**Re: Public Records Request**

Dear Public Records Officer:

Pursuant to the Arizona Public Records Law, A.R.S. §§ 39-121 et seq., American Oversight makes the following request for records.

**Requested Records**

American Oversight requests that the Arizona House of Representatives promptly produce the following records:

All email communications (including emails, email attachments, complete email chains, calendar invitations, and calendar invitation attachments) between Representative Mark Finchem or his aide April Riggins and individuals or entities communicating from @protonmail.com or @pm.me email domains.

Please provide all responsive records from December 31, 2020, through January 8, 2021, and from September 19, 2021, through September 26, 2021.

**Statement of Noncommercial Purpose**

This request is made for noncommercial purposes. American Oversight seeks records regarding attempts by Arizona legislators to prevent the certification of or cast doubt on the November 2020 presidential election.<sup>1</sup> Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of

Because American Oversight is a 501(c)(3) nonprofit, this request is not in American Oversight's financial interest and is not made for a commercial purpose. American Oversight's mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.<sup>2</sup>

Because this request is made for noncommercial purposes, American Oversight requests that any fees charged in connection with processing this request be limited to copying and postage charges, if applicable.<sup>3</sup> Please notify American Oversight of any anticipated fees or costs in excess of \$100 prior to incurring such costs or fees.

### **Guidance Regarding the Search & Processing of Requested Records**

In connection with its request for records, American Oversight provides the following guidance regarding the scope of the records sought and the search and processing of records:

- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.
- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files, email accounts, or devices in the personal custody of your officials, such as personal email accounts or text messages.
- If any records are withheld in full or in part, pursuant to A.R.S. § 39-121.01(D)(2), please provide an index of records or categories of records that

If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.

### Conclusion

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to American Oversight, please do not hesitate to contact American Oversight to discuss this request. American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. **Subject:** CONSERVATIVES UNDER ATTACK

We need all your help to fight against the political attacks being waged on conservatives. Almost every conservative and well-established conservative group is being purged from the digital public square (ie Twitter). Apple is threatening to ban Parler (a free speech platform similar to twitter) from the App Store if it doesn't comply with its anti-American policies.

This is a matter of national security. The President and many public officials no longer have any way to communicate with citizens.

Further, this banning of conservatives has gone too far. We need help to protect free speech in America. We cannot allow half of American citizens to be purged from society. This is highly dangerous to democracy!

The continual attacks against conservatives will likely lead to more events like what we all saw in DC if something is not done immediately.

This attack is unprecedented and must immediately be condemned and corrected NOW.

Help us fight against political persecution.

It's not hyperbole to be concerned that if these attacks are addressed that we will all be subjected to bans of financial systems, being placed on no fly lists (already happening), and banished from society as employers are firing conservatives at record rates.

We need legislation to protect against political persecution and discrimination.

Please help us fight this

As a constituent of Arizona I ask you RESCIND ARS TITLE 36-787 immediately. We have all seen how staged false flag events from staged media inflated over hyped minor viruses to conveniently planned terrorist attacks and other events whether genuine or deliberately engineered are used to strip Americans of their Freedoms and Liberties. It is blatantly obvious ARS 36-787 was deviously designed to be used in just such a tyrannical manner. Your assistance with rescinding this abomination is greatly appreciated.

**Subject:** 2 deaths on your hands!!!

YOU FAILED AND BETRAYED THE AMERICAN PEOPLE!!!! You could have stopped what happened today by actually giving a fuck about what the people have been pleading with you to address. We all know this election was rigged. You decided to be weak and scared of a couple antifa.

FUCK YOU ALL!!!! YOUR WEAKNESS IS DIRECTLY RESPONSIBLE FOR THE DEATHS AND ATTACKS ON US CITIZENS TODAY.

DO THE RIGHT THING!!!! NOW!!!! THIS IS A MATTER OF NATIONAL SURVIVAL.

We know Dominion rigged the votes. We know it weighted the votes based on its programming. We know Dominion was hooked up to the internet and we have seen how easy it is for these machines to be hacked. We know China bought Dominion before the election for \$400 million. America should NOT be for sale to the most corrupt, highest bidder.

WE DEMAND TRUMP ELECTORS BE SENT.

THE PEOPLE OF ARIZONA ARE GETTING IMPATIENT. YOU KNOW THE ARIZONA ELECTION WAS A FRAUD. THE HUGE EVIDENCE KEEPS BUILDING DAILY. DO THE RIGHT THING AND SEND TRUMP ELECTORS. WE ARE WATCHING YOU AND LIKE AOC ALSO HAVE OUR LISTS. WE WILL RUN COMMIE TRAITORS OUT OF ARIZONA. WE DO NOT NEED TRAITORS OR WEAK FUCKING PUSSIES IN ARIZONA.

DO THE RIGHT THING AND PROTECT AMERICA, OR SIGN YOUR NAME TO THE LIST OF PEOPLE IN GOVERNMENT WHO BETRAYED AMERICA.

We need you exercise your plenary power under the Constitution and appoint clean slates of electors to the Electoral College to support President TRUMP.

I am a highly concerned native Arizonan who watched the events that transpired on election night, have listened to

hours and hours of testimony on election fraud, learned about the intentionally rigged Dominion machines in Michigan which were also used in Arizona, among other issues with mail-in ballots, and illegal citizens voting. These issues overwhelming overcome the small margin between Trump and Biden votes.

Additionally, when we were allowed to inspect a mere 100 ballots we found 3% of ballots were stolen from Trump. A 3% fraud rate significantly puts Trump as the winner of Arizona.

Arizona voted for TRUMP and the legislature is our last line of defense against election fraud! Take back your power under the Constitution and APPOINT TRUMP ELECTORS!

There are some in Arizona who refuse to allow investigation into voter fraud. What are they hiding? The only reason to hide and refuse a forensic audit of the machines is that they are aware that permitting such an audit will reveal fraud even more extensive than we are already aware. Fraud so significant that it would absolutely compromise the small margin between Trump and Biden.

When we combine all the methods of fraud utilized in Arizona, it is very apparent that Trump is the true winner of Arizona.

I have seen the enormous Arizona Trump rallies, public love for President Trump with tons of community organized flag waves, car parades, and even boat parades in Arizona. I have seen the enthusiasm and dedication of Arizonans to Trump as they repeatedly replaced vandalized or stolen Trump signs for months.

It sounds like everyone is afraid to act because of the enforcement arm of the democratic party (antifa/blm), but please understand that a failure of our

government to act and correct this fraud will likely lead to significantly worse and potentially more deadly outcomes. Americans know we have been cheated and see our country slipping away as our right and Constitution is being subverted. We love our country and will fight to protect it.

Also, please IMMEDIATELY ENACT MANDATORY ID AND STRONG RESTRICTIONS TO MAIL-IN BALLOTS. If a person is physically capable of taking themselves to a grocery store, they should be required to vote in person. Additionally, we need stronger safeguards for protecting the votes of our ELDERLY in assisted living/nursing homes so they are not taken advantage of or their votes stolen fraudulently (ie. a person with severe dementia).

If you feel like you need protection from the leftist mobs or have been bullied by the left to back down... please feel free to reach out to Patriots in Arizona. We can rally outside your houses 24/7 to provide a presence and protection for you and your families.

Please be courageous and ensure my and the votes of Arizonans are not stolen. Appoint TRUMP electors.

Thank you!

Dear Representative Finchem. The fact that the Maricopa Board of Supervisors is violating the Law by refusing a subpoena is direct proof of Consciousness of Guilt. No need to examine the Dominion machines. They have proven they are criminals by their consciousness of guilt.

