Election Bills – Passed by the Senate on 2/22/22

The list – click on the hyperlink to jump to the details:

1. SJR 101 – Constitutional amendment to ban Zuckerbucks in Wisconsin elections.
2. SB 214 – Monday Count of Absentee Ballots
3. SB 934 – Pre-Election Reforms
4. SB 935 – Election Day Reforms
5. SB 936 – Post-Election Reforms
6. SB 937 – Indefinitely Confined Voter rules
7. SB 938 – Verifying citizenship for voter registration, contents of drivers licenses and ID cards
8. SB 939 – Absentee Ballot Applications & Absentee Ballot Process
9. SB 940 – Voter Registration List verification with DOT data
10. SB 941 – Overseeing the administration of elections
11. SB 942 – State agency compliance with election laws.
12. SB 943 - Requiring WEC to send guidance documents to JCRAR
13. SB 945 – Juror Information Sharing with WEC
14. SB 946 – Clerk Whistleblower Protections

Details:

SJR 101 – Banning Zuckerbucks – Constitutional Amendment
The problem – In 2020, Facebook founder, Mark Zuckerberg, sent $6.8 million into Wisconsin to gain access to election operations. 90% of these private funds went to Milwaukee, Madison, Green Bay, Kenosha and Racine.

This bill solves the problem by:

- Bans private funding into election administration statewide.
- Prevents private entities and wealthy individuals from circumventing campaign finance laws by directly buying access to municipalities for election administration.
- It is a constitutional amendment. It must be passed by two consecutive legislatures (2022, 2023) and then it will go to all voters, statewide, for consideration. The Governor cannot veto it.

SB 214 – Monday Count - Processing of Absentee Ballots
The problems:

- Municipalities that have central count facilities during elections dump massive data into the election count in the middle of the night on election night.
- This happens because current law requires them to wait until election day to begin processing the absentee ballots.
- There are concerns about middle-of-the-night fraud and "found votes" after a significant segment of votes have already been tallied.

This bill solves the problem by:

- Makes Monday processing of absentee ballots mandatory for communities that use central count canvassing (s. 7.51, Stats.) and absentee central count canvassing (s. 7.52, Stats). (Milwaukee)
- Monday processing can only take place between 7am-10pm on the Monday before the election.
- Required to secure the equipment and ballots when canvassing is adjourned for the night.
- Absentee ballots canvassed during Monday count may not be tallied until after the canvass is complete or after the polls close on Election Day, whichever is later.

Return to the list of bills.

AMERICAN OVERSIGHT

- Provide a penalty for any person that intentionally acts in a manner that would give them the ability to know or to provide information on the accumulating or final results on the canvassing.
- Requires someone that is qualified to receive a ballot with the entire slate of contests, they receive a ballot with all the contests, not just a ballot with only the presidential race.
- Adjusts the timeline to transmit absentee ballots to military and overseas electors, so it is consistent with federal law.
- All other absentee ballots would be sent no later than 21 days.
- Adjust the timeline for circulating and filing nomination papers for independent candidates running for president and vice-president so it is consistent with other independent candidates.

- It also allows Monday processing option for non-central count communities (polling place canvassing, s. 6.88, Stats.). The clerk has the authority to decide.
- Limits the processing of the absentee ballots up to the point of putting them into the tabulator.
- Upon processing, the election workers will place the ballots into a secure ballot bag.
- The ballots can be put into the tabulator on the day of the election, but cannot be tallied until canvass is complete or after the polls close on Election Day, whichever is later.
- Municipal Clerk's office must post in the office and online a statement that shows the number of absentee ballots that the board has canvassed and the number of absentee ballots remaining to be canvassed at the end of the first day before the election, at least once every four hours on election day until the polls close, and at least once every hour after the polls close until the canvass is complete.

SB 934 – Pre-Election Reforms

The problem:

- The Legislative Audit Bureau (LAB) audit found that voter registry data was not being updated on a constant or consistent basis.
- Some municipal clerks had not received proper training before administering an election
- Some election-related forms are not up-to-date or statutorily accurate.
- In 2020, some polling places had extremely long wait times because of decisions made to close other polling places.

This bill solves these problems by:

- Requires WEC to regularly update voter registration data from the Electronic Registration Information Center (ERIC).
- Clarifies that WEC needs to do this – not just local clerks.
- Requires data sharing agreements with Department of Transportation (DOT), Department of Health Services (DHS), Department of Corrections (DOC) to be in force at all times and data shared and updated daily.
- Electronic election equipment (voting machines) cannot be connected to the internet. A direct, point-to-point connection between tabulators and a county election server is allowed.
- Legacy information from previous registration systems must be removed from the state's voter database.
- Clerks must receive three hours of training before election day. If this is not possible, the county clerk must step in to run the election.
- If a polling place makes a voter wait for more than an hour, the chief inspector must complete an incident report and they must take steps to ensure that voters do not wait for more than an hour at future elections.
- WEC must review and update all election-related forms at least once every four years.

AMERICAN OVERSIGHT

SB 935 – Election Day Reforms
The problems:

- Private funding (Zuckerbucks) were given to some municipalities to buy access to election operations in 2020 and people from this privately-funded organization were given unique access to voter data and election operations in five communities.
- The COVID-19 pandemic created a problem with allowing Special Voting Deputies (SVDs) to go into nursing home facilities to provide support for residents to vote by absentee. WEC issued guidance that caused significant confusion and distrust of the process for nursing home residents to vote.
- Clerks throughout the state decided to "cure" absentee ballot envelops that were incomplete of their own volition.
- Anecdotal allegations of "fraud" have been made, but not reported throughout the state.

This bills solves these problems by:

- Bans Zuckerbucks.
- Creates felony for anyone who is not a state resident from assisting in the vote counting process.
- Creates a clear process for Special Voting Deputies (SVDs) for nursing homes.
- Creates felony for a care facility staff member to coerce a resident to register to vote or vote for a specific candidate.
- Clarifies what a clerk may – and may not – do to "cure" an absentee ballot.
    - Requires clerks to notify the elector of missing information via myvote website.
    - Clerks may contact voter via other means or return the ballot if time permits
    - Clerks may not make any changes to a ballot on their own.
- Sets envelope design standards for absentee ballots.
- Election officials are barred from accepting invalid registrations or rejecting valid registrations.
- Election officials must report any election fraud committed by other officials.
- Elections may be recessed in the case of a natural disaster, fire, etc. But must reconvene as soon as possible.

SB 936 – Post-Election Reforms
The problems:

- There is distrust in the results of the 2020 election.
- There is distrust in the electronic voting machines used throughout the state.
- There are anecdotal allegations of fraud that have circulated, but WEC claims that there are very few formal complaints.

This bill solves these problems by:

- Requires that 5% of all reporting units are audited after an election, including four each from Madison and Milwaukee and at least one from the next 20 largest cities and at least one from every county.
- All types of equipment used in the state must be included in the hand-count confirmation.
- If there is a recount – clerks must print and provide copies of any electronically received absentee ballot request forms for review as part of the recount process.
- Updates complaint process.
    - Most formal complaints must be resolved by WEC within 60 days.
    - Complaint reports must be shared with legislative committees and legislators.
    - Must submit an annual report on formal complaints and a summary of other concerns received by staff.

Return to the list of bills.

AMERICAN OVERSIGHT

SB 937 – Indefinitely confined voting
The problems:

- In the November 2020 election, 215,333 people voted absentee by claiming indefinitely confined status. Many of these people were not indefinitely confined, but claimed the status because of COVID-19.
- Many of these people did not submit a photo ID to claim this status because of a loophole.

This bill solves these problems by:

- Anyone added to the indefinitely confined list between March 12, 2020 and November 6, 2020 will be removed and they must submit a new application.
- All applicants must submit an acceptable form of ID when they apply.
  - Those who do not have an appropriate ID must use the last four digits of the SSN and obtain the signature of a witness.
- Requires a separate application form for Indefinitely Confined status – separate from the Absentee Ballot application.
- Updates the definition of those who may be considered "indefinitely confined".

SB 938 – Verifying citizenship for voter registration, contents of drivers licenses and ID cards
The problem – There is distrust in the voter registration database and there are concerns that non-citizens are voting illegally.

This bill solves the problem by:

- Requires the DOT to indicate "Not Valid for Voting Purposes" on driver's licenses issued to non-citizens.
- Requires WEC to confirm citizenship status of individuals using the Department of Homeland Security's Systematic Alien Verification for Entitlements (SAVE) database.
- Requires check to be carried out 60 days before absentee ballots are mailed for a statewide election.

SB 939 – Absentee Ballot Applications & Absentee Ballot Process
The problems – Absentee ballot usage has grown exponentially. With this growth, it has become apparent that we must standardize forms, envelopes and processes related to absentee ballots so that they are handled uniformly throughout the state.

This bill solves the problem by:

- Requires WEC to prescribe a separate form for the request of absentee ballots that must be separate and distinct from the certificate envelope in which voters seal their ballots. The application must contain specified data. Any clerk issuing a ballot without having received a completed application on the prescribed form is guilty of a Class I felony.
- Requires all Wisconsin voters to include a copy (or upload a copy) of their voter ID when they apply for an absentee ballot. *Note: No change to victims of domestic abuse or overseas military voter provisions under current law.*
- Ends the automatic mailing of absentee ballots and absentee ballot applications by the state, counties or municipalities. Requires non-governmental entities that mail out absentee ballot applications to list the address of the municipal clerk's office as the return address on the envelope. *Exception*: Indefinitely confined voters will be able to automatically receive absentee ballot applications.

Return to the list of bills.

AMERICAN OVERSIGHT

- Allows those returning an absentee ballot to use a for-profit commercial delivery service rather than just the US mail. (UPS, FedEx, Dunham Express, etc)
- Requires a voter to file one absentee ballot application for each primary/general election cycle (i.e., one application in the spring and one application in the fall during even-numbered years and one application in the spring during odd-numbered years).
- Expressly prohibits ballot harvesting. NO person may deliver more than two ballots for any person who is not in a person's "immediate family". Immediate family is defined as spouses, siblings, parent and child or grandparent and grandchild.
- Requires either a valid WI driver's license or the last 4 digits of a person's social security number to register to vote.

SB 940 – Voter Registration List verification with DOT data
The problem – The LAB audit exposed that the voter registration list data needs constant verification and maintenance to retain integrity.

This bill solves this problem by:

- Requires WEC to compare voter registration with DOT data within 10 days of registration.
    - Clerk may make a correction to a single field error.
    - If more than one error exists, clerk must mail a notice to the voter.
    - If voter does not respond in 30 days, registration is suspended.

SB 941 – Overseeing the administration of elections
The problem – WEC needs additional checks-and-balances.

This bill solves the problem by:
- JFC oversight of federal funds sent to WEC.
- Requires state agencies to submit federal election guidance and communications from the federal government or the DOJ related to that guidance to legislative leadership and Joint Committee for the Review of Administrative Rules (JCRAR).
- Every clerk must submit a report with registration and voting statistics within 30 days of an election.
- Requires employees of the elections commission must be nonpartisan.
- Requires WEC to employ partisan attorneys from both parties.
- Requires WEC to archive an electronic copy of the official registration list and retain it for 22 months.

SB 942 – State agency compliance with election laws.
The problem – There is a lack of accountability for state agencies related to election laws. WEC does not have any consequences for breaking – or ignoring – state law.

This bill solves the problem by:
- Requires WEC to submit an annual report to JFC and the Secretary of Administration after the April general election describing in detail any failures of the Commission, DOT, DOC and DHS to comply with elections-related laws.

Return to the list of bills.

AMERICAN OVERSIGHT

- After receiving the report, DOA must submit a request to JFC for the reduction or maintenance of operations funding and FTE authority for the four agencies mentioned in the report.
- JFC has 45 days to approve or modify this request as it sees fit. JFC may reduce FTE allocations and reduce operations appropriations by up to $50,000 a day for each day of noncompliance with the law or provision of erroneous guidance as determined by JFC. After 45 days the request automatically expires.

SB 943 – Requiring WEC to send guidance documents to JCRAR
The problem – There is a lack of accountability for state agencies related to election laws. WEC does not have any consequences for breaking – or ignoring – state law. They issue guidance without any oversight.

This bill solves the problem by:
- Requires weekly reports to JCRAR of guidance given to clerks.
- JCRAR decides whether it must be promulgated as a rule and go through the process.
- Requires guidance documents sent to clerks must contain a disclaimer that includes the definition of a "guidance document" and that guidance documents, unlike administrative rules, do not have the force of law.

SB 945 – Juror Information Sharing with WEC
The problem – The LAB audit exposed that the voter registration list data needs constant verification and maintenance to retain integrity.

This bill solves this problem by:
- If a prospective juror is flagged and disqualified due to not being a US citizen or not living in the circuit for which they were called to serve, this bill requires the clerk of court to notify the municipal clerk or WEC.
- WEC must then examine the registration list for the disqualified juror and remove them if they have voted or are registered to vote and do not have the proper qualifications.

SB 946 – Clerk Whistleblower Protections
The problem –Some municipal clerks are appointed and serve at the pleasure of their municipality. They fear retaliation or dismissal if they report or expose election fraud.

This bill solves this problem by:
- Provides whistleblower protection to municipal clerks who report election irregularities.
- Whistleblower protection means that they cannot be discriminated against in regard to employment, including by being discharged, disciplines or demoted, as reprisal for reporting fraud.

2021 ASSEMBLY JOINT RESOLUTION

To renumber section 3 of article IV; ***to amend*** section 4 of article IV and section 5 of article IV; and ***to create*** section 3 (2), (3), (4), (5), (6), (7) and (8) of article IV and section 9 (3) of article IV of the constitution; **relating to:** legislative and congressional redistricting (first consideration).

Analysis by the Legislative Reference Bureau

A proposed constitutional amendment requires adoption by two successive legislatures, and ratification by the people, before it can become effective.

Resolved by the assembly, the senate concurring, That:

SECTION 1. Section 3 of article IV of the constitution is renumbered section 3 (1) of article IV.

SECTION 2. Section 3 (2), (3), (4), (5), (6), (7) and (8) of article IV of the constitution are created to read:

[Article IV] Section 3 (2) (a) The legislative reference bureau shall acquire appropriate information, review and evaluate available facilities, and develop

AMERICAN OVERSIGHT

programs and procedures in preparation for drawing congressional and legislative redistricting plans on the basis of each federal decennial census.

(b) By December 1 of the year of the federal decennial census, the legislative reference bureau shall obtain from the federal government information regarding geographic and political units in this state for which federal census population data has been gathered and will be tabulated. The legislative reference bureau shall use the information to do all of the following:

1. Prepare necessary descriptions of geographic and political units for which census data will be reported and that are suitable for use as components of legislative districts.

2. Prepare maps of geographic and political units within the state that may be used to illustrate the locations of district boundaries proposed in plans prepared in accordance with sub. (5).

(c) As soon as possible after receiving the federal census data needed for legislative redistricting, the legislative reference bureau shall use that data to assign a population figure based upon certified federal census data to each geographic and political unit described under par. (b) 1. The legislative reference bureau shall prepare and publish an analysis describing the population of current legislative and congressional districts and the extent to which the districts may violate the standards under sub. (5). Upon satisfying these requirements, the legislative reference bureau shall begin the preparation of congressional and legislative redistricting plans as required under sub. (4).

(d) None of the 4 selecting authorities, as defined in sub. (8) (a) 2., may assign or hire any person to work with the legislative reference bureau to prepare for

AMERICAN OVERSIGHT

redistricting under this subsection, to prepare plans under sub. (4), or to oversee either process.

(3) After receipt of a division ordinance or resolution, as provided by law, the legislative reference bureau shall use the federal census data obtained under sub. (2) (c) to assign a population figure based upon certified federal census data to each ward established in the division ordinance or resolution. The legislative reference bureau shall use each ward to which a population figure is assigned in preparing congressional and legislative redistricting plans as required under sub. (4).

(4) (a) Not later than January 1 of the 2nd year following the federal decennial census, the legislative reference bureau shall deliver to the majority leader of the senate and speaker of the assembly identical bills creating plans of legislative and congressional redistricting, prepared in accordance with sub. (5). Either the assembly or the senate shall bring the bill to a vote expeditiously, but not less than 7 days after the commission report under sub. (8) (c) 4. b. is received and made available to the members of the legislature. The vote shall be under a procedure or rule permitting no amendments. If the bill is approved by the first house in which it is considered, the bill shall expeditiously be brought to a vote in the 2nd house under a similar procedure or rule.

(b) If neither of the bills delivered by the legislative reference bureau under par. (a) is approved by both the assembly and the senate, the chief clerk of the house that failed to approve the bill shall immediately transmit to the legislative reference bureau information that the house may direct regarding reasons why the plan was not approved. The legislative reference bureau shall prepare identical bills embodying a 2nd plan of legislative and congressional redistricting prepared in accordance with sub. (5), taking into account the reasons transmitted to the

AMERICAN OVERSIGHT

legislative reference bureau under this paragraph insofar as it is possible to do so within the requirements of sub. (5). The legislative reference bureau shall deliver the bills to the majority leader of the senate and the speaker of the assembly no later than 21 days after the date of the vote by which the senate or the assembly failed to approve the bill submitted under par. (a). Any bill delivered by the legislative reference bureau under this paragraph shall be expeditiously introduced and brought to a vote not less than 7 days after the date of introduction, in the same manner as prescribed for the bill required under par. (a).

(c) If neither of the bills delivered by the legislative reference bureau under par. (b) is approved by both the assembly and the senate, the same procedure as prescribed by par. (b) shall be followed. If a 3rd plan is required under this paragraph, the legislative reference bureau shall deliver the bills to the majority leader of the senate and the speaker of the assembly no later than 21 days after the date of the vote by which the senate or the assembly failed to approve the bill submitted under par. (b). Any bill delivered by the legislative reference bureau under this paragraph shall be expeditiously introduced and brought to a vote not less than 7 days after the date of introduction and shall be subject to amendment in the same manner as other bills. Any bill delivered under this paragraph, and any amendment to such a bill, may be passed only with the approval of three-fourths of all the members elected in each house.

(d) Notwithstanding pars. (a) to (c):

1. If certified federal census data that is sufficient to permit preparation of a congressional redistricting plan becomes available at an earlier time than the population data needed to permit preparation of a legislative redistricting plan in accordance with sub. (5), the legislative reference bureau shall so inform the majority

AMERICAN OVERSIGHT

leader of the senate and the speaker of the assembly. If the majority leader of the senate and the speaker of the assembly jointly direct, the legislative reference bureau shall prepare a separate bill establishing congressional districts and deliver it separately from the bill establishing legislative districts. The legislature shall proceed to consider the congressional redistricting bill in substantially the manner prescribed by pars. (a) to (c).

2. If the population data for legislative redistricting that the federal government provides and, if used by the legislative reference bureau, the corresponding topologically integrated geographic encoding and referencing data file for that population data are not available to the legislative reference bureau on or before April 1 of the first year following the federal decennial census, the deadlines set forth in this subsection shall be extended by a number of days equal to the number of days after April 1 of the first year following the federal decennial census that the population data and the topologically integrated geographic encoding and referencing data file for legislative redistricting become available.

(5) (a) Legislative and congressional districts shall be established on the basis of population requirements imposed under this constitution and the U.S. Constitution and requirements imposed under section 2 of the Voting Rights Act of 1965.

(b) Senate and assembly districts, respectively, shall satisfy the population standards established in this paragraph. The quotient, obtained by dividing the sum of the absolute values of the deviations of all district populations from the applicable ideal district population by the number of districts established, may not vary by more than 1 percent from the applicable ideal district population, unless necessary to maintain compliance with section 2 of the Voting Rights Act of 1965. For purposes

AMERICAN OVERSIGHT

of this paragraph, the ideal district population is determined by dividing the population of the state reported in the most recent federal decennial census by the number of districts to be established. No senate district may have a population that varies by more than 10 percent from any other senate district and no assembly district may have a population that varies by more than 10 percent from any other assembly district, unless necessary to maintain compliance with section 2 of the Voting Rights Act of 1965.

(c) Congressional districts shall each have a population as nearly equal as practicable to the ideal district population, derived as prescribed in par. (b), while maintaining compliance with section 2 of the Voting Rights Act of 1965. No congressional district may have a population that varies by more than 1 percent from the applicable ideal district population, unless necessary to comply with section 2 of the Voting Rights Act of 1965.

(d) District boundaries shall coincide with ward boundaries and, to the extent consistent with par. (a), shall coincide with the boundaries of political subdivisions. The number of political subdivisions divided among more than one district shall be as small as possible. When there is a choice among political subdivisions to divide, the more populous political subdivisions shall be divided before the less populous, except that this requirement does not apply to a legislative district boundary drawn along a county boundary that passes through a city with territory in more than one county.

(e) Districts shall be composed of convenient contiguous territory. Areas that meet only at the points of adjoining corners are not contiguous.

(f) Districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political

AMERICAN OVERSIGHT

process or diminishing the ability of racial or language minorities to elect representatives of each minority group's choice, whether by the group or by voting concert with other persons.

(g) 1. In this paragraph:

a. "Geographic unit center" means that point within a population data unit approximately equidistant from the northern and southern extremities and also approximately equidistant from the eastern and western extremities of the population data unit. This point shall be determined by visual observation of a map of the population data unit, unless it is otherwise determined within the context of an appropriate coordinate system developed by the federal government or another source that the legislative reference bureau determines is qualified and objective and is obtained for use in this state with prior approval of the joint committee on legislative organization.

b. "Population data unit" means a ward, census enumeration district, block, or other unit of territory that has clearly identified geographic boundaries and for which a total population figure is included in or can be derived directly from certified federal census data.

c. "X-coordinate" means the relative location of a point along the east–west axis of the state. Unless otherwise measured within the context of an appropriate coordinate system obtained for use as permitted by subd. 1. a., the x-coordinate shall be measured along a line drawn due east from a due north and south line running through the point that is the western extremity of this state, to the point to be located.

d. "Y-coordinate" means the relative location of a point along the north–south axis of the state. Unless otherwise measured within the context of an appropriate coordinate system obtained for use as permitted by subd. 1. a., the y-coordinate shall

AMERICAN OVERSIGHT

be measured along a line drawn due south from a due east and west line running through the point that is the northern extremity of this state, to the point to be located.

2. To the extent consistent with pars. (a) to (c), districts shall be compact in form. Compact districts are those that are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries. When it is necessary to compare the relative compactness of 2 or more districts, or of 2 or more alternative redistricting plans, the tests prescribed by subds. 3. and 4. shall be used. Should the results of these 2 tests be contradictory, the standard under subd. 3. shall be given greater weight than the standard under subd. 4.

3. a. The compactness of a district is greatest when the length of the district and the width of the district are equal. The measure of a district's compactness is the absolute value of the difference between the length and the width of the district.

b. In measuring the compactness of a district by means of electronic data processing, the difference between the x-coordinates of the easternmost and the westernmost geographic unit centers included in the district shall be compared to the difference between the y-coordinates of the northernmost and southernmost geographic unit centers included in the district.

c. To determine the length and width of a district by manual measurement, the distance from the northernmost point or portion of the boundary of a district to the southernmost point or portion of the boundary of the same district and the distance from the westernmost point or portion of the boundary of the district to the easternmost point or portion of the boundary of the same district shall each be measured. If the northernmost or southernmost portion of the boundary, or each of these points, is a part of the boundary running due east and west, the line used to

AMERICAN OVERSIGHT

make the measurement required by this subd. 3. c. shall be drawn either due north and south or as nearly so as the configuration of the district permits. If the easternmost or westernmost portion of the boundary, or each of these points, is a part of the boundary running due north and south, a similar procedure shall be followed. The lines to be measured for the purpose of this subd. 3. c. shall each be drawn as required by this subd. 3. c., even if some part of either or both lines lies outside the boundaries of the district that is being tested for compactness.

d. The absolute values computed for individual districts under this subdivision may be cumulated for all districts in a plan in order to compare the overall compactness of 2 or more alternative redistricting plans for the state or for a portion of the state. However, it is not valid to cumulate or compare absolute values computed using the measurements under subd. 3. b. with those computed using the measurements under subd. 3. c.

4. a. The compactness of a district is greatest when the ratio of the dispersion of population about the population center of the district to the dispersion of population about the geographic center of the district is one to one.

b. The population dispersion about the population center of a district or about the geographic center of a district is computed as the sum of the products of the population of each population data unit included in the district multiplied by the square of the distance from the geographic unit center of that population data unit to the population center or the geographic center of the district, as the case may be. The geographic center of the district is defined by averaging the locations of all geographic unit centers that are included in the district. The population center of the district is defined by computing the population-weighted average of the x-coordinates and y-coordinates of each geographic unit center assigned to the

AMERICAN OVERSIGHT

district, it being assumed for the purpose of this calculation that each population data unit possesses uniform density of population.

c. The ratios computed for individual districts under this subdivision may be averaged for all districts in a plan in order to compare the overall compactness of 2 or more alternative redistricting plans for the state or for a portion of the state.

(h) In preparing any redistricting plan, the legislative reference bureau shall be strictly nonpartisan. No district may be drawn for the purpose of favoring a political party, incumbent legislator or member of Congress, or other person or group or, except to the extent required under par. (a), for the purpose of augmenting or diluting the voting strength of a language or racial minority group. Except as provided in par. (j), in establishing districts, no use shall be made of any of the following data:

1. The residence addresses of incumbent legislators or members of Congress.

2. Political affiliations of registered voters.

3. Previous election results.

4. Demographic information except as necessary to meet the requirements of pars. (a) and (j).

(i) Except as otherwise provided in this paragraph, to the extent possible, each congressional district shall contain only whole senate districts. The other standards specified in this subsection shall take precedence in a case in which a conflict arises between those standards and the requirement of including only whole senate districts within a congressional district.

(j) In preparing any redistricting plan, the legislative reference bureau shall test the efficiency gap and competitiveness of each district and make the test results available to the public, including publishing the results on its Internet site, no later

AMERICAN OVERSIGHT

than 72 hours prior to the first public hearing on the proposed plan. The legislative reference bureau may use the data described under par. (h) 2. to 4. to perform the tests under this paragraph.

(6) Each bill delivered under sub. (4) shall provide all of the following:

(a) That, wherever territory is described in the bill by geographic boundaries, the following conventions are used:

1. Each bound continues to the intersection with the bound next named, or to the intersection with a straight-line extension of such bound.

2. If the bound is a street, it follows the center line of the street or the center line of the street extended.

3. If the bound is a railroad right-of-way, it follows the center line of the railroad right-of-way.

4. If the bound is a river or stream, it follows the center of the main channel of such river or stream.

5. If the bound follows a municipal boundary, it coincides with such boundary.

(b) That the bill first applies, with respect to regular elections, to offices filled at the next occurring general election after the bill takes effect and, with respect to special or recall elections, to offices filled or contested on or after the date of that general election.

(7) If an action is brought challenging a legislative redistricting plan under this section on the basis of an excessive population variance among senate or assembly districts established in the plan, the legislature has the burden of justifying any variance in excess of 10 percent between the population of a senate or assembly district and the applicable ideal district population. If an action is brought challenging a congressional redistricting plan under this section on the basis of an

AMERICAN OVERSIGHT

excessive population variance among congressional districts established in the plan, the legislature has the burden of justifying any variance in excess of 1 percent between the population of a congressional district and the applicable ideal district population.

(8) (a) In this subsection:

1. "Chief election officer" means the elections commission administrator.

2. "Four selecting authorities" means all of the following:

a. The majority leader of the senate.

b. The minority leader of the senate.

c. The speaker of the assembly.

d. The minority leader of the assembly.

3. "Partisan public office" means any of the following:

a. The office of governor, lieutenant governor, secretary of state, state treasurer, attorney general, state senator, or state representative to the assembly.

b. A county office that is filled by an election process involving nomination and election of candidates on a partisan basis.

4. "Political party office" means an elective office in a political party or in a national political party.

5. "Relative" means an individual who is related to the individual in question as father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, grandfather, grandmother, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, or half sister.

AMERICAN OVERSIGHT

(b) 1. Not later than February 15 of the first year following the federal decennial census, a temporary redistricting advisory commission shall be created consisting of 5 members. Each of the 4 selecting authorities shall certify to the chief election officer the selecting authority's appointment of a person to serve on the commission. Within 30 days after the last selecting authority has certified his or her appointment, but not later than February 15 of the first year following the federal decennial census, the 4 commission members so appointed shall select, by a vote of at least 3 members, and certify to the chief election officer the 5th commission member, who shall serve as chairperson.

2. No individual may be appointed to the redistricting advisory commission who satisfies any of the following:

a. The individual is not an eligible elector of this state at the time of the appointment.

b. The individual holds partisan public office or political party office.

c. The individual is a relative of or is employed by a member of the legislature or of Congress or is employed directly by the legislature or Congress.

3. Members of the redistricting advisory commission appointed by a selecting authority shall be reimbursed for actual and necessary expenses incurred in performance of duties as a commission member. The member who is not appointed by a selecting authority shall be reimbursed for actual and necessary expenses incurred in performance of duties as a commission member.

4. A vacancy on the redistricting advisory commission shall be filled as provided by law within 15 days after the vacancy occurs.

5. Each redistricting advisory commission terminates upon complying with par. (c).

AMERICAN OVERSIGHT

(c) The redistricting advisory commission shall do all of the following:

1. If requested to do so by the legislative reference bureau, provide direction to the legislative reference bureau concerning any decision the legislative reference bureau must make in preparing a redistricting plan for which no clearly applicable guideline is provided under sub. (5).

2. Oversee the work of legislative reference bureau employees engaged in preparing a redistricting plan and may enter into contracts for hiring experts to assist in the preparation of such plans. The commission may enter into a contract to retain experts for preparing a redistricting plan only with the approval of three-fourths of the members of the commission and may terminate a contract employee only with the approval of three-fourths of the members of the commission.

3. Upon delivery by the legislative reference bureau of a bill embodying a redistricting plan as required under sub. (4), make available to the public at the earliest feasible time all of the following information:

a. Copies of the bill.

b. Maps illustrating the plan.

c. A summary of the standards prescribed under sub. (5) for development of the plan.

d. A statement of the population of each district included in the plan and the relative deviation of each district population from the ideal district population.

4. Upon delivery by the legislative reference bureau of an initial bill embodying a redistricting plan as required under sub. (4) (a), do all of the following:

a. As expeditiously as reasonably possible, schedule and conduct public hearings, in different geographic regions of the state, on the plan embodied in the bill. No more than one public hearing may be held in the city of Madison, and at least

AMERICAN OVERSIGHT

one public hearing shall be held in each congressional district of the state. The commission shall hold public hearings on weekends whenever it is practicable.

b. Following the hearings held under subd. 4. a., promptly prepare and submit to the legislature in the manner provided by law a report summarizing information and testimony received by the commission in the course of the hearings. The report may include any comments and conclusions that the commission's members deem appropriate concerning the information and testimony received at the hearings or otherwise presented to the commission.

(d) 1. Except as provided in subd. 2., the redistricting advisory commission may establish policies limiting the information that the legislative reference bureau may provide to persons outside of the bureau staff concerning any redistricting plan prepared under this section.

2. Any policy established under subd. 1. does not apply to a redistricting plan after a bill embodying that plan is delivered by the legislative reference bureau as required under sub. (4) or to population data furnished to the legislative reference bureau by the federal government. Any draft maps, along with the data sets used to create the maps, that are produced by the legislative reference bureau in the course of its work in preparing a bill under sub. (4) shall be open to public inspection and copying and made available on the Internet site of the legislative reference bureau as soon as the maps are produced.

SECTION 3. Section 4 of article IV of the constitution is amended to read:

[Article IV] Section 4. The members of the assembly shall be chosen biennially, by single districts, on the Tuesday succeeding the first Monday of November in even–numbered years, by the qualified electors of the several districts~~, such districts~~

AMERICAN OVERSIGHT

~~to be bounded by county, precinct, town or ward lines, to consist of contiguous territory and be in as compact form as practicable~~.

SECTION 4. Section 5 of article IV of the constitution is amended to read:

[Article IV] Section 5. The senators shall be elected by single districts ~~of convenient contiguous territory~~, at the same time and in the same manner as members of the assembly are required to be chosen; and no assembly district shall be divided in the formation of a senate district. The senate districts shall be numbered in the regular series, and the senators shall be chosen alternately from the odd and even–numbered districts for the term of 4 years.

SECTION 5. Section 9 (3) of article IV of the constitution is created to read:

[Article IV] Section 9 (3) The legislature shall provide by law for the establishment of a legislative reference bureau.

SECTION 6. Numbering of new provisions. If another constitutional amendment ratified by the people creates the number of any provision created in this joint resolution, the chief of the legislative reference bureau shall determine the sequencing and the numbering of the provisions whose numbers conflict.

Be it further resolved, That this proposed amendment be referred to the legislature to be chosen at the next general election and that it be published for 3 months previous to the time of holding such election.

State of Wisconsin
2021 - 2022 LEGISLATURE

LRB-4601/1
JK:skw

2021 SENATE JOINT RESOLUTION

To renumber section 3 of article IV; ***to amend*** section 4 of article IV and section 5 of article IV; and ***to create*** section 3 (2), (3), (4), (5), (6), (7) and (8) of article IV and section 9 (3) of article IV of the constitution; **relating to:** legislative and congressional redistricting (first consideration).

Analysis by the Legislative Reference Bureau

This constitutional amendment, proposed to the 2021 legislature, on first consideration, creates a new procedure for the preparation of legislative and congressional redistricting plans. The bill directs the Legislative Reference Bureau to draw redistricting plans based upon standards specified in the amendment and establishes a Redistricting Advisory Commission to perform certain tasks in the redistricting process. Currently, under the state constitution, the legislature is directed to redistrict legislative districts according to the number of inhabitants at its next session following each federal decennial census. At the same intervals, the legislature also reapportions congressional districts in this state pursuant to federal law.

Under the amendment, the Redistricting Advisory Commission must be created not later than February 15 of the first year following the federal decennial census and terminates upon satisfying its duties, until a new Redistricting Advisory Commission is created for the next round of legislative and congressional redistricting. The commission consists of five members. The speaker and minority leader of the assembly and the majority and minority leaders of the senate must each appoint one person to serve on the commission. Within 30 days after the fourth

AMERICAN OVERSIGHT

commission member is appointed, but not later than February 15 of the first year following the federal decennial census, the four commission members so appointed must select the fifth commission member, who serves as chairperson. The amendment prohibits all of the following individuals from being commission members: individuals who are not eligible electors of this state at the time of the appointment, individuals who hold partisan public office or political party office, and individuals who are a relative of or are employed by a member of the legislature or of Congress or are employed directly by the legislature or Congress.

The amendment provides that the LRB must be strictly nonpartisan in preparing redistricting plans. In addition, no district may be drawn for the purpose of favoring a political party, incumbent legislator or member of Congress, or other person or group, except to the extent necessary to comply with constitutional requirements and the federal Voting Rights Act, or for the purpose of diluting the voting strength of a language or racial minority group. Generally, in preparing the plan the LRB may not use political affiliations of registered voters, previous election results, or use residence addresses of incumbent legislators or members of Congress.

The amendment also provides that, if requested to do so by the LRB, the Redistricting Advisory Commission must provide direction to the LRB concerning any decision the LRB must make in preparing a redistricting plan for which there is no clearly applicable guideline. The commission must oversee the work of LRB employees engaged in preparing a redistricting plan and may enter into contracts for hiring experts to assist in plan preparation. In addition, the commission must conduct public hearings on a redistricting bill delivered by the LRB to the legislature and submit a report to the legislature summarizing information and testimony received by the commission at the hearings.

Finally, the amendment requires the LRB to deliver to the senate and assembly identical bills embodying a plan of legislative and congressional redistricting. The legislature must bring the bill to a vote expeditiously, but not less than seven days after the report of the Redistricting Advisory Commission is received and made available to the members of the legislature. In addition, the vote must be under a procedure or rule permitting no amendments. However, if the legislature rejects the bill and a 2nd redistricting bill submitted by the LRB, the legislature may amend any subsequent redistricting bill, but a subsequent bill, and any amendments to it, may be passed only with the approval of three–fourths of all the members elected in each house.

A proposed constitutional amendment requires adoption by two successive legislatures, and ratification by the people, before it can become effective.

Resolved by the senate, the assembly concurring, That:

SECTION 1. Section 3 of article IV of the constitution is renumbered section 3 (1) of article IV.

AMERICAN OVERSIGHT

SECTION 2. Section 3 (2), (3), (4), (5), (6), (7) and (8) of article IV of the constitution are created to read:

[Article IV] Section 3 (2) (a) The legislative reference bureau shall acquire appropriate information, review and evaluate available facilities, and develop programs and procedures in preparation for drawing congressional and legislative redistricting plans on the basis of each federal decennial census.

(b) By December 1 of the year of the federal decennial census, the legislative reference bureau shall obtain from the federal government information regarding geographic and political units in this state for which federal census population data has been gathered and will be tabulated. The legislative reference bureau shall use the information to do all of the following:

1. Prepare necessary descriptions of geographic and political units for which census data will be reported and that are suitable for use as components of legislative districts.

2. Prepare maps of geographic and political units within the state that may be used to illustrate the locations of district boundaries proposed in plans prepared in accordance with sub. (5).

(c) As soon as possible after receiving the federal census data needed for legislative redistricting, the legislative reference bureau shall use that data to assign a population figure based upon certified federal census data to each geographic and political unit described under par. (b) 1. The legislative reference bureau shall prepare and publish an analysis describing the population of current legislative and congressional districts and the extent to which the districts may violate the standards under sub. (5). Upon satisfying these requirements, the legislative

AMERICAN OVERSIGHT

reference bureau shall begin the preparation of congressional and legislative redistricting plans as required under sub. (4).

(d) None of the 4 selecting authorities, as defined in sub. (8) (a) 2., may assign or hire any person to work with the legislative reference bureau to prepare for redistricting under this subsection, to prepare plans under sub. (4), or to oversee either process.

(3) After receipt of a division ordinance or resolution, as provided by law, the legislative reference bureau shall use the federal census data obtained under sub. (2) (c) to assign a population figure based upon certified federal census data to each ward established in the division ordinance or resolution. The legislative reference bureau shall use each ward to which a population figure is assigned in preparing congressional and legislative redistricting plans as required under sub. (4).

(4) (a) Not later than January 1 of the 2nd year following the federal decennial census, the legislative reference bureau shall deliver to the majority leader of the senate and speaker of the assembly identical bills creating plans of legislative and congressional redistricting, prepared in accordance with sub. (5). Either the assembly or the senate shall bring the bill to a vote expeditiously, but not less than 7 days after the commission report under sub. (8) (c) 4. b. is received and made available to the members of the legislature. The vote shall be under a procedure or rule permitting no amendments. If the bill is approved by the first house in which it is considered, the bill shall expeditiously be brought to a vote in the 2nd house under a similar procedure or rule.

(b) If neither of the bills delivered by the legislative reference bureau under par. (a) is approved by both the assembly and the senate, the chief clerk of the house that failed to approve the bill shall immediately transmit to the legislative reference

AMERICAN OVERSIGHT

bureau information that the house may direct regarding reasons why the plan was not approved. The legislative reference bureau shall prepare identical bills embodying a 2nd plan of legislative and congressional redistricting prepared in accordance with sub. (5), taking into account the reasons transmitted to the legislative reference bureau under this paragraph insofar as it is possible to do so within the requirements of sub. (5). The legislative reference bureau shall deliver the bills to the majority leader of the senate and the speaker of the assembly no later than 21 days after the date of the vote by which the senate or the assembly failed to approve the bill submitted under par. (a). Any bill delivered by the legislative reference bureau under this paragraph shall be expeditiously introduced and brought to a vote not less than 7 days after the date of introduction, in the same manner as prescribed for the bill required under par. (a).

(c) If neither of the bills delivered by the legislative reference bureau under par. (b) is approved by both the assembly and the senate, the same procedure as prescribed by par. (b) shall be followed. If a 3rd plan is required under this paragraph, the legislative reference bureau shall deliver the bills to the majority leader of the senate and the speaker of the assembly no later than 21 days after the date of the vote by which the senate or the assembly failed to approve the bill submitted under par. (b). Any bill delivered by the legislative reference bureau under this paragraph shall be expeditiously introduced and brought to a vote not less than 7 days after the date of introduction and shall be subject to amendment in the same manner as other bills. Any bill delivered under this paragraph, and any amendment to such a bill, may be passed only with the approval of three-fourths of all the members elected in each house.

(d) Notwithstanding pars. (a) to (c):

AMERICAN OVERSIGHT

1. If certified federal census data that is sufficient to permit preparation of a congressional redistricting plan becomes available at an earlier time than the population data needed to permit preparation of a legislative redistricting plan in accordance with sub. (5), the legislative reference bureau shall so inform the majority leader of the senate and the speaker of the assembly. If the majority leader of the senate and the speaker of the assembly jointly direct, the legislative reference bureau shall prepare a separate bill establishing congressional districts and deliver it separately from the bill establishing legislative districts. The legislature shall proceed to consider the congressional redistricting bill in substantially the manner prescribed by pars. (a) to (c).

2. If the population data for legislative redistricting that the federal government provides and, if used by the legislative reference bureau, the corresponding topologically integrated geographic encoding and referencing data file for that population data are not available to the legislative reference bureau on or before April 1 of the first year following the federal decennial census, the deadlines set forth in this subsection shall be extended by a number of days equal to the number of days after April 1 of the first year following the federal decennial census that the population data and the topologically integrated geographic encoding and referencing data file for legislative redistricting become available.

(5) (a) Legislative and congressional districts shall be established on the basis of population requirements imposed under this constitution and the U.S. Constitution and requirements imposed under section 2 of the Voting Rights Act of 1965.

(b) Senate and assembly districts, respectively, shall satisfy the population standards established in this paragraph. The quotient, obtained by dividing the sum

AMERICAN OVERSIGHT

of the absolute values of the deviations of all district populations from the applicable ideal district population by the number of districts established, may not vary by more than 1 percent from the applicable ideal district population, unless necessary to maintain compliance with section 2 of the Voting Rights Act of 1965. For purposes of this paragraph, the ideal district population is determined by dividing the population of the state reported in the most recent federal decennial census by the number of districts to be established. No senate district may have a population that varies by more than 10 percent from any other senate district and no assembly district may have a population that varies by more than 10 percent from any other assembly district, unless necessary to maintain compliance with section 2 of the Voting Rights Act of 1965.

(c) Congressional districts shall each have a population as nearly equal as practicable to the ideal district population, derived as prescribed in par. (b), while maintaining compliance with section 2 of the Voting Rights Act of 1965. No congressional district may have a population that varies by more than 1 percent from the applicable ideal district population, unless necessary to comply with section 2 of the Voting Rights Act of 1965.

(d) District boundaries shall coincide with ward boundaries and, to the extent consistent with par. (a), shall coincide with the boundaries of political subdivisions. The number of political subdivisions divided among more than one district shall be as small as possible. When there is a choice among political subdivisions to divide, the more populous political subdivisions shall be divided before the less populous, except that this requirement does not apply to a legislative district boundary drawn along a county boundary that passes through a city with territory in more than one county.

AMERICAN OVERSIGHT

(e) Districts shall be composed of convenient contiguous territory. Areas that meet only at the points of adjoining corners are not contiguous.

(f) Districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing the ability of racial or language minorities to elect representatives of each minority group's choice, whether by the group or by voting concert with other persons.

(g) 1. In this paragraph:

a. "Geographic unit center" means that point within a population data unit approximately equidistant from the northern and southern extremities and also approximately equidistant from the eastern and western extremities of the population data unit. This point shall be determined by visual observation of a map of the population data unit, unless it is otherwise determined within the context of an appropriate coordinate system developed by the federal government or another source that the legislative reference bureau determines is qualified and objective and is obtained for use in this state with prior approval of the joint committee on legislative organization.

b. "Population data unit" means a ward, census enumeration district, block, or other unit of territory that has clearly identified geographic boundaries and for which a total population figure is included in or can be derived directly from certified federal census data.

c. "X-coordinate" means the relative location of a point along the east–west axis of the state. Unless otherwise measured within the context of an appropriate coordinate system obtained for use as permitted by subd. 1. a., the x-coordinate shall

AMERICAN OVERSIGHT

be measured along a line drawn due east from a due north and south line running through the point that is the western extremity of this state, to the point to be located.

d. "Y-coordinate" means the relative location of a point along the north–south axis of the state. Unless otherwise measured within the context of an appropriate coordinate system obtained for use as permitted by subd. 1. a., the y-coordinate shall be measured along a line drawn due south from a due east and west line running through the point that is the northern extremity of this state, to the point to be located.

2. To the extent consistent with pars. (a) to (c), districts shall be compact in form. Compact districts are those that are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries. When it is necessary to compare the relative compactness of 2 or more districts, or of 2 or more alternative redistricting plans, the tests prescribed by subds. 3. and 4. shall be used. Should the results of these 2 tests be contradictory, the standard under subd. 3. shall be given greater weight than the standard under subd. 4.

3. a. The compactness of a district is greatest when the length of the district and the width of the district are equal. The measure of a district's compactness is the absolute value of the difference between the length and the width of the district.

b. In measuring the compactness of a district by means of electronic data processing, the difference between the x-coordinates of the easternmost and the westernmost geographic unit centers included in the district shall be compared to the difference between the y-coordinates of the northernmost and southernmost geographic unit centers included in the district.

c. To determine the length and width of a district by manual measurement, the distance from the northernmost point or portion of the boundary of a district to the

AMERICAN OVERSIGHT

southernmost point or portion of the boundary of the same district and the distance from the westernmost point or portion of the boundary of the district to the easternmost point or portion of the boundary of the same district shall each be measured. If the northernmost or southernmost portion of the boundary, or each of these points, is a part of the boundary running due east and west, the line used to make the measurement required by this subd. 3. c. shall be drawn either due north and south or as nearly so as the configuration of the district permits. If the easternmost or westernmost portion of the boundary, or each of these points, is a part of the boundary running due north and south, a similar procedure shall be followed. The lines to be measured for the purpose of this subd. 3. c. shall each be drawn as required by this subd. 3. c., even if some part of either or both lines lies outside the boundaries of the district that is being tested for compactness.

d. The absolute values computed for individual districts under this subdivision may be cumulated for all districts in a plan in order to compare the overall compactness of 2 or more alternative redistricting plans for the state or for a portion of the state. However, it is not valid to cumulate or compare absolute values computed using the measurements under subd. 3. b. with those computed using the measurements under subd. 3. c.

4. a. The compactness of a district is greatest when the ratio of the dispersion of population about the population center of the district to the dispersion of population about the geographic center of the district is one to one.

b. The population dispersion about the population center of a district or about the geographic center of a district is computed as the sum of the products of the population of each population data unit included in the district multiplied by the square of the distance from the geographic unit center of that population data unit

AMERICAN OVERSIGHT

to the population center or the geographic center of the district, as the case may be. The geographic center of the district is defined by averaging the locations of all geographic unit centers that are included in the district. The population center of the district is defined by computing the population-weighted average of the x-coordinates and y-coordinates of each geographic unit center assigned to the district, it being assumed for the purpose of this calculation that each population data unit possesses uniform density of population.

c. The ratios computed for individual districts under this subdivision may be averaged for all districts in a plan in order to compare the overall compactness of 2 or more alternative redistricting plans for the state or for a portion of the state.

(h) In preparing any redistricting plan, the legislative reference bureau shall be strictly nonpartisan. No district may be drawn for the purpose of favoring a political party, incumbent legislator or member of Congress, or other person or group or, except to the extent required under par. (a), for the purpose of augmenting or diluting the voting strength of a language or racial minority group. Except as provided in par. (j), in establishing districts, no use shall be made of any of the following data:

1. The residence addresses of incumbent legislators or members of Congress.

2. Political affiliations of registered voters.

3. Previous election results.

4. Demographic information except as necessary to meet the requirements of pars. (a) and (j).

(i) Except as otherwise provided in this paragraph, to the extent possible, each congressional district shall contain only whole senate districts. The other standards specified in this subsection shall take precedence in a case in which a conflict arises

AMERICAN OVERSIGHT

between those standards and the requirement of including only whole senate districts within a congressional district.

(j) In preparing any redistricting plan, the legislative reference bureau shall test the efficiency gap and competitiveness of each district and make the test results available to the public, including publishing the results on its Internet site, no later than 72 hours prior to the first public hearing on the proposed plan. The legislative reference bureau may use the data described under par. (h) 2. to 4. to perform the tests under this paragraph.

(6) Each bill delivered under sub. (4) shall provide all of the following:

(a) That, wherever territory is described in the bill by geographic boundaries, the following conventions are used:

1. Each bound continues to the intersection with the bound next named, or to the intersection with a straight-line extension of such bound.

2. If the bound is a street, it follows the center line of the street or the center line of the street extended.

3. If the bound is a railroad right-of-way, it follows the center line of the railroad right-of-way.

4. If the bound is a river or stream, it follows the center of the main channel of such river or stream.

5. If the bound follows a municipal boundary, it coincides with such boundary.

(b) That the bill first applies, with respect to regular elections, to offices filled at the next occurring general election after the bill takes effect and, with respect to special or recall elections, to offices filled or contested on or after the date of that general election.

AMERICAN OVERSIGHT

(7) If an action is brought challenging a legislative redistricting plan under this section on the basis of an excessive population variance among senate or assembly districts established in the plan, the legislature has the burden of justifying any variance in excess of 10 percent between the population of a senate or assembly district and the applicable ideal district population. If an action is brought challenging a congressional redistricting plan under this section on the basis of an excessive population variance among congressional districts established in the plan, the legislature has the burden of justifying any variance in excess of 1 percent between the population of a congressional district and the applicable ideal district population.

(8) (a) In this subsection:

1. "Chief election officer" means the elections commission administrator.

2. "Four selecting authorities" means all of the following:

a. The majority leader of the senate.

b. The minority leader of the senate.

c. The speaker of the assembly.

d. The minority leader of the assembly.

3. "Partisan public office" means any of the following:

a. The office of governor, lieutenant governor, secretary of state, state treasurer, attorney general, state senator, or state representative to the assembly.

b. A county office that is filled by an election process involving nomination and election of candidates on a partisan basis.

4. "Political party office" means an elective office in a political party or in a national political party.

AMERICAN OVERSIGHT

5. "Relative" means an individual who is related to the individual in question as father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, grandfather, grandmother, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, or half sister.

(b) 1. Not later than February 15 of the first year following the federal decennial census, a temporary redistricting advisory commission shall be created consisting of 5 members. Each of the 4 selecting authorities shall certify to the chief election officer the selecting authority's appointment of a person to serve on the commission. Within 30 days after the last selecting authority has certified his or her appointment, but not later than February 15 of the first year following the federal decennial census, the 4 commission members so appointed shall select, by a vote of at least 3 members, and certify to the chief election officer the 5th commission member, who shall serve as chairperson.

2. No individual may be appointed to the redistricting advisory commission who satisfies any of the following:

a. The individual is not an eligible elector of this state at the time of the appointment.

b. The individual holds partisan public office or political party office.

c. The individual is a relative of or is employed by a member of the legislature or of Congress or is employed directly by the legislature or Congress.

3. Members of the redistricting advisory commission appointed by a selecting authority shall be reimbursed for actual and necessary expenses incurred in performance of duties as a commission member. The member who is not appointed

AMERICAN OVERSIGHT

by a selecting authority shall be reimbursed for actual and necessary expenses incurred in performance of duties as a commission member.

4. A vacancy on the redistricting advisory commission shall be filled as provided by law within 15 days after the vacancy occurs.

5. Each redistricting advisory commission terminates upon complying with par. (c).

(c) The redistricting advisory commission shall do all of the following:

1. If requested to do so by the legislative reference bureau, provide direction to the legislative reference bureau concerning any decision the legislative reference bureau must make in preparing a redistricting plan for which no clearly applicable guideline is provided under sub. (5).

2. Oversee the work of legislative reference bureau employees engaged in preparing a redistricting plan and may enter into contracts for hiring experts to assist in the preparation of such plans. The commission may enter into a contract to retain experts for preparing a redistricting plan only with the approval of three-fourths of the members of the commission and may terminate a contract employee only with the approval of three-fourths of the members of the commission.

3. Upon delivery by the legislative reference bureau of a bill embodying a redistricting plan as required under sub. (4), make available to the public at the earliest feasible time all of the following information:

a. Copies of the bill.

b. Maps illustrating the plan.

c. A summary of the standards prescribed under sub. (5) for development of the plan.

AMERICAN OVERSIGHT

d. A statement of the population of each district included in the plan and the relative deviation of each district population from the ideal district population.

4. Upon delivery by the legislative reference bureau of an initial bill embodying a redistricting plan as required under sub. (4) (a), do all of the following:

a. As expeditiously as reasonably possible, schedule and conduct public hearings, in different geographic regions of the state, on the plan embodied in the bill. No more than one public hearing may be held in the city of Madison, and at least one public hearing shall be held in each congressional district of the state. The commission shall hold public hearings on weekends whenever it is practicable.

b. Following the hearings held under subd. 4. a., promptly prepare and submit to the legislature in the manner provided by law a report summarizing information and testimony received by the commission in the course of the hearings. The report may include any comments and conclusions that the commission's members deem appropriate concerning the information and testimony received at the hearings or otherwise presented to the commission.

(d) 1. Except as provided in subd. 2., the redistricting advisory commission may establish policies limiting the information that the legislative reference bureau may provide to persons outside of the bureau staff concerning any redistricting plan prepared under this section.

2. Any policy established under subd. 1. does not apply to a redistricting plan after a bill embodying that plan is delivered by the legislative reference bureau as required under sub. (4) or to population data furnished to the legislative reference bureau by the federal government. Any draft maps, along with the data sets used to create the maps, that are produced by the legislative reference bureau in the course of its work in preparing a bill under sub. (4) shall be open to public inspection

and copying and made available on the Internet site of the legislative reference bureau as soon as the maps are produced.

SECTION 3. Section 4 of article IV of the constitution is amended to read:

[Article IV] Section 4. The members of the assembly shall be chosen biennially, by single districts, on the Tuesday succeeding the first Monday of November in even-numbered years, by the qualified electors of the several districts~~, such districts to be bounded by county, precinct, town or ward lines, to consist of contiguous territory and be in as compact form as practicable~~.

SECTION 4. Section 5 of article IV of the constitution is amended to read:

[Article IV] Section 5. The senators shall be elected by single districts ~~of convenient contiguous territory~~, at the same time and in the same manner as members of the assembly are required to be chosen; and no assembly district shall be divided in the formation of a senate district. The senate districts shall be numbered in the regular series, and the senators shall be chosen alternately from the odd and even-numbered districts for the term of 4 years.

SECTION 5. Section 9 (3) of article IV of the constitution is created to read:

[Article IV] Section 9 (3) The legislature shall provide by law for the establishment of a legislative reference bureau.

SECTION 6. Numbering of new provisions. If another constitutional amendment ratified by the people creates the number of any provision created in this joint resolution, the chief of the legislative reference bureau shall determine the sequencing and the numbering of the provisions whose numbers conflict.

All of you who work for the peopleof Wisconsin are obligated to look into the events that took place for the Nov 2020 election.

There is substantial evidence and numerous investigations including the Racine County Sheriff and Justice Gableman. It is not a charade, it is not a conspiracy nor is it unconstitutional to decertify a fraudulent election.

There is no reason anyone should object to getting to the bottom of what happened. This should unite everyone, it should be a non-partisan issue.

Please look into the evidence and decertify the electors. It is time for all of you to get courage and stand with Rep Tim Ramthun and AJR 120 and/or follow Justice Gableman'spath to decertify.

I've been repeatedly sending emails to the rules committee and not one has responded except Robin Vos sends an autoreplythat he is busy and gets numerous emails. I bet you do!

We need to identify all the problems that happened in 2020 and put measures in place to see that this never happens again. All of you are accountable to all US Citizens, especially Wisconsites.

Subject: 2020 Election Cycle Investigation - Release of Michael Gableman's Report

---

Representative Brandtjen,

It was reported that Michael Gableman's report was released today. Has a "full" forensic audit been commissioned yet? Prior investigations have been way too narrow in scope (including Michael Gableman's investigation). We need to put an end to the ongoing speculation once and for all related to what transpired during the 2020 election cycle. The scope of the forensic audit should be consistent with that conducted in Maricopa County, Arizona. The Maricopa County audit revealed a comprehensive election fraud scheme that is currently under investigation by the Arizona AG's office. It is likely that some variant of the Maricopa scheme was perpetrated in Wisconsin and other key areas of the country designed to predetermine the outcome of certain state elections. Laws cannot be drafted to address election integrity in a comprehensive and effective manneruntil there is a clear understanding as to how a particular election fraud scheme was perpetrated. To ensure that a full forensic audit can be performed, the Wisconsin legislature must act with a sense of urgency to ensure that all electronic and more importantly, paper records, are sequestered so that they cannot be destroyed prior to the commencement of such audit. Rest assured that those opposed to transparency and truth will continue to use the court system to obstruct the performance of a full forensic audit as they know that the results therewith will not fit the narrative that "there is nothing to see here".It has been reported that election records are being destroyed in other states in contravention of record retention laws. One doees not need to be a member of Mensa to understand why this is occurring. We cannot have records destroyed in Wisconsin in an effort to obstruct the performance of an audit (particularly in areas such Madison, Milwaukee and Green Bay in which numerous irregularities and anomalies have already been uncovered).

Your continued work on election integrity is greatly appreciated.

Wisconsin Elected Official

TAX GUIDE

for the calendar year ending

Dec. 31, 2021

A service provided by the

Wisconsin Institute of Certified Public Accountants

AMERICAN OVERSIGHT

February 2022

Dear Wisconsin Elected Official:

The Wisconsin Institute of CPAs is pleased to provide you with the *Wisconsin Elected Official Tax Guide* for the calendar year ending December 31, 2021.

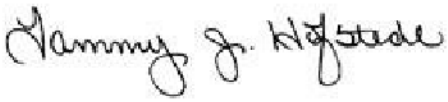
This guide is intended to provide a brief discussion of the tax laws as they apply to state legislators and other elected officials. Deductions for expenditures incurred in performance of your official duties are no longer available. However, if you are a fee-basis public official, deductions are available provided contemporaneous records are maintained detailing who, what, when, where and how much. A fee-basis public official receives and retains remuneration directly from the public, and does not receive wages or a salary. Because Wisconsin legislators receive a salary, they are generally not considered fee-basis public officials, but I recommend consulting your Certified Public Accountant (CPA) regarding your classification.

Since this guide is not intended to cover all tax matters related to an individual's tax return, I would encourage you to consult your Certified Public Accountant or other tax advisor for any further questions you may have that are not covered in this guide. Items of a personal nature, such as medical expenses, interest, tax expenses and charitable contributions, or tax matters unrelated to your position as an elected official, are not covered.

The WICPA sponsors this guide as a public service and wishes to thank Michael Donahue, a member of the WICPA Federal Taxation Committee, for his dedicated work on this project. We hope you find it useful.

If you have any suggestions for making the Guide even more helpful, please contact me directly at 262-785-0445, extension 4518 or by e-mail at tammy@wicpa.org.

Sincerely,



Tammy J. Hofstede

GENERAL LIMITATIONS

As a state legislator or other elected official, you are generally subject to the same federal and state income tax rules applicable to business people and other private citizens. An important rule is that expenses incurred in the performance of your official duties are considered "employee business expenses."

You must distinguish between those business expenses for which you are reimbursed and those for which you are not reimbursed. Reimbursed expenses are generally treated much more favorably than unreimbursed expenses of employees.

Reimbursed expenses

These expenses are non-taxable to the extent that the reimbursements are incurred under an "accountable" reimbursement plan that meets the following three qualifications:

1. The allowances or reimbursements relate to expenses paid by the employee in connection with the employer's business;
2. The employee provides the employer with substantiation for the expenses covered by the arrangement;
3. The employee returns any amount received in excess of the substantiated expenses within a reasonable time.

Fortunately, a per diem or other fixed allowance you receive from your employer is deemed under the regulations to have satisfied the second "substantiation" requirement up to the lesser of the amount of the allowance or the amount approved by the Internal Revenue Service (IRS). Additionally, you must provide your employer with a statement regarding the time, place and business purpose of your "away-from-home" meals and lodging expenses. By submitting your monthly expense voucher to the State of Wisconsin, you should meet this requirement. As discussed in Record Keeping Tips, page 6, you should be careful to keep your own records of business-related expenditures.

Problem: Residence within 50 miles of Capitol Building

A problem arises in applying the "accountable" plan rules when you are a legislator whose residence within the legislative district you represent is 50 or fewer miles from the state capitol building and are therefore ineligible to make the tax home election described on page 5. The IRS and Wisconsin Department of Revenue have taken the position that since the State of Wisconsin has no reasonable basis for anticipating that the allowances paid to you are being used

AMERICAN OVERSIGHT

for deductible travel expenses away from your home, this arrangement is not considered an accountable reimbursement plan. Accordingly, as discussed below, not only must social security taxes and other state and federal income and unemployment taxes be paid or withheld from the allowances in this setting, any otherwise deductible travel expense, which you incur, must be considered a miscellaneous itemized deduction.

Since this is considered a nonaccountable reimbursement plan, the State of Wisconsin will include the amount of per diem reimbursement allowance received as wages in Box 1 on your 2020 W-2s. This issue should not affect you if your residence within the legislative district you represent is more than 50 miles from the state capitol.

Miscellaneous items and considerations

Unreimbursed expenses and reimbursed expenses incurred under "non-accountable" reimbursement plans are classified unfavorably as miscellaneous itemized deductions. However, due to the Tax Cuts & Jobs Act, miscellaneous itemized deductions are not available to most public officials, unless you are a fee-basis public official. Miscellaneous itemized deductions are deductible.

Business expenses for meals and entertainment have been further limited by the Tax Reform Act of 1986 and the 1993 Revenue Reconciliation Act. To the extent meal and entertainment expenses exceed reimbursement, such expenses must be reduced by 50%. The deduction of club dues is also limited or not allowed. Please consult your Certified Public Accountant or other tax advisor on this issue.

Deductions for travel expenses are denied when paid or incurred with respect to a companion accompanying the taxpayer on business travel unless (1) the companion is an employee of the taxpayer, (2) the travel of the companion is for a bona fide business purpose, *and* (3) the expense would otherwise be deductible by the companion.

See the Entertainment and Meal Expenses, page 15, for examples.

AMERICAN OVERSIGHT

TAX HOME

As a general rule, your tax "home" (away from which on business your living expenses are deductible) is your office, the business place where your job requires you to spend most of your time. If you are a state legislator, Internal Revenue Code Section 162(h) allows you to elect to have as your tax "home" your residence within the legislative district that you represent. This special tax "home" election is *not* available to you if you are an elected official other than a state legislator or if you are a state legislator whose residence within the legislative district you represent is 50 or fewer miles from the capitol building.

If you are eligible, the special tax "home" election can be an important tax planning tool. As a general rule, the election is advantageous because it allows you to deduct a per diem amount of your living expenses (meals and lodging) on each legislative day as described below.

Unless you are a fee-basis public official, living expenses are not deductible as miscellaneous itemized deductions on Schedule A. You will still want to make the election to receive per diem amounts under an accountable plan as described on page 1.

In general, the cost of your living expenses (meals and lodging) in Madison on legislative days will not be deductible since you will be considered to be at your tax "home." If during the year you spend more time on business activities in your district than in Madison, you may be able to consider the district as your tax home even if you do not make the tax "home" election. In this situation, which you should be able to document, it may be to your benefit not to make the election if your actual meals and lodging expenses in Madison exceed the per diem amounts previously noted (see Entertainment and Meals Section, page 15). Note, if you do not make the election, the *actual* cost of your business meals involving business discussions would in any case be deductible in accordance with the rules outlined in the Entertainment and Meals section. We strongly encourage you to consult your Certified Public Accountant or other tax advisor before you make a decision with regard to this election.

The tax "home" election is made yearly by attaching to your Form 1040 a statement containing information required by IRS regulations. Exhibit D (attached) is a model form for making this election.

AMERICAN OVERSIGHT

Tax "Home" Election Made

If you make the state legislator tax "home" election referred to above, you may be reimbursed under an accountable plan for each legislative day the *greater* of:

(1) The federal per diem for a federal employee working in Madison less 50% of the portion of the per diem allowable for meals. The federal per diem rate for January – March 2021 is $170/day, April – September is $192/day, October is $195/day, and November – December is $173/day. This includes $61/day from January – September and $64/day from October – December for meals and incidentals.

(2) The amount generally allowed for State Legislators of the State of Wisconsin for per diem while away from home (to the extent it does not exceed 110% of the federal per diem), less 50% of the portion allowable for meals. Since the Wisconsin Senate Legislators per diem amount is currently $115 outside of Dane County and $57.50 inside of Dane County and the Wisconsin Assembly per diem is $153 for overnight stays and $76.50 for day visits, the federal per diem amount noted above should be used.

FEE-BASIS PUBLIC OFFICIALS ONLY

A legislative day includes any day the legislature is in session, on recess (provided the recess period including weekends and holidays is not longer than four days), or any day it is not in session but your physical presence is formally recorded at a meeting of a committee of the legislature. A day in session includes those in which you are expected to attend and do so and may include "pro forma" sessions.

The per diem rates above may be claimed as a deduction. Expenses incurred on non-legislative days are unaffected by the election except that your tax home remains your residence in your represented district. Thus, meals, lodging and other living expenses incurred for travel on non-legislative days related to your duties as a legislator or for some other business are deductible as incurred.

This election in no way affects the deductibility of expenses other than living expenses such as travel fares, telephone calls or telegrams, and local transportation. These are deductible *in addition to the per diem* as discussed in subsequent sections of this guide.

Reimbursements received for living expenses with respect to your position as a legislator must be included in income regardless of whether or not the tax "home" election is made. The per diem reimbursement must be allocated between meals and other expenses.

AMERICAN OVERSIGHT

You may claim as a deduction "actual" expenditures incurred in the performance of duties *if the election discussed above is not made or is not available*. The specific deductible expenditures are discussed in the subsequent section of this guide (see Living Expenses - When No Tax Home Election is Made, page 8). As previously discussed, if the tax home election is not available, it is likely these business-related expenses may only be taken as miscellaneous itemized deductions.

If you are a legislator whose tax "home" is Madison, living expenses incurred while in Madison are not deductible. You may deduct living expenses incurred on business trips that are at least *overnight* trips to the area you represent even though you maintain your family residence there. For example, meals and lodging at your family residence are deductible to the extent that they are properly attributable to you (and you alone) in the performance of your duties. Transportation expenses between Madison and your residence in your district are deductible only when your duties as a legislator or other business require you to be present in your district.

These general rules should be kept in mind while reading other sections of the guide. Several questions and answers in the Record Keeping Tips section (page 6) will not be applicable if your tax "home" is Madison.

RECORD KEEPING TIPS

Q. How must travel, entertainment and other business expenses be substantiated?

A. The most acceptable support is a clear and accurate recording at the time the expenditure is made plus necessary documentation. If, on an Internal Revenue Service or Wisconsin Department of Revenue audit, such support is found to be deficient or lacking, your personal statements must be corroborated with other evidence, such as records and witnesses. Your testimony alone is not sufficient to support a deduction.

Q. Which elements of an expenditure must be substantiated?

A.
Who: Persons who traveled, persons entertained, etc. and business relationship.
What: Amount of each separate expenditure.
When: Time of travel, entertainment or use of facility.
Where: Place.
Why: Business purpose of each expenditure.

(See Chart attached as Exhibit B.)

Q. Must each of the elements be substantiated?

A. Yes. If any one is not, the entire expenditure can be disallowed.

Q. Are estimates of amounts acceptable?

A. No. The amounts should be recorded exactly.

Q. How should substantiation of travel, entertainment and business gift expenditures be maintained?

A. The substantiation of the elements discussed above should be recorded at or near the time of use in an account book, diary, statement of expenses or similar record and supported by adequate documentary evidence (receipts, paid bills). A record prepared at a date subsequent to the expenditures has little, if any, credibility.

Q. Is there a limit on the deductible amount of travel and entertainment expense?

A. Yes, see the rules discussed under the Entertainment and Meal Expense section (page 15) of this guide.

AMERICAN OVERSIGHT

Q. What constitutes adequate documentation?

A. Adequate documentary evidence is a receipt, bill marked paid or similar evidence. Merely maintaining a record of expenditures is insufficient.

Q. Is documentary evidence required for every single expenditure?

A. No. Documentation is required to support all expenditures for lodging while traveling away from home and for any other separate expenditure of $75 or more, (except for transportation charges where the documentary evidence is not readily available). Where such evidence is not readily available for transportation charges, it will not be required.

Q. Would a cancelled check be adequate evidence?

A. No. A cancelled check will not by itself support a deduction without other evidence (i.e., payee's bill) demonstrating the business purpose.

Q. How long should I retain supporting records?

A. Proof to support a deduction must be retained as long as your income tax returns are open for audit. Generally, records should be retained for at least six years from the date the tax return was filed or due, whichever is later.

Q. How can the business purpose of an expenditure be substantiated?

A. The business purpose can be substantiated by noting the name, title and occupation of contacts, the type of activity, and describing the business benefit derived or expected. The business relationship of the individuals contacted must also be noted. If the group is large, you are not required to record the names of each individual present if a class designation would indicate the business purpose. (For example, "met with officers of the Wisconsin Taxpayer's Alliance").

Q. What are the record keeping requirements for automobiles, computers, and other "mixed use" assets (i.e., items used for business *and* non-business purposes)?

A. Though contemporaneous logs for automobiles, computers and similar items are not required, their use will better protect your tax deduction and is highly recommended. A diary or log of the business use of an auto indicating the date, destination, business purpose and mileage would provide adequate support. Exhibit D, Part 1 and Exhibit D, Part 2 are examples of logs used for automobile use. Adequate records or other sufficient evidence corroborating your own statements are required to substantiate the business use of an item for purposes of claiming deductions.

LIVING EXPENSES - WHEN NO TAX HOME ELECTION IS MADE – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. My principal employment is that of being a State legislator. I have no other substantial source of income and I reside in Madison a significant portion of the year. I represent a district 150 miles removed from Madison and maintain my personal family residence there. The time I devote to my employment as a legislator while living at home is considerable, but less than the time I spend working in Madison. What expenses can I deduct?

A. The Internal Revenue Service will consider your "tax home" to be Madison unless the special election discussed in the tax home section of this guide has been made. Under these circumstances, you will not be entitled to deduct any of your living expenses while in Madison. However, since the district you represent is recognized as another post of duty, you may deduct certain living expenses while in your district overnight on legislative business. Additionally, the cost of transportation between Madison and your district would be deductible when incurred for legislative purposes.

Q. What may I deduct for living expenses incurred in a hotel, motel or apartment while attending sessions in Madison overnight where I do not make the "tax home" election but my tax home is my residence 100 miles outside the Madison area? The time I devote to my business at my home is greater than the time I spend working in Madison overnight.

A. You are allowed to deduct the actual rental payments, including any taxes, service charges, utilities, etc. that you may incur. If facilities are shared with others, you may deduct your share of these expenses. This is the case even though the facility is not used during a part of a month or year as long as it is maintained in order to fulfill your duties as a member of the Legislature. In any event, the actual expenses should be supported by documentary evidence. Personal use of facilities, such as when you and your family visit Madison for a social purpose, will decrease, on a percentage basis, the deductible amount.

Q. Given the same facts noted in the immediately preceding question, can I deduct a standard amount for meals and/or lodging when I am in Madison, away from home overnight on business?

A. This question should have limited application since those legislators who choose not to make the special tax home election in this situation will do so only if their actual meals and lodging expenses in Madison exceed the standard amounts for these items. Nevertheless, if this question is applicable to you, you are limited to the amount of the allowance you receive from the State of Wisconsin. Alternatively, you could use either the standard per diem rates specified at www.gsa.gov or the $292/$198 high-low per diem rates for January 1, 2021 through September 30, 2021 and $296/$202 from October 1, 2021 through December 31, 2021 (but limited to the amount of the allowance you receive from the State of Wisconsin). Please note that this does not apply to legislators whose tax home is within a 50-mile radius of Madison. In addition, only 50% of the per diem allocable to

AMERICAN OVERSIGHT

meals is deductible for expenses paid or incurred. The per diem does not include meals that you buy for business associates.

These amounts may be deductible in accordance with the rules set forth in the Entertainment and Meal Expense section (page 15) of this guide.

Q. Can I deduct the expense of meals I have purchased for constituents and other persons who have come to Madison where legislative business is involved?

A. Yes. Subject to the rules discussed under the Entertainment and Meals Section (page 15) of this guide, 50% of the cost of meals paid for by you is an allowable deduction. The expense must be reasonable and related to your legislative business. You should document the business purpose and who was in attendance. (See questions under Record Keeping Tips, page 6.) If you are deducting a meal per diem for the day of the business meal, your portion of the meal is not deductible. (See the per diem discussion above.)

AMERICAN OVERSIGHT

AUTOMOBILE AND TRAVEL EXPENSES – FEE-BASIS PUBLIC OFFICIALS ONLY

NOTE: Most questions involving automobiles assume you own your own car. Special rules apply if you lease your car or if a corporation owns it.

