Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

AMERICAN OVERSIGHT

Regards

John Pappone

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born
State Representative
39th Assembly District
(608) 266-2540
Rep.Born@legis.wisconsin.gov

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

https://rumble.com/vli8i3-ramthun-report-episode-26-seth-keshel-high-security-ballots-and-next-steps-.html

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS
For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

H/T Mr J

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin No More BS

Is this true! WHAT OUR OUR ELECTED OFFICIAL'S DOING ABOUT IT OR ARE THEY ENABLING THIS

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: “Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity.”

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin’s November election.

In her statement she writes: “voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination.”

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

Subject: Election Audit
All,
Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

---

Hello Rep. Vos and Colleagues,

Re:Decertifying Arizona's 2020 Electors – HCR 2033

Hope your day is going well.

Regarding the Wisconsin legislator steps to look into 2020 presidential election issues and the Gableman investigation, the people of Wisconsin and the Nation only want all evidence of fraud to be presented to the legislature and let the facts speak for themselves.
We needfull transparency and"Let There Be Light."

Please support this continuing resolution (Decertifying Arizona's 2020 Electors – HCR 2033)by moving it to the correct committee so it gets reviewed timely so all of you can be a part of saving our country from farleft forces who do not care about American Freedom or Liberty.

AMERICAN OVERSIGHT

All of you can stop the tyranny that has taken over our country. I am hopeful that the real truth prevails and our country does not go down in flames!

Hello,

I would like to know your position on the "investigation " that was ordered by Vos, ran by Gableman and thus far costing taxpayers $676,000 of their money.
I know the statement is to improve the elections. When the prime players involved have been to Arizona and sat in with Mike Lindell and Gableman has even stated election fraud one can only question the actual intent.
In your opinion, did Biden win the election and was there massive election fraud?

I am a resident of Appleton and within your district.
Thank you
Jay Huntley

Subject: Re: Notice
Attachments: DMED.pdf

See the attached PDF. All data Comes directly from the Defense Health Agency, Armed Forces Health Service Branch- Public Health Division. The data shows a massive increase in disease since the rollout of the vaccine.

Pfizer Covid-19 vaccine insert:
13.1 Carcinogenesis, Mutagenesis, Impairment of Fertility COMIRNATY**has not been evaluated for the potential to cause carcinogenicity, genotoxicity, or impairment of male fertility.**Link to insert on FDA website can be found in the PDF.

Genotoxicity refers to the ability of harmful substances to damage genetic information in cells. Being exposed to chemical and biological agents can result in genomic instabilities and/or epigenetic alterations, which translate into a variety of diseases, cancer included.

This is an extremely serious matter.The vaccine manufacturer admits that they did not study or collect data on disease caused by the vaccine. The data attached from the DefenseHealth Agency shows a massive increase of disease since the rollout of the vaccine.

AMERICAN OVERSIGHT

Many of the covid-19 side effects listed in this report the manufacturer recognizes, however, their studies show them to be rare.

The data from the Defense Health Agency can be viewed as the disease study which the manufactures admittedlydid not perform.

On Monday, January 31, 2022, 05:32:15 PM CST, Evan Walton <evanwalton@ymail.com> wrote:

See the attached PDF. The data collected from 77 studies using ivermectin to treat covid-19 shows an overall positive result through all phases of treatment. The risk profile on ivermectin is well known and documented. Based on this data the restricted use of ivermectin should stop.

On Thursday, January 27, 2022, 08:36:53 PM CST, Evan Walton <evanwalton@ymail.com> wrote:

See the attached PDF. This is vaccine data collected by the department of defense. The data set shows that the vaccinated are the most hospitalized and it appears that the vaccine negatively impacts the immune system.

On Sunday, January 23, 2022, 11:24:13 PM CST, Evan Walton <evanwalton@ymail.com> wrote:

Please see the attached PDF's. This report is currently being sent out to all mid-high level political officials. We are sending you this report in a group message to ensure that if it is overlooked in your email, one of your constituents can present it to the governing body to which they are a member of. This message contains over 4,000 representatives.

Many deaths may have resulted from policy which you may have directly or indirectly supported. The attached report gives you government reports and data which can help guide you in making better policy today.

You now have a great opportunity to do what's right and be a champion in the fight for a better future.

But if you do nothing and/or continue to support destructive and deadly policy, you will be documented in history as being on the wrong side of it.

Cheers

See the attached PDF. All data Comes directly from the Defense Health Agency, Armed Forces Health Service Branch- Public Health Division. The data shows a massive increase in disease since the rollout of the vaccine.

Pfizer Covid-19 vaccine insert:
13.1 Carcinogenesis, Mutagenesis, Impairment of Fertility COMIRNATY**has not been evaluated for the potential to cause carcinogenicity, genotoxicity, or impairment of male fertility.**Link to insert on FDA website can be found in the PDF.

Genotoxicity refers to the ability of harmful substances to damage genetic information in cells. Being exposed to chemical and biological agents can result in genomic instabilities and/or epigenetic alterations, which translate into a variety of diseases, cancer included.

This is an extremely serious matter.The vaccine manufacturer admits that they did not study or collect data on disease caused by the vaccine. The data attached from the DefenseHealth Agency shows a massive increase of disease since the rollout of the vaccine.

Many of the covid-19 side effects listed in this report the manufacturer recognizes, however, their studies show them to be rare.

AMERICAN OVERSIGHT

The data from the Defense Health Agency can be viewed as the disease study which the manufactures admittedlydid not perform.

On Monday, January 31, 2022, 05:32:15 PM CST, Evan Walton <evanwalton@ymail.com> wrote:

See the attached PDF. The data collected from 77 studies using ivermectin to treat covid-19 shows an overall positive result through all phases of treatment. The risk profile on ivermectin is well known and documented. Based on this data the restricted use of ivermectin should stop.

On Thursday, January 27, 2022, 08:36:53 PM CST, Evan Walton <evanwalton@ymail.com> wrote:

See the attached PDF. This is vaccine data collected by the department of defense. The data set shows that the vaccinated are the most hospitalized and it appears that the vaccine negatively impacts the immune system.

On Sunday, January 23, 2022, 11:24:13 PM CST, Evan Walton <evanwalton@ymail.com> wrote:

Please see the attached PDF's. This report is currently being sent out to all mid-high level political officials. We are sending you this report in a group message to ensure that if it is overlooked in your email, one of your constituents can present it to the governing body to which they are a member of. This message contains over 4,000 representatives.

Many deaths may have resulted from policy which you may have directly or indirectly supported. The attached report gives you government reports and data which can help guide you in making better policy today.

You now have a great opportunity to do what's right and be a champion in the fight for a better future.

But if you do nothing and/or continue to support destructive and deadly policy, you will be documented in history as being on the wrong side of it.

Cheers

Joseph Oslund
joseph@wisdems.org

Dear Mr. Oslund:

Open records requests are processed through the Assembly Chief Clerk's office for billing purposes only. You submitted an open records request to Representative Vos. The records are being provided in electronic format and, thus, there is no charge for any location or reproduction costs. Accordingly, all records that are responsive to your request are attached to this email.

Carol Redell

Subject: RE: Open Records Request

Dear Mr. Oslund,

This is in response to your public records request dated 10/15. Your request was for the following documents:

1. *Records sufficient to identify all individuals who are or have been employed, contracted, subcontracted, engaged, working on behalf of, or otherwise consulted by Mr. Gableman. For the purpose of clarity, this request seeks to identify all individuals involved in Mr. Gableman's investigation, regardless of whether they are being paid for their involvement.*

AMERICAN OVERSIGHT

2. *All communications (including emails, email attachments, agreements, memoranda, contracts, proposals, and text messages on any messaging platform) between you or your staff and Mr. Gableman relating to Mr. Gableman's investigation of the 2020 election.*
3. *All communications (including emails, email attachments, agreements, memoranda, contracts, proposals, and text messages on any messaging platform) between you or your staff and anyone employed by or acting on behalf of Mr. Gableman.*
4. *All communications (including emails, email attachments, agreements, memoranda, contracts, proposals, and text messages on any messaging platform) between Mr. Gableman and anyone employed by or acting on his behalf.*
5. *All subpoenas served by or on behalf of Mr. Gableman.*
6. *All investigative notes, reports, memoranda, or other work product produced by Mr. Gableman or on his behalf.*

Responsive records have been delivered to the Office of the Assembly Chief Clerk. The Assembly Chief Clerk will be in contact with you with instructions on how to retrieve those records. We now consider this matter closed. Thank you.

Sincerely,

Steve Fawcett
General Counsel
Office of Assembly Speaker Robin Vos

Subject: Open Records Request

October 15, 2021

SENT VIA EMAIL

Speaker Robin Vos
Room 217 West
State Capitol
PO Box 8953
Madison, WI 53708
Rep.Vos@legis.wisconsin.gov

Dear Speaker Vos:

AMERICAN OVERSIGHT

This letter is to request the following records, under the state's Open Records Law (Wis. Stat. 19.31-39), all of which relate to former Wisconsin Supreme Court Justice Michael Gableman's investigation of the 2020 election:

1. Records sufficient to identify all individuals who are or have been employed, contracted, subcontracted, engaged, working on behalf of, or otherwise consulted by Mr. Gableman. For the purpose of clarity, this request seeks to identify all individuals involved in Mr. Gableman's investigation, regardless of whether they are being paid for their involvement.
2. All communications (including emails, email attachments, agreements, memoranda, contracts, proposals, and text messages on any messaging platform) between you or your staff and Mr. Gableman relating to Mr. Gableman's investigation of the 2020 election.
3. All communications (including emails, email attachments, agreements, memoranda, contracts, proposals, and text messages on any messaging platform) between you or your staff and anyone employed by or acting on behalf of Mr. Gableman.
4. All communications (including emails, email attachments, agreements, memoranda, contracts, proposals, and text messages on any messaging platform) between Mr. Gableman and anyone employed by or acting on his behalf.
5. All subpoenas served by or on behalf of Mr. Gableman.
6. All investigative notes, reports, memoranda, or other work product produced by Mr. Gableman or on his behalf.

Please note, again, the limitation on the above requests that each one relates only to Mr. Gableman's inquiry into the 2020 election. In addition, we only seek documents dated from June 1, 2021 through the date of this request.

Wis. Stat. § 19.36(3) provides that you, as a covered "authority," must

> make available for inspection and copying under s. 19.35 (1) any record produced or collected under a contract entered into by the authority with a person other than an authority to the same extent as if the record were maintained by the authority.

Accordingly, as Mr. Gableman is conducting this investigation under a contract you entered with him pursuant to your authority as Speaker, *you are obligated to maintain and make available all records available produced by Mr. Gableman and his associates in the course of this investigation*.

Please be aware that the Open Records law defines "record" to include information that is maintained on paper as well as electronically, such as data files and unprinted emails. Wis. Stat. § 19.32(2). Please also be aware that the Open Records law "shall be construed in every instance with the presumption of complete public access consistent with the conduct of governmental business. The denial of access generally is contrary to the public interest and only in exceptional cases can access be denied." If you deny this request, the law requires you to do so in writing and state what part of the law you believe entitles you to deny my request. Wis. Stat. § 19.35(4)(a).

AMERICAN OVERSIGHT

The Open Records law states that you may charge for "the actual, necessary and direct cost" of locating records, if this exceeds $50, and for photocopies. The Wisconsin Department of Justice advises that copying fees under the Open Records law should be "around 15 cents per page and that anything in excess of 25 cents may be suspect." If available, digital copies would be the preferred method to receive the records from your office.

Finally, we note that Wis. Stat. 19.35(5) prohibits you from "destroy[ing] any record at any time after the receipt" of this request "until after the request is granted or until at least 60 days after the date that the request is denied."

Thank you for your time with this request. Please contact me or DPW legal counsel David Kronig at davidk@wisdems.org with any questions.

Best regards,

/s/ Joseph Oslund

Subject: Re: Please Decertify the Nov 2020 presidential election and Subpoena the Nov 2020 ballots

---

Wi has 4.5 million voters over the age of 18 and 7 million registered voters. According to the on GeneralDispatch Whatfinger Dec 8 2020 or other sources. Wisconsin Had 89% Reported Turnout in 2020 Election — Impossible Number that Still Can't Be Explained according to the GatewayPundit. This implies that 7 million * .89 = 6.23 million voted. Thus, there must at least be 6.23-4.5= 1.73 million = 1730000 fraudulent ballots. It is time to decertify the election

See Article 2 Section 1 Clause 2 of the US Constitution.

Via Lt- General Thomas McInerney on 2021 in Review and What We Must Do in 2022 To Save America on Brandon Howse (Frank speech):

Nealy 5min in: The threat we are facing is more dangerous that the Civil War and WWII combined- It is more dangerous because we knew what we were fighting during the Civil Ware and WWII because now maybe at best 40% of the population realize what is happening.

1 min in Covid was a deliberate bio attack by the CCP

In 2005 the CCP announced a new unrestricted warfare idology: bioweaponds and massive cyber.

The cyber war attack came on Nov3.That gave us the O-Biden administration since Obama and Biden have similar people at key positions.

AMERICAN OVERSIGHT

7 min in McInerney cofounded a edge cloud business. We can injest every sensor at the edge of the battle field and put it down to a HumV or a tank or to an aircraft carrier.

We know exactly how they hacked the 6 swing states (1 county per state).

11 min in enemies big tech & media

13 min in the insurrection was Nov 3.Have Corrupt courts FBI DOJ.

15min in – Lt Gen. McInerney was vice commander and chief of US forces in Europe. He became the #3 man in the air staff (The 3rd highest ranking officer).Putin and Xi know they got Biden in power.China & Russia know they can leak through sources that they changed the election and that Trump actually won.They have used that to blackmail Biden.

The bases in Afghanistan were critical for us if we needed to defend Taiwan.

--

See Biden Admin to Send the Taliban Millions in US Dollars After Arming them with $83 Billion in US Military Weapons ontheGatewayPundit. (That equipment can be reverse engineered by a Chinese Ally).

--

A republican form of government is required according to article 4 section 4 of the US constitution. A process that could work like trusting a Chinese owned black box software voting machine does not meet that requirement. These machines are a threat to the American way of life. Via the Antrim Michigan Forensics Report Dominion voting system is owned by Staple Street Capital which is in turn owned by UBS Securities LLC (A Chinese brokerage firm and Bank), of which 3 out of their 7 board members are Chinese nationals. That report also discovered election data going to Taiwan and other countries. From there it could be relayed to another foreign country.

Bruce Sampson

On Monday, February 14, 2022, 02:21:13 PM CST, Bruce Sampson <bsaf5@yahoo.com> wrote:

AMERICAN OVERSIGHT

Please Subpoena the paper ballots because doing so is a slow court process and the ballots can be destroyed 22 months after the Nov 3 2020 election. Jovan Pulitzer's method is very powerful and people will want to apply his method in WI once his results have been published form Maricopa County, AZ.

Please vote to decertify the 2020 presidential election and possibly redo it. Otherwise, the election laws will be ignored and the election will be rigged again in the future. There are at least 4 constitutional attorneys that say you have the ability to decertify the election.

Election integrity is the most important issue.

There appears to be no consequences for violating election laws. The AZ senate has the ability to arrest people.

The people who disenfranchised voters in WI have only benefitted from their behavior.

In addition to the things Rep Ramthun pointed out in bill 5340 which comes from Gableman's audit

Approx.157,000 voters have the same voter number. Wi has 4.5 million voters over the age of 18 and 7 million registered voters. Both statements are on GeneralDispatch Whatfinger Dec 8 2020 or other sources. I could present more facts. There are many independent ways to see that the election needs to be decertified. See this 2-minute video from True to Vote's research: BREAKING BOMBSHELL** Dinesh D'Souza Releases Movie Trailer for "2000 Mules" Exposing Ballot Traffickers Who Stole the 2020 Election on the Gateway Pundit.

Resending as first attempt failed due to typo in Representative Vos's email address.

Representative Voss,

First, I want to clarify that I do not live in your assembly district. I live in the 53rd district. I'm writing directly to you because representative Schraa does not feel he can answer my questions (see comment from his staffer in the email below).

My question relates to the Justice Gableman investigation. As you know, last week the Committee on Campaigns and Elections passed a motion on a party line vote to extend or continue (it wasn't clear from the committee members' discussion on this point) Gableman's council. Why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

Sincerely,
Jerry Tribbey

Subject: RE: Proposed $680K to investigate election

Hello Linda,

Thanks for passing along the hearing and executive session info. I was able to watch it on Wisconsin Eye. I was pleasantly surprised to hear the legislators agree to bring in WEC representation to answer the questions about the integrity of the voter registration data base. Gives me some comfort that there is a good faith effort to remove doubt about our election system. I do wonder why this investigation didn't take place prior to the 2020 election. As all three experts shared, these issues likely existed prior to the 2020 election. If the issues identified are serious, and they appear to be, I believe there needs to be common agreement to resolve them and get it done.

Regarding the authorization for Gableman's contract extension/continuation (I'd like to know if it is an extension or continuation), what is the justification? Why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

Sincerely,
Jerry

Cc: Sue Brockman <sbrockman@outlook.com>
Subject: Reimbursement, please

Representative Vos,

Yesterday, the person you hired to investigate the 2020 Wisconsin Presidential election delivered his 'Interim Report' to the Assembly elections committee. Michael Gableman's report was shared as part of a three-hour grandstanding presentation that contained no new information nor any evidence of widespread voter fraud.

Mr. Gableman's report:

- Was issued months late. He had no accountability during this process, not providing updates or how his time was spent. No one in the private sector would be allowed to work in this manner. He also claimed it was late because he was hampered of lawsuits filed by out-of-state law firms when in fact he admitted he didn't know how elections work.
- Held no substantiation to any of the claims he or others made about 'the election being stolen".
- Claimed the Wisconsin results should be decertified. Really? It's frightening to think he was once a Wisconsin Supreme Court judge.
- Used videos of senior citizens in nursing home settings showing how low he stooped to put together that embarrassing presentation.

Joe Biden won the 2020 Wisconsin Election. This has been proven through the counts, recounts, audits and lawsuits. It's time to stop this nonsense. Do not let the former president bully you into continuing this ridiculous search for voter fraud that doesn't exist while spending more taxpayer money.

With that being said, as a taxpaying citizen who has lived my whole life working in Wisconsin, I would like to be reimbursed for my share of the $676,000 that was spent on this foolish project.

I look forward to receiving my reimbursement.

Susan Brockman

STATE REPRESENTATIVE
ROBIN J. VOS
SPEAKER OF THE WISCONSIN STATE ASSEMBLY

Election Reform Bills Head to the Governor

Passed yesterday were several common-sense election reform bills, aimed at fixing the flaws we know happened in 2020. Voters want to feel confident in the 2022 elections and beyond, and we were happy to pass these reforms.

Many of these bills address the non-partisan Legislative Audit Bureau's 48 recommendations for consideration by the Legislature and the Wisconsin Elections Commission (WEC) to improve election practices.

AMERICAN OVERSIGHT

Wisconsin elections should be accessible, secure, fair, and transparent. The package of election reform bills advances all of these priorities by:

- cleaning and maintaining accurate voter rolls
- ensuring legislative oversight of WEC and estate agencies involved in elections
- closing voter ID loopholes
- securing ballot chain of custody
- reforming indefinitely confined status
- enacting strong penalties for violating election law
- ensuring efficient and timely ballot access on Election Day
- accountability for those who fail to follow election laws
- conducting frequent and comprehensive audits
- strengthening reporting requirements to improve public transparency
- ensuring timely review of election complaints

Watch the video below for more of my comments.

Governor Evers Sits on Lincoln Hills for Three Years

It's so common for Governor Evers to be inept, it's not surprising he has done nothing with Lincoln Hills over the course of three years.

So it was up to Legislative Republicans to once again lead and take action. We passed a bill last night to take the first steps in finally closing Lincoln Hills.

The governor will no doubt take the credit for his two minutes of fame when he signs the bill that we send to his desk since he's done nothing else.

Watch my floor speech below.

The voting bills you sent to the Governor are only designed to take away the people's right and ability to vote. They also take away the voting regulations from the non-partison commission and out it in the hands of the legislature which is not what a democracy is about. Please stop trying to turn this state into a dictatorship.
Please start working for the good of the people of this state.

Wisconsin elections should be accessible, secure, fair, and transparent. The package of election reform bills advances all of these priorities by:

- cleaning and maintaining accurate voter rolls
- ensuring legislative oversight of WEC and estate agencies involved in elections
- closing voter ID loopholes
- securing ballot chain of custody
- reforming indefinitely confined status
- enacting strong penalties for violating election law
- ensuring efficient and timely ballot access on Election Day
- accountability for those who fail to follow election laws
- conducting frequent and comprehensive audits
- strengthening reporting requirements to improve public transparency
- ensuring timely review of election complaints

Governor Evers Sits on Lincoln Hills for Three Years

It's so common for Governor Evers to be inept, it's not surprising he has done nothing with Lincoln Hills over the course of three years.

So it was up to Legislative Republicans to once again lead and take action. We passed a bill last night to take the first steps in finally closing Lincoln Hills.

The governor will no doubt take the credit for his two minutes of fame when he signs the bill that we send to his desk since he's done nothing else.

Dear Speaker Vos,

Making laws to prevent Democrats from cheating in elections is step one..... Know that Democrats will always find a way to cheat....

Step two is the pass a law that makes vote fraud of any kind a felony that includes loss of voting rights and loss of rights to work or participate on any political campaign for life.

Step three Get Gov. Evers to sign the Bills.... Good luck with that....

Step four is to continue the investigation into the 2020 Presidential Election. Over 250,000 ballots were illegally processed....

Step 5 is to identify the people that committed vote fraud and bring to trail.

Sincerely,

John and Lynn Landwehr
Caledonia, WI

I have been around for awhile and I have never seen such lack of governing. All I see is disruption and tearing down without reasonable solutions from the Republican party. Both on the national and state levels.

We are going to tear apart Milwaukee Public Schools and replace with more vouchers. What kind of solution is that. What is the goal of this. What do you expect the outcome to be?

The voter fraud stuff is straight out of Putins playbook. I am a vet of the Coldwar. I studied this greatly.

We need to get rid of Obama care, but we have no solution to replace it.

Please reflect on why you wanted to be in government and what you can truly contribute to the people of the State of WI. Research great Republicans like Gerald Ford and Dan Quayle. Help bring the respected Republican party back.
Sincerely
Diane Stasiewicz

You should be ashamed to continue to make voting HARDER rather than easier for our citizens. The LIES of voter fraud have been disproved dozens of times over and yet you persist to alienate voters because of their race, their income, who they might vote for and their age. This is NOT what America is supposed to be about. Those Republicans who persist in repeating Trump's big lie that he magically won the election should be deported or charged with Treason.
You do NOT represent the people you are supposed to serve...

Amazing how we've never had a problem with our election system until lifetime conman and grifter Donald Trump was put into office with the help of Russia. Now, it seems, Republicans are taking the side of Donald Trump and Vladimir Putin on everything, even to the point of sowing distrust of our own U.S. elections. Stop attacking the credibility of our elections! Accept the fact that your party lost in large part because you have no platform and no intention of helping the American people at any time (unless they are among the millionaire class, that is).

AMERICAN OVERSIGHT

Governor Evers Sits on Lincoln Hills for Three Years

It's so common for Governor Evers to be inept, it's not surprising he has done nothing with Lincoln Hills over the course of three years.

So it was up to Legislative Republicans to once again lead and take action. We passed a bill last night to take the first steps in finally closing Lincoln Hills.

The governor will no doubt take the credit for his two minutes of fame when he signs the bill that we send to his desk since he's done nothing else.

Watch my floor speech below.

Subject: RE: Republicans lead on election reform, Lincoln Hills

---

Rep. Vos.

Thank you for this update, but I have to say NOT ENOUGH. Looking forward to 2022 is great, but what about 2020? Everyday we hear more and more criminal irregularities, which are way more than enough to overturn the election. Yet nothing is done. Rep. Steineke says that the resolution to decertify will never see the light of day. Why not shine some light on it? What do we have to hide? How great would that be that we are the party to right the wrongs and be for integrity and honesty and rule of law! I know Rep. Steinke has announced he is not going to run again and I know others have called for you to resign. Maybe that is a good thing, as they say: lead, follow, or get out of the way. I am looking to support a leader in any way I can. That would include my own time and financial resources. But my support will go to those who feel as I do that 2020 has to be corrected first. WEC also has to go!

Sincerely,

John R. Davel

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

AMERICAN OVERSIGHT

Election Reform Bills Head to the Governor

Passed yesterday were several common-sense election reform bills, aimed at fixing the flaws we know happened in 2020. Voters want to feel confident in the 2022 elections and beyond, and we were happy to pass these reforms.

Many of these bills address the non-partisan Legislative Audit Bureau's 48 recommendations for consideration by the Legislature and the Wisconsin Elections Commission (WEC) to improve election practices.

Wisconsin elections should be accessible, secure, fair, and transparent. The package of election reform bills advances all of these priorities by:

- cleaning and maintaining accurate voter rolls
- ensuring legislative oversight of WEC and estate agencies involved in elections
- closing voter ID loopholes
- securing ballot chain of custody
- reforming indefinitely confined status
- enacting strong penalties for violating election law
- ensuring efficient and timely ballot access on Election Day
- accountability for those who fail to follow election laws
- conducting frequent and comprehensive audits
- strengthening reporting requirements to improve public transparency
- ensuring timely review of election complaints

Hello Speaker Vos,
It is good to see that Wisconsin is making some headway with voter trust. Are you planning on moving to paper ballots and moving away from the machines? I believe that is what people are hoping to see most of all.

Don't fool yourself! You don't fool us. We don't "know" that flaws happened in 2020. Neither do you. Every investigation indicates a remarkably accurate count. There are no flaws to fix! Stop spending our money on a worthless investigation by a stupid former judge! And stop interfering with our schools! You don't know anything about education. All you are doing is trying to hide the white privilege and prejudice in this country (I am white). Thank God that we have a knowledgeable Governor who can stop your worst excesses. Unfortunately, our State Supreme Court justices are in your pocket, so they don't watch out for the common good. And stop giving in to anonymous, wealthy people who want to thwart the Ozaukee Land Trust development. The people want the expansion of public land, not a private development to line someone's pocket! Work for us for a change!.

AMERICAN OVERSIGHT

Governor Evers Sits on Lincoln Hills for Three Years

It's so common for Governor Evers to be inept, it's not surprising he has done nothing with Lincoln Hills over the course of three years.

So it was up to Legislative Republicans to once again lead and take action. We passed a bill last night to take the first steps in finally closing Lincoln Hills.

The governor will no doubt take the credit for his two minutes of fame when he signs the bill that we send to his desk since he's done nothing else.

Watch my floor speech below.

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

Election Reform Bills Head to the Governor

AMERICAN OVERSIGHT

Passed yesterday were several common-sense election reform bills, aimed at fixing the flaws we know happened in 2020. Voters want to feel confident in the 2022 elections and beyond, and we were happy to pass these reforms.

Many of these bills address the non-partisan Legislative Audit Bureau's 48 recommendations for consideration by the Legislature and the Wisconsin Elections Commission (WEC) to improve election practices.

Wisconsin elections should be accessible, secure, fair, and transparent. The package of election reform bills advances all of these priorities by:

- cleaning and maintaining accurate voter rolls
- ensuring legislative oversight of WEC and estate agencies involved in elections
- closing voter ID loopholes
- securing ballot chain of custody
- reforming indefinitely confined status
- enacting strong penalties for violating election law
- ensuring efficient and timely ballot access on Election Day
- accountability for those who fail to follow election laws
- conducting frequent and comprehensive audits
- strengthening reporting requirements to improve public transparency
- ensuring timely review of election complaints

Hey, Robin

I'll know you care about fair elections when you do something to fix the horribly gerrymandered status of this state. Until then, your words ring hollow at best.

As for working for the betterment of the state, when you write "It's so common for Governor Evers to be inept, it's not surprising he has done nothing with Lincoln Hills over the course of three years.", I know you care little about the state as a whole and simply are out to serve half the state. Is it worth it to your ego to serve half the state?

You just don't get it., do you! Yes we want election reform but more importantly where is the 2020 election audit? Lets face it, we don't need new laws we need to enforce the old ones along with putting people in jail that broke our existing voter laws. Also, you don't need THE IDIOT EVERS to sign anything, you just need to arrest the voter felons and put them in jail.

The mirror image of dictatorship we have that you support!

It is so interesting that you had no concerns about the complete corporate liar the hoax fake bone spurs actions before, during and after he was in office!

Remember he ignored the virus while calling it a hoax and delayed getting the vaccine out into public while giving bonus checks to corporation/companies like himself, farmers and double dip vos. We saw the divide mentality already in Wisconsin with snake walker after being elected and going after people and groups that didn't support him during election instead of trying to work together after the election. And double dip vos is still wasting the real taxpayer's money and calling the 2020 election fake. The fake we have is the radical right party! Dividing people is what your party is all about. mob control is your new mentality.

Tell me I don't pay any taxes corporate just give me the money johnson how many more people began billionaires and companies increased their profits during the year of the covid during the hoax 's last year in office while consumer prices went UP? And can you live on $30,000-$40,000Yr?

Former White House press secretary said the complete corporate liar the hoax fake bone spurs 'would roll his eyes at the rules. The mirror image of putin his good friend the dictator.

And the hoax fake bone spurs took documents to mar-a-lago that are so sensitive they may not be described in public, report says. And yet you have no concerns for his negative mentality!

Complete idiot greene and I upport dictatorship gosar, members of congress who spokeat a white nationalist eventin florida this week. **The hoax fake bone spurs praises idiot greene, who just spoke at a white nationalist conference. Complete idiot greene insists 2020 election was rigged, but 'no, i don't know how?**

AMERICAN OVERSIGHT

And this is the dictator that you support with no concerns**!** Confederate Flags, Conspiracies, and the Ghost of JFK Jr.: What I saw at bone spur's Bananas texas rally!

At a rally in texas, bone spurs called for nationwide protests if prosecutors investigating him "do anything illegal."

He sought to link the investigations to his baseless claim that the 2020 election was rigged.

Speaking at a texas rally, former president the hoax fake bone spurs called for nationwide protests if prosecutors investigating him and his businesses "do anything illegal."

In the speech, he appeared to link the investigations to his baseless claim that the 2020 election was rigged, which led to the January 6 Capitol riot.

"If these radical, vicious, racist prosecutors do anything wrong or illegal, I hope we are going to have in this country the biggest protest we have ever had in Washington DC, in New York, in Atlanta and elsewhere because our country and our elections are corrupt," bone spurs told the crowd in conroe, texas

And hw follows the mirror image of putin I don't pay any taxes corporate just give me the money johnson (r-Wis.) said Sunday that Democrats including President Joe Biden, House Speaker Nancy Pelosi (Calif.) and Rep. Adam Schiff (Calif.) all are part of the reason that putininvadedUkraine.

The complete corporate liar the hoax fake bone spursrepeatedly spoke highlyof putin's strategic acumen, noted the strongman's intention to **"re-build the russian Empire" and defended putin's habit of killing dissidents and journalists, arguing that the United States does the same thing.** So, it is ok to kill people who don't agree with you. No wonder you support gun violence and weapons like ar-15 in our society!

The hoax fake bone spurs on Tuesday praised russian president(?) putin's decision to send russian troops into Ukraine to support russian-backed separatists in the Luhansk and Donetsk provinces.

Radical mob right so-called representative for Wisconsin I don't pay any taxes corporate just give me the money johnson said Saturday he won't try to persuade a Wisconsin manufacturer to place more than 1,000 new jobs in his hometown.

AMERICAN OVERSIGHT

Instead of giving well-paying jobs to my so-called love state Wisconsin, reward other states the mentality of I don't pay any taxes corporate just give me the money johnson!

And another example of how you really don't want to help the people while your support of giving tax breaks to corporations **I don't pay any taxes corporate just me the money johnson says it's not 'society's responsibility' to care for 'other people's children' while arguing against child care subsidies for working parents.** He previously said he was "not a real fan" of thechild tax credit.

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

Election Reform Bills Head to the Governor

AMERICAN OVERSIGHT

Passed yesterday were several common-sense election reform bills, aimed at fixing the flaws we know happened in 2020. Voters want to feel confident in the 2022 elections and beyond, and we were happy to pass these reforms.

Many of these bills address the non-partisan Legislative Audit Bureau's 48 recommendations for consideration by the Legislature and the Wisconsin Elections Commission (WEC) to improve election practices.

Wisconsin elections should be accessible, secure, fair, and transparent. The package of election reform bills advances all of these priorities by:

- cleaning and maintaining accurate voter rolls
- ensuring legislative oversight of WEC and estate agencies involved in elections
- closing voter ID loopholes
- securing ballot chain of custody
- reforming indefinitely confined status
- enacting strong penalties for violating election law
- ensuring efficient and timely ballot access on Election Day
- accountability for those who fail to follow election laws
- conducting frequent and comprehensive audits
- strengthening reporting requirements to improve public transparency
- ensuring timely review of election complaints

Governor Evers Sits on Lincoln Hills for Three Years

It's so common for Governor Evers to be inept, it's not surprising he has done nothing with Lincoln Hills over the course of three years.

So it was up to Legislative Republicans to once again lead and take action. We passed a bill last night to take the first steps in finally closing Lincoln Hills.

The governor will no doubt take the credit for his two minutes of fame when he signs the bill that we send to his desk since he's done nothing else.

Watch my floor speech below.

Dear Sir:

It is all good to do something about election integrity but will it pass.
My concern is why you have by passed the Election Committee to add legislation SB 941 to Senate bill 214 to allow a head start to open mail in ballot envelopes and counting the monday before an election.Why would you circumvent the legislative process and by pass the REPUBLICANS on the Election Committee.
We are finding out more and more what a RINO you are, which is just firing us up to get more and more involved.

Thank you
Bev Redman

To: "Rep.vos@legis.wi.gov" <Rep.vos@legis.wi.gov>
Subject: Re: Republicans lead on election reform, Lincoln Hills

---

Regarding your commentary about "Governor Evers Sits on Lincoln Hills for Three Years", this subject was discussed in today's Milwaukee Journal Sentinel on page 1A. According to the article, "the Assembly just passed a new plan to replace the state's long-troubledfacility for teen offenders...", and the bill "makes the $42 million plan to replace the Lincoln Hills School for Boys and Copper Lake School for Girls passed earlier this week by the state Senate subject to approval of the Republican-controlled Joint Committee on Finance". Then on page 10A, the article continues, "In the four years since the initial bill became law (2018), ***Republicans who control the Legislature have not followed up with the funding for the closure plans and Lincoln Hills has continued to operate***".

So how is this Gov. Evers' fault?

Please explain.

Thank you,

Gerald Flakas
Delafield, WI

Republicans state wide and nationally are trying to rig elections in their favor. So how does that give me more confidence in our elections? It doesn't. You have no policies that benefit the middle class, only the rich and corporations so you have to rig elections. The last election was declared the most secure in history but because Trump is a spoiled little two year brat that can't admit he lost Republicans have to kisshis ass because they are afraid of him and have no guts. Well last election I voted early and put it in a drop box. Next time I vote in person on Election Day so Republicans can't pull your BS. And I am not the only one that feels that way. You just pissed off more and more people and made them more determined to vote you out.

---

Representative Voss,
Thank you for all that you'tr doing for our state. However, unless we get back to legal elections, none of these issues will matter - as we will never againn win a state-wide election.

The only way to fix our election process is to identify and prosecute all of the individuals who broke our election laws, during the 2020 election. Reforms will not be effective if people do not see any consequences from breaking our laws. They will continue to break the new laws, just as they've broken the current ones. While the assembly does not have the authority to prosecute people directly, you need to do everything that you can to get these criminals prosecuted. This includes those on the WEC.

Passing more laws reminds me of the democrats passing more gun laws. As you know, gun laws are not enforced, so passing new/additional laws is totally ineffective.

When it comes to identifying the criminals, this includes doing the full forensic audit.

Please step up your efforts to prosecute these people, in order to actually fix our election problems. Election integrity is our most critical issue. Thanks again.
Gary Zwick

AMERICAN OVERSIGHT

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

Election Reform Bills Head to the Governor

Passed yesterday were several common-sense election reform bills, aimed at fixing the flaws we know happened in 2020. Voters want to feel confident in the 2022 elections and beyond, and we were happy to pass these reforms.

Many of these bills address the non-partisan Legislative Audit Bureau's 48 recommendations for consideration by the Legislature and the Wisconsin Elections Commission (WEC) to improve election practices.

Wisconsin elections should be accessible, secure, fair, and transparent. The package of election reform bills advances all of these priorities by:

- cleaning and maintaining accurate voter rolls
- ensuring legislative oversight of WEC and estate agencies involved in elections
- closing voter ID loopholes
- securing ballot chain of custody
- reforming indefinitely confined status

AMERICAN OVERSIGHT

- enacting strong penalties for violating election law
- ensuring efficient and timely ballot access on Election Day
- accountability for those who fail to follow election laws
- conducting frequent and comprehensive audits
- strengthening reporting requirements to improve public transparency
- ensuring timely review of election complaints

Watch the video below for more of my comments.

AMERICAN OVERSIGHT

Governor Evers Sits on Lincoln Hills for Three Years

It's so common for Governor Evers to be inept, it's not surprising he has done nothing with Lincoln Hills over the course of three years.

So it was up to Legislative Republicans to once again lead and take action. We passed a bill last night to take the first steps in finally closing Lincoln Hills.

The governor will no doubt take the credit for his two minutes of fame when he signs the bill that we send to his desk since he's done nothing else.

Watch my floor speech below.

None of this "election reform" is going to matter if the WEC refuses to follow it. Please stop wasting everybody's time with these fake or ineffective efforts and instead just get rid of the lawless members of WEC, including Dean Knudson. Simple.

This is not selling; most voters know that you are refusing to implement this simple solution. Not sure what happened to you, but this is quite disappointing.

Too little, too late. On your watch and with your approval. There were several voting irregularities and illegal things done, with no recourse. Starting with the illegal drop boxes , the illegal ballot harvesting in Madison parks, allowing nursing homes to vote illegally for the patients, and illegal erasure of some of the digital records. This package is meaningless

You are really good at the blame game. I don't think the the 2020 election had big problems considering we were in a pandemic. There are about 1800 communities in the state that have elections and the Wis. legislature is only looking at the large cities. Give the wonderful, city, village and town clerks credit for a job well done.

I think Gov. Evers has done a wonderful job, not perfect, considering the Republicans in the legislature fought him tooth and nail to only consider the opposite of his recommentations.

AMERICAN OVERSIGHT

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

Election Reform Bills Head to the Governor

Passed yesterday were several common-sense election reform bills, aimed at fixing the flaws we know happened in 2020. Voters want to feel confident in the 2022 elections and beyond, and we were happy to pass these reforms.

Many of these bills address the non-partisan Legislative Audit Bureau's 48 recommendations for consideration by the Legislature and the Wisconsin Elections Commission (WEC) to improve election practices.

Wisconsin elections should be accessible, secure, fair, and transparent. The package of election reform bills advances all of these priorities by:

- cleaning and maintaining accurate voter rolls
- ensuring legislative oversight of WEC and estate agencies involved in elections
- closing voter ID loopholes
- securing ballot chain of custody
- reforming indefinitely confined status

AMERICAN OVERSIGHT

- enacting strong penalties for violating election law
- ensuring efficient and timely ballot access on Election Day
- accountability for those who fail to follow election laws
- conducting frequent and comprehensive audits
- strengthening reporting requirements to improve public transparency
- ensuring timely review of election complaints

Watch the video below for more of my comments.

AMERICAN OVERSIGHT

Governor Evers Sits on Lincoln Hills for Three Years

It's so common for Governor Evers to be inept, it's not surprising he has done nothing with Lincoln Hills over the course of three years.

So it was up to Legislative Republicans to once again lead and take action. We passed a bill last night to take the first steps in finally closing Lincoln Hills.

The governor will no doubt take the credit for his two minutes of fame when he signs the bill that we send to his desk since he's done nothing else.

Watch my floor speech below.

The Senate has passed the closing of Lincoln Hilla--where are you? Also it appears none of the election bills have anything to do with helping citizens to vote or having fair, representative elections.

What's the point of all these reform bills if Evers is going to veto anyway? Showtime? And the crimes and fraud of the 2020 election go unanswered, unpunished, unresolved. That's not right and only enables more of the same going forward. I have zero confidence in WI Republicans, save Timothy Ramthun. but, sadly, he just gets in the way of the state apparatus with his search for the truth.

Speaker Vos:
Nothing the Republican legislators of Wisconsin have done speaks to election reform, if one understands "reform" to mean making the electoral process simpler, more convenient, and more inclusive. Nothing.
Instead, you have led those same legislators in a years-long feckless effort to overturn results of the 2020 election, spending hundreds of thousands of taxpayers' money in the effort. And, in that effort, you have made Wisconsin a laughing stock in the eyes of the nation and, I suspect, the world.
As for Lincoln Hills, Republican policies (such as supporting and funding the school to prison pipeline) helped to create the horrible conditions at Lincoln Hills.
Your record does not reflect that of public service to the people of this state, and it is painful to read the fantasies you spin as press releases when so many people are suffering.

Dear Speaker Voss, I don't see anything about mail in ballots. That is how they cheated and won last time. If people can go out and riot, loot, and burn down cities, they can go out and vote! This is our last chance. If the fraud isn't cleaned up on this years election, don't expect people to vote again, and don't expect them to comply with the cheating dictators that cheat their way in to power.
Sincerely,
Joan and Randy Baptist

It's so common for Speaker Robin Vos to be inept, it's not surprising (does this sound familiar) he hired the buffoon Gableman to lead an investigation of the 2020 election. He's a clown that openly admits he doesn't understand elections and yet he is Vos' guy to the tune of close to $700,000 of tax payer dollars to lead the investigation. How inept is it, especially since the election commission was put in place by the Republicans in Wisconsin. Now they want to cry the blues and foul when their guy lost a legitimate fair election. Your more recent proposed laws are to suppress the vote of Wisconsin voters. Stop the insanity of greed for power!

Subject: Re: URGENT!!! Please sign on as cosponsors for 2021 Assembly Joint Resolution 120 to Reclaim and Set aside Wisconsin Electors

---

Dear Rep. Robin Vos and fellow members of the Wisconsin Assemblyof Representatives.

With all of the violations of 16 Wisconsin laws as outlined in AJR 120 please sign on as cosponsors and quickly move to decertify Wisconsin's electors and set them aside. We look forward to the judge's report on Tuesday.

I realize many of you may have no fear of God or moral values but a rabbi once said, "Those who remain silent about a crime 'becomeaccomplices.'"

Don't be silent aboutthe crimes committed in your state with election fraud. Step up and sign on as cosponsors to AJR 120 and devertify your lectors!

Thanks for your considerationof this request.

Sincerely yours,

John F. Newman
517 Villa Rd.
Newberg, OR 97132

Dear Members of the Wisconsin Assembly Rules Committee,

This is to urge you to please hold a hearing on 2021 Assembly Joint Resolution 120 so that Wisonsincan correct the Wisconsin laws which were broken in the 2020 election and reclaim your state electoral votes as outlined in this resolution.

Failure to act on this resolution points to you not honoring the vets from Wisconsin and America who died and were injured for us to have free and fair elections. The citizens of Wisconsin and America are watching and waiting for you to have the courage to act and move this resolution out to the Assembly floor for debate, a vote and action.

What you do in Wisconsin impacts all of us in America!

As part of the 3,000,000 viewers offrankseech.comI thank you for your kind consideration of this request and your timely action. I suspect PresidentTrump will likely mention this action in his rally tomorrow from Texas.

Sincerely yours,

A concerned citizen from Oregon,

Text from 2021 Assembly Joint Resolution 120:

LRB-5792/1
MPG:amn&wlj
2021 - 2022 LEGISLATURE
2021 ASSEMBLY JOINT RESOLUTION 120
January 25, 2022 - Introduced by RepresentativeRamthun. Referred to Committee on Rules.

AMERICAN OVERSIGHT

Relating to: Wisconsin election reform and reclaiming the electoral ballots for President and Vice President that were certified under fraudulent intent and purpose.

Whereas, the Center for Tech and Civic Life (CTCL) enabled the illegal use of over 500 voter drop boxes in Wisconsin, infringing Wis. Stat. § 6.87 (6), in all 72 counties under Elections Commission guidance issued on August 19, 2020, and the use of drop boxes was organized by the Cybersecurity and Infrastructure Security Agency (CISA), which worked in conjunction with other national organizations like the CTCL, Center for Election Innovation and Research (CEIR), and National Conference of State Legislatures (NCSL), which, on October 2, 2020, promoted CISA's campaign of illegal drop boxes; and

Whereas, the Wisconsin Supreme Court stated in *Trump v. Biden*, 2020 WI 91, "On March 25, 2020, the Dane and Milwaukee County Clerks issued guidance on Facebook suggesting all voters could declare themselves indefinitely confined because of the pandemic and the governor's then-existing Safer-at-Home Order.

This court unanimously deemed that advice incorrect on March 31, 2020, and we noted that the WEC guidance . . . provides the clarification on the purpose and proper use of the indefinitely confined status that is required at this time," which verifies that the Elections Commission gave improper guidance in the 2020 election, and in her dissent in *Trump v. Biden*, Wisconsin Supreme Court Justice Rebecca Grassl Bradley revealed that the Elections Commission infringed Wis. Stat. §§ 5.05 (1), 6.84 (1) and (2), 6.86, 6.87 (3), (4), (5), (6), (7), and (9), and 227.112 (3); and

Whereas, on December 7, 2020, Elections Commissioner Dean Knudson filed a complaint against Meagan Wolfe under Wis. Stat. § 7.70 (5) for the rushed ascertainment of certification of the 2020 election before time for filing an appeal of the recount had passed, and revealed the planned haste to circumvent any further discussion or objection; and

Whereas, the Assembly Committee on Campaigns and Elections has collected nearly 3,000 documents and e-mails with connection to election manipulations by the CTCL in five of Wisconsin's largest cities, and there are five lawsuits in those cities against the Elections Commission; and

Whereas, data experts have studied the historical voter trends based on population growth for both the entirety of the State of Wisconsin and its counties individually, and those studies reveal the normal inverse relationship of data was not present in the 2020 election results, which is a statistical impossibility; and

Whereas, the WisVote database reflects 7.1 million registered voters in a state with a population of 5.8 million and a voting age population of 4.5 million, and the WisVote database is riddled with incomplete and misrepresented data, including

AMERICAN OVERSIGHT

thousands of voters with the same phone numbers, addresses, and faulty zip codes, all of which reflects gross negligence in maintaining the database; and

---

Whereas, grassroots canvassing efforts reveal 200 addresses in 31 counties in Wisconsin that have 200 to 400 registered voters at a single address, and a sampling of 1,000 actual 2020 absentee ballot envelopes from Milwaukee County found 23 percent had questionable addresses; and

Whereas, the Elections Commission voted to do upgrades on Dominion voting machines on June 2, 2021, and, following a press release on August 11, 2021, voicing concerns about the deletion of log file data from those upgrades, the commission voted to allow upgrades to new ES&S voting machines on September 9, 2021, with no reassurances of protecting the data of the 2020 election on older machines, even though it was revealed the upgrades do erase log file data kept on the machine hard drives; and

Whereas, the audit report of the nonpartisan Legislative Audit Bureau identified 44,272 voters who did not provide proper voter identification in the 2020 general election, revealed the mass increase of indefinitely confined voters from 4,505 in 2019 to 169,901 in 2020, revealed that 28.7 percent of all municipal clerks across all 72 counties used illegal drop boxes, and made 30 recommendations for the Elections Commission to rectify their actions; and

Whereas, a total of 50 of the 69 county GOP parties released letters of support or resolutions asking for further investigation into the elections process, showing that over two-thirds of Wisconsin Republicans have no faith in the Elections Commission; and

Whereas, commissioners and staff of the Elections Commission prevented the deployment of special voting deputies to care facilities, as confirmed by the Racine County Sheriff's Department, which found that on March 12, 2020, the Elections Commission knowingly and willfully directed all 72 county clerks to violate Wis.

Stat. §§ 6.84 and 6.875 regarding absentee voting in certain residential care facilities and retirement homes, and the commission's unlawful direction clearly broke Wis. Stat. § 12.13 (2) (b) 7., which refers to intentionally violating election laws; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Jeff O'Donnell, who found a multitude of irregularities when he analyzed data from the Wisconsin voter rolls, including that 93.7 percent of active voters participated in the 2020 general election, 205,355 voter registration applications were dated November 3, 2020,

AMERICAN OVERSIGHT

957,977 individuals registered as new voters in 2020, 45,665 voters who registered did not have matching Division of Motor Vehicle records, 22 percent of active voters registered in the 6 months leading up to November, 3, 2020, 31,872 of those voters who registered in that 6-month period are now listed as inactive, and 42,000 voters who voted in the November 3, 2020, election are now listed as inactive; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Dr. Douglas Frank, who revealed that patterns in the Wisconsin voter rolls showed that the voter rolls were inflated to the maximum possible number of voters according to census population data for every presidential election in Wisconsin since 2008 and that the voter rolls were purged shortly after each such election, and that these patterns were consistent across all 72 counties in Wisconsin, revealing that these activities were centrally controlled; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from Attorney Erick Kaardal, who identified that the money provided by the CTCL and Mark Zuckerberg to local governments in Wisconsin relating to the 2020 general election violated Wis. Stat.

---

§ 12.11, which prohibits election bribery and states that "`anything of value' includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1," and that amount was greatly exceeded; and

Whereas, at the Growing Threats to Election Officials in Wisconsin Press Conference held on December 13, 2021, it was revealed that the CEIR is a biased organization that also received funding from Mark Zuckerberg, along with the CTCL, and that the CEIR is seeking to provide pro bono defense attorneys to election officials who used the CTCL money in the 2020 general election; and

Whereas, on January 13, 2022, Waukesha County Circuit Court Judge Michael Bohren issued an oral ruling in court holding that the Elections Commission's guidance on absentee ballot drop boxes should have been promulgated as a rule under Wis. Stat. ch. 227; that state law provides just two legal methods for a voter to return an absentee ballot: through the mail or in-person at the municipal clerk's office or an alternate site designated according to law; and that ballot harvesting and returning absentee ballots to drop boxes are not legal methods to cast absentee ballots in Wisconsin; and

Whereas, the U.S. Supreme Court has found that fraud vitiates and nullifies any contract:*Boyce's Executors v. Grundy*(1830) 28 U.S. 210; "Fraud vitiates the most solemn contracts, documents and even judgments."*United States v. Throckmorton*(1878) 98 U.S. 61, 64; and

AMERICAN OVERSIGHT

Whereas, the November 2020 Wisconsin general election, as regulated and directed by the Elections Commission, was one of the most haphazard, controversial, and poorly managed elections in state history, shaking citizens' confidence in fair elections across Wisconsin, and with the culmination of these evidences, prove the

---

results of the commission's certification of the 2020 election are considered fraudulent; now, therefore, be it

Resolved by theassembly, thesenateconcurring, That the accumulated evidence proves the actions taken by the Elections Commission to certify the 2020 presidential election shall be considered contrary to law and fraudulent under Wis. Stat. §§ 6.84, 6.87 (6), 6.875, 12.11, and 12.13 (2) (b) 7.; and, be it further

Resolved, That the Wisconsin Legislature, pursuant to its authority under Article II, Section 1, Clause 2 of the U.S. Constitution and 3 U.S.C. § 2, and consistent with guidance provided by the Constitutional Counsel Group in a memorandum dated December 30, 2021, acknowledges that illegality took place in conducting the 2020 general election and reclaims Wisconsin's 10 fraudulent electoral ballots cast for Joseph R. Biden and Kamala Harris; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation with the intention to clean up the WisVote database and create separate servers for active and inactive voters; and, be it further

Resolved, That the Wisconsin Legislature supports a full forensic physical and cyber audit of the 2020 general election, that this full forensic physical and cyber audit should be conducted by an independent and nonpartisan auditing firm with a scope statement approved by the Assembly Committee on Campaigns and Elections, and that this full forensic physical and cyber audit must include the following components:

1. Total examination of voting system machines, including browsers, tabulators, scanners, routers and firewalls, switches, network and out-of-band management cards, internet or network connectivity, network and remote access, remote access applications, software installed or removed on the system, flash

---

drives, thumb drives, event logs, scripts that have been run, the date on which data were last modified and what data were modified, whether during or after the election, systems and security updates, password policies, multifactor authentication, databases, adjudication records, administrator accounts, and log-in records.

AMERICAN OVERSIGHT

2. Kinematic artifact detection of all physical paper ballots, including whether ballots meet industry maximum allowable compliance for out-of-calibration measurements, ballot thickness to prevent bleed through, types of markers used, printed ballots, quantity of ballots, ballot trail, voter roll in comparison to ballots, mail-in ballot standards, and ballot watermarks and dot coding.

3. Physical canvas, including whether county clerks and election employees and volunteers followed election rules and regulations mandated by their county.

4. Transparency; and, be it further

Resolved, That in order to ensure transparency, all such audits shall be streamed live for public viewing and recorded via security video to be run 24 hours a day, 7 days a week, until all such audits are complete; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation specifically intended to secure the integrity of future elections in Wisconsin based on the findings of the Legislative Audit Bureau investigation, the Assembly Committee on Campaigns and Elections investigation, and the full forensic physical and cyber audit; and, be it further

Resolved, That the secretary of state of the State of Wisconsin is hereby directed to forward a proper authenticated copy of this resolution to the President of the Senate of the United States.

Subject: Re: URGENT!!!! Please hold a hearing on 2021 Assembly Joint Resolution 120 NOW!!!! Thank you!

Dear Rep. Steineke and members of the Wisconsin Committee on rule,

Please step up and vote 2021 AJR out of your committee. This just came across to the million supporters of President Trump.
"

Donald J. Trump February 11th, 2022

Even more Voter Fraud was just discovered in Wisconsin. It shows the Election was Rigged and Stolen. A hearing this week revealed at least 50,000 illegal phantom votes were cast in the 2020 Presidential Election, which is more than twice the "victory" margin. Incredible problems were also uncovered within Wisconsin's voter rolls, including an apartment building with 102 percent turnout rate (not possible), 113 ballots cast from an address where no one lives, 3,713 "voters" registered to U.S. Post Offices, and 625,000 dead people on Wisconsin's voter rolls. In addition, 46,000 votes were cast on Nov. 3rd based on voter information that was never verified by the state. This is on top of massive ballot harvesting, rigged "indefinitely confined" votes, the Wisconsin Election Commission instructing election officials to break the law, Zuckerberg drop boxes, etc. So who in Wisconsin is leading the charge to decertify this fraudulent Election? It's time for RINOs to step forward and save our Country! "
PLEASE don't sit on this bill another day!!!!!!
Thanks for your kind consideration of this request!
Sincerely yours,
John Newman

AMERICAN OVERSIGHT

This is a follow up to my earlier letter to ask you to kindly please move 2021 Assembly Joint Resolution 120 to and hearing whereit can be voted out to the Floor for debate and a vote.

I realize some of you may want to just stonewall and hope this matter goes away. Americans are looking to Wisconsin to see if its leaders there still abide by the rule of law or if they wantto change their laws to fit their own personal perspectives.

I realize that you are very busy. I would like to encourage you as a service to Wisconsin voters and concerned Americans to please do the courtesy of reding the whole resolution with its irrefutable evidence and then looking deep into your moral selves and doing what you see is right.

Thanks for your kind considerationof this request!

Sincerely yours,

John F. Newman

Text from 2021 Assembly Joint Resolution 120:

LRB-5792/1
MPG:amn&wlj
2021 - 2022 LEGISLATURE
2021 ASSEMBLY JOINT RESOLUTION 120
January 25, 2022 - Introduced by RepresentativeRamthun. Referred to Committee on Rules.

Relating to: Wisconsin election reform and reclaiming the electoral ballots for President and Vice President that were certified under fraudulent intent and purpose.

Whereas, the Center for Tech and Civic Life (CTCL) enabled the illegal use of over 500 voter drop boxes in Wisconsin, infringing Wis. Stat. § 6.87 (6), in all 72 counties under Elections Commission guidance issued on August 19, 2020, and the use of drop boxes was organized by the Cybersecurity and Infrastructure Security Agency (CISA), which worked in conjunction with other national organizations like the CTCL, Center for Election Innovation and Research (CEIR), and National Conference of State Legislatures (NCSL), which, on October 2, 2020, promoted CISA's campaign of illegal drop boxes; and

Whereas, the Wisconsin Supreme Court stated in*Trump v. Biden*, 2020 WI 91, "On March 25, 2020, the Dane and Milwaukee County Clerks issued guidance on Facebook suggesting all voters could declare themselves indefinitely confined because of the pandemic and the governor's then-existing Safer-at-Home Order.

This court unanimously deemed that advice incorrect on March 31, 2020, and we noted that the WEC guidance . . . provides the clarification on the purpose and proper use of the indefinitely confined status that is required at this time," which verifies that the Elections Commission gave improper guidance in the 2020 election, and in her dissent in*Trump v. Biden*, Wisconsin Supreme Court Justice Rebecca Grassl Bradley revealed that the Elections Commission infringed Wis. Stat. §§ 5.05 (1), 6.84 (1) and (2), 6.86, 6.87 (3), (4), (5), (6), (7), and (9), and 227.112 (3); and

Whereas, on December 7, 2020, Elections Commissioner Dean Knudson filed a complaint against Meagan Wolfe under Wis. Stat. § 7.70 (5) for the rushed ascertainment of certification of the 2020 election before time for filing an appeal of the recount had passed, and revealed the planned haste to circumvent any further discussion or objection; and

AMERICAN OVERSIGHT

Whereas, the Assembly Committee on Campaigns and Elections has collected nearly 3,000 documents and e-mails with connection to election manipulations by the CTCL in five of Wisconsin's largest cities, and there are five lawsuits in those cities against the Elections Commission; and

Whereas, data experts have studied the historical voter trends based on population growth for both the entirety of the State of Wisconsin and its counties individually, and those studies reveal the normal inverse relationship of data was not present in the 2020 election results, which is a statistical impossibility; and

Whereas, the WisVote database reflects 7.1 million registered voters in a state with a population of 5.8 million and a voting age population of 4.5 million, and the WisVote database is riddled with incomplete and misrepresented data, including thousands of voters with the same phone numbers, addresses, and faulty zip codes, all of which reflects gross negligence in maintaining the database; and

---

Whereas, grassroots canvassing efforts reveal 200 addresses in 31 counties in Wisconsin that have 200 to 400 registered voters at a single address, and a sampling of 1,000 actual 2020 absentee ballot envelopes from Milwaukee County found 23 percent had questionable addresses; and

Whereas, the Elections Commission voted to do upgrades on Dominion voting machines on June 2, 2021, and, following a press release on August 11, 2021, voicing concerns about the deletion of log file data from those upgrades, the commission voted to allow upgrades to new ES&S voting machines on September 9, 2021, with no reassurances of protecting the data of the 2020 election on older machines, even though it was revealed the upgrades do erase log file data kept on the machine hard drives; and

Whereas, the audit report of the nonpartisan Legislative Audit Bureau identified 44,272 voters who did not provide proper voter identification in the 2020 general election, revealed the mass increase of indefinitely confined voters from 54,505 in 2019 to 169,901 in 2020, revealed that 28.7 percent of all municipal clerks across all 72 counties used illegal drop boxes, and made 30 recommendations for the Elections Commission to rectify their actions; and

Whereas, a total of 50 of the 69 county GOP parties released letters of support or resolutions asking for further investigation into the elections process, showing that over two-thirds of Wisconsin Republicans have no faith in the Elections Commission; and

Whereas, commissioners and staff of the Elections Commission prevented the deployment of special voting deputies to care facilities, as confirmed by the Racine

AMERICAN OVERSIGHT

County Sheriff's Department, which found that on March 12, 2020, the Elections Commission knowingly and willfully directed all 72 county clerks to violate Wis.

Stat. §§ 6.84 and 6.875 regarding absentee voting in certain residential care facilities and retirement homes, and the commission's unlawful direction clearly broke Wis. Stat. § 12.13 (2) (b) 7., which refers to intentionally violating election laws; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Jeff O'Donnell, who found a multitude of irregularities when he analyzed data from the Wisconsin voter rolls, including that 93.7 percent of active voters participated in the 2020 general election, 205,355 voter registration applications were dated November 3, 2020, 957,977 individuals registered as new voters in 2020, 45,665 voters who registered did not have matching Division of Motor Vehicle records, 22 percent of active voters registered in the 6 months leading up to November, 3, 2020, 31,872 of those voters who registered in that 6-month period are now listed as inactive, and 42,000 voters who voted in the November 3, 2020, election are now listed as inactive; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Dr. Douglas Frank, who revealed that patterns in the Wisconsin voter rolls showed that the voter rolls were inflated to the maximum possible number of voters according to census population data for every presidential election in Wisconsin since 2008 and that the voter rolls were purged shortly after each such election, and that these patterns were consistent across all 72 counties in Wisconsin, revealing that these activities were centrally controlled; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from Attorney Erick Kaardal, who identified that the money provided by the CTCL and Mark Zuckerberg to local governments in Wisconsin relating to the 2020 general election violated Wis. Stat.

---

§ 12.11, which prohibits election bribery and states that "`anything of value' includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1," and that amount was greatly exceeded; and

Whereas, at the Growing Threats to Election Officials in Wisconsin Press Conference held on December 13, 2021, it was revealed that the CEIR is a biased organization that also received funding from Mark Zuckerberg, along with the CTCL, and that the CEIR is seeking to provide pro bono defense attorneys to election officials who used the CTCL money in the 2020 general election; and

AMERICAN OVERSIGHT

Whereas, on January 13, 2022, Waukesha County Circuit Court Judge Michael Bohren issued an oral ruling in court holding that the Elections Commission's guidance on absentee ballot drop boxes should have been promulgated as a rule under Wis. Stat. ch. 227; that state law provides just two legal methods for a voter to return an absentee ballot: through the mail or in-person at the municipal clerk's office or an alternate site designated according to law; and that ballot harvesting and returning absentee ballots to drop boxes are not legal methods to cast absentee ballots in Wisconsin; and

Whereas, the U.S. Supreme Court has found that fraud vitiates and nullifies any contract: *Boyce's Executors v. Grundy* (1830) 28 U.S. 210; "Fraud vitiates the most solemn contracts, documents and even judgments." *United States v. Throckmorton* (1878) 98 U.S. 61, 64; and

Whereas, the November 2020 Wisconsin general election, as regulated and directed by the Elections Commission, was one of the most haphazard, controversial, and poorly managed elections in state history, shaking citizens' confidence in fair elections across Wisconsin, and with the culmination of these evidences, prove the

---

results of the commission's certification of the 2020 election are considered fraudulent; now, therefore, be it

Resolved by theassembly, thesenateconcurring, That the accumulated evidence proves the actions taken by the Elections Commission to certify the 2020 presidential election shall be considered contrary to law and fraudulent under Wis. Stat. §§ 6.84, 6.87 (6), 6.875, 12.11, and 12.13 (2) (b) 7.; and, be it further

Resolved, That the Wisconsin Legislature, pursuant to its authority under Article II, Section 1, Clause 2 of the U.S. Constitution and 3 U.S.C. § 2, and consistent with guidance provided by the Constitutional Counsel Group in a memorandum dated December 30, 2021, acknowledges that illegality took place in conducting the 2020 general election and reclaims Wisconsin's 10 fraudulent electoral ballots cast for Joseph R. Biden and Kamala Harris; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation with the intention to clean up the WisVote database and create separate servers for active and inactive voters; and, be it further

Resolved, That the Wisconsin Legislature supports a full forensic physical and cyber audit of the 2020 general election, that this full forensic physical and cyber audit should be conducted by an independent and nonpartisan auditing firm with a scope statement approved by the Assembly Committee on Campaigns and Elections, and that this full forensic physical and cyber audit must include the following components:

AMERICAN OVERSIGHT

21. Total examination of voting system machines, including browsers, tabulators, scanners, routers and firewalls, switches, network and out-of-band management cards, internet or network connectivity, network and remote access, remote access applications, software installed or removed on the system, flash

---

drives, thumb drives, event logs, scripts that have been run, the date on which data were last modified and what data were modified, whether during or after the election, systems and security updates, password policies, multifactor authentication, databases, adjudication records, administrator accounts, and log-in records.

2. Kinematic artifact detection of all physical paper ballots, including whether ballots meet industry maximum allowable compliance for out-of-calibration measurements, ballot thickness to prevent bleed through, types of markers used, printed ballots, quantity of ballots, ballot trail, voter roll in comparison to ballots, mail-in ballot standards, and ballot watermarks and dot coding.

3. Physical canvas, including whether county clerks and election employees and volunteers followed election rules and regulations mandated by their county.

4. Transparency; and, be it further

Resolved, That in order to ensure transparency, all such audits shall be streamed live for public viewing and recorded via security video to be run 24 hours a day, 7 days a week, until all such audits are complete; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation specifically intended to secure the integrity of future elections in Wisconsin based on the findings of the Legislative Audit Bureau investigation, the Assembly Committee on Campaigns and Elections investigation, and the full forensic physical and cyber audit; and, be it further

Resolved, That the secretary of state of the State of Wisconsin is hereby directed to forward a proper authenticated copy of this resolution to the President of the Senate of the United States.

AMERICAN OVERSIGHT

NOTE!!! When you have examined this material please explain to your district and the American people what your choice is in sponsoring this resolution.

If you choose to supportit, Thank you!!!

If you choose NOT to support it, please explain why would you do this to Wisconsin and to our country. Why would you by this action say to vets from Wisconsin and America your sacrifice and deaths mean nothing to me because you died for free and fair elections and I now choose to ignore the irrefutable facts listed here.

Thanks for your kind consideration and making the time to check out this information.

Sincerelyyours,

John F. Newman

Subject: Re: URGENT!!!! Please hold a hearing on 2021 Assembly Joint Resolution 120 NOW!!!! Thank you!

Dear Rep. Steineke and members of the Assembly Committee on Rules,

This is a follow up to my earlier letter to ask you to kindly please move 2021 Assembly Joint Resolution 120 to and hearing whereit can be voted out to the Floor for debate and a vote.

I realize some of you may want to just stonewall and hope this matter goes away. Americans are looking to Wisconsin to see if its leaders there still abide by the rule of law or if they wantto change their laws to fit their own personal perspectives.

I realize that you are very busy. I would like to encourage you as a service to Wisconsin voters and concerned Americans to please do the courtesy of reding the whole resolution with its irrefutable evidence and then looking deep into your moral selves and doing what you see is right.

Thanks for your kind considerationof this request!

Sincerely yours,

John F. Newman

AMERICAN OVERSIGHT

What I can't understand is why you as a committee are refusing to move forward with a hearing on 2021 Assembly Joint Resolution 120 to Reclaim your electors due to the irrefutable evidence presented in this resolution/ Why would you on one hand support the rule of law and our law enforcementpersonneland on the other hand refuse to correct the 16 laws of the state of Wisconsin which were broken in the 2020 election.

I realize Rep. Steineke is stepping down and not runningfor reelection. Please don't let this fact stop you as a committee from moving forward and correcting the voter fraud which was rampant in your state in the 2021 election.

Please MAKE the time to read and look over the evidence in Rep. Ramthun'spresentation / resolution below and move this bill out of committee onto the Assembly floor for a vote while you are still in office.

You have shown as a committee that you can move legislation forward quickly when you so choose by your record on unanimous consentmotions which you have passed out of committee over the past few weeks. Now is the time for you to ACT on AJR 120 Reclaim the Electors bill.

Will you as a committee be remembered as a committeewhich stood up for the rule of law and order in Wisconsin or as the committee which sided with the law breakers in allowing this voter fraud to stand? The choice is yours! Don't be collective cowards. Be strong and do the right thing for Wisconsin, yourselves and for all Americans!

Thank you for your kind consideration of this request!

Text from 2021 Assembly Joint Resolution 120:

LRB-5792/1
MPG:amn&wlj
2021 - 2022 LEGISLATURE
2021 ASSEMBLY JOINT RESOLUTION 120
January 25, 2022 - Introduced by RepresentativeRamthun. Referred to Committee on Rules.

Relating to: Wisconsin election reform and reclaiming the electoral ballots for President and Vice President that were certified under fraudulent intent and purpose.

Whereas, the Center for Tech and Civic Life (CTCL) enabled the illegal use of over 500 voter drop boxes in Wisconsin, infringing Wis. Stat. § 6.87 (6), in all 72 counties under Elections Commission guidance issued on August 19, 2020, and the use of drop boxes was organized by the Cybersecurity and Infrastructure Security Agency (CISA), which worked in conjunction with other national organizations like the CTCL, Center for Election Innovation and Research (CEIR), and National Conference of State Legislatures (NCSL), which, on October 2, 2020, promoted CISA's campaign of illegal drop boxes; and

Whereas, the Wisconsin Supreme Court stated in*Trump v. Biden*, 2020 WI 91, "On March 25, 2020, the Dane and Milwaukee County Clerks issued guidance on Facebook suggesting all voters could declare themselves indefinitely confined because of the pandemic and the governor's then-existing Safer-at-Home Order.

This court unanimously deemed that advice incorrect on March 31, 2020, and we noted that the WEC guidance . . . provides the clarification on the purpose and proper use of the indefinitely confined status that is required at this time," which verifies that the Elections Commission gave improper guidance in the 2020 election, and in her dissent in *Trump v. Biden*, Wisconsin Supreme Court Justice Rebecca Grassl Bradley revealed that the Elections Commission infringed Wis. Stat. §§ 5.05 (1), 6.84 (1) and (2), 6.86, 6.87 (3), (4), (5), (6), (7), and (9), and 227.112 (3); and

Whereas, on December 7, 2020, Elections Commissioner Dean Knudson filed a complaint against Meagan Wolfe under Wis. Stat. § 7.70 (5) for the rushed ascertainment of certification of the 2020 election before time for filing an appeal of the recount had passed, and revealed the planned haste to circumvent any further discussion or objection; and

Whereas, the Assembly Committee on Campaigns and Elections has collected nearly 3,000 documents and e-mails with connection to election manipulations by the CTCL in five of Wisconsin's largest cities, and there are five lawsuits in those cities against the Elections Commission; and

Whereas, data experts have studied the historical voter trends based on population growth for both the entirety of the State of Wisconsin and its counties individually, and those studies reveal the normal inverse relationship of data was not present in the 2020 election results, which is a statistical impossibility; and

Whereas, the WisVote database reflects 7.1 million registered voters in a state with a population of 5.8 million and a voting age population of 4.5 million, and the WisVote database is riddled with incomplete and misrepresented data, including thousands of voters with the same phone numbers, addresses, and faulty zip codes, all of which reflects gross negligence in maintaining the database; and

---

Whereas, grassroots canvassing efforts reveal 200 addresses in 31 counties in Wisconsin that have 200 to 400 registered voters at a single address, and a sampling of 1,000 actual 2020 absentee ballot envelopes from Milwaukee County found 23 percent had questionable addresses; and

Whereas, the Elections Commission voted to do upgrades on Dominion voting machines on June 2, 2021, and, following a press release on August 11, 2021, voicing concerns about the deletion of log file data from those upgrades, the commission voted to allow upgrades to new ES&S voting machines on September 9, 2021, with no reassurances of protecting the data of the 2020 election on older machines, even though it was revealed the upgrades do erase log file data kept on the machine hard drives; and

AMERICAN OVERSIGHT

Whereas, the audit report of the nonpartisan Legislative Audit Bureau identified 44,272 voters who did not provide proper voter identification in the 2020 general election, revealed the mass increase of indefinitely confined voters from 4,505 in 2019 to 169,901 in 2020, revealed that 28.7 percent of all municipal clerks across all 72 counties used illegal drop boxes, and made 30 recommendations for the Elections Commission to rectify their actions; and

Whereas, a total of 50 of the 69 county GOP parties released letters of support or resolutions asking for further investigation into the elections process, showing that over two-thirds of Wisconsin Republicans have no faith in the Elections Commission; and

Whereas, commissioners and staff of the Elections Commission prevented the deployment of special voting deputies to care facilities, as confirmed by the Racine County Sheriff's Department, which found that on March 12, 2020, the Elections Commission knowingly and willfully directed all 72 county clerks to violate Wis.

Stat. §§ 6.84 and 6.875 regarding absentee voting in certain residential care facilities and retirement homes, and the commission's unlawful direction clearly broke Wis. Stat. § 12.13 (2) (b) 7., which refers to intentionally violating election laws; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Jeff O'Donnell, who found a multitude of irregularities when he analyzed data from the Wisconsin voter rolls, including that 93.7 percent of active voters participated in the 2020 general election, 205,355 voter registration applications were dated November 3, 2020, 957,977 individuals registered as new voters in 2020, 45,665 voters who registered did not have matching Division of Motor Vehicle records, 22 percent of active voters registered in the 6 months leading up to November, 3, 2020, 31,872 of those voters who registered in that 6-month period are now listed as inactive, and 42,000 voters who voted in the November 3, 2020, election are now listed as inactive; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Dr. Douglas Frank, who revealed that patterns in the Wisconsin voter rolls showed that the voter rolls were inflated to the maximum possible number of voters according to census population data for every presidential election in Wisconsin since 2008 and that the voter rolls were purged shortly after each such election, and that these patterns were consistent across all 72 counties in Wisconsin, revealing that these activities were centrally controlled; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from Attorney Erick Kaardal, who

AMERICAN OVERSIGHT

identified that the money provided by the CTCL and Mark Zuckerberg to local governments in Wisconsin relating to the 2020 general election violated Wis. Stat.

---

§ 12.11, which prohibits election bribery and states that "`anything of value' includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1," and that amount was greatly exceeded; and

Whereas, at the Growing Threats to Election Officials in Wisconsin Press Conference held on December 13, 2021, it was revealed that the CEIR is a biased organization that also received funding from Mark Zuckerberg, along with the CTCL, and that the CEIR is seeking to provide pro bono defense attorneys to election officials who used the CTCL money in the 2020 general election; and

Whereas, on January 13, 2022, Waukesha County Circuit Court Judge Michael Bohren issued an oral ruling in court holding that the Elections Commission's guidance on absentee ballot drop boxes should have been promulgated as a rule under Wis. Stat. ch. 227; that state law provides just two legal methods for a voter to return an absentee ballot: through the mail or in-person at the municipal clerk's office or an alternate site designated according to law; and that ballot harvesting and returning absentee ballots to drop boxes are not legal methods to cast absentee ballots in Wisconsin; and

Whereas, the U.S. Supreme Court has found that fraud vitiates and nullifies any contract:*Boyce's Executors v. Grundy*(1830) 28 U.S. 210; "Fraud vitiates the most solemn contracts, documents and even judgments."*United States v. Throckmorton*(1878) 98 U.S. 61, 64; and

Whereas, the November 2020 Wisconsin general election, as regulated and directed by the Elections Commission, was one of the most haphazard, controversial, and poorly managed elections in state history, shaking citizens' confidence in fair elections across Wisconsin, and with the culmination of these evidences, prove the

---

results of the commission's certification of the 2020 election are considered fraudulent; now, therefore, be it

Resolved by theassembly, thesenateconcurring, Thatthe accumulated evidence proves the actions taken by the Elections Commission to certify the 2020 presidential election shall be considered contrary to law and fraudulent under Wis. Stat. §§ 6.84, 6.87 (6), 6.875, 12.11, and 12.13 (2) (b) 7.; and, be it further

AMERICAN OVERSIGHT

Resolved, That the Wisconsin Legislature, pursuant to its authority under Article II, Section 1, Clause 2 of the U.S. Constitution and 3 U.S.C. § 2, and consistent with guidance provided by the Constitutional Counsel Group in a memorandum dated December 30, 2021, acknowledges that illegality took place in conducting the 2020 general election and reclaims Wisconsin's 10 fraudulent electoral ballots cast for Joseph R. Biden and Kamala Harris; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation with the intention to clean up the WisVote database and create separate servers for active and inactive voters; and, be it further

Resolved, That the Wisconsin Legislature supports a full forensic physical and cyber audit of the 2020 general election, that this full forensic physical and cyber audit should be conducted by an independent and nonpartisan auditing firm with a scope statement approved by the Assembly Committee on Campaigns and Elections, and that this full forensic physical and cyber audit must include the following components:

1. Total examination of voting system machines, including browsers, tabulators, scanners, routers and firewalls, switches, network and out-of-band management cards, internet or network connectivity, network and remote access, remote access applications, software installed or removed on the system, flash

---

drives, thumb drives, event logs, scripts that have been run, the date on which data were last modified and what data were modified, whether during or after the election, systems and security updates, password policies, multifactor authentication, databases, adjudication records, administrator accounts, and log-in records.

2. Kinematic artifact detection of all physical paper ballots, including whether ballots meet industry maximum allowable compliance for out-of-calibration measurements, ballot thickness to prevent bleed through, types of markers used, printed ballots, quantity of ballots, ballot trail, voter roll in comparison to ballots, mail-in ballot standards, and ballot watermarks and dot coding.

3. Physical canvas, including whether county clerks and election employees and volunteers followed election rules and regulations mandated by their county.

4. Transparency; and, be it further

Resolved, That in order to ensure transparency, all such audits shall be streamed live for public viewing and recorded via security video to be run 24 hours a day, 7 days a week, until all such audits are complete; and, be it further

AMERICAN OVERSIGHT

Resolved, Thatthe Wisconsin Legislature shall pass legislation specifically intended to secure the integrity of future elections in Wisconsin based on the findings of the Legislative Audit Bureau investigation, the Assembly Committee on Campaigns and Elections investigation, and the full forensic physical and cyber audit; and, be it further

Resolved, Thatthe secretary of state of the State of Wisconsin is hereby directed to forward a proper authenticated copy of this resolution to the President of the Senate of the United States.

(end)

Subject: Re: URGENT!!!! Please hold a hearing on 2021 Assembly Joint Resolution 120 NOW!!!! Thank you!

Dear Members of the Wisconsin Rules Committee,

I would like to urge you to move AJR 120 out of your committee to the floor of the Assembly for debate and a vote to decertifythe 2020 electors and set them aside.

Rep. Vos claimed he wanted to follow the Constitution but in fact he has condemned himself. I believe the Wisconsin Supreme Court has ruled the drop boxes in your state are illegal. That with the other 15 Wisconsin State laws which were broken provides more than enough evidence as provided in AJR 120 to decertify your electors. The Constitution both the US and your own State Constitution were broken in November, 2020 and NOT by the irrefutable facts and evidence provided to you in AJR 120.

You as Wisconsin leaders are being given a second chance to right the wrong which occurred in your State. Don't be collective cowards! Insteadbe collective champions for the rule of law in Wisconsin and cosponsor and move AJR 120 out of your committee and through your Assembly NOW!!!

