Subject: Fwd: WI JUSTICE GABELMAN & ASSEMBLY SPEAKER VOS: THE PRESIDENTIAL ELECTION IN 2016 (www.AlreadyImpeached.blogspot.com) and 2020 (www.WeWon2020.blogspot.com) are both "THE SAME" AS THE 2018 CA. GOVERNORSHIP (BELOW)...I WON VIA CONSTITUTIONAL DEFAULT (I.E., PROVING THE OTHERS GUILTY OF FELONY CRIMINAL DEFAULT)...
To: <USRecovery@gmail.com>

YOUR HONOR: YOU NEED ONLY ENFORCE THESE WARRANTS TO PREVENT THE VOTER FRAUD THAT EXISTS IN EVERY RACE/ELECTION IN THE U.S.....AS WELL AS PREVENTING THE DELAY IN PROPER FUNCTION/SPEEDY-JUSTICE THAT ALLOWS/CAUSES ALL CRIMES TO FESTER BEYOND THEIR "PROPER CONSTITUTIONAL FUNCTION LEVELS".....AS ONLY PROPER CONSTITUTIONAL DEFAULT FUNCTION CAN PREVENT.....CATCHING CRIMES "AS SOON AS THEY TURN CIVIL" (WITH CIVIL DEFAULT) AND "AS SOON AS THE TURN CRIMINAL" (WITH CRIMINAL DEFAULT).....WHY WASHINGTON CLAIMED TO BE THE FIRST U.S. PRESIDENT, OVER HANCOCK, VIA ARTICLE 1, SECTION 7, CLAUSES 1-4, IN 1787 ("NEWLY PROVEN, SCIENTIFICALLY" VIA MY 1970S UNIFICATION SCIENCE DISCOVERIES")...

At least, enforce these "Direct Grand Jury Candidacy-Application/Notification Warrants" (1948-Title 22:975: USDC#90-2482, Consolidated by the State Supreme Court, before Federal entrance with LADC#89-00443, that proved they were looting the Federal Student Loan Trust via this same Robispierre-like, Presentmentless, Defaultless, Indictmentless, Convictionless delay/denial of proper grand jury function/presentment&default-enforcement-delays&denials.....as has been used to create the COVID-19 EPIDEMIC.....by coupling such presentmentless delays with fraudulent notions of "ANTIBIOTICS DON'T CURE/KILL VIRUSES", FIRST, CAUSING/ALLOWING INFECTION RATES TO PREVENTABLY-MAGNIFY TO EPIDEMIC PROPORTIONS....as they'll do in any population deprived of "current levels of antibiotics", as Virology and Epidemiology reprove....THEN, DUE TO SUCH GRAND JURY NON-PRESENTMENTS/JUSTICE-DELAYS-&-DENIALS, OPPOSING THE PUBLIC HEALTH LAW ("DR. SALK METHOD OF EPIDEMIC PREVENTION AND ERRADICATION") AND DENYING CITIZENS THEIR DUE "DEAD VIRUS ORAL VACCINE" (PRODUCED FROM THE MDRs, MULTI-DRUG-RESISTANT

AMERICAN OVERSIGHT

INFECTENTS, PROVEN/DISPROVEN VIA PRELIMINARY ANTIBIOTICS USAGE) TO PROLONG THE EPIDEMIC SOME 2 YEARS, NOW....WHILE STILL-SEEKING TO DO NOTHING ELSE, EXCEPT PURSUE MORE CONVICTIONLESS INVOLUNTARY SERVITUDE AND SLAVERY UPON OUR PEOPLES (CONSTITUTION OPPOSING MEASURES REPROVABLY BEYOND THE CONSTITUTIONAL LIMITS OF JURYLESS/IN-SOLIDO-"JUDICIAL"-FUNCTION)....TO PREVENTABLY MAGIFY OUR DEBTS AND DEFICITS (ENEMY ARMING FOREIGN LOANS INCLUDED)....PRETENDED AUTHORITY (PRESENTMENTLESS/CONVICTIONLESS, DUE PROCESS DENYING "VOID JUDGMENTS") MEASURES THAT, THEMSELVES, NEGLIGENTLY AND MALFEASANTLY, DO NOT PREVENT THE/ANY CRIMES THAT MAY BE INVOLVED (AS DISEASE SPREADINGS, THAT'RE LIMITED TO THOSE WHO ARE INFECTED, NOT "MASKINGS/GLOVINGS/DISTANCINGS" OF THE UNINFECTED).....AS PROPER GRAND JURY PRESENTMENTS WIULD'VE CORRECTED "IMMEDIATELY"/ASAP....ESPECIALLY, SINCE I'D ALREADY OBTAINED DEFAULT WARRANTS IN THE SUBJECT MATTER THERE TOO....

THUSLY, ENFORCE THE DIRECT GRAND JURY APPLICATION FOR YOUR ELECTIONS AND ORDER YOUR STATE'S UNIVERSITIES, ETC. TO MAKE, CLINICALLY TEST, AND DISPENSE THE NON-TOXIC DEAD VIRUS ORAL VACCINE THAT WILL ERRADICATE THE "NEGLIGENCE CAUSED EPIDEMIC" IN ABOUT 6 MONTHS....[THIS DEAD VIRUS ORAL VACCINE.....THE ONLY REAL VACCINE....IS MADE FROM THE MDR/INFECTENT ITSELF....SO, ANYWHERE/EVERYWHERE THEY'RE ISOLATING, INCUBATING THE INFECTENT SHOULD BE INCLUDED IN THOSE "DRAFTED INTO EMERGENCY PUBLIC HEALTH SERVICE".....Despite "Governor Newsom's" pretended authority act prohibiting such "posse comitatus" necessities, before the Epidemic..MORE CONFESSIONALS....

AMERICAN OVERSIGHT

PROVING THE OTHERS GUILTY OF FELONY CRIMINAL DEFAULT)...
To: <speaker@assembly.wi.gov>

Concerned:

It's UNDENIABLE AND REPROVABLE that WHENEVER CRIMINAL WRONGDOING IS ALLEGED (MINIMALLY), GRAND-JURY-PRESENTMENT OF SUCH EVIDENCE/AFFIRMATIONS/ALLEGATIONS/TESTIMONY, FIRST/ASAP, IS A REQUIREMENT OF LAW (18USC1512: iTS "WITNESS, EVIDENCE, AND GRAND JURY TAMPERING" TO DO OTHERWISE, "ELECTION TAMPERING" WHEN/WHERE APPLIED TO ELECTIONS).....

Moreover, where "claims for benefits" are concerned, ESPECIALLY THE BENEFITS OF ELECTED OFFICE, the/any failure/refusal to present such claim/notice/declaration/application, first, to the grand jury (who has jurisdiction over all crimes), does, in fact, NEGLIGENTLY AND PREVENTABLY, delay/deny full-fledged protection of the law (MAKING IT ILLEGAL TO FAIL/REFUSE TO MAKE SUCH NOTIFICATION/APPLICATION FOR ELECTED OFFICE, FIRST/ASAP, TO THE GRAND JURY)...[As per the U.S. Constitution, Unchangeable-1948 Title 22: 975, etc., unanimously made/passed by all then-48-States]..

As well, among other things, this CRIMINALLY-NEGLIGENT FAILURE/REFUSAL TO MAKE GRAND JURY PRESENTMENT/NOTIFICATION/APPLICATION FOR ELECTED OFFICE, DENIES/DELAYS APPLICATION OF THE LAW, CONSTITUTIONAL DEFAULT (CIVIL AND CRIMINAL), A1S7C1-4, DENYING APPLICANTS/CANDIDATES THE FULL-FLEDGED PROTECTION OF THE LAW (AS WELL AS COSTING CITIZENS MILLIONS/BILLIONS, CONVICTIONLESSLY/EVEN-PRESENTMENTLESSLY FOR SUCH "UNDUE ELECTIONS" THAT WOULD'VE, SHOULD'VE, AND COULD'VE BEEN AVOIDED VIA PROPER SUPPORT & DEFENSE OF THE U.S. CONSTITUTION (DEFAULT IN PARTICULAR).....AS JUDGES ARE ELECTED/RE-ELECTED IN SEVERAL STATES, RIGHT NOW....

While the "rule of unanimous consent" is considered to allow "all participants to consent", without engaging in a crime, in general.....However, when one/anyone does "object", as I've long-done here, in these matters, some since 1988, failing/refusing to conform to the fullness of the law, does make any/all results "fraudulent, null, and void"...I. E., Any results other than that a "CONSTITUTIONAL WIN VIA DEFAULT HAS/DID OCCUR"....AND ANY/ALL RESULTS/TABULATIONS/CERTIFICATIONS/ETC. TO THE CONTRARY ARE NULL AND VOID....

Having discovered "THE SCIENTIFIC ENTIRETY OF THE SUPREME LAW OF THE LAND", in the 1970s, which includes the Scientific/Psychoanalytical Psychometric parameters of every government office (Warranted "Part A" being at www.PRLog.Org/10439874)....used to eliminate Social Security's deficit for the first time in U. S. History....THE PROPER USAGE OF CONSTITUTIONAL DEFAULT (DURING ELECTIONS) MERELY ACCELERATES THE "PROPER GRAND/TRIAL JURY PROCESS" THAT TAXES ARE

AMERICAN OVERSIGHT

PAID TO PROVIDE (BUT, AS THESE CASES REPROVE, AREN'T WORKING PROPERLY....ESPECIALLY, PROPER GRAND JURY INVESTIGATIVE/PROSECUTORIAL/&DEFAULT-ENFORCEMENT FUNCTIONS)....

It's the ILLEGALLY SUBSTITUTED FOR "PROPER GRAND JURY FUNCTION", IN-SOLIDO-"JUDICIAL"-FUNCTIONS, OF THE SECRERARIES OF STATE (OR COMMISSIONERS OF ELECTIONS), BEYOND THEIR VALID, REPROVABLE, IN-SOLIDO CONSTITUTIONAL LIMITS (INCLUDING GRAND JURY PRESENTMENT FOR ANY/ALL WARRANTLESS/DEFAULTLESS ARRESTS/ACTS-OF-INVOLUNTARY-SERVITUDE) THAT MAKES "ANY DENIALS OF SOUGHT BALLOTINGS" (BY QUALIFIEDS) CAUSE SUCH ELECTION RESULTS TO BE FRAUDULENT....AND, SIMILARLY, THE BALLOTING OF ANY UNQUALIFIEDS TO, LIKEWISE, CAUSE ELECTION RESULTS TO BE FRAUDULENT ..... BOTH BEING FORMS OF "VOTER FRAUD" RAMPANT AND PERVASIVE... THOUGH THE FRAUD IS RESULTANT FROM UNLAWFUL SECRETARY OF STATE/COMMISSIONER-OF-ELECTIONS BALLOTINGS OF UNLAWFULS AND/OR BALLOTING-DENIALS OF QUALIFIEDS....

As well, though this above detailed "Secretary of State Error" is responsible for most "voter fraud" in the country....since I/we obtained G-Jury warrants (state & federally) for fingerprint spots on all MAILINS and PAPER RECEIPTS FOR ALL ELECTRINIC VOTES (BEFORE THE 2016 ELECTIONS AND DIEBOLD & DOMINION'S ILLEGAL USAGE OF THESE COPYRIGHTS/PATENTS).....THE CONDUCTION OF ELECTIONS WITHOUT SUCH WARRANTED FINGERPRINTED MAILINS AND GOVERNMENT AGENCY ADMINISTERED "ELECTRONIC PAPER RECEIPTS"(NOT DIEBOLD OR DOMINION ADMINISTERED) HAVE CAUSED ANY/ALL SUCH ELECTIONS TO BE FRAUDULENT, NULL AND VOID, AS WELL, UNTIL PROPERLY PERFORMED/ENFORCED/IMPLEMENTED....

THUSLY, THERE IS NO DOUBT THAT THE ELECTIONS, SINCE 2016, AT LEAST, HAVE BEEN ILLEGALLY TAMPERED....NOR THAT I WON VIA DEFAULT ANY/ALL ELECTIONS I USED CONSTITUTIONAL DEFAULT TO WIN, UPON ENTERING.....TESTING THE SYSTEM USING THESE NEW SCIENTIFIC GRADE CONSTITUTIONAL LAW DISCOVERIES (DEFAULT & ITS GRAND JURY & ELECTION APPLICATIONS, IN PARTICULAR)....ANY/ALL REPRESENTATIONS TO THE CONTRARY ARE MERELY CONFESSIONAL....

RCCFM, Always(c):

Dr. Eric

Subject: CANDIDATES FOR CA.'S 2021 RECALL ELECTION: FROM THE LEGAL-WINNER IN 2018 WITH THE GRAND JURY WARRANTS THAT CORRECT THE "RIGGED ELECTION PROCESS" (OBSTRUCTED, SINCE BEFORE 2018)....BEING DENIED FROM THE 2021 ELECTION BALLOT.....WARRANTED UPGRADES TO PREVENT MAIL-IN VOTER FRAUD (FINGERPRINTED BALLOTS) AND DIEBOLD/DOMINION ELECTRONIC VOTER FRAUD (MY COPYRIGHTS/PATENTS) ALSO BEING OBSTRUCTED.....(AND WORSE)....JOIN THE ELECTED OFFICER TRAINING CORP., TODAY!!!
To: <USRecovery@gmail.com>

[IF WE CAN STILL WIN A RIGGED ELECTION: HERE'S HOW TO DO IT..]

[PROOF I WON, VIA DEFAULT, AS JUDGES ARE EVEN-ELECTED IN CALIFORNIA....NO BALLOTINGS REQUIRED.....www.WeWonCA2018.blogspot.com]...

[REALIZE, THAT AS WITH "MISPRISION", KNOWLEDGE OF CRIME, WITHOUT REPORTING IT, AND "WITNESS, EVIDENCE, AND GRAND JURY TAMPERING" (18USC1512), USUALLY CALLED "ELECTION TAMPERING" WHEN APPLIED TO ELECTIONS.....IT CAN BE PROVEN THAT FAILURE/REFUSAL TO "REPORT CRIMES TO THE GRAND JURY" IS A CRIME, NOT JUST TO THE POLICE (ESPECIALLY WHERE THE POLICE ARE KNOWN NOT TO PRESENT SUCH REPORTS TO THE GRAND JURY, ASAP, TO ACHIEVE JUSTICE, FOR EXAMPLE)....SO TOO IT, LIKEWISE, IS FOR APPLYING/NOTIFYING THE GRAND JURY OF YOUR APPLICATION/CANDIDACY FOR OFFICE....ESPECIALLY WHEN THE SECRETARY OF STATE IS AN APPOINTEE OF THE GOVERNOR, IN A GUBERNATORIAL ELECTION, AND KNOW TO BE FAILING/REFUSING APPLICANTS/CANDIDATES

AMERICAN OVERSIGHT

FROM BEING BALLOTED, ESPECIALLY, OVER THEIR OBJECTION AND WITHOUT AN UNLIMITED JURISDICTION JURY TRIAL FOR THIS OFFICE OF OVER $25,000+ VALUE, IN CALIFORNIA)...AND/OR WHERE SAID SECRETARY OF STATE IS NOT UPHOLDING THE CONSTITUTION/VALID-LAWS, BY FAILING/REFUSING TO ENFORCE/UPHOLD "DEFAULT CONVICTIONS/WARRANTS" OF THE GRAND JURY, FOR EXAMPLE, AS THIS SECRETARY OF STATE HAS BEEN PROVEN GUILTY OF.....DESPITE THE FACT THAT JUDGES ARE ELECTED/RE-ELECTED VIA DEFAULT IN CALIFORNIA...AND THE SECRETARY OF STATE SHOULD BE FAMILIAR WITH THE "LAW OF DEFAULT" TO HAVE LEGALLY/NON-FRAUDULENT YOU TAKEN THE OFFICE]..

[Candidates for Elected/Higher Office should remember a couple VITAL FACTS (EVEN IF THEY HAVEN'T COMPLETED OUR NEW "SCIENTIFIC ENTIRETY OF THE SUPREME LAW OF THE LAND COURSES" AND KNOW THE REPROVABLE DUTIES OF EVERY GOVERNMENTAL OFFICE)....TO "HOLD ONE TO ANSWER FOR A CRIME" (ARREST THEM OR SEIZE THEIR BELOW BANKRUPTCY PROPERTY), REQUIRES A UNANIMOUS, BEYOND DOUBT, CONVICTION (BY AN IMPARTIAL JURY).....AN INDIVIDUAL, AS A JUDGE, ALONE, IN-SOLIDO, CANNOT VALIDLY/CONSTITUTIONALLY MAKE SUCH A CONVICTION....EXCEPT, AS WITH A TRAFFIC TICKET, A DEFAULT HAS OCCURRED (A WRITTEN DEMAND, GRAND JURY PRESENTED, AND PREPONDERABLY UNANSWERED/UNPAID/UNCOMPLIED WITH IN 10 DAYS, SUNDAYS EXCEPTED; A1S7C1-4)...OTHERWISE, LIKE A POLICE COMMANDER, A JUDGE'S "ARREST ORDERS" MUST BE PRESENTED TO AND TRIED/CONVICTED/SUSTAINED BY AN IMPARTIAL JURY TO BE LAWFUL (JUST LIKE ANY OTHER POLICE OFFICER'S ARREST OR POLICE COMMANDER'S "ORDER OF ARREST", ACTUALLY-ENFORCED BY ANOTHER OFFICER)....

The difference between these two things (A GRAND JURY'S ARREST WARRANT AND A JUDGE'S ARREST "ORDER") ARE WHAT'S CONFUSING THE POPULACE AND PERPETUATING THE COVID-19-EPIDEMIC.....WHERE NO GRAND JURY HAS RULED ON ANY OF THE 2020 (OR 2018) ELECTIONS.....AND, THEREFORE, NO VALID WARRANTS HAVE BEEN MADE AGAINST "EITHER SIDE".....But, juryless, in solido rulings have, severally, been made across the country (and illegally enforced as "valid warrants", EVEN WITHOUT A DEFAULT VIA NON-ANSWER OCCURRING THEREIN....AS I ANSWERED THEM, MYSELF)....REMEMBER, WHEREVER ANY JURYLESS/IN-SOLIDO RULING OCCURS THAT SEIZES PERSONS OR BELOW BANKRUPTCY PROPERTY, THE ARRESTED/AFFECTED IS DUE A FULL-FLEDGED, UNLIMITED JURISDICTION, JURY TRIAL (IN CALIFORNIA, ESPECIALLY), JUST AS WITH ANY OTHER ARREST OR SEIZURE OF BELOW BANKRUPTCY PROPERTY BY ANY OTHER POLICE OFFICER (OR ORDERED BY ANY OTHER POLICE COMMANDER)...

Robispierre, in the 1700s (THE FIRST TO COUNTERFEIT A REAL GOVERNMENT, THE U.S.) used similar grand jury presentmentless orders, rulings, and mandates to kill some 17,000.....DON'T LET NEWSOM'S "REIGN OF TERROR" (DENYING THE ANTIBIOTICS AND "DEAD VIRUS ORAL VACCINE" THAT WE'D/I'D, SIMILARLY, OBTAINED

AMERICAN OVERSIGHT

CONSTITUTIONAL /GRAND-JURY DEFAULT WARRANTS FOR C.2/2020...WHICH WOULD'VE PREVENTED THE EPIDEMIC AND DEATH OF THOUSANDS)...CONTINUE TO LOOT OUR BENEGIT-TRUSTS AND DENY OUR CITIZENS THE NEEDED AND DUE, "NON-TOXIC" DEAD-VIRUS-ORAL-VACCINES THAT WILL STILL SAVE THEM (THESE NON-IMMUMITY-PRODUCING FAKE VACCINES MUST BE STOPPED.....A LETHAL "ONE A DAY" FOR THOSE WHO AREN'T EVEN SICK IS MALPRACTICE (AND WORSE).....NOTHING'S KILLED MORE UNINFECTED CALIFORNIANS THAN NEWSOM'S JURY-TRIAL-OBSTRUCING-VACCINE, ANYTIME SOON (ABD BEWARE OF HIS "AUNT NANCY'S APPOINTED JUDICIAL FRIENDS"; TAKE THEIR RULINGS STRAIGHT TO THE GRAND JURY, AS FRAUD AND RACKETEERING DENIALS OF YOUR TAX-PAID/DUE-PROCESS TO A TRIAL BY JURY....THEIR JURYLESS RULINGS AREN'T WORTH THE PAPER THEY'RE WRITTEN ON ..

Subject: AS PER THE CONSTITU TIONAL/GRAND-JURY DEFAULT WARRANTS OBTAINED/REPROVABLY-DUE IN/BEFORE THE 2018 CA. GOVERNOR'S ELECTION (www.WeWonCA2018.blogspot.com): I'M APPEALING AS THE LEGAL/CONSTITUTIONAL 2018-INCUMBENT, REGARDING ILLEGAL APPOINTEES OF THE ILLEGAL OCCUPANT OF THE OFFICE (2018-19-PRESENT: GAVIN NEWSOM & HIS SECRETARY OF STATE APPOINTEE)....
To: <USRecovery@gmail.com>

Your Honors:

Under the RICO and Organized Crime Acts, California is only a subdivision of the State of the United States of America.....Giving Federal Military Court's jurisdiction in any/all matters involving "State/Federal Chains of Command" (Army, Navy, Air Force, etc.).....as these failures/refusals to support & defend the U. S. Constitution (and valid laws), including "Constititional Default" (AqS7C1-4, FRCiv.P#54, etc.) have negligently impacted and affected the proper function of the U. S. Constitution/Government/Military, puting them in harm's way and subjecting them (and their families) to Robispierre-like, arbitrary forms of governance that've denied Active Duty, Reserves, and Retirees, alike their DUE PROTECTIONS UNDER THE LAW (INCLUDING DUE-ANTIBIOTICS TO PROVE/DISPROVE EXISTING AND FUTURE MDRs, MULTI-DRUG-RESISTANT-INFECTENTS AND THE "NON-TOXIC", ONLY REAL VACCINES, CURE/IMMUMITY/HUMAN-ANTIBODY-TO-THE-TARGETED-INFECTENT PRODUCERS)....THE TIME HAS COME, IF NOT "LONG BEEN DUE", THAT THESE STATE & FEDERAL DEFAULT WARRANTS BE ENFORCED....Especially, since this illegal office occupant (Newsom) and his illegal appointee (Ca. Secretary of State) are, again, refusing to fulfill their duties and enforce these 2018-WARRANTS, AS WELL AS NOW, AGAIN, REFUSING TO EVEN ALLOW ME ON THE BALLOT (WHILE OBSTRUCTING MY MILLIONS IN WARRANTED FUNDING, PREVENTING ME FROM BEING ABLE TO AFFORD SUCH FEES...AND IGNORING DUE WAIVERS AND PLEADINGS TO JUSTIFY DOING SO....I.E., SO THEY CAN

AMERICAN OVERSIGHT

PRETEND THIS IS (AND 2018 WAS) A FAIR/CONSTITUTION-SUPPORTING&DEFENDING ELECTION)...IT WASN'T/ISN'T...

Reprovably, having won and being in the military Chain of Command, thusly, I do, hereby, appeal for declarative and Injunctive relief (via Warrant ENFORCING Mandamus or otherwise)...enforcing the corrective warrants I've obtained and restoring full-fledged Constitutional Support/Defense/Proper-Function t the State of California...

PREFACE:

PETITION FOR REDRESS

AMICUS CURIA PLEADING

Your Honor (& Jurors):

I'm writing in regard to a recently reported petition to the Court, declaring and asserting that "THE RECALL ELECTION PROCESS OF CALIFORNIA IS/WAS UNCONSTITUTIONAL" (despite being a part and parcel of the California State Constitution), jointly and in solido...with my pleadings as THE LEGAL/CONSTITUTIONAL WINNER OF THE CALIFORNIA GOVERNOR'S OFFICE, SINCE 2018 (THOUGH NOT "THE GOVERNOR" SOUGHT TO BE RECALLED)...https://smex-ctp.trendmicro.com:443/wis/clicktime/v1/query?url=www.WeWonCA2018.blogspot.com&umid=579e1324-d71f-484c-9931-

AMERICAN OVERSIGHT

ad6920c57c2d&auth=8b8f40db557e52f063d04ff28867775c2b1419fe-2de98439808c57cfbd67af67c7c6f66d3e4bc43a...

The "Recall Provisions" are not UNCONSTITUTIONAL, as properly defined/interpreted....it's just like Article 1, Section 16 of the California Constitution (THE SABOTAGE/MALFUNCTION THAT CAUSES AND ALLOWS ALL THE OTHERS...WHICH, LIKE THE "CROOKED INSURER", WHO SAYS "YOUR PREMIUMS COVER THIS, THAT AND THE OTHER", WHEN YOU BUY THEM, BUT, "SINGS A DIFFERENT SONG" WHEN YOU RETURN TO COLLECT-BENEFITS).....THE INVIOLABLE RIGHT TO TRIAL BY JURY SHALL NOT BE DENIED.....The "Recall Provisions", relatedly, have been opined and precedented, JURYLESSLY, to the point of "a whole new benefitless, JURYLESS/secretary-of-state controlled racket" (for thrice+ the "original fee/tax/premium").....

As the "Recall Election Process" was, obviously and undeniably, created to prevent or impede the "crime and debt expansion" that's now been SCIENTIFICLY/PHYSICLY PROVEN TO EXAGGERATE CRIME AND DEBT LEVELS TO CIVIL/WORLD WAR, IF UNCORRECTED (by giving citizens a means of removing the Governor, even if their "INVIOLABLE RIGHTS TO TRIAL BY JURY" AGAIN, COULD NOT BE OBTAINED, FOR WHATEVER REASON)...

There's nothing "Unconstitutional" about doing so...IN FACT ITS NEGLIGENT, MALFEASANCE, AND OBSTRUCTIVE NOT TO "DO SOMETHING", EVEN IF YOU'RE NOT SURE "EXACTLY WHAT TO DO"...as was, presumably, the case with the "former Governor" who created California's Recall.....THE PROBLEM, HOWEVER, HAS NOW BEEN SCIENTIFICLY/PHYSICLY PROVEN TO BE SYSTEMIC, ALRIGHT, BUT, MUCH MORE "MICROSCOPIC" THAN A CHANGE OF GOVERNOR, ALONE, CAN GENERALLY-CORRECT...THE PROBLEM IS PROPER TAX-PAID/DUE-PROCESS (TRIAL BY JURY, AT LEAST, TO THE "PROPER GRAND JURY FUNCTION" LEVEL AND THE DEFAULT-WARRANT ENFORCEMENT THEREOF)...WHICH DOZENS OF JURY TRIALS ARE EITHER "MAKING PROBLEMS"("4+4= OTHER THAN 8-ing")OR THEY'RE RESOLVING PROBLEMS AT A RATIO OF "WHATEVER TO ONE" (WITH THE GOVERNOR'S ACTS) WHICH PREVENTS "NET IMPROVEMENT" FROM EVER-OCCURRING/BEING-PHYSICALLY-POSSIBLE....

THE FORMER GOVERNOR, even asked/included the office/person who might, if any, feel disenfranchised from the change/New-Recall-Process, the Lt. Governor, who hasn't objected in this/these matters, as I'm aware...

Recall not being a promotion, it's a type of "removal, impeachment, or firing", unless it was being used for unjust cause.....THEN, ITS USAGE WOULD BE UNCONSTITUTIONAL, BUT, NOT THE RECALL ITSELF.....

The "only problem" with the Recall is an "implicit vs. ecxplicit" interpretation/lack-of-valid-precedents/common-law-deficiency.....specificly, as it's to "remove or impeach/fire" and WE

AMERICAN OVERSIGHT

ALREADY HAVE GRAND JURIES TAX-PAID FOR THIS PURPOSE, IF IT SHOULD EVER OCCUR...the only time it's Validly-used is when, for whatever reason, proper grand jury function (including trial and sentencing jury aspects) have been impaired/sabotaged...[AS SUCH, UNTIL/UNLESS EXPLICITLY CORRECTED TO REQUIRE EXPLICIT ASSERTION THAT "GRAND-JURY-MALFUNCTION HAS IMPEDED DUE AND NEEDED REMOVAL", THEN, AS IN OTHER ELECTION CODE PROVISIONS***, THIS "GRAND JURY MALFUNCTION ASSERTION" MUST BE CONSIDERED "IMPLICIT" (AND INCLUDED IN ANY CURRENT RECALL PURSUIT)...

I could've asserted that the "Former Recall Creating Governor" had a similar "crime and debt expanding problem" as Mr. Newsom faced (crime and debt wise, as well as Public Health wise), but, since I had legally/Constitutionally WON VIA DEFAULT (AND WAS FULL-FLEDGEDLY-ASSERTING THE GRAND JURY WARRANTS I HELD/HOLD FOR THE POSITION, WHICH WARRANTS HE HAD TO NGLIGENTLY AND MALFEASANTLY-OPPOSE TO OCCUPY THE OFFICE).....AS WELL AS HAVING TWEETED (AND EMAILED) HIM REGARDING THE WARRANTS I OBTAINED IN 2/2020 THAT WOULD'VE PREVENTED THE EPIDEMIC AND ARE STILL-DUE (DUE ANTIBIOTICS TO PROVE/VERIFY MDRs AND CURE SECONDARY INFECTIONS; AS WELL AS "DR. SALK METHOD" "DEAD VIRUS ORAL VACCINES", THE ONLY "REAL VACCINES", "NON-TOXIC" AND HUMAN-ANTIBODY-TO-THE-TARGETED-INFECTION/REAL-IMMUMITY PRODUCING...THE DENIALS OF THESE DUE-MEDICINES BY MR. NEWSOM CREATED THIS PREVENTABLE EPIDEMIC, AND ARE PERPETUATING IT, WITH GRAND JURY REPROVABLE CERTAINTY)....THEY ARE NOT "THE SAME" (THE FORMER GOVERNOR WHO ESTABLISHED RECALL AND MR. NEWSOM)...

Election-wise, but not Recall-related, per se, my warranted copyrights/discovery materials include paper receipts for all electronic voting machine votes; secured-fingerprints for all mail-in ballots; and DIRECT PRESENTMENT TO THE GRAND JURY, FIRST (WHO THEN REPORTS TO THE SECRETARY OF STATE) FOR ALL ELECTIVE OFFICE APPLICANTS/CANDIDATES....ALL ELSE NEGLIGENTLY AND DEFAULT-BENEFITS-STEALINGLY, ETC., DENIES THE FULL-FLEDGED CONSTITUTIONAL-PROTECTION OF THE GRAND JURY (I.E., TRIAL BY JURY, IN VIOLATION IF CA.CONST.1:16)...FROM THE FIRST...A DIFFERENCE THAT ALLOWS ILLEGAL BALLOTINGS/BALLOTING-DENIALS WITHOUT EVEN "THIS MUCH" OF AN "UNLIMITED JURISDICTION GRAND/TRIAL JURY" FOR MATTERS OVER $25,000+ VALUE....ALLOWING CRIMINALS AND THEIR PARTNERS IN CRIME TO ILLEGALLY OCCUPY OFFICE/BE-INAUGURATED, APPOINT DOZENS OF "PARTNERS IN CRIME" (AND WORSE) BEFORE OUR GRAND JURIES ARE EVEN INFORMED OF THEM BEING CANDIDATES/APPLICANTS...OBSTRUCTING THEIR INVESTIGATIVE AND PROSECUTORIAL JURISDICTION AND DEFAULT-WARRANT-ENFORCEMENT DUTIES FROM THE FIRST OFFICIAL DOLLAR CONTRIBUTED, DONE OTHERWISE (AS MR. NEWSOM'S FAILURE/REFUSAL TO ENFORCE THESE WARRANTS HAS ILLEGALLY MAINTAINED UPON OUR PEOPLES)...

AMERICAN OVERSIGHT

_____
_____
_____

PETITION FOR REDRESS

ADDENDUM

Being that "THE ABILITY TO PRESENT MATTERS/EVIDENCE TO THE GRAND JURY-DIRECTLY" ENTAILS THAT GRAND JURY'S "JURISDICTION OVER ALL CRIMES" AND THEIR NON-NEGLIGENT/NON-MALFEASANT DUTY TO TAKE "APPROPRIATE CORRECTIVE ACTION, ASAP".....Any/all statutes, precedents, or policies to the contrary being Tax-Paid/Due-Process denying acts of pretended authority and "void judgment"...(18USCS2381, ETC.)...[CRIMINAL NEGLIGENCE, "WITNESS, EVIDENCE & JURY TAMPERING" (18USC1512) and worse]...[Including/Especially, provisions that make criminal negligence, obstruction of justice, or MALFEASANCE "impossible to engage" from the bench, during trials]...

[So too, to the extent that any Election Laws/Codes do not include/allow such "GRAND-JURY PRESENTMENTS AND THE GRAND JURY'S OFFICIAL RECOGNITION/DECLARATION AND ENFORCEMENT OF ANY/ALL DEFAULTS THAT OCCUR", they are Constitution Opposing acts of criminal negligence and pretended authority.....Denials of tax-paid/Due-Process that makes any/all Rulings, vote counts, etc. "Void Judgments"...]

HENCE, ELECTION CODES ARE FRAUDULENT that do not explicitly provide that "ONLY IF NO CANDIDATE/APPLICANT HAS WON THE OFFICE BY DEFAULT (FROM THE FIRST DATE OF APPLICATIONS TO THE LAST), SHOULD BALLOTINGS AND DIRECT-HIRING/VOTING OCCUR/PROCEED". Otherwise the Constitution/Valid-Law-of-Default has not been secured/enforced and frankpence-paid-taxes and benefits have been stolen.....as well as "due-ballotings" illegally denied (if any ballotings occur, as a "still in the race", synonym: I.E., if anyone whose "Won via Default" is fraudulently/assaultively claimed "not to be on the ballot", while others are "still on the ballot"); illegal ballotings are being allowed (via such "still on the ballot claims" by others,

AMERICAN OVERSIGHT

after a "Win via Default" has occurred by another); and criminal occupation of the highest of government offices (and Govrrnmental Overthrow) occurs/is-occurring...(AS WELL AS THE LOOTING OF BUDGETS AND TRUSTS FOR SUCH UNDUE, CONVICTIONLESS/PRESENTMENTS/GRAND-JURY-DEFAULT-WARRANT-OPPOSING EXPENDITURES)...(I.E., ANY/ALL "FURTHER ELECTION COSTS", AFTER A "WIN VIA DEFAULT" OCCURS ARE STOLEN VIA FRAUD, IN VIOLATION OF RICO AND ORGANIZED CRIME ACTS, ETC.)..

THUSLY (AS I PROVED IN 2018; www.WeWonCA2018.blogspot.com), SINCE WINNERS BY DEFAULT NEEDN'T EVER BE INCLUDED ON THE BALLOT TO WIN (as there shall be no official ballotings and direct-votes/hires, legally, after a "Win via Default" occurs)...AND A "WINNER VIA DEFAULT" WILL BE THE "INCUMBENT" AT THE NEXT ELECTION (EVEN IF ITS A RECALL ELECTION OF THE ILLEGAL OFFICE OCCUPANT THAT ILLEGALLY-HELD THE OFFICE, INSTEAD), in the event of such a "WIN VIA DEFAULT" (as in my case).....

If the CA.Election Code provisions are/were "merely arbitrary" and not describing such a "MAGESTERIAL GOVERNOR'S (LA.CONST.1812) WIN VIA DEFAULT" (Section 8203-c, specificly).....Though CA. Superior Court and Appellate Judges are initially appointed (and not elected), generally, by the Governor (unless an incumbent is defeated by a write-in-canddate, first, in general).....THESE PROVISIONS DO, BEYOND DOUBT, EXPLICITLY PROVIDE FOR AN ELECTIVE OFFICE TO BE FILLED/WON VIA DEFAULT (WITHOUT HAVING EVER APPEARED ON THE BALLOT)....which is, basicly, the "CONSTITUTIONAL EQUAL PROTECTIONS" DUE FOR AN APPOINTED SUPERIOR COURT MAGISTRATE/JUDGE (AFTER HIS/HER GUBERNATORIAL-APPOINTMENT/INCUMBENCY) AS IS LEGALLY/CONSTITUTIONALLY-DUE HIS/HER MAGISTERIAL/GUBERNATORIAL APPOINTER, AT LEAST...(The "Contested 100 Signatures" provisions of 8203-a [and the similar provisions of the "7" other States using the "Retention Election Method"], merely being an arbitrary means of resolution, beyond the usual civil jury trial or it's I/R/Direct-votes equivalent for $25,000+ matters, in the event of a written demand not being defaulted upon in 10 days, Sundays excepted)...[Amounts I/R have no Constitutional Jurisdiction over, without a Default occurring upon such majority-rule/popular/civil-verdicts]...

So, it's been proven herein (like"Dart's Code of Louisiana was proven to be a fraudulent representations of the law), that "IF I'M NOT GIVEN CONTRACTUAL CONSTRUCTION, HERE" (BEING DUE IT, AS THE PARTY WITH LEAST INPUT INTO THE AGREEMENT/PROVISIONS).....MEANING ELECTION CODE, SECTION 8203-c IS RECOGNIZED TO APPLY TO GUBERNATORIAL ELECTIONS (AS GOVERNORS ARE "RECOGNIZED MAGISTRATES") AND PROVIDE, BASICLY, THAT "IN THE EVENT THAT AN APPLICANT WINS THE GOVERNORSHIP VIA DEFAULT....AND, FOR WHATEVER REASON, APPLIES BUT IS NOT PLACED ON THE BALLOT IN THE NEXT ELECTION (AGAIN)"....THE ELECTION OFFICIAL (OR ANY ELECTION/LAW ENFORCEMENT OFFICER EQUIVALENCY), SHALL DECLARE THE INCUMBENT RE-ELECTED [VIA DEFAULT].....(as the U. S. Const.'s 22nd Amendment, likewise correlates**, prohibiting the holding office by another for more

AMERICAN OVERSIGHT

than one term, for which another is elected).....THAT I'M DUE THESE SAME PROTECTIONS/BENEFITS, OTHERWISE, AS AN APPLICATION OF "CONSTITUTIONAL LAW/DEFAULT" BEING USED/APPLIED...[I. E., The Constitution gives me the ability to "win any election via default" without ever having been on the ballot, whether Section 8203 confirms these REPROVABLES of the Supreme Law of the Land or the similarities between these "Common Law Proven/Reprovable of the Law" and Section 8203 are merely coincidental)...

MOREOVER, though I'd "technically won via default", or "secured via default" several offices, since 1988-89....BECAUSE IT WAS IN VIOLATION OF MY CIVIC DUTIES AND MY DUTIES AS A MILITARY OFFICER TO DO OTHERWISE....(including the Office of U.S. President, since 1988-89 and California Governor, since 2002-04, etc.).....as the "Organized Obstruction of My Grand-Jury-Warranted-Benefits" (since 1988-89) had me "Qualifying for SNAP" (even though these criminally-negligent, benefits obstructors owed these SNAP-funds back to the Trust and owed/owe me Triple Penalty Damages, by law)....I didn't have the resources to enforce these warrants, since 1988-89, so, I notified the Congress and Appealled to higher courts (usually without answer) and included them in the list of "annually refiled cases"....presuming the Higher Courts (or Congress) would resolve the problem, asap, as I still own/owned the copyrights/patents and held/hold the Grand Jury Warrants needed to resolve our Country and States' problems (educational, organizational/election-wise/Grand-Jury-Warranted-Benefits, Public Health, Safety, and Welfare-wise, etc.)...as I PROVED with Ronald Reagan and Social Security in the 1980s....using my Discoveries to elminate Social Security's Deficits for the first time in history (making "Peace Break Out All Over", Reagan described it)...

Thusly, as possible, any/all "conflictedly interested Judges", especially any ruling contrary to ENFORCING these Grand-Jury-Warranted-Benefits, asp, are admonished to RECUSE THEMSELVES...

PETITION FOR REDRESS

APPEAL OF JUDGMENT OR RULING
(EN BANC FILING)

AMERICAN OVERSIGHT

[ONLY ONE JUDGE'S/CLERK'S RECOGNITION OF THE PERPETUALLY-FILED TO DATE 2018-DEFAULT BY NEWSOM TO PREVENT HIS PRESENTMENTLESS, DEFAULTLESS/INDICTMENTLESS/CONVICTIONLESS REIGN OF TERROR FROM CONTINUING (ROBISPIERRE-LIKE)...AND STOP THE GREATER THEFT OF $270+ MILLION, CONVICTIONLESSLY/DEFAULTLESSLY, AGAIN, FOR THIS GRAND-JURY-PROVEN-FRAUDULENT "2021 RECALL ELECTION"]....

Your Honors:

I've proven the grand Juries of California have been sabotaged, allowing any Court's Jurisdiction, via Review (or otherwise)...

I've also obtained the g-jury warrants to correct all of California's problems, via Default (since 2003-04 in California, some since 1988-89).....

Having filed an "Amicus Brief" with the California Secretary of State, as well as judge Earl (Saccourt), proving GRAND JURY WARRANTS (FOR FELONY DEFAULTS) had been obtained in 2018 (State and Feferal), proving I'D WON THE GOVERNORSHIP VIA DEFAULT (which may've been confusing for the Secretary of State, [ILLEGALLY APPOINTED BY MR. NEWSOM OR NOT], but, Judge's are "exclusively" elected/RE-ELECTED via Detault in California and Judge Earl has, rather recently, been reported to have won via default)...the specifics of her win, I'm unaware of...

However, the recent rulings of both the Secretary of State (regarding Newsom's "Democrat" Balloting) and Judge Earl, regarding the Secretary of State's Ruling (with my Amicus Petition on File) are CLEARLY AND UNDENIABLY IN VIOLATUON OF LAW AND FACT ON THE SUBJECT MATTER.....INCLUDING NEGLIGENTLY AND MALFEASANTLY OBSTRUCTING THE ENFORCEMENT OF THESE VALID/REPROVABLE/UNNULLIFIED GRAND-JURY-WARRANTS IN THE MATTERS (WARRANTS THAT'VE GONE NEGLIGENTLY AND MALFEASANTLY UNENFORCED, SINCE 2018.....ALLOWING THE CRIMINAL OCCUPATION OF THE OFFICE/GOVERNORSHIP.....THE LOOTING OF THE UNEMPLOYMENT TRUST.....AND DENIAL OF DUE MEDICATIONS TO DATE (DEAD VIRUS ORAL VACCINE & M.D.R.-PROVING-ANTIBIOTICS, ESPECIALLY).....As Dr. Salk's works with Polio and the March of Dimes reproves....The "ONLY HUMAN ANTIBODY TO THE INFECTENT PRODUCERS", THE ONLY "REAL VACCINE"…...THE OTHERS BEING OVERPRICED PLANT/ANIMAL/VIRUS BIOEQUIVALENTS, PRODUCING ONLY ENDEMICS, LOOTINGLY....

Wherefore, the failure/refusal of the various Grand Juries to perform their Constitutional/Valid-Laws/Default supporting and defending enforcement-duty upon the CIVIL AND CRIMINAL DEFAULT VERDICTS AND WARRANTS THAT'VE LEGALLY-OCCURRED/ARE-REPROVABLY-DUE, MUST BE CORRECTED AND THESE WARRANTS ENFORCED....The first person to attempt this PRESENTMENTLESS, DEFAULTLESS/INDICTMENTLESS/CONVICTIONLESS RACKETEERING-COUNTERFEIT OF A-GOVERNMENT/DUE-PROCESS,

AMERICAN OVERSIGHT

Robispierre, murdered 17,000+ in the 1700s with his "Void-Judgment/Reign-of-Terror".....How many Californians ((& Americans) will die, before these matters are directly presented to the grand jury (for review or otherwise) and proper corrective actions for these crimes are duly-provided? How many?

Grand Jury Warrants (THE ONLY VALID WARRANTS) have already been obtained for these proven-due-benefits.....for the 2018-22 CALIFORNIA GOVERNORSHIP.....AS WELL AS FOR THE NEEDED UPGRADES/CORRECTIVES.....AND THE "FEDERAL GRAND JURY HANDBOOK" (theirs and our "U. S. Grade Version" at www.ScientificGrandJuryHandbook.blogspot com), UNDENIABLY REPRESENTS "ITS THE DUTY OF THE GRAND JURY TO INVESTIGATE AND TAKE PROPER CORRECTIVE ACTION REGARDING ALL CRIMES THEY HAVE KNOWLEDGE-OF"....with default warrants proven-herein, Civil and Criminal, how have no funds-seizures&transfers, nor arrests (for the Criminal Negligence of Default and worse) not, yet, occurred. Upon ACCUSEDS proven guilty of crimes and grand juries/jurors failing/refusing to Declare, Make, or Enforce DUE WARRANTS?

Subject: Kangaroo Mike and Vos disinformation campaign

Dear Robin,

When are you going to stop Kangaroo Mike Gableman's disinformation campaign?

Specifically, the disinformation campaign he is working on in conjunction with Ramthun or do you need to go see your highness Czar Bonespurs in Florida, again, to provide him with another one of the oral massages you so like to provide and give to Czar Trumpsky before you can be given approval.

I'm curious do you also fetch, rollover, and let him scratch your belly, like a good bitch.

Please stop bobbin', Robin or else Czar Trumpsky will expect you to swallow his whole load, again.

Sincerely,

A Citizen of Wisconsin

AMERICAN OVERSIGHT

Resolution of No Confidence for Republican Senator Chris Kapenga (R-Delafield)

Whereas, Senator Chris Kapenga (R-Delafield) was elected to the Wisconsin State Assembly during the TEA Party wave of 2010; and

Whereas, Senator Chris Kapenga, during his second term in office, launched extremist legislation to involve Wisconsin in the dangerous assault on the U.S. Constitution via his promotion of Article V Constitutional Convention legislation; and

Whereas, Senator Chris Kapenga was elected to the Wisconsin Senate in a special election in July 2015 held in the 33rd Senate District and was re-elected to the Senate in 2018; and

Whereas, Senator Chris Kapenga currently serves as the President of the Wisconsin State Senate; and

Whereas, in his capacity as Senate President, Senator Chris Kapenga had the authority during the 2021-2022 Legislative Session to sign the subpoenas to launch an investigation of rampant voter fraud during Wisconsin's 2020 presidential election as requested by the esteemed Representative Janel Brandtjen, Chairwoman of the Assembly Campaigns and Elections Committee; and

Whereas, Senator Chris Kapenga's dereliction of duty in defending the integrity of Wisconsin's elections offended many taxpayers both within in his district and statewide; and

Whereas, Senator Chris Kapenga has provided less than exemplary representation to the hard-working men and women of the 33rd Senate District,

Now Therefore Be It Resolved, the Republican Party/Patriot Party of _____, demands the State Republican Party, Waukesha Republican Party, or any other county party withhold any type of material assistance to the Re-Election efforts of Senator Chris Kapenga. Material cooperation includes but is not limited to: financial assistance, access to membership lists, staffing, office space, marketing, fundraising, or any other type of assistance to aid in his re-election efforts.

Be it Further Resolved, the Republican Party/Patriot Party of _____, demands the State Republican Party in cooperation with the Waukesha County Republican Party to launch an immediate active effort to recruit a new Principled, Conservative candidate to run for the 33rd Senate District position.

Hey Vos, Keep up your idiotic fight for overturning the 2020 election. Hopefully, you will be in jail after stealing taxpayers'money to fund your "witch hunt".

Nice use of "fake news". Trump did a good job of teaching you to lie and not laugh out loudas you make insane statements. Trump must have enjoyed your BJ during your circus ride on Trump's plane. Did you keep the suit with Trump's spunk on it like Clinton's intern did with her dress?

Stupid is as stupid does.

I'm enjoying watching moron GOP politicians try to lie enough times in hopes of them starting to believe you, but you forgot most voters are smarter thanyou think.

Vos, I will enjoy watching you screaming about voter fraud when you lose your job. The only fraud will be GOP supporters trying to cheat the system.....just like you are trying to do now.

Thanks for providing the political entertainment.
A Wisconsin Taxpayer,
Jay Hofkamp

FROM: Katie Bender-Olson and Ethan Lauer, Senior Staff Attorneys, and Peggy Hurley, Staff Attorney

RE: Summary of Law Revision Committee Bills

DATE: February 21, 2022

This memorandum provides summaries of bills introduced by the Law Revision Committee as 2021 Assembly Bills 1020 to 1033. The Law Revision Committee is a permanent, statutory committee appointed by the Joint Legislative Council. Among other duties, state law tasks the Law Revision Committee with considering "minor substantive remedial measures" proposed by state agencies. [s. 13.83 (1) (c), Stats.] The committee considers draft legislation proposed by agencies and votes on whether to introduce the drafts as bills authored by the Law Revision Committee.

ASSEMBLY BILLS 1020, 1021, AND 1022 (LEGISLATIVE REFERENCE BUREAU)

Assembly Bills 1020, 1021, and 1022 are Legislative Reference Bureau (LRB) corrections bills that make technical revisions to the statutes, including renumbering of provisions, grammatical changes, addition of titles, correcting cross-references to modified or repealed sections, and similar revisions and reconciliations.

ASSEMBLY BILL 1023 (DEPARTMENT OF FINANCIAL INSTITUTIONS)

Assembly Bill 1023 was proposed as remedial legislation by the Department of Financial Institutions (DFI), and makes the following changes to laws administered by the department.

Obsolete References to State Entities

The bill eliminates obsolete references to the Wisconsin Credit Union Savings Insurance Corporation, which was removed from state law in 2006. The bill also replaces an obsolete reference to the Commissioner of Banking with a reference to the Division of Banking within DFI to reflect current law.

Obsolete References to Federal Entities

The bill eliminates obsolete references to several federal entities formerly involved in financial institution insolvency: Federal Home Loan Bank Board; U.S. Office of Thrift Supervision; Resolution Trust Corporation.

The bill also removes a reference to the National Credit Union Administration as a promulgator of regulations under a specified federal law. That agency no longer promulgates rules for credit unions.

AMERICAN OVERSIGHT
WI-REP-22-0206-A-001241

Under the bill, a credit union would be required to comply with the applicable federal regulations regardless of which federal agency promulgated them.

Obsolete Reference to Former Federal Index

The bill repeals a reference to a national average mortgage contract rate previously calculated by the Federal Home Loan Bank Board.

ASSEMBLY BILL 1024 (DEPARTMENT OF JUSTICE)

Assembly Bill 1024 was proposed as remedial legislation by the Department of Justice (DOJ), and makes the following changes to laws administered by the department.

Deletion of Fingerprint Images

The bill requires DOJ to delete from its records, rather than return to the individual, the fingerprint images of any individual who is arrested or taken into custody and subsequently released without charges or who is cleared of the offense through court proceedings. This change reflects the transition from the use of fingerprint cards to the use of electronic images.