Q. What is a "nonaccountable" plan?

A. A "nonaccountable" plan is an arrangement whereby the employee receiving reimbursements does not have to substantiate expenses to the employer or whereby reimbursements in excess of substantiated expenses are not required to be returned to the employer.

Q. What are the methods available for claiming deductions for automobile expenses incurred for business purposes?

A. The IRS allows individuals to claim deductions based on the federal "standard mileage" rates or deduct a percentage of the "actual expenses" incurred based on the percentage of business use. Below is a discussion of each method.

Q. What is the federal "standard mileage" rate?

A. The allowable rate for 2021 is .56 cents per mile from January 1, 2021 to December 31, 2021 for business mileage. In addition to the standard mileage amount, actual expenses for parking fees and tolls during business usage are separately deductible employee business expenses related to auto usage. The business portion of any interest on a vehicle loan is deductible as well, if you are self-employed. Normally a state legislator is an employee of the state. Please be advised that the State of Wisconsin reimburses mileage at .51 cents per mile for January 1, 2021 to December 31, 2021.

Q. How are automobile expenses determined under the "actual expense" method?

A. To compute the deductible amount of actual expenses you should gather your receipts for gasoline, oil, minor repairs, tires, insurance, car washes, storage and chauffeur fees. This amount is multiplied by the business use percentage (see next question) to determine the deductible portion. The business portion of interest to purchase the vehicle is deductible for self-employed individuals only. You are not allowed a deduction for interest to purchase a vehicle if you are considered an employee of the state. Next, compute the allowable depreciation (see question below). These two amounts plus the business parking fees and tolls is your total deduction for car expenses.

Q. How is the business use percentage determined?

A. The number of business miles driven compared to the total miles driven is the business percentage used to determine the portion of actual expenses that are deductible. Mileage that qualifies as business would include travel to meetings where you will speak or which are

AMERICAN OVERSIGHT

important for you to attend because of your position, travel to civic functions, political functions or other meetings related to your legislative duties, travel between two places of business (state legislature and another business or occupation), and travel to make an investigation to ascertain facts concerning possible legislation. Mileage from your tax home to your office which does not include an overnight stay is considered commuting and therefore can not be counted as business miles.

Q. What about mileage expenses incurred while going to meetings during a political campaign for my re-election? Although I am running for re-election, I still feel it is important to attend these meetings to explain to my constituents the activities of the Legislature.

A. The Internal Revenue Code specifically states that campaign expenses are not tax deductible. Because of this, it is very important for the legislator to distinguish between those expenses which are directly related to a campaign or re-election and those expenses which can be directly attributed to serving the legislator's constituency. (See questions under Campaign Contributions and Expenditures, page 24.)

Q. In general, how is automobile depreciation computed?

A. Automobiles used more than 50% for business may be depreciated under the following methods: 200% declining balance, 150% declining balance or straight-line. Only the straight-line method is available for autos used 50% or less for business. All automobiles, trucks or vans (passenger autos built on a truck chassis, including minivans and SUVs built on a truck chassis) placed in service are to be depreciated over a minimum of five years. If placed in service in 2020 and used 100% for business, they are limited to an annual depreciation or Section 179 deduction as follows;
…for the placed-in-service year if special depreciation allowed, $18,200 for autos, trucks, and vans;
…for the placed-in-service year if no special depreciation allowed, $10,200 for autos, trucks and vans;
…for the second tax year, $16,400 for autos, trucks and vans;
…for the third tax year, $9,800 for autos, trucks and vans; and
…for each succeeding year, $5,860 for autos, trucks and vans thereafter until the entire cost is recovered. These maximum amounts are reduced proportionately if the business use percentage is less than 100%. See page 18 of this booklet for additional information on depreciation as it pertains to SUVs, trucks and vans.

AMERICAN OVERSIGHT

The maximum MACRS depreciation deduction on a passenger auto placed in service before 2021 depends upon the date the auto was placed in service. These limits are as follows:

	AUTOS	TRUCKS & VANS
In 1995 through 2002	$1,775	$1,775
In 2003	$1,775	$1,875
In 2004	$1,775	$1,875
In 2005	$1,775	$1,875
In 2006	$1,775	$1,875
In 2007	$2,850	$3,050
In 2008	$4,800	$5,100
In 2009	$2,960	$3,060
In 2010	$4,800	$4,900
In 2011	$3,060	$3,260
In 2012	$3,160	$3,360
In 2013	$3,160	$3,460
In 2014	$3,160	$3,460
In 2015	$3,160	$3,460
In 2016	$3,160	$3,560
In 2017	$3,160	$3,560
In 2018	$10,000	$10,000
In 2019	$10,100	$10,100
In 2020	$10,100	$10,100

These amounts are reduced proportionately if the business uses percentage is less than 100 per cent.

Cost recovery deductions not claimed in a recovery year due to the foregoing limitations may be taken in subsequent years, if the auto is still in service. These later deductions continue to be limited to the maximum cost recovery deduction for subsequent years.

Q. Since I receive expense allowances from the State, would it not be best to disregard the allowances entirely and assume that they are completely offset by expenses and, therefore, not report anything?

A. The Internal Revenue Service regulations require that you include these allowances in your income and deduct related expenses. If your allowances exceed your actual expenses, you have an excess reimbursement which will be included in taxable income. If your expenses exceed your allowances, you have a deduction. Assuming that you are considered to have an accountable reimbursement plan, the excess over the reimbursement is classified as a miscellaneous itemized deduction and is deductible.

AMERICAN OVERSIGHT

Q. I lease my automobile. Are there any limitations on the amount I can deduct?

A. If the value of the automobile at the beginning of the lease is greater than $50,000 for leases beginning in 2021, a certain amount of the lease payment is not allowed as a deduction. The amount is dependent on the value of the automobile. The IRS has provided tables to assist in calculating the nondeductible portion of the leased automobile expense. (See Exhibit E.) You are also eligible to take the standard mileage instead of actual expenses if elected for the entire lease period.

Q. If I itemize my automobile expenses one year, can I use the standard mileage allowance the following year?

A. Generally, no. If you select the actual cost method, the standard mileage rate may not be used for that automobile, unless straight line depreciation was used in the prior year. However, if you use the standard mileage rate for the first year the car is used for business, you may switch to the actual cost method, but you then must use a straight-line depreciation rate for the remaining estimated life of the automobile.

Q. What if the business use of my automobile decreases after the first year?

A. Certain complex "recapture" rules apply and the law may require you to change your method of depreciation. For information on the details of these recapture rules, you should consult your Certified Public Accountant or other tax advisor.

Q. I received a traffic violation ticket because I was rushing to get to Madison to be on time for a session or a committee meeting. Is the fine a tax deductible expense?

A. Sorry, a traffic violation is a penalty and therefore not a deductible expense.

Q. If I use another mode of transportation for deductible travel, such as a bus or airplane, can I deduct these expenses in addition to the mileage expense I would have incurred had I driven my car instead?

A. You cannot claim both the mileage you would have incurred had you driven an automobile and the cost of the bus fare or airplane ticket. If you use a bus, airplane or other means of transportation, you should retain receipts and other documentation so that these expenses can be deducted.

Q. On occasion I ride with another legislator. Do I still claim a tax deduction for the mileage for that particular trip, even though I did not drive my own car?

A. No. When you ride with someone else and do not incur any transportation expense yourself, you cannot claim any mileage expense for that travel.

AMERICAN OVERSIGHT

Q. While away from home, staying in Madison for the legislative session, I am required to drive my car or take a taxi to the capitol each day. Can I deduct this as a business expense?

A. Yes. If Madison is not considered your tax home, business transportation between your hotel and the capitol, etc., is not considered commuting. Consequently, you may deduct such transportation expense.

AMERICAN OVERSIGHT

ENTERTAINMENT AND MEAL EXPENSES – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. I meet a constituent regarding a legislative problem. We have lunch or some other meal together and I pick up the check. Is this a deductible expense?

A. Generally, yes. However, specific record keeping requirements must be met in order to deduct expenditures for meals and entertainment. You should record in your expense diary the amount spent, the date, the place of the meal or entertainment, the business reason or nature of the benefit to be derived, and the names and occupations or other information about the persons entertained in order to establish their business relationships (see Record Keeping Tips, page 6). To be a deductible meal or entertainment expense, you or one of your employees must be present at the business meal. Meal and entertainment expenses that are considered to be lavish or extravagant are not deductible. Reasonable meals and entertainment expenses are limited to 50% of the amount expended. If you are deducting the meal on a per diem basis or have made the election discussed under the Tax Home section of this guide for the year, your portion of these business meals are not deductible. In addition, as noted on page 2, any deductible, unreimbursed expense which you incur as a legislator is deductible.

Q. I occasionally entertain other elected officials, such as city council members, mayors, and congressmen, primarily for the purpose of maintaining communications with them and to explore common problems. Can I deduct this expense?

A. No. Under the Tax Cuts & Jobs Act, entertainment expenses are not deductible.

Q. While in Madison, on certain special occasions, such as St. Patrick's Day, I will have a gathering of fellow legislators and other individuals connected with the Legislature. Can I deduct the expense of this gathering as a business expense?

A. Social gatherings are presumed to be non-business and the costs, therefore, are not deductible. However, the expenditures will be deductible if you can establish that the activity is primarily business motivated and directly related to your business of being a legislator. This will require records with documentary support which indicate the business purpose and the persons in attendance. (See Record Keeping Tips, page 6).

Q. On traditional holidays, such as Christmas, or at the end of the session, I and fellow legislators take secretaries who have worked long hours during the session out to dinner or buy them small gifts. Can we deduct these expenses?

A. Expenses which are ordinary and necessary to the conduct of your business are deductible. Generally, the expense in question would qualify under these criteria provided the secretaries are your employees and not employees of the State. An individual is considered your employee only if they are directly compensated by you. Individuals carried on the legislative body's payroll, paid through a congressional allowance or employees under statutory authority are generally considered to be employees of the State. Other business gifts are limited to $25 per-person per-year limit.

Q. While in Madison, I stay and have some of my meals at a private club. May I deduct the cost of my dues, meals and lodging, and related expenses?

A. Dues to a facility of a type which is generally considered to constitute entertainment, amusement or recreation are nondeductible.

This rule applies primarily to country clubs, golf and athletic clubs, airline and hotel clubs and clubs operated to provide meals and social activities. However, dues for membership in professional and trade associations and civic or public service organizations are deductible.

The deductibility of meals and lodging is covered in previous questions.

AMERICAN OVERSIGHT

OFFICE EXPENSES – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. Can I deduct salary paid for administrative and clerical assistance?

A. Yes. Salary paid in connection with your business is a deductible expense. If you hire someone, such as a full-time or part-time secretary, to assist you in legislative matters such as handling constituent questions and complaints, the compensation paid is deductible. If you pay wages, you must obtain federal and Wisconsin identification numbers as well as report and pay payroll taxes. For the details on the proper accounting and tax reporting of payrolls, you should consult your Certified Public Accountant or other tax advisor.

Q. If I have a legislative assistant in my district who works for only a token amount each month, am I required to go through the process of filing payroll tax returns and withholding payroll taxes?

A. In most situations, all amounts paid for services are subject to payroll tax laws. However, there are some exceptions, such as in the case of an independent contractor. Since each situation is decided on its particular facts and circumstances, you should consult your Certified Public Accountant or other tax advisor to evaluate the situations for you.

Q. I maintain a rented office in my district for the purpose of serving my constituents. What expenses can I deduct for the cost of maintaining this office?

A. If the office is being used exclusively for legislative purposes, all expenses related to this office - rent, utilities, depreciation on improvements and equipment, etc. - are deductible. However, to the extent that the office is used during your campaign for strictly political purposes, that portion of the total expenses is not deductible. Campaign contributions may be used to offset these campaign office expenses.

Q. Under what circumstances can I claim expense of my home as a business expense?

A. Generally, no deduction will be allowed with respect to expense of your personal residence unless a portion of the residence is used exclusively and regularly for administrative tasks and/or as a meeting place for constituents as your principal place of business and the State does not provide an office or other fixed location for your use. A deduction may be available if you are engaged in a trade or business in addition to that as a legislator. The qualified expenses include repairs, maintenance, insurance, utilities, depreciation, mortgage interest, real estate taxes and rent. You should consult your Certified Public Accountant or tax advisor regarding your particular situation.

Q. I purchased a computer and printer in 2021 that I use exclusively for legislative purposes. This is an employer required expenditure. How much of the purchase price can I currently deduct as depreciation?

AMERICAN OVERSIGHT

A. Under Internal Revenue Code Section 179 for 2021 you can elect to currently deduct, rather than depreciate, up to $1,050,000 of qualifying property (property acquired by purchase for use in the active conduct of a trade or business). This election is limited to the lesser of $1,050,000 or related business income before the election. This limit is reduced by the amount by which the cost of Sec. 179 property placed in service during the tax year exceeds $2,620,000.

A special depreciation allowance equal to 100% of the depreciable basis of qualified property is allowed for assets purchased and placed in service in 2021. Please note that Wisconsin does not allow this.

If Code Sec. 179 expensing is claimed on qualified property, the amount expensed is subtracted from the asset's unadjusted basis before the additional first-year depreciation allowance is computed. Then the regular first-year depreciation (and depreciation for future years) is calculated using the adjusted basis remaining after Sec. 179 expensing and after the additional special depreciation first-year allowance.

For a passenger auto that is qualified property rated at less than 6,000 pounds and is acquired and placed in service in 2021, the combined Code Sec. 179 expensing and regular first year depreciation allowance is capped at $10,100 with no special depreciation allowance. If it qualifies for special depreciation, it is capped at $18,100.

Note – In the case of a truck or van, the 6,000 pound weight test is applied to the truck's or van's gross (loaded) weight rather than its unloaded gross vehicle weight. Sport-utility vehicles (SUVs) are trucks. SUVs that are rated at more than 6,000 pounds gross (loaded) vehicle weight fall outside the definition of a passenger auto and have a higher first-year luxury auto depreciation dollar cap. For new trucks and vans (passenger autos built on a truck chassis, including minivans and sport-utility vehicles built on a truck chassis) that are acquired and first placed in service in 2021, the regular first year depreciation allowance is capped at $10,200. If it qualifies for special depreciation, it is capped at $18,200.

For Federal purposes Code Section 179 depreciation expense is **limited** to $26,200 of the cost of a heavy SUV (sport utility vehicle) placed in service. The $26,200 expensing limit applies to any 4-wheeled vehicle which:

1. is primarily designed (or can be used) to carry passengers on public streets, roads and highways (except for rail vehicles), and
2. has a GVWR (gross, or loaded, vehicle weight rating) of more than 6,000 pounds but not more than 14,000 pounds.

Any remaining cost basis (over the $26,200 already expensed using Section 179) will be depreciated over the 5-year MACRS recovery period.

AMERICAN OVERSIGHT

A vehicle is **not** subject to the $26,200 expensing limit if it:

1. is designed for more than nine individuals in seating rearward of the driver's seat;
2. is equipped with an open cargo area, or a covered box not readily accessible from the passenger compartment, of at least six feet in interior length; or
3. has an integral enclosure, fully enclosing the driver compartment and load carrying device, does not have seating rearward of the drivers seat, and has no body section protruding more than 30 inches ahead of the leading edge of the windshield.

There is no longer a difference between Federal and Wisconsin depreciation for assets placed in service in tax years on and after January 1, 2014.

For assets placed in service before January 1, 2014, any difference between the Federal and Wisconsin adjusted basis of all depreciation assets will be subtracted ratably over the next years (20% per year). This will eventually make the Wisconsin and Federal tax basis the same.

Please consult a Certified Public Accountant or other tax advisor on proper application of these tables. If the property is not used 100% for business purposes, the purchase price must be reduced by the personal use percentage before applying the §179 election or depreciation table percentages.

TELEPHONE EXPENSE – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. Can I deduct the cost of my personal residence telephone in my district? I use it for calling and receiving calls from constituents and for other State business.

A. The basic cost of the telephone is an expense that you would incur whether or not you were a member of the Legislature, and is therefore a personal, nondeductible expense. Calls charged in excess of those covered by the basic rate are a deductible expense if they are business calls. If you have a telephone installed exclusively for business use, the entire cost of this telephone should be deductible if considered reasonable. Long distance telephone calls and telegrams that relate to legislative business are a deductible expense. An answering service, a tape recording device for telephone messages, facsimile machine, call waiting or other enhancements are also deductible to the extent they are directly related to business. However, to the extent that these items are related to personal purposes rather than business purposes, the costs are not deductible.

Cellular phones and similar telecommunication equipment are not considered "listed" property. Also, use of employer-provided cell phones is not taxable income if the phone is provided primarily for non compensatory reasons.

AMERICAN OVERSIGHT

ADVERTISING EXPENSE – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. As a member of the Legislature, I am often called upon to buy advertising in trade journals, magazines, etc. published by various organizations in my district. Can I deduct the cost of this advertising?

A. Generally, yes. It is important that you support worthwhile business and community activities in your district, and it is necessary that you keep your name before the public. Additionally, it is advisable that any advertising purchased during a re-election campaign be paid for by campaign contributions, because political expenditures are not deductible if paid from personal funds. However, no deduction is allowed for advertising which is purchased in a convention program of a political party or in any other publication if any part of the proceeds of the publication is used, directly or indirectly, by a political party or a political candidate.

Q. As a member of the Legislature, I am asked to purchase a ticket for and attend many dinners within my district. Can I deduct the cost of these dinners?

A. Generally, yes. You may also deduct incidental costs, such as transportation and parking. However, if the dinner is on a day in which a per diem is claimed, the cost of the ticket to the extent it is attributable to your dinner is not deductible. In addition, these dinners are subject to the 50% limitation for meals and entertainment. No deduction is allowed if any part of the proceeds from the event is used, directly or indirectly, by a political party or a political candidate.

Q. I buy calendars, pens or similar items which I distribute to my constituents as a means of reminding them that I am their legislator (with my address and phone number so that they can contact me when needed). Can I deduct the cost of such items?

A. Yes, since this is directly related to your business of adequately and properly serving your constituency, you may deduct the cost of these items on your tax return.

AMERICAN OVERSIGHT

OTHER EXPENSES – FEE-BASIS PUBLIC OFFICIALS ONLY

Q. What other expenses can I deduct on my tax return?

A. Other deductible expenses you are likely to incur as a member of the Legislature are as follows:

1. Stationery and postage relating to mail concerning your business as a member of the Legislature.

2. Any other supplies such as pens, paper clips, pencils, etc., that are necessary to maintain your office and serve your constituency.

3. Dues to professional organizations, business leagues, trade associations and civic and public service organizations that you have joined for business purposes. Any dues or other amounts paid to organizations in an attempt to influence the general public with respect to legislative matters, elections or referendums are not deductible. Dues for country clubs, golf and athletic clubs, and other entertainment or recreational clubs are not deductible even if you joined for business reasons.

4. Publications, including books, newspapers and magazines, which you purchase to assist you in your work as a legislator. Expenses of this nature incurred for personal reasons are not deductible.

5. The cost of Christmas cards including envelopes, postage and photographs sent to persons having a business relationship to you in connection with your position as an elected official.

6. Cost of newsletters sent to constituents. (See Newsletter Fund, page 28).

7. Fees paid to Certified Public Accountants and others for services relating to business and income taxes.

8. Education expenses necessary for you to maintain and improve your skills as a legislator.

All of these items, like the other unreimbursed expenses discussed in this guide, are considered miscellaneous itemized deductions.

Q. I am in Madison for long periods of time. Occasionally I find it necessary and desirable to have my spouse (and/or children) visit me. Can I deduct the cost of their transportation to Madison and their motel and meals cost?

A. No. Travel expenses will not be deductible for spouses, dependents or other individuals accompanying a person on a business trip unless:

AMERICAN OVERSIGHT

1) the spouse, dependent or other individual is an employee of the person paying the expenses,
2) the travel is for a bona fide business purpose, *and*
3) the expenses of the spouse, dependent or other individual would otherwise be deductible.

CAMPAIGN CONTRIBUTIONS AND EXPENDITURES

Q. Are campaign receipts and expenditures subject to Internal Revenue Service review?

A. Yes. The Internal Revenue Service has ruled that campaign contributions and political gifts used solely for the expenses of an election campaign or similar purpose are not taxable income to the candidate. Any contributions that are used for personal purposes must be included in the candidate's taxable gross income. Additionally, a political organization may have to file an income tax return and may incur a tax liability. See the following questions for a further discussion of this topic.

Q. Is it permissible to commingle political funds with personal funds?

A. No. If funds are commingled so as to make tracing impractical, the entire fund will be presumed devoted to personal use and deemed taxable income to the candidate. Separate bank account should be maintained for campaign funds.

Q. Am I required to make any disclosures to contributors regarding the nondeductibility of campaign contributions?

A. Yes. Each campaign solicitation by a political organization is subject to disclosure requirements and must contain an express statement, in a conspicuous and easily recognizable format, that contributions or gifts to the organization are not deductible as charitable contributions.

The disclosure requirements do not apply to any organization whose gross receipts in any tax year normally do not exceed $100,000. However, if necessary or appropriate to prevent the avoidance of the disclosure requirement through the use of multiple organizations, the IRS may treat any group of two or more organizations as one organization for purposes of the gross receipts test.

The disclosure requirements generally apply to any solicitation of contributions or gifts that is made in written or printed form, by television, radio or telephone. Therefore, the disclosure requirements do not apply to an in-person verbal request for contributions. A telephone call or letter that is not part of a coordinated fund-raising campaign soliciting 10 or fewer people during a calendar year is not considered solicitation. Failure to disclose that contributions are not deductible may result in a $1,000 per day penalty, up to a maximum of $10,000 per year. The penalty may be higher if it is determined that the organization willfully failed to provide the required disclosure.

Q. How are proceeds derived from fund-raising dinners or testimonial dinners accounted for?

A. The accounting and reporting for dinner proceeds are the same as for campaign contributions.

AMERICAN OVERSIGHT

Q. Are contributions of property, such as stocks and bonds, recorded the same as cash?

A. Yes. The fair market value on the date of the contribution should be acknowledged as the amount of the contribution.

Q. Are campaign expenses deductible for tax purposes?

A. No. Campaign expenses paid from a candidate's private resources are considered non-deductible personal expenses regardless of the result of the election. Such expenses would include the cost of attending political conventions, contributions to the party which sponsored the candidacy, expenses of campaign travel, campaign advertising, expenses of successfully defending a contested election, filing fees, or the cost of legal fees paid in litigation over redistricting. Similarly, contributions made to a political candidate or to a political party are not deductible by the individual making the contribution.

Q. What types of expenditures may be paid from campaign contributions?

A. Expenditures properly payable from campaign contributions include amounts:

1. Used for generally recognized campaign expenses regardless of when such expenses were incurred;

2. Contributed to national, state or local committees of the candidate's party; or

3. Used to reimburse the political candidate for out-of-pocket campaign expense paid by him/her during a current campaign, or, if he/she is not currently campaigning, during the last previous campaign.

Q. What is the tax status of unexpended balances of political funds refunded to contributors?

A. For tax purposes, unexpended balances of political funds which are repaid to known contributors are not considered to be either expended or diverted and, therefore, are not taxable income to the candidate.

Q. In what other ways may unexpended balances of political funds avoid being taxable to the candidate?

A. Any excess funds that are unexpended will generally not be treated as taxable income to the candidate if the excess funds are (1) held in a separate bank account for reasonable anticipation of being used for future campaigns; or (2) the funds are distributed within a reasonable period of time to another political organization or a newsletter fund, an organization that qualifies as a publicly supported charity, or the general fund of the United States Treasury or any state or local government; or (3) the State of Wisconsin Common School Fund.

AMERICAN OVERSIGHT

Q. What reporting is required of a political committee, organization, association or fund formed for the purpose of managing campaign contributions and expenses of a candidate?

A. Such an entity is considered an organization exempt from income tax. However, an income tax may be imposed if the organization expends funds for items not directly related to its exempt political function or if the organization earns investment income such as interest or dividends. (See the next question for a further discussion of this topic). Form 1120-POL must be filed in any year in which there is taxable income. The return is due on or before the fifteenth day of the third month after the end of the taxable year. A timely filing of Form 7004, Application For Automatic Extensions of Time to File Corporation Income Tax Return, will result in an automatic six-month extension of time to file Form 1120-POL.

Q. What items would be reported and subject to tax on the 1120-POL?

A. Only taxable income is reported on Form 1120-POL. Taxable income is the excess of the organization's gross income (excluding exempt function income) over the deductions that are directly connected with the production of that income (excluding exempt function income). This would include income such as interest, dividends, rents, royalties and capital gains. Exempt function income consists of money or property received by the political organization for the purpose of influencing or attempting to influence the selection, nomination, election, or appointment of any individual to any federal, state or local public office or office in a political organization, whether or not such efforts are successful. Exempt function income includes contributions, membership fees, proceeds from a political fundraising or entertainment event, and proceeds from the sale of political campaign material. However, income earned on exempt function income, such as interest and dividends from interim investments, is subject to tax. A political organization is allowed a $100 deduction in calculating its taxable income (but not for newsletter funds).

Q. What accounting records are required for political funds?

A. Detailed substantiating records should be kept by the political candidate or other custodian to enable the candidate to account accurately for the receipt and disbursement of political funds and to identify the exempt function activity for which each expenditure is made. Otherwise, receipts may be taxed on the candidate's individual return and campaign expenses would be nondeductible. Also, if political funds are commingled with personal funds of the political candidate so as to render tracing or identification impractical, the political funds will be presumed to have been diverted to personal use at the time so commingled.

Q. Are there any other forms that state candidates are required to file with the Internal Revenue Service?

A. Under current law, there are mandatory filing requirements for many political organizations that have tax exempt status under Section 527 of the Internal Revenue Service Code.

AMERICAN OVERSIGHT

Current law:

- Exempts state and local candidate and party committees from filing Form 8871 and Form 990 (or 990-EZ);
- Exempts qualified state and local political organizations (QSLPOs) from filing Form 8872;
- Exempts political committees filing with the FEC from filing Form 990 (or 990-EZ);
- Exempts political organizations that are a caucus or association of state or local officials from filing Form 990 (or 990-EZ);
- Requires additional information on Form 8871 and Form 8872;
- Requires the filing of an amended Form 8871 after material changes to maintain tax-exempt status;
- Increases reporting thresholds for certain Form 990 filers;
- Eliminates the requirement to file Form 1120-POL except where an organization has taxable income after taking the $100 specific deduction (returning to pre-July 2000 requirements);
- Reinstates the pre-July 2000 confidentiality requirement for any Form 1120-POL filed after November 2, 2002; and
- Changes the electronic form requirements by
    - Requiring the Form 8871 be filed electronically (as opposed to both in writing and electronically); and
    - Requiring that any Form 8872 due after June 30, 2003, be filed electronically if the filing organization has or expects to have contributions or expenditures of more than $50,000 during the calendar year.

A more complete description of filing requirements for political organizations can be found in Fact Sheet 2002-13. For more information, visit the IRS Web site at www.irs.gov/polorgs or call the IRS Tax Exempt Customer Account Service toll free number at 1-877-829-5500. Assistance is available 8:00 a.m. to 5:00 p.m. local time, Monday through Friday.

Q. What is the tax rule regarding presumption against unrestricted gifts?

A. The Internal Revenue Service will presume, in the absence of evidence to the contrary, that contributions to a political candidate are political funds which are not intended for the unrestricted personal use of such recipient. If, in fact, the funds were intended for the unrestricted personal use of the political candidate, he or she must be able to substantiate this claim.

AMERICAN OVERSIGHT

NEWSLETTER FUND

Q. What is a qualified newsletter fund?

A A qualified newsletter fund is a fund established and maintained by an individual to prepare and circulate his/her newsletter. This fund can be set up by the holder of any federal, state or local elective public office. Candidates for any such office can also establish a newsletter fund, as can individuals who have been elected to public office but have not yet started their term in office (as defined in section 527(g)(3)). After an individual has left office, the newsletter fund provision is not available unless he/she again becomes a candidate.

Q. How is a newsletter fund accounted for?

A. A newsletter fund is treated as an exempt political organization. The assets in the fund must be maintained in separate accounts and used to prepare and circulate the newsletter. Cost of preparing the newsletter includes the cost of secretarial services and the cost of printing, addressing and mailing the newsletter.

Q. Is a newsletter fund subject to tax?

A. A newsletter fund is subject to tax similar to a political organization as discussed in answers to previous questions except that it is not allowed the $100 deduction granted other political organizations.

Q. What about unexpended balances of a newsletter fund?

A. The unexpended balances of a newsletter fund may be contributed to or for the use of another newsletter fund, transferred to the general fund of the U.S. Treasury or of any state or local government, or transferred to or for the use of an exempt public charity, without being considered as having been diverted for the individual's personal use. However, transfer of unexpended assets to a political organization which is not a newsletter fund will be considered as being diverted for the individual's personal use and deemed as taxable income.

AMERICAN OVERSIGHT

WISCONSIN INCOME TAX RETURNS

Q. Are all of the business related expenses discussed above deductible on my state income tax return?

A. No. Except for certain modifications, Wisconsin taxable income is equal to federal *adjusted* gross income (before itemized deductions); therefore, unreimbursed employee business expenses and reimbursed expenses incurred pursuant to a non-accountable plan do not reduce Wisconsin taxable income.

Q. Are there any other adjustments to income or deductions which are only a consideration on the Wisconsin income tax return?

A. Yes. The allowance that you elect to receive for food and lodging while you are in Madison on legislative business is exempt from Wisconsin taxation if you do not claim a deduction for travel expenses away from home on legislative days per Wisconsin Statute 71.05(1)(b). In many cases, a Wisconsin legislator who resides more than 50 miles from the Capitol building may discover that the amount claimed for travel expenses based on the federal per diem rate exceeds the allowance he/she received from Wisconsin. For these individuals, the statutory exemption noted above is not helpful. However, for each legislator whose statutory allowance exceeds the allowable travel expenses attributable to such reimbursement, the statutory exemption is useful. In this event, the legislator should list the difference between the statutory allowance and the allowable travel expenses as a subtraction from federal adjusted gross income on Line 11 of Wisconsin's Form 1. We recommend you consult with your Certified Public Accountant or other tax advisor regarding this issue.

General Instructions

Purpose of Form

Political organizations and certain exempt organizations file Form 1120-POL to report their political organization taxable income and income tax liability under section 527.

Who Must File

A political organization, whether or not it is tax exempt, must file Form 1120-POL if it has any political organization taxable income.

An exempt organization that isn't a political organization must file Form 1120-POL if it is treated as having political organization taxable income under section 527(f)(1).

Political Organizations

A political organization is a party, committee, association, fund (including a separate segregated fund described in section 527(f)(3) set up by a section 501(c) organization), or other organization, organized and operated primarily for the purpose of accepting contributions or making expenditures, or both, to influence the selection, nomination, election, or appointment of any individual to any public office or office in a political organization, or the election of Presidential or Vice Presidential electors. Political organizations include the following.

1. Newsletter fund, if it is a fund established and maintained by an individual who holds, has been elected to, or is a candidate (as defined in section 527(g)(3)) for nomination or election to any federal, state, or local elective public office. The fund must be maintained exclusively for the preparation and circulation of the individual's newsletter.

2. Separate segregated fund, if it is maintained by a section 501(c) organization (exempt from tax under section 501(a)). For more information, see section 527(f)(3) and Regulations section 1.527-6(f).

Taxable Income

Political organization taxable income (line 19) is the excess of **(a)** gross income for the tax year (excluding exempt function income (defined later)) over **(b)** deductions directly connected with the earning of gross income (excluding exempt function income). Taxable income is figured with the following adjustments.

1. A specific deduction of $100 is allowed (but not for newsletter funds).

2. The net operating loss deduction isn't allowed.

3. The dividends-received deduction and other special deductions for corporations aren't allowed. See section 527(c)(2)(C).

Effect of failure to file Form 8871. Unless excepted (see *Other Reports and Returns That May Be Required,* later), **every political organization,** in order to be considered a tax-exempt organization, must file Form 8871, Political Organization Notice of Section 527 Status. An organization that is required to file Form 8871 but fails to file it when due must include in taxable income for the period before Form 8871 is filed its exempt function income (including contributions received, membership dues, and political fundraising receipts), minus any deductions directly connected with the production of that income. The organization may not deduct its exempt function expenditures because section 162(e) denies a deduction for political campaign expenditures.

Exempt Function and Exempt Function Income

The exempt function of a political organization includes all activities that are related to and support the process of influencing or attempting to influence the selection, nomination, election, or appointment of any individual to any federal, state, or local public office, or office of a political organization, or the election of Presidential or Vice Presidential electors, whether or not the individuals or electors are selected, nominated, elected, or appointed. The term "exempt function" also means the making of expenditures relating to the individual's office, once selected, nominated, elected, or appointed, but only if the expenditures would be deductible by an individual under section 162(a).

Exempt function income is the total of all amounts received from the following sources (to the extent that they are separately segregated only for use for an exempt function).

- Contributions of money and property.
- Membership dues, fees, or assessments paid by a member of a political party.
- Proceeds from a political fundraising or entertainment event, or from the sale of political campaign materials, if those amounts aren't received in the active conduct of a trade or business.
- Proceeds from the conduct of a bingo game, as described in section 513(f)(2).

Specified Taxable Income

Newsletter fund. Taxable income of a newsletter fund is figured in the same manner as taxable income of a political organization except that the specific deduction of $100 isn't allowed.

Exempt organization that isn't a political organization. Gross income for an exempt organization described in section 501(c) that isn't a political organization should include the lesser of:

1. The net investment income of the organization for the tax year, or

2. The aggregate amount spent for an exempt function during the tax year either directly or indirectly through another organization.

Net investment income, for this purpose, is the excess of:

1. The gross amount of interest, dividends, rents, and royalties, plus the excess, if any, of gains from the sale or exchange of assets, over the losses from the sale or exchange of assets; over

2. The deductions directly connected with the production of this income.

Taxable income is figured with the adjustments shown in (1), (2), and (3) under *Taxable Income,* earlier.

AMERICAN OVERSIGHT

Who Must Sign

The return must be signed and dated by:

- The president, vice president, treasurer, assistant treasurer, chief accounting officer; or
- Any other officer (such as tax officer) authorized to sign.

Receivers, trustees, and assignees must also sign and date any return filed on behalf of an organization.

If an employee of the organization completes Form 1120-POL, the *Paid Preparer Use Only* area should remain blank. In addition, anyone who prepares Form 1120-POL but doesn't charge the organization shouldn't complete that section. Generally, anyone who is paid to prepare the return must sign it and fill in the *Paid Preparer Use Only* area.

The paid preparer must complete the required preparer information and:

- Sign the return in the space provided for the preparer's signature, and
- Give a copy of the return to the taxpayer.

Note: A paid preparer may sign original or amended returns by rubber stamp, mechanical device, or computer software program. Also, facsimile signatures are authorized.

Paid Preparer Authorization

If the organization wants to allow the IRS to discuss its 2021 tax return with the paid preparer who signed it, check the "Yes" box in the signature area of the return. This authorization applies only to the individual whose signature appears in the *Paid Preparer Use Only* section of the return. It doesn't apply to the firm, if any, shown in that section.

If the "Yes" box is checked, the organization is authorizing the IRS to call the paid preparer to answer any questions that may arise during the processing of its return. The organization is also authorizing the paid preparer to:

- Give the IRS any information that is missing from its return;
- Call the IRS for information about the processing of its return or the status of any refund or payment(s); and
- Respond to certain IRS notices that the organization may have shared with the preparer about math errors, offsets, and return preparation. The notices won't be sent to the preparer.

The organization isn't authorizing the paid preparer to receive any refund check, bind the organization to anything (including any additional tax liability), or otherwise represent it before the IRS. If the organization wants to expand the paid preparer's authorization, see Pub. 947, Practice Before the IRS and Power of Attorney.

However, the authorization will automatically end no later than the due date (excluding extensions) for filing the 2022 tax return. If you want to revoke the authorization before it ends, see Pub. 947.

When and Where To File

In general, an organization must file Form 1120-POL by the 15th day of the 4th month after the end of the tax year.

If the due date falls on a Saturday, Sunday, or legal holiday, the organization may file on the next business day.

File Form 1120-POL with the:

Department of the Treasury
Internal Revenue Service Center
Ogden, UT 84201

If the organization's principal business, office, or agency is located in a foreign country or a U.S. possession, the address for mailing their return should be:

Internal Revenue Service Center
P.O. Box 409101
Ogden, UT 84409

Private delivery services. Political organizations can use certain private delivery services (PDS) designated by the IRS to meet the "timely mailing as timely filing" rule for tax returns. Go to *www.irs.gov/PDS* for the current list of designated services.

The PDS can tell you how to get written proof of the mailing date.

For the IRS mailing address to use if you're using PDS, go to *www.irs.gov/PDSstreetAddresses*.

PDS can't deliver items to P.O. boxes. You must use the U.S. Postal Service to mail any item to an IRS P.O. box address.

Extension. File Form 7004, Application for Automatic Extension of Time To File Certain Business Income Tax, Information, and Other Returns, to request an extension of time to file.

Other Reports and Returns That May Be Required

An organization that files Form 1120-POL may also be required to file the following forms.

1. Form 8871.

Generally, to be tax exempt, a political organization must file this form within 24 hours of the date it is established and within 30 days of any material change in the organization. However, don't file this form if the organization is:

- An organization that reasonably expects its annual gross receipts to always be less than $25,000,
- A political committee required to report under the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.),
- A political committee of a state or local candidate,
- A state or local committee of a political party, or
- A tax-exempt organization described in section 501(c) that is treated as having political organization taxable income under section 527(f)(1).

2. Form 8872, Political Organization Report of Contributions and Expenditures (periodic reports are required during the calendar year).

Generally, a political organization that files Form 8871 and accepts a contribution or makes an expenditure for an exempt function during the calendar year must file this form. However, this form isn't required to be filed by an organization excepted from filing Form 8871 (see (1) earlier), or a qualified state or local political organization (QSLPO) (see the Instructions for Form 8871, and Rev. Rul. 2003-49, 2003-20 I.R.B. 903, for the definition of a QSLPO).

3. Form 990, Return of Organization Exempt From Income Tax, or **Form 990-EZ,** Short Form Return of Organization Exempt From Income Tax.

An exempt political organization must also file one of these forms if its annual gross receipts are $25,000 or more ($100,000 or more for a QSLPO).

The following political organizations aren't required to file Form 990 or Form 990-EZ.

- Any political organization excepted from the requirement to file Form 8871.
- Any caucus or association of state or local officials.

See the instructions for Form 990 or Form 990-EZ.

4. Form 8997, Initial and Annual Statement of Qualified Opportunity Fund (QOF) Investments.

Use Form 8997 to identify qualified investments held in a qualified opportunity fund at any time during the year. If you held a qualified investment in a qualified opportunity fund at any time during the year, you must file your Form 1120-POL with Form 8997 attached. See the instructions for Form 8997.

5. Form 8992, U.S. Shareholder Calculation of Global Intangible Low-Taxed Income (GILTI).

Use Form 8992 to figure the domestic corporation's GILTI and attach it to Form 1120-POL. See section 951A for more information.

Accounting Methods

Figure taxable income using the method of accounting regularly used in keeping the organization's books and records. Generally, permissible methods include:

- Cash,
- Accrual, or
- Any other method authorized by the Internal Revenue Code.

In all cases, the method used must clearly show taxable income.

Change in accounting method. Generally, the organization may only change the method of accounting used to report taxable income (for income as a whole or for any material item) by getting consent on Form 3115, Application for Change in Accounting Method. For more information, see Pub. 538, Accounting Periods and Methods.

AMERICAN OVERSIGHT
WI-REP-22-0207-A-000082

Accounting Period

The organization must figure its taxable income on the basis of a tax year. The tax year is the annual accounting period the organization uses to keep its records and report its income and expenses if that period is a calendar year or a fiscal year. However, an organization that doesn't keep books or doesn't have an annual accounting period must use the calendar year as its tax year. A new organization must adopt its tax year by the due date (not including extensions) of its first income tax return.

Change of tax year. After the organization has adopted a tax year, it must get the consent of the IRS to change its tax year by filing Form 1128, Application To Adopt, Change, or Retain a Tax Year. See Regulations section 1.442-1 and Pub. 538.

Rounding Off to Whole Dollars

The organization may round off cents to whole dollars on the return and accompanying schedules. If the organization does round to whole dollars, it must round all amounts. To round, drop amounts under 50 cents and increase amounts from 50 to 99 cents to the next dollar. For example, $1.39 becomes $1 and $2.50 becomes $3.

If two or more amounts must be added to figure the amount to enter on a line, include cents when adding the amounts and round off only the total.

Federal Tax Deposits Must Be Made by Electronic Funds Transfer

You must use electronic funds transfer to make all federal deposits (such as deposits of estimated tax, employment tax, and excise tax). Generally, electronic fund transfers are made using the Electronic Federal Tax Payment System (EFTPS). If you don't want to use EFTPS, you can arrange for your tax professional, financial institution, payroll service, or other trusted third party to make deposits on your behalf. Also, you may arrange for your financial institution to submit a same-day wire payment on your behalf. EFTPS is a free service provided by the Department of the Treasury. Services provided by your tax professional, financial institution, payroll services, or other third party may have a fee. To get more information about EFTPS or to enroll in EFTPS, visit *www.EFTPS.gov* or call 800-555-4477. Additional information about EFTPS is available in Pub. 966, Electronic Federal Tax Payment System: A Guide to Getting Started.

Depositing on time. For deposits made by EFTPS to be on time, you must submit the deposit by 8 p.m. Eastern time the day before the date the deposit is due. If you use a third party to make deposits on its behalf, they may have different cutoff times.

Same-day payment option. If you fail to submit a deposit transaction on EFTPS by 8 p.m. Eastern time the day before the date a deposit is due, you can still make the deposit on time by using the Federal Tax Application (FTA). Before using the same-day payment option, you will need to make arrangements with your financial institution ahead of time. Please check with the financial institution regarding availability, deadlines, and costs. To learn more about making a same-day payment and to download the Same-Day Payment Worksheet, visit *www.EFTPS.gov*.

Deposits on business days only. If a deposit is required to be made on a day that isn't a business day, the deposit is considered timely if it is made by the close of the next business day. A business day is any day other than a Saturday, Sunday, or legal holiday. For example, if a deposit is required to be made on a Friday and Friday is a legal holiday, the deposit will be considered timely if it is made by the following Monday (if that Monday is a business day). The term "legal holiday" means any legal holiday in the District of Columbia.

If the organization owes tax when it files Form 1120-POL, don't include the payment with the tax return. Instead, use EFTPS.

Interest and Penalties

Interest

Interest is charged on taxes paid late even if an extension of time to file is granted. Interest is also charged on penalties imposed for failure to file, negligence, fraud, gross valuation overstatements, and substantial understatement of tax from the due date (including extensions) to the date of payment. The interest charge is figured at a rate determined under section 6621.

Penalties

Penalties may be imposed if the organization is required to file Form 1120-POL and it fails to file the form by the due date. The following penalties may apply if the organization doesn't file its tax return by the due date, including extensions.

Late filing of return. The organization may be charged a penalty of 5% of the unpaid tax for each month or part of a month the return is late, up to a maximum of 25% of the unpaid tax. The minimum penalty for a return that is more than 60 days late is the smaller of the tax due or $435. If you receive a notice about a penalty after you file this return, reply to the notice with an explanation and we will determine if you meet reasonable-cause criteria. **Do not** include an explanation when you file your return.

Late payment of tax. An organization that doesn't pay the tax when due may generally have to pay a penalty of ½ of 1% of the unpaid tax for each month or part of a month the tax isn't paid, up to a maximum of 25% of the unpaid tax. If you receive a notice about a penalty after you file this return, reply to the notice with an explanation and we will determine if you meet reasonable-cause criteria. **Do not** include an explanation when you file your return.

Other penalties. Other penalties can be imposed for negligence, substantial understatement of tax, and fraud. See sections 6662 and 6663.

Assembling the Return

Attach Form 4136, Credit for Federal Tax Paid on Fuels, after page 1 of Form 1120-POL. Attach schedules in alphabetical order and other forms in numerical order after Form 4136.

Complete every applicable entry space on Form 1120-POL. Do not write "See attached" instead of completing the entry spaces. If you need more space on the forms or schedules, attach separate sheets using the same size and format as on the printed forms. Show the totals on the printed forms. Attach these separate sheets after all the schedules and forms. Be sure to put the organization's name and EIN on each sheet.

Specific Instructions

Period covered. File the 2021 return for calendar year 2021 and fiscal years that begin in 2021 and end in 2022. For a fiscal year, fill in the tax year space at the top of the form.

Note: The 2021 Form 1120-POL may also be used if:

- The organization has a tax year of less than 12 months that begins and ends in 2022, and
- The 2022 Form 1120-POL isn't available at the time the organization is required to file its return. The organization must show its 2022 tax year on the 2021 Form 1120-POL and take into account any tax law changes that are effective for tax years beginning after 2021.

Address. Include the suite, room, or other unit number after the street address. If the Post Office doesn't deliver mail to the street address and the organization has a P.O. box, show the box number instead of the street address.

Final return, name change, address change, amended return. If the organization ceases to exist, check the "Final return" box.

If the organization has changed its name since it last filed a return, check the "Name change" box.

If the organization has changed its address since it last filed a return, check the "Address change" box.

Note: If a change in address occurs after the return is filed, the organization should use Form 8822-B, Change of Address or Responsible Party—Business, to notify the IRS of the new address.

AMERICAN OVERSIGHT

Amended return. If you are filing an amended Form 1120-POL:

- Check the "Amended return" box,
- Complete the entire return,
- Correct the appropriate lines with the new information, and
- Refigure the tax liability.

Attach a sheet that explains the reason for the amendments and identifies the lines and amounts being changed on the amended return. Generally, the amended return must be filed within 3 years after the date the original return was due or 3 years after the date the organization filed it, whichever is later.

Employer identification number (EIN). Enter the nine-digit EIN assigned to the organization. If the organization doesn't have an EIN, it must apply for one. An EIN can be applied for online by visiting the IRS website at *www.irs.gov/EIN*. The organization may also apply for an EIN by faxing or mailing Form SS-4 to the IRS. Customers outside the United States or U.S. possessions may also apply for an EIN by calling 267-941-1099 (toll call).

The online application process isn't yet available for organizations with addresses in foreign countries.

If the organization hasn't received its EIN by the time the return is due, write "Applied for" in the space provided for the EIN. See Pub. 583, Starting a Business and Keeping Records, for details.

Income and deductions. Campaign contributions and other exempt function income are generally not includible in income; likewise, campaign expenditures and other exempt function expenditures aren't deductible. To be deductible in figuring political organization taxable income, expenses must be directly connected with the production of political organization taxable income. In those cases where expenses are attributable to the production of both exempt function income and political organization taxable income, the expenses should be allocated on a reasonable and consistent basis. Only the portion allocable to the production of political organization taxable income may be deducted. No deduction is allowed for general administrative or indirect expenses.

Line 7. Other income and nonexempt function expenditures. Enter the income from other sources, such as the following.

- Exempt function income that wasn't properly segregated for exempt functions.
- Income received in the ordinary course of a trade or business.
- Ordinary income from the trade or business activities of a partnership (from Schedule K-1 (Form 1065), Partner's Share of Income, Deductions, Credits, etc., Part III, box 1).
- Exempt function income (minus any deductions directly connected with the production of that income) taxable under section 527(i)(4) for failure to timely file Form 8871. Include amounts whether or not segregated for use for an exempt function.

Also include on this line:

- Expenditures that were made from exempt function income that weren't for an exempt function and resulted in direct or indirect financial benefit to the political organization (see Regulations section 1.527-5 for examples), and
- Illegal expenditures.

Attach a schedule listing all income and expenditures included on line 7.

Line 17. Taxable income before specific deduction of $100. Political organizations, newsletter funds, and separate segregated funds figure their tax by subtracting line 16 from line 8 and entering the result on line 17(c).

Exempt organizations (section 501(c)) that aren't political organizations. Complete lines 17a and 17b if the organization made exempt function expenditures that weren't from a separate segregated fund. Enter on line 17c the smaller of line 17a or 17b. See *Exempt organization that isn't a political organization,* earlier, for an explanation of the amounts to enter on these lines.

Line 19. Taxable income. If the taxable income on line 19 is zero or less, the Form 1120-POL isn't required to be filed, but it may be filed to start the statute of limitations period.

Line 20. Income tax. The tax rate for 1120-POL filers is 21%. Figure your tax by multiplying line 19 by 21% (0.21) and enter the result on line 20.

Note: Estimated tax and alternative minimum tax don't apply to political organizations.

If Form 8978, Partner's Additional Reporting Year Tax, was filed, attach it to Form 1120-POL. Do **not** enter any amount from Form 8978, line 14, on line 20.

Line 21. Tax credits. The organization may qualify for the following credits.

- **Employer credit for paid family and medical leave.** See Form 8994, Employer Credit for Paid Family and Medical Leave.
- **Foreign tax credit.** See Form 1118, Foreign Tax Credit—Corporations.
- **Qualified electric vehicle credit (carryforward ONLY).** See Form 8834, Qualified Electric Vehicle Credit.
- **General business credit** (excluding the small employer health insurance premium credit, work opportunity credit, employee retention credit (Form 5884-A), the empowerment zone employment credit, the Indian employment credit, and the credit for employer differential wage payments). See Form 3800, General Business Credit.

Enter the total amount of qualified credits on line 21 and attach the applicable credit forms.

If Form 8978 was filed, attach to Form 1120-POL. Do **not** enter any amount from Form 8978, line 14, on line 21.

Line 22. Total tax. If the political organization must recapture any of the qualified electric vehicle credit, include the amount of the recapture in the total for line 22. On the dotted line next to the entry space, write "QEV recapture" and the amount. See Regulations section 1.30-1 for details on how to figure the recapture.

What if You Can't Pay in Full?

If you can't pay the full amount of tax you owe, you can apply for an installment agreement online.

You can apply for an installment agreement online if:

- You can't pay the full amount shown on line 24,
- The total amount you owe is $25,000 or less, and
- You can pay the liability in full in 24 months.

To apply using the Online Payment Agreement Application, go to *www.irs.gov/OPA*.

Under an installment agreement, you can pay what you owe in monthly installments. There are certain conditions you must meet to enter into and maintain an installment agreement, such as paying the liability within 24 months and making all required deposits and timely filing tax returns during the length of the agreement.

If your installment agreement is accepted, you will be charged a fee and you will be subject to penalties and interest on the amount of tax not paid by the due date of the return.

Additional Information

Question 1

Foreign financial accounts. Check the "Yes" box if either (1) or (2) next applies to the organization. Otherwise, check the "No" box.

1. At any time during the 2021 calendar year the organization had a financial interest in or signature or other authority over a bank, securities, or other types of financial accounts in a foreign country; and
   - The combined value of the accounts was more than $10,000 at any time during the calendar year; and
   - The accounts weren't with a U.S. military banking facility operated by a U.S. financial institution.
2. The organization owns more than 50% of the stock in any corporation that would answer "Yes" to item (1) above.

See FinCEN Form 114, Report of Foreign Bank and Financial Accounts (FBAR), to find out if the organization is considered to have an interest in or signature or other authority over a financial account in a foreign country.

AMERICAN OVERSIGHT

If "Yes" is checked for this question, file FinCEN Form 114 electronically with the Department of the Treasury using FinCEN's BSA E-Filing System. Because FinCEN Form 114 isn't a tax form, don't file it with Form 1120-POL.

See *www.FINCEN.gov* for more information.

Also, if "Yes" is checked for this question, enter the name of the foreign country or countries. Attach a separate sheet if more space is needed.

Question 2

If you checked "Yes" to Question 2, the organization may be required to file Form 3520, Annual Return To Report Transactions With Foreign Trusts and Receipt of Certain Foreign Gifts. For details, see the Instructions for Form 3520.

Note: An owner of a foreign trust must ensure that the trust files an annual information return on Form 3520-A, Annual Information Return of Foreign Trust With a U.S. Owner. For details, see the Instructions for Form 3520-A.

Question 3

In the space provided, show any tax-exempt interest income received or accrued. Include any exempt-interest dividends received as a shareholder in a mutual fund or other regulated investment company.

Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax.

You aren't required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by section 6103.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated burden for business taxpayers filing this form is approved under OMB control number 1545-0123 and 1545-0047, and is included in the estimates shown in the Instructions for Form 1120.

If you have comments concerning the accuracy of these time estimates or suggestions for making this form simpler, we would be happy to hear from you. You can send us comments from *www.irs.gov/FormComments*. Or you can write to:

Internal Revenue Service

Speaker Vos on Election Investigation

Madison… Speaker Robin Vos (R-Rochester) released the following statement after Special Counsel Gableman's election investigation report.

"I'd like to thank the Office of Special Counsel for their tireless efforts in finding the truth. They've done a good job at showing there were issues in 2020, and the report is intended to 'help correct these processes for future elections.' Unfortunately, we're experiencing obstruction by ligation, and must first get through the nine separate lawsuits that have been filed to allow us to complete the review."

Notice of Demand to Examine Rep. Ramthun's Legislative Resolution Findings
[Demand to Decertify 2020 Election based on Preponderance of Causational Evidence]

Notice to Agent is Notice to Principle and Notice to Principle is Notice to Agent

I, Susan Doak, (one of the "People" of the State of Wisconsin as stated in its Constitution, **Article I, Section 1**), come Sui Juris, in this Court of Record, giving you Notice of the following claims and facts that you and your agents may provide due care;

Please take Notice, "We the People," have the ultimate responsibility to oversee our government representatives once "We" place them in office. Until recently, the voters let these public officials perform their service without much supervision. That time is over. Wisconsin voters are dissatisfied with the partisan politics being waged across the nation. The "People" are educating themselves regarding their Civic responsibilities, forced to do this because of this Legislature's clear intention of avoiding their elected responsibilities. It is difficult to redirect these individuals when they follow their own personal agendas instead of the wants and needs of the voters. Legislators are held to a higher standard through laws and codes in Subchapters I-946.01 through VI- 946.23, including but not limited to: 1) Obstruction of Justice, 2) Misconduct in Public Office, 3) Corruption, 4) Racketeering, and 5) Tampering with records, documents, and other legal instruments. It is not acceptable that our votes are/have been or may be manipulated, after or even during their being cast, in order to change the outcome of any election; to suit some unknown agenda that has nothing to do with the public weal. When the "People" are victims of election mismanagement it must be investigated. Our Constitution requires it and "We the People" demand this investigation continue.

> **Wisconsin State Constitution, Article I, Section 9. Remedy for wrongs:** **"Every person is entitled to a certain remedy in the laws for all injuries, or wrongs which he may receive in his person, property, or character; he ought to obtain justice freely, and without being obliged to purchase it, completely and without denial, promptly and without delay, conformably to the laws."**

Take careful Notice, "We the People," have been tolerant, to this point of our representative's maneuverings to protect their own interests. We have been observing the ever increasing body of "evidence" of wrong-doing, during the 2020 election. Information that has been brought before the various committees and published publicly for our personal viewing is very disturbing. Whether it passes the threshold required to withdraw our electors from the 2020 election, requires a careful, honest, transparent review. Additionally, "We the People" have a realistic expectation of being included in this process in order to avoid the least suspicion of collusion and dishonest actions by our elected Representatives. The "People" have the unique responsibility of monitoring and correcting our government officials, given to us as a duty, by our state Constitution:

AMERICAN OVERSIGHT

Wisconsin State Constitution, Article I, Section 22, Maintenance of free government: **"The blessings of a free government can only be maintained by a firm adherence to justice, moderation, temperance, frugality and virtue, and by frequent recurrence to fundamental principles."**
Wisconsin State Constitution, Article I, Section 4. Right to assemble and petition: **"The right of the people peaceably to assemble, to consult for the common good, and to petition the government, or any department thereof, shall never be abridged."**

This Notice informs respondents, that only those powers detailed in the United States Constitution are granted to the three branches of federal government. All other powers are stipulated by the included provisions, as powers remaining in the hands of the "People" of each state and/or their elected Representatives. These powers are also, as specified in the wording of each citation listed below, and according to their text, shared among the states equally, without bias, limits or discrimination. The states cannot limit their own "Peoples'" power, or award it to the federal government according to Article VI of the United States Constitution. All Justices are instructed to support the States and "We the People" in the wording of Article VI. In addition Article IV Section 4, protects the Right of the "People" to a Republican form of government, not one ruled by a "majority" of the voters;

U.S. Constitution, Article VI.: **"This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; . . . shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.**

U.S. Constitution Article IV, Section 2, p. 1: **"The Citizens of each State shall be entitled to all Privileges and Immunities of Citizens in the several States."**

U.S. Constitution Article IV, Section 4: **"The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic Violence."**

U.S. Constitution Bill of Rights Amendment IX: **"The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people."**

U.S. Constitution Bill of Rights Amendment X: **"The powers not delegated to the United States by the Constitution nor prohibited by it to the States are reserved to the States respectively, or to the people."**

This Notice advises all Legislators and Senators that arbitrarily refusing to consider "Ranthum's Resolution" passed by the House and/or using full transparent investigatory procedures to review those findings is unacceptable to "We the People." Confining the review of all "evidence" to less than a full committee of Legislators in either House or Senate, is also unacceptable. Comments, Pledges by respective Legislators and/or Senators, and other maneuverings made in an effort to block any further investigation is reprehensible. Corrupt election officials, corrupt legislators, corrupt courts and judicial decisions based on political agendas that do not reflect a Republican form of government, are Unconstitutional. There are provisions in the Wisconsin Constitution for removing any elected official from office. These include conflict of interest, ethical violations, maladministration, malfeasance and criminal Trespass against the "People," as well as the usual "petition" remedy.

Final Notice is given to all Legislators embracing the intention of disregarding the will of "We the People." The constituents of this state have evaluated their representatives and found many of them no longer serve the interests of the "People." We will guard and defend our Right to Vote. You are hereby ordered to Cease and Desist blocking this investigative effort and are also required to transparently evaluate those results submitted in the resolution for Decertification.

AG Kaul Issues Statement Regarding the Vos-Gableman Report

March 1, 2022

Contact: DOJCommunications@doj.state.wi.us

MADISON, Wis. – Wisconsin Attorney General Josh Kaul released the following statement regarding the report issued today by former Justice Michael Gableman.

"This report is a full-throated attack on our democracy and a truly shocking example of the authoritarian mindset at work.

"The report provides a roadmap for attempting to overturn the will of the voters based on a fringe legal theory. It includes recommendations that would restrict access to voting and make it harder to detect fraud. And it disparages due process and public records requests because they are inconvenient to certain individuals with power.

"The Vos-Gableman investigation will long be remembered as a shameful, deeply embarrassing episode for our state legislature. The Republicans in the legislature who are responsible for this train wreck have an obligation to our democracy to condemn and end this preposterous fake investigation."

2021 WI Act 69 There is a specific statutory provision in Wisconsin law that allows a town board member to receive an hourly wage, not exceeding $15,000 each year, to work as a town employee. Wisconsin Act 69 simply extends this same provision to members of a village board. The law went into effect July 10, 2021. This simple change was supported by the League and will give smaller communities some flexibility in filling necessary positions.

Thanks to State Representative Jeffrey Mursau and Senator Mary Felzkowski for authoring this legislation. See the new law here.

Suspicionless Drug Testing Subject to Constitutional Constraints

Claire Silverman, Legal Counsel, League of Wisconsin Municipalities
February, *The Municipality*, pg. 29

Employees 302-R1 Drug testing constitutes a search under the Fourth Amendment and must be reasonable. Suspicionless drug testing is only considered reasonable when the government can demonstrate "special governmental needs, beyond the normal needs for law enforcement, and those needs outweigh the privacy expectations of individuals subject to the search and it would be impractical to require a warrant or some level of individualized suspicion in the particular context." Discusses National Treasury Employees Union v. Von Raab, 489 U.S. 656 (1989), Skinner v. Railway Labor Executives, 489 U.S. 602 (1989), Vernonia School Dist. v. official, and the name of an appointed or elected official shall not be used to indicate who produced the sample ballot.

E. The mailing face of each sample ballot shall be imprinted with the great seal of the state of Arizona with the words "official voting materials — presidential preference election". The polling place for that household may also be designated on the mailing face of the sample ballot.

Sec. 3. Section 16-246, Arizona Revised Statutes, is amended to read:

16-246. Absentee balloting; satellite locations; special election boards

~~A. Within ninety-three days before the presidential preference election and not later than 5:00 p.m. on the eleventh day preceding the election, any elector who is eligible to vote in the presidential preference election may make a verbal or signed, written request for an official early ballot to the county recorder or other officer in charge of elections for the county in which the elector is registered to vote. If the request is verbal, the requesting elector shall provide the date of birth and birthplace or other information that if compared to the voter registration records for that elector would confirm the identity of the elector.~~

~~B.~~ A. Absent uniformed services voters or overseas voters who are otherwise eligible to vote in the election may vote as prescribed by sections 16-543 and 16-543.02.

~~C.~~ B. The county recorder or other officer in charge of elections ~~may~~ SHALL establish ELECTION DAY on-site ~~early~~ voting locations at the office of the county recorder or at other locations in the county deemed necessary or appropriate by the recorder. ~~Early voting shall begin within the time limits prescribed in section 16-542 unless otherwise prescribed by this section.~~

~~D.~~ C. The county recorder or other officer in charge of elections shall send by nonforwardable mail that is marked with the statement required by the postmaster to receive an address correction notification any ~~early~~ ABSENTEE ballots that are requested pursuant to ~~subsections~~ SUBSECTION A ~~and B~~ of this section and shall include a preaddressed envelope for the elector to return the completed ballot.

~~E.~~ D. The county recorder or other officer in charge of elections shall provide to each election board an appropriate alphabetized list of voters who have requested and have been sent an ~~early~~ ABSENTEE ballot. Any person who is on that list of voters and who was sent an ~~early~~ ABSENTEE ballot shall not vote at the polling place for that election precinct except as prescribed by section 16-579, subsection B.

~~F.~~ E. The county recorder or other officer in charge of elections may provide for ~~any of the following~~ SPECIAL ELECTION BOARDS in the same manner prescribed by law for other elections. ~~:~~

~~1. Special election boards.~~

AMERICAN OVERSIGHT

~~2. Emergency balloting for persons who experience an emergency after 5:00 p.m. on the Friday preceding the presidential preference election and before 5:00 p.m. on the Monday immediately preceding the presidential preference election. Before receiving a ballot pursuant to this paragraph, a person who experiences an emergency shall provide identification as prescribed in section 16-579 and shall sign a statement under penalty of perjury that states that the person is experiencing or experienced an emergency after 5:00 p.m. on the Friday immediately preceding the election and before 5:00 p.m. on the Monday immediately preceding the election that would prevent the person from voting at the polls. Signed statements received pursuant to this subsection are not subject to inspection pursuant to title 39, chapter 1, article 2.~~

~~G. Notwithstanding section 16-579, subsection A, paragraph 2, for emergency balloting pursuant to subsection F, paragraph 2 of this section, the county recorder or other officer in charge of elections may allow a qualified elector to update the elector's voter registration information as provided for in the secretary of state's instructions and procedures manual adopted pursuant to section 16-452.~~

~~H. Sections 16-550, 16-551 and 16-552 govern the use of early balloting for the presidential preference election.~~

Sec. 4. Section 16-343, Arizona Revised Statutes, is amended to read:

16-343. Filling vacancy caused by death or incapacity or withdrawal of candidate

A. A vacancy occurring due to death, mental incapacity or voluntary withdrawal of a candidate after the close of petition filing but before a primary or general election shall be filled by the political party with which the candidate was affiliated as follows:

1. In the case of a United States senator or statewide candidate, the state executive committee of the candidate's political party shall nominate a candidate of the party's choice and shall file a nomination paper and declaration complying with the requirements for candidates as stated in section 16-311 in order to fill the vacancy.

2. In the case of a vacancy for the office of United States representative or the legislature, the party precinct committeemen of that congressional or legislative district shall nominate a candidate of the party's choice and shall file a nomination paper and declaration complying with the requirements of section 16-311.

3. In the case of a vacancy for a county or precinct office, the party county committee of counties with a population of less than two hundred fifty thousand persons according to the most recent United States decennial census and, in counties with a population of two hundred fifty thousand persons or more according to the most recent United States decennial census the county officers of the party together with the chairman of the party precinct committeemen in each legislative district

AMERICAN OVERSIGHT

of the county, shall nominate a candidate of the party's choice and shall file a nomination paper and declaration complying with the requirements of section 16-311 to fill such vacancy.

4. If the vacancy occurs in a candidate race for partisan nomination in which at least one candidate of the vacating candidate's political party remains on the ballot for the vacating candidate's office, the vacancy shall not be filled. For an office to which more than one candidate will be elected, the vacancy shall not be filled if at least one candidate of the vacating candidate's political party remains on the ballot for each of the multiple seats for the office sought by the vacating candidate.

B. The nomination paper and declaration required in subsection A of this section shall be filed with the office with which nomination petitions were to be filed at any time before the official ballots are printed.

C. Any meetings for the purpose of filing a nomination paper and declaration provided for in this section shall be called by the chairman of such committee or legislative district, except that in the case of multicounty legislative or congressional districts the party county chairman of the county having the largest geographic area within such district shall call such meeting. The chairman or in his absence the vice chairman calling such meeting shall preside. The call to such meeting shall be mailed or given in person to each person entitled to participate ~~no~~ NOT later than one day before such meeting. A majority of those present and voting shall be required to fill a vacancy pursuant to this section.

D. A vacancy that is due to voluntary or involuntary withdrawal of the candidate and that occurs following the printing of official ballots shall not be filled in accordance with this section, however, prospective candidates shall comply with section 16-312. A candidate running as a write-in candidate under this subsection shall file the nomination paper ~~no~~ NOT later than 5:00 p.m. on the fifth day before the election.

E. Candidates nominated pursuant to subsection A of this section or a candidate running as a write-in candidate under subsection D of this section may be a candidate who ran in the immediately preceding primary election for the office and failed to be nominated.

F. If a vacancy occurs as described in subsection A of this section for a state office, the secretary of state shall notify the various boards of supervisors as to the vacancy. The boards of supervisors shall notify the inspectors of the various precinct election boards in the county, district or precinct where a vacancy occurs. In the case of a city or town election, the city or town clerk shall notify the appropriate inspectors. A vacancy that occurs as prescribed in subsection D of this section due to the death or incapacity of the candidate shall not be filled and the secretary of state shall notify the appropriate county

AMERICAN OVERSIGHT

board of supervisors to post a notice of the death or incapacity of the candidate in each polling place along with notice that any votes cast for that candidate will be tabulated.

G. The inspectors shall post the notice of vacancy in the same manner as posting official write-in candidates. In the case of a withdrawal of a candidate that occurs after the printing of official ballots, the inspectors shall post the notice of withdrawal in a conspicuous location in each polling place. Notice of withdrawal shall ~~also be posted at all early voting locations and shall~~ be made available to ~~early~~ ABSENTEE voters by providing with the ~~early~~ ABSENTEE ballot instructions a website address at which prompt updates to information regarding write-in and withdrawn candidates are available.

Sec. 5. Title 16, chapter 4, article 1, Arizona Revised Statutes, is amended by adding section 16-410.01, to read:

16-410.01. County recorder; duties

NOTWITHSTANDING ANY OTHER LAW, THE COUNTY RECORDER IS RESPONSIBLE ONLY FOR PROVIDING AN ADEQUATE NUMBER AND TYPE OF BALLOTS, PENS, TABLES AND OTHER EQUIPMENT AS NECESSARY FOR THE VARIOUS POLLING PLACES LOCATED IN PRECINCTS AS DETERMINED BY THE NUMBER OF REGISTERED VOTERS IN THE PRECINCTS. THE COUNTY BOARD OF SUPERVISORS SHALL PERFORM OR SUPERVISE ALL OTHER ELECTION RELATED DUTIES.

Sec. 6. Section 16-411, Arizona Revised Statutes, is amended to read:

16-411. Designation of election precincts and polling places; voting centers; electioneering; wait times

A. The board of supervisors of each county, on or before October 1 of each year preceding the year of a general election, by an order, shall establish a convenient number of election precincts in the county and define the boundaries of the precincts. The election precinct boundaries shall be established so as to be included within election districts prescribed by law for elected officers of the state and its political subdivisions including community college district precincts, except those elected officers provided for in titles 30 and 48. THE BOARD OF SUPERVISORS MAY NOT ESTABLISH AN ELECTION PRECINCT THAT CONTAINS MORE THAN ONE THOUSAND FIVE HUNDRED REGISTERED VOTERS ON THE DATE THE ELECTION PRECINCT'S BOUNDARIES ARE ESTABLISHED.

B. At least twenty days before a general or primary election, and at least ten days before a special election, the board shall designate one polling place within each precinct where the election shall be held, except that:

1. On a specific finding of the board, included in the order or resolution designating polling places pursuant to this subsection, that no suitable polling place is available within a precinct, a polling place for that precinct may be designated within an adjacent precinct.

AMERICAN OVERSIGHT

2. Adjacent precincts may be combined if boundaries so established are included in election districts prescribed by law for state elected officials and political subdivisions including community college districts but not including elected officials prescribed by titles 30 and 48. The officer in charge of elections may also split a precinct for administrative purposes. The polling places shall be listed in separate sections of the order or resolution.

3. ~~On a specific finding of the board that the number of persons who are listed as early voters pursuant to section 16-544 is likely to substantially reduce the number of voters appearing at one or more specific polling places at that election, adjacent precincts may be consolidated by combining polling places and precinct boards for that election.~~ The board of supervisors shall ensure that a reasonable and adequate number of polling places IN EACH PRECINCT will be designated for that election. Any consolidated polling places shall be listed in separate sections of the order or resolution of the board.

4. ~~On a specific resolution of the board,~~ The board may NOT authorize the use of voting centers in place of or in addition to specifically designated polling places. ~~A voting center shall allow any voter in that county to receive the appropriate ballot for that voter on election day after presenting identification as prescribed in section 16-579 and to lawfully cast the ballot. Voting centers may be established in coordination and consultation with the county recorder, at other county offices or at other locations in the county deemed appropriate.~~

~~5. On a specific resolution of the board of supervisors that is limited to a specific election date and that is voted on by a recorded vote, the board may authorize the county recorder or other officer in charge of elections to use emergency voting centers as follows:~~

~~(a) The board shall specify in the resolution the location and the hours of operation of the emergency voting centers.~~

~~(b) A qualified elector voting at an emergency voting center shall provide identification as prescribed in section 16-579, except that notwithstanding section 16-579, subsection A, paragraph 2, for any voting at an emergency voting center, the county recorder or other officer in charge of elections may allow a qualified elector to update the elector's voter registration information as provided for in the secretary of state's instructions and procedures manual adopted pursuant to section 16-452.~~

~~(c) If an emergency voting center established pursuant to this section becomes unavailable and there is not sufficient time for the board of supervisors to convene to approve an alternate location for that emergency voting center, the county recorder or other officer in charge of elections may make changes to the approved emergency voting center location and shall notify the public and the board of supervisors regarding that change as soon as practicable. The alternate emergency~~

AMERICAN OVERSIGHT

~~voting center shall be as close in proximity to the approved emergency voting center location as possible.~~

5. THE BOARD OF SUPERVISORS MAY NOT CHANGE A POLLING PLACE UNLESS THE VOTERS IN THAT PRECINCT ARE NOTIFIED BY MAIL AT LEAST TWO YEARS IN ADVANCE THAT THE POLLING PLACE HAS CHANGED.

C. If the board fails to designate the place for holding the election, or if it cannot be held at or about the place designated, the justice of the peace in the precinct, two days before the election, by an order, copies of which the justice of the peace shall immediately post in three public places in the precinct, shall designate the place within the precinct for holding the election. If there is no justice of the peace in the precinct, or if the justice of the peace fails to do so, the election board of the precinct shall designate and give notice of the place within the precinct of holding the election. ~~For any election in which there are no candidates for elected office appearing on the ballot, the board may consolidate polling places and precinct boards and may consolidate the tabulation of results for that election if all of the following apply:~~

1. All affected voters are notified by mail of the change at least thirty-three days before the election.

2. Notice of the change in polling places includes notice of the new voting location, notice of the hours for voting on election day and notice of the telephone number to call for voter assistance.

~~3. All affected voters receive information on early voting that includes the application used to request an early voting ballot.~~

~~D. The board is not required to designate a polling place for special district mail ballot elections held pursuant to article 8.1 of this chapter, but the board may designate one or more sites for voters to deposit marked ballots until 7:00 p.m. on the day of the election.~~

~~E.~~ D. ~~Except as provided in subsection F of this section,~~ A public school shall provide sufficient space for use as a polling place for any city, county or state election when requested by the officer in charge of elections.

~~F. The principal of the school may deny a request to provide space for use as a polling place for any city, county or state election if, within two weeks after a request has been made, the principal provides a written statement indicating a reason the election cannot be held in the school, including any of the following:~~

~~1. Space is not available at the school.~~

~~2. The safety or welfare of the children would be jeopardized.~~

E. WHENEVER POSSIBLE, THE BOARD OF SUPERVISORS SHALL USE PUBLIC SCHOOLS AND GOVERNMENTAL OFFICES AS POLLING PLACES. ON REQUEST, SCHOOL DISTRICT GOVERNING BOARD MEMBERS, PRINCIPALS AND MANAGERS OF GOVERNMENTAL OFFICES SHALL ALLOW THEIR SITES TO BE USED AS POLLING PLACES.

