Dear Mr. Winters:

Open records requests are processed through the Assembly Chief Clerk's office for billing purposes only. You submitted an open records request to Representative Vos. This is to notify you that the information has been compiled and will be sent electronically upon receipt of payment for record location and retrieval costs - $56.51. Checks should be made payable to the Assembly Chief Clerk and mailed to the address listed below.

If you have specific questions regarding the record location and retrieval cost, please contact the office of Representative Vos directly. Thank you.

Speaker Vos on Election Investigation

Madison… Speaker Robin Vos (R-Rochester) released the following statement after Special Counsel Gableman's election investigation report.

"I'd like to thank the Office of Special Counsel for their tireless efforts in finding the truth. They've done a good job at showing there were issues in 2020, and the report is intended to 'help correct these processes for future elections.' Unfortunately, we're experiencing obstruction by ligation, and must first get through the nine separate lawsuits that have been filed to allow us to complete the review."

Speaker Vos on Renewed Contract

Madison… Speaker Robin Vos (R-Rochester) released the following statement regarding a new contract with former Justice Gableman.

"The office of Special Counsel has done an outstanding job looking into the election concerns people all across Wisconsin had. Many of the key issues were addressed with legislation that's going to Governor Evers' desk this week for him to sign into law. Meanwhile, Justice Gableman continues to face unwarranted resistance. We will continue to fight the obstruction and myriad of lawsuits filed by democrats and out-of-state liberal activists, questioning the legislature's subpoena power and ultimately keeping this matter from concluding in the time frame we expected."

Statement from Assembly Republican Leadership on Reallocation of Tim Ramthun's staffer

MADISON – The membership of the Assembly Republican leadership team released the following statement:

"In order to ensure the safety and security of the 2022 election, the Assembly Republican caucus has been united in our desire to get to the bottom of any 2020 election regularities and fraud. It is why we appointed Justice Gableman as special counsel to oversee the investigation.

"The word "misinformation" is too often used in today's political discourse as a way to completely discount your opponent's position. However, adhering to the true sense of the word, Rep. Ramthun and his staffer are spreading misinformation.

"Speaker Vos has never worked with Hillary Clinton's attorney to authorize drop boxes across the country. His involvement in NCSL did not involve anything having to do with drop boxes. In fact, Rep. Ramthun himself has sponsored legislation that would allow for a ballot to be returned to a drop box.

"With the exception of one person, credible attorneys everywhere have come up with the same legal theory: We do not have the authority to decertify the 2020 election. Working with the Trump Campaign, all of us worked to stop Madison's illegal "Democracy in the Park" ballot harvesting operation.

"We support Speaker Vos' actions. No matter how much Rep. Ramthun and his staffer believe what they are saying is true, it does not make it so. Sending out communications full of lies is doing disservice to all voters. With so much information to parse through on the internet and in traditional media, we all must do a better job of listening and communicating."

Executive Elections Report Summary:

<u>Chapter 5</u>: Wards under guardianship order voted unimpeded by Wisconsin's election officials as they are not recorded in the Wisvote voter database even though the circuit courts have this information

- Individuals who are incapable of understanding the voting process or those under court-ordered guardianship, in certain circumstances, are ineligible to vote
- Wisconsin election officials did not list ineligibility information about these individuals on Wisvote, nor did they distribute this list of ineligible voters to municipal clerks to prevent election day registration and voting
- Wisconsin election officials let these ineligible voters vote, unimpeded, in the 2020 presidential election despite both federal and state laws to prevent this

<u>Chapter 6</u>: Non-citizens voted unimpeded by Wisconsin's election officials as they are not recorded in the Wisvote voter database even though Wisconsin law requires citizenship to vote

- Wisconsin election officials did not list ineligibility information about non-citizens, which is available from the WisDOT, on Wisvote, nor did they distribute this list of ineligible voters to municipal clerks to prevent election day registration and voting
- In violation of federal and state law to prevent this, election officials may have allowed non-citizens to vote in the 2020 presidential election

<u>Chapter 7</u>: Milwaukee, Madison, Racine, Kenosha, and Green Bay election officials violated federal and Wisconsin Equal Protection clauses by not treating all voters the same in the same election

- The Wisconsin 5 promoted voting for certain voter groups which affected election outcomes
- The Wisconsin 5 crossed the line between election administration and campaigning
- Private corporations were paying money to election officials to affect election outcomes
- The Wisconsin 5 collectively made efforts to "pick and choose among groups of similarly situated voters to dole out special voting privileges"

Office of the Special Counsel Investigative Report
Executive Summary
Summarized by the Vos Office
3/1/2022

Introduction: The purpose of this report is not to challenge the certification of the presidential election but rather produce recommendations to correct certain processes for future elections. These recommendations focus largely on enabling oversight and transparency of election systems and maintaining political accountability. Special Counsel notes that the investigation is not yet complete due to pending legal roadblocks.

The Special Counsel report discusses the following findings:

Chapter 1 - The $8.8M Provided to Wisconsin by the Center for Tech and Civic Life (CTCL) should be considered as bribery under the law: WI Stat 12.11 prohibits a city from receiving money to facilitate electors going to the polls or voting by absentee ballot. Grants provided by CTLC to Madison, Milwaukee, Racine, Kenosha, and Green Bay (Zuckerburg 5) were meant to facilitate voter turnout in targeted neighborhoods – particularly to historically disenfranchised residents. The report details the ways the Zuckerburg 5 utilized grant funds to accomplish these goals. References are made to the WILL election review which found that these funds led to a statistically significant increase in turnout for cities that received CTCL grants.

Chapter 2 – The motive for private funding was impermissible and a partisan get-out-the-vote effort.

Chapter 3 – Government oversight has been obstructed by governmental and outside corporate collusion: Counsel reports WEC, the State Attorney General, the Governor, and private organizations have actively resisted and obstructed the investigation. The report details the methods of obstruction.

Chapter 4 – The Zuckerburg 5 engaged in questionable actions as a result of private funds: Counsel reports on ways private companies engaged in unlawful election administration practices. Various concerns are raised including a report that WEC sent out more FIDO (Fast ID Online) keys to local governments than were requested and records were not accurately maintained. These keys allow the user to access the Statewide Voter Registration system (WisVote). CTCL did not follow WEC's rules to obtain WisVote data. Further, Counsel reports that CTCL "approved organizations" including the National Vote at Home Institute, were engaged in election administration duties. This delegation of duties led to Green Bay's former clerk Kris Teske testifying that election administration decisions were made "outside of the Clerk's office."

Chapter 5 – Corporate legal defense for clerks might violate the Wisconsin Ethics Code: Providing free legal defense services for election officials may violate WI State. 19.59 (1)(b). Counsel reports that the Center for Election Innovation and Research (CEIR), funded by Zuckerburg, provided these services to clerks.

Chapter 6 - Use of Absentee Ballot Drop Boxes violated the law: The procurement of drop boxes was facilitated by private funds provided to Wisconsin by the Center for Tech and Civic Life (CTCL). The Circuit Court ruled in *Teigen v. WEC* that the use of these boxes is not permitted under Wisconsin Law.

AMERICAN OVERSIGHT

Chapter 7 - Special Voting Deputies were unlawfully restricted from entering care facilities resulting in suspicious rates of voting: Counsel reports on facilities that saw voting rates of 100% of registered voters. Due to guardianship orders or incapacity, this turnout rate is unlikely. Counsel details several care facility residents who voted despite being deemed incompetent or incapable of voting.

Chapter 8 – **WEC encouraged evasion of ballot security measures related to "Indefinitely Confined" Voters:** The Indefinitely Confined statutes were misconstrued by Dane and Milwaukee County Clerks who issued statements that they would send ballots to voters who were indefinitely confined due to a fear of contracting COVID-19.

Chapter 9 - Incapacitated persons were allowed to vote unimpeded: WI Stat 6.03 disqualifies citizens from voting who are incapable of understanding the voting process. Wisconsin election officials did not list ineligibility information on WisVote, nor did they distribute a list of ineligible voters to clerks to prevent Election Day registration.

Chapter 10 - Non-citizens voted unimpeded by Election Officials: WI Stat 6.02 requires citizenship to be qualified as an elector. Election Officials did not list ineligibility information about non-citizens, nor did they distribute a list of ineligible voters to municipal clerks to prevent Election Day registration.

Chapter 11 - Zuckerburg 5 Election Officials violated the equal protection clause by not treating voters equally: Private funds were used to increase voting access for targeted demographic groups to affect election outcomes. In *Obama for America v Husted*, the court ruled that it would be "worrisome… if states were permitted to pick and choose among groups of similarly situated voters to dole out special voting privileges."

Chapter 12 of Special Counsel's report details a number of recommendations for legislative consideration. These include:

- **Eliminate the Wisconsin Elections Commission** – the Secretary of State could handle elections or a collective body of county clerks.
- **Eliminate or Reduce Fees for Voter Registration Data**
- **Maintain a Single Statewide Voter Registration Database, and Make it Publicly Available and Secure**
- **Create an Office to Engage in Audit and Oversight of Elections**
- **Prohibit Certain Contractual Terms in Government Contracts** – example: prohibit terms which block WI government entities from obtaining or releasing data that they paid for.
- **Minimize Pre-Voting** – widespread absentee and absentee in-person voting makes oversight nearly impossible. Instead, in-person voting should be prioritized.
- **Encourage In-House Tech Support –** consider a single statewide machine system or single-client vendor.
- **Exit the Electronic Registration Information Center (ERIC)**

Legislative Recommendations to Serve Political Accountability:

- **Provide a Method for Private Challenge to WI Voter Rolls**
- **Locate Certification of Presidential Electors in a Politically Accountable Body –** such as the association of elected county clerks.
- **Provide a Method for Pre and Post-Certification Challenge to Presidential Elections**

- **Prohibit Outside Funding and Staff in Elections Administration**

Recommendations for the Wisconsin Elections Commission:

- **Comply with Legislative Audit Bureau Recommendations**
- **Enter Into Data-Sharing Agreement with the Wisconsin Department of Transportation, Health Services, and Corrections.**
- **Provide Additional Training to Clerks**

Recommendations for Clerks:

- **Familiarize Yourself with Your Wisconsin Code Authority –** many clerks believe WEC guidance is binding, even if they believe the guidance is unlawful.
- **Make Independent Assessments –** if they believe WEC guidance is contrary to law, clerks should make an independent assessment as they are the elected official responsible for elections administration.
- **Carefully Review Outside Contracts**
- **Explicitly Prohibit Staff from Engaging in Get Out the Vote Operations**
- **Consider Robust Voter Roll Review in Your Jurisdiction**
- **Maintain an Exhaustive and Clear List of Election Day Personnel**
- **Catalog All Absentee Ballots Sent Out and Returned**
- **Do Not Engage in Ballot Curing**

Tony Evers

Office of the Governor | State of Wisconsin

FOR IMMEDIATE RELEASE: March 1, 2022

Contact: GovPress@wisconsin.gov

Gov. Evers Releases Statement on Gableman Report

MADISON — Gov. Tony Evers today released the following statement in response to a report released by former Justice Michael Gableman:

"This circus has long surpassed being a mere embarrassment for our state. From the beginning, it has never been a serious or functioning effort, it has lacked public accountability and transparency, and it has been a colossal waste of taxpayer dollars.

"This effort has drawn bipartisan opposition, and nothing about it has changed or will change what the courts, the nonpartisan Legislative Audit Bureau, and multiple other reviews have already proven: Wisconsin held a free, fair, and secure election in November 2020. Wisconsinites' votes were counted in every municipality by trusted local officials, in the presence of representatives from both parties, and machines across the state were subject to an official audit. This effort has spread disinformation about our election processes, it has attacked the integrity of our clerks, election administrators, and poll workers, and it has emboldened individuals to harass and demean dedicated public servants.

"The right to vote is a fundamental core value of our democracy—it should not be subject to the whim of politicians. No politician should be able to abuse their power to prevent eligible voters from casting their ballots or to cheat our election results just because they didn't like the outcome of the last election. Every day this effort continues it is an increasingly dangerous and ongoing threat to our democracy. Any mere condemnation of this effort rings hollow—it has to end. Enough is enough. Republicans in the Legislature have always had the ability to end this effort, and I call on them to do so today."

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

Election Reform Bills Head to the Governor

Passed yesterday were several common-sense election reform bills, aimed at fixing the flaws we know happened in 2020. Voters want to feel confident in the 2022 elections and beyond, and we were happy to pass these reforms.

AMERICAN OVERSIGHT

Many of these bills address the non-partisan Legislative Audit Bureau's 48 recommendations for consideration by the Legislature and the Wisconsin Elections Commission (WEC) to improve election practices.

Wisconsin elections should be accessible, secure, fair, and transparent. The package of election reform bills advances all of these priorities by:

- * cleaning and maintaining accurate voter rolls
- * ensuring legislative oversight of WEC and estate agencies involved in elections
- * closing voter ID loopholes
- * securing ballot chain of custody
- * reforming indefinitely confined status
- * enacting strong penalties for violating election law
- * ensuring efficient and timely ballot access on Election Day
- * accountability for those who fail to follow election laws
- * conducting frequent and comprehensive audits
- * strengthening reporting requirements to improve public transparency
- * ensuring timely review of election complaints

Watch the video below for more of my comments.

AMERICAN OVERSIGHT

Governor Evers Sits on Lincoln Hills for Three Years

It's so common for Governor Evers to be inept, it's not surprising he has done nothing with Lincoln Hills over the course of three years.

So it was up to Legislative Republicans to once again lead and take action. We passed a bill last night to take the first steps in finally closing Lincoln Hills.

The governor will no doubt take the credit for his two minutes of fame when he signs the bill that we send to his desk since he's done nothing else.

Watch my floor speech below.

Subject: Wisconsin Taxpayers called- they want their $676,000 back! It's time to audit Czar Gabelman's fraud and waste!

I hereby renew my request that the Joint Audit Committee Committee investigate the Gabelman Commission for waste and fraud in the use of $676,000 of taxpayer funds.

Mr. Gabelman should be open, transparent and accountable with his spending of taxpayer money in what appears to be a partisan political ploy promoting the discredit claim the 2020 Presidential Election was stolen.

To: Rep.Vos@legis.wisconsin.gov
Subject: $700,000 tax payer money wasted! We want it back.

Michael Gableman, former Wisconsin Supreme Court Justice, is a racist and used false information in his campaign ads. He created the sleaziest and most unethical court in the history of the State of Wisconsin. Why would you think this man could do a fair investigation of our vote. All of his findings are set to make it harder for black, elderly and disabled people to vote.

This was not good use of our tax dollars. You need to demand a full refund from this dishonest man. We want our money back.

We got rid of Walker, we got rid of Trump. Maybe you should be one of the next to be removed from your position.

State of Wisconsin
2021 - 2022 LEGISLATURE

LRB-5792/1
MPG:amn&wlj

2021 ASSEMBLY JOINT RESOLUTION 120

January 25, 2022 - Introduced by Representative RAMTHUN. Referred to Committee on Rules.

Relating to: Wisconsin election reform and reclaiming the electoral ballots for President and Vice President that were certified under fraudulent intent and purpose.

Whereas, the Center for Tech and Civic Life (CTCL) enabled the illegal use of over 500 voter drop boxes in Wisconsin, infringing Wis. Stat. § 6.87 (6), in all 72 counties under Elections Commission guidance issued on August 19, 2020, and the use of drop boxes was organized by the Cybersecurity and Infrastructure Security Agency (CISA), which worked in conjunction with other national organizations like the CTCL, Center for Election Innovation and Research (CEIR), and National Conference of State Legislatures (NCSL), which, on October 2, 2020, promoted CISA's campaign of illegal drop boxes; and

Whereas, the Wisconsin Supreme Court stated in *Trump v. Biden*, 2020 WI 91, "On March 25, 2020, the Dane and Milwaukee County Clerks issued guidance on Facebook suggesting all voters could declare themselves indefinitely confined because of the pandemic and the governor's then-existing Safer-at-Home Order.

AMERICAN OVERSIGHT

This court unanimously deemed that advice incorrect on March 31, 2020, and we noted that the WEC guidance . . . provides the clarification on the purpose and proper use of the indefinitely confined status that is required at this time," which verifies that the Elections Commission gave improper guidance in the 2020 election, and in her dissent in *Trump v. Biden*, Wisconsin Supreme Court Justice Rebecca Grassl Bradley revealed that the Elections Commission infringed Wis. Stat. §§ 5.05 (1), 6.84 (1) and (2), 6.86, 6.87 (3), (4), (5), (6), (7), and (9), and 227.112 (3); and

Whereas, on December 7, 2020, Elections Commissioner Dean Knudson filed a complaint against Meagan Wolfe under Wis. Stat. § 7.70 (5) for the rushed ascertainment of certification of the 2020 election before time for filing an appeal of the recount had passed, and revealed the planned haste to circumvent any further discussion or objection; and

Whereas, the Assembly Committee on Campaigns and Elections has collected nearly 3,000 documents and e–mails with connection to election manipulations by the CTCL in five of Wisconsin's largest cities, and there are five lawsuits in those cities against the Elections Commission; and

Whereas, data experts have studied the historical voter trends based on population growth for both the entirety of the State of Wisconsin and its counties individually, and those studies reveal the normal inverse relationship of data was not present in the 2020 election results, which is a statistical impossibility; and

Whereas, the WisVote database reflects 7.1 million registered voters in a state with a population of 5.8 million and a voting age population of 4.5 million, and the WisVote database is riddled with incomplete and misrepresented data, including thousands of voters with the same phone numbers, addresses, and faulty zip codes, all of which reflects gross negligence in maintaining the database; and

AMERICAN OVERSIGHT

Whereas, grassroots canvassing efforts reveal 200 addresses in 31 counties in Wisconsin that have 200 to 400 registered voters at a single address, and a sampling of 1,000 actual 2020 absentee ballot envelopes from Milwaukee County found 23 percent had questionable addresses; and

Whereas, the Elections Commission voted to do upgrades on Dominion voting machines on June 2, 2021, and, following a press release on August 11, 2021, voicing concerns about the deletion of log file data from those upgrades, the commission voted to allow upgrades to new ES&S voting machines on September 9, 2021, with no reassurances of protecting the data of the 2020 election on older machines, even though it was revealed the upgrades do erase log file data kept on the machine hard drives; and

Whereas, the audit report of the nonpartisan Legislative Audit Bureau identified 44,272 voters who did not provide proper voter identification in the 2020 general election, revealed the mass increase of indefinitely confined voters from 4,505 in 2019 to 169,901 in 2020, revealed that 28.7 percent of all municipal clerks across all 72 counties used illegal drop boxes, and made 30 recommendations for the Elections Commission to rectify their actions; and

Whereas, a total of 50 of the 69 county GOP parties released letters of support or resolutions asking for further investigation into the elections process, showing that over two–thirds of Wisconsin Republicans have no faith in the Elections Commission; and

Whereas, commissioners and staff of the Elections Commission prevented the deployment of special voting deputies to care facilities, as confirmed by the Racine County Sheriff's Department, which found that on March 12, 2020, the Elections Commission knowingly and willfully directed all 72 county clerks to violate Wis.

AMERICAN OVERSIGHT

Stat. §§ 6.84 and 6.875 regarding absentee voting in certain residential care facilities and retirement homes, and the commission's unlawful direction clearly broke Wis. Stat. § 12.13 (2) (b) 7., which refers to intentionally violating election laws; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Jeff O'Donnell, who found a multitude of irregularities when he analyzed data from the Wisconsin voter rolls, including that 93.7 percent of active voters participated in the 2020 general election, 205,355 voter registration applications were dated November 3, 2020, 957,977 individuals registered as new voters in 2020, 45,665 voters who registered did not have matching Division of Motor Vehicle records, 22 percent of active voters registered in the 6 months leading up to November, 3, 2020, 31,872 of those voters who registered in that 6–month period are now listed as inactive, and 42,000 voters who voted in the November 3, 2020, election are now listed as inactive; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Dr. Douglas Frank, who revealed that patterns in the Wisconsin voter rolls showed that the voter rolls were inflated to the maximum possible number of voters according to census population data for every presidential election in Wisconsin since 2008 and that the voter rolls were purged shortly after each such election, and that these patterns were consistent across all 72 counties in Wisconsin, revealing that these activities were centrally controlled; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from Attorney Erick Kaardal, who identified that the money provided by the CTCL and Mark Zuckerberg to local governments in Wisconsin relating to the 2020 general election violated Wis. Stat.

AMERICAN OVERSIGHT

§ 12.11, which prohibits election bribery and states that "'anything of value' includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1," and that amount was greatly exceeded; and

Whereas, at the Growing Threats to Election Officials in Wisconsin Press Conference held on December 13, 2021, it was revealed that the CEIR is a biased organization that also received funding from Mark Zuckerberg, along with the CTCL, and that the CEIR is seeking to provide pro bono defense attorneys to election officials who used the CTCL money in the 2020 general election; and

Whereas, on January 13, 2022, Waukesha County Circuit Court Judge Michael Bohren issued an oral ruling in court holding that the Elections Commission's guidance on absentee ballot drop boxes should have been promulgated as a rule under Wis. Stat. ch. 227; that state law provides just two legal methods for a voter to return an absentee ballot: through the mail or in–person at the municipal clerk's office or an alternate site designated according to law; and that ballot harvesting and returning absentee ballots to drop boxes are not legal methods to cast absentee ballots in Wisconsin; and

Whereas, the U.S. Supreme Court has found that fraud vitiates and nullifies any contract: *Boyce's Executors v. Grundy* (1830) 28 U.S. 210; "Fraud vitiates the most solemn contracts, documents and even judgments." *United States v. Throckmorton* (1878) 98 U.S. 61, 64; and

Whereas, the November 2020 Wisconsin general election, as regulated and directed by the Elections Commission, was one of the most haphazard, controversial, and poorly managed elections in state history, shaking citizens' confidence in fair elections across Wisconsin, and with the culmination of these evidences, prove the

AMERICAN OVERSIGHT

results of the commission's certification of the 2020 election are considered fraudulent; now, therefore, be it

Resolved by the assembly, the senate concurring, That the accumulated evidence proves the actions taken by the Elections Commission to certify the 2020 presidential election shall be considered contrary to law and fraudulent under Wis. Stat. §§ 6.84, 6.87 (6), 6.875, 12.11, and 12.13 (2) (b) 7.; and, be it further

Resolved, That the Wisconsin Legislature, pursuant to its authority under Article II, Section 1, Clause 2 of the U.S. Constitution and 3 U.S.C. § 2, and consistent with guidance provided by the Constitutional Counsel Group in a memorandum dated December 30, 2021, acknowledges that illegality took place in conducting the 2020 general election and reclaims Wisconsin's 10 fraudulent electoral ballots cast for Joseph R. Biden and Kamala Harris; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation with the intention to clean up the WisVote database and create separate servers for active and inactive voters; and, be it further

Resolved, That the Wisconsin Legislature supports a full forensic physical and cyber audit of the 2020 general election, that this full forensic physical and cyber audit should be conducted by an independent and nonpartisan auditing firm with a scope statement approved by the Assembly Committee on Campaigns and Elections, and that this full forensic physical and cyber audit must include the following components:

1. Total examination of voting system machines, including browsers, tabulators, scanners, routers and firewalls, switches, network and out–of–band management cards, internet or network connectivity, network and remote access, remote access applications, software installed or removed on the system, flash

AMERICAN OVERSIGHT

drives, thumb drives, event logs, scripts that have been run, the date on which data were last modified and what data were modified, whether during or after the election, systems and security updates, password policies, multifactor authentication, databases, adjudication records, administrator accounts, and log–in records.

2. Kinematic artifact detection of all physical paper ballots, including whether ballots meet industry maximum allowable compliance for out–of–calibration measurements, ballot thickness to prevent bleed through, types of markers used, printed ballots, quantity of ballots, ballot trail, voter roll in comparison to ballots, mail–in ballot standards, and ballot watermarks and dot coding.

3. Physical canvas, including whether county clerks and election employees and volunteers followed election rules and regulations mandated by their county.

4. Transparency; and, be it further

Resolved, That in order to ensure transparency, all such audits shall be streamed live for public viewing and recorded via security video to be run 24 hours a day, 7 days a week, until all such audits are complete; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation specifically intended to secure the integrity of future elections in Wisconsin based on the findings of the Legislative Audit Bureau investigation, the Assembly Committee on Campaigns and Elections investigation, and the full forensic physical and cyber audit; and, be it further

Resolved, That the secretary of state of the State of Wisconsin is hereby directed to forward a proper authenticated copy of this resolution to the President of the Senate of the United States.

Hey Vos:

Justice Gableman lays out 12 pages with at least 180 pages of facts and evidence that the 2020 Presidential election was stolen and we heard that your buddy Jim said that there was nothing you could do. Excuse me, if someone cheats on the taxes in 2020 and the IRS finds this out in 2021 or 2022, does that mean that the person who cheated gets away with it? If that's the case, why don't more people cheat? We know it's not that way, the only cheating in life that's permitted is in the elections we hold. Something just doesn't sit well with me when I think that guys like you seem to think that it's just fine to do crap like that.

Subject: 2020 election

Goodmorning, Representative Vos.

It is with dismay that I have watched the efforts of yourself and Mr. Gableman to undermine our democracy and cast doubt among millions of voters on the integrity of our elections. I have read the "interim" report of Mr. Gableman; all 136 pages. It is full of supposition, hearsay and conspiracy. There is no hard data nor anything that can remotely be called evidence. I, on the other hand, have hard data. As a Research Analyst of 28 years, I compiled and analyzed data for the past four elections, both for the US overall and key swing states in 2020, including Wisconsin. If you are truly interested in facts, you would bode well to admit Biden won. Of course the process did not go exactly as it has in previous years. There was a deadly pandemic! And people like myself, immunocompromised with lupus, and my 96-year old grandmother in one of the nursing homes you are so shamefully trashing, greatly appreciate the efforts of true patriots that were willing to adjust and accommodate our needs. I guess you don't care about constituents like us. Particularly those who voted for Biden.

Subject: 2020 Election

All of you who work for the peopleof Wisconsin are obligated to look into the events that took place for the Nov 2020 election.

There is substantial evidence and numerous investigations including the Racine County Sheriff and Justice Gableman. It is not a charade, it is not a conspiracy nor is it unconstitutional to decertify a fraudulent election.

There is no reason anyone should object to getting to the bottom of what happened. This should unite everyone, it should be a non-partisan issue.

Please look into the evidence and decertify the electors. It is time for all of you to get courage and stand with Rep Tim Ramthun and AJR 120 and/or follow Justice Gableman'spath to decertify.

I've been repeatedly sending emails to the rules committee and not one has responded except Robin Vos sends an autoreplythat he is busy and gets numerous emails. I bet you do!

We need to identify all the problems that happened in 2020 and put measures in place to see that this never happens again. All of you are accountable to all US Citizens, especially Wisconsites.

AMERICAN OVERSIGHT

God bless you. I pray for each one of you. I pray for America. May God bless the USA.

Thank you for your service and your prompt attention to this very urgent matter.

Subject: 2020 Election

What have you done to look into the fraud of the 2020 election?

On Tue, Mar 1, 2022 at 9:35 PM Jill Bloom <ruralbliss17@gmail.com> wrote:

AMERICAN OVERSIGHT

We need to identify all the problems that happened in 2020 and put measures in place to see that this never happens again. All of you are accountable to all US Citizens, especially Wisconsites.

God bless you. I pray for each one of you. I pray for America. May God bless the USA.

Thank you for your service and your prompt attention to this very urgent matter.

Sincerely,

Jillene Bloom

Subject: 2020 Elections

I am a Wisconsin Citizen. I believe the 2020 National Election was corrupted and full of fraud. I believe the evidence that Michael Gableman revealed, proved the fraud. We need to decertify the 2020 Election results. We need to do this in our state to have Election Integrity for the past and any future elections. Please stand up for our state and what is right.
Sincerely, Viki Campbell

Subject: 2020 presidential election decertification

Hello Rep Vos,

I hope all is well with you and yours. I heard comments from esteemed former justice Gableman that he believes there are grounds for decertifying the Wisconsin 2020 presidential election outcome based on his ongoing investigation. The main evidence he cited was that there was dark money used to increase voter turnout. Gasp. What an affront to our American style democracy! More people voting - that's absurd. The next thing you know, those liberals are going to want to take away the poll taxes and literacy tests to vote. This cannot stand. I hope you and the true patriots in the right wing of the Republican party do all that you can to ensure minimal voting, especially from Democrats, the true enemy of the state.

BTW, can I please get a refund for my portion of this sham 'investigation'? I work hard for my money and tax dollars, and I do not appreciate it being spent in support of such mindless pandering to an authoritarian-wannabe former President.

AMERICAN OVERSIGHT

2020 Wisconsin presidential election timeline

November 3, 2020: Wisconsin Election Day

November 12, 2020: *Langenhorst v. Pecore* (Seventh Circuit)

- The case dealt with claims of absentee ballot fraud and decease individuals casting ballots.
- ***November 16, 2020****:* Case dismissed by the United States District Court.

November 18, 2020: Trump campaign sends $3 million to Wisconsin Elections Commission for Milwaukee County and Dane County recounts.

- ***November 27, 2020*****:** Milwaukee County concludes recount and finalizes election results (Biden gained 132 votes).
- ***November 27, 2020*****:** Dane County concludes recount and finalizes election results (Trump gained 86 votes).

November 20, 2020: *Wisconsin Voters Alliance v. Pence* (United States District Court for the District of Columbia).

- Plaintiffs alleged the Electoral Count Act violates Article II of the Constitution, impermissibly disempowering state legislatures in post-election certification matters.
- ***January 4, 2021:*** Case dismissed, as the court held that plaintiffs' votes were counted and that the plaintiffs lacked standing.

November 23, 2020: *Wisconsin Voter Alliance v. Wisconsin Elections Commission* (Wisconsin Supreme Court).

- Plaintiffs claimed thousands of illegal ballots were cast and stop to seek certification of the election.
- The petition was denied and case dismissed by the Wisconsin Supreme Court.

November 27, 2020: *Mueller v. Jacobs* (Wisconsin Supreme Court).

- Plaintiffs claimed ballots collected from drop boxes are illegal and should not be counted
- ***December 5, 2020*****:** The Wisconsin Supreme Court, in a 4-3 vote (Walsh Bradley, Dallet, Karofsky, Hagedorn), deny the petition and dismiss the case.

December 1, 2020: *Feehan v. Wisconsin Elections Commission* (U.S. District Court for the Eastern District of Wisconsin).

- Plaintiffs challenge a variety of election practices and claim an electronic ballot stuffing occurred.
- ***December 9, 2021:*** United States District Court for the Eastern District of Wisconsin dismissed the case for lack of jurisdiction. The plaintiff also lacked legal standing. The case was dismissed and appealed to the Seventh Circuit Court of Appeals.
- ***March 1, 2021:*** The case was dismissed by the Seventh Circuit Court of Appeals for a lack of standing.

December 1, 2020: *Trump v. Evers* (Wisconsin Supreme Court).

- Plaintiffs challenged several election practices and sought to overturn the election results.

AMERICAN OVERSIGHT

- ***December 5, 2020:*** The Supreme Court, on a 4-3 vote (Walsh Bradley, Dallet, Karofsky, and Hagedorn), denied hearing the petition due to the case being filed on a higher court, and dismissed the case.

December 2, 2020: *Trump v. Wisconsin Elections Commission* (United States District Court for the Eastern District of Wisconsin; United States Court of Appeals for the seventh circuit).

- ***December 21, 2020:*** The circuit court ruled that Trump's "Electors Clause" claims fail as a matter of law and fact. The case was dismissed on December 21, 2020.
- ***December 24, 2020:*** The Seventh Circuit Court of Appeals affirmed the circuit court's ruling and argued the Trump team lacked standing.

December 7, 2020: *Trump v. Biden* (Wisconsin Circuit Court; Wisconsin Supreme Court).

- ***December 11, 2020:*** District judges rules in favor of the defendants, because the plaintiffs failed to prove Wisconsin violated early voting laws in its recount. The district court affirmed the certification of Wisconsin's presidential election results.
- ***December 14, 2020:*** The Wisconsin Supreme Court, in a 4-3 decision (Walsh Bradley, Dallet, Karofsky, Hagedorn) affirmed the appellate court's decision. The Supreme Court ruled in favor of the defendents, Biden et al.
- ***December 29, 2020:*** Rudy Giuliani files an appeal with the United States Supreme Court.
- ***December 30, 2020:*** United States Supreme Court refuses to hear Giuliani's appeal.

December 11, 2020: Joint Public Hearing of the Assembly and Senate Committees held to conduct a 2020 election review.

January 4, 2021: Assembly Resolution 4, relating to: election law violations, introduced by Representative Scott Allen.

- **January 4, 2021:** Resolution adopted by the Wisconsin State Assembly (Seeks to address questions of election legitimacy and take up legislation crafted to ensure civil officers follow election laws as written).

January 28, 2021: Senate Bill 52, relating to: Public notice of noncandidacy for incumbent local officials, introduced by Representative Jeremy Thiesfeldt and Senator Dan Feyen.

- ***March 23, 2021:*** Passed by the Wisconsin State Assembly, via voice vote.
- ***May 11, 2021:*** Approved by the Wisconsin State Senate, via voice vote.
- ***May 20, 2021:*** Signed into law by Governor Tony Evers

January 29, 2021: Assembly Bill 21, relating to: aids to counties and municipalities for certain special election costs, introduced by Representative Shae Sortwell and Senator André Jacque.

- ***June 1, 2021:*** Public hearing held in the Assembly Committee on Campaigns and Elections.
- ***November 15, 2021:*** Passed out of the Assembly Committee on Campaigns and Elections, 9-0.
- ***November 15, 2021:*** Referred to the Assembly Rules Committee.

February 10, 2021: Assembly Bill 35, relating to: The method of selecting presidential electors, introduced.

- ***February 10, 2021:*** Referred to the Assembly Committee on Campaigns and Elections.

AMERICAN OVERSIGHT

2020 Wisconsin presidential election timeline

November 3, 2020: Wisconsin Election Day

November 12, 2020: *Langenhorst v. Pecore* (Seventh Circuit)

- The case dealt with claims of absentee ballot fraud and decease individuals casting ballots.
- ***November 16, 2020****:* Case dismissed by the United States District Court.

November 18, 2020: Trump campaign sends $3 million to Wisconsin Elections Commission for Milwaukee County and Dane County recounts.

- ***November 27, 2020*****:** Milwaukee County concludes recount and finalizes election results (Biden gained 132 votes).
- ***November 27, 2020*****:** Dane County concludes recount and finalizes election results (Trump gained 86 votes).

November 20, 2020: *Wisconsin Voters Alliance v. Pence* (United States District Court for the District of Columbia).

- Plaintiffs alleged the Electoral Count Act violates Article II of the Constitution, impermissibly disempowering state legislatures in post-election certification matters.
- ***January 4, 2021:*** Case dismissed, as the court held that plaintiffs' votes were counted and that the plaintiffs lacked standing.

November 23, 2020: *Wisconsin Voter Alliance v. Wisconsin Elections Commission* (Wisconsin Supreme Court).

- Plaintiffs claimed thousands of illegal ballots were cast and stop to seek certification of the election.
- The petition was denied and case dismissed by the Wisconsin Supreme Court.

November 27, 2020: *Mueller v. Jacobs* (Wisconsin Supreme Court).

- Plaintiffs claimed ballots collected from drop boxes are illegal and should not be counted
- ***December 5, 2020*****:** The Wisconsin Supreme Court, in a 4-3 vote (Walsh Bradley, Dallet, Karofsky, Hagedorn), deny the petition and dismiss the case.

December 1, 2020: *Feehan v. Wisconsin Elections Commission* (U.S. District Court for the Eastern District of Wisconsin).

- Plaintiffs challenge a variety of election practices and claim an electronic ballot stuffing occurred.
- ***December 9, 2021:*** United States District Court for the Eastern District of Wisconsin dismissed the case for lack of jurisdiction. The plaintiff also lacked legal standing. The case was dismissed and appealed to the Seventh Circuit Court of Appeals.
- ***March 1, 2021:*** The case was dismissed by the Seventh Circuit Court of Appeals for a lack of standing.

December 1, 2020: *Trump v. Evers* (Wisconsin Supreme Court).

- Plaintiffs challenged several election practices and sought to overturn the election results.

AMERICAN OVERSIGHT

- ***December 5, 2020:*** The Supreme Court, on a 4-3 vote (Walsh Bradley, Dallet, Karofsky, and Hagedorn), denied hearing the petition due to the case being filed on a higher court, and dismissed the case.

December 2, 2020: *Trump v. Wisconsin Elections Commission* (United States District Court for the Eastern District of Wisconsin; United States Court of Appeals for the seventh circuit).

- ***December 21, 2020:*** The circuit court ruled that Trump's "Electors Clause" claims fail as a matter of law and fact. The case was dismissed on December 21, 2020.
- ***December 24, 2020:*** The Seventh Circuit Court of Appeals affirmed the circuit court's ruling and argued the Trump team lacked standing.

December 7, 2020: *Trump v. Biden* (Wisconsin Circuit Court; Wisconsin Supreme Court).

- ***December 11, 2020:*** District judges rules in favor of the defendants, because the plaintiffs failed to prove Wisconsin violated early voting laws in its recount. The district court affirmed the certification of Wisconsin's presidential election results.
- ***December 14, 2020:*** The Wisconsin Supreme Court, in a 4-3 decision (Walsh Bradley, Dallet, Karofsky, Hagedorn) affirmed the appellate court's decision. The Supreme Court ruled in favor of the defendents, Biden et al.
- ***December 29, 2020:*** Rudy Giuliani files an appeal with the United States Supreme Court.
- ***December 30, 2020:*** United States Supreme Court refuses to hear Giuliani's appeal.

December 11, 2020: Joint Public Hearing of the Assembly and Senate Committees held to conduct a 2020 election review.

January 4, 2021: Assembly Resolution 4, relating to: election law violations, introduced by Representative Scott Allen.

- **January 4, 2021:** Resolution adopted by the Wisconsin State Assembly (Seeks to address questions of election legitimacy and take up legislation crafted to ensure civil officers follow election laws as written).

January 28, 2021: Senate Bill 52, relating to: Public notice of noncandidacy for incumbent local officials, introduced by Representative Jeremy Thiesfeldt and Senator Dan Feyen.

- ***March 23, 2021:*** Passed by the Wisconsin State Assembly, via voice vote.
- ***May 11, 2021:*** Approved by the Wisconsin State Senate, via voice vote.
- ***May 20, 2021:*** Signed into law by Governor Tony Evers

January 29, 2021: Assembly Bill 21, relating to: aids to counties and municipalities for certain special election costs, introduced by Representative Shae Sortwell and Senator André Jacque.

- ***June 1, 2021:*** Public hearing held in the Assembly Committee on Campaigns and Elections.

Rep. Vos:

I and many of my friends are very concerned about the fraud discovered and being investigated in Wisconsin regarding the in the 2020 presidential election.

It's clear that the Democrat party is refusing to cooperate on this investigation.

I'm sure you agree that this is a matter of great concern in Wisconsin as well as Pennsylvania, Michigan, Georgia, Arizona and other states where major fraud has been found. I, therefore, urge you to do whatever you can to defertify Wisconsin's election so that a thorough investigation can be completed and we can have trust and confidence in our elections.

Respectfully,

Timothy Greene

AMERICAN OVERSIGHT

Wisconsin Elected Official

TAX GUIDE

for the calendar year ending

Dec. 31, 2021

A service provided by the

Wisconsin Institute of Certified Public Accountants

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000078

February 2022

Dear Wisconsin Elected Official:

The Wisconsin Institute of CPAs is pleased to provide you with the *Wisconsin Elected Official Tax Guide* for the calendar year ending December 31, 2021.

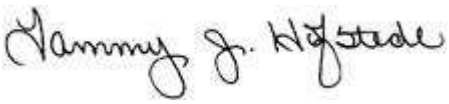
This guide is intended to provide a brief discussion of the tax laws as they apply to state legislators and other elected officials. Deductions for expenditures incurred in performance of your official duties are no longer available. However, if you are a fee-basis public official, deductions are available provided contemporaneous records are maintained detailing who, what, when, where and how much. A fee-basis public official receives and retains remuneration directly from the public, and does not receive wages or a salary. Because Wisconsin legislators receive a salary, they are generally not considered fee-basis public officials, but I recommend consulting your Certified Public Accountant (CPA) regarding your classification.

Since this guide is not intended to cover all tax matters related to an individual's tax return, I would encourage you to consult your Certified Public Accountant or other tax advisor for any further questions you may have that are not covered in this guide. Items of a personal nature, such as medical expenses, interest, tax expenses and charitable contributions, or tax matters unrelated to your position as an elected official, are not covered.

The WICPA sponsors this guide as a public service and wishes to thank Michael Donahue, a member of the WICPA Federal Taxation Committee, for his dedicated work on this project. We hope you find it useful.

If you have any suggestions for making the Guide even more helpful, please contact me directly at 262-785-0445, extension 4518 or by e-mail at tammy@wicpa.org.

Sincerely,



Tammy J. Hofstede

AMERICAN OVERSIGHT

GENERAL LIMITATIONS

As a state legislator or other elected official, you are generally subject to the same federal and state income tax rules applicable to business people and other private citizens. An important rule is that expenses incurred in the performance of your official duties are considered "employee business expenses."

You must distinguish between those business expenses for which you are reimbursed and those for which you are not reimbursed. Reimbursed expenses are generally treated much more favorably than unreimbursed expenses of employees.

Reimbursed expenses

These expenses are non-taxable to the extent that the reimbursements are incurred under an "accountable" reimbursement plan that meets the following three qualifications:

1. The allowances or reimbursements relate to expenses paid by the employee in connection with the employer's business;
2. The employee provides the employer with substantiation for the expenses covered by the arrangement;
3. The employee returns any amount received in excess of the substantiated expenses within a reasonable time.

Fortunately, a per diem or other fixed allowance you receive from your employer is deemed under the regulations to have satisfied the second "substantiation" requirement up to the lesser of the amount of the allowance or the amount approved by the Internal Revenue Service (IRS). Additionally, you must provide your employer with a statement regarding the time, place and business purpose of your "away-from-home" meals and lodging expenses. By submitting your monthly expense voucher to the State of Wisconsin, you should meet this requirement. As discussed in Record Keeping Tips, page 6, you should be careful to keep your own records of business-related expenditures.

Problem: Residence within 50 miles of Capitol Building

A problem arises in applying the "accountable" plan rules when you are a legislator whose residence within the legislative district you represent is 50 or fewer miles from the state capitol building and are therefore ineligible to make the tax home election described on page 5. The IRS and Wisconsin Department of Revenue have taken the position that since the State of Wisconsin has no reasonable basis for anticipating that the allowances paid to you are being used

AMERICAN OVERSIGHT

for deductible travel expenses away from your home, this arrangement is not considered an accountable reimbursement plan. Accordingly, as discussed below, not only must social security taxes and other state and federal income and unemployment taxes be paid or withheld from the allowances in this setting, any otherwise deductible travel expense, which you incur, must be considered a miscellaneous itemized deduction.

Since this is considered a nonaccountable reimbursement plan, the State of Wisconsin will include the amount of per diem reimbursement allowance received as wages in Box 1 on your 2020 W-2s. This issue should not affect you if your residence within the legislative district you represent is more than 50 miles from the state capitol.

Miscellaneous items and considerations

Unreimbursed expenses and reimbursed expenses incurred under "non-accountable" reimbursement plans are classified unfavorably as miscellaneous itemized deductions. However, due to the Tax Cuts & Jobs Act, miscellaneous itemized deductions are not available to most public officials, unless you are a fee-basis public official. Miscellaneous itemized deductions are deductible.

Business expenses for meals and entertainment have been further limited by the Tax Reform Act of 1986 and the 1993 Revenue Reconciliation Act. To the extent meal and entertainment expenses exceed reimbursement, such expenses must be reduced by 50%. The deduction of club dues is also limited or not allowed. Please consult your Certified Public Accountant or other tax advisor on this issue.

Deductions for travel expenses are denied when paid or incurred with respect to a companion accompanying the taxpayer on business travel unless (1) the companion is an employee of the taxpayer, (2) the travel of the companion is for a bona fide business purpose, *and* (3) the expense would otherwise be deductible by the companion.

See the Entertainment and Meal Expenses, page 15, for examples.

AMERICAN OVERSIGHT

TAX HOME

As a general rule, your tax "home" (away from which on business your living expenses are deductible) is your office, the business place where your job requires you to spend most of your time. If you are a state legislator, Internal Revenue Code Section 162(h) allows you to elect to have as your tax "home" your residence within the legislative district that you represent. This special tax "home" election is *not* available to you if you are an elected official other than a state legislator or if you are a state legislator whose residence within the legislative district you represent is 50 or fewer miles from the capitol building.

If you are eligible, the special tax "home" election can be an important tax planning tool. As a general rule, the election is advantageous because it allows you to deduct a per diem amount of your living expenses (meals and lodging) on each legislative day as described below.

Unless you are a fee-basis public official, living expenses are not deductible as miscellaneous itemized deductions on Schedule A. You will still want to make the election to receive per diem amounts under an accountable plan as described on page 1.

In general, the cost of your living expenses (meals and lodging) in Madison on legislative days will not be deductible since you will be considered to be at your tax "home." If during the year you spend more time on business activities in your district than in Madison, you may be able to consider the district as your tax home even if you do not make the tax "home" election. In this situation, which you should be able to document, it may be to your benefit not to make the election if your actual meals and lodging expenses in Madison exceed the per diem amounts previously noted (see Entertainment and Meals Section, page 15). Note, if you do not make the election, the *actual* cost of your business meals involving business discussions would in any case be deductible in accordance with the rules outlined in the Entertainment and Meals section. We strongly encourage you to consult your Certified Public Accountant or other tax advisor before you make a decision with regard to this election.

The tax "home" election is made yearly by attaching to your Form 1040 a statement containing information required by IRS regulations. Exhibit D (attached) is a model form for making this election.

AMERICAN OVERSIGHT

Tax "Home" Election Made

If you make the state legislator tax "home" election referred to above, you may be reimbursed under an accountable plan for each legislative day the *greater* of:

(1) The federal per diem for a federal employee working in Madison less 50% of the portion of the per diem allowable for meals. The federal per diem rate for January – March 2021 is $170/day, April – September is $192/day, October is $195/day, and November – December is $173/day. This includes $61/day from January – September and $64/day from October – December for meals and incidentals.

(2) The amount generally allowed for State Legislators of the State of Wisconsin for per diem while away from home (to the extent it does not exceed 110% of the federal per diem), less 50% of the portion allowable for meals. Since the Wisconsin Senate Legislators per diem amount is currently $115 outside of Dane County and $57.50 inside of Dane County and the Wisconsin Assembly per diem is $153 for overnight stays and $76.50 for day visits, the federal per diem amount noted above should be used.

FEE-BASIS PUBLIC OFFICIALS ONLY

A legislative day includes any day the legislature is in session, on recess (provided the recess period including weekends and holidays is not longer than four days), or any day it is not in session but your physical presence is formally recorded at a meeting of a committee of the legislature. A day in session includes those in which you are expected to attend and do so and may include "pro forma" sessions.

The per diem rates above may be claimed as a deduction. Expenses incurred on non-legislative days are unaffected by the election except that your tax home remains your residence in your represented district. Thus, meals, lodging and other living expenses incurred for travel on non-legislative days related to your duties as a legislator or for some other business are deductible as incurred.

This election in no way affects the deductibility of expenses other than living expenses such as travel fares, telephone calls or telegrams, and local transportation. These are deductible *in addition to the per diem* as discussed in subsequent sections of this guide.

Reimbursements received for living expenses with respect to your position as a legislator must be included in income regardless of whether or not the tax "home" election is made. The per diem reimbursement must be allocated between meals and other expenses.

AMERICAN OVERSIGHT

You may claim as a deduction "actual" expenditures incurred in the performance of duties *if the election discussed above is not made or is not available.* The specific deductible expenditures are discussed in the subsequent section of this guide (see Living Expenses - When No Tax Home Election is Made, page 8). As previously discussed, if the tax home election is not available, it is likely these business-related expenses may only be taken as miscellaneous itemized deductions.

If you are a legislator whose tax "home" is Madison, living expenses incurred while in Madison are not deductible. You may deduct living expenses incurred on business trips that are at least *overnight* trips to the area you represent even though you maintain your family residence there. For example, meals and lodging at your family residence are deductible to the extent that they are properly attributable to you (and you alone) in the performance of your duties. Transportation expenses between Madison and your residence in your district are deductible only when your duties as a legislator or other business require you to be present in your district.

These general rules should be kept in mind while reading other sections of the guide. Several questions and answers in the Record Keeping Tips section (page 6) will not be applicable if your tax "home" is Madison.

AMERICAN OVERSIGHT

RECORD KEEPING TIPS

Q. How must travel, entertainment and other business expenses be substantiated?

A. The most acceptable support is a clear and accurate recording at the time the expenditure is made plus necessary documentation. If, on an Internal Revenue Service or Wisconsin Department of Revenue audit, such support is found to be deficient or lacking, your personal statements must be corroborated with other evidence, such as records and witnesses. Your testimony alone is not sufficient to support a deduction.

Q. Which elements of an expenditure must be substantiated?

A.
Who: Persons who traveled, persons entertained, etc. and business relationship.
What: Amount of each separate expenditure.
When: Time of travel, entertainment or use of facility.
Where: Place.
Why: Business purpose of each expenditure.

(See Chart attached as Exhibit B.)

Q. Must each of the elements be substantiated?

A. Yes. If any one is not, the entire expenditure can be disallowed.

Q. Are estimates of amounts acceptable?

A. No. The amounts should be recorded exactly.

Q. How should substantiation of travel, entertainment and business gift expenditures be maintained?

A. The substantiation of the elements discussed above should be recorded at or near the time of use in an account book, diary, statement of expenses or similar record and supported by adequate documentary evidence (receipts, paid bills). A record prepared at a date subsequent to the expenditures has little, if any, credibility.

Q. Is there a limit on the deductible amount of travel and entertainment expense?

A. Yes, see the rules discussed under the Entertainment and Meal Expense section (page 15) of this guide.

AMERICAN OVERSIGHT

Q. What constitutes adequate documentation?

A. Adequate documentary evidence is a receipt, bill marked paid or similar evidence. Merely maintaining a record of expenditures is insufficient.

Q. Is documentary evidence required for every single expenditure?

A. No. Documentation is required to support all expenditures for lodging while traveling away from home and for any other separate expenditure of $75 or more, (except for transportation charges where the documentary evidence is not readily available). Where such evidence is not readily available for transportation charges, it will not be required.

Q. Would a cancelled check be adequate evidence?

A. No. A cancelled check will not by itself support a deduction without other evidence (i.e., payee's bill) demonstrating the business purpose.

Q. How long should I retain supporting records?

A. Proof to support a deduction must be retained as long as your income tax returns are open for audit. Generally, records should be retained for at least six years from the date the tax return was filed or due, whichever is later.

Q. How can the business purpose of an expenditure be substantiated?

A. The business purpose can be substantiated by noting the name, title and occupation of contacts, the type of activity, and describing the business benefit derived or expected. The business relationship of the individuals contacted must also be noted. If the group is large, you are not required to record the names of each individual present if a class designation would indicate the business purpose. (For example, “met with officers of the Wisconsin Taxpayer’s Alliance”).

Q. What are the record keeping requirements for automobiles, computers, and other “mixed use” assets (i.e., items used for business *and* non-business purposes)?

A. Though contemporaneous logs for automobiles, computers and similar items are not required, their use will better protect your tax deduction and is highly recommended. A diary or log of the business use of an auto indicating the date, destination, business purpose and mileage would provide adequate support. Exhibit D, Part 1 and Exhibit D, Part 2 are examples of logs used for automobile use. Adequate records or other sufficient evidence corroborating your own statements are required to substantiate the business use of an item for purposes of claiming deductions.

AMERICAN OVERSIGHT

LIVING EXPENSES - WHEN NO TAX HOME ELECTION IS MADE – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. My principal employment is that of being a State legislator. I have no other substantial source of income and I reside in Madison a significant portion of the year. I represent a district 150 miles removed from Madison and maintain my personal family residence there. The time I devote to my employment as a legislator while living at home is considerable, but less than the time I spend working in Madison. What expenses can I deduct?

A. The Internal Revenue Service will consider your "tax home" to be Madison unless the special election discussed in the tax home section of this guide has been made. Under these circumstances, you will not be entitled to deduct any of your living expenses while in Madison. However, since the district you represent is recognized as another post of duty, you may deduct certain living expenses while in your district overnight on legislative business. Additionally, the cost of transportation between Madison and your district would be deductible when incurred for legislative purposes.

Q. What may I deduct for living expenses incurred in a hotel, motel or apartment while attending sessions in Madison overnight where I do not make the "tax home" election but my tax home is my residence 100 miles outside the Madison area? The time I devote to my business at my home is greater than the time I spend working in Madison overnight.

A. You are allowed to deduct the actual rental payments, including any taxes, service charges, utilities, etc. that you may incur. If facilities are shared with others, you may deduct your share of these expenses. This is the case even though the facility is not used during a part of a month or year as long as it is maintained in order to fulfill your duties as a member of the Legislature. In any event, the actual expenses should be supported by documentary evidence. Personal use of facilities, such as when you and your family visit Madison for a social purpose, will decrease, on a percentage basis, the deductible amount.

Q. Given the same facts noted in the immediately preceding question, can I deduct a standard amount for meals and/or lodging when I am in Madison, away from home overnight on business?

A. This question should have limited application since those legislators who choose not to make the special tax home election in this situation will do so only if their actual meals and lodging expenses in Madison exceed the standard amounts for these items. Nevertheless, if this question is applicable to you, you are limited to the amount of the allowance you receive from the State of Wisconsin. Alternatively, you could use either the standard per diem rates specified at www.gsa.gov or the $292/$198 high-low per diem rates for January 1, 2021 through September 30, 2021 and $296/$202 from October 1, 2021 through December 31, 2021 (but limited to the amount of the allowance you receive from the State of Wisconsin). Please note that this does not apply to legislators whose tax home is within a 50-mile radius of Madison. In addition, only 50% of the per diem allocable to

AMERICAN OVERSIGHT

meals is deductible for expenses paid or incurred. The per diem does not include meals that you buy for business associates.

These amounts may be deductible in accordance with the rules set forth in the Entertainment and Meal Expense section (page 15) of this guide.

Q. Can I deduct the expense of meals I have purchased for constituents and other persons who have come to Madison where legislative business is involved?

A. Yes. Subject to the rules discussed under the Entertainment and Meals Section (page 15) of this guide, 50% of the cost of meals paid for by you is an allowable deduction. The expense must be reasonable and related to your legislative business. You should document the business purpose and who was in attendance. (See questions under Record Keeping Tips, page 6.) If you are deducting a meal per diem for the day of the business meal, your portion of the meal is not deductible. (See the per diem discussion above.)

AMERICAN OVERSIGHT

AUTOMOBILE AND TRAVEL EXPENSES – FEE-BASIS PUBLIC OFFICIALS ONLY

NOTE: Most questions involving automobiles assume you own your own car. Special rules apply if you lease your car or if a corporation owns it.

Q. What is a "nonaccountable" plan?

A. A "nonaccountable" plan is an arrangement whereby the employee receiving reimbursements does not have to substantiate expenses to the employer or whereby reimbursements in excess of substantiated expenses are not required to be returned to the employer.

Q. What are the methods available for claiming deductions for automobile expenses incurred for business purposes?

A. The IRS allows individuals to claim deductions based on the federal "standard mileage" rates or deduct a percentage of the "actual expenses" incurred based on the percentage of business use. Below is a discussion of each method.

Q. What is the federal "standard mileage" rate?

A. The allowable rate for 2021 is .56 cents per mile from January 1, 2021 to December 31, 2021 for business mileage. In addition to the standard mileage amount, actual expenses for parking fees and tolls during business usage are separately deductible employee business expenses related to auto usage. The business portion of any interest on a vehicle loan is deductible as well, if you are self-employed. Normally a state legislator is an employee of the state. Please be advised that the State of Wisconsin reimburses mileage at .51 cents per mile for January 1, 2021 to December 31, 2021.

Q. How are automobile expenses determined under the "actual expense" method?

A. To compute the deductible amount of actual expenses you should gather your receipts for gasoline, oil, minor repairs, tires, insurance, car washes, storage and chauffeur fees. This amount is multiplied by the business use percentage (see next question) to determine the deductible portion. The business portion of interest to purchase the vehicle is deductible for self-employed individuals only. You are not allowed a deduction for interest to purchase a vehicle if you are considered an employee of the state. Next, compute the allowable depreciation (see question below). These two amounts plus the business parking fees and tolls is your total deduction for car expenses.

Q. How is the business use percentage determined?

A. The number of business miles driven compared to the total miles driven is the business percentage used to determine the portion of actual expenses that are deductible. Mileage that qualifies as business would include travel to meetings where you will speak or which are

AMERICAN OVERSIGHT

important for you to attend because of your position, travel to civic functions, political functions or other meetings related to your legislative duties, travel between two places of business (state legislature and another business or occupation), and travel to make an investigation to ascertain facts concerning possible legislation. Mileage from your tax home to your office which does not include an overnight stay is considered commuting and therefore can not be counted as business miles.

Q. What about mileage expenses incurred while going to meetings during a political campaign for my re-election? Although I am running for re-election, I still feel it is important to attend these meetings to explain to my constituents the activities of the Legislature.

A. The Internal Revenue Code specifically states that campaign expenses are not tax deductible. Because of this, it is very important for the legislator to distinguish between those expenses which are directly related to a campaign or re-election and those expenses which can be directly attributed to serving the legislator's constituency. (See questions under Campaign Contributions and Expenditures, page 24.)

Q. In general, how is automobile depreciation computed?

A. Automobiles used more than 50% for business may be depreciated under the following methods: 200% declining balance, 150% declining balance or straight-line. Only the straight-line method is available for autos used 50% or less for business. All automobiles, trucks or vans (passenger autos built on a truck chassis, including minivans and SUVs built on a truck chassis) placed in service are to be depreciated over a minimum of five years. If placed in service in 2020 and used 100% for business, they are limited to an annual depreciation or Section 179 deduction as follows;
…for the placed-in-service year if special depreciation allowed, $18,200 for autos, trucks, and vans;
…for the placed-in-service year if no special depreciation allowed, $10,200 for autos, trucks and vans;
…for the second tax year, $16,400 for autos, trucks and vans;
…for the third tax year, $9,800 for autos, trucks and vans; and
…for each succeeding year, $5,860 for autos, trucks and vans thereafter until the entire cost is recovered. These maximum amounts are reduced proportionately if the business use percentage is less than 100%. See page 18 of this booklet for additional information on depreciation as it pertains to SUVs, trucks and vans.

AMERICAN OVERSIGHT

The maximum MACRS depreciation deduction on a passenger auto placed in service before 2021 depends upon the date the auto was placed in service. These limits are as follows:

	AUTOS	TRUCKS & VANS
In 1995 through 2002	$1,775	$1,775
In 2003	$1,775	$1,875
In 2004	$1,775	$1,875
In 2005	$1,775	$1,875
In 2006	$1,775	$1,875
In 2007	$2,850	$3,050
In 2008	$4,800	$5,100
In 2009	$2,960	$3,060
In 2010	$4,800	$4,900
In 2011	$3,060	$3,260
In 2012	$3,160	$3,360
In 2013	$3,160	$3,460
In 2014	$3,160	$3,460
In 2015	$3,160	$3,460
In 2016	$3,160	$3,560
In 2017	$3,160	$3,560
In 2018	$10,000	$10,000
In 2019	$10,100	$10,100
In 2020	$10,100	$10,100

These amounts are reduced proportionately if the business uses percentage is less than 100 per cent.

Cost recovery deductions not claimed in a recovery year due to the foregoing limitations may be taken in subsequent years, if the auto is still in service. These later deductions continue to be limited to the maximum cost recovery deduction for subsequent years.

Q. Since I receive expense allowances from the State, would it not be best to disregard the allowances entirely and assume that they are completely offset by expenses and, therefore, not report anything?

A. The Internal Revenue Service regulations require that you include these allowances in your income and deduct related expenses. If your allowances exceed your actual expenses, you have an excess reimbursement which will be included in taxable income. If your expenses exceed your allowances, you have a deduction. Assuming that you are considered to have an accountable reimbursement plan, the excess over the reimbursement is classified as a miscellaneous itemized deduction and is deductible.

AMERICAN OVERSIGHT

Q. I lease my automobile. Are there any limitations on the amount I can deduct?

A. If the value of the automobile at the beginning of the lease is greater than $50,000 for leases beginning in 2021, a certain amount of the lease payment is not allowed as a deduction. The amount is dependent on the value of the automobile. The IRS has provided tables to assist in calculating the nondeductible portion of the leased automobile expense. (See Exhibit E.) You are also eligible to take the standard mileage instead of actual expenses if elected for the entire lease period.

Q. If I itemize my automobile expenses one year, can I use the standard mileage allowance the following year?

A. Generally, no. If you select the actual cost method, the standard mileage rate may not be used for that automobile, unless straight line depreciation was used in the prior year. However, if you use the standard mileage rate for the first year the car is used for business, you may switch to the actual cost method, but you then must use a straight-line depreciation rate for the remaining estimated life of the automobile.

Q. What if the business use of my automobile decreases after the first year?

A. Certain complex "recapture" rules apply and the law may require you to change your method of depreciation. For information on the details of these recapture rules, you should consult your Certified Public Accountant or other tax advisor.

Q. I received a traffic violation ticket because I was rushing to get to Madison to be on time for a session or a committee meeting. Is the fine a tax deductible expense?

A. Sorry, a traffic violation is a penalty and therefore not a deductible expense.

Q. If I use another mode of transportation for deductible travel, such as a bus or airplane, can I deduct these expenses in addition to the mileage expense I would have incurred had I driven my car instead?

A. You cannot claim both the mileage you would have incurred had you driven an automobile and the cost of the bus fare or airplane ticket. If you use a bus, airplane or other means of transportation, you should retain receipts and other documentation so that these expenses can be deducted.

Q. On occasion I ride with another legislator. Do I still claim a tax deduction for the mileage for that particular trip, even though I did not drive my own car?

A. No. When you ride with someone else and do not incur any transportation expense yourself, you cannot claim any mileage expense for that travel.

AMERICAN OVERSIGHT

Q. While away from home, staying in Madison for the legislative session, I am required to drive my car or take a taxi to the capitol each day. Can I deduct this as a business expense?

A. Yes. If Madison is not considered your tax home, business transportation between your hotel and the capitol, etc., is not considered commuting. Consequently, you may deduct such transportation expense.

AMERICAN OVERSIGHT

ENTERTAINMENT AND MEAL EXPENSES – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. I meet a constituent regarding a legislative problem. We have lunch or some other meal together and I pick up the check. Is this a deductible expense?

A. Generally, yes. However, specific record keeping requirements must be met in order to deduct expenditures for meals and entertainment. You should record in your expense diary the amount spent, the date, the place of the meal or entertainment, the business reason or nature of the benefit to be derived, and the names and occupations or other information about the persons entertained in order to establish their business relationships (see Record Keeping Tips, page 6). To be a deductible meal or entertainment expense, you or one of your employees must be present at the business meal. Meal and entertainment expenses that are considered to be lavish or extravagant are not deductible. Reasonable meals and entertainment expenses are limited to 50% of the amount expended. If you are deducting the meal on a per diem basis or have made the election discussed under the Tax Home section of this guide for the year, your portion of these business meals are not deductible. In addition, as noted on page 2, any deductible, unreimbursed expense which you incur as a legislator is deductible.

Q. I occasionally entertain other elected officials, such as city council members, mayors, and congressmen, primarily for the purpose of maintaining communications with them and to explore common problems. Can I deduct this expense?

A. No. Under the Tax Cuts & Jobs Act, entertainment expenses are not deductible.

Q. While in Madison, on certain special occasions, such as St. Patrick's Day, I will have a gathering of fellow legislators and other individuals connected with the Legislature. Can I deduct the expense of this gathering as a business expense?

A. Social gatherings are presumed to be non-business and the costs, therefore, are not deductible. However, the expenditures will be deductible if you can establish that the activity is primarily business motivated and directly related to your business of being a legislator. This will require records with documentary support which indicate the business purpose and the persons in attendance. (See Record Keeping Tips, page 6).

Q. On traditional holidays, such as Christmas, or at the end of the session, I and fellow legislators take secretaries who have worked long hours during the session out to dinner or buy them small gifts. Can we deduct these expenses?

A. Expenses which are ordinary and necessary to the conduct of your business are deductible. Generally, the expense in question would qualify under these criteria provided the secretaries are your employees and not employees of the State. An individual is considered your employee only if they are directly compensated by you. Individuals carried on the legislative body's payroll, paid through a congressional allowance or employees under statutory authority are generally considered to be employees of the State. Other business gifts are limited to $25 per-person per-year limit.

AMERICAN OVERSIGHT

Q. While in Madison, I stay and have some of my meals at a private club. May I deduct the cost of my dues, meals and lodging, and related expenses?

A. Dues to a facility of a type which is generally considered to constitute entertainment, amusement or recreation are nondeductible.

This rule applies primarily to country clubs, golf and athletic clubs, airline and hotel clubs and clubs operated to provide meals and social activities. However, dues for membership in professional and trade associations and civic or public service organizations are deductible.

The deductibility of meals and lodging is covered in previous questions.

AMERICAN OVERSIGHT

OFFICE EXPENSES – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. Can I deduct salary paid for administrative and clerical assistance?

A. Yes. Salary paid in connection with your business is a deductible expense. If you hire someone, such as a full-time or part-time secretary, to assist you in legislative matters such as handling constituent questions and complaints, the compensation paid is deductible. If you pay wages, you must obtain federal and Wisconsin identification numbers as well as report and pay payroll taxes. For the details on the proper accounting and tax reporting of payrolls, you should consult your Certified Public Accountant or other tax advisor.

Q. If I have a legislative assistant in my district who works for only a token amount each month, am I required to go through the process of filing payroll tax returns and withholding payroll taxes?

A. In most situations, all amounts paid for services are subject to payroll tax laws. However, there are some exceptions, such as in the case of an independent contractor. Since each situation is decided on its particular facts and circumstances, you should consult your Certified Public Accountant or other tax advisor to evaluate the situations for you.

Q. I maintain a rented office in my district for the purpose of serving my constituents. What expenses can I deduct for the cost of maintaining this office?

A. If the office is being used exclusively for legislative purposes, all expenses related to this office - rent, utilities, depreciation on improvements and equipment, etc. - are deductible. However, to the extent that the office is used during your campaign for strictly political purposes, that portion of the total expenses is not deductible. Campaign contributions may be used to offset these campaign office expenses.

Q. Under what circumstances can I claim expense of my home as a business expense?

A. Generally, no deduction will be allowed with respect to expense of your personal residence unless a portion of the residence is used exclusively and regularly for administrative tasks and/or as a meeting place for constituents as your principal place of business and the State does not provide an office or other fixed location for your use. A deduction may be available if you are engaged in a trade or business in addition to that as a legislator. The qualified expenses include repairs, maintenance, insurance, utilities, depreciation, mortgage interest, real estate taxes and rent. You should consult your Certified Public Accountant or tax advisor regarding your particular situation.

Q. I purchased a computer and printer in 2021 that I use exclusively for legislative purposes. This is an employer required expenditure. How much of the purchase price can I currently deduct as depreciation?

AMERICAN OVERSIGHT

A. Under Internal Revenue Code Section 179 for 2021 you can elect to currently deduct, rather than depreciate, up to $1,050,000 of qualifying property (property acquired by purchase for use in the active conduct of a trade or business). This election is limited to the lesser of $1,050,000 or related business income before the election. This limit is reduced by the amount by which the cost of Sec. 179 property placed in service during the tax year exceeds $2,620,000.

A special depreciation allowance equal to 100% of the depreciable basis of qualified property is allowed for assets purchased and placed in service in 2021. Please note that Wisconsin does not allow this.

If Code Sec. 179 expensing is claimed on qualified property, the amount expensed is subtracted from the asset's unadjusted basis before the additional first-year depreciation allowance is computed. Then the regular first-year depreciation (and depreciation for future years) is calculated using the adjusted basis remaining after Sec. 179 expensing and after the additional special depreciation first-year allowance.

For a passenger auto that is qualified property rated at less than 6,000 pounds and is acquired and placed in service in 2021, the combined Code Sec. 179 expensing and regular first year depreciation allowance is capped at $10,100 with no special depreciation allowance. If it qualifies for special depreciation, it is capped at $18,100.

Note – In the case of a truck or van, the 6,000 pound weight test is applied to the truck's or van's gross (loaded) weight rather than its unloaded gross vehicle weight. Sport-utility vehicles (SUVs) are trucks. SUVs that are rated at more than 6,000 pounds gross (loaded) vehicle weight fall outside the definition of a passenger auto and have a higher first-year luxury auto depreciation dollar cap. For new trucks and vans (passenger autos built on a truck chassis, including minivans and sport-utility vehicles built on a truck chassis) that are acquired and first placed in service in 2021, the regular first year depreciation allowance is capped at $10,200. If it qualifies for special depreciation, it is capped at $18,200.

For Federal purposes Code Section 179 depreciation expense is **limited** to $26,200 of the cost of a heavy SUV (sport utility vehicle) placed in service. The $26,200 expensing limit applies to any 4-wheeled vehicle which:

1. is primarily designed (or can be used) to carry passengers on public streets, roads and highways (except for rail vehicles), and
2. has a GVWR (gross, or loaded, vehicle weight rating) of more than 6,000 pounds but not more than 14,000 pounds.

Any remaining cost basis (over the $26,200 already expensed using Section 179) will be depreciated over the 5-year MACRS recovery period.

AMERICAN OVERSIGHT

A vehicle is **not** subject to the $26,200 expensing limit if it:

1. is designed for more than nine individuals in seating rearward of the driver's seat;
2. is equipped with an open cargo area, or a covered box not readily accessible from the passenger compartment, of at least six feet in interior length; or
3. has an integral enclosure, fully enclosing the driver compartment and load carrying device, does not have seating rearward of the drivers seat, and has no body section protruding more than 30 inches ahead of the leading edge of the windshield.

There is no longer a difference between Federal and Wisconsin depreciation for assets placed in service in tax years on and after January 1, 2014.

For assets placed in service before January 1, 2014, any difference between the Federal and Wisconsin adjusted basis of all depreciation assets will be subtracted ratably over the next years (20% per year). This will eventually make the Wisconsin and Federal tax basis the same.

Please consult a Certified Public Accountant or other tax advisor on proper application of these tables. If the property is not used 100% for business purposes, the purchase price must be reduced by the personal use percentage before applying the §179 election or depreciation table percentages.

AMERICAN OVERSIGHT

TELEPHONE EXPENSE – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. Can I deduct the cost of my personal residence telephone in my district? I use it for calling and receiving calls from constituents and for other State business.

A. The basic cost of the telephone is an expense that you would incur whether or not you were a member of the Legislature, and is therefore a personal, nondeductible expense. Calls charged in excess of those covered by the basic rate are a deductible expense if they are business calls. If you have a telephone installed exclusively for business use, the entire cost of this telephone should be deductible if considered reasonable. Long distance telephone calls and telegrams that relate to legislative business are a deductible expense. An answering service, a tape recording device for telephone messages, facsimile machine, call waiting or other enhancements are also deductible to the extent they are directly related to business. However, to the extent that these items are related to personal purposes rather than business purposes, the costs are not deductible.

Cellular phones and similar telecommunication equipment are not considered "listed" property. Also, use of employer-provided cell phones is not taxable income if the phone is provided primarily for non compensatory reasons.

AMERICAN OVERSIGHT

ADVERTISING EXPENSE – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. As a member of the Legislature, I am often called upon to buy advertising in trade journals, magazines, etc. published by various organizations in my district. Can I deduct the cost of this advertising?

A. Generally, yes. It is important that you support worthwhile business and community activities in your district, and it is necessary that you keep your name before the public. Additionally, it is advisable that any advertising purchased during a re-election campaign be paid for by campaign contributions, because political expenditures are not deductible if paid from personal funds. However, no deduction is allowed for advertising which is purchased in a convention program of a political party or in any other publication if any part of the proceeds of the publication is used, directly or indirectly, by a political party or a political candidate.

Q. As a member of the Legislature, I am asked to purchase a ticket for and attend many dinners within my district. Can I deduct the cost of these dinners?

A. Generally, yes. You may also deduct incidental costs, such as transportation and parking. However, if the dinner is on a day in which a per diem is claimed, the cost of the ticket to the extent it is attributable to your dinner is not deductible. In addition, these dinners are subject to the 50% limitation for meals and entertainment. No deduction is allowed if any part of the proceeds from the event is used, directly or indirectly, by a political party or a political candidate.

Q. I buy calendars, pens or similar items which I distribute to my constituents as a means of reminding them that I am their legislator (with my address and phone number so that they can contact me when needed). Can I deduct the cost of such items?

A. Yes, since this is directly related to your business of adequately and properly serving your constituency, you may deduct the cost of these items on your tax return.

AMERICAN OVERSIGHT

OTHER EXPENSES – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. What other expenses can I deduct on my tax return?

A. Other deductible expenses you are likely to incur as a member of the Legislature are as follows:

1. Stationery and postage relating to mail concerning your business as a member of the Legislature.

2. Any other supplies such as pens, paper clips, pencils, etc., that are necessary to maintain your office and serve your constituency.

3. Dues to professional organizations, business leagues, trade associations and civic and public service organizations that you have joined for business purposes. Any dues or other amounts paid to organizations in an attempt to influence the general public with respect to legislative matters, elections or referendums are not deductible. Dues for country clubs, golf and athletic clubs, and other entertainment or recreational clubs are not deductible even if you joined for business reasons.

4. Publications, including books, newspapers and magazines, which you purchase to assist you in your work as a legislator. Expenses of this nature incurred for personal reasons are not deductible.

5. The cost of Christmas cards including envelopes, postage and photographs sent to persons having a business relationship to you in connection with your position as an elected official.

6. Cost of newsletters sent to constituents. (See Newsletter Fund, page 28).

7. Fees paid to Certified Public Accountants and others for services relating to business and income taxes.

8. Education expenses necessary for you to maintain and improve your skills as a legislator.

All of these items, like the other unreimbursed expenses discussed in this guide, are considered miscellaneous itemized deductions.

Q. I am in Madison for long periods of time. Occasionally I find it necessary and desirable to have my spouse (and/or children) visit me. Can I deduct the cost of their transportation to Madison and their motel and meals cost?

A. No. Travel expenses will not be deductible for spouses, dependents or other individuals accompanying a person on a business trip unless:

AMERICAN OVERSIGHT

1) the spouse, dependent or other individual is an employee of the person paying the expenses,
2) the travel is for a bona fide business purpose, *and*
3) the expenses of the spouse, dependent or other individual would otherwise be deductible.

AMERICAN OVERSIGHT

CAMPAIGN CONTRIBUTIONS AND EXPENDITURES

Q. Are campaign receipts and expenditures subject to Internal Revenue Service review?

A. Yes. The Internal Revenue Service has ruled that campaign contributions and political gifts used solely for the expenses of an election campaign or similar purpose are not taxable income to the candidate. Any contributions that are used for personal purposes must be included in the candidate's taxable gross income. Additionally, a political organization may have to file an income tax return and may incur a tax liability. See the following questions for a further discussion of this topic.

Q. Is it permissible to commingle political funds with personal funds?

A. No. If funds are commingled so as to make tracing impractical, the entire fund will be presumed devoted to personal use and deemed taxable income to the candidate. Separate bank account should be maintained for campaign funds.

Q. Am I required to make any disclosures to contributors regarding the nondeductibility of campaign contributions?

A. Yes. Each campaign solicitation by a political organization is subject to disclosure requirements and must contain an express statement, in a conspicuous and easily recognizable format, that contributions or gifts to the organization are not deductible as charitable contributions.

The disclosure requirements do not apply to any organization whose gross receipts in any tax year normally do not exceed $100,000. However, if necessary or appropriate to prevent the avoidance of the disclosure requirement through the use of multiple organizations, the IRS may treat any group of two or more organizations as one organization for purposes of the gross receipts test.

The disclosure requirements generally apply to any solicitation of contributions or gifts that is made in written or printed form, by television, radio or telephone. Therefore, the disclosure requirements do not apply to an in-person verbal request for contributions. A telephone call or letter that is not part of a coordinated fund-raising campaign soliciting 10 or fewer people during a calendar year is not considered solicitation. Failure to disclose that contributions are not deductible may result in a $1,000 per day penalty, up to a maximum of $10,000 per year. The penalty may be higher if it is determined that the organization willfully failed to provide the required disclosure.

Q. How are proceeds derived from fund-raising dinners or testimonial dinners accounted for?

A. The accounting and reporting for dinner proceeds are the same as for campaign contributions.

AMERICAN OVERSIGHT

Q. Are contributions of property, such as stocks and bonds, recorded the same as cash?

A. Yes. The fair market value on the date of the contribution should be acknowledged as the amount of the contribution.

Q. Are campaign expenses deductible for tax purposes?

A. No. Campaign expenses paid from a candidate's private resources are considered non-deductible personal expenses regardless of the result of the election. Such expenses would include the cost of attending political conventions, contributions to the party which sponsored the candidacy, expenses of campaign travel, campaign advertising, expenses of successfully defending a contested election, filing fees, or the cost of legal fees paid in litigation over redistricting. Similarly, contributions made to a political candidate or to a political party are not deductible by the individual making the contribution.

Q. What types of expenditures may be paid from campaign contributions?

A. Expenditures properly payable from campaign contributions include amounts:

1. Used for generally recognized campaign expenses regardless of when such expenses were incurred;

2. Contributed to national, state or local committees of the candidate's party; or

3. Used to reimburse the political candidate for out-of-pocket campaign expense paid by him/her during a current campaign, or, if he/she is not currently campaigning, during the last previous campaign.

Q. What is the tax status of unexpended balances of political funds refunded to contributors?

A. For tax purposes, unexpended balances of political funds which are repaid to known contributors are not considered to be either expended or diverted and, therefore, are not taxable income to the candidate.

Q. In what other ways may unexpended balances of political funds avoid being taxable to the candidate?

A. Any excess funds that are unexpended will generally not be treated as taxable income to the candidate if the excess funds are (1) held in a separate bank account for reasonable anticipation of being used for future campaigns; or (2) the funds are distributed within a reasonable period of time to another political organization or a newsletter fund, an organization that qualifies as a publicly supported charity, or the general fund of the United States Treasury or any state or local government; or (3) the State of Wisconsin Common School Fund.

AMERICAN OVERSIGHT

Q. What reporting is required of a political committee, organization, association or fund formed for the purpose of managing campaign contributions and expenses of a candidate?

A. Such an entity is considered an organization exempt from income tax. However, an income tax may be imposed if the organization expends funds for items not directly related to its exempt political function or if the organization earns investment income such as interest or dividends. (See the next question for a further discussion of this topic). Form 1120-POL must be filed in any year in which there is taxable income. The return is due on or before the fifteenth day of the third month after the end of the taxable year. A timely filing of Form 7004, Application For Automatic Extensions of Time to File Corporation Income Tax Return, will result in an automatic six-month extension of time to file Form 1120-POL.

Q. What items would be reported and subject to tax on the 1120-POL?

A. Only taxable income is reported on Form 1120-POL. Taxable income is the excess of the organization's gross income (excluding exempt function income) over the deductions that are directly connected with the production of that income (excluding exempt function income). This would include income such as interest, dividends, rents, royalties and capital gains. Exempt function income consists of money or property received by the political organization for the purpose of influencing or attempting to influence the selection, nomination, election, or appointment of any individual to any federal, state or local public office or office in a political organization, whether or not such efforts are successful. Exempt function income includes contributions, membership fees, proceeds from a political fundraising or entertainment event, and proceeds from the sale of political campaign material. However, income earned on exempt function income, such as interest and dividends from interim investments, is subject to tax. A political organization is allowed a $100 deduction in calculating its taxable income (but not for newsletter funds).

Q. What accounting records are required for political funds?

A. Detailed substantiating records should be kept by the political candidate or other custodian to enable the candidate to account accurately for the receipt and disbursement of political funds and to identify the exempt function activity for which each expenditure is made. Otherwise, receipts may be taxed on the candidate's individual return and campaign expenses would be nondeductible. Also, if political funds are commingled with personal funds of the political candidate so as to render tracing or identification impractical, the political funds will be presumed to have been diverted to personal use at the time so commingled.

Q. Are there any other forms that state candidates are required to file with the Internal Revenue Service?

A. Under current law, there are mandatory filing requirements for many political organizations that have tax exempt status under Section 527 of the Internal Revenue Service Code.

AMERICAN OVERSIGHT

Current law:

- Exempts state and local candidate and party committees from filing Form 8871 and Form 990 (or 990-EZ);
- Exempts qualified state and local political organizations (QSLPOs) from filing Form 8872;
- Exempts political committees filing with the FEC from filing Form 990 (or 990-EZ);
- Exempts political organizations that are a caucus or association of state or local officials from filing Form 990 (or 990-EZ);
- Requires additional information on Form 8871 and Form 8872;
- Requires the filing of an amended Form 8871 after material changes to maintain tax-exempt status;
- Increases reporting thresholds for certain Form 990 filers;
- Eliminates the requirement to file Form 1120-POL except where an organization has taxable income after taking the $100 specific deduction (returning to pre-July 2000 requirements);
- Reinstates the pre-July 2000 confidentiality requirement for any Form 1120-POL filed after November 2, 2002; and
- Changes the electronic form requirements by
    - Requiring the Form 8871 be filed electronically (as opposed to both in writing and electronically); and
    - Requiring that any Form 8872 due after June 30, 2003, be filed electronically if the filing organization has or expects to have contributions or expenditures of more than $50,000 during the calendar year.

A more complete description of filing requirements for political organizations can be found in Fact Sheet 2002-13. For more information, visit the IRS Web site at www.irs.gov/polorgs or call the IRS Tax Exempt Customer Account Service toll free number at 1-877-829-5500. Assistance is available 8:00 a.m. to 5:00 p.m. local time, Monday through Friday.

Q. What is the tax rule regarding presumption against unrestricted gifts?

A. The Internal Revenue Service will presume, in the absence of evidence to the contrary, that contributions to a political candidate are political funds which are not intended for the unrestricted personal use of such recipient. If, in fact, the funds were intended for the unrestricted personal use of the political candidate, he or she must be able to substantiate this claim.

AMERICAN OVERSIGHT

NEWSLETTER FUND

Q. What is a qualified newsletter fund?

A A qualified newsletter fund is a fund established and maintained by an individual to prepare and circulate his/her newsletter. This fund can be set up by the holder of any federal, state or local elective public office. Candidates for any such office can also establish a newsletter fund, as can individuals who have been elected to public office but have not yet started their term in office (as defined in section 527(g)(3)). After an individual has left office, the newsletter fund provision is not available unless he/she again becomes a candidate.

Q. How is a newsletter fund accounted for?

A. A newsletter fund is treated as an exempt political organization. The assets in the fund must be maintained in separate accounts and used to prepare and circulate the newsletter. Cost of preparing the newsletter includes the cost of secretarial services and the cost of printing, addressing and mailing the newsletter.

Q. Is a newsletter fund subject to tax?

A. A newsletter fund is subject to tax similar to a political organization as discussed in answers to previous questions except that it is not allowed the $100 deduction granted other political organizations.

Q. What about unexpended balances of a newsletter fund?

A. The unexpended balances of a newsletter fund may be contributed to or for the use of another newsletter fund, transferred to the general fund of the U.S. Treasury or of any state or local government, or transferred to or for the use of an exempt public charity, without being considered as having been diverted for the individual's personal use. However, transfer of unexpended assets to a political organization which is not a newsletter fund will be considered as being diverted for the individual's personal use and deemed as taxable income.

AMERICAN OVERSIGHT

WISCONSIN INCOME TAX RETURNS

Q. Are all of the business related expenses discussed above deductible on my state income tax return?

A. No. Except for certain modifications, Wisconsin taxable income is equal to federal *adjusted* gross income (before itemized deductions); therefore, unreimbursed employee business expenses and reimbursed expenses incurred pursuant to a non-accountable plan do not reduce Wisconsin taxable income.

Q. Are there any other adjustments to income or deductions which are only a consider-ation on the Wisconsin income tax return?

A. Yes. The allowance that you elect to receive for food and lodging while you are in Madison on legislative business is exempt from Wisconsin taxation if you do not claim a deduction for travel expenses away from home on legislative days per Wisconsin Statute 71.05(1)(b). In many cases, a Wisconsin legislator who resides more than 50 miles from the Capitol building may discover that the amount claimed for travel expenses based on the federal per diem rate exceeds the allowance he/she received from Wisconsin. For these individuals, the statutory exemption noted above is not helpful. However, for each legislator whose statutory allowance exceeds the allowable travel expenses attributable to such reimbursement, the statutory exemption is useful. In this event, the legislator should list the difference between the statutory allowance and the allowable travel expenses as a subtraction from federal adjusted gross income on Line 11 of Wisconsin's Form 1. We recommend you consult with your Certified Public Accountant or other tax advisor regarding this issue.

Future developments. For the latest information about developments related to Form 1120-POL, such as legislation enacted after it was published, go to *www.irs.gov/Form1120POL*.

What's New

Section 965(a) inclusion. Section 965(a) inclusion amounts from Form 965 are not applicable for tax year 2021 and later years. However, if you continue to make installment payments of tax based on a prior year section 965(a) election, continue to attach Form 965-B to Form 1120-POL.

How To Get Forms and Publications

Internet. You can access the IRS website 24 hours a day, 7 days a week, at *www.irs.gov* to:

- Download forms, instructions, and publications;
- Order IRS products online;
- Research your tax questions online;
- Search publications online by topic or keyword;
- View Internal Revenue Bulletins (IRBs) published in recent years; and
- Sign up to receive local and national tax news by email.

Tax forms and publications. Go to *www.irs.gov/Forms* to view, download, or print all of the forms and publications you may need. You can also download and view popular tax publications and instructions (including the 1040 and 1040-SR instructions) on mobile devices as an eBook at no charge. Or you can go to *www.irs.gov/OrderForms* to place an order and have forms mailed to you within 10 business days.

Phone Help

If you have questions and/or need help completing Form 1120-POL, please call 877-829-5500. This toll-free telephone service is available Monday through Friday.

General Instructions

Purpose of Form

Political organizations and certain exempt organizations file Form 1120-POL to report their political organization taxable income and income tax liability under section 527.

Who Must File

A political organization, whether or not it is tax exempt, must file Form 1120-POL if it has any political organization taxable income.

An exempt organization that isn't a political organization must file Form 1120-POL if it is treated as having political organization taxable income under section 527(f)(1).

Political Organizations

A political organization is a party, committee, association, fund (including a separate segregated fund described in section 527(f)(3) set up by a section 501(c) organization), or other organization, organized and operated primarily for the purpose of accepting contributions or making expenditures, or both, to influence the selection, nomination, election, or appointment of any individual to any public office or office in a political organization, or the election of Presidential or Vice Presidential electors. Political organizations include the following.

1. Newsletter fund, if it is a fund established and maintained by an individual who holds, has been elected to, or is a candidate (as defined in section 527(g)(3)) for nomination or election to any federal, state, or local elective public office. The fund must be maintained exclusively for the preparation and circulation of the individual's newsletter.

2. Separate segregated fund, if it is maintained by a section 501(c) organization (exempt from tax under section 501(a)). For more information, see section 527(f)(3) and Regulations section 1.527-6(f).

Taxable Income

Political organization taxable income (line 19) is the excess of **(a)** gross income for the tax year (excluding exempt function income (defined later)) over **(b)** deductions directly connected with the earning of gross income (excluding exempt function income). Taxable income is figured with the following adjustments.

1. A specific deduction of $100 is allowed (but not for newsletter funds).

2. The net operating loss deduction isn't allowed.

3. The dividends-received deduction and other special deductions for corporations aren't allowed. See section 527(c)(2)(C).

Effect of failure to file Form 8871. Unless excepted (see *Other Reports and Returns That May Be Required,* later), **every political organization,** in order to be considered a tax-exempt organization, must file Form 8871, Political Organization Notice of Section 527 Status. An organization that is required to file Form 8871 but fails to file it when due must include in taxable income for the period before Form 8871 is filed its exempt function income (including contributions received, membership dues, and political fundraising receipts), minus any deductions directly connected with the production of that income. The organization may not deduct its exempt function expenditures because section 162(e) denies a deduction for political campaign expenditures.

Exempt Function and Exempt Function Income

The exempt function of a political organization includes all activities that are related to and support the process of influencing or attempting to influence the selection, nomination, election, or appointment of any individual to any federal, state, or local public office, or office of a political organization, or the election of Presidential or Vice Presidential electors, whether or not the individuals or electors are selected, nominated, elected, or appointed. The term "exempt function" also means the making of expenditures relating to the individual's office, once selected, nominated, elected, or appointed, but only if the expenditures would be deductible by an individual under section 162(a).

Exempt function income is the total of all amounts received from the following sources (to the extent that they are separately segregated only for use for an exempt function).

- Contributions of money and property.
- Membership dues, fees, or assessments paid by a member of a political party.
- Proceeds from a political fundraising or entertainment event, or from the sale of political campaign materials, if those amounts aren't received in the active conduct of a trade or business.
- Proceeds from the conduct of a bingo game, as described in section 513(f)(2).

Specified Taxable Income

Newsletter fund. Taxable income of a newsletter fund is figured in the same manner as taxable income of a political organization except that the specific deduction of $100 isn't allowed.

Exempt organization that isn't a political organization. Gross income for an exempt organization described in section 501(c) that isn't a political organization should include the lesser of:

1. The net investment income of the organization for the tax year, or

2. The aggregate amount spent for an exempt function during the tax year either directly or indirectly through another organization.

Net investment income, for this purpose, is the excess of:

1. The gross amount of interest, dividends, rents, and royalties, plus the excess, if any, of gains from the sale or exchange of assets, over the losses from the sale or exchange of assets; over

2. The deductions directly connected with the production of this income.

Taxable income is figured with the adjustments shown in (1), (2), and (3) under *Taxable Income,* earlier.

AMERICAN OVERSIGHT

Who Must Sign

The return must be signed and dated by:

- The president, vice president, treasurer, assistant treasurer, chief accounting officer; or
- Any other officer (such as tax officer) authorized to sign.

Receivers, trustees, and assignees must also sign and date any return filed on behalf of an organization.

If an employee of the organization completes Form 1120-POL, the *Paid Preparer Use Only* area should remain blank. In addition, anyone who prepares Form 1120-POL but doesn't charge the organization shouldn't complete that section. Generally, anyone who is paid to prepare the return must sign it and fill in the *Paid Preparer Use Only* area.

The paid preparer must complete the required preparer information and:

- Sign the return in the space provided for the preparer's signature, and
- Give a copy of the return to the taxpayer.

Note: A paid preparer may sign original or amended returns by rubber stamp, mechanical device, or computer software program. Also, facsimile signatures are authorized.

Paid Preparer Authorization

If the organization wants to allow the IRS to discuss its 2021 tax return with the paid preparer who signed it, check the "Yes" box in the signature area of the return. This authorization applies only to the individual whose signature appears in the *Paid Preparer Use Only* section of the return. It doesn't apply to the firm, if any, shown in that section.

If the "Yes" box is checked, the organization is authorizing the IRS to call the paid preparer to answer any questions that may arise during the processing of its return. The organization is also authorizing the paid preparer to:

- Give the IRS any information that is missing from its return;
- Call the IRS for information about the processing of its return or the status of any refund or payment(s); and
- Respond to certain IRS notices that the organization may have shared with the preparer about math errors, offsets, and return preparation. The notices won't be sent to the preparer.

The organization isn't authorizing the paid preparer to receive any refund check, bind the organization to anything (including any additional tax liability), or otherwise represent it before the IRS. If the organization wants to expand the paid preparer's authorization, see Pub. 947, Practice Before the IRS and Power of Attorney.

However, the authorization will automatically end no later than the due date (excluding extensions) for filing the 2022 tax return. If you want to revoke the authorization before it ends, see Pub. 947.

When and Where To File

In general, an organization must file Form 1120-POL by the 15th day of the 4th month after the end of the tax year.

If the due date falls on a Saturday, Sunday, or legal holiday, the organization may file on the next business day.

File Form 1120-POL with the:

Department of the Treasury
Internal Revenue Service Center
Ogden, UT 84201

If the organization's principal business, office, or agency is located in a foreign country or a U.S. possession, the address for mailing their return should be:

Internal Revenue Service Center
P.O. Box 409101
Ogden, UT 84409

Private delivery services. Political organizations can use certain private delivery services (PDS) designated by the IRS to meet the "timely mailing as timely filing" rule for tax returns. Go to *www.irs.gov/PDS* for the current list of designated services.

The PDS can tell you how to get written proof of the mailing date.

For the IRS mailing address to use if you're using PDS, go to *www.irs.gov/PDSstreetAddresses*.

PDS can't deliver items to P.O. boxes. You must use the U.S. Postal Service to mail any item to an IRS P.O. box address.

Extension. File Form 7004, Application for Automatic Extension of Time To File Certain Business Income Tax, Information, and Other Returns, to request an extension of time to file.

Other Reports and Returns That May Be Required

An organization that files Form 1120-POL may also be required to file the following forms.

1. Form 8871.

Generally, to be tax exempt, a political organization must file this form within 24 hours of the date it is established and within 30 days of any material change in the organization. However, don't file this form if the organization is:

- An organization that reasonably expects its annual gross receipts to always be less than $25,000,
- A political committee required to report under the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.),
- A political committee of a state or local candidate,
- A state or local committee of a political party, or
- A tax-exempt organization described in section 501(c) that is treated as having political organization taxable income under section 527(f)(1).

2. Form 8872, Political Organization Report of Contributions and Expenditures (periodic reports are required during the calendar year).

Generally, a political organization that files Form 8871 and accepts a contribution or makes an expenditure for an exempt function during the calendar year must file this form. However, this form isn't required to be filed by an organization excepted from filing Form 8871 (see (1) earlier), or a qualified state or local political organization (QSLPO) (see the Instructions for Form 8871, and Rev. Rul. 2003-49, 2003-20 I.R.B. 903, for the definition of a QSLPO).

3. Form 990, Return of Organization Exempt From Income Tax, or **Form 990-EZ,** Short Form Return of Organization Exempt From Income Tax.

An exempt political organization must also file one of these forms if its annual gross receipts are $25,000 or more ($100,000 or more for a QSLPO).

The following political organizations aren't required to file Form 990 or Form 990-EZ.

- Any political organization excepted from the requirement to file Form 8871.
- Any caucus or association of state or local officials.

See the instructions for Form 990 or Form 990-EZ.

4. Form 8997, Initial and Annual Statement of Qualified Opportunity Fund (QOF) Investments.

Use Form 8997 to identify qualified investments held in a qualified opportunity fund at any time during the year. If you held a qualified investment in a qualified opportunity fund at any time during the year, you must file your Form 1120-POL with Form 8997 attached. See the instructions for Form 8997.

5. Form 8992, U.S. Shareholder Calculation of Global Intangible Low-Taxed Income (GILTI).

Use Form 8992 to figure the domestic corporation's GILTI and attach it to Form 1120-POL. See section 951A for more information.

Accounting Methods

Figure taxable income using the method of accounting regularly used in keeping the organization's books and records. Generally, permissible methods include:

- Cash,
- Accrual, or
- Any other method authorized by the Internal Revenue Code.

In all cases, the method used must clearly show taxable income.

Change in accounting method. Generally, the organization may only change the method of accounting used to report taxable income (for income as a whole or for any material item) by getting consent on Form 3115, Application for Change in Accounting Method. For more information, see Pub. 538, Accounting Periods and Methods.

AMERICAN OVERSIGHT
WI-REP-22-0206-A-000112

Accounting Period

The organization must figure its taxable income on the basis of a tax year. The tax year is the annual accounting period the organization uses to keep its records and report its income and expenses if that period is a calendar year or a fiscal year. However, an organization that doesn't keep books or doesn't have an annual accounting period must use the calendar year as its tax year. A new organization must adopt its tax year by the due date (not including extensions) of its first income tax return.

Change of tax year. After the organization has adopted a tax year, it must get the consent of the IRS to change its tax year by filing Form 1128, Application To Adopt, Change, or Retain a Tax Year. See Regulations section 1.442-1 and Pub. 538.

Rounding Off to Whole Dollars

The organization may round off cents to whole dollars on the return and accompanying schedules. If the organization does round to whole dollars, it must round all amounts. To round, drop amounts under 50 cents and increase amounts from 50 to 99 cents to the next dollar. For example, $1.39 becomes $1 and $2.50 becomes $3.

If two or more amounts must be added to figure the amount to enter on a line, include cents when adding the amounts and round off only the total.

Federal Tax Deposits Must Be Made by Electronic Funds Transfer

You must use electronic funds transfer to make all federal deposits (such as deposits of estimated tax, employment tax, and excise tax). Generally, electronic fund transfers are made using the Electronic Federal Tax Payment System (EFTPS). If you don't want to use EFTPS, you can arrange for your tax professional, financial institution, payroll service, or other trusted third party to make deposits on your behalf. Also, you may arrange for your financial institution to submit a same-day wire payment on your behalf. EFTPS is a free service provided by the Department of the Treasury. Services provided by your tax professional, financial institution, payroll services, or other third party may have a fee. To get more information about EFTPS or to enroll in EFTPS, visit *www.EFTPS.gov* or call 800-555-4477. Additional information about EFTPS is available in Pub. 966, Electronic Federal Tax Payment System: A Guide to Getting Started.

Depositing on time. For deposits made by EFTPS to be on time, you must submit the deposit by 8 p.m. Eastern time the day before the date the deposit is due. If you use a third party to make deposits on its behalf, they may have different cutoff times.

Same-day payment option. If you fail to submit a deposit transaction on EFTPS by 8 p.m. Eastern time the day before the date a deposit is due, you can still make the deposit on time by using the Federal Tax Application (FTA). Before using the same-day payment option, you will need to make arrangements with your financial institution ahead of time. Please check with the financial institution regarding availability, deadlines, and costs. To learn more about making a same-day payment and to download the Same-Day Payment Worksheet, visit *www.EFTPS.gov*.

Deposits on business days only. If a deposit is required to be made on a day that isn't a business day, the deposit is considered timely if it is made by the close of the next business day. A business day is any day other than a Saturday, Sunday, or legal holiday. For example, if a deposit is required to be made on a Friday and Friday is a legal holiday, the deposit will be considered timely if it is made by the following Monday (if that Monday is a business day). The term "legal holiday" means any legal holiday in the District of Columbia.

If the organization owes tax when it files Form 1120-POL, don't include the payment with the tax return. Instead, use EFTPS.

Interest and Penalties

Interest

Interest is charged on taxes paid late even if an extension of time to file is granted. Interest is also charged on penalties imposed for failure to file, negligence, fraud, gross valuation overstatements, and substantial understatement of tax from the due date (including extensions) to the date of payment. The interest charge is figured at a rate determined under section 6621.

Penalties

Penalties may be imposed if the organization is required to file Form 1120-POL and it fails to file the form by the due date. The following penalties may apply if the organization doesn't file its tax return by the due date, including extensions.

Late filing of return. The organization may be charged a penalty of 5% of the unpaid tax for each month or part of a month the return is late, up to a maximum of 25% of the unpaid tax. The minimum penalty for a return that is more than 60 days late is the smaller of the tax due or $435. If you receive a notice about a penalty after you file this return, reply to the notice with an explanation and we will determine if you meet reasonable-cause criteria. **Do not** include an explanation when you file your return.

Late payment of tax. An organization that doesn't pay the tax when due may generally have to pay a penalty of ½ of 1% of the unpaid tax for each month or part of a month the tax isn't paid, up to a maximum of 25% of the unpaid tax. If you receive a notice about a penalty after you file this return, reply to the notice with an explanation and we will determine if you meet reasonable-cause criteria. **Do not** include an explanation when you file your return.

Other penalties. Other penalties can be imposed for negligence, substantial understatement of tax, and fraud. See sections 6662 and 6663.

Assembling the Return

Attach Form 4136, Credit for Federal Tax Paid on Fuels, after page 1 of Form 1120-POL. Attach schedules in alphabetical order and other forms in numerical order after Form 4136.

Complete every applicable entry space on Form 1120-POL. Do not write "See attached" instead of completing the entry spaces. If you need more space on the forms or schedules, attach separate sheets using the same size and format as on the printed forms. Show the totals on the printed forms. Attach these separate sheets after all the schedules and forms. Be sure to put the organization's name and EIN on each sheet.

Specific Instructions

Period covered. File the 2021 return for calendar year 2021 and fiscal years that begin in 2021 and end in 2022. For a fiscal year, fill in the tax year space at the top of the form.

Note: The 2021 Form 1120-POL may also be used if:

- The organization has a tax year of less than 12 months that begins and ends in 2022, and
- The 2022 Form 1120-POL isn't available at the time the organization is required to file its return. The organization must show its 2022 tax year on the 2021 Form 1120-POL and take into account any tax law changes that are effective for tax years beginning after 2021.

Address. Include the suite, room, or other unit number after the street address. If the Post Office doesn't deliver mail to the street address and the organization has a P.O. box, show the box number instead of the street address.

Final return, name change, address change, amended return. If the organization ceases to exist, check the "Final return" box.

If the organization has changed its name since it last filed a return, check the "Name change" box.

If the organization has changed its address since it last filed a return, check the "Address change" box.

Note: If a change in address occurs after the return is filed, the organization should use Form 8822-B, Change of Address or Responsible Party—Business, to notify the IRS of the new address.

AMERICAN OVERSIGHT

Amended return. If you are filing an amended Form 1120-POL:

- Check the "Amended return" box,
- Complete the entire return,
- Correct the appropriate lines with the new information, and
- Refigure the tax liability.

Attach a sheet that explains the reason for the amendments and identifies the lines and amounts being changed on the amended return. Generally, the amended return must be filed within 3 years after the date the original return was due or 3 years after the date the organization filed it, whichever is later.

Employer identification number (EIN). Enter the nine-digit EIN assigned to the organization. If the organization doesn't have an EIN, it must apply for one. An EIN can be applied for online by visiting the IRS website at *www.irs.gov/EIN*. The organization may also apply for an EIN by faxing or mailing Form SS-4 to the IRS. Customers outside the United States or U.S. possessions may also apply for an EIN by calling 267-941-1099 (toll call).

The online application process isn't yet available for organizations with addresses in foreign countries.

If the organization hasn't received its EIN by the time the return is due, write "Applied for" in the space provided for the EIN. See Pub. 583, Starting a Business and Keeping Records, for details.

Income and deductions. Campaign contributions and other exempt function income are generally not includible in income; likewise, campaign expenditures and other exempt function expenditures aren't deductible. To be deductible in figuring political organization taxable income, expenses must be directly connected with the production of political organization taxable income. In those cases where expenses are attributable to the production of both exempt function income and political organization taxable income, the expenses should be allocated on a reasonable and consistent basis. Only the portion allocable to the production of political organization taxable income may be deducted. No deduction is allowed for general administrative or indirect expenses.

Line 7. Other income and nonexempt function expenditures. Enter the income from other sources, such as the following.

- Exempt function income that wasn't properly segregated for exempt functions.
- Income received in the ordinary course of a trade or business.
- Ordinary income from the trade or business activities of a partnership (from Schedule K-1 (Form 1065), Partner's Share of Income, Deductions, Credits, etc., Part III, box 1).
- Exempt function income (minus any deductions directly connected with the production of that income) taxable under section 527(i)(4) for failure to timely file Form 8871. Include amounts whether or not segregated for use for an exempt function.

Also include on this line:

- Expenditures that were made from exempt function income that weren't for an exempt function and resulted in direct or indirect financial benefit to the political organization (see Regulations section 1.527-5 for examples), and
- Illegal expenditures.

Attach a schedule listing all income and expenditures included on line 7.

Line 17. Taxable income before specific deduction of $100. Political organizations, newsletter funds, and separate segregated funds figure their tax by subtracting line 16 from line 8 and entering the result on line 17(c).

Exempt organizations (section 501(c)) that aren't political organizations. Complete lines 17a and 17b if the organization made exempt function expenditures that weren't from a separate segregated fund. Enter on line 17c the smaller of line 17a or 17b. See *Exempt organization that isn't a political organization,* earlier, for an explanation of the amounts to enter on these lines.

Line 19. Taxable income. If the taxable income on line 19 is zero or less, the Form 1120-POL isn't required to be filed, but it may be filed to start the statute of limitations period.

Line 20. Income tax. The tax rate for 1120-POL filers is 21%. Figure your tax by multiplying line 19 by 21% (0.21) and enter the result on line 20.

Note: Estimated tax and alternative minimum tax don't apply to political organizations.

If Form 8978, Partner's Additional Reporting Year Tax, was filed, attach it to Form 1120-POL. Do **not** enter any amount from Form 8978, line 14, on line 20.

Line 21. Tax credits. The organization may qualify for the following credits.

- **Employer credit for paid family and medical leave.** See Form 8994, Employer Credit for Paid Family and Medical Leave.
- **Foreign tax credit.** See Form 1118, Foreign Tax Credit—Corporations.
- **Qualified electric vehicle credit (carryforward ONLY).** See Form 8834, Qualified Electric Vehicle Credit.
- **General business credit** (excluding the small employer health insurance premium credit, work opportunity credit, employee retention credit (Form 5884-A), the empowerment zone employment credit, the Indian employment credit, and the credit for employer differential wage payments). See Form 3800, General Business Credit.

Enter the total amount of qualified credits on line 21 and attach the applicable credit forms.

If Form 8978 was filed, attach to Form 1120-POL. Do **not** enter any amount from Form 8978, line 14, on line 21.

Line 22. Total tax. If the political organization must recapture any of the qualified electric vehicle credit, include the amount of the recapture in the total for line 22. On the dotted line next to the entry space, write "QEV recapture" and the amount. See Regulations section 1.30-1 for details on how to figure the recapture.

What if You Can't Pay in Full?

If you can't pay the full amount of tax you owe, you can apply for an installment agreement online.

You can apply for an installment agreement online if:

- You can't pay the full amount shown on line 24,
- The total amount you owe is $25,000 or less, and
- You can pay the liability in full in 24 months.

To apply using the Online Payment Agreement Application, go to *www.irs.gov/OPA*.

Under an installment agreement, you can pay what you owe in monthly installments. There are certain conditions you must meet to enter into and maintain an installment agreement, such as paying the liability within 24 months and making all required deposits and timely filing tax returns during the length of the agreement.

If your installment agreement is accepted, you will be charged a fee and you will be subject to penalties and interest on the amount of tax not paid by the due date of the return.

Additional Information

Question 1

Foreign financial accounts. Check the "Yes" box if either (1) or (2) next applies to the organization. Otherwise, check the "No" box.

1. At any time during the 2021 calendar year the organization had a financial interest in or signature or other authority over a bank, securities, or other types of financial accounts in a foreign country; and
   - The combined value of the accounts was more than $10,000 at any time during the calendar year; and
   - The accounts weren't with a U.S. military banking facility operated by a U.S. financial institution.
2. The organization owns more than 50% of the stock in any corporation that would answer "Yes" to item (1) above.

See FinCEN Form 114, Report of Foreign Bank and Financial Accounts (FBAR), to find out if the organization is considered to have an interest in or signature or other authority over a financial account in a foreign country.

AMERICAN OVERSIGHT

If "Yes" is checked for this question, file FinCEN Form 114 electronically with the Department of the Treasury using FinCEN's BSA E-Filing System. Because FinCEN Form 114 isn't a tax form, don't file it with Form 1120-POL.

See *www.FINCEN.gov* for more information.

Also, if "Yes" is checked for this question, enter the name of the foreign country or countries. Attach a separate sheet if more space is needed.

Question 2

If you checked "Yes" to Question 2, the organization may be required to file Form 3520, Annual Return To Report Transactions With Foreign Trusts and Receipt of Certain Foreign Gifts. For details, see the Instructions for Form 3520.

Note: An owner of a foreign trust must ensure that the trust files an annual information return on Form 3520-A, Annual Information Return of Foreign Trust With a U.S. Owner. For details, see the Instructions for Form 3520-A.

Question 3

In the space provided, show any tax-exempt interest income received or accrued. Include any exempt-interest dividends received as a shareholder in a mutual fund or other regulated investment company.

Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax.

You aren't required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by section 6103.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated burden for business taxpayers filing this form is approved under OMB control number 1545-0123 and 1545-0047, and is included in the estimates shown in the Instructions for Form 1120.

If you have comments concerning the accuracy of these time estimates or suggestions for making this form simpler, we would be happy to hear from you. You can send us comments from *www.irs.gov/FormComments*. Or you can write to:

Internal Revenue Service
Tax Forms and Publications
1111 Constitution Ave. NW, IR-6526
Washington, DC 20224

Although we can't respond individually to each comment received, we do appreciate your feedback and will consider your comments as we revise our tax products.

Do not send the form to this office. See *When and Where To File,* earlier.

FACTORS TO BE PROVED IN SUBSTANTIATING ELEMENTS IN COLUMN 1

Elements To Be Substantiated (1)	For Expenditures For Travel Away From Home (2)	For Expenditures For Entertainment (3)	For Expenditures For Gifts (4)
Amount	Amount of each separate expenditure for transportation, lodging and meals. Permissible to total incidental expenses in reasonable categories, such as gasoline and oil, taxis, daily meals for traveler etc.	Amount of each separate expenditure. Incidental items such as taxi, telephone, etc. may be totaled on a daily basis.	Cost of Gift.
Time	Dates of departure and return for each trip, and number of days attributable to business activities.	Date of entertainment or use of a facility for entertainment. (Duration of business discussion.)	Date of Gift.
Place	Destination by name of city or other appropriate designation.	Name and address or similar designation or place of use of a facility in connection with entertainment.	Not applicable.
Description	Not applicable.	Type of entertainment if not otherwise apparent.	Description of Gift.
Business Purpose	Business reason for travel or nature of business benefit derived or expected to be derived.	Business reason or nature of business benefit derived or expected to be derived. Nature of business discussion or activity if entertainment is other than "business meals".	Business reason for making the gift or nature of business benefit derived or expected to be derived.
Business	Not applicable.	Occupations or such other information – such as names or other designations – about persons entertained which established their business relationship to taxpayer (identification of persons entertained who participated in business discussion.)	Occupation or other information – such as name or other designation – about recipient which establishes business relationship to taxpayer.

AMERICAN OVERSIGHT

2021 Model Form – Wisconsin Legislators
(For Making Internal Revenue Code Section 162(h) Election)

Name _____

Address _____

Residence within Legislative District

_____

Social Security Number _____

For the tax year 2021 I have elected my district home as my tax home and I am now applying section 162(h) of the Internal Revenue Code which allows a per diem expense for living expenses attributable to my work as a state legislator for every legislative day.

The number of miles between my residence within my legislative district and the capitol building is _____ .

The number of my legislative days for tax year 2021 includes:

_____ Session days *(including recesses of four consecutive days or less)*

_____ Committee meeting days

_____ Total legislative days

The per diem rate I am using is $170 for the period January 1, 2021, through March 31, 2021; $192 for the period April 1, 2021, through September 30, 2021; $195 for the month of October, 2021; and $173 for the period November 1, 2021, through December 31, 2021. This is the federal employee per diem rate which was in effect for Madison for 2021.

1. Enter reimbursements received from your employer that weren't reported to you in box 1 of Form W-2. Include any reimbursements reported under code "L" in box 12 of your Form W-2 . . . . . _____

2a. _____ Legislative days at $170 per day . . . . . _____

2b. _____ Legislative days at $192 per day . . . . . _____

2c. _____ Legislative days at $195 per day . . . . . _____

2d. _____ Legislative days at $173 per day . . . . . _____

2e. Total per diem expenses. Add lines 2a through 2d . . . . . _____

3. Expenses not reported on line 2e (See instructions on page 3) . . . . . _____

4. Total expenses. Add lines 2e and 3 . . . . . _____

5. Subtract line 4 from line 1. If zero or less, enter -0- (no deduction is allowed). However, if line 1 is greater than line 4, report the excess as income on federal Forms 1040, 1040-SR, or 1040NR. See the instructions for these forms for the lines on which to report these amounts . . . . . _____

Note: Do not include on lines 2a through 2e any legislative day for which you are claiming actual expenses on line 3.

80,000	85,000	11	23	34	41	48
85,000	9,000	12	27	40	47	55
90,000	95,000	14	30	45	55	62
95,000	100,000	16	34	50	61	70
100,000	110,000	18	40	58	71	81
110,000	120,000	21	47	70	83	97
120,000	130,000	25	54	81	96	112
130,000	140,000	28	62	91	110	127
140,000	150,000	31	69	103	123	141
150,000	160,000	35	76	114	136	157
160,000	170,000	38	84	124	149	172
170,000	180,000	41	91	135	163	187
180,000	190,000	45	98	146	176	202
190,000	200,000	48	106	157	188	218
200,000	210,000	51	113	168	202	232
210,000	220,000	55	120	179	215	247
220,000	230,000	58	128	190	227	263
230,000	240,000	61	135	201	241	278
240,000	and over	65	142	212	254	293

Notes:

1. Does not apply to leases of less than 30 days.

2. If leased for less than 365 days, multiply the table amounts by the number of days divided by 365.

3. The table amounts assume 100% business use. The applicable amount should be multiplied by the business use percentage to determine the non-deductible portion.

   Example:

   Car with a fair market value of $100,000
   Lease begins March 1, 2021
   80% business use

Applicable amount		$18
Portion of year used	*306/365	
		15
Business use	*80%	
Add back amount		$12

4. Income inclusion amounts for business autos leased before 2021 are shown in prior year tax guides or IRS Publication 463.

Subject: 2920 election

Dear Rep. Voss
Please continue to support Judge Gableman and provide him all the necessary resources he needs to complete his investigation. Also support Rep. Ramthun with his action to decertify the 2020 election. We must clean up 2020 in order to have future election integrity that we can believe in.
Sincerely
Pete G Reines

Notice of Demand to Investigate Legislative Resolution to Recall 2020 Presidential Electors
[Demand to Decertify 2020 Election based on Preponderance of Causational Evidence]

Notice to Agent is Notice to Principle and Notice to Principle is Notice to Agent

I, James McClain **,** (one of the "People" of the State of Wisconsin as stated in its Constitution, **Article I, Section 1**), come Sui Juris, in this Court of Record, giving you Notice of the following claims and facts that you and your agents may provide due care;

Please take Notice, "We the People," have the ultimate responsibility to oversee our government representatives once "We" place them in office. Until recently, the voters let these public officials perform their service without much supervision. That time is over. Wisconsin voters are dissatisfied with the partisan politics being waged across the nation. The "People" are educating themselves regarding their Civic responsibilities, forced to do this because of this Legislature's clear intention of avoiding their elected responsibilities. It is difficult to redirect these individuals when they follow their own personal agendas instead of the wants and needs of the voters. Legislators are held to a higher standard through laws and codes in Subchapters I-946.01 through VI- 946.23, including but not limited to: 1) Obstruction of Justice, 2) Misconduct in Public Office, 3) Corruption, 4) Racketeering, and 5) Tampering with records, documents, and other legal instruments. It is not acceptable that our votes are/have been or may be manipulated, after or even during their being cast, in order to change the outcome of any election; to suit some unknown agenda that has nothing to do with the public weal. When the "People" are victims of election mismanagement it must be investigated. Our Constitution requires it and "We the People" demand this investigation continue.

> **Wisconsin State Constitution, Article I, Section 9. Remedy for wrongs:** **"Every person is entitled to a certain remedy in the laws for all injuries, or wrongs which he may receive in his person, property, or character; he ought to obtain justice freely, and without being obliged to purchase it, completely and without denial, promptly and without delay, conformably to the laws."**

Take careful Notice, "We the People," have been tolerant, to this point of our representative's maneuverings to protect their own interests. We have been observing the ever increasing body of "evidence" of wrong-doing, during the 2020 election. Information that has been brought before the various committees and published publicly for our personal viewing is very disturbing. Whether it passes the threshold required to withdraw our electors from the 2020 election, requires a careful, honest, transparent review. Additionally, "We the People" have a realistic expectation of being included in this process in order to avoid the least suspicion of collusion and dishonest actions by our elected Representatives. The "People" have the unique responsibility of monitoring and correcting our government officials, given to us as a duty, by our state Constitution:

AMERICAN OVERSIGHT

Wisconsin State Constitution, Article I, Section 22, Maintenance of free government: **"The blessings of a free government can only be maintained by a firm adherence to justice, moderation, temperance, frugality and virtue, and by frequent recurrence to fundamental principles."**
Wisconsin State Constitution, Article I, Section 4. Right to assemble and petition: **"The right of the people peaceably to assemble, to consult for the common good, and to petition the government, or any department thereof, shall never be abridged."**

This Notice informs respondents, that only those powers detailed in the United States Constitution are granted to the three branches of federal government. All other powers are stipulated by the included provisions, as powers remaining in the hands of the "People" of each state and/or their elected Representatives. These powers are also, as specified in the wording of each citation listed below, and according to their text, shared among the states equally, without bias, limits or discrimination. The states cannot limit their own "Peoples"" power, or award it to the federal government according to Article VI of the United States Constitution. All Justices are instructed to support the States and "We the People" in the wording of Article VI. In addition Article IV Section 4, protects the Right of the "People" to a Republican form of government, not one ruled by a "majority" of the voters;

U.S. Constitution, Article VI.: **"This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; . . . shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.**

U.S. Constitution Article IV, Section 2, p. 1: **"The Citizens of each State shall be entitled to all Privileges and Immunities of Citizens in the several States."**

U.S. Constitution Article IV, Section 4: **"The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic Violence."**

U.S. Constitution Bill of Rights Amendment IX: **"The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people."**

U.S. Constitution Bill of Rights Amendment X: **"The powers not delegated to the United States by the Constitution nor prohibited by it to the States are reserved to the States respectively, or to the people."**

This Notice advises all Legislators and Senators that arbitrarily refusing to consider "Ranthum's Resolution" passed by the House and/or using full transparent investigatory procedures to review those findings is unacceptable to "We the People." Confining the review of all "evidence" to less than a full committee of Legislators in either House or Senate, is also unacceptable. Comments, Pledges by respective Legislators and/or Senators, and other maneuverings made in an effort to block any further investigation is reprehensible. Corrupt election officials, corrupt legislators, corrupt courts and judicial decisions based on political agendas that do not reflect a Republican form of government, are Unconstitutional. There are provisions in the Wisconsin Constitution for removing any elected official from office. These include conflict of interest, ethical violations, maladministration, malfeasance and criminal Trespass against the "People," as well as the usual "petition" remedy.

Final Notice is given to all Legislators embracing the intention of disregarding the will of "We the People." The constituents of this state have evaluated their representatives and found many of them no longer serve the interests of the "People." We will guard and defend our Right to Vote. You are hereby ordered to Cease and Desist blocking this investigative effort and are also required to transparently evaluate those results submitted in the resolution for Decertification.

Notice of Demand to Investigate Legislative Resolution to Recall 2020 Presidential Electors
[Demand to Decertify 2020 Election based on Preponderance of Causational Evidence]

Notice to Agent is Notice to Principle and Notice to Principle is Notice to Agent

I, Gregory ADDIE **,** (one of the "People" of the State of Wisconsin as stated in its Constitution, **Article I, Section 1**), come Sui Juris, in this Court of Record, giving you Notice of the following claims and facts that you and your agents may provide due care;

Please take Notice, "We the People," have the ultimate responsibility to oversee our government representatives once "We" place them in office. Until recently, the voters let these public officials perform their service without much supervision. That time is over. Wisconsin voters are dissatisfied with the partisan politics being waged across the nation. The "People" are educating themselves regarding their Civic responsibilities, forced to do this because of this Legislature's clear intention of avoiding their elected responsibilities. It is difficult to redirect these individuals when they follow their own personal agendas instead of the wants and needs of the voters. Legislators are held to a higher standard through laws and codes in Subchapters I-946.01 through VI- 946.23, including but not limited to: 1) Obstruction of Justice, 2) Misconduct in Public Office, 3) Corruption, 4) Racketeering, and 5) Tampering with records, documents, and other legal instruments. It is not acceptable that our votes are/have been or may be manipulated, after or even during their being cast, in order to change the outcome of any election; to suit some unknown agenda that has nothing to do with the public weal. When the "People" are victims of election mismanagement it must be investigated. Our Constitution requires it and "We the People" demand this investigation continue.

> **Wisconsin State Constitution, Article I, Section 9. Remedy for wrongs: "Every person is entitled to a certain remedy in the laws for all injuries, or wrongs which he may receive in his person, property, or character; he ought to obtain justice freely, and without being obliged to purchase it, completely and without denial, promptly and without delay, conformably to the laws."**

Take careful Notice, "We the People," have been tolerant, to this point of our representative's maneuverings to protect their own interests. We have been observing the ever increasing body of "evidence" of wrong-doing, during the 2020 election. Information that has been brought before the various committees and published publicly for our personal viewing is very disturbing. Whether it passes the threshold required to withdraw our electors from the 2020 election, requires a careful, honest, transparent review. Additionally, "We the People" have a realistic expectation of being included in this process in order to avoid the least suspicion of collusion and dishonest actions by our elected Representatives. The "People" have the unique responsibility of monitoring and correcting our government officials, given to us as a duty, by our state Constitution:

AMERICAN OVERSIGHT

Wisconsin State Constitution, Article I, Section 22, Maintenance of free government: **"The blessings of a free government can only be maintained by a firm adherence to justice, moderation, temperance, frugality and virtue, and by frequent recurrence to fundamental principles."**
Wisconsin State Constitution, Article I, Section 4. Right to assemble and petition: **"The right of the people peaceably to assemble, to consult for the common good, and to petition the government, or any department thereof, shall never be abridged."**

This Notice informs respondents, that only those powers detailed in the United States Constitution are granted to the three branches of federal government. All other powers are stipulated by the included provisions, as powers remaining in the hands of the "People" of each state and/or their elected Representatives. These powers are also, as specified in the wording of each citation listed below, and according to their text, shared among the states equally, without bias, limits or discrimination. The states cannot limit their own "Peoples"" power, or award it to the federal government according to Article VI of the United States Constitution. All Justices are instructed to support the States and "We the People" in the wording of Article VI. In addition Article IV Section 4, protects the Right of the "People" to a Republican form of government, not one ruled by a "majority" of the voters;

U.S. Constitution, Article VI.: **"This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; . . . shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.**

U.S. Constitution Article IV, Section 2, p. 1: **"The Citizens of each State shall be entitled to all Privileges and Immunities of Citizens in the several States."**

U.S. Constitution Article IV, Section 4: **"The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic Violence."**

U.S. Constitution Bill of Rights Amendment IX: **"The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people."**

U.S. Constitution Bill of Rights Amendment X: **"The powers not delegated to the United States by the Constitution nor prohibited by it to the States are reserved to the States respectively, or to the people."**

This Notice advises all Legislators and Senators that arbitrarily refusing to consider "Ranthum's Resolution" passed by the House and/or using full transparent investigatory procedures to review those findings is unacceptable to "We the People." Confining the review of all "evidence" to less than a full committee of Legislators in either House or Senate, is also unacceptable. Comments, Pledges by respective Legislators and/or Senators, and other maneuverings made in an effort to block any further investigation is reprehensible. Corrupt election officials, corrupt legislators, corrupt courts and judicial decisions based on political agendas that do not reflect a Republican form of government, are Unconstitutional. There are provisions in the Wisconsin Constitution for removing any elected official from office. These include conflict of interest, ethical violations, maladministration, malfeasance and criminal Trespass against the "People," as well as the usual "petition" remedy.

Final Notice is given to all Legislators embracing the intention of disregarding the will of "We the People." The constituents of this state have evaluated their representatives and found many of them no longer serve the interests of the "People." We will guard and defend our Right to Vote. You are hereby ordered to Cease and Desist blocking this investigative effort and are also required to transparently evaluate those results submitted in the resolution for Decertification.

Notice of Demand to Investigate Legislative Resolution to Recall 2020 Presidential Electors
[Demand to Decertify 2020 Election based on Preponderance of Causational Evidence]

Notice to Agent is Notice to Principle and Notice to Principle is Notice to Agent

I, Michele Scherdin **,** (one of the "People" of the State of Wisconsin as stated in its Constitution, **Article I, Section 1**), come Sui Juris, in this Court of Record, giving you Notice of the following claims and facts that you and your agents may provide due care;

Please take Notice, "We the People," have the ultimate responsibility to oversee our government representatives once "We" place them in office. Until recently, the voters let these public officials perform their service without much supervision. That time is over. Wisconsin voters are dissatisfied with the partisan politics being waged across the nation. The "People" are educating themselves regarding their Civic responsibilities, forced to do this because of this Legislature's clear intention of avoiding their elected responsibilities. It is difficult to redirect these individuals when they follow their own personal agendas instead of the wants and needs of the voters. Legislators are held to a higher standard through laws and codes in Subchapters I-946.01 through VI- 946.23, including but not limited to: 1) Obstruction of Justice, 2) Misconduct in Public Office, 3) Corruption, 4) Racketeering, and 5) Tampering with records, documents, and other legal instruments. It is not acceptable that our votes are/have been or may be manipulated, after or even during their being cast, in order to change the outcome of any election; to suit some unknown agenda that has nothing to do with the public weal. When the "People" are victims of election mismanagement it must be investigated. Our Constitution requires it and "We the People" demand this investigation continue.

> **Wisconsin State Constitution, Article I, Section 9. Remedy for wrongs:** **"Every person is entitled to a certain remedy in the laws for all injuries, or wrongs which he may receive in his person, property, or character; he ought to obtain justice freely, and without being obliged to purchase it, completely and without denial, promptly and without delay, conformably to the laws."**

Confining the review of all "evidence" to less than a full committee of Legislators in either House or Senate, is also unacceptable. Comments, Pledges by respective Legislators and/or Senators, and other maneuverings made in an effort to block any further investigation is reprehensible. Corrupt election officials, corrupt legislators, corrupt courts and judicial decisions based on political agendas that do not reflect a Republican form of government, are Unconstitutional. There are provisions in the Wisconsin Constitution for removing any elected official from office. These include conflict of interest, ethical violations, maladministration, malfeasance and criminal Trespass against the "People," as well as the usual "petition" remedy.

Final Notice is given to all Legislators embracing the intention of disregarding the will of "We the People." The constituents of this state have evaluated their representatives and found many of them no longer serve the interests of the "People." We will guard and defend our Right to Vote. You are hereby ordered to Cease and Desist blocking this investigative effort and are also required to transparently evaluate those results submitted in the resolution for Decertification.

Notice of Demand to Investigate Legislative Resolution to Recall 2020 Presidential Electors
[Demand to Decertify 2020 Election based on Preponderance of Causational Evidence]

Notice to Agent is Notice to Principle and Notice to Principle is Notice to Agent

I, Frank Anders **,** (one of the "People" of the State of Wisconsin as stated in its Constitution, **Article I, Section 1**), come Sui Juris, in this Court of Record, giving you Notice of the following claims and facts that you and your agents may provide due care;

Please take Notice, "We the People," have the ultimate responsibility to oversee our government representatives once "We" place them in office. Until recently, the voters let these public officials perform their service without much supervision. That time is over. Wisconsin voters are dissatisfied with the partisan politics being waged across the nation. The "People" are educating themselves regarding their Civic responsibilities, forced to do this because of this Legislature's clear intention of avoiding their elected responsibilities. It is difficult to redirect these individuals when they follow their own personal agendas instead of the wants and needs of the voters. Legislators are held to a higher standard through laws and codes in Subchapters I-946.01 through VI- 946.23, including but not limited to: 1) Obstruction of Justice, 2) Misconduct in Public Office, 3) Corruption, 4) Racketeering, and 5) Tampering with records, documents, and other legal instruments. It is not acceptable that our votes are/have been or may be manipulated, after or even during their being cast, in order to change the outcome of any election; to suit some unknown agenda that has nothing to do with the public weal. When the "People" are victims of election mismanagement it must be investigated. Our Constitution requires it and "We the People" demand this investigation continue.

> **Wisconsin State Constitution, Article I, Section 9. Remedy for wrongs: "Every person is entitled to a certain remedy in the laws for all injuries, or wrongs which he may receive in his person, property, or character; he ought to obtain justice freely, and without being obliged to purchase it, completely and without denial, promptly and without delay, conformably to the laws."**

Take careful Notice, "We the People," have been tolerant, to this point of our representative's maneuverings to protect their own interests. We have been observing the ever increasing body of "evidence" of wrong-doing, during the 2020 election. Information that has been brought before the various committees and published publicly for our personal viewing is very disturbing. Whether it passes the threshold required to withdraw our electors from the 2020 election, requires a careful, honest, transparent review. Additionally, "We the People" have a realistic expectation of being included in this process in order to avoid the least suspicion of collusion and dishonest actions by our elected Representatives. The "People" have the unique responsibility of monitoring and correcting our government officials, given to us as a duty, by our state Constitution:

AMERICAN OVERSIGHT

Wisconsin State Constitution, Article I, Section 22, Maintenance of free government: **"The blessings of a free government can only be maintained by a firm adherence to justice, moderation, temperance, frugality and virtue, and by frequent recurrence to fundamental principles."**
Wisconsin State Constitution, Article I, Section 4. Right to assemble and petition: **"The right of the people peaceably to assemble, to consult for the common good, and to petition the government, or any department thereof, shall never be abridged."**

This Notice informs respondents, that only those powers detailed in the United States Constitution are granted to the three branches of federal government. All other powers are stipulated by the included provisions, as powers remaining in the hands of the "People" of each state and/or their elected Representatives. These powers are also, as specified in the wording of each citation listed below, and according to their text, shared among the states equally, without bias, limits or discrimination. The states cannot limit their own "Peoples"" power, or award it to the federal government according to Article VI of the United States Constitution. All Justices are instructed to support the States and "We the People" in the wording of Article VI. In addition Article IV Section 4, protects the Right of the "People" to a Republican form of government, not one ruled by a "majority" of the voters;

U.S. Constitution, Article VI.: **"This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; . . . shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.**

U.S. Constitution Article IV, Section 2, p. 1: **"The Citizens of each State shall be entitled to all Privileges and Immunities of Citizens in the several States."**

U.S. Constitution Article IV, Section 4: **"The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic Violence."**

U.S. Constitution Bill of Rights Amendment IX: **"The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people."**

U.S. Constitution Bill of Rights Amendment X: **"The powers not delegated to the United States by the Constitution nor prohibited by it to the States are reserved to the States respectively, or to the people."**

This Notice advises all Legislators and Senators that arbitrarily refusing to consider "Ranthum's Resolution" passed by the House and/or using full transparent investigatory procedures to review those findings is unacceptable to "We the People." Confining the review of all "evidence" to less than a full committee of Legislators in either House or Senate, is also unacceptable. Comments, Pledges by respective Legislators and/or Senators, and other maneuverings made in an effort to block any further investigation is reprehensible. I, Lin Mattila **,** (one of the "People" of the State of Wisconsin as stated in its Constitution, **Article I, Section 1**), come Sui Juris, in this Court of Record, giving you Notice of the following claims and facts that you and your agents may provide due care;

Please take Notice, "We the People," have the ultimate responsibility to oversee our government representatives once "We" place them in office. Until recently, the voters let these public officials perform their service without much supervision. That time is over. Wisconsin voters are dissatisfied with the partisan politics being waged across the nation. The "People" are educating themselves regarding their Civic responsibilities, forced to do this because of this Legislature's clear intention of avoiding their elected responsibilities. It is difficult to redirect these individuals when they follow their own personal agendas instead of the wants and needs of the voters. Legislators are held to a higher standard through laws and codes in Subchapters I-946.01 through VI- 946.23, including but not limited to: 1) Obstruction of Justice, 2) Misconduct in Public Office, 3) Corruption, 4) Racketeering, and 5) Tampering with records, documents, and other legal instruments. It is not acceptable that our votes are/have been or may be manipulated, after or even during their being cast, in order to change the outcome of any election; to suit some unknown agenda that has nothing to do with the public weal. When the "People" are victims of election mismanagement it must be investigated. Our Constitution requires it and "We the People" demand this investigation continue.

> **Wisconsin State Constitution, Article I, Section 9. Remedy for wrongs: "Every person is entitled to a certain remedy in the laws for all injuries, or wrongs which he may receive in his person, property, or character; he ought to obtain justice freely, and without being obliged to purchase it, completely and without denial, promptly and without delay, conformably to the laws."**

Take careful Notice, "We the People," have been tolerant, to this point of our representative's maneuverings to protect their own interests. We have been observing the ever increasing body of "evidence" of wrong-doing, during the 2020 election. Information that has been brought before the various committees and published publicly for our personal viewing is very disturbing. Whether it passes the threshold required to withdraw our electors from the 2020 election, requires a careful, honest, transparent review. Additionally, "We the People" have a realistic expectation of being included in this process in order to avoid the least suspicion of collusion and dishonest actions by our elected Representatives. The "People" have the unique responsibility of monitoring and correcting our government officials, given to us as a duty, by our state Constitution:

AMERICAN OVERSIGHT

Wisconsin State Constitution, Article I, Section 22, Maintenance of free government: **"The blessings of a free government can only be maintained by a firm adherence to justice, moderation, temperance, frugality and virtue, and by frequent recurrence to fundamental principles."**
Wisconsin State Constitution, Article I, Section 4. Right to assemble and petition: **"The right of the people peaceably to assemble, to consult for the common good, and to petition the government, or any department thereof, shall never be abridged."**

This Notice informs respondents, that only those powers detailed in the United States Constitution are granted to the three branches of federal government. All other powers are stipulated by the included provisions, as powers remaining in the hands of the "People" of each state and/or their elected Representatives. These powers are also, as specified in the wording of each citation listed below, and according to their text, shared among the states equally, without bias, limits or discrimination. The states cannot limit their own "Peoples"" power, or award it to the federal government according to Article VI of the United States Constitution. All Justices are instructed to support the States and "We the People" in the wording of Article VI. In addition Article IV Section 4, protects the Right of the "People" to a Republican form of government, not one ruled by a "majority" of the voters;

U.S. Constitution, Article VI.: **"This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; . . . shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.**

U.S. Constitution Article IV, Section 2, p. 1: **"The Citizens of each State shall be entitled to all Privileges and Immunities of Citizens in the several States."**

U.S. Constitution Article IV, Section 4: **"The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic Violence."**

U.S. Constitution Bill of Rights Amendment IX: **"The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people."**

U.S. Constitution Bill of Rights Amendment X: **"The powers not delegated to the United States by the Constitution nor prohibited by it to the States are reserved to the States respectively, or to the people."**

This Notice advises all Legislators and Senators that arbitrarily refusing to consider "Ranthum's Resolution" passed by the House and/or using full transparent investigatory procedures to review those findings is unacceptable to "We the People." Confining the review of all "evidence" to less than a full committee of Legislators in either House or Senate, is also unacceptable. Comments, Pledges by respective Legislators and/or Senators, and other maneuverings made in an effort to block any further investigation is reprehensible. Corrupt election officials, corrupt legislators, corrupt courts and judicial decisions based on political agendas that do not reflect a Republican form of government, are Unconstitutional. There are provisions in the Wisconsin Constitution for removing any elected official from office. These include conflict of interest, ethical violations, maladministration, malfeasance and criminal Trespass against the "People," as well as the usual "petition" remedy.

Final Notice is given to all Legislators embracing the intention of disregarding the will of "We the People." The constituents of this state have evaluated their representatives and found many of them no longer serve the interests of the "People." We will guard and defend our Right to Vote. You are hereby ordered to Cease and Desist blocking this investigative effort and are also required to transparently evaluate those results submitted in the resolution for Decertification.

AMERICAN OVERSIGHT

WI-PER-22-0206-A-000157

From: Ronald Heuer <ron@wisconsinvoteralliance.com>
Sent: Sunday, February 13, 2022, 2:40 PM
To: undisclosed-recipients:;
Subject: A great week for Wisconsin Voting Integrity!

To All:
It has been a great week for Wisconsin Voting Integrity as a number of developments are favorable in support of our mission.

Ballot Drop Boxes

On Friday, the Wisconsin Supreme Court upheld the Waukesha Circuit Court ruling banning the use of ballot drop boxes for the upcoming April election. In a 4-3 ruling the Supreme Court allowed the ban on the lower court decision to stand. This is a significant ruling, and although no final ruling from the Supreme Court on this matter is an indication the courts are finally willing to consider the existing laws and enforce them.

Wisconsin election law calls for absentee ballots to be dropped off at the clerk's office or returned via mail. Many of the clerk's offices throughout the state maintain legal monitored drop boxes at their locations. The WVA's investigations have uncovered ample evidence to prove the addition of the unmonitored drop boxes in the CTCL / Zuckerberg Wisconsin Safe Voting Plan to control the 2020 election was a key element in their success.

Stop Private Money from Controlling our Elections

As you may know, from following our work, this was our first initiative, and still is high on our priorities list. It was also high on our Legislators list as they passed legislation in March of 2021 that would outlaw the flow of private money in our elections. That legislation was immediately vetoed by Governor Evers.

Undaunted, the legislature is now working on perfecting the language in the Senate Joint Resolution 101 which would amend our State Constitution to prohibit private donations or grants to be used in Wisconsin elections. This is a very positive approach because Governor Evers cannot stop this as much as it is a constitutional amendment. That's the good news, however, this is far from completed. First it must pass through the Legislature, then it will have to be passed as a referendum on the 2022 fall ballot. Then in Spring of 2023 when the new Legislators are seated, it can become law. We would encourage support of this resolution.

Meantime, the WVA is working with individual counties to have their county boards pass simple ordinances that would outlaw the infusion of private money into their counties for election purposes. We know we won't get all 72 counties to jump on board with this, however, if we can get 50 counties to join in, it sends a very direct message to those non-participating counties.

Election Bribery

On Monday, Feb 14th (Valentine's Day) we are filing our Election Bribery complaint in Green Bay with the respondents being Mayor Genrich, Celestine Jefferies and former clerk, Kris Teske. We filed a similar complaint two weeks ago in the city of Racine, and we will be following up with complaints in Kenosha, Madison and Milwaukee.

AMERICAN OVERSIGHT

This complaint deals with the issue of the CTCL / Zuckerbucks that flowed into the election of Nov 2020. We do not want this to happen again. You can read the entire complaint here Green Bay Election Bribery Filing.

WVA Billboard Project

Our billboard project calling out the WI-5 cities for their involvement in accepting CTCL / Zuckerberg money will cost an estimated $58,000. Our first billboard goes up Feb 14th in Green Bay, I have attached a copy of that board. We are requesting your financial assistance in this project. **Go here to donate:**Billboard Donations

AMERICAN OVERSIGHT

AB 1007 – Professional Opinions

Rep. Moses

Committee on Constitution and Ethics

Session Date: 2/22/2022

Author's Summary of the Legislation

Prepared by: Maryjane Behm 6-7683

Many healthcare providers across the state have been threatened to lose their jobs and licenses if they express an opinion that is different than their employer's and affiliated health system. Healthcare providers should be able to express their professional opinions and advice to patients without retribution.

Assembly Bill 1007 protects healthcare providers by prohibiting any healthcare entity and credentialing board within the Department of Safety and Professional Services from punishing or discriminating in any form against medical professionals who express their professional opinion to a patient or individual.

Protecting the first amendment rights of all people including our healthcare professionals is essential and will provide the best possible healthcare to citizens of Wisconsin.

Committee Chair's Summary of Proceedings

Prepared by: William Neville 6-3363

Fiscal Effect:

N/a

Supporter's Message:

- Healthcare providers should be able to express their professional opinions and advice to patients without retribution.
- The foundation of scientific inquiry involves the questioning and challenging of hypotheses and conclusions before, during, and after the research process. Free inquiry is integral to scientific progress and discovery.
- If all healthcare providers have the same opinions pushed by a corporation or government entity, there is no point in having doctors.

Opponent's Message:

- The bill is unnecessary; we already have 1st Amendment rights to protect freedom of expression.
- This will could lead to extensive litigation
- A business' reputation is more important than an individual's right to speak out as they wish.

Key Supporters:

Rep. Moses, Sen. Nass, Rep. Sortwell, Healthcare professionals: Judith Jolly, Holly Ottesen

Key Opponents:

No one registered against

Committee Vote(s):

6-3 (Hebl, Pope, Cabrera)

AMERICAN OVERSIGHT

AB 1019 – Wausau TID Bill

Rep. Patrick Snyder

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Sam Hope (266-0654)

This bill provides an exemption from the 12% rule for tax incremental districts (TID) for TID 13 in the City of Wausau. This TID is being amended to include a substantial redevelopment project of the former site of the Wausau Center Mall in the downtown Wausau. The City initially believed when the mall was demolished that amending an existing TID to incorporate the project would not require an exemption to the 12% rule. However, a 2021 change in DOR equalized value estimates from 2020 changed the City's value to make the project exceed the 12% rule. This change in estimates occurred after demolition of the mall was complete. The City has 2 TIDs (that comprise 46% of the overall TID value) set to expire in 2024 and 2025. This exemption to the 12% rule for the City will allow the significant redevelopment project to go forward.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- Allows for multi-million-dollar investment into a demolished shopping mall property
- Revitalize this area in downtown Wausau, making the property useable, and bring more tourism to the area

Opponent's Message:

- No registered opponents

Key Supporters:

Rep. Snyder and Spiros
Sen. Petrowski
Liz Brodek – Development Director- City of Wausau

Key Opponents:

No registered opponents

Committee Vote(s):

13-0

AMERICAN OVERSIGHT

AB 1060 – Participants in clinical research trials

Rep. Gundrum

Committee on Small Business Development

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: John Graber, 4-8486

Academic institutions, health care organizations, and private contractors conduct clinical trials on human volunteers. Recently, DWD has decided to classify clinical research trial participants as employees and not independent contractors subjecting them to minimum wage, worker's compensation laws, and unemployment insurance. This legislation ensures this is not the case. Under this bill, individuals who receive a stipend or compensation for participating in a clinical research trial are not considered employees of the entity conducting a trial for the purposes of the minimum wage law, worker's compensation law, and unemployment insurance.