Electronic Delivery of Decisions

The bill allows the Division of Hearings and Appeals to deliver a copy of its decisions to the parties involved via electronic mail, if the parties consent. This method of delivery is an alternative to personal delivery or mail.

ASSEMBLY BILL 1025 (DEPARTMENT OF MILITARY AFFAIRS)

Assembly Bill 1025 was proposed as remedial legislation by the Department of Military Affairs (DMA), and makes the following changes to laws administered by the department.

Obsolete Appropriation

The bill repeals an obsolete appropriation for the purchase of emergency response equipment. The authority for DMA to make the purchase was valid in fiscal year 1989-90.

Terminology Updates

The bill changes statutory references from "material safety data sheets" to "safety data sheets" in order to reflect current practice by DMA. It also changes statutory references from "head of emergency management services" to "head of emergency management" to provide consistency throughout the emergency management statutes.

ASSEMBLY BILL 1026 (DEPARTMENT OF TRANSPORTATION)

Assembly Bill 1026 was proposed as remedial legislation by the Department of Transportation (DOT), and makes the following changes to laws administered by the department.

Obsolete Vehicle Weight or Size Permit Fees

The bill eliminates certain fees for permits issued by DOT for overweight or oversize vehicles to operate on a highway where the fees are no longer in effect.

AMERICAN OVERSIGHT

Motorcycle and Moped Registration Weight Limit

The bill eliminates a reference to the curb weight of a motorcycle or moped for purposes of the vehicle registration fee. The definitions of "motorcycle" and "moped" in current law do not refer to the weight of those vehicles and DOT does not consider weight when processing registrations for those vehicles.

Obsolete Motor Vehicle Emission Control Equipment Grant Program

The bill eliminates an obsolete grant program for the purchase and installation of oxidation catalyst mufflers on school buses. DOT has expended all program funds and closed the program.

Highway Route Reference Inaccuracies

The bill updates several incorrect references to highway routes along which specific motorist information signs may be erected.

ASSEMBLY BILL 1027 (DEPARTMENT OF EMPLOYEE TRUST FUNDS)

Assembly Bill 1027 was proposed as remedial legislation by the Department of Employee Trust Funds (ETF), and makes the following changes to laws administered by the department.

Named Survivor vs. Beneficiary

The bill replaces the term "beneficiary" with "named survivor" in statutes relating to annuity options for the Wisconsin Retirement System (WRS). The bill corrects references to "beneficiary" that were not changed to "named survivor" when other such references were changed in 1997 to distinguish between a named survivor who will receive a benefit and a beneficiary.

Qualified Domestic Relations Order

The bill repeals an obsolete provision regarding the division of a WRS account pursuant to a domestic relations court order. ETF was last authorized to accept such a court order on May 2, 2018.

Purchase of Creditable Service

The bill replaces the term "participant" with "participating employee" in a statute relating to purchasing creditable service for purposes of the WRS. The bill clarifies that only active employees are eligible to purchase creditable service.

Creditable Contributions and Service

The bill removes obsolete language that has not had effect since 1989. The bill clarifies that an individual may not earn contributions and creditable service during a period in which the individual receives an annuity from the WRS based on the individual's own service as a participating employee.

Internal Revenue Code Citation

The bill aligns state statutory language with provisions in the Internal Revenue Code (IRC). Specifically, the bill aligns statutory language with the IRC by distinguishing between expenses reimbursable under two different employee-funded reimbursement plan types governed by the IRC.

AMERICAN OVERSIGHT

Updated References

The bill updates references to the director of the former Office of State Employment Relations (OSER) to refer instead to the Division of Personnel Management (DPM). OSER was eliminated by 2015 Wisconsin Act 55 and its functions were transferred to DPM.

Alignment With Federal Law

The bill brings state law into compliance with the federal Setting Every Community Up for Retirement Enhancement (SECURE) Act of 2019 regarding the age at which required minimum distributions must begin. The bill replaces specified ages with a reference to the ages set under the relevant IRC section, so that future federal changes will be automatically reflected in state law.

ASSEMBLY BILL 1028 (DEPARTMENT OF SAFETY AND PROFESSIONAL SERVICES)

Assembly Bill 1028 was proposed as remedial legislation by the Department of Safety and Professional Services (DSPS), and makes the following changes to laws administered by the department.

Updated References

The bill changes references throughout the statutes from "enhanced nurse licensure compact" to "nurse licensure compact" to reflect current practice in referencing that interstate compact.

Hard Copies of Technical Standards

The bill repeals a requirement that state agencies keep a hard copy of standards established by technical societies, which are incorporated by reference in administrative rules, on file at the agency. Instead, under the bill, a hard copy will only have to be kept on file at the LRB.

ASSEMBLY BILL 1029 (DEPARTMENT OF CORRECTIONS)

Assembly Bill 1029 was proposed as remedial legislation by the Department of Corrections (DOC), and makes the following changes to laws administered by the department.

Oath of Office

Under current law, wardens or superintendents at adult correctional institutions are required to take an official oath of office. The bill requires that a warden or superintendent of a juvenile correctional facility must also take the oath of office.

Bond of Office

The bill eliminates the requirement for wardens and superintendents to execute an official bond, which is a promise to repay any financial damages arising from an official's failure to faithfully discharge his or her duties of office. This bond requirement was created when wardens and superintendents were directly responsible for purchases and managing funds for their institutions, which is no longer the case.

AMERICAN OVERSIGHT

ASSEMBLY BILL 1030 (DEPARTMENT OF HEALTH SERVICES)

Assembly Bill 1030 was proposed as remedial legislation by the Department of Health Services (DHS), and makes the following changes to laws administered by the department.

Incorrect Reference to Federal Regulation

The bill fixes an incorrect cross-reference to a federal definition of "institute of mental diseases".

Alignment With Federal Law

The bill eliminates a requirement that home health services must be provided within a patient's home to be reimbursable under the Medical Assistance program. This change makes state law consistent with a federal Center for Medicare and Medicaid Services rule.

Also, within a grant program for independent living centers to provide nonresidential services to individuals with severe disabilities, the bill aligns the definition of "independent living core services" with the relevant definition in federal law.

ASSEMBLY BILL 1031 (STATE HISTORICAL SOCIETY)

Assembly Bill 1031 was proposed as remedial legislation by the State Historical Society (SHS), and makes the following changes to laws administered by the society.

References to the Wisconsin Historical Museum

The bill clarifies whether various statutory references to "the museum" mean the existing museum located at 30 N. Carroll Street in Madison, or a new museum yet to be constructed. The bill also clarifies that admission fees collected at the new museum may be used to support the operations of the museum in addition to its public programming.

Duties of the SHS

In addition to fixing grammatical errors in current law, the bill modifies the duty of SHS to preserve the memory, exploits, perils, and adventures of early pioneers so that the duty applies also to early residents.

Annual Report by SHS Affiliates

The bill expands the contents of the annual report that an affiliate of SHS must file with the SHS in order to match the content required in the report the affiliate must file with DFI.

Clarification of Authority to Charge Fees

The bill clarifies that SHS may charge "fees" to defray, in part, the cost of materials and services that it furnishes to schools and teachers. Current law authorizes SHS to make "charges."

ASSEMBLY BILL 1032 (DEPARTMENT OF ADMINISTRATION)

Assembly Bill 1032 was proposed as remedial legislation by the Department of Administration (DOA), and makes the following changes to laws administered by the department.

AMERICAN OVERSIGHT

Management of University of Wisconsin System Information Technology

The bill clarifies that DOA does not manage the information technology portfolio of the University of Wisconsin System (UWS). The bill reflects a change in state law in 2003 that excluded UWS from DOA information technology oversight.

Outdated Terminology

In the context of DOA's management of the information technology portfolio of the executive branch, the bill modernizes terminology by replacing "information technology development projects" with "information technology projects."

Vendor Negotiations

The bill repeals a requirement that DOA negotiate with private vendors to facilitate the purchase of computers and educational technology by school teachers for their private use. DOA has not utilized this program in recent years.

ASSEMBLY BILL 1033 (DEPARTMENT OF REVENUE)

Assembly Bill 1033 was proposed as remedial legislation by the Department of Revenue (DOR), and makes the following changes to laws administered by the department.

Repeal of Obsolete Provisions

The bill repeals obsolete provisions relating to individual income tax additions and subtractions, tax incremental financing districts, the capital improvement fund for schools, individual and corporate income tax credits, and a sales and use tax exemption.

Use of Red Ink on Assessment Rolls

The bill repeals the requirement to use red ink to revise assessment rolls, in order to more accurately reflect the revision process related to electronic assessment rolls.

Repeal of Unconstitutional Language

The bill repeals language that was ruled unconstitutional by the Wisconsin Supreme Court in 2011 relating to local board of review proceedings. This repeal was inadvertently omitted from prior remedial legislation (2017 Wisconsin Act 358) repealing related language also ruled unconstitutional in the same 2011 case.

Sales Tax Exemption Certificates

The bill repeals the requirement that a purchaser present a sales tax exemption certificate when purchasing certain items that are exempt from the sales tax. The items are: insulin furnished by a pharmacist to a person for the treatment of diabetes of a human being; patient health care records; and farm-raised fish, if sold to a registered fish farm or to a person authorized to stock fish.

Please let us know if we can provide any further assistance.

Robin, (sorry, I can't use "Rep." when you fail to uphold your oath of office.)

I strongly object to you approving and using my tax dollars to employ M. Gableman to pursue a bogus investigation into nonexistent tax fraud in the 2020 presidential election. Multiple claims of fraud have been disproven. There has been no proof of widespread fraud. Gableman's ridiculous attempts and threats to jail people is a step too far, way too far. Call off the mad dog.

If those who insist on claiming fraud existed, despite vast proof to the contrary, want to continue to waste time and money to fund a useless pursuit, let them donate their money to pay for it.

I demand that you stop using my tax dollars for this utter nonsense.

We still live in a democracy despite your continued efforts to use abuse of power as a cudgel against those you (supposedly) represent.

Subject: MEDIA: Gableman report

Hello,

In light of Judge Gableman's report today, a few questions for Speaker Vos:

- Does Speaker Vos support an attempt to decertify the 2020 election?
- Given that the Assembly sent a similar effort by Rep. Ramthun to the Rules Committee to die in January, is Gableman's recommendation that the Assembly decertify the election helpful?
- Does Speaker Vos agree with Rep. Steinke that doing so would be unconstitutional?

- Does Speaker Vos intend to extend Gableman's contract so that his investigation can continue?

You can reach me by email or my cell phone: 509-850-6687. I'll have a story publishing shortly after this hearing has concluded.

Thank you,
Sarah Mimms

Subject: MU Poll numbers

Just noticed what the WI voters are thinking about Republicans. The Marq Univ poll showed the following regarding the Legislature:

"Also, the Republican-led Legislature is under water, with 37% approval to 46% disapproval."

Not surprising considering your handling of Covid, election investigation, uncooperative with Evers, (who looks good in the polls), hanging a star on Trump (who is not polling well). Sen Johnson looks awful in the numbers, but he is a loose cannon.
I am a Republican, but you guys have really screwed the Republican Party up.

Subject: Objection to Gableman's detachment from reality

My Wisconsin legislators, 53703 zip, and Governor Evers:

I could not disagree more about the election fraud fantasy manufactured by Mr Gableman, with Trump manipulating him behind the curtain. Channel 3 news reported today that his latest plot is to overturn the Wisconsin votes of the 2020 presidential election, and so I must write. Mr. Gableman grows more obsessed, delusional and malevolent, indifferent to the harassment of election officials and mayors of which he is complicit.

Trump is to me nothing but a sore loser bully. Clinically he has been diagnosed as a malicious sociopath by top, credible psychiatrists in the U.S.

Please do all you can to stop Mr. Gableman.

And Rep. Vos: You're not safe from Trump, or Gableman, either. They will not hesitate to betray you, too, if it's to their convenient advantage.

Sincerely,
Susan Shepanek
1459 East Main St.

Subject: Office of the Special Counsel Second Interim Investigative Report On the Apparatus & Procedures of the Wisconsin Elections System
Attachments: osc-second-interim-report.pdf

Good evening, Wisconsin Legislature:

I make my comments to you Wisconsinites as a resident Wyomingite who was born in La Crosse, WI, and as a patriot who swore an oath to the United States Constitution back in 1982.

AMERICAN OVERSIGHT

History is calling on you to decertify the Wisconsin 2020 General Election because of the massive election fraud detailed to you in the attached "Office of Special Counsel Second Interim Investigative Report On the Apparatus & Procedures of the Wisconsin Elections System". The election fraud in the 2020 General Election in Wisconsin is the most blatant and unlawful of all the Swing States, and the easiest to prove in violation of Wisconsin State Laws.

You have a duty to your oath as described below to decertify the 2020 General Election because FRAUD VITIATES EVERTHING! You have the authority per the United States Constitution to decertify the 2020 General Election as described below. ELECTION CRIMES HAVE BEEN COMMITTED IN WISCONSIN, and as such, you have a duty to your oath to take action on these election crimes, and if you don't, then the voters can only ASSUME that you are part of a coverup of election fraud in the 2020 General Election. Election fraud destroys our Constitutional Republic because, WE THE PEOPLE, have had our election choices stolen from us, making it IMPOSSIBLE to provide consent for governing. If you don't stand against election fraud now, then it will only continue in the future and become worse, meaning that our officials are installed instead of being elected in a fair and honest manner.

You also need to investigate the obstruction by your AG and your Governor of this OSC Report.

God is watching what you do, so do the right thing and decertify the 2020 General Election NOW! The *RED WAVE* is coming in 2022 to vote out all RINOs who have failed to uphold their oath to their State Constitution and the United States Constitution in ensuring election integrity in their States.

https://docs.legis.wisconsin.gov/statutes/statutes/19/I/01/1

19.01 Oaths and bonds.
(1) Form of oath.Every official oath required byarticle IV, section 28, of the constitution or by any statute shall be in writing, subscribed and sworn to and except as provided otherwise by s.757.02andSCR 40.15, shall be in substantially the following form:
State of Wisconsin,
County of ....
I, the undersigned, who have been elected (or appointed) to the office of ...., but have not yet entered upon the duties thereof, swear (or affirm) that I will support the constitution of the United States and the constitution of the state of Wisconsin, and will faithfully discharge the duties of said office to the best of my ability. So help me God.
....,
Subscribed and sworn to before me this .... day of ...., ... (year) ....(Signature)....,

https://legis.wisconsin.gov/assembly/22/brandtjen/media/1552/osc-second-interim-report.pdf

Thus it is clear that the Wisconsin Legislature (acting without the concurrence of the Governor, see supra), could decertify the certified electors in the 2020 presidential election. Two steps would be required for it to do so. First, the Legislature would need a majority in both houses to pass a resolution concluding that the 2020 election was (a) held in violation of state law, as detailed in this Report (or other sources), in one or more respects; and (b) the degree of violation of state law in place on November 3, 2020 rose to the level that fraud or other illegality under Wisconsin law could have affected the outcome, using any evidentiary test for certainty the Legislature agreed should apply (for instance, a preponderance, etc.). And second, the Legislature would need to invoke and then exercise its plenary power to designate the slate of electors it thought

AMERICAN OVERSIGHT

best accorded with the outcome of the election, had it been run legally in accord with the state election laws in effect on November 3, 2020. This would lead to decertifying the relevant electors, if the Legislature concluded that they were not the slate of electors that best accorded with the election if run consistent with all relevant Wisconsin laws in effect on election day.

However, this action would not, on its own, have any other legal consequence under state or federal law. It would not, for example, change who the current President is.

Thanks for your help!

AMERICAN OVERSIGHT

Introduction

The Office of the Special Counsel files this Investigative Report on Wisconsin's administration of the 2020 elections as a first step to begin restoring faith in America's elections. This effort is undertaken because Americans' faith in its election system was shaken by events both before and after the November 2020 Presidential election. For example, a January 2022 ABC/Ipsos poll revealed that only 20% of the public is very confident about the integrity of our national election system. This 20% number is a significant drop from 37% from a similar ABC poll conducted one year earlier. America's doubts about its election system crosses partisan lines. Among Democrats, only 30% say they are "very confident" in the U.S. election systems overall. Among independents, only 20% consider themselves "very confident" in the nation's elections. Among Republicans, only 13% are "very confident" with America's elections.

This shaken faith is not a result of legitimate legislative inquiries into election administration, nor is it a result of lawful contests lodged by any candidate or party. Rather, it is largely a function of opaque, confusing, and often botched election processes that could have been corrected, and still can be corrected, with concerted effort on the part of lawmakers and conscientious civil servants who work for Wisconsin State government. Helping correct these processes for future elections is the major purpose of this Report.

On November 10, 2021, the Office of the Special Counsel (OSC) outlined the preliminary steps it had taken to undertake a fully comprehensive review of the 2020 elections in the State of Wisconsin. That document outlined the constitutional authority of the people of the State of Wisconsin, through their Legislature, to investigate their own

AMERICAN OVERSIGHT

government. That Interim Report also outlined the initial roadblocks to a full investigation, and expressed the expectation that the information necessary to provide democratic accountability for and oversight of Wisconsin election proceedings was forthcoming. As outlined in Appendix I, OSC and the Assembly continue to be blocked from investigating portions of the Wisconsin government. Not only has the Wisconsin Attorney General intervened (and lost) in court to block certain subpoenas, and not only have left-wing groups provided support adverse to Wisconsin taxpayers—for instance by providing legal support to government employees seeking to keep their work secret, filing dilatory open records requests, and advancing frivolous complaints before various boards—but the Administrator of the Wisconsin Elections Commission (WEC) has explicitly stated to the Chairwoman of the Assembly Committee on Campaigns and Elections that she is prohibited by law and by private contract from turning over certain public records. Until these lawsuits are resolved, there appears to be no way to fully vindicate the right of the people of the State of Wisconsin to know how their government is run. Such lawsuits have proved a costly and time-wasting exercise.

Nevertheless, the OSC has continued to investigate available records, interview witnesses, and make substantial headway on several issues contained in this report. Further, good work by citizens' groups has provided the Assembly and the OSC with useful leads on how best to cure various systemic problems in the State.

While WEC and the State Attorney General have refused to cooperate with the Legislature's investigation and actively obstructed it, this Report is final in the sense that

AMERICAN OVERSIGHT

it provides a list of recommendations with enough time for the Legislature to act before the close of its session in March. However, the Assembly continues to authorize the OSC to operate past the final adjudication, on the merits, of the various legal challenges to the valid legislative subpoenas we have issued. Following any favorable adjudication, the OSC will manage and process the voluminous responsive records, and will facilitate any available audits.

Despite this cover-up, or perhaps because of it, the OSC can still reach certain conclusions about the integrity of election administration in the State of Wisconsin, and we can still make baseline recommendations. While we cannot, for example, recommend certain server protocols because we have been unable to obtain government records detailing precisely what the numerous electronic systems entail (Wisconsin uses numerous machine and system vendors) or precisely how the existing systems were used in 2020, we do have information relating to how confusing and opaque the system is. It is beyond doubt that no single governmental person or entity in the State of Wisconsin has a handle on these systems—that is a damning indictment on its own. Elections systems must be readily understandable by voters and newly elected county clerks—confusing systems harm voter confidence and tend to facilitate fraud.

The facts contained in this report are substantiated by records the OSC has made available to the Assembly and other public information. To the extent that any of these facts are disputable, the OSC encourages any individual named in this Report, any subject

AMERICAN OVERSIGHT

of validly issued legislative subpoenas, or any other fact witness to make themselves available to the OSC for interview.

Accordingly, at this stage, the recommendations included in this Report largely fall within the umbrella of enabling oversight and transparency of our election systems. It draws no conclusions about specific, unauthorized outside interference or insider threats to machine voting, but it does provide numerous examples of security gaps that tend to enable bad actors to operate in the shadows. Absent access to these systems, it would not be unfair for any citizens to conclude the worst, however. It is a commonplace in the law for it to assume the worst about the nature and impact of hidden or destroyed evidence, and it is up to government to justify its actions to the people, not the other way around.

A few additional recommendations in this Report fall within the second umbrella—maintaining political accountability. While it is clear that the outside groups and the bureaucrats in Madison who run our elections have not been accountable to the voters or the state government, there are some measures that can help return our State to a functional democracy.

This Report has another purpose: to catalog the numerous questionable and unlawful actions of various actors in the 2020 election.

Some unlawful conduct and irregularities outlined in this Report include:

1. Election officials' use of absentee ballot drop boxes in violation of Wis. Stat. § 6.87(4)(b)1 and § 6.855;

2. The Center for Tech and Civic Life's $8,800,000 Zuckerberg Plan Grants being run in the Cities of Milwaukee, Madison, Racine,

AMERICAN OVERSIGHT

Kenosha and Green Bay constituting Election Bribery Under Wis. Stat. § 12.11;

3. WEC's failing to maintain a sufficiently accurate WisVote voter database, as determined by the Legislative Audit Bureau;

4. The Cities of Milwaukee, Madison, Racine, Kenosha and Green Bay engaging private companies in election administration in unprecedented ways, including tolerating unauthorized users and unauthorized uses of WisVote private voter data under Wisconsin Elections Commission (WEC) policies, such as sharing voter data for free that would have cost the public $12,500;

5. As the Racine County Sheriff's Office has concluded, WEC unlawfully directed the municipal clerks not to send out the legally required special voting deputies to nursing homes, resulting in many nursing homes' registered residents voting at 100% rates and many ineligible residents voting, despite a guardianship order or incapacity;

6. Unlawful voting by wards-under-guardianship left unchecked by Wisconsin election officials, where WEC failed to record that information in the State's WisVote voter database, despite its availability through the circuit courts—all in violation of the federal Help America Vote Act.

7. WEC's failure to record non-citizens in the WisVote voter database, thereby permitting non-citizens to vote, even though Wisconsin law requires citizenship to vote—all in violation of the Help America Vote Act. Unlawful voting by non-citizens left unchecked by Wisconsin election officials, with WEC failing to record that information in the State's WisVote voter database; and

8. Wisconsin election officials' and WEC's violation of Federal and Wisconsin Equal Protection Clauses by failing to treat all voters the same in the same election.

It is important to state what this Report is not. This Report is not intended to re-analyze the re-count that occurred in late 2020. And the purpose of this Report is not to challenge certification of the Presidential election, though in Appendix II we do sketch how that might be done. Any decisions in that vein must be made by the elected

AMERICAN OVERSIGHT

representatives of the people, that is, the Wisconsin Legislature. Yet it is clear that Wisconsin election officials' unlawful conduct in the 2020 Presidential election casts grave doubt on Wisconsin's 2020 Presidential election certification. This Report thus does surface very big questions: how should Presidential election certification occur in Wisconsin going forward and would the Legislature have any remedies to decertify if it wanted to do so?

In 2020 in Wisconsin, the certification of its Presidential election spanned two steps and to a large extent operated in a legal vacuum. *First*, on November 30, 2020, Wisconsin Elections Commission (WEC) Chairperson Ann Jacobs, on her own and without a full Commission vote, signed the "determination of the recount and the presidential contest." This unilateral action led one of the sidelined Commissioners to call for Jacobs' resignation. *Second*, a few hours later, Governor Tony Evers certified the results of the state's November 3 election by signing the Certificate of Ascertainment that approved the slate of electors for President-elect Joe Biden and Vice President-elect Kamala Harris.

Neither the WEC Chairperson nor the Governor had an incentive to proceed with greater deliberation and address the serious concerns of citizens and other Commissioners. This is a serious gap in the legal structure governing elections that should be corrected as far in advance of the 2024 presidential election as possible. In the meantime, many of the doubts relating to large categories of ballots are continuing to be both broadened and deepened. Recently, a Wisconsin court invalidated the use of drop boxes. Additionally,

AMERICAN OVERSIGHT

this Report flags systematic problems with voting in elder care facilities, an issue that was also recently blown wide open by the Racine County Sheriff.

There are other issues outlined in this Report, many of which could justify post-election administrative correction by WEC under Wis. Stat. § 5.06, which authorizes exactly such a post-certification process to correct mistakes made by election officials. Administrative corrections under Wis. Stat. § 5.06 would flush out election officials' unlawful conduct. Such a post-certification administrative correction will not de-certify the election on a self-executing basis, but these challenges, which can be filed by any voter in an election (or by district attorneys or the Attorney General of the State), are a worthwhile step to take. However, as noted, these complaints are directed *to* WEC. But complaints *about* WEC cannot fairly be adjudicated by this body—another legal gap.

It is the duty of all citizens of our State and our nation to work hard to secure our democracy for this generation and the next. This Report is one small step towards fulfilling that duty we all share. And without the tireless work of concerned citizens, and dedicated public servants such as the Sheriff of Racine County, much of what is made public in this Report would not have been exposed to the light. In our own way, we can each do our part, whether by voting, or by volunteering, or by leading campaigns to improve the integrity of our elections. The true story of the 2020 elections in Wisconsin might never be fully known—as noted, the constitutional duty of the Legislature is still imperiled in the state courts—but the recommendations in this Report constitute a good beginning.

AMERICAN OVERSIGHT

Statement of Progress

The Special Counsel has been maintaining an active investigation and continuing to fight for the Legislature's right to conduct an election-integrity investigation. Since the first Interim report, the Special Counsel has issued 76 new subpoenas. This brings the total subpoenas issued by the OSC to 90. These subpoenas were served upon entities named in this report, including Dominion Voting Systems, Inc., Electronic System and Software, LLC (ESS), Quickbase, Inc., USDR, CTCL, NVAHI, The Elections Group, and others.

The subpoenas were also served upon or sent to some of the persons who had the most information about the role of private companies and individuals in Wisconsin's election. This included Michael Spitzer Rubenstein, Tiana Epps-Johnson, Ari Steinberg, and Harrison Hersch. Finally, the subpoenas were served on local persons such as Hannah Bubacz, a Milwaukee city employee, and Sarah Linske, an IT employee for WEC.

To the extent that individuals responded to subpoena, it was to produce documents. Some recipients, including the major private companies and individuals, did not comply at all. They either informed the OSC that they would not comply with the subpoena or attend the depositions or embroiled the OSC in litigation. As of the writing of this Report, the litigation surrounding the investigation of the 2020 election has been pervasive and time-consuming.

The Special Counsel has been sued three different times in three different cases in Dane County Circuit Court. The OSC has defended against a lawsuit brought by the Wisconsin Attorney General in which he asked the court to declare that the OSC did not have the authority to conduct the investigation. Two additional lawsuits related to open

AMERICAN OVERSIGHT

records requests to the OSC were filed by organizations supported by Democrat-backed labor unions.

In Waukesha County, the OSC filed a petition to enforce the legislative subpoenas. Initially, the lawsuit included only four defendants. Six additional defendants were later added, bringing the total to ten. Two attorneys from the OSC are assigned to that case and briefing is underway. Prosecuting the enforcement action detracts from the OSC's ability to conduct and complete its investigation.

The OSC did receive a large quantity of documents from the Zuckerberg 5. Those documents were electronic in form. The process of organizing and reviewing them has required a significant expenditure of time and resources, and that will continue to be the case as OSC receives additional documents.

The OSC launched a major investigation into nursing home abuse. Attorneys and investigators were dispatched to multiple nursing homes across the State. They identified and met with multiple residents who voted, despite the fact they were clearly incapable of voting and/ or not legally permitted to vote because of a guardianship order. The OSC representatives made detailed notes and videos of these residents for evidentiary purposes.

The Special Counsel intended to use a professional statistician in the nursing home setting. Using a controlled environment, the OSC could take a detailed sampling of nursing home abuse and voting irregularities to determine, statewide, the number of improperly cast ballots in residential care facilities. The OSC was not able to complete this task by the time this Report was due. Instead, the personnel conducting the nursing home investigation were also repurposed to assist in the drafting of this Report.

AMERICAN OVERSIGHT

The OSC received information that an entity had cellphone pinging data related to the City of Milwaukee and its absentee ballot drop boxes. As of the time of this Report, the OSC has not been able to run to ground all the issues relating to obtaining this data.

The OSC consulted with multiple computer security experts regarding voting machines. Two major machine manufacturers were identified in Wisconsin, Dominion Voting and ESS. The OSC viewed extensive reporting about the integrity of the machines. The OSC learned that some Dominion machines are extremely vulnerable to hacking and manipulation. These specific machines can be manipulated to alter actual votes cast—either surreptitiously or by the machine technicians.

The Special Counsel reviewed extensive reporting of a Dominion machine failure event in another State. The OSC was able to identify, through the reports of experts, that the failed machine recorded two anonymous and unauthorized access events from its VPN. This means, contrary to what Dominion has publicly stated, that at least some machines had access to the internet on election night. Shortly after the unauthorized access was recorded, the machine failed and was reset, wiping all voting history and forcing that election administrator to rely on unverifiable paper printouts from the failed machine.

ESS machines were equally problematic. The central problem is that several of the machines are made with a 4G wireless modem installed, enabling them to connect to the internet through a Wi-Fi hotspot. One municipality under investigation in Wisconsin by the OSC admitted that these machines had these modems and were connected to the internet on election night. The reason given was to "transmit data" about votes to the county clerks.

AMERICAN OVERSIGHT

The OSC learned that all machines in Green Bay were ESS machines and were connected to a secret, hidden Wi-Fi access point at the Grand Hyatt hotel, which was the location used by the City of Green Bay on the day of the 2020 Presidential election. The OSC discovered the Wi-Fi, machines, and ballots were controlled by a single individual who was not a government employee but an agent of a special interest group operating in Wisconsin.

The OSC began a comprehensive investigation of voting machines in Wisconsin. As part of that investigation, subpoenas were sent to Dominion, ESS, and Command Central, LLC, a Dominion reseller and servicer. The information sought included information about who, when, where, and what updates the machines were provided. The OSC learned that one machine company representative stated that the voting machines were "wiped" during updates, meaning they did not retain federally required voter data.

It was discovered that Command Central, LLC, received images of cast ballots on election night using the internet. Command Central is alleged to be holding actual ballots cast on election night at its offices in Minnesota in violation of Wisconsin law. The OSC was not able to complete this portion of its investigation, however.

As of the date of this Report, the voting machine companies have refused to comply with the OSC's legislative subpoenas, and have provided no data. The OSC considers this investigation incomplete but ongoing.

The OSC also sought information about the machines in Wisconsin used on election night from the clerks. The clerks either did not possess the data sought by the OSC or refused to provide it, with Green Bay and Madison insinuating that providing secure voting machine data to the OSC would somehow compromise election integrity. In other words,

AMERICAN OVERSIGHT

these cities claim that it is impossible to verify the integrity of the voting machines because doing that would jeopardize the integrity of both the machines and future elections. The Special Counsel intends to resolve this issue as the investigation moves forward.

The OSC's investigation discovered the use of a ballot tracking and harvesting application in Wisconsin. An extensive amount of time and effort went into this portion of the investigation. The OSC became attuned to the possibility of an application when reviewing email exchanges between the Zuckerberg 5 and third parties. This involved tracking applications in Georgia and Pennsylvania.

The OSC discovered ballot tracking programs in both Georgia and Pennsylvania. The OSC was able to locate and identify the developer of both programs in those States. The OSC obtained the source code for the Pennsylvania application. Ultimately, that data and source code would not prove to be helpful to discovering information about the Wisconsin application.

However, the OSC still located the Wisconsin application and its developers. In the course of that investigation, the OSC documented multiple misrepresentations of material facts by WEC administrator Meagan Wolfe. For example, Ms. Wolfe told the Assembly Committee on Campaigns and Elections both that she did not know about the CTCL grants and that cities did not have access to statewide WisVote or BadgerBooks data. Both of these statements are demonstrably untrue.

Ms. Wolfe also told the Commission that there was no API (Application Programming Interface that allows direct access) into the WisVote or BadgerBooks system. Yet cities have provided information that they *do* have access to statewide WisVote and BadgerBooks data. At least one city apparently provided an API to the WisVote and

AMERICAN OVERSIGHT

BadgerBooks systems, which provided real time, free information to special interest groups who used that information for selective, racially-targeted get-out-the-vote purposes under the contracts. That application may still have an active API and may remain viable, so that it might be used by the private groups in future elections.

Moving forward, the OSC will continue working to obtain answers to the important questions raised by these findings. The tasks remaining include:

1. Vindicating the legislature's subpoena and investigative authority through ongoing litigation;
2. Compelling witnesses (individual or institutional) with crucial information about Wisconsin elections to provide testimony. This includes Meagan Wolfe, Ann Jacobs, Michael Spitzer Rubenstein, Tiana Epps-Johnson, Trina Zanow, Sarah Linske, Hannah Bubacz, Harrison Hersch, Dominion, ESS, and the Zuckerberg 5 through ongoing litigation.
3. Determining the identities of any groups or individuals engaged in ballot harvesting in Wisconsin;
4. Verifying the integrity of Wisconsin's voting machines;
5. Identifying additional votes cast unlawfully as a consequence of WEC's directives to clerks regarding SVDs;
6. Providing additional reporting as necessary, possibly including a more robust roadmap to the outside groups and leadership that interfered with the administration of past Wisconsin elections.

AMERICAN OVERSIGHT

Chapter 1

The Center for Tech and Civic Life's $8,800,000 Zuckerberg Plan Grant with the Cities of Milwaukee, Madison, Racine, Kenosha and Green Bay (the Zuckerberg 5) Facially Violates Wisconsin Law Prohibiting Election Bribery.

The Cities of Milwaukee, Madison, Racine, Kenosha and Green Bay entered into an agreement with Center for Tech and Civic Life (CTCL). In the agreement, the Cities took CTCL's money to facilitate in-person and absentee voting within their respective city. The agreement documents included the Wisconsin Safe Voting Plan (WSVP), the CTCL worksheets and the CTCL acceptance letters, which were conditioned on the Cities spending CTCL's transferred money in accordance with the WSVP. These documents are in the accompanying appendix: App. 7-27 (WSVP); App. 513-519, (CTCL worksheet blank form), 520-537 (Green Bay worksheet), 538-551 (Kenosha worksheet), 552-563 (Madison worksheet), 564-575 (Milwaukee worksheet), 576-587 (Racine worksheet); 588-601 (CTCL grant application acceptance letters for Milwaukee, Madison, Kenosha, Green Bay and Racine).

Any Agreement Where a City's Election Officials Receive CTCL or Other's Private Money to Facilitate In-Person and Absentee Voting Within a City Facially Violates Wis. Stat. § 12.11's Prohibition on Election Bribery Under Wis. Stat. § 12.11.

The CTCL agreement facially violates the election bribery prohibition of Wis. Stat. § 12.11 because the participating cities and public officials received private money to facilitate in-person or absentee voting within such a city. Any similar agreements in the 2022 and 2024 election cycle would also be prohibited election bribery.

AMERICAN OVERSIGHT

Wis. Stat. § 12.11, in relevant part, prohibits a city from receiving money to facilitate electors going to the polls or to facilitate electors to voting by absentee ballot:

> Election bribery
>
> (1) In this section, "anything of value" includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1…
>
> (1m) Any person who does any of the following violates this chapter:
>
> 1. Offers, gives, lends or promises to give or lend, or endeavors to procure, anything of value, or any office or employment or any privilege or immunity to, or for, any elector, or *to or for any other person, in order to induce any elector to*:
>
> 1. *Go to … the polls*.
>
> 2. *Vote*….

Wis. Stat. § 12.11 (emphasis added). Although the word "person" is not defined in section 12.11, it is defined elsewhere to include "bodies politic," which also includes municipalities. *See* Wis. Stat. § 990.01(26). Although the word "induce" is not defined in Wis. Stat. § 12.11, it is commonly defined to mean "to call forth or bring about by influence or stimulation."

Wis. Stat. § 12.11 requires three elements for a municipality or its officials to engage in "election bribery:" (1) the definition of "anything of value" must be met; (2) the thing of value must be received by a municipality or its election officials; and (3) the municipality must receive the thing of value in order to facilitate electors going to the polls or voting by absentee ballot. With respect to the first element, Wis. Stat. § 12.11 defines "anything of value" to mean "any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1." To

AMERICAN OVERSIGHT

meet the second element, Wis. Stat. § 12.11 requires that the item of value be received by a municipality. Finally, the city must receive the item of value in order to facilitate electors to go to the polls or in order to facilitate electors to vote.

1. Conception of the Election Bribery Scheme

The record created by public document requests shows that CTCL, a private company headquartered in Chicago[3], engaged in an election bribery scheme. CTCL reached out to the City of Racine to allow CTCL to provide grant money to certain handpicked cities in Wisconsin to facilitate increased in-person and absentee voting in the cities. App. 402. This first grant of $100,000 was to be split among the five largest cities in Wisconsin at $10,000 per city, plus an extra $50,000 to Racine for organizing the five cities. App. 402. This first grant required the mayors of the five largest cities in Wisconsin and their respective staffs to complete CTCL election administration forms, including goals and plans to facilitate increased in-person and absentee voting in their respective cities and "communities of color" and develop a joint plan for elections only in these cities and not statewide. App. 297.

Christie Baumel (a City of Madison employee) wrote on June 9, 2020, regarding CTCL and "Election Cost Grant:"

> My understanding is that this is a small planning grant that Racine received from the Center for Tech & Civic Life to produce, by June 15th, a proposal for safe and secure election administration, according to the **needs identified by the five largest municipalities**. In other words, this information informs the Center for Tech & Civic Life in their consideration of where and how to support complete, safe, secure [sic] elections in Wisconsin.

App. 603 (emphasis added.)

AMERICAN OVERSIGHT

As part of the election bribery scheme, CTCL was reaching out to the five largest cities in Wisconsin, and CTCL wanted information from those cities in determining how to provide money to those cities to facilitate increased in-person and absentee voting. *Id.* This program and the larger amount of grant money was not available to any cities or counties in Wisconsin other than the five largest cities. These five cities began to identify themselves and to be identified by CTCL as the "Zuckerberg 5," including a letterhead with the five cities' seals.[4] App. 7, 141-143. Whitney May, Director of Government Services at CTCL, wrote to representatives of the other Zuckerberg 5 cities on August 18, 2020, stating, "You are the famous WI-5 … excited to see November be an even bigger success for you and your teams." *Id.*; App. 375-376.

The attempt of CTCL to target the five largest cities in Wisconsin for election support to facilitate increased in-person and absentee voting had been ongoing since early 2020, as indicated in emails and invitations from Vicky Selkowe, a Racine employee who opposed Trump and those that voted for him,[5] to Kenosha, Madison, Milwaukee, and Green Bay mayors, and a few other city officials from the Zuckerberg 5. App. 331-349; 392-401; 481-487. Only those four cities plus Racine were invited to "[a]pply for a COVID-19 grant" from CTCL and to thus be in on the "plan" to accept CTCL's private money to facilitate increased in-person and absentee voting in the 2020 election. App. 603-604.

The CTCL Agreement required the Zuckerberg 5 Mayors and their respective staffs to develop a joint plan for the Zuckerberg 5's elections pursuant to the agreement by June 15, 2020:

> The City of Racine, and any cities granted funds under paragraph 4, shall produce, by June 15th, 2020, a plan for a safe and secure election

AMERICAN OVERSIGHT

> administration in each such city in 2020, including election administration needs, budget estimates for such assessment, and an assessment of the impact of the plan on voters.

App. 2. The carrot for the Zuckerberg 5 to provide this information for CTCL was to get part of a $100,000 grant. Once the Zuckerberg 5 expressed interest in receiving the $10,000 grants from CTCL, they quickly provided information to Ms. Selkowe and CTCL on CTCL's form so they could develop a "comprehensive plan" for election administration for their "national funding partner, the Center for Tech & Civic Life" by June 15, 2020. App. 604 (emphasis added).

Following the expected "Council approval" on June 2, Ms. Selkowe of Racine sought to "immediately" connect with "municipal clerks and other relevant staff" to "swiftly gather information about" the cities' "election administration needs." App. 604. Ms. Selkowe obtained the information from the Zuckerberg 5 through the five completed CTCL forms, then either Racine or CTCL used that information to prepare the WSVP, as requested by CTCL. App. 513-519, (CTCL blank form), 520-537 (Green Bay), 538-551 (Kenosha), 552-563 (Madison), 564-575 (Milwaukee), 576-587 (Racine). Ms. Selkowe made clear that she was the point person for communicating with the different city staffs to gather information to prepare this plan. *Id.* at 604.

2. The First Contract Between CTCL and the Zuckerberg 5

On about May 28, 2020, the Racine Common Council approved, and signed, the CTCL conditional grant in the amount of $100,000 to recruit and later coordinate with the Zuckerberg 5 to join the WSVP 2020 submitted to CTCL on June 15, 2020. App. 325-349, 402-405. The grant and distribution to the Zuckerberg 5 was not random, rather it was the

AMERICAN OVERSIGHT

intentional culmination of meetings or virtual meetings on May 16, 2020, June 13, 2020, and August 14, 2020. *Id.* These meetings were also secretive. The mayors and their staff were invited to the meeting. However, neither the Common Council members nor the public were informed that the meetings were even set to occur. *Id.* The Common Council members of Racine were later asked to vote only to approve what was decided at the secret meetings. App. 486-487.

It is not believed that the Common Councils of the other four cities of the Zuckerberg 5 were asked to vote on the $100,000 grant, except perhaps long after they had already received the money and committed to accepting the larger grant and its conditions. *Id.* For example, the City of Madison received the $10,000 even though on July 13, 2020, Maribeth Witzel-Behl, the Madison City Clerk, wrote that "Common Council has yet to accept the $10,000" from CTCL. App. 605-606.

The grant approved by the Racine Common Council stated, "[t]he grant funds must be used exclusively for the public purpose of planning safe and secure election administration in the City of Racine in 2020 and coordinating such planning." App. 404. Thus, the consideration for the Zuckerberg 5 to receive the first, small grant, was that they provide information for CTCL to use in preparing the WSVP for the large grant. *Id.*

3. The WSVP and CTCL's Grant Acceptance Letter Incorporating the WSVP Is the Agreement Where the City Agreed to Take CTCL's Private Money to Facilitate Increased In-Person Voting and to Facilitate Absentee Voting.

The WSVP and CTCL's grant acceptance letter incorporating the WSVP is the agreement in which the City agreed to take CTCL's private money to facilitate increased

AMERICAN OVERSIGHT

in-person voting and to facilitate absentee voting. The WSVP was developed ostensibly "in the midst of the COVID-19 Pandemic" to ensure voting could be "done in accordance with prevailing public health requirements" to "reduce the risk of exposure to coronavirus." Further, it was intended to assist with "a scramble to procure enough PPE to keep polling locations clean and disinfected." App. 7-27.

However, another election purpose existed as evidenced by the documents obtained by the Special Counsel. That other election purpose was to fuse together the CTCL, their allied private corporations, the Zuckerberg 5, and $8.8 million of private funding into joint operations in that group of cities, where the focus would be on facilitating increased in-person and absentee voting, particularly in their "communities of color." *See, e.g., App*. 7-27 (WSVP). From the beginning, the purpose of the WSVP contract and its private funding was for the Zuckerberg 5 to use CTCL's private money to facilitate greater in-person voting and greater absentee voting, particularly in targeted neighborhoods.

4. Having Agreed to the Initial $10,000 Per City Grants (Plus $50,000 Extra for Racine), the Zuckerberg 5 Entered New Grant Agreements for Larger Grants Which Included CTCL's "Conditions" and Performance Requirements Under WSVP.

On or about July 6, 2020, Ms. Selkowe announced that the WSVP had been fully approved for funding by the Center for Tech & Civic Life; the initial $10,000 grant was just the first step for the Zuckerberg 5 to get an even larger grant from CTCL. *See, e.g.,* App. 1-27. Also, on July 6, Tiana Epps-Johnson of CTCL emailed Ms. Selkowe stating CTCL intends to fund each of the Zuckerberg 5 with far larger sums of money: Green Bay—$1,093,400; Kenosha—$862,779; Madison—$1,271,788; Milwaukee—

AMERICAN OVERSIGHT

$2,154,500; and Racine—$942,100. App. 11. This brought the total grants to the Zuckerberg 5 to $6,324,567.00. *Id.* Each of the Zuckerberg 5, expressly or impliedly, accepted the large grant money. For example, sometime in July 2020 the City of Madison accepted $1,271,788 by vote of Common Council. App. 605.

Concurrently with CTCL's plans to provide the Zuckerberg 5 with $6,324,567.00 in grant money, CTCL agents began to inform the Zuckerberg 5 of the conditions and the consideration for that grant money. App. 588-601. In other words, the grants were not for purely altruistic purposes as "strings" were clearly attached. On July 10, 2020, Ms. Selkowe started contacting each of the Zuckerberg 5 to let them know Tiana Epps-Johnson would contact them to start introducing the Zuckerberg 5 to CTCL's "partners." App. 463-464. "Tiana and her team have arranged for extensive expert technical assistance from fantastic and knowledgeable partners across the country, to help each City implement our parts of the Plan." *Id.* Tiana will send a "draft grant agreement" for the city's review and "approval on Monday." *Id.* It was assumed that each City would vote to accept the money, and the terms of the agreement were not important. *Id.*

On July 10, 2020, Ms. Selkowe sent an email to Celestine Jeffreys and copied Tiana Epps-Johnson, stating that Green Bay should work with CTCL, along with several of the other largest Wisconsin cities, to "implement our parts of the Plan," and to allow the City of Green Bay to "understand the resources she's [Tiana Epps-Johnson of CTCL] bringing to each of our Cities [the "cities" of Milwaukee, Racine, Madison, Kenosha and hopefully Green Bay] to successfully and quickly implement the components of our Plan." App. 261-262. By approximately July 24, 2020, each of the Zuckerberg 5 had agreed to contracts with CTCL, along with the conditions, rules, and regulations CTCL attached to the grants.

AMERICAN OVERSIGHT

App. 32-33 (Green Bay), 3-5 (Racine), 371-373 (Kenosha), 392-401 (Milwaukee), 406-410 (Madison).

5. The Grant Agreements and the WSVP Between CTCL and the Zuckerberg 5 Contain Conditions Regarding the City Facilitating Increased In-Person and Absentee Voting.

In addition to being informed that the Zuckerberg 5 should work with CTCL's "partners," the grant agreement contained express conditions that each of the Zuckerberg 5 had to follow in order to receive and keep the grant funds. *Id.* The grant agreement incorporated the WSVP and its provisions:

> The grant funds must be used exclusively for the public purpose of planning and operationalizing safe and secure election administration in the City of _____ in accordance with the Wisconsin Safe Voting Plan 2020.

Id. The consideration for the second contract heavily implied that the Zuckerberg 5 were to use CTCL's "partners" for election administration. By the time the second contracts and grants came to be issued, the Zuckerberg 5 were deeply embedded in election administration, especially in Green Bay and Milwaukee. Michael Spitzer Rubenstein was listed as a "CTCL grant mentor" who was directing election administration in Green Bay. The contracts for the Zuckerberg 5 required the cities to report to CTCL its spending, not make changes to their spending, or pay the grant money back to CTCL. *Id.*

Specifically, the conditions in the second contract included:

a. The grant funds must be used exclusively for the public purpose of planning and operationalizing safe and secure election administration in the City of _____ in accordance with the Wisconsin Safe Voting Plan 2020.

b. Requiring each city or county receiving the funds to report back to CTCL by January 31, 2021 regarding the moneys used to conduct federal elections;

AMERICAN OVERSIGHT

c. The City of _____shall not reduce or otherwise modify planned municipal spending on 2020 elections, including the budget of the City Clerk of _____ ('the Clerk') or fail to appropriate or provide previously budgeted funds to the Clerk for the term of this grant. Any amount reduced or not provided in contravention of this paragraph shall be repaid to CTCL up to the total amount of this grant.

d. The City of _____ shall not use any part of this grant to give a grant to another organization unless CTCL agrees to the specific sub-recipient in advance, in writing.

App. 588-589 (Milwaukee), 591-592 (Madison), 595-596 (Kenosha), 598-599 (Green Bay), 3-4 (Racine). CTCL provided a grant tracking form to the Zuckerberg 5 to keep track of their expenditures, which they would later have to report to CTCL. App. 609.

Thus, the text of the grant document provides the conditions clearly: the grant funds had to be used for "planning and operationalizing … election administration." App. 3-4, 588-589, 591-592, 595-596, 598-599. The Zuckerberg 5 had to "report back to CTCL by January 31, 2021" regarding the moneys they used. Any moneys used "in contravention" of the grant agreement would have to be "repaid to CTCL" up to the whole amount of the grant. *Id.* The Zuckerberg 5 were not allowed to pay any part of the grant money to another organization "unless CTCL agrees … in advance, in writing." *Id.*

The Zuckerberg 5 have admitted that these were "conditions" and that generally the money from CTCL was "conditional." To underscore the conditions on the grant money, on July 24, 2020, Dennis Granadas of CTCL wrote Celestine Jeffreys of Green Bay:

> Please find attached the revised grant agreement for review and signature. Please note that we made a few edits to clean up language, but this did not change the substance of the agreement, unless an update was requested. If you have any concerns please let me know. In addition, we also updated Section 7 for clarity to the following (changes highlighted in bold): "**The City of Green Bay shall not reduce** or otherwise modify planned municipal spending on 2020 elections, including the budget of the City Clerk of Green

AMERICAN OVERSIGHT

> Bay ('the Clerk') or fail to appropriate or provide previously budgeted funds to the Clerk for the term of this grant. Any amount reduced or not provided in contravention of this paragraph shall be repaid to CTCL up to the total amount of this grant." I look forward to receiving the signed agreement. Please let me know if you have any questions/concerns. Have a great weekend.

App. 611 (emphasis added).

These provisions requiring repayment of the grant moneys are referred to as "claw-back" provisions and require the Zuckerberg 5 to return the moneys to CTCL, if CTCL disagreed with how the Zuckerberg 5 spent the money and conducted their 2020 elections. App. 4, 589, 592, 596, 599. After the election in November 2020, CTCL demanded that the Zuckerberg 5 submit forms to CTCL to prove they complied with the grant conditions by January 31, 2021. App. 609. These conditions, including the WSVP provisions to facilitate increased in-person and absentee voting in each participating city, were not merely "boilerplate" provisions. Instead, CTCL intended to, and did, enforce its contractual requirements on the Zuckerberg 5. *Id.*

6. The Grant Agreements and the WSVP Between CTCL and the Zuckerberg 5 Contain Conditions Requiring Participant Cities to Place CTCL-Funded Absentee Ballot Drop Boxes in Targeted Neighborhoods, Even Though Absentee Ballot Drop Boxes Are Unlawful in Wisconsin.

