1) shall apply to amounts remaining under section 22907(l)

AMERICAN OVERSIGHT

of title 49, United States Code, from appropriations for prior fiscal years.

SEC. 22304. RESTORATION AND ENHANCEMENT GRANTS.

Section 22908 of title 49, United States Code, is amended—

(1) by amending subsection (a) to read as follows:

"(a) DEFINITIONS.—In this section:

"(1) APPLICANT.—Notwithstanding section 22901(1), the term 'applicant' means—

"(A) a State, including the District of Columbia;

"(B) a group of States;

"(C) an entity implementing an interstate compact;

"(D) a public agency or publicly chartered authority established by 1 or more States;

"(E) a political subdivision of a State;

"(F) a federally recognized Indian Tribe;

"(G) Amtrak or another rail carrier that provides intercity rail passenger transportation;

"(H) any rail carrier in partnership with at least 1 of the entities described in subparagraphs (A) through (F); and

"(I) any combination of the entities described in subparagraphs (A) through (F).

"(2) OPERATING ASSISTANCE.—The term 'operating assistance', with respect to any route subject to section 209 of the Passenger Rail Investment and Improvement Act of 2008 (Public Law 110–432), means any cost allocated, or that may be allocated, to a route pursuant to the cost methodology established under such section or under section 24712.";

(2) in subsection (c)(3), by striking "3 years" each place such term appears and inserting "6 years";

(3) in subsection (d)—

(A) in paragraph (8), by striking "and";

(B) in paragraph (9), by striking the period at the end and inserting "; and"; and

(C) by adding at the end the following:

"(10) for routes selected under the Corridor Identification and Development Program and operated by Amtrak."; and

(4) in subsection (e)—

(A) in paragraph (1)—

(i) by striking "assistance"; and

(ii) by striking "3 years" and inserting "6 years (including for any such routes selected for funding before the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021)"; and

(B) in paragraph (3), by striking subparagraphs (A), (B), and (C) and inserting the following:

"(A) 90 percent of the projected net operating costs for the first year of service;

"(B) 80 percent of the projected net operating costs for the second year of service;

"(C) 70 percent of the projected net operating costs for the third year of service;

"(D) 60 percent of the projected net operating costs for the fourth year of service;

"(E) 50 percent of the projected net operating costs for the fifth year of service; and

AMERICAN OVERSIGHT

"(F) 30 percent of the projected net operating costs for the sixth year of service.".

SEC. 22305. RAILROAD CROSSING ELIMINATION PROGRAM.

(a) IN GENERAL.—Chapter 229 of title 49, United States Code, is amended by adding at the end the following:

"§ 22909. Railroad Crossing Elimination Program

"(a) IN GENERAL.—The Secretary of Transportation, in cooperation with the Administrator of the Federal Railroad Administration, shall establish a competitive grant program (referred to in this section as the 'Program') under which the Secretary shall award grants to eligible recipients described in subsection (c) for highway-rail or pathway-rail grade crossing improvement projects that focus on improving the safety and mobility of people and goods.

"(b) GOALS.—The goals of the Program are—

"(1) to eliminate highway-rail grade crossings that are frequently blocked by trains;

"(2) to improve the health and safety of communities;

"(3) to reduce the impacts that freight movement and railroad operations may have on underserved communities; and

"(4) to improve the mobility of people and goods.

"(c) ELIGIBLE RECIPIENTS.—The following entities are eligible to receive a grant under this section:

"(1) A State, including the District of Columbia, Puerto Rico, and other United States territories and possessions.

"(2) A political subdivision of a State.

"(3) A federally recognized Indian Tribe.

"(4) A unit of local government or a group of local governments.

"(5) A public port authority.

"(6) A metropolitan planning organization.

"(7) A group of entities described in any of paragraphs (1) through (6).

"(d) ELIGIBLE PROJECTS.—The Secretary may award a grant under the Program for a highway-rail or pathway-rail grade crossing improvement project (including acquiring real property interests) involving—

"(1) grade separation or closure, including through the use of a bridge, embankment, tunnel, or combination thereof;

"(2) track relocation;

"(3) the improvement or installation of protective devices, signals, signs, or other measures to improve safety, provided that such activities are related to a separation or relocation project described in paragraph (1) or (2);

"(4) other means to improve the safety and mobility of people and goods at highway-rail grade crossings (including technological solutions);

"(5) a group of related projects described in paragraphs (1) through (4) that would collectively improve the mobility of people and goods; or

"(6) the planning, environmental review, and design of an eligible project described in paragraphs (1) through (5).

"(e) APPLICATION PROCESS.—

"(1) IN GENERAL.—An eligible entity seeking a grant under the Program shall submit an application to the Secretary at

AMERICAN OVERSIGHT

such time, in such manner, and containing such information as the Secretary may require.

"(2) RAILROAD APPROVALS.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary shall require applicants to obtain the necessary approvals from any impacted rail carriers or real property owners before proceeding with the construction of a project funded by a grant under the Program.

"(B) EXCEPTION.—The requirement under subparagraph (A) shall not apply to planning projects described in subsection (d)(6) if the applicant agrees to work collaboratively with rail carriers and right-of-way owners.

"(f) PROJECT SELECTION CRITERIA.—

"(1) IN GENERAL.—In awarding grants under the Program, the Secretary shall evaluate the extent to which proposed projects would—

"(A) improve safety at highway-rail or pathway-rail grade crossings;

"(B) grade separate, eliminate, or close highway-rail or pathway-rail grade crossings;

"(C) improve the mobility of people and goods;

"(D) reduce emissions, protect the environment, and provide community benefits, including noise reduction;

"(E) improve access to emergency services;

"(F) provide economic benefits; and

"(G) improve access to communities separated by rail crossings.

"(2) ADDITIONAL CONSIDERATIONS.—In awarding grants under the Program, the Secretary shall consider—

"(A) the degree to which the proposed project will use—

"(i) innovative technologies;

"(ii) innovative design and construction techniques; or

"(iii) construction materials that reduce greenhouse gas emissions;

"(B) the applicant's planned use of contracting incentives to employ local labor, to the extent permissible under Federal law;

"(C) whether the proposed project will improve the mobility of—

"(i) multiple modes of transportation, including ingress and egress from freight facilities; or

"(ii) users of nonvehicular modes of transportation, such as pedestrians, bicyclists, and public transportation;

"(D) whether the proposed project is identified in—

"(i) the freight investment plan component of a State freight plan, as required under section 70202(b)(9);

"(ii) a State rail plan prepared in accordance with chapter 227; or

"(iii) a State highway-rail grade crossing action plan, as required under section 11401(b) of the Passenger Rail Reform and Investment Act of 2015 (title XI of Public Law 114–94); and

"(E) the level of financial support provided by impacted rail carriers.

AMERICAN OVERSIGHT

"(3) AWARD DISTRIBUTION.—In selecting grants for Program funds in any fiscal year, the Secretary shall comply with the following limitations:

"(A) GRANT FUNDS.—Not less than 20 percent of the grant funds available for the Program in any fiscal year shall be reserved for projects located in rural areas or on Tribal lands. The requirement under section 22907(l), which applies to this section, shall not apply to grant funds reserved specifically under this subparagraph. Not less than 5 percent of the grant funds reserved under this subparagraph shall be reserved for projects in counties with 20 or fewer residents per square mile, according to the most recent decennial census, provided that sufficient eligible applications have been submitted.

"(B) PLANNING GRANTS.—Not less than 25 percent of the grant funds set aside for planning projects in any fiscal year pursuant to section 22104(b) of the Passenger Rail Expansion and Rail Safety Act of 2021 shall be awarded for projects located in rural areas or on tribal lands.

"(C) STATE LIMITATION.—Not more than 20 percent of the grant funds available for the Program in any fiscal year may be selected for projects in any single State.

"(D) MINIMUM SIZE.—No grant awarded under this section shall be for less than $1,000,000, except for a planning grant described in subsection (d)(6).

"(g) COST SHARE.—Except as provided in paragraph (2), the Federal share of the cost of a project carried out using a grant under the Program may not exceed 80 percent of the total cost of the project. Applicants may count costs incurred for preliminary engineering associated with highway-rail and pathway-rail grade crossing improvement projects as part of the total project costs.

"(h) CONGRESSIONAL NOTIFICATION.—Not later than 3 days before awarding a grant for a project under the Program, the Secretary shall submit written notification of the proposed grant to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives, which shall include—

"(1) a summary of the project; and

"(2) the amount of the proposed grant award.

"(i) ANNUAL REPORT.—Not later than 60 days after each round of award notifications, the Secretary shall post, on the public website of the Department of Transportation—

"(1) a list of all eligible applicants that submitted an application for funding under the Program during the current fiscal year;

"(2) a list of the grant recipients and projects that received grant funding under the Program during such fiscal year; and

"(3) a list of the proposed projects and applicants that were determined to be ineligible.

"(j) COMMUTER RAIL ELIGIBILITY AND GRANT CONDITIONS.—

"(1) IN GENERAL.—Section 22905(f) shall not apply to grants awarded under this section for commuter rail passenger transportation projects.

"(2) ADMINISTRATION OF FUNDS.—The Secretary of Transportation shall transfer amounts awarded under this section for commuter rail passenger transportation projects to

AMERICAN OVERSIGHT

the Federal Transit Administration, which shall administer such funds in accordance with chapter 53.

"(3) PROTECTIVE ARRANGEMENTS.—

"(A) IN GENERAL.—Notwithstanding paragraph (2) and section 22905(e)(1), as a condition of receiving a grant under this section, any employee covered by the Railway Labor Act (45 U.S.C. 151 et seq.) and the Railroad Retirement Act of 1974 (45 U.S.C. 231 et seq.) who is adversely affected by actions taken in connection with the project financed in whole or in part by such grant shall be covered by employee protective arrangements required to be established under section 22905(c)(2)(B).

"(B) IMPLEMENTATION.—A grant recipient under this section, and the successors, assigns, and contractors of such grant recipient—

"(i) shall be bound by the employee protective arrangements required under subparagraph (A); and

"(ii) shall be responsible for the implementation of such arrangements and for the obligations under such arrangements, but may arrange for another entity to take initial responsibility for compliance with the conditions of such arrangement.

"(k) DEFINED TERM.—In this section, the term 'rural area' means any area that is not within an area designated as an urbanized area by the Bureau of the Census.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 229 of title 49, United States Code, is amended by adding at the end the following:

"22909. Railroad Crossing Elimination Program.".

SEC. 22306. INTERSTATE RAIL COMPACTS.

(a) IN GENERAL.—Chapter 229 of title 49, United States Code (as amended by section 22305(a)), is further amended by adding at the end the following:

"§ 22910. Interstate Rail Compacts Grant Program

"(a) GRANTS AUTHORIZED.—The Secretary of Transportation shall establish a competitive grant program to provide financial assistance to entities implementing interstate rail compacts pursuant to section 410 of the Amtrak Reform and Accountability Act of 1997 (49 U.S.C. 24101 note) for—

"(1) costs of administration;

"(2) systems planning, including studying the impacts on freight rail operations and ridership;

"(3) promotion of intercity passenger rail operation;

"(4) preparation of applications for competitive Federal grant programs; and

"(5) operations coordination.

"(b) MAXIMUM AMOUNT.—The Secretary may not award a grant under this section in an amount exceeding $1,000,000 per year.

"(c) SELECTION CRITERIA.—In selecting a recipient of a grant for an eligible project under this section, the Secretary shall consider—

"(1) the amount of funding received (including funding from a rail carrier (as defined in section 24102)) or other participation by State, local, and regional governments and the private sector;

AMERICAN OVERSIGHT

"(2) the applicant's work to foster economic development through rail service, particularly in rural communities;

"(3) whether the applicant seeks to restore service over routes formerly operated by Amtrak, including routes described in section 11304(a) of the Passenger Rail Reform and Investment Act of 2015 (title XI of division A of Public Law 114–94);

"(4) the applicant's dedication to providing intercity passenger rail service to regions and communities that are underserved or not served by other intercity public transportation;

"(5) whether the applicant is enhancing connectivity and geographic coverage of the existing national network of intercity passenger rail service;

"(6) whether the applicant has prepared regional rail or corridor service development plans and corresponding environmental analysis; and

"(7) whether the applicant has engaged with appropriate government entities and transportation providers to identify projects necessary to enhance multimodal connections or facilitate service integration between rail service and other modes, including between intercity passenger rail service and intercity bus service or commercial air service.

"(d) NUMERICAL LIMITATION.—The Secretary may not award grants under this section for more than 10 interstate rail compacts in any fiscal year.

"(e) OPERATOR LIMITATION.—The Secretary may only award grants under this section to applicants with eligible expenses related to intercity passenger rail service to be operated by Amtrak.

"(f) NON-FEDERAL MATCH.—The Secretary shall require each recipient of a grant under this section to provide a non-Federal match of not less than 50 percent of the eligible expenses of carrying out the interstate rail compact under this section.

"(g) REPORT.—Not later than 3 years after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, the Secretary, after consultation with grant recipients under this section, shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that describes—

"(1) the implementation of this section;

"(2) the status of the planning efforts and coordination funded by grants awarded under this section;

"(3) the plans of grant recipients for continued implementation of the interstate rail compacts;

"(4) the status of, and data regarding, any new, restored, or enhanced rail services initiated under the interstate rail compacts; and

"(5) any legislative recommendations.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 229 of title 49, United States Code (as amended by section 22305(b)), is amended by adding at the end the following:

"22910. Interstate Rail Compacts Grant Program.".

(c) IDENTIFICATION.—Section 410 of the Amtrak Reform and Accountability Act of 1997 (Public Law 105–134; 49 U.S.C. 24101 note) is amended—

(1) in subsection (b)(2), by striking "(except funds made available for Amtrak)"; and

AMERICAN OVERSIGHT

(2) by adding at the end the following:

"(c) NOTIFICATION REQUIREMENT.—Any State that enters into an interstate compact pursuant to subsection (a) shall notify the Secretary of Transportation of such compact not later than 60 days after it is formed. The failure of any State to notify the Secretary under this subsection shall not affect the status of the interstate compact.

"(d) INTERSTATE RAIL COMPACTS PROGRAM.—The Secretary of Transportation shall—

"(1) make available on a publicly accessible website a list of interstate rail compacts established under subsection (a) before the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021 and interstate rail compacts established after such date; and

"(2) make information regarding interstate rail compacts available to the public, including how States may establish interstate rail compacts under subsection (a), and update such information, as necessary.".

SEC. 22307. FEDERAL-STATE PARTNERSHIP FOR INTERCITY PASSENGER RAIL GRANTS.

(a) IN GENERAL.—Section 24911 of title 49, United States Code, is amended—

(1) in the section heading, by striking "**for state of good repair**" and inserting "**for intercity passenger rail**";

(2) in subsection (a)—

(A) in paragraph (1)—

(i) in subparagraph (F), by striking "or" at the end;

(ii) by redesignating subsection (G) as subsection (H);

(iii) by inserting after subparagraph (F), the following:

"(G) a federally recognized Indian Tribe; or"; and

(iv) in subsection (H), as redesignated, by striking "(F)" and inserting "(G)";

(B) by striking paragraphs (2) and (5); and

(C) by redesignating paragraphs (3) and (4) as paragraphs (2) and (3), respectively;

(3) in subsection (b), by striking "with respect to qualified railroad assets" and inserting ", improve performance, or expand or establish new intercity passenger rail service, including privately operated intercity passenger rail service if an eligible applicant is involved;";

(4) by striking subsections (c) through (e) and inserting the following:

"(c) ELIGIBLE PROJECTS.—The following capital projects, including acquisition of real property interests, are eligible to receive grants under this section:

"(1) A project to replace, rehabilitate, or repair infrastructure, equipment, or a facility used for providing intercity passenger rail service to bring such assets into a state of good repair.

"(2) A project to improve intercity passenger rail service performance, including reduced trip times, increased train frequencies, higher operating speeds, improved reliability,

AMERICAN OVERSIGHT

expanded capacity, reduced congestion, electrification, and other improvements, as determined by the Secretary.

"(3) A project to expand or establish new intercity passenger rail service.

"(4) A group of related projects described in paragraphs (1) through (3).

"(5) The planning, environmental studies, and final design for a project or group of projects described in paragraphs (1) through (4).

"(d) PROJECT SELECTION CRITERIA.—In selecting a project for funding under this section—

"(1) for projects located on the Northeast Corridor, the Secretary shall—

"(A) make selections consistent with the Northeast Corridor Project Inventory published pursuant to subsection (e)(1), unless when necessary to address materially changed infrastructure or service conditions, changes in project sponsor capabilities or commitments, or other significant changes since the completion of the most recently issued Northeast Corridor Project Inventory; and

"(B) for projects that benefit intercity and commuter rail services, only make such selections when Amtrak and the public authorities providing commuter rail passenger transportation at the eligible project location—

"(i) are in compliance with section 24905(c)(2); and

"(ii) identify funding for the intercity passenger rail share, the commuter rail share, and the local share of the eligible project before the commencement of the project;

"(2) for projects not located on the Northeast Corridor, the Secretary shall—

"(A) give preference to eligible projects—

"(i) for which Amtrak is not the sole applicant;

"(ii) that improve the financial performance, reliability, service frequency, or address the state of good repair of an Amtrak route; and

"(iii) that are identified in, and consistent with, a corridor inventory prepared under the Corridor Identification and Development Program pursuant to section 25101; and

"(B) take into account—

"(i) the cost-benefit analysis of the proposed project, including anticipated private and public benefits relative to the costs of the proposed project, including—

"(I) effects on system and service performance, including as measured by applicable metrics set forth in part 273 of title 49, Code of Federal Regulations (or successor regulations);

"(II) effects on safety, competitiveness, reliability, trip or transit time, greenhouse gas emissions, and resilience;

"(III) anticipated positive economic and employment impacts, including development in areas near passenger stations, historic districts, or other opportunity zones;

AMERICAN OVERSIGHT

"(IV) efficiencies from improved connections with other modes; and

"(V) ability to meet existing or anticipated demand;

"(ii) the degree to which the proposed project's business plan considers potential private sector participation in the financing, construction, or operation of the proposed project;

"(iii) the applicant's past performance in developing and delivering similar projects, and previous financial contributions;

"(iv) whether the applicant has, or will have—

"(I) the legal, financial, and technical capacity to carry out the project;

"(II) satisfactory continuing access to the equipment or facilities; and

"(III) the capability and willingness to maintain the equipment or facilities;

"(v) if applicable, the consistency of the project with planning guidance and documents set forth by the Secretary or otherwise required by law;

"(vi) whether the proposed project serves historically unconnected or underconnected communities; and

"(vii) any other relevant factors, as determined by the Secretary; and

"(3) the Secretary shall reserve—

"(A) not less than 45 percent of the amounts appropriated for grants under this section for projects not located along the Northeast Corridor, of which not less than 20 percent shall be for projects that benefit (in whole or in part) a long-distance route; and

"(B) not less than 45 percent of the amounts appropriated for grants under this section for projects listed on the Northeast Corridor project inventory published pursuant to subsection (e)(1).

"(e) LONG-TERM PLANNING.—Not later than 1 year after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, and every 2 years thereafter, the Secretary shall create a predictable project pipeline that will assist Amtrak, States, and the public with long-term capital planning by publishing a Northeast Corridor project inventory that—

"(1) identifies capital projects for Federal investment, project applicants, and proposed Federal funding levels under this section;

"(2) specifies the order in which the Secretary will provide grant funding to projects that have identified sponsors and are located along the Northeast Corridor, including a method and plan for apportioning funds to project sponsors for the 2-year period, which may be altered by the Secretary, as necessary, if recipients are not carrying out projects in accordance with the anticipated schedule;

"(3) takes into consideration the appropriate sequence and phasing of projects described in the Northeast Corridor capital investment plan developed pursuant to section 24904(a);

"(4) is consistent with the most recent Northeast Corridor service development plan update described in section 24904(d);

AMERICAN OVERSIGHT

"(5) takes into consideration the existing commitments and anticipated Federal, project applicant, sponsor, and other relevant funding levels for the next 5 fiscal years based on information currently available to the Secretary; and

"(6) is developed in consultation with the Northeast Corridor Commission and the owners of Northeast Corridor infrastructure and facilities.";

(5) in subsection (f)(2), by inserting ", except as specified under paragraph (4)" after "80 percent";

(6) in subsection (g)—

(A) in the subsection heading, by inserting "; PHASED FUNDING AGREEMENTS" after "INTENT";

(B) in paragraph (1)—

(i) in the paragraph heading, by striking "IN GENERAL" and inserting "LETTERS OF INTENT"; and

(ii) by striking "shall, to the maximum extent practicable," and inserting "may";

(C) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively;

(D) by inserting after paragraph (1) the following:

"(2) PHASED FUNDING AGREEMENTS.—

"(A) IN GENERAL.—The Secretary may enter into a phased funding agreement with an applicant if—

"(i) the project is highly rated, based on the evaluations and ratings conducted pursuant to this section and the applicable notice of funding opportunity; and

"(ii) the Federal assistance to be provided for the project under this section is more than $80,000,000.

"(B) TERMS.—A phased funding agreement shall—

"(i) establish the terms of participation by the Federal Government in the project;

"(ii) establish the maximum amount of Federal financial assistance for the project;

"(iii) include the period of time for completing the project, even if such period extends beyond the period for which Federal financial assistance is authorized;

"(iv) make timely and efficient management of the project easier in accordance with Federal law; and

"(v) if applicable, specify when the process for complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and related environmental laws will be completed for the project.

"(C) SPECIAL FINANCIAL RULES.—

"(i) IN GENERAL.—A phased funding agreement under this paragraph obligates an amount of available budget authority specified in law and may include a commitment, contingent on amounts to be specified in law in advance for commitments under this paragraph, to obligate an additional amount from future available budget authority specified in law.

"(ii) STATEMENT OF CONTINGENT COMMITMENT.—The agreement shall state that the contingent commitment is not an obligation of the Government.

"(iii) INTEREST AND OTHER FINANCING COSTS.—Interest and other financing costs of efficiently carrying out a part of the project within a reasonable time are a cost of carrying out the project under a phased

AMERICAN OVERSIGHT

funding agreement, except that eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the project at the time of borrowing. The applicant shall certify, to the satisfaction of the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

"(iv) FAILURE TO CARRY OUT PROJECT.—If an applicant does not carry out the project for reasons within the control of the applicant, the applicant shall repay all Federal grant funds awarded for the project from all Federal funding sources, for all project activities, facilities, and equipment, plus reasonable interest and penalty charges allowable by law or established by the Secretary in the phased funding agreement. For purposes of this clause, a process for complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) that results in the selection of the no build alternative is not within the applicant's control.