AMERICAN OVERSIGHT

~~G.~~ F. The board shall make available to the public as a public record a list of the polling places for all precincts in which the election is to be held.

~~H.~~ G. Except in the case of an emergency, any facility that is used as a polling place on election day ~~or that is used as an early voting site during the period of early voting~~ shall allow persons to electioneer and engage in other political activity outside of the seventy-five foot limit prescribed by section 16-515 in public areas and parking lots used by voters. This subsection does not allow the temporary or permanent construction of structures in public areas and parking lots or the blocking or other impairment of access to parking spaces for voters. The county recorder or other officer in charge of elections shall post on its website at least two weeks before election day a list of those polling places in which emergency conditions prevent electioneering and shall specify the reason the emergency designation was granted and the number of attempts that were made to find a polling place before granting an emergency designation. If the polling place is not on the website list of polling places with emergency designations, electioneering and other political activity shall be allowed outside of the seventy-five foot limit. If an emergency arises after the county recorder or other officer in charge of elections' initial website posting, the county recorder or other officer in charge of elections shall update the website as soon as is practicable to include any new polling places, shall highlight the polling place location on the website and shall specify the reason the emergency designation was granted and the number of attempts that were made to find a polling place before granting an emergency designation.

~~I.~~ H. For the purposes of this section, a county recorder or other officer in charge of elections shall designate a polling place as an emergency polling place and thus prohibit persons from electioneering and engaging in other political activity outside of the seventy-five foot limit prescribed by section 16-515 but inside the property of the facility that is hosting the polling place if ~~any of the following occurs:~~

~~1.~~ an act of God renders a previously set polling place as unusable.

~~2. A county recorder or other officer in charge of elections has exhausted all options and there are no suitable facilities in a precinct that are willing to be a polling place unless a facility can be given an emergency designation.~~

~~J. The secretary of state shall provide through the instructions and procedures manual adopted pursuant to section 16-452 the maximum allowable wait time for any election that is subject to section 16-204 and provide for a method to reduce voter wait time at the polls in the primary and general elections. The method shall consider at least all of the following for primary and general elections in each precinct:~~

AMERICAN OVERSIGHT

~~1. The number of ballots voted in the prior primary and general elections.~~

~~2. The number of registered voters who voted early in the prior primary and general elections.~~

~~3. The number of registered voters and the number of registered voters who cast an early ballot for the current primary or general election.~~

~~4. The number of election board members and clerks and the number of rosters that will reduce voter wait time at the polls.~~

Sec. 7. Section 16-442, Arizona Revised Statutes, is amended to read:

16-442. Committee approval

A. The secretary of state shall appoint a committee of three persons, to consist of a member of the engineering college at one of the universities, a member of the state bar of Arizona and one person familiar with voting processes in the state, ~~no~~ NOT more than two of whom shall be of the same political party, and at least one of whom shall have at least five years of experience with and shall be able to render an opinion based on knowledge of, training in or education in ~~electronic~~ voting systems, procedures and security. The committee shall investigate and test the various types of vote recording ~~or tabulating machines or~~ devices that may be used under this article. The committee shall submit its recommendations to the secretary of state who shall make final adoption of the type or types, make or makes, model or models to be certified for use in this state. The committee shall serve without compensation.

B. Machines or devices used at any election for federal, state or county offices may only be certified for use in this state and may only be used in this state if they comply with the help America vote act of 2002, ~~and~~ if ~~those machines or devices~~ THEY have been tested and approved by a laboratory that is accredited pursuant to the help America vote act of 2002 AND IF THEY ARE TO BE USED TO COMPLY WITH THE ACCESSIBILITY REQUIREMENTS PRESCRIBED BY SECTION 16-442.01. EXCEPT AS REQUIRED TO COMPLY WITH SECTION 16-442.01, THE SECRETARY OF STATE MAY NOT APPROVE FOR GENERAL USE ELECTRONIC VOTING MACHINES AND ELECTRONIC TABULATING MACHINES.

C. After consultation with the committee prescribed by subsection A of this section, the secretary of state shall adopt standards that specify the criteria for loss of certification for equipment that was used at any election for federal, state or county offices and that was previously certified for use in this state. On loss of certification, machines or devices used at any election may not be used for any election for federal, state or county offices in this state unless recertified for use in this state.

D. The secretary of state ~~may~~ SHALL revoke the certification of any voting system or device for use in a federal, state or county election in this state or may prohibit for up to five years the purchase, lease or use

AMERICAN OVERSIGHT

of any voting system or device leased, installed or used by a person or firm in connection with a federal, state or county election in this state, or both, if either of the following occurs:

1. The person or firm installs, uses or ~~permits~~ ALLOWS the use of a voting system or device that is not certified for use or approved for experimental use in this state pursuant to this section.

2. The person or firm uses or includes hardware, firmware or software in a version that is not certified for use or approved for experimental use pursuant to this section in a certified voting system or device.

~~E. The governing body of a city or town or the board of directors of an agricultural improvement district may adopt for use in elections any kind of electronic voting system or vote tabulating device approved by the secretary of state, and thereupon the voting or marking device and vote tabulating equipment may be used at any or all elections for voting, recording and counting votes cast at an election.~~

~~F. The secretary of state or the governing body may provide for the experimental use of a voting system or device without a final adoption of the voting system or device, and its use at the election is as valid as if the machines had been permanently adopted.~~

~~G. After consultation with the committee prescribed by subsection A of this section, the secretary of state may approve for emergency use an upgrade or modification to a voting system or device that is certified for use in this state if the governing body establishes in an open meeting that the election cannot be conducted without the emergency certification. Any emergency certification shall be limited to no more than six months. At the conclusion of the certification period the voting system or device shall be decertified and unavailable for future use unless certified in accordance with this section.~~

Sec. 8. Section 16-442.01, Arizona Revised Statutes, is amended to read:

16-442.01. Accessible voting technology; recommendations; certification; applicability

A. On completion of the certification process pursuant to this section and section 16-442, the secretary of state shall require that voting systems that are used by entities that are governed by section 16-204, but not including cities and towns with a population of less than twenty thousand persons, provide persons who are blind or visually impaired with access to voting that is equivalent to that provided to persons who are not blind or visually impaired.

B. For the purposes of this section:

1. A voting system that provides the voter with the ability to cast and verify by both visual and nonvisual methods all of the selections that were made by that voter is deemed to provide equivalent access.

AMERICAN OVERSIGHT

2. Nonvisual methods for casting and verifying a selection made on a voting system include the use of synthesized speech, braille and other output methods that do not require sight.

3. ANY ELECTRONIC VOTING SYSTEMS AUTHORIZED BY THIS SECTION MAY NOT BE APPROVED FOR OR PROVIDED FOR GENERAL USE.

C. The secretary of state shall consult with and obtain recommendations regarding voting systems from nonprofit organizations that represent persons who are blind or visually impaired, persons with expertise in accessible software, hardware and other technology, county and local election officials and other persons deemed appropriate by the secretary of state. After receiving recommendations, the secretary of state shall submit to the committee established pursuant to section 16-442 one or more voting systems that provide equivalent access pursuant to this section for possible certification for use in this state.

D. Subsection A of this section applies to voting systems that are purchased or upgraded on or after January 1, 2006.

Sec. 9. Section 16-443, Arizona Revised Statutes, is amended to read:

16-443. Authorization of use at all elections

At all state, county, city or town elections, agricultural improvement district elections and primary AND GENERAL elections, ballots or votes may be cast, recorded and counted by voting or marking devices and vote tabulating devices as provided in this article, EXCEPT THAT ELECTRONIC VOTING AND ELECTRONIC OR OTHER TABULATING DEVICES MAY ONLY BE USED TO COMPLY WITH SECTION 16-442.01. FOR ALL OTHER USES, FOR STATE, COUNTY, CITY OR TOWN ELECTIONS, ONLY PAPER BALLOTS MAY BE USED AND BALLOTS SHALL BE TABULATED BY HAND.

Sec. 10. Section 16-444, Arizona Revised Statutes, is amended to read:

16-444. Definitions

~~A.~~ In this article, unless the context otherwise requires:

1. "Ballot" means a paper ballot on which votes are recorded.

2. "Computer program" includes all programs and documentation adequate to process the ballots at an equivalent counting center.

3. "Counting center" means POLLING PLACES AND one or more locations selected by the board of supervisors for the ~~automatic~~ counting of ABSENTEE ballots.

4. "Electronic voting system" means a system in which ABSENTEE votes are recorded on a paper ballot by means of marking, and such ABSENTEE votes are subsequently counted and tabulated by vote tabulating equipment at one ~~or more~~ COUNTY ABSENTEE BALLOT counting ~~centers~~ CENTER.

5. "E-pollbook" means an electronic system in which a voter is checked in and through which a voter's signature is recorded to indicate that the voter has voted.

AMERICAN OVERSIGHT

~~6. "Instructions and procedures manual" means the manual prepared for use as a guide for the conduct of elections by an approved electronic voting system, including, but not limited to, detailed instructions for the performance of each task relating to the collection of ballots and the counting of votes in a manner that will provide maximum security, efficiency and accuracy.~~

~~7.~~ 6. "Vote tabulating equipment" includes apparatus necessary to automatically examine and count votes as designated on ABSENTEE ballots and tabulate the results.

~~8.~~ 7. "Voting device" means an apparatus that the voter uses to record the voter's votes by marking a paper ballot, which votes are subsequently counted by ~~electronic tabulating equipment~~ HAND.

~~B. The provisions of all state laws relating to elections not inconsistent with this article apply to all elections where electronic tabulating devices are used. Any provision of law that conflicts with this article does not apply to the elections in which electronic tabulating devices are used.~~

Sec. 11. Repeal

Section 16-445, Arizona Revised Statutes, is repealed.

Sec. 12. Section 16-446, Arizona Revised Statutes, is amended to read:

16-446. Specifications of electronic voting system

A. An electronic voting system consisting of a voting or marking device ~~in combination with vote tabulating equipment~~ THAT IS USED AS PRESCRIBED IN SECTION 16-442.01 shall provide facilities for voting for candidates at both primary and general elections.

B. An electronic voting system shall:

1. Provide for voting in secrecy when used with voting booths.

2. ~~Permit~~ ALLOW each elector to vote at any election for any person for any office whether or not nominated as a candidate, to vote for as many persons for an office as the elector is entitled to vote for and to vote for or against any question on which the elector is entitled to vote, and the vote tabulating equipment shall reject choices recorded on the elector's ballot if the number of choices exceeds the number that the elector is entitled to vote for the office or on the measure.

3. Prevent the elector from voting for the same person more than once for the same office.

4. Be suitably designed for the purpose used and be of durable construction, and may be used safely, efficiently and accurately in the conduct of elections and counting ballots.

5. Be provided with means for sealing the voting or marking device against any further voting after the close of the polls and the last voter has voted.

6. When properly operated, record correctly and count accurately every vote cast.

AMERICAN OVERSIGHT

7. Provide a durable paper document that visually indicates the voter's selections, that the voter may use to verify the voter's choices, that may be spoiled by the voter if it fails to reflect the voter's choices and that ~~permits~~ ALLOWS the voter to cast a new ballot. This paper document shall be used in manual audits and recounts.

8. To the extent practicable, provide for the ballot layout to be in the same order of arrangement, including rotation, as provided for paper ballots, except that information may be printed in vertical or horizontal rows, or in a number of separate pages or screens that are placed or displayed on the voting device. The titles of offices may be arranged in vertical columns or in a series of separate pages or screens and shall be printed above or at the side of the names of candidates so as to indicate clearly the candidates for each office and the number to be elected. If there are more candidates for an office than can be printed in one column or on one ballot page or screen, the ballot shall be clearly marked that the list of candidates is continued on the following column, page or screen, and to the extent practicable, the same number of names shall be printed on each column, page or screen.

9. Provide for a color designation for use in the primary election for each political party represented.

Sec. 13. Section 16-448, Arizona Revised Statutes, is amended to read:

16-448. Write-in votes; instructions

~~Whenever ballots are to be counted by electronic data processing equipment,~~ TO BE COUNTED, all write-in votes for candidates, ~~to be counted,~~ shall be marked by the voter in the space provided opposite the names of the write-in candidates. The instructions to voters printed on the ballots shall instruct the voter that the vote will not be counted unless the voter properly marks the ballot when writing in a candidate's name.

Sec. 14. Section 16-449, Arizona Revised Statutes, is amended to read:

16-449. Required test of equipment and programs; notice

A. ~~Within the period of time before the election day prescribed by the secretary of state in the instructions and procedures manual adopted pursuant to section 16-452,~~ The board of supervisors or other election officer in charge OF ELECTIONS, or for an election involving state or federal candidates, the secretary of state, shall ~~have~~ TEST the automatic tabulating equipment and programs ~~tested~~ USED FOR ABSENTEE BALLOTS to ascertain that the equipment and programs will correctly MARK AND count the votes cast for all offices and on all measures. Public notice of the time and place of the test shall be given at least forty-eight hours ~~prior thereto~~ BEFORE THE TEST by publication once in one or more daily or weekly newspapers published in the town, city or village using such equipment, if a newspaper is published ~~therein~~ IN THE CITY, TOWN OR VILLAGE, otherwise

AMERICAN OVERSIGHT

in a newspaper of general circulation ~~therein~~. The test shall be observed by at least two election inspectors, who shall not be of the same political party, and shall be open to representatives of ALL OF the political parties, candidates, the press and the public. The test shall be conducted by processing a preaudited group of ABSENTEE ballots so ~~marked~~ as to record a predetermined number of valid votes for each candidate and on each measure and shall include for each office one or more ballots that have votes in excess of the number allowed by law in order to test the ability of the automatic tabulating equipment and programs to reject such votes. If any error is detected, the cause ~~therefor~~ FOR THE ERROR shall be ascertained and corrected and an errorless count shall be made before the ~~automatic tabulating~~ equipment ~~and programs are~~ IS approved. ~~A copy of a revised program shall be filed with the secretary of state within forty-eight hours after the revision is made. If the error was created by automatic tabulating equipment malfunction, a report shall be filed with the secretary of state within forty-eight hours after the correction is made, stating the cause and the corrective action taken.~~ The test shall be repeated immediately before the start of the official count of the ballots in the same manner as set forth above. After the completion of the count, the ~~programs used and the~~ ballots shall be sealed, retained and disposed of as provided for paper ballots.

B. Electronic ballot tabulating systems THAT ARE USED ONLY FOR TABULATING ABSENTEE BALLOTS shall be tested for logic and accuracy ~~within seven days before their use for early balloting pursuant to the instructions and procedures manual for electronic voting systems that is adopted by the secretary of state as prescribed by section 16-452. The instructions and procedures manual shall include procedures for the handling of ballots, the electronic scanning of ballots and any other matters necessary to ensure the maximum degree of correctness, impartiality and uniformity in the administration of an electronic ballot tabulating system~~.

C. Notwithstanding subsections A and B of this section, if a county uses accessible voting equipment to mark ballots ~~and that accessible voting equipment does not independently tabulate or tally votes~~, the secretary of state in cooperation with the county officer in charge of elections may designate a single date to test the logic and accuracy of ~~both~~ the accessible voting equipment and ~~electronic ballot tabulating systems~~ ANY OTHER EQUIPMENT OR DEVICES USED TO MARK THE BALLOTS.

Sec. 15. Repeal

Sections 16-450, 16-451 and 16-452, Arizona Revised Statutes, are repealed.

AMERICAN OVERSIGHT

Sec. 16. Section 16-461, Arizona Revised Statutes, is amended to read:

16-461. Sample primary election ballots; submission to party chairmen for examination; preparation, printing and distribution of ballot

A. At least forty-five days before a primary election, the officer in charge of that election shall:

1. Prepare a proof of a sample ballot.

2. Submit the sample ballot proof of each party to the county chairman or in city or town primaries to the city or town chairman.

3. Mail a sample ballot proof to each candidate for whom a nomination paper and petitions have been filed.

B. Within five days after receipt of the sample ballot, the county chairman of each political party shall suggest to the election officer any change the chairman considers should be made in the chairman's party ballot, and if on examination the election officer finds an error or omission in the ballot the officer shall correct it. The election officer shall ~~cause~~ PRINT AND DISTRIBUTE the sample ballots ~~to be printed and distributed~~ as required by law, shall maintain a copy of each sample ballot and shall post a notice indicating that sample ballots are available on request. The official sample ballot shall be printed on colored paper or white paper with a different colored stripe for each party that is represented on that ballot. For voters who are not registered with a party that is entitled to continued representation on the ballot pursuant to section 16-804, the election officer may print and distribute the required sample ballots in an alternative format, including a reduced size format.

C. Not later than forty days before a primary election, the county chairman of a political party may request one sample primary election ballot of the chairman's party for each election precinct.

D. The board of supervisors shall have printed ~~mailer-type~~ sample ballots for a primary election and shall mail at least eleven days before the election one sample ballot of a political party to each household containing a registered voter of that political party ~~unless that registered voter is on the active early voting list established pursuant to section 16-544~~. Each sample ballot shall contain the following statement: "This is a sample ballot and cannot be used as an official ballot under any circumstances". A certified claim shall be presented to the secretary of state by the board of supervisors for the actual cost of printing, labeling and postage of each sample ballot actually mailed, and the secretary of state shall direct payment of the authenticated claim from funds of the secretary of state's office.

E. For city and town elections, the governing body of a city or town may have printed ~~mailer-type~~ sample ballots for a primary election. If the city or town has printed such sample ballots, the city or town

AMERICAN OVERSIGHT

shall provide for the distribution of such ballots and shall bear the expense of printing and distributing ~~of~~ such sample ballots.

F. The return address on the ~~mailer-type~~ sample ballots shall not contain the name of an appointed or elected public officer nor may the name of an appointed or elected public officer be used to indicate who produced the sample ballot.

G. The great seal of the state of Arizona shall be imprinted along with the words "official voting materials" on the mailing face of each sample ballot. In county, city or town elections the seal of such jurisdiction shall be substituted for the state seal.

Sec. 17. Repeal

Sections 16-468 and 16-504, Arizona Revised Statutes, are repealed.

Sec. 18. Title 16, chapter 4, article 6, Arizona Revised Statutes, is amended by adding a new section 16-504, to read:

16-504. Anti-fraud ballot paper

FOR THE REGULAR PRIMARY AND GENERAL ELECTIONS, THE BOARD OF SUPERVISORS SHALL USE BALLOT PAPER THAT INCLUDES A HOLOGRAM, AN IDENTIFIABLE SEQUENCE MARKING OR ANOTHER SIMILAR SYSTEM FOR PREVENTING FRAUD AND THAT ALLOWS A VOTER TO RECEIVE A UNIQUELY MARKED OR NUMBERED BALLOT.

Sec. 19. Section 16-510, Arizona Revised Statutes, is amended to read:

16-510. Sample ballots; preparation and distribution

A. Before printing the sample ballots for the general election the board of supervisors shall send to each candidate whose name did not appear on the preceding primary election ballot a ballot proof of the sample ballot for the candidate's review.

B. The board of supervisors shall print and distribute, for the information of voters at each polling place, a number of sample ballots as it deems necessary.

C. The board of supervisors shall have printed mailer-type sample ballots for a general election and shall mail at least eleven days before the election one such sample ballot to each household in the county containing a registered voter ~~unless that registered voter is on the active early voting list established pursuant to section 16-544~~. Each sample ballot shall contain the following statement: "This is a sample ballot and cannot be used as an official ballot under any circumstances". A certified claim shall be presented to the secretary of state by the board of supervisors for the actual cost of printing, labeling and postage of each sample ballot actually mailed, and the secretary of state shall direct payment of the authenticated claim from funds of the secretary of state's office.

D. For city and town elections, the governing body of a city or town may have printed ~~mailer-type~~ sample ballots for a general election. If the city or town has printed such sample ballots, the city

AMERICAN OVERSIGHT

or town shall provide for the distribution of such ballots and shall bear the expense of printing and distributing such sample ballots.

E. For special district elections, the governing body of a special district may have printed ~~mailer-type~~ sample ballots. If the special district has printed such sample ballots, the special district shall provide for the distribution of such ballots and shall bear the expense of printing and distributing such sample ballots.

Sec. 20. Section 16-515, Arizona Revised Statutes, is amended to read:

16-515. "Seventy-five foot limit" notices; posting; violation; classification

A. Except as prescribed in this section and section 16-580, a person shall not be allowed to remain inside the seventy-five foot limit while the polls are open, except for the purpose of voting, and except the election officials, one representative at any one time of each political party represented on the ballot who has been appointed by the county chairman of that political party and the challengers allowed by law, and ~~no~~ electioneering may NOT occur within the seventy-five foot limit. Voters having cast their ballots shall promptly move outside the seventy-five foot limit.

B. The board of supervisors shall furnish, with the ballots for each polling place, three notices, printed in letters not less than two inches high, with the heading: "Seventy-five foot limit" and underneath that heading the following:

> No person shall be allowed to remain inside these limits while the polls are open, except for the purpose of voting, and except the election officials, one representative at any one time of each political party ~~represented on the ballot~~ who has been appointed by the county chairman of such political party, and the challengers allowed by law. Voters having cast their ballots shall at once retire without the seventy-five foot limit. A person violating any provision of this notice is guilty of a class 2 misdemeanor.

C. ~~A minor voting in a simulated election at a polling place is subject to the same seventy-five foot limit restrictions prescribed for a voter. Persons supervising or working in a simulated election in which minors vote may remain within the seventy-five foot limit of the polling place.~~ The inspector for the polling place shall exercise authority over all election ~~and simulated election~~ related activities at the polling place.

D. For an election that is held by an Indian tribe and that is held at a polling place at the same time and on the same date as any other election, the following apply:

1. A person who is voting is subject to the same seventy-five foot limit restrictions prescribed for other voters.

AMERICAN OVERSIGHT

2. An election official for the tribal election may remain within the seventy-five foot limit for the polling place.

E. With the permission of the voter, a minor may enter and remain within the seventy-five foot limit in order to accompany a voter into a polling place, an on-site ~~early~~ voting facility and a voting booth while the voter is voting.

F. Notwithstanding any other law, an election official, a representative of a political party who has been appointed by the county chairman of that political party or a challenger who is authorized by law to be within the seventy-five foot limit as prescribed by this section shall not wear, carry or display materials that identify or express support for or opposition to a candidate, a political party or organization, a ballot question or any other political issue and shall not electioneer within the seventy-five foot limit of a polling place.

G. Notwithstanding section 16-1018, a person may not take photographs or videos while within the seventy-five foot limit.

H. Any person violating this section is guilty of a class 2 misdemeanor.

I. For the purposes of this section, electioneering occurs when an individual knowingly, intentionally, by verbal expression and in order to induce or compel another person to vote in a particular manner or to refrain from voting expresses support for or opposition to a candidate who appears on the ballot in that election, a ballot question that appears on the ballot in that election or a political party with one or more candidates who appear on the ballot in that election.

Sec. 21. Section 16-541, Arizona Revised Statutes, is amended to read:

16-541. Absentee voting; voter eligibility

A. Any election called pursuant to the laws of this state shall provide for ~~early~~ ABSENTEE voting. Any qualified ~~elector~~ VOTER WHO MEETS THE CRITERIA ESTABLISHED BY THIS SECTION may vote by ~~early~~ ABSENTEE ballot.

B. A VOTER SHALL BE ALLOWED TO VOTE BY ABSENTEE BALLOT FOR ANY ONE OR MORE OF THE FOLLOWING REASONS:

1. THE VOTER EXPECTS TO BE OUTSIDE THIS STATE AT THE TIME OF THE ELECTION.

2. THE VOTER IS PHYSICALLY UNABLE TO GO TO THE POLLS BECAUSE THE VOTER IS HOSPITALIZED OR IN A NURSING HOME.

3. THE VOTER HAS A VISUAL IMPAIRMENT.

4. THE VOTER IS AN ABSENT UNIFORMED SERVICES VOTER OR OVERSEAS VOTER AS DEFINED IN THE UNIFORMED AND OVERSEAS CITIZENS ABSENTEE VOTING ACT (P.L. 99-410; 52 UNITED STATES CODE SECTION 20310) OR A SPOUSE OR HOUSEHOLD MEMBER OF THE ABSENT UNIFORMED SERVICES VOTER OR OVERSEAS VOTER.

AMERICAN OVERSIGHT

~~B.~~ C. A qualified ~~elector~~ VOTER of a special district organized pursuant to title 48 shall be permitted to vote early in any special district mail ballot election as provided in article 8.1 of this chapter.

Sec. 22. Section 16-542, Arizona Revised Statutes, is amended to read:

16-542. Request for ballot; civil penalties; violation; classification

A. Within ninety-three days before any election called pursuant to the laws of this state, an ~~elector~~ ELIGIBLE VOTER AS PRESCRIBED BY SECTION 16-541 may make a verbal or signed request to the county recorder, or other officer in charge of elections for the applicable political subdivision of this state in whose jurisdiction the ~~elector~~ VOTER is registered to vote, for an official ~~early~~ ABSENTEE ballot. In addition to name and address, the requesting ~~elector~~ VOTER shall provide the date of birth and state or country of birth or other information that if compared to the voter registration information on file would confirm the identity of the ~~elector~~ VOTER AND SHALL SPECIFY ONE OF THE REASONS FOR VOTING ABSENTEE PRESCRIBED BY SECTION 16-541. If the request indicates that the ~~elector~~ VOTER needs a primary election ballot and a general election ballot, the county recorder or other officer in charge of elections shall honor the request. For any partisan primary election, if the ~~elector~~ VOTER is not registered as a member of a political party that is entitled to continued representation on the ballot pursuant to section 16-804, the ~~elector~~ VOTER shall designate the ballot of only one of the political parties that is entitled to continued representation on the ballot and the ~~elector~~ VOTER may receive and vote the ballot of only that one political party, which also shall include any nonpartisan offices and ballot questions, or the ~~elector~~ VOTER shall designate the ballot for nonpartisan offices and ballot questions only and the ~~elector~~ VOTER may receive and vote the ballot that contains only nonpartisan offices and ballot questions. The county recorder or other officer in charge of elections shall process any request for an ~~early~~ ABSENTEE ballot for a municipal election pursuant to this subsection. ~~The county recorder may establish on-site early voting locations at the recorder's office, which shall be open and available for use beginning the same day that a county begins to send out the early ballots. The county recorder may also establish any other early voting locations in the county the recorder deems necessary. Any on-site early voting location or other early voting location shall require each elector to present identification as prescribed in section 16-579 before receiving a ballot. Notwithstanding section 16-579, subsection A, paragraph 2, at any on-site early voting location or other early voting location the county recorder or other officer in charge of elections may provide for a qualified elector to update the elector's voter registration information as provided for in the secretary of state's instructions and procedures manual adopted pursuant to section 16-452.~~

AMERICAN OVERSIGHT

B. Notwithstanding subsection A of this section, a request for an official ~~early~~ ABSENTEE ballot from an absent uniformed services voter or overseas voter as defined in the uniformed and overseas citizens absentee voting act ~~of 1986~~ (P.L. 99-410; 52 United States Code section 20310) ~~or a voter whose information is protected pursuant to section 16-153~~ that is received by the county recorder or other officer in charge of elections more than ninety-three days before the election is valid. ~~If requested by the absent uniformed services or overseas voter, or a voter whose information is protected pursuant to section 16-153, the county recorder or other officer in charge of elections shall provide to the requesting voter early ballot materials through the next regularly scheduled general election for federal office immediately following receipt of the request unless a different period of time, which does not exceed the next two regularly scheduled general elections for federal office, is designated by the voter.~~

C. The county recorder or other officer in charge of elections shall mail the ~~early~~ ABSENTEE ballot and the envelope for its return postage prepaid to the address provided by the requesting ~~elector~~ VOTER within five days after receipt of the official ~~early~~ ABSENTEE ballots from the officer charged by law with the duty of preparing ballots pursuant to section 16-545, except that ~~early~~ ABSENTEE ballot distribution shall not begin more than twenty-seven days before the election. If an ~~early~~ ABSENTEE ballot request is received on or before the thirty-first day before the election, the ~~early~~ ABSENTEE ballot shall be distributed not earlier than the twenty-seventh day before the election and not later than the twenty-fourth day before the election.

D. Only the ~~elector~~ VOTER may be in possession of that ~~elector's~~ VOTER'S unvoted ~~early~~ ABSENTEE ballot. If a complete and correct request is made by the ~~elector~~ VOTER within twenty-seven days before the election, the mailing must be made within forty-eight hours after receipt of the request. Saturdays, Sundays and other legal holidays are excluded from the computation of the forty-eight hour period prescribed by this subsection. If a complete and correct request is made by an absent uniformed services voter or an overseas voter before the election, the regular ~~early~~ ABSENTEE ballot shall be transmitted by mail, by fax or by other electronic format approved by the secretary of state within twenty-four hours after the ~~early~~ ABSENTEE ballots are delivered pursuant to section 16-545, subsection B, excluding Sundays.

E. In order to be complete and correct and to receive an ~~early~~ ABSENTEE ballot by mail, ~~an elector's~~ A VOTER'S request that an ~~early~~ ABSENTEE ballot be mailed to the ~~elector's~~ VOTER'S residence or temporary address must include all of the information prescribed by subsection A of this section and must be received by the county recorder or other officer in charge of elections ~~no~~ NOT later than 5:00 p.m. on the eleventh day preceding the election. ~~An elector who appears personally no later than~~

AMERICAN OVERSIGHT

~~5:00 p.m. on the Friday preceding the election at an on-site early voting location that is established by the county recorder or other officer in charge of elections shall be given a ballot after presenting identification as prescribed in section 16-579 and shall be permitted to vote at the on-site location. Notwithstanding section 16-579, subsection A, paragraph 2, at any on-site early voting location the county recorder or other officer in charge of elections may provide for a qualified elector to update the elector's voter registration information as provided for in the secretary of state's instructions and procedures manual adopted pursuant to section 16-452.~~ If ~~an elector's~~ A VOTER'S request to receive an ~~early~~ ABSENTEE ballot is not complete and correct but complies with all other requirements of this section, the county recorder or other officer in charge of elections shall attempt to notify the ~~elector~~ VOTER of the deficiency of the request.

~~F. Unless an elector specifies that the address to which an early ballot is to be sent is a temporary address, the recorder may use the information from an early ballot request form to update voter registration records.~~

~~G.~~ F. The county recorder or other officer in charge of ~~early~~ ABSENTEE balloting shall provide an alphabetized list of all voters in the precinct who have requested and have been sent an ~~early~~ ABSENTEE ballot to the election board of the precinct in which the voter is registered not later than the day before the election.

~~H.~~ G. As a result of experiencing an emergency between 5:00 p.m. on the Friday preceding the election and 5:00 p.m. on the Monday preceding the election, qualified ~~electors~~ VOTERS may request to vote in the manner prescribed by the board of supervisors of their respective county. Before voting pursuant to this subsection, ~~an elector~~ A VOTER who experiences an emergency shall provide identification as prescribed in section 16-579 and shall sign a statement under penalty of perjury that states that the person is experiencing or experienced an emergency after 5:00 p.m. on the Friday immediately preceding the election and before 5:00 p.m. on the Monday immediately preceding the election that would prevent the person from voting at the polls. Signed statements received pursuant to this subsection are not subject to inspection pursuant to title 39, chapter 1, article 2. For the purposes of this subsection, "emergency" means any unforeseen circumstances that would prevent the ~~elector~~ VOTER from voting at the polls.

~~I. Notwithstanding section 16-579, subsection A, paragraph 2, for any voting pursuant to subsection H of this section, the county recorder or other officer in charge of elections may allow a qualified elector to update the elector's voter registration information as provided for in the secretary of state's instructions and procedures manual adopted pursuant to section 16-452.~~

AMERICAN OVERSIGHT

~~J. A candidate, political committee or other organization may distribute early ballot request forms to voters. If the early ballot request forms include a printed address for return, the addressee shall be the political subdivision that will conduct the election. Failure to use the political subdivision as the return addressee is punishable by a civil penalty of up to three times the cost of the production and distribution of the request.~~

~~K. All original and completed early ballot request forms that are received by a candidate, political committee or other organization shall be submitted within six business days after receipt by a candidate, political committee or other organization or eleven days before the election day, whichever is earlier, to the political subdivision that will conduct the election. Any person, political committee or other organization that fails to submit a completed early ballot request form within the prescribed time is subject to a civil penalty of up to $25 per day for each completed form withheld from submittal. Any person who knowingly fails to submit a completed early ballot request form before the submission deadline for the election immediately following the completion of the form is guilty of a class 6 felony.~~

~~L.~~ H. ~~Except for a voter who is on the active early voting list prescribed by section 16-544,~~ A voter who requests a onetime ~~early~~ ABSENTEE ballot pursuant to THIS section ~~16-542~~ or for an election conducted pursuant to section 16-409 or article 8.1 of this chapter, a county recorder, city or town clerk or other election officer may not deliver or mail an ~~early~~ ABSENTEE ballot to a person who has not requested an ~~early~~ ABSENTEE ballot for that election. An election officer who knowingly violates this subsection is guilty of a class ~~5~~ 2 felony.

Sec. 23. Repeal

Section 16-544, Arizona Revised Statutes, is repealed.

Sec. 24. Section 16-547, Arizona Revised Statutes, is amended to read:

16-547. Ballot affidavit; form

A. The ~~early~~ ABSENTEE ballot shall be accompanied by an envelope bearing on the front the name, official title and post office address of the recorder or other officer in charge of elections and on the other side a printed affidavit in substantially the following form:

I declare the following under penalty of perjury: I am a registered voter in _____ county Arizona, AND I EXPECT TO BE ABSENT FROM THIS STATE AT THE TIME OF THE ELECTION OR I AM PHYSICALLY UNABLE TO GO TO THE POLLS BECAUSE I AM IN THE HOSPITAL OR A NURSING HOME OR BECAUSE I AM VISUALLY IMPAIRED OR I AM AN ABSENT UNIFORMED SERVICES VOTER OR OVERSEAS VOTER, AND I have not voted and will not vote in this election in any other county or state, I understand that knowingly voting more than once in any election is a class 5 felony and I voted the enclosed ballot and signed this affidavit personally unless noted below.

AMERICAN OVERSIGHT

If the voter was assisted by another person in marking the ballot, complete the following:

I declare the following under penalty of perjury: At the registered voter's request I assisted the voter identified in this affidavit with marking the voter's ballot, I marked the ballot as directly instructed by the voter, I provided the assistance because the voter was physically unable to mark the ballot solely due to illness, injury or physical limitation and I understand that there is no power of attorney for voting and that the voter must be able to make the voter's selection even if ~~they~~ THE VOTER cannot physically mark the ballot.

Name of voter assistant: _____

Address of voter assistant: _____

B. The face of each envelope in which a ballot is sent to a federal postcard applicant or in which a ballot is returned by the applicant to the recorder or other officer in charge of elections shall be in the form prescribed in accordance with the uniformed and overseas citizens absentee voting act ~~of 1986~~ (P.L. 99-410; 52 United States Code section 20301). Otherwise, the envelopes shall be the same as those used to send ballots to, or receive ballots from, other ~~early~~ ABSENTEE voters.

C. The officer charged by law with the duty of preparing ballots at any election shall ensure that the ~~early~~ ABSENTEE ballot is sent in an envelope that states substantially the following:

If the addressee does not reside at this address, mark the unopened envelope "return to sender" and deposit it in the United States mail.

D. The county recorder or other officer in charge of elections shall supply printed instructions to ~~early~~ ABSENTEE voters that direct them to sign the affidavit, mark the ballot and return both in the enclosed self-addressed envelope that complies with section 16-545. The instructions shall include the following statement:

In order to be valid and counted, the ballot and affidavit must be delivered to the office of the county recorder or other officer in charge of elections or may be deposited at any polling place in the county ~~no~~ NOT later than 7:00 p.m. on election day. The ballot will not be counted without the voter's signature on the envelope.

(WARNING—It is a felony to offer or receive any compensation for a ballot.)

Sec. 25. Section 16-558.02, Arizona Revised Statutes, is amended to read:

16-558.02. Replacement ballots

A. The county recorder or other officer in charge of elections shall determine a central location in the district and shall provide for a ballot replacement center that is as near to that location as is

AMERICAN OVERSIGHT

practicable for ELIGIBLE electors to obtain a replacement ballot. The location shall be open from 6:00 a.m. until 7:00 p.m. of the day of the election. An elector may obtain a replacement ballot until 7:00 p.m. on the day of the election on presenting a signed, sworn statement that the ABSENTEE ballot was lost, spoiled, destroyed or not received.

B. The recorder or other officer in charge of elections shall keep a record of each replacement ballot provided pursuant to this section.

C. If an elector to whom a replacement ballot is issued votes more than once, only the first ballot received shall be counted.

Sec. 26. Title 16, chapter 4, article 9, Arizona Revised Statutes, is amended by adding section 16-575, to read:

16-575. Mask mandate; vaccination; testing prohibition

THE BOARD OF SUPERVISORS, COUNTY RECORDER AND OFFICER IN CHARGE OF ELECTIONS MAY NOT REQUIRE THAT A VOTER, A BOARD WORKER OR ANY OTHER PERSON WEAR A FACIAL MASK AT A POLLING PLACE OR OTHER VOTING OR TABULATING LOCATION OR BE VACCINATED AGAINST OR TESTED FOR A VIRUS AS A CONDITION OF ENTERING A POLLING PLACE OR OTHER VOTING OR TABULATING LOCATION.

Sec. 27. Section 16-602, Arizona Revised Statutes, is amended to read:

16-602. Paper ballots; report

~~A.~~ For any primary, special or general election ~~in which the votes are cast on an electronic voting machine or tabulator~~, the election judge shall compare the number of votes cast as indicated ~~on the machine or tabulator~~ FROM THE PAPER BALLOTS with the number of votes cast as indicated on the poll list and the number of provisional ballots cast and that information shall be noted in a written report prepared and submitted to the officer in charge of elections along with other tally reports. ALL BALLOTS SHALL BE COUNTED BY HAND.

~~B. For each countywide primary, special, general and presidential preference election, the county officer in charge of the election shall conduct a hand count at one or more secure facilities. The hand count shall be conducted as prescribed by this section and in accordance with hand count procedures established by the secretary of state in the official instructions and procedures manual adopted pursuant to section 16-452. The hand count is not subject to the live video requirements of section 16-621, subsection D, but the party representatives who are observing the hand count may bring their own video cameras in order to record the hand count. The recording shall not interfere with the conduct of the hand count and the officer in charge of the election may prohibit from recording or remove from the facility persons who are taking actions to disrupt the count. The sole act of recording the hand count does not constitute sufficient grounds for the officer in charge of the election to prohibit observers from recording or to remove them from the facility. The hand count shall be conducted in the following order:~~

AMERICAN OVERSIGHT

~~1. At least two percent of the precincts in that county, or two precincts, whichever is greater, shall be selected at random from a pool consisting of every precinct in that county. The county political party chairman for each political party that is entitled to continued representation on the state ballot or the chairman's designee shall conduct the selection of the precincts to be hand counted. The precincts shall be selected by lot without the use of a computer, and the order of selection by the county political party chairmen shall also be by lot. The selection of the precincts shall not begin until all ballots voted in the precinct polling places have been delivered to the central counting center. The unofficial vote totals from all precincts shall be made public before selecting the precincts to be hand counted. Only the ballots cast in the polling places and ballots from direct recording electronic machines shall be included in the hand counts conducted pursuant to this section. Provisional ballots, conditional provisional ballots and write-in votes shall not be included in the hand counts and the early ballots shall be grouped separately by the officer in charge of elections for purposes of a separate manual audit pursuant to subsection F of this section.~~

~~2. The races to be counted on the ballots from the precincts that were selected pursuant to paragraph 1 of this subsection for each primary, special and general election shall include up to five contested races. After the county recorder or other officer in charge of elections separates the primary ballots by political party, the races to be counted shall be determined by selecting by lot without the use of a computer from those ballots as follows:~~

~~(a) For a general election, one statewide ballot measure, unless there are no measures on the ballot.~~

~~(b) One contested statewide race for statewide office.~~

~~(c) One contested race for federal office, either United States senate or United States house of representatives. If the United States house of representatives race is selected, the names of the candidates may vary among the sampled precincts.~~

~~(d) One contested race for state legislative office, either state house of representatives or state senate. In either case, the names of the candidates may vary among the sampled precincts.~~

~~(e) If there are fewer than four contested races resulting from the selections made pursuant to subdivisions (a) through (d) of this section and if there are additional contested federal, statewide or legislative races or ballot measures, additional contested races shall be selected by lot not using a computer until four races have been selected or until no additional contested federal, statewide or legislative races or ballot measures are available for selection.~~

AMERICAN OVERSIGHT

~~(f) If there are no contested races as prescribed by this paragraph, a hand count shall not be conducted for that precinct for that election.~~

~~3. For the presidential preference election, select by lot two percent of the polling places designated and used pursuant to section 16-248 and perform the hand count of those ballots.~~

~~4. For the purposes of this section, a write-in candidacy in a race does not constitute a contested race.~~

~~5. In elections in which there are candidates for president, the presidential race shall be added to the four categories of hand counted races.~~

~~6. Each county chairman of a political party that is entitled to continued representation on the state ballot or the chairman's designee shall select by lot the individual races to be hand counted pursuant to this section.~~

~~7. The county chairman of each political party shall designate and provide the number of election board members as designated by the county officer in charge of elections who shall perform the hand count under the supervision of the county officer in charge of elections. For each precinct that is to be audited, the county chairmen shall designate at least two board workers who are registered members of any or no political party to assist with the audit. Any qualified elector from this state may be a board worker without regard to party designation. The county election officer shall provide for compensation for those board workers, not to include travel, meal or lodging expenses. If there are less than two persons for each audited precinct available to participate on behalf of each recognized political party, the recorder or officer in charge of elections, with the approval of at least two county party chairpersons in the county in which the shortfall occurs, shall substitute additional individual electors who are provided by any political party from anywhere in the state without regard to party designation to conduct the hand count. A county party chairman shall approve only those substitute electors who are provided by the county chairman's political party. The political parties shall provide to the recorder or officer in charge of elections in writing the names of those persons intending to participate in the hand count at the audited precincts not later than 5:00 p.m. on the Tuesday preceding the election. If the total number of board workers provided by all parties is less than four times the number of precincts to be audited, the recorder or officer in charge of elections shall notify the parties of the shortage by 9:00 a.m. on the Wednesday preceding the election. The hand count shall not proceed unless the political parties provide the recorder or officer in charge of elections, in writing, a sufficient number of persons by 5:00 p.m. on the Thursday preceding the election and a sufficient number of persons, pursuant to this paragraph, arrive to perform the hand count. The recorder or officer in charge of~~

~~elections may prohibit persons from participating in the hand count if they are taking actions to disrupt the count or are unable to perform the duties as assigned. For the hand count to proceed, not more than seventy-five percent of the persons performing the hand count shall be from the same political party.~~

~~8. If a political party is not represented by a designated chairperson within a county, the state chairperson for that political party, or a person designated by the state chairperson, may perform the actions required by the county chairperson as specified in this section.~~

~~C. If the randomly selected races result in a difference in any race that is less than the designated margin when compared to the electronic tabulation of those same ballots, the results of the electronic tabulation constitute the official count for that race. If the randomly selected races result in a difference in any race that is equal to or greater than the designated margin when compared to the electronic tabulation of those same ballots, a second hand count of those same ballots and races shall be performed. If the second hand count results in a difference in any race that is less than the designated margin when compared to the electronic tabulation for those same ballots, the electronic tabulation constitutes the official count for that race. If the second hand count results in a difference in any race that is equal to or greater than the designated margin when compared to the electronic tabulation for those same ballots, the hand count shall be expanded to include a total of twice the original number of randomly selected precincts. Those additional precincts shall be selected by lot without the use of a computer.~~

~~D. In any expanded count of randomly selected precincts, if the randomly selected precinct hand counts result in a difference in any race that is equal to or greater than the designated margin when compared to the electronic tabulation of those same ballots, the final hand count shall be extended to include the entire jurisdiction for that race. If the jurisdictional boundary for that race would include any portion of more than one county, the final hand count shall not be extended into the precincts of that race that are outside of the county that is conducting the expanded hand count. If the expanded hand count results in a difference in that race that is less than the designated margin when compared to the electronic tabulation of those same ballots, the electronic tabulation constitutes the official count for that race.~~

~~E. If a final hand count is performed for an entire jurisdiction for a race, the final hand count shall be repeated for that race until a hand count for that race for the entire jurisdiction results in a count that is identical to one other hand count for that race for the entire jurisdiction and that hand count constitutes the official count for that race.~~

AMERICAN OVERSIGHT

~~F. After the electronic tabulation of early ballots and at one or more times selected by the chairman of the political parties entitled to continued representation on the ballot or the chairman's designee, the chairmen or the chairmen's designees shall randomly select one or more batches of early ballots that have been tabulated to include at least one batch from each machine used for tabulating early ballots and those ballots shall be securely sequestered by the county recorder or officer in charge of elections along with their unofficial tally reports for a postelection manual audit. The chairmen or the chairmen's designees shall randomly select from those sequestered early ballots a number equal to one percent of the total number of early ballots cast or five thousand early ballots, whichever is less. From those randomly selected early ballots, the county officer in charge of elections shall conduct a manual audit of the same races that are being hand counted pursuant to subsection B of this section. If the manual audit of the early ballots results in a difference in any race that is equal to or greater than the designated margin when compared to the electronically tabulated results for those same early ballots, the manual audit shall be repeated for those same early ballots. If the second manual audit results in a difference in that race that is equal to or greater than the designated margin when compared to the electronically tabulated results for those same early ballots, the manual audit shall be expanded only for that race to a number of additional early ballots equal to one percent of the total early ballots cast or an additional five thousand ballots, whichever is less, to be randomly selected from the batch or batches of sequestered early ballots. If the expanded early ballot manual audit results in a difference for that race that is equal to or greater than the designated margin when compared to any of the earlier manual counts for that race, the manual counts shall be repeated for that race until a manual count results in a difference in that race that is less than the designated margin. If at any point in the manual audit of early ballots the difference between any manual count of early ballots is less than the designated margin when compared to the electronic tabulation of those ballots, the electronic tabulation shall be included in the canvass and no further manual audit of the early ballots shall be conducted.~~

~~G. During any hand count of early ballots, the county officer in charge of elections and election board workers shall attempt to determine the intent of the voter in casting the ballot.~~

~~H. Notwithstanding any other law, the county officer in charge of elections shall retain custody of the ballots for purposes of performing any required hand counts and the officer shall provide for security for those ballots.~~

~~I. The hand counts prescribed by this section shall begin within twenty-four hours after the closing of the polls and shall be completed before the canvassing of the election for that county. The results of~~

AMERICAN OVERSIGHT

~~those hand counts shall be provided to the secretary of state, who shall make those results publicly available on the secretary of state's website.~~

~~J. For any county in which a hand count has been expanded to all precincts in the jurisdiction, the secretary of state shall make available the escrowed source code for that county to the superior court. The superior court shall appoint a special master to review the computer software. The special master shall have expertise in software engineering, shall not be affiliated with an election software vendor nor with a candidate, shall sign and be bound by a nondisclosure agreement regarding the source code itself and shall issue a public report to the court and to the secretary of state regarding the special master's findings on the reasons for the discrepancies. The secretary of state shall consider the reports for purposes of reviewing the certification of that equipment and software for use in this state.~~

~~K. The vote count verification committee is established in the office of the secretary of state and all of the following apply:~~

~~1. At least thirty days before the 2006 primary election, the secretary of state shall appoint seven persons to the committee, not more than three of whom are members of the same political party.~~

~~2. Members of the committee shall have expertise in any two or more of the areas of advanced mathematics, statistics, random selection methods, systems operations or voting systems.~~

~~3. A person is not eligible to be a committee member if that person has been affiliated with or received any income in the preceding five years from any person or entity that provides election equipment or services in this state.~~

~~4. The vote count verification committee shall meet and establish one or more designated margins to be used in reviewing the hand counting of votes as required pursuant to this section. The committee shall review and consider revising the designated margins every two years for use in the applicable elections. The committee shall provide the designated margins to the secretary of state at least ten days before the primary election and at least ten days before the general election, and the secretary of state shall make that information publicly available on the secretary of state's website.~~

~~5. Members of the vote count verification committee are not eligible to receive compensation but are eligible for reimbursement of expenses pursuant to title 38, chapter 4, article 2. The committee is a public body and its meetings are subject to title 38, chapter 3, article 3.1 and its reports and records are subject to title 39, chapter 1.~~

Sec. 28. Section 16-621, Arizona Revised Statutes, is amended to read:

16-621. Proceedings at the counting center

A. All proceedings at the counting center shall be under the direction of the board of supervisors or other officer in charge of

AMERICAN OVERSIGHT

elections and shall be conducted ~~in accordance with the approved instructions and procedures manual issued pursuant to section 16-452~~ under the observation of representatives of each political party and the public. The proceedings at the counting center may also be observed by up to three additional people representing a candidate for nonpartisan office, or representing a political committee in support of or in opposition to a ballot measure, proposition or question. A draw by lot shall determine which three groups or candidates shall have representatives participate in the observation at the counting center. Persons representing a candidate for nonpartisan office or persons or groups representing a political committee in support of or in opposition to a ballot measure, proposition or question, who are interested in participating in the observation, shall notify the officer in charge of elections of their desire to be included in the draw not later than seventeen days before the election. After the deadline to receive submissions from the interested persons or groups, but prior to fourteen days before the election, the county officer in charge of elections shall draw by lot, from the list of those that expressed interest, three persons or groups and those selected shall be notified and allowed to observe the proceedings at the counting center. If a group is selected the group may alter who represents that group for different days of observation but on any given observation day a selected group shall not send more than one observer. A group may rotate an observer throughout the day. Only those persons who are authorized for the purpose shall touch any ballot or ballot card or return. All persons who are engaged in processing and counting of the ballots shall be qualified electors, shall be deputized in writing and shall take an oath that they will faithfully perform their assigned duties. There shall be no preferential counting of ballots for the purpose of projecting the outcome of the election. THE BOARD OF SUPERVISORS OR OTHER OFFICER IN CHARGE OF ELECTIONS SHALL NOT ALLOW THE USE OF ELECTRONIC OR OTHER TABULATING EQUIPMENT AND ALL COUNTING SHALL BE DONE BY HAND. BALLOTS SHALL BE ORGANIZED AND REMAIN SEGREGATED BY PRECINCT, BOTH BEFORE AND AFTER COUNTING. ~~If any ballot, including any ballot received from early voting, is damaged or defective so that it cannot properly be counted by the automatic tabulating equipment, a true duplicate copy shall be made of the damaged or defective ballot in the presence of witnesses and substituted for the damaged or defective ballot. All duplicate ballots created pursuant to this subsection shall be clearly labeled "duplicate" and shall bear a serial number that shall be recorded on the damaged or defective ballot.~~

~~B. If the counting center automatic tabulating equipment includes an electronic vote adjudication feature that has been certified for use as prescribed by section 16-442 and the board of supervisors or officer in charge of elections authorizes the use of this feature at the counting center, all of the following apply:~~

AMERICAN OVERSIGHT

~~1. The electronic vote adjudication feature shall be included in the tabulation system logic and accuracy testing prescribed by section 16-449.~~

~~2. The board of supervisors or officer in charge of elections shall appoint an electronic vote adjudication board that consists of two judges who are overseen by an inspector, with the two judges equally divided between the two largest political parties as prescribed by section 16-531, subsection D to adjudicate and submit for tabulation a ballot that is read by the tabulation machine as blank in order to determine if voter intent is clear on a portion or all of the ballot, or any portion of any ballot as prescribed by section 16-610 or 16-611, or to tally write-in choices as prescribed by section 16-612.~~

~~3. The electronic vote adjudication process used by the electronic vote adjudication board shall provide for:~~

~~(a) A method to track and account for the original ballot and the digital duplicate of the ballot created by the electronic vote adjudication feature that includes a serial number on the digital image that can be used to track electronic vote adjudication board actions.~~

~~(b) The creation and retention of comprehensive logs of all digital duplication and adjudication actions performed by an electronic vote adjudication board.~~

~~(c) The retention of the original ballot and the digital duplicate of the ballot.~~

~~C. If for any reason it becomes impracticable to count all or a part of the ballots with tabulating equipment, the officer in charge of elections may direct that they be counted manually, following as far as practicable the provisions governing the counting of paper ballots.~~

~~D.~~ B. For any statewide, county or legislative election, the county recorder or officer in charge of elections shall provide for a live video recording of the custody of all ballots while the ballots are present in a tabulation room in the counting center. The live video recording shall include date and time indicators and shall be linked to the secretary of state's website. The secretary of state shall post links to the video coverage for viewing by the public. The county recorder or officer in charge of elections shall record the video coverage of the ballots at the counting center and shall retain those recordings as a public record for at least as long as the challenge period for the general election. If the live video feed is disrupted or disabled, the recorder or officer in charge of elections is not liable for the disruption but shall attempt to reinstate video coverage as soon as is practicable. Any disruption in video coverage shall not affect or prevent the continued tabulation of ballots. This subsection is contingent on legislative appropriation.

AMERICAN OVERSIGHT

~~E.~~ C. The county recorder or other officer in charge of elections shall maintain records that record the chain of custody for all election equipment and ballots during ~~early~~ ABSENTEE voting through the completion of provisional voting tabulation.

Sec. 29. Title 16, chapter 4, article 11, Arizona Revised Statutes, is amended by adding section 16-641, to read:

16-641. Legislative session; review; legislative election audit

NOTWITHSTANDING ANY OTHER STATUTE:

1. THE LEGISLATURE SHALL CALL ITSELF INTO SESSION TO REVIEW THE BALLOT TABULATING PROCESS FOR THE REGULAR PRIMARY AND GENERAL ELECTIONS AND ON REVIEW SHALL ACCEPT OR REJECT THE ELECTION RESULTS. IF THE LEGISLATURE ACCEPTS THE ELECTION RESULTS, THE ELECTION CANVASS AND RELATED CERTIFICATIONS AND PROCLAMATIONS MAY PROCEED AS OTHERWISE PROVIDED BY LAW, AND THE LEGISLATURE MAY ADJOURN ITS SESSION. IF THE LEGISLATURE REJECTS THE ELECTION RESULTS, ANY QUALIFIED ELECTOR MAY FILE AN ACTION IN THE SUPERIOR COURT TO REQUEST THAT A NEW ELECTION BE HELD.

2. THE LEGISLATURE MAY CONDUCT AN AUDIT OF ELECTION RESULTS FOR ANY REGULAR PRIMARY OR GENERAL ELECTION.

Sec. 30. Section 16-663, Arizona Revised Statutes, is amended to read:

16-663. Recount of votes

~~A.~~ The superior court to which the facts requiring a recount are certified shall ~~forthwith~~ PROMPTLY make and enter an order requiring a recount of the votes cast for such office, measure or proposal. The recount shall be conducted in accordance with the laws pertaining to contests of elections.

~~B. When the court orders a recount of votes which were cast and tabulated on electronic voting equipment, such recount shall be pursuant to section 16-664. On completion of the recount, and for legislative, statewide and federal candidate races only, the county chairmen of the political parties entitled to continued representation on the ballot or the chairman's designee shall select at random without the use of a computer five per cent of the precincts for the recounted race for a hand count, and if the results of that hand count when compared to the electronic tabulation of that same race are less than the designated margins calculated pursuant to section 16-602, the recount is complete and the electronic tabulation is the official result. If the hand count results in a difference that is equal to or greater than the designated margin for that race, the procedure established in section 16-602, subsections C, D, E and F applies.~~

Sec. 31. Repeal

Section 16-664, Arizona Revised Statutes, is repealed.

AMERICAN OVERSIGHT

Sec. 32. Section 16-1011, Arizona Revised Statutes, is amended to read:

16-1011. Counterfeiting election returns; violation; classification

A. A person who knowingly forges or counterfeits returns of an election purporting to have been held at a precinct or place where no election was in fact held, or who knowingly substitutes, forges or counterfeits returns of election instead of the true returns for a precinct or place where an election was actually held, is guilty of a class 3 felony.

B. A person who knowingly substitutes, forges, counterfeits or tampers with ballot tabulations or totals or election results by electronic means or through the use of a computer, machine or other device is guilty of a class 3 felony. This subsection does not apply to the casting or tallying of ballots as provided by law or to the substitution or duplication of ballots as prescribed by sections 16-573~~,~~ AND 16-574 ~~and 16-621~~.

C. Notwithstanding sections 13-907 and 13-908, a person who is convicted under this section shall not be automatically restored the right to vote.

Sec. 33. Section 16-1017, Arizona Revised Statutes, is amended to read:

16-1017. Unlawful acts by voters with respect to voting; classification

A voter who knowingly commits any of the following acts is guilty of a class 2 misdemeanor:

1. Makes a false statement as to the voter's inability to mark a ballot.

2. Interferes with a voter within the seventy-five foot limit of the polling place as posted by the election marshal or within seventy-five feet of the main outside entrance to an on-site ~~early~~ voting location ~~established by a county recorder pursuant to section 16-542, subsection A~~.

3. Endeavors while within the seventy-five foot limit for a polling place or on-site ~~early~~ voting location to induce a voter to vote for or against a particular candidate or issue.

4. ~~Prior to~~ BEFORE the close of an election defaces or destroys a sample ballot posted by election officers~~,~~ or defaces, tears down, removes or destroys a card of instructions posted for the instruction of voters.

5. Removes or destroys supplies or conveniences furnished to enable a voter to prepare the voter's ballot.

6. Hinders the voting of others.

7. Votes in a county in which the voter no longer resides, except as provided in section 16-125.

AMERICAN OVERSIGHT

Sec. 34. Section 16-1018, Arizona Revised Statutes, is amended to read:

16-1018. Additional unlawful acts by persons with respect to voting; classification

A person who commits any of the following acts is guilty of a class 2 misdemeanor:

1. Knowingly electioneers on election day within a polling place or in a public manner within seventy-five feet of the main outside entrance of a polling place or on-site ~~early~~ voting location ~~established by a county recorder pursuant to section 16-542, subsection A~~.

2. Intentionally disables or removes from the polling place, on-site ~~early~~ voting location or custody of an election official a voting machine or a voting record.

3. Knowingly removes an official ballot from a polling place OR ON-SITE VOTING LOCATION before closing the polls.

4. Shows another voter's ballot to any person after it is prepared for voting in such a manner as to reveal the contents, except to an authorized person lawfully assisting the voter. A voter who makes available an image of the voter's own ballot by posting on the internet or in some other electronic medium is deemed to have consented to retransmittal of that image and that retransmittal does not constitute a violation of this section.

5. Knowingly solicits a voter to show the voter's ballot, or receives from a voter a ballot prepared for voting, unless the person is an election official or unless otherwise authorized by law.

6. Knowingly receives an official ballot from a person other than an election official having charge of the ballots.

7. Knowingly delivers an official ballot to a voter, unless the voter is an election official.

8. Except for a completed ballot transmitted by an elector by fax or other electronic format pursuant to section 16-543, knowingly places a mark on the voter's ballot by which it can be identified as the one voted by the voter.

9. After having received a ballot as a voter, knowingly fails to return the ballot to the election official before leaving the polling place or on-site ~~early~~ voting location.

Sec. 35. Conforming legislation

The legislative council staff shall prepare proposed legislation conforming the Arizona Revised Statutes to the provisions of this act for consideration in the fifty-sixth legislature, first regular session.

States including Ohio, Oregon, Utah, and New Hampshire are jumping on the sanction train andboycottingRussian-made vodka. The governors of Texas and Maine are also asking retailers and state agencies to remove Russian spirits from shelves.

While these snubs may raise awareness about the war in Ukraine, Americans prefer their Texas-made Tito's: Russian vodka only accounted for about 1.3% of all vodka imported into the US last year, according to the Distilled Spirits Council of the US.

Plus, some non-Russian vodka brands are also feeling the effects.

- American businesses have mistakenly removed vodkas like Stoli and Smirnoff, which are made in Latvia and the US, respectively, in protest.
- After one Maine liquor store owner bumped Stoli from his shelves only to learn it wasn't made in Russia, he doubled down. "I think it sends a signal," hetoldthe Portland Press Herald.

Zoom out: Russia has seen its banking, business, sports, and entertainment ties with the West, which it's built up for decades, evaporate in a matter of days. Yesterday, Ukraine's Vice Prime Minister Mykhailo Fedorov asked video game companies to disconnect Russian and Belorussian gamers.—*MM*

VOS EXPOSED- What a ride, after the language of SB 214 (bill letting central counts open and scan absentee ballots on Mondays before elections) was inserted into another bill, and that bill passed - because Robin Vos lied through his teeth to his own Republican members not to mentioned violated numerous parliamentary rules - the Republicans finally found their backbone. They took Vos into Caucus and they tore Vos a new one, they were furious at him for lying by omission, working with the Democrats

in secret. The "amendment", which was really the SB 214 language, was defeated! They stripped that amendment. SB 214 did not pass. Late night stuff.

Grassroots citizens accomplished this - they got the attention of their Reps.

Subject: Best Practice

Jesse, Paul, and Mark,

I think it's always best practice to have all those involved to be in the room when seeking a solution.

Justice Gableman should be in the room when we meet on the 16th. Please invite him.

Although the Speaker hired him, our tax dollars paid for the investigation. He came and addressed our group in November and he should do the same now. I'm sure he would agree. I'd email him and ask him, but we've never been provided his email address.

It's obvious this meeting is in response to his report, and if he's not in the room to refute things said
about his report or answer specific questions, we will never find resolution. Questions not answered will continue to breed doubt throughout the State with our voters.

We need to build confidence in our entire Party and without all the truth in the room, that won't happen.

We, the County Chairs, are the ones closest to the people. You know..... the grass roots. And we (RPW) are supposed to be a grass roots up organization. Time to Walk the Walk. Our sole purpose out here in the field is elections. Help with campaigns, election inspectors, activate the voters, and have a constant presence for the Republican Pary. If you're worried about people not coming out to vote, what if the counties walk away from what we do? We know that election integrity, cheating, fraud, and phantom voters is the number 1 issue of the people we work with every day. We need to deal with it to it's conclusion for now and then keep our eyes on it forever. We can walk and chew gum at the same time, just like we can deal with integrity issues at the same time we work to get conservatives elected.

Please invite Justice Gableman to be part of the meeting on the 16th. Suspicions will linger if he is not present.

Brandtjen Responds to Monday Count Bill

For more information contact:
Rep. Brandtjen (414) 915-8425

February 28, 2022

Madison- State Representative Janel Brandtjen (R- Menomonee Falls) issued the following statement regarding the Assembly effort to allow Monday vote processing:

"After spending a full year not getting access to original ballots, ballot envelopes, tabulators, or tabulator modems from the very cities that AB 946 would affect, including Milwaukee and Green Bay, why would Republicans wish to pass this ill-advised amendment on SB 946?

The last minute amendment written in large part by Senator Bernier, grants early access to absentee ballots by entering ballots in the tabulators the Monday before elections. Counting the ballots should be driven by security not speed. Why would we want to give bad actors the chance to see ballots prior to Election Day?

Milwaukee and other central count locations have not given Republican poll workers equal access to wards or central count. The biggest challenge for transparency is who is in the counting room, not when the ballots are counted. In addition, these cities impose restrictive "vaccine mandates" and various other tricks to limit Republican participation. The public trust in our election process is already unacceptably low. Again, why would we give bad actors an extra day to cheat?"

Thanks Nicholas.

Representative Brandtjen,

As the chair of the Assembly Campaigns and Elections Committee would you expect justice Gableman to provide examples of why testifying in front of the public could damage his investigation at your upcoming hearing?

I ask because there seems to be an impasse between him and the mayors of Green Bay and Madison that continues to drag out his investigation and I assume consumes more taxpayer money. It seems reasonable that his questioning should be answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person. The explanation I have heard in the past for wanting to question in private is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

If justice Gableman doesn't offer examples could you please ask him to do so at the hearing?

Sincerely,
Jerry Tribbey

Dear Mr. Tribbey:

To keep you updated on the Gableman investigation, the Assembly Campaigns and Elections Committee is holding a public informational hearing on March 1st at 10:00 am.

Michael Gableman is being invited to discuss his investigation. I will include the notice for you to review. It may be streamed on WisconsinEye, or you may attend it in person. 1664593 (wisconsin.gov)

Hello Mark,

I'm wondering if you can help me get a question regarding the Gableman investigation answered. It is why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

We moved from Dodge to Winnebago county 4 years ago. Representative Schraa's office has chosen not to attempt to get an answer to my question. You can see his office's response if you scroll down 3 replies below. I have not been able to get Representative Voss's office to respond to the question either (see prior 2 immediate replies below). I'm hoping you are willing to help.

Representative Voss,

First, I want to clarify that I do not live in your assembly district. I live in the 53rd district. I'm writing directly to you because representative Schraa does not feel he can answer my questions (see comment from his staffer in the email below).

My question relates to the Justice Gableman investigation. As you know, last week the Committee on Campaigns and Elections passed a motion on a party line vote to extend or continue (it wasn't clear from the committee members' discussion on this point) Gableman's council. Why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. Hello Linda,

AMERICAN OVERSIGHT

Thanks for passing along the hearing and executive session info. I was able to watch it on Wisconsin Eye. I was pleasantly surprised to hear the legislators agree to bring in WEC representation to answer the questions about the integrity of the voter registration data base. Gives me some comfort that there is a good faith effort to remove doubt about our election system. I do wonder why this investigation didn't take place prior to the 2020 election. As all three experts shared, these issues likely existed prior to the 2020 election. If the issues identified are serious, and they appear to be, I believe there needs to be common agreement to resolve them and get it done.

Regarding the authorization for Gableman's contract extension/continuation (I'd like to know if it is an extension or continuation), what is the justification? Why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. Subject: Decertification of 2020 Election

Greetings. Do you understand what decertification of the 2020 election would mean to you? YOU WOULD NOT BE IN OFFICE!!!! Or are you to stupid to understand that? You're questioning your own election to office. You would have no say in anything. Do you understand that?? Apparently not. So apparently with you questioning the 2020 election your questioning everyone who was up for election or re election. That's means you're not in office. Robin Vos is not in office and the list goes on. In fact there's no state legislature at all and the only state senators that are in office are the ones who were not up for re election in 2020. Fine decertify the election but you'll be doing it illegally because you won't be office to pursue it. You can't pick and choose what's on the ballot. It's the entire ballot that's decertified not for just one office but apparently you don't understand that.

Dear Senators,

By legalizing cheating and fraud in SB 946 you will likely have more blood on your hands in the future. Matthew stood up for what was right. A yes vote is sanctioning more cheating and fraud and being down for what's wrong. The American people will be watching your vote. HONOR MATTHEW AND VOTE NO FOR SB 946.

Dear Reps.

I'm forwarding this to you. Encourage a No vote for SB 946. Thank you.

Dear Senators,

Matthew Pena, a J6 protester commits suicide days before being sentenced for a crime he didn't commit. His blood is on the hands of those who did the cheating and fraud. By legalizing cheating and fraud in SB 946 you will likely have more blood on your hands in the future. Matthew stood up for what was right. A yes vote is sanctioning more cheating and fraud and being down for what's wrong. The American people will be watching your vote. HONOR MATTHEW AND VOTE NO FOR SB 946.

Decertify the 2020 election. How much proof do you need to realize that this election was fraudulent. I'm sure that there is no law that allows for certification of a fraudulent election, but you did it. Now get a backbone and decertify the election and let it get challenged in court. For Gods sake lead. Also do not pass the amendment that allows for Monday counting before the Tuesday election, it's a license to cheat.

Ladies and Gentlemen:

In light of Justice Gableman's interim 2020 election report, please explain to me why Speaker Vos and retiring Senator Bernier would want to push more bills permitting increased ballot drop

AMERICAN OVERSIGHT

off boxes and continue to support the corrupt pro-Democrat WEC!? Also, why would Speaker Vos criticize Gableman's recommendation to decertify the 2020 election and dissolve the WEC!? HE SELECTED HIM!!! Vos is either a Democrat pretending to be a Republican, he is compromised, or he has something else to hide. Whatever the truth may be, it is time for Vos to resign now. We need legislators that actually recognize the threat from the progressive left.

Make no mistake, Wisconsin conservatives and libertarians know the feckless RINOs in the State Legislature are slow walking the supposed forensic audit.**FULL FORENSIC AUDIT NOW!! GET MOVING OR LOSE YOUR JOBS!!Subpoena the ballots and machines!!! We won't allow Speaker Vos to bury the truth.**

BREAKING EXCLUSIVE: What's Going On In Wisconsin? Hillary Attorney Elias Provides Evidence that State GOP Leadership Agreed to Unconstitutional 'Ballot Drop Boxes' - The Gateway Pundit

Today the Wisconsin Assembly Committee on Campaigns and Elections and the Senate Committee on Elections, Ethics and Rural Issues held a joint public hearing to review the 2020 general election. One witness called before the committee fought back against the Wisconsin Drop Box program and she had evidence to support it which we found frightening.…

The MFHS Culinary Arts program offers students a strand of four courses that students can take freshman to senior years. These courses are designed for students to learn applicable, in-demand skills in the culinary and foodservice industry. As students finish their courses, they are encouraged to continue their culinary education through workplace experience programs. Students can participate in the Youth Apprenticeship or Internship (formerly Supervised Occupational Experience) programs to gain employment experience in the culinary and foodservice industries. Our students also share their culinary skills with fellow students and the community through the yearly "Cupcake Wars." Each class competes to create the best/tastiest cupcake with the winning cupcake mass-produced during "Senior Holiday" week and displayed at Davian's.

The Culinary Arts lab renovation is scheduled to begin in May with completion in August. Keep an eye on our social media accounts for student culinary creations and project updates. We are excited for our students to access this new learning environment!

If you would like more information about the Culinary Arts program, please reach out to Adam Rathje, Family, and Consumer Science Curriculum Chair.

Two fifth-grade students from Riverside Elementary, Austin Cegielski and Kael Boenitz, are putting a lot of sole into earning Riverside's top award, the Pin of Honor. Cegielski and Boenitz will host a Shoe Drive, February 28 - March 3, at Riverside to help children in Africa attend school and adults walk to work safely.

"The Pin of Honor is the highest award a student can get at Riverside," said Scott Walter, Principal at Riverside Elementary. "It is a year-long endeavor that I introduce to fifth-grade students at the end of September and involves achievements students can do in three different categories: courage, generosity, and academic excellence. Students have to complete six things, at least one in each category, or more to earn the Pin of Honor. Our entire fifth-grade recognition ceremony at the end of the year revolves around it."

To help with this service project, each classroom at Riverside will have a collection bin and a large box in the front entrance/school lobby for shoe donations. Please consider donating NEW or USED (clean) shoes of any size for adults and children. Tennis shoes, tie shoes, slip-on shoes, dress shoes/flats are great, but please avoid sending winter boots, high heels, or flip flops.

The ACT will be administered on March 8, 2022. All juniors should report to MFHS at the normal start time to complete the ACT. Since it is required that we test all junior students, attendance will be extremely important on this day. Freshmen, sophomores, and seniors will complete work asynchronously from home.

This will be the eighth year that the State of Wisconsin has mandated and funded the administration of the ACT, including the writing test, for all junior students. The ACT is a national college admissions examination that consists of subject area tests in English, reading, writing, math, and science. The ACT includes a series of multiple-choice questions and takes approximately three hours and 30 minutes to complete. The writing portion of the exam will add an additional 40 minutes to the test. Because of its role in the college admission process, the ACT is often considered a gateway test. For this reason, we are excited that 100% of our students will be tested this year.

AMERICAN OVERSIGHT

In partnership with the National Inventors Hall of Fame® (NIHF),**Menomonee Falls Schools Camp Invention: Location TBD**is pleased to offer the nationally acclaimed Camp Invention® program to children entering**K**through**6th**grade. This exciting, weeklong summer adventure provides opportunities for open-ended, hands-on exploration of science, technology, engineering, and more! Rotating through a variety of exciting activities each day, children have fun collaborating with friends, thinking creatively, and inventing their own solutions to real-world challenges.

The week begins on**August 1, 2022,**with**Andrea Karras**serving as Director. The all-new 2022 Explore program will thrill both new and returning campers with an expedition full of far-reaching explorations, fascinating discoveries, and exhilarating "a-ha" moments!

During this dynamic, high-energy program, young innovators will:

• Dive into cutting-edge ocean research as they adopt their own robotic fish, design and
patent aquatic plants, and take their fish friend home in a mini tank.

• Discover real space exploration technology when they create Spacepacks and AstroArm devices, mine an asteroid, and observe erupting ice volcanoes.

• Combine science and art to build their own robotic artist, engage in design thinking,
make spin art and learn how inventions can change the way people create.

• Experiment with the fun of physics, engineering, and gaming as they design, build and
test their own mega marble arcades.

Early registration discounts are available! Register using SUM25 by March 31 to save $25, or SUM15 by May 18 to save $15 off the $260 registration fee.