The WSVP and CTCL's grant acceptance letter incorporated the agreement where the cities agreed to take CTCL's private money to purchase and place absentee drop boxes in targeted neighborhoods. App. 10, 16-17. The WSVP provided Green Bay $50,000, Kenosha $40,000, Madison $50,000, Milwaukee $58,500, and Racine $18,000 for absentee ballot drop boxes. App. 17. The WSVP provided at total of $216,500 for absentee ballot drop boxes in the Zuckerberg 5. App. 17. The use of absentee ballot drop boxes, outside

AMERICAN OVERSIGHT

of narrow exceptions, has been successfully challenged as being a violation of Wisconsin law.

In a case in the Wisconsin Circuit Court for Waukesha County, the plaintiffs sued the WEC to challenge 2020 guidance memos that the WEC issued to municipal clerks. Complaint, *Teigen v. Wisconsin Elections Commission*, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. June 28, 2021) (under review by the Wisconsin Supreme Court), available at App. 649-660. In particular, the plaintiffs challenged a memorandum that purported to authorize unstaffed ballot drop boxes:

> Despite this requirement in the statutes [i.e., the requirement that an absentee ballot either be returned by mail or be returned by the voter "in person, to the municipal clerk." Wis. Stat. § 6.87(4)(b)1], WEC Commissioners sent a memo to municipal clerks dated August 19, 2020, (the "August 2020 WEC Memo") stating that absentee ballots do not need to be mailed by the voter or delivered by the voter, in person, to the municipal clerk but instead could be dropped into a drop box *and that the ballot drop boxes could be unstaffed*, temporary, or permanent. (A true and correct copy of the August 2020 WEC Memo is attached hereto as Exhibit B.)

Id. ¶ 10, available at App. 651 (emphasis added).

The Waukesha County Circuit Court granted summary judgment to the plaintiffs and declared the use of ballot drop boxes, outside of narrow exceptions, to be inconsistent with Wisconsin law:

> For the reasons set forth by the Court on the record at the January 13, 2022 hearing, the Court hereby declares that WEC's interpretation of state statutes in the Memos is inconsistent with state law, to the extent they conflict with the following: (1) an elector must personally mail or deliver his or her own absentee ballot, except where the law explicitly authorizes an agent to act on an elector's behalf, (2) the only lawful methods for casting an absentee ballot pursuant to Wis. Stat. § 6.87(4)(b)1. are for the elector to place the envelope containing the ballot in the mail or for the elector to deliver the ballot in person to the municipal clerk, (3) *the use of drop boxes, as described in the Memos, is not permitted under Wisconsin law unless the drop box is staffed*

AMERICAN OVERSIGHT

by the clerk and located at the office of the clerk or a properly designated alternate site under Wis. Stat. § 6.855.

Order Granting Summary Judgment for Plaintiffs, *Teigen v. Wisconsin Elections Commission*, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. January 20, 2020), available at App. 66 (emphasis added). The Zuckerberg 5's privately funded absentee ballot drop boxes in the 2020 election were legally unauthorized under Wisconsin law. This makes the Zuckerberg 5 and CTCL's agreement for CTCL-funded purchase and placement of absentee ballot drop boxes a void contract provision as against state law and public policy.

7. Other Entities Have Reported About CTCL's Selective Funding to the Zuckerberg 5.

It is important to note that two non-profit corporations have analyzed the Zuckerberg 5's acceptance and use of the CTCL moneys and published analytical reports in 2021. App. 488-512. Both reports are consistent with our conclusions here. *Id. First*, the Wisconsin Institute for Law & Liberty (WILL) in a June 9, 2021, report titled "Finger on the Scale: Examining Private Funding of Elections in Wisconsin." That report had the following "key takeaways:"

1. WILL received records from 196 communities that received a total $10.3 million in funding from CTCL. These grants ranged from a high of $3.4 million for the City of Milwaukee to $2,212 for the Town of Mountain in Oconto County.

2. The largest five cities in the state (Milwaukee, Madison, Green Bay, Kenosha, and Racine) received nearly 86% of all CTCL grant funds in Wisconsin.

3. While most small towns used CTCL resources for voting equipment

AMERICAN OVERSIGHT

and COVID-related equipment, Milwaukee, Green Bay, and Madison spent close to or above $100,000 on ostensibly "non-partisan" voter education efforts.

4. Areas of the state that received grants saw statistically significant increases in turnout for Democrats. Increases in turnout were not seen for Donald Trump.

5. This WILL report highlights the inequitable distribution of private resources that came into the state during the 2020 election. Reforms that are designed to ensure that any grant money is distributed in a per capita manner across the state will go a long way in increasing faith that our elections are being conducted in an open and honest manner.

App. 491.

The WILL report also calculated the CTCL funding per 2016 voter in Wisconsin's ten largest cities. It showed a huge amount of CTCL funding went to the Zuckerberg 5 per voter and in total showed only a small amount of CTCL funding went to the Wisconsin cities which were not among the Zuckerberg 5:

Municipality	CTCL Funding Per 2016 Voter	Total CTCL Grant Amount
Milwaukee*	$13.82	$3,409,500
Madison*	$8.30	$1,271,788
Green Bay*	$36.00	$1,600,000
Kenosha*	$20.94	$862,799
Racine*	$53.41	$1,699,100
Appleton	$0.51	$18,330
Waukesha	$1.18	$42,100

AMERICAN OVERSIGHT

Eau Claire	$2.01	$71,000
Oshkosh	$0.00	$0.00
Janesville	$6.11	$183,292

App. 500 (" * " denotes a Zuckerberg 5 City).

Notably, the WILL Report concluded that the CTCL funding affected Wisconsin's 2020 election outcomes in favor of candidate Biden over then-President Trump by at least 8,000 votes:

> For candidate Biden there was a statistically significant increase in turnout in cities that received CTCL grants. In those cities, candidate Biden received approximately 41 more votes on average. While the coefficient was also positive for then-President Trump, it did not reach traditional levels of statistical significance. This means that we cannot say that turnout for Republicans in CTCL receiving areas swas any different than it would have been without the grants. Given the number of municipalities in the state that received grants, this is a potential electoral impact of more than 8,000 votes in the direction of candidate Biden.

App. 503.

Second, the Foundation for Government Accountability (FGA) in a June 14, 2021 report titled "How Zuckerbucks Infiltrated the Wisconsin Election" made five key findings:

1. More than 200 Wisconsin jurisdictions received "Zuckerbucks" for the 2020 election, totaling more than $9 million;

2. Nearly $3.5 million was funneled into the City of Milwaukee via two grants;

3. Green Bay spent only 0.8 percent of funds on personal protective equipment—instead purchasing two new 2020 Ford 550s and paying a public relations firm nearly $150,000 for voter outreach;

AMERICAN OVERSIGHT

4. A representative of CTCL had behind-the-scenes access to election administration in Green Bay and Milwaukee; and,

5. A former staff member for Governor Evers worked for the grantor to coordinate grant applications in Eau Claire.

App. 508. The FGS report contends that "Wisconsin can—and should—prohibit local jurisdictions from accepting private money for election administration." *Id.* The relative funding levels for personal protective equipment also gives the lie to a claim that the extraordinary injection of "Zuckerbucks" into this election was necessitated by or intended primarily to ensure the election did not worsen the public health as opposed to influencing voting patterns.

The Zuckerberg 5 Agreed to the Wisconsin Safe Voting Plan Which Contains Geographic and Demographic Classifications to Increase In-person Voting and Absentee Voting for Targeted Areas and Groups—the Kinds of Efforts Typically Associated with Campaigning.

According to the CTCL website, CTCL is not "a grantmaking organization" in "normal years."[6] The WSVP contains provisions to increase in-person voting and absentee voting for targeted areas and groups. These groups met particular demographic criteria, which not-coincidentally, matched that of the Biden-voter profile. App. 7-27. Typically, candidates and campaigns, not cities, engage in get-out-the-vote efforts targeting areas and groups; CTCL provided the Zuckerberg 5 about $8.8 million to carry out the WSVP provisions. App. 493.

The following WSVP provisions are geographic and demographic classifications designed not for safe voting during COVID but to increase in-person voting for targeted

AMERICAN OVERSIGHT

areas and groups, increase absentee voting for targeted areas and groups, or both. App. 7-27. Additionally, these provisions are privately funded and disfavor Wisconsinites outside of the Zuckerberg 5. *Id.*

1. "[T]o be intentional and strategic in reaching our historically disenfranchised residents and communities"

On page one, the WSVP requires the Zuckerberg 5 to "be intentional and strategic in reaching our historically disenfranchised residents and communities; and, above all, ensure the right to vote in our dense and diverse communities" within the Zuckerberg 5. App. 7. This election administration provision, promoting in-person voting and absentee voting, is privately funded, disfavors Wisconsinites outside the Zuckerberg 5, and favors black and minority voters as opposed to the rest of the residents and communities within the Zuckerberg 5. *Id.*

2. "[E]ncourage and increase … in-person" and "absentee voting by mail and early" voting

On pages 5 and 6, the Zuckerberg Plan states that about one-half of the grant money will be used by the Zuckerberg 5 to "encourage and increase … in-person" voting and "dramatically expand strategic voter education & outreach efforts"—"particularly to historically disenfranchised residents" within the Zuckerberg 5. App. 11-12. The remainder was slated to be used to encourage and increase absentee voting by mail and early voting" and "dramatically expand strategic voter education & outreach efforts"—"particularly to historically disenfranchised residents" as opposed to the rest of the residents and communities within the Zuckerberg 5. *Id.*; App. 11-12.

AMERICAN OVERSIGHT

Goal	Green Bay	Kenosha	Madison	Milwaukee	Racine	Totals
Encourage and Increase Absentee Voting By Mail and Early, In-Person	$277,000	$455,239	$548,500	$998,500	$293,600	$2,572,839
Dramatically Expand Strategic Voter Education & Outreach Efforts	$215,000	$58,000	$175,000	$280,000	$337,000	$1,065,000
Totals:	$1,093,400	$862,779	$1,271,788	$2,154,500	$942,100	$6,324,567

One way the Zuckerberg 5 were to accomplish this feat was through a specific and targeted campaign directed at black and minority voters.

3. "Dramatically Expand Voter & Community Education & Outreach, Particularly to Historically Disenfranchised Residents"

On page fifteen, the WSVP calls for the cities to specifically target "[h]istorically [d]isenfranchised [r]esidents" within the Zuckerberg 5. The WSVP and CTCL defined "historically disenfranchised voters" to mean:

> All five municipalities expressed strong and clear needs for resources to conduct voter outreach and education to their communities, with a particular emphasis on reaching **voters of color, low-income voters without reliable access to internet, voters with disabilities, and voters whose primary language is not English.**

App. 21 (emphasis added). Each of the Zuckerberg 5 had their own plans to "target" certain residents and communities for higher in-person voter turnout.

AMERICAN OVERSIGHT

Green Bay wanted private grant funds to "be distributed in partnership with key community organizations including churches, educational institutions, and organizations serving African immigrants, "LatinX" residents, and African Americans." App. 21-22. Green Bay wanted to reach out to the Hmong, Somali and Spanish-communities with targeted mail, geo-fencing, posters (billboards), radio, television and streaming PSAs, digital advertising, automated calls and automated texts, [sic] as well as voter-navigators. App. 544. Green Bay's goal was to increase voter participation in these select, race-based groups by 25% for the November 2020 elections. *Id.* Green Bay's privately funded get-out-the-vote effort did not include electors who did not live in Green Bay or electors in Green Bay who were not members of preferred racial groups.

In Kenosha, grant funds would be used "for social media advertising, including on online media like Hulu, Spotify, and Pandora ($10,000), targeted radio and print advertising ($6,000), and large graphic posters ($3,000) to display in low-income neighborhoods, on City buses, and at bus stations, and at libraries ($5000)." App. 22. Kenosha's privately funded get-out-the-vote effort did not include electors who did not live in Kenosha or electors in Kenosha who did not live in low-income neighborhoods. *Id.*

In Madison, private funds would support partnering "with community organizations and run ads on local Spanish-language radio, in the Spanish-language newspapers, on local hip hop radio stations, in African American-focused printed publications, and in online publications run by and for our communities of color (advertising total $100,000)." App. 22. Madison's privately funded get-out-the-vote effort did not include electors who did not live in Madison, were not Spanish-speaking, did not listen to hip hop radio stations, read

AMERICAN OVERSIGHT

African American-focused printed publications, or online publications run by and for Madison's preferred racial groups. *Id.*

Milwaukee stated that it intended to use these private funds to "get-out-the-vote" based on race, criminal status, and harnessing "current protests" related to the Black Lives Matter movement. App. 571. The City used the private funds to support a "communications effort [that] would focus on appealing to a variety of communities within Milwaukee, including historically underrepresented communities such as LatinX and African Americans, and would include a specific focus on the re-enfranchisement of voters who are no longer on probation or parole for a felony." App. 22-23. Milwaukee's privately funded get-out-the-vote efforts did not include electors who did not live in Milwaukee or electors who are not members of preferred racial groupings. *Id.*

In Racine, the private funds supported renting "billboards in key parts of the City ($5,000) to place messages in Spanish to reach Spanish-speaking voters" and "targeted outreach aimed at City residents with criminal records to encourage them to see if they are not eligible to vote." App. 23. Racine's privately funded get-out-the-vote efforts did not include either electors who did not live in Racine or electors who were not Spanish-speaking. *Id.*

Additionally, in Racine, private funds were to be used "to purchase a Mobile Voting Precinct so the City can travel around the City to community centers and strategically chosen partner locations and enable people to vote in this accessible (ADA-compliant), secure, and completely portable polling booth on wheels, an investment that the City will be able to use for years to come." *Id.* This privately funded get-out-the-vote effort excluded

AMERICAN OVERSIGHT

electors who did not live in Racine and those who did not live near "strategically chosen partner locations." *Id.*

Individually and collectively, these privately funded election administration provisions promoting in-person voting classifications disfavor Wisconsinites outside the Zuckerberg 5 and favor only selectively defined minorities. App. 21-23.

4. WSVP's "Absentee Voting" provisions.

On page four, the WSVP requires the Zuckerberg 5 to take specific actions with early voting:

> Absentee Voting (By Mail and Early, In-Person)
>
> 1. Provide assistance to help voters comply with absentee ballot requests & certification requirements;
> 2. Utilize secure drop-boxes to facilitate return of absentee ballots;
> 3. Deploy additional staff and/or technology improvements to expedite & improve accuracy of absentee ballot processing; and,
> 4. Expand In-Person Early Voting (Including Curbside Voting)

App. 10. This election administration provision, promoting absentee voting, is privately funded and disfavors Wisconsinites outside of the Zuckerberg 5. Only electors in the Zuckerberg 5 benefit from the "assistance," "drop-boxes," "improvement," and increased "early voting." *Id.*

AMERICAN OVERSIGHT

5. "Provide assistance to help voters comply with absentee ballot request & certification requirements"

On pages nine and ten, the WSVP requires that the Zuckerberg 5, "[p]rovide assistance to help voters comply with absentee ballot request & [sic] certification requirements." App. 15-16. None of the private funding in this regard would benefit residents outside the Zuckerberg 5. *Id.* Instead, it targeted only the "Biden profile voter."

In Green Bay, the City would use the private money to fund bilingual LTE "voter navigators" to help Green Bay residents properly upload a valid photo ID, complete their ballots, comply with certification requirements, offer witness signatures, and assist voters prior to the elections. App. 15. Green Bay would also utilize the private funds to pay for social media and local print and radio advertising to educate and direct Green Bay voters so they could upload photo IDs and request and complete absentee ballots. *Id.* In Kenosha, the City would use the private money to have Clerk's staff train Kenosha library staff on how to help Kenosha residents request and complete absentee ballots. *Id.*

6. "Utilize Secure Drop-Boxes to Facilitate Return of Absentee Ballots"

On pages ten and eleven, the WSVP requires the Zuckerberg 5 to establish and use ballot drop boxes. App. 16-17. In Green Bay, the City intended to use private money to add ballot drop-boxes, at a minimum, at the transit center and two fire stations. *Id.* at 16. This was in addition to the one already in use at City Hall. *Id.* Green Bay intended to possibly use the drop boxes at its libraries, police community buildings, major grocery stores, gas stations, the University of Wisconsin Green Bay, and Northern Wisconsin Technical College. *Id.*

AMERICAN OVERSIGHT

In Kenosha, the City intended to use the private money to install four additional internal security boxes at Kenosha libraries and the Kenosha Water Utility to provide easy access to each side of the City to ballot drop-boxes. *Id.* at 16. Madison intended to use the private money to place and maintain one secure drop box for every 15,000 voters, or twelve drop boxes total, and to provide a potential absentee ballot witness at each drop box. *Id.* at 16. Milwaukee intended to use the private money to install secure 24-hour drop boxes at all thirteen of its public library branches, while Racine intended to use the private money to have three additional drop boxes to be installed at key locations around the city. *Id.* at 16–17.

7. "Expand In-Person Early Voting (Including Curbside Voting)"

On pages twelve through fourteen, the WSVP set out the plan to expand in-person absentee voting. App. 18-20. Green Bay used private money to expand and establish at least three EIPEV sites in trusted locations, ideally on the east (potentially UWGB) and west sides (potentially NWTC or an Oneida Nation facility) of the City, as well as at City Hall. *Id.* at 18. The city also used the private money to print additional ballots, signage, and materials to have available at these early voting sites. *Id.* Kenosha used private money to offer early drive-thru voting on City Hall property and for staffing for drive-thru early voting. *Id*.

In Madison, the City intended to use private money to provide eighteen in-person absentee voting locations for the two weeks leading up to the August election and for the four weeks leading up to the November election. *Id*. The City purchased and utilized tents for the curbside voting locations in order to protect the ballots, staff, and equipment from getting wet or damaged. Additionally, it purchased and utilized large feather flags to identify the curbside voting sites. *Id*.

AMERICAN OVERSIGHT

Milwaukee also used private money to set up three in-person early voting locations for two weeks prior to the August election and fifteen in-person early voting locations and one drive-thru location. *Id.* at 18-19. Racine used private money to offer a total of three EIPAV satellite locations for one week prior to the August election as well as offering a curbside in-person early voting option. *Id.* at 19. For the November election, Racine intended to use private money to offer EIPAV at four satellite locations two weeks prior to the election and at the Clerk's office six weeks prior. *Id.*

AMERICAN OVERSIGHT

Chapter 2

The Motive for These Grants Was Impermissible and Partisan Get – Out-the-Vote Effort (GOTV)

While it is clear that the statute prohibiting election bribery was violated, the reader may be asking (to put it simply): "*So what? Aren't we told all the time that voting is a good thing and that we should encourage more people to vote? Isn't that what American democracy is all about? Why should we care if outside groups came in and used their financial resources to get more people to vote? Isn't it just sour grapes to allege that this effort to "fortify" the election crossed over into bribery?*

These questions, and others like it, have been presented to the Wisconsin public by the outside groups who came here and by their advocates in the press and elsewhere as a sort of prophylactic defense of the entire bribery scheme. The outside groups know that their questions act as a potent offensive weapon used to discourage the kind of public scrutiny this Report reflects. This is so because anyone who asks critical questions will immediately be put back on their heels: "Tell us why you don't want more people to vote. What do you have against more *people of color* voting in our elections—are you *racist*?" For the record, all those concerned with this Report are, all things being equal, in favor of more people voting and no one has considered race as a factor one way or the other except to the extent necessary to determine the partisan motives of the private groups who designed and implemented this scheme and who are now cynically and hypocritically

AMERICAN OVERSIGHT

deploying the charge of racism in an attempt to shield their misconduct from the light of day.

The scheme designed and implemented by Zuckerberg's CTCL had its origins in a man named David Plouffe. Plouffe's political track record and savvy were likely taken into account by Mark Zuckerberg and his wife Pricilla when they hired David Plouffe to run their political operation-- the [Pricilla] Chan [and Mark] Zuckerberg Initiative— for the purpose of electing Joe Biden president and defeating then-President Trump.

Writing about President-elect Trump's first public appearance after his 2016 presidential victory, Plouffe had this to say: "It's not that we were simply horrified by the reality show performer and his grifter family appearing on stage as America's next first family—though what a horrifying sight it was." (p. xiii) Writing his book in late summer of 2019, Plouffe tells the reader he does not care who the Democratic nominee will be because it does not matter: the goal for everybody should be to defeat President Trump. And Plouffe knew just how to do it: "**We'll do it through turnout**—growing the overall number of people who walk the walk and actually cast votes. Democracy isn't a metaphor or a game. This year especially it's a deadly serious test." (p. xiv (emphasis added))

Turnout, otherwise known as "getting out the vote," (GOTV) has before 2020 been an exclusively partisan phrase (CITE) used by partisan campaigns to (1) identify; (2) locate; (3) inform; (4) persuade; and, (5) facilitate increasing the number of votes for the candidate that *they favor*. The same is true of efforts to get their ballots into the hands of

AMERICAN OVERSIGHT

a “voter navigator,” or ballot harvester, or into a drop box (another concept largely unknown prior to November 2020).

The Zuckerberg-funded CTCL/ Zuckerberg 5 scheme would prove to be an effective way to accomplish the partisan effort to “turnout” their desired voters and it was done with the active support of the very people and the governmental institution (WEC) that were supposed to be guarding the Wisconsin elections administrative process from the partisan activities they facilitated.

AMERICAN OVERSIGHT

Chapter 3

Government Oversight Has Been Obstructed by Governmental and Outside Corporate Collusion

WEC and the State Attorney General have failed to cooperate with this investigation. In fact, WEC and the State Attorney General each have actively resisted and obstructed the investigation's search for the truth. Wisconsin law requires that actions taken by WEC be accomplished by a majority vote, at a publicly noticed meeting. Wis. Stat. 5.05 (1e); Wis. Stat. § 5.05(5s)(a). Yet WEC, aided by the State Attorney General, has impeded this investigation through obstructive litigation carried on without any record of an approval by the majority of the Commission at a public meeting of the Commission.

These actions of WEC continue a pattern of misconduct by the agency that rose to new heights during the 2020 election cycle, in which new election related polices were spread throughout the state (such as the expanded use of unlawful "drop boxes" and the fraudulent use of the "indefinitely confined" status) without having been approved by either the administrative rule-making process, ensuring that changes in law are vetted in properly noticed public meetings, or by receiving a majority vote of the Commission.

Following initial compliance with the valid Assembly subpoenas, the OSC subsequently faced numerous dilatory actions constituting obstruction of this investigation. Such actions include:

1. Instructions by the Governor to governmental actors not to comply with Legislative oversight;

AMERICAN OVERSIGHT

2. Frivolous and subsequently dismissed ethics complaints against OSC staff;

3. Voluminous open record requests by outside, dark money nonprofits;

4. Free, dark money attorneys provided to various governmental actors;

5. Private investigators looking into the private lives of OSC staff, and outside hacks of devices;

6. Coordinated media campaigns against Legislative oversight and the OSC;

7. Intervention in lawsuits by the Attorney General on behalf of individuals and adverse to the mission of his Office; and,

8. Withholding and destruction of evidence, often poorly justified by claimed contractual obligations with commercial vendors, placing private business ahead of the public interest.

AMERICAN OVERSIGHT

Chapter 4

This Collusion and Entanglement Also Caused a Host of Questionable Actions by the Zuckerberg 5

Wisconsin engaged private companies in election administration in unlawful ways for the 2020 Presidential election.

1. Wisconsin law and WEC's 250-page Election Administration Manual for Wisconsin Municipal Clerks do not legally authorize CTCL and its "partners" to participate in Zuckerberg 5's election administration.

2. WEC's WisVote security policies do not legally authorize the Zuckerberg 5 election officials to share WisVote data with CTCL and its partners.

3. The security of WisVote FIDO Keys required by WEC for WisVote access is unacceptable and an invitation to fraud as the ability to properly track all of the access points and personnel is a key feature required to maintain voting integrity.

4. CTCL pushed onto the Zuckerberg 5 the CTCL "partners" who would unlawfully administer aspects of the election.

5. The projects that CTCL's partners promoted had nothing to do with Covid-19 safety.

6. After the Zuckerberg 5 agreed to the large grants, and CTCL convinced the Zuckerberg 5 to utilize CTCL's "partners," CTCL sought to unlawfully embed those "partners" into the Zuckerberg 5's election administration.

7. Given a blank check to run the election, CTCL and its "partners" took full advantage of the opportunity to administer the election in at least one of the Zuckerberg 5.

8. The "private corporate partners" were from out of state, and not necessarily knowledgeable about Wisconsin election law, or concerned about it.

AMERICAN OVERSIGHT

9. Safe voting was a pretext—the real reason for CTCL's WSVP grants was to facilitate increased in-person and absentee voting in specific targeted areas inside the Zuckerberg 5.

10. The Zuckerberg 5 became beholden to CTCL as a result of the WSVP's private funding and the WSVP's provisions.

11. The Zuckerberg 5 ceded administrative control over the election to CTCL and its private partners, including WisVote data sharing, so they could collectively facilitate increased in-person and absentee voting in the 2020 election.

1. Wisconsin Law and WEC's 250-Page Election Administration Manual for Wisconsin Municipal Clerks Cannot Legally Authorize CTCL and Its "Partners" to Participate in Zuckerberg 5's Election Administration.

Wisconsin's municipal clerks are provided training on administering elections, including being provided WEC's 250-page Election Administration Manual for Wisconsin Municipal Clerks. This Manual also illustrates why the WSVP, CTCL and its "partners" participating in the Zuckerberg 5's election administration for the 2020 Presidential Election was not legally authorized.

According to the Manual, "The municipal clerk's election duties include, but are not limited to, supervision of elections and voter registration in the municipality, equipping polling places, purchasing and maintaining election equipment, preparing ballots and notices, and conducting and tracking the training of other election officials."

The Manual reserves those duties to municipal clerks, and nowhere does it authorize CTCL and its "partners," to engage in Zuckerberg 5's election administration. We also have seen no evidence that personnel from CTCL or its partners were trained in Wisconsin election law, as is required of the municipal clerks.

AMERICAN OVERSIGHT

2. WEC's WisVote Security Policies Do Not Legally Authorize the Zuckerberg 5 Election Officials to Share WisVote Data with CTCL and Its Partners.

WEC's policies on WisVote security are written so that municipal clerks do not work hand-in-hand with private companies to administer the elections. So, the Zuckerberg 5's municipal clerks jeopardized WisVote security when data sharing with CTCL and its partners.

The WisVote system is the Statewide Voter Registration System (SVRS) that originated in 2006 and provided key tools for the former State Elections Board to carry out its critical election business practices. In early 2016, SVRS was replaced by WisVote, which reportedly improved usability and functionality and lowered costs.

Three fundamental goals served as the strategic vision for the WisVote system: improved usability for clerks, reduced costs, and creating a stable and supportable system.

WisVote is not simply a voter registration list, but a full elections administration package. The system is accessed by more than 1,600 users in 700 separate locations across the State. Users connect to the system using the internet. Some locations in Wisconsin do not have high-speed internet access available, in which case, the municipal clerk relies on another clerk (usually the county clerk) to perform data entry functions. The system includes several confidential fields, including driver license numbers, dates of birth, partial social security numbers and voters who are under a protective order, which must be protected by statute.

There are four security to gain access to the WisVote system:

AMERICAN OVERSIGHT

1. User must have a viable computer that can access the internet. That computer must have a "Fast Identity Online" (FIDO) user authentication key applet downloaded to the system

2. User must have an assigned User Name

3. User must have an assigned password

4. User must possess a WEC issued FIDO Key

WEC controls the username and password access.

There are four levels of access to the WisVote system:

1. Clerk: this access certification was developed to train new staff in the complete WisVote system application. This access level allows users to perform all WisVote functions, including printing poll books, mapping, and other election administration duties.

2. Data Entry: this access certification was developed to train new staff to enter voter registration applications, update voter status, and record voter participation. This access level will not allow users to merge voters, print poll books, or perform other election administration duties unless the user completes the full WisVote system training.

3. WEDC Entry: this role does not require additional WisVote training other than the WisVote Introduction tutorials and the Security Series videos; however, the clerk, or authorized designee, must still submit the Request to Add Authorized Users form to ensure users receive the correct WisVote permissions. These users can view municipal data and Election Reconciliation information, but only have the ability to modify or edit Inspectors' Statement and EDR Postcard data.

4. Read Only: this role does not require any additional WisVote training other than the WisVote Introduction tutorials and the Security Series videos; however, the clerk, or authorized designee, must still submit the Request to Add Authorized Users form to ensure users receive the correct WisVote permissions. These users can view municipal data, but will not have the ability to add, delete, or modify data in WisVote.

AMERICAN OVERSIGHT

WEC's WisVote security rules do not contemplate or authorize non-governmental outside parties receiving WisVote data shared by Zuckerberg 5's election officials.

Further, WEC's rules provide a specific process to obtain access to WisVote data:

To obtain access to WisVote, the clerk, or authorized designee, will complete the following process:

> 1) Email a completed and signed copy of the Request to Add Authorized Users in The Learning Center (TLC) to Elections Help Desk (elections@wi.gov). Identify the role type for each user identified on the form. There are four user access levels in WisVote from which to choose:
>
> 2) Upon receipt of the completed Request to Add Authorized Users in TLC form, the Elections Help Desk will create and issue a login and password for the user to obtain access to TLC website to allow for the new users to complete the following training:
>
> a. Securing WisVote: this is a series of electronic learning modules located under the Election Security Awareness tile in TLC. All WisVote users are required to complete this training regardless of their access level (please also note that this specific training may also be made available and accessed by individuals identified by the clerk, or an authorized designee, who do not require WisVote access and still wish to participate in this cybersecurity educational opportunity—indicate Requested WisVote Access Level as "Not Applicable" on the Request to Add Authorized Users in TLC form); *AND* The training associated with the access levels listed above, if applicable.
>
> 3) Once new users complete the Securing WisVote training series AND all required training related to their WisVote Access Level, if applicable, an email shall be sent to the Elections Help Desk (elections@wi.gov). The email should state that the Securing WisVote series was completed and should also contain the appropriate Access Certification document (also found on this page), as an attachment. Upon receipt, WEC staff will issue a WisVote username and password.
>
> 4) When logging into WisVote for the first time, new users will see the WisVote User Agreement and the WisVote Confidentiality Agreement, in electronic

AMERICAN OVERSIGHT

format. To acknowledge and accept the terms of these agreements, the user will click the "I agree" button when prompted with each agreement.

CTCL and its partners did not follow this process and yet obtained WisVote data from Zuckerberg 5's election officials. By contrast, the public receives WisVote only as WEC updates the information and for a charge of $12,500 for a daily snapshot of statewide data. Accordingly, under Wisconsin Elections Commission's security policies, CTCL's and its partners were allowed to access to WisVote in this way, opening the system up to unauthorized uses by unauthorized users. The Zuckerberg 5's WisVote data sharing with CTCL and its partners was thus unlawful.

5. The Security of WisVote FIDO Keys Required by WEC for Wisvote Access Is Unacceptable.

The security of WisVote FIDO Keys, required by WEC for WisVote security is unacceptable. Under WEC's policies for a multi-factor authentication, three things are needed for WisVote access: login in name; password; and FIDO Key. The FIDO Key is contained in a flash drive that is inserted into a personal computer.

In 2018, WEC mass-issued FIDO Keys across the State to counties and municipalities. The instructions received from WEC to the key recipients were unclear as to security protocols. For example, one county indicated they had requested 2 FIDO Keys and they received 15 keys. When the clerk received the 15 keys, she called WEC and asked, "what should I do with the additional 13 keys you sent that I didn't request?" WEC said, "hold on to them just in case you need another or one breaks." One would think that at the time these FIDO Keys were issued, WEC would have a master record of custody as

AMERICAN OVERSIGHT

to how many FIDO Keys had been shipped. If that was the case, WEC cannot apparently find it now.

In mid-September 2021, an open records request was sent to the WEC requesting the total number of FIDO Keys that had been issued by WEC to the various counties and municipalities across the State. The request also asked for a list of individuals to whom the keys were issued. WEC initially issued a copy of a 2020 list of FIDO Key users. Knowing this list changes monthly, a second request was made to determine how many of those users had changed. The 2020 list listed 3,137 FIDO Key users across the State. Of that list, 404 active users had been disabled leaving a balance of 2,733 active users. The updated list indicated that205 active users had been added two weeks later and accounted for a total of 2,938 keys. Of those 2,938 active keys, 1,929, or 66% were issued with clerk access.

WEC apparently does not know how many FIDO Keys they have actually issued because individual county or municipal clerks have FIDO Keys that were not assigned or listed on WEC's list. For example, WEC issued a total of 36 FIDO Keys to the Fond du Lac County Clerk, who issued 12 keys to various municipalities and still has 24 in her possession. In contrast, WEC's list confirms 12 keys that were issued without accounting for the 24 keys that remain in the Clerk's possession. WEC's records similarly reflect two of the 15 FIDO Keys that WEC issued to the Kewaunee County Clerk and that the Clerk then issued, but they fail to reflect the other 13 FIDO Keys that WEC issued to the Clerk that remain in the Clerk's filing cabinet. Our investigation repeatedly found that counties

AMERICAN OVERSIGHT

and municipalities have more keys than WEC can account for. Yet, the FIDO Keys are supposed to be a major part of WEC's security policy for WisVote data.

There does not seem to be a meaningful pattern as to how FIDO Keys are used to counties or municipalities. For example, as mentioned in the previous paragraphs, clerks have different methods of distributing the keys that they receive from WEC. Some clerks manage their municipality or county WisVote data entry very carefully. For example, the Kewaunee County Clerk only allows 2 people to make entries or adjustments in the WisVote system. Fond du Lac County allows 12 people in the entire County to enter data or make changes to the data. A close look at the Zuckerberg 5 cities of Madison, Milwaukee, Kenosha, Green Bay and Racine shows a remarkable array of differences in how the FIDO Keys are issued and ultimately used.

There is no known explanation as to why there is such diversity of FIDO Key distribution and accountability in the different cities. The chart below lists the Zuckerberg 5 cities where large sums of CTCL money was applied. It is unclear why 64% of FIDO Keys assigned to one city consist of keys with clerk-level access that would allow unfettered access to the entire WisVote database and enable the user to activate and deactivate voters.

AMERICAN OVERSIGHT

FIDO Keys by Zuckerberg 5 Cities per April 2021 WEC Report

City	Population over 18 yrs	Total Keys	Clerk Keys	% of Keys for Clerks	Data Entry Keys	Other Key Types	One Key for every X residents
Madison	214,180	124	17	14%	107	N/A	1,727
Kenosha	74,766	23	6	26%	17		3,251
Milwaukee	450,233	306	196	64%	108	2	1,471
Green Bay	78,777	13	4	31%	8	1	6,060
Racine	60,123	98	22	22%	76		614

In talking to various clerks across the State, it is known that employees of municipalities that have been issued FIDO Keys will often allow other employees in their organization to use their computer, username, password, and FIDO Key to access the WisVote system and make entries. During the 2020 election, this type of usage was extended to third parties in the Zuckerberg 5 cities as further detailed below. FIDO Keys are an area of concern and require more investigation and attention overall.

AMERICAN OVERSIGHT

1. CTCL Pushed Onto the Zuckerberg 5 the CTCL "Partners" Who Would Unlawfully Administer Aspects of the Election.

As part of the WSVP, CTCL pushed onto the Zuckerberg 5 the CTCL "partners" who would effectively administer aspects of the election in an unlawful manner. Under the WSVP, CTCL promoted to the Zuckerberg 5 numerous entities~~,~~ CTCL's "partners.~~,~~" CTCL would then recommend that the Zuckerberg 5 connect with and use those partners in the administration of the election. App. 39-52, 53-69, 78-80. However, since the Zuckerberg 5 were contractually bound to use only the "organizations" that CTCL approved "in advance, in writing," the "partner" referrals that CTCL made were more than mere "suggestions," they were part of the CTCL's binding contractual agreement with the Zuckerberg 5. App. 4, 589, 592, 596, 599.

In late July 2020, CTCL Director of Government Services Whitney May hosted a series of separate "kick off" calls for each of the Zuckerberg 5 city's public officials, where she introduced and provided an overview of CTCL's allied corporations (sometimes-called "technical partners") to inject themselves into that city's election administration. App. 454-459, 480. CTCL's "partners" introduced to the Zuckerberg 5 were private corporations that would act to unlawfully aid or administer the relevant city's election administration:

1. The National Vote At Home Institute ("VoteAtHome" or "NVAHI") was represented by CTCL as a "technical assistance partner" that could consult about, among other things, "support outreach around absentee voting," voting machines and "curing absentee ballots," and to even take the duty of curing absentee ballots off the city's hands. App. 39-52, 53-69. The NVAHI also offered advice and guidance on accepting ballots and streaming central count during election night and on the day of the count. App. 70-77.

2. The Elections Group and Ryan Chew were represented to be able to provide "technical assistance partners to support your office" and "will be connecting

AMERICAN OVERSIGHT

with you in the coming days regarding drop boxes" and technical assistance to "support your office," and worked on "voter outreach." App. 78-80, 81-83, 171. Elections Group Guide to Ballot Boxes. App. 84-124.

3. Ideas42 was represented by CTCL as using "behavioral science insights" to help with communications. App. 324.

4. Power the Polls was represented by CTCL to help recruit poll workers. App. 124.

5. The Mikva Challenge was recommended to recruit Chicago-based high school age students to be Zuckerberg 5 poll workers. App. 127.

6. US Digital Response was suggested to help with and then take over "absentee ballot curing," and to "help streamline the hiring, onboarding, and management" of Green Bay's poll workers. App. 130-138.

7. Center for Civic Design was tapped to design absentee ballots and the absentee voting instructions. App. 196.

8. Eric Ming, the Communications Director for CSME, was selected to serve as a "communications consultant to review your [City of Green Bay] advertising plan for November." App. 43, 158-159.

9. The Brennan Center, which focuses on "election integrity" including "post-election audits and cybersecurity" was involved. App. 160.

10. HVS Productions added "voter navigator" FAQs and Election Countdown Copy for the city of Green Bay. App. 163-168.

11. Modern Elections was picked to address Spanish language issues. App. 169-171.

Importantly, none of the referenced "partners" mandated by CTCL were health or medical experts that one might expect for efforts allegedly tied to the COVID pandemic; rather, as the grant contracts required, these were "experts" in "election administration." *See* App. 454-462, 480. Further, several clerks did inform the OSC that actions by these representatives adversely affected the public health safety of staff and voters.

AMERICAN OVERSIGHT

Former Green Bay Clerk Kris Teske has described this usurpation by CTCL and its "partners" of election administration. She stated in her Answer in a prior WEC proceeding:

1. "Others in the Mayor's office began to hold meetings and make decisions relating to the election outside of the Clerk's office." App. 674.

2. "This caused planning for the election to become VERY dysfunctional and caused great confusion in the Clerk's office as many of the meetings and decisions were driven by the Mayor's chief of staff and other senior officials without the knowledge or consent of the Clerk's office." *Id.*

3. "I wrote several emails outlining my concerns with meetings that excluded the Clerk's office and decisions that were made without consulting the Clerk's office." App. 675.

4. "[T]he office's [Clerk's office] ability to fulfill the obligations for the election were greatly hindered and diminished by outside interference." App. 677.

As Teske asserted, Wisconsin law and WEC's Election Administration Manual for Wisconsin Municipal Clerks did not legally authorize CTCL and its partners to engage in Zuckerberg 5's election administration.

12. The Projects That CTCL's Partners Promoted Had Nothing to Do with Covid-19 Safety.

CTCL's partners had nothing to do with Covid-19 safety. Neither CTCL nor its "partners" were medical or health professionals. Instead, CTCL boasted that it had a "network of current and former election administrators and election experts available" to "scale up your vote by mail processes," and "ensure forms, envelopes, and other materials are understood and completed correctly by voters." App. 38.

AMERICAN OVERSIGHT

On July 31, 2020, shortly after the grant agreements were negotiated and executed CTCL's Director of Government Services wrote to Madison employee Maribeth Witzel-Behl about the "projects" CTCL required:

> Hi Maribeth:
>
> Reflecting on your Safe Voting Plan and the kickoff call last week. I wanted to get your feedback about the **projects** our technical partners should tackle first. What are the most urgent areas where you'd like support from the partners? Here's what we captured in our notes as the likely top 3-4:
>
> 1. **Adding satellite locations and drop boxes**—help site locations and provide tailored guidelines and implementation support (Elections Group)
> 2. **Printing materials for mail ballots** – redesign bilingual **absentee ballot** instruction sheet and letter (Center for Civic Design, who is working with WEC on envelope design)
> 3. **Targeting communities with election information** – NVAHA is launching a communications toolkit on August 5 to support **outreach** around **absentee voting** (National Vote at Home Institute), share research insights about how to engage people who might not trust the **vote by mail** process (Center for Civic Design)
> 4. **Training election officials**—review quick guides and other training materials (Elections Group)

App. 479 (emphasis added).

Explaining this "targeting" of communications, Celestine Jeffreys wrote to Whitney May of CTCL on August 27, 2020 that "[t]here are probably 5 organizations that are focused on working with disadvantaged populations and/or with voters directly." App. 37, 45.

CTCL, when working with the Zuckerberg 5, had other conditions that had nothing to do with COVID prevention, including:

AMERICAN OVERSIGHT

1. Employing "voter navigators" to help voters "complete their ballots." App. 34-35.

2. The "voter navigators" would later be "trained and utilized as election inspectors." App. 35.

3. "Utilize paid social media" and "print and radio advertising" to direct voters "to request and complete absentee ballots." App. 34.

4. "enter new voter registrations and assist with all election certification tasks." App. 34.

5. "reach voters and potential voters through a multi-prong strategy utilizing 'every door direct mail,' targeted mail, geo-fencing, billboards radio, television, and streaming-service PSAs, digital advertising, and automated calls and texts," and direct mail to "eligible but not registered voters." App. 36.

6. Assist new voters to "obtain required documents" to get valid state ID needed for voting, targeting African immigrants, LatinX residents, and African Americans. *Id.*

7. "facilitate Election day Registrations and verification of photo ID." App. 36.

Thus, after the grant agreements commenced, CTCL promoted election activities having nothing to do with Covid-19 safety. CTCL instead focused on targeting voter outreach and absentee voting. CTCL also required the Zuckerberg 5 to target specific geographic and demographic voter characteristics. App. 7-27. Using the grant funds to target voter outreach was required by CTCL as one of the WSVP conditions. App. 3, 7-27.

Again, CTCL and its partners had no specific medical or health experience, and the WSVP "projects" had nothing to do with Covid-19 safety. App. 7-27.

5. After the Zuckerberg 5 Agreed to the Large Grants, and CTCL Convinced the Zuckerberg 5 to Utilize CTCL's "Partners," CTCL Sought to Unlawfully Embed Those "Partners" into the Zuckerberg 5's Election Administration.

AMERICAN OVERSIGHT

After the Zuckerberg 5 agreed to the large grants, CTCL offered Milwaukee to provide "an experienced elections staffer [from the Elections Group] that could potentially embed with your staff in Milwaukee in a matter of days and fill that kind of a role." App. 382 (emphasis added).

CTCL and its partners pushed to get involved with, and take over, other parts of the election administration, as well. One of CTCL's recommended "partners" was the National Vote at Home Institute ("NVAHI"). Michael Spitzer Rubenstein, NVAHI's employee, wrote to Claire Woodall-Vogg, the Executive Director of the City of Milwaukee Election Commission: "[C]an you connect me to Reid Magney and anyone else who might make sense at the WEC? Would you also be able to make the connection with the Milwaukee County Clerk?" App. 381.

CTCL and its "partners" made many other attempts to access information to which private entities were obviously not entitled. *Id.* The following communications demonstrate such efforts, not authorized by the governing law:

1. **If you could send the procedures manual and any instructions for *ballot reconstruction,* I'd appreciate that**. On my end: · By Monday, **I'll have our edits on the absentee voter instructions.** · We're pushing Quickbase to get their system up and running and I'll keep you updated. · I'll revise the planning tool to accurately reflect the process. App. 381 (Michael Spitzer Rubenstein emailing to Claire Woodall-Vogg of Milwaukee).

AMERICAN OVERSIGHT

2. I'll create a flowchart for the VBM [vote by mail] processing that we will be able to share with both inspectors and also observers. · **I'll take a look at the reconstruction process** and try to figure out ways to make sure it's followed. App. 381 (Michael Spitzer-Rubenstein emailing to Claire Woodall-Vogg of Milwaukee)

3. "That sounds like a real pain. It would be helpful to just understand the system and maybe the USDR folks can figure out a way to simplify something for you. … if it's okay with you, **they'd also like to record the screen-share to refer back to, if needed.**" **We're hoping there's an easier way to get the data out of WisVote than you having to manually export it every day or week**. To that end, we have two questions: 1**. Would you or someone else on your team be able to do a screen-share so we can see the process for an export**? 2. **Do you know if WisVote has an API or anything similar so that it can connect with other software apps**? **That would be the holy grail** (but I'm not expecting it to be that easy). App. 389 (Michael Spitzer-Rubenstein to Claire Woodall-Vogg).

4. I know you won't have the final data on absentee ballots until Monday night but I imagine you'll want to set things up beforehand. **Just let me know your timeline for doing so and if you get me the absentee data a day ahead of time and I can set things up. And as a reminder, here's what I'll need: 1) Number of ballot preparation teams 2) Number of**

AMERICAN OVERSIGHT

returned ballots per ward 3) Number of outstanding ballots per ward. App. 390 (Michael Spitzer-Rubenstein to Claire Woodall-Vogg).

5. **In order to get the data by ward, are you able to run a summary in WisVote or do you have to download all the active voters, absentee applications, etc. and then do an Excel pivot table or something similar**? We added Census data and zip codes to the map and so now we're moving to figure out how we'll update this. Also, **if you can send these reports (whether in summary form or just the raw data), we can put them in: Active voters, Absentee applications, Ballots received, Ballots rejected/returned to be cured**. App. 391, Michael Spitzer Rubenstein to Claire Woodall-Vogg.

6. "I'll try and do a better job clarifying the current need. We are not actually using anything visual right now (though will in the future). In the state of affairs now, **we are just looking for raw data. The end result of this data will be some formulas, algorithms and reports that cross reference information about ballots and the census data**. For example, **we want to deliver to Milwaukee + Voteathome answers to questions like "How many of age residents are also registered to vote?" or "what percentage of ballots are unreturned in areas with predominantly minorities?**" To do that, we need a clear link between address + Census Tract. We need this for all ~300k voters and the ~200k+ absentee ballots, and it needs to be able automatic as we perform more

AMERICAN OVERSIGHT

> inserts. To accomplish this, we were making calls to the Census API. They allow you to pass in an address and get the Census Tract. That solution "works", but is far too slow. Their batch solution isn't working either." App. 388 (emphasis added).

CTCL and its partners were influencing public officials while those officials were doing their jobs to administer the election. *See, e.g.*, App. 381, 383-388, 390-391. Although some of these attempts by CTCL and its partners to tamper with, or take over the Zuckerberg 5's election administration, may have been rebuffed, others were not *Id.* The Zuckerberg 5 apparently agreed that some of CTCL's attempts would have been too egregious. App. 389. For example, Claire Woodall-Vogg responded:

> While I completely understand and appreciate the assistance that is trying to be provided*, I am definitely not comfortable having a non-staff member involved in the functions of our voter database, much less recording it.* While it is a pain to have to remember to generate a report each night and less than ideal, it takes me less than 5 minutes. Without consulting with the state, which I know they don't have the capacity or interest in right now, I don't think I'm comfortable having USDR get involved when it comes to our voter database. I hope you can see where I am coming from – this is our secure database that is certainly already receiving hacking attempts from outside forces.

App. 389 (Claire Woodall-Vogg to Michael Spitzer Rubenstein) (emphasis added).

AMERICAN OVERSIGHT

Kris Teske confirmed that CTCL and its "partners" sought to improperly interject or "embed" themselves into the election administration. App. 674. She stated in her answer in a prior WEC proceeding: "A further complicating factor arose when outside (private) organizations were engaged to participate in the planning and administration of the election." *Id.*

Another example of embedding is in Milwaukee. The Elections Group employee Ryan Chew wrote at 4:07 a.m. on November 4, 2020, the day after the Presidential election, to Milwaukee election official Claire Woodall-Vogg:

> Damn Claire, you have a flair for drama, delivering just the margin needed at 3:00 a.m. I bet you had those votes counted at midnight, and just wanted to keep the world waiting.

App. 610. Woodall-Vogg responded, "LOL. I just wanted to say I had been awake for a full 24 hours." *Id.*

1. Given a Blank Check to Run the Election, CTCL and Its "Partners" Took Full Advantage of the Opportunity to Administer the Election in at Least One of the Zuckerberg 5.

The Zuckerberg 5 used (at a minimum) the following group of CTCL's allied corporations to engage in election administration: Center for Civic Design, App. 451-453, 467-471, 474-475, 478; Vote at Home Institute, App. 447, 449, 465-466, 477; Voter Participation Center, App. 476; healthyvoting.org, App. 445; Elections Group, App. 444; Brennan Center, App. 440; Simon and Company, Inc., App. 448, 450. CTCL and its partners assumed numerous aspects of administration of Zuckerberg 5's election processes.

AMERICAN OVERSIGHT

See, e.g., App. at 451-453, 467-471. For example, in Green Bay, the private corporations and their employees engaged in the following aspects of election administration:

a. Vote at Home volunteered to take the curing of ballots off of a municipality's plate; (*id.* at 172-174);

b. Elections Group offered to "lend a hand" to Central Count stations (*id.* at 175-76);

c. Offered to connect a municipality to "partners like Power the Polls" to recruit poll workers and to partner with CTCL to send out e-mails to recruit poll workers; (*id.* at 177);

d. Advised the City as to using DS200 voting machines; (*id.* at 178);

e. Provided a "voter navigator" job description; (*id.* at 182);

f. Advised a municipality regarding moving the "Central Count" from City Hall to a different location, which was wired to provide election results directly to private corporate employees; (*id.* at 262);

g. The Center for Civic Design offered a municipality to design the absentee voting instructions and the absentee envelopes; (*id.* at 184-196);

h. The Elections Group issued a Guide to Ballot Drop Boxes, a report on Planning Drop Boxes, Voter Outreach, and Communication; (*id.* at 197-236);

i. Provided advice about procedures for challenging an elector's ballot; (*id.* at 232-236); and

AMERICAN OVERSIGHT

j. Conservation Voices and curing. (*id.* at 237-240).

Whitney May of CTCL advised Milwaukee's Information Coordinator, Michelle Nelson, on how to request additional funding for election administration from the City and encouraged her to consult with other Zuckerberg 5 clerks:

> Below is some language I drafted along with 2 links that may help you frame the need for more staff. And have you asked Kris in Green Bay or Tara in Racine about their staffing levels? If they have similar numbers of registered voters as Kenosha, but more staff than Kenosha, then I think that's also a way to make your case to Admin.