Committee Chair's Summary of Proceedings

Prepared by: Leah G. Peterson (266-3534)

Fiscal Effect:

- None

Supporter's Message:

- Participants in clinical research trials should not be treated as employees of the clinical research facility.
- Current state statute defines who is an independent contractor, and who is an employee of a business
- Companies that need the clinical research done on their products require that participants in clinical research trials are independent contractors, and not employees of the clinical research facility.
- This legislation needs to be passed so that clinical research facilities in Wisconsin are not at a competitive disadvantage
- The legislature passed a bill last session that clarified caddies are independent contractors, and not employees of the golf course.

Opponent's Message:

- No one registered or spoke in opposition to the bill.

Key Supporters:

- Spaulding Clinical

Key Opponents:

- No one registered or spoke in opposition to the bill.

Committee Vote(s):

Passed the Assembly Committee on Small Business Development, **9-4**, (party lines, Representative Tranel & Representative Vining not voting)

AMERICAN OVERSIGHT

AB 161 – Veterans' Disability Rating for Hunting & Fishing

Rep. Thiesfeldt

Committee on Sporting Heritage

Session Date: 2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill provides a single minimum required disability rating of 50% for the discounted resident disabled veteran approvals. Under current law, the qualifying disability rating is either 50% or 70% depending on the approval. This is an important minor change that will reduce confusion for resident disabled veterans and sales agents alike.

Adjusting the required minimum disability rating eligibility criteria so it is consistent across products eliminates the uncomfortable situation where a license sales agent must explain to a resident disabled veteran that their disability is significant enough to meet the eligibility criteria to purchase a disabled veteran recreation card, but that the veteran is not "disabled enough" to qualify for the disabled fishing license.

Committee Chair's Summary of Proceedings

Prepared by: Allison M. Hetz 6-7015

Fiscal Effect:

Annual revenue reduction = $52,600. One-time costs = $11,300

Supporter's Message:

- Provides disabled veterans more opportunities at a lower cost

Opponent's Message:

- Reduces revenues

Key Supporters:

Wisconsin Bear Hunters Association, Wisconsin Wildlife Federation

Key Opponents:

N/A

Committee Vote(s):

The Committee on Sporting Heritage voted 13-0 to recommend passage

AMERICAN OVERSIGHT

AB 340/SB 341 – Real Estate Appraisers Limitations

Rep. Tittl

Committee on Housing and Real Estate

Session Date: **2/23/2022**

Author's Summary of the Legislation

Prepared by: Steve Hall 6-0315

AB 340 limits the time a lawsuit can be brought against a real estate appraiser to five years following the date of the report. It does not apply to an appraiser who commits fraud or concealment in the performance of their duties. Currently, there is no statute of limitations specifically addressed to real estate appraisal services.

Committee Chair's Summary of Proceedings

Prepared by: Alex Braaten, 266-1194

Fiscal Effect:

None

Supporter's Message:

- The new time limit aligns with the Uniform Standards of Professional Appraisal Practice record-keeping requirements, which permit appraisers to destroy records after five years if state law allows.
- The current limit makes it difficult for appraisers to defend themselves, because it begins at the time of discovery rather than the time of performance.
- Some law firms have been buying the rights to sue appraisers in relation to defaulted mortgages, knowing that many appraisal firms, especially smaller ones, may settle rather than incur legal fees to fight these cases.
- A five-year time period is more than enough time for a party to bring a lawsuit against an appraiser.

Opponent's Message:

- No one voiced opposition or registered against.

Key Supporters:

Sen. Jacque; NAIOP (the Commercial Real Estate Development Association); Wis. Realtors Association

Key Opponents:

None

Committee Vote(s):

1/05/22, Assembly Committee on Housing and Real Estate recommended passage **(8-0).**
9/28/21, Passed Full Senate
8/12/21, Senate Committee on Housing, Commerce and Trade, Licensing and Forestry recommended passage **(5-0)**

AMERICAN OVERSIGHT

AB 489 – Utility Aid for Decommissioned Power Plants

Rep. Oldenburg

Committee on Energy and Utilities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Leah G. Peterson (266-3534)

Assembly Bill 489 would accomplish 3 things:

- *Define "Decommissioning"*
  - Under current law there is not a definition for when a power plant is decommissioned. It is important that this term is defined in state statute because it determines when the utility or electric cooperative's property is no longer tax exempt.
- *Creates a sliding scale for phase-out utility aid payments*
  - *Assembly Substitute Amendment Three makes a change to how this formula works under the original bill. This needed to be adjusted as there has been opposition to extending the phase-out utility aid payments over the course of 10 years.*
    - Rather than receiving phase-out utility aid over 5 years and declining at a rate of 20% each year.

Under the substitute amendment, phase-out utility aid payments are paid on a sliding scale, with the trigger for that being the sale/transfer of a power plant when a plant is no longer generating electricity. With this sliding scale approach no county or municipality would receive less aid than is given under current law. The phase-out utility aid would be structured as seen in the chart below (corresponding percentages have been calculated in the substitute amendment):

Plant transferred within year # of no longer generating electricity:	Number of years of phase-out utility aid payments
Year 1	10 years
Year 2	9 years
Year 3	8 years
Year 4	7 years
Year 5	6 years
Years 6+	5 years (current law)

- *Makes sure that phase-out utility aid is paid fairly*
  - This provision ensures that if a power plant has multiple power generating units local municipalities do not experience an immediate reduction in their utility aid.
  - Under current law: if a power plant has multiple power generating units, and one of the units was closed prior to the entire plant being decommissioned the municipalities would experience an immediate reduction in aid. This is due to the fact that utility aid is based off of power generating capacity.
  - This legislation would fix this issue. If a power plant closed a power generating unit, but the whole plant had not yet decommissioned, the utility aid would be held at a steady level until the plant was decommissioned.

AMERICAN OVERSIGHT

- Without this fix the local units of government would never be able to recover the aid that would be lost from one power generating unit closing before the entire power plant was decommissioned.
- Ensuring that phase-out utility aid is fairly paid is important because under current law if a plant with one power generating unit is decommissioned it is treated differently than a power plant with multiple power generating units.
    - This also includes a fix for a power production plant in Sheboygan that is **not** retroactive. However, since the municipality and county's aid was cut in half with the closing of a power generating unit, this will restore their aid to what it would have been if the plant only had one power generating unit.

- **After the bill passed the Assembly Committee on Energy and Utilities another amendment was discussed. It is the intent of the Representative Oldenburg to amend the bill on the floor with Assembly Substitute Amendment 4.**
    - The amendment does two of the three things addressed by the original bill:
- 1. *Define "Decommissioning"*
- 2. *Makes sure that phase-out utility aid is paid fairly*
    - This amendment excludes the sliding scale for utility aid payments, and will not include a fix for host communities of power plants that have previously closed.

Committee Chair's Summary of Proceedings

Prepared by: Garrett Huffman at 267-5158

Fiscal Effect:	AB 489 will result in higher public utility aid payments. The 5yr phase-down costs $19.80 million under current law and $36.30 million under a 10yr phase-down in the original bill – removed under the substitute amendment. Public utility aid payments will also not be reduced as a result of the bill when a utility closes 1 generating unit, but not all, and the local government will continue to receive the higher fixed aid payment based on max power plant generation. DOR estimates a 1-time cost of $65,000 to implement and a $3,900 annual operating cost.
Supporter's Message:	While a plant is generating power the property is tax-exempt. While the utility or electric cooperative's property is tax-exempt, the county and local municipality are provided utility aid through the state. Utility aid is based on the amount of power a plant produces. When a power plant decommissions the loss in utility aid has a major fiscal impact on the local units of government. The loss and process, of decreasing utility aid, is an immense fiscal change for small units of government.
Opponent's Message:	No Opposition Registered
Key Supporters:	Rep. Oldenburg, Sen. Ballweg, Dairyland Power Cooperative, Columbia County, WI Counties Assoc, WI Utility Tax Association, RENEW Wisconsin, Alliant Energy, WI Conservative Energy Forum, MG&E, WEC Energy Group, WI Utilities Assoc, League of WI Municipalities, WI Electric Cooperative Assoc

AMERICAN OVERSIGHT

AB 515 – Tuition remission for certain veterans and their dependents

Rep. Kitchens

Committee on Colleges and Universities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Michael Moscicke, 266-7500)

AB 515 provides veterans with more opportunities to take advantage of the GI Bill in Wisconsin and to attract more people to move to our state, thus bolstering our workforce. The bill modifies the residency requirement for the tuition and fee remission program for certain military veterans and their spouses and children who are enrolled in University of Wisconsin System institutions and technical colleges.

Under current state law, qualifying veterans and their spouses and 17- to 25-year-old children are eligible for full remission of tuition and fees at UW System schools and technical colleges for up to eight semesters or 128 credits, whichever is longer. It is currently required that a veteran must be a resident of this state when he or she entered military service or for at least five consecutive years immediately before they register at a UW System school or technical college.

The bill lowers the five-year requirement to three years. This change aligns with the federal GI Bill, which ends after three years. This will ensure that a student's education is not interrupted.

The bill also eliminates the provision that a student must be a Wisconsin resident at the time of entry into active duty as a condition of eligibility for the nonresident tuition exemption for veterans. By making this change, veterans will be able to qualify for in-state tuition at the time they enroll at a UW System institution.

Committee Chair's Summary of Proceedings

Prepared by: Michael Moscicke 266-7500

Fiscal Effect:

UW System estimates they will see a reduction of program revenue (that is tuition) of $4.1 million in FY24 over FY23. They also estimate increases of these loses of 1% each subsequent year for veterans and 7.4% for children and spouses.
WTCS expects local district costs to increase from their current annual $3 million for an expansion of this program.

Supporter's Message:

- Enables service members and their family to complete their education as intended under the GI Bill.
- Encourages service members and their family to settle in Wisconsin.

Opponent's Message:

- None

Key Supporters:

Disabled American Veterans
The American Legion
UW-Madison
Concordia University
Greater Green Bay Chamber

AMERICAN OVERSIGHT

AB 526/SB 533 – Housing Authorities

Rep. Kuglitsch

Committee on Housing and Real Estate

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Garrett Huffman 267-5158

Mixed-income/mixed-use developments when applied by a housing authority to a targeted area can combat concentrations of poverty, increase the property tax base, add opportunities for upward mobility, and help residents achieve financial independence within the neighborhood.

Assembly Bill 526 authorizes Milwaukee's public housing authority to use mixed-income/mixed-use developments that serve persons of low income but also mix market-rate tenants within the same project.

Mixed-income/mixed-use developments are an important tool for public housing authorities to reduce the need for government funding by cross-subsidization (rents from higher-income tenants that help reduce the subsidy required to provide housing to low-income residents).

The Milwaukee Housing Authority will gain the option to include commercial tenants, like a grocery store or office property, and share residential space between low-income and market-rate tenants.

Assembly Bill 526 also raises Wisconsin's procurement threshold to $50,000. A higher threshold in Wisconsin reduces overhead and aligns with current HUD procurement standards, allowing Public Housing Authorities to put more dollars into affordable housing.

In discussions with stakeholders, Assembly Amendment 1 was added to the bill at the request of the Wisconsin Realtors Association (WRA) and the National Association of Industrial and Office Properties (NAIOP) that limit the effect of the bill to the city of Milwaukee and only properties owned by the Housing Authority prior to October 1, 2021.

Committee Chair's Summary of Proceedings

Prepared by:

Fiscal Effect:	DOA – No State Fiscal Effect and indeterminate local effect, DOR – No State Fiscal Effect and indeterminate local effect, DWD – costs may be absorbed within the agency's budget and indeterminate local effect to local governments. Housing Impact Note available here.
Supporter's Message:	AB 526, as amended by Assembly Amendment 1, allows a housing authority in a 1st class city to operate mixed developments, including mixed-use properties, like an apartment complex with a grocery store on the ground floor. It also includes mixed-income housing, where both low and moderate incomes could be served in the same housing complex. Assembly Bill 526 also raises Wisconsin's procurement threshold to $50,000.
Opponent's Message:	No opposition
Key Supporters:	Rep. Mike Kuglitsch, Sen. Alberta Darling, Rep. Dora Drake, Willlie Hines (Milwaukee Housing Authority), Toni Herkert (WI Municipal League). Tom Larson with the Realtors testified for information only, NAIOP, and the City of Milwaukee.

AMERICAN OVERSIGHT

AB 538/SB 535 – Liability Exemption for Previously owned Eyeglasses

Rep. Paul Tittl

Committee on Judiciary

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Steve Hall; 6-5831

Assembly Bill 538 provides an exemption for the provision of previously owned eyeglasses. Organizations such as the Lions Club collect used eyeglasses, sort, wash, and ship them for eyeglass missions across the world for distribution to people who may not otherwise be able to have them because of lack of affordability.

Under current law, these organizations do not distribute eyeglasses in Wisconsin, because they could face liability for doing so. The bill provides a liability exemption such as Oregon has enacted.

Committee Chair's Summary of Proceedings

Prepared by: Kathryn E. Heitman; 6-5831

Fiscal Effect:

No State or Local fiscal effect.

Supporter's Message:

- This allows for an exemption of liability for donated eyeglasses.

Opponent's Message:

- Regardless of whether an organization is charging for glasses, they should be responsible for ensuring the product they are distributing will not cause harm to the recipient.

Key Supporters:

Rep. Paul Tittl; Sen. Andre Jacque; Beyond Vision; Wisconsin Academy of Ophthalmology

Key Opponents:

None

Committee Vote(s):

Passed the Assembly Committee on Judiciary: 9-0
Passed the Senate Committee on Government Operations, Legal Review and Consumer Protection: 4-1
Passed Senate by voice vote.

AB 576/SB 335 – Lake Sturgeon Raffle

Rep. Thiesfeldt

Committee on Sporting Heritage

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill authorizes Sturgeon for Tomorrow, Inc. (SFT) to request that DNR annually transfer up to 15 carcasses of lake sturgeon culled from state fish hatcheries to be awarded as prizes in a raffle. The bill requires the organization to preserve the carcasses for taxidermy and mounting and to provide to each person who receives a carcass a certificate of transfer. The bill also requires the organization to use all proceeds from these raffles to promote sturgeon management, conduct sturgeon habitat management, promote sturgeon reintroduction, or further sturgeon research.

Sturgeon for Tomorrow help preserve, protect and enhance the sturgeon resource of the Winnebago System. That group is now the largest citizen advocacy group for sturgeon **in the world** and has raised and donated over $900,000 for sturgeon research, management, and education since its inception.

Assembly Amendment 1: When the bill was introduced, it was under the assumption that the DNR was still following old practices of automatically culling a certain percentage of the lake sturgeon in their hatcheries. The DNR let us know this is no longer the case, so removing the word "culled" from the bill just allows the DNR to transfer up to 15 sturgeon to SFT without using the language of the culling practice no longer happening at fish hatcheries.

Committee Chair's Summary of Proceedings

Prepared by: Allison M. Hetz 6-7015

Fiscal Effect:

DNR- Indeterminate

Supporter's Message:

- This will help promote sturgeon spearing and fundraising efforts for Sturgeon of Tomorrow, Inc.

Opponent's Message:

- Not clear on who is paying for taxidermy, not a needed government expense

Key Supporters:

Sturgeon of Tomorrow

Key Opponents:

AB 578 – Organ Donor Bill

Rep. Thiesfeldt

Committee on Sporting Heritage

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill requires the Department of Natural Resources to provide a method by which a resident of this state who is 15 ½ years or older, who applies for a hunting, fishing, or trapping license may elect to include his or her name as a donor of an anatomical gift in the record of potential donors maintained by the Department of Transportation (donor registry) and to so indicate on a printed license, a conservation card, or a donor card. This bill will help expand the organ donor base for organ donation and will help save lives.

Assembly Amendment 1 to the bill changes the age of organ donation to 15 years of age to update the statutes as persons receiving their driving permit photo ID can now be 15 years of age.

Committee Chair's Summary of Proceedings

Prepared by: Allison M. Hetz 6-7015

Fiscal Effect:

DOT – one time costs of $166,500 to build and test IT changes to share data between DOT and the DNR

Supporter's Message:

- This will make more organs available to people who need them
- The bill will align the statutory age at which an individual can obtain a driving permit to also elect to be an organ donor.

Opponent's Message:

- A 15 year old is too young to decide if they would like to be an organ donor

Key Supporters:

Advocate Aurora Health

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000132

AB 588/SB 573 – Electric Vehicle Charging Stations

Rep. VanderMeer

Committee on Energy and Utilities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jesse Johnson 266-8366

Assembly Bill 588 would ensure that private entities can make EV charging stations available to the public and allow a private entity to charge a fee for the use of an EV charging station without having to be classified and regulated as an electric utility.

EV usage is growing, as evidenced by registrations from the state's Department of Transportation (DOT). Additionally, in a cursory review of industry headlines, one can easily learn more about some of the steps that major automotive manufacturers have taken recently and continually to address the EV market. The market is here with consumers, however, current statutes are silent regarding allowing entities to charge for EV charging stations and station services. Private organizations and entities should be able to charge for stations and services similar to any other good or service, understanding that this is, in fact, a unique service and as mentioned, a novel concept as far as our statutes are concerned.

ASA2, as adopted by the Committee on Energy and Utilities, incorporates a number of points brought up during and after the public hearing on the bill from committee members and stakeholders/interested parties, and primarily removes provisions in the original bill allowing for public entities to offer EV charging station services to the public and charge for the service.

AA2 to ASA2, as adopted by the Committee on Energy and Utilities, primarily broadens the definition of municipalities in the substitute amendment to refer to "political subdivisions," and also inserts a provision brought forward by an Assembly GOP member of the Energy and Utilities Committee that requires any state funds allocated to a public utility for the purposes of installing an EV charging station to first be approved by the Joint Committee on Finance (JFC) and a 13.10 meeting.

AA3 to ASA3, as adopted by the Committee on Energy and Utilities, brought forward by the Chair of the Committee on Energy and Utilities, was requested by the State DOT and makes a change to the substitute amendment regarding state agencies controlling EV charging stations.

The bill, as amended and approved, allows for political subdivisions to offer EV charging services 'internally' for their own fleet vehicles, or partner with a private entity to offer EV charging services to the public, but not to compete directly with private entities/organizations to offer those services to the public. Additionally, there are some grandfather provisions in the bill, as amended and approved, that are intended to cover existing political subdivision EV charging stations (reference: ASA2 to AB 588, Nonstatutory provisions, page 5, lines 18-21).

Committee Chair's Summary of Proceedings

Prepared by: Garrett Huffman at 267-5158

Fiscal Effect:	No State Fiscal Effect Reported
Supporter's Message:	AB 588 exempts electric vehicle charging station owners and operators from public utility regulations and authorizes that owner or operator to charge a fee for the use of the charging station. EV drivers who do not have access to a charging outlet at home or work rely on public charging outlets at convenient locations—AB 588 expands EV locations.

AMERICAN OVERSIGHT

	As electric vehicles and vehicle charging become more common there is a need to allow charging vendors to bill consumers by the amount of energy consumed.
Opponent's Message:	AB 588 authorizes taxpayer-funded electric vehicle (EV) charging stations.
ASA2 prevents local governments from providing EV charging to the general public.	
AB 588 will significantly limit the use of solar + storage EV charging equipment in Wisconsin.

AMERICAN OVERSIGHT

AB 643 – State Project Bidding Threshold for 1-person A/E Firms

Rep. Sortwell

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Zach Pfaffenbach, 6-9870

Under current law, the secretary of administration (DOA) is required to establish a committee for each construction project under the department's supervision, except certain emergency projects, for the purpose of selecting an architect or engineer for the project. If the estimated cost of a construction project is $7,400,000 or more, the selection committee must use a request-for-proposal process established by the department to select an architect or engineer for the project based on qualifications. Assembly Bill 643 prohibits such a committee from refusing to select an architect or engineer who operates an architect and engineering firm with only one responsible architect or engineer for a construction project that has an estimated cost of less than $7,400,000.

This legislation will make the sector more competitive, especially for the smallest of businesses.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- This bill allows small businesses to have the ability to be considered and to compete for state building contracts
- If a small business consisting of one engineer receives the bonding for a state project they are often passed over for a larger company with longer project history

Opponent's Message:

Trust should be left with the DOA to select the more capable company. That may tend to be a larger, established, and more historically reliable company.

Key Supporters:

Rep. Shae Sortwell
Sen. Duey Strobel
ABC WI

Key Opponents:

Rep. Pope

Committee Vote(s):

Passed the Committee on State Affairs: 12-1 (Pope)
Passed Senate Committee on Government Operations, Legal Review and Consumer Protection: 3-2 (Party lines)

AB 656 – International Physicians

Rep. Calvin Callahan

Committee on Health

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Wyatt Cooper (6-7694)

Wisconsin is facing a rising physician shortage that disproportionately affects our state's rural residents. Residents who live in areas without adequate access to primary care physicians have insufficient medical care, fewer health screenings, and inadequate insurance networks. AB 656 provides a pathway for internationally-trained physicians to practice in Wisconsin without having to redo their residency programs by allowing the state Medical Examining Board to recognize high-quality education and residency programs that they have already completed.

Committee Chair's Summary of Proceedings

Prepared by: Wyatt Cooper (6-7694)

Fiscal Effect:

DSPS estimates it will incur one-time costs of $5,530 to promulgate rules; possible to absorb within DSPS's budget

Supporter's Message:

- Combats the physician shortage, by increasing the amount of skilled, internationally-trained physicians throughout Wisconsin.
- AB 656 lays out a framework for stripping back some of the unnecessary red tape and duplicative requirements international physicians currently face when they apply to work in our state, without compromising safety and quality of care
- Improves healthcare statewide, but especially in rural areas, which have disproportionately impacted by the physician shortage.
- Overall, the proposal does not sacrifice **quality** for **quantity**.

Opponent's Message:

- Does the list of countries included in the bill need to be expanded or contracted?
- The WI Medical Society "believes the State of Wisconsin Medical Examining Board's opinions are important regarding this proposal, as the MEB is responsible for ensuring the qualifications of those desiring to practice medicine in Wisconsin."

Key Supporters:

Rep. Callahan, Sen. Felzkowski, Americans for Prosperity, Cicero Action

Key Opponents:

No one registered or testified in opposition to this bill.

Wi Medical Society is registered as "other."

Committee Vote(s):

Passage recommended **10-5 (party lines)**, Representatives Subeck, Riemer, Anderson, Vining and S. Rodriguez voting no.

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000137

AB 721/SB 695 – Tribal Charter Schools

Rep. Steffen

Committee on Education

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: ***Nick Esbeck (6-5840)***

Under current law, multiple entities are permitted to establish and operate charter schools. Out of all of the authorized entities, only tribal colleges are restricted to a specific number of schools. This legislation will lift the cap on the number of independent charter schools a tribal college may authorize. Current law allows tribal colleges to authorize a maximum of six charter schools between the only two tribal colleges in Wisconsin, the College of Menominee Nation and the Lac Courte Oreilles Ojibwa Community College.

The Office of Educational Opportunity in the UW System, a technical college district board, and the county executive of Waukesha County currently are able to establish and operate charter schools, but do not face the same numerical restrictions. Most authorizers are restricted by geographical boundaries.

This legislation aims to eliminate the arbitrary cap on the number of schools that a tribal college is allowed to authorize, and creates parity between tribal colleges and other authorizers of charter schools in addition to expanding school choice and educational opportunity across Wisconsin.

Committee Chair's Summary of Proceedings

Prepared by: Katie Scott, 6-3156

Fiscal Effect:

Indeterminate.

Supporter's Message:

- Independent charter schools have proven to be extremely successful.
- It's great to have charter schools as more options for families and students.
- This bill simply puts equity into the statutes, as tribal colleges are the only authorizers for independent charter schools that are capped at the number of schools they may authorize.

Opponent's Message:

- Opponents to the bill do not support the authorization of any additional independent charter schools.

Key Supporters:

La Coute Oreilles, Lake Country Classical Academy, Menominee Tribe

Key Opponents:

WEAC, Association of Wi School Administrators, WI Association of School Boards,

Committee Vote(s):

AB 721 passed committee on a partisan **9-4** vote.
Passed the Senate Committee on Education: 3-2
Passed Senate: 19-13

AMERICAN OVERSIGHT

AB 727 – Protecting Water Quality

Rep. Joel Kitchens

Committee on Agriculture

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Adam Tobias 608-266-5350

AB 727 take a multi-pronged approach to protecting Wisconsin's water from excessive nitrates and other contaminants by doing the following:

- Create a Commercial Nitrogen Optimization Pilot Program where farmers can receive grants for implementing new and innovative practices that optimize the application of commercial nitrogen
- Provide cover crop insurance premium rebates to help offset the costs of planting cover crops
- Establish a three-year hydrogeologist position within the UW System to develop localized groundwater resource data and to work with local stakeholders on interpreting and using that information

Many of the items in these bills are based on policy recommendations made by the 2019-20 Speaker's Task Force on Water Quality.

Assembly Amendment 1 to AB 727 modifies the crop insurance premium rebate program by authorizing DATCP to promulgate rules to establish the application and award process and to determine the maximum amount of acres for which an applicant may receive funding in a year. The amendment also prohibits DATCP from providing a rebate for the planting of a cover crop on an acre for which funding for planting a cover crop is provided (instead of available) from a federal or state grant or incentive program.

Assembly Substitute Amendment 1 to AB 727 removes the funding from the bill and stipulates that it must be approved and provided by the Joint Committee on Finance.

Committee Chair's Summary of Proceedings

Prepared by: Craig Arrowood 266-2097

Fiscal Effect:

$1.4 Million annually. DATCP Fiscal paper $1 Million to create a nitrogen optimization pilot program. $400,000 to DATCP to provide crop insurance rebates in 2022-23. These are one-time expenditures.

Supporter's Message:

- Collaborative approach to address complex water and environmental issues that will lead to positive outcomes. Addressing water quality and nitrogen issues will ease concerns for public while providing the necessary grant funding to find long term answers to these issues.

Opponent's Message:

- No group registered in opposition.

Key Supporters:

Rep. Kitchens (Author) Senator Cowles (Author) Dairy Business Association, Clean Wisconsin, League of Women Voters, Wisconsin Cattlemen's Association, Wisconsin Corn Growers Association, Wisconsin Farm Bureau, Wisconsin Pork Association, Wisconsin Potato and Vegetable Growers.

Key Opponents:

None.

Passage as amended 13-0. Rep Myers and Kitchens did not vote.

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000179

AB 849/SB 900 – Resolving Title Issues of historic filled waterfront property

Rep. Robert Wittke

Committee on Environment

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Terri S. Griffiths 266-0731

Assembly Bill 849 (AB 849) would create a framework to provide certainty surrounding legal title of former lakebed and riverbed land. The need for this legislation is not new as other legislators have worked on it with various stakeholders. AB 849 creates a process for a municipality to review a proposal for the establishment of a Great Lakes shoreline specifically where the shoreline was "filled" prior to December 9, 1977 when no permit was required for permanent alterations, deposits or structure along navigable waters.

Stakeholders and legislators have raised concerns over time as we've worked on AB 849. As a result, key stakeholders worked to clean up uncertainties in the language, to address public access concerns, to simplify the draft to garner support, and to include findings-of-fact for even more clarity as to the intent of the legislature.

ASA 1 to AB 849 makes numerous technical changes and includes findings (nonstatutory) for clarity. Key changes include:

- Limits the scope of the bill relating to certain commercial rivers and harbors by applying it to land located within cities and villages, and specifying only certain river beds and not certain harbor areas included in the bill.
- Allows a record title holder to apply to the municipality for a shoreline determination. The municipality must approve and then submit the request to the DNR.
- Clarifies the role of the DNR in establishing a shoreline as follows: The DNR must adopt the shoreline approved by the municipality (after public notice and comment period) unless substantial evidence is presented indicating land is not upland from the shoreline.
- Prohibits legal action affecting the title by any person, the state, or any local unit of government based on an assertion that the property includes portions of land that may have been submerged beneath a Great Lakes water, if the land has been at an elevation above the ordinary high water mark since December 9, 1977, and the property is not subject to a lake bed grant or a submerged land lease.
- Requires municipalities to determine that the proposed use of the shoreline will provide public access or use of the property

AB 849 as amended by ASA 1 is the result of work by and between the development community and the League of Wisconsin Municipalities. This is a unique coming together of two entities not typically in agreement on land and water use issues.

Committee Chair's Summary of Proceedings

Prepared by: Adam Tobias 266-5350

Fiscal Effect:

The overall fiscal impact of the bill is indeterminate because there is substantial uncertainty related to the amount of projects that will be subject to this legislation. In total, program expenditures are estimated at $1,250 per submittal.

Supporter's Message:

- Creates a process for a municipality to review a proposal for the establishment of a Great Lakes shoreline

AMERICAN OVERSIGHT

- Gives clarity to an issue that has been of concern to entities looking forward to developing land that is no longer submerged.
- The bill includes a “lake section” and a “rivers section” because ownership issues are different for each.
- Provides Great Lakes communities with opportunities to improve contaminated and blighted parcels along the shoreline.

Opponent’s Message:

- The bill violates the Public Trust Doctrine

Key Supporters:

Wisconsin Realtors Association, Wisconsin Land Title Association, Wisconsin Economic Development Association, Wisconsin Builders Association, NAIOP Wisconsin, League of Wisconsin Municipalities and Apartment Association of South Central Wisconsin.

Key Opponents:

Clean Wisconsin, Green Fire Wisconsin, Midwest Environmental Advocates, Sierra Club of Wisconsin and Wisconsin Conservation Voters.

Committee Vote(s):

On Feb. 22, 2022, the Assembly Environment Committee recommended passage of Assembly Substitute Amendment to Assembly Bill 849 by a vote of 7-0 and Assembly Bill 849 as amended by a vote of 6-2.
Passed the Senate Committee on Government Operations, Legal Review and Consumer Protection 3-2
Passed Senate by voice vote.

AMERICAN OVERSIGHT

AB 854 – School District Annexation

Rep. Summerfield

Committee on Education

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Sam Lanzer, (608) 266-1194

Assembly Bill 854 seeks to give families more options for school choice when facing obstacles in the open enrollment process by making it easier for families to choose to be annexed by a neighboring school district.

Open enrollment is a useful tool used by many families in Wisconsin, but it has limitations when a child has special needs, potentially causing a child to lose his or her seat in the school if the student requires special services. In a rarely used method, families can retain their child's spot in the neighboring school district by joining their residence to a neighboring district. Under current law, this owner-initiated annexation process requires the approval of the new and old school district.

This bill eliminates the requirement that the old school district must approve an annexation petition, so only the new school district's approval is required for owner-initiated detachment and attachment of small territory. This will provide another option for families who want to keep their child in a neighboring school district when open enrollment wouldn't suffice. Families will have greater flexibility and choice over the education of their children.

Current law also mandates a waiting period between all owner-initiated detachment-attachment petitions until the second July 1 after the first petition. This bill eliminates the waiting period for small territory petitions. A small territory is defined as a territory where 1) the assessed value of the territory divided by the assessment ratio of the taxation district is less than 7 percent of the equalized valuation of the school district from which the territory would be detached, and 2) less than 7 percent of the enrollment of the school district from which the territory would be detached resides in that territory.

Committee Chair's Summary of Proceedings

Prepared by: Katie Scott, 6-3156

Fiscal Effect:

Indeterminate.

Supporter's Message:

- The appeals process is not working in this case.
- Under the current system, school districts often block annexation petitions, leaving families stuck and unable to use this process as a means of providing their child with a better education.
- The Eau Claire School District will not even work with the family.

Opponent's Message:

- It is wrong to change state law for only 1 person.
- The family requesting this bill can, right now, move to the school district that they would like their child to attend. They are trying to change state law just so they don't have to move to a different home.
- Open enrollment is relatively short-term (lasting for the duration of a child's schooling); detachment is permanent. This bill could solve a perceived problem for a family but create a very real problem for districts.
- This bill can have long range negative impact on districts.
- This bill also further muddles the open enrollment program.
- This bill goes against local control and school board authority.

AB 865/SB 812 – Regulation of certain electric fences

Rep. James

Committee on Criminal Justice and Public Safety

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Victoria Casola, 6-9172

This bill would define a battery-powered, electric security fence and limit the authority of political subdivisions in the regulation of these fences. A battery-powered electric security fence would be defined as an electric fence that: is equipped with an energizer that produces a direct current and is powered by a commercial storage battery, produces an electric charge on contact, is connected to a system that signals law enforcement, includes warning signage, is surrounded by a perimeter fence, and does not exceed in over ten feet in height or two feet higher than the perimeter fence. This bill also prohibits political subdivisions from requiring any permit for the installation of these fences except for an alarm system permit and prohibits individuals from locating this type of fence on residential property.

Committee Chair's Summary of Proceedings

Prepared by: Ericka Braatz 6-1182

Fiscal Effect:

None

Supporter's Message:

- This would standardize the requirements for these types of fences across the state.
- These are only for businesses, not residential houses.
- Used by many businesses to help prevent theft of items which have to be stored outdoors. Examples include auto salvage and auction lots, trucking companies, shipping and distribution hubs, landscapers, and other business with vehicle fleets.
- These electric fences must have an exterior fence, which is still regulated by the municipality. If that fence is in compliance then this legislation kicks in.
- This bill will help with the issues of permitting in municipalities across the state, where some are not sure how to regulate these electric fences and there can be different requirements depending on the municipality.
- 13-14 other states already have this type of legislation and 7-8 more states are pending.

Opponent's Message:

- We shouldn't create carve-outs for one type of company.

AMERICAN OVERSIGHT

AB 874 – Ambulance Assessment/GEMT

Rep. Loudenbeck

Committee on Local Government

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Danielle Zimmerman, 237-9322

- AB 874 would require DHS to submit a state plan amendment for Medicaid to allow for Wisconsin EMS providers to take part in supplemental payment opportunities for public and private EMS providers. If approved by the federal government, these supplemental payments could help to alleviate some of the funding pressure on EMS service providers.

- The program for public ambulance providers is generally called GEMT or Ground Emergency Medical Transportation Supplemental Reimbursement. The State would allow the option for public providers (municipal, governmental) to implement a certified public expenditure (CPE) program where public EMS providers have the option to certify uncompensated costs and the state draws federal matching funds associated with those unmet costs. CPE programs are used in 48 other states and have been used in other Wisconsin programs since 2004.

- The program for private ambulance services would be a self-assessment. All private (for-profit, non-profit) EMS providers would be required to take part in an ambulance service provider assessment program. Every dollar collected from this industry-backed self-assessment would generate $1.50 in federal Medicaid match that would be returned to providers through the Medicaid program. Ambulance assessments are active in several states and have proven to be an effective way to ensure EMS providers have adequate funding to continue providing critical services.

- These two supplemental payment opportunities would help minimize typical losses when providing Medicaid covered services. This will also be beneficial to taxpayers, as many communities are facing increased costs related to providing critical EMS services, and keeps the losses from being paid for by their property taxes.

- Other states have started using federally approved supplemental payment programs for both private and public EMS services to pay effectively higher rates, **without using additional state funding.** There are currently no comparable financing mechanisms for EMS providers in Wisconsin.

- EMS providers across Wisconsin are facing significant issues with funding and staffing, which is leading to problems with access or lack of coverage for many communities. These challenges are negatively impacting EMS providers in urban and rural areas alike. There isn't a one size fits all solution to address all of these issues, instead a multifaceted approach that helps communities of all sizes is going to be key in making sure the EMS system as a whole is viable and successful for years to come.

- Allowing Wisconsin's EMS providers to take part in these programs will be beneficial to the patients they're serving, as better funding can increase access and quality outcomes, ensuring proper care in the right place, at the right time, with the right solutions.

AMERICAN OVERSIGHT

Assembly Substitute Amendment 1: Removes the chapter 20 language to remove any veto concerns. Instead it adds non-statutory language directing DHS to include language to authorize the appropriation language as well as using it to pay for administering the program in their 2023-2025 budget request. It also allows DHS to ask JFC for funding if they need it before the next budget. **Includes the provisions from the simple amendments:**

- Clarifying that an ambulance service that is organized as a nonprofit organization owned by a municipality or group of municipalities is considered a public ambulance service.
- Prohibits private ambulance services from passing the cost of the assessment onto their customers.
- Holds the health plans harmless if there was an error by DHS in calculating a payment to a private ambulance service.

Committee Chair's Summary of Proceedings

Prepared by: Nolan Bursch, 6-7502

Fiscal Effect:

Indeterminate. The state fiscal impact of this bill on state GPR costs for Medicaid benefits is budget neutral. However, the Department also estimates it could have one time costs of $200,000 GPR and annual administrative costs of $396,400 GPR.

Supporter's Message:

- Other states have implemented federally approved supplemental payment programs to effectively pay higher rates to public and private EMS providers.
- This would draw down additional federal dollars at no additional cost to state GPR.
- Passage of this bill would have a dramatic positive impact for both public and private EMS providers.

Opponent's Message:

While the bill explicitly prohibits additional costs incurred through the assessment to be passed on to rate payers, ambulance providers may find a way to do this.

Key Supporters:

- Reps. Loudenbeck, Dallman, Brooks, Duchow, James, Kerkman, Krug, Kurtz, Mursau, Novak, Shankland, Subeck, Summerfield, Vruwink, Skowronski, Wittke, Spreitzer, Andraca, Snodgrass, Brandjen, Conley, and Allen; Sens. Felzkowski, Bewley, Cowles and Petrowski

AMERICAN OVERSIGHT

AB 887 – Southern WI Veteran Memorial Cemetery Project Authorization

Rep. Swearingen

Committee on Local Government

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Taylor Corkran, 7-9443

After adoption of the 2021-2023 budget, Department of Veteran Affairs (DVA) was notified they were awarded federal funds for a 6th phase of improvements at the Southern WI Veteran's Memorial Cemetery. This phase of the project will add 2,500 columbarium units ensuring the cemetery can keep pace with demand projections. To proceed with the project, it will need to be enumerated outside the budget process.

AB 887 amends the 2021-23 Authorized State Building Program to add one project for the Department of Veterans Affairs. The project involves the construction of additional columbarium units at the Southern Wisconsin Veterans Memorial Cemetery in the village of Union Grove. The project will be financed with $440,000 in program revenue and $4,560,000 in federal funds.

This legislation was crafted as a team effort with the Department of Administration, the Department of Veteran Affairs, and has the full support of the bipartisan State Building Commission.

Committee Chair's Summary of Proceedings

Prepared by: Nolan Bursch, 6-7502

Fiscal Effect:

The program revenue (PR) funding is derived from an existing appropriation and the larger funding amount comes from federal funds. DOA anticipates any additional expenses could be absorbed by existing staff and expenditure authority.

Supporter's Message:

- Passage of this bill will enable the State Building Commission to consider advancing this project.
- Wisconsin veterans would benefit from this project. This will provide a final resting place for those veterans that have passed.

Opponent's Message:

None

Key Supporters:

- Reps. Swearingen, Wittke, Vos, Born, Billings, Novak, Brooks, Emerson, James, Mursau, Plumer, Pope, Schraa, Sinicki, Spreitzer, Stubbs, VanderMeer, Wichgers, Skowronski and Vruwink and Sens. Petrowski, Jacque, Wanggaard, Ringhand, Ballweg and Carpenter
- Wisconsin Department of Veterans Affairs and the Department of Administration.

Key Opponents:

AB 893/SB 833 – Grants for Teaching College Courses in High Schools

Rep. Murphy

Committee on Education

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill eliminates the sunset date for the Early College Credit Program and allows high school students to continue to benefit from the funding that has already been set aside. The Early College Credit Program awards grants to assist high school teachers in covering tuition expenses for courses taken to meet the minimum qualifications necessary to teach dual enrollment courses.

Assembly Amendment 1 to the bill ensures independent charter schools will be able to participate in the Early College Credit Program.

Committee Chair's Summary of Proceedings

Prepared by: Katie Scott, 6-3156

Fiscal Effect:

None.

Supporter's Message:

- The Early College Credit Program offers students the ability to earn college credit while in high school. This can result in a student graduating college faster, entering the workforce earlier, and extending their earnings potential over a lifetime.
- Establishing positive relationships between high school students and Wisconsin colleges also increases the chance that highly skilled and academically talented students will complete their college education in our state and remain here after they graduate.
- This bill helps students with the high cost of a post-secondary education, and it can help Wisconsin's current labor shortage that is being experienced across all sectors of the economy.

Opponent's Message:

- We first need to look at the program's finances and budget before we look at this bill.
- Schools first need a pipeline of educators credentialed to take on these courses as opportunities become available.

Key Supporters:

WI Association of School Boards, Elmbrook Schools, UW System, WI Technical College System Boards Association, WI Technical College System, School Administrators Alliance, WI Association of Independent Colleges and Universities, DPI, WiRSA, WMC, WI Council of Religious and Independent Schools

AMERICAN OVERSIGHT

AB 901 – 3rd-Party Food Delivery

Rep. Kuglitsch

Committee on Small Business Development

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Garrett Huffman 267-5158

A growing issue in the restaurant industry has been delivery and rideshare companies offering the public food and drink options without informing restaurants. Third-party delivery services are known to list menus for local restaurants on their website and take orders for delivery without ensuring the food and drink arrive promptly and in satisfactory condition.

ASA 1 to Assembly Bill 901 is based on principles and guidelines the third-party delivery companies agreed to in cooperation with the Council of State Restaurant Associations and the National Restaurant Association.

The Restaurant Association negotiated with the third-party delivery platforms and reached an agreed upon bill that focuses on consent between parties for delivery and the details of listing a restaurant on a third-party food delivery platform.

AB 901 will result in 3rd party delivery companies working with restaurants to ensure an up-to-date menu, correct menu descriptions, accurate menu prices, and safe and prompt deliveries. Restaurants have the right to know and determine when and if their food is being delivered.

In addition, customers should expect the same degree of food safety from delivery as they do when dining in a restaurant.

Committee Chair's Summary of Proceedings

Prepared by: Leah G. Peterson 266-3534

Fiscal Effect:	• None
Supporter's Message:	• Resturants and 3rd party food delivery service need to be on the same page regarding menus that are posted, and food that is ordered for delivery. • 3rd party food delivery services should work with resturants, and have a simple way for them to be removed from the digital network, if requested. • If there is no contract between the 3rd party food delivery service, and the restaurant, the delivery service should not be able to misrepresent that relationship. This legislation allows the restaurant to be removed from the digital network. • This is needed to protect the resturants, and consumers • The substitute amendment is an agreement between the resturants and 3rd party delivery services • Wisconsin resturants, and 'EatStreet', a Wisconsin based 3rd party food delivery service, support the legislation. • Resturants are built on relationships, and a misrepresentation of a restaurant on a 3rd party food delivery service, could ruin that relationship before it begins
Opponent's Message:	• No one registered or spoke in opposition to the bill.
Key Supporters:	• Representative Kuglitsch • Senator Testin • Wisconsin Resturant Association • Business Education Fund • EatStreet, Inc.
Key Opponents:	• No one registered or spoke in opposition to the bill.

AB 909 – Managed Forest Law Program

Rep. Jeff Mursau

Committee on Forestry, Parks and Outdoor Recreation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Cory Bruce, 6-3780

In 2015, the legislature passed a major overhaul of the MFL program, which is 2015 WI Act 358. Assembly Bill 909 is a trailer bill, which is necessary to clarify legislative intent and ensure transparency and efficiency within the Department of Natural Resources. AB 909 does the following:

- Makes clear that leasing is allowed on MFL land
- Determines when something is a material change to the terms of the contract
- Allows, rather than requires, the DNR to assess a withdrawal tax and fee if part of the land in the program no longer meets eligibility.
- Allows the 20-acre minimum enrollment requirement to be comprised of two 10 contiguous acre portions, that are not contiguous to each other, if they are on a tract of land under the same ownership
- Allows for buildings and improvements on MFL property if used exclusively for storage
- Allows for additions to existing parcels of any size if certain eligibility requirements are met
- Authorizes the DNR to provide flexibility for large ownerships (1,000 acres or more) of MFL land by promulgating rules that allow for alternative management plan requirements
- Allows for the transfer of ownership without penalty for a public purpose to a city, village, or town that is the taxing jurisdiction

Assembly Amendment 1 – removes section 14 of the bill, which would have allowed the DNR to assess fines for cutting contrary to a management plan or cutting notice.

Committee Chair's Summary of Proceedings

Prepared by: Cory Bruce, 6-3780

Fiscal Effect:

Fiscal Estimate prepared by DNR – Increased costs may be absorbed within agency's budget

Supporter's Message:

- Will encourage greater participation in the program and transparency in decisions made by the department
- Program is necessary to ensure a constant stream of fiber for the second largest industry in Wisconsin, which supports more than 64,000 jobs and contributes $24 billion annually to state's economy.
- The forest products industry is the number one employer in ten Wisconsin counties, and one of the top ten employers in 31 counties.
- Private woodland owners own more than 60% of all forest lands, and two-thirds of the wood harvested in Wisconsin comes from their forestlands

Opponent's Message:

- MFL program can impact local governments tax rolls because of the decreased property tax collected on MFL lands
- Property owners who are in MFL program should be included in discussions to determine whether something is considered a "material change".

AMERICAN OVERSIGHT

• Allowing structures on MFL property goes against the spirit of the law
Key Supporters:
Rep. Mursau and Sen. Felzkowski (bill authors); Wisconsin Alliance of Forest Owners; Wisconsin Woodland Owners; The Nature Conservancy,
Key Opponents:

AMERICAN OVERSIGHT

AB 917/SB 865 – Homeowners' Associations

Rep. Rob Brooks

Committee on Housing, Commerce, and Trade

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Christopher J. Schaefer, 608-267-2369

A homeowners' association is a subdivision organization that creates and enforces rules relating to properties within its control. Generally, when a property is purchased within a homeowners' association, the property owner and property automatically become association members and are required to pay dues.

At this writing, homeowners' associations are not regulated under Wis. Stat. Ch.703 as condominiums and, therefore, are not impacted by the obligations of the aforementioned statute. Condominiums and homeowners' associations are separate and distinct, governed by different rules and statutes. The distinctions between these two entities are difficult to ascertain. Accordingly, legislation was drafted to provide distinction and establish statutes specific to homeowners' associations.

This is a consequential first step towards delineating the clarity between homeowners' associations and condominiums and cogent guidelines for owners of these properties to abide by.

Amendment 1 to Senate Bill 865/Assembly Bill 917 does each of the following:

- Directs the Wisconsin Department of Financial Institutions to establish a process for allowing corporate and homeowners' associations filings to occur simultaneously, thus streamlining the registration process.
- Makes the meeting notices and changes to bylaws available only to association members, not the general public
- Establishes a $25 cap on the amount a homeowners' association may charge the property owner for copies of the rules and regulations/covenants and restrictions. If the homeowners' association possesses a website, the aforementioned documents must be published therein.

The bill is a much-needed first step in the process of demarcating the dissimilarities between condominiums and homeowners' associations. Perhaps more important, the bill intends to meliorate the living conditions of homeowners' association residents by making rules, regulations, and guidelines more procurable.

Committee Chair's Summary of Proceedings

Prepared by: Christopher Schaefer, 7-2369

Fiscal Effect:

According to the Department of Financial Institutions, there would be a one-time cost of $411,884 to develop, test, and implement a system with the necessary filing, searching, security, and administrative functions to enable the department to effectively administer this legislation.

Supporter's Message:

- Senate Bill 865 allows buyers to better understand any obligations, limitations, or fees associated with purchasing a property in an HOA.
- The bill makes regulations more transparent to property owners and prospective buyers.
- Senate Bill 865 creates a reasonable statutory framework for HOAs for consumers to gain information.

Opponent's Message:

- The bill should have contained provisions giving greater regulatory authority to HOA management companies.
- With limited time and ability to enforce their rights, HOA owners simply do not pay and leave it to their members to pick up the costs or force the association to bring a small claims action which could cost as much as the amount of the debt.

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000194

• HOAs lack any substantive lien priority rights. These should be considered in future legislation.
Key Supporters:
Representative Rob Brooks; Senator Joan Ballweg; Wisconsin Land Title Association; Wisconsin Realtors Association
Key Opponents:
There were not any groups that registered or spoke in opposition to the bill.
Committee Vote(s):
Passed **5-0** by the Senate Committee on Housing, Commerce and Trade on February 9, 2022. The bill was approved **32-0** by the Wisconsin State Senate on February 15, 2022 and Passed as amended: **6-2** by the Assembly Committee on Housing and Real Estate on February 16, 2022.

AMERICAN OVERSIGHT

AB 919/SB 867 – Shoreland Zoning Clarification

Rep. Swearingen

Committee on Transportation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Taylor Corkran 7-9443

The legislative intent of 2015 Wisconsin Act 55 was to set a scale of 35 feet of viewing corridor for every 100 feet of shoreline frontage – effectively ensuring a 35% viewing corridor. Some counties, however, have interpreted this statute to mean any property with less than 100 feet of frontage is not entitled to any viewing corridor at all.

AB 919 would allow the buffer zone to contain a viewing corridor with a width along the shoreline of no less than 35 feet or 35% of the shoreline frontage, whichever is greater. Assembly Substitute Amendment 1 alters the 35-foot provision to 10 feet but maintains the 35% provision. This was crafted in the attempt to further clarify and ensure that the language accomplishes the desired outcome.

In addition, we have been asked to address an issue relating to bridges within a shoreland zoning setback area. Currently, bridges are not included in the list of structures that are permitted within the 75-foot area.

AB 919 would add county and municipal bridges that have been issued a permit by the Department of Natural Resources to the list of allowable structures.

Committee Chair's Summary of Proceedings

Prepared by: Patrick Gehl, 6-3404

Fiscal Effect:

None

Supporter's Message:

- This bill clarifies shore land zoning requirements for properties with less than 100 feet of shoreline property. Additionally, it allows local governments to build bridges within the shore land zoning setback if they receive DNR permits.

Opponent's Message:

- This issue does not need legislation to provide clarification [hypothetical]

Key Supporters:

Wisconsin Realtors Association, Oneida County, Rep. Swearingen

Key Opponents:

None

Committee Vote(s):

Passed as amended by the Assembly Transportation Committee, 13-0
Passed as amended by Senate Natural Resources and Energy Committee, 3-2

AMERICAN OVERSIGHT

AB 928/SB 888 – Registration Periods for Motor Vehicles

Rep. Spiros

Committee on Transportation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Ericka Braatz 6-1182

Currently, the registration period for vehicles is effective the date of renewal until one year later. For example, if you renew on October 10, 2021, the registration will only be in effect until October 10, 2022. This bill looks to create a monthly series system for the registration of motor vehicles under 8,000 pounds; the standard cars, vans, trucks, and SUVs that are driven. This means that there would be 12 registration periods, beginning on the first day of the month and ending on the last day of the 12th month.

Additionally, the bill addresses the transfer of registration plates between vehicles to allow plates to be used on another vehicle of the same type and under 8,000 pounds, whether or not the weight is the same as the previous vehicle.

Committee Chair's Summary of Proceedings

Prepared by: Patrick Gehl, 266-3404

Fiscal Effect:

Indeterminate – Costs may be absorbed within agency budget

Supporter's Message:

- This bill simplifies the registration process for Wisconsinites and will reduce late fees charged to vehicle owners

Opponent's Message:

- Vehicle owners should be smart enough to follow the law as currently written [hypothetical]

Key Supporters:

Wisconsin Department of Transportation, Rep. Spiros, Sen. Petrowski

Key Opponents:

None

Committee Vote(s):

Passed Assembly Committee on Transportation 13-0
Passed the Senate Committee on Transportation and Local Government 5-0
Passed Senate by voice vote.

AMERICAN OVERSIGHT

AB 943 – Cleanup of Electronics Recycling Waste

Rep. Edming

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Tyler Longsine (6-7506)

5R Processors was an electronics recycling company formerly based in Ladysmith, Wisconsin. Investigations of this company by the Department of Natural Resources and the U.S. Environmental Protection Agency discovered a great deal of illegal activity on the part of 5R, including the storing of hazardous waste at unpermitted facilities, transporting hazardous waste without the required manifest, and concealing these violations from state regulators. This led to the federal prosecution of several of the company's leaders.

While most of the legal matters surrounding 5R have been resolved, what remains is millions of pounds of electronic waste without a responsible party to clean it up. The electronic waste from 5R is currently contained in several semi-trailers and warehouse facilities located in Rusk, Price and Washington Counties. Unless we do something it could fall to local governments and local taxpayers to clean this waste up which they cannot afford to do.

AB 943 directs the DNR to contract with a third party for the removal and proper disposal of this waste using not more than $2.5 million in segregated funds from the environmental management account. At the end of fiscal year 2022, the balance in this account is projected to be $33.8 million. It is also important to note that because segregated funds are being used there is no impact on the federal maintenance of effort requirements.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

Fiscal not yet submitted

Supporter's Message:

- Allows the DNR to contract a third-party with proper capabilities to clean up electronic waste using no more than $2.5 million in segregated funds from the environmental management account.
- Allows recovery of orphaned property and structures to be used in a productive manner (property and buildings are currently unusable).
- The company responsible has no assets and there is no realistic possibility that the restitution ordered in the criminal cases would be enough to address the sites in question.
- DNR does not have an existing program that can pay for the removal of this hazardous material.

Opponent's Message:

- Some may argue that this is not a responsibility of the state and those at fault need to find a way to pay for it.

Key Supporters:

Rep. James Edming - 87th Assembly District, Rep. Rick Gundrum - 58th Assembly District, Sen. Duey Strobel - 20th Senate District, Sen. Jerry Petrowski 29th Senate District, Rep. Beth Meyers - 74th Assembly District, Andy Alvarado - Rusk County, Alan Christianson - City of Ladysmith, Nicholas Trimner - Price County, Jay Shambeau - City of West Bend

Key Opponents:

No registered opponents

Committee Vote(s):

Passed the Assembly Committee on State Affairs: 13-0

AMERICAN OVERSIGHT

AB 948/SB 893 – Nonprobate Transfers of Farming Implements at Death.

Rep. Macco

Committee on Agriculture

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Reanna Rasmussen 6-0485

Under current Wisconsin law, the probate process uses the courts to assist in the transfer of assets after an individual's passing. Probate process itself lasts for a minimum of 90 days, but in most cases it takes longer. During the court proceedings, beneficiaries do not have legal rights to the titles of their equipment until a final determination is made.

AB 948 will allow farmers to pass their farming implements through the "Transfer on Death" (TOD) process which eliminates the unnecessary court process, fees and delays. This process does not exempt the assets from any taxes or effect liens on the farming implements.

AA1 to AB 948 removes the reference to recording the document with the Register of Deeds as this is not a requirement for TODs and requires at least one of the witnesses on the TOD be a "disinterested witness".

Committee Chair's Summary of Proceedings

Prepared by: Reanna Rasmussen 6-0485

Fiscal Effect:

Indeterminate decrease in fees collected by courts.

Supporter's Message:

- Farming equipment is expensive and easily triggers the requirement for the assets to go through probate.
- By allowing farming implements to be transferred through Transfer on Death (TOD) the process will be simplified for our farmers.
- Beneficiaries do not have to wait an extended time before being able to manipulate their farming assets as they see fit through TOD.
- TODs are already used to transfer 401ks, IRAs, farmland, etc.
- Transferring through a TOD does not affect any tax requirements or liens.

Opponent's Message:

- None heard in committee

Key Supporters:

Representative Macco, Senator Ballweg, Concordia University, Cooperative Network, Dairy Business Association, Midwest Food Products Association, Midwest-SouthEastern Equipment Dealers Association, Wisconsin Agri-Business Association, Wisconsin Association of Professional Agricultural Consultants, Wisconsin Cattleman's Association, Wisconsin Cheese Makers Association, Wisconsin Corn Growers Association, Wisconsin Farm Bureau Federation, Wisconsin Farm Credit Services, Wisconsin Farmers Union, Wisconsin Pork Association, Wisconsin Potato and Vegetable Growers Association,

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jon Minneci; 266-9650

Current law allows individuals with a disability that impairs their ability to walk to obtain special license plates or an identification card from the DOT, entitling them to a legal exemption from meter payments and time limits on municipal parking spots that have at least a 30 minute time limit.

However, it has been brought to our attention that University of Wisconsin campuses are exempt from honoring the DOT-issued disability identifications for veterans and other disabled people under current law. Because of that, they are able to charge fines for parking in spots that are covered by these legal exemptions if they are located off-campus. These potential parking fines create confusion and unnecessary hurdles for disabled individuals, who must get duplicative permits from the campus or get a ticket.

This bill extends current law legal exemptions for people with disabled parking plates or special identification cards to include parking spots on University of Wisconsin System campuses. This bill is supported by the Wisconsin Chapter of the Paralyzed Veterans of America.

Committee Chair's Summary of Proceedings

Prepared by: Michael Moscicke; 266-7500

Fiscal Effect:

- No fiscal estimate

Supporter's Message:

- Protects disabled individuals from getting double charged for parking in handicap parking spots.
- Current law creates confusion and unnecessary hurdles for disabled individuals with potential additional fees.

Opponent's Message:

- Does not allow the UW-System collect extra fees.

Key Supporters:

- Rep. William Penterman, Senator Dale Kooyenga, Wisconsin Chapter of the Paralyzed Veterans of America

Key Opponents:

- No one is registered against.

Committee Vote(s):

- Assembly Committee on Colleges and Universities passed the Assembly bill on a 13 – 0 vote on February 17, 2022 with universal bi-partisan support.

AMERICAN OVERSIGHT

AB 953 –Floodplain and Shoreland Mapping

Rep. Penterman

Committee on Environment

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jon Minneci; 266-9650

In 1979, Chapter 87.31 of the Wisconsin State Statutes created the floodplain and shore land mapping assistance program to provide counties, cities, and villages with financial assistance to produce adequate topographical mapping of floodplain and shore land areas and to delineate floodplain and floodway boundaries.

Since that time, floodplains and shore lines have been well documented. There is no longer a need for the program, and as a result, the program sunset in February of 1986.

This bill simply deletes a subchapter from our statutes that has not been in use since 1986. We should delete statutes that are no longer useful.

Committee Chair's Summary of Proceedings

Prepared by: Adam Tobias; 266-5350

Fiscal Effect:

- No fiscal estimate

Supporter's Message:

- This section of the state statutes that has been statutorily sunset and unused since Feb. 8, 1986.
- It is simply good government to prune the statutes and administrative code of inoperative provisions.

Opponent's Message:

- If the legislature chose to revive this program, the existing language would be useful

Key Supporters:

- Reps. Penterman, Kuglitsch, Allen, Magnafici, Skowronski, Tusler, Dittrich and Moses; and Sen. Duey Stroebel

Key Opponents:

- No one is registered against.

Committee Vote(s):

- On Feb. 22, 2022, the Assembly Environment Committee recommended passage of AB 953 by a vote of 8-0.

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000202

AB 957 – WI Data Privacy Act

Rep. Zimmerman

Committee on Consumer Protection

Session Date:2/23/2022

Author's Summary of the Legislation

Prepared by: Mark Austinson 6-1526

AB 957 will provide Wisconsin consumers with the tools to manage how their personal data is collected, stored, transferred, and utilized.

Specifically it will allow consumers to:

- Ask any data collector what personally identifiable information they have on the consumer
- To whom have they shared or sold that information
- Request the collector delete the data on file and/or opt out of processing the data
- Have the ability to correct inaccurate data

The bill applies to any company that does business in Wisconsin or markets their products to WI consumers and either a) controls or processes data of at least 100,000 consumers or b) controls or processes data of at least 25,000 consumers and derives over 50% of their gross revenue from the sale of personal data.

Companies that fall under the law would be required to provide a notice to their consumers about the law and how consumers can exercise their rights provided by the law. As amended, consumers would be able to request their data from a collector once a year free of charge. Consumers would not be able to make repeated requests for their data.

Committee Chair's Summary of Proceedings

Prepared by: Mark Austinson 6-1526

Fiscal Effect:

- DOJ: $874,000 & 7 FTEs for enforcement

Supporter's Message:

- Some email providers have admitted that they scan/analyze communications and store consumers:
  - Name
  - Phone number
  - Pictures
  - Payment information
  - YouTube comments
  - Spreadsheets/documents
  - Browsing history
  - Activity on 3rd party sites & apps
  - GPS location information
  - And more…..
- Massive troves of data are collected, analyzed, and often used to persuade and manipulate consumers
- This data belongs to the consumer and they should have a say in how it is used
- Data is now the most valuable asset for many companies
-

Opponent's Message:

- This issue should be addressed at the federal level
- Administrative compliance will be costly and burdensome
- The bill doesn't go far enough to empower consumers

Key Supporters:

- AFP

AB 961 – Financial Privacy Act

Rep. August

Committee on State Affairs

Session Date: 6/16/2021

Author's Summary of the Legislation

Prepared by: Jason Rostan 6-1190

Since taking office, the Biden Administration has attempted on many occasions to enact a requirement that banks submit their customer's financial information to the IRS in order to find individuals cheating on their taxes. Their initial proposal applied to anyone making $600 in deposits or withdrawals. While the Biden Administration has amended this proposal, this is still an extreme overreach by the federal government when they have a number of other ways to get this information.

Assembly Bill 961 would prohibit state-chartered financial institutions from releasing this information to the IRS.

Assembly Amendment 1 would only allow the release of this information in response to a federal subpoena.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- This bill prevents federal overreach and blocks the IRS from obtaining financial information
- Almost everyone has transactions of $600 this would give the IRS access to an unnecessary amount of information on citizens

Opponent's Message:

- Which law would the financial institutions follow if the if the Biden Administration enacts a similar requirement?
- This bill creates conflicting state/federal laws and put financial institutions in tough spot.

Key Supporters:

Rep. August
Sen. Felzkowski
WI Bankers Assn. →

Key Opponents:

No registered opponents

Committee Vote(s):

9-4 party line vote

AMERICAN OVERSIGHT

AB 984 – Objective UW admissions

Rep. Wittke

Committee on Colleges and Universities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Michael Moscicke, 266-7500)

AB 984 This bill requires that University of Wisconsin System institutions establish and use only objective admissions criteria in making undergraduate student admissions determinations, and requires each institution to publish such criteria on its admissions website.

Committee Chair's Summary of Proceedings

Prepared by: Michael Moscicke 266-7500

Fiscal Effect:

N/A

Supporter's Message:

- The admissions process for our public universities should not be shrouded in secrecy.
- Decisions about who earns the privilege to attend a public university should be made in a fair and transparent manner.
- The admissions process currently utilized by University of Wisconsin System institutions permits individual judgement calls about applicants to be made without public oversight, potentially allowing discrimination already illegal under current law to occur without any chance of being discovered.

Opponent's Message:

- A totally transparent and objective admissions system may enable some individuals to game the system.

Key Supporters:

UW applicants

Key Opponents:

UW-Madison
UW System

Committee Vote(s):

Passage recommended by Committee on Colleges and Universities, Ayes 8, Noes 5.

AMERICAN OVERSIGHT

AB 991 – TID Number 1 in the Village of Withee

Rep. Jesse James

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Victoria Casola, 6-9172

This bill would increase the maximum life and extend the tax increment allocation period for the Tax Incremental District Number 1 in the Village of Withee. The initial TID was created in 1996 and set to expire in 2019, but was extended by 3 years until 2022 due to a Technical College extension. This bill would extend the allocation period to 33 years after the TID's creation, allowing collection for another ten years (2032), and allow the Village of Withee enough time to recover from their current deficit.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 9-9443

Fiscal Effect:

No state effect
Local effect: Increase revenue (permissive)

Supporter's Message:

- TID allows the village to recover from a deficit of $600,000
- It would be difficult for a small village to overcome such a large deficit without this TID

Opponent's Message:

- Authors must provide letters of support from stakeholders (which is standard practice for TID extension)

Key Supporters:

Rep. James
Sen. Bernier
Everett Lindgren – Village President

Key Opponents:

State Affairs Democrats.

Committee Vote(s):

9-4 party line

AMERICAN OVERSIGHT

AB 994 – Certification Requirements for Building Contractors

Rep. Spiros

Committee on Housing and Real Estate

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Ericka Braatz 6-1182

This bill updates provisions of 2005 Wisconsin Act 200 to provide more clarity to current law and administrative rules and improve on the current standards for single family building contractors.

This bill requires that the 12 hours of initial training on financial responsibility for building contractors include a section on accounting, lien law, ethics, and best business practices. Additionally, it requires that 4 of the 12 hours of continuing education every two years includes instruction on construction laws and codes and contracts, liability, and risk management.

Finally, the bill requires those who provide continuing education courses to submit to DSPS a selection of test questions related to the courses and verification that individuals completed the courses.

AA1 to the bill just changes the terminology in the bill to allow "online" instruction instead of just "live virtual." This was an oversight in drafting, as some of the current online courses use a question and answer format in them. The original version of the bill would not have allowed these courses.

Committee Chair's Summary of Proceedings

Prepared by: Alex Braaten, 266-1194

Fiscal Effect:

DSPS

State effect: increase costs – may be possible to absorb within the agency's budget (one time cost of $5,930)

Supporter's Message:

- This bill provides more clarity to current law and administrative rules, and improves the current standards for single-family building contractors in Wisconsin.
- This bill adds categories for eligible credits to focus on key areas of need that will improve the knowledge base of building contractors.

Opponent's Message:

- Government mandating certain courses for building contractors is unnecessary

Key Supporters:

Rep. John Spiros - 86th Assembly District
Wisconsin Builders Association

Key Opponents:

No opposition

Committee Vote(s):

Passage as amended recommended by Assembly Committee on Housing and Real Estate: **8-0**

Subject: Accountability invariably comes

Rep. Vos,

As a longtime RepublicanI thought that you did a good job with the tax cuts and how you got bipartisan support for quite a bit of your legislation.

But you have really hurt your reputationover the past few years. First you felt the need to meet with Trump after he lost the 2020 election. You never did explain why. Snide Dems say it was to kiss Trump's ring.

Then, after low IQ peoplein ourparty jumped on to Trump's big lie about the 2020 election, you appointed a political hack and gave him $675,000 of our taxpayers dollars to "investigate" voter fraud and irregularities.

The clown you appointed had saidimmediately after the election, with absolutelyno proof, that the election was stolen from Trump. That made appointing him similar to appointing a member of the Flat Earth Society to investigate a claim that the earth might be round..

And now, after months of delays andridiculous claims and actions, said clown gives you a 130 page report that discloses absolutelyno proof of voter fraud and nothing that you could not have gotten from a junior reporter at the Burlington Free Press.

You are not a stupid person. My question is why would you risk your lifelong reputation by getting involved with an inept, corrupt fool such as Michael Gableman? It truly boggles the mind.

Take care.

AJR 133 – Constitutional Amendment for Voter ID

Rep. Patrick Snyder

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Sam Hope (266-0654)

This is an amendment to the State Constitution to require valid photographic identification when voting. Under the amendment, the State Legislature would still be able to create exceptions to the requirement in statutes and qualified electors who lack valid identification on elections day would still be able to cast a provisional ballot.This proposal does not change any current statutory exceptions to existing voter ID requirements which include overseas and military voters, indefinitely confined voters, residents of care facilities, and confidential voters

Putting a voter ID requirement in the State Constitution will help ensure election integrity moving forward. Statutes can be repealed far easier than a Constitutional requirement. Additionally, voter ID requirements are widely popular - a 2021 Monmouth University poll showing 80% approval nationwide.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- The constitutional amendment does not change existing voter ID laws
- A Wis. Stat. is much easier to alter or repeal; this resolution ensures that a valid photo ID will always be required to vote in Wisconsin
- Polls show that 80% approve of voter ID requirements to vote

Opponent's Message:

-

SJR 101 – Prohibiting Private Funds in Elections – Constitutional Amendment

Rep. August

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jason Rostan 6-1190

During the 2020 election, the Center for Tech and Civic Life, founded in part by Facebook Founder Mark Zuckerberg, donated $6.3 million to 5 Wisconsin Cities – Milwaukee, Madison, Green Bay, Kenosha & Racine. In return for these grants, municipalities had to agree to expand the number of polling places, purchase new machines and drop boxes, and create new get out the vote efforts. In Green Bay, this group was given unprecedented access to absentee ballots and played an extremely concerning role in the administration of that election.

The public needs to have faith that elections are being administered fairly and without partisan influences. This money jeopardizes this impartiality.

With this in mind, AJR 134 would amend the WI constitution to prohibit the acceptance or use of any donation from a private organization for the purposes of election administration. It would also prohibit any individual not designated by law from performing any task in election administration.

Assembly Substitute Amendment 1 clarifies that these private funds cannot be used in connection with the conduct of any primary, election or referendum. This change was made to ensure that these funds could not be used for advertising purposes or anything similar.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- Restoring faith in impartiality of Wisconsin elections
- Ensures that private funds cannot be used to influence the outcome of elections

Opponent's Message:

- Funds were used to the good of the people regardless of party affiliation
- Drop boxes help voter turnout
- Get-out-the-vote efforts are nonpartisan

Key Supporters:

Sen. Eric Wimberger - 30th Senate District
Rep. Tyler Vorpagel - 27th Assembly District
Rep. Tyler August – 32nd Assembly District

Key Opponents:

Rep. Sinicki, Rep. Pope, Rep. Ohnstad, Rep. MicGuire

AMERICAN OVERSIGHT

SJR 102 – U.S. Term Limits

Rep. Knodl

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: James Mietus [6-3796]

Assembly Joint Resolution 135 will submit Wisconsin's application to the U.S. Congress for a convention under Article V of the U.S. Constitution for proposing an amendment imposing term limits for members of Congress.

The average tenure of a member of Congress has doubled in the Senate and tripled in the House over the past 130 years. This trend had proven detrimental to our system of government by reinforcing the incumbent advantage, thereby reducing accountability and shutting out fresh viewpoints. National opinion polling shows strong support for congressional term limits (>75%) across both major parties and independent voters. In Wisconsin, 82% of Republicans and 69% of Democrats support congressional term limits.

Two-thirds of the states (34) need to submit applications in order to trigger the convention, and three-fourths of the states (38) must ratify any proposed amendments.

These safeguards ensure that state legislatures retain the ultimate authority on ratification. Furthermore, 2017 Act 83 establishes the process for recalling Wisconsin's delegates if they take any action that exceeds the scope authorized in the resolution.

Committee Chair's Summary of Proceedings

Prepared by:

Fiscal Effect:

None

Supporter's Message:

- States should exercise their Article V rights to reform Congress because we cannot expect Congress to impose limits on itself
- Overwhelming support exists for congressional term limits regardless of party affiliation
- Article V was included in the Constitution for this very purpose—to give states recourse to push back when the federal government's powers have grown too invasive
- The Founders set an extremely high bar for ratification, and a three-quarter supermajority of states have the final say with regard to any proposed amendments

Opponent's Message:

- Elections already act as term limits
- Delegates may attempt to go rogue and rewrite the entire Constitution
- We don't know the details of the proposed amendments (e.g. term limit duration)

Key Supporters:

U.S. Term Limits

Key Opponents:

League of Women Voters, Wisconsin Council of Churches, Wisconsin Democracy Campaign, John Birch Society

Committee Vote(s):

The Senate Committee on Government Operations, Legal Review, and Consumer Protection voted to recommend passage (3-2).

AMERICAN OVERSIGHT

AB 161 – Veterans' Disability Rating for Hunting & Fishing

Rep. Thiesfeldt

Committee on Sporting Heritage

Session Date: 2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill provides a single minimum required disability rating of 50% for the discounted resident disabled veteran approvals. Under current law, the qualifying disability rating is either 50% or 70% depending on the approval. This is an important minor change that will reduce confusion for resident disabled veterans and sales agents alike.

Adjusting the required minimum disability rating eligibility criteria so it is consistent across products eliminates the uncomfortable situation where a license sales agent must explain to a resident disabled veteran that their disability is significant enough to meet the eligibility criteria to purchase a disabled veteran recreation card, but that the veteran is not "disabled enough" to qualify for the disabled fishing license.

Committee Chair's Summary of Proceedings

Prepared by: Allison M. Hetz 6-7015

Fiscal Effect:

Annual revenue reduction = $52,600. One-time costs = $11,300

Supporter's Message:

- Provides disabled veterans more opportunities at a lower cost

Opponent's Message:

- Reduces revenues

AB 340/SB 341 – Real Estate Appraisers Limitations

Rep. Tittl

Committee on Housing and Real Estate

Session Date: **2/23/2022**

Author's Summary of the Legislation

Prepared by: Steve Hall 6-0315

AB 340 limits the time a lawsuit can be brought against a real estate appraiser to five years following the date of the report. It does not apply to an appraiser who commits fraud or concealment in the performance of their duties. Currently, there is no statute of limitations specifically addressed to real estate appraisal services.

Committee Chair's Summary of Proceedings

Prepared by: Alex Braaten, 266-1194

Fiscal Effect:

None

Supporter's Message:

- The new time limit aligns with the Uniform Standards of Professional Appraisal Practice record-keeping requirements, which permit appraisers to destroy records after five years if state law allows.
- The current limit makes it difficult for appraisers to defend themselves, because it begins at the time of discovery rather than the time of performance.
- Some law firms have been buying the rights to sue appraisers in relation to defaulted mortgages, knowing that many appraisal firms, especially smaller ones, may settle rather than incur legal fees to fight these cases.
- A five-year time period is more than enough time for a party to bring a lawsuit against an appraiser.

Opponent's Message:

- No one voiced opposition or registered against.

Key Supporters:

Sen. Jacque; NAIOP (the Commercial Real Estate Development Association); Wis. Realtors Association

Key Opponents:

None

Committee Vote(s):

1/05/22, Assembly Committee on Housing and Real Estate recommended passage **(8-0).**

AMERICAN OVERSIGHT

AB 489 – Utility Aid for Decommissioned Power Plants

Rep. Oldenburg

Committee on Energy and Utilities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Leah G. Peterson (266-3534)

Assembly Bill 489 would accomplish 3 things:

- *Define "Decommissioning"*
  - Under current law there is not a definition for when a power plant is decommissioned. It is important that this term is defined in state statute because it determines when the utility or electric cooperative's property is no longer tax exempt.
- *Creates a sliding scale for phase-out utility aid payments*
  - *Assembly Substitute Amendment Three makes a change to how this formula works under the original bill. This needed to be adjusted as there has been opposition to extending the phase-out utility aid payments over the course of 10 years.*
    - Rather than receiving phase-out utility aid over 5 years and declining at a rate of 20% each year.

Under the substitute amendment, phase-out utility aid payments are paid on a sliding scale, with the trigger for that being the sale/transfer of a power plant when a plant is no longer generating electricity. With this sliding scale approach no county or municipality would receive less aid than is given under current law. The phase-out utility aid would be structured as seen in the chart below (corresponding percentages have been calculated in the substitute amendment):

Plant transferred within year # of no longer generating electricity:	Number of years of phase-out utility aid payments
Year 1	10 years
Year 2	9 years
Year 3	8 years
Year 4	7 years
Year 5	6 years
Years 6+	5 years (current law)

- *Makes sure that phase-out utility aid is paid fairly*
  - This provision ensures that if a power plant has multiple power generating units local municipalities do not experience an immediate reduction in their utility aid.
  - Under current law: if a power plant has multiple power generating units, and one of the units was closed prior to the entire plant being decommissioned the municipalities would experience an immediate reduction in aid. This is due to the fact that utility aid is based off of power generating capacity.
  - This legislation would fix this issue. If a power plant closed a power generating unit, but the whole plant had not yet decommissioned, the utility aid would be held at a steady level until the plant was decommissioned.

AMERICAN OVERSIGHT

- Without this fix the local units of government would never be able to recover the aid that would be lost from one power generating unit closing before the entire power plant was decommissioned.
- Ensuring that phase-out utility aid is fairly paid is important because under current law if a plant with one power generating unit is decommissioned it is treated differently than a power plant with multiple power generating units.
  - This also includes a fix for a power production plant in Sheboygan that is **not** retroactive. However, since the municipality and county's aid was cut in half with the closing of a power generating unit, this will restore their aid to what it would have been if the plant only had one power generating unit.

- **After the bill passed the Assembly Committee on Energy and Utilities another amendment was discussed. It is the intent of the Representative Oldenburg to amend the bill on the floor with Assembly Substitute Amendment 4.**
  - The amendment does two of the three things addressed by the original bill:
- 1. *Define "Decommissioning"*
- 2. *Makes sure that phase-out utility aid is paid fairly*
  - This amendment excludes the sliding scale for utility aid payments, and will not include a fix for host communities of power plants that have previously closed.

Committee Chair's Summary of Proceedings

Prepared by: Garrett Huffman at 267-5158

Fiscal Effect:	AB 489 will result in higher public utility aid payments. The 5yr phase-down costs $19.80 million under current law and $36.30 million under a 10yr phase-down in the original bill – removed under the substitute amendment. Public utility aid payments will also not be reduced as a result of the bill when a utility closes 1 generating unit, but not all, and the local government will continue to receive the higher fixed aid payment based on max power plant generation. DOR estimates a 1-time cost of $65,000 to implement and a $3,900 annual operating cost.
Supporter's Message:	While a plant is generating power the property is tax-exempt. While the utility or electric cooperative's property is tax-exempt, the county and local municipality are provided utility aid through the state. Utility aid is based on the amount of power a plant produces. When a power plant decommissions the loss in utility aid has a major fiscal impact on the local units of government. The loss and process, of decreasing utility aid, is an immense fiscal change for small units of government.
Opponent's Message:	No Opposition Registered
Key Supporters:	Rep. Oldenburg, Sen. Ballweg, Dairyland Power Cooperative, Columbia County, WI Counties Assoc, WI Utility Tax Association, RENEW Wisconsin, Alliant Energy, WI Conservative Energy Forum, MG&E, WEC Energy Group, WI Utilities Assoc, League of WI Municipalities, WI Electric Cooperative Assoc
Key Opponents:	None testifying or registering

AB 515 – Tuition remission for certain veterans and their dependents

Rep. Kitchens

Committee on Colleges and Universities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Michael Moscicke, 266-7500)

AB 515 provides veterans with more opportunities to take advantage of the GI Bill in Wisconsin and to attract more people to move to our state, thus bolstering our workforce. The bill modifies the residency requirement for the tuition and fee remission program for certain military veterans and their spouses and children who are enrolled in University of Wisconsin System institutions and technical colleges.

Under current state law, qualifying veterans and their spouses and 17- to 25-year-old children are eligible for full remission of tuition and fees at UW System schools and technical colleges for up to eight semesters or 128 credits, whichever is longer. It is currently required that a veteran must be a resident of this state when he or she entered military service or for at least five consecutive years immediately before they register at a UW System school or technical college.

The bill lowers the five-year requirement to three years. This change aligns with the federal GI Bill, which ends after three years. This will ensure that a student's education is not interrupted.

The bill also eliminates the provision that a student must be a Wisconsin resident at the time of entry into active duty as a condition of eligibility for the nonresident tuition exemption for veterans. By making this change, veterans will be able to qualify for in-state tuition at the time they enroll at a UW System institution.

Committee Chair's Summary of Proceedings

Prepared by: Michael Moscicke 266-7500

Fiscal Effect:

UW System estimates they will see a reduction of program revenue (that is tuition) of $4.1 million in FY24 over FY23. They also estimate increases of these loses of 1% each subsequent year for veterans and 7.4% for children and spouses.
WTCS expects local district costs to increase from their current annual $3 million for an expansion of this program.

Supporter's Message:

- Enables service members and their family to complete their education as intended under the GI Bill.
- Encourages service members and their family to settle in Wisconsin.

Opponent's Message:

- None

AB 526/SB 533 – Housing Authorities

Rep. Kuglitsch

Committee on Housing and Real Estate

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Garrett Huffman 267-5158

Mixed-income/mixed-use developments when applied by a housing authority to a targeted area can combat concentrations of poverty, increase the property tax base, add opportunities for upward mobility, and help residents achieve financial independence within the neighborhood.

Assembly Bill 526 authorizes Milwaukee's public housing authority to use mixed-income/mixed-use developments that serve persons of low income but also mix market-rate tenants within the same project.

Mixed-income/mixed-use developments are an important tool for public housing authorities to reduce the need for government funding by cross-subsidization (rents from higher-income tenants that help reduce the subsidy required to provide housing to low-income residents).

The Milwaukee Housing Authority will gain the option to include commercial tenants, like a grocery store or office property, and share residential space between low-income and market-rate tenants.

Assembly Bill 526 also raises Wisconsin's procurement threshold to $50,000. A higher threshold in Wisconsin reduces overhead and aligns with current HUD procurement standards, allowing Public Housing Authorities to put more dollars into affordable housing.

In discussions with stakeholders, Assembly Amendment 1 was added to the bill at the request of the Wisconsin Realtors Association (WRA) and the National Association of Industrial and Office Properties (NAIOP) that limit the effect of the bill to the city of Milwaukee and only properties owned by the Housing Authority prior to October 1, 2021.

Committee Chair's Summary of Proceedings

Prepared by:

Fiscal Effect:	DOA – No State Fiscal Effect and indeterminate local effect, DOR – No State Fiscal Effect and indeterminate local effect, DWD – costs may be absorbed within the agency's budget and indeterminate local effect to local governments. Housing Impact Note available here.
Supporter's Message:	AB 526, as amended by Assembly Amendment 1, allows a housing authority in a 1st class city to operate mixed developments, including mixed-use properties, like an apartment complex with a grocery store on the ground floor. It also includes mixed-income housing, where both low and moderate incomes could be served in the same housing complex. Assembly Bill 526 also raises Wisconsin's procurement threshold to $50,000.
Opponent's Message:	No opposition

AB 538/SB 535 – Liability Exemption for Previously owned Eyeglasses

Rep. Paul Tittl

Committee on Judiciary

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Steve Hall; 6-5831

Assembly Bill 538 provides an exemption for the provision of previously owned eyeglasses. Organizations such as the Lions Club collect used eyeglasses, sort, wash, and ship them for eyeglass missions across the world for distribution to people who may not otherwise be able to have them because of lack of affordability.

Under current law, these organizations do not distribute eyeglasses in Wisconsin, because they could face liability for doing so. The bill provides a liability exemption such as Oregon has enacted.

Committee Chair's Summary of Proceedings

Prepared by: Kathryn E. Heitman; 6-5831

Fiscal Effect:

No State or Local fiscal effect.

Supporter's Message:

- This allows for an exemption of liability for donated eyeglasses.

Opponent's Message:

- Regardless of whether an organization is charging for glasses, they should be responsible for ensuring the product they are distributing will not cause harm to the recipient.

Key Supporters:

Rep. Paul Tittl; Sen. Andre Jacque; Beyond Vision; Wisconsin Academy of Ophthalmology

Key Opponents:

None

AB 576/SB 335 – Lake Sturgeon Raffle

Rep. Thiesfeldt

Committee on Sporting Heritage

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill authorizes Sturgeon for Tomorrow, Inc. (SFT) to request that DNR annually transfer up to 15 carcasses of lake sturgeon culled from state fish hatcheries to be awarded as prizes in a raffle. The bill requires the organization to preserve the carcasses for taxidermy and mounting and to provide to each person who receives a carcass a certificate of transfer. The bill also requires the organization to use all proceeds from these raffles to promote sturgeon management, conduct sturgeon habitat management, promote sturgeon reintroduction, or further sturgeon research.

Sturgeon for Tomorrow help preserve, protect and enhance the sturgeon resource of the Winnebago System. That group is now the largest citizen advocacy group for sturgeon **in the world** and has raised and donated over $900,000 for sturgeon research, management, and education since its inception.

Assembly Amendment 1: When the bill was introduced, it was under the assumption that the DNR was still following old practices of automatically culling a certain percentage of the lake sturgeon in their hatcheries. The DNR let us know this is no longer the case, so removing the word "culled" from the bill just allows the DNR to transfer up to 15 sturgeon to SFT without using the language of the culling practice no longer happening at fish hatcheries.

Committee Chair's Summary of Proceedings

Prepared by: Allison M. Hetz 6-7015

Fiscal Effect:

DNR- Indeterminate

Supporter's Message:

- This will help promote sturgeon spearing and fundraising efforts for Sturgeon of Tomorrow, Inc.

Opponent's Message:

- Not clear on who is paying for taxidermy, not a needed government expense

AB 578 – Organ Donor Bill

Rep. Thiesfeldt

Committee on Sporting Heritage

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill requires the Department of Natural Resources to provide a method by which a resident of this state who is 15 ½ years or older, who applies for a hunting, fishing, or trapping license may elect to include his or her name as a donor of an anatomical gift in the record of potential donors maintained by the Department of Transportation (donor registry) and to so indicate on a printed license, a conservation card, or a donor card. This bill will help expand the organ donor base for organ donation and will help save lives.

Assembly Amendment 1 to the bill changes the age of organ donation to 15 years of age to update the statutes as persons receiving their driving permit photo ID can now be 15 years of age.

Committee Chair's Summary of Proceedings

Prepared by: Allison M. Hetz 6-7015

Fiscal Effect:

DOT – one time costs of $166,500 to build and test IT changes to share data between DOT and the DNR

Supporter's Message:

- This will make more organs available to people who need them
- The bill will align the statutory age at which an individual can obtain a driving permit to also elect to be an organ donor.

Opponent's Message:

- A 15 year old is too young to decide if they would like to be an organ donor

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000229

AB 588/SB 573 – Electric Vehicle Charging Stations

Rep. VanderMeer

Committee on Energy and Utilities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jesse Johnson 266-8366

Assembly Bill 588 would ensure that private entities can make EV charging stations available to the public and allow a private entity to charge a fee for the use of an EV charging station without having to be classified and regulated as an electric utility.

EV usage is growing, as evidenced by registrations from the state's Department of Transportation (DOT). Additionally, in a cursory review of industry headlines, one can easily learn more about some of the steps that major automotive manufacturers have taken recently and continually to address the EV market. The market is here with consumers, however, current statutes are silent regarding allowing entities to charge for EV charging stations and station services. Private organizations and entities should be able to charge for stations and services similar to any other good or service, understanding that this is, in fact, a unique service and as mentioned, a novel concept as far as our statutes are concerned.

ASA2, as adopted by the Committee on Energy and Utilities, incorporates a number of points brought up during and after the public hearing on the bill from committee members and stakeholders/interested parties, and primarily removes provisions in the original bill allowing for public entities to offer EV charging station services to the public and charge for the service.

AA2 to ASA2, as adopted by the Committee on Energy and Utilities, primarily broadens the definition of municipalities in the substitute amendment to refer to "political subdivisions," and also inserts a provision brought forward by an Assembly GOP member of the Energy and Utilities Committee that requires any state funds allocated to a public utility for the purposes of installing an EV charging station to first be approved by the Joint Committee on Finance (JFC) and a 13.10 meeting.

AA3 to ASA3, as adopted by the Committee on Energy and Utilities, brought forward by the Chair of the Committee on Energy and Utilities, was requested by the State DOT and makes a change to the substitute amendment regarding state agencies controlling EV charging stations.

The bill, as amended and approved, allows for political subdivisions to offer EV charging services 'internally' for their own fleet vehicles, or partner with a private entity to offer EV charging services to the public, but not to compete directly with private entities/organizations to offer those services to the public. Additionally, there are some grandfather provisions in the bill, as amended and approved, that are intended to cover existing political subdivision EV charging stations (reference: ASA2 to AB 588, Nonstatutory provisions, page 5, lines 18-21).

Committee Chair's Summary of Proceedings

Prepared by: Garrett Huffman at 267-5158

Fiscal Effect:	No State Fiscal Effect Reported
Supporter's Message:	AB 588 exempts electric vehicle charging station owners and operators from public utility regulations and authorizes that owner or operator to charge a fee for the use of the charging station. EV drivers who do not have access to a charging outlet at home or work rely on public charging outlets at convenient locations—AB 588 expands EV locations.

AMERICAN OVERSIGHT

	As electric vehicles and vehicle charging become more common there is a need to allow charging vendors to bill consumers by the amount of energy consumed.
Opponent's Message:	AB 588 authorizes taxpayer-funded electric vehicle (EV) charging stations.
ASA2 prevents local governments from providing EV charging to the general public.	
AB 588 will significantly limit the use of solar + storage EV charging equipment in Wisconsin.

AB 643 – State Project Bidding Threshold for 1-person A/E Firms

Rep. Sortwell

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Zach Pfaffenbach, 6-9870

Under current law, the secretary of administration (DOA) is required to establish a committee for each construction project under the department's supervision, except certain emergency projects, for the purpose of selecting an architect or engineer for the project. If the estimated cost of a construction project is $7,400,000 or more, the selection committee must use a request-for-proposal process established by the department to select an architect or engineer for the project based on qualifications. Assembly Bill 643 prohibits such a committee from refusing to select an architect or engineer who operates an architect and engineering firm with only one responsible architect or engineer for a construction project that has an estimated cost of less than $7,400,000.

This legislation will make the sector more competitive, especially for the smallest of businesses.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- This bill allows small businesses to have the ability to be considered and to compete for state building contracts
- If a small business consisting of one engineer receives the bonding for a state project they are often passed over for a larger company with longer project history

Opponent's Message:

Trust should be left with the DOA to select the more capable company. That may tend to be a larger, established, and more historically reliable company.

Key Supporters:

Rep. Shae Sortwell
Sen. Duey Strobel
ABC WI

Key Opponents:

Rep. Pope

Committee Vote(s):

Passed the Committee on State Affairs: 12-1 (Pope)

AB 656 – International Physicians

Rep. Calvin Callahan

Committee on Health

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Wyatt Cooper (6-7694)

Wisconsin is facing a rising physician shortage that disproportionately affects our state's rural residents. Residents who live in areas without adequate access to primary care physicians have insufficient medical care, fewer health screenings, and inadequate insurance networks. AB 656 provides a pathway for internationally-trained physicians to practice in Wisconsin without having to redo their residency programs by allowing the state Medical Examining Board to recognize high-quality education and residency programs that they have already completed.

Committee Chair's Summary of Proceedings

Prepared by: Wyatt Cooper (6-7694)

Fiscal Effect:

DSPS estimates it will incur one-time costs of $5,530 to promulgate rules; possible to absorb within DSPS's budget

Supporter's Message:

- Combats the physician shortage, by increasing the amount of skilled, internationally-trained physicians throughout Wisconsin.
- AB 656 lays out a framework for stripping back some of the unnecessary red tape and duplicative requirements international physicians currently face when they apply to work in our state, without compromising safety and quality of care
- Improves healthcare statewide, but especially in rural areas, which have disproportionately impacted by the physician shortage.
- Overall, the proposal does not sacrifice **quality** for **quantity**.

Opponent's Message:

- Does the list of countries included in the bill need to be expanded or contracted?
- The WI Medical Society "believes the State of Wisconsin Medical Examining Board's opinions are important regarding this proposal, as the MEB is responsible for ensuring the qualifications of those desiring to practice medicine in Wisconsin."

Key Supporters:

Rep. Callahan, Sen. Felzkowski, Americans for Prosperity, Cicero Action

Key Opponents:

No one registered or testified in opposition to this bill.

Wi Medical Society is registered as "other."

Committee Vote(s):

Passage recommended **10-5 (party lines)**, Representatives Subeck, Riemer, Anderson, Vining and S. Rodriguez voting no.

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000234

AB 721/SB 695 – Tribal Charter Schools

Rep. Steffen

Committee on Education

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: ***Nick Esbeck (6-5840)***

Under current law, multiple entities are permitted to establish and operate charter schools. Out of all of the authorized entities, only tribal colleges are restricted to a specific number of schools. This legislation will lift the cap on the number of independent charter schools a tribal college may authorize. Current law allows tribal colleges to authorize a maximum of six charter schools between the only two tribal colleges in Wisconsin, the College of Menominee Nation and the Lac Courte Oreilles Ojibwa Community College.

The Office of Educational Opportunity in the UW System, a technical college district board, and the county executive of Waukesha County currently are able to establish and operate charter schools, but do not face the same numerical restrictions. Most authorizers are restricted by geographical boundaries.

This legislation aims to eliminate the arbitrary cap on the number of schools that a tribal college is allowed to authorize, and creates parity between tribal colleges and other authorizers of charter schools in addition to expanding school choice and educational opportunity across Wisconsin.

Committee Chair's Summary of Proceedings

Prepared by: Katie Scott, 6-3156

Fiscal Effect:

Indeterminate.

Supporter's Message:

- Independent charter schools have proven to be extremely successful.
- It's great to have charter schools as more options for families and students.
- This bill simply puts equity into the statutes, as tribal colleges are the only authorizers for independent charter schools that are capped at the number of schools they may authorize.

Opponent's Message:

- Opponents to the bill do not support the authorization of any additional independent charter schools.

Key Supporters:

La Coute Oreilles, Lake Country Classical Academy, Menominee Tribe

Key Opponents:

WEAC, Association of Wi School Administrators, WI Association of School Boards,

Passed Senate: 19-13

AMERICAN OVERSIGHT

AB 727 – Protecting Water Quality

Rep. Joel Kitchens

Committee on Agriculture

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Adam Tobias 608-266-5350

AB 727 take a multi-pronged approach to protecting Wisconsin's water from excessive nitrates and other contaminants by doing the following:

- Create a Commercial Nitrogen Optimization Pilot Program where farmers can receive grants for implementing new and innovative practices that optimize the application of commercial nitrogen
- Provide cover crop insurance premium rebates to help offset the costs of planting cover crops
- Establish a three-year hydrogeologist position within the UW System to develop localized groundwater resource data and to work with local stakeholders on interpreting and using that information

Many of the items in these bills are based on policy recommendations made by the 2019-20 Speaker's Task Force on Water Quality.

Assembly Amendment 1 to AB 727 modifies the crop insurance premium rebate program by authorizing DATCP to promulgate rules to establish the application and award process and to determine the maximum amount of acres for which an applicant may receive funding in a year. The amendment also prohibits DATCP from providing a rebate for the planting of a cover crop on an acre for which funding for planting a cover crop is provided (instead of available) from a federal or state grant or incentive program.

Assembly Substitute Amendment 1 to AB 727 removes the funding from the bill and stipulates that it must be approved and provided by the Joint Committee on Finance.

Committee Chair's Summary of Proceedings

Prepared by: Craig Arrowood 266-2097

Fiscal Effect:

$1.4 Million annually. DATCP Fiscal paper $1 Million to create a nitrogen optimization pilot program. $400,000 to DATCP to provide crop insurance rebates in 2022-23. These are one-time expenditures.

Supporter's Message:

- Collaborative approach to address complex water and environmental issues that will lead to positive outcomes. Addressing water quality and nitrogen issues will ease concerns for public while providing the necessary grant funding to find long term answers to these issues.

Opponent's Message:

- No group registered in opposition.

Key Supporters:

Rep. Kitchens (Author) Senator Cowles (Author) Dairy Business Association, Clean Wisconsin, League of Women Voters, Wisconsin Cattlemen's Association, Wisconsin Corn Growers Association, Wisconsin Farm Bureau, Wisconsin Pork Association, Wisconsin Potato and Vegetable Growers.

Key Opponents:

None.

Committee Vote(s):

Passage as amended 13-0. Rep Myers and Kitchens did not vote.

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000236

AB 849/SB 900 – Resolving Title Issues of historic filled waterfront property

Rep. Robert Wittke

Committee on Environment

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Terri S. Griffiths 266-0731

Assembly Bill 849 (AB 849) would create a framework to provide certainty surrounding legal title of former lakebed and riverbed land. The need for this legislation is not new as other legislators have worked on it with various stakeholders. AB 849 creates a process for a municipality to review a proposal for the establishment of a Great Lakes shoreline specifically where the shoreline was "filled" prior to December 9, 1977 when no permit was required for permanent alterations, deposits or structure along navigable waters.

Stakeholders and legislators have raised concerns over time as we've worked on AB 849. As a result, key stakeholders worked to clean up uncertainties in the language, to address public access concerns, to simplify the draft to garner support, and to include findings-of-fact for even more clarity as to the intent of the legislature.

ASA 1 to AB 849 makes numerous technical changes and includes findings (nonstatutory) for clarity. Key changes include:

- Limits the scope of the bill relating to certain commercial rivers and harbors by applying it to land located within cities and villages, and specifying only certain river beds and not certain harbor areas included in the bill.
- Allows a record title holder to apply to the municipality for a shoreline determination. The municipality must approve and then submit the request to the DNR.
- Clarifies the role of the DNR in establishing a shoreline as follows: The DNR must adopt the shoreline approved by the municipality (after public notice and comment period) unless substantial evidence is presented indicating land is not upland from the shoreline.
- Prohibits legal action affecting the title by any person, the state, or any local unit of government based on an assertion that the property includes portions of land that may have been submerged beneath a Great Lakes water, if the land has been at an elevation above the ordinary high water mark since December 9, 1977, and the property is not subject to a lake bed grant or a submerged land lease.
- Requires municipalities to determine that the proposed use of the shoreline will provide public access or use of the property

AB 849 as amended by ASA 1 is the result of work by and between the development community and the League of Wisconsin Municipalities. This is a unique coming together of two entities not typically in agreement on land and water use issues.

Committee Chair's Summary of Proceedings

Prepared by: Adam Tobias 266-5350

Fiscal Effect:

The overall fiscal impact of the bill is indeterminate because there is substantial uncertainty related to the amount of projects that will be subject to this legislation. In total, program expenditures are estimated at $1,250 per submittal.

Supporter's Message:

- Creates a process for a municipality to review a proposal for the establishment of a Great Lakes shoreline

AMERICAN OVERSIGHT

- Gives clarity to an issue that has been of concern to entities looking forward to developing land that is no longer submerged.
- The bill includes a “lake section” and a “rivers section” because ownership issues are different for each.
- Provides Great Lakes communities with opportunities to improve contaminated and blighted parcels along the shoreline.

Opponent’s Message:

- The bill violates the Public Trust Doctrine

Key Supporters:

Wisconsin Realtors Association, Wisconsin Land Title Association, Wisconsin Economic Development Association, Wisconsin Builders Association, NAIOP Wisconsin, League of Wisconsin Municipalities and Apartment Association of South Central Wisconsin.

Key Opponents:

Clean Wisconsin, Green Fire Wisconsin, Midwest Environmental Advocates, Sierra Club of Wisconsin and Wisconsin Conservation Voters.

Committee Vote(s):

On Feb. 22, 2022, the Assembly Environment Committee recommended passage of Assembly Substitute Amendment to Assembly Bill 849 by a vote of 7-0 and Assembly Bill 849 as amended by a vote of 6-2.
Passed the Senate Committee on Government Operations, Legal Review and Consumer Protection 3-2
Passed Senate by voice vote.

AMERICAN OVERSIGHT

AB 854 – School District Annexation

Rep. Summerfield

Committee on Education

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Sam Lanzer, (608) 266-1194

Assembly Bill 854 seeks to give families more options for school choice when facing obstacles in the open enrollment process by making it easier for families to choose to be annexed by a neighboring school district.

Open enrollment is a useful tool used by many families in Wisconsin, but it has limitations when a child has special needs, potentially causing a child to lose his or her seat in the school if the student requires special services. In a rarely used method, families can retain their child's spot in the neighboring school district by joining their residence to a neighboring district. Under current law, this owner-initiated annexation process requires the approval of the new and old school district.

This bill eliminates the requirement that the old school district must approve an annexation petition, so only the new school district's approval is required for owner-initiated detachment and attachment of small territory. This will provide another option for families who want to keep their child in a neighboring school district when open enrollment wouldn't suffice. Families will have greater flexibility and choice over the education of their children.

Current law also mandates a waiting period between all owner-initiated detachment-attachment petitions until the second July 1 after the first petition. This bill eliminates the waiting period for small territory petitions. A small territory is defined as a territory where 1) the assessed value of the territory divided by the assessment ratio of the taxation district is less than 7 percent of the equalized valuation of the school district from which the territory would be detached, and 2) less than 7 percent of the enrollment of the school district from which the territory would be detached resides in that territory.

Committee Chair's Summary of Proceedings

Prepared by: Katie Scott, 6-3156

Fiscal Effect:

Indeterminate.

Supporter's Message:

- The appeals process is not working in this case.
- Under the current system, school districts often block annexation petitions, leaving families stuck and unable to use this process as a means of providing their child with a better education.
- The Eau Claire School District will not even work with the family.

Opponent's Message:

- It is wrong to change state law for only 1 person.
- The family requesting this bill can, right now, move to the school district that they would like their child to attend. They are trying to change state law just so they don't have to move to a different home.
- Open enrollment is relatively short-term (lasting for the duration of a child's schooling); detachment is permanent. This bill could solve a perceived problem for a family but create a very real problem for districts.
- This bill can have long range negative impact on districts.
- This bill also further muddles the open enrollment program.
- This bill goes against local control and school board authority.

Key Supporters:

Rep. Summerfield, Senator Bernier

Key Opponents:

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

AB 865/SB 812 – Regulation of certain electric fences

Rep. James

Committee on Criminal Justice and Public Safety

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Victoria Casola, 6-9172

This bill would define a battery-powered, electric security fence and limit the authority of political subdivisions in the regulation of these fences. A battery-powered electric security fence would be defined as an electric fence that: is equipped with an energizer that produces a direct current and is powered by a commercial storage battery, produces an electric charge on contact, is connected to a system that signals law enforcement, includes warning signage, is surrounded by a perimeter fence, and does not exceed in over ten feet in height or two feet higher than the perimeter fence. This bill also prohibits political subdivisions from requiring any permit for the installation of these fences except for an alarm system permit and prohibits individuals from locating this type of fence on residential property.

Committee Chair's Summary of Proceedings

Prepared by: Ericka Braatz 6-1182

Fiscal Effect:

None

Supporter's Message:

- This would standardize the requirements for these types of fences across the state.
- These are only for businesses, not residential houses.
- Used by many businesses to help prevent theft of items which have to be stored outdoors. Examples include auto salvage and auction lots, trucking companies, shipping and distribution hubs, landscapers, and other business with vehicle fleets.
- These electric fences must have an exterior fence, which is still regulated by the municipality. If that fence is in compliance then this legislation kicks in.
- This bill will help with the issues of permitting in municipalities across the state, where some are not sure how to regulate these electric fences and there can be different requirements depending on the municipality.
- 13-14 other states already have this type of legislation and 7-8 more states are pending.

Opponent's Message:

- We shouldn't create carve-outs for one type of company.

Key Supporters:

Amarok LLC

Reps. James, Cabral-Guevara and Sen. Wanggaard

Key Opponents:

City of Milwaukee

Committee Vote(s):

Assembly Amendment 1 to Assembly Bill 865 passed: 14-0

AMERICAN OVERSIGHT

AB 874 – Ambulance Assessment/GEMT

Rep. Loudenbeck

Committee on Local Government

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Danielle Zimmerman, 237-9322

- AB 874 would require DHS to submit a state plan amendment for Medicaid to allow for Wisconsin EMS providers to take part in supplemental payment opportunities for public and private EMS providers. If approved by the federal government, these supplemental payments could help to alleviate some of the funding pressure on EMS service providers.

- The program for public ambulance providers is generally called GEMT or Ground Emergency Medical Transportation Supplemental Reimbursement. The State would allow the option for public providers (municipal, governmental) to implement a certified public expenditure (CPE) program where public EMS providers have the option to certify uncompensated costs and the state draws federal matching funds associated with those unmet costs. CPE programs are used in 48 other states and have been used in other Wisconsin programs since 2004.

- The program for private ambulance services would be a self-assessment. All private (for-profit, non-profit) EMS providers would be required to take part in an ambulance service provider assessment program. Every dollar collected from this industry-backed self-assessment would generate $1.50 in federal Medicaid match that would be returned to providers through the Medicaid program. Ambulance assessments are active in several states and have proven to be an effective way to ensure EMS providers have adequate funding to continue providing critical services.

- These two supplemental payment opportunities would help minimize typical losses when providing Medicaid covered services. This will also be beneficial to taxpayers, as many communities are facing increased costs related to providing critical EMS services, and keeps the losses from being paid for by their property taxes.

- Other states have started using federally approved supplemental payment programs for both private and public EMS services to pay effectively higher rates, **without using additional state funding.** There are currently no comparable financing mechanisms for EMS providers in Wisconsin.

- EMS providers across Wisconsin are facing significant issues with funding and staffing, which is leading to problems with access or lack of coverage for many communities. These challenges are negatively impacting EMS providers in urban and rural areas alike. There isn't a one size fits all solution to address all of these issues, instead a multifaceted approach that helps communities of all sizes is going to be key in making sure the EMS system as a whole is viable and successful for years to come.

- Allowing Wisconsin's EMS providers to take part in these programs will be beneficial to the patients they're serving, as better funding can increase access and quality outcomes, ensuring proper care in the right place, at the right time, with the right solutions.

AMERICAN OVERSIGHT

Assembly Substitute Amendment 1: Removes the chapter 20 language to remove any veto concerns. Instead it adds non-statutory language directing DHS to include language to authorize the appropriation language as well as using it to pay for administering the program in their 2023-2025 budget request. It also allows DHS to ask JFC for funding if they need it before the next budget. **Includes the provisions from the simple amendments:**

- Clarifying that an ambulance service that is organized as a nonprofit organization owned by a municipality or group of municipalities is considered a public ambulance service.
- Prohibits private ambulance services from passing the cost of the assessment onto their customers.
- Holds the health plans harmless if there was an error by DHS in calculating a payment to a private ambulance service.

Committee Chair's Summary of Proceedings

Prepared by: Nolan Bursch, 6-7502

Fiscal Effect:

Indeterminate. The state fiscal impact of this bill on state GPR costs for Medicaid benefits is budget neutral. However, the Department also estimates it could have one time costs of $200,000 GPR and annual administrative costs of $396,400 GPR.

Supporter's Message:

- Other states have implemented federally approved supplemental payment programs to effectively pay higher rates to public and private EMS providers.
- This would draw down additional federal dollars at no additional cost to state GPR.
- Passage of this bill would have a dramatic positive impact for both public and private EMS providers.

Opponent's Message:

While the bill explicitly prohibits additional costs incurred through the assessment to be passed on to rate payers, ambulance providers may find a way to do this.

Key Supporters:

- Reps. Loudenbeck, Dallman, Brooks, Duchow, James, Kerkman, Krug, Kurtz, Mursau, Novak, Shankland, Subeck, Summerfield, Vruwink, Skowronski, Wittke, Spreitzer, Andraca, Snodgrass, Brandjen, Conley, and Allen; Sens. Felzkowski, Bewley, Cowles and Petrowski

Passed Joint Finance **16-0**

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000243

AB 887 – Southern WI Veteran Memorial Cemetery Project Authorization

Rep. Swearingen

Committee on Local Government

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Taylor Corkran, 7-9443

After adoption of the 2021-2023 budget, Department of Veteran Affairs (DVA) was notified they were awarded federal funds for a 6th phase of improvements at the Southern WI Veteran's Memorial Cemetery. This phase of the project will add 2,500 columbarium units ensuring the cemetery can keep pace with demand projections. To proceed with the project, it will need to be enumerated outside the budget process.

AB 887 amends the 2021-23 Authorized State Building Program to add one project for the Department of Veterans Affairs. The project involves the construction of additional columbarium units at the Southern Wisconsin Veterans Memorial Cemetery in the village of Union Grove. The project will be financed with $440,000 in program revenue and $4,560,000 in federal funds.

This legislation was crafted as a team effort with the Department of Administration, the Department of Veteran Affairs, and has the full support of the bipartisan State Building Commission.

Committee Chair's Summary of Proceedings

Prepared by: Nolan Bursch, 6-7502

Fiscal Effect:

The program revenue (PR) funding is derived from an existing appropriation and the larger funding amount comes from federal funds. DOA anticipates any additional expenses could be absorbed by existing staff and expenditure authority.

Supporter's Message:

- Passage of this bill will enable the State Building Commission to consider advancing this project.
- Wisconsin veterans would benefit from this project. This will provide a final resting place for those veterans that have passed.

Opponent's Message:

None

Key Supporters:

- Reps. Swearingen, Wittke, Vos, Born, Billings, Novak, Brooks, Emerson, James, Mursau, Plumer, Pope, Schraa, Sinicki, Spreitzer, Stubbs, VanderMeer, Wichgers, Skowronski and Vruwink and Sens. Petrowski, Jacque, Wanggaard, Ringhand, Ballweg and Carpenter
- Wisconsin Department of Veterans Affairs and the Department of Administration.

AB 893/SB 833 – Grants for Teaching College Courses in High Schools

Rep. Murphy

Committee on Education

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill eliminates the sunset date for the Early College Credit Program and allows high school students to continue to benefit from the funding that has already been set aside. The Early College Credit Program awards grants to assist high school teachers in covering tuition expenses for courses taken to meet the minimum qualifications necessary to teach dual enrollment courses.

Assembly Amendment 1 to the bill ensures independent charter schools will be able to participate in the Early College Credit Program.

Committee Chair's Summary of Proceedings

Prepared by: Katie Scott, 6-3156

Fiscal Effect:

None.

Supporter's Message:

- The Early College Credit Program offers students the ability to earn college credit while in high school. This can result in a student graduating college faster, entering the workforce earlier, and extending their earnings potential over a lifetime.
- Establishing positive relationships between high school students and Wisconsin colleges also increases the chance that highly skilled and academically talented students will complete their college education in our state and remain here after they graduate.
- This bill helps students with the high cost of a post-secondary education, and it can help Wisconsin's current labor shortage that is being experienced across all sectors of the economy.

Opponent's Message:

- We first need to look at the program's finances and budget before we look at this bill.
- Schools first need a pipeline of educators credentialed to take on these courses as opportunities become available.

Key Supporters:

WI Association of School Boards, Elmbrook Schools, UW System, WI Technical College System Boards Association, WI Technical College System, School Administrators Alliance, WI Association of Independent Colleges and Universities, DPI, WiRSA, WMC, WI Council of Religious and Independent Schools

Key Opponents:

AMERICAN OVERSIGHT

AB 901 – 3rd-Party Food Delivery

Rep. Kuglitsch

Committee on Small Business Development

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Garrett Huffman 267-5158

A growing issue in the restaurant industry has been delivery and rideshare companies offering the public food and drink options without informing restaurants. Third-party delivery services are known to list menus for local restaurants on their website and take orders for delivery without ensuring the food and drink arrive promptly and in satisfactory condition.

ASA 1 to Assembly Bill 901 is based on principles and guidelines the third-party delivery companies agreed to in cooperation with the Council of State Restaurant Associations and the National Restaurant Association.

The Restaurant Association negotiated with the third-party delivery platforms and reached an agreed upon bill that focuses on consent between parties for delivery and the details of listing a restaurant on a third-party food delivery platform.

AB 901 will result in 3rd party delivery companies working with restaurants to ensure an up-to-date menu, correct menu descriptions, accurate menu prices, and safe and prompt deliveries. Restaurants have the right to know and determine when and if their food is being delivered.

In addition, customers should expect the same degree of food safety from delivery as they do when dining in a restaurant.

Committee Chair's Summary of Proceedings

Prepared by: Leah G. Peterson 266-3534

Fiscal Effect:	• None
Supporter's Message:	• Resturants and 3rd party food delivery service need to be on the same page regarding menus that are posted, and food that is ordered for delivery. • 3rd party food delivery services should work with resturants, and have a simple way for them to be removed from the digital network, if requested. • If there is no contract between the 3rd party food delivery service, and the restaurant, the delivery service should not be able to misrepresent that relationship. This legislation allows the restaurant to be removed from the digital network. • This is needed to protect the resturants, and consumers • The substitute amendment is an agreement between the resturants and 3rd party delivery services • Wisconsin resturants, and 'EatStreet', a Wisconsin based 3rd party food delivery service, support the legislation. • Resturants are built on relationships, and a misrepresentation of a restaurant on a 3rd party food delivery service, could ruin that relationship before it begins
Opponent's Message:	• No one registered or spoke in opposition to the bill.
Key Supporters:	• Representative Kuglitsch • Senator Testin • Wisconsin Resturant Association • Business Education Fund • EatStreet, Inc.
Key Opponents:	• No one registered or spoke in opposition to the bill.

AB 909 – Managed Forest Law Program

Rep. Jeff Mursau

Committee on Forestry, Parks and Outdoor Recreation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Cory Bruce, 6-3780

In 2015, the legislature passed a major overhaul of the MFL program, which is 2015 WI Act 358. Assembly Bill 909 is a trailer bill, which is necessary to clarify legislative intent and ensure transparency and efficiency within the Department of Natural Resources. AB 909 does the following:

- Makes clear that leasing is allowed on MFL land
- Determines when something is a material change to the terms of the contract
- Allows, rather than requires, the DNR to assess a withdrawal tax and fee if part of the land in the program no longer meets eligibility.
- Allows the 20-acre minimum enrollment requirement to be comprised of two 10 contiguous acre portions, that are not contiguous to each other, if they are on a tract of land under the same ownership
- Allows for buildings and improvements on MFL property if used exclusively for storage
- Allows for additions to existing parcels of any size if certain eligibility requirements are met
- Authorizes the DNR to provide flexibility for large ownerships (1,000 acres or more) of MFL land by promulgating rules that allow for alternative management plan requirements
- Allows for the transfer of ownership without penalty for a public purpose to a city, village, or town that is the taxing jurisdiction

Assembly Amendment 1 – removes section 14 of the bill, which would have allowed the DNR to assess fines for cutting contrary to a management plan or cutting notice.

Committee Chair's Summary of Proceedings

Prepared by: Cory Bruce, 6-3780

Fiscal Effect:

Fiscal Estimate prepared by DNR – Increased costs may be absorbed within agency's budget

Supporter's Message:

- Will encourage greater participation in the program and transparency in decisions made by the department
- Program is necessary to ensure a constant stream of fiber for the second largest industry in Wisconsin, which supports more than 64,000 jobs and contributes $24 billion annually to state's economy.
- The forest products industry is the number one employer in ten Wisconsin counties, and one of the top ten employers in 31 counties.
- Private woodland owners own more than 60% of all forest lands, and two-thirds of the wood harvested in Wisconsin comes from their forestlands

Opponent's Message:

- MFL program can impact local governments tax rolls because of the decreased property tax collected on MFL lands
- Property owners who are in MFL program should be included in discussions to determine whether something is considered a "material change".

AMERICAN OVERSIGHT

• Allowing structures on MFL property goes against the spirit of the law
Key Supporters:
Rep. Mursau and Sen. Felzkowski (bill authors); Wisconsin Alliance of Forest Owners; Wisconsin Woodland Owners; The Nature Conservancy,
Key Opponents:
No one testified or registered opposed to the bill
Committee Vote(s):
2/9/22 – Assembly Committee on Forestry, Parks, and Outdoor Recreation passed bill as amended on a 12-2 vote (Pronschinske, Milroy)

AMERICAN OVERSIGHT

AB 917/SB 865 – Homeowners' Associations

Rep. Rob Brooks

Committee on Housing, Commerce, and Trade

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Christopher J. Schaefer, 608-267-2369

A homeowners' association is a subdivision organization that creates and enforces rules relating to properties within its control. Generally, when a property is purchased within a homeowners' association, the property owner and property automatically become association members and are required to pay dues.

At this writing, homeowners' associations are not regulated under Wis. Stat. Ch.703 as condominiums and, therefore, are not impacted by the obligations of the aforementioned statute. Condominiums and homeowners' associations are separate and distinct, governed by different rules and statutes. The distinctions between these two entities are difficult to ascertain. Accordingly, legislation was drafted to provide distinction and establish statutes specific to homeowners' associations.

This is a consequential first step towards delineating the clarity between homeowners' associations and condominiums and cogent guidelines for owners of these properties to abide by.

Amendment 1 to Senate Bill 865/Assembly Bill 917 does each of the following:

- Directs the Wisconsin Department of Financial Institutions to establish a process for allowing corporate and homeowners' associations filings to occur simultaneously, thus streamlining the registration process.
- Makes the meeting notices and changes to bylaws available only to association members, not the general public
- Establishes a $25 cap on the amount a homeowners' association may charge the property owner for copies of the rules and regulations/covenants and restrictions. If the homeowners' association possesses a website, the aforementioned documents must be published therein.

The bill is a much-needed first step in the process of demarcating the dissimilarities between condominiums and homeowners' associations. Perhaps more important, the bill intends to meliorate the living conditions of homeowners' association residents by making rules, regulations, and guidelines more procurable.

Committee Chair's Summary of Proceedings

Prepared by: Christopher Schaefer, 7-2369

Fiscal Effect:

According to the Department of Financial Institutions, there would be a one-time cost of $411,884 to develop, test, and implement a system with the necessary filing, searching, security, and administrative functions to enable the department to effectively administer this legislation.

Supporter's Message:

- Senate Bill 865 allows buyers to better understand any obligations, limitations, or fees associated with purchasing a property in an HOA.
- The bill makes regulations more transparent to property owners and prospective buyers.
- Senate Bill 865 creates a reasonable statutory framework for HOAs for consumers to gain information.

Opponent's Message:

- The bill should have contained provisions giving greater regulatory authority to HOA management companies.
- With limited time and ability to enforce their rights, HOA owners simply do not pay and leave it to their members to pick up the costs or force the association to bring a small claims action which could cost as much as the amount of the debt.

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000251

• HOAs lack any substantive lien priority rights. These should be considered in future legislation.
Key Supporters:
Representative Rob Brooks; Senator Joan Ballweg; Wisconsin Land Title Association; Wisconsin Realtors Association
Key Opponents:
There were not any groups that registered or spoke in opposition to the bill.
Committee Vote(s):
Passed **5-0** by the Senate Committee on Housing, Commerce and Trade on February 9, 2022. The bill was approved **32-0** by the Wisconsin State Senate on February 15, 2022 and Passed as amended: **6-2** by the Assembly Committee on Housing and Real Estate on February 16, 2022.

AMERICAN OVERSIGHT

AB 919/SB 867 – Shoreland Zoning Clarification

Rep. Swearingen

Committee on Transportation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Taylor Corkran 7-9443

The legislative intent of 2015 Wisconsin Act 55 was to set a scale of 35 feet of viewing corridor for every 100 feet of shoreline frontage – effectively ensuring a 35% viewing corridor. Some counties, however, have interpreted this statute to mean any property with less than 100 feet of frontage is not entitled to any viewing corridor at all.

AB 919 would allow the buffer zone to contain a viewing corridor with a width along the shoreline of no less than 35 feet or 35% of the shoreline frontage, whichever is greater. Assembly Substitute Amendment 1 alters the 35-foot provision to 10 feet but maintains the 35% provision. This was crafted in the attempt to further clarify and ensure that the language accomplishes the desired outcome.

In addition, we have been asked to address an issue relating to bridges within a shoreland zoning setback area. Currently, bridges are not included in the list of structures that are permitted within the 75-foot area.

AB 919 would add county and municipal bridges that have been issued a permit by the Department of Natural Resources to the list of allowable structures.

Committee Chair's Summary of Proceedings

Prepared by: Patrick Gehl, 6-3404

Fiscal Effect:

None

Supporter's Message:

- This bill clarifies shore land zoning requirements for properties with less than 100 feet of shoreline property. Additionally, it allows local governments to build bridges within the shore land zoning setback if they receive DNR permits.

Opponent's Message:

- This issue does not need legislation to provide clarification [hypothetical]

Key Supporters:

Wisconsin Realtors Association, Oneida County, Rep. Swearingen

Key Opponents:

None

Committee Vote(s):

Passed as amended by the Assembly Transportation Committee, 13-0
Passed as amended by Senate Natural Resources and Energy Committee, 3-2

AMERICAN OVERSIGHT

AB 928/SB 888 – Registration Periods for Motor Vehicles

Rep. Spiros

Committee on Transportation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Ericka Braatz 6-1182

Currently, the registration period for vehicles is effective the date of renewal until one year later. For example, if you renew on October 10, 2021, the registration will only be in effect until October 10, 2022. This bill looks to create a monthly series system for the registration of motor vehicles under 8,000 pounds; the standard cars, vans, trucks, and SUVs that are driven. This means that there would be 12 registration periods, beginning on the first day of the month and ending on the last day of the 12th month.

Additionally, the bill addresses the transfer of registration plates between vehicles to allow plates to be used on another vehicle of the same type and under 8,000 pounds, whether or not the weight is the same as the previous vehicle.

Committee Chair's Summary of Proceedings

Prepared by: Patrick Gehl, 266-3404

Fiscal Effect:

Indeterminate – Costs may be absorbed within agency budget

Supporter's Message:

- This bill simplifies the registration process for Wisconsinites and will reduce late fees charged to vehicle owners

Opponent's Message:

- Vehicle owners should be smart enough to follow the law as currently written [hypothetical]

Key Supporters:

Wisconsin Department of Transportation, Rep. Spiros, Sen. Petrowski

Key Opponents:

None

Committee Vote(s):

Passed Assembly Committee on Transportation 13-0
Passed the Senate Committee on Transportation and Local Government 5-0
Passed Senate by voice vote.

AMERICAN OVERSIGHT

AB 943 – Cleanup of Electronics Recycling Waste

Rep. Edming

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Tyler Longsine (6-7506)

5R Processors was an electronics recycling company formerly based in Ladysmith, Wisconsin. Investigations of this company by the Department of Natural Resources and the U.S. Environmental Protection Agency discovered a great deal of illegal activity on the part of 5R, including the storing of hazardous waste at unpermitted facilities, transporting hazardous waste without the required manifest, and concealing these violations from state regulators. This led to the federal prosecution of several of the company's leaders.

While most of the legal matters surrounding 5R have been resolved, what remains is millions of pounds of electronic waste without a responsible party to clean it up. The electronic waste from 5R is currently contained in several semi-trailers and warehouse facilities located in Rusk, Price and Washington Counties. Unless we do something it could fall to local governments and local taxpayers to clean this waste up which they cannot afford to do.

AB 943 directs the DNR to contract with a third party for the removal and proper disposal of this waste using not more than $2.5 million in segregated funds from the environmental management account. At the end of fiscal year 2022, the balance in this account is projected to be $33.8 million. It is also important to note that because segregated funds are being used there is no impact on the federal maintenance of effort requirements.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

Fiscal not yet submitted

Supporter's Message:

- Allows the DNR to contract a third-party with proper capabilities to clean up electronic waste using no more than $2.5 million in segregated funds from the environmental management account.
- Allows recovery of orphaned property and structures to be used in a productive manner (property and buildings are currently unusable).
- The company responsible has no assets and there is no realistic possibility that the restitution ordered in the criminal cases would be enough to address the sites in question.
- DNR does not have an existing program that can pay for the removal of this hazardous material.

Opponent's Message:

- Some may argue that this is not a responsibility of the state and those at fault need to find a way to pay for it.

Key Supporters:

Rep. James Edming - 87th Assembly District, Rep. Rick Gundrum - 58th Assembly District, Sen. Duey Strobel - 20th Senate District, Sen. Jerry Petrowski 29th Senate District, Rep. Beth Meyers - 74th Assembly District, Andy Alvarado - Rusk County, Alan Christianson - City of Ladysmith, Nicholas Trimner - Price County, Jay Shambeau - City of West Bend

Key Opponents:

No registered opponents

Committee Vote(s):

Passed the Assembly Committee on State Affairs: 13-0

AMERICAN OVERSIGHT

AB 948/SB 893 – Nonprobate Transfers of Farming Implements at Death.

Rep. Macco

Committee on Agriculture

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Reanna Rasmussen 6-0485

Under current Wisconsin law, the probate process uses the courts to assist in the transfer of assets after an individual's passing. Probate process itself lasts for a minimum of 90 days, but in most cases it takes longer. During the court proceedings, beneficiaries do not have legal rights to the titles of their equipment until a final determination is made.

AB 948 will allow farmers to pass their farming implements through the "Transfer on Death" (TOD) process which eliminates the unnecessary court process, fees and delays. This process does not exempt the assets from any taxes or effect liens on the farming implements.

AA1 to AB 948 removes the reference to recording the document with the Register of Deeds as this is not a requirement for TODs and requires at least one of the witnesses on the TOD be a "disinterested witness".

Committee Chair's Summary of Proceedings

Prepared by: Reanna Rasmussen 6-0485

Fiscal Effect:

Indeterminate decrease in fees collected by courts.

Supporter's Message:

- Farming equipment is expensive and easily triggers the requirement for the assets to go through probate.
- By allowing farming implements to be transferred through Transfer on Death (TOD) the process will be simplified for our farmers.
- Beneficiaries do not have to wait an extended time before being able to manipulate their farming assets as they see fit through TOD.
- TODs are already used to transfer 401ks, IRAs, farmland, etc.
- Transferring through a TOD does not affect any tax requirements or liens.

Opponent's Message:

- None heard in committee

Key Supporters:

Representative Macco, Senator Ballweg, Concordia University, Cooperative Network, Dairy Business Association, Midwest Food Products Association, Midwest-SouthEastern Equipment Dealers Association, Wisconsin Agri-Business Association, Wisconsin Association of Professional Agricultural Consultants, Wisconsin Cattleman's Association, Wisconsin Cheese Makers Association, Wisconsin Corn Growers Association, Wisconsin Farm Bureau Federation, Wisconsin Farm Credit Services, Wisconsin Farmers Union, Wisconsin Pork Association, Wisconsin Potato and Vegetable Growers Association,

AMERICAN OVERSIGHT

Passed Senate by voice vote.

AMERICAN OVERSIGHT

AB 950 –Disabled parking privileges on University of Wisconsin System campuses.

Rep. Penterman

Committee on Colleges and Universities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jon Minneci; 266-9650

Current law allows individuals with a disability that impairs their ability to walk to obtain special license plates or an identification card from the DOT, entitling them to a legal exemption from meter payments and time limits on municipal parking spots that have at least a 30 minute time limit.

However, it has been brought to our attention that University of Wisconsin campuses are exempt from honoring the DOT-issued disability identifications for veterans and other disabled people under current law. Because of that, they are able to charge fines for parking in spots that are covered by these legal exemptions if they are located off-campus. These potential parking fines create confusion and unnecessary hurdles for disabled individuals, who must get duplicative permits from the campus or get a ticket.

This bill extends current law legal exemptions for people with disabled parking plates or special identification cards to include parking spots on University of Wisconsin System campuses. This bill is supported by the Wisconsin Chapter of the Paralyzed Veterans of America.

Committee Chair's Summary of Proceedings

Prepared by: Michael Moscicke; 266-7500

Fiscal Effect:

- No fiscal estimate

Supporter's Message:

- Protects disabled individuals from getting double charged for parking in handicap parking spots.
- Current law creates confusion and unnecessary hurdles for disabled individuals with potential additional fees.

Opponent's Message:

- Does not allow the UW-System collect extra fees.

Key Supporters:

- Rep. William Penterman, Senator Dale Kooyenga, Wisconsin Chapter of the Paralyzed Veterans of America

Key Opponents:

- No one is registered against.

Committee Vote(s):

- Assembly Committee on Colleges and Universities passed the Assembly bill on a 13 – 0 vote on February 17, 2022 with universal bi-partisan support.

AMERICAN OVERSIGHT

AB 953 –Floodplain and Shoreland Mapping

Rep. Penterman

Committee on Environment

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jon Minneci; 266-9650

In 1979, Chapter 87.31 of the Wisconsin State Statutes created the floodplain and shore land mapping assistance program to provide counties, cities, and villages with financial assistance to produce adequate topographical mapping of floodplain and shore land areas and to delineate floodplain and floodway boundaries.

Since that time, floodplains and shore lines have been well documented. There is no longer a need for the program, and as a result, the program sunset in February of 1986.

This bill simply deletes a subchapter from our statutes that has not been in use since 1986. We should delete statutes that are no longer useful.

Committee Chair's Summary of Proceedings

Prepared by: Adam Tobias; 266-5350

Fiscal Effect:

- No fiscal estimate

Supporter's Message:

- This section of the state statutes that has been statutorily sunset and unused since Feb. 8, 1986.
- It is simply good government to prune the statutes and administrative code of inoperative provisions.

Opponent's Message:

- If the legislature chose to revive this program, the existing language would be useful

Key Supporters:

- Reps. Penterman, Kuglitsch, Allen, Magnafici, Skowronski, Tusler, Dittrich and Moses; and Sen. Duey Stroebel

Key Opponents:

- No one is registered against.

Committee Vote(s):

- On Feb. 22, 2022, the Assembly Environment Committee recommended passage of AB 953 by a vote of 8-0.

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000259

AB 957 – WI Data Privacy Act

Rep. Zimmerman

Committee on Consumer Protection

Session Date:2/23/2022

Author's Summary of the Legislation

Prepared by: Mark Austinson 6-1526

AB 957 will provide Wisconsin consumers with the tools to manage how their personal data is collected, stored, transferred, and utilized.

Specifically it will allow consumers to:

- Ask any data collector what personally identifiable information they have on the consumer
- To whom have they shared or sold that information
- Request the collector delete the data on file and/or opt out of processing the data
- Have the ability to correct inaccurate data

The bill applies to any company that does business in Wisconsin or markets their products to WI consumers and either a) controls or processes data of at least 100,000 consumers or b) controls or processes data of at least 25,000 consumers and derives over 50% of their gross revenue from the sale of personal data.

Companies that fall under the law would be required to provide a notice to their consumers about the law and how consumers can exercise their rights provided by the law. As amended, consumers would be able to request their data from a collector once a year free of charge. Consumers would not be able to make repeated requests for their data.

Committee Chair's Summary of Proceedings

Prepared by: Mark Austinson 6-1526

Fiscal Effect:

- DOJ: $874,000 & 7 FTEs for enforcement

Supporter's Message:

- Some email providers have admitted that they scan/analyze communications and store consumers:
  - Name
  - Phone number
  - Pictures
  - Payment information
  - YouTube comments
  - Spreadsheets/documents
  - Browsing history
  - Activity on 3rd party sites & apps
  - GPS location information
  - And more…..
- Massive troves of data are collected, analyzed, and often used to persuade and manipulate consumers
- This data belongs to the consumer and they should have a say in how it is used
- Data is now the most valuable asset for many companies
-

Opponent's Message:

- This issue should be addressed at the federal level
- Administrative compliance will be costly and burdensome
- The bill doesn't go far enough to empower consumers

Key Supporters:

- AFP

AB 961 – Financial Privacy Act

Rep. August

Committee on State Affairs

Session Date: 6/16/2021

Author's Summary of the Legislation

Prepared by: Jason Rostan 6-1190

Since taking office, the Biden Administration has attempted on many occasions to enact a requirement that banks submit their customer's financial information to the IRS in order to find individuals cheating on their taxes. Their initial proposal applied to anyone making $600 in deposits or withdrawals. While the Biden Administration has amended this proposal, this is still an extreme overreach by the federal government when they have a number of other ways to get this information.

Assembly Bill 961 would prohibit state-chartered financial institutions from releasing this information to the IRS.

Assembly Amendment 1 would only allow the release of this information in response to a federal subpoena.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- This bill prevents federal overreach and blocks the IRS from obtaining financial information
- Almost everyone has transactions of $600 this would give the IRS access to an unnecessary amount of information on citizens

Opponent's Message:

- Which law would the financial institutions follow if the if the Biden Administration enacts a similar requirement?
- This bill creates conflicting state/federal laws and put financial institutions in tough spot.

Key Supporters:

Rep. August
Sen. Felzkowski
WI Bankers Assn. →

Key Opponents:

No registered opponents

AB 984 – Objective UW admissions

Rep. Wittke

Committee on Colleges and Universities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Michael Moscicke, 266-7500)

AB 984 This bill requires that University of Wisconsin System institutions establish and use only objective admissions criteria in making undergraduate student admissions determinations, and requires each institution to publish such criteria on its admissions website.

Committee Chair's Summary of Proceedings

Prepared by: Michael Moscicke 266-7500

Fiscal Effect:

N/A

Supporter's Message:

- The admissions process for our public universities should not be shrouded in secrecy.
- Decisions about who earns the privilege to attend a public university should be made in a fair and transparent manner.
- The admissions process currently utilized by University of Wisconsin System institutions permits individual judgement calls about applicants to be made without public oversight, potentially allowing discrimination already illegal under current law to occur without any chance of being discovered.

Opponent's Message:

- A totally transparent and objective admissions system may enable some individuals to game the system.

Key Supporters:

UW applicants

Key Opponents:

UW-Madison
UW System

Committee Vote(s):

Passage recommended by Committee on Colleges and Universities, Ayes 8, Noes 5.

AB 991 – TID Number 1 in the Village of Withee

Rep. Jesse James

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Victoria Casola, 6-9172

This bill would increase the maximum life and extend the tax increment allocation period for the Tax Incremental District Number 1 in the Village of Withee. The initial TID was created in 1996 and set to expire in 2019, but was extended by 3 years until 2022 due to a Technical College extension. This bill would extend the allocation period to 33 years after the TID's creation, allowing collection for another ten years (2032), and allow the Village of Withee enough time to recover from their current deficit.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 9-9443

Fiscal Effect:

No state effect
Local effect: Increase revenue (permissive)

Supporter's Message:

- TID allows the village to recover from a deficit of $600,000
- It would be difficult for a small village to overcome such a large deficit without this TID

Opponent's Message:

- Authors must provide letters of support from stakeholders (which is standard practice for TID extension)

Key Supporters:

Rep. James
Sen. Bernier
Everett Lindgren – Village President

Key Opponents:

State Affairs Democrats.

Committee Vote(s):

AMERICAN OVERSIGHT

AB 994 – Certification Requirements for Building Contractors

Rep. Spiros

Committee on Housing and Real Estate

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Ericka Braatz 6-1182

This bill updates provisions of 2005 Wisconsin Act 200 to provide more clarity to current law and administrative rules and improve on the current standards for single family building contractors.

This bill requires that the 12 hours of initial training on financial responsibility for building contractors include a section on accounting, lien law, ethics, and best business practices. Additionally, it requires that 4 of the 12 hours of continuing education every two years includes instruction on construction laws and codes and contracts, liability, and risk management.

Finally, the bill requires those who provide continuing education courses to submit to DSPS a selection of test questions related to the courses and verification that individuals completed the courses.

AA1 to the bill just changes the terminology in the bill to allow "online" instruction instead of just "live virtual." This was an oversight in drafting, as some of the current online courses use a question and answer format in them. The original version of the bill would not have allowed these courses.

Committee Chair's Summary of Proceedings

Prepared by: Alex Braaten, 266-1194

Fiscal Effect:

DSPS

State effect: increase costs – may be possible to absorb within the agency's budget (one time cost of $5,930)

Supporter's Message:

- This bill provides more clarity to current law and administrative rules, and improves the current standards for single-family building contractors in Wisconsin.
- This bill adds categories for eligible credits to focus on key areas of need that will improve the knowledge base of building contractors.

Opponent's Message:

- Government mandating certain courses for building contractors is unnecessary

Key Supporters:

Rep. John Spiros - 86th Assembly District
Wisconsin Builders Association

Key Opponents:

No opposition

Committee Vote(s):

Passage as amended recommended by Assembly Committee on Housing and Real Estate: **8-0**

AB 1007 – Professional Opinions

Rep. Moses

Committee on Constitution and Ethics

Session Date: 2/22/2022

Author's Summary of the Legislation

Prepared by: Maryjane Behm 6-7683

Many healthcare providers across the state have been threatened to lose their jobs and licenses if they express an opinion that is different than their employer's and affiliated health system. Healthcare providers should be able to express their professional opinions and advice to patients without retribution.

Assembly Bill 1007 protects healthcare providers by prohibiting any healthcare entity and credentialing board within the Department of Safety and Professional Services from punishing or discriminating in any form against medical professionals who express their professional opinion to a patient or individual.

Protecting the first amendment rights of all people including our healthcare professionals is essential and will provide the best possible healthcare to citizens of Wisconsin.

Committee Chair's Summary of Proceedings

Prepared by: William Neville 6-3363

Fiscal Effect:

N/a

Supporter's Message:

- Healthcare providers should be able to express their professional opinions and advice to patients without retribution.
- The foundation of scientific inquiry involves the questioning and challenging of hypotheses and conclusions before, during, and after the research process. Free inquiry is integral to scientific progress and discovery.
- If all healthcare providers have the same opinions pushed by a corporation or government entity, there is no point in having doctors.

Opponent's Message:

- The bill is unnecessary; we already have 1st Amendment rights to protect freedom of expression.
- This will could lead to extensive litigation
- A business' reputation is more important than an individual's right to speak out as they wish.

Key Supporters:

Rep. Moses, Sen. Nass, Rep. Sortwell, Healthcare professionals: Judith Jolly, Holly Ottesen

Key Opponents:

AB 1019 – Wausau TID Bill

Rep. Patrick Snyder

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Sam Hope (266-0654)

This bill provides an exemption from the 12% rule for tax incremental districts (TID) for TID 13 in the City of Wausau. This TID is being amended to include a substantial redevelopment project of the former site of the Wausau Center Mall in the downtown Wausau. The City initially believed when the mall was demolished that amending an existing TID to incorporate the project would not require an exemption to the 12% rule. However, a 2021 change in DOR equalized value estimates from 2020 changed the City's value to make the project exceed the 12% rule. This change in estimates occurred after demolition of the mall was complete. The City has 2 TIDs (that comprise 46% of the overall TID value) set to expire in 2024 and 2025. This exemption to the 12% rule for the City will allow the significant redevelopment project to go forward.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- Allows for multi-million-dollar investment into a demolished shopping mall property
- Revitalize this area in downtown Wausau, making the property useable, and bring more tourism to the area

Opponent's Message:

- No registered opponents

RE: Summary of Law Revision Committee Bills

DATE: February 21, 2022

This memorandum provides summaries of bills introduced by the Law Revision Committee as 2021 Assembly Bills 1020 to 1033. The Law Revision Committee is a permanent, statutory committee appointed by the Joint Legislative Council. Among other duties, state law tasks the Law Revision Committee with considering "minor substantive remedial measures" proposed by state agencies. [s. 13.83 (1) (c), Stats.] The committee considers draft legislation proposed by agencies and votes on whether to introduce the drafts as bills authored by the Law Revision Committee.

Assembly Bills 1020, 1021, and 1022 (Legislative Reference Bureau)

Assembly Bills 1020, 1021, and 1022 are Legislative Reference Bureau (LRB) corrections bills that make technical revisions to the statutes, including renumbering of provisions, grammatical changes, addition of titles, correcting cross-references to modified or repealed sections, and similar revisions and reconciliations.

Assembly Bill 1023 (Department of Financial Institutions)

Assembly Bill 1023 was proposed as remedial legislation by the Department of Financial Institutions (DFI), and makes the following changes to laws administered by the department.

Obsolete References to State Entities

The bill eliminates obsolete references to the Wisconsin Credit Union Savings Insurance Corporation, which was removed from state law in 2006. The bill also replaces an obsolete reference to the Commissioner of Banking with a reference to the Division of Banking within DFI to reflect current law.

Obsolete References to Federal Entities

The bill eliminates obsolete references to several federal entities formerly involved in financial institution insolvency: Federal Home Loan Bank Board; U.S. Office of Thrift Supervision; Resolution Trust Corporation.

The bill also removes a reference to the National Credit Union Administration as a promulgator of regulations under a specified federal law. That agency no longer promulgates rules for credit unions.

AMERICAN OVERSIGHT
WI-REP-22-0206-A-000268

Under the bill, a credit union would be required to comply with the applicable federal regulations regardless of which federal agency promulgated them.

Obsolete Reference to Former Federal Index

The bill repeals a reference to a national average mortgage contract rate previously calculated by the Federal Home Loan Bank Board.

ASSEMBLY BILL 1024 (DEPARTMENT OF JUSTICE)

Assembly Bill 1024 was proposed as remedial legislation by the Department of Justice (DOJ), and makes the following changes to laws administered by the department.

Deletion of Fingerprint Images

The bill requires DOJ to delete from its records, rather than return to the individual, the fingerprint images of any individual who is arrested or taken into custody and subsequently released without charges or who is cleared of the offense through court proceedings. This change reflects the transition from the use of fingerprint cards to the use of electronic images.

Electronic Delivery of Decisions

The bill allows the Division of Hearings and Appeals to deliver a copy of its decisions to the parties involved via electronic mail, if the parties consent. This method of delivery is an alternative to personal delivery or mail.

ASSEMBLY BILL 1025 (DEPARTMENT OF MILITARY AFFAIRS)

Assembly Bill 1025 was proposed as remedial legislation by the Department of Military Affairs (DMA), and makes the following changes to laws administered by the department.

Obsolete Appropriation

The bill repeals an obsolete appropriation for the purchase of emergency response equipment. The authority for DMA to make the purchase was valid in fiscal year 1989-90.

Terminology Updates

The bill changes statutory references from "material safety data sheets" to "safety data sheets" in order to reflect current practice by DMA. It also changes statutory references from "head of emergency management services" to "head of emergency management" to provide consistency throughout the emergency management statutes.

ASSEMBLY BILL 1026 (DEPARTMENT OF TRANSPORTATION)

Assembly Bill 1026 was proposed as remedial legislation by the Department of Transportation (DOT), and makes the following changes to laws administered by the department.

Obsolete Vehicle Weight or Size Permit Fees

The bill eliminates certain fees for permits issued by DOT for overweight or oversize vehicles to operate on a highway where the fees are no longer in effect.

AMERICAN OVERSIGHT

Motorcycle and Moped Registration Weight Limit

The bill eliminates a reference to the curb weight of a motorcycle or moped for purposes of the vehicle registration fee. The definitions of "motorcycle" and "moped" in current law do not refer to the weight of those vehicles and DOT does not consider weight when processing registrations for those vehicles.

Obsolete Motor Vehicle Emission Control Equipment Grant Program

The bill eliminates an obsolete grant program for the purchase and installation of oxidation catalyst mufflers on school buses. DOT has expended all program funds and closed the program.

Highway Route Reference Inaccuracies

The bill updates several incorrect references to highway routes along which specific motorist information signs may be erected.

ASSEMBLY BILL 1027 (DEPARTMENT OF EMPLOYEE TRUST FUNDS)

Assembly Bill 1027 was proposed as remedial legislation by the Department of Employee Trust Funds (ETF), and makes the following changes to laws administered by the department.

Named Survivor vs. Beneficiary

The bill replaces the term "beneficiary" with "named survivor" in statutes relating to annuity options for the Wisconsin Retirement System (WRS). The bill corrects references to "beneficiary" that were not changed to "named survivor" when other such references were changed in 1997 to distinguish between a named survivor who will receive a benefit and a beneficiary.

Qualified Domestic Relations Order

The bill repeals an obsolete provision regarding the division of a WRS account pursuant to a domestic relations court order. ETF was last authorized to accept such a court order on May 2, 2018.