Falls Schools Update *from*

Corey Golla Superintendent of Schools

The **CDC recently updated its framework** to monitor the level of COVID-19 in communities with target mitigation recommendations based on their calculations. Per the CDC, the prevention strategies for Waukesha county are currently at the medium level.At this level, the CDC is no longer recommending universal masking and recommends individuals talk to their healthcare provider whether they need to wear a mask and take other precautions.

This recent update, combined with the recommendation from the Wisconsin Health Department and Waukesha County Public Health, will allow us to soon shift away from COVID-19 case investigation and contact tracing efforts across the system, 4K-12. This week, the elementary level moved students back into the cafeteria.Additionally, SDMF welcomes volunteers back into our schools and many schools are planning field trips again.
We remain committed to keeping our students and staff safe and providing schools with the support they need to continue in-person learning. The best way to avoid being in close contact or risk infecting others is to stay home if you are feeling sick.

We will continue to update our online dashboard as long as relevant data is available. Families can then use that information, in conjunction with COVID test results, to make decisions that are right for them. Please remember that the data reported here is only what is known by SDMF.

Public health agencies ask people to monitor their own health and for students and staff to use testing resources regularly or consult with their health provider if symptomatic. Individuals can then use that information to make decisions and act in the best ways for themselves, their family members, colleagues, classmates, and neighbors.

Thank you for the continued partnership in your child's education. As we have said all along, we will continue to make it through these challenges as a community

Curriculum Spotlight:

AMERICAN OVERSIGHT

With Youth Art Month beginning this week, we want to share how our high school students integrate art into communication and future careers. The way we communicate has changed exponentially in the last decade, and with that comes a growing demand for young adults with a skill set to match. The growth of social media and the change in media consumption has put greater and greater demands on the skills of those able to capture someone's attention visually. Emphasis is on the importance of problem-solving, creativity, collaboration, time management, and critical thinking.

The Design Communication & Media (DC&M) Academy provides students the knowledge and skills needed for post-secondary careers in these and related fields.

Students start by exploring introduction courses to each of the three pathways in the DC&M Academy. These courses include:
- Computer Design 1
- Media Production 1
- Web Development and Social Media Management

These courses help students understand which strand best fits their interests and the courses to take throughout their high school career.
Below is a guide of the coursework that aligns with each of the DC&M strands:

We live in challenging times. The difficulties and demands of various situations affect individuals and families both locally and around the world. Human Service careers may offer assistance in overcoming obstacles or challenges that one may experience in their life.

***"Helping a person will not necessarily change the world, but it will change the world for that person."* – Unknown**

Our Introduction to Human Services course at Menomonee Falls High School is a ½ credit semester-long elective course within the Family and Consumer Education department that is open to grades 9-12. This course prepares students for jobs that relate to families and human needs. Whether one may be interested in becoming a social worker, a childcare provider, or a hairdresser, that person will address human needs. Students taking this course will ideally be interested in pursuing a career that works with others and an interest in career exploration.

This course is organized into five career pathways:

- Counseling and Mental Health Services
- Early Childhood Development and Services
- Family and Community Services
- Consumer Services
- Personal Care Services

Students taking this course will explore the history and theorists in human services, current trends in the field, career opportunities in this field, educational requirements, career salary/wage/benefit potential, career responsibilities, and the outlook for the industry's future. Due to the variety of career pathways, students learn about a broad range of employment opportunities. These professions include mental health occupations, education positions, family and community positions, state trooper/law enforcement, lawyer/legal system, criminal investigator, funeral director, barber/cosmetologist, fitness instructor, and many more.

To learn more about the Introduction To Human Services course, please email Ms. Renee Maney.

Senior Centers Offer More Than a Vital Connection

Lori Oertel, Older Adult and Volunteer Supervisor, School District of Menomonee Falls Community Education and Recreation Department and President, The Wisconsin Association of Senior Centers (WASC)

Seniors can learn new things, feel valuable by giving back through volunteering in the community, and make connections to help combat isolation and loneliness.

While the cost of living, access to health care, and proximity to family are some of the considerations when retirees look at relocating, a community's amenities for retirees are also considered by many when determining whether a community is a good fit for their retirement plans.

With the number of seniors increasing every year as a proportion of the total population, an estimated 71 million Americans will be at least 65+ by 2030; there needs to be more focus on helping your local senior center grow.

Senior centers are a vital asset to every community no matter their size, and have become especially important since the COVID-19 pandemic. "I've been alone socially for two years and coming to the senior center has been a lifeline for me. I'm so grateful we have this facility," Wicklaton Senior Center participant.

It's critical to keep seniors connected. During the global pandemic, senior centers have had to think outside the box for new ways to maintain relationships and reconnect with their seniors. Centers throughout the state offer innovative engagement activities, including mental health resources and education, fitness, and recreational activities that combat social isolation and loneliness. Center volunteers didn't miss a stitch when face masks were needed and quickly mobilized to sew hundreds of face masks to give out to community members. We've created new and meaningful ways to connect with the aging population.

Centers Add Value

By 2040, Wisconsinites aged 65+ are expected to increase to 22.2% of the state's population, making senior centers especially valuable to a community. The National Council on Aging (NCOA) estimates 11,400 senior centers serve more than 1 million older adults every day. We are here to help seniors age with dignity providing education, socialization, and wellness.

Education

Many seniors are looking for something to fill their new free time and enjoy taking classes to learn a new talent or refine a skill they now have time to improve. Programs include a wide variety of things from arts to exercise, including evidence-based exercise classes, a foreign language, estate planning, cooking, woodworking, ceramics, yoga, mindfulness, outdoor activities such as hiking and walking groups, bike rides, the popular pickleball, crossboarding, support groups, travel, and more.

Socialization

One of the most important aspects of the senior center is to help seniors feel a sense of connection. Many people come to us after they have lost their spouse or significant other, reaching out because they want to connect with someone. Nearly 25% of adults age 65 or older are considered socially isolated – a condition that increases a person's risk of premature death equivalent to that of smoking or obesity. Social isolation is also associated with a 50% increased risk of dementia, 29% increased risk of heart disease, and 32% increased risk of stroke. As senior center directors learn about their interests, we help them find new connections. Some senior centers offer a meal program where the seniors can have lunch and enjoy a meal together with friends instead of eating alone at home. Studies have shown that group meals

Shout out to SDMF's Lori Oertel, Older Adult, and Volunteer Supervisor, Community Education and Recreation Department, and President of The Wisconsin Association of Senior Centers (WASC) who was featured in the March 2022 magazine of The Municipality Magazine.

Lori's article, Senior Centers Offer More Than a Vital Connection, shares the importance of senior centers in a community."Centers throughout the state offer innovative engagement activities, including mental health resources and education, fitness, and recreational activities that combat social isolation and loneliness," Oertel said. **Click here for the full article.**

Rally at the Racine Co. GOP Caucus

Saturday, March 12th

Meet up: 8:30 a.m.

Hickory Hall

5844 Douglas Ave.

Caledonia

Good evening County GOP Leaders, Individual GOP Members, Non-Profits, Affiliates and Ad-Hoc Committee:

Your tireless efforts and undying dedication to election integrity over these last 16 months, may finally be starting to pay off.

What a day it was at the Capitol with Justice Gableman's 136-Page Interim Election Fraud Report under the direction of Rep. Brandtjen (R-Menomonee Falls), Chair, Assembly Committee on Campaigns and Elections.

About 40 citizens from all over Wisconsin supporting election integrity attended the Hearing and were in utter disbelief and amazement when Justice Gableman verbally and in writing recommended the following takeaways regarding the November 3, 2020, Federal Election, in Wisconsin, as part of his 136-page interim report (See attached Gableman Report 136 pages 3-1-22):

1. The Wisconsin Legislature could decertify the certified electors in the 2020 Presidential Election validating Rep. Ramthun's (R-Campbellsport) AJR 120 (See attached AJR 120 Reclaiming Wisconsin Electoral College Votes).
2. Both Houses of the Legislature would need a majority to pass a resolution concluding that the 2020 Election was held in violation of state law that affected the outcome.

AMERICAN OVERSIGHT

3. The Legislature would then need to exercise its plenary (unqualified or absolute) power to designate those slate of electors it thought best accorded the outcome of the election had it been run legally.
4. Legislature can act without the concurrence of the Governor.

Page 136 of the interim report is repeated at the end of this email that details the above mentioned 4 takeaways.

This development can only be described in terms of being monumental or explosive or massive or a game changer or devastating for election fraud deniers. The press and media have invested themselves for the last 16 months in denying any election fraud and now must have to have a come to Jesus' conversation in light of Justice Gableman's election fraud revelations. The press and media must also have to reconcile their repeated attempts of reporting that the electors cannot be decertified. It is proven now that electors can be decertified.

Speaker Vos (R-Rochester) was extremely wise to appoint Justice Gableman to administrate and execute outstanding investigative work into the mountains of examples of election fraud that appear to be finally coming to light. Justice Gableman is wise, insightful, thoughtful and unapologetic in making his legal and constitutional recommendation to decertify the electors due to undeniable and irrefutable election fraud that obviously compromised the certification of electors.

Justice Gableman's recommendation to decertify the electors due to election fraud is now in the hands of Speaker Vos (R-Rochester) and Senator Kapenga (R-Delafield) to legally and constitutionally follow Justice Gableman's recommendation and to secure a remedy to properly certify electors through the Legislature.

Page 135 of Justice Gableman's Report refers to the illegality of certifying electors when it is proven that those electors were certified under fraudulent intent and purpose due to proven election fraud

Approximately 12 County GOP Leadership Teams have passed a resolution for the reclaiming of Wisconsin's 10 Electoral College Votes and or making a public statement regarding Speaker Vos (See attached Reclaim Electors Map). Several County Resolutions are attached, and permission is being given for other County GOP Leaders to use any language that would fit their specific needs.

To view Justice Gableman's Interim Election Fraud Investigation Report, please visit Wisconsin Eye (www.wiseye.org) or this link (https://wiseye.org/2022/03/01/assembly-committee-on-campaigns-and-elections-27/). The hearing lasted nearly 3 1/2 hours.

FYI and share

I am not an expert but at first glance, not all of these are good. Like SB 214 "processing ballots on Monday". I think that contradicts the statement in orange below and does make it easier for them to cheat.

But encouraging folks to contact the governor's office on some of them are good.

Subject: Election Reform Bills Pass the Senate

Leanne:

Thank you for your ongoing interest in election reform and the future of elections in Wisconsin.

On Tuesday, February 22, 2022, the State Senate passed 14 bills related to election reform. Each of these bills addresses a specific problem or set of problems that we must solve for future elections. The State Assembly is currently debating these bills and I expect them all to be passed later today.

The Governor has already vowed to veto them. This is disappointing. Each of the proposals is a thoughtful, deliberate effort to secure our elections and clarify the law so that every voter has equal opportunity to cast a ballot and be counted fairly. None of these bills make it harder to vote - but they do make it harder to cheat. Please call the Governor's office - 608-266-1212 - and ask him to sign these bills.

Attached to this email is a comprehensive list of these bills. It includes the problem/s we are trying to solve and how the bill solves the problem/s. It is a lot of information, but I want you to be up-to-date on our work on this issue. There is a lot of misinformation spreading about some of these proposals and I want you to have all of the detail so that you know the truth.

Again, thank you for your ongoing interest in this issue. I appreciate your input.

Sincerely,

AMERICAN OVERSIGHT

"The last minute amendment written in large part by Senator Bernier, grants early access to absentee ballots by entering ballots in the tabulators the Monday before elections. Counting the ballots should be driven by security not speed. Why would we want to give bad actors the chance to see ballots prior to Election Day?" See attached press release.

SB946 ASA 1 - This is the amendment that was grafted from SB914 that the assembly voted down thus giving it a 2nd life. It was the procedural move Speaker Vos did that the assembly republican legislators stated was deceptive and found out Speaker Vos was working with the democrats on. It's what triggered the caucus chaos a few days ago.

Senate Elections Committee Executive Session where SB946 is expected to be voted on then scheduled for a floor vote. It's expected to pass out of the committee.

Did You Know Green Bay's Election Was Run by Michael Spitzer Rubenstein From A Hotel Room?

The Wisconsin Special Report says: Democrats cheated in the 2020 election!

Emerald Robinson

Mar 3

There are so many newsworthy details contained in the just-released Wisconsin Special Counsel Report on the 2020 Election that it's hard to know where to begin. Every American citizen should read this report because it explains how the election was stolen by Democrats. That alone makes it worthwhile.

AMERICAN OVERSIGHT

Office of the Special Counsel

Second Interim Investigative Report

On the Apparatus & Procedures of the Wisconsin Elections System

Delivered to the Wisconsin State Assembly on March 1, 2022

Let's start with this story:

> The OSC learned that all machines in Green Bay were ESS machines and were connected to a secret, hidden Wi-Fi access point at the Grand Hyatt hotel, which was the location used by the City of Green Bay on the day of the 2020 Presidentia election. The OSC discovered the Wi-Fi, machines, and ballots were controlled by a single individual who was not a government employee but an agent of a special interest group operating in Wisconsin.

Wow. So one guy hidden at the Grand Hyatt Hotel controlled Green Bay's election from his room? What is that guy's name? According to the report: his name is Michael Spitzer Rubenstein. Why was a lawyer from Brooklyn in control of an election in Wisconsin?

AMERICAN OVERSIGHT

That's a good question. Let's begin, though, with an explanation of why it's been so hard to get any good questions answered at all. Just take a look at your calendar: it's March 2022. The retired Wisconsin Supreme Court judge who conducted this Specia Counsel investigation would remind all of us, first, that we're talking about companies that are hiding their tracks.

> The OSC began a comprehensive investigation of voting machines in Wisconsin. As part of that investigation, subpoenas were sent to Dominion, ESS, and Command
> Central, LLC, a Dominion reseller and servicer. The information sought included information about who, when, where, and what updates the machines were provided.
>
> The OSC learned that one machine company representative stated that the voting machines were "wiped" during updates, meaning they did not retain federally required voter data.
>
> It was discovered that Command Central, LLC, received images of cast ballots on election night using the internet. Command Central is alleged to be holding actual ballots cast on election night at its offices in Minnesota in violation of Wisconsin law.
>
> The OSC was not able to complete this portion of its investigation, however.

Get 20% off for 1 year

Let's also remember that the voting machine companies have refused to comply witl investigations authorized by the state officials of Wisconsin even though the state officials of Wisconsin *hired them in the first place as third-party vendors*.

> As of the date of this Report, the voting machine companies have refused to comply
> with the OSC's legislative subpoenas, and have provided no data. The OSC considers this investigation incomplete but ongoing.

AMERICAN OVERSIGHT

> The OSC also sought information about the machines in Wisconsin used on election night from the clerks. The clerks either did not possess the data sought by the OSC or refused to provide it, with Green Bay and Madison insinuating that providing secure voting machine data to the OSC would somehow compromise election integrity. In other words, these cities claim that it is impossible to verify the integrity of the voting machines because doing that would jeopardize the integrity of both the machines and future elections.

So let's return to the Brooklyn attorney in the hotel room running Green Bay's election. How was that possible? How did he manage to do it?

> One of the functions of Mr. Spitzer Rubenstein's service as "on-site contact" was to
> coordinate with the contractor staff at the Hyatt Regency and KI Convention Center to set up wireless networks for Election Day operations. At Mr. Spitzer Rubenstein's instruction, there were three WiFi networks available. One was the general conference facility public network that would be available to members of the press and others. That network was password-protected, but the password was widely available. A second password-protected WiFi network was created for Central Count staff. Mr. Spitzer Rubenstein also directed that a third WiFi networ be established, but that network was to be hidden and it was not to be password-protected. Spitzer Rubenstein also ensured that "both networks reach[ed] [his] hotel room on the 8th floor" (App. 262-266).
>
> On election day, Spitzer Rubenstein had access to ballots and determined which ones would be counted or not counted.

Our elections can be hijacked because *the electronic voting machines are hooked up to the internet*. You know: the simple truth that your elected officials keep insisting i not true — and which is now indisputably true. Which brings us to the next truth: *your elected officials are lying to you* and they're probably lying to you *because the only way they got elected was by using corrupt voting systems*.

AMERICAN OVERSIGHT

There's another blockbuster development mentioned in the report as well. The retire Wisconsin judge got his hands on some interesting evidence.

> The OSC's investigation discovered the use of a ballot tracking and harvesting application in Wisconsin. An extensive amount of time and effort went into this portion of the investigation. The OSC became attuned to the possibility of an application when reviewing email exchanges between the Zuckerberg 5 and third parties. This involved tracking applications in Georgia and Pennsylvania.
>
> The OSC discovered ballot tracking programs in both Georgia and Pennsylvania. The OSC was able to locate and identify the developer of both programs in those States. The OSC obtained the source code for the Pennsylvania application. Ultimately, that data and source code would not prove to be helpful to discovering information about the Wisconsin application.

The Democrats now have a very big problem: massive election fraud in 2020 is no longer a "conspiracy theory" — it's a fact described in great detail in an official report conducted by the state officials of Wisconsin.

It's official: they cheated.

As reported by WisPolitics.com, though Gableman urged lawmakers to consider overturning the results of the 2020 election, the report he released noted that *"action would not, on its own, have any other legal consequence under state or federal law. It would not, for example, change who the current President is."*

During his testimony, Gableman also insisted he wasn't calling for the results to be overturned, but suggesting it should be considered.

"There appears to me very significant grounds for such an action," Gableman said.

Office of the Special Counsel Investigative Report
Executive Summary
Summarized by the Vos Office
3/1/2022

Introduction: The purpose of this report is not to challenge the certification of the presidential election but rather produce recommendations to correct certain processes for future elections. These recommendations focus largely on enabling oversight and transparency of election systems and maintaining political accountability. Special Counsel notes that the investigation is not yet complete due to pending legal roadblocks.

The Special Counsel report discusses the following findings:

Chapter 1 - The $8.8M Provided to Wisconsin by the Center for Tech and Civic Life (CTCL) should be considered as bribery under the law: WI Stat 12.11 prohibits a city from receiving money to facilitate electors going to the polls or voting by absentee ballot. Grants provided by CTLC to Madison, Milwaukee, Racine, Kenosha, and Green Bay (Zuckerburg 5) were meant to facilitate voter turnout in targeted neighborhoods – particularly to historically disenfranchised residents. The report details the ways the Zuckerburg 5 utilized grant funds to accomplish these goals. References are made to the WILL election review which found that these funds led to a statistically significant increase in turnout for cities that received CTCL grants.

Chapter 2 – The motive for private funding was impermissible and a partisan get-out-the-vote effort.

Chapter 3 – Government oversight has been obstructed by governmental and outside corporate collusion: Counsel reports WEC, the State Attorney General, the Governor, and private organizations have actively resisted and obstructed the investigation. The report details the methods of obstruction.

Chapter 4 – The Zuckerburg 5 engaged in questionable actions as a result of private funds: Counsel reports on ways private companies engaged in unlawful election administration practices. Various concerns are raised including a report that WEC sent out more FIDO (Fast ID Online) keys to local governments than were requested and records were not accurately maintained. These keys allow the user to access the Statewide Voter Registration system (WisVote). CTCL did not follow WEC's rules to obtain WisVote data. Further, Counsel reports that CTCL "approved organizations" including the National Vote at Home Institute, were engaged in election administration duties. This delegation of duties led to Green Bay's former clerk Kris Teske testifying that election administration decisions were made "outside of the Clerk's office."

Chapter 5 – Corporate legal defense for clerks might violate the Wisconsin Ethics Code: Providing free legal defense services for election officials may violate WI State. 19.59 (1)(b). Counsel reports that the Center for Election Innovation and Research (CEIR), funded by Zuckerburg, provided these services to clerks.

Chapter 6 - Use of Absentee Ballot Drop Boxes violated the law: The procurement of drop boxes was facilitated by private funds provided to Wisconsin by the Center for Tech and Civic Life (CTCL). The Circuit Court ruled in *Teigen v. WEC* that the use of these boxes is not permitted under Wisconsin Law.

AMERICAN OVERSIGHT

Chapter 7 - Special Voting Deputies were unlawfully restricted from entering care facilities resulting in suspicious rates of voting: Counsel reports on facilities that saw voting rates of 100% of registered voters. Due to guardianship orders or incapacity, this turnout rate is unlikely. Counsel details several care facility residents who voted despite being deemed incompetent or incapable of voting.

Chapter 8 – WEC encouraged evasion of ballot security measures related to "Indefinitely Confined" Voters: The Indefinitely Confined statutes were misconstrued by Dane and Milwaukee County Clerks who issued statements that they would send ballots to voters who were indefinitely confined due to a fear of contracting COVID-19.

Chapter 9 - Incapacitated persons were allowed to vote unimpeded: WI Stat 6.03 disqualifies citizens from voting who are incapable of understanding the voting process. Wisconsin election officials did not list ineligibility information on WisVote, nor did they distribute a list of ineligible voters to clerks to prevent Election Day registration.

Chapter 10 - Non-citizens voted unimpeded by Election Officials: WI Stat 6.02 requires citizenship to be qualified as an elector. Election Officials did not list ineligibility information about non-citizens, nor did they distribute a list of ineligible voters to municipal clerks to prevent Election Day registration.

Chapter 11 - Zuckerburg 5 Election Officials violated the equal protection clause by not treating voters equally: Private funds were used to increase voting access for targeted demographic groups to affect election outcomes. In *Obama for America v Husted*, the court ruled that it would be "worrisome… if states were permitted to pick and choose among groups of similarly situated voters to dole out special voting privileges."

Chapter 12 of Special Counsel's report details a number of recommendations for legislative consideration. These include:

- **Eliminate the Wisconsin Elections Commission** – the Secretary of State could handle elections or a collective body of county clerks.
- **Eliminate or Reduce Fees for Voter Registration Data**
- **Maintain a Single Statewide Voter Registration Database, and Make it Publicly Available and Secure**
- **Create an Office to Engage in Audit and Oversight of Elections**
- **Prohibit Certain Contractual Terms in Government Contracts** – example: prohibit terms which block WI government entities from obtaining or releasing data that they paid for.
- **Minimize Pre-Voting** – widespread absentee and absentee in-person voting makes oversight nearly impossible. Instead, in-person voting should be prioritized.
- **Encourage In-House Tech Support –** consider a single statewide machine system or single-client vendor.
- **Exit the Electronic Registration Information Center (ERIC)**

Legislative Recommendations to Serve Political Accountability:

- **Provide a Method for Private Challenge to WI Voter Rolls**
- **Locate Certification of Presidential Electors in a Politically Accountable Body –** such as the association of elected county clerks.
- **Provide a Method for Pre and Post-Certification Challenge to Presidential Elections**

AMERICAN OVERSIGHT

- **Prohibit Outside Funding and Staff in Elections Administration**

Recommendations for the Wisconsin Elections Commission:

- **Comply with Legislative Audit Bureau Recommendations**
- **Enter Into Data-Sharing Agreement with the Wisconsin Department of Transportation, Health Services, and Corrections.**
- **Provide Additional Training to Clerks**

Recommendations for Clerks:

- **Familiarize Yourself with Your Wisconsin Code Authority –** many clerks believe WEC guidance is binding, even if they believe the guidance is unlawful.
- **Make Independent Assessments –** if they believe WEC guidance is contrary to law, clerks should make an independent assessment as they are the elected official responsible for elections administration.
- **Carefully Review Outside Contracts**
- **Explicitly Prohibit Staff from Engaging in Get Out the Vote Operations**
- **Consider Robust Voter Roll Review in Your Jurisdiction**
- **Maintain an Exhaustive and Clear List of Election Day Personnel**
- **Catalog All Absentee Ballots Sent Out and Returned**
- **Do Not Engage in Ballot Curing**

I watched Gableman's presentation makes me both sad and crazy. This must be fixed so going forward we do not have this fraud again .
I would love it if we were the first State to decertify the election. It was stolen. We did not vote the way our electors certified our State .
I have written my Senator Dan Feyen. He previously emailed me saying there was no fraud. Wonder how he feels now?
Thank you for the hearing and please push for voter integrity and certification.

Good evening, Wisconsin Legislature:

I make my comments to you Wisconsinites as a resident Wyomingite who was born in La Crosse, WI, and as a patriot who swore an oath to the United States Constitution back in 1982.

AMERICAN OVERSIGHT

History is calling on you to decertify the Wisconsin 2020 General Election because of the massive election fraud detailed to you in the attached "Office of Special Counsel Second Interim Investigative Report On the Apparatus & Procedures of the Wisconsin Elections System". The election fraud in the 2020 General Election in Wisconsin is the most blatant and unlawful of all the Swing States, and the easiest to prove in violation of Wisconsin State Laws.

You have a duty to your oath as described below to decertify the 2020 General Election because FRAUD VITIATES EVERTHING! You have the authority per the United States Constitution to decertify the 2020 General Election as described below. ELECTION CRIMES HAVE BEEN COMMITTED IN WISCONSIN, and as such, you have a duty to your oath to take action on these election crimes, and if you don't, then the voters can only ASSUME that you are part of a coverup of election fraud in the 2020 General Election. Election fraud destroys our Constitutional Republic because, WE THE PEOPLE, have had our election choices stolen from us, making it IMPOSSIBLE to provide consent for governing. If you don't stand against election fraud now, then it will only continue in the future and become worse, meaning that our officials are installed instead of being elected in a fair and honest manner.

You also need to investigate the obstruction by your AG and your Governor of this OSC Report.

God is watching what you do, so do the right thing and decertify the 2020 General Election NOW! The *RED WAVE* is coming in 2022 to vote out all RINOs who have failed to uphold their oath to their State Constitution and the United States Constitution in ensuring election integrity in their States.

https://docs.legis.wisconsin.gov/statutes/statutes/19/I/01/1

19.01 Oaths and bonds.
(1) Form of oath.Every official oath required byarticle IV, section 28, of the constitution or by any statute shall be in writing, subscribed and sworn to and except as provided otherwise by s.757.02andSCR 40.15, shall be in substantially the following form:
State of Wisconsin,
County of ....
I, the undersigned, who have been elected (or appointed) to the office of ...., but have not yet entered upon the duties thereof, swear (or affirm) that I will support the constitution of the United States and the constitution of the state of Wisconsin, and will faithfully discharge the duties of said office to the best of my ability. So help me God.
....,
Subscribed and sworn to before me this .... day of ...., ... (year) ....(Signature)....,

https://legis.wisconsin.gov/assembly/22/brandtjen/media/1552/osc-second-interim-report.pdf

Thus it is clear that the Wisconsin Legislature (acting without the concurrence of the Governor, see supra), could decertify the certified electors in the 2020 presidential election. Two steps would be required for it to do so. First, the Legislature would need a majority in both houses to pass a resolution concluding that the 2020 election was (a) held in violation of state law, as detailed in this Report (or other sources), in one or more respects; and (b) the degree of violation of state law in place on November 3, 2020 rose to the level that fraud or other illegality under Wisconsin law could have affected the outcome, using any evidentiary test for certainty the Legislature agreed should apply (for instance, a preponderance, etc.). And second, the Legislature would need to invoke and then exercise its plenary power to designate the slate of electors it thought

AMERICAN OVERSIGHT

best accorded with the outcome of the election, had it been run legally in accord with the state election laws in effect on November 3, 2020. This would lead to decertifying the relevant electors, if the Legislature concluded that they were not the slate of electors that best accorded with the election if run consistent with all relevant Wisconsin laws in effect on election day.

However, this action would not, on its own, have any other legal consequence under state or federal law. It would not, for example, change who the current President is.

Thanks for your help!

AMERICAN OVERSIGHT

Introduction

The Office of the Special Counsel files this Investigative Report on Wisconsin's administration of the 2020 elections as a first step to begin restoring faith in America's elections. This effort is undertaken because Americans' faith in its election system was shaken by events both before and after the November 2020 Presidential election. For example, a January 2022 ABC/Ipsos poll revealed that only 20% of the public is very confident about the integrity of our national election system. This 20% number is a significant drop from 37% from a similar ABC poll conducted one year earlier. America's doubts about its election system crosses partisan lines. Among Democrats, only 30% say they are "very confident" in the U.S. election systems overall. Among independents, only 20% consider themselves "very confident" in the nation's elections. Among Republicans, only 13% are "very confident" with America's elections.

This shaken faith is not a result of legitimate legislative inquiries into election administration, nor is it a result of lawful contests lodged by any candidate or party. Rather, it is largely a function of opaque, confusing, and often botched election processes that could have been corrected, and still can be corrected, with concerted effort on the part of lawmakers and conscientious civil servants who work for Wisconsin State government. Helping correct these processes for future elections is the major purpose of this Report.

On November 10, 2021, the Office of the Special Counsel (OSC) outlined the preliminary steps it had taken to undertake a fully comprehensive review of the 2020 elections in the State of Wisconsin. That document outlined the constitutional authority of the people of the State of Wisconsin, through their Legislature, to investigate their own

AMERICAN OVERSIGHT

government. That Interim Report also outlined the initial roadblocks to a full investigation, and expressed the expectation that the information necessary to provide democratic accountability for and oversight of Wisconsin election proceedings was forthcoming. As outlined in Appendix I, OSC and the Assembly continue to be blocked from investigating portions of the Wisconsin government. Not only has the Wisconsin Attorney General intervened (and lost) in court to block certain subpoenas, and not only have left-wing groups provided support adverse to Wisconsin taxpayers—for instance by providing legal support to government employees seeking to keep their work secret, filing dilatory open records requests, and advancing frivolous complaints before various boards—but the Administrator of the Wisconsin Elections Commission (WEC) has explicitly stated to the Chairwoman of the Assembly Committee on Campaigns and Elections that she is prohibited by law and by private contract from turning over certain public records. Until these lawsuits are resolved, there appears to be no way to fully vindicate the right of the people of the State of Wisconsin to know how their government is run. Such lawsuits have proved a costly and time-wasting exercise.

Nevertheless, the OSC has continued to investigate available records, interview witnesses, and make substantial headway on several issues contained in this report. Further, good work by citizens' groups has provided the Assembly and the OSC with useful leads on how best to cure various systemic problems in the State.

While WEC and the State Attorney General have refused to cooperate with the Legislature's investigation and actively obstructed it, this Report is final in the sense that

AMERICAN OVERSIGHT

it provides a list of recommendations with enough time for the Legislature to act before the close of its session in March. However, the Assembly continues to authorize the OSC to operate past the final adjudication, on the merits, of the various legal challenges to the valid legislative subpoenas we have issued. Following any favorable adjudication, the OSC will manage and process the voluminous responsive records, and will facilitate any available audits.

Despite this cover-up, or perhaps because of it, the OSC can still reach certain conclusions about the integrity of election administration in the State of Wisconsin, and we can still make baseline recommendations. While we cannot, for example, recommend certain server protocols because we have been unable to obtain government records detailing precisely what the numerous electronic systems entail (Wisconsin uses numerous machine and system vendors) or precisely how the existing systems were used in 2020, we do have information relating to how confusing and opaque the system is. It is beyond doubt that no single governmental person or entity in the State of Wisconsin has a handle on these systems—that is a damning indictment on its own. Elections systems must be readily understandable by voters and newly elected county clerks—confusing systems harm voter confidence and tend to facilitate fraud.

The facts contained in this report are substantiated by records the OSC has made available to the Assembly and other public information. To the extent that any of these facts are disputable, the OSC encourages any individual named in this Report, any subject

AMERICAN OVERSIGHT

of validly issued legislative subpoenas, or any other fact witness to make themselves available to the OSC for interview.

Accordingly, at this stage, the recommendations included in this Report largely fall within the umbrella of enabling oversight and transparency of our election systems. It draws no conclusions about specific, unauthorized outside interference or insider threats to machine voting, but it does provide numerous examples of security gaps that tend to enable bad actors to operate in the shadows. Absent access to these systems, it would not be unfair for any citizens to conclude the worst, however. It is a commonplace in the law for it to assume the worst about the nature and impact of hidden or destroyed evidence, and it is up to government to justify its actions to the people, not the other way around.

A few additional recommendations in this Report fall within the second umbrella—maintaining political accountability. While it is clear that the outside groups and the bureaucrats in Madison who run our elections have not been accountable to the voters or the state government, there are some measures that can help return our State to a functional democracy.

This Report has another purpose: to catalog the numerous questionable and unlawful actions of various actors in the 2020 election.

Some unlawful conduct and irregularities outlined in this Report include:

1. Election officials' use of absentee ballot drop boxes in violation of Wis. Stat. § 6.87(4)(b)1 and § 6.855;

2. The Center for Tech and Civic Life's $8,800,000 Zuckerberg Plan Grants being run in the Cities of Milwaukee, Madison, Racine,

AMERICAN OVERSIGHT

Kenosha and Green Bay constituting Election Bribery Under Wis. Stat. § 12.11;

3. WEC's failing to maintain a sufficiently accurate WisVote voter database, as determined by the Legislative Audit Bureau;

4. The Cities of Milwaukee, Madison, Racine, Kenosha and Green Bay engaging private companies in election administration in unprecedented ways, including tolerating unauthorized users and unauthorized uses of WisVote private voter data under Wisconsin Elections Commission (WEC) policies, such as sharing voter data for free that would have cost the public $12,500;

5. As the Racine County Sheriff's Office has concluded, WEC unlawfully directed the municipal clerks not to send out the legally required special voting deputies to nursing homes, resulting in many nursing homes' registered residents voting at 100% rates and many ineligible residents voting, despite a guardianship order or incapacity;

6. Unlawful voting by wards-under-guardianship left unchecked by Wisconsin election officials, where WEC failed to record that information in the State's WisVote voter database, despite its availability through the circuit courts—all in violation of the federal Help America Vote Act.

7. WEC's failure to record non-citizens in the WisVote voter database, thereby permitting non-citizens to vote, even though Wisconsin law requires citizenship to vote—all in violation of the Help America Vote Act. Unlawful voting by non-citizens left unchecked by Wisconsin election officials, with WEC failing to record that information in the State's WisVote voter database; and

8. Wisconsin election officials' and WEC's violation of Federal and Wisconsin Equal Protection Clauses by failing to treat all voters the same in the same election.

It is important to state what this Report is not. This Report is not intended to re-analyze the re-count that occurred in late 2020. And the purpose of this Report is not to challenge certification of the Presidential election, though in Appendix II we do sketch how that might be done. Any decisions in that vein must be made by the elected

AMERICAN OVERSIGHT

representatives of the people, that is, the Wisconsin Legislature. Yet it is clear that Wisconsin election officials' unlawful conduct in the 2020 Presidential election casts grave doubt on Wisconsin's 2020 Presidential election certification. This Report thus does surface very big questions: how should Presidential election certification occur in Wisconsin going forward and would the Legislature have any remedies to decertify if it wanted to do so?

In 2020 in Wisconsin, the certification of its Presidential election spanned two steps and to a large extent operated in a legal vacuum. *First*, on November 30, 2020, Wisconsin Elections Commission (WEC) Chairperson Ann Jacobs, on her own and without a full Commission vote, signed the "determination of the recount and the presidential contest." This unilateral action led one of the sidelined Commissioners to call for Jacobs' resignation. *Second*, a few hours later, Governor Tony Evers certified the results of the state's November 3 election by signing the Certificate of Ascertainment that approved the slate of electors for President-elect Joe Biden and Vice President-elect Kamala Harris.

Neither the WEC Chairperson nor the Governor had an incentive to proceed with greater deliberation and address the serious concerns of citizens and other Commissioners. This is a serious gap in the legal structure governing elections that should be corrected as far in advance of the 2024 presidential election as possible. In the meantime, many of the doubts relating to large categories of ballots are continuing to be both broadened and deepened. Recently, a Wisconsin court invalidated the use of drop boxes. Additionally,

AMERICAN OVERSIGHT

this Report flags systematic problems with voting in elder care facilities, an issue that was also recently blown wide open by the Racine County Sheriff.

There are other issues outlined in this Report, many of which could justify post-election administrative correction by WEC under Wis. Stat. § 5.06, which authorizes exactly such a post-certification process to correct mistakes made by election officials. Administrative corrections under Wis. Stat. § 5.06 would flush out election officials' unlawful conduct. Such a post-certification administrative correction will not de-certify the election on a self-executing basis, but these challenges, which can be filed by any voter in an election (or by district attorneys or the Attorney General of the State), are a worthwhile step to take. However, as noted, these complaints are directed *to* WEC. But complaints *about* WEC cannot fairly be adjudicated by this body—another legal gap.

It is the duty of all citizens of our State and our nation to work hard to secure our democracy for this generation and the next. This Report is one small step towards fulfilling that duty we all share. And without the tireless work of concerned citizens, and dedicated public servants such as the Sheriff of Racine County, much of what is made public in this Report would not have been exposed to the light. In our own way, we can each do our part, whether by voting, or by volunteering, or by leading campaigns to improve the integrity of our elections. The true story of the 2020 elections in Wisconsin might never be fully known—as noted, the constitutional duty of the Legislature is still imperiled in the state courts—but the recommendations in this Report constitute a good beginning.

AMERICAN OVERSIGHT

Statement of Progress

The Special Counsel has been maintaining an active investigation and continuing to fight for the Legislature's right to conduct an election-integrity investigation. Since the first Interim report, the Special Counsel has issued 76 new subpoenas. This brings the total subpoenas issued by the OSC to 90. These subpoenas were served upon entities named in this report, including Dominion Voting Systems, Inc., Electronic System and Software, LLC (ESS), Quickbase, Inc., USDR, CTCL, NVAHI, The Elections Group, and others.

The subpoenas were also served upon or sent to some of the persons who had the most information about the role of private companies and individuals in Wisconsin's election. This included Michael Spitzer Rubenstein, Tiana Epps-Johnson, Ari Steinberg, and Harrison Hersch. Finally, the subpoenas were served on local persons such as Hannah Bubacz, a Milwaukee city employee, and Sarah Linske, an IT employee for WEC.

To the extent that individuals responded to subpoena, it was to produce documents. Some recipients, including the major private companies and individuals, did not comply at all. They either informed the OSC that they would not comply with the subpoena or attend the depositions or embroiled the OSC in litigation. As of the writing of this Report, the litigation surrounding the investigation of the 2020 election has been pervasive and time-consuming.

The Special Counsel has been sued three different times in three different cases in Dane County Circuit Court. The OSC has defended against a lawsuit brought by the Wisconsin Attorney General in which he asked the court to declare that the OSC did not have the authority to conduct the investigation. Two additional lawsuits related to open

AMERICAN OVERSIGHT

records requests to the OSC were filed by organizations supported by Democrat-backed labor unions.

In Waukesha County, the OSC filed a petition to enforce the legislative subpoenas. Initially, the lawsuit included only four defendants. Six additional defendants were later added, bringing the total to ten. Two attorneys from the OSC are assigned to that case and briefing is underway. Prosecuting the enforcement action detracts from the OSC's ability to conduct and complete its investigation.

The OSC did receive a large quantity of documents from the Zuckerberg 5. Those documents were electronic in form. The process of organizing and reviewing them has required a significant expenditure of time and resources, and that will continue to be the case as OSC receives additional documents.

The OSC launched a major investigation into nursing home abuse. Attorneys and investigators were dispatched to multiple nursing homes across the State. They identified and met with multiple residents who voted, despite the fact they were clearly incapable of voting and/ or not legally permitted to vote because of a guardianship order. The OSC representatives made detailed notes and videos of these residents for evidentiary purposes.

The Special Counsel intended to use a professional statistician in the nursing home setting. Using a controlled environment, the OSC could take a detailed sampling of nursing home abuse and voting irregularities to determine, statewide, the number of improperly cast ballots in residential care facilities. The OSC was not able to complete this task by the time this Report was due. Instead, the personnel conducting the nursing home investigation were also repurposed to assist in the drafting of this Report.

AMERICAN OVERSIGHT

The OSC received information that an entity had cellphone pinging data related to the City of Milwaukee and its absentee ballot drop boxes. As of the time of this Report, the OSC has not been able to run to ground all the issues relating to obtaining this data.

The OSC consulted with multiple computer security experts regarding voting machines. Two major machine manufacturers were identified in Wisconsin, Dominion Voting and ESS. The OSC viewed extensive reporting about the integrity of the machines. The OSC learned that some Dominion machines are extremely vulnerable to hacking and manipulation. These specific machines can be manipulated to alter actual votes cast—either surreptitiously or by the machine technicians.

The Special Counsel reviewed extensive reporting of a Dominion machine failure event in another State. The OSC was able to identify, through the reports of experts, that the failed machine recorded two anonymous and unauthorized access events from its VPN. This means, contrary to what Dominion has publicly stated, that at least some machines had access to the internet on election night. Shortly after the unauthorized access was recorded, the machine failed and was reset, wiping all voting history and forcing that election administrator to rely on unverifiable paper printouts from the failed machine.

ESS machines were equally problematic. The central problem is that several of the machines are made with a 4G wireless modem installed, enabling them to connect to the internet through a Wi-Fi hotspot. One municipality under investigation in Wisconsin by the OSC admitted that these machines had these modems and were connected to the internet on election night. The reason given was to "transmit data" about votes to the county clerks.

AMERICAN OVERSIGHT

The OSC learned that all machines in Green Bay were ESS machines and were connected to a secret, hidden Wi-Fi access point at the Grand Hyatt hotel, which was the location used by the City of Green Bay on the day of the 2020 Presidential election. The OSC discovered the Wi-Fi, machines, and ballots were controlled by a single individual who was not a government employee but an agent of a special interest group operating in Wisconsin.

The OSC began a comprehensive investigation of voting machines in Wisconsin. As part of that investigation, subpoenas were sent to Dominion, ESS, and Command Central, LLC, a Dominion reseller and servicer. The information sought included information about who, when, where, and what updates the machines were provided. The OSC learned that one machine company representative stated that the voting machines were "wiped" during updates, meaning they did not retain federally required voter data.

It was discovered that Command Central, LLC, received images of cast ballots on election night using the internet. Command Central is alleged to be holding actual ballots cast on election night at its offices in Minnesota in violation of Wisconsin law. The OSC was not able to complete this portion of its investigation, however.

As of the date of this Report, the voting machine companies have refused to comply with the OSC's legislative subpoenas, and have provided no data. The OSC considers this investigation incomplete but ongoing.

The OSC also sought information about the machines in Wisconsin used on election night from the clerks. The clerks either did not possess the data sought by the OSC or refused to provide it, with Green Bay and Madison insinuating that providing secure voting machine data to the OSC would somehow compromise election integrity. In other words,

AMERICAN OVERSIGHT

these cities claim that it is impossible to verify the integrity of the voting machines because doing that would jeopardize the integrity of both the machines and future elections. The Special Counsel intends to resolve this issue as the investigation moves forward.

The OSC's investigation discovered the use of a ballot tracking and harvesting application in Wisconsin. An extensive amount of time and effort went into this portion of the investigation. The OSC became attuned to the possibility of an application when reviewing email exchanges between the Zuckerberg 5 and third parties. This involved tracking applications in Georgia and Pennsylvania.

The OSC discovered ballot tracking programs in both Georgia and Pennsylvania. The OSC was able to locate and identify the developer of both programs in those States. The OSC obtained the source code for the Pennsylvania application. Ultimately, that data and source code would not prove to be helpful to discovering information about the Wisconsin application.

However, the OSC still located the Wisconsin application and its developers. In the course of that investigation, the OSC documented multiple misrepresentations of material facts by WEC administrator Meagan Wolfe. For example, Ms. Wolfe told the Assembly Committee on Campaigns and Elections both that she did not know about the CTCL grants and that cities did not have access to statewide WisVote or BadgerBooks data. Both of these statements are demonstrably untrue.

Ms. Wolfe also told the Commission that there was no API (Application Programming Interface that allows direct access) into the WisVote or BadgerBooks system. Yet cities have provided information that they *do* have access to statewide WisVote and BadgerBooks data. At least one city apparently provided an API to the WisVote and

AMERICAN OVERSIGHT

BadgerBooks systems, which provided real time, free information to special interest groups who used that information for selective, racially-targeted get-out-the-vote purposes under the contracts. That application may still have an active API and may remain viable, so that it might be used by the private groups in future elections.

Moving forward, the OSC will continue working to obtain answers to the important questions raised by these findings. The tasks remaining include:

1. Vindicating the legislature's subpoena and investigative authority through ongoing litigation;
2. Compelling witnesses (individual or institutional) with crucial information about Wisconsin elections to provide testimony. This includes Meagan Wolfe, Ann Jacobs, Michael Spitzer Rubenstein, Tiana Epps-Johnson, Trina Zanow, Sarah Linske, Hannah Bubacz, Harrison Hersch, Dominion, ESS, and the Zuckerberg 5 through ongoing litigation.
3. Determining the identities of any groups or individuals engaged in ballot harvesting in Wisconsin;
4. Verifying the integrity of Wisconsin's voting machines;
5. Identifying additional votes cast unlawfully as a consequence of WEC's directives to clerks regarding SVDs;
6. Providing additional reporting as necessary, possibly including a more robust roadmap to the outside groups and leadership that interfered with the administration of past Wisconsin elections.

Chapter 1

The Center for Tech and Civic Life's $8,800,000 Zuckerberg Plan Grant with the Cities of Milwaukee, Madison, Racine, Kenosha and Green Bay (the Zuckerberg 5) Facially Violates Wisconsin Law Prohibiting Election Bribery.

The Cities of Milwaukee, Madison, Racine, Kenosha and Green Bay entered into an agreement with Center for Tech and Civic Life (CTCL). In the agreement, the Cities took CTCL's money to facilitate in-person and absentee voting within their respective city. The agreement documents included the Wisconsin Safe Voting Plan (WSVP), the CTCL worksheets and the CTCL acceptance letters, which were conditioned on the Cities spending CTCL's transferred money in accordance with the WSVP. These documents are in the accompanying appendix: App. 7-27 (WSVP); App. 513-519, (CTCL worksheet blank form), 520-537 (Green Bay worksheet), 538-551 (Kenosha worksheet), 552-563 (Madison worksheet), 564-575 (Milwaukee worksheet), 576-587 (Racine worksheet); 588-601 (CTCL grant application acceptance letters for Milwaukee, Madison, Kenosha, Green Bay and Racine).

Any Agreement Where a City's Election Officials Receive CTCL or Other's Private Money to Facilitate In-Person and Absentee Voting Within a City Facially Violates Wis. Stat. § 12.11's Prohibition on Election Bribery Under Wis. Stat. § 12.11.

The CTCL agreement facially violates the election bribery prohibition of Wis. Stat. § 12.11 because the participating cities and public officials received private money to facilitate in-person or absentee voting within such a city. Any similar agreements in the 2022 and 2024 election cycle would also be prohibited election bribery.

AMERICAN OVERSIGHT

Wis. Stat. § 12.11, in relevant part, prohibits a city from receiving money to facilitate electors going to the polls or to facilitate electors to voting by absentee ballot:

> Election bribery
>
> (1) In this section, "anything of value" includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1…
>
> (1m) Any person who does any of the following violates this chapter:
>
> 1. Offers, gives, lends or promises to give or lend, or endeavors to procure, anything of value, or any office or employment or any privilege or immunity to, or for, any elector, or *to or for any other person, in order to induce any elector to*:
>
> 1. *Go to … the polls.*
>
> 2. *Vote*….

Wis. Stat. § 12.11 (emphasis added). Although the word "person" is not defined in section 12.11, it is defined elsewhere to include "bodies politic," which also includes municipalities. *See* Wis. Stat. § 990.01(26). Although the word "induce" is not defined in Wis. Stat. § 12.11, it is commonly defined to mean "to call forth or bring about by influence or stimulation."

Wis. Stat. § 12.11 requires three elements for a municipality or its officials to engage in "election bribery:" (1) the definition of "anything of value" must be met; (2) the thing of value must be received by a municipality or its election officials; and (3) the municipality must receive the thing of value in order to facilitate electors going to the polls or voting by absentee ballot. With respect to the first element, Wis. Stat. § 12.11 defines "anything of value" to mean "any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1." To

AMERICAN OVERSIGHT

meet the second element, Wis. Stat. § 12.11 requires that the item of value be received by a municipality. Finally, the city must receive the item of value in order to facilitate electors to go to the polls or in order to facilitate electors to vote.

1. Conception of the Election Bribery Scheme

The record created by public document requests shows that CTCL, a private company headquartered in Chicago[3], engaged in an election bribery scheme. CTCL reached out to the City of Racine to allow CTCL to provide grant money to certain handpicked cities in Wisconsin to facilitate increased in-person and absentee voting in the cities. App. 402. This first grant of $100,000 was to be split among the five largest cities in Wisconsin at $10,000 per city, plus an extra $50,000 to Racine for organizing the five cities. App. 402. This first grant required the mayors of the five largest cities in Wisconsin and their respective staffs to complete CTCL election administration forms, including goals and plans to facilitate increased in-person and absentee voting in their respective cities and "communities of color" and develop a joint plan for elections only in these cities and not statewide. App. 297.

Christie Baumel (a City of Madison employee) wrote on June 9, 2020, regarding CTCL and "Election Cost Grant:"

> My understanding is that this is a small planning grant that Racine received from the Center for Tech & Civic Life to produce, by June 15th, a proposal for safe and secure election administration, according to the **needs identified by the five largest municipalities**. In other words, this information informs the Center for Tech & Civic Life in their consideration of where and how to support complete, safe, secure [sic] elections in Wisconsin.

App. 603 (emphasis added.)

AMERICAN OVERSIGHT

As part of the election bribery scheme, CTCL was reaching out to the five largest cities in Wisconsin, and CTCL wanted information from those cities in determining how to provide money to those cities to facilitate increased in-person and absentee voting. *Id.* This program and the larger amount of grant money was not available to any cities or counties in Wisconsin other than the five largest cities. These five cities began to identify themselves and to be identified by CTCL as the "Zuckerberg 5," including a letterhead with the five cities' seals.[4] App. 7, 141-143. Whitney May, Director of Government Services at CTCL, wrote to representatives of the other Zuckerberg 5 cities on August 18, 2020, stating, "You are the famous WI-5 … excited to see November be an even bigger success for you and your teams." *Id.*; App. 375-376.

The attempt of CTCL to target the five largest cities in Wisconsin for election support to facilitate increased in-person and absentee voting had been ongoing since early 2020, as indicated in emails and invitations from Vicky Selkowe, a Racine employee who opposed Trump and those that voted for him,[5] to Kenosha, Madison, Milwaukee, and Green Bay mayors, and a few other city officials from the Zuckerberg 5. App. 331-349; 392-401; 481-487. Only those four cities plus Racine were invited to "[a]pply for a COVID-19 grant" from CTCL and to thus be in on the "plan" to accept CTCL's private money to facilitate increased in-person and absentee voting in the 2020 election. App. 603-604.

The CTCL Agreement required the Zuckerberg 5 Mayors and their respective staffs to develop a joint plan for the Zuckerberg 5's elections pursuant to the agreement by June 15, 2020:

> The City of Racine, and any cities granted funds under paragraph 4, shall produce, by June 15th, 2020, a plan for a safe and secure election

AMERICAN OVERSIGHT

> administration in each such city in 2020, including election administration needs, budget estimates for such assessment, and an assessment of the impact of the plan on voters.

App. 2. The carrot for the Zuckerberg 5 to provide this information for CTCL was to get part of a $100,000 grant. Once the Zuckerberg 5 expressed interest in receiving the $10,000 grants from CTCL, they quickly provided information to Ms. Selkowe and CTCL on CTCL's form so they could develop a "comprehensive plan" for election administration for their "national funding partner, the Center for Tech & Civic Life" by June 15, 2020. App. 604 (emphasis added).

Following the expected "Council approval" on June 2, Ms. Selkowe of Racine sought to "immediately" connect with "municipal clerks and other relevant staff" to "swiftly gather information about" the cities' "election administration needs." App. 604. Ms. Selkowe obtained the information from the Zuckerberg 5 through the five completed CTCL forms, then either Racine or CTCL used that information to prepare the WSVP, as requested by CTCL. App. 513-519, (CTCL blank form), 520-537 (Green Bay), 538-551 (Kenosha), 552-563 (Madison), 564-575 (Milwaukee), 576-587 (Racine). Ms. Selkowe made clear that she was the point person for communicating with the different city staffs to gather information to prepare this plan. *Id.* at 604.

2. The First Contract Between CTCL and the Zuckerberg 5

On about May 28, 2020, the Racine Common Council approved, and signed, the CTCL conditional grant in the amount of $100,000 to recruit and later coordinate with the Zuckerberg 5 to join the WSVP 2020 submitted to CTCL on June 15, 2020. App. 325-349, 402-405. The grant and distribution to the Zuckerberg 5 was not random, rather it was the

AMERICAN OVERSIGHT

intentional culmination of meetings or virtual meetings on May 16, 2020, June 13, 2020, and August 14, 2020. *Id.* These meetings were also secretive. The mayors and their staff were invited to the meeting. However, neither the Common Council members nor the public were informed that the meetings were even set to occur. *Id.* The Common Council members of Racine were later asked to vote only to approve what was decided at the secret meetings. App. 486-487.

It is not believed that the Common Councils of the other four cities of the Zuckerberg 5 were asked to vote on the $100,000 grant, except perhaps long after they had already received the money and committed to accepting the larger grant and its conditions. *Id.* For example, the City of Madison received the $10,000 even though on July 13, 2020, Maribeth Witzel-Behl, the Madison City Clerk, wrote that "Common Council has yet to accept the $10,000" from CTCL. App. 605-606.

The grant approved by the Racine Common Council stated, "[t]he grant funds must be used exclusively for the public purpose of planning safe and secure election administration in the City of Racine in 2020 and coordinating such planning." App. 404. Thus, the consideration for the Zuckerberg 5 to receive the first, small grant, was that they provide information for CTCL to use in preparing the WSVP for the large grant. *Id.*

3. The WSVP and CTCL's Grant Acceptance Letter Incorporating the WSVP Is the Agreement Where the City Agreed to Take CTCL's Private Money to Facilitate Increased In-Person Voting and to Facilitate Absentee Voting.

The WSVP and CTCL's grant acceptance letter incorporating the WSVP is the agreement in which the City agreed to take CTCL's private money to facilitate increased

AMERICAN OVERSIGHT

in-person voting and to facilitate absentee voting. The WSVP was developed ostensibly "in the midst of the COVID-19 Pandemic" to ensure voting could be "done in accordance with prevailing public health requirements" to "reduce the risk of exposure to coronavirus." Further, it was intended to assist with "a scramble to procure enough PPE to keep polling locations clean and disinfected." App. 7-27.

However, another election purpose existed as evidenced by the documents obtained by the Special Counsel. That other election purpose was to fuse together the CTCL, their allied private corporations, the Zuckerberg 5, and $8.8 million of private funding into joint operations in that group of cities, where the focus would be on facilitating increased in-person and absentee voting, particularly in their "communities of color." *See, e.g., App.* 7-27 (WSVP). From the beginning, the purpose of the WSVP contract and its private funding was for the Zuckerberg 5 to use CTCL's private money to facilitate greater in-person voting and greater absentee voting, particularly in targeted neighborhoods.

4. Having Agreed to the Initial $10,000 Per City Grants (Plus $50,000 Extra for Racine), the Zuckerberg 5 Entered New Grant Agreements for Larger Grants Which Included CTCL's "Conditions" and Performance Requirements Under WSVP.

On or about July 6, 2020, Ms. Selkowe announced that the WSVP had been fully approved for funding by the Center for Tech & Civic Life; the initial $10,000 grant was just the first step for the Zuckerberg 5 to get an even larger grant from CTCL. *See, e.g.,* App. 1-27. Also, on July 6, Tiana Epps-Johnson of CTCL emailed Ms. Selkowe stating CTCL intends to fund each of the Zuckerberg 5 with far larger sums of money: Green Bay—$1,093,400; Kenosha—$862,779; Madison—$1,271,788; Milwaukee—

AMERICAN OVERSIGHT

$2,154,500; and Racine—$942,100. App. 11. This brought the total grants to the Zuckerberg 5 to $6,324,567.00. *Id.* Each of the Zuckerberg 5, expressly or impliedly, accepted the large grant money. For example, sometime in July 2020 the City of Madison accepted $1,271,788 by vote of Common Council. App. 605.

Concurrently with CTCL's plans to provide the Zuckerberg 5 with $6,324,567.00 in grant money, CTCL agents began to inform the Zuckerberg 5 of the conditions and the consideration for that grant money. App. 588-601. In other words, the grants were not for purely altruistic purposes as "strings" were clearly attached. On July 10, 2020, Ms. Selkowe started contacting each of the Zuckerberg 5 to let them know Tiana Epps-Johnson would contact them to start introducing the Zuckerberg 5 to CTCL's "partners." App. 463-464. "Tiana and her team have arranged for extensive expert technical assistance from fantastic and knowledgeable partners across the country, to help each City implement our parts of the Plan." *Id.* Tiana will send a "draft grant agreement" for the city's review and "approval on Monday." *Id.* It was assumed that each City would vote to accept the money, and the terms of the agreement were not important. *Id.*

On July 10, 2020, Ms. Selkowe sent an email to Celestine Jeffreys and copied Tiana Epps-Johnson, stating that Green Bay should work with CTCL, along with several of the other largest Wisconsin cities, to "implement our parts of the Plan," and to allow the City of Green Bay to "understand the resources she's [Tiana Epps-Johnson of CTCL] bringing to each of our Cities [the "cities" of Milwaukee, Racine, Madison, Kenosha and hopefully Green Bay] to successfully and quickly implement the components of our Plan." App. 261-262. By approximately July 24, 2020, each of the Zuckerberg 5 had agreed to contracts with CTCL, along with the conditions, rules, and regulations CTCL attached to the grants.

AMERICAN OVERSIGHT

App. 32-33 (Green Bay), 3-5 (Racine), 371-373 (Kenosha), 392-401 (Milwaukee), 406-410 (Madison).

5. The Grant Agreements and the WSVP Between CTCL and the Zuckerberg 5 Contain Conditions Regarding the City Facilitating Increased In-Person and Absentee Voting.

In addition to being informed that the Zuckerberg 5 should work with CTCL's "partners," the grant agreement contained express conditions that each of the Zuckerberg 5 had to follow in order to receive and keep the grant funds. *Id.* The grant agreement incorporated the WSVP and its provisions:

> The grant funds must be used exclusively for the public purpose of planning and operationalizing safe and secure election administration in the City of _____ in accordance with the Wisconsin Safe Voting Plan 2020.

Id. The consideration for the second contract heavily implied that the Zuckerberg 5 were to use CTCL's "partners" for election administration. By the time the second contracts and grants came to be issued, the Zuckerberg 5 were deeply embedded in election administration, especially in Green Bay and Milwaukee. Michael Spitzer Rubenstein was listed as a "CTCL grant mentor" who was directing election administration in Green Bay. The contracts for the Zuckerberg 5 required the cities to report to CTCL its spending, not make changes to their spending, or pay the grant money back to CTCL. *Id.*

Specifically, the conditions in the second contract included:

a. The grant funds must be used exclusively for the public purpose of planning and operationalizing safe and secure election administration in the City of _____ in accordance with the Wisconsin Safe Voting Plan 2020.

b. Requiring each city or county receiving the funds to report back to CTCL by January 31, 2021 regarding the moneys used to conduct federal elections;

AMERICAN OVERSIGHT

c. The City of _____shall not reduce or otherwise modify planned municipal spending on 2020 elections, including the budget of the City Clerk of _____ ('the Clerk') or fail to appropriate or provide previously budgeted funds to the Clerk for the term of this grant. Any amount reduced or not provided in contravention of this paragraph shall be repaid to CTCL up to the total amount of this grant.

d. The City of _____ shall not use any part of this grant to give a grant to another organization unless CTCL agrees to the specific sub-recipient in advance, in writing.

App. 588-589 (Milwaukee), 591-592 (Madison), 595-596 (Kenosha), 598-599 (Green Bay), 3-4 (Racine). CTCL provided a grant tracking form to the Zuckerberg 5 to keep track of their expenditures, which they would later have to report to CTCL. App. 609.

Thus, the text of the grant document provides the conditions clearly: the grant funds had to be used for "planning and operationalizing … election administration." App. 3-4, 588-589, 591-592, 595-596, 598-599. The Zuckerberg 5 had to "report back to CTCL by January 31, 2021" regarding the moneys they used. Any moneys used "in contravention" of the grant agreement would have to be "repaid to CTCL" up to the whole amount of the grant. *Id.* The Zuckerberg 5 were not allowed to pay any part of the grant money to another organization "unless CTCL agrees … in advance, in writing." *Id.*

The Zuckerberg 5 have admitted that these were "conditions" and that generally the money from CTCL was "conditional." To underscore the conditions on the grant money, on July 24, 2020, Dennis Granadas of CTCL wrote Celestine Jeffreys of Green Bay:

> Please find attached the revised grant agreement for review and signature. Please note that we made a few edits to clean up language, but this did not change the substance of the agreement, unless an update was requested. If you have any concerns please let me know. In addition, we also updated Section 7 for clarity to the following (changes highlighted in bold): "**The City of Green Bay shall not reduce** or otherwise modify planned municipal spending on 2020 elections, including the budget of the City Clerk of Green

AMERICAN OVERSIGHT

> Bay ('the Clerk') or fail to appropriate or provide previously budgeted funds to the Clerk for the term of this grant. Any amount reduced or not provided in contravention of this paragraph shall be repaid to CTCL up to the total amount of this grant." I look forward to receiving the signed agreement. Please let me know if you have any questions/concerns. Have a great weekend.

App. 611 (emphasis added).

These provisions requiring repayment of the grant moneys are referred to as "claw-back" provisions and require the Zuckerberg 5 to return the moneys to CTCL, if CTCL disagreed with how the Zuckerberg 5 spent the money and conducted their 2020 elections. App. 4, 589, 592, 596, 599. After the election in November 2020, CTCL demanded that the Zuckerberg 5 submit forms to CTCL to prove they complied with the grant conditions by January 31, 2021. App. 609. These conditions, including the WSVP provisions to facilitate increased in-person and absentee voting in each participating city, were not merely "boilerplate" provisions. Instead, CTCL intended to, and did, enforce its contractual requirements on the Zuckerberg 5. *Id.*

6. The Grant Agreements and the WSVP Between CTCL and the Zuckerberg 5 Contain Conditions Requiring Participant Cities to Place CTCL-Funded Absentee Ballot Drop Boxes in Targeted Neighborhoods, Even Though Absentee Ballot Drop Boxes Are Unlawful in Wisconsin.

The WSVP and CTCL's grant acceptance letter incorporated the agreement where the cities agreed to take CTCL's private money to purchase and place absentee drop boxes in targeted neighborhoods. App. 10, 16-17. The WSVP provided Green Bay $50,000, Kenosha $40,000, Madison $50,000, Milwaukee $58,500, and Racine $18,000 for absentee ballot drop boxes. App. 17. The WSVP provided at total of $216,500 for absentee ballot drop boxes in the Zuckerberg 5. App. 17. The use of absentee ballot drop boxes, outside

AMERICAN OVERSIGHT

of narrow exceptions, has been successfully challenged as being a violation of Wisconsin law.

In a case in the Wisconsin Circuit Court for Waukesha County, the plaintiffs sued the WEC to challenge 2020 guidance memos that the WEC issued to municipal clerks. Complaint, *Teigen v. Wisconsin Elections Commission*, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. June 28, 2021) (under review by the Wisconsin Supreme Court), available at App. 649-660. In particular, the plaintiffs challenged a memorandum that purported to authorize unstaffed ballot drop boxes:

> Despite this requirement in the statutes [i.e., the requirement that an absentee ballot either be returned by mail or be returned by the voter "in person, to the municipal clerk." Wis. Stat. § 6.87(4)(b)1], WEC Commissioners sent a memo to municipal clerks dated August 19, 2020, (the "August 2020 WEC Memo") stating that absentee ballots do not need to be mailed by the voter or delivered by the voter, in person, to the municipal clerk but instead could be dropped into a drop box *and that the ballot drop boxes could be unstaffed*, temporary, or permanent. (A true and correct copy of the August 2020 WEC Memo is attached hereto as Exhibit B.)

Id. ¶ 10, available at App. 651 (emphasis added).

The Waukesha County Circuit Court granted summary judgment to the plaintiffs and declared the use of ballot drop boxes, outside of narrow exceptions, to be inconsistent with Wisconsin law:

> For the reasons set forth by the Court on the record at the January 13, 2022 hearing, the Court hereby declares that WEC's interpretation of state statutes in the Memos is inconsistent with state law, to the extent they conflict with the following: (1) an elector must personally mail or deliver his or her own absentee ballot, except where the law explicitly authorizes an agent to act on an elector's behalf, (2) the only lawful methods for casting an absentee ballot pursuant to Wis. Stat. § 6.87(4)(b)1. are for the elector to place the envelope containing the ballot in the mail or for the elector to deliver the ballot in person to the municipal clerk, (3) *the use of drop boxes, as described in the Memos, is not permitted under Wisconsin law unless the drop box is staffed*

AMERICAN OVERSIGHT

by the clerk and located at the office of the clerk or a properly designated alternate site under Wis. Stat. § 6.855.

Order Granting Summary Judgment for Plaintiffs, *Teigen v. Wisconsin Elections Commission*, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. January 20, 2020), available at App. 66 (emphasis added). The Zuckerberg 5's privately funded absentee ballot drop boxes in the 2020 election were legally unauthorized under Wisconsin law. This makes the Zuckerberg 5 and CTCL's agreement for CTCL-funded purchase and placement of absentee ballot drop boxes a void contract provision as against state law and public policy.

7. Other Entities Have Reported About CTCL's Selective Funding to the Zuckerberg 5.

It is important to note that two non-profit corporations have analyzed the Zuckerberg 5's acceptance and use of the CTCL moneys and published analytical reports in 2021. App. 488-512. Both reports are consistent with our conclusions here. *Id. First*, the Wisconsin Institute for Law & Liberty (WILL) in a June 9, 2021, report titled "Finger on the Scale: Examining Private Funding of Elections in Wisconsin." That report had the following "key takeaways:"

1. WILL received records from 196 communities that received a total $10.3 million in funding from CTCL. These grants ranged from a high of $3.4 million for the City of Milwaukee to $2,212 for the Town of Mountain in Oconto County.

2. The largest five cities in the state (Milwaukee, Madison, Green Bay, Kenosha, and Racine) received nearly 86% of all CTCL grant funds in Wisconsin.

3. While most small towns used CTCL resources for voting equipment

AMERICAN OVERSIGHT

and COVID-related equipment, Milwaukee, Green Bay, and Madison spent close to or above $100,000 on ostensibly "non-partisan" voter education efforts.

4. Areas of the state that received grants saw statistically significant increases in turnout for Democrats. Increases in turnout were not seen for Donald Trump.

5. This WILL report highlights the inequitable distribution of private resources that came into the state during the 2020 election. Reforms that are designed to ensure that any grant money is distributed in a per capita manner across the state will go a long way in increasing faith that our elections are being conducted in an open and honest manner.

App. 491.

The WILL report also calculated the CTCL funding per 2016 voter in Wisconsin's ten largest cities. It showed a huge amount of CTCL funding went to the Zuckerberg 5 per voter and in total showed only a small amount of CTCL funding went to the Wisconsin cities which were not among the Zuckerberg 5:

Municipality	CTCL Funding Per 2016 Voter	Total CTCL Grant Amount
Milwaukee*	$13.82	$3,409,500
Madison*	$8.30	$1,271,788
Green Bay*	$36.00	$1,600,000
Kenosha*	$20.94	$862,799
Racine*	$53.41	$1,699,100
Appleton	$0.51	$18,330
Waukesha	$1.18	$42,100

AMERICAN OVERSIGHT

Eau Claire	$2.01	$71,000
Oshkosh	$0.00	$0.00
Janesville	$6.11	$183,292

App. 500 (" * " denotes a Zuckerberg 5 City).

Notably, the WILL Report concluded that the CTCL funding affected Wisconsin's 2020 election outcomes in favor of candidate Biden over then-President Trump by at least 8,000 votes:

> For candidate Biden there was a statistically significant increase in turnout in cities that received CTCL grants. In those cities, candidate Biden received approximately 41 more votes on average. While the coefficient was also positive for then-President Trump, it did not reach traditional levels of statistical significance. This means that we cannot say that turnout for Republicans in CTCL receiving areas swas any different than it would have been without the grants. Given the number of municipalities in the state that received grants, this is a potential electoral impact of more than 8,000 votes in the direction of candidate Biden.

App. 503.

Second, the Foundation for Government Accountability (FGA) in a June 14, 2021 report titled "How Zuckerbucks Infiltrated the Wisconsin Election" made five key findings:

1. More than 200 Wisconsin jurisdictions received "Zuckerbucks" for the 2020 election, totaling more than $9 million;

2. Nearly $3.5 million was funneled into the City of Milwaukee via two grants;

3. Green Bay spent only 0.8 percent of funds on personal protective equipment—instead purchasing two new 2020 Ford 550s and paying a public relations firm nearly $150,000 for voter outreach;

AMERICAN OVERSIGHT

4. A representative of CTCL had behind-the-scenes access to election administration in Green Bay and Milwaukee; and,

5. A former staff member for Governor Evers worked for the grantor to coordinate grant applications in Eau Claire.

App. 508. The FGS report contends that "Wisconsin can—and should—prohibit local jurisdictions from accepting private money for election administration." *Id.* The relative funding levels for personal protective equipment also gives the lie to a claim that the extraordinary injection of "Zuckerbucks" into this election was necessitated by or intended primarily to ensure the election did not worsen the public health as opposed to influencing voting patterns.

The Zuckerberg 5 Agreed to the Wisconsin Safe Voting Plan Which Contains Geographic and Demographic Classifications to Increase In-person Voting and Absentee Voting for Targeted Areas and Groups—the Kinds of Efforts Typically Associated with Campaigning.

According to the CTCL website, CTCL is not "a grantmaking organization" in "normal years."[6] The WSVP contains provisions to increase in-person voting and absentee voting for targeted areas and groups. These groups met particular demographic criteria, which not-coincidentally, matched that of the Biden-voter profile. App. 7-27. Typically, candidates and campaigns, not cities, engage in get-out-the-vote efforts targeting areas and groups; CTCL provided the Zuckerberg 5 about $8.8 million to carry out the WSVP provisions. App. 493.

The following WSVP provisions are geographic and demographic classifications designed not for safe voting during COVID but to increase in-person voting for targeted

AMERICAN OVERSIGHT

areas and groups, increase absentee voting for targeted areas and groups, or both. App. 7-27. Additionally, these provisions are privately funded and disfavor Wisconsinites outside of the Zuckerberg 5. *Id.*

1. "[T]o be intentional and strategic in reaching our historically disenfranchised residents and communities"

On page one, the WSVP requires the Zuckerberg 5 to "be intentional and strategic in reaching our historically disenfranchised residents and communities; and, above all, ensure the right to vote in our dense and diverse communities" within the Zuckerberg 5. App. 7. This election administration provision, promoting in-person voting and absentee voting, is privately funded, disfavors Wisconsinites outside the Zuckerberg 5, and favors black and minority voters as opposed to the rest of the residents and communities within the Zuckerberg 5. *Id.*

2. "[E]ncourage and increase … in-person" and "absentee voting by mail and early" voting

On pages 5 and 6, the Zuckerberg Plan states that about one-half of the grant money will be used by the Zuckerberg 5 to "encourage and increase … in-person" voting and "dramatically expand strategic voter education & outreach efforts"—"particularly to historically disenfranchised residents" within the Zuckerberg 5. App. 11-12. The remainder was slated to be used to encourage and increase absentee voting by mail and early voting" and "dramatically expand strategic voter education & outreach efforts"—"particularly to historically disenfranchised residents" as opposed to the rest of the residents and communities within the Zuckerberg 5. *Id.*; App. 11-12.

One way the Zuckerberg 5 were to accomplish this feat was through a specific and targeted campaign directed at black and minority voters.

3. "Dramatically Expand Voter & Community Education & Outreach, Particularly to Historically Disenfranchised Residents"

On page fifteen, the WSVP calls for the cities to specifically target "[h]istorically [d]isenfranchised [r]esidents" within the Zuckerberg 5. The WSVP and CTCL defined "historically disenfranchised voters" to mean:

> All five municipalities expressed strong and clear needs for resources to conduct voter outreach and education to their communities, with a particular emphasis on reaching **voters of color, low-income voters without reliable access to internet, voters with disabilities, and voters whose primary language is not English.**

App. 21 (emphasis added). Each of the Zuckerberg 5 had their own plans to "target" certain residents and communities for higher in-person voter turnout.

AMERICAN OVERSIGHT

Green Bay wanted private grant funds to "be distributed in partnership with key community organizations including churches, educational institutions, and organizations serving African immigrants, "LatinX" residents, and African Americans." App. 21-22. Green Bay wanted to reach out to the Hmong, Somali and Spanish-communities with targeted mail, geo-fencing, posters (billboards), radio, television and streaming PSAs, digital advertising, automated calls and automated texts, [sic] as well as voter-navigators. App. 544. Green Bay's goal was to increase voter participation in these select, race-based groups by 25% for the November 2020 elections. *Id.* Green Bay's privately funded get-out-the-vote effort did not include electors who did not live in Green Bay or electors in Green Bay who were not members of preferred racial groups.