App. 377. This email raises the concern that CTCL was drafting documents regarding municipal funding for election administration for the Zuckerberg 5. *Id.* Based on CTCL contact with the Commission, the CTCL and its partners may have drafted documents for Commission staff as well. *Id.*

Kris Teske saw these acts of usurpation as well, describing them in her communications. App. 318-319. As early as July, she claimed that the Mayor's office was diverting her authority as a result of the CTCL Contract. She wrote in an e-mail:

> I haven't been in any discussions or emails as to what they are going to do with the money. I only know what has been on the news/in the media... Again, I feel I am being left out of the discussions and not listened to at the meetings.

Id. at 318. Kris Teske also wrote, "Celestine also talked about having advisors from the organization giving the grant who will be 'helping us' with the election and I don't know anything about that." *Id.* at 319. "I don't understand how people who don't have the

AMERICAN OVERSIGHT

knowledge of the process can tell us how to manage the election." *Id.* Teske expressed concern that voting laws may be being broken. She wrote:

> I just attended the Ad Hoc meeting on Elections…. I also asked when these people from the grant give us advisors who is going to be determining if their advice is legal or not…I don't think it pays to talk to the Mayor because he sides with Celestine, so I know this is what he wants. I just don't know where the Clerk's Office fits in anymore.

Id. at 318-319.

Some of the most aggressive and egregious usurpation of election administration was performed by Michael Spitzer Rubenstein of NVAHI. Mr. Spitzer Rubenstein performed tasks such as:

a. Providing instructions to the Central Count workers (App. 241-242);

b. Augmenting the City of Green Bay's "guide with the DS450" voting machine instructions; issuing a purchase order (*id.* at 49); asking about 62001 openers (*id.* at 243);

c. Corresponding with the Green Bay City Attorney and other employees to interpret Wisconsin law and even to develop absentee voting protocols potentially inconsistent with Wisconsin Law (App. 73);

d. Offering to take "curing ballots" off of the City of Green Bay's plate (*id.* at 135, 137, 138, 172-173);

e. "[H]elping Milwaukee assign inspectors to Central Count stations," and offering to do the same for Green Bay (*id.* at 244);

f. Setting up the voting machines and patterns in the Central Count location (App. 175, 178, 179-195);

AMERICAN OVERSIGHT

g. Offering "additional resources" such as "funding available, both from ourselves, and the Center for Tech and Civic Life (thanks to Priscilla Chan and Mark Zuckerberg)" (*id.* at 124);

h. Determining whether to accept ballots after the deadline of 8 pm (*id.* at 291-292);

i. Allocating poll workers on election day (App. 252);

j. Teske stating finance person does not want NVAHI person in office, but Chief of Staff is running show (*id.* at 249-251);

k. Sharing Central Count guidance # of poll workers (*id.* at 252).

Further: "Michael Spitzer Rubenstein will be the on-site contact for the group [on Election Day]." App. 257-261. Mr. Spitzer Rubenstein was one of three people providing "supervision and check-in duties" for workers on the days of the election and subsequent vote counting. App. 306.

One of the functions of Mr. Spitzer Rubenstein's service as "on-site contact" was to coordinate with the contractor staff at the Hyatt Regency and KI Convention Center to set up wireless networks for Election Day operations. At Mr. Spitzer Rubenstein's instruction, there were three WiFi networks available. One was the general conference facility public network that would be available to members of the press and others. That network was password-protected, but the password was widely available. A second password-protected WiFi network was created for Central Count staff. Mr. Spitzer Rubenstein also directed that a third WiFi network be established, but that network was to be hidden and it was not

AMERICAN OVERSIGHT

to be password-protected. Spitzer Rubenstein also ensured that "both networks reach[ed] [his] hotel room on the 8th floor" (App. 262-266).

Spitzer Rubenstein had unfettered access to the Central Count, ballots, and ballot counting:

1. Spitzer Rubenstein developed a diagram and map of the "Central Count" area of the election and developed roles for the staff to handle and count ballots, and Central Count procedures (App. 267-288);
2. Assigned inspectors for vote counting and polling places (App. 244);
3. Pushed for control of ballot curing process (App. 172-173);
4. Provided advice to Green Bay's City Attorney regarding interpretation of Wis. Stat. governing the timing and receipt of ballots (App. 289-292);
5. Instructed "pull the numbers on the absentee ballots returned and outstanding per ward" information on vote results so he could determine which wards were on which voting machines (App. 293-295);
6. Created a "poll worker needs" spreadsheet (App. 296-298);
7. Put himself in charge of transporting ballots to City Hall and then to Central Count on election day; and then counting them. (Discussion of "moving ballot boxes in the morning and evening." November, 2, 2020 (App. 280, 299-301);
8. Stated "I'm putting together instructions for the Central Count

AMERICAN OVERSIGHT

workers, …" (App. 302);

9. Corresponded with Saralynn Flynn, also of Vote at Home, who wrote: "here is the document I made to hand out to central count observers." (App. 241) The "document" he created warned Election Observers to "NOT interfere in any way with the election process," while CTCL personnel, partners, "pollworkers" and others deputized by CTCL, transported ballots, counted ballots, and "cured" defective mail in and absentee ballots, and otherwise exercised considerable control over the election process (App. 303);

10. Had unrestricted access on election day to the Central Count floor (App. 304).

On election day, Spitzer Rubenstein had access to ballots and determined which ones would be counted or not counted. Spitzer Rubenstein wrote to Vanessa Chavez, Green Bay City Attorney, on November 3, 2020 at 9:29 pm: "Be prepared: ballots delayed." The text stated: "I think we're probably okay; I don't think anyone challenged the ballots when they came in." App. 304 (emphasis added). Spitzer Rubenstein explained that someone "prevented one of the drop box deliveries from getting to City Hall by 8 PM," so the ballots were "delayed," i.e., did not arrive on time as required by law. Forty-seven boxes of ballots were expected to be delivered and apparently, according to Spitzer Rubenstein's email, some of them were late but he decided that despite some of them being late, they were to be counted anyway because no one "challenged them." *Id.*

AMERICAN OVERSIGHT

1. The "Private Corporate Partners" Were from Out of State, and Not Necessarily Knowledgeable About Wisconsin Election Law, or Concerned About It.

Notably, CTCL's "private corporate partners" were from out of State, and not necessarily knowledgeable about Wisconsin election law, or concerned about it. Ryan Chew of the Elections Group was located outside of Wisconsin. Further, Chew was described by Whitney May of CTCL as having "decades of election experience working with the Cook County Clerk in Illinois. They [Mr. Chew and Gail, also from the Elections Group] are available to discuss your drop box plans (and more!)." App. 374. CTCL is headquartered in Illinois. Spitzer Rubenstein is a lawyer who lives in Brooklyn. Kris Teske stated in her answer that "[m]any of these [election administration] decisions were made by persons who were not authorized to do so and some were made by people not qualified to make them as, again, election laws need to be followed to ensure the integrity of the election." App. 676.

2. Safe Voting Was a Pretext—The Real Reason for CTCL's WSVP Grants was to Facilitate Increased In-Person and Absentee Voting in Specific Targeted Areas Inside the Zuckerberg 5.

The real reason for CTCL's WSVP grants was to facilitate increased in-person and absentee voting in specific targeted areas inside the Zuckerberg 5. App. 7-27. Safe voting was merely a pretext.

On June 10, 2020, Vicky Selkowe informed the representatives of the other Zuckerberg 5 that: "[o]ur national funding partner, the Center for Tech & Civic Life, has one additional question area they'd like answered: "What steps can you take to update

AMERICAN OVERSIGHT

registered voters' addresses before November? What steps can you take to register new voters? How much would each cost?" App. 604.

3. The Zuckerberg 5 Became Beholden to CTCL as a Result of the WSVP's Private Funding and the WSVP's Provisions.

The documents show that the Zuckerberg 5 became beholden to CTCL as a result of the WSVP's private funding and the WSVP's provisions.

On August 1, 2020, Maggie McClain of Madison emailed Maribeth Witzel-Behl stating: "is there an approval/letter giving the go-ahead for this? Or an okay from CTCL saying the *grant funds could be used for this*? I need something to attach to the requisition." App. 607.

On August 31, 2020, Kenosha sought and obtained CTCL permission for purchasing 3 DS450 high speed ballot tabulators for use at absentee central count locations at an amended cost of $180,000 instead of $172,000. App. 378-380. Madison sought similar approval from CTCL regarding election administration financing. App. 437-439, 441-443, 446, 450, 472-473.

On September 22, 2020, Karalyn Kratowitz, the interim deputy mayor of Madison, asked CTCL for instruction on and permission as to how to spend the money. App. 446.

On January 7, 2021, pursuant to the agreement, CTCL told Madison to report by January 31, 2021. App. 609.

The Zuckerberg 5 were periodically required to report to CTCL on election administration. All the Zuckerberg 5 were required to report to CTCL on their expenditures

AMERICAN OVERSIGHT

by January 31, 2021. App. 4 (Racine), 589 (Milwaukee), 592 (Madison), 596 (Kenosha), 599 (Green Bay).

4. The Zuckerberg 5 Ceded Administrative Control Over the Election to CTCL and its Private Partners, Including WisVote Data Sharing, so they Could Collectively Facilitate Increased In-Person and Absentee Voting in the 2020 Election.

As set forth above, CTCL's stated and implied conditions led to the Zuckerberg 5's municipal clerks and other staff to sometimes eagerly step aside, and other times to be pushed aside, to let CTCL and its private corporate partners engage in aspects of election administration—including exclusive free access to WisVote data not available to the public and not for free (e.g., $12,500 for copy of statewide WisVote data). *See, e.g.*, App. 7-27. CTCL and the private corporations, as revealed by the documents, had an ulterior motive in the WSVP to facilitate increased in-person and absentee voting in the Zuckerberg 5 and among their preferred racial groups. *Id.*

AMERICAN OVERSIGHT

Chapter 5
Corporate Legal Defense to Facilitate Obstruction Might Violate the Wisconsin Ethics Code

The unlawful actions of various Wisconsin election officials has opened them up to legal liability. In certain contexts, Wisconsin's election officials can enjoy legal immunity; in others, they can be represented by government attorneys or government-financed attorneys. Finally, in some contexts, unlawful actions of officials can place them in a position where they-- just like any other members of the public-- may have to hire and pay their own attorneys to defend themselves.

CEIR's Election Officials Legal Defense Network (EOLDN), announced in December of 2021, provides legal services for government officials on the hook for misconduct. In Wisconsin, this is not a solution to these election officials' legal problems. In fact, accepting EOLDN's legal services may get these election officials into more jeopardy, because the EOLDN system facially violates Wis. Stat. § 19.59 (1)(b), prohibiting such transactions. Wis. Stat. § 19.59 (1)(b) provides:

> (b) No person may offer or give to a local public official, directly or indirectly, and no local public official may solicit or accept from any person, directly or indirectly, anything of value if it could reasonably be expected to influence the local public official's vote, official actions or judgment, or could reasonably be considered as a reward for any official action or inaction on the part of the local public official.

The problem is that CTCL and CEIR are Zuckerberg-Chan financed entities that worked together as a joint venture in the 2020 election. CTCL received $350 million for the 2020 election. CEIR received $69 million for the 2020 election. CTCL funded the $8.8

AMERICAN OVERSIGHT

million Wisconsin Safe Voting Plan (WSVP), which the cities of Milwaukee, Madison, Green Bay, Racine and Kenosha used to purchase illegal drop boxes and the provision of those funds constitutes election bribery under Wis. Stat. § 12.11.

EOLDN's three leaders: David Becker, Bob Bauer and Ben Ginsberg have different roles regarding the Zuckerbergs' CTCL and WSVP. Becker, as President of CEIR, received $69 million from Zuckerberg-Chan. Bauer and Ginsberg are election law attorneys who likely represent-- or are being paid by-- CEIR, CTCL, or related entities. Not surprisingly, all three—Becker, Bauer and Ginsberg—have publicly supported CTCL's distributions in Wisconsin as lawful.

EOLDN should know that CTCL and CEIR are potential parties or witnesses to future illegal drop box or election bribery litigation or prosecutions. In turn, CEIR and related entities are disqualified from providing attorneys for Wisconsin election bribery defendants because they are potential parties, potential witnesses or biased due to previous representation of related parties. Further, it appears, EOLDN, on behalf of Zuckerberg and Chan, are improperly coordinating legal defenses of election officials to protect CTCL, CEIR, Zuckerberg, Chan and related entities and individuals.

By providing free legal defense services for election officials in these subject areas, EOLDN may be violating the first part of Wis. Stat. § 19.59 (1)(b), which prohibits such transactions:

> No person may offer or give to a local public official, directly or indirectly, and no local public official may solicit or accept from any person, directly or

AMERICAN OVERSIGHT

> indirectly, anything of value if it could reasonably be expected to influence the local public official's vote, official actions or judgment.

The law applies to these circumstances as follows. The "person" is EOLDN or their attorney. The local public official is the election official receiving free EOLDN legal services. The "anything of value" provided is the free legal defense services provided by EOLDN. The gift of the free legal services could reasonably be expected to influence the election officials' official actions or judgment. Since EOLDN's free legal services will have foremost in mind protecting the interests of CTCL, CEIR, Zuckerberg and Chan, it will influence the election officials' official actions and judgment in defending Wis. Stat. § 5.06 administrative corrections and related criminal prosecutions. So, all the elements are satisfied for the transaction to be deemed prohibited.

By providing free legal defense services for election officials in these subject areas, EOLDN may be violating the second part of Wis. Stat. § 19.59 (1)(b) prohibiting such transactions:

> No person may offer or give to a local public official, directly or indirectly, and no local public official may solicit or accept from any person, directly or indirectly, anything of value if it …could reasonably be considered as a reward for any official action or inaction on the part of the local public official

The law applies to the circumstances as follows. The "person" is EOLDN or their attorney. The local public official is the election official receiving free EOLDN legal services. The "anything of value" provided is the free legal defense services provided by EOLDN. EOLDN or its attorney's gift of the legal services could reasonably be considered a reward for the official's actions regarding the illegal drop boxes, election bribery and/or violating

AMERICAN OVERSIGHT

the special voting deputies law. Recall CTCL, Zuckerberg and Chan financed the illegal drop boxes and election bribery, so EOLDN's free legal services to the election officials could be reasonably seen as a "reward" for their participation in unlawful actions related to the election.

AMERICAN OVERSIGHT

Chapter 6

Wisconsin Election Officials' Widespread Use of Absentee Ballot Drop Boxes Facially Violated Wisconsin Law

In Wisconsin, election officials' unprecedented use of absentee ballot drop boxes facially violated Wisconsin law. This practice of unlawful absentee ballot drop boxes was particularly pervasive in the cities of Milwaukee, Madison, Kenosha, Racine and Green Bay. These bulk absentee ballot drop boxes were privately financed by Center for Tech and Civic Life (CTCL). The WSVP and CTCL's grant acceptance letter incorporating the WSVP is the agreement in which the city agreed to take CTCL's money to purchase and place absentee drop boxes in targeted neighborhoods. App. 10, 16-17.

In total, the WSVP provided $216,500 for unlawful absentee ballot drop boxes in the Zuckerberg 5. App. 17. The WSVP provided Green Bay $50,000 for absentee ballot drop boxes. App. 16. The WSVP provided Kenosha $40,000 for absentee ballot drop boxes. App. 16. The WSVP provided Madison $50,000 for absentee ballot drop boxes. App. 16. The WSVP provided Milwaukee $58,500 for absentee ballot drop boxes. App. 16. The WSVP provided Racine $18,000 for absentee ballot drop boxes. App. 17.

The use of absentee ballot drop boxes has been successfully challenged in state court as being unlawful. In a case in the Waukesha County Circuit Court, the plaintiffs sued the WEC to challenge 2020 guidance memos that the WEC issued to municipal clerks. Complaint, Teigen v. Wisconsin Elections Commission, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. June 28, 2021) (under review by the Wisconsin Supreme Court), available

AMERICAN OVERSIGHT

at App. 649-660. In particular, the plaintiffs challenged a memorandum that purported to authorize unstaffed ballot drop boxes:

> Despite this requirement in the statutes [i.e., the requirement that an absentee ballot either be returned by mail or be returned by the voter "in person, to the municipal clerk." Wis. Stat. § 6.87(4)(b)1], WEC Commissioners sent a memo to municipal clerks dated August 19, 2020, (the "August 2020 WEC Memo") stating that absentee ballots do not need to be mailed by the voter or delivered by the voter, in person, to the municipal clerk but instead could be dropped into a drop box and that the ballot drop boxes could be unstaffed, temporary, or permanent. (A true and correct copy of the August 2020 WEC Memo is attached hereto as Exhibit B.).
>
> Id. ¶ 10, available at App. 651.

The court granted the plaintiffs motion for summary judgment and declared the use of ballot drop boxes, outside of narrow exceptions, to be inconsistent with Wisconsin law:

> For the reasons set forth by the Court on the record at the January 13, 2022 hearing, the Court hereby declares that WEC's interpretation of state statutes in the Memos is inconsistent with state law, to the extent they conflict with the following: (1) an elector must personally mail or deliver his or her own absentee ballot, except where the law explicitly authorizes an agent to act on an elector's behalf, (2) the only lawful methods for casting an absentee ballot pursuant to Wis. Stat. § 6.87(4)(b)1. are for the elector to place the envelope containing the ballot in the mail or for the elector to deliver the ballot in person to the municipal clerk, (3) the use of drop boxes, as described in the Memos, is not permitted under Wisconsin law unless the drop box is staffed by the clerk and located at the office of the clerk or a properly designated alternate site under Wis. Stat. § 6.855.
>
> Order Granting Summary Judgment for Plaintiffs, Teigen v. Wisconsin Elections Commission, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. January 20, 2020), available at App. 66.

Accordingly, the Zuckerberg 5's privately funded absentee ballot drop boxes in the 2020 election were unlawful under Wis. Stat. § 6.87(4)(b)1 and § 6.855. Thus, the

AMERICAN OVERSIGHT

Zuckerberg 5 and CTCL's agreement for CTCL-funded purchase and placement of absentee ballot drop boxes was also unlawful and contrary to public policy. We suggest below legislative action that would make this prohibition even more clear.

AMERICAN OVERSIGHT

Chapter 7

The Wisconsin Elections Commission (WEC) Unlawfully Directed Clerks to Violate Rules Protecting Nursing Home Residents, Resulting in a 100% Voting Rate in Many Nursing Homes in 2020, Including Many Ineligible Voters

Contrary to statements made by several groups and media sources over the past months, the OSC has uncovered evidence of election fraud in the November 2020 election. Rampant fraud and abuse occurred statewide at Wisconsin's nursing homes and other residential care facilities in relation to absentee voting at these facilities. This fraud and abuse was the ultimate result of unlawful acts by WEC's members and its staff, the end results being:

1. Residents were illegally assisted with "marking" their ballots by nursing home staff and administrators;
2. Absentee ballots for residents were illegally handled by facility staff and administrators;
3. Resident absentee ballots were illegally "witnessed" by nursing home staff and administrators;
4. Suspected forger of resident signatures by nursing home staff and administrators;
5. Improbably high voting rates for residents at nursing homes; and
6. Ballots cast by residents—
    1. Where those residents were unaware of their surroundings, with whom they are speaking at any given time, or what year it is; and/or

AMERICAN OVERSIGHT

2. Where those residents' right to vote had been taken away by court order because they have been adjudicated as mentally incompetent.

Through these acts, the members and staff of WEC mandated widespread election fraud to take place where our most vulnerable adult citizens reside.

The OSC has spent significant time and resources investigating the fraud and abuse that occurred at Wisconsin's nursing homes. However, that part of the investigation is nowhere near complete. While the OSC has been able to audit the votes of several nursing homes in five counties, and has interviewed the families of many residents who have been abused, the OSC believes a state-wide, complete audit of all absentee votes from all facilities governed by Wis. Stat 6.875 is necessary. The OSC is continuing to pursue this avenue of the investigation with an eye towards completing that audit.

There are four distinct types of Elderly Care Facilities in Wisconsin, Assisted Living (including assisted living apartments), Adult Day Care Centers, Nursing Homes and Memory Care Units. Many of the memory care units are operated within the Nursing Home environment. In total, there are about 92,000 people in Wisconsin who reside in these facilities.

Wisconsin law defines "election fraud" at Wis. Stat. § 12.13. That section provides in pertinent part—

"12.13 Election Fraud

(1) ELECTORS. Whoever intentionally does any of the following violates this chapter:

…

AMERICAN OVERSIGHT

(h) Procures, assists or advises someone to do any of the acts prohibited by this subsection.

(2) ELECTION OFFICIALS.

…

(b) No election official may:

…

3. Permit registration or receipt of a vote from a person who the official knows is not a legally qualified elector or who has refused after being challenged to make the oath or to properly answer the necessary questions pertaining to the requisite requirements and residence; or put into the ballot box a ballot other than the official's own or other one lawfully received.

4. Intentionally assist or cause to be made a false statement, canvass, certificate or return of the votes cast at any election.

…

7. In the course of the person's official duties or on account of the person's official position, intentionally violate or intentionally cause any other person to violate any provision of chs. 5 to 12 or which no other penalty is expressly prescribed.

(3) PROHIBITED ACTS. No person may:

…

(L) When not authorized, during or after an election, break open or violate the seals or locks on a ballot box containing ballots of that election or obtain unlawful possession of a ballot box with official ballots; conceal, withhold or destroy ballots or ballot boxes; willfully, fraudulently or forcibly add to or diminish the number of ballots legally deposited in a ballot box; or aid or abet any person in doing any of the acts prohibited by this paragraph.

…

(N) Receive a ballot from or give a ballot to a person other than the election official in charge.

…

AMERICAN OVERSIGHT

(P) Receive a completed ballot from a voter unless qualified to do so."

Wisconsin has enacted rules specifically related to the conduct of absentee voting in nursing homes and other residential care facilities. These rules are found in Wis. Stat. § 6.875. Wis.. Sat. § 6.875(2)(a) specifically states—

> Absentee voting in person inside residential care facilities and qualified retirement homes shall be conducted by municipalities only in the manner prescribed in this section. At any residential care facility or qualified retirement home where a municipality dispatches special voting deputies to conduct absentee voting in person under this section, the procedures prescribed in this section are the exclusive means of absentee voting in person inside that facility or home for electors who are occupants of the facility or home.

Among the rules that must be followed are that municipal clerks or boards of election commissioners must designate "Special Voting Deputies" (SVDs) for the purpose of supervising absentee voting in qualified retirement homes and residential care facilities, and that these SVDs must be dispatched to nursing homes to supervise absentee voting in those facilities, except in very limited circumstances.

If a resident at a nursing home or other residential care facility requests an absentee ballot, and SVDs are dispatched to that facility (which again must happen except in very limited circumstances) the law provides that the clerks or the board of electors must give the ballot to the SVDs "who shall personally deliver the ballot to the elector" when the SVDs visit the facility.

Once the ballot is delivered, the SVDs may assist the resident with "marking" the ballot. Importantly, the only people authorized by Wisconsin law to assist a resident in

AMERICAN OVERSIGHT

"marking" an absentee ballot are SVDs and "immediate family members." It is illegal for anyone else under any circumstances to do so. Further, the law specifically provides that "the [SVDs] **shall not accept** an absentee ballot submitted by an elector whose ballot was not issued to the elector by the [SVDs]" and that "[a]ll voting shall be conducted in the presence of the [SVDs]."

Once voting is complete on the day of an SVD's visit to the facility, Wisconsin law provides—

> **(d)** Upon completion of the voting on each day at each residential care facility or qualified retirement home, the deputies shall seal the absentee ballot envelopes and any absentee ballot applications inside a carrier envelope and shall seal the carrier envelope and sign their names to the seal. The deputies shall place the envelope inside a ballot bag or container. As soon as possible after visiting each residential care facility or retirement home, but not later than 18 hours after the visit, the deputies shall deliver the ballot bag or container to the clerk or board of election commissioners of the municipality in which the elector casting the ballot resides.

There is no provision in Wis. Stat. § 6.875 for absentee ballots from nursing home residents to be returned by mail, except in the case of a voter that "maintains a residence outside the facility or home" in which case the voter may request and return an absentee ballot in the standard manner as provided for elsewhere in the statutes. Wis. Stat. § 6.875(ar)2.

Despite the clear mandates of Wisconsin law, in a June 24, 2020 memorandum directed to all clerks of the state, WEC directed clerks not to send SVDs to facilities, and to instead mail ballots to voters in those facilities. WEC further stated that "The regular rules for absentee voting by mail will apply to ballots sent by mail to care facility voters."

AMERICAN OVERSIGHT

On September 25, 2020, WEC forwarded to all clerks of the State two documents, a "Sample Nursing Home and Care Facility Letter" (the "Facility Letter") and a training document entitled "Absentee Voting at Nursing Homes and Care Facilities" (the "Training Document").

The Facility Letter was provided to clerks as a template for letters to be sent by the clerks to nursing homes in their jurisdiction, directing those facilities as to the purported new rules for absentee voting for the November 2020 election. In the Facility Letter, WEC told the clerks to advise facilities that the normal restrictions against facility staff assisting residents with voting will not be in place "because of SVDs being restricted from visiting." It further provided that "[r]esidents who receive ballots will have to vote their ballot, have a witness provide required information on the return envelope, and return their ballot by mail in order to participate." The letter also stated that facility staff may assist residents in "completing the information required on the voter registration form" and completing absentee ballot request forms.

In addition to providing further details as to how facility staff could assist residents with registration, absentee ballot application, and voting, the Training Document stated—

> As a care facility administrator or staff member, you are able to:
>
> 1. Assist residents in filling out their ballots or certificate envelopes.
> 2. Assist residents in completing voter registration forms and absentee requests.
> 3. Sign the special certificate envelope (EL-122sp) if necessary (see below for explanation).
> 4. Witness ballots.

AMERICAN OVERSIGHT

The Training Document also provided certain "Absentee Voting FAQs" with answers thereto, including—

> Q: How do residents of my facility return their ballot? We used to have people (SVDs) come to the facility and administer the voting and take the ballots back. Now what is expected?
>
> A: Ballots should be mailed back to the clerk using the postage-paid return envelope provided by the clerk with the voter's ballot. They can also be returned to the clerk's office in-person at the request of the voter.
>
> Q: Who can assist the voter in voting their ballot?
>
> A: Anyone can assist the voter in reading and/or marking their ballot, except the voter's employer, including care facility staff and family. Normally, care facility staff are restricted from assisting voters, but this restriction is not in effect because the voter is casting their ballot by mail. Wis. Stat. § 6.87(5)
>
> Q: Can a resident's ballot be returned using a drop box at the Town/Village/City Hall?
>
> A: Yes, the ballot may be returned to a drop box or directly to the clerk's office at the request of the voter. All ballots must be received by 8:00 PM on election day in order to be counted. Not all municipalities offer drop boxes, so you should check with the clerk to see if one is available for ballot return.

Each and every WEC directive identified above in regard to absentee voting in nursing homes and other resident care facilities is a direct violation of Wisconsin law, and ultimately encouraged widespread fraud in regard to absentee voting at these facilities.

In addition to other violations, WEC's directives were illegal in the following ways:

1. Directing that facility staff may assist voters in registering to vote, applying for an absentee ballot and/or assisting the voter in marking the ballot are all violations of provisions of Wis. Stat. § 6.875;

2. Directing that clerks not send SVDs to any facilities violated the basic tenets of Wis. Stat. § 6.875 that absentee voting in nursing homes "shall" be conducted in compliance with that statute and that all absentee voting at nursing homes must be conducted "in the presence of [SVDs];"

AMERICAN OVERSIGHT

3. Directing clerks to mail ballots directly to nursing home residents violated the rule that absentee ballots requested by facility residents must be given first to SVDs, and then the SVDs are the only persons authorized to then give those ballots to the residents;

4. Directing that absentee ballots may be returned by mail, by placing them in a ballot drop box, and/or by returning them directly to the clerk (by someone other than an SVD) "at the request of the voter" all violate the rule that these absentee ballots are to be returned only to an SVD, who then must place them in a ballot bag or container and return them to the clerk within 18 hours.

Ultimately, WEC's directives mandated that widespread "election fraud" be undertaken in relation to the November 2020 election. As is noted above, "election fraud" occurs when ballots are given to, or received by anyone other than "the election official in charge" or when a person receives a completed ballot from a person "unless qualified to do so."

WEC's directives caused ballots to be mailed directly to nursing home residents rather than the "election officials in charge"—who would have been the SVDs. By the same token, it caused completed ballots to be illegally given to facility staff or returned by mail rather than the SVDs, violating both the rule that ballots cannot be given to anyone other than the "election official in charge" as well as the prohibition against receiving a completed ballot from someone "unless qualified to do so."

The only persons qualified to receive completed ballots from nursing home residents are, and were, SVDs. The law did not change before or after the November 2020 election, and WEC's directives were in direct violation thereof. As a result, WEC's directors and

AMERICAN OVERSIGHT

staff committed election fraud themselves by mandating and/or encouraging others to commit acts prohibited by the election fraud statute.

The OSC has evidence that facility staff and directors—

1. Assisted residents in completing ballots;
2. Assisted residents in obtaining absentee ballots;
3. Pressured residents to vote;
4. Collected completed ballots from residents;
5. Forged signatures of residents;
6. Illegally returned residents' ballots to the municipal clerks by mail, by placing the ballots in drop boxes, and/or delivering them directly to the clerks;
7. Pressured and/or assisted incompetent persons to complete and cast ballots in the November 2020 election, up to and including persons who have had their right to vote take away by court order due to mental incompetence.

Not only did WEC's directives mandate and/or encourage violations of Wis. Stat. § 6.875 and the election fraud statute: it led to absurd results relating to nursing home voting in the November 2020 election. The following chart shows the registered voting rates in the November 2020 election for nursing homes that were vetted by the OSC in Milwaukee, Racine, Dane, Kenosha, and Brown Counties:

AMERICAN OVERSIGHT

County	# of Nursing Homes Vettted	# of Registered Voters	# of Voters Nov 2020	% of Registered Voters that Voted
Milwaukee	30	1084	1084	100%
Racine	12	348	348	100%
Dane	24	723	723	100%
Kenosha	9	866	841	97%
Brown	16	280	265	95%

It is important to note that the above chart only reflects voting at the nursing homes that the OSC has been able to vet to this juncture. There are more facilities in these counties, and after auditing the votes from other facilities, the above percentages may change. Further, as is noted above, the OSC believes a complete state-wide audit of absentee ballots sourced from nursing home and other residential care facility residents is necessary.

Election fraud is a crime. The Racine County Sheriff's Office recommended criminal prosecution of certain members of WEC relating to their instructions to municipal clerks not to send SVDs to nursing homes for the November 2020 Presidential election. Specifically, the Sheriff recommended charges for WEC Commissioners Margaret Bostelmann, Julie Glancey, Ann Jacobs, Dean Knudson, and Mark Thomsen. The recommended charges are the same for each Commissioner, and include:

1. Misconduct in Public Office in violation of Wis. Stat. § 946.12(2) (Felony);
2. Election Fraud—Election Official Assisting with Violations in violation of Wis. Stat. § 12.13(2)(b)7 (Felony);
3. Party to the Crime of Election Fraud—Receive Ballot Non-Election Official

AMERICAN OVERSIGHT

in violation of Wis. Stat. § 12.13(3)(n) (Misdemeanor);

4. Party to the Crime of Election Fraud—Illegal Ballot Receipt in violation of Wis. Stat. § 12.13(3)(p) (Misdemeanor);

5. Party to the Crime of Election Fraud—Solicit Assistance in violation of Wis. Stat. § 12.13(3)(s) (Misdemeanor)

In a recent letter, Racine County District Attorney Patricia Hanson, after stating she did not have jurisdiction to prosecute, stated to Sheriff Christopher Schmaling that, in her expert legal opinion, multiple members of WEC acted "contrary" to Wisconsin Elections laws. District Attorney Hanson stated:

> Despite knowing that what they were doing was contrary to law and despite being told by the Governor's Office that they were exceeding their authority, the WEC instructed municipal and county clerks to eliminate the SVD process for elections in 2020. Proof of this comes directly from the recordings of the WEC meetings that can be found on their website and their recorded meetings.

District Attorney Hanson further stated:

> It is appalling to me that an appointed, unelected group of volunteers, has enough authority to change how some of our most vulnerable citizens access voting. Dispensing with the mandatory process created by the legislature of using sworn and trained SVDs to assist citizens in nursing homes, directly led to what occurred at Ridgewood Care Center in Racine County. Residents who did not request ballots voted because someone else made a request for a ballot on their behalf and then voted on their behalf. If even one person's right to freely choose to vote or not to vote was diminished, then a travesty of justice has occurred.

While the Racine County District Attorney has decided not to prosecute on jurisdictional grounds, the OISC has learned that the Racine County Sheriff's Office has forwarded referrals to the District Attorneys for the resident counties of the above-noted

AMERICAN OVERSIGHT

WEC members—St. Croix, Sheboygan, Green Lake and Milwaukee Counties. No decision has been made by those District Attorneys regarding prosecution as of this writing.

In an October 28, 2021 press release, WEC Chairman Ann Jacobs inaccurately denied that anyone at WEC broke the law and attempted to justify WEC's possibly unlawful acts by stating that had they not performed them, "many residents in Wisconsin care facilities could have and would have been disenfranchised and not able to vote in the 2020 elections." The OSC finds this statement to be no excuse.

WEC's solution to the potential "disenfranchisement" of nursing home residents who wished to vote absentee (a privilege under the law) was to completely strip away the protections afforded to those persons by Wisconsin law and allow nursing home residents to be subjected to undue influence, overzealous solicitation, and outright fraud.

Under Wisconsin law, while voting is a right, voting by absentee ballot is a privilege. Wisconsin law specifically provides that "the privilege of voting by absentee ballot must be carefully regulated to prevent the potential for fraud or abuse; to prevent overzealous solicitation of absent electors who may prefer not to participate in an election; to prevent undue influence on an absent elector to vote for or against a candidate or to cast a particular vote in a referendum; or other similar abuses." Beyond the stringent safeguards of absentee voting in general, absentee voting in nursing homes requires specialized supervision precisely because those facilities house our state's most vulnerable residents.

In stark contrast to what Wisconsin law seeks to prevent, WECs directives led to the abuse of some of our State's most vulnerable citizens. Many residents were pressured

AMERICAN OVERSIGHT

to vote when there is no scenario under which that should have ever happened legally or morally. The OSC conducted interviews with the families of several facility residents who were extremely vulnerable, and yet cast ballots in the November 2020 election. Among the stories we were told were—

1. In Brown County Facility 1, 20 absentee ballots were cast. A study of the Absentee Ballot Envelopes obtained through open records request revealed all 20 of the envelopes were witnessed by the same person. At this facility, Resident A voted, and Resident A's family provided copies of that resident's signature against the signature on the absentee envelope, and they do not match. Further, Resident A does not have the mental capacity to vote as is evinced in a video interview.

2. At the same facility, Resident B, according to WisVote data, voted twice, both by absentee ballot.

3. In Brown County Facility 2, Resident C voted in 2020. According to family, Resident C was not of sound mind for over 10 years. This is documented in a video interview;

4. In Brown County Facility 3, Resident D was taken from the facility to vote by family and guardian to Resident D's assigned polling location. Resident D had registered to vote at this location on Oct 29th as well. When Resident D presented herself to vote on election day, the Resident D was told that Resident D had already voted. After questioning from family, Resident D recollected that someone at the nursing home had come around talking about voting at the nursing home, however, Resident D denied voting at the home. WisVote shows her voting absentee;

5. In Dane County Facility 1, Resident E, who has been adjudicated incompetent since 1972, voted in 2020. Video of Resident E shows Resident E is clearly not mentally capable of voting;

6. In Dane County Facility 2, Resident F never requested an absentee ballot for the November 2020 election, yet received one. Resident F's guardian intercepted the ballot and subsequently Resident F did not vote. The guardian notified the nursing home that Resident F was no longer going to be voting yet in the Spring of 2021, WisVote records reveal that Resident F voted again;

AMERICAN OVERSIGHT

7. In Kenosha Facility 1, Resident G voted absentee in the Nov 2020 election. Resident G was interviewed on video and it shows she is clearly incapable of voting;

8. In Kenosha Facility 2, Resident H voted absentee in November of 2020. Resident H's guardian reported it as Resident H is incapable of voting as Resident H suffered from severe dementia. However, WisVote records indicate Resident H voted throughout the calendar year 2020;

9. In Milwaukee County Facility 1, WisVote data shows 3 adjudicated incompetent voters voted in the November 2020 election. However, it was actually 2 individuals with one casting two ballots;

10. In Milwaukee County Facility 2, Resident I is 104 years old and clearly incompetent. Resident I's family indicated Resident I had been incompetent for several years. This is an extremely egregious case as shown by video of Resident I with family. Resident I cannot comprehend anything;

11. In Outagamie County facility 1, Resident J, who has been adjudicated incompetent not only voted in the November 2020 election, but she also voted in February 2021. The video of Resident J verifies the fact that Resident J is incompetent.

12. In Washington County Facility 1, Resident K was found incompetent in 2018 by two separate doctors. Resident K cast a ballot in the November 2020 Presidential election. Resident K passed in November of 2021.

It is "disenfranchisement" when electors are pressured to fill out ballots they did not wish to or in a way they don't desire or even understand. It is "disenfranchisement" when ballots are illegally cast on behalf of persons who have had their right to vote taken away by the courts of this State due to their mental incompetence. In no way was WEC's mandating illegal activity a "solution" to "disenfranchisement" and to suggest that WEC's actions were a good faith effort at doing so ignores the facts and the law.

WEC's unlawful activities facilitated and encouraged possible widespread criminality and election fraud. Aside from the fact that they were legally and morally

AMERICAN OVERSIGHT

wrong, these acts led to 100% voting rates in many nursing homes in Brown, Dane, Kenosha, Milwaukee and Racine Counties and incapacitated people voting statewide. Given that there are approximately 92,000 residents of facilities governed by Wis. Stat. § 6.875 statewide, the fact that tens of thousands of illegal ballots from these facilities were counted casts doubt on the 2020 Presidential election result.

AMERICAN OVERSIGHT

Chapter 8

WEC Also Unlawfully Encouraged Evasion of Ballot Security Measures Related to "Indefinitely Confined" Voters at the Behest of Outside Corporations

Wisconsin, like many States, has strict absentee voting laws. These laws are designed to avoid the many prevalent dangers of fraud or abuse that are inherent in an absentee setting. It was never the intention of the Legislature to make absentee voting easily accessible from one's home without meeting voting identification requirements and complying with stringent voter protection laws. However, the Legislature made a special, narrow exception for indefinitely confined voters.

This exception for voting absentee applies when voters are confined to their homes and declare themselves to be indefinitely confined. An elector who is indefinitely confined because of age, physical illness, or infirmity, or is disabled for an indefinite period may, by signing a statement to that effect, require that an absentee ballot be sent to the elector automatically for every election. There are two requirements to vote indefinitely confined. The voter must be indefinitely confined to their home, and the reason for this confinement must be the voter's age, physical illness, sickness, or disability. While one can indefinitely confine themselves to their home for any reason, that confinement does not qualify for an absentee ballot unless the confinement is for a statutory reason—not including a reasonable or unreasonable fear of becoming ill from COVID.

AMERICAN OVERSIGHT

This statute was grossly misconstrued by the Dane and Milwaukee County clerks. Both clerks issued statements that they would send absentee ballots to voters who were indefinitely confined to their homes because of a fear of contracting COVID. The Wisconsin Supreme Court corrected this legally erroneous statement. However, during the time the clerks made their announcement until the judiciary forced the clerks to stop their announcements, the number of newly designated indefinitely confined voters skyrocketed. The clerks did nothing to remove these voters or determine which voters met the true legal definition of "indefinitely confined." Instead, the clerks sent these registrants absentee ballots. In doing so, they not only gave ballots to unqualified indefinitely confined voters but skirted a very important protection for election fraud.

Voter identification is required for every ballot issued in Wisconsin except to the indefinitely confined voter.

Instead, the voter "may, in lieu of providing proof of identification, submit with his or her absentee ballot a statement . . . which contains the name and address of the elector and verifies that the name and address are correct." Wis. Stat. § 6.87. This feature of indefinitely confined voting was also abused. In one documented incident from the Dane County recount, a voter reported that he called the clerk's office and requested an absentee ballot. He was asked if he had identification that had his current address. Having just moved to the city, he responded that he had not obtained a new identification card. He was told not to worry, that he could still get a ballot by declaring himself to be indefinitely confined. Then, he was instructed to say that he would provide proof of his address by statement.

AMERICAN OVERSIGHT

The clerk's office said not only would it send him a ballot for the 2020 general election, but they would send him a ballot to his home every year after without his having to request the ballot and without the necessity for identification until he stopped voting or reported that he was no longer indefinitely confined. The voter, an honest individual, declined the clerk's suggestion and reported his experience.

This was not the only abuse of the indefinitely confined voting law. A flagrant example is that of State Senator Patricia Schachtner. Schachtner and her husband signed statements indicating that they were indefinitely confined voters for the November 2020 election and opted to receive absentee ballots pursuant to Wis. Stat. § 6.87(2). However, social media showed the Schachtner family to be active outside their home in the months prior to and during the election both for personal recreation and as Schachtner campaigned for reelection. Additionally, Schachtner was named to be a Presidential elector to cast electoral college votes for Biden at the Wisconsin Capitol on December 14, 2020, approximately one month after the election for which she was indefinitely confined.

This is an egregious violation of the indefinitely confined status. One cannot be confined to one's home for a length of time with no definite end because of age, physical illness or infirmity, or disability and also campaign for reelection, enjoy social and family life, and appear at the Wisconsin Capitol to vote. Clearly, Schachtner and her husband were not indefinitely confined to their home when she requested and cast her ballot in the 2020 election. Schachtner and many others failed to follow our election law and no enforcement action was taken.

AMERICAN OVERSIGHT

Our Republic and way of life is in danger if we fail to follow and enforce the law. The rule of law requires that legal rules be publicly known, consistently enforced, and even-handedly applied. Violating the rule of law can lead to uncertainty. Uncertainty provides opportunities for arbitrary power. Without the rule of law, citizens may be tempted to take justice into their own hands.

My investigation will determine why the clerks failed to act on their obligation to review and expunge from the voter rolls those claiming to be indefinitely confined voters when the clerk has "reliable information that [the] . . . elector no longer qualifies for the service." Wis. Stat. § 6.86(2)(b). I am concerned that the electors who claimed they were indefinitely confined, but were not physically ill, infirm, elderly, or disabled failed to take steps to remove themselves from that status prior to the November 3, 2020, election. *See* Wis. Stat. § 6.86(2)(a). I am even more concerned that ineligible voters might have taken advantage of that status in order to vote without the need to properly identify themselves. I expect to issue another report that includes the impact of indefinitely confined voting abuses and how the Legislature can prevent these abuses in the future to restore confidence in the rule of law.

AMERICAN OVERSIGHT

Chapter 9

Wards Under Guardianship Order Voted Unimpeded by Wisconsin's Election Officials as They Are Not Recorded in the WisVote Voter Database, Even Though the Circuit Courts Have This Information.

Wis. Stat. § 6.03 disqualifies from voting those citizens who are incapable of understanding the voting process or are under court-ordered guardianship, unless the court has determined that the right to vote is preserved. The statute states:

> 6.03 Disqualification of electors.
> (1) The following persons shall not be allowed to vote in any election and any attempt to vote shall be rejected:`
> (a) Any person who is incapable of understanding the objective of the elective process or who is under guardianship, unless the court has determined that the person is competent to exercise the right to vote.
> (b) Any person convicted of treason, felony or bribery, unless the person's right to vote is restored through a pardon or under s. 304.078 (3).
> (2) No person shall be allowed to vote in any election in which the person has made or become interested, directly or indirectly, in any bet or wager depending upon the result of the election.
> (3) No person may be denied the right to register to vote or the right to vote by reason that the person is alleged to be incapable of understanding the objective of the elective process unless the person has been adjudicated incompetent in this state. If a determination of incompetency of the person has already been made, or if a determination of limited incompetency has been made that does not include a specific finding that the subject is competent to exercise the right to vote, and a guardian has been appointed as a result of any such determination, then no determination of incapacity of understanding the objective of the elective process is required unless the guardianship is terminated or modified under s. 54.64.

The Help America Vote Act, section 21083, provides "if a State is described in section 4(b) of the National Voter Registration Act of 1993 (42 U.S.C. §§ 1973gg–2(b))

AMERICAN OVERSIGHT

[now 52 U.S.C. § 20503(b)], that State shall remove the names of ineligible voters from the computerized list in accordance with State law." Wisconsin is described in section 20503(b); so, section 21083 requires the state's election officials to follow state law on removal of ineligible voters from the computerized list. Accordingly, section 21083 requires that WEC remove the names of ineligible voters from the computerized list, WisVote, in accordance with Wisconsin law.

In Wisconsin, ineligibility information about wards under guardianship without the right to vote is available from the circuit courts. Information about persons who are incapable of understanding the objective of the elective process is available from family, friends, medical authorities and nursing homes.

Under federal law, WEC is legally required to include in WisVote ineligibility information about ineligible wards and incapacitated persons. WEC is also legally required under federal law to distribute to the State's municipal clerks lists of wards and incapacitated person so as to prevent these ineligible non-citizens from election day registration and voting.

In violation of its federal and state legal duties, Wisconsin election officials failed to prevent wards and incapacitated persons from voting in the 2020 Presidential election—casting doubt on the election result.

AMERICAN OVERSIGHT

Chapter 10

Non-citizens Voted Unimpeded by Wisconsin's Election Officials, as They Are not Recorded in the WisVote Voter Database, Even Though Wisconsin Law Requires Citizenship to Vote.

Wis. Stat. § 6.02 requires citizenship to be qualified as an elector. The statute states:

> 6.02 Qualifications, general.
> (1) Every U.S. citizen age 18 or older who has resided in an election district or ward for 28 consecutive days before any election where the citizen offers to vote is an eligible elector.
> (2) Any U.S. citizen age 18 or older who moves within this state later than 28 days before an election shall vote at his or her previous ward or election district if the person is otherwise qualified. If the elector can comply with the 28-day residence requirement at the new address and is otherwise qualified, he or she may vote in the new ward or election district.

Section 21083 of the Help America Vote Act provides "if a State is described in section 4(b) of the National Voter Registration Act of 1993 (42 U.S.C. §§ 1973gg–2(b)) [now 52 U.S.C. § 20503(b)], that State shall remove the names of ineligible voters from the computerized list in accordance with State law." Wisconsin is described in section 20503(b); so, section 21083 requires the state's election officials to follow state law on removal of ineligible voters from the computerized list. Accordingly, section 21083 requires that WEC remove the names of non-citizens, who are by definition ineligible voters, from the computerized list, WisVote, in accordance with Wisconsin law.

In Wisconsin, ineligibility information about non-citizens is available from the Department of Transportation. The Department of Transportation issues driver licenses to non-citizens who qualify. Under federal law, WEC is legally required to include in

AMERICAN OVERSIGHT

WisVote ineligibility information about non-citizens from the Department of Transportation. WEC is also legally required under federal law to distribute to the state's municipal clerks lists of non-citizens so as to prevent these ineligible non-citizens from election day registration and voting.

In violation of its federal and state legal obligations, Wisconsin election officials failed to prevent non-citizens from voting in the 2020 Presidential election—casting doubt on the election result.

AMERICAN OVERSIGHT

Chapter 11

Milwaukee, Madison, Racine, Kenosha, and Green Bay Election Officials May Have Violated the Federal and Wisconsin Equal Protection Clauses by Not Treating All Voters Equally in the Same Election.

Importantly, the Zuckerberg 5 election officials violated Federal and Wisconsin Equal Protection Clauses by not treating all voters the same in the same election. Treating all voters equally in the same election is a bedrock principle of election law.

The public record shows that the public's right to vote was unjustifiably burdened by the Zuckerberg 5 targeting geographic and demographic groups for increased voting. The Zuckerberg 5's conduct promoting voting for certain voter groups affected election outcomes—as concluded by WILL's 2021 analytical report. The Zuckerberg 5 in the WSVP crossed the line between election administration and campaigning and that never should have never occurred.

The appropriate standard of review for Equal Protection Clause analysis is Anderson-Burdick scrutiny for the disparate treatment of voters and, also, here, strict scrutiny of the government's rationale. When a plaintiff alleges that a state has burdened voting rights through the disparate treatment of voters, the legal standard used is generally found in *Anderson v. Celebrezze*, 460 U.S. 780 (1983) and *Burdick v. Takushi*, 504 U.S. 428 (1992). *See also Clements v. Fashing*, 457 U.S. 957, 965

AMERICAN OVERSIGHT

(1982). Although *Anderson* and *Burdick* were both ballot-access cases, the Supreme Court has confirmed their vitality in a much broader range of voting rights contexts. *See Crawford v. Marion Cnty. Election Bd.*, 553 U.S. 181, 204 (2008) (Scalia, J., concurring.) ("To evaluate a law respecting the right to vote—whether it governs voter qualifications, candidate selection, or the voting process—we use the approach set out in Burdick.... "). The *Burdick* Court stated the standard as follows:

> A court considering a challenge to a state election law must weigh "the character and magnitude of the asserted injury to the rights protected by the First and Fourteenth Amendments that the plaintiff seeks to vindicate" against "the precise interests put forward by the State as justifications for the burden imposed by its rule," taking into consideration "the extent to which those interests make it necessary to burden the plaintiffs' rights."

Burdick, 504 U.S. at 434, (quoting *Anderson,* 460 U.S. at 789). This standard is sufficiently flexible to accommodate the complexities of state election regulations while also protecting the fundamental importance of the right to vote. *Obama for America v. Husted*, 697 F.3d 423, 428–30 (6th Cir. 2012). There is no "litmus test" to separate valid from invalid voting regulations; courts must weigh the burden on voters against the State's asserted justifications and "make the 'hard judgment' that our adversary system demands." *Crawford,* 553 U.S. at 190 (Stevens, J., announcing the judgment of the Court).

Similar to the federal constitution, Wisconsin's Constitution requires equality from the government, including the Zuckerberg 5 when it takes on a government function:

> Equality; inherent rights. Section 1. All people are born equally free and independent, and have certain inherent rights; among these are life, liberty

AMERICAN OVERSIGHT

> and the pursuit of happiness; to secure these rights, governments are instituted, deriving their just powers from the consent of the governed.

Art. I, sec. 1. The same legal standard of review applies for state constitutional claims.

The *Anderson–Burdick* standard, therefore, applies.

