Subject: Are There Oppressed Countries Within Our Borders?

Can't read or see images? [View this email in a browser](#)

Dear Ron,

I felt compelled to share this powerful article by CS Bennett. Please feel free to share with others.

It's Time For Major Intervention By CS Bennett

It is true that those on the right are not only informed, but they are well-informed, especially when it comes to the facts and the nature of those who govern and wield power over us, compared to those on the left. We are more cerebral in our thought processes when it comes to politics and the world we live in while those on the left are emotionally driven in these

matters. It is a fact that emotions are easier to exploit than those who can think rationally for themselves. Unfortunately, leaders on our side seem not to understand this. Passion is what they often lack and it shows. This is what separated 45 from other republican presidents. The man had both passion and wit. He also had backbone.

I am often asked by my white counterparts in republican circles and the conservative movement, how is it that those in our minority communities cannot recognize how much they are being lied to and used by those on the left. I am also asked why these struggling communities still vote democrat. My answer is always this, they feel they are heavily oppressed and have been led to believe that we, on the right, are their oppressors. It is as simple as that. It is a message that has been ingrained into their psyche beginning at home and at school, from 1st grade on up through college, thanks to our failing government run schools.

So, are they really being oppressed? Yes, they are, but not by us but rather by those who are pushing this big lie. And who are they? They are the leaders inside and outside of the Democrat Party, the biased left-wing media, academia and the docu-dramas and movies coming out of Hollywood. These are the very people, and institutions, our desperate and impoverished communities are beholding to. And though it is a pure lie, they have been led to believe that we, on the right, want to return them to the days of Jim Crow, segregation, and even worse, slavery when this is the history of their own political party. They have been led to believe that our side want to hold them back and keep them from becoming prosperous. Those on the left are masters in getting all of the groups under their umbrella to think collectivism, not individualism. So, the question remains...

How can they see us in this way, which is a lie, yet ignore the violence, poverty, high food prices, failing schools, and higher gas prices, all which have flourished under the failed policies of the left, and still vote for the political party that created this chaos? Having inroads into the Black

community, I know how left-wing propaganda is being spread. On whole, their listeners are being fed misinformation, disinformation, half-truths, and outright lies nonstop, 24/7 by media organizations such as CNN, MSNBC, and the three alphabet news outlets, NBC, CBS, and ABC. Add to this, PBS, NPR, the New York Times, The New Yorker, The Atlantic, The Week, Newsweek, Harper's, Mother Jones, The New Republic, and the Commonweal. And there you have it, your major culprits.

Now add to this mix a custom-made network explicitly designed to push the left-wing narrative within and throughout the Black community. This network is called the Black News Network (BNN). Ironically, this station was co-founded by former Congressman J.C. Watts (R), but he ran into problems fully funding the project. Shahid Khan, owner of the Jacksonville Jaguars, became a principal investor and soon former CNN executive Princell Hair was named president and the rest is history. As always, whenever those on the right come up with a great idea, it falters and the left is there to pick up the pieces, put it back together, and use it to serve their own purposes.

One has to wonder why a prominent Black conservative such as J.C. Watts found it challenging convincing business minded conservatives to invest into something that could have been used to infuse the truth into these communities. I am talking communities those on the left have a firm and solid grip on. So tight is their grip that it is difficult to find a conservative station in areas under their influence. And where they do exist, they are often relegated to AM Radio. What our side has to come to terms with is that what is being pumped into our urban areas is toxic hardcore left-wing propaganda. And it is all anti-American and anti-Capitalism.

I do not know about others, but I consider this a national security threat. We must regard these communities as we did Cuba, East Germany (when it existed), the former Soviet Union, and so on, all a great threat. These

were countries where the free flow of information was discouraged, denied, or banned. To counter the communist movement in these countries, we designed radio stations that allowed the voice of freedom to reach the oppressed with programs such as Radio Free Europe, Radio Liberty, and Marti Radio (Cuba Free Radio). These programs were designed to highlight the hard facts about the leadership in these countries and the tyranny they brought to their fellow countrymen and countrywomen.

I propose that we freedom lovers look upon our failing urban communities as oppressed countries within our country and put together a radio station we can pump the truth about their democrat leaders and the socialist and communist agenda they are trying their best to implement on US soil, as well as their desire to control us and erode our rights and liberties. This will be a radio station the left cannot block or interfere with electronically. I say, where J.C. Watts failed, we should pick up the mantle and go forth and succeed. Call it what you will, the Truth Channel, The True American Voice, or the Frederick Douglass Chronicles, it does not matter, though I like the latter. But we have to make inroads before our country is completely destroyed from within by the enemy within.

What I am proposing is just an idea, yes, but as with all great ideas, they have their beginnings as someone's dream. Disneyland and Disney World began with a dream by a man named Walt Disney. I would dare say that if he were to come back to life and see how his company was being run today, he would have a major conniption. Our Founding Fathers had a dream, too, and if they were to come back, as they did in my novel series, 'By George, The Radicals Are Back', they would also have a major conniption. What these great dreamers once envisioned and created have struggled to survive over time thanks to the enemy within.

Like Walt Disney, our framers are not coming back. But we are here. Let's do what we can with the technology we have and get the truth out to our

minority community. Our political ancestors liberated the once democrat enslaved once before. Can we not lift a hand to do the same now, a second and final time in this economic enslavement the left has created, promoted, and kept going? It's time for intervention, I venture to say. It is time for us to engage the enemy within. It is time for us to stand up and defend what we believe in. and this time, we must prevail!

Personally, I think we can do much better than we have done to date. It is just a matter of whether we have the will to do it. What are your thoughts on this?

Who Am I?

“In my humblest of expressions, against all known odds, and with the courage and determination of the legendary Lion, I am young shepherd boy David come to slay Goliath. Not with a powerful sword, but with a mighty pen. As it is well known, the pen is mightier than the sword...”

Subject: Governor Signing Election Integrity Bill SB 524 Into Law

Dear Stephanie,

It has been a pleasure working with you and the Governor's Office on Election Integrity over the past few months. We are so thankful for the passage of SB 524. Many of our members volunteered hundreds of hours to provide the data supporting the need for this legislation. Would it be possible for members of Defend Florida to be in attendance when the Governor signs SB524 into law? It would mean so much being there, showing our support for our wonderful Governor DeSantis and witnessing this vital legislation become Florida law. After all the trips to Tallahassee, this will be the best trip ever for Shuna and me! ❤️
Thank you so much. We look forward to seeing you again.

Warm regards,

Dee Lavandera and Shuna Carpenter

A republic must not only be so in its principles but in its form. Thomas Paine

The lower case u in united is purposeful. In the original Declaration of Independence, the Founding Fathers used a lower case "u" in united – and even made the letters much smaller than "States". This is because we were declaring our independence as 13 individual sovereign states, not as a monolithic new country.

Subject: SOS of Louisiana suspend ERIC, effective immediately(1-27-22)

Dear Secretary Lee and Director Matthews,

We mentioned in our meeting on February 2nd that we have strong concerns with using the ERIC system in our state. We have provided links below to a few articles from Gateway Pundit and a press release from the Louisiana Secretary of State for your consideration. We respectfully request that you review this information and provide us with clarification regarding the accuracy of these allegations.

Articles about ERIC study:

[Who's "Cleaning" Our Voter Rolls? Soros Funded ERIC Is Now Used In 31 States \(thegatewaypundit.com\)](https://thegatewaypundit.com/who-s-cleaning-our-voter-rolls-soros-funded-eric-is-now-used-in-31-states/)

[ERIC Investigation, Part 2: The Largest U.S. Counties Removed Only ZERO to TWO Ineligible Voters From Their Voter Rolls the Last 4 Years \(thegatewaypundit.com\)](https://thegatewaypundit.com/eric-investigation-part-2-the-largest-u-s-counties-removed-only-zero-to-two-ineligible-voters-from-their-voter-rolls-the-last-4-years/)

[ERIC Investigation, Part 3: Soros Open Society and the Founding of the Nation's Largest Voter Roll Clean-Up Operation \(thegatewaypundit.com\)](https://thegatewaypundit.com/eric-investigation-part-3-soros-open-society-and-the-founding-of-the-nation-s-largest-voter-roll-clean-up-operation/)

[Grassroots Republicans Warn of Democrat Floridians Using Part Time Florida Residents Votes to Steal the 2022 Election from DeSantis -- Using Gateway Pundit Information on ERIC System \(thegatewaypundit.com\)](https://thegatewaypundit.com/grassroots-republicans-warn-of-democrat-floridians-using-part-time-florida-residents-votes-to-steal-the-2022-election-from-de-santis--using-gateway-pundit-information-on-eric-system/)

Secretary of State Kyle Ardoin has announced that Louisiana will **suspend** its participation in the Electronic Registration Information Center (**ERIC**), **effective immediately**. (Jan.27.2022)

[BREAKING NEWS: Louisiana Decides to Suspend Use of Soros-Funded Voter Roll Clean-Up System - ERIC \(thegatewaypundit.com\)](https://thegatewaypundit.com/breaking-news-louisiana-decides-to-suspend-use-of-soros-funded-voter-roll-clean-up-system-eric/)

The announcement comes amid concerns raised by **citizens, government watchdog organizations and media reports** about potential questionable funding sources and that possibly partisan actors may have access to ERIC network data for political purposes, potentially undermining voter confidence.

Press release from the Louisiana Secretary of State:

*The Real Anthony Fauci
by Robert F Kennedy Jr.*

The Real Anthony Fauci

Bill Gates, Big Pharma, and
the Global War on Democracy
and Public Health

Robert F. Kennedy Jr.

NEW YORK TIMES BESTSELLING AUTHOR

Children's
Health Defense 

As director of the National Institute of Allergy and Infectious Diseases (NIAID), Dr. Anthony Fauci dispenses \$6.1 billion in annual taxpayer-provided funding for scientific research, allowing him to dictate the subject, content, and outcome of scientific health research across the globe. Fauci uses the financial clout at his disposal to wield extraordinary influence over hospitals, universities, journals, and thousands of influential doctors and scientists—whose careers and institutions he has the power to ruin, advance, or reward.

During more than a year of painstaking and meticulous research, Robert F. Kennedy Jr. unearthed a shocking story that obliterates media spin on Dr. Fauci . . . and that will alarm every American—

Democrat or Republican—who cares about democracy, our Constitution, and the future of our children’s health.

The Real Anthony Fauci reveals how “America’s Doctor” launched his career during the early AIDS crisis by partnering with pharmaceutical companies to sabotage safe and effective off-patent therapeutic treatments for AIDS. Fauci orchestrated fraudulent studies, and then pressured US Food and Drug Administration (FDA) regulators into approving a deadly chemotherapy treatment he had good reason to know was worthless against AIDS. Fauci repeatedly violated federal laws to allow his Pharma partners to use impoverished and dark-skinned children as lab rats in deadly experiments with toxic AIDS and cancer chemotherapies.

In early 2000, Fauci shook hands with Bill Gates in the library of Gates’ \$147 million Seattle mansion, cementing a partnership that would aim to control an increasingly profitable \$60 billion global vaccine enterprise with unlimited growth potential. Through funding leverage and carefully cultivated personal relationships with heads of state and leading media and social media institutions, the Pharma-Fauci-Gates alliance exercises dominion over global health policy.

The Real Anthony Fauci details how Fauci, Gates, and their cohorts use their control of media outlets, scientific journals, key government and quasi-governmental agencies, global intelligence agencies, and influential scientists and physicians to flood the public with fearful propaganda about COVID-19 virulence and pathogenesis, and to muzzle debate and ruthlessly censor dissent.

Virginia Election Integrity Efforts to Be Repeated for Midterms – The Power of the Poll Worker

A grassroots election integrity initiative has led to more than 3,000 new poll watchers—the majority of them conservatives—working during the Virginia gubernatorial election. The result was a much higher Republican poll watcher presence at the ballot box.

Re: Response to Public Records Requests

Dear Mr. Johnson:

Please be advised that this firm has the privilege of representing Hon. Christopher Anderson, Seminole County Supervisor of Elections as the office's general counsel. Your public records dated June 20, 2021 at 10:53 pm, June 21, 2021 at 2:06 pm, June 21, 2021 at 2:27 pm, June 21, 2021 at 4:27 pm, and July 21, 2021 at 5:09 pm have all been forwarded to my office for initial review and response. In order to expedite a response, I was provided with what I understand are all of your outstanding requests, and will attempt to respond to each fully and in cases where additional information or action on your part is required, to clearly provide the details for such additional action or information. If, after review of this response you have additional questions regarding the foregoing outstanding requests, please respond to me at the email address provided above, with a copy to publicrecords@kpsds.com.

FIRST REQUEST: Names and current listed addresses of all NPA voters that voted in the 2016 general election in Seminole [C]ounty Florida.

FIRST RESPONSE: Florida Statutes only requires the retention of records for 22 months. Inasmuch as your request on June 20, 2021 is approximately 55 months after the certification of the 2016 election, the office no longer has any records responsive to your request. Further, we do not maintain a specific list which is responsive to your request.

SECOND REQUEST: Names and current listed addresses of all NPA voters that voted in the 2020 general election in Seminole County Florida.

OFFICES: ORLANDO, FLORIDA | WEST PALM BEACH, FLORIDA

SECOND RESPONSE: We do not maintain a specific list which is responsive to your request. There are third party private companies that undertake the excessive hours necessary to create such a list. If you are still interested in this information, I would recommend considering a private campaign management service as there are several out there which I understand incorporate into their systems the ability to generate the type of information you seek.

THIRD REQUEST: Names of all Democrat registered voters and current addresses mailed-in or dropped-off ballots with a return envelope. Please provide copies of all returned envelopes' front and back side which may be well over 100,000 ballots plus return envelopes.

THIRD RESPONSE: As you are aware, although the election for the office of Supervisor of Elections is a partisan contest, the office of the Supervisor is, by necessity, apolitical. One of the best forms of protection voters are offered is the privacy of their vote. There is no meaningful way to determine whether a ballot was cast by a voter of any political party, or with No Party Affiliation (NPA). We can tell you that 44,131 mail ballot envelopes were returned by registered Democrats. The only method by which the office can comply with this request is to examine each of the 104,265 envelopes, cross reference the voter identification number to determine what party the voter was a member of the time of the 2020 General Election. Further, we would then be able to provide you with access to review the envelopes or, if you are inclined to expend the additional cost, we can have the signatures redacted and provide copies of the envelopes which meet your inquiry. To the extent that the ability to touch election materials is restricted to only certain individuals in the office, it is not something that can be handled by a general office worker. We estimate that the time to pull a batch of 250 envelopes, identify the voter identification number, and then cross reference with historical records to confirm the party as of the 2020 election, and then place the envelope into a responsive or non-responsive pile and subsequently re-batch the envelopes, would take on average three (3) minutes per envelope in identifying the responsive documents.

At 3 minutes per envelope, it equates to 20 envelopes per hour. To review the 104,265 envelopes would take 5,213.25 hours. Assuming the lowest qualified, paid individual earns \$35 per hour, the cost to simply identify the responsive documentation would be \$182,463.75.

Once the responsive documentation is established, we would need to know whether we are making copies which would need to be redacted and copies made, or review copies of the live envelopes. The cost to copy an envelope to be redacted and copy the redacted envelopes individually would take an additional \$18.00 per hour. The office estimates the number of responsive envelopes to be 44,131 and at 40 envelopes per hour, an additional \$19,859.04 would then be required. In the alternative, if you would prefer to review but not have copies of the envelopes, we can have a supervisor sit with you to allow you to examine (but not touch or duplicate) the envelopes. That would be at the \$35 per hour rate, but depending on how long it took to review (I would estimate reviewing 250 per hour), the 176.52 hours would cost an additional \$6,178.34.

In summary, to identify and deliver the responsive documents the office estimates between \$188,642.09 (for in person review of the envelopes without copies) or \$202,322.79 (for redacted copies of the envelopes). Office policy dictates that the entirety of the estimated cost be paid prior

to the office commencing work on the request. Please note that your request advises that your preferred delivery system would be on electronic storage, for which an additional charge would apply.

FOURTH REQUEST: Names of those individuals appointed canvassing board members in the 2020 elections in Seminole County Florida.

FOURTH RESPONSE: The request is unclear as to whether you are inquiring as to the Presidential Preferential Primary, the Primary Elections, or the General Elections, but in order to expedite the process, I am attaching the publication notice of the members of the canvassing board for the 2020 General Election.

FIFTH REQUEST: Provide and describe training, including copies of any and all training materials the appointed canvassing board members were given including times and dates.

FIFTH RESPONSE: To facilitate a description of the training would require the creation of a record. The office is not required to do so and routinely does not do so for anyone in order to avoid any appearance of impropriety. We are, however, attaching the office's training materials we currently use which remains in our possession.

SIXTH REQUEST: Provide specific reasons why each Florida Statute-designated canvassing board member was replaced and a new member appointed and by whom.

SIXTH RESPONSE: Requests for explanation is not properly a public records request which, by its facial definition, calls for the prior existence of a responsive record. After diligent search and inquiry, we were unable to identify any records which indicate specific reasons "each Florida Statute-designated canvassing board member was replaced and a new member appointed and by whom" other than to advise that Mr. Anderson could not serve on the committee as he was on the ballot. You may wish to ask the replaced and replacement members directly to see if they have any insight.

SEVENTH REQUEST: Provide specific reasons why a canvassing board member was chosen and why selected.

SEVENTH RESPONSE: While no public record exists which is responsive to the request, I can generally tell you that canvassing board members were chosen and selected because they met the statutory requirements.

EIGHTH REQUEST: Why were canvassing board members selected that had no experience in elections and canvassing board duties?

EIGHTH RESPONSE: Prior service and experience is not a statutory requirement to serve a canvassing board. Additionally, and perhaps more notably, every time a new member serves on the board, they had no experience in elections and canvassing board duties prior to the appointment.

NINTH REQUEST: Why was Manekia chosen as a canvassing board member?

NINTH RESPONSE: Ms. Manekia was chosen because she met the statutory requirements coupled with her agreement by saying yes.

TENTH REQUEST: Why was the chief judge replaced as a canvassing board member?

TENTH RESPONSE: The Chief Judge never served on the canvassing board and thus was not replaced. Rather, in compliance with the statute, the Chief Judge made inquiry and determined that no one was willing or available to serve in that capacity.

ELEVENTH REQUEST: Why was the Seminole County commissioners' Chairperson replaced as a canvassing board member?

ELEVENTH RESPONSE: The Seminole County Commissioners' Chairperson never served on the canvassing board and thus was not replaced. Rather in compliance with the statute, the chair made inquiry and determined that none of the other commissioners were willing or available to serve in that capacity.

TWELFTH REQUEST: Who solicited the names of those who replaced the canvassing board members?

TWELFTH RESPONSE: After diligent search and inquiry, we have no public records which are responsive to the request.

THIRTEENTH REQUEST: Provide copies of all correspondence between canvassing board members between the dates of Feb. 1, 2020 thru Dec. 31, 2020.

THIRTEENTH RESPONSE: After diligent search and inquiry, the office is not aware of any communications which include all members of the canvassing board. If you are asking for something different, please clarify the request.

FOURTEENTH REQUEST: Provide copies of any and all text messages, emails, phone calls and letters, memos and all correspondence between the parties involved including, but not limited to, the Secretary of Elections and legal contractors as well as all memos filed in the records of Seminole County pertaining to the canvassing board appointments including, but not limited to, letters of appointments and appointment criteria.

FOURTEENTH RESPONSE: We require a clarification before we can respond to this request. The term "the parties involved" is somewhat vague. Additionally, we would not have access to any correspondence between canvassing board members and their legal contractors. There may be some responsive documentation, but we need to better understand the request before compiling responsive documentation.

FIFTEENTH REQUEST: Letters of correspondence pertaining to communication between Chris Anderson and Philip Kaprow and Ms. Manekia between the dates of Feb 1, 2020 and Dec 31, 2020.

FIFTEENTH RESPONSE: After diligent search and inquiry, we are unaware of any triparty communications between Chris Anderson, Philip Kaprow and Ms. Manekia in the timeframe referenced. It appears that there may be a communication between the above referenced individuals and others.

SIXTEENTH REQUEST: Provide the memos of records that appointed canvassing members.

SIXTEENTH RESPONSE: Please clarify the inquiry, as we do not know what a “memo of records” is or are.

SEVENTEENTH REQUEST: Provide copies of any and all videos, pictures, digital media of any kind that canvassing board members used during the period of March 1, 2020 through November 15, 2020.

SEVENTEENTH RESPONSE: The office has requested a clarification of “the canvassing board members used” as the function of the canvassing board does not require any reliance on videos, pictures, digital media of any kind so we do not understand what you are really attempting to ask for.

EIGHTEENTH REQUEST: Please provide the memos, appointments, etc., of names of any and all persons who were appointed as Canvassing Board members for the 2020 elections.

EIGHTEENTH RESPONSE: Please clarify how this request differs from the Fourth Request. To the extent we believe it does not change the inquiry, we would restate the response from the Fourth Request, as if the response were restated herein in the entirety.

NINETEENTH REQUEST: Copies of any and all media recordings used in the canvassing board area between March 1, 2021 and November 15, 2020 in any meetings and/or meetings in Sanford, Florida.

NINETEENTH RESPONSE: We note that the request called for the end date prior to the begin date, however, after diligent search and inquiry, we have found no documents responsive to your request.

TWENTIETH REQUEST: Provide copies of all recordings that were made of ballot adjudications between March 1, 2020 and November 15, 2020.

TWENTIETH RESPONSE: After diligent search and inquiry the office has not located recordings made of ballot adjudications.

TWENTY-FIRST REQUEST: Please provide specific copies of all instructions given to canvassing board members on how to adjudicate ballots.

TWENTY-FIRST RESPONSE: No specific instructions are given other than copies of the Administrative Code and Secretary of State approved Canvassing Board training materials.

TWENTY-SECOND REQUEST: Please provide copies of all 103,000 plus mail-in and dropped off ballot envelopes that were returned to the office of the supervisor of elections in the 2020 general election in Seminole County Florida.

TWENTY-SECOND RESPONSE: Is this request in addition to, or a substitute for the FOURTH REQUEST, above, or did you perhaps forget that you made the other request. The office is happy to calculate the estimated cost, but before doing so, they want to make sure that the request being quoted is for the information you want.

TWENTY-THIRD REQUEST: Please provide copies of all 54,000 plus adjudicated ballots that were acted on in the 2020 general election.

TWENTY-THIRD RESPONSE: The office requires clarification on what it is that you are looking for. There is no correlation to 54,000 and additionally it is unclear the context in which you consider a ballot “adjudicated.”

TWENTY-FOURTH REQUEST: Please provide copies of all original ballots that were adjudicated and copies of all duplicated. ballots.

TWENTY-FOURTH RESPONSE: The office requires clarification on the scope of this request. Are you seeking this for the 2020 General Election or a different election?

TWENTY-FIFTH REQUEST: Please provide the ballots sorted by the precinct designated on the ballot.

TWENTY-FIFTH RESPONSE: The office requires clarification on the scope of this request. Are you seeking this for just the 2020 General Election? If so, is it early voting, vote by mail, election day, or all that you are looking for?

TWENTY-SIXTH REQUEST: Please provide the reasons for each ballot change.

TWENTY-SIXTH RESPONSE: Despite the fact that it is unclear what is meant by ballot change, there are no written responsive documents which provide reasons for changes.

TWENTY-SEVENTH REQUEST: Please provide the total number of adjudicated ballots handled and/or adjudicated by the Seminole County Canvassing Board.

TWENTY-SEVENTH RESPONSE: The office requires clarification. Is the total number the 54,000 plus that you reference in your TWENTY-THIRD REQUEST, above? If not, please explain what it is you are looking for and be sure to explain how you are defining

adjudicated ballots. More importantly, clarification is required because of the compound nature of the request. The number handled will not be the number adjudicated, yet the response commingles the request.

TWENTY-EIGHTH REQUEST: If the ballot indicates precinct and party affiliation, please provide the number for each party or non-party affiliation.

TWENTY-EIGHT RESPONSE: The office requires clarification: which ballot?

TWENTY-NINTH REQUEST: Please provide copies and the exact number and the names of return envelopes rejected by the canvassing board.

TWENTY-NINTH RESPONSE: The office requires clarification: which election is this being asked for? As a general response, additional clarification is required. The office does not know who it is that you claim is naming the return envelopes, nor are they aware of the canvassing board voting on and rejecting any such named envelope.

THIRTIETH REQUEST: On **Exhibits A and B**, (attached) please explain why Manekia, the woman wearing a hijab has a pen or marking device and its purpose.

THIRTIETH RESPONSE: This request calls for explanations not records; as a result, the office has no responsive documents. Notwithstanding, I believe the answer to your question is because a pen or marking device is required to complete the canvassing board's task at that time, and the purpose is to serve as a device that can be used to mark things.

THIRTY-FIRST REQUEST: Provide copies of all of the ballot that she, Manekia, marked on using a pen, from March 1, 2020 to December 1, 2020.

THIRTY-FIRST RESPONSE: The office requires clarification: the request calls for copies of all of the ballot that Manekia marked on. We have no meaningful way to identify a singular ballot (as indicated by the use of the word "the") responsive to your request.

THIRTY-SECOND REQUEST: On **Exhibit C**, (attached) Please explain why only 2 persons are behind the plastic screen. Please provide their names.

THIRTY-SECOND RESPONSE: There are three persons behind the plastic screen: 2 on one side, and one on the other. Because of the very low resolution photograph, it is difficult to be certain, but it would appear that the three individuals which you are asking about are Judge Dekleva, Minaz Manekia, and Chip Nardi. As an aside, you can see on the screen that the canvassing board is using the marking device referenced in your THIRTIETH REQUEST to mark the ballots under the watchful eye of other members and the observing public.

THIRTY-THIRD REQUEST: Also please explain why a screen is shown on the back wall behind the canvassing boards members during each day that they appeared together to work on gathering and adjudicating ballots. Please provide copies of any and all recordings, pictures taken of media that was on the screens, etc. on each and every day that the canvassing board met.

THIRTY –THIRD RESPONSE: The office has no documents responsive to the request.

THIRTY-FOURTH REQUEST: Please provide any and all videos slide decks and all media displayed on the screen.

THIRTY-FOURTH RESPONSE: The office has no documents responsive to the request.

THIRTY-FIFTH REQUEST: Please provide the total number of adjudicated ballots that the Seminole County canvassing board handled and or made a decision to adjudicate.

THIRTY-FIFTH RESPONSE: See above. The office needs a clarification on the term “adjudicated ballot” and to which election or elections you are asking the question.

THIRTY-SIXTH REQUEST: Please provide the total number of ballots that the Seminole County canvassing board has determined to be voided or not valid.

THIRTY-SIXTH RESPONSE: We do not maintain sufficient records to determine the total number of ballots that the canvassing board has determined to be voided or not valid, in that we do not retain records going back to the 1913 or 1914 canvassing board.

THIRTY-SEVENTH REQUEST: Any and all recordings are requested of all actions taken by the canvassing board from the beginning of the first mail in ballot in the General Election of 2020, in Seminole County Florida.

THIRTY-SEVENTH RESPONSE: The office has no responsive documents.

THIRTY-EIGHTH REQUEST: On **Exhibit D**, why is the ballot stamped void?

THIRTY-EIGHTH RESPONSE: Because the ballot was void.

THIRTY-NINTH REQUEST: Please provide any and all instructions that are were [sic] given to canvassing board members or employees or hired that included use of a void stamp on a ballot.

THIRTY-NINTH RESPONSE: Although no written instruction was provided, and thus no record exists, verbal instruction was provided on the proper method and timing with respect to depressing the stamp.

FORTIETH REQUEST: How many NPA return envelopes were rejected by the canvassing board?

FORTIETH RESPONSE: Additional clarification is required to determine which election you are seeking this information for. The envelopes for the general election do not have party identifiers, and thus there is no way of knowing the answer to your question.

FORTY-FIRST REQUEST: On **Exhibit E**, attached PLEASE PROVIDE THE REASON WHY NO OBSERVERS WERE PRESENT TO OVERSEE THE ACTIONS OF THE CANVASSING BOARD from the beginning of the first mail in and dropped off ballot in the General election of 2020 in Seminole County, Florida.

FORTY-FIRST RESPONSE: Observers were able to attend the canvassing board at any time. In fact, it appears that the camera was placed in the same area where the observers would be sitting. If observers were not present it is because they chose not to be. Every canvassing board meeting was noticed and open to the public.

FORTY-SECOND REQUEST: ACCORDING to a report issued on Seminole County's Election office website, Supervisor of Elections Chris Anderson received an award from a group in Ammon, Jordan. Some of the Members of the organization were from Palestine and Albania another Muslim countries.

I am seeking the following information;

- 1) If Chris Anderson applied for the award please provide a copy of his application.

FORTY-SECOND RESPONSE: Mr. Anderson did not apply for the award in question.

FORTY-THIRD REQUEST: 2) If another person submitted his nomination please provide that information.

FORTY-THIRD RESPONSE: On information and belief, former Supervisor Michael Ertel made application.

FORTY-FOURTH REQUEST: 3) If Chris Anderson went to Ammon, Jordan please provide copies of all correspondence between Chris Anderson and the organization (see Exhibit A) of his winning an award, travel acceptance, and any and all memos and travel documents including but not limited to air fare dates, air travel itinerary, hotel and local travel and per diem.

FORTY-FOURTH RESPONSE: Chris Anderson did not go to Ammon, Jordan.

FORTY-FIFTH REQUEST: 4) Please provide any and all copies of award documents and attendees at the above described awards ceremony.

FORTY-FIFTH RESPONSE: Upon diligent search and inquiry, it does not appear that the office has retained any copy of award documents, but a search continues.

FORTY-SIXTH REQUEST: 5) Please provide names of all correspondence between Chris Anderson and members and/or intermediaries of the organization.

FORTY-SIXTH RESPONSE: The office is unaware of any names of correspondence.

FORTY-SEVENTH REQUEST: 6) Please provide a copy of any and all agenda items, handouts, etc., that the organization handed out and to attendees.

FORTY-SEVENTH RESPONSE: The office has no responsive documents to this request.

I believe this addresses all of your requests, however, if you have additional questions, please do not hesitate to contact me.

Very truly yours,

Philip S. Kaprow

180	113	90	6	<u>359</u>

APPROXIMATELY 104,000 MAIL IN/DROPPED OFF BALLOTS PRONE TO ADJUDICATION BY 3 (only 1 person with pen) PEOPLE

MAIL IN/ENVELOPE BALLOTS – 50 PERCENT OF BIDEN’S TOTAL VOTES

Several Seminole Precincts flipped because of “mail in ballots”

THE FOLLOWING PRECINCTS WENT FROM TRUMP TO BIDEN in 2020

Precinct 78 (Lutheran Haven) was biggest change Mail in Ballots big factor

Precincts 5, 36, 46, 51, 54, 80, 30, 32, 40, 45, 47 and 9, 10, 22, 38, 60, 75 and 76.

Note that 26 other precincts were already for Clinton in 2016 and Biden kept.

NOTE THIS IN REGARDS TO ELECTIONS OFFICE

and the only Precinct that Republican voters went down in 2020

The only precinct (25) where the number of Republican voters went down was the precinct where Beth Am is and that place is associated with lawyer part time rabbi Kaprow, the elections supervisor lawyer, “who had/has association with and network social ties” to the Interfaith 3 wise guys Islamic Inman and the Preacher who was charged with molesting children and later committed suicide (See Beth Am flyers and news articles). Kaprow also received \$4,000 from SECREC to represent RINO Zembower in a vote recount in 2018. He also failed to win and appeal a school board lawsuit for a client. He is currently the contract lawyer hired by Chris Anderson to answer Records Requests for his office. There is more..... Ex. Chris Anderson worked for Tax Collector office and was behind a lot of questionable actions/advise in the office of the Tax Collector, like for example.....see news articles and court filings.

2020 Seminole County ELECTION SURPRISES and INSIDE SCOOP

- They were 3,255 addresses that had 5 or more registered adult voters at these addresses which all totaled to about 18,121 votes,
- Many of the names of the voters on homes did not live there and 37 percent of homes surveyed should not be on voter rolls.
- 103,936 Mail in Ballots and as many as 54,000 were adjudicated with the pen in the hand of the Muslim Canvassing board substitute who stamped voiding ballots and making new ballots. See pictures later in this presentation.
- 211 voters over 100 years old on Seminole county election rolls .
- Mail in ballots were harvested at several facilities, i.e., retirement communities, Nursing Homes, drug facilities, halfway houses, boat slips, RV parks, etc
- Over 300 voters use the election office as their residence and mail in ballot location. More than half voted by mail in ballot and the others nowhereabouts.
- CANVASSING BOARD MEMBERS required by Statutes were substituted and appointed by Anderson, Zembower, and “Chief Judge” and replacements and appointments were assisted and pushed by Phil Kaprow. Note: An Islamist is one of them from the new mosque just built from outside funds fromsources and she is from Qatar and UAE. Her Bio says she wants to spread Islam.
- SECREC CHAIRWOMAN made many damaging statements about never supporting TRUMP after he was nominated by the Party
- STATE COMMITTEEMAN made public statements and said he would never support TRUMP after he was nominated and elected and resigned from SECREC
- A fraudulent team was set up by SECREC Chairwoman that said it was a TRUMP campaign group, when she was told countless times not to do it. And she was provided evidence of why she shouldn't have. Done it.
- Little or no use of SECREC Offices and Phone system for TRUMP
- Very limited access to TRUMP signs from SECREC Chairwoman
- NO leadership from SECREC to garner workers in 30 precincts to get out the vote and nothing from the fake L.A. Person who claims that she was Trump campaign lead (whatever.) (The L.A. Person was in fact ALMOST EJECTED FROM A TRUMP RALLY BY THE SECRET SERVICE)
- Etc Etc Etc

*The most Popular vote President in our life time yet the local RINOS got more votes here in this county than our President
and they still run SECREC and the local Party.*

Beth Am plans week of Sukkot events

Share Tweet + 0 Comments

September 13, 2013

With Rosh Hashanah and Yom Kippur in our rearview mirror, Congregation Beth Am in Longwood sets out an ambitious schedule of events to celebrate the week-long festival of Sukkot. The holiday, which starts on the evening of Sept. 18 is one of the three biblically mandated festivals. During the seven days of Sukkot we spend time and eat meals in a sukka, a temporary structure reminiscent of the fragile dwellings of the Israelites in their 40-year travels in the desert. The sukka also recalls the huts set up by farmers during the harvest season. Those in the fields lived in these huts, sharing meals and recreation time. We set up the sukka to remind ourselves that sharing time is our highest priority in life, offering thanks for that which is truly important in the simplest of settings.

On Wednesday evening Sept. 18 at 6:30 p.m., Rev. Bryan Fulwider will enter the sukka at Beth Am and speak to the "empty nesters" in the community. Fulwider is an ordained minister who has served as a

with Jewish dietary laws. Notify Julia Lustig at jalustigcba@gmail.com if you plan on attending.