15 courageous members of your Wisconsin Legislature sent a letter to VP Pencein January, 2021 requesting him to give an additional 10 days before certifying or uncertifying the 10 electors from your State. This was before all the irrefutable evidence was compiled in AJR 120 as presented below.. Perhaps they will now join in cosponsoring AJR 120!! Just a thought!

Thanks for your consideration of this request!

AMERICAN OVERSIGHT

> Even more Voter Fraud was just discovered in Wisconsin. It shows the Election was Rigged and Stolen. A hearing this week revealed at least 50,000 illegal phantom votes were cast in the 2020 Presidential Election, which is more than twice the "victory" margin. Incredible problems were also uncovered within Wisconsin's voter rolls, including an apartment building with 102 percent turnout rate (not possible), 113 ballots cast from an address where no one lives, 3,713 "voters" registered to U.S. Post Offices, and 625,000 dead people on Wisconsin's voter rolls. In addition, 46,000 votes were cast on Nov. 3rd based on voter information that was never verified by the state. This is on top of massive ballot harvesting, rigged "indefinitely confined" votes, the Wisconsin Election Commission instructing election officials to break the law, Zuckerberg drop boxes, etc. So who in Wisconsin is leading the charge to decertify this fraudulent Election? It's time for RINOs to step forward and save our Country! "

Supporting evidence linked below text of bill. Please see that part also. Thank you!

Text from 2021 Assembly Joint Resolution 120:

LRB-5792/1
MPG:amn&wlj
2021 - 2022 LEGISLATURE
2021 ASSEMBLY JOINT RESOLUTION 120
January 25, 2022 - Introduced by RepresentativeRamthun. Referred to Committee on Rules.

Relating to: Wisconsin election reform and reclaiming the electoral ballots for President and Vice President that were certified under fraudulent intent and purpose.

Whereas, the Center for Tech and Civic Life (CTCL) enabled the illegal use of over 500 voter drop boxes in Wisconsin, infringing Wis. Stat. § 6.87 (6), in all 72 counties under Elections Commission guidance issued on August 19, 2020, and the use of drop boxes was organized by the Cybersecurity and Infrastructure Security Agency (CISA), which worked in conjunction with other national organizations like the CTCL, Center for Election Innovation and Research (CEIR), and National Conference of State Legislatures (NCSL), which, on October 2, 2020, promoted CISA's campaign of illegal drop boxes; and

Whereas, the Wisconsin Supreme Court stated in*Trump v. Biden*, 2020 WI 91, "On March 25, 2020, the Dane and Milwaukee County Clerks issued guidance on Facebook suggesting all voters could declare themselves indefinitely confined because of the pandemic and the governor's then-existing Safer-at-Home Order.

This court unanimously deemed that advice incorrect on March 31, 2020, and we noted that the WEC guidance . . . provides the clarification on the purpose and proper use of the indefinitely confined status that is required at this time," which verifies that the Elections Commission gave improper guidance in the 2020 election, and in her dissent in*Trump v. Biden*, Wisconsin Supreme Court Justice Rebecca Grassl Bradley revealed that the Elections Commission infringed Wis. Stat. §§ 5.05 (1), 6.84 (1) and (2), 6.86, 6.87 (3), (4), (5), (6), (7), and (9), and 227.112 (3); and

Whereas, on December 7, 2020, Elections Commissioner Dean Knudson filed a complaint against Meagan Wolfe under Wis. Stat. § 7.70 (5) for the rushed ascertainment of certification of the 2020 election before time for filing an appeal of the recount had passed, and revealed the planned haste to circumvent any further discussion or objection; and

Whereas, the Assembly Committee on Campaigns and Elections has collected nearly 3,000 documents and e-mails with connection to election manipulations by

AMERICAN OVERSIGHT

the CTCL in five of Wisconsin's largest cities, and there are five lawsuits in those cities against the Elections Commission; and

Whereas, data experts have studied the historical voter trends based on population growth for both the entirety of the State of Wisconsin and its counties individually, and those studies reveal the normal inverse relationship of data was not present in the 2020 election results, which is a statistical impossibility; and

Whereas, the WisVote database reflects 7.1 million registered voters in a state with a population of 5.8 million and a voting age population of 4.5 million, and the WisVote database is riddled with incomplete and misrepresented data, including thousands of voters with the same phone numbers, addresses, and faulty zip codes, all of which reflects gross negligence in maintaining the database; and

---

Whereas, grassroots canvassing efforts reveal 200 addresses in 31 counties in Wisconsin that have 200 to 400 registered voters at a single address, and a sampling of 1,000 actual 2020 absentee ballot envelopes from Milwaukee County found 23 percent had questionable addresses; and

Whereas, the Elections Commission voted to do upgrades on Dominion voting machines on June 2, 2021, and, following a press release on August 11, 2021, voicing concerns about the deletion of log file data from those upgrades, the commission voted to allow upgrades to new ES&S voting machines on September 9, 2021, with no reassurances of protecting the data of the 2020 election on older machines, even though it was revealed the upgrades do erase log file data kept on the machine hard drives; and

Whereas, the audit report of the nonpartisan Legislative Audit Bureau identified 44,272 voters who did not provide proper voter identification in the 2020 general election, revealed the mass increase of indefinitely confined voters from 4,505 in 2019 to 169,901 in 2020, revealed that 28.7 percent of all municipal clerks across all 72 counties used illegal drop boxes, and made 30 recommendations for the Elections Commission to rectify their actions; and

Whereas, a total of 50 of the 69 county GOP parties released letters of support or resolutions asking for further investigation into the elections process, showing that over two-thirds of Wisconsin Republicans have no faith in the Elections Commission; and

Whereas, commissioners and staff of the Elections Commission prevented the deployment of special voting deputies to care facilities, as confirmed by the Racine County Sheriff's Department, which found that on March 12, 2020, the Elections Commission knowingly and willfully directed all 72 county clerks to violate Wis.

AMERICAN OVERSIGHT

Stat. §§ 6.84 and 6.875 regarding absentee voting in certain residential care facilities and retirement homes, and the commission's unlawful direction clearly broke Wis. Stat. § 12.13 (2) (b) 7., which refers to intentionally violating election laws; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Jeff O'Donnell, who found a multitude of irregularities when he analyzed data from the Wisconsin voter rolls, including that 93.7 percent of active voters participated in the 2020 general election, 205,355 voter registration applications were dated November 3, 2020, 957,977 individuals registered as new voters in 2020, 45,665 voters who registered did not have matching Division of Motor Vehicle records, 22 percent of active voters registered in the 6 months leading up to November, 3, 2020, 31,872 of those voters who registered in that 6-month period are now listed as inactive, and 42,000 voters who voted in the November 3, 2020, election are now listed as inactive; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Dr. Douglas Frank, who revealed that patterns in the Wisconsin voter rolls showed that the voter rolls were inflated to the maximum possible number of voters according to census population data for every presidential election in Wisconsin since 2008 and that the voter rolls were purged shortly after each such election, and that these patterns were consistent across all 72 counties in Wisconsin, revealing that these activities were centrally controlled; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from Attorney Erick Kaardal, who identified that the money provided by the CTCL and Mark Zuckerberg to local governments in Wisconsin relating to the 2020 general election violated Wis. Stat.

---

§ 12.11, which prohibits election bribery and states that "`anything of value' includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1," and that amount was greatly exceeded; and

Whereas, at the Growing Threats to Election Officials in Wisconsin Press Conference held on December 13, 2021, it was revealed that the CEIR is a biased organization that also received funding from Mark Zuckerberg, along with the CTCL, and that the CEIR is seeking to provide pro bono defense attorneys to election officials who used the CTCL money in the 2020 general election; and

Whereas, on January 13, 2022, Waukesha County Circuit Court Judge Michael Bohren issued an oral ruling in court holding that the Elections Commission's

AMERICAN OVERSIGHT

guidance on absentee ballot drop boxes should have been promulgated as a rule under Wis. Stat. ch. 227; that state law provides just two legal methods for a voter to return an absentee ballot: through the mail or in-person at the municipal clerk's office or an alternate site designated according to law; and that ballot harvesting and returning absentee ballots to drop boxes are not legal methods to cast absentee ballots in Wisconsin; and

Whereas, the U.S. Supreme Court has found that fraud vitiates and nullifies any contract: *Boyce's Executors v. Grundy* (1830) 28 U.S. 210; "Fraud vitiates the most solemn contracts, documents and even judgments." *United States v. Throckmorton* (1878) 98 U.S. 61, 64; and

Whereas, the November 2020 Wisconsin general election, as regulated and directed by the Elections Commission, was one of the most haphazard, controversial, and poorly managed elections in state history, shaking citizens' confidence in fair elections across Wisconsin, and with the culmination of these evidences, prove the

---

results of the commission's certification of the 2020 election are considered fraudulent; now, therefore, be it

Resolved by theassembly, thesenateconcurring, That the accumulated evidence proves the actions taken by the Elections Commission to certify the 2020 presidential election shall be considered contrary to law and fraudulent under Wis. Stat. §§ 6.84, 6.87 (6), 6.875, 12.11, and 12.13 (2) (b) 7.; and, be it further

Resolved, That the Wisconsin Legislature, pursuant to its authority under Article II, Section 1, Clause 2 of the U.S. Constitution and 3 U.S.C. § 2, and consistent with guidance provided by the Constitutional Counsel Group in a memorandum dated December 30, 2021, acknowledges that illegality took place in conducting the 2020 general election and reclaims Wisconsin's 10 fraudulent electoral ballots cast for Joseph R. Biden and Kamala Harris; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation with the intention to clean up the WisVote database and create separate servers for active and inactive voters; and, be it further

Resolved, That the Wisconsin Legislature supports a full forensic physical and cyber audit of the 2020 general election, that this full forensic physical and cyber audit should be conducted by an independent and nonpartisan auditing firm with a scope statement approved by the Assembly Committee on Campaigns and Elections, and that this full forensic physical and cyber audit must include the following components:

AMERICAN OVERSIGHT

Subject: Recall our Electors to Decertify the 2020 Presidential Election..

Hello Assembly Rules committee member,
Clear evidence of voting fraud and manipulation has been exposed in the 2020 Nov. 3rd election , I demand you support an action to issue a subpoena for a full forensic audit ala AZ in our great State of Wisconsin and proceed to Recall our Electors to Decertify the 2020 Presidential Election..
The things that have been brought to light regarding that election are sickening.
Here are some things that I would like to know.

1. Who printed our ballots? I have seen evidence in other states of ballots for Republican candidates that were printed in such a way that would create errors so those ballots would have to be adjudicated by another

AMERICAN OVERSIGHT

person, thus allowing for an opportunity for someone to change that vote. WE DEMAND SECURE BALLOTS AND CLEAN VOTER ROLLS!

2. When I volunteered to assist in the recount in Dane County I saw many instances of absentee ballot applications that appeared to have been "cured" by someone other than the voter. It was obvious because the handwriting was different and the ink color was different than what was used on the rest of the application. NO ONE EXCEPT THE VOTER SHOULD BE ADDING INFORMATION TO A BALLOT…TO ALLOW

AMERICAN OVERSIGHT

THIS WOULD OPEN THE DOOR FOR SOMEONE TO COMMIT FRAUD.

3. When I volunteered to assist in the recount in Dane County I saw a whole voting Ward (Ward 110) that was missing the Ward number that was supposed to be written on the line designated "Ward Number". WERE THESE LEGITIMATE LEGAL BALLOTS?
4. When I volunteered to assist in the recount in Dane County I saw many absentee ballots missing the required two clerk signatures which are required to make it a valid ballot. WERE

AMERICAN OVERSIGHT

THESE LEGITIMATE LEGAL BALLOTS?

5. I saw the testimony of people who had a loved one living in elderly care facilities that claim that their loved one's vote was stolen or it was filled out by some other person when the loved one clearly did not have the mental capacity to make an informed decision to vote. CLEARLY SOMEONE COMMITTED FRAUD!
6. I have seen evidence by Mike Lindell that electronic voting machines that were connected to the internet in our state were compromised by other countries and votes were taken away

AMERICAN OVERSIGHT

from Trump and given to Biden.

7. Our voter rolls are a mess and need to be cleaned up to reduce the chance that the ineligible voters on the voter rolls are not used to submit a ballot. YOU SHOULD BE OUTRAGED!
8. I have seen evidence that the Dominion and other voting machines have “features” that allow for someone to shift votes from one person to another and that votes can even be given fractional amounts instead of 1 vote equals 1 vote. These electronic voting machines must be forensically audited now! We cannot allow for another election to

AMERICAN OVERSIGHT

take place until it can be proven that our voting systems are accurate and have not been hacked by foreign or domestic bad actors. THIS WOULD BE OUTRIGHT TREASON!!

I have zero confidence that we held a lawful election on 11/3/2020 and I demand a transparent cyber full forensic audit and investigation into that election as soon as possible.
God hates sin and He hates injustice. God will not honor a stolen election, and neither should we!

Please help us to restore Election Integrity in our great State of Wisconsin.

Sent: Tuesday, February 8, 2022, 5:35 AM
To: Undisclosed recipients:;
Subject: Recall our slate of electors from the Nov. 3 2020 election and DECERTFY!

Hello State Assembly Rules Committee member,

I have zero confidence that we have an accurate count of the legal votes casted in our state's election. From the information that I have been seeing of various forms of voter fraud, ballot harvesting, election software accounting fraud, dark money poured into Dane and Milwaukee counties and the unexplainably one sided dump of votes for Biden in the early morning hours after election night is telling me that there is enough evidence to justify a Complete Audit of the Nov. 3 2020 Wisconsin Election count and the systems that it uses and the Decertification of our Elector Ballots for that election.

Here are my concerns: Indefinitely Confined ballots – the fact that there is no requirement to submit a photo ID each time when voting in an ICB capacity violates my constitutional right to equal protection and creates an avenue in which fraud can be committed in our voting process. The court decision was that Covid-19 is not an excuse for using this type of ballot. The WEC misled people. What are you doing to find out if the Indefinitely Confined ballots were legally cast?

Early morning Nov. 4 vote dump for Biden – I would like a logical explanation with actual proof that this was somehow legitimate and not fraud.
Electronic voting systems and tabulators. I strongly urge you to conduct a transparent forensic audit of the electronic voting equipment used.
a. We need an investigation of the equipment to verify that the ballot tabulation data was not fraudulently manipulated.
b. We need an investigation into the engineering of the software applications used in the equipment to verify that the data cannot be manipulated. Col. Phil Waldron has testified that some election equipment have “features” in which votes can be moved/changed from one candidate to another and voting tabulation can be manipulated to have different values assigned to votes for a particular candidate. For instance, the feature could be used to assign a value of 1.5 for each Biden vote and .5 for each Trump vote. We cannot allow for equipment with these types of features to be involved with our free and fair elections. We must also ensure that our election equipment is secure in that people cannot simply change results by inserting a USB drive and manipulating data. Also, the equipment must be secure from data manipulation via the fraudulent use through wired or wireless internet connections..
If our equipment is found to have these features, those types of features should be rendered as inoperable and the equipment should be placed in the big green dumpster outside or recycled into dog food cans.

Ballot Harvesting – ballot harvesting of any form should not be allowed and people doing so should be prosecuted.

AMERICAN OVERSIGHT

I strongly urge you to pursue remedies for the tragedy of the loss of integrity and confidence in our elections that the people of Wisconsin deserve and expect as people of this great state.

Despite the popular vote tally, state legislatures have the "final say" in choosing electors to the Electoral College and by extension, the president-elect. Reminder to the state legislatures, you have the final say over the choosing of electors, not any board of elections, secretary of state, governor, or even court. You have the final say — Article II of the Federal Constitution. Certainly there was voter fraud, people voted Indefinitely confined because they were given bad advice from our county clerks in Dane and Milwaukee counties which they had no authority to do. We have election laws for a reason and they were not followed.

God hates sin and He hates injustice. God will not honor a stolen election and neither should we!

How long will the people of Wisconsin have to endure the injustice of a fraudulent election? When will our Legislators act on the overwhelming evidence?

PROVERBS 29
1 Whoever remains stiff-necked after many rebukes
will suddenly be destroyed—without remedy.

2 When the righteous thrive, the people rejoice;
when the wicked rule, the people groan.

I demand a transparent full forensic audit of the Wisconsin electronic voting system and ballots so we can correct the election results and ensure that the election is legitimate.
Recall our Electoral Ballots from the Nov. 3 2020 Election Now!
I would be willing to help the audit process in any way that I can.
Please help to restore election integrity to the State of Wisconsin!

Sincerely,
Greg Zurbuchen

Dear Rep. Vos,

I have heard that you have stated that recalling our electoral votes cannot be done and that there is no use in attempting to do so.
I'm just wondering where you have this information from. Please state your legal reasons.
I believe I am part of the majority of WI voters who would like investigation into our votes.
If you refuse, be assured the majority of WI voters WILL secure a legitimate election next time, and also be ASSURED We the PEOPLE (who you are to represent) will make this be your last appointment in our government.

AMERICAN OVERSIGHT

Memorandum

Date: September 23, 2021

To: Sen. Wendy Rogers

From: Matt DePerno

Subject: Final Memo regarding Authority Over Elections and Electors

Can a State Legislature recall the state electors or decertify a national election upon proof of fraud in the election? The Answer is "Yes."

On August 14, 2021, I presented a memo to Sen. Wendy Rogers titled "Preliminary Memo regarding Authority Over Elections and Electors." That memo concluded that a State Legislature has the authority to recall the state elector or decertify a national election upon proof of fraud in the election. Importantly, this does not require proof of "all of the fraud."

On September 16, 2021, Ken Behringer prepared a memo to Sen. Michelle Ugenti-Rita that asked the question "*Is there a mechanism to decertify a presidential election?*" (the "Behringer Memo") The Behringer memo concluded there is no mechanism to decertify a presidential election outside of 3 U.S.C. §§ 5 and 15.

This memo disagrees with the Behringer Memo for the following reasons: (1) Sec. 5 is limited to the controversy of any appointment of electors and does not address decertification of an election; (2) Sec. 15 is limited to the counting of electoral votes and objections on January 6 and does not address decertification of an election based on fraud; (3) the Behringer Memo does not address decertification of an election upon proof of fraud; and (4) the Behringer Memo relies on *Trump v Kemp*, 511 F. Supp. 3d 1325 (N.D. Ga. 2021) which deals only with court authority to decertify an election (and only in the context of Secs. 5 and 15) but which does not deal with the State Legislature's authority to decertify an election.

In light of the Behringer Memo, we ask again whether a State Legislature can recall the state electors or decertify a national election upon proof of fraud in the election? **After again considering the constitutional authority of the State Legislature, the Constitution itself, and U.S. Supreme Court authority and precedent, the answer is definitively "Yes."**

States have authority over their elections, including national elections. "Congress has never undertaken to interfere with the manner of appointing electors, or, where (according to the new general usage) the mode of appointment prescribed by the law of the State is election by the people, to regulate the conduct of such election, or ***to punish any fraud in voting for electors***; but has left these matters to the control of the States." *In re Green*, 134 U.S. 377, 380 (1890) (emphasis added).

AMERICAN OVERSIGHT

The United States Supreme Court opinions discussed herein are based on the overarching principles that the Constitution reserves to the national government only those expressly enumerated powers in Article I. All other powers not specifically reserved are delegated to the States and to the People. Indeed, "[a]ll powers that the Constitution neither delegates to the Federal Government nor prohibits to the States are controlled by the people of each State." See *U.S. Term Limits, Inc. v. Thornton*, 514 U.S. 779, 848 (1995).

The Ninth and Tenth Amendment work in tandem to consecrate this broad delegation of power to the States. In *Chiafalo v. Washington*, 591 U.S. _____, 140 S. Ct. 2316, 2324-25 (2020) ***"Nothing in the Constitution expressly prohibits States from taking away presidential electors' voting discretion."*** (emphasis added). Specifically, the Supreme Court noted that the Constitution's text and the Nation's history both support allowing a State to enforce an elector's pledge to support his party's nominee – ***and the state voters' choice*** – for President. Indeed, the Behringer Memo discusses this authority in broad strokes through the discussion of sections 5 and 15. However, Sec. 5 deals only with the controversies as to the appointment of presidential electors and does not address issues of fraud that subsequently arise. Likewise, Sec. 15 deals only with counting of electoral votes and objections as of January 6 and again, does not address issues of fraud that is subsequently demonstrated. To suggest that all issues of fraud in the November 3, 2020 election must be presented to Congress by January 6, 2021 pursuant to sections 5 and 15 in order to be considered fails to recognize the complexity of the issue. It also suggests that all issues of fraud related to elections are somehow codified in sections 5 and 15, which is not only false, but also fails to give proper weight to the authority presented in the Constitution and U.S. Supreme Court authority and precedent.

As we know, the Constitution is "barebones about electors." *Chiafalo*, *supra* at 2324-35. As it should be. The residual powers are left to the States. The Behringer Memo addresses Article II (only in the context sections 5 and 15). However, Article II includes only the instruction to each State to appoint, in whatever way it likes, as many electors as it has Senators and Representatives. There are no restrictions or limitations.

The Twelfth Amendment then tells electors to meet in their States, to vote for President and Vice President separately, and to transmit lists of all their votes to the President of the United States Senate for counting. "Appointments and procedures and . . . ***that is all***." *Chiafolo*, *supra* at 2315 (emphasis added).

In prior cases, the Court has stated that Article II, §1's appointments power gives the States ***full authority over presidential electors***, absent some other constitutional constraint. The Court has described that clause as "conveying the broadest power of determination . . . " *McPherson v. Blacker*, 146 U. S. 1, 27 (1892). See also *Chiafalo, supra* at 2324.

It would be meaningless if after giving full authority to the States over presidential electors, the State Legislature could not, upon a proper showing, recall those electors to decertify a fraudulent election. It would be equally meaningless to suggest that all fraud must be discovered and presented by January 6. As the Supreme Court said in *Chiafolo*, *supra*, the State has full authority absent some other constitutional constraint.

AMERICAN OVERSIGHT

As far as the national government (and Constitution) is concerned, i.e., *federal law*, there are no such constraints. "Congress . . . has left these matters to the control of the States." *In re Green*, *supra* at 380. Therefore, each State Legislature has the power to recall electors and decertify their vote upon demonstrable proof of fraud. Indeed, this is the only way the State can guarantee that the People are represented. The Federal Government "is acknowledged by all to be one of enumerated powers." *McCulloch v. Maryland*, 17 U.S. 316 (1819). "[T]he powers delegated by the . . . Constitution to the federal government are few and defined," while those that belong to the States "remain . . . numerous and indefinite." The Federalist No. 45, p. 292 (C. Rossiter ed. 1961) (J. Madison). Thus, "[w]here the Constitution is silent about the exercise of a particular power[,] that is, where the Constitution does not speak either expressly or by necessary implication," the power is "either delegated to the state government or retained by the people." See *Martin v. Hunter's Lessee*, 14 U.S. 304 (1816) (stating that the Federal Government's powers under the Constitution must be "expressly given, or given by necessary implication").

For an added measure of assurance in the latter regard, it is declared that "[t]he enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage *others* retained by the People." U.S. Const., amend. IX (emphasis added). It was universally agreed by the Framers that there are *additional* fundamental rights, protected from governmental infringement, which exist alongside those specifically mentioned in the first eight amendments. "The [Ninth] Amendment . . . was proffered to quiet expressed fears that a bill of specifically enumerated rights could not be sufficiently broad to cover all essential rights and that the specific mention of certain rights would be interpreted as a denial that others were protected." I Annals of Congress 439 (Gales and Seaton ed. 1834). See also II Story, Commentaries on the Constitution of the United States (5th ed. 1891), pp. 626-627. As "it cannot be presumed that any clause in the constitution is intended to be without effect . . . effect should be given to all the words it uses." *Marbury v. Madison*, 5 U.S. (1 Cranch) 137, 174 (1803). See also *Myers v. United States*, 272 U.S. 52, 229 (1926). And, indeed, a right to political affiliation and political choice has been addressed as protected, at least in part, by this amendment. *United Pub. Workers v. Mitchell*, 330 U.S. 75, 94-95 (1947). This includes, of course, the fundamental right to vote. *Id*. See also *Reynolds v. Sims*, 377 U.S. 533, 560 (1964).

The Behringer Memo ignores this long history of cases, but instead focuses on *Trump v Kemp*, *supra*, by quoting "this Court finds no grounds upon which to independently order the decertification of Georgia's election results" (relying again on Sec. 15). However, the Behringer Memo fails to recognize that *Trump v Kemp* focused exclusively on a court's role (*i.e.* the judicial branch) in enforcement of the rules for appointment and objection to electors. Indeed, *Trump v Kemp* did not address in any way either the court's role or the State Legislature's role in recall of electors or decertification of an election upon a showing of fraud subsequent to January 6.

Indeed, this memo address that issue. That the right to vote is *the* fundamental and primary right among all other fundamental rights, enumerated or not, is evident in the fact it is self-executing. Infringement upon it *cannot* occur under the Constitution if the government is, in fact, one that is duly and *legally* chosen by the People. Any government that asserts a mandate to rule on the basis of fraud or illegality effectuates an instant infringement on the sovereign's will, of necessity, has no legitimacy. It is as violent a usurpation as would be the direct use of force to suppress the People. Only, it is more sinister and insidious. It is at once an uncontestable rejection of the values and ideals of the People and a silent assassination of their collective right to express them.

AMERICAN OVERSIGHT

To countenance a fraudulent election is to deny the inherent sovereignty retained by the People to govern themselves. To allow one such as this to pass as valid with the level of skullduggery and fraud evident to everyone who cares to look and who is not blinded by the conspired obfuscation foist upon them by bureaucratic functionaries, technocrats, subversives in both political parties, and their corporate *and* foreign donors, and those who control, to the great detriment of public debate and discourse, the information from social media all the way to the transmission of the "news" to households across the nation, is to leave the sovereign citizens of this country little choice. Ignoring this treasonous crime destroys any remnants of faith in the proper and orderly functioning of a government that is *supposed* to serve them.

If the choice of the People has been adulterated by fraud, the Legislative branch and the People have a right, an obligation, and, indeed, a duty to call it out to ensure preservation of the Republic that is guaranteed to them by the Constitution; or indeed, to dissolve and abolish it altogether. The Declaration of Independence, Second Paragraph (July 4, 1776) (emphasis added). Indeed, the Behringer Memo suggests that fraud must be ignored and the Republic destroyed if such fraud is not discovered prior to January 6. Such a conclusion ignores the principles of the Founders and precedent of federal law as described herein.

Preservation of the Republic *can* be done by legislative decertification under the principle of the Tenth Amendment and the Supreme Court's interpretation of the broad discretion states have over electors. The state constitutions give broad authority to the People to recall all publicly elected officials. Of course, this extends to any public official charged with a duty to represent their will. And, this *must* be done, for under the Ninth Amendment, if the fundamental right to vote is to be protected, every illegally cast or counted vote must not be allowed to unconstitutionally disenfranchise the legal voter's fundamental, constitutional rights.

These rights that reside in the People are necessarily delegated to the State Legislature in the event that the latter must act *sua sponte* to correct a fraudulently held election. After all, the Legislature is the lawmaking authority in the state. Absent any restraints in the state or federal constitution (and there are none), it must act in the stead of the people where there is no actuating power given to the People under state law. In other words, the Legislature itself does not have to pass a state law to exercise its constitutional (both state and federal) authority.

A legislature's determination to decertify the votes cast by the electors or to otherwise decertify an election on demonstration of fraud in the election itself is nothing more than the Legislature's use of its reserved sovereign powers under the Tenth Amendment to protect those fundamental rights and privileges reserved to the People by the Ninth Amendment.

Indeed, the failure to do so would be a violation of the Legislature's role as a co-equal branch of government.

Subject: Reimbursement, please

Representative Vos,

Yesterday, the person you hired to investigate the 2020 Wisconsin Presidential election delivered his 'Interim Report' to the Assembly elections committee. Michael Gableman's report was shared as part of a three-hour grandstanding presentation that contained no new information nor any evidence of widespread voter fraud.

Mr. Gableman's report:

- Was issued months late. He had no accountability during this process, not providing updates or how his time was spent. No one in the private sector would be allowed to work in this manner. He also claimed it was late because he was hampered of lawsuits filed by out-of-state law firms when in fact he admitted he didn't know how elections work.
- Held no substantiation to any of the claims he or others made about 'the election being stolen".
- Claimed the Wisconsin results should be decertified. Really? It's frightening to think he was once a Wisconsin Supreme Court judge.
- Used videos of senior citizens in nursing home settings showing how low he stooped to put together that embarrassing presentation.

Joe Biden won the 2020 Wisconsin Election. This has been proven through the counts, recounts, audits and lawsuits. It's time to stop this nonsense. Do not let the former president bully you into continuing this ridiculous search for voter fraud that doesn't exist while spending more taxpayer money.

With that being said, as a taxpaying citizen who has lived my whole life working in Wisconsin, I would like to be reimbursed for my share of the $676,000 that was spent on this foolish project.

I look forward to receiving my reimbursement.

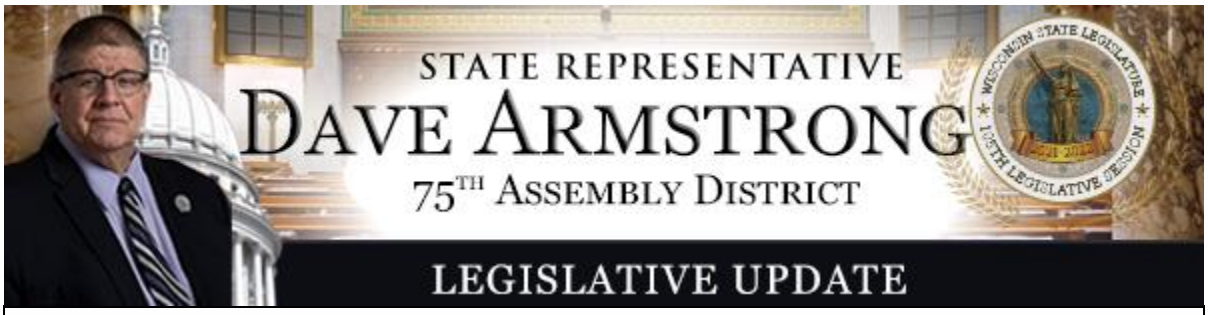
To: Robin Vos <Rep.Vos@legis.wisconsin.gov>
Subject: Rep. Armstrong E-Update - February 25, 2022



Education and Elections

The Wisconsin State Assembly held what may be its final floor sessions of the 2021-2022 biennium when it met on February 22, 23, and 24. While the proposals the Assembly passed covered many different subjects, the two major issue areas were education and elections.

Among the education bills the Assembly passed this week with my support was Senate Bill 409, which addresses critical race theory in higher education by prohibiting UW schools and technical colleges from teaching race or sex stereotyping. (It is similar to Assembly Bill 411, which applied to K-12 and which the Legislature passed last fall. Governor Evers subsequently vetoed AB 411.) Assembly Republicans also stood up for families against school overreach by passing a parental "bill of rights" in Assembly Bill 963, followed by Assembly Bill 995, which allows parents to opt their children out of school-imposed masking requirements. My colleagues and I also passed proposals to address student reading achievement, as well as to increase access to charter and choice schools.

Turning to elections, the Assembly passed three proposed amendments to the Wisconsin Constitution relating to that important subject:

- Assembly Joint Resolution 133, which requires a photo ID to vote.
- Senate Joint Resolution 32, which clarifies that only US citizens may vote in elections in Wisconsin.
- Senate Joint Resolution 101, which prohibits the use of private donations or grants to administer elections, such as happened in several large Wisconsin cities in 2020.

AMERICAN OVERSIGHT

Proposed constitutional amendments must pass both the Assembly and the Senate in two consecutive legislative sessions before they go to a statewide referendum.

The Assembly also concurred in a number of Senate bills intended to address many of the problems Wisconsin experienced during the 2020 elections. These proposals, which will now go to Governor Evers for his consideration, include:

- Senate Bill 937, which tightens up the rules for indefinitely confined voters.
- Senate Bill 939, which prohibits ballot harvesting and makes several other changes to the absentee voting process.
- Senate Bills 941, 942, and 943, which increase legislative oversight of the Wisconsin Elections Commission.

I continue to hear from constituents with concerns about the 2020 elections, and I believe the reforms the Legislature passed this week will give Wisconsin voters increased confidence in the system's integrity going forward.

On a related note, the Assembly campaigns and elections committee has scheduled a meeting for March 1, at which it will hear testimony from former Wisconsin Supreme Court Justice Michael Gableman about the status of his investigation of the 2020 election.
Among the non-education and -election bills the Legislature acted on this week, I am happy to say that the Senate, which was in session on February 22, concurred in several proposals in the Republicans' Stronger Workforce package, including Assembly Bill 938, the unemployment insurance efficiency and integrity bill I had introduced earlier this year.
Even though the Assembly may have held its final floor session of 2022, in which case it will not be voting on any further legislation, I hope you will continue to share your comments about issues that are important to you so that I may bear them in mind for the 2023-2024 legislative session.

Subject: Representative Timothy Ramthun's Resolution

Hello Representative:

What would you say about me if my neighbor's house was on fire and they were inside crying out for help and I had the ability to break into the home and rescue them, but chose not to because I said, "It's not my house, I'm not a fireman, I don't have any investment in it, I'll just stand by and let the house burn down with people in it." What would say about my actions? I don't really expect an answer, but that's sort of what I'm witnessing with this particular resolution that was brought forth by Representative Timothy Ramthun recently in regard to the November 3rd election. I have another question: Who is saying that by the Assembly looking into this issue of election fraud on several fronts that it will make President Trump the President again? No one. This isn't about dethroning the imposter Joe, it's about exposing the corruption that took place in Wisconsin that our media says didn't happen. Sir, did fraud take place on November 3rd? If you say no, why is that your stance? On what basis do you come to your conclusion? Have you honestly look at the evidence or the information (information) that is being fed you by the media?

How do explain over 220,000 names being removed from voter rolls just after the 2020 election in February 2021? There was that much of shift in 3 months? Why wait until February to decide that? Then have Metaboy Mark who gave millions of dollars to the mayors of Green Bay, Kenosha & other cities to handle their elections. What gives him or them the right to fund election processes? I thought that was up to cities and local governoring municipalities, but maybe I'm wrong????????????? So if I wanted to pay for election activities to be done in Greenville, WI, all I'd have to do is send them a check for $100,000 and take over, is it that easy? I'd like to know. Maybe I'll do that for Green Bay next time around if that's the case, I'd like to know what you thought. Then there were the nursing home and prison voting that took place, thousands of ballots harvested from those places. No, this was the most secure election in history. Even though there was documented fraud in the nursing homes and prisons that our lawmakers deny. Strange. What about those drop boxes with mules that you seem to have no problem with like the leaders of Georgia, Michigan, Arizona & Penn as well? Why are you in favor of drop boxes? Is there something that you're not telling us? Just wondering. If drop boxes were illegal in 2020 based on WISCONSIN STATE STATUTE, how can anyone say that there was NO FRAUD? I'd just like to know the reasoning process that you and individuals like Jim Steineke are using to stop the investigation into November 3rd? What are you afraid of? What are you hiding?

Doing the right is never easy. I realize that my request for the right thing to be done is probably gonna go ignored, but at least I tried. I have requested that my local Assembly Representative Dave Murphy sign on to the resolution moving forward. I don't just bother you, I bother Jim Steineke and others as well because we elected these individuals to do what was best for Wisconsin residents. So don't take this personal, take it as a taxpayer that is just asking that the truth be uncovered. As far as I'm concerned, ignoring what happened will embolden the left to continue cheating in the future. Not only that it will cause individuals such as myself to just

AMERICAN OVERSIGHT

simply stay home on the next election day since our votes don't count. You are taking a huge risk by ignoring the fraud. Maybe having the power shift in Wisconsin to Democrat control doesn't bother you since you seem to disregard the voices of the voters on the right. By the way, get rid of those election voting machines and electronic crap that Dominion and Smartmatic companies are using to change votes, we need to go back to paper ballots that are hand counted. Dominion and Smartmatic have no place in this Constitutional right.

Sincerely Yours,

Avery Burton

Republican Party of Wood County

P.O. Box 884, Marshfield, WI 54449 715 502 9810

February 3, 2022

To: Wisconsin Republican Party Chairmen

From: The Executive Board of the Wood County Republican Party

Subj: Full support the Iowa County Resolution to Republican Party of Wisconsin

The Executive Board of the Wood County Republican Party is greatly concerned by the fact that Assembly Speaker Robin Vos is not representing the Republican constituents of Wood County. Speaker Vos' actions, statements and his general disregard of the clear facts throughout the various investigations of the fraudulent election of 2020 are reprehensible. These misguided actions by Speaker Vos and the fact that he continues to impede the investigations and ignoring the will of the people effectively demands his removal from both the Speaker's chair and from the Assembly.

Robin Vos' actions toward Assemblyman Timothy Ramthun show his contemptuous nature and further support his removal. Speaker Vos presumes too much control over potential Statewide Republican candidates and has ignored the people's voice for too long. The Wood County Republican Party Executive Board demand that Representative Ranthum's staff (both full time and otherwise) be reinstated.

And finally, we strongly suggest that Speaker Robin Vos's constituents begin the process of removing him from office.

Signed with regrets but in all sincerity,

Executive Members of the Wood County Republican Party:

Mike Derrie, Chairman

Mike Derrie

Joe Humphrey, Vice Chairman

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

Election Reform Bills Head to the Governor

Passed yesterday were several common-sense election reform bills, aimed at fixing the flaws we know happened in 2020. Voters want to feel confident in the 2022 elections and beyond, and we were happy to pass these reforms.

AMERICAN OVERSIGHT

Many of these bills address the non-partisan Legislative Audit Bureau's 48 recommendations for consideration by the Legislature and the Wisconsin Elections Commission (WEC) to improve election practices.

Wisconsin elections should be accessible, secure, fair, and transparent. The package of election reform bills advances all of these priorities by:

- cleaning and maintaining accurate voter rolls
- ensuring legislative oversight of WEC and estate agencies involved in elections
- closing voter ID loopholes
- securing ballot chain of custody
- reforming indefinitely confined status
- enacting strong penalties for violating election law
- ensuring efficient and timely ballot access on Election Day
- accountability for those who fail to follow election laws
- conducting frequent and comprehensive audits
- strengthening reporting requirements to improve public transparency
- ensuring timely review of election complaints

Watch the video below for more of my comments.

I am writing to say that I am very surprised that you have such an ability to simply ignore the facts right in front of your eyes. You know that the election in your state was crooked, and yet you do NOTHING!! Rep. Ramthuns resolution was damning enough, but now you have the report from Justice Gableman!@!@! I mean you are pathologically and intentionally blind if you cannot recognize the corruption. Or does it run deeper than that? Do you have no scrupplesleft whatsoever and are now simply a shill for the powers looking to control our lives, our country and ultimately the planet. YOU sir have been given tremendous power. Use it for the good of the people!! You sir, can shift the tide if you will simply grow a pair, stand up and do what is your moral duty. If you choose to simply continue to obfuscate, lie and block the patriots, the VERY LEAST you can do is get out of the way so they can lead us in bravery and courage against this great evil attempting to cling to power they do not have (the Biden administration is most certainly illegitimate) - and the people are NOT with him which means that they are NOT on your side. So, if you do not have the spine to lead when the rubber meets the road, PLEASE RESIGN!!!

Thank you very warmly,

--

Subject: rigged election

I am totally upset with you!!! You are such a wimp. You know this election was stolen and if you don't, you are too ignorant to represent us. Why would you not want to decertify the election in WI.? Its more than obvious that it was stolen . Now we are headed for nuclear war because too many rino republicans are too weak and afraid of the corrupt democrats. We the people have had enough of all of you!! Apparently your position in govt. is more important than our country. SHAME ON YOU!!!! Get a backbone and start standing for truth. Stand up to Evers (who also was elected fraudulently). Gableman is the most heroic man in Wi. With republicans like you, we may as well just have all democrats representing us. WAKE UP AND DO WHAT IS RIGHT AND HONORABLE!!!!!

AMERICAN OVERSIGHT

SB 213 – Actions for violations of election law

Rep. Rob Brooks

Committee on Elections, Election Process Reform, and Ethics

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Christopher J. Schaefer, 608-267-2369

Senate Bill 213 establishes a pathway for expedited judicial relief for parties involved in election law disputes and expands election law enforcement options.

Currently, anyone who is not a district attorney or the attorney general, must file an election law violation complaint with the Wisconsin Elections Commission. The commission then has a five-day period in which to review the complaint and determine whether or not an investigation is warranted. Final disposition may take weeks. Only after the commission finishes its investigation, may a party with a complaint take their complaint to the judicial system.

Senate Bill 213 leaves intact the complaint and investigation process at the Elections Commission for those who choose that option. The bill eliminates the mandate stipulating that all complaints be routed through the commission before a legal remedy is sought in court.

Second, Senate Bill 213 expands the number of district attorneys who may prosecute election law violations.

Senate Amendment 2: Venue is proper in a county that is contiguous to the county where the violation occurred. Under the amendment, only certain violations of election law may be prosecuted by an adjacent county. The expansion does not apply to violations relating to election notices or campaign finance.

Assembly Amendment 1:, Modifies the venue provision created by the bill to eliminate any conflict with existing law regarding the place of trial and allows venue to be considered proper and gives the DA in the county where the violation occurred 60 days to take action. If no action is taken, the violation may be charged by a neighboring DA

Committee Chair's Summary of Proceedings

Prepared by: Christopher J. Schaefer, 7-2369

Fiscal Effect:

The bill does not have a fiscal estimate and there is no fiscal impact to the state.

Supporter's Message:

- The bill provides citizens with another avenue for filing election law violation complaints.
- Due to WEC's three-three partisan split, complaint resolution is difficult.
- The current system is simply a barrier for citizens to have their day in court.
- A "soft on crime" DA may choose not to prosecute election law violations. These violations may affect the votes of neighboring counties.
-

Opponent's Message:

- The bill allows forum shopping for certain violations of the law.
- Going around the existing WEC complaint process may clog our court system

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

AB 576/SB 335 – Lake Sturgeon Raffle

Rep. Thiesfeldt

Committee on Sporting Heritage

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill authorizes Sturgeon for Tomorrow, Inc. (SFT) to request that DNR annually transfer up to 15 carcasses of lake sturgeon culled from state fish hatcheries to be awarded as prizes in a raffle. The bill requires the organization to preserve the carcasses for taxidermy and mounting and to provide to each person who receives a carcass a certificate of transfer. The bill also requires the organization to use all proceeds from these raffles to promote sturgeon management, conduct sturgeon habitat management, promote sturgeon reintroduction, or further sturgeon research.

Sturgeon for Tomorrow help preserve, protect and enhance the sturgeon resource of the Winnebago System. That group is now the largest citizen advocacy group for sturgeon **in the world** and has raised and donated over $900,000 for sturgeon research, management, and education since its inception.

Assembly Amendment 1: When the bill was introduced, it was under the assumption that the DNR was still following old practices of automatically culling a certain percentage of the lake sturgeon in their hatcheries. The DNR let us know this is no longer the case, so removing the word "culled" from the bill just allows the DNR to transfer up to 15 sturgeon to SFT without using the language of the culling practice no longer happening at fish hatcheries.

Committee Chair's Summary of Proceedings

Prepared by: Allison M. Hetz 6-7015

Fiscal Effect:

DNR- Indeterminate

Supporter's Message:

- This will help promote sturgeon spearing and fundraising efforts for Sturgeon of Tomorrow, Inc.

Opponent's Message:

- Not clear on who is paying for taxidermy, not a needed government expense

Key Supporters:

Sturgeon of Tomorrow

Key Opponents:

N/A

Committee Vote(s):

The Committee on Sporting Heritage voted 12-1 on Amendment 1 and 13-0 to recommend passage
Passed the Senate Committee on Sporting Heritage, Small Business and Rural Issues: 5-0

AB 327/SB 339 – Capital Loss Deducting

Rep. Sortwell

Committee on Ways and Means

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Zach Pfaffenbach, 6-9870

Assembly Bill 327 increases the maximum amount that individuals may claim as the net capital loss deduction to the same amount currently allowed under federal law.

Under current law, an individual subtracts his or her capital losses from capital gains when computing the amount of gain subject to Wisconsin income tax. If the capital losses exceed the capital gains, the individual may use up to $500 of the net loss to offset ordinary income, thus reducing the amount of ordinary income subject to tax. If the individual's net capital loss exceeds $500, the individual may carry forward the excess to future years and offset up to $500 of ordinary income each year until the net loss is used up. Federal law similarly allows individuals to offset net capital losses against ordinary income and carry forward the excess. However, the maximum annual offset under federal law is $3,000, which is reduced to $1,500 for married individuals who file separate returns.

This bill increases the maximum annual offset for Wisconsin income tax purposes from $500 to $1,500 for married individuals filing separately and $3,000 for all other individuals. The bill applies to taxable years beginning after December 31, 2022.

Assembly Amendment 1 – This amendment was requested by the Department of Revenue (DOR) for technical purposes on how the capital losses are carried forward in future taxable years.

This legislation will align state tax law with federal tax law, which will eliminate confusion for taxpayers and put more money in the pockets of the middle class and our seniors.

Committee Chair's Summary of Proceedings

Prepared by: Reanna Rasmussen 6-0485

Fiscal Effect:

- DOR projects revenue would decrease by $4.3 million in FY 2023, and $17.1 million annually beginning in FY 2024.
- Revenue loss will decline over time.
- DOR: one-time costs of $11,130.

Supporter's Message:

- The taxpayers can write off up to $3000 already on their federal tax returns.
- Uniformity between state and federal law will eliminate confusion for taxpayers.
- This bill will reduce the buildup of excess capital losses.

Opponent's Message:

- None heard in committee

Key Supporters:

Representative Sortwell, Senator Kooyenga, NAIOP Wisconsin, Wisconsin Farm Credit Services, Wisconsin Independent Businesses, Wisconsin Institute of Certified Public Accountants, Wisconsin Realtors Association, Wisconsin Startup Coalition.

Key Opponents:

None registered

AB 340/SB 341 – Real Estate Appraisers Limitations

Rep. Tittl

Committee on Housing and Real Estate

Session Date: **2/23/2022**

Author's Summary of the Legislation

Prepared by: Steve Hall 6-0315

AB 340 limits the time a lawsuit can be brought against a real estate appraiser to five years following the date of the report. It does not apply to an appraiser who commits fraud or concealment in the performance of their duties. Currently, there is no statute of limitations specifically addressed to real estate appraisal services.

Committee Chair's Summary of Proceedings

Prepared by: Alex Braaten, 266-1194

Fiscal Effect:

None

Supporter's Message:

- The new time limit aligns with the Uniform Standards of Professional Appraisal Practice record-keeping requirements, which permit appraisers to destroy records after five years if state law allows.
- The current limit makes it difficult for appraisers to defend themselves, because it begins at the time of discovery rather than the time of performance.
- Some law firms have been buying the rights to sue appraisers in relation to defaulted mortgages, knowing that many appraisal firms, especially smaller ones, may settle rather than incur legal fees to fight these cases.
- A five-year time period is more than enough time for a party to bring a lawsuit against an appraiser.

Opponent's Message:

- No one voiced opposition or registered against.

Key Supporters:

Sen. Jacque; NAIOP (the Commercial Real Estate Development Association); Wis. Realtors Association

Key Opponents:

None

Committee Vote(s):

1/05/22, Assembly Committee on Housing and Real Estate recommended passage **(8-0).**

AMERICAN OVERSIGHT

AB 320/SB 344 – Interior Designers

Rep. Cody Horlacher

Committee on Regulatory Licensing Reform

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Steve Knudson [6-5715]

Wisconsin has a voluntary registration option for qualified interior designers. This registration requires industry recognized credentialing and rigorous standardized testing on topics like building codes, fire safety, and construction regulation. Wisconsin's registered interior designers, however, must still jump through an additional bureaucratic hoop to be able to independently utilize their knowledge and qualifications in the state. This bill will allow Wisconsin to join 11 other US states, Washington DC, and Puerto Rico in eliminating a costly procedural step that registered interior designers must go through to be able to conduct business – paying for and obtaining an architect's approval of the interior designer's completed, non-structural design drawings.

Assembly Amendment 2 made a number of changes to the bill, including the creation of an examining board for the regulation of registered interior designers, changes to continuing education requirements for registered interior designers, and changes to the scope of practice of interior design.

Assembly Substitute Amendment 1 was negotiated by the stakeholders after executive action was taken on the bill on June 22, 2021. Assembly Substitute Amendment 1 generally retains the structure of AB 320 as amended by AA2, but makes the following changes to the bill: (1) it modifies the definition of "practice of interior design," (2) it modifies and expands the list of things that are *not* included in the definition of "practice of interior design," (3) it modifies the definition of "interior technical submission," (4) it creates a new requirement that an interior design entity must receive a certificate or authorization, (5) it modifies requirements for use of the term "registered interior designer," and (6) it increases the number of hours of continuing education interior designers must take in the subject area of safeguarding the public's health, safety and welfare.

Allowing registered interior designers to approve their own drawings will enable them to deliver a project faster, hire fewer outside consultants, and compete for more interior, nonstructural projects. The option to engage an interior designer at a more competitive cost is a financial benefit to clients. Nationally, nearly 83% of interior design firms are small businesses of four or fewer employees and a vast majority of these businesses are women and/or minority-owned. This sensible change will allow these small businesses to grow and compete in the construction industry.

Committee Chair's Summary of Proceedings

Prepared by: Zach Pfaffenbach, 6-9870

Fiscal Effect:

DSPS: One-time costs of $4,138.29 for policy development that can be absorbed in the agency's budget.

Supporter's Message:

- This bill provides Wisconsin Registered Interior Designers (WRID) the practice right to seal and submit design and construction drawings for non-structural interior environments.
- The interior designer profession is evolving and the statutes should be modified to that end.
- This legislation provides a level playing field. Are you aware that licensed structural engineers have the ability to stamp interior build-out drawings in Wisconsin? However, a Registered Interior Designer, expert in this sector, educated, successfully passing an 11 hour nationally recognized exam, currently does not.

Opponent's Message:

- With the substitute amendment, the interested parties (Interior Designers/Architects) have come to an agreement on the bill.

Key Supporters:

- American Society of Interior Designers, Americans for Prosperity, Badger Institute, International Interior Design Association, Wisconsin Realtors Association.
- Neutral: American Council of Engineering Companies of Wisconsin, Mechanical Contractors Association of WI, NAIOP Wisconsin, Plumbing and Mechanical Contractors Association of MKE and Southeastern WI, Sheet Metal & Air Conditioning Contractors' Association of MKE, and WI Society of Architects

Key Opponents:

City of Milwaukee, Alliance for Regulatory Coordination, Wisconsin State Fire Chiefs Association

AB 41/SB 49 – Opioid & Methamphetamine Database

Rep. Jon Plumer

Committee on Substance Abuse & Prevention

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Patrick Gehl, 608-266-3404

AB 41 directs DOA work with an outside company to develop and implement a database system to track opioid and methamphetamine use in the state of Wisconsin. DOA would work with other state agencies, such as DOJ and DHS, to collect this date and centralize it in one location. Agencies working with DOA would be able to access the data, while also conforming to privacy requirements. Additionally, DOA would submit an annual report on its findings to JFC.

Database systems like this have been successfully implemented in other states. It is a valuable tool in the fight against addiction and aids health care providers, law enforcement, and even the legislature in accomplishing their job by providing accurate insights into the ongoing addiction epidemic.

Assembly Amendment 2, adopted by JFC, deletes appropriation created in the bill and instead requires the agencies to submit an RFP for the project before requesting the necessary funds from JFC through a passive review.

Committee Chair's Summary of Proceedings

Prepared by: Michael Hoffman, 608-266-9172

Fiscal Effect:

This bill provides one-time funding of $1,500,000 in FY22.
One-time cost for DSPS is $200,092.95, which likely could not be absorbed within the agency's operating budget.
DOC estimates the cost at $272,000, for new contractors to implement this system with ongoing costs after implementation.
There is no state fiscal effect for DHS under this bill.
There is an indeterminate state fiscal effect for DCF under this bill.

Assembly Amendment 2 removed the appropriation from this bill

Supporter's Message:

- This bill will help law enforcement and health agencies in the state better understand how to combat the epidemic of opioid use.
- Opioid overdose deaths increased 38% in the year 2020, this bill would help track and analyze use and overdoses throughout the state

Opponent's Message:

- None

Key Supporters:

Representative Plumer, Senator Testin, SAS, WI Troopers Association, Columbia County Sheriff's Office

Key Opponents:

No one testified or registered in opposition.

AB 526/SB 533 – Housing Authorities

Rep. Kuglitsch

Committee on Housing and Real Estate

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Garrett Huffman 267-5158

Mixed-income/mixed-use developments when applied by a housing authority to a targeted area can combat concentrations of poverty, increase the property tax base, add opportunities for upward mobility, and help residents achieve financial independence within the neighborhood.

Assembly Bill 526 authorizes Milwaukee's public housing authority to use mixed-income/mixed-use developments that serve persons of low income but also mix market-rate tenants within the same project.

Mixed-income/mixed-use developments are an important tool for public housing authorities to reduce the need for government funding by cross-subsidization (rents from higher-income tenants that help reduce the subsidy required to provide housing to low-income residents).

The Milwaukee Housing Authority will gain the option to include commercial tenants, like a grocery store or office property, and share residential space between low-income and market-rate tenants.

Assembly Bill 526 also raises Wisconsin's procurement threshold to $50,000. A higher threshold in Wisconsin reduces overhead and aligns with current HUD procurement standards, allowing Public Housing Authorities to put more dollars into affordable housing.

In discussions with stakeholders, Assembly Amendment 1 was added to the bill at the request of the Wisconsin Realtors Association (WRA) and the National Association of Industrial and Office Properties (NAIOP) that limit the effect of the bill to the city of Milwaukee and only properties owned by the Housing Authority prior to October 1, 2021.

Committee Chair's Summary of Proceedings

Prepared by:

Fiscal Effect:	DOA – No State Fiscal Effect and indeterminate local effect, DOR – No State Fiscal Effect and indeterminate local effect, DWD – costs may be absorbed within the agency's budget and indeterminate local effect to local governments. Housing Impact Note available here.
Supporter's Message:	AB 526, as amended by Assembly Amendment 1, allows a housing authority in a 1st class city to operate mixed developments, including mixed-use properties, like an apartment complex with a grocery store on the ground floor. It also includes mixed-income housing, where both low and moderate incomes could be served in the same housing complex. Assembly Bill 526 also raises Wisconsin's procurement threshold to $50,000.
Opponent's Message:	No opposition
Key Supporters:	Rep. Mike Kuglitsch, Sen. Alberta Darling, Rep. Dora Drake, Willlie Hines (Milwaukee Housing Authority), Toni Herkert (WI Municipal League). Tom Larson with the Realtors testified for information only, NAIOP, and the City of Milwaukee.

AB 538/SB 535 – Liability Exemption for Previously owned Eyeglasses

Rep. Paul Tittl

Committee on Judiciary

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Steve Hall; 6-5831

Assembly Bill 538 provides an exemption for the provision of previously owned eyeglasses. Organizations such as the Lions Club collect used eyeglasses, sort, wash, and ship them for eyeglass missions across the world for distribution to people who may not otherwise be able to have them because of lack of affordability.

Under current law, these organizations do not distribute eyeglasses in Wisconsin, because they could face liability for doing so. The bill provides a liability exemption such as Oregon has enacted.

Committee Chair's Summary of Proceedings

Prepared by: Kathryn E. Heitman; 6-5831

Fiscal Effect:

No State or Local fiscal effect.

Supporter's Message:

- This allows for an exemption of liability for donated eyeglasses.

Opponent's Message:

- Regardless of whether an organization is charging for glasses, they should be responsible for ensuring the product they are distributing will not cause harm to the recipient.

Key Supporters:

Rep. Paul Tittl; Sen. Andre Jacque; Beyond Vision; Wisconsin Academy of Ophthalmology

Key Opponents:

None

Committee Vote(s):

AB 566/SB 566 – ULC Business Omnibus Bill

Rep. Ron Tusler

Committee on Financial Institutions

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Kathryn E. Heitman; 6-5831

This bill is a comprehensive update which combines the Revised Limited Partnership Act and Revised Limited Liability Company Act, which were promulgated by the Uniform Law Commission (ULC) in 2001 and 2006, and have been adopted in twenty-four and twenty-two other states, respectively.

This bill will create a more conducive environment for limited partnerships and limited liability companies to form and operate in Wisconsin. Establishing uniformity in this area of law, similar to the Uniform Commercial Code, is good for the Wisconsin economy and businesses, promotes stability, and stimulates the free flow of commerce and business between states

Committee Chair's Summary of Proceedings

Prepared by: Dan Hubert; 6-3007

Fiscal Effect:

If passed, the bill would both save costs and increase state revenues. Currently it costs about $133K to print and mail notices to business. DFI estimates it would cost $370K for a one-time IT system set up; thus, postage and print savings would not be realized until the fourth year following the bill's implementation. Since the bill increases fees for certain entity filings, DFI estimates an additional $498k in revenue, less an estimated one-time IT cost of approximately $43k.

Supporter's Message:

- Modernizes all five chapters of business types
- Adopts the ULC's Revised Limited Partnership Act which has been passed by 24 other states
- Adopts the ULC's Revised Limited Liability Company Act which has been passed by 22 other states
- This also modernizes Wisconsin's LLC statutes which have not been modernized since its inception

Opponent's Message:

- No registered or spoke against the bill

Key Supporters:

- Representative Ron Tusler - 3rd Assembly District
- Senator Eric Wimberger - 30th Senate District
- Libby Snyder - Uniform Law Commission
- Joe Boucher - WICPA & State Bar Business Law
- Tom Nichols - WICPA & State Bar of Wisconsin
- Andrew Parrish - Wisconsin State Bar Business Law Section

AMERICAN OVERSIGHT

AB 588/SB 573 – Electric Vehicle Charging Stations

Rep. VanderMeer

Committee on Energy and Utilities

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jesse Johnson 266-8366

Assembly Bill 588 would ensure that private entities can make EV charging stations available to the public and allow a private entity to charge a fee for the use of an EV charging station without having to be classified and regulated as an electric utility.

EV usage is growing, as evidenced by registrations from the state's Department of Transportation (DOT). Additionally, in a cursory review of industry headlines, one can easily learn more about some of the steps that major automotive manufacturers have taken recently and continually to address the EV market. The market is here with consumers, however, current statutes are silent regarding allowing entities to charge for EV charging stations and station services. Private organizations and entities should be able to charge for stations and services similar to any other good or service, understanding that this is, in fact, a unique service and as mentioned, a novel concept as far as our statutes are concerned.

ASA2, as adopted by the Committee on Energy and Utilities, incorporates a number of points brought up during and after the public hearing on the bill from committee members and stakeholders/interested parties, and primarily removes provisions in the original bill allowing for public entities to offer EV charging station services to the public and charge for the service.

AA2 to ASA2, as adopted by the Committee on Energy and Utilities, primarily broadens the definition of municipalities in the substitute amendment to refer to "political subdivisions," and also inserts a provision brought forward by an Assembly GOP member of the Energy and Utilities Committee that requires any state funds allocated to a public utility for the purposes of installing an EV charging station to first be approved by the Joint Committee on Finance (JFC) and a 13.10 meeting.

AA3 to ASA3, as adopted by the Committee on Energy and Utilities, brought forward by the Chair of the Committee on Energy and Utilities, was requested by the State DOT and makes a change to the substitute amendment regarding state agencies controlling EV charging stations.

The bill, as amended and approved, allows for political subdivisions to offer EV charging services 'internally' for their own fleet vehicles, or partner with a private entity to offer EV charging services to the public, but not to compete directly with private entities/organizations to offer those services to the public. Additionally, there are some grandfather provisions in the bill, as amended and approved, that are intended to cover existing political subdivision EV charging stations (reference: ASA2 to AB 588, Nonstatutory provisions, page 5, lines 18-21).

Committee Chair's Summary of Proceedings

Prepared by: Garrett Huffman at 267-5158

Fiscal Effect:	No State Fiscal Effect Reported
Supporter's Message:	AB 588 exempts electric vehicle charging station owners and operators from public utility regulations and authorizes that owner or operator to charge a fee for the use of the charging station. EV drivers who do not have access to a charging outlet at home or work rely on public charging outlets at convenient locations—AB 588 expands EV locations.

AMERICAN OVERSIGHT

	As electric vehicles and vehicle charging become more common there is a need to allow charging vendors to bill consumers by the amount of energy consumed.
Opponent's Message:	AB 588 authorizes taxpayer-funded electric vehicle (EV) charging stations.
ASA2 prevents local governments from providing EV charging to the general public.	
AB 588 will significantly limit the use of solar + storage EV charging equipment in Wisconsin.	
Key Supporters:	Rep. VanderMeer, Sen. Cowles, Kwik Trip, Diaryland Power Coop, Customers First Coalition, Municipal Electric Utilities of Wisconsin, WI Auto & Truck Dealers Assoc, WI Conservative Energy Forum, WI Electric Cooperative Assoc, WI Manufacturers & Commerce, WPPI Energy

AMERICAN OVERSIGHT

AB 721/SB 695 – Tribal Charter Schools

Rep. Steffen

Committee on Education

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: ***Nick Esbeck (6-5840)***

Under current law, multiple entities are permitted to establish and operate charter schools. Out of all of the authorized entities, only tribal colleges are restricted to a specific number of schools. This legislation will lift the cap on the number of independent charter schools a tribal college may authorize. Current law allows tribal colleges to authorize a maximum of six charter schools between the only two tribal colleges in Wisconsin, the College of Menominee Nation and the Lac Courte Oreilles Ojibwa Community College.

The Office of Educational Opportunity in the UW System, a technical college district board, and the county executive of Waukesha County currently are able to establish and operate charter schools, but do not face the same numerical restrictions. Most authorizers are restricted by geographical boundaries.

This legislation aims to eliminate the arbitrary cap on the number of schools that a tribal college is allowed to authorize, and creates parity between tribal colleges and other authorizers of charter schools in addition to expanding school choice and educational opportunity across Wisconsin.

Committee Chair's Summary of Proceedings

Prepared by: Katie Scott, 6-3156

Fiscal Effect:

Indeterminate.

Supporter's Message:

- Independent charter schools have proven to be extremely successful.
- It's great to have charter schools as more options for families and students.
- This bill simply puts equity into the statutes, as tribal colleges are the only authorizers for independent charter schools that are capped at the number of schools they may authorize.

Opponent's Message:

- Opponents to the bill do not support the authorization of any additional independent charter schools.

Key Supporters:

La Coute Oreilles, Lake Country Classical Academy, Menominee Tribe

Key Opponents:

WEAC, Association of Wi School Administrators, WI Association of School Boards,

Committee Vote(s):

AB 721 passed committee on a partisan **9-4** vote.

AB 865/SB 812 – Regulation of certain electric fences

Rep. James

Committee on Criminal Justice and Public Safety

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Victoria Casola, 6-9172

This bill would define a battery-powered, electric security fence and limit the authority of political subdivisions in the regulation of these fences. A battery-powered electric security fence would be defined as an electric fence that: is equipped with an energizer that produces a direct current and is powered by a commercial storage battery, produces an electric charge on contact, is connected to a system that signals law enforcement, includes warning signage, is surrounded by a perimeter fence, and does not exceed in over ten feet in height or two feet higher than the perimeter fence. This bill also prohibits political subdivisions from requiring any permit for the installation of these fences except for an alarm system permit and prohibits individuals from locating this type of fence on residential property.

Committee Chair's Summary of Proceedings

Prepared by: Ericka Braatz 6-1182

Fiscal Effect:

None

Supporter's Message:

- This would standardize the requirements for these types of fences across the state.
- These are only for businesses, not residential houses.
- Used by many businesses to help prevent theft of items which have to be stored outdoors. Examples include auto salvage and auction lots, trucking companies, shipping and distribution hubs, landscapers, and other business with vehicle fleets.
- These electric fences must have an exterior fence, which is still regulated by the municipality. If that fence is in compliance then this legislation kicks in.
- This bill will help with the issues of permitting in municipalities across the state, where some are not sure how to regulate these electric fences and there can be different requirements depending on the municipality.
- 13-14 other states already have this type of legislation and 7-8 more states are pending.

Opponent's Message:

- We shouldn't create carve-outs for one type of company.

Key Supporters:

Amarok LLC

Reps. James, Cabral-Guevara and Sen. Wanggaard

AMERICAN OVERSIGHT

AB 889/SB 829 – Non-homestead Foreclosure Equity Theft

Rep. Zimmerman

Committee on Housing and Real Estate

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Mark Austinson 6-1526

Currently, under Wisconsin's property tax enforcement laws, if a property owner is unable to pay their property taxes, counties are authorized to seize the property and sell it to pay off the property taxes owed. Upon selling the property, the county must determine the net proceeds of the sale, which is equal to the sale price minus the unpaid taxes as well as any costs the county incurred that are associated with the tax delinquency, foreclosure, and sale of the property.

However, after paying off the property taxes that are owed, along with the costs associated with the foreclosure and the sale, the county may then keep any net proceeds unless the property is the former owner's homestead. For all other types of property (commercial, farm, vacant land, etc.), the county makes an oftentimes substantial profit and is allowed to keep those proceeds, regardless of how minor the tax delinquency was.

This bill will require counties to pay any net proceeds in a non-homestead property tax foreclosure sale to the former owner of the property, as is currently required for homestead properties.

An amendment introduced by the authors will make a minor change requested by the county treasurers and will also put in place a provision stating that the original property owner forfeits their remaining equity if they fail to respond to the county and request their equity within 5 years of the foreclosure.

Committee Chair's Summary of Proceedings

Prepared by: Alex Braaten 6-1194

Fiscal Effect:

- DOR: No state fiscal effect. The local cost is indeterminate

Supporter's Message:

- Under the Fifth Amendment of the U.S. Constitution, the government is prohibited from taking property for a public purpose without just compensation. This protection applies to all property, whether real or personal. Keeping the remaining equity in a person's property after a foreclosure sale is exactly the type of government "taking" that the constitution was created to prevent.
- Foreclosure equity theft magnifies financial hardships: Generally, property owners fail to pay their property taxes and go into foreclosure due to some catastrophe in their lives such as a major medical issue, divorce, job loss, or death in the family. Keeping the equity in an owner's property makes such financial hardships even worse and could permanently prevent the owner from making a financial recovery.

Opponent's Message:

- City of Milwaukee and WCA's main concerns overlap. They state that while there are occasions where there is remaining equity after a foreclosure sale of a non-homestead property, in the vast majority of cases, the city/county loses money on these properties and never gets reimbursed for selling them/razing them/bringing them up to code. It appears that the city and some counties have come to rely on the instances where there is remaining equity to pay for the work they are doing to manage the properties they lose money on.
- Additionally, the City of Milwaukee is concerned that tracking the expenses for individual non-homestead properties will be administratively burdensome.
- Counties are concerned that the burden of contact falls on them and in the majority of instances, the individual cannot be reached and they often don't know who it is or where to send the notice. They would like the county to permanently acquire the equity after giving the owner only 60 days, not 5 years.

AB 893/SB 833 – Grants for Teaching College Courses in High Schools

Rep. Murphy

Committee on Education

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Katie Scott, 6-3156

This bill eliminates the sunset date for the Early College Credit Program and allows high school students to continue to benefit from the funding that has already been set aside. The Early College Credit Program awards grants to assist high school teachers in covering tuition expenses for courses taken to meet the minimum qualifications necessary to teach dual enrollment courses.

Assembly Amendment 1 to the bill ensures independent charter schools will be able to participate in the Early College Credit Program.

Committee Chair's Summary of Proceedings

Prepared by: Katie Scott, 6-3156

Fiscal Effect:

None.

Supporter's Message:

- The Early College Credit Program offers students the ability to earn college credit while in high school. This can result in a student graduating college faster, entering the workforce earlier, and extending their earnings potential over a lifetime.
- Establishing positive relationships between high school students and Wisconsin colleges also increases the chance that highly skilled and academically talented students will complete their college education in our state and remain here after they graduate.
- This bill helps students with the high cost of a post-secondary education, and it can help Wisconsin's current labor shortage that is being experienced across all sectors of the economy.

Opponent's Message:

- We first need to look at the program's finances and budget before we look at this bill.
- Schools first need a pipeline of educators credentialed to take on these courses as opportunities become available.

Key Supporters:

WI Association of School Boards, Elmbrook Schools, UW System, WI Technical College System Boards Association, WI Technical College System, School Administrators Alliance, WI Association of Independent Colleges and Universities, DPI, WiRSA, WMC, WI Council of Religious and Independent Schools

Key Opponents:

AB 894/SB 835 – Land Use Issues

Rep. Robert Wittke

Committee on Local Government

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Terri S Griffiths 266-0731

Assembly Bill 894 addresses land use and boundary issues that both the Wisconsin Towns Association and the Wisconsin League of Municipalities had on their respective lists to fix, and they agreed on the language for this bill.

- Closes an incorporation loophole. (arises from varying standards for incorporation, annexation and boundary agreements)
- Allows municipalities to annex town territory across county lines with landowner's unanimous consent.
- Clarifies that municipal extraterritorial land division and zoning powers do not apply to municipal islands or corridor/strips. (e.g. "balloon on a string")
- Prohibits municipalities from using condemnation (outside municipal boundaries) to acquire blighted properties for the purpose of transferring property to 3rd party developers; further requires municipalities to provide written findings before commencing condemnation.
- Increases the time where no interim zoning ordinance may be enacted affecting the same area from two years to five years after the expiration of the ordinance or the extension.

This bill will benefit the working relationships of local governments and create more efficiencies as they work together.

Committee Chair's Summary of Proceedings

Prepared by: Nolan Bursch, 6-7502

Fiscal Effect:

The state and local fiscal impact is indeterminate, but is anticipated to be minimal. DOA believes they will be able to absorb costs within current budget and position authority.

Supporter's Message:

- This bill is a compromise to resolve issues related to the municipal incorporation process, extraterritorial powers of municipalities, and municipal annexation powers.
- These changes promote consistency and cooperation between neighboring local governments.

Opponent's Message:

- The state shouldn't place limits on the amount of time to elapse before a municipality can expand.

Key Supporters:

- Reps. Wittke, Callahan, Moses, Mursau, Novak, J. Rodriguez, Snyder, Spreitzer, Swearingen and Zimmerman; Sens. Petrowski, Ballweg, Bewley, Cowles, Jacque and Marklein.
- League of Wisconsin Municipalities, Wisconsin Towns Association, and the Wisconsin Farm Bureau Federation.

Key Opponents:

No one testified or registered in opposition to the bill.

Passed Assembly Local Government **9-0**

AMERICAN OVERSIGHT

WI-REP-22-0206-A-002876

AB 917/SB 865 – Homeowners' Associations

Rep. Rob Brooks

Committee on Housing, Commerce, and Trade

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Christopher J. Schaefer, 608-267-2369

A homeowners' association is a subdivision organization that creates and enforces rules relating to properties within its control. Generally, when a property is purchased within a homeowners' association, the property owner and property automatically become association members and are required to pay dues.

At this writing, homeowners' associations are not regulated under Wis. Stat. Ch.703 as condominiums and, therefore, are not impacted by the obligations of the aforementioned statute. Condominiums and homeowners' associations are separate and distinct, governed by different rules and statutes. The distinctions between these two entities are difficult to ascertain. Accordingly, legislation was drafted to provide distinction and establish statutes specific to homeowners' associations.

This is a consequential first step towards delineating the clarity between homeowners' associations and condominiums and cogent guidelines for owners of these properties to abide by.

Amendment 1 to Senate Bill 865/Assembly Bill 917 does each of the following:

- Directs the Wisconsin Department of Financial Institutions to establish a process for allowing corporate and homeowners' associations filings to occur simultaneously, thus streamlining the registration process.
- Makes the meeting notices and changes to bylaws available only to association members, not the general public
- Establishes a $25 cap on the amount a homeowners' association may charge the property owner for copies of the rules and regulations/covenants and restrictions. If the homeowners' association possesses a website, the aforementioned documents must be published therein.

The bill is a much-needed first step in the process of demarcating the dissimilarities between condominiums and homeowners' associations. Perhaps more important, the bill intends to meliorate the living conditions of homeowners' association residents by making rules, regulations, and guidelines more procurable.

Committee Chair's Summary of Proceedings

Prepared by: Christopher Schaefer, 7-2369

Fiscal Effect:

According to the Department of Financial Institutions, there would be a one-time cost of $411,884 to develop, test, and implement a system with the necessary filing, searching, security, and administrative functions to enable the department to effectively administer this legislation.

Supporter's Message:

- Senate Bill 865 allows buyers to better understand any obligations, limitations, or fees associated with purchasing a property in an HOA.
- The bill makes regulations more transparent to property owners and prospective buyers.
- Senate Bill 865 creates a reasonable statutory framework for HOAs for consumers to gain information.

Opponent's Message:

- The bill should have contained provisions giving greater regulatory authority to HOA management companies.
- With limited time and ability to enforce their rights, HOA owners simply do not pay and leave it to their members to pick up the costs or force the association to bring a small claims action which could cost as much as the amount of the debt.

AMERICAN OVERSIGHT

WI-REP-22-0206-A-002837

• HOAs lack any substantive lien priority rights. These should be considered in future legislation.

Committee Vote(s):
Passed **5-0** by the Senate Committee on Housing, Commerce and Trade on February 9, 2022. The bill was approved **32-0** by the Wisconsin State Senate on February 15, 2022 and Passed as amended: **6-2** by the Assembly Committee on Housing and Real Estate on February 16, 2022.

AMERICAN OVERSIGHT

AB 919/SB 867 – Shoreland Zoning Clarification

Rep. Swearingen

Committee on Transportation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Taylor Corkran 7-9443

The legislative intent of 2015 Wisconsin Act 55 was to set a scale of 35 feet of viewing corridor for every 100 feet of shoreline frontage – effectively ensuring a 35% viewing corridor. Some counties, however, have interpreted this statute to mean any property with less than 100 feet of frontage is not entitled to any viewing corridor at all.

AB 919 would allow the buffer zone to contain a viewing corridor with a width along the shoreline of no less than 35 feet or 35% of the shoreline frontage, whichever is greater. Assembly Substitute Amendment 1 alters the 35-foot provision to 10 feet but maintains the 35% provision. This was crafted in the attempt to further clarify and ensure that the language accomplishes the desired outcome.

In addition, we have been asked to address an issue relating to bridges within a shoreland zoning setback area. Currently, bridges are not included in the list of structures that are permitted within the 75-foot area.

AB 919 would add county and municipal bridges that have been issued a permit by the Department of Natural Resources to the list of allowable structures.

Committee Chair's Summary of Proceedings

Prepared by: Patrick Gehl, 6-3404

Fiscal Effect:

None

Supporter's Message:

- This bill clarifies shore land zoning requirements for properties with less than 100 feet of shoreline property. Additionally, it allows local governments to build bridges within the shore land zoning setback if they receive DNR permits.

Opponent's Message:

- This issue does not need legislation to provide clarification [hypothetical]

Key Supporters:

Wisconsin Realtors Association, Oneida County, Rep. Swearingen

Key Opponents:

None

Committee Vote(s):

Passed as amended by the Assembly Transportation Committee, 13-0
Passed as amended by Senate Natural Resources and Energy Committee, 3-2

AMERICAN OVERSIGHT

AB 928/SB 888 – Registration Periods for Motor Vehicles

Rep. Spiros

Committee on Transportation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Ericka Braatz 6-1182

Currently, the registration period for vehicles is effective the date of renewal until one year later. For example, if you renew on October 10, 2021, the registration will only be in effect until October 10, 2022. This bill looks to create a monthly series system for the registration of motor vehicles under 8,000 pounds; the standard cars, vans, trucks, and SUVs that are driven. This means that there would be 12 registration periods, beginning on the first day of the month and ending on the last day of the 12th month.

Additionally, the bill addresses the transfer of registration plates between vehicles to allow plates to be used on another vehicle of the same type and under 8,000 pounds, whether or not the weight is the same as the previous vehicle.

Committee Chair's Summary of Proceedings

Prepared by: Patrick Gehl, 266-3404

Fiscal Effect:

Indeterminate – Costs may be absorbed within agency budget

Supporter's Message:

- This bill simplifies the registration process for Wisconsinites and will reduce late fees charged to vehicle owners

Opponent's Message:

- Vehicle owners should be smart enough to follow the law as currently written [hypothetical]

Key Supporters:

Wisconsin Department of Transportation, Rep. Spiros, Sen. Petrowski

Key Opponents:

None

Committee Vote(s):

Passed Assembly Committee on Transportation 13-0
Passed the Senate Committee on Transportation and Local Government 5-0
Passed Senate by voice vote.

AMERICAN OVERSIGHT

AB 948/SB 893 – Nonprobate Transfers of Farming Implements at Death.

Rep. Macco

Committee on Agriculture

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Reanna Rasmussen 6-0485

Under current Wisconsin law, the probate process uses the courts to assist in the transfer of assets after an individual's passing. Probate process itself lasts for a minimum of 90 days, but in most cases it takes longer. During the court proceedings, beneficiaries do not have legal rights to the titles of their equipment until a final determination is made.

AB 948 will allow farmers to pass their farming implements through the "Transfer on Death" (TOD) process which eliminates the unnecessary court process, fees and delays. This process does not exempt the assets from any taxes or effect liens on the farming implements.

AA1 to AB 948 removes the reference to recording the document with the Register of Deeds as this is not a requirement for TODs and requires at least one of the witnesses on the TOD be a "disinterested witness".

Committee Chair's Summary of Proceedings

Prepared by: Reanna Rasmussen 6-0485

Fiscal Effect:

Indeterminate decrease in fees collected by courts.

Supporter's Message:

- Farming equipment is expensive and easily triggers the requirement for the assets to go through probate.
- By allowing farming implements to be transferred through Transfer on Death (TOD) the process will be simplified for our farmers.
- Beneficiaries do not have to wait an extended time before being able to manipulate their farming assets as they see fit through TOD.
- TODs are already used to transfer 401ks, IRAs, farmland, etc.
- Transferring through a TOD does not affect any tax requirements or liens.

Opponent's Message:

- None heard in committee

Key Supporters:

Representative Macco, Senator Ballweg, Concordia University, Cooperative Network, Dairy Business Association, Midwest Food Products Association, Midwest-SouthEastern Equipment Dealers Association, Wisconsin Agri-Business Association, Wisconsin Association of Professional Agricultural Consultants, Wisconsin Cattleman's Association, Wisconsin Cheese Makers Association, Wisconsin Corn Growers Association, Wisconsin Farm Bureau Federation, Wisconsin Farm Credit Services, Wisconsin Farmers Union, Wisconsin Pork Association, Wisconsin Potato and Vegetable Growers Association,

Passed Senate by voice vote.