"(v) CREDITING OF FUNDS RECEIVED.—Any funds received by the Government under this paragraph, except for interest and penalty charges, shall be credited to the appropriation account from which the funds were originally derived.";

(E) in paragraph (3), as redesignated—

(i) in subparagraph (A), in the matter preceding clause (i), by inserting "a phased funding agreement under paragraph (2) or" after "issuing"; and

(ii) in subparagraph (B)(i), by inserting "the phased funding agreement or" after "a copy of"; and

(F) in paragraph (4), as redesignated—

(i) by striking "An obligation" and inserting the following:

"(B) APPROPRIATIONS REQUIRED.—An obligation"; and

(ii) by inserting before subparagraph (B), as added by clause (i), the following:

"(A) IN GENERAL.—The Secretary may enter into phased funding agreements under this subsection that contain contingent commitments to incur obligations in such amounts as the Secretary determines are appropriate.";

(7) in subsection (i), by striking "section 22905" and inserting "sections 22903 and 22905"; and

(8) by adding at the end the following:

"(j) ANNUAL REPORT ON PHASED FUNDING AGREEMENTS AND LETTERS OF INTENT.—Not later than the first Monday in February of each year, the Secretary shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Appropriations of the Senate, the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Appropriations of the House of Representatives that includes—

"(1) a proposal for the allocation of amounts to be available to finance grants for projects under this section among applicants for such amounts;

AMERICAN OVERSIGHT

"(2) evaluations and ratings, as applicable, for each project that has received a phased funding agreement or a letter of intent; and

"(3) recommendations for each project that has received a phased funding agreement or a letter of intent for funding based on the evaluations and ratings, as applicable, and on existing commitments and anticipated funding levels for the next 3 fiscal years based on information currently available to the Secretary.

"(k) REGIONAL PLANNING GUIDANCE CORRIDOR PLANNING.—The Secretary may withhold up to 5 percent of the total amount made available for this section to carry out planning and development activities related to section 25101, including—

"(1) providing funding to public entities for the development of service development plans selected under the Corridor Identification and Development Program;

"(2) facilitating and providing guidance for intercity passenger rail systems planning; and

"(3) providing funding for the development and refinement of intercity passenger rail systems planning analytical tools and models.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 249 of title 49, United States Code, is amended by striking the item relating to section 24911 and inserting the following:

"24911. Federal-State partnership for intercity passenger rail.".

SEC. 22308. CORRIDOR IDENTIFICATION AND DEVELOPMENT PROGRAM.

(a) IN GENERAL.—Part C of subtitle V of title 49, United States Code, is amended by adding at the end the following:

"CHAPTER 251—PASSENGER RAIL PLANNING

"Sec.
"25101. Corridor Identification and Development Program.

"§ 25101. Corridor Identification and Development Program

"(a) IN GENERAL.—Not later than 180 days after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, the Secretary of Transportation shall establish a program to facilitate the development of intercity passenger rail corridors. The program shall include—

"(1) a process for eligible entities described in subsection (b) to submit proposals for the development of intercity passenger rail corridors;

"(2) a process for the Secretary to review and select proposals in accordance with subsection (c);

"(3) criteria for determining the level of readiness for Federal financial assistance of an intercity passenger rail corridor, which shall include—

"(A) identification of a service operator which may include Amtrak or private rail carriers;

"(B) identification of a service sponsor or sponsors;

"(C) identification capital project sponsors;

"(D) engagement with the host railroads; and

"(E) other criteria as determined appropriate by the Secretary;

AMERICAN OVERSIGHT

"(4) a process for preparing service development plans in accordance with subsection (d), including the identification of planning funds, such as funds made available under section 24911(k) and interstate rail compact grants established under section 22210;

"(5) the creation of a pipeline of intercity passenger rail corridor projects under subsection (g);

"(6) planning guidance to achieve the purposes of this section, including guidance for intercity passenger rail corridors not selected under this section; and

"(7) such other features as the Secretary considers relevant to the successful development of intercity passenger rail corridors.

"(b) ELIGIBLE ENTITIES.—The Secretary may receive proposals under this section from Amtrak, States, groups of States, entities implementing interstate compacts, regional passenger rail authorities, regional planning organizations, political subdivisions of a State, federally recognized Indian Tribes, and other public entities, as determined by the Secretary.

"(c) CORRIDOR SELECTION.—In selecting intercity passenger rail corridors pursuant to subsection (a), the Secretary shall consider—

"(1) whether the route was identified as part of a regional or interregional intercity passenger rail systems planning study;

"(2) projected ridership, revenues, capital investment, and operating funding requirements;

"(3) anticipated environmental, congestion mitigation, and other public benefits;

"(4) projected trip times and their competitiveness with other transportation modes;

"(5) anticipated positive economic and employment impacts, including development in the areas near passenger stations, historic districts, or other opportunity zones;

"(6) committed or anticipated State, regional transportation authority, or other non-Federal funding for operating and capital costs;

"(7) benefits to rural communities;

"(8) whether the corridor is included in a State's approved State rail plan developed pursuant to chapter 227;

"(9) whether the corridor serves historically unserved or underserved and low-income communities or areas of persistent poverty;

"(10) whether the corridor would benefit or improve connectivity with existing or planned transportation services of other modes;

"(11) whether the corridor connects at least 2 of the 100 most populated metropolitan areas;

"(12) whether the corridor would enhance the regional equity and geographic diversity of intercity passenger rail service;

"(13) whether the corridor is or would be integrated into the national rail passenger transportation system and whether the corridor would create benefits for other passenger rail routes and services; and

"(14) whether a passenger rail operator, including a private rail carrier, has expressed support for the corridor.

AMERICAN OVERSIGHT

"(d) SERVICE DEVELOPMENT PLANS.—For each corridor proposal selected for development under this section, the Secretary shall partner with the entity that submitted the proposal, relevant States, and Amtrak, as appropriate, to prepare a service development plan (or to update an existing service development plan), which shall include—

"(1) a detailed description of the proposed intercity passenger rail service, including train frequencies, peak and average operating speeds, and trip times;

"(2) a corridor project inventory that—

"(A) identifies the capital projects necessary to achieve the proposed intercity passenger rail service, including—

"(i) the capital projects for which Federal investment will be sought;

"(ii) the likely project applicants; and

"(iii) the proposed Federal funding levels;

"(B) specifies the order in which Federal funding will be sought for the capital projects identified under subparagraph (A), after considering the appropriate sequence and phasing of projects based on the anticipated availability of funds; and

"(C) is developed in consultation with the entities listed in subsection (e);

"(3) a schedule and any associated phasing of projects and related service initiation or changes;

"(4) project sponsors and other entities expected to participate in carrying out the plan;

"(5) a description of how the corridor would comply with Federal rail safety and security laws, orders, and regulations;

"(6) the locations of existing and proposed stations;

"(7) the needs for rolling stock and other equipment;

"(8) a financial plan identifying projected—

"(A) annual revenues;

"(B) annual ridership;

"(C) capital investments before service could be initiated;

"(D) capital investments required to maintain service;

"(E) annual operating and costs; and

"(F) sources of capital investment and operating financial support;

"(9) a description of how the corridor would contribute to the development of a multi-State regional network of intercity passenger rail;

"(10) an intermodal plan describing how the new or improved corridor facilitates travel connections with other passenger transportation services;

"(11) a description of the anticipated environmental benefits of the corridor; and

"(12) a description of the corridor's impacts on highway and aviation congestion, energy consumption, land use, and economic development in the service area.

"(e) CONSULTATION.—In partnering on the preparation of a service development plan under subsection (d), the Secretary shall consult with—

"(1) Amtrak;

"(2) appropriate State and regional transportation authorities and local officials;

AMERICAN OVERSIGHT

"(3) representatives of employee labor organizations representing railroad and other appropriate employees;

"(4) host railroads for the proposed corridor; and

"(5) other stakeholders, as determined by the Secretary.

"(f) UPDATES.—Every 5 years, after the initial development of the service development plan under subsection (d), if at least 40 percent of the work to implement a service development plan prepared under subsection (d) has not yet been completed, the plan's sponsor, in consultation with the Secretary, shall determine whether such plan should be updated.

"(g) PROJECT PIPELINE.—Not later than 1 year after the establishment of the program under this section, and by February 1st of each year thereafter, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Appropriations of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Appropriations of the House of Representatives a project pipeline, in accordance with this section, that—

"(1) identifies intercity passenger rail corridors selected for development under this section;

"(2) identifies capital projects for Federal investment, project applicants, and proposed Federal funding levels, as applicable, consistent with the corridor project inventory;

"(3) specifies the order in which the Secretary would provide Federal financial assistance, subject to the availability of funds, to projects that have identified sponsors, including a method and plan for apportioning funds to project sponsors for a 5-year period, which may be altered by the Secretary, as necessary, if recipients are not carrying out projects on the anticipated schedule;

"(4) takes into consideration the appropriate sequence and phasing of projects described in the corridor project inventory;

"(5) takes into consideration the existing commitments and anticipated Federal, project applicant, sponsor, and other relevant funding levels for the next 5 fiscal years based on information currently available to the Secretary;

"(6) is prioritized based on the level of readiness of the corridor; and

"(7) reflects consultation with Amtrak.

"(h) DEFINITION.—In this section, the term 'intercity passenger rail corridor' means—

"(1) a new intercity passenger rail route of less than 750 miles;

"(2) the enhancement of an existing intercity passenger rail route of less than 750 miles;

"(3) the restoration of service over all or portions of an intercity passenger rail route formerly operated by Amtrak; or

"(4) the increase of service frequency of a long-distance intercity passenger rail route.".

(b) CLERICAL AMENDMENT.—The table of chapters for subtitle V of title 49, United States Code, is amended by inserting after the item relating to chapter 249 the following:

"Chapter 251. Passenger rail planning ..... 25101".

AMERICAN OVERSIGHT

SEC. 22309. SURFACE TRANSPORTATION BOARD PASSENGER RAIL PROGRAM.

The Surface Transportation Board shall—

(1) establish a passenger rail program with primary responsibility for carrying out the Board's passenger rail responsibilities; and

(2) hire up to 10 additional full-time employees to assist in carrying out the responsibilities referred to in paragraph (1).

Subtitle D—Rail Safety

SEC. 22401. RAILWAY-HIGHWAY CROSSINGS PROGRAM EVALUATION.

(a) IN GENERAL.—Not later than 3 years after the date of enactment of this Act, the Secretary shall evaluate the requirements of the railway-highway crossings program authorized under section 130 of title 23, United States Code, to determine whether—

(1) the requirements of the program provide States sufficient flexibility to adequately address current and emerging highway-rail grade crossing safety issues;

(2) the structure of the program provides sufficient incentives and resources to States and local agencies to make changes at highway-rail grade crossings that are most effective at reducing deaths and injuries;

(3) there are appropriate tools and resources to support States in using data driven programs to determine the most cost-effective use of program funds; and

(4) any statutory changes are recommended to improve the effectiveness of the program.

(b) REPORT.—Not later than 4 years after the date of enactment of this Act, the Secretary shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Environment and Public Works of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives that summarizes and describes the results of the evaluation conducted pursuant to subsection (a), including any recommended statutory changes.

SEC. 22402. GRADE CROSSING ACCIDENT PREDICTION MODEL.

Not later than 2 years after the date of enactment of this Act, the Administrator of the Federal Railroad Administration shall—

(1) update the grade crossing accident prediction and severity model used by the Federal Railroad Administration to analyze accident risk at highway-rail grade crossings; and

(2) provide training on the use of the updated grade crossing accident prediction and severity model.

SEC. 22403. PERIODIC UPDATES TO HIGHWAY-RAIL CROSSING REPORTS AND PLANS.

(a) HIGHWAY-RAIL GRADE CROSSING SAFETY.—Section 11401 of the Fixing America's Surface Transportation Act (Public Law 114–94; 49 U.S.C. 22907 note) is amended—

(1) by striking subsection (c); and

(2) by redesignating subsections (d) and (e) as subsections (c) and (d), respectively.

(b) REPORTS ON HIGHWAY-RAIL GRADE CROSSING SAFETY.—

AMERICAN OVERSIGHT

(1) IN GENERAL.—Chapter 201 of title 49, United States Code, is amended by inserting after section 20166 the following:

"§ 20167. Reports on highway-rail grade crossing safety

"(a) REPORT.—Not later than 4 years after the date by which States are required to submit State highway-rail grade crossing action plans under section 11401(b) of the Fixing America's Surface Transportation Act (49 U.S.C. 22907 note), the Administrator of the Federal Railroad Administration, in consultation with the Administrator of the Federal Highway Administration, shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that summarizes the State highway-rail grade crossing action plans, including—

"(1) an analysis and evaluation of each State railway-highway crossings program under section 130 of title 23, including—

"(A) compliance with section 11401 of the Fixing America's Surface Transportation Act and section 130(g) of title 23; and

"(B) the specific strategies identified by each State to improve safety at highway-rail grade crossings, including crossings with multiple accidents or incidents;

"(2) the progress of each State in implementing its State highway-rail grade crossings action plan;

"(3) the number of highway-rail grade crossing projects undertaken pursuant to section 130 of title 23, including the distribution of such projects by cost range, road system, nature of treatment, and subsequent accident experience at improved locations;

"(4) which States are not in compliance with their schedule of projects under section 130(d) of title 23; and

"(5) any recommendations for future implementation of the railway-highway crossings program under section 130 of title 23.

"(b) UPDATES.—Not later than 5 years after the submission of the report required under subsection (a), the Administrator of the Federal Railroad Administration, in consultation with the Administrator of the Federal Highway Administration, shall—

"(1) update the report based on the State annual reports submitted pursuant to section 130(g) of title 23 and any other information obtained by or available to the Administrator of the Federal Railroad Administration; and

"(2) submit the updated report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives.

"(c) DEFINITIONS.—In this section:

"(1) HIGHWAY-RAIL GRADE CROSSING.—The term 'highway-rail grade crossing' means a location within a State, other than a location at which 1 or more railroad tracks cross 1 or more railroad tracks at grade, at which—

"(A) a public highway, road, or street, or a private roadway, including associated sidewalks and pathways, crosses 1 or more railroad tracks, either at grade or grade-separated; or

"(B) a pathway explicitly authorized by a public authority or a railroad carrier that—

AMERICAN OVERSIGHT

"(i) is dedicated for the use of nonvehicular traffic, including pedestrians, bicyclists, and others;

"(ii) is not associated with a public highway, road, or street, or a private roadway; and

"(iii) crosses 1 or more railroad tracks, either at grade or grade-separated.

"(2) STATE.—The term 'State' means a State of the United States or the District of Columbia.".

(2) CLERICAL AMENDMENT.—The analysis for chapter 201 of title 49, United States Code, is amended by inserting after the item relating to section 20166 the following:

"20167. Reports on highway-rail grade crossing safety.".

(c) ANNUAL REPORT.—Section 130(g) of title 23, United States Code, is amended to read as follows:

"(g) ANNUAL REPORT.—

"(1) IN GENERAL.—Not later than August 31 of each year, each State shall submit a report to the Administrator of the Federal Highway Administration that describes—

"(A) the progress being made to implement the railway-highway crossings program authorized under this section; and

"(B) the effectiveness of the improvements made as a result of such implementation.

"(2) CONTENTS.—Each report submitted pursuant to paragraph (1) shall contain an assessment of—

"(A) the costs of the various treatments employed by the State to implement the railway-highway crossings program; and

"(B) the effectiveness of such treatments, as measured by the accident experience at the locations that received such treatments.

"(3) COORDINATION.—Not later than 30 days after the Federal Highway Administration's acceptance of each report submitted pursuant to paragraph (1), the Administrator of the Federal Highway Administration shall make such report available to the Administrator of the Federal Railroad Administration.".

SEC. 22404. BLOCKED CROSSING PORTAL.

(a) IN GENERAL.—The Administrator of the Federal Railroad Administration shall establish a 3-year blocked crossing portal, which shall include the maintenance of the portal and corresponding database to receive, store, and retrieve information regarding blocked highway-rail grade crossings.

(b) BLOCKED CROSSING PORTAL.—The Administrator of the Federal Railroad Administration shall establish a blocked crossing portal that—

(1) collects information from the public, including first responders, regarding blocked highway-rail grade crossing events;

(2) solicits the apparent cause of the blocked crossing and provides examples of common causes of blocked crossings, such as idling trains or instances when lights or gates are activated when no train is present;

(3) provides each complainant with the contact information for reporting a blocked crossing to the relevant railroad; and

AMERICAN OVERSIGHT

(4) encourages each complainant to report the blocked crossing to the relevant railroad.

(c) COMPLAINTS.—The blocked crossing portal shall be programmed to receive complaints from the general public about blocked highway-rail grade crossings. Any complaint reported through the portal shall indicate whether the complainant also reported the blocked crossing to the relevant railroad.

(d) INFORMATION RECEIVED.—In reviewing complaints received pursuant to subsection (c), the Federal Railroad Administration shall review, to the extent practicable, the information received from the complainant to account for duplicative or erroneous reporting.

(e) USE OF INFORMATION.—The information received and maintained in the blocked crossing portal database shall be used by the Federal Railroad Administration—

(1) to identify frequent and long-duration blocked highway-rail grade crossings;

(2) as a basis for conducting outreach to communities, emergency responders, and railroads;

(3) to support collaboration in the prevention of incidents at highway-rail grade crossings; and

(4) to assess the impacts of blocked crossings.

(f) SHARING INFORMATION RECEIVED.—

(1) IN GENERAL.—The Administrator of the Federal Railroad Administration shall implement and make publicly available procedures for sharing any nonaggregated information received through the blocked crossing portal with the public.

(2) RULE OF CONSTRUCTION.—Nothing in this section may be construed to authorize the Federal Railroad Administration to make publically available sensitive security information.

(g) ADDITIONAL INFORMATION.—If the information submitted to the blocked crossing portal is insufficient to determine the locations and potential impacts of blocked highway-rail grade crossings, the Federal Railroad Administration may collect, from the general public, State and local law enforcement personnel, and others as appropriate, and on a voluntary basis, such additional information as may be necessary to make such determinations.

(h) LIMITATIONS.—Complaints, data, and other information received through the blocked crossing portal may not be used—

(1) to infer or extrapolate the rate or instances of crossings beyond the data received through the portal; or

(2) for any regulatory or enforcement purposes except those specifically described in this section.

(i) REPORTS.—

(1) ANNUAL PUBLIC REPORT.—The Administrator of the Federal Railroad Administration shall publish an annual report on a public website regarding the blocked crossing program, including the underlying causes of blocked crossings, program challenges, and other findings.

(2) REPORT TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, the Administrator of the Federal Railroad Administration shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that describes—

(A) based on the information received through the blocked crossing portal, frequent and long-duration blocked

AMERICAN OVERSIGHT

highway-rail grade crossings, including the locations, dates, durations, and impacts resulting from such occurrences;

(B) the Federal Railroad Administration's process for verifying the accuracy of the complaints submitted to the blocked crossing portal, including whether the portal continues to be effective in collecting such information and identifying blocked crossings;

(C) the Federal Railroad Administration's use of the data compiled by the blocked crossing portal to assess the underlying cause and overall impacts of blocked crossings;

(D) the engagement of the Federal Railroad Administration with affected parties to identify and facilitate solutions to frequent and long-duration blocked highway-rail grade crossings identified by the blocked crossing portal; and

(E) whether the blocked crossing portal continues to be an effective method to collect blocked crossing information and what changes could improve its effectiveness.

(j) SUNSET.—This section (other than subsection (k)) shall have no force or effect beginning on the date that is 3 years after the date of enactment of this Act.

(k) RULE OF CONSTRUCTION.—Nothing in this section may be construed to invalidate any authority of the Secretary with respect to blocked highway-rail grade crossings. The Secretary may continue to use any such authority after the sunset date set forth in subsection (j).

SEC. 22405. DATA ACCESSIBILITY.

(a) REVIEW.—Not later than 180 days after the date of enactment of this Act, the Chief Information Officer of the Department shall—

(1) conduct a review of the website of the Office of Safety Analysis of the Federal Railroad Administration; and

(2) provide recommendations to the Secretary for improving the public's usability and accessibility of the website referred to in paragraph (1).

(b) UPDATES.—Not later than 1 year after receiving recommendations from the Chief Information Officer pursuant to subsection (a)(2), the Secretary, after considering such recommendations, shall update the website of the Office of Safety Analysis of the Federal Railroad Administration to improve the usability and accessibility of the website.

SEC. 22406. EMERGENCY LIGHTING.

Not later than 1 year after the date of enactment of this Act, the Secretary shall initiate a rulemaking to require that all rail carriers providing intercity passenger rail transportation or commuter rail passenger transportation (as such terms are defined in section 24102 of title 49, United States Code), develop and implement periodic inspection plans to ensure that passenger equipment offered for revenue service complies with the requirements under part 238 of title 49, Code of Federal Regulations, including ensuring that, in the event of a loss of power, there is adequate emergency lighting available to allow passengers, crew members, and first responders—

(1) to see and orient themselves;

(2) to identify obstacles;

AMERICAN OVERSIGHT

(3) to safely move throughout the rail car; and
(4) to evacuate safely.

SEC. 22407. COMPREHENSIVE RAIL SAFETY REVIEW OF AMTRAK.

(a) COMPREHENSIVE SAFETY ASSESSMENT.—Not later than 1 year after the date of enactment of this Act, the Secretary shall—

(1) conduct a focused review of Amtrak's safety-related processes and procedures, compliance with safety regulations and requirements, and overall safety culture; and

(2) submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that includes the findings and recommendations resulting from such assessment.

(b) PLAN.—

(1) INITIAL PLAN.—Not later than 6 months after the completion of the comprehensive safety assessment under subsection (a)(1), Amtrak shall submit a plan to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives for addressing the findings and recommendations raised in the comprehensive safety assessment.

(2) ANNUAL UPDATES.—Amtrak shall submit annual updates of its progress toward implementing the plan submitted pursuant to paragraph (1) to the committees listed in such paragraph.

SEC. 22408. COMPLETION OF HOURS OF SERVICE AND FATIGUE STUDIES.

(a) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator of the Federal Railroad Administration shall commence the pilot programs required under subparagraphs (A) and (B) of section 21109(e)(1) of title 49, United States Code.

(b) CONSULTATION.—The Federal Railroad Administration shall consult with the class or craft of employees impacted by the pilot projects, including railroad carriers, and representatives of labor organizations representing the impacted employees when designing and conducting the pilot programs referred to in subsection (a).