The week of Sukkot activities at Beth Am concludes on Tuesday as the Beth Am Religious School classes in eastern Seminole County will meet at 4:15 p.m. in the sukka at the home of Phil and Sara Kaprow. Beth Am students living in the Winter Springs, Oviedo and Casselberry areas can attend weekday religious school on Tuesdays at Fellowship Church in Casselberry and Sunday school at Beth Am in Longwood. Students who attend classes at the Kaprow's will get a chance to shake their lulav and etrog in the family's beautifully decorated sukka.

with resource and family programming coordinator at Beth Am, necessary since sandwiches will be served. A holiday service will begin at the sanctuary.

ues on Thursday with the Beth Am Book and Movie Club meeting at 7 permitting. The Book of the Month for September is "Checkpoints" by speaking story of the Israeli-Palestinian conflict seen through the eyes of ner of the Jewish News Denver said of this book, "Marilyn Levy's thesis & white, that while each side may believe that its cause is righteous, to each other, and that if they do, peace is possible."

y Shabbat Bring-Your-Own dairy dinner in the sukka at 6:15 p.m. on mbers of the community are invited to attend and fulfill the mitzvah A "kid-friendly" Family Shabbat Service will start at 7 p.m.

h Am, their Jewish friends and any non-affiliated high-school students ch on Sunday, Sept. 22 at 12:30 p.m. for Sushi in the Sukka. As with all meals served in the sukka at Beth Am, the food will be in accordance

Vose Law Represents Seminole County REC in Provisional Ballot Canvassing

Friday, November 09 2012 11:20

(Joe Burbank, Orlando Sentinel / November 8, 2012)

(Joe Burbank, Orlando Sentinel / November 8, 2012)

November 9, 2012, Winter Park, FL -- The elections may be over, but work for the Vose Law Firm, LLP's election lawyers continue. Philip S. Kaprow, Esq., legal chair for the Seminole County Republican Executive Committee and partner at the Vose Law Firm, LLP, is seen above observing Seminole County Supervisor of Elections Mike Ertel, as discussions and review of more than 1,500 ballots were conducted yesterday.

Wade Vose, Managing Partner of the Firm said, "Being an election attorney is more than just assisting candidates and parties. The right to vote is a unique right for our citizens, and the integrity of the process is dependent on attorneys such as ourselves to monitor the process and ensure that every lawfully cast ballot is counted. At the same time, it is an affront to that right to vote were we to turn a blind eye to improperly cast ballots."

The Vose Law Firm, LLP has extensive experience in handling election and electioneering matters for clients throughout Central Florida, including candidate consultation, poll watcher education, and general election law matters. In addition, the firm continues its focus on local government law, corporate and business law, and real estate, as well as litigation in those related areas.

BIO

Philip S. Kaprow is a partner with the Vose Law Firm. Previously, he served as the principal and founder of his private practice firm in Winter Springs, Florida, as in-house counsel for a variety of corporations after spending a few years in private practice in a mid-sized downtown Orlando law firm. He concentrates his practice in the areas of corporate and business law, lending law, contracts, hospitality law, real estate transactions and disputes, title agency representation, and title insurance claims. He is also a Florida Civil Law Notary, which is a unique designation held by less than 200 attorneys in the state. Philip is admitted to practice in the states of California and Florida, as well as the United States District Court, Middle District of Florida, and the Middle District of Florida Bankruptcy Court. Philip was a judicial extern first for the Hon. Robert J. Timlin, U.S. District Court, Central District Court of California, Riverside Division and subsequently for the Hon. Jeffrey T. Miller, U.S. District Court, Southern District of California in San Diego. Philip earned his B.A. degree from the University of South Florida in religious studies and with a minor in political sciences in 1996. He graduated Cum Laude from the Thomas Jefferson School of Law in San Diego in 1999, where he authored the law review note, *Trimming a Bonsai With A Chainsaw: The Improper Use of Unconscionability in Stirlen v. Supercuts*. Though based in Winter Park, he continues his ties to the Seminole County area, offering to meet clients in the Oviedo-Winter Springs area if traveling to Winter Park is inconvenient. He is a former Board member of the Oviedo/Winter Springs Chamber of Commerce, former member of the Rotary Club of Winter Springs, the current President of the Oviedo-Winter Springs Optimist Club, the Legal Chair of the Seminole County Republican Executive Committee, and holds membership in the Seminole County Bar Association, the Florida Land Title Association, as well as serving as a volunteer judge for Seminole County Teen Court. Philip is passionate about professionalism within the legal community. He is a past chairperson for the Florida Bar Grievance Committee 9-C, for which he received a Meritorious Service Award from The Florida Bar, and is an active member in various sections of the Florida Bar. Most recently, Philip earned the preeminent AV(R) Rating designation from Martindale-Hubbell.

In 2018, Dorworth applied to Seminole to develop about 669 acres just east of the Econ River and north of the Orange County line. The proposed River Cross development would include hundreds of homes and apartments along with shops, restaurants and offices. But in a 5-to-0 vote, commissioners turned it down.

Dorworth later filed a federal lawsuit, claiming the rural boundary violates the federal Fair Housing Act. That suit is ongoing.

His latest suit alleges that Dorworth and his attorney, Tara Tedrow, asked Seminole in November and then again on May 7, to carve out his River Cross land out of the rural boundary.

Islamic nonprofit Aisha Cultural Centers Inc. became the center of a controversial county zoning hearing Tuesday.

A building on the east side of the county will soon change from a landscaping warehouse to a place for social services, youth programs and college prep tutoring.

"It's almost shocking how low intensity of a use this is. We're talking about 'Mommy and Me' programs with maybe 10 people coming," said attorney Tara Tedrow.

Photo: Masjid al Hayy

Masjid Al Hayy was one of the first mosques in Central Florida to act as a vaccine site.

WMFE spoke to mosque outreach coordinator Minaz Manekia about how distributing shots fit with the mosque's mission.

Danielle: So you were the first mosque to act as a vaccine site in Seminole County. Why was it important to get involved in the governor's efforts to vaccinate at houses of worship?

Minaz: So we're actually fortunate, we're part of the Sheriff, Seminole County Sheriff's Office faith based member. And they played an instrumental part in getting us the opportunity to have the mobile site vaccine.

And we're because of our outreach events, we're very involved civically involved in the community with our outreach efforts.

Danielle: Can people still get vaccinated at your mosque? And who's eligible and how does it

RECAP OF THE ELECTION TIME FRAME AND PROCESS

CANVASSING BOARD RED FLAGS - NONE OF THE THREE CANVASSING BOARD members were those designated by Florida statutes. Note: Records requests made of all communications, memos, chats, meetings and calendars between Chris Anderson, Chairman Zembower, Chief County Judge and their replacements on the canvassing boards. *They refuse to respond to the requests. More detailed records requests being made to pinpoint the exact records in more detail and Court order is next step.*

MAIL IN /DROPOFF BALLOTS FOLDED INTO RETURN ENVELOPES – CLAIMED TO BE MUCH HIGHER THAN IN PREVIOUS ELECTIONS

(See Copy of front and back of a actual return envelope and ballot) Ballots from “Envelopes” should number around 104,000. Note: Records requests made of all (100%) envelopes received by Elections office in the 2020 Election. *They refuse to respond to the requests. More detailed records requests being made to pinpoint the exact records in more detail and Court order is next step.* Number of envelopes must match ballots that were folded. Voting results should match envelopes received.

BALLOTS ADJUDICATED MUCH MUCH HIGHER THAN ANY OTHER COUNTY AND YEAR – Chris Anderson claims that about 54,000 ballots were Adjudicated. NOTE: We submitted a request to see all adjudicated ballot originals (folded ballots) and the replacement ballots. *More detailed records requests being made to pinpoint the exact records in more detail and Court order is next step.*

ALMOST 50 percent of Bidens votes (64,609 out of 132,528) WERE MAIL IN BALLOTS of which were from adjudicated ballots. Note: Records requests were made. *More detailed records requests being made to pinpoint the exact records in more detail and Court order is next step.*

B. Audit Requirements for Federal Financial Assistance

Audit Requirements for Awards of State and Federal Financial Assistance (Form DFS-A2-CL), (Attachment D), entitled is incorporated herein and made a part of this agreement. Upon ascertainment of the total Sub-recipient grant amount, the form will be finalized to be Sub-recipient specific.

Additional guidance to state and federal monitoring and auditing requirements may be found at <https://www.eac.gov/payments-and-grants/audits-resolutions>.

X. Record Retention

A. Maintenance of records.

The Sub-recipient shall retain accurate and detailed records sufficient to demonstrate its compliance with the terms of this agreement for five fiscal years from the date an audit report is issued. The Sub-recipient shall allow the Department or its designee, CFO, or Auditor General or auditor access to such records, including access to the audit working papers during such period unless otherwise extended.

B. Property Inventory

The Sub-recipient must also maintain appropriate property inventory. Inventory is required for property with a cost or value of \$5,000 or more (effective July 1, 2020) at the time of acquisition in the applicable fiscal subgrant year. Federal regulations (2 CFR 200.313(d)(1)) state that "property records MOA#2021-001 - SEM

Re: Response to Public Records Requests

Dear Mr. Johnson:

Please be advised that this firm has the privilege of representing Hon. Christopher Anderson, Seminole County Supervisor of Elections as the office's general counsel. Your public records dated June 20, 2021 at 10:53 pm, June 21, 2021 at 2:06 pm, June 21, 2021 at 2:27 pm, June 21, 2021 at 4:27 pm, and July 21, 2021 at 5:09 pm have all been forwarded to my office for initial review and response. In order to expedite a response, I was provided with what I understand are all of your outstanding requests, and will attempt to respond to each fully and in cases where additional information or action on your part is required, to clearly provide the details for such additional action or information. If, after review of this response you have additional questions regarding the foregoing outstanding requests, please respond to me at the email address provided above, with a copy to publicrecords@kpsds.com.

FIRST REQUEST: Names and current listed addresses of all NPA voters that voted in the 2016 general election in Seminole [C]ounty Florida.

FIRST RESPONSE: Florida Statutes only requires the retention of records for 22 months. Inasmuch as your request on June 20, 2021 is approximately 55 months after the certification of the 2016 election, the office no longer has any records responsive to your request. Further, we do not maintain a specific list which is responsive to your request.

SECOND REQUEST: Names and current listed addresses of all NPA voters that voted in the 2020 general election in Seminole County Florida.

OFFICES: ORLANDO, FLORIDA | WEST PALM BEACH, FLORIDA

SECOND RESPONSE: We do not maintain a specific list which is responsive to your request. There are third party private companies that undertake the excessive hours necessary to create such a list. If you are still interested in this information, I would recommend considering a private campaign management service as there are several out there which I understand incorporate into their systems the ability to generate the type of information you seek.

THIRD REQUEST: Names of all Democrat registered voters and current addresses mailed-in or dropped-off ballots with a return envelope. Please provide copies of all returned envelopes' front and back side which may be well over 100,000 ballots plus return envelopes.

THIRD RESPONSE: As you are aware, although the election for the office of Supervisor of Elections is a partisan contest, the office of the Supervisor is, by necessity, apolitical. One of the best forms of protection voters are offered is the privacy of their vote. There is no meaningful way to determine whether a ballot was cast by a voter of any political party, or with No Party Affiliation (NPA). We can tell you that 44,131 mail ballot envelopes were returned by registered Democrats. The only method by which the office can comply with this request is to examine each of the 104,265 envelopes, cross reference the voter identification number to determine what party the voter was a member of the time of the 2020 General Election. Further, we would then be able to provide you with access to review the envelopes or, if you are inclined to expend the additional cost, we can have the signatures redacted and provide copies of the envelopes which meet your inquiry. To the extent that the ability to touch election materials is restricted to only certain individuals in the office, it is not something that can be handled by a general office worker. We estimate that the time to pull a batch of 250 envelopes, identify the voter identification number, and then cross reference with historical records to confirm the party as of the 2020 election, and then place the envelope into a responsive or non-responsive pile and subsequently re-batch the envelopes, would take on average three (3) minutes per envelope in identifying the responsive documents.

At 3 minutes per envelope, it equates to 20 envelopes per hour. To review the 104,265 envelopes would take 5,213.25 hours. Assuming the lowest qualified, paid individual earns \$35 per hour, the cost to simply identify the responsive documentation would be \$182,463.75.

Once the responsive documentation is established, we would need to know whether we are making copies which would need to be redacted and copies made, or review copies of the live envelopes. The cost to copy an envelope to be redacted and copy the redacted envelopes individually would take an additional \$18.00 per hour. The office estimates the number of responsive envelopes to be 44,131 and at 40 envelopes per hour, an additional \$19,859.04 would then be required. In the alternative, if you would prefer to review but not have copies of the envelopes, we can have a supervisor sit with you to allow you to examine (but not touch or duplicate) the envelopes. That would be at the \$35 per hour rate, but depending on how long it took to review (I would estimate reviewing 250 per hour), the 176.52 hours would cost an additional \$6,178.34.

In summary, to identify and deliver the responsive documents the office estimates between \$188,642.09 (for in person review of the envelopes without copies) or \$202,322.79 (for redacted copies of the envelopes). Office policy dictates that the entirety of the estimated cost be paid prior

to the office commencing work on the request. Please note that your request advises that your preferred delivery system would be on electronic storage, for which an additional charge would apply.

FOURTH REQUEST: Names of those individuals appointed canvassing board members in the 2020 elections in Seminole County Florida.

FOURTH RESPONSE: The request is unclear as to whether you are inquiring as to the Presidential Preferential Primary, the Primary Elections, or the General Elections, but in order to expedite the process, I am attaching the publication notice of the members of the canvassing board for the 2020 General Election.

FIFTH REQUEST: Provide and describe training, including copies of any and all training materials the appointed canvassing board members were given including times and dates.

FIFTH RESPONSE: To facilitate a description of the training would require the creation of a record. The office is not required to do so and routinely does not do so for anyone in order to avoid any appearance of impropriety. We are, however, attaching the office's training materials we currently use which remains in our possession.

SIXTH REQUEST: Provide specific reasons why each Florida Statute-designated canvassing board member was replaced and a new member appointed and by whom.

SIXTH RESPONSE: Requests for explanation is not properly a public records request which, by its facial definition, calls for the prior existence of a responsive record. After diligent search and inquiry, we were unable to identify any records which indicate specific reasons "each Florida Statute-designated canvassing board member was replaced and a new member appointed and by whom" other than to advise that Mr. Anderson could not serve on the committee as he was on the ballot. You may wish to ask the replaced and replacement members directly to see if they have any insight.

SEVENTH REQUEST: Provide specific reasons why a canvassing board member was chosen and why selected.

SEVENTH RESPONSE: While no public record exists which is responsive to the request, I can generally tell you that canvassing board members were chosen and selected because they met the statutory requirements.

EIGHTH REQUEST: Why were canvassing board members selected that had no experience in elections and canvassing board duties?

EIGHTH RESPONSE: Prior service and experience is not a statutory requirement to serve a canvassing board. Additionally, and perhaps more notably, every time a new member serves on the board, they had no experience in elections and canvassing board duties prior to the appointment.

NINTH REQUEST: Why was Manekia chosen as a canvassing board member?

NINTH RESPONSE: Ms. Manekia was chosen because she met the statutory requirements coupled with her agreement by saying yes.

TENTH REQUEST: Why was the chief judge replaced as a canvassing board member?

TENTH RESPONSE: The Chief Judge never served on the canvassing board and thus was not replaced. Rather, in compliance with the statute, the Chief Judge made inquiry and determined that no one was willing or available to serve in that capacity.

ELEVENTH REQUEST: Why was the Seminole County commissioners' Chairperson replaced as a canvassing board member?

ELEVENTH RESPONSE: The Seminole County Commissioners' Chairperson never served on the canvassing board and thus was not replaced. Rather in compliance with the statute, the chair made inquiry and determined that none of the other commissioners were willing or available to serve in that capacity.

TWELFTH REQUEST: Who solicited the names of those who replaced the canvassing board members?

TWELFTH RESPONSE: After diligent search and inquiry, we have no public records which are responsive to the request.

THIRTEENTH REQUEST: Provide copies of all correspondence between canvassing board members between the dates of Feb. 1, 2020 thru Dec. 31, 2020.

THIRTEENTH RESPONSE: After diligent search and inquiry, the office is not aware of any communications which include all members of the canvassing board. If you are asking for something different, please clarify the request.

FOURTEENTH REQUEST: Provide copies of any and all text messages, emails, phone calls and letters, memos and all correspondence between the parties involved including, but not limited to, the Secretary of Elections and legal contractors as well as all memos filed in the records of Seminole County pertaining to the canvassing board appointments including, but not limited to, letters of appointments and appointment criteria.

FOURTEENTH RESPONSE: We require a clarification before we can respond to this request. The term "the parties involved" is somewhat vague. Additionally, we would not have access to any correspondence between canvassing board members and their legal contractors. There may be some responsive documentation, but we need to better understand the request before compiling responsive documentation.

FIFTEENTH REQUEST: Letters of correspondence pertaining to communication between Chris Anderson and Philip Kaprow and Ms. Manekia between the dates of Feb 1, 2020 and Dec 31, 2020.

FIFTEENTH RESPONSE: After diligent search and inquiry, we are unaware of any triparty communications between Chris Anderson, Philip Kaprow and Ms. Manekia in the timeframe referenced. It appears that there may be a communication between the above referenced individuals and others.

SIXTEENTH REQUEST: Provide the memos of records that appointed canvassing members.

SIXTEENTH RESPONSE: Please clarify the inquiry, as we do not know what a “memo of records” is or are.

SEVENTEENTH REQUEST: Provide copies of any and all videos, pictures, digital media of any kind that canvassing board members used during the period of March 1, 2020 through November 15, 2020.

SEVENTEENTH RESPONSE: The office has requested a clarification of “the canvassing board members used” as the function of the canvassing board does not require any reliance on videos, pictures, digital media of any kind so we do not understand what you are really attempting to ask for.

EIGHTEENTH REQUEST: Please provide the memos, appointments, etc., of names of any and all persons who were appointed as Canvassing Board members for the 2020 elections.

EIGHTEENTH RESPONSE: Please clarify how this request differs from the Fourth Request. To the extent we believe it does not change the inquiry, we would restate the response from the Fourth Request, as if the response were restated herein in the entirety.

NINETEENTH REQUEST: Copies of any and all media recordings used in the canvassing board area between March 1, 2021 and November 15, 2020 in any meetings and/or meetings in Sanford, Florida.

NINETEENTH RESPONSE: We note that the request called for the end date prior to the begin date, however, after diligent search and inquiry, we have found no documents responsive to your request.

TWENTIETH REQUEST: Provide copies of all recordings that were made of ballot adjudications between March 1, 2020 and November 15, 2020.

TWENTIETH RESPONSE: After diligent search and inquiry the office has not located recordings made of ballot adjudications.

TWENTY-FIRST REQUEST: Please provide specific copies of all instructions given to canvassing board members on how to adjudicate ballots.

TWENTY-FIRST RESPONSE: No specific instructions are given other than copies of the Administrative Code and Secretary of State approved Canvassing Board training materials.

TWENTY-SECOND REQUEST: Please provide copies of all 103,000 plus mail-in and dropped off ballot envelopes that were returned to the office of the supervisor of elections in the 2020 general election in Seminole County Florida.

TWENTY-SECOND RESPONSE: Is this request in addition to, or a substitute for the FOURTH REQUEST, above, or did you perhaps forget that you made the other request. The office is happy to calculate the estimated cost, but before doing so, they want to make sure that the request being quoted is for the information you want.

TWENTY-THIRD REQUEST: Please provide copies of all 54,000 plus adjudicated ballots that were acted on in the 2020 general election.

TWENTY-THIRD RESPONSE: The office requires clarification on what it is that you are looking for. There is no correlation to 54,000 and additionally it is unclear the context in which you consider a ballot “adjudicated.”

TWENTY-FOURTH REQUEST: Please provide copies of all original ballots that were adjudicated and copies of all duplicated. ballots.

TWENTY-FOURTH RESPONSE: The office requires clarification on the scope of this request. Are you seeking this for the 2020 General Election or a different election?

TWENTY-FIFTH REQUEST: Please provide the ballots sorted by the precinct designated on the ballot.

TWENTY-FIFTH RESPONSE: The office requires clarification on the scope of this request. Are you seeking this for just the 2020 General Election? If so, is it early voting, vote by mail, election day, or all that you are looking for?

TWENTY-SIXTH REQUEST: Please provide the reasons for each ballot change.

TWENTY-SIXTH RESPONSE: Despite the fact that it is unclear what is meant by ballot change, there are no written responsive documents which provide reasons for changes.

TWENTY-SEVENTH REQUEST: Please provide the total number of adjudicated ballots handled and/or adjudicated by the Seminole County Canvassing Board.

TWENTY-SEVENTH RESPONSE: The office requires clarification. Is the total number the 54,000 plus that you reference in your TWENTY-THIRD REQUEST, above? If not, please explain what it is you are looking for and be sure to explain how you are defining

adjudicated ballots. More importantly, clarification is required because of the compound nature of the request. The number handled will not be the number adjudicated, yet the response commingles the request.

TWENTY-EIGHTH REQUEST: If the ballot indicates precinct and party affiliation, please provide the number for each party or non-party affiliation.

TWENTY-EIGHT RESPONSE: The office requires clarification: which ballot?

TWENTY-NINTH REQUEST: Please provide copies and the exact number and the names of return envelopes rejected by the canvassing board.

TWENTY-NINTH RESPONSE: The office requires clarification: which election is this being asked for? As a general response, additional clarification is required. The office does not know who it is that you claim is naming the return envelopes, nor are they aware of the canvassing board voting on and rejecting any such named envelope.

THIRTIETH REQUEST: On **Exhibits A and B**, (attached) please explain why Manekia, the woman wearing a hijab has a pen or marking device and its purpose.

THIRTIETH RESPONSE: This request calls for explanations not records; as a result, the office has no responsive documents. Notwithstanding, I believe the answer to your question is because a pen or marking device is required to complete the canvassing board's task at that time, and the purpose is to serve as a device that can be used to mark things.

THIRTY-FIRST REQUEST: Provide copies of all of the ballot that she, Manekia, marked on using a pen, from March 1, 2020 to December 1, 2020.

THIRTY-FIRST RESPONSE: The office requires clarification: the request calls for copies of all of the ballot that Manekia marked on. We have no meaningful way to identify a singular ballot (as indicated by the use of the word "the") responsive to your request.

THIRTY-SECOND REQUEST: On **Exhibit C**, (attached) Please explain why only 2 persons are behind the plastic screen. Please provide their names.

THIRTY-SECOND RESPONSE: There are three persons behind the plastic screen: 2 on one side, and one on the other. Because of the very low resolution photograph, it is difficult to be certain, but it would appear that the three individuals which you are asking about are Judge Dekleva, Minaz Manekia, and Chip Nardi. As an aside, you can see on the screen that the canvassing board is using the marking device referenced in your THIRTIETH REQUEST to mark the ballots under the watchful eye of other members and the observing public.

THIRTY-THIRD REQUEST: Also please explain why a screen is shown on the back wall behind the canvassing boards members during each day that they appeared together to work on gathering and adjudicating ballots. Please provide copies of any and all recordings, pictures taken of media that was on the screens, etc. on each and every day that the canvassing board met.

THIRTY –THIRD RESPONSE: The office has no documents responsive to the request.

THIRTY-FOURTH REQUEST: Please provide any and all videos slide decks and all media displayed on the screen.

THIRTY-FOURTH RESPONSE: The office has no documents responsive to the request.

THIRTY-FIFTH REQUEST: Please provide the total number of adjudicated ballots that the Seminole County canvassing board handled and or made a decision to adjudicate.

THIRTY-FIFTH RESPONSE: See above. The office needs a clarification on the term “adjudicated ballot” and to which election or elections you are asking the question.

THIRTY-SIXTH REQUEST: Please provide the total number of ballots that the Seminole County canvassing board has determined to be voided or not valid.

THIRTY-SIXTH RESPONSE: We do not maintain sufficient records to determine the total number of ballots that the canvassing board has determined to be voided or not valid, in that we do not retain records going back to the 1913 or 1914 canvassing board.

THIRTY-SEVENTH REQUEST: Any and all recordings are requested of all actions taken by the canvassing board from the beginning of the first mail in ballot in the General Election of 2020, in Seminole County Florida.

THIRTY-SEVENTH RESPONSE: The office has no responsive documents.

THIRTY-EIGHTH REQUEST: On **Exhibit D**, why is the ballot stamped void?

THIRTY-EIGHTH RESPONSE: Because the ballot was void.

THIRTY-NINTH REQUEST: Please provide any and all instructions that are were [sic] given to canvassing board members or employees or hired that included use of a void stamp on a ballot.

THIRTY-NINTH RESPONSE: Although no written instruction was provided, and thus no record exists, verbal instruction was provided on the proper method and timing with respect to depressing the stamp.

FORTIETH REQUEST: How many NPA return envelopes were rejected by the canvassing board?

FORTIETH RESPONSE: Additional clarification is required to determine which election you are seeking this information for. The envelopes for the general election do not have party identifiers, and thus there is no way of knowing the answer to your question.

FORTY-FIRST REQUEST: On **Exhibit E**, attached PLEASE PROVIDE THE REASON WHY NO OBSERVERS WERE PRESENT TO OVERSEE THE ACTIONS OF THE CANVASSING BOARD from the beginning of the first mail in and dropped off ballot in the General election of 2020 in Seminole County, Florida.

FORTY-FIRST RESPONSE: Observers were able to attend the canvassing board at any time. In fact, it appears that the camera was placed in the same area where the observers would be sitting. If observers were not present it is because they chose not to be. Every canvassing board meeting was noticed and open to the public.

FORTY-SECOND REQUEST: ACCORDING to a report issued on Seminole County's Election office website, Supervisor of Elections Chris Anderson received an award from a group in Ammon, Jordan. Some of the Members of the organization were from Palestine and Albania another Muslim countries.

I am seeking the following information;

- 1) If Chris Anderson applied for the award please provide a copy of his application.

FORTY-SECOND RESPONSE: Mr. Anderson did not apply for the award in question.

FORTY-THIRD REQUEST: 2) If another person submitted his nomination please provide that information.

FORTY-THIRD RESPONSE: On information and belief, former Supervisor Michael Ertel made application.

FORTY-FOURTH REQUEST: 3) If Chris Anderson went to Ammon, Jordan please provide copies of all correspondence between Chris Anderson and the organization (see Exhibit A) of his winning an award, travel acceptance, and any and all memos and travel documents including but not limited to air fare dates, air travel itinerary, hotel and local travel and per diem.

FORTY-FOURTH RESPONSE: Chris Anderson did not go to Ammon, Jordan.

FORTY-FIFTH REQUEST: 4) Please provide any and all copies of award documents and attendees at the above described awards ceremony.

FORTY-FIFTH RESPONSE: Upon diligent search and inquiry, it does not appear that the office has retained any copy of award documents, but a search continues.

FORTY-SIXTH REQUEST: 5) Please provide names of all correspondence between Chris Anderson and members and/or intermediaries of the organization.

FORTY-SIXTH RESPONSE: The office is unaware of any names of correspondence.

Letter to M. Johnson
August 13, 2021
Page 10

FORTY-SEVENTH REQUEST: 6) Please provide a copy of any and all agenda items, handouts, etc., that the organization handed out and to attendees.

FORTY-SEVENTH RESPONSE: The office has no responsive documents to this request.

I believe this addresses all of your requests, however, if you have additional questions, please do not hesitate to contact me.

Very truly yours,

Philip S. Kaprow

Several Seminole Precincts flipped because of “mail in ballots”

THE FOLLOWING PRECINCTS WENT FROM TRUMP TO BIDEN in 2020

Precinct 78 (Lutheran Haven) was biggest change Mail in Ballots big factor

Precincts 5, 36, 46, 51, 54, 80, 30, 32, 40, 45, 47 and 9, 10, 22, 38, 60, 75 and 76.

Note that 26 other precincts were already for Clinton in 2016 and Biden kept.

NOTE THIS IN REGARDS TO ELECTIONS OFFICE

and the only Precinct that Republican voters went down in 2020

The only precinct (25) where the number of Republican voters went down was the precinct where Beth Am is and that place is associated with lawyer part time rabbi Kaprow, the elections supervisor lawyer, “who had/has association with and network social ties” to the Interfaith 3 wise guys Islamic Inman and the Preacher who was charged with molesting children and later committed suicide (See Beth Am flyers and news articles). Kaprow also received \$4,000 from SECREC to represent RINO Zembower in a vote recount in 2018. He also failed to win and appeal a school board lawsuit for a client. He is currently the contract lawyer hired by Chris Anderson to answer Records Requests for his office. There is more..... Ex. Chris Anderson worked for Tax Collector office and was behind a lot of questionable actions/advise in the office of the Tax Collector, like for example.....see news articles and court filings.

2020 Seminole County ELECTION SURPRISES and INSIDE SCOOP

- They were 3,255 addresses that had 5 or more registered adult voters at these addresses which all totaled to about 18,121 votes,
- Many of the names of the voters on homes did not live there and 37 percent of homes surveyed should not be on voter rolls.
- 103,936 Mail in Ballots and as many as 54,000 were adjudicated with the pen in the hand of the Muslim Canvassing board substitute who stamped voiding ballots and making new ballots. See pictures later in this presentation.
- 211 voters over 100 years old on Seminole county election rolls .
- Mail in ballots were harvested at several facilities, i.e., retirement communities, Nursing Homes, drug facilities, hall way houses, boat slips, RV parks, etc
- Over 300 voters use the election office as their residence and mail in ballot location. More than half voted by mail in ballot and the others nowhereabouts.
- CANVASSING BOARD MEMBERS required by Statutes were substituted and appointed by Anderson, Zembower, and “Chief Judge” and replacements and appointments were assisted and pushed by Phil Kaprow. Note: An Islamist is one of them from the new mosque just built from outside funds fromsources and she is from Qatar and UAE. Her Bio says she wants to spread Islam.
- SECREC CHAIRWOMAN made many damaging statements about never supporting TRUMP after he was nominated by the Party
- STATE COMMITTEEMAN make public statements and said he would never support TUMP after he was nominated and elected and resigned from SECREC
- A fraudulent team was set up by SECREC Chairwoman that said it was a TRUMP campaign group, when she was told countless times not to do it. And she was provided evidence of why she shouldn't have. Done it.
- Little or no use of SECREC Offices and Phone system for TRUMP
- Very limited access to TRUMP signs from SECREC Chairwoman
- NO leadership from SECREC to garner workers in 30 precincts to get out the vote and nothing from the fake L.A. Person who claims that she was Trump campaign lead (whatever.) (The L.A. Person was in fact ALMOST EJECTED FROM A TRUMP RALLY BY THE SECRET SERVICE)
- Etc Etc Etc

*The most Popular vote President in our life time yet the local RINOS got more votes here in this county than our President
and they still run SECREC and the local Party.*

Beth Am plans week of Sukkot events

Share Tweet + 0 Comments

September 13, 2013

With Rosh Hashanah and Yom Kippur in our rearview mirror, Congregation Beth Am in Longwood sets out an ambitious schedule of events to celebrate the week-long festival of Sukkot. The holiday, which starts on the evening of Sept. 18 is one of the three biblically mandated festivals. During the seven days of Sukkot we spend time and eat meals in a sukka, a temporary structure reminiscent of the fragile dwellings of the Israelites in their 40-year travels in the desert. The sukka also recalls the huts set up by farmers during the harvest season. Those in the fields lived in these huts, sharing meals and recreation time. We set up the sukka to remind ourselves that sharing time is our highest priority in life, offering thanks for that which is truly important in the simplest of settings.

On Wednesday evening Sept. 18 at 6:30 p.m., Rev. Bryan Fulwider will enter the sukka at Beth Am and speak to the "empty nesters" in the community. Fulwider is an ordained minister who has served as a

with resource and family programming coordinator at Beth Am, necessary since sandwiches will be served. A holiday service will begin at the sanctuary.

ues on Thursday with the Beth Am Book and Movie Club meeting at 7 permitting. The Book of the Month for September is "Checkpoints" by speaking story of the Israeli-Palestinian conflict seen through the eyes of ner of the Jewish News Denver said of this book, "Marilyn Levy's thesis & white, that while each side may believe that its cause is righteous, to each other, and that if they do, peace is possible."

y Shabbat Bring-Your-Own dairy dinner in the sukka at 6:15 p.m. on mbers of the community are invited to attend and fulfill the mitzvah A "kid-friendly" Family Shabbat Service will start at 7 p.m.

h Am, their Jewish friends and any non-affiliated high-school students ch on Sunday, Sept. 22 at 12:30 p.m. for Sushi in the Sukka. As with all meals served in the sukka at Beth Am, the food will be in accordance with Jewish dietary laws. Notify Julia Lustig at jalustigcba@gmail.com if you plan on attending.

The week of Sukkot activities at Beth Am concludes on Tuesday as the Beth Am Religious School classes in eastern Seminole County will meet at 4:15 p.m. in the sukka at the home of Phil and Sara Kaprow. Beth Am students living in the Winter Springs, Oviedo and Casselberry areas can attend weekday religious school on Tuesdays at Fellowship Church in Casselberry and Sunday school at Beth Am in Longwood. Students who attend classes at the Kaprow's will get a chance to shake their lulav and etrog in the family's beautifully decorated sukka.

Vose Law Represents Seminole County REC in Provisional Ballot Canvassing

Friday, November 09 2012 11:20

(Joe Burbank, Orlando Sentinel / November 8, 2012)

(Joe Burbank, Orlando Sentinel / November 8, 2012)

November 9, 2012, Winter Park, FL -- The elections may be over, but work for the Vose Law Firm, LLP's election lawyers continue. Philip S. Kaprow, Esq., legal chair for the Seminole County Republican Executive Committee and partner at the Vose Law Firm, LLP, is seen above observing Seminole County Supervisor of Elections Mike Ertel, as discussions and review of more than 1,500 ballots were conducted yesterday.

Wade Vose, Managing Partner of the Firm said, "Being an election attorney is more than just assisting candidates and parties. The right to vote is a unique right for our citizens, and the integrity of the process is dependent on attorneys such as ourselves to monitor the process and ensure that every lawfully cast ballot is counted. At the same time, it is an affront to that right to vote were we to turn a blind eye to improperly cast ballots."

The Vose Law Firm, LLP has extensive experience in handling election and electioneering matters for clients throughout Central Florida, including candidate consultation, poll watcher education, and general election law matters. In addition, the firm continues its focus on local government law, corporate and business law, and real estate, as well as litigation in those related areas.

BIO

Philip S. Kaprow is a partner with the Vose Law Firm. Previously, he served as the principal and founder of his private practice firm in Winter Springs, Florida, as in-house counsel for a variety of corporations after spending a few years in private practice in a mid-sized downtown Orlando law firm. He concentrates his practice in the areas of corporate and business law, lending law, contracts, hospitality law, real estate transactions and disputes, title agency representation, and title insurance claims. He is also a Florida Civil Law Notary, which is a unique designation held by less than 200 attorneys in the state. Philip is admitted to practice in the states of California and Florida, as well as the United States District Court, Middle District of Florida, and the Middle District of Florida Bankruptcy Court. Philip was a judicial extern first for the Hon. Robert J. Timlin, U.S. District Court, Central District Court of California, Riverside Division and subsequently for the Hon. Jeffrey T. Miller, U.S. District Court, Southern District of California in San Diego. Philip earned his B.A. degree from the University of South Florida in religious studies and with a minor in political sciences in 1996. He graduated Cum Laude from the Thomas Jefferson School of Law in San Diego in 1999, where he authored the law review note, *Trimming a Bonsai With A Chainsaw: The Improper Use of Unconscionability in Stirlen v. Supercuts*. Though based in Winter Park, he continues his ties to the Seminole County area, offering to meet clients in the Oviedo-Winter Springs area if traveling to Winter Park is inconvenient. He is a former Board member of the Oviedo/Winter Springs Chamber of Commerce, former member of the Rotary Club of Winter Springs, the current President of the Oviedo-Winter Springs Optimist Club, the Legal Chair of the Seminole County Republican Executive Committee, and holds membership in the Seminole County Bar Association, the Florida Land Title Association, as well as serving as a volunteer judge for Seminole County Teen Court. Philip is passionate about professionalism within the legal community. He is a past chairperson for the Florida Bar Grievance Committee 9-C, for which he received a Meritorious Service Award from The Florida Bar, and is an active member in various sections of the Florida Bar. Most recently, Philip earned the preeminent AV(R) Rating designation from Martindale-Hubbell.