AMERICAN OVERSIGHT

AB 849/SB 900 – Resolving Title Issues of historic filled waterfront property

Rep. Robert Wittke

Committee on Environment

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Terri S. Griffiths 266-0731

Assembly Bill 849 (AB 849) would create a framework to provide certainty surrounding legal title of former lakebed and riverbed land. The need for this legislation is not new as other legislators have worked on it with various stakeholders. AB 849 creates a process for a municipality to review a proposal for the establishment of a Great Lakes shoreline specifically where the shoreline was "filled" prior to December 9, 1977 when no permit was required for permanent alterations, deposits or structure along navigable waters.

Stakeholders and legislators have raised concerns over time as we've worked on AB 849. As a result, key stakeholders worked to clean up uncertainties in the language, to address public access concerns, to simplify the draft to garner support, and to include findings-of-fact for even more clarity as to the intent of the legislature.

ASA 1 to AB 849 makes numerous technical changes and includes findings (nonstatutory) for clarity. Key changes include:

- Limits the scope of the bill relating to certain commercial rivers and harbors by applying it to land located within cities and villages, and specifying only certain river beds and not certain harbor areas included in the bill.
- Allows a record title holder to apply to the municipality for a shoreline determination. The municipality must approve and then submit the request to the DNR.
- Clarifies the role of the DNR in establishing a shoreline as follows: The DNR must adopt the shoreline approved by the municipality (after public notice and comment period) unless substantial evidence is presented indicating land is not upland from the shoreline.
- Prohibits legal action affecting the title by any person, the state, or any local unit of government based on an assertion that the property includes portions of land that may have been submerged beneath a Great Lakes water, if the land has been at an elevation above the ordinary high water mark since December 9, 1977, and the property is not subject to a lake bed grant or a submerged land lease.
- Requires municipalities to determine that the proposed use of the shoreline will provide public access or use of the property

AB 849 as amended by ASA 1 is the result of work by and between the development community and the League of Wisconsin Municipalities. This is a unique coming together of two entities not typically in agreement on land and water use issues.

Committee Chair's Summary of Proceedings

Prepared by: Adam Tobias 266-5350

Fiscal Effect:

The overall fiscal impact of the bill is indeterminate because there is substantial uncertainty related to the amount of projects that will be subject to this legislation. In total, program expenditures are estimated at $1,250 per submittal.

Supporter's Message:

- Creates a process for a municipality to review a proposal for the establishment of a Great Lakes shoreline

AMERICAN OVERSIGHT

- Gives clarity to an issue that has been of concern to entities looking forward to developing land that is no longer submerged.
- The bill includes a “lake section” and a “rivers section” because ownership issues are different for each.
- Provides Great Lakes communities with opportunities to improve contaminated and blighted parcels along the shoreline.

Opponent’s Message:

- The bill violates the Public Trust Doctrine

Key Supporters:

Wisconsin Realtors Association, Wisconsin Land Title Association, Wisconsin Economic Development Association, Wisconsin Builders Association, NAIOP Wisconsin, League of Wisconsin Municipalities and Apartment Association of South Central Wisconsin.

Key Opponents:

Clean Wisconsin, Green Fire Wisconsin, Midwest Environmental Advocates, Sierra Club of Wisconsin and Wisconsin Conservation Voters.

Committee Vote(s):

On Feb. 22, 2022, the Assembly Environment Committee recommended passage of Assembly Substitute Amendment to Assembly Bill 849 by a vote of 7-0 and Assembly Bill 849 as amended by a vote of 6-2.
Passed the Senate Committee on Government Operations, Legal Review and Consumer Protection 3-2
Passed Senate by voice vote.

AMERICAN OVERSIGHT

SB 934 – LAB Election Audit (Pre-Election)

Rep. Barbara Dittrich

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Meagan Matthews (6-8551)

AB 1005 closely follows recommendations made from the Audit Bureau for clerk training, maintenance of voter registration records, and electronic voting equipment. It also takes preventative measures so that the voter disenfranchisement that occured in Milwaukee and Green Bay during the April 2020 elections will not happen again.

- This legislation implements a regular schedule for data to be requested from the Electronic Registration Information Center (ERIC) and makes it clear that said information shall be used by WEC to update state voter rolls.
- Data sharing agreements with the Departments of Transportation, Health Services and Corrections are required to be regularly updated and information about potential changes of address, deaths or felonies are to be shared daily with WEC.
- The recommended practice of pre-testing electronic voting equipment will be required and resulting materials are to be retained for 22 months.
- WEC must promulgate rules for additional clerk training related to certain aspects of electronic equipment usage. Municipal clerks must notify both the county clerk and WEC whenever election equipment is rented.
- Municipal clerks must receive three hours of training before conducting their first election. The governing body of a municipality shall notify WEC of clerk vacancies. If training has not occurred or a vacancy exists too close to an election, the county clerk may step in to run that election.
- Prohibits voting equipment from being connected to the internet
- If a voter is required to wait longer than one hour to cast their ballot on election day, the municipality must take action prior to the next election to reduce wait times.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

DOT- State: Increase costs will not be able to absorb within agency
Local- Indeterminate—fund affected: SEG
ELEC- State: indeterminate—increase costs may be able to absorb within agency
Local: indeterminate—increase costs—units affected: towns, villages, cities, counties, and school districts
Fund affected: GPR

Supporter's Message:

- The courts have ruled that WEC does not have the explicit authority to inactivate voter registrations. We need to clarify that they have this ability
- Comparison of data between state agencies should happen on a regular basis and be acted upon.
- Every voter should be able to cast their vote in less than an hour. Polling places should not be reduced to the level seen in Milwaukee in 2020.
- Prohibiting election equipment from being connected to the internet will enhance voter confidence in elections and protect from any possible interference.

Clerks need to be appropriately trained before administering elections.

-

Opponent's Message:

AMERICAN OVERSIGHT

- We are disenfranchising eligible voters by inactivating their registration if reliable information is received that the voter has moved.
- Clerks may not have time to complete training prior to administering their first election. In some cases, a county clerk may not have the ability to serve in their absence.
- We can address the long lines at the polls through more funding for elections
-

AMERICAN OVERSIGHT

SB 935 – LAB Election Audit: Election Day

Rep. Macco

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Reanna Rasmussen 6-0485

AB 1004 is primarily focused on Election Day topics derived from the items highlighted by the Legislative Audit Bureau's Election Administration Audit and recommendations from the election review performed by the Wisconsin Institute for Law and Liberty.

This legislation ensure that Special Voting Deputies may only be barred from assisting in the voting process due to a public health emergency or an incident of infectious disease when a facility is closed to the public and when the administrator informs the municipal clerk of the closure in writing. In such cases, personal care voting assistants must be appointed, trained and take an oath of office before assisting residents. They may not register residents to vote and must document the assistance given. *LAB-p.54*

The use of private resources for election administration will no longer be allowed. Additionally, contracts that infringe on election administration or transfer duties or power to outside interests are banned. Only trained and sworn election officials will be allowed to assist in counting votes or other election administration responsibilities. *LAB-p.60, WILL-p.115*

Election officials are barred from accepting invalid registrations or rejecting valid registrations and must report any election fraud committed by another official. Paid employees of campaigns, political parties or similar groups may not serve as poll workers.

Absentee ballot certificates must include both the voter and witness's full name, house number, street name, municipality and signature. Clerks must notify the voter of missing information via MyVote and may contact the voter via other means or return the ballot if time permits. They are not allowed to supply missing info themselves. *LAB-p.45, WILL-p.116*

In the case of a natural disaster, ill or incapacitated staff, or physical damage a municipal board of canvassers may recess, but must reconvene as soon as possible. *LAB-p.63*

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- Makes LAB recommended fixes to election procedure
- We need a process to ensure those living in care facilities receive the assistance they need during a public health emergency
- Private funding to administer elections is unacceptable as the donor may choose which communities will benefit the most
- Clear instructions on ballot certificates will reduce the likelihood that errors are made. Only the voter or the witness should be allowed to make changes to their ballot – not the clerk.

Opponent's Message:

AMERICAN OVERSIGHT

- This bill makes it impossible for clerks to do their job. They do not have time to contact every voter over small mistakes
- Prohibiting poll works who are employed by political organizations will only further reduce the pool of eligible poll workers.

AMERICAN OVERSIGHT

SB 936 – LAB Election Audit: Post-Election Day

Rep. Macco

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Reanna Rasmussen 6-0485

AB 1003 is primarily focused on Post-Election topics derived from the items highlighted by the Legislative Audit Bureau's Election Administration Audit and recommendations from the election review performed by the Wisconsin Institute for Law and Liberty.

Formal complaints over election issues must be resolved by WEC within 60 days unless a majority of commissioners vote to extend the deadline. Once resolved, the redacted complaint is to be shared with standing election committees and the legislators representing the location involved. Lawsuits related to possible election law violations by WEC can be filed without first filing a complaint. *LAB-p.99, 100, WILL-p.113*

WEC is to annually provide a description of each formal complaint received along with general counts and summaries of concerns received by staff throughout the year. *LAB-p.99, 100*

This bill builds on current WEC postelection audit practices of hand counting five percent of all reporting units while adding additional requirements to ensure appropriate sampling. The hand-count is to be done during the county canvass. Results will be sent to LAB to review and recommend any necessary improvements to the legislature. Finally, the audit must be completed prior to certification of election results. *LAB-p.84, 85*

In the case of a recount, clerks must print copies of electronically received absentee ballot request forms for review.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

Indeterminate

Supporter's Message:

-
- Ensures election complaints are addressed in a timely manner by members of the commission
- Promotes transparency of complaints
- Codifies a post-election audit procedure

Opponent's Message:

-
- WEC has a procedure for a post-election audit already making this bill unnecessary
- Additional administrative duties related to elections complaints will increase the workload of the commission

SB 937 – Indefinitely Confined Voters

Rep. Duchow

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Dan Hubert 266.3007

This legislation restores the original intent of the "indefinitely confined" provisions in state statute. Among other things, the bill does the following:

- Clarifies that "indefinitely confined" status can only be claimed by a voter who is "indefinitely confined and cannot travel independently without significant burden because of frailty, physical illness, or a disability that will last longer" than one year.
- ***SA 2 clarifies the illness is *expected* to last longer than one year***
- Specifies that an outbreak or epidemic does not qualify the voter as indefinitely confined.
- Requires WECcreate a separate application for indefinitely confined status.
- Currently, identification is not required to obtain "indefinitely confined" status. This bill requires proof of identification. If the voter does not have photo ID, a witness must attest to the voter's identity, and the voter must provide the last 4 digits of their Social Security Number (SSN).
- ***SA 1 clarifies that the attestation is for the voter's identity, not the voter's health status***
- ***SA 3 provides that the clerk shall affirm that the elector provided appropriate proof or information.***
- Removes voters from "indefinitely confined" roles automatically if they go to the polls to vote.
- Directs the WEC to facilitate the removal of all "indefinitely confined" voters added between March 12, 2020 and November 3, 2020.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 266.7141

Fiscal Effect:

No agency has submitted a fiscal estimate. The WEC may incur some costs and staff time developing a separate application for indefinitely confined voters, and working with clerks to facilitate the removal of certain voters from the indefinitely confined lists.

Supporter's Message:

- Under current law, voters who claim "indefinitely confined" status do not have to show photo ID, and they are automatically mailed ballots for every election.
- This legislation restores the original intent of the "indefinitely confined" provisions in state statute.
- In March 2020, clerks in Milwaukee and Dane Counties declared all voters in their counties as "indefinitely confined" based on the Governor's Stay at Home Order.
- In its review of the 2020 election, the Legislative Audit Bureau found a massive influx of voters claiming "indefinitely confined" status—an additional 169,901 claiming that status for the first time.
- All told, 220,404 "indefinitely confined" voters cast ballots in the 2020 election, including 48,544 individuals who had not previously voted by methods that required them to have provided photo ID.
- The Wisconsin Supreme Court in *Jefferson v. Dane County* later invalidated the orders from Dane and Milwaukee County, but permitted each individual voter to determine whether they were "indefinitely confined."
-

Opponent's Message:

- Makes it harder for citizens with long-term disabilities to vote.
- The requirement that the disability is expected to last longer than 1 year is arbitrary and has no legal or medical justification; what matters is the current election.

AMERICAN OVERSIGHT

• Will disenfranchise voters who might be well enough to drive to the polls in February, lose the status, and not know they have to reapply for "indefinitely confined" for the next election.

AMERICAN OVERSIGHT

SB 938 – Verifying Citizenship for Voting

Rep. Knodl

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: James Mietus [6-3796]

Assembly Bill 998 requires the Department of Transportation to include a notation on driver's licenses issued to non-citizens that the card is not valid for voting purposes.

The bill also requires the Wisconsin Elections Commission to run validation checks on the list of registered voters against the Department of Transportation's available citizenship data as well as the Department of Homeland Security's Systematic Alien Verification for Entitlements (SAVE) database in order to confirm the citizenship status of individuals who have registered to vote.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran (6-7141)

Fiscal Effect:

A report from the GAB previously estimated that SAVE implementation would cost $1.19 million for start-up and the first five years of operation

Supporter's Message:

- We have documented cases of non-citizens attempting (an succeeding in some cases) to vote
- This requires no new or additional effort on the part of the voter
- Licenses issued to non-citizens are effectively identical to those issued to citizens—by including a notation on the ID, we are helping clerks and poll workers do their job more effectively
- By interfacing with more than one dataset, we decrease the likelihood of eligible voters unintentionally being flagged as ineligible

Opponent's Message:

- The SAVE database was intended to be used to verify eligibility for government entitlement programs, not voting, and has wrongly flagged some voters as ineligible in the past
- Running verification checks on the SAVE database costs fifty cents per query

Key Supporters:

Rep. Knodl, Sen. Darling, Mequon City Clerk

Key Opponents:

League of Women Voters, Common Cause in Wisconsin

Committee Vote(s):

The Senate Committee on Elections, Election Process Reform, and Ethics voted to recommend passage (3-2).

AMERICAN OVERSIGHT

SB 939 – Absentee Ballot Applications, Absentee Ballots, Secure Delivery of Absentee Ballots

Rep. Gundrum

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: John Graber, 4-8486

This bill will create uniformity in the absentee ballot process and establish a more transparent election system.

According to WEC, when applying for an in-person absentee ballot, the ballot certificate may be used as both the certificate and the application. When applying for a mail-in absentee ballot, the individual must complete the form prescribed by WEC before receiving a ballot. This bill will require that the absentee ballot application is separate from the ballot certificate for both in-person and mail-in absentee ballots to create uniformity and eliminate confusion. A clerk issuing a ballot without a proper application is guilty of a Class I felony.

Under current law, those voting through the mail may request that absentee ballots be automatically sent for a calendar year. Further, an individual voting by mail is only required to provide proof of identification when they initially apply for ballots. This bill requires an individual to submit a new request for absentee ballots for each primary and its associated general election. Each request must be accompanied by proof of identification.

Wisconsin law is very clear – ballots shall be mailed by the elector or delivered in person to the municipal clerk. This bill will prohibit ballot harvesting by allowing only the elector, an immediate family member, or an individual designated in writing to return a ballot. An individual violating these provisions is guilty of a Class I felony.

While some municipalities may have the resources to send unsolicited ballot applications to every voter, others may not. This bill will prohibit the mailing of unsolicited mailing of ballot applications by a municipal clerk or the elections commission. Private dollars may be used to send these applications as long as the municipal clerk's address is used as the return address.

WEC's voter registration form allows a voter to check a box stating that they have neither an ID#, SSN#, nor DL# when registering to vote. According to WEC, the clerk would still register a voter if neither of these documents are provided. This bill makes it clear that at least one of these numbers be provided in order to register.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

Indeterminate

Supporter's Message:

-
- Closes voter ID loopholes for mail-in absentee voters
- Clarifies existing law relating to who may return a ballot
- Ensures that every registration includes proof of identification
- Prohibits public funds from being used to mail absentee ballot applications
- Eliminates confusion with mail-in absentee ballot applications vs in-person absentee ballot applications

AMERICAN OVERSIGHT

Opponent's Message:
• Requirements that a individual designated to return a ballot on behalf of a voter be a registered voter is overly burdensome. • Clerks should be able to mail unsolicited ballot applications • We are disenfranchising disabled and elderly voters • A Class I felony for •

AMERICAN OVERSIGHT

SB 940 – Relating to: comparison of voter information maintained by the Department of Transportation.

Rep. Rozar

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Colin Weeks - 608-267-0280

In order to maintain accurate voter rolls, we need to ensure voter data is complete and accurate.

When an individual registers to vote, they provide their name, address, date of birth, and an ID#. This information is then checked against the DOT database. When there is a mismatch, the clerk receives a flag notifying them to correct the information, however, there is no statutory requirement they do so. The LAB audit identified that some clerks do not address these mismatches which remain on voter rolls.

This bill will require WEC to compare each registration with DOT data within 10 days of the registration. If a mismatch occurs in a single field of information and that error is minor or the result of a clerical error, the clerk shall make a correction. If a mismatch occurs in more than one field of data or the discrepancy cannot be corrected with reliable information, the clerk must mail notice to the registrant requesting that they correct their registration. If the registration is not corrected within 30 days, it shall be inactivated.

The bill allows WEC to designate the responsibility detailed above, however, they are ultimately responsible to ensure this process is followed.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

DOT- Indeterminate
ELEC- Indeterminate

Supporter's Message:

- In order to properly maintain voter rolls and remove duplicate registrations, personally identifiable information needs to be accurate
- An individual must be notified before any action is taken to inactivate their registration
- An individual may re-register at the polls if their registration is inactivated due to a significant mismatch of their personally identifiable information
- The clerk is afforded the discretion to fix a registration that is the result of a clerical error or a common name discrepancy (Robert vs. Bob)
-

Opponent's Message:

- An individual could have their registration inactivated through no fault of their own and be unprepared to re-register on election day.

SB 941 – Overseeing the Administration of Elections

Rep. Vos

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jake Wolf, 6-9171

This bill will further bipartisan goals through required legislative oversight of federal actions impacting our elections, enhanced reporting requirements, and viewpoint diversity at the Wisconsin Elections Commission.

Recent executive action directed federal agencies to identify ways to "promote voter registration and voter participation." The ambiguity of this directive calls for proper legislative oversight of any actions by the federal government to intervene in the administration of our elections. Any attempt by the federal government to exercise control through federal funding incentives should also require proper oversight. This bill will require that any federal election guidance or federal funds be passively reviewed by the Joint Committee for the Review of Administrative Rules and the Joint Committee on Finance.

Under current law, clerks are required to submit reports on election statistics to WEC and the county clerk. This bill will expand these requirements to include a reconciliation of ballots requested from the county clerk, the number of ballots cast, and the number of unused ballots. Clerks will also be required to report on additional election statistics such as the number of defective ballots recreated, the number of ballots that were not counted and the reason why they were not counted, and the location of each residential care facility and the number of ballots cast at each facility. These reports will be required to be reviewed by the non-partisan Legislative Audit Bureau for accuracy.

To ensure viewpoint diversity at the Elections Commission, the two existing nonpartisan legal counsel positions will be replaced with partisan legal counsel. These counsel will be appointed by legislative leadership of the two major political parties.

Finally, the bill requires that WEC archive a copy of the registration list each month and retain each copy for 22 months. Due to the dynamic nature of this list, this provision will provide needed context for future reviews of the voter rolls.

Committee Chair's Summary of Proceedings

Prepared by: Jake Wolf 6-9171

Fiscal Effect:

None

Supporter's Message:

- The U.S. Constitution clearly states that elections are administered by the states, not the federal government
- Promoting voter registration and participation is a goal we can all get behind, however, oversight is required to ensure these initiatives are being implemented fairly – not favoring one political party over the other.
- Shifting to partisan legal counsel at WEC will improve the work of the commission by ensuring they hear from both sides before making a decision
- This bill includes a similar provision to legislation introduced in 2009 by democrat legislators required legislative oversight of federal economic stimulus funds
- Additional reporting requirements on election statistics will increase public confidence in our election process

Opponent's Message:

- Bipartisan legal counsel better promote viewpoint neutrality and should be maintained at WEC
- The state should welcome any federal assistance to fund our elections and drive voter turnout

AMERICAN OVERSIGHT

• New reporting requirements on clerks will create an administrative burden to an already overworked profession

AMERICAN OVERSIGHT

SB 942 - State agency compliance with election laws.

Rep. Kevin Petersen

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Office of Rep. Petersen 237-9140

The nonpartisan Legislative Audit Bureau Report 21-19 of October 2021 on Elections Administration shows certain laws were not followed or enforced because the entity or entities in charge did not perform their duties.

Specifically, DOT, DOC, and DHS did not maintain data sharing agreements in accordance with state law. These agreements are used to verify the accuracy of voter rolls by identifying personal information, felony convictions and deceased individuals.

AB 1000 requires the Wisconsin Elections Commission (WEC) to produce a report and the Department of Administration (DOA) to commence a passive review request relating to state agency compliance with election law. The passive review request commences shortly after each April election and automatically expires after 45 days. This process would allow the Joint Finance Committee to reduce funding or FTE positions for WEC, DOT, DHS, or DOC for any violation of election law.

Committee Chair's Summary of Proceedings

Prepared by: Jim Bowers 608-237-9462

Fiscal Effect:	According to the Legislative Fiscal Bureau, the department is not able to ascertain the occurrence of failures unless and until such a forfeit were to occur.
Supporter's Message:	The prospect of the Joint Finance Committee holding the executive branch to account is well established in our statutes. Hopefully this enforcement power is never needed, but the Legislature should be equipped, as a co-equal branch of government, to defend the law.
Opponent's Message:	Reducing position authority or funding for WEC would penalize the staff, not the commissioners who are making the decisions.
Key Supporters:	
Key Opponents:	Common Cause in Wisconsin, League of Women Voters
Committee Vote(s):	During the Executive Session AB 1000 was passed out of committee on a vote. Passed the Senate Committee on Elections, Election Process Reform and Ethics 3-2 Passed Senate by voice vote.

SB 943 – Elections Commission Guidance Documents to JCRAR

Rep. Spiros

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Ericka Braatz 6-1182

This is an accountability bill that requires WEC to provide a weekly update to JCRAR of any guidance documents sent to municipal clerks. By giving JCRAR the ability to review these documents as they come out, they can determine if any of the guidance meets the definition of a rule. Under current law, JCRAR must then inform WEC that they must go through the rule-making process in order to promulgate the rule, which would have the effect of law. If JCRAR determines that the guidance meets the definition of a rule, WEC is required to inform the municipalities that the documents are no longer applicable and are withdrawn.

This bill also requires that WEC include a disclaimer on guidance noting that the document does not have the force of law.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- This bill gives JCRAR legislative oversight over WEC to determine if issued guidance meets the definition of a Administrative Rule
- Allows JCRAR to compel WEC to rescind guidance given to municipalities
- Provides clarity to clerks that guidance documents do not have the force of law

Opponent's Message:

- This will create an additional administrative burden on WEC

SB 945 – Voter Roll Purging through the Prospective Juror Database

Rep. Sortwell

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Zach Pfaffenbach, 6-9870

In the event of a prospective juror being flagged and disqualified due to not being a U.S. citizen or not living in the circuit for which they were called to serve, this bill requires each clerk of circuit court to notify the appropriate county clerk (adjusted in Amendment 1) and the Wisconsin Elections Commission (WEC).

When given notice, WEC is then required to examine the registration list for the respective disqualified juror and remove them if they have voted or are registered to vote and do not have the proper elector or residency qualifications.

To ensure that our voter rolls are clean and free of foreign interference, this legislation will combat any potential dishonesty and maintain the principle that every legal citizen's vote counts.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

CTS: no state effect ; Local effect – indeterminate – Increase costs (permissive)

SB 946 - Whistleblower Protections for Municipal Election Clerks

Rep. Kevin Petersen

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Office of Rep. Petersen 237-9140

To qualify for protection under the statute, an employee must disclose the protected information in writing to their immediate supervisor or to a governmental unit designated by the State of Wisconsin Equal Rights Division before sharing the information with anyone else other than an attorney, collective bargaining representative, legislator, or certain legal authorities.

Federal employees are protected by the Whistleblower Protection Act of 1989 which shields federal government employees in the United States from retaliatory action for voluntarily disclosing information about dishonest or illegal activities occurring in a government organization. Notably, these whistleblower protections do not extend to municipal clerks.

AB 1008 would change this by providing whistleblower protection for municipal clerks who witness and report election fraud or irregularities. Under the bill, no municipal clerk may be discriminated against in regard to employment, including by being discharged, disciplined, or demoted, as a reprisal because the clerk lawfully reported, or is believed to have reported, witnessing what the clerk reasonably believed to be election fraud or irregularities.

Committee Chair's Summary of Proceedings

Prepared by: Jim Bowers 608-237-9462

Fiscal Effect:	None
Supporter's Message:	Clerks who witness election fraud or irregularities should never be afraid to speak up about what they've seen. By protecting clerks that disclose illegal or unethical acts related to an election, like those that happened in Green Bay, we can help ensure that attempts to influence or undermine our elections are revealed before an election.
Opponent's Message:	The bill should be expanded to include the clerk's staff Clerks do not engage in dishonest or illegal activities and therefore this protection is not necessary
Key Supporters:	None
Key Opponents:	None
Committee Vote(s):	During the Executive Session AB 1000 was passed out of committee on a vote. Passed the Senate Committee on Elections, Election Process Reform and Ethics 3-2 Passed Senate by voice vote.

AB 959/SB 969 – Oneida Nation Purple Heart Reservation

Rep. Steineke

Committee on Transportation

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Joe Mesec, 7-9251

This simple legislation authorizes the Oneida nation to erect Purple Heart Reservation Signs in a highway right-of-way. AB 959 looks to honor this tradition and remove the administrative red tape to allow for the Oneida Nation to place signs in the right-of-way of a highway, within the boundaries of the reservation, designating Oneida as a Purple Heart Reservation.

This designation raises community awareness of the Oneida Nation's military sacrifices provided to the United States and honors the 15 tribal veterans who have received a Purple Heart. Due to the location of Oneida Nation's Purple Heart Memorial along I-29 and I-41, AB 959 is necessary to provide the legal authority for the signs to be erected.

Assembly Amendment 1 addresses signage on Federal Interstates. Since the Oneida Nation is starting the process with U.S. DOT/FHWA to obtain approval of the Purple Heart Reservation sign to be placed on I-29 and I-41 in the near future. Having exception language in state statute will allow Oneida to move forward immediately if the feds approve on those two highway systems.

Committee Chair's Summary of Proceedings

Prepared by: Patrick Gehl, 266-3404

Fiscal Effect:

- No state or local fiscal effect.

Supporter's Message:

- This bill is an important way to honor the sacrifices of Oneida Nation members in defense of our country

Opponent's Message:

- The state needs to adopt uniform rules for placement of commemorative signage on highways [hypothetical]

Key Supporters:

- Oneida Nation of Wisconsin, Rep. Jim Steineke

Key Opponents:

- None

Committee Vote(s):

ASSEMBLY SUBSTITUTE AMENDMENT 1,

TO SENATE BILL 946

February 24, 2022 – Offered by Representatives PETERSEN and TAUCHEN.

AN ACT ***to repeal*** 8.20 (8) (am); ***to renumber and amend*** 7.52 (1) (a); ***to amend*** 5.84 (1), 6.15 (4) (a), 6.15 (4) (b), 6.86 (1) (b), 6.87 (6), 6.88 (1), 6.88 (2), 7.15 (1) (cm), 7.52 (2), 7.52 (3) (a), 7.52 (4) (a), 7.52 (9) and 8.20 (8) (a); and ***to create*** 6.19, 6.88 (4), 7.15 (16), 7.52 (1) (a) 2., 7.52 (1) (d) to (h), 7.52 (10) and 66.0512 of the statutes; **relating to:** transmitting and canvassing absentee ballots, presidential ballots, nomination papers for certain independent candidates, whistleblower protection for municipal clerks, and providing a penalty.

Analysis by the Legislative Reference Bureau

EARLY CANVASSING OF ABSENTEE BALLOTS

Under current law, absentee ballots may not be canvassed until election day. Current law additionally provides that any municipality may provide by ordinance that, in lieu of canvassing absentee ballots at polling places, a municipal board of absentee ballot canvassers established by the municipality is responsible for canvassing all absentee ballots received by the municipal clerk by 8 p.m. on election day. In such a municipality, the board of absentee ballot canvassers is required to convene a meeting any time after the polls open and before 10 p.m. on election day

AMERICAN OVERSIGHT

to canvass the absentee ballots cast in the municipality in the election. Among the requirements governing such a meeting, any member of the public has the same right of access to the meeting that the individual would have to observe the canvassing of absentee ballots at a polling place.

Also under current law, other than as described above, votes, including votes cast by absentee ballot, are canvassed at the polling place after polls close on election day. However, in a municipality that uses an electronic voting system, the municipal clerk or municipal board of election commissioners may adjourn the vote canvass to a central counting location where votes cast at multiple polling places in the municipality and absentee ballots may all be counted after the polls close on election day.

This bill does all of the following:

1. Requires the municipal board of absentee ballot canvassers in a municipality having an ordinance described above to begin canvassing absentee ballots on the day before an election. Canvassing absentee ballots on the day before the election is optional except for each spring and general election and each special election or recall election if the special or recall election is for a state or national office.

2. Provides that no municipality may utilize a central counting location unless it has passed an ordinance providing for the canvassing of absentee ballots by a board of absentee ballot canvassers.

3. Provides that the board of absentee ballot canvassers must publicly convene at 7 a.m. on the day before the election to begin the canvass of absentee ballots for the municipality and recess at 8 p.m. on that day.

4. Requires that at 7 a.m., noon, and 8 p.m. on the day before the election, and at 7 a.m., noon, and 8 p.m. on election day, the municipal clerk or his or her designee must provide to the county clerk of the county in which the municipality is located a statement that shows the total number of absentee ballots returned to the municipality, the total number of absentee ballots the municipal board of absentee ballot canvassers has canvassed, and the total number of absentee ballots that remain to be canvassed. The county clerk must promptly post each statement on the Internet site on which the county clerk posts returns on election night. In a 1st class city, the city clerk or his or her designee may post the statement on the city clerk's Internet site. The statement may not include the names or addresses of any electors. An absentee ballot may be considered canvassed for purposes of this reporting requirement only after all tasks have been completed in the canvassing process except for the tallying of votes.

5. Requires that when the meeting of the board of absentee ballot canvassers recesses on the day before the election, the board must secure the automatic tabulating equipment, and the areas where the programmed media, memory devices, and absentee ballots are housed, with tamper–evident security seals in a double–lock location such as a locked cabinet inside a locked office. Before resuming the canvassing of absentee ballots, the board must check and record the status of each tamper–evident seal and must immediately notify the Elections Commission of any evidence of tampering. If the board discovers evidence of tampering with respect to automatic tabulating equipment, the canvass may not resume until the

AMERICAN OVERSIGHT

equipment is replaced and the replacement equipment is tested. Also, if the board discovers evidence of tampering, the municipality must conduct a recount after the election and must audit the election equipment to verify the accuracy of the absentee ballot count.

6. Provides that votes on absentee ballots canvassed early under the bill may not be tallied until after the canvass is complete or after the polls close on election day, whichever is later.

7. Provides that no person may act in a manner that would give him or her the ability to know or to provide information on the accumulating or final results from the ballots canvassed under the bill before the canvass is complete or before the polls close on election day, whichever is later. Whoever intentionally violates that prohibition is guilty of a Class I felony, the penalty for which is a fine not to exceed $10,000 or imprisonment not to exceed three years and six months, or both.

8. Authorizes municipalities not utilizing a central counting location and not having a board of absentee ballot canvassers to begin processing absentee ballots beginning at 7 a.m. on the day before the election subject to some of the requirements described above. In order to canvass absentee ballots early, such a municipality must provide by ordinance that absentee ballots received by the municipal clerk may be canvassed on the day before the election. Prior to enacting the ordinance, the municipal clerk must notify the Elections Commission in writing of the proposed ordinance and must consult with the Elections Commission concerning the early canvassing of absentee ballots.

Finally, under current law, criminal penalties are provided for election officials who commit certain specified kinds of election fraud. Otherwise, the willful neglect or refusal of an election official to perform a duty prescribed under the election laws is punishable by disqualification to act as an election official for five years. Under the bill, a member of the municipal board of absentee ballot canvassers or other election official who willfully neglects or refuses to perform any of the duties prescribed under the bill, and other duties prescribed under current law, with respect to the canvassing of absentee ballots by a municipal board of absentee ballot canvassers is guilty of a Class I felony.

ELECTION NIGHT REPORTING

Under the bill, at 9 p.m. on election night, and every hour thereafter until the canvass is complete, each municipal clerk or his or her designee must provide to the county clerk of the county in which the municipality is located a statement that shows the total number of ballots, including absentee ballots, cast at the municipality in the election, the total number of ballots, including absentee ballots, that have been canvassed, and the total number of ballots, including absentee ballots, that remain to be canvassed. The county clerk must promptly post each statement on the Internet site on which the county clerk posts returns on election night. In a 1st class city, the city clerk or his or her designee may post the statement on the city clerk's Internet site. The statement may not include the names or addresses of any electors. An absentee ballot may be considered canvassed for purposes of this reporting requirement only after all tasks have been completed in the canvassing process except for the tallying of votes.

AMERICAN OVERSIGHT

Issuance of presidential ballots

Under current law, certain new and former residents of Wisconsin may apply for and receive a ballot for the purpose of voting only for candidates for president and vice president at a presidential election in Wisconsin. The bill prohibits poll workers and other election officials from providing a ballot used for voting for the offices of president and vice president only, unless the elector is a new or former resident of the state and applies and qualifies for the presidential ballot as provided by law.

Timeline for sending or transmitting absentee ballots

Current law requires a municipal clerk to send an absentee ballot for each partisan primary, presidential preference primary, and general election to all electors requesting the ballot, including military and overseas electors, no later than the 47th day before the partisan primary, presidential preference primary, or general election or, if the request is not made before that day, within one business day after the request is received. For all other primaries and elections, the municipal clerk must send or transmit the absentee ballot no later than the 21st day before the primary or election or, if the request is not made before that day, within one business day after the request is received.

Under the bill, a municipal clerk must send or transmit an absentee ballot for all primaries and elections, regardless of the type of primary or election, to electors other than military and overseas electors no later than the 21st day before the primary or election or, if the request is not made before that day, within one business day after the request is received. Under the bill, a municipal clerk must send or transmit an absentee ballot for all primaries and elections, regardless of the type of primary or election, to military and overseas electors no later than the 45th day before the primary or election or, if the request is not made before that day, within one business day after the request is received. That 45th day timeline is consistent with federal law.

Nomination papers for certain independent candidates

Under current law, nomination papers for independent candidates for any office to be voted upon at a general election, except president and vice president, may be circulated no sooner than the April 15 preceding the general election and must be filed no later than 5 p.m. on the June 1 preceding the partisan primary, which is held on the second Tuesday in August preceding the general election. Under current law, nomination papers for independent candidates for president and vice president may be circulated no sooner than the July 1 preceding the general election and must be filed no later than 5 p.m. on the first Tuesday in August preceding a presidential election.

Under the bill, the timeline for circulating and filing nomination papers for independent candidates for president and vice president is the same as that for all other independent candidates for offices to be voted on at the general election: nomination papers may be circulated no sooner than the April 15 preceding the general election and must be filed no later than the June 1 preceding the partisan primary.

AMERICAN OVERSIGHT

WHISTLEBLOWER PROTECTIONS

The bill provides whistleblower protection for municipal clerks who witness and report election fraud or irregularities. Under the bill, no municipal clerk may be discriminated against in regard to employment, including by being discharged, disciplined, or demoted, as a reprisal because the clerk lawfully reported, or is believed to have reported, witnessing what the clerk reasonably believed to be election fraud or irregularities.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

SECTION 1. 5.84 (1) of the statutes is amended to read:

5.84 **(1)** Where any municipality employs an electronic voting system ~~which~~ that utilizes automatic tabulating equipment, ~~either at the polling place or at a central counting location,~~ the municipal clerk shall, on any day not more than 10 days prior to the ~~election~~ day on which the equipment is to be utilized in an election, have the equipment tested to ascertain that it will correctly count the votes cast for all offices and on all measures. Public notice of the time and place of the test shall be given by the clerk at least 48 hours prior to the test by posting notice on the municipality's Internet site if it has one and by publication of a class 1 notice under ch. 985 in one or more newspapers published within the municipality if a newspaper is published therein, otherwise in a newspaper of general circulation therein. The test shall be open to the public. The test shall be conducted by processing a preaudited group of ballots so marked as to record a predetermined number of valid votes for each candidate and on each referendum. The test shall include for each office one or more ballots which have votes in excess of the number allowed by law and, for a partisan primary election, one or more ballots which have votes cast for candidates of more than one recognized political party, in order to test the ability of the automatic tabulating equipment to reject such votes. If any error is detected, the

AMERICAN OVERSIGHT

municipal clerk shall ascertain the cause and correct the error. The clerk shall make an errorless count before the automatic tabulating equipment is approved by the clerk for use in the election.

SECTION 2. 6.15 (4) (a) of the statutes is amended to read:

6.15 **(4)** (a) Clerks holding new resident ballots shall deliver them to the election inspectors in the proper ward or election district where the new residents reside or, in municipalities where absentee ballots are canvassed under s. 7.52, to the municipal board of absentee ballot canvassers ~~when it convenes~~ at a meeting convened under s. 7.52 (1), as provided by s. 6.88 for absentee ballots.

SECTION 3. 6.15 (4) (b) of the statutes is amended to read:

6.15 **(4)** (b) During polling hours, or on the day before the election under s. 6.88 (4), the inspectors shall open each carrier envelope, announce the elector's name, check the affidavit for proper execution, and check the voting qualifications for the ward, if any. In municipalities where absentee ballots are canvassed under s. 7.52, the municipal board of absentee ballot canvassers shall perform this function at a meeting of the board of absentee ballot canvassers.

SECTION 4. 6.19 of the statutes is created to read:

6.19 Presidential ballots. (1) In this section, "presidential ballot" means a ballot that allows an elector to vote only for candidates for president and vice president.

(2) No election inspector or other election official may provide a presidential ballot to an elector for voting at a presidential election, except as provided under ss. 6.15 and 6.18.

SECTION 5. 6.86 (1) (b) of the statutes is amended to read:

AMERICAN OVERSIGHT

6.86 **(1)** (b) Except as provided in this section, if application is made by mail, the application shall be received no later than 5 p.m. on the 5th day immediately preceding the election. If application is made in person, the application shall be made no earlier than 14 days preceding the election and no later than the Sunday preceding the election. No application may be received on a legal holiday. A municipality shall specify the hours in the notice under s. 10.01 (2) (e). The municipal clerk or an election official shall witness the certificate for any in–person absentee ballot cast. Except as provided in par. (c), if the elector is making written application for an absentee ballot at the partisan primary, the general election, the presidential preference primary, or a special election for national office, and the application indicates that the elector is a military elector, as defined in s. 6.34 (1), the application shall be received by the municipal clerk no later than 5 p.m. on election day. If the application indicates that the reason for requesting an absentee ballot is that the elector is a sequestered juror, the application shall be received no later than 5 p.m. on election day. If the application is received after 5 p.m. on the Friday immediately preceding the election, the municipal clerk or the clerk's agent shall immediately take the ballot to the court in which the elector is serving as a juror and deposit it with the judge. The judge shall recess court, as soon as convenient, and give the elector the ballot. The judge shall then witness the voting procedure as provided in s. 6.87 and shall deliver the ballot to the clerk or agent of the clerk who shall deliver it to the ~~polling place~~ election inspectors of the proper ward or election district or, in municipalities where absentee ballots are canvassed under s. 7.52, to the municipal clerk as required in s. 6.88. If application is made under sub. (2) or (2m), the application may be received no later than 5 p.m. on the Friday immediately preceding the election.

AMERICAN OVERSIGHT

SECTION 6. 6.87 (6) of the statutes is amended to read:

6.87 **(6)** The ballot shall be returned so it is delivered to the ~~polling place~~ election inspectors of the proper ward or election district no later than 8 p.m. on election day. Except in municipalities where absentee ballots are canvassed under s. 7.52, if the municipal clerk receives an absentee ballot on election day, the clerk shall secure the ballot and cause the ballot to be delivered to the polling place serving the elector's residence before 8 p.m. Any ballot not mailed or delivered as provided in this subsection may not be counted.

SECTION 7. 6.88 (1) of the statutes is amended to read:

6.88 **(1)** When an absentee ballot arrives at the office of the municipal clerk, or at an alternate site under s. 6.855, if applicable, the clerk shall enclose it, unopened, in a carrier envelope which shall be securely sealed and endorsed with the name and official title of the clerk, and the words "This envelope contains the ballot of an absent elector and must be opened ~~in the same room where votes are being cast at the polls during polling hours on election day or, in municipalities where absentee ballots are canvassed under s. 7.52, stats., at a meeting of the municipal board of absentee ballot canvassers under s. 7.52, stats~~ only as provided by law." If the elector is a military elector, as defined in s. 6.34 (1), or an overseas elector, regardless of whether the elector qualifies as a resident of this state under s. 6.10, and the ballot was received by the elector by facsimile transmission or electronic mail and is accompanied by a separate certificate, the clerk shall enclose the ballot in a certificate envelope and securely append the completed certificate to the outside of the envelope before enclosing the ballot in the carrier envelope. The clerk shall keep the ballot in the clerk's office or at the alternate site, if applicable until delivered, as required in sub. (2).

AMERICAN OVERSIGHT

SECTION 8. 6.88 (2) of the statutes is amended to read:

6.88 **(2)** When an absentee ballot is received by the municipal clerk prior to the delivery of the official ballots to the election officials of the ward in which the elector resides or, where absentee ballots are canvassed under s. 7.52, to the municipal board of absentee ballot canvassers, the municipal clerk shall seal the ballot envelope in the carrier envelope as provided under sub. (1), and shall enclose the envelope in a package and deliver the package to the election inspectors of the proper ward or election district or, in municipalities where absentee ballots are canvassed under s. 7.52, to the municipal board of absentee ballot canvassers ~~when it convenes~~ at a meeting convened under s. 7.52 (1). When the official ballots for the ward or election district have been delivered to the election inspectors before the receipt of an absentee ballot, the clerk shall immediately enclose the envelope containing the absentee ballot in a carrier envelope as provided under sub. (1) and deliver it in person to the proper election officials.

SECTION 9. 6.88 (4) of the statutes is created to read:

6.88 **(4)** (a) 1. The governing body of any municipality not specified in s. 7.52 (1) (a) may provide by ordinance that absentee ballots received by the municipal clerk may be canvassed on the day before the election.

2. Prior to enacting an ordinance under subd. 1., the municipal clerk shall notify the commission in writing of the proposed enactment and shall consult with the commission concerning administration of this subsection.

(am) In any municipality having an ordinance under par. (a), subject to pars. (b) to (f), the election inspectors may convene a meeting to begin canvassing absentee ballots beginning at 7 a.m. on the day before the election.

AMERICAN OVERSIGHT

(b) The municipal clerk shall give at least 60 days' notice of a meeting under this subsection. Any member of the public has the same right of access to observe the proceedings at a meeting under this subsection that the individual would have under s. 7.41. The election inspectors may order the removal of any individual exercising the right to observe the proceedings if the individual disrupts the meeting.

(c) 1. At 7 a.m., noon, and 8 p.m. on the day before the election, and at 7 a.m., noon, and 8 p.m. on election day, the municipal clerk or his or her designee shall provide to the county clerk of the county in which the municipality is located a statement that shows the total number of absentee ballots returned to the municipality, the total number of absentee ballots the election inspectors have canvassed under this subsection, and the total number of absentee ballots that remain to be canvassed. The county clerk shall promptly post each statement on the Internet site on which the county posts returns on election night under s. 7.60. In a 1st class city, the city clerk or his or her designee may post the statement required under this paragraph on the city clerk's Internet site. The statement may not include the names or addresses of any electors.

2. An absentee ballot may be considered canvassed for purposes of subd. 1. only after all tasks have been completed in the canvassing process except for the tallying of votes.

(d) When the meeting of the election inspectors recesses on the day before the election, the election inspectors shall secure the automatic tabulating equipment, and the areas where the programmed media, memory devices, and absentee ballots are housed, with tamper–evident security seals in a double–lock location such as a locked cabinet inside a locked office. Before resuming the canvassing of absentee ballots on election day, the election inspectors shall check and record the status of

AMERICAN OVERSIGHT

each tamper–evident seal. The election inspectors shall immediately notify the commission of any evidence of tampering. If the election inspectors discover evidence of tampering with respect to automatic tabulating equipment, the canvass may not resume until the equipment is replaced and the replacement equipment is tested as provided in s. 5.84. If the election inspectors discover evidence of tampering under this paragraph, the municipality shall conduct a recount after the election of all absentee ballots cast in the municipality in the election in the manner provided under s. 9.01 and shall audit the election equipment to verify the accuracy of the absentee ballot count in the municipality in the election.

(e) Votes on absentee ballots canvassed under this subsection may not be tallied until after the canvass is complete or after the polls close on election day, whichever is later.

(f) No person may intentionally act in a manner that would give him or her the ability to know or to provide information on the accumulating or final results from the ballots canvassed under this subsection before the canvass is complete or before the polls close on election day, whichever is later. Whoever intentionally violates this paragraph is guilty of a Class I felony.

SECTION 10. 7.15 (1) (cm) of the statutes is amended to read:

7.15 **(1)** (cm) Prepare official absentee ballots for delivery to electors requesting them~~,~~ and ~~except as provided in this paragraph,~~ send an official absentee ballot ~~to each elector who has requested a ballot by mail, and~~ to each military elector, as defined in s. 6.34 (1), and overseas elector who has requested a ballot by mail, electronic mail, or facsimile transmission~~,~~ no later than the ~~47th~~ 45th day before each partisan primary, presidential preference primary, special primary or election, and general election ~~and no later than the 21st day before each other primary and~~

AMERICAN OVERSIGHT

~~election if the request is made before that day~~; otherwise, the municipal clerk shall send or transmit an official absentee ballot within one business day of the time the military or overseas elector's request for such a ballot is received. The clerk shall send or transmit an absentee ballot ~~for the presidential preference primary to each elector who has requested that~~ to all other electors requesting a ballot no later than the ~~47th~~ 21st day before the ~~presidential preference~~ primary or election if the request is made before that day, or, if the request is not made before that day, within one business day of the time the request is received. For purposes of this paragraph, "business day" means any day from Monday to Friday, not including a legal holiday under s. 995.20.

SECTION 11. 7.15 (16) of the statutes is created to read:

7.15 **(16)** ELECTION NIGHT REPORTING. (a) At 9 p.m. on election night, and every hour thereafter until the canvass is complete, the municipal clerk or his or her designee shall provide to the county clerk of the county in which the municipality is located a statement that shows the total number of ballots, including absentee ballots, cast at the municipality in the election, the total number of ballots, including absentee ballots, that have been canvassed, and the total number of ballots, including absentee ballots, that remain to be canvassed. The county clerk shall promptly post each statement on the Internet site on which the county posts returns on election night under s. 7.60. In a 1st class city, the city clerk or his or her designee may post the statement required under this subsection on the city clerk's Internet site. The statement may not include the names or addresses of any electors.

(b) An absentee ballot may be considered canvassed for purposes of par. (a) only after all tasks have been completed in the canvassing process except for the tallying of votes.

AMERICAN OVERSIGHT

SECTION 12. 7.52 (1) (a) of the statutes is renumbered 7.52 (1) (a) 1. and amended to read:

7.52 **(1)** (a) 1. The governing body of any municipality may provide by ordinance that, in lieu of canvassing absentee ballots at polling places under s. 6.88, the municipal board of absentee ballot canvassers designated under s. 7.53 (2m) shall, at each election held in the municipality, canvass all absentee ballots received by the municipal clerk by 8 p.m. on election day. Prior to enacting an ordinance under this ~~subsection~~ subdivision, the municipal clerk or board of election commissioners of the municipality shall notify the ~~elections~~ commission in writing of the proposed enactment and shall consult with the ~~elections~~ commission concerning administration of this section. ~~At~~ Except as provided under par. (h), at every election held in the municipality following enactment of an ordinance under this ~~subsection~~ subdivision, the board of absentee ballot canvassers shall~~, any time after the opening of the polls and before 10 p.m. on election day,~~ publicly convene at 7 a.m. on the day before the election to ~~count the~~ begin the canvass of absentee ballots for the municipality and may not recess until 8 p.m. on that day, or at such time when there are no further absentee ballots to be processed on that day, whichever is earlier, at which time the meeting shall recess; the meeting shall reconvene at 7 a.m. on election day and continue until all absentee ballots received by the municipal clerk by 8 p.m. on election day have been canvassed.

3. The municipal clerk shall give at least ~~48 hours'~~ 60 days' notice of ~~any~~ the meeting under this subsection. Any member of the public has the same right of access to a meeting of the municipal board of absentee ballot canvassers under this subsection that the individual would have under s. 7.41 to observe the proceedings at a polling place. The board of absentee ballot canvassers may order the removal

AMERICAN OVERSIGHT

of any individual exercising the right to observe the proceedings if the individual disrupts the meeting.

SECTION 13. 7.52 (1) (a) 2. of the statutes is created to read:

7.52 **(1)** (a) 2. No municipality may utilize a central counting location under s. 7.51 (1) unless the governing body of the municipality has adopted an ordinance under subd. 1.

SECTION 14. 7.52 (1) (d) to (h) of the statutes are created to read:

7.52 **(1)** (d) 1. At 7 a.m., noon, and 8 p.m. on the day before the election, and at 7 a.m., noon, and 8 p.m. on election day, the municipal clerk or his or her designee shall provide to the county clerk of the county in which the municipality is located a statement that shows the total number of absentee ballots returned to the municipality, the total number of absentee ballots the municipal board of absentee ballot canvassers has canvassed under this subsection, and the total number of absentee ballots that remain to be canvassed. The county clerk shall promptly post each statement on the Internet site on which the county clerk posts returns on election night under s. 7.60. In a 1st class city, the city clerk or his or her designee may post the statement required under this paragraph on the city clerk's Internet site. The statement may not include the names or addresses of any electors.

2. An absentee ballot may be considered canvassed for purposes of subd. 1. only after all tasks have been completed in the canvassing process except for the tallying of votes.

(e) When the meeting of the board of absentee ballot canvassers recesses on the day before the election, the board of absentee ballot canvassers shall secure the automatic tabulating equipment, and the areas where the programmed media, memory devices, and absentee ballots are housed, with tamper–evident security

AMERICAN OVERSIGHT

seals in a double–lock location such as a locked cabinet inside a locked office. Before resuming the canvassing of ballots on election day, the board of absentee ballot canvassers shall check and record the status of each tamper–evident seal. The board of absentee ballot canvassers shall immediately notify the commission of any evidence of tampering. If the board of absentee ballot canvassers discovers evidence of tampering with respect to automatic tabulating equipment, the canvass may not resume until the equipment is replaced and the replacement equipment is tested as provided in s. 5.84. If the board of absentee ballot canvassers discovers evidence of tampering under this paragraph, the municipality shall conduct a recount after the election of all absentee ballots cast in the municipality in the election in the manner provided under s. 9.01 and shall audit the election equipment to verify the accuracy of the absentee ballot count in the municipality in the election.

(f) Votes on absentee ballots canvassed under this section may not be tallied until after the canvass is complete or after the polls close on election day, whichever is later.

(g) No person may intentionally act in a manner that would give him or her the ability to know or to provide information on the accumulating or final results from the ballots canvassed under this section before the canvass is complete or before the polls close on election day, whichever is later. Whoever intentionally violates this paragraph is guilty of a Class I felony.

(h) Canvassing absentee ballots on the day before the election under this section is optional except for each spring and general election and each special election or recall election if the special or recall election is for a state or national office.

SECTION 15. 7.52 (2) of the statutes is amended to read:

AMERICAN OVERSIGHT

7.52 **(2)** In counting the absentee ballots, the board of absentee ballot canvassers shall use 2 duplicate copies of a single absentee poll list for the entire municipality prepared in accordance with s. 6.36 (2). Upon ~~accepting~~ reviewing each absentee ballot certificate envelope to ensure that it satisfies all applicable legal requirements, the board of absentee ballot canvassers shall enter a ~~poll list~~ sequential count number on the absentee poll list next to the name of the elector who voted the ballot, beginning with the number one. If the elector's name does not appear on the absentee poll list, the board of absentee ballot canvassers shall enter the number on a separate list maintained under this subsection. The board of absentee ballot canvassers shall record each elector's sequential count number on the face of the elector's certificate envelope.

SECTION 16. 7.52 (3) (a) of the statutes is amended to read:

7.52 **(3)** (a) The board of absentee ballot canvassers shall first open the carrier envelope only, and, in such a manner that a member of the public, if he or she desired, could hear, announce the name of the absent elector or the identification serial number of the absent elector if the elector has a confidential listing under s. 6.47 (2). When the board of absentee ballot canvassers finds that the certification has been properly executed and the applicant is a qualified elector of the ward or election district, the board of absentee ballot canvassers shall enter an indication, including the elector's sequential count number as provided under sub. (2), on the absentee poll list next to the applicant's name indicating an absentee ballot is cast by the elector. The board of absentee ballot canvassers shall then open the envelope containing the ballot in a manner so as not to deface or destroy the certification thereon. ~~The board of absentee ballot canvassers shall take out the ballot without unfolding it or permitting it to be unfolded or examined~~ and shall remove the ballot from the

AMERICAN OVERSIGHT

certificate envelope. Unless the ballot is cast under s. 6.95, the board of absentee ballot canvassers shall verify that the ballot has been endorsed by the issuing clerk. If the absentee poll list indicates that proof of residence is required and no proof of residence is enclosed or the name or address on the document that is provided is not the same as the name and address shown on the absentee poll list, the board of absentee ballot canvassers shall proceed as provided under s. 6.97 (2). ~~The board of absentee ballot canvassers shall mark the poll list number of each elector who casts an absentee ballot on the back of the elector's ballot.~~ The board of absentee ballot canvassers shall then deposit the ballot into the proper ballot box ~~and enter the absent elector's name or poll list number after his or her name on the poll list~~ or automatic tabulating equipment.

SECTION 17. 7.52 (4) (a) of the statutes is amended to read:

7.52 **(4)** (a) The board of absentee ballot canvassers shall then ~~open the ballot box and remove and~~ count the number of ballots ~~therein~~ without examination except as is necessary to ascertain that each is a single ballot. If 2 or more ballots are folded together so as to appear as a single ballot, the board of absentee ballot canvassers shall lay them aside until the count is completed; and if, after a comparison of the count and the appearance of the ballots it appears to the board of absentee ballot canvassers that the ballots folded together were voted by the same person they shall not be counted but the board of absentee ballot canvassers shall mark them as to the reason for removal, set them aside, and carefully preserve them. The board of absentee ballot canvassers shall then proceed under par. (b).

SECTION 18. 7.52 (9) of the statutes is amended to read:

7.52 **(9)** The governing body of any municipality that has provided by ordinance enacted under sub. (1) (a) 1. for the canvassing of absentee ballots at all elections held

AMERICAN OVERSIGHT

in the municipality under this section may by similar action rescind that decision. Thereafter, the absentee ballots at all elections held in the municipality shall be canvassed as provided in s. 6.88.

SECTION 19. 7.52 (10) of the statutes is created to read:

7.52 **(10)** A member of the board of absentee ballot canvassers or other election official who willfully neglects or refuses to perform any of the duties prescribed under this section is guilty of a Class I felony.

SECTION 20. 8.20 (8) (a) of the statutes is amended to read:

8.20 **(8)** (a) Nomination papers for independent candidates for any office to be voted upon at a general election~~, except president, vice president and presidential elector,~~ may be circulated no sooner than April 15 preceding the election and may be filed no later than 5 p.m. on the June 1 preceding the partisan primary, except as authorized in this paragraph. If an incumbent fails to file nomination papers and a declaration of candidacy by 5 p.m. on June 1 preceding the partisan primary, all candidates for the office held by the incumbent, other than the incumbent, may file nomination papers no later than 72 hours after the latest time prescribed in this paragraph. No extension of the time for filing nomination papers applies if the incumbent files written notification with the filing officer or agency with whom nomination papers are filed for the office which the incumbent holds, no later than 5 p.m. on the 2nd Friday preceding the latest time prescribed in this paragraph for filing nomination papers, that the incumbent is not a candidate for reelection to his or her office, and the incumbent does not file nomination papers for that office within the time prescribed in this paragraph.

SECTION 21. 8.20 (8) (am) of the statutes is repealed.

SECTION 22. 66.0512 of the statutes is created to read:

AMERICAN OVERSIGHT

66.0512 Whistleblower protection for certain disclosures made by municipal clerks. No municipal clerk may be discharged, disciplined, demoted, or otherwise discriminated against in regard to employment, or threatened with any such treatment, as a reprisal because the clerk lawfully reported, or is believed to have reported, witnessing what the clerk reasonably believed to be election fraud or irregularities. For purposes of this section, "lawfully reported" means a report of information the disclosure of which is not expressly prohibited by state or federal law, rule, or regulation.

Subject: Shameful investigation

Mr Vos, You knew there was no evidence of fraud th as t would change the 2020 election results. Yet you pushed through the investigation of it and put in Gableman who makes no pretence of his bias. This is such a waste of our money and a slap in the face to all of us who voted in good standing. You wish to cancel all of us??? Why did you do this knowing the division it would cause? How do you sleep at night?

Every move like this that promotes the fallacy of stolen election is another nail in the casket of the Republican casket. We will remember this and all the other lies the Republican party is promoting. As an independent I can not believe that I ever voted for Republicans. Your party is abandoning reality and we see it.

A disgusted Wisconsinite,
Julie Hoffman

2022-18 Speaker Vos

AMERICAN OVERSIGHT

WE ARE ONE NATION

2022-1 Secure our borders

Whereas, a sovereign nation is defined by its borders, and
Whereas, the speed and ease of travel has made every state a border state, and
Whereas, the president Biden has opened our southern border to invasion by millions of foreign nationals fleeing the poverty, chaos, and oppression of their own authoritarian, socialist countries, thereby overwhelming our social safety nets and bringing chaos to this nation, and
Whereas, president Biden has not only refused to enforce immigration law but is himself engaged in human trafficking by transporting illegal aliens, often under cover of darkness and a complicit press, onto state lands.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled,

1. Calls on Congress to draw up articles of impeachment against President Biden for engaging in the high crime of human trafficking, and
2. calls on Congress to either order President Biden to complete the border wall or empower border states to do so, and
3. calls on the Wisconsin State Legislature to require the governor to send the Wisconsin national guard to help the national guards of southern border states defend their, and our, border from invasion, and
4. calls on the Wisconsin State Legislature to demand that the Wisconsin State Patrol arrest anyone engaged in human trafficking, including those employed by federal agencies, and return illegal entrants to the other side of the border, and
5. demands that county sheriffs do the same, and
6. calls on congress to end chain migration and birthright citizenship.

2022-2 Defend our country.

Whereas, this world is rapidly becoming a more dangerous place, with an increasingly bellicose China, Iran, North Korea, Russia, and unstable nations through Africa and our hemisphere, and
Whereas, our hasty Afghanistan withdrawal has contributed to its instability by rearming the Taliban with billions of dollars of arms, ammunition, and other military hardware, and
Whereas, this humiliating debacle has created the belief that the U.S. military, once seen as the guardian of the free world, has become just another impotent bureaucracy at its highest levels, and
Whereas, our great number of intelligence and surveillance agencies, intended to spy on our enemies, has become a greater threat to the liberty of the American people than to our enemies.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled,

1. urges Congress and the President to take immediate action to reduce our bloated military high command by removing those generals and admirals more concerned about national politics and social engineering in the ranks than in national defense, and
2. urges the Biden administration and the military high command to summon the will to support our allies and to stand up to the corrupt regimes of China, Russia, and Iran, and

AMERICAN OVERSIGHT

3. urges our Congress to take immediate steps to defend the privacy of American citizens from our own intelligence and federal law enforcement agencies that violate their charters and spy on the American public.

2022- 3 Regain energy independence.

Whereas, this nation cannot survive without a reliable, stable supply of energy, and
Whereas, we are finding that windmills and solar panels with various forms of batteries, are now unable to meet our demand for a reliable supply of electricity, as they are ineffective in extreme or cold weather, are costly to build , maintain, and decommission, and
Whereas, this nation, which was both energy independent and an exporter of energy less than a year ago, now faces critical shortages and subsequent inflationary price increases as a result of the Biden administration's war against fossil fuels and nuclear power, and
Whereas, it is dangerous to return to energy dependence on unstable middle eastern countries as proposed by the Biden administration, and
Whereas, moving coal fired plants to China and oil drilling to Saudi Arabia, as proposed by the Biden administration, devastates our own economy while doing nothing for the environment, and
Whereas, in Wisconsin and elsewhere, both aging nuclear plants as well as clean burning coal plants are going off line, creating a serious energy crisis for this state, and
Whereas, "incentives" to car companies for rapid electrification are simple crony capitalism that increase our dangerous reliance on unreliable electric generation monopolies.

RESOLVED, that the Republican Party of Sheboygan County in caucus assembled,

1. urges our Congressional delegation to demand that the Biden administration stop destroying our fossil fuel and nuclear power industries, and
2. urges both federal and state governments to adopt policies that increase our electricity generation and distribution capacity through continued use of fossil fuels as we move to the use of widely dispersed small modular nuclear power generation stations, and
3. urges Congress to discontinue all taxpayer subsidies to electric car manufacturers, along with arbitrary and unrealistic EPA demands, and leave it to the free market to direct and fund development.

2022-4 Restore sound money—Stop taxation through inflation.

Whereas, the United States serves as guardian of the dollar that is the dominate world currency, and
Whereas, unrestrained US federal printing of trillions of dollars to pay for unfunded US federal spending threatens both the survival of this nation's economic system and the security of the entire world economy, and
Whereas, dramatically increasing our money supply reduces the value of our currency thereby imposing a brutal inflation tax that hurts the poor the most by raising the prices of all staples and wipes out the savings and investments of the middle class.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled,

AMERICAN OVERSIGHT

1. supports only candidates who understand the danger of irresponsible federal spending, and
2. urges Congress to cut spending rather than increasing our debt limits, and
3. supports only candidates for state and local office with the courage to resist the lure of "federal grants" which Washington uses to corrupt state and local officials and to bribe citizens with their own money to become a permeant peasant class dependent of government largess, and
4. supports candidates who demand annual zero-based budgeting rather than unaccountable federal spending through continuing resolutions.

2022-5. Secure our elections

Whereas, election fraud anywhere strikes at the core of representative government, and
Whereas, the unchecked power of government has become so great that the most powerful people and organizations in the this country and the world, including those who control our internet, will stop at nothing to seize or retain that power, and
Whereas, the executive branch of the Wisconsin State government, along with much of the judiciary, is now in the hands of Democrats who refuse to enforce any laws, including election laws, that do not benefit them, and
Whereas, the Wisconsin Elections Commission, like the GAB before it, not only has refused to enforce Wisconsin election law but has issued "guidance" ordering nursing homes in Wisconsin to break the law, and
Whereas, the Racine County Sheriff department's investigation of the Ridgewood Care Facility provides ample evidence vote harvesting; and
Whereas, Wisconsin's 2020 election has exposed the following serious "election irregularities:"

* millions of "Zuckerbucks" being used to privatize elections in Wisconsin
* 265,000 Wisconsinites voting "indefinitely confined"; many without a valid photo ID on record
* the refusal to purge the voter registration lists of 234,000 people who are suspected to have moved or died until after the election
* the illegal use of voter "drop boxes" even before allowable early voting
* election officials 'curing' invalid mail in ballots, and

Whereas, the legislative branch of the State government has passed 11 laws in the past year that close loopholes in Wisconsin election law, and Governor Evers has vetoed them all, and
Whereas, the legislative branch of state government has launched investigations of these election "irregularities", which have been stonewalled by Democrat officials at every level of government, and
Whereas, leading candidates and their supporters of both parties--from Hillary Clinton and Stacey Abrams to Donald Trump—all contend that elections have been stolen, and
Whereas, the electorate must have faith in our elections.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled

AMERICAN OVERSIGHT

1. commends our Republican State Legislators for passing 11 laws that close loopholes that enable election fraud, and
2. dedicates ourselves to replacing Governor Tony Evers, who endorsed election fraud by vetoing all election law reforms and Attorney General Josh Kaul, who refuses to enforce election law, and
3. commends the Racine County Sheriff Department for its investigation of election fraud in their county and urges our Sheriff Department and District Attorney and those in other counties to do the same, and
4. A. recommends that our Republican state legislators continue to support the WEC but only if they replace two of the Republican board members with two who are more likely to enforce the law, like Janel Brandtjen and Tim Ramthun, and with the added provision that any tie on the board be broken by the Secretary of State, not the unelected staff; or B. that the Wisconsin State Legislature disband the WEC and return its function to the Secretary of State, and
5. demands that municipal and county clerks who facilitate vote harvesting in nursing homes be investigated by the county sheriff and charged by county district attorney, and
6. demands that the ongoing investigations of election "irregularities" in the 2020 election result it the prosecution and punishment of those responsible for these "irregularities", and
7. demands that no machine used to count votes in the state of Wisconsin be capable of being connected to the internet and that vote tallies not be made public by any clerk until all clerks are ready to report results, and
8. calls on our local state legislators to support Rep. Tim Ramthun's move to decertify Wisconsin's 10 Electoral College Votes due to the violations of election law by the WEC.

2022-6. Educate don't indoctrinate

k-12

Whereas, the survival of this free republic requires that we teach the next generation to appreciate its foundational principle of liberty through law, its Constitutional form of government, its history, and its unique culture, and

Whereas, Marxism, now renamed "Critical Race Theory", and revisionist "histories" like the 1619 Project, that oppose all of our foundational principles, have taken root in our state educational system, and

Whereas, in addition to teaching this country's foundational principles, schools also must teach self-control, personal responsibility, and respect for the rights of others and for the rule of law, and

Whereas, the Wisconsin school choice program promotes liberty by encouraging ~~more~~ independent schools that increase competition, creativity, and innovation while reducing costs to the taxpayer.

AMERICAN OVERSIGHT

RESOLVED that the Republican Party of Sheboygan County in caucus assembled

1. demands that state schools from kindergarten to graduate school eliminate political indoctrination programs such as the "1619 Project" and critical race theories that subvert our foundational principles and destroy the peace and unity of this country, and
2. condemns Tony Evers for opposing parental choice in education and inflating the costs of public schools in Wisconsin by pouring more millions of taxpayer dollars into the dysfunctional MPS bureaucracy, and
3. urges local public-school boards to demand that their schools prioritize teaching self-control, personal responsibility, and a respect for the law rather a sense of victimhood and feelings of entitlement, and
4. calls our state legislature to expand the Wisconsin School Choice program to include all students, and
5. calls on our state legislature to ensure that independent schools retain their independence from the state and federal departments of education.

Post high school

Whereas, many public university administrations, rather than affirming the unifying principle of equal justice under the law have created a divisive "diversity" industry that profits from generating racial, gender, and class conflict, and

Whereas, many departments within our universities now oppose the traditional American values that form the basis for this country such as the sanctity of every life, individual liberty, private property, and equal justice under the law, and

Whereas, the vast number of career options open to students upon high school graduation requires students themselves take primary responsibility to invest in their own career choices, and

Whereas, it is neither wise nor fair to force students or parents of those who counted the cost and have chosen other career options than those requiring college or university to pay for those who may reap the rewards of doing so, and

Whereas, easy access to federally guaranteed loans for higher education has inflated its cost thereby saddling many of those who do choose that career option with crushing debt, and

Whereas colleges and universities must take responsibility for the costs and quality of their programs and the success of their students.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled,

1. recommends that all state funded universities require at least one course that teaches an appreciation for the history of our country, our principles of law and justice, and our founding documents, including the Declaration of Independence, The Constitution, The Wealth of Nations, Common Sense, and the Federalist Papers, and
2. urges our Wisconsin State Legislature to demand that our universities hire to promote a diversity of thought rather than diversity of skin tone, gender, and sexual orientation, and
3. demands that state universities uphold the constitutional rights of their adult students and staff; and

AMERICAN OVERSIGHT

4. calls Congress to require student loans be provided and managed by university foundations and private business, not by the federal government; and
5. renews our demand that Congress delete the unconstitutional Department of Education.

Under God

2022-7 Protect life

Whereas, our Constitutional republic is based on the central idea that the Creator has endowed every person with the unalienable rights of life, liberty, and the pursuit of happiness, and
Whereas, it is the primary function of government to protect those rights, and
Whereas, the lives of our most vulnerable citizens, the unborn, need protection.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled

1. declares itself to be unabashedly pro-life, and
2. commends our Republican legislature for passing four bills limiting abortion and condemns Democrat governor Tony Evers for vetoing all them, and
3. demands that government at every level deny taxpayer funding to any organization at home and abroad that kills unborn children or encourages other to do so, and
4. rejects the use of embryonic stem cells harvested from clinical abortions, and
5. opposes the practice of eugenics and assisted suicide, and
6. demands that our state legislators support all pro-life laws and reject legislation that does the reverse (2022 Assembly Bill 36), and
7. Calls on our state legislators support the Personhood Amendment and/or a heartbeat bill, and
8. Instructs our Congressional delegation to do everything in its power to stop the human rights violations of other nations, including the human organ harvesting industry being maintained by the Chinese Communist Party.

2022-8 Defend religious liberty

Whereas, the right to practice one's faith is a God given right guaranteed by our Constitution, and
Whereas, religious persecution is increasing throughout the world--from the executions in the Middle East, concentration camps in North Korea and China, and the slaughter of entire Christian villages in Nigeria, and
Whereas, our own government has ordered churches closed while "essential" liquor store and abortion mills remain open.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled

1. declares that no public official has the authority to deny citizens the right to worship per the Wisconsin Constitution Article I Section 18 and recommends that citizens refuse to obey such lawless orders, and

AMERICAN OVERSIGHT

2. commends the Wisconsin legislature and the Wisconsin Supreme Court for overriding the governor's illegal order to shut down public worship, and
3. urges the federal government to formally identify countries and organizations persecuting Christians and other non-violent religious groups and use the power of the U.S. federal government to oppose them.

2022–9 Promote love, marriage, and the family

Whereas, independent families, with fathers and mothers who marry, give birth, and teach and nurture the next generation are the most important foundation for a stable civil society and

Whereas, American Marxists are attempting to destroy the independent family with its inherent ideas of love, motherhood, fatherhood, family obligations and loyalties and are denying the fact that there are biological differences between men and women.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled

1. declares that we are the party of family; celebrating the mystery of romance and marriage, the unique responsibilities of fatherhood and motherhood, the comfort and pain of home and family, and
2. declares that we oppose all that weakens the family like tax systems that encourage people not to marry, social programs that encourage families to break apart or have children out of wedlock, and sex education that dismisses gender as simply an illusion and sex as little more than entertainment, and
3. recognizes that differences between men and women often call for separate treatment:
    - for bathrooms and dormitories
    - sports where women need not compete with biological males
    - for prisons that separate women from biological males
    - for a military that does not draft women, and
4. calls our state legislature to criminalize the administration of puberty blockers and opposition hormones by parents, medical staff, or other third parties for the purpose of gender transitioning minor children, and
5. calls on our state legislature pass laws that enable minor children who have been "transitioned" to recover damages against parents, medical staff, or other third parties for ten years after reaching the age of majority while allowing for the full recovery of attorney fees where there has been a willful and intentional administration of experimental puberty blockers and apposition hormones upon a minor child, and
6. opposes any attempts by professional organizations to force physicians to support gender transitioning.

AMERICAN OVERSIGHT

Indivisible

2022-10 Obey the Constitution

Whereas, our founders developed a constitutional system of government with the strength to unify a geographically and culturally diverse nation while protecting the regional and local autonomy of every state, and

Whereas, the Constitution has done so by limiting the power of the federal government to specific enumerated areas and requiring that it rule by law not by the arbitrary dictates of politicians or its administrative state, and

Whereas, the 10th amendment states "the powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people", and

Whereas, federal agencies are ignoring their constitutional limitations when the IRS, FBI, and DOJ intimidate and imprison their political enemies, when intelligence agencies spy on American citizens, and when agencies like OSHA exercises dictatorial control over every nuance of business activity in this country, and

Whereas, no person or private business can be safe or, acting alone, can defend themselves from tyrannical federal agencies.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled,

1. calls our state legislators to work together with other liberty loving state governors and legislatures to determine how best, to defend our citizens from all powerful federal agencies, and
2. demands the State of Wisconsin Legislature immediately pass legislation that requires any transfer of Wisconsin State land and water to the Federal government to be approved by the Wisconsin State Assembly and the Senate, not just the Governor, and
3. Promises to fight to elect or reelect representatives more loyal to our Constitution than to their political party.

With Liberty

2022-11 Restore liberty

Whereas, this country is founded on the principle that the law is king, not the whims of any individual or government bureau, and

Whereas, law must defend, not threaten, the life, liberty, and property of citizens, and

Whereas, our legislators are destroying liberty whenever they pass thousands of pages of hastily written law, which they have not had time to read or analyze, and then give the administrative state absolute power to add tens of thousands of regulations and mandates, each having the force of law, and

Whereas, the executive branch of the federal government has fallen into the hands of those who wish to replace our most important institutions—church, home, school, and hospital—with government, which they control.

AMERICAN OVERSIGHT

RESOLVED that the Republican Party in caucus assembled

1. seeks to keep church, home, school, and hospital free from state and federal control, and
2. dedicates itself to electing and reelecting only legislators with the courage to take control back from the administrative state, and
3. calls on the United States Congress and the Wisconsin State Legislature to remove or update old laws that threaten the lives, liberty, or property of the people, and
4. dedicates itself to publicizing the voting records of all public officials including school board members, city aldermen, county supervisors, judges, prosecutors, and state and local representatives--and electing or reelecting only those who understand the power and importance of liberty.

2022-12 Stop Covid Tyranny

Whereas, our founders, no strangers to pandemics, wars, and the struggle for survival, developed a constitutional system that releases the ingenuity, ambition, and altruism of every free citizen to create a nation so peaceful and so successful that it is in danger of being overwhelmed by billions of people wanting entrance, and

Whereas, when faced by this Covid emergency, Democratic administrations at every level have abandoned this system best able to deal with emergencies, and chosen the worst possible system; the arbitrary orders of arrogant or panicked politicians, and

Whereas, free people must obey laws; slaves must obey orders; and

Whereas, no person or agency can fully understand the complexity of the human body or all of the relationships and interrelationships that comprise public health, and

Whereas, unaccountable public "officials" now routinely use taxpayer funds to advertise experimental treatments without any warnings about possible side effects, order mass vaccinations of entire populations without considering preexisting conditions, forbid doctors and hospitals to use treatments used successfully around the world, and even inject vulnerable children at school without parental knowledge or permission, and

Whereas, it is impossible for anyone to distinguish between "essential" and "nonessential" jobs in our infinitely complex and interrelated free market system, and

Whereas, this administration has issued blanket shut down orders for businesses they deem to be "nonessential" and by so doing have destabilized the entire economic and social ecosystem and destroyed thousands of small businesses and millions of lives and livelihoods, while enriching the few, and

Whereas, this same administration, encouraged by its success in using "the Covid " to terrorize the public into submission, is now attempting to use the same tactics by declaring our ever-changing climate to be an "emergency" that requires their wise control of the liberty and property of every citizen.

.

RESOLVED that the Republican Party in caucus assembled,

1. declares that no public official or agency shall be allowed to control every hospital, every doctor, and every person's body in this vast republic, and

AMERICAN OVERSIGHT

2. declares all citizens in legal jobs and jury service to be essential workers, and
3. declares that all orders that deny civil liberties simply by declaring a public health or an environmental "emergency" are acts of insurrection against the letter and spirit of our free republic and shall be ignored or deemed advisory only, and
4. calls all businesses, public and private, to respect the liberty of their employees and the American public, and
5. calls on hospitals, Wisconsin DSPS, insurers, and licensing boards to respect the duty of physicians and professional staff to treat their patients as they see fit and not bow to the dictates of our increasingly politicized public health and big pharma establishments, and
6. demands that our medical establishment, and pharmacies in the State of Wisconsin obey the spirit and letter of our "right to try" law, and
7. demands that any school official who allows children to be medicated without written parental permission be prosecuted, and
8. declares itself to be one with local and national groups working to restore liberty.

2022-13 Respect gun rights

Whereas, the second amendment is unique to America, literally placing power in the hands of the citizens, and

Whereas, Democrats are engaged in a war against independence and independent gun ownership, and

Whereas, the dramatic increase in gun ownership and conceal carry permits is a result of the failure of politicians to enforce law, not the cause of lawlessness.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled

1. demands our Stater legislators abide by their oaths to uphold the Wisconsin Constitution and fully carry out the duties of Article I Section 25, "The people have the right to keep and bear arms for security, defense, hunting, recreation or any other lawful purposes", and
2. calls on our government to protect law-abiding citizens, law enforcement officers, and manufacturers of firearms and firearm accessories from civil and criminal litigation in event a legally permissible firearm is used in defense of themselves, others, their property or that of others, and
3. demands that our government NOT restrict the sale or ownership of lawfully produced guns clips/magazines, and ammunition, and not impose extraordinary taxes or fees on the same, and
4. demands that our legislature oppose any registry of firearms, accessories or ammunition, and
5. demands that District Attorneys enforce gun laws now on the books that deny felons the right to bear arms, and
6. calls on our state government to amend the definition of schools" in Wis & 948.61(1)(b) to exclude "private" and home schools on private property from being regulated by Wis & 948.60.

AMERICAN OVERSIGHT

2022-14 Encourage free speech

Whereas, the internet has become an essential public service, and
Whereas, many social media companies no longer serve as neutral platforms but edit news, censor opinion, and ban those with whom they disagree and
Whereas, tech oligarchs are now able to violate every citizen's rights to free speech and to free inquiry through their control of search engines, and
Whereas, no free republic can survive so much power being limited to so few.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled

1. calls on Congress to update the laws of libel opening social media companies that are not simple platforms to lawsuit, and
2. calls on Congress to break up our too powerful tech monopolies.