Additionally, when a state's classification "severely" burdens the fundamental right to vote, strict scrutiny is the appropriate standard. *Burdick,* 504 U.S. at 434 (1992). The federal courts "have long been mindful that where fundamental rights and liberties are asserted under the Equal Protection Clause, classifications which might invade or restrain them must be closely scrutinized and carefully confined." *Harper v. Va. Bd. of Educ.,* 383 U.S. 663, 670 (1966). Here, it is the CTCLs private funding of the Zuckerberg Plan's governmental classifications that treat voters differently in the same elections, which triggers strict scrutiny.

Nothing could be more repugnant to democracy than private corporations paying to increase voting access for targeted demographic groups, so that they can manipulate election outcomes—something that will occur repeatedly under the auspices of the WSVP provisions. Private corporations were paying money to affect the election outcome. So strict scrutiny must apply when private funding of election administration targeting voter groups is involved—because the credibility of our federal elections is at stake

Additionally, in *Bush v. Gore*, the U.S. Supreme Court emphasized that equal protection restrictions apply not only to the "initial allocation of the franchise," but "to the manner of its exercise" as well. *Bush*, 531 U.S. 98, *at* 104 (2000). The State may not subject voters to "arbitrary and disparate treatment" that "value[s] one person's vote over that of

AMERICAN OVERSIGHT

another." *Id.* This equal protection prohibition on "arbitrary and disparate treatment" of different voters participating in the same election is what at least one commentator calls *Bush's* "Uniformity Principle." Michael T. Morley, *Bush v. Gore's Uniformity Principle and the Equal Protection Right to Vote,* 28 Geo. Mason L. Rev. 229 (Fall 2020).

Courts have applied the Uniformity Principle to intentional discrimination concerning in-person voting opportunities. For example, in *Obama for America v. Husted,* 697 F.3d 423 (6th Cir. 2012), the Sixth Circuit held that it was unconstitutional for the State of Ohio to allow only domestic military voters to cast ballots in person over the weekend before Election Day. *Id.* at 437. The court noted that, although military voters can face unexpected emergencies that prevent them from voting in person on Election Day, other voters may face similar contingencies:

> At any time, personal contingencies like medical emergencies or sudden business trips could arise, and police officers, firefighters and other first responders could be suddenly called to serve at a moment's notice. There is no reason to provide these voters with fewer opportunities to vote than military voters .... *Id.* at 435. The court concluded that the Equal Protection Clause therefore prohibited the state from making special accommodations only for military voters. *Id.* at 436. The court added that it would be "worrisome ... if states were permitted to pick and choose among groups of similarly situated voters to dole out special voting privileges."
>
> *Id.* at 435.

Similarly, the Zuckerberg 5's WSVP was their collective effort "to pick and choose among groups of similarly situated voters to dole out special voting privileges"—which, when the Zuckerberg 5 is taking on a government function, violates the Equal Protection

AMERICAN OVERSIGHT

Clause. *Id.* at 435. Accordingly, a post-certification administrative correction for the 2020 Presidential election should be made that the Zuckerberg 5 violated the federal and state Equal Protection Clauses.

AMERICAN OVERSIGHT

Chapter 12

Recommendations

As noted above, OSC respectfully submits the following recommendations to the Wisconsin Assembly for its consideration, and its staff is pleased to provide additional information, testimony, and technical assistance. These recommendations fall into two categories: those facilitating transparency, and those facilitating political accountability. However, there is a strong positive synergy between the two goals: *i.e.*, the more transparent a process, the more politically accountable, and vice versa.

The OSC also submits a number of recommendations for WEC, as currently constituted, and for clerks. As the Administrator of WEC has noted, however, advice from WEC does not provide a legal safe harbor for clerks, and neither does advice from the OSC or any other merely persuasive authority in this area. Ultimately, it is incumbent upon the approximately 1,852 municipal clerks, the primary agents of election supervision in the State, to consult with their available counsel and make their own independent legal determinations in every case.

Legislative Recommendations to Serve Transparency

1. **Eliminate the Wisconsin Elections Commission**. As outlined in the Interim Report and above, replacing the disgraced and abolished Government Accountability Board with WEC has continued many of the same abuses of secrecy and confusion. The staff remains deeply connected to special interest groups and fails to adequately respond to voter and clerk complaints. Its biennial appropriation is over $10 million, money which could be spent to

AMERICAN OVERSIGHT

support municipal and county clerk operations. In addition, as its Administrator has noted, WEC provides no authoritative legal safe harbor for clerks: eliminating WEC would help clarify the constitutional and statutory authority of popularly elected officials and the voters in handling election matters. Any functions of WEC that might arguably be required by various federal laws could lawfully be handled by an empowered executive branch office of the Secretary of State, or by a collective body of county clerks themselves, or by some other structure. Currently, Wisconsin is only one of two States with a politically unaccountable bureaucracy tasked with providing guidance in election administration.

2. **Eliminate or Reduce Fees for Voter Registration Data**. Currently, voter registration information, including addresses, names, and voter history, are available for purchase. WEC sells that information for $12,500. However, this information is not available in real-time and, worse yet, the fees are waived by contract with special interest groups. This fee should be eliminated or reduced by statute to a token fee (say, $40 as it is in Arizona) to put all citizens on equal footing, and to allow for citizens to help keep the system up-to-date. It is important that the names and addresses of those who voted—with certain exceptions—are made freely available so that anyone so interested could compare, at no, or low cost, the names and addresses of those eligible to vote with those who, in fact voted. This would remove much of the opacity of the current system and bolster public faith in elections.

3. **Maintain a Single Statewide Voter Registration Database, and Make it Publicly Available and Secure**. As it stands, Wisconsin maintains several competing sets of interlocking databases and access systems. Clerks have noted that they were often given

AMERICAN OVERSIGHT

superfluous sets of access keys, and that these systems are theoretically accessible out of state or out of the United States. WEC has also complained to the Assembly that providing comparisons between data sets on certain dates is extremely expensive. Making the information publicly available would place all individuals and parties on an equal footing and allow academic institutions (for example) to compare data sets over time. This would facilitate data quality and transparency with no cost to voter privacy.

1. **Set Up An Office to Engage in Auditing and Oversight of Elections**. Currently, there is no office in the State of Wisconsin with an ongoing charge to audit elections, or to systematically intake and respond to citizen complaints. The Legislature could consider setting up an office whose role is distinct from the Legislative Audit Bureau (LAB) and which merely undertakes periodic and random auditing of elections in various jurisdictions and delivering those results to the Legislature. This should professionalize and standardize oversight and facilitate long-term improvement and data quality. In addition, the Legislature could consider appropriating funds to enable the Attorney General to vigorously engage in investigation and prosecution of election law violations.

2. **Standardize a Process for Post-Election Contest**. Inevitably, elections will be contested. The Legislature should consider reviewing remedies to enable losers of elections to audit a small number of wards for a nominal cost, or for free. It should consider other remedies, including injunctive relief, to preserve the *status quo* while electoral contests are investigated.

3. **Prohibit Certain Contractual Terms in Government Contracts**. The Legislature should consider prohibiting certain vendor contractual terms as a matter of public policy.

AMERICAN OVERSIGHT

For example, it should limit the use and release of sensitive voter data by vendors. It should prohibit terms that block Wisconsin governmental entities from obtaining or releasing data they paid for. And it should prohibit contracting with entities that do not timely respond to governmental requests for information, such as valid criminal or legislative subpoenas.

4. **Minimize Pre-Voting**. It is evident that widespread use of absentee and absentee-in-person voting renders public participation and oversight of counting impossible. Guidance by WEC "enabling" clerks to open envelopes prior to the statutorily mandated deadline denies citizens their right to observe that process. If public oversight of absentee voting is too burdensome, a better option is to prioritize traditional, in-person voting.

5. **Encourage In-House Technical Support**. Each clerk OSC spoke with made clear that their office simply does not have the technical ability to service various electronic voting machines. They simply do not and cannot understand how the various machines work. In the past, municipal public works departments maintained expertise in servicing analog machines. The Legislature should consider funding a program to bring technical expertise in-house, including considering a single state-wide machine system or single-client vendor.

6. **Exit the Electronic Registration Information Center (ERIC)**. The State of Wisconsin pays this outside group six figures per year to assist it in cleaning up our voter rolls, but receives little to no benefit from it. In fact, as was recently noted in testimony before the Assembly, the contract with ERIC ties the hands of election officials in numerous ways. The State can seek lawful, bilateral agreements with States to ensure only lawful voters are on the rolls, without the concerns about partisanship.

AMERICAN OVERSIGHT

Legislative Recommendations to Serve Political Accountability

1. **Provide a Method in Law for Private Challenge to Wisconsin Voter Rolls.** As it stands, there is no clear method for individuals with facial evidence of inaccurate voter rolls to enter state court and seek to fix that problem. The Assembly could consider various legal methods to enable citizens or civil rights groups to help maintain election database integrity in this way. Such a cause of action should take into account administrative burdens, and could even provide nominal rewards for successful voter roll challenges.

2. **Locate Certification of Presidential Electors in a Politically Accountable Body**. In 2020, the presidential electors were certified by a single member of WEC and the Governor. As a political action, certification of electors cannot be subject to the whim of the courts, or purely legal processes. Legitimate contests have occurred in the past and will occur again. To ensure widespread bipartisan confidence in the system, state law should explicitly authorize the contingent creation by campaigns of alternative slates of electors, and could consider penalties for certain actions of those alternates if results are not contested. In the event of widespread contest, the thumb should be on the scale in favor of withholding certification of electors. As noted in the Interim Report, "Hasty certification of electors in a tightly contested election may disenfranchise voters to the same extent as missing a deadline and failing to certify electors at all. While hasty certification may violate the state constitutional duties of the Legislature, delaying certification of electors until resolution of relevant issues does no such violence to our legal system." Finally, placing certification of electors in a politically accountable body, such an association of elected county clerks, could restore confidence in the results of even a closely contested

AMERICAN OVERSIGHT

presidential contest in the State.

3. **Provide a Method for Pre- and Post-Certification Challenges to Presidential Elections.** As noted in Appendix II, certification of electors in a Presidential election is a quintessentially political act, delegated by the state and federal constitutions to our elected state Legislature. However, the Legislature can consider establishing processes for standardizing challenges both pre-and post-certification. Such processes might establish administrative or legal rights, or establish opportunities to raise or expedite decertification procedures on the floor of the Assembly or Senate. The Legislature might also consider formalizing the ability of candidates to assemble alternative slates of electors, to ratify an already lawful process.

4. **Prohibit Outside Funding and Staff in Elections Administration**. OSC concurs in the recommendation of numerous clerks that outside money be prohibited in the administration of Wisconsin elections. Our State has a deep, progressive history and is suspicious of private entities engaging in governmental activity. Clerk's offices should be (and in 2020 were) adequately funded by state and federal entities, as appropriate, but outside grants should be disfavored or prohibited, especially where those grants have any conditions on them. Further, outside volunteers and observers should all be treated on equal footing.

AMERICAN OVERSIGHT

Recommendations for the Wisconsin Elections Commission

(as currently constituted)

1. **Comply with Legislative Audit Bureau Recommendations**. In particular, promulgate statutorily required administrative rules prescribing the contents of training that municipal clerks provide to special voting deputies and election inspectors; eliminate all statutorily non-compliant guidance.

2. **Enter Into Data-Sharing Agreement with Wisconsin Department of Transportation**. In particular, execute with the Department of Transportation a new written data-sharing agreement that includes provisions for verifying the information provided by individuals who register to vote by all methods and that specifies the procedures for verifying this information; establish a system to regularly review and update the data-sharing agreement; and comply with statutes by working with the Department of Transportation to obtain the electronic signatures of individuals who register online to vote. An enforcement mechanism to align the data, such as by citizen suit, perhaps accompanied by a small monetary bounty, would also be a useful supplement to this reform.

1. **Enter Into Data-Sharing Agreement with Wisconsin Department of Health Services**. In order to ensure that our most vulnerable are not exploited, and to facilitate accurate voter rolls, WEC should work to execute a new written data-sharing agreement with the Department of Health Services and establish a system to regularly review and update the data-sharing agreement. Again, a citizen suit and bounty reform could be added on here as well to ensure data-sharing occurs properly.

AMERICAN OVERSIGHT

2. **Enter Into Data-Sharing Agreement with Wisconsin Department of Corrections (DOC)**. In order to ensure that only eligible voters are registered, WEC should work with DOC to execute a new data-sharing agreement and implementation system. Again, a citizen suit and bounty reform could be added on here as well to ensure data-sharing occurs properly.

3. **Provide Additional Training to Clerks**. If there is one function that an independent election administration can perform well, it is training. WEC should consider providing additional training to clerks along several dimensions: providing training for clerks related to machine certification, security, and statutorily mandated pre-election testing; training related to reviewing Election Day forms after each election and investigating relevant issues, including those related to tamper-evident seals; and training on ensuring that ballots are counted accurately when paper jams occur in electronic voting equipment.

Recommendations for Clerks

1. **Familiarize Yourself with Your Wisconsin Code Authority**. Surprisingly, many clerks have expressed to the OSC that they are under the impression that WEC guidance is binding, even when they believe such guidance (say, on drop boxes) is unlawful. Clerks and whatever counsel they have available should review their authority ahead of any conflict.

2. **Make Independent Assessments**. In circumstances where WEC guidance is contrary to law, clerks are empowered to make independent assessments, as they are the elected officials responsible for elections administration. As the Administrator of WEC has noted,

AMERICAN OVERSIGHT

WEC guidance provides no legal safe harbor or immunity for clerks: it is true that clerks are on the legal hook for their own assessments, and should develop good relationships with corporate or outside counsel.

3. **Carefully Review Outside Contracts**. Clerks and other election officials should be careful not to enter into contractual arrangements with outside groups that do not serve the public interest, even when these agreements sound attractive or come with funding grants. As we saw in 2020, these contracts can be leveraged to coerce election officials and cause them to violate their oaths of office. When clerks do enter into outside contracts, they should endeavor to make those contracts public in their entirety. In the interests of transparency, clerks should endeavor to obtain comparable contracts, and donor lists, from nonprofits before engaging them.

4. **Explicitly Prohibit Your Staff from Engaging in Get-Out-The-Vote (GOTV) Operations**. In 2020, we did see widespread GOTV operations engaged in by municipal clerk's offices. This is inappropriate, as GOTV is a partisan activity, historically (and currently) engaged in by candidates and their parties. Staff should be apprised that even when described as "voter education," encouraging voting by any group is not the duty of a busy and potentially underfunded clerk's office.

5. **Consider Robust Voter Roll Review in Your Jurisdiction**. County and municipal clerks are responsible for maintaining the integrity of the voting rolls. Even in election years, federal law does not prohibit Wisconsin officials from removing ineligible voters from the rolls.

AMERICAN OVERSIGHT

6. **Maintain An Exhaustive and Clear List of Election Day Personnel**. Under Wisconsin law, there are two classes of person on election day: election workers, and the general public. There is no third category. Election workers are bound by legal and ethical norms. Do not permit unauthorized individuals to operate under the color of state law.

7. **Catalog All Absentee Ballots Sent Out and Match These with Ballots Returned.** Some voters have reported receiving as many as four absentee ballots leading up to the November 3, 2020 election.

8. **Do Not Engage in Ballot Curing for Absentee Ballots Missing Requisite Voter Data.** Neither state nor federal law mandate curing ballots that are legally incomplete: clerks can take reasonable efforts to contact voters to remedy seemingly minor defects, but should be mindful of their own resources and state law.

AMERICAN OVERSIGHT

Chapter 13

Conclusion

As noted at the outset, this Report by no means represents a "full audit" of the 2020 elections in the State of Wisconsin. Instead, it represents a snapshot of various issues identified by the OSC, other governmental actors, and citizens in the State, and makes a number of recommendations to fix them. Without full transparency by governmental actors, without a fully equipped office to investigate, and without time, some degree of triage by OSC was necessary. A full audit would undoubtedly take a look not just at evidence of major issues and draw inferences, but would take a comprehensive look at election processes, contracts, and machines, to stress test and run other technical reviews. This office has engaged with outside contractors and entered preliminary steps in the government procurement process. However, these auditors have let us know that without full access to information, they are unable to provide robust conclusions.

Again, as discussed by the Committee of Jurisdiction and the Speaker in public, the work of the Office of the Special Counsel is just getting started. The Office will remain authorized during the pendency of litigation to ensure that once the Wisconsin Supreme Court vindicates the right of the people to know what their own government is up to, we can expeditiously run necessary tests.

In the meantime, the major issues identified with compliance and oversight, especially at a time when the federal Congress is making known that legislative oversight is critical to lawmaking, are themselves cause for concern. The Special Counsel hopes that

AMERICAN OVERSIGHT

the Assembly and the public can continue to fight to hold our election administration accountable and to ensure it is secure and efficient.

Finally, the Special Counsel would like to thank the concerned citizens and citizen groups, the numerous clerks and other public servants who have cooperated with the investigation, and the staff, contractors, and partners of the OSC and Assembly for their hard work and dedication to improving our democratic system.

AMERICAN OVERSIGHT

Appendix I: Litigation Summary

As noted throughout, this Report regarding the administration of the 2020 election in Wisconsin is incomplete because the Office of the Special Counsel has received little to no cooperation in its investigation from the government officials and others that were responsible for conducting the election. As part of its investigation, the OSC has sent out ninety subpoenas for witness testimony. While we have conducted numerous interviews with voluntary witnesses, including governmental witnesses, due to public pressure from the Governor and out-of-state actors, word has gone out that the government does not need to respond to the elected Assembly. Instead, the OSC has been embroiled in litigation relative to those subpoenas since late 2020.

1. Dane County Case Number 2021CV002552, *Wisconsin Elections Commission et al. vs. Wisconsin State Assembly et al.*

On October 21, 2020 WEC and its Administrator—Meagan Wolfe—sued the OSC and the Wisconsin Assembly in Dane County Circuit Court seeking an order that OSC subpoenas with which they had been served were invalid as impinging upon her personal rights. In doing so, WEC aims at the authorized mission of the OSC to investigate whether officials "have failed to adhere to our election laws by, at various times, ignoring, violating, and encouraging noncompliance with bright-line rules established by the statutes and regulations governing the administration of elections in Wisconsin."

Notably, WEC took the unprecedented step of employing the Wisconsin Department of Justice as its attorneys in the lawsuit against the OSC and the Assembly.

AMERICAN OVERSIGHT

Until this lawsuit, never before in the history of the State had one arm of the executive branch of Wisconsin's state government (WEC) used another arm of the executive branch (the DOJ) to seek a ruling from a separate branch (the judiciary) that an action by a third branch of state government was invalid and unenforceable (the subpoenas issued by OSC via the Assembly). In short, taxpayer money is being used by the Attorney General to block routine oversight by the duly-elected legislative body in the State, leading to a great waste of taxpayer money.

On October 25, 2021, the Attorney General lost, as Dane County Circuit Court Judge Rhonda Lanford ruled that WEC was not entitled to an emergency injunction invalidating the subpoenas or preventing OSC from seeking to enforce them. After further litigation, on January 10 2022, Judge Lanford ruled that while WEC did have the authority to bring the lawsuit and it would not be dismissed outright, WEC had not established that it was entitled to a temporary or permanent injunction against enforcement of the subpoenas. The matter was held open for further proceedings to address the WEC's overall complaint that the subpoenas are an invalid exercise of legislative authority.

Since that time, WEC has filed an Amended Complaint setting forth additional facts in support of its claims that the subpoenas are invalid, and other parties have sought to intervene and participate in the matter. A hearing is scheduled for March 17, 2022 on the proposed intervention of these other parties, but there is no other scheduled court activity.

In the meantime, neither WEC or Ms. Wolfe have voluntarily agreed to present their testimony to the OSC. It is likely that unless and until the matter is resolved by the Dane

AMERICAN OVERSIGHT

County Circuit Court (and then all potential appeals are exhausted) the subpoenas for WEC and Ms. Wolfe will remain unsatisfied.

2. Waukesha County Case Number 2021CV001710, *Michael J. Gableman vs. Eric Genrich et al.*

Among the parties that have been subpoenaed for their testimony are the Mayor of Green Bay—Eric Genrich—and the Mayor of Madison—Satya Rhodes-Conway. In response to subpoenas with which they were served, the mayors did provide some documents that were requested, but at the same time neither agreed to appear to testify as required by the subpoenas. As a result, the OSC was put in a position of having to seek judicial assistance to direct that the mayors provide that testimony.

To do so, the OSC filed petitions for "writs of assistance" from the Waukesha County Circuit Court to require the mayors to appear and give the required testimony. A judicial writ of assistance is provided for by Wisconsin's statutes. When a judge issues one, a witness must appear for testimony required by a subpoena. If the witness does not, the judge may order that the recalcitrant witness be subjected to punitive action, up to and including incarceration. However, before that can happen, the witness has the opportunity to appear before the court and argue that he or she is excused from appearing because the subpoena is invalid or for any number of other reasons.

The OSC filed for writs of assistance in Waukesha County Circuit Court as the statute setting forth the procedure for obtaining such writs commands that the writ be

AMERICAN OVERSIGHT

sought "in the county where the person was obliged to attend." Wis. Stat. § 885.12. As the mayors' testimony was compelled by the subpoenas to occur in Waukesha County, the OSC was mandated to seek writs of assistance from the Waukesha County Circuit Court.

Before there was any substantive court appearance or action of any kind, Mayor Genrich appeared in the action represented by two law firms—Stafford Rosenbaum. LLP and Law Forward, Inc. Stafford Rosenbaum is a Madison-based law firm with over 50 attorneys, and Law Forward is an "impact litigation firm committed to protecting and advancing democracy and to restoring Wisconsin's pragmatic progressive tradition." Law Forward has a "Legal Advisory Council" that is comprised of, among others, prominent Democrat politicians, including former United States Senator Russ Feingold, and former Lt. Governor Barbara Lawton. There are no current or former elected officials on Law Forward's advisory council that identified as Republican over the course of their respective careers. There are also several attorneys on the Council that have written about, and advocated for, progressive political causes, but none that appear to have ever advocated for conservative ones.

Mayor Genrich is now additionally represented by two more attorneys—Aaron Scherzer and Christine P. Sun. Mr. Scherzer and Ms. Sun are associated with the "States United Democracy Center," an organization whose professed mission is "advancing free, fair, and secure elections," focusing on "connecting State officials, law enforcement leaders, and pro-democracy partners across America with the tools and expertise they need to safeguard our democracy."

AMERICAN OVERSIGHT

Mayor Rhodes-Conway appeared by two lawyers for the City of Madison.

At the very outset, the mayors' attorneys portrayed the actions of the OSC as—

3. "lacking in legal merit;"
4. a "gross distortion of the relevant facts" and "a gross mischaracterization of the facts;"
5. "departing so greatly from legal standards" so that the Special Counsel should be sanctioned by the Court;
6. "an abuse of process;" and
7. "a bad-faith effort to publicly harass local officials with no legal basis."

None of these statements are remotely true, of course, but the OSC has been forced to respond to these scurrilous accusations both in the press and in court.

Shortly afterward, the representatives of WEC and the mayors began "cross-pollinating" the Dane County matter with the Waukesha County matter by filing letters with the respective courts smearing the OSC and improperly attempting to influence the respective judges. The Wisconsin Department of Justice filed a letter in the Waukesha County matter, arguing that the subpoenas were invalid and that the validity of the subpoenas addressed to the mayors would be addressed in large part by the court in the Dane County matter discussed above. In addition, mayor Genrich's representatives attempted to influence the outcome of the Dane County matter by filing a letter with that court arguing that the OSC had made "misrepresentations" to the Waukesha County court and that the subpoenas were "unauthorized, quasi-depositions of mayors and elections officials throughout Wisconsin."

AMERICAN OVERSIGHT

As of this writing, written briefs are being submitted to the Court regarding the following inquiries submitted by the Court:

1. The Court's authority to issue the writs;
2. The correct procedure to follow; and
3. The factual basis of the writs.

A hearing is scheduled on those issues on April 22, 2022. While the Court has asked that these issues be addressed, it is only a preliminary inquiry. The Court has additionally stated that it will not be addressing the actual issuance of the writs or whether the mayors have a reasonable excuse for their failure to comply with the subpoenas. Those issues will be addressed subsequently.

As with the Dane County matter, the Waukesha County matter is nowhere near resolution. First, all issues will need to be addressed by the Circuit Court judge, and then it is likely that any decision will be appealed up to the Wisconsin Supreme Court (and potentially the United States Supreme Court). In the meantime, as with WEC and Ms. Wolfe, neither mayor has voluntarily agreed to give testimony, and it is likely their subpoenas will remain unsatisfied until the conclusion of all litigation.

1. Dane County Case Number 2021CV003007, *American Oversight vs. Assembly Office of Special Counsel et al.*

In addition to the above, the OSC has been forced into litigation over issues surrounding the voluminous requests for documents it has received pursuant to Wisconsin's Open Records law. While these requests and the attendant litigation have not

AMERICAN OVERSIGHT

directly affected the OSC's ability to obtain necessary information—as the lack of cooperation and litigation over the subpoenas has done—at the same time, it has strained the OSC's resources and indirectly affected the OSC's work in a very significant way.

In Dane County Case Number 2021CV003007, a group called American Oversight has sued the OSC, along with the Wisconsin State Assembly, Speaker of the Assembly Robin Vos, and Wisconsin State Senate Sergeant-at-Arms Edward Blazel over purportedly insufficient responses to requests made to the OSC and the other defendants under Wisconsin's Open Records law.

Before the work of the OSC has finished, or even begun in large part, American Oversight has referred to the OSC's efforts on behalf of the Assembly as "baseless," that the OSC is "perpetuating Trump's big lie that the election was somehow stolen," and that the real purpose of the OSC's work is to "create a pretext for enacting new restrictions on voting rights."

Pursuant to their efforts to establish their narrative prior to the work of the OSC coming to fruition, American Oversight has served numerous open records requests upon the OSC, including the following—

2. A September 15, 2021, demand for all "organizing materials," of the OSC, including contracts, agreements, scopes of work, and other documents related to the "scope of investigative authority" of the OSC;

3. A September 15, 2021, demand for all "work product" materials, including "interim reports, analyses, notifications, or other work product produced or collected by individuals or entities under contract to investigate" the November 2020 election, or any other;

AMERICAN OVERSIGHT

4. A September 15, 2021, demand for all "communications" between "former justice Michael Gableman, or anyone communicating on his behalf, such as an administrative assistant, or any individual designated or engaged as an investigator, including, but not limited to Steven Page, and (ii) any other contractor or agent of the Wisconsin Assembly charged with investigating the November 2020 election," as well as all "calendar entries" maintained by any investigators;

5. An October 15, 2021 demand for "external communications" between the OSC and a list of 30 individuals and/or entities;

6. An October 26, 2021, demand for "organizing materials" similar to the one served in September of 2021;

7. An October 26, 2021, demand for "work product" similar to the one served in September of 2021; and

8. An October 26, 2021, demand for "communications" similar to the one served in September of 2021.

All of the above open records requests are currently part of the litigation pending in Dane County.

In addition, American Oversight has served four additional open records requests, dated January 18, 2022, and February 1, 2022, that are still being processed by the OSC, and are not part of any litigation as of yet.

Beyond those served by American Oversight, the *Milwaukee Journal Sentinel*, via reporter Patrick Marley, served an open records request dated February 7, 2022, in which the following records were demanded:

— The call log showing all calls to and from all cell phones used by Gableman;

—The call log showing all calls to and from all cell phones used by any of Gableman's staff (including direct employees, contractors and subcontractors);

— All paper and electronic calendars for Gableman;

AMERICAN OVERSIGHT

— All emails and/or text messages between Gableman and Rudy Giuliani;

— All emails and/or text messages between Gableman and John Eastman;

— All emails and/or text messages between Gableman and Phill Kline;

— All emails and/or text messages between Gableman and Erick Kaardal;

— All emails and/or text messages between Gableman and Phil Waldron;

— All emails and/or text messages between Gableman and James Troupis;

— All emails and/or text messages between Gableman and Kenneth Chesebro;

— All emails and/or text messages between Gableman and David Clarke;

— All emails and/or text messages between Gableman and Rep. Janel Brandtjen;

— All emails and/or text messages between Gableman and Rep. Timothy Ramthun;

In addition, I am requesting the following documents since Sept. 28, 2021:

— All emails and/or text messages between Gableman and Robin Vos;

— All emails and/or text messages between Gableman and Reince Priebus;

— All emails and/or text messages between Gableman and Nick Boerke;

— All emails and/or text messages between Gableman and Andrew Kloster;

— All emails and/or text messages between Gableman and Harry Wait;

— All emails and/or text messages between Gableman and Gary Wait;

— All emails and/or text messages between Gableman and Peter Bernegger;

— All emails and/or text messages between Gableman and Jefferson Davis;

— All emails and/or text messages between Gableman and Mike Lindell;

— All emails and/or text messages between Gableman and Steve Bannon;

— All emails and/or text messages between Gableman and Seth Keshel;

— All emails and/or text messages between Gableman and Shiva Ayyadurai;

AMERICAN OVERSIGHT

— All emails and/or text messages between Gableman and Ron Heuer;

— The computer security protocols for the Office of Special Counsel;

— Transcripts of witness interviews;

— Audio and/or video recordings of witness interviews;

— All submissions to wifraud.com.

The Special Counsel believes in governmental transparency and is making every effort to comply with the above demands.

However, including the Special Counsel himself, the OSC has a full-time staff of two persons. It also has five part-time staff members consisting of four attorneys and an investigator. Simply responding to these voluminous open records requests is a task that has taken up a tremendous amount of staff time. In addition, the Assembly has engaged outside counsel to defend the American Oversight lawsuit and will likely have to hire counsel to defend further lawsuits if the responses provided to the outstanding demands do not satisfy American Oversight or the *Milwaukee Journal Sentinel*.

While the OSC will continue to see that its duties under Wisconsin's open records law are fulfilled, doing so has, and will continue to materially hamper the ability of the OSC staff to address the substantive issues with which it was charged with investigating and reporting upon to the Wisconsin State Assembly.

AMERICAN OVERSIGHT

Appendix II: Decertification and the Electoral Count Act

Certification of electors in a state is a quintessentially political act, delegated by the United States Constitution to state legislatures, which may voluntarily adopt revocable and defeasible rules to guide the process. Wisconsin election law does not explicitly authorize the decertification of electors. But neither does it prohibit it. For this reason, the U.S. Constitution and the gap-filling common law against which backdrop the federal and Wisconsin Constitutions were adopted provide the ultimate guidance. And under those two documents, it is clear that the Wisconsin Legislature could lawfully take steps to decertify electors in any Presidential election, for example in light of violations of state election law that did or likely could have affected the outcome of the election. Furthermore, notwithstanding the current debate over amending the federal Electoral Count Act, the supreme responsibility for running state elections in Wisconsin is vested in our state Legislature—not any other state instrumentality, and not the federal government.

The U.S. Constitution provides in relevant respect that "Each State shall appoint, *in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress* ...." U.S. Const., art. II., § 1, cl. 2. This is a direct delegation to each state legislature. It is not a delegation to the Wisconsin Governor (or WEC) *and* its Legislature. The Framers knew how to delegate to, respectively, state legislatures or state executives, or to both acting concurrently. *Compare, e.g., id. with id.* at art. IV, § 4 ("The United States shall guarantee to every State in this Union a Republican Form of Government, and shall

AMERICAN OVERSIGHT

protect each of them against Invasion; *and on Application of the Legislature, or of the Executive* (when the Legislature cannot be convened) against domestic Violence.") (emphasis added) *and id*. at XVII amend. ("When vacancies happen in the representation of any State in the Senate, *the executive authority of such State* shall issue writs of election to fill such vacancies: *Provided, That the legislature of any State may empower the executive thereof* to make temporary appointments until the people fill the vacancies by election as the legislature may direct.") (emphases added).

The direct constitutional delegation to state legislatures here operates as a "plenary" power. *See McPherson v. Blecker*, 146 U.S. 1, 35 (1892); *see also Bush v. Gore*, 531 U.S. 98, 104 (2000) ("The State, of course, after granting the franchise in the special context of Article II, can take back the power to appoint electors."). Pursuant to that plenary power, it is true that after 1824 most state legislatures began to delegate, in effect, their plenary power to *a process of popular selection of the presidential electors* carried out under a suite of state law provisions. Yet, as applied here, these delegations and self-imposed statutory processes by the Wisconsin legislature are not irrevocable. An election of presidential electors that violates Wisconsin (or any other state legislature's relevant laws) is both void and voidable.

This Report has documented not just one, but a great collection of Wisconsin election law violations. As a political matter, the actions of state actors certifying electors in any Presidential election can be reconsidered as the Wisconsin Legislature sees fit using its plenary power under Article II of the federal Constitution, as recognized in *McPherson*

AMERICAN OVERSIGHT

and *Bush v. Gore*. Indeed, *McPherson* noted that "there is no doubt of the right of the legislature to resume the power *at any time*." *McPherson*, 146 U.S. at 35 (emphasis added).

The process of presidential elections can be conceived of as having five steps: (1) certification pursuant to state law; (2) the arrival of the "safe harbor" date specified in the Electoral Count Act ("ECA"), 3 U.S.C. § 5, purporting to make "conclusive" the determination of election contests in the courts "or other methods and procedures" before that date; (3) the date when state-certified electors meet and cast their votes in their respective States; (4) the opening by the Vice President and counting of electoral votes pursuant to the ECA, 3 U.S.C. § 15, on January 6 of the year following a presidential election; and (5) the inauguration of the President on January 20 of that same year at noon, per the Twentieth Amendment to the Constitution. However, that Article II of the U.S. Constitution assigns to Congress only the power to "determine the Time of chusing the Electors, and the Day on which they shall give their Votes; which Day shall be the same throughout the United States." Hence, the relevance of the ECA should not be overstated. The powers to set the time for choosing electors and the day thereof is not the power for Congress to override the plenary power of state legislators to select the State's electors or to act to correct mistakenly certified electors who were certified only because state law was violated in the process.

Two legal analyses from Legislative Council and the Legislative Reference Bureau argue that various events on that five-step process timeline, coupled with silence or the lack of specificity in various sources of law, means that state legislatures cannot decertify.

AMERICAN OVERSIGHT

This logic of those pieces is defective. They ignore the full logical implications of the "plenary" power of the state legislatures to act "at any time" to determine proper electors. For example, when electors were wrongly certified in Hawaii in the 1960 presidential election for Vice President Nixon, that problem was retroactively corrected and Hawaii's electoral votes were counted for John F. Kennedy.

As to the initial method for selecting the President, it matters what system of state law is put in place to select electors and when, relative to that system, new election laws are adopted. No one would support the Wisconsin Legislature allowing an election to be run using one set of election laws and then, just because a majority of both houses thereof did not like the tally of the people's votes occurring within the proper confines of Wisconsin law, adopting a new set of legislative rules and applying them to an already conducted popular election as if that had always been the law.

But the premise of the use of the method of popularly electing elections is inherently, and unavoidably, that such elections be conducted *without violation* of the relevant State's election laws to the extent that the outcome of the election did or likley could swing based on such violations of state law. If an election were purportedly run using the *ex ante* set of legislative election rules (or some of those rules), but *in reality*, the election was run in flat violation of those laws, then the decision of which set of electors to certify (or decertify) devolves back upon the Wisconsin Legislature, where the plenary power to select electors was initially reposed. This is particularly true when the courts do not reach the merits of election disputes brought to them for resolution of whether the *ex*

AMERICAN OVERSIGHT

ante rules were actually followed, dismissing challenges, for instance, on grounds of lack of standing, laches, and the like, as is the case in Wisconsin regarding numerous legal challenges.

The ECA is not constitutional law and it cannot be used to strip state legislatures of their Article II plenary power over elector selection, especially when evidence of widespread violations of state election law become clear only late in an election cycle or even after an election cycle is over. At that point, the principle that comes into play is the common law principle that fraud or illegality vitiate results rendered under an illegal or fraudulent process. *See, e.g., United States v. Throckmorton*, 98 U.S. 61, 64 (1878) ("Fraud vitiates even the most solemn contracts, documents, and even judgments."); *see also United States v. Bradley*, 35 U.S. 343, 360 (1836) (citing *Pigot's Case*, 11 Co. Lit. 27b (1614)). To take just one example, the Third Circuit recognized more than a quarter century ago that an illegally certified candidate who was already sitting in the Pennsylvania Legislature and had been sworn in must be stripped of his office based on violations of that State's election laws. *See Marks v. Stinson*, No. Civ. A. 93-6157, 1994 WL 47710, at *15-16 (E.D. Pa. Feb. 18, 1994), *vacated in part*, 19 F.3d 873 (3d Cir.), *aff'd after remand*, 37 F.3d 1487 (3d Cir.). And this occurred where there was no mechanism in the Pennsylvania Constitution for explicitly applying such a remedy. The Legislative Council and Reference Bureau do not take account of this precedent, logic, or history.

Thus it is clear that the Wisconsin Legislature (acting without the concurrence of the Governor, *see supra*), could decertify the certified electors in the 2020 presidential

AMERICAN OVERSIGHT

election. Two steps would be required for it to do so. *First*, the Legislature would need a majority in both houses to pass a resolution concluding that the 2020 election was (a) held in violation of state law, as detailed in this Report (or other sources), in one or more respects; and (b) the degree of violation of state law in place on November 3, 2020 rose to the level that fraud or other illegality under Wisconsin law could have affected the outcome, using any evidentiary test for certainty the Legislature agreed should apply (for instance, a preponderance, etc.). And *second*, the Legislature would need to invoke and then exercise its plenary power to designate the slate of electors it thought best accorded with the outcome of the election, had it been run legally in accord with the state election laws in effect on November 3, 2020. This would lead to decertifying the relevant electors, if the Legislature concluded that they were not the slate of electors that best accorded with the election if run consistent with all relevant Wisconsin laws in effect on election day.

However, this action would not, on its own, have any other legal consequence under state or federal law. It would not, for example, change who the current President is.

Supreme Court Rejects Bid for Religious Opt-Out From COVID-19 Vaccine Mandate

Supreme Court justices on Feb. 22 rejected a bid by health care workers in Maine to block the state's COVID-19 vaccine mandate.

Justices declined to hear arguments for and against an appeals court decision that left the mandate, which affects all health care workers in Maine, intact.

At least six justices rejected the writ of certiorari, or request to review the lower court decision denying a preliminary injunction. How each justice voted wasn't made public.

"It's very disappointing to see the court ignoring this clear injustice," Mathew Staver, chairman of Liberty Counsel, the legal group representing the petitioners, told The Epoch Times. "We thought it was a great case for the court to take. There's a clear conflict and a clear violation of federal law."

The office of Maine Attorney General Aaron Frey, a Democrat, told The Epoch Times in an email: "The Supreme Court has once again declined to review the lower court rulings upholding Maine's COVID-19 vaccination requirement for healthcare workers. Maine's vaccination rule is constitutional and remains in place. We will continue to defend the rule, which is critical for the protection of patients, healthcare workers, and Maine's healthcare system against COVID-19."

Maine Gov. Janet Mills, a Democrat, announced the mandate in August 2021. She said requiring workers to get a COVID-19 vaccine would "[protect] health care workers, their patients, including our most

Subject: Please Decertify the Nov 2020 presidential election and Subpoena the Nov 2020 ballots

---

Please Subpoena the paper ballots because doing so is a slow court process and the ballots can be destroyed 22 months after the Nov 3 2020 election. Jovan Pulitzer's method is very powerful and people will want to apply his method in WI once his results have been published form Maricopa County, AZ.

Please vote to decertify the 2020 presidential election and possibly redo it. Otherwise, the election laws will be ignored and the election will be rigged again in the future. There are at least 4 constitutional attorneys that say you have the ability to decertify the election.

Election integrity is the most important issue.

There appears to be no consequences for violating election laws. The AZ senate has the ability to arrest people.

The people who disenfranchised voters in WI have only benefitted from their behavior.

In addition to the things Rep Ramthun pointed out in bill 5340 which comes from Gableman's audit

Approx.157,000 voters have the same voter number. Wi has 4.5 million voters over the age of 18 and 7 million registered voters. Both statements are on GeneralDispatch Whatfinger Dec 8 2020 or other sources. I could present more facts. There are many independent ways to see that the election needs to be decertified. See this 2-minute video from True to Vote's research: BREAKING BOMBSHELL** Dinesh D'Souza Releases Movie Trailer for "2000 Mules" Exposing Ballot Traffickers Who Stole the 2020 Election on the Gateway Pundit.

GOVERNING

THE FUTURE OF STATES AND LOCALITIES

THURSDAY, MARCH 3, 2022

INSIDE POLITICS: State & Local with Alan Greenblatt

Welcome to *Governing*'s new politics newsletter, which will bring you results and coverage of important trends twice a month through the November elections. We start by looking at Texas, which kicked off this year's primary season on Tuesday, with a few glances at news from other states.

Primary Election Day in Texas saw low turnout across the state as voters cast ballots in the first election under new voting restrictions. (Dreamstime/TNS)

AMERICAN OVERSIGHT

Increasingly Republican Hispanics: One bright spot for Republicans in 2020 was their performance with Hispanic voters. A majority still voted for Democrats, but the party made inroads, notably in Florida. It's always been a mistake to assume that a group with a total of 60 million people from varied backgrounds would vote as a bloc and more conservative Hispanics are responding to GOP messages on issues such as inflation, abortion and, yes, illegal immigration.

The party's inroads are continuing in the Rio Grande Valley, a section of south Texas that is largely Hispanic and has historically voted overwhelmingly Democratic. That's starting to change. Donald Trump won just 19 percent of the vote in Starr County in 2016, but he took 47 percent there in 2020 – one of the biggest swings of any county in the country and paralleled in neighboring counties.

On Tuesday, there were competitive GOP primaries in the Rio Grande Valley up to the congressional level, which is truly a novelty. In Starr County, three out of four ballots were cast in Democratic contests – but that was down from 98 percent four years ago. It looks like there will be a Latina Republican competing in all three area congressional seats, pending results of a runoff in one district. Sensing which way the wind is blowing, local officials are starting to switch over to the Republican Party. "It took me a while to realize that my thoughts are more Republican," said Corina Arredondo, a justice of the peace in Terrell County, who is still a Democrat – for now.

AMERICAN OVERSIGHT

Texas Democratic gubernatorial candidate Beto O'Rourke. (Brandon Bell/Getty Images/TNS)

Paxton's Teflon: Beto O'Rourke fared poorly in the Rio Grande Valley during his 2018 primary run for the U.S. Senate. He again performed worse among the border counties than statewide in Tuesday's Democratic primary for governor. Losing support there makes it just that much more difficult for the former rising star to pose any real threat to incumbent Republican Greg Abbott. Seeking his third term, Abbott dispensed with two challengers in the GOP primary, former state Sen. Don Huffines and Allen West, a former state GOP chair and Florida congressman. They complained that Abbott wasn't conservative enough, but Abbott shored up his right flank by opposing vaccine mandates and investigating parents of transgender children. Unlike many more complacent incumbents, Abbott took the challenge seriously, spending $15 million over the past two months alone. In the end, Abbott took two-thirds of the primary vote.

State Attorney General Ken Paxton didn't do quite as well, but still looks like a safe bet. Paxton was re-elected four years ago, despite an indictment for securities fraud. That case is still pending and Paxton faces numerous ethics complaints and an FBI investigation into charges he abused his office to help a contributor. All of that was enough to draw serious intraparty opposition from Congressman Louie Gohmert, former state Supreme Court Justice Eva Guzman and Land Commissioner George P. Bush, who is the son of former Florida Gov. Jeb Bush. On Tuesday, Abbott refused to say whether he'd voted for Paxton.

Texas Attorney General Ken Paxton. (Drew Angerer/Getty Images/TNS).

But Paxton – who filed a lawsuit in 2020 challenging the presidential vote in four other states – enjoyed Trump's backing. In the closing days of the campaign, both Paxton and Bush launched strong attacks against Guzman, which may have helped keep her out of the May runoff. In Texas, if no candidate gets a majority of the primary vote, the contest goes to a runoff. Paxton took 43 percent, while Bush came in second with 23 percent.

It was the desired outcome for both men. Bush proceeds to the next round, but he was Paxton's preferred opponent. The runoff will see low turnout and the electorate will be made up of diehard Republican voters who see Bush as the scion of the party's unlamented old school establishment wing. Even if the FBI brings charges against Paxton before the runoff, Paxton will just cite that as proof he's under attack from President Biden and Washington liberals, says Mark P. Jones, a political scientist at Rice University.

"I don't see any way that Paxton loses in a runoff to George P. Bush," Jones says. "Bush is sufficiently unpopular among the Republican Party base that it's going to be next to impossible for him to beat Paxton in a runoff, particularly with Paxton having the ace in the hole of the Trump endorsement in his pocket."

Texas Gets More Red: The Texas GOP asked primary voters to weigh in on a series of policy questions, including abortion, elimination of the property tax, blocking transgender medical care, voter fraud and vaccine mandates. You can guess how they voted.

Legislative leaders saw their preferred candidates prevail in nearly every race, including state Rep. Ryan Guillen, whom House Speaker Dade Phelan supported after he switched from the Democratic side last November. Four of the five candidates Lt. Gov. Dan Patrick endorsed in open state Senate races won their primaries, with the fifth well ahead leading into the runoff. Patrick doesn't so much run as rule that chamber, which is likely to become still more conservative. "The people of Texas have spoken with one conservative voice," Patrick said on Tuesday.

Trump Favors Secession: Trump endorsed no fewer than 20 Texas Republicans heading into the primary. He also recently expressed support for a proposal for Buckhead – a wealthy enclave within Atlanta – to break off and become a separate city. "The good people of Buckhead don't want to be a part of defunding the police and the high crime that's plaguing their communities," the former president said last week in a statement.

AMERICAN OVERSIGHT

But Trump devoted most of his statement to lambasting Georgia Gov. Brian Kemp and other Republicans he called RINOs (the derisive term for "Republican in name only"). The thing is, state officials get to decide whether the cityhood question can move forward and Trump's insulting intervention may backfire. "Former President Donald Trump's attempt to revive the Buckhead cityhood measure by insulting powerful Georgia Republicans has only stiffened opposition to passing the initiative this year, according to senior state officials," the *Atlanta Journal-Constitution* reports.

Phyllis Schlafly. (Alan Hagman/Los Angeles Times/TNS)

Schlafly's Legacy: Older readers will remember the name Phyllis Schlafly, a conservative activist who fought ratification of the Equal Rights Amendment back in the 1970s. She was played by Oscar-winning actress Cate Blanchett in the miniseries "Mrs. America" last year.

I remember interviewing Schlafly at the 2006 Republican National Convention, when she worked first to block and then weaken a platform plank regarding

AMERICAN OVERSIGHT

women serving in combat roles. She shook her head in disbelief that any Republican could support such a thing.

Schlafly died in 2016. Her children immediately began fighting for control over Eagle Forum, the group she'd founded. There have been multiple lawsuits, including one over legal bills between her daughter and one of her sons. On Tuesday, the Missouri Supreme Court agreed to hear that case.

Subject: [Possible SPAM] I stand with the Republicans of Sheboygan County

---

Dear Sen. LeMahieu and State GOP Chair –

I find it inexcusable that almost two full years have passed without an all-out genuine effort to get actual facts available to the public on what really happened in November 2020. Getting to the truth on that is and should always have been the absolute number 1 priority of our "Republican" controlled state legislature.

As a lifelong Republican, I strongly support Sheboygan County's call for Speaker Vos to resign. At a minimum there has been mismanagement and malfeasance on the most important matter imaginable in a true democracy – integrity in elections that engender confidence that individual voters' true, real and legal votes matter and that reliable systems are in place to prevent fraud which OBVIOUSLY was not the case in 2020 and I fear may never be the case again without strong, brave and competent leadership, which Rep Vos clearly lacks. He also is naïve and was used in connection with the illegal establishment of no excuse vote by mail and drop boxes that enabled illegal vote harvesting (which enables stealing, ghost voting, and improper coercion of the elderly and sick).

Wisconsin's Sheboygan County Republicans Pass Resolution Calling for Vote of No Confidence for Speaker Vos and Demand His Removal or Resignation (thegatewaypundit.com)

In my opinion, Rep Vos should be encouraged to resign so that others who are bold and committed to learning the truth can lead and make real progress! It really appears, as I've written before that some are waiting out the clock and just hoping that folks eventually move on, but the questions about what actually happened in Milwaukee, Madison and Green Bay are too important to ignore. Why are mayors, WEC and county personnel allowed to refuse to cooperate with Justice Gabelman's investigation, which only was reluctantly set up by Rep Vos?

AMOS CENTER
FOR JUSTICE & LIBERTY

Karen Mueller, Founder and General Counsel
Karen@amoscenterforjustice.org

January 8, 2022

Representative Timothy Ramthun
Wisconsin State Assembly
409 North, State Capitol
P.O. Box 8953
Madison, WI 53708

RE: Decertification of Wisconsin Elector Votes

Dear Representative Ramthun:

I am writing to announce that the Amos Center for Justice & Liberty supports your call for the decertification of the 2020 Presidential Wisconsin Electors based upon the wide-spread election fraud and election law violations that occurred in the largest cities of the state and throughout Wisconsin.

The staff of the Amos Center for Justice & Liberty has conducted its own election investigation starting with the illegal Absentee Ballot Drop Boxes, over 500 of which were installed across Wisconsin before the 2020 Presidential Election. These drop boxes were paid for with grant money which counties obtained from the Center for Tech and Civic Life (CTCL). This private "non-profit" organization, in turn, received its money from Mark Zuckerberg and his wife to the tune of over $350 million in September of 2020. That is a stunning figure given that prior to 2020, CTCL's budget was no greater then $100,000 in any give year. The organization was created in 2015 by an Obama Fellow.

A conspiracy to commit election fraud using these Absentee Ballot Drop Boxes and other violations of elections laws was allegedly initiated, in part, during the lame duck period of Barack Obama's Presidency after President Trump had won the 2016 election but before he took office on January 20, 2017.

First, as President Obama was preparing to leave office, then Secretary of the Dept. of Homeland Security, Jeh Johnson laid the groundwork for a potential election steal by first creating the organizations by which the federal election guidelines, including those for absentee ballot drop boxes could be created. In fact, these early organizations, GCC and SCC were the precursors to what would become the Cyber Infrastructure Security Agency (CISA) in November of 2018. President Trump himself unknowingly signed the "instrument" by which his 2020 Presidential Election endeavor would be defeated, through both illegal and unconstitutional means. Once CISA was created, it absorbed GCC and SCC. The Absentee Ballot Drop Box guidelines were then created by these two organizations, now working inside of the CISA agency.