In 2018, Dorworth applied to Seminole to develop about 669 acres just east of the Econ River and north of the Orange County line. The proposed River Cross development would include hundreds of homes and apartments along with shops, restaurants and offices. But in a 5-to-0 vote, commissioners turned it down.

Dorworth later filed a federal lawsuit, claiming the rural boundary violates the federal Fair Housing Act. That suit is ongoing.

His latest suit alleges that Dorworth and his attorney, Tara Tedrow, asked Seminole in November and then again on May 7, to carve out his River Cross land out of the rural boundary.

Islamic nonprofit Aisha Cultural Centers Inc. became the center of a controversial county zoning hearing Tuesday.

A building on the east side of the county will soon change from a landscaping warehouse to a place for social services, youth programs and college prep tutoring.

"It's almost shocking how low intensity of a use this is. We're talking about 'Mommy and Me' programs with maybe 10 people coming," said attorney Tara Tedrow.

Photo: Masjid al Hayy

Masjid Al Hayy was one of the first mosques in Central Florida to act as a vaccine site.

WMFE spoke to mosque outreach coordinator Minaz Manekia about how distributing shots fit with the mosque's mission.

Ramadan, A Month About Community For Many Muslims, Goes Virtual

Danielle: So you were the first mosque to act as a vaccine site in Seminole County. Why was it important to get involved in the governor's efforts to vaccinate at houses of worship?

Minaz: So we're actually fortunate, we're part of the Sheriff, Seminole County Sheriff's Office faith based member. And they played an instrumental part in getting us the opportunity to have the mobile site vaccine.

And we're because of our outreach events, we're very involved civically involved in the community with our outreach efforts.

Danielle: Can people still get vaccinated at your mosque? And who's eligible and how does it

RECAP OF THE ELECTION TIME FRAME AND PROCESS

CANVASSING BOARD RED FLAGS - NONE OF THE THREE CANVASSING BOARD members were those designated by Florida statutes. Note: Records requests made of all communications, memos, chats, meetings and calendars between Chris Anderson, Chairman Zembower, Chief County Judge and their replacements on the canvassing boards. *They refuse to respond to the requests. More detailed records requests being made to pinpoint the exact records in more detail and Court order is next step.*

MAIL IN /DROPOFF BALLOTS FOLDED INTO RETURN ENVELOPES – CLAIMED TO BE MUCH HIGHER THAN IN PREVIOUS ELECTIONS

(See Copy of front and back of a actual return envelope and ballot) Ballots from “Envelopes” should number around 104,000. Note: Records requests made of all (100%) envelopes received by Elections office in the 2020 Election. *They refuse to respond to the requests. More detailed records requests being made to pinpoint the exact records in more detail and Court order is next step.* Number of envelopes must match ballots that were folded. Voting results should match envelopes received.

BALLOTS ADJUDICATED MUCH MUCH HIGHER THAN ANY OTHER COUNTY AND YEAR – Chris Anderson claims that about 54,000 ballots were Adjudicated. NOTE: We submitted a request to see all adjudicated ballot originals (folded ballots) and the replacement ballots. *More detailed records requests being made to pinpoint the exact records in more detail and Court order is next step.*

ALMOST 50 percent of Bidens votes (64,609 out of 132,528) WERE MAIL IN BALLOTS of which were from adjudicated ballots. Note: Records requests were made. *More detailed records requests being made to pinpoint the exact records in more detail and Court order is next step.*

corrective or remedial action, and interest earned or that may have been earned.

B. Audit Requirements for Federal Financial Assistance

Audit Requirements for Awards of State and Federal Financial Assistance (Form DFS-A2-CL), (Attachment D), entitled is incorporated herein and made a part of this agreement. Upon ascertainment of the total Sub-recipient grant amount, the form will be finalized to be Sub-recipient specific.

Additional guidance to state and federal monitoring and auditing requirements may be found at <https://www.eac.gov/payments-and-grants/audits-resolutions>.

X. Record Retention

A. Maintenance of records.

The Sub-recipient shall retain accurate and detailed records sufficient to demonstrate its compliance with the terms of this agreement for five fiscal years from the date an audit report is issued. The Sub-recipient shall allow the Department or its designee, CFO, or Auditor General or auditor access to such records, including access to the audit working papers during such period unless otherwise extended.

B. Property Inventory

The Sub-recipient must also maintain appropriate property inventory. Inventory is required for property with a cost or value of \$5,000 or more (effective July 1, 2020) at the time of acquisition in the applicable fiscal subgrant year. Federal regulations (2 CFR 200.313(d)(1)) state that "property records MOA#2021-001 - SEM

Right By Your Side specializes in NEMT (Non-Emergency Medical Transportation) for wheelchair accessible and stretcher bound patients. RBYS provides transportation throughout Central Florida from and to Hospitals, medical appointments and personal outings. We also offer long distance transportation based on our client's need.

"Satisfaction of our clients is paramount, as we are committed to being Right By Your Side".

Having worked in different capacities in the financial institutions, I bring a gamut of senior leadership experience in Client Relationship, Complaints Management, Operations, Investment & Insurance, Retail Banking, Call Center, Client Experience, Telesales and Retention. My previous employment was with Citibank Dubai as a Senior VP.

I currently volunteer at the homeless shelter in Sanford, founded the Seniors Support Group and volunteer at various organizations. I am a Board member of Elderly Affairs Commission of Lake Mary, the American Muslim Partnership, East African Interest Group, Dar Al Arab, Interfaith Council of Central Florida and Outreach Director of Masjid Al Hayy.

I enjoy spending time on the golf course, playing badminton and engaging in outdoor activities that help me maintain a healthy social milieu.

PART II COMING SOON

- Records requests made and many more coming. Public record now. Will send to team.
- A complete storyboard of how the elections office was staffed including Canvassing board make up and hiring,
- Training and criteria used to change a ballot behind the scenes,
- Release of all mail in ballots to public square
- ELECTIONS OFFICE of Voter roll dereliction of duty by having thousands of names on voter rolls that pose security and safety risk to home owners by fraudulently saying a persons live at a home when in fact they absolutely do not. Homeowners shocked.
- Copies of all memos, emails, contracts with Canvassing board replacements.
- Copies of all ballots and adjudicated ballots. Lets match them and AND
- Use pen and ink forensic analysis of ballots sent in and the new replacement ballots.
- AND MORE STATS

ACTION NEEDED!

Congress has voted to give more power and money to the CDC to track your vaccination status! This is an infringement of our medical privacy and opens the door to vaccine passports and further discrimination of the unvaccinated!

Go to the website below to find each House Republican in your state who voted for YEA to H.R. 550: Immunization Infrastructure Modernization Act of 2021:

<https://www.govtrack.us/congress/votes/117-2021/h388>

Here are the 5 out of 27 House Republicans from FLORIDA who voted YEA:

1. FL 2nd: Dunn, Neal
(202) 225-5235;
(850) 785-0812;
(850) 891-8610

<https://dunn.house.gov/email>

2. FL 12th: Bilirakis, Gus

(202) 225-5755; (727)232-2921;
(727) 232-2921

<https://bilirakis.house.gov/zip-code-lookup?form=/contact/email>

3. FL 25th: Diaz-Balart, Mario

(202) 225-4211;

(305) 470-8555;

(239) 348-1620

https://mariodiazbalart.house.gov/address_authentication?form=/contact-mario

4. FL 26th: Gimenez, Carlos

(202) 225-2778;

(305) 222-0160;

(305) 222-0160;

(305) 292-4485

<https://gimenez.house.gov/contact>

5. FL 27th: Salazar, Maria

(202) 225-3931;

(305) 668-2285

<https://salazar.house.gov/contact>

Floridians, please call and/or email them, see the contact information above; and let the voices of We the People be heard that they did not represent the will of We the People to do the right things for We the People.

The citizens and residents in other states, please go find the contacts of your House Republicans who voted YEA to H.R. 550 from the link above.

Thank you!

Everything is down in Florida!

New Covid-CCP cases in Florida are down 88%.
 Hospitalizations in Florida are down 81% in the past month and a half.
 Amazingly, this is with no new policy interventions, no vaccine passports and no mask mandates.

Mainstream Media SILENT After Florida Reports 3rd Lowest Rate Of Covid Infection

QUOTE: The media took great joy in seeing the Florida Covid spike over the summer, but now they are being eerily quiet.

It felt like Florida was the top news story every evening on the left-wing networks as they slammed Ron DeSantis for doing a "poor job". Funny enough, whenever covid spikes hit blue states, the media kept their mouths shut.

Now, however, they're being silent about Florida because they have just reached the 3rd lowest rate of infection in the United States.

According to The New York Times Covid map, Florida's case rate per 100,000 people over the last week was 13, which is third behind Connecticut and Hawaii.

Will Ron DeSantis Save Christmas?

Last week, the Florida Ports Council put out a press release telling shippers that the state's ports are open, staffed, and ready for business. "Florida is where your success comes in, and our seaports are the solution to ensure the cargo shipping logjam doesn't become the grinch that stole Christmas," said Florida Ports Council President and CEO Michael Rubin. He added, "With inflation growing, shipping and manufacturing industries can save time and money by calling on Florida ports. Why pay to moor off the coast of California, when Florida shipping lanes are open and serving as the gateway for getting goods to America's market?"

Thanks to Governor Ron DeSantis, Florida is well-positioned to serve as part of the supply chain solution. Earlier this year, Governor DeSantis infused Florida's 15 seaports with \$250 million in stimulus relief to help offset the impacts experienced as a result of the pandemic. This stimulus is in addition to other port infrastructure and connectivity investments made in Florida to increase our capacity and ability to move cargo and passengers around the world – Florida continues to invest in the infrastructure to become the pier to the world. Miami, Florida, has opened its arms to tech companies fleeing California. Residents of the Golden State flocked to Florida in 2020 in numbers not seen previously. Maybe cargo ships will be next. Governor Ron DeSantis made some real infrastructure investments to upgrade Florida's ports. Let's see if they pay off and save Christmas for everyone.

Kelli Ward on AZ Audit: 'Full Canvass' of 'Every State Needs to Be Done'

You may read the full article by [clicking this link](#).

CANVASS ALL 50 STATES

If you are interested in getting involved in canvassing in your state, obtain your state's voter registration data for the Nov 3, 2020 election in addition to any other voter registration historical data you can obtain. Then email defend@defendflorida.org stating what voter roll data you and what state you live in.

FLORIDA CANVASSING RESULTS

Defend Florida Canvassing Summary as of Sept. 29, 2021

1. Based on our canvass sample, we estimate **1,560,280** Phantom Votes were cast in Florida's Nov 2020 election.
2. Our voter rolls are filled with Ghost registrations that could become Phantom Votes in 2022.
3. Major changes must be made in our election & voter registration process to ensure only legal votes count.

FLORIDA CANVASSING RESULTS

Defend Florida Canvassing Summary as of Sept. 21, 2021

1. Based on our canvass sample, we estimate **1,560,280** Phantom Votes were cast in Florida's Nov 2020 election.
2. Our voter rolls are filled with Ghost registrations that could become Phantom Votes in 2022.
3. Major changes must be made in our election & voter registration process to ensure only legal votes count.

DEFEND FLORIDA CANVASSING RESULTS AS OF 9/21/2021

DEFEND FLORIDA AFFIDAVIT DETAIL AS OF 9/21/21

Key Terms:

PHANTOM VOTE—A VOTE cast where the registered voter was deceased, did not live at the registered address or where the registered address was not a residential address.

GHOST REGISTRATION—A registered voter who is deceased, does not live at the registered address or where the registered address is not a residential address (**did not vote** Nov 2020).

VERIFIED REGISTRATION—A voter registration where the registered voter is confirmed to live at the registered address.

Subject: Biden Blocks Life-Saving Covid Treatment. Arizona 2020 Election Audit Results Coming This Week!

Can't read or see images? [View this email in a browser](#)

BIDEN BLOCKS LIFE-SAVING TREATMENT FOR COVID!

When Joe Biden's Health and Human Services made the announcement earlier this month ([LINK](#)) that they were taking full control over Monoclonal Antibody drugs (mAb) in order to begin rationing the highly effective treatment for COVID-19 infection, several people sounded alarm bells as there was the potential for rationing of COVID treatment based on political ideology.

You may read the full article by [clicking this link](#).

ARIZONA 2020 ELECTION AUDIT RESULTS DUE THIS WEEK

Arizona Senator Wendy Rogers confirms that the results of the Arizona 2020 Election will be presented during a hearing on this coming Friday, September 24. This was due in large part to an agreement reached between the Arizona State Senate and Maricopa County for information still outstanding.

Many feel that the results will propel similar efforts in other states and is generally viewed as an inflection point in ongoing investigations occurring nationwide. You may read the full article by [clicking this link](#).

AND THE BORDER CRISIS CONTINUES TO WORSEN

In yet another example of the ineptitude and corruption of the Biden Administration, the Immigration crisis along our southern border continues to worsen. In fact, the current Chief of the US Border Patrol - Raul Ortiz - admitted that “we’ve never seen a migration population explode so quickly on the immediate border like we saw over the last 72 hours.” You may read the full article [here](#).

Throngs of illegal immigrants are seen openly bathing and washing clothes in the waters outside of Del Rio, Texas as their numbers swelled to 14,000 from 4,000 on Wednesday. Click [here](#) for the full article.

Subject: Our Nation Will Never Forget

Can't read or see images? [View this email in a browser](#)

NEVER FORGET

**Will you trade your FREEDOM for CONVENIENCE?
We Will Never Forget**

Never Forget

20 years ago, on this very day, one event changed the course of this nation forever. The deadliest terrorist attack on American soil struck the heart of New York City, the Pentagon and Shanksville, PA. The Twin Towers, along with nearly 3,000 American lives, were reduced to piles of rubble, concrete and ashes. They went to bed the night before, not knowing it would be their last. Millions and millions of American lives were changed that day, and hundreds of thousands of brave men and women found themselves fighting in a foreign country for the next 20 years. Many of these heroes never made it home to their loved ones, just like the heroic first responders on that heart-

wrenching day.

We will *never* forget. We will *always* remember.

Defend Florida 8-Point Plan for Returning Power to the People

Defend Florida has learned from the results of the Maricopa, AZ audit and our canvassing efforts in Florida and throughout the country that ABSENTEE BALLOTS are the #1 source of voter fraud. We have developed an 8-point Plan for securing our future elections (see below). This plan includes drastically limiting ABSENTEE BALLOTS. We have met with several key Florida state legislators and our proposals have all been warmly received with the exception of severe limitations on ABSENTEE BALLOTS. Our elected representatives think We The People are more concerned about the convenience of these ballots than the loss of Liberty that they represent. Please let you state representatives and your local Supervisor of Elections know that you will **NOT SACRIFICE YOUR FREEDOM FOR THE CONVENIENCE OF AN ABSENTEE BALLOT. PLEDGE TO VOTE IN PERSON!**

DEFEND FLORIDA 8-POINT PLAN FOR RETURNING POWER TO THE PEOPLE:

- 1. Election day is a STATE HOLIDAY - ONE DAY, ONE VOTE. NO EARLY VOTING.**
- 2. VOTE IN-PERSON with very limited exceptions. All absentee ballots (exceptions) require a NOTARIZED signature.**
- 3. SMALL PRECINCTS of less than 1,000 voting age adults per precinct.**
- 4. The Voters in a precinct can initiate a hand-counted AUDIT of all ballots for all the races in that precinct with a petition signed by 8% of the precinct's voters.**
- 5. All ballots will be printed on securitized BALLOT PAPER and provided by the state to the counties for printing ballots.**
- 6. State issued ID is required for IN-PERSON VOTING. Absentee ballots must be notarized.**
- 7. A mandatory examination of the voter rolls and purge of identified ILLEGITIMATE voters within a precinct is initiated by a petition signed by 8% of PRECINCT VOTERS.**
- 8. Utilize Help Americans Vote Act (HAVA) funding for notaries, precinct audits and precinct voter roll cleanup.**

This plan gives **POWER BACK TO THE PEOPLE**. It allows the voters within a precinct to **CONTROL** the voting process and gives them a **DIRECT** method of

auditing the ballots when a **LACK of CONFIDENCE** in the results of an election occurs.

The graphic features a large, stylized arch in red and blue. The text "DON'T SACRIFICE" is in blue, "FREEDOM" is in blue, and "For the CONVENIENCE of" is in red. To the right is an image of a blue mailbox labeled "MAIL-IN VOTING ELECTION 2020" with several virus icons floating above it. A red dashed line is positioned below the graphic.

Citizenship Day

September 17 is Citizenship Day.

Citizenship Day commemorates the formation and signing on September 17, 1787, of the Constitution and recognizes all who, by coming of age or by naturalization, have become citizens.

The President may issue each year a proclamation calling on United States Government officials to display the flag of the United States on all Government buildings on Citizenship Day and inviting the people of the United States to observe Citizenship Day, in schools and churches, or other suitable places, with appropriate ceremonies.

The civil and educational authorities of States, counties, cities, and towns are urged to make plans for the proper observance of Citizenship Day and for the

Citizenship Day commemorates the formation and signing on September 17, 1787, of the Constitution and recognizes all who, by coming of age or by naturalization, have become citizens.

The President may issue each year a proclamation calling on United States Government officials to display the flag of the United States on all Government buildings on Citizenship Day and inviting the people of the United States to observe Citizenship Day, in schools and churches, or other suitable places, with appropriate ceremonies.

The civil and educational authorities of States, counties, cities, and towns are urged to make plans for the proper observance of Citizenship Day and for the complete instruction of citizens in their responsibilities and opportunities as citizens of the United States and of the State and locality in which they reside.

Constitution Week

The President is requested to issue each year a proclamation designating September 17 through September 23 as Constitution Week; and inviting the people of the United States to observe Constitution Week, in schools, churches, and other suitable places, with appropriate ceremonies and activities.

How to respond to an employer who is requiring employees to take the vaccine.

"I write with regard to the matter of potential covid vaccine and my desire to be fully informed and appraised of ALL facts before going ahead.

I'd be most grateful if you could please provide the following information, in accordance with statutory legal requirements:

- Can you please advise me of the approved legal status of any vaccine and if it is experimental?
- Can you please provide details and assurances that the vaccine has been fully, independently and rigorously tested against control groups and the subsequent outcomes of those tests?
- Can you please advise of the full list of contents of the vaccine I am to receive and if any are toxic to the body?
- Can you please fully advise of all the adverse reactions associated with this vaccine since it's introduction?
- Can you please confirm that the vaccine you are advocating is NOT 'experimental mRNA gene altering therapy'?
- Can you please confirm that I will not be under any duress from yourselves as my employers, in compliance with the Nuremberg Code?
- Can you please advise me of the likely risk of fatality, should I be unfortunate to contract Covid 19 and the likelihood of recovery?

Once I have received the above information in full and I am satisfied that there is NO threat to my health, I will be happy to accept your offer to receive the treatment, but with certain conditions – namely that:

- You confirm that I will suffer no harm.
- Following acceptance of this, the offer must be signed by a fully qualified doctor who will take full legal and financial responsibility for any injuries occurring to myself, and/or from any interactions by authorized personnel regarding these procedures.
- In the event that I should have to decline the offer of vaccination, please confirm that it will not compromise my position and that I will not suffer prejudice and discrimination as a result?
- I would also advise that my inalienable rights are reserved."

How to respond to an employer who is requiring employees to take the vaccine.

"I write with regard to the matter of potential covid vaccine and my desire to be fully informed and appraised of ALL facts before going ahead.

I'd be most grateful if you could please provide the following information, in accordance with statutory legal requirements:

- Can you please advise me of the approved legal status of any vaccine and if it is experimental?
- Can you please provide details and assurances that the vaccine has been fully, independently and rigorously tested against control groups and the subsequent outcomes of those tests?
- Can you please advise of the full list of contents of the vaccine I am to receive and if any are toxic to the body?
- Can you please fully advise of all the adverse reactions associated with this vaccine since it's introduction?
- Can you please confirm that the vaccine you are advocating is NOT 'experimental mRNA gene altering therapy'?
- Can you please confirm that I will not be under any duress from yourselves as my employers, in compliance with the Nuremberg Code?
- Can you please advise me of the likely risk of fatality, should I be unfortunate to contract Covid 19 and the likelihood of recovery?

Once I have received the above information in full and I am satisfied that there is NO threat to my health, I will be happy to accept your offer to receive the treatment, but with certain conditions – namely that:

- You confirm that I will suffer no harm.

mRNA and produce the SARS-CoV-2 spike protein) or to characterize the SARS-CoV-2 spike protein. The non-replicating viral vector vaccine produced by Johnson & Johnson required the use of fetal cell cultures, specifically PER.CG, in order to produce and manufacture the vaccine.

This mechanism for altering my God given body is the equivalent of a prohibited "unclean food" that causes harm to my conscience. Covid-19 vaccines to me are unclean. I believe in and follow God and the principles laid out in His Words and I have a deeply held belief that these vaccines violate them.

I make this request for the glory of God and consistent with my faith.

Ron

We are going to be doing an online training on the following topics, however trainers are getting booked fast. As much as we would like to do all of them, we can only do three. Reply with your top 3 so we can book a trainer.

(Reply with letters only - no more than 3 - Thank you)

- A) How to identify phantom voters (people who your state said voted but actually did not) by canvassing

- B) How to do FOIA requests (FOIA is Freedom of Information Act) to ask your officials to disclose, in writing, their records regarding their election information

- C) How to stop your school boards from illegally forcing the vaccine and or masks

- D) How to fight back against being fired for not taking the vaccine

- E) How to stop being censored by Big Tech

- F) How to get your elected officials to stop ignoring you

Thank you for Defending Our Union

Exemption

religious exemptions with downloadable letters here:

[sfrontlinedoctors.org/religious/](https://www.frontlinedoctors.org/religious/)

Exemption to Vaccine Based on the New Testament

y right to a religious exemption from vaccination. I am a Christian who believes in the Bible, including the teaching

Covid-19 vaccines because I believe in and follow God and the principles laid out in His Words and I have a deeply held belief that

that all human beings are image bearers of God, and this concept affirms the unique value of all human life. "Thou shalt not murder" (Ex. 20:13), I believe that abortion is gravely wrong at every stage. Furthermore, I believe a human being is made in the image and likeness of God by our loving Heavenly Father. He created it as a tabernacle for our spirit to assist each of us in our quest to fulfill His purpose for our creation. Specifically, the New Testament teaches that: "Don't you know that you yourselves are God's temple and that God's Spirit dwells in you?" (1 Corinthians 3:16) "If anyone destroys God's temple, God will destroy that person; for God's temple is sacred, and you are that temple" (1 Corinthians 3:17).

Moderna COVID-19 vaccines in early development of mRNA vaccine technology used fetal cells for "proof of concept" (to take up mRNA and produce the SARS-CoV-2 spike protein) or to characterize the SARS-CoV-2 spike protein. The non-replicating mRNA vaccine produced by Johnson & Johnson required the use of fetal cell cultures, specifically PER.CG, in order to produce and test the vaccine.

For altering my God given body is the equivalent of a prohibited "unclean food" that causes harm to my conscience and makes me unclean. I believe in and follow God and the principles laid out in His Words and I have a deeply held belief that

is consistent for the glory of God and consistent with my faith.

FLORIDA ELECTION INTEGRITY

VERIFICATION HIT RATE

Interation	Total	%
Doesn't Live In Address	567	60%
Deceased	39	4%
Not a Residential Address	147	16%
Voter Lives at Address	186	20%
	939	100%

is canvassing in Florida using Bobby Piton’s algorithm and Seth Keshel’s targets. We have generated phantom voters, deceased voters or voters registered at addresses that are not residential.

the canvassing teams throughout the state, and we have a goal of gathering 5,000 affidavits by September.

DeSantis is vulnerable in 2022. We must clean our voter rolls prior to the 2022 election! We are screaming for audits just like the rest of the country, but we need to prove we have a problem to get RINOS to move on the issue.

Please join the canvassing effort here:

THE WALKING DEAD DEFEAT DESANTIS? 700,000 REASONS TO TH

ntis' ever increasing popularity, re-election in 2022 appears to be a foregone conclusion. T
as the gold standard of the country ... but are they? The bar is exceedingly low, given the
anomalies in Michigan, Wisconsin, Georgia, Pennsylvania, and other states.

grassroots organization committed to ensuring free and fair elections, canvassed 14 of Florida's counties to identify 2020 voter roll anomalies such as:

- voters who did not vote in over eight years.
- voters who should have been removed by law in 2017.
- voters who no longer live at registration address.
- voters who were deceased.
- addresses that were not residential addresses.

Concerning electronic voting systems vulnerabilities, concerned Floridians are pressing their representatives to get staunch opposition from Laurel M. Lee, Secretary of State and Maria Mathews, Division of Elections, and receiving a \$200,000 grant from the Zuckerberg funded nonprofit Center for Technology Policy.

She was asked to replace his original choice, Mike Ertel. She was a former Hillsborough County Circuit Judge.

A republic must not only be so in its principles but in its form. Thomas Paine
The lower case u in united is purposeful. In the original Declaration of Independence, the Founding Fathers used a lower case “u” in united – and even made the letters much smaller than “States”. This is because we were declaring our independence as 13 individual sovereign states, not as a monolithic new country.

American History Moment

How do you get the People to unite and nullify liberty-defeating acts by a tyrannous government? What about how our forefathers did it with the Loyal Nine. Note: Although their actions were radical they had almost no opposition. How did they accomplish that?

July 18 NATIONAL DAY OF PRAYER & FASTING

[Listen to Recording Here](#)

Common Sense Summit

48 speakers come right to your living room - no flying, vaccine, or mask needed.

48 speakers on the corporation fraudulently operating as the United States of America since 1871. Numerous authors speaking about threats to our freedoms, the environment, and censorship.

Defend Florida

Brilliant speakers explaining Common Law.

Speakers like Kent Heckenlively who has three top-selling books being released this month!

Speakers with global audiences of thousands (millions in some cases) sharing personal stories like F. R. Leavis, Sacha Stone, and Martin Geddes.

here:

commonsensesummit.com

What Roger Leahy, owner of the Overland Sheepskin company has said:

"This is the best deal ever, I get to watch 48 speakers, virtually all of whom I would travel to go hear, and I can view their presentations any time I want from the comfort of my living room, all for \$10. That is incredible, the VIP pass is the way to go."

le of the speakers:

e Wetherington

Our Union/Defend Florida

aker is the co-founder of Defend Our Union and Defend Florida, organizations that are uniting various grassroots groups dedicated to saving our constitutional republic. She explains how powerful we can be if we are united, and the importance of making it a nationwide effort.

erri Tenpenny

ccines And Masks Necessary

ple Board Certified, Osteopathic M.D. with well over 40,000 hours of research on the adverse impacts of vaccines can have on health, explains what the Covid shot and wearing masks are doing to our bodies. She will detail for us what happens to our immune system if we take the job.

Richard Mack

Constitutional Sheriff

Mack, of the Mack-Prinz Supreme Court decision, explains the authority of the county sheriff and the impact of the Supreme Court victory and his launching of the Constitutional Sheriffs and Peace Officers Association.

Chamberlain

How to Win Successful Grass Roots Activism

Chamberlain teaches us how to defend our eternally valid principles of liberty from radical communist/socialist forces. She shows us how we overcome the 11 principles of the "Rules for Radicals" by Alinsky and defeat those who want to destroy our freedoms, a legacy envied by the world.

John Keyes

Structure of America

Keyes, former ambassador, and U.S. Presidential candidate, discusses the current state of affairs in America and how to fix them. He will include the lust for power, critical race theory, slavery, and his view of America's future.

ewman

School To Save Your Children

Author of "Crimes of the Educators" explains why homeschooling can work for any family. His argument that this movement will save our country is compelling. In the last 15 months, the number of homeschooled children has doubled!

Important Reminder:

July 18th, 2021

Join us in Prayer and Fasting this Sunday, July 18. Our founders dedicated this land to be ONE NATION UNDER GOD. We have forgotten this promise. To return to God's favor, we must, as a nation, repent and humble ourselves. Pray for forgiveness, God's favor and grace and revival of the spirit of God.

There will be a National Prayer line open for you to join us in prayer.

8am to 10pm EST

Special Prayer Leaders include Dr Alveda King, General Michael Flynn, Mary Flynn, Joe Flynn, Christie Hutcherson (Women Fighting for America), Dr Eric Nepute, Dr. Sherri Tenpenny, Alex Newman, Dr. Linda Lee Tarver, Bianca Garcia (Latinos for America First) and more!

"A republic must not only be so in its principles but in its form." -Thomas Paine

The lower case u in united is purposeful. In the original Declaration of Independence, the Founding Fathers used a lower case "u" in united – and even made the letters much smaller than "States". This is because we were declaring our independence as 13 individual sovereign states, not as a monolithic new country.

Subject: Charts showing a concerted attack and effort by the Dems across the entire state to steal the 2020 election and the Navarro Report showing all the types of fraud, many of which were no doubt replicated in Florida, used in the battleground states.

Attachments: The Navarro Report Vol I, II, III - Feb. 2, 2021.pdf; FLORIDA 2020 ELECTION INVESTIGATIVE REPORT.pdf; Charts.xlsx

Todd,

Nadeen referred me to the attached Navarro Report. The logic here is that: This comprehensive report shows what the Dems were doing in other states, stealing votes and stealing the election. You are making the argument that there is significant voting fraud based on your numerical analysis of the number of registered voters, the number of people who voted, and the population figures comparing 2016 to 2020. The fraud that you are suggesting in your attached Florida 2020 Election Investigative Report could easily be explained by any number of the things that the Democrats did in these other states as shown in this report. If the Democrats had only done a fraction of the things that they did in other states, they would have had a substantial impact on the election and would, in fact, have won had their fraud not been overwhelmed by the Trump wave.

Here are several graphs from your data, that I am suggesting you use, showing the highlights of your report (Note that it does not include numbers of votes. As you said the total vote impact, as I recall, was 187,000 for your ten worst counties). I have also added the chart showing the incredible number of absentee ballots for Orange County and a chart showing the Trump Margin of Victory in the top 14 counties ranked by total votes (Which isn't actually a margin of victory because Trump got slaughtered

in the top 14 counties). All of these charts show a concerted attack and effort by the Dems across the entire state to steal the 2020 election.

Note that Duvall shows a negative increase for Republicans. Since Trump got 210K votes in 2016 and 234K votes in 2020, I assume that what you are saying is that the number of Republicans who voted actually decreased even though the total number of Trump votes increased because he got NPA and even some Dem voters.

The most logical explanation for the increase in Dem voters is absentee ballots. Here is a chart about that from Orange County:

Absentee Ballots for Orange County By Precinct

- About 45% of all ballots are absentee
- Orange line is Republicans: Average is 10%
- Blue line is Dems: Average is 22%, more than twice the Republicans.
- Area on the far right of the charts is black precincts.

Here is a chart for the Top 14 counties, ranked by total vote count. These numbers are pretty incredible and strongly suggest considerable fraud, especially in Orange and Broward counties:

Trump Margin of Victory in Votes for the Top 14 Counties Ranked by Total Votes
(Trump lost Broward by 285,343 votes and Orange by 149,616 votes)

FR GOV-22-0457-A-000270

A NOTE FROM THE AUTHOR

On January 13, 2021, the Democrat-controlled House of Representatives passed House Resolution 24 “impeaching Donald John Trump, President of the United States, for high crimes and misdemeanors.” A primary justification for this overwhelmingly partisan impeachment is that “President Trump repeatedly issued false statements asserting that the Presidential election results were the product of widespread fraud and should not be accepted by the American people or certified by State or Federal officials.”

If it can be demonstrated that President Trump had a good faith belief that the November 3, 2020 Presidential election results were, indeed, the poisonous fruit of widespread fraud and election irregularities, POTUS45 must not only be found Not Guilty. The U.S. Senate must also call for a prompt investigation of these alleged irregularities.

The three volumes of the Navarro Report provide just such a demonstration. These three volumes have been consolidated herein into a single document explicitly designed as a useful evidentiary handbook and reference guide for the upcoming Senate impeachment trial.

Evidence used in the preparation of the Navarro Report includes more than 50 lawsuits and judicial rulings, thousands of affidavits and declarations, testimony in a variety of state venues, published analyses by think tanks and legal centers, videos and photos, public comments, and extensive press coverage.

Volume One finds significant election irregularities across six key battleground states – Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin. These irregularities range from outright voter fraud, ballot mishandling, and contestable process fouls to Equal Protection Clause violations, voting machine irregularities, and significant statistical anomalies.

Volume Two examines a two-pronged Grand “Stuff the Ballot Box” Strategy used by the Democrat Party and its political operatives to flood the battleground states with enough illegal absentee and mail-in ballots to turn a decisive Trump victory into a narrow, and arguably illegitimate, Biden “win.” To strategically game the Presidential election, the Democrats and their operatives were found to have at times bent or broken both election rules and laws.

Volume Three provides the most up-to-date statistical “receipts” with respect to the potential number of illegal votes cast in each battleground state. Volume III thereby provides investigators with a well-documented tally of potentially illegal votes on a state-by-state and category-by-category basis. A key finding is that the number of potentially illegal votes dwarfs the very thin alleged Biden “victory” margins across all six battleground states.

To read this report is to understand at a granular and evidentiary level why the impeachment charges against President Donald J. Trump must not only be dismissed. These highly partisan charges are absurd on their face and an affront to the more than 74 million patriotic Americans who voted for President Trump.

THE IMMACULATE DECEPTION:

Six Key Dimensions of Election Irregularities

Volume One of the Navarro Report

Executive Summary

This report assesses the fairness and integrity of the 2020 Presidential Election by examining six dimensions of alleged election irregularities across six key battleground states. Evidence used to conduct this assessment includes more than 50 lawsuits and judicial rulings, thousands of affidavits and declarations,¹ testimony in a variety of state venues, published analyses by think tanks and legal centers, videos and photos, public comments, and extensive press coverage.

The matrix below indicates that significant irregularities occurred across all six battleground states and across all six dimensions of election irregularities. This finding lends credence to the claim that the election may well have been stolen from President Donald J. Trump.

	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
Outright Voter Fraud	✓	✓	*	✓	*	✓
Ballot Mishandling		✓	✓	✓	✓	✓
Contestable Process Fouls	✓	✓	✓	✓	✓	✓
Equal Protection Clause Violations	✓	✓	✓	✓	✓	✓
Voting Machine Irregularities	✓	✓	✓	✓	✓	*
Significant Statistical Anomalies	✓	✓	✓	✓		✓

✓ = Wide-Spread Evidence * = Some Evidence

From the findings of this report, it is possible to infer what may well have been a coordinated strategy to effectively stack the election deck against the Trump-Pence ticket. Indeed, the observed patterns of election irregularities are so consistent across the six battleground states that they suggest a coordinated strategy to, if not steal the election outright, strategically game the election process in such a way as to “stuff the ballot box” and unfairly tilt the playing field in favor of the Biden-Harris ticket. Topline findings of this report include:

- The weight of evidence and patterns of irregularities are such that it is irresponsible for anyone – especially the mainstream media – to claim there is “no evidence” of fraud or irregularities.
- The ballots in question because of the identified election irregularities are more than sufficient to swing the outcome in favor of President Trump should even a relatively small portion of these ballots be ruled illegal.