Evidentiary rules allow a prosecutor to introduce testimony that tends to show that the defendant's actions prove he knew he was guilty (at least of something). This is sometimes referred to as "consciousness of guilt". For example, such evidence may include actions the defendant took to "cover up" his alleged crime. Flight, when unexplained, may indicate consciousness of guilt if the facts and the circumstances support it. A person's false statements as to (his/her) whereabouts at the time of the offense may tend to show a consciousness of guilt.

Dear Representatives,

Your failure to uphold "free and fair" elections with certainty around integrity has lead us to the precipice of a Civil War. You and your descendants will forever suffer from the dissolution of the greatest nation on earth.

If you cared, you would insist on transparency and clarification for previously identified discrepancies. If Biden wins after this clarity, so be it. But with 80% of one side and 46% of all voters believing there was fraud, the nation, your state, and all states will not survive.

I hope you'll consider.

**Subject:** Good Morning: Special Session & Election Fraud

To Mr. Bowers & AZ State Legislature Members:

Please hold a special session today and review the election voter fraud evidence with the AZ State Legislature.

The people of Arizona & the U.S.A. have been disenfranchised by the mail-in ballot election which was forewarned by many honorable people who have served in the U.S. Government in years past. As we both know, Arizona does have a large U.S. military presence and large U.S. veteran population as well.

A friend of mine is a U.S. Disabled Veteran & AZ state resident; he did not receive the medical care the VA could have and should have provided for him in the early 2000s. He deserved better in 2000 to be turned down from VA care, and it is possible that his vote may not have counted in this U.S. POTUS & Arizona State election. As we know, his sacrifice and his vote count.

Several of my professors at Embry-Riddle Aeronautical University served our nation in Vietnam and many other conflicts; and yes, their vote counts. My fellow classmates and alumni @ ERAU that have sacrificed in both Afghanistan & Iraq are like the stars in the sky and are Abraham's descendants by faith; and yes, their vote counts as well.

Mr. Giuliani, Jenna Ellis, and Dr. Kelli Ward have done their part; please make the right decisions today per the U.S. Constitution & the wrongs committed in 2020 and hold a vote to decertify this election given the evidence:

**Subject:** Greetings: Special Session & Vote Request

To the Arizona State Legislature:

Thank you for your service to the people of Arizona & working with "Mr. Mayor" Rudy Giuliani & Jenna Ellis over the past two months. The hearing in Phoenix with "Mr. Mayor" aired on rsbnetwork.com was exceptional, and I applaud your labors and American patriotism.

My name is Thomas; I am a graduate of Embry-Riddle Aeronautical University in Prescott, AZ. I am a private citizen; this email may not be published on any social media platform @ anytime. Thank you.

After reviewing many of the legal documents and hearings across our nation, I am requesting that your state legislature does meet, review the evidence, and vote on the election & /or voter fraud that has been documented and witnessed. That is, please respect the request of the people of both Arizona & the U.S.A. and make the right, constitutionally sound decisions given what has occurred over the past year given the 2020 election. Please utilize the power our founding fathers gave your state's legislature in working for the good of the people of Arizona & the U.S.A.

A friend of mine is a small business owner near Scottsdale, and a fraudulent and / or illegal POTUS election is the last thing he and his family need given COVID-19 and the loss of income he has had. He has lost a loved one from SARS COVID-19 complications as well. Life has been too difficult for too many for too long in our nation.

I am suggesting and supporting that your state's legislature does the right thing the right way given the inherent problems with the 2020 mail-in ballot POTUS election. Please hold a special session; review the evidence at hand; and vote righteously.

At this point in time, we all probably know and /or have read the paper James Baker III & President Jimmy Carter worked on, and their consensus was an absolute warning that was ignored in 2020. Furthermore, 75% of European nations do not have a mail-in ballot election given the potential errors and illegalities that can occur before, during, and after a mail-in ballot election.

I have been reviewing many of the information Liz Harris and her canvassing team has gathered concerning 2020 mail-in ballot election & Arizona's voter poll books. It seems to me that the work she and many have done is a great service to the people of Arizona and the nation as a whole:  
<https://m.youtube.com/watch?v=g5gzw9PEPBU>

Many of us have served in the U.S. military and / or have had family members who have contributed to the founding and preservation of our nation from the American Revolution through Operation Enduring Freedom. I believe that nearly all of us have a vested interest in a free, honest, and truly accurate election regardless of background and mindset. As we know, people do have both the freedom to move city, county, & / or state lines & vote if they are discontent with political atmospheres. As I write, many are doing so from California to Texas & / or Florida.

Concerning my own heritage, to the best of my knowledge, I have had 2 and very possibly a 3rd relative who has died in combat or mortally wounded defending this nation (pertinent conflicts are the American Revolution, Civil War, and

WW2). At least two of my Great Uncles were disabled veterans in both the European and Pacific theater of battle in World War II. One of whom was a POW in Japan like the beloved Louis Zamperini:

[https://en.m.wikipedia.org/wiki/Unbroken: A World War II Story of Survival, Resilience, and Redemption](https://en.m.wikipedia.org/wiki/Unbroken:_A_World_War_II_Story_of_Survival,_Resilience,_and_Redemption)

These men did not fight & sacrifice for an illegal election nor a fraudulent President & Vice President, Senators, nor Congressmen. A true election and free nation is what they fought to preserve. Neither Imperial Japan nor Nazi Germany were interested in a free U.S.A. nor free elections here. If either or both nations could have tampered with our elections, they probably would have. Fortunately, our nation was victorious in 1945.

We all need true elections and a free nation given enemies such as China, Iran, and nearby Cuba & Venezuela. The Bering Sea is not wide enough between Siberia & Alaska neither.

I need you today to do the right thing for my friend, his wife, and 1 year old child. His daughter needs a free America with honest, just, & true elections. My family needs you as well.

Today, this video has been circulating today on San Diego-based OANN.com:

<https://rumble.com/vcglyr-ariz.-house-speaker-rusty-bowers-ignores-demands-of-residents.html>

> Good Afternoon Mr. House Speaker Bowers:

Please respect the demands of the people who voted for you and please do the right thing the right way. The U.S. Constitution & "We the People" matter as much in 1776 as it does in 2020. The U.S. Constitution grants the AZ Legislature the power it needs.

Please use this power righteously today.

America & Arizona are all watching on OANN.com & Rumble.com

"We the People" are watching "Real News" on Bannon's Pandemic War Room as well: <https://pandemic.warroom.org/>

Amen.

Thank you for your time and labors. Keep serving and serving well both Arizona & the U.S.A.

God bless you all and may God grant you the peace and wisdom serving both Arizona and the U.S.A. in 2021 & beyond.

Sincerely,  
-- Thomas

**Subject:** Concerning the 2020 Election

Dear Honorable Representatives,

I am writing, as so many others have, to express concern over the 2020 election. Amid the frenzy of news, it is difficult to discern truth from untruth and to sort out the complex details of this election. I do not envy your position but I do respect it and urge you, for the sake of election integrity, truth, justice, and the future of free and fair elections, to either decertify the official results, as Wisconsin is now doing, or to request time to conduct a thorough forensic audit, possibly using the method of Mr. Jovan Pulitzer. If even a third of the allegations of irregularities are true, it is incumbent upon this representative body to get to the bottom of them and to act in accordance with the constitution. As Senator Cotton recently stated:

"There is one and only one path to victory for President Trump on January 6, 2021, and it depends on state legislatures certifying Trump electors in the states at issue, pursuant to state law and the U.S. Constitution, and based on a finding that votes lawfully cast in November were sufficient to produce a Trump victory," the statement read. "If they believe there was fraud — and if they believe that such fraud affected the outcome of the election — they must, as a body, convene immediately and send us that information, along with certified electoral votes cast by a Trump slate of electors. Absent such action, there is not a constitutional role for Congress to change the outcome of any state's vote."

