Subject: RE: Affidavit of Authorization

Selena,

After I went by and signed the paperwork yesterday I thought you said that you would have the information to me today? If there is a problem please give me details of what exactly the problem is. This is time sensitive as you know and I was expecting to already receive the information??

Please make it a priority.

Thank you,
Couy

Attachment(s): "Sylvia C Tillbrook.vcf"

Dear Mr. Morgan,
We will need additional time to respond to your request, until July 7, 2022.
Should you have any questions, please do not hesitate to contact me.

Subject: Associated Press IPRA request to Otero County for correspondence regarding elections 22 June 2022

Hello Ms. Tillbrook. I'm sending along a couple public records requests, in emails and attached as pdf files. Please don't hesitate to call and discuss details or scope.

Morgan
Cell: 505 490 3992

Silvia Tillbook
Custodian of Records
Otero County
stillbrook@co.otero.nm.us

This is a request under the New Mexico Inspection of Public Records Act, and under the common law right of access. I am making this request in my capacity as a full-time journalist with The Associated Press.
Pursuant to the Act, this is to respectfully request access to inspect and copy the following public records:
_Any and all communications including email and text messages sent and/or received by county commissioners Couy Griffin, Vickie Marquardt, and Gerald Matherly concerning the 2020 election, the 2022 primary election, Dominion election equipment, Robis equipment, hand counting of ballots, ballot drop boxes, and/or voter registration rolls between Jan. 1, 2022, and the date that this request is fulfilled.
_Any and all communications including email and text messages sent and/or received by county officials including County Clerk Robyn Holmes, employees of the county clerk's office, County Attorney RB Nichols and County Manager Pamela Heltner concerning the 2020 election, the 2022 primary election, Dominion election equipment, Robis equipment, hand counting of ballots, ballot drop boxes, and/or voter registration rolls between Jan. 1, 2022, and the date that this request is fulfilled.
_Any and all communications including email and text messages exchanged between any member(s) of the Otero County Commission and David Clements and/or Erin Clements and/or people affiliated with New Mexico Audit Force between Jan. 1, 2022, and the date that this request is fulfilled.
__Any and all communications including email and text messages exchanged between any county employee – including County Clerk Robyn Holmes, employees of the county clerk's office, County Attorney RB Nichols and County Manager Pamela Heltner – and David Clements and/or Erin Clements and/or people affiliated with New Mexico Audit Force between Jan. 1, 2022, and the date that this request is fulfilled.
I ask that you waive any and all fees associated with this request. I am making the request as an AP reporter and this request is made as part of newsgathering. Release of the information will primarily benefit the general public because it will contribute significantly to the public understanding of the conduct of publicly elected and appointed officials. If you deny this request for a fee waiver, please advise me in advance of the estimated charges if they are to exceed $50. I remind you that a public body may only charge "reasonable fees." New Mexico Stat Ann. § 14-2-9.
If this request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act, and inform me of appeals procedures available to me under the law. I also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.
Under the Act, this request must be acted upon as soon as possible, but in no event later than fifteen (15) business days following receipt of this letter, per New Mexico Stat Ann. § 14-2-10.
As I am making this request as a journalist and the information is of timely value, I would appreciate your communicating with me by telephone (505) 490-3992 or e-mail mlee@ap.org, rather than by mail, if you have questions regarding this request.
I would appreciate your handling this request as quickly as possible, and I look forward to hearing from you.
Thank you for your assistance.

Lee,

Please see attached settlement agreement. EchoMail decided to end their participation and provided the attached limited analysis. The County has no other contract. My understanding is NM Audit Force is conducting their own independent audit/review with their own funding. Also attached is the requested communication. Please let me know if you have additional questions.

v/r,
RB

Subject: Associated Press request | 2020 election audit and EchoMail

Hello Mr. Nichols.

David Clements of New Mexico Audit Force indicated yesterday on social media (Telegram: The Professor's Record) that EchoMail/V.A. Shiva Ayyadurai has refunded $40,000 to the county and possibly exited the contract related to a review of the 2020 election in Otero County.

What is the current status of the election audit/review contract? Is New Mexico Audit Force still at work on the election audit/review?

