**Subject:** Addendum Manuscript and Additional Evidence Documents

Dear Honorable Assistant Attorney General Wright:

Herein is the Addendum manuscript I promised to send. Per your direction, I've loaded up a 650MB ZIP file on the file sharing link you sent me, which contains all the evidence and documents referred to in the Addendum manuscript.

If there is additional evidence, I will use that same link.

Thank you.

Yours sincerely,  
Dr. Shiva Ayyadurai

**Subject:** [File Request] Re: Additional FTP Upload Link

Dear Attorney General Wright:  
I hope this email finds you well.

Attached is a PDF containing the new study entitled, "Extended Study Confirms At Minimum Over 200,000 Mail Ballots With Mismatched Signatures Counted Without Review ("Curing") in Maricopa County, Arizona 2020 General Election."

This Study provides further evidence of the conclusion of this scientific study that at minimum over 200,000 early voting mail ballots were counted without being reviewed ("cured"). The initial Pilot Study as you may recall had a sample size of 499 for a 95% confidence level. This new study has a sample size five times larger - 2,770 - for a 99% confidence level with a +/- 2.5% Margin of Error.

I'm also attaching a PDF of the database of all the 2,770 pairwise images from the EVBs that were part of this study. The structure is same as before. If you are free, I can review the presentation with you at your convenience. My phone is [REDACTED]. While the Pilot Study was compelling, this Extended Study serves to confirm the Pilot Study's findings with a much larger sample size.

Thank you.

Yours sincerely,  
Dr. Shiva Ayyadurai

**To:** Wright, Jennifer  
**Subject:** [File Request] Updated Extended Study Including Files You Requested Including Excel Files

Dear Attorney General Wright:

I hope this email finds you well. As I shared in our last email, our team was right in the midst of completing updates to the Extended Study we sent you on March 2, 2022, when we received your request for the XLS. Herein, is enclosed all the files of the Extended Study, including the XLS you requested, and its updates.

First, I have attached the Updated PDF Report. This Report replaces the previous Report and is the most up-to-date including refinements to our pooled consensus calculation.

As we shared in the earlier version of this Study, one of our constraints is that the County did not provide us with the signature files they use for signature matching. Our dataset of genuine signatures used in this Study are from Deeds and documents found at <https://recorder.maricopa.gov/recdocdata/>. In our acquisition of those signatures, we used a combination of technology and humans to locate the signatures for our data set.

In this updated report of the Extended Study, to err on the side of being more conservative in our signature mismatching rate calculations, we have:

- i) Applied more constraints to the original 2,770 data set with greater restrictions on the name matching.
- ii) More significantly, in the updated analysis, we have eliminated ALL pairwise signatures (290) wherein ALL six reviewers classified them to be No Match. When ALL six reviewers believe a set of pairwise signatures are NO MATCH, it could be one of two possibilities: They are indeed a NO MATCH or the genuine signature we are using is not genuine. In the updated analysis, we take the position that when ALL six reviewers state that they are a No Match, that this is due to the signature not being genuine. This approach may lead to false negatives - pairwise sets with genuine signature - being removed; however, it significantly reduces error i.e. the probability of this Study having signatures which are not genuine.

Relative to point (2), if the County is willing to provide your office the Signature files, we can update our Study. Given that constraint, we take this conservative approach. For your reference, in the updated report, our team is including some

examples of such false negatives that were removed, but are indeed genuine signatures.

The application of the two (2) constraints reduced our data set from 2,770 to 2,379; however, this is still at a confidence level of 99% and margin of error of +/- 2.7%.

Second, I have provided the PDF (Analysis-A-Extended-Study.pdf) of the data used for this Extended Study for 2,770 samples with images, along with the XLS file (Analysis-A-Extended-Study.xlsx) of the data used that does not contain images. This also has additional columns for probabilities used to calculate the pooled consensus.