- All six battleground states exhibit most, or all, six dimensions of election irregularities. However, each state has a unique mix of issues that might be considered “most important.” To put this another way, all battleground states are characterized by the same or similar election irregularities; but, like Tolstoy’s unhappy families, each battleground state is different in its own election irregularity way.
- This was theft by a thousand cuts across six dimensions and six battleground states rather than any one single “silver bullet” election irregularity.
- In refusing to investigate a growing number of legitimate grievances, the anti-Trump media and censoring social media are complicit in shielding the American public from the truth. This is a dangerous game that simultaneously undermines the credibility of the media and the stability of our political system and Republic.
- Those journalists, pundits, and political leaders now participating in what has become a Biden Whitewash should acknowledge the six dimensions of election irregularities and conduct the appropriate investigations to determine the truth about the 2020 election. If this is not done before Inauguration Day, we risk putting into power an illegitimate and illegal president lacking the support of a large segment of the American people.
- The failure to aggressively and fully investigate the six dimensions of election irregularities assessed in this report is a signal failure not just of our anti-Trump mainstream media and censoring social media but also of both our legislative and judicial branches.
 - Republican governors in Arizona and Georgia together with Republican majorities in both chambers of the State Legislatures of five of the six battleground states – Arizona, Georgia, Michigan, Pennsylvania, and Wisconsin² – have had both the power and the opportunity to investigate the six dimensions of election irregularities presented in this report. Yet, wilting under intense political pressure, these politicians have failed in their Constitutional duties and responsibilities to do so – and thereby failed both their states and this nation as well as their party.
 - Both State courts and Federal courts, including the Supreme Court, have failed the American people in refusing to appropriately adjudicate the election irregularities that have come before them. Their failures pose a great risk to the American Republic.
- If these election irregularities are not fully investigated prior to Inauguration Day and thereby effectively allowed to stand, this nation runs the very real risk of never being able to have a fair presidential election again – with the down-ballot Senate races scheduled for January 5 in Georgia an initial test case of this looming risk.

I. Introduction

At the stroke of midnight on Election Day, President Donald J. Trump appeared well on his way to winning a second term. He was already a lock to win both Florida and Ohio; and no Republican has ever won a presidential election without winning Ohio while only two Democrats have won the presidency without winning Florida.³

At the same time, the Trump-Pence ticket had substantial and seemingly insurmountable leads in Georgia, Pennsylvania, Michigan, and Wisconsin. If these leads held, these four key battleground states would propel President Trump to a decisive 294 to 244 victory in the Electoral College.

Shortly after midnight, however, as a flood of mail-in and absentee ballots began entering the count, the Trump red tide of victory began turning Joe Biden blue. As these mail-in and absentee ballots were tabulated, the President's large leads in Georgia, Pennsylvania, Michigan, and Wisconsin simply vanished into thin Biden leads.

At midnight on the evening of November 3, and as illustrated in Table 1, President Trump was ahead by more than 110,000 votes in Wisconsin and more than 290,000 votes in Michigan. In Georgia, his lead was a whopping 356,945; and he led in Pennsylvania by more than half a million votes. By December 7, however, these wide Trump leads would turn into razor thin Biden leads – 11,779 votes in Georgia, 20,682 votes in Wisconsin, 81,660 votes in Pennsylvania, and 154,188 votes in Michigan.

Table 1: A Trump Red Tide Turns Biden Blue

	GEORGIA	PENNSYLVANIA	MICHIGAN	WISCONSIN
Trump Lead Midnight 11/3	356,945	555,189	293,052	112,022
Biden "Lead" 12/15	11,779	81,660	154,188	20,682

Sources: Associated Press & Edison/Decision Desk HQ
*Midnight based on state's time zone

There was an equally interesting story unfolding in Arizona and Nevada. While Joe Biden was ahead in these two additional battleground states on election night – by just over 30,000 votes in Nevada and less than 150,000 votes in Arizona – internal Trump Campaign polls predicted the President would close these gaps once all the votes were counted. Of course, this never happened.

In the wake of this astonishing reversal of Trump fortune, a national firestorm has erupted over the fairness and integrity of one of the most sacrosanct institutions in America – our presidential election system. Critics on the Right and within the Republican Party – including President Trump himself – have charged that the election was stolen. They have backed up these damning charges with more than 50 lawsuits,⁴ thousands of supporting affidavits and declarations, and seemingly incriminating videos, photos, and first-hand accounts of all manner of chicanery.⁵

Critics on the Left and within the Democrat Party have, on the other hand, dismissed these charges as the sour grapes of a whining loser. Some of these critics have completely denied any fraud, misconduct or malfeasance altogether. Others have acknowledged that while some election irregularities may have existed, they strenuously insist that these irregularities are not significant enough to overturn the election.

There is a similar Battle Royale raging between large anti-Trump segments of the so-called “mainstream” media and alternative conservative news outlets. Across the anti-Trump mainstream media diaspora – which includes most prominently print publications like the New York Times and Washington Post and cable TV networks like CNN and MSNBC – a loud chorus of voices has been demanding that President Trump concede the election.

These same anti-Trump voices have been equally quick to denounce or discredit anyone – especially anyone within their own circle – that dares to investigate what may well turn out to be THE biggest political scandal in American history. Social media outlets like Facebook, Twitter, and YouTube likewise have been actively and relentlessly censoring anyone who dares to call the results of the election into question.

In contrast, alternative news outlets, primarily associated with the American conservative movement, have provided extensive, in-depth coverage of the many issues of fraud, misconduct, and other irregularities that are coming to light. From Steve Bannon’s War Room Pandemic⁶ and John Solomon’s Just the News⁷ to Raheem Kassam’s National Pulse,⁸ to Newsmax,⁹ and One America News Network,¹⁰ Americans hungry for facts and breaking developments have been able to find such critical information only by following this alternative coverage.

That the American public is not buying what the Democrat Party and the anti-Trump media and social media are selling is evident in public opinion polls. For example, according to a recent Rasmussen poll: “Sixty-two percent (62%) of Republicans say it is ‘Very Likely the Democrats stole the election’” while 28% of Independents and 17% of Democrats share that view.¹¹

If, in fact, compelling evidence comes to light proving the election was indeed stolen after a *fait accompli* Biden inauguration, we as a country run the very real risk that the very center of our great American union will not hold.

To put this another way, if the greatest democracy in world history cannot conduct a free and fair election, and if much of the mainstream media of this country won’t even fully investigate what is becoming a growing mountain of evidence calling into question the election result, there is little chance that our democracy and this Republic will survive as we know it. It is therefore critical that we get to the bottom of this matter. That is the purpose of this report.

II. Six Dimensions of Election Irregularities across Six Battleground States

This report assesses the fairness and integrity of the 2020 presidential election across six key battleground states where the Democrat candidate Joe Biden holds a slim lead, and the results continue to be hotly contested. As documented in the extensive endnotes, the evidence used to conduct this assessment includes more than 50 lawsuits and judicial rulings, thousands of affidavits and declarations, testimony presented in a variety of state venues, published reports and analyses by think tanks and legal centers, videos and photos, public comments and first-hand accounts, and extensive press coverage.

From a review and analysis of this evidence, six major dimensions of alleged election irregularities have been identified and assessed on a state-by-state basis across six key battleground states: Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin. These six dimensions include outright voter fraud, ballot mishandling, contestable process fouls, Equal Protection Clause violations, voting machine irregularities, and significant statistical anomalies.

The matrix in Table 2 provides an overview of the presence or absence of each of the six dimensions of alleged election irregularities in each of the six battleground states. Column 1 lists each of the six dimensions along with the alleged Biden victory margin and the possible illegal ballots due to election irregularities. Columns 2 through 7 in the matrix then indicate the presence or absence of the election irregularities in any given state.

Note that a checkmark in matrix cell indicates there is *widespread* evidence in a given state for a particular dimension of election irregularity while a star indicates there is at least *some* evidence.

Table 2: 2020 Alleged Election Irregularities across the Six Battleground States

2020 Alleged Election Irregularities						
	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
Outright Voter Fraud	✓	✓	*	✓	*	✓

Equal Protection Clause Violations	✓	✓	✓	✓	✓	✓
Voting Machine Irregularities	✓	✓		✓	✓	*
Significant Statistical Anomalies	✓	✓	✓	✓		
Biden "Victory" Margin	10,457	12,670	154,188	33,596	81,660	20,682
Ballots in Question	>100,000	>400,000	>379,000	>100,000	>600,000	>200,000

✓ = Wide-Spread Evidence * = Some Evidence

Two key points stand out immediately from the matrix. First, significant irregularities appear to be ubiquitous across the six battleground states. Only Arizona is free of any apparent widespread ballot mishandling while only Pennsylvania lacks significant statistical anomalies. The rest of the matrix in Table 2 is a sea of checkmarks and occasional stars.

Second, if one compares the alleged Biden victory margin in Column 7 of the figure with the possible illegal ballots in Column 8, it should be clear that the number of possible illegal ballots dwarfs the alleged Biden victory margin in five of the six states.

For example, the alleged Biden victory margin in Nevada is 33,596 votes yet the number of ballots in question is more than three times that. In Arizona, which has the narrowest alleged Biden victory margin at 10,457 votes, there are nearly 10 times that number of possible illegal ballots; and the ratio of the alleged Biden vote lead to possible illegal ballots is even higher for Georgia.

Only Michigan is the exception to the rule. This is not because it is likely to be a true exception but simply because there remains insufficient estimates of how the various types of irregularities in Michigan translate into possible illegal votes.

Clearly, based on this matrix, the American people deserve a definitive answer as to whether this election was stolen from Donald J. Trump. Absent a thorough investigation prior to Inauguration Day, a cloud and a stain will hang over what will be perceived by many Americans as an illegitimate Biden administration.

The next six sections of this report examine in more detail each of the six dimensions of alleged election irregularities.

III. Outright Voter Fraud

Outright voter fraud ranges from the large-scale manufacturing of fake ballots, bribery, and dead voters to ballots cast by ineligible voters such as felons and illegal aliens, ballots counted multiple times, and illegal out-of-state voters. Table 3 provides an overview across the six battleground states of the various types of outright voter fraud that have been alleged to be present.

Table 3: Outright Voter Fraud in the 2020 Presidential Election

	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
Bribery	✓			✓		
Fake Ballot Manufacturing & Destruction of Legally Cast Real Ballots	✓	✓		*	*

Counting Ballots Multiple Times			*	*	*	✓
Illegal Out-of-State Voters	✓	✓		✓	*	

✓ = Wide-Spread Evidence * = Some Evidence

From the figure, we see that different types of fraud may be present in all six states. Let’s more precisely define each of these different types of fraud using examples that are designed to be illustrative rather than exhaustive.

Bribery

In a voter fraud context, *bribery* refers to the corrupt solicitation, acceptance, or transfer of value in exchange for official action, such as voter registration or voting for a preferred candidate.¹² At least in Nevada, there is a slam dunk case that such bribery occurred.

What is so stunning about the Nevada case is the brazen disregard for our federal bribery laws. In the Silver State, in an effort orchestrated by the Biden campaign, Native Americans appear to have traded their votes not for pieces of silver but rather for Visa gift cards, jewelry, and other “swag.”¹³ According to the Epoch Times, such vote buying schemes also may have occurred in eight other states, including Arizona and Wisconsin.¹⁴

Fake Ballot Manufacturing and Destruction of Legally Cast Real Ballots

Fake ballot manufacturing involves the fraudulent production of ballots on behalf of a candidate; and one of the most disturbing examples of possible fake ballot manufacturing involves a truck driver who has alleged in a sworn affidavit that he picked up large crates of ballots in New York and delivered them to a polling location in Pennsylvania.¹⁵ There may be well over 100,000 ballots involved, enough fake ballots alone to have swung the election to Biden in the Keystone State.

Likewise in Pennsylvania, there is both a Declaration and a photo that suggests a poll worker used an unsecured USB flash drive to dump an unusually large cache of votes onto vote tabulation machines. The resultant tabulations did not correlate with the mail-in ballots scanned into the machines.¹⁶

Arguably the most flagrant example of possible fake ballot manufacturing on behalf of Joe Biden may have occurred at the State Farm Arena in Atlanta, Georgia. The possible perpetrators were caught *in flagrante delicto* on surveillance video.

In one version of this story, poll watchers and observers as well as the media were asked to leave in the middle of the night after a suspicious water leak. Once the room was cleared, several election officials pulled out large boxes of ballots from underneath a draped table. They then proceeded to tabulate a quantity of fake manufactured ballots estimated to be in the range of tens of thousands.¹⁷ Note that a large surge in Biden votes following the tabulation of these ballots can be clearly observed after these votes were processed.¹⁸

Despite what appears to be damning evidence of a possible crime, a spate of stories appeared across the anti-Trump media diaspora dismissing any concerns. According to these whitewash stories, these were regular and authorized ballot boxes, observers in the media were not asked to leave but simply left on their own, and it is perfectly acceptable to count ballots in the absence of observers.¹⁹ Or so the spin goes.

Of course, this is precisely the kind of incident that should be fully investigated both by Georgia's Attorney General as well as by the Federal Department of Justice. Yet it remains unclear as to whether such investigations are underway. Meanwhile, the videotape itself, absent an adequate explanation, has contributed to the current climate of skepticism surrounding the fairness and integrity of the election.

Finally, as an example of the possible *destruction of legally cast real ballots* there is this allegation from a court case filed in the United States District Court for the District of Arizona: Plaintiffs claim that over 75,000 absentee ballots were reported as unreturned when they were actually returned. These absentee ballots were then either lost or destroyed (consistent with allegations of Trump ballot destruction) and/or were replaced with blank ballots filled out by election workers or other third parties.²⁰

Indefinitely Confined Voter Abuses

Indefinitely confined voters are those voters unable to vote in person because of old age or some disability. There are two types of possible abuses associated with such indefinitely confined voters.

The first kind of abuse involves exploiting the elderly or the infirm by effectively hijacking their identities and votes. For example, in Georgia, the family of an elderly man in a nursing home facility discovered that a mail-in ballot had been requested and submitted under his voter registration identity, yet it was done without his consent.²¹ In a similar situation in Pennsylvania, two parents and their daughter who has Downs Syndrome went to vote in person and discovered that a mail-in ballot had both been requested and submitted for the daughter without her consent.²²

The second kind of indefinitely confined voter abuse is far more consequential, at least in the state of Wisconsin. The key allegation here in several court filings is that “bad-faith voters” registering as “indefinitely confined” intentionally broke “Wisconsin election law to circumvent election integrity photo identification requirements.” In a nutshell, they were able to vote without showing a voter identification photo and therefore underwent a far less rigorous I.D. check than would otherwise have been conducted.

This abuse happened, according to one press account, after “clerks in Dane and Milwaukee counties offered illegal advice that encouraged individuals to use indefinite confinement as a way to ignore the state’s photo I.D. requirement.”²³ The Trump side has called this correctly an open invitation to fraud; and stories and pictures abound of Wisconsin voters who registered as indefinitely confined but were seen also attending weddings, riding their bikes, going on vacation, and otherwise be anything but confined.²⁴

Here is what is most important about this particular type of election fraud: In the wake of the expanded definition of indefinitely confined voters – a definition ruled legally *incorrect* by the Wisconsin Supreme Court²⁵ – the number of indefinitely confined voters surged from just under 70,000 voters in 2019 to over 200,000 in 2020.²⁶ This 130,000 vote increment of new indefinitely confined voters is more than five times the Biden victory margin in Wisconsin.

Ineligible Voters and Voters Who Voted in Multiple States

Ineligible voters include felons deemed ineligible, underage citizens, nonregistered voters, illegal aliens, illegal out-of-state voters, and voters illegally using a post office box as an address.²⁷

In a court filing by the Trump campaign legal team, lead counsel Ray Smith provided a list of more than 70,000 allegedly ineligible voters casting ballots in Georgia in the 2020 election.²⁸ Also in Georgia, over 20,000 people appear to have filed a Notice of Changed Address form to the Georgia state government or had other indications of moving out of state. Yet, these clearly ineligible out-of-state voters appeared to have remained on the voter rolls and voted in the 2020 election.²⁹

As additional data points regarding ineligible out-of-state voters, there are these: Between 80 and 100 self-proclaimed Black Lives Matter-affiliated members from other states have admitted to having voted in Pennsylvania.³⁰

As for those *voters who vote in multiple states*, one lawsuit claims that roughly 15,000 mail-in or absentee ballots were received in Nevada from voters who were known to have voted in other states.³¹ It is useful to note here that in Nevada, poll workers allegedly were not consistent in their procedures when checking voters in to vote about whether they accepted California or Nevada Voter Identification as proof of eligibility to register to vote.³²

Dead Voters and Ghost Voters

According to widespread evidence, there was a surprising number of ballots cast across several key battleground states by deceased voters, sparking one wag to quip, in reference to a classic Bruce Willis movie, this was the “Sixth Sense” election – I see dead people voting.

In Pennsylvania, for example, a statistical analysis conducted by the Trump Campaign matching voter rolls to public obituaries found what appears to be over 8,000 confirmed dead voters successfully casting mail-in ballots.³³ In Georgia – underscoring the critical role any given category of election irregularities might play in determining the outcome – the estimated number of alleged deceased individuals casting votes almost exactly equals the Biden victory margin.

In Michigan, according to one first-hand account offered in a declaration, computer operators at a polling location in Detroit were manually adding the names and addresses of thousands of ballots to vote tabulation systems with voters who had birth dates in 1900.³⁴ And in Nevada, a widower since 2017 saw that his deceased wife had successfully cast a mail-in ballot on November 2, 2020, three and a half years after her death.³⁵

It may be useful to note here that dead voters played a critical role in stealing the election from Richard Nixon, a theft orchestrated by Mayor Richard Daley and his Chicago political machine. According to one report “more than 3,000 votes [were] cast in the names of individuals who were dead, and more than 31,000 individuals voted twice in different locations in the city.” President Kennedy’s victory margin in Illinois was less than 9,000 votes.

On the Ghost Voter front, a “Ghost Voter” is a voter who requests and submits a ballot under the name of a voter who no longer resides at the address where that voter was registered. In Georgia for example, it is alleged that over 20,000 absentee or early voters – almost twice the Biden victory margin – cast their ballots after having moved out of state.³⁶ In Nevada, a poll worker reported that there were as many as 50 ballots per day being delivered to homes vacated by their former residents.³⁷

Counting Ballots Multiple Times

Counting ballots multiple times occurs most egregiously when batches of ballots are repeatedly rescanned and re-tabulated in electronic voting machines. It can also happen when the same person votes multiple times within the same day. Evidence of these particular kinds of “ballot stuffing” are present across all six battleground states.

For example, in Wisconsin, poll workers were observed running ballots through tabulation machines more than once.³⁸ In Wayne County, Michigan, Republican poll watchers observed canvassers re-scanning batches of ballots through vote tabulation machines up to 3 to 4 times.³⁹

In Pennsylvania, a poll worker observed a woman vote twice in the same day by changing her appearance.⁴⁰ Another poll worker observed people in voting lines in one corner of a polling location voting, and then coming to another polling location at the other side of the building to vote.⁴¹ Still another poll worker witnessed a woman voting twice at voting machines on Election Day.⁴²

IV. Ballot Mishandling

Ballot mishandling represents the second major dimension of alleged election irregularities in the 2020 presidential election. As Table 4 illustrates, this is a multifaceted problem across the battleground states. Let’s work our way through this figure starting with the failure to properly check the identification of voters.

Table 4: Ballot Mishandling in the Battleground States

	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
No Voter I.D. Check			*	*		✓
Signature Match Check Abuses		✓		✓	✓	
“Naked Ballots” Lacking Outer Envelope			*		✓	
Broken Chain of Custody & Unauthorized Ballot Handling or Movements		✓	✓	✓	✓	✓
Ballots Accepted Without Postmarks & Backdating of Ballots			*			*

✓ = Wide-Spread Evidence * = Some Evidence

No Voter I.D. Check

It is critical for the integrity of any election for poll workers to properly verify a voter’s identity and registration when that voter comes in to cast an in-person ballot. However, there is at least some evidence of a lack of adequate voter ID check across several of the battleground states.

For example, in Michigan, the chairperson of a polling location permitted an individual to vote without presenting voter identification and another with only a photocopy of a driver’s license.⁴³

In Nevada, poll workers were instructed to advise people who wanted to register to vote and did not have proper Nevada IDs or Driver's Licenses to do the following: These unregistered voters could go outside into the parking lot and make an appointment with the Department of Motor Vehicles as late as January 2021 to obtain a Nevada Driver's License as proof of their identity. They could then bring in confirmation of their DMV appointment in either paper or digital form; and that would be sufficient to allow them to be registered.⁴⁴

Signature Matching Abuses

It is equally critical that ballot counters legally verify mail-in and absentee ballots by checking if the signatures on the outer envelopes match the voters' registration records.⁴⁵ Note, however, that a variety of signature matching abuses represent a major issue in Nevada, Pennsylvania, and especially in Georgia.

In Georgia, contrary to state law, the Secretary of State entered into a Consent Decree with the Democrat Party that weakened signature matching to just one verification instead of two. This illegal weakening of the signature match test has called into question more than 1.2 million mail-in ballots cast in Georgia.⁴⁶

Georgia is not the only state where signature match check abuses have surfaced. Nevada law requires that *persons* – not machines – review all signatures and ballots. Yet the Clark County Registrar of Voters used a defective signature matching computer system called Agilis to conduct such checks.⁴⁷ As will be discussed further below, this problem of machines replacing humans contrary to Nevada state law was compounded by the fact that the Agilis system has an unacceptably low accuracy rate, making it easier for illegal ballots to slip through its screen.⁴⁸

Signature match abuses also surfaced in Wisconsin where mandatory voter information certifications for mail-in ballots were reduced and/or eliminated, again contrary to state law. As noted in one lawsuit, this change “undermined the authority of the state legislature, reduced the security and integrity of the election by making it easier to engage in mail-in ballot fraud and created another standard-less rule in conflict with the clear terms of the Wisconsin Election Code, preventing uniform treatment of absentee ballots throughout the State.”⁴⁹

“Naked Ballots” Lacking Outer Envelope

A *naked ballot* is a mail-in or absentee ballot lacking an outer envelope with the voter's signature on it. It is illegal to accept the naked ballot as the outer envelope provides the only way to verify a voter's identity.

The illegal acceptance of naked ballots appears to be particularly acute in Pennsylvania as a result of ill-advised “guidance” issued by the Secretary of State – a registered Democrat⁵⁰ – that such naked ballots be counted.

This issuance of such guidance, in violation of state law,⁵¹ appears to be a blatant attempt by a Democrat politician to boost the count for Joe Biden as it was clear that Democrats would be voting disproportionately higher through mail-in ballots. This incident is especially egregious because when the Pennsylvania Supreme Court rejected this guidance, the Secretary of State refused to issue new guidance directing election officials to NOT count non-compliant mail-in or absentee ballots.⁵²

Broken Chain of Custody & Unauthorized Ballot Handling or Movements

The maintenance of a proper chain of custody for ballots cast is the linchpin of fair elections. Chain of custody is broken when a ballot is fraudulently transferred, controlled, or moved without adequate supervision or oversight.⁵³

While chain of custody issues can apply to all ballots, the risk of a broken chain of custody is obviously higher for mail-in and absentee ballots. This is because the ballots have to go through more hands.

In the 2020 presidential election, the increased use – often illegal use – of unsupervised drop boxes arguably has enhanced the risk of a broken chain of custody. So, too, has the increased practice of so-called “ballot harvesting” whereby third parties pick up ballots from voters and deliver them to drop boxes or directly to election officials.

Both drop boxes and ballot harvesting provide opportunities for bad actors to insert fraudulent ballots into the election process. That this is a very serious matter is evident in this observation by BlackBoxVoting.org: “In court cases, chain of custody violations can result in refusal to admit evidence or even throwing a case out. In elections, chain of custody violations can result in ‘incurable uncertainty’ and court orders to redo elections.”⁵⁴ (emphasis added)

As an example of the drop box problem, in Pennsylvania, ballots were illegally dumped into drop boxes at the Nazareth ballot drop center in violation of state law.⁵⁵ Likewise in Pennsylvania, a man caught on videotape and photos came out of an unmarked Jeep extracting ballots from an unsupervised ballot drop-box to bring them into a ballot counting center. That same man was observed to come back with an empty ballot container to place in the unsupervised drop box.⁵⁶

In Wisconsin, the state’s Election Committee illegally positioned five hundred drop boxes for collection of absentee ballots across the state. However, these drop boxes were disproportionately located in urban areas which tend to have much higher Democrat registration, thereby favoring the candidacy of Joe Biden. Note: Any use of a drop box in Wisconsin is illegal by statute. Therefore, the votes cast through them cannot be legally counted in any certified election result.⁵⁷

As an example of ballot harvesting – in this case at the front end of the process – 25,000 ballots were requested from nursing home residents in Pennsylvania at the same time.⁵⁸

As additional examples of a possible broken chain of custody, there are these: Large bins of absentee ballots arrived at the Central Counting Location in Wisconsin with already opened envelopes, meaning that ballots could have been tampered with.⁵⁹ They were nonetheless counted.

Also in Wisconsin, an election worker was observed moving bags of blank ballots into a vehicle and then driving off without supervision.⁶⁰ There is also the previously referenced case whereby a truck driver has offered a firsthand account of moving large quantities of fake manufactured ballots from New York to Pennsylvania.

As a final note on the unauthorized handling or movement of ballots, there is the problem of *illegal ballot counters*. These are persons who not legally permitted and/or certified to be counting ballots.

In one curious case, an individual who worked as an official photographer for Kamala Harris' campaign in 2019⁶¹ was alleged to be involved in scanning ballots in Floyd County, Georgia. Ballot counters cannot have any ties to candidates in a presidential election.

Ballots Accepted Without Postmarks and Backdating of Ballots

Across all of the battleground states, it is against state law for poll workers to count either mail-in or absentee ballots that lack postmarks. It is also illegal to backdate ballots so that they may be considered as having met the election deadline for the receipt and counting of such ballots. There is some evidence of these irregularities in several of the battleground states.

For example, in Wisconsin, according to one Declaration, employees of the United States Postal Service (USPS) in Milwaukee were repeatedly instructed by two managers to backdate late-arriving ballots so they could still be counted.⁶² In addition, the USPS was alleged to have backdated as many as 100,000 ballots in Wisconsin.⁶³

Similarly, in Detroit, Michigan, as noted in a court case, poll workers were instructing ballot counters to backdate absentee ballots so they could be counted.⁶⁴ One poll watcher also observed ballots in Michigan being run through vote tabulation machines without postmarks on them.⁶⁵

V. Contestable Process Fouls

Contestable process fouls represent the third dimension of election irregularities in the 2020 presidential election. The various forms such process fouls can take are illustrated in Table 5 across the six battleground states.

Table 5: Contestable Process Fouls in the Battleground States

	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
Abuses of Poll Watchers & Observers	✓	✓	✓	✓	✓	✓

Illegal Campaigning at Poll Locations			*		*	*
Ballots Cured by Poll Workers or Voters Contrary to Law	✓	✓	✓	✓	✓	✓

✓ = Wide-Spread Evidence * = Some Evidence

Abuses of Poll Watchers and Observers

Central to the fairness and integrity of any election is the processes by which observers monitor the receipt, opening, and counting of the ballots. You can see in the Table 5 that poll watcher and observer abuses were present across all six battleground states.

In Georgia,⁶⁶ Michigan,⁶⁷ and Pennsylvania,⁶⁸ poll watchers and observers were denied entry to ballot counting centers by Judges of Elections and other poll workers. This was despite presenting proper certification and identification.

In Georgia,⁶⁹ Michigan,⁷⁰ Nevada,⁷¹ and Pennsylvania,⁷² Republican poll watchers were also forced inside confined areas, thereby limiting their view. In some cases, this confinement was enforced by local law enforcement.

Across these four battleground states, Republican poll watchers were also directed to stand at unreasonably lengthy distances from ballot counters. In Michigan – arguably the “first among equals” when it comes to observer abuses – poll workers put up poster boards on the windows of the room where ballots were being processed and counted so as to block the view.⁷³ In Pennsylvania, tens of thousands of ballots were processed in back rooms where poll observers were prohibited from being able to observe at all.⁷⁴

This is an extremely serious matter because it is these poll watchers and observers who represent the frontline defenders of a fair election process. Their job is to make sure all ballots are handled properly and tabulated accordingly. They seek to answer questions like: Is there a signature match process being conducted? Does each ballot have an outer envelope or is it a naked ballot? Are ballots being run more than once through the tabulation machines?

When poll watchers or observers are barred from viewing or forced to view from unacceptably large distances, these watchdogs cannot accurately answer these questions. They, therefore, cannot fulfill their critical watchdog function.

Mail-In Ballot and Absentee Ballot Rules Violated Contrary to State Law

In Georgia, more than 300,000 individuals were permitted to vote who had applied for an absentee ballot more than 180 days prior to the Election Day. This is a clear violation of state law.⁷⁵

In both Pennsylvania and Wisconsin, Democrat election officials acted unilaterally to accept both mail-in and absentee ballots after Election Day. State Republicans have argued this is contrary to state law.

In Pennsylvania, absentee and mail-in ballots were accepted up to three days after Election Day.⁷⁶ On November 7th, in anticipation of a legal challenge, the United States Supreme Court ordered that the approximately 10,000 absentee and mail-in ballots that had arrived past November 3rd be separated from ballots that had arrived on Election Day.⁷⁷ This direction notwithstanding, a poll watcher reported on November 7th that, in Delaware County, ballots received the previous night were not being separated from ballots received on Election Day, contrary to state law.⁷⁸

Wisconsin state law does not permit early voting. Nonetheless, city officials in the Democrat stronghold of Madison, Wisconsin assisted in the creation of more than 200 “Democracy in the Park” illegal polling places.

These *faux* polling places were promoted and supported by the Biden campaign. They provided witnesses for absentee ballots and acted in every way like legal polling places. Moreover, they received ballots outside of the limited 14-day period preceding an election that is authorized by statute for in-person or absentee balloting. These were clear violations of state law.⁷⁹

Voters Not Properly Registered Allowed to Vote

One of the jobs of poll workers is to ensure that in-person voters are legally registered and are who they say they are. Across at least three of the six battleground states – Georgia, Nevada, and Wisconsin – this job may not have been effectively done.

In Wisconsin, for example, officials refused to allow poll watchers to challenge the qualifications of people applying to vote or require proof of such persons' qualifications.⁸⁰ In Georgia, more than 2,000 individuals appear to have voted who were not listed in the State's records as having been registered to vote.⁸¹

In Pennsylvania, a poll watcher observed poll workers taking individuals whose names did not appear in voter registration books back into a separate area that was unobserved by any poll watchers. There, these apparently unregistered voters met with a Judge of Elections who allegedly told them: "you go back in, tell them this is your name, and you can vote."⁸²

Illegal Campaigning at Poll Locations

Poll workers are supposed to remain politically neutral. When a poll worker displays bias for one political candidate over another at a polling location, this is contrary to state law. Unfortunately, this law appears to have been repeatedly violated in Michigan, Pennsylvania, and Wisconsin.

For example, in Pennsylvania, poll workers were wearing paraphernalia from a group called "Voter Protection." This is a 100% Democrat-funded Political Action Committee dedicated to Democrat redistricting in Pennsylvania; and the wearing of its paraphernalia constitutes illegal campaigning at the polls.⁸³

In a similar type of illegal campaigning in Michigan, poll workers were allowed to wear Black Lives Matter shirts and were seen carrying tote bags of President Obama paraphernalia.⁸⁴ In addition, poll workers with Biden and Obama campaign shirts on were allowed on the ballot counting floor.⁸⁵

In Wisconsin, representatives from the Biden campaign were outside with clipboards talking to voters on their way in to vote. They were clearly inside the prohibited perimeter for electioneering. Poll workers did nothing to address this illegal campaigning despite the objections of observers.⁸⁶

Ballots Cured by Poll Workers or Voters Contrary to Law

Under prescribed circumstances, both poll workers and voters may fix ballots with mistakes or discrepancies. This process is known as "ballot curing."

In nineteen states, poll workers must notify voters if there are errors or discrepancies on their ballots and allow them to "cure" or correct any errors so their votes will count.⁸⁷ However, in states that do not allow curing, ballots with discrepancies such as missing or mismatched signatures must be discarded.⁸⁸

In Pennsylvania, and contrary to state law, poll workers were trained to allow voters to cure or “correct” their ballots.⁸⁹ According to one court filing, Democrat-controlled counties in Pennsylvania participated in pre-canvass activities prior to Election Day “by reviewing received mail-in ballots for deficiencies.”⁹⁰ Such discrepancies included “lacking the inner secrecy envelope or lacking a signature of the elector on the outer declaration envelope.” Voters were then notified so that they could cure their ballots – a clear violation of state law.⁹¹

Numerous other examples of illegally cured ballots abound. For example, in Wisconsin, tens of thousands of ballots were observed to be corrected or cured despite election observer objections.⁹²

In Pennsylvania, poll workers sorted approximately 4,500 ballots with various errors into bins. Poll workers then re-filled out the 4,500 ballots so that they could be read by tabulation machines, an action contrary to state law.⁹³

In Michigan, poll workers altered the dates on the outer envelopes of the ballots so that they would be able to count them.⁹⁴ Michigan poll workers also filled out blank ballots to “correct” mail-in and absentee ballots according to what they believed the “voter had intended.”⁹⁵

VI. Equal Protection Clause Violations

The Equal Protection Clause is part of the 14th Amendment of the U.S. Constitution and a fundamental pillar of the American Republic. This Equal Protection Clause mandates that no State may deny its citizens equal protection of its governing laws.⁹⁶

Table 6 illustrates three major alleged violations of the Equal Protection Clause in the 2020 presidential election. As the table illustrates, each violation was observed to occur across all six battleground states.

Table 6: Equal Protection Clause Violations in the Six Battleground States

	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
Higher Standards of Certification & I.D. Verification Applied to In-Person Voters	✓	✓	✓	✓	✓	✓
Different Standards of Ballot Curing	✓	✓	✓	✓	✓	✓
Differential & Partisan Poll Watcher Treatment	✓	✓	✓	✓	✓	✓

✓ = Wide-Spread Evidence * = Some Evidence

Higher Standards of Certification & I.D. Verification Applied to In-Person Voters

The first alleged violation focuses on the application of higher standards of certification and voter identification for in-person voters than mail-in and absentee ballot voters. In effect, these higher standards disproportionately benefited the candidacy of Joe Biden because President Trump had a much higher percentage of in-person voters than mail-in and absentee voters. Indeed, mail-in and absentee ballots were largely skewed for Joe Biden across the country by ratios as high as 3 out of 4 votes in some states.⁹⁷

Note here that much of the alleged fraud and ballot mishandling focused on mail-in voters and absentee ballots. Therefore, the lower the level of scrutiny of these voters, the more illegal votes for Joe Biden relative to Donald Trump could slip in. It should likewise be noted here that this particular violation of the Equal Protection Clause was further enabled by poll watchers being denied meaningful observation.

Perhaps the most egregious examples of this particular violation of the Equal Protection clause occurred in Georgia and Michigan. Georgia, for example, requires ID for voting in-person and Michigan will only allow provisional voting without an ID. However, in both Georgia and Michigan, a valid ID is not required to vote by mail so long as the person has already registered in a previous election.

These procedures are ripe for fraud. In fact, there is evidence that election fraudsters targeted voters who had voted in past elections but not voted in more recent ones. These fraudsters could then cast ballots on behalf of these infrequent voters with little likelihood they would be caught. Numerous affidavits, however, detail persons arriving to vote at polls only to be informed that records indicate they had already voted. At least fourteen such affidavits have been made by Georgians.

As a further example, in Wisconsin, mail-in ballots were accepted without witness signatures placed properly in the allocated envelope location.⁹⁸ A comparable process for in-person voting would have resulted in the invalidation of the vote.