My writing to you not out of a desire to see Trump in office another four years, rather, more fundamentally to ensure that this election and all future elections are clean and reflect the will of the people. As Senator Cruz stated in his reasoning behind challenging the EC certification:

"Whether or not our elected officials or journalists believe it, that deep distrust of our democratic processes will not magically disappear. It should concern us all. And it poses an ongoing threat to the legitimacy of any subsequent administrations."

**Please decertify the AZ electoral college results or conduct a full forensic audit of the votes to ensure the integrity of this election.**

Respectfully,  
J

## RECLAIMING A SUPERPOWER

Americans Prepare for War

### TIPPING POINT

The American people have lost control of their election system. Election results no longer have any relationship to the voter's will. The election results are now in the control of a relatively small network of bad actors who manipulate the system to produce virtually any result. **This impacts all Americans, irrespective of political party.**

### SNAPSHOT

**The Margin of Error > Margin of Victory:** In other words, the margin of error in the US Presidential election, within the contested states (see table), exceeds the margin of victory by approximately 15-times, and therefore we cannot determine a winner.

Figures below are based upon the work of Rudy Giuliani's and Peter Navarro's teams (see Appendix).

US President (2020) by Contested State	Margin of Victory (approx.)	Ballots Demanding Investigation
Arizona	10,000	660,892
Georgia	10,000	1,567,146
Michigan	147,000	633,227
Nevada	34,000	212,508
Pennsylvania	68,000	866,284
Wisconsin	10,000	400,000
<b>Total</b>	<b>279,000</b>	<b>4,340,058</b>
	Current Margin of Victory	Margin of Error

### STATE OF AFFAIRS

- **Election System Failed:** In contested jurisdictions, standard operating procedures were dismissed. Hence, illegal ballots were accepted and counted, ballots counted multiple times, ballots destroyed, votes switched by election staff, ballots arrived from unknown locations, and machines were connected to the Internet communicating with foreign servers.
- **Election Audit's Failed:** Local, county and state elected officials blocked access to election data and equipment in contested jurisdictions, preventing review of election equipment and ballots cast.
- **Judiciary Failed:** Courts have dismissed virtually all requests for access to ballots and election equipment, while the Supreme Court refused to hear perhaps the most important case ever submitted (*Texas v. Pennsylvania*).
- **Gov't Failed:** Federal gov't clearly understood the risk of foreign interference and the election system's susceptibility to hacking and manipulation, but let it happen anyway.
- **Media Failed:** Virtually all discussion of election irregularities and manipulation have been censored, mocked, or attacked.

## WHAT WE KNOW: HIGHLIGHTS

### ▪ POTUS is Virtually Alone Inside the White House

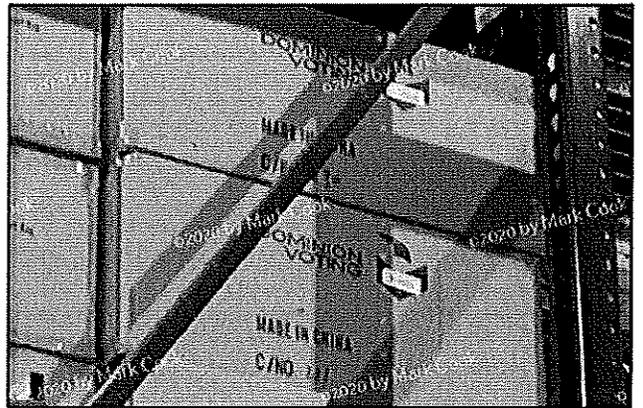

- **No Support:** With the exception of a few souls, POTUS is surrounded by Globalists and political opportunists who do not support him or the long-term interests of the Republic. They, like the Swamp they deceitfully claimed to drain, are interested only in their next DC gig.
- **Active Obstruction:** Trump's own Chief of Staff and White House Counsel have actively thwarted numerous attempts to reach the President and actively campaigned against all efforts to secure election evidence.
- **Chaos Reigns:** Tens of millions of people cling to the belief that POTUS has a magic plan he is waiting to unveil. While there is a chance he will reveal something on the 6th, the reality is much darker. POTUS is surrounded by impotent and self-interested staff. He has been betrayed by the very people surrounding him, and he is nearly alone in this war against evil. Every Patriot needs to grasp how serious this is.
- **Widespread Public Support:** On the outside the White House the picture is very different. President Trump has the devoted support of 80+ million people. For every coup plotter, there are a thousand Patriotic Americans who will not let this Nation be stolen.

### ▪ Executive Order 13848

- **National Emergency:** On September 12, 2018, President Trump declared a national emergency to address the threat of foreign interference in a US election, declaring it an unusual and extraordinary threat to the national security and foreign policy of the United States.
- **Foreign Interference defined:** "...any covert, fraudulent, deceptive, or unlawful actions or attempted actions of a foreign government, or of any person acting as an agent of or on behalf of a foreign government, undertaken with the purpose or effect of influencing, undermining confidence in, or altering the result or reported result of, the election, or undermining public confidence in election processes or institutions."

### ▪ Foreign Influence in US Election

- **Associated with America's Enemies:** Hootan Yaghoobzadeh is the CEO and Chairman of Staple Street Capital, which owns Dominion Voting Systems. Hootan is a close confidant to associates of **Sadaam Hussein** and worked for the **Saudi Bin Laden Group**, the Carlyle Group, and Cerberus Capital Management.
- **International Data Flow:** Electronic data from US elections was transmitted to Germany, Barcelona, Serbia, and Canada.

**WHAT WE KNOW: HIGHLIGHTS** (*continued*)

▪ **Foreign Influence in US Election** (*continued*)

- **International Traffic Spike:** On election night the DE-CIX Frankfurt (“The World’s Leading Internet Exchange”) experienced a significant spike over its previous high traffic peaks (for the first time it reached **10 Terabits per second peak traffic**). One expert attributed the likely cause to increased data flow to servers supporting the US election.
- **Intellectual Property:** Dominion Voting Systems is based in Toronto, Canada, and assigns its intellectual property—including patents on its firmware, software, and trademarks—to Hong Kong’s Shanghai Bank Corporation (HSBC). 20% of the components used in US voting machines are from Chinese-based companies.
- **Iranian Threat Known:** The FBI and Cybersecurity and Infrastructure Security Agency (CISA) issued a joint Cybersecurity Advisory on October 30, 2020 (Report ID: AA20-304A) stating they are aware of an **Iranian threat actor targeting U.S. state websites—to include election websites**. Upon further evaluation it was found to be an **intentional effort to influence and interfere with the 2020 U.S. presidential election**.
- **Gov’t Concerned about Foreign Influence:** On October 6, 2006, citing concerns about foreign influence and control over Dominion machines and Smartmatic/Sequoia software, Representative Carolyn B. Maloney sent a letter to the then-Secretary of the Treasury, Henry M. Paulson, Jr. “**seeking review by the Committee on Foreign Investment in the United States of the acquisition of Sequoia Voting Systems by Smartmatic, a foreign-owned company.**” Rep. Maloney explained that “this issue demands the most thorough independent investigation by CFIUS” in light of “publicly reported information about Smartmatic’s ownership and about the vulnerability of electronic voting machines to tampering.”
- **Iran & Russian Threat Acknowledged:** On October 30, 2020, the FBI and the Department of Homeland Security (DHS) issued a determination and advisory that **Iran and Russia had obtained and apparently used email addresses from state voter registration lists**, which include party affiliation and home addresses and can include phone numbers.
- **Iranian Threat Identified:** On October 22, 2020, CISA and the FBI issued Alert AA20-296B warning, “Iranian actors are likely intent on influencing and interfering with the US elections to sow discord among voters and undermine public confidence in the US electoral process.”
- **Russian Threat Confirmed:** Russian cyber actors had successfully penetrated Illinois’ voter registration database by 2019, viewed multiple database tables, and accessed up to 200,000 voter registration records.” SSCI Report: 22 (2018).