Please provide copies of any and all correspondence between Otero County officials and Echo Mail and/or V.A. Shiva Ayyadurai regarding the services contracted earlier this year to review the 2020 election, and any receipts for refunds to the county, between March 1, 2022 and the date this request is fulfilled. Please provide any related correspondence between the county and Erin Clements and/or New Mexico Audit Force for the same period.

Thank you.

AMERICAN OVERSIGHT

SETTLEMENT AGREEMENT AND RELEASE OF ALL CLAIMS

This Settlement Agreement and Release of All Claims is entered into between Otero County, New Mexico ("County"), and EchoMail all of whom may also be referred to collectively as "the Parties."

RECITALS

WHEREAS, the County entered into a Master License and Services Agreement (hereinafter "Contract") with EchoMail as its contractor, executed on or about January 25th, 2022 for integrated data warehousing and analytics of the 2020 General Election ("Project"); and

WHEREAS, on February 24, 2022, the County paid $24,875 to EchoMail pursuant to the Contract;

WHEREAS, the County believes the value of the services received from EchoMail is $9,750.00 and EchoMail disputes this claim.

WHEREAS, on March 17, 2022, EchoMail demanded the balance of $24,875 be paid;

WHEREAS EchoMail believes the unpaid balance is due and payable; and

WHEREAS, the County disputes whether payment is due and owing; and

WHEREAS, on April 15, 2022 the County requested the return of $15,125.00

WHEREAS, it is the position of EchoMail they fulfilled their obligations under the Contract and found No Election Fraud as a result of their services.

WHEREAS, the Parties have agreed to settle claims against one another prior to litigation without admitting or conceding liability as to any matter at issue;

NOW THEREFORE, IN CONSIDERATION OF THE FOREGOING AND IN CONSIDERATION OF THE COVENANTS CONTAINED HEREIN, THE PARTIES AGREE TO THE FOLLOWING:

AMERICAN OVERSIGHT

NM-OTERO-22-0605-A-001861

UNDERLYING SETTLEMENT TERMS

1. In consideration for payment described herein in paragraph 5, EchoMail dismisses, waives, releases, and discharges Otero County, its current and former commissioners, directors, departments, attorneys, legal representatives, predecessors, insurers, successors, assigns, employees and agents from all manners of liabilities, claims, demands, and causes of action, known or unknown, fixed or contingent, arising in the past, present, or future which EchoMail or anyone claiming through EchoMail may personally have or claim to have against Otero County as a result of the dispute over the January 25, 2022 Contract with prejudice. This Agreement includes all demands, obligations, actions, claims, damages, costs, or rights EchoMail, its agents, successors, and assigns now have or may have against Otero County that could be related to the Contract between the Parties. This shall be a fully binding and complete settlement between the Parties, and each party's agents, successors and assigns.

2. In consideration for payment described herein, the County dismisses, waives, releases, and discharges EchoMail, its directors, attorneys, legal representatives, predecessors, insurers, successors, assigns, employees and agents from all manners of liabilities, claims, demands, and causes of action, known or unknown, fixed or contingent, arising in the past, present, or future which the County or anyone claiming through the County may personally have or claim to have against EchoMail as a result of the dispute over the January 25, 2022 Contract with prejudice. This Agreement includes all demands, obligations, actions, claims, damages, costs, or rights the County, its agents, successors, and assigns now have or may have against EchoMail that could be related to the Contract. This shall be a fully binding and complete settlement between the Parties, and each party's agents, successors and assigns.

3. The Parties understand that this is a general release encompassing all claims against one another arising under federal, state, or local law, including but not limited to claims arising

AMERICAN OVERSIGHT

under state and federal statutes, as well as any claims arising under any theory of common law concerning the Contract. Claims released are those of which the Parties are presently aware, and those of which it may be unaware, for breach of contract or otherwise. This general release is binding upon the current and former directors, departments, attorneys, legal representatives, predecessors, insurers, successors, assigns, and employees of the Parties.

4. It is expressly understood and agreed that the payment of the sum described in the below paragraphs, is not and shall not be construed as an admission of liability by either Party. The Parties are settling and compromising disputed claims as to which they expressly deny any liability.