Second, Secretary Jeh Johnson "conscripted" several national, but private non-profit organizations. Under the pretense of a false national security threat, Secretary Johnson designated the National Association of Secretaries of State (NASS) and the National Association of State Legislators (NCSL) (among others) as new components of our country's "critical infrastructure." The members of NASS, to their credit, initially objected to being taken over by the federal government and put those objections in a Resolution.

This federal designation of "critical infrastructure" of these private organizations allowed for unprecedented federal access to their spheres of influence and their members. This new federal control of a private non-profit was then used to manipulate many state legislators, secretaries of state and other state election officials across the country. These unconstitutional actions by federal actors set the stage for one of the greatest election heists in the history of the world. See Article I, section 4 of the U.S. Constitution: "The times, places and manner of holding elections, for Senators and Representatives, shall be prescribed in each State by the legislature thereof, but the Congress may at any time by law make or alter such regulations, except as to the place of choosing Senators."

ILLEGAL ABSENTEE BALLOT DROP BOXES

For the State of Wisconsin these events led to the Wisconsin Election Commission (WEC) obtaining a set of federal Absentee Ballot Drop Box guidelines which was then modified by WEC and was sent out in a memo

AMERICAN OVERSIGHT

dated Aug. 19, 2020 by Megan Wolfe to the clerks in Wisconsin's 72 counties. This memo encouraged the counties to get grants in order to purchase the Absentee Ballot Drop Boxes which Megan Wolfe and her advisory staff knew was illegal under Wisconsin absentee voting statutes. The Wisconsin Election Commission's main purpose is to *guide* election officials as to what election laws *actually say*, not what election clerks or the members and employees of WEC want it to say. WEC staff knew that they didn't have legislative, or even rule-making authority based upon a WEC Statement made in May of 2020. Despite these facts, Megan Wolfe went ahead and *guided* and encouraged, through the Aug. 19, 2020 memo, the Wisconsin election officials to obtain and install over 500 absentee ballot boxes throughout the state, thereby intentionally violating election laws.

Nowhere in Wisconsin Election laws have Absentee Ballot Drop Boxes ever been legalized. Despite this truth, some Wisconsin legislators and other citizens have argued that there was neither a law that allowed the boxes or prohibited them. Therefore, these individuals argue it was okay to use them because of a variety of unpersuasive reasons: the USPS was unreliable, because clerks asked for them or because of the "vast" number of absentee voters in 2020. None of these excuses are acceptable reasons for violating Wisconsin's election laws. It is truly disheartening when legislators themselves are not interested in enforcing the very laws they pass. Why did they become law makers? If they don't know, understand and adhere to the laws of this state passed by current or past legislative bodies, then the legislators should resign at once.

Under **Wisconsin Statutes Chapter 6 The Electors, Subchapter IV "Voting Absentee"** it reads:

> Wisconsin Statute 6.84 Construction. (1) LEGISLATIVE POLICY. The legislature finds that voting is a constitutional right, the vigorous exercise of which should be strongly encouraged. In contrast, voting by absentee ballot is a privilege exercised wholly outside the traditional safeguards of the polling place. The legislature finds that the privilege of voting by absentee ballot must be carefully regulated to prevent the potential for fraud or abuse; to prevent overzealous solicitation of absent electors who may prefer not to participate in an election; to prevent undue influence on an absent elector to vote for or against a candidate or to cast a particular vote in a referendum; or other similar abuses. (2) INTERPRETATION. Notwithstanding s. 5.01 (1) with respect to matters relating to the absentee ballot process, ss. 6.86, 6.87 (3) to (7) and 9.01 (1)(b), 2 and 4, shall be construed as mandatory. Ballots cast in contravention of the procedures specified in those provisions may not be counted. Ballots counted in contravention of the procedures specified in those provisions may not be included in the certified result of any election.

The statute above means that ballots cast or delivered in anyway not *expressly* permitted under Wisconsin Absentee Statutes cannot be counted in the certified result that is used to decide Electoral Votes.

Prior Wisconsin legislative bodies understood that unattended Absentee Ballot Drop Boxes would increase the likelihood and opportunity for massive absentee voter fraud. Under their carefully drafted language in the enacted LEGISLATIVE POLICY above, the legislators made it clear that they wanted tighter restrictions on absentee balloting, in part, to reduce the "potential for fraud or abuse." Furthermore, the law under INTERPRETATION is extremely clear: If you do not follow the processes and procedures laid out in the statutes, then the ballots cast by non-legal means, such as placing ballots into illegal Absentee Ballot Drop Boxes, cannot *be counted*. Yet, despite this clear mandate, tens of thousands of illegal ballots that were placed in these illegal boxes *were counted* in the 2020 Presidential Election.

But the last sentence of the statute above is critically important to the issue at hand when it states that such illegally counted Absentee Ballots *may not be included in the certified result of any election*. **Therefore, as a Wisconsin matter of law, the electoral votes MUST be rescinded as an operation of law: the drop boxes were illegal and therefore the ballots placed in them could NOT be counted or be used to determine which set of Wisconsin electoral votes were submitted to Congress.**

CRIMINAL CONSPIRACY

Whether the absentee ballot drop boxes were legal or illegal under Wisconsin law was the main question raised in Mueller v. Jacobs, an original action filed last year by the Amos Center for Justice & Liberty with the Wisconsin Supreme Court on Nov. 27, 2020. The case along with the Exhibits referenced in this letter can be found at www.amoscenterforjustice.org. While the Court in a 4-3 decision declined to hear the case for unstated reasons, the merits of the case were never litigated and decided. In fact, the DNC intervened in the case through their attorneys from Perkins Coie Law Firm. In their response to petitioner's filing, they produced evidence in the form of a letter from their attorney to Dane County Clerk that the Speaker of the Assembly Robin Vos and then President of the Senate Scott Fitzgerald approved of WEC's August 19, 2020 guidelines in order to decrease the likelihood that the boxes would be found to be illegal by the Wisconsin Supreme Court. But these two men, even

AMERICAN OVERSIGHT

though they knew these Absentee Ballot Drop Boxes were illegal under Wisconsin election law statutes agreed with WEC that they were acceptable. See the Vos and Fitzgerald letter at www.amoscenterforjustice.org. This was done despite the fact that neither Robin Vos nor Scott Fitzgerald had the authority to declare these boxes legal outside of our state's constitutional legislative process; therefore, the ballot drop boxes remain illegal, along with the ballots that were placed within them. Furthermore, these two men each had the ability to call a special session in order to legalize these boxes before the 2020 Elections and yet they did not do so. The Citizens of Wisconsin have a right to know why they willingly and knowingly broken Wisconsin Election Laws. The Citizens of Wisconsin should also demand to know why a republican authored bill is still active that now seeks to legalize these drop boxes. Call your legislators and demand answers and demand that they do not move this bill forward.

These illegally installed and unattended and unmonitored Absentee Ballot Drop Boxes along with other alleged acts of Wisconsin Election Law violations by WEC staff and commission members such as expanding the language and changing the meaning of the *indefinitely confined* statute to include an extra 200,000+ voters who then did not have to show a legal identification to a poll worker, created a *perfect storm* in which a criminal enterprise came together and acted in concert for the purpose of stealing the 2020 Presidential Election in Wisconsin.

The election fraud that took place in Wisconsin also occurred in many other states with minor variations; however, the focus remained on targeting the other "battleground" states such as Georgia, Michigan and Pennsylvania by getting the Absentee Ballot Drop Boxes installed throughout those states. The nationwide campaign to use thousands of Absentee Ballot Drop Boxes across the whole country was facilitated and coordinated by actors within the federal government's CISA and the two private non-profits, NCSL and NASS, which worked closely with CISA's staff to create the messaging and to push the information out to the states.

Megan Wolfe received the federal Absentee Ballot Drop Box Model Guidelines from a yet unknown individual. She then revised them and sent out her own new version which was made from those federal model guidelines. The result was the August 19, 2021, memo which she sent out to Wisconsin election clerks.

At that same time as these events were occurring, Speaker of the Assembly Robin Vos was President of NCSL. It is important to note that Ms. Wolfe's newly created guidelines for the Wisconsin clerks violated Wisconsin State Election laws because there was no provision for drop boxes in the statutes. Ms. Wolfe also left out the most important clause from the federal model guidelines regarding election night ballot safety and integrity. This clause directed the reader as to the strong need to collect the ballots promptly at 8 p.m. and the importance of having a bipartisan, two-person team for each collection route. These election integrity statements from the federal model guidelines of the Absentee Ballot Drop Box document were omitted from the newly created Wisconsin version which was sent out to the election officials throughout Wisconsin on Aug. 19, 2020.

These same federal model guidelines were also used by New Mexico's Chief election official, Secretary of State Olivier, in the creation of New Mexico's version of the election guidelines for drop boxes. Secretary of State Olivier was coincidently President of NASS, while Robin Vos was President of NCSL. In the case of these two private non-profit organizations, their respective websites' pages revealed a concerted and coordinated plan to bring the election messaging regarding "disinformation" and "misinformation" (which were created by the Federal CISA agency) into their own organizations. These organizations then created and coordinated the messaging as they pushed it out to their members' states' election officials.

It is important and necessary to recognize that Exhibit 9, which is a NASS document labelled "#Trustedinfo2020" in the Mueller v Jacobs (WEC) lawsuit which can be found behind the complaint filing at www.amoscenterforjustice.org is actually taken from a CISA messaging campaign document (See Exhibit 10) and proves through NASS's list of "partners" that extensive relationships were formed and fostered between different federal agencies such as the Department of Homeland Security, CISA and US Election Assistance Commission (EAC) and many other private non-profit *quasi-governmental* agencies such as NCSL, NASS, NAAG, and NASED, along with strictly private non-profit organizations such as the Center for Technology and Civic Life (CTCL), the National Vote at Home Institute (NVHI), Google, Facebook, Twitter, Center for Democracy & Technology (CDT) and Center for Election Innovation & Research (CEIR). At the bottom of Exhibit 9 it also states that "Promotional materials and other in-kind donations to support #Trustedinfo2020 messaging were provided by Ballot Trax, Civix, CyberDefense, Dominion Voting Systems, Election Systems & Software, Hart InterCivic, Notarize and Runbeck Election Services."

It is critical to understanding the scope and size of this criminal election fraud enterprise that individuals were aware that the elected officials in the "5" Wisconsin Cities of Madison, Milwaukee, Racine, Kenosha and Green Bay formed a contractual alliance that is allegedly criminal when they accepted money from CTCL for their individual cities and ended fair and transparent elections which all of the citizens of Wisconsin have a constitutional right to expect. *The alleged illegal Agreement was involved over $8 million for the five cities in exchange for handing over access and control of each cities' elections processes and databases to the National Vote at Home Institute (NVIH).* This private non-profit, which had already been mentioned in the paragraph above as one of

NASS's and NCSL's "partners" was run by Michael Spitzer Rubenstein. He was instrumental in running the election procedures and processes in at least Green Bay and Milwaukee as he determined and saw fit and was opposed to what Wisconsin Election Law Statutes required. The money given to the "5" cities was originally Mark Zuckerberg's which he allegedly laundered through the non-profit organization, CTCL (also previously mentioned above). These "5" cities' election procedures, processes and databases were "sold" or "rented" for over $8 million in order to further this criminal enterprise's unlawful purpose of fraudulently stealing the 2020 Presidential Election electoral votes of Wisconsin.

The alleged misconduct in office of these five mayors should "shock the conscience" of every Wisconsin citizen. The misconduct and fraud have been apparent and in plain view for a year now. The misconduct was perpetrated upon the people of Wisconsin by elected officials and employees of city and state agencies who intentionally failed to perform their election duties and instead gave those duties to outsiders by entering an illegal contract with private actors.

> Any public officer or public employee who does any of the following is guilty of a Class I felony: (1) Intentionally fails or **refuses to perform a known mandatory, nondiscretionary, ministerial duty** of the officer's or employee's office or employment within the time or in the manner required by law" (2) In the officer's or employee's capacity as such officer or employee, does an act which the officer or employee **knows is in excess of the officer's or employee's lawful authority** or which the officer or employee knows the officer or employee is forbidden by law to do in the officer's or employee's official capacity; or (3) Whether by act of commission or omission, in the officer's or employee's capacity as such officer or employee **exercises a discretionary power in a manner inconsistent with the duties of the officer's or employee's office or employment or the rights of others and with intent to obtain a dishonest advantage for the officer or employee or another.**
>
> **Wis. Stat. 946.12(1)(2)&(3)**;
>
> No Election official may: In the course of the person's official duties or on account of the person's official position, intentionally violate or intentionally cause any other person to violate any provision of Chs. 5 to 12 for which no other penalty is expressly prescribed.
>
> **Wis. Stat. 12.13 (2)(b)(7)**
>
> **Conclusion: It appears quite likely that these statutes were violated by various people.**

FRAUD

Fraud always involves deception. Therefore fraud "vitiates" everything. Contracts where there is fraudulent inducement from the beginning are "null and void." Fraud nullifies contracts or judgments because if people knew the truth, they would have made different decisions. Fraud means that people are not going to receive what they thought they "bargained" for under a contract. Fraud almost always also involves criminals who attempt to cover-up their illegal activities and wrongful acts through deceit, by conspiring with others in power to suppress the TRUTH and hide their criminal acts from the people that they serve. U.S. v. Throckmorton, 98 U.S. 61, 25 L.Ed.93 (1878) (quoting "where the unsuccessful party has been prevented from exhibiting fully his case, by fraud or deception practiced on him by his opponent, as by keeping him away from court, a false promise of a compromise; or where the defendant never had knowledge of the suit, being kept in ignorance by the acts of the plaintiff; or where an attorney fraudulently or without authority assumes to represent a party and connives at his defeat; or where the attorney regularly employed correctly sells out his client's interest to the other side…). So too as in the case cited in this past election, the allegations of fraud and illegalities were never given a fair and impartial "hearing" because the media and censors prevented such information from getting out. Those that saw election wrongdoing were also silenced by the media through propaganda. People in power from both political parties used deception, lies and sleight of hand to give the appearance that all the matters had already been thoroughly investigated, when they had not. Deception and lies covered up much wrongdoing and no official law enforcement agency until Racine County Sheriff was willing to investigate the allegations.

The Throckmorton case envisions just such a scenario as what is now before us. In addition, to the initial fraud and illegalities, many people in this election fraud conspiracy have worked very hard over the past year to suppress the truth. In these circumstances, the wisdom of the Throckmorton decision should apply and **"these, and similar cases which a new suit may be sustained to set aside and annul the former judgment or decree and open the case for a new and a fair hearing" should apply.** Id.

The scenario described above is exactly what transpired in the weeks leading up to the wrongful "certification" of the ten electors from Wisconsin. People in positions of power at the local, state and federal level prevented the TRUTH of the election fraud and illegalities from being openly heard and evaluated. Every legislator has a duty to uphold the U.S. Constitution and to ensure that all state election laws are followed and that voters in Wisconsin can be assured that they have transparent and fair elections for the highest offices in the land. Their job is not to dismiss allegations of fraud and then help cover-up alleged criminal activity by demeaning the intelligence of their constituents.

The State of Wisconsin's Assembly and Senate members have been charged since statehood in 1848 through the federal constitution, Article I, section 4, with determining and enacting the statutory balloting processes to be used in the election of all U.S. Congressman. In the past, our members of the legislature have done an excellent job of writing strong election laws that were intended to prevent cheating and election fraud, especially through absentee ballots as I have already discussed. These laws are still the law. They are not suggestions.

Multiple election laws have allegedly been violated by the Wisconsin Election Commission members and staff. Other elected officials throughout Wisconsin have also allegedly committed acts or omissions that amount to election law violations and ensuing cover-ups. The mayors of five Wisconsin cities allegedly conspired and worked together in concert with other city employees, staff members and outsiders from private organizations and individuals, including some attorneys who took an oath to uphold the U.S. Constitution and the Wisconsin State Constitution. This alleged conspiracy was orchestrated in order to steal a presidential election for the purpose of destroying free elections, stealing sovereignty from "We the People," removing Trump from office and to unleash tyranny upon the Citizens of the United State of America.

Conclusion: Even though there can be fraudulent activities throughout many areas of the law, the consistent remedy for fraud or deceit is nullification. In the case at hand, the legislature has a duty to rescind electoral votes cast using illegal processes and fraudulent means with which to obtain and count ballots that the law clearly says can't be counted. It should do so at once.

CONSEQUENCES and CONCLUSION

The result of this stolen election has been the replacement of our freedom loving constitutional republic with a growing totalitarian system that tramples upon the rights of the people through medical tyranny and brute force. Peoples' fundamental rights to speak out, to go to school, go to work, to run a business, to reject vaccines for themselves and their children if they choose and even to seek medical treatments for their loved ones. These rights have all been abridged through illegal and unconstitutional mandates as a *result of a statewide and nationwide stolen election*.

By now the Attorney General of the State of Wisconsin, Josh Kaul, should have a completed a thorough investigation into the many allegations of wrongdoings which transpired during this past presidential election. But "We the People" in the State of Wisconsin had no independent investigation out of the attorney general's office which is supposed to be neutral in order to carry out its duties in a non-partisan way to ensure that "justice is blind" and that every person is "equal under the law." So "We the People of Wisconsin" who employ the Attorney General (who coincidentally worked for the Perkins Coie Law Firm prior to becoming Attorney General of Wisconsin) were kept away from the courts of law.

For these reasons we are calling for the immediate resignation of Attorney General Josh Kaul. We are also calling for the independent appointment of a special prosecutor. We invite district attorneys and Sheriff's Departments in every Wisconsin county to join in the quest for justice along with Amos Center for Justice & Liberty's year long *civil* RICO investigation (Racketeering, Influence, Corrupt Organizations) by opening their own independent *criminal* investigations into these matters so as to coordinate with a special prosecutor in a state-wide probe of the many alleged actors in the November 2020 Presidential Election and the April 2020 Wisconsin Supreme Court race and those who helped cover it up any wrongdoing.

Finally, it is critical that "Wisconsin, Stands Up for Freedom" now! People of this state must support your efforts to decertify the ten electoral votes cast in this fraudulent presidential election. Recently State Senator Bernier stated: "but there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate." She made that statement after enlisting the aid of Dan Becker, the director of the Center for Election Innovation & Research (CEIR), one of the groups that the NASS website listed as a "partner" along with CISA.

It is the duty of each legislator to declare each electoral vote cast by Wisconsin Electoral Voters to be "null and void" due to fraud; to be declared "illegal" as a matter of law under Wisconsin Statute 6.84 (2) and to vote to decertify the electoral ballots as soon as possible. "We the People" must call their state senators and assembly members today and let them know that they will work to recall their respective legislators if they will not STAND AGAINST election fraud and illegalities. Thank you for standing up for Freedom and Election Integrity. May God Bless America, once again, for our grandchildren's sake!

Best regards, *Karen L. Mueller, General Counsel*

Biden has delivered a propaganda justification for launching World War III. I have reported in the various previous reports that every war we have entered has been justified on nothing but lies. He makes no mention that these provinces have been the issue under the Minsk Agreements since 2014 where the people wanted to be independent because they were Russian ethnically – not Ukrainian.

CIA's final report: No WMD found in Ira

In his final report, the CIA's top weapons inspector in Iraq said Monday that the h of mass destruction has gone "as far as feasible" and has found nothing.

Of course, most of us remember the Gulf War and how we had to invade Iraq because there were Weapons of Mass Destruction. That too was a lie and the cost of that war was outrageous.

Now we hear the very same words over two provinces in Ukraine that have been seeking independence since 2014 and the West has utterly failed to allow those people any right to Democracy or Freedom from oppression that has been waged against them by a comedian who is head of Ukraine – Volodymyr Zelensky.

The solution would have been so simple. Let those two provinces decide their own fate rather than politicians claiming the old territorial rights of imperialism. Is this worth

AMERICAN OVERSIGHT

After Viktor Yanukovych was removed from power in early 2014 during the 2014 Ukrainian Revolution, the chairman of parliament Oleksandr Turchynov was appointed to the role of acting president. The Ukrainian people were very upset because they believed that there would be no real change.YouMUSTdraw a line between what the people did and what the West did afterward. These people who attribute everything to an all-powerful CIA plot haveNOpersonal knowledge of anything and spew out their opinion as if it were fact. The whole "Fuck the EU!" comment by Victoria Nuland phoning with Geoffrey Pyatt was reported on February 7th, 2014 and it only illustrates that there were efforts to gain control of the situation in Ukraine, but it does not demonstrate that the CIA organized the revolution from the start. Yanukovych fled Ukraine on February 22, 2014, just about 3 months from the beginning of the protests.
Yanukovych was an oligarch and his police were shaking down businesses and forcing them to pay his two sons. He was running Ukraine the same way oligarchs in Russia. You obey their commands or you die. If you had a business that was really doing well, Yanukovych and his sons would confiscate it. That is what caused the people to rise up, it was nothing the CIA managed to do. I had personal friends on the barricades. I was deeply concerned for their safety and was in regular contact offering my advice.
I can tell you that the West installed the leaders thereafter and the people were told if they dared to revolt against them, they would lose all support from both the EU and the USA. The puppet president, Oleksandr Turchynov served as the acting president from February 23 until June 7, 2014, and was the only person in Ukrainian history to serve in the role. During his tenure, Turchynov was addressed as "acting president" by other Ukrainian politicians and the media.

Petro Poroshenko (born 1965)
President of Ukraine

This was followed by a questionable 2014 election which took place on May 25th, with businessman Petro Poroshenko claiming to have won just over 54% percent of the vote. Yulia Tymoshenko was the runner-up with around 13%. Poroshenko was sworn in as president on June 7th, 2014. Poroshenko was a Ukrainian billionaire businessman known as the 'Chocolate King'. However, our direct sources at the time in the East made it plain that they were unable to vote as the polling stations were destroyed by the pro-Russian terrorists/tourists. Those who would have voted in the East may have voted for Poroshenko because the general feeling was they needed a President who would have a majority vote with no run-offs to prevent civil war.

Nonetheless, Poroshenko was also a seasoned politician. He has served as the Minister of Foreign Affairs from 2009 to 2010, and as the Minister of Trade and Economic Development in 2012. From 2007 until 2012, he headed the Council of Ukraine's National Bank. He is pro-West for economic freedom. The fact that he was a

AMERICAN OVERSIGHT

billionaire who has created businesses rather than inherited them or filled his pockets like Viktor Yanukovych, was good for he was seen as someone who would not rob the treasury and be beyond potential bribes. Yanukovych was not poor, but he was not a businessman in reality. Still, Ukraine's east remained caught in a torrent of violence that was maturing into a civil war that we are really seeing today. This was a major challenge that tested Poroshenko who had promised to navigate between Russia and the West. But the fighting continued as the separatist rebellion in the Donets Basin continued. Poroshenko said at the time:

"The first steps of our entire team at the beginning of the presidency will concentrate on ending the war, ending the chaos, ending the disorder and bringing peace to Ukrainian soil, to a united, single Ukraine," at a victory rally Sunday. "Our decisive actions will bring this result fairly quickly."

Poroshenko has also said he wants to lead Ukraine to closer ties with the European Union. During his speeches, Poroshenko on numerous occasions has called the war in East Ukraine a "Patriotic War", yet did not initiate implementation of martial law. Nevertheless, the violence that prevented many citizens in eastern Ukraine from voting, demonstrates the old anti-democratic attitude there. It is their way or no way – sheer dictatorship. Separatists in the region had vowed to disrupt the vote, and they largely succeeded in shutting that down knowing they would lose. If the vote would have been for leaving Ukraine at the time, then they would have made sure the people voted. But that was not the case.

Putin said a day before Ukraine voted that Russia would "***cooperate with the authorities that will come to power as a result of the election,***" but he added that he continued to consider Yanukovich the legitimate president of the country. Eventually, on June 18, 2015, Yanukovych was officially deprived of the title of President of Ukraine retroactively.

Poroshenko set up an offshore company in the British Virgin Islands to shelter his taxes from the sale of his company. Leaked documents from the Panama Papers from 2016 revealed that Poroshenko registered the company, Prime Asset Partners Ltd, on August 21st, 2014. He denied any wrongdoing and his legal firm, Avellum, overseeing the sale of Roshen, Poroshenko's confectionery company, said that "any allegations of tax evasion are groundless". The anti-corruption group Transparency International believes

AMERICAN OVERSIGHT

that the "creation of businesses while serving as president is a direct violation of the constitution". His name was cited in the list of politicians named in "Paradise Papers" allegations.

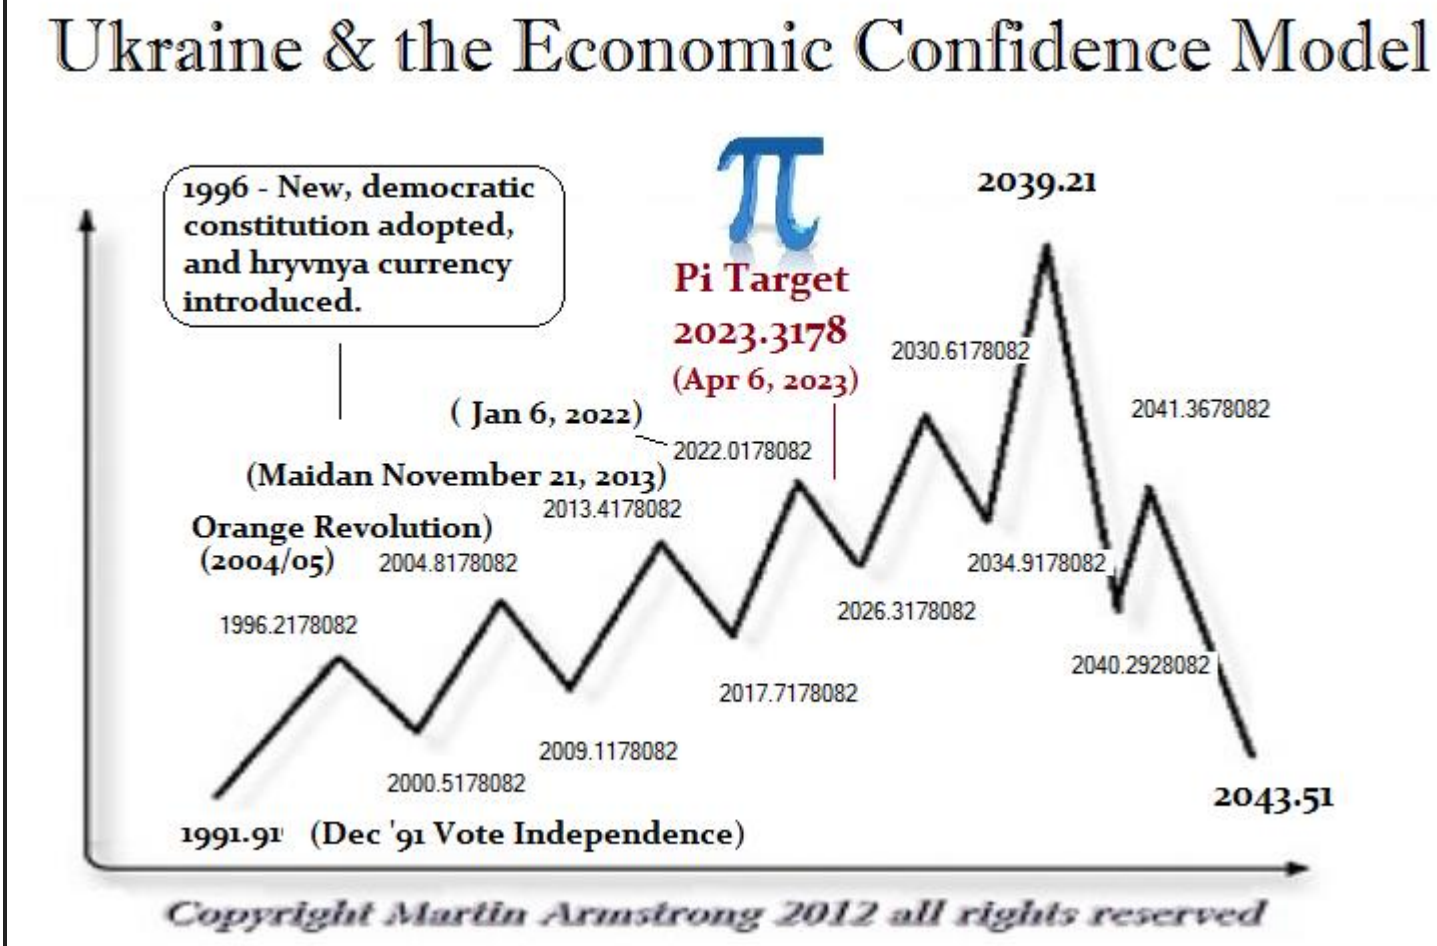
Volodymyr Zelenskyy
President of Ukraine since May 20th, 2019
Supreme Commander in Chief (military)

This allegation of tax evasion arose during the 2019 election which took place on March 31st, with a run-off on April 21st. As a result of this election, Volodymyr Zelensky, a former actor and comedian with no prior political experience became the sixth President of Ukraine with 73% of the popular vote in the run-off against the incumbent Petro Poroshenko.

Within months of the election, on December 20th, 2019, Ukrainian law enforcement raided both Poroshenko's party headquarters and gym on the orders of President Zelensky who has turned out to be ruthless and a questionable head of state. The raid was intended to eliminate any possible influence of Poroshenko going forward. It was used to launch criminal investigations focused on alleged theft of servers with classified information and tax evasion which is now always called money laundering. Zelensky outrightaccused Poroshenko of state treason, aiding terrorist organizations, and financing terrorism due to allegedly organizing the purchase of coal from separatist-

AMERICAN OVERSIGHT

controlled areas of Ukraine together with pro-Russian politician Viktor Medvedchuk. Poroshenko denied the allegations, calling them "fabricated, politically motivated, and black PR directed against [Zelensky's] political opponents".



Zelensky organized on January 6th, 2022 which was to the very day of the ECM turning point, that a Ukrainian court seized Poroshenko's property and a few days later, on the 15th, Poroshenko announced via a video message on Facebook: "I am returning to Ukraine on a flight from Warsaw at 09:10 a.m. on January 17... to defend Ukraine from Russian aggression", despite the case against him. Following his return to Ukraine, the prosecutor's office asked a court to imprison him pre-trial. Ultimately, the court ordered him to wear an electronic bracelet, remain in Kyiv, and hand over his passport.

AMERICAN OVERSIGHT

Viktor Volodymyrovych Medvedchuk
(born August 7th, 1954)

The Zelensky Government of Ukraine is becoming a ruthless tyrant. He has also imprisoned the leader of the opposition **Viktor V. Medvedchuk**, who was the People's Deputy of Ukraine from August 29, 2019. Medvedchuk is the chairman of the pro-Russia political organization **Ukrainian Choice** and an opponent of Ukraine joining the European Union. From an economic perspective, for Ukraine to join the EU would be to substitute one authoritarian government with another. Even the **EU has called** upon Zelensky to release Medvedchuk.

Clearly, Zelensky is unqualified to be the leader of any state. He has called on the West to impose sanctions against Russia **BEFORE** any invasion. "We don't need your sanctions after the bombardment will happen, and after our country will be fired at or after we will have no borders or after we will have no economy or parts of our country will be occupied. Why would we need those sanctions then?" He is totally out of control and relies upon claims of Ukraine territory while his Language Law reduces anyone who speaks Russian to a virtual non-citizen. Imprisoning the leader of the opposition and going after the former President to solidify a one-party system is not what the Ukrainian people rose up against in 2014.

Now President Biden is to impose new economic sanctions targeting Russia after Putin deployed troops to two pro-Moscow separatist areas of eastern Ukraine that are ethnically Russian. The Kremlin announced that there were no concrete plans for a summit between the United States and Russia on the looming Ukraine crisis. Nowhere in the Western Press does anyone bother to suggest that the Russian in their states

have been stripped of rights by Zelensky who has even prisoned the opposition that argues to allow those people to make a choice since it is their lives. But they have now simply become pawns in this absurd game of politics where the West needs to demonize Russia for leaders to pretend to be relevant.

Wang Yi (Chinese: 王毅; pinyin: Wáng Yì)
(born 19 October 1953)

Antony J. Blinken
(born April 16, 1962)

Meanwhile, the stupidity of this entire crisis is that we have the most incompetent people in governments ever. Germany is to appoint Jeniffer Morgan, the former head of GreenPeace, and their Secretary of State. How in the world is this climate activist qualified in military matters? Then China's Foreign Minister Wang Yi and U.S. Secretary of State Antony Blinken discussed the Ukrainian tensions during a phone call. "**The situation in Ukraine is getting worse**," was the response from China's foreign ministry following the call. China correctly pointed out that this entire crisis was closely related to the delayed implementation of the new**Minsk Agreement**where these two provinces were to be independent but Ukraine demands imperialism. If this escalates, China will be on the side of Russia and the West will lose!

The first Minsk Protocol was signed by Ukraine, Russia, the Organization for Security and Co-operation in Europe (OSCE), and the pro-Russia separatist leaders back in September 2014. Ukraine and the separatists agreed to an immediate 12-point ceasefire deal including withdrawal of heavy weapons and prisoner exchanges. But the agreement failed to stop the fighting, with frequent violations by both sides – not just the

AMERICAN OVERSIGHT

pro-Russian separatists. It was then five months later when Ukraine lost territory to pro-Russia separatists. Minsk II was then signed between Russia and Ukraine, which was mediated by France and Germany. That was then a 13-point agreement signed in February 2015. That quickly broke down because there is simply an ethnic dislike of Russians that makes no sense for Ukraine to refuse to relinquish their claims.

Moreover, Minsk II was to include the withdrawal of weapons and monitoring of the ceasefire. There were to be local elections in the self-proclaimed Donetsk and Luhansk People's Republics on their future status in Ukraine. The obstinate position of the Zelensky Government is now threatening the entire world. He refuses to recognize that Moscow calls itself a mediator to help Ukraine and the Donetsk and Luhansk People's Republics reach an agreement. Zelenskyargues that point 10 of the Minsk agreement, which mentions the withdrawal of "all foreign armed forces" refers to Russia, while Russia denies having any military presence on the territories.

Russia argues that elections in the separatist republics should come before the withdrawal of military equipment, Zelensky insists on the opposite and does not want to allow the people to make a choice. There are more than 720,000 people living in Donetsk and Luhansk. They were recognized and given Russian citizenship under a simplified passport regime Russia adopted in 2019. Zelensky claims this is a violation of the Minsk accord to allow them to even apply for Russian citizenship. Zelensky simply refuses to relinquish any claim to this territory and refuses togrant any special status to these territories calling that unfeasible.

Consequently, the former comedian Zelensky is pushing not just Ukraine into war for a matter of pride, but he is trying to deliberately bring the United States and Europe into World War III all because of what appears to be his personal hatred of Russians for the days of Stalin. Once more, we have this Eastern European crisis that sparked World War I, in a position to create World War III. The simple solution is to let the people of Donetsk and Luhansk decide with an election whereas those living in these provinces are entitled to decide their own fate.

The Coming European War

THURSDAY, 24 FEBRUARY 2022BY: MARTIN ARMSTRONG

I cannot help but be astonished at how bad the West has dealt with Putin. You cannot say you want a diplomatic resolution and then slap him in the face and reject everything on his wish list. This incompetence is mind-blowing. It can only imply that the West has deliberately used Ukraine to create a diversion as their escape from the stupidity of COVID and now they can not just claim you need them to stay in power, but the inflation they created with shortages thanks to COVID restrictions will be now blamed on Putin and war.

Unfortunately, the likelihood of this just ending with Ukraine is not very high. It appears that our brilliant strategists in the West are just plain stupid. They have revealed their weakness and they all abandoned Ukraine telling Putin it was his for the taking. Zelensky is an absolute fool. For 8 years Ukraine refused to even allow

AMERICAN OVERSIGHT

elections in the Russian separatist regions. So now the entire nation is thrown into war and for what reason? Zelensky was a comedian. He was clearly not smart enough to see that when the West all pulled their people, that was the invitation to Putin and he still made no effort to compromise. He was used as a pawn in this political game by the West which desperately needed a war after COVID.

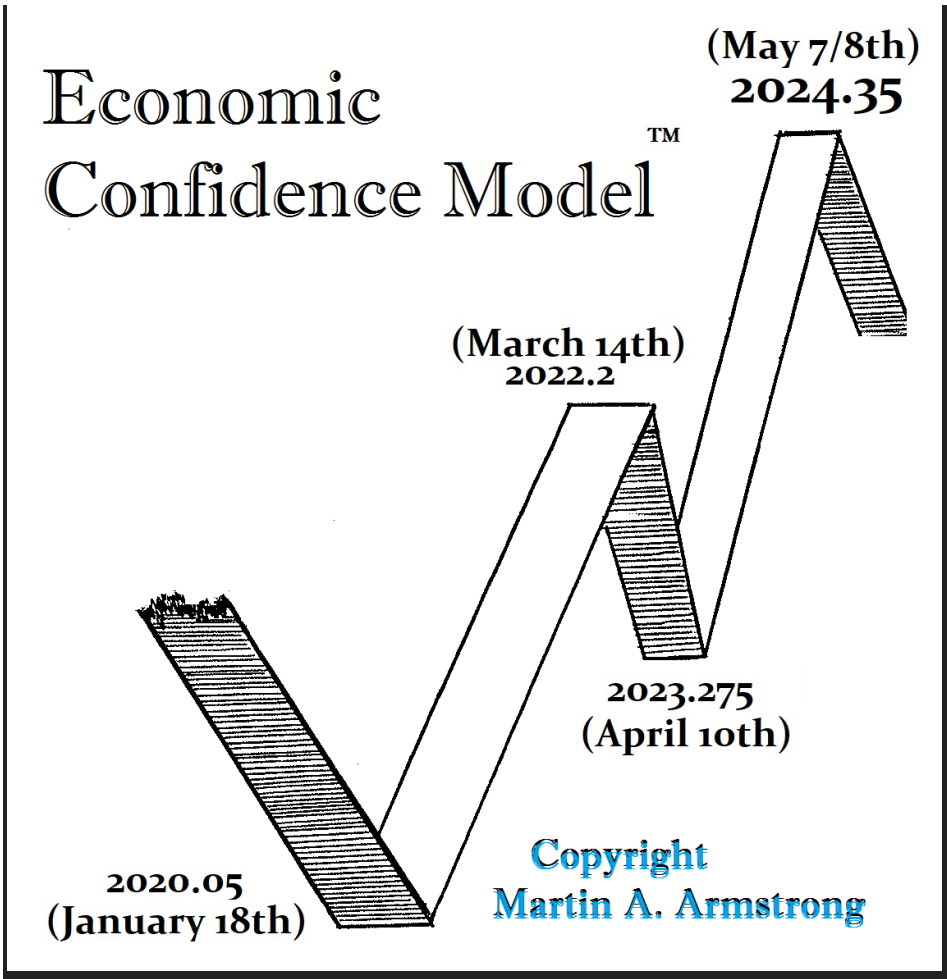
AMERICAN OVERSIGHT

Now you see what the computer was projecting for Russia. A string of Directional Changes for 5 quarters into the first of 2023. There will be an initial thrust into April probably culminating during the first week of April 4th, in 2022. But it appears that the tensions will now continue into 2023 before they will back off, and then as I have been warning, international war appears on the horizon between 2024-2027.

AMERICAN OVERSIGHT

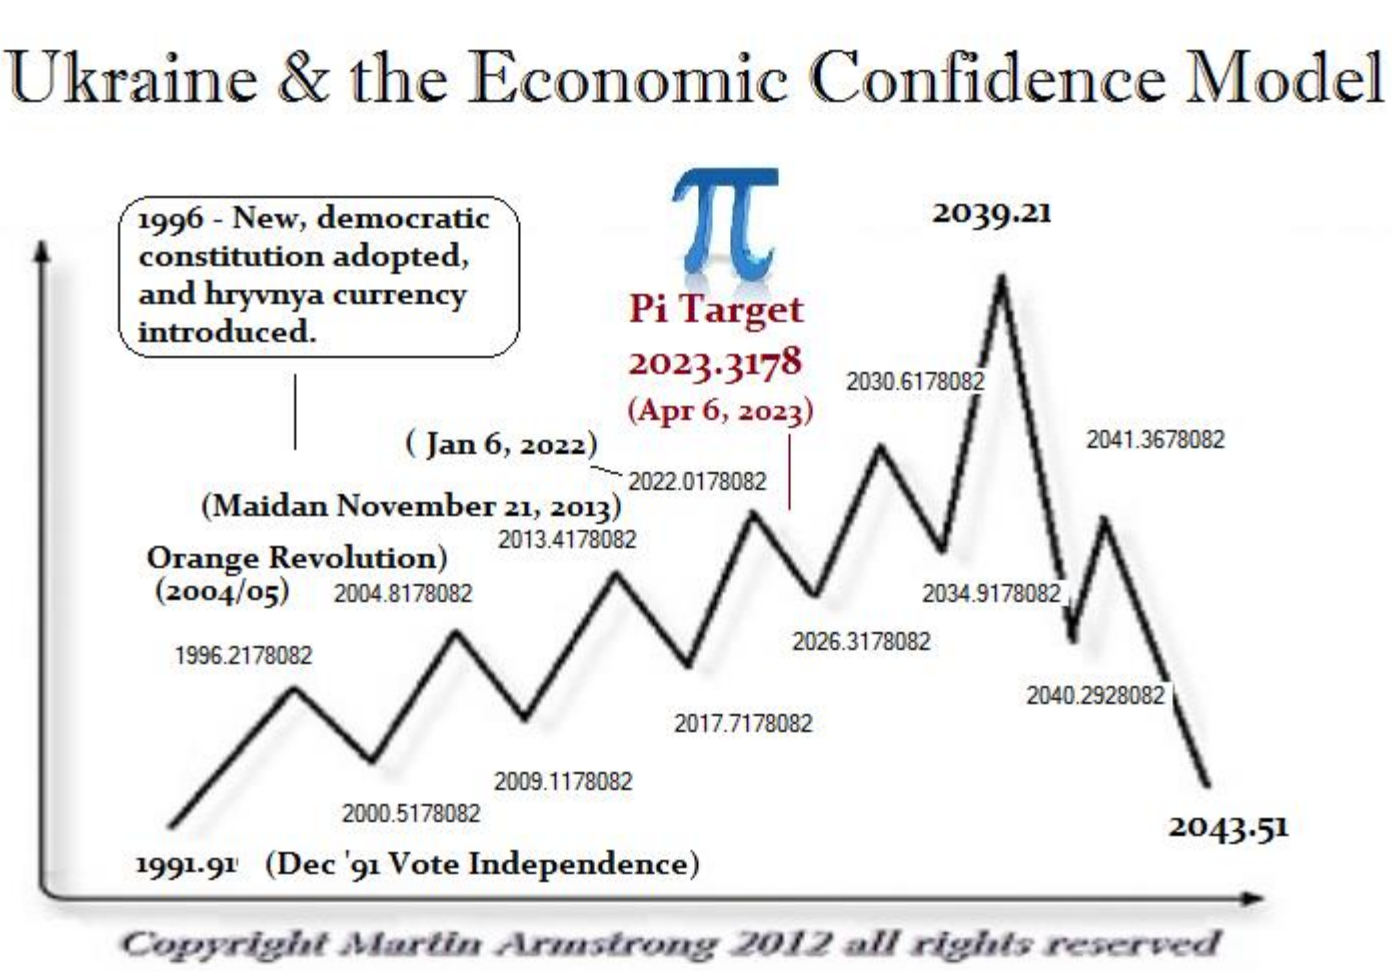
Now when we look at the near-term, last week was the Directional Change, and the next two weeks we see a combined Directional Change and Panic Cycle into the week of March 7th going into the ECM turning point of March 14th.

AMERICAN OVERSIGHT



The string of Directional Changes for 5 quarters will take this into the following turning point on the ECM which will be April 10th, 2023. So Socrates is showing on the various markets that they are aligning with the ECM which is totally independent.

AMERICAN OVERSIGHT



Note that the Pi Target on our Ukrainian Model is April 6th, 2023. This is now aligning with the Quarterly Directional Changes. Now you see why I have been concerned about the dismal diplomatic approach to dealing with Putin and it simply appears to have been intentional by the West without realizing that they may in fact have unleashed WWIII and this is merely the first shot that will be remembered.

Note that the turning point on this wave was January 6th, 2022. It appears that war will only subside perhaps by April 25/26, 2026.

I will try to put this together in a special report updating the War Cycle interlaced with the markets.

"Like the mayors of Green Bay and Madison before him, Racine Mayor Cory Mason said Sunday he would prefer to be jailed than testify behind closed doors in what he called a “secret interview” for the ongoing election probe ordered by Assembly Speaker Robin Vos, R-Rochester, and conducted by former Wisconsin Supreme Court Justice Michael Gableman."

https://journaltimes.com/news/local/watch-now-mason-says-hed-rather-go-to-jail-than-sit-for-secret-interview-with/article_3cddf848-9760-57c4-a8e4-d8b022393bc6.html

---

"A recent study of Maricopa County mail ballots in the state’s 2020 presidential election estimates that more than 200,000 ballots with mismatched signatures were counted without review, or “curing” – more than eight times the 25,000 mismatched signatures that the county acknowledged required curing."

https://republicbrief.com/arizona-senate-study-finds-200k-ballots-counted-in-2020-with-mismatched-signatures/

"The last minute amendment written in large part by Senator Bernier, grants early access to absentee ballots by entering ballots in the tabulators the Monday before elections. Counting the ballots should be driven by security not speed. Why would we want to give bad actors the chance to see ballots prior to Election Day?" See attached press release.

SB946 ASA 1 - This is the amendment that was grafted from SB914 that the assembly voted down thus giving it a 2nd life. It was the procedural move Speaker Vos did that the assembly republican legislators stated was deceptive and found out Speaker Vos was working with the democrats on. It's what triggered the caucus chaos a few days ago.

AMERICAN OVERSIGHT

Senate Elections Committee Executive Session where SB946 is expected to be voted on then scheduled for a floor vote. It's expected to pass out of the committee.

Rep. Ramthun: Another Action Step is required

MADISON - State Representative Timothy Ramthun (R-Campbellsport) released the following statement regarding requested feedback from Rep. Steineke:

"On January 28th, an open letter was sent to Rep. Steineke, Chair of the Assembly Rules Committee, requesting qualified data supporting his assertion that my proposed resolution, AJR120, is 'illegal' and 'unconstitutional'. I sought feedback by end-of-day February 2nd, which arrived via inter-office memo that day containing a hardcopy of the original Legislative Council memo from November, 2021".

"My purpose in asking was for him to review the four Constitutional attorney and three Constitutional expert memos I had provided him, all of whom were presented with the same original Legislative Council memo that all seven had refuted. In short, it appears Rep. Steineke did not do anything. This lack of action is the fuel of continued push for truth and transparency".

"Now that AJR120 is in the Rules Committee, I included the recommendation that Chair Steineke call for a public and/or informational hearing to obtain testimony from all legal parties involved. This action is the best and only due process manner in which to resolve where we are as a state and a nation regarding this unprecedented and historic issue".

"This is a defining moment for Rep. Steineke as his action, or inaction in this situation, will become his legacy. An inter-office message embracing a dated and regurgitated expression that fails to end the debate, is unacceptable. If Rep. Steineke truly believes this matter is the '#endofstory', a hearing is required. It matters not to me or the people of Wisconsin that the Rules Committee only meets in executive session for five minutes to approve session calendars. This topic demands an action to properly resolve this once and for all through legislative committee process like all other committees".

Rep. Ramthun: Audit the WisVote Database

MADISON - State Representative Timothy Ramthun (R-Campbellsport) issued the following statement in response to today's Campaigns and Elections Committee hearing:

"Today, the Campaigns and Elections Committee held an informational hearing on the WisVote database, which appeared to leave the people of Wisconsin with more unanswered questions. Double-speak and obfuscation were clearly present. Who employed by Wisconsin Elections Commission has the skills to manage the technical contractors or to design such a massive system? Who actually performs updates to this massive system? Why are people requesting this information being forced to buy bad data? Or is it bad data?"

"As the Wisconsin Elections Commission continuously contradicts themselves and because many more questions remain unanswered, I request an immediate independent Request For Proposal to obtain a vendor that can perform a forensic audit of the entire WisVote database. This needs to be done prior to its use in any election. This overdue and seriously warranted act is necessary to ensure all Wisconsinites that their personal data and vote are being securely managed."

"It is the dutiful obligation of the entire legislative body to ensure that the people of Wisconsin have confidence in their elections systems."

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

AMERICAN OVERSIGHT

STATE OF THE STATE

TUESDAY, FEBRUARY 15TH

AMERICAN OVERSIGHT

On Tuesday, February 15th at 7:00 pm, the governor will give his annual State of the State address before a joint session of the Wisconsin State Legislature.

You can watch it live on Wisconsin Eye.

In December, Senate President Chris Kapenga and I wrote a letter to Governor Evers inviting him to deliver the State of the State and requested he provides his plan for one of the biggest struggles across our state– the workforce crisis.

Currently, there are 130,000 job openings, while we have 93,000 people who arenot working. Employers continue to offer incentives, but government dependency has paralyzed many and pushed them away from self-dependency. Short-term assistance has quickly turned into long-term, unsustainable handouts.

We also requested he give an updated balance of the federal dollars under his unilateral control. The governor has mentioned allocations but little money has been expended. He hassaid he doesn't want billions sitting in Madison when it could be used to help Wisconsinites, but continues to sit on thefederal dollars.

How Dems Feel about Parents and School Choice

Yesterday, DemocratRep. Lee Snodgrass, member of minority leadership, and an officer for the Democratic Party of Wisconsin tweeted, "If parents want to 'have a say' in their child's education, they should home school or pay for private school tuition out of their family budget."

She later deleted the tweet.

AMERICAN OVERSIGHT

Michigan Democrats did the exact same thing last month. First saying the purpose of public education was to teach students "what society needs them to know" and parents who want more input on what their kids are learning "have the option to choose to send their kids to a hand-selected private school at their own expense." Then deleted it and said,"parents need to have a say in their children's education, end of story,"

Today, the top educator of Wisconsin, DPI superintendent Jill Underly, doubled down saying parents are "micromanaging curriculum" "preying on our parental emotions" and "weaponizing lessons". You can read the letter here.

Parents, not liberal bureaucrats, know what's best for their child's education and must always have a say. The Parental Bill of Rights is a package recently introduced that reaffirms that parents have the finaldecision regarding a child's religion, medical care, records, and education.

Prenatal Care Fraud

After one alderman called themisuseof taxpayer dollarsmeant to prevent infant mortality "disgraceful," the Milwaukee Common Council scheduled a hearing for February 18 about fraud in Wisconsin's prenatal care coordination industry.

Here's the initial story.