In Kenosha, grant funds would be used "for social media advertising, including on online media like Hulu, Spotify, and Pandora ($10,000), targeted radio and print advertising ($6,000), and large graphic posters ($3,000) to display in low-income neighborhoods, on City buses, and at bus stations, and at libraries ($5000)." App. 22. Kenosha's privately funded get-out-the-vote effort did not include electors who did not live in Kenosha or electors in Kenosha who did not live in low-income neighborhoods. *Id.*

In Madison, private funds would support partnering "with community organizations and run ads on local Spanish-language radio, in the Spanish-language newspapers, on local hip hop radio stations, in African American-focused printed publications, and in online publications run by and for our communities of color (advertising total $100,000)." App. 22. Madison's privately funded get-out-the-vote effort did not include electors who did not live in Madison, were not Spanish-speaking, did not listen to hip hop radio stations, read

AMERICAN OVERSIGHT

African American-focused printed publications, or online publications run by and for Madison's preferred racial groups. *Id.*

Milwaukee stated that it intended to use these private funds to "get-out-the-vote" based on race, criminal status, and harnessing "current protests" related to the Black Lives Matter movement. App. 571. The City used the private funds to support a "communications effort [that] would focus on appealing to a variety of communities within Milwaukee, including historically underrepresented communities such as LatinX and African Americans, and would include a specific focus on the re-enfranchisement of voters who are no longer on probation or parole for a felony." App. 22-23. Milwaukee's privately funded get-out-the-vote efforts did not include electors who did not live in Milwaukee or electors who are not members of preferred racial groupings. *Id.*

In Racine, the private funds supported renting "billboards in key parts of the City ($5,000) to place messages in Spanish to reach Spanish-speaking voters" and "targeted outreach aimed at City residents with criminal records to encourage them to see if they are not eligible to vote." App. 23. Racine's privately funded get-out-the-vote efforts did not include either electors who did not live in Racine or electors who were not Spanish-speaking. *Id.*

Additionally, in Racine, private funds were to be used "to purchase a Mobile Voting Precinct so the City can travel around the City to community centers and strategically chosen partner locations and enable people to vote in this accessible (ADA-compliant), secure, and completely portable polling booth on wheels, an investment that the City will be able to use for years to come." *Id.* This privately funded get-out-the-vote effort excluded

AMERICAN OVERSIGHT

electors who did not live in Racine and those who did not live near "strategically chosen partner locations." *Id.*

Individually and collectively, these privately funded election administration provisions promoting in-person voting classifications disfavor Wisconsinites outside the Zuckerberg 5 and favor only selectively defined minorities. App. 21-23.

4. WSVP's "Absentee Voting" provisions.

On page four, the WSVP requires the Zuckerberg 5 to take specific actions with early voting:

> Absentee Voting (By Mail and Early, In-Person)
>
> 1. Provide assistance to help voters comply with absentee ballot requests & certification requirements;
> 2. Utilize secure drop-boxes to facilitate return of absentee ballots;
> 3. Deploy additional staff and/or technology improvements to expedite & improve accuracy of absentee ballot processing; and,
> 4. Expand In-Person Early Voting (Including Curbside Voting)

App. 10. This election administration provision, promoting absentee voting, is privately funded and disfavors Wisconsinites outside of the Zuckerberg 5. Only electors in the Zuckerberg 5 benefit from the "assistance," "drop-boxes," "improvement," and increased "early voting." *Id.*

AMERICAN OVERSIGHT

5. "Provide assistance to help voters comply with absentee ballot request & certification requirements"

On pages nine and ten, the WSVP requires that the Zuckerberg 5, "[p]rovide assistance to help voters comply with absentee ballot request & [sic] certification requirements." App. 15-16. None of the private funding in this regard would benefit residents outside the Zuckerberg 5. *Id.* Instead, it targeted only the "Biden profile voter."

In Green Bay, the City would use the private money to fund bilingual LTE "voter navigators" to help Green Bay residents properly upload a valid photo ID, complete their ballots, comply with certification requirements, offer witness signatures, and assist voters prior to the elections. App. 15. Green Bay would also utilize the private funds to pay for social media and local print and radio advertising to educate and direct Green Bay voters so they could upload photo IDs and request and complete absentee ballots. *Id.* In Kenosha, the City would use the private money to have Clerk's staff train Kenosha library staff on how to help Kenosha residents request and complete absentee ballots. *Id.*

6. "Utilize Secure Drop-Boxes to Facilitate Return of Absentee Ballots"

On pages ten and eleven, the WSVP requires the Zuckerberg 5 to establish and use ballot drop boxes. App. 16-17. In Green Bay, the City intended to use private money to add ballot drop-boxes, at a minimum, at the transit center and two fire stations. *Id.* at 16. This was in addition to the one already in use at City Hall. *Id.* Green Bay intended to possibly use the drop boxes at its libraries, police community buildings, major grocery stores, gas stations, the University of Wisconsin Green Bay, and Northern Wisconsin Technical College. *Id.*

AMERICAN OVERSIGHT

In Kenosha, the City intended to use the private money to install four additional internal security boxes at Kenosha libraries and the Kenosha Water Utility to provide easy access to each side of the City to ballot drop-boxes. *Id.* at 16. Madison intended to use the private money to place and maintain one secure drop box for every 15,000 voters, or twelve drop boxes total, and to provide a potential absentee ballot witness at each drop box. *Id.* at 16. Milwaukee intended to use the private money to install secure 24-hour drop boxes at all thirteen of its public library branches, while Racine intended to use the private money to have three additional drop boxes to be installed at key locations around the city. *Id.* at 16–17.

7. "Expand In-Person Early Voting (Including Curbside Voting)"

On pages twelve through fourteen, the WSVP set out the plan to expand in-person absentee voting. App. 18-20. Green Bay used private money to expand and establish at least three EIPEV sites in trusted locations, ideally on the east (potentially UWGB) and west sides (potentially NWTC or an Oneida Nation facility) of the City, as well as at City Hall. *Id.* at 18. The city also used the private money to print additional ballots, signage, and materials to have available at these early voting sites. *Id.* Kenosha used private money to offer early drive-thru voting on City Hall property and for staffing for drive-thru early voting. *Id.*

In Madison, the City intended to use private money to provide eighteen in-person absentee voting locations for the two weeks leading up to the August election and for the four weeks leading up to the November election. *Id.* The City purchased and utilized tents for the curbside voting locations in order to protect the ballots, staff, and equipment from getting wet or damaged. Additionally, it purchased and utilized large feather flags to identify the curbside voting sites. *Id.*

AMERICAN OVERSIGHT

Milwaukee also used private money to set up three in-person early voting locations for two weeks prior to the August election and fifteen in-person early voting locations and one drive-thru location. *Id.* at 18-19. Racine used private money to offer a total of three EIPAV satellite locations for one week prior to the August election as well as offering a curbside in-person early voting option. *Id.* at 19. For the November election, Racine intended to use private money to offer EIPAV at four satellite locations two weeks prior to the election and at the Clerk's office six weeks prior. *Id.*

Chapter 2

The Motive for These Grants Was Impermissible and Partisan Get – Out-the-Vote Effort (GOTV)

While it is clear that the statute prohibiting election bribery was violated, the reader may be asking (to put it simply): "*So what? Aren't we told all the time that voting is a good thing and that we should encourage more people to vote? Isn't that what American democracy is all about? Why should we care if outside groups came in and used their financial resources to get more people to vote? Isn't it just sour grapes to allege that this effort to "fortify" the election crossed over into bribery?*

These questions, and others like it, have been presented to the Wisconsin public by the outside groups who came here and by their advocates in the press and elsewhere as a sort of prophylactic defense of the entire bribery scheme. The outside groups know that their questions act as a potent offensive weapon used to discourage the kind of public scrutiny this Report reflects. This is so because anyone who asks critical questions will immediately be put back on their heels: "Tell us why you don't want more people to vote. What do you have against more *people of color* voting in our elections—are you *racist*?" For the record, all those concerned with this Report are, all things being equal, in favor of more people voting and no one has considered race as a factor one way or the other except to the extent necessary to determine the partisan motives of the private groups who designed and implemented this scheme and who are now cynically and hypocritically

AMERICAN OVERSIGHT

deploying the charge of racism in an attempt to shield their misconduct from the light of day.

The scheme designed and implemented by Zuckerberg's CTCL had its origins in a man named David Plouffe. Plouffe's political track record and savvy were likely taken into account by Mark Zuckerberg and his wife Pricilla when they hired David Plouffe to run their political operation-- the [Pricilla] Chan [and Mark] Zuckerberg Initiative— for the purpose of electing Joe Biden president and defeating then-President Trump.

Writing about President-elect Trump's first public appearance after his 2016 presidential victory, Plouffe had this to say: "It's not that we were simply horrified by the reality show performer and his grifter family appearing on stage as America's next first family—though what a horrifying sight it was." (p. xiii) Writing his book in late summer of 2019, Plouffe tells the reader he does not care who the Democratic nominee will be because it does not matter: the goal for everybody should be to defeat President Trump. And Plouffe knew just how to do it: "**We'll do it through turnout**—growing the overall number of people who walk the walk and actually cast votes. Democracy isn't a metaphor or a game. This year especially it's a deadly serious test." (p. xiv (emphasis added))

Turnout, otherwise known as "getting out the vote," (GOTV) has before 2020 been an exclusively partisan phrase (CITE) used by partisan campaigns to (1) identify; (2) locate; (3) inform; (4) persuade; and, (5) facilitate increasing the number of votes for the candidate that *they favor*. The same is true of efforts to get their ballots into the hands of

AMERICAN OVERSIGHT

a "voter navigator," or ballot harvester, or into a drop box (another concept largely unknown prior to November 2020).

The Zuckerberg-funded CTCL/Zuckerberg 5 scheme would prove to be an effective way to accomplish the partisan effort to "turnout" their desired voters and it was done with the active support of the very people and the governmental institution (WEC) that were supposed to be guarding the Wisconsin elections administrative process from the partisan activities they facilitated.

AMERICAN OVERSIGHT

Chapter 3

Government Oversight Has Been Obstructed by Governmental and Outside Corporate Collusion

WEC and the State Attorney General have failed to cooperate with this investigation. In fact, WEC and the State Attorney General each have actively resisted and obstructed the investigation's search for the truth. Wisconsin law requires that actions taken by WEC be accomplished by a majority vote, at a publicly noticed meeting. Wis. Stat. 5.05 (1e); Wis. Stat. § 5.05(5s)(a). Yet WEC, aided by the State Attorney General, has impeded this investigation through obstructive litigation carried on without any record of an approval by the majority of the Commission at a public meeting of the Commission.

These actions of WEC continue a pattern of misconduct by the agency that rose to new heights during the 2020 election cycle, in which new election related polices were spread throughout the state (such as the expanded use of unlawful "drop boxes" and the fraudulent use of the "indefinitely confined" status) without having been approved by either the administrative rule-making process, ensuring that changes in law are vetted in properly noticed public meetings, or by receiving a majority vote of the Commission.

Following initial compliance with the valid Assembly subpoenas, the OSC subsequently faced numerous dilatory actions constituting obstruction of this investigation. Such actions include:

1. Instructions by the Governor to governmental actors not to comply with Legislative oversight;

AMERICAN OVERSIGHT

2. Frivolous and subsequently dismissed ethics complaints against OSC staff;

3. Voluminous open record requests by outside, dark money nonprofits;

4. Free, dark money attorneys provided to various governmental actors;

5. Private investigators looking into the private lives of OSC staff, and outside hacks of devices;

6. Coordinated media campaigns against Legislative oversight and the OSC;

7. Intervention in lawsuits by the Attorney General on behalf of individuals and adverse to the mission of his Office; and,

8. Withholding and destruction of evidence, often poorly justified by claimed contractual obligations with commercial vendors, placing private business ahead of the public interest.

AMERICAN OVERSIGHT

Chapter 4

This Collusion and Entanglement Also Caused a Host of Questionable Actions by the Zuckerberg 5

Wisconsin engaged private companies in election administration in unlawful ways for the 2020 Presidential election.

1. Wisconsin law and WEC's 250-page Election Administration Manual for Wisconsin Municipal Clerks do not legally authorize CTCL and its "partners" to participate in Zuckerberg 5's election administration.

2. WEC's WisVote security policies do not legally authorize the Zuckerberg 5 election officials to share WisVote data with CTCL and its partners.

3. The security of WisVote FIDO Keys required by WEC for WisVote access is unacceptable and an invitation to fraud as the ability to properly track all of the access points and personnel is a key feature required to maintain voting integrity.

4. CTCL pushed onto the Zuckerberg 5 the CTCL "partners" who would unlawfully administer aspects of the election.

5. The projects that CTCL's partners promoted had nothing to do with Covid-19 safety.

6. After the Zuckerberg 5 agreed to the large grants, and CTCL convinced the Zuckerberg 5 to utilize CTCL's "partners," CTCL sought to unlawfully embed those "partners" into the Zuckerberg 5's election administration.

7. Given a blank check to run the election, CTCL and its "partners" took full advantage of the opportunity to administer the election in at least one of the Zuckerberg 5.

8. The "private corporate partners" were from out of state, and not necessarily knowledgeable about Wisconsin election law, or concerned about it.

AMERICAN OVERSIGHT

9. Safe voting was a pretext—the real reason for CTCL's WSVP grants was to facilitate increased in-person and absentee voting in specific targeted areas inside the Zuckerberg 5.

10. The Zuckerberg 5 became beholden to CTCL as a result of the WSVP's private funding and the WSVP's provisions.

11. The Zuckerberg 5 ceded administrative control over the election to CTCL and its private partners, including WisVote data sharing, so they could collectively facilitate increased in-person and absentee voting in the 2020 election.

1. Wisconsin Law and WEC's 250-Page Election Administration Manual for Wisconsin Municipal Clerks Cannot Legally Authorize CTCL and Its "Partners" to Participate in Zuckerberg 5's Election Administration.

Wisconsin's municipal clerks are provided training on administering elections, including being provided WEC's 250-page Election Administration Manual for Wisconsin Municipal Clerks. This Manual also illustrates why the WSVP, CTCL and its "partners" participating in the Zuckerberg 5's election administration for the 2020 Presidential Election was not legally authorized.

According to the Manual, "The municipal clerk's election duties include, but are not limited to, supervision of elections and voter registration in the municipality, equipping polling places, purchasing and maintaining election equipment, preparing ballots and notices, and conducting and tracking the training of other election officials."

The Manual reserves those duties to municipal clerks, and nowhere does it authorize CTCL and its "partners," to engage in Zuckerberg 5's election administration. We also have seen no evidence that personnel from CTCL or its partners were trained in Wisconsin election law, as is required of the municipal clerks.

AMERICAN OVERSIGHT

2. WEC's WisVote Security Policies Do Not Legally Authorize the Zuckerberg 5 Election Officials to Share WisVote Data with CTCL and Its Partners.

WEC's policies on WisVote security are written so that municipal clerks do not work hand-in-hand with private companies to administer the elections. So, the Zuckerberg 5's municipal clerks jeopardized WisVote security when data sharing with CTCL and its partners.

The WisVote system is the Statewide Voter Registration System (SVRS) that originated in 2006 and provided key tools for the former State Elections Board to carry out its critical election business practices. In early 2016, SVRS was replaced by WisVote, which reportedly improved usability and functionality and lowered costs.

Three fundamental goals served as the strategic vision for the WisVote system: improved usability for clerks, reduced costs, and creating a stable and supportable system.

WisVote is not simply a voter registration list, but a full elections administration package. The system is accessed by more than 1,600 users in 700 separate locations across the State. Users connect to the system using the internet. Some locations in Wisconsin do not have high-speed internet access available, in which case, the municipal clerk relies on another clerk (usually the county clerk) to perform data entry functions. The system includes several confidential fields, including driver license numbers, dates of birth, partial social security numbers and voters who are under a protective order, which must be protected by statute.

There are four security to gain access to the WisVote system:

AMERICAN OVERSIGHT

1. User must have a viable computer that can access the internet. That computer must have a "Fast Identity Online" (FIDO) user authentication key applet downloaded to the system

2. User must have an assigned User Name

3. User must have an assigned password

4. User must possess a WEC issued FIDO Key

WEC controls the username and password access.

There are four levels of access to the WisVote system:

1. Clerk: this access certification was developed to train new staff in the complete WisVote system application. This access level allows users to perform all WisVote functions, including printing poll books, mapping, and other election administration duties.

2. Data Entry: this access certification was developed to train new staff to enter voter registration applications, update voter status, and record voter participation. This access level will not allow users to merge voters, print poll books, or perform other election administration duties unless the user completes the full WisVote system training.

3. WEDC Entry: this role does not require additional WisVote training other than the WisVote Introduction tutorials and the Security Series videos; however, the clerk, or authorized designee, must still submit the Request to Add Authorized Users form to ensure users receive the correct WisVote permissions. These users can view municipal data and Election Reconciliation information, but only have the ability to modify or edit Inspectors' Statement and EDR Postcard data.

4. Read Only: this role does not require any additional WisVote training other than the WisVote Introduction tutorials and the Security Series videos; however, the clerk, or authorized designee, must still submit the Request to Add Authorized Users form to ensure users receive the correct WisVote permissions. These users can view municipal data, but will not have the ability to add, delete, or modify data in WisVote.

AMERICAN OVERSIGHT

WEC's WisVote security rules do not contemplate or authorize non-governmental outside parties receiving WisVote data shared by Zuckerberg 5's election officials.

Further, WEC's rules provide a specific process to obtain access to WisVote data:

To obtain access to WisVote, the clerk, or authorized designee, will complete the following process:

> 1) Email a completed and signed copy of the Request to Add Authorized Users in The Learning Center (TLC) to Elections Help Desk (elections@wi.gov). Identify the role type for each user identified on the form. There are four user access levels in WisVote from which to choose:
>
> 2) Upon receipt of the completed Request to Add Authorized Users in TLC form, the Elections Help Desk will create and issue a login and password for the user to obtain access to TLC website to allow for the new users to complete the following training:
>
> a. Securing WisVote: this is a series of electronic learning modules located under the Election Security Awareness tile in TLC. All WisVote users are required to complete this training regardless of their access level (please also note that this specific training may also be made available and accessed by individuals identified by the clerk, or an authorized designee, who do not require WisVote access and still wish to participate in this cybersecurity educational opportunity—indicate Requested WisVote Access Level as "Not Applicable" on the Request to Add Authorized Users in TLC form); *AND* The training associated with the access levels listed above, if applicable.
>
> 3) Once new users complete the Securing WisVote training series AND all required training related to their WisVote Access Level, if applicable, an email shall be sent to the Elections Help Desk (elections@wi.gov). The email should state that the Securing WisVote series was completed and should also contain the appropriate Access Certification document (also found on this page), as an attachment. Upon receipt, WEC staff will issue a WisVote username and password.
>
> 4) When logging into WisVote for the first time, new users will see the WisVote User Agreement and the WisVote Confidentiality Agreement, in electronic

AMERICAN OVERSIGHT

format. To acknowledge and accept the terms of these agreements, the user will click the "I agree" button when prompted with each agreement.

CTCL and its partners did not follow this process and yet obtained WisVote data from Zuckerberg 5's election officials. By contrast, the public receives WisVote only as WEC updates the information and for a charge of $12,500 for a daily snapshot of statewide data. Accordingly, under Wisconsin Elections Commission's security policies, CTCL's and its partners were allowed to access to WisVote in this way, opening the system up to unauthorized uses by unauthorized users. The Zuckerberg 5's WisVote data sharing with CTCL and its partners was thus unlawful.

5. The Security of WisVote FIDO Keys Required by WEC for Wisvote Access Is Unacceptable.

The security of WisVote FIDO Keys, required by WEC for WisVote security is unacceptable. Under WEC's policies for a multi-factor authentication, three things are needed for WisVote access: login in name; password; and FIDO Key. The FIDO Key is contained in a flash drive that is inserted into a personal computer.

In 2018, WEC mass-issued FIDO Keys across the State to counties and municipalities. The instructions received from WEC to the key recipients were unclear as to security protocols. For example, one county indicated they had requested 2 FIDO Keys and they received 15 keys. When the clerk received the 15 keys, she called WEC and asked, "what should I do with the additional 13 keys you sent that I didn't request?" WEC said, "hold on to them just in case you need another or one breaks." One would think that at the time these FIDO Keys were issued, WEC would have a master record of custody as

AMERICAN OVERSIGHT

to how many FIDO Keys had been shipped. If that was the case, WEC cannot apparently find it now.

In mid-September 2021, an open records request was sent to the WEC requesting the total number of FIDO Keys that had been issued by WEC to the various counties and municipalities across the State. The request also asked for a list of individuals to whom the keys were issued. WEC initially issued a copy of a 2020 list of FIDO Key users. Knowing this list changes monthly, a second request was made to determine how many of those users had changed. The 2020 list listed 3,137 FIDO Key users across the State. Of that list, 404 active users had been disabled leaving a balance of 2,733 active users. The updated list indicated that205 active users had been added two weeks later and accounted for a total of 2,938 keys. Of those 2,938 active keys, 1,929, or 66% were issued with clerk access.

WEC apparently does not know how many FIDO Keys they have actually issued because individual county or municipal clerks have FIDO Keys that were not assigned or listed on WEC's list. For example, WEC issued a total of 36 FIDO Keys to the Fond du Lac County Clerk, who issued 12 keys to various municipalities and still has 24 in her possession. In contrast, WEC's list confirms 12 keys that were issued without accounting for the 24 keys that remain in the Clerk's possession. WEC's records similarly reflect two of the 15 FIDO Keys that WEC issued to the Kewaunee County Clerk and that the Clerk then issued, but they fail to reflect the other 13 FIDO Keys that WEC issued to the Clerk that remain in the Clerk's filing cabinet. Our investigation repeatedly found that counties

AMERICAN OVERSIGHT

and municipalities have more keys than WEC can account for. Yet, the FIDO Keys are supposed to be a major part of WEC's security policy for WisVote data.

There does not seem to be a meaningful pattern as to how FIDO Keys are used to counties or municipalities. For example, as mentioned in the previous paragraphs, clerks have different methods of distributing the keys that they receive from WEC. Some clerks manage their municipality or county WisVote data entry very carefully. For example, the Kewaunee County Clerk only allows 2 people to make entries or adjustments in the WisVote system. Fond du Lac County allows 12 people in the entire County to enter data or make changes to the data. A close look at the Zuckerberg 5 cities of Madison, Milwaukee, Kenosha, Green Bay and Racine shows a remarkable array of differences in how the FIDO Keys are issued and ultimately used.

There is no known explanation as to why there is such diversity of FIDO Key distribution and accountability in the different cities. The chart below lists the Zuckerberg 5 cities where large sums of CTCL money was applied. It is unclear why 64% of FIDO Keys assigned to one city consist of keys with clerk-level access that would allow unfettered access to the entire WisVote database and enable the user to activate and deactivate voters.

AMERICAN OVERSIGHT

FIDO Keys by Zuckerberg 5 Cities per April 2021 WEC Report

City	Population over 18 yrs	Total Keys	Clerk Keys	% of Keys for Clerks	Data Entry Keys	Other Key Types	One Key for every X residents
Madison	214,180	124	17	14%	107	N/A	1,727
Kenosha	74,766	23	6	26%	17		3,251
Milwaukee	450,233	306	196	64%	108	2	1,471
Green Bay	78,777	13	4	31%	8	1	6,060
Racine	60,123	98	22	22%	76		614

In talking to various clerks across the State, it is known that employees of municipalities that have been issued FIDO Keys will often allow other employees in their organization to use their computer, username, password, and FIDO Key to access the WisVote system and make entries. During the 2020 election, this type of usage was extended to third parties in the Zuckerberg 5 cities as further detailed below. FIDO Keys are an area of concern and require more investigation and attention overall.

AMERICAN OVERSIGHT

1. CTCL Pushed Onto the Zuckerberg 5 the CTCL "Partners" Who Would Unlawfully Administer Aspects of the Election.

As part of the WSVP, CTCL pushed onto the Zuckerberg 5 the CTCL "partners" who would effectively administer aspects of the election in an unlawful manner. Under the WSVP, CTCL promoted to the Zuckerberg 5 numerous entities, CTCL's "partners," CTCL would then recommend that the Zuckerberg 5 connect with and use those partners in the administration of the election. App. 39-52, 53-69, 78-80. However, since the Zuckerberg 5 were contractually bound to use only the "organizations" that CTCL approved "in advance, in writing," the "partner" referrals that CTCL made were more than mere "suggestions," they were part of the CTCL's binding contractual agreement with the Zuckerberg 5. App. 4, 589, 592, 596, 599.

In late July 2020, CTCL Director of Government Services Whitney May hosted a series of separate "kick off" calls for each of the Zuckerberg 5 city's public officials, where she introduced and provided an overview of CTCL's allied corporations (sometimes-called "technical partners") to inject themselves into that city's election administration. App. 454-459, 480. CTCL's "partners" introduced to the Zuckerberg 5 were private corporations that would act to unlawfully aid or administer the relevant city's election administration:

1. The National Vote At Home Institute ("VoteAtHome" or "NVAHI") was represented by CTCL as a "technical assistance partner" that could consult about, among other things, "support outreach around absentee voting," voting machines and "curing absentee ballots," and to even take the duty of curing absentee ballots off the city's hands. App. 39-52, 53-69. The NVAHI also offered advice and guidance on accepting ballots and streaming central count during election night and on the day of the count. App. 70-77.

2. The Elections Group and Ryan Chew were represented to be able to provide "technical assistance partners to support your office" and "will be connecting

AMERICAN OVERSIGHT

with you in the coming days regarding drop boxes" and technical assistance to "support your office," and worked on "voter outreach." App. 78-80, 81-83, 171. Elections Group Guide to Ballot Boxes. App. 84-124.

3. Ideas42 was represented by CTCL as using "behavioral science insights" to help with communications. App. 324.

4. Power the Polls was represented by CTCL to help recruit poll workers. -App. 124.

5. The Mikva Challenge was recommended to recruit Chicago-based high school age students to be Zuckerberg 5 poll workers. App. 127.

6. US Digital Response was suggested to help with and then take over "absentee ballot curing," and to "help streamline the hiring, onboarding, and management" of Green Bay's poll workers. App. 130-138.

7. Center for Civic Design was tapped to design absentee ballots and the absentee voting instructions. App. 196.

8. Eric Ming, the Communications Director for CSME, was selected to serve as a "communications consultant to review your [City of Green Bay] advertising plan for November." App. 43, 158-159.

9. The Brennan Center, which focuses on "election integrity" including "post-election audits and cybersecurity" was involved. App. 160.

10. HVS Productions added "voter navigator" FAQs and Election Countdown Copy for the city of Green Bay. App. 163-168.

11. Modern Elections was picked to address Spanish language issues. App. 169-171.

Importantly, none of the referenced "partners" mandated by CTCL were health or medical experts that one might expect for efforts allegedly tied to the COVID pandemic; rather, as the grant contracts required, these were "experts" in "election administration." *See* App. 454-462, 480. Further, several clerks did inform the OSC that actions by these representatives adversely affected the public health safety of staff and voters.

AMERICAN OVERSIGHT

Former Green Bay Clerk Kris Teske has described this usurpation by CTCL and its "partners" of election administration. She stated in her Answer in a prior WEC proceeding:

1. "Others in the Mayor's office began to hold meetings and make decisions relating to the election outside of the Clerk's office." App. 674.

2. "This caused planning for the election to become VERY dysfunctional and caused great confusion in the Clerk's office as many of the meetings and decisions were driven by the Mayor's chief of staff and other senior officials without the knowledge or consent of the Clerk's office." *Id.*

3. "I wrote several emails outlining my concerns with meetings that excluded the Clerk's office and decisions that were made without consulting the Clerk's office." App. 675.

4. "[T]he office's [Clerk's office] ability to fulfill the obligations for the election were greatly hindered and diminished by outside interference." App. 677.

As Teske asserted, Wisconsin law and WEC's Election Administration Manual for Wisconsin Municipal Clerks did not legally authorize CTCL and its partners to engage in Zuckerberg 5's election administration.

12. The Projects That CTCL's Partners Promoted Had Nothing to Do with Covid-19 Safety.

CTCL's partners had nothing to do with Covid-19 safety. Neither CTCL nor its "partners" were medical or health professionals. Instead, CTCL boasted that it had a "network of current and former election administrators and election experts available" to "scale up your vote by mail processes," and "ensure forms, envelopes, and other materials are understood and completed correctly by voters." App. 38.

AMERICAN OVERSIGHT

On July 31, 2020, shortly after the grant agreements were negotiated and executed CTCL's Director of Government Services wrote to Madison employee Maribeth Witzel-Behl about the "projects" CTCL required:

> Hi Maribeth:
>
> Reflecting on your Safe Voting Plan and the kickoff call last week. I wanted to get your feedback about the **projects** our technical partners should tackle first. What are the most urgent areas where you'd like support from the partners? Here's what we captured in our notes as the likely top 3-4:
>
> 1. **Adding satellite locations and drop boxes**—help site locations and provide tailored guidelines and implementation support (Elections Group)
> 2. **Printing materials for mail ballots** – redesign bilingual **absentee ballot** instruction sheet and letter (Center for Civic Design, who is working with WEC on envelope design)
> 3. **Targeting communities with election information** – NVAHA is launching a communications toolkit on August 5 to support **outreach** around **absentee voting** (National Vote at Home Institute), share research insights about how to engage people who might not trust the **vote by mail** process (Center for Civic Design)
> 4. **Training election officials**—review quick guides and other training materials (Elections Group)

App. 479 (emphasis added).

Explaining this "targeting" of communications, Celestine Jeffreys wrote to Whitney May of CTCL on August 27, 2020 that "[t]here are probably 5 organizations that are focused on working with disadvantaged populations and/or with voters directly." App. 37, 45.

CTCL, when working with the Zuckerberg 5, had other conditions that had nothing to do with COVID prevention, including:

AMERICAN OVERSIGHT

1. Employing "voter navigators" to help voters "complete their ballots." App. 34-35.

2. The "voter navigators" would later be "trained and utilized as election inspectors." App. 35.

3. "Utilize paid social media" and "print and radio advertising" to direct voters "to request and complete absentee ballots." App. 34.

4. "enter new voter registrations and assist with all election certification tasks." App. 34.

5. "reach voters and potential voters through a multi-prong strategy utilizing 'every door direct mail,' targeted mail, geo-fencing, billboards radio, television, and streaming-service PSAs, digital advertising, and automated calls and texts," and direct mail to "eligible but not registered voters." App. 36.

6. Assist new voters to "obtain required documents" to get valid state ID needed for voting, targeting African immigrants, LatinX residents, and African Americans. *Id.*

7. "facilitate Election day Registrations and verification of photo ID." App. 36.

Thus, after the grant agreements commenced, CTCL promoted election activities having nothing to do with Covid-19 safety. CTCL instead focused on targeting voter outreach and absentee voting. CTCL also required the Zuckerberg 5 to target specific geographic and demographic voter characteristics. App. 7-27. Using the grant funds to target voter outreach was required by CTCL as one of the WSVP conditions. App. 3, 7-27.

Again, CTCL and its partners had no specific medical or health experience, and the WSVP "projects" had nothing to do with Covid-19 safety. App. 7-27.

5. After the Zuckerberg 5 Agreed to the Large Grants, and CTCL Convinced the Zuckerberg 5 to Utilize CTCL's "Partners," CTCL Sought to Unlawfully Embed Those "Partners" into the Zuckerberg 5's Election Administration.

AMERICAN OVERSIGHT

After the Zuckerberg 5 agreed to the large grants, CTCL offered Milwaukee to provide "an experienced elections staffer [from the Elections Group] that could potentially embed with your staff in Milwaukee in a matter of days and fill that kind of a role." App. 382 (emphasis added).

CTCL and its partners pushed to get involved with, and take over, other parts of the election administration, as well. One of CTCL's recommended "partners" was the National Vote at Home Institute ("NVAHI"). Michael Spitzer Rubenstein, NVAHI's employee, wrote to Claire Woodall-Vogg, the Executive Director of the City of Milwaukee Election Commission: "[C]an you connect me to Reid Magney and anyone else who might make sense at the WEC? Would you also be able to make the connection with the Milwaukee County Clerk?" App. 381.

CTCL and its "partners" made many other attempts to access information to which private entities were obviously not entitled. *Id.* The following communications demonstrate such efforts, not authorized by the governing law:

1. **If you could send the procedures manual and any instructions for *ballot reconstruction*, I'd appreciate that**. On my end: · By Monday, **I'll have our edits on the absentee voter instructions.** · We're pushing Quickbase to get their system up and running and I'll keep you updated. · I'll revise the planning tool to accurately reflect the process. App. 381 (Michael Spitzer Rubenstein emailing to Claire Woodall-Vogg of Milwaukee).

AMERICAN OVERSIGHT

2. I'll create a flowchart for the VBM [vote by mail] processing that we will be able to share with both inspectors and also observers. · **I'll take a look at the reconstruction process** and try to figure out ways to make sure it's followed. App. 381 (Michael Spitzer-Rubenstein emailing to Claire Woodall-Vogg of Milwaukee)

3. "That sounds like a real pain. It would be helpful to just understand the system and maybe the USDR folks can figure out a way to simplify something for you. … if it's okay with you, **they'd also like to record the screen-share to refer back to, if needed.**" **We're hoping there's an easier way to get the data out of WisVote than you having to manually export it every day or week**. To that end, we have two questions: 1**. Would you or someone else on your team be able to do a screen-share so we can see the process for an export**? 2. **Do you know if WisVote has an API or anything similar so that it can connect with other software apps**? **That would be the holy grail** (but I'm not expecting it to be that easy). App. 389 (Michael Spitzer-Rubenstein to Claire Woodall-Vogg).

4. I know you won't have the final data on absentee ballots until Monday night but I imagine you'll want to set things up beforehand. **Just let me know your timeline for doing so and if you get me the absentee data a day ahead of time and I can set things up. And as a reminder, here's what I'll need: 1) Number of ballot preparation teams 2) Number of**

AMERICAN OVERSIGHT

returned ballots per ward 3) Number of outstanding ballots per ward. App. 390 (Michael Spitzer-Rubenstein to Claire Woodall-Vogg).

5. **In order to get the data by ward, are you able to run a summary in WisVote or do you have to download all the active voters, absentee applications, etc. and then do an Excel pivot table or something similar**? We added Census data and zip codes to the map and so now we're moving to figure out how we'll update this. Also, **if you can send these reports (whether in summary form or just the raw data), we can put them in: Active voters, Absentee applications, Ballots received, Ballots rejected/returned to be cured**. App. 391, Michael Spitzer Rubenstein to Claire Woodall-Vogg.

6. "I'll try and do a better job clarifying the current need. We are not actually using anything visual right now (though will in the future). In the state of affairs now, **we are just looking for raw data. The end result of this data will be some formulas, algorithms and reports that cross reference information about ballots and the census data**. For example, **we want to deliver to Milwaukee + Voteathome answers to questions like "How many of age residents are also registered to vote?" or "what percentage of ballots are unreturned in areas with predominantly minorities?**" To do that, we need a clear link between address + Census Tract. We need this for all ~300k voters and the ~200k+ absentee ballots, and it needs to be able automatic as we perform more

AMERICAN OVERSIGHT

> inserts. To accomplish this, we were making calls to the Census API. They allow you to pass in an address and get the Census Tract. That solution "works", but is far too slow. Their batch solution isn't working either." App. 388 (emphasis added).

CTCL and its partners were influencing public officials while those officials were doing their jobs to administer the election. *See, e.g.*, App. 381, 383-388, 390-391. Although some of these attempts by CTCL and its partners to tamper with, or take over the Zuckerberg 5's election administration, may have been rebuffed, others were not *Id.* The Zuckerberg 5 apparently agreed that some of CTCL's attempts would have been too egregious. App. 389. For example, Claire Woodall-Vogg responded:

> While I completely understand and appreciate the assistance that is trying to be provided, *I am definitely not comfortable having a non-staff member involved in the functions of our voter database, much less recording it.* While it is a pain to have to remember to generate a report each night and less than ideal, it takes me less than 5 minutes. Without consulting with the state, which I know they don't have the capacity or interest in right now, I don't think I'm comfortable having USDR get involved when it comes to our voter database. I hope you can see where I am coming from – this is our secure database that is certainly already receiving hacking attempts from outside forces.

App. 389 (Claire Woodall-Vogg to Michael Spitzer Rubenstein) (emphasis added).

AMERICAN OVERSIGHT

Kris Teske confirmed that CTCL and its "partners" sought to improperly interject or "embed" themselves into the election administration. App. 674. She stated in her answer in a prior WEC proceeding: "A further complicating factor arose when outside (private) organizations were engaged to participate in the planning and administration of the election." *Id.*

Another example of embedding is in Milwaukee. The Elections Group employee Ryan Chew wrote at 4:07 a.m. on November 4, 2020, the day after the Presidential election, to Milwaukee election official Claire Woodall-Vogg:

> Damn Claire, you have a flair for drama, delivering just the margin needed at 3:00 a.m. I bet you had those votes counted at midnight, and just wanted to keep the world waiting.

App. 610. Woodall-Vogg responded, "LOL. I just wanted to say I had been awake for a full 24 hours." *Id.*

1. Given a Blank Check to Run the Election, CTCL and Its "Partners" Took Full Advantage of the Opportunity to Administer the Election in at Least One of the Zuckerberg 5.

The Zuckerberg 5 used (at a minimum) the following group of CTCL's allied corporations to engage in election administration: Center for Civic Design, App. 451-453, 467-471, 474-475, 478; Vote at Home Institute, App. 447, 449, 465-466, 477; Voter Participation Center, App. 476; healthyvoting.org, App. 445; Elections Group, App. 444; Brennan Center, App. 440; Simon and Company, Inc., App. 448, 450. CTCL and its partners assumed numerous aspects of administration of Zuckerberg 5's election processes.

AMERICAN OVERSIGHT

See, e.g., App. at 451-453, 467-471. For example, in Green Bay, the private corporations and their employees engaged in the following aspects of election administration:

a. Vote at Home volunteered to take the curing of ballots off of a municipality's plate; (*id.* at 172-174);

b. Elections Group offered to "lend a hand" to Central Count stations (*id.* at 175-76);

c. Offered to connect a municipality to "partners like Power the Polls" to recruit poll workers and to partner with CTCL to send out e-mails to recruit poll workers; (*id.* at 177);

d. Advised the City as to using DS200 voting machines; (*id.* at 178);

e. Provided a "voter navigator" job description; (*id.* at 182);

f. Advised a municipality regarding moving the "Central Count" from City Hall to a different location, which was wired to provide election results directly to private corporate employees; (*id.* at 262);

g. The Center for Civic Design offered a municipality to design the absentee voting instructions and the absentee envelopes; (*id.* at 184-196);

h. The Elections Group issued a Guide to Ballot Drop Boxes, a report on Planning Drop Boxes, Voter Outreach, and Communication; (*id.* at 197-236);

i. Provided advice about procedures for challenging an elector's ballot; (*id.* at 232-236); and

AMERICAN OVERSIGHT

j. Conservation Voices and curing. (*id.* at 237-240).

Whitney May of CTCL advised Milwaukee's Information Coordinator, Michelle Nelson, on how to request additional funding for election administration from the City and encouraged her to consult with other Zuckerberg 5 clerks:

> Below is some language I drafted along with 2 links that may help you frame the need for more staff. And have you asked Kris in Green Bay or Tara in Racine about their staffing levels? If they have similar numbers of registered voters as Kenosha, but more staff than Kenosha, then I think that's also a way to make your case to Admin.

App. 377. This email raises the concern that CTCL was drafting documents regarding municipal funding for election administration for the Zuckerberg 5. *Id.* Based on CTCL contact with the Commission, the CTCL and its partners may have drafted documents for Commission staff as well. *Id.*

Kris Teske saw these acts of usurpation as well, describing them in her communications. App. 318-319. As early as July, she claimed that the Mayor's office was diverting her authority as a result of the CTCL Contract. She wrote in an e-mail:

> I haven't been in any discussions or emails as to what they are going to do with the money. I only know what has been on the news/in the media... Again, I feel I am being left out of the discussions and not listened to at the meetings.

Id. at 318. Kris Teske also wrote, "Celestine also talked about having advisors from the organization giving the grant who will be 'helping us' with the election and I don't know anything about that." *Id.* at 319. "I don't understand how people who don't have the

AMERICAN OVERSIGHT

knowledge of the process can tell us how to manage the election." *Id.* Teske expressed concern that voting laws may be being broken. She wrote:

> I just attended the Ad Hoc meeting on Elections…. I also asked when these people from the grant give us advisors who is going to be determining if their advice is legal or not…I don't think it pays to talk to the Mayor because he sides with Celestine, so I know this is what he wants. I just don't know where the Clerk's Office fits in anymore.

Id. at 318-319.

Some of the most aggressive and egregious usurpation of election administration was performed by Michael Spitzer Rubenstein of NVAHI. Mr. Spitzer Rubenstein performed tasks such as:

a. Providing instructions to the Central Count workers (App. 241-242);

b. Augmenting the City of Green Bay's "guide with the DS450" voting machine instructions; issuing a purchase order (*id.* at 49); asking about 62001 openers (*id.* at 243);

c. Corresponding with the Green Bay City Attorney and other employees to interpret Wisconsin law and even to develop absentee voting protocols potentially inconsistent with Wisconsin Law (App. 73);

d. Offering to take "curing ballots" off of the City of Green Bay's plate (*id.* at 135, 137, 138, 172-173);

e. "[H]elping Milwaukee assign inspectors to Central Count stations," and offering to do the same for Green Bay (*id.* at 244);

f. Setting up the voting machines and patterns in the Central Count location (App. 175, 178, 179-195);

AMERICAN OVERSIGHT

g. Offering "additional resources" such as "funding available, both from ourselves, and the Center for Tech and Civic Life (thanks to Priscilla Chan and Mark Zuckerberg)" (*id.* at 124);

h. Determining whether to accept ballots after the deadline of 8 pm (*id.* at 291-292);

i. Allocating poll workers on election day (App. 252);

j. Teske stating finance person does not want NVAHI person in office, but Chief of Staff is running show (*id.* at 249-251);

k. Sharing Central Count guidance # of poll workers (*id.* at 252).

Further: "Michael Spitzer Rubenstein will be the on-site contact for the group [on Election Day]." App. 257-261. Mr. Spitzer Rubenstein was one of three people providing "supervision and check-in duties" for workers on the days of the election and subsequent vote counting. App. 306.

One of the functions of Mr. Spitzer Rubenstein's service as "on-site contact" was to coordinate with the contractor staff at the Hyatt Regency and KI Convention Center to set up wireless networks for Election Day operations. At Mr. Spitzer Rubenstein's instruction, there were three WiFi networks available. One was the general conference facility public network that would be available to members of the press and others. That network was password-protected, but the password was widely available. A second password-protected WiFi network was created for Central Count staff. Mr. Spitzer Rubenstein also directed that a third WiFi network be established, but that network was to be hidden and it was not

AMERICAN OVERSIGHT

to be password-protected. Spitzer Rubenstein also ensured that "both networks reach[ed] [his] hotel room on the 8th floor" (App. 262-266).

Spitzer Rubenstein had unfettered access to the Central Count, ballots, and ballot counting:

1. Spitzer Rubenstein developed a diagram and map of the "Central Count" area of the election and developed roles for the staff to handle and count ballots, and Central Count procedures (App. 267-288);
2. Assigned inspectors for vote counting and polling places (App. 244);
3. Pushed for control of ballot curing process (App. 172-173);
4. Provided advice to Green Bay's City Attorney regarding interpretation of Wis. Stat. governing the timing and receipt of ballots (App. 289-292);
5. Instructed "pull the numbers on the absentee ballots returned and outstanding per ward" information on vote results so he could determine which wards were on which voting machines (App. 293-295);
6. Created a "poll worker needs" spreadsheet (App. 296-298);
7. Put himself in charge of transporting ballots to City Hall and then to Central Count on election day; and then counting them. (Discussion of "moving ballot boxes in the morning and evening." November, 2, 2020 (App. 280, 299-301);
8. Stated "I'm putting together instructions for the Central Count

AMERICAN OVERSIGHT

workers, …" (App. 302);

9. Corresponded with Saralynn Flynn, also of Vote at Home, who wrote: "here is the document I made to hand out to central count observers." (App. 241) The "document" he created warned Election Observers to "NOT interfere in any way with the election process," while CTCL personnel, partners, "pollworkers" and others deputized by CTCL, transported ballots, counted ballots, and "cured" defective mail in and absentee ballots, and otherwise exercised considerable control over the election process (App. 303);

10. Had unrestricted access on election day to the Central Count floor (App. 304).

On election day, Spitzer Rubenstein had access to ballots and determined which ones would be counted or not counted. Spitzer Rubenstein wrote to Vanessa Chavez, Green Bay City Attorney, on November 3, 2020 at 9:29 pm: "Be prepared: ballots delayed." The text stated: "I think we're probably okay; I don't think anyone challenged the ballots when they came in." App. 304 (emphasis added). Spitzer Rubenstein explained that someone "prevented one of the drop box deliveries from getting to City Hall by 8 PM," so the ballots were "delayed," i.e., did not arrive on time as required by law. Forty-seven boxes of ballots were expected to be delivered and apparently, according to Spitzer Rubenstein's email, some of them were late but he decided that despite some of them being late, they were to be counted anyway because no one "challenged them." *Id.*

AMERICAN OVERSIGHT

1. The "Private Corporate Partners" Were from Out of State, and Not Necessarily Knowledgeable About Wisconsin Election Law, or Concerned About It.

Notably, CTCL's "private corporate partners" were from out of State, and not necessarily knowledgeable about Wisconsin election law, or concerned about it. Ryan Chew of the Elections Group was located outside of Wisconsin. Further, Chew was described by Whitney May of CTCL as having "decades of election experience working with the Cook County Clerk in Illinois. They [Mr. Chew and Gail, also from the Elections Group] are available to discuss your drop box plans (and more!)." App. 374. CTCL is headquartered in Illinois. Spitzer Rubenstein is a lawyer who lives in Brooklyn. Kris Teske stated in her answer that "[m]any of these [election administration] decisions were made by persons who were not authorized to do so and some were made by people not qualified to make them as, again, election laws need to be followed to ensure the integrity of the election." App. 676.

2. Safe Voting Was a Pretext—The Real Reason for CTCL's WSVP Grants was to Facilitate Increased In-Person and Absentee Voting in Specific Targeted Areas Inside the Zuckerberg 5.

The real reason for CTCL's WSVP grants was to facilitate increased in-person and absentee voting in specific targeted areas inside the Zuckerberg 5. App. 7-27. Safe voting was merely a pretext.

On June 10, 2020, Vicky Selkowe informed the representatives of the other Zuckerberg 5 that: "[o]ur national funding partner, the Center for Tech & Civic Life, has one additional question area they'd like answered: "What steps can you take to update

AMERICAN OVERSIGHT

registered voters' addresses before November? What steps can you take to register new voters? How much would each cost?" App. 604.

3. The Zuckerberg 5 Became Beholden to CTCL as a Result of the WSVP's Private Funding and the WSVP's Provisions.

The documents show that the Zuckerberg 5 became beholden to CTCL as a result of the WSVP's private funding and the WSVP's provisions.

On August 1, 2020, Maggie McClain of Madison emailed Maribeth Witzel-Behl stating: "is there an approval/letter giving the go-ahead for this? Or an okay from CTCL saying the *grant funds could be used for this*? I need something to attach to the requisition." App. 607.

On August 31, 2020, Kenosha sought and obtained CTCL permission for purchasing 3 DS450 high speed ballot tabulators for use at absentee central count locations at an amended cost of $180,000 instead of $172,000. App. 378-380. Madison sought similar approval from CTCL regarding election administration financing. App. 437-439, 441-443, 446, 450, 472-473.

On September 22, 2020, Karalyn Kratowitz, the interim deputy mayor of Madison, asked CTCL for instruction on and permission as to how to spend the money. App. 446.

On January 7, 2021, pursuant to the agreement, CTCL told Madison to report by January 31, 2021. App. 609.

The Zuckerberg 5 were periodically required to report to CTCL on election administration. All the Zuckerberg 5 were required to report to CTCL on their expenditures

AMERICAN OVERSIGHT

by January 31, 2021. App. 4 (Racine), 589 (Milwaukee), 592 (Madison), 596 (Kenosha), 599 (Green Bay).

4. The Zuckerberg 5 Ceded Administrative Control Over the Election to CTCL and its Private Partners, Including WisVote Data Sharing, so they Could Collectively Facilitate Increased In-Person and Absentee Voting in the 2020 Election.

As set forth above, CTCL's stated and implied conditions led to the Zuckerberg 5's municipal clerks and other staff to sometimes eagerly step aside, and other times to be pushed aside, to let CTCL and its private corporate partners engage in aspects of election administration—including exclusive free access to WisVote data not available to the public and not for free (e.g., $12,500 for copy of statewide WisVote data). *See, e.g.*, App. 7-27. CTCL and the private corporations, as revealed by the documents, had an ulterior motive in the WSVP to facilitate increased in-person and absentee voting in the Zuckerberg 5 and among their preferred racial groups. *Id.*

AMERICAN OVERSIGHT

Chapter 5
Corporate Legal Defense to Facilitate Obstruction Might Violate the Wisconsin Ethics Code

The unlawful actions of various Wisconsin election officials has opened them up to legal liability. In certain contexts, Wisconsin's election officials can enjoy legal immunity; in others, they can be represented by government attorneys or government-financed attorneys. Finally, in some contexts, unlawful actions of officials can place them in a position where they-- just like any other members of the public-- may have to hire and pay their own attorneys to defend themselves.

CEIR's Election Officials Legal Defense Network (EOLDN), announced in December of 2021, provides legal services for government officials on the hook for misconduct. In Wisconsin, this is not a solution to these election officials' legal problems. In fact, accepting EOLDN's legal services may get these election officials into more jeopardy, because the EOLDN system facially violates Wis. Stat. § 19.59 (1)(b), prohibiting such transactions. Wis. Stat. § 19.59 (1)(b) provides:

> (b) No person may offer or give to a local public official, directly or indirectly, and no local public official may solicit or accept from any person, directly or indirectly, anything of value if it could reasonably be expected to influence the local public official's vote, official actions or judgment, or could reasonably be considered as a reward for any official action or inaction on the part of the local public official.

The problem is that CTCL and CEIR are Zuckerberg-Chan financed entities that worked together as a joint venture in the 2020 election. CTCL received $350 million for the 2020 election. CEIR received $69 million for the 2020 election. CTCL funded the $8.8

AMERICAN OVERSIGHT

million Wisconsin Safe Voting Plan (WSVP), which the cities of Milwaukee, Madison, Green Bay, Racine and Kenosha used to purchase illegal drop boxes and the provision of those funds constitutes election bribery under Wis. Stat. § 12.11.

EOLDN's three leaders: David Becker, Bob Bauer and Ben Ginsberg have different roles regarding the Zuckerbergs' CTCL and WSVP. Becker, as President of CEIR, received $69 million from Zuckerberg-Chan. Bauer and Ginsberg are election law attorneys who likely represent-- or are being paid by-- CEIR, CTCL, or related entities. Not surprisingly, all three—Becker, Bauer and Ginsberg—have publicly supported CTCL's distributions in Wisconsin as lawful.

EOLDN should know that CTCL and CEIR are potential parties or witnesses to future illegal drop box or election bribery litigation or prosecutions. In turn, CEIR and related entities are disqualified from providing attorneys for Wisconsin election bribery defendants because they are potential parties, potential witnesses or biased due to previous representation of related parties. Further, it appears, EOLDN, on behalf of Zuckerberg and Chan, are improperly coordinating legal defenses of election officials to protect CTCL, CEIR, Zuckerberg, Chan and related entities and individuals.

By providing free legal defense services for election officials in these subject areas, EOLDN may be violating the first part of Wis. Stat. § 19.59 (1)(b), which prohibits such transactions:

> No person may offer or give to a local public official, directly or indirectly, and no local public official may solicit or accept from any person, directly or

AMERICAN OVERSIGHT

> indirectly, anything of value if it could reasonably be expected to influence the local public official's vote, official actions or judgment.

The law applies to these circumstances as follows. The "person" is EOLDN or their attorney. The local public official is the election official receiving free EOLDN legal services. The "anything of value" provided is the free legal defense services provided by EOLDN. The gift of the free legal services could reasonably be expected to influence the election officials' official actions or judgment. Since EOLDN's free legal services will have foremost in mind protecting the interests of CTCL, CEIR, Zuckerberg and Chan, it will influence the election officials' official actions and judgment in defending Wis. Stat. § 5.06 administrative corrections and related criminal prosecutions. So, all the elements are satisfied for the transaction to be deemed prohibited.

By providing free legal defense services for election officials in these subject areas, EOLDN may be violating the second part of Wis. Stat. § 19.59 (1)(b) prohibiting such transactions:

> No person may offer or give to a local public official, directly or indirectly, and no local public official may solicit or accept from any person, directly or indirectly, anything of value if it …could reasonably be considered as a reward for any official action or inaction on the part of the local public official

The law applies to the circumstances as follows. The "person" is EOLDN or their attorney. The local public official is the election official receiving free EOLDN legal services. The "anything of value" provided is the free legal defense services provided by EOLDN. EOLDN or its attorney's gift of the legal services could reasonably be considered a reward for the official's actions regarding the illegal drop boxes, election bribery and/or violating

AMERICAN OVERSIGHT

the special voting deputies law. Recall CTCL, Zuckerberg and Chan financed the illegal drop boxes and election bribery, so EOLDN's free legal services to the election officials could be reasonably seen as a "reward" for their participation in unlawful actions related to the election.

Chapter 6

Wisconsin Election Officials' Widespread Use of Absentee Ballot Drop Boxes Facially Violated Wisconsin Law

In Wisconsin, election officials' unprecedented use of absentee ballot drop boxes facially violated Wisconsin law. This practice of unlawful absentee ballot drop boxes was particularly pervasive in the cities of Milwaukee, Madison, Kenosha, Racine and Green Bay. These bulk absentee ballot drop boxes were privately financed by Center for Tech and Civic Life (CTCL). The WSVP and CTCL's grant acceptance letter incorporating the WSVP is the agreement in which the city agreed to take CTCL's money to purchase and place absentee drop boxes in targeted neighborhoods. App. 10, 16-17.

In total, the WSVP provided $216,500 for unlawful absentee ballot drop boxes in the Zuckerberg 5. App. 17. The WSVP provided Green Bay $50,000 for absentee ballot drop boxes. App. 16. The WSVP provided Kenosha $40,000 for absentee ballot drop boxes. App. 16. The WSVP provided Madison $50,000 for absentee ballot drop boxes. App. 16. The WSVP provided Milwaukee $58,500 for absentee ballot drop boxes. App. 16. The WSVP provided Racine $18,000 for absentee ballot drop boxes. App. 17.

The use of absentee ballot drop boxes has been successfully challenged in state court as being unlawful. In a case in the Waukesha County Circuit Court, the plaintiffs sued the WEC to challenge 2020 guidance memos that the WEC issued to municipal clerks. Complaint, Teigen v. Wisconsin Elections Commission, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. June 28, 2021) (under review by the Wisconsin Supreme Court), available

AMERICAN OVERSIGHT

at App. 649-660. In particular, the plaintiffs challenged a memorandum that purported to authorize unstaffed ballot drop boxes:

> Despite this requirement in the statutes [i.e., the requirement that an absentee ballot either be returned by mail or be returned by the voter "in person, to the municipal clerk." Wis. Stat. § 6.87(4)(b)1], WEC Commissioners sent a memo to municipal clerks dated August 19, 2020, (the "August 2020 WEC Memo") stating that absentee ballots do not need to be mailed by the voter or delivered by the voter, in person, to the municipal clerk but instead could be dropped into a drop box and that the ballot drop boxes could be unstaffed, temporary, or permanent. (A true and correct copy of the August 2020 WEC Memo is attached hereto as Exhibit B.).
>
> Id. ¶ 10, available at App. 651.

The court granted the plaintiffs motion for summary judgment and declared the use of ballot drop boxes, outside of narrow exceptions, to be inconsistent with Wisconsin law:

> For the reasons set forth by the Court on the record at the January 13, 2022 hearing, the Court hereby declares that WEC's interpretation of state statutes in the Memos is inconsistent with state law, to the extent they conflict with the following: (1) an elector must personally mail or deliver his or her own absentee ballot, except where the law explicitly authorizes an agent to act on an elector's behalf, (2) the only lawful methods for casting an absentee ballot pursuant to Wis. Stat. § 6.87(4)(b)1. are for the elector to place the envelope containing the ballot in the mail or for the elector to deliver the ballot in person to the municipal clerk, (3) the use of drop boxes, as described in the Memos, is not permitted under Wisconsin law unless the drop box is staffed by the clerk and located at the office of the clerk or a properly designated alternate site under Wis. Stat. § 6.855.
>
> Order Granting Summary Judgment for Plaintiffs, Teigen v. Wisconsin Elections Commission, No. 21-CV-958 (Wis. Cir. Ct. for Waukesha Cnty. January 20, 2020), available at App. 66.

Accordingly, the Zuckerberg 5's privately funded absentee ballot drop boxes in the 2020 election were unlawful under Wis. Stat. § 6.87(4)(b)1 and § 6.855. Thus, the

AMERICAN OVERSIGHT

Zuckerberg 5 and CTCL's agreement for CTCL-funded purchase and placement of absentee ballot drop boxes was also unlawful and contrary to public policy. We suggest below legislative action that would make this prohibition even more clear.

Chapter 7

The Wisconsin Elections Commission (WEC) Unlawfully Directed Clerks to Violate Rules Protecting Nursing Home Residents, Resulting in a 100% Voting Rate in Many Nursing Homes in 2020, Including Many Ineligible Voters

Contrary to statements made by several groups and media sources over the past months, the OSC has uncovered evidence of election fraud in the November 2020 election. Rampant fraud and abuse occurred statewide at Wisconsin's nursing homes and other residential care facilities in relation to absentee voting at these facilities. This fraud and abuse was the ultimate result of unlawful acts by WEC's members and its staff, the end results being:

1. Residents were illegally assisted with "marking" their ballots by nursing home staff and administrators;
2. Absentee ballots for residents were illegally handled by facility staff and administrators;
3. Resident absentee ballots were illegally "witnessed" by nursing home staff and administrators;
4. Suspected forger of resident signatures by nursing home staff and administrators;
5. Improbably high voting rates for residents at nursing homes; and
6. Ballots cast by residents—
    1. Where those residents were unaware of their surroundings, with whom they are speaking at any given time, or what year it is; and/or

AMERICAN OVERSIGHT

2. Where those residents' right to vote had been taken away by court order because they have been adjudicated as mentally incompetent.

Through these acts, the members and staff of WEC mandated widespread election fraud to take place where our most vulnerable adult citizens reside.

The OSC has spent significant time and resources investigating the fraud and abuse that occurred at Wisconsin's nursing homes. However, that part of the investigation is nowhere near complete. While the OSC has been able to audit the votes of several nursing homes in five counties, and has interviewed the families of many residents who have been abused, the OSC believes a state-wide, complete audit of all absentee votes from all facilities governed by Wis. Stat 6.875 is necessary. The OSC is continuing to pursue this avenue of the investigation with an eye towards completing that audit.

There are four distinct types of Elderly Care Facilities in Wisconsin, Assisted Living (including assisted living apartments), Adult Day Care Centers, Nursing Homes and Memory Care Units. Many of the memory care units are operated within the Nursing Home environment. In total, there are about 92,000 people in Wisconsin who reside in these facilities.

Wisconsin law defines "election fraud" at Wis. Stat. § 12.13. That section provides in pertinent part—

"12.13 Election Fraud

(1) ELECTORS. Whoever intentionally does any of the following violates this chapter:

…

AMERICAN OVERSIGHT

(h) Procures, assists or advises someone to do any of the acts prohibited by this subsection.

(2) ELECTION OFFICIALS.

…

(b) No election official may:

…

3. Permit registration or receipt of a vote from a person who the official knows is not a legally qualified elector or who has refused after being challenged to make the oath or to properly answer the necessary questions pertaining to the requisite requirements and residence; or put into the ballot box a ballot other than the official's own or other one lawfully received.

4. Intentionally assist or cause to be made a false statement, canvass, certificate or return of the votes cast at any election.

…

7. In the course of the person's official duties or on account of the person's official position, intentionally violate or intentionally cause any other person to violate any provision of chs. 5 to 12 or which no other penalty is expressly prescribed.

(3) PROHIBITED ACTS. No person may:

…

(L) When not authorized, during or after an election, break open or violate the seals or locks on a ballot box containing ballots of that election or obtain unlawful possession of a ballot box with official ballots; conceal, withhold or destroy ballots or ballot boxes; willfully, fraudulently or forcibly add to or diminish the number of ballots legally deposited in a ballot box; or aid or abet any person in doing any of the acts prohibited by this paragraph.

…

(N) Receive a ballot from or give a ballot to a person other than the election official in charge.

…

AMERICAN OVERSIGHT

(P) Receive a completed ballot from a voter unless qualified to do so."

Wisconsin has enacted rules specifically related to the conduct of absentee voting in nursing homes and other residential care facilities. These rules are found in Wis. Stat. § 6.875. Wis.. Sat. § 6.875(2)(a) specifically states—

> Absentee voting in person inside residential care facilities and qualified retirement homes shall be conducted by municipalities only in the manner prescribed in this section. At any residential care facility or qualified retirement home where a municipality dispatches special voting deputies to conduct absentee voting in person under this section, the procedures prescribed in this section are the exclusive means of absentee voting in person inside that facility or home for electors who are occupants of the facility or home.

Among the rules that must be followed are that municipal clerks or boards of election commissioners must designate "Special Voting Deputies" (SVDs) for the purpose of supervising absentee voting in qualified retirement homes and residential care facilities, and that these SVDs must be dispatched to nursing homes to supervise absentee voting in those facilities, except in very limited circumstances.

If a resident at a nursing home or other residential care facility requests an absentee ballot, and SVDs are dispatched to that facility (which again must happen except in very limited circumstances) the law provides that the clerks or the board of electors must give the ballot to the SVDs "who shall personally deliver the ballot to the elector" when the SVDs visit the facility.

Once the ballot is delivered, the SVDs may assist the resident with "marking" the ballot. Importantly, the only people authorized by Wisconsin law to assist a resident in

AMERICAN OVERSIGHT

"marking" an absentee ballot are SVDs and "immediate family members." It is illegal for anyone else under any circumstances to do so. Further, the law specifically provides that "the [SVDs] **shall not accept** an absentee ballot submitted by an elector whose ballot was not issued to the elector by the [SVDs]" and that "[a]ll voting shall be conducted in the presence of the [SVDs]."

Once voting is complete on the day of an SVD's visit to the facility, Wisconsin law provides—

> **(d)** Upon completion of the voting on each day at each residential care facility or qualified retirement home, the deputies shall seal the absentee ballot envelopes and any absentee ballot applications inside a carrier envelope and shall seal the carrier envelope and sign their names to the seal. The deputies shall place the envelope inside a ballot bag or container. As soon as possible after visiting each residential care facility or retirement home, but not later than 18 hours after the visit, the deputies shall deliver the ballot bag or container to the clerk or board of election commissioners of the municipality in which the elector casting the ballot resides.

There is no provision in Wis. Stat. § 6.875 for absentee ballots from nursing home residents to be returned by mail, except in the case of a voter that "maintains a residence outside the facility or home" in which case the voter may request and return an absentee ballot in the standard manner as provided for elsewhere in the statutes. Wis. Stat. § 6.875(ar)2.

Despite the clear mandates of Wisconsin law, in a June 24, 2020 memorandum directed to all clerks of the state, WEC directed clerks not to send SVDs to facilities, and to instead mail ballots to voters in those facilities. WEC further stated that "The regular rules for absentee voting by mail will apply to ballots sent by mail to care facility voters."

AMERICAN OVERSIGHT

On September 25, 2020, WEC forwarded to all clerks of the State two documents, a "Sample Nursing Home and Care Facility Letter" (the "Facility Letter") and a training document entitled "Absentee Voting at Nursing Homes and Care Facilities" (the "Training Document").

The Facility Letter was provided to clerks as a template for letters to be sent by the clerks to nursing homes in their jurisdiction, directing those facilities as to the purported new rules for absentee voting for the November 2020 election. In the Facility Letter, WEC told the clerks to advise facilities that the normal restrictions against facility staff assisting residents with voting will not be in place "because of SVDs being restricted from visiting." It further provided that "[r]esidents who receive ballots will have to vote their ballot, have a witness provide required information on the return envelope, and return their ballot by mail in order to participate." The letter also stated that facility staff may assist residents in "completing the information required on the voter registration form" and completing absentee ballot request forms.

In addition to providing further details as to how facility staff could assist residents with registration, absentee ballot application, and voting, the Training Document stated—

> As a care facility administrator or staff member, you are able to:
>
> 1. Assist residents in filling out their ballots or certificate envelopes.
> 2. Assist residents in completing voter registration forms and absentee requests.
> 3. Sign the special certificate envelope (EL-122sp) if necessary (see below for explanation).
> 4. Witness ballots.

AMERICAN OVERSIGHT

The Training Document also provided certain "Absentee Voting FAQs" with answers thereto, including—

> Q: How do residents of my facility return their ballot? We used to have people (SVDs) come to the facility and administer the voting and take the ballots back. Now what is expected?
>
> A: Ballots should be mailed back to the clerk using the postage-paid return envelope provided by the clerk with the voter's ballot. They can also be returned to the clerk's office in-person at the request of the voter.
>
> Q: Who can assist the voter in voting their ballot?
>
> A: Anyone can assist the voter in reading and/or marking their ballot, except the voter's employer, including care facility staff and family. Normally, care facility staff are restricted from assisting voters, but this restriction is not in effect because the voter is casting their ballot by mail. Wis. Stat. § 6.87(5)
>
> Q: Can a resident's ballot be returned using a drop box at the Town/Village/City Hall?
>
> A: Yes, the ballot may be returned to a drop box or directly to the clerk's office at the request of the voter. All ballots must be received by 8:00 PM on election day in order to be counted. Not all municipalities offer drop boxes, so you should check with the clerk to see if one is available for ballot return.

Each and every WEC directive identified above in regard to absentee voting in nursing homes and other resident care facilities is a direct violation of Wisconsin law, and ultimately encouraged widespread fraud in regard to absentee voting at these facilities.

In addition to other violations, WEC's directives were illegal in the following ways:

1. Directing that facility staff may assist voters in registering to vote, applying for an absentee ballot and/or assisting the voter in marking the ballot are all violations of provisions of Wis. Stat. § 6.875;

2. Directing that clerks not send SVDs to any facilities violated the basic tenets of Wis. Stat. § 6.875 that absentee voting in nursing homes "shall" be conducted in compliance with that statute and that all absentee voting at nursing homes must be conducted "in the presence of [SVDs];"

AMERICAN OVERSIGHT

3. Directing clerks to mail ballots directly to nursing home residents violated the rule that absentee ballots requested by facility residents must be given first to SVDs, and then the SVDs are the only persons authorized to then give those ballots to the residents;

4. Directing that absentee ballots may be returned by mail, by placing them in a ballot drop box, and/or by returning them directly to the clerk (by someone other than an SVD) "at the request of the voter" all violate the rule that these absentee ballots are to be returned only to an SVD, who then must place them in a ballot bag or container and return them to the clerk within 18 hours.

Ultimately, WEC's directives mandated that widespread "election fraud" be undertaken in relation to the November 2020 election. As is noted above, "election fraud" occurs when ballots are given to, or received by anyone other than "the election official in charge" or when a person receives a completed ballot from a person "unless qualified to do so."

WEC's directives caused ballots to be mailed directly to nursing home residents rather than the "election officials in charge"—who would have been the SVDs. By the same token, it caused completed ballots to be illegally given to facility staff or returned by mail rather than the SVDs, violating both the rule that ballots cannot be given to anyone other than the "election official in charge" as well as the prohibition against receiving a completed ballot from someone "unless qualified to do so."

The only persons qualified to receive completed ballots from nursing home residents are, and were, SVDs. The law did not change before or after the November 2020 election, and WEC's directives were in direct violation thereof. As a result, WEC's directors and

AMERICAN OVERSIGHT

staff committed election fraud themselves by mandating and/or encouraging others to commit acts prohibited by the election fraud statute.

The OSC has evidence that facility staff and directors—

1. Assisted residents in completing ballots;
2. Assisted residents in obtaining absentee ballots;
3. Pressured residents to vote;
4. Collected completed ballots from residents;
5. Forged signatures of residents;
6. Illegally returned residents' ballots to the municipal clerks by mail, by placing the ballots in drop boxes, and/or delivering them directly to the clerks;
7. Pressured and/or assisted incompetent persons to complete and cast ballots in the November 2020 election, up to and including persons who have had their right to vote take away by court order due to mental incompetence.

Not only did WEC's directives mandate and/or encourage violations of Wis. Stat. § 6.875 and the election fraud statute: it led to absurd results relating to nursing home voting in the November 2020 election. The following chart shows the registered voting rates in the November 2020 election for nursing homes that were vetted by the OSC in Milwaukee, Racine, Dane, Kenosha, and Brown Counties:

AMERICAN OVERSIGHT

County	# of Nursing Homes Vettted	# of Registered Voters	# of Voters Nov 2020	% of Registered Voters that Voted
Milwaukee	30	1084	1084	100%
Racine	12	348	348	100%
Dane	24	723	723	100%
Kenosha	9	866	841	97%
Brown	16	280	265	95%

It is important to note that the above chart only reflects voting at the nursing homes that the OSC has been able to vet to this juncture. There are more facilities in these counties, and after auditing the votes from other facilities, the above percentages may change. Further, as is noted above, the OSC believes a complete state-wide audit of absentee ballots sourced from nursing home and other residential care facility residents is necessary.

Election fraud is a crime. The Racine County Sheriff's Office recommended criminal prosecution of certain members of WEC relating to their instructions to municipal clerks not to send SVDs to nursing homes for the November 2020 Presidential election. Specifically, the Sheriff recommended charges for WEC Commissioners Margaret Bostelmann, Julie Glancey, Ann Jacobs, Dean Knudson, and Mark Thomsen. The recommended charges are the same for each Commissioner, and include:

1. Misconduct in Public Office in violation of Wis. Stat. § 946.12(2) (Felony);
2. Election Fraud—Election Official Assisting with Violations in violation of Wis. Stat. § 12.13(2)(b)7 (Felony);
3. Party to the Crime of Election Fraud—Receive Ballot Non-Election Official

AMERICAN OVERSIGHT

in violation of Wis. Stat. § 12.13(3)(n) (Misdemeanor);

4. Party to the Crime of Election Fraud—Illegal Ballot Receipt in violation of Wis. Stat. § 12.13(3)(p) (Misdemeanor);

5. Party to the Crime of Election Fraud—Solicit Assistance in violation of Wis. Stat. § 12.13(3)(s) (Misdemeanor)

In a recent letter, Racine County District Attorney Patricia Hanson, after stating she did not have jurisdiction to prosecute, stated to Sheriff Christopher Schmaling that, in her expert legal opinion, multiple members of WEC acted "contrary" to Wisconsin Elections laws. District Attorney Hanson stated:

> Despite knowing that what they were doing was contrary to law and despite being told by the Governor's Office that they were exceeding their authority, the WEC instructed municipal and county clerks to eliminate the SVD process for elections in 2020. Proof of this comes directly from the recordings of the WEC meetings that can be found on their website and their recorded meetings.

District Attorney Hanson further stated:

> It is appalling to me that an appointed, unelected group of volunteers, has enough authority to change how some of our most vulnerable citizens access voting. Dispensing with the mandatory process created by the legislature of using sworn and trained SVDs to assist citizens in nursing homes, directly led to what occurred at Ridgewood Care Center in Racine County. Residents who did not request ballots voted because someone else made a request for a ballot on their behalf and then voted on their behalf. If even one person's right to freely choose to vote or not to vote was diminished, then a travesty of justice has occurred.

While the Racine County District Attorney has decided not to prosecute on jurisdictional grounds, the OISC has learned that the Racine County Sheriff's Office has forwarded referrals to the District Attorneys for the resident counties of the above-noted

AMERICAN OVERSIGHT

WEC members—St. Croix, Sheboygan, Green Lake and Milwaukee Counties. No decision has been made by those District Attorneys regarding prosecution as of this writing.

In an October 28, 2021 press release, WEC Chairman Ann Jacobs inaccurately denied that anyone at WEC broke the law and attempted to justify WEC's possibly unlawful acts by stating that had they not performed them, "many residents in Wisconsin care facilities could have and would have been disenfranchised and not able to vote in the 2020 elections." The OSC finds this statement to be no excuse.

WEC's solution to the potential "disenfranchisement" of nursing home residents who wished to vote absentee (a privilege under the law) was to completely strip away the protections afforded to those persons by Wisconsin law and allow nursing home residents to be subjected to undue influence, overzealous solicitation, and outright fraud.