CONSIDERATION

5. Pursuant to this Settlement Agreement and Release of All Claims, EchoMail agrees to pay the County in settlement of the above dispute, the sum of $15,125.00. The aforementioned amount will be made payable to the County within 30-days of execution.

SUPPLEMENTAL DOCUMENTS

6. EchoMail and the County agree to cooperate fully to execute any and all supplementary documents, and take all additional actions that may be necessary to give full force and effect to this Settlement Agreement and Release of All Claims.

FEES

7. Each Party shall bear its own costs and fees, including attorneys' fees associated with the underlying contract and/or settlement agreement.

ADVICE OF COUNSEL

8. The Parties acknowledge they are represented by counsel and have read and understood the effects of this Settlement Agreement and Release of All Claims. The Parties further

AMERICAN OVERSIGHT

state they execute this Settlement Agreement and Release of All Claims of their own free will and accord, for the purpose and consideration set forth in this Agreement.

INTEGRATION

9. This Settlement Agreement and Release of All Claims contains the entire understanding between the Parties hereto concerning the subject matter contained herein.

10. EchoMail and the County agree that each paragraph and component of this Settlement Agreement and Release of All Claims is a material term and that failure to comply with any of the provisions contained herein constitutes a material breach of this Agreement.

11. The Parties represent and warrant that there have been no representations or promises made by either Party on which they relied in connection with the Settlement Agreement and Release of All Claims, other than what is set forth herein in writing.

12. The Parties further represent and warrant that it is not being induced to enter into this Agreement by anything other than the written words contained in this Agreement.

13. This Settlement Agreement and Release of All Claims constitutes the entire agreement and understanding between EchoMail and the County and shall not be modified or altered, except in writing, and signed by the Parties to this Settlement Agreement and Release of All Claims.

14. This Settlement and Release of All Claims shall be effective following execution by the Parties. Facsimile signatures shall be acceptable as original for all purposes.

15. The Parties acknowledge that the signatories to this Settlement and Release of All Claims have the necessary authority to bind their respective entities to its terms.

AMERICAN OVERSIGHT

16. The parties further agree "electronic signatures" are sufficient to legally execute and bind this agreement and shall be deemed valid and binding, as if original.

Commissioners for Otero County
101 New York Avenue
Alamogordo, NM 88310

RE: Delivery of Contracted Services for 2020 Election Audit

Dear Honorable Commissioners:

Per the Master Agreement and the sole Schedule signed on January 26, 2022 between Otero County and EchoMail, EchoMail is contracted to perform two (2) specific tasks: 1) Creation of an integrated data warehouse; and, 2) Data analysis of the registrations and votes cast at the precinct level and by vote type.

EchoMail has completed both of these tasks.

Concerning the first task - creation of the integrated data warehouse - attached on the USB stick is the integrated data warehouse that is approximately 17GB containing the Cast Vote Records in MySQL database format, Cast Vote Records in an import-friendly format, Voter Rolls, Ballot Images, Paper Ballot Scans, and County Canvass data. We have received payment of $24,875 for this task per the Schedule.

Concerning the second task - data analysis of the registrations and votes (ballots) cast at the precinct level and by vote type - on the same USB is a PDF containing the data analysis. As of March 1, 2022, we were to be paid the remainder $24,875 for the completion of the data analysis, for which we have yet to receive payment. The delivery of this USB concludes our contracted services with the County. It has been a pleasure working with you. Kindly make arrangements for the outstanding payment.

Sincerely,

Dr. Shiva Ayyadurai
President/CEO
EchoMail, Inc.

Encl.: USB stick containing data warehouse and data analysis.

Subject: Re: CVR Report
Attachment(s): "Registrations to Ask For Source.xlsx"

Thank you so much, Selina.

I attached the spreadsheet of the registrations that I'd really like to get the original registration date, the source of the registration in code. The first tab is a sample of 100 problem entries from the canvass. The second tab has about 200 registrations that show as having registered to vote after election day (many are first time voters), yet they still voted. And the last tab. are the 1,200 registrations that occurred during the early voting/election day period.