When asked by Journal Sentinel, the Evers Administration brushed it off as bad actors and quickly mentioned his efforts in expanding Medicaid.

My statement below:

"Over a decade ago, I was glad to help expose and eliminate the fraud in our childcare program. Now that it's happening again, we need to do our utmost to fix it so that the people who actually need it have those resources. Expanding Medicaid will not address the fraud. Having more oversight and eligibility checks will."

You can read the most recent story here.

Subject: Re: Assembly gets back to work

What you and your party supports!

Radical mob right so-called representative for Wisconsin I don't pay any taxes corporate just give me the money johnson said Saturday he won't try to persuade a Wisconsin manufacturer to place more than 1,000 new jobs in his hometown.

Corporate just give me the money johnson, who isseeking a third term this fall, said he supports having more manufacturing jobs in the state but indicated the company is best suited to make the call on where to build vehicles for the U.S. Postal Service.

"I wouldn't insert myself (but you represent Wisconsin?) to demand that anything be manufactured here using federal funds in Wisconsin," corporate just give me the money johnson told reporters after appearing at a "Parent Empowerment Rally" in Washington County. "Obviously, I'm supportive of it. But in the end, I think when using federal tax dollars, (just give the money to me instead of Wisconsin) you want to spend those in the most efficient way (towards me) and if it's more efficient, more effective to spend those in other states (instead of my so-called love state Wisconsin), I don't have a real problem with that." This is how I love my Wisconsin by giving anyway jobs to other states!

Instead of giving well-paying jobs to my so-called love state Wisconsin, reward other states the mentality of I don't pay any taxes corporate just give me the money johnson!

I don't pay any taxes corporate just me the money johnson says it's not 'society's responsibility' to care for 'other people's children' while arguing against child care subsidies for working parents. He previously said he was "not a real fan" of thechild tax credit.

How One radical mob right so-called senator Got Millions in Extra Tax Breaks for His Wealthy Donors!

According to a report out this week, just give me the money johnson (r-WI) helped some of his extraordinarily wealthy donors gain millions in additional tax breaks

AMERICAN OVERSIGHT

through the 2017 tax law passed by a radical mob right-controlled Congress and signed into law by then president the hoax fake bone spurs.

The hoax and you also gave them a 2-year covid tax break. Over 50 corporations didn't pay any U.S. taxes while we had an increase of billionaires!

And this is the dictator that he supports and the dictator supports him!

Confederate Flags, Conspiracies, and the Ghost of JFK Jr.: What I Saw at bone spur's Bananas texas Rally!

- At a rally in texas, bone spurs called for nationwide protests if prosecutors investigating him "do anything illegal."
- He sought to link the investigations to his baseless claim that the 2020 election was rigged.

Speaking at a texas rally, former president the hoax fake bone spurs called for nationwide protests if prosecutors investigating him and his businesses "do anything illegal."

In the speech, he appeared to link the investigations to his baseless claim that the 2020 election was rigged, which led to the January 6 Capitol riot.

"If these radical, vicious, racist prosecutors do anything wrong or illegal, I hope we are going to have in this country the biggest protest we have ever had in Washington DC, in New York, in Atlanta and elsewhere because our country and our elections are corrupt," bone spurs told the crowd in conroe, texas on Saturday night.

So, the hoax fake bone spurs didn't have anything to do with Jan. 6th the way he is talking now? How much more evidence do we need?

When someone has never been held accountable it is hard to face the facts!

Former presidentthe hoax fake bone spur's chilling comments at his texas rally last week offeringpardons to Jan. 6 rioters if he's elected and calling for "massive protests" if prosecutors take action against him are signs that he's in "burn-it-all-down mode," warned Monday.

AMERICAN OVERSIGHT

The reporter also pointed out the similarities between bone spur's call for the "biggest protests" the nation has ever seen if he is criminally charged now to his call at his Jan. 6, 2021, rally to "fight" and march on the U.S. Capitol.

A key factor in his behavior is that the unfettered bone spurs has so far suffered no significant consequences other than losing the 2020 presidential election to Joe Biden."You see the portrait of somebody who really doesn't care anymore and wants to put it all on his terms and who knows that he can keep pushing the bounds, and there basically, so far, other than losing the election ... there have not been that many penalties,"

You support dictatorship and dividing US! This is your love!

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

First Legislative Floor Session of 2022

AMERICAN OVERSIGHT

As the Assembly continues to get back to our work, we have a lot of great bills not just today, but next week, and over the next six weeks that continue to focus on the things that are important to Wisconsin.

We all know we are in the process of moving beyond the pandemic, but there are still a lot of issues and consequences related to what has occurred during the last two years.

One of those is AB 717, which provides an income and franchise tax exemption for restaurant owners who received a Restaurant Revitalization Fund grant. The federal government has already adopted these changes; this legislation conforms Wisconsin law to federal tax law for these grants. One restaurant owner shared with me that because of this exemption they can pay an additional employee for a full year. I am proud to help our local restaurants stay in business and retain their employees. Watch the video below to see what restaurant owners had to say.

We have seen an increase in substance abuse during the pandemic, but even before that, it has been a commitment of myself and my colleagues to address the substance abuse challenges in our state. Today, we continued to pass several pieces of legislation to advance solutions for Wisconsin residents who are struggling.

Also voted on was a series of bills that preserve and enhance Wisconsin's rich sporting heritage. This package provides more opportunities and secures sporting rights for all who call Wisconsin home.

AMERICAN OVERSIGHT

Majority Leader Jim Steineke's Retirement Announcement

Majority Leader Jim Steineke (R-Kaukauna) announced he's not seeking re-election to the state Assembly.

The Republican caucus and the state of Wisconsin will lose a bold leader when Jim leaves the Assembly. Jim has been a dedicated, strong conservative voice for the past decade, and his service was invaluable.

Jim was first elected to the Assembly in 2010, a time when Wisconsin was getting national attention for its monumental reforms – Act 10, right-to-work, and prevailing wage. He has proven to be an essential part of moving Wisconsin forward. Jim championed numerous pieces of legislation such as bills that expanded access to mental health care for our school-aged children, combated homelessness, and addressed racial disparities.

AMERICAN OVERSIGHT

I would like to thank Jim for his tireless efforts in the Assembly; it's been an honor to serve alongside him and call him a friend. I congratulate him on all he has accomplished. Whatever the next opportunity, I know he will continue to make a positive impact on his community.

This week, Iannounced the creation of the Special Assembly Committee on Trade and Supply Chain. Representative Rob Brooks (R-Saukville) will Chair the new committee, joined by Vice-Chair Representative Alex Dallman (R-Green Lake), and Representatives Nancy VanderMeer (R-Tomah), Dave Armstrong (R-Rice Lake), John Spiros (R-Marshfield), Warren Petryk (R-Town of Washington), and Michael Schraa (R-Oshkosh).

Across the state and country, demand is high, quantity is low, prices are increasing, and workers are scarce. The creation of this committee is another step Assembly Republicans are taking to support the Wisconsin businesses, families, and individuals who are impacted by these economic factors. I have full confidence Representative Brooks and the members of the committee will work hard to address these issues.

The Committee on Trade and Supply Chain will focus on the relationship between the labor shortage and supply chain interruptions and the impacts and barriers this creates for businesses and consumers. The committee will examine the disruptions in production and distribution of products over the last two years, the lack of workers in the labor market, and Wisconsin's role in recovering.

Recent pieces in*Politico*and the*New York Times*have also noted the concerns Wisconsinites have around the conduct of our elections.

AMERICAN OVERSIGHT

That said, the authors of these articles all largely missed the forest for the trees, and some have tried to turn our state into a punchline. They revel in the opportunity to paint any concerns about the conduct of the 2020 election as conspiratorial – which is especially rich following years of some of these same outlets trying to convince America that Russia won the 2016 election for President Trump (even ascharges are still being filedfor that actual conspiracy).

In reality, beyond just election conduct, many Wisconsin conservatives feel general antipathy toward the Madison political machine that runs the Republican Party of Wisconsin and the state legislature. When it comes to the 2020 election, specifically, many members of that same Madison machine went along with Democrat Governor Tony Evers and the Wisconsin Election Commission in allowing blatantlyillegal election practices to occur.

During the 2020 election, ballot harvesting and ballot drop boxes were allowed (people actually dragged duffel bags full of harvested ballots through Dane County parks),liberal county clerks encouraged and enabled rampant use of "indefinitely confined" status allowing voters to circumvent voter ID laws, and private funds were injected into the conduct of our state's elections (Zuckerbucks). All of this happened with the consent – overt or covert – of WEC. And despite all this, State Assembly Speaker Robin Vos recently reaffirmed his support for WEC.

Wisconsinites are rightly angry. Governor Evers should have looked into all of this illegal and messy conduct before he quickly certified Wisconsin's electoral votes. But the Madison machine did not force the issue, and so he did not. This entire series of events has reinforced the sentiment that nobody in a position of leadership is serious about election integrity.

To that point, my primary opponent in the gubernatorial race (and choice of the Madison political machine), Rebecca Kleefisch, has

AMERICAN OVERSIGHT

alternated between suggesting that the GOP shouldhire "mercenaries" to conduct ballot harvesting, and later saying that ballot harvesting is illegal. She has flip-flopped between happily declaring that Joe Biden won the 2020 election without reservation, and now claiming thatshe is awaiting the results of investigations before making up her mind. This is a fundamentally unserious approach to a serious problem. Joe Biden was declared the victor of a messy, improperly conducted 2020 election in Wisconsin – and we cannot allow another election like 2020 to take place.

In a larger sense, for decades, Wisconsinites have watched our failed political class bungle and hollow out too much of what we love about our state. Sure, the last two years have been particularly horrible, but Wisconsinites have seen a long decline in everything fromeducational performance, toeconomic opportunity, tothe population in rural areas of our state. Conversely,murder ratesandinflationare growing out of control.

Wisconsinites are not only concerned about election integrity; they are worried about losing the essence of their society – and for good reason. Meanwhile, many of the same reporters who wrote breathless takes on the absurd conspiracy theory of Russian collusion during the 2016 election, now disparage legitimate concerns about societal decay and 2020 election misconduct. This hypocrisy only furthers people's anger.

These are serious problems, and Wisconsinites are not looking for more of the same failed people and solutions in response. Wisconsinites have a deep-seated and justified unease about the future of our state. And we need leaders from outside of the Madison political machine that runs the Republican Party of Wisconsin to step up and fix the problems generated by the Left. When it comes to elections, we must get rid of WEC, transfer election oversight to the secretary of state, and write crystal-clear laws that stop ballot harvesting, ballot drop boxes, and future introduction of private funds into our election processes.

AMERICAN OVERSIGHT

Despite what coastal reporters may write, what happened in the 2020 election can never happen again. As your governor, I will work every day to ensure that it does not. In a larger sense, I look forward to working with the people of Wisconsin to get our society back on track.

By: Kevin Nicholson,*Candidate for Governor of Wisconsin*

The*Wall Street Journal*Editorial Boardrecently highlighted the anger many Wisconsin conservatives feelabout the illegal voting practices seen in the 2020 election in our state: ballot harvesting, ballot drop boxes, the inundation of private funds into our public elections, and the ineffective Wisconsin

AMERICAN OVERSIGHT

Election Commission (WEC). Recent pieces in *Politico* and the *New York Times* have also noted the concerns Wisconsinites have around the conduct of our elections.

That said, the authors of these articles all largely missed the forest for the trees, and some have tried to turn our state into a punchline. They revel in the opportunity to paint any concerns about the conduct of the 2020 election as conspiratorial – which is especially rich following years of some of these same outlets trying to convince America that Russia won the 2016 election for President Trump (even as charges are still being filed for that actual conspiracy).

In reality, beyond just election conduct, many Wisconsin conservatives feel general antipathy toward the Madison political machine that runs the Republican Party of Wisconsin and the state legislature. When it comes to the 2020 election, specifically, many members of that same Madison machine went along with Democrat Governor Tony Evers and the Wisconsin Election Commission in allowing blatantly illegal election practices to occur.

During the 2020 election, ballot harvesting and ballot drop boxes were allowed (people actually dragged duffel bags full of harvested ballots through Dane County parks), liberal county clerks encouraged and enabled rampant use of "indefinitely confined" status allowing voters to circumvent voter ID laws, and private funds were injected into the conduct of our state's elections (Zuckerbucks). All of this happened with the consent – overt or covert – of WEC. And despite all this, State Assembly Speaker Robin Vos recently reaffirmed his support for WEC.

Wisconsinites are rightly angry. Governor Evers should have looked into all of this illegal and messy conduct before he quickly certified Wisconsin's electoral votes. But the Madison machine did not force the issue, and so he did not. This entire series of events has reinforced the sentiment that nobody in a position of leadership is serious about election integrity.

To that point, my primary opponent in the gubernatorial race (and choice of the Madison political machine), Rebecca Kleefisch, has alternated between

AMERICAN OVERSIGHT

suggesting that the GOP shouldhire "mercenaries" to conduct ballot harvesting, and later saying that ballot harvesting is illegal. She has flip-flopped between happily declaring that Joe Biden won the 2020 election without reservation, and now claiming thatshe is awaiting the results of investigations before making up her mind. This is a fundamentally unserious approach to a serious problem. Joe Biden was declared the victor of a messy, improperly conducted 2020 election in Wisconsin – and we cannot allow another election like 2020 to take place.

In a larger sense, for decades, Wisconsinites have watched our failed political class bungle and hollow out too much of what we love about our state. Sure, the last two years have been particularly horrible, but Wisconsinites have seen a long decline in everything fromeducational performance, toeconomic opportunity, tothe population in rural areas of our state. Conversely,murder ratesandinflationare growing out of control.

Wisconsinites are not only concerned about election integrity; they are worried about losing the essence of their society – and for good reason. Meanwhile, many of the same reporters who wrote breathless takes on the absurd conspiracy theory of Russian collusion during the 2016 election, now disparage legitimate concerns about societal decay and 2020 election misconduct. This hypocrisy only furthers people's anger.

These are serious problems, and Wisconsinites are not looking for more of the same failed people and solutions in response. Wisconsinites have a deep-seated and justified unease about the future of our state. And we need leaders from outside of the Madison political machine that runs the Republican Party of Wisconsin to step up and fix the problems generated by the Left. When it comes to elections, we must get rid of WEC, transfer election oversight to the secretary of state, and write crystal-clear laws that stop ballot harvesting, ballot drop boxes, and future introduction of private funds into our election processes.

Despite what coastal reporters may write, what happened in the 2020 election can never happen again. As your governor, I will work every day to ensure that it does not. In a larger sense, I look forward to working with the people of Wisconsin to get our society back on track.

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

Celebrating Black History Month

AMERICAN OVERSIGHT

The state Capitol celebrates a prominent Wisconsin African American trailblazer, Vel Phillips. In November, theState Capitol and Executive Residence Board approved the statute of Phillips. It is expected to be placed on the Capitol grounds at the corner of WestMain Street and South Carroll Street in late 2022 or early 2023.

In 1951, Velvalea Phillips became the first African American woman to graduate from the University of Wisconsin-Madison Law School, and in 1956, she became the first woman and first African American on the Milwaukee Common Council.

Phillipswent on to become the first African American woman to become a judge in Wisconsin. And later, made history as the first African American woman elected statewide when she was voted in as secretary of state in Wisconsin.

You can read more about the commemoration here.

Healthcare Worker Bill

Today, my colleagues and I introduced a billto align criminal penalties for battery and threats of violence against healthcare workers with battery and threats of violence committed against other critical public safety personnel like law enforcement officers, officers of the court, and certain state employees.

Over the past decade, health care providers across the nation and in Wisconsin have experienced a higher prevalence of violence in the workplace from patients and others. While healthcare providers are trained to deescalate situations that arise from emotional tension, being threatened with bodily harm by anyone should not be a job expectation for our healthcare workers in Wisconsin.

Last session, 2019 Wisconsin Act 97 was signed into law expanding the current Class H felony for battery to certain healthcare workers, but the legislation did not explicitly make a threat of violence to a healthcare worker a crime. Threats of violence may precipitate actual acts of violence. The public policy goal of our new bill is toprevent further threats of violence against healthcare workers and provide additional tools that will hopefully stop threats from becoming acts of violence.

Go Red for Women

AMERICAN OVERSIGHT

Tomorrow is National Wear Red Day.Wear red to raise awareness about cardiovascular disease and help save lives. If you'd like to get involved visit Go Red For Women.

Facts about women and heart disease:

AMERICAN OVERSIGHT

- Cardiovascular disease is the number one killer of women, causing 1 in 3 deaths each year.
- Cardiovascular disease impacts some women at higher rates than others, but most cardiovascular diseases can still be prevented with education and healthy lifestyle changes.
- Heart disease and stroke can affect a woman at any age, making it vital for all women to understand their personal risk factors and family history.

AMERICAN OVERSIGHT

From: Glenda Bronikowski <GlendaSB@yahoo.com>
Sent: Friday, February 4, 2022, 3:30 PM
To: 'Speaker Robin Vos' <Rep.vos@legis.wi.gov>
Subject: Re: Celebrating Black History & Protecting Frontline Workers

---

Dear Speaker Robin Vos,
Wow! This news letter is all about women.
Velvalea Phillips' life was very impressive, I hope that the endorsement encourages anyone who may feel oppressed in any way. Although, I can't help but to wonder if she herself would have appreciated it?
Even though I am a white woman, I need to get my Black friends to let you know that not everyone appreciates being called "African American". Just like everything else, there is two narratives out there about everything, and we would be mindful to listen and learn from both sides. After I was made aware that my Black friends considered the term "African American" to be oppressive, I did a little research on it. The term was 1st used in 1969, but only by .01 % of the population. But in 1992, after the Rodney King Riots at the end of the H W Bush administration and the fear of the Democrats that they wouldn't get back in the White House, they (the oppressive Democrats that want to keep the Black community feeling like they need a savior) started to use it a whole lot and the usage became .16%. In 1993 the usage of the term rose to .23% when Bill Clinton got into office and it has steadily increased ever since.
What my Black friends tell me is; "I'm not an "African American", I'm just an American!! And if you insist, I'm a Black American, but I have never been to Africa, I don't speak any African dialect, I don't eat the foods or cuisine of Africa, no one in my family has ever been to Africa!! I'm an American!! Would you like it if you were referred to as a "European American"? Could or would you identify with that? Would that sound like an all inclusive term to you? Would you feel like you were part of "the group"? Or would you feel set apart, separated?! It's a dividing and divisive term and they want it stopped!!"

-As far as standing up to protect the Frontline workers, I would be very impressed knowing that you are in their corner regarding forced, experimental shots or so called "vaccines". And stop this ridiculous American public guinea pig experiment on Wisconsin citizens.
I'm not sure exactly where you are on the Red or Blue political scale right now, I guess that has yet to be revealed. But if you're leaning toward the Democratic side, be like Robert F Kennedy, Jr. and be on the side of America/Wisconsin, at all cost.

Have a blessed day,

The state Capitol celebrates a prominent Wisconsin African American trailblazer, Vel Phillips. In November, theState Capitol and Executive Residence Board approved the statute of Phillips. It is expected to be placed on the Capitol grounds at the corner of WestMain Street and South Carroll Street in late 2022 or early 2023.

In 1951, Velvalea Phillips became the first African American woman to graduate from the University of Wisconsin-Madison Law School, and in 1956, she became the first woman and first African American on the Milwaukee Common Council.

Phillipswent on to become the first African American woman to become a judge in Wisconsin. And later, made history as the first African American woman elected statewide when she was voted in as secretary of state in Wisconsin.

You can read more about the commemoration here.

Healthcare Worker Bill

Today, my colleagues and I introduced a billto align criminal penalties for battery and threats of violence against healthcare workers with battery and threats of violence committed against other critical public safety personnel like law enforcement officers, officers of the court, and certain state employees.

Over the past decade, health care providers across the nation and in Wisconsin have experienced a higher prevalence of violence in the workplace from patients and others. While healthcare providers are trained to deescalate situations that arise from emotional tension, being threatened with bodily harm by anyone should not be a job expectation for our healthcare workers in Wisconsin.

Last session, 2019 Wisconsin Act 97 was signed into law expanding the current Class H felony for battery to certain healthcare workers, but the legislation did not explicitly make a threat of violence to a healthcare worker a crime. Threats of violence may precipitate actual acts of violence. The public policy goal of our new bill is toprevent further threats of violence against healthcare workers and provide additional tools that will hopefully stop threats from becoming acts of violence.

In Reply: The Ole' Catholic $$$ 'Red Handed' Commie Hag
Brietbart News: Pelosi: US Athletes Risk Angering CCP If They 'Speak Out' Against China's Genocide
Better think through your proposed legislation very very carefully, because the US and State Governments have committed GENOCIDE in our past US History and right now in Wisconsin the following is happening in the Wisconsin Dept. of Revenue as they purge small businesses and jobs away for BIG BUSINESS. They demand all small businesses report electronically and give access to their bank accounts to the State. You mail in a quaterly tax and employee statement with a check and they only cash half the check and then say you didn't pay the full anount and then file a lien on your property. Then it takes you month to point out their error to them that you paid but they only cashed half the value of the check you mailed. They want to just be able to drain your entire bank account with no due process and effectively genocide you and your own family and employees. So if you complained, would that be considered an act of violence and will they trash your Red Chinese Social Credit Score? What will be next, if you don't have a vaxx you lose your business and refusing a vaxx for your 5 year old is considered violence? Don't over react when there are already laws on the books that aren't being enforced by the Governor and AG and don't use legislation as a campaign tool. That is dangerous. We have mulltiple politicians breaking our 'TREASON' Laws. Write some legislation against that. Ban Communism in Wisconsin. Write that in to law. Communism is VIOLENCE!, against God and our Constitution and People. Brietbart News: Schweizer's 'Red Handed' Hits #1 On New York Times Best Seller List

Saving Echo Lake

Saving Echo Lake has been an issue of concern in the community, with constituents contacting my office asking for guidance on ways to restore the dam and preserve the lake.

The City of Burlington Park Board voted to remove the Echo Lake Dam, a recommendation that, in my opinion, goes against the viewpoint of a vast majority of citizens in Burlington.

On Monday, I sent a letter to the mayor and Burlington Common Council, urging them to schedule areferendum so the residents of Burlington can weigh in on the significance of the lake.

I also promised to work with local officials in any way possible to help obtain state grants to assist with the cost of rebuilding. Echo Lake is a beloved part of the community; saving it is an

AMERICAN OVERSIGHT

investment that’s worth the price.

The council met on Tuesday and plans to make its final decision on Wednesday, February 16th.

Maybe if republicans had not fueled the fire and politicized the virus by making it "bad" to wear a mask and talking about one's freedom to spread the virus, maybe health care workers would not have been so overwhelmed at the hospitals taking care of non-vaccinated patients. So much for the "pro-life" party (I know, only American unborn babies matter because once you're here, you're on your own)

What about fair redistricting maps so the people can choose their representatives rather than you guaranteeing staying employed, remaining in office, because you're picking your constituents?

Let's get serious on what you support!

You have no concerns about the virus, gun violence, climate change, Jan 6th , dividing our country, taking away the people's right to vote and no concerns about the hoax fake bone spurs while you support all of this garbage below!

A newspaper delivered a blistering rebukeof Florida gov.no virus concerns desantison Monday, slamming the potential gop 2024 hopeful over his failure to outright condemnneo-Nazi demonstrationsin Orlando over the weekend.

Denounce the Nazi demonstrators in Orlando, gov. no virus concerns desantis. It's that simple. Say they are abhorrent. Say they are despicable. Say they have no part in this society or this state. But no," the board wrote.

And then we have **Dangerous the hoax fake bone spurs Is In 'Burn-It-All-Down Mode,' Warns a Reporter.** Former presidentbone spur's chilling comments at his Texas rally last week offeringpardons to Jan. 6 riotersif he's elected and calling for "massive protests" if prosecutors take action against him are signs that he's in "burn-it-all-down mode a reporter noted.

The reporter also pointed out the similarities between bone spur's call for the "biggest protests" the nation has ever seen if he is criminally charged now to his call at his Jan. 6, 2021, rally to "fight" and march on the U.S. Capitol.

A key factor in his behavior, the reporter, is that the unfettered the hoax fake bone spurs has so far suffered no significant consequences other than losing the 2020 presidential election toJoe Biden.

"You see the portrait of somebody who really doesn't care anymore and wants to put it all on his terms and who knows that he can keep pushing the bounds, and there basically, so far, other than losing the election ... there have not been that many penalties,"

Confederate Flags, Conspiracies, and the Ghost of JFK Jr.: What I Saw at bone spur's Bananas texas Rally!

- At a rally in texas, bone spurs called for nationwide protests if prosecutors investigating him "do anything illegal."
- He sought to link the investigations to his baseless claim that the 2020 election was rigged.

AMERICAN OVERSIGHT

Speaking at a texas rally, former president the hoax fake bone spurs called for nationwide protests if prosecutors investigating him and his businesses "do anything illegal."

"If these radical, vicious, racist prosecutors do anything wrong or illegal, I hope we are going to have in this country the biggest protest we have ever had in Washington DC, in New York, in Atlanta and elsewhere because our country and our elections are corrupt," bone spurs told the crowd in conroe, texas on Saturday night.

So, the hoax fake bone spurs didn't have anything to do with Jan. 6th the way he is talking now? How much more evidence do we need?

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

Celebrating Black History Month

AMERICAN OVERSIGHT

The state Capitol celebrates a prominent Wisconsin African American trailblazer, Vel Phillips. In November, theState Capitol and Executive Residence Board approved the statute of Phillips. It is expected to be placed on the Capitol grounds at the corner of WestMain Street and South Carroll Street in late 2022 or early 2023.

In 1951, Velvalea Phillips became the first African American woman to graduate from the University of Wisconsin-Madison Law School, and in 1956, she became the first woman and first African American on the Milwaukee Common Council.

Phillipswent on to become the first African American woman to become a judge in Wisconsin. And later, made history as the first African American woman elected statewide when she was voted in as secretary of state in Wisconsin.

You can read more about the commemoration here.

Healthcare Worker Bill

Today, my colleagues and I introduced a billto align criminal penalties for battery and threats of violence against healthcare workers with battery and threats of violence committed against other critical public safety personnel like law enforcement officers, officers of the court, and certain state employees.

Over the past decade, health care providers across the nation and in Wisconsin have experienced a higher prevalence of violence in the workplace from patients and others. While healthcare providers are trained to deescalate situations that arise from emotional tension, being threatened with bodily harm by anyone should not be a job expectation for our healthcare workers in Wisconsin.

Last session, 2019 Wisconsin Act 97 was signed into law expanding the current Class H felony for battery to certain healthcare workers, but the legislation did not explicitly make a threat of violence to a healthcare worker a crime. Threats of violence may precipitate actual acts of violence. The public policy goal of our new bill is toprevent further threats of violence against healthcare workers and provide additional tools that will hopefully stop threats from becoming acts of violence.

Go Red for Women

Tomorrow is National Wear Red Day.Wear red to raise awareness about cardiovascular disease and help save lives. If you'd like to get involved visit Go Red For Women.

Facts about women and heart disease:

AMERICAN OVERSIGHT

- Cardiovascular disease is the number one killer of women, causing 1 in 3 deaths each year.
- Cardiovascular disease impacts some women at higher rates than others, but most cardiovascular diseases can still be prevented with education and healthy lifestyle changes.
- Heart disease and stroke can affect a woman at any age, making it vital for all women to understand their personal risk factors and family history.

---

"Representative" Vos - You can pick out your favorite charity all you want and try to look like a hero to Black History, Frontline Healthcare Workers and Women with Heart Disease, but the fact is YOU'RE A COWARD unwilling to face the music and chants of We The People. It is time for you to step down as our "Speaker" because you do not "speak" for us or many of our elected officials in the Assembly, much less "represent" the real Americans in your district.

Sincerely,

Kelly Cheramy

It seems we have laws to protect law enforcement. It just isn't being executed. Meanwhile why are you working against a colleague in the house, Rep.Ramthun, who is doing a fabulous job!!!! Are you actively working with the Left and allowing Wisconsin voter fraud to go unchecked!!?? We have seen multiple evidence of the fraud and it cannotve denied....enough to desertification the 10 electors. Don't look to be voted in again. Too many are watching your actions and choices. I don't need a placate reply either from your staffers.

Saving Echo Lake

Saving Echo Lake has been an issue of concern in the community, with constituents contacting my office asking for guidance on ways to restore the dam and preserve the lake.

The City of Burlington Park Board voted to remove the Echo Lake Dam, a recommendation that, in my opinion, goes against the viewpoint of a vast majority of citizens in Burlington.

On Monday, I sent a letter to the mayor and Burlington Common Council, urging them to schedule areferendum so the residents of Burlington can weigh in on the significance of the lake.

I also promised to work with local officials in any way possible to help obtain state grants to assist with the cost of rebuilding. Echo Lake is a beloved part of the community; saving it is an investment that’s worth the price.

The council met on Tuesday and plans to make its final decision on Wednesday, February 16th.

Robin:
I'm not a racist at all. I am just wondering when do they, ever, honor the White Race for anything? Is that not socially acceptable or possible in todays woke and cancel culture that is saturating and changing this America we all know and Love? As a Wisconsin Taxpaying Citizen, I would appreciate an answer Robin! Not trying to put you on the spot, but, we have to reverse course in this country before it's too late! This Nazi/democrat, progressive, blm and antifa supporting, domestic terrorist, democrat party has to be taken down! Tony Evers has to go also! I am an Independent that would never vote democrat! Thank you!

Awaiting your reply'

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

AMERICAN OVERSIGHT

Celebrating Black History Month

The state Capitol celebrates a prominent Wisconsin African American trailblazer, Vel Phillips. In November, theState Capitol and Executive Residence Board approved the statute of Phillips. It is expected to be placed on the Capitol grounds at the corner of WestMain Street and South Carroll Street in late 2022 or early 2023.

In 1951, Velvalea Phillips became the first African American woman to graduate from the University of Wisconsin-Madison Law School, and in 1956, she became the first woman and first African American on the Milwaukee Common Council.

Phillipswent on to become the first African American woman to become a judge in Wisconsin. And later, made history as the first African American woman elected statewide when she was voted in as secretary of state in Wisconsin.

You can read more about the commemoration here.

Healthcare Worker Bill

AMERICAN OVERSIGHT

Today, my colleagues and I introduced a billto align criminal penalties for battery and threats of violence against healthcare workers with battery and threats of violence committed against other critical public safety personnel like law enforcement officers, officers of the court, and certain state employees.

Over the past decade, health care providers across the nation and in Wisconsin have experienced a higher prevalence of violence in the workplace from patients and others. While healthcare providers are trained to deescalate situations that arise from emotional tension, being threatened with bodily harm by anyone should not be a job expectation for our healthcare workers in Wisconsin.

Last session, 2019 Wisconsin Act 97 was signed into law expanding the current Class H felony for battery to certain healthcare workers, but the legislation did not explicitly make a threat of violence to a healthcare worker a crime. Threats of violence may precipitate actual acts of violence. The public policy goal of our new bill is toprevent further threats of violence against healthcare workers and provide additional tools that will hopefully stop threats from becoming acts of violence.

Go Red for Women

AMERICAN OVERSIGHT

Tomorrow is National Wear Red Day.Wear red to raise awareness about cardiovascular disease and help save lives. If you'd like to get involved visit Go Red For Women.

Facts about women and heart disease:

AMERICAN OVERSIGHT

- Cardiovascular disease is the number one killer of women, causing 1 in 3 deaths each year.
- Cardiovascular disease impacts some women at higher rates than others, but most cardiovascular diseases can still be prevented with education and healthy lifestyle changes.
- Heart disease and stroke can affect a woman at any age, making it vital for all women to understand their personal risk factors and family history.

You pass racist bills. You don't have the right to say anything about Black History Month.

You say nothing as the Republican Party embraces white supremacist groups. You don't have the right to say anything about Black History Month.

I could go on and on. You're not a klansman kind of racist, but you are a racist.

Saving Echo Lake

Saving Echo Lake has been an issue of concern in the community, with constituents contacting my office asking for guidance on ways to restore the dam and preserve the lake.

The City of Burlington Park Board voted to remove the Echo Lake Dam, a recommendation that, in my opinion, goes against the viewpoint of a vast majority of citizens in Burlington.

On Monday, I sent a letter to the mayor and Burlington Common Council, urging them to schedule areferendum so the residents of Burlington can weigh in on the significance of the lake.

I also promised to work with local officials in any way possible to help obtain state grants to assist with the cost of rebuilding. Echo Lake is a beloved part of the community; saving it is an investment that’s worth the price.

The council met on Tuesday and plans to make its final decision on Wednesday, February 16th.

Subject: RE: Committee hearing 1664593 (wisconsin.gov)

Hello Representative Brandtjen,

I watched the hearing yesterday. I didn't hear an example of why the mayors' testifying in front of the public could damage Justice Gableman's investigation. I didn't see 100% of the hearing so maybe I missed it? If he did not provide this I'd still like to know some examples. This seems like a logical request to better understand the impasse and could potentially help quiet some of the negative allegations that are being made by the various parties involved.

Justice Gableman presented some troubling observations. I hope if there are continued hearings they are held in front of the public and include the accused as well as the accusers. Only hearing from one side does little to help those of us who are objectively trying to understand if our election process and its oversight needs significant change is justified.

Sincerely,
Jerry Tribbey

Subject: Committee hearing 1664593 (wisconsin.gov)

Thanks Nicholas.

Representative Brandtjen,

As the chair of the Assembly Campaigns and Elections Committee would you expect justice Gableman to provide examples of why testifying in front of the public could damage his investigation at your upcoming hearing?

AMERICAN OVERSIGHT

I ask because there seems to be an impasse between him and the mayors of Green Bay and Madison that continues to drag out his investigation and I assume consumes more taxpayer money. It seems reasonable that his questioning should be answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person. The explanation I have heard in the past for wanting to question in private is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

If justice Gableman doesn't offer examples could you please ask him to do so at the hearing?

Sincerely,
Jerry Tribbey

Resending as first attempt failed due to typo in Representative Vos's email address.

Representative Voss,

First, I want to clarify that I do not live in your assembly district. I live in the 53rd district. I'm writing directly to you because representative Schraa does not feel he can answer my questions (see comment from his staffer in the email below).

My question relates to the Justice Gableman investigation. As you know, last week the Committee on Campaigns and Elections passed a motion on a party line vote to extend or continue (it wasn't clear from the committee members' discussion on this point) Gableman's council. Why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

Hello Linda,

Thanks for passing along the hearing and executive session info. I was able to watch it on Wisconsin Eye. I was pleasantly surprised to hear the legislators agree to bring in WEC representation to answer the questions about the integrity of the voter registration data base. Gives me some comfort that there is a good faith effort to remove doubt about our election system. I do wonder why this investigation didn't take place prior to the 2020 election. As all three experts shared, these issues likely existed prior to the 2020 election. If the issues identified are serious, and they appear to be, I believe there needs to be common agreement to resolve them and get it done.

Regarding the authorization for Gableman's contract extension/continuation (I'd like to know if it is an extension or continuation), what is the justification? Why aren't the questions he is

AMERICAN OVERSIGHT

pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

AMERICAN OVERSIGHT

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

AMERICAN OVERSIGHT

STATE OF THE STATE

TUESDAY, FEBRUARY 15TH

AMERICAN OVERSIGHT

On Tuesday, February 15th at 7:00 pm, the governor will give his annual State of the State address before a joint session of the Wisconsin State Legislature.

You can watch it live on Wisconsin Eye.

In December, Senate President Chris Kapenga and I wrote a letter to Governor Evers inviting him to deliver the State of the State and requested he provides his plan for one of the biggest struggles across our state– the workforce crisis.

Currently, there are 130,000 job openings, while we have 93,000 people who arenot working. Employers continue to offer incentives, but government dependency has paralyzed many and pushed them away from self-dependency. Short-term assistance has quickly turned into long-term, unsustainable handouts.

We also requested he give an updated balance of the federal dollars under his unilateral control. The governor has mentioned allocations but little money has been expended. He hassaid he doesn't want billions sitting in Madison when it could be used to help Wisconsinites, but continues to sit on thefederal dollars.

How Dems Feel about Parents and School Choice

Yesterday, DemocratRep. Lee Snodgrass, member of minority leadership, and an officer for the Democratic Party of Wisconsin tweeted, "If parents want to 'have a say' in their child's education, they should home school or pay for private school tuition out of their family budget."

She later deleted the tweet.

Michigan Democrats did the exact same thing last month. First saying the purpose of public education was to teach students "what society needs them to know" and parents who want more input on what their kids are learning "have the option to choose to send their kids to a hand-selected private school at their own expense." Then deleted it and said,"parents need to have a say in their children’s education, end of story,"

Today, the top educator of Wisconsin, DPI superintendent Jill Underly, doubled down saying parents are "micromanaging curriculum" "preying on our parental emotions" and "weaponizing lessons". You can read the letter here.

Parents, not liberal bureaucrats, know what's best for their child's education and must always have a say. The Parental Bill of Rights is a package recently introduced that reaffirms that parents have the finaldecision regarding a child's religion, medical care, records, and education.

Prenatal Care Fraud

After one alderman called themisuseof taxpayer dollarsmeant to prevent infant mortality "disgraceful," the Milwaukee Common Council scheduled a hearing for February 18 about fraud in Wisconsin's prenatal care coordination industry.

Here's the initial story.

When asked by Journal Sentinel, the Evers Administration brushed it off as bad actors and quickly mentioned his efforts in expanding Medicaid.

My statement below:

"Over a decade ago, I was glad to help expose and eliminate the fraud in our childcare program. Now that it's happening again, we need to do our utmost to fix it so that the people who actually need it have those resources. Expanding Medicaid will not address the fraud. Having more oversight and eligibility checks will."

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

AMERICAN OVERSIGHT

STATE OF THE STATE

TUESDAY, FEBRUARY 15TH

AMERICAN OVERSIGHT

On Tuesday, February 15th at 7:00 pm, the governor will give his annual State of the State address before a joint session of the Wisconsin State Legislature.

You can watch it live on Wisconsin Eye.

In December, Senate President Chris Kapenga and I wrote a letter to Governor Evers inviting him to deliver the State of the State and requested he provides his plan for one of the biggest struggles across our state– the workforce crisis.

Currently, there are 130,000 job openings, while we have 93,000 people who arenot working. Employers continue to offer incentives, but government dependency has paralyzed many and pushed them away from self-dependency. Short-term assistance has quickly turned into long-term, unsustainable handouts.

We also requested he give an updated balance of the federal dollars under his unilateral control. The governor has mentioned allocations but little money has been expended. He hassaid he doesn't want billions sitting in Madison when it could be used to help Wisconsinites, but continues to sit on thefederal dollars.

How Dems Feel about Parents and School Choice

Yesterday, DemocratRep. Lee Snodgrass, member of minority leadership, and an officer for the Democratic Party of Wisconsin tweeted, "If parents want to 'have a say' in their child's education, they should home school or pay for private school tuition out of their family budget."

She later deleted the tweet.

Michigan Democrats did the exact same thing last month. First saying the purpose of public education was to teach students "what society needs them to know" and parents who want more input on what their kids are learning "have the option to choose to send their kids to a hand-selected private school at their own expense." Then deleted it and said,"parents need to have a say in their children’s education, end of story,"

Today, the top educator of Wisconsin, DPI superintendent Jill Underly, doubled down saying parents are "micromanaging curriculum" "preying on our parental emotions" and "weaponizing lessons". You can read the letter here.

Parents, not liberal bureaucrats, know what's best for their child's education and must always have a say. The Parental Bill of Rights is a package recently introduced that reaffirms that parents have the finaldecision regarding a child's religion, medical care, records, and education.

No concerns about the virus, gun violence, increase consumer prices so that the corporations can become richer while the working class struggles while your main focus is taking the right for people to vote to satisfy your dictatorship control mentality in dividing US!

Former White House press secretary said the complete liar the hoax fake bone spurs 'would roll his eyes at the rules, so we did, too'!

Your party is the complete opposite of pro-life concerning the virus and absolutely no concerns about gun violence!

We now have 11,556 virus deaths just in Wisconsin and you continue to have no concerns reflecting the negative mentality of I don't pay any taxes corporate just give me the money johnson and how he loves American and Wisconsin in NOT supporting vaccinations, wearing masks and bringing jobs to Wisconsin. All I know is that my mother would be kicking you in the ass for ignoring the facts about the virus!

We are seeing more and more gun violence by people that are NOT protecting themselves and how many police officers have been shot and killed and injured by shootings while showing no concerns!

We are seeing more and more people following the complete corporate liar the hoax fake bone spurs mentality of not following rules, regulations, laws and our constitution - **Former White House press secretary said the complete liar the hoax fake bone spurs 'would roll his eyes at the rules, so we did, too'!**

Dismantling the Wisconsin Elections Commission was on agenda for corporate just give me the money johnson meeting at state Capitol, text messages show who is also a great supporter of the dictatorship mentality of his good friend the hoax fake bone spurs who is also a complete corporate liar! And double dip vos also supports taking away the people's right to vote while taking the real taxpayer's money!

And this is the dictator that he supports and the dictator supports him!

Confederate Flags, Conspiracies, and the Ghost of JFK Jr.: What I Saw at bone spur's Bananas texas Rally!

- At a rally in texas, bone spurs called for nationwide protests if prosecutors investigating him "do anything illegal."
- He sought to link the investigations to his baseless claim that the 2020 election was rigged.

Speaking at a texas rally, former president the hoax fake bone spurs called for nationwide protests if prosecutors investigating him and his businesses "do anything illegal."

In the speech, he appeared to link the investigations to his baseless claim that the 2020 election was rigged, which led to the January 6 Capitol riot.

"If these radical, vicious, racist prosecutors do anything wrong or illegal, I hope we are going to have in this country the biggest protest we have ever had in Washington DC, in New York, in Atlanta and elsewhere because our country and our elections are corrupt," bone spurs told the crowd in conroe, texas on Saturday night.

So, the hoax fake bone spurs didn't have anything to do with Jan. 6th the way he is talking now? How much more evidence do we need?

When someone has never been held accountable it is hard to face the facts!

Former presidentthe hoax fake bone spur's chilling comments at his texas rally last week offeringpardons to Jan. 6 riotersif he's elected and calling for "massive protests" if prosecutors take action against him are signs that he's in "burn-it-all-down mode," warned Monday.

The reporter also pointed out the similarities between bone spur's call for the "biggest protests" the nation has ever seen if he is criminally charged now to his call at his Jan. 6, 2021, rally to "fight" and march on the U.S. Capitol.

A key factor in his behavior is that the unfettered bone spurs has so far suffered no significant consequences other than losing the 2020 presidential election toJoe Biden.

"You see the portrait of somebody who really doesn't care anymore and wants to put it all on his terms and who knows that he can keep pushing the bounds, and

there basically, so far, other than losing the election ... there have not been that many penalties,"

A republican representative says the hoax fake bone spurs shouldn't have torn up White House documents, says 'nobody should be exempt' from records laws!

The National Archives and Records Administration — which is charged with preserving all presidential records — was forced to retrieve boxes of documents from former president bone spur's mar-a-lago residence (that we the real taxpayer's have paid for) last month that were improperly removed from the White House.

The boxes were supposed to be turned over to the agency at the end of his presidency.

ThePresidential Records Actrequires the preservation of memos, letters, notes, emails, faxes and other written communications related to a president's official duties.

Presidential Records Act (PRA) of 1978

The Presidential Records Act (PRA) of 1978, 44 U.S.C. ß2201-2209, governs the official records of Presidents and...

You support dictatorship and dividing US! This is your love!

putin and un are so proud of you!

Subject: Re: Deleted Tweets and State of the State

Sir:
I think it's hubris for parents to think that they know what's best for children, educationally. I would not go into your or their place of business and tell you and them what's best for it. Parents are not aware of the standards to which Wisconsin teachers must teach. MUST TEACH. Please go to the State Standards, read them, perhaps just area of study, and then tell me you and they know better than the professionals who spent years of their life being trained for the job. We are not allowed to pick and choose what we teach. To do so will lead to a lesser education for our children

Robin - the only way for us to break this ridiculous attitude that permeates the public school teachers and administrators is to give all parents school choice. The money follows the student no matter where the children go, public school, parochial school, home school or charter school let everyone compete for the opportunity to educate our children. We cannot sit back and hope and expect that things will change because we want them too. These people have their agenda and they feel we are all out of touch or have no idea how to educate children. Let's be honest here the public school system here is failing us and we need drastic measures to right the ship.

The Milwaukee public school system is a complete failure but it's great at spending money to teachers and administrators while getting a proficiency rating in the neighborhood or 4 percent.

It's time to be bold again like we were with Act 10 before our entire system collapses.

AMERICAN OVERSIGHT

From: Jack landwehr <jlandwehr@ameritech.net>
Sent: Saturday, February 12, 2022, 7:06 PM
To: Speaker Robin Vos <Rep.vos@legis.wi.gov>
Subject: Re: Deleted Tweets and State of the State

Dear Speaker,

You got a lot on your plate. Only an idiot, or a person intentionally causing harm would think it is good policy to increase monthly payments for unemployment at a time when employers cannot find workers. We have a certain percentage of adults that do not want to work, paying them more not to work is not going to help the cause. Families now receiving the "Family Tax Credit" will not seek employment.

The Democrats now want to have Government Funded Pre-K. Who is raising these children, the state of the parents? No only that, if there is government funded Pre-K, do all existing Pre-K go out of business? If there are free Pre-K schools, which parent will bother to pay for Pre-K... Maybe the rich to keep their child in a protected environment. Most studies of Pre-K students show that by the third grade, there is little or no difference between children with or without Pre-K.

The greatest influence on children are PARENTS. There are plans to build another detention center in Caledonia. On Neighbors social media a person posted a question on how to stop this project. I responded, "Better Parenting".

Your duty is to protect election laws and determine which group of people conspired to cheat in the 2020 election. Time is running out! Make the tough call and find the election criminals.

The week the Racine DA refused to charge the WEC or employees of a local convulsant home with filling out ballots for residents because she said she the employees were just following directions from WEC she could not charge WEC members because they did not live in her jurisdiction.... Which makes no sense because if I commit a crime in another county, I would be charged.

Enough is enough. Time to get serious and stop the stall tactics. Come November, Democratic City Clerks will start to destroy all materials related to the 2020 Election. I have already asked that WI Assemble and Senate pass a law preventing any destruction of voting materials and records related to the 2020 Election until all investigations are completed and every trail related to vote fraud in the 2020 election are finalized. I have not heard one single word on protecting evidance in the 2020 election yet?

Sincerely,

John Harry Landwehr

Why do you think you have the right to tell the Governor what he should say in his State of the State address? You are not the Governor. Parents send their children to school for professionals to teach them. If they have a problem with anything they should discuss it with the teacher and not try to make all the children conform to their ideas

AMERICAN OVERSIGHT

STATE OF THE STATE

TUESDAY, FEBRUARY 15TH

AMERICAN OVERSIGHT

On Tuesday, February 15th at 7:00 pm, the governor will give his annual State of the State address before a joint session of the Wisconsin State Legislature.

You can watch it live on Wisconsin Eye.

In December, Senate President Chris Kapenga and I wrote a letter to Governor Evers inviting him to deliver the State of the State and requested he provides his plan for one of the biggest struggles across our state– the workforce crisis.

Currently, there are 130,000 job openings, while we have 93,000 people who arenot working. Employers continue to offer incentives, but government dependency has paralyzed many and pushed them away from self-dependency. Short-term assistance has quickly turned into long-term, unsustainable handouts.

We also requested he give an updated balance of the federal dollars under his unilateral control. The governor has mentioned allocations but little money has been expended. He hassaid he doesn't want billions sitting in Madison when it could be used to help Wisconsinites, but continues to sit on thefederal dollars.

How Dems Feel about Parents and School Choice

Yesterday, DemocratRep. Lee Snodgrass, member of minority leadership, and an officer for the Democratic Party of Wisconsin tweeted, "If parents want to 'have a say' in their child's education, they should home school or pay for private school tuition out of their family budget."

She later deleted the tweet.

Michigan Democrats did the exact same thing last month. First saying the purpose of public education was to teach students "what society needs them to know" and parents who want more input on what their kids are learning "have the option to choose to send their kids to a hand-selected private school at their own expense." Then deleted it and said,"parents need to have a say in their children's education, end of story,"

Today, the top educator of Wisconsin, DPI superintendent Jill Underly, doubled down saying parents are "micromanaging curriculum" "preying on our parental emotions" and "weaponizing lessons". You can read the letter here.

Parents, not liberal bureaucrats, know what's best for their child's education and must always have a say. The Parental Bill of Rights is a package recently introduced that reaffirms that parents have the finaldecision regarding a child's religion, medical care, records, and education.

Prenatal Care Fraud

After one alderman called themisuseof taxpayer dollarsmeant to prevent infant mortality "disgraceful," the Milwaukee Common Council scheduled a hearing for February 18 about fraud in Wisconsin's prenatal care coordination industry.

Here's the initial story.

When asked by Journal Sentinel, the Evers Administration brushed it off as bad actors and quickly mentioned his efforts in expanding Medicaid.

My statement below:

"Over a decade ago, I was glad to help expose and eliminate the fraud in our childcare program. Now that it's happening again, we need to do our utmost to fix it so that the people who actually need it have those resources. Expanding Medicaid will not address the fraud. Having more oversight and eligibility checks will."

VOS EXPOSED What a ride, after the language of SB 214 (bill letting central counts open and scan absentee ballots on Mondays before elections) was inserted into another bill, and that bill passed - because Robin Vos lied through his teeth to his own Republican members not to mentioned violated numerous parliamentary rules - the Republicans finally found their backbone. They took Vos into Caucus and they tore Vos a new one, they were furious at him for lying by omission, working with the Democrats in secret. The "amendment", which was really the SB 214 language, was defeated! They stripped that amendment. SB 214 did not pass. Late night stuff.

Grassroots citizens accomplished this - they got the attention of their Reps.

Vos, R-Rochester, said Thursday that Gableman, whom Vos hired last year, will “hopefully” release the report on the GOP-ordered review by early next week. He has previously said the investigation should be completed by the end of February, which is Monday.

Asked whether he will take seriously Gableman’s report when it comes out, Democratic Gov. Tony Evers said Thursday, “I know they spent a lot of money and effort, I will certainly read it.

AMERICAN OVERSIGHT

... But at the end of the day, the people of Wisconsin have to know that that election was very secure."

For Your Information on SB 214

In short, what REALLY happened: Vos tells Janel to keep SB 214 (the horrendous bill opening the door wide to election fraud, letting absentee ballots be opened the Mondays before Tuesday election days, and scanning those ballots on Mondays) before his committee. Vos then scams everyone - working with the Democrats. He takes the text out of SB 214, and puts it in AB 941. AB 941 already had public notice and a hearing on it - and brought it to a vote. There was no motion made to do this either.