## WHAT WE KNOW: HIGHLIGHTS (*continued*)

### ▪ **Attacks on American Soil**

- **Destroying Evidence:** AT&T's Nashville facility was attacked by a weapon, most likely to destroy evidence and data which would reveal election fraud in Georgia. **The official narrative perpetrated by the mainstream media is being rigidly enforced by every powerful institution in the country. Did it ever occur to them to simply ask: "When is the last time the FBI solved *any* crime in 48 hours?"**
- **Mail-in Ballot Justification:** Covid-19 was an orchestrated attack by the Chinese Communist Party. The virus they allowed to spread worldwide not only crippled America's economy, but also provided direct justification for a massive mail-in ballot campaign that led to egregious and material election irregularities.

### ▪ **Evidence is Under our Nose, but Access Blocked**

- **Maneuvering:** Access to the forensic election data is blocked through a myriad of legal, political, and media maneuverings, rendering forensic investigation impossible. This data is to be accessible for 22 months following a Presidential election (42 USC 1974).
- **Evidence Everywhere:** Election systems are designed to replicate critical election data. Even deleting memory leaves remnants of the original data. All of the evidence exists within the election offices of contested jurisdictions. All we have to do is look.
- **Biased Parties Control Evidence:** "The whole idea we are not providing evidence, is because they [corrupt officials] control the actual physical evidence." — Richard Grenell, Former Acting Director of National Intelligence.
- **Qualified Investigators Restricted:** The very people with the skillset to investigate and uncover manipulation of this sophisticated conspiracy are either restricted by corporate contract, fear of political or social retribution.

### ▪ **Visible Manipulation**

- **It's an Old Artform:** Vote fraud can take many forms: higher rates of filling out absentee ballots for people who hadn't voted, dead people voting, ineligible people voting, or even payments to legally registered people for their votes.
- **Witness Testimony:** People in Georgia, Arizona, Michigan, Wisconsin, Pennsylvania, and other states, have attested to election computer crashes, replacements/disposal of a server, impermissible and untested updates to the system, and connections to the Internet.

## WHAT WE KNOW: HIGHLIGHTS (*continued*)

### ▪ **Visible Manipulation** (*continued*)

#### - **Mail-in Ballots**

- **Easing of Restrictions:** (Normal safeguards to ensure election integrity were ignored/blocked in many places.)
- **Pristine Paper Ballots:** (Paper ballots were used that were in brand new condition—which is impossible if humans had filled them out.)
- **Ballots from Nowhere:** (Large amounts of ballots appeared out of nowhere with no chain of custody or people connected to them.)
- **No signature verification:** (Signature verification is one way we ensure people don't vote twice and that real people filled out the ballot. In many cases signature verification was done improperly or completely ignored.)
- **Backdating Ballots:** (All ballots are supposed to be filled and mailed by election day. We have numerous sworn testimonies of ballots being backdated because they were filled and/or sent after election day.)
- **Counted after Deadline:** (Ballots are also supposed to be counted by a specific deadline, which varies by state. The deadlines were ignored in many cases and ballots counted afterwards. In PA they did this in defiance of Judge Alito's specific order.)

#### - **Poll Watchers Obstructed**

Bi-partisan poll watchers is one way we ensure honest elections. We have multiple cases of poll watchers not being allowed to watch. In some cases, they were physically obstructed.

#### - **Late Night Pause/Shift**

- In the first time of our election history, ballot counting was paused before being completed.
- Ballots arrived during the night before counting resumed.
- Suitcases of Ballots were also pulled from underneath tables and counted during the night

#### - **Voter Registration**

- PO Boxes listed as home addresses.
- Votes cast for nonresidents.

#### - **Election records deleted. Servers removed.**

#### - **Witnesses threatened and intimidated**

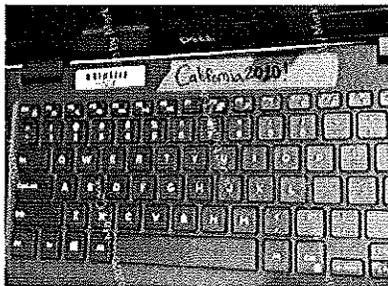

There have been numerous witnesses testifying to these illegal acts. They have been threatened and intimidated to the point of losing jobs, family, and fearing for their safety.

**WHAT WE KNOW: HIGHLIGHTS** *(continued)*

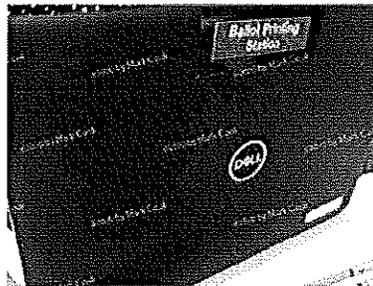

▪ **Invisible Manipulation**

Very smart and sophisticated people manipulate in subtle, almost undetectable ways that reside within the margin of error. These inconsequential attacks, that a casual observer would not see, however, **are detectable** via forensic audit. Examples of subtle election manipulation includes:

- **Ballot Printing:** A laptop with ballot designer software connected to a ballot printer loaded with blank paper is not necessarily an issue. However, taping the password to the laptop allowing access to ballot printing is a security issue, especially when virtually all staff have access to the ballot printing equipment room. *(see pictures below)*.

Ballot designer computer, with password visible to all users.

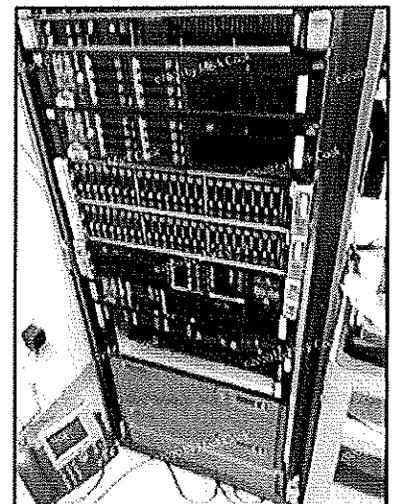

Ballot designer computer, connected to ballot printer.

Ballot printer loaded with blank ballot paper.

- **Adjudication Sensitivity:** Set ballot rejection sensitivity so as to cause more ballots to enter manual adjudication, where human staff who then view images of ballots, and make any changes they want, to the votes cast on the ballot, which are then tallied in the official vote total. We witnessed exorbitantly high adjudication rates (thousands of times above standards) in contested jurisdictions.