Purchase of Creditable Service

The bill replaces the term "participant" with "participating employee" in a statute relating to purchasing creditable service for purposes of the WRS. The bill clarifies that only active employees are eligible to purchase creditable service.

Creditable Contributions and Service

The bill removes obsolete language that has not had effect since 1989. The bill clarifies that an individual may not earn contributions and creditable service during a period in which the individual receives an annuity from the WRS based on the individual's own service as a participating employee.

Internal Revenue Code Citation

The bill aligns state statutory language with provisions in the Internal Revenue Code (IRC). Specifically, the bill aligns statutory language with the IRC by distinguishing between expenses reimbursable under two different employee-funded reimbursement plan types governed by the IRC.

AMERICAN OVERSIGHT

Updated References

The bill updates references to the director of the former Office of State Employment Relations (OSER) to refer instead to the Division of Personnel Management (DPM). OSER was eliminated by 2015 Wisconsin Act 55 and its functions were transferred to DPM.

Alignment With Federal Law

The bill brings state law into compliance with the federal Setting Every Community Up for Retirement Enhancement (SECURE) Act of 2019 regarding the age at which required minimum distributions must begin. The bill replaces specified ages with a reference to the ages set under the relevant IRC section, so that future federal changes will be automatically reflected in state law.

ASSEMBLY BILL 1028 (DEPARTMENT OF SAFETY AND PROFESSIONAL SERVICES)

Assembly Bill 1028 was proposed as remedial legislation by the Department of Safety and Professional Services (DSPS), and makes the following changes to laws administered by the department.

Updated References

The bill changes references throughout the statutes from "enhanced nurse licensure compact" to "nurse licensure compact" to reflect current practice in referencing that interstate compact.

Hard Copies of Technical Standards

The bill repeals a requirement that state agencies keep a hard copy of standards established by technical societies, which are incorporated by reference in administrative rules, on file at the agency. Instead, under the bill, a hard copy will only have to be kept on file at the LRB.

ASSEMBLY BILL 1029 (DEPARTMENT OF CORRECTIONS)

Assembly Bill 1029 was proposed as remedial legislation by the Department of Corrections (DOC), and makes the following changes to laws administered by the department.

Oath of Office

Under current law, wardens or superintendents at adult correctional institutions are required to take an official oath of office. The bill requires that a warden or superintendent of a juvenile correctional facility must also take the oath of office.

Bond of Office

The bill eliminates the requirement for wardens and superintendents to execute an official bond, which is a promise to repay any financial damages arising from an official's failure to faithfully discharge his or her duties of office. This bond requirement was created when wardens and superintendents were directly responsible for purchases and managing funds for their institutions, which is no longer the case.

AMERICAN OVERSIGHT

ASSEMBLY BILL 1030 (DEPARTMENT OF HEALTH SERVICES)

Assembly Bill 1030 was proposed as remedial legislation by the Department of Health Services (DHS), and makes the following changes to laws administered by the department.

Incorrect Reference to Federal Regulation

The bill fixes an incorrect cross-reference to a federal definition of "institute of mental diseases".

Alignment With Federal Law

The bill eliminates a requirement that home health services must be provided within a patient's home to be reimbursable under the Medical Assistance program. This change makes state law consistent with a federal Center for Medicare and Medicaid Services rule.

Also, within a grant program for independent living centers to provide nonresidential services to individuals with severe disabilities, the bill aligns the definition of "independent living core services" with the relevant definition in federal law.

ASSEMBLY BILL 1031 (STATE HISTORICAL SOCIETY)

Assembly Bill 1031 was proposed as remedial legislation by the State Historical Society (SHS), and makes the following changes to laws administered by the society.

References to the Wisconsin Historical Museum

The bill clarifies whether various statutory references to "the museum" mean the existing museum located at 30 N. Carroll Street in Madison, or a new museum yet to be constructed. The bill also clarifies that admission fees collected at the new museum may be used to support the operations of the museum in addition to its public programming.

Duties of the SHS

In addition to fixing grammatical errors in current law, the bill modifies the duty of SHS to preserve the memory, exploits, perils, and adventures of early pioneers so that the duty applies also to early residents.

Annual Report by SHS Affiliates

The bill expands the contents of the annual report that an affiliate of SHS must file with the SHS in order to match the content required in the report the affiliate must file with DFI.

Clarification of Authority to Charge Fees

The bill clarifies that SHS may charge "fees" to defray, in part, the cost of materials and services that it furnishes to schools and teachers. Current law authorizes SHS to make "charges."

ASSEMBLY BILL 1032 (DEPARTMENT OF ADMINISTRATION)

Assembly Bill 1032 was proposed as remedial legislation by the Department of Administration (DOA), and makes the following changes to laws administered by the department.

AMERICAN OVERSIGHT

Management of University of Wisconsin System Information Technology

The bill clarifies that DOA does not manage the information technology portfolio of the University of Wisconsin System (UWS). The bill reflects a change in state law in 2003 that excluded UWS from DOA information technology oversight.

Outdated Terminology

In the context of DOA's management of the information technology portfolio of the executive branch, the bill modernizes terminology by replacing "information technology development projects" with "information technology projects."

Vendor Negotiations

The bill repeals a requirement that DOA negotiate with private vendors to facilitate the purchase of computers and educational technology by school teachers for their private use. DOA has not utilized this program in recent years.

ASSEMBLY BILL 1033 (DEPARTMENT OF REVENUE)

Assembly Bill 1033 was proposed as remedial legislation by the Department of Revenue (DOR), and makes the following changes to laws administered by the department.

Repeal of Obsolete Provisions

The bill repeals obsolete provisions relating to individual income tax additions and subtractions, tax incremental financing districts, the capital improvement fund for schools, individual and corporate income tax credits, and a sales and use tax exemption.

Use of Red Ink on Assessment Rolls

The bill repeals the requirement to use red ink to revise assessment rolls, in order to more accurately reflect the revision process related to electronic assessment rolls.

Repeal of Unconstitutional Language

The bill repeals language that was ruled unconstitutional by the Wisconsin Supreme Court in 2011 relating to local board of review proceedings. This repeal was inadvertently omitted from prior remedial legislation (2017 Wisconsin Act 358) repealing related language also ruled unconstitutional in the same 2011 case.

Sales Tax Exemption Certificates

The bill repeals the requirement that a purchaser present a sales tax exemption certificate when purchasing certain items that are exempt from the sales tax. The items are: insulin furnished by a pharmacist to a person for the treatment of diabetes of a human being; patient health care records; and farm-raised fish, if sold to a registered fish farm or to a person authorized to stock fish.

Please let us know if we can provide any further assistance.

AMERICAN OVERSIGHT

AB 1060 – Participants in clinical research trials

Rep. Gundrum

Committee on Small Business Development

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: John Graber, 4-8486

Academic institutions, health care organizations, and private contractors conduct clinical trials on human volunteers. Recently, DWD has decided to classify clinical research trial participants as employees and not independent contractors subjecting them to minimum wage, worker's compensation laws, and unemployment insurance. This legislation ensures this is not the case. Under this bill, individuals who receive a stipend or compensation for participating in a clinical research trial are not considered employees of the entity conducting a trial for the purposes of the minimum wage law, worker's compensation law, and unemployment insurance.

Committee Chair's Summary of Proceedings

Prepared by: Leah G. Peterson (266-3534)

Fiscal Effect:

- None

Supporter's Message:

- Participants in clinical research trials should not be treated as employees of the clinical research facility.
- Current state statute defines who is an independent contractor, and who is an employee of a business
- Companies that need the clinical research done on their products require that participants in clinical research trials are independent contractors, and not employees of the clinical research facility.
- This legislation needs to be passed so that clinical research facilities in Wisconsin are not at a competitive disadvantage
- The legislature passed a bill last session that clarified caddies are independent contractors, and not employees of the golf course.

Opponent's Message:

- No one registered or spoke in opposition to the bill.

Key Supporters:

- Spaulding Clinical

Key Opponents:

- No one registered or spoke in opposition to the bill.

Committee Vote(s):

Passed the Assembly Committee on Small Business Development, **9-4**, (party lines, Representative Tranel & Representative Vining not voting)

AMERICAN OVERSIGHT

AB 41/SB 49 – Opioid & Methamphetamine Database

Rep. Jon Plumer

Committee on Substance Abuse & Prevention

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Patrick Gehl, 608-266-3404

AB 41 directs DOA work with an outside company to develop and implement a database system to track opioid and methamphetamine use in the state of Wisconsin. DOA would work with other state agencies, such as DOJ and DHS, to collect this date and centralize it in one location. Agencies working with DOA would be able to access the data, while also conforming to privacy requirements. Additionally, DOA would submit an annual report on its findings to JFC.

Database systems like this have been successfully implemented in other states. It is a valuable tool in the fight against addiction and aids health care providers, law enforcement, and even the legislature in accomplishing their job by providing accurate insights into the ongoing addiction epidemic.

Assembly Amendment 2, adopted by JFC, deletes appropriation created in the bill and instead requires the agencies to submit an RFP for the project before requesting the necessary funds from JFC through a passive review.

Committee Chair's Summary of Proceedings

Prepared by: Michael Hoffman, 608-266-9172

Fiscal Effect:

This bill provides one-time funding of $1,500,000 in FY22.
One-time cost for DSPS is $200,092.95, which likely could not be absorbed within the agency's operating budget.
DOC estimates the cost at $272,000, for new contractors to implement this system with ongoing costs after implementation.
There is no state fiscal effect for DHS under this bill.
There is an indeterminate state fiscal effect for DCF under this bill.

Assembly Amendment 2 removed the appropriation from this bill

Supporter's Message:

- This bill will help law enforcement and health agencies in the state better understand how to combat the epidemic of opioid use.
- Opioid overdose deaths increased 38% in the year 2020, this bill would help track and analyze use and overdoses throughout the state

Opponent's Message:

- None

Key Supporters:

Representative Plumer, Senator Testin, SAS, WI Troopers Association, Columbia County Sheriff's Office

Key Opponents:

No one testified or registered in opposition.

Committee Vote(s):

Passed in the Assembly Committee on Substance Abuse and Prevention: **9-0**
Joint Committee on Finance: **14-1 (Stroebel)**

AMERICAN OVERSIGHT

SB 213 – Actions for violations of election law

Rep. Rob Brooks

Committee on Elections, Election Process Reform, and Ethics

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Christopher J. Schaefer, 608-267-2369

Senate Bill 213 establishes a pathway for expedited judicial relief for parties involved in election law disputes and expands election law enforcement options.

Currently, anyone who is not a district attorney or the attorney general, must file an election law violation complaint with the Wisconsin Elections Commission. The commission then has a five-day period in which to review the complaint and determine whether or not an investigation is warranted. Final disposition may take weeks. Only after the commission finishes its investigation, may a party with a complaint take their complaint to the judicial system.

Senate Bill 213 leaves intact the complaint and investigation process at the Elections Commission for those who choose that option. The bill eliminates the mandate stipulating that all complaints be routed through the commission before a legal remedy is sought in court.

Second, Senate Bill 213 expands the number of district attorneys who may prosecute election law violations.

Senate Amendment 2: Venue is proper in a county that is contiguous to the county where the violation occurred. Under the amendment, only certain violations of election law may be prosecuted by an adjacent county. The expansion does not apply to violations relating to election notices or campaign finance.

Assembly Amendment 1:, Modifies the venue provision created by the bill to eliminate any conflict with existing law regarding the place of trial and allows venue to be considered proper and gives the DA in the county where the violation occurred 60 days to take action. If no action is taken, the violation may be charged by a neighboring DA

Committee Chair's Summary of Proceedings

Prepared by: Christopher J. Schaefer, 7-2369

Fiscal Effect:

The bill does not have a fiscal estimate and there is no fiscal impact to the state.

Supporter's Message:

- The bill provides citizens with another avenue for filing election law violation complaints.
- Due to WEC's three-three partisan split, complaint resolution is difficult.
- The current system is simply a barrier for citizens to have their day in court.
- A "soft on crime" DA may choose not to prosecute election law violations. These violations may affect the votes of neighboring counties.
-

Opponent's Message:

- The bill allows forum shopping for certain violations of the law.
- Going around the existing WEC complaint process may clog our court system

AMERICAN OVERSIGHT

• A politically motivated DA may choose to prosecute minor election law violations in a neighboring county. •
Key Supporters:
State Representative Rob Brooks; Senator Duey Stroebel; Opportunity Solutions Project; Wisconsin Family Act; Wisconsin Institute for Law and Liberty.

AB 576/SB 335 – Lake Sturgeon Raffle

Rep. Thiesfeldt

Committee on Sporting Heritage

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill authorizes Sturgeon for Tomorrow, Inc. (SFT) to request that DNR annually transfer up to 15 carcasses of lake sturgeon culled from state fish hatcheries to be awarded as prizes in a raffle. The bill requires the organization to preserve the carcasses for taxidermy and mounting and to provide to each person who receives a carcass a certificate of transfer. The bill also requires the organization to use all proceeds from these raffles to promote sturgeon management, conduct sturgeon habitat management, promote sturgeon reintroduction, or further sturgeon research.

Sturgeon for Tomorrow help preserve, protect and enhance the sturgeon resource of the Winnebago System. That group is now the largest citizen advocacy group for sturgeon **in the world** and has raised and donated over $900,000 for sturgeon research, management, and education since its inception.

Assembly Amendment 1: When the bill was introduced, it was under the assumption that the DNR was still following old practices of automatically culling a certain percentage of the lake sturgeon in their hatcheries. The DNR let us know this is no longer the case, so removing the word "culled" from the bill just allows the DNR to transfer up to 15 sturgeon to SFT without using the language of the culling practice no longer happening at fish hatcheries.

Committee Chair's Summary of Proceedings

Prepared by: Allison M. Hetz 6-7015

Fiscal Effect:

DNR- Indeterminate

Supporter's Message:

- This will help promote sturgeon spearing and fundraising efforts for Sturgeon of Tomorrow, Inc.

Opponent's Message:

- Not clear on who is paying for taxidermy, not a needed government expense

Key Supporters:

Sturgeon of Tomorrow

Key Opponents:

N/A

Committee Vote(s):

The Committee on Sporting Heritage voted 12-1 on Amendment 1 and 13-0 to recommend passage
Passed the Senate Committee on Sporting Heritage, Small Business and Rural Issues: 5-0

AB 327/SB 339 – Capital Loss Deducting

Rep. Sortwell

Committee on Ways and Means

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Zach Pfaffenbach, 6-9870

Assembly Bill 327 increases the maximum amount that individuals may claim as the net capital loss deduction to the same amount currently allowed under federal law.

Under current law, an individual subtracts his or her capital losses from capital gains when computing the amount of gain subject to Wisconsin income tax. If the capital losses exceed the capital gains, the individual may use up to $500 of the net loss to offset ordinary income, thus reducing the amount of ordinary income subject to tax. If the individual's net capital loss exceeds $500, the individual may carry forward the excess to future years and offset up to $500 of ordinary income each year until the net loss is used up. Federal law similarly allows individuals to offset net capital losses against ordinary income and carry forward the excess. However, the maximum annual offset under federal law is $3,000, which is reduced to $1,500 for married individuals who file separate returns.

This bill increases the maximum annual offset for Wisconsin income tax purposes from $500 to $1,500 for married individuals filing separately and $3,000 for all other individuals. The bill applies to taxable years beginning after December 31, 2022.

Assembly Amendment 1 – This amendment was requested by the Department of Revenue (DOR) for technical purposes on how the capital losses are carried forward in future taxable years.

This legislation will align state tax law with federal tax law, which will eliminate confusion for taxpayers and put more money in the pockets of the middle class and our seniors.

Committee Chair's Summary of Proceedings

Prepared by: Reanna Rasmussen 6-0485

Fiscal Effect:

- DOR projects revenue would decrease by $4.3 million in FY 2023, and $17.1 million annually beginning in FY 2024.
- Revenue loss will decline over time.
- DOR: one-time costs of $11,130.

Supporter's Message:

- The taxpayers can write off up to $3000 already on their federal tax returns.
- Uniformity between state and federal law will eliminate confusion for taxpayers.
- This bill will reduce the buildup of excess capital losses.

Opponent's Message:

- None heard in committee

Key Supporters:

Representative Sortwell, Senator Kooyenga, NAIOP Wisconsin, Wisconsin Farm Credit Services, Wisconsin Independent Businesses, Wisconsin Institute of Certified Public Accountants, Wisconsin Realtors Association, Wisconsin Startup Coalition.

Key Opponents:

AB 340/SB 341 – Real Estate Appraisers Limitations

Rep. Tittl

Committee on Housing and Real Estate

Session Date: **2/23/2022**

Author's Summary of the Legislation

Prepared by: Steve Hall 6-0315

AB 340 limits the time a lawsuit can be brought against a real estate appraiser to five years following the date of the report. It does not apply to an appraiser who commits fraud or concealment in the performance of their duties. Currently, there is no statute of limitations specifically addressed to real estate appraisal services.

Committee Chair's Summary of Proceedings

Prepared by: Alex Braaten, 266-1194

Fiscal Effect:

None

Supporter's Message:

- The new time limit aligns with the Uniform Standards of Professional Appraisal Practice record-keeping requirements, which permit appraisers to destroy records after five years if state law allows.
- The current limit makes it difficult for appraisers to defend themselves, because it begins at the time of discovery rather than the time of performance.
- Some law firms have been buying the rights to sue appraisers in relation to defaulted mortgages, knowing that many appraisal firms, especially smaller ones, may settle rather than incur legal fees to fight these cases.
- A five-year time period is more than enough time for a party to bring a lawsuit against an appraiser.

Opponent's Message:

- No one voiced opposition or registered against.

Key Supporters:

Sen. Jacque; NAIOP (the Commercial Real Estate Development Association); Wis. Realtors Association

Key Opponents:

None

Committee Vote(s):

AMERICAN OVERSIGHT

AB 320/SB 344 – Interior Designers

Rep. Cody Horlacher

Committee on Regulatory Licensing Reform

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Steve Knudson [6-5715]

Wisconsin has a voluntary registration option for qualified interior designers. This registration requires industry recognized credentialing and rigorous standardized testing on topics like building codes, fire safety, and construction regulation. Wisconsin's registered interior designers, however, must still jump through an additional bureaucratic hoop to be able to independently utilize their knowledge and qualifications in the state. This bill will allow Wisconsin to join 11 other US states, Washington DC, and Puerto Rico in eliminating a costly procedural step that registered interior designers must go through to be able to conduct business – paying for and obtaining an architect's approval of the interior designer's completed, non-structural design drawings.

Assembly Amendment 2 made a number of changes to the bill, including the creation of an examining board for the regulation of registered interior designers, changes to continuing education requirements for registered interior designers, and changes to the scope of practice of interior design.

Assembly Substitute Amendment 1 was negotiated by the stakeholders after executive action was taken on the bill on June 22, 2021. Assembly Substitute Amendment 1 generally retains the structure of AB 320 as amended by AA2, but makes the following changes to the bill: (1) it modifies the definition of "practice of interior design," (2) it modifies and expands the list of things that are *not* included in the definition of "practice of interior design," (3) it modifies the definition of "interior technical submission," (4) it creates a new requirement that an interior design entity must receive a certificate or authorization, (5) it modifies requirements for use of the term "registered interior designer," and (6) it increases the number of hours of continuing education interior designers must take in the subject area of safeguarding the public's health, safety and welfare.

Allowing registered interior designers to approve their own drawings will enable them to deliver a project faster, hire fewer outside consultants, and compete for more interior, nonstructural projects. The option to engage an interior designer at a more competitive cost is a financial benefit to clients. Nationally, nearly 83% of interior design firms are small businesses of four or fewer employees and a vast majority of these businesses are women and/or minority-owned. This sensible change will allow these small businesses to grow and compete in the construction industry.

Committee Chair's Summary of Proceedings

Prepared by: Zach Pfaffenbach, 6-9870

Fiscal Effect:

DSPS: One-time costs of $4,138.29 for policy development that can be absorbed in the agency's budget.

Supporter's Message:

- This bill provides Wisconsin Registered Interior Designers (WRID) the practice right to seal and submit design and construction drawings for non-structural interior environments.
- The interior designer profession is evolving and the statutes should be modified to that end.
- This legislation provides a level playing field. Are you aware that licensed structural engineers have the ability to stamp interior build-out drawings in Wisconsin? However, a Registered Interior Designer, expert in this sector, educated, successfully passing an 11 hour nationally recognized exam, currently does not.

Opponent's Message:

- With the substitute amendment, the interested parties (Interior Designers/Architects) have come to an agreement on the bill.

Key Supporters:

- American Society of Interior Designers, Americans for Prosperity, Badger Institute, International Interior Design Association, Wisconsin Realtors Association.
- Neutral: American Council of Engineering Companies of Wisconsin, Mechanical Contractors Association of WI, NAIOP Wisconsin, Plumbing and Mechanical Contractors Association of MKE and Southeastern WI, Sheet Metal & Air Conditioning Contractors' Association of MKE, and WI Society of Architects

Key Opponents:

City of Milwaukee, Alliance for Regulatory Coordination, Wisconsin State Fire Chiefs Association

AMERICAN OVERSIGHT

AB 526/SB 533 – Housing Authorities

Rep. Kuglitsch

Committee on Housing and Real Estate

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Garrett Huffman 267-5158

Mixed-income/mixed-use developments when applied by a housing authority to a targeted area can combat concentrations of poverty, increase the property tax base, add opportunities for upward mobility, and help residents achieve financial independence within the neighborhood.

Assembly Bill 526 authorizes Milwaukee's public housing authority to use mixed-income/mixed-use developments that serve persons of low income but also mix market-rate tenants within the same project.

Mixed-income/mixed-use developments are an important tool for public housing authorities to reduce the need for government funding by cross-subsidization (rents from higher-income tenants that help reduce the subsidy required to provide housing to low-income residents).

The Milwaukee Housing Authority will gain the option to include commercial tenants, like a grocery store or office property, and share residential space between low-income and market-rate tenants.

Assembly Bill 526 also raises Wisconsin's procurement threshold to $50,000. A higher threshold in Wisconsin reduces overhead and aligns with current HUD procurement standards, allowing Public Housing Authorities to put more dollars into affordable housing.

In discussions with stakeholders, Assembly Amendment 1 was added to the bill at the request of the Wisconsin Realtors Association (WRA) and the National Association of Industrial and Office Properties (NAIOP) that limit the effect of the bill to the city of Milwaukee and only properties owned by the Housing Authority prior to October 1, 2021.

Committee Chair's Summary of Proceedings

Prepared by:

Fiscal Effect:	DOA – No State Fiscal Effect and indeterminate local effect, DOR – No State Fiscal Effect and indeterminate local effect, DWD – costs may be absorbed within the agency's budget and indeterminate local effect to local governments. Housing Impact Note available here.
Supporter's Message:	AB 526, as amended by Assembly Amendment 1, allows a housing authority in a 1st class city to operate mixed developments, including mixed-use properties, like an apartment complex with a grocery store on the ground floor. It also includes mixed-income housing, where both low and moderate incomes could be served in the same housing complex. Assembly Bill 526 also raises Wisconsin's procurement threshold to $50,000.
Opponent's Message:	No opposition

AMERICAN OVERSIGHT

AB 538/SB 535 – Liability Exemption for Previously owned Eyeglasses

Rep. Paul Tittl

Committee on Judiciary

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Steve Hall; 6-5831

Assembly Bill 538 provides an exemption for the provision of previously owned eyeglasses. Organizations such as the Lions Club collect used eyeglasses, sort, wash, and ship them for eyeglass missions across the world for distribution to people who may not otherwise be able to have them because of lack of affordability.

Under current law, these organizations do not distribute eyeglasses in Wisconsin, because they could face liability for doing so. The bill provides a liability exemption such as Oregon has enacted.

Committee Chair's Summary of Proceedings

Prepared by: Kathryn E. Heitman; 6-5831

Fiscal Effect:

No State or Local fiscal effect.

Supporter's Message:

- This allows for an exemption of liability for donated eyeglasses.

Opponent's Message:

- Regardless of whether an organization is charging for glasses, they should be responsible for ensuring the product they are distributing will not cause harm to the recipient.

Key Supporters:

Rep. Paul Tittl; Sen. Andre Jacque; Beyond Vision; Wisconsin Academy of Ophthalmology

Key Opponents:

None

AB 566/SB 566 – ULC Business Omnibus Bill

Rep. Ron Tusler

Committee on Financial Institutions

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Kathryn E. Heitman; 6-5831

This bill is a comprehensive update which combines the Revised Limited Partnership Act and Revised Limited Liability Company Act, which were promulgated by the Uniform Law Commission (ULC) in 2001 and 2006, and have been adopted in twenty-four and twenty-two other states, respectively.

This bill will create a more conducive environment for limited partnerships and limited liability companies to form and operate in Wisconsin. Establishing uniformity in this area of law, similar to the Uniform Commercial Code, is good for the Wisconsin economy and businesses, promotes stability, and stimulates the free flow of commerce and business between states

Committee Chair's Summary of Proceedings

Prepared by: Dan Hubert; 6-3007

Fiscal Effect:

If passed, the bill would both save costs and increase state revenues. Currently it costs about $133K to print and mail notices to business. DFI estimates it would cost $370K for a one-time IT system set up; thus, postage and print savings would not be realized until the fourth year following the bill's implementation. Since the bill increases fees for certain entity filings, DFI estimates an additional $498k in revenue, less an estimated one-time IT cost of approximately $43k.

Supporter's Message:

- Modernizes all five chapters of business types
- Adopts the ULC's Revised Limited Partnership Act which has been passed by 24 other states
- Adopts the ULC's Revised Limited Liability Company Act which has been passed by 22 other states
- This also modernizes Wisconsin's LLC statutes which have not been modernized since its inception

Opponent's Message:

- No registered or spoke against the bill

Key Supporters:

- Representative Ron Tusler - 3rd Assembly District
- Senator Eric Wimberger - 30th Senate District
- Libby Snyder - Uniform Law Commission
- Joe Boucher - WICPA & State Bar Business Law
- Tom Nichols - WICPA & State Bar of Wisconsin
- Andrew Parrish - Wisconsin State Bar Business Law Section

Passed Senate by voice vote.

AMERICAN OVERSIGHT

AB 588/SB 573 – Electric Vehicle Charging Stations

Rep. VanderMeer

Committee on Energy and Utilities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jesse Johnson 266-8366

Assembly Bill 588 would ensure that private entities can make EV charging stations available to the public and allow a private entity to charge a fee for the use of an EV charging station without having to be classified and regulated as an electric utility.

EV usage is growing, as evidenced by registrations from the state's Department of Transportation (DOT). Additionally, in a cursory review of industry headlines, one can easily learn more about some of the steps that major automotive manufacturers have taken recently and continually to address the EV market. The market is here with consumers, however, current statutes are silent regarding allowing entities to charge for EV charging stations and station services. Private organizations and entities should be able to charge for stations and services similar to any other good or service, understanding that this is, in fact, a unique service and as mentioned, a novel concept as far as our statutes are concerned.

ASA2, as adopted by the Committee on Energy and Utilities, incorporates a number of points brought up during and after the public hearing on the bill from committee members and stakeholders/interested parties, and primarily removes provisions in the original bill allowing for public entities to offer EV charging station services to the public and charge for the service.

AA2 to ASA2, as adopted by the Committee on Energy and Utilities, primarily broadens the definition of municipalities in the substitute amendment to refer to "political subdivisions," and also inserts a provision brought forward by an Assembly GOP member of the Energy and Utilities Committee that requires any state funds allocated to a public utility for the purposes of installing an EV charging station to first be approved by the Joint Committee on Finance (JFC) and a 13.10 meeting.

AA3 to ASA3, as adopted by the Committee on Energy and Utilities, brought forward by the Chair of the Committee on Energy and Utilities, was requested by the State DOT and makes a change to the substitute amendment regarding state agencies controlling EV charging stations.

The bill, as amended and approved, allows for political subdivisions to offer EV charging services 'internally' for their own fleet vehicles, or partner with a private entity to offer EV charging services to the public, but not to compete directly with private entities/organizations to offer those services to the public. Additionally, there are some grandfather provisions in the bill, as amended and approved, that are intended to cover existing political subdivision EV charging stations (reference: ASA2 to AB 588, Nonstatutory provisions, page 5, lines 18-21).

Committee Chair's Summary of Proceedings

Prepared by: Garrett Huffman at 267-5158

Fiscal Effect:	No State Fiscal Effect Reported
Supporter's Message:	AB 588 exempts electric vehicle charging station owners and operators from public utility regulations and authorizes that owner or operator to charge a fee for the use of the charging station. EV drivers who do not have access to a charging outlet at home or work rely on public charging outlets at convenient locations—AB 588 expands EV locations.

AMERICAN OVERSIGHT

	As electric vehicles and vehicle charging become more common there is a need to allow charging vendors to bill consumers by the amount of energy consumed.
Opponent's Message:	AB 588 authorizes taxpayer-funded electric vehicle (EV) charging stations.
ASA2 prevents local governments from providing EV charging to the general public.	
AB 588 will significantly limit the use of solar + storage EV charging equipment in Wisconsin.

AMERICAN OVERSIGHT

AB 721/SB 695 – Tribal Charter Schools

Rep. Steffen

Committee on Education

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: ***Nick Esbeck (6-5840)***

Under current law, multiple entities are permitted to establish and operate charter schools. Out of all of the authorized entities, only tribal colleges are restricted to a specific number of schools. This legislation will lift the cap on the number of independent charter schools a tribal college may authorize. Current law allows tribal colleges to authorize a maximum of six charter schools between the only two tribal colleges in Wisconsin, the College of Menominee Nation and the Lac Courte Oreilles Ojibwa Community College.

The Office of Educational Opportunity in the UW System, a technical college district board, and the county executive of Waukesha County currently are able to establish and operate charter schools, but do not face the same numerical restrictions. Most authorizers are restricted by geographical boundaries.

This legislation aims to eliminate the arbitrary cap on the number of schools that a tribal college is allowed to authorize, and creates parity between tribal colleges and other authorizers of charter schools in addition to expanding school choice and educational opportunity across Wisconsin.

Committee Chair's Summary of Proceedings

Prepared by: Katie Scott, 6-3156

Fiscal Effect:

Indeterminate.

Supporter's Message:

- Independent charter schools have proven to be extremely successful.
- It's great to have charter schools as more options for families and students.
- This bill simply puts equity into the statutes, as tribal colleges are the only authorizers for independent charter schools that are capped at the number of schools they may authorize.

Opponent's Message:

- Opponents to the bill do not support the authorization of any additional independent charter schools.

Key Supporters:

La Coute Oreilles, Lake Country Classical Academy, Menominee Tribe

Key Opponents:

WEAC, Association of Wi School Administrators, WI Association of School Boards,

Committee Vote(s):

AB 721 passed committee on a partisan **9-4** vote.
Passed the Senate Committee on Education: 3-2
Passed Senate: 19-13

AMERICAN OVERSIGHT

AB 865/SB 812 – Regulation of certain electric fences

Rep. James

Committee on Criminal Justice and Public Safety

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Victoria Casola, 6-9172

This bill would define a battery-powered, electric security fence and limit the authority of political subdivisions in the regulation of these fences. A battery-powered electric security fence would be defined as an electric fence that: is equipped with an energizer that produces a direct current and is powered by a commercial storage battery, produces an electric charge on contact, is connected to a system that signals law enforcement, includes warning signage, is surrounded by a perimeter fence, and does not exceed in over ten feet in height or two feet higher than the perimeter fence. This bill also prohibits political subdivisions from requiring any permit for the installation of these fences except for an alarm system permit and prohibits individuals from locating this type of fence on residential property.

Committee Chair's Summary of Proceedings

Prepared by: Ericka Braatz 6-1182

Fiscal Effect:

None

Supporter's Message:

- This would standardize the requirements for these types of fences across the state.
- These are only for businesses, not residential houses.
- Used by many businesses to help prevent theft of items which have to be stored outdoors. Examples include auto salvage and auction lots, trucking companies, shipping and distribution hubs, landscapers, and other business with vehicle fleets.
- These electric fences must have an exterior fence, which is still regulated by the municipality. If that fence is in compliance then this legislation kicks in.
- This bill will help with the issues of permitting in municipalities across the state, where some are not sure how to regulate these electric fences and there can be different requirements depending on the municipality.
- 13-14 other states already have this type of legislation and 7-8 more states are pending.

Opponent's Message:

- We shouldn't create carve-outs for one type of company.

Key Supporters:

Amarok LLC

Reps. James, Cabral-Guevara and Sen. Wanggaard

Key Opponents:

City of Milwaukee

Committee Vote(s):

Assembly Amendment 1 to Assembly Bill 865 passed: 14-0
Passage as amended of Assembly Bill 865: 12-2 (Sortwell, McGuire)
Passed the Senate Committee on Judiciary and Public Safety: 7-0
Passed Senate by voice vote.

AMERICAN OVERSIGHT

AB 889/SB 829 – Non-homestead Foreclosure Equity Theft

Rep. Zimmerman

Committee on Housing and Real Estate

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Mark Austinson 6-1526

Currently, under Wisconsin's property tax enforcement laws, if a property owner is unable to pay their property taxes, counties are authorized to seize the property and sell it to pay off the property taxes owed. Upon selling the property, the county must determine the net proceeds of the sale, which is equal to the sale price minus the unpaid taxes as well as any costs the county incurred that are associated with the tax delinquency, foreclosure, and sale of the property.

However, after paying off the property taxes that are owed, along with the costs associated with the foreclosure and the sale, the county may then keep any net proceeds unless the property is the former owner's homestead. For all other types of property (commercial, farm, vacant land, etc.), the county makes an oftentimes substantial profit and is allowed to keep those proceeds, regardless of how minor the tax delinquency was.

This bill will require counties to pay any net proceeds in a non-homestead property tax foreclosure sale to the former owner of the property, as is currently required for homestead properties.

An amendment introduced by the authors will make a minor change requested by the county treasurers and will also put in place a provision stating that the original property owner forfeits their remaining equity if they fail to respond to the county and request their equity within 5 years of the foreclosure.

Committee Chair's Summary of Proceedings

Prepared by: Alex Braaten 6-1194

Fiscal Effect:

- DOR: No state fiscal effect. The local cost is indeterminate

Supporter's Message:

- Under the Fifth Amendment of the U.S. Constitution, the government is prohibited from taking property for a public purpose without just compensation. This protection applies to all property, whether real or personal. Keeping the remaining equity in a person's property after a foreclosure sale is exactly the type of government "taking" that the constitution was created to prevent.
- Foreclosure equity theft magnifies financial hardships: Generally, property owners fail to pay their property taxes and go into foreclosure due to some catastrophe in their lives such as a major medical issue, divorce, job loss, or death in the family. Keeping the equity in an owner's property makes such financial hardships even worse and could permanently prevent the owner from making a financial recovery.

Opponent's Message:

- City of Milwaukee and WCA's main concerns overlap. They state that while there are occasions where there is remaining equity after a foreclosure sale of a non-homestead property, in the vast majority of cases, the city/county loses money on these properties and never gets reimbursed for selling them/razing them/bringing them up to code. It appears that the city and some counties have come to rely on the instances where there is remaining equity to pay for the work they are doing to manage the properties they lose money on.
- Additionally, the City of Milwaukee is concerned that tracking the expenses for individual non-homestead properties will be administratively burdensome.
- Counties are concerned that the burden of contact falls on them and in the majority of instances, the individual cannot be reached and they often don't know who it is or where to send the notice. They would like the county to permanently acquire the equity after giving the owner only 60 days, not 5 years.

AB 893/SB 833 – Grants for Teaching College Courses in High Schools

Rep. Murphy

Committee on Education

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill eliminates the sunset date for the Early College Credit Program and allows high school students to continue to benefit from the funding that has already been set aside. The Early College Credit Program awards grants to assist high school teachers in covering tuition expenses for courses taken to meet the minimum qualifications necessary to teach dual enrollment courses.

Assembly Amendment 1 to the bill ensures independent charter schools will be able to participate in the Early College Credit Program.

Committee Chair's Summary of Proceedings

Prepared by: Katie Scott, 6-3156

Fiscal Effect:

None.

Supporter's Message:

- The Early College Credit Program offers students the ability to earn college credit while in high school. This can result in a student graduating college faster, entering the workforce earlier, and extending their earnings potential over a lifetime.
- Establishing positive relationships between high school students and Wisconsin colleges also increases the chance that highly skilled and academically talented students will complete their college education in our state and remain here after they graduate.
- This bill helps students with the high cost of a post-secondary education, and it can help Wisconsin's current labor shortage that is being experienced across all sectors of the economy.

Opponent's Message:

- We first need to look at the program's finances and budget before we look at this bill.
- Schools first need a pipeline of educators credentialed to take on these courses as opportunities become available.

Key Supporters:

WI Association of School Boards, Elmbrook Schools, UW System, WI Technical College System Boards Association, WI Technical College System, School Administrators Alliance, WI Association of Independent Colleges and Universities, DPI, WiRSA, WMC, WI Council of Religious and Independent Schools

Key Opponents:

None.

AMERICAN OVERSIGHT

AB 894/SB 835 – Land Use Issues

Rep. Robert Wittke

Committee on Local Government

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Terri S Griffiths 266-0731

Assembly Bill 894 addresses land use and boundary issues that both the Wisconsin Towns Association and the Wisconsin League of Municipalities had on their respective lists to fix, and they agreed on the language for this bill.

- Closes an incorporation loophole. (arises from varying standards for incorporation, annexation and boundary agreements)
- Allows municipalities to annex town territory across county lines with landowner's unanimous consent.
- Clarifies that municipal extraterritorial land division and zoning powers do not apply to municipal islands or corridor/strips. (e.g. "balloon on a string")
- Prohibits municipalities from using condemnation (outside municipal boundaries) to acquire blighted properties for the purpose of transferring property to 3rd party developers; further requires municipalities to provide written findings before commencing condemnation.
- Increases the time where no interim zoning ordinance may be enacted affecting the same area from two years to five years after the expiration of the ordinance or the extension.

This bill will benefit the working relationships of local governments and create more efficiencies as they work together.

Committee Chair's Summary of Proceedings

Prepared by: Nolan Bursch, 6-7502

Fiscal Effect:

The state and local fiscal impact is indeterminate, but is anticipated to be minimal. DOA believes they will be able to absorb costs within current budget and position authority.

Supporter's Message:

- This bill is a compromise to resolve issues related to the municipal incorporation process, extraterritorial powers of municipalities, and municipal annexation powers.
- These changes promote consistency and cooperation between neighboring local governments.

Opponent's Message:

- The state shouldn't place limits on the amount of time to elapse before a municipality can expand.

Key Supporters:

- Reps. Wittke, Callahan, Moses, Mursau, Novak, J. Rodriguez, Snyder, Spreitzer, Swearingen and Zimmerman; Sens. Petrowski, Ballweg, Bewley, Cowles, Jacque and Marklein.
- League of Wisconsin Municipalities, Wisconsin Towns Association, and the Wisconsin Farm Bureau Federation.

Key Opponents:

No one testified or registered in opposition to the bill.

Committee Vote(s):

Passed Senate Transportation and Local Government **5-0**
Passed Assembly Local Government **9-0**

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000297

AB 917/SB 865 – Homeowners' Associations

Rep. Rob Brooks

Committee on Housing, Commerce, and Trade

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Christopher J. Schaefer, 608-267-2369

A homeowners' association is a subdivision organization that creates and enforces rules relating to properties within its control. Generally, when a property is purchased within a homeowners' association, the property owner and property automatically become association members and are required to pay dues.

At this writing, homeowners' associations are not regulated under Wis. Stat. Ch.703 as condominiums and, therefore, are not impacted by the obligations of the aforementioned statute. Condominiums and homeowners' associations are separate and distinct, governed by different rules and statutes. The distinctions between these two entities are difficult to ascertain. Accordingly, legislation was drafted to provide distinction and establish statutes specific to homeowners' associations.

This is a consequential first step towards delineating the clarity between homeowners' associations and condominiums and cogent guidelines for owners of these properties to abide by.

Amendment 1 to Senate Bill 865/Assembly Bill 917 does each of the following:

- Directs the Wisconsin Department of Financial Institutions to establish a process for allowing corporate and homeowners' associations filings to occur simultaneously, thus streamlining the registration process.
- Makes the meeting notices and changes to bylaws available only to association members, not the general public
- Establishes a $25 cap on the amount a homeowners' association may charge the property owner for copies of the rules and regulations/covenants and restrictions. If the homeowners' association possesses a website, the aforementioned documents must be published therein.

The bill is a much-needed first step in the process of demarcating the dissimilarities between condominiums and homeowners' associations. Perhaps more important, the bill intends to meliorate the living conditions of homeowners' association residents by making rules, regulations, and guidelines more procurable.

Committee Chair's Summary of Proceedings

Prepared by: Christopher Schaefer, 7-2369

Fiscal Effect:

According to the Department of Financial Institutions, there would be a one-time cost of $411,884 to develop, test, and implement a system with the necessary filing, searching, security, and administrative functions to enable the department to effectively administer this legislation.

Supporter's Message:

- Senate Bill 865 allows buyers to better understand any obligations, limitations, or fees associated with purchasing a property in an HOA.
- The bill makes regulations more transparent to property owners and prospective buyers.
- Senate Bill 865 creates a reasonable statutory framework for HOAs for consumers to gain information.

Opponent's Message:

- The bill should have contained provisions giving greater regulatory authority to HOA management companies.
- With limited time and ability to enforce their rights, HOA owners simply do not pay and leave it to their members to pick up the costs or force the association to bring a small claims action which could cost as much as the amount of the debt.

AMERICAN OVERSIGHT

• HOAs lack any substantive lien priority rights. These should be considered in future legislation.
Key Supporters:
Representative Rob Brooks; Senator Joan Ballweg; Wisconsin Land Title Association; Wisconsin Realtors Association
Key Opponents:
There were not any groups that registered or spoke in opposition to the bill.
Committee Vote(s):
Passed **5-0** by the Senate Committee on Housing, Commerce and Trade on February 9, 2022. The bill was approved **32-0** by the Wisconsin State Senate on February 15, 2022 and Passed as amended: **6-2** by the Assembly Committee on Housing and Real Estate on February 16, 2022.

AMERICAN OVERSIGHT

AB 919/SB 867 – Shoreland Zoning Clarification

Rep. Swearingen

Committee on Transportation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Taylor Corkran 7-9443

The legislative intent of 2015 Wisconsin Act 55 was to set a scale of 35 feet of viewing corridor for every 100 feet of shoreline frontage – effectively ensuring a 35% viewing corridor. Some counties, however, have interpreted this statute to mean any property with less than 100 feet of frontage is not entitled to any viewing corridor at all.

AB 919 would allow the buffer zone to contain a viewing corridor with a width along the shoreline of no less than 35 feet or 35% of the shoreline frontage, whichever is greater. Assembly Substitute Amendment 1 alters the 35-foot provision to 10 feet but maintains the 35% provision. This was crafted in the attempt to further clarify and ensure that the language accomplishes the desired outcome.

In addition, we have been asked to address an issue relating to bridges within a shoreland zoning setback area. Currently, bridges are not included in the list of structures that are permitted within the 75-foot area.

AB 919 would add county and municipal bridges that have been issued a permit by the Department of Natural Resources to the list of allowable structures.

Committee Chair's Summary of Proceedings

Prepared by: Patrick Gehl, 6-3404

Fiscal Effect:

None

Supporter's Message:

- This bill clarifies shore land zoning requirements for properties with less than 100 feet of shoreline property. Additionally, it allows local governments to build bridges within the shore land zoning setback if they receive DNR permits.

Opponent's Message:

- This issue does not need legislation to provide clarification [hypothetical]

Key Supporters:

Wisconsin Realtors Association, Oneida County, Rep. Swearingen

Key Opponents:

None

Committee Vote(s):

Passed as amended by the Assembly Transportation Committee, 13-0
Passed as amended by Senate Natural Resources and Energy Committee, 3-2

AMERICAN OVERSIGHT

WI-REP-22-0206-A-000300

AB 928/SB 888 – Registration Periods for Motor Vehicles

Rep. Spiros

Committee on Transportation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Ericka Braatz 6-1182

Currently, the registration period for vehicles is effective the date of renewal until one year later. For example, if you renew on October 10, 2021, the registration will only be in effect until October 10, 2022. This bill looks to create a monthly series system for the registration of motor vehicles under 8,000 pounds; the standard cars, vans, trucks, and SUVs that are driven. This means that there would be 12 registration periods, beginning on the first day of the month and ending on the last day of the 12th month.

Additionally, the bill addresses the transfer of registration plates between vehicles to allow plates to be used on another vehicle of the same type and under 8,000 pounds, whether or not the weight is the same as the previous vehicle.

Committee Chair's Summary of Proceedings

Prepared by: Patrick Gehl, 266-3404

Fiscal Effect:

Indeterminate – Costs may be absorbed within agency budget

Supporter's Message:

- This bill simplifies the registration process for Wisconsinites and will reduce late fees charged to vehicle owners

Opponent's Message:

- Vehicle owners should be smart enough to follow the law as currently written [hypothetical]

Key Supporters:

Wisconsin Department of Transportation, Rep. Spiros, Sen. Petrowski

Key Opponents:

None

Committee Vote(s):

Passed Assembly Committee on Transportation 13-0
Passed the Senate Committee on Transportation and Local Government 5-0
Passed Senate by voice vote.

AMERICAN OVERSIGHT

AB 948/SB 893 – Nonprobate Transfers of Farming Implements at Death.

Rep. Macco

Committee on Agriculture

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Reanna Rasmussen 6-0485

Under current Wisconsin law, the probate process uses the courts to assist in the transfer of assets after an individual's passing. Probate process itself lasts for a minimum of 90 days, but in most cases it takes longer. During the court proceedings, beneficiaries do not have legal rights to the titles of their equipment until a final determination is made.

AB 948 will allow farmers to pass their farming implements through the "Transfer on Death" (TOD) process which eliminates the unnecessary court process, fees and delays. This process does not exempt the assets from any taxes or effect liens on the farming implements.

AA1 to AB 948 removes the reference to recording the document with the Register of Deeds as this is not a requirement for TODs and requires at least one of the witnesses on the TOD be a "disinterested witness".

Committee Chair's Summary of Proceedings

Prepared by: Reanna Rasmussen 6-0485

Fiscal Effect:

Indeterminate decrease in fees collected by courts.

Supporter's Message:

- Farming equipment is expensive and easily triggers the requirement for the assets to go through probate.
- By allowing farming implements to be transferred through Transfer on Death (TOD) the process will be simplified for our farmers.
- Beneficiaries do not have to wait an extended time before being able to manipulate their farming assets as they see fit through TOD.
- TODs are already used to transfer 401ks, IRAs, farmland, etc.
- Transferring through a TOD does not affect any tax requirements or liens.

Opponent's Message:

- None heard in committee

AMERICAN OVERSIGHT

AB 849/SB 900 – Resolving Title Issues of historic filled waterfront property

Rep. Robert Wittke

Committee on Environment

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Terri S. Griffiths 266-0731

Assembly Bill 849 (AB 849) would create a framework to provide certainty surrounding legal title of former lakebed and riverbed land. The need for this legislation is not new as other legislators have worked on it with various stakeholders. AB 849 creates a process for a municipality to review a proposal for the establishment of a Great Lakes shoreline specifically where the shoreline was "filled" prior to December 9, 1977 when no permit was required for permanent alterations, deposits or structure along navigable waters.

Stakeholders and legislators have raised concerns over time as we've worked on AB 849. As a result, key stakeholders worked to clean up uncertainties in the language, to address public access concerns, to simplify the draft to garner support, and to include findings-of-fact for even more clarity as to the intent of the legislature.

ASA 1 to AB 849 makes numerous technical changes and includes findings (nonstatutory) for clarity. Key changes include:

- Limits the scope of the bill relating to certain commercial rivers and harbors by applying it to land located within cities and villages, and specifying only certain river beds and not certain harbor areas included in the bill.
- Allows a record title holder to apply to the municipality for a shoreline determination. The municipality must approve and then submit the request to the DNR.
- Clarifies the role of the DNR in establishing a shoreline as follows: The DNR must adopt the shoreline approved by the municipality (after public notice and comment period) unless substantial evidence is presented indicating land is not upland from the shoreline.
- Prohibits legal action affecting the title by any person, the state, or any local unit of government based on an assertion that the property includes portions of land that may have been submerged beneath a Great Lakes water, if the land has been at an elevation above the ordinary high water mark since December 9, 1977, and the property is not subject to a lake bed grant or a submerged land lease.
- Requires municipalities to determine that the proposed use of the shoreline will provide public access or use of the property

AB 849 as amended by ASA 1 is the result of work by and between the development community and the League of Wisconsin Municipalities. This is a unique coming together of two entities not typically in agreement on land and water use issues.

Committee Chair's Summary of Proceedings

Prepared by: Adam Tobias 266-5350

Fiscal Effect:

The overall fiscal impact of the bill is indeterminate because there is substantial uncertainty related to the amount of projects that will be subject to this legislation. In total, program expenditures are estimated at $1,250 per submittal.

Supporter's Message:

- Creates a process for a municipality to review a proposal for the establishment of a Great Lakes shoreline

AMERICAN OVERSIGHT

- Gives clarity to an issue that has been of concern to entities looking forward to developing land that is no longer submerged.
- The bill includes a “lake section” and a “rivers section” because ownership issues are different for each.
- Provides Great Lakes communities with opportunities to improve contaminated and blighted parcels along the shoreline.

Opponent’s Message:

- The bill violates the Public Trust Doctrine

Key Supporters:

Wisconsin Realtors Association, Wisconsin Land Title Association, Wisconsin Economic Development Association, Wisconsin Builders Association, NAIOP Wisconsin, League of Wisconsin Municipalities and Apartment Association of South Central Wisconsin.

Key Opponents:

Clean Wisconsin, Green Fire Wisconsin, Midwest Environmental Advocates, Sierra Club of Wisconsin and Wisconsin Conservation Voters.

Committee Vote(s):

On Feb. 22, 2022, the Assembly Environment Committee recommended passage of Assembly Substitute Amendment to Assembly Bill 849 by a vote of 7-0 and Assembly Bill 849 as amended by a vote of 6-2.
Passed the Senate Committee on Government Operations, Legal Review and Consumer Protection 3-2
Passed Senate by voice vote.

AMERICAN OVERSIGHT

SB 934 – LAB Election Audit (Pre-Election)

Rep. Barbara Dittrich

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Meagan Matthews (6-8551)

AB 1005 closely follows recommendations made from the Audit Bureau for clerk training, maintenance of voter registration records, and electronic voting equipment. It also takes preventative measures so that the voter disenfranchisement that occured in Milwaukee and Green Bay during the April 2020 elections will not happen again.

- This legislation implements a regular schedule for data to be requested from the Electronic Registration Information Center (ERIC) and makes it clear that said information shall be used by WEC to update state voter rolls.
- Data sharing agreements with the Departments of Transportation, Health Services and Corrections are required to be regularly updated and information about potential changes of address, deaths or felonies are to be shared daily with WEC.
- The recommended practice of pre-testing electronic voting equipment will be required and resulting materials are to be retained for 22 months.
- WEC must promulgate rules for additional clerk training related to certain aspects of electronic equipment usage. Municipal clerks must notify both the county clerk and WEC whenever election equipment is rented.
- Municipal clerks must receive three hours of training before conducting their first election. The governing body of a municipality shall notify WEC of clerk vacancies. If training has not occurred or a vacancy exists too close to an election, the county clerk may step in to run that election.
- Prohibits voting equipment from being connected to the internet
- If a voter is required to wait longer than one hour to cast their ballot on election day, the municipality must take action prior to the next election to reduce wait times.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

DOT- State: Increase costs will not be able to absorb within agency
Local- Indeterminate—fund affected: SEG
ELEC- State: indeterminate—increase costs may be able to absorb within agency
Local: indeterminate—increase costs—units affected: towns, villages, cities, counties, and school districts
Fund affected: GPR

Supporter's Message:

- The courts have ruled that WEC does not have the explicit authority to inactivate voter registrations. We need to clarify that they have this ability
- Comparison of data between state agencies should happen on a regular basis and be acted upon.
- Every voter should be able to cast their vote in less than an hour. Polling places should not be reduced to the level seen in Milwaukee in 2020.
- Prohibiting election equipment from being connected to the internet will enhance voter confidence in elections and protect from any possible interference.

Clerks need to be appropriately trained before administering elections.

-

Opponent's Message:

AMERICAN OVERSIGHT

- We are disenfranchising eligible voters by inactivating their registration if reliable information is received that the voter has moved.
- Clerks may not have time to complete training prior to administering their first election. In some cases, a county clerk may not have the ability to serve in their absence.
- We can address the long lines at the polls through more funding for elections
-

AMERICAN OVERSIGHT

SB 935 – LAB Election Audit: Election Day

Rep. Macco

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Reanna Rasmussen 6-0485

AB 1004 is primarily focused on Election Day topics derived from the items highlighted by the Legislative Audit Bureau's Election Administration Audit and recommendations from the election review performed by the Wisconsin Institute for Law and Liberty.

This legislation ensure that Special Voting Deputies may only be barred from assisting in the voting process due to a public health emergency or an incident of infectious disease when a facility is closed to the public and when the administrator informs the municipal clerk of the closure in writing. In such cases, personal care voting assistants must be appointed, trained and take an oath of office before assisting residents. They may not register residents to vote and must document the assistance given. *LAB-p.54*

The use of private resources for election administration will no longer be allowed. Additionally, contracts that infringe on election administration or transfer duties or power to outside interests are banned. Only trained and sworn election officials will be allowed to assist in counting votes or other election administration responsibilities. *LAB-p.60, WILL-p.115*

Election officials are barred from accepting invalid registrations or rejecting valid registrations and must report any election fraud committed by another official. Paid employees of campaigns, political parties or similar groups may not serve as poll workers.

Absentee ballot certificates must include both the voter and witness's full name, house number, street name, municipality and signature. Clerks must notify the voter of missing information via MyVote and may contact the voter via other means or return the ballot if time permits. They are not allowed to supply missing info themselves. *LAB-p.45, WILL-p.116*

In the case of a natural disaster, ill or incapacitated staff, or physical damage a municipal board of canvassers may recess, but must reconvene as soon as possible. *LAB-p.63*

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- Makes LAB recommended fixes to election procedure
- We need a process to ensure those living in care facilities receive the assistance they need during a public health emergency
- Private funding to administer elections is unacceptable as the donor may choose which communities will benefit the most
- Clear instructions on ballot certificates will reduce the likelihood that errors are made. Only the voter or the witness should be allowed to make changes to their ballot – not the clerk.

Opponent's Message:

AMERICAN OVERSIGHT

- This bill makes it impossible for clerks to do their job. They do not have time to contact every voter over small mistakes
- Prohibiting poll works who are employed by political organizations will only further reduce the pool of eligible poll workers.

SB 936 – LAB Election Audit: Post-Election Day

Rep. Macco

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Reanna Rasmussen 6-0485

AB 1003 is primarily focused on Post-Election topics derived from the items highlighted by the Legislative Audit Bureau's Election Administration Audit and recommendations from the election review performed by the Wisconsin Institute for Law and Liberty.

Formal complaints over election issues must be resolved by WEC within 60 days unless a majority of commissioners vote to extend the deadline. Once resolved, the redacted complaint is to be shared with standing election committees and the legislators representing the location involved. Lawsuits related to possible election law violations by WEC can be filed without first filing a complaint. *LAB-p.99, 100, WILL-p.113*

WEC is to annually provide a description of each formal complaint received along with general counts and summaries of concerns received by staff throughout the year. *LAB-p.99, 100*

This bill builds on current WEC postelection audit practices of hand counting five percent of all reporting units while adding additional requirements to ensure appropriate sampling. The hand-count is to be done during the county canvass. Results will be sent to LAB to review and recommend any necessary improvements to the legislature. Finally, the audit must be completed prior to certification of election results. *LAB-p.84, 85*

In the case of a recount, clerks must print copies of electronically received absentee ballot request forms for review.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

Indeterminate

Supporter's Message:

-
- Ensures election complaints are addressed in a timely manner by members of the commission
- Promotes transparency of complaints
- Codifies a post-election audit procedure

Opponent's Message:

-
- WEC has a procedure for a post-election audit already making this bill unnecessary
- Additional administrative duties related to elections complaints will increase the workload of the commission

No executive action taken in the Assembly – 3-2 vote in the Senate

AMERICAN OVERSIGHT

SB 937 – Indefinitely Confined Voters

Rep. Duchow

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Dan Hubert 266.3007

This legislation restores the original intent of the "indefinitely confined" provisions in state statute. Among other things, the bill does the following:

- Clarifies that "indefinitely confined" status can only be claimed by a voter who is "indefinitely confined and cannot travel independently without significant burden because of frailty, physical illness, or a disability that will last longer" than one year.
- ***SA 2 clarifies the illness is *expected* to last longer than one year***
- Specifies that an outbreak or epidemic does not qualify the voter as indefinitely confined.
- Requires WECcreate a separate application for indefinitely confined status.
- Currently, identification is not required to obtain "indefinitely confined" status. This bill requires proof of identification. If the voter does not have photo ID, a witness must attest to the voter's identity, and the voter must provide the last 4 digits of their Social Security Number (SSN).
- ***SA 1 clarifies that the attestation is for the voter's identity, not the voter's health status***
- ***SA 3 provides that the clerk shall affirm that the elector provided appropriate proof or information.***
- Removes voters from "indefinitely confined" roles automatically if they go to the polls to vote.
- Directs the WEC to facilitate the removal of all "indefinitely confined" voters added between March 12, 2020 and November 3, 2020.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 266.7141

Fiscal Effect:

No agency has submitted a fiscal estimate. The WEC may incur some costs and staff time developing a separate application for indefinitely confined voters, and working with clerks to facilitate the removal of certain voters from the indefinitely confined lists.

Supporter's Message:

- Under current law, voters who claim "indefinitely confined" status do not have to show photo ID, and they are automatically mailed ballots for every election.
- This legislation restores the original intent of the "indefinitely confined" provisions in state statute.
- In March 2020, clerks in Milwaukee and Dane Counties declared all voters in their counties as "indefinitely confined" based on the Governor's Stay at Home Order.
- In its review of the 2020 election, the Legislative Audit Bureau found a massive influx of voters claiming "indefinitely confined" status—an additional 169,901 claiming that status for the first time.
- All told, 220,404 "indefinitely confined" voters cast ballots in the 2020 election, including 48,544 individuals who had not previously voted by methods that required them to have provided photo ID.
- The Wisconsin Supreme Court in *Jefferson v. Dane County* later invalidated the orders from Dane and Milwaukee County, but permitted each individual voter to determine whether they were "indefinitely confined."
-

Opponent's Message:

- Makes it harder for citizens with long-term disabilities to vote.
- The requirement that the disability is expected to last longer than 1 year is arbitrary and has no legal or medical justification; what matters is the current election.

AMERICAN OVERSIGHT

• Will disenfranchise voters who might be well enough to drive to the polls in February, lose the status, and not know they have to reapply for "indefinitely confined" for the next election.
Key Supporters:
Sen. Bernier; Wisconsin Institute for Law and Liberty; Disability Rights Wisconsin; Greater Wisconsin Agency on Aging Resources; League of Women Voters of Wisconsin; Lutheran Office for Public Policy in Wisconsin; WI Coalition of Independent Living Centers; Wisconsin Council of the Blind and Visually Impaired
Key Opponents:

Committee Vote(s):
Senate: Passage as amended recommended by Committee on Elections, Election Process Reform and Ethics, 3-2.

AMERICAN OVERSIGHT

SB 938 – Verifying Citizenship for Voting

Rep. Knodl

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: James Mietus [6-3796]

Assembly Bill 998 requires the Department of Transportation to include a notation on driver's licenses issued to non-citizens that the card is not valid for voting purposes.

The bill also requires the Wisconsin Elections Commission to run validation checks on the list of registered voters against the Department of Transportation's available citizenship data as well as the Department of Homeland Security's Systematic Alien Verification for Entitlements (SAVE) database in order to confirm the citizenship status of individuals who have registered to vote.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran (6-7141)

Fiscal Effect:

A report from the GAB previously estimated that SAVE implementation would cost $1.19 million for start-up and the first five years of operation

Supporter's Message:

- We have documented cases of non-citizens attempting (an succeeding in some cases) to vote
- This requires no new or additional effort on the part of the voter
- Licenses issued to non-citizens are effectively identical to those issued to citizens—by including a notation on the ID, we are helping clerks and poll workers do their job more effectively
- By interfacing with more than one dataset, we decrease the likelihood of eligible voters unintentionally being flagged as ineligible

Opponent's Message:

- The SAVE database was intended to be used to verify eligibility for government entitlement programs, not voting, and has wrongly flagged some voters as ineligible in the past
- Running verification checks on the SAVE database costs fifty cents per query

Key Supporters:

Rep. Knodl, Sen. Darling, Mequon City Clerk

Key Opponents:

League of Women Voters, Common Cause in Wisconsin

Committee Vote(s):

The Senate Committee on Elections, Election Process Reform, and Ethics voted to recommend passage (3-2).

AMERICAN OVERSIGHT

SB 939 – Absentee Ballot Applications, Absentee Ballots, Secure Delivery of Absentee Ballots

Rep. Gundrum

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: John Graber, 4-8486

This bill will create uniformity in the absentee ballot process and establish a more transparent election system.

According to WEC, when applying for an in-person absentee ballot, the ballot certificate may be used as both the certificate and the application. When applying for a mail-in absentee ballot, the individual must complete the form prescribed by WEC before receiving a ballot. This bill will require that the absentee ballot application is separate from the ballot certificate for both in-person and mail-in absentee ballots to create uniformity and eliminate confusion. A clerk issuing a ballot without a proper application is guilty of a Class I felony.

Under current law, those voting through the mail may request that absentee ballots be automatically sent for a calendar year. Further, an individual voting by mail is only required to provide proof of identification when they initially apply for ballots. This bill requires an individual to submit a new request for absentee ballots for each primary and its associated general election. Each request must be accompanied by proof of identification.

Wisconsin law is very clear – ballots shall be mailed by the elector or delivered in person to the municipal clerk. This bill will prohibit ballot harvesting by allowing only the elector, an immediate family member, or an individual designated in writing to return a ballot. An individual violating these provisions is guilty of a Class I felony.

While some municipalities may have the resources to send unsolicited ballot applications to every voter, others may not. This bill will prohibit the mailing of unsolicited mailing of ballot applications by a municipal clerk or the elections commission. Private dollars may be used to send these applications as long as the municipal clerk's address is used as the return address.

WEC's voter registration form allows a voter to check a box stating that they have neither an ID#, SSN#, nor DL# when registering to vote. According to WEC, the clerk would still register a voter if neither of these documents are provided. This bill makes it clear that at least one of these numbers be provided in order to register.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

Indeterminate

Supporter's Message:

-
- Closes voter ID loopholes for mail-in absentee voters
- Clarifies existing law relating to who may return a ballot
- Ensures that every registration includes proof of identification
- Prohibits public funds from being used to mail absentee ballot applications
- Eliminates confusion with mail-in absentee ballot applications vs in-person absentee ballot applications

AMERICAN OVERSIGHT

Opponent's Message:
• Requirements that a individual designated to return a ballot on behalf of a voter be a registered voter is overly burdensome. • Clerks should be able to mail unsolicited ballot applications • We are disenfranchising disabled and elderly voters • A Class I felony for •

AMERICAN OVERSIGHT

SB 940 – Relating to: comparison of voter information maintained by the Department of Transportation.

Rep. Rozar

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Colin Weeks - 608-267-0280

In order to maintain accurate voter rolls, we need to ensure voter data is complete and accurate.

When an individual registers to vote, they provide their name, address, date of birth, and an ID#. This information is then checked against the DOT database. When there is a mismatch, the clerk receives a flag notifying them to correct the information, however, there is no statutory requirement they do so. The LAB audit identified that some clerks do not address these mismatches which remain on voter rolls.

This bill will require WEC to compare each registration with DOT data within 10 days of the registration. If a mismatch occurs in a single field of information and that error is minor or the result of a clerical error, the clerk shall make a correction. If a mismatch occurs in more than one field of data or the discrepancy cannot be corrected with reliable information, the clerk must mail notice to the registrant requesting that they correct their registration. If the registration is not corrected within 30 days, it shall be inactivated.

The bill allows WEC to designate the responsibility detailed above, however, they are ultimately responsible to ensure this process is followed.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

DOT- Indeterminate
ELEC- Indeterminate

Supporter's Message:

- In order to properly maintain voter rolls and remove duplicate registrations, personally identifiable information needs to be accurate
- An individual must be notified before any action is taken to inactivate their registration
- An individual may re-register at the polls if their registration is inactivated due to a significant mismatch of their personally identifiable information
- The clerk is afforded the discretion to fix a registration that is the result of a clerical error or a common name discrepancy (Robert vs. Bob)
-

Opponent's Message:

- An individual could have their registration inactivated through no fault of their own and be unprepared to re-register on election day.

SB 941 – Overseeing the Administration of Elections

Rep. Vos

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jake Wolf, 6-9171

This bill will further bipartisan goals through required legislative oversight of federal actions impacting our elections, enhanced reporting requirements, and viewpoint diversity at the Wisconsin Elections Commission.

Recent executive action directed federal agencies to identify ways to "promote voter registration and voter participation." The ambiguity of this directive calls for proper legislative oversight of any actions by the federal government to intervene in the administration of our elections. Any attempt by the federal government to exercise control through federal funding incentives should also require proper oversight. This bill will require that any federal election guidance or federal funds be passively reviewed by the Joint Committee for the Review of Administrative Rules and the Joint Committee on Finance.

Under current law, clerks are required to submit reports on election statistics to WEC and the county clerk. This bill will expand these requirements to include a reconciliation of ballots requested from the county clerk, the number of ballots cast, and the number of unused ballots. Clerks will also be required to report on additional election statistics such as the number of defective ballots recreated, the number of ballots that were not counted and the reason why they were not counted, and the location of each residential care facility and the number of ballots cast at each facility. These reports will be required to be reviewed by the non-partisan Legislative Audit Bureau for accuracy.

To ensure viewpoint diversity at the Elections Commission, the two existing nonpartisan legal counsel positions will be replaced with partisan legal counsel. These counsel will be appointed by legislative leadership of the two major political parties.

Finally, the bill requires that WEC archive a copy of the registration list each month and retain each copy for 22 months. Due to the dynamic nature of this list, this provision will provide needed context for future reviews of the voter rolls.

Committee Chair's Summary of Proceedings

Prepared by: Jake Wolf 6-9171

Fiscal Effect:

None

Supporter's Message:

- The U.S. Constitution clearly states that elections are administered by the states, not the federal government
- Promoting voter registration and participation is a goal we can all get behind, however, oversight is required to ensure these initiatives are being implemented fairly – not favoring one political party over the other.
- Shifting to partisan legal counsel at WEC will improve the work of the commission by ensuring they hear from both sides before making a decision
- This bill includes a similar provision to legislation introduced in 2009 by democrat legislators required legislative oversight of federal economic stimulus funds
- Additional reporting requirements on election statistics will increase public confidence in our election process

Opponent's Message:

- Bipartisan legal counsel better promote viewpoint neutrality and should be maintained at WEC
- The state should welcome any federal assistance to fund our elections and drive voter turnout

AMERICAN OVERSIGHT

• New reporting requirements on clerks will create an administrative burden to an already overworked profession

AMERICAN OVERSIGHT

SB 942 - State agency compliance with election laws.

Rep. Kevin Petersen

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Office of Rep. Petersen 237-9140

The nonpartisan Legislative Audit Bureau Report 21-19 of October 2021 on Elections Administration shows certain laws were not followed or enforced because the entity or entities in charge did not perform their duties.

Specifically, DOT, DOC, and DHS did not maintain data sharing agreements in accordance with state law. These agreements are used to verify the accuracy of voter rolls by identifying personal information, felony convictions and deceased individuals.

AB 1000 requires the Wisconsin Elections Commission (WEC) to produce a report and the Department of Administration (DOA) to commence a passive review request relating to state agency compliance with election law. The passive review request commences shortly after each April election and automatically expires after 45 days. This process would allow the Joint Finance Committee to reduce funding or FTE positions for WEC, DOT, DHS, or DOC for any violation of election law.

Committee Chair's Summary of Proceedings

Prepared by: Jim Bowers 608-237-9462

Fiscal Effect:	According to the Legislative Fiscal Bureau, the department is not able to ascertain the occurrence of failures unless and until such a forfeit were to occur.
Supporter's Message:	The prospect of the Joint Finance Committee holding the executive branch to account is well established in our statutes. Hopefully this enforcement power is never needed, but the Legislature should be equipped, as a co-equal branch of government, to defend the law.
Opponent's Message:	Reducing position authority or funding for WEC would penalize the staff, not the commissioners who are making the decisions.
Key Supporters:	
Key Opponents:	Common Cause in Wisconsin, League of Women Voters
Committee Vote(s):	During the Executive Session AB 1000 was passed out of committee on a vote. Passed the Senate Committee on Elections, Election Process Reform and Ethics 3-2 Passed Senate by voice vote.

AMERICAN OVERSIGHT

SB 943 – Elections Commission Guidance Documents to JCRAR

Rep. Spiros

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Ericka Braatz 6-1182

This is an accountability bill that requires WEC to provide a weekly update to JCRAR of any guidance documents sent to municipal clerks. By giving JCRAR the ability to review these documents as they come out, they can determine if any of the guidance meets the definition of a rule. Under current law, JCRAR must then inform WEC that they must go through the rule-making process in order to promulgate the rule, which would have the effect of law. If JCRAR determines that the guidance meets the definition of a rule, WEC is required to inform the municipalities that the documents are no longer applicable and are withdrawn.

This bill also requires that WEC include a disclaimer on guidance noting that the document does not have the force of law.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- This bill gives JCRAR legislative oversight over WEC to determine if issued guidance meets the definition of a Administrative Rule
- Allows JCRAR to compel WEC to rescind guidance given to municipalities
- Provides clarity to clerks that guidance documents do not have the force of law

Opponent's Message:

- This will create an additional administrative burden on WEC

AMERICAN OVERSIGHT

SB 945 – Voter Roll Purging through the Prospective Juror Database

Rep. Sortwell

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Zach Pfaffenbach, 6-9870

In the event of a prospective juror being flagged and disqualified due to not being a U.S. citizen or not living in the circuit for which they were called to serve, this bill requires each clerk of circuit court to notify the appropriate county clerk (adjusted in Amendment 1) and the Wisconsin Elections Commission (WEC).

When given notice, WEC is then required to examine the registration list for the respective disqualified juror and remove them if they have voted or are registered to vote and do not have the proper elector or residency qualifications.

To ensure that our voter rolls are clean and free of foreign interference, this legislation will combat any potential dishonesty and maintain the principle that every legal citizen's vote counts.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

CTS: no state effect ; Local effect – indeterminate – Increase costs (permissive)
Units affected: towns, villages, counties
ELEC: State- indeterminate – Increase cost (may be able to absorb) Fund source - GPR
No local effect

Supporter's Message:

- We should utilize all tools at our disposal to ensure our voter rolls only include eligible voters

Opponent's Message:

- An eligible voter could make an error on their juror qualification form and have their registration inactivated.

Key Supporters:

Rep. Sortwell
Rep. Knodl
Sen. Wimberger

Key Opponents:

SB 946 - Whistleblower Protections for Municipal Election Clerks

Rep. Kevin Petersen

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Office of Rep. Petersen 237-9140

To qualify for protection under the statute, an employee must disclose the protected information in writing to their immediate supervisor or to a governmental unit designated by the State of Wisconsin Equal Rights Division before sharing the information with anyone else other than an attorney, collective bargaining representative, legislator, or certain legal authorities.

Federal employees are protected by the Whistleblower Protection Act of 1989 which shields federal government employees in the United States from retaliatory action for voluntarily disclosing information about dishonest or illegal activities occurring in a government organization. Notably, these whistleblower protections do not extend to municipal clerks.

AB 1008 would change this by providing whistleblower protection for municipal clerks who witness and report election fraud or irregularities. Under the bill, no municipal clerk may be discriminated against in regard to employment, including by being discharged, disciplined, or demoted, as a reprisal because the clerk lawfully reported, or is believed to have reported, witnessing what the clerk reasonably believed to be election fraud or irregularities.

Committee Chair's Summary of Proceedings

Prepared by: Jim Bowers 608-237-9462

Fiscal Effect:	None
Supporter's Message:	Clerks who witness election fraud or irregularities should never be afraid to speak up about what they've seen. By protecting clerks that disclose illegal or unethical acts related to an election, like those that happened in Green Bay, we can help ensure that attempts to influence or undermine our elections are revealed before an election.
Opponent's Message:	The bill should be expanded to include the clerk's staff Clerks do not engage in dishonest or illegal activities and therefore this protection is not necessary
Key Supporters:	None
Key Opponents:	None
Committee Vote(s):	During the Executive Session AB 1000 was passed out of committee on a vote. Passed the Senate Committee on Elections, Election Process Reform and Ethics 3-2 Passed Senate by voice vote.

AB 959/SB 969 – Oneida Nation Purple Heart Reservation

Rep. Steineke

Committee on Transportation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Joe Mesec, 7-9251

This simple legislation authorizes the Oneida nation to erect Purple Heart Reservation Signs in a highway right-of-way. AB 959 looks to honor this tradition and remove the administrative red tape to allow for the Oneida Nation to place signs in the right-of-way of a highway, within the boundaries of the reservation, designating Oneida as a Purple Heart Reservation.

This designation raises community awareness of the Oneida Nation's military sacrifices provided to the United States and honors the 15 tribal veterans who have received a Purple Heart. Due to the location of Oneida Nation's Purple Heart Memorial along I-29 and I-41, AB 959 is necessary to provide the legal authority for the signs to be erected.

Assembly Amendment 1 addresses signage on Federal Interstates. Since the Oneida Nation is starting the process with U.S. DOT/FHWA to obtain approval of the Purple Heart Reservation sign to be placed on I-29 and I-41 in the near future. Having exception language in state statute will allow Oneida to move forward immediately if the feds approve on those two highway systems.

Committee Chair's Summary of Proceedings

Prepared by: Patrick Gehl, 266-3404

Fiscal Effect:

- No state or local fiscal effect.

Supporter's Message:

- This bill is an important way to honor the sacrifices of Oneida Nation members in defense of our country

Opponent's Message:

- The state needs to adopt uniform rules for placement of commemorative signage on highways [hypothetical]

Key Supporters:

- Oneida Nation of Wisconsin, Rep. Jim Steineke

Key Opponents:

- None

Committee Vote(s):

Passed Assembly Committee on Transportation 13-0

To: Robin Vos <Rep.Vos@legis.wisconsin.gov>
Subject: Address Gableman's report IN SESSION Now

I want you to immediately **go back into session.**
The Assembly must address Gableman's investigation report NOW!
Re-assert your authority as the legislature, ignore WEC and follow the Law.
You have until April 14th to be in session. As a citizen who pays your salary, I expect you to get back to work. This is of the utmost importance! Nothing is more important than election integrity!
Well over a year has been wasted as you stalledon an investigation of the November 2020 presidential election. This alone is inexcusable. But now to have Gableman's 136 page report and do nothing about it.....even worse!
You obviously are scared of what else will be uncovered,Vos. What was your part in all the happenings of the November 2020 election??? It certainly will be interesting to find out!
I expect you to do whatever is necessary to get the information out of what really happened in November 2020. Gableman gave you proof- a lotof documented proof of all the illegalities that occurred.
The Assembly must come back into session now to directly address Gableman's report, wage a public relations campaign of his findings, put forth legislationand get it on Evers' desk. And don't make the excuse he won't sign it so you think you don't have to do the work you are paid to do.
If the people know the truth, they will urge Evers to sign it. If he doesn't, it will be bad for him in the upcoming November election.
Decertify the votes now. Yes, it CAN be done. Don't make excuses or listen to those who say otherwise just because they liked the outcome of the illegitimate election results. Gableman himself said to decertify. It isa legal pathway.
WEC must be dissolved!They did not follow the law! This cannot be tolerated! WEC issued guidelines contrary to Wisconsin state law. Their motives are indeed suspicious. Confidence must be restored and legitimate results are expected. WEC needs to go for good!
And, Special counsel needs to continue.**We want Gableman to continue his investigation.**The entire truth must be uncovered.**Be sure he gets the funding to continue.**
I'll be waiting to hear your discussions very soon when the Assembly is back in session.

AG Kaul Issues Statement Regarding the Vos-Gableman Report

March 1, 2022

Contact: DOJCommunications@doj.state.wi.us

MADISON, Wis. – Wisconsin Attorney General Josh Kaul released the following statement regarding the report issued today by former Justice Michael Gableman.

"This report is a full-throated attack on our democracy and a truly shocking example of the authoritarian mindset at work.

"The report provides a roadmap for attempting to overturn the will of the voters based on a fringe legal theory. It includes recommendations that would restrict access to voting and make it harder to detect fraud. And it disparages due process and public records requests because they are inconvenient to certain individuals with power.

"The Vos-Gableman investigation will long be remembered as a shameful, deeply embarrassing episode for our state legislature. The Republicans in the legislature who are responsible for this train wreck have an obligation to our democracy to condemn and end this preposterous fake investigation."

Subject: AJR 120
Attachments: (21-5792_1).pdf

I URGE you to **read AJR 120** (attached for your perusal). I have read it.

Representative Ramthun “deserves a hearing”. Note Assembly Rule 61.6 re: privileged resolutions, which AJR120 is:(6) Once a question of privilege is before the assembly, it is subject to debate and to all proper motions. When the question of privilege has been disposed of, the business of the assembly is resumed at the point at which it was interrupted.

There are many things wrong with our current voting system. **MANY laws have been broken.**

We, as Wisconsin citizens need to be able to wholeheartedly trust in our elections. Our Wisconsin Representatives need to put the constituent's at ease. We are currently SEVERELY DIVIDED.

Right now, I personally have no trust in our elections. Many others feel the same way.

As I've said to many people, this is not a Pro-Trump thing, but a **PRO-TRUTH THING!**

Please sincerely consider the attached document & ask yourself what you & your party will do to preserve our freedom, our liberty, and our nation! MANY eyes are upon our state.

People with nothing to hide, hide nothing! REMEMBER....MANY EYES ARE UPON YOU!!!

#EndofStory (Ask Representative Steineke to explain, if need be)

AJR 133 – Constitutional Amendment for Voter ID

Rep. Patrick Snyder

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Sam Hope (266-0654)

This is an amendment to the State Constitution to require valid photographic identification when voting. Under the amendment, the State Legislature would still be able to create exceptions to the requirement in statutes and qualified electors who lack valid identification on elections day would still be able to cast a provisional ballot.This proposal does not change any current statutory exceptions to existing voter ID requirements which include overseas and military voters, indefinitely confined voters, residents of care facilities, and confidential voters

Putting a voter ID requirement in the State Constitution will help ensure election integrity moving forward. Statutes can be repealed far easier than a Constitutional requirement. Additionally, voter ID requirements are widely popular - a 2021 Monmouth University poll showing 80% approval nationwide.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- The constitutional amendment does not change existing voter ID laws
- A Wis. Stat. is much easier to alter or repeal; this resolution ensures that a valid photo ID will always be required to vote in Wisconsin
- Polls show that 80% approve of voter ID requirements to vote

Opponent's Message:

-
- Current voter ID requirements are too strict—everyone that wants to vote should be allowed to vote

Key Supporters:

Rep. Snyder, Gundrum, Murphy, Rozar, and Steffen
No Senate lead

Key Opponents:

Rep. Sinicki, Pope, Ohnstad, and McGuire

Committee Vote(s):

9-4 party line vote

Subject: AJR20 - Gableman Testimony Proves Fraud

Senator/Representative,

I urge you to support AJR20 https://docs.legis.wisconsin.gov/2021/related/proposals/ajr120. The rampant fraud and illegal votes cast in Wisconsin make our state complicit in an insurrection of our country on November 3rd 2020 by belligerent nefarious (possibly foreign) actors. You as legislators, sworn to protect our nation from attack, are now responsible to right this wrong and recall Wisconsin electors. Because the United States of America is now under the control of an illegitimate regime, you, in good conscience need to stand up and fight, just as our parents did in the world wars to keep us free.

Please do the right thing and contact Representative Ramthun to support this resolution immediately. Our country is under greater threat as each day passes. Freedom is slipping away, and you are in a position to stop the continuing decline and imminent threat to our freedom. The citizens of Wisconsin, and the United States of America are counting on you.

AMERICAN OVERSIGHT

Thank you,

Raymond J Krahn

Subject: Are You Blocking Election Matters?

Representative Voss,
It seems that you continue to work against election integrity and an audit. Why are you blocking the election investigation? We have all seen the evidence and the illegal actions that were taken by Wisconsin elected officials, and criminalindividuals. It has also been reported that you are involved in the continued use of dropboxes, when we know this is one of the main vehicles of fraud. If this is true, we hope you will reverse course and help ban dropboxes. Stealing of elections cannot be tolerated. We must act. Many political career rests upon your actions. We are all engaged and watching. We need to be sure of our elections moving forward, or we can't have faith in any of our institutions. This is the most important topic of our time. Thank youfor listening.

Neil

Takeaway- The EPOCH TImes on Jan 26 Page A3(reported Drop Boxes Can Be Used in Wisconsin Primaries: Appeals Court(Wisconsin appeals court has ruled that drop boxes can be used in next month's primaryelections, blocking a lower court that concluded that election lacked the authority to allow ballot containers.
The parties appealing the ruling have "more than the ruling"more than the mere 'possibility' of success on the merits," a three-judge-judge panel on the Wisconsin Court of Appeals ruled.We may see the same eventually with**Zuckerberg**. Perhaps he will flee and hide under the coat of Schab at the WEF.

Allegations are surfacing claiming that**ballot boxes**put out there by Zuckerberg were being used to rig the election. It is still unknown how much fraud was carried out in the 2020 election. But the narrative needs to end that the answer is “none.” Despite the widespread blanket denials from themainstream media, there are allegations bubbling up about ‘mules’ illicitly dumping ballots into**Zuckerberg**“drop boxes.” Unfortunately, with the Democrats in charge of the Senate and the House, there will be no investigation. But the whispers are getting louder that**Zuckerberg**allegedly had a hand in the election fraud perhaps at the direction of Schwab and associates.**Zuckerberg**spent**$419 million**to get out the Democratic votes to defeat Trump which was the clear agenda of Schwab and his World Economic Forum.

It is true that TikTok has emerged as a major threat to Facebook because it is not engaged in the political activism that Zuckerberg has been. People are leaving Facebook or using TikTok much more so because of Facebook’s censorship. Then there is Apple, and its privacy changes to iOS last year are starting to cost the company tons of ad revenue. The feature is called App Tracking Transparency and allows iPhone users to forbid companies from tracking them across third-party apps. As CNBC reports, on the financial call, Meta CFO Dave Wehner revealed, “We believe the impact of iOS overall is a headwind on our business in 2022. It’s on the order of $10 billion, so it’s a pretty significant headwind for our business.”

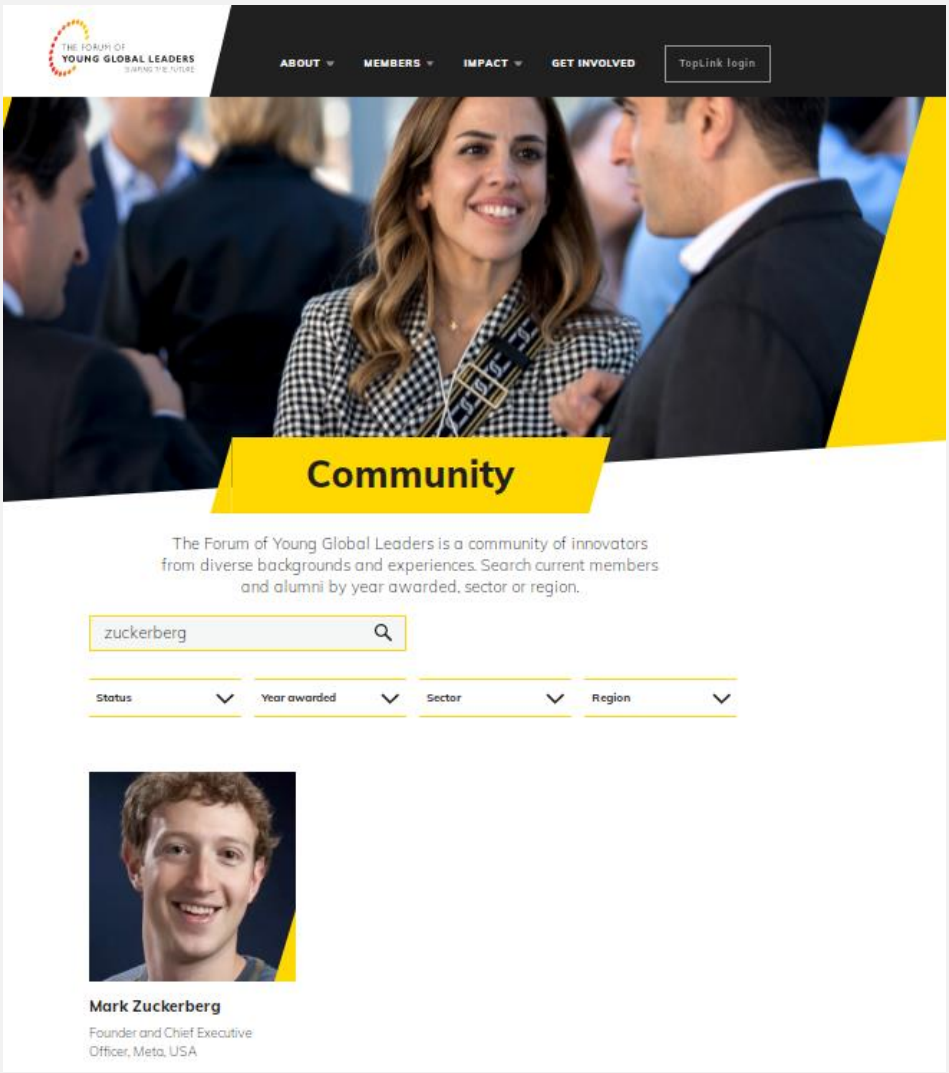
QUESTION: Marty you said that Facebook would peak in September 2021. Is this the high you were talking about?

WJ



ANSWER: This is the 19th year up for Facebook and this crash has already penetrated the 2021 low of 244.61 here in 2022.**Zuckerberg**is part of Schwab's**World Economic Forum Young Global Leaders**along with Trudeau in Canada and Jacinda Ardern of New Zealand. He has been aggressive in censoring anyone who has opposed the narrative of COVID and this is all collapsing around him. Facebook lost daily users for the first time in its history. This is a significant change in trend which has come right on target. In Canada, people are flooding the 911 system reporting that Trudeau is missing. We may see the same eventually with**Zuckerberg**. Perhaps he will flee and hide under the coat of Schab at the WEF.

AMERICAN OVERSIGHT

Allegations are surfacing claiming that ballot boxes put out there by Zuckerberg were being used to rig the election. It is still unknown how much fraud was carried out in the 2020 election. But the narrative needs to end that the answer is “none.” Despite the widespread blanket denials from themainstream media, there are allegations bubbling up about ‘mules’ illicitly dumping ballots into **Zuckerberg** “drop boxes.” Unfortunately, with the Democrats in charge of the Senate and the House, there will be no investigation. But the whispers are getting louder that **Zuckerberg** allegedly had a hand in the election fraud perhaps at the direction of Schwab and associates. **Zuckerberg** spent $419 million to get out the Democratic votes to defeat Trump which was the clear agenda of Schwab and his World Economic Forum.

It is true that TikTok has emerged as a major threat to Facebook because it is not engaged in the political activism that Zuckerberg has been. People are leaving Facebook or using TikTok much more so because of Facebook’s censorship. Then there is Apple, and its privacy changes to iOS last year are starting to cost the company tons of ad revenue. The feature is called App Tracking Transparency and allows iPhone users to forbid companies from tracking them across third-party apps. As CNBC reports, on the financial call, Meta CFO Dave Wehner revealed, “We believe the impact of iOS overall is a headwind on our business in 2022. It’s on the order of $10 billion, so it’s a pretty significant headwind for our business.”

AMERICAN OVERSIGHT

There is much more behind the headlines that are in the rumor mills.**Zuckerberg**has a lot to worry about by aligning with the World Economic Forum should the cycle change once again and the Republicans win in November.**Zuckerberg**may find himself in deep trouble and the survival of Facebook will hang in the balance. His loyalty to Schwab and his idea that corporations should disregard shareholders and be concerned with**Stakeholder Economics**may prove to be the death of Facebook. Any CEO who aligns himself with Schwab should be thrown out by the shareholders for that means they are using shareholder money to further a foreign agenda against their own self-interest.

A year-end closing below 244 will confirm that Facebook will enter a bear market and the crash will continue into 2023 for starters.

JANEL BRANDTJEN
STATE REPRESENTATIVE

Speaker Vos Kneecaps Assembly Committee on Campaigns and Elections

For more information contact:
Rep. Brandtjen (414) 915-8425

February 16, 2022

Madison- State Representative Janel Brandtjen (R- Menomonee Falls) issued the following statement regarding Speaker Vos' attempt today to subvert the legislative process against the interest of election integrity:

"It is no secret that the Speaker of the Assembly, Robin Vos, and State Senator Kathy Bernier have been severely downplaying the significance of the voter fraud that the elections committee, the special counsel, and numerous independent groups have uncovered. Even in the face of growing outrage from an overwhelming number of Wisconsinites across the state, they continue to play political games with the future of our elections and our state.

Today, Speaker Vos referred numerous election bills that clearly belong in the Campaigns and Elections Committee to a different committee. To take away the Assembly Committee on Campaign and Election's ability to provide the level of scrutiny that these bills require, and the citizens of Wisconsin deserve, is unconscionable and irresponsible. My question is simple: What are Robin Vos and Kathy Bernier afraid of?"

Brandtjen Responds to Monday Count Bill

For more information contact:
Rep. Brandtjen (414) 915-8425

February 28, 2022

Madison- State Representative Janel Brandtjen (R- Menomonee Falls) issued the following statement regarding the Assembly effort to allow Monday vote processing:

"After spending a full year not getting access to original ballots, ballot envelopes, tabulators, or tabulator modems from the very cities that AB 946 would affect, including Milwaukee and Green Bay, why would Republicans wish to pass this ill-advised amendment on SB 946?

The last minute amendment written in large part by Senator Bernier, grants early access to absentee ballots by entering ballots in the tabulators the Monday before elections. Counting the ballots should be driven by security not speed. Why would we want to give bad actors the chance to see ballots prior to Election Day?

Milwaukee and other central count locations have not given Republican poll workers equal access to wards or central count. The biggest challenge for transparency is who is in the counting room, not when the ballots are counted. In addition, these cities impose restrictive "vaccine mandates" and various other tricks to limit Republican participation. The public trust in our election process is already unacceptably low. Again, why would we give bad actors an extra day to cheat?"

---

To the Wisconsin Assembly who may or may not have watched the hearing on February 9th.

Great Job Peter,

It's now up on Rumble as well as posted on the front page at rplc-langlade.com

I had one person comment that after the first 15 minutes they should have been out arresting people.

Still slow walking it all the way to the finish line late. Sept 3, 2022 they get to destroy all evidence.

The sad thing is, All of our Legislators had the opportunity to view much of this same material weeks and months ago on exclusive Zoom meetings for the Assembly and Senate. They seem to not want to understand that for most of the voters in many parts of the State, election integrity is the No. 1 issue. Nothing else will matter if we are not allowed a fair chance to win an election. What reason have we given the liberals to stop? For sure it's to the fact that people have been put in jail.

The only real accomplishment we have to look at that will for sure limit cheating is what County Parties have done to increase the number of Republicans and Conservatives that will be manning the polls as inspectors and observers. But if the five big cheat counties don't do the same, again our efforts will be canceled.

Any bill the Evers signs will be too weak to make a difference.
Any bill that is strong enough to make a difference, he won't sign.

So let's not be spending all our time working on bills that won't make a difference.

Reclaim our 10 electoral votes. It can be done with some desire and courage.

It won't overturn the election, but it will send a message to AZ, MI, PA, and GA that they too could
reclaim their electoral votes, and if they all did it, that would make a difference. Who's willing to be first?

AMERICAN OVERSIGHT

When will I be able to tell my voters that their vote will count and not be canceled out by a cheat vote?

Please take the time to watch this video. Lot's of evidence. It's up to you to find the truth and the proof.

Subject: Charges for WEC commissioners, HOT series on WI decertify & Vos on Jay Weber

---

From H.O.T.:

Four Wis. prosecutors considering whether to file charges against elections commissioners

RACINE — Four Wisconsin district attorneys are now considering whether five of the state's elections commissioners should face criminal charges for how they advised clerks in the lead-up to the 2020 presidential electionBob Spindell, the only Wisconsin Elections Commission member Racine County Sheriff Christopher Schmaling has not alleged committed a crime leading up to the 2020 presidential election, declined Wednesday to weigh in on whether he thinks the other five WEC commissioners should face criminal charges.

“That’s not for me to decide,” he said, deferring to the judgement of district attorneys and other prosecutors, when asked by a reporter during a meeting of the group H.O.T. (Honest, Open, Transparent) Government in Racine on Wednesday night.

When asked by another meeting attendee why he thinks his fellow commissioners voted to suspend the law despite not actually having the power to, Spindell replied: “I think they got caught up in the whole COVID thing.”

People are also reading…“These people have committed a crime," Jim McClain, a leader of H.O.T. Government, alleged earlier in the meeting, "and they are being given a pass right now."

DAs to consider
Following an 11-month investigation set in motion by a complaint that the WEC referred to Racine County, Schmaling called for five of Wisconsin’s six appointed elections commissioners to be charged with four crimes: felony misconduct in public office, felony election fraud as an election official assisting with violations, misdemeanor party to the crime of election fraud-receive ballot as a non-election official and misdemeanor party to the crime of election fraud-solicit assistance in violation of Wisconsin statute.

Those five appointed commissioners are:

Marge Bostelmann, Republican-appointed, of Green Lake County
Julie M. Glancey, Democratic-appointed, of Sheboygan County
Ann S. Jacobs, Democratic-appointed, of Milwaukee County
Dean Knudson, Republican-appointed, of St. Croix County

AMERICAN OVERSIGHT

Mark L. Thomsen, Democratic-appointed, of Milwaukee County
The request for charges came based on the allegation that the WEC's directive to local elections officials at the height of the pandemic to not have Special Voting Deputies carry out absentee voting in nursing homes — as is required by state law — was tantamount to a crime.

After the initial allegations were brought into the public eye by the Racine County Sheriff's Office in October, those five commissioners responded in a letter in which they "stated their opposition to, and strenuous disagreement with the allegations."

In the letter Jacobs, an attorney, had said: “To put it simply, we did not break the law. In fact, without action from the Commission, many residents in Wisconsin care facilities could have and would have been disenfranchised and not able to vote in the 2020 elections.”

Last week, Racine County District Attorney Tricia Hanson said she would not be filing charges because, she said, she does not have the jurisdiction to charge those five commissioners. Hanson said she believes they committed a crime, but since they were not in Racine County when they voted to tell elections officials to not send SVDs into nursing homes, Hanson said she cannot charge them.Racine County Sheriff's Lt. Michael Luell, who led the investigation, said he has had conversations with the four district attorneys in the home counties of the five commissioners the RCSO is seeking to have charged.

"I have forwarded the materials from my files to each office and recommended charges that appear to fit the facts," he said in a Thursday email.

None of the four district attorneys had responded to requests for comment as of noon Friday. They are:

Gerise Laspisa of Green Lake County, who was appointed to the post by Democratic Gov. Tony Evers in April 2021.

Joel Urmanski of Sheboygan County, a Republican first elected in 2016.
John T. Chisholm of Milwaukee County, a Democrat who took office in 2006.
Karl Anderson of St. Croix County, a Republican elected in 2020.
Wisconsin Attorney General Josh Kaul, a Democrat seeking re-election this fall, has refused to charge the commissioners. He has called the Racine County Sheriff’s Office’s investigation “a publicity stunt.” Schmaling and Hanson are Republicans.

Votes
In the first vote regarding SVDs and the pandemic in March 2020, Spindell had voted in line with the other five commissioners. They unanimously voted to advise local elections clerks to not send SVDs into nursing homes, citing COVID-19 concerns and the concern that the SVDs may be denied entry because of the pandemic.

AMERICAN OVERSIGHT

But in subsequent votes on the matter, Spindell was the lone “nay” vote while the other five commissioners voted to waive the SVD requirement.

In early 2021, the commissioners had voted to revoke their advisory and instructed that SVDs be sent into long-term care facilities again, which they are doing as the spring 2022 election season continues.

Spindell on Wednesday referred to the other five commissioners as his “compatriots,” showing no animosity toward them.

Earlier Wednesday (Feb 16), the WEC retracted its guidance that had allowed drop boxes to be used in the spring primary election, bringing the commission’s advisory in line with a state Supreme Court decision. Spindell endorsed that move on Wednesday night.

H.O.T. series on how to decertify an election.

Robin Vos "*There is no way for the legislator to decertify our electoral vote***s".** George Meyers did a video series for H.O.T. in December 2020 explaining how it works. Yes Robin there is a way and George will explain it to you. Oh by the way have your other legislators watch this series.https://www.hotgovernment.com/video-series

---

From The Jay Weber Show, Friday February 18
At 23:53:
Jefferson:"No one is saying decertify the election and declare Donald Trump the winner, that I'm aware of. I think where the folks are coming from is can we legally and constitutionally reclaim electoral college votes. My question to you is when there's been fraud and obviously there has been, my question real quick Mr Speaker is would you at least, rather than just dismiss this out of hand, would you at least be willing to sit down with those constitutional scholars that have that opinion and see if there is some common ground that you always refer to in this area, if evidence is presented legally, constitutionally and election fraud? Would you at least be willing to do that?"
Jay Weber:"We covered the electoral college vote question earlier but this question is would you sit down with those that disagree with that?
Robin Vos:"Of course I would. I pride myself with trying to be accessible, open and listen to both sides to try to make the best judgement I can. Sure. So to Jefferson, thank you. I appreciate your support and I would be happy to do that."

Dear Assemblyman Voss,
I would very much appreciate if you could do the following.
1. Please terminate the contract the Assembly has with former Supreme Court Justice Michael Gableman. His recent report suggests that he has little or no knowledge of election practices or laws in Wisconsin.
2. Furthermore I believe he stated that there is ~ $300,000 left that was part of the funding of his origin contract. Please stop him from wasting these taxpayers' dollars.
Thank you for listening. I look forward to your response.
Sincerely,
- Ed Lynch (lynchet@charter.net)

Subject: Committee hearing 1664593 (wisconsin.gov)

Thanks Nicholas.

Representative Brandtjen,

As the chair of the Assembly Campaigns and Elections Committee would you expect justice Gableman to provide examples of why testifying in front of the public could damage his investigation at your upcoming hearing?

I ask because there seems to be an impasse between him and the mayors of Green Bay and Madison that continues to drag out his investigation and I assume consumes more taxpayer money. It seems reasonable that his questioning should be answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person. The explanation I have heard in the past for wanting to question in private is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

If justice Gableman doesn't offer examples could you please ask him to do so at the hearing?

Sincerely,
Jerry Tribbey

Dear Mr. Tribbey:

To keep you updated on the Gableman investigation, the Assembly Campaigns and Elections Committee is holding a public informational hearing on March 1st at 10:00 am.

Michael Gableman is being invited to discuss his investigation. I will include the notice for you to review. It may be streamed on WisconsinEye, or you may attend it in person. 1664593 (wisconsin.gov)

Hello Mark,

I'm wondering if you can help me get a question regarding the Gableman investigation answered. It is why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

We moved from Dodge to Winnebago county 4 years ago. Representative Schraa's office has chosen not to attempt to get an answer to my question. You can see his office's response if you scroll down 3 replies below. I have not been able to get Representative Voss's office to respond to the question either (see prior 2 immediate replies below). I'm hoping you are willing to help.

Sincerely,
Jerry Tribbey

Resending as first attempt failed due to typo in Representative Vos's email address.

Representative Voss,

First, I want to clarify that I do not live in your assembly district. I live in the 53rd district. I'm writing directly to you because representative Schraa does not feel he can answer my questions (see comment from his staffer in the email below).

My question relates to the Justice Gableman investigation. As you know, last week the Committee on Campaigns and Elections passed a motion on a party line vote to extend or continue (it wasn't clear from the committee members' discussion on this point) Gableman's council. Why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

Subject: RE: Proposed $680K to investigate election

Hello Linda,

AMERICAN OVERSIGHT

Thanks for passing along the hearing and executive session info. I was able to watch it on Wisconsin Eye. I was pleasantly surprised to hear the legislators agree to bring in WEC representation to answer the questions about the integrity of the voter registration data base. Gives me some comfort that there is a good faith effort to remove doubt about our election system. I do wonder why this investigation didn't take place prior to the 2020 election. As all three experts shared, these issues likely existed prior to the 2020 election. If the issues identified are serious, and they appear to be, I believe there needs to be common agreement to resolve them and get it done.

Regarding the authorization for Gableman's contract extension/continuation (I'd like to know if it is an extension or continuation), what is the justification? Why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

Sincerely,
Jerry

Subject: Complicity

As we all know, the WEC has been at the center of some very serious allegations.
The once unfounded allegations have lead to an investigation that substantiated a lot which should not ever should have occurred. It is clear that election law has been repeatedly violated. And, State legislators have CONTINUED to allow votes to be handled like State untested rape kits.
It is obvious that WEC is not only incompetant but complicit in election law violations. Period.

Shaking down Nursing Home Residents for votes bring issues to a new low even for politicians.
It is equally obvious to me that State Legislators whom continue to ignore serious issues and findings in the State are simply equally complicit....whether they are Democrat or Republicans…makes no difference.
ALL levels of Law Enforcement in the State has become pathetic.

It is now apparent the only people inspired by those in lofty places in our State and Local Governments are criminals.

I am confident I am not the only person who is totally and completely disgusted with not only the laws being ignored but the political collective who ignore not only the laws they write but the laws of common sense.

It is now 2021.

You ALL should all hang your head in shame.

Wisconsin Decertify Immediately

Notice of Demand to Investigate Legislative Resolution to Recall 2020 Presidential Electors

“We the People,” have the ultimate responsibility to oversee our government representatives once “We” place them in office. Until recently, the voters let these public officials perform their service without much supervision. That time is over. Wisconsin voters are dissatisfied with the partisan politics being waged across the nation. When the “People” are victims of election mismanagement it must be investigated. Our Constitution requires it and “We the People” demand this investigation continue.

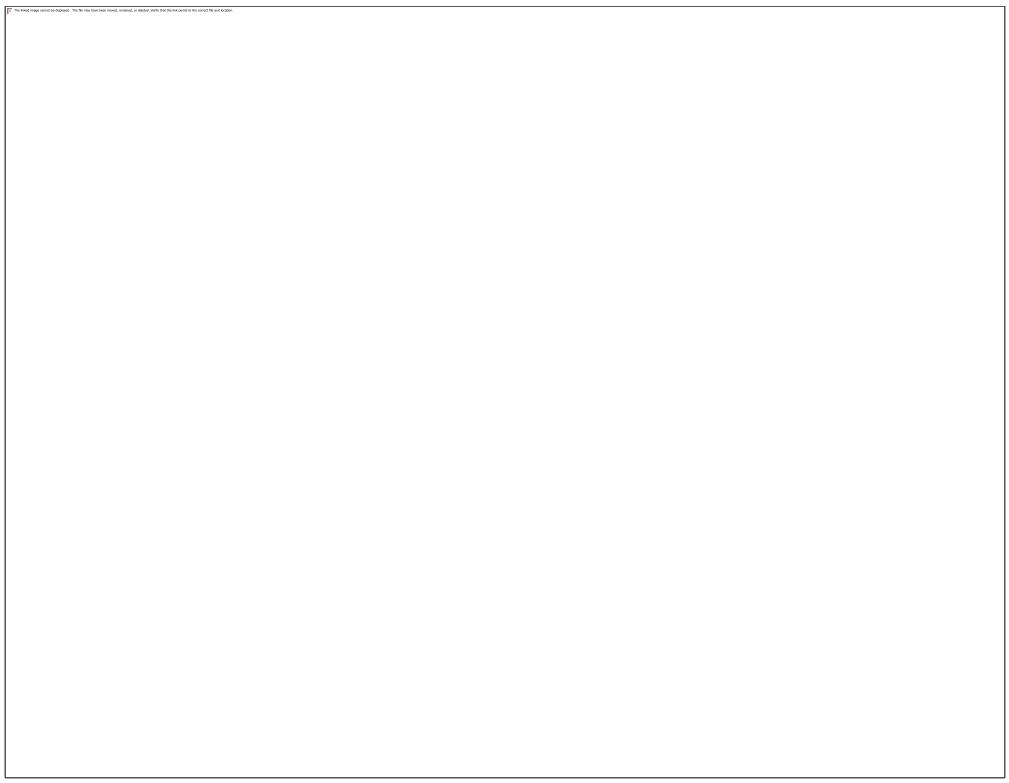
Violent Crime On The Rise In Wisconsin

How Can The BidenAdministration Say Rising Crime Isn't An Issue?



Biden Press Secretary Jen Psaki took to the talk show circuit to mock Americans she characterized as living in an “alternative universe” because they are concerned with the sharp spike in violent crime across the nation, declaring “people care more about what’s happening in their lives.”

Psaki may have written the talking points, but she clearly didn’t read the crime numbers.

Because what’s happening in people’s lives is violent crime. In Wisconsin, violent crime, murder, and aggravated assault are all at the highest level in over 35 years.

Wisconsin saw a 62% increase in murders, and the violent crime rate per

100,000 people in rose 8.85% between 2019 and 2020.

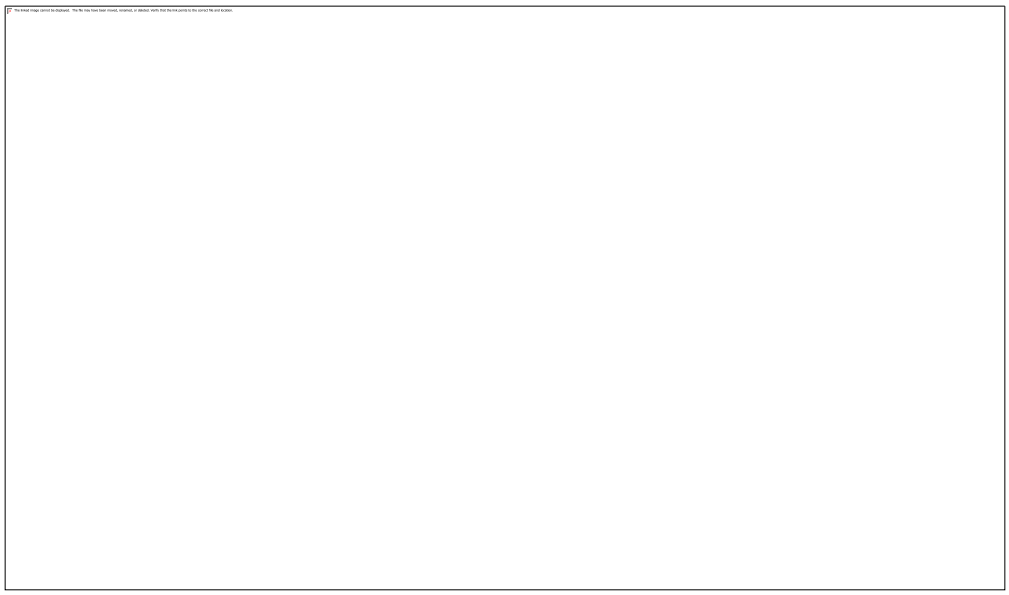
Questionable Curriculum: Critical Race Theory In Wisconsin – A Continuing Series

Over the past year,the MacIver Institute has been sharing real examples of Critical Race Theory (CRT) in Wisconsin classrooms. While most of MacIver's work to date has focused on CRT in public schools, we have also come across CRT in private schools. One of the worst cases of CRT indoctrination, public or private, is found at the all-female Divine Savior Holy Angels (DSHA) High School, located in Milwaukee. According to the website, DSHA is a "dynamic Catholic college-preparatory educational environment'" with a firm devotion to "our Catholic identity and theology."

DSHA is considered one of the better schools in the state, typically graduating all of its students and boasting of a 100% college acceptance rate.

A large group of concerned parents has been attempting to work with the DSHA administration for over a year to voice their concerns about the indoctrination of their children with CRT. The parents object to CRT's core belief that racism is everywhere — our country is fundamentally racist and that every one of us is a racist, no matter what an individual does or does not do. These parents have actively tried to come to an understanding and a mutually agreed-upon solution with DSHA but to no avail.

DSHA's mission is "to make known the goodness and kindness of Jesus Christ" and to develop "our students into capable young women of faith, heart, and intellect who accept the gospel call to live lives that will make a difference." The administration has repeatedly referred back to this set of core beliefs throughout the conversation about CRT in the school.



Unfortunately, many parents feel that DSHA no longer actually believes in this mission because of the actions of the school. The parents feel that the administration does not truly value their input or care about their strong opposition to the teaching of CRT at DSHA.

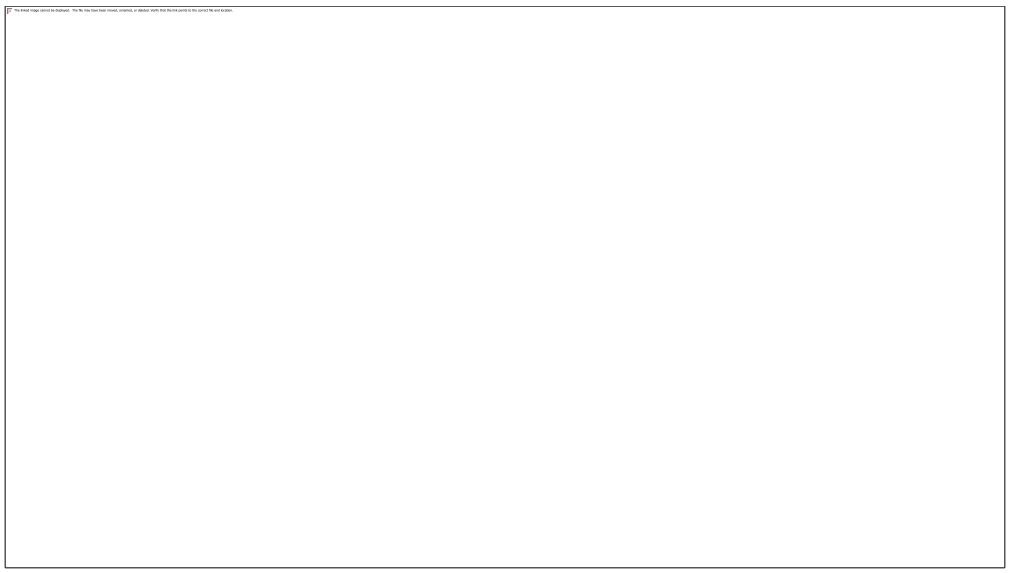
Ballot Drop Boxes Are Illegal. Period.



There seems to be some confusion about whether Wisconsin law might allow for ballot drop boxes. Dan O’Donnell clears it up: They most certainly are not.

Amid the debate over the use of ballot drop boxes in Wisconsin, there is a widespread misconception that they are somehow permissible under state law because they are not explicitly banned under state law. They most certainly are not.

Wisconsin law is actually remarkably clear: There are precisely two legal methods of absentee voting—in person and by mail. That’s it. If a voter does not personally hand his or her absentee ballot to an election worker or mail it to the municipal clerk’s or city elections commission’s office, then the vote has not been lawfully cast.

To: Robin Vos <rep.vos@legis.wisconsin.gov>
Subject: Decertification of Electors

Dear Speaker Vos:

I suppose you are getting a lot of messages lately. I hope that they have been polite and respectful.

I have to think that you didn't vote for Donald Trump on 3 Nov 2020. There's no other explanation for your effort to stop the attempt by Rep. Ramthun and others to decertify Wisconsin's electors from that election.

I also have to think that you know that Trump won Wisconsin handily in 2020. The entire rust belt has gone red over the issues of illegal immigration and free trade policies, which moved millions of American manufacturing jobs overseas.

Whether or not the effort to decertify will succeed, or whether or not it is constitutional is above your pay grade. You are a member of the legislative branch of government. The judicial branch will eventually make the call on the legality of the effort to decertify.

I often wonder if "Republicans" who dislike Trump are weary of being called racists. Let me tell you something --- **any** President who puts the brakes on illegal immigration by building a wall on the southern border will be called a racist by the Democrats and their media water boys.

Isn't it ironic that Hispanics are flocking to the GOP in droves ?? Largely over the southern border.....wages are a function of supply and demand, and more workers, illegal or not, lower wages for those who **are** here legally.

So who do you stand with ??

The votes of tens of thousands of Wisconsinites were suppressed by fraudulent activities in Nov 2020. Stand with those folks.

If Donald Trump decides to make you a target of his wrath, you are finished. See Kathy Bernier.

The Gableman report will be out any day. I expect it to be explosive. My advice to you is to go along with the effort to decertify and let the chips fall where they may when the effort is challenged in court.

That is the best approach. Here's one thing the Constitution **does** say: Everything to do with choosing Wisconsin's electors is determined by the Wisconsin legislature. Everything.

AMERICAN OVERSIGHT

Stand with the folks.

Sincerely yours,
Ashley Moran

Subject: DECERTIFY 2020 ELECTION
Attachments: WIS lrb-5792-1-resolution-to-reclaim (1).pdf

Greetings Wisconsin Republican House Representatives,

I am a Stateliner, and while I live in Illinois, I work in Wisconsin. I am a staunch Republican Conservative that believes that we need to DECERTIFY the 2020 Election. Proof has been found of much illegal voting activity. While all of the illegal activity needs to be brought to light and measures put into effect that prevent it from happening again in the future, just doing that is not enough. If there are not any consequences for illegal activities, what is to stop other similar activities from happening in future elections. Doing illegal things and not being punished for them seems to be rampant in this country in this time of our lives. It is not making our country better. If you know that the VOTE was illegitimate, then you must DECERTIFY.

Thank you for your service, and God Bless the United States as we navigate through this,

Susan M.C. Manes
Rockford, IL

Subject: Decertify 2020 Election

I call on Robin Vos to decertify the 2020 election. The evidence of maladministration is overwhelming. Judge Gableman's report shows abusive theft of 2020 election votes from helpless elderly citizens.

2020 election fraud is not going away and you can't sweep it under the rug. Your attempts to cover up election fraud look more and more pathetic and desperate as evidence mounts and becomes public.

Elder abuse is an ugly look for you, Robin. Wisconsin is watching.

This "Special Investigation" is a partisan JOKE. What a waste of taxpayer funding, and a farce. I hope that Trump is at long last held responsible for the January 6th riot at the nation's capital and that you and Gableman (and the rest of your pig colleagues) are voted out of office and publicly shamed for all of this.

Sincerely.

---

BREAKING: Wisconsin Republican Leaders Call for Emergency Meeting with All County GOP Leaders Following Explosive Report by Justice Gableman Calling for Decertification of 2020 Election Results
On Tuesday morning the Wisconsin Assembly Committee on Campaigns and Elections held an informational hearing on the Gableman 2020 Election Report featuring invited speakers Special Counsel and Former Supreme Court Justice Michael Gableman and Attorney Eric Kaardal. During his opening testimony, Justice Gableman listed a series of unlawful acts that took place during the 2020…

Subject: Decertify the Election

Dear Mr. Vos,

It is my understanding that, after hiring Justice Gabelman to do an investigation into the legitimacy of the 2020 election, you have now disregarded his findings. It is blatantly obvious that the 2020 election was a bogus Banana Republic election. The evidence is overwhelming in Arizona, Wisconsin, Georgia, etc.

We voted you into office to represent us. You are turning your back on the Wisconsin population. What are you afraid of Mr. Vos? Are you also a part of the fraud? Will you be implicated in the cover-up or the actual fraud? Is that what you're concerned about? Are your shenanigans going to be exposed as well as those of the democrats? You are a disgrace and we will not tolerate this.

We, the American people, do not have a short memory. We know what happened in 2020. We will not stand for this. We know the election was fraudulent and we now have an illegitimate, geriatric, dementia-ridden man working as a puppet in the White House at great detriment to the sovereignty of the United States.

I don't care who wins the election. I don't care who wins ANY election. What I care about is that my vote matters and I care about the sanctity of elections in Wisconsin. Everyone in public office is to uphold the constitution of Wisconsin and the United states. Neither happened in that election and you know it. We all know it. The emperor has no clothes! Figure this out Mr Vos. Do the right thing! Decertified the 2020 election.

Respectfully,

--

Rep. Vos,
What is this I heard about you not joining with Tim Ramthun in decertifying the 2020 election? Have you been paid off? As a Wisconsin resident we need to have fair elections. This business about it not being constitutionalis hogwash. You need to do the right thing and decertify the election. We deserve to get to the bottom of this. Let Judge Gableman finish his investigation without a time limit.
DO THE RIGHT THING OR **GET OUT**!!! We don't need you here.

—

My fellow Americans:

I write to you as an everyday US Citizen who is very concerned about the fraud that occurred in both the down ballot and presidential elections throughout The United States in 2020 and especially the fraud in your state of Wisconsin.

Respectfully, I urge you to decertify Wisconsin's electors which were fraudulently certified in 2020.

The report I watched by Justice Gableman is alone, compelling enough to decertify.

To not decertify is to disregard state and federal laws and The United States Constitution.

Finally, the following election integrity measures must be implemented in WI and in all US states prior to the 2022 midterms and all future presidential elections:

- Local-controlled, clean voter rolls

- In-person voting with government photo ID (Real ID)

- Precinct hand-count of numbered ballots

* under streamed, archived video
* voters can watch every ballot counted
* voters can verify how their ballot was counted

AMERICAN OVERSIGHT

* precincts report and certify count to voters, then counties and states tally on streamed / archived video and certify their tallies, not the precinct counts

- chain of custody must be followed at all times

- ballot harvesting / boxes must be made illegal

- get rid of the machines (even if you believe them to not be "directly connected" to "the internet")

Thank you for your prompt attention to this matter as the survival of our Republic depends on laws being adhered to.

God bless you all and God bless The United States.

Amy
US Citizen, State Of Connecticut

Rep Vos! Really, you hire Gableman to look into the 2020 election and then you refute him on what he finds out! What the hell is wrong with you!!!! He found so many things that the election in Wisconsin was so messed up!! He doesn't want to overturn the election, he wants to decertify the the electors votes that were out of line because of all the situations and numbers of votes he found out were fraudulent. Wisconsin Elections Commission needs to be dismantled too! I've said it before, they were a big part of all this cheating happening! Why are you defending this!! SO CORRUPT the things that have been found out! Are you a Democrat??? Sure seems like it!! You aren't standing up for our election integrity AT ALL!!

DO YOUR JOB!!!!

Subject: Disgusting Gableman Report-Out

Rep Vos - The Gableman presentation is a joke. Your committee chair person is allowing for a bias presentation, and allowing radical followers to applaud and shout on the baseless claims. This informational hearing is disgusting.

You had one of Gableman's cronies interviewing an old woman. It is so obvious that they put this woman up to answering these questions. If she is not capable of voting, why did they record this and putting her up to this. WHAT A JOKE. THIS WAS TOTALLY INAPPROPRIATE.

You have brought down the institution of voting.

Brian Wakeham

AMERICAN OVERSIGHT

Pfizer C0v2 Vaccine Insert

13.1 Carcinogenesis, Mutagenesis, Impairment of Fertility COMIRNATY has not been evaluated for the potential to cause carcinogenicity, genotoxicity, or impairment of male fertility. Link to insert on FDA website HERE.

Genotoxicity refers to the ability of harmful substances to damage genetic information in cells. Being exposed to chemical and biological agents can result in genomic instabilities and/or epigenetic alterations, which translate into a variety of diseases, cancer included.

The vaccine manufacturer admits that they did not study or collect data on disease caused by the vaccine.

Subject: Election 2020

Dear Senator or Congressman,
What is unconstitutional is continuing to allow a fraudulent election to stand! You have the opportunity, and absolute DUTY to protect and defend the Constitution. The Founding Fathers laid this responsibility for elections on you, The State Legislature! You have the overwhelming evidence of multiple illegal assaults on Wisconsin's 2020 Federal Election. Americans see clearly the atrocites committed against the citizenry. Only you can begin the process of protecting the People's right to FAIR elections by DECERTIFYING or RECALLING the Wisconsin Electors. You can and must stand in the breach and represent the People who elected you, and those who did not. Courage is contagious. And you must find yours, so that others in your position may also. Do NOT be cowed by the Administrative State. WE are Patriots. We have sacrificed real lives, as my son did, for freedom. We are The Brave. Surely, you can take some pressure for doing what is right and legal. DECERTIFY now. Gain freedom from your fear❣
Sincerely,
Crista Munns

P.S. Be strong on redistricting. Democrats are!

Subject: Election Fraud

Mr. Vos: I fear great election fraud has occurred.

Mr. Trump lost the 2016 election to Hillary Clinton by over 2,000,000 votes. Yet, Trump was elected President. Mr. Trump lost the 2020 election to Joe Biden by over 7,000,000 votes. But, Trump was not elected President. How can this be? Trump lost EVEN BIGLIER in 2020 than 2016 so there must be massive voter fraud that kept him from being elected President.

Perhaps you could have Gableman investigate this problem. He seems to be an expert in how elections are conducted.

I assume you will publish Gableman's weekly progress reports. Afterall, they should be open public records because you are spending taxpayer money.

Representative Voss,
Why are you blocking the election investigation? We have all seen the evidence and the illegal actions that were taken by Wisconsin elected officials, and criminalindividuals. It has also been reported that you are involved in the continued use of dropboxes, when we know this is one of the main vehicles of fraud. If this is true, we hope you will reverse course and help ban dropboxes. Stealing of elections cannot be tolerated. We must act. Many political career rests upon your actions. We are all engaged and watching. We need to be sure of our elections moving forward, or we can't have faith in any of our institutions. This is the most important topic of our time.
Thank youfor listening.

Wow.. are you a complete disgrace to the republicans of Wisconsin and all the people you so called represent in our state! I just heard what you are up to! You hire Michael Gableman to investigate the 2020 election as if you were trying to placate people pretending to do your job. Unbeknownst to you Gableman actually stood up with integrity and did his job, finding exactly what we all knew had taken place in our state with a lot of nefarious things happening around the 2020 election!
Interestingly enough how you don't want to see the truth to come out? I am bewildered on why you wouldn't want the truth to come out? You must be knee deep in the corruption that Gableman has exposed! Because Now your running around sending mass emails with talking points on how to lie and get out of the truth being exposed and trying to smear Michael Gableman and his findings!
You are a democrat through and through hiding behind the Republican Party and your a disgrace to all of the people you pretend to represent!

Subject: election investigations

Dear Congressman Vos,

I hope that someone relays the gist of this message to you.

I've previously written that I'm a moderate republican. I don't care for President Biden, but I'm abhorred by the waste of time and money these ongoing election fraud claims, without sound evidence, are costing our taxpayers. Our chances of winning seats in both State and Federal branches are only harmed by energizing those of different political philosophies, which is exactly what is happening by the ongoing beating of a dead horse.

I'm extremely impressed that you've chosen a higher road regarding the now-irrelevant election investigations, including the uneducated Mr. Ranthum. Any final competitor to Ranthun will have my full financial backing.

If it's worth anything at all, although I can't cast a vote for you given that I live in Mequon, you will absolutely have my maximum financial support in your next re-election campaign. I ask that your reelection committee retain my email address and contact me the next time you are running for your seat.

It's reassuring to know that some of our elected officials are more interested in guiding the State in successes rather than wasting time, effort, and negative P.R. on a mute issue.

Sincerely,

Steven Donatello

Subject: Election Review

Hello,

I am Scott Faust of Sun Prairie. I am writing to respectfully ask SpeakerVos to end the Gableman election review. Our democracy is under assaultas a result of circular logic, the election was stolen, citizens have concerns, we need to restrictvoting.

The last election was fair and accurate according to extensive reviews. Gableman's incompetent public demonstration of an alleged investigation continues to erode confidence in our democracy.

It is my sincere request that the speaker declare victory and pull the plug on Gableman and his public disgraceful antics.

Respectfully,

Scott Faust

Subject: Election

You and your fellow Republicans just don't know when to stop embarrassing yourself over the 2020 election and your ties to Trump. I read now that you may well be held in contempt for failure to deliver documents that you withheld or destroyed and your Elections Committee is hearing testimony from a conspiracy nut whose background is less then commendable. However, maybe this guys testimony will demonstrate just how desperate you and your Trump cronies are. The road you are on is getting shorter every day so I would think you would see the merits of bringing this whole election investigation to an end.

Subject: End this investigation

When will you end this sham of an investigation into the 2020 election? Anyone involved in this process has lost what little credibility they had to begin with. WI Republicans need to accept the fact that this election was conducted fairly and correctly. Conveniently, no one seems to be questioning any of the lesser election results in 2020 that Republicans won. It's damning that Republicans are attempting to make voting more difficult for residents of WI. Maybe try focusing on policy that actually enhances our lives here instead of continuing to be a national embarrassment. This whole process makes me ashamed to be a WI resident.

The Stunning Admission Behind Evers' Election-Year Bribe

Governor Evers wants to pay every Wisconsinite $150. As Dan O'Donnell explains, that isn't just a sign of desperation, it's an admission of failure.

AMERICAN OVERSIGHT

Perspective by Dan O'Donnell

How much trouble are President Biden and the Democrats in ahead of November? Wisconsin Governor Tony Eversused his State of the State Address Tuesday nightto call for $150 election-year bribes to help Wisconsinites pay for…the inflation that President Biden and the Democrats caused.

You read that correctly: Evers' boldest policy initiative amounts to an admission that Wisconsin can't afford his party's policy initiatives.

As economistMilton Friedman famously explained, the cause of inflation is "always and everywhere a monetary phenomenon." In even simpler terms, it is, as the well-known description goes, "too much money chasing too few goods."

Biden's fiscal policy created both.

Federal spending in his first term in office topped $7 trillion, leading to massive borrowing that haspushed the national debt over $30 trillionfor the first time in history. To buy that debt, the Federal Reserve has been printing money at an unprecedented rate—nearly doubling its balance sheetin the past two years.

At the same time, Biden's direct stimulus payments and massive expansion of the social safety net have pushed upwards of33 million Americans to quit their jobsin what has become known as "The Great Resignation." Since a significant number of them have left the workforce altogether, companies have been struggling to keep up with the demand for their products and services.

Demand is high since the dollars are flowing in, but supply of pretty much everything is running low because workers themselves are in short supply. As a

result, the consumer price index has risen to its highest level in four decades after just one year of Bidenomics.

And now Governor Evers wants to double down on its failure.

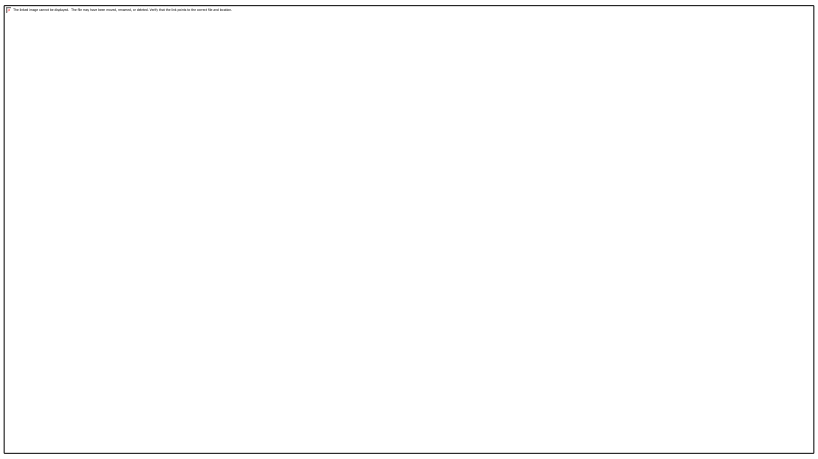
Shocking Evidence of Widespread Fraud in Wisconsin's Voter Database

Grassroots activists provided incredible evidence of widespread fraud and failures in Wisconsin's voter database and its impact on the 2020 election to lawmakers on Wednesday, Feb. 9, 2022.

Data analyst Peter Bernegger presented an hour-long interim report to the Assembly Committee on Campaigns and Elections. It included specific examples and detailed

analysis of the state's database collected by small army of 1,500 grassroots volunteers. Another 4,000 volunteers are joining the effort in the coming weeks to further develop the investigation.

Click here to read theshocking testimony.



Racine DA Won't Charge WEC or Nursing Home Workers Who Broke State Elections Law

The Racine County District Attorney will not file any charges against the Wisconsin Elections Commission or nursing home employees who broke state election laws during the 2020 election.

TheRacine County Sheriff's Departmentdiscovered the Wisconsin Elections Commission (WEC) advised nursing homes that they could have staff fill out ballots for residents, even though that is illegal. When investigators made their findings public, they included video proof of WEC members admitting that providing that advice was also illegal. This had a direct impact on how the

election was conducted at the Ridgewood Care Center in Racine County.

Racine County Sheriff Christopher Schmaling requested the DA file criminal charges against WEC and the nursing home employees who were responsible for committing the election crimes.

“It is appalling to me that an appointed, unelected group of volunteers, has enough authority to change how some of our most vulnerable citizens access voting,” DA Hanson wrote

District Attorney Patricia Hanson told Shmaling that she does not have jurisdiction to charge the election commissioners because none of them live in Racine County, according toa letter dated Thursday, Feb. 10, 2022.

“Let me start off by saying that I am disappointed that my hands are tied by this jurisdiction issue,” Hanson wrote. “The will of the electors here was disrupted and substituted in its place were the efforts of untrained and unsworn nursing home staff.”

Representative Vos:

I am a traditional republican voter located in Fitchburg. I am writing you in your capacity of assembly speaker, and in that capacity you represent me. It is not easy being a moderate conservative in such a liberal part of the state, so I hope that you will take this seriously.

At the end of the day, the one thread that holds a civilized society together is the ability of government to function in the best interest of the majority of the people. Underpinning that ability is the faith in elections and the legitimacy of an individual's vote.

The Gableman investigation has done nothing but damage faith in the electoral process. Despite all indications and findings to the contrary, by liberals and conservatives alike, this process has continued to fabricate and cast doubt on what was an overwhelmingly sound process. The final straw for me was the encouragement to decertify the election. It is outrageous, unlawful, and tyrannical.

This process, commissioned by you and assembly leadership, has only damaged the state's faith in an electoral process which is substantially sound. It has, in turn, damaged faith in government which will NOT be restored when a (real) republican is again in the white house or the governor's office. The damage this has caused, and continues to cause, has been inflicted onto the institution of government, not the democratic party. You can't get more anti-American than that.

AMERICAN OVERSIGHT

From: Terry Rowe <trowe@tds.net>
Sent: Wednesday, March 2, 2022, 9:01 PM
To: rep.vos@legis.wisconsin.gov
Subject: Fraud Negates Everything

Dear Speaker Vos,

I invite your attention to the many aspects of the Gableman report.

Fraud negates everything. If we allow fraud to be included in our legal process, then we destroy our entire legal process.

I call upon you, and the entire Wisconsin Assembly, to take the necessary steps to decertify the 2020 Presidential electors.

Sincerely,

Terry Rowe

Subject: Fraud

Dear Rep Vos
You are a fraud and should resign. You hired Gableman and now you try to undo his findings. You are no longer trust worthy - resign NOW.

WI Speaker Vos Says Justice Gableman Will Turn in Status Report on Election Fraud Investigation by End of Month - Says Overturning 2020 Election Impossible and Unconstitutional

Wisconsin Speaker Robin Vos joined Jay Weber on The Jay Weber Show on Friday to discuss the ongoing special investigation by retired Justice Mike Gableman in Wisconsin. Speaker Vos said he expects to see a status report from Justice Gableman by the end of the month. Vos also took questions and told the Jay Weber…

Subject: FULL FORENSIC AUDIT NOW!!!

Ladies and Gentlemen:

T**he corrupt Wisconsin Elections Commission is passing rules that make it easier for Democrats to cheat. They are also adopting Federal guidance to cover up the fraud.The**

AMERICAN OVERSIGHT

Wisconsin Elections Commission needs to be eliminated. There is no such thing as a bipartisan commission.

Now, we see that were thousands of phantom and illegal votes in 2020 in Wisconsin!!?Make no mistake, Wisconsin conservatives and libertarians know the feckless RINOs in the State Legislature are slow walking the supposed forensic audit. We suspect that RINOS participated in the 2020 fraud to thwart President Trump. This means that they would rather have a NEO-MARXIST destructive Biden regime over the prosperity and strength of a Trump presidency!! You are fooling yourselves if you think you can win without us.**FULL FORENSIC AUDIT NOW!! GET MOVING OR LOSE YOUR JOBS!!Subpoena the ballots and machines!!! We won't allow Speaker Vos to bury the truth to protect his buddy Paul Ryan.**

SPEAKER VOS RESIGN NOW!!!

This is being shared with conservative groups across the State.

BREAKING EXCLUSIVE: What's Going On In Wisconsin? Hillary Attorney Elias Provides Evidence that State GOP Leadership Agreed to Unconstitutional 'Ballot Drop Boxes' - The Gateway Pundit

Today the Wisconsin Assembly Committee on Campaigns and Elections and the Senate Committee on Elections, Ethics and Rural Issues held a joint public hearing to review the 2020 general election. One witness called before the committee fought back against the Wisconsin Drop Box program and she had evidence to support it which we found frightening.…

Subject: Full Forensic investigation

Hi Robin

Asking for your cooperation with a full forensic investigation of the 2020 election. All eyes are on Wisconsin and we need your support to get this underway to insure the integrity of future upcoming elections. This is urgent and is taking way too long.

Please do the right thing here.

God bless you

Response requested.

Robin –

Just read your man Gableman's report on election fraud in Wisconsin. So you spent $167,000 of our tax money to investigate the 2020 election? For what? There always is some areas that need to be tweaked but with Trump yelling at you to find enough fraud votes to have him prove he was really elected in our state is an outright lie.

I saw the recommendations that Gableman listed to correct voting here and it seems the gerrymandering Republicans want to use them to maintain their hold on the legislature. Unfortunately, the Republicans keep voting the liars into public office.

You must be so proud of your man. Stating that he thinks Putin is "savey" and smart invading the Ukraine. What do you think would have happened if Trump was still president?

Did I forget you and Walker's big tax hole you put us into today with Foxx Conn? The headache has not gone away and we will remind you of how you were conned and used our tax money to back this project. Better read up how that area and township is trying to deal with the cost needing to be paid in the future. And it is all you and the Republicans fault.

I could go on but calling out your lies, your ideas and other trash get very tiresome. Hopefully, our state will realize that you Republicans are what has kept Wisconsin from being a progressive leader today.

Wisconsin REALTORS Association

From WisPolitics.com ...

-- The guv's office is expressing its disappointment that some Assembly Dems joined Republicans in shooting down proposals from the People's Maps Commission.

Republicans, meanwhile, are knocking Gov. Tony Evers over his plan's failure to win the

AMERICAN OVERSIGHT

backing of the full Assembly Dem caucus.

The Assembly yesterday approved the GOP's maps for legislative and congressional seats on identical 60-38 votes, clearing the way for Evers to act on them.

But before taking them up, GOP leaders forced a vote on the People's Maps Commission plan. It failed 77-21. All Republicans present voted against the maps, while 21 Dems voted in favor and 17 voted against them.

Some Dems complained the proposal would result in fewer majority Black and Hispanic districts than under current law.

Evers spokeswoman Britt Cudaback said the guv believes the maps complied with the Voting Rights Act.

"The governor believes that the people should get to choose their elected officials, not the other way around," Cudaback said. "The literal point of a nonpartisan redistricting commission is for the outcome not to be determined by sitting elected officials."

Meanwhile, Assembly Majority Leader Jim Steineke, R-Kaukauna, yesterday retweeted the guv's Nov. 2 urging for residents to call their lawmakers and urge them to take the commission's proposals.

"We did exactly as you asked @GovEvers,and they were resoundingly rejected by bipartisan supermajorities in both houses," Steineke tweeted.

See the tweet:
https://twitter.com/jimsteineke/status/1458974115281485829

See more on yesterday's Assembly debate:
https://www.wispolitics.com/2021/gop-redistricting-maps-headed-to-evers-following-assembly-passage-veto-expected/

-- Gov. Tony Evers announced 29 new pardons today, bringing to 307 the total he's issued since taking office.

The majority of the pardons announced today involved drug or theft-related offenses.

"I am proud to grant these 29 pardons today and the more than 300 pardons I've been able to grant since 2019," Evers said in a release. "Reaching this milestone is a tremendous feat, and we'll work to continue this important process."

See the release:

AMERICAN OVERSIGHT

-- In this week's Democratic radio address, Gov. Tony Evers and his administration recognized Veterans Day and expressed their commitment to supporting Wisconsin's veterans.

"In Wisconsin, no one carries their burdens alone, and our state has resources to help our heroes and the families that have sacrificed alongside of them," said Evers.

Evers mentioned helping veterans with access to health care and finding employment as ways his administration can provide support to veterans and their families.

Read or listen to the address here:
https://www.wispolitics.com/2021/gov-evers-honors-wisconsins-veterans-on-veterans-day/

-- In this week's Republican radio address, Rep. Tony Kurtz, R-Wonewoc, thanked his fellow veterans for their service.

"Since the Vietnam War, since 1973, we've had an all-volunteer military. So if you think about it, for almost 50 years, those men and women have volunteered to serve this nation," he said. "Less than 1 percent will wear the uniform, and it's something that we need to appreciate and honor."

Kurtz emphasized that while Veterans Day is a day to thank veterans, we should thank them every day.

Thursday: WisPolitics Luncheon: Panel Discussion on Wisconsin Redistricting

Join us for an in-person luncheon at The Madison Club on Thursday, Nov. 18 for a discussion about the once-a-decade redrawing of congressional and legislative boundaries in Wisconsin.

The event features a panel discussion with three former legislators who have deep experience in legislative map-making -- Republicans Scott Jensen and Joe Handrick plus Democrat Chuck Chvala -- along with Elizabeth Treviño, Wisconsin state director of allontheline.org.

AMERICAN OVERSIGHT

See additional details and register here: https://www.eventbrite.com/e/wispolitics-luncheon-panel-discussion-on-wi-redistricting-tickets-186304851827

This luncheon is sponsored by Husch Blackwell, American Family Insurance, Xcel Energy, Walmart, AARP Wisconsin and the Wisconsin Hospital Association.

WisPolitics.com subscribers and members, as well as Madison Club members and their guests, receive discounted pricing for WisPolitics luncheons.

TOP HEADLINES

60-38 Assembly approves GOP redistricting plan; Evers veto near-certain
... Similar to the Senate, [Speaker Vos] introduced [People's Commission maps] as a substitute amendment ... forced Democratic lawmakers to vote publicly ... bashed the commission's maps ... for a lack of majority-minority districts, split communities and a [Dem] gerrymander ... noted ... commission consulted with [out of state] expert ... [Minority Leader Hintz denounced Vos'] "political stunt ... The sole mission of the (2011 maps) ... was partisan power, partisan advantage. The goal was to retain a permanent legislative majority. And guess what, it worked." ... Assembly voted 77-21 against [with 17 Dem defectors, including] * Ortiz-Velez ... [who] criticized [turning majority-minority districts into] "minority opportunity districts" -- which would likely result in more Democratic seats but potentially fewer lawmakers of color. "These maps are illegal and a perversion of justice that cannot stand," she said. * and Cabrera, who denounced focus on process and not] results, which she said "attack the Black and brown community." * and Bowen, who dubbed GOP maps "the same poop in a different toilet." * and Subeck, who said "Republicans are playing political games." * Rep. Meyers said Vos-LeMahieu testimony at only hearing was "liking their own Facebook post." * Rep. Neubauer said GOP map "cements hyper-partisanship. And it results in this body doing very little to materially improve people's lives." * Fair Elections' Chheda: "I've never once had a conversation with Ms. Ortiz-Velez about this issue, and it is clear she has a fundamental misunderstanding of the Voting Rights Act." * Vos: "They are experts at complaining. They have one chance every 10 years to show how they'd (redistrict) differently, and here they are -- and hypocrisy reeks," touted a "robust public process" drawing GOP maps with 482 maps thru its online portal. He and other GOP noted Senate Dems proposed their own maps but Assembly Dems did not. * Speaker Pro Tem August: "This map hits all of the constitutional requirements ... confident ... the governor can sign." Senate sub map had only one defector, Taylor, over poor minority representation. Evers still backs People's maps, will submit them to whichever court ends up deciding. Reviews GOP lean of GOP maps.
https://captimes.com/f1b38c24-e526-5177-b6dc-5b4b21aac918.html

As GOP remain unified, WI Dems reveal deep divisions on Evers-backed remaps
... "They hoodwinked us, gaslighted us and they tricked us," Democratic Rep. Sylvia

AMERICAN OVERSIGHT

Ortiz-Velez of Milwaukee said of those backing Evers' maps. ... argued the maps drawn by Evers' commission would violate the federal Voting Rights Act because they would dramatically reduce the number of districts with Black and Hispanic majorities. ... "This is an unlawful act. It's a perversion of justice. They're not going to take away our rights." ... "When it comes to looking at maps, I'm not willing to vote for any map that dilutes and/or erases African-American or Latino representation -- I don't care who wrote it," said Democratic Rep. LaKeshia Myers of Milwaukee before voting against the commission's maps. "I hope and I pray that some of my colleagues on my side of the aisle won't be little turncoats like they were in the Senate," Myers said. [reviews Sen. Taylor's lone Dem vote against People's maps] ... Cudaback said Thursday that Evers set up his commission because he wanted ordinary citizens, not politicians, to draw the maps. "The literal point of a nonpartisan redistricting commission is for the outcome not to be determined by sitting elected officials," she said by email. ... Lawsuits over the maps are already pending ... federal judges have signaled they will wait to see what the state court does before deciding whether to act.
https://www.jsonline.com/story/news/politics/2021/11/11/wisconsin-republicans-united-democrats-divided-redistricting-maps/6384216001/

Vos says he hasn't studied having WI lawmakers take over elections, as Johnson urged
... "The Legislature has to be involved" in overseeing elections, Vos told reporters. "But the idea of somehow that we're going to take over the elections and do all those things I've never studied that. I don't know about it. But that was not our discussion." ... "I have no idea," Vos said of lawmakers' ability to bypass Evers on election matters. "I know that there was a Supreme Court case in the 1960s. That was trying (to sidestep the governor) -- I think it was the Zimmerman case -- and the Supreme Court found that that was not allowed to happen." Vos in August told meeting, "We don't have the ability, under law (to change the electors)," Vos told the group, according to video of the meeting. "If we wanted to change that, we would have to pass a law, have Gov. Evers sign it, to change the process. ... I don't want the Legislature to substitute itself for the electorate," Vos said then. "What if we have a Democrat state Legislature and Donald Trump won the election? I would not want the Democrat state Legislature to say, 'You didn't deserve it, we're going to give it to Joe Biden.' ... I do not want to substitute the will of the people." Reviews Johnson interview, criticism of WEC advice on SVDs.
https://www.jsonline.com/story/news/politics/2021/11/11/wisconsin-lawmakers-taking-over-elections-hasnt-been-studied-vos/6385783001/

Kaul won't take up Schmaling's call for statewide voting probe. But now Gableman is.