HE NEVER TOLD HIS OWN PARTY. SB 214 WAS PUT INTO AB 941, Vos did that. He never told any Republican.

RepublicanAssembly Representatives did not know they were voting YES on 214. Vos withheld that information from them, his own party. Vos let the Democrats write the language - so he could keep it from his own party. Do not let any Rep. tell you "the democrats did it", it was all Vos. Tim Ramthum is comingout with a more detailed report/press release tonight.

Wisconsin state Senator Kathy Bernier and Speaker Robin Vos are at it again!

That means Trump supporters and conservatives are about to get screwed again by these two treasonous RINOs.

The Gateway Pundit was tipped off this morning that Vos and Bernier are pushing legislation that gives a head start to the election cheating

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

https://exposure.locals.com/upost/1588737/late-breaking-news-wi-senate-bill-is-hr1-for-the-people-wi-version

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta’s father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.

AMERICAN OVERSIGHT

Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

Racine County will be driving policy for the entire state.

This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide
This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

In my In-box this morning - Patriot News:

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;
https://rumble.com/vqyrtf-racine-council-approving-160-locations-for-zuckerberg-voting-van.html
Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee. (See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

AMERICAN OVERSIGHT

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.
WHO GIVES ERIC THE DATA?
Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

AMERICAN OVERSIGHT

Subject:700 Calls into Bernier's Office in 1 Day! - Did You Contact the 8 GOP County Parties in the 23rd Senate District?

Did You Make Your Calls to the 8 GOP County Parties

in Senator Bernier's District?

I Did – My Update is Below

Patriots,

Awesome News!

YOU Mobilized700 callsinto RINO Senator Kathy Bernier's office in1 Dayaccording to the 9-minute interview she gave this morning on WISN'sUpFront Show.

Watch for yourself - 2:23-minute mark:https://www.wisn.com/article/senator-end-election-probe/38558204

If you value your Rights, Freedom, and Re-Stabilizing our Society, Please Speak UpNowon key issues!

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OBJ], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier & Zuckerbergarticle - https://www.wheelerbilltracking.com/upload/files/frontpage/doc_62442527461bb769c8023e1.03394388.pdf

Vos & Company can wish on any star they choose, but the matter of Election Integrity will NOT be going away anytime soon.
Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

AMERICAN OVERSIGHT

Gableman Presentation

Monday, Dec. 20

Lilydale Dance Hall in Chippewa Falls

6:30 p.m.

*Pre-Registration is Required

Gateway Pundit article:

https://www.thegatewaypundit.com/2021/12/wisconsin-gop-rep-kathy-bernier-wants-end-election-integrity-investigations-state/

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM
WHEREAS, fair and accurate elections are the foundation of American government; and
WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and
WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and
WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and
WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and
WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years! The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Is Ridgewood an isolated event or a well orchestrated conspiracy? A Ridgewood employee inserted her email address into the WEC database system. The results are obvious. The pop up illuminates how Ridgewood allowed volunteers through the 👇

Press Releases, State Oversight
Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

AMERICAN OVERSIGHT

John Pappone

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born
State Representative
39th Assembly District
(608) 266-2540

Speaker Vos... When will you support a full forensic audit

This is what is being said on social media about u

I specifically asked Jovan Hutton Pulitzer about Robin Vos plane ride with Trump. Jovan is the man behind the AZ audit. Here's what he had to say about Vos. Don't believe him when Vos says they will audit.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

https://rumble.com/vli8i3-ramthun-report-episode-26-seth-keshel-high-security-ballots-and-next-steps-.html

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

Template for writing to Janel Heinrich, Director of Public Health in Madison and Dane County:

Attn: Janel Heinrich
I am writing to get more information about the Mask Mandate beginning tomorrow in Dane County. Under what authority do you have to force this on businesses which transfers those requirements to customers? The WI Supreme Court stated the mask mandate is unlawful. The State of Emergency ended March 31, 2021. I would like a specific answer to my question including the statute where you have this authority and how you can implement this without permission of the legislature.

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

H/T Mr J

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

Is this true! WHAT OUR OUR ELECTED OFFICIAL'S DOING ABOUT IT OR ARE THEY ENABLING THIS

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: "Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity."

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin's November election.

In her statement she writes: "voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination."

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

Subject: Election Audit
All,
Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Vos, R-Rochester, said Thursday that Gableman, whom Vos hired last year, will "hopefully" release the report on the GOP-ordered review by early next week. He has previously said the investigation should be completed by the end of February, which is Monday.

Asked whether he will take seriously Gableman's report when it comes out, Democratic Gov. Tony Evers said Thursday, "I know they spent a lot of money and effort, I will certainly read it. ... But at the end of the day, the people of Wisconsin have to know that that election was very secure."

https://madison.com/news/local/govt-and-politics/robin-vos-time-may-have-run-out-to-implement-any-recommendations-from-gableman-probe/article_0d0021b8-fd15-5393-817f-6e0e5eee94c0.html

For Your Information on SB 214

In short, what REALLY happened: Vos tells Janel to keep SB 214 (the horrendous bill opening the door wide to election fraud, letting absentee ballots be opened the Mondays before Tuesday election days, and scanning those ballots on Mondays) before his committee. Vos then scams

AMERICAN OVERSIGHT

everyone - working with the Democrats. He takes the text out of SB 214, and puts it in AB 941. AB 941 already had public notice and a hearing on it - and brought it to a vote. There was no motion made to do this either.

HE NEVER TOLD HIS OWN PARTY. SB 214 WAS PUT INTO AB 941, Vos did that. He never told any Republican.

RepublicanAssembly Representatives did not know they were voting YES on 214. Vos withheld that information from them, his own party. Vos let the Democrats write the language - so he could keep it from his own party. Do not let any Rep. tell you "the democrats did it", it was all Vos. Tim Ramthum is comingout with a more detailed report/press release tonight.

Wisconsin state Senator Kathy Bernier and Speaker Robin Vos are at it again!

That means Trump supporters and conservatives are about to get screwed again by these two treasonous RINOs.

The Gateway Pundit was tipped off this morning that Vos and Bernier are pushing legislation that gives a head start to the election cheating

AMERICAN OVERSIGHT

The GOP in counties across the state of Wisconsin are calling for Speaker Vos to resign. At least one county also voted for a resolution to decertify the 2020 Election.

We reported a couple days ago that Sheboygan County in Wisconsin voted for a resolution demanding that Speaker Robin Vos resign as the Speaker of the great state of Wisconsin.

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta's father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

AMERICAN OVERSIGHT

Racine County will be driving policy for the entire state.

This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

In my In-box this morning - Patriot News:

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

AMERICAN OVERSIGHT

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;
https://rumble.com/vqyrtf-racine-council-approving-160-locations-for-zuckerberg-voting-van.html
Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee. (See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.

WHO GIVES ERIC THE DATA?

Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

AMERICAN OVERSIGHT

Subject:700 Calls into Bernier's Office in 1 Day! - Did You Contact the 8 GOP County Parties in the 23rd Senate District?

Did You Make Your Calls to the 8 GOP County Parties

in Senator Bernier's District?

I Did – My Update is Below

Patriots,

Awesome News!

YOU Mobilized700 callsinto RINO Senator Kathy Bernier's office in1 Dayaccording to the 9-minute interview she gave this morning on WISN'sUpFront Show.

Watch for yourself - 2:23-minute mark:https://www.wisn.com/article/senator-end-election-probe/38558204

If you value your Rights, Freedom, and Re-Stabilizing our Society, Please Speak UpNowon key issues!

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OBJ], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier & Zuckerbergarticle -
https://www.wheelerbilltracking.com/upload/files/frontpage/doc_62442527461bb769c8023e1.03394388.pdf

Vos & Company can wish on any star they choose, but the matter of Election Integrity will NOT be going away anytime soon.
Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

AMERICAN OVERSIGHT

Gableman Presentation

Monday, Dec. 20

Lilydale Dance Hall in Chippewa Falls

6:30 p.m.

*Pre-Registration is Required

Gateway Pundit article:

https://www.thegatewaypundit.com/2021/12/wisconsin-gop-rep-kathy-bernier-wants-end-election-integrity-investigations-state/

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM
WHEREAS, fair and accurate elections are the foundation of American government; and
WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and
WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and
WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and
WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and
WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years! The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

AG Kaul says nothing to see here, he has other priorities. Rep Ramthun says there is plenty to see.

Remember legislators are claiming they can't decertify an election. They have no mechanism to address fraud. FRAUD?!?!?!

And still not ONE senator will co-author the Ramthun Decertify Joint Resolution. Not ONE!

AMERICAN OVERSIGHT

Except for Reps Ramthun and Brandtjen, none of our legislators think fraud in an election is a problem. Not ONE!

As Wisconsin still waits for Speaker Vos, Assembly Majority Leader Steineke, Senate President Kapenga and Senate majority Leader LeMahieu to sign the Brandtjen subpoenas to start a full forensic physical and cyber audit.https://rumble.com/vpqxk0-the-real-story-oan-wisconsin-decertification-with-rep.-timothy-ramthun.html

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Is Ridgewood an isolated event or a well orchestrated conspiracy? A Ridgewood employee inserted her email address into the WEC database system. The results are obvious. The pop up illuminates how Ridgewood allowed volunteers through the 👇

August 19, 2020
Press Releases, State Oversight
Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Today is a good day to remind ALL to consider NOT donating to any political official or candidate or entity who is NOT taking ACTION to FIX 2020.

Exercise the power of the purse.

Money is the lifeblood of politicians.

Cut them off. Deny them the money IF they are NOT taking action to fight for the will of We The People.

Anyone disagree?

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

AMERICAN OVERSIGHT

Regards

John Pappone

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born
State Representative
39th Assembly District
(608) 266-2540

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

https://rumble.com/vli8i3-ramthun-report-episode-26-seth-keshel-high-security-ballots-and-next-steps-.html

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

Jheinrich@publichealthmdc.com

Template for writing to Janel Heinrich, Director of Public Health in Madison and Dane County:

Attn: Janel Heinrich
I am writing to get more information about the Mask Mandate beginning tomorrow in Dane County. Under what authority do you have to force this on businesses which transfers those requirements to customers? The WI Supreme Court stated the mask mandate is unlawful. The State of Emergency ended March 31, 2021. I would like a specific answer to my question including the statute where you have this authority and how you can implement this without permission of the legislature.
Regards,

H/T to cDemi26 and Tore Says + Wisconsin

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

H/T Mr J

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

Is this true! WHAT OUR OUR ELECTED OFFICIAL'S DOING ABOUT IT OR ARE THEY ENABLING THIS

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: "Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity."

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin's November election.

In her statement she writes: "voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination."

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

Subject: Election Audit
All,
Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

For Your Information on SB 214

In short, what REALLY happened: Vos tells Janel to keep SB 214 (the horrendous bill opening the door wide to election fraud, letting absentee ballots be opened the Mondays before Tuesday election days, and scanning those ballots on Mondays) before his committee. Vos then scams everyone - working with the Democrats. He takes the text out of SB 214, and puts it in AB 941. AB 941 already had public notice and a hearing on it - and brought it to a vote. There was no motion made to do this either.

HE NEVER TOLD HIS OWN PARTY. SB 214 WAS PUT INTO AB 941, Vos did that. He never told any Republican.

RepublicanAssembly Representatives did not know they were voting YES on 214. Vos withheld that information from them, his own party. Vos let the Democrats write the language - so he could keep it from his own party. Do not let any Rep. tell you "the democrats did it", it was all Vos. Tim Ramthum is comingout with a more detailed report/press release tonight.

Peter

Wisconsin state Senator Kathy Bernier and Speaker Robin Vos are at it again!

That means Trump supporters and conservatives are about to get screwed again by these two treasonous RINOs.

The Gateway Pundit was tipped off this morning that Vos and Bernier are pushing legislation that gives a head start to the election cheating

The GOP in counties across the state of Wisconsin are calling for Speaker Vos to resign. At least one county also voted for a resolution to decertify the 2020 Election.

AMERICAN OVERSIGHT

We reported a couple days ago that Sheboygan County in Wisconsin voted for a resolution demanding that Speaker Robin Vos resign as the Speaker of the great state of Wisconsin.

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta's father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.

AMERICAN OVERSIGHT

Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

Racine County will be driving policy for the entire state.

This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide
This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

In my In-box this morning - Patriot News:

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;
https://rumble.com/vqyrtf-racine-council-approving-160-locations-for-zuckerberg-voting-van.html
Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee. (See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

AMERICAN OVERSIGHT

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.
WHO GIVES ERIC THE DATA?
Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

AMERICAN OVERSIGHT

Subject:700 Calls into Bernier's Office in 1 Day! - Did You Contact the 8 GOP County Parties in the 23rd Senate District?

Did You Make Your Calls to the 8 GOP County Parties

in Senator Bernier's District?

I Did – My Update is Below

Patriots,

Awesome News!

YOU Mobilized700 callsinto RINO Senator Kathy Bernier's office in1 Dayaccording to the 9-minute interview she gave this morning on WISN'sUpFront Show.

Watch for yourself - 2:23-minute mark:https://www.wisn.com/article/senator-end-election-probe/38558204

If you value your Rights, Freedom, and Re-Stabilizing our Society, Please Speak UpNowon key issues!

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring, running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier & Zuckerbergarticle - https://www.wheelerbilltracking.com/upload/files/frontpage/doc_62442527461bb769c8023e1.03394388.pdf

Vos & Company can wish on any star they choose, but the matter of Election Integrity will NOT be going away anytime soon.
Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

AMERICAN OVERSIGHT

Gableman Presentation

Monday, Dec. 20

Lilydale Dance Hall in Chippewa Falls

6:30 p.m.

*Pre-Registration is Required

Gateway Pundit article:

https://www.thegatewaypundit.com/2021/12/wisconsin-gop-rep-kathy-bernier-wants-end-election-integrity-investigations-state/

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

AMERICAN OVERSIGHT

Vos , Jagler

We are so sick of Weak willed Republicans who do nothing..After ample evidence has been produced by Justice Gableman, The Labs Audit and the Racine County Sheriff... You do nothing to support voter integrity... This is an American issue.. You should be behind getting to the truth no matter the outcome..

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM
WHEREAS, fair and accurate elections are the foundation of American government; and
WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and
WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and
WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and
WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and
WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years! The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

Wed, Jan 12

AG Kaul says nothing to see here, he has other priorities. Rep Ramthun says there is plenty to see.

Remember legislators are claiming they can't decertify an election. They have no mechanism to address fraud. FRAUD?!?!?!

And still not ONE senator will co-author the Ramthun Decertify Joint Resolution. Not ONE!

AMERICAN OVERSIGHT

Except for Reps Ramthun and Brandtjen, none of our legislators think fraud in an election is a problem. Not ONE!

As Wisconsin still waits for Speaker Vos, Assembly Majority Leader Steineke, Senate President Kapenga and Senate majority Leader LeMahieu to sign the Brandtjen subpoenas to start a full forensic physical and cyber audit.https://rumble.com/vpqxk0-the-real-story-oan-wisconsin-decertification-with-rep.-timothy-ramthun.html

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Grassroots Patriots Uncover What Really Happen in the 2020 Election.... It is stomach churning. The information has been given to Brandtjen, Ranthum, Gableman and six Attorneys who now have the documents in their possession. It is the road map to the massive fraud in the Nov 3, 2020 election. Inquires are set to begin shortly into key areas of the state. It will show how Wisconsin’s voting system was corrupted by private money and by willing public officials. Public officials allowing their government held positions to be corrupted. Public officials

AMERICAN OVERSIGHT

furthered the division and racism within our country by utilizing our very voting system against us. Democrats harvested votes by race.
Why didn't the state media find this extensive Election fraud? Answer: they never looked.
Where Is the FBI? Where is the Wisconsin State Dept.
of Justice? Where are our Sheriffs?

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Is Ridgewood an isolated event or a well orchestrated conspiracy? A Ridgewood employee inserted her email address into the WEC database system. The results are obvious. The pop up illuminates how Ridgewood allowed volunteers through the 👇

August 19, 2020
Press Releases, State Oversight
Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Today is a good day to remind ALL to consider NOT donating to any political official or candidate or entity who is NOT taking ACTION to FIX 2020.

Exercise the power of the purse.

Money is the lifeblood of politicians.

Cut them off. Deny them the money IF they are NOT taking action to fight for the will of We The People.

Anyone disagree?

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

AMERICAN OVERSIGHT

Regards

John Pappone

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born
State Representative
39th Assembly District
(608) 266-2540
Rep.Born@legis.wisconsin.gov

Speaker Vos... When will you support a full forensic audit

This is what is being said on social media about u

I specifically asked Jovan Hutton Pulitzer about Robin Vos plane ride with Trump. Jovan is the man behind the AZ audit. Here's what he had to say about Vos. Don't believe him when Vos says they will audit.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

https://rumble.com/vli8i3-ramthun-report-episode-26-seth-keshel-high-security-ballots-and-next-steps-.html

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

Template for writing to Janel Heinrich, Director of Public Health in Madison and Dane County:

Attn: Janel Heinrich
I am writing to get more information about the Mask Mandate beginning tomorrow in Dane County. Under what authority do you have to force this on businesses which transfers those requirements to customers? The WI Supreme Court stated the mask mandate is unlawful. The State of Emergency ended March 31, 2021. I would like a specific answer to my question including the statute where you have this authority and how you can implement this without permission of the legislature.

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

H/T Mr J

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

I AM HEARING A WISCONSIN LEGISLATOR ASKING FOR ACTION .... WHO PLANS ON DOING SOMETHING ABOUT IT

Thank you Rep. Rambunctious and Brandjen

KEEP your HANDS off the MACHINES, Dominion!!

WI State Rep. Ranthum goes on to say in his Statement from the Cyber Symposium:

"I call upon Speaker Vos to either approve Rep. Brandtjen's subpoenas, OR that either Speaker Vos or Rep. Brandtjen seek an immediate injunction to terminate Dominion's desired actions

AMERICAN OVERSIGHT

until they provide a full and complete image of each machine they wish to upgrade, before doing so.

This needs to be done ASAP.

Furthermore, I question the legality of Dominion doing any maintenance on any voting machine before the 22-month record retention requirement per state statute."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

Is this true! WHAT OUR OUR ELECTED OFFICIAL'S DOING ABOUT IT OR ARE THEY ENABLING THIS

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: “Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity.”

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin’s November election.

In her statement she writes: “voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination.”

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

Wisconsin state Senator Kathy Bernier and Speaker Robin Vos are at it again!

That means Trump supporters and conservatives are about to get screwed again by these two treasonous RINOs.

The Gateway Pundit was tipped off this morning that Vos and Bernier are pushing legislation that gives a head start to the election cheating

AMERICAN OVERSIGHT

The GOP in counties across the state of Wisconsin are calling for Speaker Vos to resign. At least one county also voted for a resolution to decertify the 2020 Election.

We reported a couple days ago that Sheboygan County in Wisconsin voted for a resolution demanding that Speaker Robin Vos resign as the Speaker of the great state of Wisconsin.

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta's father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

AMERICAN OVERSIGHT

Racine County will be driving policy for the entire state.

This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide
This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
In my In-box this morning - Patriot News:

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

AMERICAN OVERSIGHT

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;
https://rumble.com/vqyrtf-racine-council-approving-160-locations-for-zuckerberg-voting-van.html
Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee. (See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.

WHO GIVES ERIC THE DATA?

Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

AMERICAN OVERSIGHT

Subject:700 Calls into Bernier's Office in 1 Day! - Did You Contact the 8 GOP County Parties in the 23rd Senate District?

Did You Make Your Calls to the 8 GOP County Parties

in Senator Bernier's District?

I Did – My Update is Below

Patriots,

Awesome News!

YOU Mobilized700 callsinto RINO Senator Kathy Bernier's office in1 Dayaccording to the 9-minute interview she gave this morning on WISN'sUpFront Show.

Watch for yourself - 2:23-minute mark:https://www.wisn.com/article/senator-end-election-probe/38558204

If you value your Rights, Freedom, and Re-Stabilizing our Society, Please Speak UpNowon key issues!

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OBJ], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier & Zuckerbergarticle - https://www.wheelerbilltracking.com/upload/files/frontpage/doc_62442527461bb769c8023e1.03394388.pdf

Vos & Company can wish on any star they choose, but the matter of Election Integrity will NOT be going away anytime soon.
Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

AMERICAN OVERSIGHT

Gableman Presentation

Monday, Dec. 20

Lilydale Dance Hall in Chippewa Falls

6:30 p.m.

*Pre-Registration is Required

Gateway Pundit article:

https://www.thegatewaypundit.com/2021/12/wisconsin-gop-rep-kathy-bernier-wants-end-election-integrity-investigations-state/

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM
WHEREAS, fair and accurate elections are the foundation of American government; and
WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and
WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and
WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and
WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and
WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years! The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

Wed, Jan 12

AG Kaul says nothing to see here, he has other priorities. Rep Ramthun says there is plenty to see.

Remember legislators are claiming they can't decertify an election. They have no mechanism to address fraud. FRAUD?!?!?!

And still not ONE senator will co-author the Ramthun Decertify Joint Resolution. Not ONE!

AMERICAN OVERSIGHT

Except for Reps Ramthun and Brandtjen, none of our legislators think fraud in an election is a problem. Not ONE!

As Wisconsin still waits for Speaker Vos, Assembly Majority Leader Steineke, Senate President Kapenga and Senate majority Leader LeMahieu to sign the Brandtjen subpoenas to start a full forensic physical and cyber audit.https://rumble.com/vpqxk0-the-real-story-oan-wisconsin-decertification-with-rep.-timothy-ramthun.html

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Is Ridgewood an isolated event or a well orchestrated conspiracy? A Ridgewood employee inserted her email address into the WEC database system. The results are obvious. The pop up illuminates how Ridgewood allowed volunteers through the 👇

August 19, 2020
Press Releases, State Oversight
Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Today is a good day to remind ALL to consider NOT donating to any political official or candidate or entity who is NOT taking ACTION to FIX 2020.

Exercise the power of the purse.

Money is the lifeblood of politicians.

Cut them off. Deny them the money IF they are NOT taking action to fight for the will of We The People.

Anyone disagree?

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

AMERICAN OVERSIGHT

Regards

John Pappone

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born
State Representative
39th Assembly District
(608) 266-2540

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

https://rumble.com/vli8i3-ramthun-report-episode-26-seth-keshel-high-security-ballots-and-next-steps-.html

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

H/T Mr J

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

Is this true! WHAT OUR OUR ELECTED OFFICIAL'S DOING ABOUT IT OR ARE THEY ENABLING THIS

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: "Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity."

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin's November election.

In her statement she writes: "voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination."

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

Subject: Election Audit
All,
Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

The GOP in counties across the state of Wisconsin are calling for Speaker Vos to resign. At least one county also voted for a resolution to decertify the 2020 Election.

AMERICAN OVERSIGHT

We reported a couple days ago that Sheboygan County in Wisconsin voted for a resolution demanding that Speaker Robin Vos resign as the Speaker of the great state of Wisconsin.

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta’s father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.

AMERICAN OVERSIGHT

Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

Racine County will be driving policy for the entire state.

by GodsAngell • 7mo ago (+2/-0)

This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide
This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

https://journaltimes.com/news/local/sanders-follows-biden-in-endorsing-unified-referendum-yes-campaign-is-surprised/article_6603b168-1461-511a-949d-85dc3f83c792.html

In my In-box this morning - Patriot News:

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

AMERICAN OVERSIGHT

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;
https://rumble.com/vqyrtf-racine-council-approving-160-locations-for-zuckerberg-voting-van.html
Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee.
(See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

AMERICAN OVERSIGHT

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.
WHO GIVES ERIC THE DATA?
Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

AMERICAN OVERSIGHT

Subject:700 Calls into Bernier's Office in 1 Day! - Did You Contact the 8 GOP County Parties in the 23rd Senate District?

Did You Make Your Calls to the 8 GOP County Parties

in Senator Bernier's District?

I Did – My Update is Below

Patriots,

Awesome News!

YOU Mobilized700 callsinto RINO Senator Kathy Bernier's office in1 Dayaccording to the 9-minute interview she gave this morning on WISN'sUpFront Show.

Watch for yourself - 2:23-minute mark:https://www.wisn.com/article/senator-end-election-probe/38558204

If you value your Rights, Freedom, and Re-Stabilizing our Society, Please Speak UpNowon key issues!

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OBJ], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier & Zuckerbergarticle - https://www.wheelerbilltracking.com/upload/files/frontpage/doc_62442527461bb769c8023e1.03394388.pdf

Vos & Company can wish on any star they choose, but the matter of Election Integrity will NOT be going away anytime soon.
Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

AMERICAN OVERSIGHT

Gableman Presentation

Monday, Dec. 20

Lilydale Dance Hall in Chippewa Falls

6:30 p.m.

*Pre-Registration is Required

Gateway Pundit article:

https://www.thegatewaypundit.com/2021/12/wisconsin-gop-rep-kathy-bernier-wants-end-election-integrity-investigations-state/

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM
WHEREAS, fair and accurate elections are the foundation of American government; and
WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and
WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and
WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and
WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and
WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years! The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

Wed, Jan 12

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Is Ridgewood an isolated event or a well orchestrated conspiracy? A Ridgewood employee inserted her email address into the WEC database system. The results are obvious. The pop up illuminates how Ridgewood allowed volunteers through the 👇

AMERICAN OVERSIGHT

Administrator of the Wisconsin Election Commission Meagan Wolfe Speaking at Joint Legislative Audit Committee on November 9, 2021. The committee was asking Wolfe about the recent legislative audit that was done on the November 2020 election.
Some takeaways from the discussion:
11:05 Rep. John Macco 88th District Calls Wolfe's comments repugnant.
Why wasn't the commission here so this committee could ask questions?
22:06 Rep. Mark Born Who wrote the memo to "End the count early"
23:30 Rep. Born "Why was the Racine nursing home complaint not acted on"?
Complaint was from November 2020.
31:50 Rep. Samantha Kerkman "The commission does have the power to investigate and prosecute"

Press Releases, State Oversight
Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

AMERICAN OVERSIGHT

Regards

John Pappone

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born
State Representative
39th Assembly District
(608) 266-2540

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

H/T Mr J

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Is this true! WHAT OUR OUR ELECTED OFFICIAL'S DOING ABOUT IT OR ARE THEY ENABLING THIS

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: “Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity.”

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin’s November election.

In her statement she writes: “voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination.”

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

Subject: Election Audit
All,
Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

AMERICAN OVERSIGHT

The GOP in counties across the state of Wisconsin are calling for Speaker Vos to resign. At least one county also voted for a resolution to decertify the 2020 Election.

We reported a couple days ago that Sheboygan County in Wisconsin voted for a resolution demanding that Speaker Robin Vos resign as the Speaker of the great state of Wisconsin.

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

I'm forwarding this message from a patriot. Please respond appropriately and share with other patriots.
FYI: A memo was leaked to me from some Republicans that are discussing doing away with the Committeemen, calling it unconstitutional. I am contacting a Constitutional Lawyer to discuss how we can prepare for a legal challenge. I feel it is best if we do not let Robin Vos know that you are Committeemen/women at this point. Vos has a memory like a steel trap and I would like raise any flags that would draw his attention. At least until Caucus (March 12th). That's when

AMERICAN OVERSIGHT

you will be needed to vote on resolutions being put forth. To vote, you must be a paid member of the Republican Party of Racine County at least 2 weeks prior to Caucus. 8.17(7)(a)6. Political party committees. Committeemen and committe

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta's father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

AMERICAN OVERSIGHT

Racine County will be driving policy for the entire state.

by GodsAngell • 7mo ago (+2/-0)

This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide
This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

In my In-box this morning - Patriot News:

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

AMERICAN OVERSIGHT

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;
https://rumble.com/vqyrtf-racine-council-approving-160-locations-for-zuckerberg-voting-van.html
Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee. (See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.

WHO GIVES ERIC THE DATA?

Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OBJ], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier & Zuckerbergarticle - https://www.wheelerbilltracking.com/upload/files/frontpage/doc_62442527461bb769c8023e1.03394388.pdf

Vos & Company can wish on any star they choose, but the matter of Election Integrity will NOT be going away anytime soon.
Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

AMERICAN OVERSIGHT

Gableman Presentation

Monday, Dec. 20

Lilydale Dance Hall in Chippewa Falls

6:30 p.m.

*Pre-Registration is Required

Gateway Pundit article:

https://www.thegatewaypundit.com/2021/12/wisconsin-gop-rep-kathy-bernier-wants-end-election-integrity-investigations-state/

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM
WHEREAS, fair and accurate elections are the foundation of American government; and
WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and
WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and
WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and
WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and
WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years! The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

AG Kaul says nothing to see here, he has other priorities. Rep Ramthun says there is plenty to see.

Remember legislators are claiming they can't decertify an election. They have no mechanism to address fraud. FRAUD?!?!?!

And still not ONE senator will co-author the Ramthun Decertify Joint Resolution. Not ONE!

AMERICAN OVERSIGHT

Except for Reps Ramthun and Brandtjen, none of our legislators think fraud in an election is a problem. Not ONE!

As Wisconsin still waits for Speaker Vos, Assembly Majority Leader Steineke, Senate President Kapenga and Senate majority Leader LeMahieu to sign the Brandtjen subpoenas to start a full forensic physical and cyber audit.https://rumble.com/vpqxk0-the-real-story-oan-wisconsin-decertification-with-rep.-timothy-ramthun.html

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Grassroots Patriots Uncover What Really Happen in the 2020 Election.... It is stomach churning. The information has been given to Brandtjen, Ranthum, Gableman and six Attorneys who now have the documents in their possession. It is the road map to the massive fraud in the Nov 3, 2020 election. Inquires are set to begin shortly into key areas of the state. It will show how Wisconsin’s voting system was corrupted by private money and by willing public officials. Public officials allowing their government held positions to be corrupted. Public officials

AMERICAN OVERSIGHT

furthered the division and racism within our country by utilizing our very voting system against us. Democrats harvested votes by race.
Why didn't the state media find this extensive Election fraud? Answer: they never looked.
Where Is the FBI? Where is the Wisconsin State Dept.
of Justice? Where are our Sheriffs?

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Is Ridgewood an isolated event or a well orchestrated conspiracy? A Ridgewood employee inserted her email address into the WEC database system. The results are obvious. The pop up illuminates how Ridgewood allowed volunteers through the 👇

Press Releases, State Oversight
Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

AMERICAN OVERSIGHT

Regards

John Pappone

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born
State Representative
39th Assembly District
(608) 266-2540
Rep.Born@legis.wisconsin.gov

Speaker Vos... When will you support a full forensic audit

This is what is being said on social media about u

I specifically asked Jovan Hutton Pulitzer about Robin Vos plane ride with Trump. Jovan is the man behind the AZ audit. Here's what he had to say about Vos. Don't believe him when Vos says they will audit.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

https://rumble.com/vli8i3-ramthun-report-episode-26-seth-keshel-high-security-ballots-and-next-steps-.html

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

H/T Mr J

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Is this true! WHAT OUR OUR ELECTED OFFICIAL'S DOING ABOUT IT OR ARE THEY ENABLING THIS

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: “Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity.”

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin’s November election.

In her statement she writes: “voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination.”

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

Subject: Election Audit
All,
Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta’s

AMERICAN OVERSIGHT

father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

Racine County will be driving policy for the entire state.

This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

In my In-box this morning - Patriot News:

AMERICAN OVERSIGHT

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;
https://rumble.com/vqyrtf-racine-council-approving-160-locations-for-zuckerberg-voting-van.html
Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee.
(See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

AMERICAN OVERSIGHT

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.
WHO GIVES ERIC THE DATA?
Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

Subject:700 Calls into Bernier's Office in 1 Day! - Did You Contact the 8 GOP County Parties in the 23rd Senate District?

Did You Make Your Calls to the 8 GOP County Parties

in Senator Bernier's District?

I Did – My Update is Below

Patriots,

Awesome News!

YOU Mobilized700 callsinto RINO Senator Kathy Bernier's office in1 Dayaccording to the 9-minute interview she gave this morning on WISN'sUpFront Show.

Watch for yourself - 2:23-minute mark:https://www.wisn.com/article/senator-end-election-probe/38558204

If you value your Rights, Freedom, and Re-Stabilizing our Society, Please Speak UpNowon key issues!

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OBJ], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier & Zuckerbergarticle -
https://www.wheelerbilltracking.com/upload/files/frontpage/doc_62442527461bb769c8023e1.03394388.pdf

Vos & Company can wish on any star they choose, but the matter of Election Integrity will NOT be going away anytime soon.
Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

AMERICAN OVERSIGHT

Gableman Presentation

Monday, Dec. 20

Lilydale Dance Hall in Chippewa Falls

6:30 p.m.

*Pre-Registration is Required

Gateway Pundit article:

https://www.thegatewaypundit.com/2021/12/wisconsin-gop-rep-kathy-bernier-wants-end-election-integrity-investigations-state/

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM
WHEREAS, fair and accurate elections are the foundation of American government; and
WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and
WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and
WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and
WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and
WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years! The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

AG Kaul says nothing to see here, he has other priorities. Rep Ramthun says there is plenty to see.

Remember legislators are claiming they can't decertify an election. They have no mechanism to address fraud. FRAUD?!?!?!

And still not ONE senator will co-author the Ramthun Decertify Joint Resolution. Not ONE!

AMERICAN OVERSIGHT

Except for Reps Ramthun and Brandtjen, none of our legislators think fraud in an election is a problem. Not ONE!

As Wisconsin still waits for Speaker Vos, Assembly Majority Leader Steineke, Senate President Kapenga and Senate majority Leader LeMahieu to sign the Brandtjen subpoenas to start a full forensic physical and cyber audit.https://rumble.com/vpqxk0-the-real-story-oan-wisconsin-decertification-with-rep.-timothy-ramthun.html

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Is Ridgewood an isolated event or a well orchestrated conspiracy? A Ridgewood employee inserted her email address into the WEC database system. The results are obvious. The pop up illuminates how Ridgewood allowed volunteers through the 👇

Press Releases, State Oversight
Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Today is a good day to remind ALL to consider NOT donating to any political official or candidate or entity who is NOT taking ACTION to FIX 2020.

Exercise the power of the purse.

Money is the lifeblood of politicians.

Cut them off. Deny them the money IF they are NOT taking action to fight for the will of We The People.

Anyone disagree?

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

AMERICAN OVERSIGHT

Regards

John Pappone

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born
State Representative
39th Assembly District
(608) 266-2540

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

https://rumble.com/vli8i3-ramthun-report-episode-26-seth-keshel-high-security-ballots-and-next-steps-.html

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

H/T Mr J

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

Is this true! WHAT OUR OUR ELECTED OFFICIAL'S DOING ABOUT IT OR ARE THEY ENABLING THIS

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: “Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity.”

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin’s November election.

In her statement she writes: “voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination.”

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

Subject: Election Audit
All,
Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

https://smex-ctp.trendmicro.com:443/wis/clicktime/v1/query?url=https%3a%2f%2fexposure.locals.com%2fupost%2f1588737%2flate%2dbreaking%2dnews%2dwi%2dsenate%2dbill%2dis%2dhr1%2dfor%2dthe%2dpeople%2dwi%2dversion&umid=9278a5a7-d28a-4599-9ec9-f5d8f3aff7d5&auth=7d072aa196d03db39b5b411e8b955160ca7a712a-f26bb0f6161311d779994a9d94bf5607abc5843a

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta's father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

AMERICAN OVERSIGHT

Racine County will be driving policy for the entire state.

This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide
This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

https://journaltimes.com/news/local/sanders-follows-biden-in-endorsing-unified-referendum-yes-campaign-is-surprised/article_6603b168-1461-511a-949d-85dc3f83c792.html

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
In my In-box this morning - Patriot News:

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

AMERICAN OVERSIGHT

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;
https://rumble.com/vqyrtf-racine-council-approving-160-locations-for-zuckerberg-voting-van.html
Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee. (See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.

WHO GIVES ERIC THE DATA?

Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

AMERICAN OVERSIGHT

Subject:700 Calls into Bernier's Office in 1 Day! - Did You Contact the 8 GOP County Parties in the 23rd Senate District?

Did You Make Your Calls to the 8 GOP County Parties

in Senator Bernier's District?

I Did – My Update is Below

Patriots,

Awesome News!

YOU Mobilized700 callsinto RINO Senator Kathy Bernier's office in1 Dayaccording to the 9-minute interview she gave this morning on WISN'sUpFront Show.

Watch for yourself - 2:23-minute mark:https://www.wisn.com/article/senator-end-election-probe/38558204

If you value your Rights, Freedom, and Re-Stabilizing our Society, Please Speak UpNowon key issues!

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OBJ], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier & Zuckerbergarticle - https://www.wheelerbilltracking.com/upload/files/frontpage/doc_62442527461bb769c8023e1.03394388.pdf

Vos & Company can wish on any star they choose, but the matter of Election Integrity will NOT be going away anytime soon.
Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

AMERICAN OVERSIGHT

Gableman Presentation

Monday, Dec. 20

Lilydale Dance Hall in Chippewa Falls

6:30 p.m.

*Pre-Registration is Required

Gateway Pundit article:

https://www.thegatewaypundit.com/2021/12/wisconsin-gop-rep-kathy-bernier-wants-end-election-integrity-investigations-state/

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM
WHEREAS, fair and accurate elections are the foundation of American government; and
WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and
WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and
WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and
WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and
WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years!
The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

Wed, Jan 12

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Is Ridgewood an isolated event or a well orchestrated conspiracy? A Ridgewood employee inserted her email address into the WEC database system. The results are obvious. The pop up illuminates how Ridgewood allowed volunteers through the 👇

AMERICAN OVERSIGHT

Administrator of the Wisconsin Election Commission Meagan Wolfe Speaking at Joint Legislative Audit Committee on November 9, 2021. The committee was asking Wolfe about the recent legislative audit that was done on the November 2020 election.
Some takeaways from the discussion:
11:05 Rep. John Macco 88th District Calls Wolfe's comments repugnant.
Why wasn't the commission here so this committee could ask questions?
22:06 Rep. Mark Born Who wrote the memo to "End the count early"
23:30 Rep. Born "Why was the Racine nursing home complaint not acted on"?
Complaint was from November 2020.
31:50 Rep. Samantha Kerkman "The commission does have the power to investigate and prosecute"

Press Releases, State Oversight
Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

AMERICAN OVERSIGHT

Regards

John Pappone

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born
State Representative
39th Assembly District
(608) 266-2540

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

https://rumble.com/vli8i3-ramthun-report-episode-26-seth-keshel-high-security-ballots-and-next-steps-.html

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

Template for writing to Janel Heinrich, Director of Public Health in Madison and Dane County:

Attn: Janel Heinrich
I am writing to get more information about the Mask Mandate beginning tomorrow in Dane County. Under what authority do you have to force this on businesses which transfers those requirements to customers? The WI Supreme Court stated the mask mandate is unlawful. The State of Emergency ended March 31, 2021. I would like a specific answer to my question including the statute where you have this authority and how you can implement this without permission of the legislature.

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

H/T Mr J

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Is this true! WHAT OUR OUR ELECTED OFFICIAL'S DOING ABOUT IT OR ARE THEY ENABLING THIS

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: "Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity."

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin's November election.

In her statement she writes: "voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination."

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

Subject: Election Audit
All,
Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

AMERICAN OVERSIGHT

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta's father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

Racine County will be driving policy for the entire state.

This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide
This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

In my In-box this morning - Patriot News:

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;
https://rumble.com/vqyrtf-racine-council-approving-160-locations-for-zuckerberg-voting-van.html
Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:

AMERICAN OVERSIGHT

1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee. (See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.
WHO GIVES ERIC THE DATA?

AMERICAN OVERSIGHT

Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

AMERICAN OVERSIGHT

Subject:700 Calls into Bernier's Office in 1 Day! - Did You Contact the 8 GOP County Parties in the 23rd Senate District?

Did You Make Your Calls to the 8 GOP County Parties

in Senator Bernier's District?

I Did – My Update is Below

Patriots,

Awesome News!

YOU Mobilized700 callsinto RINO Senator Kathy Bernier's office in1 Dayaccording to the 9-minute interview she gave this morning on WISN'sUpFront Show.

Watch for yourself - 2:23-minute mark:https://www.wisn.com/article/senator-end-election-probe/38558204

If you value your Rights, Freedom, and Re-Stabilizing our Society, Please Speak UpNowon key issues!

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OBJ], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier & Zuckerbergarticle -
https://www.wheelerbilltracking.com/upload/files/frontpage/doc_62442527461bb769c8023e1.03394388.pdf

Vos & Company can wish on any star they choose, but the matter of Election Integrity will NOT be going away anytime soon.
Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

AMERICAN OVERSIGHT

Gableman Presentation

Monday, Dec. 20

Lilydale Dance Hall in Chippewa Falls

6:30 p.m.

*Pre-Registration is Required

Gateway Pundit article:

https://www.thegatewaypundit.com/2021/12/wisconsin-gop-rep-kathy-bernier-wants-end-election-integrity-investigations-state/

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

AMERICAN OVERSIGHT

Vos , Jagler

We are so sick of Weak willed Republicans who do nothing..After ample evidence has been produced by Justice Gableman, The Labs Audit and the Racine County Sheriff... You do nothing to support voter integrity... This is an American issue.. You should be behind getting to the truth no matter the outcome..

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM
WHEREAS, fair and accurate elections are the foundation of American government; and
WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and
WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and
WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and
WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and
WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years! The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

Wed, Jan 12

AG Kaul says nothing to see here, he has other priorities. Rep Ramthun says there is plenty to see.

Remember legislators are claiming they can't decertify an election. They have no mechanism to address fraud. FRAUD?!?!?!

And still not ONE senator will co-author the Ramthun Decertify Joint Resolution. Not ONE!

AMERICAN OVERSIGHT

Except for Reps Ramthun and Brandtjen, none of our legislators think fraud in an election is a problem. Not ONE!

As Wisconsin still waits for Speaker Vos, Assembly Majority Leader Steineke, Senate President Kapenga and Senate majority Leader LeMahieu to sign the Brandtjen subpoenas to start a full forensic physical and cyber audit.https://rumble.com/vpqxk0-the-real-story-oan-wisconsin-decertification-with-rep.-timothy-ramthun.html

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
Grassroots Patriots Uncover What Really Happen in the 2020 Election.... It is stomach churning. The information has been given to Brandtjen, Ranthum, Gableman and six Attorneys who now have the documents in their possession. It is the road map to the massive fraud in the Nov 3, 2020 election. Inquires are set to begin shortly into key areas of the state. It will show how Wisconsin’s voting system was corrupted by private money and by willing public officials. Public officials allowing their government held positions to be corrupted. Public officials

AMERICAN OVERSIGHT

furthered the division and racism within our country by utilizing our very voting system against us. Democrats harvested votes by race.
Why didn't the state media find this extensive Election fraud? Answer: they never looked.
Where Is the FBI? Where is the Wisconsin State Dept.
of Justice? Where are our Sheriffs?

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Is Ridgewood an isolated event or a well orchestrated conspiracy? A Ridgewood employee inserted her email address into the WEC database system. The results are obvious. The pop up illuminates how Ridgewood allowed volunteers through the 👇

August 19, 2020
Press Releases, State Oversight
Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

AMERICAN OVERSIGHT

Regards

John Pappone

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born
State Representative
39th Assembly District
(608) 266-2540
Rep.Born@legis.wisconsin.gov

Speaker Vos... When will you support a full forensic audit

This is what is being said on social media about u

I specifically asked Jovan Hutton Pulitzer about Robin Vos plane ride with Trump. Jovan is the man behind the AZ audit. Here's what he had to say about Vos. Don't believe him when Vos says they will audit.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

https://rumble.com/vli8i3-ramthun-report-episode-26-seth-keshel-high-security-ballots-and-next-steps-.html

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

Template for writing to Janel Heinrich, Director of Public Health in Madison and Dane County:

Attn: Janel Heinrich
I am writing to get more information about the Mask Mandate beginning tomorrow in Dane County. Under what authority do you have to force this on businesses which transfers those requirements to customers? The WI Supreme Court stated the mask mandate is unlawful. The State of Emergency ended March 31, 2021. I would like a specific answer to my question including the statute where you have this authority and how you can implement this without permission of the legislature.

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

H/T Mr J

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

Is this true! WHAT OUR OUR ELECTED OFFICIAL'S DOING ABOUT IT OR ARE THEY ENABLING THIS

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: “Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity.”

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin’s November election.

In her statement she writes: “voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination.”

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

Subject: Election Audit
All,
Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

VOS EXPOSED What a ride, after the language of SB 214 (bill letting central counts open and scan absentee ballots on Mondays before elections) was inserted into another bill, and that bill passed - because Robin Vos lied through his teeth to his own Republican members not to mentioned violated numerous parliamentary rules - the Republicans finally found their backbone. They took Vos into Caucus and they tore Vos a new one, they were furious at him for lying by omission, working with the Democrats in secret. The "amendment", which was really the SB 214 language, was defeated! They stripped that amendment. SB 214 did not pass. Late night stuff.

Grassroots citizens accomplished this - they got the attention of their Reps.

Vos, R-Rochester, said Thursday that Gableman, whom Vos hired last year, will “hopefully” release the report on the GOP-ordered review by early next week. He has previously said the investigation should be completed by the end of February, which is Monday.

AMERICAN OVERSIGHT

Asked whether he will take seriously Gableman's report when it comes out, Democratic Gov. Tony Evers said Thursday, "I know they spent a lot of money and effort, I will certainly read it. ... But at the end of the day, the people of Wisconsin have to know that that election was very secure."

For Your Information on SB 214

In short, what REALLY happened: Vos tells Janel to keep SB 214 (the horrendous bill opening the door wide to election fraud, letting absentee ballots be opened the Mondays before Tuesday election days, and scanning those ballots on Mondays) before his committee. Vos then scams everyone - working with the Democrats. He takes the text out of SB 214, and puts it in AB 941. AB 941 already had public notice and a hearing on it - and brought it to a vote. There was no motion made to do this either.

HE NEVER TOLD HIS OWN PARTY. SB 214 WAS PUT INTO AB 941, Vos did that. He never told any Republican.

RepublicanAssembly Representatives did not know they were voting YES on 214. Vos withheld that information from them, his own party. Vos let the Democrats write the language - so he could keep it from his own party. Do not let any Rep. tell you "the democrats did it", it was all Vos. Tim Ramthum is comingout with a more detailed report/press release tonight.

Wisconsin state Senator Kathy Bernier and Speaker Robin Vos are at it again!

That means Trump supporters and conservatives are about to get screwed again by these two treasonous RINOs.

The Gateway Pundit was tipped off this morning that Vos and Bernier are pushing legislation that gives a head start to the election cheating

AMERICAN OVERSIGHT

The GOP in counties across the state of Wisconsin are calling for Speaker Vos to resign. At least one county also voted for a resolution to decertify the 2020 Election.

We reported a couple days ago that Sheboygan County in Wisconsin voted for a resolution demanding that Speaker Robin Vos resign as the Speaker of the great state of Wisconsin.

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta's father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

AMERICAN OVERSIGHT

Racine County will be driving policy for the entire state.

This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide
This Software Rigged Election Was First TESTED in Racine Wisconsin in the Spring.....it Worked, and rolled out Nationwide

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

https://journaltimes.com/news/local/sanders-follows-biden-in-endorsing-unified-referendum-yes-campaign-is-surprised/article_6603b168-1461-511a-949d-85dc3f83c792.html

In my In-box this morning - Patriot News:

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

AMERICAN OVERSIGHT

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;
https://rumble.com/vqyrtf-racine-council-approving-160-locations-for-zuckerberg-voting-van.html
Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee. (See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.

WHO GIVES ERIC THE DATA?

Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

AMERICAN OVERSIGHT

Subject:700 Calls into Bernier's Office in 1 Day! - Did You Contact the 8 GOP County Parties in the 23rd Senate District?

Did You Make Your Calls to the 8 GOP County Parties

in Senator Bernier's District?

I Did – My Update is Below

Patriots,

Awesome News!

YOU Mobilized700 callsinto RINO Senator Kathy Bernier's office in1 Dayaccording to the 9-minute interview she gave this morning on WISN'sUpFront Show.

Watch for yourself - 2:23-minute mark:https://www.wisn.com/article/senator-end-election-probe/38558204

If you value your Rights, Freedom, and Re-Stabilizing our Society, Please Speak UpNowon key issues!

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OBJ], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier & Zuckerbergarticle - https://www.wheelerbilltracking.com/upload/files/frontpage/doc_62442527461bb769c8023e1.03394388.pdf

Vos & Company can wish on any star they choose, but the matter of Election Integrity will NOT be going away anytime soon.
Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

AMERICAN OVERSIGHT

Gableman Presentation

Monday, Dec. 20

Lilydale Dance Hall in Chippewa Falls

6:30 p.m.

*Pre-Registration is Required

Gateway Pundit article:

https://www.thegatewaypundit.com/2021/12/wisconsin-gop-rep-kathy-bernier-wants-end-election-integrity-investigations-state/

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020
This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM
WHEREAS, fair and accurate elections are the foundation of American government; and
WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and
WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and
WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and
WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and
WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

This is the power point presentation Rep Janel Brandtjen used at the Campaign and Election Committee hearing on 12-8-21. Emails reveal Milwaukee officials giving Democrat operatives funded by Mark Zuckerberg direct access to Wisconsin's election database -- to active voters, absentee applications, ballots received, ballots rejected BEFORE and during the election

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years! The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Press Releases, State Oversight
Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

We Knew it Vos. This is exactly what you wanted a feble find nothing audit.. No where near the same gold standard...

We want a full forensic audit ...and because you are an obstructionist... I will campaign and donate in SE WISCONSIN with my Co workers to see a Democrat awesome your seat...we can afford to lose RINO seats

Today is a good day to remind ALL to consider NOT donating to any political official or candidate or entity who is NOT taking ACTION to FIX 2020.

Exercise the power of the purse.

Money is the lifeblood of politicians.

Cut them off. Deny them the money IF they are NOT taking action to fight for the will of We The People.

Anyone disagree?

It is continued stories like this that keep rising regarding election integrity that demand a full forensic audit ...nothing less...As I sat in the Dodge county GOP Meeting on Monday and was shocked to hear our Chairman was told by state GOP leadership..move on nothing to see here in 2020 .... That is ridiculous... either we have State GOP that may have benefited from nefarious action that want the stories buried along with Democrats..ELECTION INTEGRITY EFFECTS US ALL... LET THE CHIPS FALL WHERE THEY MAY