Different Standards of Ballot Curing

As a second major violation of the Equal Protection Clause, likewise observed across all six battleground states, different standards for correcting mistakes on ballots (ballot curing) were applied across different jurisdictions within the states. Often, jurisdictions with predominantly Democrat registration were more expansive about allowing the curing of ballots than jurisdictions with predominantly Republican registration.

In Pennsylvania, there was a clear difference between how ballots were – or were not – cured in Republican counties versus Democrat counties. When Pennsylvania’s Secretary of State Kathy Boockvar issued illegal guidance authorizing counties to cure ballots, this illegal guidance was not followed in at least eight different Republican counties.⁹⁹ Meanwhile, ballots were cured in Democrat counties under this illegal guidance.¹⁰⁰

In Arizona, there likewise was a clear difference between how in-person voters were treated versus mail-in ballots. On the one hand, mail-in voters had up to 5 days to “cure” or “fix” invalid mail-in ballots sent prior to Election Day.¹⁰¹ On the other hand, in-person voters in Maricopa County, for example, had to deal with poll workers who did not know how to work electronic voting machines properly. This resulted in thousands of in-person votes being marked incorrectly and disregarded rather than cured.¹⁰²

Differential and Partisan Poll Watcher Treatment

In most states, political party candidates and ballot issue committees are able to appoint poll watchers and observers to oversee the ballot counting process.¹⁰³ Such poll watchers and observers must be registered voters and present certification to the Judge of Elections in order to be able to fulfill their duties at a polling location.¹⁰⁴

Such certified poll watchers should be free to observe at appropriate distances regardless of their party affiliation. Yet in key Democrat strongholds, e.g., Dane County in Wisconsin and Wayne County in Michigan, which yielded high Biden vote counts, Republican poll watchers and observers were frequently subject to different treatment ranging from denial of entry to polling places to harassment and intimidation.

For example, in Georgia, a certified poll watcher witnessed other poll workers at a polling location discussing how they should not speak to her due to her party affiliation.¹⁰⁵ In Pennsylvania, a Republican poll watcher was harassed and removed from the polling location due to his party affiliation.¹⁰⁶ In Wisconsin, a Republican poll watcher was prevented from observing due to the fact that polling locations were not allowing Republicans in.¹⁰⁷

Note the synergy here between the problem of the process foul involved with denying access to certified poll watchers (discussed in the previous section) and the violation of the Equal Protection Clause such conduct entails when such denial, harassment, and intimidation differs by party affiliation.

VII. 2020 Election Voting Machine Irregularities

Perhaps no device illustrates that technology is a double-edged sword than the machines and associated software that have come to be used to tabulate votes across all 50 states.¹⁰⁸ Types of voting equipment include optical scanners used to process paper ballots, direct recording electronic systems which voters can use to directly input their choices, and various marking devices to produce human-readable ballots.¹⁰⁹

Two main types of voting machine irregularities have been alleged in the 2020 presidential election. As Table 7 illustrates, these types of irregularities include large-scale voting machine inaccuracies together with inexplicable vote switching and vote surges, often in favor Joe Biden.

Table 7: 2020 Voting Machine Irregularities

Large-Scale Voting Machine Inaccuracies	✓		✓	✓		
Inexplicable Vote Switching and Vote Surges In Favor of Biden	✓	✓	✓			

✓ = Wide-Spread Evidence * = Some Evidence

Large-Scale Voting Machine Inaccuracies

Much has been made about the shadowy genesis of a company called Dominion which provides voting machines and equipment to 28 states.¹¹⁰ According to critics, Dominion’s roots may be traced to an effort by the Venezuelan dictator Hugo Chavez to rig his sham elections.¹¹¹ Dominion is also alleged to have ties to the Clinton Foundation,¹¹² while the Smartmatic software used in the Dominion machines is alleged to have links to the shadowy anti-Trump globalist financier George Soros.¹¹³

The controversy swirling over Dominion and Smartmatic notwithstanding, one of the biggest problems with machine inaccuracies may be traced to a company called Agilis. Nevada election officials in Clark County, a Democrat stronghold in Nevada, used Agilis signature verification machines to check over 130,000 mail-in ballot signatures.

According to a court case filed in the First Judicial District Court in Carson City, the Agilis machines used a “lower image quality than suggested by the manufacturer.” Clark County Election Department officials also lowered the accuracy rate below the manufacturer’s recommendations, making the whole verification process unreliable.¹¹⁴

In a test run, it was proven that, at the manufacturer’s setting, the Agilis machine already had a high tolerance for inaccuracies—as high as 50% non-matching. In other words, half of the ballots that might be moved through the machine would be impossible to verify; and Clark County officials lowered that threshold even further.¹¹⁵

As a final comment on this case, there is also the broader legal matter that the Agilis machines were used to “entirely replace signature verification by election personnel.” This is contrary to Nevada state law.

As noted in a court case: “In violation of Nevada law, the Clark County Election Department allows the Agilis machine to solely verify 30% of the signatures accompanying the mail-in ballots without ever having humans inspect those signatures.”¹¹⁶

A similar problem has been alleged in a court filing in Arizona with a software known as the Novus 6.0.0.0. In cases where ballots were too damaged or illegible to be read by vote tabulation machines, Novus was used in an attempt to cure or restore the ballots. The system would do so by trying to read the applicable scans of the original rejected ballots. However, as noted in a court case filed by Kelli Ward, Chairwoman of the Arizona Republican Party: “the software was highly inaccurate, and it often flipped the vote.”¹¹⁷

Inexplicable Vote Switching and Vote Surges In Favor of Biden

As a further complication to the Novus software problem in Arizona referenced above, the software was not only highly inaccurate. According to observers, and as an example of inexplicable vote switching, “the software would erroneously prefill ‘Biden’ twice as often as it did ‘Trump.’”¹¹⁸

At least one instance of a large and inexplicable vote switching and vote surge in favor of Joe Biden took place in Antrim County, Michigan – and it is associated with the controversial aforementioned Dominion-Smartmatic voting machine hardware-software combo.¹¹⁹ In this Republican stronghold, 6,000 votes were initially, and incorrectly, counted for Joe Biden. The resulting vote totals were contrary to voter registration and historical patterns and therefore raised eyebrows. When a check was done, it was discovered that the 6,000 votes were actually for Donald J. Trump.

A subsequent forensic audit of the Antrim County vote tabulation found that the Dominion system had an astonishing error rate of 68 percent.¹²⁰ By way of comparison, the Federal Election Committee requires that election systems must have an error rate no larger than 0.0008 percent.¹²¹

Perhaps even more troubling given concerns over hackers and Dominion’s alleged ties to bad foreign actors, the records that would have allowed the detection of remote internet access went missing from the Antrim County system. This was in direct violation of Michigan state law,¹²² which requires retention of voting records for 22 months -- such information was in place for previous election years, but not this election. At the very least, the results of this audit indicates the need for further investigation of the Dominion system across other states in the country.

In Georgia, there were numerous "glitches" with the Dominion machines where the results would change. The most notable of these changes was a 20,000 vote surge for Biden and 1,000 vote decrease for Trump.¹²³

VIII. Statistical Anomalies in the Six Battleground States

The 2020 presidential election appears to feature at least four types of statistical anomalies that raise troubling questions. Table 8 illustrates the incidence of these statistical anomalies across the six battleground states. As you can see from the table, Wisconsin and Georgia are characterized by the highest degree of statistical anomalies, with three of the four anomalies present. Nevada and Arizona show two anomalies present while Michigan has at least one. Let’s take a more granular look now at each of these types of statistical anomalies.

Table 8: Statistical Anomalies in the Battleground States

	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
Significant Changes In Absentee Ballot Rejection Rates From Previous Elections		✓		✓	✓	
Excessively High Voter Turnout (at times exceeding 100%)	✓	✓	✓	✓		✓
Statistically Improbable Vote Totals Based on Party Registration & Historical Patterns	✓					✓
Unusual Vote Surges		✓	*			✓

✓ = Wide-Spread Evidence * = Some Evidence

Dramatic Changes in Mail-in and Absentee Ballot Rejection Rates from Previous Elections

It is routine across the 50 states for mail-in-and absentee ballots to be rejected for any number of reasons. These reasons may include: the lack of a signature or adequate signature match, a late arrival past a deadline,¹²⁴ the lack of an external envelope that verifies voter-identification (a naked ballot),¹²⁵ or if voters provide inaccurate or incomplete information on the ballots.¹²⁶

In the 2020 presidential race, Joe Biden received a disproportionately high percentage of the mail-in and absentee ballots. Perhaps not coincidentally, we saw a dramatic fall in rejection rates in Pennsylvania, Nevada, and especially Georgia.

For example, in Nevada, the overall rejection rate dropped from 1.6%¹²⁷ in 2016 to 0.58% in 2020.¹²⁸ In Pennsylvania, the 2016 rejection rate of 1.0%¹²⁹ dropped to virtually nothing at 0.28%.¹³⁰ The biggest fall in the overall absentee ballot rejection rate came, however, in Georgia. Its rejection rate fell from 6.8%¹³¹ in 2016 to a mere 0.34%¹³² in 2020.

These dramatically lower rejection rates point to a conscious effort by Democrat election officials across these key battleground states to subject mail-in and absentee ballots to a lower level of scrutiny. That this kind of government conduct and gaming of our election system may have contributed to tipping the scales in favor of Joe Biden can be illustrated in this simple calculation:

In the 2020 race, Georgia election officials received 1,320,154 mail-in and absentee ballots. If these ballots had been rejected at the 2016 rate of 6.8% instead of the 2020 rate of 0.34%, there would have been 81,321 ballots rejected instead of the 4,489 ballots that were actually rejected.

Under the conservative assumption that 60% of these mail-in and absentee ballots went to Joe Biden,¹³³ this dramatic fall in the rejection rate provided Joe Biden with an additional 16,264 votes. That's more than the margin of the alleged Biden victory in Georgia.

Excessively High Voter Turnout (at times exceeding 100%)

When there are more ballots cast than registered or eligible voters, fraud has likely taken place. During the 2020 presidential election, excessively high voter turnout occurred across all six swing states.

In analyzing this problem, it is important to distinguish between states that have same-day registration and those that don't. States with same-day registration can plausibly have voter turnout that is higher than 100%. However, is impossible for that to happen in states without same-day registration without fraud having taken place.

Consider, then, Arizona which does not allow same-day voter registration. According to testimony from an MIT-trained mathematician, Candidate Biden may have received a weighted 130% total of Democrat votes in Maricopa County to help him win the state due to an algorithm programmed into the Dominion voting machines used there.¹³⁴

Although Michigan does allow same-voter registration, voter turnout was still abnormally high. Here again, the Dominion voting system has been implicated. To wit:

Cybersecurity executive and former NASA analyst, Russ Ramsland, testified that in Wayne County, Michigan, where Dominion Voting Systems equipment was used, 46 out of 47 precincts in the county displayed greater than a 96% voter turnout. 25 out of those precincts showed a 100% voter turnout.¹³⁵

Wisconsin, which also allows same-day voter registration, also reported abnormally high voter turnout when compared to 2016 numbers. For example, Milwaukee reported a record 84% voter turnout during the 2020 presidential election versus 75% in 2016.¹³⁶ Of the city's 327 voting wards, 90 reported a turnout of greater than 90%.¹³⁷

Statistically Improbable Vote Totals Based on Party Registration and Historical Patterns

The 2020 presidential election was characterized by strong partisan voting patterns consistent with historical patterns. As a rule, heavily Republican jurisdictions voted heavily for President Trump and heavily Democrat jurisdictions voted heavily for Joe Biden.

In some cases, however, there were instances where these partisan and historical patterns were violated. It is precisely in such instances where either outright fraud or machine inaccuracies or manipulations are most likely to be operative.

As one example of such statistically improbable vote totals, there are the results in Arizona's Fifth Congressional District. In one precinct in the suburb of Queen Creek, the vote percent for President Trump dropped dramatically relative to 2016, from 67.4 to 58.5 percent.¹³⁸ This was attributed to an "unusually high" number of duplicate ballots.¹³⁹

Unusual Vote Surges

Several unusual vote surges took place in the very early hours of the morning of November 4th in Georgia, Michigan, and Wisconsin. An analysis conducted by the Voter Integrity Project of *The New York Times* publicly reported data on Election Day that showed several vote "spikes" that were unusually large in size with unusually high Biden-to-Trump ratios. Such spikes or surges could well indicate that fraudulent ballots had been counted.

In Georgia, for example, an update at 1:34 AM on November 4th showed 136,155 additional ballots cast for Joe Biden, and 29,115 additional votes cast for President Trump.¹⁴⁰ An update in Michigan at 3:50 AM on November 4th showed an update of 54,497 additional votes cast for Joe Biden, and 4,718 votes cast for President Trump.¹⁴¹ And an update in Wisconsin at 3:42 AM on November 4th showed 143,379 additional ballots cast for Joe Biden, and 25,163 votes cast for President Trump.¹⁴²

IX. A State-By-State Analysis and Signal Failure of Our Legislative and Judicial Branches

All happy families are alike; each unhappy family is unhappy in its own way.

– *Anna Karenina, by Leo Tolstoy*

It should be clear at this point that all six battleground states suffer from most or all of the six dimensions of election irregularities documented in this report. However, like Tolstoy’s unhappy families, it is also true that each battleground state is different in its own election irregularity way. That is, each battleground state may be characterized by a unique mix of issues that, impressionistically, might be considered “most important” in swinging that state for Joe Biden.

Consider Arizona, a state with the lowest alleged Biden victory margin at 10,457 votes. This is a state with statistically improbable high voter turnouts in Maricopa and Pima counties; widespread ballot mishandling; and 1.6 million mail-in ballots (which tended towards Biden) subjected to much lower standards of certification and ID verification than in-person voters (who tended towards Trump).

In Georgia, the alleged Biden victory margin was just 11,779 votes. What perhaps jumps out most in the Peach State is the illegal Consent Decree that effectively gutted the signature match requirements for millions of mail-in ballots. There is also the quite unresolved fake ballot manufacturing matter of the roughly 100,000 ballots that were mysteriously pulled, in the dead of night, out from underneath tables and expeditiously tabulated. Of course, we saw that Georgia’s electoral version of a Three-card Monte sleight-of-hand led to a strong Biden vote surge.

Of all of the six battleground states which suffered from numerous observer and poll watcher abuses, Michigan must rank as “first among equals.” With its “board up the windows” and “rough up the observers” tactics, Detroit in Wayne County was the center of this “see no evil” universe. When two local Republican officials tried to withhold certification of the votes in this county for practices such as these and demanded an audit, they were subject to extreme intimidation and “doxing” and quickly capitulated.¹⁴³

As for Nevada, this is a state likewise with a very narrow alleged victory margin for Joe Biden – 33,596 votes. Here, voting machine irregularities associated with the Agilis machine have called into question as many as 130,000 votes. There may also be an unusually large number of ballots cast by out-of-state voters and others who did not meet residency requirements. Of course, the brazen bribery of Native Americans to vote for Joe Biden is a dark stain on the state and the Democrat Party.¹⁴⁴

In Pennsylvania, an equally brazen Democrat Secretary of State issued illegal guidance for the acceptance of naked ballots and ignored direction from the Pennsylvania Supreme Court to fix the matter. She allowed ballots to be illegally cured in contravention of state law and pushed the legal envelope for accepting ballots after Election Day.

In the Keystone State, and as with Georgia’s Three-card Monte, shuffle fake ballots out from underneath a table scandal, there is also the equally unresolved matter of possible fake ballot manufacturing. Recall, here, the testimony of a truck driver who swears he picked up as many as 100,000 fake manufactured ballots in New York and delivered them to Pennsylvania. Both the tractor-trailer and the ballots involved remain unaccounted for – and what might have been in this tractor-trailer were enough ballots alone to swing the election to Joe Biden.

Finally, in Wisconsin, the mother of all contestable process fouls is arguably that of the roughly 170,000 mail-in ballots entering the tabulation process under the guise of absentee ballots in clear violation of state law. That’s more than eight times the number of ballots of the alleged Biden victory margin of 20,682 votes.

In Wisconsin, there is likewise the large-scale abuse associated with an overly expansive definition of “indefinitely confined voters.” Recall here that the increment of new indefinitely confined voters in the 2020 election in Wisconsin was more than five times the alleged Biden victory margin.

While Democrat Party government officials cheated and gamed the electoral process across all six battleground states, many Republican government officials – from governors and state legislators to judges – did little or nothing to stand in their way.

Consider that the Republican Party controls *both* chambers of the State Legislatures in five of the six battleground states – Arizona, Georgia, Michigan, Pennsylvania, and Wisconsin.¹⁴⁵ These State Legislatures clearly have both the power and the opportunity to investigate the six dimensions of election irregularities presented in this report. Yet, wilting under intense political pressure, these politicians have failed in their Constitutional duties and responsibilities to do so – and thereby failed both their states and this nation as well as their party.

The same can be said for the Republican governors in two of the six battleground states – Arizona and Georgia. Both Arizona’s Doug Ducey and Georgia’s Brian Kemp have cowered in their Governor’s mansions and effectively sat on their hands while their states have wallowed in election irregularities.

The judicial branch of the American government should be the final backstop for the kind of issues examined in this report. Yet both our State courts and Federal courts, including the Supreme Court, have failed the American people in refusing to properly adjudicate the election irregularities that have come before them. Their failures likewise pose a great risk to the American Republic.

Concluding Observations

From the findings of this report, it is possible to infer what may well have been a coordinated strategy to effectively stack the election deck against the Trump-Pence ticket. Indeed, the patterns of election irregularities observed in this report are so consistent across the six battleground states that they suggest a coordinated strategy to, if not steal the election, then to strategically game the election process in such a way as to unfairly tilt the playing field in favor of the Biden-Harris ticket.

A major part of this “stuff the ballot box” strategy has been aptly summarized in a complaint filed before the US Supreme Court by the State of Texas:

Using the COVID-19 pandemic as a justification, [Democrat] government officials [in Georgia, Michigan, Pennsylvania, and Wisconsin] usurped their legislatures’ authority and unconstitutionally revised their state’s election statutes. They accomplished these statutory revisions through executive fiat or friendly lawsuits, thereby weakening ballot integrity.¹⁴⁶

According to the Texas complaint – which the Supreme Court sadly refused to hear – the goal of this strategy was to flood the battleground states “with millions of ballots to be sent through the mails, or placed in drop boxes, with little or no chain of custody.” At the same time, Democrat government officials also sought to “weaken the strongest security measures protecting the integrity of the vote signature verification and witness requirements.”¹⁴⁷

The findings of the assessment conducted in this report are consistent with the Texas complaint. Key takeaways include:

- The weight of evidence and patterns of irregularities uncovered in this report are such that it is irresponsible for anyone – especially the mainstream media – to claim that there is “no evidence” of fraud or irregularities.
- The ballots that have come into question because of the identified election irregularities are more than sufficient to swing the outcome in favor of President Trump should even a relatively small portion of these ballots be ruled illegal.
- While all six battleground states exhibit most, or all, six dimensions of election irregularities, each state has a unique mix of issues that might be considered “most important.” To put this another way, all battleground states are characterized by the same or similar election irregularities; but, like Tolstoy’s unhappy families, each battleground state is different in its own election irregularity way.
- This was theft by a thousand cuts across six dimensions and six battleground states rather than any one single “silver bullet” election irregularity.

- In refusing to investigate a growing number of legitimate grievances, the anti-Trump media and censoring social media are complicit in shielding the American public from the truth. This is a dangerous game that simultaneously undermines the credibility of the media and the stability of our political system and Republic.
- Those journalists, pundits, and political leaders now participating in what has become a Biden Whitewash should acknowledge the six dimensions of election irregularities and conduct the appropriate investigations to determine the truth about the 2020 election. If this is not done before Inauguration Day, we risk putting into power an illegitimate and illegal president lacking the support of a large segment of the American people.
- The failure to aggressively and fully investigate the six dimensions of election irregularities assessed in this report is a signal failure not just of our anti-Trump mainstream media and censoring social media but also of both our legislative and judicial branches.
 - Republican governors in Arizona and Georgia together with Republican majorities in both chambers of the State Legislatures of five of the six battleground states – Arizona, Georgia, Michigan, Pennsylvania, and Wisconsin¹⁴⁸ – have had both the power and the opportunity to investigate the six dimensions of election irregularities presented in this report. Yet, wilting under intense political pressure, these politicians have failed in their Constitutional duties and responsibilities to do so – and thereby failed both their states and this nation as well as their party.
 - Both State courts and Federal courts, including the Supreme Court, have failed the American people in refusing to appropriately adjudicate the election irregularities that have come before them. Their failures pose a great risk to the American Republic.
- If these election irregularities are not fully investigated prior to Inauguration Day and thereby effectively allowed to stand, this nation runs the very real risk of never being able to have a fair presidential election again – with the down-ballot Senate races scheduled for January 5 in Georgia an initial test case of this looming risk.

**Tip Election to Biden
with FLOOD of
Illegal Ballots**

“Stuff the Ballot Box”

THE ART OF THE STEAL

**Volume Two of the Navarro Report
January 5, 2021**

Executive Summary – The Art of the Steal

The Democrat Party and its political operatives, with the unwitting aid of “useful idiots” from the Republican Party, stole the presidential election from Donald J. Trump.

The Democrat Party used a two-pronged Grand “Stuff the Ballot Box” Strategy to flood six key battleground states – Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin – with enough illegal absentee and mail-in ballots to turn a decisive Trump victory into a narrow and illegitimate Biden alleged “win.”

Prong One dramatically INCREASED the amount of absentee and mail-in ballots in the battleground states. Prong Two dramatically DECREASED the level of scrutiny of such ballots – effectively taking the election “cops” off the beat. This pincer movement resulted in a FLOOD of illegal ballots into the battleground states more than sufficient to tip the scales from a decisive legal win by President Trump to a narrow and illegitimate alleged “victory” by Joe Biden.

The Democrat Party relied primarily on legal means such as legislative and rule changes at the state level to implement its Grand Strategy and thereby achieve its illegal outcome. However, at times, political operatives advancing the Democrat Party’s Grand Strategy also bent, and sometimes broke, the laws and rules of that which is most sacred to our American public – our election system.

Key methods used by the Democrat Party to strategically game America’s presidential election included changes in the law approved by State Legislatures; rule changes and new guidance initiated by Secretaries of State or other election officials; court rulings and interventions; and the aggressive use of so-called “public-private partnerships” to commandeer and manipulate the election process in key Democrat strongholds such as Wayne County, Michigan and Dane County, Wisconsin.

Prong One of the Democrat Party’s Grand Strategy used seven basic gambits to dramatically INCREASE the flood of absentee and mail-in ballots: relaxing mail-in and absentee ballot rules; sending absentee or mail-in ballots or applications for such ballots to every voter (universal mailing); increasing both the legal and illegal use of drop boxes; ballot harvesting; and the use of corrupted voting machines.

Prong Two of the Democrat Party’s Grand Strategy used five additional gambits to dramatically DECREASE the level of scrutiny of the new flood of absentee and mail-in ballots into the battleground states: relaxation of ID verification; reduced signature matching requirements; illegally counting naked ballots to increase ballot curing – both legal and illegal; and reduced poll watching and observing.

Democrat Party operatives frequently hid behind the shield of the Chinese Communist Party (CCP) virus and resultant pandemic to further their goals of boosting the absentee and mail-in ballot counts in the key battleground states.

The practical result of the Democrat Party's two-pronged Grand "Stuff the Ballot Box" Strategy was to flood the six key battleground states with enough illegal absentee and mail-in ballots to turn a decisive Trump victory into a narrow alleged Biden "victory." Key political operatives assisting the Democrat Party included Wall Street oligarch George Soros, Silicon Valley oligarch and Facebook CEO Mark Zuckerberg, and Marc Elias, former Hillary Clinton Campaign General Counsel and one of the alleged architects and financial conduits for Fusion GPS and the Russia Hoax designed to topple a duly-elected President.

Soros money helped fund efforts to change election laws and rules through instruments such as referenda. Soros and his network of organizations such as the political action committee "Secretary of State Project" also helped to elect puppet Secretaries of State in Michigan (Jocelyn Benson) and Pennsylvania (Kathy Boockvar) who would play instrumental roles in bending or breaking election rules and thereby advancing the Grand "Stuff the Ballot Box" Strategy. Zuckerberg money – nearly half a billion dollars – helped engineer what was effectively a hostile Democrat Party "public-private partnership" takeover of what should otherwise be a nonpartisan election process in key Democrat strongholds such as Wayne County, Michigan and Dane County, Wisconsin.

Useful idiots for the Democrat Party included Georgia's Republican Governor Brian Kemp and Republican Secretary of State Brad Raffensperger who entered into a Consent Decree that dramatically INCREASED the number of absentee and mail-in ballots while dramatically DECREASING the rejection rate of such ballots. Republican state legislators who voted for the bills that would help the Democrats advance its Grand Strategy likewise were unwitting dupes.

By implementing its Grand "Stuff the Ballot Box" Strategy, the Democrat Party and its political operatives have strategically gamed one of the most sacred elements of American democracy, our election system. This was brass knuckle politics played at the highest level which has delivered a brutal punch to the nose of the American people and a vicious kick to the groin of American democracy.

That the Democrat Party and its operatives have, up to this point, gotten away with their Immaculate Deception and Art of the Steal, represents a signal failure of the media, Republican state legislators, other Republican government officials across the battleground states, the US Congress, and our judicial branch of government at both the state and federal levels.

Volumes 1 and 2 of the Navarro Report – *The Immaculate Deception* and *The Art of the Steal* – together make the strong case for a full investigation of the election irregularities and strategic gaming of our political process that in all likelihood have led to a stolen presidential election. Any such investigation must begin immediately as this nation simply cannot risk the inauguration of a president who will be perceived by a large segment of the American people as illegitimate.

Introduction

Volume 1 of The Navarro Report, *The Immaculate Deception*, revealed a coordinated Democrat Party strategy to steal the 2020 Presidential Election. That strategy was to stuff ballot boxes with illegal absentee and mail-in ballots across six battleground states – Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin.

As illustrated in Figure One, this Democrat gaming of our political process was manifested by six types of election irregularities observed across the battleground states. These irregularities included outright voter fraud, ballot mishandling, due process fouls, violations of the 14th amendment’s Equal Protection clause, voting machine irregularities, and statistical anomalies.

Figure One

The Immaculate Deception						
	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
Outright Voter Fraud	✓	✓	*	✓	*	✓
Ballot Mishandling		✓	✓	✓	✓	✓
Contestable Process Fouls	✓	✓	✓	✓	✓	✓
Equal Protection Clause Violations	✓	✓	✓	✓	✓	✓
Voting Machine Irregularities	✓	✓		✓	✓	*
Significant Statistical Anomalies	✓	✓	✓	✓		✓
Biden “Victory” Margin	10,457	11,779	154,188	33,596	81,660	20,682
Possible Illegal Ballots	>100,000	>400,000	>379,000	>100,000	>600,000	>200,000

✓ = Wide-Spread Evidence * = Some Evidence

By exploiting these election irregularities – by bending, and at times breaking, the law or election rules – the Democrat Party thereby illicitly transformed substantial Trump leads into alleged narrow Biden leads across each of the battleground states. However, as *The Immaculate Deception* documented, these alleged Biden “victory margins” are dwarfed by the number of potentially illegal ballots in every single battleground state as illustrated in Columns 7 and 8 of Figure One above.

For example, the alleged Biden “victory margin” is less than 12,000 votes in Arizona, while the number of potentially illegal ballots was is than 10 times that. In Georgia, the alleged Biden “victory margin” is a mere 12,670 votes, yet the number of ballots in question is more than 400,000.

In the wake of the release of the Navarro Report on December 17, 2020, I received numerous requests to explain just exactly how the Democrat Party and its operatives managed to pull off its Immaculate Deception. That is the purpose of Volume 2 of the Navarro Report, *The Art of the Steal*.

The Art of the Steal takes a more granular look at the Democrats’ Grand “Stuff the Ballot Box” Strategy. It seeks to answer some of the most basic questions now rising in the minds of an American public and an American political leadership increasingly skeptical about the fairness and legitimacy of the 2020 election. How did the Democrats pull off its Immaculate Deception without detection and appropriate countermeasures by the Republican Party? When did the Democrats’ effort to topple a sitting president start? How much of what the Democrats did was illegal? And how much of what the Democrat Party and its agents did was done within the bounds of the law and rules but nonetheless led to an illegal outcome?

The Democrat Party’s Grand “Stuff the Ballot Box” Strategy

This section of the report provides a broad overview of all of the various moving pieces and parts of the Democrat Party’s Grand “Stuff the Ballot Box” Strategy. In the sections of the report that follow, we will provide additional granularity to each of these moving pieces and parts.

As illustrated in Figure Two, the Democrat Party and its political operatives used a two-pronged Grand “Stuff the Ballot Box” Strategy to FLOOD six key battleground states – Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin – with enough illegal absentee and mail-in ballots to turn a decisive Trump victory into a narrow and illegitimate Biden alleged “win.”

Figure Two

The first and most *obvious* prong of the strategy was to dramatically INCREASE the number of registered Democrat absentee and mail-in ballots cast in six battleground states – Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin. As President Jimmy Carter and former Secretary of State James Baker warned in their landmark 2005 Carter-Baker Commission Report, the best way to stuff illegal ballots into our election system without detection is by increasing absentee and mail-in ballots.¹

The second and more *subtle* prong of the strategy was to dramatically DECREASE the scrutiny and concomitant certification or verification of this new flood of absentee and mail-in ballots. By essentially taking the ballot verification cops off the beat, the practical result would be to dramatically INCREASE the number of illegal ballots that would be counted in the battleground states.

Figure Three illustrates the various (mostly) legal means and gambits the Democrat Party used to strategically game the presidential election system and thereby achieve what was, in effect, an illegal end – a FLOOD of illegal ballots sufficient to tip the election to Joe Biden.

These gambits included: law changes by state legislatures; rule changes by Secretaries of State (SOS) and other election officials; various court rulings, court interventions, and petitions; the aggressive use of so-called “Public-Private Partnerships” often funded by oligarchs like Mark Zuckerberg and George Soros; and the equally aggressive use of propaganda campaigns under the guise of “public awareness” messaging.

Figure Three

Democrat Party Strategically Games the 2020 Presidential Election						
	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
State Law Changes – Bills & Referenda			✓	✓	✓	
Rule Changes – Secretary of State (SOS)		✓	✓	✓	✓	
Rule Changes – Other Officials				✓		
Guidance – SOS or Election Officials			✓	✓	✓	✓
Court Rulings	✓	✓	✓	✓	✓	✓
Court Interventions/Petitions			✓	✓		
Public-Private Partnerships (Zuckerberg/Soros Effect)	✓	✓	✓	✓	✓	✓
Propaganda/“Public Awareness” Campaigns	✓	✓	✓	✓	✓	✓

You can see from the checkmarks in Figure Three that each of these gambits are present in a significant degree in all six battleground states. Of the six states, Nevada, with its Democrat Governor and Democrat Legislature, is the worst offender followed by Michigan and Pennsylvania, each of which have a Democrat Governor.

Figure Four illustrates the variety of means and gambits the Democrat Party employed to dramatically INCREASE the flood of absentee and mail-in ballots. These gambits – many of them legal but some of them clearly bending or breaking the law or rules – included: relaxing mail-in and absentee ballot rules; sending absentee or mail-in ballots or applications for such ballots to every voter (universal mailing); increasing both the legal and illegal use of drop boxes; ballot harvesting; and the use of corrupt voting machines.

Figure Four

Illegal Use of Ballot Drop Boxes		✓	✓			✓
Ballot Harvesting	✓	✓		✓		✓
Use of Potentially Corrupt Voting Machines	✓	✓	✓	✓	✓	✓

Figure Five similarly illustrates the variety of gambits the Democrat Party employed to DECREASE scrutiny of absentee and mail-in ballots. These gambits included: relaxation of ID verification; reduced signature matching requirements; illegally counting naked ballots to increase ballot curing – both legal and illegal; and reduced poll watching and observing. Again, it is important to point out here that much of what the Democrats did was legal; but some of what they did at times also bent, and arguably sometimes broke, the rules or the law.

Figure Five

Increased Ballot Curing	✓	✓		✓		✓
Reduced Poll Watching/Observing		✓	✓		✓	

In the remainder of this report, we shall further deconstruct the Grand Strategy of the Democrat Party following the flow and logic of the figures above.

Strategically Gaming America’s Presidential Election

Let’s work our way now systematically through various means and gambits the Democrat Party used to strategically game America’s presidential election. Note that the examples that we will offer throughout the remainder of this report are designed to be illustrative rather than exhaustive.

This previously introduced figure summarizes the eight major means and gambits the Democrat Party used in its gaming of our presidential election:

Democrat Party Strategically Games the 2020 Presidential Election

Law Changes by State Legislatures

Three battleground states – Michigan, Nevada, and Pennsylvania – issued major changes to their individual State Election Laws in the year leading up to the 2020 General Election. These are illustrated in Table One.

Table One

State	Law	Date	Provisions
Michigan	Senate Bill 757	10/6/2020	Cities and townships with population over 25,000 granted ballot counting timeframe extension
Nevada	Assembly Bill 4	8/3/2020	Universal mail-in ballots, ballot harvesting, ballot receipt deadline extension, ballot curing extension, and relaxed signature-matching
Pennsylvania	Act 12	3/27/2020	Ballot counting timeframe extension
Pennsylvania	Act 77	10/31/2019	"No-excuse" absentee voting, absentee voting period extension, permanent absentee ballot list, vote registration timeframe extension, and absentee ballot receipt deadline extension

For example, after the Nevada State Primary Election, a Special Session of the State Legislature was called by the Democrat Governor Steve Sisolak of Nevada to change the state's voting procedures. Notably, the CCP virus pandemic was used as a justification for this action. Consequently, AB-4 was an omnibus measure modifying election procedures during periods of declared emergency in Nevada as currently exists due to the CCP Virus.²

In Pennsylvania, on October 31, 2019, Democrat Governor Tom Wolf signed Act 77 after its passage in the Republican-Controlled State Legislature. This is the most drastic election law change Pennsylvania has made in modern history.

Act 77 made numerous major changes to state election law. In particular, the bill enabled “no-excuse” absentee ballot voting so voters no longer have to provide a reason for requesting absentee ballots; and it created a “new option” to vote by mail up to 50 days before an election and enabled voters to be placed on a list to “permanently receive a ballot application by mail.”³

This was a clear case where an unwitting “useful idiot” Republican legislature played right into the hands of the Democrat Party's Grand Strategy. Note: the term “useful idiot” is attributed to Vladimir Lenin. It describes naïve people who can be manipulated to advance a political cause.

This sweeping bill also extended the amount of time voters could register to vote; extended mail-in and absentee submission deadlines; and authorized a \$90 million bond to “reimburse counties for 60 percent of their actual cost to replace voting systems.”⁴

Rule Changes by the Secretaries of State

Secretaries of State in Georgia, Michigan, Nevada, and Pennsylvania bypassed their State Legislatures to issue rule changes that effectively allowed the counting of illegal ballots. They did so under the theory that the executive agency makes the rules while power is derived by legislation passed.

For example, on May 19, 2020, Michigan Democrat Secretary of State Jocelyn Benson, elected with the help of George Soros,⁵ announced that all registered voters in the August 4, 2020, primary and the November 3, 2020, General Election would receive mail-in ballot applications automatically.⁶ This was a sweeping change.

Regrettably, it wasn’t just Democrat officials who were involved in promulgating such rule changes. As another useful idiot for the Democrats’ Grand Strategy, Georgia’s Secretary of State Brad Raffensperger played right into their hands. On March 24, he announced that election officials would mail absentee ballot request forms to all of Georgia’s 6.9 million active voters for the primary election. This *universal ballot* measure was taken not just for the Presidential Primary Election on May 19 but also for the General Election on November 3.⁷

Rule Changes by Election Officials Other than Secretaries of State

Rule changes were also enacted by other election officials, effectively bypassing any chain of command running through either the Secretary of State or State Legislature. These changes likewise contributed to the expansion of absentee and mail-in ballot voting.