Michael Luell spoke in Madison on Wednesday in front of the Republican-controlled Wisconsin Assembly Committee on Campaigns and Elections. Luell, who was promoted from sergeant to lieutenant on Monday, is the lead investigator in the case. ... did not attempt to directly speak with the surviving seven Ridgewood residents who were allegedly "taken advantage of. ... because one or more of them were dead," Luell said in an email, "and the other ones could not recognize their own children, remember what

AMERICAN OVERSIGHT

they ate for lunch, or know what day it was. I did not think the interview would be productive. ... an interview would be disrespectful to these victims and their families." ... maintained that his investigation was completely separate from Gableman's investigation. ... "Aren't you here trying to make this a political issue because you can't convince the Racine County district attorney to file charges?" [Spreitzer asked.] Luell replied that "this is an issue for residents of Wisconsin" and that, he alleged, Evers and Kaul (who are both Democrats) "are not responding to this problem." ... While Schmaling said he is recommending charges against only five election commissioners, Luell said others could be charged, including staff at Ridgewood Care Center. ... "It still floors me that the smoking gun in the Racine Sheriff's election probe is that more people in nursing homes voted than they expected. They were so threatened by people participating in the democratic process they decided it must be fraud," state Sen. Chris Larson, D-Milwaukee, tweeted Wednesday. ... Vos on Thursday downplayed comments U.S. Sen. Ron Johnson, R-Wis., made encouraging GOP lawmakers to tell local election officials to ignore [WEC] guidance ... Asked if Republicans plan to follow Johnson's advice, Vos said "the elections commission has to follow the law by working with the Legislature, that's in the statute."
https://journaltimes.com/55c2bb73-8ee4-5c0f-85cb-f19dbdef43b1.html

Blow-up at Rittenhouse trial over enlarging photos and video
... over the technology used to zoom in on video and create enlarged images ... [Asst. DA] Kraus argued that the way the images were enlarged [pinch-to-zoom function on an iPad] was the "industry standard" and for the defense to "then try to pretend this is all voodoo magic is preposterous. With all due respect to your honor, I think the defense is trying to take advantage of your lack of knowledge about technology." ... "I will tell you that I totally agree with your comment about my lack of familiarity with these concepts," Judge Bruce Schroeder told the attorneys without the jury present. "This is a difficult concept for me, yes." ... said he was leaving it up to the jury to decide how much weight to give the image. "The fact that I can blow something up on my phone and it's accurate on my phone doesn't mean that the particular program used by the crime lab is doing an accurate job of increasing the size of the image," he told attorneys. ... [State Crime Lab's] Armstrong testified ... that the software program adds pixels to the image and he cannot say with certainty what color the added pixels are. ... "that is a distortion of what, in fact, the original photograph was," Chirafisi said in arguing to keep out the image. Kraus called that a "canard" and a "dishonest argument." ... spokeswoman for Apple did not immediately return a message seeking comment about whether pinch-to-zoom alters an image.
https://apnews.com/b561bef68dc6aadaadc9b45a1bd93a19

Rittenhouse prosecutor says judge is not holding defense and state to the same rules
... Schroeder ruled use-of-force expert John Black would be allowed to testify at the trial, but would be limited to speaking about the timing of the events ... [Asst. DA] Binger objected to Black's testimony Thursday, saying Black was on the verge of violating the judge's order. Binger also said he wasn't given enough time by the defense to review Black's statement. ... After nearly 30 minutes of debate, Schroeder said Black's

AMERICAN OVERSIGHT

testimony could continue. ... "Clearly if we tried something like this, there would be quite a kerfuffle," Binger said. Reviews Rittenhouse testimony, Binger halted on cross-ex, defense call for mistrial.
https://www.wpr.org/prosecutor-kyle-rittenhouse-case-says-judge-not-holding-defense-and-state-same-rules

Could jury weigh lesser charges for Rittenhouse?
... Binger has struggled to counter Rittenhouse's self-defense arguments ... former Milwaukee County [asst. DA Adams] who isn't involved in the trial, described Binger's case as "incredibly underwhelming. He's got nothing," Adams said. "I just don't understand it. What are we doing here? We're all kind of scratching our heads." ... "[lesser charges] gives the jury negotiation room," he said. "They think something bad happened but they're not convinced the level of force was necessary. And that gives prosecutors two kicks at the cat." ... Prosecutors or defense attorneys can ask Judge Bruce Schroeder to inform jurors as they begin deliberations to consider finding Rittenhouse guilty of lesser charges in lieu of the original counts. The judge would then have to weigh whether the evidence the jury had seen supports those lesser charges before instructing the jury to consider them. ... [still finalizing exact charges,] might ask Schroeder to include a so-called provocation instruction. ... [which could] negate self-defense. ... "That's a pretty clear case of self-defense," said [ex-Waukesha DA] Bucher ... who isn't involved in the case. "When [Grosskreutz] has a handgun (and) was in the process of pointing it, that would give me great pause as to whether I'd even charge that." ... said Rittenhouse's team also could ask jurors to consider second-degree versions ... But Binger has already "muddled" the case with multiple charges and asking jurors to consider even more counts risks confusing jurors further, Bucher said. ... [UW Law prof.] Klingele said. Second-degree reckless endangerment could apply if jurors found that he put someone in harm's way but did so without showing utter disregard for human life, she said.

Subject: I stand with the Republicans of Sheboygan County

Dear Sen. LeMahieu and State GOP Chair –

I find it inexcusable that almost two full years have passed without an all-out genuine effort to get actual facts available to the public on what really happened in November 2020. Getting to the truth on that is and should always have been the absolute number 1 priority of our "Republican" controlled state legislature.

As a lifelong Republican, I strongly support Sheboygan County's call for Speaker Vos to resign. At a minimum there has been mismanagement and malfeasance on the most important matter imaginable in a true democracy – integrity in elections that engender confidence that individual voters' true, real and legal votes matter and that reliable systems are in place to prevent fraud which OBVIOUSLY was not the case in 2020 and I fear may never be the case again without strong, brave and competent leadership, which Rep Vos clearly lacks. He also is naïve and was used in connection with the illegal establishment of no excuse vote by mail and drop boxes that enabled illegal vote harvesting (which enables stealing, ghost voting, and improper coercion of the elderly and sick).

Wisconsin's Sheboygan County Republicans Pass Resolution Calling for Vote of No Confidence for Speaker Vos and Demand His Removal or Resignation (thegatewaypundit.com)

AMERICAN OVERSIGHT

In my opinion, Rep Vos should be encouraged to resign so that others who are bold and committed to learning the truth can lead and make real progress! It really appears, as I've written before that some are waiting out the clock and just hoping that folks eventually move on, but the questions about what actually happened in Milwaukee, Madison and Green Bay are too important to ignore. Why are mayors, WEC and county personnel allowed to refuse to cooperate with Justice Gabelman's investigation, which only was reluctantly set up by Rep Vos?

Advertisement

Wisconsin REALTORS Association

From WisPolitics.com ...

-- Senate Majority Leader Devin LeMahieu said he is not sure there is a "legal opportunity" to do as GOP U.S. Sen. Ron Johnson has suggested and have the Republican-controlled Legislature take over federal elections in Wisconsin.

LeMahieu, who was in a meeting Johnson held with Republican leaders at the state Capitol last week, appeared Sunday on "UpFront," produced in partnership with

WisPolitics.com.

Johnson has said lawmakers should take over federal elections and tell local officials to ignore the bipartisan Wisconsin Elections Commission.

"I am not sure how that would be accomplished," said LeMahieu, R-Oostburg.

"We have a state agency for a reason, to look at nomination signatures, to help candidates along the way, and to make sure clerks around the state know how to administer elections. I think the Legislature unilaterally taking over elections, I'm not sure how that would work," he said.

LeMahieu also said the state Senate subpoenaed the city of Madison for its election records because the city failed to work with the Legislative Audit Bureau in its recent look at the 2020 election in Wisconsin.

"Since we feel that the city of Madison is completely ignoring state law, we felt that it's important to give the audit bureau the opportunity to have access to those ballots and finish and complete their audit," he said.

Host Matt Smith asked LeMahieu if he favored reform of the WEC, which Republicans created to administer elections after they disbanded the former Government Accountability Board.

"We'll have to take a broader look at that. It's going to be tough, probably, to reform it with (Democratic) Gov. Evers in office, but the commission definitely needs to take the Audit Bureau results seriously, follow those recommendations and make sure they are abiding within state law," LeMahieu said.

Smith also asked LeMahieu if he thought five of the six commissioners should be criminally charged, as the Racine County sheriff has recommended.

"I'll leave that up to the prosecutors around the state of Wisconsin," he said.

-- In another segment, Milwaukee Police Chief Jeffrey Norman said he sees "a lot of energy behind solutions" to the reckless driving problem in the city.

Norman said the department's traffic safety unit is engaged in "active enforcement ... on a regular basis."

He also said red-light cameras could help with "certain parts of our community who don't believe in stopping at red lights or ensuring that they are slowing down."

He said dramatically increasing fines for reckless driving, as a suburban mayor has suggested, is a possible tool but would not be an all-encompassing solution to the

AMERICAN OVERSIGHT

public safety problem.

Norman also addressed the spike in homicides happening in Milwaukee. He said too many people with poor conflict resolution skills are turning to available firearms to resolve disagreements.

"We need to work on that, in regards of what can we offer better in regards to you might have disagreements, but does it have to turn deadly?" Norman said.

See more from the program:
http://www.wisn.com/upfront

-- Lawmakers last week circulated 11 bills for co-sponsorship, including one that would require the DOT to install tire deflation devices when building exit ramps on state trunk highways to prevent vehicles from entering in the opposite direction for which travel has been designated.

See the Association of Wisconsin Lobbyists' summary of last week's bills circulated, including links to the co-sponsorship memos:

TOP HEADLINES

Madison clerk responds to subpoena for 2020 election records
... [reviews Clerk Witzel-Behl vs LAB over requested ballot review, non-response from LAB to an August offer of copies, new Senate subpoenas requiring her to deliver records to Senate or arrange for LAB inspection] "I now find myself in the position of, in the worst case scenario, choosing to be subject to either potential federal criminal prosecution or a finding of contempt by the Legislature and the threat of imprisonment in the Dane County Jail," she wrote [to State Auditor Chrisman]. "As a state employee, I hope you can understand that this should not be the reality of public service for election officials in Wisconsin." ... proposed two options for LAB employees to inspect the city's election records: 1. Allow LAB staff, with clerk staff assistance, to "physically handle and inspect one record at a time." If auditors need to randomly select or sort records, "we can discuss how my staff can assist with accomplishing that under this method." 2. Allow Dane Co. LAB staffers to be sworn in as election officials. "This would provide me with the necessary confidence as custodian of the records that they will be handled and reviewed with the same care and chain of custody protocols as would be used by the City's election inspectors." Under this option, LAB staff could handle and inspect multiple records under clerk staff supervision. Witzel-Behl requested that the records review be scheduled either before or after the week of Nov. 22, since her staff spent Thanksgiving week last year assisting with the Dane County recount, "I trust that we share the same goal of providing the Legislature and the public with the most complete, accurate and transparent information and data regarding the administration of the 2020 General Election." LeMahieu spokesman "hopeful they can come to a quick resolution so we can complete our investigation."

Fight over WI's next congressional map, and what it means for the two parties
... 6-2 GOP advantage [in GOP map] stands in contrast to a rival plan drafted by the governor's redistricting commission, which in most cases would result in either a 4-4 split or a 5-3 Republican edge (which is the current breakdown). ... Is there any common ground between the two plans? Yes. Both plans envision two safe Democratic seats and four safe GOP seats. ... Where do the maps most differ? The key differences involve [CD1 and 3] ... regions that combine red and blue turf ... Republican plan leaves the 1st mostly unchanged and politically safe for the GOP. ... makes the 3rd about two or three points more Republican than it is now. ... commission's plan would make [CD3] about three to four points more Democratic than it is today ... shifting [CD1] from about a 10-point GOP lean to about a 5-point Democratic ... There is virtually no political scenario under either plan where Democrats could win more than four of eight seats. ... reflects the GOP's natural geographic advantage ... Under the GOP plan, a little more than 6% of Wisconsinites would find themselves in a different U.S. House district ... Under the commission plan, 28% would. ... There would be at least six uncompetitive seats under both plans: the 2nd, 4th, 5th, 6th, 7th and 8th. But the commission's map creates a little more competition than the GOP map.

After final word from attorneys, Rittenhouse jury takes over
Attorneys were set to make closing arguments Monday ... last word before a jury begins deliberating in a case that underscored Americans' bitter divisions on issues of guns, protests and policing. ... [review of shootings, trial] With prosecutors trying to focus jurors on the totality of what Rittenhouse did, starting with his decision to come to Kenosha with a gun, the defense tried to steer them toward the roughly 3 minutes that began with Rosenbaum's pursuit of Rittenhouse -- the period at the heart of his self-defense claim. After closing arguments, names were to be drawn to determine which 12 of the 18 jurors who heard testimony will deliberate. With a verdict near, Gov. Tony Evers said that 500 National Guard members would be prepared for duty in Kenosha if local law enforcement requested them.
https://apnews.com/a5ee515a50f77ea4993bf7176859ef57

Jury to get to weigh some lesser charges in Rittenhouse case
... Defense lawyers can object to lesser charges, and in some cases Friday, they did. For those that they didn't object to, Judge Bruce Schroeder asked Rittenhouse to confirm that he agreed with his attorneys' decision. Schroeder told Rittenhouse that by including the lesser charges, "you're raising the risk of conviction, although you're avoiding the possibility that the jury will end up compromising on the more serious crime. And you're also decreasing the risk that you'll end up with a second trial because the jury is unable to agree." ... Friday's arguments over jury instructions were contentious at times, with attorneys rehashing debates they had earlier in the case. ... Schroeder ultimately said he would allow the provocation instruction, which would ask the jury to consider whether Rittenhouse provoked Rosenbaum into attacking him. If the jury finds he did, that would negate self-defense. ... Prosecutors asked to add second-degree attempted intentional homicide, first-degree reckless endangerment and

AMERICAN OVERSIGHT

second-degree reckless endangerment options. Rittenhouse attorney Corey Chirafisi didn't object to the second-degree attempted homicide count, but he objected to adding the reckless endangerment counts, saying he doesn't believe someone can "attempt to be reckless." Review charges, shooting backdrop. Atty. Kim, MU Law prof. O'Hear comment.
https://apnews.com/c2fc277268d0597911064355f2554e59

As nation watches Rittenhouse trial, Judge Schroeder's peculiar behavior stands out
... Bruce Schroeder, the longest-serving circuit court judge in Wisconsin, has emerged as a lightning rod ... But Schroeder has his defenders, too ... "We forget that judges are real people," said Milwaukee defense attorney Dan Adams, "He has idiosyncrasies, everyone has them. Part of the job of the trial lawyer is to learn about those and navigate the different opinions and stances of the jobs," he said. "I think (defense attorney) Mark Richards is doing a much better job doing that than (Assistant District Attorney Thomas) Binger is." ... Milwaukee attorneys who have practiced in front of Schroeder -- Julius Kim and John Birdsall -- said they understand why ... But both said onlookers shouldn't let that distract them. ... "He is who he is and I don't think that has any bearing on the case particularly," Birdsall said. ... [ex-Supreme] Geske called the [ruling against the term "victim"] "odd," but said it is "certainly within the bounds of his authority." ... [attys. comment on trial moments, including calling for applause for witness who was a veteran] "This move with the veterans and a witness is really concerning," Geske said. "I don't know what he's doing. My guess is he's extremely tired. Those are tough, emotionally exhausting cases to try. But none of that excuses having the jury applaud for a defense witness. I just can't even imagine."

Boom cycle: Economic recovery, home deliveries fuel demand for recycled materials
... [pre-pandemic] Wisconsin recyclers couldn't give away scrap paper. ... average price paid for used corrugated cardboard in the Midwest hit $185 a ton in October, the highest in two decades ... plastic milk jugs hit a record high of more than $2,000 a ton in August, and for the past year and a half has been worth more than aluminum ... five times what they did in 2019. ... All those plastic takeout containers and Amazon boxes have to come from somewhere, after all, and that has made recycled material more competitive. ... Many [munies] have seen revenues outperform their projections, in some cases enough to cover other program costs. ... Vernon County ... city of Madison ... in the black ... "You definitely have to have a long-range view to be in the recycling game," said [WM's] Morgan. "You have to be able to stomach the downturns." ... Wisconsin law bans #1 and #2 plastics -- used to make soda bottles and milk jugs -- from landfills, along with aluminum and tin cans, glass bottles, cardboard and most paper. ... But single-stream recycling programs like Madison's also collect other plastics -- including dairy containers, PVC and buckets -- that may not be so easy to sell, especially if they can't be easily sorted. ... "Plastics are a very complex chemical material," [UW prof.] Huber said. "There's not one easy way to recycle all plastics." As a result, only about 13% of consumer plastic actually gets recycled ... "The demand is not going away," [DNR's] Semrau said. "I would be shocked if we go back to where paper is zero dollars."
https://madison.com/wsj/262d7e33-a94e-5eb2-93d2-1b0f557e86d4.html

In the wealth race, Mandela Barnes trails far behind Dem primary rivals
... recorded $148,080.40 in income as the state's lieutenant governor, according to a federal financial disclosure he filed earlier this month. ... assets of between $5,000 and $75,000 in four mutual funds and a savings account. ... no dollar figure on a listing for his state retirement plan. ... no liabilities of $10,000 or greater. ... owns two condominiums, but they are not listed on the form. ... The form does not require a candidate to disclose his primary residence, nor a mortgage used for personal use. ... Godlewski and her husband ... [had assets] between $23.9-60M ... Lasry ... listed assets ranging from $100-273.1M ... U.S. Sen. Ron Johnson... worth between $16.5-78.1M ... "It's been widely reported ... " [he tweeted a WisPolitics.com "Capitol Report: Mandela Barnes trails top rivals in personal wealth"] ... [also tweeted] "As of 2018 a typical member of Congress was 12x richer than the typical American household. More than half are millionaires." ... [and] "The last thing we need is another millionaire (or billionaire) in Congress. That's why I'm fighting to change the game, to level the playing field. We're fighting for opportunity."

Thursday: WisPolitics Luncheon: Panel Discussion on Wisconsin Redistricting

Join us for an in-person luncheon at The Madison Club on Thursday, Nov. 18 for a discussion about the once-a-decade redrawing of congressional and legislative boundaries in Wisconsin.

The event features a panel discussion with three former legislators who have deep experience in legislative map-making -- Republicans Scott Jensen and Joe Handrick plus Democrat Chuck Chvala -- along with Elizabeth Treviño, Wisconsin state director of allontheline.org.

See additional details and register here: https://www.eventbrite.com/e/wispolitics-luncheon-panel-discussion-on-wi-redistricting-tickets-186304851827

This luncheon is sponsored by Husch Blackwell, American Family Insurance, Xcel Energy, Walmart, AARP Wisconsin and the Wisconsin Hospital Association.

WisPolitics.com subscribers and members, as well as Madison Club members and their guests, receive discounted pricing for WisPolitics luncheons.

Advertisement

Wisconsin REALTORS Association

From WisPolitics.com ...

-- A Milwaukee tourism official told WISN's "UpFront" private donors have pledged between $10 million and $20 million should the city be named host for the 2024 Republican National Convention.

"We've already garnered some support," said Peggy Williams-Smith, president and

CEO of Visit Milwaukee. "Obviously I can't say who that is at this point. But we have already raised money, a significant amount of money through our bid committee, the community members who have been making phone calls, and we do have people who have agreed to give based on the fact we get it."

A delegation from Milwaukee hosted a reception this past week during the RNC's winter meeting in Salt Lake City.

Milwaukee is one of four finalists alongside Nashville, Pittsburgh and Salt Lake City.

"We brought a taste of Milwaukee to them," Williams-Smith said on the program, produced in partnership with WisPolitics.com. "We highlighted what they would see in Milwaukee through the food that we served as well as the different areas. So we had a local Harley dealership who provided us with three Harley-Davidsons with a photo op so they could take a picture with a Harley. We also had a supper club set up where we had carved prime rib as well as all the accompaniments that go with that. We had a beer garden that featured a traditional Milwaukee fish fry."

Williams-Smith said at this point it's hard to know where the city stands, but added she feels confident.

"I continue to receive questions from the site selection committee and am in regular communication about things they need to see when they come in for their big site tour," Williams-Smith said.

The RNC has said its next step will be to narrow the list of four cities to three.

-- Senate Minority Leader Janet Bewley, on her decision to not seek reelection, told WISN's Adrienne Pedersen it's time.

"A lot of us are just at that age," said Bewley, 70. "We're those baby boomers, and we've got to get the heck out of the way."

Bewley said she doesn't support any of the Republican-authored election bills that will go before committees this week. But she noted she is open to some change, specifically surrounding suggestions from the nonpartisan Legislative Audit Bureau.

"There are some things that we have that would go along with how we can monitor ballot boxes," Bewley said. "I think as we go towards new ways for people to vote, I think that's a reasonable thing to look at. I think internally some of the measurement techniques that the Audit Bureau saw could be improved are a very natural thing, but we don't need legislation to enact these suggestions that the Audit Bureau made. Those can all be accomplished by internal procedural changes."

AMERICAN OVERSIGHT

-- Also, early voting is underway ahead of the Feb. 15 primary in Milwaukee's mayoral race. Seven candidates are vying for the top two spots to advance to the April 5 general election.

The city will have a new mayor for the first time in nearly two decades after former Mayor Tom Barrett was appointed to serve as ambassador to Luxembourg for the Biden administration.

All seven candidates talked with WISN's Matt Smith about the city's relationship with the state.

"I'm committed to having a cot in the Capitol working day in and day out with legislators to show them the value added for Milwaukee and also explain the fiscal challenges the city of Milwaukee has," Acting Mayor and Common Council President Cavalier Johnson said.

Former Ald. Bob Donovan said his relationship with several key Republicans could be a game-changer.

"They want to help," Donovan said. "I'm convinced ... if we are able to put together an initiative to address these things that make sense for all of us."

One of the long-standing issues is the Legislature's refusal to allow Milwaukee County to ask residents to raise the county's sales tax.

"Let me just say first thing, I think a sales tax is putting a Band-Aid on cancer," state Sen. Lena Taylor said. "So when I looked at it when the former administration brought it, and I was on (the Joint Finance Committee) and potentially the person to advocate for it, what we found is in five years the pension crisis was going to eat it all up."

Other candidates, though, argue it's a critical piece to Milwaukee's economic future alongside an increase in shared revenue to address budget issues and the city's looming pension crisis.

"It is a crisis, and it's ballooning," Ald. Marina Dimitrijevic said. "In one, two, three years, we will have to cut many city services - fire, police, trash collection, you name it."

Milwaukee County Sheriff Earnell Lucas said these conversations with the state would be a top priority.

"The mayor has to be able to go to Madison and speak with the Legislature," Lucas said. "Bring other voices, whether the business community, philanthropic community, certainly the community at large and others to the table."

Small business owner Michael Sampson said he'd bring a "common sense approach" to negotiate with Republicans and Democrats. And community activist Ieshuh Griffin said

AMERICAN OVERSIGHT

would "look at expanding what resources we can get."

See more from the show:
https://www.wisn.com/upfront

-- A group calling itself Wisconsin Business Leaders for Democracy sent letters to election officials around the state today praising their work.

The version sent to Administrator Meagan Wolfe and the Elections Commission noted the leaders were "aware that aggressive attempts of legal action, calls for your resignation, and even threats of violence make the job of administering our elections more difficult than ever."

"As an election official, your work is the glue that bonds our processes and upholds our democracy," the letter reads. "We are lucky to have your talent and expertise here in Wisconsin as we head into the 2022 elections."

Similar letters sent to more than 1,800 local clerks around Wisconsin.

The letters come as some GOP lawmakers have called for Wolfe's resignation, the abolishment of the Elections Commission and an overhaul of election laws.

The Wisconsin Business Leaders for Democracy includes some who have been Dem donors such as Tom Florsheim Jr., chairman & CEO of Weyco Group; Cory Nettles, who served as Commerce secretary under Dem Gov. Jim Doyle and is now founder and managing director of Generation Capital Growth; and David Lubar, president and CEO of Lubar & Co., who has given to candidates from both parties. Peter Feigin, president of the Milwaukee Bucks, also signed the letter.

-- The state Department of Justice has also asked the state Supreme Court to allow unmanned drop boxes in the April election as well as the Feb. 15 spring primary.

The court previously allowed drop boxes for the primary as it decides whether to permit their use after that. Last week, several groups involved in the suit urged the court to also allow them in the April 5 election.

AMERICAN OVERSIGHT

On Friday, the state DOJ filed a similar request, arguing changing the rules for returning absentee ballots so close to the April 5 election could cause confusion. The agency argued the stay should remain in place until after the April 5 election or the court issues a ruling on the merits of the case, whichever is later.

The filing came shortly after the state Supreme Court declined to take original action in GOP guv candidate Rebecca Kleefisch's suit challenging the use of drop boxes and guidance on procedures from the Elections Commission.

Read the filing:

-- Lawmakers last week circulated 41 bills for co-sponsorship, including a new proposal to eliminate the personal property tax.

Gov. Tony Evers last year vetoed a bill seeking to eliminate the tax, raising concerns that wording in the legislation could lead to unintended consequences. He has since thrown his support behind a Dem bill to repeal the tax.

That bill has yet to receive a public hearing, and GOP legislative leaders have signaled they will wait until next session to take another run at repealing the tax.

The bill that began circulating on Friday would repeal the tax beginning with assessments as of Jan. 1, 2022. Beginning in 2023, the state would pay each taxing jurisdiction aid to make up for the lost property tax revenue.

The bill had no Senate co-sponsors.

See the Association of Wisconsin Lobbyists' summary of last week's bills circulated, including links to the co-sponsorship memos:
https://www.wispolitics.com/wp-content/uploads/2022/02/220206AWL.pdf

From WisBusiness.com ...

-- An Assembly committee has approved a hotly debated bill related to electric vehicle charging infrastructure that opponents say would limit the role of local government in transportation innovation.

The Assembly Committee on Energy and Utilities recently passed the legislation during an executive session after adding several amendments. In its amended form, the bill would prohibit cities, villages, towns, counties and school districts from owning, operating, managing or leasing a charging facility.

AMERICAN OVERSIGHT

The bill, designated as AB 588/SB 573, creates an exception to the state's definition of a public utility specifying that owners and operators of these facilities should not be regulated as such as long as certain criteria are met, related to how fees are assessed and other factors.

Jim Boullion, director of government affairs for Renew Wisconsin, explained the bill allows municipalities to authorize a utility or other private entity to operate an EV charger on their property. But he says that leaves "numerous areas" that won't get EV charging services. Renew Wisconsin is opposed to the bill in its current form.

"We agree with the idea that private businesses should always be the first option for any EV charging solution, but there are many areas of the state that will need EV chargers where the economics of that location prevent private investment in them," Boullion said in an email.

Supporters of the bill say it's needed to ensure Wisconsin can keep up with the pace of electric vehicle development as more residents and visitors decide to drive these vehicles.

But Boullion also said the group is concerned with a requirement to only allow chargers to use energy purchased from the local utility, arguing that will "eliminate public EV chargers that utilize solar power because the owner would not be able to charge a fee to offset the cost of the system."

One of the bill authors, Sen. Rob Cowles, R-Green Bay, addressed the concern during a recent panel discussion in Madison moderated by Boullion.

"It does ban microgrid EV charging infrastructure, direct generation to infrastructure EV charging station, which I know you don't like that, but it's what we have to do to get this bill done," he said.

A number of organizations have registered in support of the bill, including: Dairyland Power Cooperative, Kwik Trip, Municipal Electric Utilities of Wisconsin, the Wisconsin Automobile and Truck Dealers Association, the Wisconsin Conservative Energy Forum, the Wisconsin Electric Cooperative Association, Wisconsin Manufacturers and Commerce and WPPI Energy.

But more than a half-dozen others have registered against it. These include: the Alliance for Automotive Innovation, the League of Wisconsin Municipalities, the League of Women Voters of Wisconsin, the Wisconsin Counties Association, the Wisconsin Towns Association, Renew Wisconsin, and both Madison and Milwaukee.

Several of those groups had supported the bill in its original form, but changed their stance due to the amendments. Another Green Bay Republican, Rep. David Steffen, acknowledged during the executive session that the bill "went through a lot of evolution

AMERICAN OVERSIGHT

and certainly complicated" by the time of the committee's vote.

"But it's indicative of the seriousness and creativity that the members of this committee and others have applied to the issue, so I'm thankful for all those who worked with the author on this committee to make this a better bill," he said. "While it has certainly created additional effort and hoops on our end to get it through, it shows that we have done our job."

During a WisPolitics.com/WisBusiness.com event last week in Milwaukee, Madison Mayor Satya Rhodes-Conway argued the bill would "severely limit the ability of local governments to participate in this EV revolution." She said it would disrupt Madison's efforts to advance EV charging development along with its electric vehicle fleet and a partnership with Pierce Manufacturing to lease the nation's first electric fire truck.

"We can't let the Legislature get in the way of that and stifle innovation," she said.

The bill's committee passage comes as Wisconsin is set to receive $75 million in federal infrastructure funding over the next five years for electric vehicle charging stations.

TOP HEADLINES

WI still has $1.8B in federal pandemic relief funding to spend
Evers update shows state has spent or allocated about 60% of $4.6B in federal funding * $1.3B to state workforce, farm and business aid * $205M in Neighborhood Investment Fund grants * $125M in workforce innovation grants aimed at addressing worker shortages. * $83.9M to expand broadband access -- spent or allocated $21M of $113.7M * $75M for health care infrastructure, especially in areas most affected by COVID-19. * $59M in public safety grants, including victim services and violence prevention. Evers release ... "We've made critically important investments. We'll keep working to get help to folks who need support now." ... follows GOP amendment giving JFC control over spending federal funds. JLAC seemed to have bipartisan support for an LAB audit of pandemic relief spending, with co-chair Cowles complaining Evers has offered little info, "It's a lot of money, and we don't even have a clear idea of how it's being spent. We don't understand the policy implications. ... We need to know that." Sen. Carpenter argued WI's economic recovery is proof of proper spending, "Without the federal funds to help our (state) budget, we wouldn't have the type of budget surplus we have. Local communities' ... financial situation would be much, much worse." https://www.wpr.org/wisconsin-still-has-1-8b-federal-pandemic-relief-funding-spend

WI high court won't take Kleefisch challenge over ballot boxes
... an issue the court is already considering in another case. 4-3 majority [Hagedorn +libs] did not give a reason for not taking the case... in June also refused to take [Fabick's] legal challenge ... [dissenter Roggensack] argued that the court should have taken the case "because Wisconsin voters deserve elections conducted in a manner that we have reviewed and approved. ... sidestepping [our] obligation to hear the continuing cry of Wisconsin voters and address absentee ballot issues." Supremes already agreed to hear WILL's ballot box case, after allowing ballot boxes for Feb. 15 primary. Kleefisch tweet: "It is a truly sad day when our state's highest court refuses to uphold the law. I am committed to ensuring the integrity of our elections and making sure our laws are followed because clearly no one else will. To be continued." https://apnews.com/b5fb89eef7508268df6931d4df5a955c

Record number of Republicans and Democrats sign up to inspect Wisconsin elections
... [Milwaukee election commissioner] Woodall-Vogg says [RPW, DPW] have nominated [265 Dems, 209 GOP] to serve as inspectors [compared to 20 Dems, 45 GOP in 2020]

AMERICAN OVERSIGHT

... "It is in state statute and they do have first grabs at election inspectors, but this is really the first time we've seen them utilized." RPW chair Farrow: "We want to make sure what's happening at central count is legal and legitimate. ... So we've asked our membership across the entire state to say, 'will you be our front line?'" touted 5K statewide, with focus on Dane and Milwaukee counties, "If a clerk starts to cure a ballot, currently that is against state statute and we will challenge it." DPW chair Wikler said Dems seek equal representation, "There's a conspiracy theory on the right that's driven a surge of interest by Trump supporters in signing up to be poll watchers and observers, and there's a deep commitment to democracy that's driving Democrats to be poll workers." Woodall-Vogg says both parties will get 45 inspectors each to help process absentee ballots on Feb. 15, and so many beginners could slow counting. Other nominees will be on stand-by for upcoming elections in 2022.

Dem U.S. Senate candidates want more rural votes. Can they get them?
... "As Senator," Godlewski said in a statement about her rural policies, including boosting broadband and health care access, "I will listen, I will engage, and I will ensure that Washington politicians finally start hearing Wisconsin's rural voices." ... Nelson kicked off the "Full Nelson Tour," visiting each of Wisconsin's 72 counties over six weeks. In his tour announcement, he pledged to fight for a Green New Deal, Medicare for All and a $15 minimum wage while listening to what rural voters needed from him. ... Barnes also made it a point to visit every county in Wisconsin. Lasry has been "showing up in communities that have traditionally been largely ignored by most Democrats and taken for granted by Republicans," his spokesperson Thad Nation said. ... [Barnes, Lasry] have voiced support for increased internet access, improved health care and support for family farms. ... Rural Wisconsin is not a monolith ... steadily moved to the right ... outstate liberal constituency is small and waning. ... about 30% of Wisconsinites live in rural areas and rural millennials are fleeing to population hubs ... [WFU's Von Ruden opposes Johnson] added that many farmers want climate action to preserve farms' longevity, but the Green New Deal prioritizes urban centers and would [over-]regulate farms ... [SaukCo GOP-er Frostman says,] "Ron has great appeal to a lot of rural voters because of some of those traditional values that he supports." ... "I would say people (here) are more upset with the border than anything else," said [FlorenceCo GOP chair] Jennings. ... also concerned with "voter irregularities" along with national security. US Sen. Baldwin shows model for rural Dem outreach. More on Dems' rural plans. MU Law pollster Franklin, UW prof. Burden, rural organizer Hogseth comment.

Secretive group spends big bucks to promote Acting Mayor Johnson
... Fair Future Action [a 527 formed Jan. 3, believed to be Abele-funded], has spent more than $120K to air the TV spot, which first began running Tuesday on network and cable stations. Only Johnson's own campaign has spent more on the race, having doubled that figure. .... "Mayor Cavalier Johnson, working to change Milwaukee for the better -- higher wages, safer streets," says the commercial with video of Johnson walking through City Hall and with his family. "Cavalier Johnson is adding 200 new cops

AMERICAN OVERSIGHT

this year. Taking action for a safer Milwaukee, Mayor Cavalier Johnson." FFA treasurer Weber has worked for Nation Consulting, did not respond. "I am almost certain this is the first time that we've had a 527 that was active in a Milwaukee mayor's race," said uninvolved Dem strategist. Reviews Abele, inherited wealth, his independent expenditure group Leadership MKE. Chris and Jennifer Abele have each contributed $6K max to Johnson's campaign. Abele no comment on FFA, "I haven't made any sort of final decision about if, how and how much I might put in to supporting Chevy's race, beyond obviously I've already maxed to him. But I'll certainly do something." FFA not a PAC, so only reports donors, amounts quarterly, which will come after election. Challenger Donovan: "They definitely should disclose. My contributors are 20 bucks from grandma and grandpa." Chheda for Johnson said they prefer spending from candidates, not coordinating with FFA, "The mayor and I agree that any group that is raising money from donors or spending money in the race should always disclose donors and spending."
https://www.jsonline.com/story/news/investigations/daniel-bice/2022/02/07/secretive-group-spends-big-bucks-touting-acting-mayor-cavalier-johnson/6664491001/

Ron Johnson won't try to land Oshkosh Corp. postal vehicle work
... Under the plan, more than 100 employees in engineering and program support for the project would be based in Oshkosh at the Next Generation Delivery Vehicle Technical Center. 1K new hires were expected at SC manufacturing facility. Union has urged Oshkosh to reconsider. EPA suggested USPS re-evaluate the contract, which calls for only 10% of total production be EV. * US Sen. Johnson: "It's not like we don't have enough jobs here in Wisconsin. The biggest problem we have in Wisconsin right now is employers not being able to find enough workers. ... I wouldn't insert myself to demand that anything be manufactured here using federal funds in Wisconsin. Obviously, I'm supportive of it. But in the end, I think when using federal tax dollars, you want to spend those in the most efficient way and if it's more efficient, more effective to spend those in other states, I don't have a real problem with that." * US Sen. Baldwin: "To me, it's simple -- I want Oshkosh Defense to manufacture trucks in Oshkosh with Wisconsin workers," contended production in South Carolina would likely be done by non-union labor. * Dem challenger Nelson: "He wants a third term and he just doesn't understand economic development. It's mind blowing, breathtaking."

New NR Board chair Kazmierski vows to tackle issues despite ongoing Prehn rift
... owner of Buck Rub Outfitters in Pewaukee and avid hunter, said he's hoping to put politics aside ... "The board has been -- since the Walker administration -- trying to get something done on this water thing," he said. "I think we're at the ninth hour right now, and maybe going to accomplish something as long as (the DNR) brings something forward that meets the scrutiny," has spoken to DNR Sec. Cole about bringing passable regs, "Don't just give us garbage to have to pass for the sake of passing something," dismissed Prehn issue, "They're made-up issues. I don't believe that he did anything out of the ordinary that wasn't done before. And a court validated that, so to me, it didn't create any issues. ... It's not a dysfunctional situation. We just have to push back the

politics and keep it out of board business." Reviews AG Kaul suit to pry Prehn off board for successor Naas. Prehn: "I will see this through and I believe I am on the right side of the statute." Human Society's Arrivo: "He's in a position where he's able to negatively influence both the substance and the legitimacy of the Natural Resources Board and its decisions regarding natural resources. And particularly regarding wildlife." MEA's Wilkin Gibart, Sierra Club's Lane comment.
https://www.jsonline.com/story/news/politics/2022/02/04/new-wisconsin-natural-resources-board-chair-vows-work-past-frederick-prehn-greg-kazmierski/9259571002/

ATC flips position, backs WI SB838 on rights to transmission expansion
... an identical Minnesota law ... meant to ensure the owners of power lines can build additional ones ... keeps ATC from building lines because it has few existing lines there. ... [WI's Bradley-Roth bill, also supported by Utilities Committee Dems Smith and Pfaff] would allow the owners of transmission lines to build lines that connect to their existing ones, preventing competitors from trying to get the work. ... has attracted an unusual collection of opponents that includes environmentalists and [Koch Bros.' AFP]. Reviews ATC opposition in MN, ATC's Marsen comments. AFP's Bott: "They want government in Wisconsin to protect them from competition, right? But they want to be able to compete for work in other states. ... Really, this is cronyism. If you read the bill on its face, the purpose is to fence out competition and protect the home team." PSC commissioner Nowak said bill preserves WI self-determination, as opposed to "slow, cumbersome" MISO/FERC bureaucracy. Supporters include MMAC, CBG including Xcel, Dairyland. Opponents include WILL, Clean WI, CUB. Opponents aim to turn GOP by noting Trump's USDOJ in 2019 opposing similar law in TX. "The Division is concerned that these restrictions would limit competition, thereby potentially raising prices and lowering the quality of service for electricity consumers," [USDOJ's] Haar wrote.
https://www.jsonline.com/story/news/politics/2022/02/07/atc-reverses-its-position-sees-chance-avoid-competition/6665893001/

Contact: GovPress@wisconsin.gov

Gov. Evers Releases Statement on Gableman Report

MADISON—Gov. Tony Evers today released the following statement in response to a report released by former Justice Michael Gableman:

"This circus has long surpassed being a mere embarrassment for our state. From the beginning, it has never been a serious or functioning effort, it has lacked public accountability and transparency, and it has been a colossal waste of taxpayer dollars.
"This effort has drawn bipartisan opposition, and nothing about it has changed or will change what the courts, the nonpartisan Legislative Audit Bureau, and multiple other reviews have already proven: Wisconsin held a free, fair, and secure election in November 2020. Wisconsinites' votes were counted in every municipality by trusted local officials, in the presence of representatives from both parties, and machines across the state were subject to an official audit. This effort has spread disinformation about our election processes, it has attacked the integrity of our clerks, election administrators, and poll workers, and it has emboldened individuals to harass and demean dedicated public servants.

AMERICAN OVERSIGHT

"The right to vote is a fundamental core value of our democracy—it should not be subject to the whim of politicians. No politician should be able to abuse their power to prevent eligible voters from casting their ballots or to cheat our election results just because they didn't like the outcome of the last election. Every day this effort continues it is an increasingly dangerous and ongoing threat to our democracy. Any mere condemnation of this effort rings hollow—it has to end. Enough is enough. Republicans in the Legislature have always had the ability to end this effort, and I call on them to do so today."

An online version of this release is available here.

THU PM Update -- 11 Nov. 2021

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- The Assembly approved new GOP-backed legislative and congressional maps today after some Dems berated both the Republicans lines and a proposal from a commission Gov. Tony Evers created.

Ahead of two 60-38 votes on the Senate-passed bills, Speaker Robin Vos said the Senate-approved maps drawn by GOP legislative aides adhere to Voting Rights Act requirements better than People's Maps Commission maps. The Rochester Republican said the GOP maps are compact and contiguous, avoid splitting wards or municipalities, retain core populations and maintain communities of interest.

The maps now head to Evers' desk for consideration, who has vowed to veto them. That would all but assure the courts will draw Wisconsin's political boundaries for the 2022 elections. There are currently lawsuits pending before the state Supreme Court and a federal court asking them to draw the lines if the guv and Legislature fail to reach

AMERICAN OVERSIGHT

a deal.

During floor debate, Vos said Dems could win a majority under the current and the GOP-offered maps if they fielded better candidates.

"Statewide election results point to the fact that both Democrats and Republicans can achieve a majority in the state Assembly if they have candidates who appeal to the people in each district," he said.

Minority Leader Gordon Hintz, D-Oshkosh, knocked Vos for forcing an amendment vote on the PMC's legislative maps, calling it a political game.

The Assembly rejected the PMC's legislative maps 77-21. All Republicans present voted against the maps, while 21 Dems voted in favor and 17 voted against them.

Hintz also said he doesn't buy Republicans' argument that their maps are best because they present the least-possible amount of changes to current maps, as they continue to be skewed against electing Dem candidates.

He added gerrymandering and the focus on reelection instead of lawmaking detracts from the essential role representative government plays.

"Having fewer competitive districts really leaves our Democracy in shambles," he said.

"Do you understand that it is not normal for a 50/50 state to have 64 seats drawn to be more Republican?"

But Hintz added the maps being debated today likely won't be the new maps.

"Your maps are not going anywhere, the People's map's not going anywhere," he said. "We'll see what happens in the courts."

-- Rep. Sylvia Ortiz-Velez, D-Milwaukee, slammed Evers' maps for working to increase Dem seats at the expense of limiting representation of Black, brown and other minority voters.

She said any new maps must protect minority-majority districts, adding the PMC maps are part of a national effort to limit minority-majority representation.

"It promotes a white supremacist agenda that says it's OK for other folks who we don't choose to rule over us and make decisions for us," she said. "I will not remain silent, Mr. Speaker, while others unlawfully try to prevent us from electing candidates of our choice. These maps are illegal and a perversion of justice that cannot stand."

Ortiz-Velez added she and other minority lawmakers were blocked by the executive

AMERICAN OVERSIGHT

branch from intervening in the PMC process.

Rep. LaKeshia Myers, D-Milwaukee, said Ortiz-Velez is right about the PMC maps, but the Republican maps also smack of gerrymandering.

Myers also said minority voters have historically suffered under both parties, but she will not vote for any map that limits representation for African-Americans.

"But when it comes to looking at maps, I'm not willing to vote for any map that dilutes and or erases African American or Latino representation," she said. "I don't care who wrote it, who drew it, who took the crayon, who circled it, who did whatever, because it makes no sense."

She said she called a quorum before going into her speech because some of her Dem colleagues decided to leave the floor and she wanted to make sure they were present.

-- The Assembly approved legislation that would create a new process to collect and process sexual assault kits and establish a tracking system to ensure a backlog doesn't happen again.

Both bills are now headed to Evers' desk.

The Assembly failed to pass nearly identical versions of the bills last session, but they included provisions backers of the original legislation didn't support.

Both bills were sparked by the state's past struggles with a backlog of test kits, which became an issue in the 2018 AG race as Dem Josh Kaul defeated GOP incumbent Brad Schimel. But the issue has stretched back years.

Senate Bill 71, which would create the process for collecting and processing the kits, was approved via voice vote. SB 94, which cleared the Assembly unanimously, would require the Department of Justice to create a database to give sexual assault victims access to information about the status of their kits, as well as various law enforcement and health care professionals to track and update their location. The original version included $400,000 in state funding to cover the cost of the database. But DOJ has since secured federal funding to pay for it. The amended bill cleared the Senate 32-0.

Last year, the Assembly approved along party lines a version of the package that included a requirement that law enforcement would notify U.S. Immigration and Customs Enforcement if a non-citizen who wasn't authorized to be in the country was arrested for sexual assault. Dems decried the additions as poison pills.

-- The Assembly also approved a bill to help two aging paper mills after Gov. Tony Evers vetoed a similar bill earlier this year.

AMERICAN OVERSIGHT

The Assembly in a 96-2 vote passed AB 682, which would authorize up to a $1 million grant to maintain and operate the Verso mill in Wisconsin Rapids and authorize a $15 million loan for someone to buy or improve Park Falls Pulp and Paper Mill in the city of Park Falls.

The bill now heads to the Senate.

Evers in July vetoed a bill that would have authorized the Wisconsin Economic Development Corporation to use federal COVID-19 aid to issue a $50 million loan to a co-op that was looking to buy the Verso mill and another $15 million for a party to buy the Park Falls mill.

Rep. Scott Krug, R-Nekoosa, said securing the funding in the bill is critical to securing a bigger deal to sell both mills to new buyers and make sure minimal damage is done to mill equipment during an expected cold and wet winter.

"Time is of the essence," Krug said.

-- GOP Assembly Speaker Robin Vos said he's never studied whether the Legislature could take over elections administration in Wisconsin as U.S. Sen. Ron Johnson is urging lawmakers to do.

After meeting with state lawmakers yesterday, the Oshkosh Republican told the Milwaukee Journal Sentinel the Legislature should reassert its authority over the election system.

Johnson has said he will announce soon whether he will seek a third term next year.

"There's no mention of the governor in the Constitution," Johnson told the paper after the closed-door meeting with GOP lawmakers. "It says state legislatures, and so if I were running the joint -- and I'm not -- I would come out and I would just say, 'We're reclaiming our authority. Don't listen to (the Elections Commission) anymore. Their guidances are null and void.'"

Vos, R-Rochester, told reporters today the meeting with Johnson largely focused on other issues and that he encouraged the senator to review the Legislative Audit Bureau's report on the 2020 election.

"The idea of saying that, yes, the Elections Commission has to follow the law by working with the Legislature, that's in the statute's that's how it has to happen. So if that's Sen. Johnson's intent, he's right. The Legislature has to be involved," Vos said. "But the idea of somehow we're going to take over the elections and do all those things, I've never studied that. I don't know about it. But that wasn't part of our discussion."

AMERICAN OVERSIGHT

Vos noted a 1964 state Supreme Court ruling rejected the suggestion that the Legislature could complete redistricting through a resolution without involving the guv.

-- Former Supreme Court Justice Michael Gableman addressed the issue in a just-released report, arguing it's an "open question in state law" if the Legislature can "tighten up or loosen election security for federal elections" without input from the governor.

Gableman's interim report, released yesterday, covers the main issues that he's been looking into under a $676,000 taxpayer-funded contract he signed with Vos. That includes the authority of the Wisconsin Elections Commission.

Gableman wrote the U.S. Constitution gives state legislatures the primary responsibility for establishing rules regarding things like voter registration. He argued that power was ratified in the Wisconsin Constitution, which declares "legislative power shall be vested in a senate and assembly."

He argues the combined impact means it's an open question whether the two chambers can take action through joint resolution, which doesn't require gubernatorial input and "whether there are limits on how much of this constitutional responsibility can and should be delegated to other state actors" such as the Elections Commission.

Still, Gableman notes in the report that the Wisconsin Constitution also clearly states the guv's role in signing bills into law.

"It may be the case that the Senate and Assembly can change election regulations in the absence of a statute on the books, indeed Wisconsin law appears silent on this question, but it would be another matter for the Senate and Assembly to seek to repeal an extant portion of the election code."

See page 8 of the report:
https://www.wispolitics.com/wp-content/uploads/2021/11/211110Interim.pdf

-- Gableman also claims state statute on how electors are chosen didn't empower the Elections Commission or guv to certify the results of an election, even though Wisconsin law clearly lays out their roles in that process.

Kevin Kennedy, the former director of the Government Accountability Board, noted there were legal arguments raised during various efforts to overturn the results of the 2020 election that cited powers the U.S. Constitution grants to state legislatures.

But both he and Rick Esenberg, president and general counsel of the conservative Wisconsin Institute for Law & Liberty, told WisPolitics.com today the Legislature gave the Elections Commission and guv clear roles in certifying election results.

AMERICAN OVERSIGHT

"The Legislature doesn't certify the results. The Legislature prescribes how you conduct elections," Kennedy said.

Gableman's office directed WisPolitics.com today to submit questions about the interim report via email. It had yet to respond as of late this afternoon.

Gableman's report references the controversy that erupted last fall after Elections Commission Chair Ann Jacobs signed off on the county canvasses once recounts in Dane and Milwaukee counties were completed. Gov. Tony Evers the next day signed a certificate of ascertainment certifying Joe Biden as the winner of Wisconsin's presidential election.

GOP Commissioner Dean Knudson argued the full commission should've had a role in approving the county canvasses.

The process triggered a window for then-President Trump to challenge the results.

In his report, Gableman wrote there were "serious and legitimate questions that the certification of Wisconsin's election results may have been undertaken in an unlawful and unconstitutional manner." He added the "acceptance of electors by the governor while recount challenges were pending deprived the Legislature of the right to certify the vote" under the U.S. Constitution.

Esenberg, though, pointed to several areas of state law that give the commission and guv those powers.

For example, state statute 7.70 lays out a process for the commission chair or their designee to oversee the results of the county canvass and prepare a statement certifying the results.

The statute includes this section:

"For presidential electors, the commission shall prepare a certificate showing the determination of the results of the canvass and the names of the persons elected, and the governor shall sign, affix the great seal of the state, and transmit the certificate by registered mail to the U.S. administrator of general services. The governor shall also prepare 6 duplicate originals of such certificate and deliver them to one of the presidential electors on or before the first Monday after the 2nd Wednesday in December."

See section 7.70 of state statutes:
https://docs.legis.wisconsin.gov/statutes/statutes/7/ii/70

-- Gableman's report also misrepresents a state Supreme Court ruling in a lawsuit

AMERICAN OVERSIGHT

the Green Party filed trying to get its presidential candidate on the ballot.

The report asserts the majority in the 4-3 decision rejected the suit because the Elections Commission claimed it had already issued an unknown number of ballots and there wasn't sufficient time to properly address the claims.

Instead, the majority ruling focused on the Green Party's delay in filing the lawsuit. What's more, the Elections Commission doesn't issue ballots. County clerks print them before delivering the ballots to their municipal counterparts.

Gableman focused on the case as he accused the Elections Commission of taking actions during the 2020 election to prevent Wisconsin courts from weighing in.

He wrote "the decision by WEC to quickly issue ballots without a Green Party candidate was a determining factor in the Wisconsin Supreme Court declining to address the merits of that exclusion."

In that case, the Elections Commission deadlocked 3-3 Aug. 20 on whether the Green Party had submitted enough valid signatures to qualify presidential candidate Howie Hawkins for the ballot.

In the following weeks:

*On Aug. 26, the commission certified the list of independent candidates for president and vice president before approving on Sept. 1 the remainder of the candidates who would appear on the ballot.

*On Sept. 3, the Green Party filed a lawsuit with the state Supreme Court seeking to be placed on the ballot.

*On Sept. 10, the state Supreme Court ordered the commission to direct clerks to cease sending absentee ballots and to collect information on how many may have already been sent out.

*On Sept. 14, the court ruled 4-3 it was too late in the process to add Hawkins and focussed on the nearly two weeks the party waited before filing its lawsuit.

In his majority opinion, Justice Brian Hagedorn wrote the court concluded "that the petitioners delayed in seeking relief in a situation with very short deadlines and that under the circumstances, including the fact that the 2020 fall general election has essentially begun, it is too late to grant petitioners any form of relief that would be feasible and that would not cause confusion and undue damage to both the Wisconsin electors who want to vote and the other candidates in all of the various races on the general election ballot."

The ruling noted an unknown number of ballots had already been printed, adding it

AMERICAN OVERSIGHT

would be expensive and time-consuming for clerks to reprint ballots and still meet the deadlines to deliver them to voters.

County clerks faced a deadline last year of Sept. 16 to deliver them to municipal clerks, who then were required to mail them by Sept. 17 to those with a valid request already on file for the general election.

A footnote in the majority opinion pointed out the narrow window under state law between the commission ruling on ballot access and the deadline that ballots must be sent to voters. The majority encouraged the Legislature to lengthen that window.

In her dissent, Justice Pat Roggensack accused the commission of improperly denying Hawkins a spot on the ballot. That includes her assertion that the commission staff failed to properly follow state law in finding that some of the party's petitions were improper because they listed the wrong address for the vice presidential candidate, who moved during the window to collect signatures.

Next Thursday: WisPolitics Luncheon: Panel Discussion on Wisconsin Redistricting

Join us for an in-person luncheon at The Madison Club on Thursday, Nov. 18 for a discussion about the once-a-decade redrawing of congressional and legislative boundaries in Wisconsin.

The event features a panel discussion with three former legislators who have deep experience in legislative map-making -- Republicans Scott Jensen and Joe Handrick plus Democrat Chuck Chvala -- along with Elizabeth Treviño, Wisconsin state director of allontheline.org.

See additional details and register here: https://www.eventbrite.com/e/wispolitics-luncheon-panel-discussion-on-wi-redistricting-tickets-186304851827

This luncheon is sponsored by Husch Blackwell, American Family Insurance, Xcel Energy, Walmart, AARP Wisconsin and the Wisconsin Hospital Association.

WisPolitics.com subscribers and members, as well as Madison Club members and their guests, receive discounted pricing for WisPolitics luncheons.

Tuesday: WisBusiness.com virtual event on how federally funded university research fuels the Wisconsin economy

Join WisBusiness.com for a free virtual luncheon on Tuesday, Nov. 16, from noon to 1 p.m.m on how federally funded university research fuels the Wisconsin economy.

The event will begin with opening remarks from Tom Still, president of the Wisconsin Technology Council, followed by a panel discussion with university scientists.

Panelists:

- Jeanne Hossenlopp, Marquette University's vice president for research and innovation.

- Sandra McLellan, professor in the School of Freshwater Sciences at UW-Milwaukee.

- Katarina Marie Braun, a UW-Madison medical student who has a PhD in cellular and molecular biology.

- Dr. Shekar N. Kurpad, of the Medical College of Wisconsin.

Partners for this event include: Marquette University, UW-Madison, UW-Milwaukee and the Medical College of Wisconsin.

TUE AM Update -- 1 March 2022

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- Former Supreme Court Justice Michael Gableman will release a report on his review of the 2020 election today and testify before an Assembly committee.

The Assembly Campaigns and Elections Committee also plans to hear from Minneapolis attorney Erick Kaardal, who has filed a series of complaints against five cities that accepted private money to help cover public election costs in 2020.

See the hearing notice:
https://docs.legis.wisconsin.gov/raw/cid/1664593

-- Three Assembly committees have public hearings today even though the chamber has adjourned for the session.

The Government Accountability and Oversight will hear testimony on GOP bills to: prohibit inclusion of vaccination status on state or local government IDs; and ban awarding state contracts or grants to entities that require customers or employees to

AMERICAN OVERSIGHT

provide proof of vaccination against COVID-19.

The office of Chair Dan Knodl, R-Germantown, said the hearing was scheduled out of courtesy to the bills' authors.

Meanwhile, the Education Committee will address a bill to provide grants to schools to purchase and implement curricular materials for teaching reading and language arts.

And the Assembly Ways and Means Committee will hear testimony on AB 974, which would create a 401Kids savings program. It is an IRA-like investment account for kids.

See the hearing notices:
https://docs.legis.wisconsin.gov/raw/cid/1664754
https://docs.legis.wisconsin.gov/raw/cid/1665092
https://docs.legis.wisconsin.gov/raw/cid/1664488

-- Three anti-abortion groups want Gov. Tony Evers to justify $2.4 million in federal COVID-19 funds he gave to Planned Parenthood and explain how it was permissible under the statute barring state funding for abortion.

The guv's office said the request was just politics.

Evers has had sole discretion over distributing some $4.5 billion in federal COVID-19 funds.

The letter from the conservative Wisconsin Institute for Law & Liberty suggests the money was inappropriately awarded because Evers created a grant program with the federal funds without seeking legislative approval.

The letter also argued state law prohibits federal funds passing through the state treasury being awarded to a pregnancy program that provides abortion services, promotes abortion services or makes abortion referrals.

The letter was written on behalf of Wisconsin Family Action Inc., Wisconsin Right to Life Inc. and Pro-Life Wisconsin Inc.

"We believe the funds your administration has provided to Planned Parenthood were done through an unlawful grant program. Alternatively, or in addition to that, we believe the provision of those funds by state government violates state law as outlined here," WILL wrote.

Evers spokeswoman Britt Cudaback said the guv has spent nearly two years helping more than 100,00 small businesses and 20,000 farmers while providing high-speed internet to more than 110,000 families while Republicans took a "nearly 300-day vacation" in 2020.

AMERICAN OVERSIGHT

"So, it's no surprise Republicans and their allies are continuing to play politics while failing to support our state's economic recovery and trying to obstruct efforts to get resources to folks across our state," she said.

Read the letter:
https://www.wispolitics.com/wp-content/uploads/2022/02/220228Letter.pdf

-- Adam Steen, who finished fourth in a six-way 2018 GOP primary for the 1st CD, has registered to run in the GOP primary against Assembly Speaker Robin Vos, of Rochester.

Steen, an Indiana native, graduated from Maranatha Baptist University and then got an engineering degree from UW-Madison. He was working as an applications engineer for Putzmeister America Inc. in Sturtevant when he ran for Congress in 2018.

Steen registered with the state yesterday to run for the southeastern Wisconsin Assembly seat.

Thursday: Marquette Law School Pollster Charles Franklin to Headline Newsmaker Luncheon

Charles Franklin, Professor of Law and Public Policy and director of the Marquette Law School Poll, will be the featured guest at a Newsmaker Luncheon set for noon on Thursday, March 3, hosted by the Milwaukee Press Club and WisPolitics.com.

Franklin will present an overview of Wisconsin politics for the 2022 election cycle and analyze the findings of his most recent poll, set for release March 2. Those results will detail specific match-ups of candidates in Wisconsin's gubernatorial and U.S. Senate races.

Franklin will take questions from a panel of journalists and from the audience at the luncheon

For registration and more information:

TOP HEADLINES

In WI, Dem governor confronts high stakes, tough odds in re-election fight
... Rising crime in [Racine] and across the state is among a growing number of issues that threaten [Evers'] re-election prospects ... and crime is [among issues] his GOP opponents are eager to exploit. ... includ[ing] transparency in the education curriculum and concerns over what politicians say is "critical race theory," and fears over rising inflation, interviews with voters and the latest polling suggest. ... [and] lack of major accomplishments that Evers can point to, because [GOP control limited] his agenda ... Evers' [and Biden's] approval ratings ... are on the decline. * Bulwark's Sykes agrees crime is an issue, plus "he's not known for any signature achievement. He's been there for your years, and I don't think the average Wisconsinite can point to something he's done. ... He's a low-profile guy facing a very energized Republican base in an off year. The underlying dynamics are just bad for him." ... Unlike in other states, Wisconsin voters seem less concerned about pandemic restrictions. ... In interviews with 12 Wisconsin voters from across the state, crime emerged as the top concern. [MU Law poll found 69% believed crime had increased] ... [WI] violent crime rate in 2020 rose by 8.9% over the previous year (higher than the 5.6% national rise) ... included 271 homicides across the state, 190 of which were in Milwaukee County. ... increased by an even greater margin in Racine County ... which Trump narrowly carried in 2016 and 2020, and that Walker carried by a slim margin in 2018. * MU Law pollster Franklin said crime, especially the Waukesha parade attack, is "a strong issue for Republicans to run on, and voters are going to ask if Democrats, like Evers, have had a good answer to the attacks yet." [Sykes, Franklin also see vulnerability in Evers' veto of bill punishing locals for defunding police. ... [GOP, Kleefisch] have hammered Evers on crime, saying he hasn't done enough to hire more police officers. Kleefisch's campaign launch video ... led with and focused heavily on rising crime [mentioning Kenosha riots, but not Rittenhouse] her campaign said it is currently running two digital ads on crime that attack Evers. ... * Roecker for Evers pointed to the governor's announcement last year to invest $45M-ARP [$25M for violence prevention, $20M for victim services, but GOP note nothing on street cops]. ... MU poll found Evers underwater: 40% would vote for him and 53% someone else, 45% approve, 46% disapprove [Biden 43-53]. Insiders say defender of Democracy label could help Evers, vetoing 6 bill that would make voting more difficult ... election conspiracy theorist Tim Ramthun, has already made that issue the center of his campaign. Insiders also say painting himself as a moderate would help. * Dem strategist Chheda: "When you have Republican candidates embracing extremist positions, it's hard for them to capture the middle." ... Racine's Keener blames Evers for rising crime, Racine's Mitchell does not. Olsen of Green Bay cited crime, "I just really don't know if he's done enough to vote for him again. ... we are just so against a lot of

AMERICAN OVERSIGHT

the Republican candidates here. Not really because we're big Evers fans."
https://www.nbcnews.com/politics/rcna16737

WI homelessness council issues recommendations
... There were about 5,000 people in Wisconsin experiencing homelessness in 2021, the report found. However ... "all indications point to that number reflecting a significant undercount" ... made [wide ranging] recommendations ... focusing on equity ... investing for success ... improving housing access ... increasing housing stability ... using data and information ... leveraging (Wisconsin's) resources ... expanding community partnerships. ... recommended creating a grant program to help Wisconsinites of color pay for down payments on houses, provide mortgage assistance and help cover the costs of home improvement. ... recommended that lawmakers create a [$1M/yr] rental assistance program for Wisconsin veterans ... $2M/yr for a grant program for landlords ... to help cover the cost of repairs [to make units eligible for voucher/subsidized tenants] ... recommended the state create a centralized website [for landlord-tenant legal help] ... [suggested] a "State Homelessness Dashboard to measure homelessness numbers" and "clients served through state programs." ... a "workgroup for persons with lived experience in homelessness to review programs and strategies from client perspectives." * Council chair Evers: "Having safe, stable housing is the first step of not only keeping our neighbors safe and healthy but is also key in ensuring our state's continued economic recovery, strengthening our communities and ensuring kids, families and workers can be successful. ... A better future for Wisconsin and the people of our state is possible. That belief is woven into this plan to fight and end homelessness as we know it in Wisconsin, and I'm proud to recommend it."

GOP-ordered investigation into Wisconsin election coming out
... [Gableman report] being turned over to ... Speaker Robin Vos and ... Assembly's elections committee [when he testifies] on Tuesday before being publicly released, Gableman spokesman Zak Niemierowicz said. ... Gableman has defended his work as trying to get to the truth of what happened in the election and has largely focused on [CTCL] grant money [Evers, Dems have called it a Trump-appeasement stunt] ... Vos, who ordered the investigation, has repeatedly said it was not about trying to overturn ... Biden's win, even though he has faced [GOP] pressure ... to do that. ... goal was to enact changes before the next election. But Assembly has ostensibly finished and Senate has one more session mid-March. Assembly passed election slate last week and veto of all is expected. Review Biden's win, upheld by recounts and LAB/WILL audits.

Plan to create retirement-like savings accounts for WI kids nets bipartisan support
... 401KIDS savings program ... stemmed from the Retirement Security Task Force that [Treasurer] Godlewski chaired. ... [Macco-Goyke-Ringhand-Spreitzer bill] would [automatically] create an IRA-like investment account for every child born or adopted in WI. The state would oversee investment and management. The individual account

AMERICAN OVERSIGHT

holder would access the savings once they became an adult to roll the funds into an additional retirement plan, pay off medical expenses or school tuition costs. ... "This is a win-win. You don't lose anything from joining," Godlewski said. "The big piece to know is that bipartisan support is what is needed and the fact that is what this bill has is setting it up on a path for success to improve the lives of Wisconsinites." ARP-funded UW study found 427,300 Wisconsinites are at risk of experiencing poverty during retirement in 2030. Spreitzer said Monday he was "glad" to see the bill was scheduled for a public hearing on Tuesday in Madison. "We're not entirely sure what the legislative schedule is going to be," Godlewski said. Rep. Loudenbeck supportive, but late introduction means "highly unlikely" the bill would be passed this year.

WILL claims Evers illegally channeled $2M-CARES/ARP to PPW
... [letter on behalf of WFA, WRtoL, Pro-Life WI] argues that Evers administration illegally created grant programs without [legislative] approval ... in order to distribute federal stimulus funds. ... "asking Gov. Evers to tell us what authority he has to do this and why the state law, which prohibits funding for Planned Parenthood [an abortion proving agency], is somehow not applicable to this situation," said [WILL's] Lennington, prepared to sue, "If we are wrong, we'd like him to point this out exactly where we're wrong. But as far as we see it, he has violated the law. He's not allowed to create programs out of thin air." PPW said they are eligible for fed grants "which supported our ability to operate our family planning health centers and provide essential health care services, such as birth control, [STD] testing and life-saving cancer screenings during the pandemic and aim to reduce health disparities," dubbed WILL's allegations "a misreading of both Wisconsin and federal law." Cudaback for Evers slammed GOP's "nearly 300-day vacation" at pandemic outset leaving Evers alone to support small biz and farmers and boost broadband, "So, it's no surprise Republicans and their allies are continuing to play politics while failing to support our state's economic recovery and trying to obstruct efforts to get resources to folks across our state."

WI Supreme Court weighs Huebsch's alleged bias in controversial power line case

AMERICAN OVERSIGHT

... [reviews Driftless WWF, local govt suit against PSC to stop Cardinal-Hickory Creek line, alleging then-PSC Commissioner Huebsch's communications with line owners ATC, ITC Midwest and Dairyland Power tainted the line's unanimous approval, subpoenas for Huebsch's phone records and testimony, Judge Frost's agreeing taint by one commish was possible] ... Huebsch's attorney Ryan Walsh argued neither subpoena can be pursued because [commissioners] have a presumption of impartiality and honesty. [and communicating with owners is ok] so long as there's no improper ex parte communications. [argued plaintiffs were fishing for evidence] "There hasn't been just one fishing expedition. They have been angling for a long time. ... and they have caught nothing. We ask you to declare an end to this open season." Plaintiff atty. Van Sicklen, argued the court's review is moot because they already dropped req for phone records, But Justice Roggensack pressed Van Sicklen for facts showing Huebsch bias. Van Sicklen cited "hundreds of phone calls with senior officials at the transmission companies while the proceeding is pending," which Roggensack dismissed as routine, so Van Sicklen cited Huebsch advisory membership on MISO committee, which had intervened for line approval, and Huebsch application to be Dairyland CEO shortly after line approval. Justices Roggensack and Bradley rejected those arguments, PSC atty. Whiting dubbed them "purely speculative." Justice Dallet noted discovery of secret communications between Huebsch and officials linked to the project's owners, which prompted utilities to ask the commission to revoke and rescind its decision. Regulators haven't acted on that request. Liberal justices questioned process, Huebsch's request for a review when he is a witness and not a party to the case, subpoena for Huebsch to testify hadn't been challenged in a lower court. A ruling on the matter is expected by the end of June. A ruling on the matter is expected by the end of June. Reviews owner's push for the line, recent ruling banning its crossing the Mississippi River.

From: **Karen Mueller** <Karen@amoscenterforjustice.org>
Date: Thu, Feb 3, 2022 at 8:59 PM
Subject: Attached 5 page letter to Rep. Timothy Ramthum
To: Tony Urso <tonyeurso@gmail.com>

Hello fellow conservatives and Republicans,

I am writing to ask you to share in its entirety, the five page letter that I sent out to Rep. Timothy Ramthun on January 8, 2021 explaining why the Amos Center for Justice and Liberty was supporting his efforts to decertify Wisconsin's 10 electoral votes. It is attached to this email.

As you know I filed an original action lawsuit Mueller v Jacobs (WEC) on November 27, 2020 with the Wis. Supreme Court. The Court declined to hear it. They made no ruling on the substance or merits of the case, however, a one line statement from the three person dissent said "we must stop shirking our institutional responsibilities to the citizens of Wisconsin."

Most recently WILL received a favorable ruling on the same basic facts in Teigen v WEC from Judge Bohren in Waukesha County: The absentee ballot drop boxes are illegal under Wisconsin law and so were the guidelines that Megan Wolfe sent out in her August 19, 2020 memo to the county clerks. This case has now been appealed.

Until Rep. Ramthun came along, I had been waiting a year for someone to take notice of not only the facts which I laid out for the citizens of Wisconsin to read and to understand, but also the extremely important facts regarding a nationwide concerted effort by a large number of individuals, federal and state agencies and private non-profits who all worked together in an "enterprise." This election altering plan was initiated by the federal government's CISA and then was filtered down through at least two nationwide non-profits NCSL and NASS in order to provide a pathway for federal actors to interfere in individual states' elections and election laws.

I proved these facts through each Exhibit I proffered in my complaint. All of these documents can still be found at amoscenterforjustice.org. where you can look at my complaint and the

AMERICAN OVERSIGHT

exhibits filed behind them. For instance, every person concerned with election integrity should look at Exhibit 9 in order to understand the complex and widespread nature of the election law violations and fraud. You will see through these many Exhibits taken from their own websites that they cleverly initiated an advanced propaganda campaign to supposedly guard against "misinformation" and "disinformation" which they wanted you to believe would be spread as people such as myself and many others unraveled the many election wrongdoings and attempted to report them. The propaganda machine found in the Federal, State and corporate non-profits is still at work today as they continue to work and coordinate with the many mainstream media outlets to convince you that we had the "securest and safest election ever" and that anyone saying anything else is a conspiracy theorist. I encourage you to seek the TRUTH yourselves by studying Exhibits from their own websites.

I testified before the Wisconsin Senate's Election Committee Hearing in December of 2020. All of this information was fully accessible to all of our legislative members before they "certified" Wisconsin's 10 electoral votes. Many of them knew the specifics of the alleged frauds and illegalities. It is for this reason that they have each violated their oaths of office. It was their duty under their oaths of office which included supporting and defending the U.S. Constitution to NOT certify electoral votes where questions of fraud and illegalities surrounded the absentee voting processes and procedures and until a full investigation had been completed. Now the only way in which these legislators can regain the faith and support of the majority of Wisconsin voters in our election processes is to "nullify" the 10 electoral votes which they wrongfully "certified" in January of 2021. It is also the only way to restore the integrity of the oaths they each took upon entering office.

Please share this email and the attached five page letter in its entirety to your contacts.

Best regards to all and May God Bless America once again,

--
Karen Mueller, General Counsel
Amos Center for Justice and Liberty

AMERICAN OVERSIGHT

Did You Know Green Bay's Election Was Run by Michael Spitzer Rubenstein From A Hotel Room?

The Wisconsin Special Report says: Democrats cheated in the 2020 election!

Emerald Robinson

Mar 3

There are so many newsworthy details contained in the just-released Wisconsin Special Counsel Report on the 2020 Election that it's hard to know where to begin. Every American citizen should read this report because it explains how the election was stolen by Democrats. That alone makes it worthwhile.

AMERICAN OVERSIGHT

Office of the Special Counsel

Second Interim Investigative Report
On the Apparatus & Procedures of the Wisconsin Elections System

Delivered to the Wisconsin State Assembly on March 1, 2022

Let's start with this story:

> The OSC learned that all machines in Green Bay were ESS machines and were connected to a secret, hidden Wi-Fi access point at the Grand Hyatt hotel, which was the location used by the City of Green Bay on the day of the 2020 Presidential election. The OSC discovered the Wi-Fi, machines, and ballots were controlled by a single individual who was not a government employee but an agent of a special interest group operating in Wisconsin.

Wow. So one guy hidden at the Grand Hyatt Hotel controlled Green Bay's election from his room? What is that guy's name? According to the report: his name is Michael Spitzer Rubenstein. Why was a lawyer from Brooklyn in control of an election in Wisconsin?

AMERICAN OVERSIGHT

That's a good question. Let's begin, though, with an explanation of why it's been so hard to get any good questions answered at all. Just take a look at your calendar: it's March 2022. The retired Wisconsin Supreme Court judge who conducted this Special Counsel investigation would remind all of us, first, that we're talking about companies that are hiding their tracks.

> The OSC began a comprehensive investigation of voting machines in Wisconsin. As part of that investigation, subpoenas were sent to Dominion, ESS, and Command
> Central, LLC, a Dominion reseller and servicer. The information sought included information about who, when, where, and what updates the machines were provided.
>
> The OSC learned that one machine company representative stated that the voting machines were "wiped" during updates, meaning they did not retain federally required voter data.
>
> It was discovered that Command Central, LLC, received images of cast ballots on election night using the internet. Command Central is alleged to be holding actual ballots cast on election night at its offices in Minnesota in violation of Wisconsin law.
>
> The OSC was not able to complete this portion of its investigation, however.

Get 20% off for 1 year

Let's also remember that the voting machine companies have refused to comply with investigations authorized by the state officials of Wisconsin even though the state officials of Wisconsin *hired them in the first place as third-party vendors*.

> As of the date of this Report, the voting machine companies have refused to comply
> with the OSC's legislative subpoenas, and have provided no data. The OSC considers this investigation incomplete but ongoing.

AMERICAN OVERSIGHT

> The OSC also sought information about the machines in Wisconsin used on election night from the clerks. The clerks either did not possess the data sought by the OSC or refused to provide it, with Green Bay and Madison insinuating that providing secure voting machine data to the OSC would somehow compromise election integrity. In other words, these cities claim that it is impossible to verify the integrity of the voting machines because doing that would jeopardize the integrity of both the machines and future elections.

So let's return to the Brooklyn attorney in the hotel room running Green Bay's election. How was that possible? How did he manage to do it?

> One of the functions of Mr. Spitzer Rubenstein's service as "on-site contact" was to
> coordinate with the contractor staff at the Hyatt Regency and KI Convention Center to set up wireless networks for Election Day operations. At Mr. Spitzer Rubenstein's instruction, there were three WiFi networks available. One was the general conference facility public network that would be available to members of the press and others. That network was password-protected, but the password was widely available. A second password-protected WiFi network was created for Central Count staff. Mr. Spitzer Rubenstein also directed that a third WiFi network be established, but that network was to be hidden and it was not to be password-protected. Spitzer Rubenstein also ensured that "both networks reach[ed] [his] hotel room on the 8th floor" (App. 262-266).
>
> On election day, Spitzer Rubenstein had access to ballots and determined which ones would be counted or not counted.

Our elections can be hijacked because *the electronic voting machines are hooked up to the internet*. You know: the simple truth that your elected officials keep insisting is not true — and which is now indisputably true. Which brings us to the next truth: *your elected officials are lying to you* and they're probably lying to you *because the only way they got elected was by using corrupt voting systems*.

AMERICAN OVERSIGHT

There's another blockbuster development mentioned in the report as well. The retired Wisconsin judge got his hands on some interesting evidence.

> The OSC's investigation discovered the use of a ballot tracking and harvesting application in Wisconsin. An extensive amount of time and effort went into this portion of the investigation. The OSC became attuned to the possibility of an application when reviewing email exchanges between the Zuckerberg 5 and third parties. This involved tracking applications in Georgia and Pennsylvania.
>
> The OSC discovered ballot tracking programs in both Georgia and Pennsylvania. The OSC was able to locate and identify the developer of both programs in those States. The OSC obtained the source code for the Pennsylvania application. Ultimately, that data and source code would not prove to be helpful to discovering information about the Wisconsin application.

The Democrats now have a very big problem: massive election fraud in 2020 is no longer a "conspiracy theory" — it's a fact described in great detail in an official report conducted by the state officials of Wisconsin.

It's official: they cheated.

Rep Vos,

We the people are on to the shit you pulled in the 2020 election and the shit you continue to pull. It would be wise for you to resign now vs. suffer the disgrace that is soon come for you, your family and colleagues.

>
> You don't seem to get that We The People are pissed off about the 2018 election and 2020. Due to weak leadership, we now have a Democrat/Socialist Governor and President. You all allowed the steals and now your stalling and obstructing a legitimate investigation. The cats out of the bag and no reasonable person believes that Trump and several down ballot candidates actually lost Wisconsin. We've seen the fraud and have the evidence. Now you want more drop boxes. Have you lost, your damn mind, as that's one of the ways they cheat. A corrupt WEC, Indefinitely confined, voter rolls, machines, spoliation, and more. Your reluctance to do what's right is at your own political peril. You need to immediately resign if you can't support getting to the bottom of the fraud. Failure to do same makes you appear to be involved.

Subject: February 13, 2022 - Wisconsin Election Integrity Rally Tuesday, February 15, 2022 - 12:00-1:00 P.M. - State Capitol Rotunda
To: davisforpresident <davisforpresident@protonmail.com>

Dear GOP County Leaders, Individual GOP Members, Non-Profit Groups and Affiliates and Ad-Hoc Committee:

Well, it has come down to this for true election integrity. After nearly 16 months since the November 3, 2020, Federal Election, of point-counterpoint between citizens and legislators regarding obvious election fraud in Wisconsin, this is the best opportunity to actually have an impact on what the Legislature can do legally and constitutionally to address the fraud. Citizens have been patient, understanding and polite while being promised by the legislators that "audits" and "investigations" were ongoing that would get to the bottom of the election fraud if there was any.

Two legislators, Rep. Ramthun (R-Campbellsport) and Rep. Brandtjen (R-Menomonee Falls), have been at

AMERICAN OVERSIGHT

the tip of the spear getting to the bottom of the election fraud and have uncovered and documented mountains of indisputable and undeniable evidence of election fraud in Wisconsin with the help of many volunteers.

Rep. Ramthun (R-Campbellsport) has introduced AJR 120 (2021 Assembly Joint Resolution 120 (wisconsin.gov)) that addresses this election fraud and the Assembly Rules Committee, who is meeting immediately after the rally (Wisconsin Legislature Schedule of Committee Activity), refuses to pass AJR 120 out of Committee back to the Assembly Floor for a vote before Speaker Vos (R-Rochester) adjourns this Session of the Assembly.

It is time, once and for all, that the legal citizens of Wisconsin show their support for election integrity and for the efforts of Rep. Ramthun (R-Campbellsport) and Rep. Brandtjen (R-Menomonee Falls)! Unless something is done now, the infrastructure is in place for a repeat of 2020 in 2022 inviting potential widespread election fraud. Thank goodness for Judge Bohren's January 22, 2002 ruling making ballot drop boxes and ballot harvesting illegal in Wisconsin (Waukesha judge rules absentee voting boxes not allowed in February primary | Wisconsin Public Radio (wpr.org)) that was affirmed by the Wisconsin Supreme Court on February 11, 2022 for the April 5, 2022 Spring Election (Wisconsin Supreme Court allows ballot boxes to be banned for April election | TheHill).

We want everyone in the State of Wisconsin, that is able and has the time, to make every effort to attend the **Wisconsin Election Integrity Rally** to be held **Tuesday, February 15th, 12:00-1:00 P.M., Capitol Rotunda West - 1st Floor**. The rally will be one hour in length with Rep. Ramthun (R-Campbellsport) and Rep. Brandtjen

AMERICAN OVERSIGHT

(R-Menomonee Falls) as featured speakers. There will also be a Keynote Speaker with intimate knowledge of election integrity with an extensive background in constitutional law, national security and military intelligence. The rally will also include patriotic themes of music, prayer, replicas of historical items and pledge of allegiance. Ten citizens of Wisconsin will briefly share their thoughts of why election integrity matters to them from many different perspectives. At the conclusion of the rally, attendees will be invited to climb the stairs to the Assembly Chambers to attend the Assembly Rules Committee Executive Session that is scheduled to start at 2:00 P.M. in the Assembly Parlor. Legislators will be personally delivered thousands of letters asking for their support of election integrity.

Here are some details to consider for the day of the rally:

- **Parking**- tons of public parking within a block of the Capitol. Drop off locations are on all four sides of the Capitol.
- **Signs**- definitely encouraged, but please keep them respectful and appropriate. American flags are very appropriate!
- **Security**- Capitol Police will have a strong presence. We have a permit for the rally. Rally attendees may enter the Capitol at any entrance and do not go through a screening process.
- **Infiltrators**- we will have embedded attendees that will be watching for disruptors and know what to do with Capitol Police.
- **Restrooms**- are close by.
- **Medical emergency**- we will have many medical team members from our attendees.

AMERICAN OVERSIGHT

- **Rally Outline**- rally flyers will be handed out at the rally.
- **Chairs**- bring your own folding chairs for seating.
- **Carpools, caravans and buses**- please let us know and we will share the details. Langlade County has reserved a bus and will be making several stops on the way. Please contact Terry Brand, Chair, Langlade County GOP, 715-216-5700, and he will gladly give you the details and cost. Please use our name when you contact him.

Here is the **Wisconsin Election Integrity Rally Outline**:

Wisconsin Election Integrity Rally

Capitol West Rotunda - 1st Floor

February 15, 2022

12:00 - 1:00 P.M.

1. Introduction - 1 minute

2. Star Spangled Banner - 1

AMERICAN OVERSIGHT

minute and 15 seconds

3. Pledge of Allegiance - 30 seconds

4. Security and Safety Guidelines - 1 minute

5. Addressing Election Fraud and Integrity - Rep. Brandtjen - 5

minutes

6. Wisconsin's 10 Electoral College Votes AJR 120 –

Rep. Ramthun - 5 minutes

7. Why Election Integrity Matters to Me...

A. Education - 2 minutes

B. Veteran - 2 minutes

AMERICAN OVERSIGHT

C. Pastor - 2 minutes

D. Small Business Owner - 2 minutes

E. Farmer - 2 minutes

F. Attorney - 2 minutes

G. Election Observer or Canvasser - 2 minutes

H. Nurse or doctor - 2 minutes

I. Nursing home resident relative - 2 minutes

J. Trucker – 2 minutes

K. Union Operator – 2 minutes

9. Keynote Speaker - Election

AMERICAN OVERSIGHT

Integrity - 15-20 minutes

10. Final announcements before Rally Attendees are encouraged

to personally visit Republican Assembly Rules Committee

Members to support AJR 120 and deliver thousands of letters of support for election integrity.

11. Conclude with God Bless America

Please forward the attached Wisconsin Election Integrity Rally flyer to all of your email and cell phone Contacts.

We will be there early to get set up. Please come by and say "hi" before the rally starts at noon.

AMERICAN OVERSIGHT

Looking forward to seeing you
Tuesday!

To: davisforpresident <davisforpresident@protonmail.com>

Good morning GOP County Leaders, GOP Individual Members, Non-Profit and Affiliates and Ad-Hoc Committee:

We have a lot of wood to chop, so buckle up and prepare yourself for many breaking stories and updates on election integrity as part of today's update.

Welcome to our new email recipients. We're adding new election integrity supporters every day. Thank you for your tireless commitment to exposing the obvious election fraud and restoring election integrity to all Wisconsin voters. We read every email in our INBOX and try to answer and or acknowledge those emails as quickly as possible.

We have many stringers and researchers throughout the state who scour news sources and legislative

AMERICAN OVERSIGHT

matters every day all day and forward the information for consideration to our daily updates. Please feel free to contribute election integrity information to our email box and we will vet it before it is published.

Here are today's most pertinent and recent updates on election integrity in Wisconsin:

***Wisconsin Elections Commission unanimously** retracts their guidance(https://www.wsaw.com/2022/02/16/wisconsin-elections-commission-retracts-ballot-box-guidance/) making use of ballot drop boxes no longer available in Wisconsin after Wisconsin Supreme Court Ruling(4-3)outlawing the use of ballot drop boxes and prohibiting ballot harvesting in Wisconsin affirming Waukesha County Judge Bohren's earlier lower-level ruling(https://wisconsinspotlight.com/court-rules-on-ballot-security/). **This is a major victory for election integrity in Wisconsin! If it's illegal now, then it was illegal in November of 2020 making the argument even stronger to reclaim Wisconsin's 10 Electoral College votes as argued in Rep. Ramthun's AJR 120 (**2021 Assembly Joint Resolution 120 (wisconsin.gov)**) being buried by Speaker Vos in the Assembly Rules Committee. Options are being considered to possibly address AJR 120 before Speaker Vos adjourns this Session of the Assembly.**

A Tale of Two Kings – Randy Nettles - https://www.rev310.net/post/a-tale-of-two-kings

This is a tale of two kings of Israel/Judah. One began his kingship well, but it ended badly; the other began his kingship bad, but it ended well (relatively speaking). But first, let's go to the very beginning before there were any kings. During the 40 years of wandering in the wilderness, God gave Moses and the children of Israel various commandments, statutes, rules, regulations, worship and offering instructions; as described in the books of Exodus, Leviticus, Numbers, and Deuteronomy.

One of the commandments God declared for the Israelites is found in Deuteronomy 7: "When the Lord your God brings you into the land which you go to possess, and has cast out many nations before you, and when the Lord your God delivers them over to you, you shall conquer them and utterly destroy them. You shall make no covenant with them nor show mercy to them. Nor shall you make marriages with them. You shall not give your daughter to their son, nor take their daughter for your son. For they will turn your sons away from following Me, to serve other gods; so the anger of the Lord will be aroused against you and destroy you suddenly. But thus you shall deal with them: you shall destroy their altars, and break down their sacred pillars, and cut down their wooden images, and burn their carved images with fire. For you are a holy people to the Lord your God; the Lord your God has chosen you to be a people for Himself, a special treasure above all the peoples on the face of the earth" (Deuteronomy 7:1-7).

The Lord God also gave the Israelites principles for kings to govern by. Of course, there were no kings during this time, only the great judge and leader, Moses. God, knowing the end from the beginning, gave them these rules anyway, as He knew the people would eventually ask for a king to rule over them.

These principles governing kings are found in Deuteronomy 17: "When you come to the land which the Lord your God is giving you, and possess it and dwell in it, and say, I will set a king over me like all the nations that are around me, you shall surely set a king over you whom the Lord your God chooses; one from among your brethren you shall set as king over you; you may not set a foreigner over you, who is not your brother. But he shall not multiply horses

AMERICAN OVERSIGHT

for himself, nor cause the people to return to Egypt to multiply horses, for the Lord has said to you, You shall not return that way again. Neither shall he multiply wives for himself, lest his heart turn away; nor shall he greatly multiply silver and gold for himself."

"Also it shall be, when he sits on the throne of his kingdom, that he shall write for himself a copy of this law in a book, from the one before the priests, the Levites and it shall be with him, and he shall read it all the days of his life, that he may learn to fear the Lord his God and be careful to observe all the words of this law and these statutes, that his heart may not be lifted above his brethren, that he may not turn aside from the commandment to the right hand or to the left, and that he may prolong his days in his kingdom, he and his children in the midst of Israel" (Deuteronomy 17: 14-20).

Sure enough, during the time of the prophet Samuel, the last Judge of Israel, all the elders of Israel gathered together and came to Samuel demanding a king to judge them like all the nations around them. This demand displeased Samuel, so he prayed to the Lord. The Lord told Samuel to heed the voice of the people, for they had not rejected him (Samuel), but they had rejected the Lord Himself from ruling the people. The Lord then told Samuel to warn the people about the negative aspects of having a King who will reign over them. Samuel told them: "This will be the behavior of the king who will reign over you: He will take your sons and appoint them for his own chariots and to be his horsemen, and some will run before his chariots. He will appoint captains over his thousands and captains over his fifties, will set some to plow his ground and reap his harvest, and some to make his weapons of war and equipment for his chariots. He will take your daughters to be perfumers, cooks, and bakers. And he will take the best of your fields, your vineyards, and your olive groves, and give them to his servants. He will take a tenth of your grain and your vintage, and give it to his officers and servants. And he will take your male servants, your female servants, your finest young men, and your donkeys, and put them to his work. He will take a tenth of your sheep. And you will be his servants. And you will cry out in that day because of your king whom you have chosen for yourselves, and the Lord will not hear you in that day" (1 Samuel 8:11-18).

The people would not be persuaded and told Samuel that they still wanted a king. The Lord God eventually chose Saul to be the first king of Israel in about 1050 BC. Even though Saul began his kingship well, and it ended very badly, this story isn't about him. After Saul and his sons were killed in battle, David became Israel's next king in about 1010 BC. David was Israel's greatest king. He started out good and ended good (with the exception of the Bathsheba, Uriah incident), so this story isn't about him either. David reigned until about 970 BC. Before his death, he gave instructions to Solomon, his son, regarding being king of Israel. Yes, this is one of the main characters of this story.

AMERICAN OVERSIGHT

Here is David's advice to his young son, who would become king: "I go the way of all the earth; be strong, therefore, and prove yourself a man. And keep the charge of the Lord your God: to walk in His ways, to keep His statutes, His commandments, His judgments, and His testimonies, as it is written in the Law of Moses, that you may prosper in all that you do and wherever you turn; that the Lord may fulfill His word which He spoke concerning me, saying, If your sons take heed to their way, to walk before Me in truth with all their heart and with all their soul, He said, you shall not lack a man on the throne of Israel" (1 Kings 2:1-4).

Solomon, the son of David and Bathsheba, became king of Israel (all 12 tribes) in 970 BC. "And Solomon loved the Lord, walking in the statues of David his father; only he sacrificed and burnt incense in high places. And the king went to Gibeon to sacrifice there, for that was the great high place: a thousand burnt offerings did Solomon offer upon that altar. In Gibeon the Lord appeared to Solomon in a dream by night; and God said, Ask what I shall give you" (1 Kings 3:3-5). Solomon told the Lord to give him an understanding heart (wisdom) to judge the people, that he might discern between good and evil. This answer pleased the Lord, and God said unto him: "Behold, I have done according to your words; see, I have given you a wise and understanding heart, so that there has not been anyone like you before you, nor shall any like you arise after you. And I have also given you what you have not asked; both riches and honor, so that there shall not be anyone like you among the kings all your days. So if you walk in my ways, to keep My statutes and My commandments, as your father David walked, then I will lengthen your days" (1 Kings 3:12-15).

God granted Solomon's request for wisdom. "And God gave Solomon wisdom and exceedingly great understanding and largeness of heart like the sand and seashore. Thus Solomon's wisdom excelled the wisdom of all the men of the East and all the wisdom of Egypt. And men of all nations, from all the kings of the earth who had heard of his wisdom, came to hear the wisdom of Solomon" (1 Kings 4:29-30;34).

God also added great wealth to Solomon for he was pleased with Solomon's request for wisdom. "The weight of gold that came to Solomon yearly was 666 talents of gold, besides that from the traveling merchants, from the income of traders, from all the kings of Arabia, and from the governors of the country. So King Solomon surpassed all the kings of the earth in riches and wisdom" (1 Kings 10:14-15;23).

Solomon's first act as king of Israel (and before his dream) was to marry the daughter of the Pharaoh of Egypt. This was in essence seen as a pact or treaty between the two nations. This act of marrying wives of foreign nations started a habit that would last for the rest of Solomon's life. This was after hearing his father's last words to him, which was to keep the charge of the Lord your God, and to walk in His ways, to keep His statutes and

AMERICAN OVERSIGHT

commandments, and His judgment, and His testimonies, as is written in the law of Moses.

One of these statutes is found in Exodus 34: “Take heed to yourself, beware lest you make a covenant with the inhabitants of the land, wherever you go, lest it be a snare in the midst of you; and you go a whoring after their gods, and do sacrifice unto their gods, and one call you, and you eat of his sacrifice; and you take of their daughters unto your sons, and their daughters go a whoring after their gods, and make your sons go a whoring after their gods. You shall make you no molten gods.” (Exodus 34:12-12).

Solomon initially proved to be a wise and understanding king. His greatest achievement was building the Temple in Jerusalem, which began in 966 B.C. (1 Kings 6:1-9) and was completed seven years later in 959 B.C. The Temple was one of the most magnificent structures of the ancient world. It was built on Mount Moriah in the very spot where Abraham almost sacrificed Isaac and where David had built an altar to the Lord.

Unfortunately, Solomon did not heed the last words of his earthly father, David; nor did he obey the word of the Lord regarding this matter: “Solomon loved many foreign women, as well as the daughter of Pharaoh: women of the Moabites, Ammonites, Edomites, Sidonians, and Hittites – from the nations of whom the Lord had said to the children of Israel, You shall not intermarry with them, nor they with you. Surely they will turn away your hearts after their gods. Solomon clung to these in love. And he had seven hundred wives, princesses, and three hundred concubines; and his wives turned away his heart.”

“For it was so, when Solomon was old, that his wives turned his heart after other gods; and his heart was not loyal to the LORD his God, as was the heart of his father David. For Solomon went after Ashtoreth the goddess of the Sidionians, and after Milcom the abomination of the Ammonites. Solomon did evil in the sight of the Lord, and did not fully follow the LORD, as did his father David. Then Solomon built a high place for Chemosh the abomination of Moab, on the hill that is east of Jerusalem, and for Molech the abomination of the people of Ammon. And he did likewise for all his foreign wives, who burned incense and sacrificed to their gods.”

“So the LORD became angry with Solomon, because his heart had turned from the LORD God of Israel, who had appeared to him twice, and had commanded him concerning this thing, that he should not go after other gods; but he did not keep what the Lord had commanded. Therefore the LORD said to Solomon, Because you have done this, and have not kept My covenant and My statutes, which I have commanded you, I will surely tear the kingdom away from you and give it to your servant. Nevertheless I will not do it in your days, for the sake of your father David; I will tear it out of the hand of your son. However I will not tear away the whole kingdom; I will give one tribe to your son for the sake of My servant David, and for the sake of Jerusalem which I have chosen” (1 Kings 11:1-13).

AMERICAN OVERSIGHT

This was the beginning of the end for the united kingdom of Israel (12 tribes) due to their rapidly approaching fullness of sins against the Lord their God. Solomon ruled Israel for 40 years (as did David and Saul) before his death in 930 B.C. Solomon's son, Rehoboam, assumed kingship after his father's death. Shortly afterward the people revolted against him and 10 of the 12 tribes formed their own kingdom and called it Israel. Rehoboam ruled the southern nation of Judah (with the tribe of Benjamin). God's prophecy had come true, as it always does.

The sins of Solomon, the wisest man in the Old Testament, would leave a lasting legacy on the future generations of the kings of Israel (and Judah). Most of them would emulate Solomon and multiply themselves with wives, horses, and gold & silver, in direct rebellion against the commandments of the Lord God. Solomon traded the wisdom of God for the foolishness of man (and women). It reminds you of the modern age we are living in now, doesn't it? It was Solomon himself that said, "That which has been is what will be, that which is done is what will be done, and there is nothing new under the sun" (Ecclesiastes 1:9).

King Solomon evidently didn't remember his own words when he blessed the assembly before the dedication of the Temple in Jerusalem:"May the Lord our God be with us, as He was with our fathers. May He not leave us nor forsake us, that He may incline our hearts to Himself, to walk in all His ways, and to keep His commandments and His statutes and His judgments, which He commanded our fathers. And may these words of mine, with which I have made supplication before the Lord, be near the Lord our God day and night, that He may maintain the cause of His servant and the cause of His people Israel, as each day may require,that all the peoples of the earth may know that the LORD IS God; there is no other. Let your heart therefore be loyal to the Lord our God, to walk in His statutes and keep His commandments, as at this day" (1 Kings 8:57-61).

Solomon did not receive the conditional promise of the Lord regarding living a long life. "So if you walk in My ways, to keep My statutes and My commandments, as your father David walked, then I will lengthen your days: (1 Kings 3:14). The Bible doesn't record his age at death, but he was probably 60 or younger. I assume this because of the following verse in 1 Kings during the time of Solomon's dream and conversation with God: "Now, O LORD my God, You have made Your servant king instead of my father David, but I am only a little child; I do not know how to go out or come in" (! Kings 3:7).

How could Solomon, the wisest man in the Bible (other than Jesus), be so foolish? And how could he have started out so great as king of Israel and ended his reign so terrible? He made extremely bad choices in his later years. He chose to please his heathen wives instead of the Almighty God of the universe. The choices one makes in this life reverberate in the afterlife for all

AMERICAN OVERSIGHT

eternity. Some of these choices, such as the salvation issue, have the utmost consequences, not only in this life but in the one to come.

I think Solomon repented in his later years, and once again acknowledged and remembered the Lord God of his youth. Here are the last words of King Solomon that are recorded in the Bible: “Remember your Creator before the silver cord is loosed, then the dust will return to the earth as it was, and the spirit will return to God who gave it. Let us hear the conclusion of the whole matter: Fear God and keep His commandments, for this is man’s all. For God will bring every work into judgment, including every secret thing, whether good or evil” (Ecclesiastes 12:6, 13-14). Wise words indeed!

In contrast to King Solomon, let’s look at the life of King Manasseh, who was the 13th (unlucky number) generation from Solomon. 2 Kings 2:11 says that Manasseh was 12 years old when he became king of Judah, and he reigned 55 years in Jerusalem. He co-reigned with his father, Hezekiah for 10 years, so he didn’t actually become sole ruler until he was 22 years old. Manasseh spent his formative years under the tutelage of the righteous Hezekiah. King Hezekiah is said to have removed the high places (used to worship foreign gods) and broke the sacred pillars, cut down the wooden image, and broke in pieces the bronze serpent that Moses had made (for the children of Israel had started worshipping it).

King Hezekiah did what was right in the sight of the LORD, according to all that his ‘father’ David had done. He trusted in the LORD God of Israel, so that after him was none like him. For he held fast to the LORD; he did not depart from following Him but kept His commandments, which the LORD had commanded Moses” (2 Kings 18:3, 5-6). Hezekiah’s righteousness was in direct contrast to his father’s (Ahaz) apostasy and idol worshipping ways. How did he break the cycle of evil influence thrust upon him by his father, Ahaz? He chose to! He wisely chose to obey God and His law and commandments instead of obeying the foolish ways of his evil father. Hezekiah probably named his son after Joseph’s firstborn son, Manasseh, which means ”for God has made me forget all my toil and all my father’s house.”

Manasseh was the complete opposite of his righteous father. Even after witnessing the righteous acts of his father, Manasseh chose evil over good: “And he did evil in the sight of the LORD,

according to the abominations of the nations whom the Lord had cast out before the children of Israel. For he rebuilt the high places which Hezekiah his father had destroyed; he raised up altars for Baal, and made a wooden image, as Ahab king of Israel had done; and he worshiped all the host of heaven and served them. He also built altars in the house of the Lord, of which the LORD had said, In Jerusalem I will put My name. And he built altars for all the host of heaven in the two courts of the house of the Lord. Also he made his son pass through the fire, practiced soothsaying, used witchcraft, and consulted spirits and mediums. He did much evil in the sight of the Lord, to provoke Him to

AMERICAN OVERSIGHT

anger. He even set a carved image of Asherah that he had made, in the house of which the Lord had said to David and to Solomon his son, In this house and in Jerusalem, which I have chosen out of all the tribes of Israel, I will put My name forever" (2 Kings 21:2-7).

King Manasseh also shed very innocent blood, till he had filled Jerusalem from one end to another. He probably encouraged the children of Israel to sacrifice their sons to heathen gods. Some of this innocent blood might have been Isaiah the prophet's, as it is believed Manasseh might have had him killed. According to Jewish tradition, Isaiah was tied inside a sack, placed within a hollow of a tree trunk, and then sawed in two.

For Manasseh's evil deeds, the LORD sent His prophets, to speak to the king and all of Judah: "Because Manasseh king of Judah has done these abominations (he has acted more wickedly than all the Amorites who were before him, and has also made Judah sin with his idols), therefore thus says the Lord God of Israel: Behold, I am bringing such calamity upon Jerusalem and Judah, that whoever hears of it, both his ears will tingle. And I will stretch over Jerusalem the measuring line of Samaria and the plummet of the house of Ahab; I will wipe Jerusalem as one wipes a dish, wiping it and turning it upside down. So I will forsake the remnant of My inheritance and deliver them into the hand of their enemies; and they shall become victims of plunder to all their enemies, because they have done evil in My sight, and have provoked Me to anger since the day their fathers came out of Egypt, even to this day " (2 Kings 21:11-15).

There were several evil kings of Judah before Manasseh (such as his grandfather Ahaz) but none surpassed him in disobeying the Laws of Moses and shedding innocent blood, His acts were so egregious, God's patience with the kingdom of Judah finally ended (as it did with the kingdom of Israel and the Amorites before that) and He sent His prophets to prophesy Judah's doom.

Will this be the same destiny for America? There are no longer Jewish prophets of the Lord that are sent by Him to deliver His personal messages. We do, however, have His word, the Bible, that speaks of the demise of all the kingdoms of the world that have (or will) ignored His laws and commandments. If past history is an indicator of future consequences, then I think America and its leaders can expect the same result. It's not a question of 'if' but 'when.'

The average age of empires is 250 years, according to Sir John Bagot Glubb, a specialist on the subject, who wrote a short treatise called "The Fate of Empires and Search for Survival." The united (12 tribes) kingdom of Israel lasted for 120 years before God divided it up into two kingdoms. The northern kingdom of Israel survived for 208 years as a kingdom before they were conquered by the Assyrians. Judah lasted for 344 years as a kingdom before they were conquered by the Babylonians. God gave the Amorites over 400 years to repent, as He told Abram when the covenant was made, "But in the fourth generation they (children of Israel) shall return here, for the iniquity of

AMERICAN OVERSIGHT

the Amorites is not yet complete" (Genesis 15:16). America has been an official nation (not empire) for 246 years now. I wonder sometimes if the iniquity of the Americans is yet complete. If not, it is probably getting close.
The Lord spoke to Manasseh, and to his people, but they would not hearken. "So the LORDbrought upon them the captains of the host of the king of Assyria, which took Manasseh among the thorns [nettles], and bound him with bronze chains, and carried him to Babylon [Assyria had at this time captured the capital city of the Babylonians]. And when he was in affliction, he sought the LORD his God, and humbled himself greatly before the God of his fathers, and prayed unto him: and he was intreated of him, and heard his supplication, and brought him again to Jerusalem into his kingdom. Then Manasseh knew that the LORD He was God" (2 Chronicles 33:10-13).
King Manasseh had to learn the hard way, but at least the Lord let him live long enough for him to repent and believe in the Lord God. Until death, no one is beyond God's forgiveness. Take, for example, the thief on the cross at the crucifixion of Jesus, per Luke 23:43. If the Lord can forgive the thief on the cross or Manasseh, do you think He is unable to forgive you?
Manasseh tried to make up for his evil acts for the rest of his life. "He took away the strange gods, and the idol out of the house of the Lord, and all the altars that he had built in the mount of the house of the LORD, and in Jerusalem, and cast them out of the city. And he repaired the altar of the LORD, and sacrificed there peace offerings and thank offerings, and commanded Judah to serve the LORD God of Israel. Nevertheless the people did sacrifice still in the high places, yet unto the LORD their God only" (2 Chronicles 33:15-17).
The reign of Manasseh as sole king of Judah lasted for 45 years. Can you imagine living under the rule of an evil king for that long? It's hard enough to live under the evil rule of the Biden administration and the Democrats for only 4 years (I pray). "When the righteous are in authority, the people rejoice; but when a wicked man rules, the people groan" (Proverbs 29:2). Manasseh started out bad as king of Judah, but at least he ended his reign well. It took an act of God, but he eventually turned his life around and made the right choice for the Lord.
It doesn't matter how good or bad you begin life, it is only the finish that counts. By finishing well, I'm not referring to acquiring success, wealth, power, fame, or religion. I'm talking about doing the will of God according to His word. The will of God is this: to believe in the one He sent, the LORD Jesus Christ. "And the world is passing away and the lust of it; but he who does the will of God abides forever" (1 John 2:17).
"Behold, I am coming quickly! Hold fast what you have, that no one may take your crown. He who overcomes, I will make him a pillar in the temple of My God, and he shall go out no more. I will write on him the name of My God and the name of the city of My God, the New Jerusalem, which comes down out of

AMERICAN OVERSIGHT

heaven from My God. And I will write on him My new name" (Revelation 3:11-12).
Amen. Even so, come, Lord Jesus!

Placating Putin – Terry James - https://terryjamesprophecyline.com/2022/02/14/placating-putin/

Many Bible prophecy students of the pre-trib sort have carefully watched Vladimir Putin over the past years. The Russian president's demeanor, many believe, demonstrates that this man of relatively short stature exhibits and presents a much larger image, in possible prophetic terms.

I'm referring, of course, to the belief by many that the dictator, a former KGB operative, could be the Gog of Ezekiel 38-39. That is, Mr. Putin could be the leader who will be possessed by the Gog spirit or demon who will think the evil thought described by the prophet Ezekiel. –That Putin might be the leader who will lead the Gog-Magog coalition of nations prophesied to invade toward Israel.

While I find this an interesting, even fascinating prospect, I'm not prepared to totally commit to a definite postulation in that regard.

However, thinking on these strange and troubling times during which we are traversing times of fortified prophetic progression, a term my partner in raptureready.com, Todd Strandberg, has coined, the possibility of Putin filling that prophetic role is certainly worthy of consideration.

The lateness of these closing days of the age, while Russia threatens to invade Ukraine, brings into focus such prophecies by Jesus Himself as the following.

"And ye shall hear of wars and rumours of wars: see that ye be not troubled: for all these things must come to pass, but the end is not yet." (Matt 24: 6)

and

"And there shall be signs in the sun, and in the moon, and in the stars; and upon the earth distress of nations, with perplexity; the sea and the waves roaring." (Lk 21: 25)

With Putin bringing more than one hundred thousand troops and military equipment to the borders of Ukraine and his apparently wanting to invade to bring that former Soviet bloc nation again into Russia's orb, the rumors of war are rampant. This is perhaps the greatest threat of regional and even world-wide war since the fall of the Soviet Union and the close of the cold war.

With the world-wide protests across Europe and the Canadian/American truckers' massive protests, and with despot-like leaders facing them and not

AMERICAN OVERSIGHT

knowing how to handle it all, the nations are in perplexity and the people are likened to seas and waves roaring.

So, it is more than understandable why many Bible prophecy observers of the times might strongly point to Putin as the Gog possessed leader of that invading force predicted by Ezekiel. All stage-setting seems almost complete for these things to begin to come to pass.

This American presidential administration has demonstrated weakness in practically every endeavor, in terms of dealing with international problems. They have dealt in evil harshness and dogged determination in confronting American patriots –the prime example being the January 6 peaceful protesters who were seduced into a march on the capitol, etc., and set up by the FBI and others as terrorists, imp my humble opinion. But in facing off with Russia and China –the truly great threats against America– this president has been, as the overused word indicates, feckless.

While in SkyWatch TV studios last week doing a number of programs for Pete Garcia's and my book The Disappearing: Future Events That Will Rock the World, I was asked the question: Do you think Putin will invade Ukraine?

My answer at that time, just this past week, was, "I really don't think Putin really wants to invade. He has things going his way without invasion."

My opinion has changed in that short period of time. His bringing more troops and military assets to Ukraine's borders isn't the movement of one who is bluffing. The fact that he won't talk with American officials, and barely will talk with this president is indication enough to know that he intends to fully act out the role of the Russian bear. I would now be surprised if he doesn't invade. This is due to placating him at every turn and threatening only sanctions of the economic sort.

If Putin were to deliberately attack a NATO nation, then there would be confrontation from the western alliance. But Mr. Biden observably hasn't the nerve –or whatsoever it takes— to unilaterally face down this voracious dictator.

There is increasing talk among some observers that Gog is not Putin or a Russian leader but very possibly the Turkish leader Erdogan (the most likely) or a future Turkish leader and that Magog is Turkey, not Russia.

While we must never rule out possibilities so far as details are concerned, I can't, after years of studying the Ezekiel 38-39 Gog-Magog matters, conclude that the head of the coalition against Israel will be other than Russia. It looks very much like Vladimir Putin might well be the man who could lead such a coalition. His appetite for conquest is building, and a time might come soon when Israel and its vast oil and gas reserves, a threat to Putin's desire to be the lone supplier of Europe and other regions, might give him that evil thought that puts hooks in the jaws of Gog.

AMERICAN OVERSIGHT

By placating this ruthless Russian leader, Biden and company just might be fueling the fires of Putin's appetite for such conquest as Ezekiel ascribes to the one who will be Gog.

Globalists aren't just coming for your cars and your cash; they also want your steaks, burgers and bacon – Leo Hohmann - https://leohohmann.com/2022/02/14/globalists-arent-just-coming-for-your-cars-and-your-cash-they-also-want-your-steaks-burgers-and-bacon/

We reported last week on how the globalists are coming for your cars and your cash, because your cars are key to you retaining your freedom of movement and your cash is paramount to you maintaining your financial independence and your privacy.

But they don't intend to stop there.

If there's one thing the globalist cabal hates, it's free and independent people. They want everyone, from every social strata, to be dependent in one form or another on the government for their survival.

But they want more than your cars and your cash, which they will replace with self-driving electric cars and digital money.

They also want to nose their way into your personal dietary habits.

There's a video that's started circulating on the Internet under the title, "Woke Activist Says Eating Hamburgers Is Sexist." This video is powerfully symbolic of the attitude the global predators have toward we the people.

I've said repeatedly that in the beast system they are trying to bring in under the Great Reset and Fourth Industrial Revolution, you will have no rights. Only privileges. You eat and survive and move about in society at the pleasure of the almighty state and its corporate "partners." Klaus Schwab and his buddies at the World Economic Forum call this system "stakeholder capitalism" and it's coming soon to a city or town near you. If we let it.

So you have to watch this clip from a speech by Carol Adams, who argued for the complete elimination of meat as a food for human consumption in a recent presentation before the Oxford Union Society. She says eating hamburgers is a sign that you are sexist and maybe even a white supremacist.

Do not make the mistake of dismissing her as just some crazy leftist lunatic. She is a useful idiot, but she has some very influential people behind her who are working overtime to make sure you don't get to eat very much meat, if any, in the coming new world order. (It's no coincidence that meat is one of the items, along with fuel for our cars, that is getting more unaffordable by the day as our economy shifts into hyper inflationary mode).

Watch: https://youtu.be/gMfjm4NWkYU

Adams' is actually arguing the position of very powerful global interests. The World Economic Forum and its founder, Klaus Schwab, along with his friend Bill Gates and many other powerful billionaires are all saying that in order to "save the planet," we need to have fewer living, breathing human beings walking the earth and those who remain must learn to cut back on their carnivore cravings.

That's no doubt why Gates has made himself the biggest buyer of American farmland and why China is also among the top buyers of U.S. agricultural properties. They hope that by taking more American ranchers out of business

AMERICAN OVERSIGHT

they can drastically cut the supply of beef, pork and chicken coming to market and create a market for their artificial lab-grown meat.
And who is the world's premiere investor in lab-grown meat? You guessed it. Bill Gates. He has said that lab-grown meat could start to show up in U.S. grocery stores by the end of 2022.
But first, there's a little more work to be done in the propaganda war against meat. They must demonize meat eaters and that's what the woke woman at the Oxford Union was doing. Meat eaters are evil, sexist, misogynistic extremists.
Anything on which the globalist predators who hate humanity want to declare war on, they simply label as racist, sexist or homophobic.
They have said the same thing about the word "freedom."
Because the Truckers' Freedom Convoy has breathed new life into the international freedom movement and is exposing the tyrants, those who finance and provide propaganda cover for the tyrants are now saying that use of the word "freedom" is a favorite choice of "racists" and "extremists." So beware of hitching your train to those evil "freedom" lovers.
I kid you not. This is the message being put out by Canada's state-owned media, the Canadian Broadcasting Corp.
The CBC actually came out with an article trying to convince its readers that to advocate for freedom makes you suspect of being a "far right" extremist and racist.
Are these globalist freaks pathetic, or what?
You truly couldn't make this up, folks.

Will The Next Economic Crisis Be Deliberately Engineered? –

Brandon Smith -
https://www.prophecynewswatch.com/article.cfm?recent_news_id=5209
The effective Federal Reserve funds rate (the EFFR) has been sitting at virtually zero for a long time now. It feels a little strange to think about the fact that it was 14 years ago when the central bank first helped to trigger the crash of 2008 and we are still dealing with the consequences of it today.
I only started writing for the liberty movement two years before that. The amount of time that it takes for economic disasters to develop is well beyond the average person's attention span. In fact, there are many people who are adults today that have no clue what happened in 2008 because they were in elementary school when it went down.
This is how the establishment is able to get away with the negative changes to our national standard of living - because these changes usually happen over the course of decades and almost no one notices.
That said, there comes a point in any financial collapse where the floor is as thin as it will ever get. When the next shoe drops it's going to break right through along with all the furniture. At this stage there is no slow moving crash, everything goes

AMERICAN OVERSIGHT

all at once. We have already seen this scenario in action; and again, I don't think very many people remember the event.

Here's what most people have forgotten

In 2018 the Fed began hinting at the institution not only of rate hikes but also cuts to asset purchases and its balance sheet simultaneously. It's important to understand that effective rates had been sitting near zero for almost a decade and cheap overnight loans from the central bank were feeding one of the longest running corporate stock buyback bonanzas in history. Stock buybacks and easy Fed money facilitated a near endless bull market rally in equities. The lack of real price discovery and the perpetual free-for-all was so bad that the mantra for stocks became "Buy the dip!"

The assumption was that the Fed was always going to step in to protect markets from falling. Why? Because they had done this for several years, creating one of the biggest spikes in the Dow and Nasdaq of all time. Why would they do anything different? But, in 2018, for short time we witnessed what would happen if the central bank was to take away the punch bowl and it was not pretty.

Closing in on mid-2018 the Fed began to hike rates and cut its balance sheet more aggressively. We had seen small intermittent rate hikes since 2015, but these had not coincided with asset cuts or changes in overnight loans to major banks and corporations. The markets immediately began to reverse more than we had seen in some time, gas prices jumped and the yield curve flattened after rates rose a mere 50 basis points. It didn't take much to cause a panic among investors.

So, to be clear, the major business and investment framework of the U.S. has been so dependent on cheap credit from the Fed that even the tiniest increase in interest rates was enough to almost unhinge the entire system. Of course, bull market ticker trackers in the media missed the whole purpose of this exercise.

The Fed reversed course on hikes and their balance sheet in mid-2019, so the mainstream once again assumed that this meant the central bank would "never" allow markets to fall.

Back in 2018 the argument was that there was no need for the Fed to hike rates or drop assets because there was no imminent threat of inflation. The average economist and the media refused to acknowledge the many warning signs that high inflation was going to hit us in the near term. But the Fed knows exactly what it is doing and they understand that the trillions upon trillions of dollars they created out of thin air after the derivatives crisis will ultimately come back to bite the U.S. economy in the rear in the form of price inflation and stagflation.

Another interesting fact about the hikes of 2018 is that Jerome Powell had warned about the consequences of such actions years prior in 2012 during the October Fed meeting:

"...I think we are actually at a point of encouraging risk-taking, and that should give us pause. Investors really do understand now that we will be there to prevent serious losses. It is not that it is easy for them to make money but that they have every incentive to take more risk, and they are doing so. Meanwhile, we look like we are blowing a fixed-income duration bubble right across the credit spectrum that

AMERICAN OVERSIGHT

will result in big losses when rates come up down the road. You can almost say that that is our strategy." - Jerome Powell

Yet, he signed off on the policy anyway once he became chairman. Why?

Because he was ordered to. Former Fed chairman Alan Greenspan once admitted that the central bank answers to no one in government, but this does not mean the Fed is independent. The Fed is only a part of a larger global central banking machine under the oversight of the Bank for International Settlements.

This is not "conspiracy theory," it is simply reality. The notion that the Fed acts thoughtlessly, or that their goal is to keep the U.S. economy afloat is just not true. There are much bigger plans at play.

The next deliberately Engineered economic crisis

My position back then remains the same today: The rate hikes of 2018 were a test run for a more aggressive and deliberately engineered crisis down the road. The Fed has its own agenda, it does not care about protecting U.S. markets, nor does it even care about protecting the U.S. economy in general.

I hold that the Fed is a weapon for social and political change within America and part of its job is to greatly reduce the standard of living of the population while making it appear as if this decline is a "natural" consequence of the U.S. system.

Keep in mind that none other than Karl Marx was insistent that central banks were a primary pillar of a socialist/communist system and its ability to maintain control of the public. As Marx noted in his Manifesto Of The Communist Party written with Fredrick Engels, "despotic inroads on the rights of property" would be "unavoidable as a means of entirely revolutionizing the mode of production." In other words, in order to meet their revolutionary goal, communists would need to destroy property rights.

Among his ten requirements for a communism government, number five reads:

"Centralization of credit in the hands of the state, by means of a national bank with State capital and an exclusive monopoly."

Control of the currency and credit framework means control of the population of any given nation because it allows a central authority to reduce the standard of living "scientifically." That is to say, they can create economic decline or collapse out of thin air.

But why do this at all? Because financial desperation is the fastest way to create public dependence on a central authority.

Every collectivist regime in history has used poverty and near-starvation, or government rationing and management of production, as a means to keep their populations under control. This is nothing new but for some reason many people think this strategy will never be attempted in America. They think the establishment "needs" the American economy intact. They are simply delusional.

When the government and the elites behind government become everyone's Mommy and Daddy and the sole providers for the means of survival, it is unlikely that the citizenry will try to rebel. That is to say, people rarely bite the hand that feeds them.

AMERICAN OVERSIGHT

So, central banks and their corporate and political partners follow the Marxist model and seek to become the hand that feeds; by hook, by crook or by financial collapse if necessary.

I have covered this agenda of central banking and the Fed in many articles the past year, but what we now face is the inevitability of Fed rate hikes. Yet I still see many analysts in the mainstream and in the alternative media who refuse to admit the chances are high that the central bankers will again engage in a rate hike demolition, only this time they are unlikely to have mercy as they did in 2018.

What has changed since the last tightening cycle? Well, in 2022 we now have immediate and obvious stagflation with price inflation of most necessities hitting 40-year highs. This is something the alternative media has been warning about for some time and now the moment has arrived. Forget about the CPI print, it's truly irrelevant and doesn't even account for food, housing and energy. What matters is the average American's wallet and how much it is being drained.

Unfortunately, it's only going to get worse. The Fed has created a Catch-22 situation in which inflation will hit hard regardless of whether they hike rates.

Get ready for the yield curve to flatten again and for long term Treasury bonds to be dropped by most foreign investors. Also, get ready for the value of the dollar to plummet further, after a short initial spike, as stocks fall.

I believe the Fed will stick with rate hikes this time because they have to at least be seen as "trying" to do something about inflation - the same inflation the Fed themselves created through over a decade of fiat money printing and easy credit.

Price inflation will be aggressive this year and going into next year regardless of what the Fed does. Costs are going to rise exponentially for most people. This does not mean that we will be dealing with Weimar-style inflation with wheelbarrows full of Benjamins to buy a loaf of bread. I'm betting we would see government price controls before that happens (which will trigger mass shortages of goods).

However, it doesn't take much in terms of price spikes to cause a breakdown. An increase of 50% in overall costs would crush a large number of U.S. households and make them desperate for aid, perhaps in the form of Universal Basic Income and ultimately a complete sea change over to some form of digital currency.

The Fed has used interest rate hikes into economic weakness in the past, including at the onset of the Great Depression. We have also seen the Fed increase interest rates as high as 12.3% as they did during the inflationary crisis of 1974. These hikes crushed a lot of small and medium businesses at the time.

In fact, my own grandfather had expanded his trucking company with multiple vehicles and millions of dollars and a large amount of credit in the early '70s, only to have his business destroyed by skyrocketing interest rates. The 1970s stagflation crisis was nothing compared to what we now face.

Prepare today, because tomorrow will be too late

The conclusion is obvious - get prepared. Price inflation is already here and I believe climbing credit costs are on the way. Getting prepared means stocking staples now that you and your family use regularly. Buy at the lower prices of today so you don't have to buy at the much higher prices of tomorrow. If you have debt I

AMERICAN OVERSIGHT

suggest dealing with it now if you can, and don't take on any new debt if you can help it.
Do not expect that borrowing at fixed rates today will assure you fixed rates tomorrow.
Most importantly, organize with like-minded people in your community. Trade must decentralize and localize to survive stagflation, and each community is going to need networks of producers and marketplaces to facilitate the shift. We can no longer rely on the supply chain and the global economy; as a culture we will have to relearn how to provide for ourselves and our loved ones.

Daily Jot: Stupidocrisy: Crack pipes and crack pots - Bill Wilson – www.dailyjot.com

Senators Marco Rubio (R-FL) and Joe Manchin (D-WV) have introduced the "Preventing Illicit Paraphernalia for Exchange Systems Act," also known as the PIPES Act. This legislation is "To prohibit the use of Federal funds for local substance use disorder services for the purchase of sterile needles or syringes for the injection of illegal drugs, or to procure, supply, or distribute pipes, cylindrical objects, or other paraphernalia that can be used to smoke, inhale, or ingest narcotics." Now, one might wonder why in the world would such a bill even need to be introduced? The short answer is because the Biden Administration, in all of its wisdom, got their hand caught in the taxpayer cookie jar to the tune of some $30 million.
Yes, you read it correctly—a $30 MILLION federal grant program for what White House press secretary Jen Psaki said would be distributed among drug addicts to promote hygiene and reduce the risk of spreading HIV and hepatitis. The explanation comes on the heels of a Department of Health and Human Services source who told the Washington Free Beacon that the Biden Administration was going to spend the money in part to fund the distribution of crack pipes to drug addicts as part of its plan to advance racial equality. The Free Beacon reported that a spokesman for the agency said the kits will provide pipes for users to smoke crack cocaine, crystal methamphetamine, and "any illicit substance."
This led to the HHS having to cover its tracks with a statement saying that "no federal funding will be used directly or through subsequent reimbursement of grantees to put pipes in safe smoking kits." But Psaki's further clarifications said it was misinformation that crack pipes would be included in the safe smoking kits. She confirmed, however, the program, "is focused on harm reduction strategies, including prioritizing the use of fentanyl test strips and clean syringes." So, the Free Beacon says HHS told it that crack pipes were part of the "safe smoking kits." Psaki says crack pipes were never part of the "safe smoking kits." But she confirmed that syringes are part of the "safe smoking kits." In fact, the HHS Notice of Funding Opportunity specifies the requirement for clean syringes, safe sex kits and safe smoking kits/supplies.

AMERICAN OVERSIGHT

All this language doesn't prevent grantees from providing crack pipes. That's why Manchin and Rubio introduced legislation to prohibit them. The legislation also prohibits "purchase of sterile needles or syringes for the injection of illegal drugs"—something seemingly overlooked in the whole crack pipe drama. Supply crack pipes to drug addicts to get them to stop taking drugs and destroying their lives. Same kind of nonsense that criminal activity will cease if there are no police to enforce laws. Or banning guns without considering that it takes someone to pull the trigger. Ecclesiastes 10:2 says, "A wise man's heart directs him toward the right; but a fool's heart directs him toward the left." There you have it. This is just an example of the same old leftist crack pot politicians. Say it with me…Stupidocrisy.

Daily Devotion: What Are You Building On? - by Greg Laurie – www.harvest.org

But he who received the seed on stony places, this is he who hears the word and immediately receives it with joy; yet he has no root in himself, but endures only for a while. For when tribulation or persecution arises because of the word, immediately he stumbles. —Matthew 13:19

https://harvest.org/resources/devotion/what-are-you-building-on/ - Listen

Some people get excited about a lot of different things. They're into the latest fad or the newest this or that. But then they suddenly abandon it and move on to whatever is next.

The same thing can happen in a person's relationship with God. Sometimes people will say something along the lines of, "I tried the whole Christianity thing, and it didn't work for me." No, actually they never built their life on Christ. They had an emotional experience. If it was a real conversion, they still would be walking with the Lord.

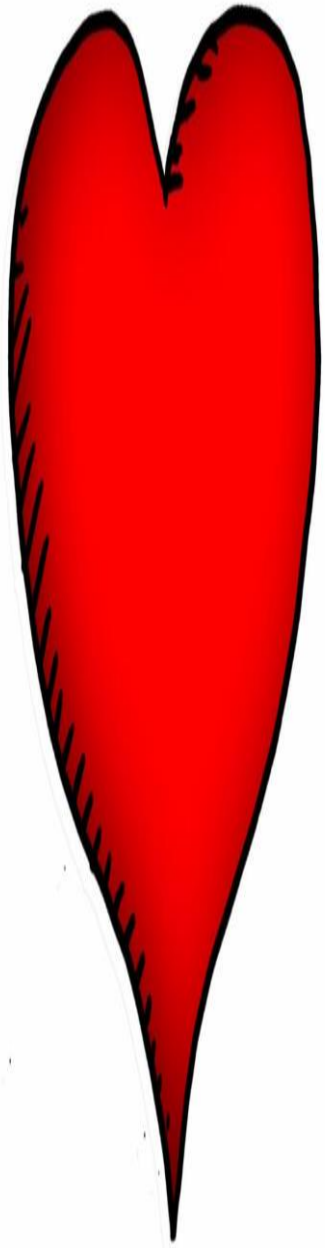
Jesus described people like this in the parable of the sower when He said, "But he who received the seed on stony places, this is he who hears the word and immediately receives it with joy; yet he has no root in himself, but endures only for a while. For when tribulation or persecution arises because of the word, immediately he stumbles" (Matthew 13:20–21 NKJV).

As Christians, we are all persecuted in some way, shape, or form. In fact, it's the mark of a true Christian. As 2 Timothy 3:12 reminds us, "Yes, and all who desire to live godly in Christ Jesus will suffer persecution" (NKJV).

Christianity isn't like a product that works for some and not for others. Christianity, simplified, is a relationship with Christ himself. I think one of the reasons people fall away is because they've built their faith on the wrong foundation. There's only one foundation to build your faith on, and it is Christ and Christ alone.

Don't build your spiritual life on a church in and of itself. Don't build your spiritual life on another person or on a pastor or spiritual leader, because people will let you down. Instead, build your life on Christ. He will sustain you and be there for you.

AMERICAN OVERSIGHT



AMERICAN OVERSIGHT

FROM THE HEART

Let Us Make the Short Time We have Left, Count for ALL of Eternity!

IF YOU HAVE BEEN BLESSED THROUGH THIS MINISTRY, THEN WE ASK THAT YOU WOULD PLEASE REMEMBER PROPHECY UPDATE IN YOUR GIVING - WE ARE TRULY,TRULY,THANKFUL FOR YOUR SUPPORT

WORTHY OF YOUR SUPPORT?

One of the most reliable ways to determine if a ministry is worthy of your financial support is to examine its fruits. If Prophecy Update is keeping you informed, and if that information inspires you, and causes you to draw closer to the Lord, if Prophecy Update equips you with valuable information and knowledge to share with and encourage other believers, and open the eyes of non-believers, and if Prophecy Update keeps you connected to current events relating to Bible Prophecy, then you are partaking of the fruit produced through this ministry. None of this would be possible without the Lords blessings and your support. I believe where the Lord guides, the Lord provides, and most of the time He provides through the willing and generous hearts of believers just like you and me.

Humbly Seek Your Support

Prophecy Update has no corporate sponsors. This ministry is paid for and prayed for by readers and supporters. Without your support, there would be no Prophecy Update, Please pray about becoming a monthly supporter - thanks!

If ever there was a time to invest in God's Kingdom, it's now!

What on earth are you doing for Heaven's Sake?

"Share in the Blessings and Rewards that will last Forever!"

"Folks, it's all beginning to unravel. America is in more danger of falling than at any time in its history. But I believe Bible prophecy predicts this very decline. From this point on, we believers have to get serious. We are going to face discouragement, disillusionment and, most certainly, persecution in the time between now and the Rapture. But don't be discouraged or disillusioned. The coming turmoil will provide us unrivaled opportunities to share the good news of the Gospel. So be ready to share your faith and your hope with those who need Christ. We still have time to reap a great harvest of souls for God's kingdom!" - Hal Lindsey

1) We need your prayers!- We proclaim the Truth of the Word of God and we are under constant spiritual and sometimes even physical attack.
2) We need your encouragement!- We need to hear from you, let us know how the Lord is blessing you through this ministry so that we can share it with others.

AMERICAN OVERSIGHT

3) We need your input! -If you have a prophetic article or story or if there is a news related item we missed, let us know.
4) We need your financial support!- To put it quite simply, without your support, there would be no Prophecy Update.

I ask that you would prayerfully consider partnering with us to get the Word out and keep the world informed. Remember, your gift, no matter how small, does make a difference! You will be helping to touch lives, around the world, 24 hours a day, seven days a week, thanks to the internet your generosity carries a global impact! - Thanks!

Our Prayer for You- "Now he who supplies seed to the sower and bread for food will also supply and increase your store of seed and will enlarge the harvest of your righteousness. You will be made rich in every way so that you can be generous on every occasion, and through us your generosity will result in thanksgiving to God. This service that you perform is not only supplying the needs of God's people but is also overflowing in many expressions of thanks to God. Because of the service by which you have proved yourselves, men will praise God for the obedience that accompanies your confession of the gospel of Christ, and for your generosity in sharing with them and with everyone else." 2 Corinthians 9:10-13

If you have been blessed by Prophecy Update and would like to help support this ministry financially. You can make a secure donation online by going to:

Approaching the Appointed Day - By Daymond Duck - https://www.raptureready.com/2022/02/27/approaching-the-appointed-day-by-daymond-duck/

On Sept. 25, 2015, at the UN, the nations voted 193-0 for "a new universal agenda" called The Transforming Our World: the 2030 Agenda for Sustainable Development.

Three days later, Pres. Obama spoke at the UN and said, "Global integration (the merging of nations) is an agenda that transcends the narrowly defined interests of nation states."

As I understand it, Obama said merging the nations into a world government is more important than their national sovereignty.

These UN Sustainable Development goals, which every nation will be required to keep, are a major step toward the globalist desired world government by 2030 or sooner.

God warned everyone that a world government is coming that will last for seven years and be a time of judgment upon the nations (Dan. 7:23, 9:27; Rev. 13:7).

AMERICAN OVERSIGHT

Zephaniah said, “Therefore wait ye upon me, saith the LORD, until the day that I rise up to the prey: for my determination is to gather the nations, that I may assemble the kingdoms, to pour upon them mine indignation, even all my fierce anger: for all the earth shall be devoured with the fire of my jealousy” (Zeph. 3:8).

- “Indignation” is one of the names of the Tribulation Period, a time when God will pour out His fierce anger upon the nations.
- When it starts, the godless globalists will call it “the wrath of the Lamb” and the “great day of His wrath” (Rev. 6:15-17).
- (The good news can be found at I Thess. 5:9).

Jesus said, “For then shall be great tribulation, such as was not since the beginning of the world to this time, no, nor ever shall be” (Matt. 24:21).

- “Great Tribulation” refers to the last 3 ½ years of the Tribulation Period, a time that will be worse than anything that has ever happened or ever will happen on earth.

Jesus said, “Immediately after the tribulation of those days shall the sun be darkened, and the moon shall not give her light, and the stars shall fall from heaven, and the powers of the heavens shall be shaken” (Matt. 24:29).

- The “tribulation of those days” refers to a future time that will end with the Second Coming of Jesus.

Paul said, “And the times of this ignorance (a time when people worshipped gods other than Jesus) God winked at; but now commandeth all men every where to repent: Because he hath appointed a day, in the which he will judge the world in righteousness by that man whom he hath ordained; whereof he hath given assurance unto all men, in that he hath raised him from the dead” (Acts 17:30-31).

- God has “appointed a day” of global judgment and commanded those that worship gods other than Jesus to repent.

On one of his missionary trips, the Apostle Paul went to a place in Athens called Mars Hill (Acts 17:16-31).

- The Greeks had statues of many gods.
- They even had a statue to an unknown God.
- There was a time when God overlooked that kind of ignorance.

AMERICAN OVERSIGHT

- But God is righteous, and He has appointed a day of judgment for those that reject Jesus (as the coming world government is doing).
- The resurrection of Jesus is a declaration that God is real, and people need to repent before the appointed day of global judgment arrives.
- God sent Jesus to suffer and die on a cross for the sins of the world, He raised Jesus from the dead to assure everyone that He is in control, and He will be very angry with those that try to remove every mention of Jesus from government, history, and society.

Here are some recent indications that we are approaching the coming day.

One, about 2 weeks ago, 2 earthquakes (3.6 and 3.8) struck Israel (no damage), and on Feb. 15, 2022, 2 more earthquakes (3.5 and 3.1) struck Israel again (4 earthquakes in about 2 weeks, no damage).

This sudden flurry of earthquakes (and others in nearby nations) may not mean anything, but the wrath of God will cause a great shaking in Israel when Russia, Iran, Turkey, and others attack Israel from the north in the latter days and latter years during the Battle of Gog and Magog (Ezek. 38:8, 16, 18-20). These nations have troops in Syria (north of Israel) now, and many prophecy teachers believe that an attack could be imminent.

Two, according to the Bible, rain will return to Israel at the end of the age, and on Feb. 11, 2022, it was reported that winter rains have raised the water level in the Sea of Galilee so that it is now just 4.2 feet short of maximum capacity. The water level is expected to keep rising, and Israel will probably have to open the Degania Dam to prevent flooding.

Three, in the Old Testament, Antiochus Epiphanes, a type of the coming Antichrist, exalted himself, desecrated the Temple, persecuted the Jews, cast truth to the ground (lied), and prospered (things that will happen during the Tribulation Period; Dan. 8:11-12).

Concerning Special Council John Durham's report: on Feb. 16, 2022, Franklin Graham said, "For 2 years, the American people endured lie after lie put forth by the media, and Hillary Clinton's campaign was behind it all."

There appears to be corruption in the media, Dept. of Justice, and the FBI because Hillary has a record of exalting herself and casting truth to the ground, but she keeps on prospering.

Citizens will see lots of leaders like Hillary during the Tribulation Period.

Four, concerning deceit and corruption in the mainstream media: on Feb. 18, 2022, prophecy expert and former White House Correspondent William Koenig, listed in Koenig's Eye View, listed 5 scandals the mainstream media is not covering:

- Hunter Biden's illegal business dealings.
- Hillary Clinton's alleged spying on Trump.

- What John Durham's investigation could find in the future.
- The alleged election theft in several states.
- Fauci's role in Wuhan, China.

Most of the news outlets are owned in part or influenced by globalists, and they are no longer reliable sources of information.
Five, concerning Biden's efforts to stop a Russian invasion of Ukraine: on Jan. 26, 2022, Paul Craig Roberts of the Institute for Political Economy said, "It is the U.S. that is being invaded (by illegal immigrants), not Ukraine."
Globalists want a more powerful world government and EU, and a less powerful Russia, China, and U.S.
(**FYI:** Russia and China want to dominate the NWO, so they are trying to expand their power now, but they will not succeed. The Antichrist will destroy wonderfully (with satanic power and amazing high-tech weapons; Dan. 8:24), and he will prevail.)
(**Update:** On Feb. 22, 2022, Russian troops entered 2 regions of Ukraine. I cannot predict the future, but some excellent Bible prophecy teachers believe Biden's pathetic response will incentivize Putin to go after Israel soon. Time will tell.)
Six, concerning the coming world government: citizens have now received a small glimpse of what it will be like all over the world by looking at what Prime Minister Justin Trudeau (a student at the World Economic Forum's school for future globalist leaders) is doing in Canada.

- Trudeau invoked the Emergency Act not to protect the people's rights, but to crush a peaceful people's protest because he has constantly restricted their rights (restricted Church services, ordered people to be vaccinated against their will, caused people to lose their jobs because they didn't get vaccinated, denied people the right to leave the country without being vaccinated, refused to let people be with dying loved ones, etc.).
- Trudeau is a dictator that refused to even listen to the grievances of these non-violent citizens, and he targeted them simply because they disagreed with him.
- About 200 have been arrested, some have been tear-gassed, pepper-sprayed, shoved to the ground, kicked, hit with the butt of a rifle, lied about, called names, their bank accounts have been frozen, their vehicles have been seized, windows have been knocked out of their vehicles, families have been separated, a handicapped woman on a walker was reportedly trampled by horses, police reportedly fired rubber bullets at protestors, etc.

AMERICAN OVERSIGHT

- The government seized more than 75 bank accounts, and the bank accounts of some people who are not even in Ottawa were frozen simply because they donated money to the protestors.
- The protestors are patriots that parked vehicles in the capital, but they have not destroyed police vehicles, burned buildings, or thrown objects at the police, as others have done without being arrested, punished, etc.
- They have peacefully protested the tyrannical actions of their government by praying, singing, listening to speeches, waving flags, etc.

Pres. Biden and others urged Trudeau to crack down on these people, and if he gets away with it, it is this writer's opinion that they will do it in the U.S. and other nations.

Unelected globalist elites want to control every aspect of our lives (what we can say and can't say, whether we can have a job or can't have a job, what kind of medical treatment we can have and can't have, where we can go and can't go, etc.), and they are trying to deny people the right to express an opinion about what they say we can do and can't do.

The Constitution of the U.S. and other national guidelines (freedom of religion, freedom of speech, etc.) mean nothing to them because they have pushed through global laws and bought global agreements that they say prevail over the laws of nations.

That's right; they say many of America's laws are no longer valid because America has agreed to abide by the "Transforming our World: The 2030 Agenda for Sustainable Development" goals.

The World Economic Forum (WEF) told us we will own nothing and be happy, and Trudeau has already started seizing people's bank accounts and property (but he can't seize the treasure that people have laid up in heaven).

(**Update:** On Feb. 22, 2022, it was reported that Ottawa's mayor wants to start selling the vehicles the police have seized from the truckers.)

On Feb. 21, 2022, the Canadian House of Commons voted to continue Trudeau's Emergency Powers; so, it looks like Canada has fallen, and the nation will not get its freedom back until the Tribulation Period is over.

Pelosi is already mobilizing the DC police and preparing to attack the U.S. truckers' "Freedom Convoy" that is on its way to Washington.

On Feb. 18, Biden extended the National Emergency Declaration in the U.S.

This writer cannot predict what will happen, but stopping the globalist move toward world government has never been the Christian's hope (our hope is the Rapture).

Welcome to the beginning of the New World Order, the fundamental transformation of America and the world, the approaching day, the UN's new universal agenda, the world's new era, the day of governmental terrorism, the loss of freedom of speech and the right to say you disagree with government,

AMERICAN OVERSIGHT

the death of freedom, and the beginning of persecution in Canada, the U.S., and every nation on earth.

Finally, are you Rapture Ready?

If you want to be rapture ready and go to heaven, you must be born again (John 3:3). God loves you, and if you have not done so, sincerely admit that you are a sinner; believe that Jesus is the virgin-born, sinless Son of God who died for the sins of the world, was buried, and raised from the dead; ask Him to forgive your sins, cleanse you, come into your heart and be your Saviour; then tell someone that you have done this.

duck_daymond@yahoo.com

Put(t)in' Things into Perspective.... – A.V. Rauf - https://bibleprophecyfortoday.com/2022/02/27/puttin-things-into-perspective/

For this that have been following the information, Scriptural Teachings, and updates from this website, you already all too familiar aware of the fact that Bible prophecy is the proof God is who He claims to be. He is omnipotent, omniscient and omni-present. The Lord proclaims that He has declared the final events of human history from the beginning of Scripture.

Isaiah 46:9-10–Remember the former things of old: for I am God, and there is none else; I am God, and there is none like me,10 Declaring the end from the beginning, and from ancient times the things that are not yet done, saying, My counsel shall stand, and I will do all my pleasure

In other words, God sits outside of time. He is not in the past or in the future. He is eternal and encompasses all three; Past, Present & Future. Thus, He alone can proclaim the future through prophecy, predicting the very end of times the earliest pages of the Holy Writ.

I am convinced we are not only on the Last days of the Church Age prior to His return but also that as we are drawing closer to His return, prophetic events are going to accelerate in occurrence.

This week, Vladimir Putin's announcement to execute a special military operation against Ukraine was a major stepping stone to the eventual fulfillment of End-Times Events. One can only wonder if his ultimate military objective is the re-conquest of ALL of the former Soviet Republics – Estonia, Latvia, Lithuania, Moldova, Georgia and Azerbaijan, plus ALL of the former Warsaw Pact countries of eastern Europe from Poland to Bulgaria.