- **Internet Automation:** Manually adjudicated ballots were so high (hundreds of thousands of ballots), that we are unable to figure out how counties were able to process all of these ballots so quickly. In some cases, we calculate 10 machines having to operate for almost two weeks 24hrs per day in order to process all of these ballots. In these cases, we suspect that scanning machines were connected to the Internet, and that the manual adjudication process was actually automated via Internet connected remote processes. *(Picture to right: Voice over Internet protocol phone with Internet connection at foot of voting system server rack).*

## WHAT WE KNOW: HIGHLIGHTS (*continued*)

- **Invisible Manipulation (*continued*).**

- **Modifying Programing, before and after Election:** The Election Event Designer Log in Antrim County, Michigan showed that Dominion ImageCast Precinct Cards were programmed with new ballot programming on 10/23/2020 and then again after the election on 11/05/2020. These system changes manipulate how ballots are read and tabulated.

- **Media Manipulation.**

- **Censorship:** Social media companies, “news” outlets, and search engines have collectively engaged in censorship and disinformation campaigns of foreign interference and widespread fraud and criminal activity in the election, both before and immediately after November 3<sup>rd</sup>.
- **Diversions & Terror:** Media deployed an information strategy that included the deployment of diversions, instigating chaos & fear before any investigation had taken place.
- **Citizens Attacked:** Those individuals bold enough to publicly blow the whistle on fraud, or demonstrate election system vulnerabilities, have come under brutal attack in the public domain.

- **Feckless Politicians.**

- **Officials did not do their Job:** We would have not experienced this degree of problems had our elected officials been honest, did their job, and did not obstruct moves for transparency.
- **Burden of Proof Ignored:** State & local officials have failed to demonstrate that all ballots counted are qualified and legal.
- **Subpoena’s Snubbed:** Officials have failed to honor judicial subpoena.
- **State Officials Block Debate:** Arizona Speaker of House (@speakerbowers) blocking U.S. Constitutionally authorized session to decide whether violation of election laws should deny Joe Biden Arizona’s 11 electoral votes.
- **Elected Officials could Fix this but aren’t:** Elected Officials have the authority to investigate and correct the fraud in this election. They could fix this, but they aren’t.

- **Feckless Supreme Court.**

SCOTUS refused to hear Texas v. Pennsylvania, abdicating its Constitutional duty to resolve a real and substantial controversy between and among states that was properly brought as an original jurisdiction in what could arguably be the **most important case ever submitted**.

**WHAT WE KNOW: HIGHLIGHTS** (*continued*)

• **Impotent and Corrupt Gov't Institutions**

- **FBI Wray:** Where is the FBI? It is obvious we have election interference from within our Nation.
- **CIA Haspel:** Where is the CIA? Foreign interference in our election was not only expected in advance, but evidence exists to support it.
- **DOJ Barr/Rosen:** The Department of Justice has been oddly quiet about the illegal attempt to steal our election. This is the biggest threat to our free Republic in over 100 years. Where is the DOJ?
- **Senate Acknowledges Likelihood of Fraud – Writes Report:** Bipartisan Report of the Senate Intelligence Committee issued on August 18, 2020 **warned of the known vulnerabilities of major voting systems used throughout the country and the likelihood of fraud and hacking in the upcoming elections.**
- **Senate Shown Election Outcome can be Flipped - Does Nothing:** Senate Intelligence Committee heard disturbing testimony of the **ability of operators to “reprogram the machine to invisibly cause any candidate to win.”** Id. At 42. It is undisputed that **the FBI and the National Security Division of the DOJ knew of these national security issues and threats.** Id. At 43.

• **Manipulating US Elections Took Years of Preparation**

- **Extensive Preparation:** An attack of this sophistication would have taken years and numerous election cycles to plan and prepare for.
- **Small Band of People:** The universe of people with the know-how, the means, and the will to perpetrate such a crime would be very small, perhaps less than a few hundred suspects, who possess deep technical understanding.
- **Exploiting Nonprofits:** High net worth influencers have been funding election integrity non-profits for almost 2-decades, leveraging their insights and connections to understand the election system, its weaknesses, and how to infiltrate and manipulate it.

• **Long History of Patriots**

- **Many have Fought:** Since *Bush v. Gore* a vast industry of election integrity experts have fought tooth ‘n’ nail for a fair, accurate, and transparent election system. Some who have fought this fight have died and many have had their careers and lives destroyed.
- **Little has Changed:** The issues that we have all witnessed during the 2020 election have been seen previously. Numerous reports have been written over the past 20 years exposing the weaknesses in election system, the lack of transparency at voting system companies, etc.

## OUR CHOICES

Our window to solve this is closing. Much time has been wasted by bad and incompetent actors seeking to run out the clock.

Currently, **Senator Cruz (TX)** has proposed that we conduct a **10-day audit** of elections. This is not enough time to conduct an election audit. Had this been done a month ago, it might have been able to reveal the will of the voters. Now it will only clog the system and appease people who don't understand how the process works. Efforts for transparency will be thwarted at every stage.

**The time for auditing the 2020 US Presidential Election has passed.**

### **Our Remaining Options:**

- (a) Contingent Election for US President.
- (b) Accept obvious corruption in United States Government.
- (c) War.

*But when a long train of abuses and usurpations, pursuing invariably the same Object, evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.*

Thomas Jefferson, Declaration of Independence, 1776

- President had 3-5% less votes than local Republican legislators (down-ballot races exceed top-ballot race, which is unusual).
- Machines connected to Internet (Dominion help desk addressed problems remotely).
- Coffee County Election Administrator shows how to manipulate cast ballots, change votes, and vote blank ballots as a function of the Dominion machine design and the electronic ("Adjudication Process")
  - Coffee County could not replicate ballot tallies after re-running them repeatedly, and thus did not certify their 15,000 votes
  - Gwinneeth and Fulton County had greater than 80% adjudication rate (1 out of 250,000 is standard for inaccuracy)

- Republican Speaker Lee Chatfield called for a subpoena in Wayne County to examine the voting machines – with a due date of January 6<sup>th</sup>.

## NEVADA

Margin of Victory: 34,000 votes

## Possible Margin of Error

Mail-in or absentee ballots from voters who were known to have also voted in other states.	15,000
Clark County used Agilis signature verification, set to one-half the image quality than suggested by the manufacturer, (100 DPI vs 200 DPI) to check mail-in ballot signatures.	130,000

Non-Nevadans who voted in Nevada.	19,218
Voters who double voted.	42,284
Possible Margin of Error (estimated, requires further investigation)	212,508

## Remarks:

- Democrats made last-minute changes to election laws which allegedly favored Biden over Trump.
- Allegedly, in order to deal with a flood of mail-in ballots, Nevada officials opted to use a machine to match the signatures on the ballot enveloped with those on file with the state.
  - Machines used for signature match were set extremely low—even lower than manufacturer recommendations.
  - Additionally, the images on file with the SOS were of a lower image quality than suggested by the manufacturer in order to allow the machine to operate properly.
  - Despite the unreliability of the machines, they were exclusively used to verify 130,000 signatures on ballot envelopes.

**PENNSYLVANIA**

**Remarks:**

- Indefinitely Confined has always been strictly administered, and was designed for nursing homes and home confinement.
  - Secretary of State tried to expand IC to include COVID.
  - WI Supreme Court ruled that COVID does not count as IC.
  - Secretary of State convinced 200,000+ to claim IC status anyway.
  - Court ruled again that this is illegal, and asked that those falsely claiming IC status be identified.
  - Found 1,000s of IC-claiming individuals with active lifestyles on Facebook.
- "Indefinitely Confined" Voters
  - Total is 226,000 for 2020
  - Usual is 20,000 previous – standardized list
  - No early voting – absentee voting is intentionally difficult

Dear Representative Mark Finchem, Thank you for fighting for us. I wish I could say we see everything but I see enough to have faith in you. I really feel that you must organize us here in Arizona because you are someone we can rally around. Just think about the power you wield. I pray that your family and you are safe and well. This evil will perish. I'm personally waiting for the tipping point because once we reach that there is no turning back until we see it through all the way. I hope that day doesn't come as will have to kill our own countrymen. I had to resend this message to make sure that my real phone number is provided. God bless you Sir. My heart is filled with hope because brave patriots such as you truly do exist.