(c) REPORT.—If the pilot programs required under section 21109(e)(1) of title 49, United States Code, have not commenced on the date that is 1 year and 120 days after the date of enactment of this Act, the Secretary, not later than 30 days after such date, submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that describes—

(1) the status of such pilot programs;

(2) actions that the Federal Railroad Administration has taken to commence the pilot programs, including efforts to recruit participant railroads;

(3) any challenges impacting the commencement of the pilot programs; and

(4) any other details associated with the development of the pilot programs that affect progress toward meeting the mandate under such section 21109(e)(1).

AMERICAN OVERSIGHT

SEC. 22409. POSITIVE TRAIN CONTROL STUDY.

(a) STUDY.—The Comptroller General of the United States shall conduct a study to determine the annual positive train control system operation and maintenance costs for public commuter railroads.

(b) REPORT.—Not later than 2 years after the date of enactment of this Act, the Comptroller General of the United States shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that summarizes the study conducted pursuant to subsection (a), including the estimated annual positive train control system operation and maintenance costs for public commuter railroads.

SEC. 22410. OPERATING CREW MEMBER TRAINING, QUALIFICATION, AND CERTIFICATION.

(a) AUDITS.—Not later than 60 days after the date of enactment of this Act, the Secretary shall initiate audits of the training, qualification, and certification programs of locomotive engineers and conductors of railroad carriers, subject to the requirements of parts 240 and 242 of title 49, Code of Federal Regulations, which audits shall—

(1) be conducted in accordance with subsection (b);

(2) consider whether such programs are in compliance with such parts 240 and 242;

(3) assess the type and content of training that such programs provide locomotive engineers and conductors, relevant to their respective roles, including training related to installed technology;

(4) determine whether such programs provide locomotive engineers and conductors the knowledge, skill, and ability to safely operate a locomotive or train, consistent with such parts 240 and 242;

(5) determine whether such programs reflect the current operating practices of the railroad carrier;

(6) assess the current practice by which railroads utilize simulator training, or any other technologies used to train and qualify locomotive engineers and conductors by examining how such technologies are used;

(7) consider international experience and practice using similar technology, as appropriate, particularly before qualifying locomotive engineers on new or unfamiliar equipment, new train control, diagnostics, or other on-board technology;

(8) assess the current practice for familiarizing locomotive engineers and conductors with new territory and using recurrency training to expose such personnel to normal and abnormal conditions; and

(9) ensure that locomotive engineers and conductor training programs are considered separately, as appropriate, based on the unique requirements and regulations.

(b) AUDIT SCHEDULING.—The Secretary shall—

(1) schedule the audits required under subsection (a) to ensure that—

(A) each Class I railroad, including the National Railroad Passenger Corporation and other intercity passenger rail providers, is audited not less frequently than once every 5 years; and

AMERICAN OVERSIGHT

(B) a select number, as determined appropriate by the Secretary, of Class II and Class III railroads, along with other railroads providing passenger rail service that are not included in subparagraph (A), are audited annually; and

(2) conduct the audits described in paragraph (1)(B) in accordance with the Small Business Regulatory Enforcement Fairness Act of 1996 (5 U.S.C. 601 note) and appendix C of part 209 of title 49, Code of Federal Regulations.

(c) UPDATES TO QUALIFICATION AND CERTIFICATION PROGRAM.—If the Secretary, while conducting the audits required under this section, identifies a deficiency in a railroad's training, qualification, and certification program for locomotive engineers or conductors, the railroad shall update the program to eliminate such deficiency.

(d) CONSULTATION AND COOPERATION.—

(1) CONSULTATION.—In conducting any audit required under this section, the Secretary shall consult with the railroad and its employees, including any nonprofit employee labor organization representing the engineers or conductors of the railroad.

(2) COOPERATION.—The railroad and its employees, including any nonprofit employee labor organization representing engineers or conductors of the railroad, shall fully cooperate with any such audit, including by—

(A) providing any relevant documents requested; and

(B) making available any employees for interview without undue delay or obstruction.

(3) FAILURE TO COOPERATE.—If the Secretary determines that a railroad or any of its employees, including any nonprofit employee labor organization representing engineers or conductors of the railroad is not fully cooperating with an audit, the Secretary shall electronically notify the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives.

(e) REVIEW OF REGULATIONS.—The Secretary shall triennially determine whether any update to part 240 or 242 of title 49, Code of Federal Regulations, is necessary to better prepare locomotive engineers and conductors to safely operate trains by evaluating whether such regulations establish appropriate Federal standards requiring railroads—

(1) to provide locomotive engineers or conductors the knowledge and skills to safely operate trains under conditions that reflect industry practices;

(2) to adequately address locomotive engineer or conductor route situational awareness, including ensuring locomotive engineers and conductors to demonstrate knowledge on the physical characteristics of a territory under various conditions and using various resources;

(3) to provide relevant and adequate hands-on training before a locomotive engineer or conductor is certified;

(4) to adequately prepare locomotive engineers or conductors to understand relevant locomotive operating characteristics, to include instructions on functions they are required to operate on any installed technology; and

AMERICAN OVERSIGHT

(5) to address any other safety issue that the Secretary determines to be appropriate for better preparing locomotive engineers or conductors.

(f) ANNUAL REPORT.—The Secretary shall publish an annual report on the public website of the Federal Railroad Administration that—

(1) summarizes the findings of the prior year's audits;

(2) summarizes any updates made pursuant to subsection (c); and

(3) excludes and confidential business information or sensitive security information.

SEC. 22411. TRANSPARENCY AND SAFETY.

Section 20103(d) of title 49, United States Code, is amended to read as follows:

"(d) NONEMERGENCY WAIVERS.—

"(1) IN GENERAL.—The Secretary of Transportation may waive, or suspend the requirement to comply with, any part of a regulation prescribed or an order issued under this chapter if such waiver or suspension is in the public interest and consistent with railroad safety.

"(2) NOTICE REQUIRED.—The Secretary shall—

"(A) provide timely public notice of any request for a waiver under this subsection or for a suspension under subpart E of part 211 of title 49, Code of Federal Regulations, or successor regulations;

"(B) make available the application for such waiver or suspension and any nonconfidential underlying data to interested parties;

"(C) provide the public with notice and a reasonable opportunity to comment on a proposed waiver or suspension under this subsection before making a final decision; and

"(D) publish on a publicly accessible website the reasons for granting each such waiver or suspension.

"(3) INFORMATION PROTECTION.—Nothing in this subsection may be construed to require the release of information protected by law from public disclosure.

"(4) RULEMAKING.—

"(A) IN GENERAL.—Not later than 1 year after the first day on which a waiver under this subsection or a suspension under subpart E of part 211 of title 49, Code of Federal Regulations, or successor regulations, has been in continuous effect for a 6-year period, the Secretary shall complete a review and analysis of such waiver or suspension to determine whether issuing a rule that is consistent with the waiver is—

"(i) in the public interest; and

"(ii) consistent with railroad safety.

"(B) FACTORS.—In conducting the review and analysis under subparagraph (A), the Secretary shall consider—

"(i) the relevant safety record under the waiver or suspension;

"(ii) the likelihood that other entities would have similar safety outcomes;

"(iii) the materials submitted in the applications, including any comments regarding such materials; and

"(iv) related rulemaking activity.

AMERICAN OVERSIGHT

"(C) NOTICE AND COMMENT.—

"(i) IN GENERAL.—The Secretary shall publish the review and analysis required under this paragraph in the Federal Register, which shall include a summary of the data collected and all relevant underlying data, if the Secretary decides not to initiate a regulatory update under subparagraph (D).

"(ii) NOTICE OF PROPOSED RULEMAKING.—The review and analysis under this paragraph shall be included as part of the notice of proposed rulemaking if the Secretary initiates a regulatory update under subparagraph (D).

"(D) REGULATORY UPDATE.—The Secretary may initiate a rulemaking to incorporate relevant aspects of a waiver under this subsection or a suspension under subpart E of part 211 of title 49, Code of Federal Regulations, or successor regulations, into the relevant regulation, to the extent the Secretary considers appropriate.

"(5) RULE OF CONSTRUCTION.—Nothing in this subsection may be construed to delay any waiver granted pursuant to this subsection that is in the public interest and consistent with railroad safety.".

SEC. 22412. RESEARCH AND DEVELOPMENT.

Section 20108 of title 49, United States Code, is amended by adding at the end the following:

"(d) FACILITIES.—The Secretary may erect, alter, and repair buildings and make other public improvements to carry out necessary railroad research, safety, and training activities at the Transportation Technology Center in Pueblo, Colorado.

"(e) OFFSETTING COLLECTIONS.—The Secretary may collect fees or rents from facility users to offset appropriated amounts for the cost of providing facilities or research, development, testing, training, or other services, including long-term sustainment of the on-site physical plant.

"(f) REVOLVING FUND.—Amounts appropriated to carry out subsection (d) and all fees and rents collected pursuant to subsection (e) shall be credited to a revolving fund and remain available until expended. The Secretary may use such fees and rents for operation, maintenance, repair, or improvement of the Transportation Technology Center.

"(g) LEASES AND CONTRACTS.—Notwithstanding section 1302 of title 40, the Secretary may lease to others or enter into contracts for terms of up to 20 years, for such consideration and subject to such terms and conditions as the Secretary determines to be in the best interests of the Government of the United States, for the operation, maintenance, repair, and improvement of the Transportation Technology Center.

"(h) PROPERTY AND CASUALTY LOSS INSURANCE.—The Secretary may allow its lessees and contractors to purchase property and casualty loss insurance for its assets and activities at the Transportation Technology Center to mitigate the lessee's or contractor's risk associated with operating a facility.

"(i) ENERGY PROJECTS.—Notwithstanding section 1341 of title 31, the Secretary may enter into contracts or agreements, or commit to obligations in connection with third-party contracts or agreements, including contingent liability for the purchase of electric

AMERICAN OVERSIGHT

power in connection with such contracts or agreements, for terms not to exceed 20 years, to enable the use of the land at the Transportation Technology Center for projects to produce energy from renewable sources.".

SEC. 22413. RAIL RESEARCH AND DEVELOPMENT CENTER OF EXCELLENCE.

Section 20108 of title 49, United States Code, as amended by section 22412, is further amended by adding at the end the following:

"(j) RAIL RESEARCH AND DEVELOPMENT CENTER OF EXCELLENCE.—

"(1) CENTER OF EXCELLENCE.—The Secretary shall award grants to establish and maintain a center of excellence to advance research and development that improves the safety, efficiency, and reliability of passenger and freight rail transportation.

"(2) ELIGIBILITY.—An institution of higher education (as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)) or a consortium of nonprofit institutions of higher education shall be eligible to receive a grant from the center established pursuant to paragraph (1).

"(3) SELECTION CRITERIA.—In awarding a grant under this subsection, the Secretary shall—

"(A) give preference to applicants with strong past performance related to rail research, education, and workforce development activities;

"(B) consider the extent to which the applicant would involve public and private sector passenger and freight railroad operators; and

"(C) consider the regional and national impacts of the applicant's proposal.

"(4) USE OF FUNDS.—Grant funds awarded pursuant to this subsection shall be used for basic and applied research, evaluation, education, workforce development, and training efforts related to safety, project delivery, efficiency, reliability, resiliency, and sustainability of urban commuter, intercity high-speed, and freight rail transportation, to include advances in rolling stock, advanced positive train control, human factors, rail infrastructure, shared corridors, grade crossing safety, inspection technology, remote sensing, rail systems maintenance, network resiliency, operational reliability, energy efficiency, and other advanced technologies.

"(5) FEDERAL SHARE.—The Federal share of a grant awarded under this subsection shall be 50 percent of the cost of establishing and operating the center of excellence and related research activities carried out by the grant recipient.".

SEC. 22414. QUARTERLY REPORT ON POSITIVE TRAIN CONTROL SYSTEM PERFORMANCE.

Section 20157 of title 49, United States Code, is amended by adding at the end the following:

"(m) REPORTS ON POSITIVE TRAIN CONTROL SYSTEM PERFORMANCE.—

"(1) IN GENERAL.—Each host railroad subject to this section or subpart I of part 236 of title 49, Code of Federal Regulations, shall electronically submit to the Secretary of Transportation a Report of PTC System Performance on Form FRA F 6180.152,

AMERICAN OVERSIGHT

which shall be submitted on or before the applicable due date set forth in paragraph (3) and contain the information described in paragraph (2), which shall be separated by the host railroad, each applicable tenant railroad, and each positive train control-governed track segment, consistent with the railroad's positive train control Implementation Plan described in subsection (a)(1).

"(2) REQUIRED INFORMATION.—Each report submitted pursuant to paragraph (1) shall include, for the applicable reporting period—

"(A) the number of positive train control system initialization failures, disaggregated by the number of initialization failures for which the source or cause was the onboard subsystem, the wayside subsystem, the communications subsystem, the back office subsystem, or a non-positive train control component;

"(B) the number of positive train control system cut outs, disaggregated by each component listed in subparagraph (A) that was the source or cause of such cut outs;

"(C) the number of positive train control system malfunctions, disaggregated by each component listed in subparagraph (A) that was the source or cause of such malfunctions;

"(D) the number of enforcements by the positive train control system;

"(E) the number of enforcements by the positive train control system in which it is reasonable to assume an accident or incident was prevented;

"(F) the number of scheduled attempts at initialization of the positive train control system;

"(G) the number of train miles governed by the positive train control system; and

"(H) a summary of any actions the host railroad and its tenant railroads are taking to reduce the frequency and rate of initialization failures, cut outs, and malfunctions, such as any actions to correct or eliminate systemic issues and specific problems.

"(3) DUE DATES.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), each host railroad shall electronically submit the report required under paragraph (1) not later than—

"(i) April 30, for the period from January 1 through March 31;

"(ii) July 31, for the period from April 1 through June 30;

"(iii) October 31, for the period from July 1 through September 30; and

"(iv) January 31, for the period from October 1 through December 31 of the prior calendar year.

"(B) FREQUENCY REDUCTION.—Beginning on the date that is 3 years after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, the Secretary shall reduce the frequency with which host railroads are required to submit the report described in paragraph (1) to not less frequently than twice per year, unless the Secretary—

AMERICAN OVERSIGHT

"(i) determines that quarterly reporting is in the public interest; and

"(ii) publishes a justification for such determination in the Federal Register.

"(4) TENANT RAILROADS.—Each tenant railroad that operates on a host railroad's positive train control-governed main line and is not currently subject to an exception under section 236.1006(b) of title 49, Code of Federal Regulations, shall submit the information described in paragraph (2) to each applicable host railroad on a continuous basis.

"(5) ENFORCEMENTS.—Any railroad operating a positive train control system classified under Federal Railroad Administration Type Approval number FRA–TA–2010–001 or FRA–TA–2013–003 shall begin submitting the metric required under paragraph (2)(D) not later than January 31, 2023.".

SEC. 22415. SPEED LIMIT ACTION PLANS.

(a) CODIFICATION OF, AND AMENDMENT TO, SECTION 11406 OF THE FAST ACT.—Subchapter II of chapter 201 of subtitle V of title 49, United States Code, is amended by inserting after section 20168 the following:

"§ 20169. Speed limit action plans

"(a) IN GENERAL.—Not later than March 3, 2016, each railroad carrier providing intercity rail passenger transportation or commuter rail passenger transportation, in consultation with any applicable host railroad carrier, shall survey its entire system and identify each main track location where there is a reduction of more than 20 miles per hour from the approach speed to a curve, bridge, or tunnel and the maximum authorized operating speed for passenger trains at that curve, bridge, or tunnel.

"(b) ACTION PLANS.—Not later than 120 days after the date that the survey under subsection (a) is complete, a railroad carrier described in subsection (a) shall submit to the Secretary of Transportation an action plan that—

"(1) identifies each main track location where there is a reduction of more than 20 miles per hour from the approach speed to a curve, bridge, or tunnel and the maximum authorized operating speed for passenger trains at that curve, bridge, or tunnel;

"(2) describes appropriate actions to enable warning and enforcement of the maximum authorized speed for passenger trains at each location identified under paragraph (1), including—

"(A) modification to automatic train control systems, if applicable, or other signal systems;

"(B) increased crew size;

"(C) installation of signage alerting train crews of the maximum authorized speed for passenger trains in each location identified under paragraph (1);

"(D) installation of alerters;

"(E) increased crew communication; and

"(F) other practices;

"(3) contains milestones and target dates for implementing each appropriate action described under paragraph (2); and

"(4) ensures compliance with the maximum authorized speed at each location identified under paragraph (1).

AMERICAN OVERSIGHT

"(c) APPROVAL.—Not later than 90 days after the date on which an action plan is submitted under subsection (b) or (d)(2), the Secretary shall approve, approve with conditions, or disapprove the action plan.

"(d) PERIODIC REVIEWS AND UPDATES.—Each railroad carrier that submits an action plan to the Secretary pursuant to subsection (b) shall—

"(1) not later than 1 year after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, and annually thereafter, review such plan to ensure the effectiveness of actions taken to enable warning and enforcement of the maximum authorized speed for passenger trains at each location identified pursuant to subsection (b)(1); and

"(2) not later than 90 days before implementing any significant operational or territorial operating change, including initiating a new service or route, submit to the Secretary a revised action plan, after consultation with any applicable host railroad, that addresses such operational or territorial operating change.

"(e) NEW SERVICE.—If a railroad carrier providing intercity rail passenger transportation or commuter rail passenger transportation did not exist on the date of enactment of the FAST Act (Public Law 114–94; 129 Stat. 1312), such railroad carrier, in consultation with any applicable host railroad carrier, shall—

"(1) survey its routes pursuant to subsection (a) not later than 90 days after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021; and

"(2) develop an action plan pursuant to subsection (b) not later than 120 days after the date on which such survey is complete.

"(f) ALTERNATIVE SAFETY MEASURES.—The Secretary may exempt from the requirements under this section each segment of track for which operations are governed by a positive train control system certified under section 20157, or any other safety technology or practice that would achieve an equivalent or greater level of safety in reducing derailment risk.

"(g) PROHIBITION.—No new intercity or commuter rail passenger service may begin operation unless the railroad carrier providing such service is in compliance with the requirements under this section.

"(h) SAVINGS CLAUSE.—Nothing in this section may be construed to prohibit the Secretary from applying the requirements under this section to other segments of track at high risk of overspeed derailment.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 201 of subtitle V of title 49, United States Code, is amended by adding at the end the following:

"20169. Speed limit action plans.".

SEC. 22416. NEW PASSENGER SERVICE PRE-REVENUE SAFETY VALIDATION PLAN.

(a) IN GENERAL.—Subchapter II of chapter 201 of subtitle V of title 49, United States Code, as amended by section 22415, is further amended by adding at the end the following:

"§ 20170. Pre-revenue service safety validation plan

"(a) PLAN SUBMISSION.—Any railroad providing new, regularly scheduled, intercity or commuter rail passenger transportation, an

AMERICAN OVERSIGHT

extension of existing service, or a renewal of service that has been discontinued for more than 180 days shall develop and submit for review a comprehensive pre-revenue service safety validation plan to the Secretary of Transportation not later than 60 days before initiating such revenue service. Such plan shall include pertinent safety milestones and a minimum period of simulated revenue service to ensure operational readiness and that all safety sensitive personnel are properly trained and qualified.

"(b) COMPLIANCE.—After submitting a plan pursuant to subsection (a), the railroad shall adopt and comply with such plan and may not amend the plan without first notifying the Secretary of the proposed amendment. Revenue service may not begin until the railroad has completed the requirements of its plan, including the minimum simulated service period required by the plan.

"(c) RULEMAKING.—The Secretary shall promulgate regulations to carry out this section, including—

"(1) requiring that any identified safety deficiencies be addressed and corrected before the initiation of revenue service; and

"(2) establishing appropriate deadlines to enable the Secretary to review and approve the pre-revenue service safety validation plan to ensure that service is not unduly delayed.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 201 of title 49, United States Code, as amended by section 22415(b), is further amended by adding at the end the following:

"20170. Pre-revenue service safety validation plan.".

SEC. 22417. FEDERAL RAILROAD ADMINISTRATION ACCIDENT AND INCIDENT INVESTIGATIONS.

Section 20902 of title 49, United States Code, is amended—

(1) in subsection (b) by striking "subpena" and inserting "subpoena"; and

(2) by adding at the end the following:

"(d) GATHERING INFORMATION AND TECHNICAL EXPERTISE.—

"(1) IN GENERAL.—The Secretary shall create a standard process for investigators to use during accident and incident investigations conducted under this section for determining when it is appropriate and the appropriate method for—

"(A) gathering information about an accident or incident under investigation from railroad carriers, contractors or employees of railroad carriers or representatives of employees of railroad carriers, and others, as determined relevant by the Secretary; and

"(B) consulting with railroad carriers, contractors or employees of railroad carriers or representatives of employees of railroad carriers, and others, as determined relevant by the Secretary, for technical expertise on the facts of the accident or incident under investigation.

"(2) CONFIDENTIALITY.—In developing the process required under paragraph (1), the Secretary shall factor in ways to maintain the confidentiality of any entity identified under paragraph (1) if—

"(A) such entity requests confidentiality;

"(B) such entity was not involved in the accident or incident; and

AMERICAN OVERSIGHT

"(C) maintaining such entity's confidentiality does not adversely affect an investigation of the Federal Railroad Administration.

"(3) APPLICABILITY.—This subsection shall not apply to any investigation carried out by the National Transportation Safety Board.".

SEC. 22418. CIVIL PENALTY ENFORCEMENT AUTHORITY.

Section 21301(a) of title 49, United States Code, is amended by striking paragraph (3) and inserting the following:

"(3) The Secretary may find that a person has violated this chapter or a regulation prescribed or order, special permit, or approval issued under this chapter only after notice and an opportunity for a hearing. The Secretary shall impose a penalty under this section by giving the person written notice of the amount of the penalty. The Secretary may compromise the amount of a civil penalty by settlement agreement without issuance of an order. In determining the amount of a compromise, the Secretary shall consider—

"(A) the nature, circumstances, extent, and gravity of the violation;

"(B) with respect to the violator, the degree of culpability, any history of violations, the ability to pay, and any effect on the ability to continue to do business; and

"(C) other matters that justice requires.

"(4) The Attorney General may bring a civil action in an appropriate district court of the United States to collect a civil penalty imposed or compromise under this section and any accrued interest on the civil penalty. In the civil action, the amount and appropriateness of the civil penalty shall not be subject to review.".

SEC. 22419. ADVANCING SAFETY AND INNOVATIVE TECHNOLOGY.

(a) IN GENERAL.—Section 26103 of title 49, United States Code, is amended to read as follows:

"§ 26103. Safety regulations and evaluation

"The Secretary—

"(1) shall promulgate such safety regulations as may be necessary for high-speed rail services;

"(2) shall, before promulgating such regulations, consult with developers of new high-speed rail technologies to develop a method for evaluating safety performance; and

"(3) may solicit feedback from relevant safety experts or representatives of rail employees who perform work on similar technology or who may be expected to perform work on new technology, as appropriate.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 261 of title 49, United States Code, is amended by striking the item relating to section 26103 and inserting the following:

"26103. Safety regulations and evaluation.".