I know it's a lot. The first tabs and the first-time voters on the second tab are probably the highest priority if you have time to work through them. Maybe just a sampling from the last tab would be enough.

Thank you again for your time today.

Sincerely,
Erin Clements

49	No record of this person, registration date!			
50	No record of this person, registration date!			
51	No record of this person			
52				
53				
54	Moved out two years ago, note registration date, would have had to register right before moving			
55	no one by this name ever lived here - note the registration date!!!			
56				
57	Address doesn't exist			
58	Vacant business building			
59				
60	THIS IS A VACANT LOT, USED TO BE A TRAILER PARK			
61				
62				
63				
64				
65				
66				
67				
68	Has not lived at this address for 20 years			
69	Also a dropped vote, Joe does not live at the address, but Emma Sue Williams is registered and voted from here			
70	Resident has lived here since 1960's, this registrant has never lived here, BLATANT GHOST			
71				
72	Note the registration date			
73				
74				
75	Brittany Lamp has never lived at this address			
76				
77	Has been an airbnb rental since 2017, Owner's name is Donald			
78	Has been an airbnb rental since 2017, Owner's name is Donald			
79				
80				
81				
82				
83				
84				
85	Moved out 10 years ago, look at registration date!!!			
86				
87	Moved to Alaska in Jan 2020			
88	Moved to Alaska in Jan 2020			
89	Moved to Alaska in Jan 2020			
90				
91				
92	Moved away in 2019			
93	Moved away in 2019			
94				
95	Note the registration date			
96	Very likely fake registration, apt number #239 is a house number, these aren't aparments, dulicated name and changed birth year

Selina,

There are two more things I would like to request - (1) the number of ballots that were delivered each day from the USPS and (2) could I have three fields out of the voter rolls that you have - the original registration date, and the affiliated party. I wouldn't need names or birthdates or anything else. That would allow me to see if the original registration dates follow a random pattern the way they should - rather than the controlled pattern that is in the registration date field that I have.

Thank you,
Erin

Thank you so much, Selina.

AMERICAN OVERSIGHT

I attached the spreadsheet of the registrations that I'd really like to get the original registration date, the source of the registration in code. The first tab is a sample of 100 problem entries from the canvass. The second tab has about 200 registrations that show as having registered to vote after election day (many are first time voters), yet they still voted. And the last tab. are the 1,200 registrations that occurred during the early voting/election day period.

I know it's a lot. The first tabs and the first-time voters on the second tab are probably the highest priority if you have time to work through them. Maybe just a sampling from the last tab would be enough.

Thank you again for your time today.

Sincerely,

Erin Clements

Subject: Re: Scheduling Request

Thank you, Selina.

Regarding the chain of custody documents - I primarily mean the chain of custody regarding the absentee ballots. That would include records of when and by who they were requested, when they were mailed, when they were returned, and whatever bookkeeping forms your office used to document how many ballots were returned through drop boxes and when they were returned.

Right now, we are estimating the volunteer force needed to complete the work of scanning the ballots and envelopes within two days as approximately 40 people. Please advise as to the location that would be best for your office to do this work.

Regarding the equipment list - please provide the list of vendors used by the County along with the specific types of equipment they provided for the November 2020 election so that we can contact the individual vendors.

I attached the updated Data Request Form. Please note we are requesting all available fields to be provided that document the application date, acceptance date, and source of each registrant.

Thank you for your help with all of this.

Sincerely,

Erin Clements

Per the Scope of Work approved by the Otero County Commission on January 13, 2022, the Audit also includes the examination of the physical records and equipment should take no more than two working days and will be performed under the constant supervision of the county. The examination of the physical records and equipment will include:

1. Scanning of all paper ballots for hand recount offsite.

   We will be providing all ballots that were removed from the tabulators for scanning.

2. Scanning of all absentee ballot envelopes for analysis offsite.

   We will provide absentee envelopes for scanning. They are 9x6 and one side has voter information and the other side has postage information.

3. Scanning of paper tabulator tapes and chain of custody documents for analysis offsite.

   Per the zoom meeting, you already have copies of the tapes. Will you clarify what chain of custody documents you are requesting.