**Subject:** Object to Biden Electors

Dear Representative,

I plead that on January 6th you **object to the Biden electors from the 6 states that are full of fraud**. The Constitution provides, as a safeguard against fraud, that you can raise objections to electors. It is obvious that this election was fraudulent. If I can't count on current Republicans in office to stand up against fraud and imminent socialism, I want them to be primaried. The enthusiasm in the Republican Party is for Trump, and it's shameful that Republican legislators are not correcting this fraudulent election. You need to decide now to stand up against fraud and support our President.  
"

Look at the evidence and do not give into the smoke and mirrors of the media and big tech firms. Once they control our politicians they will control our laws and you.

I am part of a group of 100's of thousands of activists, growing in numbers. We all realize that we need to fight for good politicians. We will undo the psychological warfare on the people to give up their human rights and give up our founding principles. We have new communication channels outside of Big Tech. We are organizing and committed to supporting you.

We understand the pressure that you are under from your perception of reality from mainstream media, big tech and their violent wing of Antifa and other groups. This is not about President Trump, this is about the future of our country and the free world. It is one thing to fight/debate against each other about issues that we care deeply about. But to turn a blind eye to our whole system being taken down with this election is another.

We understand their manipulation tactics and will fight to support you. We are coming to have your back if you make the right decision.

**MAKE THE RIGHT DECISION! HAVE COURAGE!**

Those who make the correct decision, will be remembered like the soldiers that stormed the beaches against global totalitarianism. Those that turn a blind eye to the crimes of the century will be remember as people who make an oath to defend the Constitution only looked for excuses. If they get away with this, it will only get worse for generations. I wish no harm to you, and our group is not like Antifa. But it seems like when Antifa threatens harm that is the only way to influence you. Do not fear.

We are all made in his image and can make the right decisions. We are also our Brother's, Sister's or Fellow Human's keeper. We have your back in doing the right thing. We will also work against your re-election and show the world who turned a blind eye to the theft of our country.

As a group of citizens, we know our responsibility is to fight and support the politicians who do the right thing. We commit to support you in doing the right thing. We also commit to challenging you in future elections. See the attached link and/or file summary of fraud! They are the same.

BE A HERO AND TAKE A STAND FOR FREE AND FAIR ELECTIONS. BE REMEMBERED AS THE POLITICIANS WHO DID NOT GIVE UP OUR ELECTIONS TO TERRORIST TACTICS AND FOUGHT OFF TOTALITARIAN RULE BY THE COMPANIES/OUTSIDE COUNTRIES THAT CONTROL OUR ELECTIONS!

May you be blessed with courage and the be a hero for the Free World no matter what side of the aisle you are on.

Sincerely,

Fred

### Comments:

Honorable Representative Finchem, I vote in LD9 but own a ranch in LD11. I believe the 2020 Arizona elections at all levels-- national, statewide, local and ballot initiatives-- were tainted by fraud. I greatly appreciate your efforts to restore integrity to the election process. I appreciate your attempt to hold a hearing on election fraud in November. I was shocked at what seemed to be disrespectful and unbecoming behavior by Governor Ducey meanwhile. I support whatever you think needs to be done to save our country from election thieves. To respond to your Twitter questions, I believe forensic audits of the elections in AZ, GA, PA, MI, WI, NV and NM are needed to resolve the controversy over fraudulent elections in these states, and restore voter confidence in the elections process. Respectfully, Cindy Coping

Re: *Request for Assistance under the DHS Cyber Hunt And Incident Response Teams Act of 2019*

Dear Mr. President:

In accordance with DHS Cyber Hunt And Incident Response Teams Act of 2019, as Chairman of the House Federal Relations Committee, I request that you immediately send an outside team of cyber experts to investigate potential hacking and other irregularities associated with Dominion Voting Systems, Inc.'s ("Dominion") scanners, ballot marking devices, electronic ballot images, and polling pads used in the 2020 general election in Arizona.

Subsequent to the election, members of the Legislature were inundated with complaints from constituents relating to the integrity of the general election and the accuracy of the canvassed results. In many instances, constituents reported that their early or in-person ballots may not have been correctly processed or tabulated by Maricopa County officials. Members of the Legislature have conducted two public hearings in recent weeks during which significant evidence of fraudulent and illegal voting in Arizona has been demonstrated through expert and eyewitness testimony. For example, in Pima County and Maricopa County it appears that 143,100 illegal votes were artificially injected into the ballot total. Also, an expert mathematician concluded that the only explanation for the actual voting results in Arizona is that 130% of Democrats voted for candidate Biden and a negative 30% voted for President Trump. In his words, such a demographic distribution is "highly implausible" as is obvious on its face.

Given this and other evidence of fraudulent or illegal ballots, the Arizona Senate Judiciary Committee determined that a comprehensive independent investigation by the Judiciary Committee, to include a full forensic audit of tabulation devices and other voting equipment in Maricopa County, was necessary. To that end, the Judiciary Committee issued two subpoenas to the Maricopa County Board of Supervisors on December 15, 2020 seeking voter information and access to the Dominion

voting machines and electronic ballot images. Shockingly, or perhaps not, the Maricopa County Board of Supervisors is fighting these subpoenas and trying to keep any such information hidden not only from the Judiciary Committee but from the public.

Mr. Biden leads in Arizona by a margin of only 10,457 votes. A forensic audit of Dominion's voting machines described above and electronic ballot images in Maricopa County and ES&S voting machines in Pima County is the only way to determine, not only the level of illegal or fraudulent ballots improperly counted in Arizona for the 2020 general election, but also to make sure this fundamental violation of voting rights never occurs again in Arizona. The court system in Arizona will not be able to timely rectify this travesty in Maricopa County. Other government officials are attempting to run out the clock to keep the illegal and fraudulent ballots cast there, and in Pima County, hidden from the public. We, therefore, turn to you for relief to protect honest elections at this pivotal moment in our Country's history.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Finchem', with a long horizontal flourish extending to the right.

**Subject:** Useful information and links regarding irregularities in 2020 election

Good morning

Thank you for reading this e-mail, it is appreciated.

I have been following the 2020 election closely and I want to share what I found/discovered since the early morning of 4 November 2020, when the "tables were turned" on President Trump, who seemed to be on track to win in a landslide.

First of all, it was odd that Arizona was called so early by Fox News and shortly thereafter, all counting stopped in six battleground states. Reports of truckloads of ballots arriving at voting centres were received and it was soon apparent that President Trump's lead was substantially reduced and Vice-President Biden started to gain and lead in all the battleground states.