SEC. 22420. PASSENGER RAIL VEHICLE OCCUPANT PROTECTION SYSTEMS.

(a) STUDY.—The Administrator of the Federal Railroad Administration shall conduct a study of the potential installation and use in new passenger rail rolling stock of passenger rail vehicle occupant protection systems that could materially improve passenger safety.

AMERICAN OVERSIGHT

(b) CONSIDERATIONS.—In conducting the study under subsection (a), the Administrator shall consider minimizing the risk of secondary collisions, including estimating the costs and benefits of the new requirements, through the use of—

(1) occupant restraint systems;

(2) air bags;

(3) emergency window retention systems; and

(4) interior designs, including seats, baggage restraints, and table configurations and attachments.

(c) REPORT.—Not later than 2 years after the date of enactment of this Act, the Administrator shall—

(1) submit a report summarizing the findings of the study conducted pursuant to subsection (a) to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives; and

(2) publish such report on the website of the Federal Railroad Administration.

(d) RULEMAKING.—Following the completion of the study required under subsection (a), and after considering the costs and benefits of the proposed protection systems, the Administrator may promulgate a rule that establishes standards for the use of occupant protection systems in new passenger rail rolling stock.

SEC. 22421. FEDERAL RAILROAD ADMINISTRATION REPORTING REQUIREMENTS.

(a) ELIMINATION OF DUPLICATIVE OR UNNECESSARY REPORTING OR PAPERWORK REQUIREMENTS IN THE FEDERAL RAILROAD ADMINISTRATION.—

(1) REVIEW.—The Administrator of the Federal Railroad Administration (referred to in this subsection as the "FRA Administrator"), in consultation with the Administrator of the Federal Transit Administration, shall conduct a review of existing reporting and paperwork requirements in the Federal Railroad Administration to determine if any such requirements are duplicative or unnecessary.

(2) ELIMINATION OF CERTAIN REQUIREMENTS.—If the FRA Administrator determines, as a result of the review conducted pursuant to paragraph (1), that any reporting or paperwork requirement that is not statutorily required is duplicative or unnecessary, the FRA Administrator, after consultation with the Administrator of the Federal Transit Administration, shall terminate such requirement.

(3) REPORT.—Not later than 1 year after the date of enactment of this Act, the FRA Administrator shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that—

(A) identifies all of the reporting or paperwork requirements that were terminated pursuant to paragraph (2); and

(B) identifies any statutory reporting or paperwork requirements that are duplicative or unnecessary and should be repealed.

(b) SAFETY REPORTING.—Not later than 1 year after the date of enactment of this Act, and annually thereafter for the following 4 years, the Secretary shall update Special Study Block 49 on

AMERICAN OVERSIGHT

Form FRA F 6180.54 (Rail Equipment Accident/Incident Report) to collect, with respect to trains involved in accidents required to be reported to the Federal Railroad Administration—

(1) the number of cars and length of the involved trains; and

(2) the number of crew members who were aboard a controlling locomotive involved in an accident at the time of such accident.

SEC. 22422. NATIONAL ACADEMIES STUDY ON TRAINS LONGER THAN 7,500 FEET.

(a) STUDY.—The Secretary shall seek to enter into an agreement with the National Academies to conduct a study on the operation of freight trains that are longer than 7,500 feet.

(b) ELEMENTS.—The study conducted pursuant to subsection (a) shall—

(1) examine any potential impacts to safety from the operation of freight trains that are longer than 7,500 feet and the mitigation of any identified risks, including—

(A) any potential changes in the risk of loss of communications between the end of train device and the locomotive cab, including communications over differing terrains and conditions;

(B) any potential changes in the risk of loss of radio communications between crew members when a crew member alights from the train, including communications over differing terrains and conditions;

(C) any potential changes in the risk of derailments, including any risks associated with in-train compressive forces and slack action or other safety risks in the operations of such trains in differing terrains and conditions;

(D) any potential impacts associated with the deployment of multiple distributed power units in the consists of such trains; and

(E) any potential impacts on braking and locomotive performance and track wear and tear;

(2) evaluate any impacts on scheduling and efficiency of passenger operations and in the shipping of goods by freight as a result of longer trains;

(3) determine whether additional engineer and conductor training is required for safely operating such trains;

(4) assess the potential impact on the amount of time and frequency of occurrence highway-rail grade crossings are occupied; and

(5) identify any potential environmental impacts, including greenhouse gas emissions, that have resulted from the operation of longer trains.

(c) COMPARISON.—When evaluating the potential impacts of the operation of trains longer than 7,500 feet under subsection (b), the impacts of such trains shall be compared to the impacts of trains that are shorter than 7,500 feet, after taking into account train frequency.

(d) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of

AMERICAN OVERSIGHT

Representatives that contains the results of the study conducted by the National Academies under this section.

(e) FUNDING.—From the amounts appropriated for fiscal year 2021 pursuant to the authorization under section 20117(a) of title 49, United States Code, the Secretary shall expend not less than $1,000,000 and not more than $2,000,000 to carry out the study required under this section.

SEC. 22423. HIGH-SPEED TRAIN NOISE EMISSIONS.

(a) IN GENERAL.—Section 17 of the Noise Control Act of 1972 (42 U.S.C. 4916) is amended—

(1) by redesignating subsections (c) and (d) as subsections (d) and (e), respectively; and

(2) by inserting after subsection (b) the following:

"(c) HIGH-SPEED TRAIN NOISE EMISSIONS.—

"(1) IN GENERAL.—The Secretary of Transportation, in consultation with the Administrator, may prescribe regulations governing railroad-related noise emission standards for trains operating on the general railroad system of transportation at speeds exceeding 160 miles per hour, including noise related to magnetic levitation systems and other new technologies not traditionally associated with railroads.

"(2) FACTORS IN RULEMAKING.—The regulations prescribed pursuant to paragraph (1) may—

"(A) consider variances in maximum pass-by noise with respect to the speed of the equipment;

"(B) account for current engineering best practices; and

"(C) encourage the use of noise mitigation techniques to the extent reasonable if the benefits exceed the costs.

"(3) CONVENTIONAL-SPEED TRAINS.—Railroad-related noise regulations prescribed under subsection (a) shall continue to govern noise emissions from the operation of trains, including locomotives and rail cars, when operating at speeds not exceeding 160 miles per hour.".

(b) TECHNICAL AMENDMENT.—The second sentence of section 17(b) of the Noise Control Act of 1972 (42 U.S.C. 4916(b)) is amended by striking "the Safety Appliance Acts, the Interstate Commerce Act, and the Department of Transportation Act" and inserting "subtitle V of title 49, United States Code".

SEC. 22424. CRITICAL INCIDENT STRESS PLANS.

The Secretary shall amend part 272 of title 49, Code of Federal Regulations, to the extent necessary to ensure that—

(1) the coverage of a critical incident stress plan under section 272.7 of such part includes employees of commuter railroads and intercity passenger railroads (as such terms are defined in section 272.9 of such part), including employees who directly interact with passengers; and

(2) an assault against an employee requiring medical attention is included in the definition of critical incident under section 272.9 of such part.

SEC. 22425. REQUIREMENTS FOR RAILROAD FREIGHT CARS PLACED INTO SERVICE IN THE UNITED STATES.

(a) IN GENERAL.—Subchapter II of chapter 201 of subtitle V of title 49, United States Code (as amended by section 22416(a)), is amended by adding at the end the following:

AMERICAN OVERSIGHT

"§ 20171. Requirements for railroad freight cars placed into service in the United States

"(a) DEFINITIONS.—In this section:

"(1) COMPONENT.—The term 'component' means a part or subassembly of a railroad freight car.

"(2) CONTROL.—The term 'control' means the power, whether direct or indirect and whether or not exercised, through the ownership of a majority or a dominant minority of the total outstanding voting interest in an entity, representation on the board of directors of an entity, proxy voting on the board of directors of an entity, a special share in the entity, a contractual arrangement with the entity, a formal or informal arrangement to act in concert with an entity, or any other means, to determine, direct, make decisions, or cause decisions to be made for the entity.

"(3) COST OF SENSITIVE TECHNOLOGY.—The term 'cost of sensitive technology' means the aggregate cost of the sensitive technology located on a railroad freight car.

"(4) COUNTRY OF CONCERN.—The term 'country of concern' means a country that—

"(A) is identified by the Department of Commerce as a nonmarket economy country (as defined in section 771(18) of the Tariff Act of 1930 (19 U.S.C. 1677(18))) as of the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021;

"(B) was identified by the United States Trade Representative in the most recent report required by section 182 of the Trade Act of 1974 (19 U.S.C. 2242) as a foreign country included on the priority watch list (as defined in subsection (g)(3) of such section); and

"(C) is subject to monitoring by the Trade Representative under section 306 of the Trade Act of 1974 (19 U.S.C. 2416).

"(5) NET COST.—The term 'net cost' has the meaning given such term in chapter 4 of the USMCA or any subsequent free trade agreement between the United States, Mexico, and Canada.

"(6) QUALIFIED FACILITY.—The term 'qualified facility' means a facility that is not owned or under the control of a state-owned enterprise.

"(7) QUALIFIED MANUFACTURER.—The term 'qualified manufacturer' means a railroad freight car manufacturer that is not owned or under the control of a state-owned enterprise.

"(8) RAILROAD FREIGHT CAR.—The term 'railroad freight car' means a car designed to carry freight or railroad personnel by rail, including—

"(A) a box car;
"(B) a refrigerator car;
"(C) a ventilator car;
"(D) an intermodal well car;
"(E) a gondola car;
"(F) a hopper car;
"(G) an auto rack car;
"(H) a flat car;
"(I) a special car;
"(J) a caboose car;
"(K) a tank car; and

AMERICAN OVERSIGHT

"(L) a yard car.

"(9) SENSITIVE TECHNOLOGY.—The term 'sensitive technology' means any device embedded with electronics, software, sensors, or other connectivity, that enables the device to connect to, collect data from, or exchange data with another device, including—

"(A) onboard telematics;

"(B) remote monitoring software;

"(C) firmware;

"(D) analytics;

"(E) global positioning system satellite and cellular location tracking systems;

"(F) event status sensors;

"(G) predictive component condition and performance monitoring sensors; and

"(H) similar sensitive technologies embedded into freight railcar components and sub-assemblies.

"(10) STATE-OWNED ENTERPRISE.—The term 'state-owned enterprise' means—

"(A) an entity that is owned by, or under the control of, a national, provincial, or local government of a country of concern, or an agency of such government; or

"(B) an individual acting under the direction or influence of a government or agency described in subparagraph (A).

"(11) SUBSTANTIALLY TRANSFORMED.—The term 'substantially transformed' means a component of a railroad freight car that undergoes an applicable change in tariff classification as a result of the manufacturing process, as described in chapter 4 and related annexes of the USMCA or any subsequent free trade agreement between the United States, Mexico, and Canada.

"(12) USMCA.—The term 'USMCA' has the meaning given the term in section 3 of the United States-Mexico-Canada Agreement Implementation Act (19 U.S.C. 4502).

"(b) REQUIREMENTS FOR RAILROAD FREIGHT CARS.—

"(1) LIMITATION ON RAILROAD FREIGHT CARS.—A railroad freight car wholly manufactured on or after the date that is 1 year after the date of issuance of the regulations required under subsection (c)(1) may only operate on the United States general railroad system of transportation if—

"(A) the railroad freight car is manufactured, assembled, and substantially transformed, as applicable, by a qualified manufacturer in a qualified facility;

"(B) none of the sensitive technology located on the railroad freight car, including components necessary to the functionality of the sensitive technology, originates from a country of concern or is sourced from a state-owned enterprise; and

"(C) none of the content of the railroad freight car, excluding sensitive technology, originates from a country of concern or is sourced from a state-owned enterprise that has been determined by a recognized court or administrative agency of competent jurisdiction and legal authority to have violated or infringed valid United States intellectual property rights of another including such a finding

AMERICAN OVERSIGHT

by a Federal district court under title 35 or the U.S. International Trade Commission under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337).

"(2) LIMITATION ON RAILROAD FREIGHT CAR CONTENT.—

"(A) PERCENTAGE LIMITATION.—

"(i) INITIAL LIMITATION.—Not later than 1 year after the date of issuance of the regulations required under subsection (c)(1), a railroad freight car described in paragraph (1) may operate on the United States general railroad system of transportation only if not more than 20 percent of the content of the railroad freight car, calculated by the net cost of all components of the car and excluding the cost of sensitive technology, originates from a country of concern or is sourced from a state-owned enterprise.

"(ii) SUBSEQUENT LIMITATION.—Effective beginning on the date that is 3 years after the date of issuance of the regulations required under subsection (c)(1), a railroad freight car described in paragraph (1) may operate on the United States general railroad system of transportation only if not more than 15 percent of the content of the railroad freight car, calculated by the net cost of all components of the car and excluding the cost of sensitive technology, originates from a country of concern or is sourced from a state-owned enterprise.

"(B) CONFLICT.—The percentages specified in clauses (i) and (ii) of subparagraph (A), as applicable, shall apply notwithstanding any apparent conflict with provisions of chapter 4 of the USMCA.

"(c) REGULATIONS AND PENALTIES.—

"(1) REGULATIONS REQUIRED.—Not later than 2 years after the date of enactment of the Passenger Rail Expansion and Rail Safety Act of 2021, the Secretary of Transportation shall issue such regulations as are necessary to carry out this section, including for the monitoring and sensitive technology requirements of this section.

"(2) CERTIFICATION REQUIRED.—To be eligible to provide a railroad freight car for operation on the United States general railroad system of transportation, the manufacturer of such car shall annually certify to the Secretary of Transportation that any railroad freight cars to be so provided meet the requirements under this section.

"(3) COMPLIANCE.—

"(A) VALID CERTIFICATION REQUIRED.—At the time a railroad freight car begins operation on the United States general railroad system of transportation, the manufacturer of such railroad freight car shall have valid certification described in paragraph (2) for the year in which such car begins operation.

"(B) REGISTRATION OF NONCOMPLIANT CARS PROHIBITED.—A railroad freight car manufacturer may not register, or cause to be registered, a railroad freight car that does not comply with the requirements under this section in the Association of American Railroad's Umler system.

"(4) CIVIL PENALTIES.—

AMERICAN OVERSIGHT

"(A) IN GENERAL.—Pursuant to section 21301, the Secretary of Transportation may assess a civil penalty of not less than $100,000, but not more than $250,000, for each violation of this section for each railroad freight car.

"(B) PROHIBITION ON OPERATION FOR VIOLATIONS.—The Secretary of Transportation may prohibit a railroad freight car manufacturer with respect to which the Secretary has assessed more than 3 violations under subparagraph (A) from providing additional railroad freight cars for operation on the United States general railroad system of transportation until the Secretary determines—

"(i) such manufacturer is in compliance with this section; and

"(ii) all civil penalties assessed to such manufacturer pursuant to subparagraph (A) have been paid in full.".

(b) CLERICAL AMENDMENT.—The analysis for chapter 201 of subtitle V of title 49, United States Code (as amended by section 22416(b)), is amended by adding at the end the following:

"20171. Requirements for railroad freight cars placed into service in the United States.".

SEC. 22426. RAILROAD POINT OF CONTACT FOR PUBLIC SAFETY ISSUES.

All railroads shall—

(1) provide railroad contact information for public safety issues, including a telephone number, to the relevant Federal, State, and local oversight agencies; and

(2) post the information described in paragraph (1) on a publicly accessible website.

SEC. 22427. CONTROLLED SUBSTANCES TESTING FOR MECHANICAL EMPLOYEES.

Not later than 180 days after the date of enactment of this Act, the Secretary shall amend the regulations under part 219 of title 49, Code of Federal Regulations, to require all mechanical employees of railroads to be subject to all of the breath or body fluid testing set forth in subpart C, D, and E of such part, including random testing, reasonable suspicion testing, reasonable cause testing, pre-employment testing, return-to-duty testing, and follow-up testing.

TITLE III—MOTOR CARRIER SAFETY

SEC. 23001. AUTHORIZATION OF APPROPRIATIONS.

(a) ADMINISTRATIVE EXPENSES.—Section 31110 of title 49, United States Code, is amended by striking subsection (a) and inserting the following:

"(a) ADMINISTRATIVE EXPENSES.—There are authorized to be appropriated from the Highway Trust Fund (other than the Mass Transit Account) for the Secretary of Transportation to pay administrative expenses of the Federal Motor Carrier Safety Administration—

"(1) $360,000,000 for fiscal year 2022;
"(2) $367,500,000 for fiscal year 2023;
"(3) $375,000,000 for fiscal year 2024;
"(4) $382,500,000 for fiscal year 2025; and

AMERICAN OVERSIGHT

"(5) $390,000,000 for fiscal year 2026.".

(b) FINANCIAL ASSISTANCE PROGRAMS.—Section 31104 of title 49, United States Code, is amended—

(1) by striking subsection (a) and inserting the following:

"(a) FINANCIAL ASSISTANCE PROGRAMS.—There are authorized to be appropriated from the Highway Trust Fund (other than the Mass Transit Account)—

"(1) subject to subsection (c), to carry out the motor carrier safety assistance program under section 31102 (other than the high priority program under subsection (l) of that section)—

"(A) $390,500,000 for fiscal year 2022;
"(B) $398,500,000 for fiscal year 2023;
"(C) $406,500,000 for fiscal year 2024;
"(D) $414,500,000 for fiscal year 2025; and
"(E) $422,500,000 for fiscal year 2026;

"(2) subject to subsection (c), to carry out the high priority program under section 31102(l) (other than the commercial motor vehicle enforcement training and support grant program under paragraph (5) of that section)—

"(A) $57,600,000 for fiscal year 2022;
"(B) $58,800,000 for fiscal year 2023;
"(C) $60,000,000 for fiscal year 2024;
"(D) $61,200,000 for fiscal year 2025; and
"(E) $62,400,000 for fiscal year 2026;

"(3) to carry out the commercial motor vehicle enforcement training and support grant program under section 31102(l)(5), $5,000,000 for each of fiscal years 2022 through 2026;

"(4) to carry out the commercial motor vehicle operators grant program under section 31103—

"(A) $1,100,000 for fiscal year 2022;
"(B) $1,200,000 for fiscal year 2023;
"(C) $1,300,000 for fiscal year 2024;
"(D) $1,400,000 for fiscal year 2025; and
"(E) $1,500,000 for fiscal year 2026; and

"(5) subject to subsection (c), to carry out the financial assistance program for commercial driver's license implementation under section 31313—

"(A) $41,800,000 for fiscal year 2022;
"(B) $42,650,000 for fiscal year 2023;
"(C) $43,500,000 for fiscal year 2024;
"(D) $44,350,000 for fiscal year 2025; and
"(E) $45,200,000 for fiscal year 2026.";

(2) in subsection (b)(2)—

(A) in the third sentence, by striking "The Secretary" and inserting the following:

"(C) IN-KIND CONTRIBUTIONS.—The Secretary";

(B) in the second sentence, by striking "The Secretary" and inserting the following:

"(B) LIMITATION.—The Secretary";

(C) in the first sentence—

(i) by inserting "(except subsection (l)(5) of that section)" after "section 31102"; and

(ii) by striking "The Secretary" and inserting the following:

"(A) REIMBURSEMENT PERCENTAGE.—

"(i) IN GENERAL.—The Secretary"; and

AMERICAN OVERSIGHT

(D) in subparagraph (A) (as so designated), by adding at the end the following:

"(ii) COMMERCIAL MOTOR VEHICLE ENFORCEMENT TRAINING AND SUPPORT GRANT PROGRAM.—The Secretary shall reimburse a recipient, in accordance with a financial assistance agreement made under section 31102(l)(5), an amount that is equal to 100 percent of the costs incurred by the recipient in a fiscal year in developing and implementing a training program under that section.";

(3) in subsection (c)—

(A) in the subsection heading, by striking "PARTNER TRAINING AND";

(B) in the first sentence—

(i) by striking "(4)" and inserting "(5)"; and

(ii) by striking "partner training and"; and

(C) by striking the second sentence; and

(4) in subsection (f)—

(A) in paragraph (1), by striking "for the next fiscal year" and inserting "for the next 2 fiscal years";

(B) in paragraph (4), by striking "for the next fiscal year" and inserting "for the next 2 fiscal years";

(C) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and

(D) by inserting after paragraph (3) the following:

"(4) For grants made for carrying out section 31102(l)(5), for the fiscal year in which the Secretary approves the financial assistance agreement and for the next 4 fiscal years."; and

(5) in subsection (i)—

(A) by striking "Amounts not expended" and inserting the following:

"(1) IN GENERAL.—Except as provided in paragraph (2), amounts not expended"; and

(B) by adding at the end the following:

"(2) MOTOR CARRIER SAFETY ASSISTANCE PROGRAM.—Amounts made available for the motor carrier safety assistance program established under section 31102 (other than amounts made available to carry out section 31102(l)) that are not expended by a recipient during the period of availability shall be released back to the Secretary for reallocation under that program.".

(c) ENFORCEMENT DATA UPDATES.—Section 31102(h)(2)(A) of title 49, United States Code, is amended by striking "2004 and 2005" and inserting "2014 and 2015".

SEC. 23002. MOTOR CARRIER SAFETY ADVISORY COMMITTEE.

Section 4144 of the SAFETEA–LU (49 U.S.C. 31100 note; Public Law 109–59) is amended—

(1) in subsection (b)(1), in the second sentence, by inserting ", including small business motor carriers" after "industry"; and

(2) in subsection (d), by striking "September 30, 2013" and inserting "September 30, 2025".

SEC. 23003. COMBATING HUMAN TRAFFICKING.

Section 31102(l) of title 49, United States Code, is amended—

(1) in paragraph (2)—

AMERICAN OVERSIGHT

(A) in subparagraph (G)(ii), by striking "and" at the end;

(B) by redesignating subparagraph (H) as subparagraph (J); and

(C) by inserting after subparagraph (G) the following:

"(H) support, through the use of funds otherwise available for such purposes—

"(i) the recognition, prevention, and reporting of human trafficking, including the trafficking of human beings—

"(I) in a commercial motor vehicle; or

"(II) by any occupant, including the operator, of a commercial motor vehicle;

"(ii) the detection of criminal activity or any other violation of law relating to human trafficking; and

"(iii) enforcement of laws relating to human trafficking;

"(I) otherwise support the recognition, prevention, and reporting of human trafficking; and"; and

(2) in paragraph (3)(D)—

(A) in clause (ii), by striking "and" at the end;

(B) in clause (iii), by striking the period at the end and inserting a semicolon; and

(C) by adding at the end the following:

"(iv) for the detection of, and enforcement actions taken as a result of, criminal activity (including the trafficking of human beings)—

"(I) in a commercial motor vehicle; or

"(II) by any occupant, including the operator, of a commercial motor vehicle; and

"(v) in addition to any funds otherwise made available for the recognition, prevention, and reporting of human trafficking, to support the recognition, prevention, and reporting of human trafficking.".