4. Creation of forensic images of equipment used during the November 2020 election including tabulators, EMS server, routers, and poll books. The forensic images will not alter or damage the election equipment in any way.

   Please see the attached letter from the SOS.

5. Test of select tabulators.

   Please see the attached letter from the SOS.

Please provide a **full list of equipment used during the November 2020 election** and at least **three dates of availability to perform the physical examination of records and equipment** at your earliest possible convenience. Dates need to consist of two consecutive days for scheduling with the forensic experts who will create the forensic images of the equipment.

All equipment used in the 2020 General Election is leased out from different vendors. Please request from them. Per the zoom meeting, Wednesday March 9th and Thursday March 10th, 2022 are the dates that are set. We will need a count of volunteers, so we have enough space.

AMERICAN OVERSIGHT

Also, it had come to our attention that the affidavit of authorization has been updated by the SOS Office. Pursuant to 1-4-5.5 (d) NMSA, we have to use the affidavit prescribed by the SOS. Attached is the new form. Please fill out and send to our office.

Attachment(s): "image001.png","Voter Data Request Form 2-14-2022 (002) (1).pdf"

Dear Selina,

Please point to the language in the IPRA guide that allows you to charge us time for reviewing documents. I certainly can't find it. Again, we are not asking the County to make or transmit copies - that is not applicable to this project. We will not be requiring any assistance for scanning the ballots from additional employees. That is an unnecessary expense that we are not requesting and are not willing to pay. If you feel like 5 additional people are needed, we will bring five additional volunteers. We are training our volunteers ahead of time, and they will be more helpful to us that five new employees who are not familiar with what we're doing and how we are planning to get this done quickly.

We will see you on March 9th at 8 am at the fairgrounds.

EchoMail has been hired by the County Commission - which is a government entity. If you prefer the request come from the county directly, we can submit a new affidavit of authorization. This is no different from public records and the voter rolls being regularly provided to the Electronic Registration Information Center, which is a private entity do work contracted on behalf of a government entity.

I assume you are on the same page about this - but we are expecting the boxes that contain the ballots and envelopes to be sealed when we arrive and unsealed in our presence so there is no question about chain-of-custody. Also, regarding chain-of-custody, we have concerns over our equipment being left in a locked building during lunch, as such we will require at least one of our people to remain with our equipment at all times.

We are asking the sheriff to send a deputy to oversee the process as I have received several threats over the last few days, including death threats, and we feel it is important for the safety of everyone. Perhaps the Sheriff's office will be willing to let his deputy remain with our representative in the room while your staff and our volunteers go to lunch between noon and 1 pm if you have any concerns over a representative of the county not being present at all times.

Mr. Nichols,

Would you please fill out the affidavit of authorization (attached) for obtaining the latest copy of the voter rolls for Otero County as well as brief statement requesting all of the chain of custody documents and digital records for when absentee ballots were requested, mailed, and received back. Selina needs the request to come directly from the county in order to approve it.

Sincerely,
Erin Clements

On Wednesday, March 2, 2022, 06:42:15 PM CST, <smaes@co.otero.nm.us> wrote:

In accordance with IPRA, we are allowed to charge the actual cost to the public body for making and transmitting copies, including any personal time involved. There are just over 23,400 ballots and just over 5900 envelopes to be scanned. We have 5 employees from our office and have hired 5 additional employees, which should be adequate to assist you with your request.

If you feel like one day will suffice, I have attached a new invoice. We will need to receive payment no later than Monday, March 7, 2022 by end of business day. If you need more time, please let us know and we can reschedule.

Your affidavit of authorization is denied due to the fact that EchoMail is not a governmental entity. (1-4-5.5, NMSA 1978)

We don’t have specific contact information for our vendors, anyone should be able to help.

Subject: Re: Scheduling Request

Dear Selina,

We will bring 20 people to scan the ballots. We will let our volunteers know that only sealed drinks will be allowed and no writing devices.