The election was eventually called for Vice-President Biden but if you look at the very informative interview with Seth Keshel, he points out so many anomalies, concluding that it is statistically impossible for Mr Biden to have won the election:

<https://www.youtube.com/watch?v=xXMW9VNMPT4&t=29s>

### To recap:

- On the night of Nov 3rd Trump had a lead in key states. As it gets later counting is going slowly, then suddenly stops early - people don't understand why counting has stopped. By the next morning Trump is either behind or has lost much of his lead in these key states. Biden gets overnight vote increases in places where counting had supposedly stopped. Security video from GA shows election workers kicking everyone out saying they are done counting, then counting ballots which had been hidden before.
- In the past NY Times and other left leaning people have commented that mail in voting is the easiest to do fraud with. And it gets *a lot easier* when you relax the rules on ballot verification and don't have poll watchers.
- In some places many people showed up to vote in person but were told they already voted by mail.
- Experienced election workers saw things very out of ordinary, stack of ballots that were all photocopies and exactly the same. Almost all votes for Biden. All marked exactly the same. All on different paper from real ballots.
- Poll watchers saw several bags of ballots with security locks broken or missing.
- Poll watchers saw truck full of ballots showing up at 4 am even though all ballots were supposedly already delivered. Ballots not in official ballots bags / boxes. Almost all votes for Biden.
- Postal workers says boss told them to back date ballots so it looked like they arrived on time
- Election workers told to back date ballots so it looks like they arrived on time

- Expert witnesses saw unauthorised person plugging in USB drivers into voting machines.
- Several states had recent changes to mail-in voting so the normal rules verifying the ballot don't apply. In some states they accept ballot days after Nov 3rd. This makes it MUCH easier to count ballots which would normally be rejected for being invalid or late.
- Several important big cities kept Republican poll watchers far away, kick them out, or never let them in. This is not normal or legal. Even during recount they keep Republican poll watchers away and they can't see the ballots. Windows are covered with cardboard..
- Poll workers and witnesses say voting machine hardware was attached to internet even though it's not suppose to be and officials claim it's disconnected.
- Politicians in key states fighting very hard to block audit of ballots or voting machines. Even trying to have voting machines formatted / erased. Nothing to hide, right?
- In the famous GA video, ballot counters tell everyone they are done counting for the night. Then when media / poll watchers leave they pull out hidden suitcases of ballots and start counting again in the middle of the night. One worker seen running the same ballots several times.
- Before election some voting machine software is updated but then not recertified for use
- Election worker comes back from break to find contractor "printing random ballots" at their work station. This is in the same building where ballots are being counted.
- Biden loses almost all counties which normally pick the president. Trump wins almost all of these counties.
- Some places saw huge numbers of ballots that were only votes for Biden and nothing for other candidates / races on the ballot. Very out of the ordinary.
- IT experts have reviewed voting machine and found serious problems, missing log files, people trying to wipe machine, large numbers of ballots marked as having error which allows them to be counted in a different unsupervised way.
- At counting centre poll watchers were not allowed into a back room. When they finally were allowed entry they saw many boxes of ballots which no one knew existed. Many thousands of mail in ballots. Election workers demanded they can only stay in room a few minutes.
- Ballot bags showing up without the normal "chain of custody" paperwork that proves where they came from.
- Math & data science experts have done research showing fraud or indicating how this outcome is very very suspect
- And much much more!

For an in depth analysis of the various ways - the thousand cuts - the election fraud occurred (see above), read the two reports of Peter Navarro and John Lott, Senior Advisor for the DOJ.

<https://www.washingtonexaminer.com/washington-secrets/expert-biden-win-suspicious-289-000-election-changing-excess-votes>

<https://www.scribd.com/document/488495896/Navarro-Report#download>

According to official data sent to the Georgia Secretary of State and news outlets, 30 000 votes were removed from President Trump across 3 counties in Georgia. This is actual smoking gun evidence and it's being treated as just another piece of trivia. Enough votes were removed from Trump's total to flip the state and there's no denying it.

This is a video of the election officials taking out ballots from underneath a table covered with tablecloth after they told the media and Republican observers that they are going to stop counting. The Sun cuts off the part when the male senator asks the female senator: "How is it debunked? This video was released today."

It is important to note that according to witnesses, the Dominion voting systems were connected to the Internet, with potential to manipulate votes by foreign countries like Italy - indeed on CNN one could in real time see votes for President Trump vanishing and added to Mr Biden's votes:

<https://www.youtube.com/watch?v=3s3D4yM3TEU>

Jovan Pulitzer demonstrated how easy it is to hack these machines:

<https://nationalfile.com/breaking-stanford-researcher-hacked-georgia-voting-machine-confirms-pump-and-dump-vote-manipulation-possible/>

Pulitzer told Monica Matthews that as soon as he was tasked with auditing the Fulton County ballots trucks pulled up to the facility and the ballots were being loaded into the trucks and were being shredded.

<https://www.citizenfreepress.com/breaking/jovan-pulitzer-fulton-county-began-shredding-evidence-ballots-yesterday-4-hours-after-i-was-asked-to-inspect-them/>

Also see the interview with retired CIA Station Chief Brad Johnson, who claims that Italy played a key role in the international computer plot to take out Trump:

<https://www.youtube.com/watch?v=YwtbK5XXAMk&t=4s>

Election fraud is not a victimless crime. Millions of Americans were disenfranchised in this election, and our Constitution was delegitimized. If we don't have free and fair elections, we no longer have a republic.

I am asking you and your colleagues to stand for free and fair elections, for holding those who stole this election accountable, and for insisting that the rightful winner of this election is installed into office on January 20th, the actual people's choice in this election, President Donald J. Trump.

Best regards

**Subject:** Hold A Special Session to Decertify the Arizona Biden Electors and Certify the Trump Electors

Hello,

It is apparent that the 2020 election in Arizona was not administered according to law and that much voter fraud took place. Examples include:

- Ballot dumps for Biden
- Dominion switching votes from Trump to Biden
- Using sharpies in Maricopa county on Election Day to disadvantage Trump by erroring-out the dominion machines
- Dominion voting machines that are connected to the internet - see GA senate hearing where they were both sending and receiving
- The Maricopa Election Board's resistance to the examination of voting machines. Why would they object to an audit? What are they hiding?

I could go on. The point is that Biden cheated as he said he would before the election. The legislature needs to correct the wrong. That is the constitutional remedy. Please do your job!

Thanks,

Steve Van De Berg

Dear Arizona State Legislator,

We watched hackers interfere the other day with the current Georgia Senate run off election LIVE! This is proof the entire November election was illegitimate.

It is up to you, in this moment, to uphold the constitution. You cannot certify a fraudulent election. Examine and listen to all the evidence. You must vote to decertify Biden's electors.

We have seen with our own eyes countless examples of blatant fraud, vote changing, and stonewalling by people in positions of power. We wanted a transparent election, but we got the exact opposite.

**Subject:** Re: counterfeit ballots in recent election

Dear Representative Finchem,

I have little confidence that this will make it through your screeners: though I am sending this anyway, ever the eternal optimist. As a legislator with a duty and obligation to the truth I think this may actually make some sense to you.

I am an intelligence analyst and a forensic scientist.

While everyone is focused on "ballots", has anyone considered that (1) large numbers may be counterfeit and (2) that many, if not most of the ballots completed for Biden only President and/or senate only, may have been machine completed instead of live person completed?

Given the amount of money involved and a need for "secrecy", counterfeit and/or machine completed ballots would make much more sense as there are markedly fewer to keep the secret. I think you have already heard from Mathematician Bobby Piton regarding Pennsylvania.