SEC. 23004. IMMOBILIZATION GRANT PROGRAM.

Section 31102(l) of title 49, United States Code, is amended by adding at the end the following:

"(4) IMMOBILIZATION GRANT PROGRAM.—

"(A) DEFINITION OF PASSENGER-CARRYING COMMERCIAL MOTOR VEHICLE.—In this paragraph, the term 'passenger-carrying commercial motor vehicle' has the meaning given the term 'commercial motor vehicle' in section 31301.

"(B) ESTABLISHMENT.—The Secretary shall establish an immobilization grant program under which the Secretary shall provide to States discretionary grants for the immobilization or impoundment of passenger-carrying commercial motor vehicles that—

"(i) are determined to be unsafe; or

"(ii) fail inspection.

"(C) LIST OF CRITERIA FOR IMMOBILIZATION.—The Secretary, in consultation with State commercial motor vehicle entities, shall develop a list of commercial motor vehicle safety violations and defects that the Secretary determines warrant the immediate immobilization of a passenger-carrying commercial motor vehicle.

AMERICAN OVERSIGHT

"(D) ELIGIBILITY.—A State shall be eligible to receive a grant under this paragraph only if the State has the authority to require the immobilization or impoundment of a passenger-carrying commercial motor vehicle—

"(i) with respect to which a motor vehicle safety violation included in the list developed under subparagraph (C) is determined to exist; or

"(ii) that is determined to have a defect included in that list.

"(E) USE OF FUNDS.—A grant provided under this paragraph may be used for—

"(i) the immobilization or impoundment of passenger-carrying commercial motor vehicles described in subparagraph (D);

"(ii) safety inspections of those passenger-carrying commercial motor vehicles; and

"(iii) any other activity relating to an activity described in clause (i) or (ii), as determined by the Secretary.

"(F) SECRETARY AUTHORIZATION.—The Secretary may provide to a State amounts for the costs associated with carrying out an immobilization program using funds made available under section 31104(a)(2).".

SEC. 23005. COMMERCIAL MOTOR VEHICLE ENFORCEMENT TRAINING AND SUPPORT.

Section 31102(l) of title 49, United States Code (as amended by section 23004), is amended—

(1) in paragraph (1), by striking "(2) and (3)" and inserting "(2) through (5)"; and

(2) by adding at the end the following:

"(5) COMMERCIAL MOTOR VEHICLE ENFORCEMENT TRAINING AND SUPPORT GRANT PROGRAM.—

"(A) IN GENERAL.—The Secretary shall administer a commercial motor vehicle enforcement training and support grant program funded under section 31104(a)(3), under which the Secretary shall make discretionary grants to eligible entities described in subparagraph (C) for the purposes described in subparagraph (B).

"(B) PURPOSES.—The purposes of the grant program under subparagraph (A) are—

"(i) to train non-Federal employees who conduct commercial motor vehicle enforcement activities; and

"(ii) to develop related training materials.

"(C) ELIGIBLE ENTITIES.—An entity eligible for a discretionary grant under the program described in subparagraph (A) is a nonprofit organization that has—

"(i) expertise in conducting a training program for non-Federal employees; and

"(ii) the ability to reach and involve in a training program a target population of commercial motor vehicle safety enforcement employees.".

SEC. 23006. STUDY OF COMMERCIAL MOTOR VEHICLE CRASH CAUSATION.

(a) DEFINITIONS.—In this section:

AMERICAN OVERSIGHT

(1) COMMERCIAL MOTOR VEHICLE.—The term "commercial motor vehicle" has the meaning given the term in section 31132 of title 49, United States Code.

(2) STUDY.—The term "study" means the study carried out under subsection (b).

(b) STUDY.—The Secretary shall carry out a comprehensive study—

(1) to determine the causes of, and contributing factors to, crashes that involve a commercial motor vehicle; and

(2) to identify data requirements, data collection procedures, reports, and any other measures that can be used to improve the ability of States and the Secretary—

(A) to evaluate future crashes involving commercial motor vehicles;

(B) to monitor crash trends and identify causes and contributing factors; and

(C) to develop effective safety improvement policies and programs.

(c) DESIGN.—The study shall be designed to yield information that can be used to help policy makers, regulators, and law enforcement identify activities and other measures that are likely to lead to reductions in—

(1) the frequency of crashes involving a commercial motor vehicle;

(2) the severity of crashes involving a commercial motor vehicle; and

(3) fatalities and injuries.

(d) CONSULTATION.—In designing and carrying out the study, the Secretary may consult with individuals or entities with expertise on—

(1) crash causation and prevention;

(2) commercial motor vehicles, commercial drivers, and motor carriers, including passenger carriers;

(3) highways and noncommercial motor vehicles and drivers;

(4) Federal and State highway and motor carrier safety programs;

(5) research methods and statistical analysis; and

(6) other relevant topics, as determined by the Secretary.

(e) PUBLIC COMMENT.—The Secretary shall make available for public comment information about the objectives, methodology, implementation, findings, and other aspects of the study.

(f) REPORTS.—As soon as practicable after the date on which the study is completed, the Secretary shall submit to Congress a report describing the results of the study and any legislative recommendations to facilitate reductions in the matters described in paragraphs (1) through (3) of subsection (c).

SEC. 23007. PROMOTING WOMEN IN THE TRUCKING WORKFORCE.

(a) FINDINGS.—Congress finds that—

(1) women make up 47 percent of the workforce of the United States;

(2) women are significantly underrepresented in the trucking industry, holding only 24 percent of all transportation and warehousing jobs and representing only—

(A) 6.6 percent of truck drivers;

AMERICAN OVERSIGHT

(B) 12.5 percent of all workers in truck transportation; and

(C) 8 percent of freight firm owners;

(3) given the total number of women truck drivers, women are underrepresented in the truck-driving workforce; and

(4) women truck drivers have been shown to be 20 percent less likely than male counterparts to be involved in a crash.

(b) SENSE OF CONGRESS REGARDING WOMEN IN TRUCKING.—It is the sense of Congress that the trucking industry should explore every opportunity to encourage and support the pursuit and retention of careers in trucking by women, including through programs that support recruitment, driver training, and mentorship.

(c) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Federal Motor Carrier Safety Administration.

(2) BOARD.—The term "Board" means the Women of Trucking Advisory Board established under subsection (d)(1).

(3) LARGE TRUCKING COMPANY.—The term "large trucking company" means a motor carrier (as defined in section 13102 of title 49, United States Code) with more than 100 power units.

(4) MID-SIZED TRUCKING COMPANY.—The term "mid-sized trucking company" means a motor carrier (as defined in section 13102 of title 49, United States Code) with not fewer than 11 power units and not more than 100 power units.

(5) POWER UNIT.—The term "power unit" means a self-propelled vehicle under the jurisdiction of the Federal Motor Carrier Safety Administration.

(6) SMALL TRUCKING COMPANY.—The term "small trucking company" means a motor carrier (as defined in section 13102 of title 49, United States Code) with not fewer than 1 power unit and not more than 10 power units.

(d) WOMEN OF TRUCKING ADVISORY BOARD.—

(1) ESTABLISHMENT.—To encourage women to enter the field of trucking, the Administrator shall establish and facilitate an advisory board, to be known as the "Women of Trucking Advisory Board", to review and report on policies that—

(A) provide education, training, mentorship, or outreach to women in the trucking industry; and

(B) recruit, retain, or advance women in the trucking industry.

(2) MEMBERSHIP.—

(A) IN GENERAL.—The Board shall be composed of not fewer than 8 members whose backgrounds, experience, and certifications allow those members to contribute balanced points of view and diverse ideas regarding the matters described in paragraph (3)(B).

(B) APPOINTMENT.—

(i) IN GENERAL.—Not later than 270 days after the date of enactment of this Act, the Administrator shall appoint the members of the Board, of whom—

(I) not fewer than 1 shall be a representative of large trucking companies;

(II) not fewer than 1 shall be a representative of mid-sized trucking companies;

AMERICAN OVERSIGHT

(III) not fewer than 1 shall be a representative of small trucking companies;

(IV) not fewer than 1 shall be a representative of nonprofit organizations in the trucking industry;

(V) not fewer than 1 shall be a representative of trucking business associations;

(VI) not fewer than 1 shall be a representative of independent owner-operators;

(VII) not fewer than 1 shall be a woman who is a professional truck driver; and

(VIII) not fewer than 1 shall be a representative of an institution of higher education or trucking trade school.

(ii) DIVERSITY.—A member of the Board appointed under any of subclauses (I) through (VIII) of clause (i) may not be appointed under any other subclause of that clause.

(C) TERMS.—Each member shall be appointed for the life of the Board.

(D) COMPENSATION.—A member of the Board shall serve without compensation.

(3) DUTIES.—

(A) IN GENERAL.—The Board shall identify—

(i) barriers and industry trends that directly or indirectly discourage women from pursuing and retaining careers in trucking, including—

(I) any particular barriers and trends that impact women minority groups;

(II) any particular barriers and trends that impact women who live in rural, suburban, or urban areas; and

(III) any safety risks unique to women in the trucking industry;

(ii) ways in which the functions of trucking companies, nonprofit organizations, training and education providers, and trucking associations may be coordinated to facilitate support for women pursuing careers in trucking;

(iii) opportunities to expand existing opportunities for women in the trucking industry; and

(iv) opportunities to enhance trucking training, mentorship, education, and advancement and outreach programs that would increase the number of women in the trucking industry.

(B) REPORT.—Not later than 2 years after the date of enactment of this Act, the Board shall submit to the Administrator a report containing the findings and recommendations of the Board, including recommendations that companies, associations, institutions, other organizations, or the Administrator may adopt—

(i) to address any industry trends identified under subparagraph (A)(i);

(ii) to coordinate the functions of trucking companies, nonprofit organizations, and trucking associations in a manner that facilitates support for women pursuing careers in trucking;

AMERICAN OVERSIGHT

(iii)(I) to take advantage of any opportunities identified under subparagraph (A)(iii); and

(II) to create new opportunities to expand existing scholarship opportunities for women in the trucking industry; and

(iv) to enhance trucking training, mentorship, education, and outreach programs that are exclusive to women.

(4) REPORT TO CONGRESS.—

(A) IN GENERAL.—Not later than 3 years after the date of enactment of this Act, the Administrator shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report describing—

(i) the findings and recommendations of the Board under paragraph (3)(B); and

(ii) any actions taken by the Administrator to adopt the recommendations of the Board (or an explanation of the reasons for not adopting the recommendations).

(B) PUBLIC AVAILABILITY.—The Administrator shall make the report under subparagraph (A) publicly available—

(i) on the website of the Federal Motor Carrier Safety Administration; and

(ii) in appropriate offices of the Federal Motor Carrier Safety Administration.

(5) TERMINATION.—The Board shall terminate on submission of the report to Congress under paragraph (4).

SEC. 23008. STATE INSPECTION OF PASSENGER-CARRYING COMMERCIAL MOTOR VEHICLES.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall solicit additional comment on the advance notice of proposed rulemaking entitled "State Inspection Programs for Passenger-Carrier Vehicles" (81 Fed. Reg. 24769 (April 27, 2016)).

(b) FINAL RULE.—

(1) IN GENERAL.—After reviewing all comments received in response to the solicitation under subsection (a), if the Secretary determines that data and information exist to support moving forward with a final rulemaking action, the Secretary shall issue a final rule relating to the advance notice of proposed rulemaking described in that subsection.

(2) CONSIDERATIONS.—In determining whether to issue a final rule under paragraph (1), the Secretary shall consider the impact of continuing to allow self-inspection as a means to satisfy periodic inspection requirements on the safety of passenger carrier operations.

SEC. 23009. TRUCK LEASING TASK FORCE.

(a) ESTABLISHMENT.—Not later than 180 days after the date of enactment of this Act, the Secretary, in consultation with the Secretary of Labor, shall establish a task force, to be known as the "Truck Leasing Task Force" (referred to in this section as the "Task Force").

(b) MEMBERSHIP.—

AMERICAN OVERSIGHT

(1) IN GENERAL.—The Secretary shall select not more than 10 individuals to serve as members of the Task Force, including at least 1 representative from each of the following:

(A) Labor organizations.

(B) Motor carriers that provide lease-purchase agreements to owner-operators.

(C) Consumer protection groups.

(D) Members of the legal profession who specialize in consumer finance issues, including experience with lease-purchase agreements.

(E) Owner-operators in the trucking industry with experience regarding lease-purchase agreements.

(F) Businesses that provide or are subject to lease-purchase agreements in the trucking industry.

(2) COMPENSATION.—A member of the Task Force shall serve without compensation.

(c) DUTIES.—The Task Force shall examine, at a minimum—

(1) common truck leasing arrangements available to commercial motor vehicle drivers, including lease-purchase agreements;

(2) the terms of the leasing agreements described in paragraph (1);

(3)(A) the existence of inequitable leasing agreements and terms in the motor carrier industry;

(B) whether any such inequitable terms and agreements affect the frequency of maintenance performed on vehicles subject to those agreements; and

(C) whether any such inequitable terms and agreements affect whether a vehicle is kept in a general state of good repair;

(4) specific agreements available to drayage drivers at ports relating to the Clean Truck Program or any similar program to decrease emissions from port operations;

(5) the impact of truck leasing agreements on the net compensation of commercial motor vehicle drivers, including port drayage drivers;

(6) whether truck leasing agreements properly incentivize the safe operation of vehicles, including driver compliance with the hours of service regulations and laws governing speed and safety generally;

(7) resources to assist commercial motor vehicle drivers in assessing the financial impacts of leasing agreements; and

(8)(A) the opportunity that equitable leasing agreements provide for drivers to start or expand trucking companies; and

(B) the history of motor carriers starting from single owner-operators.

(d) REPORT.—On completion of the examination under subsection (c), the Task Force shall submit to the Secretary, the Secretary of Labor, and the appropriate committees of Congress a report containing—

(1) the findings of the Task Force with respect to the matters described in subsection (c);

(2) best practices relating to—

(A) assisting a commercial motor vehicle driver in assessing the impacts of leasing agreements prior to entering into such an agreement;

AMERICAN OVERSIGHT

(B) assisting a commercial motor vehicle driver who has entered into a predatory lease agreement; and

(C) preventing coercion and impacts on safety as described in section 31136 of title 49, United States Code; and

(3) recommendations relating to changes to laws (including regulations), as applicable, at the Federal, State, or local level to promote fair leasing agreements under which a commercial motor vehicle driver, including a short haul driver, who is a party to such an agreement is able to earn a rate commensurate with other commercial motor vehicle drivers performing similar duties.

(e) TERMINATION.—Not later than 30 days after the date on which the report under subsection (d) is submitted, the Task Force shall terminate.

SEC. 23010. AUTOMATIC EMERGENCY BRAKING.

(a) DEFINITIONS.—In this section:

(1) AUTOMATIC EMERGENCY BRAKING SYSTEM.—The term "automatic emergency braking system" means a system on a commercial motor vehicle that, based on a predefined distance and closing rate with respect to an obstacle in the path of the commercial motor vehicle—

(A) alerts the driver of the obstacle; and

(B) if necessary to avoid or mitigate a collision with the obstacle, automatically applies the brakes of the commercial motor vehicle.

(2) COMMERCIAL MOTOR VEHICLE.—The term "commercial motor vehicle" has the meaning given the term in section 31101 of title 49, United States Code.

(b) FEDERAL MOTOR VEHICLE SAFETY STANDARD.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Secretary shall—

(A) prescribe a motor vehicle safety standard under section 30111 of title 49, United States Code, that requires any commercial motor vehicle subject to section 571.136 of title 49, Code of Federal Regulations (relating to Federal Motor Vehicle Safety Standard Number 136) (or a successor regulation) that is manufactured after the effective date of the standard prescribed under this subparagraph to be equipped with an automatic emergency braking system; and

(B) as part of the standard under subparagraph (A), establish performance requirements for automatic emergency braking systems.

(2) CONSIDERATIONS.—Prior to prescribing the motor vehicle safety standard under paragraph (1)(A), the Secretary shall—

(A) conduct a review of automatic emergency braking systems in use in applicable commercial motor vehicles and address any identified deficiencies with respect to those automatic emergency braking systems in the rulemaking proceeding to prescribe the standard, if practicable; and

(B) consult with representatives of commercial motor vehicle drivers regarding the experiences of drivers with automatic emergency braking systems in use in applicable commercial motor vehicles, including any malfunctions or

AMERICAN OVERSIGHT

unwarranted activations of those automatic emergency braking systems.

(c) FEDERAL MOTOR CARRIER SAFETY REGULATION.—Not later than 1 year after the date of enactment of this Act, the Secretary shall prescribe a regulation under section 31136 of title 49, United States Code, that requires that an automatic emergency braking system installed in a commercial motor vehicle manufactured after the effective date of the standard prescribed under subsection (b)(1)(A) that is in operation on or after that date and is subject to section 571.136 of title 49, Code of Federal Regulations (relating to Federal Motor Vehicle Safety Standard Number 136) (or a successor regulation) be used at any time during which the commercial motor vehicle is in operation.

(d) REPORT ON AUTOMATIC EMERGENCY BRAKING IN OTHER COMMERCIAL MOTOR VEHICLES.—

(1) STUDY.—Not later than 2 years after the date of enactment of this Act, the Secretary shall complete a study on equipping a variety of commercial motor vehicles not subject to section 571.136 of title 49, Code of Federal Regulations (relating to Federal Motor Vehicle Safety Standard Number 136) (or a successor regulation) as of that date of enactment with automatic emergency braking systems to avoid or mitigate a collision with an obstacle in the path of the commercial motor vehicle, including an assessment of the feasibility, benefits, and costs associated with installing automatic emergency braking systems on a variety of newly manufactured commercial motor vehicles with a gross vehicle weight rating greater than 10,001 pounds.

(2) INDEPENDENT RESEARCH.—If the Secretary enters into a contract with a third party to perform research relating to the study required under paragraph (1), the Secretary shall ensure that the third party does not have any financial or contractual ties to, or relationships with—

(A) a motor carrier that transports passengers or property for compensation;

(B) the motor carrier industry; or

(C) an entity producing or supplying automatic emergency braking systems.

(3) PUBLIC COMMENT.—Not later than 90 days after the date on which the study under paragraph (1) is completed, the Secretary shall—

(A) issue a notice in the Federal Register containing the findings of the study; and

(B) provide an opportunity for public comment.

(4) REPORT TO CONGRESS.—Not later than 90 days after the conclusion of the public comment period under paragraph (3)(B), the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committees on Transportation and Infrastructure and Energy and Commerce of the House of Representatives a report that includes—

(A) the results of the study under paragraph (1);

(B) a summary of any comments received under paragraph (3)(B); and

(C) a determination as to whether the Secretary intends to develop performance requirements for automatic emergency braking systems for applicable commercial

AMERICAN OVERSIGHT

motor vehicles, including any analysis that led to that determination.

(5) RULEMAKING.—Not later than 2 years after the date on which the study under paragraph (1) is completed, the Secretary shall—

(A) determine whether a motor vehicle safety standard relating to equipping the commercial motor vehicles described in that paragraph with automatic emergency braking systems would meet the requirements and considerations described in subsections (a) and (b) of section 30111 of title 49, United States Code; and

(B) if the Secretary determines that a motor vehicle safety standard described in subparagraph (A) would meet the requirements and considerations described in that subparagraph, initiate a rulemaking to prescribe such a motor vehicle safety standard.

SEC. 23011. UNDERRIDE PROTECTION.

(a) DEFINITIONS.—In this section:

(1) COMMITTEE.—The term "Committee" means the Advisory Committee on Underride Protection established under subsection (d)(1).

(2) MOTOR CARRIER.—The term "motor carrier" has the meaning given the term in section 13102 of title 49, United States Code.

(3) PASSENGER MOTOR VEHICLE.—The term "passenger motor vehicle" has the meaning given the term in section 32101 of title 49, United States Code.

(4) UNDERRIDE CRASH.—The term "underride crash" means a crash in which a trailer or semitrailer intrudes into the passenger compartment of a passenger motor vehicle.

(b) REAR UNDERRIDE GUARDS.—

(1) TRAILERS AND SEMITRAILERS.—

(A) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall promulgate such regulations as are necessary to revise sections 571.223 and 571.224 of title 49, Code of Federal Regulations (relating to Federal Motor Vehicle Safety Standard Numbers 223 and 224, respectively), to require trailers and semitrailers manufactured after the date on which those regulations are promulgated to be equipped with rear impact guards that are designed to prevent passenger compartment intrusion from a trailer or semitrailer when a passenger motor vehicle traveling at 35 miles per hour makes—

(i) an impact in which the passenger motor vehicle impacts the center of the rear of the trailer or semitrailer;

(ii) an impact in which 50 percent of the width of the passenger motor vehicle overlaps the rear of the trailer or semitrailer; and

(iii) an impact in which 30 percent of the width of the passenger motor vehicle overlaps the rear of the trailer or semitrailer, if the Secretary determines that a revision of sections 571.223 and 571.224 of title 49, Code of Federal Regulations (relating to Federal Motor Vehicle Safety Standard Numbers 223 and 224,

AMERICAN OVERSIGHT

respectively) to address such an impact would meet the requirements and considerations described in subsections (a) and (b) of section 30111 of title 49, United States Code.

(B) EFFECTIVE DATE.—The regulations promulgated under subparagraph (A) shall require full compliance with each Federal Motor Vehicle Safety Standard revised pursuant to those regulations not later than 2 years after the date on which those regulations are promulgated.

(2) ADDITIONAL RESEARCH.—The Secretary shall conduct additional research on the design and development of rear impact guards that can—

(A) prevent underride crashes in cases in which the passenger motor vehicle is traveling at speeds of up to 65 miles per hour; and

(B) protect passengers in passenger motor vehicles against severe injury in crashes in which the passenger motor vehicle is traveling at speeds of up to 65 miles per hour.

(3) REVIEW OF STANDARDS.—Not later than 5 years after the date on which the regulations under paragraph (1)(A) are promulgated, the Secretary shall—

(A) review the Federal Motor Vehicle Safety Standards revised pursuant to those regulations and any other requirements of those regulations relating to rear underride guards on trailers or semitrailers to evaluate the need for changes in response to advancements in technology; and

(B) update those Federal Motor Vehicle Safety Standards and those regulations accordingly.