2022-15 Empower the grass roots

Whereas, today the Republican Party remains the only political option for Americans to stand against the power of government, special interests, and political power brokers, and
Whereas, the political primary places power directly in the hands of the Republican Party voters, and
Whereas, the constitution of the Republican Party, which requires the RPW convention to endorse candidates for each of the five state constitutional offices, and
Whereas, previous primary endorsements, prior to the primary, have caused division and conflict within the party in the past and will continue to do so, given the number of candidates for many offices; conflict that we can ill afford when liberty itself is at such risk from political insiders in every level of government, and
Whereas, when more than one Republican enters a primary, we must empower the grass roots Republican primary voters, not the Republican party power brokers, to determine which candidate shall receive party support.

RESOLVED that the Republican Party of Sheboygan County, in caucus assembled,

1. supports adding a 'no-endorsement' option to the required endorsement ballot for each of the five state constitutional offices and the United States Senate.

And Justice for All

2022-16. Back the badge

Whereas, the Republican Party stands for the "Liberty through Law" that occurs when the same law is applied equally to all, including those who make and enforce the law, and

AMERICAN OVERSIGHT

Whereas, people flock to this country where citizens and their property can be safe from the power of their own government and the power of lawless individuals and mobs, and
Whereas, we lose our liberty when Antifa, BLM, and Marxist thugs burn our cities with impunity, when smash and grab mobs loot our businesses, when fearless gangs gun down our citizens in the streets, and
Whereas, many Democratic mayors and governors enable and even support individual and mob violence against the very citizens whom they have sworn to protect, and
Whereas, citizens who have been forced to use firearms to protect their lives, homes, businesses, and those of others have themselves been targeted by the same law enforcement establishment that failed to protect them in the first place, and
Whereas, federal law enforcement agencies, once guardians of liberty, now themselves routinely violate the law by subverting local law enforcement, by intruding into local school board meetings and even school bathrooms, by imprisoning political enemies for months without trial, by tracking down and threatening citizens who exercise their right to freely assemble, by wielding the IRS as a political weapon and even becoming so brazen as to deploy SWAT teams to harass journalists and any other private citizens who threaten their power.

RESOLVED that the Republican Party of Sheboygan County in caucus assembled

1. calls all citizens to stand together to support those who are unjustly targeted by both the lawless mob and our increasingly lawless federal agencies, and
2. calls all citizens to vote out of office every legislator who fails to fight for liberty through law, and
3. calls all state, county, and local law enforcement personnel, to strictly enforce all laws that protect the lives, liberty, and property of the citizens of Wisconsin, and
4. calls on our legislature to protect law enforcement personnel from criminal and civil prosecution for actions taken to defend themselves, others, or the property of others in the line of duty, and
5. calls local law enforcement agencies to abide by their oaths office and NOT enforce orders of officials that violate the rights of citizens as stated in the Constitution and Bill of Rights, and
6. demands that our state legislators pass laws to expand Castle Law to businesses, homes, and vehicles to protect lives and property from individual or mob violence, and
7. demands that our representative to Congress defund politicized federal law enforcement agencies, and
8. demands that city aldermen and county supervisors, adequately fund and staff local law enforcement agencies and promises to campaign against those who fail to do so.

2022-17 Do justice

Whereas, prosecutors and judges must administer justice and maintain the rule of law, and
Whereas, we are experiencing a well-funded and well-organized attempt to destabilize this country by destroying the rule of law, and

AMERICAN OVERSIGHT

Whereas, this assault is taking the form of millions of dollars being poured into district attorney and judicial races to replace conservative prosecutors and judges who protect the lives, liberty, and property of citizens with progressive prosecutors and judges who avoid trial by jury and talk about "root causes," "restorative justice," and "bail reform" while releasing criminals back onto the streets to prey on the public, and

Whereas, refusal to enforce shoplifting laws results in wholesale looting that wipes out vital services, refusal to enforce laws against carjacking and assault threatens everyone's freedom of movement, refusal to enforce gun laws enables armed felons to terrorize entire neighborhoods and refusal to enforce election law threatens the survival of our free republic, and

Whereas, the failure of prosecutors and judges to protect the lives, liberty, and property of citizens has compelled millions of desperate Americans to arm themselves, and

Whereas, we need an independent federal judiciary with the power to overrule unconstitutional actions of both the legislative and executive branches, but we cannot permit judges to make or alter the law from the bench, and

Whereas "activist" judges commonly rationalize revising or ignoring the constitutional law to achieve what they deem to be more virtuous outcomes thereby perverting the "rule of law" into the "rule of judge."

RESOLVED that the Republican Party of Sheboygan County in caucus assembled

1. urges the legislature to insure adequate funding for prosecution offices, courts, and prisons, and
2. dedicates itself to investigating and publicizing the philosophies and records of candidates for prosecutor and judge, and
3. promises to actively campaign for conservative prosecutors and judges and against liberal prosecutors and activist judges.

AMERICAN OVERSIGHT

2022-18 Speaker Vos

Whereas, Assembly Speaker Robin Vos has refused to cooperate with Representative Janel Brandtjen, Chair of the Campaigns & Elections Committee and the Vice-Chair of the Committee on Government Accountability & Oversight, in her efforts to investigate election fraud, including his refusal to sign subpoenas issued by her or allow her the rightful oversight role of the investigation led by former Supreme Court Justice Michael Gableman, and

Whereas, each State Representative is provided with staff to serve the people of their respective legislative district, and

Whereas, Representative Ramthun was elected to serve the people of the 59th District, and

Whereas, Speaker Vos removed the only full-time staff member of Representative Ramthun after Representative Ramthun unveiled the truth of Speaker Vos's support of drop boxes for the 2020 election, and

Whereas, this removal makes it impossible for Representative Ramthun to effectively serve and assist those who elected him, and

Whereas, this removal is an immoral, vindictive step, one that punishes open discourse on controversial issues and has no place in the actions of a leader, and

Whereas, this removal sends a clear message to all other State Representatives that Speaker Vos will punish them for speaking the truth if it damages his reputation, and

Whereas, the support of drop boxes is antithetical to election integrity, encourages voter fraud, and results in a distrust of election outcomes by the large majority of Wisconsin voters, and

Whereas, Attorney Misha Tseytlin wrote on behalf of Speaker Vos regarding drop boxes; "We wholeheartedly support voters' use of any of these convenient, secure, and expressly authorized absentee-ballot-return methods", and

Whereas, Speaker Vos and Senator Fitzgerald signed off on drop boxes without a full vote of the legislature, and

Whereas, Republican State Senator Kathy Bernier is writing legislation to legalize drop boxes and, when questioned, Speaker Vos has refused to answer questions if he supports drop boxes or not.

AMERICAN OVERSIGHT

RESOLVED, that the Republican Party of Sheboygan County, in caucus assembled

1. Condemn Representative Vos's actions:
    a. Removing Representative Ramthun's staff.
    b. Undermining Representative Brandtjen as Chair of the Campaigns & Elections Committee and the Vice-Chair of the Committee on Government Accountability & Oversight.
    c. The slow-walking any meaningful investigation of the 2020 election.
2. Demand a vote of no confidence be taken by the Assembly and a new Speaker be elected immediately and/or demand Speaker Vos resign from his role as Assembly Speaker.
3. Fully support Representative Ramthun's 2021 Assembly Joint Resolution 120.

AMERICAN OVERSIGHT

Whereas, Assembly Speaker Robin Vos has refused to cooperate with Representative Janel Brandtjen, Chair of the Campaigns & Elections Committee and the Vice-Chair of the Committee on Government Accountability & Oversight, in her efforts to investigate election fraud, including his refusal to sign subpoenas issued by her or allow her the rightful oversight role of the investigation led by former Supreme Court Justice Michael Gableman and

Whereas, each State Representative is provided with staff to serve the people of their respective legislative district and

Whereas, Representative Ramthun was elected to serve the people of the 59th District and

Whereas, Speaker Vos removed the only full-time staff member of Representative Ramthun after Representative Ramthun unveiled the truth of Speaker Vos's support of drop boxes for the 2020 election and

Whereas, this removal makes it impossible for Representative Ramthun to effectively serve and assist those who elected him and

Whereas, this removal is an immoral, vindictive step, one that punishes open discourse on controversial issues and has no place in the actions of a leader and

Whereas, this removal sends a clear message to all other State Representatives that Speaker Vos will punish them for speaking the truth if it damages his reputation and

Whereas, the support of drop boxes is antithetical to election integrity, encourages voter fraud, and results in a distrust of election outcomes by the large majority of Wisconsin voters and

Whereas, Attorney Misha Tseytlin wrote on behalf of Speaker Vos regarding drop boxes; "We wholeheartedly support voters' use of any of these convenient, secure, and expressly authorized absentee-ballot-return methods" and

Whereas, Speaker Vos and Senator Fitzgerald signed off on drop boxes without a full vote of the legislature and

Whereas, Republican State Senator Kathy Bernier is writing legislation to legalize drop boxes, and, when questioned, Speaker Vos has refused to answer questions if he supports drop boxes or not.

AMERICAN OVERSIGHT

Resolved, we, the Republican Party of Sheboygan County, in caucus gathered on February 5, 2022,

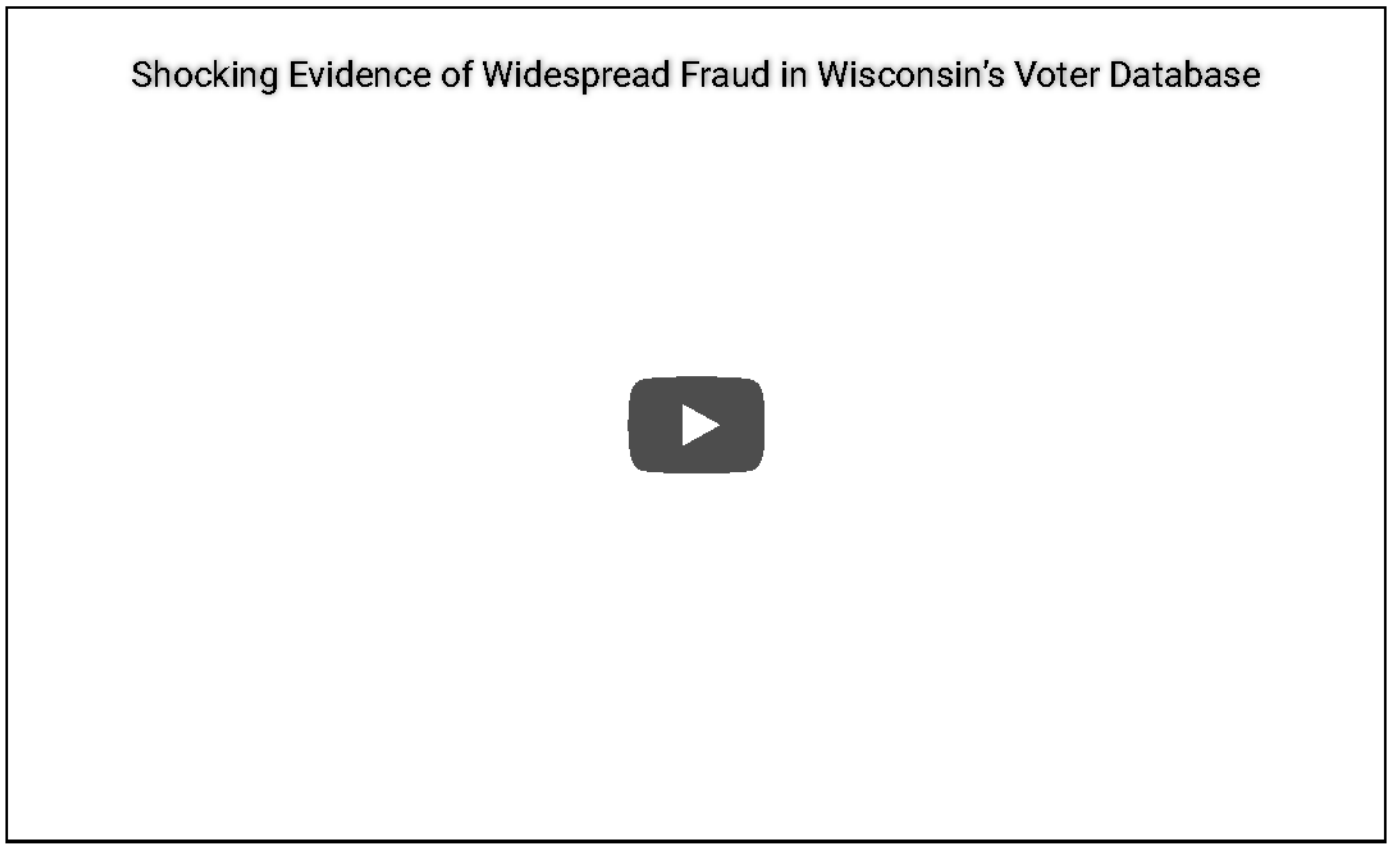
1. Condemn Representative Vos's actions:
   A. Removing Representative Ramthun's staff
   B. Undermining Representative Brandtjen as Chair of the Campaigns & Elections Committee and the Vice-Chair of the Committee on Government Accountability & Oversight
   C. The slow-walking any meaningful investigation of the 2020 election.
2. Demand a vote of no confidence be taken by the Assembly and a new Speaker be elected immediately and/or demand Speaker Vos resign from his role as Assembly Speaker.

AMERICAN OVERSIGHT

Shocking Evidence of Widespread Fraud in Wisconsin's Voter Database (https://www.maciverinstitute.com/2022/02/shocking-evidence-of-widespread-fraud-in-wisconsins-voter-database/)

By MacIverNews (https://www.maciverinstitute.com/author/macivernews/) - February 10, 2022 (https://www.maciverinstitute.com/2022/02/shocking-evidence-of-widespread-fraud-in-wisconsins-voter-database/)

2020 Election (https://www.maciverinstitute.com/tag/2020-election/), Ballot Integrity (https://www.maciverinstitute.com/tag/ballot-integrity/), Bernegger (https://www.maciverinstitute.com/tag/bernegger/), Election Fraud (https://www.maciverinstitute.com/tag/election-fraud/), Grassroots (https://www.maciverinstitute.com/tag/grassroots/), Investigation (https://www.maciverinstitute.com/tag/investigation/)



MacIver News Service | Feb. 10, 2022

Grassroots activists provided incredible evidence of widespread fraud and failures in Wisconsin's voter database and its impact on the 2020 election to lawmakers on Wednesday, Feb. 9, 2022.

Data analyst Peter Bernegger presented an hour-long interim report to the Assembly Committee on Campaigns and Elections. It included specific examples and detailed analysis of the state's database collected by small army of 1,500 grassroots volunteers. Another 4,000 volunteers are joining the effort in the coming weeks to further develop the investigation.

AMERICAN OVERSIGHT

Millions of voter records obtained from government sources were fed through a "super computer." The volunteers then scrutinized the results to ensure accuracy.

Some of the more shocking findings include:

- Specific individuals who voted twice using multiple voter ID numbers
- Voters registered without a first name
- Voters registered without a last name
- Voters registered without a street address
- Voters registered with phony addresses
- 26 voters registered at one two-bedroom apartment
- 290 voters registered at a 16-apartment building in La Crosse
- 19 voters registered at a newer single-family home in Outagamie County
- 359 voters registered at an address that hasn't existed for 10 years in Kenosha County
- 625,000 dead voters on the rolls
- 4,300 voters with a "99999" zip code
- 670,000 inactive voters in Milwaukee
- 264,000 voters in Milwaukee with a 1918 registration date
- 20,000 voters with undeliverable mailing addresses in Milwaukee
- 3,400 FIDO (Fast Identity Online) keys that provide user access to the database have been distributed throughout the state

That's just a taste. Watch the entire presentation from the hearing to find out more. (Backup Link (https://www.brighteon.com/1387fa3e-d99a-4c96-b008-d7a69360e13c) , Backup Link#1 (https://www.bitchute.com/video/9bIoTutD8USK/))

AMERICAN OVERSIGHT

SJR 101 – Prohibiting Private Funds in Elections – Constitutional Amendment

Rep. August

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: Jason Rostan 6-1190

During the 2020 election, the Center for Tech and Civic Life, founded in part by Facebook Founder Mark Zuckerberg, donated $6.3 million to 5 Wisconsin Cities – Milwaukee, Madison, Green Bay, Kenosha & Racine. In return for these grants, municipalities had to agree to expand the number of polling places, purchase new machines and drop boxes, and create new get out the vote efforts. In Green Bay, this group was given unprecedented access to absentee ballots and played an extremely concerning role in the administration of that election.

The public needs to have faith that elections are being administered fairly and without partisan influences. This money jeopardizes this impartiality.

With this in mind, AJR 134 would amend the WI constitution to prohibit the acceptance or use of any donation from a private organization for the purposes of election administration. It would also prohibit any individual not designated by law from performing any task in election administration.

Assembly Substitute Amendment 1 clarifies that these private funds cannot be used in connection with the conduct of any primary, election or referendum. This change was made to ensure that these funds could not be used for advertising purposes or anything similar.

Committee Chair's Summary of Proceedings

Prepared by: Taylor Corkran 7-9443

Fiscal Effect:

No fiscal

Supporter's Message:

- Restoring faith in impartiality of Wisconsin elections
- Ensures that private funds cannot be used to influence the outcome of elections

Opponent's Message:

- Funds were used to the good of the people regardless of party affiliation
- Drop boxes help voter turnout
- Get-out-the-vote efforts are nonpartisan

Key Supporters:

Sen. Eric Wimberger - 30th Senate District
Rep. Tyler Vorpagel - 27th Assembly District
Rep. Tyler August – 32nd Assembly District

Key Opponents:

Rep. Sinicki, Rep. Pope, Rep. Ohnstad, Rep. MicGuire

Committee Vote(s):

Senate Committee on Elections, Election Process Reform and Ethics (3-2_

AMERICAN OVERSIGHT

SJR 102 – U.S. Term Limits

Rep. Knodl

Committee on State Affairs

Session Date: 2/23/2022

Author's Summary of the Legislation

Prepared by: James Mietus [6-3796]

Assembly Joint Resolution 135 will submit Wisconsin's application to the U.S. Congress for a convention under Article V of the U.S. Constitution for proposing an amendment imposing term limits for members of Congress.

The average tenure of a member of Congress has doubled in the Senate and tripled in the House over the past 130 years. This trend had proven detrimental to our system of government by reinforcing the incumbent advantage, thereby reducing accountability and shutting out fresh viewpoints. National opinion polling shows strong support for congressional term limits (>75%) across both major parties and independent voters. In Wisconsin, 82% of Republicans and 69% of Democrats support congressional term limits.

Two-thirds of the states (34) need to submit applications in order to trigger the convention, and three-fourths of the states (38) must ratify any proposed amendments.

These safeguards ensure that state legislatures retain the ultimate authority on ratification. Furthermore, 2017 Act 83 establishes the process for recalling Wisconsin's delegates if they take any action that exceeds the scope authorized in the resolution.

Committee Chair's Summary of Proceedings

Prepared by:

Fiscal Effect:

None

Supporter's Message:

- States should exercise their Article V rights to reform Congress because we cannot expect Congress to impose limits on itself
- Overwhelming support exists for congressional term limits regardless of party affiliation
- Article V was included in the Constitution for this very purpose—to give states recourse to push back when the federal government's powers have grown too invasive
- The Founders set an extremely high bar for ratification, and a three-quarter supermajority of states have the final say with regard to any proposed amendments

Opponent's Message:

- Elections already act as term limits
- Delegates may attempt to go rogue and rewrite the entire Constitution
- We don't know the details of the proposed amendments (e.g. term limit duration)

Key Supporters:

U.S. Term Limits

Key Opponents:

League of Women Voters, Wisconsin Council of Churches, Wisconsin Democracy Campaign, John Birch Society

Committee Vote(s):

The Senate Committee on Government Operations, Legal Review, and Consumer Protection voted to recommend passage (3-2).

Subject: Spending our money illegally

Robin -
So you spend $670,000.00 of our money to investigate possible fraud in the 2020 election. Was there some? As always, a few.....but not enough to switch Wisconsin over to Trump. What a waste, just like you spent over $ 2,000,000.00 of our money to defend your party gerrymandering our state!
How about this. You outlawed “drop boxes” for voting. Then you turn around and sent illegal “election alternates” to try to turn the election over to Trump. How about telling us who authorized this stunt? You cite that it was approved by your lawyers but refuse to let us know which one? Now that would be worth an investigation as that is illegal.
We know the “rat” in our state and it has your face (Vos). And that is giving rats a bad name!

Representative Voss,
Stop blocking Rep Ramthun's resolution to recall electors from an obvious fraudulent election. What you are doing is outrageous. We have all seen the evidence and the illegal actions that were taken by Wisconsin elected officials, and criminalindividuals. Stealing of elections cannot be tolerated. We must act. Your political career rests upon your actions. We are all engaged and watching. I'm sure I don't have to tell you the political graveyard that has been left in the wake of those who don't support the America First agenda.
Thank youfor listening.

Good job Robin, you have made Wisconsin look like a bunch of idiots trying to overturn a legitimate election. Everyone but you and a handful of politicians trying to hold on to a very thin string to keep their job. Face it, Trump and a mess of losers like you will be in jail by theend of next year.

Putin may take you in. You can start blowing Putin instead of Trump.

Robin, you are such a LOSER.

Robin, what a feminine name. No longer Trump wanted you to blow him. He thought you were a woman.

Wisconsin Decertify Immediately

Notice of Demand to Investigate Legislative Resolution to Recall 2020 Presidential Electors

“We the People,” have the ultimate responsibility to oversee our government representatives once “We” place them in office. Until recently, the voters let these public officials perform their service without much supervision. That time is over. Wisconsin voters are dissatisfied with the partisan politics being waged across the nation. When the “People” are victims of election mismanagement it must be investigated. Our Constitution requires it and “We the People” demand this investigation continue.

Subject: Taylor County Republican Party support needed.

Hi Mike,

Below is an article from this morning in the Gateway Pundit.

My understanding is that you are the contact person, not sure, but maybe the Taylor County Republican Party Chair. Don't you think it is time for us Taylor County Republicans to show our support for other's in WI who are actually trying to do something to clean up the Republican Party of Wisconsin??????????? Vos has demonstrated, through words and his actions or lack there of, his complete unwillingness to do anything but initiate worthless, waste of time "investigations" that are only intended to pacify us. What he really needs to do is to actually initiate and take action to hold those "bad actors" accountable for the illegal actions they implemented during our last election. We need to all be on the same page and move forward to accomplish and undo the damage done by Evers and the Democrat party of WI and for that matter by some of our own. Vos and some others, need to get in line with the efforts coming forward to expose and hold accountable, those who stole the election from WI voters. None of us deserve this and would not ever even consider steeling an election the way Brown, Racine, Kenosha, Dane and Milwaukee ???"election officials"????? did. Now that this has been clearly exposed, action must be taken anyway the legislature can. Our AG will do nothing, so the legislature must act in anyway they can to hold those responsible accountable. Laws/statues were and are still being broken. Why hasn't anybody been made accountable for those illegal activities exposed???????

We know Edming is buried deeply in Vos's pocket, so we can not expect any support for Sheboygan's and other WI Republican's efforts from him/District 87, which is really an embarrassment, anyway, nothing will change that, BUT I think you and the Republican Party of Taylor County MUST officially go on record to do something similar to what Sheboygan Republicans did and by now, I am sure other counties are doing. Vos must go, his second in "command" is done, but is still in a position to negate Ramthun efforts.

Also, the WEC must go!!!!!!!!!! No need to "fix" it, it must go and be replaced by the Sec of State overseeing elections. This suppossid ????Bi-partisan"???? commission has proven itself to be nothing but an extension to the Democratic party here in WI. Please do what you can to make this happen or at least, please do what you can to let the rest of the state know that we Republicans here in Taylor, are TRUE REPUBLICANS and even though our Rep. Edming will do nothing, we here in Taylor County will do all we can to support those who are brave enough to speak up and are willing to propose and take action like Sheboygan Republicans did. Edming is a coward that through

AMERICAN OVERSIGHT

all of this has shown his "true colors". That he can not be trusted to support us and to effectively represent us when we need him to.

Please do what you can to rally Taylor County Republicans to support these effort.

TAHNK YOU,

Wisconsin's Sheboygan County Republicans Pass Resolution Calling for Vote of No Confidence for Speaker Vos and Demand His Removal or Resignation
By Joe Hoft
Published February 7, 2022 at 8:00am

The Republican Party in Shegoygan County has had it with Wisconsin Speaker Robin Vos. On Saturday these Republicans passed a resolution calling out all of the many corrupt actions by Speaker Vos and his attempts to cover up the fraudulent 2020 Election results in the state. This group is calling for his removal and/or resignation in the Wisconsin House. We've reported on Speaker Vos for more than a year. He promised from the day after the 2020 Election to get to the bottom of the fraudulent results in Wisconsin, but he never did. We eventually found out that one of his best friends was Trump-hater Paul Ryan.

As the days and months passed we found out more about Speaker Vos. He was behind the drop boxes in the state and across the country in the 2020 Election. These things appear to be magnets for fraud, yet Vos wants more drop boxes in the next election. President Trump and the rest of the country couldn't believe Vos's actions.

The Republicans in Sheboygan County have had enough of Speaker Vos. They are calling for his resignation and replacement. This is based on many actions that they list eloquently in their list of complaints.

Robin Vos has to go!

We'll see if more counties around the state follow Sheboygan County. Robin Vos is part of the 2020 Election Steal and a major player in its coverup. If he had integrity he would resign.

AMERICAN OVERSIGHT

From: Greg Zurbuchen <gzurb@merr.com>
Sent: Thursday, March 3, 2022, 12:31 PM
To: Undisclosed recipients:;
Subject: The election of Nov. 3 2020 must be DECERTIFIED NOW!

Hello Assembly Rules Committee member, you are one of the people that represent me as a citizen of the State of Wisconsin..
It is time to take action on the **crimes** that were committed in the Nov. 3 2020 election.

Now that the widespread voter/election fraud has now been exposed, documented, and shown to our legislators, the election fraud and manipulation, electronic voting equipment fraud, lack of chain of custody of ballots, people's civil right of equal protection being violated, our pitifully neglected voter rolls, and the negligent actions from the WEC are undeniable, I demand that you RECALL OUR ELECTORS THE NOV 3 2020 ELECTION and move toward the DECERTIFICATION OF THE ELECTION AS OUTLINED by Rep. Ramthun and Justice Gableman.

There is overwhelming evidence of election fraud, illegal ballots counted, and lack of chain of custody of ballots. Our election laws were not followed which means that many ballots that were counted were not legal ballots. Then the illegal ballots were included in the total count of ballots. Then our canvassers certified the illegal count. Then our electors cast their electoral ballots based on an illegal count which was illegal. The number of illegal ballots far exceeds the amount needed to overturn the Presidential election. This goes against every election law we have on the books and for you to treat it as something we just have to live with is unconscionable. The people of Wisconsin demand better elections than this….that's for sure!

You must treat this as an attack on our country that was deliberate and calculated. It is if someone dropped a nuclear bomb on our country and certainly this is an offense to our /republic of the highest order.. Should we just sit back and say, "well it's too late, we'll fix it for next time?" That does not go over very well with the people of Wisconsin….matter of fact, it's disgusting.

People engaging in illegal Dropboxes, Ballot Harvesting, Voter/Election Fraud and Manipulation must be prosecuted and this fraudulent election **must be overturned** in order for justice to be served for the citizens of Wisconsin and our nation!

When the evidence clearly shows fraud and manipulation, the logical conclusion is that the election was hijacked by people not afraid of prosecution for committing the crime. To top it all off, the election data was illegally deleted from our Election hardware so they now cannot be audited. Per federal law, this data must be retained for 22 months. This smells of criminals covering up a crime!
I am trying to figure out why some of our leaders continue to refer to these actions as conspiracy theories. I can only come to the conclusion that they are either misinformed, ignorant, or corrupt themselves…..they are in danger of being thought of as accomplices to the election fraud cover up. To ignore this would only succeed to embolden the criminals to commit voting fraud again!

AMERICAN OVERSIGHT

I have zero confidence we held a free and fair election on that Nov. 3 2020 day.The trust in our elections has been forever tarnished.
The sheer number of fraud and failures in our election system accounts to a ballot total that could have turned the results of the election many times over.
We certified a fraudulent election.
The election of Nov. 3 2020 must be DECERTIFIED NOW! The people of Wisconsin demand it. RECALL OUR ELECTORAL BALLOTS, the ELECTORAL VOTE we certified was UNLAWFUL!

At the very least, your first step should be to recall our 10 electors and award them to no one since the true outcome of the election is unknown due to all of the fraud and manipulation of the ballots..

I demand that you move forward the Resolution brought forth by Representative Ramthun. The PEOPLE of WISCONSIN demand action to correct the unlawful results of the fraudulent election of Nov. 3 2020.

Thank you for your service to our State!

God hates sin and He hates injustice. God will not honor a stolen election and neither should we!

How long will the people of Wisconsin have to endure the injustice of a fraudulent election? When will our Legislators act on the overwhelming evidence?

PROVERBS 29
1 Whoever remains stiff-necked after many rebukes
will suddenly be destroyed—without remedy.

2 When the righteous thrive, the people rejoice;
when the wicked rule, the people groan.

Please help us to restore Election Integrity in our great State of Wisconsin.
I would be willing to help in this process in any way that I can.
Sincerely,

Greg Zurbuchen

Judge Rules Against, Fines Overseers of Wisconsin 2020 Election Probe

Dane County Circuit Judge Frank Remington said that the report by former state Supreme Court Justice Michael Gableman and Republican Assembly Speaker Robin Vos improperly denied access to public records that they allegedly used. Remington stated that their "denials, delays, and refusals violate the letter and the spirit of Wisconsin's public records law."

The report stated that Wisconsin should consider decertifying the legitimacy of the 2020 presidential election due to potential voter fraud, a conclusion that both Democrats and Republicans have criticized

Senator Vos,

The time has come to decertify the 2020 election in Wisconsin. It is blatantly true that law after law was violated and that there is no discernible way to determine who actually won the election. It is not minor. This was systemic, planned, and severely corrupted, with wanton lawlessness. There was corruption at every level, and Justice Gableman's presentation was but one more giant piece on what is becoming a mountain of evidence that Wisconsin did not hold a true or fair election in 2020 and that nefarious actors may well have stolen the election. I hear many give the pathetic excuse that there is no mechanism to decertify, all but encouraging further election fraud. That is unacceptable for any individual with a scintilla of integrity and who even remotely fears God, to whom we shall all answer. The Constitution grants plenary power to the state legislatures. That is enough. The people deserve moral leadership.

Good Evening Speaker Robin Vos,
We highly disappointed to hear that you had called for ending the election fraud investigations by the end of February. This matter needs to be fully investigated. Mayors and elections officials that have ignored supoenas need to be brought in for testimony and held accountable for actions. If that means going to jail, then they should go to jail.
Unless we get to the bottom of what happened in the last election. Residents in Wisconsin are not going to be confident in having a fair and free election in our state. You have been dragging your feet all along on this investigation and it is time to step up to the plate and do your job.
Sincerely,
Bernie and Sally Wenzel

We strongly approve of Rep Ramthun's efforts. We strongly approve of Senator Ron Johnson's efforts

We strongly disapprove of Rep Vos and his leadership and continued delays.

We continue to demand:
- justice for the criminals who stole our election.
- transparency and investigations into how the criminal Democrats stole our vote
- voting machines either be eliminated or you share the software that runs them.
- drop boxes outside the voting locations are made illegal.
- that our legislator fight for us and do their jobs to guarantee all votes are legal.

Dear Speaker Vos,
I am not in your district; however, I am coming to you as Speaker. I am disappointed that you and Mr. Gableman have not wrapped up the "audit" of the 2020 election. In addition, the threats against mayors is absolutely unacceptable. Speaker Vos, end the election review now. You are seeking a solution to a problem that does not exist, and you are sowing doubt in the election process. This is shameful.
Sincerely,
Marilyn Lienke

Dear Mr. Voss,
My husband and I wish to express our total dismay and anger that you are allowing the totally partisan Gableman "investigation" to continue. We are both 5th generation citizens of this great state of Wisconsin. We have been voters since we became eligible to vote in the 70's. We firmly and have always believed that vast majority of voters and election officials of all strips are honest and that our vote will be both protected, counted fairly and the results, the will of the people, will be respected (win or loose). The Republican parties efforts to undermine this fundamental assumption are alarming to us. The fact that Republicans fraudulently put forth a slate of state electors after our state Supreme Court certified Joe Biden's win, stand by this effort as being legitimate and are actively working toward making such partisan and fraudulent efforts easier to accomplish is the real crime against our sacred but increasingly fragile democratic republic. Please end this madness.

Speaker Vos:
Please terminate the election audit immediately. I realize you find yourself in a political pickle at the moment, pressured by the far-out side of your party whose agitators insist you must do something to overturn the results of the presidential 2020 election, and your need to appear serious but not crazy about what more centrist members consider possible fraud that requires legislative action.

In truth however, Gableman is not only inept at running an audit, but a bad actor with inscrutable intentions. The whole thing is a circus, with multiple rings of dog and pony shows for the entire country to see and laugh over. Your own role is basically a circus master's display of dishonesty. Makes the entire state look bad, unfortunately.

Take your own oath of office seriously, seek to support democracy, openness and fairness in government. It is best for the state. Partisan hackery will be your main mark in the history books if you don't turn the corner. If you lose your leadership position, you can at least claim you did the right thing. End the audit today.

I am writing to express my frustration with the Wisconsin election investigation being performed by Michael Gableman. This is an unnecessary investigation, is being conducted very poorly and is a waste of taxpayer money. It's been over 15 months since the election and no evidence of widespread fraud has been found. The Legislative Audit Bureau conducted an audit and only found some items that can be clarified, no evidence of widespread fraud. Michael Gableman stated that he has no knowledge of how elections work and that has become painfully obvious. The investigation began with an e-mail from some unknown gmail account to municipal clerks asking them to retain records which they already retain anyway. Gableman has issued petitions for subpoenas for mayors and other individuals and groups, including Voces de la frontera Action and then retracted the subpoenas. Now Mayors have again been issued subpoenas and have been threatened with jail. Mayors don't have anything to do with elections. Gableman has made several errors such as issuing subpoenas to incorrect names of people. Gableman has requested information from Dominion Voting Systems from municipalities that don't even use Dominion Voting Systems. Multiple lawsuits have ensued because of Gableman's incompetence which costs the State even more money. Gableman can't even provide any accounting information for how our tax money is being spent. Gableman has absolutely no credibility and is incredibly incompetent. I cannot believe this worthless investigation is being allowed to continue. This investigation is simply trying to sow distrust in safe, legal elections and is trying to further divide our State and our country. I

AMERICAN OVERSIGHT

ask that Representative Vos immediately shut down this sham investigation and try to recover any funds that have been improperly spent or improperly accounted for.

I cannot vote for any republican candidate in this state so long as this 2020 election audit continues to be the party's platform focus. Its 2022. Trump lost in Wisconsin. The Wisconsin election was free and fair. The only fraud has been this continuing $676k sham of an audit.

It's time to reel in or cut loose your boy Gableman. He's gone off the deep end threatening jail time for mayors if they don't meet with him closed doors. If this is truly necessary, it should be fully transparent to the residents of Wisconsin.

Wisconsin has much more important issues to address:
1. Phase out the individual income tax
2. Make Wisconsin more attractive for business start up and investment
3. Reducing gun violence and crime in our larger cities
4. Independence for school districts to shape their curriculum
5. Roads and infrastructure

Enough BS. Do your job.

Speaker Vos,

I found your comments rather comical after the Democrats forced a floor vote seeking to revoke the state's 10 electoral votes for Biden. You dismissed the vote as political theater. "It's all these games and theater." If the Democrats' action was political, what should we call the Vos/Gableman show. I would call it the Ringling Bros classic clown show. When,or if, Gableman has a report the two of you could hold a news conference in Baraboo at the Circus World Museum. No matter what Gableman reveals it will have no validity.

Dear Mr Vos,

I see now the cult of Trump, your boy Gableman, is proposing in Wisconsin that people who don't help support the claims of election fraud in Democratic districts are to be jailed. Why? Do you study history? Does any of this remind you of the early years of Hiltler's Germany? If not you need to refresh your memory.

If he is going to look at election practices, he needs to look at all districts including Republican ones. Otherwise his investigation is what its been claimed to be a partisan witch hunt designed to intimidate and influence Wisconsin voters and keep Democrats away from the polls.

Speaker Vos,

Why are you acting as if you are complicit in "rigging" the 2020 presidential campaign by undermining the findings of esteemed former Wisconsin state Supreme Court Justice Michael Gableman? Your historical legacy is being written into both Wisconsin and United States history -- NOW. Will you be a national hero or another corrupt RINO politician? Will your legacy to your family be that of lasting pride or adject shame. Do the right thing and support decertification of the 2020 election. You see the case for massive fraud and the legal case for decertification. Only you stand in the breach.

Robin Vos

You will NOT get in the way of a lawful investigation of election fraud and the wrongful allocation of electoral votes of WI voters, or you are committing obstruction of justice and knowingly impeding an investigation with intention of fraud. This is negligence and criminal conspiracy to undermine the federal and state constitution. And the reason that you want to continue to allow drop boxes is so you and your criminal cohorts are able to commit fraud in the future with more simplicity, without finding a way to somehow smuggle illegal ballots into an election commission office.

You need to step down from your position, effective immediately. Your actions of undermining the election and lying to your constituents is absolutely unacceptable. Either step down or accept being arrested and criminally prosecuted for your criminal behaviors.

If Fraud existed it vitiates everything is is a many hundreds years old common law princpal well established in law.

At worst is fraud is determined then the ssue should be presented to the legislature for resolution.

If fraud s dtermined and that fraud is coupled with foriegn interferance and then you current actions could and likely would be seen as an obstruction fo jusstive. It is not your individual decision to decide what should be done but a responsbility of the legislative body.

Power will eventually swing and a full and through investgation of this election will be pursued vigorously. Your position makes you subject to in investigation for felony and treason. For our nation for your family and for yourself please relaease this to the legislature for thier deliberation.

We can not accept that fraudulently elected representative can be permitted to stay in office.

I don't understand the logic or rational?

More than 50% of the country believes that was massive fraud int he election.

Where is the line between legitimate difference of opinion and obstruction of justice and if foreign interference treason?

You should be the person leading the investigation so you behaviour is perplexing. Someday pwoer will shift and the full truth will come out.

Now is the time to do some soul searching apologize and seek a course correction you are miss reading the politics winds

Please for th people and for the country ands for the legacy you leave for your family. Your direction is becoming indefensible.

Praying for you to have the courage to lead boldy

As a direct result of Justice Gableman's investigation of the 2020 elections in Wisconsin, charges need to be brought against the felonious WEC board members, city mayors, nursing home administrators and individuals who perpetrated this egregious VOTER FRAUD. Additionally, your apparently intentional deception and volitional undermining of the election results are a travesty and you should be ashamed. You have been in-office during these illegal acts and have done so little to identify and NOTHING to correct them. I assume it was from ignorance rather than culpability. If you fail to take action now I will know it was actually the latter.

If you want to keep this election review farce going, ask TRUMP to pay for it!! I understand you are sharing Gabelman's report with Trump, who appears to continue to be pulling your strings. Are you hoping for another photo-op with him on his private jet.

I have worked hard over the years and have paid plenty in state taxes. I resent the obscene amount of Wisconsin citizens' tax dollars having been spent on what has clearly been a PARTISAN review.

I WOULD have had faith in the results of an investigation if it had been conducted by an IMPARTIAL party. It appears giving the contract to Gableman was meant to ensure that his report would support yours and Trumps preconceived conclusions instead of truly determining what if any problems arose in holding an election in the middle of a pandemic and the unique issues that may have entailed.

If Trump had won the election, would you have been concerned about the effect of absentee ballots and drop boxes? ABSOLUTELY NOT!! It would have been a non issue because the results would have been what you wanted.

Robin Vos the communist continues to spread lies about facts.

Nice try with the talking points you emailed. Gableman is going to hold the line and present his findings for all to see.

How much is the CCP paying you to try and destroy our country?

Mr. Speaker,
As a very concerned citizen of our state, I am very disappointed to know that one of the most legally administered elections (supposedly) here in Wisconsin has been wrought with fraud and illegalities. As a life-long Republican, and not in name only, I am urging you to put forth every effort and resolution necessary to clean up our voter rolls, ensure that no drop boxes are used for any election in this state (which has already been decided by the Waukesha County court), and to ultimately put forth the resolution to decertify the slate of electors illegally presented in the 2020 election. I am hoping that you will not continue to support the use of drop boxes since they are proven to be huge fraud magnets in our election system. Also, enabling clerks to fill in any missing information on mail in ballot envelopes is just another invitation for criminal activity. I totally support Mike Gableman in his investigation, and I would ask that you support his efforts to ensure that the WEC is run fairly and legally. My right to vote and the certainty of its security is the most important right I have as a citizen of this state. I'm sure I speak for many others as well. Thak you for your service, and may God bless your efforts to bring Wisconsin to the forefront of election integrity.

An absolute waste of tax payer money to hire Gableman, whose total lack of understanding of election law and is truly astounding, to "look into" voter integrity and shows poor judgment on your part. As we all knew would happen, taxpayers have spent $670,000 for him to find NOTHING except a rehash of the results of the numerous prior investigations, some by your own commission. No more taxpayer money should be spent on this investigation. We are tired of these electioneering lies that are truly undermining our republic. Is this going to be your legacy as well?

Mr. Vos,

As a long-time conservative, I am appalled by Michael Gableman's report to "decertify" the 2020 election. This is an attack on our democracy and you will forever be attached to this event, Mr. Vos. Moreover, it blows my mind that you authorized over $676,000 to be used to investigate the 2020 election. If you have a problem with dropboxes or absentee ballots, change the laws for next time. Please quit wasting time and resources on an "investigation" that - in my eyes - will only damage the credibility of the election process for citizens of Wisconsin going forward.

I will refuse to vote for any candidate in upcoming elections that claims the 2020 election was a sham. The Republican party's weakness seems to be that they are always complaining about different things, but don't seem to have the answers to fix these areas of concern. We need solutions. Time for the Wisconsin Republican party to use the Wisconsin state motto and look "Forward!"

Rep. Vos,

I have seen Justice Gableman's recommendation to decertify the 2020 election. I expect our Republican Assembly to take decisive action on this recommendation. Voter fraud should be taken very seriously, and it's been well defined and massive in scope. This is the single most important issue of our day. Please move to de-certify.

thank you,
Kyle Johnson

Dear Robin. I am deeply Disturbed and wholeheartedly ashamed at the things the gabelman investigation has brought to light. The manner of detail and explanation he presented was obvious was eloquent and was very informational. Anyone who is not 100% on board with going back and following up to make the necessary changes should be removed from office or prosecuted immediately. You work for us. It is your duty to ensure that things like this I looked into and are prevented from happening again. Jim steineke said it was a Fool's errand to go back to 2020. I emailed him and asked him when a murder is committed is it a Fool's errand for the police to investigate the crime despite it being last week? When a robbery is committed do we not look into the facts and prosecute people despite another robbery happening next month? Is it a Fool's errand to seek Justice when laws are broken? You have a constitutional obligation to protect Wisconsin laws integrity and citizens. It is shameful how you have taken it political hypocritical approach to this election Integrity matter. Shame on you shame on you shame on you Robin Voss

3/2/2022

Please note – That while I'm sending this directly to Robin Vos (Speaker – WI Legislative Assembly), it is very pertinent to ALL my Republican Representatives (i.e. Duchow, Kapenga, Fitzgerald and Johnson)

Rep. Robin Vos,

After 40 years of voting for only Republicans, I've started voting for only Democrats some 6 years ago. I will continue to do so until I either see a major change in the Republican Party or find an honest Republican who truly represents my values and I can count on to tell the truth. As a strong conservative voter, I'm disgusted at the direction you and your cohorts have taken.
Blatant lies (i.e.Trump won in 2020, etc., etc, etc.), miss use of Public funds (Gableman's $670,000 folly), misinformation regarding public health (Covid issues), and attempts to STEAL the votes of Americans are some of the many reasons I'll work to have others take over your office. Today most Republicans appear to be working only for themselves and not for the good of ordinary Americans. When I see the label "RINO" placed on any Republican, I think maybe, maybe, maybe here is someone I can trust.
I believe Trump, Johnson, Fitzgerald, Vos and Gableman are all made of the same cloth.

AMERICAN OVERSIGHT

Shame on them!!!!

SINCERELY,

John T. Eschle

You made our state look utterly ridiculous once again. We are the laughing stock of not only the US nut the world. You chose to spend $676,000 that could have been put to better use by our state for housing, medical, education, etc.

Nothing was found all he could say to save your face was he feels the votes should be "decertifird". Was that your suggestion? What is your next tactic? Are you now part of the Trump family? Maybe we should investigate you for all the illegal things Trump is being investigated for. Are you using Wisconsinites money to fund Putin? After all Trump and Putin and little Rocket man of Northern Korea are all best friends. They all wanted to create a dictatorship in the US and Congress said "No" to Trump. Remember when he asked congress to do away with the 4 year term so that he could remain in charge forever.

Are you part of the white supremacy q~anon, or other groups that Trump appears to be fond of. I just wonder how strong your alliance is with. This man. His own. Finance company has quit their ties with him. New York is looking into several things. He stole secret documents from the White House and took them to Florida with him. How do we know copies haven't been made and that he isn't and hasn't used some of this information against the US~~could that be considered treason? Lots of questions us Americans are left with. Then, there is the destruction while storming congress and the white house on

AMERICAN OVERSIGHT

January 6th in hopes of stealing and changing the votes. Were you in on that and trying to help him? Were you trying to capture and hang Vice President Pence~what was your part in trying to help Mr Trump? Lots of questions. You have wasted Wisconites money and I think you need to repay it, because once again it proved nothing but a fair election.

There are wonderful Republicans and I certainly would vote for them. You are not one of them. You continue to be an embarrassment to our state.

As I told you, I watched both times the impeachment proceedings. You were completely unprepared for the entire case and made Wisconsin look like a bunch of uneducated hillbilly hicks. I was so thankful when you passed your remaining time off, because you were unbelievable and remain unbelievable.

The best thing you could do is repay the state for this investigation and drop out. Allow a better educated person to take your place. Your big mouth is useless. We need workers that are going to help the people in our state, not contradict everything that will help them.

All you do is fight and want to prove a point rather than do what is right and correct what is wrong with our state. You are one of the people using this position to try and get rich. That's not what this position is for. It is a position of service. It is to service the needs of the people in your state and doing without for yourself. It is suppose to be a selfless job. Somehow, you in Congress lost sight of what your job is.

Help get better infrastructures, computer fiber optics,better environment improvements to save our planet, clean our earth and waterways, improve housing, better weatherization programs, improved electric cars, better heating sources, get rid of fossil fuels, improve solar panels, definitely improve our educational system throughout our state (for instance Greenfield High School spent multimillions on high tech upgrades for their educational system and we have the lowest rating~~ shouldn't happen anywhere in Wisconsin)., medical needs should be improved throughout our state and medication costs need to become affordable for everyone. Housing costs should be affordable for all and be open to all. You need Hispanics , Blacks, Indians etc living next to you. There are so many other things you need to be working on rather than fighting against. You are ridiculous, and an embarrassment to our state. If you would just put an effort in doing what is right rather than fighting against you you do so much better. Right now it has gone to far for you though. Please pay the bill for the money you wasted to find nothing wrong once more, making tgeRepublica party look stupid once more. Then, leave~~find someone that is educated like Stiles to take over. Someone fair and is willing to work on both sides, is educated and makes sense.

Vos, you anti-democracy bitch, the only action that should be decertified is your spending our taxpayer money on that Nazi Gableman to shoot his fat mouth off with lies. Keep it up, Vos. I do not think you truly understand how the vast majority of us are sick in our hearts of this Trump bullshit to negate our democracy. Trump's pal and yours, Putin, and his disgusting actions against a nascent democracy and people who want to vote freely have galvanized many of us to take a look at our own country and those attempting to subvert our Constitution. I'd watch your nut sack as time goes by. Nobody is whistling Dixie here, asshole.

Dear Speaker Vos,
As expected, Gableman's election "investigation" was simply a way for him to state his extreme views in support of the ex-president's big lie. It is shameful that you spent taxpayer funds on this unscrupulous man. After audits and recounts, this was absolutely unnecessary and wasteful. Please send Gableman on his way, and be sure you make it known how foolish his "findings" are.
Sincerely,
Marilyn Lienke

Honorable Speaker Vos, Once again you make mindless stupid news supporting the big lie election fraud nonsense after listening to the report by the severely less than honorable Gablemen by stating the following.

Mr. Vos did not respond to questions Tuesday, but issued a statement saying Mr. Gableman did “a good job at showing there were issues in 2020.”

What a joke! Did a good job! You’re not that stupid and certainly the good Wisconsin voters (at least the ones that have not been lied to) are not that stupid either. THERE WAS ZERO FRAUD IN THE ENTIRE 2020 election!!!!!! Stop the charades and political garbage nonsense. Have you no integrity or honor? Shameful! Lead or resign, this hoax with Gablemen is an embarrassment to our state and to you for the colossal lack of leadership . Thank you
Scott Snyder

Please stop this crazy investigation into the 2020 election. You have already wasted $600k of our taxpayer money that you had no right to use. This partisan investigation is an embarrassment to the State of Wisconsin. Gableman is a nutcase trying to decertify an election. You want to support this? Sad. Concentrate on serving the people of Wisconsin, not trying to support Donald Trump in his conspiracy theories of a so-called stolen election. That should be a red flag. Even fellow republicans do not support this. Wake up and stop wasting our money.

I am writing to you today to ask that you do not support bill #SB946 the Monday bill. Please vote NO! This is a get out the vote gift to the democrats. With the whole state reeling from the stolen presidential election and the investigation by Gableman, I would think you would be opposed to anything that may help the democrats. I am very disappointed in you not trying to implement the procedures that Gableman came up with to make our elections more secure. The trust is gone for free and fair elections. Please do not vote for this bill.

Dear Representative Vos,
After watching the news today and hearing Mr. Gableman's conclusions of this costly investigation, I implore you to put a stop to this highly expensive, fruitless and frivolous investigation. You have said you care about the taxpayer's money but this is a travesty. The control of our elections needs to be with our Wisconsin Election Board as it has been for decades, not with the party in power.
Mr. Gableman is clearly partisan in his findings and you have said you have repeatedly kept former President Trump "updated" on his findings. You owe your loyalty to us, the Wisconsin voters. This waste of taxpayer money has gone on long enough!
Please stop trying to garner the favor of our former President and instead be a guardian of our state's funds. It is highly offensive to see you on the news, pictured in his jet as he apparently tries to "woo" naïve politicians by his show of wealth.
I implore you to stop saying you are after the truth as clearly you are trying to obtain the results YOU want, not that of the people of our beloved state. Trump lost and he is not worthy of your fealty. Instead, try to look forward for an honorable, honest Republican Presidential candidate that citizens can respect.
Regards,
Joan Zacharias

Re: the Gabelman "Investigation"

This waste of taxpayer money has gone on long enough. Please do not renew any sort of contract with this election-denier. It is an insult to the integrity of those of us who volunteer our time and service so that our fellow citizens can vote. What Gabelman is suggesting sounds suspiciously like the "election" conducted in Belarus, where the authoritarian government decided beforehand which results were acceptable.

Representative Vos,
As a marine corps veteran and life-long resident of Wisconsin, I am deeply saddened and disappointed in your cowardness. As the tragedy of Russia's invasion takes place in Ukraine, I am moved by the Ukrainian people who are willing to fight and die to protect their freedom and democratic government. You submitted to a loser of an election to continue to appease him by spending MY tax dollars, along with all the residents of Wisconsin, to hire a Trump loyalist to conduct an investigation of possible voter fraud. Spending over $600,000 of taxpayer money could have been better spent in education, health care or our veterans. Gableman's conclusion and recommendation is breathtakingly stupid. He recommended de-certifying our election results WITHOUT proof of fraud. You allowed this sham to take place because you could not find your courage to simply stand up to a loser of an election, or because you want to continue to cast doubt of an election for you to continue your power as an "elected" representative, that by the way, does not have a shred of doubt to your election result. I have voted in Wisconsin elections throughout my adult life of 65 years. As a veteran, I served my country to earn that right. No other election has ever been investigated for fraud, until one man, who lost, called it rigged. It's almost humorous that he publically said that the only way he could "lose" was if the election was rigged. This was months prior to the election. How precious, that you can call a loss rigged, even before you lose. You, along with Gableman and his "investigation", did nothing but bring shame to our state and our democracy. May God

AMERICAN OVERSIGHT

protect the brave people of Ukraine as they defend their elections and freedom.

You have to search your own soul and comfort yourself for your cowardness to Donald Trump. For some, living as a coward becomes easy to do. I served my country and our constitution, but I never put anyone above my patriotism.

Today's news of Gableman and his waste of our money, directed by you, is a sad day for our great state of Wisconsin.

i have been writing you as a concerned American with the obvious fraud that took place in your state during the 2020 presidential election. I waited with uncertainty to how the special investigation headed by your appointee would turn out. Upon the reports release . however , again was dissapointed to see you have sent out a letter to the republican senators of Wisconsin to refute the report. I was amazed at the depravity and planning that went into the fraud . However, it was sad to see you are asking your senators to refute the findings. i guess it is time to give up on you as it is clear you are not on the side of justice and liberty . I see you will have a opponent for the next election and i will be throwing my full backing to him.. God help you for what you have done to our country.

Speaker Vos,

Why are you doing everything possible to hinder the investigation of the 2020 election steal in Wisconsin? And why are you pushing legislation that will enable early cheating in future elections? Your continued actions are disappointing and disgraceful, as a leader of the Republican party. We expect more from our leaders and you continue to let us down. If you are not willing to represent what the Wisconsin Republicans truly want, then it is your obligation to resign, so that someone who will, can fill your spot. Either get with the program or get out of the way. The Democrats have destroyed the country in one year, due to the stolen election, and you can be a hero or a zero, by what you do next. Save our state and save the country, by getting on board with the true patriots in Wisconsin.

March 3, 2022

Speaker VOS,!!! Do something !!! Wisconsin VOTERS are WAITING!!

The Gableman report states "significant election law violations" -- Vote now to De-certify 2020!

The Gableman report states "significant election law violations" -- vote now to De-certify 2020 Wisconsin results! (See attached news clips)

8.8 million in Zuckerbucks to Democratic Cities in Wisconsin
Certain Democratic counties with 100% voter turnout
Nursing home ballots filled out and cast illegally.
Megan Wolfe WEC Administrator VIOLATED state statute by allowing Drop Boxes to be stuffed by anyone which caused voter fraud.
The ERIC computer system is in charge and NOT PEOPLE!!

The voters of Wisconsin know it won't change who is the President, BUT,..
If the Senate and the Assembly would just PAST THE resolution to decertify and FIRE the Administrators IN CHARGE,...IT would be A PUBLIC HUMILIATION for the GUILTY PEOPLE,...mostly DEMOCRATS!!! These are VIOLATIONS of WISCONSIN election law!!!
Give law abiding voters of Wisconsin some JUSTICE in seeing people FIRED and or FINED!

Here

2) **CBS** Is owned by National Amusements which is owned by Sumner Redstone.

The following was taken from an article to show an association with The World Economic Forum.

I was deep into this session of sweet silent thought when Sumner Redstone called.

Redstone and I had met at the World Economic Forum in Davos a few months before. We were introduced by Klaus Schwab, founder of the World Economic Forum, a global happening that occurs every January in the Swiss hideout for the wealthy and ski aficionados. If you've never been to Davos, think of the United Nations but more effective. Here

The next paragraph is used to show further association with the World Economic Forum. Viacom is owned by Sumner Redstone.

Cristiana Falcone Sorrell Ms. Sorrell,* the senior adviser to the chairman at the World Economic Forum, has been a Viacom director since 2013. She is married to Sir Martin Sorrell, chief executive of WPP, the world's largest advertising company, which does business with Viacom. Here

Note on The World Economic Forum: The Forum dogmatically argues that a globalized world should be governed by a self-selected coalition of multinational corporations, governments and civil society organizations (CSOs), which it expresses through initiatives like the "Great Reset" and the "Global Redesign". More on the World Economic Forum will be discussed as we move forward.

AMERICAN OVERSIGHT

Summary: Blackrock and Vanguard controlled by The World Economic Forum own mainstream news media, Satellite and Cable providers, Radio providers, Wireless services, Social Media, Youtube, Google and top banking institutions.

The orders from the Elite are given to be distributed by the mainstream media. Social media bans people that do not walk the line of the mainstream media narrative. Youtube bans individuals that do not walk the line of the mainstream media. We are beginning to see networks canceled from satellite and cable platforms who disagree with the mainstream narrative. One example is One America News and DirecTV's cancellation of the program.

The next logical step for this power is to take banking away from people who do not walk the line of the mainstream narrative.

As the corporate tyranny accelerates we can expect to see the complete cancellation and silencing of all opposition from TV, Radio, News, Social Media, text messages and banking.

AMERICAN OVERSIGHT

Government Infiltration and Control

Today we face a global corporate infiltration into our elected governments. I will explain this further as we continue to lay the foundation to understand the larger picture.

Below is a small example of infiltration into government power positions.

The money manager

George Soros

George Soros[a] HonFBA (born **György Schwartz**, August 12, 1930)[1][2] is a Hungarian-born American[b] billionaire investor and philanthropist.[8][9] As of March 2021, he had a net worth of US$8.6 billion,[10][11] having donated more than $32 billion to the Open Society Foundations,[12] of which $15 billion have already been distributed.

George Soros crashed currencies to accumulate his wealth. This man also participated in the confiscation of jew's property during Nazi rule. Soros said he had no sense of guilt and it was a great time in his life. See the Video of him saying this Here or read it partly from the congressional record below.

```
[Congressional Record Volume 152, Number 125 (Friday, September 29, 2006)]
[Extensions of Remarks]
[Pages E1917-E1918]
From the Congressional Record Online through the Government Publishing Office
[www.gpo.gov]

Soros: ``No Sense of Guilt'' for Confiscating Property from
     Jews in Nazi-occupied Budapest. ``But there was no sense that
     I shouldn't be there, because that was--well, actually, in a
     funny way, it's just like in markets--that if I weren't
     there--of course, I wasn't doing it, but somebody else would
     . . . be taking it away anyhow . . . whether I was there or
     not, I was only a spectator, the property was being taken
     away. So the--I had no role in taking away that property. So
     I had no sense of guilt.'' (``George Soros,'' 60 Minutes
     interview transcript, December 20, 1998)Here

The Guilt-Free Record of George Soros

       ``I am basically there to--to make money. I cannot and do
     not look at the social consequences of--of what I do.''
     George Soros, commenting on being blamed for the financial
     collapse of Thailand, Malaysia, Indonesia, Japan and Russia.
     ``He can move world financial markets simply by voicing an
     opinion or destabilize a government by buying and selling its
     currency . . . [W]hen he saw cracks in the Asia boom, he
     began selling the currency in Thailand. Traders in Hong Kong
     followed suit, triggering a financial crisis that plunged
```

AMERICAN OVERSIGHT

much of Asia into a depression. (``George Soros,'' 60 Minutes interview transcript, December 20, 1998)Here

George Soros is a self-admitted Nazi collaborator who has no problem with his participation in the Holocaust. This man is a heavy financial supporter in getting Demarcates elected in America. We will show further George Soros involvement and background as we move forward.

The following is to give you an idea of his financial capacity and a small example of how many people he has supported, all being members of the Democrat party.

FEC records show that Soros personally contributed $18,360,000 from 2011 to March 2016 to Super PACs, Hybrid PACs, and historical soft money party accounts. From 1998 to March 2016, he contributed $3,774,292 to all other committees except joint fundraising committees. From 2008 to 2015, Soros contributed a total of $393,900 to joint fundraising committees, which distributed those funds to a number of final recipients.[1] These financial figures do not include monies contributed to various causes through an intermediate foundation such as Soros' Open Society Foundations.

In 2019, Soros created Democracy PAC, a super PAC to support and/or oppose federal candidates in the 2020 elections.[2] Soros contributed $5.1 million to the group through June 7, 2019.[3]

The Justice & Public Safety Political Action Committee is a Super PAC founded and funded by George Soros.

2022: Soros pours $125M into super PAC ahead of midterms **HERE**

Quote: "Since 2015, he (Soros) has spent more than $17 million on district attorney and other local races in swing states such as Pennsylvania, Virginia, and Arizona, but also in large, predominantly left-of-center states such as California and New York. In 2016, Soros dropped $2,000,000 into a single sheriff race in Maricopa County, Arizona, helping progressive candidate Paul Penzone win the election with ease over longtime incumbent Joe Arpaio. He has given millions of dollars in grants to candidates in several other counties as well." HERE

"Mega-donor George Soros has directed his wealth into an under-the-radar 2016 campaign to advance one of the progressive movement's core goals — **reshaping the American justice system."**

AMERICAN OVERSIGHT

George Soros is reshaping American Politics with his money. Most Americans see criminals being released and react in a way similar to 'Those politicians are stupid', and they are, however, the politicians are installed specifically to do these very things. We will go over why the politicians support destructive policy as we move forward.

Quote: ST. LOUIS — Missouri Attorney General Eric Schmitt says St. Louis Circuit Attorney Kim Gardner has not charged any of the people that St. Louis police officers have arrested during recent violent protests and, as a result, they've all been released. Kim Gardner was installed by George Soros.

Clearly, this is Soros idea of reshaping the American justice system.

Here are a few American politicians who have been funded by George Soros.

Arizona

Diego Rodriguez, a former prosecutor who has promoted himself as an advocate for stopping mass incarceration and questioned the integrity of Montgomery and Arpaio.

California

The Soros-funded committee has spent more than $130,000 to back Oakland civil rights attorney Pamela Price's challenge to Alameda County District Attorney Nancy O'Malley's bid for a third term.

Jones-Wright promises to create a police misconduct unit.

Colorado

On October 10, 2016, it was reported that Soros contributed to a political committee called Colorado Safety and Justice. The committee opposed Pete Weir, the incumbent Jefferson County district attorney. The committee aired ads opposing Weir and supporting Democratic candidate Jake Lilly, a former military prosecutor. Soros contributed over $100,000 to Colorado Safety and Justice, according to CBS Denver.[23]

George Soros and his relatives donated $14,000 to Hickenlooper's Senate campaign.

AMERICAN OVERSIGHT

Florida

In the 2016 race for Orange-Osceola State Attorney in Florida, Democratic candidate Aramis Ayala, who ran against Republican incumbent Jeff Ashton. A Soros-backed political committee, Florida Safety & Justice, aired ads in support of Ayala.[24]

Illinois

During the 2016 Democratic primaries in Illinois, Soros contributed $333,000 to the Illinois Safety and Justice PAC supporting Cook County district attorney candidate Kim Foxx (D) against incumbent Anita Alvarez.[25] Foxx won the primary and faced off against Republican Christopher Pfannkuche in November 2016. Foxx, according to Chicago's PBS station, WTTW, was continuing to receive support from Soros.[26]

Louisiana

Soros, through the Louisiana Safety & Justice PAC, contributed over $916,000 to the Caddo Parish district attorney's race in 2015. The committee supported Democratic candidate James E. Stewart. Stewart won the election in November 2015 defeating Dhu Thompson (R).

Mississippi

In the 2015 Lowndes County district attorney race, Soros supported Scott Colom (D) against incumbent Forrest Allgood (R). Soros gave through a super PAC called Mississippi Safety and Justice. According to The Dispatch, the super PAC spent at least $89,000 in support of Colom. Colom won the election.[28][29]

The super PAC also gave money to the Hinds County district attorney's race in 2015; the group supported Robert Shuler Smith (D).[10]

Missouri

In the 2016 Democratic primaries for St. Louis circuit attorney, the partly Soros-backed Safety & Justice Committee contributed to Kim Gardner's (D) campaign. The Missouri Justice Public Safety PAC, which is linked to George Soros, has donated nearly $78,000 in contributions to St. Louis Circuit Attorney Kim Gardner's 2020 campaign, according to her July 15, 2020 financial report

Missouri Secretary of State Jason Kander

New Mexico

In 2016, Soros contributed to the Bernalillo County district attorney's race, supporting Raul Torrez in the Democratic primaries against Edmund Perea.

The money went to the New Mexico Safety & Justice PAC, to which Soros gave $107,000.[10][33] On June 23, 2016, Simon Kubiak, Torrez's Republican challenger, dropped out of the general election race citing "purely financial" reasons.[34]

AMERICAN OVERSIGHT

Texas

In October 2016, the Houston Chronicle reported that Soros had made a $500,000 ad buy in support of Harris County—the county in which Houston is located—district attorney candidate Kim Ogg (D). Soros had supported, in February 2016, Ogg's primary election opponent Morris Overstreet (D) with a $100,000 contribution. Ogg was running against Republican incumbent Devon Anderson.[35] HERE

Facing a dispirited group of supporters on primary night, District Attorney Nicholas "Nico" LaHood explained his crushing, nearly 20-point loss by saying, "The influence, obviously, of $1 million in New York money was too much for us to overcome." Democratic rival Joe Gonzales took this seat.

Race for Travis County district attorney, challenger José Garza reported total political contributions of more than $548,000. He had some help in that from a group called the Texas Justice & Public Safety Political Action Committee. Philanthropist George Soros contributed $652,000 to the Texas Justice & Public Safety PAC HERE

Virgina

$583,000 to Parisa Dehghani-Tafti

$392,000 to Fairfax County commonwealth's attorney candidate Steve T. Descano

$191,000 and $251,000 hauls of incumbent Commonweath's Attorneys Theo Stamos (Arlington) and Raymond F. Morrogh (Fairfax County)

To date, George Soros has installed hundreds of political officials in governmental positions. This is one of the political funding arms in America.

Soros Fund Management | World Economic Forum (weforum.org)

George Soros is one of the individuals responsible for corporate government installations and a member of the World Economic Forum. Note the World Economic Forum involvement.

AMERICAN OVERSIGHT

Quick review:

The former power pyramid could be changed to have George Soros in the position of Blackrock and vanguard with political pacs and politicians below him to achieve the political illustration.

The World Economic Forum

Klause Schwab (Founder)

***Capture of democratic structures and institutions.**

The Forum dogmatically argues that a globalized world should be governed by a self-selected coalition of multinational corporations, governments and civil society organizations (CSOs), which it expresses through initiatives like the "Great Reset" and the "Global Redesign". This means they intend to create a self appointed global government based on corporate interest of the members.

Schwab as publisher of the World Economic Forum's 2010 "Global Redesign" report postulates that a globalized world is best managed by a self-selected coalition of multinational corporations, governments (including through the UN system) and select civil society organizations (CSOs).[21] He argues that governments are no longer "the overwhelmingly dominant actors on the world stage" and that "the time has come for a new stakeholder paradigm of international governance". The WEF's vision includes a "public-private" UN, in which certain specialized agencies would operate under joint state and non-state governance systems.[22]

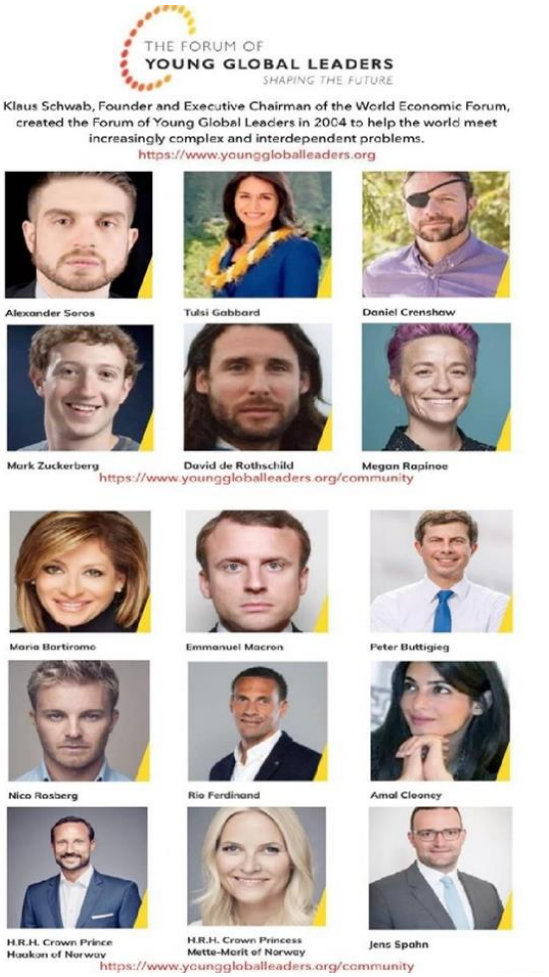
Basically, this says that corporations are going to take the place of government. This will be done by installing or using their people in government to be subservient to the corporate dictatorship.

According to the Transnational Institute (TNI), **the Forum is hence planning to replace a recognized democratic model with a model where a self-selected group of "stakeholders" make decisions on behalf of the people.**[23] This means large corporations will be self-selected for committees to make decisions for the worlds policy. You get no say or vote.

AMERICAN OVERSIGHT

Political Training Center

Here is a video of Klause Schwab discussing how they have **infiltrated governments around the world through their young leaders' program becoming majority elect in many different countries. They have captured and now control many government. See the example page below. Dan Crenshaw (R) Texas- Pete Buttigieg (D) Biden Administration.**



This is one of 96 pages. If you would like to see more click Here.

As Schwab discusses in the video above as well as his books, they train leaders to **infiltrate the governments around the world to carry out the agenda of the World Economic Forum. This can be seen in companies as well.**

In 2011, Schwab founded the Global Shapers Community, a global network of local communities, or "hubs", of young people, called "shapers", aged 20 to 30, who are exceptional in their potential, achievements and drive to make a contribution to their communities. As of September 2021, 444 "hubs" had been created comprising 10,600 "shapers".[16]

The goal of the World Economic Forum is to establish a coalition of multinational corporations which governs through the interest of the member organizations. By infiltrating and seizing governments at

AMERICAN OVERSIGHT

all levels they will establish themselves as the new dictatorial global power. This is a calculated plan stated on record by the people carrying it out.

World Economic Forum Members/Attendees

Below are people who have attended the World Economic Forum/Davos events. This list ranges from politicians to CEO's of large corporations. This will give you an idea as to how widespread the global participation is.

AMERICAN OVERSIGHT

The World Economic Forum 'The Great Reset Initiative'

There is an urgent need for global stakeholders to cooperate in simultaneously managing the direct consequences of the COVID-19 crisis. To improve the state of the world, the World Economic Forum is starting The Great Reset initiative. HERE

The following quotes were taken from the World Economic Forum Website

All products will have become services. "I don't own anything. I don't own a car. I don't own a house. I don't own any appliances or any clothes," writes Danish MP Ida Auken. Shopping is a distant memory in the city of 2030, whose inhabitants have cracked clean energy and borrow what they need on demand. It sounds utopian, until she mentions that her every move is tracked and outside the city live swathes of discontents, the ultimate depiction of a society split in two." **End Quote** This means they have the digital tracking system on every person (which is being introduced with the vaccine passport now). The discontent who live outside the city are people that did not accept the tracing chip or app.

There is a global price on carbon. China took the lead in 2017 with a market for trading the right to emit a tonne of CO2, setting the world on a path towards a single carbon price and a powerful incentive to ditch fossil fuels, predicts Jane Burston, Head of Climate and Environment at the UK's National Physical Laboratory. Europe, meanwhile, found itself at the centre of the trade in cheap, efficient solar panels, as prices for renewables fell sharply. **End Quote.** This is clear, you will be issued carbon credits and have your social credit score lowered if not adhered to.

US dominance is over. We have a handful of global powers. Nation states will have staged a comeback, writes Robert Muggah, Research Director at the Igarapé Institute. Instead of a single force, a handful of countries – the U.S., Russia, China, Germany, India and Japan chief among them – show semi-imperial tendencies. However, at the same time, the role of the state is threatened by trends including the rise of cities and the spread of online identities.

They are collapsing our economy on purpose to meet this goal.

We are eating much less meat. Rather like our grandparents, we will treat meat as a treat rather than a staple, writes Tim Benton, Professor of Population Ecology at the University of Leeds, UK. It won't be big agriculture or little artisan producers that win, but rather a combination of the two, with convenience food redesigned to be healthier and less harmful to the environment.

They will govern what you consume and this will be monitored through the social credit score system. In order to buy and sell you will be forced into the social credit system.

The values that built the West will have been tested to breaking point. We forget the checks and balances that bolster our democracies at our peril, writes Kenneth Roth, Executive Director of Human Rights Watch. See HERE

This means their plan to degrade western culture will have succeeded. The second phase is to dilute western values with mass migration.

AMERICAN OVERSIGHT

A more sustainable production

Insect rearing is less expensive than conventional farming in terms of CO2, water, surface area and raw materials. Moreover, raising insects allows a reduction of almost 99% in pollution compared to other forms of animal farming, with 80 times less methane emissions than beef. Furthermore, it is possible to breed insects with agricultural by-products, for example, with products from crops that are not intended for human consumption, thus optimizing agricultural production by reducing waste. Finally, insect protein as a substitute for fishmeal in aquaculture makes it possible to limit intensive over-fishing and strengthen sea biodiversity. HERE

Farming's environmental impact by species

	Insect	Chicken	Pig	Cow
Greenhouse gases released per kg of live weight, g	2	NA	1,130	2,850
Feed required per kg of live weight, kg	1.7	2.5	5	10
Land required per g of protein, m²	18	51	63	254
Water required per g of protein, li	23	34	57	112

Quick review: The World Economic Forum is a group of elite businessmen, politicians and royalty who's stated goal is to penetrate governments around the world with their trained politicians so that they can bring about a global corporate dictatorship. They want to eliminate private property and have you rent what you need from them instead. You will have a social credit score tracking and governing your every action.

AMERICAN OVERSIGHT

How Will the Great Reset Be Implemented?

Covid-19 was the first step in the great reset and can be seen as a preconditioning beta test for the next phase. Before we move into stage 2 of the Great Reset we need to go over Covid-19.

Covid-19

Preplanning for a Pandemic

Below are wargame documents which were created years ago predicting a pandemic and how the world would respond. There should be certain things that jump out to you in how perfectly this aligns with real-world response.

Rockefeller Foundation Lockstep Pandemic :

However, a few countries did fare better—China in particular. **The Chinese government's quick imposition and enforcement of mandatory quarantine for all citizens, as well as its instant and near-hermetic sealing off of all borders, saved millions of lives, stopping the spread of the virus far earlier than in other countries and enabling a swifter post pandemic recovery. During the pandemic, national leaders around the world flexed their authority and imposed airtight rules and restrictions, from the mandatory wearing of face masks to body-temperature checks at the entries to communal spaces like train stations and supermarkets. Even after the pandemic faded, this more authoritarian control and oversight of citizens and their activities stuck and even intensified.**

This document not only predicted the wearing of facemasks but the overreach of the government to implement mandates.

In order to protect themselves from the spread of increasingly global problems—from pandemics and **transnational terrorism to environmental crises and rising poverty—leaders around the world took a firmer grip on power.**

At first, the notion of a more controlled world gained wide acceptance and approval. Citizens willingly gave up some of their sovereignty—and their privacy—to more paternalistic states in exchange for greater safety and stability. Citizens were more tolerant, and even eager, for top-down direction and oversight, and national leaders had more latitude to impose order in the ways they saw fit. In developed countries, this heightened oversight took many forms: **biometric IDs for all citizens,** for example, and tighter regulation of key industries whose stability was deemed vital to national interests.

AMERICAN OVERSIGHT

Meanwhile**, in the developed world, the presence of so many top-down rules and norms greatly inhibited entrepreneurial activity.** Scientists and innovators were often told by governments what research lines to pursue and were guided mostly toward projects that would make money (e.g., market-driven product development) or were "sure bets" (e.g., fundamental research), leaving more risky or innovative research areas largely untapped.

Spars Pandemic War Game

SUMMARY In 2021, a coronavirus caused an outbreak in Region 7 (Southeast Asia) hoofed mammal populations. Our researchers developed and produced in-house an effective vaccine against the infection (HMRV-vac14). Its subsequent approval and use successfully ended the outbreak in the region. While largely effective in preventing infection, severe side effects—including swollen legs; severe joint pain; and encephalitis potentially resulting in seizures, seizure disorders or death— occasionally Due to its development for internal use only,

As confidence in Kalocivir continued to deteriorate across the United States, the United Kingdom and the European Union jointly announced authorization for another antiviral treatment. In early March 2026, the UK Medicines and Healthcare Products Regulatory Agency and the European Medicines Agency authorized the emergency use of a new antiviral, VMax, to treat SPARS. VMax had been considered in the United States, but a drug trial conducted at the beginning of the SPARS outbreak did not show evidence of efficacy. Despite the authorization and promotion of VMax in Europe, the FDA, CDC and other US governmental agencies opted to focus their efforts on supplying and distributing Kalocivir and developing a vaccine based on the GMI model.

Epidemiologic evidence later indicated that thirty to forty percent of children and ten to twenty percent of adults developed secondary bacterial pneumonia approximately four to eight months after initial SPARS infections._Luckily, most of these infections were easily treated with antibiotics. By February 2027, however, antibiotic supplies in the United States were running low. Page 64

By May 2027, parental anxiety around this claim had intensified to the point of lawsuits. That month, a group of parents whose children developed mental retardation as a result of encephalitis in the wake of Corovax vaccination sued the federal government, demanding removal of the liability shield protecting the pharmaceutical companies responsible for developing and manufacturing Corovax.

The growing plaintiff cohort quickly withdrew their suit upon learning that the National Vaccine Injury Compensation Trust Fund (NVICTF) and an emergency appropriation of funds authorized by Congress under the PREP Act existed to provide financial reimbursement to those who were adversely affected by the Corovax vaccine in order to cover healthcare costs and other related expenses. Given the positive reaction to the federal government's response and the fact that the majority of US citizens willing to be vaccinated had already been immunized, the negative publicity surrounding adverse reactions had little effect on nationwide vaccination rates.

AMERICAN OVERSIGHT

While the FDA, CDC, and other agencies were busy researching possible connections between Corovax and the reported neurological side effects, their efforts were continually undermined by epidemiological analyses produced by various non-governmental individuals and groups.

While the federal government appeared to have appropriately addressed concerns around the acute side effects of Corovax, the long-term, chronic effects of the vaccine were still largely unknown. Nearing the end of 2027, reports of new neurological symptoms began to emerge. **After showing no adverse side effects for nearly a year, several vaccine recipients slowly began to experience symptoms such as blurry vision, headaches, and numbness in their extremities.** See document HERE

The next phase of the Covid-19 scam can be predicted from Spars document. The next phase could be 'Many people get vaccine injured and the government officials take the blame'.