While I am "old School", and I would use a forensic "Questioned Document Examiner" who would be able to detect via ink that was all the same or microscopic defects in the inking that would be constant across ballots. The paper/card stock could also differ from the "official" ballots. As it turns out there has recently been developed a computer methodology to examine multiple ballot parameters to assess counterfeit from legitimate ballots with an extraordinary degree of accuracy. Ref: Jovan Hutton Pulitzer, The Gold Institute for International Strategy, (<https://www.youtube.com/watch?v=UgeqGmvQXKs>) Using this technology, literally thousands of ballots can be examined in great detail, in a matter of hours. A random sample of these identified counterfeit ballots could then be confirmed by Arizona's own QDE's.

In Arizona alone, I would estimate at least 150,000 counterfeit ballots have been inserted into the election process. This is a simple process known to magicians everywhere, as prestidigitation. If you want to make an elephant disappear with the right hand, distract everyone's attention to a "razzle-dazzle" with the left hand. USA-wide, 500K-1M counterfeit ballots would not be unreasonable; the sheer number of which would be exceptionally difficult for people to confront.

Understand that I am a non-partisan, constitutional, centrist independent that has no "dog in this fight" other than that year's ago I took an oath to "Protect and defend the constitution of the United States from all enemies, foreign and domestic..."

I am sending this to you in the hopes that it will actually make it through your "screeners" and that you just might know to whom to get this information.

Once separated from the "secrecy" envelope, ballots are public domain". The greater the resistance by the "left" to this approach, the greater the likelihood of its veracity. I would certainly start with Maricopa County as the highest probability of large amounts of such counterfeit ballots. It very well may be that not only is the Presidential vote affected, but also the Senate vote.

The appropriate "people" to involve are the state legislature and the state police chief as they have the resources to investigate; after all, Trump had their backs, maybe it is time for them to have his back. If the above is confirmed, then this can be rapidly communicated to the "other" states for clearly obvious reasons. While most realize that there was

AZ-REP-22-0476-A-000065

fraud in the last election cycle, I do not think that anyone grasps the magnitude of what was perpetrated, nor by whom; first steps first, then I can suggest where to look for the perpetrator.

Good Luck and God Speed!!

We need you exercise your plenary power under the Constitution and appoint clean slates of electors to the Electoral College to support President TRUMP.

I am a highly concerned native Arizonan who watched the events that transpired on election night, have listened to hours and hours of testimony on election fraud, learned about the intentionally rigged Dominion machines in Michigan which were also used in Arizona, among other issues with mail-in ballots, and illegal citizens voting. These issues overwhelming overcome the small margin between Trump and Biden votes.

Additionally, when we were allowed to inspect a mere 100 ballots we found 3% of ballots were stolen from Trump. A 3% fraud rate significantly puts Trump as the winner of Arizona.

Arizona voted for TRUMP and the legislature is our last line of defense against election fraud! Take back your power under the Constitution and APPOINT TRUMP ELECTORS!

There are some in Arizona who refuse to allow investigation into voter fraud. What are they hiding? The only reason to hide and refuse a forensic audit of the machines is that they are aware that permitting such an audit will reveal fraud even more extensive than we are already aware. Fraud so significant that it would absolutely compromise the small margin between Trump and Biden.

When we combine all the methods of fraud utilized in Arizona, it is very apparent that Trump is the true winner of Arizona.

I have seen the enormous Arizona Trump rallies, public love for President Trump with tons of community organized flag waves, car parades, and even boat parades in Arizona. I have seen the enthusiasm and dedication of Arizonans to Trump as they repeatedly replaced vandalized or stolen Trump signs for months.

It sounds like everyone is afraid to act because of the enforcement arm of the democratic party (antifa/blm), but please understand that a failure of our government to act and correct this fraud will likely lead to significantly worse and potentially more deadly outcomes. Americans know we have been cheated and see our country slipping away as our right and Constitution is being subverted. We love our country and will fight to protect it.

Also, please IMMEDIATELY ENACT MANDATORY ID AND STRONG RESTRICTIONS TO MAIL-IN BALLOTS. If a person is physically capable of taking themselves to a grocery store, they should be required to vote in person. Additionally, we need stronger safeguards for protecting the votes of our ELDERLY in assisted living/nursing homes so they are not taken advantage of or their votes stolen fraudulently (ie. a person with severe dementia).

If you feel like you need protection from the leftist mobs or have been bullied by the left to back down.... please feel free to reach out to Patriots in Arizona. We can rally outside your houses 24/7 to provide a presence and protection for you and your families.

Hello,

It is apparent that the 2020 election in Arizona was not administered according to law and that much voter fraud took place. Examples include:

- Dominion switching votes from Trump to Biden
- Using sharpies in Maricopa county on Election Day to disadvantage Trump by erroring-out the dominion machines
- Dominion voting machines that are connected to the internet - see GA senate hearing where they were both sending and receiving
- The Maricopa Election Board's resistance to the examination of voting machines. Why would they object to an audit? What are they hiding?

I could go on. The point is that Biden cheated as he said he would before the election. The legislature needs to correct the wrong. That is the constitutional remedy. Please do your job!

Additionally, when we were allowed to inspect a mere 100 ballots we found 3% of ballots were stolen from Trump. A 3% fraud rate significantly puts Trump as the winner of Arizona.

Arizona voted for TRUMP and the legislature is our last line of defense against election fraud! Take back your power under the Constitution and APPOINT TRUMP ELECTORS!

There are some in Arizona who refuse to allow investigation into voter fraud. What are they hiding? The only reason to hide and refuse a forensic audit of the machines is that they are aware that permitting such an audit will reveal fraud even more extensive than we are already aware. Fraud so significant that it would absolutely compromise the small margin between Trump and Biden.

When we combine all the methods of fraud utilized in Arizona, it is very apparent that Trump is the true winner of Arizona.

I have seen the enormous Arizona Trump rallies, public love for President Trump with tons of community organized flag waves, car parades, and even boat parades in Arizona. I have seen the enthusiasm and dedication of Arizonans to Trump as they repeatedly replaced vandalized or stolen Trump signs for months.

It sounds like everyone is afraid to act because of the enforcement arm of the democratic party (antifa/blm), but please understand that a failure of our government to act and correct this fraud will likely lead to significantly worse and potentially more deadly outcomes. Americans know we have been cheated and see our country slipping away as our right and Constitution is being subverted. We love our country and will fight to protect it.

Also, please IMMEDIATELY ENACT MANDATORY ID AND STRONG RESTRICTIONS TO MAIL-IN BALLOTS. If a person is physically capable of taking themselves to a grocery store, they should be required to vote in person. Additionally, we need stronger safeguards for protecting the votes of our elderly in assisted living/nursing homes so they are not taken advantage of or their votes stolen fraudulently (ie. a person with severe dementia).

If you feel like you need protection from the leftist mobs or have been bullied by the left to back down.... please feel free to reach out to Patriots in Arizona. We can rally outside your houses 24/7 to provide a presence and protection for you and your families.

Please be courageous and ensure my and the votes of Arizonans are not stolen. Appoint TRUMP electors.

Thank you!

**Subject:** Save America - Appoint Trump electors

We need you exercise your plenary power under the Constitution and appoint clean slates of electors to the Electoral College to support President TRUMP.

I am a highly concerned native Arizonan who watched the events that transpired on election night, have listened to hours and hours of testimony on election fraud, learned about the intentionally rigged Dominion machines in Michigan which were also used in Arizona, among other issues with mail-in ballots, and illegal citizens voting. These issues overwhelming overcome the small margin between Trump and Biden votes.

Additionally, when we were allowed to inspect a mere 100 ballots we found 3% of ballots were stolen from Trump. A 3% fraud rate significantly puts Trump as the winner of Arizona.