Third, I have provided the PDF (Analysis-B-Extended-Study.pdf) of the data used for this Extended Study for 2,379 samples with images, along with the XLS file (Analysis-B-Extended-Study.xlsx) of the data used that does not contain images. This also has additional columns for probabilities used to calculate the pooled consensus.

Fourth, I have provided the PDF (No-Match-Set-of-290.pdf) that contains the 290 pairwise signatures which all 6 reviewers flagged as NO MATCH. In addition, I've included the XLS file (No-Match-Set-of-290.xlsx) corresponding to that PDF without images.

The number of EVBs to be cured per this Study are at a minimum 215,856 even after applying the new constraints. Given that these number of EVBs are ~10x higher than the EVBs cured by the County, we hope your office is able to acquire the signature files, SOPs, and the process the County used during 2020. That would allow us to re-run/update our analysis and resolve any discrepancies. We are here to sign any NDA's to assure confidentiality for the County. If we have all of their Signature files, we can also use our machine learning algorithms to do a full analysis of all 1.9M+ EVBs.

Thank you for your efforts.

Sincerely,  
Dr. Shiva Ayyadurai

Dear Attorney General Wright:  
I hope this email finds you well.

Attached is a PDF containing the new study entitled, "Extended Study Confirms At Minimum Over 200,000 Mail Ballots With Mismatched Signatures Counted Without Review ("Curing") in Maricopa County, Arizona 2020 General Election."

This Study provides further evidence of the conclusion of this scientific study that at minimum over 200,000 early voting mail ballots were counted without being reviewed ("cured"). The initial Pilot Study as you may recall had a sample size of 499 for a 95% confidence level. This new study has a sample size five times larger - 2,770 - for a 99% confidence level with a +/- 2.5% Margin of Error.

I'm also attaching a PDF of the database of all the 2,770 pairwise images from the EVBs that were part of this study. The structure is same as before. If you are free, I can review the presentation with you at your convenience. My phone is [REDACTED] While the Pilot Study was compelling, this Extended Study serves to confirm the Pilot Study's findings with a much larger sample size.

Thank you.

Yours sincerely,  
Dr.Shiva Ayyadurai

**Subject:** New FTP Link Needed for Uploading Extended Study on Signature Verification

Dear Attorney General Wright:

Kindly send me a new FTP link so I may upload a newly completed study - an Extended Study - which confirms our findings from the Pilot Study that over 200,000 ballots with mismatched signatures were counted without being cured. I will upload the PDF of the study and also upload the 2,770 pairwise signature images and data file of the pairwise signatures assessed by the 3 trained novices and the 3 forensic document examiners, that provides the evidence.

Thank you.

Yours sincerely,  
Dr. Shiva Ayyadurai

**Subject:** [File Request] Study Revealing Maricopa Officials Counted 200,000+ Ballots Without Review ("Curing")

Dear Attorney General Wright:

I am attaching two (2) documents that will provide you details of our most recent analysis - a Pilot Study - that reveals that election officials in Maricopa did not cure over 200,000 ballots that had signature mismatches: (1) One PDF contains the Report; and, (2) The other PDF contains an export from our database of the novices (non-FDEs) and experts (FDEs) assessments of 499 signatures representing a sampling at 95% CONFIDENCE LEVEL with a +/- 4% Margin of Error.

Concerning the second PDF, columns 2-7 contain the Voter's information i.e. name, voter-id, address, etc.; column 8 contains the signature in question from the envelope; column 9 contains the genuine signature from the Deeds repository in Maricopa; column 10 is a count of the number of No Matches by all reviewers (experts and novices); columns 11-16 contains the assessments of each of three novices (nFDEs) and each of the three experts (FDEs) on whether the signature in that row was a Match or No Match; column 17 and 18 contains a flag set to "1" to indicate if ALL novices found signature to be a Match or No Match, respectively; column 19 and 20 contains a flag set to "1" to indicate if ALL experts found the signature to be Match or No Match, respectively; finally, column 21 and 22 contains a flag set to "1" to indicate if ALL REVIEWERS (novices AND experts) found the signature to be a Match or No Match, respectively.