Before we get into that you may want to get up to speed with a major prophetic war that will occur in the near future as prophesied by the Prophet Ezekiel. I have discussed this in the past in the following articles:

https://bibleprophecyfortoday.com/2015/01/07/ezekiel-38-39-the-war-of-gog-magog-part-i/

AMERICAN OVERSIGHT

https://bibleprophecyfortoday.com/2015/01/08/ezekiel-38-39-the-war-of-gog-magog-part-2/
https://bibleprophecyfortoday.com/2015/01/09/ezekiel-38-39-the-war-of-gog-and-magog-part-3/
https://bibleprophecyfortoday.com/2015/01/09/ezekiel-38-39-the-war-of-gog-magog-part-4-conclusion/

Vladimir Putin, who himself is a billionaire (Google Putin's Palace in the Black Sea), has been influenced by the desire to restore Mother Russia to greatness.

Ukraine and Russia are divided by a common history, both religiously and politically.

They trace their ancestry to the medieval kingdom of Kievan Rus, whose 10th century Prince Vladimir (Volodymyr in Ukrainian) rejected paganism, was baptized in Crimea and adopted Orthodoxy as the official religion.

In 2014, Putin cited that history in justifying his seizure of Crimea, a land he called "sacred" to Russia.

From a religious perspective, it has been said that Putin has been keen to present himself as a man of serious personal faith. He was born in St Petersburg in October 1952 to Vladimir and Maria. His father was a Soviet patriot, his mother a committed Christian. While he was an infant, a baptismal cross was given to Putin by his Christian mother when she had him secretly baptised in the early 1950s and it has apparently been an object of great sentimental value to him ever since.

Putin may be on a quest to re-establish the Russian Orthodox Church. His seat of power, Moscow is the Third Rome while Kyiv, Ukraine would be "the Jerusalem" of the Third and the last Roman Empire, thus making Ukraine very important to him.

Much more can be said about this.

As Christians our task is to pray for him, for the church leaders in Ukraine and for the People of Ukraine who are subject to the what is currently taking place there.

I Timothy 2:1-2–I exhort therefore, that, first of all, supplications, prayers, intercessions, and giving of thanks, be made for all men;2 For kings, and for all that are in authority; that we may lead a quiet and peaceable life in all godliness and honesty.

Now some interesting facts concerning Ukraine. Did you know that Ukraine is currently ranked fourth in the world by the total value of natural resources. But of greater significance consider the following:

Ukraine is 1st in Europe in proven recoverable reserves of uranium ore. Furthermore, in terms of installed capacity of nuclear power plants, they are the 3rd largest in Europe and 8th largest in the world.. Ukraine is 3rd in all of Europe in shale gas reserves. They have the 2nd largest natural gas pipeline and the 4th largest natural gas pipeline in the world.

AMERICAN OVERSIGHT

Without getting into detail it must be noted that Ukraine is an an important industrialized country and its independence is important to the rest of the world. They rank first in terms of arable land in Europe. They rank first in the world in the export of sunflower and sunflower oil. They rank second place in the world in burley production ad the 4th largest exporter of corn in the world. In other world, the world depends on the export business of Ukraine in many ways. Keep that in mind.

In simplest terms, NATO is short for The North Atlantic Treaty Organization , a 30-member alliance formed in the wake of WWII with the goal of protecting democratic freedom. As of 2021 NATO includes Albania, Belgium, Bulgaria, Canada, Croatia, Czech Republic, Denmark, Estonia, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Lithuania, Luxembourg, Montenegro, Netherlands, North Macedonia, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Turkey, United Kingdom, United States.

NATO aggression amounts to the forward deployment of the Alliance's Response Force, the European Union's decision to arm Ukraine with top-notch weapons to combat Russia. In response, President Vladimir Putin ordered Russian nuclear deterrent forces put on alert Sunday in response to what he called "aggressive statements" by leading NATO.

The move means Putin has ordered Russia's nuclear weapons prepared for increased readiness to launch, raising the threat that the tensions could boil over into a nuclear war.

Just a few days ago, the U.S. Government just admitted that this Russian/Ukrainian conflict is a war that will determine who will rule the new world order:

https://www.reuters.com/world/us-says-china-russia-seek-profoundly-illiberal-world-order-2022-02-23/

So according to the article, what you have is the implementation of a New World Order vs. the implementation of an Illiberal World Order.

Regardless, the timing is ripe for the possibility of other conflicts to emerge: China vs. Taiwan (which would also include Japan), Iran & Syria vs. Israel. Earlier this week, the IDF (Israeli Defense Force) used surface-to-surface missiles to strike a Hezbollah base in Quneitra .The IDF also dropped Arabic-language leaflets to warn the Syrian Army to stay clear of Hezbollah. Sound like more significant action coming soon

In others words, all global events that can lead to a possible World War 3. Think order out of chaos.

Now I am not inciting fear. Our God has not given us the Spirit of fear, but of power and of love and of a sound mind:

2 Timothy 1:7--For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind.

He has also given us His Word, which we need to be reading and understanding through illumination of Scriptures by the Holy Spirit.

AMERICAN OVERSIGHT

Now…. Here comes the BIG "IF"……..

Just this week in addition to everything else that took place on the Global stage, if you will, Moscow took issue with Israeli sovereignty over the Golan Heights and Jerusalem just prior to its attack on Ukraine. Russia's deputy ambassador, Dmitry Polyanskiy, told the UN Security Council, which held a debate on the Israeli-Palestinian conflict on Wednesday said: "Russia doesn't recognize Israel's sovereignty over Golan Heights that are part of Syria,": https://www.jpost.com/middle-east/article-698512

So why is this of prophetic importance??

The Golan Heights, a rocky plateau in south-western Syria, has a political and strategic significance which clearly become advantageous to its owner. As of now, both Iran and Lebanon would have direct access through Israel via the Golan Heights. I suggest this area may now be one of financial significance. More on that in a moment. Historically speaking, the British colonial power gave the Golan to France's Syrian colony in 1923. After the 1948–49 Arab-Israeli War, the Golan Heights were partly demilitarized by the Israel-Syria Armistice Agreement. Furthermore, Syria attacked Israel in 1967 and lost the Golan Heights. Syria had occupied it for 44 years. During the closing stages of the Six-Day War in 1967, Israel seized the Golan Heights from Syria and as a result, most of the Syrian Arab inhabitants fled the area during this conflict. Back in 2019, Israel's Prime Minister Benjamin Netanyahu recently thanked U.S. President Donald Trump for signing a proclamation recognizing Israel's authority over the long-disputed Golan Heights two weeks before Israeli elections were set to take place. Benjamin Netanyahu also referred to Trump as a modern Cyrus after the signing of the Golan Heights recognition. In his remarks, Benjamin Netanyahu mentioned the great leaders through history who have had a profound influence on the Jewish people and the state of Israel, including King Cyrus who liberated the Jews and issued an edict for the rebuilding of the Jewish temple in Jerusalem. This was the second time the comparison was made.

For what it's worth, remember that President Trump announced the moving of the U.S. Embassy to Jerusalem and recognized it as Israel's capital. This was done on May 14, 2018, 70 years from the very birth of the nation of Israel which was on May 14, 1948. By the way, Trump's formal recognition of the Golan Heights occurred on Purim, the festival that recognizes the utter defeat of the enemies of Israel. That's another message in itself.

Biblically speaking, the Bashan region, now known as the Golan Heights, is a part of the biblical territory promised to the Patriarch Abraham and the people of Israel for an everlasting covenant — the Covenant of the Parts — recounted in Genesis 15.

Genesis 15: 1-21—After these things the word of the Lord came unto Abram in a vision, saying, Fear not, Abram: I am thy shield, and thy exceeding great reward.2 And Abram said, Lord God, what wilt thou give me, seeing I go

childless, and the steward of my house is this Eliezer of Damascus?3 And Abram said, Behold, to me thou hast given no seed: and, lo, one born in my house is mine heir.4 And, behold, the word of the Lord came unto him, saying, This shall not be thine heir; but he that shall come forth out of thine own bowels shall be thine heir.5 And he brought him forth abroad, and said, Look now toward heaven, and tell the stars, if thou be able to number them: and he said unto him, So shall thy seed be.6 And he believed in the Lord; and he counted it to him for righteousness.7 And he said unto him, I am the Lord that brought thee out of Ur of the Chaldees, to give thee this land to inherit it.8 And he said, Lord God, whereby shall I know that I shall inherit it?9 And he said unto him, Take me an heifer of three years old, and a she goat of three years old, and a ram of three years old, and a turtledove, and a young pigeon.10 And he took unto him all these, and divided them in the midst, and laid each piece one against another: but the birds divided he not.11 And when the fowls came down upon the carcasses, Abram drove them away.12 And when the sun was going down, a deep sleep fell upon Abram; and, lo, an horror of great darkness fell upon him.13 And he said unto Abram, Know of a surety that thy seed shall be a stranger in a land that is not theirs, and shall serve them; and they shall afflict them four hundred years;14 And also that nation, whom they shall serve, will I judge: and afterward shall they come out with great substance.15 And thou shalt go to thy fathers in peace; thou shalt be buried in a good old age.16 But in the fourth generation they shall come hither again: for the iniquity of the Amorites is not yet full.17 And it came to pass, that, when the sun went down, and it was dark, behold a smoking furnace, and a burning lamp that passed between those pieces.18 In the same day the Lord made a covenant with Abram, saying, Unto thy seed have I given this land, from the river of Egypt unto the great river, the river Euphrates:19 The Kenites, and the Kenizzites, and the Kadmonites,20 And the Hittites, and the Perizzites, and the Rephaims,21 And the Amorites, and the Canaanites, and the Girgashites, and the Jebusites.

The city of Bashan was also one of three cities of refuge:

Deutoronomy 4: 40-49—40 Thou shalt keep therefore his statutes, and his commandments, which I command thee this day, that it may go well with thee, and with thy children after thee, and that thou mayest prolong thy days upon the earth, which the Lord thy God giveth thee, for ever.41 Then Moses severed three cities on this side Jordan toward the sunrising;42 That the slayer might flee thither, which should kill his neighbour unawares, and hated him not in times past; and that fleeing unto one of these cities he might live:43 Namely, Bezer in the wilderness, in the plain country, of the Reubenites; and Ramoth in Gilead, of the Gadites; and Golan in Bashan, of the Manassites.44 And this is the law which Moses set before the children of Israel:45 These are the testimonies, and the statutes, and the judgments, which Moses spake unto the children of Israel, after they came forth out of Egypt.46 On this side Jordan, in

AMERICAN OVERSIGHT

the valley over against Bethpeor, in the land of Sihon king of the Amorites, who dwelt at Heshbon, whom Moses and the children of Israel smote, after they were come forth out of Egypt:47 And they possessed his land, and the land of Og king of Bashan, two kings of the Amorites, which were on this side Jordan toward the sunrising;48 From Aroer, which is by the bank of the river Arnon, even unto mount Sion, which is Hermon,49 And all the plain on this side Jordan eastward, even unto the sea of the plain, under the springs of Pisgah.

The town of Bashan was located in the middle of the Golan Heights. It was under the rule of an Amorite king, yet another giant whose name was Og. Now let's fast forward to the 21st Century. What could make the Golan Heights even more valuable to Israel? How about the discovery of a huge oil deposit?

Back in 2015, The Russian Times (RT) and many other sources reported that Israel had indeed discovered a major deposit of oil on the Golan Heights. In addition, Israel granted a Golan Heights oil drilling license to an American Company. Recent tests have indicated that there very well may be large oil and gas deposits in the Golan!!!

This discovery just may help readers to understand why Russia is making such a strong play to support the Assad regime in Syria. It also may explain why former prime Minister Benjamin Netanyahu was lobbying the US to support its bid to annex the Golan Heights in view of the failed state of Syria. It appears that the prophetic scenario in Ezekiel 36-39 is beginning to take shape as Russia moves more military assets into and close to Syria. Turkey is also sending troops and has troops situated in Northern Syria. Iran too has troops amassed north of the Golan Heights. Is this the spoil and plunder that is spoken of in Ezekiel 39?? I don't foresee the Golan Heights in a land for peace deal.

The bottom line here is that God's prophetic word is coming to pass. It is very possible that the enemies of Israel are gathering for an attack from the Golan Heights. Remember, in the Bible whenever Israel was invaded, the invasion always came from the North.

Oh yeah, back to the BIG "IF"…….

IF Putin represents whom the Bible refers to as Gog, then somewhere within this military campaign God will place hooks in his jaws and drag him and his allies, from Iran to Africa, to their annihilation on the mountains of a much greater, much enlarged State of Israel, which would result from the prophetic fulfillment of the following:

Jeremiah 49:34-39—The word of the Lord that came to Jeremiah the prophet against Elam in the beginning of the reign of Zedekiah king of Judah, saying,35 Thus saith the Lord of hosts; Behold, I will break the bow of Elam, the chief of their might.36 And upon Elam will I bring the four winds from the four quarters of heaven, and will scatter them toward all those winds; and there shall be no nation whither the outcasts of Elam shall not come.37 For I will cause Elam to be dismayed before their enemies, and before them that seek their life: and I

AMERICAN OVERSIGHT

will bring evil upon them, even my fierce anger, saith the Lord; and I will send the sword after them, till I have consumed them:38 And I will set my throne in Elam, and will destroy from thence the king and the princes, saith the Lord.39 But it shall come to pass in the latter days, that I will bring again the captivity of Elam, saith the Lord.

Jeremiah 49:23-27–Concerning Damascus. Hamath is confounded, and Arpad: for they have heard evil tidings: they are fainthearted; there is sorrow on the sea; it cannot be quiet.24 Damascus is waxed feeble, and turneth herself to flee, and fear hath seized on her: anguish and sorrows have taken her, as a woman in travail.25 How is the city of praise not left, the city of my joy!26 Therefore her young men shall fall in her streets, and all the men of war shall be cut off in that day, saith the Lord of hosts.27 And I will kindle a fire in the wall of Damascus, and it shall consume the palaces of Benhadad.

Isaiah 17:1-3–The burden of Damascus. Behold, Damascus is taken away from being a city, and it shall be a ruinous heap.2 The cities of Aroer are forsaken: they shall be for flocks, which shall lie down, and none shall make them afraid.3 The fortress also shall cease from Ephraim, and the kingdom from Damascus, and the remnant of Syria: they shall be as the glory of the children of Israel, saith the Lord of hosts.

Psalm 83—Keep not thou silence, O God: hold not thy peace, and be not still, O God.2 For, lo, thine enemies make a tumult: and they that hate thee have lifted up the head.3 They have taken crafty counsel against thy people, and consulted against thy hidden ones.4 They have said, Come, and let us cut them off from being a nation; that the name of Israel may be no more in remembrance.5 For they have consulted together with one consent: they are confederate against thee:6 The tabernacles of Edom, and the Ishmaelites; of Moab, and the Hagarenes;7 Gebal, and Ammon, and Amalek; the Philistines with the inhabitants of Tyre;8 Assur also is joined with them: they have holpen the children of Lot. Selah.9 Do unto them as unto the Midianites; as to Sisera, as to Jabin, at the brook of Kison:10 Which perished at Endor: they became as dung for the earth.11 Make their nobles like Oreb, and like Zeeb: yea, all their princes as Zebah, and as Zalmunna:12 Who said, Let us take to ourselves the houses of God in possession.13 O my God, make them like a wheel; as the stubble before the wind.14 As the fire burneth a wood, and as the flame setteth the mountains on fire;15 So persecute them with thy tempest, and make them afraid with thy storm.16 Fill their faces with shame; that they may seek thy name, O Lord.17 Let them be confounded and troubled for ever; yea, let them be put to shame, and perish:18 That men may know that thou, whose name alone is Jehovah, art the most high over all the earth.

Isaiah 11:12-14–And he shall set up an ensign for the nations, and shall assemble the outcasts of Israel, and gather together the dispersed of Judah from the four corners of the earth.13 The envy also of Ephraim shall depart, and the adversaries of Judah shall be cut off: Ephraim shall not envy Judah,

AMERICAN OVERSIGHT

and Judah shall not vex Ephraim.14 But they shall fly upon the shoulders of the Philistines toward the west; they shall spoil them of the east together: they shall lay their hand upon Edom and Moab; and the children of Ammon shall obey them.

Ezekiel 28:24-27—And there shall be no more a pricking brier unto the house of Israel, nor any grieving thorn of all that are round about them, that despised them; and they shall know that I am the Lord God.25 Thus saith the Lord God; When I shall have gathered the house of Israel from the people among whom they are scattered, and shall be sanctified in them in the sight of the heathen, then shall they dwell in their land that I have given to my servant Jacob.26 And they shall dwell safely therein, and shall build houses, and plant vineyards; yea, they shall dwell with confidence, when I have executed judgments upon all those that despise them round about them; and they shall know that I am the Lord their God.

And somewhere within this prophetic chain of events the TRUE believers, aka the Bride of Christ, aka the Church, will be taken from the earth and the 70th and final week of the angel Gabriel's 70 Weeks prophecy as prophesied in Daniel Chapter 9 verses 24-27 will commence:

Daniel 9:24-27–Seventy weeks are determined upon thy people and upon thy holy city, to finish the transgression, and to make an end of sins, and to make reconciliation for iniquity, and to bring in everlasting righteousness, and to seal up the vision and prophecy, and to anoint the most Holy.25 Know therefore and understand, that from the going forth of the commandment to restore and to build Jerusalem unto the Messiah the Prince shall be seven weeks, and threescore and two weeks: the street shall be built again, and the wall, even in troublous times.26 And after threescore and two weeks shall Messiah be cut off, but not for himself: and the people of the prince that shall come shall destroy the city and the sanctuary; and the end thereof shall be with a flood, and unto the end of the war desolations are determined.27 And he shall confirm the covenant with many for one week: and in the midst of the week he shall cause the sacrifice and the oblation to cease, and for the overspreading of abominations he shall make it desolate, even until the consummation, and that determined shall be poured upon the desolate.

The conflict in Ukraine and its eventual outcome cannot be determined as of yet, however, what we know for a surety is that our omnipotent, omni-present and omnipotent God is in control. What we need to see and understand right now is that events are taking place that are leading to other events, both prophetic and otherwise.

Bottom Line: If you do not know Jesus Christ as your Lord and Savior, NOW is the time to get saved!!!!

AMERICAN OVERSIGHT

Who Did It? - By Steve Schmutzer -
https://www.raptureready.com/2022/02/27/who-did-it-by-steve-schmutzer/
America gained energy independence in 2020, and according to government data at that time, the US was a net energy exporter.
That means we produced enough energy for our own needs, and we could sell the rest to other nations. We were more secure; we didn't need to depend on

AMERICAN OVERSIGHT

anyone who really didn't like us for our energy requirements. It was a common-sense achievement, and it underscored the responsible policies of the then-Trump administration.

The good news didn't last long. A fraudulent administration manipulated its way into leadership, and the first thing it did was reverse proper and sensible policies. Border wall construction, which had profoundly slowed illegal immigration, was discontinued. Law enforcement budgets which helped to keep crime down were slashed. Projects which had achieved energy independence were discontinued.

The result is only one year after the greatest election cheat in our nation's history, the disastrous policies of the Biden administration have moved America from being an economic powerhouse to experiencing record inflation.

And that energy issue? Well – it's obvious by now. The US became an energy importer in 2021, and current projections show 2022 will be worse. According to a recent LSE Phelan US Centre blog, "The world is currently facing the most severe energy shock in recent decades. The price of gas and electricity have reached record highs."

So much could be said about the sharp descent of America over the past 12 months. Everywhere you look, all the wrong statistics define this nation now: record crime, unprecedented illegal immigration, surging unemployment, zero credibility in foreign policy, and so on. It's a long list of the wrong sort.

The bigger question is, "Why did America plummet so dramatically and so quickly?"

Plenty of pundits pontificate about poor decisions after the fact. Countless commentators try to deflect from the gravity of various missteps. Nearly everyone wants to hold the sham COVID narrative responsible. There is no lack of so-called "experts" that circumvent the truth and blame anything other than the obvious.

The simple fact is America is bearing the penalty for the moral vacuum of its leaders. We're facing the consequences of the schemes and lies propagated by all those who broke the rules to put this present leadership in power.

This nation is reeling from the catastrophic incompetence of fools who have no shred of wisdom, no ounce of virtue, no grasp of justice, no scrap of honor, and no fear of God.

Proverbs 29:2 states the entire issue bluntly, "….when the wicked rule, the people groan." This nation is now ruled by corrupt leaders who habitually raged and frothed against any notion of "making America great." As they see it instead, America's strength and exceptionalism must be eroded. They're succeeding, and we're paying the price for that.

Now – with their own obvious incompetence and lies – their goal is to destroy America, to reduce this nation's capacities, and to bring the US down to the parameters of a chaotic third-world tyrannical mess.

Everything is pointing to this world being prepared for the return of Jesus Christ. No tin-pot dictator "wanna-be" like we see in our neighbor to the north – and no bungling incoherent fool like America has in the White House now – can

AMERICAN OVERSIGHT

ultimately take credit for where things are trending on the global stage. They are 100% responsible for their choices – yes – but there's a bigger picture here. Leaders like these are nothing more than pawns on God's sovereign chessboard. Daniel 2:21 reminds us that "He removes kings and sets up kings." In other words, this is all playing out by God's design.

He's allowing it all to happen just as it is taking place. He has a plan and a purpose, and His glory will ultimately be made clear.

So – said another way, "God did that!"

The Romans One Effect - By Hal Lindsey - https://www.hallindsey.com/ww-2-27-2021/

Vladimir Putin lies. He looks his opponent straight in the face and lies. He's good at it. He says that he must invade Ukraine because NATO refuses to rule out the possibility of one day admitting Ukraine. But he knows that no one joins NATO without the unanimous consent of all existing members. He knows that France and Germany flatly refuse to allow Ukraine to join, and several others have expressed strong reservations. He knows that there is no immediate possibility of Ukraine joining NATO.

Some suggest appeasement. They say NATO should have gone against its own bylaws and officially announced that it would never admit Ukraine. But when someone uses a pretext as an excuse, removing the pretext only means the creation of another excuse. For instance, there is Putin's silly lie that with over 150,000 Russian troops on its doorstep, Ukraine decided to begin a series of atrocities against Russians living in Ukraine. When someone is willing to lie that boldly, he can always concoct a new pretext.

Others have said that what happens in Ukraine should not concern Americans. These people either do not personally visit gas stations, or they don't understand the recent jump in fuel prices. Over the next weeks and months, the connection will probably be made plain to everyone who drives a car, heats a home, or pays an electric bill.

But Putin's actions in Ukraine are much bigger than a series of price increases. They threaten your savings, investments, and livelihood. More than that, they endanger your life and the lives of those you love. Russia may have the most advanced cyber-attack teams in the world. Such attacks threaten electricity, water, and food. Russia also holds the world's largest nuclear arsenal. And Putin's threats to use it, suddenly seem credible.

A few days ago, New York Magazine ran a headline that asked publicly what people have been asking privately for months. "Is Putin Sane?" The New York Times recently noted that Putin "has fundamentally changed amid the pandemic." They say the shift seems to have "left him more paranoid, more aggrieved, and more reckless." People who speak with him regularly, including the President of Finland, say that he is not the same man.

AMERICAN OVERSIGHT

What happened? Romans One happened. Putin suppressed the truth in unrighteousness (verse 18). He exchanged the truth of God for a lie (verse 25). He did not see fit to acknowledge God (verse 28). Therefore, God gave him over to a depraved mind (verse 28). A "depraved mind"—or as the King James Version says, "a reprobate mind"—means in part, a mind that can no longer think in its own best interest.

The Romans One effect is not confined to Putin. The things that brought on his change are widespread among most of the world's leaders—and not just political leaders, but also leaders in entertainment, education, religion, and business.

How does a nation survive in such a world? Through virtue and strength (Proverbs 14:34), remembering that corruption begets weakness, and weakness invites aggression.

How do individuals survive in such a world? By turning to God the Father through Jesus Christ. We don't have to be alone. We can walk hand in hand with the God who brought the universe into existence with the power of His word.

These times prove again the reliability of the Bible. We were never promised that life during end-time events would be easy. But the same God who told us about these things thousands of years in advance, also promises to keep and protect those who have placed themselves in His hands.

Remember the wisdom of 1 Peter 5:7. "Casting all your care upon Him; for He careth for you."

Daily Jot: The compromised president - Bill Wilson – www.dailyjot.com

The news media and the Democratic Party are trying to make stick a weaponized narrative that conservatives, and former President Donald Trump in particular, are supporting Russian dictator Vladimir Putin and his invasion of Ukraine. Not the case. Lost on these frenzied virtue signalers is the irony. Saying that Putin is brilliant in the way that he went about Ukraine is a backhand slap to the man who is seriously lacking any brilliance in preventing and responding to Russia's cold war aggression—Joe Biden. Biden, who appears to be channeling Neville Chamberlain with his weak and feckless approach to the Russian invasion, is no less than what Americans get when they allow a compromised candidate in office.

The rabid media and democrat blame-pointers cannot dare see the nuance of saying how smart a murderous dictator is when the guy in charge of the free world is hardly a match. Doing so would expose their own hypocrisy and underhanded dealings. That's the very sad reality of this situation. And it's nothing that wasn't warned about prior to the election. There is no way that Biden can be an effective foreign affairs standard-bearer for the United States when Russia and China—the two most powerful threats to freedom—have Biden in their pockets. He risks ruining, not only his reputation in the eyes of those who voted for him, but also his family's financial empire. Not to mention he and former President Barack Obama's most favored terrorist threat, Iran, to whom they gave billions in cash on pallets.

AMERICAN OVERSIGHT

Let us remember the 87-page joint report issued by the Senate Committees on Homeland Security and Finance concluding that Hunter Biden, aided by his Vice President father, enriched the Biden family with scurrilous dealings in Russia, Ukraine and China. The Bidens used the position of Vice President, hidden by a complicated international cadre of corporations and bank accounts, to extract money from government officials in Russia, Ukraine and China. In doing so, the Bidens, family members and friends, such as former Secretary of State John Kerry's son, were enriched at the expense of American foreign policy and national security. In Russia dealings, Biden received some $3.5 million from the wife of the former mayor of Moscow and paid Russian nationals involved with prostitution and human trafficking.

The Bidens were paid tens of millions of dollars taking money from the very countries that are trying to destroy America. There is no way Joe Biden can act in the best national interest. In October of 2020, I wrote: "Not only is Joe Biden unfit for office because of these dealings, he is a risk to US national security. He is a compromised candidate. The Democrats should withdraw his name from the ballot.Ephesians 5:6 says, "Let no man deceive you with vain words: for because of these things comes the wrath of God upon the children of disobedience." Those who don't really know what this means, surely will find out if Biden wins the presidency." The vultures are circling similar to what Christ said in Matthew 24:28, "For wheresoever the carcass is, there will the vultures be gathered together" and it's not a pretty sight for America.

Daily Devotion: What About Healing? - by Greg Laurie – www.harvest.org

But He was wounded for our transgressions, He was bruised for our iniquities; the chastisement for our peace was upon Him, and by His stripes we are healed. — Isaiah 53:5

https://harvest.org/resources/devotion/what-about-healing/ - Listen

Does God still heal people today? I believe the answer is yes.

Does He heal everyone? The answer is no.

God has the ability to heal, and He has the desire to heal. Isaiah 53 says of Jesus, "But He was wounded for our transgressions, He was bruised for our iniquities; the chastisement for our peace was upon Him, and by His stripes we are healed" (verse 5 NKJV).

Peter, commenting on the same verse, wrote, "He personally carried our sins in his body on the cross so that we can be dead to sin and live for what is right. By his wounds you are healed" (1 Peter 2:24 NLT). In the original language, the word Peter used for "healed" always speaks of physical healing.

Can God heal, then? Yes. So why are some still sick? It may be because they haven't asked Him for healing. James 4:2 says, "Yet you do not have because you do not ask" (NKJV).

Jesus said, "So I say to you, ask, and it will be given to you; seek, and you will find; knock, and it will be opened to you" (Luke 11:9 NKJV). In the original

AMERICAN OVERSIGHT

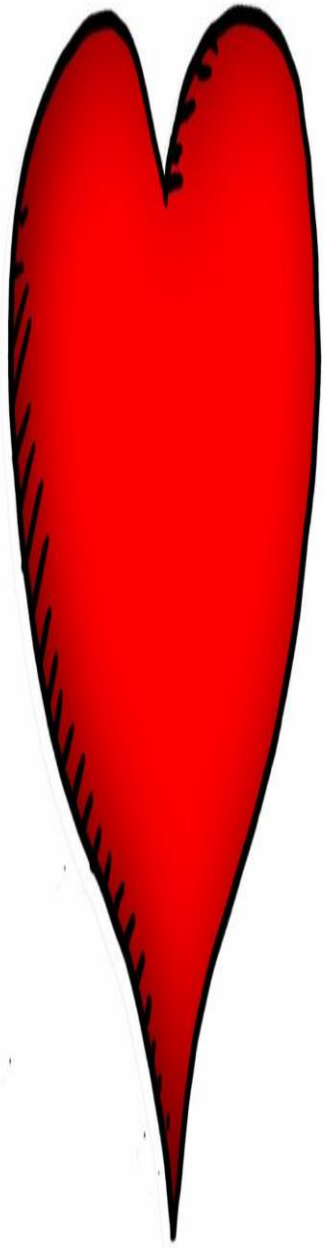
language there's an ascending intensity to those verbs. Jesus was saying, "Keep asking, keep seeking, keep knocking, and keep praying."

Of course, the apostle Paul prayed three times that God would remove his thorn in the flesh. However, God said, "My grace is sufficient for you, for My strength is made perfect in weakness" (2 Corinthians 12:9 NKJV).

So there are times when God will say no. But there are also times when He will say yes, and it's a glorious thing when He does.

Maybe you're praying for one thing, but God wants to do something above and beyond that. God is at work. He knows what He's doing. So wait on His timing.

AMERICAN OVERSIGHT



AMERICAN OVERSIGHT

FROM THE HEART

Let Us Make the Short Time We have Left, Count for ALL of Eternity!

IF YOU HAVE BEEN BLESSED THROUGH THIS MINISTRY, THEN WE ASK THAT YOU WOULD PLEASE REMEMBER PROPHECY UPDATE IN YOUR GIVING - WE ARE TRULY,TRULY,THANKFUL FOR YOUR SUPPORT

WORTHY OF YOUR SUPPORT?

One of the most reliable ways to determine if a ministry is worthy of your financial support is to examine its fruits. If Prophecy Update is keeping you informed, and if that information inspires you, and causes you to draw closer to the Lord, if Prophecy Update equips you with valuable information and knowledge to share with and encourage other believers, and open the eyes of non-believers, and if Prophecy Update keeps you connected to current events relating to Bible Prophecy, then you are partaking of the fruit produced through this ministry. None of this would be possible without the Lords blessings and your support. I believe where the Lord guides, the Lord provides, and most of the time He provides through the willing and generous hearts of believers just like you and me.

Humbly Seek Your Support

Prophecy Update has no corporate sponsors. This ministry is paid for and prayed for by readers and supporters. Without your support, there would be no Prophecy Update, Please pray about becoming a monthly supporter - thanks!

If ever there was a time to invest in God's Kingdom, it's now!

What on earth are you doing for Heaven's Sake?

"Share in the Blessings and Rewards that will last Forever!"

"Folks, it's all beginning to unravel. America is in more danger of falling than at any time in its history. But I believe Bible prophecy predicts this very decline. From this point on, we believers have to get serious. We are going to face discouragement, disillusionment and, most certainly, persecution in the time between now and the Rapture. But don't be discouraged or disillusioned. The coming turmoil will provide us unrivaled opportunities to share the good news of the Gospel. So be ready to share your faith and your hope with those who need Christ. We still have time to reap a great harvest of souls for God's kingdom!" - Hal Lindsey

1) We need your prayers!- We proclaim the Truth of the Word of God and we are under constant spiritual and sometimes even physical attack.
2) We need your encouragement!- We need to hear from you, let us know how the Lord is blessing you through this ministry so that we can share it with others.

AMERICAN OVERSIGHT

3) We need your input! -If you have a prophetic article or story or if there is a news related item we missed, let us know.
4) We need your financial support!- To put it quite simply, without your support, there would be no Prophecy Update.

I ask that you would prayerfully consider partnering with us to get the Word out and keep the world informed. Remember, your gift, no matter how small, does make a difference! You will be helping to touch lives, around the world, 24 hours a day, seven days a week, thanks to the internet your generosity carries a global impact! - Thanks!

Our Prayer for You- "Now he who supplies seed to the sower and bread for food will also supply and increase your store of seed and will enlarge the harvest of your righteousness. You will be made rich in every way so that you can be generous on every occasion, and through us your generosity will result in thanksgiving to God. This service that you perform is not only supplying the needs of God's people but is also overflowing in many expressions of thanks to God. Because of the service by which you have proved yourselves, men will praise God for the obedience that accompanies your confession of the gospel of Christ, and for your generosity in sharing with them and with everyone else." 2 Corinthians 9:10-13

Down the Rabbit Hole: Part II – Pete Garcia - https://www.rev310.net/post/down-the-rabbit-hole-part-ii

Secrets.

America has loads of them.

The reason why she has so many of them is that she is addicted to power. Ergo, if information equals knowledge, then this must be protected (classified) so it can then be used as leverage. Leverage then equals power, and America has become (as of late) quite smitten with the taste of power. In fact, given her constant state of intoxication, we can say confidently that it has become a full-blown addiction. And anyone who has ever been in an AA meeting knows, the first step on the road to recovery, is acknowledging you have a problem. However, anytime anyone becomes bold enough to take that first step toward recovery, they are instantly censored, silenced, destroyed, and disappeared. When this happens, their fate becomes enshrined in layers of classification, and their whereabouts buried in some secret misty realm presumably guarded by a three-head dog named Cerberus. It would seem, as it were, that no one in charge really wants to heal. There are far too many skeletons in our closet which threatens our "way of life." Things like-

- Jekyll Island
- Area 51
- The existence and role of Unexplained Aerial Phenomena (UFOs)
- Deep State Surveillance of the American population
- Occult influences in government
- Operation Paperclip
- Big Pharma's Nazi Roots
- The JFK, RFK, and MLK assassinations
- The truth about the Missing 411 cases

AMERICAN OVERSIGHT

- The "Oiligarchy" (must watch)
- Long term health concerns with regards to mRNA vaccines (gene therapy)
- Etc. etc.

Could the revelation of these really break "our way of life?"
Perhaps. But perhaps not.
To make matters worse, all of our drinking buddies (i.e., other nations and political entities who are also addicted) are as belligerent as we in refusing treatment for this addiction to power. For many of the newer generation of globalist-minded tyrants, primarily, those graduates of the World Economic Forum's "Young Global Leaders" school, C-19 was their first whiff of power, and either they're already hooked. Just look at the potential civil war brewing with our northern neighbors should Justin Trudeau continues his heavy-handed approach to "protecting freedom" by simultaneously crushing it. They, like Justin, can't wait for the next global crisis to come along so they can go on their next power trip.
However, if the Sentient World Simulation (SWS) project is still in play (I believe it is) and if it is the epitome of one of our nation's most closely guarded secrets (I believe this as well), then our government has finally arrived at its most ignominious attempt at playing God. What I mean to say is they went from wanting control to getting control, then onto controlling the narrative, and now, wanting total control over things no human or empire can control, i.e., the future.
In some regards, I pity world leaders who are attempting to rule-by-fiat, as if the world we have now, was the be-all, end-all of our existence. All they can see is what is in front of them. Their aspirations for greatness, supersedes in their mind, the fact that they are still mortal. They are still finite beings subject to the ills and woes of this life. Moreover, their heartbeats and breaths are on loan from their Creator, and at some point, the bill will come due.
And for most of them, their entrance into the realm eternal will become the first day of an eternity spent in great pain, the blackest darkness, and absolute misery.
The Hybrid Age
"We'll know our disinformation program is complete when everything the American public believes is false." –William Casey, CIA Director (from first staff meeting in 1981)
As a citizen and believer in these last days, it's remarkable to bear witness to so many converging events. For instance, I was born in 1974, which was in the last century of the last millennium. I also lived at a time (the first time in 1,878 years) when Israel exists as a nation again. I have lived both before the European Union, and now with its existence. I've lived through both the third industrial revolution, and now into the fourth. I've lived before and now in the

AMERICAN OVERSIGHT

Age of Information and the Internet Age. I've lived before and now after, the end of the Cold War, and the collapse of the Soviet empire. I've even traveled the world in the War on Terror with its focus (formerly) on the Middle East. However, I'm not alone. Many of you have seen the same or more of the changes I've just listed out. With all of this change and transformation, I've come to rely on two veins of thought. The first is to ask why something is. The second is to counter that first question, and ask why something is not.

For instance, I can wonder and discover how and why light bulbs came into existence. Usually, the topic evokes two names for most people right off the bat- Thomas Edison and Nikolai Tesla. However, a question I might further ask is, why don't light bulbs last longer than they do. With as many light fixtures as I have in my house, it seems like I'm constantly changing these supposedly long-lasting LED light bulbs on a weekly basis. So what gives?

Well, Planned Obsolescence is what gives.

Planned Obsolescence

In summary, early light bulb manufacturers did in fact, create incandescent bulbs which could last for decades. In fact, one 60 watt light bulb at the Firehouse Station 6 in Livermore, California, has been continuously operating now for 122 years. In 2011, the "Centennial Bulb" had passed its one-millionth hour of near-continuous operation. Therefore, the problem wasn't that we couldn't make products that lasted forever, we could. The problem was creating repeat customers to stay in business.

When you don't need to change out products frequently, or ever, people quit buying them. When people quit buying them, factories close down and people lose their livelihoods. Thus, in the 1920s the light bulb manufacturing cartel essentially agreed to make their bulbs last no longer than 1,000 hours, so people would be forced into becoming repeat customers. Granted, World War II changed this demand, however, the principle of planned obsolescence can and was applied to all manner of products from vehicles to smartphones. Basically, anything that can be sold, can be made to become more 'inferior,' either aesthetically, or functionally, so that it does not last any longer than the market can bear. Hence, planned obsolescence.

What's of interest to this topic, is the idea that planned obsolescence was not unique to just products. Could this also be applied to nations as well? The short answer is yes, and this would become the proverbial fountainhead for globalists worldwide who opposed nationalism and were wholly committed to the idea of new world order.

Of course, the obsolescence wasn't for their utopic global government, but for every other government out there. The idea was to both destabilize nations from within (i.e., Gray War tactics) as well as create global crises so profound that every nation would be forced to come together to solve said crisis. However, two issues arose, specifically regarding the United States.

AMERICAN OVERSIGHT

The first problem for globalists was in the way the United States government was designed (or intended to function). Her power was not centralized with a Prime Minister or a monarch. No, her power would be decentralized amongst three separate, but equal branches of government. Furthermore, the states were to have more power than the federal government. Lastly, the citizens, theoretically, were to have the most power of all, having their unalienable rights shielded by a Bill of Rights, as well as a Declaration of Independence of which enshrined its authority, not with a human government, but from God.

Thus, the government must be corrupted from within, before it could be destroyed from without. This corruption was done in a tripartite manner- seed the government with globalist and progressive individuals, deconstruct societal norms and values through academia, science, and Hollywood, and corrupt the education system from kindergarten through university. As President Abraham Lincoln once famously said, “The philosophy of the schoolroom in one generation will be the philosophy of government in the next.”

We are already seeing the poisoned seed of the 1960s-70s generation bearing fruit in our politics today. Should the Lord tarry another generation, I fear this nation, nay, this world, is doomed to a most frightful future.

The Scheme

For the love of money is a root of all kinds of evil, for which some have strayed from the faith in their greediness, and pierced themselves through with many sorrows. 1 Tim. 6:10

However, all the plans and schemes of globalists and those dedicated to this nation’s destruction can do very little, if they don’t have the means to carry out their ways. They needed money, and they need an unlimited amount of it.

Thus, by 1913, the determined globalists had committed their first salvo of the war of obsolescence by successfully lobbying/blackmailing a certain quorum of Congress to vote in secret, on Christmas Eve, to pass the Federal Reserve Act. This most abominable act, farmed out one of the most sacred, duly-appointed roles Congress could have, i.e., the printing and coining of monies, to the “Federal Reserve,” which is neither federal nor a reserve. In reality, the Federal Reserve is a private cartel of unelected bankers separated into 12 districts now in charge of printing and coining US currency, as well as controlling the national interest rate.

Before this abomination occurred, proponents for central banks, both within and without the US, had twice attempted creating an American central bank with both efforts meeting the biting sting of veto. Nevertheless, their persistence paid off when a naïve idealist, Democrat Woodrow Wilson, won the 1912 election. They wasted no time. They realized the opportunity at hand and rallied each other by saying, ‘once more into the breach, dear friends, once more’ and they did go. Only this time, instead of finding the veto, they found success. But in order to bring to life this monstrosity of a beast, they needed what all globalists and authoritarians need…a crisis.

AMERICAN OVERSIGHT

Wilson complied. After campaigning in 1915-16 that he had “kept our boys out of the war,” (i.e., the Great War), Wilson did a 180 and by 1917, the US was sending American boots to European soil. Consider this:

When Congress created the Federal Reserve on Christmas Eve 1913, just six months before Archduke Ferdinand’s assassination, it had provided no legal authority whatsoever for the Fed to buy government bonds or undertake so-called “open market operations” to finance the public debt.

In part, this was due to the fact that there were precious few Federal bonds to buy. The public debt then stood at just $1.5 billion, which is the same figure that had pertained 51 years earlier at the battle of Gettysburg, and amounted to just 4% of GDP…

But WWI crossed the Rubicon of modern Warfare State finance. During World War I the U.S. public debt rose from $1.5 billion to $27 billion — an eruption that would have been virtually impossible without wartime amendments that allowed the Fed to own or finance U.S. Treasury debt.

These “emergency” amendments — it’s always an emergency in wartime — enabled a fiscal scheme that was ingenious, but turned the Fed’s modus operandi upside down and paved the way for today’s monetary central planning…

The Great War was nothing short of a calamity, especially for the 20 million combatants and civilians who perished for no reason discernible in any fair reading of history, or even unfair one.

Yet the far greater calamity is that Europe’s senseless fratricide of 1914-1918 gave birth to all the great evils of the 20th century — the Great Depression, totalitarian genocides, Keynesian economics, permanent warfare states, rampaging central banks, and the follies of America’s global imperialism…

Indeed, in Old Testament fashion, one begat the next and the next and still the next.

Indeed, absent Wilson’s crusade there would have been no allied victory, no punitive peace, and no war reparations; nor would there have been a Leninist coup in Petrograd or Stalin’s barbaric regime.

Likewise, there would have been no Hitler, no Nazis, no holocaust, no global war against Germany and Japan, and no incineration of 200,000 civilians at Hiroshima and Nagasaki.

Nor would there have followed a Cold War with the Soviets or CIA-sponsored coups and assassinations in Iran, Guatemala, Indonesia, Brazil, and Chile to name a few. Surely there would have been no CIA plot to assassinate Castro or Russian missiles in Cuba or a crisis that took the world to the brink of annihilation.

There would have been no domino theory and no Vietnam slaughter, either. Nor would we have had to come to the aid of the mujahedeen and train the future al Qaeda in Afghanistan. Likewise, there would have been no Khomeini-

AMERICAN OVERSIGHT

led Islamic counter-revolution, and no U.S. aid to enable Saddam's gas attacks on Iranian boy soldiers in the 1980s.

Nor would there have been an American invasion of Arabia in 1991 to stop our former ally Saddam Hussein from looting the equally contemptible Emir of Kuwait's ill-gotten oil plunder — or, alas, the horrific 9/11 blowback a decade later.

Nor would we have been stuck with a $1 trillion Warfare State budget today.

But I digress.

In Closing

With both the ways (the plans and schemes) and the means (the monies) covered, those committed to America's deconstruction and committed reconstruction into the new global order were finally making headway. Now would come the mix of both the sprints of crisis management (WWII, Korean War, Vietnam War, War on Terror, C-19, etc.) and the long game (creation of the Deep State, Keynesian Economics, academic corruption, Hollywood norms, and values, etc.).

One last entity critical to the success of this new global order was the "Warrior Class" which consists of the war hawks (i.e., war enablers in both Democrat and Republican parties), the Defense and Intelligence agencies, as well as the corporate Military-Industrial Complex types. These are they who manage both the creation and the execution for the majority of the crises, and give teeth to the rise of the police state, as well as becoming defacto guardians of limitless amounts of information.

Hence, with a bottomless piggy bank in hand and rapidly advancing technology to both secure and leverage vast amounts of information, as well as the weapons to impose the will of the federal government, the United States is on the verge of a transformation in no less certain fashion than that of Rome some twenty-one centuries ago. We are headed from being exceptional to the exceptionally frightening new standard of tyranny. All they need now is a Caesar worthy of the crown.

Nevertheless, just as there is this relentless push to create this new world order with the elites at the top and everyone else consigned to serfdom, there are what seem to be, fleeting moments of people "doing freedom" around the world. From the January 6th's mostly peaceful protests in Washington D.C. to the spontaneous anti-mandate and vaccine protests springing up throughout Europe, Australia, the US, and Canada- the unwashed masses are pushing back. It remains to be seen whether this will be a Rosa Parks moment or a Tiananmen Square beatdown.

Either way, I think things will continue to be contained in this increasingly volatile world until the Rapture of the Church removes the lid and everything spills over.

AMERICAN OVERSIGHT

Russia Has Just Issued An Ultimatum To Ukraine, And The Conditions For War Are Now Set - by Michael Snyder - http://theeconomiccollapseblog.com/russia-has-just-issued-an-ultimatum-to-ukraine-and-the-conditions-for-war-are-now-set/

This is not a game.As this crisis has been unfolding in Ukraine, I have been seeing people all over the Internet cheer for either side like they would cheer for their favorite football teams.But these people don't understand what is at stake.If World War III erupts in Ukraine, it will very likely lead to nuclear war between the United States and Russia down the road.So we should all be deeply grieved over what is happening, because we are getting really close to a point of no return.

One of the good things about the Trump years was that President Trump was not interested in messing with Russia.So the status quo in Ukraine was respected by both sides for four years, and there was relative peace in the region.

But then Joe Biden took power, and he has surrounded himself with an all-star team of warmongers.National security adviser Jake Sullivan, Chairman of the Joint Chief of Staff General Mark Milley, Defense Secretary Lloyd Austin and Secretary of State Antony Blinken are all card-carrying members of the War Party, and they don't seem interested in finding a way to have peace with Russia at all.

After having his security concerns mocked and laughed at for the past year, Vladimir Putin finally admitted that negotiations are at "a dead end" on Monday.It would have been so easy to negotiate a peaceful solution with the Russians that would have kept Russia out of Ukraine, but that isn't what the War Party wanted.

Now Putin has run out of patience, and on Monday he greatly escalated the crisis by formally recognizing the independence of Donetsk and Luhansk and by announcing that he would be sending troops into the two separatist republics…

Russian President Vladimir Putin recognized two breakaway regions in eastern Ukraine as independent on Monday and ordered the Russian army to launch what Moscow called a peacekeeping operation in the area, upping the ante in a crisis the West fears could unleash a major war. Putin told Russia's defense ministry to deploy troops into the two breakaway regions to "keep the peace" in a decree issued shortly after he announced recognition for Russia-backed separatists there, drawing US and European vows of new sanctions.

I think that Putin wanted to make a move before the Ukrainians did.According to one Russian official, there were "almost 60K Ukrainian military personnel concentrated near the borders of the Republics of Lugansk & Donetsk", and I think that Putin decided that the only way to keep Ukraine from overrunning the two republics was to move his own forces in first.

AMERICAN OVERSIGHT

Hopefully that actually works.
Hopefully the Russians will stay in Donetsk and Luhansk, and hopefully the Ukrainians will stay on their side.
If that is the end result, there may still be hope of defusing the situation.
But I wouldn't count on it.
Putin sounds like a man that is convinced that war is coming.The following comes from a very rough translation of his speech on Monday…
"from those who took power in kiev we demand to stop any and all military actions against donbass. otherwise, the consequences will be on ukraine. i count on the support of all patriotic forces in russia."
Russia has essentially issued an ultimatum to Ukraine.
If Ukraine invades Donetsk and Luhansk, the Russians will invade Ukraine.
Of course, some western media sources are actually using the term "invasion" to describe Russian troop movements into the separatist republics.
This would be a good opportunity for both sides to take a deep breath and start backing down.
But that isn't going to happen.
Western leaders continue to use extremely harsh rhetoric and they continue to insist that a full-blown invasion of Ukraine is imminent.The following is what Jake Sullivan just told the Today Show…
"We believe that any military operation of the size, scope and magnitude of what we believe the Russians are planning will be extremely violent. It will cost the lives of Ukrainians and Russians, civilians and military personnel alike," Sullivan said during an appearance on NBC's "Today."
"But we also have intelligence to suggest that there will be an even greater form of brutality because this will not simply be some conventional war between two armies," he added. "It will be a war waged by Russia on the Ukrainian people to repress them, to crush them, to harm them."
And another U.S. official is alleging that Russia has a list of people that they will be specifically targeting once the invasion has been completed…
"Disturbing information recently obtained by the United States that indicates that human rights violations and abuses in the aftermath of a further invasion are being planned," Ambassador Bathsheba Nell Crocker, the US Representative to the Office of the United Nations and Other International Organizations in Geneva, alleges in a letter to Michelle Bachelet, the UN High Commissioner for Human Rights.
"These acts, which in past Russian operations have included targeted killings, kidnappings/forced disappearances, unjust detentions, and the use of torture, would likely target those who oppose Russian actions, including Russian and Belarusian dissidents in exile in Ukraine, journalists and anti-corruption activists, and vulnerable populations such as religious and ethnic minorities and LGBTQI+ persons," reads the letter, which was first reported by The Washington Post and obtained by CNN.

AMERICAN OVERSIGHT

So Russia plans to violently round up dissidents, activists and anyone else that is opposed to their rule?

Oh, you mean that it will be kind of like what just happened in Canada with the full approval of the U.S. government?

If the Biden administration actually cared about human rights, they would be condemning the horrific brutality that we just witnessed in Ottawa.

But of course that will never happen.

Let's watch and see what happens over in Ukraine during the next several days.One very alarming sign is that the Russians have just closed off much of the airspace over the Sea of Azov…

Russia's Aeronautical Information Center issued a NOTAM (a Notice to Airmen) on Sunday which will close most of the airspace over the Sea of Azov starting at midnight between Sunday and Monday, as the US continued to warn that Russia intends to invade Ukraine.

I don't think that this indicates that a full-blown invasion of Ukraine is imminent.

But at this point the conditions for war have been clearly set.

If Ukraine invades Donetsk and Luhansk now, the Russians have made it exceedingly clear that they will invade Ukraine.

So this actually puts a lot of power into the hands of the War Party in Washington.

Joe Biden and his all-star team of warmongers now know exactly what it will take to spark a war.

Will they decide to pull the trigger?

Let us hope not, because once World War III begins nothing will ever be the same again.

AMERICAN OVERSIGHT

No Place to Hide - On the Path To Put Every Human In Facial Recognition Database – BN Frank -
https://www.prophecynewswatch.com/article.cfm?recent_news_id=5221
Despite increasing opposition to facial recognition technology, significant risks associated with its use, companies like Clearview AI continue to create it and promote its use.

AMERICAN OVERSIGHT

"Clearview AI is telling investors it is on track to have 100 billion facial photos in its database within a year, enough to ensure 'almost everyone in the world will be identifiable,' according to a financial presentation from December obtained by The Washington Post," the Post reported today. There are an estimated 7.9 billion people on the planet.

The December presentation was part of an effort to obtain new funding from investors, so 100 billion facial images is more of a goal than a firm plan. However, the presentation said that Clearview has already racked up 10 billion images and is adding 1.5 billion images a month, the Post wrote. Clearview told investors it needs another $50 million to hit its goal of 100 billion photos, the Post reported:

The company said that its "index of faces" has grown from 3 billion images to more than 10 billion since early 2020 and that its data collection system now ingests 1.5 billion images a month.

With $50 million from investors, the company said, it could bulk up its data collection powers to 100 billion photos, build new products, expand its international sales team and pay more toward lobbying government policymakers to "develop favorable regulation."

Clearview collects photos from Internet

As the Post noted, "Clearview has built its database by taking images from social networks and other online sources without the consent of the websites or the people who were photographed. Facebook, Google, Twitter, and YouTube have demanded the company stop taking photos from their sites and delete any that were previously taken. Clearview has argued its data collection is protected by the First Amendment."

The increase in photos could be paired with an expanded business model. Clearview "wants to expand beyond scanning faces for the police, saying in the presentation that it could monitor 'gig economy' workers and is researching a number of new technologies that could identify someone based on how they walk, detect their location from a photo or scan their fingerprints from afar," the Post wrote.

We contacted Clearview about the presentation and received a short statement from Clearview founder and CEO Hoan Ton-That. "Clearview AI's database of publicly available images is lawfully collected, just like any other search engine, including Google. It is used by law enforcement for after-the-crime investigations to assist in identifying perpetrators of crimes," he told Ars.

Ton-That told the Post that the company has collected photos from "millions of different websites" on the public Internet. Ton-That said the company hasn't decided whether to sell its facial recognition service to nongovernment organizations.

Clearview "principles will be updated, as needed"

Clearview's website includes a statement of principles. "Clearview AI currently offers its solutions to only one category of customer--government agencies and their agents," the statement says. "It limits the uses of its system to agencies engaged in lawful investigative processes directed at criminal conduct, or at

AMERICAN OVERSIGHT

preventing specific, substantial, and imminent threats to people's lives or physical safety."
In his statement to the Post, Ton-That argued that "every photo in the data set is a potential clue that could save a life, provide justice to an innocent victim, prevent a wrongful identification, or exonerate an innocent person." However, the company's approach could change along with its business model. "Our principles reflect the current uses of our technology. If those uses change, the principles will be updated, as needed," Ton-That said.
Police used Clearview technology to identify and arrest people accused of violence or destruction of property during Black Lives Matter protests later that year. After the January 6, 2021, attack on the US Capitol, Ton-That, said, "it is gratifying that Clearview AI has been used to identify the Capitol rioters who attacked our great symbol of democracy."

Nearing Midnight: Can Conservatives and Christians Create Their Own Internet Platforms? – Todd Strandberg - https://www.raptureready.com/category/nearing-midnight/

Former President Donald Trump will launch his own new social media platform, Truth Social, sometime next month. Trump's ability to galvanize conservative social media users in support of the venture could soon be tested. So-called experts quoted by Time and Newsweek say the inherent nature of the site—i.e., catering to a specific ideological viewpoint—will likely prevent it from reaching the same heights as mainstream platforms like Facebook, Twitter, or YouTube.com.
Joshua Tucker, co-director of NYU's Center for Social Media and Politics, suggested that even if Truth Social does not break into the mainstream, it may "suck the air" of other right-wing platforms such as Gettr, Gab and Parler, and reduce their popularity.
Previous screenshots from an App Store listing showed that the platform appeared to be very similar in design to Twitter, with Trump Jr.'s post appearing to confirm Truth Social will look very much like the social media platform previously beloved by the former president.
Truth Social should be wildly successful, considering that all of the major social media sites are controlled by liberals. Since about half the US population is on the right, millions of people would be happy to join Trump's platform.
The video site Rumble has had huge gains in its traffic. Rumble's monthly user count has experienced rapid growth since July 2020, from 1.6 million monthly users to 31.9 million by the end of the first quarter of 2021. In January, Rumble announced that it reached new highs with approximately 10.8 billion minutes watched and averaging 4,383 hours of uploaded video per day. The company also posted 19% growth on monthly active users (MAUs) over the previous month, reaching 39 million viewers.

AMERICAN OVERSIGHT

Rumble prides itself as a neutral video platform that is creating the rails and independent infrastructure designed to be immune to cancel culture. Rumble's mission is to restore the Internet to its roots by making it free and open once again.
Facebook's parent company Meta recently delivered an alarming earnings report to Wall Street, which promptly cut an astonishing $250 billion out of the company's value in a single day — a 26 percent drop. The liberal media tried to blame a host of other reasons for the decline. Facebook has been heavily censoring accounts, and people are leaving for other platforms.
I don't see it as very likely that any conservative site will be able to dethrone a behemoth like Apple or Google. I like the search engine DuckDuckGo. It processes around 1.5 billion searches every month. Google, for contrast, processes around 3.5 billion searches per day. DuckDuckGo has a single data center, while Google has data farms all over the country.
Google controls 90% of search traffic; it has the most used browser and the most used email service. I was surprised to learn last week that more people get their news from Google than any other source. Google could so easily crush DuckDuckGo, but it doesn't do so, probably because of monopoly laws. Standard Oil was broken up for being a monopoly in one field. Google has a monopoly in at least four areas.
Trump's Truth Social could easily be blocked from the market by Apple and Google refusing to put his app on their stores. Google's Android and Apple's IOS control 100% of the smartphone market. Any browser can be used to block a website by having it labeled as a dangerous site and warning users not to visit it.
Another way to destroy a freedom platform is to block it from various financial services. When a bunch of people donated $7 million to the Trucker protest in Canada on a GoFundMe page, the company tried to steal the money and give it to a charity. When six state attorney generals got on GoFundMe's case, it decided to refund the money to the donors. I'm guessing that GoFundMe doesn't have fine print that states, "if we don't like the recipient of your donation, we'll steal your money."
I think the only reason why we still have access to the Internet is God's restraining grace. The enemy has the will and the power to take complete control of the web, but so far, it is unable to act. The rapture is the only answer I can think of for why they are being restrained.
"So God abandoned them to do whatever shameful things their hearts desired. As a result, they did vile and degrading things with each other's bodies" (Romans 1:24, NLT).

Daily Jot: Early warning of the coming tyranny - Bill Wilson – www.dailyjot.com
Joe Biden advised Canada's socialist leader Justin Trudeau on how to handle the truckers protesting Trudeau's COVID mandates—use federal powers to crush them. Reuters cited an unnamed White House official that said US Homeland

AMERICAN OVERSIGHT

Security Secretary Alejandro Mayorkas and Transportation Secretary Pete Buttigieg also recommended these harsh actions to their Canadian counterparts on February 10. Four days later, Trudeau invoked Canada's Emergency Powers, that froze bank accounts, noted license plates for future arrests, sent police against the truckers, and arrested anyone protesting. Biden may be signaling his plans if Americans behave like their Canadian cousins. The coming tyranny.

American truckers have started to organize a convoy on the West coast. Their goal is to arrive in Washington, DC and remain there until the Biden Administration's draconian COVID mandates are removed. Already, the government tools like Facebook are banning the truckers because they "violate" the Facebook standards of nonviolence. It is worth a mention that Trudeau, in invoking his Emergency Powers, said the freedom convoy in Canada was a violent movement. This, despite strong evidence that the truckers were helping the homeless, removing snow from senior citizens' sidewalks and driveways, and a host of other volunteer community services. Violence is in the eyes of the beholder of the agenda. For example, BLM and Antifa protests were considered nonviolent as if those buildings were looting and burning themselves.

Biden also said that he was considering calling up the National Guard to help with the trucker shortage in America—something the White House nearly immediately corrected. Biden does not have the authority to call up the National Guard. That's up to the states. But there wouldn't be a supply chain shortage or a truck driver issue if there were no COVID mandates that applied to truckers. Mask mandates, vaccine mandates, vaccine passports are all compliance issues from which truckers should be exempt. They also are ways to use fearmongering to force people to comply with the agenda. This is nothing more than setting precedents to take away freedom. You can bet Biden and his crew will implement the advice they told Trudeau if and when truckers shut down Washington, DC for any extended period of time.

The suggestions given Trudeau by the Biden Administration should serve as an early warning to all of us. Truckers and those who plan on supporting them should be forewarned that reputations, bank accounts, property, income, freedom, and civil rights will be attacked by not only the Biden Administration, but also by the agenda-driven news media and the corporate cronies of tyranny. This is the spirt of oppression. We, however, know the spirit of freedom found only in Christ. 2 Corinthians 3:17 says, "Now the Lord is that Spirit: and where the spirit of the Lord is, there is liberty." May the Holy Spirit quicken each of us to stand as we ought to stand that we may reclaim our God-given rights and remain free.

Daily Devotion: A Radical Transformation - by Greg Laurie – www.harvest.org

A crowd soon gathered around Jesus, and they saw the man who had been possessed by the legion of demons. He was sitting there fully clothed and perfectly sane, and they were all afraid. —Mark 5:15

https://harvest.org/resources/devotion/a-radical-transformation/ - Listen

AMERICAN OVERSIGHT

Here in America, we have riots in our streets, and we've witnessed outright anarchy in some cities. Those serving in law enforcement have never had it more difficult than they have it right now. Meanwhile, the family continues to disintegrate and break apart, which by the way, is at the root of most of our social ills today. Social media was supposed to bring us closer together. But I think that in many ways, social media has divided us and driven us apart. That's because society and culture cannot cope with the problems caused by Satan and sin.

In Luke 8 we read of Jesus encountering a demon-possessed man. The Bible tells us this frightening, evil man with superhuman strength was hanging around in a graveyard, screaming and howling. If that weren't enough, the man was naked. So everyone wrote him off. He was out of his mind. He was under the power of the Devil.

We see three forces at work in this story: Satan, society, and the Savior. What did the Devil do for this man? He brought chaos, destruction, and bondage. And what did society do for this man? Society had no answers for him, so they chained him up.

But what the chains could not do, Jesus did. Luke's gospel tells us, "There happened to be a large herd of pigs feeding on the hillside nearby, and the demons begged him to let them enter into the pigs. So Jesus gave them permission. Then the demons came out of the man and entered the pigs, and the entire herd plunged down the steep hillside into the lake and drowned" (Luke 8:32–22 NLT).

As a result, the man was so radically transformed that people couldn't believe he was the same person (see Mark 5:15). What society cannot do, Jesus can.

FROM THE HEART

Let Us Make the Short Time We have Left, Count for ALL of Eternity!

IF YOU HAVE BEEN BLESSED THROUGH THIS MINISTRY, THEN WE ASK THAT YOU WOULD PLEASE REMEMBER PROPHECY UPDATE IN YOUR GIVING - WE ARE TRULY,TRULY,THANKFUL FOR YOUR SUPPORT

WORTHY OF YOUR SUPPORT?

One of the most reliable ways to determine if a ministry is worthy of your financial support is to examine its fruits. If Prophecy Update is keeping you informed, and if that information inspires you, and causes you to draw closer to the Lord, if Prophecy Update equips you with valuable information and knowledge to share with and encourage other believers, and open the eyes of non-believers, and if Prophecy Update keeps you connected to current events relating to Bible Prophecy, then you are partaking of the fruit produced through this ministry. None of this would be possible without the Lords blessings and your support. I believe where the Lord guides, the Lord provides, and most of the time He provides through the willing and generous hearts of believers just like you and me.

Humbly Seek Your Support

Prophecy Update has no corporate sponsors. This ministry is paid for and prayed for by readers and supporters. Without your support, there would be no Prophecy Update, Please pray about becoming a monthly supporter - thanks!

If ever there was a time to invest in God's Kingdom, it's now!

What on earth are you doing for Heaven's Sake?

"Share in the Blessings and Rewards that will last Forever!"

"Folks, it's all beginning to unravel. America is in more danger of falling than at any time in its history. But I believe Bible prophecy predicts this very decline. From this point on, we believers have to get serious. We are going to face discouragement, disillusionment and, most certainly, persecution in the time between now and the Rapture. But don't be discouraged or disillusioned. The coming turmoil will provide us unrivaled opportunities to share the good news of the Gospel. So be ready to share your faith and your hope with those who need Christ. We still have time to reap a great harvest of souls for God's kingdom!" - Hal Lindsey

1) We need your prayers!- We proclaim the Truth of the Word of God and we are under constant spiritual and sometimes even physical attack.
2) We need your encouragement!- We need to hear from you, let us know how the Lord is blessing you through this ministry so that we can share it with others.

AMERICAN OVERSIGHT

3) We need your input! -If you have a prophetic article or story or if there is a news related item we missed, let us know.
4) We need your financial support!- To put it quite simply, without your support, there would be no Prophecy Update.

I ask that you would prayerfully consider partnering with us to get the Word out and keep the world informed. Remember, your gift, no matter how small, does make a difference! You will be helping to touch lives, around the world, 24 hours a day, seven days a week, thanks to the internet your generosity carries a global impact! - Thanks!

Our Prayer for You- "Now he who supplies seed to the sower and bread for food will also supply and increase your store of seed and will enlarge the harvest of your righteousness. You will be made rich in every way so that you can be generous on every occasion, and through us your generosity will result in thanksgiving to God. This service that you perform is not only supplying the needs of God's people but is also overflowing in many expressions of thanks to God. Because of the service by which you have proved yourselves, men will praise God for the obedience that accompanies your confession of the gospel of Christ, and for your generosity in sharing with them and with everyone else." 2 Corinthians 9:10-13

Down the Rabbit Hole: Part III – Pete Garcia -
https://www.rev310.net/post/down-the-rabbit-hole-part-iii
The OUTLIERS
Over the last two articles, we looked at the government's likely culpability in projecting certain crisis events and lunacy-based legislation to drive and derive reactions from the general population. These, along with sweeping data collection efforts, in order to, help feed their Sentient World Simulation (SWS)

AMERICAN OVERSIGHT

project. We also looked at both the short and long game efforts that dedicated internationalists used to simultaneously secure their wealth while diminishing America's.

This time, we will look at more anomalous events that appear to be on the increase, which has begun threatening the average persons' grip on reality. We will specifically focus on the five categories listed below which I have also provided with credible sources should you choose to pursue those particular rabbit holes. At the bottom of the brief, I've included a short video portion that I will use to expand on some of these and how I believe they tie into the grand Luciferian Agenda.

1. Atmospheric/Geological Phenomena

For centuries, cultures have reported on hearing strange and ominous sounds emanating from the atmosphere. However, in recent years, there has been a rapid uptick in the reports of strange and mysterious sounds booming across the heavens. Dubbed as either "Sky Quakes" or "Sky Trumpets," this audible phenomenon has triggered apocalyptic fears across the planet. Interestingly, this phenomenon appears to be predominantly located in the northern hemisphere, however, some rarer cases are found in South America and Australia.

Leading conspiracy theories attribute the bulk of these bizarre cases to H.A.A.R.P's intentional manipulation of the ionosphere (weather manipulation). However, enough evidence has been collected regarding this phenomenon to prove beyond a reasonable doubt that these are just conspiracy theories. Likewise, the sounds and vibrations from the equally mysterious subterranean booms not only physically rattle the foundations of the homes and businesses impacted, but also rattle the nerves of those left without explanation as to why. Make no mistake, these real and increasingly unsettling events are leaving the scientific experts and political leadership without answers. So, regardless of whether these are man-caused phenomena (i.e., HAARP, DARPA, CERN, etc.), or of a more natural/cosmic occurrence (ex. solar storms, tectonic plates shifting), its notable increase is what is most disturbing. Perhaps Scripture has a more reasonable explanation?

For the creation was subjected to futility, not willingly, but because of Him who subjected it in hope; because the creation itself also will be delivered from the bondage of corruption into the glorious liberty of the children of God. For we know that the whole creation groans and labors with birth pangs together until now. Romans 8:20-22

2. Unexplained Aerial Phenomena

Although this video is given from a non-Christian perspective, this video does an excellent job summarizing the increased rising UFO activity, as well as our government's admitted knowledge of it. From a Scriptural perspective, we know these mysterious interlopers have proven time and again to act in a nefarious manner. For we know that God and His holy angels are not the only

AMERICAN OVERSIGHT

spiritual beings operating in our dimension. Satan and his fallen angels also can, and have become increasingly active as of late, which, we should note could signal the very final moments of the end of our age.

WATCH VIDEO

3. Anthropological Phenomena

Cryptid: Cryptids are animals which are generally believed to be legendary in mainstream biology. These animals are studied by people known as cryptozoologists, who are either interested in proving that they exist, or interested in studying the myths and cultural beliefs which have arisen around such animals. Strictly speaking, cryptids are not mythological; creatures like unicorns, for example, are not considered cryptids, because they are accepted as myths. Rather, cryptids are animals which some people think could actually exist.

Hypothetically speaking, let's say you lived in some manner of complete isolation, completely cut off from the rest of the world. Let's also say you were given two pictures and asked which was more likely to exist— a unicorn, or a giraffe? I would wager to say, most people would pick the unicorn, as giraffes just seem to defy every form of nature there is. Nevertheless, we accept giraffes because we can go to the zoo and see them for ourselves. But just because unicorns don't exist now, doesn't mean unicorns never existed; let's be honest, more bizarre animals exist than unicorns (platypus, narwhal, etc.). Furthermore, the Bible (Septuagint and Latin Vulgate) lists unicorns as real, single-horned animals (Job 39:9-12).

The same could be said for dragons. Almost every ancient culture believed in them, and even our Bible often references dragons (Hebrew-Tannim) as real creatures. Furthermore, the fact there are now extinct, does not diminish the fact that the Bible uses a dragon to symbolically represent Satan (Rev. 12:3). Therefore, this must mean the symbolism was based on a real creature at some point, or else its allusion becomes nonsensical. By nonsensical, if Rev 12:3 had said Satan was that Great Red Jabberwocky, no one would have any idea what that meant. Similar arguments could be made for the still remaining Loch Ness's "Nessie," Lake Champlain's "Champ," and Lake Okanagan's "Ogopogo." The bottom line is the oceans of the deep remain largely unexplored, and there are likely creatures and things that defy our understanding of reality.

As for the terrestrial-based cryptids, since the 1960s, there has been an explosion in both the interest and sightings/encounters with the so-called creature commonly referred to as Bigfoot (i.e., Yeti, Sasquatch, ape-men, etc.). While tens of thousands of witnesses claim to have come into contact with these mysterious creatures, scant physical evidence exists. Nevertheless, two things intrigue me regarding this particular subject. First, is the revival of interest in these and other cryptid monsters. The second is the increasingly

AMERICAN OVERSIGHT

persuasive elusiveness these creatures (if real) seemingly possess with regards to their ability to avoid exposure, especially in our increasingly intrusive age of surveillance.

Some of you may be wondering how unicorns, dragons, and sasquatch fit into last day's events. While I don't think the Antichrist will come into power riding on a unicorn or using armies of sasquatch to secure his global dominion. I do, however, believe that these oddities will become increasingly common as fallen angels begin to further corrupt and exploit nature, in order to further Satan's agenda. Jesus said in Luke 17:26that as in the days of Noah, so it will be in the days of the Son of Man. I understand the context as saying the time surrounding His return, mankind will be distracted by the cares of this world...and cryptids provide a significant distraction.

I do believe some of these cryptids/demons/Nephilim ties into some of the Missing 411 cases. Some might ask, why/how would God allow it? Again, I don't know. However, we do know that throughout man's history, people have become possessed by demonic entities, and somehow God allows that. So it could be there is a certain threshold of activity that God allows from these nefarious beings, but for purposes unknown to us at the present.

There could also be some things implied in this "days of Noah" statement that may signify the return of the preternatural. For instance, we know for a fact that giants existed both before and after the Great Flood. If giants (9-13 ft. tall) could exist, then why is it a stretch to believe that sea monsters and sasquatches couldn't either? Or dragons? Or other mythical creatures that have long since gone extinct. Could it be that Satan is either reviving or mimicking these beasts as a means to further supplant God's natural order?

4. Enhanced Humans

Of all the prophetic signs highlighting our nearness to the end of the age, there is only one that is, until our generation, unique only to the days of Noah. This is the attempted effort to change/alter/rewrite the genetic makeup of what it means to be human. In 1951, scientists Francis Crick and James Watson cracked the code on the double-helix strand of deoxyribonucleic acid (DNA). Since then, there has been a global sprint to tweak/alter/enhance mankind's genetic makeup of mankind. This has also led to some other subsequent offshoots, that of merging man with the cyber-machine. One writer has called Transhumanism “Satanism with a Brain Chip.”

TIME magazine’s “Transhuman of the Year,” Elon Musk, warned that the runaway advance of artificial intelligence is “summoning the demon.” The mother of his child, a techno-pagan known as Grimes, has even written hymns to this Super Computer God. Worried that Homo sapiens will soon be overshadowed, Musk is pouring money into an implantable brain-computer interface, Neuralink, so we may commune with this AI deity.

Looking far down the road, the most ambitious transhumanists long to transcend death itself through radical life-extension, or even mind uploading—

AMERICAN OVERSIGHT

the replication of your soul's pattern in immortal silicon. It's like Instagram, only forever. Anytime the gods demand sacrifice and devotion, transhumanists demand immediate gratification. If that means storming the gates of heaven with brain implants and hoverboards, then so be it. In 1990, the musclebound Max More gave "transhumanism" a succinct definition:

Philosophies of life (such as extropian perspectives) that seek the continuation and acceleration of the evolution of intelligent life beyond its currently human form and human limitations by means of science and technology, guided by life-promoting principles and values.

As the term "extropy" implies, transhumanism is a cosmic battle against the perpetual drag of entropy—it's the human ego versus a dying universe.

With regards to futurists (speaking specifically about the non-Christian types), there are two great camps: the pro- Artificial Intelligence (AI) group, and the pro-transhumanist group. The former is close to creating these artificial gods, and the latter, wants the upgrades to contend on equal ground with them. Somewhere in the middle is the Military-Industrial Complex and foreign nations, who are trying to capitalize on this emerging technology to create real-life super soldiers. Listed below are just some of the efforts to create enhanced humans.

- **Brain microchips** — France has been given the all-clear to develop microchips to enhance soldier brainpower.
- **Bionic eyes** — Being developed in Hong Kong, this gives users infrared and night vision.
- **Super hearing** — The US's Tactical Communication and Protective System are smart earbuds which boost soldiers' hearing to be near superhuman.
- **Health implant** — DARPA, the Pentagon's research arm, is developing cyborg implants to monitor combat efficiency.
- **Enhanced limbs** — A Devcom report revealed plans to equip US soldiers with enhanced limbs for increased strength.
- **Exoskeleton legs** — The US Army has tested an exoskeleton which can be attached to soldiers' legs and can increase their productivity by up to 27 times.
- **Synthetic blood** — Respirocyte is a theoretical red blood cell that could help soldiers not get out of breath and stay underwater for hours.
- **Pain immunity** — DARPA's Persistence in Combat initiative would allow soldiers to have their pain suppressed for 30 days.

5. Occult Revival

Much ado has been made regarding a so-called "Third Great Awakening" happening this side of the Rapture. To be fair, there is a revival going on, it's just not a Christian one. Paganism is on the rise and is making great strides

AMERICAN OVERSIGHT

within Western Civilization threatening to undo nearly 600 years of the Judeo-Christian worldview. This is evidenced in our popular culture- movies, books, television shows, and music. It's also increasingly dominating academia, scientific endeavors, and government. But to note the stark difference the pagan worldview has with the Christian, one writer summarized it as such:

To grasp the significance of what is happening, we need to understand the ideas and practices that permeated the pagan world, and how they differ from those of the Judeo-Christian tradition. The term pagan was initially used to describe anyone who did not believe in the God of the Bible or follow biblical guidelines. The thoroughly pagan Greco-Roman world—given to idol worship and adopting gods and practices of other religions as if they were interchangeable—provides one ancient example. Such concepts and practices were totally at odds with biblically influenced religion. The Greeks and Romans were a mix of polytheists who worshiped many gods and goddesses, pantheists who believed that "god" was everywhere in nature, and what we now call atheists, worshiping no god at all. Such pagans had no knowledge of the God of the Bible (cf. Acts 17:23). The idea of one true, personal God was generally foreign to them.

Check out the opening ceremony for the Gottard Tunnel near the CERN facility in Europe. Mind you, many leading European political figures are in attendance for this event.

WATCH VIDEO

There has also been a huge revival, since the late 1800s, in the occult vis a vis secret societies. From the Freemasons, Skull and Bones Society, and Bohemian Grove, to those that hide their occultism with economics and politics, many of our world's most elite leaders have come out of these supposedly harmless secret social groups. But are they harmless? Are you and I invited to listen in on many of the world-altering propositions that go on behind closed doors?

The answer is no.

Furthermore, the fact that they shroud all of their discussions and activities in antichristian prerequisites and ceremonies shows not just a tacit disdain for Christianity, but a real antagonism towards it. And yet, these people are the ones who are running our world? It's no wonder why the world has seen this aggressive revival of paganism here in the 20th and 21st centuries.

Jesus told His disciples that upon Peter's confession (that He was the Christ) the 'gates of hell' would not prevail against His church (Matt. 16:18). While it appears the gates of hell have already been opened, they are not. This is but a small sampling of what will become the 'new normal' one micro-second after the Rapture of the Church.

AMERICAN OVERSIGHT

Christians, wake up: If the world does not stop Putin now in Ukraine, NATO and Israel are next - Joel C. Rosenberg - https://www.allisrael.com/christians-wake-up-if-the-world-does-not-stop-putin-now-in-ukraine-nato-and-israel-are-next

Putin's alliance with Iran, Syria tells us all we need to know about his ambitions in the Middle East

To misunderstand the nature and threat of evil is to risk being blindsided by it. Readers of my novels and nonfiction books know this is one of my central themes.

The world was blindsided by World War II and the abject horrors of the Holocaust because it didn't understand the evil nature of Adolf Hitler and his Nazi regime in Berlin.

The U.S. was blindsided by the sneak attack at Pearl Harbor in 1941 because Washington didn't understand the evil nature of the Imperial Japanese regime in Tokyo.

The world was blindsided by the Iraqi invasion of Kuwait in 1990 because it didn't understand the evil nature of Saddam Hussein in Baghdad.

Likewise, the U.S. was blindsided by the 9/11 attacks in 2001 because it didn't understand the evil nature of Osama bin Laden and his Al Qaeda terror network.

THE WORLD IS BEING BLINDSIDED AGAIN

Today, the world is being blindsided again because it doesn't understand the evil nature of Vladimir Putin in Moscow.

Leaders in Washington, London, Paris, Berlin, Brussels and beyond seem completely baffled by Putin's lust to attack, crush and re-occupy Ukraine.

The West should be:

• bringing Ukraine into NATO
• sending massive arms shipments to Kiev including Patriot missiles batteries
• offering full NATO air support to Ukrainian President Zelensky
• cutting off the Nordic 2 gas pipeline from Russia
• imposing crippling economic sanctions on Moscow

Instead, the West is issuing feckless press releases and wringing its hands.

WHERE ARE CHRISTIAN LEADERS IN THIS CRISIS?

If that weren't bad enough, where are Christian leaders in this crisis?

Where is Pope Francis?

Where is the Roman Catholic Church?

Where are American Evangelical leaders?

Where are other Protestant leaders in Europe and around the world?

Why aren't they denouncing Putin's flagrant and evil aggression?

Why are they not calling on U.S. President Joe Biden and the rest of NATO to stop Putin now, before it's too late?

AMERICAN OVERSIGHT

Why are they not doing everything they possibly can to mobilize Christians to pray for – and stand – their brothers and sisters in Ukraine, a democratic country with a thriving Christian community?

Why are they so silent?

UNDERSTANDING THE STAKES

Do Western government officials truly not understand what is at stake here?

Are Christian leaders really so willfully ignorant of the threat Putin poses to both Jews and Christians?

If leaders take action immediately and demonstrate true grit and resolve – militarily, diplomatically, economically and prayerfully – they might yet dissuade Putin from invading Ukraine.

But if they remain in denial – if they let themselves be blindsided and simply surrender Ukraine to Moscow without a fight because they don't understand who Putin really is – they will be unleashing catastrophic consequences far beyond Ukraine.

Don't they understand what happens if you give a wolf a cookie?

WHAT DOES PUTIN WANT?

Christians, wake up!

World leaders, wake up!

Vladimir Putin is not a man we can do business with. He is a very dangerous man, as I explain in detail in my recent book, "Enemies and Allies."

At his core, Putin is a mafia boss, obsessed with power and wealth, and willing to rob, kill or destroy to obtain both.

Using the Red Army, he already seized control of 20% of Georgia, all of Crimea, the eastern section of Ukraine and all of Syria. And murdered and imprisoned Russian dissidents. And co-opted Belarus. The list goes on and on.

At the same time, Putin sees himself following in the tradition of the Russian czars, believing he has a divine right to rule with an iron hand and is permitted to use any means necessary to rebuild the glory of Mother Russia.

What a chilling combination.

Once you understand all this, you'll understand that Putin doesn't simply want to retake Ukraine – he wants more.

Specifically, he wants to force the collapse of NATO, as well.

As senior officials in Estonia told me last week in Tallinn, a Putin in control of Ukraine will soon come after the Baltic states.

Why?

To bring Estonia, Latvia and Lithuania back under the Kremlin's control.

And to prove that NATO does not have the will to enforce the mutual defense pact known as Article 5, thus ending NATO once and for all.

This was the premise of my 2018 political thriller, "The Kremlin Conspiracy."

But that was fiction. This is all too real.

And then what?

WILL PUTIN THREATEN ISRAEL?

AMERICAN OVERSIGHT

Once Putin has seized Ukraine and the Baltics, will any small country be safe from his grasp?
Will Israel?
No – Putin's lust for power and wealth will be unstoppable at this point.
How long would it be until Putin's allies in Tehran and Damascus ask him: Which side are you on, ours or Israel's?
Why do let you Israel keep attacking Iranian positions in Syria?
Why do you let Israel keep threatening to take out Iran's nuclear facilities?
You are the new Master of the Universe, why don't you show Israel who's boss?
Remember: Putin has sold the Iranians and Syrians billions of dollars in advanced military hardware.
Putin has sent military forces into Syria to save the Bashar Al-Assad regime.
Putin is building a huge naval base in Syria.
Putin has also provided continual political cover for Iran and Syria at the UN.
Yet Putin has simultaneously maintained a working and even friendly relationship with Israeli officials over the past 22 years in office.
How much longer do you think that will last if the West surrenders to him in Ukraine and the Baltics?

NATO NEEDS UKRAINE — HERE'S WHY

What's especially troubling is that the West has vastly superior military power compared to Putin.
Yet they refuse to use it.
They keep dismantling it.
And they refuse to join forces with Ukraine, which is one of the few major military powers left in Europe.
Robert Zubrin makes a great set of points in a National Review column this morning. "NATO Needs Ukraine."
Let me close with his words.
As a result of a series of decisions made during the Clinton, Bush, and, especially, Obama administrations, NATO has virtually disarmed itself.
At the end of the Cold War in 1989, the United States had some 500,000 troops stationed in Western Europe.
Now, we have 30,000, with practically no tanks. The British have removed virtually all their forces from the continent. Germany — which is showing itself increasingly unreliable in any case — has cut its army from twelve divisions down to four.
The cold fact of the matter is that the only serious NATO ground force east of the Rhine is the Polish Army, which has 180,000 active-duty servicemen. It's not enough.
But then there is Ukraine, which has 450,000 active-duty servicemen, more than all NATO forces east of the Rhine combined.

AMERICAN OVERSIGHT

If properly armed, and backed up by Anglo-American air and sea power, they could be formidable, and consequently, very valuable.
We need to be realistic. Nuclear deterrence is dead. During the Cold War, we were able to deter a Warsaw Pact invasion of West Germany by threatening nuclear war if they tried it. But no one believes that the United States would do anything like that today.
If Russia moves into the Baltic States or even Poland, the United States is not about the push the thermonuclear-war button, and Putin knows that.
Consequently, the only way to be able to deter war is to be strong enough to defeat a conventional attack by non-nuclear means. That requires an army.

AMERICAN OVERSIGHT

Should America Fall, The World Economic Forum Is Prepping to Take Its Place – Jeff Thompson - https://www.prophecynewswatch.com/article.cfm?recent_news_id=5226
We are witnessing the narrative switch from COVID to global warming. True, the notion of climate change has been a leftist buzzphrase for years now, but we are seeing an increase in the rhetoric, and it is growing in vehemence.

AMERICAN OVERSIGHT

The Organic Prepper has covered the concept of Personal Carbon Allowances before (and you're bound to hear more about them in the future).
Now, we are hearing discussion about companies' "ESG scores."
It is no secret that the goal of the United Nations and the World Economic Forum (WEF) is to instate a globalist government that encompasses the entire world. America is the sole country that stands in the way of this happening. Should America fall, the WEF will rise.
So, just what is an ESG score? It stands for "environmental, social, and governance factors," and it is a concept that has already crept throughout the United States largely unnoticed.
Why was it that international companies in the US have placed such a heavy emphasis on being "green" over the past several years?
It's because of ESG scores.
Rated on a scale of 0-100, the higher your score, the better you fare. The man with a score of 88 would be deemed more climate-conscious and a better global citizen than the man with a score of 23.
Here is how your ESG score is calculated...
A company called ESG The Report has detailed all the ways that your ESG score is calculated. Here is what they have to say:
E = Environmental Factors
There are three primary environmental factors that determine what one's 'E' score will be. They are:
What effect do you have on the environment? What are your carbon emissions like? How much waste do you create?
How effectively do you utilize natural resources? How much water do you use? How much electricity do you use?
Do you engage in any climate change initiatives?
Let us start with an analysis of the practical consequences of this.
Imagine a world where your trash output is monitored and recorded. If you create too much, those in power will know about it. Have a birthday party with family over that generates extra trash? You could end up being penalized.
Picture being told that you drink too much water, and you need to ration how much you consume. You eat too much. That's not fair to the rest of the planet. The number of calories you eat is to be dictated to you by the planners of society. Did your smart meter just detect you've met your monthly electricity allowance? Your power has just been cut off.
And what about climate change initiatives? You are literally being forced to give money to particular charities and causes at the risk of being blackballed. No money? That's okay, forced community service, so that you can prove that you planted 45 trees this past year is also an acceptable "contribution."
S = Social Factors
There are three primary "social factors" that influence one's ESG score, as well. They are:
How well do you treat your employees, local community, and society at large?

AMERICAN OVERSIGHT

Do you support diversity?
Is your workplace safe?
Are there practical consequences to these ideas as well? You betcha.
Consider that this scoring system necessitates some form of organization to which the employees of the world can file grievances. Do you like the idea of some global organization keeping a track record of every complaint your employees make, justified or not?
How does one determine just exactly how fair you treat your local community or society at large? Would the small town gun shop owner be told that they are selling a product that is doing harm to "society at large?" Keep in mind that globalists hate American gun ownership.
What about the church that preaches that particular actions are sinful? If this goes against the globalist agenda, they could be slapped with the low ESG score label with all the consequences that follow.
Workplace safety is not something I believe people initially object to, but if there's one thing we've witnessed over the course of the past two years, it's that what is enforced upon people in the name of safety is often anything but.
Diversity is not even worth mentioning here. If you're a business that hires white, American men, your ESG score will be abysmal. You will be forced into hiring people based on their skin color rather than their ability. "Sorry, you can't work here. We haven't met our minority quota yet, and you have the wrong color skin."
G= Governance Factors
Three factors contribute to one's "G score." They are:
Do you make political contributions or influence legislation?
How much do the executives at your company make?
Are the executives within your organization diverse?
As can probably already be seen, there are a number of issues here.
For starters, consider what could happen if it's discovered you've given money to a pro-American lobbyist organization. Do you think that will help your ESG score or lower it? What if it's found you're not giving to any of the pre-approved political organizations? Could this be used to lower your ESG score as well?
Should globalists have any right to determine the pay scale of the executives in your company? Is this not a forced redistribution of wealth scheme? If I founded, run, and own the company, why can I not pay myself the salary I desire?
And of course, lastly, we see institutionalized racism incorporated by the globalist agenda once again, as they seek to force people to be hired not on their ability but on their skin color, gender, or sexual preferences instead.
Who on earth is ESG The Report?
It has to be asked who this company is. Despite their doing a very good job of hiding where they are located and who works for them, they appear to be shills for the World Economic Forum.
On their website, you'll see such questions and answers as:
"Is capitalism ethically justifiable? No, it isn't."
"Does capitalism destroy the environment? Yes, it does."

AMERICAN OVERSIGHT

"Capitalism's alternatives include democratic socialism..."
You can also see pictures of world-class citizen, Karl Marx.
Slapping an ESG score on every human on the planet is nothing other than the next step of The Great Reset.
And no, you will not be permitted to avoid it. As Great Reset mastermind Klaus Schwab has said, "Every country, from the United States to China, must participate [in the Great Reset], and every industry, from oil and gas to tech, must be transformed."
This won't stop at the business level either. As we pointed out with the current discussion on Personal Carbon Allowances, this is being discussed at the individual level as well.
As the company, ESG The Report, says, there are a number of ways in which one can calculate their personal ESG score. Your transportation habits, your dietary habits, attitude, outlook, the environmental impact of your career choice, the way you invest, your recycling habits - all of these could be used to determine what your personal ESG score is.
Do you live a 45-minute drive out from work? Well, that hurts your ESG score. If you want to better it, you will need to move into a densely-populated urban center to cut back on your drive time.
Do you eat meat? Sorry, that hurts your ESG score.
Do you have a negative attitude towards the UN, the WEF, or ESG scores? Do you believe in national sovereignty? You love America? Sorry, an analysis of your social media posts and your recent government-mandated "outlook appointment" have all determined that these are negatives within your mindset, and your score will reflect it. You are guilty of Orwellian thoughtcrime.
As the WEF points out, an ESG score allows politicians to measure how well a business complies with The Great Reset. You're no longer measured by how profitable your business is. You're now measured by how long you're willing to comply with tyranny on a global scale.
Surely, the idea of an ESG score is just another conspiracy theory, right?
Look it up for yourself. And for those of you who refuse to believe that this will progress into anything further, may I ask how your 'two weeks to stop the spread' panned out?

Stones Crying Out - by Terry James -

https://terryjamesprophecyline.com/2022/02/22/stones-crying-out/

We've talked several times about Jesus' triumphal entry into Jerusalem, offering Himself as Israel's Messiah. The people were exultant.
So much had been seen and heard regarding Jesus' miracles and transforming message as He taught through his travels with His immediate disciples. He was hailed by the masses as He sat atop that donkey, moving through the slopes and into the city.

AMERICAN OVERSIGHT

At the same time, those of the Jewish ecclesiastical class—the so-called Judaizers—decried the Lord's movement into the city, seeing it as blasphemy. They believed He was anything but sent from God. They were, as a matter of fact, determined to murder Him. They did, in fact, do so, through the Roman government, a short time later.

The Jewish religious leaders were enraged at the way the people who believed (Jesus' disciples) were responding to Jesus as He came toward Jerusalem.

And when he was come nigh, even now at the descent of the mount of Olives, the whole multitude of the disciples began to rejoice and praise God with a loud voice for all the mighty works that they had seen; Saying, Blessed be the King that cometh in the name of the Lord: peace in heaven, and glory in the highest. And some of the Pharisees from among the multitude said unto him, Master, rebuke thy disciples. And he answered and said unto them, I tell you that, if these should hold their peace, the stones would immediately cry out. (Luke 19:37-40)

Jesus was revealing a truth that few who read this passage really grasp: the truth about His relationship not just with people, but with the very creation—planet earth and all the cosmos. That is, all that God created.

Remember the time on the Sea of Galilee when the little boat was about to be destroyed in the great storm that came up? Jesus was sleeping soundly when the disciples came to Him and, with great fear of being swamped by the storm, wanted Him to know what was going on.

The Lord simply said calmly "Peace, be still," and the sea's surface became instantly as slick as glass. Nature itself obeyed Jesus' command, and His disciples, who had been with Him and seen many miraculous things He did, were dumbfounded.

They said, "What manner of man is this that even the sea obeys him?"

Later, Jesus said that if He didn't receive praise while He rode into Jerusalem showing He was that God/man–Israel's Messiah King—all of nature would erupt in praise of Him. Nature knows to not turn its back on the God who created it. Man, on the other hand, continues to do so without thinking twice. And mankind turning its back on God is what will ultimately bring the great geophysical and astrophysical upheavals of the Tribulation as given in the book of Revelation. It is the Revelation, the unveiling of Christ for all of the rebels of earth at that time to witness. They will endure horrendous judgment and wrath, but they will know, in the end, that Jesus is Lord–the Creator of everything that is.

And the kings of the earth, and the great men, and the rich men, and the chief captains, and the mighty men, and every bondman, and every free man, hid themselves in the dens and in the rocks of the mountains; And said to the mountains and rocks, Fall on us, and hide us from the face of him that sitteth on the throne, and from the wrath of the Lamb: For the great day of his wrath is come; and who shall be able to stand? (Revelation 6:15–17)

But the rocks won't obey them as they do the God who created them. Man will face God's ultimate punishment for willfully, knowingly turning the back to Jesus Christ and the great price He paid to redeem sin-condemned mankind if they would but accept God's grace offer.

AMERICAN OVERSIGHT

We present numerous news stories of the increasing weather and geological upheavals at this late hour so near the end of the age. The climate change the New World Order builders claim is man-made, thus, they proclaim, can only be dealt with by man, is beginning to ratchet up. But it is the stones–nature— beginning to cry out because wicked mankind is determined to remove God from heavenly governance. These phenomena are scheduled to get worse–much, much worse. The Jewish religious hierarchy continues to misunderstand God's truth regarding all this. They almost get it, but still don't understand who is Israel's Messiah. Excerpts of a recent report make this clear.

Two earthquakes shook northern Israel within a few hours, bringing the total of earthquakes in Israel this month up to four. Scientists are issuing dire warnings of imminent doom, but rabbis point to the prophecies as proof that people who have faith, have nothing to fear and even that the Messiah's arrival is "speeding up."… Rabbi Lazer Brody, an American-born Hasidic rabbi from Ashdod, explained that earthquakes and other signs of the end-of-days would begin appearing at an even faster pace.

"People don't need to wonder about this," Rabbi Brody said. "The sages wrote that when the fate of Israel would be in the hands of the Erev Rav (mixed multitude), God will speed up the geula (redemption). And that is precisely the government Israel has right now. They are telling Jews that we can't live in the Negev, Judea and Samaria, and now they are even kicking Jews out of their houses in the Shimon HaTzaddik neighborhood in Jerusalem."

"This is Hashem having mercy on us by speeding up Moshiach (Messiah), like he did at the end in Egypt." ("Israel hit with two earthquakes in ten hours, 4 in one month; 'Accelerating Messiah's arrival,'" by Adam Eliyahu Berkowitz | Feb 16, 2022 | Biblical News)

Like we've looked at many times in these articles, we've come again to times described by Paul in Romans chapter 1. People in America and around the world have largely turned their backs on God. The results are a collective reprobate mindset. We can expect, with this rebellion, nothing less than what the Lord Himself said about this condition.

I tell you that, if these should hold their peace, the stones would immediately cry out. (Luke 19:37–40)

But God's judgment and wrath are not reserved for believers who praise Him (Revelation 3:10). So take heart. He will rescue believers from the Tribulation storm that's coming. He is saying even now to us as we look upon this tumultuous sea of rebellious humanity and all the wickedness it engenders, "Peace. Be still."

Daily Jot: Stupidocrisy: Oh, that wily Biden - Bill Wilson – www.dailyjot.com

Sometime during the week of February 14, sources revealed that patriotic American truckers were going to start rolling toward Washington, DC to protest the ongoing tyrannical COVID mandates by the federal government, as well as the

AMERICAN OVERSIGHT

lingering crazy controls by state and local authorities. About the same time, Joe Biden announced that he was going to extend the national emergency on COVID. This, two days after the tail wagging Biden's decision-making, CDC boss Rachell Walensky, doubled down on COVID mask requirements despite plunging case and hospitalization rates. Then Biden says he will meet with Russian President Vladimir Putin, if Putin promises not to invade Ukraine. What a deterrent!

At the epicenter of all this is Joe Biden and his left-wing-nut handlers. We can look North to Canada and see the jack-boot violation of human rights–as advised by Biden–by the country's socialist leader Justin Trudeau. This may be what is coming to America. Already, truckers are organizing on the West coast and plan to be in Washington, DC sometime in March. They say they intend to stay there until COVID mandates are lifted. So what does Biden do? He extends the national COVID emergency and wants everybody to continue wearing masks. Meantime, the Canada tactics are being used on US truckers—Facebook banned them, and Biden says he might call up the National Guard to help solve the truck driver shortage—something the White House denied almost immediately because Biden has no authority to do so.

So while all this is going on, there is who knows what is going on in Europe with Russia and Ukraine. In January, Biden drew the line in the sand, saying "Let there be no doubt at all: If Putin makes this choice, Russia will pay a heavy price" if it invades Ukraine. In response, Putin ridiculed Biden and the US news media through the Russian propaganda arm TASS where Putin's press secretary, Dmitry Peskov, was quoted, "It is next to impossible to take such things [reports about the 'dates' of Russia's alleged invasion of Ukraine] with understanding. Sometimes, [Putin] even jokes about it, asking if the exact time when the war is to be unleashed has been announced. Indeed, such obsessive media lunacy around this topic cannot be met with understanding."

Putin didn't blink, so Biden draws another line in the sand with the most severe consequences ever: Biden said he would meet with Putin, if Putin wouldn't invade Ukraine. Now, I am sure Vladimir Putin is just quivering with joy that he would get a meeting with Joe Biden if he doesn't invade Ukraine. That didn't work so now Biden is calling it a Russian invasion. It never ends…Extending the national COVID emergency and mask "guidelines," wanting to have the National Guard replace unvaccinated truckers, and thinking Putin would stop an invasion to meet with him. Proverbs 18:7 says, "A fool's mouth is his destruction, and his lips are the snare of his soul." Unfortunately, with this fool the entire world suffers, especially us. Say it with me…stupidocrisy.

Daily Devotion: Over the Cliff - by Greg Laurie – www.harvest.org

And all the people in the region of the Gerasenes begged Jesus to go away and leave them alone, for a great wave of fear swept over them. —Luke 8:37

https://harvest.org/resources/devotion/over-a-cliff/ - Listen

After Jesus crossed the Sea of Galilee and cast a legion of demons out of a man, how did the people there react to this amazing demonstration of God's power?

AMERICAN OVERSIGHT

We should have read that all the people gave glory to God. But that isn't what happened. One Gospel account tells us that "all the people in the region of the Gerasenes begged Jesus to go away and leave them alone, for a great wave of fear swept over them" (Luke 8:37 NLT).

This demonstration of the power of God frightened them. They should have been rejoicing, but instead they were afraid. They should have been pleading with Jesus to stay with them, but instead they did the very opposite.

And apparently, the people who owned the herd of swine were pretty angry, because they made a lot of money off the pigs that the demons went into. Hogs were big business on that side of the lake, and a lot of bacon went over the cliff that day. Jesus was bad for their business, so they didn't want Him around.

The people, too, pleaded with Jesus to go away. He answered their prayer, so to speak, and left. So be careful what you pray for because you just might get it.

However, the man who had been possessed by demons had an entirely different reaction. Mark 5:18 says that "as Jesus was getting into the boat, the man who had been demon possessed begged to go with him" (NLT).

Is Jesus bad for your business? I hope not. Whatever career choice you've made, if you can't ask the Lord to bless it, then maybe you need a new career. In fact, I would take that a step further. If you can't say to the Lord, "Hallowed be Your name" over whatever you're about to do, then don't do it.

WORTHY OF YOUR SUPPORT?

One of the most reliable ways to determine if a ministry is worthy of your financial support is to examine its fruits. If Prophecy Update is keeping you informed, and if that information inspires you, and causes you to draw closer to the Lord, if Prophecy Update equips you with valuable information and knowledge to share with and encourage other believers, and open the eyes of non-believers, and if Prophecy Update keeps you connected to current events relating to Bible Prophecy, then you are partaking of the fruit produced through this ministry. None of this would be possible without the Lords blessings and your support. I believe where the Lord guides, the Lord provides, and most of the time He provides through the willing and generous hearts of believers just like you and me.

Humbly Seek Your Support

Prophecy Update has no corporate sponsors. This ministry is paid for and prayed for by readers and supporters. Without your support, there would be no Prophecy Update, Please pray about becoming a monthly supporter - thanks!

If ever there was a time to invest in God's Kingdom, it's now!

What on earth are you doing for Heaven's Sake?

"Share in the Blessings and Rewards that will last Forever!"

"Folks, it's all beginning to unravel. America is in more danger of falling than at any time in its history. But I believe Bible prophecy predicts this very decline. From this point on, we believers have to get serious. We are going to face discouragement, disillusionment and, most certainly, persecution in the time between now and the Rapture. But don't be discouraged or disillusioned. The coming turmoil will provide us unrivaled opportunities to share the good news of the Gospel. So be ready to share your faith and your hope with those who need Christ. We still have time to reap a great harvest of souls for God's kingdom!" - Hal Lindsey

1) We need your prayers!- We proclaim the Truth of the Word of God and we are under constant spiritual and sometimes even physical attack.
2) We need your encouragement!- We need to hear from you, let us know how the Lord is blessing you through this ministry so that we can share it with others.

AMERICAN OVERSIGHT

3) We need your input! -If you have a prophetic article or story or if there is a news related item we missed, let us know.
4) We need your financial support!- To put it quite simply, without your support, there would be no Prophecy Update.

I ask that you would prayerfully consider partnering with us to get the Word out and keep the world informed. Remember, your gift, no matter how small, does make a difference! You will be helping to touch lives, around the world, 24 hours a day, seven days a week, thanks to the internet your generosity carries a global impact! - Thanks!

Our Prayer for You- "Now he who supplies seed to the sower and bread for food will also supply and increase your store of seed and will enlarge the harvest of your righteousness. You will be made rich in every way so that you can be generous on every occasion, and through us your generosity will result in thanksgiving to God. This service that you perform is not only supplying the needs of God's people but is also overflowing in many expressions of thanks to God. Because of the service by which you have proved yourselves, men will praise God for the obedience that accompanies your confession of the gospel of Christ, and for your generosity in sharing with them and with everyone else." 2 Corinthians 9:10-13

SCROLL DOWN TO READ

Falling Into Place - By Daymond Duck - https://www.raptureready.com/2022/02/20/falling-into-place-by-daymond-duck-2/

The great prophecy teacher Jan Markel often says, "Things are not falling apart; things are falling into place."

Here are more things that are falling into place and should not be overlooked.

One, history is nearing the toes on the statue in Nebuchadnezzar's dream.

- The Second Coming and Kingdom on earth will occur when history reaches the tip of the toes.
- The Rapture will take place at least seven years before history reaches the tip of the toes.

Two, the nations are negotiating covenants that could begin the seventieth week of Daniel.

- Four Arab nations have signed the Abraham Accords with Israel, and more are expected to sign soon.

Three, history is nearing 6,000 years (6 God-Days) since the creation of Adam and is very close to the seventh God-Day, the 1,000-year reign of Jesus on earth.

- This belief teaches that the Church Age will last about 2,000 years (2 God-Days), and the Church Age is approaching 2,000 years.

Four, the Fig Tree and all trees have been growing and putting forth leaves for more than 70 years.

- On Oct. 24, 1945, the UN came into being with a charter calling for the establishment of a world government. The UN began with a few trees (nations), and it now has more than 190 trees (nations).
- On Jan. 1, 1948, three European Union nations (the Revived Roman Empire; home of the Antichrist) began to unite, and it now has 27 trees (nations).
- On May 14, 1948, the Fig Tree (Israel) officially came back into being as a nation; several nations have tried to destroy her and can't.

AMERICAN OVERSIGHT

Five, history could be nearing the end of the terminal generation that will see the fulfillment of all Bible prophecy.

- If (perhaps a big if) the terminal generation is 70-80 years (Psa. 90:10) and it began in 1948 as some teach, this generation is 74 years old and needs only 6 years to get to 80.

Six, a world government is rising.

- After the Rapture of the Church, there will be a world government, and the UN has agreed to establish a world government by 2030 or sooner, if possible (The Transforming our World: The 2030 Agenda for Sustainable Development went into effect on Jan. 1, 2016).
- The document preamble calls it a "New Universal Agenda."
- UN Sec. Gen. Ban Ki-Moon called it the "start of a new era."
- On Feb. 19, 2021, Biden declared an "End to Trump's America First agenda."

Seven, a world religion is rising.

- Pope Francis is trying to establish a world religion, and it has been reported that he is seeking to be the first to head it up.

Eight, the Antichrist will rule over all nations, including the U.S.

- This means the U.S. must decline and be brought under a more powerful UN, and a recent poll shows that more than ¾ of U.S. citizens believe America is declining now.

Nine, the technology that is required for history to be at the end of the age is coming into existence. TV, the Internet, and Computers are making it possible:

- For everyone on earth to see the bodies of the Two Witnesses lying in a street in Jerusalem.
- For everyone on earth to see the Second Coming of Jesus.
- For a world government to track all buying and selling.

Ten, the ability of mankind to destroy all flesh has come into being.

- Nuclear and biological weapons have been created that can do that.

AMERICAN OVERSIGHT

Eleven, Russia, Iran, Turkey, and others will attack Israel from the north in the latter years and latter days.

- All of them have troops in Syria (north of Israel) right now.

Twelve, there will be a departing from the faith, a lukewarm spirit, a falling away in the Church at the end of the age.

- Seeker-friendly churches are ignoring the Scriptures, ordaining gays, and supporting globalism, etc.

Understand:

- That we can't know the day or the hour, but we can see it approaching.
- That we can't see all these things come to pass because they will happen after the Rapture, but we can see them beginning to come to pass.
- This is called convergence, and we are seeing a convergence of everything.

Here are more stories that caught this writer's attention this week:
One, on Feb. 5, 2022, a group of lawyers and judges met in Germany to discuss the human rights violations (crimes against humanity) that politicians and the World Economic Forum (WEF) have imposed upon the world.
According to a world-famous anti-corruption attorney with a law practice in Germany and California, Dr. Reiner Fuellmich:

- Covid is a long-planned pandemic that was created to gain control of the world.
- Covid can be treated with Vitamin C, Vitamin D, Zinc, Ivermectin and Hydroxychloroquine, but the pandemic planners oppose these treatments because they want to force everyone to be vaccinated.
- The ultimate goal is a reduction in the population of the earth, a change in the DNA of those that are left, the replacement of sovereign nations with a world government, and the establishment of a single global currency that will allow the tracking and control of everyone.

Fuellmich wants to seek indictments against a German virologist named Christian Drosten; NIAID Director, Dr. Anthony Fauci; World Health Organization Director Ghebreyesus; Bill Gates; the BlackRock investment Corp.; and Pfizer.
Here is a link to the article:

AMERICAN OVERSIGHT

https://humansbefree.com/2022/02/international-criminal-grand-jury-investigation-psychopathic-globalists-used-covid-to-commit-crimes-against-humanity.html

Two, on Feb. 9, 2022, it was reported that Pfizer is forecasting $54 billion in Covid-related sales in 2022.

Global mandatory Covid vaccinations appear to be very profitable, and some may think enslaving and controlling everyone on earth could be more profitable, but they will forever regret what they have done.

Three, on Feb. 9, 2022, Duck Dynasty star and pastor Phil Robertson said every empire that has traveled down the path that America is on (filled with "every kind of wickedness, evil, greed, and depravity") has collapsed.

Robertson predicted that the U.S. will collapse if there is not a change in the heart of citizens because the cancel culture mob "hates people who love God."

According to Robertson, God has given these (cancel culture) people over to a reprobate mind, they are deluded, and they will cause America to fail.

Four, last week, I reported that GoFundMe was blocking gifts to the Canadian truckers resisting Trudeau's effort to impose the globalist agenda on the Canadian people and that donors had started using the Christian site called GiveSendGo.

On Feb.10, 2022, it was reported that Ontario Premier Doug Ford got a judge to block the trucker's funds at GiveSendGo, but fund officials said, "Canada has absolutely ZERO jurisdiction over how we manage our funds here at GiveSendGo. All funds for EVERY campaign on GiveSendGo flow directly to the recipients of those campaigns, not least of which is The Freedom Convoy campaign. Thanks for your concern, but this recipient is receiving funds."

On Feb. 13, 2022, an official with GiveSendGo said they are appealing the judge's decision, but they are keeping the contributions in the U.S. and still sending them to the truckers in Canada.

It looks like GoFundMe made a big mistake, and gifts to that group have dried up.

As far as the truckers are concerned, they are just asking for the right to buy and sell (the right to hold a job, earn money, and provide for their family without being forced to be vaccinated).

U.S. officials (Biden, U.S. Homeland Security Sec. Mayorkas, U.S. Sec. of Transportation Buttigieg, and Michigan Gov. Whitmer) urged the Canadian government to use its power to stop this "illegal blockade."

U.S. citizens should realize that a Canadian-style truckers protest could be coming to the U.S. and the right to work, buy and sell without being forced to take a vaccination is part of the issue.

(**More:** On Feb. 14, 2022, it was reported that Trudeau invoked Canada's Emergencies Act, which gives him broad power to try to destroy the Trucker movement. Citizens need to understand that the globalists are working to enslave everyone on earth, not just the truckers. Since Biden, Mayorkas,

Buttigieg and Whitmer urged Trudeau to use the government's power to stop the blockade, it is not unreasonable to believe that they may use the U.S. government's power to stop U.S. truckers from succeeding in that protest.)
Five, on Feb. 9, 2022, it was reported that the percentage of citizens that have been vaccinated for Covid is higher in Israel than it is in the Palestinian areas, but the infection and mortality rate is much higher in Israel than it is in the Palestinian areas.
Here is more information:

- On Feb. 8, 2022, it was reported that in Australia, between Nov. 26, 2021, and Jan. 15, 2022, 90% of the Covid-19 cases and 80% of the deaths were people that had double or triple vaccinations.
- On Feb. 10, 2022, it was reported that Japan does not allow mandatory vaccinations, Japan requires that people give their consent before being jabbed, and Japan is requiring a warning about the risk of myocarditis on the label for Moderna and Pfizer vaccinations.
- On Feb. 11, 2022, it was reported that eight members of the U.S. House of Rep. introduced a bill to require the reinstatement of all U.S. troops that have been removed for refusing to take the jab if they want to be reinstated.

Six, concerning the tracking of all buying and selling: on Feb. 10, 2022: it was reported that the EU wants to expand the Covid-19 vaccination tracking system to include the global tracking of about 40 other kinds of vaccinations.
This is the point: Tracking those that are vaccinated for Covid today is just the beginning of a system to track people for other reasons.
This could very likely be the beginning of the Mark of the Beast system.
Seven, concerning deception: the U.S. is warning Ukraine and others that Russia will invade Ukraine at any moment and without warning.
Russia has responded by accusing the U.S. of running a "mass disinformation campaign."
According to Russia, the White House "needs a war" to distract attention from its own actions, and "provocations, disinformation and threats" are methods the White House uses to do that.
At the time of this writing, I cannot predict what will happen, but I do know that there has been speculation for a few weeks that some politicians might want a major problem before the upcoming election to distract from White House failures.
Eight, concerning global hyperinflation and an economic collapse: early in the Tribulation Period, on Feb. 10, 2022, the Dept. of Labor said consumer prices jumped 7.5% in Jan., the highest in 40 years, and some experts said they will probably keep rising.

AMERICAN OVERSIGHT

Nine, concerning world government: on Feb. 8, 2022, the WEF released a video supporting the Critical Race Theory (CRT).
That's right, the CRT theory that is being taught in many U.S. colleges, universities, high schools, and elementary schools is supported by the WEF, a group that wants the U.S. to surrender its sovereignty to a world government, a group that wants U.S. citizens to own nothing, a group that wants to enslave everyone on earth.
They want to indoctrinate future citizens with globalism.
Here is a link to an article about this:
https://www.breitbart.com/politics/2022/02/11/world-economic-forum-blasted-for-insane-pro-crt-propaganda-video/
Ten, concerning natural disasters increasing in frequency and intensity at the end of the age: on Feb. 7-8, 2022, hurricane-force winds off the southern coast of Iceland steadily sent waves 98 feet high crashing ashore, and the most powerful wave was 131 feet high (and it may have been higher because the meter failed).
The previous record was 82 feet high, and 131 feet is one of the highest ever recorded on earth.
Eleven, concerning wickedness or corruption: on Feb. 11, 2022, Special Counsel John Durham filed a motion saying he has uncovered evidence that the Hillary Clinton campaign paid a tech company, an Internet company, and someone that has been identified as a staunch Clinton supporter at Indiana University, Professor Jean Camp, to spy on Donald Trump at Trump Towers and later at the White House.
Clinton's campaign was paying people to illegally spy on Trump while Clinton was falsely (lying) accusing him of colluding with the Russians.
There is speculation that others helped her gain access to White House servers, and there may be more court filings.
This writer believes that the globalist effort to weaken the U.S., prevent Trump from making America great again, and bring the U.S. into a world government may go even higher than Hillary Clinton, and if they were willing to spy on Trump, why is it hard to believe that they would try to steal an election?
Twelve, concerning the tracking of everyone: globalists want everyone to believe their records will be secure in a global record system, but if Hillary's hired agents could get into the computers at Trump Towers and the White House, people can probably get into the computers at a global record system.
Thirteen, concerning reprobate thinking, hyperinflation, and high energy prices: on Feb. 15, 2022, it was reported that Biden canceled the gas pipeline from Israel to Europe without any consultation with our allies Greece, Cyprus, and Israel.
Biden helped Russia by approving construction of Russia's Nord Stream 2 pipeline and destroying America's energy independence.

AMERICAN OVERSIGHT

Now he is helping Russia by making Europe more dependent upon Russia for gas.
Biden keeps driving up the price of energy and putting Russia above America and our allies.
Fourteen, concerning the destruction of Damascus in one night: on Feb. 9, 2022, an anti-aircraft missile was fired at Israel from Syria.
The missile exploded in the air, so there was no damage in Israel, but Israel responded by striking Syrian targets near Damascus.
On Feb. 10, 2022, Russia urged Israel to stop attacking Syria and warned that Israeli attacks could lead to a sharp escalation of tensions.
Finally, are you Rapture Ready?
If you want to be rapture ready and go to heaven, you must be born again (John 3:3). God loves you, and if you have not done so, sincerely admit that you are a sinner; believe that Jesus is the virgin-born, sinless Son of God who died for the sins of the world, was buried, and raised from the dead; ask Him to forgive your sins, cleanse you, come into your heart and be your Saviour; then tell someone that you have done this.
duck_daymond@yahoo.com

The Russia-Ukraine Update – Pete Garcia - https://www.rev310.net/post/the-russia-ukraine-update
"If your opponent is of choleric temper, seek to irritate him. Pretend to be weak, that he may grow arrogant." – Sun Tzu, The Art of War
I wanted to put some thoughts out there regarding our current situation. Iintended to do this by video and spent about an hour today trying to figure out Rumble live recordings and for whatever reasons, technology seems to have gotten the better of me today. Anyway, I will reengage with that line of effort early next week until I figure it out. ..
Technology- 1
Me- 0
Nevertheless, back to Russia. So far we have our president and his staff saying one thing, and Vladimir Putin saying another. Also chiming in and muddying the geopolitical waters are comments by both Ukraine leadership, as well as NATO. It's hard to make sense of it all. I'll link two really good articles for you at the bottom for you to follow up and perhaps make it less muddy. However, I have some personal observations that I would like to add here so you can get a gist of where my mind is at regarding this volatile situation.
Personal Observations and Concerns

AMERICAN OVERSIGHT

1. The last time the US fought a peer, or near-peer level opponent, was with China in the latter half of the Korean War (1950-53). So some 69 years ago. Keep this in mind
2. We have spent the last 20 years, fighting in counter-insurgency (COIN) operations. As compared to fighting a peer, or near-peer military force, these are very different things. Rapid response Ranger Regiments can deploy quickly but aren't much good against heavily armored units (and the Russians know it)
3. The repeated deployments to Afghanistan and Iraq from 2003-2021, have essentially drained all the heavy military units out of Europe (robbing Peter to pay Paul).
4. On January 26, 2012, President Obama ordered two Brigade Combat Teams (170th and 172nd) to be removed from Europe. These were our last two heavy-armor BCTs (around 10,000 soldiers) that would be deployed to the Middle East, and then relocated back to the US at the end of those deployments (see here)
5. The predominant feeling during the early to mid-2000s amongst Army Soldiers (I can't speak for the Air Force, Navy, or Marines) was that Russia was not a threat. Their economy was in the tank. Their populations and economy were dwindling. And their armies fought with antiquated weapon systems
6. Simultaneous to this, US forces received more upgrades, modifications, and new systems than we knew what to do with. I mean, the Army changed service uniforms some three separate times, and we retired the M16 rifle and upgraded to the M-4 with all of its bells and whistles. Add to that, all the new electronic gadgets we got. The last twenty years (while I was in) felt like this non-stop roller coaster of upgrades we were continually having to relearn how to use
7. It wasn't until around 2016 that I started hearing the upper echelons (like GEN Milley) really start to address his concerns about Russia. Once he did it, the Russian threat filled the flag officer echo chambers like a broken record. Like it was taboo to talk about it before then, but once he did, they all had tacit approval to now voice their concerns
8. After Russia, it soon became China, and then Iran and North Korea. Keep in mind this is after we pulled out of Iraq, and before we cleaned the floor with ISIS
9. If having to learn how to use all new equipment, upgrades, and modifications weren't enough, the DOD decided to add on some 300 hours of online and classroom training that had to be completed each fiscal year, or you weren't being "compliant." While some of it was important (anti-terrorism, cyber threats, etc), a lot of it either wasn't (transgender training, inclusivity training, etc.) or was overkill (PTSD

AMERICAN OVERSIGHT

awareness, sexual harassment, sexual assault, anti-racism, etc.). As for the latter group, you'd often walk out of those classes feeling like you were guilty by just being the wrong gender (male) and race (white). Nevertheless, the amount of training (both essential and non-essential) piled on so high, that the Pentagon was forced to review it and start scaling it back. I mean, it took more priority at times than actually learning how to fight and win wars

10. The US Army didn't have any land-based, long-range conventional missile systems. All of those were either air or sea-based platforms. The best the Army could do was MLRS (Multiple Launch Rocket Systems) or HIMARS (High Mobility Artillery Rocket Systems). Neither had a range longer than 310 miles. It didn't matter so much when fighting COIN Operations, but against a peer or near-peer with those capabilities, it put the US Army (the US's largest component of the fighting force) at a huge disadvantage
11. Of the Air and Sea-based missile systems, the US only possessed low flight level, subsonic cruise missiles. Russia has tens of thousands of Zircon hypersonic missiles, which can fly up to 28,000 feet, up to Mach 9 (9,800–11,000 km/h), and traverse a distance of up 620 miles
12. If there was a war with Russia, the US Navy would not get a carrier or carrier group through the Istanbul Strait into the Black Sea. If it did, they probably would not be floating long. At best, the US would have to remain in the Mediterranean, and either fly around Turkish airspace (as they would most likely not allow us to use their airspace).
13. Given that reality, it makes sense why Russia needs to secure its foothold in Syria. If it can secure a permanent military presence in Syria, it can control the eastern half of the Mediterranean Sea pushing US naval forces out even further
14. While the US does have more advanced equipment, the loss of each one (say a UH-60M, or F35) is stratospherically more expensive to replace, than say a Russian HIND helicopter or MIG. IOW, it would cost us A LOT more to fight it and lose aircraft, than it would the Russian (war of attrition?)
15. Our over-reliance on communication systems and satellites, while advantageous to us, is also a huge liability should either or both of those capabilities be taken away from us. The Russians and Chinese know this as well and have devoted more energies and resources to finding ways to nullify our advantage through anti-satellite systems, as well as thousands of soldiers solely dedicated to cyber-attack us into oblivion
16. Our over-reliance on air power. While F35's are the more superior aircraft, the Russian's could throw MIGs at us all day and not run out. There is few and far between F35's in the European theater

AMERICAN OVERSIGHT

17. Our economy, while the strongest in the world, is also fragile due to the growing weakness of the US Dollar. The Russians and Chinese know this as well
18. While we don't know exactly what was discussed, we do know China's Xi Xiping and Russia'sPutin can and will align when necessary to support each other's agenda
19. Given our surrendering of Bagram Airbase (a huge strategic mistake) and our disastrous withdrawal from Afghanistan in 2021, our enemies smell blood in the water and are now probing and prodding and testing our willingness to put our money where our mouth is. IOW, we just showed massive weakness to the entire world, and our enemies are thinking now is the time to knock us off the top of the geopolitical pyramid

While Russia does have a failing economy, a declining population, using more antiquated combat systems, and thus, appearing weaker, I'm willing to bet both Putin and Xi XiPing have both studiously read the Art of War. Furthermore, our inept and choleric leader, and their shared issues, i.e., both China and Russia want to reclaim what they think is rightfully theirs. They also know if they work in tandem, and possibly throw in a North v. South Korea scenario, the US would be at its breaking point. It would be a monumental mistake to underestimate them. However, to put a counter-perspective to all of this, let me include a piece of additional information as to why Putin won't attack Ukraine. After considering everything, what do you think will happen?

AMERICAN OVERSIGHT

Something Really Evil Is Happening In Ukraine - by Michael Snyder - http://theeconomiccollapseblog.com/something-really-evil-is-happening-in-ukraine/

How can we figure out exactly what is going on in Ukraine when literally everybody is lying?Anyone that willingly embraces the propaganda that is being put out by either side without questioning it is simply not being rational.At a time like this, we must think for ourselves and we must come to our own

AMERICAN OVERSIGHT

conclusions.And we should be doing whatever we can to stop a global war from starting.For years, I have been warning that the United States and Russia were heading toward war, and now we are almost there.If we can't stop it from happening, tens of millions of people could die, and so the stakes are incredibly high.

Do I trust Vladimir Putin?

No way.

He says that the troops that he has massed on Ukraine's borders are not a threat. Of course they are a threat.

But is it a threat to invade Ukraine, or is it a threat to strike back if Ukraine invades Donetsk and Luhansk?

Of course I don't trust the Biden administration either.

You would be amazed at how many otherwise rational people are telling me that even though the Biden administration has not stopped lying ever since they took power that I should now fully believe everything that they are telling us about Ukraine.

What a joke.

Anyone that has unquestioning faith in anything that Joe Biden, Kamala Harris, Anthony Blinken or Jake Sullivan has to say is being quite foolish.

I don't want propaganda.

I just want the truth.

So what is the truth?

Well, that is going to be hard to figure out in an environment where lies are being constantly fired in our direction.

To the best that I can determine, widespread artillery bombardment began less than 24 hours after Russia announced that some troops would start to be pulled back from the border areas.

On Friday, the level of shelling was particularly bad.According to the OSCE, there were over 1,400 explosions "in the rebel held regions of Donetsk and Luhansk" during that 24 hour period…

Fears of tensions boiling over were backed up by figures released Saturday by the OSCE, which showed there were more than 1,400 explosions in the rebel held regions of Donetsk and Luhansk on Friday.

The OSCE's Special Monitoring Mission that is deployed in the conflict zone said it had logged 553 explosions in Donetsk and a further 860 in neighbouring Luhansk – adding that it had confirmed one civilian casualty in a government-controlled area of Donetsk.

It put the total number of ceasefire violations on Friday at more than 1,500, compared with 870 the day before, suggesting an upwards trajectory of gunfire and mortars.

What I just shared comes from a British news source, and that is important to note, because western news sources are supposed to be convincing us that the Russians are about to invade Ukraine.

AMERICAN OVERSIGHT

But it is the Ukrainians that appear to be prepping for an invasion as they relentlessly pound Donetsk and Luhansk.

Of course the Ukrainians deny this, and some western media sources are actually trying to claim that the separatists in Donetsk and Luhansk are shelling themselves hundreds of times in an effort to justify a Russian invasion of Ukraine.

So what is the truth?

That is a very good question.

It is certainly true that the separatists have been firing back into Ukrainian-held territory, and the government of Ukraine is calling this “provocative firing”.

But as far as I can determine, it was the Ukrainians that started firing first.

I certainly can’t prove that, because I am just one guy on the other side of the planet trying to figure things out as both sides relentlessly lie to all of us.

However, what should be incredibly clear to everyone is that somebody out there really, really wants a war to happen.

In the weeks ahead, I think that it will become clear who that is.

The Russians are trying to convince us that Ukraine is preparing to invade Donetsk and Luhansk now that they have been armed to the teeth by the U.S. and other NATO countries…

The Kremlin said the supply of weapons and ammunition by NATO countries to Ukraine was pushing Kyiv towards a ‘military solution’ against separatists in the country’s east.

‘As a result, civilians… who have to evacuate to Russia to escape the intensifying shelling, suffer,’ the Kremlin added.

On the other hand, the Biden administration is trying to convince us that Russia is trying to “create a false pretext for invasion” because Putin is a madman that desperately wants to get his hands on Ukraine.In fact, Kamala Harris says that what we are witnessing is right out of the “playbook of Russian aggression”…

“There is a playbook of Russian aggression,” Harris told the heads of state and government, foreign dignitaries and a large delegation from the United States. “And this playbook is too familiar for us all. Russia will plead ignorance and innocence. It will create a false pretext for invasion. And it will amass troops and firepower in plain sight.”

So who is right and who is wrong?

Just hours ago, we learned that U.S. officials have supposedly gotten new “intelligence” that Putin has issued “an order to go ahead with an invasion of Ukraine”…

The U.S. has picked up intelligence showing that Russian military officials were given an order to go ahead with an invasion of Ukraine, a U.S. official and another person with knowledge of the matter told NBC News.

The intelligence, which was developed very recently, informed President Joe Biden’s startling declaration Friday that the U.S. believes President Vladimir Putin has already decided to invade, the people said.

I don’t think that Russia is going to invade Ukraine today.

Or tomorrow.

AMERICAN OVERSIGHT

Or the next day.
In fact, I don't think that he wants to invade Ukraine at all.
But I do think that Putin definitely wants to keep Ukraine out of NATO and western missiles off of his doorstep.Just check out some remarks that he made late last year…
"It is you who must give us guarantees, and you must do it immediately, right now," he said at his annual news conference late last year. "Are we deploying missiles near the US border? No, we are not. It is the United States that has come to our home with its missiles and is already standing at our doorstep."
I also think that Putin is very interested in keeping Ukraine out of Donetsk and Luhansk.
If Ukraine invades Donetsk and Luhansk and starts taking lots of territory, I think that Putin will feel forced to intervene.
And then western leaders will have the "Russian invasion" that they have been promising us.
British Prime Minister Boris Johnson made headlines all over the globe when he warned that the Russians are planning "the biggest war in Europe since 1945"…
Evidence suggests Russia is planning "the biggest war in Europe since 1945", Prime Minister Boris Johnson has said.
He told the BBC's Sophie Raworth in an interview: "All the signs are that the plan has already in some senses begun."
Intelligence suggests Russia intends to launch an invasion that will encircle Ukrainian capital Kyiv, Mr Johnson said.
No, I don't think that is what the Russians truly want.
But if neither side backs down, I think that is exactly what we are going to get.
Nobody should be invading anybody.The Russians should not invade Ukraine, and the Ukrainians should not invade Donetsk and Luhansk.
Ultimately, everybody should just take a step back and relax.
But it appears that is not going to happen.Thanks to all of the shelling in Donetsk and Luhansk, the Russians have announced that they will be extending their "military drills" in Belarus indefinitely…
Russia will extend its military drills with Belarus because of rising violence in Ukraine's Donbas region, the government in Minsk said, as Russian President Vladimir Putin accepted a new round of talks with Kyiv amid warnings of an imminent Russian invasion.
If war starts, that will plunge the U.S. and Russia into a permanent state of conflict.
Of course missiles would not start flying back and forth immediately.At first, both sides would use other measures to put pressure on the opposing side.
But eventually a breaking point would be reached, and someone would go for the jugular.
We must not allow things to get to that point.
Because if we do cross that line, tens of millions of people could die in a war that nobody wants.

AMERICAN OVERSIGHT

And We Will Rise - By Hal Lindsey - https://www.hallindsey.com/ww-2-20-2022/

Students of Bible prophecy have long warned that a time of terrible destruction looms over earth's future. Today, similar warnings are coming from scientists of all kinds. Systems are stretched to the breaking point, including medical, economic, environmental, and moral systems. A multitude of problems in many different areas have become severe enough to threaten civilization itself.

But even in such a troubled time, every follower of Christ has full access to the Lord's hope, peace, joy, and strength. In Jesus, we have "life more abundantly"—now and forever. Christians long for everyone to enjoy these same privileges. That's why we share the Gospel.

At some point in the future, things will become even more precarious for the people of earth. The last seven years before Christ's return are often referred to as "the tribulation." That's when things will fall apart in astonishing and destructive ways. You can read about these events in the Book of Revelation. But before those seven years, God will perform one of His most spectacular miracles. He will remove all those who are "in Christ" from the earth.

Recently, the United States, UK, Australia, Germany, and other nations began withdrawing their personnel from Ukraine. They did this believing that Russia was about to invade that country and they wanted to get their people out of harm's way. The rapture will happen for similar reasons. God will remove His people from planet earth before the greatest calamities begin. In fact, the scripture teaches that the coming disasters cannot take place while the Holy Spirit continues to work in, through, and for His Church on earth. We see this summarized in 2 Thessalonians 2:7. Referring to the Holy Spirit, it says, "Only He who now restrains will do so until He is taken out of the way." [NKJV]

If you are in Christ today, you will not experience the tribulation. You will either be taken out of the world at the rapture, or you will die before that event. Either way, you will go to be with Jesus. I Thessalonians 4:15-18 describes the evacuation event in some detail. It concludes by saying, "Comfort one another with these words."

Sadly, for many Christians, the thought of being lifted out of the world at the rapture is not comforting, but terrifying. It sounds so big—awesome in the real sense of that word—that they tremble at the thought. We must remember that the rapture happens at the instigation of a loving God. And when it happens, it is to Jesus that we will fly. He will take us out of this troubled world to a radiant wedding between Himself and His bride, the Church.

Song of Solomon 2:10-13 gives a beautiful picture of it. "My beloved spoke, and said to me: 'Rise up, my love, my fair one, And come away. For lo, the winter is past, The rain is over and gone. The flowers appear on the earth; The time of singing has come, And the voice of the turtledove Is heard in our land. The fig tree puts forth her green figs, And the vines with the tender grapes Give a good smell. Rise up, my love, my fair one, And come away!'" [NKJV]

AMERICAN OVERSIGHT

In ultimate love and care, one day soon Christ will say to His Church, “Rise up My love, and come away.”

Daily Jot: Wars and rumors of wars – Bill Wilson – www.dailyjot.com

In Matthew 24, Christ is asked by his disciples what is the sign of his coming and of the end of the world? He replies first by saying, “Take heed that no man deceive you.” Then he goes on to discuss the chronology of events that will lead up to his return. He told them, “And you shall hear of wars and rumors of wars: see that you are not troubled: for all these things must come to pass, the end is not yet. For nation will rise against nation, and kingdom against kingdom: and there shall be famines, and pestilences, and earthquakes, in diverse places. All these are the beginning of sorrows.” Christ’s end time account is consistent with the prophets and the book of Revelation. Many ask if we are in the beginning of sorrows.

Taking a snapshot of the world situation today, there are certainly many aspects of beginning of sorrows in play. We have seen a huge pestilence in the form of COVID 19 that has indeed left in its wake death, suffering, famine, and overall disruption of societies around the world. Each year there are over 1,300 earthquakes worldwide. Earthquakes are a concern for Israel as reported by the Times of Israel with a February 8 announcement of installation of a cutting-edge earthquake sensing and warning system. The Times reported, “Israel is located on the seismically active Syrian-African Rift Valley and being so small, most of its residents are exposed to the risk of earthquake damage.”

Political unrest and disruption is reported on a daily basis. For example, Joe Biden has been warning for weeks now that Russia is about to invade Ukraine. In Canada, peaceful protests against tyrannical COVID restrictions have resulted in violent police attacks on protesters, nationalization and freezing of bank accounts of protesters and their employers among other militant tactics. Many are speculating how the US Government will handle similar protests that are beginning with patriotic truckers in Western states heading for Washington, DC. Europe and North America are embroiled in rumors of wars, political disruption from COVID restrictions, and massive border security issues.

But let us remember that the prophecies of the end times are focused on events in the Middle East. Israel is the timepiece for the signs that Christ and the prophets enumerated. In today’s headlines, Israel is faced with ongoing calls for the terrorist group Hamas to attack civilians. Drones from Lebanon are probing Israeli airspace, which is a sign of the Iran-back terrorist group Hezbollah trying to attack. Iran also poses the threat of attaining nuclear weapons which is becoming more likely as the Biden Administration, like the previous Obama Administration, favors Iran’s position. There seems to be an escalation of worldwide disruption, which impacts Israel in many ways. Many will argue if these are the beginning of sorrows. Do not be deceived. Read the prophets in their context. Discern the events. Do not fear. Seek the truth. Stand for justice.

AMERICAN OVERSIGHT

Daily Devotion: Hearing and Obeying - by Greg Laurie – www.harvest.org

And the seeds that fell on the good soil represent honest, good-hearted people who hear God's word, cling to it, and patiently produce a huge Harvest. —Luke 8:15

https://harvest.org/resources/devotion/hearing-and-obeying/ - Listen

We all know that it's possible to hear something and yet not hear it at all. For instance, a mother might tell her teenage son, "Remember to make your bed and take out the trash and do your homework."

Meanwhile, he hears, "Blah, blah, blah, blah, blah." He's hearing audibly, but he's not really listening.

People can do the same when they listen to a message from God's Word. We need to pay attention. We need to listen to what God's Word has to say.

In the parable of the sower, we see the phrase "hears the word" repeated for every category of person. The problem is they didn't receive it. They didn't hear it in the right way.

Success or failure in the Christian life depends on how you hear the Word of God. If you listen to podcasts or great biblical teaching on the radio, if you're in a small group, then God bless you. But it's important that once you hear God's Word, you obey it.

It's actually a dangerous thing to hear the Word of God and not apply it in your life. The golden key of spiritual growth is hearing, receiving, and obeying the Word of God.

In Luke's version of the parable of the sower, Jesus said, "And the seeds that fell on the good soil represent honest, good-hearted people who hear God's word, cling to it, and patiently produce a huge harvest" (8:15 NLT).

So how do we produce a harvest, or spiritual fruit? Jesus gave the answer in John 15: "He who abides in Me, and I in him, bears much fruit; for without Me you can do nothing" (verse 5 NKJV). Fruit is evidence that you're a true follower of Jesus. To abide in Christ means to walk with Him and cultivate your relationship with Him every day. Are you abiding in Christ?

AMERICAN OVERSIGHT

FROM THE HEART

Let Us Make the Short Time We have Left, Count for ALL of Eternity!

IF YOU HAVE BEEN BLESSED THROUGH THIS MINISTRY, THEN WE ASK THAT YOU WOULD PLEASE REMEMBER PROPHECY UPDATE IN YOUR GIVING - WE ARE TRULY,TRULY,THANKFUL FOR YOUR SUPPORT

WORTHY OF YOUR SUPPORT?

One of the most reliable ways to determine if a ministry is worthy of your financial support is to examine its fruits. If Prophecy Update is keeping you informed, and if that information inspires you, and causes you to draw closer to the Lord, if Prophecy Update equips you with valuable information and knowledge to share with and encourage other believers, and open the eyes of non-believers, and if Prophecy Update keeps you connected to current events relating to Bible Prophecy, then you are partaking of the fruit produced through this ministry. None of this would be possible without the Lords blessings and your support. I believe where the Lord guides, the Lord provides, and most of the time He provides through the willing and generous hearts of believers just like you and me.

Humbly Seek Your Support

Prophecy Update has no corporate sponsors. This ministry is paid for and prayed for by readers and supporters. Without your support, there would be no Prophecy Update, Please pray about becoming a monthly supporter - thanks!

If ever there was a time to invest in God's Kingdom, it's now!

What on earth are you doing for Heaven's Sake?

"Share in the Blessings and Rewards that will last Forever!"

"Folks, it's all beginning to unravel. America is in more danger of falling than at any time in its history. But I believe Bible prophecy predicts this very decline. From this point on, we believers have to get serious. We are going to face discouragement, disillusionment and, most certainly, persecution in the time between now and the Rapture. But don't be discouraged or disillusioned. The coming turmoil will provide us unrivaled opportunities to share the good news of the Gospel. So be ready to share your faith and your hope with those who need Christ. We still have time to reap a great harvest of souls for God's kingdom!" - Hal Lindsey

1) We need your prayers!- We proclaim the Truth of the Word of God and we are under constant spiritual and sometimes even physical attack.
2) We need your encouragement!- We need to hear from you, let us know how the Lord is blessing you through this ministry so that we can share it with others.

AMERICAN OVERSIGHT

3) We need your input! -If you have a prophetic article or story or if there is a news related item we missed, let us know.
4) We need your financial support!- To put it quite simply, without your support, there would be no Prophecy Update.

I ask that you would prayerfully consider partnering with us to get the Word out and keep the world informed. Remember, your gift, no matter how small, does make a difference! You will be helping to touch lives, around the world, 24 hours a day, seven days a week, thanks to the internet your generosity carries a global impact! - Thanks!

Our Prayer for You- "Now he who supplies seed to the sower and bread for food will also supply and increase your store of seed and will enlarge the harvest of your righteousness. You will be made rich in every way so that you can be generous on every occasion, and through us your generosity will result in thanksgiving to God. This service that you perform is not only supplying the needs of God's people but is also overflowing in many expressions of thanks to God. Because of the service by which you have proved yourselves, men will praise God for the obedience that accompanies your confession of the gospel of Christ, and for your generosity in sharing with them and with everyone else." 2 Corinthians 9:10-13

Subject: Fwd: Fwd: Fwd: 2020 Election Audit

I am including Rep Vos because of being the speaker and the one behind this. This "investigation" is not for the good of all Wisconsin people, it is to cater to the minority Trump voters only.

I would still like to get my questions answered that were sent back in October.

Hello,

I would like to know your position on the "investigation " that was ordered by Vos, ran by Gableman and thus far costing taxpayers $676,000 of their money.
I know the statement is to improve the elections. When the prime players involved have been to Arizona and sat in with Mike Lindell and Gableman has even stated election fraud one can only question the actual intent.
In your opinion, did Biden win the election and was there massive election fraud?

I am a resident of Appleton and within your district.
Thank you
Jay Huntley

How Much Worse Will It Get? – Pete Garcia - https://www.rev310.net/post/how-much-worse-will-it-get

As the world guardedly enters into a new year, many, from all corners of society, are wondering just what kind of future lies ahead for everyone in 2022 and beyond. Moreover, prophetically awake Christians, are wondering how much worse things will become as we draw closer to the end. If the general sentiment is anything like the meme that is making its rounds these days, the forecast does not look promising.

Although done somewhat tongue-in-cheek, it makes sense that as the signs of global decomposition are becoming more obvious, even the non-prophecy-watching population is starting to notice that something is terribly amiss. Even the secular news pundits are reporting on the storm clouds building on the horizon and are starting to panic. They, like many in the prophecy-watching community, are beginning to say that the coming tough times are all but unavoidable. For the record, yes, things will get worse before they get better, but worse in ways that most people can't understand...and that confusion is by design. Nevertheless, as things move from bad to worse, two major themes are beginning to emerge amongst the Christian-Eschatological community.

The first narrative says that we (i.e. Western Christendom) are about to enter into a time of great persecution. A time which will include the intensification of persecution against the body of Christ writ large, which will mirror both what Christians outside of Western Civilization are presently going through, as well as what Christians have historically endured over the last two thousand years.

The second narrative being expressed by a growing number is that we are on the verge of a Third Great Awakening. This view is gaining momentum because historically, it has been true. When times of great persecution and tribulation occurred, the Church exploded like a wind-driven wildfire. The proponents of this view believe that out of the tribulation will arise this 'church victorious' where hundreds of millions come to a saving knowledge of Christ.

Let me just say up front that both of these narratives are in fact, wrong. Tough times and targeted persecution are two different things. Furthermore, the hope in a third great revival sounds good in theory, but it does not line up with God's prophetic word.

Here is why.

AMERICAN OVERSIGHT

Modus Operandi (the WHY)

First let me say, while I'm no fan of Satan, I don't want anyone to make the mistake of underestimating him. He is the most powerful and intelligent being ever created. He's had thousands of years to study humanity and most likely has a perfect working knowledge of all aspects of our physical universe. As such, Satan knows and uses three things very well to kill and destroy his enemy:

Asymmetric Warfare-He is clever enough not to go after Christians directly. He learned his lesson after the first two centuries of the early Church that the more he attacked Christianity, the faster it spread. Therefore, he will never allow an obvious frontal assault on the body of Christ to happen again unless he has no other recourse. Thus, he will devote the majority of his time attacking the issues Christians care about most while avoiding attacking Christians directly. The last thing he wants to do is create anything Christians can rally around this close to the end (i.e., the Chick-Fil-A effect).

War of compromise- He will influence the global leaders he controls to increasingly put barriers in between one's faith, and one's ability to live or earn a living. He is heavily invested in the war of compromise, because he knows if he can get churches and believers divided over smaller issues, then it will be much easier to get them to compromise on the big things. In so doing, he can divide up the Christian population, undercut the ethical foundations for Christianity stands for, and then promote this Luciferian agenda all the while avoiding triggering tens of millions of fired-up, Holy Spirit-filled believers.

Whispering campaign- Satan has mastered the art of subtle persuasion and has favored this approach going back to the Garden of Eden. When Jesus said 'he was a liar from the beginning,' He was speaking to Satan's inability to speak the truth because of his blind hatred for it (John 8:44). But let's not mistake his shortcomings as weaknesses that we mere humans can exploit. Satan's goal now is not to outright ban Christianity, but stigmatize it so much that no one wants to talk about it in "good company."

Again, Satan is far too clever to go and paint a bulls-eye on just Christians this close to the end, because he knows what will happen. Let's review Satan's greatest backfires:

- Deceives Eve- introduces sin and death; God promises a deliver through her lineage
- Corrupts the world; God floods it and starts again with his hand-selected family
- Convinces man to build a tower; God separates man so thoroughly it would take four millennia to recover
- Tries to have Moses killed; God uses Moses to deliver the Israelites
- Tries to kill Esther; uses her to save the Jews
- Has the Messiah crucified; Opens up salvation for all mankind

AMERICAN OVERSIGHT

- Tries to crush the early church; causes it to spread globally
- Tries to wipe out the Jews with a Holocaust; Israel becomes a mighty nation again

Despite his flaws, Satan is still smarter and far more powerful than we are in our own strength. He loves to lie and plant seeds of doubt and confusion anywhere he can. He has been very successful in using these subtle tactics to destroy billions over the history of mankind. Interestingly, the fact we are seeing much more aggressive posturing by him here in recent years is telling. It tells us that he realizes he is running out of time, and he (and his forces) are stepping up their campaign of chaos and destruction.