(4) INSPECTIONS.—

(A) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall promulgate such regulations as are necessary to revise the regulations relating to minimum periodic inspection standards under appendix G to subchapter B of chapter III of title 49, Code of Federal Regulations, and the regulations relating to driver vehicle inspection reports under section 396.11 of that title to include requirements relating to rear impact guards and rear end protection that are consistent with the requirements described in section 393.86 of that title.

(B) CONSIDERATIONS.—In revising the regulations described in subparagraph (A), the Secretary shall consider it to be a defect or a deficiency if a rear impact guard is missing an, or has a corroded or compromised, element that affects the structural integrity and protective feature of the rear impact guard.

(c) SIDE UNDERRIDE GUARDS.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall—

(A) complete additional research on side underride guards to better understand the overall effectiveness of side underride guards;

(B) assess the feasibility, benefits, and costs of, and any impacts on intermodal equipment, freight mobility (including port operations), and freight capacity associated

AMERICAN OVERSIGHT

with, installing side underride guards on newly manufactured trailers and semitrailers with a gross vehicle weight rating of 10,000 pounds or more;

(C) consider the unique structural and operational aspects of—

(i) intermodal chassis (as defined in section 340.2 of title 46, Code of Federal Regulations; and

(ii) pole trailers (as defined in section 390.5 of title 49, Code of Federal Regulations; and

(D) if warranted, develop performance standards for side underride guards.

(2) INDEPENDENT RESEARCH.—If the Secretary enters into a contract with a third party to perform the research required under paragraph (1)(A), the Secretary shall ensure that the third party does not have any financial or contractual ties to, or relationships with—

(A) a motor carrier that transports passengers or property for compensation;

(B) the motor carrier industry; or

(C) an entity producing or supplying underride guards.

(3) PUBLICATION OF ASSESSMENT.—Not later than 90 days after completion of the assessment required under paragraph (1)(B), the Secretary shall—

(A) issue a notice in the Federal Register containing the findings of the assessment; and

(B) provide an opportunity for public comment.

(4) REPORT TO CONGRESS.—Not later than 90 days after the conclusion of the public comment period under paragraph (3)(B), the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that includes—

(A) the results of the assessment under paragraph (1)(B);

(B) a summary of any comments received by the Secretary under paragraph (3)(B); and

(C) a determination as to whether the Secretary intends to develop performance requirements for side underride guards, including any analysis that led to that determination.

(d) ADVISORY COMMITTEE ON UNDERRIDE PROTECTION.—

(1) ESTABLISHMENT.—The Secretary shall establish an Advisory Committee on Underride Protection to provide advice and recommendations to the Secretary on safety regulations to reduce underride crashes and fatalities relating to underride crashes.

(2) MEMBERSHIP.—

(A) IN GENERAL.—The Committee shall be composed of not more than 20 members, appointed by the Secretary, who—

(i) are not employees of the Department; and

(ii) are qualified to serve on the Committee because of their expertise, training, or experience.

(B) REPRESENTATION.—The Committee shall include 2 representatives of each of the following:

(i) Truck and trailer manufacturers.

AMERICAN OVERSIGHT

(ii) Motor carriers, including independent owner-operators.
(iii) Law enforcement.
(iv) Motor vehicle engineers.
(v) Motor vehicle crash investigators.
(vi) Truck safety organizations.
(vii) The insurance industry.
(viii) Emergency medical service providers.
(ix) Families of underride crash victims.
(x) Labor organizations.

(3) COMPENSATION.—Members of the Committee shall serve without compensation.

(4) MEETINGS.—The Committee shall meet not less frequently than annually.

(5) SUPPORT.—On request of the Committee, the Secretary shall provide information, administrative services, and supplies necessary for the Committee to carry out the duties of the Committee.

(6) REPORT.—The Committee shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a biennial report that—

(A) describes the advice and recommendations made to the Secretary; and

(B) includes an assessment of progress made by the Secretary in advancing safety regulations relating to underride crashes.

(e) DATA COLLECTION.—Not later than 1 year after the date of enactment of this Act, the Secretary shall implement the recommendations described in the report of the Government Accountability Office entitled "Truck Underride Guards: Improved Data Collection, Inspections, and Research Needed", published on March 14, 2019, and numbered GAO–19–264.

SEC. 23012. PROVIDERS OF RECREATIONAL ACTIVITIES.

Section 13506(b) of title 49, United States Code, is amended—

(1) in paragraph (2), by striking "or" at the end;

(2) in paragraph (3), by striking the period at the end and inserting "; or"; and

(3) by adding at the end the following:

"(4) transportation by a motor vehicle designed or used to transport not fewer than 9, and not more than 15, passengers (including the driver), whether operated alone or with a trailer attached for the transport of recreational equipment, if—

"(A) the motor vehicle is operated by a person that provides recreational activities;

"(B) the transportation is provided within a 150 air-mile radius of the location at which passengers initially boarded the motor vehicle at the outset of the trip; and

"(C) in the case of a motor vehicle transporting passengers over a route between a place in a State and a place in another State, the person operating the motor vehicle is lawfully providing transportation of passengers over the entire route in accordance with applicable State law.".

AMERICAN OVERSIGHT

SEC. 23013. AMENDMENTS TO REGULATIONS RELATING TO TRANSPORTATION OF HOUSEHOLD GOODS IN INTERSTATE COMMERCE.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATION.—The term "Administration" means the Federal Motor Carrier Safety Administration.

(2) COVERED CARRIER.—The term "covered carrier" means a motor carrier that is—

(A) engaged in the interstate transportation of household goods; and

(B) subject to the requirements of part 375 of title 49, Code of Federal Regulations (as in effect on the effective date of any amendments made pursuant to the notice of proposed rulemaking issued under subsection (b)).

(b) AMENDMENTS TO REGULATIONS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue a notice of proposed rulemaking to amend, as the Secretary determines to be appropriate, regulations relating to the interstate transportation of household goods.

(c) CONSIDERATIONS.—In issuing the notice of proposed rulemaking under subsection (b), the Secretary shall consider amending the following provisions of title 49, Code of Federal Regulations, in accordance with the following recommendations:

(1) Section 375.207(b) to require each covered carrier to include on the website of the covered carrier a link—

(A) to the publication of the Administration entitled "Ready to Move–Tips for a Successful Interstate Move" and numbered ESA–03–005 on the website of the Administration; or

(B) to a copy of the publication referred to in subparagraph (A) on the website of the covered carrier.

(2) Subsections (a) and (b)(1) of section 375.213 to require each covered carrier to provide to each individual shipper, together with any written estimate provided to the shipper, a copy of the publication described in appendix A of part 375 of that title, entitled "Your Rights and Responsibilities When You Move" and numbered ESA–03–006 (or a successor publication), in the form of a written copy or a hyperlink on the website of the covered carrier to the location on the website of the Administration containing that publication.

(3) Section 375.213 to repeal subsection (e) of that section.

(4) Section 375.401(a) to require each covered carrier—

(A) to conduct a visual survey of the household goods to be transported by the covered carrier—

(i) in person; or

(ii) virtually, using—

(I) a remote camera; or

(II) another appropriate technology;

(B) to offer a visual survey described in subparagraph (A) for all household goods shipments, regardless of the distance between—

(i) the location of the household goods; and

(ii) the location of the agent of the covered carrier preparing the estimate; and

(C) to provide to each shipper a copy of the publication of the Administration entitled "Ready to Move–Tips for a Successful Interstate Move" and numbered ESA–03–005

AMERICAN OVERSIGHT

on receipt from the shipper of a request to schedule, or a waiver of, a visual survey offered under subparagraph (B).

(5) Sections 375.401(b)(1), 375.403(a)(6)(ii), and 375.405(b)(7)(ii), and subpart D of appendix A of part 375, to require that, in any case in which a shipper tenders any additional item or requests any additional service prior to loading a shipment, the affected covered carrier shall—

(A) prepare a new estimate; and

(B) maintain a record of the date, time, and manner in which the new estimate was accepted by the shipper.

(6) Section 375.501(a), to establish that a covered carrier is not required to provide to a shipper an order for service if the covered carrier elects to provide the information described in paragraphs (1) through (15) of that section in a bill of lading that is presented to the shipper before the covered carrier receives the shipment.

(7) Subpart H of part 375, to replace the replace the terms "freight bill" and "expense bill" with the term "invoice".

SEC. 23014. IMPROVING FEDERAL-STATE MOTOR CARRIER SAFETY ENFORCEMENT COORDINATION.

(a) DEFINITIONS.—In this section:

(1) COVERED STATE.—The term "covered State" means a State that receives Federal funds under the motor carrier safety assistance program established under section 31102 of title 49, United States Code.

(2) IMMINENT HAZARD.—The term "imminent hazard" has the same meaning as in section 521 of title 49, United States Code.

(b) REVIEW AND ENFORCEMENT OF STATE OUT-OF-SERVICE ORDERS.—As soon as practicable after the date of enactment of this Act, the Secretary shall publish in the Federal Register a process under which the Secretary shall review each out-of-service order issued by a covered State in accordance with section 31144(d) of title 49, United States Code, by not later than 30 days after the date on which the out-of-service order is submitted to the Secretary by the covered State.

(c) REVIEW AND ENFORCEMENT OF STATE IMMINENT HAZARD DETERMINATIONS.—

(1) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary shall publish in the Federal Register a process under which the Secretary shall review imminent hazard determinations made by covered States.

(2) ENFORCEMENT.—On reviewing an imminent hazard determination under paragraph (1), the Secretary shall pursue enforcement under section 521 of title 49, United States Code, as the Secretary determines to be appropriate.

SEC. 23015. LIMOUSINE RESEARCH.

(a) DEFINITIONS.—In this section:

(1) LIMOUSINE.—The term "limousine" means a motor vehicle—

(A) that has a seating capacity of 9 or more persons (including the driver);

(B) with a gross vehicle weight rating greater than 10,000 pounds but not greater than 26,000 pounds;

AMERICAN OVERSIGHT

(C) that the Secretary has determined by regulation has physical characteristics resembling—

(i) a passenger car;

(ii) a multipurpose passenger vehicle; or

(iii) a truck with a gross vehicle weight rating of 10,000 pounds or less; and

(D) that is not a taxi, nonemergency medical, or paratransit motor vehicle.

(2) LIMOUSINE OPERATOR.—The term "limousine operator" means a person who owns or leases, and uses, a limousine to transport passengers for compensation.

(3) MOTOR VEHICLE SAFETY STANDARD.—The term "motor vehicle safety standard" has the meaning given the term in section 30102(a) of title 49, United States Code.

(4) STATE.—The term "State" has the meaning given such term in section 30102(a) of title 49, United States Code.

(b) CRASHWORTHINESS.—

(1) RESEARCH.—Not later than 4 years after the date of enactment of this Act, the Secretary shall complete research into the development of motor vehicle safety standards for side impact protection, roof crush resistance, and air bag systems for the protection of occupants in limousines with alternative seating positions, including perimeter seating arrangements.

(2) RULEMAKING OR REPORT.—

(A) CRASHWORTHINESS STANDARDS.—

(i) IN GENERAL.—Subject to clause (ii), not later than 2 years after the date on which the research under paragraph (1) is completed, the Secretary shall prescribe, for the protection of occupants in limousines with alternative seating positions, a final motor vehicle safety standard for each of the following:

(I) Side impact protection.

(II) Roof crush resistance.

(III) Air bag systems.

(ii) REQUIREMENTS AND CONSIDERATIONS.—The Secretary may only prescribe a motor vehicle safety standard described in clause (i) if the Secretary determines that the standard meets the requirements and considerations described in subsections (a) and (b) of section 30111 of title 49, United States Code.

(B) REPORT.—If the Secretary determines that a motor vehicle safety standard described in subparagraph (A)(i) would not meet the requirements and considerations described in subsections (a) and (b) of section 30111 of title 49, United States Code, the Secretary shall publish in the Federal Register and submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report describing the reasons for not prescribing the standard.

(c) EVACUATION.—

(1) RESEARCH.—Not later than 2 years after the date of enactment of this Act, the Secretary shall complete research into safety features and standards that aid evacuation in the event that an exit in the passenger compartment of a limousine is blocked.

AMERICAN OVERSIGHT

(2) RULEMAKING OR REPORT.—

(A) LIMOUSINE EVACUATION.—

(i) IN GENERAL.—Subject to clause (ii), not later than 2 years after the date on which the research under paragraph (1) is completed, the Secretary shall prescribe a final motor vehicle safety standard based on the results of that research.

(ii) REQUIREMENTS AND CONSIDERATIONS.—The Secretary may only prescribe a motor vehicle safety standard described in clause (i) if the Secretary determines that the standard meets the requirements and considerations described in subsections (a) and (b) of section 30111 of title 49, United States Code.

(B) REPORT.—If the Secretary determines that a standard described in subparagraph (A)(i) would not meet the requirements and considerations described in subsections (a) and (b) of section 30111 of title 49, United States Code, the Secretary shall publish in the Federal Register and submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report describing the reasons for not prescribing the standard.

(d) LIMOUSINE INSPECTION DISCLOSURE.—

(1) IN GENERAL.—A limousine operator may not introduce a limousine into interstate commerce unless the limousine operator has prominently disclosed in a clear and conspicuous notice, including on the website of the operator if the operator has a website, the following:

(A) The date of the most recent inspection of the limousine required under State or Federal law, if applicable.

(B) The results of the inspection, if applicable.

(C) Any corrective action taken by the limousine operator to ensure the limousine passed inspection, if applicable.

(2) FEDERAL TRADE COMMISSION ENFORCEMENT.—

(A) IN GENERAL.—The Federal Trade Commission shall enforce this subsection in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this subsection.

(B) TREATMENT.—Any person who violates this subsection shall be subject to the penalties and entitled to the privileges and immunities provided in the Federal Trade Commission Act (15 U.S.C. 41 et seq.).

(3) SAVINGS PROVISION.—Nothing in this subsection limits the authority of the Federal Trade Commission under any other provision of law.

(4) EFFECTIVE DATE.—This subsection shall take effect on the date that is 180 days after the date of enactment of this Act.

SEC. 23016. NATIONAL CONSUMER COMPLAINT DATABASE.

(a) IN GENERAL.—Not later than 18 months after the date of enactment of this Act, the Comptroller General of the United States shall submit to the Committee on Commerce, Science, and

AMERICAN OVERSIGHT

Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the National Consumer Complaint Database of the Federal Motor Carrier Safety Administration.

(b) CONTENTS.—The report under subsection (a) shall include—

(1) a review of the process and effectiveness of efforts to review and follow-up on complaints submitted to the National Consumer Complaint Database;

(2) an identification of the top 5 complaint categories;

(3) an identification of—

(A) the process that the Federal Motor Carrier Safety Administration uses to determine which entities to take enforcement actions against; and

(B) the top categories of enforcement actions taken by the Federal Motor Carrier Safety Administration;

(4) a review of the use of the National Consumer Complaint Database website over the 5-year period ending on December 31, 2020, including information obtained by conducting interviews with drivers, customers of movers of household goods, brokers, motor carriers, including small business motor carriers, and other users of the website to determine the usability of the website;

(5) a review of efforts taken by the Federal Motor Carrier Safety Administration to raise awareness of the National Consumer Complaint Database; and

(6) recommendations, as appropriate, including with respect to methods—

(A) for improving the usability of the National Consumer Complaint Database website;

(B) for improving the review of complaints;

(C) for using data collected through the National Consumer Complaint Database to identify bad actors;

(D) to improve confidence and transparency in the complaint process; and

(E) for improving stakeholder awareness of and participation in the National Consumer Complaint Database and the complaint system, including improved communication about the purpose of the National Consumer Complaint Database.

SEC. 23017. ELECTRONIC LOGGING DEVICE OVERSIGHT.

Not later than 180 days after the date of enactment of this Act, the Secretary shall submit to Congress a report analyzing the cost and effectiveness of electronic logging devices and detailing the processes—

(1) used by the Federal Motor Carrier Safety Administration—

(A) to review electronic logging device logs; and

(B) to protect proprietary information and personally identifiable information obtained from electronic logging device logs; and

(2) through which an operator may challenge or appeal a violation notice issued by the Federal Motor Carrier Safety Administration relating to an electronic logging device.

AMERICAN OVERSIGHT

SEC. 23018. TRANSPORTATION OF AGRICULTURAL COMMODITIES AND FARM SUPPLIES.

Section 229(a)(1) of the Motor Carrier Safety Improvement Act of 1999 (49 U.S.C. 31136 note; Public Law 106–159) is amended—

(1) in subparagraph (B), by striking "or" at the end;

(2) in subparagraph (C), by striking the period at the end and inserting "; or"; and

(3) by adding at the end the following:

"(D) drivers transporting livestock (as defined in section 602 of the Emergency Livestock Feed Assistance Act of 1988 (7 U.S.C. 1471) including insects) within a 150 air-mile radius from the final destination of the livestock.".

SEC. 23019. MODIFICATION OF RESTRICTIONS ON CERTAIN COMMERCIAL DRIVER'S LICENSES.

The Administrator of the Federal Motor Carrier Safety Administration shall revise section 383.3(f)(3)(ii) of title 49, Code of Federal Regulations (or a successor regulation), to provide that a restricted commercial driver's license issued to an employee in a farm-related service industry shall be limited to the applicable seasonal periods defined by the State issuing the restricted commercial driver's license, subject to the condition that the total number of days in any calendar year during which the restricted commercial driver's license is valid does not exceed 210.

SEC. 23020. REPORT ON HUMAN TRAFFICKING VIOLATIONS INVOLVING COMMERCIAL MOTOR VEHICLES.

Not later than 3 years after the date of enactment of this Act, and every 3 years thereafter, the Secretary, acting through the Department of Transportation Advisory Committee on Human Trafficking established under section 5(a) of the Combating Human Trafficking in Commercial Vehicles Act (Public Law 115–99; 131 Stat. 2243), shall coordinate with the Attorney General to prepare and submit to Congress a report relating to human trafficking violations involving commercial motor vehicles, which shall include recommendations for countering human trafficking, including an assessment of previous best practices by transportation stakeholders.

SEC. 23021. BROKER GUIDANCE RELATING TO FEDERAL MOTOR CARRIER SAFETY REGULATIONS.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue guidance to clarify the definitions of the terms "broker" and "bona fide agents" in section 371.2 of title 49, Code of Federal Regulations.

(b) CONSIDERATIONS.—In issuing guidance under subsection (a), the Secretary shall take into consideration—

(1) the extent to which technology has changed the nature of freight brokerage;

(2) the role of bona fide agents; and

(3) other aspects of the freight transportation industry.

(c) DISPATCH SERVICES.—In issuing guidance under subsection (a), the Secretary shall, at a minimum—

(1) examine the role of a dispatch service in the transportation industry;

(2) examine the extent to which dispatch services could be considered brokers or bona fide agents; and

AMERICAN OVERSIGHT

(3) clarify the level of financial penalties for unauthorized brokerage activities under section 14916 of title 49, United States Code, applicable to a dispatch service.

SEC. 23022. APPRENTICESHIP PILOT PROGRAM.

(a) DEFINITIONS.—In this section:

(1) APPRENTICE.—The term "apprentice" means an individual who—

(A) is under the age of 21; and

(B) holds a commercial driver's license.

(2) COMMERCIAL DRIVER'S LICENSE.—The term "commercial driver's license" has the meaning given the term in section 31301 of title 49, United States Code.

(3) COMMERCIAL MOTOR VEHICLE.—The term "commercial motor vehicle" has the meaning given the term in section 390.5 of title 49, Code of Federal Regulations (as in effect on the date of enactment of this Act).

(4) DRIVING TIME.—The term "driving time" has the meaning given the term in section 395.2 of title 49, Code of Federal Regulations (as in effect on the date of enactment of this Act).

(5) EXPERIENCED DRIVER.—The term "experienced driver" means an individual who—

(A) is not younger than 26 years of age;

(B) has held a commercial driver's license for the 2-year period ending on the date on which the individual serves as an experienced driver under subsection (b)(2)(C)(ii);

(C) during the 2-year period ending on the date on which the individual serves as an experienced driver under subsection (b)(2)(C)(ii), has had no—

(i) preventable accidents reportable to the Department; or

(ii) pointed moving violations; and

(D) has a minimum of 5 years of experience driving a commercial motor vehicle in interstate commerce.

(6) ON-DUTY TIME.—The term "on-duty time" has the meaning given the term in section 395.2 of title 49, Code of Federal Regulations (as in effect on the date of enactment of this Act).

(7) POINTED MOVING VIOLATION.—The term "pointed moving violation" means a violation that results in points being added to the license of a driver, or a similar comparable violation, as determined by the Secretary.

(b) PILOT PROGRAM.—

(1) IN GENERAL.—Not later than 60 days after the date of enactment of this Act, the Secretary shall establish, in accordance with section 31315(c) of title 49, United States Code, a pilot program allowing employers to establish the apprenticeship programs described in paragraph (2).

(2) DESCRIPTION OF APPRENTICESHIP PROGRAM.—An apprenticeship program referred to in paragraph (1) is a program that consists of the following requirements:

(A) 120-HOUR PROBATIONARY PERIOD.—

(i) IN GENERAL.—The apprentice shall complete 120 hours of on-duty time, of which not less than

AMERICAN OVERSIGHT

80 hours shall be driving time in a commercial motor vehicle.

(ii) PERFORMANCE BENCHMARKS.—To complete the 120-hour probationary period under clause (i), the employer of an apprentice shall determine that the apprentice is competent in each of the following areas:

(I) Interstate, city traffic, rural 2-lane, and evening driving.

(II) Safety awareness.

(III) Speed and space management.

(IV) Lane control.

(V) Mirror scanning.

(VI) Right and left turns.

(VII) Logging and complying with rules relating to hours of service.

(B) 280-HOUR PROBATIONARY PERIOD.—

(i) IN GENERAL.—After completing the 120-hour probationary period under subparagraph (A), an apprentice shall complete 280 hours of on-duty time, of which not less than 160 hours shall be driving time in a commercial motor vehicle.

(ii) PERFORMANCE BENCHMARKS.—To complete the 280-hour probationary period under clause (i), the employer of an apprentice shall determine that the apprentice is competent in each of the following areas:

(I) Backing and maneuvering in close quarters.

(II) Pretrip inspections.

(III) Fueling procedures.

(IV) Weighing loads, weight distribution, and sliding tandems.

(V) Coupling and uncoupling procedures.

(VI) Trip planning, truck routes, map reading, navigation, and permits.