I am in the midst of completing an Extended Study, the results of which I will also send to you shortly. The aim of this Extended Study is to investigate if results of the Pilot Study are replicable on a far larger sample. The new Extended Study has a sample size of 2,700+ representing 99% CONFIDENCE LEVEL with a +/- 2.3% Margin of Error.

-Dr. Shiva Ayyadurai

**Subject:** [File Request] EchoMail Audit of Ballot Images and CVR from 2020 Presidential Race in Maricopa County, AZ

Dear Attorney General Wright:  
I hope this email finds you well.

On December 7, 2022, EchoMail finally received Ballot Images from the 2020 Presidential Race in Maricopa County, AZ. Originally, EchoMail was commissioned to perform analysis of those images in August of 2021; however, Cyber Ninjas never delivered us the bona fide Ballot Images, which were in their possession since April 2021.

On January 7, 2022, we completed audit of the Ballot Images, within 1 month, after receiving them through Randy Pullen who was able to finally track them down. On January 22, 2022, we completed a draft report. Today, we share with you the final report of the audit of the Ballot images.

Attached is a PDF file containing the final report. Page 6 of this final report contains the Executive Summary detailing the key findings. This part of the audit should have been done first. I was beyond perturbed when I found out in early December 2021 that Cyber Ninjas had the bona fide Ballot Images and in fact gave them to two(2) other parties as early June 2021, especially given we were commissioned to do this part of the audit.

There is a ZIP file included which contains four (4) Appendices that are referred to in the final report. I can at your convenience review the key elements of this final report.

Thank you.

Sincerely,  
Dr. Shiva Ayyadurai

Dear Honorable Assistant Attorney General Wright:

Herein is the Addendum manuscript I promised to send. Per your direction, I've loaded up a 650MB ZIP file on the file sharing link you sent me, which contains all the evidence and documents referred to in the Addendum manuscript.

If there is additional evidence, I will use that same link.

Thank you.

Yours sincerely,  
Dr. Shiva Ayyadurai

**Sent:** Tuesday, October 12, 2021 9:59 AM  
**To:** 'Shiva Ayyadurai'; Randy Pullen  
**Subject:** RE: AG request

Dear Dr. Ayyadurai & Mr. Pullen,

I wanted to confirm receipt of Dr. Ayyadurai's report dated October 6, 2021, as well as the report dated October 12<sup>th</sup>. Further, I wanted to confirm that the Senate previously provided the unredacted Echomail audit report, as well as the PowerPoint presentation. Please note that the Unit does not have the 695 pages of the machine count tabulation sheets referenced in Mr. Pullen's email below. Instead, the Unit has the 36-page Machine Paper Ballot Count Report that was submitted to the Senate.

In a separate email, I will send a link through the AG's FTP site to each of you to upload any documents or evidence in your possession that you would like the Unit to consider.

Note, the Unit is reviewing the reports submitted through the Senate, as well as the appendices to Cyber Ninja's Report Vol. III. If there is additional evidence beyond the reports and appendices for the Unit to review in your possession, you are welcome to upload those to the FTP site. Please note that the link will allow you to upload as many documents as you like one time. If you have additional documents after your initial upload, I will have to provide a new link.

I expect we will be in touch with each of you shortly to discuss your reports and findings. At this time, we are diligently reviewing the materials that have been provided and identifying where we need additional information.

Best regards,

**Jennifer Wright**  
**Assistant Attorney General**

Hi Ms. Wright,

You should also have the 695 pages of the machine count tabulation sheets. The Senate was making copies last week to send to you. Also, Dr. Shiva will have another letter to you regarding the Recorder's response to Echomail anomalies (Dr. Shiva). He should have that to you by Wednesday. Please let me know if there is anything else you may need.