AMERICAN OVERSIGHT

The Start of the Pandemic

NIH article **HERE**

At the end of December, 2019, a new disease of unknown etiology appeared in Wuhan, China. It was quickly identified as a novel betacoronavirus, and related to SARS-CoV and a number of other bat-borne SARS-like coronaviruses. The virus rapidly spread to all provinces in China, as well as a number of countries overseas, and was declared a Public Health Emergency of International Concern by the Director-General of the World Health Organization on 30 January 2020. This paper describes the evolution of the outbreak, and the known properties of the novel virus, SARS-CoV-2 and the clinical disease it causes, COVID-19, and comments on some of the important gaps in our knowledge of the virus and the disease it causes. The virus is the third zoonotic coronavirus, after SARS-CoV and MERS-CoV, but appears to be the only one with pandemic potential. **HERE**

Did Covid-19 Come from a Lab or Nature?

Wuhan Institute of Virology. (WIV)

This research area was built up during the outbreak of the SARS in 2002-2003 in China. Since then, a number of research groups were recruited or updated their interests to study on diverse pathogens of infectious diseases including SARS-CoV, influenza viruses, hemorrhagic fever viruses and antibiotic resistant-tuberculosis. **HERE**
WIV, whose research spans from agriculture viruses to human viruses, is the only institute in China focusing on comprehensive research on virology. **HERE**

This establishes that the WIV is the only institution in China which studies and research virology, including SARS-CoV or Coronaviruses.

Where do Coronaviruses Come From?

U.S. NIH and Chinas NNSF jointly funded study: From our previous **studies of bat SARSr-CoVs** in the two caves near these villages, we have found genetically highly diverse **bat SARSr-CoVs** and evidence of frequent coinfection of two or more different SARSr-CoVs in the same bat (Ge et al. 2013) **HERE**

With this information we know that the WIV studied multiple variations of SARSr-CoVs in bat species.

AMERICAN OVERSIGHT

NIH Funding For Coronavirus Research- Eco Health Alliance

- **Award Number:** R01AI110964
- **ORGANIZATION:** NATIONAL INSTITUTE OF ALLERGY & INFECTIOUS DISEASES
- **OPDIV:** NIH
- **AWARD CLASS:** DISCRETIONARY
- **AWARD ACTIVITY TYPE:** SCIENTIFIC/HEALTH RESEARCH (INCLUDES SURVEYS)

Aim 1. Characterize the diversity and distribution of high spillover-risk SARSr-CoVs in bats in southern China. We will use phylogeographic and viral discovery curve analyses to target additional bat sample collection and molecular CoV screening to fill in gaps in our previous sampling and fully characterize natural SARSr-CoV diversity in southern China. We will sequence receptor binding domains (spike proteins) to identify viruses with the highest potential for spillover which we will include in our experimental investigations (Aim 3). Aim 2. Community, and clinic-based syndromic, surveillance to capture SARSr-CoV spillover, routes of exposure and potential public health consequences. We will conduct biological-behavioral surveillance in high-risk populations, with known bat contact, in community and clinical settings to 1) identify risk factors for serological and PCR evidence of bat SARSr-CoVs; & 2) assess possible health effects of SARSr-CoVs infection in people. We will analyze bat-CoV serology against human-wildlife contact and exposure data to quantify risk factors and health impacts of SARSr-CoV spillover. Aim 3. In vitro and in vivo characterization of SARSr-CoV spillover risk, coupled with spatial and phylogenetic analyses to identify the regions and viruses of public health concern. We will use S protein sequence data, infectious clone technology, in vitro and in vivo infection experiments and analysis of receptor binding to test the hypothesis that % divergence thresholds in S protein sequences predict spillover potential. We will combine these data with bat host distribution, viral diversity and phylogeny, human survey of risk behaviors and illness, and serology to identify SARSr-CoV spillover risk hotspots across southern China. Together these data and analyses will be critical for the future development of public health interventions and enhanced surveillance to prevent the re-emergence of SARS or the emergence of a novel SARSr-CoV. HERE

Ecohealth Alliance award abstract- DESCRIPTION (provided by applicant): This project will examine the risk of future coronavirus (CoV) emergence from wildlife using in-depth field investigations across the human-wildlife interface in China, molecular characterization of novel CoVs and host receptor binding domain genes, mathematical models of transmission and evolution, **and in vitro and in vivo laboratory studies of host range.** Bats appear to be the natural reservoir of these viruses, and **hundreds of novel bat-CoVs have been discovered** in the last two decades. 3. Test predictions of CoV inter-species transmission. Predictive models of host range (i.e. emergence potential) will be tested experimentally using reverse genetics, **pseudovirus** and receptor binding assays, and virus infection experiments across a range of cell cultures from different species and humanized mice." HERE

This information shows that they are genetically modifying viruses to measure the emergence potential and where the funding came from.

AMERICAN OVERSIGHT

Additional Funding Provided by The Bill Gates Foundation

By the invitation of the Center for Global Public Health (CGPH) of Chinese Center for Disease Control and Prevention, Wuhan Institute of Virology (WIV). Funded by the United Kingdom Department for International Development and the **Bill & Melinda Gates Foundation.** **HERE**

AMERICAN OVERSIGHT

The **Defense Advanced Research Projects Agency** (**DARPA**) is a research and development agency of the United States Department of Defense responsible for the development of emerging technologies for use by the military.

This document is DARPA addressing the research funded by the NIH (Fauci) and performed at the Wuhan Institute for virology.

Project DEFUSE

DARPA - PREEMPT (HR001118S0017)

The grant proposal includes some elements of research that are already public via scientific papers, as well as other elements that have never been made public; these include vaccinating wild bats using aerosolized viruses and further work on published and unpublished CoV strains that could fill the extant gaps in our understanding of the origins of SARS-CoV-2

ECOHEALTH ALLIANCE (EHA) TRIED TO BYPASS THE P3CO/DURC FRAMEWORKS

EHA confidently assessed in its proposal that the work to be carried was neither subject to P3CO (GoF) nor DURC (Dual Use Research of Concern) restrictions: "These QSo strain viral spike glycoproteins will be synthesized, and those binding to human cell receptor ACE2 will be inserted into SARSr-CoV backbones (non-DURC, non-GoF)." (D1,The paragraph above actually contains the only mentions of GoF and DURC in the whole DEFUSE project proposal - and it dismisses them.

Nevertheless the DARPA review of the DEFUSE project concluded that the project potentially involved GoF. This was part of the reasons for the rejection of the project as such, and of a qualification for any partial funding:

"Given the team's approach does potentially involve GoF/DURC research (they aim to synthesize spike glycoproteins that may bind to human cell receptors and insert them into SARSr-CoV backbones to assess capacity to cause SARS-like disease), if selected for funding an appropriate DURC risk mitigation plan should be incorporated into contracting language that includes a responsible communications plan" Effectively EHA unsuccessfully proposed the use of bat-SARSr-CoV backbones and not the human evolved SARS-CoV in what looks like a deliberate attempt at circumnavigating the restrictions of the P3CO framework and related DURC restrictions.

AMERICAN OVERSIGHT

EHA PLANNED TO INOCULATE WILD BATS WITH AEROSOLIZED VACCINES

The proposal for wide scale inoculation of bats in the wild using aerosolized inoculum delivery has never been publicly released or opened to the wider scientific community for discussion as to potential risks associated with this plan. This is a specialist area of research of Dr Rocke, Dr. Ainslie and Dr. Unidad (PARC) who have previously researched and developed the technological solutions necessary to make this possible: Dr. Jerome Unidad is a researcher PARC, (2018a) at PARC (owned by Xerox) (PARC, 2018d), who developed the Filament Extension Atomizer (FEA) (PARC, 2019). This technology is used to spray bats with scalable high viscosity mists that stick to their skin or that are edible (PARC, 2018c). PARC previously partnered with NHWC to develop a vaccine for White Nose Syndrome (WNS) for US bats, using FEA as the technological solution to administer vaccines via aerosol delivery (PARC,2018b). Dr. Tonie Rocke is a researcher at USGS National Wildlife Health Centre (NWHC in the DEFUSE proposal). She has previously worked on transdermal application of vaccines against rabies in vampire bats ``The feasibility of controlling rabies in vampire bats through topical application of vaccines" (USFWS, 2019), also "Infectivity of attenuated poxvirus vaccine vectors and immunogenicity of a raccoon pox vectored rabies vaccine in the Brazilian Free-tailed bat" (Stading et al., 2016). There were doubts and concerns about her work:

"These vaccine candidates use a viral vector (attenuated raccoon poxvirus, RCN) genetically modified to express highly-conserved fungal and specific Pd antigens. While these vaccines and other potential treatments continue to be developed, there is a need for safe and effective methods of treatment delivery" (USFWS, 2019)

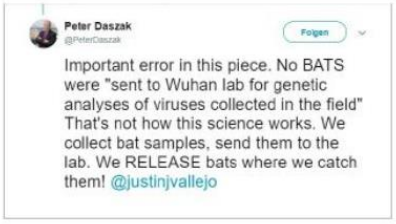
LIVE BATS WERE MEANT TO BE USED AT THE WIV AND VARIOUS INTERNATIONAL

LABS FOR INFECTION EXPERIMENTS, OFTEN USING CAPTIVE BAT COLONIES

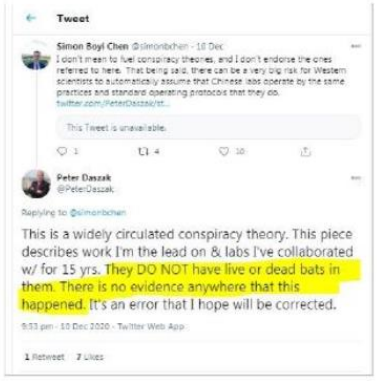
WIV (Shi) was to work on Rhinolophus bats:"At WIV, 20 adult wild Rhinolophus spp. bats (10 of each sex) will be captured at our test cave site, housed within ABSL3, ACE2 receptor genes sequenced and used to pre-screen spikes as above, then bats will be tested using PCR and serology for current and prior exposure to SARSr-CoVs, and inoculated with WIV1, WIV16 or SHC014." (D1, p.20) AS DRASTIC has previously discovered, the WIV was already keeping wild-caught bats more than a decade ago, and established a colony around 2017 - as has been attested by patents, official records and videos (see https://bit.ly/3pxL8lR). These revelations have been regularly characterisedas 'conspiracy theories' by Peter Daszak (see examples in Bostickson & Ghannam, 2021c; Taiwan.

This says that Eco Health Alliance tried to illegally infect bats with SARSr-Cov virus which has the possibility to infect humans.

AMERICAN OVERSIGHT



Screenshot: Peter Daszak Denies WIV keeps Live Bats. Source: Twitter via Taiwan News (2021).



Screenshot: Peter Daszak Denies WIV keeps Live Bats. Source: Twitter via Taiwan News (2021).

This is Peter Daszak Lying. He is the Director of Ecohealth Alliance.

Incidentally we also know from the recently released documents for the NIH R01AI110964 grant ("Understanding the Risk of Bat Coronavirus Emergence") that EHA has plenty of experience shipping samples from and to China. grant, p. 15:

"This gives us unique access to working on-the- ground in countries where surveillance is difficult, such as China, where our group has proven capacity to export samples from." p. 141:

"Drs Shi, Zhang, and Daszak have collaborated together since 2002 and have been involved in running joint conferences, and shipping samples into and out of China." **This practically means that it is likely that Duke (Singapore) and UNC Chapel Hill have undocumented samples that could help trace the origins of SARS-CoV-2.**

This is saying that its very likely that someone has a sample of Covid-19 and if they found a sample they could determine if it was released purposefully based on if it was naturally occurring or not.

11. THE PROPOSAL SET A CLEAR PATHWAY FOR CHIMERIC VIRUS CONSTRUCTION

The use of known backbones is specified in the proposal: "Synthesis of Chimeric Novel SARSr-CoV QS: We will commercially synthesize SARSr-CoV S glycoprotein genes, designed for insertion into SHC014 or WIV16 molecular clone backbones (88% and 97% S-protein identity to epidemic SARS-Urbani). These are BSL-3, not select agents or subject to P3CO (they use bat SARSr-CoV backbones which are exempt) and are pathogenic to hACE2 transgenic mice." (D1, p.9)

This is them explaining how they will build a virus.

However we do not know what additional, unpublished SARS-r CoV and MERS-r CoV research was conducted by the WIV, Wuhan University and other Chinese institutions.

AMERICAN OVERSIGHT

Indeed, using analysis of raw metagenomic datasets, unpublished MERS-r CoV infectious clone research in Wuhan has recently been documented (Zhang et al. 2021)

EHA HAS 180 UNPUBLISHED SARSr-CoV STRAINS

"This will be supplemented by characterization of isolated viruses under DEFUSE (at WIV), approximately 15-20 bat SARSr-CoV spike proteins/year (at UNC, WIV), and >180 bat SARSr-CoV strains sequenced in our prior work and not yet examined for spillover potential." (D1, p.12)

Very little of this planned work has been published.

This says they have a few hundred viruses.

AMERICAN OVERSIGHT

The Point of Outbreak

A report from **Multi-Agency Collaboration Environment (MACE), part of Sierra Nevada, a major Department of Defense contractor** suggest than an outbreak occurred at the Wuhan lab in October.
The analysis of commercial telemetry data in Wuhan suggests the pandemic began earlier than initially reported. Additionally. this supports the release of COVID-19 at the Wuhan Institute of Virology. The following data supports this finding:
Device activity in and around the Wuhan Institute of Virology (WIV), specifically the National Biosafety Laboratory during October and November 2019.
Traffic Patterns based on device activity NO the WIV during October.
Pattern or Life analysis of devices that frequent the WIV Open Source Intelligence supporting the early detection of COVID-19.
Device Analysis Indicates Traffic Closures or Roadblocks Traffic from July 2019 - March 2020 Traffic from October 14 - 19 2020 Device traffic in and around the WIV in the months prior to October was consistent.
Beginning on October 11th, there was a substantial decrease in activity.
The last time a device IS active prior to October 11th is October 6th.
The window for Incident at the WIV IS October 6th - 11th. As illustrated in the second image. There was absolutely no traffic in the area the WIV from October 14th - 19th. During this time. It IS believed that roadblocks were put in place to prevent traffic from coming near the facility. Unique Events in vicinity of the WIV ESL-4 The rolling 5 day average drops to zero for two consecutive periods in October between the 11th and the 19th.
Although there is variance in the level of events within the area of interest, at no other point in time did the average drop to zero. See full report **HERE**

This says there was no activity at the Wuhan lab based on cell phone activity.

Covid-19 Case Data Manipulation

CSTE

CDC Policy

Council of State and Territorial Epidemiologists

Interim-20-ID-01

Committee: Infectious Disease

* Found on CDC website under "About the data"

Title: Standardized surveillance case definition and national notification for 2019 novel coronavirus disease (COVID-19)

☐Check this box if this position statement is an update to an existing standardized surveillance case definition and include the most recent position statement number here: __N/A__.

Synopsis: This position statement creates a standardized case definition for 2019 novel coronavirus disease (COVID-19) including asymptomatic infections caused by Severe Acute Respiratory Syndrome Coronavirus-2 (SARS-CoV-2) and adds COVID-19 to the list of nationally notifiable conditions.

I. Statement of the Problem

Introduction of SARS-CoV-2, the virus that causes 2019 novel coronavirus disease (COVID-19), into the United States has resulted in the need for standardized surveillance to assist in understanding the transmission and epidemiology of the disease in U.S. jurisdictions. Public health agencies are investigating reported respiratory illnesses and identifying infected people (cases) through laboratory testing. Nationwide standardized surveillance is necessary to provide consistent case identification and classification, measure the potential burden of illness, characterize the epidemiology of medically attended and moderate to severe COVID-19 in the United States, detect community transmission, and inform public health response to clusters of illness and efficacy of population-based non-pharmaceutical interventions on the epidemic.

II. Background and Justification

In late December 2019, investigation of a cluster of pneumonia cases of unknown origin in Wuhan, China resulted in identification of a novel coronavirus. The virus is distinct from both SARS-CoV and MERS-CoV, although closely related. Early epidemiologic findings indicate COVID-19 may be less severe[1] than SARS or MERS, but evidence suggests that the virus is more contagious than its predecessors. SARS-CoV-2 is a newly identified pathogen and it is assumed there is no existing human immunity to the virus. Everyone is assumed to be susceptible, although there may be risk factors that increase an individual's illness severity.

Based on epidemiologic reports of the outbreak in China, those at highest risk for severe disease and death include people aged over 60 years and those with underlying conditions such as hypertension, diabetes, cardiovascular disease, chronic respiratory disease, and cancer. Disease in children appears to be relatively mild, and growing evidence that a significant proportion of infections across all age groups are asymptomatic.

Cases of COVID-19 in China and the initial U.S. cases in early March 2020 have been clustered. Most cases in China occurred in households and in Washington, for example, a significant cluster was associated with a long-term care facility. However, cases have been reported in the United States with no direct epidemiologic link to confirmed cases. Ongoing surveillance of illness, risk factors, and epidemiologic linkage is needed to characterize the disease transmission in the United States, and to inform intervention and mitigation strategies.

Epidemiological reports from the field are demonstrating a growing importance of presymptomatic and asymptomatic infections from two lines of evidence: the serial interval of COVID-19 appears to be close to or shorter than its median incubation period and clusters linked to presymptomatic and asymptomatic index cases[4, 5]. CSTE realizes that field investigations will involve evaluations of persons with no symptoms and these individuals will need to be counted as cases.

AMERICAN OVERSIGHT

Severe respiratory illness with at least one of the following:

- Clinical or radiographic evidence of pneumonia, or
- Acute respiratory distress syndrome (ARDS).

AND

No alternative more likely diagnosis

Default to covid

A2. Laboratory Criteria

Laboratory evidence using a method approved or authorized by the FDA or designated authority:

Confirmatory laboratory evidence:

- Detection of SARS-CoV-2 RNA in a clinical specimen using a molecular amplification detection test

Presumptive laboratory evidence:

- Detection of specific antigen in a clinical specimen
- Detection of specific antibody in serum, plasma, or whole blood indicative of a new or recent infection*

**serologic methods for diagnosis are currently being defined*

A3. Epidemiologic Linkage

One or more of the following exposures in the 14 days before onset of symptoms:

- Close contact** with a confirmed or probable case of COVID-19 disease; or
- Close contact** with a person with:
  - clinically compatible illness AND
  - linkage to a confirmed case of COVID-19 disease.
- Travel to or residence in an area with sustained, ongoing community transmission of SARS-CoV-2.
- Member of a risk cohort as defined by public health authorities during an outbreak.

***Close contact is defined as being within 6 feet for at least a period of 10 minutes to 30 minutes or more depending upon the exposure. In healthcare settings, this may be defined as exposures of greater than a few minutes or more. Data are insufficient to precisely define the duration of exposure that constitutes prolonged exposure and thus a close contact.*

A4. Vital Records Criteria

A death certificate that lists COVID-19 disease or SARS-CoV-2 as a cause of death or a significant condition contributing to death.

A5. Case Classifications

Confirmed:

- Meets confirmatory laboratory evidence.

Probable:

- Meets clinical criteria AND epidemiologic evidence with no confirmatory laboratory testing performed for COVID-19.
- Meets presumptive laboratory evidence AND either clinical criteria OR epidemiologic evidence.
- Meets vital records criteria with no confirmatory laboratory testing performed for COVID-19.

AMERICAN OVERSIGHT

V. Methods for Surveillance: Surveillance for COVID-19 should use the recommended sources of data and the extent of coverage listed in Table V.

Table V. Recommended sources of data and extent of coverage for ascertainment of cases of COVID-19

Source of data for case ascertainment	Coverage	
	Population-wide	Sentinel sites
Clinician reporting	X	
Laboratory reporting	X	
Reporting by other entities (e.g., hospitals, veterinarians, pharmacies, poison centers), specify: Hospitals	X	
Death certificates	X	
Hospital discharge or outpatient records	X	
Data from electronic medical records	X	
Telephone survey		
School-based survey		
Other, specify: diagnosis codes, autopsy reports	X	

Die in a car crash and test positive for covid...

As commercial laboratories implement testing for SARS-CoV-2, laboratory reporting will be the most common source of data. Healthcare providers and facilities who diagnose or become aware of clinically compatible COVID-19 cases should report them to public health authorities.

VI. Criteria for case ascertainment

A. Narrative: A description of suggested criteria for case ascertainment of a specific condition.

Symptoms of COVID-19 are non-specific and the disease presentation can range from no symptoms (asymptomatic) to severe pneumonia and death. COVID-19 is a mild to moderate illness for approximately 80% of individuals evaluated with the disease; 15% are severe infection requiring supplemental oxygen; and 5% are critical infections requiring mechanical ventilation.[2] People with COVID-19 generally develop signs and symptoms, including mild respiratory symptoms and fever ~5 days after infection (mean incubation period 5-6 days, range 1-14 days).[3] we are told 14 days

A1. Clinical Criteria for Reporting (Diagnose & without a test)

In outpatient or telehealth settings at least two of the following symptoms: fever (measured or subjective), chills, rigors, myalgia, headache, sore throat, new olfactory and taste disorder(s)

OR

- at least one of the following symptoms: cough, shortness of breath, or difficulty breathing

OR

Severe respiratory illness with at least one of the following:

- Clinical or radiographic evidence of pneumonia, or
- Acute respiratory distress syndrome (ARDS).

AND

No alternative more likely diagnosis

A2. Laboratory Criteria for Reporting (Virus test) Have

- Detection of SARS-CoV-2 RNA in a clinical specimen using a molecular amplification detection test.
- Detection of specific antigen in a clinical specimen.

(Anti-bodies) had

of Leftovers of virus

*serologic methods for diagnosis are currently being defined

A3. Epidemiologic Linkage Criteria for Reporting

- In a person with clinically compatible symptoms with one or more of the following exposures in the 14 days before onset of symptoms:
  - Travel to or residence in an area with sustained, ongoing community transmission of SARS-CoV-2; OR
  - Close contact** with a person diagnosed with COVID-19; OR
  - Member of a risk cohort as defined by public health authorities during an outbreak.

Diagnosed by Close Contact Not a test

**Close contact is defined as being within 6 feet for a period of 10 minutes to 30 minutes or more depending upon the exposure. In healthcare settings, this may be defined as exposures of greater than a few minutes or more. Data are insufficient to precisely define the duration of exposure that constitutes prolonged exposure and thus a close contact.

A4. Vital Records Criteria for Reporting

A person whose death certificate lists COVID-19 disease or SARS-CoV-2 as a cause of death or a significant condition contributing to death.

A5. Other Criteria for Reporting

Autopsy findings consistent with pneumonia or acute respiratory distress syndrome without an identifiable cause.

B. Disease-specific data elements to be included in the initial report

In addition to patient demographics, the following disease-specific data elements are expected to be included in all reports to public health agencies:

Laboratory Information:

- Specimen type
- Collection date
- Laboratory test performed
- Results

Clinical Information

- Description of clinical symptoms and signs of illness, or if asymptomatic
- Date of illness onset
- Hospitalization
- Underlying diseases or co-infections

Epidemiologic Information

- Known contact or linkage to COVID-19 cases
- Recent travel to or residence in an area with sustained, ongoing community transmission of SARS-CoV-2
- Member of a risk cohort as defined by public health authorities during an outbreak

VII. Case Definition for Case Classification

A. Narrative: Description of criteria to determine how a case should be classified.

A1. Clinical Criteria

At least two of the following symptoms: fever (measured or subjective), chills, rigors, myalgia, headache, sore throat, new olfactory and taste disorder(s)

OR

At least one of the following symptoms: cough, shortness of breath, or difficulty breathing

OR

If you have a cough you can be classified as covid without a test.

Notes:
S = This criterion alone is SUFFICIENT to report a case.
N = All "N" criteria in the same column are NECESSARY to report a case.
O = At least one of these "O" (ONE OR MORE) criteria in **each category** (categories=clinical evidence, laboratory evidence, and epidemiological evidence) **in the same column**—in conjunction with all "N" criteria in the same column—is required to report a case.
*Serologic methods for diagnosis are currently being defined.
**Close contact is defined as being within 6 feet for a period of 10 minutes to 30 minutes or more depending upon the exposure. In healthcare settings, this may be defined as exposures of greater than a few minutes or more. Data are insufficient to precisely define the duration of exposure that constitutes prolonged exposure and thus a close contact.

Council of State and Territorial Epidemiologists

AMERICAN OVERSIGHT

Overview: If you have a fever with chills per the document, you should be classified Covid positive without a test and without seeing a doctor in person.
Headache and sore throat? Covid positive no test required.

Cough? Covid positive without seeing a doctor and with no covid-19 test.

If you've had an anti-body test which shows you've had a coronavirus, you will be classified Covid positive.

This policy without a doubt inflated numbers.

AMERICAN OVERSIGHT

CDC Antibody Testing

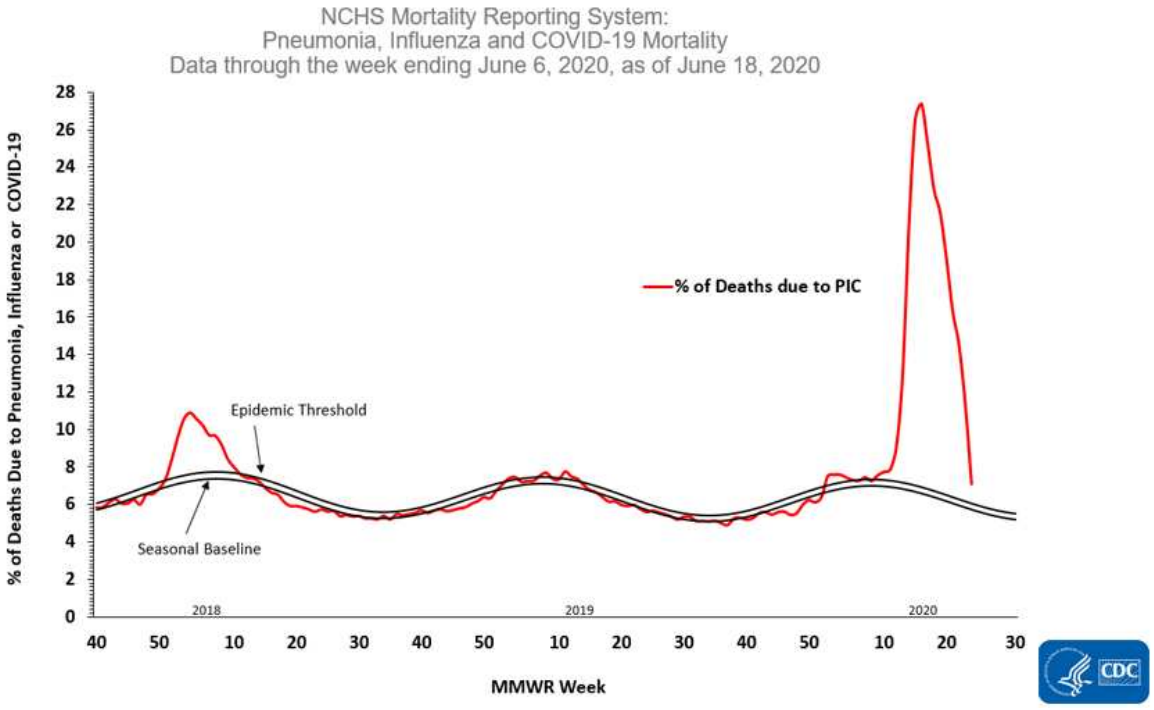
A positive test result shows you may have antibodies from an infection with the virus that causes COVID-19. However, there is a chance a positive result means that you have antibodies from an infection with a virus from the same family of viruses (called coronaviruses), such as the one that causes the common cold. HERE

If you have had a cold that is in the coronavirus family you can test positive via an antibody test and per CDC guidelines be counted as a Covid-19 case.

The CDC states they do not know the timeline of when antibodies become undetectable after contracting SARS-CoV -2. However, the study cited above funded by the parent organization NIH in collaboration with WIV suggest otherwise.
Rapid decline of detectable antibodies to SARS-CoV in recovered patients within 2–3 years after infection. HERE

The potential for inflating numbers in this situation is that anyone that's had a Coronavirus in the last 2-3 years can get a positive test result back from an antibody test. This would include you in Covid-19 cases.

Covid-19 Deaths



As you can see in the graph the CDC includes pneumonia and influenza in Covid-19 mortality. This obviously inflates the covid-19 death toll. HERE

Stop Using Innova Medical Group SARS-CoV-2 Antigen Rapid Qualitative Test: FDA Safety Communication

FDA: HERE

Date Issued: June 10, 2021

The U.S. Food and Drug Administration (FDA) is warning the public to stop using the Innova Medical Group SARS-CoV-2 Antigen Rapid Qualitative Test for diagnostic use. The FDA has significant concerns that the performance of the test has not been adequately established, presenting a risk to health. In addition, labeling distributed with certain configurations of the test includes performance claims that did not accurately reflect the performance estimates observed during the clinical studies of the tests. Finally, the test has not been authorized, cleared, or approved by the FDA for commercial distribution or use in the United States, as required by law.

Removal Lists of Tests That Should No Longer Be Used and/or Distributed for COVID-19: FAQs on Testing for SARS-CoV-2

Covid-19 Vaccine

Efficacy

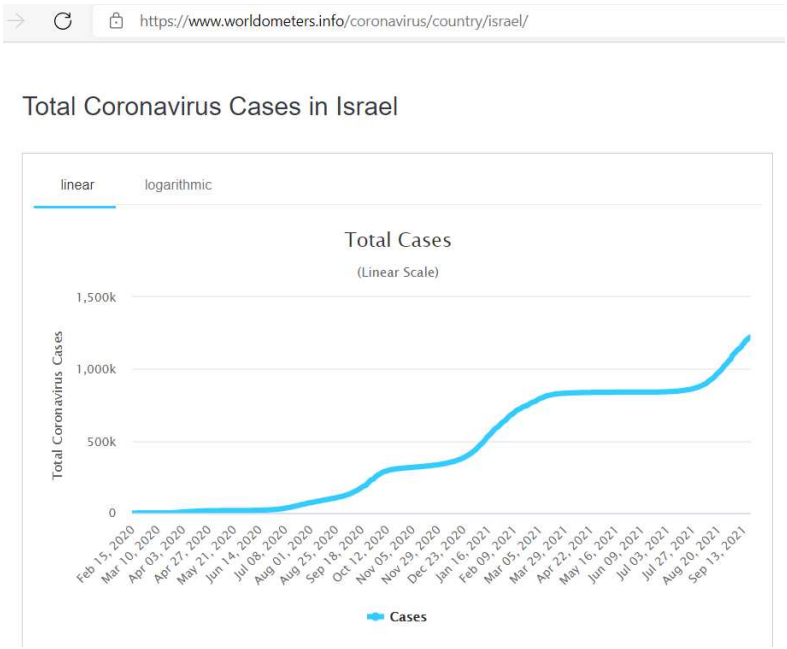
New figures released by the Health Ministry in Israel claim that the COVID vaccine is only 39% effective at preventing the transmission of the coronavirus, but more than 91% effective at preventing severe cases.

The figures, based on cases from June 20 to July 17 — a period when the Delta variant told hold across Israel — show that those who are fully vaccinated have only a 40.5% chance of avoiding symptomatic COVID, but an 88% chance of avoiding hospitalization due to the disease.

The figures also show that among those who were vaccinated in January, there was only a 16% effectiveness against being infected, compared to 44% of those vaccinated in February, 67% of those who received their shots in March, and 75% for those vaccinated in April. HERE

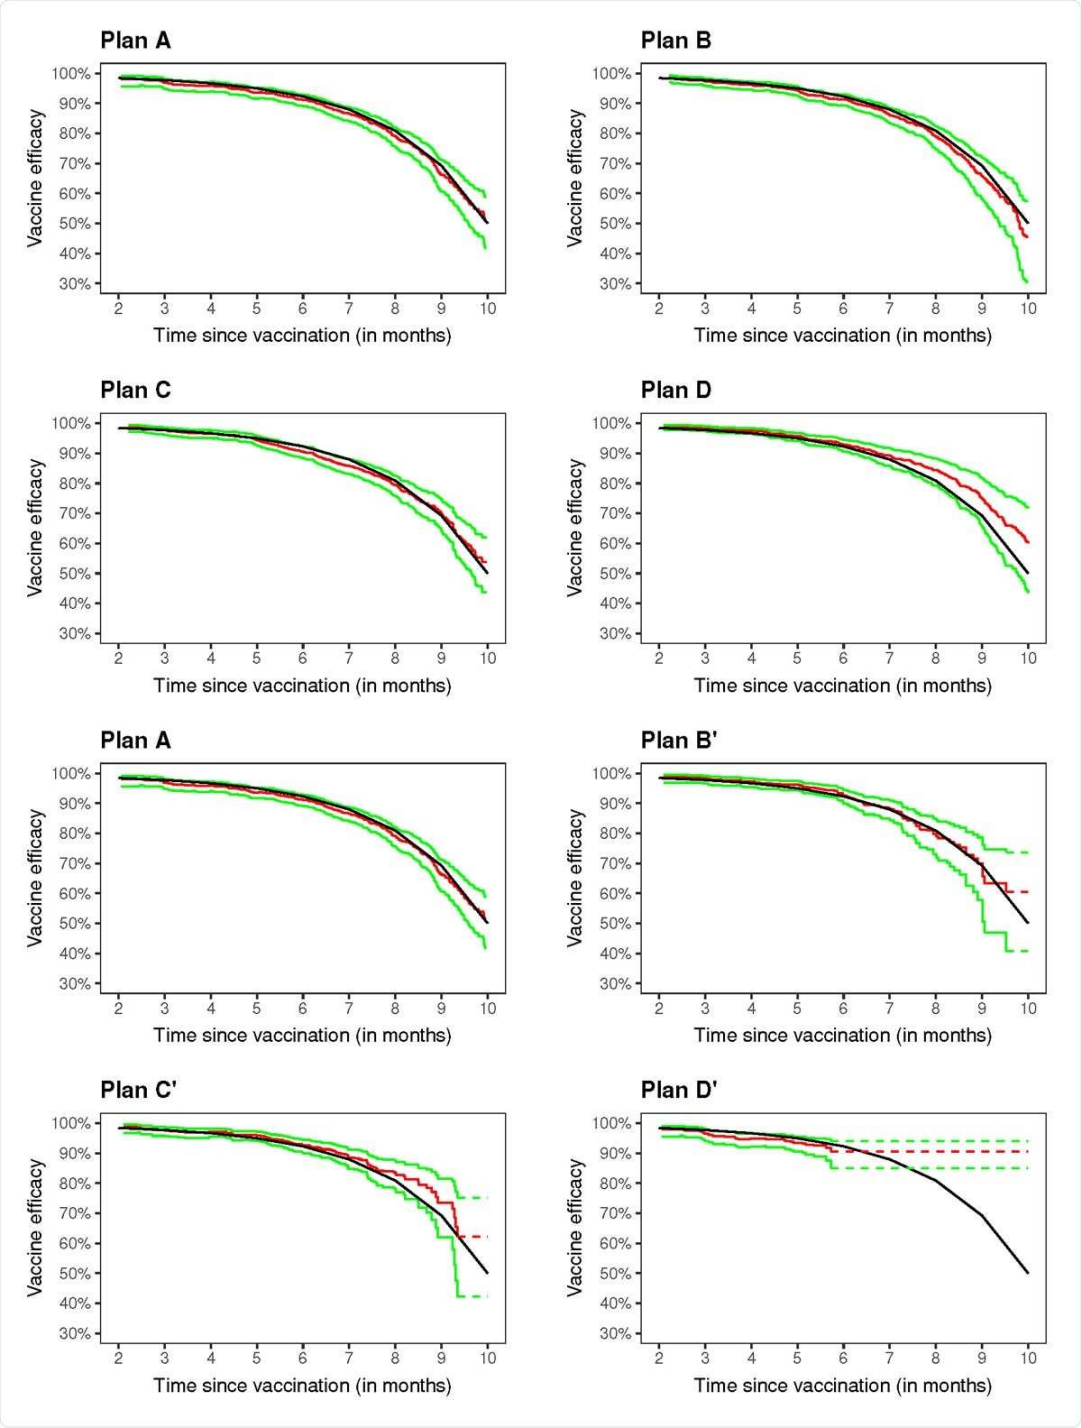
This means that overtime the vaccine becomes less effective. This is why we see boosters being pushed.

Israel is an important case study due to public acceptance of vaccination making it one of the most inoculated countries in the world.



AMERICAN OVERSIGHT

Researchers at the University of North Carolina and the Fred Hutchinson Cancer Research Center in Washington have developed a way to evaluate vaccines' long-term efficacy against severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) – the agent that causes coronavirus disease 2019 (COVID-19).



We refer to this design as Plan A, which serves as a benchmark. We also considered three blinded crossover designs:

AMERICAN OVERSIGHT

B. Crossover occurs over months 6-10 according to priority tier groups.

C. 20% of participants follow Plan A, and the rest follow Plan B.

D. Crossover occurs for all participants in month 6.

Both B and C are priority-tier dependent rolling crossover designs. The difference is that under Plan B, all placebo recipients cross over to the vaccine arm, whereas under Plan C, 20% of participants choose for altruistic reasons to stay on their original treatment assignments. For Plan D, all placebo recipients are vaccinated over the course of a month without any priority tiering. With blinded crossover, placebo participants receive the vaccine and vaccine participants receive the placebo at the point of crossover, and all participants are followed until the end of the trial, which is 10.5 months since trial initiation. The designs of these simulation studies are detailed in Supplemental Appendix 2.

Figure 4 displays the analysis results produced by the proposed methods for one of the trials simulated with 50% 10-month vaccine efficacy. The estimates of vaccine efficacy are close to the truth, and the 95% confidence intervals cover the truth mostly — up to the end of blinded follow-up. In terms of estimating long-term vaccine efficacy, Plan C is nearly as good as Plan A and is slightly better than Plan B, which is better than Plan D; Plans B, C, and D are substantially better than Plans B', C', and D', respectively. HERE

This is as straight forward as it can get.

Initially the efficacy of the vaccine is high.

The studies show a decline in efficacy overtime.

Real world data from one of the vaccinated countries, Israel, shows a sharp decline in efficacy over time.

This can be verified through vaccine manufacturers and government officials calling for booster shots. If it was effective long term as most vaccines, you would not need a booster.

JAIC
Project Salus

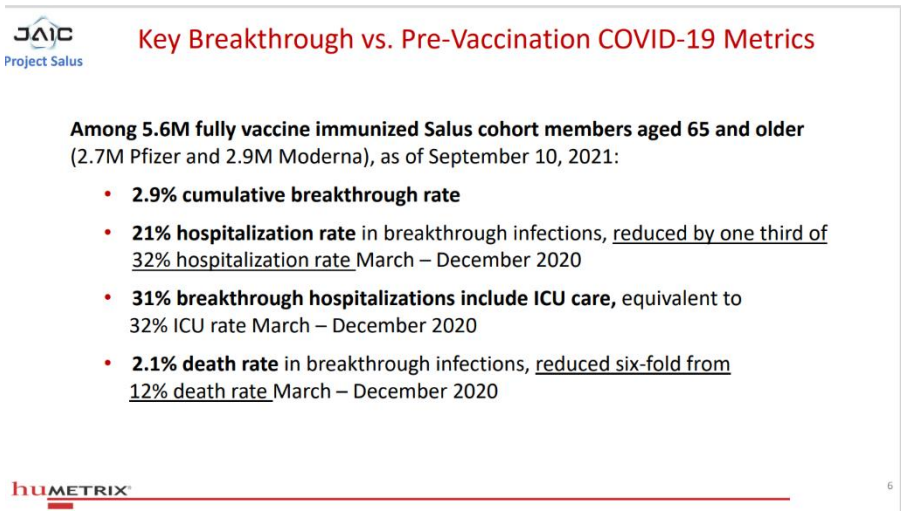
Salus Breakthrough Analysis Methodology and Limitations

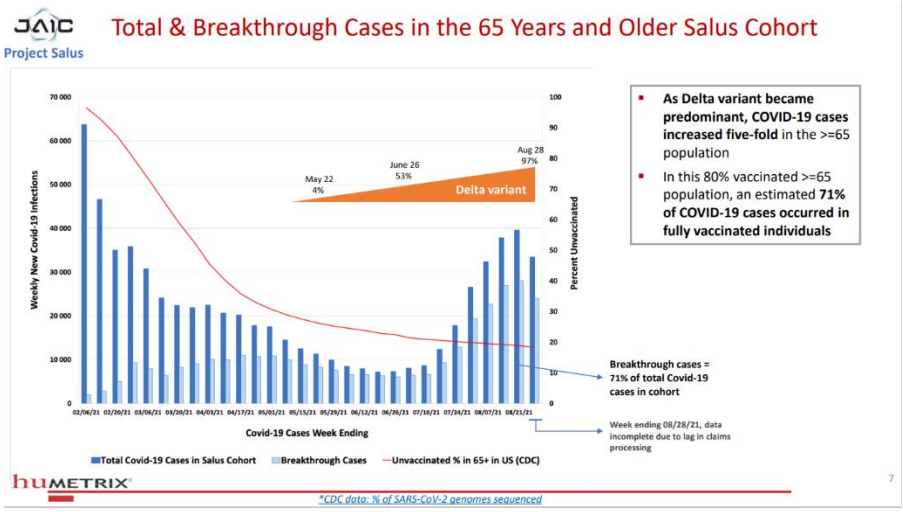
- **Breakthrough case definition**: new COVID-19 diagnosis (by COVID-19 ICD-10 code) occurring no earlier than 2-weeks post the second vaccine dose (see appendix for more details on case definition)
- **Breakthrough analysis methodology**: to estimate weekly breakthrough cases and hospitalizations we multiplied our Medicare claim-based weekly breakthrough case counts and hospitalization counts by the corresponding weekly ratio of the claims-based vaccination rate to the CDC vaccination rate to compensate for missing COVID-19 vaccination data from Medicare claim data (Medicare claims only provide ~45% of the published CDC vaccination rate in the 65 and over age group)
- **Breakthrough data limitations**:
  - Possible overestimation of breakthrough rates due to breakthroughs clinically defined with a COVID-19 diagnosis but not confirmed by PCR or antigen test (unavailable in claim data)
  - Possible overestimation of breakthrough rates due to assuming identical breakthrough rates between individuals with claim-based vaccination data and those lacking vaccination data in their claims
  - Overestimation of breakthrough rates would lead to underestimating vaccine VE against breakthrough infections and breakthrough hospitalizations

humetrix

4

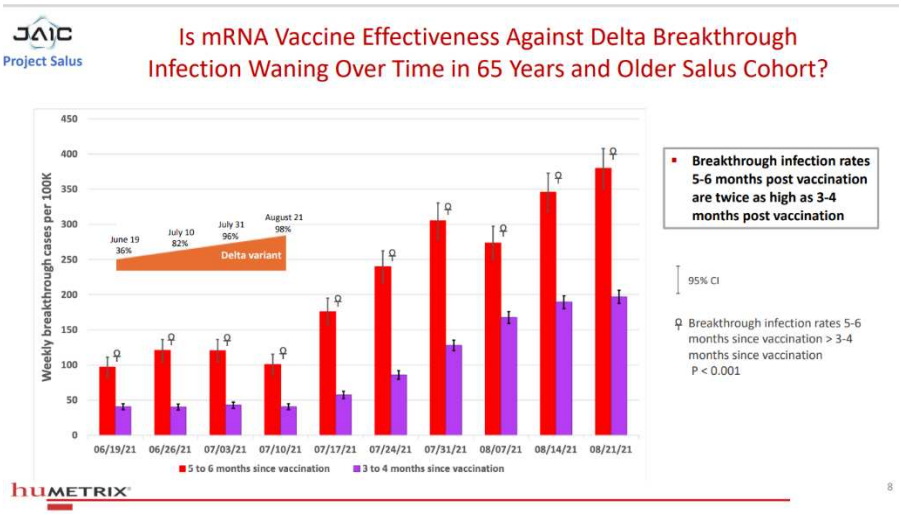
AMERICAN OVERSIGHT



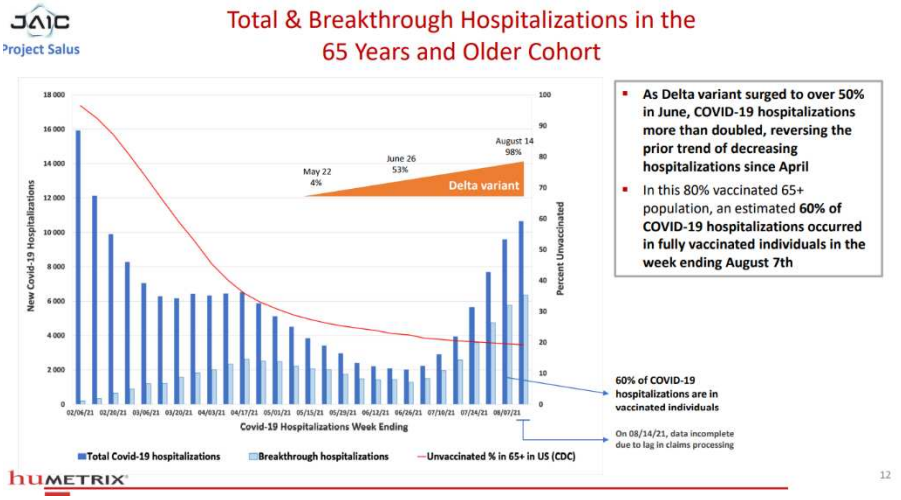


The key takeaway is that 71% of the people that received the vaccine over 65 years old had a breakthrough case of covid.

AMERICAN OVERSIGHT



This shows that vaccine efficacy wanes over time.



This shows that you are more likely to be hospitalized with covid if you have had the vaccine.

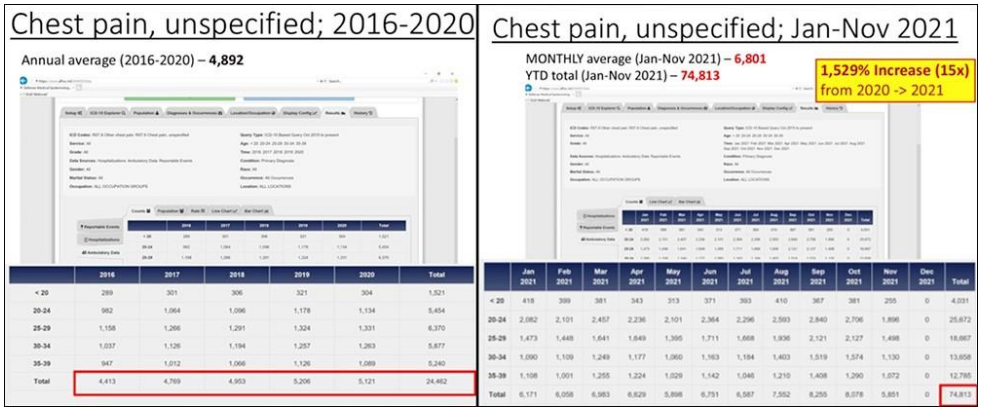
A 1,529% increase in chest pain issues:



AMERICAN OVERSIGHT

Other:

The data above shows a drastic increase in disease since the rollout of the vaccines.

1. **Vaccine Shedding** There has been considerable chatter on the Internet about the possibility of vaccinated people causing disease in unvaccinated people in close proximity. While this may seem hard to believe, there is a plausible process by which it could occur through the release of exosomes from dendritic cells in the spleen containing misfolded spike proteins, in complex with other prion reconformed proteins. **These exosomes can travel to distant places. It is not impossible to imagine that they are being released from the lungs and inhaled by a nearby person**. Extracellular vesicles, including exosomes, have been detected in sputum, mucus, epithelial lining fluid, and bronchoalveolar lavage fluid in association with respiratory diseases (Lucchetti et al., 2021). **A Phase 1/2/3 study undertaken by BioNTech on the Pfizer mRNA vaccine implied in their study protocol that they anticipated the possibility of secondary exposure to the vaccine** (BioNTech, 2020).

This is an admission from Pfizer that their vaccine shed.

The protocol included the requirement that "exposure during pregnancy" should be reported by the study participants. They then gave examples of "environmental exposure during pregnancy" which included exposure "**to the study intervention by inhalation or skin contact**." They even suggested two levels of indirect exposure: "A male family member or healthcare provider who has been exposed to the study intervention by inhalation or skin contact then exposes his female partner prior to or around the time of conception."

Report Abstract

The appointment of Dr. Bernard Prigent, vice-president and medical director of Pfizer Canada, to the Governing Council of the Canadian Institutes of Health Research, outraged many Canadian health researchers. Pfizer has been a “habitual offender,” persistently engaging in illegal and corrupt marketing practices, bribing physicians and suppressing adverse trial results. Since 2002 the company and its subsidiaries have been assessed $3 billion in criminal convictions, civil penalties and jury awards. The $2.3-billion settlement in September 2009 – a month before Dr.

AMERICAN OVERSIGHT

Prigent's appointment – set a new record for both criminal fines and total penalties. A link with Pfizer might well advance the commercialization of Canadian research – unhindered by law or morality. Is that now the only mandate, Dr. Beaudet? NIH Link HERE

Johnson & Johnson to Pay More Than $2.2 Billion to Resolve Criminal and Civil Investigations

Allegations Include Off-label Marketing and Kickbacks to Doctors and Pharmacists

WASHINGTON - Global health care giant Johnson & Johnson (J&J) and its subsidiaries will pay more than $2.2 billion to resolve criminal and civil liability arising from allegations relating to the prescription drugs Risperdal, Invega and Natrecor, including promotion for uses not approved as safe and effective by the Food and Drug Administration (FDA) and payment of kickbacks to physicians and to the nation's largest long-term care pharmacy provider. The global resolution is one of the largest health care fraud settlements in U.S. history, including criminal fines and forfeiture totaling $485 million and civil settlements with the federal government and states totaling $1.72 billion. Justice Department link HERE

Judge slashes $8 billion Risperdal award against Johnson & Johnson to $6.8 million. Link HERE

Lawsuits, payouts, opioids crisis: what happened to Johnson & Johnson?

A series of product misfires and court judgments – with a potential 50,000 more to come and total potential liabilities of $15bn – is challenging both public trust and investor faith.

The pharma giant has seen its reputation drop steadily from ninth place to 57th out of 58 leading pharmaceutical companies since 2014, according to one study by the UK reputation intelligence company Alva. HERE

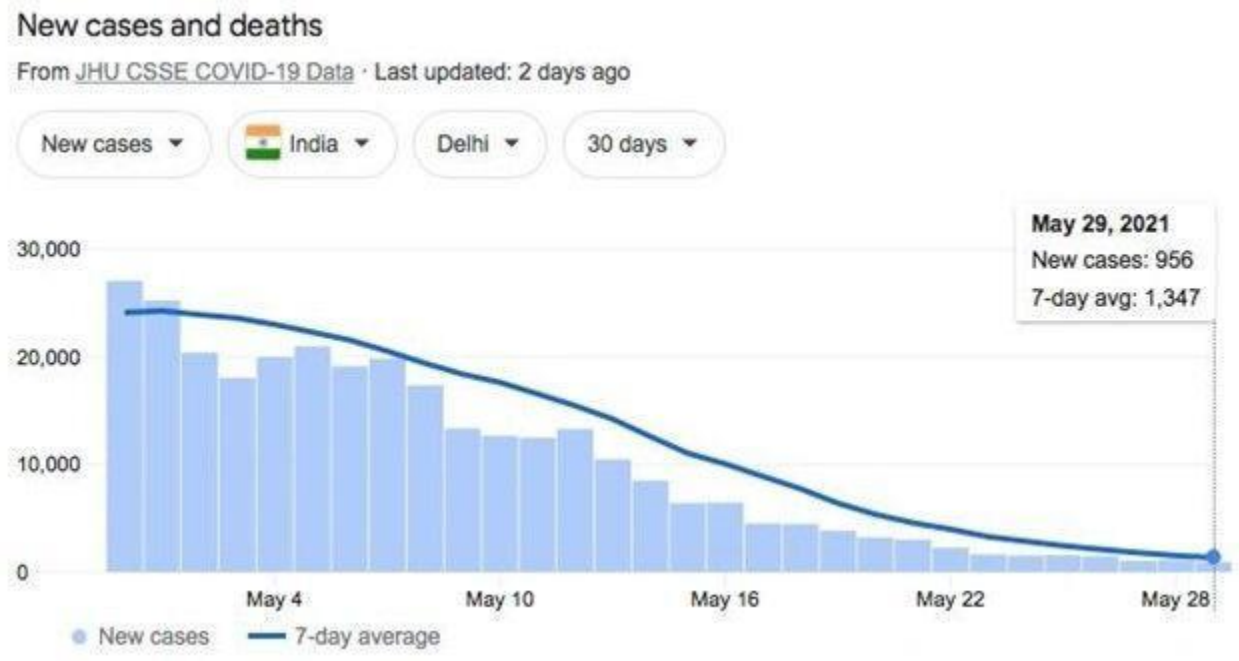
Covid-19 Treatments

By Justus R. Hope, MD

A 97% decline in Delhi cases with Ivermectin is decisive - period. It represents the last word in an epic struggle to save lives and preserve human rights. This graph symbolizes the victory of reason over corruption, good over evil, and right over wrong. It is as significant as David's victory over Goliath. It is an absolute vindication of Ivermectin and early outpatient treatment. It is a clear refutation of the WHO, FDA, NIH, and CDC's policies of "wait at home until you turn blue" before you get treatment.



Dr. Pierre Kory told the world on December 8, 2020, that Ivermectin "obliterates" this virus. Obliterate means to decimate, demolish, or annihilate. It means to eliminate or destroy all trace, indication, or significance.

This graph shows that Ivermectin, used in Delhi beginning April 20, obliterated their COVID crisis. No one should be able to talk you out of this - not a salesman, a drug

AMERICAN OVERSIGHT

company, a television celebrity doc, and certainly not the top doctor for the WHO or the NIH who is paid to do that.

Will you believe this 97% eradication graph, or will you believe the propaganda pitched by the Big Media, Big Pharma, the WHO, and the FDA, who share massive financial conflicts of interest – those who say there is insufficient evidence?

What evidence could be any clearer than a 97% reduction in five weeks? That number is better than the current vaccines and beyond the reach of most medicines. HERE

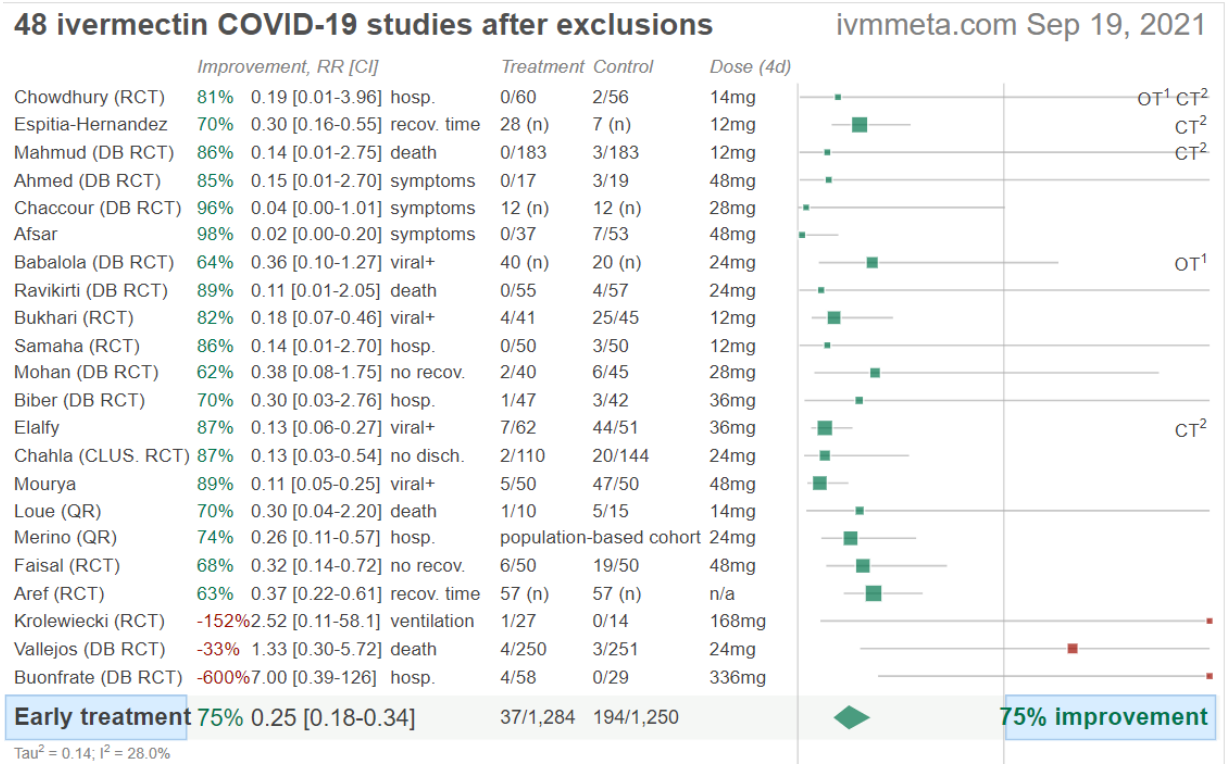
33 districts in Uttar Pradesh are now Covid-free: State govt

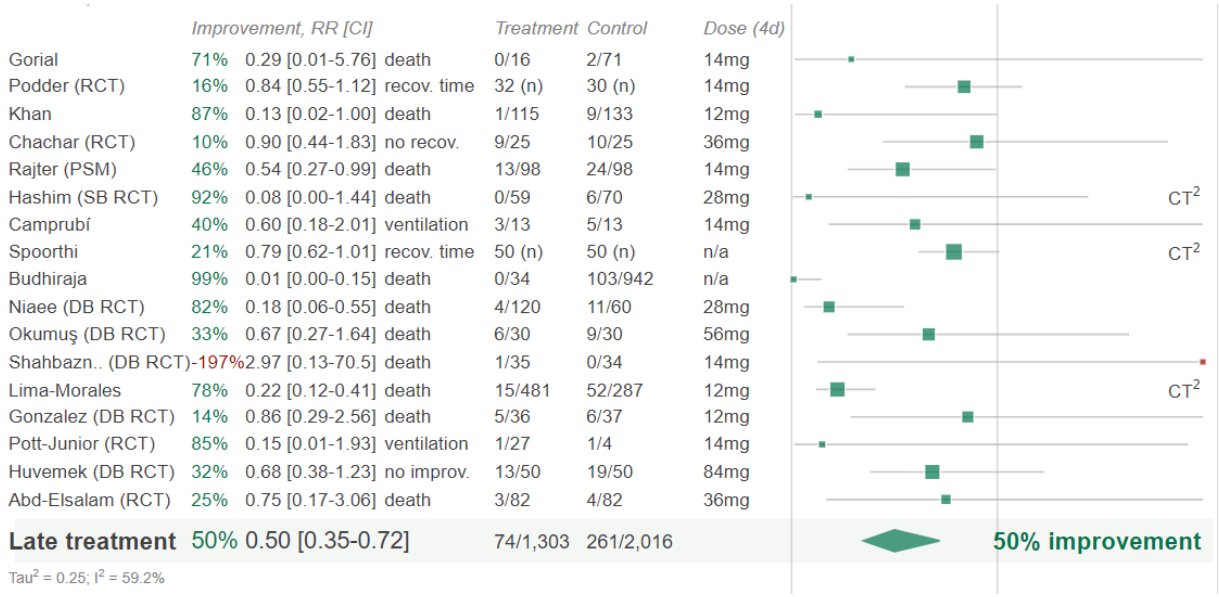
Overall, the state has a total of 199 active cases, while the positivity rate came down to less than 0.01 per cent.

There are no active cases of the coronavirus disease (Covid-19) in 33 districts of Uttar Pradesh, the state government informed on Friday. About 67 districts have not reported a single new case of the viral infection in the last 24 hours, the government said, noting the steady improvement of the Covid-19 situation in the state. HERE

AMERICAN OVERSIGHT

Ivermectin for COVID-19: real-time meta-analysis of 64 studies HERE (It is now over 77 studies)





AMERICAN OVERSIGHT

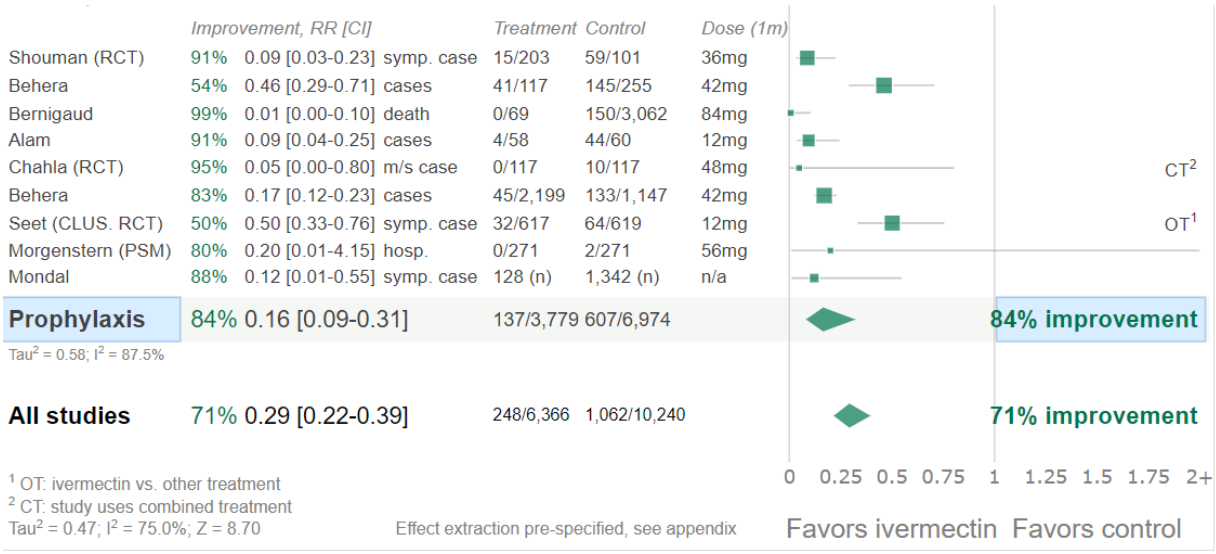


Figure 20. *Random effects meta-analysis excluding studies with significant issues. Effect extraction is pre-specified, using the most serious outcome reported, see the appendix for details.*

Ivermectin studies vary widely in all the factors above, which makes the consistently positive results even more remarkable. A failure to detect an association after combining heterogeneous studies does not mean the treatment is not effective (it may only work in certain cases), however the reverse is not true — an identified association is valid, although the magnitude of the effect may be larger for more optimal cases, and lower for less optimal cases. As above, the probability that an ineffective treatment generated results as positive as the 64 studies to date is estimated to be 1 in 222 billion. This result benefits from the fact that ivermectin shows some degree of efficacy for COVID-19 in a wide variety of cases. It also likely benefits from the fact that relatively few ivermectin trials to date have been designed in a way that favors poor results. However, more trials designed in this way are expected, for example the TOGETHER trial is testing ivermectin in locations known to have a high degree of self-medication and using low doses compared to current clinical recommendations as updated for current variants. As with a companion trial, this trial may also include very low-risk patients, include relatively late treatment while identifying as an early treatment trial, and use an active placebo (vitamin C). While we present results for all studies in this paper, the individual outcome and treatment time analyses are more relevant for specific use cases.

Conflicts of interest.

Pharmaceutical drug trials often have conflicts of interest whereby sponsors or trial staff have a financial interest in the outcome being positive. Ivermectin for COVID-19 lacks this because it is off-patent, has many manufacturers, and is very low cost. In contrast, most COVID-19 ivermectin trials have been run by physicians on the front lines with the primary interest of finding the best methods to save human lives and minimize the collateral damage caused by COVID-19. While pharmaceutical companies are careful to run trials under optimal conditions (for example, restricting patients to those most likely to benefit, only including patients that can be treated soon after onset when necessary, ensuring accurate dosing), many ivermectin trials do not represent the optimal conditions for efficacy.

AMERICAN OVERSIGHT

Two ivermectin trials to date involve very large financial conflicts of interest *[López-Medina, Together Trial]* — companies closely involved with the trial or organizers stand to lose billions of dollars if ivermectin efficacy becomes more widely known. The design of these trials favors producing a null outcome as detailed in *[López-Medina, Together Trial]*. Note that biasing an RCT to produce a false positive result is difficult (suppressing adverse events is relatively easy *[Evans]*), but biasing a trial to produce a false negative result is very easy — for example, in a trial of an antiviral that works within the first 24 hours of symptom onset, trial organizers only need to avoid treating people within the first 24 hours; or with a disease like COVID-19, organizers only need to select a low-risk population where most people recover quickly without treatment. We note that, even under the very suboptimal designs, these trials produced positive results, although without statistical significance.

Evidence base

The evidence supporting ivermectin for COVID-19 far exceeds the typical amount of evidence used for the approval of treatments. *[Lee]* shows that only 14% of the guidelines of the Infectious Diseases Society of America were based on RCTs. Table 3 and Table 4 compare the amount of evidence for ivermectin compared to that used for other COVID-19 approvals, and that used by WHO for the approval of ivermectin for scabies and strongyloidiasis. Table 5 compares US CDC recommendations for ibuprofen and ivermectin.

Indication	*Studies*	*Patients*	*Status*
Strongyloidiasis *[Kory (C)]*	5	591	Approved
Scabies *[Kory (C)]*	10	852	Approved
COVID-19	64	26,485	Pending
COVID-19 RCTs	32	6,648	

Table 3. *WHO ivermectin approval status.*

Medication	*Studies*	*Patients*	*Improvement*	*Status*
Budesonide (UK)	1	1,779	17%	Approved
Remdesivir (USA)	1	1,063	31%	Approved
Casiri/imdevimab (USA)	1	799	66%	Approved
Ivermectin evidence	64	26,485	67% [58-74%]	Pending

Sharp reductions in COVID-19 case fatalities and excess deaths in Peru in close time conjunction, state-by-state, with ivermectin treatments

Juan J. Chamie-Quintero,[a] Jennifer A. Hibberd,[b] David E Scheim[c]

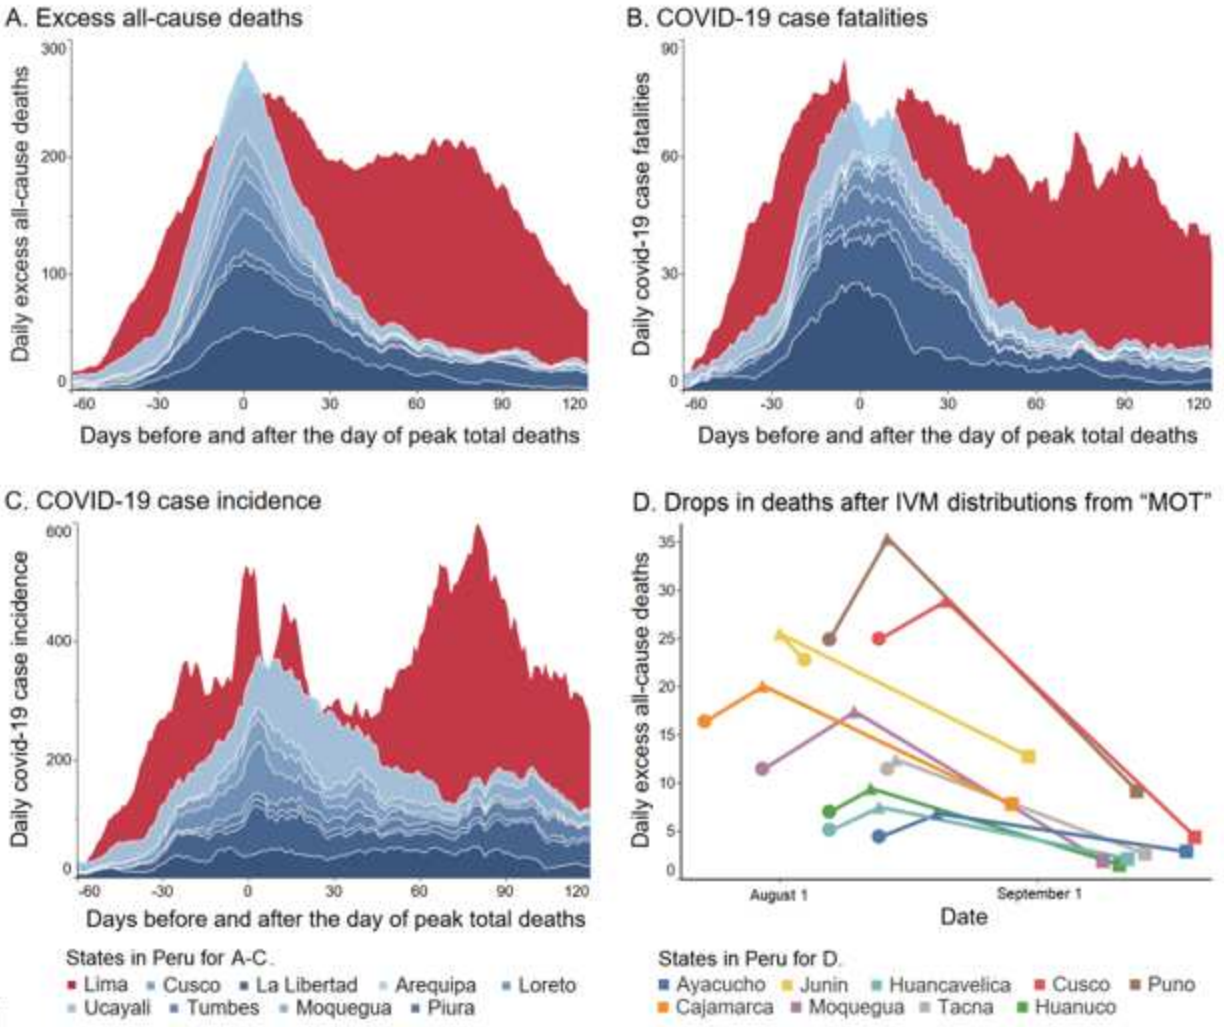

Figure 1: Graphical Abstract. A) Excess all-cause deaths; B) COVID-19 case fatalities; and C) case incidence data are for eight states in Peru that deployed mass ivermectin (IVM) treatments early in their pandemic spread (blue) and for Lima, which deployed IVM treatment four months later (red). D) Excess deaths for nine states having IVM distributions in a short period through national operation "MOT" (see results section for sources). ● MOT start date; ▲peak deaths; ■ day of peak deaths + 30 days. Junin (yellow) distributed IVM to health centers beginning on July 22, 13 days before MOT start. Population-weighted mean deaths for these nine states dropped sharply, -74% at +30 days, beginning (except for Junin) 1 to 11 days after MOT start. All y values are 7-day moving averages, ages ≥ 60.

AMERICAN OVERSIGHT

Ivermectin for COVID-19 in Peru: 14-fold reduction in nationwide excess deaths, p=.002 for effect by state, then 13-fold increase after ivermectin use restricted

Juan J. Chamie-Quintero,[a] Jennifer A. Hibberd,[b] David E Scheim[c]

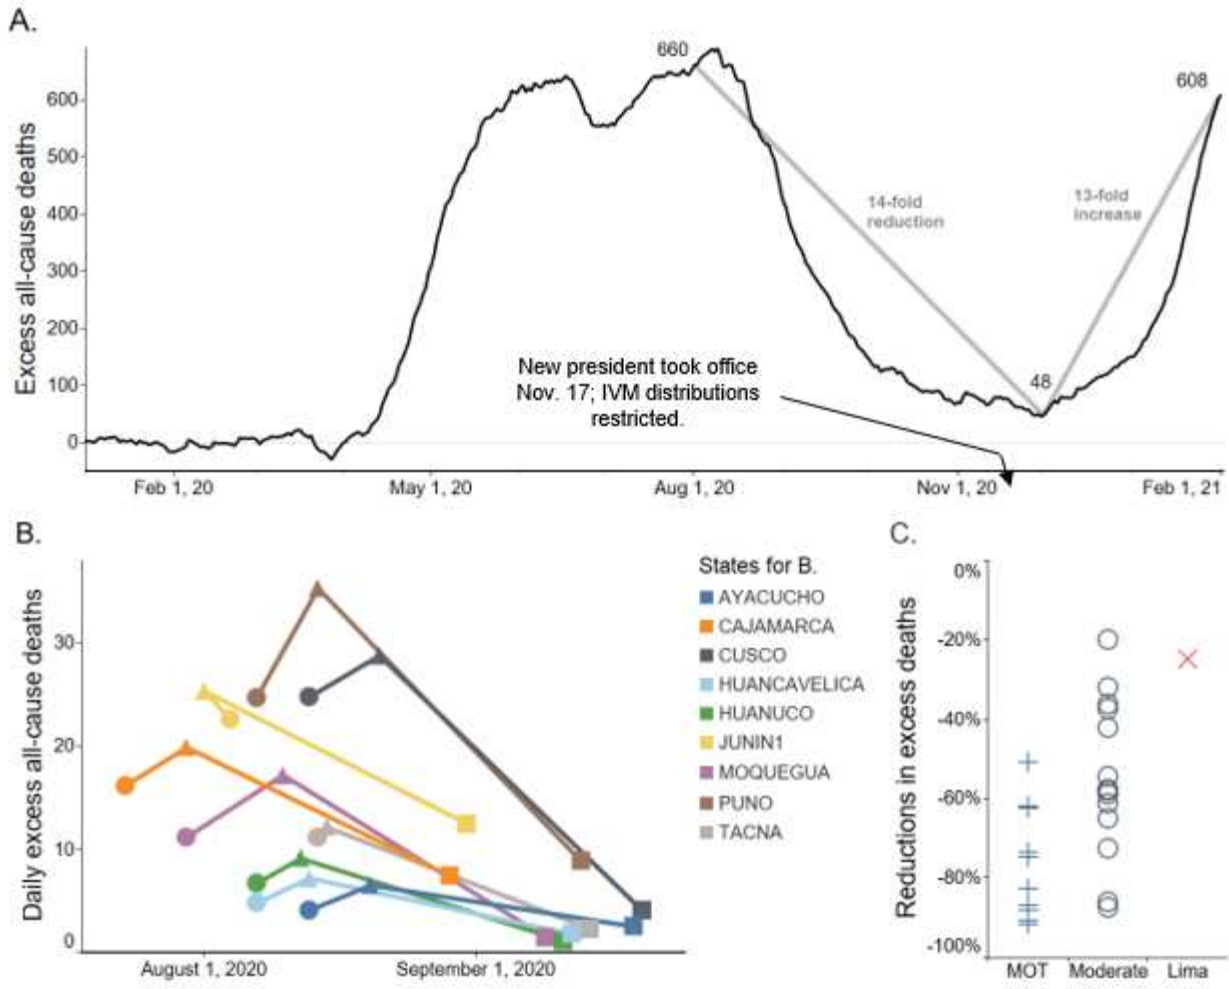

Figure 1. A) **Excess all-cause deaths (all ages), national population of Peru.** These decreased 14-fold August 1 through December 1, 2020; then, after IVM use was restricted, increased 13-fold through February 1. All y values are 7-day moving averages; for B,C, ages ≥ 60. Data are from Peru's National Death Information System (SINADEF).[12] B) Drops in excess deaths for all states of operation *MOT*, an army-led program of mass IVM distributions, but Pasco, which had them on 3 dates. ● *MOT* start date; ▲ peak deaths; ■ day of peak deaths + 30 days. Junin also distributed IVM 13 days before *MOT* start. C) Reductions in excess deaths at +30 days after peak deaths for the 25 states by extent of IVM distributions: maximal-*MOT* (+), mean -74%; moderate-local distributions (O), mean -53%; and minimal-Lima (x), -25%. These reductions for the 25 states correlated with extent of IVM distributions with Kendall τ_b p=0.002.

The Science is Clear on Ivermectin

Except someone is suppressing it.

This Comes from the FDA Website

Here's What You Need to Know about Ivermectin

- The FDA has not authorized or approved ivermectin for use in preventing or treating COVID-19 in humans or animals. Ivermectin is approved for human use to treat infections caused by some parasitic worms and head lice and skin conditions like rosacea.
- Currently available data do not show ivermectin is effective against COVID-19. Clinical trials assessing ivermectin tablets for the prevention or treatment of COVID-19 in people are ongoing. HERE

  At least 26,509 people have taken ivermectin in trial, with 67% showing improvement. A total of 1,062 people participated in a study to approve remdesivir for covid-19 and its shown to be less effective than aspirin but slightly more effective than vitamin C. HERE

AMERICAN OVERSIGHT

Covid-19 Overview

Anthony Fauci, head of the NIH, funded the WIV via the NIH. Not only was gain of function research performed but they asked for permission from DARPA to release the virus into nature. DARPA denied their request due to the potential of human infection. The evidence suggest that the outbreak occurred in the area of the WIV lab. The Covid-19 tests and case counts were admitted to be a fraud. Ivermectin will not be approved after 26,000 people experienced an overall 67% improvement from the drug. However, remdesivir with 1 study including 1,000 people showed to be less effective than aspirin but was approved for use.

AMERICAN OVERSIGHT

Implementation of the Great Reset

Now that we have Covid-19 out of the way lets take a closer look at the World Economic Forum.

The Covid-19 lockdowns are being used as preconditioning for the next phase of lockdowns, which will be for carbon. By normalizing lockdown with covid-19 people will be more willing to accept a lockdown for the climate.

The World Economic Forum

COVID-19 and the Climate

To date, more than **700 companies globally have signed a host of open letters to world leaders, calling on them to ensure that economic stimulus packages tackle both the impacts of the coronavirus and the ongoing climate crisis. Meanwhile, over 4,500 health professionals and more than 350 organizations, representing at least 40 million health workers worldwide, have urged the leaders of the G20 to ensure a green recovery.**

So, while the pain of **COVID-19 is devastating, it has created a policy window for climate action that six months ago would have been unimaginable**.

This means they can pass things that otherwise would never be approved.

If no action is taken, the report says future pandemics will happen more often, spread faster and kill more people than COVID-19. The panel says the economic cost of the current pandemic is 100 times the estimated cost of preventing it by protecting nature.

They are going to blame every future pandemic on climate change and use the covid-19 pandemic to usher in policy that otherwise would never be accepted.