(C) RESTRICTIONS FOR PROBATIONARY PERIODS.—During the 120-hour probationary period under subparagraph (A) and the 280-hour probationary period under subparagraph (B)—

(i) an apprentice may only drive a commercial motor vehicle that has—

(I) an automatic manual or automatic transmission;

(II) an active braking collision mitigation system;

(III) a forward-facing video event capture system; and

(IV) a governed speed of 65 miles per hour—

(aa) at the pedal; and

(bb) under adaptive cruise control; and

(ii) an apprentice shall be accompanied in the passenger seat of the commercial motor vehicle by an experienced driver.

(D) RECORDS RETENTION.—The employer of an apprentice shall maintain records, in a manner required by the Secretary, relating to the satisfaction of the performance benchmarks described in subparagraphs (A)(ii) and (B)(ii) by the apprentice.

AMERICAN OVERSIGHT

(E) REPORTABLE INCIDENTS.—If an apprentice is involved in a preventable accident reportable to the Department or a pointed moving violation while driving a commercial motor vehicle as part of an apprenticeship program described in this paragraph, the apprentice shall undergo remediation and additional training until the apprentice can demonstrate, to the satisfaction of the employer, competence in each of the performance benchmarks described in subparagraphs (A)(ii) and (B)(ii).

(F) COMPLETION OF PROGRAM.—An apprentice shall be considered to have completed an apprenticeship program on the date on which the apprentice completes the 280-hour probationary period under subparagraph (B).

(G) MINIMUM REQUIREMENTS.—

(i) IN GENERAL.—Nothing in this section prevents an employer from imposing any additional requirement on an apprentice participating in an apprenticeship program established under this section.

(ii) TECHNOLOGIES.—Nothing in this section prevents an employer from requiring or installing in a commercial motor vehicle any technology in addition to the technologies described in subparagraph (C)(i).

(3) APPRENTICES.—An apprentice may—

(A) drive a commercial motor vehicle in interstate commerce while participating in the 120-hour probationary period under paragraph (2)(A) or the 280-hour probationary period under paragraph (2)(B) pursuant to an apprenticeship program established by an employer in accordance with this section; and

(B) drive a commercial motor vehicle in interstate commerce after the apprentice completes an apprenticeship program described in paragraph (2), unless the Secretary determines there exists a safety concern.

(4) LIMITATION.—The Secretary may not allow more than 3,000 apprentices at any 1 time to participate in the pilot program established under paragraph (1).

(c) TERMINATION.—Effective beginning on the date that is 3 years after the date of establishment of the pilot program under subsection (b)(1)—

(1) the pilot program shall terminate; and

(2) any driver under the age of 21 who has completed an apprenticeship program described in subsection (b)(2) may drive a commercial motor vehicle in interstate commerce, unless the Secretary determines there exists a safety concern.

(d) NO EFFECT ON LICENSE REQUIREMENT.—Nothing in this section exempts an apprentice from any requirement to hold a commercial driver's license in order to operate a commercial motor vehicle.

(e) DATA COLLECTION.—The Secretary shall collect and analyze—

(1) data relating to any incident in which an apprentice participating in the pilot program established under subsection (b)(1) is involved;

(2) data relating to any incident in which a driver under the age of 21 operating a commercial motor vehicle in intrastate commerce is involved; and

AMERICAN OVERSIGHT

(3) such other data relating to the safety of apprentices aged 18 to 20 years operating in interstate commerce as the Secretary determines to be necessary.

(f) LIMITATION.—A driver under the age of 21 participating in the pilot program under this section may not—

(1) transport—

(A) a passenger; or

(B) hazardous cargo; or

(2) operate a commercial motor vehicle—

(A) in special configuration; or

(B) with a gross vehicle weight rating of more than 80,000 pounds.

(g) REPORT TO CONGRESS.—Not later than 120 days after the date of conclusion of the pilot program under subsection (b), the Secretary shall submit to Congress a report including—

(1) the findings and conclusions resulting from the pilot program, including with respect to technologies or training provided by commercial motor carriers for apprentices as part of the pilot program to successfully improve safety;

(2) an analysis of the safety record of apprentices participating in the pilot program, as compared to other commercial motor vehicle drivers;

(3) the number of drivers that discontinued participation in the apprenticeship program before completion;

(4) a comparison of the safety records of participating drivers before, during, and after the probationary periods under subparagraphs (A) and (B) of subsection (b)(2);

(5) a comparison, for each participating driver, of average on-duty time, driving time, and time spent away from home terminal before, during, and after the probationary periods referred to in paragraph (4); and

(6) a recommendation, based on the data collected, regarding whether the level of safety achieved by the pilot program is equivalent to, or greater than, the level of safety for equivalent commercial motor vehicle drivers aged 21 years or older.

(h) RULE OF CONSTRUCTION.—Nothing in this section affects the authority of the Secretary under section 31315 of title 49, United States Code, with respect to the pilot program established under subsection (b)(1), including the authority to revoke participation in, and terminate, the pilot program under paragraphs (3) and (4) of subsection (c) of that section.

(i) DRIVER COMPENSATION STUDY.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary, acting through the Administrator of the Federal Motor Carrier Safety Administration, shall offer to enter into a contract with the Transportation Research Board under which the Transportation Research Board shall conduct a study of the impacts of various methods of driver compensation on safety and driver retention, including—

(A) hourly pay;

(B) payment for detention time; and

(C) other payment methods used in the industry as of the date on which the study is conducted.

AMERICAN OVERSIGHT

(2) CONSULTATION.—In conducting the study under paragraph (1), the Transportation Research Board shall consult with—

(A) labor organizations representing commercial motor vehicle drivers;

(B) representatives of the motor carrier industry, including owner-operators; and

(C) such other stakeholders as the Transportation Research Board determines to be relevant.

SEC. 23023. LIMOUSINE COMPLIANCE WITH FEDERAL SAFETY STANDARDS.

(a) LIMOUSINE STANDARDS.—

(1) SAFETY BELT AND SEATING SYSTEM STANDARDS FOR LIMOUSINES.—Not later than 2 years after the date of enactment of this Act, the Secretary shall prescribe a final rule that—

(A) amends Federal Motor Vehicle Safety Standard Numbers 208, 209, and 210 to require to be installed in limousines on each designated seating position, including on side-facing seats—

(i) an occupant restraint system consisting of integrated lap-shoulder belts; or

(ii) an occupant restraint system consisting of a lap belt, if an occupant restraint system described in clause (i) does not meet the need for motor vehicle safety; and

(B) amends Federal Motor Vehicle Safety Standard Number 207 to require limousines to meet standards for seats (including side-facing seats), seat attachment assemblies, and seat installation to minimize the possibility of failure by forces acting on the seats, attachment assemblies, and installations as a result of motor vehicle impact.

(2) REPORT ON RETROFIT ASSESSMENT FOR LIMOUSINES.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that assesses the feasibility, benefits, and costs with respect to the application of any requirement established under paragraph (1) to a limousine introduced into interstate commerce before the date on which the requirement takes effect.

(b) MODIFICATIONS OF CERTAIN VEHICLES.—The final rule prescribed under subsection (a)(1) and any standards prescribed under subsection (b) or (c) of section 23015 shall apply to a person modifying a passenger motor vehicle (as defined in section 32101 of title 49, United States Code) that has already been purchased by the first purchaser (as defined in section 30102(b) of that title) by increasing the wheelbase of the vehicle to make the vehicle a limousine.

(c) APPLICATION.—The requirements of this section apply notwithstanding section 30112(b)(1) of title 49, United States Code.

AMERICAN OVERSIGHT

TITLE IV—HIGHWAY AND MOTOR VEHICLE SAFETY

Subtitle A—Highway Traffic Safety

SEC. 24101. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—The following amounts are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) HIGHWAY SAFETY PROGRAMS.—To carry out section 402 of title 23, United States Code—

(A) $363,400,000 for fiscal year 2022;
(B) $370,900,000 for fiscal year 2023;
(C) $378,400,000 for fiscal year 2024;
(D) $385,900,000 for fiscal year 2025; and
(E) $393,400,000 for fiscal year 2026.

(2) HIGHWAY SAFETY RESEARCH AND DEVELOPMENT.—To carry out section 403 of title 23, United States Code—

(A) $186,000,000 for fiscal year 2022;
(B) $190,000,000 for fiscal year 2023;
(C) $194,000,000 for fiscal year 2024;
(D) $198,000,000 for fiscal year 2025; and
(E) $202,000,000 for fiscal year 2026.

(3) HIGH-VISIBILITY ENFORCEMENT PROGRAM.—To carry out section 404 of title 23, United States Code—

(A) $36,400,000 for fiscal year 2022;
(B) $38,300,000 for fiscal year 2023;
(C) $40,300,000 for fiscal year 2024;
(D) $42,300,000 for fiscal year 2025; and
(E) $44,300,000 for fiscal year 2026.

(4) NATIONAL PRIORITY SAFETY PROGRAMS.—To carry out section 405 of title 23, United States Code—

(A) $336,500,000 for fiscal year 2022;
(B) $346,500,000 for fiscal year 2023;
(C) $353,500,000 for fiscal year 2024;
(D) $360,500,000 for fiscal year 2025; and
(E) $367,500,000 for fiscal year 2026.

(5) ADMINISTRATIVE EXPENSES.—For administrative and related operating expenses of the National Highway Traffic Safety Administration in carrying out chapter 4 of title 23, United States Code, and this title—

(A) $38,000,000 for fiscal year 2022;
(B) $39,520,000 for fiscal year 2023;
(C) $41,100,800 for fiscal year 2024;
(D) $42,744,832 for fiscal year 2025; and
(E) $44,454,625 for fiscal year 2026.

(6) NATIONAL DRIVER REGISTER.—For the National Highway Traffic Safety Administration to carry out chapter 303 of title 49, United States Code—

(A) $6,800,000 for fiscal year 2022;
(B) $7,000,000 for fiscal year 2023;
(C) $7,200,000 for fiscal year 2024;
(D) $7,400,000 for fiscal year 2025; and
(E) $7,600,000 for fiscal year 2026.

AMERICAN OVERSIGHT

(b) PROHIBITION ON OTHER USES.—Except as otherwise provided in chapter 4 of title 23, and chapter 303 of title 49, United States Code, the amounts made available under subsection (a) or any other provision of law from the Highway Trust Fund (other than the Mass Transit Account) for a program under those chapters—

(1) shall only be used to carry out that program; and

(2) may not be used by a State or local government for construction purposes.

(c) APPLICABILITY OF TITLE 23.—Except as otherwise provided in chapter 4 of title 23, and chapter 303 of title 49, United States Code, the amounts made available under subsection (a) for fiscal years 2022 through 2026 shall be available for obligation in the same manner as if those funds were apportioned under chapter 1 of title 23, United States Code.

(d) HIGHWAY SAFETY GENERAL REQUIREMENTS.—

(1) IN GENERAL.—Chapter 4 of title 23, United States Code, is amended—

(A) by redesignating sections 409 and 412 and sections 407 and 408, respectively; and

(B) by inserting after section 405 the following:

"§ 406. General requirements for Federal assistance

"(a) DEFINITION OF FUNDED PROJECT.—In this section, the term 'funded project' means a project funded, in whole or in part, by a grant provided under section 402 or 405.

"(b) REGULATORY AUTHORITY.—Each funded project shall be carried out in accordance with applicable regulations promulgated by the Secretary.

"(c) STATE MATCHING REQUIREMENTS.—If a grant provided under this chapter requires any State to share in the cost of a funded project, the aggregate of the expenditures made by the State (including any political subdivision of the State) for highway safety activities during a fiscal year, exclusive of Federal funds, for carrying out the funded project (other than expenditures for planning or administration) shall be credited toward the non-Federal share of the cost of any other funded project (other than planning and administration) during that fiscal year, regardless of whether those expenditures were made in connection with the project.

"(d) GRANT APPLICATION AND DEADLINE.—

"(1) APPLICATIONS.—To be eligible to receive a grant under this chapter, a State shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

"(2) DEADLINE.—The Secretary shall establish a single deadline for the submission of applications under paragraph (1) to enable the provision of grants under this chapter early in each applicable fiscal year beginning after the date of submission.

"(e) DISTRIBUTION OF FUNDS TO STATES.—Not later than 60 days after the later of the start of a fiscal year or the date of enactment of any appropriations Act making funds available to carry out this chapter for that fiscal year, the Secretary shall distribute to each State the portion of those funds to which the State is entitled for the applicable fiscal year.".

AMERICAN OVERSIGHT

(2) CLERICAL AMENDMENT.—The analysis for chapter 4 of title 23, United States Code, is amended by striking the items relating to sections 406 through 412 and inserting the following:

"406. General requirements for Federal assistance.
"407. Discovery and admission as evidence of certain reports and surveys.
"408. Agency accountability.".

SEC. 24102. HIGHWAY SAFETY PROGRAMS.

(a) IN GENERAL.—Section 402 of title 23, United States Code, is amended—

(1) by striking "accidents" each place it appears and inserting "crashes";

(2) by striking "accident" each place it appears and inserting "crash";

(3) in subsection (a)—

(A) in paragraph (1), by striking "shall have" and all that follows through the period at the end and inserting the following: "shall have in effect a highway safety program that—

"(i) is designed to reduce—

"(I) traffic crashes; and

"(II) deaths, injuries, and property damage resulting from those crashes;

"(ii) includes—

"(I) an approved, current, triennial highway safety plan in accordance with subsection (k); and

"(II) an approved grant application under subsection (l) for the fiscal year;

"(iii) demonstrates compliance with the applicable administrative requirements of subsection (b)(1); and

"(iv) is approved by the Secretary.";

(B) in paragraph (2)(A)—

(i) in clause (ii), by striking "occupant protection devices (including the use of safety belts and child restraint systems)" and inserting "safety belts";

(ii) in clause (vii), by striking "and" at the end;

(iii) by redesignating clauses (iii) through (viii) as clauses (iv) through (ix), respectively;

(iv) by inserting after clause (ii) the following:

"(iii) to encourage more widespread and proper use of child restraints, with an emphasis on underserved populations;"; and

(v) by adding at the end the following:

"(x) to reduce crashes caused by driver misuse or misunderstanding of new vehicle technology;

"(xi) to increase vehicle recall awareness;

"(xii) to provide to the public information relating to the risks of child heatstroke death when left unattended in a motor vehicle after the motor is deactivated by the operator;

"(xiii) to reduce injuries and deaths resulting from the failure by drivers of motor vehicles to move to another traffic lane or reduce the speed of the vehicle when law enforcement, fire service, emergency medical services, or other emergency or first responder vehicles are stopped or parked on or next to a roadway with emergency lights activated; and

AMERICAN OVERSIGHT

"(xiv) to prevent crashes, injuries, and deaths caused by unsecured vehicle loads;"; and

(C) by adding at the end the following:

"(3) ADDITIONAL CONSIDERATIONS.—A State that has legalized medicinal or recreational marijuana shall take into consideration implementing programs in addition to the programs described in paragraph (2)(A)—

"(A) to educate drivers regarding the risks associated with marijuana-impaired driving; and

"(B) to reduce injuries and deaths resulting from individuals driving motor vehicles while impaired by marijuana.";

(4) in subsection (b)(1)—

(A) in the matter preceding subparagraph (A), by striking "may" and inserting "shall";

(B) by striking subparagraph (B) and inserting the following:

"(B) provide for a comprehensive, data-driven traffic safety program that results from meaningful public participation and engagement from affected communities, particularly those most significantly impacted by traffic crashes resulting in injuries and fatalities;";

(C) in subparagraph (C), by striking "authorized in accordance with subparagraph (B)";

(D) in subparagraph (D), by striking "with disabilities, including those in wheelchairs" and inserting ", including those with disabilities and those in wheelchairs";

(E) by striking subparagraph (E) and inserting the following:

"(E) as part of a comprehensive program, support—

"(i) data-driven traffic safety enforcement programs that foster effective community collaboration to increase public safety; and

"(ii) data collection and analysis to ensure transparency, identify disparities in traffic enforcement, and inform traffic enforcement policies, procedures, and activities; and"; and

(F) in subparagraph (F)—

(i) in clause (i), by striking "national law enforcement mobilizations and high-visibility" and inserting "national, high-visibility";

(ii) in clause (iv), by striking "and" after the semicolon at the end;

(iii) in clause (v), by striking the period at the end and inserting "; and"; and

(iv) by adding at the end the following:

"(vi) unless the State highway safety program is developed by American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, or the United States Virgin Islands, participation in the Fatality Analysis Reporting System.";

(5) in subsection (c)—

(A) in paragraph (1)—

(i) by striking the paragraph designation and heading and all that follows through "Funds authorized" and inserting the following:

"(1) USE FOR STATE ACTIVITIES.—

AMERICAN OVERSIGHT

"(A) IN GENERAL.—The funds authorized"; and

(ii) by adding at the end the following:

"(B) NEIGHBORING STATES.—A State, acting in cooperation with any neighboring State, may use funds provided under this section for a highway safety program that may confer a benefit on the neighboring State.";

(B) by striking paragraphs (2) and (3) and inserting the following:

"(2) APPORTIONMENT TO STATES.—

"(A) DEFINITION OF PUBLIC ROAD.—In this paragraph, the term 'public road' means any road that is—

"(i) subject to the jurisdiction of, and maintained by, a public authority; and

"(ii) held open to public travel.

"(B) APPORTIONMENT.—

"(i) IN GENERAL.—Except for the amounts identified in section 403(f) and the amounts subject to subparagraph (C), of the funds made available under this section—

"(I) 75 percent shall be apportioned to each State based on the ratio that, as determined by the most recent decennial census—

"(aa) the population of the State; bears to

"(bb) the total population of all States; and

"(II) 25 percent shall be apportioned to each State based on the ratio that, subject to clause (ii)—

"(aa) the public road mileage in each State; bears to

"(bb) the total public road mileage in all States.

"(ii) CALCULATION.—For purposes of clause (i)(II), public road mileage shall be—

"(I) determined as of the end of the calendar year preceding the year during which the funds are apportioned;

"(II) certified by the Governor of the State; and

"(III) subject to approval by the Secretary.

"(C) MINIMUM APPORTIONMENTS.—The annual apportionment under this section to—

"(i) each State shall be not less than ¾ of 1 percent of the total apportionment;

"(ii) the Secretary of the Interior shall be not less than 2 percent of the total apportionment; and

"(iii) the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands shall be not less than ¼ of 1 percent of the total apportionment.

"(D) PENALTY.—

"(i) IN GENERAL.—The funds apportioned under this section to a State that does not have approved or in effect a highway safety program described in subsection (a)(1) shall be reduced by an amount equal to not less than 20 percent of the amount that would

AMERICAN OVERSIGHT

otherwise be apportioned to the State under this section, until the date on which the Secretary, as applicable—

"(I) approves such a highway safety program; or

"(II) determines that the State is implementing such a program.

"(ii) FACTOR FOR CONSIDERATION.—In determining the amount of the reduction in funds apportioned to a State under this subparagraph, the Secretary shall take into consideration the gravity of the failure by the State to secure approval, or to implement, a highway safety program described in subsection (a)(1).

"(E) LIMITATIONS.—

"(i) IN GENERAL.—A highway safety program approved by the Secretary shall not include any requirement that a State shall implement such a program by adopting or enforcing any law, rule, or regulation based on a guideline promulgated by the Secretary under this section requiring any motorcycle operator aged 18 years or older, or a motorcycle passenger aged 18 years or older, to wear a safety helmet when operating or riding a motorcycle on the streets and highways of that State.

"(ii) EFFECT OF GUIDELINES.—Nothing in this section requires a State highway safety program to require compliance with every uniform guideline, or with every element of every uniform guideline, in every State.

"(3) REAPPORTIONMENT.—

"(A) IN GENERAL.—The Secretary shall promptly apportion to a State any funds withheld from the State under paragraph (2)(D) if the Secretary makes an approval or determination, as applicable, described in that paragraph by not later than July 31 of the fiscal year for which the funds were withheld.

"(B) CONTINUING STATE FAILURE.—If the Secretary determines that a State fails to correct a failure to have approved or in effect a highway safety program described in subsection (a)(1) by the date described in subparagraph (A), the Secretary shall reapportion the funds withheld from that State under paragraph (2)(D) for the fiscal year to the other States in accordance with the formula described in paragraph (2)(B) by not later than the last day of the fiscal year."; and

(C) in paragraph (4)—

(i) by striking subparagraph (C);

(ii) by redesignating subparagraphs (A) and (B) as subparagraphs (B) and (A), respectively, and moving the subparagraphs so as to appear in alphabetical order; and

(iii) by adding at the end the following:

"(C) SPECIAL RULE FOR SCHOOL AND WORK ZONES.—Notwithstanding subparagraph (B), a State may expend funds apportioned to the State under this section to carry out a program to purchase, operate, or maintain an automated traffic enforcement system in a work zone or school zone.

AMERICAN OVERSIGHT

"(D) AUTOMATED TRAFFIC ENFORCEMENT SYSTEM GUIDELINES.—An automated traffic enforcement system installed pursuant to subparagraph (C) shall comply with such guidelines applicable to speed enforcement camera systems and red light camera systems as are established by the Secretary.";

(6) in subsection (k)—

(A) by striking the subsection designation and heading and all that follows through "thereafter" in paragraph (1) and inserting the following:

"(k) TRIENNIAL HIGHWAY SAFETY PLAN.—

"(1) IN GENERAL.—For fiscal year 2024, and not less frequently than once every 3 fiscal years thereafter";

(B) in paragraph (1), by striking "for that fiscal year, to develop and submit to the Secretary for approval a highway safety plan" and inserting "for the 3 fiscal years covered by the plan, to develop and submit to the Secretary for approval a triennial highway safety plan";

(C) by striking paragraph (2) and inserting the following:

"(2) TIMING.—Each State shall submit to the Secretary a triennial highway safety plan by not later than July 1 of the fiscal year preceding the first fiscal year covered by the plan.";

(D) in paragraph (3), by inserting "triennial" before "highway";

(E) in paragraph (4)—

(i) in the matter preceding subparagraph (A)—

(I) by striking "State highway safety plans" and inserting "Each State triennial highway safety plan"; and

(II) by inserting ", with respect to the 3 fiscal years covered by the plan, based on the information available on the date of submission under paragraph (2)" after "include";

(ii) in subparagraph (A)(ii), by striking "annual performance targets" and inserting "performance targets that demonstrate constant or improved performance";

(iii) by striking subparagraph (B) and inserting the following:

"(B) a countermeasure strategy for programming funds under this section for projects that will allow the State to meet the performance targets described in subparagraph (A), including a description—

"(i) that demonstrates the link between the effectiveness of each proposed countermeasure strategy and those performance targets; and

"(ii) of the manner in which each countermeasure strategy is informed by uniform guidelines issued by the Secretary;";

(iv) in subparagraph (D)—

(I) by striking ", State, local, or private"; and

(II) by inserting "and" after the semicolon at the end;

(v) in subparagraph (E)—

AMERICAN OVERSIGHT

(I) by striking "for the fiscal year preceding the fiscal year to which the plan applies,"; and

(II) by striking "performance targets set forth in the previous year's highway safety plan; and" and inserting "performance targets set forth in the most recently submitted highway safety plan."; and

(vi) by striking subparagraph (F);

(F) by striking paragraph (5) and inserting the following:

"(5) PERFORMANCE MEASURES.—The Secretary shall develop minimum performance measures under paragraph (4)(A) in consultation with the Governors Highway Safety Association."; and

(G) in paragraph (6)—

(i) in the paragraph heading, by inserting "TRIENNIAL" before "HIGHWAY";

(ii) by redesignating subparagraphs (B) through (E) as subparagraphs (C) through (F), respectively;

(iii) in each of subparagraphs (C) through (F) (as so redesignated), by inserting "triennial" before "highway" each place it appears; and

(iv) by striking subparagraph (A) and inserting the following:

"(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary shall review and approve or disapprove a triennial highway safety plan of a State by not later than 60 days after the date on which the plan is received by the Secretary.