We do not believe the invoice for time is fair, applicable, or in accordance with IPRA statutes and the Compliance Guide published by the Attorney General. We have never been charged for reviewing documents in person by any county of the 10 counties where we have reviewed any paper records in person, including paper ballots. This includes Dona Ana county where staff from the County Clerk's office met us at the election warehouse aware from their regular place of work on two different occasions to review ballots and tabulator tapes for several hours at a time. Or Harding County, where we reviewed documents for most of a working day. We are not requiring any overtime from your staff as the hours are within normal working hours. Also note that we believe we can finish the work in one day, we have asked for two only to account for contingencies.

Further, the Inspection of Public Records Compliance Guide (https://www.nmag.gov/uploads/files/Publications/ComplianceGuides/Inspection%20of%20Public%20Records%20Compliance%20Guide%202015.pdf) lists the circumstances under which a records custodian may charge the records requestor on page 33. Note that fees can only be charged when the custodian is making copies on behalf of the requestor and there is no circumstance where the guide allows the custodian to charge the requestor time for reviewing the documents. We are not asking the County Clerk to create copies for us. EchoMail has already paid the County Clerk's office roughly $1,000 for the production of digital files. Note that the guide states: "Downloaded copies: A custodian may charge the actual costs of downloading copies of public records to a computer disk or other storage device, including the actual cost of the storage device." You will recall that we were charged a fee ***per electronic file*** when the guide only allows custodians to charge for the actual cost of the storage, postage, and time to download files (which was likely not more than an hour). We believe we have already been charged excessive, unjustified fees for the records we have received to date.

Please provide further explanation on why you are rejecting the request for the voter rolls. Also, it is my understanding that the absentee ballot records we are requesting are provided to candidates and parties on a weekly basis (and even published on the SOS website) leading up the election. We need further explanation as to why the Count Clerk's office is refusing to provide this same data for this audit commissioned by the County Commissioners. As you know, the County Commissioners are expected to certify the election results based, in part, on these records that you are refusing to provide for inspection. As such, I am renewing my request for the full records related to the absentee ballots as well as the most recent copy of the voter rolls with full voter history.

Sincerely,

Erin Clements

Per the Scope of Work approved by the Otero County Commission on January 13, 2022, the Audit also includes the examination of the physical records and equipment should take no more than two working days and will be performed under the constant supervision of the county. The examination of the physical records and equipment will include:

1. Scanning of all paper ballots for hand recount offsite.

   We will be providing all ballots that were removed from the tabulators for scanning.

2. Scanning of all absentee ballot envelopes for analysis offsite.

   We will provide absentee envelopes for scanning. They are 9x6 and one side has voter information and the other side has postage information.

3. Scanning of paper tabulator tapes and chain of custody documents for analysis offsite.

   Per the zoom meeting, you already have copies of the tapes. Will you clarify what chain of custody documents you are requesting.

4. Creation of forensic images of equipment used during the November 2020 election including tabulators, EMS server, routers, and poll books. The forensic images will not alter or damage the election equipment in any way.

   Please see the attached letter from the SOS.

5. Test of select tabulators.

   Please see the attached letter from the SOS.

Please provide a **full list of equipment used during the November 2020 election** and at least **three dates of availability to perform the physical examination of records and equipment** at your earliest possible convenience. Dates need to consist of two consecutive days for scheduling with the forensic experts who will create the forensic images of the equipment.

All equipment used in the 2020 General Election is leased out from different vendors. Please request from them. Per the zoom meeting, Wednesday March 9th and Thursday March 10th, 2022 are the dates that are set. We will need a count of volunteers, so we have enough space.

Also, it had come to our attention that the affidavit of authorization has been updated by the SOS Office. Pursuant to 1-4-5.5 (d) NMSA, we have to use the affidavit prescribed by the SOS. Attached is the new form. Please fill out and send to our office.

Subject: Scheduling Request

Dear County Clerk Holmes,

Per the Scope of Work approved by the Otero County Commission on January 13, 2022, the Audit also includes the examination of the physical records and equipment should take no more than two working days and will be performed under the constant supervision of the county. The examination of the physical records and equipment will include:

1. Scanning of all paper ballots for hand recount offsite.
2. Scanning of all absentee ballot envelopes for analysis offsite.
3. Scanning of paper tabulator tapes and chain of custody documents for analysis offsite.
4. Creation of forensic images of equipment used during the November 2020 election including tabulators, EMS server, routers, and poll books. The forensic images will not alter or damage the election equipment in any way.
5. Test of select tabulators.