With best regards,

Randy Pullen  
Senate Election Audit Team

Dear Honorable Assistant Attorney General Wright:

Attached herein, as promised, is EchoMail's Reply to the Recorder's Four Responses that they published on October 6, 2021.

We are also completing the upload to a secure file server of the additional materials that will be sent to you along with the document entitled "Response to September 28, 2021 Evidence Request by Attorney General of Arizona." The upload is taking longer than expected.

Thank you.

Yours sincerely,  
Dr. Shiva Ayyadurai

Dear Honorable Assistant Attorney General Wright:

Attorney Kory Langhofer requested that I directly provide you the information requested pursuant to the Attorney General's letter as of September 28, 2021 ("the Letter"). To meet your request from EchoMail, I have organized a manuscript entitled, "Response to September 28, 2021 Evidence Request by Attorney General of Arizona" that is accessible in a PDF. In addition, I will also be providing you a link to a secure site that contains the other evidentiary items referred to in that PDF. Both the PDF and the link will be coming shortly, scheduled for by end of day today.

I've also included three (3) other documents for you records:

- 1) The original un-redacted EchoMail audit report submitted to the Attorney General via Kory Langhofer on September 24, 2021;
- 2) The Powerpoint presentation made by me on September 24, 2021 at the Arizona State Senate; and,
- 3) A recent 67-page report made in response to the misinformation and disinformation put forward by Maricopa County Election Officials through a proxy scribe at the Arizona Mirror.

Kindly let me know if there are any other items required. I am also available to meet individually pursuant to the requests made in the Letter. Randy Pullen will also be reaching out to you shortly.

Thank you.

Yours sincerely,  
Dr. Shiva Ayyadurai

**Subject:** Re: AG request

Thank you Randy. Tonight, we are finishing up both the Letter on the Recorder's response as well as uploading additional evidence.

\_Shiva

Hi Ms. Wright,

You should also have the 695 pages of the machine count tabulation sheets. The Senate was making copies last week to send to you. Also, Dr. Shiva will have another letter to you regarding the Recorder's response to Echomail anomalies (Dr. Shiva). He should have that to you by Wednesday. Please let me know if there is anything else you may need.

With best regards,

Randy Pullen  
Senate Election Audit Team

**Subject:** Fwd: Additional evidence for AG of AZ  
**Attachments:** Dr-Shiva-Replies-to-Maricopa-County-Officials.pdf

[REDACTED]

Dear Honorable Assistant Attorney General Wright:

Attorney Kory Langhofer requested that I directly provide you the information requested pursuant to the Attorney General's letter as of September 28, 2021 ("the Letter"). To meet your request from EchoMail, I have organized a manuscript entitled, "Response to September 28, 2021 Evidence Request by Attorney General of Arizona" that is accessible in a PDF. In addition, I will also be providing you a link to a secure site that contains the other evidentiary items referred to in that PDF. Both the PDF and the link will be coming shortly, scheduled for by end of day today.

I've also included three (3) other documents for you records:

- 1) The original un-redacted EchoMail audit report submitted to the Attorney General via Kory Langhofer on September 24, 2021;
- 2) The Powerpoint presentation made by me on September 24, 2021 at the Arizona State Senate; and,
- 3) A recent 67-page report made in response to the misinformation and disinformation put forward by Maricopa County Election Officials through a proxy scribe at the Arizona Mirror.

Kindly let me know if there are any other items required. I am also available to meet individually pursuant to the requests made in the Letter. Randy Pullen will also be reaching out to you shortly.

Thank you.

Yours sincerely,  
Dr. Shiva Ayyadurai

You can provide it directly to them. Jennifer Wright is probably the best point of contact there:

Dear Kory,

Hope this email finds you well. Can you kindly call me so I can be clear on how I will be sending you the information.

Warm regards,

Shiva