For example, in Georgia, the State Election Board approved a rule in April of 2020 to allow Georgia voters to cast ballots by drop boxes on a twenty-four hours a day basis,⁸ using the CCP Virus pandemic as justification.⁹ This was a clear case of bending or breaking the rules, as Georgia state law does not permit counties to collect ballots outside of the normal business hours of Election Offices. Moreover, as this expanded drop box capability was implemented, poll observers testified that they were obstructed from observing ballot counting and processing, meaning that fraudulent ballots could have been dumped into these 24/7 drop boxes prior to collection.¹⁰

Similarly, on October 18, 2016, the Wisconsin Election Commission unanimously voted on a rule change¹¹ for so-called “ballot curing” contrary to state law (specifically Wisconsin Statutes 6.84 and 6.86).¹² With this illegal rule change, the Wisconsin Election Commission instructed that mail-in ballots with missing addresses should be cured, that is, fixed.¹³ However, Wisconsin Election Law states: “If a certificate is missing the address of a witness, the ballot may not be counted.”¹⁴

This may well be a case where the Republican Party was sleeping on the job. This change went unchallenged for eleven statewide elections until the Trump campaign took action following the November 3 election where mail in ballots played a crucial role.¹⁵ The lack of a more timely challenge notwithstanding, the action taken by the Wisconsin Election Commission was clearly illegal.

Guidance Issued by Secretaries of State

As an additional gambit, Secretaries of State and other government officials in four of the six battleground states – Michigan, Nevada, Pennsylvania, and Wisconsin – have pushed the envelope of their authorities and beat the rules to unilaterally bypass state legislatures and other election officials to issue so-called “guidance.” Their goals are to effectively expand the universe of absentee and mail-in ballots while reducing scrutiny of such ballots. Moreover, they did so often in clear contradiction of State Election Codes.

The poster children for this problem – and two shining examples of the corrosive effects of the oligarch George Soros on the integrity of American elections – are Michigan’s Secretary of State Jocelyn Benson and Pennsylvania’s Democrat Secretary of State Kathy Boockvar. Both of these liberal extremist puppets were elected with the help of the so-called “Secretary of State Project,” a political action committee funded by George Soros and members of the Democracy Alliance.¹⁶

The goal of the Secretary of State project was to build a “Democrat Firewall” in key battleground states by placing progressive extremists in positions of authority where they would be willing to bend, and, at times, break the law.¹⁷ This is exactly what has happened in the 2020 Presidential Election.

Consider, for example, Boockvar’s arguably unlawful guidance on September 15, 2020.¹⁸ She directed local election officials not to perform on-the-spot signature analysis for absentee and mail-in ballots. In effect, mail-in ballots could not be rejected even if election officials deemed there was an improper signature match. When it comes to outrageousness, this is about as outrageous as it gets in terms of DECREASING the scrutiny of mail-in and absentee ballots.

More broadly, Boockvar appeared to exhibit a total disregard for the sanctity of our legal system when she submitted clearly unlawful guidance a few days before the November 3 election that allowed voters missing proof of identification to have their mail-in ballots cured until November 12 – nine days after the election. This did indeed break the law; and the Pennsylvania Supreme Court agreed, finding that Boockvar lacked the statutory authority to take that step.¹⁹ Yet it was a clear and blatant attempt by a Soros puppet to rig the election.

George Soros certainly got his money’s worth as Boockvar also sought to extend deadlines for mail-in ballots,²⁰ citing concerns over delivery times involving the United States Postal Service.²¹ Republicans opposed the action.²² Said Pennsylvania Senate Majority Leader Jake Corman (Republican): “The issue is [that]...Secretary [Boockvar is] trying to influence this process by

sending out guidance at the 11th hour.” He also expressed that the (Pennsylvania) State Department had been “weaponized” and influenced by partisan attempts to sway the vote.²³

Not to be outdone, in September 2020, another Soros puppet –Michigan Secretary of State Jocelyn Benson–encouraged voters, along with Democrat Governor Gretchen Whitmer, to vote by absentee ballot and drop off ballots in drop boxes in order to “decrease the spread of COVID-19.”²⁴ She also urged voters “not to wait too long” to send in their ballots and to take the ballots directly to their clerks’ offices for submission.²⁵

Court Rulings

The American nation has been witness to the spectacle of our judicial branch likewise being used as a useful idiot for the Democrat Party’s Grand Strategy to steal the presidential election. The problem here is that of judicial activism: far too often activist judges have let partisanship and their own ideology get in the way of a sober and clinical interpretation of the law. In this vein, Table Two below provides an overview of a number of court rulings that effectively advance the Democrat Party’s Grand strategy.

Table Two

Court Rulings to Change 2020 General Election Laws			
State	Case	Ruling Date	Result
Arizona	<i>Arizona Democrat Party v. Katie Hobbs</i>	9/10/2020	Ballot curing extension <u>5 days</u> after Election Day
Arizona	<i>Mi Familia e Vota v. Katie Hobbs</i>	10/5/2020	<u>2 week</u> voter registration deadline extension
Georgia	<i>Georgia Coalition for the People's Agenda v. Brian Kemp</i>	11/2/2018	Green card holders without proof of U.S. citizenship permitted to vote
Michigan	<i>Robert Davis v. Jocelyn Benson</i>	8/26/2020	Universal absentee ballot applications
Nevada	<i>Paher v. Cegavske</i>	4/27/2020	Universal mail-in voting
Pennsylvania	<i>Pennsylvania Democratic Party v. Kathy Boockvar</i>	9/17/2020	Absentee ballot submission extension <u>3 days</u> after Election Day
Wisconsin	<i>Sari Ratner Judge et al v. Board of Canvassers for the City of Madison</i>	10/23/2020	Legalize ballot harvesting events (e.g. "Democracy in the Park")

Consider, for example, the ruling of September 10, 2020 by Obama-appointed Judge Douglas Reyes of the U.S. District Court of Arizona. He ordered an extension period for absentee ballots for the 2020 General Election and thereby allowed missing signatures to be added to vote-by-mail ballots. In this dramatic expansion of the rules for curing ballots, election officials were allowed to give voters until 5:00 PM on the fifth business day after the election to sign their vote-by-mail ballot envelopes if they failed to sign at the time they submitted the ballots.²⁶

Similarly, on August 26, 2020, Michigan Court of Claims Judge Cynthia Stevens, appointed by then-Governor and Democrat Jennifer Granholm, ruled that Michigan Secretary of State and Soros puppet Jocelyn Benson had the authority to mail all Michigan registered voters (7.7 million total) absentee ballot applications for the November 3rd election.²⁷ This, likewise, was a dramatic expansion of universal mailing.

Court Interventions

Democrat-backed and funded third-party groups during the 2020 Election would also intervene in court cases or submit petitions in order to coerce state government officials and judges into pushing Radical Left election law changes.

For example, the oligarch George Soros spent over \$28 million on influence operations during the 2020 Election.²⁸ He funded groups like the Brennan Center for Justice which intervened on behalf of powerful Democrats like his puppet, Michigan Secretary of State Jocelyn Benson.

During the *Davis v. Benson* case, three plaintiffs sued Secretary Benson²⁹ for her decision to mail absentee ballot applications to all Michigan voters ahead of the 2020 Presidential Election.³⁰ On August 25, 2020, the Michigan Court of Claims ruled in favor of Benson, granting her the authority to send ballot applications to all Michigan voters.³¹ Again, it is useful to note here that this was a dramatic expansion of universal voting through absentee and mail-in ballots, with such universal voting as one of the worst conduits for illegal votes.

Not to be outdone, the leftist organization *Democracy Docket*, founded by Marc Elias, former General Counsel to the 2016 Hillary Clinton campaign, intervened in court cases to push election law changes consistent with the Democrat Party's Grand Strategy across all six states.³² A case in point: Elias and Democracy Docket supplied lawyers as "Intervener Defendants" and filed a motion to intervene in the *Election Integrity Project of Nevada v. Nevada* case.³³

It is well worth noting here that Elias is also credited with hiring the dirty tricks group Fusion GPS to "compile the 'Russia dossier' to dig up dirt on Donald Trump in the 2016 race."³⁴

It is as remarkable as it is abhorrent that the Trump Administration's Department of Justice did not conduct a full investigation and issue indictments in a Russia Hoax that ended in a complete exoneration of President Trump. Effectively, the Elias-led effort has institutionalized the idea that it is perfectly acceptable to run propaganda campaigns for the purpose of toppling duly elected government officials, including the President himself.

Petitions for Public Referenda

As Table Three illustrates, the Democrat Party also used public referenda to change election laws in both Michigan and Nevada. The purpose of these referenda was to dramatically expand absentee and mail-in voting – just as the Democrat Party Grant Strategy dictates. These referenda are financed in part by the Wall Street oligarch George Soros; and it is worth noting here that Soros,

the consummate globalist, made billions by “breaking the Bank of England” while inflicting great harm on the British working class.³⁵ It is equally worth noting that the Globalist Soros has a strong antipathy towards the Economic Nationalism of Donald J. Trump.

Table Three

Law Changes through Public Referenda			
State	Referenda	Date	Provisions
Michigan	Voting Policies in State Constitution Initiative (Proposal 3)	11/3/2018	Straight-ticket voting, automatic voter registration, same-day voter registration, "no-excuse" absentee voting, pre-processing of ballots, military and overseas voters to receipt absentee ballots 45 days prior to Election Day, extended mail-in voter registration until 15 days prior to an election, state-wide audits of election results
Nevada	Automatic Voter Registration (via DMV Initiative)	11/6/2018	Automatic voter registration for all Nevada citizens when receiving select services from the Nevada Department of Motor Vehicles

Proposal 3 in Michigan was one of the most radical and sweeping changes to election law ever witnessed in America. Changes consistent with the Democrat Party’s Grand “Stuff the Ballot Box” Strategy included: straight-ticket voting, automatic voter registration, same-day voter registration, no-excuse absentee voting during the 40 days before an election, extended mail-in voter registration until fifteen days prior to an election, and the auditing of election results.³⁶

Proposal 3 was backed by Soros-financed far Left groups like *Promote the Vote*. *Promote the Vote* spent \$2.5 million collecting signatures for the Proposal 3 petition and for consulting and marketing.³⁷ The referendum wound up passing with sixty-six percent of the vote in the 2018 Midterm Election. Democrat Governor Gretchen Whitmer and Soros puppet Secretary of State Jocelyn Benson both heavily promoted this radical weakening of election laws in the mainstream media.³⁸

In fact, Proposal 3 was an encore to a similarly successful Soros-backed public referendum in Nevada. Shortly after the 2016 election, leftist organizations such as iVote and the ACLU of Nevada, both with ties to Soros,³⁹ spent tens of millions of dollars in Nevada collecting 55,000 signatures to submit a petition for “automatic voter registration” law changes in Nevada.⁴⁰

The proposed legislation eventually passed by public referendum in 2018. It mandated that individuals would be automatically registered to vote when receiving select services from the Nevada Department of Motor Vehicles (DMV), such as obtaining a renewal or change of address for a license or identification card. In order to not be registered to vote, individuals would have to decline the registration by submitting a request in writing—an obvious strong incentive to be registered.⁴¹

Public-Private Partnerships (*Zuckerberg-Soros Effect*)

Both the Wall Street oligarch George Soros and the Silicon Valley oligarch and Facebook CEO Mark Zuckerberg used their deep pockets to finance public-private partnerships that would help advance the Democrat Party's grand strategy.

Zuckerberg money – nearly half a billion dollars – helped engineer what was effectively a hostile Democrat Party “public-private partnership” takeover of what should otherwise be a nonpartisan election process in key Democrat strongholds such as Wayne County, Michigan and Dane County, Wisconsin, and Philadelphia County, Pennsylvania.

It is worth noting that there is only one degree of separation between Soros and Zuckerberg. Zuckerberg's Center for Tech and Civic Life (CTCL) was founded in 2012 and is staffed by people that worked at the New Organizing Institute, a now defunct organization that was funded in part by George Soros' Open Society Foundation.⁴² During the 2020 Election, it would be Zuckerberg's CTCL that would spend hundreds of millions of dollars to fund cities, towns, and counties for “election administration.”⁴³

For example, Wisconsin used a \$6.3 million CTCL grant from Mark Zuckerberg to support the installation of drop-boxes and illegal ballot harvesting events like “Democracy in the Park.” These funds were also used to help with various other election administration activities in several Democrat strongholds including Milwaukee, Madison, Green Bay, Racine, and Kenosha.⁴⁴

Similarly, Pennsylvania received over \$12 million from CTCL. Fully \$10 million of those funds poured into the Democrat-dominated Philadelphia to help boost turnout and count ballots. The strings attached to these funds required the city to open no fewer than 800 new polling places, thereby dramatically changing how Philadelphia managed its General Election processes.⁴⁵ In a clear violation of its tax-exempt status, CTCL has posted anti-Republican and anti-Trump statements on social media.”⁴⁶

Despite its claims of non-partisanship, CTCL's officials have a documented history of involvement in left-wing political movements. A complaint filed on August 28, 2020 with the Wisconsin Elections Commission (WEC) showed that the organization is comprised of Barack Obama's allies who were highly skilled in recruiting Democrat voters to the polls.⁴⁷

It is also worth noting here that while this report does not examine any possible interventions by the Chinese Communist Party into our election, Mark Zuckerberg has long sought to enter the Chinese market. He speaks fluent Chinese,⁴⁸ and his company, Facebook, has – despicably – hired

Chinese Communist Party members⁴⁹ to increase Facebook's ability to censor Trump supporters and the conservative movement.

Zuckerberg also has expressed sympathies for Chinese Communist Party ideology. In 2014, Zuckerberg met with Chinese internet Czar Lu Wei in Silicon Valley, and was caught on Chinese state-run media promoting Chairman Xi's book entitled "The Governance of China."⁵⁰ In fact, Zuckerberg also distributed this propaganda trash to his colleagues, because he desired for them to understand Communist Party ideology such as "socialism with Chinese characteristics."⁵¹ In 2016, Zuckerberg also met with China's propaganda chief, Liu Yunshan, and praised the Communist Party for its "development of the internet."⁵²

As for George Soros and his web of progressive organizations, the Soros effort to influence the 2020 election ironically would be assisted by a key department in the Trump Administration, the Department of Homeland Security (DHS). In November 2019, DHS announced it would partner with Soros-funded VotingWorks – a left-of-center non-profit provider of voting machines and open-source election verification software – to salt key battleground states with voting machines.

Alleged Russia Hoax participant Marc Elias used tactics similar to Soros and Zuckerberg that likewise helped advance the Democrat Party's Grand Strategy. For example, Elias assisted Stacey Abrams' nonprofit, the New Georgia Project, in filing a complaint on May 8, 2020, which called for radical Election Law changes. These changes included absentee ballot receipt deadline extensions and increased ballot curing.⁵³

Elias' plan would reap major fruit in Gwinnett, Georgia, as Republicans lost major races for District Attorney, Sheriff, and County Commission Chair. The Democrat Party also flipped the 7th Congressional District seat to the blue side.⁵⁴

Propaganda "Public Awareness" Campaign

Many of the gambits advanced by the Democrat Party, their operatives, and their useful idiots were done under cover of "public awareness" campaigns that often amounted to little more than propaganda. Such campaigns were designed to target voters through published statements, reports, and media stories. The goal was to influence – and soften – public attitudes towards the liberalization of absentee and mail-in voting.

For example, in leaked documents from Soros' Open Society Foundation, the Soros-funded Brennan Center was listed as the recipient of funds earmarked for the express purpose of "litigation to expand access to registration and improve ease of voting."⁵⁵ As was common practice with the Democrats, the Brennan Center would use the shield of the CCP virus pandemic to advance its goals.

For example, in March of 2020, the Brennan Center issued a memo to influence mail-in ballot election law changes as a result of the CCP Virus pandemic. The memo stated: "All voters should be offered the option to cast their ballot by mail (with multiple submission options, as provided below), so as to enable voters to avoid lines at the polls and exposure to COVID-19."⁵⁶

Soros-funded Brennan Center memo also made five key recommendations aimed at expanding absentee and mail-in voting. These included: (1) polling place modification and preparation; (2) expanded early voting; (3) a universal vote-by-mail option; and (4) voter registration modification and preparation, including expanded online registration.⁵⁷

Democrat Methods to Dramatically INCREASE Absentee and Mail-In Ballot Voting

Let’s turn next to an examination of the various methods the Democrats used to dramatically INCREASE absentee and mail-in ballot voting in the battleground states. As previously introduced, Figure Six below illustrates the seven principal methods. These methods were identified from an analysis of the various modifications made to state election laws and rules and procedures in advance of the 2020 presidential election.

Note that a checkmark in a given cell in the matrix indicates that particular mechanism was present in a particular state. For example, universal mailing of absentee and/or mail-in ballots was observed in both Nevada and Wisconsin. Similarly, there is an increase in voting through the use of drop boxes in Georgia, Michigan, and Pennsylvania.

Of the six battleground states, Georgia and Wisconsin were subject to six of the seven methods of boosting absentee and mail-in ballot voting while at the other end of the scale Arizona was subject to three.

Figure Six

Dramatically INCREASE Absentee and Mail-In Ballots						
	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
Relax Mail-In & Absentee Ballot Rules	✓	✓	✓	✓	✓	✓

Increase Voting by Drop Boxes		✓	✓		✓	
Illegal Use of Ballot Drop Boxes		✓	✓			✓
Ballot Harvesting	✓	✓		✓		✓
Use of Potentially Corrupt Voting Machines	✓	✓	✓	✓	✓	✓

Relaxed Mail - in / Absentee Ballot Requirements

The relaxation of absentee and mail-in ballot requirements was accomplished in a variety of ways. For example, on March 27, the Dane and Milwaukee County Clerks in Wisconsin issued guidance to voters that the pandemic was grounds for *anyone* to be considered an “indefinitely confined” voter.⁵⁸ In effect, this gutted the ID verification process for anyone who chose to identify as indefinitely confined because it allowed these voters to cast their ballots without presenting proper ID as a condition for an absentee ballot.⁵⁹

As a result of this change, the number of indefinitely confined voters surged in Dane and Milwaukee counties – two Democrat strongholds – from 72,000 in 2019 to over 240,000 by November 3, 2020.⁶⁰ Within the context of Democrat Party’s Grand Strategy, this was a twofer. The guidance simultaneously expanded the universe of absentee and mail-in ballot voters while lowering the level of scrutiny of these ballots.

Similarly, in Pennsylvania, a lawsuit was filed by the Democrat Party on July 10, 2020, citing Act 77’s provisions to expand absentee voting for all Pennsylvania registered voters.⁶¹ On September 17, the Pennsylvania Supreme Court ruled in favor of the Democrat Party, allowing a three-day receipt deadline for absentee ballots postmarked by 8 PM on Election Day (November 3). In other words, ballots with a “pre-election” postmark were counted as long as they were received by 5 PM on November 6th, three days after polls closed. 10,000 absentee ballots in Pennsylvania were received after 8:00 PM on November 3.⁶²

Legalizing Universal Mailing of Mail-in/Absentee Ballots

Several states across the U.S. conduct all mail-in voting. These include Colorado, Hawaii, Oregon, Utah, and Washington. In other words, these states send mail-in ballots automatically without the voter’s consent. However, universal mail-in ballots are historically subjected to higher rates of fraud due to lack of I.D. verification, individuals submitting ballots multiple times without being detected, and voting under the identity of another individual; and each of these examples are apparent during the 2020 Presidential Election.

As part of its Grand Strategy, the Democrat Party and its operatives were successful in pushing for universal mail-in voting in Nevada and Wisconsin. In both of these states, election laws were altered so that mail-in ballots could be sent automatically to every individual on the voter rolls.

For example, on August 3, 2020, Democrat Governor Steve Sisolak (D) in Nevada signed AB-4 legislation into law. It directed election officials to distribute mail-in ballots automatically to all active registered voters for the November 3, 2020, General Election. This bill also gave Sisolak the authority to bypass Republican Secretary of State Barbara Cegavske and command her to adjust election procedures during a declared State of Emergency.

Note that the CCP virus pandemic again was used to justify this power grab. This alleged “reform” has led to substantial fraud; for example, roughly 15,000 mail-in or absentee ballots were counted in Nevada from voters who had voted in other states.⁶³

Legalizing Universal Mailing of Applications for Mail-in/Absentee Ballots

Closely related to the method of sending mail-in ballots to all registered voters is the technique of sending absentee ballot applications to all registered voters. This was done in Georgia, Michigan and Wisconsin.

For example, as previously noted, on August 26, 2020, the Michigan Court of Claims ruled that Michigan Secretary of State Jocelyn Benson had the authority to mail all Michigan registered voters (7.7 million total) absentee ballot applications for the November 3rd election.⁶⁴

Similarly, on June 17, 2020, the Wisconsin Election Commission voted unanimously to send absentee and mail-in ballot applications automatically to 2.7 million registered voters for the November 3, 2020, general election, who had not originally requested mail-in ballots.⁶⁵

Increase Voting by Drop Box

As discussed in Volume 1 of the Navarro Report, the use of ballot drop boxes raises huge chain of custody issues. As a further complicating issue, ballot harvesting, which is illegal in ten states, becomes much easier with the use of drop boxes.

Perhaps for this reason, prior to the 2020 election season, only thirteen states used ballot drop boxes. In this year's November General Election, however, that number skyrocketed to thirty-eight states and Washington, D.C.⁶⁶

Consider, for example Georgia. Ahead of the 2020 Presidential Primary Election held on June 9, the State Election Board required that "County registrars are authorized to establish one or more drop box locations as a means for absentee by mail electors to deliver their ballots to the county registrars."⁶⁷ Drop Boxes were then installed in nineteen of Georgia's 159 counties.⁶⁸

Similarly, in Michigan, there appears to have been a conscious effort to stuff the ballot box by stuffing Democrat strongholds with drop boxes. Thirteen new drop boxes were established in Lansing,⁶⁹ five in Ann Arbor,⁷⁰ and nearly forty in Detroit,⁷¹ As of the November 3 Election, Michigan had a total of 700 drop-boxes statewide.⁷²

Both Governor Whitmer and Soros puppet Secretary of State Benson issued statements in September 2020 to encourage voters to vote by absentee ballot and submit ballots via drop box in order to "decrease the spread of COVID-19."⁷³ Here again, we see the Democrats hid behind the shield of the CCP virus to advance their Grand Strategy.

Illegal Use of Drop Boxes

In at least some cases, the expanded use of drop boxes was a clear violation of state law.

Consider, for example, Wisconsin. Drop boxes are clearly illegal according to state election law.⁷⁴ Yet, the Wisconsin Election Committee nonetheless illegally issued guidance on August 19, 2020, to election officials in all municipalities throughout the state. It designated "drop boxes or mail slots set up for taxes, mail and public utilities as secure ballot drop locations" and suggested

“partnering with businesses...such as grocery stores and banks” as places voters could cast their ballots.⁷⁵

For example, in Pennsylvania, ahead of the 2020 Presidential Primary, ballot drop boxes were established in violation of state law under Secretary of State Boockvar’s knowledge and consent.

Similar problems arose in Pennsylvania. On June 29, 2020, the Trump Campaign filed a complaint to Secretary of State Boockvar and sixty-seven county officials in Pennsylvania, stating that the Secretary of State established drop boxes illegally by failing to provide adequate security, oversight, and supervision over the drop boxes. These conditions would thereby foster an environment that would encourage the legal ballot harvesting and/or tampering.⁷⁶

As indicated in Volume 1 of the Navarro Report, numerous abuses were indeed observed. For example, ballots were illegally dumped into drop boxes at the Nazareth, Pennsylvania, ballot drop box center, in violation of state law.⁷⁷ Another witness in Pennsylvania with video and photo evidence caught a man coming out of an unmarked Jeep extracting ballots from an unsupervised ballot drop box to be brought into a ballot counting center.⁷⁸

It’s not just that these drop boxes were illegally deployed. They were disproportionately deployed in urban areas with higher Democrat registration, favoring Joe Biden.⁷⁹

Ballot Harvesting

“Ballot harvesting” is the practice of allowing individuals to collect ballots from voters and deliver these bundles of votes to polling stations or drop boxes. Given the obvious chain of custody issues associated ballot harvesting – and the equally obvious opportunities to engage in fake ballot manufacturing – it is no surprise that many states forbid the practice.

These dangers to our democracy notwithstanding, the Democrat Party successfully pushed for the passage of legislation to legalize ballot harvesting in the battleground states of Georgia, Nevada, and Wisconsin.⁸⁰

On August 3, 2020, Nevada Democrat Governor Steve Sisolak called a special session with the State Legislature and signed Assembly Bill 4.⁸¹ It legalized the practice of ballot harvesting.

Bill 4 passed on a party-line vote through both the state Senate and Assembly, with Democrats in favor⁸² and all Republicans opposed.⁸³ Implementation of this bill took place over the strong objections of Nevada Republican Secretary of State Barbara Cegavske who warned that expanded ballot harvesting could fraudulently tip the scales in elections.⁸⁴

In both Georgia and Wisconsin, where ballot harvesting is illegal,⁸⁵ Democrat operatives nonetheless pushed the envelope of the law to run ballot harvesting operations. For example, several Democrat non-profits took advantage of the Georgia ballot-curing extension deadline and

conducted an absentee ballot-harvesting operation. This operation alone is suspected to have added enough Democrat votes to tip the scales in favor of Joe Biden.⁸⁶

To engage in this end run around the law, these organizations called themselves “Ballot Rescue Teams.” They deployed Democrat volunteer activist operatives to call voters and knock on voters’ doors as part of this operation.⁸⁷

As for Wisconsin, city officials in the Democrat stronghold of Madison assisted in the creation of more than 200 “Democracy in the Park” illegal polling places. These *faux* polling places were promoted and supported by the Biden campaign. They provided witnesses for absentee ballots and acted in every way like legal polling places—but weren’t. Moreover, they received ballots outside of the limited fourteen-day period preceding an election that is authorized by statute for in-person or absentee balloting. These were all clear violations of state law that had the effect of propagating ballot harvesting.

Installation of Potentially Corrupt Voting Machines

Much has been written about how vulnerabilities in voting machine systems may be exploited by cyber hackers and other bad actors to alter the count of actual ballots. A poster child for this problem is the dramatic malfunction that was observed with Dominion Voting Systems in Antrim, Michigan to the detriment of the count for President Trump.⁸⁸

In July of 2019, the nonprofit group Fair Fight Action issued a report claiming that another system—Election Securities and Software (ES&S)—has demonstrated “systematic disregard for basic security best practices and a complete lack of competence in the manufacturing of reliable voting machines.” The report also cited “large-scale negligence [that] exposed personal data of millions of voters, left tens of thousands of names off rolls and led to massive delays in vote counts across the country.” Moreover numerous US Senators “have expressed national security concerns after ES&S lied to federal lawmakers, refused to reveal which states were sent critically flawed machines, and vigorously fought attempts to reveal reliability information.”⁸⁹

Despite such concerns and warnings, Dominion and ES&S were implemented in all six battleground states between 2017 and 2020. For example, in March of 2020, Georgia rushed to install 30,000 new electronic voting machines from Dominion. State evaluators warned that these machines were subject to vulnerabilities.⁹⁰ Nonetheless, they were installed in all of Georgia’s 159 counties.⁹¹

In 2019, Pennsylvania installed Dominion in fourteen of Pennsylvania’s sixty-seven counties, resulting from guidance issued by the Soros puppet Secretary of State Boockvar.⁹² In 2020, 33 counties in Pennsylvania also installed the ES&S system. These counties included the Democrat strongholds of Philadelphia and Montgomery.⁹³ (Dane and Milwaukee in Wisconsin also use ES&S which were also found to be susceptible to vulnerabilities).⁹⁴

In March of 2017, the Michigan state government and twenty-two localities likewise awarded Dominion a \$31.5 million contract to provide voting machinery statewide. The top-spending local governments included the cities of Detroit (\$457,880), Dearborn (\$22,975), and Livonia (\$65,310) in Democrat-dominated Wayne County.⁹⁵

Dramatically DECREASE Democrat Ballots Rejected Across Six Battleground States

Even as the Democrat Party sought to dramatically INCREASE the amount of absentee and mail-in ballots, they also sought to dramatically DECREASE the level of scrutiny of such ballots. The practical effect of a reduced level of scrutiny – fewer “election cops” on the beat – was to significantly increase the level of illegal ballots able to FLOOD into the six battleground states.

Figure Seven illustrates how the five major gambits used to reduce scrutiny of absentee and mail-in ballots were distributed across the six battleground states. You can see from the figure that the State of Georgia effectively ran the table on behalf of the Democrats – no small irony given the fact that Georgia has both as useful idiots, both a Republican governor and a Republican Secretary of State.

In studying this figure, it is important to note that all methods of reducing ballot scrutiny are not created equal. One of the most critical elements of a free and fair election is the transparency one gains through comprehensive poll watching and observing. While both Pennsylvania and Michigan are characterized by only this method of reduced scrutiny, this method alone affected hundreds of thousands of potentially illegal votes in both states.

Figure Seven

Dramatically DECREASE Absentee and Mail-in Ballot Verification						
	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
Relax ID Verification	✓	✓		✓		✓
Reduce Signature Matching Requirements	✓	✓		✓		
Illegally Counting Naked Ballots		✓				
Increased Ballot Curing	✓	✓		✓		✓
Reduced Poll Watching/Observing		✓	✓		✓	

Relaxed ID Verification Requirements

The Democratic push for lower voter identification requirements most notably occurred in Arizona, Georgia, Nevada, and Wisconsin.

For example, behind the shield of the CCP virus, Democrat stronghold counties in Arizona like Maricopa and Pima allowed and encouraged residents of long-term care facilities to vote by video chat.⁹⁶ There is no way to verify voter identification by video call, and there is no oversight over special election boards to know, in fact, if ballots are being recorded accurately.⁹⁷

Similarly, as noted earlier, Wisconsin's Democrat-dominated Dane and Milwaukee counties allowed anyone to register as "indefinitely confined."⁹⁸ These Wisconsin votes were thereby tabulated without verifying photo ID.⁹⁹

Relaxed Signature-Match Requirements

A major way mail-in and absentee ballots can be verified is through a process called signature matching. All states require voters to provide signatures on their absentee and mail-in ballot return documents in order to verify identification.¹⁰⁰

Note that thirty-two states in the U.S. require election workers to match voter signature with a signature on record for the voter on their registration form.¹⁰¹ In this case, Arizona, Georgia, and Nevada all relaxed signature match requirements, bringing into question hundreds of thousands potentially illegal ballots.

Perhaps most egregiously, on March 6th of 2020, Georgia Secretary of State Brad Raffensperger, with the approval of Governor Brian Kemp, signed off on a secret legal agreement with the Democratic Party of Georgia, the Democrat Senatorial Campaign Committee, and the Democratic Congressional Campaign Committee to significantly alter absentee ballot procedures in Georgia.¹⁰² The Democrats' attorney for this secret deal was alleged Russia Hoax operative Marc Elias from Perkins Coie.¹⁰³

Originally, the signature-matching requirement in Georgia was such that the signature on the mail-in envelope had to match both the voter's signature stored in the State's E-Net system, as well as the absentee ballot application. The new guidance loosened these requirements; it only required that the signature on the absentee (mail-in) ballot envelope either must match the eNet signature, or the absentee ballot application, rather than both.¹⁰⁴ Further, the State required that if the election worker found a signature to not match, it couldn't be rejected unless a majority of the registrars, deputy registrars, or absentee ballot clerks reviewing the signature agreed.¹⁰⁵

This wholesale gutting of the state's signature-match requirement resulted in a drastic reduction in Georgia's absentee ballot rejection rate from 6.8% in 2016, to 0.34% during the 2020 Presidential Election. Effectively, almost none of Georgia's 1.3 million absentee ballots were rejected.¹⁰⁶ On top of this, Georgians were given the opportunity to "cure" or "fix" their ballot signatures on

ballots incorrectly filled out for three days after November 3 (Election Day).¹⁰⁷ If the flood of absentee ballots in the 2020 election had been rejected at the same rate as in the 2016 election, that would have been enough alone to flip the election to President Trump.

A similarly egregious problem reared its Grand Strategy head in Nevada. New legislation passed in August of 2020¹⁰⁸ allowed voters over sixty-five who have a disability or are unable to read or write to have someone assist them in physically marking signatures on their ballots.¹⁰⁹ These relaxed rules thereby have called into question at least some of the 400,000 ballots cast by Nevadans aged 65 and older. This “reform” also likely contributed to the statewide absentee ballot rejection rate dropping from 1.6% in 2016 to 0.58% in 2020.¹¹⁰

Illegal Counting of Naked Ballots

A quick review of the Figure Seven above indicates that the State of Georgia effectively cornered the market on the illegal counting of naked ballots. This was part of the bitter fruit of the aforementioned Georgia Consent Decree.

Increased Opportunities for Ballot Curing

As a fourth method to DECREASE the scrutiny of absentee and mail-in ballots, Democrats pushed for ballot curing leniency, which increased the ability or timeframe for curing problematic ballots. Ultimately, this effort allowed for illegally submitted mail-in or absentee ballots to be counted.

For example, on September 10, 2020, Obama-appointed Judge Douglas Rayes of the U.S. District Court for Arizona ordered election officials to give voters five business days after Election Day to sign their vote-by-mail ballot envelopes. Voters had until 5 PM on November 10 to sign the envelopes even if they failed to sign at the time they submitted the ballots.¹¹¹

In the wake of this order, Democrat volunteers raced around the state texting, calling, and knocking on people’s doors¹¹² to make sure thousands of ballots would be cured.¹¹³ Without the ruling, such votes would otherwise have been deemed illegal.

Perhaps most egregiously, the Wisconsin Election Commission unanimously offered guidance¹¹⁴ for vote curing, notably in contradiction of Wisconsin Statutes 6.84 and 6.86. For example, the Wisconsin Election Commission instructed curing mail-in ballots with missing addresses.¹¹⁵ This was despite Wisconsin Election Law plainly stating: “If a certificate is missing the address of a witness, the ballot may not be counted.”¹¹⁶ (Nevadans were also given a ballot-curing extension for up to a week after Election Day.)¹¹⁷

Reduced Poll Watching/Observing

Democrat Party officials and operatives repeatedly sought to reduce the meaningful access of Republican poll watchers and observers during the ballot counting process in half of the

battleground states. At the same time, these officials and operatives also sought to reduce the actual number of poll watchers and observers, often behind the shield of the CCP virus.

For example, Act 12 was passed by the Pennsylvania State Legislature on March 27, 2020. It mandated a reduction in the amount of poll workers.¹¹⁸ Also in Pennsylvania, certified Republican poll watchers were not allowed within six feet of ballot counters, and even kept at distances between 50 and 100 feet.¹¹⁹ Despite the disenfranchisement of observers and legal voters, counties like Philadelphia asserted that these restrictions had to go into effect due to pandemic social-distancing guidelines.¹²⁰ Such limitations would remain in place until a Pennsylvania Court Ruling went into effect on November 5, after hundreds of thousands of ballots had already been processed.¹²¹

Michigan, likewise, was a hotbed poll watcher and observer abuses designed to reduce the scrutiny of potentially illegal absentee and mail-in ballots. For example, Republican poll workers were kept more than six feet from ballot counters, sometimes, on entirely separate floors.¹²² Like in Pennsylvania, this flagrant denial of ballot observation was justified under CCP pandemic guidelines.