Under Wisconsin law, while voting is a right, voting by absentee ballot is a privilege. Wisconsin law specifically provides that "the privilege of voting by absentee ballot must be carefully regulated to prevent the potential for fraud or abuse; to prevent overzealous solicitation of absent electors who may prefer not to participate in an election; to prevent undue influence on an absent elector to vote for or against a candidate or to cast a particular vote in a referendum; or other similar abuses." Beyond the stringent safeguards of absentee voting in general, absentee voting in nursing homes requires specialized supervision precisely because those facilities house our state's most vulnerable residents.

In stark contrast to what Wisconsin law seeks to prevent, WECs directives led to the abuse of some of our State's most vulnerable citizens. Many residents were pressured

AMERICAN OVERSIGHT

to vote when there is no scenario under which that should have ever happened legally or morally. The OSC conducted interviews with the families of several facility residents who were extremely vulnerable, and yet cast ballots in the November 2020 election. Among the stories we were told were—

1. In Brown County Facility 1, 20 absentee ballots were cast. A study of the Absentee Ballot Envelopes obtained through open records request revealed all 20 of the envelopes were witnessed by the same person. At this facility, Resident A voted, and Resident A's family provided copies of that resident's signature against the signature on the absentee envelope, and they do not match. Further, Resident A does not have the mental capacity to vote as is evinced in a video interview.

2. At the same facility, Resident B, according to WisVote data, voted twice, both by absentee ballot.

3. In Brown County Facility 2, Resident C voted in 2020. According to family, Resident C was not of sound mind for over 10 years. This is documented in a video interview;

4. In Brown County Facility 3, Resident D was taken from the facility to vote by family and guardian to Resident D's assigned polling location. Resident D had registered to vote at this location on Oct 29th as well. When Resident D presented herself to vote on election day, the Resident D was told that Resident D had already voted. After questioning from family, Resident D recollected that someone at the nursing home had come around talking about voting at the nursing home, however, Resident D denied voting at the home. WisVote shows her voting absentee;

5. In Dane County Facility 1, Resident E, who has been adjudicated incompetent since 1972, voted in 2020. Video of Resident E shows Resident E is clearly not mentally capable of voting;

6. In Dane County Facility 2, Resident F never requested an absentee ballot for the November 2020 election, yet received one. Resident F's guardian intercepted the ballot and subsequently Resident F did not vote. The guardian notified the nursing home that Resident F was no longer going to be voting yet in the Spring of 2021, WisVote records reveal that Resident F voted again;

AMERICAN OVERSIGHT

7. In Kenosha Facility 1, Resident G voted absentee in the Nov 2020 election. Resident G was interviewed on video and it shows she is clearly incapable of voting;

8. In Kenosha Facility 2, Resident H voted absentee in November of 2020. Resident H's guardian reported it as Resident H is incapable of voting as Resident H suffered from severe dementia. However, WisVote records indicate Resident H voted throughout the calendar year 2020;

9. In Milwaukee County Facility 1, WisVote data shows 3 adjudicated incompetent voters voted in the November 2020 election. However, it was actually 2 individuals with one casting two ballots;

10. In Milwaukee County Facility 2, Resident I is 104 years old and clearly incompetent. Resident I's family indicated Resident I had been incompetent for several years. This is an extremely egregious case as shown by video of Resident I with family. Resident I cannot comprehend anything;

11. In Outagamie County facility 1, Resident J, who has been adjudicated incompetent not only voted in the November 2020 election, but she also voted in February 2021. The video of Resident J verifies the fact that Resident J is incompetent.

12. In Washington County Facility 1, Resident K was found incompetent in 2018 by two separate doctors. Resident K cast a ballot in the November 2020 Presidential election. Resident K passed in November of 2021.

It is "disenfranchisement" when electors are pressured to fill out ballots they did not wish to or in a way they don't desire or even understand. It is "disenfranchisement" when ballots are illegally cast on behalf of persons who have had their right to vote taken away by the courts of this State due to their mental incompetence. In no way was WEC's mandating illegal activity a "solution" to "disenfranchisement" and to suggest that WEC's actions were a good faith effort at doing so ignores the facts and the law.

WEC's unlawful activities facilitated and encouraged possible widespread criminality and election fraud. Aside from the fact that they were legally and morally

AMERICAN OVERSIGHT

wrong, these acts led to 100% voting rates in many nursing homes in Brown, Dane, Kenosha, Milwaukee and Racine Counties and incapacitated people voting statewide. Given that there are approximately 92,000 residents of facilities governed by Wis. Stat. § 6.875 statewide, the fact that tens of thousands of illegal ballots from these facilities were counted casts doubt on the 2020 Presidential election result.

AMERICAN OVERSIGHT

Chapter 8

WEC Also Unlawfully Encouraged Evasion of Ballot Security Measures Related to "Indefinitely Confined" Voters at the Behest of Outside Corporations

Wisconsin, like many States, has strict absentee voting laws. These laws are designed to avoid the many prevalent dangers of fraud or abuse that are inherent in an absentee setting. It was never the intention of the Legislature to make absentee voting easily accessible from one's home without meeting voting identification requirements and complying with stringent voter protection laws. However, the Legislature made a special, narrow exception for indefinitely confined voters.

This exception for voting absentee applies when voters are confined to their homes and declare themselves to be indefinitely confined. An elector who is indefinitely confined because of age, physical illness, or infirmity, or is disabled for an indefinite period may, by signing a statement to that effect, require that an absentee ballot be sent to the elector automatically for every election. There are two requirements to vote indefinitely confined. The voter must be indefinitely confined to their home, and the reason for this confinement must be the voter's age, physical illness, sickness, or disability. While one can indefinitely confine themselves to their home for any reason, that confinement does not qualify for an absentee ballot unless the confinement is for a statutory reason—not including a reasonable or unreasonable fear of becoming ill from COVID.

AMERICAN OVERSIGHT

This statute was grossly misconstrued by the Dane and Milwaukee County clerks. Both clerks issued statements that they would send absentee ballots to voters who were indefinitely confined to their homes because of a fear of contracting COVID. The Wisconsin Supreme Court corrected this legally erroneous statement. However, during the time the clerks made their announcement until the judiciary forced the clerks to stop their announcements, the number of newly designated indefinitely confined voters skyrocketed. The clerks did nothing to remove these voters or determine which voters met the true legal definition of "indefinitely confined." Instead, the clerks sent these registrants absentee ballots. In doing so, they not only gave ballots to unqualified indefinitely confined voters but skirted a very important protection for election fraud.

Voter identification is required for every ballot issued in Wisconsin except to the indefinitely confined voter.

Instead, the voter "may, in lieu of providing proof of identification, submit with his or her absentee ballot a statement . . . which contains the name and address of the elector and verifies that the name and address are correct." Wis. Stat. § 6.87. This feature of indefinitely confined voting was also abused. In one documented incident from the Dane County recount, a voter reported that he called the clerk's office and requested an absentee ballot. He was asked if he had identification that had his current address. Having just moved to the city, he responded that he had not obtained a new identification card. He was told not to worry, that he could still get a ballot by declaring himself to be indefinitely confined. Then, he was instructed to say that he would provide proof of his address by statement.

AMERICAN OVERSIGHT

The clerk's office said not only would it send him a ballot for the 2020 general election, but they would send him a ballot to his home every year after without his having to request the ballot and without the necessity for identification until he stopped voting or reported that he was no longer indefinitely confined. The voter, an honest individual, declined the clerk's suggestion and reported his experience.

This was not the only abuse of the indefinitely confined voting law. A flagrant example is that of State Senator Patricia Schachtner. Schachtner and her husband signed statements indicating that they were indefinitely confined voters for the November 2020 election and opted to receive absentee ballots pursuant to Wis. Stat. § 6.87(2). However, social media showed the Schachtner family to be active outside their home in the months prior to and during the election both for personal recreation and as Schachtner campaigned for reelection. Additionally, Schachtner was named to be a Presidential elector to cast electoral college votes for Biden at the Wisconsin Capitol on December 14, 2020, approximately one month after the election for which she was indefinitely confined.

This is an egregious violation of the indefinitely confined status. One cannot be confined to one's home for a length of time with no definite end because of age, physical illness or infirmity, or disability and also campaign for reelection, enjoy social and family life, and appear at the Wisconsin Capitol to vote. Clearly, Schachtner and her husband were not indefinitely confined to their home when she requested and cast her ballot in the 2020 election. Schachtner and many others failed to follow our election law and no enforcement action was taken.

AMERICAN OVERSIGHT

Our Republic and way of life is in danger if we fail to follow and enforce the law. The rule of law requires that legal rules be publicly known, consistently enforced, and even-handedly applied. Violating the rule of law can lead to uncertainty. Uncertainty provides opportunities for arbitrary power. Without the rule of law, citizens may be tempted to take justice into their own hands.

My investigation will determine why the clerks failed to act on their obligation to review and expunge from the voter rolls those claiming to be indefinitely confined voters when the clerk has "reliable information that [the] . . . elector no longer qualifies for the service." Wis. Stat. § 6.86(2)(b). I am concerned that the electors who claimed they were indefinitely confined, but were not physically ill, infirm, elderly, or disabled failed to take steps to remove themselves from that status prior to the November 3, 2020, election. *See* Wis. Stat. § 6.86(2)(a). I am even more concerned that ineligible voters might have taken advantage of that status in order to vote without the need to properly identify themselves. I expect to issue another report that includes the impact of indefinitely confined voting abuses and how the Legislature can prevent these abuses in the future to restore confidence in the rule of law.

Wards Under Guardianship Order Voted Unimpeded by Wisconsin's Election Officials as They Are Not Recorded in the WisVote Voter Database, Even Though the Circuit Courts Have This Information.

Wis. Stat. § 6.03 disqualifies from voting those citizens who are incapable of understanding the voting process or are under court-ordered guardianship, unless the court has determined that the right to vote is preserved. The statute states:

> 6.03 Disqualification of electors.
> (1) The following persons shall not be allowed to vote in any election and any attempt to vote shall be rejected:`
> (a) Any person who is incapable of understanding the objective of the elective process or who is under guardianship, unless the court has determined that the person is competent to exercise the right to vote.
> (b) Any person convicted of treason, felony or bribery, unless the person's right to vote is restored through a pardon or under s. 304.078 (3).
> (2) No person shall be allowed to vote in any election in which the person has made or become interested, directly or indirectly, in any bet or wager depending upon the result of the election.
> (3) No person may be denied the right to register to vote or the right to vote by reason that the person is alleged to be incapable of understanding the objective of the elective process unless the person has been adjudicated incompetent in this state. If a determination of incompetency of the person has already been made, or if a determination of limited incompetency has been made that does not include a specific finding that the subject is competent to exercise the right to vote, and a guardian has been appointed as a result of any such determination, then no determination of incapacity of understanding the objective of the elective process is required unless the guardianship is terminated or modified under s. 54.64.

The Help America Vote Act, section 21083, provides "if a State is described in section 4(b) of the National Voter Registration Act of 1993 (42 U.S.C. §§ 1973gg–2(b))

AMERICAN OVERSIGHT

[now 52 U.S.C. § 20503(b)], that State shall remove the names of ineligible voters from the computerized list in accordance with State law." Wisconsin is described in section 20503(b); so, section 21083 requires the state's election officials to follow state law on removal of ineligible voters from the computerized list. Accordingly, section 21083 requires that WEC remove the names of ineligible voters from the computerized list, WisVote, in accordance with Wisconsin law.

In Wisconsin, ineligibility information about wards under guardianship without the right to vote is available from the circuit courts. Information about persons who are incapable of understanding the objective of the elective process is available from family, friends, medical authorities and nursing homes.

Under federal law, WEC is legally required to include in WisVote ineligibility information about ineligible wards and incapacitated persons. WEC is also legally required under federal law to distribute to the State's municipal clerks lists of wards and incapacitated person so as to prevent these ineligible non-citizens from election day registration and voting.

In violation of its federal and state legal duties, Wisconsin election officials failed to prevent wards and incapacitated persons from voting in the 2020 Presidential election—casting doubt on the election result.

AMERICAN OVERSIGHT

Chapter 10

Non-citizens Voted Unimpeded by Wisconsin's Election Officials, as They Are not Recorded in the WisVote Voter Database, Even Though Wisconsin Law Requires Citizenship to Vote.

Wis. Stat. § 6.02 requires citizenship to be qualified as an elector. The statute states:

> 6.02 Qualifications, general.
> (1) Every U.S. citizen age 18 or older who has resided in an election district or ward for 28 consecutive days before any election where the citizen offers to vote is an eligible elector.
> (2) Any U.S. citizen age 18 or older who moves within this state later than 28 days before an election shall vote at his or her previous ward or election district if the person is otherwise qualified. If the elector can comply with the 28-day residence requirement at the new address and is otherwise qualified, he or she may vote in the new ward or election district.

Section 21083 of the Help America Vote Act provides "if a State is described in section 4(b) of the National Voter Registration Act of 1993 (42 U.S.C. §§ 1973gg–2(b)) [now 52 U.S.C. § 20503(b)], that State shall remove the names of ineligible voters from the computerized list in accordance with State law." Wisconsin is described in section 20503(b); so, section 21083 requires the state's election officials to follow state law on removal of ineligible voters from the computerized list. Accordingly, section 21083 requires that WEC remove the names of non-citizens, who are by definition ineligible voters, from the computerized list, WisVote, in accordance with Wisconsin law.

In Wisconsin, ineligibility information about non-citizens is available from the Department of Transportation. The Department of Transportation issues driver licenses to non-citizens who qualify. Under federal law, WEC is legally required to include in

AMERICAN OVERSIGHT

WisVote ineligibility information about non-citizens from the Department of Transportation. WEC is also legally required under federal law to distribute to the state's municipal clerks lists of non-citizens so as to prevent these ineligible non-citizens from election day registration and voting.

In violation of its federal and state legal obligations, Wisconsin election officials failed to prevent non-citizens from voting in the 2020 Presidential election—casting doubt on the election result.

Chapter 11

Milwaukee, Madison, Racine, Kenosha, and Green Bay Election Officials May Have Violated the Federal and Wisconsin Equal Protection Clauses by Not Treating All Voters Equally in the Same Election.

Importantly, the Zuckerberg 5 election officials violated Federal and Wisconsin Equal Protection Clauses by not treating all voters the same in the same election. Treating all voters equally in the same election is a bedrock principle of election law.

The public record shows that the public's right to vote was unjustifiably burdened by the Zuckerberg 5 targeting geographic and demographic groups for increased voting. The Zuckerberg 5's conduct promoting voting for certain voter groups affected election outcomes—as concluded by WILL's 2021 analytical report. The Zuckerberg 5 in the WSVP crossed the line between election administration and campaigning and that never should have never occurred.

The appropriate standard of review for Equal Protection Clause analysis is Anderson-Burdick scrutiny for the disparate treatment of voters and, also, here, strict scrutiny of the government's rationale. When a plaintiff alleges that a state has burdened voting rights through the disparate treatment of voters, the legal standard used is generally found in *Anderson v. Celebrezze*, 460 U.S. 780 (1983) and *Burdick v. Takushi*, 504 U.S. 428 (1992). *See also Clements v. Fashing*, 457 U.S. 957, 965

AMERICAN OVERSIGHT

(1982). Although *Anderson* and *Burdick* were both ballot-access cases, the Supreme Court has confirmed their vitality in a much broader range of voting rights contexts. *See Crawford v. Marion Cnty. Election Bd.*, 553 U.S. 181, 204 (2008) (Scalia, J., concurring.) ("To evaluate a law respecting the right to vote—whether it governs voter qualifications, candidate selection, or the voting process—we use the approach set out in Burdick.... "). The *Burdick* Court stated the standard as follows:

> A court considering a challenge to a state election law must weigh "the character and magnitude of the asserted injury to the rights protected by the First and Fourteenth Amendments that the plaintiff seeks to vindicate" against "the precise interests put forward by the State as justifications for the burden imposed by its rule," taking into consideration "the extent to which those interests make it necessary to burden the plaintiffs' rights."

Burdick, 504 U.S. at 434, (quoting *Anderson,* 460 U.S. at 789). This standard is sufficiently flexible to accommodate the complexities of state election regulations while also protecting the fundamental importance of the right to vote. *Obama for America v. Husted*, 697 F.3d 423, 428–30 (6th Cir. 2012). There is no "litmus test" to separate valid from invalid voting regulations; courts must weigh the burden on voters against the State's asserted justifications and "make the 'hard judgment' that our adversary system demands." *Crawford,* 553 U.S. at 190 (Stevens, J., announcing the judgment of the Court).

Similar to the federal constitution, Wisconsin's Constitution requires equality from the government, including the Zuckerberg 5 when it takes on a government function:

> Equality; inherent rights. Section 1. All people are born equally free and independent, and have certain inherent rights; among these are life, liberty

AMERICAN OVERSIGHT

> and the pursuit of happiness; to secure these rights, governments are instituted, deriving their just powers from the consent of the governed.

Art. I, sec. 1. The same legal standard of review applies for state constitutional claims.

The *Anderson–Burdick* standard, therefore, applies.

Additionally, when a state's classification "severely" burdens the fundamental right to vote, strict scrutiny is the appropriate standard. *Burdick,* 504 U.S. at 434 (1992). The federal courts "have long been mindful that where fundamental rights and liberties are asserted under the Equal Protection Clause, classifications which might invade or restrain them must be closely scrutinized and carefully confined." *Harper v. Va. Bd. of Educ.,* 383 U.S. 663, 670 (1966). Here, it is the CTCLs private funding of the Zuckerberg Plan's governmental classifications that treat voters differently in the same elections, which triggers strict scrutiny.

Nothing could be more repugnant to democracy than private corporations paying to increase voting access for targeted demographic groups, so that they can manipulate election outcomes—something that will occur repeatedly under the auspices of the WSVP provisions. Private corporations were paying money to affect the election outcome. So strict scrutiny must apply when private funding of election administration targeting voter groups is involved—because the credibility of our federal elections is at stake

Additionally, in *Bush v. Gore*, the U.S. Supreme Court emphasized that equal protection restrictions apply not only to the "initial allocation of the franchise," but "to the manner of its exercise" as well. *Bush*, 531 U.S. 98, *at* 104 (2000). The State may not subject voters to "arbitrary and disparate treatment" that "value[s] one person's vote over that of

AMERICAN OVERSIGHT

another." *Id.* This equal protection prohibition on "arbitrary and disparate treatment" of different voters participating in the same election is what at least one commentator calls *Bush*'s "Uniformity Principle." Michael T. Morley, *Bush v. Gore's Uniformity Principle and the Equal Protection Right to Vote,* 28 Geo. Mason L. Rev. 229 (Fall 2020).

Courts have applied the Uniformity Principle to intentional discrimination concerning in-person voting opportunities. For example, in *Obama for America v. Husted,* 697 F.3d 423 (6th Cir. 2012), the Sixth Circuit held that it was unconstitutional for the State of Ohio to allow only domestic military voters to cast ballots in person over the weekend before Election Day. *Id.* at 437. The court noted that, although military voters can face unexpected emergencies that prevent them from voting in person on Election Day, other voters may face similar contingencies:

> At any time, personal contingencies like medical emergencies or sudden business trips could arise, and police officers, firefighters and other first responders could be suddenly called to serve at a moment's notice. There is no reason to provide these voters with fewer opportunities to vote than military voters .... *Id.* at 435. The court concluded that the Equal Protection Clause therefore prohibited the state from making special accommodations only for military voters. *Id.* at 436. The court added that it would be "worrisome ... if states were permitted to pick and choose among groups of similarly situated voters to dole out special voting privileges."
>
> *Id.* at 435.

Similarly, the Zuckerberg 5's WSVP was their collective effort "to pick and choose among groups of similarly situated voters to dole out special voting privileges"—which, when the Zuckerberg 5 is taking on a government function, violates the Equal Protection

AMERICAN OVERSIGHT

Clause. *Id.* at 435. Accordingly, a post-certification administrative correction for the 2020 Presidential election should be made that the Zuckerberg 5 violated the federal and state Equal Protection Clauses.

Recommendations

As noted above, OSC respectfully submits the following recommendations to the Wisconsin Assembly for its consideration, and its staff is pleased to provide additional information, testimony, and technical assistance. These recommendations fall into two categories: those facilitating transparency, and those facilitating political accountability. However, there is a strong positive synergy between the two goals: *i.e.*, the more transparent a process, the more politically accountable, and vice versa.

The OSC also submits a number of recommendations for WEC, as currently constituted, and for clerks. As the Administrator of WEC has noted, however, advice from WEC does not provide a legal safe harbor for clerks, and neither does advice from the OSC or any other merely persuasive authority in this area. Ultimately, it is incumbent upon the approximately 1,852 municipal clerks, the primary agents of election supervision in the State, to consult with their available counsel and make their own independent legal determinations in every case.

Legislative Recommendations to Serve Transparency

1. **Eliminate the Wisconsin Elections Commission**. As outlined in the Interim Report and above, replacing the disgraced and abolished Government Accountability Board with WEC has continued many of the same abuses of secrecy and confusion. The staff remains deeply connected to special interest groups and fails to adequately respond to voter and clerk complaints. Its biennial appropriation is over $10 million, money which could be spent to

AMERICAN OVERSIGHT

support municipal and county clerk operations. In addition, as its Administrator has noted, WEC provides no authoritative legal safe harbor for clerks: eliminating WEC would help clarify the constitutional and statutory authority of popularly elected officials and the voters in handling election matters. Any functions of WEC that might arguably be required by various federal laws could lawfully be handled by an empowered executive branch office of the Secretary of State, or by a collective body of county clerks themselves, or by some other structure. Currently, Wisconsin is only one of two States with a politically unaccountable bureaucracy tasked with providing guidance in election administration.

2. **Eliminate or Reduce Fees for Voter Registration Data**. Currently, voter registration information, including addresses, names, and voter history, are available for purchase. WEC sells that information for $12,500. However, this information is not available in real-time and, worse yet, the fees are waived by contract with special interest groups. This fee should be eliminated or reduced by statute to a token fee (say, $40 as it is in Arizona) to put all citizens on equal footing, and to allow for citizens to help keep the system up-to-date. It is important that the names and addresses of those who voted—with certain exceptions—are made freely available so that anyone so interested could compare, at no, or low cost, the names and addresses of those eligible to vote with those who, in fact voted. This would remove much of the opacity of the current system and bolster public faith in elections.

3. **Maintain a Single Statewide Voter Registration Database, and Make it Publicly Available and Secure**. As it stands, Wisconsin maintains several competing sets of interlocking databases and access systems. Clerks have noted that they were often given

AMERICAN OVERSIGHT

superfluous sets of access keys, and that these systems are theoretically accessible out of state or out of the United States. WEC has also complained to the Assembly that providing comparisons between data sets on certain dates is extremely expensive. Making the information publicly available would place all individuals and parties on an equal footing and allow academic institutions (for example) to compare data sets over time. This would facilitate data quality and transparency with no cost to voter privacy.

1. **Set Up An Office to Engage in Auditing and Oversight of Elections**. Currently, there is no office in the State of Wisconsin with an ongoing charge to audit elections, or to systematically intake and respond to citizen complaints. The Legislature could consider setting up an office whose role is distinct from the Legislative Audit Bureau (LAB) and which merely undertakes periodic and random auditing of elections in various jurisdictions and delivering those results to the Legislature. This should professionalize and standardize oversight and facilitate long-term improvement and data quality. In addition, the Legislature could consider appropriating funds to enable the Attorney General to vigorously engage in investigation and prosecution of election law violations.

2. **Standardize a Process for Post-Election Contest**. Inevitably, elections will be contested. The Legislature should consider reviewing remedies to enable losers of elections to audit a small number of wards for a nominal cost, or for free. It should consider other remedies, including injunctive relief, to preserve the *status quo* while electoral contests are investigated.

3. **Prohibit Certain Contractual Terms in Government Contracts**. The Legislature should consider prohibiting certain vendor contractual terms as a matter of public policy.

AMERICAN OVERSIGHT

For example, it should limit the use and release of sensitive voter data by vendors. It should prohibit terms that block Wisconsin governmental entities from obtaining or releasing data they paid for. And it should prohibit contracting with entities that do not timely respond to governmental requests for information, such as valid criminal or legislative subpoenas.

4. **Minimize Pre-Voting**. It is evident that widespread use of absentee and absentee-in-person voting renders public participation and oversight of counting impossible. Guidance by WEC "enabling" clerks to open envelopes prior to the statutorily mandated deadline denies citizens their right to observe that process. If public oversight of absentee voting is too burdensome, a better option is to prioritize traditional, in-person voting.

5. **Encourage In-House Technical Support**. Each clerk OSC spoke with made clear that their office simply does not have the technical ability to service various electronic voting machines. They simply do not and cannot understand how the various machines work. In the past, municipal public works departments maintained expertise in servicing analog machines. The Legislature should consider funding a program to bring technical expertise in-house, including considering a single state-wide machine system or single-client vendor.

6. **Exit the Electronic Registration Information Center (ERIC)**. The State of Wisconsin pays this outside group six figures per year to assist it in cleaning up our voter rolls, but receives little to no benefit from it. In fact, as was recently noted in testimony before the Assembly, the contract with ERIC ties the hands of election officials in numerous ways. The State can seek lawful, bilateral agreements with States to ensure only lawful voters are on the rolls, without the concerns about partisanship.

AMERICAN OVERSIGHT

Legislative Recommendations to Serve Political Accountability

1. **Provide a Method in Law for Private Challenge to Wisconsin Voter Rolls.** As it stands, there is no clear method for individuals with facial evidence of inaccurate voter rolls to enter state court and seek to fix that problem. The Assembly could consider various legal methods to enable citizens or civil rights groups to help maintain election database integrity in this way. Such a cause of action should take into account administrative burdens, and could even provide nominal rewards for successful voter roll challenges.

2. **Locate Certification of Presidential Electors in a Politically Accountable Body**. In 2020, the presidential electors were certified by a single member of WEC and the Governor. As a political action, certification of electors cannot be subject to the whim of the courts, or purely legal processes. Legitimate contests have occurred in the past and will occur again. To ensure widespread bipartisan confidence in the system, state law should explicitly authorize the contingent creation by campaigns of alternative slates of electors, and could consider penalties for certain actions of those alternates if results are not contested. In the event of widespread contest, the thumb should be on the scale in favor of withholding certification of electors. As noted in the Interim Report, "Hasty certification of electors in a tightly contested election may disenfranchise voters to the same extent as missing a deadline and failing to certify electors at all. While hasty certification may violate the state constitutional duties of the Legislature, delaying certification of electors until resolution of relevant issues does no such violence to our legal system." Finally, placing certification of electors in a politically accountable body, such an association of elected county clerks, could restore confidence in the results of even a closely contested

AMERICAN OVERSIGHT

presidential contest in the State.

3. **Provide a Method for Pre- and Post-Certification Challenges to Presidential Elections.** As noted in Appendix II, certification of electors in a Presidential election is a quintessentially political act, delegated by the state and federal constitutions to our elected state Legislature. However, the Legislature can consider establishing processes for standardizing challenges both pre-and post-certification. Such processes might establish administrative or legal rights, or establish opportunities to raise or expedite decertification procedures on the floor of the Assembly or Senate. The Legislature might also consider formalizing the ability of candidates to assemble alternative slates of electors, to ratify an already lawful process.

4. **Prohibit Outside Funding and Staff in Elections Administration**. OSC concurs in the recommendation of numerous clerks that outside money be prohibited in the administration of Wisconsin elections. Our State has a deep, progressive history and is suspicious of private entities engaging in governmental activity. Clerk's offices should be (and in 2020 were) adequately funded by state and federal entities, as appropriate, but outside grants should be disfavored or prohibited, especially where those grants have any conditions on them. Further, outside volunteers and observers should all be treated on equal footing.

AMERICAN OVERSIGHT

Recommendations for the Wisconsin Elections Commission

(as currently constituted)

1. **Comply with Legislative Audit Bureau Recommendations**. In particular, promulgate statutorily required administrative rules prescribing the contents of training that municipal clerks provide to special voting deputies and election inspectors; eliminate all statutorily non-compliant guidance.

2. **Enter Into Data-Sharing Agreement with Wisconsin Department of Transportation**. In particular, execute with the Department of Transportation a new written data-sharing agreement that includes provisions for verifying the information provided by individuals who register to vote by all methods and that specifies the procedures for verifying this information; establish a system to regularly review and update the data-sharing agreement; and comply with statutes by working with the Department of Transportation to obtain the electronic signatures of individuals who register online to vote. An enforcement mechanism to align the data, such as by citizen suit, perhaps accompanied by a small monetary bounty, would also be a useful supplement to this reform.

1. **Enter Into Data-Sharing Agreement with Wisconsin Department of Health Services**. In order to ensure that our most vulnerable are not exploited, and to facilitate accurate voter rolls, WEC should work to execute a new written data-sharing agreement with the Department of Health Services and establish a system to regularly review and update the data-sharing agreement. Again, a citizen suit and bounty reform could be added on here as well to ensure data-sharing occurs properly.

AMERICAN OVERSIGHT

2. **Enter Into Data-Sharing Agreement with Wisconsin Department of Corrections (DOC)**. In order to ensure that only eligible voters are registered, WEC should work with DOC to execute a new data-sharing agreement and implementation system. Again, a citizen suit and bounty reform could be added on here as well to ensure data-sharing occurs properly.

3. **Provide Additional Training to Clerks**. If there is one function that an independent election administration can perform well, it is training. WEC should consider providing additional training to clerks along several dimensions: providing training for clerks related to machine certification, security, and statutorily mandated pre-election testing; training related to reviewing Election Day forms after each election and investigating relevant issues, including those related to tamper-evident seals; and training on ensuring that ballots are counted accurately when paper jams occur in electronic voting equipment.

Recommendations for Clerks

1. **Familiarize Yourself with Your Wisconsin Code Authority**. Surprisingly, many clerks have expressed to the OSC that they are under the impression that WEC guidance is binding, even when they believe such guidance (say, on drop boxes) is unlawful. Clerks and whatever counsel they have available should review their authority ahead of any conflict.

2. **Make Independent Assessments**. In circumstances where WEC guidance is contrary to law, clerks are empowered to make independent assessments, as they are the elected officials responsible for elections administration. As the Administrator of WEC has noted,

AMERICAN OVERSIGHT

WEC guidance provides no legal safe harbor or immunity for clerks: it is true that clerks are on the legal hook for their own assessments, and should develop good relationships with corporate or outside counsel.

3. **Carefully Review Outside Contracts**. Clerks and other election officials should be careful not to enter into contractual arrangements with outside groups that do not serve the public interest, even when these agreements sound attractive or come with funding grants. As we saw in 2020, these contracts can be leveraged to coerce election officials and cause them to violate their oaths of office. When clerks do enter into outside contracts, they should endeavor to make those contracts public in their entirety. In the interests of transparency, clerks should endeavor to obtain comparable contracts, and donor lists, from nonprofits before engaging them.

4. **Explicitly Prohibit Your Staff from Engaging in Get-Out-The-Vote (GOTV) Operations**. In 2020, we did see widespread GOTV operations engaged in by municipal clerk's offices. This is inappropriate, as GOTV is a partisan activity, historically (and currently) engaged in by candidates and their parties. Staff should be apprised that even when described as "voter education," encouraging voting by any group is not the duty of a busy and potentially underfunded clerk's office.

5. **Consider Robust Voter Roll Review in Your Jurisdiction**. County and municipal clerks are responsible for maintaining the integrity of the voting rolls. Even in election years, federal law does not prohibit Wisconsin officials from removing ineligible voters from the rolls.

AMERICAN OVERSIGHT

6. **Maintain An Exhaustive and Clear List of Election Day Personnel**. Under Wisconsin law, there are two classes of person on election day: election workers, and the general public. There is no third category. Election workers are bound by legal and ethical norms. Do not permit unauthorized individuals to operate under the color of state law.

7. **Catalog All Absentee Ballots Sent Out and Match These with Ballots Returned.** Some voters have reported receiving as many as four absentee ballots leading up to the November 3, 2020 election.

8. **Do Not Engage in Ballot Curing for Absentee Ballots Missing Requisite Voter Data.** Neither state nor federal law mandate curing ballots that are legally incomplete: clerks can take reasonable efforts to contact voters to remedy seemingly minor defects, but should be mindful of their own resources and state law.

AMERICAN OVERSIGHT

Chapter 13

Conclusion

As noted at the outset, this Report by no means represents a "full audit" of the 2020 elections in the State of Wisconsin. Instead, it represents a snapshot of various issues identified by the OSC, other governmental actors, and citizens in the State, and makes a number of recommendations to fix them. Without full transparency by governmental actors, without a fully equipped office to investigate, and without time, some degree of triage by OSC was necessary. A full audit would undoubtedly take a look not just at evidence of major issues and draw inferences, but would take a comprehensive look at election processes, contracts, and machines, to stress test and run other technical reviews. This office has engaged with outside contractors and entered preliminary steps in the government procurement process. However, these auditors have let us know that without full access to information, they are unable to provide robust conclusions.

Again, as discussed by the Committee of Jurisdiction and the Speaker in public, the work of the Office of the Special Counsel is just getting started. The Office will remain authorized during the pendency of litigation to ensure that once the Wisconsin Supreme Court vindicates the right of the people to know what their own government is up to, we can expeditiously run necessary tests.

In the meantime, the major issues identified with compliance and oversight, especially at a time when the federal Congress is making known that legislative oversight is critical to lawmaking, are themselves cause for concern. The Special Counsel hopes that

AMERICAN OVERSIGHT

the Assembly and the public can continue to fight to hold our election administration accountable and to ensure it is secure and efficient.

Finally, the Special Counsel would like to thank the concerned citizens and citizen groups, the numerous clerks and other public servants who have cooperated with the investigation, and the staff, contractors, and partners of the OSC and Assembly for their hard work and dedication to improving our democratic system.

AMERICAN OVERSIGHT

Appendix I: Litigation Summary

As noted throughout, this Report regarding the administration of the 2020 election in Wisconsin is incomplete because the Office of the Special Counsel has received little to no cooperation in its investigation from the government officials and others that were responsible for conducting the election. As part of its investigation, the OSC has sent out ninety subpoenas for witness testimony. While we have conducted numerous interviews with voluntary witnesses, including governmental witnesses, due to public pressure from the Governor and out-of-state actors, word has gone out that the government does not need to respond to the elected Assembly. Instead, the OSC has been embroiled in litigation relative to those subpoenas since late 2020.

1. Dane County Case Number 2021CV002552, *Wisconsin Elections Commission et al. vs. Wisconsin State Assembly et al.*

On October 21, 2020 WEC and its Administrator—Meagan Wolfe—sued the OSC and the Wisconsin Assembly in Dane County Circuit Court seeking an order that OSC subpoenas with which they had been served were invalid as impinging upon her personal rights. In doing so, WEC aims at the authorized mission of the OSC to investigate whether officials "have failed to adhere to our election laws by, at various times, ignoring, violating, and encouraging noncompliance with bright-line rules established by the statutes and regulations governing the administration of elections in Wisconsin."

Notably, WEC took the unprecedented step of employing the Wisconsin Department of Justice as its attorneys in the lawsuit against the OSC and the Assembly.

AMERICAN OVERSIGHT

Until this lawsuit, never before in the history of the State had one arm of the executive branch of Wisconsin's state government (WEC) used another arm of the executive branch (the DOJ) to seek a ruling from a separate branch (the judiciary) that an action by a third branch of state government was invalid and unenforceable (the subpoenas issued by OSC via the Assembly). In short, taxpayer money is being used by the Attorney General to block routine oversight by the duly-elected legislative body in the State, leading to a great waste of taxpayer money.

On October 25, 2021, the Attorney General lost, as Dane County Circuit Court Judge Rhonda Lanford ruled that WEC was not entitled to an emergency injunction invalidating the subpoenas or preventing OSC from seeking to enforce them. After further litigation, on January 10 2022, Judge Lanford ruled that while WEC did have the authority to bring the lawsuit and it would not be dismissed outright, WEC had not established that it was entitled to a temporary or permanent injunction against enforcement of the subpoenas. The matter was held open for further proceedings to address the WEC's overall complaint that the subpoenas are an invalid exercise of legislative authority.

Since that time, WEC has filed an Amended Complaint setting forth additional facts in support of its claims that the subpoenas are invalid, and other parties have sought to intervene and participate in the matter. A hearing is scheduled for March 17, 2022 on the proposed intervention of these other parties, but there is no other scheduled court activity.

In the meantime, neither WEC or Ms. Wolfe have voluntarily agreed to present their testimony to the OSC. It is likely that unless and until the matter is resolved by the Dane

AMERICAN OVERSIGHT

County Circuit Court (and then all potential appeals are exhausted) the subpoenas for WEC and Ms. Wolfe will remain unsatisfied.

2. Waukesha County Case Number 2021CV001710, *Michael J. Gableman vs. Eric Genrich et al.*

Among the parties that have been subpoenaed for their testimony are the Mayor of Green Bay—Eric Genrich—and the Mayor of Madison—Satya Rhodes-Conway. In response to subpoenas with which they were served, the mayors did provide some documents that were requested, but at the same time neither agreed to appear to testify as required by the subpoenas. As a result, the OSC was put in a position of having to seek judicial assistance to direct that the mayors provide that testimony.

To do so, the OSC filed petitions for "writs of assistance" from the Waukesha County Circuit Court to require the mayors to appear and give the required testimony. A judicial writ of assistance is provided for by Wisconsin's statutes. When a judge issues one, a witness must appear for testimony required by a subpoena. If the witness does not, the judge may order that the recalcitrant witness be subjected to punitive action, up to and including incarceration. However, before that can happen, the witness has the opportunity to appear before the court and argue that he or she is excused from appearing because the subpoena is invalid or for any number of other reasons.

The OSC filed for writs of assistance in Waukesha County Circuit Court as the statute setting forth the procedure for obtaining such writs commands that the writ be

AMERICAN OVERSIGHT

sought "in the county where the person was obliged to attend." Wis. Stat. § 885.12. As the mayors' testimony was compelled by the subpoenas to occur in Waukesha County, the OSC was mandated to seek writs of assistance from the Waukesha County Circuit Court.

Before there was any substantive court appearance or action of any kind, Mayor Genrich appeared in the action represented by two law firms—Stafford Rosenbaum. LLP and Law Forward, Inc. Stafford Rosenbaum is a Madison-based law firm with over 50 attorneys, and Law Forward is an "impact litigation firm committed to protecting and advancing democracy and to restoring Wisconsin's pragmatic progressive tradition." Law Forward has a "Legal Advisory Council" that is comprised of, among others, prominent Democrat politicians, including former United States Senator Russ Feingold, and former Lt. Governor Barbara Lawton. There are no current or former elected officials on Law Forward's advisory council that identified as Republican over the course of their respective careers. There are also several attorneys on the Council that have written about, and advocated for, progressive political causes, but none that appear to have ever advocated for conservative ones.

Mayor Genrich is now additionally represented by two more attorneys—Aaron Scherzer and Christine P. Sun. Mr. Scherzer and Ms. Sun are associated with the "States United Democracy Center," an organization whose professed mission is "advancing free, fair, and secure elections," focusing on "connecting State officials, law enforcement leaders, and pro-democracy partners across America with the tools and expertise they need to safeguard our democracy."

AMERICAN OVERSIGHT

Mayor Rhodes-Conway appeared by two lawyers for the City of Madison.

At the very outset, the mayors' attorneys portrayed the actions of the OSC as—

3. "lacking in legal merit;"
4. a "gross distortion of the relevant facts" and "a gross mischaracterization of the facts;"
5. "departing so greatly from legal standards" so that the Special Counsel should be sanctioned by the Court;
6. "an abuse of process;" and
7. "a bad-faith effort to publicly harass local officials with no legal basis."

None of these statements are remotely true, of course, but the OSC has been forced to respond to these scurrilous accusations both in the press and in court.

Shortly afterward, the representatives of WEC and the mayors began "cross-pollinating" the Dane County matter with the Waukesha County matter by filing letters with the respective courts smearing the OSC and improperly attempting to influence the respective judges. The Wisconsin Department of Justice filed a letter in the Waukesha County matter, arguing that the subpoenas were invalid and that the validity of the subpoenas addressed to the mayors would be addressed in large part by the court in the Dane County matter discussed above. In addition, mayor Genrich's representatives attempted to influence the outcome of the Dane County matter by filing a letter with that court arguing that the OSC had made "misrepresentations" to the Waukesha County court and that the subpoenas were "unauthorized, quasi-depositions of mayors and elections officials throughout Wisconsin."

AMERICAN OVERSIGHT

As of this writing, written briefs are being submitted to the Court regarding the following inquiries submitted by the Court:

1. The Court's authority to issue the writs;
2. The correct procedure to follow; and
3. The factual basis of the writs.

A hearing is scheduled on those issues on April 22, 2022. While the Court has asked that these issues be addressed, it is only a preliminary inquiry. The Court has additionally stated that it will not be addressing the actual issuance of the writs or whether the mayors have a reasonable excuse for their failure to comply with the subpoenas. Those issues will be addressed subsequently.

As with the Dane County matter, the Waukesha County matter is nowhere near resolution. First, all issues will need to be addressed by the Circuit Court judge, and then it is likely that any decision will be appealed up to the Wisconsin Supreme Court (and potentially the United States Supreme Court). In the meantime, as with WEC and Ms. Wolfe, neither mayor has voluntarily agreed to give testimony, and it is likely their subpoenas will remain unsatisfied until the conclusion of all litigation.

1. Dane County Case Number 2021CV003007, *American Oversight vs. Assembly Office of Special Counsel et al.*

In addition to the above, the OSC has been forced into litigation over issues surrounding the voluminous requests for documents it has received pursuant to Wisconsin's Open Records law. While these requests and the attendant litigation have not

AMERICAN OVERSIGHT

directly affected the OSC's ability to obtain necessary information—as the lack of cooperation and litigation over the subpoenas has done—at the same time, it has strained the OSC's resources and indirectly affected the OSC's work in a very significant way.

In Dane County Case Number 2021CV003007, a group called American Oversight has sued the OSC, along with the Wisconsin State Assembly, Speaker of the Assembly Robin Vos, and Wisconsin State Senate Sergeant-at-Arms Edward Blazel over purportedly insufficient responses to requests made to the OSC and the other defendants under Wisconsin's Open Records law.

Before the work of the OSC has finished, or even begun in large part, American Oversight has referred to the OSC's efforts on behalf of the Assembly as "baseless," that the OSC is "perpetuating Trump's big lie that the election was somehow stolen," and that the real purpose of the OSC's work is to "create a pretext for enacting new restrictions on voting rights."

Pursuant to their efforts to establish their narrative prior to the work of the OSC coming to fruition, American Oversight has served numerous open records requests upon the OSC, including the following—

2. A September 15, 2021, demand for all "organizing materials," of the OSC, including contracts, agreements, scopes of work, and other documents related to the "scope of investigative authority" of the OSC;

3. A September 15, 2021, demand for all "work product" materials, including "interim reports, analyses, notifications, or other work product produced or collected by individuals or entities under contract to investigate" the November 2020 election, or any other;

AMERICAN OVERSIGHT

4. A September 15, 2021, demand for all "communications" between "former justice Michael Gableman, or anyone communicating on his behalf, such as an administrative assistant, or any individual designated or engaged as an investigator, including, but not limited to Steven Page, and (ii) any other contractor or agent of the Wisconsin Assembly charged with investigating the November 2020 election," as well as all "calendar entries" maintained by any investigators;

5. An October 15, 2021 demand for "external communications" between the OSC and a list of 30 individuals and/or entities;

6. An October 26, 2021, demand for "organizing materials" similar to the one served in September of 2021;

7. An October 26, 2021, demand for "work product" similar to the one served in September of 2021; and

8. An October 26, 2021, demand for "communications" similar to the one served in September of 2021.

All of the above open records requests are currently part of the litigation pending in Dane County.

In addition, American Oversight has served four additional open records requests, dated January 18, 2022, and February 1, 2022, that are still being processed by the OSC, and are not part of any litigation as of yet.

Beyond those served by American Oversight, the *Milwaukee Journal Sentinel*, via reporter Patrick Marley, served an open records request dated February 7, 2022, in which the following records were demanded:

— The call log showing all calls to and from all cell phones used by Gableman;

—The call log showing all calls to and from all cell phones used by any of Gableman's staff (including direct employees, contractors and subcontractors);

— All paper and electronic calendars for Gableman;

The Special Counsel believes in governmental transparency and is making every effort to comply with the above demands.

However, including the Special Counsel himself, the OSC has a full-time staff of two persons. It also has five part-time staff members consisting of four attorneys and an investigator. Simply responding to these voluminous open records requests is a task that has taken up a tremendous amount of staff time. In addition, the Assembly has engaged outside counsel to defend the American Oversight lawsuit and will likely have to hire counsel to defend further lawsuits if the responses provided to the outstanding demands do not satisfy American Oversight or the *Milwaukee Journal Sentinel*.

While the OSC will continue to see that its duties under Wisconsin's open records law are fulfilled, doing so has, and will continue to materially hamper the ability of the OSC staff to address the substantive issues with which it was charged with investigating and reporting upon to the Wisconsin State Assembly.

AMERICAN OVERSIGHT

Appendix II: Decertification and the Electoral Count Act

Certification of electors in a state is a quintessentially political act, delegated by the United States Constitution to state legislatures, which may voluntarily adopt revocable and defeasible rules to guide the process. Wisconsin election law does not explicitly authorize the decertification of electors. But neither does it prohibit it. For this reason, the U.S. Constitution and the gap-filling common law against which backdrop the federal and Wisconsin Constitutions were adopted provide the ultimate guidance. And under those two documents, it is clear that the Wisconsin Legislature could lawfully take steps to decertify electors in any Presidential election, for example in light of violations of state election law that did or likely could have affected the outcome of the election. Furthermore, notwithstanding the current debate over amending the federal Electoral Count Act, the supreme responsibility for running state elections in Wisconsin is vested in our state Legislature—not any other state instrumentality, and not the federal government.

The U.S. Constitution provides in relevant respect that "Each State shall appoint, *in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress* …." U.S. Const., art. II., § 1, cl. 2. This is a direct delegation to each state legislature. It is not a delegation to the Wisconsin Governor (or WEC) *and* its Legislature. The Framers knew how to delegate to, respectively, state legislatures or state executives, or to both acting concurrently. *Compare, e.g., id. with id.* at art. IV, § 4 ("The United States shall guarantee to every State in this Union a Republican Form of Government, and shall

AMERICAN OVERSIGHT

protect each of them against Invasion; *and on Application of the Legislature, or of the Executive* (when the Legislature cannot be convened) against domestic Violence.") (emphasis added) *and id.* at XVII amend. ("When vacancies happen in the representation of any State in the Senate, *the executive authority of such State* shall issue writs of election to fill such vacancies: *Provided, That the legislature of any State may empower the executive thereof* to make temporary appointments until the people fill the vacancies by election as the legislature may direct.") (emphases added).

The direct constitutional delegation to state legislatures here operates as a "plenary" power. *See McPherson v. Blecker*, 146 U.S. 1, 35 (1892); *see also Bush v. Gore*, 531 U.S. 98, 104 (2000) ("The State, of course, after granting the franchise in the special context of Article II, can take back the power to appoint electors."). Pursuant to that plenary power, it is true that after 1824 most state legislatures began to delegate, in effect, their plenary power to *a process of popular selection of the presidential electors* carried out under a suite of state law provisions. Yet, as applied here, these delegations and self-imposed statutory processes by the Wisconsin legislature are not irrevocable. An election of presidential electors that violates Wisconsin (or any other state legislature's relevant laws) is both void and voidable.

This Report has documented not just one, but a great collection of Wisconsin election law violations. As a political matter, the actions of state actors certifying electors in any Presidential election can be reconsidered as the Wisconsin Legislature sees fit using its plenary power under Article II of the federal Constitution, as recognized in *McPherson*

AMERICAN OVERSIGHT

and *Bush v. Gore*. Indeed, *McPherson* noted that "there is no doubt of the right of the legislature to resume the power *at any time*." *McPherson*, 146 U.S. at 35 (emphasis added).

The process of presidential elections can be conceived of as having five steps: (1) certification pursuant to state law; (2) the arrival of the "safe harbor" date specified in the Electoral Count Act ("ECA"), 3 U.S.C. § 5, purporting to make "conclusive" the determination of election contests in the courts "or other methods and procedures" before that date; (3) the date when state-certified electors meet and cast their votes in their respective States; (4) the opening by the Vice President and counting of electoral votes pursuant to the ECA, 3 U.S.C. § 15, on January 6 of the year following a presidential election; and (5) the inauguration of the President on January 20 of that same year at noon, per the Twentieth Amendment to the Constitution. However, that Article II of the U.S. Constitution assigns to Congress only the power to "determine the Time of chusing the Electors, and the Day on which they shall give their Votes; which Day shall be the same throughout the United States." Hence, the relevance of the ECA should not be overstated. The powers to set the time for choosing electors and the day thereof is not the power for Congress to override the plenary power of state legislators to select the State's electors or to act to correct mistakenly certified electors who were certified only because state law was violated in the process.

Two legal analyses from Legislative Council and the Legislative Reference Bureau argue that various events on that five-step process timeline, coupled with silence or the lack of specificity in various sources of law, means that state legislatures cannot decertify.

AMERICAN OVERSIGHT

This logic of those pieces is defective. They ignore the full logical implications of the "plenary" power of the state legislatures to act "at any time" to determine proper electors. For example, when electors were wrongly certified in Hawaii in the 1960 presidential election for Vice President Nixon, that problem was retroactively corrected and Hawaii's electoral votes were counted for John F. Kennedy.

As to the initial method for selecting the President, it matters what system of state law is put in place to select electors and when, relative to that system, new election laws are adopted. No one would support the Wisconsin Legislature allowing an election to be run using one set of election laws and then, just because a majority of both houses thereof did not like the tally of the people's votes occurring within the proper confines of Wisconsin law, adopting a new set of legislative rules and applying them to an already conducted popular election as if that had always been the law.

But the premise of the use of the method of popularly electing elections is inherently, and unavoidably, that such elections be conducted *without violation* of the relevant State's election laws to the extent that the outcome of the election did or likley could swing based on such violations of state law. If an election were purportedly run using the *ex ante* set of legislative election rules (or some of those rules), but *in reality*, the election was run in flat violation of those laws, then the decision of which set of electors to certify (or decertify) devolves back upon the Wisconsin Legislature, where the plenary power to select electors was initially reposed. This is particularly true when the courts do not reach the merits of election disputes brought to them for resolution of whether the *ex*

AMERICAN OVERSIGHT

ante rules were actually followed, dismissing challenges, for instance, on grounds of lack of standing, laches, and the like, as is the case in Wisconsin regarding numerous legal challenges.

The ECA is not constitutional law and it cannot be used to strip state legislatures of their Article II plenary power over elector selection, especially when evidence of widespread violations of state election law become clear only late in an election cycle or even after an election cycle is over. At that point, the principle that comes into play is the common law principle that fraud or illegality vitiate results rendered under an illegal or fraudulent process. *See, e.g., United States v. Throckmorton*, 98 U.S. 61, 64 (1878) ("Fraud vitiates even the most solemn contracts, documents, and even judgments."); *see also United States v. Bradley*, 35 U.S. 343, 360 (1836) (citing *Pigot's Case*, 11 Co. Lit. 27b (1614)). To take just one example, the Third Circuit recognized more than a quarter century ago that an illegally certified candidate who was already sitting in the Pennsylvania Legislature and had been sworn in must be stripped of his office based on violations of that State's election laws. *See Marks v. Stinson*, No. Civ. A. 93-6157, 1994 WL 47710, at *15-16 (E.D. Pa. Feb. 18, 1994), *vacated in part*, 19 F.3d 873 (3d Cir.), *aff'd after remand*, 37 F.3d 1487 (3d Cir.). And this occurred where there was no mechanism in the Pennsylvania Constitution for explicitly applying such a remedy. The Legislative Council and Reference Bureau do not take account of this precedent, logic, or history.

Thus it is clear that the Wisconsin Legislature (acting without the concurrence of the Governor, *see supra*), could decertify the certified electors in the 2020 presidential

AMERICAN OVERSIGHT

election. Two steps would be required for it to do so. *First*, the Legislature would need a majority in both houses to pass a resolution concluding that the 2020 election was (a) held in violation of state law, as detailed in this Report (or other sources), in one or more respects; and (b) the degree of violation of state law in place on November 3, 2020 rose to the level that fraud or other illegality under Wisconsin law could have affected the outcome, using any evidentiary test for certainty the Legislature agreed should apply (for instance, a preponderance, etc.). And *second*, the Legislature would need to invoke and then exercise its plenary power to designate the slate of electors it thought best accorded with the outcome of the election, had it been run legally in accord with the state election laws in effect on November 3, 2020. This would lead to decertifying the relevant electors, if the Legislature concluded that they were not the slate of electors that best accorded with the election if run consistent with all relevant Wisconsin laws in effect on election day.

However, this action would not, on its own, have any other legal consequence under state or federal law. It would not, for example, change who the current President is.

Upcoming Elections

Does Wisconsin have duplicate voter registration numbers?

No. All Wisconsin voter registration numbers are unique.

Wisconsin voter registration numbers consist of at least 9 characters and are alpha-numeric. This means they may include both numbers and letters. They may also begin with any character, including a zero. Thus, the registration number is really a special code and not merely a number.

This small distinction sometimes causes confusion because people (and some common programs) often ignore leading zeros. For example, Microsoft Excel will automatically remove leading zeros from entries it identifies as numbers. If someone opens a CSV (Comma Separated Value) file in Excel without preserving leading zeros, Excel will erase them all. Thus, 000012345 becomes 12345. To preserve the digits, a user must access the original CSV file and import it to Excel using the "Get Data" tool. Or use dedicated database software such as Access to open the file.

It's worth remembering that computers don't "read" numbers like we do. A computer considers each individual character equally. To the computer, the character zero is just like any other and its meaning must be defined. You have to tell a computer to ignore a leading zero (as Excel does).

Finally, the use of alpha-numeric codes including zeros makes Wisconsin voter registration 'numbers' significantly more complex than a mere number.

Characters	Number of Possibilities Alpha-Numeric	Number of Possibilities Numeric Only (1-9)
1	95	9
2	4,465	99
3	138,415	999

1,500,000 illegally registered

155,000 suspected fake voters

Tens of thousands confirmed fake voters

Numbers growing by the week

AMERICAN OVERSIGHT

ERIC: non-profit, by statute Wisconsin is required to be a member

AMERICAN OVERSIGHT

"The Electronic Registration Information Center is a non-profit organization with the sole mission of assisting states to improve the accuracy of America's voter rolls and increase access to voter registration for all eligible citizens."

AMERICAN OVERSIGHT

ERIC bars Wisconsin from exchanging information about illegal aliens

AMERICAN OVERSIGHT

ERIC has your private information: name, address, driver's license #, birthdate, last four of SS#, when you voted, how you voted: every 60 days entire list sent to them by WEC

AMERICAN OVERSIGHT

'When Wisconsin receives ERIC Data regarding eligible or possibly eligible citizens who are not registered to vote, Wisconsin shall, at a minimum, initiate contact with each and every eligible or possibly eligible citizen and inform them how to register to vote.'

P. 16 of ERIC bylaws.

AMERICAN OVERSIGHT

2020 election WEC only ran ERIC report for "eligible residents who are not registered to vote"

AMERICAN OVERSIGHT

David Becker founded ERIC, & CEIR

CEIR took $70 million from Zuckerberg

AMERICAN OVERSIGHT

ERIC is paid in part via $12,500 voter fee list; yet CTCL/ National Vote At Home out of Chicago had free access

AMERICAN OVERSIGHT

NCSL from Colorado

Hillary Hall from Illinois

Zuckerberg from California

Brenan Law Center from New York

David Becker/ERIC from Washington DC

Mark Spitzer Rubenstein from New York

WEC software code from around the world

AMERICAN OVERSIGHT

Louisiana just dropped ERIC

Arizona is dropping ERIC next; Florida is investigating ERIC, Federal court just ruled against ERIC: conditions illegal

AMERICAN OVERSIGHT

Drop ERIC immediately –

It is a voter registration scam

AMERICAN OVERSIGHT

WEC broke countless laws, many times using “guidance "documents:

then just pretending it was law.

AMERICAN OVERSIGHT

Illegal Acts By WEC:

1. WEC told Clerks to stop counting the night of the election
2. WEC failed to issue mandatory rules on how to train special voting deputies
3. WEC told Clerks they could begin opening and counting absentee ballots days before Nov.3rd
4. WEC declared drop boxes were legal
5. WEC failed to include current state law in its administrative rules
6. WEC violated state law by not reporting the error rates
7. WEC just declared Clerks can "cure" ballots
8. WEC encouraged the rampant abuse of indefinitely confined
9. WEC approved voting machine vendors to wipe system logs clean
10. WEC permitted 46,000 voters to cast a ballot knowing the DMV did not verify them

AMERICAN OVERSIGHT

Places our election clerks in legal jeopardy

AMERICAN OVERSIGHT

WEC is a disaster

-fire management

-revamp the whole system

AMERICAN OVERSIGHT

Four main election concerns investigating:

1. City of Milwaukee
2. State databases infiltrated, abused
3. CTCL, Zuckerbergs,
   National Vote At Home
4. Other: human mules, drop boxes, voting machines, indefinitely confined

7.13 million on voter rolls

AMERICAN OVERSIGHT

Statutes require WEC to maintain accurate and efficient voter rolls. Wis. Stats. 6.36, 5.05;

National Voter Rights Act

AMERICAN OVERSIGHT

WEC admitted WisVote has never been audited,

Have repeatedly said "trust us"

Does Wisconsin have duplicate voter registration numbers?

No. All Wisconsin voter registration numbers are unique.

Wisconsin voter registration numbers consist of at least 9 characters and are alpha-numeric. This means they may include both numbers and letters. They may also begin with any character, including a zero. Thus, the registration number is really a special code and not merely a number.

This small distinction sometimes causes confusion because people (and some common programs) often ignore leading zeros. For example, Microsoft Excel will automatically remove leading zeros from entries it identifies as numbers. If someone opens a CSV (Comma Separated Value) file in Excel without preserving leading zeros, Excel will erase them all. Thus, 000012345 becomes 12345. To preserve the digits, a user must access the original CSV file and import it to Excel using the "Get Data" tool. Or use dedicated database software such as Access to open the file.

It's worth remembering that computers don't "read" numbers like we do. A computer considers each individual character equally. To the computer, the character zero is just like any other and its meaning must be defined. You have to tell a computer to ignore a leading zero (as Excel does).

Finally, the use of alpha-numeric codes including zeros makes Wisconsin voter registration 'numbers' significantly more complex than a mere number.

Characters	Number of Possibilities Alpha-Numeric	Number of Possibilities Numeric Only (1-9)
1	95	9
2	4,465	99
3	138,415	999
4	3,183,545,000,000	9,999
...	...	...

Subject: Please don't spend more time and money on the impossible

---

Dear Rep Brandtjen,

Theattorney who led a monthslong review of the 2020 election for Wisconsin Republicans called on lawmakers Tuesday to dissolve the state's election agency and urged them to consider decertifying the results— a move that legal scholars have called impossible.
Michael Gableman, the former state Supreme Court justice who led the GOP review, faced immediate blowback for his contention that lawmakers have the power to revoke the state's 10 electoral votes, which went to Joe Biden over Donald Trump. A top Republican in the Assembly and one of the GOP candidates for attorney general said there was no way to do that.

Gableman was unbowed, saying he disagreed with legal experts who have weighed in on the issue over the last year and a half. While Gableman offered support for the idea, hewrote ina 136-page reportreleased Tuesday that the move would not "on its own" end Biden's presidency. Biden defeated Trump by more than 20,000 votes in Wisconsin. Recounts and courts have confirmed those results. Alegislative auditand independentreview by a conservative groupFOUND NO EVIDENCE TO QUESTION THE RESULTS. Assembly Republicans have called for further review anyway and gave Gableman a taxpayer-funded budget of $676,000 to look into it.
I suppose you know all this. I'm only bringing it up to emphasize that your constituents know it, too, and we do not approve of spending $676,000 on this ridiculous delusion.
Sincerely,
Sue Steinkraus

Subject: Problems/Solutions for Foster Care / Adoption Fixes

Hi Janel,

I hope you are doing well!

Today I'm writing to offer some suggestions on improving law and policy regarding foster care and adoption. I know when we normally talk about these things, I have complaints about the system but am sometimes at a loss on what exactly should be done to change the policies. I'm hoping to offer a few ideas here that will help you as you continue to help pursue positive changes to our system. Please have a look at these bullet point concerns and let me know what I could do to help effect these types of changes. The first is of top concern to me and will directly affect our family in the coming year, so please look into this as much as possible.

1. **Problem Regarding Daycare for Foster-to-Adopt Children:** A child adopted through foster care is not provided assistance to pay for daycare for working families. This means that foster parents willing to adopt a child under the age of 5 must take on the burden of paying for about $1200 per month in daycare expenses themselves. Example: In our particular situation, we were open for a school-age placement of one more child. The social workers approached us with a sibling set - that includes a 9 year old and a 2 year old. How could we say no to that if we have the room and the capacity to parent? However, there is no up front requirement that we be wealthy enough to afford daycare for the children. The 9 year old of course attends school. The 2-year old is in daycare for now as Philip and I both work full time during the day. The state provides daycare for the 2 year old regardless of our family's personal finances because the child is in foster care. However, when we get to adoption day, all of a sudden that huge expense will immediately fall on us and we will have to find the extra income to pay for about $1200 per month. Should we have to get to a point of asking workers to delay adoption in order to continue receiving daycare assistance / or facing giving up parenting the child for them to move to another home? / or face having to drop out of the workforce in order to be a stay-at-home parent just because we were willing to adopt a foster child? In general: Please have a look at the following statements that are all simultaneously in effect:

- DCF has a goal for children's time in out of home care to end with permanency as quickly as possible with either reunification, or when that is not possible, adoption (or guardianship if applicable).
- DCF requires foster families to have enough personal income to care for themselves. (Because of the DCF subsidy, foster families are not required to have the funds to care for foster children.). Yet foster families that do not have at

AMERICAN OVERSIGHT

least one stay-at-home parent are required to get a waiver in order to be licensed.

- DCF provides daycare for young foster children with working foster parents through the Shares program where the foster child is considered a family of 1 with zero income.
- After adoption is final, the child is considered legally part of the new family. This means the family's income begins being counted in calculations to see if childcare assistance is available. By definition - to be a foster family, we had to prove we had enough income for ourselves, so qualifying for shares as a low income family is not feasible. The only exception to this is if the child is special needs,there is a separate program that provides adoption assistance. If the child is not special needs (ie - a racial minority or part of a sibling group of 3+), ongoing financial assistance is not available.

Solution: Modify the Shares program to include a qualifying condition: For the purposes of Shares daycare subsidy qualification, a child adopted from the WI foster care system shall be processed as if they were still a foster child. This ensures that a family who agrees to adopt a child from foster care will not be immediately burdened with an ongoing daycare expense in order to remain employed outside the home. This doesn't put a substantial additional burden on the state because it will help children move out of the system and be adopted more quickly with stability. It will remove the dis-incentive for a foster parent to delay adoption, and the potential for a child to end up being moved to a new home simply due to the financial cost of daycare, or the potential for a parent to have to withdraw from the workplace in order to adopt.

2. Problem Regarding TPR Timelines for Convicted Abusers: A Wisconsin child is severely abused by a biological parent. The biological parent is found guilty and sentenced to many years in prison. The biological parent retains parental rights over decisions in the child's life (like whether to receive medical care), and can take efforts to make the child's life difficult. My child serves as an example to this situation: she is now 13 years old and was severely abused by her father around age 7 or 8. Her ability to be adopted - despite being in an adoptive home for nearly 2 years, is stunted, because her birth father is filing TPR appeals, requesting a jury trial on TPR, and has waived his right to a speedy trial. Further, just filing the TPR was delayed because Burnett County didn't have a prosecutor knowledgeableenough about TPRs to be willing to file one - they had to contract the case out to an external attorney and we had to wait on that process too.

What to explore to solve this: The process of convicting and sentencing an adult for a crime against a child is currently its own legal process that is separate from the legal process for termination of parental rights. Can there be a decision-matrix or threshhold of some sort created that could tie the two processes together so that TPR would automatically begin as part of the conviction process? For example: If a father rapes his 8 year old daughter, and is convicted of doing so and put to a 40 year sentence; TPR could be tied to sentencing so that although the father retains appeal rights over his criminal conviction, the TPR process and timeline for appeal begins immediately upon conviction. This would then help the appeal timelines for TPR and the criminal case run

AMERICAN OVERSIGHT

a little more concurrently and it would greatly reduce a convicted parent's ability to drag out the TPR process as long as possible for their own convenience.

The decision tree might look like this: (Is the child currently serviced by the foster care system? If yes, proceed. Did the parent abuse the child to XXX level / degree where psychological experts, the child's social worker, and the child's doctor have agreed by signing form XXXX that the child has experienced irreparablephysical or psychological harm likely requiring XXX level of treatment or counseling in order to recover from? If yes, proceed. Has the parent been convicted and sentenced with a crime against this child at XXXX level or above? If yes, proceed. Has the child's therapist or social worker explicitly recommended continued contact with the birth parent? If no, then proceed.)

3. **Problem 1 Regarding Paperwork:** Being a foster parent requires tons of paperwork. There is no system in place for a foster parent to electronically update information about themselves for their cases - everything is on paper and by hand. Paperwork being sent from caseworkers and the courts still comes in the mail, and there is no online place to log-in and see information about the child in your care, or about your license as a foster family. Some agencies also have to send their emaileddocuments through a complicated encrypted system in order to ensure privacy, and often documents can't be retrieved from it - causing foster parents to resort to finding a fax machine in order to communicate with caseworkers - especially in the rural counties. This means that a lot of time and money is wasted in the WI system that could be mitigated for efficiency if an electronic system was created.

Solution: Create an electronic system for document sharing for the foster care system. It should contain options for current licensure information, messaging between caseworkers and foster families, records for the child's medical records / needs / authorizations, and so forth.

4. **Problem 2 Regarding Paperwork:** We are up to our eyeballs in social workers and paperwork. We have a licensing worker for our family, we have an adoption worker for our family, we have an ongoing worker for one foster child, and another ongoing worker for the other two (thank God they're siblings so they have one worker!) - and at least one of the workers bring a new hire trainee on each home visit - which is every two weeks - so we have 4 to 5 social workers in our home. Here's the paperwork part.. As a foster family, we had to complete a ton of paperwork, financial statements, medical statements from our doctors, proof of insurance, proof of veterinaryrecords, a home safety walk through, family and personal reference checks, and an FBI level backgroundcheck just to name a few. Ok - fine. But when we decided to change agencies and go from being a level 2 foster family licensed by Washington County, to being a level 3 agency licensed by a Treatment Foster Care agency (Foundations) - we had to RE-DO all of this paperwork and steps all over again, because agencies are either not allowed to reuse another agency's findings or home study. THEN, because we are licensed to adopt once our TPR-pending children finish their legal process, even though we JUST REDID all of the licensing paperwork in June 2021, we have to do it all again (on paper, by hand) in October 2021 because our adoption worker needs to

AMERICAN OVERSIGHT

update that license, and can't reuse the same home study that was just completed by our licensing worker.

Solution: If the problem I explained above with needing a digital repository for shared paperwork were possible, AND if the law was changed so that the information a family shares with one licensing agency can automatically be shared with the other workers on their case through such a system, then this repeat duplication of paperwork could be greatly reduced.

I would appreciate hearing your thoughts on these problems - most importantly the daycare concerns -and how some viable solutions could be reached, as well as what help you would need from me or other advocates in order to make changes like these to our system.

Thank you,

Hello Representative Brandtjen,

I watched the hearing yesterday. I didn't hear an example of why the mayors' testifying in front of the public could damage Justice Gableman's investigation. I didn't see 100% of the hearing so maybe I missed it? If he did not provide this I'd still like to know some examples. This seems like a logical request to better understand the impasse and could potentially help quiet some of the negative allegations that are being made by the various parties involved.

Justice Gableman presented some troubling observations. I hope if there are continued hearings they are held in front of the public and include the accused as well as the accusers. Only hearing from one side does little to help those of us who are objectively trying to understand if our election process and its oversight needs significant change is justified.

Thanks Nicholas.

Representative Brandtjen,

As the chair of the Assembly Campaigns and Elections Committee would you expect justice Gableman to provide examples of why testifying in front of the public could damage his investigation at your upcoming hearing?

AMERICAN OVERSIGHT

I ask because there seems to be an impasse between him and the mayors of Green Bay and Madison that continues to drag out his investigation and I assume consumes more taxpayer money. It seems reasonable that his questioning should be answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person. The explanation I have heard in the past for wanting to question in private is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

If justice Gableman doesn't offer examples could you please ask him to do so at the hearing?

Hello Mark,

AMERICAN OVERSIGHT

I'm wondering if you can help me get a question regarding the Gableman investigation answered. It is why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

We moved from Dodge to Winnebago county 4 years ago. Representative Schraa's office has chosen not to attempt to get an answer to my question. You can see his office's response if you scroll down 3 replies below. I have not been able to get Representative Voss's office to respond to the question either (see prior 2 immediate replies below). I'm hoping you are willing to help.

Sincerely,
Jerry Tribbey

Representative Voss,

AMERICAN OVERSIGHT

First, I want to clarify that I do not live in your assembly district. I live in the 53rd district. I'm writing directly to you because representative Schraa does not feel he can answer my questions (see comment from his staffer in the email below).

My question relates to the Justice Gableman investigation. As you know, last week the Committee on Campaigns and Elections passed a motion on a party line vote to extend or continue (it wasn't clear from the committee members' discussion on this point) Gableman's council. Why aren't the questions he is pursuing being answered in front of the legislature where we can all watch on Wisconsin Eye or maybe attend in person? The explanation I have heard in the past is to protect the integrity of his investigation. I would really like to understand specific examples of why testifying in front of the public could damage his investigation.

Hello Linda,

Thanks for passing along the hearing and executive session info. I was able to watch it on Wisconsin Eye. I was pleasantly surprised to hear the legislators agree to bring in WEC representation to answer the questions about the integrity of the voter registration data base. Gives me some comfort that there is a good faith effort to remove doubt about our election system. I do wonder why this investigation didn't take place prior to the 2020 election. As all three experts shared, these issues likely existed prior to the 2020 election. If the issues identified are serious, and they appear to be, I believe there needs to be common agreement to resolve them and get it done.

Regarding the authorization for Gableman's contract extension/continuation (I'd like to know if it is an extension or continuation), what is the justification? Why aren't the questions he is

Vos, R-Rochester, said Thursday that Gableman, whom Vos hired last year, will "hopefully" release the report on the GOP-ordered review by early next week. He has previously said the investigation should be completed by the end of February, which is Monday.

Asked whether he will take seriously Gableman's report when it comes out, Democratic Gov. Tony Evers said Thursday, "I know they spent a lot of money and effort, I will certainly read it. ... But at the end of the day, the people of Wisconsin have to know that that election was very secure."

For Your Information on SB 214

In short, what REALLY happened: Vos tells Janel to keep SB 214 (the horrendous bill opening the door wide to election fraud, letting absentee ballots be opened the Mondays before Tuesday election days, and scanning those ballots on Mondays) before his committee. Vos then scams

AMERICAN OVERSIGHT

everyone - working with the Democrats. He takes the text out of SB 214, and puts it in AB 941. AB 941 already had public notice and a hearing on it - and brought it to a vote. There was no motion made to do this either.

HE NEVER TOLD HIS OWN PARTY. SB 214 WAS PUT INTO AB 941, Vos did that. He never told any Republican.

RepublicanAssembly Representatives did not know they were voting YES on 214. Vos withheld that information from them, his own party. Vos let the Democrats write the language - so he could keep it from his own party. Do not let any Rep. tell you "the democrats did it", it was all Vos. Tim Ramthum is comingout with a more detailed report/press release tonight.

The GOP in counties across the state of Wisconsin are calling for Speaker Vos to resign. At least one county also voted for a resolution to decertify the 2020 Election.

We reported a couple days ago that Sheboygan County in Wisconsin voted for a resolution demanding that Speaker Robin Vos resign as the Speaker of the great state of Wisconsin.

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta's father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

AMERICAN OVERSIGHT

Racine County will be driving policy for the entire state.

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

AMERICAN OVERSIGHT

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee.
(See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.

WHO GIVES ERIC THE DATA?

Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OB], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM

WHEREAS, fair and accurate elections are the foundation of American government; and

WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and

WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and

WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and

WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and

WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years!
The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor "0000s" which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly. 👇

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

Remember legislators are claiming they can't decertify an election. They have no mechanism to address fraud. FRAUD?!?!?!

And still not ONE senator will co-author the Ramthun Decertify Joint Resolution. Not ONE!

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.

RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.

The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Is Ridgewood an isolated event or a well orchestrated conspiracy? A Ridgewood employee inserted her email address into the WEC database system. The results are obvious. Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: "Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity."

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin's November election.

In her statement she writes: "voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination."

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

For Your Information on SB 214

In short, what REALLY happened: Vos tells Janel to keep SB 214 (the horrendous bill opening the door wide to election fraud, letting absentee ballots be opened the Mondays before Tuesday election days, and scanning those ballots on Mondays) before his committee. Vos then scams everyone - working with the Democrats. He takes the text out of SB 214, and puts it in AB 941. AB 941 already had public notice and a hearing on it - and brought it to a vote. There was no motion made to do this either.