They call for **"changes to reduce the types of consumption, globalized agricultural expansion and trade that have led to pandemics. This could include taxes or levies on meat consumption, livestock production and other forms of high pandemic-risk activities," the report says.** HERE

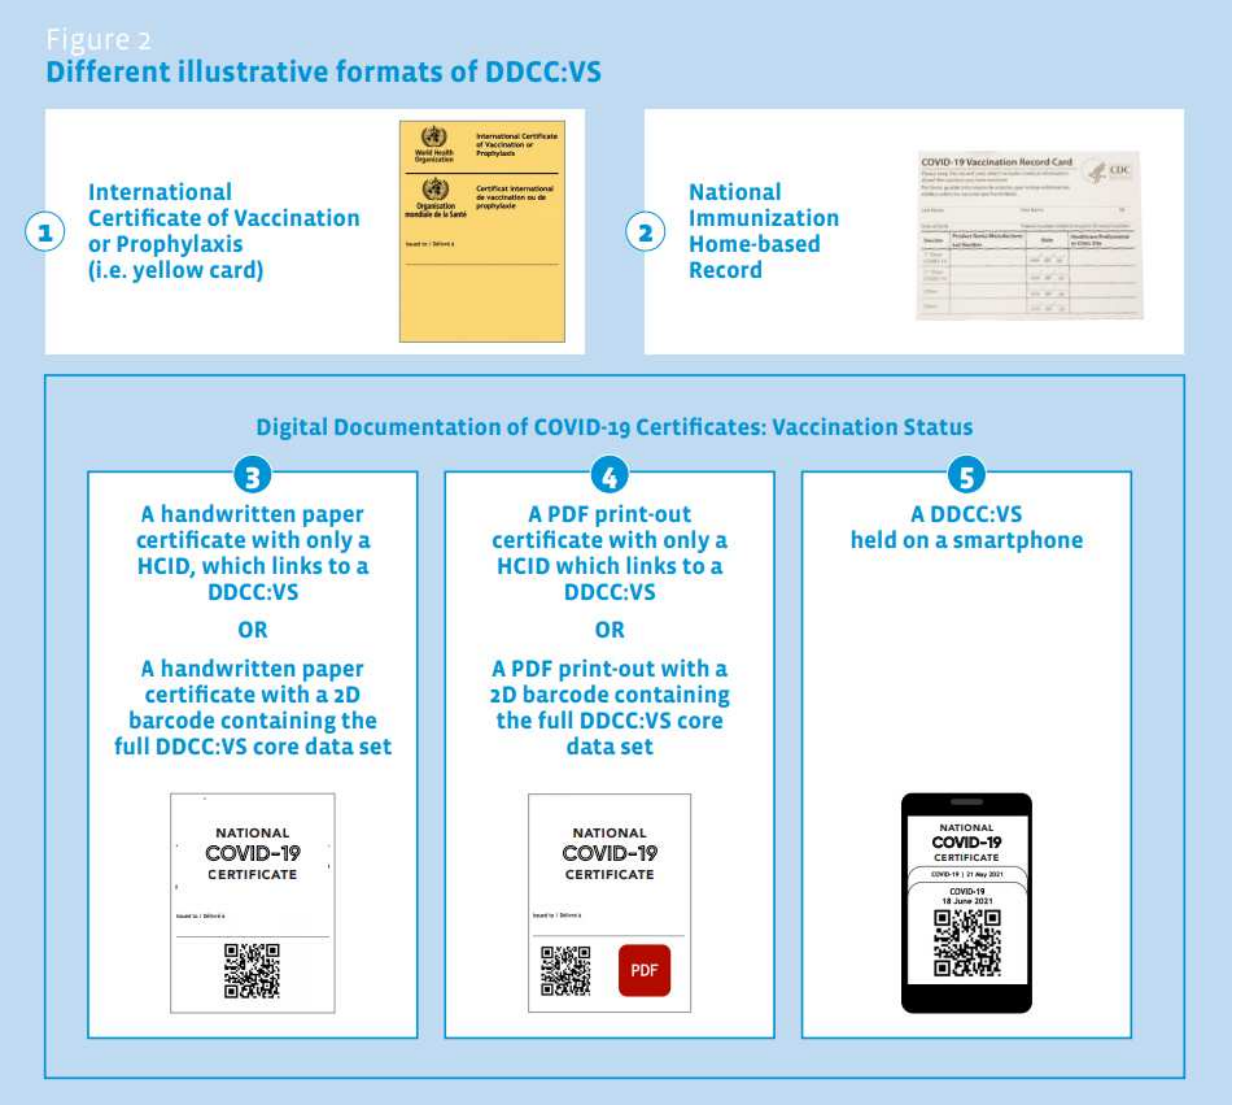
The number 1 environmental goal of the World Economic Forum is to reduce carbon so what the paragraph says above is anything to do with carbon will be taxed. Everything can be tied to carbon so this means everything will be allotted points and you will be allotted carbon credits. How will they track this? It will be through a digitized social credit score. This is the reason that vaccine passports are being introduced around the world. These things take time to normalize and policy will be gradually introduced until you must have it to function in society.

AMERICAN OVERSIGHT

Digital Documentation of COVID-19 Certificates: Vaccine Passports

This work was funded by **the Bill and Melinda Gates Foundation**, the Government of Estonia, Fondation Botnar, the State of Kuwait, and the Rockefeller Foundation. The views of the funding bodies have not influenced the content of this document. Page 8 HERE

This is the progression into a digital social credit score as modeled in China.



The primary target audience of this document is national authorities tasked with creating or overseeing the development of a digital vaccination certificate solution for COVID-19. The document may also be useful to government partners such as local businesses, international organizations, nongovernmental organizations and trade associations, that may be required to support Member States in developing or deploying a DDCC:VS solution. **This document is the WHO suggesting to governments how to implement a**

AMERICAN OVERSIGHT

vaccine tracking system. This is the first step into digital tracking and what will lead into the social credit score. This is going to create an underclass that will not be able to participate in society as the World Economic Forum quote pointed out previously.

Unique ID for the vaccinated person, according to the policies applicable to each country. There can be more than one unique ID used to link records (e.g. national ID, health ID, immunization information system ID, medical record ID) HERE

ID2020 (Digital ID)

Digital identity carries significant risk if not thoughtfully designed and carefully implemented. We do not underestimate the risks of data misuse and abuse, particularly when digital identity systems are designed as large, centralized databases.

*Note: Our understanding of good digital ID was informed by extensive consultations with many experts in the eld including the World Bank, Omidyar Network, the Bill and Melinda Gates Foundation, the Open Society Foundations, ID2020, and the Rockefeller Foundation. HERE

4 of the foundations involved with the digital ID are members or attend the World Economic Forum functions.

Back to The World Economic Forum

Vision Towards a Responsible Future of Consumption: Collaborative action framework for consumer industries

This paper was written by high level executives in collaboration with the World Economic Forum.

The consumer industries are uniquely positioned to lead this movement. They employ one in five workers around the world. Billions of individuals use their products every day. Moreover, to the extent that they accept this responsibility, they will also establish practices ahead of – and thus influence – inevitable environmental, social and governance (ESG) requirements. **This says that the major corporations have a lot of power to influence policy and this is one forum they are using to plan how to do so.**

Finally, the **Consumer Industries community has prioritized a set of collaborative industry actions, which build on the World Economic Forum's "Great Reset"** initiative to improve the foundations of our economic and social systems**. This says that companies are working in lockstep to implement their agenda as The World Economic Forum has said they are planning.**

COVID-19 has highlighted the urgent need for solutions to overcome societal and environmental challenges. **It has also inspired an opportunity for collective action.**

AMERICAN OVERSIGHT

Members of the Consumer Industries community seek to use the Forum's ability to convene diverse actors across industries and the public sector on an independent platform to create a better and more resilient future.

Between 20% and 25% of small and medium-sized businesses and enterprises (SMBs or SMEs) were forecast to fail in most markets – a total of some 60 million businesses this year. The average small or medium-sized business has less than one month of cash on hand; mandated closures and supply shortages are taking a predictable toll.7 The US alone is home to 6 million small and medium enterprises, accounting for more than 45% of the country's GDP. Currently, they are being propped up by government stimulus, but without resumed business or additional support in the form of loans, 79% of the US SMEs surveyed for this report attest they would become insolvent within two months.

It has also created a singular opportunity for collective, ecosystem-level action. The members of the Consumer Industries community at the World Economic Forum are committed to the vision of human-centric solutions that create a bright and resilient future. They seek to use the Forum's proven ability to convene diverse actors across industries, governments, civil society and academia on an independent platform and build collaborative communities that act with purpose to fulfil their aspirations. This group, along with the members of the Forum's Consumer Industries Steering Committee, look forward to the innovative and powerful solutions that will emerge as a result of these efforts in the coming months and years. AMERICAN OVERSIGHT

Climate Lockdown to Reduce Carbon

A carbon credit represents the right to emit a measured amount of GHG. Carbon credits work as a certification that business or individual owning them is counterbalancing the emission of greenhouse gases (GHG). ... The ultimate purpose of carbon credits is, therefore, to reduce the emission of GHG into the atmosphere. This means you will be allotted a certain amount of carbon credits which you can spend. Carbon credits will be linked to everything that could potentially have a connection to carbon output including food, electricity, and children.

Below they are preprogramming you to accept carbon lockdowns and credits as normal.

Personal carbon allowances could assist climate targets

Personal carbon allowances (PCAs) could help countries to reach ambitious climate mitigation targets and enable a low-carbon recovery from the Covid-19 pandemic, according to a new report co-led by UCL researchers. HERE

It's time to rethink personal carbon allowances, research suggests

Why now?

A few things have changed in the wake of the pandemic that might make PCAs more feasible and might make people more amenable to the notion. For one, the new IPCC report paints a dire portrait of the world's climate future and suggests the planet is on track to hit and exceed 2° C of warming above preindustrial levels unless there are rapid and large-scale reductions in emissions. HERE

Local Lockdowns Brought Fast Global Ozone Reductions, NASA Finds

As the coronavirus pandemic slowed global commerce to a crawl in early 2020, emissions of nitrogen oxides (NOx) – which create ozone, a danger to human health and to climate – decreased 15% globally, with local reductions as high as 50%, according to a study led by scientists at NASA's Jet Propulsion Laboratory in Southern California. As a result of the lower NOx emissions, by June 2020, global ozone levels had dropped to a level that policymakers thought would take at least 15 years to reach by conventional means, such as regulations. HERE

AMERICAN OVERSIGHT

Equivalent of Covid emissions drop needed every two years – study HERE

World Economic Forum- **Emissions have fallen this year. Now we need to make it permanent** HERE

World Economic Forum- **Emissions fell during lockdown. Let's keep it that way.**

- As the focus shifts to recovering from COVID-19, will we take decisions that restore economies and support the "green" agenda?
- Or are we stuck on the notion that we need to choose between them?
- **There will be no point in rebuilding economies and lives if we sacrifice the future of the planet.**

We're at a pivotal moment when it comes to global warming. As the focus shifts to rebuilding and recovering from COVID-19, we need to make decisions to restore shattered economies, but will they also contribute to the commitments in the Paris Agreement? HERE

Klaus Schwab's Book 'The Great Reset'

None fits the reach and pattern of the human suffering and economic destruction caused by the current pandemic. **The economic fallout in particular bears no resemblance to any crisis in modern history**. As pointed out by many heads of state and government in the midst of the pandemic, we are at war, but with an enemy that is invisible, and of course metaphorically: "If what we are going through can indeed be called a war, it is certainly not a typical one. After all, **today's enemy is shared by all of humankind".** Remember the Club of Rome Quote.

Some have called for "degrowth", a movement that embraces zero or even negative GDP growth that is gaining some traction (at least in the richest countries). As the critique of economic growth moves to centre stage, consumerism's financial and cultural dominance in public and private life will be overhauled. This is made obvious in consumer-driven degrowth activism in some niche segments – like advocating for less meat or fewer flights**. By triggering a period of enforced degrowth, the pandemic has spurred renewed interest in this movement that wants to reverse the pace of economic growth, leading more than 1,100 experts from**

AMERICAN OVERSIGHT

around the world to release a manifesto in May 2020 putting forward a degrowth strategy to tackle the economic and human crisis caused by COVID-19. Their open letter calls for the adoption of a democratically "planned yet adaptive, sustainable, and equitable downscaling of the economy, leading to a future where we can live better with less". Page 29 This is straight forward. There is a large group of powerful people that want to destroy the worldwide economy. This means everyone's standard of living goes down.

Environmental Reset

A recent sustainability report shows that the total carbon emissions generated by the electricity production required to power our electronic devices and transmit their data are roughly equivalent to that of the global airline industry. The conclusion? Even unprecedented and draconian lockdowns with a third of the world population confined to their homes for more than a month came nowhere near to being a viable decarbonization strategy because, even so, the world economy kept emitting large amounts of carbon dioxide. What then might such a strategy look like? The considerable size and scope of the challenge can only be addressed by a combination of: 1) a radical and major systemic change in how we produce the energy we need to function; and 2) structural changes in our consumption behaviour. If, in the post-pandemic era, we decide to resume our lives just as before (by driving the same cars, by flying to the same destinations, by eating the same things, by heating our house the same way, and so on), **the COVID-19 crisis will have gone to waste as far as climate policies are concerned. Page 57-58**

Impact of the Pandemic on Climate Change and Policy

The exhortation of different leaders ranging from HRH the Prince of Wales to Andrew Cuomo to "build it back better" goes in that direction. Governments led by enlightened leaders will make their stimulus packages conditional upon green commitments.

Technology Reset

It will also accentuate one of the greatest societal and individual challenges posed by tech: privacy. We will see how contact tracing has an unequalled capacity and a quasi-essential place in the armoury needed to combat COVID-19, **while at the same time being positioned to become an enabler of mass surveillance.** Page 62

Dystopian scenarios are not a fatality. It is true that in the post-pandemic era, personal health and well-being will become a much greater priority for society, which is why the genie of tech surveillance will not be put back into the bottle. But it is for those who govern and each of us personally to control and harness the benefits of technology without sacrificing our individual and collective values and freedoms. Page 69 The Great Reset Book HERE

AMERICAN OVERSIGHT

Climate Change

The first phase of the Great Reset was Covid-19 to get people conditioned to accepting the new normal. The next phase as previously discussed will be climate actions and lockdowns. For this reason we need to gain a basic understanding of how the climate works.

From the Book 'The first Global Revolution' a Report by the Club of Rome. Because of the sudden absence of traditional enemies, "new enemies must be identified. In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill....All these dangers are caused by human intervention, and it is only through changed attitudes and behavior that they can be overcome. The real enemy then, is humanity itself." Page 75 The Club of Rome is an arm of the Davos/World Economic Forum. They admit in the book that they made up climate crisis. They did this to give people a reason to surrender their personal rights and freedoms to the governing authorities for the 'betterment of the world.' And since this is a global problem the only way to fix it is with a global government.

The Club of Rome founded in1968 consists of one hundred full members selected from current and former heads of state and government, UN administrators, high-level politicians and government officials, diplomats, scientists, economists, and business leaders from around the globe.

The Club of Rome can be thought of as another arm of the World Economic Forum. The World Economic Forum was a secret group up until a few years ago. When they were a secret organization, they were called the Davos group.

AMERICAN OVERSIGHT

Carbon Dioxide

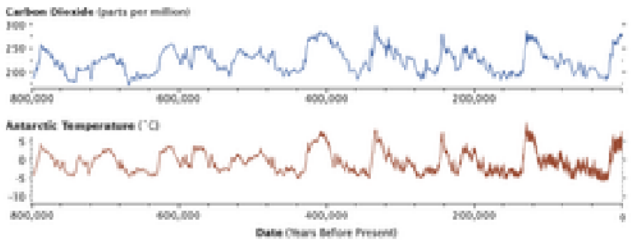
According to the theory, **carbon dioxide** controls **temperature** because the **carbon dioxide** molecules in the air absorb infrared radiation. The **carbon dioxide** and other gases in the atmosphere are virtually transparent to the visible radiation that delivers the sun's energy to the **earth Carbon dioxide** controls the amount of water vapor in the atmosphere and thus the size of the greenhouse effect. ... This means that Earth's **temperature** will **increase** at least another 0.6 degrees Celsius (1 degree Fahrenheit) because of **carbon dioxide** already in the atmosphere Here

Prior to the industrial revolution, concentrations were fairly stable at 280ppm. Today, they are around 400+ppm, an increase of well over 30 percent. The atmospheric concentration has a marked seasonal oscillation that is mostly due to the greater extent of landmass in the northern hemisphere and its vegetation. A greater drawdown of CO2 occurs in the northern hemisphere spring and summer as plants convert CO2 to plant material through photosynthesis. It is then released again in the fall and winter as the plants decompose. Here

The simulation showed weakening of the AMOC due to the increase in glacial melt beginning about 19,000 years ago, which decreased ocean heat transport, keeping heat in the Southern Hemisphere and cooling the Northern Hemisphere. Other studies suggest this southern warming caused sea ice to retreat and shifted winds around the Southern Ocean, uncorking carbon dioxide that had previously been stored in the deep ocean and venting it to the atmosphere around 17,500 years ago. **This rise in carbon dioxide then initiated worldwide warming.** Here

The underlined sentence is the mainline argument on global temperature rise. However, the graphs below present temperature increases first with a carbon dioxide increase approximately 1000 years later.

It is worth considering that carbon dioxide concentrations rose from 185 parts per million (ppm) to 260 ppm over the approximately 10,000 years during which the last ice age ended. In just the past two centuries, human activity has increased concentrations by about the same amount, reaching a carbon dioxide concentration of 392 ppm in 2011—higher than at any time in at least the last 800,000 years. Here



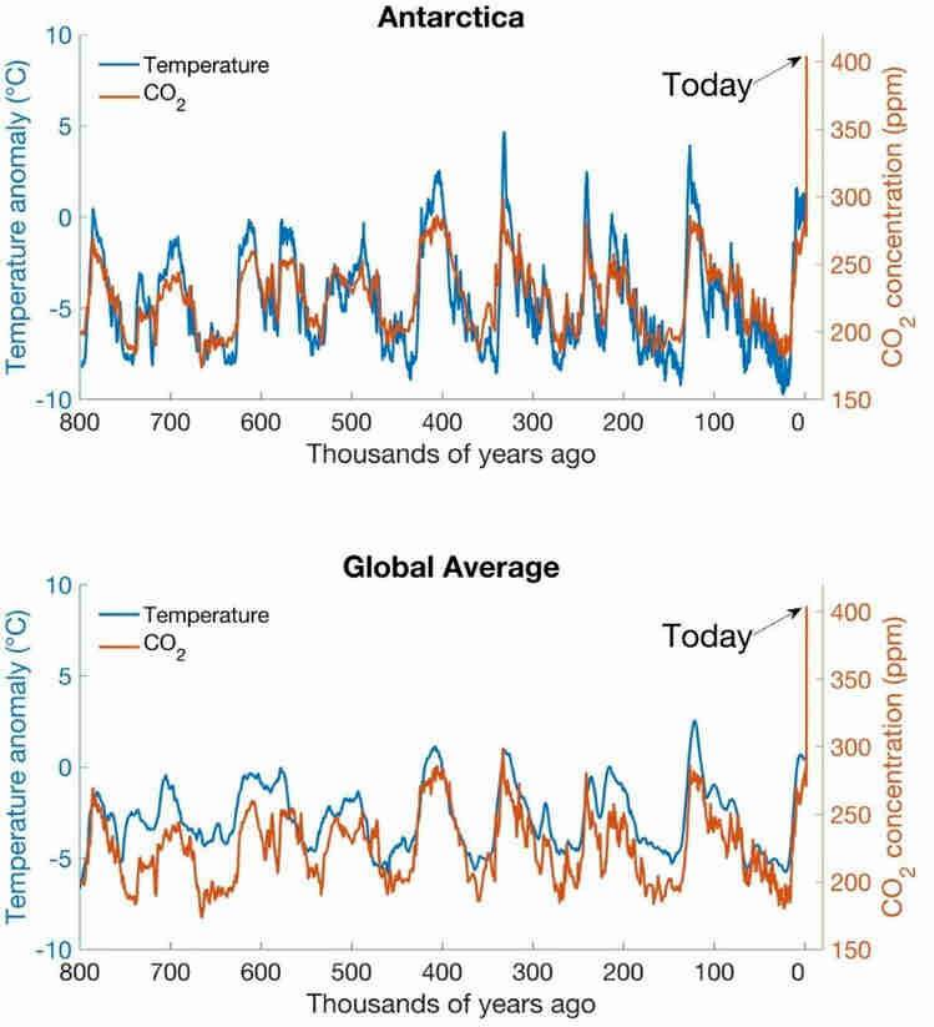
Here
Ice sheets have one particularly special property. They allow us to go back in time and to sample accumulation, air temperature and air chemistry from another time. Ice core records

AMERICAN OVERSIGHT

allow us to generate continuous reconstructions of past climate, going back at least 800,000 years. By looking at past concentrations of greenhouse gasses in layers in ice cores, scientists can calculate how modern amounts of carbon dioxide and methane compare to those of the past, and, essentially, compare past concentrations of greenhouse gasses to temperature. Here

CO2 and temperature fluctuations are shown below.

Below you will see a graph. This graph is the primary argument in that CO2 levels have never been higher in the history of the world. This is a lie, the world is older that 800,000 years so only presenting data back to 800,000 years is like saying the world is only 800,000 years old. I will show you data going back millions of years.



Data from Parrenin et al. 2013; Snyder et al. 2016; Bereiter et al. 2015.
Image: Ben Henley and Nerilie Abram/The Conversation

AMERICAN OVERSIGHT

CO2 follows temperature. Indeed, CO2 lags temperature by some 800 to 1,000 years. It is temperature that causes CO2, not the other way around. It is impossible for the cause to be the effect. During warm interglacial periods, where we are right now, the warm oceans release CO2 into the atmosphere. 96% of all CO2 emissions come from nature, mostly from the warm oceans and most of that from the equatorial belt. During ice ages, that we have every 100,000 years, the cold oceans sequester CO2 out of the atmosphere, and it is stored in the oceans. CO2 levels have never prevented the Earth from entering into an ice age, even when CO2 was at 4,000 ppm in the Ordovician Period. HERE

The paragraph above is key. It says that water has the ability to retain more CO2 at colder temperatures and as temperature rises CO2 is released.

As we burn fossil fuels and atmospheric carbon dioxide levels go up, the ocean absorbs more carbon dioxide to stay in balance. But this absorption has a price: these reactions lower the water's pH, meaning it's more acidic. And the ocean has its limits. As temperatures rise, carbon dioxide leaks out of the ocean like a glass of root beer going flat on a warm day. Here

In the center of the ocean, wind-driven currents bring cool waters and fresh carbonate to the surface. The new water takes up yet more carbon to match the atmosphere, while the old water carries the carbon it has captured into the ocean.

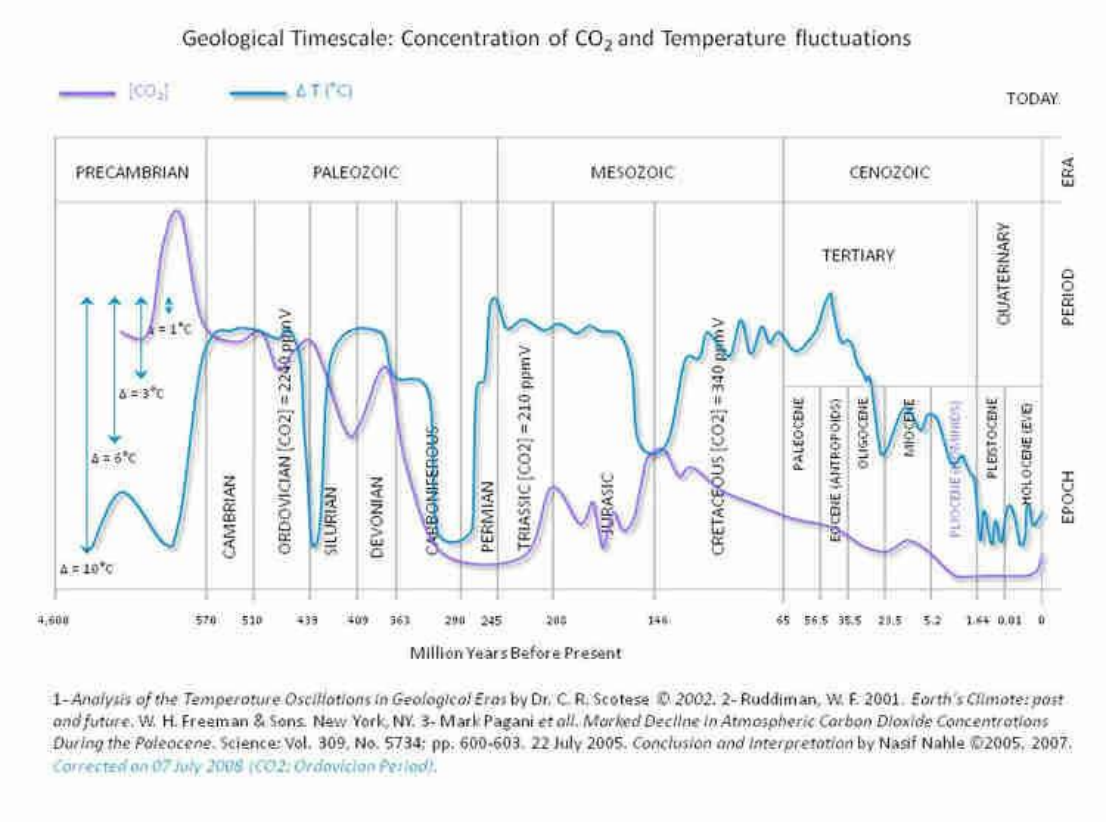
The concentration of carbon dioxide (CO2) in ocean water (y axis) depends on the amount of CO2 in the atmosphere (shaded curves) and the temperature of the water (x axis). This simplified graph shows that as atmospheric CO2 increases from pre-industrial levels (blue) to double (2X) the pre-industrial amounts (light green), the ocean CO2 concentration increases as well. However, as water temperature **increases,** its ability dissolve CO2 **decreases.** Global warming is expected to reduce the ocean's ability to absorb CO2, leaving more in the atmosphere. (Graph by Robert Simmon.)
In the short term, the ocean absorbs atmospheric carbon dioxide into the mixed layer, a thin layer of water with nearly uniform temperature, salinity, and dissolved gases. Wind-

AMERICAN OVERSIGHT

driven turbulence maintains the mixed layer by stirring the water near the ocean's surface. Over the long term, carbon dioxide slowly enters the deep ocean at the bottom of the mixed layer as well in in regions near the poles where cold, salty water sinks to the ocean depths. (NASA illustration by Robert Simmon.)
The warmer the surface water becomes, the harder it is for winds to mix the surface layers with the deeper layers. The ocean settles into layers, or stratifies. Without an infusion of fresh carbonate-rich water from below, the surface water saturates with carbon dioxide. The stagnant water also supports fewer phytoplankton, and carbon dioxide uptake from photosynthesis slows. In short, stratification cuts down the amount of carbon the ocean can take up. Here

The evidence shows that CO2 follows temperature and as the ambient temperature rises the stored CO2 in the oceans is released. When the planet cools the CO2 is sequestered back into the ocean.

CO2 & Temperature geologic data points going back 600+ million years.

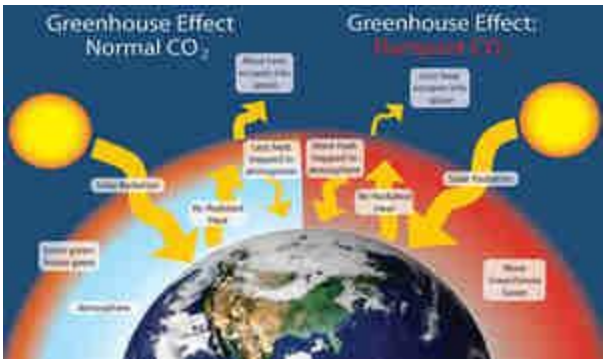


1- *Analysis of the Temperature Oscillations in Geological Eras* by Dr. C. R. Scotese © 2002. 2- Ruddiman, W. F. 2001. *Earth's Climate: past and future*. W. H. Freeman & Sons. New York, NY. 3- Mark Pagani *et all*. *Marked Decline in Atmospheric Carbon Dioxide Concentrations During the Paleocene*. Science: Vol. 309, No. 5734: pp. 600-603. 22 July 2005. *Conclusion and Interpretation* by Nasif Nahle ©2005, 2007. *Corrected on 07 July 2008 (CO2; Ordovician Period).*

This graph demonstrates the correlation between CO2 and temperature. The most important data to pay attention to in this graph is the CO2 concentrations from the Precambrian and present day. The 800,000 year period graph used by most institutions and media outlets lead you to believe CO2 levels are higher than they have ever been in earths history. This shows that overall CO2 has never been lower in earth's history.

AMERICAN OVERSIGHT

The Greenhouse Effect



This comes from NASA. Scientists attribute the global warming trend observed since the mid-20th century to the human expansion of the "greenhouse effect" — warming that results when the atmosphere traps heat radiating from Earth toward space.
Certain gases in the atmosphere block heat from escaping. Long-lived gases that remain semi-permanently in the atmosphere and do not respond physically or chemically to changes in temperature are described as "forcing" climate change. Gases, such as water vapor, which respond physically or chemically to changes in temperature are seen as "feedbacks."
Gases that contribute to the greenhouse effect include:

- Water vapor. The most abundant greenhouse gas, but importantly, it acts as a feedback to the climate. Water vapor increases as the Earth's atmosphere warms, but so does the possibility of clouds and precipitation, making these some of the most important feedback mechanisms to the greenhouse effect.
- Carbon dioxide (CO2). A minor but very important component of the atmosphere, carbon dioxide is released through natural processes such as respiration and volcano eruptions and through human activities such as deforestation, land use changes, and burning fossil fuels. Humans have increased atmospheric CO2 concentration by 47% since the Industrial Revolution began.

Read more from NASA Here

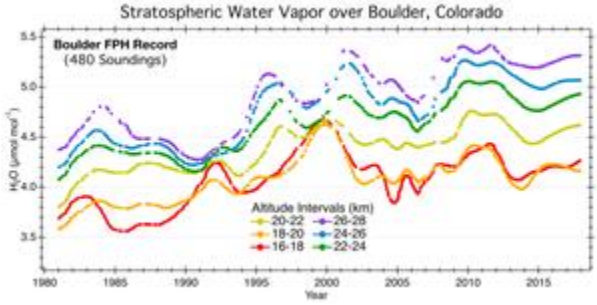
AMERICAN OVERSIGHT

Current greenhouse gas concentrations[56]

Gas	Pre-1750 tropospheric concentration[57]	Recent tropospheric concentration[58]	Absolute increase since 1750	Percentage increase since 1750	Increased radiative forcing (W/m^2)[59]
Carbon dioxide (CO_2)	280 ppm[60]	395.4 ppm[61]	115.4 ppm	41.2%	1.88
Methane (CH_4)	700 ppb[62]	1893 ppb /[63][64] 1762 ppb[63]	1193 ppb / 1062 ppb	170.4% / 151.7%	0.49
Nitrous oxide (N_2O)	270 ppb[59][65]	326 ppb /[63] 324 ppb[63]	56 ppb / 54 ppb	20.7% / 20.0%	0.17
Tropospheric ozone (O_3)	237 ppb[57]	337 ppb[57]	100 ppb	42%	0.4[66]

As shown above and consistent in a majority of studies, humans have increased CO2,CH4,N2O, and Ozone concentrations.

The graph below shows an increase of stratospheric water vapor of approximately 20% between 1980 and present day.



Measurement Sites

Currently we launch balloon-borne FPHs once per month at Boulder, Colorado, Hilo, Hawaii, and Lauder New Zealand. Click on the photos for site information, water vapor profile plots and access to water vapor data files. NOAA Study HERE

Water vapor is known to be Earth's most abundant greenhouse gas, but the extent of its contribution to global warming has been debated. Using recent NASA satellite data, **researchers have estimated more precisely than ever the heat-trapping effect of water in the air, validating the role of the gas as a critical component of climate change**. This study confirms that what was predicted by the models is really happening in the atmosphere," said Eric Fetzer, an atmospheric scientist who works with AIRS data at NASA's Jet Propulsion Laboratory in Pasadena, Calif. "Water vapor is the big player in the atmosphere as far as climate is concerned."

Read more from NASA HERE

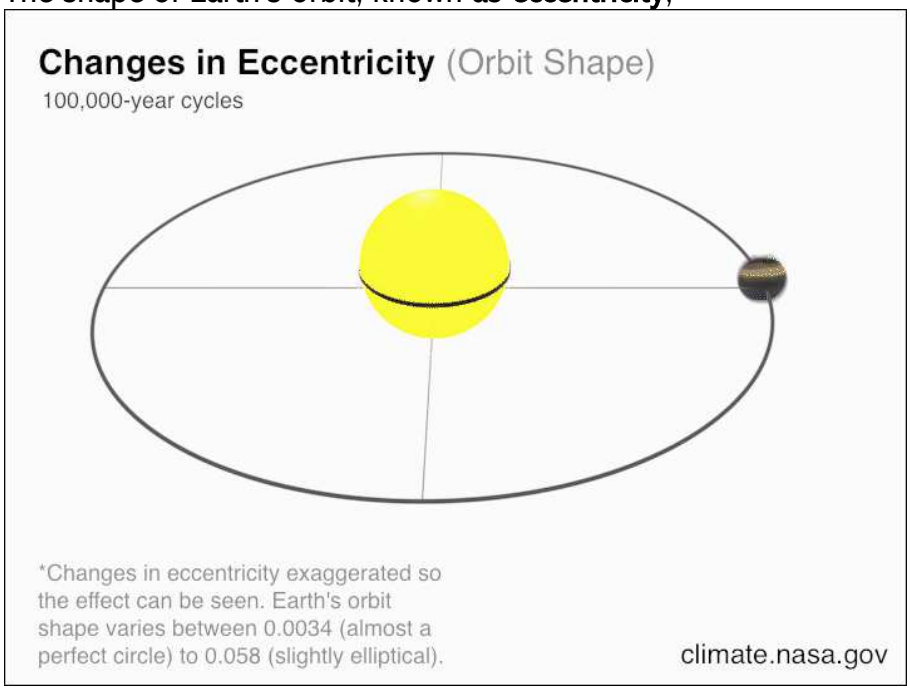
AMERICAN OVERSIGHT

Quick review: Carbon follows temperature. The effect cannot be the cause. Caron does act as a greenhouse gas but is not the sole driver of warming. Water vapor plays a big part in the greenhouse effect and the data shows that its increased 20% since 1980.

Orbital Cycles

The Milankovitch cycles include:

1. The shape of Earth's orbit, known as **eccentricity**;



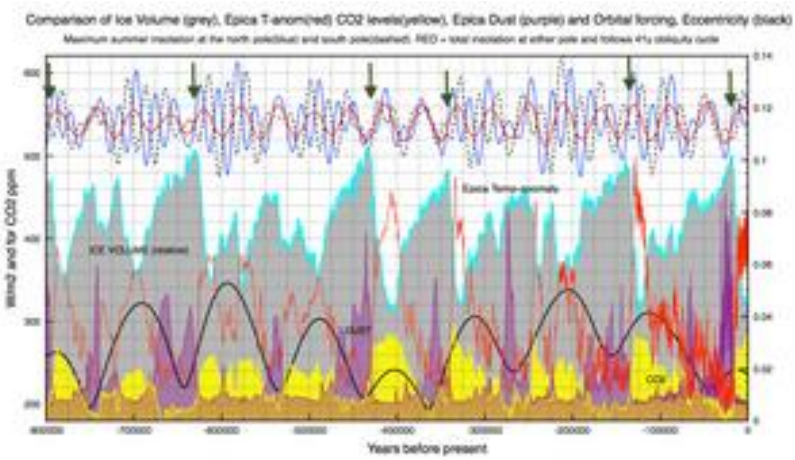
2. The angle Earth's axis is tilted with respect to Earth's orbital plane, known as **obliquity**; and

The direction Earth's axis of rotation is pointed, known as **precession**.

The small changes set in motion by Milankovitch cycles operate separately and together Milankovitch assumed changes in radiation at some latitudes and in some seasons are more important than others to the growth and retreat of ice sheets. In addition, it was his belief that obliquity was the most important of the three cycles for climate, because it affects the amount of insolation in Earth's northern high-latitude regions during summer (the relative role of precession versus obliquity is still a matter of scientific study). **He calculated that Ice Ages occur approximately every 41,000 years. Subsequent research confirms that they did occur at 41,000-year intervals between one and three million years ago. But about 800,000 years ago, the cycle of Ice Ages lengthened to 100,000 years, matching Earth's eccentricity cycle.** While various theories have been proposed to explain this transition, scientists do not yet have a clear answer.

AMERICAN OVERSIGHT

Milankovitch's work was supported by other researchers of his time, and he authored numerous publications on his hypothesis. But it wasn't until about 10 years after his death in 1958 that the global science community began to take serious notice of his theory. In 1976, a study in the journal Science by Hays et al. **using deep-sea sediment cores found that Milankovitch cycles correspond with periods of major climate change over the past 450,000 years, with Ice Ages occurring when Earth was undergoing different stages of orbital variation.**
Several other projects and studies have also upheld the validity of Milankovitch's work, including research using data from ice cores in Greenland and Antarctica that has provided strong evidence of Milankovitch cycles going back many hundreds of thousands of years. In addition, his work has been embraced by the National Research Council of the U.S. National Academy of Sciences.
This is straight forward. When our orbital position changes so does our climate. The shape of our orbit operates in a relatively predictable pattern as shown over time.
Scientific research to better understand the mechanisms that cause changes in Earth's rotation and how specifically Milankovitch cycles combine to affect climate is ongoing. But the theory that they drive the timing of glacial-interglacial cycles is well accepted.
NASA HERE



Red on the Graph is Temperature.
See Graph Here
Note how the obliquity cycle reasserts itself when eccentricity is high. The glacial periods 600,000y ago and 300,000y ago are essentially co-joined 41k cycles. HERE

The Milankovitch graph show eccentricity, as well as, the earths tilt and the corresponding reaction between climate factors like CO2. The top points are:

1) When the earth moves closer to the sun the temperature of the earth rises.
2) CO2 levels follow temperature.
3) As the earth increases distance from the sun the temperature drops and again, we see the CO2 level decrease and a corresponding ice volume increase.
4) CO2 has never prevented the earth from transitioning into an ice age.

AMERICAN OVERSIGHT

Conclusion

The Club of Rome admitted they made this up to control the population. They have the money, they have the power, they control the scientific studies and the media.

Does climate change exist? Yes, but not in the same context of political theater. The data does support the narrative that CO2 is a contributor to climate change. Yet again, It is misrepresented and twisted through a political lens. The data presented shows that CO2 is the consequence of temperature and not "CO2 is the sole driver of climate change. Again, the data generally shows that when global temperature rises, a higher concentration of water vapor exist in the atmosphere, stored CO2 is released from the oceans and CO2 assist in raising the global temperature. However, when the earth enters a different area in the orbital cycle we see global cooling, CO2 is sequestered in oceans and we fall into an ice age. Its shown in predictable cycles over 800,000 years. This can be seen in the graphs.

As a society we should stop focusing on CO2 and rather redirect our attention toward measured air pollutants such as VOC's that directly impact human health. No one wants dirty air or water.

AMERICAN OVERSIGHT

Back to The World Economic Forums Plan

Now that we have the climate and carbon hoax out of the way lets take a look at the plan. The only way a carbon credit based system could work is if there was a centralized system which everything was tied to since it must be tracked. Everything will be based on consumption and once you reach your allotment you will be punished. The social credit score must be tied to the carbon credit system or it will not work. There will be no reason not to go over your carbon credit limit. Remember, since you are contributing carbon to the world which you share with everyone else if you go over your limit you hurt the community. The punishment means a drop in your social credit score, fines and blacklisted from services. China is currently running the beta test for the world.

AMERICAN OVERSIGHT

The Social Credit Score

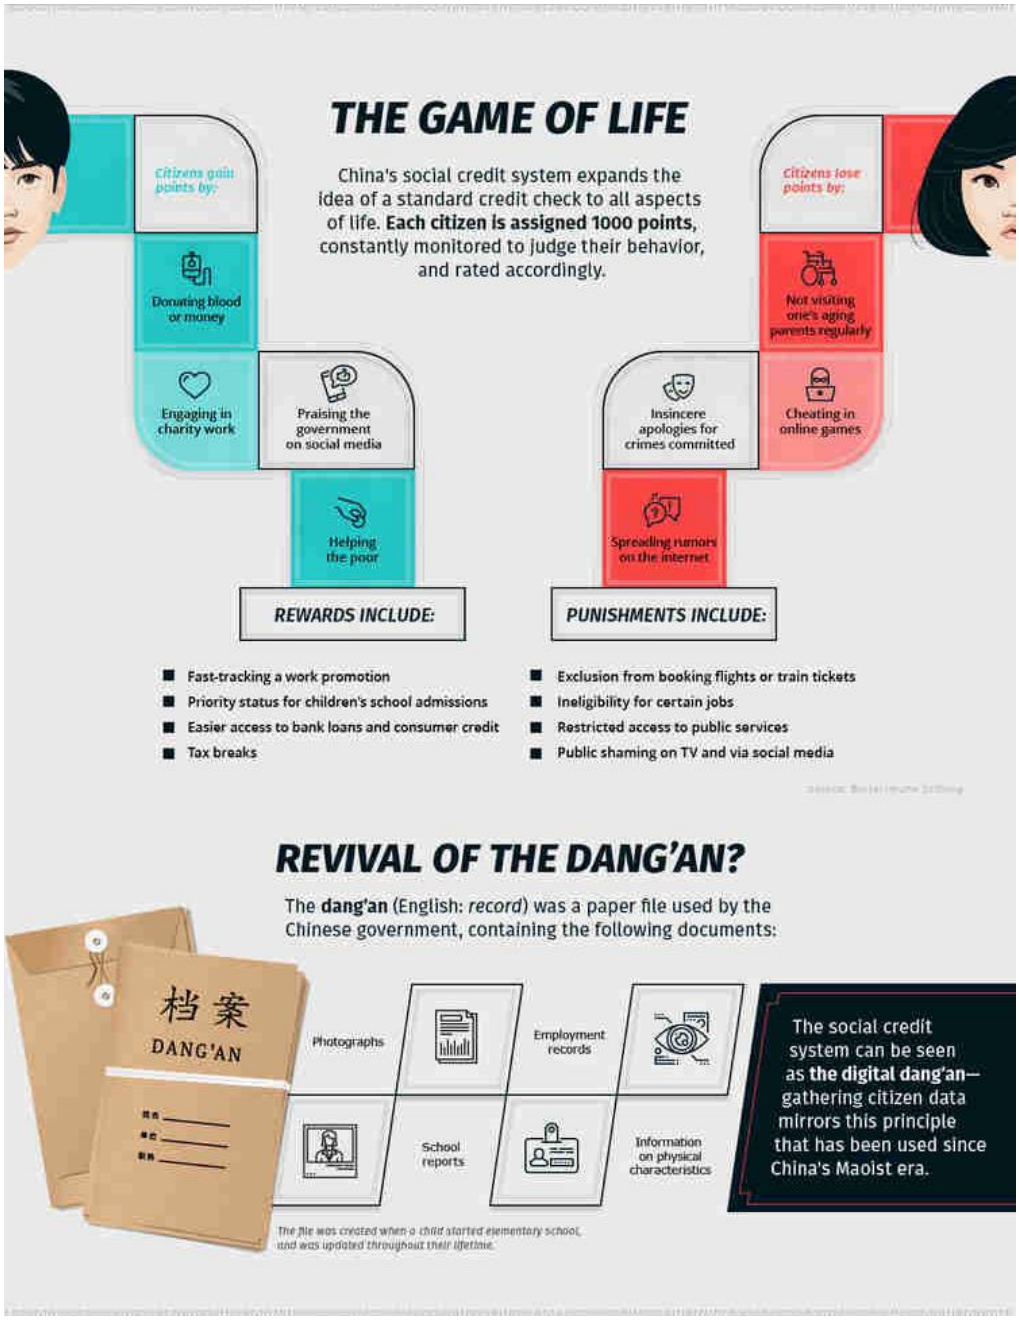
What is Chinas Social Credit Score System?

The Corporate SCS is currently a network of initiatives operated by state and private actors at the national and local levels, connected by shared data platforms and the common goal of regulating corporate behavior in China. The network's overarching structure consists of three components:

1) Data Aggregation
2) Evaluation
3) Joint System of Punishments and Rewards

U.S. Congressional Report can be Read HERE

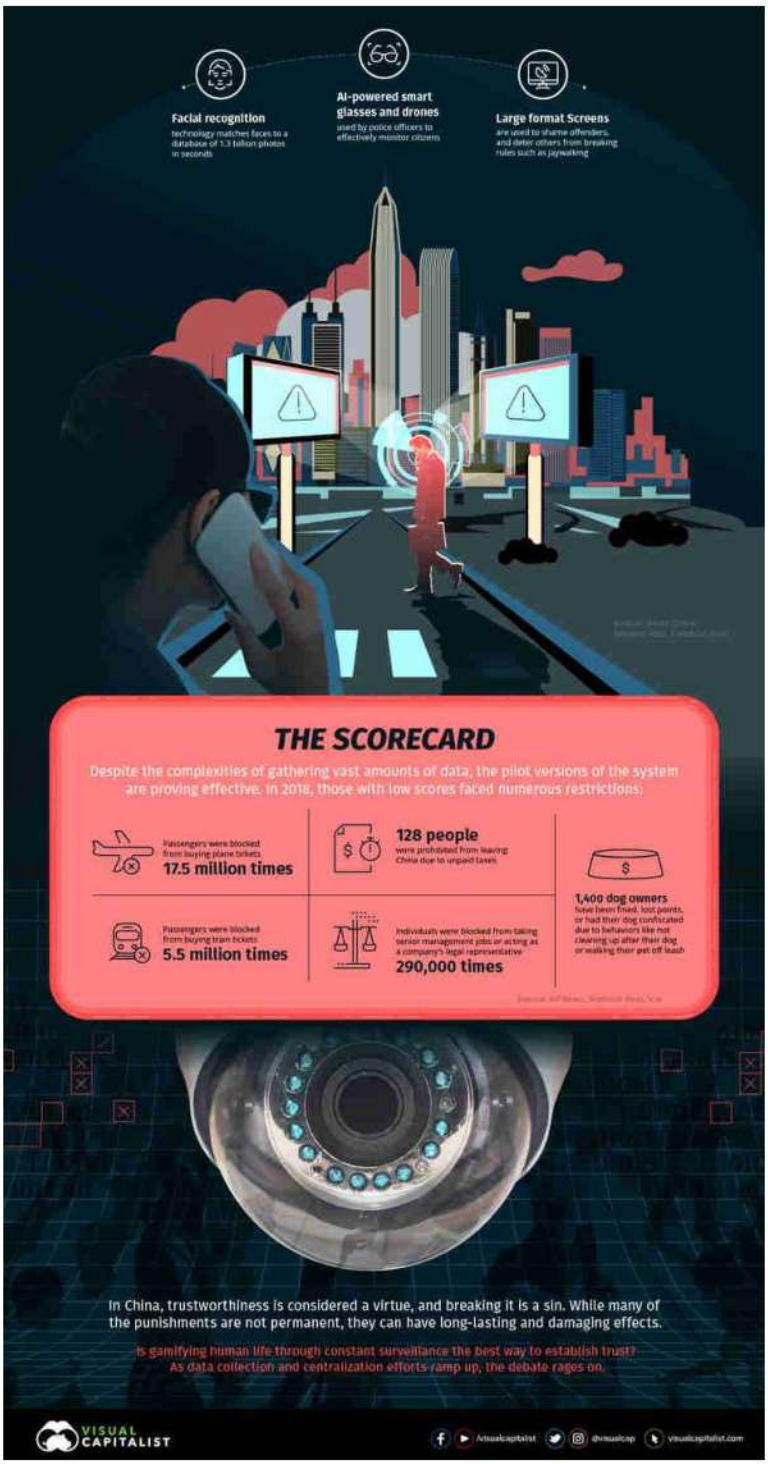
AMERICAN OVERSIGHT



Canada Acknowledges China's Social Credit System

China developed the Corporate Social Credit System (CSCS) to ensure corporate compliance and improve behavior of companies doing business in China. It is part of the People's Republic of China's plan to build a single, standardized reputation system for local and foreign firms alike. HERE

AMERICAN OVERSIGHT



As shown, if you speak out against the government or do anything deemed 'unacceptable' you will be blacklisted and denied job promotions, plane tickets and other services. The

AMERICAN OVERSIGHT

ultimate big brother. This also applies to bank accounts and the ability to participate in the economy.

The Hill on The U.S. Social Credit Score

The new domestic "War on Terror," kicked off by the riot on Jan. 6, has prompted several web giants to unveil predecessors to what effectively could become a soft social credit system by the end of this decade. Relying on an indirect hand from D.C., our social betters in corporate America will attempt to force the most profound changes our society has seen during the internet era. HERE

AMERICAN OVERSIGHT

How will this system be implemented?

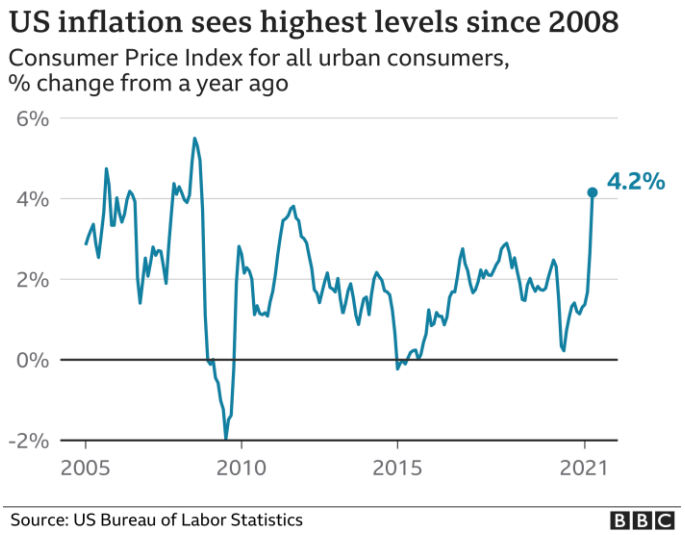
Lenin said to have declared that the best way to destroy the capitalist system was to debauch the currency.

The establishment of a central bank is 90% of communizing a nation. -Lenin

Crash the economy (Covid-19 Lockdowns)

Billionaire investor Ray Dalio — who founded the world's largest hedge fund, Bridgewater Associates — in a new interview warned that the stock market is a bubble "halfway" to the magnitude of those that triggered historic market crashes like the dot-com bust and the Great Depression. HERE

Inflate the Currency



Federal Crypto Currency

Proponents of FedNow and Fedcoin say the government must *create* a system for payments to deposit instantly, rather than encourage such systems in the private sector by lifting regulatory barriers. Once this happens everything purchased can be tracked and traced. This will be used for the social credit score system.

AMERICAN OVERSIGHT

As the World Economic Forum stated, America will not be the global super power or hold the reserve currency. They say this not because they can see the future but because they have a plan to bring America down. If they are going to establish a new world order of government, which they say they are, they can not have a free superpower contending with them. This is a new type of government lead by unelected multinational corporations. They can not allow America stay America they must fundamentally change it for their new government to work. Therefore we see a unified push for wokism across all platforms of media controlled by The World Economic Forum. Wokism is communism. Its psychological warfare meant to capture some and demoralize others.

The people that have fallen victim to the psychological warfare have become a member of the communist army. They are the bolshevik's that took over Russia during the red revolution but today we call them Black Lives Matter or Antifa. The play on words is a shield and a psychological warfare tactic to disarm the opposition to communism.

Black Lives Matter and Antifa are Communist organizations.

I am going to start with some background to give a 360 understanding.

AMERICAN OVERSIGHT

The Communist Revolution

The Weatherman were Communist revolutionary terrorist in the United States.

''The Weatherman statement called for formation of a broad-based revolutionary youth movement which will lend active support to black militants-a movement intended to evolve into a secret MarxistLeninist party of sufficient strength to defeat the United States Government by violent means~."

Launched in. 1969 as a para-military offshoot of SDS the Weather Underground first became activist" (under the name "Weatherman") in Chicago in October 1969, went from trashing, burning, and street fighting in Chicago to the group decision, (in Cleveland, Ohio) to kill police and violently attack military and industrial sites."

"Weatherman"-now known as the Weatherman Underground- is a revolutionary organization dedicated to the violent overthrow of established power in the United States through "armed struggle".

June 1963, a SDS document "America and the Now Era" criticized what it called the inadequacy (in areas of disarmament, social justice and racial equality) of the Kennedy "New Front" program, and urged the independent organization of "emerging in-surgent forces" (within the civil rights, peace and student movements).

SDS stressed need for political work on college campuses, calling for a "student power" strategy.

SDS alliance with the Black Panther Party (Click here to see how ANTIFA works with Black lives matter.)
"Weatherman" operations, is the so-called "Niagara Liberation Front" program in Buffalo, New York. Aimed primarily at minorities and especially at students with Puerto Rican backgrounds, the "Niagara Liberation Front Program for Action" was set forth in a 12-page brochure circulated from the "General Movement Work" headquarters of SDS in Buffalo. This pamphlet referred to the United States as "Amerika" and began on the first inside page: **"We are all outlaws in the eyes of amerika-all of your private properties target for your enemy and your enemy is we. We are obscene, low, dirty, dangerous, and angry. In order to survive, we steal, fight, lie, forge, f-, hide and deal."**

We will turn the high schools into training grounds for liberation.

We demand an end to all profit and private ownership of the workplace... Until we control our factories-All Power to the Saboteurs.

We will defend ourselves against law and order . . . We must abolish forces. **This means abolish police .**
Aggressive and prolonged guerrilla tactics could accomplish overthrow of the U.S. economic system. **As is what's going on today.**

AMERICAN OVERSIGHT

The Weatherman paper derived the conclusion that the element of basic importance was the black liberation movement with white radicals playing only a supportive and promotion role. This is whats going on today with BLM and ANTIFA. HERE

The Weatherman paper states: **"The goal is the destruction of U.S. imperialism and the achievement of a classless state: world communism.**

It is noteworthy that the "Weatherman" paper's enunciated philosophy rests on the Maoist theory of the world revolutionary process.

The necessity of killing police and self-instruction in the use of firearms and bombs were stressed.

Committed to overthrowing and destroying our stem of Government". "Since early 1970," he said "they ave been in an underground status from which they have claimed responsibility for bombings . **Remember that this organization began by protesting and eventually escalated to rioting and finally bombing.** This is important because the people involved with the Weather Underground were released on a technicality and never went to prison. They are now running antifa as I will show below.
Weather Underground FBI REPORTS: HERE

Take a mental note of the SDS and the Weather Underground coming out of the SDS. This will make a connection when we get to the Black Lives Matter Founder.

AMERICAN OVERSIGHT

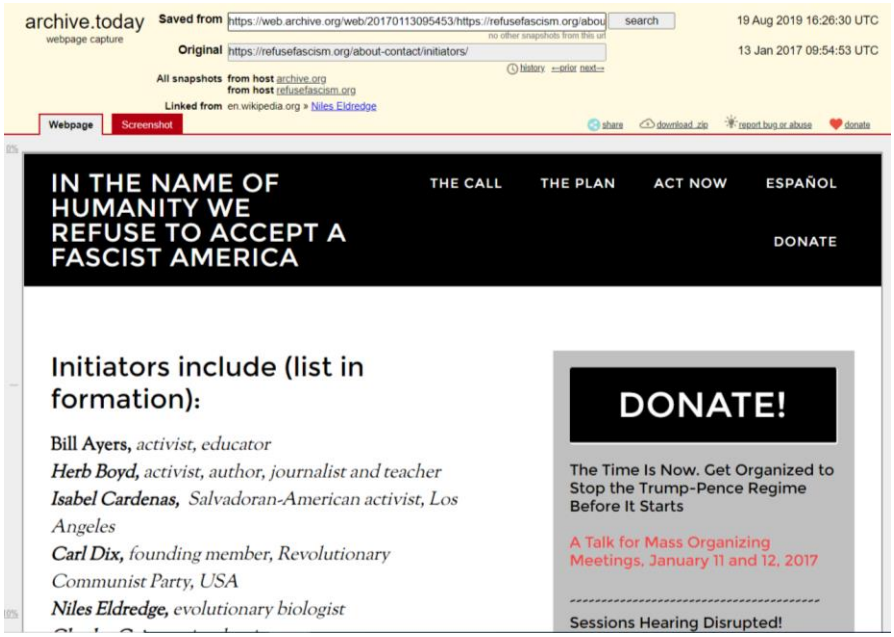
ANTIFA

ANTIFA is a compartmentalized movement made up of anarchist, anti-fascist, autonomous anti-capitalist and anti-colonial movements across so-called North America. The underlined portion was a quote taken from an ANTIFA **SITE**.

The Weather Underground and Bill Ayers.

In 1969, Ayers co-founded the Weather Underground, a self-described communist revolutionary group that sought to overthrow American imperialism.[2] The Weather Underground conducted a campaign of bombing public buildings (including police stations, the United States Capitol, and the Pentagon) during the 1960s and 1970s in response to U.S. involvement in the Vietnam War. HERE

Bill Ayers, Is now with Refuse Fascism an organization made up of communist and Marxist sympathizers.
Quote from Refuse Fascism
** **Refuse Fascism Has Joined with Every Major Protest:** We have participated in every major protest – and countless smaller protests – across this country since the Trump/Pence Regime has been in power, strengthening them and bringing in the demand to drive out the Trump/Pence Regime in the name of humanity.
This site has deleted Ayers association with Refuse Fascism but we have included a screenshot link Here.



AMERICAN OVERSIGHT

Who Funds ANTIFA?

This is difficult so a good starting point is Refuse Fascism since this appears to be the largest group and potentially a controlling arm of the movement. When an individual makes a donation to Refuse Fascism the money actually goes to a group called **World Can't Wait** (WCW) headquartered in the same location as Refuse Fascism. WCW is directed by Debra Sweet, a self-proclaimed communist.

Debra Sweet Twitter @DSweetWCW
Director of The World Can't Wait (@worldcantwait) atheist, revolutionary communist cause the world doesn't have to be this way. #RefuseFascistUSA

Who funds WCW as the front group for Refuse Fascism?

The Alliance For Global Justice (AFGJ) has, in-part, funded WCW based on their IRS 990
Quote: It is the mission of the Alliance for Global Justice to achieve social change and economic justice by helping to build a stronger more unified grassroots movement.

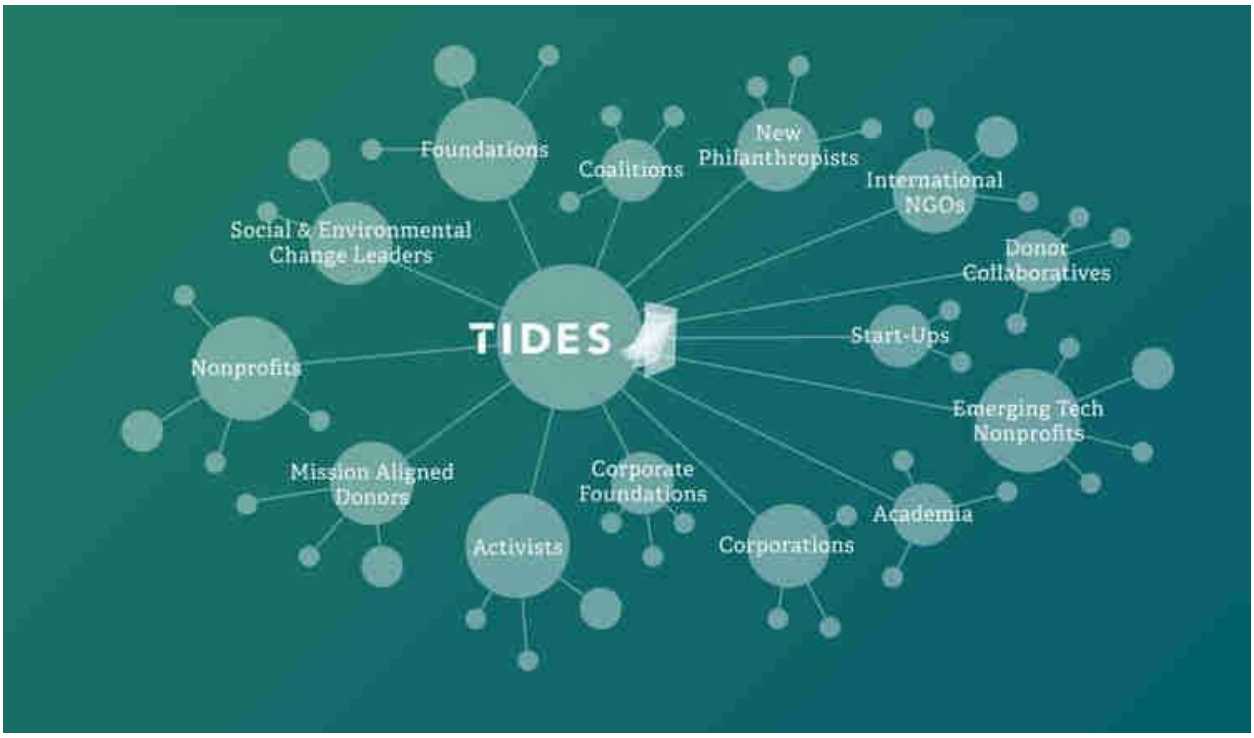
AFGJ is funded in-part by The Tides foundation, Ben & Jerry's Foundation, New World Foundation, New York University, and the NOVO Foundation. IRS 990

According to **NGO Monitor** The Alliance For Global Justice supports the following

Support for convicted terrorists: The website lists a number of "Political Prisoners" that AFGJ supports. The page lists convicted murders, as well as terrorists affiliated with Hamas, PFLP, Al-Qaeda, FARC, and other groups.

The Tides Foundation
Tides 990

AMERICAN OVERSIGHT



The graphic illustrates the complexity involved with NGO's, nonprofits, activist, corporate foundations, international NGO's, and movements. The Tides Foundation has developed relationships with hundreds of corporations, NGO's, academia, nonprofits, foundations and all of their partners are connected to other spider webs which supports one anthers foundational and agenda driven goals.
Quote: Tides Foundation made 3600 grants in the US and globally in 2017, representing $235.5M for social change.

AND this is just one organization...

If I wanted to donate 1 million dollars to Refuse Fascism off-record, I would donate directly to The Tides Foundation which would forward the funds to 5 other philanthropic groups, which donate to World Cant Wait, and finally to Refuse Fascism.

Who funds The Tides Foundation?. George Soros & his Open Society Foundations or OSF. (In-part) fund the Tides Foundation. This is important because George Soros is apart of The World Economic Forum and gives money to get woke politicians elected as covered earlier.

Donation Quote: The Tides Center for its support of forward-thinking activists and organizations.

AMERICAN OVERSIGHT

ANTIFA's Legal Arm

Who's Bailing Rioters out & Providing Legal Services?

National Bail Network

- National Bail Fund Network— *Available to assist with coordination and has centralized rapid response fund that redistributes based on need at local bail funds*
- The Bail Project— *Centralized national organization with regular bail posting in a number of individual cities, which may be providing protest support depending on city and bail amounts*

Total City Bail Networks - 107 (107 groups in 107 different cities are a part of the National Bail Network.)

Who Provides Legal Services to Rioters?

The National Lawyers Guild

"National Lawyers Guild, M4BL, and L4BL Partner to Provide Legal Support for Juneteenth Actions"
Posted on June 18, 2020
Quote: **FOR IMMEDIATE RELEASE** Contact: communications@nlg.org Following weeks of non-stop protests in all 50 states, the Movement for Black Lives (M4BL) is calling for a weekend of actions June 19-21 to honor the legacy of Juneteenth. **Hundreds of events are planned across the country**, and the **NLG is coordinating with M4BL and Law for Black Lives (L4BL) to provide legal** […] M4BL is black lives matter. **HERE**

This National Lawyers Guild is the same group that represents Black Lives Matter ,and in the past, the terrorist group The Weather Underground. HERE

Here's the NLG's National Network For a Total of 68 Chapters

Quote: The NLG has 100+ student chapters at law schools across the country! **HERE**

With this, we know that the Movement for Black Lives and Antifa has a national legal network of up to 220+ local and national legal support groups providing services to them for free.

Who Funds The NLG?

Tides, Borealis, & George Soros in part fund the National Lawyers Guild (NLG) which openly supports the Antifascist/BLM movement. Again George Soros funding.

AMERICAN OVERSIGHT

Quote from NLG: "The NLG **Mass Defense Program** is currently working across the country to protect the rights of those protesting the police killing of George Floyd and the broader pattern of ongoing racialized police violence. Our chapters and members are on the ground in dozens of cities right now supporting the right to dissent. Your donation will help provide legal support for political activists and movements for racial and economic justice."

NLG was funded over $500,000 (990) in 2018 by The **Tides Foundation**.

Quote from George Soros OSF partner doc: The Tides Center for its support of forward-thinking activists and organizations." HERE

Additionally, NLG has received funding from Borealis Philanthropy which is the same group that receives and allocates funds within the Movement For Black Lives Network. HERE

The Antifa/BLM Governmental Arm

The Justice & Public Safety Political Action Committee is a Super PAC founded and funded by George Soros.

Quote: "Since 2015, he has spent more than $17 million on district attorney and other local races in swing states such as Pennsylvania, Virginia, and Arizona, but also in large, predominantly left-of-center states such as California and New York. In 2016, Soros dropped $2,000,000 into a single sheriff race in Maricopa County, Arizona, helping progressive candidate Paul Penzone win the election with ease over longtime incumbent Joe Arpaio. He has given millions of dollars in grants to candidates in severalother counties as well." HERE
This is why the justice system is corrupt. Bad players with big money fund pupets to implement their agenda.

"Democratic mega-donor George Soros has directed his wealth into an under-the-radar 2016 campaign to advance one of the progressive movement's core goals — **reshaping the American justice system."**

The couple in St. Louis, Missouri that defended their homes from the BLM protest recently had a search warrant executed and their legal weapons confiscated by a George Soros funded Circuit Attorney **Kim Gardner**.

Quote: ST. LOUIS — Missouri Attorney General Eric Schmitt says St. Louis Circuit Attorney **Kim Gardner has not charged any of the people that St. Louis police officers have arrested during recent violent protests and, as a result, they've all been released. This is the policy that George Soros funds. If you protect yourself, you are charged with a crime. The criminals are allowed to go free,**

AMERICAN OVERSIGHT

Black Lives Matter (BLM)

Patrisse Cullors Co-Founder of BLM
1. Click HERE to listen to or view podcast transcript.
2. Click HERE to listen to or view podcast transcript.

Quotes from Patrisse Cullors:

- That's when I came across the Labor Community Strategy Center and the Bus Rider's Union, which is a local civil rights organization ran by an old-school organizer activist from the 60s, 70s, **Eric Mann. Remember the Weather Underground originated from the SDS.**
- **Quote from Eric Mann:** After my time in CORE, I joined **SDS**. I believed then as I do now in mass organizing. Click HERE to view
- **Back to Patrisse:** I spent eleven years there where I really learned my organizing ... was trained as an organizer, base builder, someone that transforms systems. I mean, really that organization gave me my foundation.
- Yes, Eric Mann. That's my mentor.

Quote from an ANTIFA SITE
"Organize mass demonstrations against them with allied groups who are willing to work with you. You can also join other demonstrations, such as Black Lives Matter"

The Movement for Black Lives

Not to be confused with Black lives matter, The Movement for Black Lives (MFBL) can be thought of as an umbrella organization that consists of a coalition of organizations across the nation, including Black Lives Matter. MFBL has a 5 year plan called "Black Power Rising 2024" which began in 2019.

Quote: We are anti-capitalist: We believe and understand that Black people will never achieve liberation under the current global racialized capitalist system. HERE

Who's Funding This Movement?

Lets start with where the money goes to be distributed.
Quote: The Black-Led Movement Fund [BLMF] grant making is guided by priorities set in alignment with the MFBL. Organizations receiving BLMF support center the leadership of Black women, girls, femmes, queer, and trans people, apply a Black, queer, and gender justice lens to their work, are focused on power-building in the South and Midwest, and play a core role in anchoring the MFBL ecosystem.

Who Manages, funds and allocates capital?

AMERICAN OVERSIGHT

Quote: Borealis Philanthropy is excited to announce the Black-led Movement Fund (BLMF) Spring 2017 grants. The BLMF supports organizations working to advance the vision of young, Black, queer, feminist, and immigrant leaders. In particular, the BLMF prioritizes funding organizations who are actively leading and anchoring the Movement for Black Lives.

Who Funds BLMF and Borealis Philanthropy?

Quote: Borealis Philanthropy says the goal is to "bring $100 million in new resources to the Movement for Black Lives."

Fiscal year 2020 The Ford Foundation has donated over $6,000,000 (HERE)
Fiscal Year 2019 The Ford Foundation donated over $5,000,000 (HERE)

The Open Society Foundation (George Soros) Partners. The following quote was taken from an Open Society Foundation doc and can be viewed HERE Again George Soros

Quote: "American private foundations such as the Ford Foundation, United Nations Foundation, the John D. and Catherine T. MacArthur Foundation, the Bill & Melinda Gates Foundation, the Rockefeller Foundation, and the Tides Foundation." HERE

At this point, 40 organizations have received funding from Borealis Philanthropy Black-Led Movement Fund [BLMF]

Patriss Cullors stated in the Democracy Now Podcast: **Quote-** "It Evolved into a global network and an organization with over 40 chapters worldwide." **HERE**

Borealis Philanthropy **Quote: "**If you are an individual seeking to support this important work, we encourage you to consider donating directly to the Movement for Black Lives Fund (MFBL Fund), one or more of our grantees, or other groups such as this list of Black-led racial justice organizations."

The list of Black-led racial justice organizations show affiliate organizations throughout the United States. **With this data, it looks like the United States is facing more than 100 Socialist/Communist/Marxist groups that openly advocate for the removal of the U.S. capitalist system and replace it with a S/C/M government. AND, this doesn't even include Antifa... HERE**

Quick review: The World Economic Forum controls news media, television providers, television networks, radio networks, social media, Google, and Youtube. They promote wokeness which is communism through all of their platforms. They shut down speech and ban you if do not go along with the approved narrative. They took One America News off Tv because they spread 'misinformation'. They donate millions of dollars to organizations that burn down American cities. And then they hire the lawyer to bail them out if they do not have a DA or judge installed there already. The founder of Black Lives matter said she

AMERICAN OVERSIGHT

was a Trained Marxist and The World Economic Forum say they want a fascist corporate new world government. George Soros the man funding the political and activist side is on video admitting he actively worked for the Nazis and has no remorse. **Is the picture clear yet? This is a planned corporate communist takeover of America and every other free standing nation.**

This is why burning buildings is peaceful and people walking through the capital is an insurrection. These groups are their investments and tools which all serve an independent purpose in their takeover. The communist have declared war on all free states and below is what happens historically if they succeed.

Quarantine Camps

I, Lance Himes, Interim Director of the Ohio Department of Health (ODH), pursuant to the authority granted to me in in R.C. 3701.04 to "[r]equire reports and make inspections and investigations that the director considers necessary"; R.C. 3701.13 to "make special orders…for preventing the spread of contagious or infectious diseases"; and R.C. 3701.14 to "investigate or make inquiry as to the cause of disease or illness, including contagious, infectious, epidemic, pandemic, or endemic conditions, and take prompt action to control and suppress it" **Order** the following to prevent the spread of COVID-19 within the state of Ohio:

1. Non-congregate sheltering be utilized throughout the state for those who are unable to safely self-quarantine in their place of residence and to isolate those diagnosed with or showing symptoms of COVID-19. Examples of the types of persons included in this order are those who test positive for COVID-19 who do not require hospitalization but need isolation (including those exiting from hospitals); those who have been exposed to COVID-19 who do not require hospitalization; and asymptomatic high-risk individuals needing social distancing as a precautionary measure. Sheltering specific populations in non-congregate shelters should be determined by a local public health official's direction or guidance and should be based on individual needs.

2. On March 20, 2020, the State of Ohio and FEMA entered into a FEMA/State Agreement applicable to the entire State of Ohio and authorizing applicants to apply for emergency protective measures including non-congregate sheltering.

Non-congregate sheltering means individual isolation.
Full Document HERE

CDC Community Isolation Centers

. Isolation shelters, or community isolation centers (CICs), can provide people with mild to moderate symptoms, who are not at increased risk for severe disease, with a safe space to voluntarily isolate until they are no longer considered infectious according to Ministry of Health guidelines. Guiding principles:

- Each community is unique, and CDC Country Offices, Ministries of Health, and partners may wish to consider local context, local health system capacity, and other factors which may preclude people being able to isolate safely at home.

AMERICAN OVERSIGHT

- **<u>CICs may be implemented at any time, regardless of the level of community transmission, based on guidance from public health officials, and may be scaled up or down as needed.</u>**
- While specific considerations may vary by country and location within a country, locating CICs close to the community they are intended to serve may facilitate support from patients' families and encourage use of these centers.

U.S. FEMA Camps

How will they get support to put people in camps?

They already have it.

Here's the TLDR from a Heartland Institute and Rasmussen Report survey. For Democratic voters:

- 55% support fines against those who choose not to get a COVID-19 vaccine.
- 59% support house arrest for the unvaccinated.
- **48% support fines or prison for questioning vaccine efficacy on social media, TV, or the radio or in online or digital publications.**
- **45% support temporarily confining the unvaccinated to "designated facilities" or internment camps.**
- 47% support government tracking of the unvaccinated.
- **29% support temporarily removing parents' custody of their children if parents refuse to take the COVID-19 vaccine.**

AMERICAN OVERSIGHT

COVID-19: Democratic Voters Support Harsh Measures Against Unvaccinated – Questions HERE

Poll HERE

The reason these camps are being built is because they believe they will be successful in taking over free countries. They have brainwashed 45% of democrat voters into believeing camps are a good option for the unvaccinated. But they still need more support, so how will they get others to support measures like this one?

They will create an even stronger division and threat through false flag opperations.

False Flag

A **false flag operation** is an act committed with the intent of disguising the actual source of responsibility and pinning blame on another party.

Operation Northwoods was a proposed false flag operation against American citizens that originated within the U.S. Department of Defense (DoD) and the Joint Chiefs of Staff (JCS) of the United States government in 1962. The proposals called for the Central Intelligence Agency (CIA) or other U.S. government operatives to both stage and commit acts of terrorism against American military and civilian targets, blaming them on the Cuban government, and using it to justify a war against Cuba. The possibilities detailed in the document included the possible assassination of Cuban immigrants, sinking boats of Cuban refugees on the high seas, hijacking planes to be shot down or given the appearance of being shot down, blowing up a U.S. ship, and orchestrating violent terrorism in U.S. cities. The proposals were rejected by President John F. Kennedy. Declassified Document HERE

Preprogramming

The media preprograms people weeks and even months prior to an event. This is done to control the narrative as the situation unfolds. Preprogramming individuals is as simple as giving them 'puzzle pieces' over time which gives them a predetermined conclusion.

AMERICAN OVERSIGHT

Below shows how they are building suspense and getting their voters ready for an event that they intend to carry out to bring in policy in that can remove anyone from society who questions government.

Far-right terror poses bigger threat to US than Islamist extremism post-9/11

Summary of Terrorism Threat to the U.S. Homeland

The United States remains in a heightened threat environment fueled by several factors, including an online environment filled with false or misleading narratives and conspiracy theories, and other forms of mis- dis- and mal-information (MDM) introduced and/or amplified by foreign and domestic threat actors. These threat actors seek to exacerbate societal friction to sow discord and undermine public trust in government institutions to encourage unrest, which could potentially inspire acts of violence. Mass casualty attacks and other acts of targeted violence conducted by lone offenders and small groups acting in furtherance of ideological beliefs and/or personal grievances pose an ongoing threat to the nation. While the conditions underlying the heightened threat landscape have not significantly changed over the last year, the convergence of the following factors has increased the volatility, unpredictability, and complexity of the threat environment: **(1)** the proliferation of false or misleading narratives, which sow discord or undermine public trust in U.S. government institutions; **(2)** continued calls for violence directed at U.S. critical infrastructure; soft targets and mass gatherings; faith-based institutions, such as churches, synagogues, and mosques; institutions of higher education; racial and religious minorities; government facilities and personnel, including law enforcement and the military; the media; and perceived ideological opponents; and **(3)** calls by foreign terrorist organizations for attacks on the United States based on recent events.

Anyone who disagrees with the government is now a terrorist. They have taken free speech online and now the government is taking the first amendment.

White House Definition of Terrorism

Under New Federal law, "domestic terrorism" is defined as "activities that involve acts dangerous to human life that are a violation of the criminal laws of the United States or of any State; appear to be intended to intimidate or coerce a civilian population, **to influence the policy of a government by intimidation** or coercion, or to affect the conduct of a government by mass destruction, assassination, or kidnapping; and occur primarily within the territorial jurisdiction of the United States."

The review was rooted in an expert assessment of the domestic terrorism threat provided by the intelligence and law enforcement communities. An unclassified summary of that assessment was released in March so the public could see the key findings. It found that the two most lethal elements of today's domestic terrorism threat are **(1) racially or ethnically motivated violent extremists who advocate for the superiority of the white race and (2) anti-government or anti-authority violent extremists, such as militia violent extremists.** HERE

AMERICAN OVERSIGHT

It is natural to man to indulge in the illusions of hope. We are apt to shut our eyes against a painful truth- and listen to the song of that siren, till she transforms us into beasts. Is this the part of wise men, engaged in a great and arduous struggle for liberty? Are we disposed to be of the number of those, who having eyes, see not, and having ears hear not, the things which so nearly concern their temporal salvation? For my part, whatever anguish of spirit it might cost, I am willing to know the whole truth; to know the worst, and the provide for it.

-Patric Henry 1775

All tyranny needs to gain a foothold is for people of good conscience to remain silent.
-Thomas Jefferson

"Necessity is the plea for every infringement of human freedom. It is the argument of tyrants; it is the creed of slaves."

– William Pitt (the Younger), Speech in the House of Commons, November 18, 1783

Single acts of tyranny may be ascribed to the accidental opinion of a day, but a series of oppressions, bugun at a distinguished period, and pursued unalterably through every change of ministers, too plainly prove a deliberate systematical plan of reducing us to slavery.

-Thomas Jefferson

Subject: The ONE thing

Apparently, an elaborate deception is being perpetrated: either during the 2020 election or by those who claim to be working to expose it.

Fortunately, the solution to either deception is the same: a trustworthy (bipartisan?) investigation into the allegations of irregularities in the election.

One such effort is to decertify our Wisconsin electors. Such a thing would not overturn the 2020 election of itself. But if it led to such an unprecedented event with other states finding the same abuse, and your mindset is that presidential elections cannot be overturned for any reason, then please answer this: Why is there the overturning of other elected office due to outcome-changing fraud or (in our day) hacking? Why require election records to be kept for 22 months if it is not to discover such interference in our elections in order to remedy them, at least for the future?