The practical effect of the Democrat Party's *Art of the Steal* was to substantially increase the number of potentially illegal ballots across all six battleground states. The equally practical result of the *Art of the Steal* was to effectively tip the balance of the election through the strategic gaming of the electoral process. While much of what the Democrats did was not *per se* illegal, what they did enabled illegal activity, namely, stuffing the ballot box with illegal mail-in and absentee ballots.

Concluding Observations

By implementing its Grand “Stuff the Ballot Box” Strategy, the Democrat Party and its political operatives have strategically gamed one of the most sacred elements of American democracy, our election system. This was brass knuckle politics at the highest level which has delivered a brutal punch to the nose of the American people and a vicious kick to the groin of American democracy.

That the Democrat Party and its operatives have, up to this point, gotten away with their Immaculate Deception and Art of the Steal represents a signal failure of the media, Republican state legislators, and other Republican government officials across the battleground states, the US Congress, and our judicial branch of government at both the state and federal levels.

Volumes 1 and 2 of the Navarro Report – *The Immaculate Deception* and *The Art of the Steal* – together make the strong case for a full investigation of the election irregularities and strategic gaming of our political process that in all likelihood have led to a stolen presidential election. Any such investigation must begin immediately as this nation simply cannot risk the inauguration of a president who will be perceived by a large segment of the American people as illegitimate.

**Yes, President Trump Won:
The Case, Evidence, & Statistical Receipts**

Volume Three of the Navarro Report

Introduction

Volume 1 of the Navarro Report, *The Immaculate Deception*, assessed the fairness and integrity of the 2020 Presidential Election by identifying and assessing six key dimensions of alleged election irregularities. These irregularities included: outright fraud, ballot mishandling, a wide range of process fouls, multiple violations of the 14th Amendment's Equal Protection Clause, voting machine irregularities, and statistical anomalies.

This assessment was conducted across six key battleground states – Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin. It would be the outcomes in these six states that would ultimately be election-determinate – just as the strategy of the Democrat Party assumed.

Evidence used to conduct *The Immaculate Deception* assessment included more than 50 lawsuits and judicial rulings, thousands of affidavits and declarations, testimony in a variety of state venues, published analyses by think tanks and legal centers, videos and photos, public comments, and extensive press coverage. Three key findings of the report include: (1) Six types of election irregularities were present and pervasive in most or all of the battleground states; (2) Each battleground state differed in its own way with respect to the types of irregularities that were election-determinate; (3) There was no single “silver bullet” that allegedly won the election for Biden; instead it was “death by a thousand irregularities” in any given battleground state; and, most importantly with respect to the question as to whether the election may well have been stolen, (4) the narrow alleged Biden “victory” margins in each of the six battleground states were dwarfed by the number of potentially illegal ballots.

Volume 2 of the Navarro Report, *The Art of the Steal*, examined the institutional genesis of the six types of election irregularities. One key finding: The Democrat Party efforts to strategically game the election process across the six battleground states began years before, and in many cases, shortly after President Trump was elected in 2016. A second key finding: the Democrat's This gaming of the election process was implemented through a two-pronged Grand “Stuff the Ballot Box” Strategy designed to flood the six key battleground states with enough un-scrutinized and potentially illegal absentee and mail-in ballots to turn a decisive Trump victory into a narrow alleged Biden “win.”

Prong One of the Democrat strategy dramatically INCREASED the amount of absentee and mail-in ballots. Prong Two dramatically DECREASED the level of scrutiny of such ballots. This resulted in a FLOOD of potentially illegal ballots into the battleground states more than sufficient to tip the scales from a decisive legal win by President Trump to a narrow and potentially illegitimate alleged “victory” by Joe Biden.

Importantly, much of what the Democrat Party and its operatives did to effectively achieve what may well be an illegal result was pursued through a variety of legal means. Nonetheless, at times, Democrat government officials also bent, and at times, broke the laws or rules of their state.

Volume 3 of the Navarro Report is designed to serve as a capstone to what has been a comprehensive analysis of the question: Was the 2020 presidential election stolen from Donald J. Trump? In this report, we provide the most up-to-date statistical “receipts” with respect to the potential number of illegal votes in each battleground state.

The broader goal of this final installment of the Navarro Report is to provide investigators with a well-documented tally of potentially illegal votes on a state-by-state and category-by-category basis. This tally is presented in *Figure One* on the next page of this report. Note that each number in this figure has a corresponding endnote identifying the source of the number. Note further that we have taken a conservative approach to the count of potentially illegal ballots.

As with previous volumes of the Navarro Report, you can see clearly in *Figure One* that the number of potentially illegal votes dwarfs the very thin alleged Biden “victory” margins. In the face of this evidence, no reasonable person would conclude that the 2020 presidential election was, beyond any shadow of doubt, a fair election. Rather, anyone who reads this report should feel compelled to seek greater clarity about whether, in fact, this election may have been stolen from Donald J. Trump.

While it is now politically correct in progressive circles and the mainstream media to demand that all Americans submit and confess to the “truth” of what may well be the fiction of a free and fair election for the sake of “unity” and “harmony,” such a Kafkaesque demand in the face of the evidence in this report will likely have the opposite effect.

To wit: almost half the country now believes that there were significant irregularities in the 2020 presidential race; and the failure to fully investigate these irregularities will only increase the number of Americans who have such doubts. This will be particularly true if the suppression of what necessarily must be a search for truth is facilitated by the authoritarian – nay fascist – behavior of a small group of social media oligarchs who have taken it upon themselves to de-platform and censor tens of millions of pro-Trump Americans who now find themselves victims, rather than consumers, of platforms like Facebook, Twitter, and YouTube.

In considering these truths, let us never forget two things: (1) The Democrat Party and its operatives stole the 1960 Presidential Election – it happened then and it can happen again; and (2) it took decades for historians to finally acknowledge the 1960 version of the Immaculate Deception in the face of the same kind of virtue-signaling and cancel culture pressures we are witnessing today.

Despite a similar quest to silence Republican and conservative voices today, 74 million Americans who voted for President Donald J. Trump have the right to a full investigation and bipartisan search for truth. If, however, the Democrat Party, RINO elements of the Republican Party, the anti-Trump mainstream media, and the out-of-control censoring social media oligarchs do not cease and desist from their efforts to suppress the search for truth about the 2020 election, history will judge all of these people, corporations, and institutions in the harshest possible manner.

At this point, we have moved dangerously in what seems like a nanosecond from a full and vibrant American Democracy to a Communist Chinese-style, Cancel Culture, Police State guarded by a collusive social media oligopoly that is beyond out of control.

In the remainder of this report, we will simply present the statistical “receipts” on a state-by-state and subcategory-by-subcategory basis what may well be the worst theft in American political history. If the U.S. Congress and State Legislatures across the six battleground states ignore this evidence, they will do so not just at their own peril but also at the peril of America’s faith in our elections and the sanctity of our Republic.

Vote Irregularities and Illegals by Category and State

	ARIZONA	GEORGIA	MICHIGAN	NEVADA	PENNSYLVANIA	WISCONSIN
Absentee ballots cast without statutorily required application						170,140
Absentee ballots cast that arrived after Election Day					10,000	
Absentee ballots cast that were requested before & after statutory deadline		305,701				
Absentee ballots cast from addresses other than where voters legally reside	19,997			15,000	14,328	
Absentee ballots cast that were returned on or before the postmark date	22,903				58,221	
Absentee ballots cast without a postmark					9,005	
Absentee ballots requested under the name of a registered voter without consent			27,825			
Dead voters		10,315	482	1,506	8,021	
Double voters: In-state	157	395		42,284	742	234
Felon voters		2,560				
Ghost voters	5,790	15,700				
Illegal ballot harvesting						17,271
Indefinitely confined voter abuses						216,000
Juvenile voters (<18 years old)		66,247				
Mail-in ballots cast by voters registered after the registration deadline	150,000					
No address on file for voter	2,000	1,043	35,109	8,000		
Non-citizen voters	36,473			4,000		
No corresponding voter registration numbers			174,384			
Non-registered voters(not on voter rolls)		2,423				
Out-of-state voters who voted in-state	5,726	20,312	13,248	19,218	7,426	6,848
Over-votes	11,676				202,377	
Poll watcher & poll observer abuses					680,774	
Signature matching errors				130,000		
Voting machine irregularities (fake/manufactured ballots & spikes)		136,155	195,755			143,379
Voters over 100 years old					1,573	
Voters who vote in the wrong county		40,279				
Possible Illegal Votes	254,722	601,130	446,803	220,008	992,467	553,872
Biden "Victory" Margin	10,457	11,779	154,818	33,596	81,660	20,682

The Arizona Battleground

Figure Two tabulates by category a total of 254,722 potentially illegal votes. This number constitutes roughly 24 times the alleged Biden victory margin of 10,457 votes. By far the largest category is 150,000 mail-in ballots cast by voters registered after the registration deadline. Another 22,903 absentee ballots were on record as having been returned on or before the postmark date, which is highly unlikely.¹

Figure Two

Vote Irregularities and Illegals	
CATEGORY	ARIZONA
Absentee ballots cast from addresses other than where voters legally reside	19,997
Absentee ballots cast that were returned on or before the postmark date	22,903
Double voters: In-state	157
Ghost voters	5,790
Mail-in ballots cast by voters registered after the registration deadline	150,000
No address on file for voter	2,000
Non-citizen voters	36,473
Out-of-state voters who voted in-state	5,726
Over-votes	11,676
Possible Illegal Votes	254,722
Biden "Victory" Margin	10,457
Margin of Error > Margin of Victory	24x

In reviewing the statistics in *Figure Two*, it is worth noting that Arizona had statistically improbable high voter turnouts in Maricopa and Pima counties; widespread ballot mishandling; and 1.6 million mail-in ballots (which disproportionately leaned towards Biden)² which were subjected to much lower standards of certification and ID verification than in-person votes (which leaned toward Trump).³

The Copper State also accomplished the remarkable feat of exceeding 100% turnout of its registered voters. This is indeed a remarkable feat because Arizona does not allow same-day voter registration. The "over-votes" alone totaled 11,676, an amount more than the purported Biden "victory" margin of 10,457.⁴

From the figure, it should also be clear that Arizona boasts a litany of other election irregularities. For example, a total of 19,997 persons voted where they did not reside⁵ while 2,000 voters did not have an address at all.⁶ 5,790 voters moved out of state or registered to vote in another state,⁷ 5,726

out-of-state residents voted in Arizona,⁸ and 36,473 individuals voted without providing evidence of citizenship.⁹

The Georgia Battleground

Figure Three tabulates by category a total of 601,130 potentially illegal votes in Georgia. This is more than 50 times the alleged Biden victory margin of 11,779 votes.

Figure Three

Vote Irregularities and Illegalities	
CATEGORY	GEORGIA
Absentee ballots cast that were requested before & after statutory deadline	305,701
Dead voters	10,315
Double voters: In-state	395
Felon voters	2,560
Ghost voters	15,700
Juvenile voters (< 18 years old)	66,247
No address on file for voter	1,043
Non-registered voters (not on voter rolls)	2,423
Out-of-state voters who voted in-state	20,312
Voting machine irregularities (fake/manufactured ballots & spikes)	136,155
Voters who vote in the wrong county	40,279
Possible Illegal Votes	601,130
Biden "Victory" Margin	11,779
Margin of Error > Margin of Victory	51x

From the figure, we see that the largest category of potentially illegal votes is that of absentee ballots cast requested before or after the statutory deadline. In the state of Georgia, voters have 180 days prior to Election Day to request absentee ballots, according to state law.¹⁰ However, during the 2020 Presidential Election, Georgia officials counted over 305,700 ballots cast by individuals who had requested absentee ballots more than 180 days before the absentee ballot request deadline, in blatant violation of Georgia Election Code.¹¹

From the figure, we also see that 10,000 ballots of deceased individuals were counted.¹² 15,700 votes were counted from "ghost" voters, that is, voters who requested and submitted ballots under the names of voters who no longer reside at a particular address.¹³ Similarly perplexing is that over 1,000 voters without an address cast ballots.¹⁴

Voting machines –which Georgia election officials were in an inexplicable rush to install leading up to the 2020 election¹⁵ – likewise may account for a substantial number potentially illegal ballots.¹⁶ There were also over 40,000 cases of voters voting in counties in which they did not legally reside, as well as over 66,000¹⁷ voters who had successfully cast ballots even though they were under the legal voting age of 18.

The Michigan Battleground

Figure Four tabulates by category a total of 446,803 potentially illegal votes in Michigan. This is almost three times the alleged Biden victory margin of 154,818 votes.

Figure Four

Vote Irregularities and Illegalities	
CATEGORY	MICHIGAN
Absentee ballots requested under the name of a registered voter without consent	27,825
Dead voters	482
No address on file for voter	35,109
No corresponding voter registration numbers	174,384
Out-of-state voters who voted in-state	13,248
Voting machine irregularities (fake/manufactured ballots & spikes)	195,755
Possible Illegal Votes	446,803
Biden "Victory" Margin	154,818
Margin of Error > Margin of Victory	2.8x

The largest amount of ballots in question in Michigan stems from inexplicable vote tabulation surges along with alleged voting machine irregularities¹⁸ and ballots counted despite lacking voter-registration numbers.

There were also two major questionable "Biden vote spikes" in the early hours of November 4th. At 3:50 AM EST, Michigan added 54,497 additional ballots cast for Joe Biden and just 4,718 votes cast for President Trump.¹ At 6:31 AM EST, an update showed an additional 141,258 votes cast for Biden, while President Trump received just 5,968 additional ballots.¹⁹

Additionally, it is illegal in Michigan to count absentee ballots without having corresponding voter registration numbers for corresponding precincts, according to state law. Despite this, election officials allowed over 174,000 of these ballots to be counted anyway.²⁰

Michigan also processed ballots of over 35,000 voters without addresses on state records,²¹ at least over 480 confirmed dead voters,²² and over 13,200 voters registered to vote in other states—in blatant violation of state election law.²³ Lastly, over 27,800 ballots were requested under the name of a registered voter without their knowledge and/or consent.²⁴

The Nevada Battleground

Figure Five tabulates by category a total of 220,008 potentially illegal votes in Nevada. This is roughly six times the alleged Biden victory margin of 33,596 votes.

Figure Five

Vote Irregularities and Illegalities	
CATEGORY	NEVADA
Absentee ballots cast from addresses other than where voters legally reside	15,000
Dead voters	1,506
Double voters: In-state	42,284
No address on file for voter	8,000
Non-citizen voters	4,000
Out-of-state voters who voted in-state	19,218
Signature matching errors	130,000
Possible Illegal Votes	220,008
Biden "Victory" Margin	33,596
Margin of Error > Margin of Victory	6x

Nevada's largest irregularities stemmed from the use of the Agilis signature-matching machines installed in Clark County to verify signatures on ballots. Using machines instead of people for signature match verification is in blatant violation of state law and calls into question the 130,000 ballots verified by these Agilis machines.²⁵

The Agilis machines were also alleged to have not been operated "in conformance with the manufacturer's recommendations" on Election Day. First, the images on file used by the Agilis machine to compare to the signatures on the outside of the mail-in ballots were of lower image quality than "suggested by the manufacturer" for the machine to operate properly, and the machine was altered or adjusted by election officials to a setting "lower than the manufacturer's recommendations," making the machine unreliable.²⁶

Nevada also registered 42,284 double voters,²⁷ ascertained by reviewing the list of voters and comparing voters with the same name, address, and date of birth—a method shown in peer

reviewed papers to have over 99% accuracy.²⁸ That category alone exceeds the alleged Biden victory margin of 33,596 votes.

In addition, 19,218 out-of-state voters cast ballots in Nevada. This was ascertained by lining up voter lists from all counties against publicly available USPS records on permanent change of addresses with other states and correcting for military and student voters.²⁹

Finally, 1,506 votes were cast in the name of deceased persons—verified by comparing mail voters with social security death records.³⁰ Over 8,000 ballots were cast by persons without addresses—found by referencing voters with the Coding Accuracy Support System and finding undeliverable addresses.³¹ 4,000 non-U.S. citizens also appear to have voted—found by comparing non-citizen DMV records to the list of voters.³²

The Pennsylvania Battleground

Figure Six tabulates by category a total of almost a million potentially illegal votes in Pennsylvania. This is roughly twelve times the alleged Biden victory margin of 81,660 votes.

Figure Six

Vote Irregularities and Illegals	
CATEGORY	PENNSYLVANIA
Absentee ballots cast that arrived after Election Day	10,000
Absentee ballots cast from addresses other than where voters legally reside	14,328
Absentee ballots cast that were returned on or before the postmark date	58,221
Absentee ballots cast without a postmark	9,005
Dead voters	8,021
Double voters: In-state	742
Out-of-state voters who voted in-state	7,426
Over-votes	202,377
Poll watcher & poll observer abuses	680,774
Voters over 100 years old	1,573
Possible Illegal Votes	992,467
Biden "Victory" Margin	81,660
Margin of Error > Margin of Victory	12x

By far the largest category of potentially illegal ballots – over 680,000 – is associated with poll observer abuses.³³ Certified Republican poll observers were kept at distances the length of a football field.³⁴ They were prevented from accessing back rooms where tens of thousands of ballots were being processed, and they were rounded up into restricted areas when trying to fulfill their legal duty to observe the ballot counting process.³⁵ Without meaningful observation of the ballot counting process, it is impossible to verify the legality of absentee and mail-in ballots.

State Representative Frank Ryan, along with several other members of the State Legislature, found that over 202,000 more ballots were cast than actual registered voters in the state.³⁶ In addition, there were 58,221 absentee ballots counted that were returned on or before the postmarked date on the envelope.³⁷ 9,005 additional ballots were counted without a postmark on the envelope,³⁸ in clear violation of state election law.

There were also over 14,300 absentee ballots cast from addresses in which registered voters did not legally reside,³⁹ over 7,400 registered voters from other states⁴⁰ that successfully cast ballots in the state of Pennsylvania, over 8,000 likely dead voters⁴¹ according to an analysis of state records and publicly available obituaries, and over 1,500 suspect votes in the names of persons over 100 years old.⁴²

Pennsylvania was not exempt from the double-voter problem either, with 742 voters on record as having voted twice,⁴³ adding several hundred fraudulent ballots into the mix.

The Wisconsin Battleground

Figure Seven tabulates by category a total of over half a million potentially illegal votes in Wisconsin. This is more than 25 times the alleged Biden victory margin of 20,682 votes.

By far the largest category of potentially illegal votes is associated with alleged “bad-faith voters” who registered as “indefinitely confined” and thereby broke “Wisconsin election law to circumvent election integrity photo identification requirements.”⁴⁴ These persons voted without showing a voter identification photo and therefore underwent a far less rigorous I.D. check than would otherwise have been conducted. (Wisconsin voters who had registered under “indefinitely confined” status were also seen attending weddings, riding their bikes, going on vacation, and otherwise not confined.)⁴⁵

In the wake of the expanded definition of indefinitely confined voters – a definition ruled legally incorrect by the Wisconsin Supreme Court – the number of indefinitely confined voters surged from just under 70,000 voters in 2019 to over 200,000 in 2020.⁴⁶ Through this one problematic dimension, the integrity of 216,000 Wisconsin votes were compromised in the 2020 General Election.⁴⁷

In addition, as illustrated in *Figure Seven*, 17,271 ballots were cast at 200 illegal polling places through “Democracy in the Park” events,⁴⁸ in direct violation of Wisconsin state law. These polling locations provided witnesses for absentee ballots and acted in every way like legal polling places. Moreover, many received ballots outside of the limited 14-day period preceding an election that is authorized by statute for in-person or absentee balloting. These were clear violations of state law. City of Madison officials facilitated the event which was broadcasted by Biden radio advertisements.⁴⁹

Figure Seven

Vote Irregularities and Illegalities	
<i>CATEGORY</i>	WISCONSIN
Absentee ballots cast without statutorily required application	170,140
Double voters: In-state	234
Illegal ballot harvesting	17,271
Indefinitely confined voter abuses	216,000
Out-of-state voters who voted in-state	6,848
Voting machine irregularities (fake/manufactured ballots & spikes)	143,379
Possible Illegal Votes	553,872
Biden “Victory” Margin	20,682
Margin of Error > Margin of Victory	26x

Finally, as noted in the figure, there were 6,848 voters registered in other states who voted in the state of Wisconsin—ascertained by comparing all states’ voter databases with the National Change of Address (NCOA) database.⁵⁰ Also, 234 individuals were documented as having voted twice in Wisconsin.⁵¹ Moreover, a whopping 170,000 in-person absentee ballots were cast without the submission of a legally required absentee ballot application.⁵²

Concluding Remarks

Based on this third and final volume of *The Navarro Report*, and as *Figure Eight* demonstrates, it should be clear that there are far more questions raised about the potential illegality of the 2020 presidential election than have been answered. Clearly, the case, evidence, and statistical receipts presented in this report provide a strong case that the 2020 election may well have been stolen not just from President Trump but also from the 74 million Americans who went to the ballot box in good faith in support of President Trump.

Figure Eight

Thorough Investigation Is Essential	
Possible Illegal Votes	3,069,002
Biden "Victory" Margin	312,992
Margin of Error > Margin of Victory	10x

In light of this evidence, it is impossible for anyone to claim that President Trump was in any way wrong in stoutly raising the question of election fraud and irregularities in the weeks following the November 3 election and in calling for his supporters to PEACEFULLY protest. Indeed, for the president not to rise to defend the integrity of the ballot box would have been a betrayal of the 74 million Americans who voted for the president thinking they were participating in what may well not have been a free and fair election.

In light of this evidence, it is also irresponsible – in the extreme – for the Democrat Party and its leadership, or journalists in the mainstream media, or RINO Republicans to claim there is no evidence of election irregularities. That’s absurd on its face. As this report shows, there is an abundance of evidence – a virtual cornucopia of potentially poisonous election irregularities.

In light of this evidence, this must also be said: Those American citizens who are now questioning the potential illegality of votes cast in the 2020 election should NOT be subjected by cable news networks, social media platforms, or the print media to the kind of abhorrent behaviors that we are now observing – social and political behaviors that are far more worthy of Communist China authoritarianism than American democracy.

From public shaming to de-platforming, doxing, and public calls to punish and shun all those who have supported the president or worked in his administration, these types of behaviors are not the American way. Rather, this is Orwell, Kafka, and Xi Jinping all rolled up into the death of the First Amendment and the death knell of our democracy.

Based on the analysis and the granular, documented quantities of illegal votes in this report, the only thing that must happen now as we engage in a peaceful transition of power is a FULL investigation of this matter.

- The Department of Justice should immediately appoint a Special Counsel BEFORE the Biden administration begins.
- State legislators and Attorneys Generals in the battleground states, particularly Republican states, must launch similar investigations.

Absent a full investigation, we as a nation run the risk of institutionalizing a rigged electoral system in which a large segment of America will no longer have faith in. That's why clearing the air about the 2020 presidential election is not just about Donald J. Trump but rather about something much larger and of far more import —the future of our election system, the public perception of that system, and ultimately the future of our free and democratic Republic.

FLORIDA 2020 ELECTION INVESTIGATIVE REPORT

We have found conclusive evidence that the results for the November 2020 Presidential election in Florida had to have been tampered with or altered in some fashion as there is absolutely no way the reported results would have occurred naturally.

To begin with, we compare 2020 results for all counties in Florida to what occurred in 2016. While you may believe that a lot could change in 4 years, we will show that what did change according to official data, does not support what happened in the results of the election and quite well proves that the results are fraudulent.

We will begin with basic statistics for the state.

Florida's **population grew by 4.6%** from 2016 to 2020.

Votes increased by 22% in the Florida Presidential Election between 2016 & 2020. This could be explained by the ease of absentee, mail in voting or the extended period that you were able to vote in person.

Democrat votes (for Biden) increased by 28% in 2020 over Clinton's in 2016 or an additional 1,160,000+ votes.

Republican votes (for Trump) increased by 17% in 2020 over Trump's for 2016, or an additional 820,000+ votes. Trump also gained ground with Latinos and increased his share of Miami-Dade county by 27% or over 112,000 votes.

Democrats increased their votes by 33% or more in 19 counties.

Republicans increased their votes by 33% or more in only 4 counties.

Democrats increased their votes by 50% or more in 8 counties.

Republicans highest increase was 34% in 2 counties & 33% in 2 counties.

Now contrast this with what we see in voter registration changes according to the official Florida Department of State, Division of Elections:

Democrats increased their registered voters by a mere 8.7% between 2016 & 2020 overall in the state of Florida.

Republicans increased their registered voters by 14.3% between 2016 & 2020 overall in Florida.

Next I want to call attention to the 10 most suspicious counties in terms of election results:

Clay, Collier, Duval, Lake, Lee, Nassau, Okaloosa, Santa Rosa, St. Johns & Walton. Keep in mind these are all highly Republican counties. See Table A. below for Democrat vs Republican statistics in those 10 counties.

TABLE A.

* % OF TOTAL DEM + REP VOTES *

COUNTY:	2016 % Rep	2020 % Rep	2016 % Dem	2020 % Dem	% chng in R Votes	% chng in D Votes	% chng in R Reg'd	% chng in D Reg'd
CLAY	77	68.8	23.0	31.2	+8	+65	+11.6	+14.2
COLLIER	70.1	62.4	29.9	37.6	+11	+57	+16.7	+20.3
DUVAL	58.4	48.1	41.6	51.9	-3	+47	+8.2	+15.1
LAKE	63	60.1	37	39.9	+25	+41	+19.6	+12.3
LEE	66.2	59.7	33.8	40.3	+13	+50	+14.3	+13.8
NASSAU	78.6	73.2	21.4	26.8	+22	+63	+20.5	+9.0
OKALOOSA	78.2	70.0	21.8	30.0	+7	+64	+9.0	+11.6
STA ROSA	80.4	73.7	19.6	26.3	+16	+69	+12.7	+3.1
ST JOHNS	72.9	63.5	29.1	36.5	+16	+79	+21.9	+27.8
WALTON	80.2	76.1	19.8	23.9	+28	+63	+29.3	+8.4
AVERAGES:	72.5	65.6	27.7	34.4	+14.3	+59.8	+16.4	+13.6

This chart tells us many things. First, you see a large decrease in Republican vote share in all 10 counties, despite them being high Republican majority counties, the average was a decrease of 7 points. Along with that we see Democrat share increase strongly in each of the 10 counties for an average increase of nearly 7 points.

Where we see the biggest difference is in the increase in voters. **Democrats** somehow managed to **increase votes by an AVERAGE OF 59.8%** this **while increasing** their **registered voters by only 13.6%** on average and **nearly 3% less than Republicans**. This would be next to impossible in heavily Democrat majority counties, but is even more unlikely (impossible) in heavily Republican majority counties.

This next chart shows the spread between increase in registered voters and increase in votes for each party.

TABLE B.

COUNTY:	% chng in DEM Reg'd Voters	% chng in REP Reg'd Voters	% chng in DEM Votes	% chng in REP Votes	DEM diff b/w Votes & Reg'd	REP diff b/w Votes & Reg'd	DEM spread vs REP spread
CLAY	+14.2	+11.6	+65	+8	+50.8	-3.6	+54.4
COLLIER	+20.3	+16.7	+57	+11	+36.7	-5.7	+42.4
DUVAL	+15.1	+8.2	+47	-3	+31.9	-11.2	+43.1
LAKE	+12.3	+19.6	+41	+25	+28.7	+5.4	+23.3
LEE	+13.8	+14.3	+50	+13	+36.2	-1.3	+37.5
NASSAU	+9.0	+20.5	+63	+22	+54	+1.5	+52.5
OKALOOSA	+11.6	+9.0	+64	+7	+52.4	-2	+54.4
STA ROSA	+3.1	+12.7	+69	+16	+65.9	+3.3	+62.6
ST JOHNS	+27.8	+21.9	+79	+16	+51.2	-5.9	+57.1
WALTON	+8.4	+29.3	+63	+28	+54.6	-1.3	+55.9
AVERAGES:	+13.6	+16.4	+59.8	+14.3	+46.2	-2.1	+48.3

Again, we see that **Republicans increased their voter rolls (REGISTERED VOTERS) by 16.4%, almost 3 points more than Democrat's increase of 13.6** and yet, the **AVERAGE VOTER INCREASE for Democrat votes across these counties was 59.8% vs a 14.3% increase for Republican votes**. An increase of 59% is a number that would be next to impossible to achieve in one heavily Democrat majority county, let alone in 10 highly Republican counties.

Again, **Republicans increased VOTES by 14.3% in line with their 16.4% increase in REGISTERED VOTERS**, while **Democrats increased VOTES 59.8% vs a 13.6% increase in REGISTERED VOTERS**. Where we see major RED FLAG is in the difference between **Democrat's registered voter increase and vote increase, a difference of 46.2 points (+46.2)** while **Republicans saw a 2.1 point SMALLER increase (-2.1 points)**. Somehow Democrat votes increase by an average of 46.2 points MORE than their increase in Registered Voters in these 10 counties, while Republicans saw a 2.1 point SMALLER increase. This defies all logic, that Democrats could **increase votes by nearly 60% while increasing registered voters by under 14%**.

When we compare the spread between registered voters and voters for Democrats and Republicans, we see that Democrats averaged a 48.3 point larger increase in voters over new registered voters. Said another way, when you back out the increase in registered voters, Democrats have an unexplained nearly 50% increase in voters. **Democrats increased votes 46 percentage points MORE than they increased registered voters while Republicans increased votes 2 percentage points LESS than their increase in registered voters.**

Next, we look at the counties in question on a map of Florida. We see that 4 of the 10 counties are clustered together in the Northeast of Florida and 3 are clustered together in the Northwest. 2 more are clustered together in the Southwest and one is alone in central Florida. What would explain these highly Republican counties seeing the biggest trends towards Democrat in 2020 and why were they clustered together? Did Biden campaign heavily there? No. Did Trump come out against industries in those areas? No. Did Republicans see a lack of enthusiasm or was there high enthusiasm for Biden in those counties? No. Were the counties grouped geographically to make it easier to manage rigging the election? Unclear. Again, we see no explanation for this enormous increase for Democrats in these 10 counties other than fraudulent election activity.

In our investigations we discovered other interesting data points. We found projected voters for each county by taking projected 2020 Census data for Florida population by county and subtracting under 18, non-eligible (4%) and incarcerated numbers from it. We then compared those numbers to registered voters from the official Florida DOS statistics and found additional RED FLAGS.

There were 33 of the 67 counties with 95% or higher registered voters as a percent of total projected voter population.

There were 10 counties with over 100% projected voters registered.

Of our 10 most suspicious counties, 5 had over 100% of potential voters registered. Again, of the 10 highly suspicious counties based on the numbers comparing 2020 results to 2016, **5 of them had Registered Voters above 100% of projected voters.** A 6th county had 98% registered.

Registered Voters as a % of Projected Voting Population:

Clay County	102 %
Nassua County	107 %
Santa Rosa Cnty	110 %
St. Johns Cnty	107 %
Walton Cnty	107 %
Okaloosa Cnty had	98 %

Other Counties:

Flagler Cnty	101 %
Gadsen Cnty	100 %
Gulf Cnty	109 %
Sarasota Cnty	110 %
Union Cnty	113 %
Wakulla	102 %

While population projections can be flawed, it is very telling that 6 of the 10 suspicious counties have very high registration percentages. Even if projections are flawed by 5%, that still leaves 4 of the 10 with over 100% voters registered plus 3 other counties over 100%. How many RED FLAGS does one need before they see the indications of fraud?

The last focus of this report is on the likely effect this interference had on the results of the election. We estimate this by looking at the unexplained increase in Democrat votes over and above their increase in registered voters. Again, we see what you would expect with Republican votes vs Republican registration numbers. Their increase in votes is in line with and typically a little less than their increase in registered voters. This is not true with Democrat's numbers where on average, our 10 suspicious counties have a 46.2 point (%) larger increase in voters vs the increase in registered voters. If we take the spread between those two data points for each county, we have an estimate for the unexplained number of additional Democrat votes. See TABLE C. below.

TABLE C.

COUNTY	2016 Dem Votes	2020 Dem Votes	% Change in Votes	% Change in Reg'd Voters	Excess % increase in Votes	Excess % times 2016 Votes
CLAY	23,251	38,248	+64.5 %	+14.2 %	50.3	11,695
COLLIER	49,470	77,529	+56.7 %	+20.3 %	36.4	18,007
DUVAL	171,598	251,952	+46.8 %	+15.1 %	31.7	54,397
LAKE	59,151	83,273	+40.8 %	+12.3 %	28.5	16,858
LEE	104,591	156,957	+50.1 %	+13.8 %	36.3	37,967
NASSAU	9,544	15,542	+62.8 %	+9.0 %	53.8	5,135
OKALOOSA	20,813	34,165	+64.2 %	+11.6 %	52.6	10,948
STA ROSA	16,284	27,560	+69.2 %	+3.1 %	66.1	10,764
ST JOHNS	35,580	63,808	+79.3 %	+27.8 %	51.5	18,324
WALTON	6,334	10,333	+63.1 %	+8.4 %	54.7	3,465

TOTAL EXCESS VOTES: 187,560

As we see here, the total number of suspect **excess votes in just these 10 counties is 187,560**. The 2020 Presidential election in Florida saw a difference of just over **374,000** votes. This number is equal to almost exactly half of that difference in total votes. Considering how close Florida elections typically are, these votes could easily have been the deciding factor.

CALL TO ACTION DEPARTMENT OF (INDOCTRINATION) EDUCATION

Members of Congress are seeking to pass legislation to [terminate](#) the unconstitutional and Deep State-controlled Department of Education (DoE).

[H.R. 899](#) is sponsored by Representative Thomas Massie (R-Ky.) and co-sponsored by 14 additional representatives, while [S. 323](#) is sponsored by Senator Rand Paul (R-Ky.). The two bills are identical; they consist of only a single sentence that states: “The Department of Education shall terminate on December 31, 2021.” Abolishing the DoE is essential for multiple reasons. First, nowhere does the [U.S. Constitution](#) give the federal government any authority over education policy. Under the [10th Amendment](#), education policy lies with the states and the people. By its very existence and shaping of U.S. education policy, the DoE violates the Constitution.

Additionally, the federalization of U.S. education policy is enabling spread of curriculum that promotes left-wing values and that dumbs down students. These include [Common Core](#) and the [Every Student Succeeds Act](#) that codified the former.

Furthermore, the Biden DoE is [actively promoting](#) critical race theory and the 1619 Project. The Left understands that if it can control our children’s education, it will control the future. Having a centralized education department under their influence makes it significantly easier for the Left to accomplish its goals. These damaging policies have persisted since the department’s creation, and simply electing a Republican president will not fix any of them.

The solution is to [abolish](#) the DoE and its accompanying bureaucracy and programs, none of which are legal to begin with. Doing so would not only be a major step toward obeying the Constitution, but it would deprive the Deep State of a major tool that it is using to indoctrinate the next generations with Marxist and anti-Americanist ideology.

TAKE ACTION: Tell your U.S. representative and senators to support H.R. 899 and S. 323 and to completely get the federal government out of education policy. Find your representatives & senators here:
<https://www.congress.gov/members>

Election Integrity News

AUDIT OF NOVEMBER 3, 2020 PRESIDENTIAL ELECTION

GEORGIA:

From Georgia Star News: The BIG story coming out of Georgia is the missing chain of custody documents from ballot boxes. This could prove evidentiary in questioning the results of the November, 2020 Presidential election. Fulton County in response to an Open Records Request provided information that 385 out of an estimated 1565 transfer documents are missing. Specifically, the lack of chain of custody accounts for over 18901 ballots or over 6000 votes more than the 12000 vote margin of victory for Biden.