Why you might ask?

Because Jesus is not the only one building His Church.

Satan is building up his church as well. He needs this division between the "wheat and tares" completed as much as possible before the Rapture happens, so when it does, his "Mystery Babylon" will already be in place. Satan knows the Rapture will happen, and he knows it will happen before the seven-year Tribulation. He also knows that he will only have a few years and he's not going to waste a second of it allowing any of those left behind to wonder about the Rapture they just missed out on. He wants a system in place, ready to go, to be able to perpetuate the great delusion that will come upon all those who dwell upon the earth. (2 Thess. 2:8, Rev. 17)

Gray War Strategy (the HOW)

Here is where the spiritual spills over into the geopolitical and cultural realms. Like the color revolutions of the recent past, Satan loves to sow confusion. This is where he thrives. Where do you think people like George Soros and Saul Alinsky learned this from? What we are witnessing now is three wars (in both the physical and spiritual realms) being conducted upon us simultaneously. And while these are all forms of war, they manifest themselves in distinctly unique ways. Taken together, they form the strategy of a Gray War which is waged just below the threshold of open active warfare.

Cold Civil War

a. Where an entity is divided either organically or artificially and pits two ideologically opposed sides against each other

b. Regardless of who wins, the unit as a whole is now much weaker

Cold War Tactics

a. Where two ideologies oppose each other over economic, cultural, religious, and geopolitical differences (ex. free-market capitalism vs. communism)

b. Neither side fights each other directly, but battles through proxies (media, pop culture, legislations, etc.)

c. This conflict relies heavily upon the use of espionage, spycraft, and subterfuge to destabilize the other side (Deep State double-agents embedded in traditional government positions)

AMERICAN OVERSIGHT

d. Relies upon a Fifth Column media acolytes to conduct information and misinformation campaigns

Spiritual Color Revolutions

a. Cold War tactics utilized in the spiritual realm, not against God, but against Christians. Just take the chart below and apply it against the Church

b. Relies heavily upon spiritual subterfuge and deception campaigns to demoralize, sow confusion, divide and conquer churches

c. Use of proxy entities (nations, businesses, leaders, media, etc.) to conduct "hard power" operations (i.e., persecutions and provocations) against the body of Christ

d. Use of proxy entities (nations, businesses, leaders, media, etc.) to conduct "soft power" operations to force or coerce compromise on positions of doctrinal essentials

IMG Source: https://barryclark.info/color-revolutions-explained/

Regarding the upcoming American mid-term elections, Satan (and his human puppets) will be more concerned about controlling the narrative rather than attacking Christians outright. In other words, it is a far more effective tactic for him to continue to discourage and confuse the Church than it is to have them thrown into FEMA camps. He wants the body of Christ confused, divided and demoralized as we move into the final stretch, not rallying around some perceived targeted persecution (i.e., martyr complex).

There are numerous places in Scripture that point to Satan's current authority on this earth. The first is in Luke 4:5-7, where Satan tells Christ (without rebuttal) that the kingdoms of the earth are his to give to whom he chooses. The second is in 1 John 5:19, where John states that the whole world lies under the sway of the devil. Jesus refers to Satan as the "ruler of this world" (John 12:31). Paul refers to him as the "prince of the power of the air" (Eph. 2:2) and the "god of this age" (2 Cor. 4:4). Jude makes a brief comment that even Michael the Archangel dared not bring a "reviling accusation" against Satan, but simply rebuked him in Jesus' name (Jude 1:9).

Still, Satan knows there are still enough institutions and organizations in the West that will fight back against authoritarianism if pressed too hard too fast. He knows westerners still have too many avenues to push back against the rising tyranny in places like the US, Europe, Australia/New Zealand, and even Canada.

The bottom line here is, as bad as things are in places like Australia and California, they are still not as bad, as say, North Korea or Afghanistan. Neither will it get that bad in the few weeks, months, and years we have left before the Rapture. We have the genius of our Founders building in the separation of powers.

The Church of Last Days

Satan's greatest enemy on the earth is the blood-bought, born-again Church. This is why he is using these gray war strategies against us. And if I am

AMERICAN OVERSIGHT

correct, then Scripture should confirm my theory regarding the state of Christendom in the last days.
Jesus Christ addressed seven letters to seven churches in Revelation chapters 2-3. Yes, they were real historical churches in John's day, and yes, the condemnations/commendations are applicable to all churches of all ages (he who hath an ear, let him hear). However, the order in which they were given to us, prophetically outlines the predominant churches of those particular ages. This is why the first letter given is Ephesus and not Laodicea. In particular, is the distinction between the first three churches, and the last four, which have the endings of each flipped which I believe means they will exist concurrent with each other. Tell me if this doesn't sound exactly like where we are today:

- The apostolic church of Ephesus (first-century church)
- The persecuted church of Smyrna (second-third century church)
- The corrupted church of Pergamos (third-sixth century church)

- The global yet corrupted church of Thyatira (6th- present-day Roman Catholicism)
- The spiritually dead church of Sardis (16th century- present-day mainline Protestantism)
- The faithful w/ little strength church of Philadelphia (18th century- present-day Bible-believing fundamentalism)
- The lukewarm and nauseating church of Laodicea (19th century - present-day emergent, Seeker Friendly, Prosperity Gospel, Social Justice Gospel, pseudo-Christian, ecumenical liberal, and progressive churches)

So ultimately (and this is a big picture view here) Christendom will be divided into three major camps (consisting of the last four churches) going into the last days.
Think about it like a spectrum. On the far left, you have the apostate church. In the middle, you have a mix of mainline protestants, Roman Catholics, and evangelicals who (in varying degrees) will be leaning to the left or right of center. Lastly, on the far right, you have the Biblical fundamentalists who adhere to a faithful rendering of God's word.
Western Christendom is no longer pegged to the right or even right of center. The needle is increasingly being pulled to the left, meaning the authority and importance of the Church is increasingly leaving those right of center out in the cold. Just look at our nation today which is largely post-modern, post-American, and post-Christian.

AMERICAN OVERSIGHT

So while persecution is coming, and along with it, a great, global revival, it will not be coming this side of the Rapture. Thus, and to reiterate what I mentioned earlier, whenever Satan attempts to do some major move against God's people, it backfires and further progresses God's divine agenda. No, I think Satan is going to "stay in his lane" this time and continue corrupting and weakening the church as best he can until God divides us permanently at the Rapture.

But some will say, wait a minute. What about all the real persecution going on right now in places all over the world? Places like North Korea, Pakistan, Iran, Nigeria, and so forth?

Well, all I can say is selective persecution against believers (even against the Old Testament saints) is nothing new. Hebrews 11 reviews for us the long history of atrocities conducted against God's chosen. Persecution has been a mainstay in the human condition since Cain killed Abel. As such, persecution itself cannot really be used as a metric to determine how close we are to the end or else Christ would have come back in the 2nd century. I'm not making light of persecution, nor am I minimizing its horrors, I'm simply saying that persecution in and of itself has been one of the most consistent realities Christians have had to endure for all of history.

Bottom line is that the church of the last days will be more Laodicean, than Philadelphian, which is why Christ describes them as having "little strength." What makes the days in which we live unique is the fact the West has spent the last four centuries, and at great cost, fostering liberty and the rule of law to prohibit things like religious persecution.

In order for those Church and Israel to suddenly be put under the knife again in the West something seriously wrong is going to have to happen. Granted, something seriously went wrong in World War II, but the world rallied and defeated the evil Nazi Regime. Satan doesn't need that again. He has been far more effective in corrupting the Church.

In the meantime, Satan is going to ratchet up the coercion and deception campaigns in the form of a 'blanket punishment' against all of Western Civilization. The reason for that is because Western Civ has its moral-ethical foundations largely built upon Judeo-Christian principles. This is why we are seeing the Satanic strategy of targeting norms, values, and truth on things like the family, the schools, sports, historical sites, history itself, free speech, abortion, marriage, medical mandates, peace, safety, gender, and corporate wokeness. While these are all things Christians care about, these are not "exclusively" Christian issues.

Conclusion

In closing, let's just keep a few things in perspective. Yes, the Bible says the world is going to continue to wax worse and worse, and will not get any better until Christ returns at the Second Coming (2 Tim. 3, 2 Peter 3, Matt. 24, etc.). However, in order for Christians in the West to undergo the kind of persecution

AMERICAN OVERSIGHT

many are now predicting, would require our entire system to collapse...and it will...at the Rapture. Nevertheless, things will continue to get tougher economically, politically, and socially before our deliverance.

Right now, we are in the time of the birth pangs, where there is an intentional intensifying period of lawlessness and wickedness. These two will have repercussions in the economic world, which may cause financial hard times and increased periods of deprivation. If you look at the intentional destruction of our current economic structure, they are doing it to pave the way for the coming mark of the beast system. Granted, the powers that be are not calling it that, but we Christians ultimately know that is where it is headed. The same goes for medical mandates. These are not the mark of the beast but serve as a form of conditioning to prepare this generation to accept it when it does come. I'm not trying to make the devil out to be more powerful than he is, but neither am I attempting to minimize his cunning. Furthermore, we can see the purposeful ramping up of wickedness and lawlessness around the world. Where it used to be isolated in this place or that, now this lawlessness has become global in reach and depth. We can see the geopolitical winds shifting and the nations of the world are aligning themselves just as the bible says they would be. The economic problems in the world are both purposeful and are driving everyone to the same destination- a single, digital, global currency. Just as Satan is trying to pre-stage his "Mystery Babylon" religion, he is also pre-staging his economic "Babylon the Great" so that when the right time comes (i.e., the Rapture), he will have it ready to go.

So how much worse will it get? This depends on how close we get to the Tribulation. How close will the Church come to that watery judgment that is coming upon the whole earth? Even now we can see the storm clouds building on the horizon.

How close will the Church come to that fiery hour of testing that is coming upon the earth? Even now, we can see the soldiers loading the furnace and the smoke rising.

Well, if the OT foreshadowing still holds true, and I believe it does, then we will be like Daniel in Daniel chapter three or Enoch in Genesis six. We aren't going to be anywhere near there. This means the fact we are seeing the signs of this coming Tribulation already here, the deliverance of Christ's bride, the Church, will be all the sooner.

Because you have kept My command to persevere, I also will keep you from the hour of trial which shall come upon the whole world, to test those who dwell on the earth. Rev. 3:10

Post-Scriptum: Lord willing, I will be on live with Pastor Tom Hughes on his Youtube channel Monday 4:00PM CST. Hope to see you there!

AMERICAN OVERSIGHT

Israel Begins Campaign Against Iran; 'The Weaker Tehran Is, So Will Its Proxies Be' – TV7 - https://harbingersdaily.com/israel-begins-campaign-against-iran-the-weaker-tehran-is-so-will-its-proxies-be/

The announcement came from Israeli Prime Minister Naftali Bennett during an address at the Institute for National Security Studies (INSS) in Tel Aviv.

"The campaign to weaken Iran has begun," said the Israeli leader, explaining that the operation is being "conducted in all dimensions: nuclear, economy, cyber, over and covert actions, alone and also in cooperation with others."

The actions will also focus on Iranian proxy groups, such as the Lebanon-based Hezbollah and the Hamas rulers of Gaza. While rockets fired at Israel "may be launched from Beirut or Gaza – the origin is Tehran," said Bennett, continuing that, "the weaker Tehran is, so will its proxies be weaker; the hungrier the head of the octopus becomes, its tentacles will shrink – consequently, we will meet at our borders something much weaker."

As an expected consequence of reviving the 2015 Joint Comprehensive Plan of Action (JCPOA) at ongoing talks in Vienna, Bennett warned that "removing sanctions and flooding billions of dollars into the coffers of this (Ayatollah) regime means, my friends, more rockets, more UAVs, more terror cells, more cyberattacks and disinformation campaigns, more of everything. By the way, not only against us – it will also be directed at our American allies in the region and our other partners."

Prime Minister Bennett reiterated that likely concessions by the international community to Iran render a salvaged-JCPOA against Israel's best interests.

"We believe that the Iranians will continue being Iranians. We see it already now, during these negotiations, at a time when the Iranian Foreign Ministry officials sit in Vienna with the global powers– at the same moment the Islamic Revolutionary Guards Corps (IRGC) behaves as a regional bully and attacks the United Arab Emirates and other locations.

"This is the exact definition of 'negotiating under fire' – this is extortion," underscored Bennett, stressing that, "If an agreement is signed and the stream of dollars resumes, we all understand that the Iranian aggression will only intensify in the region."

His government's strategy of countering Tehran "in every way" while undertaking any necessary action to provide security for Israeli citizens is the most effective, asserted Bennett, whether the JCPOA is revived or ultimately short-lived "until the sunset takes effect."

So-called "sunset clauses" refer to the expiration – as early as 2024 – of the "snapback" mechanism to restore international sanctions if Iran violates restrictions on advanced centrifuges imposed by previous United Nations Security Council Resolutions.

While acknowledging that "The United States was and will always remain our best friend," the Israeli leader went on to underscore that Washington's best interests are not always compatible with Jerusalem's.

"We speak about it very genuinely and understand one another," he said, noting that, "The US position in the region is diminishing. Her eyes are naturally focused on the border of Russia and Ukraine currently, and deeply embroiled in a multi-year strategic conflict with China in the long run. This is the reality, there is no point in complaining about it. We must act within those existing circumstances – not in a world of wishes."

Any vacuum in the geo-political arena will immediately filled by another force, said Bennett, adding that this new reality creates challenges but also opportunities for Israel.

"The place of the United States in the region, God forbid, can be filled by forces of terror and hate; however, with the right steps, it can be filled by Israel. The infrastructure of friendship that emerged with our neighbors can constitute a beginning of a multidimensional regional alliance. Together, we will contend better with the challenges that are introduced by radical forces and disrupters of stability in the region," he said.

The Prime Minister went on to unveil a new ground-breaking Israeli military development that will radically shift cost-effectiveness of the country's multi-layered aerial defense array.

"Within a year, the IDF will deploy a laser-based interception system on an experimental and then operational basis, initially in the south followed by additional locations," enabling Israel to be "surrounded by a protective wall of lasers against missiles, rockets, unmanned aerial vehicles (UAVs) and other threats; thus repelling the strongest enemy risks." The initiative will reverse the "economic equation," he said, ultimately minimizing Israel's defense budget while compelling adversaries to invest greater sums.

"If you are able to intercept a missile or rocket with an electric pulse that costs several dollars, we will in fact thwart the 'ring of fire' erected by Iran on our borders" following an initial investment that over the course of several decades demonstrating there is no "pay off" to attack Israel.

"This new generation of Israeli aerial defenses could also serve our friends in the region," Bennett pointed out, who also contend difficult threats posed by Iran and its proxies.

AMERICAN OVERSIGHT

Coming soon: Climate lockdowns? – Kristin Tate - https://thehill.com/opinion/finance/592011-coming-soon-climate-lockdowns
The past two years have been a checklist for the worst impulses of government and public sentiment. COVID allowed for supposedly temporary measures to morph into two years of "emergency" restrictions. But what if COVID was only the opening act, and another proclaimed crisis is the main

AMERICAN OVERSIGHT

event? Implementing significant but partial restrictions, one by one, in the name of the common good can allow for encompassing government control that results in relatively little backlash. Fear over climate change could lead to long-term soft lockdowns, given the precedent of immense growth of government power and significant support for sweeping state actions.

This isn't a right-wing fever dream. Calls for harsh government measures in the name of saving the environment are already in the parlance of influential organizations and figures. In November 2020, the Red Cross proclaimed that climate change is a bigger threat than COVID and should be confronted with "the same urgency." Bill Gates recently demanded dramatic measures to prevent climate change, claiming it will be worse than the pandemic. Despite millions of people having died from COVID, former governor of the Bank of England Mark Carney last year predicted that climate deaths will dwarf those of the pandemic. Lockdowns, which significantly reduced carbon emissions during 2020, could be the solution. After all, the EU's climate service gloated, the first COVID lockdown may have saved 800 lives.

What would climate lockdowns look like? Most likely, cities and states would begin a gradual and discrete ramp-up of restrictions. During the early days of the pandemic, millions of Americans worked from home; this could become the permanent norm if special carbon taxes are put in place. Such taxes could be imposed on companies, limiting driving or air miles, and extend to individual employees. Drive to work in a car? You get hit with the tax. Children could be impacted by climate lockdowns, too. Schools, especially those heavily influenced by teachers' unions, could impose permanent online-only days. Delhi, India is already using a version of this concept to crack down on smog pollution.

At the same time, either through direct government fiat or due to ineffective green energy policies, some areas of the country could regularly experience California-style rolling blackouts. And as fossil fuels (and nuclear power) go by the wayside, consumers may be prevented from buying new gasoline cars, lawnmowers, or chainsaws.

Significant measures are already being planned to combat climate change. California will ban the sale of gasoline cars in 13 years, as will Germany. Britain plans to do the same in just eight. Prohibiting internal combustion engines could save the planet, the argument goes. As each negative weather event is blamed on climate change, government will increasingly use its restrictive tools.

While deaths from natural disasters have fallen by two-thirds over the past five decades, mostly thanks to technological innovations, elites insist that climate change is the "biggest threat modern humans have ever faced." Climate lockdowns and other restrictions will be framed as saving the people of the United States, and the world, from themselves. What goal could be more noble?

AMERICAN OVERSIGHT

Anyone against such measures could be labeled a "climate denier" who stands against progress — or simply a "domestic terrorist." Defectors likely won't have much choice, anyhow. Facial recognition and plate-reading software, coupled with the impressive scope of drones, could lead to severe enforcement. Don't like the restrictions on your gas guzzler? The government could easily track its location and send automatic tickets — or worse. The ability for officials to depend on a significant minority of zealous supporters to enforce measures is invaluable, as well. How many COVID "Karens" justify their fanaticism by contrasting themselves with uneducated, rural Donald Trump supporters?

But don't expect the new rules to apply to everyone equally. During the pandemic, elites don't wear masks in private — only their servers, drivers and cleaners do. You will be held responsible for your personal carbon footprint, enforced by either law or social convention. But climate evangelists such as Jeff Bezos or "climate czar" John Kerry will receive special dispensations for their carbon use.

The pandemic proved to be the precedent of 21st century governance. The initial lockdowns were a desperate attempt to understand more about the virus and shut it down. In hindsight, the overreaction will simply provide a backdrop for the next major government overreach. If COVID could kill millions, imagine the powers the government will assume against a threat that could kill billions. Political leaders have learned that fear prompts the public to accept dramatic curtailing of freedoms for vague promises of safety — they must realize the incredible power at their fingertips. COVID gave the government mouse a cookie, and power-hungry officials and bureaucrats can utilize the precedents of the past two years to institute a much longer, much more comprehensive lockdown.

Do We Really Want "Normal" Back? - By Dave Hubley - https://www.raptureready.com/2022/02/02/do-we-really-want-normal-back-by-dave-hubley/

I hear many of my brothers and sisters, and other people as well, increasingly lamenting the times and wishing we could return to "normal." I think it is safe to assume most are referring to the time before Covid-19. However we may, as individuals, define this life-altering period, it has indeed changed our lives, and – it has changed how we must view the future, in an unprecedented way.

Let's examine that condition, "normal," and see what was ongoing prior to this period.

1) Unborn humans were/are still being slaughtered by the millions.

2) Every depravity against God's firmly established order is being practiced, condoned by the "authorities," celebrated by a growing segment of the population, and forced upon the rest of the world.

3) Lawlessness is now institutionalized, and the system is completely broken even to the highest (Supreme) court of the land.
4) Family structure is under severe and maniacal attack from every direction (Satan is well aware of where his attack must be focused).
5) Little children are being sacrificed as political pawns in order to further the desires or perversions of unstable adults.
6) Drug use is off the charts and is likely the largest money-generating commodity in history.
7) Church attendance is steadily eroding as many "churches" have compromised the Gospel and watered the truth down.
8) Truth has now been twisted, distorted, nullified, and abandoned by the world.
9) Many people are now convinced that they can "identify" as a different gender and/or even a different species (both of which are a biological impossibility) than what they were born as and demand that people support them in it.
10) Many people take no responsibility for their own poor decisions but lay blame elsewhere.
11) The country is being ruled by a party (Democrats) that believes they can remove God as a political declaration and succeed. This is not to say that all Republicans are innocent either, but they have not made it the official party line – yet.
12) Schools are teaching godless, evil depravity to little malleable minds.
13) Man-caused climate change is pounded into the minds of people who just accept it as true because they don't do their own due diligence to discover that they are being deceived.
14) People are starving to death all over the world.
15) Satan worship is openly practiced and encouraged even in schools.
16) Libraries have become bastions of depravity.

I could go on and on as the above list is far from complete. I can remind everyone of the repeated warnings by the Holy Spirit of God in His Word that these things would become normal in these last days. I could point out chapter and verse as well, but anyone who reads the Bible should be familiar with all these admonitions and warnings provided to all people by the Holy Spirit of God out of His love for His creation.

Now to the crux of this article. For those who wish or pray for "normal" to return, I would remind them that it would mean that the list above would continue unabated. Babies would continue to be murdered, and the list would go on and on. Meanwhile, we would be "free" to enjoy football, hiking etc, etc. You get the picture. I enjoy things as well, but I can no longer comfortably do that as God has made me very aware of the cost to others.

I would urge everyone to examine your heart and spirit and ask yourselves, "Is my comfort at the expense of all the victims of this evil really what I want?"

AMERICAN OVERSIGHT

You know where you are going, my brothers and sisters, and you know this time and these events had to arrive; so please, place your priorities in the right place and pray for God's will to be done just as Jesus did on the night of His crucifixion.
While I don't know any (true) Christians who wish harm to anyone, we are not the ones who control the future. That is the sovereign Lord's decision, and it has already been made. He is righteous, and He will execute judgment on a rebellious and unbelieving world. I believe that time is very close at hand.
Finally, God has made it absolutely clear that there is no one who comes before Him under His terms that will be refused.
No one: no race, no color, no country of origin, regardless of your previous belief system: no one.
Salvation is available to everyone.
What are His terms according to His Word?

- Genuine repentance
- Confession of sins
- Belief that Jesus Christ paid their death sentence for them on the cross
- To acknowledge that they are unable to pay that debt
- To believe that Jesus is the Way, the only Way, that God has established by which humans may be saved from the consequences of their sin and rebellion
- To earnestly and honestly repent and ask for forgiveness in Jesus Name

John 5:24 "Very truly I tell you, whoever hears my word and believes him who sent me has eternal life and will not be judged but has crossed over from death to life."

Daily Jot: The Farm Chronicles: The warden and the justice meter - Bill Wilson – www.dailyjot.com

One of the things my dad instilled in me was to stand up for what I think is right. All of us Wilson's have a certain "Justice Meter" within us, set to go off like a Geiger Counter at first detection of an injustice. In Dad's day, this sensitivity would often be settled with fisticuffs. My older brothers, 9 and 14 years older than me, an occasional fight. By the time I came along, we had become more civilized in how we conducted our differences, or perhaps more subtle about them. Nevertheless, an unjust rule was no rule and an unjust act must not be left unchallenged. This conflicted with another rule of our household: That if you got in

AMERICAN OVERSIGHT

trouble at school, you got the same at home first, then the truth would be sorted out.

Along about my freshman year, there was a new vice principal hired at our high school. His name was Mr. Ward. He was tall and slender, his head seemed disproportionately large for his neck and shoulders. He wore those dark horn-rimmed glasses, kind of a '50s look, and he never smiled. He was always lurking in the halls during class changes with his arms crossed like a Nazi prison camp officer. Never friendly. Always on the look-out for a violation of some sort to hit some unsuspecting student with a detention or, worse yet, a trip to the "office" for a paddling. Now the principal, Mr. Peterson, was a good man, cheerful, disciplined, but fair. How he got stuck with the "Warden" as we called him, who knows?

One particular day, a cheerful sunny day, we were changing classes. I was walking toward my class and a friend, Greg, was walking in the opposite direction toward his class. We hadn't seen each other for a while and I said, "How you doing, Greg?" "Great, Bill, good to see you." And we high-fived as we passed. Well, Mr. Ward went into action. He grabbed me and took me down to the office. He claimed that I had thrown Greg against a locker and began punching him. And against my ardent protest, he paddled me for it. I knew what was going to happen when I got home, so I told Dad about it right away. I was so angry that I insisted Dad call Mr. Peterson to set up a meeting. Dad held off on paddling me, pending the outcome. Here we are the next day in Mr. Peterson's office—Dad, me, Peterson, Ward and Greg.

I went into full lawyer mode. Mr. Ward recounted his false version of the story. Greg confirmed my version. Mr. Peterson judged that Ward was wrong and apologized for what happened. I wouldn't let it sit. Despite Dad wanting me to leave well enough alone, I would not. I said that a man who would lie just for the sake of lying (and I pointed at Ward) lacked the character to deal with kids, and I demanded he be fired. Mr. Ward was not fired that day, but he was gone not long after. The incident lends itself to Proverbs 19:9, "A false witness shall not be unpunished, and he that speaks lies shall perish." Word is that Mr. Ward was later convicted of selling drugs to kids at another school. Mr. Ward, the warden wannabe, became subject to a real warden. Lesson: Don't mess with the justice meter. It never lies.

Daily Devotion: Willing to Serve - by Greg Laurie – www.harvest.org

If you are faithful in little things, you will be faithful in large ones. But if you are dishonest in little things, you won't be honest with greater responsibilities —Luke 16:10

https://harvest.org/resources/devotion/willing-to-serve/ - Listen

AMERICAN OVERSIGHT

When I was a brand-new Christian, I went to Pastor Chuck Smith at Calvary Chapel Costa Mesa and said, “I want to serve the Lord. I’ll do whatever you guys want me to do.”

I was 17 years old at the time, and they gave me different tasks like sweeping leaves and cleaning toilets. I did it all. Then one day they gave me a special mission. They said, “We need a new doorknob for the church office door.”

Now, I’ve never been a mechanical guy. But I went to the local hardware store, looked at all kinds of doorknobs in different sizes, and literally prayed, “God, help me find the right doorknob.” I chose one, and it turned out to be the wrong size.

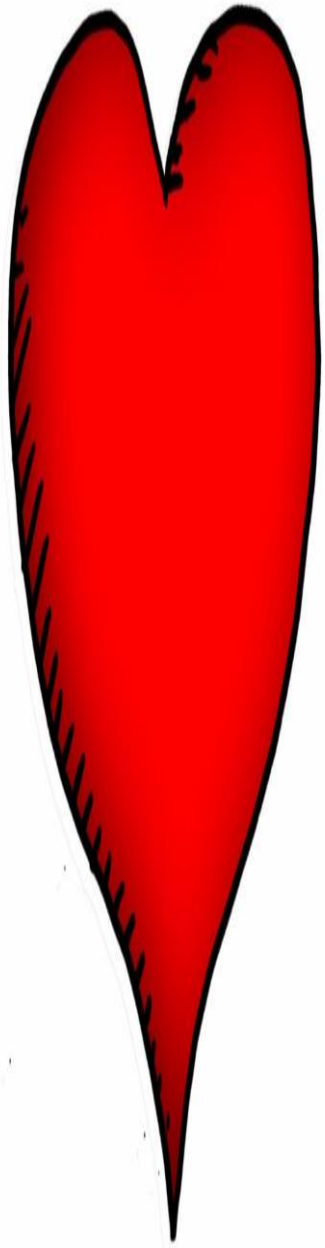
Later I thought, “Well, maybe God wants me to be on a worship team.” So I joined a worship group and did percussion. I played the conga drum and couldn’t really keep rhythm very well. As a result, I discovered that wasn’t what I was called to do. In fact, one way to find out what God is calling you to do is by discovering what He has not called you to do.

So when someone tells me they want God to use them, I suggest that they volunteer at their church. They might even say to their pastor, “I want to be used by God, and I’ll do whatever you need me to do.”

They might end up doing some janitorial work or setting up chairs or doing some type of menial task. But that’s probably because the pastor wants to see if they’ll be faithful in the little things.

“Work willingly at whatever you do,” the Bible says, “as though you were working for the Lord rather than for people” (Colossians 3:23 NLT). Be faithful in the little things.

AMERICAN OVERSIGHT



AMERICAN OVERSIGHT

FROM THE HEART

Let Us Make the Short Time We have Left, Count for ALL of Eternity!

IF YOU HAVE BEEN BLESSED THROUGH THIS MINISTRY, THEN WE ASK THAT YOU WOULD PLEASE REMEMBER PROPHECY UPDATE IN YOUR GIVING - WE ARE TRULY,TRULY,THANKFUL FOR YOUR SUPPORT

WORTHY OF YOUR SUPPORT?

One of the most reliable ways to determine if a ministry is worthy of your financial support is to examine its fruits. If Prophecy Update is keeping you informed, and if that information inspires you, and causes you to draw closer to the Lord, if Prophecy Update equips you with valuable information and knowledge to share with and encourage other believers, and open the eyes of non-believers, and if Prophecy Update keeps you connected to current events relating to Bible Prophecy, then you are partaking of the fruit produced through this ministry. None of this would be possible without the Lords blessings and your support. I believe where the Lord guides, the Lord provides, and most of the time He provides through the willing and generous hearts of believers just like you and me.

Humbly Seek Your Support

Prophecy Update has no corporate sponsors. This ministry is paid for and prayed for by readers and supporters. Without your support, there would be no Prophecy Update, Please pray about becoming a monthly supporter - thanks!

If ever there was a time to invest in God's Kingdom, it's now!

What on earth are you doing for Heaven's Sake?

"Share in the Blessings and Rewards that will last Forever!"

"Folks, it's all beginning to unravel. America is in more danger of falling than at any time in its history. But I believe Bible prophecy predicts this very decline. From this point on, we believers have to get serious. We are going to face discouragement, disillusionment and, most certainly, persecution in the time between now and the Rapture. But don't be discouraged or disillusioned. The coming turmoil will provide us unrivaled opportunities to share the good news of the Gospel. So be ready to share your faith and your hope with those who need Christ. We still have time to reap a great harvest of souls for God's kingdom!" - Hal Lindsey

1) We need your prayers!- We proclaim the Truth of the Word of God and we are under constant spiritual and sometimes even physical attack.
2) We need your encouragement!- We need to hear from you, let us know how the Lord is blessing you through this ministry so that we can share it with others.
3) We need your input! -If you have a prophetic article or story or if there is a news related item we missed, let us know.

AMERICAN OVERSIGHT

4) We need your financial support!- To put it quite simply, without your support, there would be no Prophecy Update.

I ask that you would prayerfully consider partnering with us to get the Word out and keep the world informed. Remember, your gift, no matter how small, does make a difference! You will be helping to touch lives, around the world, 24 hours a day, seven days a week, thanks to the internet your generosity carries a global impact! - Thanks!

Our Prayer for You- "Now he who supplies seed to the sower and bread for food will also supply and increase your store of seed and will enlarge the harvest of your righteousness. You will be made rich in every way so that you can be generous on every occasion, and through us your generosity will result in thanksgiving to God. This service that you perform is not only supplying the needs of God's people but is also overflowing in many expressions of thanks to God. Because of the service by which you have proved yourselves, men will praise God for the obedience that accompanies your confession of the gospel of Christ, and for your generosity in sharing with them and with everyone else." 2 Corinthians 9:10-13

Rise of the Beast Power of Revelation - by Pastor Mike Taylor - https://pastormiketaylor.blogspot.com/2022/02/rise-of-beast-power-of-revelation.html

AMERICAN OVERSIGHT

43, “And whereas thou sawest iron mixed with miry clay, they shall mingle themselves with the seed of men: but they shall not cleave one to another, even as iron is not mixed with clay.
44, And in the days of these kings shall the God of heaven set up a kingdom, which shall never be destroyed: and the kingdom shall not be left to other people, but it shall break in pieces and consume all these kingdoms, and it shall stand for ever. “ (Daniel 2:43-44)
11,“And from the time that the daily sacrifice shall be taken away, and the abomination that maketh desolate set up, there shall be a thousand two hundred and ninety days.
12, Blessed is he that waiteth, and cometh to the thousand three hundred and five and thirty days.
13, But go thou thy way till the end be: for thou shalt rest, and stand in thy lot at the end of the days. “ (Daniel 12:11-13)
5,“And upon her forehead was a name written, MYSTERY, BABYLON THE GREAT, THE MOTHER OF HARLOTS AND ABOMINATIONS OF THE EARTH.
6, And I saw the woman drunken with the blood of the saints, and with the blood of the martyrs of Jesus: and when I saw her, I wondered with great admiration.
7, And the angel said unto me, Wherefore didst thou marvel? I will tell thee the mystery of the woman, and of the beast that carrieth her, which hath the seven heads and ten horns.
8, The beast that thou sawest was, and is not; and shall ascend out of the bottomless pit, and go into perdition: and they that dwell on the earth shall wonder, whose names were not written in the book of life from the foundation of the world, when they behold the beast that was, and is not, and yet is.” (Revelation 17:5-8)
As we studied the end of Daniel's book in chapter 10-12 in our last message, we explored the possible rise again of the “Holy” Roman Empire after it's defeat in 1798 and the Pope was imprisoned coinciding with the Catholic Church's influence over the whole earth dwindled and she changed her leopard spots and instead of a wolf, began to project the image of being harmless as a lamb. But times are changing in these final days of man's rule upon the earth and I believe the connection between Daniel and Revelation points to a resurgence of the political power wielded by Rome during the Dark Ages.

DANIEL'S INTERPRETION REVISITED

In Daniel chapter 2, Daniel is given the interpretation of King Nebachadnezzer's dream of a golden idol and the true God in heaven reveals the kingdoms that will arise after Babylon is replaced as the world power. Then at the end of the book, Gabriel the ark angel reveals the future of these kingdoms, their rise and their fall. Daniel was astonished and said:

AMERICAN OVERSIGHT

“ And I heard, but I understood not: then said I, O my Lord, what shall be the end of these things? “ (Daniel 12:8).
It was not for Daniel to know, as the future was forward some 500+ years before part of the vision was fulfilled, but another 2000 years to come to our time...our time of the end, when the prophecy is set to be completed.
The two books of prophecy in Daniel and Revelation have given many scholars trouble understanding and the average Joe on the street steers clear of prophecy to his detriment, as “ the testimony of Jesus is the spirit of the prophecy.” (Revelation 19:10b)
Let us now examine certain aspects of Daniel and the book of Revelation to show how they are forever connected with one another, as they speak of the same events in different ways.
In Daniel 2:43, the Word of God says that the seed of men will mingle:
“And just as you saw the iron mixed with baked clay, so the people will be a mixture and will not remain united, any more than iron mixes with clay.”
The great obscurity of this verse is partially cleared by a reference to Jeremiah 31:27-28:
27 Behold, the days come, saith the Lord, that I will sow the house of Israel and the house of Judah with the seed of man, and with the seed of beast.
28 And it shall come to pass, that like as I have watched over them, to pluck up, and to break down, and to throw down, and
44 “And in the days of these kings shall the God of heaven set up a kingdom, which shall never be destroyed: and the kingdom shall not be left to other people, but it shall break in pieces and consume all these kingdoms, and it shall stand for ever.”(Daniel 2:44)
Man will form his plans for uniting the discordant parts of this empire, by, in the past,encouraging marriages between the royal families that rule the various component kingdoms. The allusion in this verse is to matrimonial alliances contracted between the Ptolemies and the Seleucidae :
6 “And in the end of years they shall join themselves together; for the king's daughter of the south shall come to the king of the north to make an agreement: but she shall not retain the power of the arm; neither shall he stand, nor his arm: but she shall be given up, and they that brought her, and he that begat her, and he that strengthened her in these times.”
17 “He shall also set his face to enter with the strength of his whole kingdom, and upright ones with him; thus shall he do: and he shall give him the daughter of women, corrupting her: but she shall not stand on his side, neither be for him”. (Daniel 11:6; Daniel 11:17),
This did not, however, succeed in producing permanent harmony or union between them. Each kingdom fell until the Roman Empire became the strongest, “like iron that breaks” until they imploded from within and the kingdom was given over to Papal rule instead of pagan rule, which is a contradiction in terms, as both were just the flip side of the same coin. We

AMERICAN OVERSIGHT

discussed this in our last message, but let us move on when the truth is revealed in Revelation when is was obscure in Daniel's time.

REVELATION, REVEALING PROPHECY IN JESUS CHRIST

The testimony of Christ, a testimony of the most solemn character, is to be borne to the world. All through the book of Revelation there are the most precious, elevating promises, and there are also warnings of the most fearfully solemn import. Will not those who profess to have a knowledge of the truth read the testimony given to John by Christ? Here there is no guesswork, no scientific deception. Here are the truths that concern our present and future welfare.

“The Revelation of Jesus Christ, which God gave unto him, to show unto his servants things which must shortly come to pass; and he sent and signified it by his angel unto his servant John:
2 Who bare record of the word of God, and of the testimony of Jesus Christ, and of all things that he saw.
3 Blessed is he that readeth, and they that hear the words of this prophecy, and keep those things which are written therein: for the time is at hand.” (Revelation 1:1-3)

Beginning with chapter 1 of Revelation with the description of the One who stood among the seven golden candle sticks, with seven stars in His hand that represented the seven Asian Churches at the time, and the future which represents the time period of the Christian Church until the return of Christ. Thus there are three applications that can be made.

-The first is the literal letter to the literal Church
-the second is the application showing the time period of the Christian Church until the return of Christ,
-and lastly certain aspects we find in these messages apply to the condition of our own Christian experience.

This is a vision that was given to John by Jesus Christ Himself, as He spoke to John as the sound of a trumpet. Each successive period of church history shows that down through the ages, the church of Jesus Christ has had 7 periods in church history that Jesus reveals to John with the last being the church of the end times, the Laodecian Church of luke warm believers that have fallen into apostasy.

COME UP HITHER

The book of Revelation makes a defined shift after chapter 3 leading into chapter 4, as John is called by the sound of trumpet calling:

“After this I looked, and, behold, a door was opened in heaven: and the first voice which I heard was as it were of a trumpet talking with me; which said, Come up hither, and I will show you things which must be hereafter.
2 And immediately I was in the spirit: and, behold, a throne was set in heaven, and one sat on the throne.

AMERICAN OVERSIGHT

3 And he that sat was to look upon like a jasper and a sardine stone: and there was a rainbow round about the throne, in sight like unto an emerald." (Revelation 4:1-3)

This is a different vision given to John and they run concurrently, as God reveals the opening of the 7 seals of judgment upon the earth. Notice one of the first thing John sees after the description of "One who sat upon the throne" is 24 elders sitting on their respective thrones. Many people have tried to imply and to interpret who these elders are. First let us look at their descriptions:

"And round about the throne were four and twenty seats: and upon the seats I saw four and twenty elders sitting, clothed in white raiment; and they had on their heads crowns of gold." (Revelation 4:4)

Note that they are clothed in white raiment which stands for righteousness which is defined in chp. 19 of Revelation in describing the bride of Christ, and the armies who come back with Jesus to reign and rule. So they are clothed with the righteousness of Christ and a crown of victory. They have been in warfare with sin and overcome. (sin is only upon this earth) They are seen in heaven before the sequence of the seals begins and have been redeemed from among men. They have crowns of gold on their heads, which represents rewards for service. This is none other than the crown of life or crown of righteousness that the Lord gives to those that have endured temptation and have fought the good fight of faith, finishing their course and have overcome. Since they can't be angels, as angels are in service to those of the redeemed, the Church, then the vision shows redeemed mortal men saved by the blood of the Lamb. They have received rewards, they are seated, as they have received victory over their struggles with evil. The rewards of service to God Almighty comes only in one time period…the Bema Judgment Seat of Christ (1st. Corinthians 3:10-15) to receive rewards for things done for Christ in this life. They are a multiple of the number 12, as the number 12 is the divine sign of government. The only explanation is that this is the Church, redeemed from the earth and taken to heaven just before the wrath of God is poured out upon the earth.

Remember what Jesus said in chapter 3 of this book:

"Because thou hast kept the word of my patience, I also will keep thee from the hour of temptation, which shall come upon all the world, to try them that dwell upon the earth." (Revelation 3:10)

The original Greek tells us that Jesus is saying as we will be taken out of this time period, not through as some erroneously believe.

Beginning in chapter 6 of this Revelation, it is reveals the plagues that come upon the earth, starting with the four horseman of the Apocalypse.

As Daniel saw in vision the rise of a great beast out of the sea and described in terrible ferocity, so too does Revelation speak of this beast that comes, but first God describes him as a rider on a white horse, with a bow in his hands.

AMERICAN OVERSIGHT

Revelation 6:2 “And I saw, and behold a white horse: and he that sat on him had a bow; and a crown was given unto him: and he went forth conquering, and to conquer.” (Revelation 6:2)
The man has a bow, but no arrows. He rides a white horse, which is a false sign of purity and righteousness. He goes to conquer, but with words of flattery, words of deceit, and political power given to him by other nations as their supreme leader. He has a crown, but unlike the King of kings, his crown is a crown of conquest and victory, much like the victor's crown of leaves given to Roman athletes in the Colosseum.
We are reintroduced to this man in chapter 17 noted in the opening verses of this message:
6, “And I saw the woman drunken with the blood of the saints, and with the blood of the martyrs of Jesus: and when I saw her, I wondered with great admiration.
7, And the angel said unto me, Wherefore didst thou marvel? I will tell thee the mystery of the woman, and of the beast that carrieth her, which hath the seven heads and ten horns.
8, The beast that thou sawest was, and is not; and shall ascend out of the bottomless pit, and go into perdition: and they that dwell on the earth shall wonder, whose names were not written in the book of life from the foundation of the world, when they behold the beast that was, and is not, and yet is.” (Revelation 17:5-8)
I've spoken of this in past messages, that the woman is a harlot. In scripture, the sign of a harlot woman is a sign of a religious organization that has prostituted itself to false gods, and doctrines of demons and devils. Greek porne - Meaning “prostitute,” “harlot.” Porne probably goes back to a word meaning “to sell” or “to export for sale” such things as slaves. In Greece, prostitutes were usually purchased slaves. The Old Testament prophets often compare apostate Israel, which repeatedly went “a whoring” after heathen gods, (Ezekiel 23:30; Isaiah 23:17; Ezekiel 16:15) with an adulterous woman. Concerning mystical Babylon as a harlot (Revelation 19:2) For Old Testament passages whose thought or wording is similar to that of chapter 17, see Isaiah 47:1; Jeremiah 25:12; 50:1; Ezekiel 26:13.
She has slain millions upon millions of the innocent down through the ages and is drunk with their blood.
She has a sign of her habitation of sitteth upon many waters. Exercising power over many “peoples” and “nations.” (see verse 15) The form of the verb in Greek presents the “great whore” as in power at the time and as continuing to exercise power. As the ancient city of Babylon was situated upon the literal waters of the Euphrates (see Jeremiah 50:12, 38) and dwelt figuratively “upon many waters” or peoples, (Jeremiah 51:12-13; cf. Isaiah 8:7-8; 14:6; Jeremiah 50:23) so modern Babylon is represented as sitting upon or oppressing the peoples of earth. (Revelation 16:12) This whore in but a metamorphosis of

AMERICAN OVERSIGHT

ancient Babylon who received power from the imploding Roman Empire and instead of Caesar became the leader of a pagan religion. But look again at the end of verse 8 of the above passage in chapter 17: “the beast that was, and is not, and yet is.”

Who have we revealed as the persecutor and tormentor of millions of non-compliant Christians and Jews throughout the Dark Ages? Who has robes of scarlet and purple, pearls and costly jewels? Who was defeated in 1798 by France and “that was, and is not, yet is”?

There is only one institution that fulfills every aspect of this description that seeks a return of her former glory and sadly, my Catholic friends, it is the Roman Catholic Church hierarchy headed by the Pope of Rome. I take no pleasure in warning of this “religion”, but even as much as I would warn of Islam and it's “religion”, because people follow a creation, and institution, a man-made parallel to worshiping God in vain and both, if a person is not careful, will lead those people to hell. Both proclaim a different way to God instead of the true way through Jesus Christ. This present “Pope” has clearly stated that there are alternative ways to heaven. “Just be good” is what he says giving a pass to atheist, Muslims, and any other aberration to the Truth of God's Word. Thus the head of this “religion” denies that Jesus is the Only Way back to God the Father.

Jesus calls this institution, “a beast” which represents kingdoms or political powers. (Daniel 7:3-7, 17; 8:3, 5, 20-21; cf. Revelation 12:3; 13:1) The color of this beast no doubt representing a sinful kingdom, not just sinful but one that thought to change the law of God.

25 “And he shall speak great words against the most High, and shall wear out the saints of the most High, and think to change times and laws: and they shall be given into his hand until a time and times and the dividing of time.” (Daniel 7:25)

The names of blasphemy with which it is covered indicate that it stands in opposition to God. Accordingly, the beast itself may be identified as Satan working through those political agencies in all ages that have submitted to her control.

In certain respects this beast resembles the great red dragon of Revelation 12:3, and in others the leopard like beast of Revelation 13:1-2 . The context makes the latter relationship appear to be closer. The chief difference between the beast of chapter 13 and that of chapter 17 is that in the former, which is identified with the papacy, no distinction is made between the religious and the political aspects of Papal power, whereas in the latter the two are distinct. The beast representing political power and the woman a religious power.

ONE WORLD GOVERNMENT AND ONE WORLD RELIGION

I have covered this before, but for this message, I will briefly touch on it again. The United Nations coupled with the USA and the rest of the world are pushing for a complete and total control of every aspect of human life and endeavor by

AMERICAN OVERSIGHT

the year 2030. Agenda 21 introduced in the 1990's has morphed into 'SUBSTAINABLE DEVELOPMENT" and their aim is a one world government. Stage right, the pope in Rome advocating the implementation of this nefarious scheme for complete control of planet earth. And it is reported that he has commanded that this be taught in every parish that he controls through his priest. Some will scoff, but coupled with the foolish notion of "climate change" the earth dwellers are being primed for tyranny and a one world government. What better way to unite the world, than to unite them in the same religious authority. "Which was, and is not, but is" and will rise again. She has inherited and proclaimed the abominations of ancient Babylon:

Seduction. By seducing the kings of the earth into illicit union with her, in order to further her own sinister designs.

Oppressive despotism. By sitting upon "many waters" and oppressing the people of earth. '

Contributing to human delinquency. By making the people of earth except for the saints, drunk with the wine of her political policy thus causing them to become her accomplices in her evil plot. By her fornication, she "did corrupt the earth" (Revelation 19:2)

Drunkeness. By being "drunken with the blood of the saints, who had offended her by refusing to drink of her evil potion of error or to submit to her ambition to rule the earth.

Murder and attempted murder. By plotting the murder of God's people, the "woman" of chapter 12. This political/religious organization has been anti-semitic from her inception and has attempted to destroy the Jewish nation, even through Nazi Germany of which she was in bed with.

Note in the verses, that she rides the beast and controls him though from the beast perspective, reluctantly. She guides its policy. The beast representing political power and the "harlot woman" the spiritual power of the last days found in the Tribulation and the Great Tribulation. But who controls this beast of Revelation...the Catholic church is but a tool of the supreme deceiver who will arise out of the bottomless pit.

When the beast exists again as "the eighth," "they that dwell on the earth shall wonder whose names were not written in the book of life from the foundation of the world when they behold the beast." Remember the analogy of the sixth pope stepping down to take the helm of the European Union and then taking it up again from the seventh who will become the false prophet, until the beast "will burn her with fire and eat her flesh". (For a refresher course, if you have not read part 1. then see my blog and read how the 8th pope comes into existence.) To review the message, go here:
http://blogger.com/2021/11/two-popes-in-rome-7and-8anti-christ-and.html
(copy and paste)

A very similar statement is made in Revelation 13 beast of that chapter when its deadly wound is healed:

AMERICAN OVERSIGHT

“All the world wondered after the beast … And all that dwell upon the earth shall worship him, whose names are not written in the book of life of the Lamb slain from the foundation of the world.”
If chapter 13 refers to the same event as Revelation 17:8, it means the statement “his deadly wound was healed” (Revelation 13:3) is equivalent to the expression “shall ascend out of the bottomless pit.” (Revelation 17:8; Revelation 20:3, 7) In a similar way the words “did live” (Revelation 13:14) would be equivalent to the expressions “yet is” and “he is the eighth.” (Revelation 17:8, 11) The wounding of the head, (Revelation 13:3) the going “into captivity” and “the wound by a sword” (Revelation 13:10, 14) would have their counterpart in the implied descent of the “beast” into the “bottomless pit.” (Revelation 17:8) And “death” (Revelation 13:3) would be equivalent to the “bottomless pit” phase of the experience of the beast. The similarities noted here tend to identify the seventh head of the beast as the Papal head. If there be any doubt, then I invite you to take these scriptures passages and read them for yourself and then decide who the description fits and who is pandering to the whole religious world telling them to “Come home to the mother church” .
My reader, the book of Daniel was a prophecy of what was to come upon the earth, but history has proven it to be correct. Daniel was not given the details of how this would come to pass, so it was hidden from view until the events actually happened.
Revelation in comparison is written to “reveal” what Daniel wrote when that prophecy was given to him by the angel Gabriel from our ABBA Father God in heaven. Jesus came to flesh out the events and they are not obscure if you study them closely and compare them to other prophets in your bible...History is fast becoming completed in our modern times and all we wait for it the signs that point to the coming of a one world government and the installing of it's one world religion...already, the world is promoting a cashless society in different parts of the world into digital cash to monitor every transaction on earth. For one reason, and one reason only is control of the masses of the earth. That is what the coming Anti-Christ will demand, utter and complete control.
I'm a firm proponent that the church, the true Church of Jesus Christ, washed in His precious blood which is not an institution, a building, (but members of His own body as individuals one at a time upon receiving grace and mercy through faith in the atonement paid for on Calvary's cross), will never see the actual in the flesh Anti-Christ, but if we see the stage being set for his revealing, how much closer is the Lord Jesus coming for His people, the Bride of Christ? That much closer every day. The signs are all around us, from the Middle East, to Israel, to the USA, Russia, China,to the United Nations, and yes, even to this pope.
I pray for family members who have been seduced into this false religion who have come full circle from a Christian home, into atheism, then the occult,

AMERICAN OVERSIGHT

Wiccan, and finally becoming an agnostic only to succumb to the Satanic lie disguised as the "rock that Jesus would build His Church on"...that Rock is Christ, not some religious organization headed by a "vicar of Christ", but try telling that to a convinced and converted Catholic. (the strongest kind that are blindly convinced of their piety by being members of this cult). If you have come out of this harlot church, then praise God for His mercy. If you see yourself in any of this, or still being influenced by the idolatrous doctrines spewed by your priest, your bishop, or even this pope or any pope, then I pray you will look behind the curtain that hides their abominations by looking at their history and their hypocrisy...I pray for my family members daily that their lives are sold out to the real Jesus, not the Catholic Jesus who they insult with their false doctrines and blasphemy.

Remember my friend, the Catholic church is not the way of salvation....Jesus is the ONLY way:

"I am the Way, the Truth, and the Life. No man cometh to the Father, but by Me.." (John 14:6)

"For God so loved the world, that He gave His only Begotten Son, that whosoever believeth in Him, should not perish, but have everlasting life." (John 3:16)

This is Pastor Mike Taylor, praying you escape the apostasy that will fill the earth in the coming Tribulation. If you need counseling, prayer, or just a listening ear, email me at pastormiketaylor@yahoo.com , or visit me online at www.pastormiketaylor.blogspot.com . God bless all. TILL WE MEET AT JESUS FEET

Answers To 6 Big Questions About Putin's Nuclear Threats – Fred Lucas -

https://www.prophecynewswatch.com/article.cfm?recent_news_id=5239

After launching an invasion of Ukraine, Russian President Vladimir Putin sparked even more global concerns by putting his nuclear forces on high alert. The Daily Signal asked Patty-Jane Geller, policy analyst for nuclear deterrence and missile defense in The Heritage Foundation's Center for National Defense, what to make of Putin's provocative rhetoric.

Geller, who has written extensively on Russia's nuclear capabilities, previously worked on the staff of the Senate Armed Services Committee.

Here are Geller's answers to six questions from Fred Lucas of The Daily Signal, The Heritage Foundation's multimedia news organization.

1. Putin put Russia's nuclear forces on high alert during the invasion of Ukraine. What is the likelihood he would use nuclear weapons, and on who and what?

AMERICAN OVERSIGHT

The simplest answer to this question is that while the likelihood is not high, it is not zero either. The threat must be taken seriously. Unlike in the U.S., where Americans generally believe nuclear weapons should never be used, Russia incorporates nuclear weapons into its warfighting doctrine.

It has over 2,000 low-yield, nonstrategic--aka battlefield--nuclear weapons that Russia might use in a conventional conflict in Europe to compel the enemy to back down. Putin had been using nuclear saber-rattling during the buildup to his invasion of Ukraine, threatening nuclear war and conducting nuclear exercises.

If Russia continues to fail in its conventional military efforts to take hold of Ukrainian cities and topple the Ukrainian government, Putin might see the explosion of a nuclear weapon in Ukraine or at sea as his best way to compel Ukrainians to surrender--or prevent additional outside intervention. But Putin should know that using nuclear weapons would break the 75-year taboo the world has established against using such weapons.

Doing so would certainly cause Putin and Russia more harm than hurt. A nuclear attack on Ukraine, beyond the potential damage to the Ukrainian countryside and people, would only immensely strengthen the international response, deeply undermining Russia's efforts at subjugating its neighbor.

Less likely is a nuclear attack on a NATO state or the U.S., because Putin knows well that he can expect a prompt nuclear response on Russian soil. But the important message here is that in the fog of war--especially against an aggressive autocrat--the United States and its allies should be prepared for anything.

2. A nuclear attack by Russia on the United States seems extremely unlikely. But what should be the U.S. response, and that of NATO, if Russia hits Ukraine with a nuclear weapon?

A nuclear attack on Ukraine would be unnecessary, unjustified, and absolutely criminal. Putin started this war of choice in the absence of a real threat to Russian security--despite Russian disinformation. Failure on the battlefield of an illegal and immoral conflict would hardly be a reason to resort to the world's most dangerous weapons.

Ukraine is not a NATO member, and therefore the United States does not extend its nuclear umbrella over Ukraine. Nor are the United States and NATO currently involved in the conflict militarily, so they have no obligation to respond using military force.

That said, the United States, with its NATO allies, would need to coordinate a strong response that addresses the horror of Putin's nuclear attack on Ukraine, and deters further aggression.

3. Just out of curiosity, how much of the United States could be reached by a Russian nuclear attack?

AMERICAN OVERSIGHT

All of it. Russia deploys at least 1,500 warheads on hundreds of missiles based from air, land, and sea platforms that can strike the entire U.S. homeland.

Russia also is developing brand new "novel" capabilities that can strike the U.S., like hypersonic missiles and a nuclear-powered cruise missile and torpedo. Fortunately, the United States also maintains a nuclear triad that can strike all of Russia, providing a strong deterrent to a Russian attack.

The difference is that while Russia has modernized its nuclear forces about 90% of the way through, the U.S. still relies on platforms built during the Cold War. For instance, the U.S. is still squeezing life out of the Minuteman III intercontinental ballistic missile that was designed in 1960.

Programs to replace these outdated capabilities with modern systems are just getting underway, and each year must overcome opposition from far-left members of Congress.

4. Does the United States have an adequate missile defense system in place under the worst-case scenario to defend itself or to defend allies from a Russian nuclear attack? Do Eastern European allies have adequate missile defense systems?

Many Americans find it hard to believe that we have no way to defend against a major Russian nuclear attack. The U.S. missile defense system is designed to defend against limited nuclear attacks from rogue states such asNorth Korea. We have 44 homeland interceptors that could not defend against Russia's hundreds of nuclear missiles.

Instead, it has been U.S. policy to rely on nuclear deterrence to address the Russian nuclear threat to the homeland. This policy has been a subject of debate for decades, with critics arguing that building up our missile defense will compel Russia to build more offensive weapons, even though history shows multiple examples of that not happening.

In Europe, the U.S. deploys an Aegis Ashore missile defense system in Romania and is building one in Poland, but those are directed at the Iranian missile threat. Russia's missile arsenal can overwhelm those systems.

Moscow also alleges that the U.S. can launch offensive missiles from those defense systems at Russia, but that is also not true--the systems are purely defensive.

5. By most counts, Russia has several hundred more nuclear warheads than the United States. How relevant is this? Or would such a conflict bring such annihilation that it almost wouldn't matter?

The disparity you see is explained by what we call Russia's "nonstrategic" nuclear weapons, which I spoke of earlier. When it comes to strategic nuclear forces, like ICBMs able to reach each other's homelands, the U.S. and Russia have rough parity from the New START arms control treaty. But New START excludes this entire category of nonstrategic weapons. As mentioned, Russia

AMERICAN OVERSIGHT

has at least 2,000 of these weapons, and is even predicted to double this number by the end of the decade.

Meanwhile, the U.S. has only about 200 nonstrategic weapons--with only 100 forward-deployed to Europe. That's very concerning, because we don't want Russia to exploit its numeric advantage here and think it can get away with using these tactical weapons.

The United States actually initiated development of a new nonstrategic weapon--a sea-launched cruise missile--but the Biden administration reportedly wants to scrap it. That would be dangerous. The United States needs to catch up in this category, reducing Russia's asymmetric advantage-to ensure it can fully deter Russia--and not to mention an increasingly nuclear-capable China, too.

6. Anything else about Russia's nuclear capabilities that Americans should keep in mind as Putin's rhetoric harshens?

Americans should understand the different roles that nuclear weapons play in Russia and in the U.S.

Moscow considers its status as a major nuclear state critical to its desire to be treated as a great power. Despite public statements to the contrary, Moscow seems to believe nuclear weapons can be used in a conflict to win. Russia violates nuclear treaties and lies about it.

The United States views nuclear weapons as a tool primarily for deterrence--preventing war completely or preventing war from escalating beyond the conventional. While Russia builds new and dangerous nuclear systems, we have to fend off proposals from the left to dismantle our nuclear triad.

Bottom line: As much as U.S. policymakers might like to wish away nuclear weapons from existence, unfortunately, the enemy gets a vote. Putin's recent inflammatory rhetoric, nuclear saber-rattling, and military actions in Ukraine are proof of the need for a strong, modern U.S. nuclear force.

AMERICAN OVERSIGHT

Nearing Midnight: The People's Republic of Canada – Todd Strandberg - https://www.raptureready.com/category/nearing-midnight/
A dangerous thing has taken place in our northern neighbor Canada. Prime Minister Justin Trudeau has used a law that was intended for a major national crisis to go after supporters of the Freedom Convoy. The Emergencies Act is being used to freeze bank accounts of people who participated in a political

AMERICAN OVERSIGHT

protest – not just the organizers but participants. Hundreds of people have been arrested, and a large part of the city of Ottawa has been declared a no-go zone. The three-week event was triggered by unvaccinated truckers not being allowed to cross the border. Over 90% of truckers are vaccinated, and only a small portion of them would cross over into the US. Many cities have already lifted restrictions, so this protest seems a bit silly to me for both sides.

Trudeau made no attempt to reason with the truckers. At first, he hid from the protestors, and when he did address them, he called the truckers Nazis. When someone calls peaceful protestors Nazis, it's time to run for the border. Trudeau is following the same game plan that Hitler used to come to power.

When the police moved in to remove the protesters, they looked like Star Wars stormtroopers. They had snipers on the rooftops of buildings. The police had their names and badge numbers taped over. There was no indication that the Freedom Convoy had any violent members, and police acted like they were storming the beaches of Normandy.

I am amazed by the vindictive nature of Canadian officials. Ottawa's mayor Jim Watson said any vehicles seized during the police crackdown on the occupation of the downtown should be sold to cover costs incurred by the city. The mayor told CBC News that Ottawa has that power due to the Emergencies Act. If Mr. Watson wants to destroy people's means of income, he might as well seize their homes or sell their children into slavery. Why not just send all the protestors off to death camps? On judgment day, Trudeau and his henchmen can blame all their actions on the Emergencies Act.

This little weasel doesn't even have a majority of the Canadian population supporting him. Because of a flaw in the parliamentary system, Trudeau was able to become prime minister with only a third of the population backing him.

Biden tried to use the COVID-19 pandemic to grant himself illegal power by issuing an executive order that required all private businesses to force 100% of their workers to get vaccinated. A judge blocked the order, and the US Supreme Court vote of 6-3 verified that Biden had gone beyond his constitutional authority. Because nations have no bill of rights and set guidelines on what each branch of the government can do, most power is based on what the people think is just. If Trudeau had implemented the Emergencies Act and people started rioting in the streets, he would have backed down. His action was mostly met with silence. Days later, Trudeau said we need to make some of these powers permanent.

Alberta Premier Jason Kenney did file a legal challenge to Trudeau's "unjustified" use of the Emergencies Act. He launched a Court challenge of the Trudeau government's invocation of the Emergencies Act because it is:

– Unnecessary
-Disproportionate
– Violates natural justice
– Intrudes into provincial jurisdiction
– Creates a dangerous precedent.

AMERICAN OVERSIGHT

Kenney was on a Canadian news show, and a reporter said, “Don’t you share any blame for supporting the Freedom Convoy truckers? Kenney said his concern predated the protest, and his focus was Trudeau’s actions. The Premier might find that his bank account has been frozen.

The word freedom has even come under attack by the left. When reporters mention the protest, it’s always the “so-called” Freedom convoy. There have been several opinion articles written that said freedom is a dangerous word. We need control to maintain order. Freedom results in chaos. If People have the freedom to do as they please, we’ll have more explanations of what took place in Ottawa. Justin Trudeau is required by the Emergencies Act to get an approval vote in parliament within 15 days. Since it is too dangerous in Ottawa, the vote is not seen as urgent.

One of the most frustrating things about living in this time is having watched our freedom and liberties being constantly chipped away. Because Bible prophecy predicts a global dictatorship for the last days, things are only going to get worse. The only hope we have going forward is the rapture.

“Because you have kept My command to persevere, I also will keep you from the hour of trial which shall come upon the whole world, to test those who dwell on the earth” (Rev 3:10).

The Big Picture - Nathele Grahams - twotug@embarqmail.com

My husband had a way of irritating me. He was a wonderful man, but every time I would get in a dither about something, fretting about details and how everything seemed to be falling apart, Ron would always say “Look at the big picture”. Then he would chuckle. Sure enough, if I would focus on the big picture, I stopped fretting and saw how all things were falling together in spite of my worrying. As Christians, we need to focus on the big picture. As we watch the horrors happening in Ukraine, we can easily be distracted by details rather than focusing on the big picture. God wasn’t taken by surprise, and He loves the people who are being hurt by this war. He also sees all things and knows that this is leading to a much bigger war. He sees the big picture, and gives us prophecy so we can also see the bigger picture if we study. “Remember the former things of old: for I am God, and there is none else; I am God, and there is none like me, declaring the end from the beginning, and from ancient times the things that are not yet done, saying, My counsel shall stand, and I will do all my pleasure:” Isaiah 46:9-10. It’s comforting to know that God knew all these scary things would happen, but He is God, and truly there is none like Him. If we allow ourselves to trust Him, we will have inner peace. Scripture gives us the big picture. Unless you study Biblical prophecy, without interpreting it to suit your own agenda or understanding, but study it as God dictated it, you will miss what’s going on today. The Apostle Peter had a front row seat to the miracles of Jesus, but he said that the miracles weren’t as sure as prophecy. “We have also a more sure word of prophecy; whereunto ye do well that

AMERICAN OVERSIGHT

ye take heed, as unto a light that shineth in a dark place, until the day dawn, and the day star arise in your hearts: knowing this first, that no prophecy of the scripture is of any private interpretation. For the prophecy came not in the old time by the will of man: but holy men of God spake as they were moved by the Holy Ghost."2 Peter 1:19-21. Remember, the focus of prophecy and the end times is on Israel, not on any manmade nation, but on God's chosen nation of Israel and turning their hearts back to Him. Christians are a special group of people from many nations, ethnic backgrounds, and family ties. "For as many of you as have been baptized into Christ have put on Christ. There is neither Jew nor Greek, there is neither bond nor free, there is neither male nor female: for ye are all one in Christ Jesus. And if ye be Christ's, then are ye Abraham's seed, and heirs according to the promise." Galatians 3:27-29. We are united as brothers and sisters in Jesus Christ by our faith in the death, burial, and resurrection of Christ. We have admitted that we are sinners who do not have any hope of spending eternity with God, except through the blood of Jesus…our Kinsman Redeemer.

Israel has always been God's chosen people. God called Abraham out of the pagan culture in which he lived and blessed him by giving him the land we now know as Israel. God's promise included the fact that Abraham would have a son, and would be the father of a great nation. Although Abraham and his wife Sarah were quite old, that son was born to them. His name was Isaac. Isaac's son Jacob was the father of twelve sons, who each had many children. One of those sons, Judah, would be the one from which King David was born, and many generations in the future, the Messiah was born. Many prophecies were fulfilled in the years between the call of Abraham and the birth of the Messiah, whom we know was Jesus the Christ. There are hundreds of Old Testament prophecies which specifically describe His birth, life, and death, but because the religious leaders who lived during the time Jesus walked in the Holy Land, refused to study prophecy and understand the times in which they lived, they rejected their Messiah and crucified Him. One of the prophecies regarding this is found in Daniel chapter 9. This prophecy is about the nation of Israel, which is interesting because Daniel received it while in captivity in Babylon. Israel had been taken captive and the Temple destroyed. Yet, Daniel was shown that they would be a nation again, and the Temple rebuilt. He spoke of the coming Messiah, but he also told of the rejection by Israel of their Messiah. "And after threescore and two weeks shall Messiah be cut off, but not for himself: and the people of the prince that shall come shall destroy the city and the sanctuary; and the end thereof shall be with a flood, and unto the end of the war desolations are determined." Daniel 9:26. Indeed, the Messiah did come to the Jewish people, but they rejected Him and accused Him of blasphemy. Jesus was crucified, but He didn't remain in the grave. His crucifixion and resurrection won victory over death. All people can live eternally with God by placing their faith in the death, burial, and resurrection of Jesus. That's the big picture regarding Christ's birth, ministry on earth, and death. Still, the leaders of Israel were blind. The Apostle Paul wrote about the blindness that has plagued the nation of Israel, and tells us that it will last until all who will accept Christ have done so. "For I would not, brethren, that ye should be ignorant of this mystery, lest ye

AMERICAN OVERSIGHT

should be wise in your own conceits; that blindness in part is happened to Israel, unto the fulness of the Gentiles be come in." Romans 11:25. Look at the big picture, and see that the "fulness of the Gentiles" is just about filled. Prophecy is on fast forward. If you haven't made a commitment to Christ, then time is running out. Just as in Noah's time, the door of the Ark was shut and all who refused the safety of the Ark faced God's judgment. God's wrath will be poured out soon, but Christians will be Raptured prior to His judgment. Be sure that you have repented and accepted His offer of grace through faith.

One big mistake made by those who haven't a clue about prophecy, is the belief that the ekklesia (the church) has replaced Israel. This false teaching has led to much misinterpretation of Scripture. All question about the error of that thinking should have been wiped away when Israel became a nation again. "And it shall come to pass in that day, that the Lord shall set his hand again the second time to recover the remnant of his people, which shall be left, from Assyria, and from Egypt, and from Pathros, and from Cush, and from Elam, and from Shinar, and from Hamath, and from the islands of the sea. And he shall set up an ensign for the nations, and shall assemble the outcasts of Israel, and gather together the dispersed of Judah from the four corners of the earth." Isaiah 11:11-12 also "And I will bring again the captivity of my people of Israel, and they shall build the waste cities, and inhabit them; and they shall plant vineyards, and drink the wine thereof; they shall also make gardens and eat the fruit of them. And I will plant them upon their land, and they shall no more be pulled up out of their land which I have given them saith the LORD thy God." Amos 9:14-15. In Ezekiel chapter 37, the Lord showed Ezekiel a valley of dry bones. Those bones join together and begin to come alive. The Lord explained the bones as being the whole house of Israel that shall be brought back into the land which He gave them. That prophecy was fulfilled in 1948 when Israel was reestablished. In Ezekiel's end time prophecy, found in chapters 38 and 39, after the dry bones come together and finally get life, there is a war. God will win.

I will say that much of the misunderstanding of prophecy comes from interpretations of future events based on knowledge of the time. For instance, a century ago it would have been impossible to understand how the whole world could watch God's two witnesses, described in Revelation chapter 11, be killed, but those who missed the Rapture will see and rejoice over their death. "And they of the people and kindreds and tongues and nations shall see their dead bodies three days and an half, and shall not suffer their dead bodies to be put in graves. And they that dwell upon the earth shall rejoice over them, and make merry, and shall send gifts one to another; because these two prophets tormented them that dwelt on the earth. And after three days and an half the Spirit of life from God entered into them, and they stood upon their feet; and great fear fell upon them which saw them." Revelation 11:9-11. Today, we have satellite news broadcasts that people can watch on their telephones. When studying prophecy, remember that what God has foreseen, will happen. The prophets may not have known how something would come about, but they knew that it would, and faithfully described what they saw or heard. When Daniel was given the end time prophecy, there were things he

AMERICAN OVERSIGHT

couldn't understand, but wrote anyway. He was told to shut and seal the book until the end, "But thou, O Daniel, shut up the words, and seal the book, even to the time of the end: many shall run to and fro, and knowledge shall be increased." Daniel 12:4. Many prophecies should be coming clear because we are at a time when technology has caught up with Scripture. God saw the big picture, and we need to trust His knowledge.

If we pay attention to prophecy, we'll understand that the Mark of the Beast can easily be implemented through computer technology and micro-chips. This "pandemic" wasn't an "oops", but a planned scenario to see just how far people can be pushed and controlled. According to Scripture, when the mark of the beast is implemented, a person will choose to take it. Only those who bow to the beast and take his mark will be able to buy food, earn a living, and other necessities of life. By choosing to take the mark, a person will have "sold their soul to Satan". You will be beyond salvation. Altered DNA? I think so. Just like the Nephilim of Genesis chapter 6, which most Christians refuse to understand. That's one of many reasons we know that the Rapture will happen prior to the beginning of the 7-year period of time known as Daniel's 70th week, also called the Tribulation. Christians are assured of Salvation by faith. We are sealed by the Holy Spirit and our salvation is secure. "That we should be to the praise of his glory who first trusted in Christ. In whom ye also trusted, after that ye heard the word of truth, the gospel of your salvation: in whom also after that ye believed, ye were sealed with that holy Spirit of promise, which is the earnest of our inheritance until the redemption of the purchased possession, unto the praise of his glory." Ephesians 1:12-14. The Rapture will happen before the mark is mandatory. Beware of mandates. There will be people who will come to faith after the Rapture and they are known as Tribulation Saints. If their faith in Jesus is made known, they will be beheaded. Make sure of your faith. Search your heart and see if there's anything you need to ask Jesus to forgive you for, then witness to friends and family.

When you look at the big picture disclosed by Scripture, you'll understand the times in which we live, and hopefully you'll be prompted to share the Gospel with others before it's too late. Pray for the people in Ukraine. Pray for Israel.

God bless you all,

AMERICAN OVERSIGHT

Daily Jot: Stupidocrisy: Loud talk, no stick – Bill Wilson – www.dailyjot.com

On September 2, 1901, Teddy Roosevelt described the perfect foreign policy saying, "speak softly, and carry a big stick." In this, he meant that foreign policy needed careful diplomacy and mediation backed by an unspoken threat of a powerful military. Roosevelt parlayed his "Big Stick" diplomacy into a surprise Nobel Peace Prize in 1906 after brokering a peace treaty to end the Russian-Japanese War. Today, we have another Russian war where the American president is employing the exact opposite of Roosevelt's successful foreign policy—Speak loudly and carry a twig. In fact, Joe Biden is using empty and vain words accompanied by toothless sanctions that will only hurt the American people. This is just what Democrats do—announce sanction after sanction by putting lipstick on these economic pigs through using words that the news media actually think are effective. How many times have we heard "Level 1 sanctions" or the "next level" as if they have all this strategically planned. Problem is, there is no teeth in the sanctions Biden has announced and there is no threat of harm if the sanctions are not heeded. This is no different that Jimmy Carter using food as a sanction against Russia for its invasion of Afghanistan in the last century. Or Carter threatening Iran after it took hostages at the US Embassy. The food sanctions bankrupted family farms by the thousands while Carter's big agriculture supporters like Cargill and Continental made millions (I won an international award for breaking that story in 1979).

It was not until Ronald Reagan was elected that these things began to get straightened out. The Iranian hostages were released minutes after Reagan was sworn into office on January 20, 1981. Why? Because Reagan implied harsh military action against Iran if the hostages were not released. Reagan also ended the grain embargo against the Soviet Union and began other military strengthening strategies that eventually led to the dismantling of the communist regime. Yes, Reagan used sanctions several times during his two-terms, but always with the big stick of military and/or economic power that motivated the bad guys toward the desired outcome. Biden is a compromised president.

Biden's son's and family's finances depend on Russia and China, with dealings at the expense of people like you and me. So tough are Biden's sanctions against Russia that America is actually helping fund Russia's attack on Ukraine. Yes, you read right. The US buys in upwards of 10% of our oil from Russia, $70 million goes to Russia from the US each day because oil is not part of Biden's sanctions. How much are you paying at the pump? Your electric bill? Food? Yet, we are putting money in Russia's pocket with any drop of Russian oil imports. Ephesians 6 says, "Let no man deceive you with vain words." Yes, Biden's vain words have no substance. Loud talk. No stick. Meanwhile, if we are nuked, make sure you follow the new White House guidelines by wearing your COVID mask and social distancing. Say it with me…Stupidocrisy.

AMERICAN OVERSIGHT

Daily Devotion: Growing Endurance - by Greg Laurie – www.harvest.org

For you know that when your faith is tested, your endurance has a chance to grow. —James 1:3

https://harvest.org/resources/devotion/growing-endurance/ - Listen

While Moses was on Mount Sinai receiving the Ten Commandments, he didn't know how bad things were back at the camp where he had left Aaron in charge. He didn't yet know that the people were dancing around a golden calf and calling it their god.

So while he was there, the Lord said to him, "I have seen how stubborn and rebellious these people are. Now leave me alone so my fierce anger can blaze against them, and I will destroy them. Then I will make you, Moses, into a great nation" (Exodus 32:9–10 NLT).

But Moses interceded for them. He stood in the gap and prayed for them, and God changed His mind. Then Moses descended from the mountain to find the people engaged in full-tilt idolatry and immorality. And Aaron offered the most ridiculous excuse of all time to justify their horrible behavior.

Moses was so angry that he took the two tablets of stone he had been carrying and threw them on the ground, smashing them into pieces.

I think God used this experience to develop Moses and test him. Maybe God has been testing you lately, and you're wondering why. Why does God allow trials, tribulation, and hardship in the lives of His children?

James 1 tells us, "Dear brothers and sisters, when troubles of any kind come your way, consider it an opportunity for great joy. For you know that when your faith is tested, your endurance has a chance to grow. So let it grow, for when your endurance is fully developed, you will be perfect and complete, needing nothing" (James 1:2–4 NLT).

God lets us go through these trials to strengthen us. Trials are like God's gym. We break down muscle to build it up, and we'll be stronger as a result.

FROM THE HEART

Let Us Make the Short Time We have Left, Count for ALL of Eternity!

IF YOU HAVE BEEN BLESSED THROUGH THIS MINISTRY, THEN WE ASK THAT YOU WOULD PLEASE REMEMBER PROPHECY UPDATE IN YOUR GIVING - WE ARE TRULY,TRULY,THANKFUL FOR YOUR SUPPORT

WORTHY OF YOUR SUPPORT?

One of the most reliable ways to determine if a ministry is worthy of your financial support is to examine its fruits. If Prophecy Update is keeping you informed, and if that information inspires you, and causes you to draw closer to the Lord, if Prophecy Update equips you with valuable information and knowledge to share with and encourage other believers, and open the eyes of non-believers, and if Prophecy Update keeps you connected to current events relating to Bible Prophecy, then you are partaking of the fruit produced through this ministry. None of this would be possible without the Lords blessings and your support. I believe where the Lord guides, the Lord provides, and most of the time He provides through the willing and generous hearts of believers just like you and me.

Humbly Seek Your Support

Prophecy Update has no corporate sponsors. This ministry is paid for and prayed for by readers and supporters. Without your support, there would be no Prophecy Update, Please pray about becoming a monthly supporter - thanks!

If ever there was a time to invest in God's Kingdom, it's now!

What on earth are you doing for Heaven's Sake?

"Share in the Blessings and Rewards that will last Forever!"

"Folks, it's all beginning to unravel. America is in more danger of falling than at any time in its history. But I believe Bible prophecy predicts this very decline. From this point on, we believers have to get serious. We are going to face discouragement, disillusionment and, most certainly, persecution in the time between now and the Rapture. But don't be discouraged or disillusioned. The coming turmoil will provide us unrivaled opportunities to share the good news of the Gospel. So be ready to share your faith and your hope with those who need Christ. We still have time to reap a great harvest of souls for God's kingdom!" - Hal Lindsey

1) We need your prayers!- We proclaim the Truth of the Word of God and we are under constant spiritual and sometimes even physical attack.
2) We need your encouragement!- We need to hear from you, let us know how the Lord is blessing you through this ministry so that we can share it with others.

AMERICAN OVERSIGHT

3) We need your input! -If you have a prophetic article or story or if there is a news related item we missed, let us know.
4) We need your financial support!- To put it quite simply, without your support, there would be no Prophecy Update.

I ask that you would prayerfully consider partnering with us to get the Word out and keep the world informed. Remember, your gift, no matter how small, does make a difference! You will be helping to touch lives, around the world, 24 hours a day, seven days a week, thanks to the internet your generosity carries a global impact! - Thanks!

Our Prayer for You- "Now he who supplies seed to the sower and bread for food will also supply and increase your store of seed and will enlarge the harvest of your righteousness. You will be made rich in every way so that you can be generous on every occasion, and through us your generosity will result in thanksgiving to God. This service that you perform is not only supplying the needs of God's people but is also overflowing in many expressions of thanks to God. Because of the service by which you have proved yourselves, men will praise God for the obedience that accompanies your confession of the gospel of Christ, and for your generosity in sharing with them and with everyone else." 2 Corinthians 9:10-13

Prophecy: Science Fact or Science Fiction? - Part II – Arnold Martin - https://www.rev310.net/post/y-science-fact-or-science-fiction-1

see that the second beast has power to give life to the image of the beast so that it, the image, not only speaks but do not worship it, the image of the beast, to be killed. Did you get that? It was the image of the beast that caused all ship him, not just worshipping the 1st beast but worshipping the image of the beast to be killed. Take printing an enti body with bionic parts and uploading a human mind and adding an AI chip in the brain and you have a superman wh ected to the internet and will likely hack and control all weapons and vital services around the world thereby controlli orld.

rnet of things has already been set up for him and all he has to do is hack into it and take control holding the world h ngularity. Who will be the one who gets uploaded, will it be Elon Musk who has just this year taken the lead as the ri he world, or maybe Jeff Bezos 2nd place or Bill Gates in 4th place or Mark Zuckerberg 5th place or even George So causes all to take the mark of the beast in order to buy or sell. This has to be a digital currency as he cannot contro ckchain technology, every monetary unit can be tracked and backtracked from when it is created until forever forwar ill be no financial transaction beyond his control. 5G or maybe 6G or quantum teleportation will play a part in this as have the oomph to handle all the transactions as well as GPS etc. Anyone who does not take the mark will likely be d killed, at the very least, they will not be able to participate in society or rent, buy food, clothing, supplies, medicine pter 14 of Revelation tells us what happens to those who do take the mark or number of his name, the smoke of thei will ascend up forever and ever and they will have no rest day nor night in the lake of fire.

as been rising in power in the last few decades and has excelled in hacking and stealing information, their goal is cle world. They also have been working on creating super soldiers using CRISPER technology,

ww.nbcnews.com/politics/national-security/china-has-done-human-testing-create-biologically-enhanced-super-soldi 14,but they don't show up in Bible prophecy until just prior to the battle of Armageddon in the book of Revelation. Pe ill be the country that comes up with the prophesied 200-million-man army of robots and super soldiers. Revelation And the sixth angel poured out his vial upon the great river Euphrates; and the water thereof was dried up, that the w s of the east might be prepared.

w three unclean spirits like frogs come out of the mouth of the dragon, and out of the mouth of the beast, and out of f the false prophet. For they are the spirits of devils, working miracles, which go forth unto the kings of the earth and orld, to gather them to the battle of that great day of God Almighty. And he gathered them together into a place calle tongue Armageddon." The kings of the east is China and perhaps India and North Korea.

rs that China has come to battle against the Antichrist but Jesus comes in the air they all turn on Him and He destro sword of His mouth at the end of the tribulation. Revelation 17:12-14; "And the ten horns which thou sawest are ten ave received no kingdom as yet; but receive power as kings one hour with the beast. These have one mind, and sha wer and strength unto the beast. These shall make war with the Lamb, and the Lamb shall overcome them: for he is nd King of kings: and they that are with him are called and chosen, and faithful." The ten kings are the revived Roma Revelation 19:14,15; "And the armies which were in heaven followed him upon white horses, clothed in fine linen, w an. And out of his mouth goeth a sharp sword, that with it he should smite the nations: and he shall rule them with a d he treadeth the winepress of the fierceness and wrath of Almighty God."

vonder that Daniel was told to seal the book until the time of the end, no one stood a chance of understanding it until
dustrial revolution. Everything is just about in place for all this to take place. We are the generation that will see thes
as indicated by Jesus in Matthew 24:32-34. These things are in our future very soon. Russia, Iran, and Turkey are in
nt for the 1st time in history and positioned in Syria just north of the mountains of Israel where God will destroy them
onomies are strapped, they need Israel's wealth. Also, we have had one million and three hundred thousand abortion
de in the 1st 11 days of 2021. Jesus said; "Daughters of Jerusalem, weep not for me, but weep for yourselves, and f
. For, behold, the days are coming, in the which they shall say, Blessed are the barren, and the wombs that never ba
s which never gave suck. Then shall they begin to say to the mountains, Fall on us; and to the hills, Cover us." Luke
there be any doubt as to the time frame indicated here? Never before has the barren, the wombs that never bare an
hich never gave suck been called blessed as they are today with all the abortions and the vaccines causing sterility in
on purpose by the global elite with their depopulation agenda.
off, the last sentence here in Luke is identical to the book of Revelation where He is pouring out His wrath, Revelati
hich He did not reveal to John until 63 years after His quote in the book of Luke.
ory of the church is recorded in order from the days of John until today in Chapters 2 &3 of Revelation, these are the
when Christ told John to record the things that he saw and the things that are and the things that are to come. The t
n saw was Christ in all His glory, the things that are is the 7 churches, the things that are to come is the 7-year tribul
rch is not specifically mentioned after chapter three in the book of Revelation. Although those churches ceased to ex
thousand years ago they still exist as symbolic because two of them are threatened to go into the tribulation, one is
d to be kept from the tribulation, and the last church Christ is standing outside the church.
es the end and has declared it so that when we see these things happening, we will know that He is Lord therefore, S
God's word in order to know what is coming and develop a battle plan. Throughout history, Satan tried to corrupt or c
dline through which the promised Messiah would come to stop Him from coming. Before the flood, the fallen angels

easons Nisan 1 Is A Pivotal Date In 2022 – T.W. Tramm -
ww.prophecynewswatch.com/article.cfm?recent_news_id=5200
e ten reasons Nisan 1 (April 2) is a pivotal date in 2022:
EL'S SEVEN WEEKS
this year marks the completion of seven Sabbatical weeks since the 1967 restoration of Jerusalem to the Jews.This
nt because Daniel's Weeks Prophecy says Messiah will appear "seven weeks" after Jerusalem is restored:
e going forth of the command to restore and rebuild Jerusalem until Messiah the Prince, there shall be seven week

modern restoration of Jerusalem occurred in June 1967 when the Jews took possession of the Holy City for the firs
2,000 years. Counting seven weeks from the start of the first Sabbatical week following Jerusalem's 1967 restorati
973), we arrive at Nisan 2022.
IFTIETH YEAR
e Nisan 1 marks the completion of seven Sabbatical weeks, it also marks the start of a fiftieth year, a potential Jubile
esting to note that, because 2022 is a fiftieth year, this year's Pentecost, or fiftieth day, represents a "fiftieth within a
a numeric concurrence denoting harvest and the fullness of time that occurs only twice a century.
USALEM'S WALL
this year marks the completion of "seven" and "sixty-two" Sabbatical weeks since Jerusalem's wall was rebuilt by Is
leiman. This is significant because Daniel's Weeks Prophecy mentions specifically the wall surrounding Jerusalem b

e going forth of the command to restore and build Jerusalem until Messiah the Prince, there shall be seven weeks a
o weeks, the street shall be built again, and the wall" (Dan. 9:25).

n ordered the rebuilding of Jerusalem's wall in 1536-37 AD. Counting "seven" and "sixty-two" weeks from the start o
batical week following the order to rebuild (Nisan 1539 AD), we arrive at Nisan 2022.

AR ECLIPSE ANNIVERSARY

this year marks seven years to the day since a total solar eclipse darkened the northernmost tip of the globe, the po
he longitudinal lines intersecting every nation and landmass converge.

occurring on the biblical New Year, the Nisan eclipse coincided with the spring equinox. For perspective, a total sol
occurs on the spring equinox only one other time during the roughly 750-year period spanning 1662 AD-2406 AD. S
at the top of the globe, however, is said to happen only once every 100,000 years, making it unprecedented.
ng to the Talmud, solar eclipses are a sign for the Gentile world. That the unprecedented Nisan eclipse occurred sev
go is significant because God is known for giving a seven-year warning prior to bringing judgment (Gen. 7; 41; Josh.

ELEVENTH WEEK

this year marks the start of the eleventh Sabbatical week (2022-29) since Israel became a nation in 1948. The numb
denotes chaos, disorder, and judgment in Scripture, themes associated with the Tribulation period.
t Sabbatical cycle (2029-36) is the twelfth. The number twelve signifies God's authority and a perfect governmental
on in Scripture, pointing to the establishment of Jesus' Millennial Kingdom.

354th WEEK

this year marks the start of the 354th Sabbatical week since Daniel's Weeks Prophecy began to be fulfilled when a
gan the journey home to Jerusalem, from Babylon, on the first day of Nisan in 457 BC (Ezra 7:9).
mber 354 is significant for a couple of reasons. First, it is the number of days comprising the lunar year. Since the Mo
c of the Church, or Bride of Christ, it could be said that 354 denotes the fullness of time related to the Bride.
it is interesting to note that . . .
#354 in the Hebrew concordance is the word ayyal, referring to a stag, or male deer.
#354 in the Greek concordance is the word analémpsis, referring to a "taking up" into heaven.
Hebrew and Greek words related to the number 354 refer to a stag and a taking up to heaven is striking because o
t profound rapture illustrations in the Bible depicts Jesus as a young stag who comes suddenly to gather up His belo
ce of my beloved!
he comes
upon the mountains,
g upon the hills.
ved is like a gazelle or a young stag.
he stands behind our wall;
oking through the windows,
through the lattice.
ved spoke, and said to me:
, my love, my fair one,
he away'" (Song 2:8-10).
oncurrences like the above do not carry the same weight as Scripture, they nonetheless give one pause. In the New
ent the word coincidence is used only once (Luke 10:31). It is translated from a Greek word, synkyria, which is defin
nce that occurs by God's providential arrangement of circumstances."
o say, where God is concerned, there are no coincidences.
owing anniversaries are not, as the above, precisely linked to Nisan 1. However, they do occur within days or month
ate.

ILEHEM STAR

this year marks seven years since a once-in-two-millennia appearance of the "Bethlehem-Star," the Jupiter-Venus
ion that heralded Jesus' first coming.
is dazzling and much publicized heavenly alignment have been a seven-year warning pointing to the return of Jesus

OD MOONS

arks seven years since consecutive blood-moon eclipses occurred on the spring and fall harvest festivals, Passover
cles. Significantly, the Tabernacles eclipse was a "super blood moon," a phenomenon in which the Moon's proximity
uses it to appear particularly large.
g to the Talmud, blood moons are a bad omen for Israel. Could the extra-large blood moon of 2015, visible above
em, have been the ultimate seven-year warning?

ING OF THE FIG-TREE

0 this year marks 73 years since the newly planted 'fig tree,' Israel, substantially enlarged its borders by prevailing in
o-Israeli War. That same spring, the fledgling Jewish nation established its first government and was admitted to the
ation.
growth spurt in spring 1949 is noteworthy because Jesus says the generation who sees the still tender fig branch "pu
will see all the end-times events come to pass (Matt. 24:32, 34).
l human lifespan in Scripture is 70-80 years (Ps. 90:10). Counting 80 years from 1949, we arrive at 2029. Subtractin
he presumed length of the Tribulation period, we arrive at 2022.

SETTING UP OF AN ABOMINATION

arks 1,335 years since the Dome of the Rock, an Islamic shrine dedicated to Allah, was built on the Temple Mount in
s is significant because in Daniel's final vision of the end times, the setting up of an abomination that causes desolat
rtant time-marker:
he time that the daily sacrifice is abolished and the abomination that causes desolation is set up, there will be 1,290
is the one who waits for and reaches the end of the 1,335 days" (Dan. 12:11, 12).
el's prophecies, a day typically represents a year (9:24-27). Counting 1,290 prophetic years from when the daily Tem
was taken away by Nebuchadnezzar in 586-85 BC, we arrive at 687-88 AD, the year the Dome of the Rock was se
g forward 1,335 years from when the Dome of the Rock was set up, we arrive at 2022.

ARY AND CONCLUSION

up, the first day of Nisan in 2022 marks, precisely . . .
nd of "seven weeks" from the modern restoration of Jerusalem.
art of the 50th year from the modern restoration of Jerusalem.
nd of "seven" and "sixty-two" weeks from the rebuilding of Jerusalem's wall by Suleiman.
ven-year anniversary of an unprecedented solar eclipse at the top of the globe.
art of the eleventh Sabbatical week since Israel became a nation in 1948.
art of the 354th Sabbatical week since Daniel's Weeks Prophecy began to be fulfilled in 457 BC.
saries not precisely linked to Nisan 1, but which occur within days or months of this date, include:
ven-year anniversary of the Bethlehem Star conjunction.
ven-year anniversary of consecutive blood moons on God's harvest festivals.
rd anniversary of the 'leafing of the fig tree' in spring 1949.
335th anniversary of the setting up of an abomination on the Temple Mount.
above in view, it can be said that the year beginning at Nisan marks a calendrical convergence like no other.
st compelling anniversaries are those related to Daniel 9:25, a verse purposed to convey the time of Jesus' coming t
g of Sabbatical weeks.

AMERICAN OVERSIGHT

coincidence that Daniel's weeks may be counted separately or together and from different orders to rebuild Jerusale
the same year: 2022. This remarkable concurrence is a result of the two orders to rebuild the Holy City (Suleiman a
porary) being separated by a span of sixty-two weeks.
more, the seven-weeks reckoning suggests the year beginning at Nisan is a Jubilee.
d knows what events 2022 might bring. However, it is certainly a year ripe with possibility.

FOR DIGGING FURTHER:
ccuracy of our reckoning of Daniel's weeks and potential Jubilee depends on the correctness of the Sabbatical cycle
nt Sabbatical years, according to the accepted Jewish reckoning:

on Sabbatical Years:
ww.pickle-publishing.com/papers/sabbatical-years.htm
ww.pickle-publishing.com/.../sabbatical-years...
ww.pickle-publishing.com/.../sabbatical-years...
use Daniel's weeks refer to the fixed Sabbatical cycle, the count must begin at the start of an actual Sabbatical week
established Nisan as the first month of the year when Israel became a nation (Ex. 12), Thus, Sabbatical weeks, whic
roups of seven years, begin at Nisan. The Nisan-reckoning is evident in Scripture where the Lord instructs Israel to
Sabbatical weeks when they enter the Promised Land (Lev. 25:1-4). The Israelites entered the Land in Nisan (Josh
nce that Jubilee years are reckoned from Nisan is the fact that the jubilee trumpet is sounded in the "seventh month
ng Nisan to be the first month relative to the Jubilee (Lev. 25:9).
cial difference between the biblical (Nisan-reckoned) calendar and the Jewish (Tishrei-reckoned) version is that the
fiftieth year beginning in spring 2022, whereas the latter has the fiftieth year beginning in fall 2022.
use Pentecost is a fiftieth day observed after a count of seven weeks, it is sometimes called the "little jubilee" (Lev. 2
-10).
rding to E. W. Bullinger, "the number fifty is the issue of 7 X 7 (72) and points to deliverance and rest following on as
the perfect consummation of time." Wherever the number fifty is found in Scripture it is associated with fullness or
ion (Num. 4:23; Deut. 22:29; 2 Sam. 15:1; 24:24; 1 Kings 1:5).
fiftieth (Jubilee) year is also the "eighth" year relative to the Sabbatical week. Eight is the number of new beginnings
e.
esting nine-o'clock concurrence linking Pentecost, the Church, the modern restoration of Jerusalem, and the Jubilee
stfruits of the wheat harvest are offered up before the Lord in the nine o'clock hour on Pentecost.
oly Spirit was poured out on the Church in the nine o'clock hour on Pentecost.

ne 7, 1967, recapture of Jerusalem and the Western Wall by Israeli forces occurred in the nine o'clock hour. The so
ned by fifty-year-old Rabbi Shlomo Goren who sounded the shofar and declared the Holy City to be "redeemed" (jub
. A week later, Jerusalem was officially opened to the Israeli public for the first time in nearly 2,000 years--on Pentec
es*).
2, Pentecost (fiftieth day) is said to be "fully come" in the nine o'clock hour, when about 60% of the biblical 24-hour
sed. Similarly, the jubilee (fiftieth year) trumpet is sounded on the tenth day of the seventh month, when about 60%
ear has elapsed.
M. Sachar, A History of Israel, New York: Knopf, 1996, p. 654; Michael Oren, Six Days of War, New York, Presidio
245)
'Magic of Shavuot (Pentecost) 1967': https://www.aish.com/jw/j/48965971.html
lee-Rapture correlations:
ses jubilee terminology such as "liberty" and "redemption" when describing the resurrection-rapture of the Church (R
).
bilee is when servants are liberated and land is returned to its original owner (Lev. 25). Correspondingly, the Raptur
ristians are liberated and the 'title deed' to Planet Earth, symbolized by the sealed scroll in Revelation, goes back to
.
bilee, (fiftieth year) is a type of Pentecost (fiftieth day). Since Pentecost is associated with the 'harvest" of the Churc
ubilee may be associated with the harvest-rapture of the Church.
bilee is when spiritual blindness is lifted (Luke 4:18). Israel's blindness concerning Messiah-Jesus will be lifted after
of Gentiles comes in at the Rapture (Rom. 11:25).
ah, the Jubilee is linked to the onset of the Day of the Lord (Isa. 63:1-6). The Day of the Lord commences around the
ture (1 Thess. 4:13-18; 5:1-5).
he Jubilee year is also the first year of a new seven-year cycle, it is a fitting time for the Rapture and start of a new p
e. the Tribulation or Day of the Lord.
counting of Daniel's weeks is initiated by the going forth of a command to rebuild Jerusalem (Dan. 9:25).
ntains, or sabils, of Jerusalem's wall were ordered rebuilt by Suleiman in 1536-37 AD. The walls and gates were ord
1537-38 AD.* The Sabbatical week immediately following these orders begins at 1539 AD. Counting "seven" and "
eks (483 years) from 1539 AD, we arrive at 2022.
uction timeline for Jerusalem's wall in the days of Suleiman:
ww.pages.drexel.edu/.../Ottoman_Sabils_of...
r and lunar eclipses are signs of the impending Day of the Lord: "The sun will be turned to darkness and the moon t
he coming of the great and dreadful day of the LORD" (Joel 2:31).
5 solar eclipse:
ww.haaretz.com/.../a-simple-eclipse-of-the-sun...
ww.charismanews.com/.../48718-passover-blood...
ww.universetoday.com/.../a-complete-guide-to.../
ording to the Talmud, the sun was initially created in its vernal equinox position on Nisan 1. For this reason, on the ra
s Nisan 1 coincides with the equinox, a special blessing known as Birkhat Hachama, or "Blessing of the Sun," is re
d are You, LORD, our God, King of the Universe maker of the works of Creation."
nar year consists of twelve orbits of the Moon around the Earth. Since each orbit takes approximately
s, a lunar year consists of 354 days, 8 hours, 48 minutes, and 34 seconds (354.36707 days).
s is likened to a young stag three times in Song of Solomon (2:8-10, 17; 8:14).

n 2022 also marks the start of the second Sabbatical week since two cows born withnumber '7s' on their heads mad
he Feast of Trumpets in Sabbatical year 2014-15. In prophecy circles, the two cows with '7s' were considered a mo
of the sign given to pharaoh, a dream-warning about seven fat cows and seven skinny cows, denoting seven years
nce followed by seven years of famine (Gen. 41).
ittsburgh.cbslocal.com/.../calf-with-7-on-its.../
ww.youtube.com/watch?v=M6axxud4jOc
tching the fig-tree generation to the maximum, the 81st anniversary of the March 1949 'growth spurt,' the endpoint is
owever, because the Tribulation is likely to end in the fall, corresponding to the biblical festivals, the presumed end
. Subtracting seven years from fall 2029, we arrive at fall 2022 for a potential start time of the final week.

AMERICAN OVERSIGHT

FROM THE HEART

Let Us Make the Short Time We have Left, Count for ALL of Eternity!

IF YOU HAVE BEEN BLESSED THROUGH THIS MINISTRY, THEN WE ASK THAT YOU WOULD PLEASE REMEMBER PROPHECY UPDATE IN YOUR GIVING - WE ARE TRULY,TRULY,THANKFUL FOR YOUR SUPPORT

WORTHY OF YOUR SUPPORT?

One of the most reliable ways to determine if a ministry is worthy of your financial support is to examine its fruits. If Prophecy Update is keeping you informed, and if that information inspires you, and causes you to draw closer to the Lord, if Prophecy Update equips you with valuable information and knowledge to share with and encourage other believers, and open the eyes of non-believers, and if Prophecy Update keeps you connected to current events relating to Bible Prophecy, then you are partaking of the fruit produced through this ministry. None of this would be possible without the Lords blessings and your support. I believe where the Lord guides, the Lord provides, and most of the time He provides through the willing and generous hearts of believers just like you and me.

Humbly Seek Your Support

Prophecy Update has no corporate sponsors. This ministry is paid for and prayed for by readers and supporters. Without your support, there would be no Prophecy Update, Please pray about becoming a monthly supporter - thanks!

If ever there was a time to invest in God's Kingdom, it's now!

What on earth are you doing for Heaven's Sake?

"Share in the Blessings and Rewards that will last Forever!"

"Folks, it's all beginning to unravel. America is in more danger of falling than at any time in its history. But I believe Bible prophecy predicts this very decline. From this point on, we believers have to get serious. We are going to face discouragement, disillusionment and, most certainly, persecution in the time between now and the Rapture. But don't be discouraged or disillusioned. The coming turmoil will provide us unrivaled opportunities to share the good news of the Gospel. So be ready to share your faith and your hope with those who need Christ. We still have time to reap a great harvest of souls for God's kingdom!" - Hal Lindsey

1) We need your prayers!- We proclaim the Truth of the Word of God and we are under constant spiritual and sometimes even physical attack.
2) We need your encouragement!- We need to hear from you, let us know how the Lord is blessing you through this ministry so that we can share it with others.

AMERICAN OVERSIGHT

3) We need your input! -If you have a prophetic article or story or if there is a news related item we missed, let us know.
4) We need your financial support!- To put it quite simply, without your support, there would be no Prophecy Update.

I ask that you would prayerfully consider partnering with us to get the Word out and keep the world informed. Remember, your gift, no matter how small, does make a difference! You will be helping to touch lives, around the world, 24 hours a day, seven days a week, thanks to the internet your generosity carries a global impact! - Thanks!

Our Prayer for You- "Now he who supplies seed to the sower and bread for food will also supply and increase your store of seed and will enlarge the harvest of your righteousness. You will be made rich in every way so that you can be generous on every occasion, and through us your generosity will result in thanksgiving to God. This service that you perform is not only supplying the needs of God's people but is also overflowing in many expressions of thanks to God. Because of the service by which you have proved yourselves, men will praise God for the obedience that accompanies your confession of the gospel of Christ, and for your generosity in sharing with them and with everyone else." 2 Corinthians 9:10-13

The Rapture: Victory in Jesus -by pastor Mike Taylor -
https://pastormiketaylor.blogspot.com/2022/02/the-rapture-victory-in-jesus.html

AMERICAN OVERSIGHT

"These things have I spoken unto you, that in Me ye might have peace. In the world ye shall have tribulation, but be of good cheer, I have overcome the world." (John 16:33)

According to the publication of the “Word Christian Encyclopedia” which is a comparative survey of churches and religions, that from AD 30 to 2022 “There are 19 major world religions which are subdivided into 270 large religious groups, and many other smaller ones..

For eighteen of the world's major religions and its 270 sub-divisions, the concept of the sudden and instantaneous translation of millions of adherents from one form of existence into the next is completely unheard of. It is even a controversial doctrine within Christianity. There are entire huge subdivisions, or denominations within Christianity that totally dismiss the concept of the Rapture or Harpazo as spoken of by the Apostle Paul in his epistles.

I read on the internet a column which is appropriately named “Againstdispensationalism.com” that argues that the rapture is nothing more than the “arrogance of the West”. So we are the ones who came up with this theory of the instantaneous removal of the Church of the Living God and it was never spoken of until the 1880s by one, John Darby from the rantings of a mentally disturbed young girl, Margaret McDonald....I chose this article because it focuses on why the rapture is so controversial.

In another article, a one Jerry Johnson who is president of some so called Nicene Council, the rapture is nothing more than “paperback theology” and a recent concoction that was never taught by the historic church.

For context, the so called “historic church” is the one that embraces replacement theology and Anti-semitism and my bible is the paperback. Why do I say that? Because it can be easily proven that the 1st century church did indeed teach a sudden “catching away” of the Church of the Living God. I will address that momentarily.

Note this Johnson fellow lashes out that “one is hard pressed to link all of the great minds from St. Augustine, Martin Luther, John Calvin, and Charles Spurgeon about the so-called coming rapture of the church. As each read 1st Thessalonians 4 and 1stCorinthians 15 where Paul spoke of this “mystery” that had not been revealed to the OT prophets, Paul reveals a teaching that had not been taught, but was learned by revelation of Jesus Christ who taught Paul in the Arabian desert for 3 years after his conversion. Reading the Gospels, Jesus did not teach it, nor any of the apostles, till Paul revealed this information, and modern “theologians” failed to understand the important teachings of a pre-millennial, pre-Tribulation rapture of the church, called the “Harpazo” in scripture when read in Greek. It was Jesus our Lord and Savior's revealing to Paul to tell the world how the redemption of mankind would be accomplished and our Lord coming for His bride at the rapture, before the Tribulation and the outpouring of His wrath on a rebellious world.

AMERICAN OVERSIGHT

This Johnson fellow further denigrates the doctrine of the rapture, calling it “a foundation of conceited theology”. Amazing how those who fail to understand Bible prophecy lash out at things they do not understand. But he gave it his best “Sunday punch”.

3 'Knowing this first, that there shall come in the last days scoffers, walking after their own lusts,
4 And saying, Where is the promise of his coming? for since the fathers fell asleep, all things continue as they were from the beginning of the creation.
5 For this they willingly are ignorant of, that by the word of God the heavens were of old, and the earth standing out of the water and in the water:
6 Whereby the world that then was, being overflowed with water, perished:
7 But the heavens and the earth, which are now, by the same word are kept in store, reserved unto fire against the day of judgment and perdition of ungodly men' (2nd Peter 3:3-7)

Looking at this Johnson fellow, his main objection, and frankly, the objection of many nay-sayers of the opponents of this doctrine, is the misconception that the rapture is nothing but a “Great Escape”. They reason why do Christians of this age get to escape the Tribulation and the Great Tribulation while others do not? They site that this is not fair, and this would make God unfair.

I wonder sometimes, if they find it equally unfair that some go to heaven and others go to hell. Not being a betting man, but I would wager that they find it totally unfair that God would send anyone to such an awful place called hell, but all would agree that murdering dictators of this age, such as Hitler, or Pol Pot do not deserve to go to heaven. What they fail to realize, God does not send you to hell. You do by rejecting His offer at salvation through Jesus Christ, His only begotten Son. God just gives you what you want because of that rejection. Oh, the conflict in their arguments as I go on will prove.

That's why God is God and theologians are not.

LET US DISCUSS WHERE THIS DOCTRINE CAME FROM

As noted, no other religion has anything resembling a Rapture doctrine, including whatever 'historic church' Jerry Johnson was referring to.So where did it come from and why is it there?

The first thing nay-sayers will do is to hopelessly complicate the issue so that whatever they come up with, is practically impossible to decipher.

First let us address where the doctrine actually came from and it wasn't by John Darby, but he did revive the belief that had been squashed during the Dark Ages by none other than the ruling theocracy of the Roman Catholic Church. It was the purpose of this ruling theocracy to blind the population and make them totally dependent on them, not God the Father, or Jesus Christ and the Holy Spirit.

PROPONENTS OF THE HARPAZO

In the first Century, men like Irenaeus (130 A.D. – 202 AD) was a bishop of the church in Lyons, France. He was an eyewitness to the Apostle John (who

AMERICAN OVERSIGHT

wrote the Book of Revelation) and a disciple of Polycarp, the first of the Apostle John's disciples. Irenaeus is most-known for his five-volume treatise, "Against Heresies" in which he exposed the false religions and cults of his day along with advice for how to share the Gospel with those who were a part of them.

In his writings on Bible prophecy, he acknowledged the phrase "a time, times and dividing of times" in Daniel 7 to signify the 3 ½ year reign of the Antichrist as ruler of the world before the Second Coming of Christ. He also believed in a literal Millennial reign of Christ on earth following the Second Coming and the resurrection of the just. In his writings noted above. Irenaeus writes:

""Those nations however, who did not of themselves raise up their eyes unto heaven, nor returned thanks to their Maker, nor wished to behold the light of truth, but who were like blind mice concealed in the depths of ignorance, the word justly reckons "as waste water from a sink, and as the turning-weight of a balance — in fact, as nothing;"(1) so far useful and serviceable to the just, as stubble conduces towards the growth of the wheat, and its straw, by means of combustion, serves for working gold. And therefore, when in the end the Church shall be suddenly caught up from this, it is said, "There shall be tribulation such as has not been since the beginning, neither shall be."(2) For this is the last contest of the righteous, in which, when they overcome they are crowned with incorruption."

Irenaeus in this passage describes the church leaving the sinful world just before unprecedented disasters. Note his use of the term "caught up" which is Rapture terminology as that is the meaning of Harpazo, the term for "caught up" in the King James Bible describing the Rapture in 1 Thessalonians 4. He then quotes Matthew 24:21-22 where The Lord Jesus Christ says: "

"For then shall be great tribulation, such as was not since the beginning of the world to this time, no, nor ever shall be.

22 And except those days should be shortened, there should no flesh be saved: but for the elect's sake those days shall be shortened. "

And it is during this time that those who convert to Christianity during the final years will receive the incorruptible crown mentioned by the Apostle Paul in.1st Corinthians 9:24-25

24 Know ye not that they which run in a race run all, but one receiveth the prize? So run, that ye may obtain.

25 And every man that striveth for the mastery is temperate all things. Now they do it to obtain a corruptible crown; but we an incorruptible."

In Irenaeus' belief, the Rapture took place prior to the end times Great Tribulation.(beginningandtheend.com)

This is but one of the early church fathers who believed in the doctrine of a pre-tribulation rapture or "catching away" of the Church, as others such as Cyprian and Ephraim the Syrian which wrote:

AMERICAN OVERSIGHT

“With a sense of urgency and strong warning, Ephraim writes that the end times are upon this world and could start at any moment. This text very clearly states the saints and elect of God, all born again believers in The Lord Jesus Christ, will be “taken to the Lord” before the Tribulation. Ephraim also identifies the Old Testament “Day of The Lord” and the end times Great tribulation as the same event (in line with the teachings of the Beginning and End Rapture Series). Ephraim quotes Amos 5:18 which says: “
”Woe unto you that desire the day of the LORD! to what end is it for you? the day of the LORD is darkness, and not light.”

TWISTING SCRIPTURE TO YOUR OWN END

But if you ignore these early church fathers, that some say was not taught during this period, and their writings disprove this absurd position of the church going through the Tribulation, you can take enough verses from the different places throughout the bible (as I have previously done), and taking them out of context, make a case for Rapture, against a Rapture, for Pre-Tribulation, Mid-Tribulation, Post-Trib, amillennial, premillenial, or post millennial, with or without the 1000 year reign of Jesus Christ.

If you do enough research, you will find that there are scholars that adhere to each and every position I have quoted and they have names for them, and I refuse to believe that they hold these varied views without hanging some sort of scripture to hang from them. But of course, they must take them out of context, and twist them to fit their preconceived notions that their position is the true one.

If one disbelieves in the rapture of the Church and believes that it is some kind of “Great Escape,” then it is easy to take verses from all over the Bible to refute it. Not because the Rapture is false doctrine, but because that isn't the purpose of the Rapture and knowing why provides valuable clues to when and how.

THE HOLY SPIRIT WILL NEVER LEAVE US

Two thousand years ago, Jesus Christ promised His disciples that when He ascended into Heaven, the Holy Spirit would come upon them and indwell them and empower them.That indwelling Power would come upon and indwell all who believed.

16 “ And I will pray the Father, and he shall give you another Comforter, that he may abide with you FOREVER;(my emphasis)
17 Even the Spirit of truth; whom the world cannot receive, because it seeth him not, neither knoweth him: but ye know him; for he dwelleth with you, and shall be in you.
18 I will not leave you comfortless: I will come to you.” (John 14:16-18)

Jesus promised that “the Comforter” would be with me and those He indwells forever and would never leave us.

SO DID JESUS TELL A WHOPPER? NO!

Let's examine the simplest questions first.

AMERICAN OVERSIGHT

What does it mean when Jesus Christ makes a promise to the Church? Is it reliable? What does "forever" mean?Is there a time constraint on forever? When would forever run out?Does abide forever mean "abide forever for every generation but one?" Meaning our generation as the tribulation begins? Houston, we have a problem. According to my paperback theology, the Comforter is:

"Even the Spirit of truth; whom the world cannot receive, because it seeth Him not, neither knoweth Him: but ye know Him; for He dwelleth with you, and shall be in you."(John 14:7)

So the Comforter, known as the Holy Spirit of God is the Spirit of Truth and He indwells me. That's what the Bible, my “paperback” theology teaches me which is part one of that promise. Part two of that promises is again in the Gospel of John repeated here:

16, And I will pray the Father, and He sshall give you another Comforter, that He may abide with you forever,

17 Even the Spirit of truth; whom the world cannot receive, because it seeth him not, neither knoweth him: but ye know him; for he dwelleth with you, and shall be in you.

18 "I will not leave you comfortless, I will come to you." (John 14:16-18)

Jesus plainly told the Apostle John in Revelation 3:

10 “Because thou hast kept the word of my patience, I also will keep thee from the hour of temptation, which shall come upon all the world, to try them that dwell upon the earth.

11 Behold, I come quickly: hold that fast which thou hast, that no man take thy crown.” (Revelation 3:10-11)

As I have spoken time and time again, the phrase in that preceding verses is the phrase “KEEP THEE FROM the hour of temptation”...which in Greek is the small, descriptive word “EK”...which if you do a Google search of that word, you will find this definition:

ἐκ • (ek) (governs the genitive) (of place) (of motion) Out of, from, with the source of to denote change from one place or condition to another, to express separation of distinction from a number , (of position) outside, beyond , (of time), from, since, (of particular points of time) just, after, during, in (of origin)

That is a long definition that was taken from a secular publication, but it gives the thought of being separated from the time and place of an event, even as “Harpazo” means being taken by force as Paul spoke of in 1st Corinthians 15 and 1st Thessalonians chp. 4 and ....Jesus told us plainly that we will be removed from the time and place of His coming wrath.

Do you as you read this message, see a contradiction in scripture from what the main stream religions spew out as their version of the Truth? So how do we resolve this obvious contradiction? There is only one way. First one way, is the Holy Spirit indwells me throughout the Tribulation period. Therefore, by the

AMERICAN OVERSIGHT

authority of God's Holy Spirit and the Word of God, specifically 1st John that covers that authority:
4 “Ye are of God, little children, and have overcome them: because greater is he that is in you, than he that is in the world.
5 They are of the world: therefore speak they of the world, and the world heareth them.
6 We are of God: he that knoweth God heareth us; he that is not of God heareth not us. Hereby know we the spirit of truth, and the spirit of error.” (1st John 4:4-6)
Since the indwelling Holy Spirit is greater than the powers of this world, and since He will never leave me or forsake me during the Tribulation, (if that position were true), then it is not possible that the Anti-Christ to overcome me and the Spirit of Truth indwelling in me, and making me pledge allegiance to him.
But that contradicts Revelation 13:
7 “And it was given unto him to make war with the saints, and to overcome them: and power was given him over all kindreds, and tongues, and nations.
8 And all that dwell upon the earth shall worship him, whose names are not written in the book of life of the Lamb slain from the foundation of the world.
9 If any man have an ear, let him hear.” (Revelation 13:7-9)
For the Anti-Christ to overcome an indwelt child of the Living God, he must defeat the Indweller.Unless the Holy Spirit no longer indwells me.And if He doesn't, did He ever? And if He did, and we know from scripture that all who believe on the Lord Jesus Christ, receive the Holy Spirit, then where did He go? And if He left me, how then can He do that and not break the promise of our Lord Jesus Christ to not leave us Comfortless? Remember that the Tribulation will be the greatest spiritual trial in all of human history.
And all through the history of the Church Age from those thrown to the lions in the Coll0sseum in Rome, to those that were massacred by ISIS and other terrorist groups in the Middle East recently, had the benefit of the Holy Spirit and I have to go through the Tribulation without the indwelling of the Holy Spirit and God will leave me Comfortless when I need Him the most?
Talk about contradictions. How does that work? If the rapture is the “great escape” from Tribulation for Christians, then wouldn't the opposite be when I need God and His support the most in all of human history and my mortal life and is suddenly without warning taken away?
For argument's sake, if I am in the Tribulation and indwelt by God's Holy Spirit, then why are there 144,000 Jewish evangelist, the two witnesses at the temple in Jerusalem, and the angels of God preaching the Gospel to mankind during this time? Is that not my job? What's wrong with using me and others like me who have God's Holy Spirit also? That was the Great Commission delivered to the Apostles by Jesus before He ascended back to the Father:

AMERICAN OVERSIGHT

18 “And Jesus came and spake unto them, saying, All power is given unto me in heaven and in earth.
19 Go ye therefore, and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Ghost:
20 Teaching them to observe all things whatsoever I have commanded you: and, lo, I am with you always, even unto the end of the world. Amen.” (Matthew 28:18-20)

SO WHAT IS THE SOLUTION?

If you take the positions noted above, the only one that makes sense and does not contradict what I just spoke of, in that the Holy Spirit will be with me always...and when God pulls His Holy Spirit from holding back rampant evil on this earth, then those who have God's Holy Spirit as a deposit of future glorification, will be removed at the same time. THEN, and only then will God reveal the Anti-Christ as Jesus opens the 1st seal of the title deed of His creation that He has bought with His own blood.

6 “And now ye know what withholdeth that he might be revealed in his time.
7 For the mystery of iniquity doth already work: only he who now letteth will let, until he be taken out of the way.
8 And then shall that Wicked be revealed, whom the Lord shall consume with the spirit of his mouth, and shall destroy with the brightness of his coming:
9 Even him, whose coming is after the working of Satan with all power and signs and lying wonders,” (2ndThessalonians 2:6-9)

The only Power that is holding back rampant evil being loosed on this world during the coming Tribulation, is God's Holy Spirit, and He dwells in every born again, washed in the blood Christian on this planet. And If God's Holy Spirit is being pulled back so that evil on this world can have full sway on an unbelieving, rebellious world, then those who have that deposit of God's Spirit dwelling within our own, will be removed as well. Either that then the Lord Jesus lied, and we know He cannot lie. SO HOUSTON to ground control, we are outta here when Jesus comes for His bride at the rapture.

THE GAP PERIOD BETWEEN RAPTURE & TRIBULATION

How long will the period be between the removal of the Church and the beginning of the Tribulation? It could be immediate, it could be days, or even years, as we are not plainly told. All we know from Revelation chp. 4 forward, that the Saints of God are not called the Church, not one time. They are called the elect or elders. That means, if that amount of time is months or years, then we have less time than what Jesus spoke of in parable of the fig tree.

29 “And he spake to them a parable; Behold the fig tree, and all the trees;
30 When they now shoot forth, ye see and know of your own selves that summer is now nigh at hand.
31 So likewise ye, when ye see these things come to pass, know ye that the kingdom of God is nigh at hand.

AMERICAN OVERSIGHT

32 Verily I say unto you, This generation shall not pass away, till all be fulfilled." (Luke 21:29-32)
We are that generation that saw the fig tree bloom, which is Israel in 1948. And the Psalms say that a generation is 70 years, 80 years by strength then we fly away, as written in Psalm 90....Note that Israel is 73 years old last year...so if we take the Lord literally, as I believe He was speaking as such, then 80 years is just around the corner. Simple math tells us we are in the last of the last days, and if there is a "gap period" we could be even closer than that. Only God knows.
Repeating that verse for emphasis about the church being removed:
10 "Because thou hast kept the word of my patience, I also will keep thee from the hour of temptation, which shall come upon all the world, to try them that dwell upon the earth.
11 Behold, I come quickly: hold that fast which thou hast, that no man take thy crown." Revelation 3:10-11)
Remember all these verses and hold onto them in faith with both spiritual hands and never let go, never waver, but believing.
Note that God will KEEP us from this hour of temptation, or tribulation that will try all who dwell upon the earth....these are called the nations, and they are separate from God's people.

SUMMARY OF WHAT WE HAVE LEARNED

The age of Grace began at Pentecost with the indwelling of God's Holy Spirit on those who accept Jesus as Savior and Lord of their life. That's a given.
God will remove His Holy Spirit back to Pre-Pentecostal times and the Anti-Christ will be revealed as scripture reveals.
Those who have God's Holy Spirit will be removed at the precise time that God pulls back from holding evil at bay and Satan will have full sway over the destiny of mankind to destroy them and those who worship the Beast.
Jesus promised He would never leave us Comfortless, or leave us forever.
Israel is the door to end time prophecy and Jerusalem the key per the fig tree parable Jesus spoke of.
The Anti-Christ, will overcome the saints of the Tribulation, as God's Holy Spirit has been pulled back. The AC cannot overcome the Church, as he can't overcome God, so it is another point for confirmation of the Pre-Tribulation Rapture of the Church.
The Promise to the Church is kept precisely as it was given by the Lord Himself.
Now, if one really works at it, one can find creative ways to portray the Rapture as the Great Escape and from there, all kinds of creative ways to dismiss it as paperback theology.
But the simplest answer is still the only one that makes sense using Occam's razor as the simplest answer is probably the most correct. What does the idea of Occam razor tell us? Definition follows:

AMERICAN OVERSIGHT

“Occam's razor. : a scientific and philosophical rule that entities should not be multiplied unnecessarily which is interpreted as requiring that the simplest of competing theories be preferred to the more complex or that explanations of unknown phenomena be sought first in terms of known quantities.” Sum it up as “keep it simple”...you know the rest.

One other point to consider.…….We all know that when Jesus comes to rule and reign for a 1000 years, that He will destroy all rebellion on earth and change those who are His into immortal/spiritual beings. If those who are in rebellion are destroyed and those who belong to our Lord are changed to spirit beings.. In the Post-Tribulation model, then who is alive to enter the Millennium as mortals? Answer!!..NO ONE...

Jesus is not coming back to rapture the Church, as that has been done 7 years prior, but is coming back to set up His kingdom on earth and those who have survived the “holocaust” of the AC and environmental disaster will repopulate the earth for that 1000 year reign and live extremely long lives, as Jesus will restore this planet as it was in the Garden of Eden and those who lived pre-Antediluvian lived lives approaching 900 years and beyond...The only model that makes sense and lines up with Bible Prophecy is the Pre-Tribulation rapture of the Church.

SO WILL YOU BE LEFT ON YOUR OWN?

It will be the most trying spiritual time in all of mankind's history upon the earth. Many will take the easy way out and be damned because of them taking the Mark of the Beast. Will you, if you be so unfortunate to endure that time?

9 And the third angel followed them, saying with a loud voice, If any man worship the beast and his image, and receive his mark in his forehead, or in his hand,

10 The same shall drink of the wine of the wrath of God, which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb:

11 And the smoke of their torment ascendeth up for ever and ever: and they have no rest day nor night, who worship the beast and his image, and whosoever receiveth the mark of his name.(Revelation 14:9-11)

It will be a time, when one can actually loose their salvation, because of all the trials and the threats of death by the Anti-Christ and his henchmen and giving in to the command to take the "mark of the beast" so they can live a little longer, or save their loved ones who are threatened with death.

With all the delusions that seem right, but are dead wrong, and those who actually have pleasure in their unrighteousness and think it's party time in the beginning at the rapture, as those who stood in the way of their “Utopia” have been removed.. But quickly will realize that the time comes to be “hell on earth” and there is no party, but severe physical, emotional, and spiritual torment that no man or woman should have to live through. Many will give into the threats

AMERICAN OVERSIGHT

forced on them and give into worshiping the Beast of Revelation. As Jesus told us when He spoke to the Church of Smyrna, but is speaking to us, as well:
10 Fear none of those things which thou shalt suffer: behold, the devil shall cast some of you into prison, that ye may be tried; and ye shall have tribulation ten days: be thou faithful unto death, and I will give thee a crown of life.
11 He that hath an ear, let him hear what the Spirit saith unto the churches; He that overcometh shall not be hurt of the second death." (Revelation 2:10-11)
The coming Tribulation will be beyond a mortals ability to describe, but since the offer is open and the gift is free, why not take God at His Word and accept His mercy and grace? Avoid something we deserve but do not receive because of His mercy, and receive grace or something we cannot earn, but is given freely by a Loving and Righteous Creator, God the Father, and our Lord Jesus Christ. His mercy and grace is only a prayer away, when you repent of your sins and take Him at His Word.
16 “For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.
17, or God sent not his Son into the world to condemn the world; but that the world through him might be saved.
18, He that believeth on him is not condemned: but he that believeth not is condemned already, because he hath not believed in the name of the only begotten Son of God. “ (John 3:16-18)
If you believe the above verses, then confess them to God and make that decision for Christ today.
8 “But what saith it? The word is nigh thee, even in thy mouth, and in thy heart: that is, the word of faith, which we preach;
9 That if thou shalt confess with thy mouth the Lord Jesus, and shalt believe in thine heart that God hath raised him from the dead, thou shalt be saved.
10 For with the heart man believeth unto righteousness; and with the mouth confession is made unto salvation.
11 For the scripture saith, Whosoever believeth on him shall not be ashamed.
12 For there is no difference between the Jew and the Greek: for the same Lord over all is rich unto all that call upon him.
13 For whosoever shall call upon the name of the Lord shall be saved.” (Romans 10:8-13)
In the end, let them scoff that it is a “Great Escape” as you and I know that it is not what God has it designed for, but I believe it can be summed up in three words...not the “Great Escape” but “VICTORY IN JESUS”. All we can do is pray for them and witness while we have time the wondrous glory of God's love for all of mankind. We are His ambassadors and it is up to us to reach those around us, our family, our friends, our co-workers, and the man/woman on the street. Jesus is coming soon, so don't be left behind.
This is pastor Mike Taylor, praying you make that decision for Christ today, and join me and others like me when we stand before our Savior. If you need

AMERICAN OVERSIGHT

prayer, counseling, or just a listening ear, email me at pastormiketaylor@yahoo.com, . God bless you all. TILL WE MEET AT JESUS FEET

As Prophesied in Isaiah, Mask Mandates Disappearing in Time for Final Redemption – Adam Eliyahu Berkowitz - https://www.israel365news.com/266101/as-prophesied-in-isaiah-mask-mandates-disappearing-in-time-for-final-redemption/

And He will destroy on this mount the shroud That is drawn over the faces of all the peoples And the covering that is spread Over all the nations Isaiah 25:7 (The Israel BibleTM)

While Canada is being rocked by its largest civilian protest ever (and convos around Israel joined in to show unity), Canadian and Israeli researchers joined in a study of the effects of COVID masks on children. A recent study led by researchers at Ben-Gurion University in Beersheba and York University in Toronto found that wearing a mask hindered facial recognition in adults. The recent study concluded that this problem is even worse in children and that this could lead to social difficulties. The study coincides with worldwide mask-mandate reversals. Since the study comes from Israel, this phenomenon could be a fulfillment of a little-known prophecy of Isaiah that is a sign of the final redemption.

THE BEST METHOD FOR MEASURING FACE PERCEPTION

Researchers used a children's version of the Cambridge Face Memory Test, considered the best method for measuring face perception abilities in humans, to test the children's ability to recognize faces with and without masks.

The study examined 72 children aged 6 -14, by showing them pictures of faces with or without masks, both upright and inverted.

They found that children's face-perception abilities were impaired by 20% as compared to about a 15% rate for adults.

THE NATURAL METHOD OF FACIAL RECOGNITION

Mask wearing has made it impossible for children to use the natural method of facial recognition which processes the face as a whole. Instead, the children learned to resort to an analytical approach for facial recognition when most parts of the face are covered.

The researchers wrote that difficulty in facial recognition due to masks in conjunction with social distancing "could potentially impact social interactions with peers and educators, as well as the ability to form important relationships."

THE HOLISTIC WAY FACES ARE PROCESSED

"Faces are among the most important visual stimuli. We use facial information to determine different attributes about a person, including their gender, age, mood, and intentions. We use this information to navigate through social

AMERICAN OVERSIGHT

interactions," said York University Assistant Professor Erez Freud, the study's senior author. "Not only do masks hinder the ability of children to recognize faces, but they also disrupt the typical, holistic way that faces are processed."
The study comes as many local governments in Canada and the US are repealing their mask mandates. On Monday, Oregon, New Jersey, Connecticut, and Delaware announced they will end indoor mask requirements for public places and inside schools.
California, which has enforced draconian pandemic measures until now,just announced they will end their universal indoor mask mandate next week and roll back other restrictions. LA County will continue to enforce the mask mandate.

REMOVING THE MANDATE

When asked on Monday about the lifting of the school mask mandate in New Jersey, Jen Psaki, the White House press secretary, pointed to C.D.C.'s guidance that masks can reduce virus transmission as justification for continued enforcement.
Though most provinces in Canada are still enforcing mask mandates, Saskatchewan and Alberta are moving to remove the mandate.

ISAIAH'S PROPHECY

Rabbi Yosef Berger, the rabbi of King David's Tomb in Jerusalem, noted that the Prophet Isaiah predicted that such a study leading to the removal of masks would emerge from Israel. He cited the verse:
And He will destroy on this mount the shroud That is drawn over the faces of all the peoples And the covering that is spread Over all the nations: Isaiah 25:7
The Hebrew word that is translated here as 'shroud' is masecha (מַסֵּכָה) which literally means a mask.

FOCUSED ON ISRAEL

"The Prophet Isaiah is telling us that the key to removing the masks will be focused on Israel, more specifically, Jerusalem," Rabb Berger said. "Israel is a tiny country but we have played a major role in the global pandemic with the nations watching us carefully. And nothing has united that world like this pandemic. Everyone in the world knows what COVID is. This unifying experience is preparing the world for when 'God will be One and His name will be One'."
"Taking off the masks is the first step towards ending the pandemic," Rabbi Berger said, citing the next verse in Isaiah.
He will destroy death forever. My Hashem will wipe the tears away From all faces And will put an end to the reproach of His people Over all the earth— For it is Hashem who has spoken. Isaiah 25:8
"Isaiah is describing the final ingathering when all the nations come to Jerusalem to praise hashem," Rabbi Berger said. "But, as the Prophet Isaiah stated, nobody can come to Jerusalem wearing a mask. This is an allegory, meaning that people must come as their true selves, but also literally. We are

AMERICAN OVERSIGHT

already seeing that these masks are a visible declaration of a person's belief. We are already seeing a new global community of people who believe in God who are easily identifiable by not wearing masks."

AMERICAN OVERSIGHT

End Of Internet Free Speech as We Know It? Content To Be Scanned for Approval – Jason Kelley - https://www.prophecynewswatch.com/article.cfm?recent_news_id=5205

Last year, Apple announced a controversial plan to install photo scanning software in every device. Apple has long been seen as a pro-privacy company--billboards emblazoned with the slogan "What happens on your iPhone, stays on your iPhone" were common sights in 2019. A global coalition pushed back, and the company paused the plan.

Now, Congress wants to force Apple's hand--along with essentially every company that allows users to store or share messages or content--and essentially mandate such scanning.

While Apple's plan would have put the privacy and security of its users at risk, the EARN IT Act compromises security and free speech for everyone. The bill would create serious legal risk for business that hosts content--messages, photos stored in the cloud, online backups--and, potentially, even cloud-hosting sites like those using Amazon Web Services, unless they use government-approved scanning tools.

The bill's proponents claim that this isn't a problem for any service as long as it is scanning files, and then reporting Child Sexual Abuse Material (CSAM) to law enforcement. Internet companies are already required to report suspected CSAM if they come across it, and they report on a massive scale that comes with a lot of mistakes.

Facebook is often held up as a positive example by lawmakers, but while new scanning techniques there have produced many millions of reports, many of them are apparently inaccurate. Federal law enforcement has frequently (mis)used the massive number of reports to suggest there has been a huge uptick in CSAM images. They won't stop there.

Nor will the demands stop at the U.S. border. Once U.S. law enforcement agencies are accustomed to getting a constant stream of reports back from nearly every company hosting or sending content online, other democracies--and then authoritarian regimes--will demand the same tools, and use them to root out dissent. The rules envisioned by EARN IT sponsors don't leave room for any company, small or large, to use uncompromised encryption and protect user privacy.

The bill would also create an unelected federal "commission" headed by the Attorney General and the Secretary of Homeland Security, and dominated by law enforcement personnel.This commission would be responsible for setting best practices for tech companies to follow.

It's very likely some states will use that as a basis to create laws enforcing scanning and reporting, upon pain of criminal prosecution and costly civil litigation. Because online companies operate in every state, they'll be required to follow whichever state law is harshest.

In fact, the lawmakers behind this bill have already made the plan clear: in a "Myths and Facts" document about the bill, lawmakers take aim at Amazon, of all companies, for its limited reporting of CSAM:

According to NCMEC's 2020 statistics on reports of the online exploitation of children, while Facebook issued over 20 million reports that year, in contrast Amazon (which hosts a significant percentage of global commerce and web infrastructure) reported 2,235 cases.

As Techdirt's Mike Masnick put it, that's because Amazon and Facebook are in completely different businesses. Facebook's larger number of reports is consistent with its business model of sharing content between users. Meanwhile, Amazon is in the entirely separate web hosting business.Apple, which is also not in the social media business, will no doubt also be in lawmakers' crosshairs.

In a 2019 Senate Judiciary Committee hearing on encryption, Senator Graham--a coauthor of the EARN IT Act--told representatives from Apple and Facebook that encryption was not going to block them from access: "You're going to find a way to do this or we're going to go do it for you."

Former Attorney General Bill Barr, who would have headed the commission under the previous administration, specifically clashed with Apple on its encryption and noted he was searching for a legislative solution to allow investigators access to encrypted materials. The EARN IT Act, originally introduced when Barr was still Attorney General, is just that.

EARN IT doesn't specifically attack encryption, but that's because it doesn't have to. Instead, it allows encryption to be used as evidence against a company in order to find it liable for hosting CSAM.

The end result is clear: state laws will make companies liable if they don't scan and report user content for CSAM, which they can't do unless they break encryption. Apple will likely fold, as will many other companies, in order to protect themselves. EARN IT would thus coerce sites, platforms, and services to do this sort of scanning, not just on messages, but on practically all online content, encrypted or not.

Companies that handle online content would have to weigh the benefit to their users of securely encrypting their content against the legal risk of doing so, and encryption becomes a much harder ask when it might put a company's bottom line at risk.

All of the concerns around Apple's device scanning are magnified in the EARN It Act. Signal--one of the best examples of secure, private, end-to-end encrypted messaging--stated in 2020 that they may not be able to operate in the U.S. if EARN IT becomes law. But end-to-end encryption isn't just for messages--it secures much of the internet, keeping you and what you do online private and safe.

You can't have a secure internet where all its content is also screened, because you can't have end-to-end encryption alongside mass scanning

requirements. This isn't just an attack on encryption--it's an attack on the fundamental security of the internet. As experts have said before, this sort of scanning is in direct conflict with privacy and security.
If EARN IT becomes law, what happens on your iPhone won't stay on your iPhone. It will be scanned by a government-approved tool like everything posted on Facebook. And what happens on your website, in your cloud backups, behind your DMs, and pretty much everywhere else online--will be right behind it.

Where are the Shepherds? - Nathele Graham - twotug@embarqmail.com

The history of Israel found in Scripture is a very important study. We can see what worked out well for Israel, but we can also learn from mistakes. Israel is a nation which was chosen by God, but they didn't always behave properly towards Him. When they rebelled against Him, they were judged, but when they walked in obedience to Him, they prospered. In Old Testament times, God chose certain men, known as prophets, to speak His words to His people. Prophets, like Ezekiel and Daniel, told exciting prophecies of what's happening today. Among other things, Ezekiel told of dry bones coming together, which foretold that Israel would come back to life, and in Daniel, we read prophecies about the coming Messiah, the Tribulation, and much more. God had given His chosen people the land we now call Israel, and when they entered it under the leadership of Joshua, God blessed them. Israel was a nation intended to be under the authority of God; He gave them His Law, but they wanted a king like other nations. God gave them Saul, a man who proved to be an inferior king. Saul wasn't the king God had desired for them, but is an example of running ahead of God with selfish desires. After King Saul committed suicide in battle, David became king. David was the one God had chosen and from his lineage the Messiah would be born.

David ruled well, but many years after David died, war divided the nation. The Northern Kingdom, known as Israel, turned to idolatry. They were ruled by very evil leaders, especially King Ahab and Queen Jezebel, who led the nation into idolatry. This didn't surprise God, who had the prophet Hosea speak to the nation. God knew that it was the shepherds (the priests) who were to blame, not the sheep (the people). The priests allowed idolatry to invade the places of worship. Idolatry and worship of false gods would destroy the Northern Kingdom. "My people are destroyed for lack of knowledge. Because thou hast rejected knowledge, I also will reject thee, that thou shalt be no priest to me; seeing thou hast forgotten the law of thy God, I also will forget thy children." Hosea 4:6. It was the religious leaders who didn't stand firm upon God's laws and allowed Ahab and Jezebel to force their pagan ways, including child sacrifice, upon the nation. God knew that if the shepherds had been true followers of the Lord and strong leaders

AMERICAN OVERSIGHT

of the people, evil wouldn't have been an issue. History shows that the Northern Kingdom did fall; they were taken captive by the Assyrians. Allowing evil leaders to legalize sin and idolatry can only cause God to bring judgment.
The Southern Kingdom didn't practice the level of idolatry that the Northern Kingdom did, but they did forsake God. Even a little idolatry is evil. These people didn't learn from the mistakes of their northern brothers, and they neglected God's law. Once again, God had a prophet speak to them and point out that it was the shepherds who allowed the sin. This time it was the prophet Jeremiah who spoke for God. "My people hath been lost sheep; their shepherds have caused them to go astray; they have turned them away on the mountains: they have gone from mountain to hill, they have forgotten their restingplace." Jeremiah 50:6. Jeremiah obeyed God and did all he could to turn the people and the religious leaders back to the right path of God, but his words weren't heeded. Because they turned from God, the Southern Kingdom fell to the Babylonians. Once again, it was those who should have been standing upon God's word and leading the people in His ways who were to blame. "Woe be unto the pastors that destroy and scatter the sheep of my pasture! saith the LORD. Therefore thus saith the LORD God of Israel against the pastors that feed my people; ye have scattered my flock, and driven them away, and not visited them: behold, I will visit upon you the evil of your doings, saith the LORD." Jeremiah 23:1-2.Instead of following the Law, they began compromising and cutting corners. Soon God allow them to be taken captive to Babylon. History repeated itself. Those who should have stood strong for God, failed in their leadership.
The nation of Israel was created by God when He called Abram (Abraham) out of the pagan life that surrounded Him. "Now the LORD had said unto Abram, Get thee out of thy country, and from thy kindred, and from thy father's house, unto a land that I will shew thee:" Genesis 12:1. He had to leave all pagan ties behind in order to serve the Lord, and that's true today. It may not be easy to break ties with family and friends, but if those ties hinder your walk with the Lord, they will stop you from serving Him. God further promised Abraham (Abram) that he would be the father of a great nation. "And I will make of thee a great nation, and I will bless thee, and make thy name great; and thou shalt be a blessing: and I will bless them that bless thee, and curse him that curseth thee: and in thee shall all families of the earth be blessed." Genesis 12:2-3. Indeed, in his old age, Abraham fathered Isaac, who in turn fathered Jacob (renamed Israel) who was the father of twelve sons…the 12 tribes of Israel. Israel became a great nation. In spite of struggles, the entire world is blessed because of Israel. Jesus Christ was born from the tribe of Judah, and anyone who places their faith in Him will have eternal life. Don't get the idea that God has turned His back on His people, Israel. Other prophets of God spoke prophecies making it clear that Israel will be reunited and reestablished in their God-given land. That miraculous rebirth of the nation of Israel began in 1948. Since then, many, many prophecies regarding Israel have been fulfilled, and more are on the verge of fulfillment, as we watch Russian gaining military strength and nuclear power in the hands of Israel's enemies. We

AMERICAN OVERSIGHT

are swiftly moving to the final stage of earth's history, and it will take the Tribulation period to bring Israel around to acknowledge that Jesus Christ is their Messiah. He will fight their final battle. Of course, He wins. Prior to the Tribulation, Christians will be called Home in the Rapture. If you study prophecy, you'll understand just how close we are to that long-awaited event. Does the shepherd of your congregation teach about that? If not, then you need to do your own study. Just as in the days of the Northern and Southern Kingdom, many shepherds of today are failing in their leadership. Christians are turning to pagan ways, such as Yoga. In the name of tolerance, pastors seldom speak out against sin, withhold Biblical knowledge, and false doctrine enters into congregations. Most pastors are happy to obey the pagan laws and keep silent on "controversial" issues, such as abortion and sexual diversity. God's word isn't silent, but pastors can't run the risk of jeopardizing the tax-exempt status by speaking God's truth and standing against evil. The shepherds of today seem to be the same as the shepherds of the Kingdoms of Israel.

Peter followed Christ, but when Christ was crucified, Peter hid. After the Resurrection, Jesus met with the disciples on the shores of Galilee and fed them a meal of fish and bread. After they ate, Jesus talked with Peter. "So when they had dined, Jesus saith to Simon Peter, Simon, son of Jonas, lovest thou me more than these? He saith unto him, Yea, Lord; thou knowest that I love thee. He saith unto him, Feed my lambs." John 21:15. Peter needed to feed the flock the word of God. Twice more, Jesus put that question to Peter, and told him "Feed my lambs" (John 21:16). Lambs need to learn to turn from the ways of the world and serve the Lord. "Feed my sheep" (John 21:17). Peter was not the first pope; he did obey Jesus and fed the flock. Sheep need to be fed on the deeper things of God to keep them strong and healthy. Many preachers today don't get past feeding lambs. God's words through Hosea were "My people are destroyed for lack of knowledge" Hosea 4:6a, and many pastors today are OK with that.

It's a great calling for a man to be called as a preacher, but it's a great responsibility. Scripture must be taught in truth and in its entirety. Line upon line and precept upon precept. Too many preachers teach the ideas of the particular denomination they serve, even if those ideas aren't consistent with Scripture. When asked about the end of the age, Jesus warned about deception. "And Jesus answered and said to them, Take heed that no man deceive you." Matthew 24:4. The shepherds need to feed truth to the flock, but the sheep need to study God's word in order to be properly fed and to recognize false teachers.

What's missing in our pulpits today? The Gospel truth. It seems more important to keep the pews and offering plates full than to feed healthy food from Scripture to the congregation. The Apostle Paul could have saved himself a lot of trouble if he would have compromised and tickled ears rather than spreading God's truth. He chose straightforward truth. In his farewell talk with the elders of Ephesus, he had a clear conscience. "And now, behold I know that ye all, among whom I have gone preaching the kingdom of God shall see my face no more. Wherefore I take you to record this day, that I am pure from the blood of all men. For I have not

AMERICAN OVERSIGHT

shunned to declare unto you all the counsel of God. Take heed therefore unto yourselves and to all the flock, over the which the Holy Ghost hath made you overseers, to feed the church of God, which he hath purchased with his own blood. For I know this, that after my departing shall grievous wolves enter in among you, not sparing the flock. Also of your own selves shall men arise, speaking perverse things to draw away disciples after them. Therefore watch, and remember, that by the space of three years I ceased not to warn every one night and day with tears." Acts 20:25-31. Paul was driven by the purpose of sharing the Gospel. If the shepherd of your flock is driven by any purpose other than Scriptural teaching of God's truth, then he isn't feeding the sheep with nutritious food. The Holy Spirit inspired the men who penned Scripture, but that's not true of most of the books written by men. Paul declared the Gospel, and therefore had done what was asked of him. He didn't use gimmicks to share the Gospel; he just spoke God's truth. If people rejected it, at least Paul had declared it.

In his second epistle, Peter assures us that signs and wonders are nice, but the word of God in prophecy is a light that shines in the darkness. We need to learn from the past, and study Scripture. Remember it was the shepherds (the priests) who allowed the downfall of both Kingdoms of Israel. There were two kinds of prophets. God's prophets are true prophets, "But there were also false prophets among the people, even as there will be false teachers among you, who privily shall bring in damnable heresies, even denying the Lord that bought them, and bring upon themselves swift destruction. And many shall follow their pernicious ways; by reason of whom the way of truth shall be evil spoken of. And through covetousness shall they with feigned words make merchandise of you: whose judgment now of a long time lingereth not, and their damnation slumbereth not." 2 Peter 2:1-3. Those blasphemers are working their evil today.