HE NEVER TOLD HIS OWN PARTY. SB 214 WAS PUT INTO AB 941, Vos did that. He never told any Republican.

RepublicanAssembly Representatives did not know they were voting YES on 214. Vos withheld that information from them, his own party. Vos let the Democrats write the language - so he could keep it from his own party. Do not let any Rep. tell you "the democrats did it", it was all Vos. Tim Ramthum is comingout with a more detailed report/press release tonight.

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Wisconsin state Senator Kathy Bernier and Speaker Robin Vos are at it again!

That means Trump supporters and conservatives are about to get screwed again by these two treasonous RINOs.

The Gateway Pundit was tipped off this morning that Vos and Bernier are pushing legislation that gives a head start to the election cheating

The GOP in counties across the state of Wisconsin are calling for Speaker Vos to resign. At least one county also voted for a resolution to decertify the 2020 Election.

AMERICAN OVERSIGHT

We reported a couple days ago that Sheboygan County in Wisconsin voted for a resolution demanding that Speaker Robin Vos resign as the Speaker of the great state of Wisconsin.

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta's father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.

AMERICAN OVERSIGHT

Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

Racine County will be driving policy for the entire state.

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee.
(See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

AMERICAN OVERSIGHT

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.
WHO GIVES ERIC THE DATA?
Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OB], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM

WHEREAS, fair and accurate elections are the foundation of American government; and

WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and

WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and

WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and

WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and

WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years!
The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor “0000s” which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly.

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Subject: Re: Election Audit We Demand a Forensic Audit in Wisconsin and Decertify the election 2020

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

(Again, the Kleefisch FactSheet is attached. Feel free to copy and share "liberally" across the state.)

AG Kaul says nothing to see here, he has other priorities. Rep Ramthun says there is plenty to see.

Remember legislators are claiming they can't decertify an election. They have no mechanism to address fraud. FRAUD?!?!?!

And still not ONE senator will co-author the Ramthun Decertify Joint Resolution. Not ONE!

AMERICAN OVERSIGHT

Except for Reps Ramthun and Brandtjen, none of our legislators think fraud in an election is a problem. Not ONE!

As Wisconsin still waits for Speaker Vos, Assembly Majority Leader Steineke, Senate President Kapenga and Senate majority Leader LeMahieu to sign the Brandtjen subpoenas to start a full forensic physical and cyber audit.https://rumble.com/vpqxk0-the-real-story-oan-wisconsin-decertification-with-rep.-timothy-ramthun.html

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.

RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.

The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

AMERICAN OVERSIGHT

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,
I was informed you read my letter to the caucus. As you are aware, I give fair notice to all concerning my intentions, as well as HOT's platform.
Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Today is a good day to remind ALL to consider NOT donating to any political official or candidate or entity who is NOT taking ACTION to FIX 2020.

Exercise the power of the purse.

Money is the lifeblood of politicians.

Cut them off. Deny them the money IF they are NOT taking action to fight for the will of We The People.

Anyone disagree?

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

https://rumble.com/vli8i3-ramthun-report-episode-26-seth-keshel-high-security-ballots-and-next-steps-.html

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

AMERICAN OVERSIGHT

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit

WI State Rep. Janel Brandtjen issued a release today: "Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity."

Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin's November election.

In her statement she writes: "voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…

IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination."

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

VOS EXPOSED What a ride, after the language of SB 214 (bill letting central counts open and scan absentee ballots on Mondays before elections) was inserted into another bill, and that bill passed - because Robin Vos lied through his teeth to his own Republican members not to mentioned violated numerous parliamentary rules - the Republicans finally found their backbone. They took Vos into Caucus and they tore Vos a new one, they were furious at him for lying by omission, working with the Democrats in secret. The "amendment", which was really the SB 214 language, was defeated! They stripped that amendment. SB 214 did not pass. Late night stuff.

Grassroots citizens accomplished this - they got the attention of their Reps.

Vos, R-Rochester, said Thursday that Gableman, whom Vos hired last year, will “hopefully” release the report on the GOP-ordered review by early next week. He has previously said the investigation should be completed by the end of February, which is Monday.

AMERICAN OVERSIGHT

Asked whether he will take seriously Gableman's report when it comes out, Democratic Gov. Tony Evers said Thursday, "I know they spent a lot of money and effort, I will certainly read it. ... But at the end of the day, the people of Wisconsin have to know that that election was very secure."

For Your Information on SB 214

In short, what REALLY happened: Vos tells Janel to keep SB 214 (the horrendous bill opening the door wide to election fraud, letting absentee ballots be opened the Mondays before Tuesday election days, and scanning those ballots on Mondays) before his committee. Vos then scams everyone - working with the Democrats. He takes the text out of SB 214, and puts it in AB 941. AB 941 already had public notice and a hearing on it - and brought it to a vote. There was no motion made to do this either.

HE NEVER TOLD HIS OWN PARTY. SB 214 WAS PUT INTO AB 941, Vos did that. He never told any Republican.

RepublicanAssembly Representatives did not know they were voting YES on 214. Vos withheld that information from them, his own party. Vos let the Democrats write the language - so he could keep it from his own party. Do not let any Rep. tell you "the democrats did it", it was all Vos. Tim Ramthum is comingout with a more detailed report/press release tonight.

If this is true, that a GOP member of Racine county in an email posted by Badger State Resistance is claiming Robin Vos told them he speaks with Racine DA Patricia Hanson daily, and they believes that's why the Sheriffs criminal referrals have gone nowhere, with the news coming out today that Hanson agrees that the WEC broke laws but she can't prosecute any of them because none of them live in her county, then Robin Vos, according to this GOP member, could've influenced the decision making process of the Racine DA NOT to prosecute.
Did you hear that?! Robin Vos could potentially be keeping the WEC out of being criminally prosecuted with influence over the Racine DA.
This is REALLY big if true.

If all this is true? Vos and certain members of our WI GOP Legislature have gone FULL TRAITOR on their own citizens.

LATE BREAKING NEWS: The new bill being presented this week to the legislature is essentially the WI/state version of "HR1/For The People"

And wait for it, it's being presented by REPUBLICANS. Sen. Kathy Bernier through her Senate Committee (Elections, Elections Process Reform & Ethics).

It's not just the legalizing of dropboxes. Tucked away are changing SVD laws for "infectious diseases" & "public health emergencies", allowing nursing home employees to become "personal care voting assistants." And most dangerous giving the national voter registration database ERIC the FULL autonomy over the voter roles in WI.

They are trying to legalize the stolen election practices of 2020. And after claiming over and over they didn't break the law. Then why change the laws?

We can't let this happen!

STATE OF WISCONSIN TAKE NOTICE:
YOU HAVE HAD YOUR EYES CLOSED TO RACINE COUNTY.
In Racine County Wisconsin city and county officials have established a political culture with low accountability, low principles, and void of ethics in government. This leads to corruption, loss of population, poor education, poverty, fragile economy all factors in Racine. It is easier for corrupt officeholders to conceal corrupt activities from a poorly educated public. Uneducated citizens are less likely to be aware of corruption in local governments or how to stop it, and therefore, corruption can remain and spread.
Racine Mayor Cory Mason: was the connection to the Zuckerberg money which infiltrated 5 democratic cities with over 8 million dollars to get out the vote with drop boxes, voter apps etc..
Appeals Judge Lisa Neubauer: Lisa Neubauer judge of the 2nd district court of appeals.
Jeffery Neubauer: Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Assembly Leader Greta Neubauer: Greta Neubauer just elected to lead the Assembly Democrats in Wisconsin. Greta's mother is Lisa Neubauer judge of the 2nd district court of appeals. Greta's father is Jeffery Neubauer was Bill Clinton's Wisconsin campaign manager in Wisconsin and as Higher Expectations manager for Racine County.
Speaker of the Assembly Speaker Robin Vos: Believes Joe Biden won the election. RINO
Racine District Attorney Trish Hanson: Hanson will not prosecute Wisconsin Elections Commission members with charges by Racine Sheriff Christopher Schmeling. Hanson takes her orders from Vos.

AMERICAN OVERSIGHT

Racine County will be driving policy for the entire state.

RACINE WISCONSIN RIGGED THE 2020 ELECTION

The model that was used to rig the US presidential election was first tested back in April when Joe Biden and Bernie Sanders both went to Racine, WI and shilled for a referendum to give an obscene amount of money ($1,000,000,000) to the Racine Unified School District. The referendum PASSED BY FIVE VOTES and the fraudulent results were confirmed by a recount and upheld in court.

ZUCKERBERG VAN SCAM
MELT DOWN THE PHONE LINES TO ALL GOP OFFICES

Patriots,
By now I hope you have read the latest announcement making its way across the state regarding the Racine City Council Voting to approve the Zuckerberg Van Scam to Visit 160 Locations in Racine During the 2022 Election Cycle.

AMERICAN OVERSIGHT

Remember Voting in the Park? Here we go again.

Since Racine sits on the border of our state, it will make it easier for the Illinois crowd to access our 2022 Elections.

Again, the Leftists are on a mission to Capture our prized U.S. Senate seat.

Click here to see the Racine City Council debate on this pressing matter;

Please Note: December 17, 2021, 7 minutes.
"The Racine WI. Common Council approving 160 locations in the City of Racine for a Zuckerberg purchased mobile van to visit liquor stores, homeless shelters, parking ramps, schools, parks etc. in the 2022 election year
CALLS NEEDED NOW-Phone #s Posted Below:
1) Contact Senators Lemahieu and Kapenga and demand they remove the Chairmanship of Senator Kathy Bernier in light of her recent traitorous conduct as Chair of the Senate Elections Committee.
Wisconsin's Taxpayers deserve to have a senator with a SPINE leading that vital committee.
(See the Grassroots Alert that was released last week for more info.)

2) Feel free to contact Senator Bernier's office to urge her to Resign Immediately.

3) Call the remaining 18 GOP Senators and ask them what they plan to do about the Zuckerberg Van Scam in 2022 as well as their plan for the removal of Bernier. Some of them should be circulating a letter NOW to leadership calling for Bernier's Immediate Removal.

4) Likewise, call the 59 RINOs in the State Assembly and pose the same question about the Zuckerberg Van Scam.

5) Thank Representatives Brandtjen and Ramthun for their Stalwart leadership through this yearlong Vos-induced election scandal.

6) Contact Republican Party Chairman Paul Farrow and ask him to Resign his position. With the current crisis facing our state, now is Not the time to have girlie men at the helm. Office: (262) 548-7902 Email: countyexec@waukeshacounty.gov

7) Contact your GOP County leaders and ask them what they plan to do about Zuckerberg meddling in next year's elections, the removal of Bernier, and the Vos Cartel.

8) Contact the Republican Party of Wisconsin (608) 257-4765. Ask them to take Action on the Zuckerberg Van Scam and the Immediate Removal of Bernier and the Vos Cartel.

State Senator Kathy Bernier invited ultra-liberal David Becker to speak at her "nothing-to-see-here-folks-move-along" hearing last week. ERIC, which is an extremely liberal group, which the State of Wisconsin pays to be a member, has in their bylaws: if they send a person's name/address to the Wisconsin Election Commission (WEC), WEC must reach out and contact that person to be registered! ERIC, an out of state non-profit we pay tax dollars to, is telling us who to register.

WHO GIVES ERIC THE DATA?

Could it be groups that seek out only people who are liberals and then send that information to WEC to be registered? More information to come.

I Did – My Update is Below

Patriots,

Awesome News!

YOU Mobilized700 callsinto RINO Senator Kathy Bernier's office in1 Dayaccording to the 9-minute interview she gave this morning on WISN'sUpFront Show.

Watch for yourself - 2:23-minute mark:https://www.wisn.com/article/senator-end-election-probe/38558204

If you value your Rights, Freedom, and Re-Stabilizing our Society, Please Speak UpNowon key issues!

Bernier's Office

Phone: 1-608-266-7511

Email:Sen.Bernier@legis.wisconsin.gov

*Enlist your family and friends from across the state to

let Bernier know it is time for her to Leave Office.

*Again, we can Remove 4 RINOs and

still comfortably hold the Majority in the Wis. Senate.

Tune in and you will see Bernier double down about all the"Misinformed Republicans"there are in Wisconsin.

If you are insulted, you are not alone!

Bernier has a lot of nerve to make such comments about the people paying the bills in Wisconsin.

AMERICAN OVERSIGHT

Bernier also hinted that her future may entailretiring[OB], running again for office, helping other candidates, etc.Bernier's current term is up in 2022.

Personally, I would like to see this RINO who has been lapping at the public trough since 2010 pack her bags and leave the keys to the Capitol office she occupies to a more competent individual who will respect the will ofWe the People and the Oath of Public Office.

As the Chair of the Senate Elections Committee, Bernier has donenothingof substance to help Representative Janel Brantjen get to the bottom of the fraud and scandals involved in the 2020 Election.

If you tune in at the 4:25-minute mark at the show link above, Bernier talks about how she has received many communications from numerous Assembly and Senate Colleagues expressing their support for her.

If Patriots would like to file an Open Records Request under Chapter 19,Wis. Stats., it would be Very Interesting to see which other RINO politicians are holding hands with Bernier.

Did you know Bernier is promoting continued Zuckerberg involvement with our state elections?

Knowing that every election clerk in Wisconsin can readily receive legal assistance from their tax-funded local corporation counsel offices, it is insulting beyond belief that Bernier would continue this scandal of inviting out-of-staters to continue to meddle in Wisconsin's elections.

Update from the 8 County GOP Parties in the 23rdSenate District----

This afternoon, I contacted each of the 8 GOP county parties listed below that make up the 23rdSenate District to find out whatTheyplan to do with RINO Bernier who has become the laughingstock of Wisconsin.

1) I am happy to report, "Annie Oakley" Bernier will not be attending the Gableman presentation taking place tomorrow night.

If you will recall Bernier's dangerous comments last week highlighted in Gateway Pundit:"Mr. Gableman is coming to my county andI will attend that meeting along with my concealed carry permit, to be perfectly honest, because it keeps jazzing up the people who think they know what they're talking about — and they don't,"Bernier said."

Don't Feed the RINO's…

Bernier calls on Gableman to wrap up 2020 election probe:

Sen. Kathy Bernier, R-Chippewa Falls, alongside national election experts said former Supreme Court Justice Michael Gableman needs to wrap up his investigation sooner rather than later to preserve election confidence and Republicans' chances of winning in the future.

"No election is perfect," the Senate Elections, Election Process Reform and Ethics Committee chair and former Chippewa County clerk of 12 years said. "But there is no evidence of intentional malfeasance, no evidence that the election in 2020 wasn't accurate."

This resolution just passed in Ozaukee County

RESOLUTION OF
THE REPUBLICAN PARTY OF OZAUKEE COUNTY
SUPPORTING A FULL INVESTIGATION
OF THE WISCONSIN ELECTION COMMISSION
DATABASE SYSTEM

WHEREAS, fair and accurate elections are the foundation of American government; and

WHEREAS, the people of Wisconsin have a state constitutional right of suffrage that protects our vote from manipulation, dilution and other abuse; and

WHEREAS, the people of Wisconsin have an absolute Federal right to vote in free and fair elections for the elected officials who manage their government without fear of disenfranchisement or dilution; and

WHEREAS, local, county and state officials have a duty to the people who elected them to conduct fair, unbiased and accurate elections for public office and other matters put before the voters; and

WHEREAS, the Wisconsin Elections Commission ("WEC") has the statutory duty to manage and operate the state voter roll database system accurately, fairly and for the benefit and use of all local municipal and county clerks in Wisconsin; and

WHEREAS, the Ozaukee County municipal clerks and Ozaukee County Clerk rely on the WEC voter roll database system for the administration of all elections in Ozaukee County; and

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Elections Committee on December 8, 2021 that there are serious structural and data security issues in the WEC data system that strongly suggest the database may have been manipulated for political advantage by unknown persons; and

AMERICAN OVERSIGHT

WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that certain partisan operatives may have had direct access to WEC voter data during the November 2020 election and may continue to have direct access to this data while GOP candidates and organizations were required to pay tens of thousands of dollars to access outdated data during the election cycle; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations were allowed to access the WEC data system via smart phone apps during the election to directly register voters into the WEC data system but the Republican Party of Ozaukee County ("RPOC") did not have access to that technology or direct access to the WEC data system; and
WHEREAS, it was revealed in testimony before the Wisconsin Assembly Campaigns and Elections Committee that partisan organizations may have developed and used interactive ward maps accessing the WEC data system in parts of the 23rd Assembly District that may have targeted voters by race or other personal attributes in possible violation of the Voting Rights Act of 1965; and
WHEREAS, the Legislative Audit Bureau report on the November 2020 election dated October 22, 2021 pointed out serious errors or defects in tens of thousands of voter registrations; and
WHEREAS, The Wisconsin Institute for Law and Liberty report dated December 2021 points out that thousands of voter registrations and ballots are questionable under state law; and
WHEREAS, a subsequent review by the RPOC of paper ballots and electronic ballot images of the ballots cast in Ozaukee County in wards in the 23rd Assembly District raised questions with respect to the validity of certain of the absentee ballots cast in that race; and
WHEREAS, the RPOC spent thousands of dollars and significant volunteer hours campaigning for its candidate in the 23rd Assembly District which comprises portions of Ozaukee and Milwaukee Counties and did not have access to any real time voter roll data from the WEC data system or access to any phone apps or interactive maps connected to the WEC data system; and
WHEREAS, the RPOC was severely disadvantaged politically and economically in its

Emails between Command Central, LLC (a Dominion Voting Systems agent) to Grant County Wisconsin Clerk Tonya White, beginning the date of 6/24/2021.

Hi Tonya,

Did you have all your clerks bring their voting equipment to you after the April election? All the ICE machines that the clerks already have needs a firmware upgrade and a PM done and I am starting to look a schedule to get that started. If all the equipment is there you would not need much notice for me to come and do this. Thanks

If 2020 Election is not fixed there will be no going forward

UPDATE: Public Hearing on Wisconsin Voter Rolls

EVIDENCE PRESENTED SO FAR:

WI had an ACTIVE voter turn out of 93.7%

In Wisconsin, there are 119,283 "active voters" who have been registered for over 100 years!
The number is over 500K when you add in inactive voters

Milwaukee election officials assisted non profit by providing private voter data to democrat group to add voters directly to the WI voter roll and bypass the state.

WI voter database padded voter registration numbers with precursor "0000s" which allows for manipulating voter registration.

The margin of victory is a mere 20,000 votes.

WI has 4.5 million residents over the age of 18. The Wisconsin Election Commission has more than 7 million voters on the roll.

There are 42,000 voters in Wisconsin who are currently listed as inactive in the August 2021 file, but nevertheless voted in November 2020

Red Arrow Patriot explains the corruption in Wisconsin perfectly.

"It's astounding that the Wisconsin Attorney General is representing Wisconsin Election Commission Administrator Meghan Wolfe as a DEFENDANT against a criminal referral from the Racine Sheriff's office for a FELONY, of which there is video proof.

The WEC issued guidance, contrary to Wisconsin State Law, to keep Special Voting Deputies out of nursing homes, so that the votes of those residents could be manipulated. Meghan Wolfe has ties to WI Assembly Speaker Robin Vos, a Republican, who has promoted her on a national level.

Vos hired Gabelman, and Gabelman is under Vos's individual control, bypassing the Wisconsin Assembly's Campaign and Elections Committee, chaired by Brandtjen. Vos refused to sign subpoenas issued by Brandtjen's Committee for ballots from Milwaukee and Brown Counties.

WI Senators La Mahieux and Kapenga have also refused to sign those subpoenas. So the ENTIRE Wisconsin Legislature, except for Brandtjen and Ramthun, is apparently okay with Zuckerbucks having corrupted the 2020 election."

Here is Vos' Press Release stating Loudenbeck is running for Secretary of State Again, Loudenbeck did Vos' bidding for our a decade.
http://www.thewheelerreport.com/wheeler_docs/files/120121vos.pdf

Folks, Serious Discernment is needed going into the 2022 Election.... Let me be clear....

We MUST Stop the RINOs

AMERICAN OVERSIGHT

for the Sake of Wisconsin's Future.
Time to Mobilize!

Right now, we need to focus on throwing as many RINOs overboard as possible going into the November 2022 Election.

Here's My Statewide RINO LIST thus far:

#1 -Rebecca Kleefisch (The RINO Princess). She will be a lapdog for Vos just as her husband was when he was in the State Assembly. Attached is my FactSheet on the Key Role the Kleefisch Family played in keeping the Trafficking of Aborted Baby Body Parts LEGAL in Wisconsin.

#2 -SenatorPat Testinwants to become our Lt. Governor. The guy lacks a moral compass. He is the author of the disgusting Alkaline Hydrolysis "Human Fertilizer" bill and he votes Pro-Abort. He's one of Fitzgerald's recruits.

#3 - Amy Loudenbeck for Secretary of State. She has been a Faithful Vos Servant for over a decade - ignoring her taxpaying constituents with her vigorous Pro-Abortion and Pro-Tree Hugger Agenda.

#4 - Vos - The Little Tyrant from Burlington needs a Pink Slip...Enuf if Enuf!

#5 - Jim Steineke -- He's Vos' henchman.

#6 - Senate - LeMahieu, Kapenga - they have thumbed their noses at Election Fraud long enough.

#7 - ????

Vos' hand-picked patsies have to GO! We don't have any other options.

They have refused to:
* Defend the Integrity of our Elections
* Defend the Sanctity of Life for the Preborn, Disabled, and Elderly
* Defend quality education for 800,000+ kids (The GOP has NEVER been serious about the DPI Races)
* Stand up to the march of the Radical Leftists in our state.

We have to take back our State INCH BY INCH -- what a Massive Effort...All Hands on Deck!

Try to encourage Quality People to make a run for the Assembly and the Senate.

Tryant Vos is putting all of his key friends in place to do his bidding....

AMERICAN OVERSIGHT

.....This Spells D-A-N-G-E-R for the rest of us.

Just a Reminder, Vos will be putting MANY of Our Rights, Liberties, and Freedoms on the National Auction Block at this National RACC Fundraiser being held in Key West. Note the $6,000 per person pricetag. For folks who may not know, RACC is the Republican Assembly Campaign Committee.
This is a GIANT $lush Fund of Ca$h that Vos controls. He wields the power of the pursestring to SHUT OUT Quality candidates and instead uses those dollars to elect toadies that will take orders from him.

I hope you folks are starting to realize Vos has become a Total Power-Hungry Tyrant.
He is only concerned about his Agenda and Has NO Regard for the Good of Wisconsin now and for generations of Cheeseheads to come!

Remember legislators are claiming they can't decertify an election. They have no mechanism to address fraud. FRAUD?!?!?!

And still not ONE senator will co-author the Ramthun Decertify Joint Resolution. Not ONE!

Except for Reps Ramthun and Brandtjen, none of our legislators think fraud in an election is a problem. Not ONE!

Sheriff announces criminal charges being filed against almost every member of the election commission in a battleground state.
RACINE COUNTY, WI – The sheriff of Racine County has announced that they are filing criminal charges against five of the six members of the Wisconsin Election Commission (WEC). In a release issued on their Facebook page, Sheriff Schmaling said that the charges have been referred to the Racine County District Attorney, Patricia Hanson.
The Sheriff's Office has called on state attorney general Josh Kaul to launch an investigation into what they called illegal directives issued by the WEC, most specifically, the directive to not use the Special Voting Deputy process as required by state statute 6.875. “Based upon the failure of Attorney General Josh Kaul to initiate a statewide investigation, I have forwarded charging recommendations to the Racine County District Attorney's Office for their review. The recommended charges are for Commissioners.

Congratulations to Tim Ramthun, State Representative of Wisconsin, for putting forward a powerful and very popular, because it's true, resolution to decertify the 2020 Presidential Election in Wisconsin based on the recently found absolute proof of large scale voter fraud that took place.
Rep. Ramthun's resolution details tremendous amounts of election fraud, including 44,272 voters who did not show proper voter identification (which alone is more than twice the margin necessary to win), thousands of emails that show election manipulation by Mark Zuckerberg's funding, irregularities in the state's voter registrations like 400 registered voters at a single

address, the Wisconsin Election Commission committing felony crimes by knowingly ordering illegal voting at nursing homes, and so much more.
Only one state senator needs to cosponsor the resolution for it to be put to a vote in each chamber. Which American Patriot from the State Senate will step forward?
Great job, Rep. Ramthun! Even the Democrats and RINOs cannot object to all the evidence that has been exposed!

Good morning Robin,

Fraud has already been proven to have occurred in Wisconsin during the 2020 national elections, now to what extent is what must be thoroughly investigated. It is HOT's assertion that all fraud found must be investigated and prosecuted.
We will not stand idle when our votes have been marginalized, minimized or negated through fraud.
Please get on board in heart and soul with the election investigations or get out of our way because resistance is futile.
Since Sheriff Schmalings press conference, a lawsuit has been filed concerning the same type of voter fraud used at Ridgewood at another nursing home . Watchdog Calls for Investigation of Wisconsin State Assembly Speaker Robin Vos for Non-Disclosure of Real Estate Properties

FOR IMMEDIATE RELEASE: August 19, 2020
Contact: Michael Clauw,mclauw@campaignforaccountability.org, 202.780.5750
WASHINGTON, D.C. – Today, Campaign for Accountability (CfA), a nonprofit watchdog group focused on public accountability, sent a letter to the Administrator of the Wisconsin Ethics Commission, Daniel A. Carlton Jr., requesting the Commission open an investigation to determine whether the Speaker of the Wisconsin State Assembly, Robin Vos, violated the state's Code of Ethics for State Public officials by failing to disclose several properties he has owned. While Vos lists a number of owned properties and business interests on his yearly Statement of Economic Interests (SEI) filings, a review of property records and court filings submitted as a part of one of Speaker Vos's divorces indicated that there are additional properties he did not accurately report.
Read the letter here.
Since 2004, Vos has disclosed partial ownership of Ladwig & Vos, a real estate company that leases houses near the campus of the University of Wisconsin-Whitewater. While the city of Whitewater lists 286 South Church Street as a property belonging to Ladwig & Vos, this property did not appear on Speaker Vos's 2018 and 2019 SEIs. Ladwig & Vos also appears to own a property located at 179 North Prairie Street. This property is also left off of his 2019 SEI. These two undisclosed properties have been assessed a combined value of $246,500. When contacted by a reporter about these properties, Vos' press secretary blamed the omissions on a "clerical error" and said that his SEI would be corrected.
Campaign for Accountability Executive Director Michelle Kuppersmith said, "The law requires Speaker Vos to accurately report his holdings. There is no clerical error exception. His constituents have a right to question his judgement when it comes to his faithful representation of

AMERICAN OVERSIGHT

their interests, and the Wisconsin Ethics Commission has a responsibility to these constituents to determine the proper recourse for this violation"
Campaign for Accountability is a nonpartisan, nonprofit watchdog organization that uses research, litigation, and aggressive communications to expose misconduct and malfeasance in public life and hold those who act at the expense of the public good accountable for their actions.

Rep Born.
While I appreciate you getting back to me after many requests. I find your response illusive and disingenuous.
1. You have never answered my question as to where you stand on having a full Forensic audit in Wisconsin ?
2. Will this audit use the means and methods that are currently being used in AZ also known or called "The Gold standard "
3. Who is this "special Council " ?
4. Why is this special Council Funded and selected by Speaker Vos? rather than a committee of engaged Elected Representatives that are familiar with the AZ Audit process means and methods
5. How is this special Council that was unilaterally appointed by Speaker Vos accountable at all to We the people of Wisconsin and Dodge county?
6. What oversight will Wisconsin Legislatures have over the special councils investigation

Please advise regarding my above questions .. I am getting the feeling we are being sold a bag of goods that are not as advertised. I pasted your email response to me onto this thread to track responses to my election integrity questions and responses..
.... I also attached a letter from Tim Rathums office that raise some of the same questions

Hi John,
With the hiring of Justice Gableman, Legislative Assembly Republicans have committed to conducting a swift, complete, and thorough investigation. Justice Gableman has recently started to hire independent contractors to go through with a cyber forensic audit of the election, which we believe is necessary in ensuring that election issues did not happen in the 2020 election.
Please let me know if you have any more questions or concerns.
Regards,
Mark Born

This is what is being said on social media about u

I specifically asked Jovan Hutton Pulitzer about Robin Vos plane ride with Trump. Jovan is the man behind the AZ audit. Here's what he had to say about Vos. Don't believe him when Vos says they will audit.

Rep Born - Please answer the question I repeatedly asked you - Where do you stand on a forensic audit ?

ou are one of the many action driven Patriots that contacted my office when I stood up and called for a full cyber and forensic audit into the 2020 election. I'm reaching out to let you know how you can help. Representative Janel Brandtjen and I are trying to bring the true Arizona style, completely transparent, and extremely defined full cyber forensic audit to Wisconsin. Other efforts, current or projected, will delay us from getting the answers we need for closure.

There is currently a grass roots effort that has successfully brought 28 GOP county parties to make public statements and resolutions to support Rep. Janel Brandtjen's full cyber and forensic audit. 38 counties to cross the majority in Wisconsin is within reach. We have compiled a list of the current 28 counties, and who represents them below.

If you'd like to support this effort, please reference that list. If your county is not listed, you should then contact your county GOP and ask for them to come out in support of our efforts.

If your county IS listed, please call the list of Senators and Representatives directly and demand they recognize the people and the county they represent to see the proposed Full Cyber and Forensic Arizona Style Audit. Any other audit they are claiming to support IS NOT transparent, thorough, and is simply not what the people are demanding.

It is vital for us to get as many people to unite in this action as possible. Gaining support from more counties and the remainder of the legislature is doable.

You may also review my last week's Ramthun report. Subscribe and share to help keep Patriots informed and tuned into the right messaging.

Together we can truly restore the principles of government that is of, by, and for the people, and bring transparency and conclusion to the irregularities in the 2020 general election.

For the record, I DESPISE Facebook and Twitter for a whole myriad of reasons we don't need to get into right now. But, I've kept my accounts active for purposes of staying informed on WI groups that use the platform almost exclusively for communication AND to monitor the accounts of our local elected officials: The "Good Guys" like Rep Ranthum and Rep Brandtjen AND the not-so-good-guys that need not be named because we all know who they are.

I'm not sure where Jim found the piece above on Vos traveling with Trump to AL (great job, Jim!), but it certainly isn't on Vos' FB page which up til the election was very active. Too bad, I wanted to see the comments….lol

In fact, there hasn't been much activity at all lately? Last post was over a month ago on 7/18 where he was handing out American Flags to Racine County residents….

Hmmmmm—-I've heard our State Assembly Speaker can be——shall we say—-a little "thin-skinned" which is probably why he can't stand me. I call balls snd strikes the way I see them.

But to my point? WHY has there been so little activity on FB? Here's my hypnosis for what it's worth: The reason is FB permits comments which are PUBLIC. His Constituent Newsletters via email? The responses are PRIVATE.

EDIT: I don't hate or even dislike Speaker Vos. It's nothing personal. He is just simply not doing his job. HIS JOB is to REPRESENT his CONSTITUENTS. We elected him to be our voice and he is FAILING in that MISSION.

I'm having dialogue over the last 24 hours with the Racine County Clerk.

H.O.T.'s asking some detailed questions regarding abnormally high voter turnout numbers in one district in the county and asking for answers and explanations.

Info came to us from a brave Poll Worker Whistleblower.

I'm also asking about the adjudication rates at this particular district.

Thus far, the response has been we don't "adjudicate" ballots, we "re-make" them and that the voter participation at this district was very close to 90% of registered voters.

This is a thread that needs additional pulling. Or better yet?

A FULL FORENSIC CYBER AUDIT of Racine County!

IMMEDIATE CALL TO ACTION IN ALL STATES; CONTACT YOUR SENATORS AND REPRESENTATIVES TO STOP DOMINION FROM ERASING THEIR VOTING MACHINES.

It was displayed at the cyber symposium that Dominion was going around erasing the 2020 election in the guise of updating the Voting Machines around the country, like they did in Colorado, where it was shown that they are illegally deleting voter information. They were doing two things in various states, replacing the batteries, which was not called for in their management agreement and/or partitioning the disk to 4 drives from 2 and thereby deleting all information, and in both circumstances erasing Voting Data in violation of State Law that requires information to be kept for 22 months.

Contact your Senator or Representative now, and ask them to stop Dominion in their tracks in your State.

Has Wisconsin degenerated into this where 1st amendment rights to question Racine County board

I requested this document from the Racine County Clerk this morning, and she promptly responded. This document is what I was handed while attending RC Board of Supervisors meetings and what was used against my First Amendment free speech rights when they shut down my Public Comments. Specifically? The section that talks about "personal attacks" on public officials. Those that know me, know that I speak with passion but also decorum. I'm ALLOWED under my 1st Amendment rights to challenge a public official. 👇

REP VOS . NOW ITS TIME FOR YOU TO DO THE RIGHT THING AND ORDER A FORENSIC AUDIT

OR ARE YOU JUST LIKE EVERS

Also from the Rep. Vos constituent newsletter. He's "disappointed" Evers vetoed the Election Integrity bills.

Order a FULL CYBER FORENSIC AUDIT and if it reveals what we all believe it would reveal?

Evers would be left with no choice.

We can't move forward until we get to the bottom of WHAT HAPPENED in the NOVEMBER 2020 ELECTION!

"Another week, another round of vetoes of common-sense legislation from Governor Evers. This time, he decided to veto a package of bills that would have provided much-needed election reform in Wisconsin.

AMERICAN OVERSIGHT

He is making another momentous mistake with his veto pen. While he claims these bills are 'anti-democracy,' his actions speak louder than words. He is satisfied with the status quo and refusing to improve future elections.

These bills closed loopholes, standardized procedures, established uniformity, guaranteed only the voter can correct their own ballot and protected votes of seniors in long-term care.

I am very disappointed Governor Evers refuses to do the right thing."

Thank you Rep. Rambunctious and Brandjen

KEEP your HANDS off the MACHINES, Dominion!!

WI State Rep. Ranthum goes on to say in his Statement from the Cyber Symposium:

"I call upon Speaker Vos to either approve Rep. Brandtjen's subpoenas, OR that either Speaker Vos or Rep. Brandtjen seek an immediate injunction to terminate Dominion's desired actions

until they provide a full and complete image of each machine they wish to upgrade, before doing so.

This needs to be done ASAP.

Furthermore, I question the legality of Dominion doing any maintenance on any voting machine before the 22-month record retention requirement per state statute."

A Message from our 45th President

The people of Wisconsin are lucky to have a strong and great leader like Representative Janel Brandtjen, who issued subpoenas for Brown (Green Bay) and Milwaukee Counties, and all of their election evidence and so-called results. Wisconsin shows many (to put it mildly) signs of cheating in the 2020 election, and people want answers, now. We still don't know why Michael Spitzer-Rubenstein, a New Yorker, had multiple keys to the Election Day counting rooms, and a City of Green Bay employee ID when records show he was never employed by Green Bay. A Milwaukee election employee even acknowledged dropping off just the margin of ballots needed for a Biden win at 3:00AM. The Great American Experiment cannot withstand corruption. We must demand our elected officials follow the law, and WE MUST HOLD THEM ACCOUNTABLE. All eyes are on Wisconsin as they begin their election audit. Hopefully Republican Speaker Robin Vos has the integrity and strength Wisconsin needs to support Rep. Brandtjen's efforts. Our Country is counting on it!

They're Destroying the Evidence: Lindell Symposium Reveals Voting Machine Companies Are Wiping Voting Machines Clean in Wisconsin, New Hampshire and Michigan as We Previously Reported (VIDEO)

As The Gateway Pundit previously reported — Back in July the election firm 'Election Source' notified officials throughout the state of Michigan that they will discreetly break the law by eliminating election data from voting machines on the 15th.

Attorneys immediately issued them a cease and desist order to prevent this destruction of evidence from happening.

Michigan's Secretary of State Jocelyn asked the Michigan election officials to do things to cover up the 2020 Election fraud before, so this latest action by Election Source was not so shocking.

Also in July an email was sent to the local election officials in the state from a company called Election Source that performs work on the voting machines in the state. This company would likely not send any letter like the following to election officials without Secretary of State Benson knowing about it. In a letter to the election officials around the state, the following was shared:

We will be visiting xxx County on July 15th to perform preventative maintenance on your voting equipment. There is not an upgrade this time, just preventative maintenance. During the preventative maintenance, we will be removing the ICX batteries to prevent any issues with the batteries shutting off your machines. Batteries are not necessary in Michigan due to the fact that we do not use direct-recording electronic voting in our state."

Attorney Stephanie Lambert shared with Jim Hoft and Patty McMurray from The Gateway Pundit and 100% FedUp that she will be filing a lawsuit to prevent this destruction of evidence:

I've been working closely wiht Matt DePerno and with other attorneys and experts, like I said, and we've obtained a lot of evidence. In fact there's going to be a lawsuit filed in the very near future against Election Source which is a contractor to Dominion. Matt Deperno sent a cease and desist letter to Election Source today because there was a letter sent out by Election Source to all of the clerks in Michigan stating that they're coming to do preventative updates regarding removing a battery in most of the election equipment which is problematic because this would erase data [on those machines]. That's one piece of what's happening with Election Source.

… our experts have found security breaches within the Michigan election…

Fast forward to today…

On Tuesday at the Lindell Cyber Symposium in Sioux Falls, South Dakota, Wisconsin Rep. Timothy Ramthun told the audience that Wisconsin officials are also wiping the voting machines clean in the state.

AMERICAN OVERSIGHT

This was after Marilyn Todd from the New Hampshire Voter Integrity Group told the audience this was also happening in New Hampshire.

They are destroying the evidence.

Please tell us we have the answers to this question

Who has the passwords to the Dominion voting machines? A statement from Racine County legal department states "the voting machines are
never connected while/during the voting process. The machines are only
connected (manually by designated poll workers) after the votes are cast,
counted, etc., then the machines are disconnected from the internet after
transmission of the results is completed" How do you know? ...you do not have the default passwords...anyone who has password access can hack into the modem at any time. Racine County needs a full cyber audit of the 2020 election. More to come...

Wisconsin Moves Forward with Forensic Audit
WI State Rep. Janel Brandtjen issued a release today: "Assembly Campaigns and Elections Committee to Initiate More Intensive Investigation of Fraudulent Activity."
Rep. Brandtjen is the Chair of the Wisconsin Assembly Committee on Campaigns and Elections. She visited the Maricopa audit earlier this month and has called for an Arizona-style audit of Wisconsin's November election.
In her statement she writes: "voters have made it clear that they want a thorough cyber-forensic examination of tabulators, ballot marking devices, and other election equipment, which I will be helping facilitate on behalf of the committee as chair…
IP addresses, chain of custody on ballots, and audit trail logs must be thoroughly inspected by cyber-audit technicians… While WI is in the process of an election audit, I will be working to ensure that it is augmented with expertise and resources to ensure a comprehensive, forensic examination."

Statement by Donald J. Trump, 45th President of the United States of America

Wisconsin Republican leaders Robin Vos, Chris Kapenga, and Devin LeMahieu, are working hard to cover up election corruption, in Wisconsin. They are actively trying to prevent a Forensic Audit of the election results, especially those which took place in Milwaukee, one of the most corrupt election locales in the country. Don't fall for their lies! These REPUBLICAN "leaders" need to step up and support the people who elected them by providing them a full forensic investigation. If they don't, I have little doubt that they will be primaried and quickly run out of office.

All,
Is the below article accurate ? Did Rep Vos say .... this ... Are you seriously telling me if significant fraud is found in the most questionable election in my life time ..... Its not going to change anything! It's just going to give us better guidance for making future election laws...

AMERICAN OVERSIGHT

There is a strong constituent that believes there was fraud involved... and will demand our electoral vote certification be reversed if fraud is found .. Trump only lost by 20k votes supposedly.... John Jagler won by 8 points shortly after ... we will demand action

Let me tell you if fraud is found it changes everything.... Any you best be conscious of this
1. The People of Wisconsin will not stand for a fraud standing ...its not ok
2. We will work to primary out or recall anyone thinking of letting a fraud stand
3. The legislature that certified the election result , then doing nothing after fraud and violation of state election laws will be held accountable

Dear Rep. Robin Vos and fellow members of the Wisconsin Assemblyof Representatives.

With all of the violations of 16 Wisconsin laws as outlined in AJR 120 please sign on as cosponsors and quickly move to decertify Wisconsin's electors and set them aside. We look forward to the judge's report on Tuesday.

I realize many of you may have no fear of God or moral values but a rabbi once said, "Those who remain silent about a crime 'becomeaccomplices.'"

Don't be silent aboutthe crimes committed in your state with election fraud. Step up and sign on as cosponsors to AJR 120 and devertify your lectors!

Dear Members of the Wisconsin Assembly Rules Committee,

This is to urge you to please hold a hearing on 2021 Assembly Joint Resolution 120 so that Wisonsincan correct the Wisconsin laws which were broken in the 2020 election and reclaim your state electoral votes as outlined in this resolution.

Failure to act on this resolution points to you not honoring the vets from Wisconsin and America who died and were injured for us to have free and fair elections. The citizens of Wisconsin and America are watching and waiting for you to have the courage to act and move this resolution out to the Assembly floor for debate, a vote and action.

What you do in Wisconsin impacts all of us in America!

As part of the 3,000,000 viewers offrankseech.comI thank you for your kind consideration of this request and your timely action. I suspect PresidentTrump will likely mention this action in his rally tomorrow from Texas.

2021 - 2022 LEGISLATURE
2021 ASSEMBLY JOINT RESOLUTION 120
January 25, 2022 - Introduced by RepresentativeRamthun. Referred to Committee on Rules.

AMERICAN OVERSIGHT

Relating to: Wisconsin election reform and reclaiming the electoral ballots for President and Vice President that were certified under fraudulent intent and purpose.

Whereas, the Center for Tech and Civic Life (CTCL) enabled the illegal use of over 500 voter drop boxes in Wisconsin, infringing Wis. Stat. § 6.87 (6), in all 72 counties under Elections Commission guidance issued on August 19, 2020, and the use of drop boxes was organized by the Cybersecurity and Infrastructure Security Agency (CISA), which worked in conjunction with other national organizations like the CTCL, Center for Election Innovation and Research (CEIR), and National Conference of State Legislatures (NCSL), which, on October 2, 2020, promoted CISA's campaign of illegal drop boxes; and

Whereas, the Wisconsin Supreme Court stated in *Trump v. Biden*, 2020 WI 91, "On March 25, 2020, the Dane and Milwaukee County Clerks issued guidance on Facebook suggesting all voters could declare themselves indefinitely confined because of the pandemic and the governor's then-existing Safer-at-Home Order.

This court unanimously deemed that advice incorrect on March 31, 2020, and we noted that the WEC guidance . . . provides the clarification on the purpose and proper use of the indefinitely confined status that is required at this time," which verifies that the Elections Commission gave improper guidance in the 2020 election, and in her dissent in *Trump v. Biden*, Wisconsin Supreme Court Justice Rebecca Grassl Bradley revealed that the Elections Commission infringed Wis. Stat. §§ 5.05 (1), 6.84 (1) and (2), 6.86, 6.87 (3), (4), (5), (6), (7), and (9), and 227.112 (3); and

Whereas, on December 7, 2020, Elections Commissioner Dean Knudson filed a complaint against Meagan Wolfe under Wis. Stat. § 7.70 (5) for the rushed ascertainment of certification of the 2020 election before time for filing an appeal of the recount had passed, and revealed the planned haste to circumvent any further discussion or objection; and

Whereas, the Assembly Committee on Campaigns and Elections has collected nearly 3,000 documents and e-mails with connection to election manipulations by the CTCL in five of Wisconsin's largest cities, and there are five lawsuits in those cities against the Elections Commission; and

Whereas, data experts have studied the historical voter trends based on population growth for both the entirety of the State of Wisconsin and its counties individually, and those studies reveal the normal inverse relationship of data was not present in the 2020 election results, which is a statistical impossibility; and

Whereas, the WisVote database reflects 7.1 million registered voters in a state with a population of 5.8 million and a voting age population of 4.5 million, and the WisVote database is riddled with incomplete and misrepresented data, including

AMERICAN OVERSIGHT

thousands of voters with the same phone numbers, addresses, and faulty zip codes, all of which reflects gross negligence in maintaining the database; and

---

Whereas, grassroots canvassing efforts reveal 200 addresses in 31 counties in Wisconsin that have 200 to 400 registered voters at a single address, and a sampling of 1,000 actual 2020 absentee ballot envelopes from Milwaukee County found 23 percent had questionable addresses; and

Whereas, the Elections Commission voted to do upgrades on Dominion voting machines on June 2, 2021, and, following a press release on August 11, 2021, voicing concerns about the deletion of log file data from those upgrades, the commission voted to allow upgrades to new ES&S voting machines on September 9, 2021, with no reassurances of protecting the data of the 2020 election on older machines, even though it was revealed the upgrades do erase log file data kept on the machine hard drives; and

Whereas, the audit report of the nonpartisan Legislative Audit Bureau identified 44,272 voters who did not provide proper voter identification in the 2020 general election, revealed the mass increase of indefinitely confined voters from 54,505 in 2019 to 169,901 in 2020, revealed that 28.7 percent of all municipal clerks across all 72 counties used illegal drop boxes, and made 30 recommendations for the Elections Commission to rectify their actions; and

Whereas, a total of 50 of the 69 county GOP parties released letters of support or resolutions asking for further investigation into the elections process, showing that over two-thirds of Wisconsin Republicans have no faith in the Elections Commission; and

Whereas, commissioners and staff of the Elections Commission prevented the deployment of special voting deputies to care facilities, as confirmed by the Racine County Sheriff's Department, which found that on March 12, 2020, the Elections Commission knowingly and willfully directed all 72 county clerks to violate Wis.

Stat. §§ 6.84 and 6.875 regarding absentee voting in certain residential care facilities and retirement homes, and the commission's unlawful direction clearly broke Wis. Stat. § 12.13 (2) (b) 7., which refers to intentionally violating election laws; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Jeff O'Donnell, who found a multitude of irregularities when he analyzed data from the Wisconsin voter rolls, including that 93.7 percent of active voters participated in the 2020 general election, 205,355 voter registration applications were dated November 3, 2020,

AMERICAN OVERSIGHT

957,977 individuals registered as new voters in 2020, 45,665 voters who registered did not have matching Division of Motor Vehicle records, 22 percent of active voters registered in the 6 months leading up to November, 3, 2020, 31,872 of those voters who registered in that 6-month period are now listed as inactive, and 42,000 voters who voted in the November 3, 2020, election are now listed as inactive; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Dr. Douglas Frank, who revealed that patterns in the Wisconsin voter rolls showed that the voter rolls were inflated to the maximum possible number of voters according to census population data for every presidential election in Wisconsin since 2008 and that the voter rolls were purged shortly after each such election, and that these patterns were consistent across all 72 counties in Wisconsin, revealing that these activities were centrally controlled; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from Attorney Erick Kaardal, who identified that the money provided by the CTCL and Mark Zuckerberg to local governments in Wisconsin relating to the 2020 general election violated Wis. Stat.

---

§ 12.11, which prohibits election bribery and states that "'anything of value' includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1," and that amount was greatly exceeded; and

Whereas, at the Growing Threats to Election Officials in Wisconsin Press Conference held on December 13, 2021, it was revealed that the CEIR is a biased organization that also received funding from Mark Zuckerberg, along with the CTCL, and that the CEIR is seeking to provide pro bono defense attorneys to election officials who used the CTCL money in the 2020 general election; and

Whereas, on January 13, 2022, Waukesha County Circuit Court Judge Michael Bohren issued an oral ruling in court holding that the Elections Commission's guidance on absentee ballot drop boxes should have been promulgated as a rule under Wis. Stat. ch. 227; that state law provides just two legal methods for a voter to return an absentee ballot: through the mail or in-person at the municipal clerk's office or an alternate site designated according to law; and that ballot harvesting and returning absentee ballots to drop boxes are not legal methods to cast absentee ballots in Wisconsin; and

Whereas, the U.S. Supreme Court has found that fraud vitiates and nullifies any contract: *Boyce's Executors v. Grundy* (1830) 28 U.S. 210; "Fraud vitiates the most solemn contracts, documents and even judgments." *United States v. Throckmorton* (1878) 98 U.S. 61, 64; and

AMERICAN OVERSIGHT

Whereas, the November 2020 Wisconsin general election, as regulated and directed by the Elections Commission, was one of the most haphazard, controversial, and poorly managed elections in state history, shaking citizens' confidence in fair elections across Wisconsin, and with the culmination of these evidences, prove the

results of the commission's certification of the 2020 election are considered fraudulent; now, therefore, be it

Resolved by theassembly, thesenateconcurring, Thatthe accumulated evidence proves the actions taken by the Elections Commission to certify the 2020 presidential election shall be considered contrary to law and fraudulent under Wis. Stat. §§ 6.84, 6.87 (6), 6.875, 12.11, and 12.13 (2) (b) 7.; and, be it further

Resolved, Thatthe Wisconsin Legislature, pursuant to its authority under Article II, Section 1, Clause 2 of the U.S. Constitution and 3 U.S.C. § 2, and consistent with guidance provided by the Constitutional Counsel Group in a memorandum dated December 30, 2021, acknowledges that illegality took place in conducting the 2020 general election and reclaims Wisconsin's 10 fraudulent electoral ballots cast for Joseph R. Biden and Kamala Harris; and, be it further

Resolved, Thatthe Wisconsin Legislature shall pass legislation with the intention to clean up the WisVote database and create separate servers for active and inactive voters; and, be it further

Resolved, Thatthe Wisconsin Legislature supports a full forensic physical and cyber audit of the 2020 general election, that this full forensic physical and cyber audit should be conducted by an independent and nonpartisan auditing firm with a scope statement approved by the Assembly Committee on Campaigns and Elections, and that this full forensic physical and cyber audit must include the following components:

1. Total examination of voting system machines, including browsers, tabulators, scanners, routers and firewalls, switches, network and out-of-band management cards, internet or network connectivity, network and remote access, remote access applications, software installed or removed on the system, flash

drives, thumb drives, event logs, scripts that have been run, the date on which data were last modified and what data were modified, whether during or after the election, systems and security updates, password policies, multifactor authentication, databases, adjudication records, administrator accounts, and log-in records.

AMERICAN OVERSIGHT

2. Kinematic artifact detection of all physical paper ballots, including whether ballots meet industry maximum allowable compliance for out-of-calibration measurements, ballot thickness to prevent bleed through, types of markers used, printed ballots, quantity of ballots, ballot trail, voter roll in comparison to ballots, mail-in ballot standards, and ballot watermarks and dot coding.

3. Physical canvas, including whether county clerks and election employees and volunteers followed election rules and regulations mandated by their county.

4. Transparency; and, be it further

Resolved, That in order to ensure transparency, all such audits shall be streamed live for public viewing and recorded via security video to be run 24 hours a day, 7 days a week, until all such audits are complete; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation specifically intended to secure the integrity of future elections in Wisconsin based on the findings of the Legislative Audit Bureau investigation, the Assembly Committee on Campaigns and Elections investigation, and the full forensic physical and cyber audit; and, be it further

Resolved, That the secretary of state of the State of Wisconsin is hereby directed to forward a proper authenticated copy of this resolution to the President of the Senate of the United States.

We have some exciting news to share with you. Menomonee Falls High School Culinary Arts lab is getting a makeover! Students currently work in a home-style lab for culinary courses. The student lab will be transitioning to a commercial setting through an upcoming renovation. These upgraded features will include:

- Stainless steel countertops, shelves, and cabinets
- Student ranges

AMERICAN OVERSIGHT

- Demo station range
- Refrigerator
- Freezer
- Dishwasher

The MFHS Culinary Arts program offers students a strand of four courses that students can take freshman to senior years. These courses are designed for students to learn applicable, in-demand skills in the culinary and foodservice industry. As students finish their courses, they are encouraged to continue their culinary education through workplace experience programs. Students can participate in the Youth Apprenticeship or Internship (formerly Supervised Occupational Experience) programs to gain employment experience in the culinary and foodservice industries. Our students also share their culinary skills with fellow students and the community through the yearly "Cupcake Wars." Each class competes to create the best/tastiest cupcake with the winning cupcake mass-produced during "Senior Holiday" week and displayed at Davian's.

The Culinary Arts lab renovation is scheduled to begin in May with completion in August. Keep an eye on our social media accounts for student culinary creations and project updates. We are excited for our students to access this new learning environment!

If you would like more information about the Culinary Arts program, please reach out to Adam Rathje, Family, and Consumer Science Curriculum Chair.

Two fifth-grade students from Riverside Elementary, Austin Cegielski and Kael Boenitz, are putting a lot of sole into earning Riverside's top award, the Pin of Honor. Cegielski and Boenitz will host a Shoe Drive, February 28 - March 3, at Riverside to help children in Africa attend school and adults walk to work safely.

"The Pin of Honor is the highest award a student can get at Riverside," said Scott Walter, Principal at Riverside Elementary. "It is a year-long endeavor that I introduce to fifth-grade students at the end of September and involves achievements students can do in three different categories: courage, generosity, and academic excellence. Students have to complete six things, at least one in each category, or more to earn the Pin of Honor. Our entire fifth-grade recognition ceremony at the end of the year revolves around it."

To help with this service project, each classroom at Riverside will have a collection bin and a large box in the front entrance/school lobby for shoe donations. Please consider donating NEW or USED (clean) shoes of any size for adults and children. Tennis shoes, tie shoes, slip-on shoes, dress shoes/flats are great, but please avoid sending winter boots, high heels, or flip flops.

The ACT will be administered on March 8, 2022. All juniors should report to MFHS at the normal start time to complete the ACT. Since it is required that we test all junior students, attendance will be extremely important on this day. Freshmen, sophomores, and seniors will complete work asynchronously from home.

This will be the eighth year that the State of Wisconsin has mandated and funded the administration of the ACT, including the writing test, for all junior students. The ACT is a national college admissions examination that consists of subject area tests in English, reading, writing, math, and science. The ACT includes a series of multiple-choice questions and takes approximately three hours and 30 minutes to complete. The writing portion of the exam will add an additional 40 minutes to the test. Because of its role in the college admission process, the ACT is often considered a gateway test. For this reason, we are excited that 100% of our students will be tested this year.

ASSEMBLY SUBSTITUTE AMENDMENT 1,

TO SENATE BILL 946

February 24, 2022 – Offered by Representatives PETERSEN and TAUCHEN.

AN ACT ***to repeal*** 8.20 (8) (am); ***to renumber and amend*** 7.52 (1) (a); ***to amend*** 5.84 (1), 6.15 (4) (a), 6.15 (4) (b), 6.86 (1) (b), 6.87 (6), 6.88 (1), 6.88 (2), 7.15 (1) (cm), 7.52 (2), 7.52 (3) (a), 7.52 (4) (a), 7.52 (9) and 8.20 (8) (a); and ***to create*** 6.19, 6.88 (4), 7.15 (16), 7.52 (1) (a) 2., 7.52 (1) (d) to (h), 7.52 (10) and 66.0512 of the statutes; **relating to:** transmitting and canvassing absentee ballots, presidential ballots, nomination papers for certain independent candidates, whistleblower protection for municipal clerks, and providing a penalty.

Analysis by the Legislative Reference Bureau

EARLY CANVASSING OF ABSENTEE BALLOTS

Under current law, absentee ballots may not be canvassed until election day. Current law additionally provides that any municipality may provide by ordinance that, in lieu of canvassing absentee ballots at polling places, a municipal board of absentee ballot canvassers established by the municipality is responsible for canvassing all absentee ballots received by the municipal clerk by 8 p.m. on election day. In such a municipality, the board of absentee ballot canvassers is required to convene a meeting any time after the polls open and before 10 p.m. on election day

AMERICAN OVERSIGHT

to canvass the absentee ballots cast in the municipality in the election. Among the requirements governing such a meeting, any member of the public has the same right of access to the meeting that the individual would have to observe the canvassing of absentee ballots at a polling place.

Also under current law, other than as described above, votes, including votes cast by absentee ballot, are canvassed at the polling place after polls close on election day. However, in a municipality that uses an electronic voting system, the municipal clerk or municipal board of election commissioners may adjourn the vote canvass to a central counting location where votes cast at multiple polling places in the municipality and absentee ballots may all be counted after the polls close on election day.

This bill does all of the following:

1. Requires the municipal board of absentee ballot canvassers in a municipality having an ordinance described above to begin canvassing absentee ballots on the day before an election. Canvassing absentee ballots on the day before the election is optional except for each spring and general election and each special election or recall election if the special or recall election is for a state or national office.

2. Provides that no municipality may utilize a central counting location unless it has passed an ordinance providing for the canvassing of absentee ballots by a board of absentee ballot canvassers.

3. Provides that the board of absentee ballot canvassers must publicly convene at 7 a.m. on the day before the election to begin the canvass of absentee ballots for the municipality and recess at 8 p.m. on that day.

4. Requires that at 7 a.m., noon, and 8 p.m. on the day before the election, and at 7 a.m., noon, and 8 p.m. on election day, the municipal clerk or his or her designee must provide to the county clerk of the county in which the municipality is located a statement that shows the total number of absentee ballots returned to the municipality, the total number of absentee ballots the municipal board of absentee ballot canvassers has canvassed, and the total number of absentee ballots that remain to be canvassed. The county clerk must promptly post each statement on the Internet site on which the county clerk posts returns on election night. In a 1st class city, the city clerk or his or her designee may post the statement on the city clerk's Internet site. The statement may not include the names or addresses of any electors. An absentee ballot may be considered canvassed for purposes of this reporting requirement only after all tasks have been completed in the canvassing process except for the tallying of votes.

5. Requires that when the meeting of the board of absentee ballot canvassers recesses on the day before the election, the board must secure the automatic tabulating equipment, and the areas where the programmed media, memory devices, and absentee ballots are housed, with tamper-evident security seals in a double-lock location such as a locked cabinet inside a locked office. Before resuming the canvassing of absentee ballots, the board must check and record the status of each tamper-evident seal and must immediately notify the Elections Commission of any evidence of tampering. If the board discovers evidence of tampering with respect to automatic tabulating equipment, the canvass may not resume until the

AMERICAN OVERSIGHT

equipment is replaced and the replacement equipment is tested. Also, if the board discovers evidence of tampering, the municipality must conduct a recount after the election and must audit the election equipment to verify the accuracy of the absentee ballot count.

6. Provides that votes on absentee ballots canvassed early under the bill may not be tallied until after the canvass is complete or after the polls close on election day, whichever is later.

7. Provides that no person may act in a manner that would give him or her the ability to know or to provide information on the accumulating or final results from the ballots canvassed under the bill before the canvass is complete or before the polls close on election day, whichever is later. Whoever intentionally violates that prohibition is guilty of a Class I felony, the penalty for which is a fine not to exceed $10,000 or imprisonment not to exceed three years and six months, or both.

8. Authorizes municipalities not utilizing a central counting location and not having a board of absentee ballot canvassers to begin processing absentee ballots beginning at 7 a.m. on the day before the election subject to some of the requirements described above. In order to canvass absentee ballots early, such a municipality must provide by ordinance that absentee ballots received by the municipal clerk may be canvassed on the day before the election. Prior to enacting the ordinance, the municipal clerk must notify the Elections Commission in writing of the proposed ordinance and must consult with the Elections Commission concerning the early canvassing of absentee ballots.

Finally, under current law, criminal penalties are provided for election officials who commit certain specified kinds of election fraud. Otherwise, the willful neglect or refusal of an election official to perform a duty prescribed under the election laws is punishable by disqualification to act as an election official for five years. Under the bill, a member of the municipal board of absentee ballot canvassers or other election official who willfully neglects or refuses to perform any of the duties prescribed under the bill, and other duties prescribed under current law, with respect to the canvassing of absentee ballots by a municipal board of absentee ballot canvassers is guilty of a Class I felony.

ELECTION NIGHT REPORTING

Under the bill, at 9 p.m. on election night, and every hour thereafter until the canvass is complete, each municipal clerk or his or her designee must provide to the county clerk of the county in which the municipality is located a statement that shows the total number of ballots, including absentee ballots, cast at the municipality in the election, the total number of ballots, including absentee ballots, that have been canvassed, and the total number of ballots, including absentee ballots, that remain to be canvassed. The county clerk must promptly post each statement on the Internet site on which the county clerk posts returns on election night. In a 1st class city, the city clerk or his or her designee may post the statement on the city clerk's Internet site. The statement may not include the names or addresses of any electors. An absentee ballot may be considered canvassed for purposes of this reporting requirement only after all tasks have been completed in the canvassing process except for the tallying of votes.

AMERICAN OVERSIGHT

Issuance of presidential ballots

Under current law, certain new and former residents of Wisconsin may apply for and receive a ballot for the purpose of voting only for candidates for president and vice president at a presidential election in Wisconsin. The bill prohibits poll workers and other election officials from providing a ballot used for voting for the offices of president and vice president only, unless the elector is a new or former resident of the state and applies and qualifies for the presidential ballot as provided by law.

Timeline for sending or transmitting absentee ballots

Current law requires a municipal clerk to send an absentee ballot for each partisan primary, presidential preference primary, and general election to all electors requesting the ballot, including military and overseas electors, no later than the 47th day before the partisan primary, presidential preference primary, or general election or, if the request is not made before that day, within one business day after the request is received. For all other primaries and elections, the municipal clerk must send or transmit the absentee ballot no later than the 21st day before the primary or election or, if the request is not made before that day, within one business day after the request is received.

Under the bill, a municipal clerk must send or transmit an absentee ballot for all primaries and elections, regardless of the type of primary or election, to electors other than military and overseas electors no later than the 21st day before the primary or election or, if the request is not made before that day, within one business day after the request is received. Under the bill, a municipal clerk must send or transmit an absentee ballot for all primaries and elections, regardless of the type of primary or election, to military and overseas electors no later than the 45th day before the primary or election or, if the request is not made before that day, within one business day after the request is received. That 45th day timeline is consistent with federal law.

Nomination papers for certain independent candidates

Under current law, nomination papers for independent candidates for any office to be voted upon at a general election, except president and vice president, may be circulated no sooner than the April 15 preceding the general election and must be filed no later than 5 p.m. on the June 1 preceding the partisan primary, which is held on the second Tuesday in August preceding the general election. Under current law, nomination papers for independent candidates for president and vice president may be circulated no sooner than the July 1 preceding the general election and must be filed no later than 5 p.m. on the first Tuesday in August preceding a presidential election.

Under the bill, the timeline for circulating and filing nomination papers for independent candidates for president and vice president is the same as that for all other independent candidates for offices to be voted on at the general election: nomination papers may be circulated no sooner than the April 15 preceding the general election and must be filed no later than the June 1 preceding the partisan primary.

AMERICAN OVERSIGHT

WHISTLEBLOWER PROTECTIONS

The bill provides whistleblower protection for municipal clerks who witness and report election fraud or irregularities. Under the bill, no municipal clerk may be discriminated against in regard to employment, including by being discharged, disciplined, or demoted, as a reprisal because the clerk lawfully reported, or is believed to have reported, witnessing what the clerk reasonably believed to be election fraud or irregularities.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

SECTION 1. 5.84 (1) of the statutes is amended to read:

5.84 **(1)** Where any municipality employs an electronic voting system ~~which~~ that utilizes automatic tabulating equipment, ~~either at the polling place or at a central counting location,~~ the municipal clerk shall, on any day not more than 10 days prior to the ~~election~~ day on which the equipment is to be utilized in an election, have the equipment tested to ascertain that it will correctly count the votes cast for all offices and on all measures. Public notice of the time and place of the test shall be given by the clerk at least 48 hours prior to the test by posting notice on the municipality's Internet site if it has one and by publication of a class 1 notice under ch. 985 in one or more newspapers published within the municipality if a newspaper is published therein, otherwise in a newspaper of general circulation therein. The test shall be open to the public. The test shall be conducted by processing a preaudited group of ballots so marked as to record a predetermined number of valid votes for each candidate and on each referendum. The test shall include for each office one or more ballots which have votes in excess of the number allowed by law and, for a partisan primary election, one or more ballots which have votes cast for candidates of more than one recognized political party, in order to test the ability of the automatic tabulating equipment to reject such votes. If any error is detected, the

AMERICAN OVERSIGHT

municipal clerk shall ascertain the cause and correct the error. The clerk shall make an errorless count before the automatic tabulating equipment is approved by the clerk for use in the election.

SECTION 2. 6.15 (4) (a) of the statutes is amended to read:

6.15 **(4)** (a) Clerks holding new resident ballots shall deliver them to the election inspectors in the proper ward or election district where the new residents reside or, in municipalities where absentee ballots are canvassed under s. 7.52, to the municipal board of absentee ballot canvassers ~~when it convenes~~ at a meeting convened under s. 7.52 (1), as provided by s. 6.88 for absentee ballots.

SECTION 3. 6.15 (4) (b) of the statutes is amended to read:

6.15 **(4)** (b) During polling hours, or on the day before the election under s. 6.88 (4), the inspectors shall open each carrier envelope, announce the elector's name, check the affidavit for proper execution, and check the voting qualifications for the ward, if any. In municipalities where absentee ballots are canvassed under s. 7.52, the municipal board of absentee ballot canvassers shall perform this function at a meeting of the board of absentee ballot canvassers.

SECTION 4. 6.19 of the statutes is created to read:

6.19 Presidential ballots. (1) In this section, "presidential ballot" means a ballot that allows an elector to vote only for candidates for president and vice president.

(2) No election inspector or other election official may provide a presidential ballot to an elector for voting at a presidential election, except as provided under ss. 6.15 and 6.18.

SECTION 5. 6.86 (1) (b) of the statutes is amended to read:

AMERICAN OVERSIGHT

6.86 **(1)** (b) Except as provided in this section, if application is made by mail, the application shall be received no later than 5 p.m. on the 5th day immediately preceding the election. If application is made in person, the application shall be made no earlier than 14 days preceding the election and no later than the Sunday preceding the election. No application may be received on a legal holiday. A municipality shall specify the hours in the notice under s. 10.01 (2) (e). The municipal clerk or an election official shall witness the certificate for any in-person absentee ballot cast. Except as provided in par. (c), if the elector is making written application for an absentee ballot at the partisan primary, the general election, the presidential preference primary, or a special election for national office, and the application indicates that the elector is a military elector, as defined in s. 6.34 (1), the application shall be received by the municipal clerk no later than 5 p.m. on election day. If the application indicates that the reason for requesting an absentee ballot is that the elector is a sequestered juror, the application shall be received no later than 5 p.m. on election day. If the application is received after 5 p.m. on the Friday immediately preceding the election, the municipal clerk or the clerk's agent shall immediately take the ballot to the court in which the elector is serving as a juror and deposit it with the judge. The judge shall recess court, as soon as convenient, and give the elector the ballot. The judge shall then witness the voting procedure as provided in s. 6.87 and shall deliver the ballot to the clerk or agent of the clerk who shall deliver it to the ~~polling place~~ election inspectors of the proper ward or election district or, in municipalities where absentee ballots are canvassed under s. 7.52, to the municipal clerk as required in s. 6.88. If application is made under sub. (2) or (2m), the application may be received no later than 5 p.m. on the Friday immediately preceding the election.

AMERICAN OVERSIGHT

SECTION 6. 6.87 (6) of the statutes is amended to read:

6.87 **(6)** The ballot shall be returned so it is delivered to the ~~polling place~~ election inspectors of the proper ward or election district no later than 8 p.m. on election day. Except in municipalities where absentee ballots are canvassed under s. 7.52, if the municipal clerk receives an absentee ballot on election day, the clerk shall secure the ballot and cause the ballot to be delivered to the polling place serving the elector's residence before 8 p.m. Any ballot not mailed or delivered as provided in this subsection may not be counted.

SECTION 7. 6.88 (1) of the statutes is amended to read:

6.88 **(1)** When an absentee ballot arrives at the office of the municipal clerk, or at an alternate site under s. 6.855, if applicable, the clerk shall enclose it, unopened, in a carrier envelope which shall be securely sealed and endorsed with the name and official title of the clerk, and the words "This envelope contains the ballot of an absent elector and must be opened ~~in the same room where votes are being cast at the polls during polling hours on election day or, in municipalities where absentee ballots are canvassed under s. 7.52, stats., at a meeting of the municipal board of absentee ballot canvassers under s. 7.52, stats~~ only as provided by law." If the elector is a military elector, as defined in s. 6.34 (1), or an overseas elector, regardless of whether the elector qualifies as a resident of this state under s. 6.10, and the ballot was received by the elector by facsimile transmission or electronic mail and is accompanied by a separate certificate, the clerk shall enclose the ballot in a certificate envelope and securely append the completed certificate to the outside of the envelope before enclosing the ballot in the carrier envelope. The clerk shall keep the ballot in the clerk's office or at the alternate site, if applicable until delivered, as required in sub. (2).

AMERICAN OVERSIGHT

SECTION 8. 6.88 (2) of the statutes is amended to read:

6.88 **(2)** When an absentee ballot is received by the municipal clerk prior to the delivery of the official ballots to the election officials of the ward in which the elector resides or, where absentee ballots are canvassed under s. 7.52, to the municipal board of absentee ballot canvassers, the municipal clerk shall seal the ballot envelope in the carrier envelope as provided under sub. (1), and shall enclose the envelope in a package and deliver the package to the election inspectors of the proper ward or election district or, in municipalities where absentee ballots are canvassed under s. 7.52, to the municipal board of absentee ballot canvassers ~~when it convenes~~ at a meeting convened under s. 7.52 (1). When the official ballots for the ward or election district have been delivered to the election inspectors before the receipt of an absentee ballot, the clerk shall immediately enclose the envelope containing the absentee ballot in a carrier envelope as provided under sub. (1) and deliver it in person to the proper election officials.

SECTION 9. 6.88 (4) of the statutes is created to read:

6.88 **(4)** (a) 1. The governing body of any municipality not specified in s. 7.52 (1) (a) may provide by ordinance that absentee ballots received by the municipal clerk may be canvassed on the day before the election.

2. Prior to enacting an ordinance under subd. 1., the municipal clerk shall notify the commission in writing of the proposed enactment and shall consult with the commission concerning administration of this subsection.

(am) In any municipality having an ordinance under par. (a), subject to pars. (b) to (f), the election inspectors may convene a meeting to begin canvassing absentee ballots beginning at 7 a.m. on the day before the election.

AMERICAN OVERSIGHT

(b) The municipal clerk shall give at least 60 days' notice of a meeting under this subsection. Any member of the public has the same right of access to observe the proceedings at a meeting under this subsection that the individual would have under s. 7.41. The election inspectors may order the removal of any individual exercising the right to observe the proceedings if the individual disrupts the meeting.

(c) 1. At 7 a.m., noon, and 8 p.m. on the day before the election, and at 7 a.m., noon, and 8 p.m. on election day, the municipal clerk or his or her designee shall provide to the county clerk of the county in which the municipality is located a statement that shows the total number of absentee ballots returned to the municipality, the total number of absentee ballots the election inspectors have canvassed under this subsection, and the total number of absentee ballots that remain to be canvassed. The county clerk shall promptly post each statement on the Internet site on which the county posts returns on election night under s. 7.60. In a 1st class city, the city clerk or his or her designee may post the statement required under this paragraph on the city clerk's Internet site. The statement may not include the names or addresses of any electors.

2. An absentee ballot may be considered canvassed for purposes of subd. 1. only after all tasks have been completed in the canvassing process except for the tallying of votes.

(d) When the meeting of the election inspectors recesses on the day before the election, the election inspectors shall secure the automatic tabulating equipment, and the areas where the programmed media, memory devices, and absentee ballots are housed, with tamper-evident security seals in a double-lock location such as a locked cabinet inside a locked office. Before resuming the canvassing of absentee ballots on election day, the election inspectors shall check and record the status of

AMERICAN OVERSIGHT

each tamper-evident seal. The election inspectors shall immediately notify the commission of any evidence of tampering. If the election inspectors discover evidence of tampering with respect to automatic tabulating equipment, the canvass may not resume until the equipment is replaced and the replacement equipment is tested as provided in s. 5.84. If the election inspectors discover evidence of tampering under this paragraph, the municipality shall conduct a recount after the election of all absentee ballots cast in the municipality in the election in the manner provided under s. 9.01 and shall audit the election equipment to verify the accuracy of the absentee ballot count in the municipality in the election.

(e) Votes on absentee ballots canvassed under this subsection may not be tallied until after the canvass is complete or after the polls close on election day, whichever is later.

(f) No person may intentionally act in a manner that would give him or her the ability to know or to provide information on the accumulating or final results from the ballots canvassed under this subsection before the canvass is complete or before the polls close on election day, whichever is later. Whoever intentionally violates this paragraph is guilty of a Class I felony.