In addition, an estimated 145000 ballots sent from the State Farm Arena in downtown Atlanta were sent to the EPC were without chain of custody documentation. A lawsuit filed by Garland Favorito sued Fulton County to produce these ballots for a forensic audit. Judge Brian Amero, in May, ruled the audit could proceed, but in the end of May, put the audit on hold. A hearing on this audit is expected to be held at the end of this month.

ARIZONA:

According to an article in Red State, the following are the steps in the Arizona audit of the November 3rd Presidential election.

Phase 1: Canvassing-currently delayed. Did you vote? Does it match? Was the voter registration history changed?

Phase 2: Physical ballots- actual ballot counting. “ If a count is off by more than 1 person per 50 ballots counted, then the ballots are recounted.”

Paper Analysis: Determines which oval was marked by a human. “ Analyzes fibers of ballot material and barely detectable yellow-dot watermarks. Every last ballot should be able to be accounted for.”

Phase 3: Electronic Voting System- “ digital capture of the voting systems (that were provided) has been completed . Analysis of the data is ongoing.”

Phase 4: Results- “ numbers from various phases will be compared against the certified results.”

Audit Update: Hand counts of ballots completed with the exception of Braille ballots. The paper examination phase continues as over 100K ballots are examined each day.

PENNSYLVANIA

According to an article written in the Gateway Pundit Pennsylvania State lawmakers were the first to tour the Arizona elections audit facility in Phoenix, Arizona. According

to State Senator Doug Mastriano, the election audit could begin in early July. The audit process in Pennsylvania can begin when a Senate Committee sends subpoenas to the county or counties they want to audit. Chairman of the State Government Committee Senator Dave Argall, is eligible to subpoena the evidence and start the process. According to the Gateway Pundit, “ Senator Argall came out in support of a full forensic audit in Pennsylvania.

The Declaration of Liberty

2021 A.D.

We want to introduce to you a document entitled The Declaration of Liberty.

When you click the button below, the first thing you may notice is that the The Declaration is presented in the form of a petition.

The intended purpose of The Declaration is to enable patriotic people across America to join together, so they may speak with a unified voice to their government representatives about some of the important matters currently affecting the state of our union.

If you will, please set aside a few minutes today and read it carefully.

Then, if you agree with its content and message, please consider joining us by signing it.

Then, lastly, please forward it to others you may know who might be inclined to do the same.

Hopefully, together we can gather enough signatures from across the land to speak loudly and with one voice and let our government and elected officials know what we expect to see from them in the immediate future... all with both the hope and intent of restoring the greatness to our nation and protecting our sacred liberty, just as our founding fathers intended it to be.

National Election Integrity News

Pennsylvania and Georgia audits projected to begin in July. Those states as well as Nevada have toured Arizona audits

with impressive references with regard to audit protocol.

Colorado Cleaning Voter Rolls. The US Election Integrity Project are isolating data indicating fraudulently-registered

Michigan: A team in Michigan has been investigating and has found multiple jurisdictions in Michigan that had more re

in a locality, than adult residents. This is an interesting development, and I encourage you to check your locality

whether you have more registered voters than resident adults.

Michigan Initiatives. Michigan has constitutional provisions that allow its citizens to play a larger role in passing statute

(without Governor's approval), than many other states. Article XII § 9 of the Michigan Constitution allows for these citizen pe

https://www.michigan.gov/documents/sos/2020_Registered_Voter_Count_682262_7.pdf

Colorado Elections Omnibus. Colorado is working to pass an elections overhaul omnibus that includes many items that

make it easier to vote with integrity more difficult. This includes effectively eliminating challenges to fraudulent ballots, and taking a

to protect the citizen's ability to recall its leaders.

👍 **Texas Legislation.** Texas Senate passed SB7 -- it's omnibus election reform bill.

Wisconsin Speaker Appoints Election Fraud Investigators. Assembly Speaker Robin Vos hired an attorney and three

investigators on behalf of Wisconsin Voters, to investigate the 2020 election. They will be investigating the \$6M given t

to the Wisconsin 5 from Zuckerberg-funded CTCL. The investigators may also look into double-voting, and ballot curing by certai

Wisconsin Big Five Lawsuit. Phill, Amistad and Wisconsin Voter Alliance filed the fifth lawsuit regarding Wisconsin's cities allowing their elections to be run by outside left-leaning 501(c)'s.

Fulton County, GA Audit Lawsuit. Garland Favorito and Voter GA were supposed to be allowed to look at five pallets of ballots in Atlanta last week. The ballots were scanned at 200 DPI (Dots Per Inch), which wasn't a high enough resolution to make any determination. So the judge was going to allow a re-scan at 600 DPI -- a much higher resolution. Unfortunately, Fulton County attorneys filed a renewed motion to dismiss the case and prevent the audit from taking place because the plaintiffs haven't complied with election contest legal requirements, and again asking for the case to be dismissed.

Windham, New Hampshire Audit. The most recent Windham, New Hampshire audit has come to an end on-site. The audit has 45 days to issue its written report. Remember a republican House candidate's lead increased significantly after the November election results. This led to the small town demanding an audit of the results that were off by hundreds of votes in favor of the democrat candidate. Here are a few of the findings:

The most recent hand-count confirmed the first hand-count. Meaning the hand-counts were accurate. One of the three chosen auditors was Harri Hursti. Hursti seems to believe that some of the votes counted for the democrat because of where the ballots were folded, the machine interpreted folds on the democrat's name, as filled in bubbles for the democrat candidate. Hursti also found that dust in the machines could have contributed to the machines miscounting. Windham Selectmen and his supporters are still unsatisfied with the results of the audit. He wants to know why the machines weren't cleaned if this leads to the miscounting of votes.

Pima County, Arizona Audit. The Arizona Senate has increased its lease of the arena through the end of June. The anti-audit mocking the audit is reaching a fever pitch. They are now producing polls showing that a majority of Arizona residents support the audit. With non-stop anti-audit coverage, the polls aren't surprising. AZCentral is reporting that the Arizona Senate has contracted with a California-based group called Citizens Oversight that will evaluate ballot images, on top of the Cyberball audit currently taking place. As details come out, we will seek to update on this important audit.

Nevada Senate Votes to Codify Ballot Harvesting. The Nevada Senate voted for Assembly Bill 321 that would legalize ballot harvesting and all other COVID-related changes. This is a very bad bill. Here are some of the items it contains.

Ballot Harvesting: "at the request of a voter whose mail ballot has been prepared by or on behalf of the voter, a person authorized by the voter may return the mail ballot on behalf of the voter by mail or personal delivery to the county clerk's ballot drop box established in the county, pursuant to section of this act." (Sec. 9.1)

Universal Mail-in balloting: "the county clerk shall prepare and distribute to each active registered voter in the county a mail ballot for every election." (Sec. 3.1)

Encourages Accountability: "a person shall not willfully: (a) Impede, obstruct, prevent or interfere with the return of a mail ballot; (b) Deny a voter the right to return the voter's mail ballot; or (c) If the person receives the voter's mail ballot and authorization to return the mail ballot on behalf of the voter by mail or personal delivery, fail to return the mail ballot." in other words, you can't challenge ballots going into a drop box. (Sec. 9).

Signature Comparison: A clerk's office can't deny that a signature matches, unless:

- The signature is compared to EVERY signature on file for that voter -- past and present; AND -- TWO employees certify that the signatures don't match;
- **What cannot be used as grounds for denial of a signature that doesn't match?** Change of initials, last name, punctuation, abbreviations, use of nicknames, or "slight dissimilarities"....

partisan Absentee Counting Board. The clerk appoints a central absentee counting board, and board members can't be from the same political party but there is no requirement for any sort of parity. There is no number limit, and this seems to be at the discretion of the clerk. It appears that appointing a board of 9 democrats and 1 green party representative would fulfill the requirements of the board under the statute. There is no language about appointing a person from the "two major political parties" or from "both parties appearing on the ballot." (Sec. 12)

Counting Votes Weeks Before the Election. The absent Counting Board must count all mail-in ballots 15 days before the election and be completed with this counting 7 days before the election. (Sec. 13).

Centralized Election Tabulating. The absentee count must be reported to the clerk for each precinct. The clerk then reports these numbers to the central counting board, and the precinct adds them together. In other words, the local precinct has no control over the mail-in numbers given to them by the partisan absentee counting board. (Sec. 15).

DISABLE BIG BROTHER - DISABLE SIDEWALK - OR EVICT ALEXA

, Amazon will activate [Amazon Sidewalk](#), a mass wireless sharing network. Users of all Amazon smart devices will be automatically enrolled, without consent, unless they opt out by disabling the network settings. The Amazon Sidewalk network will allow shared internet use up to within about a half-mile radius of the Amazon device. In effect, this network enables the creation of “smart cities.” Amazon Sidewalk includes a “Community Finding” feature that allows people to connect with Amazon’s servers through your Alexa, Echo, Ring and related smart devices.

of privacy, personal data and safety

the creation of “smart cities.” Amazon Sidewalk includes a “Community Finding” feature that allows people to connect with Amazon’s servers through your Alexa, Echo, Ring and related smart devices.

of privacy, personal data and safety

People have no idea the network will be activated on June 8, or that they will be automatically connected. Even fewer understand the full implications. Being part of the Amazon “smart” networks increases the risk that personal data and information will be hacked, as “smart” wireless devices are prone to hacking. Amazon has been sued because smart devices were hacked – some received ransom demands.

Opt out and disable settings

Who doesn’t want to be automatically enrolled in Amazon Sidewalk on June 8 can opt out by disabling the feature on their Amazon devices. Here’s how:

Alexa app:

Tap on “more” and select “settings.”

Select “account settings.”

Select “Amazon Sidewalk.”

Turn Amazon Sidewalk “off.”

Users with Echo devices can update their Amazon Sidewalk preferences anytime from “settings” in the Alexa app. If you have linked Ring and Amazon accounts, their Sidewalk preferences on either the Alexa or Ring app will apply to both Echo and Ring devices.

link to add your comment: <https://www.regulations.gov/commenton/FDA-2021-P-0521-0001> Please type your comment asking that the Food and Drug Administration not approve the experimental injection that is causing harm. After typing your comment, click the drop down arrow to choose a “Comment Category” and select “Drug Administration.”

For more information and be sure to SUBMIT your comment.

Subject: CONFIRMED- Sidney Powell VIP Session Speaker.

DEFEND OUR UNION

Hello Defenders,

Sidney Powell has officially for our VIP leader training.

If you haven't heard, Defend Our Union is running it's Free 5-Day Defend Your State Challenge.

This is a challenge for fired up patriots, looking to start a movement, but don't know where to start or what to do next.

Sidney Powell will be joining our VIP members' training session. Not in the challenge? No problem. You can be on #TeamReplay, and catch up for the last 2 days, and take the VIP upgrade to get personally trained by Sidney.

VIP will include the VIP Q&A session, ALL recordings, action sheets, and special training like this.

Are you in?

Step One- Join the challenge. <https://defendourunion.org/challenge>

Step Two (Optional)- Upgrade to VIP. <https://gum.co/DefendVIP>

If your payment fails use this *alternate* site:
<https://form.jotform.com/ms533957/payment>

If you have issues with the payment - see this video <https://youtu.be/KkZBg76ITLk>

Join us on Clouhub Wednesday-Saturday at 5:30 PST

The good news is VIP seats are available, the bad news is, this message just went out to 23,277 other people like you.

We hope to see you in the challenge and in the VIP session with Sidney and other guests.

4 STEP PROCESS TO: KEEP YOUR LOCAL GOVERNMENT OFFICIALS ACCOUNTABLE

INVESTIGATE

- Use the linked sites below to find the contact information for your Mayor, County Commissioner, Superintendent and School Board Officials.
1. [Florida County government](#)
 2. [Florida City government](#)
 3. [Florida State government](#)

ENGAGE

- Follow them on Social Media.
- Call your Local Mayor and County Commissioner.
- Be polite when you call. Say....
“I want to be part of the Civic process, I am going to be following you on social media and I can’t wait to hear the great things you’re going to be doing for our city and we want to keep you accountable”

MOBILIZE

- Recruit 3 people to repeat the process of Investigate and Engage.
- Setup local meetings with those that you recruit to plan and organize how you can better engage with your elected officials.

GET INVOLVED:

- Join Defend Florida: <https://defendflorida.org/get-involved>

***Roles of the government officials we will be keeping accountable.**

Supervisor of Elections:

1. The supervisor updates voter registration information enters new voter registrations into the statewide voter registration system, and acts as the official custodian of documents related to the registration of electors and changes in voter registration status of electors.
2. The supervisor preserves statements and other information for 10 years from date of receipt.
3. Each supervisor can appoint as many deputy supervisors as are necessary who help with the supervisor's duties. The deputies and the supervisor are responsible for making sure everything that goes through the office or relates to elections complies with the Voting Rights Act of 1965, the National Voter Registration Act of 1993, or the Help America Vote Act of 2002.
4. Each supervisor makes proper voter registration procedures available to any individual, group, center for independent living, or public library in the supervisor's county.
5. Supervisors keep a list of residential addresses to verify the legal addresses of voters in the supervisor's county. The supervisor coordinates with county 911 service providers, property appraisers, the United States Postal Service, or other agencies to ensure list accuracy and provides it to the statewide voter registration system.

School Board

6. Establishes rules and policies for the governance of the school district.
7. Approves a planning process to include stakeholders in developing a comprehensive plan for student achievement.
8. Invests the superintendent with those powers and duties in accordance with board policy and state and federal laws.
9. Requires professional leadership from the superintendent.
10. Participates in educational conferences, workshops, training, and professional organizations.

Superintendent

1. Calls all shots of the school board. As the Chief Executive Officer of the Board, the Superintendent is responsible for implementing board policies and directives.
2. Recommends a comprehensive planning process for student achievement.

3. Coordinates the operation of the schools, supervision of the instructional programs, and management of district personnel.
4. Provides educational leadership to the Board, staff, students, and community.

County Commissioner

Makes ALL the decisions for your local communities. Roads, tolls, masks, police funding. They write all the local legislation for all communities.

Mayor:

1. In the mayor-council form of government, the mayor also presides at meetings of council and votes in the same manner as all members of council. It is the mayor's responsibility to prepare and present the annual budget to the city council for consideration and report to council on the finances and administrative matters of the municipality.
2. Identifies needs of the district and reports them to the Board.
3. Keeps the Board aware of the statewide and national educational developments and changes.
4. Continually upgrades his/her professional knowledge and qualifications through membership and participation in professional associations, conferences, and workshops.

City Councilman

Legislative body, proposing bills, holding votes, and passing laws to help govern the city.

Important Call to Action and details provided courtesy of APC: American Patriot Community.

CALL TO ACTION: Investigate, Engage, Mobilize and Get Involved - utilize government links above to find your Mayor, County Commissioner, Superintendent and School Board officials and get involved, let's hold them accountable.

A DAY at the Range June 13th, 2021

Where: Manatee Gun and Archery Club

1805 Logue Rd
Myakka City, FL 34251

When: June 13th from 9:00am - 4:00pm

Please RSVP by phone, text or email:

Andrea **941.586.3742** 941.586.3742** andrea.defendflorida@gmail.com

Stay as long as you like. Depending on how long you stay, consider bringing water and snacks or lunch and a lawn chair.

We have reserved Range #3 at Manatee Gun Club (MGC)

We have two (2) dedicated Range Safety Officers (RSO's) for practicing/training.

We have four (4) dedicated Instructors.

Open to all skill levels - Beginner to Marksman.

Depending on how many show up fees will vary but should be about \$20.00

MUST bring your own Firearm with Holster, Ammo, Eyes and Ears.

Bring targets if you have them or you can purchase targets there.

If you will be joining us for a 'Day at the Range' you must sign a waiver for Manatee Gun Club. If you have already signed the waiver you are good for one year. Just be sure they RSVP to me (call, text or email) so I can track attendance numbers. You should get a 'signed waiver' email confirmation but if you don't for some reason just stop in at MGC office to sign Waiver before proceeding to range #3. Address and directions are available at link as well. For questions, feel free to call me.

Follow the road past the Office trailer to the range we usually meet at. You'll see our signs and Flags.

It will be helpful for our Instructors and RSO's if, when you RSVP, you indicate pistol or long gun/rifle and a.m. or p.m. preference.

MGC Waiver Link

<http://manateegunclub.com/>

Once on Home page - lower right of screen should have widget to sign waiver...

We look forward to seeing you and don't forget to share the info and help a friend get trained too!

ONE DAY ONE VOTE

- **Voter ID**
- **No Mail-In Ballots**
- **No Absentee Ballots**
Except for Military, Disabled and those who can not be at the Polling Station
- **Smaller Precincts**
- **No Machines**
- **Results By 9PM**

**CONTACT YOUR STATE LEGISLATORS NOW!
WE WANT ELECTION INTEGRITY**

URGENT: STOP SB1 from Overturning America's Entire Election System

The Democrats continue in their power-grab frenzy, quietly pursuing SB1 in the U.S. Senate, a partisan bill that would overturn America's entire election system.

WHAT'S NEXT? 🗳️ The Senate Committee on Rules and Administration is having a hearing about it tomorrow, May 11th 2021!

WHAT TO DO? 📞 **Call** the committee members, **today!** Demand that they not allow this bill to proceed to a vote. (You can find the committee Senator's phone #s below). This bill will be a disaster if passed by the Senate and signed into law. It would:

- Ban any voter ID laws in all fifty STATES!
- Remove any state requirements for ballot security (even signature verification)
- Provide easy opportunities for illegal aliens and ineligible voters to register to vote
- Force American taxpayers to fund all campaigns

COMMITTEE SENATORS' PHONE #'S

- Amy Klobuchar (D-MN) (202) 224-3244
- Dianne Feinstein (D-CA) (202) 224-3841
- Chuck Schumer (D-NY) (202) 224-6542

March 3, 2021

Office of Governor Ron DeSantis

State of Florida

The Capitol

400 S. Monroe St.

Tallahassee, FL 32399-0001

Honorable Governor DeSantis,

We, at Defend Florida, were so thankful to hear your press conference on Feb. 19, 2021 outlining the measures you plan to take legislatively to shore up election integrity in the state of Florida.

Defend Florida is a grass roots state-wide, citizen-driven movement designed to protect Florida and Floridians from Federal government overreach and improve election integrity.

Created in the wake of the 2020 election, DEFEND FLORIDA is made up of Florida citizens who love our nation, our freedoms, and are willing to work actively to protect them. As of mid-February thousands of Floridians have signed up to help Defend Florida.

We support the initiatives outlined in your speech today:

- Prohibit ballot harvesting
- Prohibit mass mail ballot
- Improve safeguards for requesting absentee ballots and robust signature verification
- Bolster the signature match process and provide transparency in observation
- Eliminate unsecured drop boxes
- Eliminate private funding of elections systems, processes and election officials
- Same day reporting of election results

However, Defend Florida is aware of additional election integrity challenges (see attached Election Fraud Documentation) which were not addressed in your press conference. We encourage you to add the following items to the list of initiatives to fully protect the vote of the citizens of Florida.

1. Electronic poll books, voting and tabulation machines (See List of Problematic Voting Systems in Florida & Election Integrity Solutions attachments)
2. Inaccurate "dirty" voter rolls; non-citizen, deceased and non-resident voters (See Election Fraud Documentation attachment for evidence and Election Integrity Solutions attachment for our recommendations)

3. Bias in canvassing boards and transparency in signature match process for absentee ballots. (See Canvassing Boards and Sunshine on Elections attachment)
4. Transparency and cheating at the polls (See PollWorkerTestimony1 & Canvassing Boards and Sunshine on Elections attachments)

We have gathered testimony of citizens who experienced problems in prior elections related to the above challenges. This testimony is attached. Further, we have attached proposed solutions to these challenges.

ELECTION FRAUD DOCUMENTATION

VOTING SYSTEMS (see attached list of Voting Machines in Florida):

Voting systems were a big issue in the 2020 elections. Dominion is well known to have vulnerabilities. Did you know a sister- system, ES&S, has the same vulnerabilities? Did you know that all 67 Florida counties run either Dominion or ES&S voting systems? See *attachment: Problematic voting systems.*

Excerpt from NBC News Article (see article link below)

*"The three largest voting manufacturing companies — Election Systems & Software, Dominion Voting Systems and Hart InterCivic — have acknowledged they all put modems in some of their tabulators and scanners." ... "Those modems connect to cell phone networks, which, in turn, are connected to the internet. ... The largest manufacturer of voting machines, ES&S, told NBC News their systems are protected by firewalls and are not on the 'public internet.' But both Skoglund and Andrew Appel, a Princeton computer science professor and expert on elections, said such firewalls can and have been breached. ... For election systems to be online, even momentarily, presents a serious problem, according to Appel. ... Once a hacker starts talking to the voting machine through the modem, the hacker cannot just change these unofficial election results, they can hack the software in the voting machine and make it cheat in future elections," he said. ... The National Institute of Standards and Technology, which provides cybersecurity frameworks for state and local governments and other organizations, recommends that voting systems should not have wireless network connections. Skoglund said that they identified only one company among the systems they detected on line, ES&S. **ES&S confirmed they had sold scanners with wireless modems to at least 11 states.** Skoglund says those include the battleground states of Michigan, Wisconsin and **Florida.** While the company's website states that "zero" of its voting tabulators are connected to the internet, ES&S told NBC News 14,000 of their DS200 tabulators with online modems are currently in use around the country. ... Last fall, when ES&S gave NBC News an exclusive tour at its headquarters in Omaha, Neb., Chief Executive Officer Tom Burt defended using modems when asked about the Sprint and Verizon modems seen in ES&S's testing area. ... There's a small percentage of jurisdictions in the country -- **a lot of them are in Florida** -- who have decided they want to modem unofficial results to the election office," he said. "Generally speaking, the media in those locations are kinda clamoring to get unofficial results as quickly as possible."*

Statements from Citizens:

Dirty Voter Rolls:

"I received mail in ballots for my parents and college son at my residence. Son is registered in another county in FL. Mom moved to CA in Sept 2010 and has been registered and actively voting in San Diego ever since so why did I get a ballot for her mailed to me? Dad DIED in May 2010 so why was he getting one. Then later 2X's someone claiming to be with census bureau came to house and asked political affiliation and number of people in household and asked if would like me to have them take any unmailed mail in ballots so I don't have to go to trouble of mailing or turning in myself. They'd be happy to take care of it for me. They offered NO ID just had clip boards and baseball hats and T shirts saying Census & Elections Board or something.

It was very suspicious and I declined to speak with them or give them any information. They insisted the law require I comply and disclose but I said “no”.

srtlwaiss@yahoo.com- Sarasota

“I am an immigrant. I worked for 13 years to gain legal citizenship. My son, is not a citizen but he receives a voter card. Why does a non-citizen get a voter card. He did not apply for it and has never voted.” Eta - Sarasota

Electioneering:

“At Prospect Village voting precinct, poll volunteers were working w Democrats who were giving info to voters on how to vote, and in violation of the electioneering distance guidelines. When I confronted the deputy over the precinct, she avoided and ignored my requests to speak to her and lodge a complaint. Also, another poll volunteer told me she had been there all day, and had complained about this but the deputy refused to do anything. I called one of the local poll watcher supervisors and reported the problem.”

Mary Morin - Hillsborough

Inadequate Signature Verification:

“I saw a man in the election office have 2 mail in ballots and he signed both of them. A supervisor let a woman who was not registered fill out a provisional ballot.”

Linda Constant – Hillsborough

Bias in Canvassing Boards/Signature Match Observation Deficiencies:

“The canvassing board in our county (St. Lucie) is made up of a judge, county commissioner and the supervisor of elections. They decide the validity of ballots that are canvassed and have questions about their validity.

The supervisor of elections should not be on this board. The SOE is a vendor operating the election and should not be making decisions on their own work. The canvassing board should be expanded and add members from each of the major parties to make these decisions.

During the primary election we were able to view the signature matching process. Our accommodations to view this were not very good as we were not able to communicate with the staff that were operating the signature match. We were looking through a store front window at two monitors where the matching process was viewed. We had to try and identify the name and precinct of the voter to challenge a vote. When we asked for better accommodations for the general election we were denied any access to view the process.

Does this reflect that there was something they did not want us to view? Since we saw numerous ballots going through the process without signatures on the ballot envelope or on the supervisor of elections records, we guess that there was something they did not want us to see.” Mark Gotz – St Lucie

Illegal Voting Practices by City Government

“Actually, you wouldn't believe it but the City of North Port implemented an illegal charter replacement in 2018 and recently I uncovered an email of the clerk in which she writes that the commission gave direction in 2019/2020 to leave a charter officer seat unfilled - for 18 months - until they could change the seat to a staff seat. In other words, they used their position to violate

the charter in order to affect an election referendum. North Port has moved very far left blue since November 2016\ . I have an extraordinary number of documents, left paper trails via email to city attorney, clerk, et cetera, for four years, and have Florida Statutes as well as Florida Constitution citations that were violated. Today we are in a special election and because of the illegal 2018 charter, the far left dem will walk into office mainly because they eliminated the primary. It's winner take all no matter how many candidates have qualified." Cheryl Cook

ELECTION INTEGRITY SOLUTIONS

INTEGRITY ISSUES/PROPOSED SOLUTIONS

1) Electronic Poll Books, Voting and Tabulation Machines

- a) Replace “smart” machines with non-Wi-Fi capable, simple tabulation machines that count only and do not calculate, estimate or adjudicate. Rejected ballots should be hand counted with observation by a member of both political parties. Eliminate electronic poll books. OR
- b) Require independent audit (including citizen volunteers from each political party) of all mechanical voting devices in every precinct to ensure software integrity and inability to connect to internet before elections, during election process and immediately following election.

2) Inaccurate voter registration rolls

In-person voter registration *renewal*. Renewal period should span 12 months to allow for snowbirds to renew. Proposed renewal period for first renew process; July 25, 2021- July 25, 2022. (Possible measure for non-ambulatory voters, each SOE would create a Voter Registration Renewal Team consisting of one Elections staff member and one representative from each political party to go in the field to renew registrations of non-ambulatory voters.)

- a) Verify citizenship of voters
- b) Update signature
- c) Verify residency

3) Signature Observation

Allow election observers complete access to the election process.

4) Bias in Canvassing Boards (Vendors/Customer -SOE & Elected Officials)

Set make-up of canvass board to include one- two member(s) of each political party and exclude vendors to the election.

5) Vote Manipulation

Limit mail-in ballots to verified hardships and increase in-person early voting to 21 days.

6) Motor Voter registration of non-citizens

Discontinue motor-voter or implement documented proof of citizenship requirement.

7) Campaign Finance Reform

Make it illegal for political committees (PC) and electioneering communications organizations (ECO) to make contributions to each other (See Rep. Roach bill on campaign finance reform)

Canvassing Boards and Sunshine on Elections

1. The canvassing board is made up of a judge, county commissioner and the supervisor of elections. We believe that the supervisor of elections should not be on the canvassing board as it is the supervisor of elections obligation as a vendor to operate the election. The supervisor should be treated as an outside vendor to the election process. In place of the supervisor of elections we suggest one member of each political party and a neutral third party (possibly an attorney representative from the county attorney's office) which would increase the board to 5.
2. Supervisors of election in some counties are not allowing observation of the signature match process. (See statement below). Observers from each political party must be given access to the signature match process in every county by law.
3. To provide for "sunshine" on the election process and provide for post-election review in the event of any challenges, the supervisor of elections office facility should be outfitted with cameras, closed circuit TV (CCTV) that will be in operation recording all aspects of the voting process being conducted every day in every election season. The cameras cannot be blocked or obstructed. Everything is recorded including the canvassing board. Recordings must be retained and secured for 5 years after an election. All SOE activities shall be open to inspection by any legally registered voter on CCTV.

Bias in Canvassing Boards/Signature Match Deficiencies:

"The canvassing board in our county (St. Lucie) is made up of a judge, county commissioner and the supervisor of elections. They decide the validity of ballots that are canvassed and have questions about their validity.

The supervisor of elections should not be on this board. The SOE is a vendor operating the election and should not be making decisions on their own work. The canvassing board should be expanded and add members from each of the major parties to make these decisions.

During the primary election we were able to view the signature matching process. Our accommodations to view this were not particularly good as we were not able to communicate with the staff that were operating the signature match. We were looking through a store front window at two monitors where the matching process was viewed. We had to try and identify the name and precinct of the voter to challenge a vote. When we asked for better accommodations for the general election we were denied any access to view the process.

Does this reflect that there was something they did not want us to view? Since we saw numerous ballots going through the process without signatures on the ballot envelope or on the supervisor of elections records, we guess that there was something they did not want us to see." Mark Gotz – St Lucie

Remarks from Mark Gotz to Legislative Delegation St. Lucie County 1/19/2021

In St. Lucie County we were able to obtain access to view the signature match process during the primary election. We found many discrepancies in the primary vote by mail ballots. Many ballots did not have a signature on the ballot envelope. Others had signatures but no signature on the supervisor of elections roles and then we saw many that did not have either a signature on the envelope or a signature on file. When we asked about this, we were told it is a glitch.

When we asked about the accommodations to view the signature match in the general election, we were told we could not.

2020 Voting Systems

Last Update: November 12, 2020

The following information is the most current information provided by the counties to the Division of Elections through the system acquisition process Section 101.5607 (1)(a) F.S.

For more information on the county's voting systems, please contact the supervisor of elections office.

AFFIDAVIT

I, Jill Christine Perry, of Tampa, in FL, MAKE OATH AND SAY THAT:

1. I was a poll worker at the Oak Grove United Methodist Church polling location in Tampa FL for set up November 2, 2020 and the election day November 3, 2020.
2. There was no immediate support for issues in the polling place. The clerk, Rosemary Hand, was kept busy with a line of people with identity issues, spoiled ballots etc. Training assured that support would be readily available. I could not report any of the issues I witnessed during the day of the election.
3. During set up the night before, we were instructed that no party identifying clothing would be permitted. Carol, a fellow poll worker, specifically announced she would be wearing the same blue mask she was wearing that night on the day of the election. This was not a pale blue, navy blue or turquoise blue mask. It is the exact shade of Biden blue in all of the campaign materials. The clerk did not object. She seemed defeated by all the drama.
4. The spot where poll watchers would be assigned to sit was in a corner between where the clerk would be seated and ballots given out. There was only space for 2 chairs. The view of the privacy booths and the poll book workers were obstructed from this location.
5. We were supposed to rotate through the various positions and have scheduled breaks. None of this was followed. People were allowed to keep their positions throughout the day. I did not fight for or against this as it was such a free for all. I only felt bad for one gentleman who would not be able to stand for long periods so I advised I would swap sitting positions I had for anything that he may have been stuck with. We are asked specifically during volunteering if we have the physical ability to handle the job.
6. When Carol was the deputy out front, Biden supporters were positioned at the perimeter of the poll's doors. They continuously came to speak to Carol regarding the election. I observed one being waved in with her Biden gear to use the ladies' room. Carol had numerous long pro-Biden conversations with friends who were voting.
7. We were instructed to fill out a form for any voters that had discrepancies so they could then obtain a provisional ballot. I did not work the poll book for long yet had rejected many IDs. If my average was typical, there should have been far more provisional ballots being issued.
8. I observed several voters arrive with assistants who then proceeded to fill out the ballots for them. Two of them I had direct contact with at the ballot scanner. They were non-verbal and incapable of understanding the simple direction of placing the ballot in the scanner. One of the assistants proceeded to humiliate the gentleman by laughing at him in a condescending manner when he was confused by the instructions to place the ballot on the scanner then grabbing an "I Voted" sticker off the table, slapped it onto his chest like it was a big joke & led him out of the building. He was confused the entire process.
9. The scanner itself was problematic. It was known that the ballots were not scanning so I was putting some ballots into the scanner myself just to get them to run through. I did not alter any ballots. I had to flip them over and backwards sometimes 5-6 times before they would be accepted.

State of FLORIDA

County of Hillsborough

The foregoing instrument was acknowledged before me by means of physical presence or online notarization, this 25 day of NOVEMBER, 2020 by Jill C. Perry, who is personally known to me or produced a _____ as identification, regarding the attached instrument described as AFFIDAVIT and to whose signature this notarization applies.

SEAL

notary public signature

ANGEL S. URBINA CAPO
notary public printed name

FL-2001-ACK

www.NotaryFL.com provides this form pursuant to Florida Statutes §695.25(1), §117.05(13)(b)

10. During the time I had to watch ballots go into the scanner to assure they were accepted; I observed the following:
 - a. Ballots with any stray markings that had Biden votes were rejected so they could be fixed. These included marks outside of the bubbles and any ballots marked with X instead of the bubble being filled out. These ballots could then be fixed by the voter and resubmitted. All that used X instead of filling out the bubble were then accepted by the machine without issue.
 - b. Ballots marked with Xs for Trump were immediately accepted by the machine. I saw that happen several times.
11. A van pulled right up to the doors to the polling location and dropped off several people. The woman screamed into the room, "Don't forget – BIDEN!". These people then came to the ballot machine & struggled with the simple instruction to place their ballot into the machine.
12. One gentleman was attempting to use a commercial address to vote and would not simply do what he was being asked. Rosemary spend upwards of 15 minutes with some of these voters who were trying to bully her into providing a ballot. There seemed to be frequent encounters such as this.
13. At the end of the day, I heard Rosemary Hand tell the Democrat poll watcher that his conduct was fine but the previous poll watchers were problematic. She described them as agitators and said they needed to be "trained better". She said one man kept going into & out of the location and was moving signs around.
14. There was a missing lock at the end of the night and the voting machine could not be secured properly. Rosemary was very frustrated by this.

I believe the clerk was trying her best throughout the day to assure everything was done properly but it was impossible. In my experience, she needed to be free to address issues, not be in the weeds dealing with problematic voters. It was a free for all with no supervision.

Signed by,

Jill Christine Perry

March 3, 2021

Office of Governor Ron DeSantis
State of Florida
The Capitol
400 S. Monroe St.
Tallahassee, FL 32399-0001

Honorable Governor DeSantis,

We, at Defend Florida, were so thankful to hear your press conference on Feb. 19, 2021 outlining the measures you plan to take legislatively to shore up election integrity in the state of Florida.

Defend Florida is a grass roots state-wide, citizen-driven movement designed to protect Florida and Floridians from Federal government overreach and improve election integrity.

Created in the wake of the 2020 election, DEFEND FLORIDA is made up of Florida citizens who love our nation, our freedoms, and are willing to work actively to protect them. As of mid-February thousands of Floridians have signed up to help Defend Florida.

We support the initiatives outlined in your speech today:

- Prohibit ballot harvesting
- Prohibit mass mail ballot
- Improve safeguards for requesting absentee ballots and robust signature verification
- Bolster the signature match process and provide transparency in observation
- Eliminate unsecured drop boxes
- Eliminate private funding of elections systems, processes and election officials
- Same day reporting of election results

However, Defend Florida is aware of additional election integrity challenges (see attached Election Fraud Documentation) which were not addressed in your press conference. We encourage you to add the following items to the list of initiatives to fully protect the vote of the citizens of Florida.

1. Electronic poll books, voting and tabulation machines (See List of Problematic Voting Systems in Florida & Election Integrity Solutions attachments)
2. Inaccurate “dirty” voter rolls; non-citizen, deceased and non-resident voters (See Election Fraud Documentation attachment for evidence and Election Integrity Solutions attachment for our recommendations)
3. Bias in canvassing boards and transparency in signature match process for absentee ballots. (See Canvassing Boards and Sunshine on Elections attachment)

4. Transparency and cheating at the polls (See PollWorkerTestimony1 & Canvassing Boards and Sunshine on Elections attachments)

We have gathered testimony of citizens who experienced problems in prior elections related to the above challenges. This testimony is attached. Further, we have attached proposed solutions to these challenges.