We certainly have a court case proving such irregularities in Antrim County, Michigan in the 2020 election - a case that could easily have been widely replicated. If it is not stopped, why would it not happen again?

Our democracy depends on the integrity of our elections going forward. No other item on your legislative agenda comes close, no matter your party.

Rep. Vos,

Thanks to you and your political showboating, the state of Wisconsin is a national laughingstock. The costly election investigation led by a buffoon. A set of electionlaw changes that would make the Founding Fathers roll over in their graves. And now a crazy GOP legislator running for governor withsupport from the cartoonish Pillow Guy.

Check out the recent coverage of our state:

https://morningshots.thebulwark.com/p/how-wisconsins-gop-is-losing-its

https://www.rollingstone.com/politics/politics-features/trump-wisconsin-eastman-election-decertification-1295191/

I am a lifelong resident of Wisconsin--I grew up in Waukesha, and now I live in Egg Harbor. It's time for you to fix the mess you've made. Stop wasting taxpayer money on the Gableman investigation fiasco, stop bowing to a former president who is acting like a child, and start working in a bipartisan and serious manner to build our state. Wisconsin voters, including the former Republicans in my household, are tired of the GOP's ridiculous behavior.

AMERICAN OVERSIGHT

From: Jerry Fannin <trkrjer@gmail.com>
Sent: Friday, February 18, 2022, 7:49 PM
To: Political Robin Vos <rep.vos@legis.wisconsin.gov>

Little man, It's time to yank the leash on your mad dog, Gableman. The guy is completely incompetent, even compared to any of you right wing radicals. Stop wasting our time and taxpayer dollars. Stop undermining our free and fair elections! Jerry Fannin Hortonville, Wi.

AMERICAN OVERSIGHT

From: Jeff Zbinovec <jzmotox@gmail.com>
Sent: Thursday, March 3, 2022, 7:29 AM
To: Rep.Vos@legis.wisconsin.gov

Decertify the 2020 election like Judge Gableman has suggested. It is your duty sir or are you taking orders from Paul Ryan your puppet master?

AMERICAN OVERSIGHT

From: "Brooks, Rob" <Rep.Rob.Brooks@legis.wisconsin.gov>

Subject: URGENT!!! Please sign on as cosponsors for 2021 Assembly Joint Resolution 120 to Reclaim and Set aside Wisconsin Electors

---

Dear Rep. Vos and fellow members of the Assembly in Wisconsin,

Please decertify and set aside your electors as mentioned in 2021 AJR 120.. Does your state have election briberylaws? If so, did any of you personallyreceive money from Zuckerbuck or his group in the 2020 election? If so, what civil liability may you face for not acting to correct the crimes committedin your state? Please don'tlet Rep. Vos and Rep. Steineke pull you and the whole legislature into prison for breaking your laws.

Please show some courage and move now to decertify your electors. Americans are watching as well as citizens of your State of Wisconsin. Which side of history will you be remembered? As those who upheld the laws of your state or those who broke them.

Thanks for your kind consideration of this request.

Sincerely yours,

John F. Newman

> We in America are watching you in Wisconsin. Please join as cosponsors of AJR 120 to decertify and set aside your electors.
>
> It is unbelievable that Rep. Vos and Steineke wouldgo against all the Wisconsin laws which have been broken (at least 9) and the irrefutable evidence presented in this resolution. I wouldlike to continue to encourage you and your fellow representatives to joinin cosponsoring this bill.
>
> How a leader like Rep. Vos and Rep. Steineke could knowingly break so many Wisconsin laws is beyond belief. If a person observes a law being broken and has the power to correct it but

AMERICAN OVERSIGHT

does not, it seems that that person is guilty of sharingin the crimecommitted as much as anyone who is an accessory to the crime.

Hopefully you will find enough members to join with you in moving this bill out of the Rules Committee where it has been placed by Rep. Vos to try and kill it. Otherwise those of us outside your state will have to assume that you and other members are either collective cowards, compromised or complacent in the crimes listed in 2021 AJR 120.

Thanks again for giving your support of 2021 AJR 120. Americans are standing with those of you who cosponsor 2021 AJR 120 as you seek to correct the problems from the 2020 election.

Thanks for your kind consideration!

Sincerely yours,

John F. Newman

Text from 2021 Assembly Joint Resolution 120:

LRB-5792/1
MPG:amn&wlj
2021 - 2022 LEGISLATURE
2021 ASSEMBLY JOINT RESOLUTION 120
January 25, 2022 - Introduced by RepresentativeRamthun. Referred to Committee on Rules.

Relating to: Wisconsin election reform and reclaiming the electoral ballots for President and Vice President that were certified under fraudulent intent and purpose.

Whereas, the Center for Tech and Civic Life (CTCL) enabled the illegal use of over 500 voter drop boxes in Wisconsin, infringing Wis. Stat. § 6.87 (6), in all 72 counties under Elections Commission guidance issued on August 19, 2020, and the use of drop boxes was organized by the Cybersecurity and Infrastructure Security Agency (CISA), which worked in conjunction with other national organizations like the CTCL, Center for Election Innovation and Research (CEIR), and National Conference of State Legislatures (NCSL), which, on October 2, 2020, promoted CISA's campaign of illegal drop boxes; and

Whereas, the Wisconsin Supreme Court stated in *Trump v. Biden*, 2020 WI 91, "On March 25, 2020, the Dane and Milwaukee County Clerks issued guidance on Facebook suggesting all voters could declare themselves indefinitely confined because of the pandemic and the governor's then-existing Safer-at-Home Order.

This court unanimously deemed that advice incorrect on March 31, 2020, and we noted that the WEC guidance . . . provides the clarification on the purpose and proper use of the indefinitely confined status that is required at this time," which verifies that the Elections Commission gave improper guidance in the 2020 election, and in her dissent in *Trump v. Biden*, Wisconsin Supreme Court Justice Rebecca Grassl Bradley revealed that the Elections Commission infringed Wis. Stat. §§ 5.05 (1), 6.84 (1) and (2), 6.86, 6.87 (3), (4), (5), (6), (7), and (9), and 227.112 (3); and

AMERICAN OVERSIGHT

Whereas, on December 7, 2020, Elections Commissioner Dean Knudson filed a complaint against Meagan Wolfe under Wis. Stat. § 7.70 (5) for the rushed ascertainment of certification of the 2020 election before time for filing an appeal of the recount had passed, and revealed the planned haste to circumvent any further discussion or objection; and

Whereas, the Assembly Committee on Campaigns and Elections has collected nearly 3,000 documents and e-mails with connection to election manipulations by the CTCL in five of Wisconsin's largest cities, and there are five lawsuits in those cities against the Elections Commission; and

Whereas, data experts have studied the historical voter trends based on population growth for both the entirety of the State of Wisconsin and its counties individually, and those studies reveal the normal inverse relationship of data was not present in the 2020 election results, which is a statistical impossibility; and

Whereas, the WisVote database reflects 7.1 million registered voters in a state with a population of 5.8 million and a voting age population of 4.5 million, and the WisVote database is riddled with incomplete and misrepresented data, including thousands of voters with the same phone numbers, addresses, and faulty zip codes, all of which reflects gross negligence in maintaining the database; and

---

Whereas, grassroots canvassing efforts reveal 200 addresses in 31 counties in Wisconsin that have 200 to 400 registered voters at a single address, and a sampling of 1,000 actual 2020 absentee ballot envelopes from Milwaukee County found 23 percent had questionable addresses; and

Whereas, the Elections Commission voted to do upgrades on Dominion voting machines on June 2, 2021, and, following a press release on August 11, 2021, voicing concerns about the deletion of log file data from those upgrades, the commission voted to allow upgrades to new ES&S voting machines on September 9, 2021, with no reassurances of protecting the data of the 2020 election on older machines, even though it was revealed the upgrades do erase log file data kept on the machine hard drives; and

Whereas, the audit report of the nonpartisan Legislative Audit Bureau identified 44,272 voters who did not provide proper voter identification in the 2020 general election, revealed the mass increase of indefinitely confined voters from 4,505 in 2019 to 169,901 in 2020, revealed that 28.7 percent of all municipal clerks across all 72 counties used illegal drop boxes, and made 30 recommendations for the Elections Commission to rectify their actions; and

Whereas, a total of 50 of the 69 county GOP parties released letters of support or resolutions asking for further investigation into the elections process, showing

AMERICAN OVERSIGHT

that over two-thirds of Wisconsin Republicans have no faith in the Elections Commission; and

Whereas, commissioners and staff of the Elections Commission prevented the deployment of special voting deputies to care facilities, as confirmed by the Racine County Sheriff's Department, which found that on March 12, 2020, the Elections Commission knowingly and willfully directed all 72 county clerks to violate Wis.

Stat. §§ 6.84 and 6.875 regarding absentee voting in certain residential care facilities and retirement homes, and the commission's unlawful direction clearly broke Wis. Stat. § 12.13 (2) (b) 7., which refers to intentionally violating election laws; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Jeff O'Donnell, who found a multitude of irregularities when he analyzed data from the Wisconsin voter rolls, including that 93.7 percent of active voters participated in the 2020 general election, 205,355 voter registration applications were dated November 3, 2020, 957,977 individuals registered as new voters in 2020, 45,665 voters who registered did not have matching Division of Motor Vehicle records, 22 percent of active voters registered in the 6 months leading up to November, 3, 2020, 31,872 of those voters who registered in that 6-month period are now listed as inactive, and 42,000 voters who voted in the November 3, 2020, election are now listed as inactive; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Dr. Douglas Frank, who revealed that patterns in the Wisconsin voter rolls showed that the voter rolls were inflated to the maximum possible number of voters according to census population data for every presidential election in Wisconsin since 2008 and that the voter rolls were purged shortly after each such election, and that these patterns were consistent across all 72 counties in Wisconsin, revealing that these activities were centrally controlled; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from Attorney Erick Kaardal, who identified that the money provided by the CTCL and Mark Zuckerberg to local governments in Wisconsin relating to the 2020 general election violated Wis. Stat.

---

§ 12.11, which prohibits election bribery and states that "`anything of value' includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1," and that amount was greatly exceeded; and

AMERICAN OVERSIGHT

Whereas, at the Growing Threats to Election Officials in Wisconsin Press Conference held on December 13, 2021, it was revealed that the CEIR is a biased organization that also received funding from Mark Zuckerberg, along with the CTCL, and that the CEIR is seeking to provide pro bono defense attorneys to election officials who used the CTCL money in the 2020 general election; and

Whereas, on January 13, 2022, Waukesha County Circuit Court Judge Michael Bohren issued an oral ruling in court holding that the Elections Commission's guidance on absentee ballot drop boxes should have been promulgated as a rule under Wis. Stat. ch. 227; that state law provides just two legal methods for a voter to return an absentee ballot: through the mail or in-person at the municipal clerk's office or an alternate site designated according to law; and that ballot harvesting and returning absentee ballots to drop boxes are not legal methods to cast absentee ballots in Wisconsin; and

Whereas, the U.S. Supreme Court has found that fraud vitiates and nullifies any contract:*Boyce's Executors v. Grundy*(1830) 28 U.S. 210; “Fraud vitiates the most solemn contracts, documents and even judgments.”*United States v. Throckmorton*(1878) 98 U.S. 61, 64; and

Whereas, the November 2020 Wisconsin general election, as regulated and directed by the Elections Commission, was one of the most haphazard, controversial, and poorly managed elections in state history, shaking citizens' confidence in fair elections across Wisconsin, and with the culmination of these evidences, prove the

---

results of the commission's certification of the 2020 election are considered fraudulent; now, therefore, be it

Resolved by theassembly, thesenateconcurring, Thatthe accumulated evidence proves the actions taken by the Elections Commission to certify the 2020 presidential election shall be considered contrary to law and fraudulent under Wis. Stat. §§ 6.84, 6.87 (6), 6.875, 12.11, and 12.13 (2) (b) 7.; and, be it further

Resolved, Thatthe Wisconsin Legislature, pursuant to its authority under Article II, Section 1, Clause 2 of the U.S. Constitution and 3 U.S.C. § 2, and consistent with guidance provided by the Constitutional Counsel Group in a memorandum dated December 30, 2021, acknowledges that illegality took place in conducting the 2020 general election and reclaims Wisconsin's 10 fraudulent electoral ballots cast for Joseph R. Biden and Kamala Harris; and, be it further

Resolved, Thatthe Wisconsin Legislature shall pass legislation with the intention to clean up the WisVote database and create separate servers for active and inactive voters; and, be it further

AMERICAN OVERSIGHT

Resolved, That the Wisconsin Legislature supports a full forensic physical and cyber audit of the 2020 general election, that this full forensic physical and cyber audit should be conducted by an independent and nonpartisan auditing firm with a scope statement approved by the Assembly Committee on Campaigns and Elections, and that this full forensic physical and cyber audit must include the following components:

1. Total examination of voting system machines, including browsers, tabulators, scanners, routers and firewalls, switches, network and out-of-band management cards, internet or network connectivity, network and remote access, remote access applications, software installed or removed on the system, flash

---

drives, thumb drives, event logs, scripts that have been run, the date on which data were last modified and what data were modified, whether during or after the election, systems and security updates, password policies, multifactor authentication, databases, adjudication records, administrator accounts, and log-in records.

2. Kinematic artifact detection of all physical paper ballots, including whether ballots meet industry maximum allowable compliance for out-of-calibration measurements, ballot thickness to prevent bleed through, types of markers used, printed ballots, quantity of ballots, ballot trail, voter roll in comparison to ballots, mail-in ballot standards, and ballot watermarks and dot coding.

3. Physical canvas, including whether county clerks and election employees and volunteers followed election rules and regulations mandated by their county.

4. Transparency; and, be it further

Resolved, That in order to ensure transparency, all such audits shall be streamed live for public viewing and recorded via security video to be run 24 hours a day, 7 days a week, until all such audits are complete; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation specifically intended to secure the integrity of future elections in Wisconsin based on the findings of the Legislative Audit Bureau investigation, the Assembly Committee on Campaigns and Elections investigation, and the full forensic physical and cyber audit; and, be it further

Resolved, That the secretary of state of the State of Wisconsin is hereby directed to forward a proper authenticated copy of this resolution to the President of the Senate of the United States.

AMERICAN OVERSIGHT

A Resolution From the Republican Party of Langlade County

Whereas Robin Vos's unprofessional, spiteful, unethical, and oppressive behavior and leadership style is incompatible with and no longer welcome in his position as leader of our State Assembly.

And whereas Vos has flip-flopped on every issue and strategy related to the investigation of the fraud and cheating in the November 3rd, 2020 election and has failed to order a full cyber forensic audit despite over 50 County Party resolutions calling or one.

And whereas Vos has interfered with and not allowed the Assembly Committee on Campaigns and Elections and Chairperson Janel Brandtjen to effectively complete it's task of investigating the election.

And whereas Vos has not been forth-right with his relationship, contract status, reporting status, and has been inconsistent in supporting Michael Gableman's investigation, including a non-disclosure agreement in the contract that requires Gableman to only report his findings to Vos, and hiring and funding Gableman without the approval of the full Assembly.

And whereas Vos, in a retaliatory action against Representative Tim Ramthun, Vos re-assigned his only full time staff member to another Representative, effectively crippling Ramthun's efforts to reclaim our 10 Electoral votes.

And whereas the Wisconsin Assembly, in it's authority to nominate and vote Representative Vos into his current position, the Assembly has the authority to remove him, and now, when the Speaker is not performing his duties in a manor that equally supports every member of the Assembly, the Assembly has the duty, and responsibility to take action now to remove and replace the Speaker with a qualified leader.

And whereas the Center for Tech and Civic Life (CTCL) enabled the illegal use of over 500 voter drop boxes in Wisconsin, infringing Wis. Stat. ss6.87(6), in all 72 counties under Wisconsin Elections Commission (WEC) guidance issued on August 19, 2020, and the use of drop boxes was organized by the Cybersecurity and Infrastructure Agency (CISA), which worked in conjunction with other national organizations like the CTCL, Center for Election Innovation and Research (CEIR), and National Conference of State Legislatures (NCSL), which, on October 2, 2020, promoted CISA's campaign of illegal drop boxes.

And whereas outside actors had access to WisVote data and used access to voter data to build a system to watch votes as they came in real time, and the Assembly Committee on Campaigns and Elections collected nearly 3,000 documents and e-mails with connection to election manipulations by the CTCL in the Wisconsin "5" cities, and there are five lawsuits in those cities against the WEC.

And whereas existing election laws - the "manner" chosen by the Legislature - were illegally altered or ignored in the 2020 general election as Wis. Stat. ss6.84, 6.87(6), 6.86, 6.875, and 12.11 were some of the laws that were violated.

AMERICAN OVERSIGHT

And whereas the U.S. Supreme Court has found that fraud vitiates and nullifies any contract: Boyce's Executors v. Grundy (1830) 28 U.S. 210; "Fraud vitiates the most solemn contracts, documents and even judgements", United States v. Throckmorton (1878) 98 U.S. 61, 64.

And whereas state legislatures, which exercise plenary authority under Article II of the United States Constitution to direct the manner for choosing presidential electors, do have the authority to de-certify the election of the presidential electors in their state upon a definitive showing of illegality and/or fraud in the conduct of the election sufficient to have altered the results of the election.

And whereas the Legislative Reference Bureau (LRB) memo and the Legislative Council memo do NOT acknowledge the illegality that took place in the 2020 general election specific to Wisconsin, and recent developments reveal that there are connections to illegal drop boxes and the head of the Legislative Council, and is the same person who issued a memo to Senator Bernier saying it wasn't possible to reclaim, and shortly after the LRB did the same.

And whereas an outside the "Madison Bubble" prospective was needed from constitutional attorneys, and so a Constitutional Counsel Group of John Eastman, Karen Mueller, Matt Deperno, Rob Natelson, James Renwick Manship, Boris Epshteyn and Josh Barnett were consulted by Rep. Ramthun, and all agree the "Madison Bubble's" LAB, LRB and Leg Council narrative are incorrect.

And whereas We the People have no confidence in our elections, and is evidenced by over fifty county GOP parties supporting further investigation into the elections process, as there is above and beyond enough evidence to show the elections process in Wisconsin is broken and that confidence needs to be restored,

Now Therefore be it Resolved that the Republican Party of Langlade County, with unanimous consent of it's Executive Committee, and a loud cheer of approval from it's membership, demands the immediate resignation of Robin Vos from his position as Speaker of the Wisconsin Assembly. And

Be it further resolved that if Vos refuses to resign, we challenge the members of the Wisconsin Assembly to take a vote of "No Confidence" and immediately remove him from his position. And

Be it further resolved that Representative Ramthun's full time staff person immediately be reinstated to his position in Ramthun's office. And

Be it finally resolved that we demand the Wisconsin Legislature, pursuant to its authority under Article II, Section 1, Clause 2 of the U.S. Constitution and the opinion of Constitutionality provided by the Constitutional Counsel Group, acknowledge that illegality took place in conducting the 2020 general election and reclaim Wisconsin's 10 fraudulent electoral ballots cast for Joseph R. Biden and Kamala Harris.

Approved unanimously be Executive Committee on January 27th, 2022
Terry Brand Chairman Len Boltz Vice Chairman RPLC

---

Sheboygan County Caucus report:

They had 114 people in attendance. All but one person voted in favor of a resolution to admonish and demand Vos resign from the speaker position immediately. It was a vote of no confidence. The only nay was Rep. Katsma (R-Oostburg). He said in front of everyone that he supported Vos, thought he was a brilliant strategist, blah blah blah. Needless to say it was not received well.

LeMahieu also got a cold shoulder. He had to ask people to clap. Few responded.

Kleefisch also got a cold response too.

AMERICAN OVERSIGHT

WHY

Vos's unprofessional, spiteful, unethical, and oppressive behavior is incompatible with his position as leader of our State Assembly. For years now he has ruled over the members of the Republican members of the Wisconsin Assembly using fear, favoritism, and funding as his main tools. Fear of being buried on certain committees. Using favoritism in rewarding those that bow down to his demands. And using campaign funding to reward those that follow in his footsteps and the fear of withholding funding for those that don't. This is not the atmosphere that the people we elect should be subjected to when they arrive in Madison to serve us in our State Assembly. We, the citizens and taxpayers of Wisconsin elect 99 Representatives to the Assembly. Each and everyone of them deserves the opportunity to represent us in the way we expect. With the exception of those in Vos's district, none of us has ever voted for him. Why then is he allowed to behave like a dictator over the people we elected? It's time to move onto new leadership.

Vos has been a flip flopper on the 2020 election and the investigation to find the truth since November 4th, 2020. The combination of his lack of action and the actions he has taken show his lack of conviction to find the truth. In fact, his actions suggest he is protecting someone and maybe even himself by not being totally committed to finding the truth and then allowing the truth to determine any next steps as a result. The one thing he has done consistently is deny there is any evidence of widespread voter fraud. How does he know? What does he define widespread?

Vos's relationship with Assembly on campaigns and elections committee Chairperson Janel Brandtjen. He has downplayed her efforts, stepped in front of her efforts, and interfered with her efforts from the day in January or 2021 that he first appointed to the position. He has placed limits on her investigation in his efforts to stall any progress in finding the truth. He has been a never Trumper since the day the former President came down the escalator. So it is obvious the 2020 election turned out just the way Vos wanted. Why would he be committed to finding the truth?

AMERICAN OVERSIGHT

Vos's relationship and arrangements with Justice Michael Gableman. If you really were interested in finding the truth, Why would you wait over seven months after the 2020 election to name an investigator? Then not fund the investigation for another three months and delay the investigation even longer? Because Vos doesn't want the truth to be found or exposed. He has jerked the entire state around since November 4 of 2020 in his effort to slow walk any and all investigation to all arrive late to the September 2022 deadline of finish line when all the evidence and ballots from 2020 can legally be destroyed.

And the most obvious reason of all that Vos has a conflict of interest when serving in the role of Assembly Speaker is his relationship with Assembly Representative Tim Ramthun. His outrageous and ruthless treatment of Ramthun is particularly disturbing and this type of sophomoric behavior cannot be condoned, nor tolerated. Representative Ramthun has been belittled, berated, and insulted by the Speaker, in front of his peers in the Assembly multiple times. Vos has worked to ostracize and alienate Ramthun from his fellow Assembly members. In addition Robin Vos has made a point to squash any efforts to find fraud or even discuss the possibility of recalling Wisconsin's 10 Electorial votes. The Speaker has stated multiple times that there was no widespread voting fraud in Wisconsin despite overwhelming evidence to the contrary. He has stated that there is no path forward for recalling our election, which is highly disputed by many constitutional attorneys including John Eastman, Boris Epshteyn, Karen Mueller, Matt DePerno and others.

Now, in an effort to force his will on one of his own Assemblyman he has stripped Rep. Ramthun of his only full time staff member. This will undoubtedly cause a totally avoidable and unnecessary burden on Rep. Ramthun as punishment for non compliance. His obvious denial of voter fraud, obstruction of a transparent cyber forensic audit, and his Non disclosure agreement with former Supreme Court Justice Michael Gableman are all problematic and cause for his removal. Robin Vos has been ruling the Assembly as a tyrant that holds Committee positions and funding for campaign reelection over the heads of his members for far too many years. A "Stalin Type" leadership approach is not good for our Assembly and certainly not good for Wisconsin. The time for change is now.

AMERICAN OVERSIGHT

Per the US Constitution.
Article. II. Section. 1.
Each State shall appoint, in such Manner as the Legislature therefore may direct, Direct it's electors.

The State Legislature has plenary (absolute) power over elections.

The inconsistency of Robin Vos

The mission of our Vos and our State Legislature should have always been to find the truth of what happen in the November 2020 election here in Wisconsin. With no predetermined limits on what can or can't be done prior to the completion of all the investigations.

Robin Vos, as well as others in the State Legislature have been inconsistent in both their messages and actions related to finding or ignoring the truth. With Vos in the leadership position, it's been very difficult for any other members of the Assembly or Senate to do anything different from what Vos wanted. An enormous amount of courage would be needed and it's apparent the courage is in short supply. Thank you to Representatives Janel Brandtjen and Tim Ramthun for having and displaying a boat load of courage. Shame on those that stood by idly and watch them get abused by Vos and his followers.

Vos has provided wishy washy leadership by flip flopping on the issues and investigations from November 4th 2020 on through to today.

The first thing he failed to do was to recognize a problem and develop an immediate plan on how to best deal with it. Maybe it wasn't a problem for him. When he act interested, he failed to ever define the rules. The Liberals and their public relations department, the mainstream media, right away and have forever since stated that there was no evidence of widespread voter fraud. What does that mean? Vos never challenged this statement and never made them define widespread. Vos never pushed back on the liberals and mainstream media, in fact he often agreed with them saying there might

AMERICAN OVERSIGHT

have been some problems but nothing to the extent that would ever change anything.

One of our largest problems is the weakness within, which Vos is the leader of. We think we have a majority in both the Assembly and the Senate. Technically we do with a majority of people with R's next to their names. However it's not quite that simple. We all know that the R's wear Red jerseys and the D's wear blue jerseys. The problem is with have a lot of people that are wearing pink instead of red.

The Flips and Flops of Robin Vos

FLIP Names Janel Brandjten chair of the campaigns and election committee, responsible for investigating the 2020 election.

FLOP Won't give her subpoena power to investigate the people her committee needs to for the investigation.

FLIP Vos announces he's already doing a forensic audit and that he has three investigators working on it.

FLOP We find out it never happened and the investigators either quit or never got started.

FLIP After being ripped on in social media by Trump in late June of 2021, names Justice Michael Gableman special counsel for the investigation.

FLOP Doesn't fund Gableman's investigation until August.

FLIP Vos announces the Assembly has funded the Gableman investigation to the tune of $680,000.00

FLOP The Assembly never voted on funding this, Leadership did.

FLIP Promises Trump during a meeting on Trump's plane that Vos is all in on a complete investigation.

AMERICAN OVERSIGHT

FLOP Vos includes a Non-Disclosure agreement in his contract with Gableman so all reports from the investigation go through the filter of Vos before being released to the public.

The Halderman Report

Original article. If you are interested in the security of our elections, you have probably heard of the Halderman Report. You can learn what that is all about in this article. For a quick overview, watch the video and enjoy the Left's schizophrenia.

BYPATRICK BYRNEOCTOBER 17, 2021,25 SHARES

AMERICAN OVERSIGHT

Curling v. Raffensperger and the Halderman MacGuffin

Federal Judge Amy Totenberg with sister Nina Totenberg (of NPR) and their Stradivarius

Dr. Alex Halderman is a Professor of Computer Science and Engineering and Director of the Center for Computer Security and Society at the University of Michigan. He is, in short, a Professor of Dolphin-Speech, with focus on hacking. Halderman is no fan of Donald Trump, and from his public statements I would surmise that his politics are normal academic Lefty, but*intellectually honest*normal academic Lefty. Professor Halderman becomes a key part of our story now, because Professor Halderman was commissioned to perform a professional analysis of Dominion Voting cybersecurity and cyber-integrity, or lack thereof. His 25,000 word monograph on the subject may turn out to be the MacGuffin of this pivotal moment in American history.

Here is how that came to be:

1. In August 2017 Georgia politicians (Democrat and Republican) filed a federal lawsuit against Georgia Secretary of State Raffensperger on the grounds that use of Direct Electronic Voting systems (aka “DREs” aka “voting machines”) violated their Fourteenth Amendment rights to due process and equal protection. The case is*Curling v. Raffensperger*.
2. That case moved through the Courts until in March 2020, the federal district judge then deciding that they were correct and that Georgia had to get rid of its machines.
3. In that process a Michigan professor of cybersecurity, Alex Halderman, who has been leading the study of voting machines for over a decade, was commissioned by the court to inspect a new Dominion machine. He wrote a 25,000 word report on the subject. For reasons that will be explained below that report has yet to see the light of day with the public, but I think it safe to say that the findings he expresses match the excerpts of Congressional testimony shown in the video below.

AMERICAN OVERSIGHT

4. Weeks before the November 2020 election, Federal Judge Amy Totenberg wrote a decision that indicated profound mistrust of the voting systems and a desire to get rid of them, but found it was too late to unplug them for the November 2020 election then only weeks away. Judge Totenberg sealed every scrap of information she could about the case, including Professor Halderman's monograph.
5. Whatever is in that report is so important that on September 21, 2021 (just over three weeks ago) Halderman moved the court for permission to break the protective order on his findings, that he might get them to DHS-CISA. He makes clear in his submission to the court that the vulnerabilities he found could easily be used by domestic or foreign actors to rig an election on these machines, and that there are 16 states at risk, and that it is a matter of national security.
    - Haldermanstates"these are not theoretical problems but rather specificflaws in [Dominion] software" and his "prepared to demonstrate proof-of-concept malware that can … steal votes." (paragraph 2)
    - Dominion is ignoring the flaws he has identified and there are"verylikely equally othercriticalflaws that are yet to be discovered." (paragraphs 3-4)
    - This is an"urgent"matter ofnational security and"nefarious actors" may be preparing to"exploit"these flaws inupcoming elections (paragraph 8)
    - Professor Halderman carefully avoids saying anything about November 2020, but submitted emails to show he is communicating with CISA and that they stand ready to work with, taking the vulnerabilities he found so that they might be patched before the next election (which in many states occurs in November 202***1***).
6. ***Judge Amy Totenberg has refused to let Professor Halderman provide his report to DHS-CISA***. Instead, she said, DHS must write her a letter directly asking for the report (which everyone knows will never happen), and then she will consider it.

Lest the enormity of that slip past the reader, let me tease it out again. Our nation's leading professor on the cybervulnerabilities of voting systems is saying in a report (as he says publicly in the video below) that Dominion's machines are compromised.***Because there is an election two weeks from now***he wants to warn, not the affected states themselves, but warn simply our federal government about the hacks he has found and which we must assume the Russians, Chinese, North Koreans, and everyone else has found), so that their DHS-CISA has the information to do its job. But he is not allowed to give that information to the US Government because he is blocked by a federal judge named Amy Totenberg (sister of NPR Nina Totenberg).

If only there were a pattern….

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Explosive Discovery On Dominion Voting Machines

PS I would think any state Attorney General trying to get to the bottom of election*meshugus*might do well by subpoenaing that report from Georgia, or from Professor Halderman himself.

PPS I cannot let this moment pass without celebrating the schizophrenia this is inducing in the Left. The Daily Beast recent reporting shows they understand the seriousness of the issue, but struggle to reconcile that with their NPC-programming. They wish to take positions simultaneously that:

- this is an extremely serious problem for our society;
- we all know there was no election fraud affecting the November 2020 election because, well, we all already know it.

NATIONAL SECURITY:

Judge Seals Report on Voting Machine Vulnerability'ATTORNEYS' EYES ONLY'

A judge in a Georgia election security lawsuit is working to tamp down voting machine conspiracy theories. But sealing a court file could stoke the controversy even more.

Jose Pagliery – Political Investigations Reporter

Shannon Vavra – National Security Reporter

Published Aug. 13, 2021 4:28AM ET

It's the kind of report that could be weaponized by those looking to cast doubt on U.S. election results: a cybersecurity analysis that found flaws in Georgia's voting machines and warns about the potential for future attacks. But a federal judge has sealed the report, and her attempt to shield the public from bad faith efforts to undermine the 2020 election could instead fuel the conspiracy theory dumpster fires—and keep the voting machine maker from figuring out how to fix it.

The 25,000-word report, commissioned by election integrity groups, does not touch on the 2020 results at all. But the report—authored by a University of Michigan computer science professor who has testified numerous times on Capitol Hill about U.S. election security, J. Alex Halderman—claims that

AMERICAN OVERSIGHT

Georgia's ballot marking devices (BMDs) "suffer from specific, highly exploitable vulnerabilities that allow attackers to change votes despite the state's purported defenses," all by
using malware.

In a public court document, Halderman urged that his report be shared with Georgia election officials and the voting machine manufacturer to "address the vulnerabilities it describes before attackers exploit them." Halderman wrote his report after he was given 12 weeks of access to an unused Dominion ICX voting machine, according to court documents.

Several sources who spoke on the condition of anonymity told The Daily Beast that the secret report makes two points: hacking these specific ballot marking devices is easier than previously believed, and Georgia does not have a process in place to catch it if it ever happens. "Georgia voters face an extreme risk that [ballot marking device]-based attacks could manipulate their individual votes and alter election outcomes," Halderman wrote in a signed declaration on Aug. 2.

While Halderman's claims are unverified, don't address the 2020 election, and provide no evidence that anyone has taken advantage of the alleged vulnerabilities, their mere existence will likely be enough for many "Stop the Steal" advocates who believe the 2020 results were illegitimate despite no evidence of widespread voter fraud.

Which is perhaps why U.S. District Court Judge Amy Totenberg made the report a "confidential document."

At a recent hearing, Totenberg sealed the report, citing a strong reluctance to draw any public scrutiny to the sensitive details in the case. Totenberg would not even allow an election integrity group to openly advocate for disclosure of the report, according to a transcript of a July 26 court hearing obtained by The Daily Beast. Instead, the judge asked that any such argument be filed in secret under seal. "There are so many other ways to educate the public besides trying to use this case," Totenberg warned on the call. "I'm at the end of my rope about that."

AMERICAN OVERSIGHT

> Totenberg decided to limit circulation of the report, opting to keep it to "attorneys' eyes only"—and away from engineers at Dominion itself— out of a concern that exposing it to company employees would make it "subject to disclosure in other litigation." "I'm concerned enough about the information contained in it… I have seen how this can blow up," Totenberg said, according to the transcript.
>
> That decision could stoke conspiracy theorists, but experts in the rightwing media ecosystem were also concerned that any information about potential issues with voting machines might be exploited. Sam Jackson, an assistant professor who teaches about online extremism at the University at Albany, told The Daily Beast that the mere existence of this story could fuel conspiracy theories. "I would not be surprised to see some far-right media outlets run very inflammatory headlines that are deliberate misreadings of this piece," he said.
>
> Matt Gertz, a senior fellow at Media Matters for America, which scrutinizes right-leaning media, expects the "very well-developed conspiracy theory network" built in recent years on social media and alternative TV stations like Newsmax and One America News Network to wrongfully use the existence of the report to "undermine the validity of elections in the minds of conservatives."
>
> "They will use anything they can to fan the flames of these conspiracy theories," Gertz said.

Got it?

Editors note: If you are having trouble following the logic, here it is. Halderman's report shows that hacking these machines is easy, so "Georgia voters face an extreme risk that [ballot marking device]-based attacks could manipulate their individual votes and alter election outcomes." And Georgia will not catch it if it happens. The same is true of 16 other states using these systems. That is highly concerning. Unless a Republican says the same thing, in which case it is a conspiracy theory. So when the judge suppresses the best information our country has about an issue of national self-determination, it is not actually suppression, it is "stopping a conspiracy theory". Because a Republican said it. And the*real*problem with letting citizens know that votes can be manipulated and election outcomes altered… is that conservatives might use that knowledge to "undermine the validity of elections in the minds of conservatives" (though why an election in which votes are manipulated and outcomes altered has "validity" is considered something so obvious the*Daily Beast*need not address it).

AMERICAN OVERSIGHT

Is this starting to seem strange to anyone else?

Cc: "election.complaints@legis.wi.gov" <election.complaints@legis.wi.gov>
Subject: Vote Fraud

Dear Rep. Vos,

I am writing to you in an effort to encourage Gabelman to look into the possibility of cyber manipulation of totals as part of his investigation into tampering during the November 2020election.

As youare well aware, totals have shifted in the early morning hours afterthe last two elections just enoughto give Democrats Eversand Biden victories in Wisconsin. We are told that this is because of absentee ballot totals andMilwaukee totals coming in late. Suspicion arises,however,due to a wide area Internet outage that we experienced during the early morning hours of November 4, 2020. We use CenturyLink as our Internet provider. The system stopped working between one ortwo in the morning,and service was not restored until that evening about 7 PM. I wonder if CenturyLink's Internet systemdetectedtampering in Internet networksand automatically shut down.When I called CenturyLink to inquire about the reason for the outage on November 4, I was told that it had nothing to do with the election, but they could give no reason.Interestingly enough, the only other outage that I am aware of regarding our CenturyLinkInternet service being interruptedoccurred the afternoon of the January 6, 2021 insurrection on the Capitol.

If cyberballot tampering Is happening, I do not know how there will be an honest statewide election in Wisconsin again. If absentee ballots had a deadline and we're totaledbefore election day,that would take away one reason that totals couldshift from one party to the other during that 1 AM hourfollowing the election.

Thank you for considering,

Bobbi Hahn

RE: Voter Fraud via Dominion Voting Machines in Shawano County

I do believe that most of you reading this are fundamentally "good" people.

Voter Fraud in Shawano County

I am writing to inform each of you, as elected officials, and remind you of your Oath to Protect and Defend the Constitution against all enemies, foreign and domestic. Our nation is at war right now; it is a silent war, a digital/cyber war.

Nearly EVERY county in Wisconsin flipped votes. Shawano County flipped 1,872 votes originally for President Trump to Biden (Read: https://thebiglie.frankspeech.com/WISCONSIN/index.html). The idea was that no one would notice because Shawano is a red county anyway… but if all 72 counties flipped 1800 votes, then what does that look like in the end game? How does this fraud impact the entire Republic of the United States?

I was made aware that Shawano County had authorized the purchase of new voting machines from Dominion/Central Command. The county clerk, Ms. Pam Schmidt has been very helpful in my informal investigation. She has stated many times that none of Shawano County voting machines are plugged into the internet. Although this may outwardly appear true, according to the voting machine manufacture's own user manual, all their machines have wireless capability. This means the machine (s) do NOT have to be plugged into the internet; anyone with wireless capability and the knowledge could potentially hack into each one of these machines to modify the vote. These are NOT secure machines and are intentionally made this way.

In the trouble-shooting manual from the manufacturer (ImageCast and/or Sequoia), Dominion Voting Systems, it shows one of the most common errors of the machines that clerks and voting officials may encounter is that the machines may occasionally "tabulate more ballots than voters who came in to physically vote." I asked Ms. Schmidt how often this voting error/irregularity has happened in Shawano County and her response was, "just once that I am aware, and the company's technicians were called to fix it." Who conducted the security/background check on these individuals? Were they escorted and supervised by Shawano County Police, Deputies, or Tribal Police?

AMERICAN OVERSIGHT

After further investigation, I was told Shawano County first purchased voting machines in/or for 2006 voting cycle, which potentially means voting integrity has been compromised in Shawano County (and the state of Wisconsin) since 2006.

From the user's guide sent via link from Clerk's Office:

Election Day Common Issues ImageCast Evolution (ICE):

ICE shows more ballots cast than voters that have checked in.

Solution: Discuss with the Chief Election Judge. The counter displays all ballots cast.

Error Message - Any error during Standard Voting will manifest itself with the message "An unexpected error condition occurred. Please call an authorized person" displayed on the LCD Touchscreen.

Solution: Place your black Security Key on the receptacle to display the precise error condition and call Command Central with that information.

Please do not proceed any further as it's important to see the messaging that appears.

According to the Wisconsin's Election Commission's 2020 database, (https://elections.wi.gov/elections-voting/voting-equipment/voting-equipment-use) Shawano County voting districts used the Sequoia Voting Machines, which Dominion is also the parent company. A voting security assessment was done on these sequoia voting machines that found numerous irregularities and recommended further use of these voting machines would jeopardize the Wisconsin Vote.

I encourage you to click on the link below to watch a very short, two-minute, overview from Dinesh D'Souza, who collected and analyzed another method of voter fraud prevalent in Wisconsin. Two thousand people, AKA "mules", were hired to intentionally stuff ballot boxes in Wisconsin and other states. Each mule was required to document the number of ballots they stuffed, the location of the boxes they stuffed, and to get paid per ballot stuffed, the mule had to photograph themselves in front of each of the ballot boxes. Each mule's cell phone was then "pinged" with cell phone geo-tracking to determine WHO did this activity. Then this information was compared to phone records, photographs, and other material to identify all 2000 criminals. This was a sting operation.

https://2000mules.com/

https://absoluteproofdocumentary.com/

https://electionfraud20.org/seth-keshel-reports/

I strongly recommend all of you take action to STOP this purchase of illegal voting machines immediately, collect them from all county voting districts, and turn them over to the independent forensic audit teams.

Representative Ramthun has found a legal and Constitutional solution to the 2020 election, however, we are doomed to repeat history in 2022 because WE have not FIXED what was wrong in the last election by implementing the following NOW: NO voting machines or software, In-person

AMERICAN OVERSIGHT

voting only, absentee only authorized for our military or those who are temporarily confined and cognizant to vote, paper ballots with watermarks, Voting Day is sacred and should be a day off so everyone has the opportunity to do their duty and vote, and hand count on the DAY of the vote.

Our local media, owned by CBS, must be held accountable for misrepresenting the Truth and fired; this should be a public service that is unbiased and active in investigative reporting and community information.

Voter fraud is nothing new to our Great Nation, or Wisconsin. Voter fraud through the U.S. Postal Service has happened since George Washington's time, and voter fraud is not new to Wisconsin. The biggest question is why cheat on the vote? Who benefits? How much did each of these mules receive for stuffing the ballot boxes? How many voting officials received bribes or benefits to fabricate ballots, move ballots from one state to another, to shirk their responsibilities to clean and verify voter records annually? How many of these elected officials are legitimate? How many are selected for certain positions of authority to cover up other criminal activities to include child/human/sex/drug trafficking operations? How many people in Shawano County have received death threats, or have been intimidated, or have been blackmailed to favor certain events/activities/to turn a blind eye, or other nefarious activities? Why? Who benefits?

All checks and balances have failed the American People, Wisconsinites, All Tribal Peoples, Shawano County men and women. Therefore, it is a military operation until We the People can self-educate, re-establish our Committees of Safety and Common Law to prove to God Almighty that we are capable of self-government again.

Authority

Declaration of Independence:

Preamble: "We hold these truths to be self–evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed. When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

United States Constitution

Article IV Section 4: The United States shall guarantee to every state in this union a republican form of government

Bill of Rights

The Conventions of a number of the States, having at the time of their adopting the Constitution, expressed a desire, in order to prevent misconstruction or abuse of its powers, that further declaratory and restrictive clauses should be added: And as extending the ground of public confidence in the Government, will best ensure the beneficent ends of its institution.

POSITIVE LAW (Blacks Law)

AMERICAN OVERSIGHT

Law actually and specifically enacted or adopted by proper authority for the government of an organized jural society

Again, I do believe that most of you reading this are fundamentally "good" people. I have provided you with enough information that you can do your own research to determine the Truth and make your own decision.

Failure to correct a wrong may result in charges and arrest:

-https://www.youtube.com/watch?v=jyD9NZHBeSY Clerk gets arrested, under multiple investigations for voter fraud and other charges.

-The Racine County Sheriff conducted his own forensic audit (one of many independent forensic audits), and found much voter fraud: subpoenas were issued, and we have witnessed a system-wide judicial and political failure to protect and defend the Constitution. Those elected to protect and defend our free men, women, and children are now the ones hurting us because of greed. It is because all the systems that were put in place to protect are now the same systems that are filled with criminals and criminal activity, fraud, theft, crimes against humanity.

Failure to act in your sworn-by-Oath public office to right the wrongs may result in any or all the following, at a minimum:

• Misconduct in Public Office in violation of Wis. Stat. § 946.12(2) (Felony)
• Election Fraud – Election Official Assisting with Violations in violation of Wis. Stat. § 12.13(2)(b)7 (Felony)
• Party to the Crime of Election Fraud – Receive Ballot Non-Election Official in violation of Wis. Stat. § 12.13(3)(n) (Misdemeanor)
• Party to the Crime of Election Fraud – Illegal Ballot Receipt in violation of Wis. Stat. § 12.13(3)(p) (Misdemeanor)
• Party to the Crime of Election Fraud – Solicit Assistance in violation of Wis. Stat. § 12.13(3)(s) (Misdemeanor)

Please familiarize yourselves with Executive Order 13848: Imposing Certain Sanctions in the Event of Foreign Interference in a United States Election. Once you fathom the magnitude of this and the shipping containers that are jamming up our ports, causing a supply line shortage, a consideration would be who do these ships belong to? Do they belong to any of the 7+ countries that interfered with our voting systems since 2006, when Dominion Voting Systems first came to the United States? Who benefits from a rigged voting system?

The term "**foreign interference**" means "any covert, fraudulent, deceptive, or unlawful actions or attempted actions of a foreign government, or of any person acting as an agent of or on behalf of a foreign government, undertaken with the purpose or effect of influencing, undermining confidence in, or altering the result or reported result of, the election, or undermining public confidence in election processes or institutions." EO 13848 § 8(f).

The term "**election infrastructure**" means "information and communications technology and systems used by or on behalf of the Federal Government or a state or local government in managing the election process, including voter registration databases, voting machines, voting

AMERICAN OVERSIGHT

tabulation equipment, and equipment for the secure transmission of election results." EO 13848 § 8(d).

The term "**infrastructure of, or pertaining to, a political organization, campaign, or candidate**" similarly refers to the information and communications technology and systems used by or on behalf of, or closely associated with, a political organization, campaign, or candidate.

The term "**security**" refers to protecting information and information systems from unauthorized access, use, disclosure, and disruption.

The term "**integrity**" refers to protecting against unauthorized modification or destruction of information.

Conclusion

Voting machines are not secure, which has led to voter distrust of our elected officials and how our tax-payer dollars are being spent at all levels of government.

We no longer have Government by Consent.

Our county government and many other organizations in Shawano County have become Incorporated and no longer represent the sovereign men, women, and children of Shawano County.

The "corporations" are managed by a company named Maximus Incorporated, which money-launders our hard-earned, tax-payer dollars for nefarious and criminal activities that must end NOW.

The community solution:

We end this complete usurpation of our County by abolishing all of it and starting over with our Shawano County Committee of Safety. Our Committee of Safety is already Chartered, and we want to maintain a peaceful transfer of government for the people, by the people and maintain law and order.

Any of you who still honor your Oath of Office are encouraged to support and join our Committee of Safety as Jurists, attend our meetings, and once self-educated (via NationalLibertyAlliance.org), we can vote and form our Common Law Committees to take back our judicial and our political systems from the tyrants. This can be done very orderly and peacefully, preferably under the Constitutionally-sound Sheriff.

AMERICAN OVERSIGHT

Each County Board seat is already poised to become a Jurist for your area as we move from Maritime/Statutory/Luciferian Law back to Law of the Land/Constitutional/Common Law/Laws of Nature/Divine/God's Law.

Dear Ms. Retzlaff,

AMERICAN OVERSIGHT

Thank you for contacting me. I greatly appreciate hearing from you on these important issues.

Vaccine Mandate

On September 9, 2021, President Biden announced a six-part plan to combat the coronavirus pandemic. One of these parts is a COVID-19 vaccine mandate on virtually all health care workers and tens of millions of workers at private companies. The Supreme Court recognized that the president did not have the authority to extend the eviction moratorium in July unilaterally. Now, the president is once again testing the limits of his authority by taking the unprecedented action of imposing sweeping health mandates on private employers. This decision is a gross abuse of federal power that will crush the small businesses already struggling from the labor shortage this administration has helped sustain. Presidential authorities are not limitless, and I believe it's well past time for Congress to act and reclaim its Article I authorities to ensure no president even flirts with this kind of idea again.

President Biden has also asked large entertainment venues to require attendees to provide proof of COVID-19 vaccination or a negative COVID-19 test. I do not believe any person should be vaccinated against their will, nor should a vaccine be required to participate in the activities of normal society. You may be interested to know that I introduced H.R. 3672, the No Vax Pass Act, on June 14, 2021. The No Vax Pass Act would ensure taxpayer dollars do not contribute to state and local governments developing systems that would allow businesses or governments to verify proof of vaccination against COVID-19 as a condition of receiving goods and services.

President Biden's Tax Plan

As you may know, President Biden formally announced his infrastructure proposal on March 31, 2021. Of the total $2.25 trillion the president wants to spend through this plan, only about 6% is actual transportation. Instead, the plan dedicates hundreds of billions of dollars to things utterly unrelated to infrastructure, such as public housing, job training, child care facilities, and home care services. Further, the proposal would spend billions on electric vehicles rather than repairing and modernizing our roads, bridges, ports, waterways, and airports. President Biden plans to fund this massive spending package with a multi-trillion dollar tax hike that raises the corporate tax rate from 21 to 28 percent. Combined with state taxes, the United States would drag back to having the highest combined corporate tax rate in the developed world.

AMERICAN OVERSIGHT

Additionally, this proposal would increase the tax rate of one million small businesses filing as C-corporations by 33%. This tax plan would hurt middle-class Americans and have a devastating impact on our economy. In fact, according to the Tax Foundation, Biden's corporate rate increase alone would eliminate 159,000 jobs and reduce wages by 0.7 percent. This proposal is simply unacceptable at a time when American businesses are still in the midst of recovery from the Coronavirus pandemic.

Our infrastructure system is the largest and most complex globally, requiring billions to maintain and upgrade. Like you, I want to modernize our nation's infrastructure to meet the demands of 21st-century travel. As a House Transportation and Infrastructure member, I hope to work with my colleagues on both sides of the aisle to put forward a serious proposal to rebuild and restore our nation's roads, bridges, ports, waterways, and airports. In addition, as you may know, I have introduced legislation that allows logging trucks to drive on highways rather than neighborhood roads, creates programs to combat distracted driving, and promotes the U.S. Coast Guard's icebreaking mission in the Great Lakes. These proposals will make our streets safer, lead to few emissions, and ensure the Great Lakes' waterways remain a rich source of national commerce.

President Eisenhower's forward-thinking investment in the National Interstate Highway System has paid enormous economic dividends for generations. Just as Congress and the Executive branch came together to establish a comprehensive infrastructure plan for our nation, it is incumbent upon the federal government to do so now.

Immigration

Immigration reform is one of the most significant policy issues facing our nation today. Unfortunately, given that this issue is so emotionally charged, it can make it challenging to find common ground. In the words of Thomas Jefferson, "Immigration, therefore, must be approached carefully and cautiously." America has always been a beacon of hope to the world, and since so many people want to enter our country, we have a right and duty to be selective in determining who enters the nation. While I greatly value the role of immigrants in America, I also greatly value the rule of law and believe that those who seek to come to our nation must play by the rules.

That is why I have introduced several pieces of legislation that would better secure America's borders, combat corruption and instability in Mexico, and reduce the backlog in America's immigration courts. First, the Empowering Immigration Courts Act would give immigration judges the authority to impose criminal fines on anyone in contempt of their court. Existing law allows the Attorney General to define regulations to impose fines, but none had been put in place since the law's enactment 22 years ago. Additionally, the Illicit

AMERICAN OVERSIGHT

Arms Trafficking Security Enforcement Act would establish a Border Enforcement Security Team (BEST) within the Department of Homeland Security to focus solely on reducing arms trafficking. Finally, supporting Mexico Against Corruption (SMAC) Act would combat corruption by requiring the president to impose Magnitsky Sanctions on individuals in the Mexican government that the U.S. Treasury Department has "credible evidence" engaged in corrupt activities outlined by the Global Magnitsky Act. Under the SMAC Act, the president would have 120 days to implement these sanctions.

During my Marine Corps service, I was temporarily stationed on the U.S./Mexico border while working on assignment for the Drug Enforcement Administration. I have seen first-hand the damage that drugs and human trafficking have caused to American border towns. Many immigrants who come to this country illegally are consistently exploited for the personal gains of the drug cartels who control many of the illegal border crossings. It is vital to America's national security and international human rights that our borders are adequately secured.

Abortion

I am proudly Pro-Life and committed to protecting the most vulnerable among us: the unborn. My firm dedication to life has been shaped by my faith, life experience, and upbringing. I come from a large family of obstetricians with profound reverence for the miracle of life. Seeing their work for the wellbeing of women and the unborn from a young age helped guide my views on this issue. As a member of the House Pro-Life Caucus, I will continue to promote life, protect the unborn, and foster a culture that values life.

Once again, thank you for contacting me on these important issues. Please don't hesitate to contact me on any other topic in the weeks ahead. I value your thoughts and believe the respectful exchange of ideas is important in representative government.

Sincerely,

AMERICAN OVERSIGHT

"Rep.Vos@legis.wisconsin.gov" <Rep.Vos@legis.wisconsin.gov>
Subject: Voter Integrity / 2020 Election

Dear Rep Vos & Senator LeMahieu –

1. I am writing to let you know that the public KNOWS the 2020 Presidential Election was wrought with fraud, illegal activities, and should be pulled down and the fraud corrected by counting only "legal votes.

2. FYI we also know YOU are blocking investigation & prosecuting the fraud.

To be clear we know there was:

- There was CLEARLY interference with Wisconsin Election System by outside groups & individuals that allowed the opportunity for fraudulent ballots to cast.
- Fake Ballots Were Cast From Nursing Homes – **the fact that prosecutors in Racine or other parts of the state will not pick up the case does not mean that we don't know what was done!!!**
- At Minimum 200K Illegal Mail In Ballots Were Cast By People Who DID NOT HAVE THE LEGAL RIGHT to vote by mail – THE BALLOT APPLICATIONS COULD NOT LEGALLY BE CONVERTED TO VOTES!!! Yet they were counted.
- Your Wisconsin Election Commission is VERY CLEARLY corrupt – we know it, everyone knows it …. And they should be prosecuted for their lack of fidelity to their office and any violations of law ….. not protected by you or prosecutors who simply refuse to do the job they swore to do.

We are asking you to do the following:

- Support Judge Gableman's investigation
- Support investigation & prosecution of anyone who participated in violating election law
- Assist in getting these election issues into court
- Change Wisconsin law so that this can never happen again
- AND IF fraud is proven we insist that the fraud be corrected by fixing the vote and giving Wisconsin's Electoral College votes to the rightful winner.

It is my highest hope that you get fully behind identifying the fraud in 2020 & fixing our elections system – our country has become a lawless "banana republic" and we must fix it now.

AMERICAN OVERSIGHT

IF you will not support getting to the bottom of the 2020 fraud and continue to block investigation into the wrong doing; then I feel confident that the people of Wisconsin will pass judgement on you and replace you with real leaders at the next election. People are completely done with leaders and institutions that refuse to do their jobs or carry out their intended function for society.

Sincerely,

Glenn Hatfield

Subject: voting

After voting in the 2020 election, I consider it to be the most scrutinized election of my life. The Audit, the Partial Recount, and all the lawsuits did not produce any significant voter fraud. That's why I have complete confidence in Wisconsin's Election Officials and the election process.

Now Wisconsin taxpayer money is being wasted on the current investigation conducted by Mr. Gableman. Mr. Gableman's handling of the investigation makes me wonder if he was ever fit or qualified to serve as a Wisconsin Supreme Court Justice.

Mr. Vos, what do you expect your investigation to reveal that would be more fraudulent than the current level of gerrymandering in Wisconsin?

I would like to thank you in advance for taking time to respond.

PATRIOT ACTION ALERT

Waukesha County GOP Caucus

SATURDAY, FEBRUARY 19

10 - 12 Noon
*****(The Liberty Picket should start at 9:15 am)**

Waukesha GOP Office: 1701 Pearl St. #5 in Waukesha

Patriots are needed at this Caucus – *especially VOTING MEMBERS* -- to help pass the following Resolutions to Save Wisconsin from the RINOs:

1) **Support Ramthun's De-Certification effort to Restore Election Integrity.**
2) **Removal of Tyrant Vos from Office – 5 GOP Counties have already issued their statements with more to come from additional GOP County Parties.**
3) **Removal of Waukesha's RINO Senator Chris Kapenga from office for refusing to sign the Brandtjen subpoenas. He is also the fool who crammed the Article V Constitutional Convention Scam to shred our U.S Constitution on our state. Kapenga is up for Re-Election this Year. We are done with his RINO's arrogance!**
4) **Replacement of RINO State Party Chair Paul Farrow. This year the Grassroots will be mounting a BATTLE ROYALE for the Heart and Soul of Wisconsin. We can't afford to have a girlieman like Farrow at the helm. It's time for Competent GOP leadership!**
5) **Finally, we need to send a clear message that we hard-working, Liberty-loving Taxpayers will Not Tolerate the GOP cramming Waukesha's homegrown RINO Princess Kleefisch down our throats as Governor!**

We need Patriots on the March outside of the Republican Party Office carrying signs demanding the Removal of Vos, Kapenga, and Farrow. The Waukesha GOP is the MACHINE that drives the State Party. We MUST NOT ALLOW them to sit on their hands and Give the RINOs a Free Pass Any Longer!

Subject: We Demands Our Dignity! Support The People First Campaign!

Assembly Speaker Robin Vos,

Hello,

My loved ones and I have been negatively impacted by the COVID-19 pandemic and are continuing to struggle. We are struggling with housing, medical bills, food insecurity, and unemployment; and Black and POC Wisconsinites have been hit hardest.

I urge you to support The People First: WI Black & People of Color Demands now. These policies will help me and my loved ones, as well as the many other Wisconsinites like me.

To survive this pandemic and thrive as a community, we need serious investment into affordable housing, quality healthcare, food security, and economic relief. We also need to be the ones controlling our resources and ensuring that they go directly to Black folx and People of Color. We demand our dignity. We deserve to thrive in our communities. We deserved better before the pandemic, and we deserve much more than what you all have been providing us.

As your constituent, please support The People First: WI Black & POC Demands.

Defund Police & Free Them All
● Give the community power to conduct independent and concurrent investigations of the police, and to hire and fire officers and staff.
● Stop sending the National Guard to harass and injure protestors.
● Provide incentives to municipalities that reallocate police and prison funding to life-affirming community programs, and end data and resource sharing with ICE.

AMERICAN OVERSIGHT

● Free all people from involuntary confinement, including but not limited to jails, prisons, and immigrant detention centers, starting with those who are aging, disabled, immunocompromised, held on bail, held for parole violations, and survivors.

Invest in Community

● Authorize and distribute stimulus checks for those most impacted by COVID-19 and the economic crisis.

● Forgive all COVID-related medical fees and provide free testing for COVID-19 and underlying conditions in counties most impacted by COVID-19.

● Increase and supplement Foodshare for most impacted families.

Free and Fair Elections

● Ensure 3-5 ballot return locations for each district.

● Fully fund voter education and engagement programs, including statewide PSA's on how to vote from home.

● Ban gerrymandering so that no political party can draw voting district boundaries that give them an unfair advantage.

Subject: Who's in charge?

Hello Rep. Vos:

I heard that you said that you weren't in charge of the November 3rd election investigation. Who appointed Judge Gableman? Who Ramthun's members who dare to push for an investigation? Take away their staffers and punish them. Why should the Wisconsin taxpayers be mad at Democrats, what good will that do? We elected you to do the right thing. Everyone knows that Democrats don't have the best interests of the people in mind. It's time that you start doing your job. You have abused the Speaker position of the Assembly by shifting blame. True leaders take responsibility. What are you hiding? What are you afraid of? If there's nothing there and a true investigation actually happens and nothing is discovered, what do you have to lose? It actually makes you look good because you acted responsibly.

Subject: WI elections

Rep. Vos,

As a long time Republican, like you I also am concerned about our election integrity. We need to look at areas of unusual activity.

I request that you haveMr. Gableman look at the 2016 and 2020 election resultsin counties such as Shawano, Oconto, Green Lake and Florence. And some others with similar results

There seems to have been an abundance of votes for one candidate, sometimes approaching and going past 70% for one candidate.

Our state is not that divided. If Gableman does not look into and investigate these counties then he is conducting a partisan investigation that is a hoax and a terrible waste of ourtaxpayer dollars.

Don't you agree?

Re: Public Records Law Request

Dear Speaker Vos:

Pursuant to Wisconsin's public records law, Wis. Stat. §§ 19.31–19.39, American Oversight makes the following request for copies of records.

On May 26, 2021, Wisconsin State Assembly Speaker Robin Vos indicated that the legislature would hire three former law enforcement officers and a supervising attorney to investigate the November 2020 election.[1] Since the time of this announcement, Speaker Vos has expanded the scope of the investigation, appointing former Wisconsin Supreme Court justice Michael Gableman as "special counsel," and gaining Assembly approval to spend at least $676,000 in public funds.[2] While presenting the interim findings of the Office of Special Counsel investigation in a hearing of the Assembly Committee on Campaigns on March 1, 2022, Gableman recommended that the Legislature consider decertifying the November 2020 presidential election in Wisconsin and indicated that the Office of Special Counsel would continue operating in absence of a written contract extension.[3] A separate investigation led by the chair of the Assembly Committee on Campaigns and Elections, Representative Janel Brandtjen, has included

[6] Wis. Stat. § 19.35(4)(a).

[7] This request seeks the records substantively described in American Oversight's request identified as WI-REP-22-0105, directed to Speaker Vos, from the period after that request was submitted—*i.e.*, from February 1, 2022, through the date of the search—with modifications to account for recent events. *See*: https://www.americanoversight.org/document/records-request-to-wisconsin-state-assembly-for-speaker-voss-communications-regarding-entities-investigating-november-2020-election.

AMERICAN OVERSIGHT

Oversight identified as WI-REP-22-0105[8], as well as records relating to, at a minimum:

1. The continued operation of the Office of Special Counsel in absence of a written contract extension.
2. Any further "audit" of ballots or election equipment, whether or not conducted by the Office of Special Counsel.[9]
3. The authorization of any subpoenas for the Office of Special Counsel investigation, including "dozens" which have not been publicly disclosed.[10]
4. The February 11, 2022, Milwaukee Journal Sentinel article regarding Michael Gableman's August 20, 2021 letter to Speaker Vos concerning the possible hiring of Shiva Ayyadurai and any communications regarding the article.[11]
5. The testimony of Peter Bernegger and his efforts to identify alleged irregularities, including his contact with the Office of Special Counsel.[12]
6. Communications regarding efforts to decertify Wisconsin's November 2020 presidential election results or "withdraw" its electors.

Please note that these are exemplar categories only and should not be interpreted to limit American Oversight's request for records reflecting *all* communications sent or received by the parties described above regarding any investigations of the 2020 election.

Please also note that American Oversight does not seek, and that this request specifically excludes, the initial mailing of news clips or other mass-distribution emails. However, subsequent communications forwarding such emails are responsive to this request. In other words, for example, if Speaker Vos received a mass-distribution news clip email referencing the relevant statement by the president, that initial email would not be responsive to this request. However, if Speaker Vos forwarded that email to another individual with their own commentary, that subsequent message would be responsive to this request and should be produced.

For all portions of this request, this request should be interpreted to include records pertaining to the investigation announced by Speaker Vos on May 26, the expansion

announced by Speaker Vos on July 30, the investigation announced by Representative Brandtjen on July 26, and any other investigations by the Assembly into any matters related to the 2020 election. Please note that this request seeks records in addition to, and not duplicative of, the records sought by any previous requests submitted by American Oversight.

Fee Waiver Request

In accordance with Wis. Stat. § 19.35(3)(e), American Oversight respectfully requests that the records be produced without charge. Providing American Oversight with a waiver of fees is in the "public interest" because American Oversight will, in accordance with its organizational mission, make the records available to the public without charge. These disclosures will likely contribute to a better understanding of relevant government procedures by the general public.

American Oversight's work is aimed solely at serving the public interest. As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight's financial interest. Rather, American Oversight's mission is to serve the public by promoting transparency in government, educating the public about government activities, and ensuring the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media.[13] American Oversight also makes materials it gathers available on its public website[14] and promotes their availability on social media platforms, such as Facebook and Twitter.[15]

The public has a significant interest in the Wisconsin Assembly's investigation of the November 2020 election.[16] Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of the government, including the role of contractors in conducting the Assembly's investigation. American Oversight is committed to transparency and makes the responses agencies provide to public records requests publicly available, and the public's understanding of the

AMERICAN OVERSIGHT

government's activities would be enhanced through American Oversight's analysis and publication of these records.

American Oversight asks that if its request for a fee waiver is denied in whole or in part, that you contact us prior to incurring any costs.

Guidance Regarding the Search & Processing of Requested Records

American Oversight seeks all responsive records regardless of format, medium, or physical characteristics. In conducting your search, please understand the term "record" in its broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages and transcripts, notes, or minutes of any meetings, telephone conversations or discussions. Our request includes any attachments to these records. **No category of material should be omitted from search, collection, and production.**

Please search all locations and systems likely to have responsive records regarding official business. **You may not exclude searches of files or emails in the personal custody of your officials, such as personal email accounts.** Emails conducting government business sent or received on the personal account of the authority's officer or employee constitutes a record for purposes of Wisconsin's public records laws.[17]

In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records.[18] If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release.

American Oversight expects that you have ensured all responsive records and records relevant to this request and your compliance with it are retained as required by Wisconsin law. Please take all appropriate steps to ensure that no such records are deleted by the agency before the completion of processing for this request. If records potentially responsive or relevant to this request, or your compliance with it, are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

AMERICAN OVERSIGHT

Conclusion

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to American Oversight, please do not hesitate to contact American Oversight to discuss this request. American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your agency can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in an electronic format by email. Alternatively, please provide responsive material in native format or in PDF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will accelerate release of responsive records to American Oversight, please also provide responsive material on a rolling basis.

We share a common mission to promote transparency in government. American Oversight looks forward to working with your agency on this request. If you do not understand any part of this request, please contact Sarah Colombo at records@americanoversight.org or (202) 869-5244. Also, if American Oversight's request for a fee waiver is not granted in full, please contact us immediately upon making such a determination.

Sincerely,

/s/ Sarah Colombo

Re: Public Records Law Request

Dear Speaker Vos and Chief Clerk Blazel

Pursuant to Wisconsin's public records law, Wis. Stat. §§ 19.31–19.39, American Oversight makes the following request for copies of records.

On May 26, 2021, Wisconsin State Assembly Speaker Robin Vos indicated that the legislature would hire three former law enforcement officers and a supervising attorney to investigate the November 2020 election.[1] Since the time of this announcement, Speaker Vos has expanded the scope of the investigation, appointing former Wisconsin Supreme Court justice Michael Gableman as "special counsel," and gaining Assembly committee approval to form an Office of Special Counsel (OSC) and to spend at least $676,000 in public funds, including budgeting for five investigators and $325,000 for a data analysis contractor.[2] While presenting the interim findings of the investigation in a hearing of the Assembly Committee on Campaigns on March 1, 2022, Gableman

Public Radio (Aug. 30, 2021), https://www.wpr.org/republican-lawmakers-approve-former-conservative-justice-head-2020-election-investigation

recommended that the Legislature consider decertifying the November 2020 presidential election in Wisconsin and indicated that the Office of Special Counsel would continue operating in absence of a written contract extension.[3]

American Oversight seeks records with the potential to shed light on the Wisconsin Assembly's investigation of the November 2020 election, including regarding the role and activities of contractors who are performing work in furtherance of that investigation.

Requested Records

American Oversight requests that your office produce the following records "as soon as practicable and without delay":[4]

A. All electronic communications (including emails, email attachments, text messages, or messages on messaging platforms, such as Slack, Google, Lync, Skype, or WhatsApp) between (i) the Wisconsin Assembly's investigators, including any investigators engaged by the OSC, as well as overseeing attorney and Special Counsel Michael Gableman[5] and (ii) any of the individuals or entities listed below, including, but not limited to at the suggested email addresses or domains. In the case of emails and texts, the search should include those sent or received from the specified officials' personal accounts and/or devices if they were used to conduct official business, as well those sent from their official email addresses or government-issued devices.

   For Part A of this request, please provide all responsive records from January 18, 2022, through the date the search is conducted.

   Specified Entities:
   1. Anyone communicating from an email address ending in @legis.wisconsin.gov
   2. Speaker of the Wisconsin Assembly Robin Vos, or anyone communicating on his behalf, including, but not limited to, his scheduler Alex Richter, his chief of Staff Jenny Toftness, his legal advisor Steve Fawcett, or his policy analyst Jake Wolf

AMERICAN OVERSIGHT

used to conduct official business, as well those sent from their official email addresses or government-issued devices.

For Part B of this request, please provide all responsive records from June 1, 2021, through the date the search is conducted.

Additional Specified Entities:

1. Ashe Epp (asheinamerica@protonmail.com)
2. Boris Ephsteyn (bepshytn@gmail.com)
3. David Clements (dkc@theprofessorsrecord.com)
4. Draza Smith (ladydraza@gmail.com, ladydraza@yahoo.com)
5. Emily Newman (enewman@protonmail.com)
6. Holly Kasun (hollyataltitude@protonmail.com)
7. Jay Valentine (jay@contingencysales.com)
8. Jefferson Davis (davisforpresident@protonmail.com, jeffersondavis784@gmail.com)
9. Josh Barnett (trainwithkane@yahoo.com, contact@barnettforaz.com)
10. Katherine Friess (kfriess@protonmail.com)
11. Rob Natelson (rob.natelson1@gmail.com)
12. Steve Montenegro (steve@coronamconsulting.com, stevemontenegro@gmail.com, stevemontenegro@protonmail.com)

Please note that for both Parts A & B of this request, American Oversight does not seek, and that this request specifically excludes, the initial mailing of news clips or other mass-distribution emails. However, subsequent communications forwarding such emails are responsive to this request. In other words, for example, if Michael Gableman received a mass-distribution news clip email from the Wisconsin Republican Party, that initial email would not be responsive to this request. However, if he forwarded that email to another individual with his own commentary, that subsequent message would be responsive to this request and should be produced.

This request seeks records in addition to, and not duplicative of, records previously sought by American Oversight. In all cases, responsive records include records that were "produced or collected" under any contract entered by Speaker Vos and/or the Wisconsin Assembly.[7]

Fee Waiver Request

In accordance with Wis. Stat. § 19.35(3)(e), American Oversight respectfully requests that the records be produced without charge. Providing American Oversight with a waiver of fees is in the "public interest" because American Oversight will, in accordance with its organizational mission, make the records available to the public without charge.

[7] Wis. Stat. Ann. § 19.36(3) ("Each authority shall make available for inspection and copying under s. 19.35(1) any record produced or collected under a contract entered into by the authority with a person other than an authority to the same extent as if the record were maintained by the authority.").

AMERICAN OVERSIGHT

These disclosures will likely contribute to a better understanding of relevant government procedures by the general public.

American Oversight's work is aimed solely at serving the public interest. As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight's financial interest. Rather, American Oversight's mission is to serve the public by promoting transparency in government, educating the public about government activities, and ensuring the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media.[8] American Oversight also makes materials it gathers available on its public website[9] and promotes their availability on social media platforms, such as Facebook and Twitter.[10]

The public has a significant interest in the Wisconsin Assembly's investigation of the November 2020 election.[11] Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of the government, including the role of contractors in conducting the Assembly's investigation. American Oversight is committed to transparency and makes the responses agencies provide to public records requests publicly available, and the public's understanding of the government's activities would be enhanced through American Oversight's analysis and publication of these records.

American Oversight asks that if its request for a fee waiver is denied in whole or in part, that you contact us prior to incurring any costs.

Guidance Regarding the Search & Processing of Requested Records

American Oversight seeks all responsive records regardless of format, medium, or physical characteristics. In conducting your search, please understand the term "record" in its broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone

AMERICAN OVERSIGHT

messages, voice mail messages and transcripts, notes, or minutes of any meetings, telephone conversations or discussions. Our request includes any attachments to these records. **No category of material should be omitted from search, collection, and production.**

Please search all locations and systems likely to have responsive records regarding official business. **You may not exclude searches of files or emails in the personal custody of your officials, such as personal email accounts.** Emails conducting government business sent or received on the personal account of the authority's officer or employee constitutes a record for purposes of Wisconsin's public records laws.[12]

In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records.[13] If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release.

Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

Conclusion

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to American Oversight, please do not hesitate to contact American Oversight to discuss this request. American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your agency can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in an electronic format by email. Alternatively, please provide responsive material in native format or in PDF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will

Re: Public Records Law Request

Dear Chief Clerk Blazel and Speaker Vos,

Pursuant to Wisconsin's public records law, Wis. Stat. §§ 19.31–19.39, American Oversight makes the following request for copies of records.

On May 26, 2021, Wisconsin State Assembly Speaker Robin Vos indicated that the legislature would hire three former law enforcement officers and a supervising attorney to investigate the November 2020 election.[1] Since the time of this announcement, Speaker Vos has expanded the scope of the investigation, appointing former Wisconsin Supreme Court justice Michael Gableman as "special counsel," and gaining Assembly approval to spend at least $676,000 in public funds.[2] Gableman has recently requested that public officials who refuse to sit for closed-door depositions be jailed, and Speaker Vos has indicated that he has authorized dozens more subpoenas for the investigation than have been publicly disclosed.[3] While presenting the interim findings of the

[3] Patrick Marley, *Wisconsin Republicans Seek to Jail More Officials As Part of Their Review of the 2020 Presidential Election*, Milwaukee J. Sentinel (updated Feb. 18, 2022, 7:16 PM),

investigation in a hearing of the Assembly Committee on Campaigns on March 1, 2022, Gableman recommended that the Legislature consider decertifying the November 2020 presidential election in Wisconsin and indicated that the Office of Special Counsel would continue operating in absence of a written contract extension.[4]

American Oversight seeks records with the potential to shed light on the Wisconsin Assembly's investigation of the November 2020 election, including regarding the role and activities of contractors who are performing work in furtherance of that investigation.

Requested Records

American Oversight requests that Speaker Vos and the Wisconsin Assembly produce the following records "as soon as practicable and without delay":[5]

> Please provide all responsive records described below from February 1, 2022, through the date the search is conducted:
>
> 1. A complete copy (including any attachments) of any contract, sub-contract, amendment, memorandum of understanding, or other written agreement (A) between the Wisconsin Assembly and individuals or entities associated with the legislature's investigation of the November 2020 election related to the planning, preparation, or execution of the investigation, including but not limited to agreements with former justice Michael Gableman or any individual or entity designated or engaged as an investigator, and (B) between any of the individuals or entities named above in item 1(A) of this request, or the Office of Special Counsel, and any assistants, consultants, counsel, formal or informal advisors, temporary workers, or unpaid volunteers, as well as any external sources of funds.
>
> 2. A complete copy (including any attachments) of any resume, bid, project proposal, cost or time estimate, scope of work, application form, or other document submitted to any of the individuals or entities named in item 1 of this request, as well as any records regarding the solicitation and evaluation of any bids or proposals.
>
> 3. Records identifying or referring to the scope of the investigative authority of the Assembly's investigators or their agents, including but not limited to authority regarding compelling witnesses, issuing subpoenas, or making referrals to the Wisconsin Department of Justice, the U.S. Department of Justice or its

AMERICAN OVERSIGHT

subcomponents, or any other law enforcement agency.

4. Any project plans or other documents detailing the steps or procedures to be followed in each aspect of the investigation, including but not limited to: records regarding identifying, prioritizing, and investigating "potential irregularities and/or illegalities," including a complete copy of any reports of alleged irregularity or wrongdoing; protocols, guidelines, or scripts for contacting and interviewing witnesses; records describing investigative methodology, equipment, or supplies; or guidelines for ensuring the safe handling and privacy of confidential voter information and election equipment.

5. A complete copy (including any attachments) of any invoice received from or records reflecting any payment made to former justice and Special Counsel Michael Gableman, or any other investigators or individuals, including any individuals associated with the Office of Special Counsel and/or contracted by the Wisconsin Assembly, in connection with their services to the Wisconsin Assembly.

6. Any criteria, schedule, or other guidelines for the completion of work product related to the investigation, including, but not limited to, interim updates to the Assembly and the construction and presentation of a final report of findings.

This request seeks records in addition to, and not duplicative of, records previously sought by American Oversight. In all cases, responsive records include records that were "produced or collected" under any contract entered by the Speaker Vos and/or the Wisconsin Assembly.[6]

To be clear, this request seeks the records substantively described in American Oversight's request identified as WI-REP-22-0109, directed to Speaker Vos and the Assembly, from the period after that request was submitted—*i.e.*, from February 1, 2022, through the date of the search. *See* https://www.americanoversight.org/document/records-request-to-wisconsin-state-assembly-seeking-additional-contractual-documents-from-elections-investigation.

Fee Waiver Request

In accordance with Wis. Stat. § 19.35(3)(e), American Oversight respectfully requests that the records be produced without charge. Providing American Oversight with a waiver of fees is in the "public interest" because American Oversight will, in accordance with its organizational mission, make the records available to the public without charge.

[6] Wis. Stat. Ann. § 19.36(3) ("Each authority shall make available for inspection and copying under s. 19.35(1) any record produced or collected under a contract entered into by the authority with a person other than an authority to the same extent as if the record were maintained by the authority.").

AMERICAN OVERSIGHT

These disclosures will likely contribute to a better understanding of relevant government procedures by the general public.

American Oversight's work is aimed solely at serving the public interest. As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight's financial interest. Re: Public Records Law Request

Dear Chief Clerk Blazel and Speaker Vos:

Pursuant to Wisconsin's public records law, Wis. Stat. §§ 19.31–19.39, American Oversight makes the following request for copies of records.

On May 26, 2021, Wisconsin State Assembly Speaker Robin Vos indicated that the legislature would hire three former law enforcement officers and a supervising attorney to investigate the November 2020 election.[1] Since the time of this announcement, Speaker Vos has expanded the scope of the investigation, appointing former Wisconsin Supreme Court justice Michael Gableman as "special counsel," and gaining Assembly approval to spend at least $676,000 in public funds.[2] Gableman has recently requested that public officials who refuse to sit for closed-door depositions be jailed, and Speaker Vos has indicated that he has authorized dozens more subpoenas for the investigation than have been publicly disclosed.[3] While presenting the interim findings of the

WI-REP-22-0206-A-003264

investigation in a hearing of the Assembly Committee on Campaigns on March 1, 2022, Gableman recommended that the Legislature consider decertifying the November 2020 presidential election in Wisconsin and indicated that the Office of Special Counsel would continue operating in absence of a written contract extension.[4]

American Oversight seeks records with the potential to shed light on the Wisconsin Assembly's investigation of the November 2020 election, including regarding the role and activities of contractors who are performing work in furtherance of that investigation.

Requested Records

American Oversight requests that Speaker Vos and the Wisconsin Assembly produce the following records "as soon as practicable and without delay":[5]

> Please provide all responsive records described below from February 1, 2022, through the date the search is conducted:
>
> > A complete copy (including any attachments) of any interim reports, analyses, notifications, or other work product produced or collected by individuals or entities under contract to investigate the November 2020 election or allegations of voter fraud or misconduct from previous elections (including but not limited to the Wisconsin Assembly's investigators, including any investigators engaged by the Office of Special Counsel, as well as overseeing attorney and Special Counsel Michael Gableman) in connection with the legislature's investigation of the November 2020 election.
>
> This request seeks records in addition to, and not duplicative of, records previously sought by American Oversight. In all cases, responsive records include records that were "produced or collected" under any contract entered by the Speaker Vos and/or the Wisconsin Assembly.[6]

Ann. § 19.36(3) ("Each authority shall make available for inspection and copying under s. 19.35(1) any record produced or collected under a contract entered into by the authority with a person other than an authority to the same extent as if the record were maintained by the authority.").