SECTION 10. 7.15 (1) (cm) of the statutes is amended to read:

7.15 **(1)** (cm) Prepare official absentee ballots for delivery to electors requesting them~~,~~ and ~~except as provided in this paragraph,~~ send an official absentee ballot ~~to each elector who has requested a ballot by mail, and~~ to each military elector, as defined in s. 6.34 (1), and overseas elector who has requested a ballot by mail, electronic mail, or facsimile transmission~~,~~ no later than the ~~47th~~ 45th day before each partisan primary, presidential preference primary, special primary or election, and general election ~~and no later than the 21st day before each other primary and~~

AMERICAN OVERSIGHT

~~election if the request is made before that day~~; otherwise, the municipal clerk shall send or transmit an official absentee ballot within one business day of the time the military or overseas elector's request for such a ballot is received. The clerk shall send or transmit an absentee ballot ~~for the presidential preference primary to each elector who has requested that~~ to all other electors requesting a ballot no later than the ~~47th~~ 21st day before the ~~presidential preference~~ primary or election if the request is made before that day, or, if the request is not made before that day, within one business day of the time the request is received. For purposes of this paragraph, "business day" means any day from Monday to Friday, not including a legal holiday under s. 995.20.

SECTION 11. 7.15 (16) of the statutes is created to read:

7.15 **(16)** ELECTION NIGHT REPORTING. (a) At 9 p.m. on election night, and every hour thereafter until the canvass is complete, the municipal clerk or his or her designee shall provide to the county clerk of the county in which the municipality is located a statement that shows the total number of ballots, including absentee ballots, cast at the municipality in the election, the total number of ballots, including absentee ballots, that have been canvassed, and the total number of ballots, including absentee ballots, that remain to be canvassed. The county clerk shall promptly post each statement on the Internet site on which the county posts returns on election night under s. 7.60. In a 1st class city, the city clerk or his or her designee may post the statement required under this subsection on the city clerk's Internet site. The statement may not include the names or addresses of any electors.

(b) An absentee ballot may be considered canvassed for purposes of par. (a) only after all tasks have been completed in the canvassing process except for the tallying of votes.

AMERICAN OVERSIGHT

SECTION 12. 7.52 (1) (a) of the statutes is renumbered 7.52 (1) (a) 1. and amended to read:

7.52 **(1)** (a) 1. The governing body of any municipality may provide by ordinance that, in lieu of canvassing absentee ballots at polling places under s. 6.88, the municipal board of absentee ballot canvassers designated under s. 7.53 (2m) shall, at each election held in the municipality, canvass all absentee ballots received by the municipal clerk by 8 p.m. on election day. Prior to enacting an ordinance under this ~~subsection~~ subdivision, the municipal clerk or board of election commissioners of the municipality shall notify the ~~elections~~ commission in writing of the proposed enactment and shall consult with the ~~elections~~ commission concerning administration of this section. ~~At~~ Except as provided under par. (h), at every election held in the municipality following enactment of an ordinance under this ~~subsection~~ subdivision, the board of absentee ballot canvassers shall~~, any time after the opening of the polls and before 10 p.m. on election day,~~ publicly convene at 7 a.m. on the day before the election to ~~count the~~ begin the canvass of absentee ballots for the municipality and may not recess until 8 p.m. on that day, or at such time when there are no further absentee ballots to be processed on that day, whichever is earlier, at which time the meeting shall recess; the meeting shall reconvene at 7 a.m. on election day and continue until all absentee ballots received by the municipal clerk by 8 p.m. on election day have been canvassed.

3. The municipal clerk shall give at least ~~48 hours'~~ 60 days' notice of ~~any~~ the meeting under this subsection. Any member of the public has the same right of access to a meeting of the municipal board of absentee ballot canvassers under this subsection that the individual would have under s. 7.41 to observe the proceedings at a polling place. The board of absentee ballot canvassers may order the removal

AMERICAN OVERSIGHT

of any individual exercising the right to observe the proceedings if the individual disrupts the meeting.

SECTION 13. 7.52 (1) (a) 2. of the statutes is created to read:

7.52 **(1)** (a) 2. No municipality may utilize a central counting location under s. 7.51 (1) unless the governing body of the municipality has adopted an ordinance under subd. 1.

SECTION 14. 7.52 (1) (d) to (h) of the statutes are created to read:

7.52 **(1)** (d) 1. At 7 a.m., noon, and 8 p.m. on the day before the election, and at 7 a.m., noon, and 8 p.m. on election day, the municipal clerk or his or her designee shall provide to the county clerk of the county in which the municipality is located a statement that shows the total number of absentee ballots returned to the municipality, the total number of absentee ballots the municipal board of absentee ballot canvassers has canvassed under this subsection, and the total number of absentee ballots that remain to be canvassed. The county clerk shall promptly post each statement on the Internet site on which the county clerk posts returns on election night under s. 7.60. In a 1st class city, the city clerk or his or her designee may post the statement required under this paragraph on the city clerk's Internet site. The statement may not include the names or addresses of any electors.

2. An absentee ballot may be considered canvassed for purposes of subd. 1. only after all tasks have been completed in the canvassing process except for the tallying of votes.

(e) When the meeting of the board of absentee ballot canvassers recesses on the day before the election, the board of absentee ballot canvassers shall secure the automatic tabulating equipment, and the areas where the programmed media, memory devices, and absentee ballots are housed, with tamper-evident security

AMERICAN OVERSIGHT

seals in a double-lock location such as a locked cabinet inside a locked office. Before resuming the canvassing of ballots on election day, the board of absentee ballot canvassers shall check and record the status of each tamper-evident seal. The board of absentee ballot canvassers shall immediately notify the commission of any evidence of tampering. If the board of absentee ballot canvassers discovers evidence of tampering with respect to automatic tabulating equipment, the canvass may not resume until the equipment is replaced and the replacement equipment is tested as provided in s. 5.84. If the board of absentee ballot canvassers discovers evidence of tampering under this paragraph, the municipality shall conduct a recount after the election of all absentee ballots cast in the municipality in the election in the manner provided under s. 9.01 and shall audit the election equipment to verify the accuracy of the absentee ballot count in the municipality in the election.

(f) Votes on absentee ballots canvassed under this section may not be tallied until after the canvass is complete or after the polls close on election day, whichever is later.

(g) No person may intentionally act in a manner that would give him or her the ability to know or to provide information on the accumulating or final results from the ballots canvassed under this section before the canvass is complete or before the polls close on election day, whichever is later. Whoever intentionally violates this paragraph is guilty of a Class I felony.

(h) Canvassing absentee ballots on the day before the election under this section is optional except for each spring and general election and each special election or recall election if the special or recall election is for a state or national office.

SECTION 15. 7.52 (2) of the statutes is amended to read:

AMERICAN OVERSIGHT

7.52 **(2)** In counting the absentee ballots, the board of absentee ballot canvassers shall use 2 duplicate copies of a single absentee poll list for the entire municipality prepared in accordance with s. 6.36 (2). Upon ~~accepting~~ reviewing each absentee ballot certificate envelope to ensure that it satisfies all applicable legal requirements, the board of absentee ballot canvassers shall enter a ~~poll list~~ sequential count number on the absentee poll list next to the name of the elector who voted the ballot, beginning with the number one. If the elector's name does not appear on the absentee poll list, the board of absentee ballot canvassers shall enter the number on a separate list maintained under this subsection. The board of absentee ballot canvassers shall record each elector's sequential count number on the face of the elector's certificate envelope.

SECTION 16. 7.52 (3) (a) of the statutes is amended to read:

7.52 **(3)** (a) The board of absentee ballot canvassers shall first open the carrier envelope only, and, in such a manner that a member of the public, if he or she desired, could hear, announce the name of the absent elector or the identification serial number of the absent elector if the elector has a confidential listing under s. 6.47 (2). When the board of absentee ballot canvassers finds that the certification has been properly executed and the applicant is a qualified elector of the ward or election district, the board of absentee ballot canvassers shall enter an indication, including the elector's sequential count number as provided under sub. (2), on the absentee poll list next to the applicant's name indicating an absentee ballot is cast by the elector. The board of absentee ballot canvassers shall then open the envelope containing the ballot in a manner so as not to deface or destroy the certification thereon. ~~The board of absentee ballot canvassers shall take out the ballot without unfolding it or permitting it to be unfolded or examined~~ and shall remove the ballot from the

certificate envelope. Unless the ballot is cast under s. 6.95, the board of absentee ballot canvassers shall verify that the ballot has been endorsed by the issuing clerk. If the absentee poll list indicates that proof of residence is required and no proof of residence is enclosed or the name or address on the document that is provided is not the same as the name and address shown on the absentee poll list, the board of absentee ballot canvassers shall proceed as provided under s. 6.97 (2). ~~The board of absentee ballot canvassers shall mark the poll list number of each elector who casts an absentee ballot on the back of the elector's ballot.~~ The board of absentee ballot canvassers shall then deposit the ballot into the proper ballot box ~~and enter the absent elector's name or poll list number after his or her name on the poll list~~ or automatic tabulating equipment.

SECTION 17. 7.52 (4) (a) of the statutes is amended to read:

7.52 **(4)** (a) The board of absentee ballot canvassers shall then ~~open the ballot box and remove and~~ count the number of ballots ~~therein~~ without examination except as is necessary to ascertain that each is a single ballot. If 2 or more ballots are folded together so as to appear as a single ballot, the board of absentee ballot canvassers shall lay them aside until the count is completed; and if, after a comparison of the count and the appearance of the ballots it appears to the board of absentee ballot canvassers that the ballots folded together were voted by the same person they shall not be counted but the board of absentee ballot canvassers shall mark them as to the reason for removal, set them aside, and carefully preserve them. The board of absentee ballot canvassers shall then proceed under par. (b).

SECTION 18. 7.52 (9) of the statutes is amended to read:

7.52 **(9)** The governing body of any municipality that has provided by ordinance enacted under sub. (1) (a) 1. for the canvassing of absentee ballots at all elections held

in the municipality under this section may by similar action rescind that decision. Thereafter, the absentee ballots at all elections held in the municipality shall be canvassed as provided in s. 6.88.

SECTION 19. 7.52 (10) of the statutes is created to read:

7.52 **(10)** A member of the board of absentee ballot canvassers or other election official who willfully neglects or refuses to perform any of the duties prescribed under this section is guilty of a Class I felony.

SECTION 20. 8.20 (8) (a) of the statutes is amended to read:

8.20 **(8)** (a) Nomination papers for independent candidates for any office to be voted upon at a general election~~, except president, vice president and presidential elector,~~ may be circulated no sooner than April 15 preceding the election and may be filed no later than 5 p.m. on the June 1 preceding the partisan primary, except as authorized in this paragraph. If an incumbent fails to file nomination papers and a declaration of candidacy by 5 p.m. on June 1 preceding the partisan primary, all candidates for the office held by the incumbent, other than the incumbent, may file nomination papers no later than 72 hours after the latest time prescribed in this paragraph. No extension of the time for filing nomination papers applies if the incumbent files written notification with the filing officer or agency with whom nomination papers are filed for the office which the incumbent holds, no later than 5 p.m. on the 2nd Friday preceding the latest time prescribed in this paragraph for filing nomination papers, that the incumbent is not a candidate for reelection to his or her office, and the incumbent does not file nomination papers for that office within the time prescribed in this paragraph.

SECTION 21. 8.20 (8) (am) of the statutes is repealed.

SECTION 22. 66.0512 of the statutes is created to read:

AMERICAN OVERSIGHT

66.0512 Whistleblower protection for certain disclosures made by municipal clerks. No municipal clerk may be discharged, disciplined, demoted, or otherwise discriminated against in regard to employment, or threatened with any such treatment, as a reprisal because the clerk lawfully reported, or is believed to have reported, witnessing what the clerk reasonably believed to be election fraud or irregularities. For purposes of this section, "lawfully reported" means a report of information the disclosure of which is not expressly prohibited by state or federal law, rule, or regulation.

Re: Co-Sponsorship of LRB-4235 and LRB 4601 relating to: legislative and congressional redistricting (first consideration).

Short Deadline: 5:00 PM on Monday, March 7th.

For years, our political system has been plagued by the practice of gerrymandering. Every ten years, elected leaders in Wisconsin get to draw their district boundaries, essentially picking the voters they want to represent. The party in control manipulates the district lines to benefit themselves in elections, and as technology evolves, the process of drawing partisan districts becomes more extreme.

Fortunately, there is a better way. Legislation has been introduced each session for the past decade to make our state's redistricting process fair, non-partisan, and open to the public. Fair maps legislation is something that the people of Wisconsin have asked for, and it should be passed now. Due to partisan stalemate, Wisconsin's current redistricting process will be decided in court, while neighboring Iowa, which uses the process we are proposing, has already adopted maps on a bipartisan basis.

AMERICAN OVERSIGHT

LRB-4235 and LRB 4601 would adopt the redistricting process that was introduced earlier this session, and that was again successfully used in Iowa, in the form of a constitutional amendment. This will ensure that, once adopted, politicians will never have the power to undo this reform, and that the people of Wisconsin will be guaranteed fair maps each decade through their state constitution.

Voters deserve the constitutional right to choose their representatives, representatives should not choose their voters. If the people of Wisconsin pass this constitutional amendment, no political party will be able to unfairly draw district maps in their favor again. This constitutional amendment requires adoption by two successive legislatures, and ratification by the people of the State of Wisconsin, before it becomes law.

If you are interested in co-sponsoring this constitutional amendment, please contact my office via email or 6-5340 before **5:00 PM on Monday, March 7th**.

Analysis by the Legislative Reference Bureau

A proposed constitutional amendment requires adoption by two successive legislatures, and ratification by the people, before it can become effective.

Subject: Supreme Court Complaint

Hello,

I am sending you the link to the Supreme Court complaint that was drafted by Kurt Olsen in the hopes you will be able to use it to assist you with your efforts in obtaining a full forensic audit and hopefully to decertify the November 3, 2020 election. I understand Mike Lindell was unable to get any AG's to sign on as of right now because of the extreme tyrannical government overreach by the Biden administration and his continued efforts to force ridiculousmandates on us and our children. I know he has said that he has some AG's that want to sign on but did not have the time to do it yet. We are hearing rumbles of Ronna McDaniel pressuring AG's to not sign onto the lawsuit, which makes me very concerned as I am a member of the Republican Party of Waukesha. Almost 60% of American'sbelieve Joe Biden only won due to fraud. I myself have seen enough evidence to believe that President Trump was in fact re-elected. The more evidence that comes out just solidifies my position even more. I don't understand why Speaker Vos is constantly obstructing your efforts to get to the bottom of what really happened in the election. I am very worried if we don't fix what happened now, we will lose our Republic. It is already hanging on by a thin thread.
I never used to be political or get involved with politics until I saw what was happening to President Trump. Then I started researching and learning everything I could and I am disgusted by what has happened in the past few years.
I see both of you working for your constituents even when it appears no one else is and you will never understand how much that means to me and to many other Wisconsinites and Patriots all over America.
We are all extremely frustrated and upset by how much the media has slandered all of us and you, and how much push back you are getting from our own party. I expect it from the Democrats. I think that is what makes this whole situation even more heartbreaking.
I am under no illusion that much of this outcome is our problem just as much as it is yours. We slacked, we were lazy, we didn't get involved until it was too late and now we have to try to play catch-up with a bunch of RINOs (not you) obstructing every effort made to fix our elections, have a true forensic audit, and make us feel safe about our votes counting. It depresses me to even think about voting now. I still get out and vote because I know we HAVE to vote but it is not making me feel any better that almost none of our questions about the election have been answered. In any case, I am grateful for all you are doing for Wisconsin and our Republic!

Subject: The election of Nov. 3 2020 must be DECERTIFIED NOW!

Hello Assembly Committee on Campaigns and Elections member, you are one of the people that represent me as a citizen of the State of Wisconsin..
It is time to take action on the **crimes** that were committed in the Nov. 3 2020 election.

Now that the widespread voter/election fraud has now been exposed, documented, and shown to our legislators, the election fraud and manipulation, electronic voting equipment fraud, lack of chain of custody of ballots, people's civil right of equal protection being violated, our pitifully neglected voter rolls, and the negligent actions from the WEC are undeniable, I demand that you RECALL OUR ELECTORS THE NOV 3 2020 ELECTION and move toward the DECERTIFICATION OF THE ELECTION AS OUTLINED by Rep. RAMTHUN and Mr. Gableman.

There is overwhelming evidence of election fraud, illegal ballots counted, and lack of chain of custody of ballots. Our election laws were not followed which means that many ballots that were counted were not legal ballots. Then the illegal ballots were included in the total count of ballots. Then our canvassers certified the illegal count. Then our electors cast their electoral ballots based on an illegal count which was illegal. The number of illegal ballots far exceeds the amount needed to overturn the Presidential election. This goes against every election law we have on the books and for you to treat it as something we just have to live with is unconscionable. The people of Wisconsin demand better elections than this….that's for sure!

You must treat this as an attack on our country that was deliberate and calculated. It is if someone dropped a nuclear bomb on our country and certainly this is an offense to our /republic of the highest order.. Should we just sit back and say, "well it's too late, we'll fix it for next time?" That does not go over very well with the people of Wisconsin….matter of fact, it's disgusting.

People engaging in illegal Dropboxes, Ballot Harvesting, Voter/Election Fraud must be prosecuted and this fraudulent election **must be overturned** in order for justice to be served for the citizens of Wisconsin and our nation!!

When the evidence clearly shows fraud and manipulation, the logical conclusion is that the election was hijacked by people not afraid of prosecution for committing the crime. To top it all off, the election data was illegally deleted from our Election hardware so they now cannot be audited. Per federal law, this data must be retained for 22 months. This smells of criminals covering up a crime!
I am trying to figure out why some of our leaders continue to refer to these actions as conspiracy theories. I can only come to the conclusion that they are either misinformed, ignorant, or corrupt themselves…..they are in danger of being thought of as accomplices to the election fraud cover up. To ignore this would only succeed to embolden the criminals to commit voting fraud again!

AMERICAN OVERSIGHT

I have zero confidence we held a free and fair election on that Nov. 3 2020 day.The trust in our elections has been forever tarnished.
The sheer number of fraud and failures in our election system accounts to a ballot total that could have turned the results of the election many times over.
We certified a fraudulent election.
The election of Nov. 3 2020 must be DECERTIFIED NOW! The people of Wisconsin demand it. RECALL OUR ELECTORAL BALLOTS, the ELECTORAL VOTE we certified was UNLAWFUL!

At the very least, your first step should be to recall our 10 electors and award them to no one since the true outcome of the election is unknown due to all of the fraud and manipulation of the ballots..

I demand that you move forward the Resolution brought forth by Representative Ramthun. The PEOPLE of WISCONSIN demand action to correct the unlawful results of the fraudulent election of Nov. 3 2020.

God hates sin and He hates injustice. God will not honor a stolen election and neither should we!

How long will the people of Wisconsin have to endure the injustice of a fraudulent election? When will our Legislators act on the overwhelming evidence?

Thank you for your service to our State!

PROVERBS 29
1 Whoever remains stiff-necked after many rebukes
will suddenly be destroyed—without remedy.

2 When the righteous thrive, the people rejoice;
when the wicked rule, the people groan.

Please help us to restore Election Integrity in our great State of Wisconsin.
I would be willing to help in this process in any way that I can.
Sincerely,

Greg Zurbuchen

---

Dear Rep. Vos and fellow members of the Assembly in Wisconsin,

Please decertify and set aside your electors as mentioned in 2021 AJR 120.. Does your state have election briberylaws? If so, did any of you personallyreceive money from Zuckerbuck or his group in the 2020 election? If so, what civil liability may you face for not acting to correct the crimes committedin your state? Please don'tlet Rep. Vos and Rep. Steineke pull you and the whole legislature into prison for breaking your laws.

Please show some courage and move now to decertify your electors. Americans are watching as well as citizens of your State of Wisconsin. Which side of history will you be remembered? As those who upheld the laws of your state or those who broke them.

Thanks for your kind consideration of this request.

Sincerely yours,

Hopefully you will find enough members to join with you in moving this bill out of the Rules Committee where it has been placed by Rep. Vos to try and kill it. Otherwise those of us outside your state will have to assume that you and other members are either collective cowards, compromised or complacent in the crimes listed in 2021 AJR 120.

MPG:amn&wlj
2021 - 2022 LEGISLATURE
2021 ASSEMBLY JOINT RESOLUTION 120
January 25, 2022 - Introduced by RepresentativeRamthun. Referred to Committee on Rules.

Relating to: Wisconsin election reform and reclaiming the electoral ballots for President and Vice President that were certified under fraudulent intent and purpose.

Whereas, the Center for Tech and Civic Life (CTCL) enabled the illegal use of over 500 voter drop boxes in Wisconsin, infringing Wis. Stat. § 6.87 (6), in all 72 counties under Elections Commission guidance issued on August 19, 2020, and the use of drop boxes was organized by the Cybersecurity and Infrastructure Security Agency (CISA), which worked in conjunction with other national organizations like the CTCL, Center for Election Innovation and Research (CEIR), and National Conference of State Legislatures (NCSL), which, on October 2, 2020, promoted CISA's campaign of illegal drop boxes; and

Whereas, the Wisconsin Supreme Court stated in *Trump v. Biden*, 2020 WI 91, "On March 25, 2020, the Dane and Milwaukee County Clerks issued guidance on Facebook suggesting all voters could declare themselves indefinitely confined because of the pandemic and the governor's then-existing Safer-at-Home Order.

This court unanimously deemed that advice incorrect on March 31, 2020, and we noted that the WEC guidance . . . provides the clarification on the purpose and proper use of the indefinitely confined status that is required at this time," which verifies that the Elections Commission gave improper guidance in the 2020 election, and in her dissent in *Trump v. Biden*, Wisconsin Supreme Court Justice Rebecca Grassl Bradley revealed that the Elections Commission infringed Wis. Stat. §§ 5.05 (1), 6.84 (1) and (2), 6.86, 6.87 (3), (4), (5), (6), (7), and (9), and 227.112 (3); and

AMERICAN OVERSIGHT

Whereas, on December 7, 2020, Elections Commissioner Dean Knudson filed a complaint against Meagan Wolfe under Wis. Stat. § 7.70 (5) for the rushed ascertainment of certification of the 2020 election before time for filing an appeal of the recount had passed, and revealed the planned haste to circumvent any further discussion or objection; and

Whereas, the Assembly Committee on Campaigns and Elections has collected nearly 3,000 documents and e-mails with connection to election manipulations by the CTCL in five of Wisconsin's largest cities, and there are five lawsuits in those cities against the Elections Commission; and

Whereas, data experts have studied the historical voter trends based on population growth for both the entirety of the State of Wisconsin and its counties individually, and those studies reveal the normal inverse relationship of data was not present in the 2020 election results, which is a statistical impossibility; and

Whereas, the WisVote database reflects 7.1 million registered voters in a state with a population of 5.8 million and a voting age population of 4.5 million, and the WisVote database is riddled with incomplete and misrepresented data, including thousands of voters with the same phone numbers, addresses, and faulty zip codes, all of which reflects gross negligence in maintaining the database; and

---

Whereas, grassroots canvassing efforts reveal 200 addresses in 31 counties in Wisconsin that have 200 to 400 registered voters at a single address, and a sampling of 1,000 actual 2020 absentee ballot envelopes from Milwaukee County found 23 percent had questionable addresses; and

Whereas, the Elections Commission voted to do upgrades on Dominion voting machines on June 2, 2021, and, following a press release on August 11, 2021, voicing concerns about the deletion of log file data from those upgrades, the commission voted to allow upgrades to new ES&S voting machines on September 9, 2021, with no reassurances of protecting the data of the 2020 election on older machines, even though it was revealed the upgrades do erase log file data kept on the machine hard drives; and

Whereas, the audit report of the nonpartisan Legislative Audit Bureau identified 44,272 voters who did not provide proper voter identification in the 2020 general election, revealed the mass increase of indefinitely confined voters from 54,505 in 2019 to 169,901 in 2020, revealed that 28.7 percent of all municipal clerks across all 72 counties used illegal drop boxes, and made 30 recommendations for the Elections Commission to rectify their actions; and

Whereas, a total of 50 of the 69 county GOP parties released letters of support or resolutions asking for further investigation into the elections process, showing

AMERICAN OVERSIGHT

that over two-thirds of Wisconsin Republicans have no faith in the Elections Commission; and

Whereas, commissioners and staff of the Elections Commission prevented the deployment of special voting deputies to care facilities, as confirmed by the Racine County Sheriff's Department, which found that on March 12, 2020, the Elections Commission knowingly and willfully directed all 72 county clerks to violate Wis.

Stat. §§ 6.84 and 6.875 regarding absentee voting in certain residential care facilities and retirement homes, and the commission's unlawful direction clearly broke Wis. Stat. § 12.13 (2) (b) 7., which refers to intentionally violating election laws; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Jeff O'Donnell, who found a multitude of irregularities when he analyzed data from the Wisconsin voter rolls, including that 93.7 percent of active voters participated in the 2020 general election, 205,355 voter registration applications were dated November 3, 2020, 957,977 individuals registered as new voters in 2020, 45,665 voters who registered did not have matching Division of Motor Vehicle records, 22 percent of active voters registered in the 6 months leading up to November, 3, 2020, 31,872 of those voters who registered in that 6-month period are now listed as inactive, and 42,000 voters who voted in the November 3, 2020, election are now listed as inactive; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from expert analyst Dr. Douglas Frank, who revealed that patterns in the Wisconsin voter rolls showed that the voter rolls were inflated to the maximum possible number of voters according to census population data for every presidential election in Wisconsin since 2008 and that the voter rolls were purged shortly after each such election, and that these patterns were consistent across all 72 counties in Wisconsin, revealing that these activities were centrally controlled; and

Whereas, at its December 8, 2021, public hearing, the Assembly Committee on Campaigns and Elections heard testimony from Attorney Erick Kaardal, who identified that the money provided by the CTCL and Mark Zuckerberg to local governments in Wisconsin relating to the 2020 general election violated Wis. Stat.

---

§ 12.11, which prohibits election bribery and states that "`anything of value' includes any amount of money, or any object which has utility independent of any political message it contains and the value of which exceeds $1," and that amount was greatly exceeded; and

AMERICAN OVERSIGHT

Whereas, at the Growing Threats to Election Officials in Wisconsin Press Conference held on December 13, 2021, it was revealed that the CEIR is a biased organization that also received funding from Mark Zuckerberg, along with the CTCL, and that the CEIR is seeking to provide pro bono defense attorneys to election officials who used the CTCL money in the 2020 general election; and

Whereas, on January 13, 2022, Waukesha County Circuit Court Judge Michael Bohren issued an oral ruling in court holding that the Elections Commission's guidance on absentee ballot drop boxes should have been promulgated as a rule under Wis. Stat. ch. 227; that state law provides just two legal methods for a voter to return an absentee ballot: through the mail or in-person at the municipal clerk's office or an alternate site designated according to law; and that ballot harvesting and returning absentee ballots to drop boxes are not legal methods to cast absentee ballots in Wisconsin; and

Whereas, the U.S. Supreme Court has found that fraud vitiates and nullifies any contract: *Boyce's Executors v. Grundy* (1830) 28 U.S. 210; "Fraud vitiates the most solemn contracts, documents and even judgments." *United States v. Throckmorton* (1878) 98 U.S. 61, 64; and

Whereas, the November 2020 Wisconsin general election, as regulated and directed by the Elections Commission, was one of the most haphazard, controversial, and poorly managed elections in state history, shaking citizens' confidence in fair elections across Wisconsin, and with the culmination of these evidences, prove the

---

results of the commission's certification of the 2020 election are considered fraudulent; now, therefore, be it

Resolved by theassembly, thesenateconcurring, That the accumulated evidence proves the actions taken by the Elections Commission to certify the 2020 presidential election shall be considered contrary to law and fraudulent under Wis. Stat. §§ 6.84, 6.87 (6), 6.875, 12.11, and 12.13 (2) (b) 7.; and, be it further

Resolved, That the Wisconsin Legislature, pursuant to its authority under Article II, Section 1, Clause 2 of the U.S. Constitution and 3 U.S.C. § 2, and consistent with guidance provided by the Constitutional Counsel Group in a memorandum dated December 30, 2021, acknowledges that illegality took place in conducting the 2020 general election and reclaims Wisconsin's 10 fraudulent electoral ballots cast for Joseph R. Biden and Kamala Harris; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation with the intention to clean up the WisVote database and create separate servers for active and inactive voters; and, be it further

AMERICAN OVERSIGHT

Resolved, That the Wisconsin Legislature supports a full forensic physical and cyber audit of the 2020 general election, that this full forensic physical and cyber audit should be conducted by an independent and nonpartisan auditing firm with a scope statement approved by the Assembly Committee on Campaigns and Elections, and that this full forensic physical and cyber audit must include the following components:

1. Total examination of voting system machines, including browsers, tabulators, scanners, routers and firewalls, switches, network and out-of-band management cards, internet or network connectivity, network and remote access, remote access applications, software installed or removed on the system, flash

drives, thumb drives, event logs, scripts that have been run, the date on which data were last modified and what data were modified, whether during or after the election, systems and security updates, password policies, multifactor authentication, databases, adjudication records, administrator accounts, and log-in records.

2. Kinematic artifact detection of all physical paper ballots, including whether ballots meet industry maximum allowable compliance for out-of-calibration measurements, ballot thickness to prevent bleed through, types of markers used, printed ballots, quantity of ballots, ballot trail, voter roll in comparison to ballots, mail-in ballot standards, and ballot watermarks and dot coding.

3. Physical canvas, including whether county clerks and election employees and volunteers followed election rules and regulations mandated by their county.

4. Transparency; and, be it further

Resolved, That in order to ensure transparency, all such audits shall be streamed live for public viewing and recorded via security video to be run 24 hours a day, 7 days a week, until all such audits are complete; and, be it further

Resolved, That the Wisconsin Legislature shall pass legislation specifically intended to secure the integrity of future elections in Wisconsin based on the findings of the Legislative Audit Bureau investigation, the Assembly Committee on Campaigns and Elections investigation, and the full forensic physical and cyber audit; and, be it further

Resolved, That the secretary of state of the State of Wisconsin is hereby directed to forward a proper authenticated copy of this resolution to the President of the Senate of the United States.

Dear Senators,

Matthew Pena, a J6 protester commits suicide days before being sentenced for a crime he didn't commit. His blood is on the hands of those who did the cheating and fraud. By legalizing cheating and fraud in SB 946 you will likely have more blood on your hands in the future. Matthew stood up for what was right. A yes vote is sanctioning more cheating and fraud and being down for what's wrong. The American people will be watching your vote. HONOR MATTHEW AND VOTE NO FOR SB 946.

Subject: Want Evidence of Voter Fraud in WI ?

"Grassroots activists provided incredible evidence of widespread fraud and failures in Wisconsin's voter database and its impact on the 2020 election to lawmakers on Wednesday, Feb.9, 2022.

Data analyst Peter Bernegger presented an hour-long interim report to the Assembly Committee on Campaigns and Elections. It included specific examples and detailed analysis of the state's database collected by [a] small army of 1,500 grassroots volunteers. Another 4,000 volunteers are joining the effort in the coming weeks to further develop the investigation.

Millions of voter records obtained from government sources were fed through a "super computer". The volunteers then scrutinized the results to ensure accuracy.

Some of the more shocking findings include:

- Specific individuals who voted twice using multiple voter ID numbers
- Voters registered without a first name
- Voters registered without a last name
- Voters registered without a street address
- 26 voters registered at one two-bedroom apartment
- 290 voters registered at a 16-apartment building in La Crosse
- 19 voters registered at a newer single-family home in Outagamie County
- 359 voters registered at an address that hasn't existed for 10 years in Kenosha County
- 625,000 dead voters on the rolls
- 4,300 voters with a "99999" ZIP code
- 670,000 inactive voters in Milwaukee
- 264,000 voters in Milwaukee with a 1918 registration date
- 20,000 voters with undeliverable mailing addresses in Milwaukee
- 3,400 FIDO (Fast Identity Online) keys that provide user access to the database have been distributed throughout the state"

Subject: War Room called Rep Vos out as RINO

Today on War Room Pandemic you, representative Vos, were called out as a RINO. Just in case you're unfamiliar with what that means, it is not a good adjective to be described as a RINO. Our party, the America First Party, does not want RINOs. It is not Paul Ryan's party anymore. I remember when he was booed off the stage.

There is no place for someone like you in the America First agenda. You are an example of the old establishment. You were called out because they said you do not want to get to the truth of the Wisconsin election. No matter who won the 2020 election you should at least want to get to the truth. Was there fraud or was there not. I saw Gableman give his interim report and it was shocking and for you to dismiss it is also shocking. You will have no place in Wisconsin politics. The Democrats will not vote for you and neither will the America First agenda Republicans.

Thank you, Nancy Oshkosh Wisconsin

The Wheeler Report
Covering the Wisconsin Legislature since 1972

Friday, February 25, 2022

ASSEMBLY ENDS SESSION, SENATE TO MEET IN MARCH

The Assembly adjourned pursuant to SJR-1 last night, indicating the end of their session. The Senate is expected to meet at least once the week of March 7 which is the last week of the regular floor period. As the regular session comes to an end, the legislators still have to address the Special Session the Governor called which would start on March 8. It is expected both houses will adjourn the Special Session without taking up any of the Governor's proposals. While it appears session is ending and legislators will be returning to their districts to begin running for office, the Wheeler Report has been asked by several individuals if they are prohibited from returning. The answer is no. The Legislature can call itself into Extraordinary Session at any time by passing a ballot in both Senate and Assembly Organization. It is rare for them to come in during election season, but it is not impossible.

RETIREMENTS ANNOUNCED SO FAR

The following is a list of legislators who have publicly announced they will not be seeking re-election to their current position. It is expected more will announce going forward.

Congress

- District 3 - Ron Kind - Retiring

Subject: Wisconsin Criminal Conduct

TO: The Members of the Wisconsin Legislature, March 3, 2022

I observed about 20 minutes of a live hearing whereby the Gableman/Kaardal duo delivered a Report to an Legislative Election Committee calling out in their words "serial violation of election laws" by Wisconsin public officials, WEC, etc. Wisconsin spent $676,000 for this, *information we knew*, and nothing - absolutely nothing about the heart of the matter – 553,000 unlawful ballots that deliberately flipped a Presidential Election and ten Electoral Votes? The Report is damning – but not nearly as expansive and accurate as it should be. Various public officials (Vos dragged his heels for months) obstructed its purpose and no Grand juries were convened. How can this be the work of a "Special Counsel?" So very much more is left unsaid; Wisconsin officials are quite content to accept this public criminal behavior by its officials....utterly afraid to confront them –

AMERICAN OVERSIGHT

this is wholly intolerable to the United States. When will you bring Mark Zuckerberg before a Wisconsin Grand jury?

I was sickened and disgusted by accounts of serious criminal behavior by Wisconsin public officials at all levels without batting an eyelash, especially the arrogance of the Wisconsin Supreme Court slow-walking its decisions on drop-boxes and other matters. Such a contemptuous, disgraceful disregard for the Oaths they swear; and the Attorney Code of Conduct that lawyers and judges are violating with impunity.

> *"I, **all Wisconsin public officials**, do solemnly swear that I will support the Constitution of the United States."*

Show Wisconsin citizens and all of America how Wisconsin officials have done this in overseeing the 2020 Election, and now, as they attempt to sweep and cover-up the chaos and crime they produced under the rug. Wisconsin has defrauded the United States; committed criminal acts against Art. I, Art. II and the 14th Amendment; and conspired to *overturn, impair* and *obstruct* the Office of President – while they falsely certified their Electoral College results to the Congress. All against that above Oath. And they are now conspiring to cover-up, tamper with evidence and to refuse a full Audit, Investigation and to Decertify, *now* the election results which is nothing but chicanery and fraud. Vos, Steineke, Evers, Kaul, the WEC and much of the Wisconsin Supreme Court must resign and face criminal charges. It is utterly impossible to reconcile the corrupt words of Rep. Steineke with the contempt he shows for his solemn Oath.

553,000 suspicious, illegal, unlawful, unverified ballots – 16.8% - of the 3,298,041 total Presidential votes cast, is what Wisconsin has done to cheat America. That's what we will now call Wisconsin: CHEATERS and LIARS. They conspired with Zuckerberg's

AMERICAN OVERSIGHT

$9 million to rig, with five other States, a Presidential election against 330 million Americans. Sold their public souls. And you won't Decertify the election results? This writer outright rejects Wisconsin's election results as valid; they are manipulated and fraudulent, with too many unexplained mysteries in turnout, votes, registrations, population and spikes coupled with the 553,000 unverified ballots.

Talk to any criminal lawyer or Judge: they will tell you this: successful completion of a criminal act is not necessary to be guilty or convicted of conspiracy to obstruct or commit a crime, merely *"an agreement, by two or more persons, to commit unlawful acts"* – that is what is happening now. And the Statute of Limitations has not even begun to run, because Biden is *still* in Office and Wisconsin and Federal officials are *still* conspiring to cover-up and defraud millions of citizens against their Oath. And none of you have *disavowed or defeated* the conspiracy by Decertification – you accept it. Where is your courage and integrity? Missing in action! What will you do when you stand before God, if you can't even muster the courage to stand here? Have you no fear of God, the Constitution, the law and fellow citizens?

This writer will complete his detailed Criminal Indictment Report; and it will show by clear and convincing evidence that Wisconsin public officials – and the other five Battleground States - conspired to Defraud the United States and the Electoral College in the 2020 Presidential Election; and are now conspiring to obstruct, block and impede any independent investigation or rectification of the same, even while evidence mounts and calls for action abound. It will be sent to those States; also be sent to the highest levels of the FBI/DOJ who are also deeply enmeshed in this serious criminality. Does Joe Biden, even remotely, look like a legitimately elected President after 14 months in Office? Does

AMERICAN OVERSIGHT

the fact that he is a "devout Catholic" who ardently seeks to kill unborn babies every chance he gets, give you any clue?

This writer can assure these readers: he has direct, first-hand knowledge and experience of a very high-level State official (the highest you can get), who (just recently) paid the ultimate price for repeated, criminal violations of sworn Oaths. And it stunned the legal community. I am respectfully warning you….you are doing what this official did. Do you realize you are swearing to a higher authority Who will judge you very severely on this matter? Do you understand, **"I do solemnly swear..."** Moreover, Wisconsin and 5 other States precipitated, by their election fraud and conspiracy, the tragic Capitol riot on J6, which resulted in 6 – 8 deaths and hundreds of false prosecutions. Do you feel no remorse? Another **dispairing** J6 detainee has just committed suicide on your watch. Tell that to your arrogant Wisconsin Supreme Court.

Respectfully, with disgust, *Mark Thomas*

ELECTION REPORT: From Robert Kennedy via *WTAQ Radio News,* **VERBATIM:** "The final report from ataxpayer-fundedand Republican-backedinvestigation into Wisconsin's November 2020 electionis being submitted to Assembly Speaker Robin Vos [this] morning, according to officials who've been working on it. Former state Supreme Court justice **Mike Gableman** is leading the $676,000 probe … Gableman contends his review is not an attempt to overturn President**Joe Biden**'s victory in Wisconsin, which has been upheld throughother reviews,recounts, andlawsuits. **Zak Niemierowicz**, an attorney working on the probe, says the report will be submitted Monday morning and made public in the afternoon. Gableman will then answer questions about it on Tuesday in front of the Assembly Committee on Campaigns and Elections at 10 a.m." **READ: https://fluence-media.co/3sq1KqE**

ELECTION BILLS: Via *Seehafernews.com,* **VERBATIM:** "The Wisconsin Legislature is poised to approve more than a dozen voting and election-related bills this week, over objections from Democrats and voting-rights groups they would make it more difficult to cast a ballot. The bills would, among many other things, set multiple new requirements forabsentee ballots, give a legislative committee significant oversight ofelection administration,and establish new policies for voting innursing homes. Rep. **Rick Gundrum**, R-Slinger, said the new guidelines will help ensure the security of future elections … The bills will be voted on by the Senate Tuesday, and The Associated Press reports they will likely get a final vote in the Assembly Thursday. However, they face an all-but-certain veto from Democratic Gov. **Tony Evers**." **READ: https://fluence-media.co/3vpZd1S**

MARSY'S LAW: Via *Wausau Pilot & Review,* **VERBATIM:** "The state Supreme

AMERICAN OVERSIGHT

Court announced Friday it will decide whether a constitutional amendment expanding crime victims' rights was properly enacted. Voters approved the so-called Marsy's Law amendment in a statewide referendum in April 2020. Dane County Circuit Judge **Frank Remington** ruled last year that the ballot question wasn't phrased properly and didn't adequately warn voters that the amendment would diminish defendants' rights. The Wisconsin Elections Commission appealed the ruling. The 3rd District Court of Appeals in December asked the Supreme Court to take the case directly. The appellate justices said the case presents significant questions of constitutional law and could have far-reaching effects on the state's criminal justice system." **READ: https://fluence-media.co/3vt5tWq**

COVID RECORDS: From Joe Kelly via *Courthouse News,* **VERBATIM:** "Lawyers for the Wisconsin state government, the state's largest business lobby and press freedom advocates argued before the Wisconsin Supreme Court on Monday over whether the state can release records requested by a newspaper showing how many employees at some businesses contracted Covid-19 or had contact with someone who tested positive. In the summer of 2020, in the earliest wave of the Covid-19 pandemic, the Milwaukee Journal Sentinel made an open records request for data showing how many employees at a given business had tested positive for the coronavirus, responding to large outbreaks at meatpacking plants and other businesses at the time." **READ: https://fluence-media.co/3K6Rhgp**

SENATE: From Jack Kelly via *The Capital Tims,* **VERBATIM:** "For months now, a crowded field of candidates in the Democratic primary for U.S. Senate have been running against Republican Sen. **Ron Johnson** — and, seemingly, not against one another. That continued to be the case Friday night, when seven of the Democratic candidates fielded questions during a two-hour forum

hosted by progressive group Our Wisconsin Revolution. Those participating in the online event included Lt. Gov. **Mandela Barnes**, Outagamie County Executive **Tom Nelson**, former Millennial Action Project CEO **Steven Olikara**, Division of Emergency Management Administrator **Darrell Williams**, mental health provider **Jeff Rumbaugh**, attorney **Peter Peckarsky** and businessman **Adam Murphy**." **READ: https://fluence-media.co/3voUj5a**

NICHOLSON: From Emilee Fannon via *CBS 58 News,* **VERBATIM:** "Republican candidate for governor **Kevin Nicholson** is bashing his opponents for not being truthful about the outcome of the 2020 presidential election and confirmed he believes **Joe Biden** won. Nicholson, a U.S. Marine veteran and former candidate for U.S. Senate,launched his gubernatorial bid last monthand said he doesn't question who won the 2020 presidential election, but has doubts in how it was administered. When asked if **Joe Biden** won the election in Wisconsin, Nicholson confirmed without naming Biden directly. 'He's declared the winner,' Nicholson said during an exclusive interview with CBS 58. 'I believe he won a messy, sloppy, messed up election.' Other GOP candidates running for governor, former Lt. Governor **Rebecca Kleefisch** and State Rep. **Timothy Ramthun** are questioning the outcome." **READ: https://fluence-media.co/3tdjWmK**

OSHKOSH: From Sydney Boradus via *WSPA 7 News,* **VERBATIM:** "Union workers rallied outside Oshkosh Corp. over a plan to build the United States Postal Service's next generation delivery vehicle inSouth Carolinainstead of Wisconsin. Hundreds of members held up signs Saturday demanding that the company reverse a decision made last summer regarding production. Local 578 Union President **Bob Lynk** called it an attack against union labor. Company officials say the site inSpartanburgwill be 900,000 square feet, which is more than twice the size of any facility in Oshkosh. In addition, officials say

AMERICAN OVERSIGHT

the contract will not take away jobs from Oshkosh and 100 technical jobs are being added. Union leaders dispute the notion that Wisconsin did not meet size requirements." **READ: https://fluence-media.co/3lmJmVj**

FALLS: From Chris Conley via *WIXX Radio News,* **VERBATIM:** "A report from the Centers for Disease Control shows that Wisconsin has the highest number of fatal falls for people 65 and older in the country. The CDC report found fall deaths increased 30 percent between 2009 to 2018. In Antigo, the fire department says they responded to over 400 calls for injuries as a result of falls last year. 'A lot of times the older population will end up getting pneumonia or some other sort of issue and it will actually end their life sooner than it would have without that traumatic injury,' said Lieutenant **Jamie Lenzner**, Antigo Fire Department. Making small changes at home such as adding grab bars, improved lighting, removing clutter that can be tripped over, and family and friends checking in are small ways that can make a big difference in safety." **READ: https://fluence-media.co/35yHN82**

OPIOIDS: Via *WPKG Radio News,* **VERBATIM:** "With the landmark $26 billion opioid settlementsnow finalized, Wisconsin is expecting to see the first payment of its share in the coming months. According to Attorney General **Josh Kaul**'s office, thestate is slatedto receive over $400 million as part of the agreement with drugmaker Johnson & Johnson and three major pharmaceutical distributors. 'The hundreds of millions of dollars coming to Wisconsin as a result of this agreement will significantly strengthen Wisconsin's ability to fight the opioid crisis,' Kaul said. A Wisconsin law already provides for what the state will do with the money it gets, the Attorney General's office explained. Thirty percent of the funds will go to the Dept. of Health Services and can only be spent on opioid abatement efforts. The other 70 percent will be divided between the 87 political subdivisions, including city and county governments, involved in

the case." **READ: https://fluence-media.co/3hmf7BQ**

TRAFFIC DEATHS: via *Associated Press,* **VERBATIM:** "The start of a new year has not shown an improvement to the rash of traffic deaths in Wisconsin since the start of the COVID pandemic. Preliminary state data shows that as of Feb. 20, 65 people had died in crashes, compared to 54 deaths at the same time in 2021. Last year's total of 601 traffic deaths was tied for the state's highest yearly death toll in 14 years." **READ: https://fluence-media.co/3lskHi1**

MASKS: From Juliana Tornabene via *WEAU 13 News,* **VERBATIM:** "Wearing masks will be optional for most Wisconsin state employees starting on March 1, according to guidance updated Friday by the Department of Administration. Thenew guidance states employees and othersnot experiencing symptoms of illness may wear masks, but are not required to when inside state facilities. Those who work for the Departments of Corrections, Health Services and Veteran's Affairs will continue to be required to wear masks, along with those who work in congregate care facilities, until at least April 1. The DOA also modified its COVID-19 employee testing program, noting it will be suspended on March 13 for all executive branch employees." **READ: https://fluence-media.co/3td7LpW**

COVID: From Chris Vetter via *Eau Claire Leader-Telegram,* **VERBATIM:** "The good news is that COVID-19 cases continue a drastic fall across the state, and throughout western Wisconsin. However, the region is still experiencing multiple reported deaths from the virus daily. Across 12 counties in western Wisconsin, nine deaths were reported between Thursday and Friday: two in Barron County and one each in Buffalo, Clark, Dunn, Pepin, Pierce, St. Croix and Trempealeau counties. The region now has reached 1,010 deaths since

the start of the pandemic, including 54 in February as of Friday, according to data from the Wisconsin Department of Health Services." **READ:** **https://fluence-media.co/3poUidz**

COVID DEATHS: From Samuel Stebbins via *24/7 Wall St.,* **VERBATIM:** "Since the first death attributable to COVID-19 was reported in the United States on Feb. 29, 2020, an estimated 928,350 Americans have died - and that number continues to grow every day. Adjusting for population, there have been a total of 284 COVID-19-related deaths for every 100,000 Americans nationwide. In Wisconsin, deaths attributable to the coronavirus per capita are less common than they are nationwide. Across the state, 13,086 people have died from the coronavirus, equal to about 225 deaths for every 100,000 people. Of all states - and Washington. D.C.. - Wisconsin has the 16th lowest death rate per capita." **READ:** **https://fluence-media.co/3MbEKns**

VISITS: From Dan Hanger via *FOX 21 News,* **VERBATIM:** "Wisconsin prisons will allow in-person visits again beginning next week as COVID-19 cases continue to decline. Department of Corrections officials said Friday that they will reopen their facilities to visitors starting Tuesday. The prison system initially closed its doors to visitors in March 2020 as the pandemic was taking hold. The DOC reopened to visits in July 2021 but closed them down again this past December amid the omicron surge." **READ:** **https://fluence-media.co/3M7QF5G**

ROBOTICS: From Phillip Bourdreaux via *Spectrumnews1.com,* **VERBATIM:** "A Waukesha County Middle School robotics team will soon compete on a world stage. The Cyber Turtles of Templeton Middle School in Sussex recently won Wisconsin's First Lego League (FLL) competition. **Aanya Ranasaria**, an eighth-grader, has been on the team for two years. She, along with several othermembers,helped program a Lego robot to complete certain tasks. 'FLL is a program that's changed my life, like truly,' Ranasaria said. 'Like, it's helped me decide what I want my career to be. I want to go into STEM when I'm older and before joining FLL, I wouldn't have realized that.' The team also took part in the league challenge." **READ: https://fluence-media.co/3JYJT03**

WOLVES: From Azul Kothari via *The Badger Herald,* **VERBATIM:** "As snow covered the frozen ground last February, Wisconsin's wolf packs had just concluded their months-long internal battle for dominance to determine which two members would fill the alpha roles. It's a consequential period for the animal — in most packs, only the alpha male and female will mate to produce a litter. But Wisconsin had a different plan in store for wolves. It was then, in the middle of the breeding season, that a legal decision spurred the state's first wolf hunt in six years. When a court overturned the Wisconsin Department of Natural Resource's decision not to hold a wolf hunt, hunters across the state jumped at an opportunity they had missed due to the species' endangered protection status." **READ: https://fluence-media.co/3M59zdf**

REPORT TODAY: From Matt Smith via *WISN 12 News,* **VERBATIM:** "A spokesperson for **Michael Gableman**, the special counsel overseeing the GOP-led review of the 2020 election, said he is expected to submit his findings to lawmakers Tuesday morning. Gableman is expected to submit a report to Assembly Speaker **Robin Vos** and State Rep. **Janel Brandtjen** before testifying at 10 a.m. before the Assembly Committee on Campaigns and Elections. The report is expected to be made public Tuesday as well, the spokesperson said. Vos hired Gableman to conduct the review in June." **WATCH:** https://fluence-media.co/3lIRL5q

BRANDTJEN: From Benjamin Yount via *The Center Square,* **VERBATIM:** "The

state representative in charge of one of Wisconsin's election investigations is not happy with one recently passed election change. Rep. **Janel Brandtjen**, R-Menomonee Falls, on Monday questioned the plan,**SB 946**, and what she calls its opportunity for 'election shenanigans.' 'This bill was drafted on the day we voted on it,' Brandtjen explained. The original legislation gave whistleblower protections for election clerks who report questions on Election Day. But a last-minute amendment changed the focus of the proposal. Now, SB 946, allows clerks to begin counting absentee ballots on the Monday before Election Day." **READ: https://fluence-media.co/3tg5vhL**

EVERS: From Rich Kremer via *Wisconsin Public Radio,* **VERBATIM:** "The conservative Wisconsin Institute for Law and Liberty is alleging Democratic Gov. **Tony Evers** has violated state law by issuing grants of more than $2 million worth of federal COVID-19 stimulus funding to Planned Parenthood of Wisconsin.In alettersent on behalf of anti-abortion organizations Wisconsin Family Action, Wisconsin Right to Life and Pro-Life Wisconsin, the law firm argues that Evers administration illegally created grant programs without approval of the Republican-controlled state Legislature in order to distribute federal stimulus funds. In addition, **Dan Lennington**, WILL deputy counsel, said that the governor violated a state statute that prohibits funding from state sources going to health care providers that administer abortions." **READ: https://fluence-media.co/3hnDlqa**

BADGERCARE: Via *FOX 47 News,* **VERBATIM:** "Supporters of a public option for healthcare in Wisconsin on Monday introduced a new bill they argue would shake up the state's insurance marketplace. The bill would create a public health coverage option through BadgerCare for people and small employers and also create a new basic health plan for individuals making between 133% and 200% of the federal poverty line. The legislation would also establish a

AMERICAN OVERSIGHT

state-based online marketplace for Wisconsinites instead of the federal healthcare.gov website. 'This is going to increase the number of people eligible for health coverage and will provide affordable coverage to fit our tight budgets,' Rep. **Kristina Shelton** (D-Green Bay) said during a virtual news conference Monday morning." **READ:** https://fluence-media.co/3stDuE4

CHILDCARE: From Leeann Stapleton via *WEAU 13 News,* **VERBATIM:** "It can be difficult for some families to find affordable child care while also working full-time. That's where the Wisconsin Department of Children and Families Project Growth Grant Program comes into play. Under the program, the Partner Up! grant will allow businesses to help pay for the cost of their employee's child care fees. The Partner Up! grant program will provide almost $11 million in funding to support partnerships between businesses and child care providers." **WATCH:** https://fluence-media.co/3MblGUV

401KIDS: From Austin Montgomery via *Gazette Xtra,* **VERBATIM:** "In a rare show of bipartisanship, state lawmakers are in support of an effort that would create a retirement-style savings account for every child from birth in Wisconsin. In January, Wisconsin Treasurer **Sarah Godlewski** announced a bill that would create the 401KIDS savings program to help every child in Wisconsin save money for retirement. The framework of the legislation stemmed from the Retirement Security Task Force that Godlewski chaired." **READ:** https://fluence-media.co/3hwiKoQ

ID KITS: From Cora Seibt via *wearegreenbay.com,* **VERBATIM:** "A pledge at Lambeau Field Atrium [was made] Monday – to help keep every child in Wisconsin safe. TheNational Child Identification Programhas partnered with State Attorney General **Josh Kaul**, the Green Bay Packers, Alliant Energy, and the International Brotherhood of Electrical Workers (IBEW) to provide 975,000

in-home fingerprinting kits to every K-12 student in the state. Program officials say over 800,000 kids go missing in the United States every year and the kits are intended to reduce that number. With the ID kits, parents will be able to store important information about their children if the worst should ever happen." **READ: https://fluence-media.co/35h2Mww**

GUNS: From Naomi Kowles via *Channel 3000 News,* **VERBATIM:** "In the past few years, 41 people in three states across the country have voluntarily banned themselves from buying guns: none of them have chosen to reverse that ban. Since 2017, Madison-area state senator **Melissa Agard** has tried to get traction in the state legislature that would give Wisconsinites a similar option. She's once again introducing it, but since 2017, she says the bill has never had even a public hearing. The novel and relatively unknown suicide prevention method found its home first in the state of Washington, with their legislature passing a bill in 2017 allowing people to voluntarily ban themselves from owning guns. Since then, 22 people have added their names to the database, according to a spokesperson with the Washington State Patrol. Their law keeps the ban in effect unless the person files to remove their name; so far, no one has." **READ: https://fluence-media.co/3M7EzcC**

REFORM: Via *Channel 3000 News,* **VERBATIM:** "Representatives from multiple state agencies took part in a roundtable discussion Monday regarding the Lincoln Hills juvenile corrections facility and juvenile justice reform in Wisconsin. A Dane County judge, representatives from the Department of Health and Department of Corrections and a local activist took part in the virtual event, where they talked about dismantling what they billed as the juvenile delinquency to prison pipeline. Lincoln Hills had been set to close years ago following concerns about safety and a federal investigation into alleged civil rights violations, but to this day it remains open. Last week, the state Assembly

REPORT: From Zach Montellaro via *Politico,* **VERBATIM:** "A draft report for a GOP-run investigation of the 2020 election in Wisconsin, authored by a former state Supreme Court justice, embraces the fringe theory that election results could be decertified after the fact — advancing former President **Donald Trump**'s calls to overturn an election he lost well over a year ago. Former state Supreme Court Justice **Michael Gableman** for months has been conducting a probe of the 2020 election, authorized by state Assembly Speaker **Robin Vos**, one of the most powerful Republicans in the state. Gableman's interim report,released at the startof a hearing on Tuesday in front of the state Assembly committee on campaigns and elections, attacks Wisconsin election administrators and argues for dismantling the state's bipartisan election board and limiting mail voting." **READ: https://fluence-media.co/35IPSaq**

They are broken down into four categories." **READ:** **https://fluence-media.co/35kjjji**

REACTION: Via *News8000,* **VERBATIM:** "Wisconsin's Democratic governor and attorney general criticized the findings as 'a colossal waste of taxpayer dollars.' … 'The right to vote is a fundamental core value of our democracy—it should not be subject to the whim of politicians. No politician should be able to abuse their power to prevent eligible voters from casting their ballots or to cheat our election results just because they didn't like the outcome of the last election,' Gov. **Tony Evers** said in a statement. Attorney General **Josh Kaul** called the Gableman recommendations a 'full-throated attack on our democracy' due to the suggestion that the Legislature could overturn the vote of the people." **READ:** **https://fluence-media.co/3Mh7qEb**

STEINKE: Via *WHBY Radio News,* **VERBATIM:** "While Gableman says the goal of the report is not to overturn the election, he believes the legislature could decertify it. That claim has been met with pushback from both parties. Gableman himself says decertification would not unseat President **Joe Biden**. Republican Assembly Majority Leader **Jim Steinke** called such discussion a 'fool's errand.'" **READ:** **https://fluence-media.co/3hvOo67**

ALTERATIONS: From Sarah Thomsen via WBAY 2 News, **VERBATIM:** "'There could be lots of dirty hands here, but I will find there has been a Brady violation.' Waupaca County Circuit Court Judge **Ray Huber** made that ruling after a hearing trying to determine if a suspect's car was illegally searched. But it's what was said on the stand during testimony by top members of the

AMERICAN OVERSIGHT

Waupaca County Sheriff's Office that has now unleashed a firestorm - opening the door for dozens of unrelated cases to possibly be thrown out. What started as a trespassing call involving a suspect in Waupaca County led to an hours-long court hearing in which the sheriff testified under oath that police reports are routinely altered and deputies don't always know their reports have been changed. It's prompting the district attorney to notify defense attorneys across the state - with the potential of dozens of cases being thrown out." **READ:** **https://fluence-media.co/3hwtG60**

MOUNT PLEASANT: From Corrinne Hess via *Wisconsin Public Radio,* **VERBATIM:** "AsFoxconn continues to flounderin the Village of Mount Pleasant, village board members have voted to lengthen their terms in office. The board voted on Jan. 24 to extend their terms from two to three years, beginning in 2023. According to the ordinance, this is being done 'in the best interest of the Village's health, safety, welfare, and morals.' But residents aren't happy. Within two weeks of the decision, more than 1,200 people signed a petition that will force a referendum, superseding the Jan. 24 vote. Only 981 signatures were needed; that's 7 percent of the number of Mt. Pleasant residents who voted in the last gubernatorial election." **READ:** **https://fluence-media.co/3ti10mV**

COVID: From Cora Seibt via *wearegreenbay.com,* **VERBATIM:** "The Wisconsin Department of Health Services has reported 1,382,090 total positive coronavirus test results in the state and 11,972 total COVID-19 deaths. Of the SARS-CoV-2 variants in Wisconsin, the state's Department of Health Services (DHS) is reporting 27,378 cases of B.1.617.2 (Delta) and 8,960 cases of B.1.1.529/BA.1 (Omicron). Wisconsin's hospitals are reporting, the 7-day moving average of COVID patients hospitalized was 720 patients. Of those,150 are in an ICU. GAS: From Debra Dolan via *WEAU 13 News,* **VERBATIM:** "Gas prices have risen for the ninth straight week, hitting a national average of $3.59 a gallon, according toGasBuddy. The national average is up 23.2 cents from a month ago and 87.6 cents per gallon higher than 2021. 'The Russian invasion of Ukraine has sparked high-level concern that oil production could eventually be stifled, or even sanctioned, from the world's second largest oil producer, leading to less supply as demand grows,' said **Patrick De Haan**, head of petroleum analysis at GasBuddy. De Haan said the uncertainty has pushed the price of fuel considerably in the last week and will remain elevated for the foreseeable future." **READ: https://fluence-media.co/3ht7BFt**

RUSSIAN LIQUOR: From Ben Wagner via *WISN 12 News,* **VERBATIM:** "Total Wine, one of the nation's largest liquor store chains, removed all Russian-made products from store shelves Monday in an effort to show solidarity with the people of Ukraine. The company posted signs in stores that read: 'We are no longer selling any Russian-made product.' The move comes just days after Russian troops invaded Ukraine. Total Wine operates locations in Glendale, Brookfield and Greenfield. **Edward Cooper**, Total Wine vice president of public affairs and community relations, confirmed social media posts Monday."

HOMELESS: From Isak Dinesen via *WAOW-TV,* **VERBATIM:** "The Point in Time count for Marathon, Wood, and Lincoln counties saw zero homeless people sleeping outside back in January. This, according to the North Central Community Action Program. A count is done twice per year, once in the winter and once in the summer, to gauge about how many people suffer homelessness in the area. **Chandra Wakefield** with NCCAP says these findings don't necessarily mean the issue at hand of homelessness doesn't exist or need to be dealt with. 'There is a need, whether it's one person sleeping outside or multiple people sleeping outside, there is a need in our community, and as a community, we need to step up and try to help that need,' Wakefield said." **READ:** https://fluence-media.co/3C3Risd

WATER: Via *Vernon County Times,* **VERBATIM:** "Wisconsin residents have an opportunity to share their stories about their local waters and shape a public conversation about their vision for Wisconsin's Water Future. Beyond the Headlines – Wisconsin's Water Future, a program of Wisconsin Humanities, is partnering with local media to explore what information residents want about their local waters, the stories they think need to be told, their vision for the future of those waters, and what they think we need to do to get there. The story-sharing project aims to excerpt and publish some of the stories on its websites; concerns raised by those stories will help shape programming later this spring. Sharing stories -- whether they are of a lazy afternoon paddle and the lunker bass that got away, or of the horror of a flash flood -- helps connect us to think more collectively about Wisconsin waters.'" **READ:** https://fluence-media.co/3tpac95

VERBATIM: "When Wisconsin's natural resources policy board voted down limits for 'forever chemicals' in groundwater, they also effectively killed groundwater standards for more than a dozen other toxic substances. Conservatives on the Natural Resources Board last weekrejected proposed groundwater standardsfor two fluorinated compounds known as PFAS based on their disbelief in the science and the Department of Natural Resources' economic impact analysis of standards for groundwater, the source of drinking water for roughly two-thirds of Wisconsin residents. But there was no discussion of new or modified limits for abouttwo dozen other substances, including Trichloroethylene, a common dry cleaning chemical known as TCE, and chromium-6, a carcinogen made famous by **Erin Brockovich**." **READ:** **https://fluence-media.co/3Kc1Fx5**

BROCKOVICH: Via *WXOW News,* **VERBATIM:** "**Erin Brockovich**, best known for the movie about her fight against a power company's pollution that was affecting people's drinking water, is coming to La Crosse . . . to talk about that topic. Brockovich is the first presenter at a symposium at Viterbo University entitled 'What's in Our Drinking Water.' She's speaking at 7 p.m. on Thursday, March 24, at the Fine Arts Center Main Theater. The option will still be available for anyone 18 and older. The DNR had offered all-online courses for everyone to help protect against COVID-19. With case numbers going down, the DNR will resume in-person classes for young people. Students younger than 18 who are already enrolled in the all-online course have until March 20 to complete it." **READ: https://fluence-media.co/3pul4kO**

FARM IMPLEMENTS: Via *Wisconsin State Farmer,* **VERBATIM:** "A bill that would streamline the process of transferring farm equipment on to another after the owner dies is headed to the state Assembly. Sen. **Joan Ballweg**, R-Markesan, authored SB 893, which passed the Senate on Feb. 23. Currently, beneficiaries who are receiving farm implements are required to go through probate, an often lengthy formal legal process. All equipment used to continue production is held until that process is completed. 'Any disruption in the agricultural cycle can leave farmers in a tight position with lost production and revenues,' said Ballweg in a news release. 'This legislation will make it easier for small farmers who often transfer farm implements between family members.'" **READ: https://fluence-media.co/3pqNmMT**

POLL: From Todd Richmond via *FOX 11 News,* **VERBATIM:** "Wisconsin Republicans' confidence in the 2020 election results has grown slightly over the last five months, according to a poll the Marquette University Law School released Wednesday. The poll also found approval continuing to slip for Republican U.S. Sen. **Ron Johnson** and rising for Democratic Gov. **Tony Evers**, while concerns over COVID-19 are waning. RULING: From Scott Bauer via *Associated Press,* **VERBATIM:** "A Wisconsin

judge on Wednesday ruled that Republican Assembly Speaker **Robin Vos** and former state Supreme Court Justice **Michael Gableman** denied or delayed access to requested public records related to the investigation into the 2020 presidential election. Dane County Circuit Judge **Frank Remington** put his ruling on hold pending a hearing on Tuesday. Remington also ruled that Vos and Gableman would be responsible for covering legal costs of the liberal group American Oversight that brought the lawsuit. He also fined Vos, Gableman and the Assembly $1,000 each, fines that would likely be paid by taxpayers if they stand." **READ: https://fluence-media.co/36Z5OpJ**

VOS: From Mitchell Schmidt via *Wisconsin State Journal,* **VERBATIM:** "After eight months and hundreds of thousands of taxpayer dollars, an investigation into the 2020 election delivered key recommendations that have been adamantly opposed by the probe's chief overseer, Assembly Speaker **Robin Vos**. Former state Supreme Court Justice **Michael Gableman** suggested the Legislature decertify the 2020 results, which experts and lawmakers on both sides of the aisle have described as a legal and constitutional impossibility—and something Vos has staunchly opposed despite growing pressure from far-right conservatives." **READ: https://fluence-media.co/3HGisGG**

THE CASE: From Scott Bauer via *Associated Press,* **VERBATIM:** "A former Wisconsin Supreme Court justice examining the 2020 election in battleground Wisconsin laid out his interim findings this week and recommended that legislators should consider decertifying the state's presidential result — a move attorneys have said is illegal. But many of Michael Gableman's claims have already been dismissed by courts or rejected by the state's bipartisan election commission. Gableman, who was hired by the Assembly's top Republican, acknowledged that he had voted for Donald Trump and had called the election stolen before he was ever appointed to look into it. Here's a look at some of the

claims from his presentation to lawmakers on Tuesday … " **READ:** https://fluence-media.co/3pwJwC9

BIDEN: From Maegan Vazquez and Donald Judd via *CNN,* **VERBATIM:** "During the visit to the Midwest, the President spoke in Superior, Wisconsin, where he highlighted funding from his signature infrastructure law, including $4.8 billion for Minnesota and $5.4 billion for Wisconsin. The visit was his first trip after the address. Biden spent the majority of his remarks in Wisconsin discussing his domestic agenda, tying it to the Blatnik Memorial Bridge - a crucial link between Duluth, Minnesota, and Superior. The bridge has more than 33,000 vehicles travel across it each day, but because of the condition of the roughly 60-year-old structure, it has load restrictions that prohibit large trucks and other heavy vehicles from crossing it." **READ:** https://fluence-media.co/3vDIlFV

We spoke with **Jake Brunoehler**, President of the South East ASCE Wisconsin Branch, who said the effort Biden is making to improve infrastructure is historic." **BRUNOEHLER:** "And so with ports and the roads to get to and from those ports as well as the bridges, I mean we're talking about some of the most critical bridge infrastructure elements in our country. So as is as the health of those infrastructure systems grow, so does the health of our economic engine." **WATCH:** https://fluence-media.co/3hzCjNq

GRANTS: From Jimmie Kaska via *WEAU 13 News,* **VERBATIM:** "Wisconsin Gov. **Tony Evers** announced four western Wisconsin cities will receive more than $8 million in grants to improve infrastructure and address community

needs on Tuesday. The Neighborhood Investment Fund program will provide money for downtown infrastructure, pedestrian safety, business development initiatives and support affordable housing and shelter needs in Altoona, Eau Claire, Menomonie and Rice Lake. 'From expanding affordable housing options to strengthening infrastructure and revitalizing our main streets, this grant program was designed to connect the dots in our communities to ensure they recover and succeed for years to come,' Evers said in a release." **READ:** **https://fluence-media.co/3vA4AeW**

JOHNSON: From Aubrie Spady via *FOX News,* **VERBATIM:** "Republican Sen. **Ron Johnson** of Wisconsin is requesting that theCenters for Disease Control and Prevention (CDC)respond to the 'several purported flaws' uncovered in a study on using masks to defend againstCOVID-19. The senator's request comes after The Atlantic published an article that highlighted potential errors in the CDC's Arizona findings from a September 2021 study." **READ:** **https://fluence-media.co/3lCYPkk**

SURPLUS: From Katie Crowther via *TMJ4 News,* **VERBATIM:** "Hundreds of business and education leaders in Wisconsin are calling on Governor **Tony Evers** and state lawmakers to use some of the state's projected $5.5 billion dollar surplus to increase education funding in two key ways . . . Together, they have drafted a letter to the governor and state lawmakers, that they are now asking members of the public to sign. Local school districts that have signed the letter are Milwaukee, Kenosha, Greendale and South Milwaukee. It also includes signatures from public, charter and private choice school leaders, which are all too often forced to compete for funding." **READ:** **https://fluence-media.co/3Hxl35H**

The Republican Party of Wisconsin is praying for the people of Ukraine as they confront this egregious attack by Vladimir Putin on their sovereignty. Joe Biden promised to keep Putin in check, but he failed, and even a former Obama official admitted that Biden's Putin strategy isn't working. Biden has spent months emboldening Russia and Putin, and his weakness created this latest foreign policy disaster after he emboldened ISIS-K and Al Qaeda with a botched Afghanistan withdrawal and failed to hold the Chinese Communist Party accountable for COVID. We must elect Republicans to push back against his weak leadership.

No matter how high crime rises or how drastically the consequences affect Wisconsin communities, Tony Evers remains incapable of standing up for public safety. Last week, Evers gave his annual State of the State Address. While Evers has never had a record of success to tout, this time, Wisconsinites were aghast as he failed to mention rising crime once during his remarks. On this weekend's edition of WISN's UpFront, Tony Evers once again skirted accountability for his failure to keep our communities safe – blaming the Legislature for his own failures. Wisconsinites deserve a governor who will stand up for public safety and protect our communities amid historic violence across the state. Subject: WVA Update - March 3, 2022

Attachments: WVA GRB Board 2_14_2022.jpg

This has been a very busy week with the Office of Special Counsel taking the center stage with Mike Gableman delivering his Office of Special Counsel - 2nd Interim Report to Representative Janel Brandtjen Campaign and Elections committee. His nearly 3 hour presentation was interesting but did not necessarily follow the actual interim report.

In the early part of the presentation Mr. Gableman suggested that Wisconsin Election Commission (WEC) needed to be dissolved, and further he brought up the idea of decertifying the 2020 election. Regarding WEC, it definitely needs to be reorganized with new leadership and reporting structure. But regardless of that,there will have to be some type of state administrative group that provides services to the clerks throughout Wisconsin.

About the decertification statement, it was unfortunate for two reasons. First, once that statement was made, the entire press focused their stories on that issue and did not report on the other areas of Mr. Gableman's report. By the way, the press did not report the fact that later in Mr. Gableman's reporting he indicated that it is not possible to decertify given current Wisconsin law.Today, WILL attorney Rich Esenberg was on WISN radio and reiterated there is no legal path of decertifying given our current laws.

Secondly, by bringing up the decertification and having the press focus on that issue, it renewed the debate within the WIGOP and a split between many members of the GOP. This is exactly what the media loves, having the GOP fighting internally rather than focusing on the issue of unification and winning the next elections.

Over the past sixteen months Erick Kaardal, the Thomas More Society lawyer and I have been conducting investigations into the 2020 election. We amassed a great deal of evidence to support our litigation. We cooperated fully with the Special Counsel's Investigation and made available all our investigative material in the following areas: CTCL / WI-5 Cities GOTV Campaigns, Election Certification, Illegal Absentee Ballot Drop Boxes, Election Bribery WI Statute §12.11, Wisconsin Election Commission (malfeasance and involvement), Nursing Home Investigation, Elderly Voting Abuse and Data Sharing.

Following the Gableman presentation, Wisconsin Voter Alliance and Thomas More Society held a press conference at the capital and you can view that press conference here Wisconsin Voter Alliance and Thomas More Society Press Conference. On Wednesday I was invited to appear on the Real Americas Voice and that interview can be viewed here Real America's Voice News.

For some reason, in the last email I sent concerning the billboard we had some folks that couldn't see the billboard. So, this time, I am embedding it in the email and also attaching it as a jpg. Our good friend Ed Perkins from Appleton participated with the Wisconsin Voter Alliance members on this funding for this particular sign. WVA thanks Ed and all those who have contributed thus far.

AMERICAN OVERSIGHT

For the first month this was an electronic billboard on Hwy 172 in Green Bay, although the electronic billboard is flashy and eye-catching, the 6 second intervals for the sign appearing didn't seem long enough for people to get the message. We are moving to a static billboard on Hwy 41 near the "Out a Town" supper club.

WVA is working on placing this billboard in Racine, Kenosha, Milwaukee and Madison and we **still need your support in accomplishing this goal**. Keep in mind we need to keep pressure on the mayors of these cities on a long term basis to keep them honest. Visit our website and donate, and, encourage your friends relatives, neighbors and others to become members of WVA.

Subject: Your Chairing is joke

I am currently watching the Dan Gableman circus report and I cannot believe that you are allowing people to applaud and shout in this hearing. Is is totally obvious that your are biased on this topic and that you have no skills at assessing facts. You should not be chairing any committees based on your skill level. What a joke a government has come to.