Jesus warned against false teaching, as did the men who wrote the epistles. If false teaching is coming from the pulpit, how can the flock know God's truth? Study Scripture yourself. All Bibles are translations, but not all translations are true to the meaning of the original language. Use a good concordance in order to understand what the original language means. Jude wrote about contending for the faith, and spotting false teachers. "Beloved, when I gave all diligence to write unto you of the common salvation, it was needful for me to write unto you, and exhort you that ye should earnestly contend for the faith which was once delivered unto the saints. For there are certain men crept in unawares, who were before of old ordained to this condemnation, ungodly men, turning the grace of our God into lasciviousness, and denying the only Lord God, and our Lord Jesus Christ." Jude 3-4. Even when Jude was alive, there were false teachers who perverted Scripture. Many of the false prophets of today write books that become best sellers because they tickle ears. "Likewise also these filthy dreamers defile the flesh, despise dominion, and speak evil of dignities." Jude 8. I remember when I was researching a best selling author, I learned that one Thanksgiving he had his flock host a dinner where Muslims and Mormons were the honored guests, and were served with turkey and all the trimmings. Really? In his second

AMERICAN OVERSIGHT

letter, the Apostle John warned the “elect lady” not to invite anyone in that does not confess the doctrine of Christ. Muslims and Mormons agree that someone named Christ walked the earth, but they have far different doctrines than taught by Scripture. Jude also addresses this. “These are spots in your love feasts of charity, when they feast with you, feeding themselves without fear: clouds they are without water, carried about of winds; trees without fruit withereth, twice dead, plucked up by the roots; raging waves of the sea, foaming out their own shame; wandering stars to whom is reserved the blackness of darkness for ever.” Jude 12-13. Beware of false teachers. even from your own pulpit.

The congregation in Corinth was being taught many false doctrines, and that concerned Paul. “But I fear, lest by any means, as the serpent beguiled Eve through his subtilty, so your minds should be corrupted from the simplicity that is Christ. For if he that cometh preaches another Jesus, whom we have not preached, or if ye receive another spirit, which ye have not received, or another gospel, which ye have not accepted, ye might well bear with him.” 2 Corinthians 11:3-4. Some false doctrines of today include: a different Jesus preached than what is found in Scripture, a different spirt than the Holy Spirit, and a different gospel than the Gospel of Truth. Mormons and Muslims may talk about Jesus, but they don’t worship Christ as God incarnate. Some shepherds promote “holy laughter’. That isn’t the Holy Spirit leading those poor deceived people. Christian Yoga? The same Old Serpent, Satan, who deceived Eve is deceiving many people today. Woe to the shepherds who lead the sheep down these paths.

If sound doctrine isn’t taught, deception will run rampant. Paul’s words to a young pastor named Timothy are important today. “Preach the word; be instant in season, out of season; reprove, rebuke, exhort with all longsuffering and doctrine. For the time will come when they will not endure sound doctrine, but after their own lusts shall they heap to themselves teachers, having itching ears; and they shall turn away their ears from the truth, and shall be turned unto fables” 2 Timothy 4:2-3. The flock may want to feed on junk food, but woe to the shepherd who continually feeds them popcorn and chocolate. Unlike Paul who spoke God’s truth no matter what, many shepherds today will have the blood of the congregation on their hands because they won’t teach truth. As time goes on, things will get worse. Paul warned Timothy “But evil men and seducers will wax worse and worse, deceiving and being deceived.” 2 Timothy 3:13. Be careful who you follow.

God didn’t blame the sheep, but held the shepherds accountable for the fall of the Northern and Southern Kingdoms of Israel. What deception and idolatry are the shepherds feeding the flock today? “This know also, that in the last days perilous times shall come. For men will be lovers of their own selves, covetous, boasters, proud, blasphemers, disobedient to parents, unthankful, unholy, without natural affection, trucebreakers, false accusers, incontinent, fierce, despisers of good, traitors, heady, highminded, lovers of pleasures more than lovers of God; having a form of godliness, but denying the power thereof: from such turn away. For of this sort are they which creep into houses, and lead captive silly women laden

AMERICAN OVERSIGHT

with sins, led away with divers lusts, ever learning, and never able to come to the knowledge of the truth." 2 Timothy 3:1-7. We are living in the last days. Be a wise sheep even if the shepherd is a poor leader.
Where are the shepherds? Many are frolicking with the wolves. Jesus is the Good Shepherd. Make it your goal to be a part of His flock.
God bless you all,

Daily Jot: Self-fulfilling policy - Bill Wilson – www.dailyjot.com

Some believe the government has gotten so big and overreaching that it no longer represents the people, but rather its own self-interest. Alexis de Tocqueville, a French philosopher and author of "Democracy in America" in two volumes (1835, and 1840), wrote in Volume II about the vibrance of the American system of government and how the virtue and spirit of the American people made government and freedom work. In this second volume, he astutely described, however, how "democracies" fall into a tyrannical reign through years of deception and growth of government. Tocqueville described the resulting power of such a government toward its citizens as "soft tyranny."
He wrote: "It covers the surface of society with a network of small, complicated rules, minute and uniform, through which the most original minds and the most energetic characters cannot penetrate, to rise above the crowd. The will of man is not shattered, but softened, bent, and guided; men are seldom forced by it to act, but they are constantly restrained from acting. Such a power does not destroy, but it prevents existence: it does not tyrannize, but it compresses, enervates, extinguishes, and stupefies a people, till each nation is reduced to nothing better than a flock of timid and industrious animals, of which the government is the shepherd." With dissent labeled "misinformation," corporations beholden to the government narrative, and media motivated by agenda, soft tyranny may be more prevalent than ever in US history.
The Department of Homeland Security February 7 issued a National Terrorism Advisory System Bulletin: "The United States remains in a heightened threat environment fueled by several factors, including an online environment filled with

AMERICAN OVERSIGHT

false or misleading narratives and conspiracy theories, and other forms of mis- dis- and mal-information (MDM) introduced and/or amplified by foreign and domestic threat actors." DHS says the threat hasn't significantly changed over the last year, but there is increased volatility in three main areas: "(1) the proliferation of false or misleading narratives, which sow discord or undermine public trust in U.S. government institutions;
"(2) continued calls for violence directed at U.S. critical infrastructure; soft targets and mass gatherings; faith-based institutions, such as churches, synagogues, and mosques; institutions of higher education; racial and religious minorities; government facilities and personnel, including law enforcement and the military; the media; and perceived ideological opponents; and (3) calls by foreign terrorist organizations for attacks on the United States based on recent events." The Government 's own policies on border security, protests that turn violent, police defunding, censorship of dissent, and mandates may be contributors to what DHS describes. Is this a warning about terrorism or to dissenting law-abiding citizens like parents questioning school board decisions? As Christ said in Matthew 24:4, "Take heed that no man deceive you."

Daily Devotion: The Cure for Comparison - by Greg Laurie – www.harvest.org

Then He appointed twelve, that they might be with Him and that He might send them out to preach. —Mark 3:14

https://harvest.org/resources/devotion/the-cure-for-comparison/ - Listen

Recently I watched a movie from my childhood about a military officer who recruited some prisoners for a special mission. This group was known as "the dirty dozen."

The 12 apostles whom Jesus called were not the dirty dozen, but they were very ordinary men. We might even call them questionable hires. But Jesus hand selected each one, and they could not have been more different from one another. In fact, as we look at them in the Scriptures, they might seem familiar to us. They're probably like relatives we have. No doubt about it, these apostles were an eclectic bunch.

We also read of several occasions in the Gospels when Jesus specifically took Peter, James, and John with Him. For instance, they were with them at the Transfiguration. We know that He took them when He went to raise the daughter of Jairus from the dead and when He went to pray in the Garden of Gethsemane.

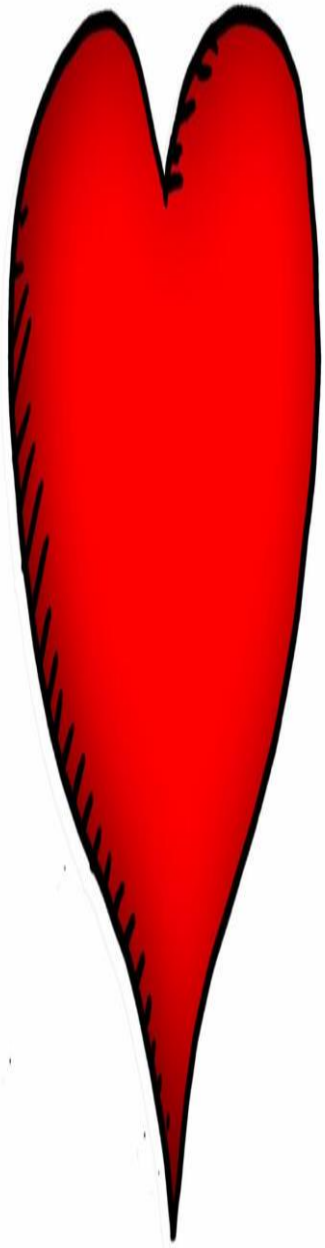
So, did Jesus take these three along because they were the more elite apostles? I have a different theory. Maybe the reason He kept them a little closer than everyone else was because He wanted to keep an eye on them.

One day Jesus revealed to Peter that he would be martyred for his faith. Peter immediately pivoted to John and said, "What about him, Lord?" (John 21:21 NLT).

AMERICAN OVERSIGHT

Then Jesus gave an amazing response: “If I want him to remain alive until I return, what is that to you? As for you, follow me” (verse 22 NLT).
Maybe you’ve looked at someone else’s life and said, “Lord, why are they being blessed more than I’m being blessed? Why did this tragedy befall me? Why are these things happening?”
Here’s Christ’s response to you: “What is that to you? You just follow me.”

AMERICAN OVERSIGHT



AMERICAN OVERSIGHT

FROM THE HEART

Let Us Make the Short Time We have Left, Count for ALL of Eternity!

IF YOU HAVE BEEN BLESSED THROUGH THIS MINISTRY, THEN WE ASK THAT YOU WOULD PLEASE REMEMBER PROPHECY UPDATE IN YOUR GIVING - WE ARE TRULY,TRULY,THANKFUL FOR YOUR SUPPORT

WORTHY OF YOUR SUPPORT?

One of the most reliable ways to determine if a ministry is worthy of your financial support is to examine its fruits. If Prophecy Update is keeping you informed, and if that information inspires you, and causes you to draw closer to the Lord, if Prophecy Update equips you with valuable information and knowledge to share with and encourage other believers, and open the eyes of non-believers, and if Prophecy Update keeps you connected to current events relating to Bible Prophecy, then you are partaking of the fruit produced through this ministry. None of this would be possible without the Lords blessings and your support. I believe where the Lord guides, the Lord provides, and most of the time He provides through the willing and generous hearts of believers just like you and me.

Humbly Seek Your Support

Prophecy Update has no corporate sponsors. This ministry is paid for and prayed for by readers and supporters. Without your support, there would be no Prophecy Update, Please pray about becoming a monthly supporter - thanks!

If ever there was a time to invest in God's Kingdom, it's now!

What on earth are you doing for Heaven's Sake?

"Share in the Blessings and Rewards that will last Forever!"

"Folks, it's all beginning to unravel. America is in more danger of falling than at any time in its history. But I believe Bible prophecy predicts this very decline. From this point on, we believers have to get serious. We are going to face discouragement, disillusionment and, most certainly, persecution in the time between now and the Rapture. But don't be discouraged or disillusioned. The coming turmoil will provide us unrivaled opportunities to share the good news of the Gospel. So be ready to share your faith and your hope with those who need Christ. We still have time to reap a great harvest of souls for God's kingdom!" - Hal Lindsey

1) We need your prayers!- We proclaim the Truth of the Word of God and we are under constant spiritual and sometimes even physical attack.
2) We need your encouragement!- We need to hear from you, let us know how the Lord is blessing you through this ministry so that we can share it with others.
3) We need your input! -If you have a prophetic article or story or if there is a news related item we missed, let us know.

AMERICAN OVERSIGHT

4) We need your financial support!- To put it quite simply, without your support, there would be no Prophecy Update.

I ask that you would prayerfully consider partnering with us to get the Word out and keep the world informed. Remember, your gift, no matter how small, does make a difference! You will be helping to touch lives, around the world, 24 hours a day, seven days a week, thanks to the internet your generosity carries a global impact! - Thanks!

Our Prayer for You- "Now he who supplies seed to the sower and bread for food will also supply and increase your store of seed and will enlarge the harvest of your righteousness. You will be made rich in every way so that you can be generous on every occasion, and through us your generosity will result in thanksgiving to God. This service that you perform is not only supplying the needs of God's people but is also overflowing in many expressions of thanks to God. Because of the service by which you have proved yourselves, men will praise God for the obedience that accompanies your confession of the gospel of Christ, and for your generosity in sharing with them and with everyone else." 2 Corinthians 9:10-13

AMERICAN OVERSIGHT

15 “When ye therefore shall see the abomination of desolation, spoken of by Daniel the prophet, stand in the holy place, (whoso readeth, let him understand:)
16 Then let them which be in Judaea flee into the mountains:
17 Let him which is on the housetop not come down to take any thing out of his house:
18 Neither let him which is in the field return back to take his clothes.
19 And woe unto them that are with child, and to them that give suck in those days!
20 But pray ye that your flight be not in the winter, neither on the sabbath day:
21 For then shall be great tribulation, such as was not since the beginning of the world to this time, no, nor ever shall be.
22 And except those days should be shortened, there should no flesh be saved: but for the elect's sake those days shall be shortened.” (Matthew 24:15-22)

As the hour approaches for the start of the Tribulation and the end of this present age, I have many Christians that email me and wonder “Are we in the Tribulation now, or can it get any worse that what we see already at the present?”....Some come to the erroneous conclusion that we are in the first part of the Tribulation, as the world is going stark raving mad. Environmental disasters of earthquakes, volcano eruptions, drought leading to famine in third world countries, ISIS that beheaded Christians in the Middle East, and nuclear threats from Iran and North Korea (and now Russia and China) leave many wondering if we are indeed, in the first years of the coming Tribulation. Are we?

The Lord God gave us definite signs of when the beginning of the Tribulation would start, and although I would agree that we are bumping right up to the time the Bible calls Jacob's trouble, we have not crossed that red line that says we in the Tribulation. Why do I say that?

THE PURPOSE OF THE COMING TRIBULATION

The Tribulation has a primary, secondary purpose and even a third reason for the time. From the perspective of Israel, the Tribulation has a primary purpose. From the prophet Daniel, that primary purpose is six fold:

"Seventy weeks are determined upon thy people [Daniel and the Jews] and upon thy holy city, [Jerusalem] to (1) finish the transgression, and to (2) make an end of sins, and to (3) make reconciliation for iniquity, and to (4) bring in everlasting righteousness, and to (5) seal up the vision and prophecy, and to (6) anoint the most Holy." (Daniel 9:24)

That primary purpose had been going on from the rebuilding of the Temple after the Babylonian exile and ancient Israel's return to her own land for 483 years, when Jesus rode into the city of Jerusalem riding on the back of a donkey.

AMERICAN OVERSIGHT

“Rejoice greatly, O daughter of Zion; shout, O daughter of Jerusalem: behold, thy King cometh unto thee: he is just, and having salvation; lowly, and riding upon an ass, and upon a colt the foal of an ass.” (Zechariah 9:9)
Thus Jesus fulfilled the prophecy in the 483rd year of the Prophecy and if Israel would have accepted their Messiah, then the Kingdom of God would have come upon the earth at that time, but that was not God's plan. Several days later, Jesus would be tried, convicted in a Sanhedrin court, sentenced by a Roman governor and crucified on a cross for the sole reason of being the Messiah they did not want to accept. Their image of their “political Savior” was a King David type, not this lowly carpenter who wanted to save them from their sins. They didn't need a Savior, (in their deceived thinking) as they had the law of Moses, which they didn't realize could not save them from being separated from God the Father for all eternity. They knew of the timing of the coming Messiah, and here He was standing right in front of them, but they didn't like His spiritual message of repentance.
When Jesus died on that cross, the time period of 490 years that Gabriel told Daniel would be required to fulfill that prophecy, stopped and has been on hold now for nearly 2000 years. That leaves a final 7 years of the prophecy to the nation of Israel on hold. God will complete His promise to the Jewish people in the near future.
But for the Church that was born at Pentecost because of the blood sacrifice Jesus paid, points 1-4 of the above verse was accomplished at the cross. The last two points of 5-6 are yet to be fulfilled, but neither of them apply to the Church anyway. The prophecy is for the Jewish people and of Jerusalem with a rebuilt Temple standing on the Temple Mount and the anointing of the Messiah taking place at the 2nd Coming of Jesus to reign and rule for a Millennium.
The primary purpose of the Tribulation, therefore, is to effect the national redemption of the Jews.
2 “But who may abide the day of his coming? and who shall stand when he appeareth? for he is like a refiner's fire, and like fullers' soap:
3 And he shall sit as a refiner and purifier of silver: and he shall purify the sons of Levi, and purge them as gold and silver, that they may offer unto the Lord an offering in righteousness.
4 Then shall the offering of Judah and Jerusalem be pleasant unto the Lord, as in the days of old, and as in former years.” (Malachi 3:2-4)
Israel will be refined through much persecution, until they recognize their Messiah that their forefathers rejected in 33 AD and they still do today.
There is a secondary purpose as outlined in Revelation chp. 9:
"Neither repented they of their murders, nor of their sorceries, nor of their fornication, nor of their thefts." (Revelation 9:21)
In reading the whole of chapters 6- 9 of this apocalyptic book, gives you the reason for the coming Tribulation. God is putting down all rebellion upon the

AMERICAN OVERSIGHT

earth, known as the “nations” who will not repent of their sinful lives, or give God any glory. But those who love their unrighteousness and sinful practices will not repent even in the face of this horrific judgment that is being poured out on them, and it only gets worse, much worse.

This secondary purpose is to purge this earth of unrepentant, rebellious mankind that rejects Christ as Lord of their lives. God will nearly wipe this planet clean of all human life. By definition, to be a Christian, one must repent of one's sins. So the Church has no purpose in God's judgment against these “unrepentant, lawless” sinners.

There is also a third reason for the Tribulation. It is to allow Satan full and free reign over the earth and its inhabitants. Among the many purposes of Heaven outlined in God's Word is the trial of Satan. At the conclusion of the Tribulation, there will no doubt remaining among the angels and the inhabitants of God's realm, (the saints of God) to the depth of Satan's guilt or the severity of the forthcoming punishment. This was prophesied in Isaiah what would become of Lucifer, now known as Satan (the adversary) when he was cast out of heaven when he proclaimed his infamous “I wills” to be like the Most High God....

"Yet thou shalt be brought down to hell, to the sides of the pit. They that see thee shall narrowly look upon thee, and consider thee, saying, Is this the man that made the earth to tremble, that did shake kingdoms; That made the world as a wilderness, and destroyed the cities thereof; that opened not the house of his prisoners?" (Isaiah 14:15-17)

HARPAZO OF THE CHURCH OF THE LIVING GOD

The doctrine of imminency teaches that Jesus could come at any moment and “snatch by force” His redeemed bride which is HARPAZO in the Greek that Paul spoke of in 1st Corinthians and 1st Thessalonians

15 “For this we say unto you by the word of the Lord, that we which are alive and remain unto the coming of the Lord shall not prevent them which are asleep.

16 For the Lord himself shall descend from heaven with a shout, with the voice of the archangel, and with the trump of God: and the dead in Christ shall rise first:

17 Then we which are alive and remain shall be caught up (HARPAZO) together with them in the clouds, to meet the Lord in the air: and so shall we ever be with the Lord.

18 Wherefore comfort one another with these words.” (1st Thessalonians 4:15-18)

What is the dictionary definition of what Paul wrote above of the HARPAZO, or being “caught up” in English..

1) to seize, carry off by force

2) to seize on, claim for one' s self eagerly

3) to snatch out or away

AMERICAN OVERSIGHT

The fulfillment of this passage could come at any moment, from the day of Paul until the starting point of the Tribulation. How do I know that it is confined to that period of time? Glad you asked. Because the Bible expressly promises us that the Tribulation will not start until Satan has total control over this earth. In order for Satan to have total control (and therefore no excuse) the indwelling presence of the Holy Spirit and His ministry of identifying and restraining evil must be removed.

Jesus promises that the Holy Spirit would indwell within me until He returns, as I am neither of the “house of Israel” or part of the Christ rejecting Gentile nations and have no part in the coming Tribulation, but the scripture says that the coming Anti-Christ will overcome the “saints” during the tribulation.

“And it was given unto him to make war with the saints, and to overcome them: and power was given him over all kindreds, and tongues, and nations.

And all that dwell upon the earth shall worship him, whose names are not written in the book of life of the Lamb slain from the foundation of the world.” (Revelation 13:7-8)

If the Holy Spirit must be 'taken out of the way' BEFORE the Antichrist can be revealed, which is the only logical way to interpret what Paul wrote in 2nd Thessalonians 2:7-9,

7 “For the mystery of iniquity doth already work: only he who now letteth will let, until he be taken out of the way.

8 And then shall that Wicked be revealed, whom the Lord shall consume with the spirit of his mouth, and shall destroy with the brightness of his coming:

9 Even him, whose coming is after the working of Satan with all power and signs and lying wonders,”

S0, if God is withdrawing the work of the Holy spirit, that would leave me comfortless, if as a Christian I am found to be still present during the time known as Jacob's Trouble, the Tribulation. If God has left me alone just when I need Him the most, then Jesus broke His Word, and we know Jesus cannot lie.

16 “And I will pray the Father, and he shall give you another Comforter, that he may abide with you FOREVER;(my emphasis)

17 Even the Spirit of truth; whom the world cannot receive, because it seeth him not, neither knoweth him: but ye know him; for he dwelleth with you, and shall be in you.

18 I will not leave you comfortless: I will come to you.” (John 14:16-18)

No matter how I try to read the above verses otherwise, I cannot be present during this time. Until the Holy Spirit is “taken out of the way” then that Wicked cannot be revealed, which is the Anti-Christ.

This may be confusing to some, but let us identify the players in the preceding verses listed above in 2nd Thessalonians 2:7-9. The “mystery of inquity” or the spirit of the Anti-Christ (1st John 4:3) "He who letteth". First, "he" is a personal

AMERICAN OVERSIGHT

pronoun, so this isn't a 'thing' to be taken out of the way, but a 'Him'. 'To let' is an old English phrase that signifies indwelling, as in the phrase, "Room to Let." When the verse speaks of “that Wicked” it is also a personal pronoun and in context, refers to the one whom Jesus will destroy at His Second Coming.
So in modern everyday English, the meaning of the passage says “the Anti-Christ won't be revealed until the Holy Spirit's presence is taken out of the way”...So the point of the passage that should not be any bone of contention, is that if the Holy Spirit is removed, and we have God's Holy Spirit within us, and Jesus will NOT leave us alone without comfort, then if the Holy Spirit is leaving, then so shall God's Church. Every born again believer on this planet will be removed at the very same instant as God's Holy Spirit. Since Satan cannot overcome God, and God is dwelling in me, then the Anti-Christ can't overcome me if I were still on the earth.
I cannot picture a situation in which I would lose the Holy Spirit's indwelling presence while I am still alive on this earth. It is unthinkable.
So now that I hope you can see that the Church will be removed prior to the Anti-Christ being revealed and we will not be subject to God's Wrath. Now some say that the first part of the Tribulation is promoted by Satan and evil men. Many try to say that God's wrath is not revealed until the 6th seal is opened, as the righteousness indignation of God's judgment is finally revealed...is that true? I ask you. Who is opening the seals of the “title deed to this earth” by removing all rebellion on the planet? From the first seal until the last, the author of this judgment is Jesus Christ the Lord. He is causing events to happen. He is using men to enact judgment on other lawless men, just as He used Babylon and Assyria as the iron rod of judgment on Israel for their lawless behavior and rejecting the laws of God. So here God is doing the same thing by using men to bring about the beginning of His wrath indirectly, but will show His indignation directly in subsequent seals of judgment. In chp. 6, the men of earth know who is causing the problems and the evil that befalls them, and they cry out:
15 “And the kings of the earth, and the great men, and the rich men, and the chief captains, and the mighty men, and every bondman, and every free man, hid themselves in the dens and in the rocks of the mountains;
16 And said to the mountains and rocks, Fall on us, and hide us from the face of him that sitteth on the throne, and from the wrath of the Lamb:
17 For the great day of his wrath is come; and who shall be able to stand?” (Revelation 6:15-17)

LET US ANALYZE THIS COMING TRIBULATION.

Where do we get seven years of tribulation? Some ask me that question and assert that there is no basis for it...
Daniel says that Antichrist rules for one 'week' -- or seven years.
27 “And he shall confirm the covenant with many for one week: and in the midst of the week he shall cause the sacrifice and the oblation to cease, and

AMERICAN OVERSIGHT

for the overspreading of abominations he shall make it desolate, even until the consummation, and that determined shall be poured upon the desolate." (Daniel 9:27)

I've even had some deceived notions that this above verse is speaking of Jesus causing a covenant to be broken in mid-week, but clearly it is speaking of an abomination of desolation that only happened one other time with Antiochus Epiphanes when he desecrated the Holy Temple and spawned the Macabbean revolt.

The first three and one half years are a period of false peace for Israel. Because of confirming a covenant with Israel, the coming Anti-Christ will reveal himself by enforcing a pre-existent covenant that is possibly the Oslo Accord from the earth 1990s or maybe even the Abrahamic Accords during time of Trump. The last three and one half years are a period of intense persecution and Great Tribulation for the Jewish people. It is the remaining 7 years left to fulfill the prophecy given by Gabriel to Daniel, that has been on hold for the Age of Grace that we have been living in for almost 2000 years now.

No matter how novel an interpretation one may develop to argue against the seven year period, Daniel also identifies it as a period of 2520 days, divided into two periods of 1260 days each. The first part is the Tribulation that causes a false peace for Israel, but is surrounded by unrest and war around the globe. The last 1260 days are known as the Great Tribulation, when the AC is revealed as the abomination that causeth desolation, and Israel will know they have made a pact deal with the devil. They will run for their very lives, but many will not believe the prophecy and will not escape into the wilderness, just as it was in 70 AD when those who believed fled to the mountain fortress in Petra, in the Jordanian wilderness. (see chp. 12 of Revelation v. 14-17)

Now to those who make a wishful thinking by asking the specific question "why cannot Christ's coming for His elect occur during the first half of the tribulation?" Scripture outlines a season (of tribulation) for the purpose of judgment that is to last seven years.

As mentioned, the tribulation is the not the time for the Church's redemption, it is Israel's time. The purpose in general is the refinement of Israel as silver is refined in the fiery furnace for purification, and the removal of rebellion and the judgment of the lost. The Church is being judged now in this Age of Grace. Those who have God's earnest deposit of His Holy Spirit residing within their own spirit have a guarantee of redemption and glorification when Jesus comes for His bride, His Church. The Church of the Living God is neither under judgment or in need of redemption. She has already been redeemed, and judged righteous by the blood of the Lamb, our Savior, Jesus Christ.

To not believe the above redemption of our bodies at the rapture of the Church is to believe that Jesus' sacrifice in His own blood on a roman cross was not good enough to save us to the uttermost. It is to believe in a type of Catholic purgatory that Jesus did NOT pay it all once for all time.

AMERICAN OVERSIGHT

WHAT IF WE DO HAVE TO SUFFER SOME OF THE TRIBULATION?

Some hypothesize, and its pure speculation, that if there is not a removal of the Bride of Christ before the Tribulation starts, could it not cause some to turn away from their faith, as was talked about in the gospels. They say, “won't there be some suffering on the part of Christians?”...”and if so, we are causing those to become discouraged and fall away”.

I agree that we shall not escape all suffering, as that has been part of the human condition since man was created. There is persecution and modern day martyrdom in such places as the Middle East, Communist China, and Central Africa. This is not an ancient concept, but continues to this day by evil men. There is a major difference between the sufferings of men at the hand of other evil men, by one phrase ...”The Wrath of God”. Tribulation saints differ from the Bride of Christ saved during the Age of Grace, or the Church Age. Those saved during this horrific seven years will have their metal tested as like no other period of time memorial. Evil is rampant. Satan seeks to destroy all mankind, but in the process gain worship for himself, and attempts to destroy all of the nation of Israel to make God out a liar. And I must point out again a major distinction between the saints of the Church age, and the Tribulation saints by God's Holy Word:

Of the Church Age saints, John writes:

"Ye are of God, little children, and have overcome them: because greater is He that is in you, than he that is in the world." (1st John 4:4)

During the Tribulation, it is the saints that are overcome:

"And it was given unto him to make war with the saints, and to overcome them: and power was given him over all kindreds, and tongues, and nations." (Revelation 13:7)

The same Apostle John wrote both verses. Is it not 'pure speculation' to assume that the differences in status are irrelevant? Two set of saints are not the same. The church Age is the Bride, the Tribulation saints will be the guest at the ceremony as they are in martyrdom.

A final question that has been kicked around on Christian forums I host, that is “if the pre-tribulation rapture of the church is true, how does that give God any glory. Wouldn't it be more glory to Him, if Christ appears amidst the persecution of His saints and rescues them from the Anti-Christ and Satan?” I am reminded of a verse that Jesus spoke to the Apostle Thomas, you now, doubting Thomas?

"Jesus saith unto him, Thomas, because thou hast seen Me, thou hast believed: blessed are they that have not seen, and yet have believed." (John 20:29)

Paul speaks of this very thing in Romans 8, which if we are saved by grace through faith, when Christ actually appears, how much faith will be necessary when you see Him in all His glory?

AMERICAN OVERSIGHT

24 “For we are saved by hope: but hope that is seen is not hope: for what a man seeth, why doth he yet hope for?
25 But if we hope for that we see not, then do we with patience wait for it.” (Romans 8:24-25)
As bad as it seems, and my friend, it will get exponentially worse, from chp. 6 of Revelation till chp. 19 when the Saints of God come back on white horse clothed in linen, white and clean following the Lord of Lords, and King of Kings….Jesus our God and Savior..
11 “And I saw heaven opened, and behold a white horse; and he that sat upon him was called Faithful and True, and in righteousness he doth judge and make war.
12 His eyes were as a flame of fire, and on his head were many crowns; and he had a name written, that no man knew, but he himself.
13 And he was clothed with a vesture dipped in blood: and his name is called The Word of God.
14 And the armies which were in heaven followed him upon white horses, clothed in fine linen, white and clean.
15 And out of his mouth goeth a sharp sword, that with it he should smite the nations: and he shall rule them with a rod of iron: and he treadeth the winepress of the fierceness and wrath of Almighty God.” (Revelation 19:11-15)
Jesus has come, rebellion has been put down. The saints rule the earth along with our Lord Jesus, and the Millennium starts and returns the earth to what it came from, perfection.
But of this writing, the Anti-Christ has not yet been revealed. The peace treaty has not yet been confirmed. Temple worship has not yet been restored. All these are events that take place BEFORE the Great Tribulation begins. It is that termination of sacrifice that begins the Great Tribulation.
The Antichrist can't cause the sacrifice to cease until AFTER it has begun. That can't happen until the Jews possess the Temple Mount. The Antichrist cannot take his seat in the Temple of God, causing Israel to reject him, which kicks off the Great Tribulation, until AFTER there is a Temple to sit in.
None of this has happened, but make no mistake, it could happen almost overnight. These events noted just in the preceding two paragraphs are totally INDEPENDENT of the rapture of the Church. None of them exist because we are not in the Tribulation just yet, but it's right over the near horizon and is looming larger and larger with each passing day. We are indeed close, but we are not quite there yet...Reader take warning. I urge you to believe on the only begotten Son of God, slain from the foundation of the earth, and miss this coming Tribulation, by grace through faith.
16 “For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.
17 For God sent not his Son into the world to condemn the world; but that the world through him might be saved.

AMERICAN OVERSIGHT

18 He that believeth on him is not condemned: but he that believeth not is condemned already, because he hath not believed in the name of the only begotten Son of God." (John 3:16-18)
8 "But what saith it? The word is nigh thee, even in thy mouth, and in thy heart: that is, the word of faith, which we preach;
9 That if thou shalt confess with thy mouth the Lord Jesus, and shalt believe in thine heart that God hath raised him from the dead, thou shalt be saved.
10 For with the heart man believeth unto righteousness; and with the mouth confession is made unto salvation.
11 For the scripture saith, Whosoever believeth on him shall not be ashamed." (Romans 10:8-11)
This is Pastor Mike Taylor, praying to see you standing in front of our Lord Jesus, when we all receive the rewards done in our body for service...If you should need prayer, counseling, or just a friendly listening ear, contact me at pastormiketaylor@yahoo.com, or visit me online at www.pastormiketaylor.blogspot.com, for more biblical messages straight from your Bible...God bless you all...TILL WE MEET AT JESUS FEET

Before We Go To War, Let's Take A Look At The Current State Of The U.S. Military... - by Michael Snyder -

http://theeconomiccollapseblog.com/before-we-go-to-war-lets-take-a-look-at-the-current-state-of-the-u-s-military/

If we are going to have a war with Russia, perhaps we should determine if our military is actually prepared to fight such a war first.Unfortunately, as I will detail below, the answer is very clear.At one time, the U.S. possessed the greatest fighting machine ever assembled, but decades of neglect, incompetence and cultural deterioration have taken a devastating toll.Just look at what happened in Afghanistan.After nearly two decades of fighting, we couldn't even defeat a ragged bunch of drug dealers and goat herders known as the Taliban.In fact, the Taliban appears to be even stronger today than when we first invaded.And now we think that we can take on the Russian military?
Sadly, the truth is that we aren't ready for any sort of a major conflict at this stage.Earlier this week, I came across an article that explained that only about 7 out of every 10 Air Force planes is even capable of flying right now...
The latest numbers show that the Air Force has made no progress in improving the readiness of its planes with a rate of 71.5% or 7 out of 10 planes in 2021.
The United States Air Force is supposed to have mission capable rates of 75% to 80%, but about the only aircraft that meet that criteria are the unmanned

AMERICAN OVERSIGHT

drones. The high ratings of the drones disguise the fact that the actual numbers, when broken down by aircraft, are worse.
The F-35As, the fifth-generation fighters that would be crucial in countering any sizable aerial engagement with Communist China, dropped catastrophically from 76% to 68.8%.
We are supposed to be the most technologically advanced military on the planet.
That is terrible.
And when members of the U.S. Army were asked if their units were ready to fight, the survey results were depressingly low…
In a survey of more than 5,400 soldiers and civilians of different ranks conducted by the U.S. Army in July and August 2020, 14 percent of respondents said their unit would be ready to deploy, fight, and win anywhere in the world immediately. Some 13 percent of those surveyed said they would need more time, while 3 percent said they would be ready to go in a week, and 4 percent in a month.
How can things possibly be this bad?
Our military has one job.They are supposed to be ready to fight when we call on them.
So precisely how are they spending their time if they have not been using it to do that one job?
The U.S. Navy is not in great shape either.
Right now, our Navy consists of only 296 vessels…
In FY 2022, fleet size stays about the same, at 296 ships. Previously ordered ships arrive in large numbers, but the Navy retires 15 ships, 10 early. Navy active-duty personnel decrease by 1,600 to 346,200.
296 ships may sound like a lot, but for a superpower like the United States it is actually a pathetically low number.
In fact, the number of ships in our fleet has almost been cut in half since Ronald Reagan's second term in office...
The 600-ship Navy was a strategic plan of the United States Navy during the 1980s to rebuild its fleet after cutbacks that followed the end of the Vietnam War.[1] The plan, which originated with Republican leaders, was an important campaign plank of Ronald Reagan in the 1980 presidential election, who advocated a larger military and strategic confrontation with the Soviet Union. The actual number of ships peaked at 594 in 1987, before declining sharply after the end of the Cold War in 1989–1991.
Looking forward to the future, things look even more grim.
At this point, over 70 percent of young Americans are automatically disqualified from military service for one reason or another…
More than 70% of young Americans remain unable to join the military due to obesity, education problems, or crime and drug records. Turning that around

AMERICAN OVERSIGHT

should be an issue of national importance, said Rear Adm. Dennis Velez, the head of Navy Recruiting Command.

"It is something that, as a nation, we should continue to work though … to make sure our children are healthier," he said.

If that doesn't alarm you, it should.

And thanks to the soft and comfortable lifestyles that our young people enjoy today, those that make it through the recruitment process are more physically fragile than ever before…

According to a U.S. Army major, America's youth are living a sedentary life that makes them fragile, prone to injury, and harder to successfully and easily transition from civilian life to the military. The news comes from an official press release posted on the Defense Visual Information Distribution Service, a hub of official pictures, videos, and news published by the Pentagon

When one military official was asked about this, he stated that this generation actually has weak skeletons which "break more easily"…

When asked about the youth of today, Maj. Thibodeau was straightforward. "The 'Nintendo Generation' soldier skeleton is not toughened by activity prior to arrival, so some of them break more easily," he said.

Capt. Lydia Blondin, assistant chief of physical therapy at Leonard Wood Army Community Hospital, detailed the kind of injuries she's seen in the so-called Nintendo Generation. "We see injuries ranging from acute fractures and falls, to tears in the ACL, to muscle strains and stress fractures, with the overwhelming majority of injuries related to overuse," she said.

Wow.

But at least our military is extremely good at making diversity videos…

After seeing how "inclusive" we are, I am sure that the Russians must be shaking in their boots.

Sending our sons and daughters off to die in a war on the other side of the globe is not something that should ever be done lightly.

And a war with another superpower is something that we should try very hard to avoid even if our military was in top shape.

Unfortunately, our military is nowhere near ready for such a conflict at this point, and our leaders should be honest with the American people about this.

But of course most of the population is going to continue to assume that the U.S. military is still the mighty fighting force that it once was, but that hasn't been true for a very long time.

AMERICAN OVERSIGHT

The Church in The Metaverse – John Stonestreet - https://www.prophecynewswatch.com/article.cfm?recent_news_id=5224
Futurists and tech industry gurus have long promised a utopia where humans aren't dependent on pesky biological or geographical realities. Behind yesterday's cyberspace and today's "Metaverse" is the same idea. In a brave

AMERICAN OVERSIGHT

new world of digital existence, humans can be freed from bodies, specific locations, and other physical limitations.

Digital technology made it possible for churches to pivot and continue in the early, uncertain days of the pandemic. Many congregations have chosen to keep their live-streaming option on offer, in order to accommodate their older, more vulnerable, or physically distant constituents. Other churches have taken it a step or two further.

Some have opted for an online-only congregation, abandoning a physical building and physical gatherings altogether. Others are starting "churches" in Facebook's new Metaverse, where people, or their avatars, can "come" to church from anywhere in the world with other people, or their avatars, who join from anywhere in the world.D.J. Soto, a pastor at what is called VR Church in the Metaverse, recently claimed, "The future of the church is the metaverse... in the church of 2030, the main focus is going to be your metaverse campus."

On one hand, such innovation is just the latest chapter in a longer history. Churches have long employed new technologies and methods to reach the sick or infirmed, particularly in times of crisis, and keep them connected with the wider Church. Evangelicals, in particular, have a long tradition of using new technologies in the service of evangelism, including the printing press 500 years ago, the newspaper 300 years ago, the radio in the early 1900s, and the TV in the late 1900s. This commentary, BreakPoint, got its start on the radio.

But new technology and communication methods must be evaluated on more than whether or not something new "works." This new chapter is also about what the Church is.

Decades ago, Canadian philosopher Marshall McLuhan said, "The medium is the message." Put another way, the means used to tell a story will shape what is said. When it comes to Church, it can change the nature of what we kind of people we are. People aren't just inviting the world into the Church through new technology, they're moving the Church into the new realm of that technology. Such a move can have unexpected consequences.

While there's certainly cause for attempts to "reach people where they are," what we reach them with is what we reach them to. We must make sure any effort to communicate the Gospel doesn't reduce the Gospel to anything less than It is. Remember, Christ spoke of those who, in the Parable of the Sower, initially received the Gospel with joy, but, lacking root, turned aside when growing stopped being as convenient.

But there's also something else to consider. A disembodied Church assumes that a disembodied faith is possible. A Christianity lived only online encourages America's already existing "choose your own adventure" understanding of religion. Christianity is about more than content. Rather, its content cannot truly be lived outside of the context of real people in the real world.

AMERICAN OVERSIGHT

As Tish Harrison Warren put it recently in the New York Times, "Bodies, with all the risk, danger, limits, mortality and vulnerability that they bring, are part of our deepest humanity, not obstacles to be transcended through digitization." In contrast, a cyberspace "church" can be something akin to 2013's "Her," where an imaginary relationship with an online persona becomes preferable to the often painful and inconvenient nature of tangible reality. As someone from that movie puts it, "You always wanted to have a wife without the challenges of dealing with anything real," a line that could describe what too many seek from the Bride of Christ.

The faith of our fathers is not simply attending a performance, or even embracing a set of ideas about God or Jesus. A church without doctrine is a mere social club or an arbitrary special interest group, but a "church" that remains doctrinally correct but only connects online is a mere chat room.

A disembodied online existence makes it too easy to hide who and what we really are from those God has called us to love and be loved by. The Christian life cannot be fully lived online. God has called us to this time and this place, to times and crises that are uncomfortable and to people whose issues and ailments are unpleasant. The world in which God is making all things new is filled with real people and real problems, and these won't be mended in the illusive world of an online existence.

Trust and Obey - Nathele Grahams - twotug@embarqmail.com

As Christians, we have a guide for life. We have the Holy Spirit living inside of us to guide our steps day by day. We also have God's word…Scripture. "Thy word is a lamp unto my feet, and a light unto my path I have sworn, and I will perform it, that I will keep thy righteous judgments. I am afflicted very much: quicken me, O LORD, according unto thy word." Psalm 119:105-107. The Book of Psalms is a hymnal with deep meanings in each verse. Today we have many songs that we sing on Sunday mornings, but I often wonder how many people really pay attention to the words. I was one who sang the songs and didn't really think about the words. The tune was memorized, and I sang the words without really paying attention to what I sang. Shame on me! I've found that hymns can be little "mini-sermons". When we feel a joyful praise for God, what better song than to sing "How Great Thou Art". It speaks to the majesty of God. In times of distress, it's comforting to sing "It is Well With My Soul", And in times of awe over the amazing love and forgiveness God shows us, there's very few songs that can match "Amazing Grace". Sometimes we can become upset when God seems to not hear our prayers. When we feel far away from Him obeying, that's when by faith we need to trust Him. We also need to examine our life and see if we are His word.

TRUST AND OBEY

Written by John H. Sammis

AMERICAN OVERSIGHT

When we walk with the Lord in the light of His word,
What a glory He sheds on our way!
While we do His good will, He abides with us still,
And with all who will trust and obey.

When we first come to Jesus, there's usually a joy that carries us through whatever crisis we might be facing. As time goes on, sometimes we slip back into old ways of living. "Therefore if any man be in Christ, he is a new creature: old things are passed away; behold, all things are become new. And all things are of God, who hath reconciled us to himself by Jesus Christ, and hath given to us the ministry of reconciliation;" 2 Corinthians 5: 17-18. Faith in Christ should bring about a change in our ways. Scripture should guide our ways…it should be a lamp unto our feet and it should light our path so we follow Him. The "old man" is the sin nature we once found nothing wrong with, but if you've found salvation through the shed blood of Jesus Christ, then you are a new creation. Anger, pride, jealousy, and love of worldly things should have no place in your life. There are things inspired by Satan. "But ye have not so learned Christ; If so be that ye have heard him, and have been taught by him, as the truth is in Jesus: that ye put off concerning the former conversation the old man, which is corrupt according to the deceitful lusts; and be renewed in the spirit of your mind; and that ye put on the new man which after God is created in righteousness and true holiness." Ephesians 4:20-24. In the King James language, "conversation" means your way of life, so the old sinful way of life needs to give way to the way of Christ. Your way of life needs to be living for Christ.

Not a shadow can rise, not a cloud in the skies,
But His smile quickly drives it away;
Not a doubt or a fear, not a sigh or a tear,
Can abide while we trust and obey.

There will always be challenges in life that can cast a shadow over our faith. Health issues, death of loved ones, financial troubles, war, fear of news headlines, and much more. I have faced all of these issues in my nearly 70 years in this life. There have been many challenges to my faith, as I'm sure you've faced trials. Something I've learned is that Scripture is where truth is found. The truth is that I can always trust God to always be there. It's my attitude towards all the turmoil in life that makes a difference. As I watch prophecy unfold, I can either watch the secular news and let my mind and soul be troubled with all trouble and woe that Satan can unleash, or I can turn to God. I can trust Him, and if I obey His word, my soul is at peace with whatever this world has to throw my way. "Be careful for nothing, but in every thing by prayer and supplication with thanksgiving let your requests be made known unto God. And the peace of God, which passeth all understanding, shall keep your hearts and minds through Christ Jesus." Philippians 4:6-7. God's peace cannot be found anywhere or any way, but trusting and obeying Him.

Not a burden we bear, not a sorrow we share,
But our toil He doth richly repay;

AMERICAN OVERSIGHT

Not a grief or a loss, not a frown or a cross,
But is blessed if we trust and obey.
We are saved by our faith in the death, burial, and resurrection of Jesus Christ. We cannot earn our salvation, but we can earn treasure which is laid up in Heaven. It may sometimes seem as if this life isn't worth the pain. On the other hand, if we only see our own little world and the troubles therein, we cause our own pain and suffering. If we never experience the joy of our salvation if we don't look outside of our troubles and reach out to others in need. Instead of seeing things as being all about you, show compassion to others. Instead of being angry because someone hurt you or bruised your pride, look upon them as someone with their own hurts and wounded pride. As Jesus hung on the cross, He looked down upon the people who had beaten Him, mocked Him, whipped Him, and driven spikes into His hands and feet, He didn't call down curses upon them. He loved them. "Then said Jesus, Father, forgive them; for they know not what they do. And they parted his raiment, and cast lots." Luke 23:34. His blood flowed out of Him, and it was for you and me that He died. He forgives you of the many sins you commit daily, but if you ask Him, He will forgive you. He's forgiven me of so much, and I'm so grateful. "And when he had called the people unto him with his disciples also, he said unto them, Whosoever will come after me, let him deny himself, and take up his cross, and follow me."Mark 8:34. Everyone who heard knew exactly what the cross meant…it meant death. We are to put our selfish pride to death and follow Christ. Let go of the old things that keep you angry and upset, and, as Paul wrote to the Christians in Ephesus, "And be renewed in the spirit of your mind; and that ye put on the new man which after God is created in righteousness and true holiness." Ephesians 4:23-24. Trust Him and obey Him and you will find that your life will be filled with many blessings.
But we never can prove the delights of His love
Until all on the altar we lay;
For the favor He shows, for the joy He bestows,
Are for them who will trust and obey.
The Holy Spirit will open many doors for you to comfort others, because of what you've experienced in life. The good things and the bad things will allow you to empathize with other people. Give all to Jesus. Lay every hurt, every heartache, every angry word you've even spoken in hatred and anger upon the altar. Let these things live inside you no more. Let the Holy Spirit guide you to guide you to using your experiences in life to glorify God. You'll find that all the hurtful thoughts and words that boil up inside you, only hurt others, and they hurt you. "No servant can serve two masters: for either he will hate the one, and love the other; or else he will hold to the one, and despise the other. Ye cannot serve God and mammon." Luke 16:13. Allow Jesus to be your master and obey Him. Only He can be trusted.
Then in fellowship sweet we will sit at His feet,
Or we'll walk by His side in the way,
What He says we will do, where He sends we will go;

AMERICAN OVERSIGHT

Never fear, only trust and obey.
Fellowship. The Greek word is" koinonia" and means association, community, communion, joint participation". Can you even imagine the joy of one day sitting at Jesus' feet in pure and sweet fellowship? I long for perfect fellowship with Christ. Will that day come after my death, or will I be taken in the Rapture? I have no way of knowing, but I yearn for the Rapture. It will be then that my human nature to sin will be gone, and I will do His bidding with no doubt. Until then, I will do what I can here in this life to serve Him. Scripture tells us to be careful who we fellowship with "And be ye not unequally yoked together with unbelievers: for what fellowship hath righteousness with unrighteousness? And what communion hath light with darkness?" 2 Corinthians 6:14. Have fellowship with fellow believers and help each other to trust and obey Jesus.'
Trust and obey, for there's no other way
To be happy in Jesus, but to trust and obey
Are you happy in Jesus? If not, then maybe it's time to trust Him and obey Him. "Now unto him that is able to keep you from falling and to present you faultless before the presence of his glory with exceeding joy, to the only wise God our Saviour, be glory and majesty, dominion and power, both now and ever. Amen." Jude 1:24-25.
God bless you all,

Daily Jot: In the interest of public trust - Bill Wilson – www.dailyjot.com

The New York Times has finally caught up with what many of us have suspected all along—The Centers for Disease Control is withholding key COVID 19 data from the public, largely because CDC needs time to spin the data so it is not "misinterpreted." Recent data released by the CDC about the effectiveness of boosters in the under-65 age range omitted large portions of the 18-49 year old population group. Earlier, CDC stopped releasing data on breakthrough infections of the vaccinated. The Times reported that Kristen Nordlund, a CDC spokeswoman, confirmed the agency has been reluctant to make public the data

AMERICAN OVERSIGHT

it has collected “because they might be misinterpreted as the vaccines being ineffective.”

This is government-speak for the data not measuring up to the propaganda. For example, the CDC not releasing information on breakthrough COVID infections only delayed the inevitable: the vaccines neither prevented infection or transmission, casting cold water on the CDC narrative of the vaccines being “safe and effective,” which remains a staple of CDC vaccine promotion. Withholding data on the 18-49 population is very likely covering up what a Columbia University study, data from One America Life Insurance, many funeral homes, and Pfizer’s own confidential submission to the FDA already have confirmed: There is a huge side effect and death rate increase among the vaccinated of this age group.

A Columbia University study concluded that VAERS deaths are 20 times higher than estimated (up to 400,000 deaths in the US) and that the risks of COVID vaccination outweigh the benefits in children, young and middle age adults, and in older age groups with low occupational risk. An analysis of 2021 deaths by actuaries of OneAmerica, a $100 billion, 145-year-old Indiana life insurance company, indicates a death rate increase of 40% from pre-pandemic levels, with an alarming majority of deaths in primarily working-age people 18-64. Another study of death certificates by The Epoch Times corroborates this phenomena, reporting deaths among people aged 18-49 increased “more than 40% in the 12 months ending October 2021 compared to the same period in 2018-2019, before the COVID-19 pandemic.”

Meanwhile, random reports from certified funeral directors and embalmers are surfacing that there is up to a 90% increase in deaths of COVID vaccinated people with veins and arteries clogged by “strange, rubbery, worm-like clots.” Executive Director of the Vaccine Research Center Steve Kirsch estimated that vaccine related deaths could be as high as 676,000 in the past six months. This outcome could easily have been predicted by the Pfizer adverse event report to the FDA—had it been publicly released. Reported side effects on pregnant women, heart conditions, blood clots, anaphylactic shock, and lack of efficacy were withheld from the public as the government propagandized that the vaccine was “safe and effective.” In fact, the Appendix of the report lists 9 pages–472 lines and 2072 words–of “Adverse Events of Special Interest.”

The funeral directors all said that they were concerned about speaking up about the vaccine-related deaths because those who come forward questioning the government’s vaccine narrative are mocked, ridiculed, and reputations ruined. This has been the same treatment doctors received when questioning CDC’s mandated COVID protocols they believe caused thousands to die in hospitals. At a time when the Department of Homeland Security warns in its terrorist advisory that COVID misinformation undermines public trust in the government, these studies and facts indicate the government is undermining its own trust. Give us the information, let us decide for ourselves. As Christ said in John 8:32, “And you shall know the truth, and the truth shall make you free.” Truth is in the best interest of the public trust. If you can handle it.

AMERICAN OVERSIGHT

Daily Devotion: A Transformed Life - by Greg Laurie – www.harvest.org

Anyone who isn't with me opposes me, and anyone who isn't working with me is actually working against me. —Matthew 12:30

https://harvest.org/resources/devotion/a-transformed-life/ - Listen

A while back I received a letter from a young woman who attended one of our Harvest events. She wrote, "My life lately has been in the slumps. I was freaked out about school. I was having boyfriend trouble. I was stressed to the max, and to top it off, my family life hasn't been the greatest. I started to cut myself to cope with all of this. It was just hurting me more. I tried to stop, but I was addicted."

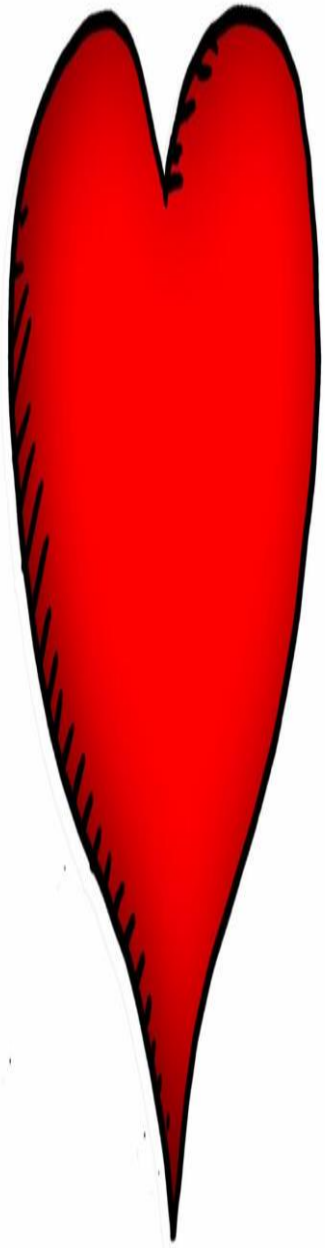
She went on to say, "I heard that Christ saves lives. So I decided to give it a chance, and after attending your service, I felt my like my life has made a complete turnaround. I committed my life to Jesus, and I decided to stop hurting myself. At the time I thought God would never forgive me for what I had done to myself and all the sins I committed. . . . God opened my eyes, and I'm now living my new life as a Christian."

Maybe you've lost hope in life. Christ is the answer. But you have a choice. Either you can ask Him to come into your life, or you can turn Him away. Jesus says, "Behold, I stand at the door and knock. If anyone hears My voice and opens the door, I will come in to him and dine with him, and he with Me" (Revelation 3:20 NKJV).

To not open the door and invite Him is a clear rejection, and Jesus said, "Anyone who isn't with me opposes me" (Matthew 12:30).

So what will you say to Jesus? Will you ignore Him or tell Him to go away? Or, will you say, "Come into my life right now"? No matter how big your problems are, God is bigger still. He can transform you. But you must call out to Him.

AMERICAN OVERSIGHT



AMERICAN OVERSIGHT

FROM THE HEART

Let Us Make the Short Time We have Left, Count for ALL of Eternity!

IF YOU HAVE BEEN BLESSED THROUGH THIS MINISTRY, THEN WE ASK THAT YOU WOULD PLEASE REMEMBER PROPHECY UPDATE IN YOUR GIVING - WE ARE TRULY,TRULY,THANKFUL FOR YOUR SUPPORT

WORTHY OF YOUR SUPPORT?

One of the most reliable ways to determine if a ministry is worthy of your financial support is to examine its fruits. If Prophecy Update is keeping you informed, and if that information inspires you, and causes you to draw closer to the Lord, if Prophecy Update equips you with valuable information and knowledge to share with and encourage other believers, and open the eyes of non-believers, and if Prophecy Update keeps you connected to current events relating to Bible Prophecy, then you are partaking of the fruit produced through this ministry. None of this would be possible without the Lords blessings and your support. I believe where the Lord guides, the Lord provides, and most of the time He provides through the willing and generous hearts of believers just like you and me.

Humbly Seek Your Support

Prophecy Update has no corporate sponsors. This ministry is paid for and prayed for by readers and supporters. Without your support, there would be no Prophecy Update, Please pray about becoming a monthly supporter - thanks!

If ever there was a time to invest in God's Kingdom, it's now!

What on earth are you doing for Heaven's Sake?

"Share in the Blessings and Rewards that will last Forever!"

"Folks, it's all beginning to unravel. America is in more danger of falling than at any time in its history. But I believe Bible prophecy predicts this very decline. From this point on, we believers have to get serious. We are going to face discouragement, disillusionment and, most certainly, persecution in the time between now and the Rapture. But don't be discouraged or disillusioned. The coming turmoil will provide us unrivaled opportunities to share the good news of the Gospel. So be ready to share your faith and your hope with those who need Christ. We still have time to reap a great harvest of souls for God's kingdom!" - Hal Lindsey

1) We need your prayers!- We proclaim the Truth of the Word of God and we are under constant spiritual and sometimes even physical attack.
2) We need your encouragement!- We need to hear from you, let us know how the Lord is blessing you through this ministry so that we can share it with others.
3) We need your input! -If you have a prophetic article or story or if there is a news related item we missed, let us know.

AMERICAN OVERSIGHT

4) We need your financial support!- To put it quite simply, without your support, there would be no Prophecy Update.

I ask that you would prayerfully consider partnering with us to get the Word out and keep the world informed. Remember, your gift, no matter how small, does make a difference! You will be helping to touch lives, around the world, 24 hours a day, seven days a week, thanks to the internet your generosity carries a global impact! - Thanks!

Our Prayer for You- "Now he who supplies seed to the sower and bread for food will also supply and increase your store of seed and will enlarge the harvest of your righteousness. You will be made rich in every way so that you can be generous on every occasion, and through us your generosity will result in thanksgiving to God. This service that you perform is not only supplying the needs of God's people but is also overflowing in many expressions of thanks to God. Because of the service by which you have proved yourselves, men will praise God for the obedience that accompanies your confession of the gospel of Christ, and for your generosity in sharing with them and with everyone else." 2 Corinthians 9:10-13

and Plan to Join Us!

Waukesha is the largest, most wealthy GOP Party in the State. **The Waukesha Machine drives the statewide GOP Machine.** They send something like 400-600 delegates to the State Convention.

For the last 20 years,
Waukesha County has pumped a
Ton of Raw RINO Sewage
into Wisconsin--

This MUST come to a Screeching Halt!!!!

We passed out **A LOT of hard-hitting/No Nonsense Patriot Issue Packets** including our packet to **Oust Tyrant Vos and Traitor Kapenga --** See attached.
(If you would like copies of the Oust Vos Resolutions passed by numerous parties, let me know...I have the Resolutions ready to send.)

The Old RINO Guard from Madison dutifully showed up....*likelyto Put Down Waukesha's Grassroots Members demanding change and accountability.*

The List of RINO Traitors that turned out include:
1) TRAITOR KAPENGA - WHO MUST BE REMOVED FROM OFFICE THIS YEAR
2) Pro-Abort Scott Fitzgerald
3) Girlieman Paul Farrow - State Party Chair
4) Traitor Steve Nass
5) BabyKiller/Environmental Extremist Amy Loudenbeck (HELP STOP her Secretary of State Campaign!)
(--there was a guy who looked like Scott Jensen who drove in - he is the former crook who held Vos' seat as Speaker of the State Assembly - in Fall 2002, he got caught up in the Caucus Scandal - earning him 3 felonies and 1 misdemeanor.)

Hold the Line, Patriots!
Demand VOS and KAPENGA
Be REMOVED from OFFICE!

Again, the GOP Needs
US FAR MORE than We Need Them!

>
> I am perplexed why an elected official like yourself would defy the people of WI of their rights to investigate the fraudulent 2020 election. You know for sure being on the front lines that there was fraud committed and yet you do nothing, why, bc you were involved with allowing drop boxes. You must have a press conference and explain to the people if WI why you wanted to help the democrats steal the election and explain yourself why you would throw your morals, dignity, and responsibility to the people out the window so easily. Do you really hate America that much like the democrat party does? Do you seriously want to see my great country turn into socialist Cuba, China, Venezuela. People are trying to understand your thinking Robin why you would stop or deter this investigation. I do agree that you no longer represent the people of WI any longer and it is time to do the right thing now and RESIGN. You have lost your way and no longer care about your constituents.

Wisconsin's Voting Machines Were Connected To The Internet During The 2020 Election

Dominion and ES&S were online and a Democrat operative ran Greenbay's election from his Hyatt Regency hotel room.

KanekoaTheGreat

Mar 4

AMERICAN OVERSIGHT

Michael Gableman, Mark Zuckerberg, and Michael Spitzer-Rubenstein

Last August, Wisconsin Assembly Speaker Robin Vos authorized the Office of Special Counsel (OSC), headed by retired state Supreme Court Justice Michael Gableman, to investigate concerns about the 2020 election. Gableman delivered an interim report to the state assembly on November 10, 2021.

Last Tuesday, Gableman delivered a second interim report to the Wisconsin Assembly's elections committee. Mr. Gableman wrote, "Ultimately, WEC's directives mandated that widespread "election fraud" be undertaken in relation to the November 2020 election."

Mr. Gableman vetted more than 90 nursing homes in five different counties before concluding there was "widespread election fraud at Wisconsin nursing homes in November of 2020."

AMERICAN OVERSIGHT

Liz Harrington @realLizUSA

Special Counsel Gableman: Wisconsin Election Commission left a "trail of victims" There are 92,000 nursing home residents in Wisconsin "In the Zuckerberg 5 cities, in all of those counties those nursing homes reported a voting rate of 100%, anywhere in between 95% and 100%."

March 1st 2022

1,050 Retweets **1,841** Likes

Mr. Gableman also found that $8.8 million in Zuckerberg grant funds directed solely to five Democratic strongholds in Wisconsin violated the state's election code's prohibition on bribery. He wrote, "The record created by public document requests shows that CTCL, a private company headquartered in Chicago, engaged in an election bribery scheme."

AMERICAN OVERSIGHT

Zuckerberg's CTCL grant money came with strings attached that created a two-tiered election system that treated voters differently depending on whether they lived in Democrat or Republican areas. Wisconsin's five largest cities—Milwaukee, Madison, Racine, Kenosha, and Green Bay—were invited to take CTCL's private money on the condition that they "increased in-person voting and absentee voting for targeted areas and groups".

These groups met particular demographic criteria which, Gableman wrote, "matched that of the Biden-voter profile".

Liz Harrington @realLizUSA

Special Counsel Michael Gableman says Facebook CEO's $8.8 million into Wisconsin's Democrat cities was election bribery in violation of the law

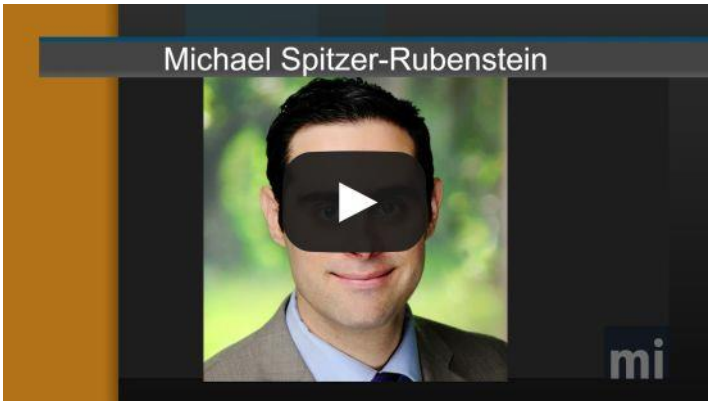
March 1st 2022

2,262 Retweets **5,144** Likes

Zuckerberg's grant money also hired "CTCL's partners for election administration". A New York lawyer and Democrat political operative, Michael Spitzer-Rubenstein was listed as a "CTCL grant mentor" who directed election administration in Green Bay.

Mr. Rubenstein provided instructions to Central Count workers, developed absentee voting protocols, and set up a wireless network for Election Day operations in his Hyatt Regency hotel room.

The Special Counsel wrote, "At Mr. Spitzer Rubenstein's instruction, there were three WiFi networks available. One was the general conference facility public network that would be available to members of the press and others. That network was password-protected, but the password was widely available. A second password-protected WiFi network was created for Central Count staff. Mr. Spitzer Rubenstein also directed that a third WiFi network be established, but that network was to be hidden and it was not to be password-protected. Spitzer Rubenstein also ensured that both networks reached his hotel room on the 8th floor."



AMERICAN OVERSIGHT

Two major machine manufacturers were identified in Wisconsin, Dominion Voting and ESS. In regards to Dominion, Mr. Gableman wrote, “These specific machines can be manipulated to alter actual votes cast— either surreptitiously or by the machine technicians.” He continued:

> “The OSC was able to identify, through the reports of experts, that the failed machine recorded two anonymous and unauthorized access events from its VPN. This means, contrary to what Dominion has publicly stated, that at least some machines had access to the internet on election night. Shortly after the unauthorized access was recorded, the machine failed and was reset, wiping all voting history and forcing that election administrator to rely on unverifiable paper printouts from the failed machine.”

In regards to ES&S, Gableman stated that the central problem was that “several of the machines are made with a 4G wireless modem installed, enabling them to connect to the internet through a Wi-Fi hotspot.”

One municipality under investigation in Wisconsin by the OSC admitted that these machines had these modems and were connected to the internet on election night. The reason given was to “transmit data” about votes to the county clerks.

This comes as no surprise as NBC News reported on January 10, 2020, that 14,000 ES&S tabulators were connected to the internet using wireless modems.

AMERICAN OVERSIGHT

The OSC learned that all machines in Green Bay were ES&S machines and were connected to a secret, hidden Wi-Fi access point at the Grand Hyatt hotel, which was the location used by the City of Green Bay on the day of the 2020 Presidential election.

The OSC discovered the Wi-Fi, machines, and ballots were controlled by, Michael Spitzer-Rubenstein, a single individual, who was not a government employee but an agent of a special interest group operating in Wisconsin.

The OSC spent a great deal of time looking into the use of a " ballot tracking and harvesting application" that was used in Wisconsin, Georgia, and Pennsylvania. The OSC discovered the application when "reviewing email exchanges between the Zuckerberg 5 and third parties".

AMERICAN OVERSIGHT

The OSC identified the developers and obtained the source code for the application. These cell phone apps were part of the Zuckerberg funded operation and they allowed the user access to the voter rolls and live updates on ballots received by a county.

The OSC also learned that cities had access to statewide WisVote and BadgerBooks data through an Application Programming Interface (API), which provided real time, free information to special interest groups who used that information for selective, racially-targeted get-out-the-vote purposes under the contracts.

Supreme Court Justice Michael Gableman will continue his investigation, but he has already confirmed that the voting machines were connected to the internet on election night, private money dictated policies that undermined state laws, and there was widespread fraud in Wisconsin's 2020 presidential election which was decided by 20,682 votes.

The fact that you hired Gableman who has been a conspiracy theorist to spend taxpayer money on an election that is past is a travesty. The fact that he keeps bringing up that the election can be invalidated by our electoral committee is becoming a farce and makes Wisconsin look like a bunch of rednecks.

I realize that there are some issues with the nursing homes, but is it blown out of proportion of what really happened. I think there are people out there trying to get their name in print and not telling the truth. You know the saying "tell a lie too many times and it becomes your truth".

There are way too many issues out there right now to dwell on an election that is past. Republicans put the WEC in place and I truly believe it belongs there.

Thank you for listening.

Dear Robin,
I would address you as Mr. Vos but that would give you some respect and I don't believe you deserve any at this time.

Many months ago you hired gableman to "investigate" the November 2020 election in order to try to sow discontent and "overturn" the presidential election in Wisconsin. You did not feel the state races which returned republicans to power were in doubt but just the fact that trump lost the presidency to Joe Biden, our current president.

Now this clown gableman has been given even more of our taxpayer money and many extensions on his time to return this searing report he is supposed to deliver. He has been a complete fool, and has stolen money from Wisconsin that will never come back to the state.

Where we could have put that money to use expanding our support for schools, or creating more equity in broadband to our rural areas, the list of good that could have been done is endless, instead we put our money down the ever circling drain of gableman and his conspiracy theories.

I urge you to accept a report of whatever gableman has found, if he has found anything, and stop the charade now.

Responses from Gableman regarding his so-called investigation illustrate just how farcical it is. What he is calling for is illegal and primarily based on belief. He is totally undermining democracy by calling to vacate a public election.

This illustrates even more keenly what a total, outrageous waste of money this has been. Terminate ALL contracts affiliated with Gableman's investigation NOW.

One also needs to question you. As an elected official you have thrown away taxpayer money to move towards the destruction of democracy. This is definitely NOT what a representative's job is. Stop this outrageous "investigation" now.

I read today, twice, the Journal Sentinel newspaper article on the Gableman report to Wisconsin Republicans specific to his investigation into the 2020 election.

My comments are few.

You, Mr. Vos, owe the Wisconsin taxpayers a refund for this baseless and embarrassing political charade with no proof or legal merit. And, may I suggest that you and Gestapo Gableman consider seeking careers with Mike Lindell, the PillowGuy, as your lies, deception, and conspiracies align right up there with his.

WISCONSIN DESERVES BETTER!

AMERICAN OVERSIGHT

Office of the Special Counsel

Second Interim Investigative Report

On the Apparatus & Procedures of the Wisconsin Elections System

Delivered to the Wisconsin State Assembly on March 1, 2022

AMERICAN OVERSIGHT

Table of Contents

Introduction

Statement of Progress

Chapter 1: The Center for Tech and Civic Life's $8,800,000 Zuckerberg Plan Grant with the Cities of Milwaukee, Madison, Racine, Kenosha and Green Bay (the Zuckerberg 5 Cities) Facially Violates Wisconsin Law Prohibiting Election Bribery.

Chapter 2: The Motive for These Grants Was Impermissible and Partisan Get Out the Vote Efforts (GOTV).

Chapter 3: Government Oversight Has Been Obstructed by Governmental and Outside Corporate Collusion.

Chapter 4: This Collusion and Entanglement Also Caused a Host of Questionable Actions by the Zuckerberg Five.

Chapter 5: Corporate Legal Defense to Facilitate Obstruction Might Violate the Wisconsin Ethics Code.

Chapter 6: Wisconsin Election Officials' Widespread Use of Absentee Ballot Drop Boxes Facially Violated Wisconsin Law.

Chapter 7: The Wisconsin Elections Commission (WEC) Unlawfully Directed Clerks to Violate Rules Protecting Nursing Home Residents, Resulting in a 100% Voting Rate in Many Nursing Homes in 2020, Including Many Ineligible Voters.

Chapter 8: WEC Also Unlawfully Encouraged Evasion of Ballot Security Measures Related to "Indefinitely Confined" Voters at the Behest of Outside Corporations.

Chapter 9: Wards Under Guardianship Orders (and Legally Prohibited from Voting) Voted Unimpeded by Wisconsin's Election Officials as They Are Not Recorded in the WisVote Voter Database, Even Though the Circuit Courts Have This Information.

AMERICAN OVERSIGHT

Chapter 10: Non-citizens Voted Unimpeded by Wisconsin's Election Officials as They Are Not Recorded in the WisVote Voter Database, Even Though Wisconsin Law Requires Citizenship to Vote.

Chapter 11: Milwaukee, Madison, Racine, Kenosha, and Green Bay Election Officials May Have Violated the Federal and Wisconsin Equal Protection Clauses by Not Treating All Voters Equal in the Same Election.

Chapter 12: Recommendations

Chapter 13: Conclusion

Appendix I: Litigation Summary

Appendix II: Decertification and the Electoral Count Act

AMERICAN OVERSIGHT

Introduction

The Office of the Special Counsel files this Investigative Report on Wisconsin's administration of the 2020 elections as a first step to begin restoring faith in America's elections. This effort is undertaken because Americans' faith in its election system was shaken by events both before and after the November 2020 Presidential election. For example, a January 2022 ABC/Ipsos poll revealed that only 20% of the public is very confident about the integrity of our national election system. This 20% number is a significant drop from 37% from a similar ABC poll conducted one year earlier. America's doubts about its election system crosses partisan lines. Among Democrats, only 30% say they are "very confident" in the U.S. election systems overall. Among independents, only 20% consider themselves "very confident" in the nation's elections. Among Republicans, only 13% are "very confident" with America's elections.

This shaken faith is not a result of legitimate legislative inquiries into election administration, nor is it a result of lawful contests lodged by any candidate or party. Rather, it is largely a function of opaque, confusing, and often botched election processes that could have been corrected, and still can be corrected, with concerted effort on the part of lawmakers and conscientious civil servants who work for Wisconsin State government. Helping correct these processes for future elections is the major purpose of this Report.

On November 10, 2021, the Office of the Special Counsel (OSC) outlined the preliminary steps it had taken to undertake a fully comprehensive review of the 2020 elections in the State of Wisconsin. That document outlined the constitutional authority of the people of the State of Wisconsin, through their Legislature, to investigate their own

AMERICAN OVERSIGHT

government. That Interim Report also outlined the initial roadblocks to a full investigation, and expressed the expectation that the information necessary to provide democratic accountability for and oversight of Wisconsin election proceedings was forthcoming. As outlined in Appendix I, OSC and the Assembly continue to be blocked from investigating portions of the Wisconsin government. Not only has the Wisconsin Attorney General intervened (and lost) in court to block certain subpoenas, and not only have left-wing groups provided support adverse to Wisconsin taxpayers—for instance by providing legal support to government employees seeking to keep their work secret, filing dilatory open records requests, and advancing frivolous complaints before various boards—but the Administrator of the Wisconsin Elections Commission (WEC) has explicitly stated to the Chairwoman of the Assembly Committee on Campaigns and Elections that she is prohibited by law and by private contract from turning over certain public records. Until these lawsuits are resolved, there appears to be no way to fully vindicate the right of the people of the State of Wisconsin to know how their government is run. Such lawsuits have proved a costly and time-wasting exercise.

Nevertheless, the OSC has continued to investigate available records, interview witnesses, and make substantial headway on several issues contained in this report. Further, good work by citizens' groups has provided the Assembly and the OSC with useful leads on how best to cure various systemic problems in the State.

While WEC and the State Attorney General have refused to cooperate with the Legislature's investigation and actively obstructed it, this Report is final in the sense that

AMERICAN OVERSIGHT

it provides a list of recommendations with enough time for the Legislature to act before the close of its session in March. However, the Assembly continues to authorize the OSC to operate past the final adjudication, on the merits, of the various legal challenges to the valid legislative subpoenas we have issued. Following any favorable adjudication, the OSC will manage and process the voluminous responsive records, and will facilitate any available audits.

Despite this cover-up, or perhaps because of it, the OSC can still reach certain conclusions about the integrity of election administration in the State of Wisconsin, and we can still make baseline recommendations. While we cannot, for example, recommend certain server protocols because we have been unable to obtain government records detailing precisely what the numerous electronic systems entail (Wisconsin uses numerous machine and system vendors) or precisely how the existing systems were used in 2020, we do have information relating to how confusing and opaque the system is. It is beyond doubt that no single governmental person or entity in the State of Wisconsin has a handle on these systems—that is a damning indictment on its own. Elections systems must be readily understandable by voters and newly elected county clerks—confusing systems harm voter confidence and tend to facilitate fraud.

The facts contained in this report are substantiated by records the OSC has made available to the Assembly and other public information. To the extent that any of these facts are disputable, the OSC encourages any individual named in this Report, any subject

AMERICAN OVERSIGHT

of validly issued legislative subpoenas, or any other fact witness to make themselves available to the OSC for interview.

Accordingly, at this stage, the recommendations included in this Report largely fall within the umbrella of enabling oversight and transparency of our election systems. It draws no conclusions about specific, unauthorized outside interference or insider threats to machine voting, but it does provide numerous examples of security gaps that tend to enable bad actors to operate in the shadows. Absent access to these systems, it would not be unfair for any citizens to conclude the worst, however. It is a commonplace in the law for it to assume the worst about the nature and impact of hidden or destroyed evidence, and it is up to government to justify its actions to the people, not the other way around.

A few additional recommendations in this Report fall within the second umbrella—maintaining political accountability. While it is clear that the outside groups and the bureaucrats in Madison who run our elections have not been accountable to the voters or the state government, there are some measures that can help return our State to a functional democracy.

This Report has another purpose: to catalog the numerous questionable and unlawful actions of various actors in the 2020 election.

Some unlawful conduct and irregularities outlined in this Report include:

1. Election officials' use of absentee ballot drop boxes in violation of Wis. Stat. § 6.87(4)(b)1 and § 6.855;

2. The Center for Tech and Civic Life's $8,800,000 Zuckerberg Plan Grants being run in the Cities of Milwaukee, Madison, Racine,

AMERICAN OVERSIGHT

Kenosha and Green Bay constituting Election Bribery Under Wis. Stat. § 12.11;

3. WEC's failing to maintain a sufficiently accurate WisVote voter database, as determined by the Legislative Audit Bureau;

4. The Cities of Milwaukee, Madison, Racine, Kenosha and Green Bay engaging private companies in election administration in unprecedented ways, including tolerating unauthorized users and unauthorized uses of WisVote private voter data under Wisconsin Elections Commission (WEC) policies, such as sharing voter data for free that would have cost the public $12,500;

5. As the Racine County Sheriff's Office has concluded, WEC unlawfully directed the municipal clerks not to send out the legally required special voting deputies to nursing homes, resulting in many nursing homes' registered residents voting at 100% rates and many ineligible residents voting, despite a guardianship order or incapacity;

6. Unlawful voting by wards-under-guardianship left unchecked by Wisconsin election officials, where WEC failed to record that information in the State's WisVote voter database, despite its availability through the circuit courts—all in violation of the federal Help America Vote Act.

7. WEC's failure to record non-citizens in the WisVote voter database, thereby permitting non-citizens to vote, even though Wisconsin law requires citizenship to vote—all in violation of the Help America Vote Act. Unlawful voting by non-citizens left unchecked by Wisconsin election officials, with WEC failing to record that information in the State's WisVote voter database; and

8. Wisconsin election officials' and WEC's violation of Federal and Wisconsin Equal Protection Clauses by failing to treat all voters the same in the same election.

It is important to state what this Report is not. This Report is not intended to re-analyze the re-count that occurred in late 2020. And the purpose of this Report is not to challenge certification of the Presidential election, though in Appendix II we do sketch how that might be done. Any decisions in that vein must be made by the elected

AMERICAN OVERSIGHT

representatives of the people, that is, the Wisconsin Legislature. Yet it is clear that Wisconsin election officials' unlawful conduct in the 2020 Presidential election casts grave doubt on Wisconsin's 2020 Presidential election certification. This Report thus does surface very big questions: how should Presidential election certification occur in Wisconsin going forward and would the Legislature have any remedies to decertify if it wanted to do so?

In 2020 in Wisconsin, the certification of its Presidential election spanned two steps and to a large extent operated in a legal vacuum. *First*, on November 30, 2020, Wisconsin Elections Commission (WEC) Chairperson Ann Jacobs, on her own and without a full Commission vote, signed the "determination of the recount and the presidential contest." This unilateral action led one of the sidelined Commissioners to call for Jacobs' resignation. *Second*, a few hours later, Governor Tony Evers certified the results of the state's November 3 election by signing the Certificate of Ascertainment that approved the slate of electors for President-elect Joe Biden and Vice President-elect Kamala Harris.

Neither the WEC Chairperson nor the Governor had an incentive to proceed with greater deliberation and address the serious concerns of citizens and other Commissioners. This is a serious gap in the legal structure governing elections that should be corrected as far in advance of the 2024 presidential election as possible. In the meantime, many of the doubts relating to large categories of ballots are continuing to be both broadened and deepened. Recently, a Wisconsin court invalidated the use of drop boxes. Additionally,

AMERICAN OVERSIGHT

this Report flags systematic problems with voting in elder care facilities, an issue that was also recently blown wide open by the Racine County Sheriff.

There are other issues outlined in this Report, many of which could justify post-election administrative correction by WEC under Wis. Stat. § 5.06, which authorizes exactly such a post-certification process to correct mistakes made by election officials. Administrative corrections under Wis. Stat. § 5.06 would flush out election officials' unlawful conduct. Such a post-certification administrative correction will not de-certify the election on a self-executing basis, but these challenges, which can be filed by any voter in an election (or by district attorneys or the Attorney General of the State), are a worthwhile step to take. However, as noted, these complaints are directed *to* WEC. But complaints *about* WEC cannot fairly be adjudicated by this body—another legal gap.

It is the duty of all citizens of our State and our nation to work hard to secure our democracy for this generation and the next. This Report is one small step towards fulfilling that duty we all share. And without the tireless work of concerned citizens, and dedicated public servants such as the Sheriff of Racine County, much of what is made public in this Report would not have been exposed to the light. In our own way, we can each do our part, whether by voting, or by volunteering, or by leading campaigns to improve the integrity of our elections. The true story of the 2020 elections in Wisconsin might never be fully known—as noted, the constitutional duty of the Legislature is still imperiled in the state courts—but the recommendations in this Report constitute a good beginning.

AMERICAN OVERSIGHT

Statement of Progress

The Special Counsel has been maintaining an active investigation and continuing to fight for the Legislature's right to conduct an election-integrity investigation. Since the first Interim report, the Special Counsel has issued 76 new subpoenas. This brings the total subpoenas issued by the OSC to 90. These subpoenas were served upon entities named in this report, including Dominion Voting Systems, Inc., Electronic System and Software, LLC (ESS), Quickbase, Inc., USDR, CTCL, NVAHI, The Elections Group, and others.

The subpoenas were also served upon or sent to some of the persons who had the most information about the role of private companies and individuals in Wisconsin's election. This included Michael Spitzer Rubenstein, Tiana Epps-Johnson, Ari Steinberg, and Harrison Hersch. Finally, the subpoenas were served on local persons such as Hannah Bubacz, a Milwaukee city employee, and Sarah Linske, an IT employee for WEC.

To the extent that individuals responded to subpoena, it was to produce documents. Some recipients, including the major private companies and individuals, did not comply at all. They either informed the OSC that they would not comply with the subpoena or attend the depositions or embroiled the OSC in litigation. As of the writing of this Report, the litigation surrounding the investigation of the 2020 election has been pervasive and time-consuming.

The Special Counsel has been sued three different times in three different cases in Dane County Circuit Court. The OSC has defended against a lawsuit brought by the Wisconsin Attorney General in which he asked the court to declare that the OSC did not have the authority to conduct the investigation. Two additional lawsuits related to open

AMERICAN OVERSIGHT

records requests to the OSC were filed by organizations supported by Democrat-backed labor unions.

In Waukesha County, the OSC filed a petition to enforce the legislative subpoenas. Initially, the lawsuit included only four defendants. Six additional defendants were later added, bringing the total to ten. Two attorneys from the OSC are assigned to that case and briefing is underway. Prosecuting the enforcement action detracts from the OSC's ability to conduct and complete its investigation.

The OSC did receive a large quantity of documents from the Zuckerberg 5. Those documents were electronic in form. The process of organizing and reviewing them has required a significant expenditure of time and resources, and that will continue to be the case as OSC receives additional documents.

The OSC launched a major investigation into nursing home abuse. Attorneys and investigators were dispatched to multiple nursing homes across the State. They identified and met with multiple residents who voted, despite the fact they were clearly incapable of voting and/ or not legally permitted to vote because of a guardianship order. The OSC representatives made detailed notes and videos of these residents for evidentiary purposes.

The Special Counsel intended to use a professional statistician in the nursing home setting. Using a controlled environment, the OSC could take a detailed sampling of nursing home abuse and voting irregularities to determine, statewide, the number of improperly cast ballots in residential care facilities. The OSC was not able to complete this task by the time this Report was due. Instead, the personnel conducting the nursing home investigation were also repurposed to assist in the drafting of this Report.

AMERICAN OVERSIGHT

The OSC received information that an entity had cellphone pinging data related to the City of Milwaukee and its absentee ballot drop boxes. As of the time of this Report, the OSC has not been able to run to ground all the issues relating to obtaining this data.

The OSC consulted with multiple computer security experts regarding voting machines. Two major machine manufacturers were identified in Wisconsin, Dominion Voting and ESS. The OSC viewed extensive reporting about the integrity of the machines. The OSC learned that some Dominion machines are extremely vulnerable to hacking and manipulation. These specific machines can be manipulated to alter actual votes cast—either surreptitiously or by the machine technicians.

The Special Counsel reviewed extensive reporting of a Dominion machine failure event in another State. The OSC was able to identify, through the reports of experts, that the failed machine recorded two anonymous and unauthorized access events from its VPN. This means, contrary to what Dominion has publicly stated, that at least some machines had access to the internet on election night. Shortly after the unauthorized access was recorded, the machine failed and was reset, wiping all voting history and forcing that election administrator to rely on unverifiable paper printouts from the failed machine.

ESS machines were equally problematic. The central problem is that several of the machines are made with a 4G wireless modem installed, enabling them to connect to the internet through a Wi-Fi hotspot. One municipality under investigation in Wisconsin by the OSC admitted that these machines had these modems and were connected to the internet on election night. The reason given was to "transmit data" about votes to the county clerks.

AMERICAN OVERSIGHT

The OSC learned that all machines in Green Bay were ESS machines and were connected to a secret, hidden Wi-Fi access point at the Grand Hyatt hotel, which was the location used by the City of Green Bay on the day of the 2020 Presidential election. The OSC discovered the Wi-Fi, machines, and ballots were controlled by a single individual who was not a government employee but an agent of a special interest group operating in Wisconsin.

The OSC began a comprehensive investigation of voting machines in Wisconsin. As part of that investigation, subpoenas were sent to Dominion, ESS, and Command Central, LLC, a Dominion reseller and servicer. The information sought included information about who, when, where, and what updates the machines were provided. The OSC learned that one machine company representative stated that the voting machines were "wiped" during updates, meaning they did not retain federally required voter data.

It was discovered that Command Central, LLC, received images of cast ballots on election night using the internet. Command Central is alleged to be holding actual ballots cast on election night at its offices in Minnesota in violation of Wisconsin law. The OSC was not able to complete this portion of its investigation, however.

As of the date of this Report, the voting machine companies have refused to comply with the OSC's legislative subpoenas, and have provided no data. The OSC considers this investigation incomplete but ongoing.

The OSC also sought information about the machines in Wisconsin used on election night from the clerks. The clerks either did not possess the data sought by the OSC or refused to provide it, with Green Bay and Madison insinuating that providing secure voting machine data to the OSC would somehow compromise election integrity. In other words,

AMERICAN OVERSIGHT

these cities claim that it is impossible to verify the integrity of the voting machines because doing that would jeopardize the integrity of both the machines and future elections. The Special Counsel intends to resolve this issue as the investigation moves forward.

The OSC's investigation discovered the use of a ballot tracking and harvesting application in Wisconsin. An extensive amount of time and effort went into this portion of the investigation. The OSC became attuned to the possibility of an application when reviewing email exchanges between the Zuckerberg 5 and third parties. This involved tracking applications in Georgia and Pennsylvania.

The OSC discovered ballot tracking programs in both Georgia and Pennsylvania. The OSC was able to locate and identify the developer of both programs in those States. The OSC obtained the source code for the Pennsylvania application. Ultimately, that data and source code would not prove to be helpful to discovering information about the Wisconsin application.

However, the OSC still located the Wisconsin application and its developers. In the course of that investigation, the OSC documented multiple misrepresentations of material facts by WEC administrator Meagan Wolfe. For example, Ms. Wolfe told the Assembly Committee on Campaigns and Elections both that she did not know about the CTCL grants and that cities did not have access to statewide WisVote or BadgerBooks data. Both of these statements are demonstrably untrue.

Ms. Wolfe also told the Commission that there was no API (Application Programming Interface that allows direct access) into the WisVote or BadgerBooks system. Yet cities have provided information that they *do* have access to statewide WisVote and BadgerBooks data. At least one city apparently provided an API to the WisVote and

AMERICAN OVERSIGHT

BadgerBooks systems, which provided real time, free information to special interest groups who used that information for selective, racially-targeted get-out-the-vote purposes under the contracts. That application may still have an active API and may remain viable, so that it might be used by the private groups in future elections.

Moving forward, the OSC will continue working to obtain answers to the important questions raised by these findings. The tasks remaining include:

1. Vindicating the legislature's subpoena and investigative authority through ongoing litigation;
2. Compelling witnesses (individual or institutional) with crucial information about Wisconsin elections to provide testimony. This includes Meagan Wolfe, Ann Jacobs, Michael Spitzer Rubenstein, Tiana Epps-Johnson, Trina Zanow, Sarah Linske, Hannah Bubacz, Harrison Hersch, Dominion, ESS, and the Zuckerberg 5 through ongoing litigation.
3. Determining the identities of any groups or individuals engaged in ballot harvesting in Wisconsin;
4. Verifying the integrity of Wisconsin's voting machines;
5. Identifying additional votes cast unlawfully as a consequence of WEC's directives to clerks regarding SVDs;
6. Providing additional reporting as necessary, possibly including a more robust roadmap to the outside groups and leadership that interfered with the administration of past Wisconsin elections.

AMERICAN OVERSIGHT

Chapter 1

The Center for Tech and Civic Life's $8,800,000 Zuckerberg Plan Grant with the Cities of Milwaukee, Madison, Racine, Kenosha and Green Bay (the Zuckerberg 5) Facially Violates Wisconsin Law Prohibiting Election Bribery.

The Cities of Milwaukee, Madison, Racine, Kenosha and Green Bay entered into an agreement with Center for Tech and Civic Life (CTCL). In the agreement, the Cities took CTCL's money to facilitate in-person and absentee voting within their respective city. The agreement documents included the Wisconsin Safe Voting Plan (WSVP), the CTCL worksheets and the CTCL acceptance letters, which were conditioned on the Cities spending CTCL's transferred money in accordance with the WSVP. These documents are in the accompanying appendix: App. 7-27 (WSVP); App. 513-519, (CTCL worksheet blank form), 520-537 (Green Bay worksheet), 538-551 (Kenosha worksheet), 552-563 (Madison worksheet), 564-575 (Milwaukee worksheet), 576-587 (Racine worksheet); 588-601 (CTCL grant application acceptance letters for Milwaukee, Madison, Kenosha, Green Bay and Racine).

Any Agreement Where a City's Election Officials Receive CTCL or Other's Private Money to Facilitate In-Person and Absentee Voting Within a City Facially Violates Wis. Stat. § 12.11's Prohibition on Election Bribery Under Wis. Stat. § 12.11.

The CTCL agreement facially violates the election bribery prohibition of Wis. Stat. § 12.11 because the participating cities and public officials received private money to facilitate in-person or absentee voting within such a city. Any similar agreements in the 2022 and 2024 election cycle would also be prohibited election bribery.

AMERICAN OVERSIGHT

Wis. Stat. § 12.11, in relevant part, prohibits a city from receiving money to facilitate electors going to the polls or to facilitate electors to voting by absentee ballot:

> Election bribery
>
> (1) In this section, "anything of value" includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1…
>
> (1m) Any person who does any of the following violates this chapter:
>
> 1. Offers, gives, lends or promises to give or lend, or endeavors to procure, anything of value, or any office or employment or any privilege or immunity to, or for, any elector, or *to or for any other person, in order to induce any elector to*:
>
> 1. *Go to … the polls*.
>
> 2. *Vote*….

Wis. Stat. § 12.11 (emphasis added). Although the word "person" is not defined in section 12.11, it is defined elsewhere to include "bodies politic," which also includes municipalities. *See* Wis. Stat. § 990.01(26). Although the word "induce" is not defined in Wis. Stat. § 12.11, it is commonly defined to mean "to call forth or bring about by influence or stimulation."

Wis. Stat. § 12.11 requires three elements for a municipality or its officials to engage in "election bribery:" (1) the definition of "anything of value" must be met; (2) the thing of value must be received by a municipality or its election officials; and (3) the municipality must receive the thing of value in order to facilitate electors going to the polls or voting by absentee ballot. With respect to the first element, Wis. Stat. § 12.11 defines "anything of value" to mean "any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1." To

AMERICAN OVERSIGHT

meet the second element, Wis. Stat. § 12.11 requires that the item of value be received by a municipality. Finally, the city must receive the item of value in order to facilitate electors to go to the polls or in order to facilitate electors to vote.

1. Conception of the Election Bribery Scheme

The record created by public document requests shows that CTCL, a private company headquartered in Chicago[3], engaged in an election bribery scheme. CTCL reached out to the City of Racine to allow CTCL to provide grant money to certain handpicked cities in Wisconsin to facilitate increased in-person and absentee voting in the cities. App. 402. This first grant of $100,000 was to be split among the five largest cities in Wisconsin at $10,000 per city, plus an extra $50,000 to Racine for organizing the five cities. App. 402. This first grant required the mayors of the five largest cities in Wisconsin and their respective staffs to complete CTCL election administration forms, including goals and plans to facilitate increased in-person and absentee voting in their respective cities and "communities of color" and develop a joint plan for elections only in these cities and not statewide. App. 297.

Christie Baumel (a City of Madison employee) wrote on June 9, 2020, regarding CTCL and "Election Cost Grant:"

> My understanding is that this is a small planning grant that Racine received from the Center for Tech & Civic Life to produce, by June 15th, a proposal for safe and secure election administration, according to the **needs identified by the five largest municipalities**. In other words, this information informs the Center for Tech & Civic Life in their consideration of where and how to support complete, safe, secure [sic] elections in Wisconsin.

App. 603 (emphasis added.)

AMERICAN OVERSIGHT

As part of the election bribery scheme, CTCL was reaching out to the five largest cities in Wisconsin, and CTCL wanted information from those cities in determining how to provide money to those cities to facilitate increased in-person and absentee voting. *Id.* This program and the larger amount of grant money was not available to any cities or counties in Wisconsin other than the five largest cities. These five cities began to identify themselves and to be identified by CTCL as the "Zuckerberg 5," including a letterhead with the five cities' seals.[4] App. 7, 141-143. Whitney May, Director of Government Services at CTCL, wrote to representatives of the other Zuckerberg 5 cities on August 18, 2020, stating, "You are the famous WI-5 … excited to see November be an even bigger success for you and your teams." *Id.*; App. 375-376.

The attempt of CTCL to target the five largest cities in Wisconsin for election support to facilitate increased in-person and absentee voting had been ongoing since early 2020, as indicated in emails and invitations from Vicky Selkowe, a Racine employee who opposed Trump and those that voted for him,[5] to Kenosha, Madison, Milwaukee, and Green Bay mayors, and a few other city officials from the Zuckerberg 5. App. 331-349; 392-401; 481-487. Only those four cities plus Racine were invited to "[a]pply for a COVID-19 grant" from CTCL and to thus be in on the "plan" to accept CTCL's private money to facilitate increased in-person and absentee voting in the 2020 election. App. 603-604.

The CTCL Agreement required the Zuckerberg 5 Mayors and their respective staffs to develop a joint plan for the Zuckerberg 5's elections pursuant to the agreement by June 15, 2020:

> The City of Racine, and any cities granted funds under paragraph 4, shall produce, by June 15th, 2020, a plan for a safe and secure election

AMERICAN OVERSIGHT

> administration in each such city in 2020, including election administration needs, budget estimates for such assessment, and an assessment of the impact of the plan on voters.

App. 2. The carrot for the Zuckerberg 5 to provide this information for CTCL was to get part of a $100,000 grant. Once the Zuckerberg 5 expressed interest in receiving the $10,000 grants from CTCL, they quickly provided information to Ms. Selkowe and CTCL on CTCL's form so they could develop a "comprehensive plan" for election administration for their "national funding partner, the Center for Tech & Civic Life" by June 15, 2020. App. 604 (emphasis added).

Following the expected "Council approval" on June 2, Ms. Selkowe of Racine sought to "immediately" connect with "municipal clerks and other relevant staff" to "swiftly gather information about" the cities' "election administration needs." App. 604. Ms. Selkowe obtained the information from the Zuckerberg 5 through the five completed CTCL forms, then either Racine or CTCL used that information to prepare the WSVP, as requested by CTCL. App. 513-519, (CTCL blank form), 520-537 (Green Bay), 538-551 (Kenosha), 552-563 (Madison), 564-575 (Milwaukee), 576-587 (Racine). Ms. Selkowe made clear that she was the point person for communicating with the different city staffs to gather information to prepare this plan. *Id.* at 604.

2. The First Contract Between CTCL and the Zuckerberg 5

On about May 28, 2020, the Racine Common Council approved, and signed, the CTCL conditional grant in the amount of $100,000 to recruit and later coordinate with the Zuckerberg 5 to join the WSVP 2020 submitted to CTCL on June 15, 2020. App. 325-349, 402-405. The grant and distribution to the Zuckerberg 5 was not random, rather it was the

AMERICAN OVERSIGHT

intentional culmination of meetings or virtual meetings on May 16, 2020, June 13, 2020, and August 14, 2020. *Id.* These meetings were also secretive. The mayors and their staff were invited to the meeting. However, neither the Common Council members nor the public were informed that the meetings were even set to occur. *Id.* The Common Council members of Racine were later asked to vote only to approve what was decided at the secret meetings. App. 486-487.

It is not believed that the Common Councils of the other four cities of the Zuckerberg 5 were asked to vote on the $100,000 grant, except perhaps long after they had already received the money and committed to accepting the larger grant and its conditions. *Id.* For example, the City of Madison received the $10,000 even though on July 13, 2020, Maribeth Witzel-Behl, the Madison City Clerk, wrote that "Common Council has yet to accept the $10,000" from CTCL. App. 605-606.

The grant approved by the Racine Common Council stated, "[t]he grant funds must be used exclusively for the public purpose of planning safe and secure election administration in the City of Racine in 2020 and coordinating such planning." App. 404. Thus, the consideration for the Zuckerberg 5 to receive the first, small grant, was that they provide information for CTCL to use in preparing the WSVP for the large grant. *Id.*

3. The WSVP and CTCL's Grant Acceptance Letter Incorporating the WSVP Is the Agreement Where the City Agreed to Take CTCL's Private Money to Facilitate Increased In-Person Voting and to Facilitate Absentee Voting.

The WSVP and CTCL's grant acceptance letter incorporating the WSVP is the agreement in which the City agreed to take CTCL's private money to facilitate increased

AMERICAN OVERSIGHT

in-person voting and to facilitate absentee voting. The WSVP was developed ostensibly "in the midst of the COVID-19 Pandemic" to ensure voting could be "done in accordance with prevailing public health requirements" to "reduce the risk of exposure to coronavirus." Further, it was intended to assist with "a scramble to procure enough PPE to keep polling locations clean and disinfected." App. 7-27.

However, another election purpose existed as evidenced by the documents obtained by the Special Counsel. That other election purpose was to fuse together the CTCL, their allied private corporations, the Zuckerberg 5, and $8.8 million of private funding into joint operations in that group of cities, where the focus would be on facilitating increased in-person and absentee voting, particularly in their "communities of color." *See, e.g., App*. 7-27 (WSVP). From the beginning, the purpose of the WSVP contract and its private funding was for the Zuckerberg 5 to use CTCL's private money to facilitate greater in-person voting and greater absentee voting, particularly in targeted neighborhoods.

4. Having Agreed to the Initial $10,000 Per City Grants (Plus $50,000 Extra for Racine), the Zuckerberg 5 Entered New Grant Agreements for Larger Grants Which Included CTCL's "Conditions" and Performance Requirements Under WSVP.

On or about July 6, 2020, Ms. Selkowe announced that the WSVP had been fully approved for funding by the Center for Tech & Civic Life; the initial $10,000 grant was just the first step for the Zuckerberg 5 to get an even larger grant from CTCL. *See, e.g.,* App. 1-27. Also, on July 6, Tiana Epps-Johnson of CTCL emailed Ms. Selkowe stating CTCL intends to fund each of the Zuckerberg 5 with far larger sums of money: Green Bay—$1,093,400; Kenosha—$862,779; Madison—$1,271,788; Milwaukee—

AMERICAN OVERSIGHT

$2,154,500; and Racine—$942,100. App. 11. This brought the total grants to the Zuckerberg 5 to $6,324,567.00. *Id.* Each of the Zuckerberg 5, expressly or impliedly, accepted the large grant money. For example, sometime in July 2020 the City of Madison accepted $1,271,788 by vote of Common Council. App. 605.

Concurrently with CTCL's plans to provide the Zuckerberg 5 with $6,324,567.00 in grant money, CTCL agents began to inform the Zuckerberg 5 of the conditions and the consideration for that grant money. App. 588-601. In other words, the grants were not for purely altruistic purposes as "strings" were clearly attached. On July 10, 2020, Ms. Selkowe started contacting each of the Zuckerberg 5 to let them know Tiana Epps-Johnson would contact them to start introducing the Zuckerberg 5 to CTCL's "partners." App. 463-464. "Tiana and her team have arranged for extensive expert technical assistance from fantastic and knowledgeable partners across the country, to help each City implement our parts of the Plan." *Id.* Tiana will send a "draft grant agreement" for the city's review and "approval on Monday." *Id.* It was assumed that each City would vote to accept the money, and the terms of the agreement were not important. *Id.*

On July 10, 2020, Ms. Selkowe sent an email to Celestine Jeffreys and copied Tiana Epps-Johnson, stating that Green Bay should work with CTCL, along with several of the other largest Wisconsin cities, to "implement our parts of the Plan," and to allow the City of Green Bay to "understand the resources she's [Tiana Epps-Johnson of CTCL] bringing to each of our Cities [the "cities" of Milwaukee, Racine, Madison, Kenosha and hopefully Green Bay] to successfully and quickly implement the components of our Plan." App. 261-262. By approximately July 24, 2020, each of the Zuckerberg 5 had agreed to contracts with CTCL, along with the conditions, rules, and regulations CTCL attached to the grants.

AMERICAN OVERSIGHT

App. 32-33 (Green Bay), 3-5 (Racine), 371-373 (Kenosha), 392-401 (Milwaukee), 406-410 (Madison).

5. The Grant Agreements and the WSVP Between CTCL and the Zuckerberg 5 Contain Conditions Regarding the City Facilitating Increased In-Person and Absentee Voting.

In addition to being informed that the Zuckerberg 5 should work with CTCL's "partners," the grant agreement contained express conditions that each of the Zuckerberg 5 had to follow in order to receive and keep the grant funds. *Id.* The grant agreement incorporated the WSVP and its provisions:

> The grant funds must be used exclusively for the public purpose of planning and operationalizing safe and secure election administration in the City of _____ in accordance with the Wisconsin Safe Voting Plan 2020.

Id. The consideration for the second contract heavily implied that the Zuckerberg 5 were to use CTCL's "partners" for election administration. By the time the second contracts and grants came to be issued, the Zuckerberg 5 were deeply embedded in election administration, especially in Green Bay and Milwaukee. Michael Spitzer Rubenstein was listed as a "CTCL grant mentor" who was directing election administration in Green Bay. The contracts for the Zuckerberg 5 required the cities to report to CTCL its spending, not make changes to their spending, or pay the grant money back to CTCL. *Id.*

Specifically, the conditions in the second contract included:

a. The grant funds must be used exclusively for the public purpose of planning and operationalizing safe and secure election administration in the City of _____ in accordance with the Wisconsin Safe Voting Plan 2020.

b. Requiring each city or county receiving the funds to report back to CTCL by January 31, 2021 regarding the moneys used to conduct federal elections;

AMERICAN OVERSIGHT

c. The City of _____shall not reduce or otherwise modify planned municipal spending on 2020 elections, including the budget of the City Clerk of _____ ('the Clerk') or fail to appropriate or provide previously budgeted funds to the Clerk for the term of this grant. Any amount reduced or not provided in contravention of this paragraph shall be repaid to CTCL up to the total amount of this grant.

d. The City of _____ shall not use any part of this grant to give a grant to another organization unless CTCL agrees to the specific sub-recipient in advance, in writing.

App. 588-589 (Milwaukee), 591-592 (Madison), 595-596 (Kenosha), 598-599 (Green Bay), 3-4 (Racine). CTCL provided a grant tracking form to the Zuckerberg 5 to keep track of their expenditures, which they would later have to report to CTCL. App. 609.

Thus, the text of the grant document provides the conditions clearly: the grant funds had to be used for "planning and operationalizing … election administration." App. 3-4, 588-589, 591-592, 595-596, 598-599. The Zuckerberg 5 had to "report back to CTCL by January 31, 2021" regarding the moneys they used. Any moneys used "in contravention" of the grant agreement would have to be "repaid to CTCL" up to the whole amount of the grant. *Id.* The Zuckerberg 5 were not allowed to pay any part of the grant money to another organization "unless CTCL agrees … in advance, in writing." *Id.*

The Zuckerberg 5 have admitted that these were "conditions" and that generally the money from CTCL was "conditional." To underscore the conditions on the grant money, on July 24, 2020, Dennis Granadas of CTCL wrote Celestine Jeffreys of Green Bay:

> Please find attached the revised grant agreement for review and signature. Please note that we made a few edits to clean up language, but this did not change the substance of the agreement, unless an update was requested. If you have any concerns please let me know. In addition, we also updated Section 7 for clarity to the following (changes highlighted in bold): "**The City of Green Bay shall not reduce** or otherwise modify planned municipal spending on 2020 elections, including the budget of the City Clerk of Green

AMERICAN OVERSIGHT

> Bay ('the Clerk') or fail to appropriate or provide previously budgeted funds to the Clerk for the term of this grant. Any amount reduced or not provided in contravention of this paragraph shall be repaid to CTCL up to the total amount of this grant." I look forward to receiving the signed agreement. Please let me know if you have any questions/concerns. Have a great weekend.

App. 611 (emphasis added).

These provisions requiring repayment of the grant moneys are referred to as "claw-back" provisions and require the Zuckerberg 5 to return the moneys to CTCL, if CTCL disagreed with how the Zuckerberg 5 spent the money and conducted their 2020 elections. App. 4, 589, 592, 596, 599. After the election in November 2020, CTCL demanded that the Zuckerberg 5 submit forms to CTCL to prove they complied with the grant conditions by January 31, 2021. App. 609. These conditions, including the WSVP provisions to facilitate increased in-person and absentee voting in each participating city, were not merely "boilerplate" provisions. Instead, CTCL intended to, and did, enforce its contractual requirements on the Zuckerberg 5. *Id.*

6. The Grant Agreements and the WSVP Between CTCL and the Zuckerberg 5 Contain Conditions Requiring Participant Cities to Place CTCL-Funded Absentee Ballot Drop Boxes in Targeted Neighborhoods, Even Though Absentee Ballot Drop Boxes Are Unlawful in Wisconsin.

The WSVP and CTCL's grant acceptance letter incorporated the agreement where the cities agreed to take CTCL's private money to purchase and place absentee drop boxes in targeted neighborhoods. App. 10, 16-17. The WSVP provided Green Bay $50,000, Kenosha $40,000, Madison $50,000, Milwaukee $58,500, and Racine $18,000 for absentee ballot drop boxes. App. 17. The WSVP provided at total of $216,500 for absentee ballot drop boxes in the Zuckerberg 5. App. 17. The use of absentee ballot drop boxes, outside

AMERICAN OVERSIGHT

of narrow exceptions, has been successfully challenged as being a violation of Wisconsin law.

In a case in the Wisconsin Circuit Court for Waukesha County, the plaintiffs sued the WEC to challenge 2020 guidance memos that the WEC issued to municipal clerks. Complaint, *Teigen v. Wisconsin Elections Commission*, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. June 28, 2021) (under review by the Wisconsin Supreme Court), available at App. 649-660. In particular, the plaintiffs challenged a memorandum that purported to authorize unstaffed ballot drop boxes:

> Despite this requirement in the statutes [i.e., the requirement that an absentee ballot either be returned by mail or be returned by the voter "in person, to the municipal clerk." Wis. Stat. § 6.87(4)(b)1], WEC Commissioners sent a memo to municipal clerks dated August 19, 2020, (the "August 2020 WEC Memo") stating that absentee ballots do not need to be mailed by the voter or delivered by the voter, in person, to the municipal clerk but instead could be dropped into a drop box *and that the ballot drop boxes could be unstaffed*, temporary, or permanent. (A true and correct copy of the August 2020 WEC Memo is attached hereto as Exhibit B.)

Id. ¶ 10, available at App. 651 (emphasis added).

The Waukesha County Circuit Court granted summary judgment to the plaintiffs and declared the use of ballot drop boxes, outside of narrow exceptions, to be inconsistent with Wisconsin law:

> For the reasons set forth by the Court on the record at the January 13, 2022 hearing, the Court hereby declares that WEC's interpretation of state statutes in the Memos is inconsistent with state law, to the extent they conflict with the following: (1) an elector must personally mail or deliver his or her own absentee ballot, except where the law explicitly authorizes an agent to act on an elector's behalf, (2) the only lawful methods for casting an absentee ballot pursuant to Wis. Stat. § 6.87(4)(b)1. are for the elector to place the envelope containing the ballot in the mail or for the elector to deliver the ballot in person to the municipal clerk, (3) *the use of drop boxes, as described in the Memos, is not permitted under Wisconsin law unless the drop box is staffed*

AMERICAN OVERSIGHT

by the clerk and located at the office of the clerk or a properly designated alternate site under Wis. Stat. § 6.855.

Order Granting Summary Judgment for Plaintiffs, *Teigen v. Wisconsin Elections Commission*, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. January 20, 2020), available at App. 66 (emphasis added). The Zuckerberg 5's privately funded absentee ballot drop boxes in the 2020 election were legally unauthorized under Wisconsin law. This makes the Zuckerberg 5 and CTCL's agreement for CTCL-funded purchase and placement of absentee ballot drop boxes a void contract provision as against state law and public policy.

7. Other Entities Have Reported About CTCL's Selective Funding to the Zuckerberg 5.

It is important to note that two non-profit corporations have analyzed the Zuckerberg 5's acceptance and use of the CTCL moneys and published analytical reports in 2021. App. 488-512. Both reports are consistent with our conclusions here. *Id. First*, the Wisconsin Institute for Law & Liberty (WILL) in a June 9, 2021, report titled "Finger on the Scale: Examining Private Funding of Elections in Wisconsin." That report had the following "key takeaways:"

1. WILL received records from 196 communities that received a total $10.3 million in funding from CTCL. These grants ranged from a high of $3.4 million for the City of Milwaukee to $2,212 for the Town of Mountain in Oconto County.

2. The largest five cities in the state (Milwaukee, Madison, Green Bay, Kenosha, and Racine) received nearly 86% of all CTCL grant funds in Wisconsin.

3. While most small towns used CTCL resources for voting equipment

AMERICAN OVERSIGHT

and COVID-related equipment, Milwaukee, Green Bay, and Madison spent close to or above $100,000 on ostensibly "non-partisan" voter education efforts.

4. Areas of the state that received grants saw statistically significant increases in turnout for Democrats. Increases in turnout were not seen for Donald Trump.

5. This WILL report highlights the inequitable distribution of private resources that came into the state during the 2020 election. Reforms that are designed to ensure that any grant money is distributed in a per capita manner across the state will go a long way in increasing faith that our elections are being conducted in an open and honest manner.

App. 491.

The WILL report also calculated the CTCL funding per 2016 voter in Wisconsin's ten largest cities. It showed a huge amount of CTCL funding went to the Zuckerberg 5 per voter and in total showed only a small amount of CTCL funding went to the Wisconsin cities which were not among the Zuckerberg 5:

Municipality	CTCL Funding Per 2016 Voter	Total CTCL Grant Amount
Milwaukee*	$13.82	$3,409,500
Madison*	$8.30	$1,271,788
Green Bay*	$36.00	$1,600,000
Kenosha*	$20.94	$862,799
Racine*	$53.41	$1,699,100
Appleton	$0.51	$18,330
Waukesha	$1.18	$42,100

AMERICAN OVERSIGHT

Eau Claire	$2.01	$71,000
Oshkosh	$0.00	$0.00
Janesville	$6.11	$183,292

App. 500 (" * " denotes a Zuckerberg 5 City).

Notably, the WILL Report concluded that the CTCL funding affected Wisconsin's 2020 election outcomes in favor of candidate Biden over then-President Trump by at least 8,000 votes:

> For candidate Biden there was a statistically significant increase in turnout in cities that received CTCL grants. In those cities, candidate Biden received approximately 41 more votes on average. While the coefficient was also positive for then-President Trump, it did not reach traditional levels of statistical significance. This means that we cannot say that turnout for Republicans in CTCL receiving areas swas any different than it would have been without the grants. Given the number of municipalities in the state that received grants, this is a potential electoral impact of more than 8,000 votes in the direction of candidate Biden.

App. 503.

Second, the Foundation for Government Accountability (FGA) in a June 14, 2021 report titled "How Zuckerbucks Infiltrated the Wisconsin Election" made five key findings:

1. More than 200 Wisconsin jurisdictions received "Zuckerbucks" for the 2020 election, totaling more than $9 million;

2. Nearly $3.5 million was funneled into the City of Milwaukee via two grants;

3. Green Bay spent only 0.8 percent of funds on personal protective equipment—instead purchasing two new 2020 Ford 550s and paying a public relations firm nearly $150,000 for voter outreach;

AMERICAN OVERSIGHT

4. A representative of CTCL had behind-the-scenes access to election administration in Green Bay and Milwaukee; and,

5. A former staff member for Governor Evers worked for the grantor to coordinate grant applications in Eau Claire.

App. 508. The FGS report contends that "Wisconsin can—and should—prohibit local jurisdictions from accepting private money for election administration." *Id.* The relative funding levels for personal protective equipment also gives the lie to a claim that the extraordinary injection of "Zuckerbucks" into this election was necessitated by or intended primarily to ensure the election did not worsen the public health as opposed to influencing voting patterns.

The Zuckerberg 5 Agreed to the Wisconsin Safe Voting Plan Which Contains Geographic and Demographic Classifications to Increase In-person Voting and Absentee Voting for Targeted Areas and Groups—the Kinds of Efforts Typically Associated with Campaigning.

According to the CTCL website, CTCL is not "a grantmaking organization" in "normal years."[6] The WSVP contains provisions to increase in-person voting and absentee voting for targeted areas and groups. These groups met particular demographic criteria, which not-coincidentally, matched that of the Biden-voter profile. App. 7-27. Typically, candidates and campaigns, not cities, engage in get-out-the-vote efforts targeting areas and groups; CTCL provided the Zuckerberg 5 about $8.8 million to carry out the WSVP provisions. App. 493.

The following WSVP provisions are geographic and demographic classifications designed not for safe voting during COVID but to increase in-person voting for targeted

AMERICAN OVERSIGHT

areas and groups, increase absentee voting for targeted areas and groups, or both. App. 7-27. Additionally, these provisions are privately funded and disfavor Wisconsinites outside of the Zuckerberg 5. *Id.*

1. "[T]o be intentional and strategic in reaching our historically disenfranchised residents and communities"

On page one, the WSVP requires the Zuckerberg 5 to "be intentional and strategic in reaching our historically disenfranchised residents and communities; and, above all, ensure the right to vote in our dense and diverse communities" within the Zuckerberg 5. App. 7. This election administration provision, promoting in-person voting and absentee voting, is privately funded, disfavors Wisconsinites outside the Zuckerberg 5, and favors black and minority voters as opposed to the rest of the residents and communities within the Zuckerberg 5. *Id.*

2. "[E]ncourage and increase … in-person" and "absentee voting by mail and early" voting

On pages 5 and 6, the Zuckerberg Plan states that about one-half of the grant money will be used by the Zuckerberg 5 to "encourage and increase … in-person" voting and "dramatically expand strategic voter education & outreach efforts"—"particularly to historically disenfranchised residents" within the Zuckerberg 5. App. 11-12. The remainder was slated to be used to encourage and increase absentee voting by mail and early voting" and "dramatically expand strategic voter education & outreach efforts"—"particularly to historically disenfranchised residents" as opposed to the rest of the residents and communities within the Zuckerberg 5. *Id.*; App. 11-12.

AMERICAN OVERSIGHT

Goal	Green Bay	Kenosha	Madison	Milwaukee	Racine	Totals
Encourage and Increase Absentee Voting By Mail and Early, In-Person	$277,000	$455,239	$548,500	$998,500	$293,600	$2,572,839
Dramatically Expand Strategic Voter Education & Outreach Efforts	$215,000	$58,000	$175,000	$280,000	$337,000	$1,065,000
Totals:	$1,093,400	$862,779	$1,271,788	$2,154,500	$942,100	$6,324,567

One way the Zuckerberg 5 were to accomplish this feat was through a specific and targeted campaign directed at black and minority voters.

3. "Dramatically Expand Voter & Community Education & Outreach, Particularly to Historically Disenfranchised Residents"

On page fifteen, the WSVP calls for the cities to specifically target "[h]istorically [d]isenfranchised [r]esidents" within the Zuckerberg 5. The WSVP and CTCL defined "historically disenfranchised voters" to mean:

> All five municipalities expressed strong and clear needs for resources to conduct voter outreach and education to their communities, with a particular emphasis on reaching **voters of color, low-income voters without reliable access to internet, voters with disabilities, and voters whose primary language is not English.**

App. 21 (emphasis added). Each of the Zuckerberg 5 had their own plans to "target" certain residents and communities for higher in-person voter turnout.

AMERICAN OVERSIGHT

Green Bay wanted private grant funds to "be distributed in partnership with key community organizations including churches, educational institutions, and organizations serving African immigrants, "LatinX" residents, and African Americans." App. 21-22. Green Bay wanted to reach out to the Hmong, Somali and Spanish-communities with targeted mail, geo-fencing, posters (billboards), radio, television and streaming PSAs, digital advertising, automated calls and automated texts, [sic] as well as voter-navigators. App. 544. Green Bay's goal was to increase voter participation in these select, race-based groups by 25% for the November 2020 elections. *Id.* Green Bay's privately funded get-out-the-vote effort did not include electors who did not live in Green Bay or electors in Green Bay who were not members of preferred racial groups.

In Kenosha, grant funds would be used "for social media advertising, including on online media like Hulu, Spotify, and Pandora ($10,000), targeted radio and print advertising ($6,000), and large graphic posters ($3,000) to display in low-income neighborhoods, on City buses, and at bus stations, and at libraries ($5000)." App. 22. Kenosha's privately funded get-out-the-vote effort did not include electors who did not live in Kenosha or electors in Kenosha who did not live in low-income neighborhoods. *Id.*

In Madison, private funds would support partnering "with community organizations and run ads on local Spanish-language radio, in the Spanish-language newspapers, on local hip hop radio stations, in African American-focused printed publications, and in online publications run by and for our communities of color (advertising total $100,000)." App. 22. Madison's privately funded get-out-the-vote effort did not include electors who did not live in Madison, were not Spanish-speaking, did not listen to hip hop radio stations, read

AMERICAN OVERSIGHT

African American-focused printed publications, or online publications run by and for Madison's preferred racial groups. *Id.*

Milwaukee stated that it intended to use these private funds to "get-out-the-vote" based on race, criminal status, and harnessing "current protests" related to the Black Lives Matter movement. App. 571. The City used the private funds to support a "communications effort [that] would focus on appealing to a variety of communities within Milwaukee, including historically underrepresented communities such as LatinX and African Americans, and would include a specific focus on the re-enfranchisement of voters who are no longer on probation or parole for a felony." App. 22-23. Milwaukee's privately funded get-out-the-vote efforts did not include electors who did not live in Milwaukee or electors who are not members of preferred racial groupings. *Id.*

In Racine, the private funds supported renting "billboards in key parts of the City ($5,000) to place messages in Spanish to reach Spanish-speaking voters" and "targeted outreach aimed at City residents with criminal records to encourage them to see if they are not eligible to vote." App. 23. Racine's privately funded get-out-the-vote efforts did not include either electors who did not live in Racine or electors who were not Spanish-speaking. *Id.*

Additionally, in Racine, private funds were to be used "to purchase a Mobile Voting Precinct so the City can travel around the City to community centers and strategically chosen partner locations and enable people to vote in this accessible (ADA-compliant), secure, and completely portable polling booth on wheels, an investment that the City will be able to use for years to come." *Id.* This privately funded get-out-the-vote effort excluded

AMERICAN OVERSIGHT

electors who did not live in Racine and those who did not live near "strategically chosen partner locations." *Id.*

Individually and collectively, these privately funded election administration provisions promoting in-person voting classifications disfavor Wisconsinites outside the Zuckerberg 5 and favor only selectively defined minorities. App. 21-23.

4. WSVP's "Absentee Voting" provisions.

On page four, the WSVP requires the Zuckerberg 5 to take specific actions with early voting:

> Absentee Voting (By Mail and Early, In-Person)
>
> 1. Provide assistance to help voters comply with absentee ballot requests & certification requirements;
> 2. Utilize secure drop-boxes to facilitate return of absentee ballots;
> 3. Deploy additional staff and/or technology improvements to expedite & improve accuracy of absentee ballot processing; and,
> 4. Expand In-Person Early Voting (Including Curbside Voting)

App. 10. This election administration provision, promoting absentee voting, is privately funded and disfavors Wisconsinites outside of the Zuckerberg 5. Only electors in the Zuckerberg 5 benefit from the "assistance," "drop-boxes," "improvement," and increased "early voting." *Id.*

AMERICAN OVERSIGHT

5. "Provide assistance to help voters comply with absentee ballot request & certification requirements"

On pages nine and ten, the WSVP requires that the Zuckerberg 5, "[p]rovide assistance to help voters comply with absentee ballot request & [sic] certification requirements." App. 15-16. None of the private funding in this regard would benefit residents outside the Zuckerberg 5. *Id.* Instead, it targeted only the "Biden profile voter."

In Green Bay, the City would use the private money to fund bilingual LTE "voter navigators" to help Green Bay residents properly upload a valid photo ID, complete their ballots, comply with certification requirements, offer witness signatures, and assist voters prior to the elections. App. 15. Green Bay would also utilize the private funds to pay for social media and local print and radio advertising to educate and direct Green Bay voters so they could upload photo IDs and request and complete absentee ballots. *Id.* In Kenosha, the City would use the private money to have Clerk's staff train Kenosha library staff on how to help Kenosha residents request and complete absentee ballots. *Id.*

6. "Utilize Secure Drop-Boxes to Facilitate Return of Absentee Ballots"

On pages ten and eleven, the WSVP requires the Zuckerberg 5 to establish and use ballot drop boxes. App. 16-17. In Green Bay, the City intended to use private money to add ballot drop-boxes, at a minimum, at the transit center and two fire stations. *Id.* at 16. This was in addition to the one already in use at City Hall. *Id.* Green Bay intended to possibly use the drop boxes at its libraries, police community buildings, major grocery stores, gas stations, the University of Wisconsin Green Bay, and Northern Wisconsin Technical College. *Id.*

AMERICAN OVERSIGHT

In Kenosha, the City intended to use the private money to install four additional internal security boxes at Kenosha libraries and the Kenosha Water Utility to provide easy access to each side of the City to ballot drop-boxes. *Id.* at 16. Madison intended to use the private money to place and maintain one secure drop box for every 15,000 voters, or twelve drop boxes total, and to provide a potential absentee ballot witness at each drop box. *Id.* at 16. Milwaukee intended to use the private money to install secure 24-hour drop boxes at all thirteen of its public library branches, while Racine intended to use the private money to have three additional drop boxes to be installed at key locations around the city. *Id.* at 16–17.

7. "Expand In-Person Early Voting (Including Curbside Voting)"

On pages twelve through fourteen, the WSVP set out the plan to expand in-person absentee voting. App. 18-20. Green Bay used private money to expand and establish at least three EIPEV sites in trusted locations, ideally on the east (potentially UWGB) and west sides (potentially NWTC or an Oneida Nation facility) of the City, as well as at City Hall. *Id.* at 18. The city also used the private money to print additional ballots, signage, and materials to have available at these early voting sites. *Id.* Kenosha used private money to offer early drive-thru voting on City Hall property and for staffing for drive-thru early voting. *Id*.

In Madison, the City intended to use private money to provide eighteen in-person absentee voting locations for the two weeks leading up to the August election and for the four weeks leading up to the November election. *Id*. The City purchased and utilized tents for the curbside voting locations in order to protect the ballots, staff, and equipment from getting wet or damaged. Additionally, it purchased and utilized large feather flags to identify the curbside voting sites. *Id*.

AMERICAN OVERSIGHT

Milwaukee also used private money to set up three in-person early voting locations for two weeks prior to the August election and fifteen in-person early voting locations and one drive-thru location. *Id.* at 18-19. Racine used private money to offer a total of three EIPAV satellite locations for one week prior to the August election as well as offering a curbside in-person early voting option. *Id.* at 19. For the November election, Racine intended to use private money to offer EIPAV at four satellite locations two weeks prior to the election and at the Clerk's office six weeks prior. *Id.*

AMERICAN OVERSIGHT

Chapter 2

The Motive for These Grants Was Impermissible and Partisan Get – Out-the-Vote Effort (GOTV)

While it is clear that the statute prohibiting election bribery was violated, the reader may be asking (to put it simply): "*So what? Aren't we told all the time that voting is a good thing and that we should encourage more people to vote? Isn't that what American democracy is all about? Why should we care if outside groups came in and used their financial resources to get more people to vote? Isn't it just sour grapes to allege that this effort to "fortify" the election crossed over into bribery?*

These questions, and others like it, have been presented to the Wisconsin public by the outside groups who came here and by their advocates in the press and elsewhere as a sort of prophylactic defense of the entire bribery scheme. The outside groups know that their questions act as a potent offensive weapon used to discourage the kind of public scrutiny this Report reflects. This is so because anyone who asks critical questions will immediately be put back on their heels: "Tell us why you don't want more people to vote. What do you have against more *people of color* voting in our elections—are you *racist*?" For the record, all those concerned with this Report are, all things being equal, in favor of more people voting and no one has considered race as a factor one way or the other except to the extent necessary to determine the partisan motives of the private groups who designed and implemented this scheme and who are now cynically and hypocritically

AMERICAN OVERSIGHT

deploying the charge of racism in an attempt to shield their misconduct from the light of day.

The scheme designed and implemented by Zuckerberg's CTCL had its origins in a man named David Plouffe. Plouffe's political track record and savvy were likely taken into account by Mark Zuckerberg and his wife Pricilla when they hired David Plouffe to run their political operation-- the [Pricilla] Chan [and Mark] Zuckerberg Initiative— for the purpose of electing Joe Biden president and defeating then-President Trump.

Writing about President-elect Trump's first public appearance after his 2016 presidential victory, Plouffe had this to say: "It's not that we were simply horrified by the reality show performer and his grifter family appearing on stage as America's next first family—though what a horrifying sight it was." (p. xiii) Writing his book in late summer of 2019, Plouffe tells the reader he does not care who the Democratic nominee will be because it does not matter: the goal for everybody should be to defeat President Trump. And Plouffe knew just how to do it: "**We'll do it through turnout**—growing the overall number of people who walk the walk and actually cast votes. Democracy isn't a metaphor or a game. This year especially it's a deadly serious test." (p. xiv (emphasis added))

Turnout, otherwise known as "getting out the vote," (GOTV) has before 2020 been an exclusively partisan phrase (CITE) used by partisan campaigns to (1) identify; (2) locate; (3) inform; (4) persuade; and, (5) facilitate increasing the number of votes for the candidate that *they favor*. The same is true of efforts to get their ballots into the hands of

AMERICAN OVERSIGHT

a “voter navigator,” or ballot harvester, or into a drop box (another concept largely unknown prior to November 2020).

The Zuckerberg-funded CTCL/ Zuckerberg 5 scheme would prove to be an effective way to accomplish the partisan effort to “turnout” their desired voters and it was done with the active support of the very people and the governmental institution (WEC) that were supposed to be guarding the Wisconsin elections administrative process from the partisan activities they facilitated.

AMERICAN OVERSIGHT

Chapter 3

Government Oversight Has Been Obstructed by Governmental and Outside Corporate Collusion

WEC and the State Attorney General have failed to cooperate with this investigation. In fact, WEC and the State Attorney General each have actively resisted and obstructed the investigation's search for the truth. Wisconsin law requires that actions taken by WEC be accomplished by a majority vote, at a publicly noticed meeting. Wis. Stat. 5.05 (1e); Wis. Stat. § 5.05(5s)(a). Yet WEC, aided by the State Attorney General, has impeded this investigation through obstructive litigation carried on without any record of an approval by the majority of the Commission at a public meeting of the Commission.

These actions of WEC continue a pattern of misconduct by the agency that rose to new heights during the 2020 election cycle, in which new election related polices were spread throughout the state (such as the expanded use of unlawful "drop boxes" and the fraudulent use of the "indefinitely confined" status) without having been approved by either the administrative rule-making process, ensuring that changes in law are vetted in properly noticed public meetings, or by receiving a majority vote of the Commission.

Following initial compliance with the valid Assembly subpoenas, the OSC subsequently faced numerous dilatory actions constituting obstruction of this investigation. Such actions include:

1. Instructions by the Governor to governmental actors not to comply with Legislative oversight;

AMERICAN OVERSIGHT

2. Frivolous and subsequently dismissed ethics complaints against OSC staff;

3. Voluminous open record requests by outside, dark money nonprofits;

4. Free, dark money attorneys provided to various governmental actors;

5. Private investigators looking into the private lives of OSC staff, and outside hacks of devices;

6. Coordinated media campaigns against Legislative oversight and the OSC;

7. Intervention in lawsuits by the Attorney General on behalf of individuals and adverse to the mission of his Office; and,

8. Withholding and destruction of evidence, often poorly justified by claimed contractual obligations with commercial vendors, placing private business ahead of the public interest.

AMERICAN OVERSIGHT

Chapter 4

This Collusion and Entanglement Also Caused a Host of Questionable Actions by the Zuckerberg 5

Wisconsin engaged private companies in election administration in unlawful ways for the 2020 Presidential election.

1. Wisconsin law and WEC's 250-page Election Administration Manual for Wisconsin Municipal Clerks do not legally authorize CTCL and its "partners" to participate in Zuckerberg 5's election administration.

2. WEC's WisVote security policies do not legally authorize the Zuckerberg 5 election officials to share WisVote data with CTCL and its partners.

3. The security of WisVote FIDO Keys required by WEC for WisVote access is unacceptable and an invitation to fraud as the ability to properly track all of the access points and personnel is a key feature required to maintain voting integrity.

4. CTCL pushed onto the Zuckerberg 5 the CTCL "partners" who would unlawfully administer aspects of the election.

5. The projects that CTCL's partners promoted had nothing to do with Covid-19 safety.

6. After the Zuckerberg 5 agreed to the large grants, and CTCL convinced the Zuckerberg 5 to utilize CTCL's "partners," CTCL sought to unlawfully embed those "partners" into the Zuckerberg 5's election administration.

7. Given a blank check to run the election, CTCL and its "partners" took full advantage of the opportunity to administer the election in at least one of the Zuckerberg 5.

8. The "private corporate partners" were from out of state, and not necessarily knowledgeable about Wisconsin election law, or concerned about it.

AMERICAN OVERSIGHT

9. Safe voting was a pretext—the real reason for CTCL's WSVP grants was to facilitate increased in-person and absentee voting in specific targeted areas inside the Zuckerberg 5.

10. The Zuckerberg 5 became beholden to CTCL as a result of the WSVP's private funding and the WSVP's provisions.

11. The Zuckerberg 5 ceded administrative control over the election to CTCL and its private partners, including WisVote data sharing, so they could collectively facilitate increased in-person and absentee voting in the 2020 election.

1. Wisconsin Law and WEC's 250-Page Election Administration Manual for Wisconsin Municipal Clerks Cannot Legally Authorize CTCL and Its "Partners" to Participate in Zuckerberg 5's Election Administration.

Wisconsin's municipal clerks are provided training on administering elections, including being provided WEC's 250-page Election Administration Manual for Wisconsin Municipal Clerks. This Manual also illustrates why the WSVP, CTCL and its "partners" participating in the Zuckerberg 5's election administration for the 2020 Presidential Election was not legally authorized.

According to the Manual, "The municipal clerk's election duties include, but are not limited to, supervision of elections and voter registration in the municipality, equipping polling places, purchasing and maintaining election equipment, preparing ballots and notices, and conducting and tracking the training of other election officials."

The Manual reserves those duties to municipal clerks, and nowhere does it authorize CTCL and its "partners," to engage in Zuckerberg 5's election administration. We also have seen no evidence that personnel from CTCL or its partners were trained in Wisconsin election law, as is required of the municipal clerks.

AMERICAN OVERSIGHT

2. WEC's WisVote Security Policies Do Not Legally Authorize the Zuckerberg 5 Election Officials to Share WisVote Data with CTCL and Its Partners.

WEC's policies on WisVote security are written so that municipal clerks do not work hand-in-hand with private companies to administer the elections. So, the Zuckerberg 5's municipal clerks jeopardized WisVote security when data sharing with CTCL and its partners.

The WisVote system is the Statewide Voter Registration System (SVRS) that originated in 2006 and provided key tools for the former State Elections Board to carry out its critical election business practices. In early 2016, SVRS was replaced by WisVote, which reportedly improved usability and functionality and lowered costs.

Three fundamental goals served as the strategic vision for the WisVote system: improved usability for clerks, reduced costs, and creating a stable and supportable system.

WisVote is not simply a voter registration list, but a full elections administration package. The system is accessed by more than 1,600 users in 700 separate locations across the State. Users connect to the system using the internet. Some locations in Wisconsin do not have high-speed internet access available, in which case, the municipal clerk relies on another clerk (usually the county clerk) to perform data entry functions. The system includes several confidential fields, including driver license numbers, dates of birth, partial social security numbers and voters who are under a protective order, which must be protected by statute.

There are four security to gain access to the WisVote system:

AMERICAN OVERSIGHT

1. User must have a viable computer that can access the internet. That computer must have a "Fast Identity Online" (FIDO) user authentication key applet downloaded to the system

2. User must have an assigned User Name

3. User must have an assigned password

4. User must possess a WEC issued FIDO Key

WEC controls the username and password access.

There are four levels of access to the WisVote system:

1. Clerk: this access certification was developed to train new staff in the complete WisVote system application. This access level allows users to perform all WisVote functions, including printing poll books, mapping, and other election administration duties.

2. Data Entry: this access certification was developed to train new staff to enter voter registration applications, update voter status, and record voter participation. This access level will not allow users to merge voters, print poll books, or perform other election administration duties unless the user completes the full WisVote system training.

3. WEDC Entry: this role does not require additional WisVote training other than the WisVote Introduction tutorials and the Security Series videos; however, the clerk, or authorized designee, must still submit the Request to Add Authorized Users form to ensure users receive the correct WisVote permissions. These users can view municipal data and Election Reconciliation information, but only have the ability to modify or edit Inspectors' Statement and EDR Postcard data.

4. Read Only: this role does not require any additional WisVote training other than the WisVote Introduction tutorials and the Security Series videos; however, the clerk, or authorized designee, must still submit the Request to Add Authorized Users form to ensure users receive the correct WisVote permissions. These users can view municipal data, but will not have the ability to add, delete, or modify data in WisVote.

AMERICAN OVERSIGHT

WEC's WisVote security rules do not contemplate or authorize non-governmental outside parties receiving WisVote data shared by Zuckerberg 5's election officials.

Further, WEC's rules provide a specific process to obtain access to WisVote data:

To obtain access to WisVote, the clerk, or authorized designee, will complete the following process:

> 1) Email a completed and signed copy of the Request to Add Authorized Users in The Learning Center (TLC) to Elections Help Desk (elections@wi.gov). Identify the role type for each user identified on the form. There are four user access levels in WisVote from which to choose:
>
> 2) Upon receipt of the completed Request to Add Authorized Users in TLC form, the Elections Help Desk will create and issue a login and password for the user to obtain access to TLC website to allow for the new users to complete the following training:
>
> a. Securing WisVote: this is a series of electronic learning modules located under the Election Security Awareness tile in TLC. All WisVote users are required to complete this training regardless of their access level (please also note that this specific training may also be made available and accessed by individuals identified by the clerk, or an authorized designee, who do not require WisVote access and still wish to participate in this cybersecurity educational opportunity—indicate Requested WisVote Access Level as "Not Applicable" on the Request to Add Authorized Users in TLC form); *AND* The training associated with the access levels listed above, if applicable.
>
> 3) Once new users complete the Securing WisVote training series AND all required training related to their WisVote Access Level, if applicable, an email shall be sent to the Elections Help Desk (elections@wi.gov). The email should state that the Securing WisVote series was completed and should also contain the appropriate Access Certification document (also found on this page), as an attachment. Upon receipt, WEC staff will issue a WisVote username and password.
>
> 4) When logging into WisVote for the first time, new users will see the WisVote User Agreement and the WisVote Confidentiality Agreement, in electronic

AMERICAN OVERSIGHT

format. To acknowledge and accept the terms of these agreements, the user will click the "I agree" button when prompted with each agreement.

CTCL and its partners did not follow this process and yet obtained WisVote data from Zuckerberg 5's election officials. By contrast, the public receives WisVote only as WEC updates the information and for a charge of $12,500 for a daily snapshot of statewide data. Accordingly, under Wisconsin Elections Commission's security policies, CTCL's and its partners were allowed to access to WisVote in this way, opening the system up to unauthorized uses by unauthorized users. The Zuckerberg 5's WisVote data sharing with CTCL and its partners was thus unlawful.

5. The Security of WisVote FIDO Keys Required by WEC for Wisvote Access Is Unacceptable.

The security of WisVote FIDO Keys, required by WEC for WisVote security is unacceptable. Under WEC's policies for a multi-factor authentication, three things are needed for WisVote access: login in name; password; and FIDO Key. The FIDO Key is contained in a flash drive that is inserted into a personal computer.

In 2018, WEC mass-issued FIDO Keys across the State to counties and municipalities. The instructions received from WEC to the key recipients were unclear as to security protocols. For example, one county indicated they had requested 2 FIDO Keys and they received 15 keys. When the clerk received the 15 keys, she called WEC and asked, "what should I do with the additional 13 keys you sent that I didn't request?" WEC said, "hold on to them just in case you need another or one breaks." One would think that at the time these FIDO Keys were issued, WEC would have a master record of custody as

AMERICAN OVERSIGHT

to how many FIDO Keys had been shipped. If that was the case, WEC cannot apparently find it now.

In mid-September 2021, an open records request was sent to the WEC requesting the total number of FIDO Keys that had been issued by WEC to the various counties and municipalities across the State. The request also asked for a list of individuals to whom the keys were issued. WEC initially issued a copy of a 2020 list of FIDO Key users. Knowing this list changes monthly, a second request was made to determine how many of those users had changed. The 2020 list listed 3,137 FIDO Key users across the State. Of that list, 404 active users had been disabled leaving a balance of 2,733 active users. The updated list indicated that205 active users had been added two weeks later and accounted for a total of 2,938 keys. Of those 2,938 active keys, 1,929, or 66% were issued with clerk access.

WEC apparently does not know how many FIDO Keys they have actually issued because individual county or municipal clerks have FIDO Keys that were not assigned or listed on WEC's list. For example, WEC issued a total of 36 FIDO Keys to the Fond du Lac County Clerk, who issued 12 keys to various municipalities and still has 24 in her possession. In contrast, WEC's list confirms 12 keys that were issued without accounting for the 24 keys that remain in the Clerk's possession. WEC's records similarly reflect two of the 15 FIDO Keys that WEC issued to the Kewaunee County Clerk and that the Clerk then issued, but they fail to reflect the other 13 FIDO Keys that WEC issued to the Clerk that remain in the Clerk's filing cabinet. Our investigation repeatedly found that counties

AMERICAN OVERSIGHT

and municipalities have more keys than WEC can account for. Yet, the FIDO Keys are supposed to be a major part of WEC's security policy for WisVote data.

There does not seem to be a meaningful pattern as to how FIDO Keys are used to counties or municipalities. For example, as mentioned in the previous paragraphs, clerks have different methods of distributing the keys that they receive from WEC. Some clerks manage their municipality or county WisVote data entry very carefully. For example, the Kewaunee County Clerk only allows 2 people to make entries or adjustments in the WisVote system. Fond du Lac County allows 12 people in the entire County to enter data or make changes to the data. A close look at the Zuckerberg 5 cities of Madison, Milwaukee, Kenosha, Green Bay and Racine shows a remarkable array of differences in how the FIDO Keys are issued and ultimately used.

There is no known explanation as to why there is such diversity of FIDO Key distribution and accountability in the different cities. The chart below lists the Zuckerberg 5 cities where large sums of CTCL money was applied. It is unclear why 64% of FIDO Keys assigned to one city consist of keys with clerk-level access that would allow unfettered access to the entire WisVote database and enable the user to activate and deactivate voters.

AMERICAN OVERSIGHT

FIDO Keys by Zuckerberg 5 Cities per April 2021 WEC Report

City	Population over 18 yrs	Total Keys	Clerk Keys	% of Keys for Clerks	Data Entry Keys	Other Key Types	One Key for every X residents
Madison	214,180	124	17	14%	107	N/A	1,727
Kenosha	74,766	23	6	26%	17		3,251
Milwaukee	450,233	306	196	64%	108	2	1,471
Green Bay	78,777	13	4	31%	8	1	6,060
Racine	60,123	98	22	22%	76		614

In talking to various clerks across the State, it is known that employees of municipalities that have been issued FIDO Keys will often allow other employees in their organization to use their computer, username, password, and FIDO Key to access the WisVote system and make entries. During the 2020 election, this type of usage was extended to third parties in the Zuckerberg 5 cities as further detailed below. FIDO Keys are an area of concern and require more investigation and attention overall.

AMERICAN OVERSIGHT

1. CTCL Pushed Onto the Zuckerberg 5 the CTCL "Partners" Who Would Unlawfully Administer Aspects of the Election.

As part of the WSVP, CTCL pushed onto the Zuckerberg 5 the CTCL "partners" who would effectively administer aspects of the election in an unlawful manner. Under the WSVP, CTCL promoted to the Zuckerberg 5 numerous entities~~,~~ CTCL's "partners.~~,~~" CTCL would then recommend that the Zuckerberg 5 connect with and use those partners in the administration of the election. App. 39-52, 53-69, 78-80. However, since the Zuckerberg 5 were contractually bound to use only the "organizations" that CTCL approved "in advance, in writing," the "partner" referrals that CTCL made were more than mere "suggestions," they were part of the CTCL's binding contractual agreement with the Zuckerberg 5. App. 4, 589, 592, 596, 599.