AMERICAN OVERSIGHT

To be clear, this request seeks the records substantively described in American Oversight's previous request identified as WI-REP-22-0111, directed to Speaker Vos and the Assembly, from the period after that request was submitted—*i.e.*, from February 1, 2022, through the date of the search. *See* https://www.americanoversight.org/document/records-request-to-wisconsin-assembly-seeking-additional-work-products-from-elections-investigation-3.

Fee Waiver Request

In accordance with Wis. Stat. § 19.35(3)(e), American Oversight respectfully requests that the records be produced without charge. Providing American Oversight with a waiver of fees is in the "public interest" because American Oversight will, in accordance with its organizational mission, make the records available to the public without charge. These disclosures will likely contribute to a better understanding of relevant government procedures by the general public.

American Oversight's work is aimed solely at serving the public interest. As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight's financial interest. Rather, American Oversight's mission is to serve the public by promoting transparency in government, educating the public about government activities, and ensuring the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media.[7] American Oversight also makes materials it gathers available on its public website[8] and promotes their availability on social media platforms, such as Facebook and Twitter.[9]

The public has a significant interest in the Wisconsin Assembly's investigation of the November 2020 election.[10] Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of the government, including the role of contractors in conducting the Assembly's investigation. American Oversight is committed to transparency and makes the responses agencies provide to

AMERICAN OVERSIGHT

public records requests publicly available, and the public's understanding of the government's activities would be enhanced through American Oversight's analysis and publication of these records.

American Oversight asks that if its request for a fee waiver is denied in whole or in part, that you contact us prior to incurring any costs.

Guidance Regarding the Search & Processing of Requested Records

American Oversight seeks all responsive records regardless of format, medium, or physical characteristics. In conducting your search, please understand the term "record" in its broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages and transcripts, notes, or minutes of any meetings, telephone conversations or discussions. Our request includes any attachments to these records. **No category of material should be omitted from search, collection, and production.**

Please search all locations and systems likely to have responsive records regarding official business. **You may not exclude searches of files or emails in the personal custody of your officials, such as personal email accounts.** Emails conducting government business sent or received on the personal account of the authority's officer or employee constitutes a record for purposes of Wisconsin's public records laws.[11]

In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records.[12] If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release.

Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

AMERICAN OVERSIGHT

Conclusion

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to American Oversight, please do not hesitate to contact American Oversight to discuss this request. American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your agency can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in an electronic format by email. Alternatively, please provide responsive material in native format or in PDF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will accelerate release of responsive records to American Oversight, please also provide responsive material on a rolling basis.

We share a common mission to promote transparency in government. American Oversight looks forward to working with your agency on this request. If you do not understand any part of this request, please contact Sarah Colombo at records@americanoversight.org or (202) 869-5244. Also, if American Oversight's request for a fee waiver is not granted in full, please contact us immediately upon making such a determination.

Sincerely,

/s/ Sarah Colombo

State of Wisconsin
2021 - 2022 LEGISLATURE

LRB-5792/1
MPG:amn&wlj

2021 ASSEMBLY JOINT RESOLUTION

Relating to: Wisconsin election reform and reclaiming the electoral ballots for President and Vice President that were certified under fraudulent intent and purpose.

Whereas, the Center for Tech and Civic Life (CTCL) enabled the illegal use of over 500 voter drop boxes in Wisconsin, infringing Wis. Stat. § 6.87 (6), in all 72 counties under Elections Commission guidance issued on August 19, 2020, and the use of drop boxes was organized by the Cybersecurity and Infrastructure Security Agency (CISA), which worked in conjunction with other national organizations like the CTCL, Center for Election Innovation and Research (CEIR), and National Conference of State Legislatures (NCSL), which, on October 2, 2020, promoted CISA's campaign of illegal drop boxes; and

Whereas, the Wisconsin Supreme Court stated in *Trump v. Biden*, 2020 WI 91, "On March 25, 2020, the Dane and Milwaukee County Clerks issued guidance on Facebook suggesting all voters could declare themselves indefinitely confined because of the pandemic and the governor's then-existing Safer-at-Home Order.

AMERICAN OVERSIGHT

This court unanimously deemed that advice incorrect on March 31, 2020, and we noted that the WEC guidance . . . provides the clarification on the purpose and proper use of the indefinitely confined status that is required at this time," which verifies that the Elections Commission gave improper guidance in the 2020 election, and in her dissent in *Trump v. Biden*, Wisconsin Supreme Court Justice Rebecca Grassl Bradley revealed that the Elections Commission infringed Wis. Stat. §§ 5.05 (1), 6.84 (1) and (2), 6.86, 6.87 (3), (4), (5), (6), (7), and (9), and 227.112 (3); and

Whereas, on December 7, 2020, Elections Commissioner Dean Knudson filed a complaint against Meagan Wolfe under Wis. Stat. § 7.70 (5) for the rushed ascertainment of certification of the 2020 election before time for filing an appeal of the recount had passed, and revealed the planned haste to circumvent any further discussion or objection; and

Whereas, the Assembly Committee on Campaigns and Elections has collected nearly 3,000 documents and e–mails with connection to election manipulations by the CTCL in five of Wisconsin's largest cities, and there are five lawsuits in those cities against the Elections Commission; and

Whereas, data experts have studied the historical voter trends based on population growth for both the entirety of the State of Wisconsin and its counties individually, and those studies reveal the normal inverse relationship of data was not present in the 2020 election results, which is a statistical impossibility; and

Whereas, the WisVote database reflects 7.1 million registered voters in a state with a population of 5.8 million and a voting age population of 4.5 million, and the WisVote database is riddled with incomplete and misrepresented data, including thousands of voters with the same phone numbers, addresses, and faulty zip codes, all of which reflects gross negligence in maintaining the database; and

AMERICAN OVERSIGHT

Whereas, grassroots canvassing efforts reveal 200 addresses in 31 counties in Wisconsin that have 200 to 400 registered voters at a single address, and a sampling of 1,000 actual 2020 absentee ballot envelopes from Milwaukee County found 23 percent had questionable addresses; and

Whereas, the Elections Commission voted to do upgrades on Dominion voting machines on June 2, 2021, and, following a press release on August 11, 2021, voicing concerns about the deletion of log file data from those upgrades, the commission voted to allow upgrades to new ES&S voting machines on September 9, 2021, with no reassurances of protecting the data of the 2020 election on older machines, even though it was revealed the upgrades do erase log file data kept on the machine hard drives; and

Whereas, the audit report of the nonpartisan Legislative Audit Bureau identified 44,272 voters who did not provide proper voter identification in the 2020 general election, revealed the mass increase of indefinitely confined voters from 4,505 in 2019 to 169,901 in 2020, revealed that 28.7 percent of all municipal clerks across all 72 counties used illegal drop boxes, and made 30 recommendations for the Elections Commission to rectify their actions; and

Whereas, a total of 50 of the 69 county GOP parties released letters of support or resolutions asking for further investigation into the elections process, showing that over two–thirds of Wisconsin Republicans have no faith in the Elections Commission; and

Whereas, commissioners and staff of the Elections Commission prevented the deployment of special voting deputies to care facilities, as confirmed by the Racine County Sheriff's Department, which found that on March 12, 2020, the Elections Commission knowingly and willfully directed all 72 county clerks to violate Wis.

AMERICAN OVERSIGHT

Stat. §§ 6.84 and 6.875 regarding absentee voting in certain residential care facilities and retirement homes, and the commission's unlawful direction clearly broke Wis. Stat. § 12.13 (2) (b) 7., which refers to intentionally violating election laws; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Jeff O'Donnell, who found a multitude of irregularities when he analyzed data from the Wisconsin voter rolls, including that 93.7 percent of active voters participated in the 2020 general election, 205,355 voter registration applications were dated November 3, 2020, 957,977 individuals registered as new voters in 2020, 45,665 voters who registered did not have matching Division of Motor Vehicle records, 22 percent of active voters registered in the 6 months leading up to November, 3, 2020, 31,872 of those voters who registered in that 6–month period are now listed as inactive, and 42,000 voters who voted in the November 3, 2020, election are now listed as inactive; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Dr. Douglas Frank, who revealed that patterns in the Wisconsin voter rolls showed that the voter rolls were inflated to the maximum possible number of voters according to census population data for every presidential election in Wisconsin since 2008 and that the voter rolls were purged shortly after each such election, and that these patterns were consistent across all 72 counties in Wisconsin, revealing that these activities were centrally controlled; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from Attorney Erick Kaardal, who identified that the money provided by the CTCL and Mark Zuckerberg to local governments in Wisconsin relating to the 2020 general election violated Wis. Stat.

AMERICAN OVERSIGHT

§ 12.11, which prohibits election bribery and states that "'anything of value' includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1," and that amount was greatly exceeded; and

Whereas, at the Growing Threats to Election Officials in Wisconsin Press Conference held on December 13, 2021, it was revealed that the CEIR is a biased organization that also received funding from Mark Zuckerberg, along with the CTCL, and that the CEIR is seeking to provide pro bono defense attorneys to election officials who used the CTCL money in the 2020 general election; and

Whereas, on January 13, 2022, Waukesha County Circuit Court Judge Michael Bohren issued an oral ruling in court holding that the Elections Commission's guidance on absentee ballot drop boxes should have been promulgated as a rule under Wis. Stat. ch. 227; that state law provides just two legal methods for a voter to return an absentee ballot: through the mail or in–person at the municipal clerk's office or an alternate site designated according to law; and that ballot harvesting and returning absentee ballots to drop boxes are not legal methods to cast absentee ballots in Wisconsin; and

Whereas, the U.S. Supreme Court has found that fraud vitiates and nullifies any contract: *Boyce's Executors v. Grundy* (1830) 28 U.S. 210; "Fraud vitiates the most solemn contracts, documents and even judgments." *United States v. Throckmorton* (1878) 98 U.S. 61, 64; and

Whereas, the November 2020 Wisconsin general election, as regulated and directed by the Elections Commission, was one of the most haphazard, controversial, and poorly managed elections in state history, shaking citizens' confidence in fair elections across Wisconsin, and with the culmination of these evidences, prove the

AMERICAN OVERSIGHT

results of the commission's certification of the 2020 election are considered fraudulent; now, therefore, be it

Resolved by the assembly, the senate concurring, That the accumulated evidence proves the actions taken by the Elections Commission to certify the 2020 presidential election shall be considered contrary to law and fraudulent under Wis. Stat. §§ 6.84, 6.87 (6), 6.875, 12.11, and 12.13 (2) (b) 7.; and, be it further

Resolved, That the Wisconsin Legislature, pursuant to its authority under Article II, Section 1, Clause 2 of the U.S. Constitution and 3 U.S.C. § 2, and consistent with guidance provided by the Constitutional Counsel Group in a memorandum dated December 30, 2021, acknowledges that illegality took place in conducting the 2020 general election and reclaims Wisconsin's 10 fraudulent electoral ballots cast for Joseph R. Biden and Kamala Harris; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation with the intention to clean up the WisVote database and create separate servers for active and inactive voters; and, be it further

Resolved, That the Wisconsin Legislature supports a full forensic physical and cyber audit of the 2020 general election, that this full forensic physical and cyber audit should be conducted by an independent and nonpartisan auditing firm with a scope statement approved by the Assembly Committee on Campaigns and Elections, and that this full forensic physical and cyber audit must include the following components:

1. Total examination of voting system machines, including browsers, tabulators, scanners, routers and firewalls, switches, network and out–of–band management cards, internet or network connectivity, network and remote access, remote access applications, software installed or removed on the system, flash

AMERICAN OVERSIGHT

drives, thumb drives, event logs, scripts that have been run, the date on which data were last modified and what data were modified, whether during or after the election, systems and security updates, password policies, multifactor authentication, databases, adjudication records, administrator accounts, and log–in records.

2. Kinematic artifact detection of all physical paper ballots, including whether ballots meet industry maximum allowable compliance for out–of–calibration measurements, ballot thickness to prevent bleed through, types of markers used, printed ballots, quantity of ballots, ballot trail, voter roll in comparison to ballots, mail–in ballot standards, and ballot watermarks and dot coding.

3. Physical canvas, including whether county clerks and election employees and volunteers followed election rules and regulations mandated by their county.

4. Transparency; and, be it further

Resolved, That in order to ensure transparency, all such audits shall be streamed live for public viewing and recorded via security video to be run 24 hours a day, 7 days a week, until all such audits are complete; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation specifically intended to secure the integrity of future elections in Wisconsin based on the findings of the Legislative Audit Bureau investigation, the Assembly Committee on Campaigns and Elections investigation, and the full forensic physical and cyber audit; and, be it further

Resolved, That the secretary of state of the State of Wisconsin is hereby directed to forward a proper authenticated copy of this resolution to the President of the Senate of the United States.

Subject: Wisconsin Criminal Conduct

Attachments: NAVARRO_RPT_BALLOT_SUMMARY.pdf

Speaker Vos, Rep. Steineke and members of the Wisconsin Legislature,

I have submitted previous communications to you over the past several weeks. I have done extensive research and study over the past 14 months on the 2020 election. I have concluded (but not finished) that in Wisconsin, AZ, GA, MI, NV and PA there is a high degree of likelihood of ballot and election fraud that rigged and falsely overturned the election from Donald Trump to Joe Biden in at least 4 of those 6 States, involving a minimum of 41 Electoral Votes – which would have made Trump the legitimate winner, not Biden. The Navarro Report, and its ballot analysis, is a partial source of these conclusions.

There was a massive conspiracy, fraud and obstruction of justice at State and Federal levels and Wisconsin is right at the heart of it. It was a Conspiracy to Defraud the United States. These are all Federal offenses under Title 18 of the criminal code. Wisconsin has some 550,000 ballots that are suspicious, unqualified, unlawful or otherwise unverified - against a Biden margin of a mere 21,000 ballots. How can this be ignored? That is probable cause of criminality for which all Wisconsin elected and

AMERICAN OVERSIGHT

appointed officials will have to answer. Has Wisconsin destroyed any election or ballot evidence implicating 2020 election fraud?

In addition, Speaker Vos, there was obstruction of justice to block, resist, reject and refuse an immediate full Audit and criminal investigation into the reasons for the irregular ballots and into the likelihood that there was criminal fraud. Your Attorney General will be held to account for this. There was no justification for this fierce defiance, Speaker Vos, and I find you to be at the center of this obstruction and conspiracy. If I have my way, you, the WI Attorney General, Evers, Lafollette and others will be brought before a Grand jury and put under Oath and questioned extensively. There is no way that you and Wisconsin officials can assure 330 million Americans and the United States that your election results were true, correct, lawful and without fraud. What Wisconsin public officials did to America on November 3rd and after, is disgraceful, and a proximate cause of the January 6, 2021 Capitol riot.

As to your "report" expected from the former Justice Gableman – he should be told to hold off until I submit my Criminal Indictment to Wisconsin and the other 5 States in about 2 - 3 weeks, or less. Because I think that "report" will be at complete odds with what I set forth and Gableman seems to be receiving significant resistance and not getting his job done.

As to your astounding, preposterous public statement that it is "impossible and unconstitutional" to decertify or overturn the election – that, on its face, is a false assertion for at least 5 reasons. Moreover, that conclusion, untrue as it is, cannot come from the Speaker of a House – it must come from a Supreme Court of Law, with documented conclusions and case law – of which there is none. To wit:

1. With five major classes of irregular or unlawful ballots totaling over 550,000 ballots, against a "winning margin" of merely 21,000 votes, preventing a clean election, Wisconsin has no legal choice but to decertify the election results unless and until they can prove legitimacy to all 550,000 ballots. Suggesting that the United States and its Constitution must suffer *permanently* under Wisconsin's deception, fraud and incompetence is both absurd and violates the U.S. Supremacy Clause. Speaker Vos: **Decertify the Election**, this is not Venezuela.

2. If Joe Biden was wrongly awarded the Office of President by election fraud in at least 3 States, including Wisconsin, those State elections will have to be overturned, and those 41 (or more) electoral votes must be awarded to Trump; Biden, most certainly, will have to vacate the Office, *ipso facto.* There are 79 Electoral Votes at vital issue here in the six States. There is no provision under the U.S. Constitution for an election to be falsely certified by the Secretary of State, the Governor or the Electors when the State election is determined to be willfully conducted and manipulated under extensive ballot and election fraud. It becomes null and void to Biden, *ipso facto.* "Fraud vitiates everything." *See*, Hazel-Atlas Glass Co. v Hartford-Empire Co., 322 U.S. 238, 245-46

AMERICAN OVERSIGHT

(1944). Moreover, the Congress will have to overturn its acceptance on January 6. The U.S. Constitution does not accept fraud, by the very nature of solemn Oaths, sworn to uphold it, including yours, Speaker Vos. Continue reading.

3. Biden is under Oath to the Office, and to the U.S. Constitution – and to remain as President under fraud would be unconstitutional, an act of perjury and "high crimes and misdemeanors."

4. The U.S. Constitution declares under the 12th Amendment, *"The person having the greatest number of votes for President, shall be the President, if such number be a majority of the whole number of Electors appointed,"* if Joe Biden does not have the highest number of Electoral Votes, then *ipso facto* and as a irrefutable conclusion of law, he is not the President, nor is Harris Vice President.

5. Any one of these above offences is, without argument, "a failure to qualify" for the Office of President and Vice President as to Biden and Harris - and a mandate to vacate the Office. The (below) statute suggests the House Speaker should step in as "acting President," (this section to be next discussed), but her role in the fraud and conspiracy may also render her "unqualified." Nevertheless, it is clear under Title 3 U.S.C. §19, Trump must be re-installed; the following is stated in relevant part:

> **"(c)** *An individual acting as President [the Speaker] under subsection (a) or subsection (b) of this section shall continue to act until the expiration of the then current Presidential term [the 2020-2024 term] , except that—*
>
> **"(1)** *if his discharge [the Speaker] of the powers and duties of the office is founded in whole or in part on the failure of both the President-elect and the Vice-President-elect to qualify [Biden, Harris] then he shall act only until a President orVice Presidentqualifies;"* [Trump and Pence, immediately]

This above passage highlights the intense, diabolical effort to impeach and convict President Trump, in 2021, as a private citizen and disqualify him from holding future Office. And if Trump did truly win the 2020 Election (and it appears so), it is plain to see how deep and massive the conspiracy of this election fraud runs.

In other words, Speaker Vos, your public statement of "impossible and unconstitutional" is utterly false, by virtue of the foregoing facts. If Biden is found to be holding Office by election fraud (unqualified) in at least (3) States – he must immediately vacate the Presidency, and Trump immediately re-assumes the Office in having won the Office lawfully by "having the greatest number of votes." Wisconsin would have to

AMERICAN OVERSIGHT

decertify and overturn the 2020 election in Wisconsin….along with the probability of other States if fraud is determined to be the source of Biden's ballots.

Speaker Vos, one can see, in the drafting of this entire Title 3 statute beginning in 1948 and undergoing 7 revisions to 2006 – how much attention the Congress paid to the Office of President, in its election. In response, the State of Wisconsin, under your defiance and the malfeasance of the Governor, AG and election and political officials, together with the corrupt, ill-gotten monies of Zuckerberg, seek to defraud the United States by election and ballot fraud schemes. The same is said for all the other five Battleground States, which acted with deliberate, premeditated intent (2.5 million unverified ballots) to defraud. It won't stand.

Wisconsin, like 5 other States, also attempted *corruptly* to influence, impede, obstruct and impair the January 6th "Official Congressional Proceeding" 18 U.S.C. §1512 (b)(c) by wrongfully certifying a Presidential Election with 550,000 unverified ballots still outstanding.

Speaker Vos, until you, the Wisconsin House, the Senate, Attorney General, Secretary of State, and Supreme Court Justices take seriously this matter of fraud and see to it, simultaneously that, all 550,000 of the suspicious ballots are carefully, independently examined and audited, including those falsely submitted under drop boxes; **and** to execute a complete criminal investigation of events in Wisconsin – all of you remain in a grave default state of perjury with your solemn Oath to the United States Constitution and truly ineligible to hold public office in Wisconsin because of 4 U.S.C. §101,

*"I, **Robin Vos**, do solemnly swear that I will support the Constitution of the United States."*

You have an obvious and serious conflict of interest with the National Conference of State Legislatures, and that link – together with your state of mind - is utterly defiling your Oath.

These are strong words to you, Speaker Vos, I understand that. But there is a criminal conspiracy to Defraud the United States and the Office of President – and you and Wisconsin are right in the middle of it. *Hammerschmidt v. United States*, 265 U.S. 182, 188 (1924). You and your accomplices in the Legislature need to wake up, we've given you long enough – it is not just about Trump-Biden; it is about Wisconsin's defiant criminal behavior.

Respectfully, *Mark Thomas*

Subject: Wisconsin Criminal Conduct

TO: The Members of the Wisconsin Legislature, March 3, 2022

I observed about 20 minutes of a live hearing whereby the Gableman/Kaardal duo delivered a Report to an Legislative Election Committee calling out in their words “serial violation of election laws” by Wisconsin public officials, WEC, etc. Wisconsin spent $676,000 for this, *information we knew*, and nothing - absolutely nothing about the heart of the matter – 553,000 unlawful ballots that deliberately flipped a Presidential Election and ten Electoral Votes? The Report is damning – but not nearly as expansive and accurate as it should be. Various public officials (Vos dragged his heels for months) obstructed its purpose and no Grand juries were convened. How can this be the work of a “Special Counsel?” So very much more is left unsaid; Wisconsin officials are quite content to accept this public criminal behavior by its officials….utterly afraid to confront them –

AMERICAN OVERSIGHT

this is wholly intolerable to the United States. When will you bring Mark Zuckerberg before a Wisconsin Grand jury?

I was sickened and disgusted by accounts of serious criminal behavior by Wisconsin public officials at all levels without batting an eyelash, especially the arrogance of the Wisconsin Supreme Court slow-walking its decisions on drop-boxes and other matters. Such a contemptuous, disgraceful disregard for the Oaths they swear; and the Attorney Code of Conduct that lawyers and judges are violating with impunity.

> *"I, **all Wisconsin public officials**, do solemnly swear that I will support the Constitution of the United States."*

Show Wisconsin citizens and all of America how Wisconsin officials have done this in overseeing the 2020 Election, and now, as they attempt to sweep and cover-up the chaos and crime they produced under the rug. Wisconsin has defrauded the United States; committed criminal acts against Art. I, Art. II and the 14th Amendment; and conspired to *overturn, impair* and *obstruct* the Office of President – while they falsely certified their Electoral College results to the Congress. All against that above Oath. And they are now conspiring to cover-up, tamper with evidence and to refuse a full Audit, Investigation and to Decertify, *now* the election results which is nothing but chicanery and fraud. Vos, Steineke, Evers, Kaul, the WEC and much of the Wisconsin Supreme Court must resign and face criminal charges. It is utterly impossible to reconcile the corrupt words of Rep. Steineke with the contempt he shows for his solemn Oath.

553,000 suspicious, illegal, unlawful, unverified ballots – 16.8% - of the 3,298,041 total Presidential votes cast, is what Wisconsin has done to cheat America. That's what we will now call Wisconsin: CHEATERS and LIARS. They conspired with Zuckerberg's

AMERICAN OVERSIGHT

$9 million to rig, with five other States, a Presidential election against 330 million Americans. Sold their public souls. And you won't Decertify the election results? This writer outright rejects Wisconsin's election results as valid; they are manipulated and fraudulent, with too many unexplained mysteries in turnout, votes, registrations, population and spikes coupled with the 553,000 unverified ballots.

Talk to any criminal lawyer or Judge: they will tell you this: successful completion of a criminal act is not necessary to be guilty or convicted of conspiracy to obstruct or commit a crime, merely *"an agreement, by two or more persons, to commit unlawful acts"* – that is what is happening now. And the Statute of Limitations has not even begun to run, because Biden is *still* in Office and Wisconsin and Federal officials are *still* conspiring to cover-up and defraud millions of citizens against their Oath. And none of you have *disavowed or defeated* the conspiracy by Decertification – you accept it. Where is your courage and integrity? Missing in action! What will you do when you stand before God, if you can't even muster the courage to stand here? Have you no fear of God, the Constitution, the law and fellow citizens?

This writer will complete his detailed Criminal Indictment Report; and it will show by clear and convincing evidence that Wisconsin public officials – and the other five Battleground States - conspired to Defraud the United States and the Electoral College in the 2020 Presidential Election; and are now conspiring to obstruct, block and impede any independent investigation or rectification of the same, even while evidence mounts and calls for action abound. It will be sent to those States; also be sent to the highest levels of the FBI/DOJ who are also deeply enmeshed in this serious criminality. Does Joe Biden, even remotely, look like a legitimately elected President after 14 months in Office? Does

AMERICAN OVERSIGHT

the fact that he is a “devout Catholic” who ardently seeks to kill unborn babies every chance he gets, give you any clue?

This writer can assure these readers: he has direct, first-hand knowledge and experience of a very high-level State official (the highest you can get), who (just recently) paid the ultimate price for repeated, criminal violations of sworn Oaths. And it stunned the legal community. I am respectfully warning you….you are doing what this official did. Do you realize you are swearing to a higher authority Who will judge you very severely on this matter? Do you understand, **“I do solemnly swear…”** Moreover, Wisconsin and 5 other States precipitated, by their election fraud and conspiracy, the tragic Capitol riot on J6, which resulted in 6 – 8 deaths and hundreds of false prosecutions. Do you feel no remorse? Another **dispairing** J6 detainee has just committed suicide on your watch. Tell that to your arrogant Wisconsin Supreme Court.

Respectfully, with disgust, *Mark Thomas*

Subject: Wisconsin election results

Hello representative Voss. I have supported you for quite some time and am discouraged by what I'm hearing about your leadership. I encourage you to use whatever tax money you need to give our state a forensic election investigation. Do not forget that my vote along with many of my friends will heavily depend on what you will get done about pass and future elections. I k ow you've been working hard to do this but will ultimately get vetoed by the governor. As of right now I will not be voting for you in the future. I don't think you have good leadership for the republicans that represent our great state.
I have contacted all of my local state representatives with these concerns as well not just you but am most disappointed with your resent actions as a leader.
I always do have to thank you for your time and hard work I just have to respectfully disagree with you right now.

Republican Party of Wood County

P.O. Box 884, Marshfield, WI 54449 715 502 9810

February 3, 2022

To: Wisconsin Republican Party Chairmen

From: The Executive Board of the Wood County Republican Party

Subj: Full support the Iowa County Resolution to Republican Party of Wisconsin

The Executive Board of the Wood County Republican Party is greatly concerned by the fact that Assembly Speaker Robin Vos is not representing the Republican constituents of Wood County. Speaker Vos' actions, statements and his general disregard of the clear facts throughout the various investigations of the fraudulent election of 2020 are reprehensible. These misguided actions by Speaker Vos and the fact that he continues to impede the investigations and ignoring the will of the people effectively demands his removal from both the Speaker's chair and from the Assembly.

Robin Vos' actions toward Assemblyman Timothy Ramthun show his contemptuous nature and further support his removal. Speaker Vos presumes too much control over potential Statewide Republican candidates and has ignored the people's voice for too long. The Wood County Republican Party Executive Board demand that Representative Ranthum's staff (both full time and otherwise) be reinstated.

And finally, we strongly suggest that Speaker Robin Vos's constituents begin the process of removing him from office.

Signed with regrets but in all sincerity,

Executive Members of the Wood County Republican Party:

Mike Derrie, Chairman

Mike Derrie

Joe Humphrey, Vice Chairman

Kenosha Election Bribery Suit Filed Today (three down, 2 to go)

Today, we filed an Election Bribery suit against Kenosha Mayor Antaramian and his clerk.This Election Bribery suit is the same suit we filed in Green Bay and Racine against their mayors and clerks, so that brings us to three of the WI-5 completed with Milwaukee and Madison to follow.You can read the entire Kenosha Election Bribery complaint here -Kenosha Election Bribery

Gableman reporting on Tuesday, March 1

Mike Gableman's Special Investigation report will be delivered to Assemblyman Janel Brandtjen's Elections and Campaign Committee on Tuesday, March 1 starting at 10 A.M. This will be broadcasted on Wiseye.org. WVA along with Thomas More SocietySpecial CounselErick Kaardalhave conducted a private investigation parallel to Gableman's investigation. Kaardal on behalf of WVA will also testify at the committee hearing regarding WVA's private investigation results. After the hearing, Thomas More Society and Wisconsin Voters Alliance will host a press conference where Assemblyman Janel Brandtjen, WVA President Ron Heuer and Thomas More Society Special Counsel Erick Kaardal will answer the media's questions.

Booking a Billboard in a Woke World

The Wisconsin Voter Alliance, with the help ofdonations, launched their first billboard in Green Bay on Feb 14, 2022.We have an electronic billboard with Jones sign, and the feedback we have been getting from the Green Bay area is all positive, with new members and donations from folks we have never communicated with before.

You would think booking/reserving a billboard would be relatively easy.I can attest to how easy it can be when you are working with a company that doesn't set out to censure your message as in 2020 we purchased billboards in support of Trump with no difficulty at all.That was with Jones sign company.

Lamar Advertising, on the other hand I've learned, is a left leaning organization that will censure advertisers.That certainly was my experience, and it was time consuming and frustrating. When I first started to book the billboard in Green Bay, I knew which companies had the best placed boards with high traffic count. It so happened that Lamar had two of those signs, one of which was available. In working with the local Green Bay Lamar sales office, I presented to the salesperson the information I wanted on the board. He checked with his local Green Bay management, and it was 100% go forward. Then somehow, their corporate offices in Baton Rouge, LA got involved and they rejected the wording on our billboard. This came from their Executive VP of Governmental Relations, Hal Kilshaw, "We do not post criminal accusations unless there has been a judicial determination of guilt".

AMERICAN OVERSIGHT

What was interesting is when I pushed hard to have Lamar GRB provide me the name of the person who made that decision, they wouldn't give up his name, only his title, and that only after pursuing that with several emails and phone calls.Further, Jones Outdoor company had no problem with our message and our message was also approved by Link Media Outdoor.

Why what we are doing is so important

As you are painfully aware, we have a Democrat as a Governor, and Gov Evers has vetoed the seven election integrity bills passed in March of 2021.So that pretty much leaves the election scheme the same as it was on Nov 3, 2020.

As we have witnessed recently, in Waukesha, a Circuit Court Judge ruled the Absentee Ballot Drop Boxes were illegal, and after a bit of dancing, the WI Supreme Court has ruled they cannot be used in the April election.It is very likely the Supreme Court will rule that these drop boxes should not be used going forward, we'll see.

Meanwhile, the legislature is again taking a stance on the "Zuckerbucks" issue. Thanks to Assemblyman Taylor August, who drafted the 2021 Senate Joint Resolution 101, we are on the way to amending the Wisconsin Constitution to block private money from being injected into our elections. You can read2021 Senate Joint Resolution 101here. THIS RESOLUTION WAS PASSED BY THE LEGISLATURE LAST NIGHT.

The rules for amending the state constitution require this resolution to be passed a second time by the legislature in session.That will occur in Jan or Feb, 2023.Following that, the Resolution has to pass a statewide election as a referendum in April of 2023.Once it is passed on a referendum, about 10 days later, it is recognized as an approved amendment to the WI Constitution.

You can see there is a bit of time to deal with here, and in the meantime, unless we WVA can get some traction in the courts, things will be status quo. That is why WVA has developed sample resolutions and sample ordinances that we are distributing to counties and municipalities. We are urging municipalities and counties to pass these ordinances that will stop the flow of any private money entering the election process. The Counties of Kewaunee, Walworth and Shawano have already passed resolutions encouraging their county boards to pass ordinances that stop private money from controlling our elections.

Another development is there is a move in the City of Green Bay with certain council members working to have the city pass a similar ordinance.

WE NEED YOUR HELP!OUR BILLBOARD CAMPAIGN FOR THE WI-5 CITIES IS EXPECTED TO COST $58,000.WE ARE ONE-THIRD OF THE WAY THERE.If you would like to donate to our billboard project go here –Billboard Donations, to becomebecome a WVA Member.

Thank you,

Ron Heuer
President, WVA

Subject: WVA Update - March 3, 2022

Attachments: WVA GRB Board 2_14_2022.jpg

This has been a very busy week with the Office of Special Counsel taking the center stage with Mike Gableman delivering his Office of Special Counsel - 2nd Interim Report to Representative Janel Brandtjen Campaign and Elections committee. His nearly 3 hour presentation was interesting but did not necessarily follow the actual interim report.

In the early part of the presentation Mr. Gableman suggested that Wisconsin Election Commission (WEC) needed to be dissolved, and further he brought up the idea of decertifying the 2020 election. Regarding WEC, it definitely needs to be reorganized with new leadership and reporting structure. But regardless of that,there will have to be some type of state administrative group that provides services to the clerks throughout Wisconsin.

About the decertification statement, it was unfortunate for two reasons. First, once that statement was made, the entire press focused their stories on that issue and did not report on the other areas of Mr. Gableman's report. By the way, the press did not report the fact that later in Mr. Gableman's reporting he indicated that it is not possible to decertify given current Wisconsin law.Today, WILL attorney Rich Esenberg was on WISN radio and reiterated there is no legal path of decertifying given our current laws.

Secondly, by bringing up the decertification and having the press focus on that issue, it renewed the debate within the WIGOP and a split between many members of the GOP. This is exactly what the media loves, having the GOP fighting internally rather than focusing on the issue of unification and winning the next elections.

Over the past sixteen months Erick Kaardal, the Thomas More Society lawyer and I have been conducting investigations into the 2020 election. We amassed a great deal of evidence to support our litigation. We cooperated fully with the Special Counsel's Investigation and made available all our investigative material in the following areas: CTCL / WI-5 Cities GOTV Campaigns, Election Certification, Illegal Absentee Ballot Drop Boxes, Election Bribery WI Statute §12.11, Wisconsin Election Commission (malfeasance and involvement), Nursing Home Investigation, Elderly Voting Abuse and Data Sharing.

Following the Gableman presentation, Wisconsin Voter Alliance and Thomas More Society held a press conference at the capital and you can view that press conference here Wisconsin Voter Alliance and Thomas More Society Press Conference. On Wednesday I was invited to appear on the Real Americas Voice and that interview can be viewed here Real America's Voice News.

For some reason, in the last email I sent concerning the billboard we had some folks that couldn't see the billboard. So, this time, I am embedding it in the email and also attaching it as a jpg. Our good friend Ed Perkins from Appleton participated with the Wisconsin Voter Alliance members on this funding for this particular sign. WVA thanks Ed and all those who have contributed thus far.

AMERICAN OVERSIGHT

For the first month this was an electronic billboard on Hwy 172 in Green Bay, although the electronic billboard is flashy and eye-catching, the 6 second intervals for the sign appearing didn't seem long enough for people to get the message. We are moving to a static billboard on Hwy 41 near the "Out a Town" supper club.

WVA is working on placing this billboard in Racine, Kenosha, Milwaukee and Madison and we **still need your support in accomplishing this goal**. Keep in mind we need to keep pressure on the mayors of these cities on a long term basis to keep them honest. Visit our website and donate, and, encourage your friends relatives, neighbors and others to become members of WVA.

Ron Heuer

Subject: You MUST complete the Investigation into Vote Fraud in WI 2020 Election!

Dear Speaker Vos,

For future election in WI, it is necessary to make sure WI Election Ballots are legally processed.It critical to have fair election that WI Election Ballots arefilled out and processed according to WI Election Laws. It is only proper to continue to investigate accusations of fraudulent behavior by elected, appointed election officials or volunteers working in the 2020 election. Individuals that perpetrated vote fraud MUST be brought to justice and punished to the fullest extent of the law and banned from associating with political campaigns for life. Life expulsion from politics because there are professional soccer players banned for life for cheating. I think State Election are a bit more important than a Soccer match... Time to MAN-UP....

Sincerely
Jack from Caledonia

Subject: Your actions

So Weasel Vos, what everyone knew to be true was now reaffirmed by the courts, the corruption in the election was performed by you and your fat-ass known liar the corrupt Gableman, the most disgraced ex-justice ever. How much taxpayer money did you waste on him? And how much kickback did you get of that? His "report" was decided before he started any "investigation" it was a preplanned outcome. Everyone knows you are corrupt and a liar, only the diehard corrupt Republicans don't care because Republicans worship corruption, that's why you adore Traitor Trump and his buddy Putin. The face and leader of the Republican Party showed the world what Republicans stand for when he called Putin a genius, and then the two radical right-wing leaders of the Republicans stood up as the bimbos they are and heckled President Biden when talking of soldiers sacrifices, something Republicans don't care about at all. It is time you retire and take your bribe money and go into hiding, everyone is sick of you and your corruption. Get the hell out of government, get the hell out of Wisconsin! You worthless piece of crap, and that goes for your whole family.

Subject: your goals

No concerns about the virus, gun violence, increase consumer prices so that the corporations can become richer while the working class struggles while your main focus is taking the right for people to vote to satisfy your dictatorship control mentality in dividing US!

Former White House press secretary said the complete liar the hoax fake bone spurs 'would roll his eyes at the rules, so we did, too'!

Your party is the complete opposite of pro-life concerning the virus and absolutely no concerns about gun violence!

We now have 11,556 virus deaths just in Wisconsin and you continue to have no concerns reflecting the negative mentality of I don't pay any taxes corporate just give me the money johnson and how he loves American and Wisconsin in NOT supporting vaccinations, wearing masks and bringing jobs to Wisconsin. All I know is that my mother would be kicking you in the ass for ignoring the facts about the virus!

We are seeing more and more gun violence by people that are NOT protecting themselves and how many police officers have been shot and killed and injured by shootings while showing no concerns!

We are seeing more and more people following the complete corporate liar the hoax fake bone spurs mentality of not following rules, regulations, laws and our constitution - **Former White House press secretary said the complete liar the hoax fake bone spurs 'would roll his eyes at the rules, so we did, too'!**

Dismantling the Wisconsin Elections Commission was on agenda for corporate just give me the money johnson meeting at state Capitol, text messages show who is also a great supporter of the dictatorship mentality of his good friend the hoax fake bone spurs who is also a complete corporate liar! And double dip vos also supports taking away the people's right to vote while taking the real taxpayer's money!

And this is the dictator that he supports and the dictator supports him!

Confederate Flags, Conspiracies, and the Ghost of JFK Jr.: What I Saw at bone spur's Bananas texas Rally!

- At a rally in texas, bone spurs called for nationwide protests if prosecutors investigating him "do anything illegal."
- He sought to link the investigations to his baseless claim that the 2020 election was rigged.

AMERICAN OVERSIGHT

Speaking at a texas rally, former president the hoax fake bone spurs called for nationwide protests if prosecutors investigating him and his businesses "do anything illegal."

In the speech, he appeared to link the investigations to his baseless claim that the 2020 election was rigged, which led to the January 6 Capitol riot.

"If these radical, vicious, racist prosecutors do anything wrong or illegal, I hope we are going to have in this country the biggest protest we have ever had in Washington DC, in New York, in Atlanta and elsewhere because our country and our elections are corrupt," bone spurs told the crowd in conroe, texas on Saturday night.

So, the hoax fake bone spurs didn't have anything to do with Jan. 6th the way he is talking now? How much more evidence do we need?

When someone has never been held accountable it is hard to face the facts!

Former presidentthe hoax fake bone spur's chilling comments at his texas rally last week offeringpardons to Jan. 6 riotersif he's elected and calling for "massive protests" if prosecutors take action against him are signs that he's in "burn-it-all-down mode," warned Monday.

The reporter also pointed out the similarities between bone spur's call for the "biggest protests" the nation has ever seen if he is criminally charged now to his call at his Jan. 6, 2021, rally to "fight" and march on the U.S. Capitol.

A key factor in his behavior is that the unfettered bone spurs has so far suffered no significant consequences other than losing the 2020 presidential election toJoe Biden.

"You see the portrait of somebody who really doesn't care anymore and wants to put it all on his terms and who knows that he can keep pushing the bounds, and there basically, so far, other than losing the election ... there have not been that many penalties,"

A republican representative says the hoax fake bone spurs shouldn't have torn up White House documents, says 'nobody should be exempt' from records laws!

The National Archives and Records Administration — which is charged with preserving all presidential records — was forced to retrieve boxes of documents from former president bone spur's mar-a-lago residence (that we the real taxpayer's have paid for) last month that were improperly removed from the White House.

The boxes were supposed to be turned over to the agency at the end of his presidency.

ThePresidential Records Act

Presidential Records Act (PRA) of 1978

The Presidential Records Act (PRA) of 1978, 44 U.S.C. ß2201-2209, governs the official records of Presidents and...

requires the preservation of memos, letters, notes, emails, faxes and other written communications related to a president's official duties.

You support dictatorship and dividing US! This is your love!

putin and un are so proud of you!

Subject: Your statement

Representative Voss,
Listening to the radio yesterday I heard a statement from you (in your own words) that it is impossible to recall the electors of the 2020 election. Is this correct? Truthfully there are few things that are impossible. Of course if you refuse to take action then nothing will change. It is insanity to believe that investigation of allocations of fraud can not or should not be investigated. What law states investigation of fraud is unconstitutional? Perhaps it is unconstitutional to act on the results of an investigation. So the question is, why are you avoiding the results of an investigation and jumping immediately to assuming that the electors will need to be recalled. What has the investigation shown. If all is above board show the public on all media platforms your explanation of why fraud allegations are not substantiated and therefore the electors can not be recalled. If you are concerned with not being re-elected, if you refuse to move forward based on all the evidence presented shows fraud, rest assured that Americans have had enough of elected officials who do not have the courage to seek the truth regardless of the consequences. Only those who respect and act upon the truth will continue to be in governmental power.
If fraud is shown then the election itself is a fraud and cannot stand. Then the person who committed the fraud was not elected to office in the first place. Then yes, the electors CAN be recalled, even if it has never been done before.
Respectfully,
Elaine Fillmore

Subject: your support of dictatorship

The mirror image of dictatorship we have that you support!

It is so interesting that you had no concerns about the complete corporate liar the hoax fake bone spurs actions before, during and after he was in office!

Remember he ignored the virus while calling it a hoax and delayed getting the vaccine out into public while giving bonus checks to corporation/companies like himself, farmers and double dip vos. We saw the divide mentality already in Wisconsin with snake walker after being elected and going after people and groups that didn't support him during election instead of trying to work together after the election. And double dip vos is still wasting the real taxpayer's money and calling the 2020 election fake. The fake we have is the radical right party! Dividing people is what your party is all about. mob control is your new mentality.

Tell me I don't pay any taxes corporate just give me the money johnson how many more people began billionaires and companies increased their profits during the year of the covid during the hoax 's last year in office while consumer prices went UP? And can you live on $30,000-$40,000Yr?

Former White House press secretary said the complete corporate liar the hoax fake bone spurs 'would roll his eyes at the rules. The mirror image of putin his good friend the dictator.

And the hoax fake bone spurs took documents to mar-a-lago that are so sensitive they may not be described in public, report says. And yet you have no concerns for his negative mentality!

Complete idiot greene and I upport dictatorship gosar, members of congress who spokeat a white nationalist eventin florida this week. **The hoax fake bone spurs praises idiot greene, who just spoke at a white nationalist conference. Complete idiot greene insists 2020 election was rigged, but 'no, i don't know how?**

And this is the dictator that you support with no concerns**!** Confederate Flags, Conspiracies, and the Ghost of JFK Jr.: What I saw at bone spur's Bananas texas rally!

At a rally in texas, bone spurs called for nationwide protests if prosecutors investigating him "do anything illegal."

He sought to link the investigations to his baseless claim that the 2020 election was rigged.

Speaking at a texas rally, former president the hoax fake bone spurs called for nationwide protests if prosecutors investigating him and his businesses "do anything illegal."

AMERICAN OVERSIGHT

In the speech, he appeared to link the investigations to his baseless claim that the 2020 election was rigged, which led to the January 6 Capitol riot.

"If these radical, vicious, racist prosecutors do anything wrong or illegal, I hope we are going to have in this country the biggest protest we have ever had in Washington DC, in New York, in Atlanta and elsewhere because our country and our elections are corrupt," bone spurs told the crowd in conroe, texas

And hw follows the mirror image of putin I don't pay any taxes corporate just give me the money johnson (r-Wis.) said Sunday that Democrats including President Joe Biden, House Speaker Nancy Pelosi (Calif.) and Rep. Adam Schiff (Calif.) all are part of the reason that putininvadedUkraine.

The complete corporate liar the hoax fake bone spursrepeatedly spoke highlyof putin's strategic acumen, noted the strongman's intention to **"re-build the russian Empire" and defended putin's habit of killing dissidents and journalists, arguing that the United States does the same thing.** So, it is ok to kill people who don't agree with you. No wonder you support gun violence and weapons like ar-15 in our society!

The hoax fake bone spurs on Tuesday praised russian president(?) putin's decision to send russian troops into Ukraine to support russian-backed separatists in the Luhansk and Donetsk provinces.

Radical mob right so-called representative for Wisconsin I don't pay any taxes corporate just give me the money johnson said Saturday he won't try to persuade a Wisconsin manufacturer to place more than 1,000 new jobs in his hometown. Instead of giving well-paying jobs to my so-called love state Wisconsin, reward other states the mentality of I don't pay any taxes corporate just give me the money johnson!

And another example of how you really don't want to help the people while your support of giving tax breaks to corporations **I don't pay any taxes corporate just me the money johnson says it's not 'society's responsibility' to care for 'other people's children' while arguing against child care subsidies for working parents.** He previously said he was "not a real fan" of thechild tax credit.

Subject: Zuckerbucks were bribery, WEC should be disbanded & Gov't Officials attempts to impede the investigation

---

"Earlier today, the special counsel provided a second interim report to the state legislative body, noting the report “is final in the sense that it provides a list of recommendations with time for the Legislature to act before the close of its session in March.”

"From the details exposed in Monday’s special counsel report, the state legislature has much work to do to address “the numerous questionable and unlawful actions of various actors in the 2020 election.” The first unlawful action, according to the report, concerned the payment of grant funds to five Wisconsin counties that were used to facilitate voting. That arrangement, Gableman wrote, violated Wis. Stat. § 12.11, which prohibits election bribery by providing it is illegal to offer anything of value to or for any person in order to induce any elector to go to the polls or vote."

"The special counsel’s report also highlighted the Wisconsin Election Commission (WEC) illegal directive to clerks to ignore the state election code governing voting in nursing homes. In several nursing home locations throughout the state, 100 percent of registered voters cast a ballot in the 2020 election—an unheard-of rate that included many ineligible voters."

" pecial Counsel Gableman detailed many other substantial problems with the 2020 election, but equally troubling to the widespread violations of election law established in the report were the attempts by government officials to impede the investigation. Both the Wisconsin Election Commission and the state attorney general “have refused to cooperate with the Legislature’s investigation and actively obstructed it,” according to the report, with a separate appendix detailing how the Office of Special Counsel and the state Assembly have been blocked from investigating portions of the Wisconsin government."

Office of the Special Counsel Investigative Report
Executive Summary
Summarized by the Vos Office
3/1/2022

Introduction: The purpose of this report is not to challenge the certification of the presidential election but rather produce recommendations to correct certain processes for future elections. These recommendations focus largely on enabling oversight and transparency of election systems and maintaining political accountability. Special Counsel notes that the investigation is not yet complete due to pending legal roadblocks.

The Special Counsel report discusses the following findings:

Chapter 1 - The $8.8M Provided to Wisconsin by the Center for Tech and Civic Life (CTCL) should be considered as bribery under the law: WI Stat 12.11 prohibits a city from receiving money to facilitate electors going to the polls or voting by absentee ballot. Grants provided by CTLC to Madison, Milwaukee, Racine, Kenosha, and Green Bay (Zuckerburg 5) were meant to facilitate voter turnout in targeted neighborhoods – particularly to historically disenfranchised residents. The report details the ways the Zuckerburg 5 utilized grant funds to accomplish these goals. References are made to the WILL election review which found that these funds led to a statistically significant increase in turnout for cities that received CTCL grants.

Chapter 2 – The motive for private funding was impermissible and a partisan get-out-the-vote effort.

Chapter 3 – Government oversight has been obstructed by governmental and outside corporate collusion: Counsel reports WEC, the State Attorney General, the Governor, and private organizations have actively resisted and obstructed the investigation. The report details the methods of obstruction.

Chapter 4 – The Zuckerburg 5 engaged in questionable actions as a result of private funds: Counsel reports on ways private companies engaged in unlawful election administration practices. Various concerns are raised including a report that WEC sent out more FIDO (Fast ID Online) keys to local governments than were requested and records were not accurately maintained. These keys allow the user to access the Statewide Voter Registration system (WisVote). CTCL did not follow WEC's rules to obtain WisVote data. Further, Counsel reports that CTCL "approved organizations" including the National Vote at Home Institute, were engaged in election administration duties. This delegation of duties led to Green Bay's former clerk Kris Teske testifying that election administration decisions were made "outside of the Clerk's office."

Chapter 5 – Corporate legal defense for clerks might violate the Wisconsin Ethics Code: Providing free legal defense services for election officials may violate WI State. 19.59 (1)(b). Counsel reports that the Center for Election Innovation and Research (CEIR), funded by Zuckerburg, provided these services to clerks.

Chapter 6 - Use of Absentee Ballot Drop Boxes violated the law: The procurement of drop boxes was facilitated by private funds provided to Wisconsin by the Center for Tech and Civic Life (CTCL). The Circuit Court ruled in *Teigen v. WEC* that the use of these boxes is not permitted under Wisconsin Law.

AMERICAN OVERSIGHT

Chapter 7 - Special Voting Deputies were unlawfully restricted from entering care facilities resulting in suspicious rates of voting: Counsel reports on facilities that saw voting rates of 100% of registered voters. Due to guardianship orders or incapacity, this turnout rate is unlikely. Counsel details several care facility residents who voted despite being deemed incompetent or incapable of voting.

Chapter 8 – **WEC encouraged evasion of ballot security measures related to "Indefinitely Confined" Voters:** The Indefinitely Confined statutes were misconstrued by Dane and Milwaukee County Clerks who issued statements that they would send ballots to voters who were indefinitely confined due to a fear of contracting COVID-19.

Chapter 9 - Incapacitated persons were allowed to vote unimpeded: WI Stat 6.03 disqualifies citizens from voting who are incapable of understanding the voting process. Wisconsin election officials did not list ineligibility information on WisVote, nor did they distribute a list of ineligible voters to clerks to prevent Election Day registration.

Chapter 10 - Non-citizens voted unimpeded by Election Officials: WI Stat 6.02 requires citizenship to be qualified as an elector. Election Officials did not list ineligibility information about non-citizens, nor did they distribute a list of ineligible voters to municipal clerks to prevent Election Day registration.

Chapter 11 - Zuckerburg 5 Election Officials violated the equal protection clause by not treating voters equally: Private funds were used to increase voting access for targeted demographic groups to affect election outcomes. In *Obama for America v Husted*, the court ruled that it would be "worrisome… if states were permitted to pick and choose among groups of similarly situated voters to dole out special voting privileges."

Chapter 12 of Special Counsel's report details a number of recommendations for legislative consideration. These include:

- **Eliminate the Wisconsin Elections Commission** – the Secretary of State could handle elections or a collective body of county clerks.
- **Eliminate or Reduce Fees for Voter Registration Data**
- **Maintain a Single Statewide Voter Registration Database, and Make it Publicly Available and Secure**
- **Create an Office to Engage in Audit and Oversight of Elections**
- **Prohibit Certain Contractual Terms in Government Contracts** – example: prohibit terms which block WI government entities from obtaining or releasing data that they paid for.
- **Minimize Pre-Voting** – widespread absentee and absentee in-person voting makes oversight nearly impossible. Instead, in-person voting should be prioritized.
- **Encourage In-House Tech Support –** consider a single statewide machine system or single-client vendor.
- **Exit the Electronic Registration Information Center (ERIC)**

Legislative Recommendations to Serve Political Accountability:

- **Provide a Method for Private Challenge to WI Voter Rolls**
- **Locate Certification of Presidential Electors in a Politically Accountable Body –** such as the association of elected county clerks.
- **Provide a Method for Pre and Post-Certification Challenge to Presidential Elections**

- **Prohibit Outside Funding and Staff in Elections Administration**

Recommendations for the Wisconsin Elections Commission:

- **Comply with Legislative Audit Bureau Recommendations**
- **Enter Into Data-Sharing Agreement with the Wisconsin Department of Transportation, Health Services, and Corrections.**
- **Provide Additional Training to Clerks**

Recommendations for Clerks:

- **Familiarize Yourself with Your Wisconsin Code Authority –** many clerks believe WEC guidance is binding, even if they believe the guidance is unlawful.
- **Make Independent Assessments –** if they believe WEC guidance is contrary to law, clerks should make an independent assessment as they are the elected official responsible for elections administration.
- **Carefully Review Outside Contracts**
- **Explicitly Prohibit Staff from Engaging in Get Out the Vote Operations**
- **Consider Robust Voter Roll Review in Your Jurisdiction**
- **Maintain an Exhaustive and Clear List of Election Day Personnel**
- **Catalog All Absentee Ballots Sent Out and Returned**
- **Do Not Engage in Ballot Curing**

Chapter 4 – The Zuckerburg 5 engaged in questionable actions as a result of private funds: Counsel reports on ways private companies engaged in unlawful election administration practices. Various concerns are raised including a report that WEC sent out more FIDO (Fast ID Online) keys to local governments than were requested and records were not accurately maintained. These keys allow the user to access the Statewide Voter Registration system (WisVote). CTCL did not follow WEC's rules to obtain WisVote data. Further, Counsel reports that CTCL "approved organizations" including the National Vote at Home Institute, were engaged in election administration duties. This delegation of duties led to Green Bay's former clerk Kris Teske testifying that election administration decisions were made "outside of the Clerk's office."

Chapter 5 – Corporate legal defense for clerks might violate the Wisconsin Ethics Code: Providing free legal defense services for election officials may violate WI State. 19.59 (1)(b). Counsel reports that the Center for Election Innovation and Research (CEIR), funded by Zuckerburg, provided these services to clerks.

Chapter 6 - Use of Absentee Ballot Drop Boxes violated the law: The procurement of drop boxes was facilitated by private funds provided to Wisconsin by the Center for Tech and Civic Life (CTCL). The Circuit Court ruled in *Teigen v. WEC* that the use of these boxes is not permitted under Wisconsin Law.

AMERICAN OVERSIGHT

Chapter 7 - Special Voting Deputies were unlawfully restricted from entering care facilities resulting in suspicious rates of voting: Counsel reports on facilities that saw voting rates of 100% of registered voters. Due to guardianship orders or incapacity, this turnout rate is unlikely. Counsel details several care facility residents who voted despite being deemed incompetent or incapable of voting.

Chapter 8 – **WEC encouraged evasion of ballot security measures related to "Indefinitely Confined" Voters:** The Indefinitely Confined statutes were misconstrued by Dane and Milwaukee County Clerks who issued statements that they would send ballots to voters who were indefinitely confined due to a fear of contracting COVID-19.

Chapter 9 - Incapacitated persons were allowed to vote unimpeded: WI Stat 6.03 disqualifies citizens from voting who are incapable of understanding the voting process. Wisconsin election officials did not list ineligibility information on WisVote, nor did they distribute a list of ineligible voters to clerks to prevent Election Day registration.

Chapter 10 - Non-citizens voted unimpeded by Election Officials: WI Stat 6.02 requires citizenship to be qualified as an elector. Election Officials did not list ineligibility information about non-citizens, nor did they distribute a list of ineligible voters to municipal clerks to prevent Election Day registration.

Chapter 11 - Zuckerburg 5 Election Officials violated the equal protection clause by not treating voters equally: Private funds were used to increase voting access for targeted demographic groups to affect election outcomes. In *Obama for America v Husted*, the court ruled that it would be "worrisome… if states were permitted to pick and choose among groups of similarly situated voters to dole out special voting privileges."

Chapter 12 of Special Counsel's report details a number of recommendations for legislative consideration. These include:

- **Eliminate the Wisconsin Elections Commission** – the Secretary of State could handle elections or a collective body of county clerks.
- **Eliminate or Reduce Fees for Voter Registration Data**
- **Maintain a Single Statewide Voter Registration Database, and Make it Publicly Available and Secure**
- **Create an Office to Engage in Audit and Oversight of Elections**
- **Prohibit Certain Contractual Terms in Government Contracts** – example: prohibit terms which block WI government entities from obtaining or releasing data that they paid for.
- **Minimize Pre-Voting** – widespread absentee and absentee in-person voting makes oversight nearly impossible. Instead, in-person voting should be prioritized.
- **Encourage In-House Tech Support –** consider a single statewide machine system or single-client vendor.
- **Exit the Electronic Registration Information Center (ERIC)**

Legislative Recommendations to Serve Political Accountability:

- **Provide a Method for Private Challenge to WI Voter Rolls**
- **Locate Certification of Presidential Electors in a Politically Accountable Body –** such as the association of elected county clerks.
- **Provide a Method for Pre and Post-Certification Challenge to Presidential Elections**

- **Prohibit Outside Funding and Staff in Elections Administration**

Recommendations for the Wisconsin Elections Commission:

- **Comply with Legislative Audit Bureau Recommendations**
- **Enter Into Data-Sharing Agreement with the Wisconsin Department of Transportation, Health Services, and Corrections.**
- **Provide Additional Training to Clerks**

Recommendations for Clerks:

- **Familiarize Yourself with Your Wisconsin Code Authority –** many clerks believe WEC guidance is binding, even if they believe the guidance is unlawful.
- **Make Independent Assessments –** if they believe WEC guidance is contrary to law, clerks should make an independent assessment as they are the elected official responsible for elections administration.
- **Carefully Review Outside Contracts**
- **Explicitly Prohibit Staff from Engaging in Get Out the Vote Operations**
- **Consider Robust Voter Roll Review in Your Jurisdiction**
- **Maintain an Exhaustive and Clear List of Election Day Personnel**
- **Catalog All Absentee Ballots Sent Out and Returned**
- **Do Not Engage in Ballot Curing**

Speaker Vos on Election Investigation

Madison… Speaker Robin Vos (R-Rochester) released the following statement after Special Counsel Gableman's election investigation report.

"I'd like to thank the Office of Special Counsel for their tireless efforts in finding the truth. They've done a good job at showing there were issues in 2020, and the report is intended to 'help correct these processes for future elections.' Unfortunately, we're experiencing obstruction by ligation, and must first get through the nine separate lawsuits that have been filed to allow us to complete the review."

Office of the Special Counsel Investigative Report
Executive Summary
Summarized by the Vos Office
3/1/2022

Introduction: The purpose of this report is not to challenge the certification of the presidential election but rather produce recommendations to correct certain processes for future elections. These recommendations focus largely on enabling oversight and transparency of election systems and maintaining political accountability. Special Counsel notes that the investigation is not yet complete due to pending legal roadblocks.

The Special Counsel report discusses the following findings:

Chapter 1 - The $8.8M Provided to Wisconsin by the Center for Tech and Civic Life (CTCL) should be considered as bribery under the law: WI Stat 12.11 prohibits a city from receiving money to facilitate electors going to the polls or voting by absentee ballot. Grants provided by CTLC to Madison, Milwaukee, Racine, Kenosha, and Green Bay (Zuckerburg 5) were meant to facilitate voter turnout in targeted neighborhoods – particularly to historically disenfranchised residents. The report details the ways the Zuckerburg 5 utilized grant funds to accomplish these goals. References are made to the WILL election review which found that these funds led to a statistically significant increase in turnout for cities that received CTCL grants.

Chapter 2 – The motive for private funding was impermissible and a partisan get-out-the-vote effort.

Chapter 3 – Government oversight has been obstructed by governmental and outside corporate collusion: Counsel reports WEC, the State Attorney General, the Governor, and private organizations have actively resisted and obstructed the investigation. The report details the methods of obstruction.

Chapter 4 – The Zuckerburg 5 engaged in questionable actions as a result of private funds: Counsel reports on ways private companies engaged in unlawful election administration practices. Various concerns are raised including a report that WEC sent out more FIDO (Fast ID Online) keys to local governments than were requested and records were not accurately maintained. These keys allow the user to access the Statewide Voter Registration system (WisVote). CTCL did not follow WEC's rules to obtain WisVote data. Further, Counsel reports that CTCL "approved organizations" including the National Vote at Home Institute, were engaged in election administration duties. This delegation of duties led to Green Bay's former clerk Kris Teske testifying that election administration decisions were made "outside of the Clerk's office."

Chapter 5 – Corporate legal defense for clerks might violate the Wisconsin Ethics Code: Providing free legal defense services for election officials may violate WI State. 19.59 (1)(b). Counsel reports that the Center for Election Innovation and Research (CEIR), funded by Zuckerburg, provided these services to clerks.

Chapter 6 - Use of Absentee Ballot Drop Boxes violated the law: The procurement of drop boxes was facilitated by private funds provided to Wisconsin by the Center for Tech and Civic Life (CTCL). The Circuit Court ruled in *Teigen v. WEC* that the use of these boxes is not permitted under Wisconsin Law.

AMERICAN OVERSIGHT

Chapter 7 - Special Voting Deputies were unlawfully restricted from entering care facilities resulting in suspicious rates of voting: Counsel reports on facilities that saw voting rates of 100% of registered voters. Due to guardianship orders or incapacity, this turnout rate is unlikely. Counsel details several care facility residents who voted despite being deemed incompetent or incapable of voting.

Chapter 8 – **WEC encouraged evasion of ballot security measures related to "Indefinitely Confined" Voters:** The Indefinitely Confined statutes were misconstrued by Dane and Milwaukee County Clerks who issued statements that they would send ballots to voters who were indefinitely confined due to a fear of contracting COVID-19.

Chapter 9 - Incapacitated persons were allowed to vote unimpeded: WI Stat 6.03 disqualifies citizens from voting who are incapable of understanding the voting process. Wisconsin election officials did not list ineligibility information on WisVote, nor did they distribute a list of ineligible voters to clerks to prevent Election Day registration.

Chapter 10 - Non-citizens voted unimpeded by Election Officials: WI Stat 6.02 requires citizenship to be qualified as an elector. Election Officials did not list ineligibility information about non-citizens, nor did they distribute a list of ineligible voters to municipal clerks to prevent Election Day registration.

Chapter 11 - Zuckerburg 5 Election Officials violated the equal protection clause by not treating voters equally: Private funds were used to increase voting access for targeted demographic groups to affect election outcomes. In *Obama for America v Husted*, the court ruled that it would be "worrisome… if states were permitted to pick and choose among groups of similarly situated voters to dole out special voting privileges."

Chapter 12 of Special Counsel's report details a number of recommendations for legislative consideration. These include:

- **Eliminate the Wisconsin Elections Commission** – the Secretary of State could handle elections or a collective body of county clerks.
- **Eliminate or Reduce Fees for Voter Registration Data**
- **Maintain a Single Statewide Voter Registration Database, and Make it Publicly Available and Secure**
- **Create an Office to Engage in Audit and Oversight of Elections**
- **Prohibit Certain Contractual Terms in Government Contracts** – example: prohibit terms which block WI government entities from obtaining or releasing data that they paid for.
- **Minimize Pre-Voting** – widespread absentee and absentee in-person voting makes oversight nearly impossible. Instead, in-person voting should be prioritized.
- **Encourage In-House Tech Support –** consider a single statewide machine system or single-client vendor.
- **Exit the Electronic Registration Information Center (ERIC)**

Legislative Recommendations to Serve Political Accountability:

- **Provide a Method for Private Challenge to WI Voter Rolls**
- **Locate Certification of Presidential Electors in a Politically Accountable Body –** such as the association of elected county clerks.
- **Provide a Method for Pre and Post-Certification Challenge to Presidential Elections**

- **Prohibit Outside Funding and Staff in Elections Administration**

Recommendations for the Wisconsin Elections Commission:

- **Comply with Legislative Audit Bureau Recommendations**
- **Enter Into Data-Sharing Agreement with the Wisconsin Department of Transportation, Health Services, and Corrections.**
- **Provide Additional Training to Clerks**

Recommendations for Clerks:

- **Familiarize Yourself with Your Wisconsin Code Authority –** many clerks believe WEC guidance is binding, even if they believe the guidance is unlawful.
- **Make Independent Assessments –** if they believe WEC guidance is contrary to law, clerks should make an independent assessment as they are the elected official responsible for elections administration.
- **Carefully Review Outside Contracts**
- **Explicitly Prohibit Staff from Engaging in Get Out the Vote Operations**
- **Consider Robust Voter Roll Review in Your Jurisdiction**
- **Maintain an Exhaustive and Clear List of Election Day Personnel**
- **Catalog All Absentee Ballots Sent Out and Returned**
- **Do Not Engage in Ballot Curing**

PUBLIC HEARING

Committee on State Affairs

The committee will hold a public hearing on the following items at the time specified below:

Monday, February 21, 2022
1:00 PM
412 East

** Testimony time limits may be imposed at the Chairman's discretion*

Assembly Joint Resolution 133
Relating to: requiring photographic identification to vote in any election (first consideration).
By Representatives Snyder, Gundrum, Murphy, Rozar and Steffen.

AMERICAN OVERSIGHT

Assembly Joint Resolution 134

Relating to: prohibiting the use of a donation or grant of private resources for purposes of election administration and specifying who may perform tasks related to election administration (first consideration).

By Representatives August, Vorpagel, Brooks, Spiros, Plumer, Steffen, Armstrong, Penterman, Magnafici, Behnke, Kuglitsch, Moses, Dittrich, Sanfelippo, Wittke, Wichgers, Gundrum, Rozar, Petersen, Krug, Knodl, Tittl, Murphy, Dallman, Allen, Swearingen and Schraa; cosponsored by Senators Wimberger, Roth, Darling, Feyen, Testin and Ballweg.

Assembly Joint Resolution 135

Relating to: applying to Congress under the provisions of Article V of the Constitution of the United States for a convention to propose an amendment establishing term limits for members of the United States House of Representatives and the United States Senate.

By Representative Knodl; cosponsored by Senator Stroebel.

Assembly Bill 991

Relating to: the maximum life and allocation period for Tax Incremental District Number 1 in the village of Withee.

By Representatives James and Rozar; cosponsored by Senators Bernier and Petrowski.

Assembly Bill 996

Relating to: overseeing the administration of elections.

By Representatives Vos, Armstrong, Behnke, Cabral-Guevara, Dallman, Dittrich, Gundrum, Katsma, Knodl, Krug, Kuglitsch, Magnafici, Moses, Murphy, Mursau, Penterman, Plumer, Rozar, Sanfelippo, Steffen, Tusler, Wittke and Schraa; cosponsored by Senators LeMahieu, Darling, Stroebel and Ballweg.

Assembly Bill 997

Relating to: comparison of voter information on the state's official voter registration list with information maintained by the Department of Transportation.

By Representatives Rozar, Allen, Armstrong, Behnke, Brooks, Gundrum, Knodl, Krug, Kuglitsch, Magnafici, Moses, Murphy, Penterman, Petersen, Wichgers and Schraa; cosponsored by Senators Wimberger, Darling, Felzkowski, Marklein and Stroebel.

Assembly Bill 998

Relating to: verifying citizenship of individuals on the official voter registration list and contents of operator's licenses and identification cards.

By Representatives Knodl, Armstrong, Behnke, Brandtjen, Brooks, Cabral-Guevara, Dittrich, Gundrum, Horlacher, Krug, Kuglitsch, Magnafici, Penterman, Petersen, Pronschinske, Rozar, Sanfelippo, Schraa, Tittl, Wichgers, Neylon and Murphy; cosponsored by Senators Darling, Felzkowski, Nass, Roth, Wimberger, Stroebel and Ballweg.

AMERICAN OVERSIGHT

Assembly Bill 999

Relating to: absentee ballot applications, unsolicited mailing or transmission of absentee ballot applications and absentee ballots, secure delivery of absentee ballots, canvassing absentee ballots, voter registration requirements, electronic voter registration, and providing a penalty.

By Representatives Gundrum, Rozar, Armstrong, Behnke, Brooks, Cabral-Guevara, Dittrich, Knodl, Krug, Magnafici, Penterman, Sanfelippo, Wichgers, Allen, Murphy and Schraa; cosponsored by Senators Stroebel, Darling, Felzkowski and Marklein.

Assembly Bill 1000

Relating to: state agency compliance with election laws.

By Representatives Petersen, Gundrum, Armstrong, Magnafici, Behnke, Sanfelippo, Cabral-Guevara, Brooks, Kuglitsch, Wichgers, Krug, Knodl, Murphy and Schraa; cosponsored by Senators Stroebel and Darling.

Assembly Bill 1001

Relating to: notifications to local elections officials and the elections commission regarding certain prospective jurors.

By Representatives Sortwell, Knodl, Allen, Armstrong, Brooks, Behnke, Cabral-Guevara, Krug, Murphy, Rozar, Tittl, Wichgers and Schraa; cosponsored by Senator Wimberger.

Assembly Bill 1002

Relating to: status as an indefinitely confined voter for purposes of receiving absentee ballots automatically and providing a penalty.

By Representatives Duchow, Allen, Armstrong, Dallman, Edming, Gundrum, Knodl, Krug, Kuglitsch, Macco, Magnafici, Moses, Murphy, Mursau, Penterman, Pronschinske, Schraa and Spiros; cosponsored by Senators Bernier, Darling, Felzkowski, Marklein, Wanggaard and Ballweg.

Assembly Bill 1003

Relating to: the resolution of complaints filed with the Elections Commission, submitting to the legislature copies of complaints filed with the Elections Commission, reports concerning possible violations of election laws, postelection audits of electronic voting systems, printing absentee ballot applications for recounts, and granting rule-making authority.

By Representatives Macco, Armstrong, Edming, Gundrum, Knodl, Krug, Kuglitsch, Magnafici, Moses, Murphy, Mursau, Penterman, Schraa and Spiros; cosponsored by Senators Bernier, Cowles, Darling, Stroebel, Felzkowski, Marklein, Wanggaard and Ballweg.

Assembly Bill 1004

Relating to: certain kinds of election fraud, private resources and contracts for election administration, who may perform tasks related to election administration, defects on absentee ballot certificates, returning absentee ballots to the office of the municipal clerk, appointment of election officials, allowing an

AMERICAN OVERSIGHT

employee of a residential care facility or qualified retirement home to serve as a personal care voting assistant during a public health emergency or an incident of infectious disease, and providing a penalty.

By Representatives Macco, Armstrong, Edming, Gundrum, Knodl, Krug, Kuglitsch, Magnafici, Moses, Murphy, Mursau, Penterman, Schraa, Spiros and Allen; cosponsored by Senators Bernier, Cowles, Darling, Stroebel, Felzkowski, Marklein and Ballweg.

Assembly Bill 1005

Relating to: maintenance of the voter registration list, training of municipal clerks, data sharing agreements, pre-election procedures, lines at the polls on election day, and granting rule-making authority.

By Representatives Dittrich, Edming, Knodl, Penterman, Allen, Kuglitsch, Armstrong, Gundrum, Krug, Macco, Magnafici, Murphy, Mursau, Schraa and Spiros; cosponsored by Senators Bernier, Marklein, Cowles, Darling, Stroebel, Felzkowski, Wanggaard and Ballweg.

Assembly Bill 1006

Relating to: requiring the Elections Commission to send guidance documents to the Joint Committee for Review of Administrative Rules.

By Representatives Spiros, Gundrum, Behnke, Brooks, Armstrong, Cabral-Guevara, Duchow, Knodl, Kuglitsch, Magnafici, Murphy, Mursau, Neylon, Oldenburg, Penterman, Rozar, Sanfelippo, Steffen, Tittl, Wittke and Schraa; cosponsored by Senators Darling, Nass, Felzkowski, Stroebel and Ballweg.

Assembly Bill 1008

Relating to: whistleblower protection for municipal clerks who witness and report election fraud or irregularities.

By Representatives Petersen, Krug, Brooks, Behnke, Magnafici, Rozar, Kitchens, Armstrong, Edming, Dittrich, Kuglitsch and Neylon; cosponsored by Senators Bernier, Darling, Jacque and Wanggaard.

Assembly Bill 1019

Relating to: limitations on the total value of taxable property that may be included in a tax incremental financing district created in the city of Wausau.

By Representatives Snyder and Spiros; cosponsored by Senator Petrowski.

Subject: Republicans lead on election reform, Lincoln Hills

View this email in your browser

STATE REPRESENTATIVE

ROBIN J. VOS

SPEAKER OF THE WISCONSIN STATE ASSEMBLY

Election Reform Bills Head to the Governor

Passed yesterday were several common-sense election reform bills, aimed at fixing the flaws we know happened in 2020. Voters want to feel confident in the 2022 elections and beyond, and we were happy to pass these reforms.

AMERICAN OVERSIGHT

Many of these bills address the non-partisan Legislative Audit Bureau's 48 recommendations for consideration by the Legislature and the Wisconsin Elections Commission (WEC) to improve election practices.

Wisconsin elections should be accessible, secure, fair, and transparent. The package of election reform bills advances all of these priorities by:

- * cleaning and maintaining accurate voter rolls
- * ensuring legislative oversight of WEC and estate agencies involved in elections
- * closing voter ID loopholes
- * securing ballot chain of custody
- * reforming indefinitely confined status
- * enacting strong penalties for violating election law
- * ensuring efficient and timely ballot access on Election Day
- * accountability for those who fail to follow election laws
- * conducting frequent and comprehensive audits
- * strengthening reporting requirements to improve public transparency
- * ensuring timely review of election complaints

Watch the video below for more of my comments.

AMERICAN OVERSIGHT

Governor Evers Sits on Lincoln Hills for Three Years

It's so common for Governor Evers to be inept, it's not surprising he has done nothing with Lincoln Hills over the course of three years.

So it was up to Legislative Republicans to once again lead and take action. We passed a bill last night to take the first steps in finally closing Lincoln Hills.

The governor will no doubt take the credit for his two minutes of fame when he signs the bill that we send to his desk since he's done nothing else.

Watch my floor speech below.

SECOND AMENDMENT TO AGREEMENT

THIS SECOND AMENDMENT TO AGREEMENT (this "Second Amendment") is effective as of _____, 2022, by and among **THE WISCONSIN STATE ASSEMBLY** (the "Assembly"), and **CONSULTARE LLC**, a Wisconsin limited liability company, by and through its President, Michael J. Gableman ("Gableman", and together with the Assembly, the "Parties" and each a "Party").

RECITALS

A. The Parties entered into that certain Independent Contractor Agreement effective July 1, 2021 as amended by that certain First Amendment to Agreement (collectively, the "IC Agreement").

B. The Parties desire to further amend the IC Agreement in accordance with this Second Amendment.

C. Capitalized terms used and not defined herein shall have the meaning given the same in the IC Agreement.

AMENDMENT

NOW, THEREFORE, in consideration of the foregoing recitals, the mutual covenants and agreements contained herein, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the IC Agreement is amended and/or supplemented as follows:

1. **Incorporation of Recitals.** The recitals set forth in the section entitled "Recitals" above are hereby incorporated into this Second Amendment as if set forth in full herein.

2. **Budget.** The Assembly shall pay Special Counsel Gableman his monthly salary of $11,000.00 for the months of January, February and March 2022 and, beginning in April 2022, the Assembly shall continue to pay Special Counsel Gableman a reduced salary of $5,500.00 per month to lead, direct, and/or assist ongoing litigation related to the Special Counsel's Investigation (the "Ongoing Litigation"). The Assembly shall continue to pay such reduced salary until the Ongoing Litigation is concluded and/or until either party terminates the IC Agreement. It is acknowledged by the parties hereto, that (i) the Budget approved by the First Amendment to the IC Agreement (the "Budget") only allocated funds for Special Counsel Gableman's salary through December of 2021 and therefore the salary amounts pursuant to this Paragraph are in addition to funds allocated in such Budget and (ii) costs and expenses resulting from the Ongoing Litigation shall be paid for by the Assembly separate and apart from such Budget. Except for the additional amounts pursuant to this Paragraph, The Office of The Special Counsel (the "Office") shall not exceed its Budget unless otherwise approved by the Assembly; provided, however, that unused funds allocated to certain categories in the Budget may be used for other expenses incurred by the Office.

3. **Report**. The Office shall prepare and deliver a report of its Investigation jointly to the Assembly and the Assembly's Committee on Campaigns and Elections on or before February 28, 2022 (the "Report"). It is acknowledged by the parties hereto that the Ongoing Litigation has prevented the Office from fully and properly completing its Investigation and therefore, depending upon the outcome of the Ongoing Litigation, the Report may be updated, supplemented or amended. Upon the conclusion of the Ongoing Litigation the parties shall discuss whether additional resources will be necessary for the Office to fully and properly complete its Investigation.

AMERICAN OVERSIGHT

4. **Miscellaneous**. In the event of any conflict between the terms and provisions of this Second Amendment and the IC Agreement, the terms and provisions of this Second Amendment shall control. If any provision of this Second Amendment or the application thereof shall, for any reason and to any extent, be invalid or unenforceable, neither the remainder of this Second Amendment nor the application of the provision to other persons, entities or circumstances shall be affected thereby, but instead shall be enforced to the maximum extent permitted by law. This Second Amendment may be executed in multiple counterpart signature pages, all of which taken together shall be construed as one and the same document. Facsimile and electronic (i.e., ".pdf") signatures of this Second Amendment shall be treated as original signatures to this Second Amendment and shall be binding on the Parties.

[signature page follows]

AMERICAN OVERSIGHT

IN WITNESS WHEREOF, the Parties hereby enter into this Second Amendment as of the date first written above.

Subject: Wisconsin Election Issues

Each and every American deserves their vote heard, and when I see and hear of the anomalies, fraud and clear ILLEGAL activity that aren't just suspected on happening in Wisconsin's 2020 Presidential election results, but have been PROVEN in some cases, you have NO OTHER CHOICE then to rescind your electoral votes. Anything less leaves the entire country disenfranchised and more than half the country vote voided. This is not an issue of what party or political affiliation did what. This is an issue of ELECTION INTEGRITY. I demand ALL vote be heard, but for all votes to be heard, illegal votes MUST be discredited. Cheating MUST be punished. Truth always shines through.

Stand up for Wisconsinites! Stand up for your country! Stand up for what is right and true and fair, because if you do not, this might be our last chance!

Thanks