"(B) ADDITIONAL INFORMATION.—

"(i) IN GENERAL.—The Secretary may request a State to submit to the Secretary such additional information as the Secretary determines to be necessary for review of the triennial highway safety plan of the State.

"(ii) EXTENSION OF DEADLINE.—On providing to a State a request for additional information under clause (i), the Secretary may extend the deadline to approve or disapprove the triennial highway safety plan of the State under subparagraph (A) for not more than an additional 90 days, as the Secretary determines to be necessary to accommodate that request, subject to clause (iii).

"(iii) TIMING.—Any additional information requested under clause (i) shall be submitted to the Secretary by not later than 7 business days after the date of receipt by the State of the request.";

(7) by inserting after subsection (k) the following:

"(l) ANNUAL GRANT APPLICATION AND REPORTING REQUIREMENTS.—

"(1) ANNUAL GRANT APPLICATION.—

"(A) IN GENERAL.—To be eligible to receive grant funds under this chapter for a fiscal year, each State shall submit to the Secretary an annual grant application that, as determined by the Secretary—

"(i) demonstrates alignment with the approved triennial highway safety plan of the State; and

AMERICAN OVERSIGHT

"(ii) complies with the requirements under this subsection.

"(B) TIMING.—The deadline for submission of annual grant applications under this paragraph shall be determined by the Secretary in accordance with section 406(d)(2).

"(C) CONTENTS.—An annual grant application under this paragraph shall include, at a minimum—

"(i) such updates, as necessary, to any analysis included in the triennial highway safety plan of the State;

"(ii) an identification of each project and subrecipient to be funded by the State using the grants during the upcoming grant year, subject to the condition that the State shall separately submit, on a date other than the date of submission of the annual grant application, a description of any projects or subrecipients to be funded, as that information becomes available;

"(iii) a description of the means by which the strategy of the State to use grant funds was adjusted and informed by the previous report of the State under paragraph (2); and

"(iv) an application for any additional grants available to the State under this chapter.

"(D) REVIEW.—The Secretary shall review and approve or disapprove an annual grant application under this paragraph by not later than 60 days after the date of submission of the application.

"(2) REPORTING REQUIREMENTS.—Not later than 120 days after the end of each fiscal year for which a grant is provided to a State under this chapter, the State shall submit to the Secretary an annual report that includes—

"(A) an assessment of the progress made by the State in achieving the performance targets identified in the triennial highway safety plan of the State, based on the most currently available Fatality Analysis Reporting System data; and

"(B)(i) a description of the extent to which progress made in achieving those performance targets is aligned with the triennial highway safety plan of the State; and

"(ii) if applicable, any plans of the State to adjust a strategy for programming funds to achieve the performance targets.";

(8) in subsection (m)(1), by striking "a State's highway safety plan" and inserting "the applicable triennial highway safety plan of the State"; and

(9) by striking subsection (n) and inserting the following:

"(n) PUBLIC TRANSPARENCY.—

"(1) IN GENERAL.—The Secretary shall publicly release on a Department of Transportation website, by not later than 45 calendar days after the applicable date of availability—

"(A) each triennial highway safety plan approved by the Secretary under subsection (k);

"(B) each State performance target under subsection (k); and

AMERICAN OVERSIGHT

"(C) an evaluation of State achievement of applicable performance targets under subsection (k).

"(2) STATE HIGHWAY SAFETY PLAN WEBSITE.—

"(A) IN GENERAL.—In carrying out paragraph (1), the Secretary shall establish a public website that is easily accessible, navigable, and searchable for the information required under that paragraph, in order to foster greater transparency in approved State highway safety programs.

"(B) CONTENTS.—The website established under subparagraph (A) shall—

"(i) include the applicable triennial highway safety plan, and the annual report, of each State submitted to, and approved by, the Secretary under subsection (k); and

"(ii) provide a means for the public to search the website for State highway safety program content required under subsection (k), including—

"(I) performance measures required by the Secretary;

"(II) progress made toward meeting the applicable performance targets during the preceding program year;

"(III) program areas and expenditures; and

"(IV) a description of any sources of funds, other than funds provided under this section, that the State proposes to use to carry out the triennial highway safety plan of the State.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect with respect to any grant application or State highway safety plan submitted under chapter 4 of title 23, United States Code, for fiscal year 2024 or thereafter.

SEC. 24103. HIGHWAY SAFETY RESEARCH AND DEVELOPMENT.

Section 403 of title 23, United States Code, is amended—

(1) by striking "accident" each place it appears and inserting "crash";

(2) in subsection (b)(1), in the matter preceding subparagraph (A), by inserting ", training, education," after "demonstration projects";

(3) in subsection (f)(1)—

(A) by striking "$2,500,000" and inserting "$3,500,000"; and

(B) by striking "subsection 402(c) in each fiscal year ending before October 1, 2015, and $443,989 of the total amount available for apportionment to the States for highway safety programs under section 402(c) in the period beginning on October 1, 2015, and ending on December 4, 2015," and inserting "section 402(c) in each fiscal year";

(4) in subsection (h)—

(A) in paragraph (2), by striking "2017 through 2021 not more than $26,560,000' to conduct the research described in paragraph (1)" and inserting "2022 through 2025, not more than $45,000,000 to conduct the research described in paragraph (2)";

(B) in paragraph (5)(A), by striking "section 30102(a)(6)" and inserting "section 30102(a)"; and

AMERICAN OVERSIGHT

(C) by redesignating paragraphs (1), (2), (3), (4), and (5) as paragraphs (2), (3), (4), (5), and (1), respectively, and moving the paragraphs so as to appear in numerical order; and

(5) by adding at the end the following:

"(k) CHILD SAFETY CAMPAIGN.—

"(1) IN GENERAL.—The Secretary shall carry out an education campaign to reduce the incidence of vehicular heatstroke of children left in passenger motor vehicles (as defined in section 30102(a) of title 49).

"(2) ADVERTISING.—The Secretary may use, or authorize the use of, funds made available to carry out this section to pay for the development, production, and use of broadcast and print media advertising and Internet-based outreach for the education campaign under paragraph (1).

"(3) COORDINATION.—In carrying out the education campaign under paragraph (1), the Secretary shall coordinate with—

"(A) interested State and local governments;

"(B) private industry; and

"(C) other parties, as determined by the Secretary.

"(l) DEVELOPMENT OF STATE PROCESSES FOR INFORMING CONSUMERS OF RECALLS.—

"(1) DEFINITIONS.—In this subsection:

"(A) MOTOR VEHICLE.—The term 'motor vehicle' has the meaning given the term in section 30102(a) of title 49.

"(B) OPEN RECALL.—The term 'open recall' means a motor vehicle recall—

"(i) for which a notification by a manufacturer has been provided under section 30119 of title 49; and

"(ii) that has not been remedied under section 30120 of that title.

"(C) PROGRAM.—The term 'program' means the program established under paragraph (2)(A).

"(D) REGISTRATION.—The term 'registration' means the process for registering a motor vehicle in a State (including registration renewal).

"(E) STATE.—The term 'State' has the meaning given the term in section 101(a).

"(2) GRANTS.—

"(A) ESTABLISHMENT OF PROGRAM.—Not later than 2 years after the date of enactment of this subsection, the Secretary shall establish a program under which the Secretary shall provide grants to States for use in developing and implementing State processes for informing each applicable owner and lessee of a motor vehicle of any open recall on the motor vehicle at the time of registration of the motor vehicle in the State, in accordance with this paragraph.

"(B) ELIGIBILITY.—To be eligible to receive a grant under the program, a State shall—

"(i) submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require; and

"(ii) agree—

AMERICAN OVERSIGHT

"(I) to notify each owner or lessee of a motor vehicle presented for registration in the State of any open recall on that motor vehicle; and

"(II) to provide to each owner or lessee of a motor vehicle presented for registration, at no cost—

"(aa) the open recall information for the motor vehicle; and

"(bb) such other information as the Secretary may require.

"(C) FACTORS FOR CONSIDERATION.—In selecting grant recipients under the program, the Secretary shall take into consideration the methodology of a State for—

"(i) identifying open recalls on a motor vehicle;

"(ii) informing each owner and lessee of a motor vehicle of an open recall; and

"(iii) measuring performance in—

"(I) informing owners and lessees of open recalls; and

"(II) remedying open recalls.

"(D) PERFORMANCE PERIOD.—A grant provided under the program shall require a performance period of 2 years.

"(E) REPORT.—Not later than 90 days after the date of completion of the performance period under subparagraph (D), each State that receives a grant under the program shall submit to the Secretary a report that contains such information as the Secretary considers to be necessary to evaluate the extent to which open recalls have been remedied in the State.

"(F) NO REGULATIONS REQUIRED.—Notwithstanding any other provision of law, the Secretary shall not be required to issue any regulations to carry out the program.

"(3) PAPERWORK REDUCTION ACT.—Chapter 35 of title 44 (commonly known as the 'Paperwork Reduction Act') shall not apply to information collected under the program.

"(4) FUNDING.—

"(A) IN GENERAL.—For each of fiscal years 2022 through 2026, the Secretary shall obligate from funds made available to carry out this section $1,500,000 to carry out the program.

"(B) REALLOCATION.—To ensure, to the maximum extent practicable, that all amounts described in subparagraph (A) are obligated each fiscal year, the Secretary, before the last day of any fiscal year, may reallocate any of those amounts remaining available to increase the amounts made available to carry out any other activities authorized under this section.

"(m) INNOVATIVE HIGHWAY SAFETY COUNTERMEASURES.—

"(1) IN GENERAL.—In conducting research under this section, the Secretary shall evaluate the effectiveness of innovative behavioral traffic safety countermeasures, other than traffic enforcement, that are considered promising or likely to be effective for the purpose of enriching revisions to the document entitled 'Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices, Ninth Edition' and numbered DOT HS 812 478 (or any successor document).

AMERICAN OVERSIGHT

"(2) TREATMENT.—The research described in paragraph (1) shall be in addition to any other research carried out under this section.".

SEC. 24104. HIGH-VISIBILITY ENFORCEMENT PROGRAMS.

Section 404(a) of title 23, United States Code, is amended by striking "each of fiscal years 2016 through 2020" and inserting "each of fiscal years 2022 through 2026".

SEC. 24105. NATIONAL PRIORITY SAFETY PROGRAMS.

(a) IN GENERAL.—Section 405 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) by striking paragraphs (6) and (9);

(B) by redesignating paragraphs (1) through (5) as paragraphs (2) through (6), respectively;

(C) by striking the subsection designation and heading and all that follows through "the following:" in the matter preceding paragraph (2) (as so redesignated) and inserting the following:

"(a) PROGRAM AUTHORITY.—

"(1) IN GENERAL.—Subject to the requirements of this section, the Secretary shall—

"(A) manage programs to address national priorities for reducing highway deaths and injuries; and

"(B) allocate funds for the purpose described in subparagraph (A) in accordance with this subsection.";

(D) in paragraph (4) (as so redesignated), by striking "52.5 percent" and inserting "53 percent";

(E) in paragraph (7)—

(i) by striking "5 percent" and inserting "7 percent"; and

(ii) by striking "subsection (h)" and inserting "subsection (g)";

(F) by redesignating paragraphs (8) and (10) as paragraphs (10) and (11), respectively;

(G) by inserting after paragraph (7) the following:

"(8) PREVENTING ROADSIDE DEATHS.—In each fiscal year, 1 percent of the funds provided under this section shall be allocated among States that meet requirements with respect to preventing roadside deaths under subsection (h).

"(9) DRIVER OFFICER SAFETY EDUCATION.—In each fiscal year, 1.5 percent of the funds provided under this section shall be allocated among States that meet requirements with respect to driver and officer safety education under subsection (i).";

and

(H) in paragraph (10) (as so redesignated)—

(i) by striking "(1) through (7)" and inserting "(2) through (9)"; and

(ii) by striking "(b) through (h)" and inserting "(b) through (i)";

(2) in subsection (b)—

(A) in paragraph (1), by striking "of Transportation";

(B) in paragraph (3)(B)(ii)(VI)(aa), by striking "3-year" and inserting "5-year"; and

(C) in paragraph (4)—

(i) in subparagraph (A), by striking clause (v) and inserting the following:

AMERICAN OVERSIGHT

"(v) implement programs—

"(I) to recruit and train nationally certified child passenger safety technicians among police officers, fire and other first responders, emergency medical personnel, and other individuals or organizations serving low-income and underserved populations;

"(II) to educate parents and caregivers in low-income and underserved populations regarding the importance of proper use and correct installation of child restraints on every trip in a motor vehicle; and

"(III) to purchase and distribute child restraints to low-income and underserved populations; and"; and

(ii) by striking subparagraph (B) and inserting the following:

"(B) REQUIREMENTS.—Each State that is eligible to receive funds—

"(i) under paragraph (3)(A) shall use—

"(I) not more than 90 percent of those funds to carry out a project or activity eligible for funding under section 402; and

"(II) not less than 10 percent of those funds to carry out subparagraph (A)(v); and

"(ii) under paragraph (3)(B) shall use not less than 10 percent of those funds to carry out the activities described in subparagraph (A)(v).";

(3) in subsection (c)—

(A) in paragraph (1)—

(i) in the matter preceding subparagraph (A), by striking "of Transportation"; and

(ii) in subparagraph (D), by striking "States; and" and inserting "States, including the National EMS Information System;";

(B) in paragraph (3)—

(i) by striking the paragraph designation and heading and all that follows through "has a functioning" in subparagraph (A) and inserting the following:

"(3) ELIGIBILITY.—A State shall not be eligible to receive a grant under this subsection for a fiscal year unless the State—

"(A) has certified to the Secretary that the State—

"(i) has a functioning";

(ii) in subparagraph (B)—

(I) by adding "and" after the semicolon at the end; and

(II) by redesignating the subparagraph as clause (ii) of subparagraph (A) and indenting the clause appropriately;

(iii) in subparagraph (C)—

(I) by adding "and" after the semicolon at the end; and

(II) by redesignating the subparagraph as clause (iii) of subparagraph (A) and indenting the clause appropriately;

AMERICAN OVERSIGHT

(iv) by redesignating subparagraph (D) as subparagraph (B);

(v) in clause (vi) of subparagraph (B) (as so redesignated), by striking "; and" and inserting a period; and

(vi) by striking subparagraph (E);

(C) by striking paragraph (4) and inserting the following:

"(4) USE OF GRANT AMOUNTS.—A State may use a grant received under this subsection to make data program improvements to core highway safety databases relating to quantifiable, measurable progress in any significant data program attribute described in paragraph (3)(B), including through—

"(A) software or applications to identify, collect, and report data to State and local government agencies, and enter data into State core highway safety databases, including crash, citation or adjudication, driver, emergency medical services or injury surveillance system, roadway, and vehicle data;

"(B) purchasing equipment to improve a process by which data are identified, collated, and reported to State and local government agencies, including technology for use by law enforcement for near-real time, electronic reporting of crash data;

"(C) improving the compatibility and interoperability of the core highway safety databases of the State with national data systems and data systems of other States, including the National EMS Information System;

"(D) enhancing the ability of a State and the Secretary to observe and analyze local, State, and national trends in crash occurrences, rates, outcomes, and circumstances;

"(E) supporting traffic records improvement training and expenditures for law enforcement, emergency medical, judicial, prosecutorial, and traffic records professionals;

"(F) hiring traffic records professionals for the purpose of improving traffic information systems (including a State Fatal Accident Reporting System (FARS) liaison);

"(G) adoption of the Model Minimum Uniform Crash Criteria, or providing to the public information regarding why any of those criteria will not be used, if applicable;

"(H) supporting reporting criteria relating to emerging topics, including—

"(i) impaired driving as a result of drug, alcohol, or polysubstance consumption; and

"(ii) advanced technologies present on motor vehicles; and

"(I) conducting research relating to State traffic safety information systems, including developing programs to improve core highway safety databases and processes by which data are identified, collected, reported to State and local government agencies, and entered into State core safety databases."; and

(D) by adding at the end the following:

"(6) TECHNICAL ASSISTANCE.—

"(A) IN GENERAL.—The Secretary shall provide technical assistance to States, regardless of whether a State receives a grant under this subsection, with respect to

AMERICAN OVERSIGHT

improving the timeliness, accuracy, completeness, uniformity, integration, and public accessibility of State safety data that are needed to identify priorities for Federal, State, and local highway and traffic safety programs, including on adoption by a State of the Model Minimum Uniform Crash Criteria.

"(B) FUNDS.—The Secretary may use not more than 3 percent of the amounts available under this subsection to carry out subparagraph (A).";

(4) in subsection (d)—

(A) in paragraph (4)—

(i) in subparagraph (B)—

(I) by striking clause (iii) and inserting the following:

"(iii) court support of impaired driving prevention efforts, including—

"(I) hiring criminal justice professionals, including law enforcement officers, prosecutors, traffic safety resource prosecutors, judges, judicial outreach liaisons, and probation officers;

"(II) training and education of those professionals to assist the professionals in preventing impaired driving and handling impaired driving cases, including by providing compensation to a law enforcement officer to carry out safety grant activities to replace a law enforcement officer who is receiving drug recognition expert training or participating as an instructor in that drug recognition expert training; and

"(III) establishing driving while intoxicated courts;";

(II) by striking clause (v) and inserting the following:

"(v) improving blood alcohol and drug concentration screening and testing, detection of potentially impairing drugs (including through the use of oral fluid as a specimen), and reporting relating to testing and detection;";

(III) in clause (vi), by striking "conducting standardized field sobriety training, advanced roadside impaired driving evaluation training, and" and inserting "conducting initial and continuing standardized field sobriety training, advanced roadside impaired driving evaluation training, law enforcement phlebotomy training, and";

(IV) in clause (ix), by striking "and" at the end;

(V) in clause (x), by striking the period at the end and inserting "; and"; and

(VI) by adding at the end the following:

"(xi) testing and implementing programs, and purchasing technologies, to better identify, monitor, or treat impaired drivers, including—

"(I) oral fluid-screening technologies;

"(II) electronic warrant programs;

AMERICAN OVERSIGHT

"(III) equipment to increase the scope, quantity, quality, and timeliness of forensic toxicology chemical testing;

"(IV) case management software to support the management of impaired driving offenders; and

"(V) technology to monitor impaired-driving offenders, and equipment and related expenditures used in connection with impaired-driving enforcement in accordance with criteria established by the National Highway Traffic Safety Administration."; and

(ii) in subparagraph (C)—

(I) in the second sentence, by striking "Medium-range" and inserting the following:

"(ii) MEDIUM-RANGE AND HIGH-RANGE STATES.—Subject to clause (iii), medium-range";

(II) in the first sentence, by striking "Low-range" and inserting the following:

"(i) LOW-RANGE STATES.—Subject to clause (iii), low-range"; and

(III) by adding at the end the following:

"(iii) REPORTING AND IMPAIRED DRIVING MEASURES.—A State may use grant funds for any expenditure relating to—

"(I) increasing the timely and accurate reporting to Federal, State, and local databases of—

"(aa) crash information, including electronic crash reporting systems that allow accurate real- or near-real-time uploading of crash information; and

"(bb) impaired driving criminal justice information; or

"(II) researching or evaluating impaired driving countermeasures.";

(B) in paragraph (6)—

(i) by striking subparagraph (A) and inserting the following:

"(A) GRANTS TO STATES WITH ALCOHOL-IGNITION INTERLOCK LAWS.—The Secretary shall make a separate grant under this subsection to each State that—

"(i) adopts, and is enforcing, a mandatory alcohol-ignition interlock law for all individuals convicted of driving under the influence of alcohol or of driving while intoxicated;

"(ii) does not allow an individual convicted of driving under the influence of alcohol or of driving while intoxicated to receive any driving privilege or driver's license unless the individual installs on each motor vehicle registered, owned, or leased for operation by the individual an ignition interlock for a period of not less than 180 days; or

"(iii) has in effect, and is enforcing—

"(I) a State law requiring for any individual who is convicted of, or the driving privilege of whom is revoked or denied for, refusing to submit to a chemical or other appropriate test for the

AMERICAN OVERSIGHT

purpose of determining the presence or concentration of any intoxicating substance, a State law requiring a period of not less than 180 days of ignition interlock installation on each motor vehicle to be operated by the individual; and

"(II) a compliance-based removal program, under which an individual convicted of driving under the influence of alcohol or of driving while intoxicated shall—

"(aa) satisfy a period of not less than 180 days of ignition interlock installation on each motor vehicle to be operated by the individual; and

"(bb) have completed a minimum consecutive period of not less than 40 percent of the required period of ignition interlock installation immediately preceding the date of release of the individual, without a confirmed violation."; and

(ii) in subparagraph (D), by striking "2009" and inserting "2022"; and

(C) in paragraph (7)(A), in the matter preceding clause (i), by inserting "or local" after "authorizes a State";

(5) in subsection (e)—

(A) by striking paragraphs (6) and (8);

(B) by redesignating paragraphs (1), (2), (3), (4), (5), (7), and (9) as paragraphs (2), (4), (6), (7), (8), (9), and (1), respectively, and moving the paragraphs so as to appear in numerical order;

(C) in paragraph (1) (as so redesignated)—

(i) in the matter preceding subparagraph (A), by striking ", the following definitions apply";

(ii) by striking subparagraph (B) and inserting the following:

"(B) PERSONAL WIRELESS COMMUNICATIONS DEVICE.—

"(i) IN GENERAL.—The term 'personal wireless communications device' means—

"(I) a device through which personal wireless services (as defined in section 332(c)(7)(C) of the Communications Act of 1934 (47 U.S.C. 332(c)(7)(C))) are transmitted; and