In late July 2020, CTCL Director of Government Services Whitney May hosted a series of separate "kick off" calls for each of the Zuckerberg 5 city's public officials, where she introduced and provided an overview of CTCL's allied corporations (sometimes-called "technical partners") to inject themselves into that city's election administration. App. 454-459, 480. CTCL's "partners" introduced to the Zuckerberg 5 were private corporations that would act to unlawfully aid or administer the relevant city's election administration:

1. The National Vote At Home Institute ("VoteAtHome" or "NVAHI") was represented by CTCL as a "technical assistance partner" that could consult about, among other things, "support outreach around absentee voting," voting machines and "curing absentee ballots," and to even take the duty of curing absentee ballots off the city's hands. App. 39-52, 53-69. The NVAHI also offered advice and guidance on accepting ballots and streaming central count during election night and on the day of the count. App. 70-77.

2. The Elections Group and Ryan Chew were represented to be able to provide "technical assistance partners to support your office" and "will be connecting

AMERICAN OVERSIGHT

with you in the coming days regarding drop boxes" and technical assistance to "support your office," and worked on "voter outreach." App. 78-80, 81-83, 171. Elections Group Guide to Ballot Boxes. App. 84-124.

3. Ideas42 was represented by CTCL as using "behavioral science insights" to help with communications. App. 324.

4. Power the Polls was represented by CTCL to help recruit poll workers. App. 124.

5. The Mikva Challenge was recommended to recruit Chicago-based high school age students to be Zuckerberg 5 poll workers. App. 127.

6. US Digital Response was suggested to help with and then take over "absentee ballot curing," and to "help streamline the hiring, onboarding, and management" of Green Bay's poll workers. App. 130-138.

7. Center for Civic Design was tapped to design absentee ballots and the absentee voting instructions. App. 196.

8. Eric Ming, the Communications Director for CSME, was selected to serve as a "communications consultant to review your [City of Green Bay] advertising plan for November." App. 43, 158-159.

9. The Brennan Center, which focuses on "election integrity" including "post-election audits and cybersecurity" was involved. App. 160.

10. HVS Productions added "voter navigator" FAQs and Election Countdown Copy for the city of Green Bay. App. 163-168.

11. Modern Elections was picked to address Spanish language issues. App. 169-171.

Importantly, none of the referenced "partners" mandated by CTCL were health or medical experts that one might expect for efforts allegedly tied to the COVID pandemic; rather, as the grant contracts required, these were "experts" in "election administration." *See* App. 454-462, 480. Further, several clerks did inform the OSC that actions by these representatives adversely affected the public health safety of staff and voters.

AMERICAN OVERSIGHT

Former Green Bay Clerk Kris Teske has described this usurpation by CTCL and its "partners" of election administration. She stated in her Answer in a prior WEC proceeding:

1. "Others in the Mayor's office began to hold meetings and make decisions relating to the election outside of the Clerk's office." App. 674.

2. "This caused planning for the election to become VERY dysfunctional and caused great confusion in the Clerk's office as many of the meetings and decisions were driven by the Mayor's chief of staff and other senior officials without the knowledge or consent of the Clerk's office." *Id.*

3. "I wrote several emails outlining my concerns with meetings that excluded the Clerk's office and decisions that were made without consulting the Clerk's office." App. 675.

4. "[T]he office's [Clerk's office] ability to fulfill the obligations for the election were greatly hindered and diminished by outside interference." App. 677.

As Teske asserted, Wisconsin law and WEC's Election Administration Manual for Wisconsin Municipal Clerks did not legally authorize CTCL and its partners to engage in Zuckerberg 5's election administration.

12. The Projects That CTCL's Partners Promoted Had Nothing to Do with Covid-19 Safety.

CTCL's partners had nothing to do with Covid-19 safety. Neither CTCL nor its "partners" were medical or health professionals. Instead, CTCL boasted that it had a "network of current and former election administrators and election experts available" to "scale up your vote by mail processes," and "ensure forms, envelopes, and other materials are understood and completed correctly by voters." App. 38.

AMERICAN OVERSIGHT

On July 31, 2020, shortly after the grant agreements were negotiated and executed CTCL's Director of Government Services wrote to Madison employee Maribeth Witzel-Behl about the "projects" CTCL required:

> Hi Maribeth:
>
> Reflecting on your Safe Voting Plan and the kickoff call last week. I wanted to get your feedback about the **projects** our technical partners should tackle first. What are the most urgent areas where you'd like support from the partners? Here's what we captured in our notes as the likely top 3-4:
>
> 1. **Adding satellite locations and drop boxes**—help site locations and provide tailored guidelines and implementation support (Elections Group)
> 2. **Printing materials for mail ballots** – redesign bilingual **absentee ballot** instruction sheet and letter (Center for Civic Design, who is working with WEC on envelope design)
> 3. **Targeting communities with election information** – NVAHA is launching a communications toolkit on August 5 to support **outreach** around **absentee voting** (National Vote at Home Institute), share research insights about how to engage people who might not trust the **vote by mail** process (Center for Civic Design)
> 4. **Training election officials**—review quick guides and other training materials (Elections Group)

App. 479 (emphasis added).

Explaining this "targeting" of communications, Celestine Jeffreys wrote to Whitney May of CTCL on August 27, 2020 that "[t]here are probably 5 organizations that are focused on working with disadvantaged populations and/or with voters directly." App. 37, 45.

CTCL, when working with the Zuckerberg 5, had other conditions that had nothing to do with COVID prevention, including:

AMERICAN OVERSIGHT

1. Employing "voter navigators" to help voters "complete their ballots." App. 34-35.

2. The "voter navigators" would later be "trained and utilized as election inspectors." App. 35.

3. "Utilize paid social media" and "print and radio advertising" to direct voters "to request and complete absentee ballots." App. 34.

4. "enter new voter registrations and assist with all election certification tasks." App. 34.

5. "reach voters and potential voters through a multi-prong strategy utilizing 'every door direct mail,' targeted mail, geo-fencing, billboards radio, television, and streaming-service PSAs, digital advertising, and automated calls and texts," and direct mail to "eligible but not registered voters." App. 36.

6. Assist new voters to "obtain required documents" to get valid state ID needed for voting, targeting African immigrants, LatinX residents, and African Americans. *Id.*

7. "facilitate Election day Registrations and verification of photo ID." App. 36.

Thus, after the grant agreements commenced, CTCL promoted election activities having nothing to do with Covid-19 safety. CTCL instead focused on targeting voter outreach and absentee voting. CTCL also required the Zuckerberg 5 to target specific geographic and demographic voter characteristics. App. 7-27. Using the grant funds to target voter outreach was required by CTCL as one of the WSVP conditions. App. 3, 7-27.

Again, CTCL and its partners had no specific medical or health experience, and the WSVP "projects" had nothing to do with Covid-19 safety. App. 7-27.

5. After the Zuckerberg 5 Agreed to the Large Grants, and CTCL Convinced the Zuckerberg 5 to Utilize CTCL's "Partners," CTCL Sought to Unlawfully Embed Those "Partners" into the Zuckerberg 5's Election Administration.

AMERICAN OVERSIGHT

After the Zuckerberg 5 agreed to the large grants, CTCL offered Milwaukee to provide "an experienced elections staffer [from the Elections Group] that could potentially embed with your staff in Milwaukee in a matter of days and fill that kind of a role." App. 382 (emphasis added).

CTCL and its partners pushed to get involved with, and take over, other parts of the election administration, as well. One of CTCL's recommended "partners" was the National Vote at Home Institute ("NVAHI"). Michael Spitzer Rubenstein, NVAHI's employee, wrote to Claire Woodall-Vogg, the Executive Director of the City of Milwaukee Election Commission: "[C]an you connect me to Reid Magney and anyone else who might make sense at the WEC? Would you also be able to make the connection with the Milwaukee County Clerk?" App. 381.

CTCL and its "partners" made many other attempts to access information to which private entities were obviously not entitled. *Id.* The following communications demonstrate such efforts, not authorized by the governing law:

1. **If you could send the procedures manual and any instructions for *ballot reconstruction,* I'd appreciate that**. On my end: · By Monday, **I'll have our edits on the absentee voter instructions.** · We're pushing Quickbase to get their system up and running and I'll keep you updated. · I'll revise the planning tool to accurately reflect the process. App. 381 (Michael Spitzer Rubenstein emailing to Claire Woodall-Vogg of Milwaukee).

AMERICAN OVERSIGHT

2. I'll create a flowchart for the VBM [vote by mail] processing that we will be able to share with both inspectors and also observers. · **I'll take a look at the reconstruction process** and try to figure out ways to make sure it's followed. App. 381 (Michael Spitzer-Rubenstein emailing to Claire Woodall-Vogg of Milwaukee)

3. "That sounds like a real pain. It would be helpful to just understand the system and maybe the USDR folks can figure out a way to simplify something for you. … if it's okay with you, **they'd also like to record the screen-share to refer back to, if needed.**" **We're hoping there's an easier way to get the data out of WisVote than you having to manually export it every day or week**. To that end, we have two questions: 1**. Would you or someone else on your team be able to do a screen-share so we can see the process for an export**? 2. **Do you know if WisVote has an API or anything similar so that it can connect with other software apps**? **That would be the holy grail** (but I'm not expecting it to be that easy). App. 389 (Michael Spitzer-Rubenstein to Claire Woodall-Vogg).

4. I know you won't have the final data on absentee ballots until Monday night but I imagine you'll want to set things up beforehand. **Just let me know your timeline for doing so and if you get me the absentee data a day ahead of time and I can set things up. And as a reminder, here's what I'll need: 1) Number of ballot preparation teams 2) Number of**

AMERICAN OVERSIGHT

returned ballots per ward 3) Number of outstanding ballots per ward. App. 390 (Michael Spitzer-Rubenstein to Claire Woodall-Vogg).

5. **In order to get the data by ward, are you able to run a summary in WisVote or do you have to download all the active voters, absentee applications, etc. and then do an Excel pivot table or something similar**? We added Census data and zip codes to the map and so now we're moving to figure out how we'll update this. Also, **if you can send these reports (whether in summary form or just the raw data), we can put them in: Active voters, Absentee applications, Ballots received, Ballots rejected/returned to be cured**. App. 391, Michael Spitzer Rubenstein to Claire Woodall-Vogg.

6. "I'll try and do a better job clarifying the current need. We are not actually using anything visual right now (though will in the future). In the state of affairs now, **we are just looking for raw data. The end result of this data will be some formulas, algorithms and reports that cross reference information about ballots and the census data**. For example, **we want to deliver to Milwaukee + Voteathome answers to questions like "How many of age residents are also registered to vote?" or "what percentage of ballots are unreturned in areas with predominantly minorities?**" To do that, we need a clear link between address + Census Tract. We need this for all ~300k voters and the ~200k+ absentee ballots, and it needs to be able automatic as we perform more

AMERICAN OVERSIGHT

> inserts. To accomplish this, we were making calls to the Census API. They allow you to pass in an address and get the Census Tract. That solution "works", but is far too slow. Their batch solution isn't working either." App. 388 (emphasis added).

CTCL and its partners were influencing public officials while those officials were doing their jobs to administer the election. *See, e.g.*, App. 381, 383-388, 390-391. Although some of these attempts by CTCL and its partners to tamper with, or take over the Zuckerberg 5's election administration, may have been rebuffed, others were not *Id.* The Zuckerberg 5 apparently agreed that some of CTCL's attempts would have been too egregious. App. 389. For example, Claire Woodall-Vogg responded:

> While I completely understand and appreciate the assistance that is trying to be provided*, I am definitely not comfortable having a non-staff member involved in the functions of our voter database, much less recording it.* While it is a pain to have to remember to generate a report each night and less than ideal, it takes me less than 5 minutes. Without consulting with the state, which I know they don't have the capacity or interest in right now, I don't think I'm comfortable having USDR get involved when it comes to our voter database. I hope you can see where I am coming from – this is our secure database that is certainly already receiving hacking attempts from outside forces.

App. 389 (Claire Woodall-Vogg to Michael Spitzer Rubenstein) (emphasis added).

AMERICAN OVERSIGHT

Kris Teske confirmed that CTCL and its "partners" sought to improperly interject or "embed" themselves into the election administration. App. 674. She stated in her answer in a prior WEC proceeding: "A further complicating factor arose when outside (private) organizations were engaged to participate in the planning and administration of the election." *Id.*

Another example of embedding is in Milwaukee. The Elections Group employee Ryan Chew wrote at 4:07 a.m. on November 4, 2020, the day after the Presidential election, to Milwaukee election official Claire Woodall-Vogg:

> Damn Claire, you have a flair for drama, delivering just the margin needed at 3:00 a.m. I bet you had those votes counted at midnight, and just wanted to keep the world waiting.

App. 610. Woodall-Vogg responded, "LOL. I just wanted to say I had been awake for a full 24 hours." *Id.*

1. Given a Blank Check to Run the Election, CTCL and Its "Partners" Took Full Advantage of the Opportunity to Administer the Election in at Least One of the Zuckerberg 5.

The Zuckerberg 5 used (at a minimum) the following group of CTCL's allied corporations to engage in election administration: Center for Civic Design, App. 451-453, 467-471, 474-475, 478; Vote at Home Institute, App. 447, 449, 465-466, 477; Voter Participation Center, App. 476; healthyvoting.org, App. 445; Elections Group, App. 444; Brennan Center, App. 440; Simon and Company, Inc., App. 448, 450. CTCL and its partners assumed numerous aspects of administration of Zuckerberg 5's election processes.

AMERICAN OVERSIGHT

See, e.g., App. at 451-453, 467-471. For example, in Green Bay, the private corporations and their employees engaged in the following aspects of election administration:

a. Vote at Home volunteered to take the curing of ballots off of a municipality's plate; (*id.* at 172-174);

b. Elections Group offered to "lend a hand" to Central Count stations (*id.* at 175-76);

c. Offered to connect a municipality to "partners like Power the Polls" to recruit poll workers and to partner with CTCL to send out e-mails to recruit poll workers; (*id.* at 177);

d. Advised the City as to using DS200 voting machines; (*id.* at 178);

e. Provided a "voter navigator" job description; (*id.* at 182);

f. Advised a municipality regarding moving the "Central Count" from City Hall to a different location, which was wired to provide election results directly to private corporate employees; (*id.* at 262);

g. The Center for Civic Design offered a municipality to design the absentee voting instructions and the absentee envelopes; (*id.* at 184-196);

h. The Elections Group issued a Guide to Ballot Drop Boxes, a report on Planning Drop Boxes, Voter Outreach, and Communication; (*id.* at 197-236);

i. Provided advice about procedures for challenging an elector's ballot; (*id.* at 232-236); and

AMERICAN OVERSIGHT

j. Conservation Voices and curing. (*id.* at 237-240).

Whitney May of CTCL advised Milwaukee's Information Coordinator, Michelle Nelson, on how to request additional funding for election administration from the City and encouraged her to consult with other Zuckerberg 5 clerks:

> Below is some language I drafted along with 2 links that may help you frame the need for more staff. And have you asked Kris in Green Bay or Tara in Racine about their staffing levels? If they have similar numbers of registered voters as Kenosha, but more staff than Kenosha, then I think that's also a way to make your case to Admin.

App. 377. This email raises the concern that CTCL was drafting documents regarding municipal funding for election administration for the Zuckerberg 5. *Id.* Based on CTCL contact with the Commission, the CTCL and its partners may have drafted documents for Commission staff as well. *Id.*

Kris Teske saw these acts of usurpation as well, describing them in her communications. App. 318-319. As early as July, she claimed that the Mayor's office was diverting her authority as a result of the CTCL Contract. She wrote in an e-mail:

> I haven't been in any discussions or emails as to what they are going to do with the money. I only know what has been on the news/in the media... Again, I feel I am being left out of the discussions and not listened to at the meetings.

Id. at 318. Kris Teske also wrote, "Celestine also talked about having advisors from the organization giving the grant who will be 'helping us' with the election and I don't know anything about that." *Id.* at 319. "I don't understand how people who don't have the

AMERICAN OVERSIGHT

knowledge of the process can tell us how to manage the election." *Id.* Teske expressed concern that voting laws may be being broken. She wrote:

> I just attended the Ad Hoc meeting on Elections…. I also asked when these people from the grant give us advisors who is going to be determining if their advice is legal or not…I don't think it pays to talk to the Mayor because he sides with Celestine, so I know this is what he wants. I just don't know where the Clerk's Office fits in anymore.

Id. at 318-319.

Some of the most aggressive and egregious usurpation of election administration was performed by Michael Spitzer Rubenstein of NVAHI. Mr. Spitzer Rubenstein performed tasks such as:

a. Providing instructions to the Central Count workers (App. 241-242);

b. Augmenting the City of Green Bay's "guide with the DS450" voting machine instructions; issuing a purchase order (*id.* at 49); asking about 62001 openers (*id.* at 243);

c. Corresponding with the Green Bay City Attorney and other employees to interpret Wisconsin law and even to develop absentee voting protocols potentially inconsistent with Wisconsin Law (App. 73);

d. Offering to take "curing ballots" off of the City of Green Bay's plate (*id.* at 135, 137, 138, 172-173);

e. "[H]elping Milwaukee assign inspectors to Central Count stations," and offering to do the same for Green Bay (*id.* at 244);

f. Setting up the voting machines and patterns in the Central Count location (App. 175, 178, 179-195);

AMERICAN OVERSIGHT

g. Offering "additional resources" such as "funding available, both from ourselves, and the Center for Tech and Civic Life (thanks to Priscilla Chan and Mark Zuckerberg)" (*id.* at 124);

h. Determining whether to accept ballots after the deadline of 8 pm (*id.* at 291-292);

i. Allocating poll workers on election day (App. 252);

j. Teske stating finance person does not want NVAHI person in office, but Chief of Staff is running show (*id.* at 249-251);

k. Sharing Central Count guidance # of poll workers (*id.* at 252).

Further: "Michael Spitzer Rubenstein will be the on-site contact for the group [on Election Day]." App. 257-261. Mr. Spitzer Rubenstein was one of three people providing "supervision and check-in duties" for workers on the days of the election and subsequent vote counting. App. 306.

One of the functions of Mr. Spitzer Rubenstein's service as "on-site contact" was to coordinate with the contractor staff at the Hyatt Regency and KI Convention Center to set up wireless networks for Election Day operations. At Mr. Spitzer Rubenstein's instruction, there were three WiFi networks available. One was the general conference facility public network that would be available to members of the press and others. That network was password-protected, but the password was widely available. A second password-protected WiFi network was created for Central Count staff. Mr. Spitzer Rubenstein also directed that a third WiFi network be established, but that network was to be hidden and it was not

AMERICAN OVERSIGHT

to be password-protected. Spitzer Rubenstein also ensured that "both networks reach[ed] [his] hotel room on the 8th floor" (App. 262-266).

Spitzer Rubenstein had unfettered access to the Central Count, ballots, and ballot counting:

1. Spitzer Rubenstein developed a diagram and map of the "Central Count" area of the election and developed roles for the staff to handle and count ballots, and Central Count procedures (App. 267-288);
2. Assigned inspectors for vote counting and polling places (App. 244);
3. Pushed for control of ballot curing process (App. 172-173);
4. Provided advice to Green Bay's City Attorney regarding interpretation of Wis. Stat. governing the timing and receipt of ballots (App. 289-292);
5. Instructed "pull the numbers on the absentee ballots returned and outstanding per ward" information on vote results so he could determine which wards were on which voting machines (App. 293-295);
6. Created a "poll worker needs" spreadsheet (App. 296-298);
7. Put himself in charge of transporting ballots to City Hall and then to Central Count on election day; and then counting them. (Discussion of "moving ballot boxes in the morning and evening." November, 2, 2020 (App. 280, 299-301);
8. Stated "I'm putting together instructions for the Central Count

AMERICAN OVERSIGHT

workers, …" (App. 302);

9. Corresponded with Saralynn Flynn, also of Vote at Home, who wrote: "here is the document I made to hand out to central count observers." (App. 241) The "document" he created warned Election Observers to "NOT interfere in any way with the election process," while CTCL personnel, partners, "pollworkers" and others deputized by CTCL, transported ballots, counted ballots, and "cured" defective mail in and absentee ballots, and otherwise exercised considerable control over the election process (App. 303);

10. Had unrestricted access on election day to the Central Count floor (App. 304).

On election day, Spitzer Rubenstein had access to ballots and determined which ones would be counted or not counted. Spitzer Rubenstein wrote to Vanessa Chavez, Green Bay City Attorney, on November 3, 2020 at 9:29 pm: "Be prepared: ballots delayed." The text stated: "I think we're probably okay; I don't think anyone challenged the ballots when they came in." App. 304 (emphasis added). Spitzer Rubenstein explained that someone "prevented one of the drop box deliveries from getting to City Hall by 8 PM," so the ballots were "delayed," i.e., did not arrive on time as required by law. Forty-seven boxes of ballots were expected to be delivered and apparently, according to Spitzer Rubenstein's email, some of them were late but he decided that despite some of them being late, they were to be counted anyway because no one "challenged them." *Id.*

AMERICAN OVERSIGHT

1. The "Private Corporate Partners" Were from Out of State, and Not Necessarily Knowledgeable About Wisconsin Election Law, or Concerned About It.

Notably, CTCL's "private corporate partners" were from out of State, and not necessarily knowledgeable about Wisconsin election law, or concerned about it. Ryan Chew of the Elections Group was located outside of Wisconsin. Further, Chew was described by Whitney May of CTCL as having "decades of election experience working with the Cook County Clerk in Illinois. They [Mr. Chew and Gail, also from the Elections Group] are available to discuss your drop box plans (and more!)." App. 374. CTCL is headquartered in Illinois. Spitzer Rubenstein is a lawyer who lives in Brooklyn. Kris Teske stated in her answer that "[m]any of these [election administration] decisions were made by persons who were not authorized to do so and some were made by people not qualified to make them as, again, election laws need to be followed to ensure the integrity of the election." App. 676.

2. Safe Voting Was a Pretext—The Real Reason for CTCL's WSVP Grants was to Facilitate Increased In-Person and Absentee Voting in Specific Targeted Areas Inside the Zuckerberg 5.

The real reason for CTCL's WSVP grants was to facilitate increased in-person and absentee voting in specific targeted areas inside the Zuckerberg 5. App. 7-27. Safe voting was merely a pretext.

On June 10, 2020, Vicky Selkowe informed the representatives of the other Zuckerberg 5 that: "[o]ur national funding partner, the Center for Tech & Civic Life, has one additional question area they'd like answered: "What steps can you take to update

AMERICAN OVERSIGHT

registered voters' addresses before November? What steps can you take to register new voters? How much would each cost?" App. 604.

3. The Zuckerberg 5 Became Beholden to CTCL as a Result of the WSVP's Private Funding and the WSVP's Provisions.

The documents show that the Zuckerberg 5 became beholden to CTCL as a result of the WSVP's private funding and the WSVP's provisions.

On August 1, 2020, Maggie McClain of Madison emailed Maribeth Witzel-Behl stating: "is there an approval/letter giving the go-ahead for this? Or an okay from CTCL saying the *grant funds could be used for this*? I need something to attach to the requisition." App. 607.

On August 31, 2020, Kenosha sought and obtained CTCL permission for purchasing 3 DS450 high speed ballot tabulators for use at absentee central count locations at an amended cost of $180,000 instead of $172,000. App. 378-380. Madison sought similar approval from CTCL regarding election administration financing. App. 437-439, 441-443, 446, 450, 472-473.

On September 22, 2020, Karalyn Kratowitz, the interim deputy mayor of Madison, asked CTCL for instruction on and permission as to how to spend the money. App. 446.

On January 7, 2021, pursuant to the agreement, CTCL told Madison to report by January 31, 2021. App. 609.

The Zuckerberg 5 were periodically required to report to CTCL on election administration. All the Zuckerberg 5 were required to report to CTCL on their expenditures

AMERICAN OVERSIGHT

by January 31, 2021. App. 4 (Racine), 589 (Milwaukee), 592 (Madison), 596 (Kenosha), 599 (Green Bay).

4. The Zuckerberg 5 Ceded Administrative Control Over the Election to CTCL and its Private Partners, Including WisVote Data Sharing, so they Could Collectively Facilitate Increased In-Person and Absentee Voting in the 2020 Election.

As set forth above, CTCL's stated and implied conditions led to the Zuckerberg 5's municipal clerks and other staff to sometimes eagerly step aside, and other times to be pushed aside, to let CTCL and its private corporate partners engage in aspects of election administration—including exclusive free access to WisVote data not available to the public and not for free (e.g., $12,500 for copy of statewide WisVote data). *See, e.g.*, App. 7-27. CTCL and the private corporations, as revealed by the documents, had an ulterior motive in the WSVP to facilitate increased in-person and absentee voting in the Zuckerberg 5 and among their preferred racial groups. *Id.*

AMERICAN OVERSIGHT

Chapter 5
Corporate Legal Defense to Facilitate Obstruction Might Violate the Wisconsin Ethics Code

The unlawful actions of various Wisconsin election officials has opened them up to legal liability. In certain contexts, Wisconsin's election officials can enjoy legal immunity; in others, they can be represented by government attorneys or government-financed attorneys. Finally, in some contexts, unlawful actions of officials can place them in a position where they-- just like any other members of the public-- may have to hire and pay their own attorneys to defend themselves.

CEIR's Election Officials Legal Defense Network (EOLDN), announced in December of 2021, provides legal services for government officials on the hook for misconduct. In Wisconsin, this is not a solution to these election officials' legal problems. In fact, accepting EOLDN's legal services may get these election officials into more jeopardy, because the EOLDN system facially violates Wis. Stat. § 19.59 (1)(b), prohibiting such transactions. Wis. Stat. § 19.59 (1)(b) provides:

> (b) No person may offer or give to a local public official, directly or indirectly, and no local public official may solicit or accept from any person, directly or indirectly, anything of value if it could reasonably be expected to influence the local public official's vote, official actions or judgment, or could reasonably be considered as a reward for any official action or inaction on the part of the local public official.

The problem is that CTCL and CEIR are Zuckerberg-Chan financed entities that worked together as a joint venture in the 2020 election. CTCL received $350 million for the 2020 election. CEIR received $69 million for the 2020 election. CTCL funded the $8.8

AMERICAN OVERSIGHT

million Wisconsin Safe Voting Plan (WSVP), which the cities of Milwaukee, Madison, Green Bay, Racine and Kenosha used to purchase illegal drop boxes and the provision of those funds constitutes election bribery under Wis. Stat. § 12.11.

EOLDN's three leaders: David Becker, Bob Bauer and Ben Ginsberg have different roles regarding the Zuckerbergs' CTCL and WSVP. Becker, as President of CEIR, received $69 million from Zuckerberg-Chan. Bauer and Ginsberg are election law attorneys who likely represent-- or are being paid by-- CEIR, CTCL, or related entities. Not surprisingly, all three—Becker, Bauer and Ginsberg—have publicly supported CTCL's distributions in Wisconsin as lawful.

EOLDN should know that CTCL and CEIR are potential parties or witnesses to future illegal drop box or election bribery litigation or prosecutions. In turn, CEIR and related entities are disqualified from providing attorneys for Wisconsin election bribery defendants because they are potential parties, potential witnesses or biased due to previous representation of related parties. Further, it appears, EOLDN, on behalf of Zuckerberg and Chan, are improperly coordinating legal defenses of election officials to protect CTCL, CEIR, Zuckerberg, Chan and related entities and individuals.

By providing free legal defense services for election officials in these subject areas, EOLDN may be violating the first part of Wis. Stat. § 19.59 (1)(b), which prohibits such transactions:

> No person may offer or give to a local public official, directly or indirectly, and no local public official may solicit or accept from any person, directly or

AMERICAN OVERSIGHT

> indirectly, anything of value if it could reasonably be expected to influence the local public official's vote, official actions or judgment.

The law applies to these circumstances as follows. The "person" is EOLDN or their attorney. The local public official is the election official receiving free EOLDN legal services. The "anything of value" provided is the free legal defense services provided by EOLDN. The gift of the free legal services could reasonably be expected to influence the election officials' official actions or judgment. Since EOLDN's free legal services will have foremost in mind protecting the interests of CTCL, CEIR, Zuckerberg and Chan, it will influence the election officials' official actions and judgment in defending Wis. Stat. § 5.06 administrative corrections and related criminal prosecutions. So, all the elements are satisfied for the transaction to be deemed prohibited.

By providing free legal defense services for election officials in these subject areas, EOLDN may be violating the second part of Wis. Stat. § 19.59 (1)(b) prohibiting such transactions:

> No person may offer or give to a local public official, directly or indirectly, and no local public official may solicit or accept from any person, directly or indirectly, anything of value if it …could reasonably be considered as a reward for any official action or inaction on the part of the local public official

The law applies to the circumstances as follows. The "person" is EOLDN or their attorney. The local public official is the election official receiving free EOLDN legal services. The "anything of value" provided is the free legal defense services provided by EOLDN. EOLDN or its attorney's gift of the legal services could reasonably be considered a reward for the official's actions regarding the illegal drop boxes, election bribery and/or violating

AMERICAN OVERSIGHT

the special voting deputies law. Recall CTCL, Zuckerberg and Chan financed the illegal drop boxes and election bribery, so EOLDN's free legal services to the election officials could be reasonably seen as a "reward" for their participation in unlawful actions related to the election.

AMERICAN OVERSIGHT

Chapter 6

Wisconsin Election Officials' Widespread Use of Absentee Ballot Drop Boxes Facially Violated Wisconsin Law

In Wisconsin, election officials' unprecedented use of absentee ballot drop boxes facially violated Wisconsin law. This practice of unlawful absentee ballot drop boxes was particularly pervasive in the cities of Milwaukee, Madison, Kenosha, Racine and Green Bay. These bulk absentee ballot drop boxes were privately financed by Center for Tech and Civic Life (CTCL). The WSVP and CTCL's grant acceptance letter incorporating the WSVP is the agreement in which the city agreed to take CTCL's money to purchase and place absentee drop boxes in targeted neighborhoods. App. 10, 16-17.

In total, the WSVP provided $216,500 for unlawful absentee ballot drop boxes in the Zuckerberg 5. App. 17. The WSVP provided Green Bay $50,000 for absentee ballot drop boxes. App. 16. The WSVP provided Kenosha $40,000 for absentee ballot drop boxes. App. 16. The WSVP provided Madison $50,000 for absentee ballot drop boxes. App. 16. The WSVP provided Milwaukee $58,500 for absentee ballot drop boxes. App. 16. The WSVP provided Racine $18,000 for absentee ballot drop boxes. App. 17.

The use of absentee ballot drop boxes has been successfully challenged in state court as being unlawful. In a case in the Waukesha County Circuit Court, the plaintiffs sued the WEC to challenge 2020 guidance memos that the WEC issued to municipal clerks. Complaint, Teigen v. Wisconsin Elections Commission, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. June 28, 2021) (under review by the Wisconsin Supreme Court), available

AMERICAN OVERSIGHT

at App. 649-660. In particular, the plaintiffs challenged a memorandum that purported to authorize unstaffed ballot drop boxes:

> Despite this requirement in the statutes [i.e., the requirement that an absentee ballot either be returned by mail or be returned by the voter "in person, to the municipal clerk." Wis. Stat. § 6.87(4)(b)1], WEC Commissioners sent a memo to municipal clerks dated August 19, 2020, (the "August 2020 WEC Memo") stating that absentee ballots do not need to be mailed by the voter or delivered by the voter, in person, to the municipal clerk but instead could be dropped into a drop box and that the ballot drop boxes could be unstaffed, temporary, or permanent. (A true and correct copy of the August 2020 WEC Memo is attached hereto as Exhibit B.).
>
> Id. ¶ 10, available at App. 651.

The court granted the plaintiffs motion for summary judgment and declared the use of ballot drop boxes, outside of narrow exceptions, to be inconsistent with Wisconsin law:

> For the reasons set forth by the Court on the record at the January 13, 2022 hearing, the Court hereby declares that WEC's interpretation of state statutes in the Memos is inconsistent with state law, to the extent they conflict with the following: (1) an elector must personally mail or deliver his or her own absentee ballot, except where the law explicitly authorizes an agent to act on an elector's behalf, (2) the only lawful methods for casting an absentee ballot pursuant to Wis. Stat. § 6.87(4)(b)1. are for the elector to place the envelope containing the ballot in the mail or for the elector to deliver the ballot in person to the municipal clerk, (3) the use of drop boxes, as described in the Memos, is not permitted under Wisconsin law unless the drop box is staffed by the clerk and located at the office of the clerk or a properly designated alternate site under Wis. Stat. § 6.855.
>
> Order Granting Summary Judgment for Plaintiffs, Teigen v. Wisconsin Elections Commission, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. January 20, 2020), available at App. 66.

Accordingly, the Zuckerberg 5's privately funded absentee ballot drop boxes in the 2020 election were unlawful under Wis. Stat. § 6.87(4)(b)1 and § 6.855. Thus, the

AMERICAN OVERSIGHT

Zuckerberg 5 and CTCL's agreement for CTCL-funded purchase and placement of absentee ballot drop boxes was also unlawful and contrary to public policy. We suggest below legislative action that would make this prohibition even more clear.

AMERICAN OVERSIGHT

Chapter 7

The Wisconsin Elections Commission (WEC) Unlawfully Directed Clerks to Violate Rules Protecting Nursing Home Residents, Resulting in a 100% Voting Rate in Many Nursing Homes in 2020, Including Many Ineligible Voters

Contrary to statements made by several groups and media sources over the past months, the OSC has uncovered evidence of election fraud in the November 2020 election. Rampant fraud and abuse occurred statewide at Wisconsin's nursing homes and other residential care facilities in relation to absentee voting at these facilities. This fraud and abuse was the ultimate result of unlawful acts by WEC's members and its staff, the end results being:

1. Residents were illegally assisted with "marking" their ballots by nursing home staff and administrators;
2. Absentee ballots for residents were illegally handled by facility staff and administrators;
3. Resident absentee ballots were illegally "witnessed" by nursing home staff and administrators;
4. Suspected forger of resident signatures by nursing home staff and administrators;
5. Improbably high voting rates for residents at nursing homes; and
6. Ballots cast by residents—
    1. Where those residents were unaware of their surroundings, with whom they are speaking at any given time, or what year it is; and/or

AMERICAN OVERSIGHT

2. Where those residents' right to vote had been taken away by court order because they have been adjudicated as mentally incompetent.

Through these acts, the members and staff of WEC mandated widespread election fraud to take place where our most vulnerable adult citizens reside.

The OSC has spent significant time and resources investigating the fraud and abuse that occurred at Wisconsin's nursing homes. However, that part of the investigation is nowhere near complete. While the OSC has been able to audit the votes of several nursing homes in five counties, and has interviewed the families of many residents who have been abused, the OSC believes a state-wide, complete audit of all absentee votes from all facilities governed by Wis. Stat 6.875 is necessary. The OSC is continuing to pursue this avenue of the investigation with an eye towards completing that audit.

There are four distinct types of Elderly Care Facilities in Wisconsin, Assisted Living (including assisted living apartments), Adult Day Care Centers, Nursing Homes and Memory Care Units. Many of the memory care units are operated within the Nursing Home environment. In total, there are about 92,000 people in Wisconsin who reside in these facilities.

Wisconsin law defines "election fraud" at Wis. Stat. § 12.13. That section provides in pertinent part—

"12.13 Election Fraud

(1) ELECTORS. Whoever intentionally does any of the following violates this chapter:

…

AMERICAN OVERSIGHT

(h) Procures, assists or advises someone to do any of the acts prohibited by this subsection.

(2) ELECTION OFFICIALS.

…

(b) No election official may:

…

3. Permit registration or receipt of a vote from a person who the official knows is not a legally qualified elector or who has refused after being challenged to make the oath or to properly answer the necessary questions pertaining to the requisite requirements and residence; or put into the ballot box a ballot other than the official's own or other one lawfully received.

4. Intentionally assist or cause to be made a false statement, canvass, certificate or return of the votes cast at any election.

…

7. In the course of the person's official duties or on account of the person's official position, intentionally violate or intentionally cause any other person to violate any provision of chs. 5 to 12 or which no other penalty is expressly prescribed.

(3) PROHIBITED ACTS. No person may:

…

(L) When not authorized, during or after an election, break open or violate the seals or locks on a ballot box containing ballots of that election or obtain unlawful possession of a ballot box with official ballots; conceal, withhold or destroy ballots or ballot boxes; willfully, fraudulently or forcibly add to or diminish the number of ballots legally deposited in a ballot box; or aid or abet any person in doing any of the acts prohibited by this paragraph.

…

(N) Receive a ballot from or give a ballot to a person other than the election official in charge.

…

AMERICAN OVERSIGHT

(P) Receive a completed ballot from a voter unless qualified to do so."

Wisconsin has enacted rules specifically related to the conduct of absentee voting in nursing homes and other residential care facilities. These rules are found in Wis. Stat. § 6.875. Wis.. Sat. § 6.875(2)(a) specifically states—

> Absentee voting in person inside residential care facilities and qualified retirement homes shall be conducted by municipalities only in the manner prescribed in this section. At any residential care facility or qualified retirement home where a municipality dispatches special voting deputies to conduct absentee voting in person under this section, the procedures prescribed in this section are the exclusive means of absentee voting in person inside that facility or home for electors who are occupants of the facility or home.

Among the rules that must be followed are that municipal clerks or boards of election commissioners must designate "Special Voting Deputies" (SVDs) for the purpose of supervising absentee voting in qualified retirement homes and residential care facilities, and that these SVDs must be dispatched to nursing homes to supervise absentee voting in those facilities, except in very limited circumstances.

If a resident at a nursing home or other residential care facility requests an absentee ballot, and SVDs are dispatched to that facility (which again must happen except in very limited circumstances) the law provides that the clerks or the board of electors must give the ballot to the SVDs "who shall personally deliver the ballot to the elector" when the SVDs visit the facility.

Once the ballot is delivered, the SVDs may assist the resident with "marking" the ballot. Importantly, the only people authorized by Wisconsin law to assist a resident in

AMERICAN OVERSIGHT

"marking" an absentee ballot are SVDs and "immediate family members." It is illegal for anyone else under any circumstances to do so. Further, the law specifically provides that "the [SVDs] **shall not accept** an absentee ballot submitted by an elector whose ballot was not issued to the elector by the [SVDs]" and that "[a]ll voting shall be conducted in the presence of the [SVDs]."

Once voting is complete on the day of an SVD's visit to the facility, Wisconsin law provides—

> **(d)** Upon completion of the voting on each day at each residential care facility or qualified retirement home, the deputies shall seal the absentee ballot envelopes and any absentee ballot applications inside a carrier envelope and shall seal the carrier envelope and sign their names to the seal. The deputies shall place the envelope inside a ballot bag or container. As soon as possible after visiting each residential care facility or retirement home, but not later than 18 hours after the visit, the deputies shall deliver the ballot bag or container to the clerk or board of election commissioners of the municipality in which the elector casting the ballot resides.

There is no provision in Wis. Stat. § 6.875 for absentee ballots from nursing home residents to be returned by mail, except in the case of a voter that "maintains a residence outside the facility or home" in which case the voter may request and return an absentee ballot in the standard manner as provided for elsewhere in the statutes. Wis. Stat. § 6.875(ar)2.

Despite the clear mandates of Wisconsin law, in a June 24, 2020 memorandum directed to all clerks of the state, WEC directed clerks not to send SVDs to facilities, and to instead mail ballots to voters in those facilities. WEC further stated that "The regular rules for absentee voting by mail will apply to ballots sent by mail to care facility voters."

AMERICAN OVERSIGHT

On September 25, 2020, WEC forwarded to all clerks of the State two documents, a "Sample Nursing Home and Care Facility Letter" (the "Facility Letter") and a training document entitled "Absentee Voting at Nursing Homes and Care Facilities" (the "Training Document").

The Facility Letter was provided to clerks as a template for letters to be sent by the clerks to nursing homes in their jurisdiction, directing those facilities as to the purported new rules for absentee voting for the November 2020 election. In the Facility Letter, WEC told the clerks to advise facilities that the normal restrictions against facility staff assisting residents with voting will not be in place "because of SVDs being restricted from visiting." It further provided that "[r]esidents who receive ballots will have to vote their ballot, have a witness provide required information on the return envelope, and return their ballot by mail in order to participate." The letter also stated that facility staff may assist residents in "completing the information required on the voter registration form" and completing absentee ballot request forms.

In addition to providing further details as to how facility staff could assist residents with registration, absentee ballot application, and voting, the Training Document stated—

> As a care facility administrator or staff member, you are able to:
>
> 1. Assist residents in filling out their ballots or certificate envelopes.
> 2. Assist residents in completing voter registration forms and absentee requests.
> 3. Sign the special certificate envelope (EL-122sp) if necessary (see below for explanation).
> 4. Witness ballots.

AMERICAN OVERSIGHT

The Training Document also provided certain "Absentee Voting FAQs" with answers thereto, including—

> Q: How do residents of my facility return their ballot? We used to have people (SVDs) come to the facility and administer the voting and take the ballots back. Now what is expected?
>
> A: Ballots should be mailed back to the clerk using the postage-paid return envelope provided by the clerk with the voter's ballot. They can also be returned to the clerk's office in-person at the request of the voter.
>
> Q: Who can assist the voter in voting their ballot?
>
> A: Anyone can assist the voter in reading and/or marking their ballot, except the voter's employer, including care facility staff and family. Normally, care facility staff are restricted from assisting voters, but this restriction is not in effect because the voter is casting their ballot by mail. Wis. Stat. § 6.87(5)
>
> Q: Can a resident's ballot be returned using a drop box at the Town/Village/City Hall?
>
> A: Yes, the ballot may be returned to a drop box or directly to the clerk's office at the request of the voter. All ballots must be received by 8:00 PM on election day in order to be counted. Not all municipalities offer drop boxes, so you should check with the clerk to see if one is available for ballot return.

Each and every WEC directive identified above in regard to absentee voting in nursing homes and other resident care facilities is a direct violation of Wisconsin law, and ultimately encouraged widespread fraud in regard to absentee voting at these facilities.

In addition to other violations, WEC's directives were illegal in the following ways:

1. Directing that facility staff may assist voters in registering to vote, applying for an absentee ballot and/or assisting the voter in marking the ballot are all violations of provisions of Wis. Stat. § 6.875;

2. Directing that clerks not send SVDs to any facilities violated the basic tenets of Wis. Stat. § 6.875 that absentee voting in nursing homes "shall" be conducted in compliance with that statute and that all absentee voting at nursing homes must be conducted "in the presence of [SVDs];"

AMERICAN OVERSIGHT

3. Directing clerks to mail ballots directly to nursing home residents violated the rule that absentee ballots requested by facility residents must be given first to SVDs, and then the SVDs are the only persons authorized to then give those ballots to the residents;

4. Directing that absentee ballots may be returned by mail, by placing them in a ballot drop box, and/or by returning them directly to the clerk (by someone other than an SVD) "at the request of the voter" all violate the rule that these absentee ballots are to be returned only to an SVD, who then must place them in a ballot bag or container and return them to the clerk within 18 hours.

Ultimately, WEC's directives mandated that widespread "election fraud" be undertaken in relation to the November 2020 election. As is noted above, "election fraud" occurs when ballots are given to, or received by anyone other than "the election official in charge" or when a person receives a completed ballot from a person "unless qualified to do so."

WEC's directives caused ballots to be mailed directly to nursing home residents rather than the "election officials in charge"—who would have been the SVDs. By the same token, it caused completed ballots to be illegally given to facility staff or returned by mail rather than the SVDs, violating both the rule that ballots cannot be given to anyone other than the "election official in charge" as well as the prohibition against receiving a completed ballot from someone "unless qualified to do so."

The only persons qualified to receive completed ballots from nursing home residents are, and were, SVDs. The law did not change before or after the November 2020 election, and WEC's directives were in direct violation thereof. As a result, WEC's directors and

AMERICAN OVERSIGHT

staff committed election fraud themselves by mandating and/or encouraging others to commit acts prohibited by the election fraud statute.

The OSC has evidence that facility staff and directors—

1. Assisted residents in completing ballots;
2. Assisted residents in obtaining absentee ballots;
3. Pressured residents to vote;
4. Collected completed ballots from residents;
5. Forged signatures of residents;
6. Illegally returned residents' ballots to the municipal clerks by mail, by placing the ballots in drop boxes, and/or delivering them directly to the clerks;
7. Pressured and/or assisted incompetent persons to complete and cast ballots in the November 2020 election, up to and including persons who have had their right to vote take away by court order due to mental incompetence.

Not only did WEC's directives mandate and/or encourage violations of Wis. Stat. § 6.875 and the election fraud statute: it led to absurd results relating to nursing home voting in the November 2020 election. The following chart shows the registered voting rates in the November 2020 election for nursing homes that were vetted by the OSC in Milwaukee, Racine, Dane, Kenosha, and Brown Counties:

AMERICAN OVERSIGHT

County	# of Nursing Homes Vettted	# of Registered Voters	# of Voters Nov 2020	% of Registered Voters that Voted
Milwaukee	30	1084	1084	100%
Racine	12	348	348	100%
Dane	24	723	723	100%
Kenosha	9	866	841	97%
Brown	16	280	265	95%

It is important to note that the above chart only reflects voting at the nursing homes that the OSC has been able to vet to this juncture. There are more facilities in these counties, and after auditing the votes from other facilities, the above percentages may change. Further, as is noted above, the OSC believes a complete state-wide audit of absentee ballots sourced from nursing home and other residential care facility residents is necessary.

Election fraud is a crime. The Racine County Sheriff's Office recommended criminal prosecution of certain members of WEC relating to their instructions to municipal clerks not to send SVDs to nursing homes for the November 2020 Presidential election. Specifically, the Sheriff recommended charges for WEC Commissioners Margaret Bostelmann, Julie Glancey, Ann Jacobs, Dean Knudson, and Mark Thomsen. The recommended charges are the same for each Commissioner, and include:

1. Misconduct in Public Office in violation of Wis. Stat. § 946.12(2) (Felony);
2. Election Fraud—Election Official Assisting with Violations in violation of Wis. Stat. § 12.13(2)(b)7 (Felony);
3. Party to the Crime of Election Fraud—Receive Ballot Non-Election Official

AMERICAN OVERSIGHT

in violation of Wis. Stat. § 12.13(3)(n) (Misdemeanor);

4. Party to the Crime of Election Fraud—Illegal Ballot Receipt in violation of Wis. Stat. § 12.13(3)(p) (Misdemeanor);

5. Party to the Crime of Election Fraud—Solicit Assistance in violation of Wis. Stat. § 12.13(3)(s) (Misdemeanor)

In a recent letter, Racine County District Attorney Patricia Hanson, after stating she did not have jurisdiction to prosecute, stated to Sheriff Christopher Schmaling that, in her expert legal opinion, multiple members of WEC acted "contrary" to Wisconsin Elections laws. District Attorney Hanson stated:

> Despite knowing that what they were doing was contrary to law and despite being told by the Governor's Office that they were exceeding their authority, the WEC instructed municipal and county clerks to eliminate the SVD process for elections in 2020. Proof of this comes directly from the recordings of the WEC meetings that can be found on their website and their recorded meetings.

District Attorney Hanson further stated:

> It is appalling to me that an appointed, unelected group of volunteers, has enough authority to change how some of our most vulnerable citizens access voting. Dispensing with the mandatory process created by the legislature of using sworn and trained SVDs to assist citizens in nursing homes, directly led to what occurred at Ridgewood Care Center in Racine County. Residents who did not request ballots voted because someone else made a request for a ballot on their behalf and then voted on their behalf. If even one person's right to freely choose to vote or not to vote was diminished, then a travesty of justice has occurred.

While the Racine County District Attorney has decided not to prosecute on jurisdictional grounds, the OISC has learned that the Racine County Sheriff's Office has forwarded referrals to the District Attorneys for the resident counties of the above-noted

AMERICAN OVERSIGHT

WEC members—St. Croix, Sheboygan, Green Lake and Milwaukee Counties. No decision has been made by those District Attorneys regarding prosecution as of this writing.

In an October 28, 2021 press release, WEC Chairman Ann Jacobs inaccurately denied that anyone at WEC broke the law and attempted to justify WEC's possibly unlawful acts by stating that had they not performed them, "many residents in Wisconsin care facilities could have and would have been disenfranchised and not able to vote in the 2020 elections." The OSC finds this statement to be no excuse.

WEC's solution to the potential "disenfranchisement" of nursing home residents who wished to vote absentee (a privilege under the law) was to completely strip away the protections afforded to those persons by Wisconsin law and allow nursing home residents to be subjected to undue influence, overzealous solicitation, and outright fraud.

Under Wisconsin law, while voting is a right, voting by absentee ballot is a privilege. Wisconsin law specifically provides that "the privilege of voting by absentee ballot must be carefully regulated to prevent the potential for fraud or abuse; to prevent overzealous solicitation of absent electors who may prefer not to participate in an election; to prevent undue influence on an absent elector to vote for or against a candidate or to cast a particular vote in a referendum; or other similar abuses." Beyond the stringent safeguards of absentee voting in general, absentee voting in nursing homes requires specialized supervision precisely because those facilities house our state's most vulnerable residents.

In stark contrast to what Wisconsin law seeks to prevent, WECs directives led to the abuse of some of our State's most vulnerable citizens. Many residents were pressured

AMERICAN OVERSIGHT

to vote when there is no scenario under which that should have ever happened legally or morally. The OSC conducted interviews with the families of several facility residents who were extremely vulnerable, and yet cast ballots in the November 2020 election. Among the stories we were told were—

1. In Brown County Facility 1, 20 absentee ballots were cast. A study of the Absentee Ballot Envelopes obtained through open records request revealed all 20 of the envelopes were witnessed by the same person. At this facility, Resident A voted, and Resident A's family provided copies of that resident's signature against the signature on the absentee envelope, and they do not match. Further, Resident A does not have the mental capacity to vote as is evinced in a video interview.

2. At the same facility, Resident B, according to WisVote data, voted twice, both by absentee ballot.

3. In Brown County Facility 2, Resident C voted in 2020. According to family, Resident C was not of sound mind for over 10 years. This is documented in a video interview;

4. In Brown County Facility 3, Resident D was taken from the facility to vote by family and guardian to Resident D's assigned polling location. Resident D had registered to vote at this location on Oct 29th as well. When Resident D presented herself to vote on election day, the Resident D was told that Resident D had already voted. After questioning from family, Resident D recollected that someone at the nursing home had come around talking about voting at the nursing home, however, Resident D denied voting at the home. WisVote shows her voting absentee;

5. In Dane County Facility 1, Resident E, who has been adjudicated incompetent since 1972, voted in 2020. Video of Resident E shows Resident E is clearly not mentally capable of voting;

6. In Dane County Facility 2, Resident F never requested an absentee ballot for the November 2020 election, yet received one. Resident F's guardian intercepted the ballot and subsequently Resident F did not vote. The guardian notified the nursing home that Resident F was no longer going to be voting yet in the Spring of 2021, WisVote records reveal that Resident F voted again;

AMERICAN OVERSIGHT

7. In Kenosha Facility 1, Resident G voted absentee in the Nov 2020 election. Resident G was interviewed on video and it shows she is clearly incapable of voting;

8. In Kenosha Facility 2, Resident H voted absentee in November of 2020. Resident H's guardian reported it as Resident H is incapable of voting as Resident H suffered from severe dementia. However, WisVote records indicate Resident H voted throughout the calendar year 2020;

9. In Milwaukee County Facility 1, WisVote data shows 3 adjudicated incompetent voters voted in the November 2020 election. However, it was actually 2 individuals with one casting two ballots;

10. In Milwaukee County Facility 2, Resident I is 104 years old and clearly incompetent. Resident I's family indicated Resident I had been incompetent for several years. This is an extremely egregious case as shown by video of Resident I with family. Resident I cannot comprehend anything;

11. In Outagamie County facility 1, Resident J, who has been adjudicated incompetent not only voted in the November 2020 election, but she also voted in February 2021. The video of Resident J verifies the fact that Resident J is incompetent.

12. In Washington County Facility 1, Resident K was found incompetent in 2018 by two separate doctors. Resident K cast a ballot in the November 2020 Presidential election. Resident K passed in November of 2021.

It is "disenfranchisement" when electors are pressured to fill out ballots they did not wish to or in a way they don't desire or even understand. It is "disenfranchisement" when ballots are illegally cast on behalf of persons who have had their right to vote taken away by the courts of this State due to their mental incompetence. In no way was WEC's mandating illegal activity a "solution" to "disenfranchisement" and to suggest that WEC's actions were a good faith effort at doing so ignores the facts and the law.

WEC's unlawful activities facilitated and encouraged possible widespread criminality and election fraud. Aside from the fact that they were legally and morally

AMERICAN OVERSIGHT

wrong, these acts led to 100% voting rates in many nursing homes in Brown, Dane, Kenosha, Milwaukee and Racine Counties and incapacitated people voting statewide. Given that there are approximately 92,000 residents of facilities governed by Wis. Stat. § 6.875 statewide, the fact that tens of thousands of illegal ballots from these facilities were counted casts doubt on the 2020 Presidential election result.

AMERICAN OVERSIGHT

Chapter 8

WEC Also Unlawfully Encouraged Evasion of Ballot Security Measures Related to "Indefinitely Confined" Voters at the Behest of Outside Corporations

Wisconsin, like many States, has strict absentee voting laws. These laws are designed to avoid the many prevalent dangers of fraud or abuse that are inherent in an absentee setting. It was never the intention of the Legislature to make absentee voting easily accessible from one's home without meeting voting identification requirements and complying with stringent voter protection laws. However, the Legislature made a special, narrow exception for indefinitely confined voters.

This exception for voting absentee applies when voters are confined to their homes and declare themselves to be indefinitely confined. An elector who is indefinitely confined because of age, physical illness, or infirmity, or is disabled for an indefinite period may, by signing a statement to that effect, require that an absentee ballot be sent to the elector automatically for every election. There are two requirements to vote indefinitely confined. The voter must be indefinitely confined to their home, and the reason for this confinement must be the voter's age, physical illness, sickness, or disability. While one can indefinitely confine themselves to their home for any reason, that confinement does not qualify for an absentee ballot unless the confinement is for a statutory reason—not including a reasonable or unreasonable fear of becoming ill from COVID.

AMERICAN OVERSIGHT

This statute was grossly misconstrued by the Dane and Milwaukee County clerks. Both clerks issued statements that they would send absentee ballots to voters who were indefinitely confined to their homes because of a fear of contracting COVID. The Wisconsin Supreme Court corrected this legally erroneous statement. However, during the time the clerks made their announcement until the judiciary forced the clerks to stop their announcements, the number of newly designated indefinitely confined voters skyrocketed. The clerks did nothing to remove these voters or determine which voters met the true legal definition of "indefinitely confined." Instead, the clerks sent these registrants absentee ballots. In doing so, they not only gave ballots to unqualified indefinitely confined voters but skirted a very important protection for election fraud.

Voter identification is required for every ballot issued in Wisconsin except to the indefinitely confined voter.

Instead, the voter "may, in lieu of providing proof of identification, submit with his or her absentee ballot a statement . . . which contains the name and address of the elector and verifies that the name and address are correct." Wis. Stat. § 6.87. This feature of indefinitely confined voting was also abused. In one documented incident from the Dane County recount, a voter reported that he called the clerk's office and requested an absentee ballot. He was asked if he had identification that had his current address. Having just moved to the city, he responded that he had not obtained a new identification card. He was told not to worry, that he could still get a ballot by declaring himself to be indefinitely confined. Then, he was instructed to say that he would provide proof of his address by statement.

AMERICAN OVERSIGHT

The clerk's office said not only would it send him a ballot for the 2020 general election, but they would send him a ballot to his home every year after without his having to request the ballot and without the necessity for identification until he stopped voting or reported that he was no longer indefinitely confined. The voter, an honest individual, declined the clerk's suggestion and reported his experience.

This was not the only abuse of the indefinitely confined voting law. A flagrant example is that of State Senator Patricia Schachtner. Schachtner and her husband signed statements indicating that they were indefinitely confined voters for the November 2020 election and opted to receive absentee ballots pursuant to Wis. Stat. § 6.87(2). However, social media showed the Schachtner family to be active outside their home in the months prior to and during the election both for personal recreation and as Schachtner campaigned for reelection. Additionally, Schachtner was named to be a Presidential elector to cast electoral college votes for Biden at the Wisconsin Capitol on December 14, 2020, approximately one month after the election for which she was indefinitely confined.

This is an egregious violation of the indefinitely confined status. One cannot be confined to one's home for a length of time with no definite end because of age, physical illness or infirmity, or disability and also campaign for reelection, enjoy social and family life, and appear at the Wisconsin Capitol to vote. Clearly, Schachtner and her husband were not indefinitely confined to their home when she requested and cast her ballot in the 2020 election. Schachtner and many others failed to follow our election law and no enforcement action was taken.

AMERICAN OVERSIGHT

Our Republic and way of life is in danger if we fail to follow and enforce the law. The rule of law requires that legal rules be publicly known, consistently enforced, and even-handedly applied. Violating the rule of law can lead to uncertainty. Uncertainty provides opportunities for arbitrary power. Without the rule of law, citizens may be tempted to take justice into their own hands.

My investigation will determine why the clerks failed to act on their obligation to review and expunge from the voter rolls those claiming to be indefinitely confined voters when the clerk has "reliable information that [the] . . . elector no longer qualifies for the service." Wis. Stat. § 6.86(2)(b). I am concerned that the electors who claimed they were indefinitely confined, but were not physically ill, infirm, elderly, or disabled failed to take steps to remove themselves from that status prior to the November 3, 2020, election. *See* Wis. Stat. § 6.86(2)(a). I am even more concerned that ineligible voters might have taken advantage of that status in order to vote without the need to properly identify themselves. I expect to issue another report that includes the impact of indefinitely confined voting abuses and how the Legislature can prevent these abuses in the future to restore confidence in the rule of law.

AMERICAN OVERSIGHT

Chapter 9

Wards Under Guardianship Order Voted Unimpeded by Wisconsin's Election Officials as They Are Not Recorded in the WisVote Voter Database, Even Though the Circuit Courts Have This Information.

Wis. Stat. § 6.03 disqualifies from voting those citizens who are incapable of understanding the voting process or are under court-ordered guardianship, unless the court has determined that the right to vote is preserved. The statute states:

> 6.03 Disqualification of electors.
> (1) The following persons shall not be allowed to vote in any election and any attempt to vote shall be rejected:`
> (a) Any person who is incapable of understanding the objective of the elective process or who is under guardianship, unless the court has determined that the person is competent to exercise the right to vote.
> (b) Any person convicted of treason, felony or bribery, unless the person's right to vote is restored through a pardon or under s. 304.078 (3).
> (2) No person shall be allowed to vote in any election in which the person has made or become interested, directly or indirectly, in any bet or wager depending upon the result of the election.
> (3) No person may be denied the right to register to vote or the right to vote by reason that the person is alleged to be incapable of understanding the objective of the elective process unless the person has been adjudicated incompetent in this state. If a determination of incompetency of the person has already been made, or if a determination of limited incompetency has been made that does not include a specific finding that the subject is competent to exercise the right to vote, and a guardian has been appointed as a result of any such determination, then no determination of incapacity of understanding the objective of the elective process is required unless the guardianship is terminated or modified under s. 54.64.

The Help America Vote Act, section 21083, provides "if a State is described in section 4(b) of the National Voter Registration Act of 1993 (42 U.S.C. §§ 1973gg–2(b))

AMERICAN OVERSIGHT

[now 52 U.S.C. § 20503(b)], that State shall remove the names of ineligible voters from the computerized list in accordance with State law." Wisconsin is described in section 20503(b); so, section 21083 requires the state's election officials to follow state law on removal of ineligible voters from the computerized list. Accordingly, section 21083 requires that WEC remove the names of ineligible voters from the computerized list, WisVote, in accordance with Wisconsin law.

In Wisconsin, ineligibility information about wards under guardianship without the right to vote is available from the circuit courts. Information about persons who are incapable of understanding the objective of the elective process is available from family, friends, medical authorities and nursing homes.

Under federal law, WEC is legally required to include in WisVote ineligibility information about ineligible wards and incapacitated persons. WEC is also legally required under federal law to distribute to the State's municipal clerks lists of wards and incapacitated person so as to prevent these ineligible non-citizens from election day registration and voting.

In violation of its federal and state legal duties, Wisconsin election officials failed to prevent wards and incapacitated persons from voting in the 2020 Presidential election—casting doubt on the election result.

AMERICAN OVERSIGHT

Chapter 10

Non-citizens Voted Unimpeded by Wisconsin's Election Officials, as They Are not Recorded in the WisVote Voter Database, Even Though Wisconsin Law Requires Citizenship to Vote.

Wis. Stat. § 6.02 requires citizenship to be qualified as an elector. The statute states:

> 6.02 Qualifications, general.
> (1) Every U.S. citizen age 18 or older who has resided in an election district or ward for 28 consecutive days before any election where the citizen offers to vote is an eligible elector.
> (2) Any U.S. citizen age 18 or older who moves within this state later than 28 days before an election shall vote at his or her previous ward or election district if the person is otherwise qualified. If the elector can comply with the 28-day residence requirement at the new address and is otherwise qualified, he or she may vote in the new ward or election district.

Section 21083 of the Help America Vote Act provides "if a State is described in section 4(b) of the National Voter Registration Act of 1993 (42 U.S.C. §§ 1973gg–2(b)) [now 52 U.S.C. § 20503(b)], that State shall remove the names of ineligible voters from the computerized list in accordance with State law." Wisconsin is described in section 20503(b); so, section 21083 requires the state's election officials to follow state law on removal of ineligible voters from the computerized list. Accordingly, section 21083 requires that WEC remove the names of non-citizens, who are by definition ineligible voters, from the computerized list, WisVote, in accordance with Wisconsin law.

In Wisconsin, ineligibility information about non-citizens is available from the Department of Transportation. The Department of Transportation issues driver licenses to non-citizens who qualify. Under federal law, WEC is legally required to include in

AMERICAN OVERSIGHT

WisVote ineligibility information about non-citizens from the Department of Transportation. WEC is also legally required under federal law to distribute to the state's municipal clerks lists of non-citizens so as to prevent these ineligible non-citizens from election day registration and voting.

In violation of its federal and state legal obligations, Wisconsin election officials failed to prevent non-citizens from voting in the 2020 Presidential election—casting doubt on the election result.

AMERICAN OVERSIGHT

Chapter 11

Milwaukee, Madison, Racine, Kenosha, and Green Bay Election Officials May Have Violated the Federal and Wisconsin Equal Protection Clauses by Not Treating All Voters Equally in the Same Election.

Importantly, the Zuckerberg 5 election officials violated Federal and Wisconsin Equal Protection Clauses by not treating all voters the same in the same election. Treating all voters equally in the same election is a bedrock principle of election law.

The public record shows that the public's right to vote was unjustifiably burdened by the Zuckerberg 5 targeting geographic and demographic groups for increased voting. The Zuckerberg 5's conduct promoting voting for certain voter groups affected election outcomes—as concluded by WILL's 2021 analytical report. The Zuckerberg 5 in the WSVP crossed the line between election administration and campaigning and that never should have never occurred.

The appropriate standard of review for Equal Protection Clause analysis is Anderson-Burdick scrutiny for the disparate treatment of voters and, also, here, strict scrutiny of the government's rationale. When a plaintiff alleges that a state has burdened voting rights through the disparate treatment of voters, the legal standard used is generally found in *Anderson v. Celebrezze*, 460 U.S. 780 (1983) and *Burdick v. Takushi*, 504 U.S. 428 (1992). *See also Clements v. Fashing*, 457 U.S. 957, 965

AMERICAN OVERSIGHT

(1982). Although *Anderson* and *Burdick* were both ballot-access cases, the Supreme Court has confirmed their vitality in a much broader range of voting rights contexts. *See Crawford v. Marion Cnty. Election Bd.*, 553 U.S. 181, 204 (2008) (Scalia, J., concurring.) ("To evaluate a law respecting the right to vote—whether it governs voter qualifications, candidate selection, or the voting process—we use the approach set out in Burdick.... "). The *Burdick* Court stated the standard as follows:

> A court considering a challenge to a state election law must weigh "the character and magnitude of the asserted injury to the rights protected by the First and Fourteenth Amendments that the plaintiff seeks to vindicate" against "the precise interests put forward by the State as justifications for the burden imposed by its rule," taking into consideration "the extent to which those interests make it necessary to burden the plaintiffs' rights."

Burdick, 504 U.S. at 434, (quoting *Anderson,* 460 U.S. at 789). This standard is sufficiently flexible to accommodate the complexities of state election regulations while also protecting the fundamental importance of the right to vote. *Obama for America v. Husted*, 697 F.3d 423, 428–30 (6th Cir. 2012). There is no "litmus test" to separate valid from invalid voting regulations; courts must weigh the burden on voters against the State's asserted justifications and "make the 'hard judgment' that our adversary system demands." *Crawford,* 553 U.S. at 190 (Stevens, J., announcing the judgment of the Court).

Similar to the federal constitution, Wisconsin's Constitution requires equality from the government, including the Zuckerberg 5 when it takes on a government function:

> Equality; inherent rights. Section 1. All people are born equally free and independent, and have certain inherent rights; among these are life, liberty

AMERICAN OVERSIGHT

> and the pursuit of happiness; to secure these rights, governments are instituted, deriving their just powers from the consent of the governed.

Art. I, sec. 1. The same legal standard of review applies for state constitutional claims.

The *Anderson–Burdick* standard, therefore, applies.

Additionally, when a state's classification "severely" burdens the fundamental right to vote, strict scrutiny is the appropriate standard. *Burdick,* 504 U.S. at 434 (1992). The federal courts "have long been mindful that where fundamental rights and liberties are asserted under the Equal Protection Clause, classifications which might invade or restrain them must be closely scrutinized and carefully confined." *Harper v. Va. Bd. of Educ.,* 383 U.S. 663, 670 (1966). Here, it is the CTCLs private funding of the Zuckerberg Plan's governmental classifications that treat voters differently in the same elections, which triggers strict scrutiny.

Nothing could be more repugnant to democracy than private corporations paying to increase voting access for targeted demographic groups, so that they can manipulate election outcomes—something that will occur repeatedly under the auspices of the WSVP provisions. Private corporations were paying money to affect the election outcome. So strict scrutiny must apply when private funding of election administration targeting voter groups is involved—because the credibility of our federal elections is at stake

Additionally, in *Bush v. Gore*, the U.S. Supreme Court emphasized that equal protection restrictions apply not only to the "initial allocation of the franchise," but "to the manner of its exercise" as well. *Bush*, 531 U.S. 98, *at* 104 (2000). The State may not subject voters to "arbitrary and disparate treatment" that "value[s] one person's vote over that of

AMERICAN OVERSIGHT

another." *Id.* This equal protection prohibition on "arbitrary and disparate treatment" of different voters participating in the same election is what at least one commentator calls *Bush's* "Uniformity Principle." Michael T. Morley, *Bush v. Gore's Uniformity Principle and the Equal Protection Right to Vote,* 28 Geo. Mason L. Rev. 229 (Fall 2020).

Courts have applied the Uniformity Principle to intentional discrimination concerning in-person voting opportunities. For example, in *Obama for America v. Husted,* 697 F.3d 423 (6th Cir. 2012), the Sixth Circuit held that it was unconstitutional for the State of Ohio to allow only domestic military voters to cast ballots in person over the weekend before Election Day. *Id.* at 437. The court noted that, although military voters can face unexpected emergencies that prevent them from voting in person on Election Day, other voters may face similar contingencies:

> At any time, personal contingencies like medical emergencies or sudden business trips could arise, and police officers, firefighters and other first responders could be suddenly called to serve at a moment's notice. There is no reason to provide these voters with fewer opportunities to vote than military voters .... *Id.* at 435. The court concluded that the Equal Protection Clause therefore prohibited the state from making special accommodations only for military voters. *Id.* at 436. The court added that it would be "worrisome ... if states were permitted to pick and choose among groups of similarly situated voters to dole out special voting privileges."
>
> *Id.* at 435.

Similarly, the Zuckerberg 5's WSVP was their collective effort "to pick and choose among groups of similarly situated voters to dole out special voting privileges"—which, when the Zuckerberg 5 is taking on a government function, violates the Equal Protection

AMERICAN OVERSIGHT

Clause. *Id.* at 435. Accordingly, a post-certification administrative correction for the 2020 Presidential election should be made that the Zuckerberg 5 violated the federal and state Equal Protection Clauses.

AMERICAN OVERSIGHT

Chapter 12

Recommendations

As noted above, OSC respectfully submits the following recommendations to the Wisconsin Assembly for its consideration, and its staff is pleased to provide additional information, testimony, and technical assistance. These recommendations fall into two categories: those facilitating transparency, and those facilitating political accountability. However, there is a strong positive synergy between the two goals: *i.e.*, the more transparent a process, the more politically accountable, and vice versa.

The OSC also submits a number of recommendations for WEC, as currently constituted, and for clerks. As the Administrator of WEC has noted, however, advice from WEC does not provide a legal safe harbor for clerks, and neither does advice from the OSC or any other merely persuasive authority in this area. Ultimately, it is incumbent upon the approximately 1,852 municipal clerks, the primary agents of election supervision in the State, to consult with their available counsel and make their own independent legal determinations in every case.

Legislative Recommendations to Serve Transparency

1. **Eliminate the Wisconsin Elections Commission**. As outlined in the Interim Report and above, replacing the disgraced and abolished Government Accountability Board with WEC has continued many of the same abuses of secrecy and confusion. The staff remains deeply connected to special interest groups and fails to adequately respond to voter and clerk complaints. Its biennial appropriation is over $10 million, money which could be spent to

AMERICAN OVERSIGHT

support municipal and county clerk operations. In addition, as its Administrator has noted, WEC provides no authoritative legal safe harbor for clerks: eliminating WEC would help clarify the constitutional and statutory authority of popularly elected officials and the voters in handling election matters. Any functions of WEC that might arguably be required by various federal laws could lawfully be handled by an empowered executive branch office of the Secretary of State, or by a collective body of county clerks themselves, or by some other structure. Currently, Wisconsin is only one of two States with a politically unaccountable bureaucracy tasked with providing guidance in election administration.

2. **Eliminate or Reduce Fees for Voter Registration Data**. Currently, voter registration information, including addresses, names, and voter history, are available for purchase. WEC sells that information for $12,500. However, this information is not available in real-time and, worse yet, the fees are waived by contract with special interest groups. This fee should be eliminated or reduced by statute to a token fee (say, $40 as it is in Arizona) to put all citizens on equal footing, and to allow for citizens to help keep the system up-to-date. It is important that the names and addresses of those who voted—with certain exceptions—are made freely available so that anyone so interested could compare, at no, or low cost, the names and addresses of those eligible to vote with those who, in fact voted. This would remove much of the opacity of the current system and bolster public faith in elections.

3. **Maintain a Single Statewide Voter Registration Database, and Make it Publicly Available and Secure**. As it stands, Wisconsin maintains several competing sets of interlocking databases and access systems. Clerks have noted that they were often given

AMERICAN OVERSIGHT

superfluous sets of access keys, and that these systems are theoretically accessible out of state or out of the United States. WEC has also complained to the Assembly that providing comparisons between data sets on certain dates is extremely expensive. Making the information publicly available would place all individuals and parties on an equal footing and allow academic institutions (for example) to compare data sets over time. This would facilitate data quality and transparency with no cost to voter privacy.

1. **Set Up An Office to Engage in Auditing and Oversight of Elections**. Currently, there is no office in the State of Wisconsin with an ongoing charge to audit elections, or to systematically intake and respond to citizen complaints. The Legislature could consider setting up an office whose role is distinct from the Legislative Audit Bureau (LAB) and which merely undertakes periodic and random auditing of elections in various jurisdictions and delivering those results to the Legislature. This should professionalize and standardize oversight and facilitate long-term improvement and data quality. In addition, the Legislature could consider appropriating funds to enable the Attorney General to vigorously engage in investigation and prosecution of election law violations.

2. **Standardize a Process for Post-Election Contest**. Inevitably, elections will be contested. The Legislature should consider reviewing remedies to enable losers of elections to audit a small number of wards for a nominal cost, or for free. It should consider other remedies, including injunctive relief, to preserve the *status quo* while electoral contests are investigated.

3. **Prohibit Certain Contractual Terms in Government Contracts**. The Legislature should consider prohibiting certain vendor contractual terms as a matter of public policy.

AMERICAN OVERSIGHT

For example, it should limit the use and release of sensitive voter data by vendors. It should prohibit terms that block Wisconsin governmental entities from obtaining or releasing data they paid for. And it should prohibit contracting with entities that do not timely respond to governmental requests for information, such as valid criminal or legislative subpoenas.

4. **Minimize Pre-Voting**. It is evident that widespread use of absentee and absentee-in-person voting renders public participation and oversight of counting impossible. Guidance by WEC "enabling" clerks to open envelopes prior to the statutorily mandated deadline denies citizens their right to observe that process. If public oversight of absentee voting is too burdensome, a better option is to prioritize traditional, in-person voting.

5. **Encourage In-House Technical Support**. Each clerk OSC spoke with made clear that their office simply does not have the technical ability to service various electronic voting machines. They simply do not and cannot understand how the various machines work. In the past, municipal public works departments maintained expertise in servicing analog machines. The Legislature should consider funding a program to bring technical expertise in-house, including considering a single state-wide machine system or single-client vendor.

6. **Exit the Electronic Registration Information Center (ERIC)**. The State of Wisconsin pays this outside group six figures per year to assist it in cleaning up our voter rolls, but receives little to no benefit from it. In fact, as was recently noted in testimony before the Assembly, the contract with ERIC ties the hands of election officials in numerous ways. The State can seek lawful, bilateral agreements with States to ensure only lawful voters are on the rolls, without the concerns about partisanship.

AMERICAN OVERSIGHT

Legislative Recommendations to Serve Political Accountability

1. **Provide a Method in Law for Private Challenge to Wisconsin Voter Rolls.** As it stands, there is no clear method for individuals with facial evidence of inaccurate voter rolls to enter state court and seek to fix that problem. The Assembly could consider various legal methods to enable citizens or civil rights groups to help maintain election database integrity in this way. Such a cause of action should take into account administrative burdens, and could even provide nominal rewards for successful voter roll challenges.

2. **Locate Certification of Presidential Electors in a Politically Accountable Body**. In 2020, the presidential electors were certified by a single member of WEC and the Governor. As a political action, certification of electors cannot be subject to the whim of the courts, or purely legal processes. Legitimate contests have occurred in the past and will occur again. To ensure widespread bipartisan confidence in the system, state law should explicitly authorize the contingent creation by campaigns of alternative slates of electors, and could consider penalties for certain actions of those alternates if results are not contested. In the event of widespread contest, the thumb should be on the scale in favor of withholding certification of electors. As noted in the Interim Report, "Hasty certification of electors in a tightly contested election may disenfranchise voters to the same extent as missing a deadline and failing to certify electors at all. While hasty certification may violate the state constitutional duties of the Legislature, delaying certification of electors until resolution of relevant issues does no such violence to our legal system." Finally, placing certification of electors in a politically accountable body, such an association of elected county clerks, could restore confidence in the results of even a closely contested

AMERICAN OVERSIGHT

presidential contest in the State.

3. **Provide a Method for Pre- and Post-Certification Challenges to Presidential Elections.** As noted in Appendix II, certification of electors in a Presidential election is a quintessentially political act, delegated by the state and federal constitutions to our elected state Legislature. However, the Legislature can consider establishing processes for standardizing challenges both pre-and post-certification. Such processes might establish administrative or legal rights, or establish opportunities to raise or expedite decertification procedures on the floor of the Assembly or Senate. The Legislature might also consider formalizing the ability of candidates to assemble alternative slates of electors, to ratify an already lawful process.

4. **Prohibit Outside Funding and Staff in Elections Administration**. OSC concurs in the recommendation of numerous clerks that outside money be prohibited in the administration of Wisconsin elections. Our State has a deep, progressive history and is suspicious of private entities engaging in governmental activity. Clerk's offices should be (and in 2020 were) adequately funded by state and federal entities, as appropriate, but outside grants should be disfavored or prohibited, especially where those grants have any conditions on them. Further, outside volunteers and observers should all be treated on equal footing.

AMERICAN OVERSIGHT

Recommendations for the Wisconsin Elections Commission

(as currently constituted)

1. **Comply with Legislative Audit Bureau Recommendations**. In particular, promulgate statutorily required administrative rules prescribing the contents of training that municipal clerks provide to special voting deputies and election inspectors; eliminate all statutorily non-compliant guidance.

2. **Enter Into Data-Sharing Agreement with Wisconsin Department of Transportation**. In particular, execute with the Department of Transportation a new written data-sharing agreement that includes provisions for verifying the information provided by individuals who register to vote by all methods and that specifies the procedures for verifying this information; establish a system to regularly review and update the data-sharing agreement; and comply with statutes by working with the Department of Transportation to obtain the electronic signatures of individuals who register online to vote. An enforcement mechanism to align the data, such as by citizen suit, perhaps accompanied by a small monetary bounty, would also be a useful supplement to this reform.

1. **Enter Into Data-Sharing Agreement with Wisconsin Department of Health Services**. In order to ensure that our most vulnerable are not exploited, and to facilitate accurate voter rolls, WEC should work to execute a new written data-sharing agreement with the Department of Health Services and establish a system to regularly review and update the data-sharing agreement. Again, a citizen suit and bounty reform could be added on here as well to ensure data-sharing occurs properly.

AMERICAN OVERSIGHT

2. **Enter Into Data-Sharing Agreement with Wisconsin Department of Corrections (DOC)**. In order to ensure that only eligible voters are registered, WEC should work with DOC to execute a new data-sharing agreement and implementation system. Again, a citizen suit and bounty reform could be added on here as well to ensure data-sharing occurs properly.

3. **Provide Additional Training to Clerks**. If there is one function that an independent election administration can perform well, it is training. WEC should consider providing additional training to clerks along several dimensions: providing training for clerks related to machine certification, security, and statutorily mandated pre-election testing; training related to reviewing Election Day forms after each election and investigating relevant issues, including those related to tamper-evident seals; and training on ensuring that ballots are counted accurately when paper jams occur in electronic voting equipment.

Recommendations for Clerks

1. **Familiarize Yourself with Your Wisconsin Code Authority**. Surprisingly, many clerks have expressed to the OSC that they are under the impression that WEC guidance is binding, even when they believe such guidance (say, on drop boxes) is unlawful. Clerks and whatever counsel they have available should review their authority ahead of any conflict.

2. **Make Independent Assessments**. In circumstances where WEC guidance is contrary to law, clerks are empowered to make independent assessments, as they are the elected officials responsible for elections administration. As the Administrator of WEC has noted,

AMERICAN OVERSIGHT

WEC guidance provides no legal safe harbor or immunity for clerks: it is true that clerks are on the legal hook for their own assessments, and should develop good relationships with corporate or outside counsel.

3. **Carefully Review Outside Contracts**. Clerks and other election officials should be careful not to enter into contractual arrangements with outside groups that do not serve the public interest, even when these agreements sound attractive or come with funding grants. As we saw in 2020, these contracts can be leveraged to coerce election officials and cause them to violate their oaths of office. When clerks do enter into outside contracts, they should endeavor to make those contracts public in their entirety. In the interests of transparency, clerks should endeavor to obtain comparable contracts, and donor lists, from nonprofits before engaging them.

4. **Explicitly Prohibit Your Staff from Engaging in Get-Out-The-Vote (GOTV) Operations**. In 2020, we did see widespread GOTV operations engaged in by municipal clerk's offices. This is inappropriate, as GOTV is a partisan activity, historically (and currently) engaged in by candidates and their parties. Staff should be apprised that even when described as "voter education," encouraging voting by any group is not the duty of a busy and potentially underfunded clerk's office.

5. **Consider Robust Voter Roll Review in Your Jurisdiction**. County and municipal clerks are responsible for maintaining the integrity of the voting rolls. Even in election years, federal law does not prohibit Wisconsin officials from removing ineligible voters from the rolls.

AMERICAN OVERSIGHT

6. **Maintain An Exhaustive and Clear List of Election Day Personnel**. Under Wisconsin law, there are two classes of person on election day: election workers, and the general public. There is no third category. Election workers are bound by legal and ethical norms. Do not permit unauthorized individuals to operate under the color of state law.

7. **Catalog All Absentee Ballots Sent Out and Match These with Ballots Returned.** Some voters have reported receiving as many as four absentee ballots leading up to the November 3, 2020 election.

8. **Do Not Engage in Ballot Curing for Absentee Ballots Missing Requisite Voter Data.** Neither state nor federal law mandate curing ballots that are legally incomplete: clerks can take reasonable efforts to contact voters to remedy seemingly minor defects, but should be mindful of their own resources and state law.

AMERICAN OVERSIGHT

Chapter 13

Conclusion

As noted at the outset, this Report by no means represents a "full audit" of the 2020 elections in the State of Wisconsin. Instead, it represents a snapshot of various issues identified by the OSC, other governmental actors, and citizens in the State, and makes a number of recommendations to fix them. Without full transparency by governmental actors, without a fully equipped office to investigate, and without time, some degree of triage by OSC was necessary. A full audit would undoubtedly take a look not just at evidence of major issues and draw inferences, but would take a comprehensive look at election processes, contracts, and machines, to stress test and run other technical reviews. This office has engaged with outside contractors and entered preliminary steps in the government procurement process. However, these auditors have let us know that without full access to information, they are unable to provide robust conclusions.

Again, as discussed by the Committee of Jurisdiction and the Speaker in public, the work of the Office of the Special Counsel is just getting started. The Office will remain authorized during the pendency of litigation to ensure that once the Wisconsin Supreme Court vindicates the right of the people to know what their own government is up to, we can expeditiously run necessary tests.

In the meantime, the major issues identified with compliance and oversight, especially at a time when the federal Congress is making known that legislative oversight is critical to lawmaking, are themselves cause for concern. The Special Counsel hopes that

AMERICAN OVERSIGHT

the Assembly and the public can continue to fight to hold our election administration accountable and to ensure it is secure and efficient.

Finally, the Special Counsel would like to thank the concerned citizens and citizen groups, the numerous clerks and other public servants who have cooperated with the investigation, and the staff, contractors, and partners of the OSC and Assembly for their hard work and dedication to improving our democratic system.

AMERICAN OVERSIGHT

Appendix I: Litigation Summary

As noted throughout, this Report regarding the administration of the 2020 election in Wisconsin is incomplete because the Office of the Special Counsel has received little to no cooperation in its investigation from the government officials and others that were responsible for conducting the election. As part of its investigation, the OSC has sent out ninety subpoenas for witness testimony. While we have conducted numerous interviews with voluntary witnesses, including governmental witnesses, due to public pressure from the Governor and out-of-state actors, word has gone out that the government does not need to respond to the elected Assembly. Instead, the OSC has been embroiled in litigation relative to those subpoenas since late 2020.

1. Dane County Case Number 2021CV002552, *Wisconsin Elections Commission et al. vs. Wisconsin State Assembly et al.*

On October 21, 2020 WEC and its Administrator—Meagan Wolfe—sued the OSC and the Wisconsin Assembly in Dane County Circuit Court seeking an order that OSC subpoenas with which they had been served were invalid as impinging upon her personal rights. In doing so, WEC aims at the authorized mission of the OSC to investigate whether officials "have failed to adhere to our election laws by, at various times, ignoring, violating, and encouraging noncompliance with bright-line rules established by the statutes and regulations governing the administration of elections in Wisconsin."

Notably, WEC took the unprecedented step of employing the Wisconsin Department of Justice as its attorneys in the lawsuit against the OSC and the Assembly.

AMERICAN OVERSIGHT

Until this lawsuit, never before in the history of the State had one arm of the executive branch of Wisconsin's state government (WEC) used another arm of the executive branch (the DOJ) to seek a ruling from a separate branch (the judiciary) that an action by a third branch of state government was invalid and unenforceable (the subpoenas issued by OSC via the Assembly). In short, taxpayer money is being used by the Attorney General to block routine oversight by the duly-elected legislative body in the State, leading to a great waste of taxpayer money.

On October 25, 2021, the Attorney General lost, as Dane County Circuit Court Judge Rhonda Lanford ruled that WEC was not entitled to an emergency injunction invalidating the subpoenas or preventing OSC from seeking to enforce them. After further litigation, on January 10 2022, Judge Lanford ruled that while WEC did have the authority to bring the lawsuit and it would not be dismissed outright, WEC had not established that it was entitled to a temporary or permanent injunction against enforcement of the subpoenas. The matter was held open for further proceedings to address the WEC's overall complaint that the subpoenas are an invalid exercise of legislative authority.

Since that time, WEC has filed an Amended Complaint setting forth additional facts in support of its claims that the subpoenas are invalid, and other parties have sought to intervene and participate in the matter. A hearing is scheduled for March 17, 2022 on the proposed intervention of these other parties, but there is no other scheduled court activity.

In the meantime, neither WEC or Ms. Wolfe have voluntarily agreed to present their testimony to the OSC. It is likely that unless and until the matter is resolved by the Dane

AMERICAN OVERSIGHT

County Circuit Court (and then all potential appeals are exhausted) the subpoenas for WEC and Ms. Wolfe will remain unsatisfied.

2. Waukesha County Case Number 2021CV001710, *Michael J. Gableman vs. Eric Genrich et al.*

Among the parties that have been subpoenaed for their testimony are the Mayor of Green Bay—Eric Genrich—and the Mayor of Madison—Satya Rhodes-Conway. In response to subpoenas with which they were served, the mayors did provide some documents that were requested, but at the same time neither agreed to appear to testify as required by the subpoenas. As a result, the OSC was put in a position of having to seek judicial assistance to direct that the mayors provide that testimony.

To do so, the OSC filed petitions for "writs of assistance" from the Waukesha County Circuit Court to require the mayors to appear and give the required testimony. A judicial writ of assistance is provided for by Wisconsin's statutes. When a judge issues one, a witness must appear for testimony required by a subpoena. If the witness does not, the judge may order that the recalcitrant witness be subjected to punitive action, up to and including incarceration. However, before that can happen, the witness has the opportunity to appear before the court and argue that he or she is excused from appearing because the subpoena is invalid or for any number of other reasons.

The OSC filed for writs of assistance in Waukesha County Circuit Court as the statute setting forth the procedure for obtaining such writs commands that the writ be

AMERICAN OVERSIGHT

sought "in the county where the person was obliged to attend." Wis. Stat. § 885.12. As the mayors' testimony was compelled by the subpoenas to occur in Waukesha County, the OSC was mandated to seek writs of assistance from the Waukesha County Circuit Court.

Before there was any substantive court appearance or action of any kind, Mayor Genrich appeared in the action represented by two law firms—Stafford Rosenbaum. LLP and Law Forward, Inc. Stafford Rosenbaum is a Madison-based law firm with over 50 attorneys, and Law Forward is an "impact litigation firm committed to protecting and advancing democracy and to restoring Wisconsin's pragmatic progressive tradition." Law Forward has a "Legal Advisory Council" that is comprised of, among others, prominent Democrat politicians, including former United States Senator Russ Feingold, and former Lt. Governor Barbara Lawton. There are no current or former elected officials on Law Forward's advisory council that identified as Republican over the course of their respective careers. There are also several attorneys on the Council that have written about, and advocated for, progressive political causes, but none that appear to have ever advocated for conservative ones.

Mayor Genrich is now additionally represented by two more attorneys—Aaron Scherzer and Christine P. Sun. Mr. Scherzer and Ms. Sun are associated with the "States United Democracy Center," an organization whose professed mission is "advancing free, fair, and secure elections," focusing on "connecting State officials, law enforcement leaders, and pro-democracy partners across America with the tools and expertise they need to safeguard our democracy."

AMERICAN OVERSIGHT

Mayor Rhodes-Conway appeared by two lawyers for the City of Madison.

At the very outset, the mayors' attorneys portrayed the actions of the OSC as—

3. "lacking in legal merit;"
4. a "gross distortion of the relevant facts" and "a gross mischaracterization of the facts;"
5. "departing so greatly from legal standards" so that the Special Counsel should be sanctioned by the Court;
6. "an abuse of process;" and
7. "a bad-faith effort to publicly harass local officials with no legal basis."

None of these statements are remotely true, of course, but the OSC has been forced to respond to these scurrilous accusations both in the press and in court.

Shortly afterward, the representatives of WEC and the mayors began "cross-pollinating" the Dane County matter with the Waukesha County matter by filing letters with the respective courts smearing the OSC and improperly attempting to influence the respective judges. The Wisconsin Department of Justice filed a letter in the Waukesha County matter, arguing that the subpoenas were invalid and that the validity of the subpoenas addressed to the mayors would be addressed in large part by the court in the Dane County matter discussed above. In addition, mayor Genrich's representatives attempted to influence the outcome of the Dane County matter by filing a letter with that court arguing that the OSC had made "misrepresentations" to the Waukesha County court and that the subpoenas were "unauthorized, quasi-depositions of mayors and elections officials throughout Wisconsin."

AMERICAN OVERSIGHT

As of this writing, written briefs are being submitted to the Court regarding the following inquiries submitted by the Court:

1. The Court's authority to issue the writs;
2. The correct procedure to follow; and
3. The factual basis of the writs.

A hearing is scheduled on those issues on April 22, 2022. While the Court has asked that these issues be addressed, it is only a preliminary inquiry. The Court has additionally stated that it will not be addressing the actual issuance of the writs or whether the mayors have a reasonable excuse for their failure to comply with the subpoenas. Those issues will be addressed subsequently.

As with the Dane County matter, the Waukesha County matter is nowhere near resolution. First, all issues will need to be addressed by the Circuit Court judge, and then it is likely that any decision will be appealed up to the Wisconsin Supreme Court (and potentially the United States Supreme Court). In the meantime, as with WEC and Ms. Wolfe, neither mayor has voluntarily agreed to give testimony, and it is likely their subpoenas will remain unsatisfied until the conclusion of all litigation.

1. Dane County Case Number 2021CV003007, *American Oversight vs. Assembly Office of Special Counsel et al.*

In addition to the above, the OSC has been forced into litigation over issues surrounding the voluminous requests for documents it has received pursuant to Wisconsin's Open Records law. While these requests and the attendant litigation have not

AMERICAN OVERSIGHT

directly affected the OSC's ability to obtain necessary information—as the lack of cooperation and litigation over the subpoenas has done—at the same time, it has strained the OSC's resources and indirectly affected the OSC's work in a very significant way.

In Dane County Case Number 2021CV003007, a group called American Oversight has sued the OSC, along with the Wisconsin State Assembly, Speaker of the Assembly Robin Vos, and Wisconsin State Senate Sergeant-at-Arms Edward Blazel over purportedly insufficient responses to requests made to the OSC and the other defendants under Wisconsin's Open Records law.

Before the work of the OSC has finished, or even begun in large part, American Oversight has referred to the OSC's efforts on behalf of the Assembly as "baseless," that the OSC is "perpetuating Trump's big lie that the election was somehow stolen," and that the real purpose of the OSC's work is to "create a pretext for enacting new restrictions on voting rights."

Pursuant to their efforts to establish their narrative prior to the work of the OSC coming to fruition, American Oversight has served numerous open records requests upon the OSC, including the following—

2. A September 15, 2021, demand for all "organizing materials," of the OSC, including contracts, agreements, scopes of work, and other documents related to the "scope of investigative authority" of the OSC;

3. A September 15, 2021, demand for all "work product" materials, including "interim reports, analyses, notifications, or other work product produced or collected by individuals or entities under contract to investigate" the November 2020 election, or any other;

AMERICAN OVERSIGHT

4. A September 15, 2021, demand for all "communications" between "former justice Michael Gableman, or anyone communicating on his behalf, such as an administrative assistant, or any individual designated or engaged as an investigator, including, but not limited to Steven Page, and (ii) any other contractor or agent of the Wisconsin Assembly charged with investigating the November 2020 election," as well as all "calendar entries" maintained by any investigators;

5. An October 15, 2021 demand for "external communications" between the OSC and a list of 30 individuals and/or entities;

6. An October 26, 2021, demand for "organizing materials" similar to the one served in September of 2021;

7. An October 26, 2021, demand for "work product" similar to the one served in September of 2021; and

8. An October 26, 2021, demand for "communications" similar to the one served in September of 2021.

All of the above open records requests are currently part of the litigation pending in Dane County.

In addition, American Oversight has served four additional open records requests, dated January 18, 2022, and February 1, 2022, that are still being processed by the OSC, and are not part of any litigation as of yet.

Beyond those served by American Oversight, the *Milwaukee Journal Sentinel*, via reporter Patrick Marley, served an open records request dated February 7, 2022, in which the following records were demanded:

— The call log showing all calls to and from all cell phones used by Gableman;

—The call log showing all calls to and from all cell phones used by any of Gableman's staff (including direct employees, contractors and subcontractors);

— All paper and electronic calendars for Gableman;

AMERICAN OVERSIGHT

— All emails and/or text messages between Gableman and Rudy Giuliani;

— All emails and/or text messages between Gableman and John Eastman;

— All emails and/or text messages between Gableman and Phill Kline;

— All emails and/or text messages between Gableman and Erick Kaardal;

— All emails and/or text messages between Gableman and Phil Waldron;

— All emails and/or text messages between Gableman and James Troupis;

— All emails and/or text messages between Gableman and Kenneth Chesebro;

— All emails and/or text messages between Gableman and David Clarke;

— All emails and/or text messages between Gableman and Rep. Janel Brandtjen;

— All emails and/or text messages between Gableman and Rep. Timothy Ramthun;

In addition, I am requesting the following documents since Sept. 28, 2021:

— All emails and/or text messages between Gableman and Robin Vos;

— All emails and/or text messages between Gableman and Reince Priebus;

— All emails and/or text messages between Gableman and Nick Boerke;

— All emails and/or text messages between Gableman and Andrew Kloster;

— All emails and/or text messages between Gableman and Harry Wait;

— All emails and/or text messages between Gableman and Gary Wait;

— All emails and/or text messages between Gableman and Peter Bernegger;

— All emails and/or text messages between Gableman and Jefferson Davis;

— All emails and/or text messages between Gableman and Mike Lindell;

— All emails and/or text messages between Gableman and Steve Bannon;

— All emails and/or text messages between Gableman and Seth Keshel;

— All emails and/or text messages between Gableman and Shiva Ayyadurai;

AMERICAN OVERSIGHT

— All emails and/or text messages between Gableman and Ron Heuer;

— The computer security protocols for the Office of Special Counsel;

— Transcripts of witness interviews;

— Audio and/or video recordings of witness interviews;

— All submissions to wifraud.com.

The Special Counsel believes in governmental transparency and is making every effort to comply with the above demands.

However, including the Special Counsel himself, the OSC has a full-time staff of two persons. It also has five part-time staff members consisting of four attorneys and an investigator. Simply responding to these voluminous open records requests is a task that has taken up a tremendous amount of staff time. In addition, the Assembly has engaged outside counsel to defend the American Oversight lawsuit and will likely have to hire counsel to defend further lawsuits if the responses provided to the outstanding demands do not satisfy American Oversight or the *Milwaukee Journal Sentinel*.

While the OSC will continue to see that its duties under Wisconsin's open records law are fulfilled, doing so has, and will continue to materially hamper the ability of the OSC staff to address the substantive issues with which it was charged with investigating and reporting upon to the Wisconsin State Assembly.

AMERICAN OVERSIGHT

Appendix II: Decertification and the Electoral Count Act

Certification of electors in a state is a quintessentially political act, delegated by the United States Constitution to state legislatures, which may voluntarily adopt revocable and defeasible rules to guide the process. Wisconsin election law does not explicitly authorize the decertification of electors. But neither does it prohibit it. For this reason, the U.S. Constitution and the gap-filling common law against which backdrop the federal and Wisconsin Constitutions were adopted provide the ultimate guidance. And under those two documents, it is clear that the Wisconsin Legislature could lawfully take steps to decertify electors in any Presidential election, for example in light of violations of state election law that did or likely could have affected the outcome of the election. Furthermore, notwithstanding the current debate over amending the federal Electoral Count Act, the supreme responsibility for running state elections in Wisconsin is vested in our state Legislature—not any other state instrumentality, and not the federal government.

The U.S. Constitution provides in relevant respect that "Each State shall appoint, *in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress* ...." U.S. Const., art. II., § 1, cl. 2. This is a direct delegation to each state legislature. It is not a delegation to the Wisconsin Governor (or WEC) *and* its Legislature. The Framers knew how to delegate to, respectively, state legislatures or state executives, or to both acting concurrently. *Compare, e.g., id. with id.* at art. IV, § 4 ("The United States shall guarantee to every State in this Union a Republican Form of Government, and shall

AMERICAN OVERSIGHT

protect each of them against Invasion; *and on Application of the Legislature, or of the Executive* (when the Legislature cannot be convened) against domestic Violence.") (emphasis added) *and id*. at XVII amend. ("When vacancies happen in the representation of any State in the Senate, *the executive authority of such State* shall issue writs of election to fill such vacancies: *Provided, That the legislature of any State may empower the executive thereof* to make temporary appointments until the people fill the vacancies by election as the legislature may direct.") (emphases added).

The direct constitutional delegation to state legislatures here operates as a "plenary" power. *See McPherson v. Blecker*, 146 U.S. 1, 35 (1892); *see also Bush v. Gore*, 531 U.S. 98, 104 (2000) ("The State, of course, after granting the franchise in the special context of Article II, can take back the power to appoint electors."). Pursuant to that plenary power, it is true that after 1824 most state legislatures began to delegate, in effect, their plenary power to *a process of popular selection of the presidential electors* carried out under a suite of state law provisions. Yet, as applied here, these delegations and self-imposed statutory processes by the Wisconsin legislature are not irrevocable. An election of presidential electors that violates Wisconsin (or any other state legislature's relevant laws) is both void and voidable.

This Report has documented not just one, but a great collection of Wisconsin election law violations. As a political matter, the actions of state actors certifying electors in any Presidential election can be reconsidered as the Wisconsin Legislature sees fit using its plenary power under Article II of the federal Constitution, as recognized in *McPherson*

AMERICAN OVERSIGHT

and *Bush v. Gore*. Indeed, *McPherson* noted that "there is no doubt of the right of the legislature to resume the power *at any time*." *McPherson*, 146 U.S. at 35 (emphasis added).

The process of presidential elections can be conceived of as having five steps: (1) certification pursuant to state law; (2) the arrival of the "safe harbor" date specified in the Electoral Count Act ("ECA"), 3 U.S.C. § 5, purporting to make "conclusive" the determination of election contests in the courts "or other methods and procedures" before that date; (3) the date when state-certified electors meet and cast their votes in their respective States; (4) the opening by the Vice President and counting of electoral votes pursuant to the ECA, 3 U.S.C. § 15, on January 6 of the year following a presidential election; and (5) the inauguration of the President on January 20 of that same year at noon, per the Twentieth Amendment to the Constitution. However, that Article II of the U.S. Constitution assigns to Congress only the power to "determine the Time of chusing the Electors, and the Day on which they shall give their Votes; which Day shall be the same throughout the United States." Hence, the relevance of the ECA should not be overstated. The powers to set the time for choosing electors and the day thereof is not the power for Congress to override the plenary power of state legislators to select the State's electors or to act to correct mistakenly certified electors who were certified only because state law was violated in the process.

Two legal analyses from Legislative Council and the Legislative Reference Bureau argue that various events on that five-step process timeline, coupled with silence or the lack of specificity in various sources of law, means that state legislatures cannot decertify.

AMERICAN OVERSIGHT

This logic of those pieces is defective. They ignore the full logical implications of the "plenary" power of the state legislatures to act "at any time" to determine proper electors. For example, when electors were wrongly certified in Hawaii in the 1960 presidential election for Vice President Nixon, that problem was retroactively corrected and Hawaii's electoral votes were counted for John F. Kennedy.

As to the initial method for selecting the President, it matters what system of state law is put in place to select electors and when, relative to that system, new election laws are adopted. No one would support the Wisconsin Legislature allowing an election to be run using one set of election laws and then, just because a majority of both houses thereof did not like the tally of the people's votes occurring within the proper confines of Wisconsin law, adopting a new set of legislative rules and applying them to an already conducted popular election as if that had always been the law.

But the premise of the use of the method of popularly electing elections is inherently, and unavoidably, that such elections be conducted *without violation* of the relevant State's election laws to the extent that the outcome of the election did or likley could swing based on such violations of state law. If an election were purportedly run using the *ex ante* set of legislative election rules (or some of those rules), but *in reality*, the election was run in flat violation of those laws, then the decision of which set of electors to certify (or decertify) devolves back upon the Wisconsin Legislature, where the plenary power to select electors was initially reposed. This is particularly true when the courts do not reach the merits of election disputes brought to them for resolution of whether the *ex*

AMERICAN OVERSIGHT

ante rules were actually followed, dismissing challenges, for instance, on grounds of lack of standing, laches, and the like, as is the case in Wisconsin regarding numerous legal challenges.

The ECA is not constitutional law and it cannot be used to strip state legislatures of their Article II plenary power over elector selection, especially when evidence of widespread violations of state election law become clear only late in an election cycle or even after an election cycle is over. At that point, the principle that comes into play is the common law principle that fraud or illegality vitiate results rendered under an illegal or fraudulent process. *See, e.g., United States v. Throckmorton*, 98 U.S. 61, 64 (1878) ("Fraud vitiates even the most solemn contracts, documents, and even judgments."); *see also United States v. Bradley*, 35 U.S. 343, 360 (1836) (citing *Pigot's Case*, 11 Co. Lit. 27b (1614)). To take just one example, the Third Circuit recognized more than a quarter century ago that an illegally certified candidate who was already sitting in the Pennsylvania Legislature and had been sworn in must be stripped of his office based on violations of that State's election laws. *See Marks v. Stinson*, No. Civ. A. 93-6157, 1994 WL 47710, at *15-16 (E.D. Pa. Feb. 18, 1994), *vacated in part*, 19 F.3d 873 (3d Cir.), *aff'd after remand*, 37 F.3d 1487 (3d Cir.). And this occurred where there was no mechanism in the Pennsylvania Constitution for explicitly applying such a remedy. The Legislative Council and Reference Bureau do not take account of this precedent, logic, or history.

Thus it is clear that the Wisconsin Legislature (acting without the concurrence of the Governor, *see supra*), could decertify the certified electors in the 2020 presidential

AMERICAN OVERSIGHT

election. Two steps would be required for it to do so. *First*, the Legislature would need a majority in both houses to pass a resolution concluding that the 2020 election was (a) held in violation of state law, as detailed in this Report (or other sources), in one or more respects; and (b) the degree of violation of state law in place on November 3, 2020 rose to the level that fraud or other illegality under Wisconsin law could have affected the outcome, using any evidentiary test for certainty the Legislature agreed should apply (for instance, a preponderance, etc.). And *second*, the Legislature would need to invoke and then exercise its plenary power to designate the slate of electors it thought best accorded with the outcome of the election, had it been run legally in accord with the state election laws in effect on November 3, 2020. This would lead to decertifying the relevant electors, if the Legislature concluded that they were not the slate of electors that best accorded with the election if run consistent with all relevant Wisconsin laws in effect on election day.

However, this action would not, on its own, have any other legal consequence under state or federal law. It would not, for example, change who the current President is.

Sir,
You certified the 2020 Presidential election. That certification was your saying that the election was free, fair and without fraud. Gableman, Ranthum, and the evidence supports the fraud was determinative. You never investigated the fraud that was obvious before certification. That makes you, and every other politician that put their name to certification, complicit in a coup to over throw a duly elected President. Their is a penalty for treason and it's severe. You all have an opportunity, per Appendix ll of Gableman's report, to do what's right and submit the appropriate electors, or at a minimum withdraw those that were submitted. Your failure to rectify the fraud of 2020 and fix the voter rolls for 2022 will be at your own peril.

Representative Vos,

I just read an article on madison.comregarding Gableman's ridiculous report on the election. After the election he stated that the election was stolen in Wisconsin. His staff includes former Trump staffers. There was not one person on his staff that started at a place of neutrality and wasn't biased.

This is ridiculous and has to stop! I am so tired of you wasting tax dollars on trying to prove the election was stolen. And why? So that Trump sees that you are continuing to kiss his you-know-what.

Stop. Stop. Stop this sham.

You are quick to criticize Governor Ever's as he works to better the lives of Wisconsin citizens. You are a shell of what a legislator should be. How in good conscious can you continue to receive your salary for only obstructing. Oh, that's right, you have no conscious!

Wisconsin Decertify Immediately

Notice of Demand to Investigate Legislative Resolution to Recall 2020 Presidential Electors

“We the People,” have the ultimate responsibility to oversee our government representatives once “We” place them in office. Until recently, the voters let these public officials perform their service without much supervision. That time is over. Wisconsin voters are dissatisfied with the partisan politics being waged across the nation. When the “People” are victims of election mismanagement it must be investigated. Our Constitution requires it and “We the People” demand this investigation continue.

Mr. Kaul,

This letter is a request for the inspection of the following records under Wisconsin Public Record laws.

(Wisconsin Statutes 19.31-39 and others)

This Wisconsin Public Records Request is specifically focused on the records of the following: Racine County Sheriff Office complaint # 20-061588 concerning election integrity investigationand complaint.
Specific records requests:

- Maintain and protect ALL records of this complaint.
- The requester wishes to review all documents, video and media as soon as possible of the above incident listed as follows:
- All video and audio recordings regarding the aforementioned complaint
- Officer's filed reports.

AMERICAN OVERSIGHT

- Copies of all supporting evidence.
- The complete complaint file of #20-061588
- The requester wishes to review this file in its entirety.
- Please be aware that the Open Record laws define “records” to include information that is maintained on paper as well as electronically stored records, such as data files, video, and unprinted emails.
- Wisconsin Public Record laws shall be construed in every instance with the presumption of complete public access consistent with the conduct of government business. The denial of access to public records is generally contrary to the public interest and only in exceptional case can public records access be denied. Should you deny any part of this request, the law requires you to do so in writing and state what part of the law you believe entitles you to deny my request. {Wisconsin Statute 19.35,(4),(a)}
- The law requires you to respond to this request “as soon as possible and without delay”. Compliance is mandatory by law. Comply and produce the all the requested records or deny the records request (all or in part) within ten days.
- Compliance at some unspecified future time is not authorized by the public records law. The records custodian has two choices: comply or deny. WTMJ, Inc. v. Sullivan, 204 Wis. 2d 452, 457-58, 555 N.W.2d 140, 142 (Ct. App. 1996).
- If there are questions or clarification needed of this request, please inform me so I may clarify or refine this request.
- Your office has stated that no prosecution of the complaint will take place, therefore your office should have no issues for the immediate inspection of these records.
- In consideration of our planet’s resources, also please provide the records in an electronic format.

Please promptly contact me so I may conduct an inspection of these records.
Respectfully submitted,

Harry Wait

Fringe Scheme to Reverse 2020 Election Splits Wisconsin G.O.P.

False claims that Donald J. Trump can be reinstalled in the White House are picking up steam — and spiraling further from reality as they go.

By Reid J. Epstein

Feb. 19, 2022Updated 10:45 a.m. ET

MADISON, Wis. — First, Wisconsin Republicans ordered an audit of the 2020 election. Then they passed a raft of new restrictions on voting. And in June, they authorized the nation's only special counsel investigation into 2020.

AMERICAN OVERSIGHT

Now, more than 15 months after former President Donald J. Trump lost the state by 20,682 votes, an increasingly vocal segment of the Republican Party is getting behind a new scheme: decertifying the results of the 2020 presidential election in hopes of reinstalling Mr. Trump in the White House.

Wisconsin is closer to the next federal election than the last, but the Republican effort to overturn the election results here is picking up steam rather than fading away — and spiraling further from reality as it goes. The latest turn, which has been fueled by Mr. Trump, bogus legal theories and a new candidate for governor, is creating chaos in the Republican Party and threatening to undermine its push to win the contests this year for governor and the Senate.

The situation in Wisconsin may be the most striking example of the struggle by Republican leaders to hold together their party when many of its most animated voters simply will not accept the reality of Mr. Trump's loss.

In Wisconsin, Robin Vos, the Assembly speaker who has allowed vague theories about fraud to spread unchecked, is now struggling to rein them in. Even Mr. Vos's careful attempts have turned election deniers sharply against him.

"This is a real issue," said Timothy Ramthun, the Republican state representative who has turned his push to decertify the election into a nascent campaign for governor. Mr. Ramthun has asserted that if the Wisconsin Legislature decertifies the results and rescinds the state's 10 electoral votes — an action with no basis in state or federal law — it could set off a movement that would oust President Biden from office.

"We don't wear tinfoil hats," he said. "We're not fringe."

Although support for the decertification campaign is difficult to measure, it wouldn't take much to make an impact in a state where elections are regularly decided by narrow margins. Mr. Ramthun is drawing crowds, and his campaign has already revived Republicans' divisive debate over false claims of fraud in 2020. Nearly two-thirds of Wisconsin Republicans were not confident in the state's 2020 presidential election results, according to an October poll from the Marquette University Law School in Milwaukee.

"This is just not what the Republican Party needs right now," said Rob Swearingen, a Republican state representative from the conservative Northwoods. "We shouldn't be fighting among ourselves about what happened, you know, a year and a half ago."

AMERICAN OVERSIGHT

Wisconsin has the nation's most active decertification effort. In Arizona, a Republican state legislator running for secretary of state along with candidates for Congress have called for recalling the state's electoral votes. In September, Mr. Trump wrote a letter to Georgia officials asking them to decertify Mr. Biden's victory there, but no organized effort materialized.

In Wisconsin, the decertification push has turned Republican politics on its head. After more than a decade of Republican leaders marching in lock-step with their base, the party is hobbled by infighting and it's Democrats who are aligned behind Gov. Tony Evers, who is seeking a second term in November.

"Republicans now are arguing over whether we want democracy or not," Mr. Evers said in an interview on Friday.

Mr. Ramthun, a 64-year-old lawmaker who lives in a village of 2,000 people an hour northwest of Milwaukee, has ridden his decertification push to become a sudden folk hero to the party's Trump wing. Stephen K. Bannon, Mr. Trump's former adviser, has hosted Mr. Ramthun on his podcast. At party events, he shows off a 72-page presentation in which he claims, falsely, that legislators have the power to declare Wisconsin's election results invalid and recall the state's electoral votes.

Mr. Ramthun has received bigger applause at local Republican gatherings than the leading candidates for governor, and last weekend he joined the race himself, announcing his candidacy at a campaign kickoff where he was introduced by Mike Lindell, the MyPillow chief executive who has financed numerous efforts to undermine and overturn the 2020 election.

Mr. Trump offered public words of encouragement.

"Who in Wisconsin is leading the charge to decertify this fraudulent election?" the former president said in a statement.

It did not take long before the state's top Republicans were responding to Mr. Ramthun's election conspiracies. Within days, both of his Republican rivals for governor released new plans to strengthen partisan control of Wisconsin's elections.

During a radio appearance on Thursday, former Lt. Gov. Rebecca Kleefisch, the party establishment's preferred candidate, refused to admit that Mr. Biden won the 2020 election — something she had already conceded last September. Ms. Kleefisch declined to be interviewed.

AMERICAN OVERSIGHT

Kevin Nicholson, a former Marine with backing from the right-wing billionaire Richard Uihlein, declined in an interview to say whether the election was legitimate, but he said there was "no legal path" to decertifying the results.

Mr. Vos spent nearly an hour Friday on a Milwaukee conservative talk radio show defending his opposition to decertification from skeptical callers.

"It is impossible — it cannot happen," he said. "I don't know how many times I can say that."

Yet, Mr. Ramthun claims to have the grass-roots energy on his side. On Tuesday, he drew a crowd of about 250 people for a two-hour rally in the rotunda of the Wisconsin State Capitol.

Terry Brand, the Republican Party chairman in rural Langlade County, chartered a bus for two dozen people for the three-hour ride. Mr. Brand in January oversaw the first county G.O.P. condemnation of Mr. Vos, calling for the leader's resignation for blocking the decertification effort. At the rally, Mr. Brand stood holding a sign that said "Toss Vos."

"People are foaming at the mouth over this issue," he said, listening intently as speakers offered both conspiracy theories and assurances to members of the crowd that they were of sound mind.

"You're not crazy," Janel Brandtjen, the chairwoman of the Assembly's elections committee, told the crowd.

One speaker tied Mr. Vos, through a college roommate and former House Speaker Paul Ryan, to the false claims circulating in right-wing media that Hillary Clinton's campaign spied on Mr. Trump. Another was introduced under a pseudonym, then promptly announced herself as a candidate for lieutenant governor.

The rally closed with remarks from Harry Wait, an organizer of a conservative group in Racine County called HOT Government, an acronym for honest, open and transparent.

"I want to remind everybody," Mr. Wait said, "that yesterday's conspiracies may be today's reality."

Mr. Ramthun says he has questioned the result of every presidential election in Wisconsin since 1996. (He does not make an exception for the one Republican victory in that period: Mr. Trump's in 2016.) He has pledged to consider ending the use of voting machines and to conduct an "independent

AMERICAN OVERSIGHT

full forensic physical cyber audit" of the 2020 election — and also of the 2022 election, regardless of how it turns out.

Mr. Ramthun has adopted a biblical slogan — "Let there be light" — a reference to his claim that Mr. Vos is hiding the truth from voters. If Wisconsin pulls back its electoral votes, Mr. Ramthun said, other states may follow.

(American presidents can be removed from office only by impeachment or by a vote of the cabinet.)

Robin Vos, the speaker of Wisconsin State Assembly, told reporters on Tuesday that Republicans aiming to undo Mr. Trump's loss were wrong to be angry with him.Credit...Andy Manis/Associated Press

All of this has become too much for Mr. Vos, who before the Trump era was a steady Republican foot soldier focused on taxes, spending and labor laws.

Mr. Vos has often appeased his party's election conspiracists, expressing his own doubts about who really won in Wisconsin, calling for felony charges against Wisconsin's top election administrators and authorizing an investigation into the 2020 election, which is still underway.

Now, even as he draws the line on decertification, Mr. Vos has tried to placate his base and plead for patience. He announced this week the Assembly plans to vote on a new package of voting bills. (Mr. Evers said in the interview on Friday that he would veto any new restrictions.)

"It's simply a matter of misdirected anger," he said, of the criticism he's facing. "They have already assumed that the Democrats are hopeless, and now they are focused on those of us who are trying to get at the truth, hoping we do more."

Other Republicans in the state are also walking a political tightrope — refusing to accept Mr. Biden's victory while avoiding taking a position on Mr. Ramthun's decertification effort.

"Evidence might be out there, that is something other people are working on," said Ron Tusler, who sits on the Assembly's elections committee. "It's too early to be sure but it's possible we try it later."

State Senator Kathy Bernier is the only of Wisconsin's 82 Republican state legislators who has made a public case that Mr. Trump lost the state fairly, without widespread fraud.

AMERICAN OVERSIGHT

Ms. Bernier, the chairwoman of the State Senate's elections committee, in November asked the Wisconsin Legislature's attorneys to weigh in on the legality of decertifying an election — it is not possible, they said. In December, she called for an end to the Assembly's investigation into 2020. Three weeks later, she announced she won't seek re-election this year.

"I have no explanation as to why legislators want to pursue voter-fraud conspiracy theories that have not been proven," Ms. Bernier said in an interview. "They should not do that. It's dangerous to our democratic republic. They need to step back and only speak about things that they know and understand and can do. And outside of that, they should button it up."

Kitty Bennett contributed research.

Subject: IMPORTANT ELECTION INFORMATION from Dr D Mazzari

Hello Representative Vos,

Please excuse the verbose email, but all the points are very important.

I listened to your interview last week on WISN radio. It was very interesting. As a former elected municipal Clerk, I must emphasize and explain a couple of points which I believe lead to the Democratic victories of the last 5 or so elections. While these seemed beneficial and benign on the surface, and I'm sure that is why they received bipartisan support, unfortunately, they turned out to be an excellent opportunity for cheating. I first noticed something amiss when Scott Walker was defeated for Governor of Wisconsin.

There were a number of technology upgrades during my term of office, from pulling mechanical levers, to punching cards, to the computers and scanners, which we have today. There were some obvious security "holes" in the systems, but they weren't much of a problem, because my municipality was small enough that my regular poll workers pretty much knew the voters, themselves, and I considered the great majority of the voters were honest. The problem is that this does not scale well to densely populated urban situations.

Problem #1 : **Early Voting**
Sounds like a good idea, right? Wrong! Time is the cheaters best friend--more time, more cheating. That is why liberals always want longer early (and "later")voting - nothing to do with disenfranchisement.
I have heard stories from friends in the inner city, where a free picnic would be scheduled during early voting. But first, the people had to board buses and go to the polls and were told how to vote. When they returned, however, the food was gone; it was *time* for the buses to make another trip, elsewhere. In addition, people would be bused from other states or other localities, driven to polling places, be given a name and address, and then illegally vote.
Now, Voter ID laws have helped a lot. Of course, they are not perfect; they can be ignored, falsified, etc., but they do serve a definite purpose toward an honest election -- they take more time, and slow down cheating (time is the cheaters best friend.)

AMERICAN OVERSIGHT

I say,*Voter ID laws* are the***linchpins***of honest elections; never let them be removed or ignored!

Another drawback of early voting is that it favors the candidate with the most money, since both must spend campaign funds over a longer period of time.

Problem #2 : **No real excuse,Absentee Voting or Mail-in/drop-off balloting**
(this is cheating on steroids)
When I was the Clerk, you needed a real excuse to receive an absentee ballot : Doctor's or Employer'sletter, out of town verification, military assignment, etc. -NOT, no proof, "*indefinitely confined due to COVID-19*."
When I first heard about the COVID-19 pandemic, I was suspicious, especially when President Trump said it was like a bad cold, but was then rebuked. Trump always had some hidden truth in his controversial statements. As the situation unfolded, differing countries used the pandemic for their own purposes.

China -- They were coming under increasing scrutiny from global sources for "eliminating" protesters. COVID-19 gave their government the opportunity to lock-down the people, then take away known protesters and "eliminate" them under the guise of illness.
Venezuela -- used the pandemic as a vehicle to request foreign aid.
United States -- Pharmaceutical companies saw fortunes to be made. Then, liberals saw an opportunity to lock down healthy individuals with the threat that they might "kill Grandma", and get the next election to become decided by absentee ballots. I could see it coming, right from the beginning.

I feel we should go back to the real excuse policy to get an absentee ballot. In the past, we got about 1% or 2% of absentee ballots, which I kept under lock and key, until the required election day when my poll workers would open them, verify lawful compliance, and cure, only, if there was physical or marking problems (torn ballots, wrong pen type marking, or other issues that might prevent the scanner from reading them.)

Speaker Vos, when this question was asked of you in last week's interview, you seemed to indicate that you thought the absentee ballot system was fine as it is, because it allowed more voters to cast ballots; actually, it allowed *massively* more *counterfeit* ballots to be cast.
All the unscrupulous clerks had to do is wait until polls closed, then inject just enough counterfeit ballots for their candidate, to just avoid a recount. If there was a recount, the winners would say there was no fraud found; of course, the counterfeit ballots were just recounted with the legitimate ones.

AMERICAN OVERSIGHT

The original envelopes and original ballots that were cured, should be kept in case of an audit.
[May I suggest, using a different colored ballots for absentees, and another different color with an extra box checked, for cured ballots. This would allow separation by a machine, so they could be examined, later, if necessary.]
Where did these counterfeit ballots come from? Well, we've seen stories of trucks full of pallets of counterfeit ballots from New York, sent to Georgia. But here in Wisconsin, many came from the idle names on our poll list who haven't voted in their wards for many elections, and didn't answer the postcard request (who then should have been removed to prevent multiple ballots.)
BTW Do you know how a voter is normally removed from a poll list? It is up to clerk registering a voter, to send a request to the clerk of the previous registration, to remove the voter from the previous poll list. How often does this happen?
Another source of names and addresses (besides nursing homes with no oversight) is "voter registration harvesting".
Pick a group of people, offer them a pack of cigarettes or a t-shirt, and hold a registration event. Since these people have not registered and voted before, it is likely that they won't show up, after their free gift, on election day. That makes them a perfect candidate for a counterfeit absentee ballot.

But here is the *main reason* why the counterfeit ballot campaign was successful for the Presidential election, and why the policy should be reformed. There was an unexpected consequence.
Recall that many voters were already afraid to go to the polls for fear of spreading COVID-19.
The ballot scanners could rapidly read ballots and check them for certain errors when the voter put them in. However, the absentee ballots, often running 30% of total ballots, (which were kept unopened, maybe sorted, until elections day) took much longer to process, open the envelope, check ID, poll list, ballot errors, etc. The poll worker force in the larger municipalities (& often attenuated by the lock downs) were too busy to work on absentee ballots on election day. After the closing time of voting, they went to work. However, they were mostly overwhelmed. With the pressure of getting timely election results out, after working all day, even the most honest workers, had to take some short cuts and avoid scrutinizing every ballot. That's why candidates who were ahead at the end of voting, ended up losing due to worker pressure or fraud. Oversight, by each party's observers, were also limited, to the point of uselessness. This work imbalance has to be addressed, or go back to the old absentee policies.

AMERICAN OVERSIGHT

Please convey these concerns to Justice Michael Gableman. [& review HR1 - election cheater bill]

Thank you very much.

If you need any consultation on the above matters, I would be glad to oblige.

Subject: Important information for Republicans

Message to Mike Gallagher, Ron Johnson, Ron Tusler, Andre Jacque, Robin Vos
I've been watching for the GOP's positions on the challenges America faces. I've concluded that the GOP in 2022 will largely run, not on fresh ideas and solutions, but rather on old anger and grievances. Being angry is much easier than solving problems.
And Republicans will run on a heaping helping of demonizing opponents. I've observed that in comments from GOP leadership and supporters. Remember the leader of the GOP referring to opponents as "human scum"? That's just one example of anger. More to follow.
There's agreement in the GOP that Biden is all bad.... COVID-19 mitigation measures are bad, discussing racism is bad, but rules that curb voting access for some Americans are good.
Oh, and the Russian invasion of Ukraine is... well, the GOP is confused... Putin is either a thug or a savvy genius. Some on Fox News are rooting for Putin. Fox News finds that Republicans view Putin more favorably than Biden. During the Trump years, Republicans flipped on their views of Russia as a threat. Gallup found just one-third of Republicans viewed Russia as a threat after Russia's interference in the 2016 election.
On the topic of demonizing opponents, I think it's interesting that Mike Gallagher only posts YouTube videos from his appearances on Fox News where he can avoid hard questions and is allowed to make any claim he wishes without any pushback. His appearances on Fox and his self-described rants are additional examples of demonizing GOP opponents with few fresh solutions offered. I recently posted some researched comments on Mr. Gallagher's YouTube channel, and they were quickly removed. Removing my comments was easier than addressing the issues with GOP positions that I raised.
Here are the deleted comments I posted about Mr. Gallagher's YouTube statements relating to allegations of Democrats gaslighting about GOP efforts regarding voting rights:
There is a difference between attacking voting rights and attacking voting access. The GOP is working to reduce voting access. Consider Wisconsin 2021 Assembly Bill 177, which would limit Milwaukee and Madison to one ballot drop box. That bill would reduce access to voting.
I noticed you ignored the 500-pound gorilla of gaslighting... the Trump/GOP Big Lie about fraud and stealing the 2020 election. Ironically, the investigation into the Jan. 6 Trump riot is finding mounting evidence that it was actually Trump and his allies who were trying to steal the election. Meanwhile, there has not been a whisper of objection about the many Republicans who won on the exact same ballots as Biden, including you, Mr. Gallagher. Why no disputes about those votes?
Trump admits he was hoping that Pence could "overturn" the election. So, does that mean VP Harris can decide the next election? https://abcnews.go.com/Politics/trump-suggests-pence-overturned-2020-election/story?id=82581412
Wisconsin Rep. Elijah Behnke recently told voters that he thinks the GOP should cheat or bend the rules to win the next election. Is that the GOP moral high ground?
https://www.weau.com/2022/01/21/wisconsin-gop-lawmaker-calls-election-cheating-video/
And it was Ron Johnson who called for the GOP legislature to take over federal elections in Wisconsin. https://www.jsonline.com/story/news/politics/elections/2021/11/10/ron-johnson-calls-gop-wisconsin-lawmakers-take-over-elections/6376079001/
Voters should keep these realities in mind.
Sincerely,
Doug Freeman

Subject: in response to your legislative update

Dear Representative Vorpagel,

I was just reading your legislative update and found one part of a sentencethat we agree on:**"Voters need to be able to trust that their local election officials are acting in a non-partisan capacity"**.So far, I have nothing but positive things to say about the way our local election officials operate in Sheboygan and nothing indicates their partisanship! Our clerk's office has always been diligent in answering questions about voting; and when I have been a poll observer, in the past before covid, I saw elections that were well run.

I have read the bills that you support regarding election reforms. The bills you have proposed and/or passed**make voting more difficult**, not easier. I think they would also add more difficulties for our already overburdened clerks and election officials.

I think your worries about the integrity of our elections in WI should concentrate on legislation to prevent bad actors from trying to overturn legitimate election results.I would like to see my tax money used to go after the real election fraud……not the "made up" election fraud.

I also find it interesting that you did not consider legislation to change the last day that absentee ballots can be requested, the last Thursday before the following Tuesday, election day.**If you were to eliminate all ballot drop boxes,how in the world could clerks receive the absentee ballot requests (Thursday before elections), return them to the voters and have them sent back USPS to the clerk's office before or on election day (the following Tueday)?**Here is the guideline regarding mailing back absentee ballots from our local election officials:https://www.sheboyganpress.com/story/news/2022/02/08/heres-what-you-need-know-voting-wisconsin/6669615001/"When should I send my absentee ballot back?Ballots will take up to sevendays to be delivered to voters after a request and could takeseven days to get back to the municipal clerk's office to be counted. You should send your ballot back as soon as possible after receiving it. "

I have a few questions for you, related to your statements and legislation in your newsletter, and would very muchappreciate getting your answers:

1) Howmany cases of fraud have been found using absentee ballot boxes?

2) How many cases of fraud have been found from a spouse turning in one another's ballot, or helping a neighbor who is disabled or doesn't drive return their absentee ballots?

AMERICAN OVERSIGHT

3) Why are you against absentee ballots and drop boxes? My husband and I chose to use the very secure ballot drop box at Mead Public Library drive through lot to deposit ours. We thought that the slot connected to the City Hall building might also receive other mail, like payments for taxes, fines, etc. If so, we felt that it could be less safe. **Are you sure you have done your home work or are you just pushing the narrative of your party?**

4) Why are you making theseunnecessary changes to the laws, when the investigations so far have not indicated that all of the reforms are needed? (We are still waiting to hear any of Gableman's report/s for which the tax payers are on the hook for over $670,000.)

5) Why does the public still not have access to the information that was requested from SpeakerVos and why was the FOIA request not made known for about two weeks, leaving time for emails, text messages to be destroyed? (Speaker Vos has publicly stated he routinely deletes his emails and text messages……implications here?)

6) Why should we believe the integrity of our elections when Senator LeMahieu re-appointed to our state elections commission,Robert Spindell Jr., who signed the fake electors certificate on Dec. 14, 2020 that was sent on to Washington, D.C. with the hope of negating the 2020 election results in Wisconsin?

7) How much money have Republican super pacs given to help in running elections? (Oh, that's right…..that info is not available to the public)

8) Who are the people destroying the integrity of our elections?https://wisconsinexaminer.com/2022/02/02/trumps-fake-electors-heres-the-full-list/

9) How are we supposed to believe in the integrity of our elections when representatives of your party tried to negate our votes?

9) How are we supposed to believe in the integrity of our elections when some of your party's candidates running in the mid-terms, Kevin Nicholson and Adam Jarchow, are tied to officials who signed the fake elector document? (Darryl Carlson and Andrew Hitt)

10) How are we supposed to believe in the integrity of our elections when the Assembly Elections Committee plans to give a platform today to Peter Bernegger, who wasconvicted of bank fraud and mail fraudin 2009 for deceiving investors in two startup companies. Bernegger was released from federal prison in 2014.(It isunbelievable that this felon has copied ballots from election officials in several locations!)

11) How are we supposed to believe in the integrity of our elections when the Assembly appointed former Justice Gableman, who has attended several partisan stop the steal rallies and appeared with Mike Lindell, the "my pillow guy" and other partisan activists?

https://www.americanoversight.org/documents-from-wisconsin-election-investigation-reveal-contact-with-mike-lindell-other-partisan-activists

AMERICAN OVERSIGHT

Dear Fellow County Republican Parties,

Have you ever watched a classic movie and **felt like you are living it in today's age?**

The classic Jimmy Stewart film, *Mr. Smith Goes to Washington*, tells of a bogus, bought-out legislator, Joseph Paine, who is trying to convince Stewart's character, Jefferson Smith – a humble, yet naïve patriot – that the dirty world of politics is more real than the boy-scout ideals Smith espouses.

When Smith finds out that Paine's career came about by the puppet strings of a powerful and wealthy James Taylor, he confronts Paine. Paine's response gives the viewer exactly what his name signifies… pain. He says,

> "I know how you feel, Jeff. Thirty years ago - I had those ideals, too. I was you. I had to make the decision you were asked to make today. And I compromised - yes! So that all these years I could stay in that Senate - and serve the people in a thousand honest ways! You've got to face facts, Jeff. I've served our state well, haven't I? We have the lowest unemployment and the highest federal grants. But, well, I've had to compromise, had to play ball. You can't count on people voting, half the time they don't vote, anyway. That's how states and empires have been built since time began. Don't you understand? Well, Jeff, you can take my word for it, that's how things are."

Sound familiar?

Joseph Paine holds power in our state legislature, **and his name is Robin Vos**.

When state legislators no longer represent the will of their constituents, who are they representing? Who are they working for? Whose goals are they trying to accomplish? Are they their own? Or do they belong to a power over them? Is there a James Taylor at work?

We don't know. But this we do know – ENOUGH IS ENOUGH!

We, the Iowa County Republican Party, have made public our position regarding Speaker Vos's willful rejection to listen to his constituents and represent his people.

Like Paine, he is compromised, and like Jefferson Smith, we are stepping in to do something about it.

Speaker Vos and the Assembly Republican leadership have **BETRAYED** us by choosing to do nothing to fix the issues discovered in our election process during the 2020 election. Even worse, they are standing in the way of those who are attempting to do that which they refuse.

We have issued a public statement expressing our deep concern for Vos's inept leadership and our desire to see steps taken towards undoing his actions to block all efforts to fix our election.

Will you join us?

Will you speak as the voice of your community, lock arms with us, and join a movement to fix our election system so that every resident of Wisconsin has confidence that when they cast an official ballot, their vote actually counts?

AMERICAN OVERSIGHT

Are you ready to work towards gaining the trust of the people once again?

If so, **HERE IS HOW YOU CAN START.** We invite you to issue a **similar statement** on behalf of your county. You can do this in one of three ways:

1) **Copy our statement and replace with your executive committee's names.**
2) **Use our statement as a template to write your own.**
3) **Write a statement completely on your own.**

These statements will serve to gain public attention to the fact that the voice, indeed the very heart and soul of the Republican Party – The People, is being ignored by our representatives.

And we are tired of it!

There is the potential risk that the left-wing media will label this movement as an attempt to overthrow the will of "voters" in 2020.

DON'T BUY INTO IT!

The reality is that the will of the "TRUE" voters was overthrown! This is about justice! No reasonable Wisconsinite can deny that the **2020 election was wrought with mountains of election irregularities** through blatant injustice, broken laws, and betrayal by our leadership! (Please see attached "Evidence" pdf.)

If we want ANY hope of fixing these issues in order to restore a free and fair election process in our generation, we need to begin by speaking up.

Will you speak up with us?

"Each time a man stands up for an ideal, or acts to improve the lot of others, or strikes out against injustice, he sends forth a tiny ripple of hope." — Robert F Kennedy

"The only thing necessary for evil to triumph is for good men to do nothing." Edmund Burke

- The Iowa County Party Executive Committee.

Hello Rep Vos

Be the representative that you say you are. Do you represent the people or the machine?

Judge Gableman's report shows there is more than sufficient cause to recall the Wisconsin electors from the 2020 election for president of the US! Please help in getting this done!

Let's get back to good old honesty, integrity, and fair play in elections. NO MORE DROP BOXES! NO MORE ACCEPTING ILLEGAL FUNDS FROM PEOPLE LIKE MARK ZUCKERBURG! NO MORE TRYING TO GET RID OF VOTER ID! NO MORE MAKING IT EASIER FOR CHEATING! Let's have triple secure ballot counting! Let'srestore American's faith in their country.

And let us not let illegal immigrants vote! and foreign countries interfere with our elections!

Thanks!

Subject: Judge Gableman's report

Hello Assembly Rep. Voss:

When can we expect Judge Gableman's 2020 election report? Will it come after you dismiss the representatives at the end of February for the rest of the 2022 session? If the report I heard is true about dismissing our reps for the remainder of the session at the end of February, it wouldn't surprise me, it sounds exactly like something you'd do. That's not a compliment by the way. As I've asked before, "if there's nothing to find as far as election fraud, why are you standing in the way?"

Subject: Judge Gableman

Dear Representative Vos:
I have been unhappy with many of the positions you have taken as Speaker of the Assembly. They have not seemed to be in the interest of getting things done, but more in the interest of taking a Republican stand against our Democratic Governor. Hence I have little faith in your decision as to whether to extend Judge Gableman's contract yet one more time, and I want to voice my opinion loud and clear: DON'T. It has been a waste of money from the start. Biden is our President. Trump lost. The sooner everyone gets over it, the better off we will be.

Sincerely,

Donna Vincent

Subject: Judge orders Vos to resolve illegally destroyed records issue

---

First the corrupt illegitimate gerrymandering Republicans launch a profligate, paranoid, conspiracy laden witch hunt wasting almost a million dollars of taxpayers' money in what is obviously a massive PROJECTION over "election integrity" by those that actually, verifiably rig & steal elections, then they illegally destroy documents in a cover up! Unbelievable levels of corruption! For rigging and gerrymandering all our elections and for ignoring and routinely trampling on the Will of We The People and for your disgusting attacks on our democracy, you all belong in prison!

Subject: Just read full report of Mr. Gabelman's

Dear Mr. Vos:

I am sickened after reading Mr. Gabelman's investigative report on the 2020 election. I read every one of the 136 pages, slowly and surely for a thorough study. I am stunned, spooked, irate, sad, and speechless.

How did all of this illegal garbage occur? I am stunned by how bad the stench is, and how many different areas of the 2020 election are producing the stench. What a stinking DEBACLE. I have an infinite amount of questions. How did we ever get here? How is it that individuals, including the Lead Commissioner of WEC, can merely refuse subpoenas and file frivolous lawsuits to slow the investigation? How is it that outside money can be accepted by the Zuckerberg 5 counties? How did the CTCL acquire so much control over our state election? What gives the WEC the idea that it can change instructions to city clerks and nursing homes "on the fly" that run contrary to the law? Why, may I ask, is the WEC still in existence? Each of its UNELECTED members, including each of the useless Republican members, has clearly been complicit in blatantly refusing to serve the mission of WEC, that of providing honest and fair elections by maintaining and supporting STATE ELECTION LAWS. Their actions are unforgivable. And then Dean Knudson opines that the election was run in stellar fashion. Who are we kidding here?

I listened to your radio interview with Jay Weber recently and, quite frankly, I was angered by some of your answers and explanations. You at least admitted that the WEC made a mistake in offering law-breaking advice for nursing home residents' absentee voting (no special deputies required). But you then went on to brush that misdeed off by saying "it was wrong but it (WEC) is still the best we have." NO, it is not!!! The WEC members need to be FIRED, every last one of them. This is ridiculous and so frustrating that no action has been taken to do just that.

I also take umbrage with your faulty conclusion that all of the WI voters unhappy with how the election was managed want a decertification of the 2020 election. Stop saying that. If you would get out of Madison for a change and touch base with the Republican voter base in the rest of the state, you would discover we are only asking for FAIR and HONEST elections and assurances that the details outlined in Mr. Gabelman's report NEVER happen again. Is that too much to ask for?

Sadly, I am losing faith in my elected representatives. I am tired of hearing excuses and weak arguments. I am tired of cowardice. I am overly fatigued by politicians catering to the Special Interest groups. I am tired of politicians not standing up and doing what is right. I am exhausted by politicians who talk a good game but never do anything for the people they work for. I'd like to see some real action for a change.

Regards,
Diane L. Braza
New Berlin

AMERICAN OVERSIGHT

P.S. The only WI politician that is in my high esteem right now is Senator Ron Johnson. He's a fighter and has the courage to do the right thing. I wish we had more individuals like him in our state political offices.

Subject: Fwd: WI JUSTICE GABELMAN & ASSEMBLY SPEAKER VOS: THE PRESIDENTIAL ELECTION IN 2016 (www.AlreadyImpeached.blogspot.com) and 2020 (www.WeWon2020.blogspot.com) are both "THE SAME" AS THE 2018 CA. GOVERNORSHIP (BELOW)...I WON VIA CONSTITUTIONAL DEFAULT (I.E., PROVING THE OTHERS GUILTY OF FELONY CRIMINAL DEFAULT)...
To: <usrecovery@gmail.com>

[DON'T LET THEM FOOL YOU, THEY DON'T KNOW HOW ELECTIONS WORK, EITHER....OR, DIDN'T UNTIL MY SCIENTIFIC PROOFS, ANYWAY]..

JUSTICE GABELMAN:

The sabotage of proper grand jury function (and proper election function therewith), appears to have occurred during the 1814 Attack of D C , burning it to the ground, along with the Library of Congress (after the death of the "MOST STUDIED OF THE FOUNDING FATHER LEGAL SCHOLARS")....I.E., THE "TRAFFIC APPLICATIONS"(SAME AS "HORSE &BUGGY") STILL EXIST, HOWEVER "SCAMBLED"....AND "GOVERNMENT LOAN AND COMPULSORY PROCESS APPLICATIONS" (OF WRITTEN PRESENTMENT/DEMAND & DEFAULT), ALSO REMAINED, ALSO "SCRAMBLED" (AND OFTEN "ARBITRARILY REVISED" TO INCLUDE ARBITRARY "IN SOLIDO FUNCTION" APPLICATIONS)...

Where wrongdoing exists (or is suspected), at least, it becomes an act of criminal negligence and misprision to fail/refuse to present such evidence/affidavit(s)/testimony to the grand jury (also an act of Evidence, Witness, and Jury Tampering, 18USC1512)....

Similarly, by erasing the MANDATORY GRAND JURY PRESENTMENT REQUIREMEJTS OF CANDIDATES/APPLICANTS FOR ELECTED OFFICE, FIRST.....You deprive everyone of full-fledge-tax-paid/due-process&protections.....AS WELL AS COSTING PREVENTABLE MILLIONS (BILLIONS, COLLECTIVELY), BY DEPRIVING CERTAIN WINNERS (OUR BEST AND BRIGHTEST, MOST QUALIFIED), VIA DEFAULT, THEIR DUE-BENEFITS OF SUCH A "DEFAULT WIN"....MAKING ELECTION RESULTS "DUE-PROCESS DENYING VOID JUDGMENTS" THAT REQUIRE EVEN MORE UNCONVICTED TAXPAYER COSTS/TAXES TO PROVE VIA THESE NEW

AMERICAN OVERSIGHT

"SCIENTIFIC CANDIDATE QUALIFICATION EXAMS" (www.PRLog.Org/10439874; THE SCIENTIFIC BASICS IF RIGHT AND WRONG"), BROUGHT BEFORE ANOTHER JURY TRIAL....

However, with this grand jury presentment/declaration/notification, first (i.e., done properly), all the needed evidence is "right there" for the grand jury to "make an immediate indictment/conviction", before the election occurs, without any election dates being required to be delayed... Otherwise, by doing it NEGLIGENTLY (i.e., W/out grand jury presentment, first), elections must be delayed, until any objected to ballotings/balloting-denials can be decided CONSTITUTIONALLY (for such $25,000+ matters)....and/or the Secretary of State (or Elections Commissioner) ILLEGALLY MAKES A RULING, THEMSELVES, JURYLESSLY, IN AN ILLEGAL "IN SOLIDO" CAPACITY, CALLED "DROITT ADMINISTRATIFF" IN FRANCE (WHERE THIS "REIGN OF TERROR" PRODUCING, G-JURY PRESENTMENTLESS, INDICTMENTLESS/DEFAULTLESS/CONVICTIONLESS RACKETEERING-PROCESS ORIGINATED)....AND ILLEGAL BALLOTINGS/BALLOTING-DENIALS (AND OFTEN CRIMINAL OFFICE OCCUPATION) OCCUR THERE WITH.... .How Utilitarian/Communist OVERTHROW/OCCUPATION is done...

You can stop this OCCUPATION/DECAY, just by enforcing these grandjury warrants and requiring the undeniably-due, grand jury PRESENTMENT/notification/oversight, from the beginning.....AND, THEREBY, PREVENT ALL "CONVICTIONLESS INVOLUNTARY SERVITUDE AND SLAVERY WITHOUT PRESENTMENT OR INDICTMENT OF A GRAND JURY OCCURRING"....AND THE CRIMINAL NEGLIGENCE THAT DOING OTHERWISE IS (IN ALL CASES OF $25,000 VALUE OR MORE, AT LEAST).

RCCFM, Always(c):

Dr. Eric

ITS ALSO TRUE THAT I WON THE PRESIDENCY IN 2016 & 2020, MINIMALLY, USING CONSTITUTIONAL DEFAULT TO TEST THE LEGALITY OF THIS SYSTEM.....I.E., TEST DRIVING" THIS "DEFAULT PROGRAM" I DEVELOPED AS AN EXPANSION OF ROTC, EOTC (ELECTED OFFICER TRAINING CORP), TO PREVENT THE CRIME & DEBT EXAGGERATION TO CIVIL/WORLD WAR (COMMUNIST/RACKETEERING OCCUPATION/,OVERTHROW) THAT UNQUALIFIED APPLICANTS FOR ELECTED OFFICE PRODUCES.....AN ROTC EXPANSION PROGRAM I'M HAPPY TO ASSIST ANY STATE IN IMPLEMENTING/ENFORCING...AS PART OF THEIR STATE/NATIONAL GUARD PROGRAMS...