Please provide a **full list of equipment used during the November 2020 election** and at least **three dates of availability to perform the physical examination of records and equipment** at your earliest possible convenience. Dates need to consist of two consecutive days for scheduling with the forensic experts who will create the forensic images of the equipment.

Thank you for your attention to these matters and please let us know if you have any questions about the documents and schedule being requested.

Sincerely,

Erin Clements

AMERICAN OVERSIGHT

Pamela Heltner, County Manager (PH)
Erin Hughes, County Commissioned Volunteer (EH)
John Medlar, EchoMail (JM)
R.B. Nichols, County Attorney (RBN)
The meeting involved: a. Introductions, b. Review of the EchoMail Project Plan, c. Review of the EchoMail process,
d. Review of the outstanding data elements needed for EchoMail to perform the Audit, and e. Next Steps.

February 9 – 18, 2022 – EchoMail Awaiting Additional Data
EchoMail and EH have had various follow up meetings to get the additional data required for Audit.

AMERICAN OVERSIGHT

Concerning (1), the following has been achieved since February 21, 2022 and to as of today:
a. Receipt of the CVR data from the County
b. Receipt of the Ballot Image data from the County
c. Incorporation of the CVR data into the datawarehouse by EchoMail
d. Incorporation of the ballot image data into the datawarehouse by EchoMail

Concerning (1), relative to outstanding data items
1. Paper Ballot scans have still not been received
2. Envelope Images have still not been received

Concerning (2), I suggest we have a meeting so we can itemize the kinds of analytics the County will want performed.

Administrative Items:
1. EchoMail received first payment from the County pursuant to the Agreement.
2. The press is erroneously reporting that EchoMail has been contracted to perform door-to-door canvassing and is directing NMAF. This is not true. As of now, EchoMail's obligations are pursuant to Schedule A.
3. Setup a follow up project meeting

Next Steps:
1. Set date/time for Zoom meeting for project

Thank you.

Sincerely,
Dr. Shiva Ayyadurai

Status Report as of February 21, 2022
RE: EchoMail® Project Update Memo As of February 21, 2022
This memorandum provides an update on the current status of the project pursuant to Schedule A executed between EchoMail, Inc. ("EchoMail") and Otero County, ("County").

February 2, 2022 – EchoMail Setup of EchoMail Data Warehouse
EchoMail has setup the EchoMail® Data Warehouse (DW) that includes

AMERICAN OVERSIGHT

hardware and software to receive and store data that may include: County's Voter Rolls, Participating Voter List, Cast Vote Records (CVRs), Images of the Return Ballot Envelopes, Ballot Images (from the Election Management System – EMS), Paper Ballot Scans, Door-to- Door Canvass data. Ref. Schedule A.

February 5, 2022 – Importing of Voter Rolls into EchoMail®/DWTM
EchoMail imported Voter Rolls received from the County via EH into the EchoMail®/DW.

February 9, 2022 – Project Kickoff Meeting Held
EchoMail and the County held a Project Kickoff meeting pursuant to Schedule A,

Attendees:
Dr. Shiva Ayyadurai, EchoMail (SA)
Robyn Holmes, County Clerk (RH)
Pamela Heltner, County Manager (PH)
Erin Hughes, County Commissioned Volunteer (EH)
John Medlar, EchoMail (JM)
R.B. Nichols, County Attorney (RBN)
The meeting involved: a. Introductions, b. Review of the EchoMail Project Plan, c. Review of the EchoMail process,
d. Review of the outstanding data elements needed for EchoMail to perform the Audit, and e. Next Steps.

February 9 – 18, 2022 – EchoMail Awaiting Additional Data
EchoMail and EH have had various follow up meetings to get the additional data required for Audit.

Dear RB,
I'm terribly sorry I missed this. The first payment is upon signing the agreement. The second payment is on March 1, 2022. I can definitely send you a status memo of the project to date pursuant to Schedule A. Can the memo be via email or do you need something more formal on our letterhead?

-Dr. Shiva

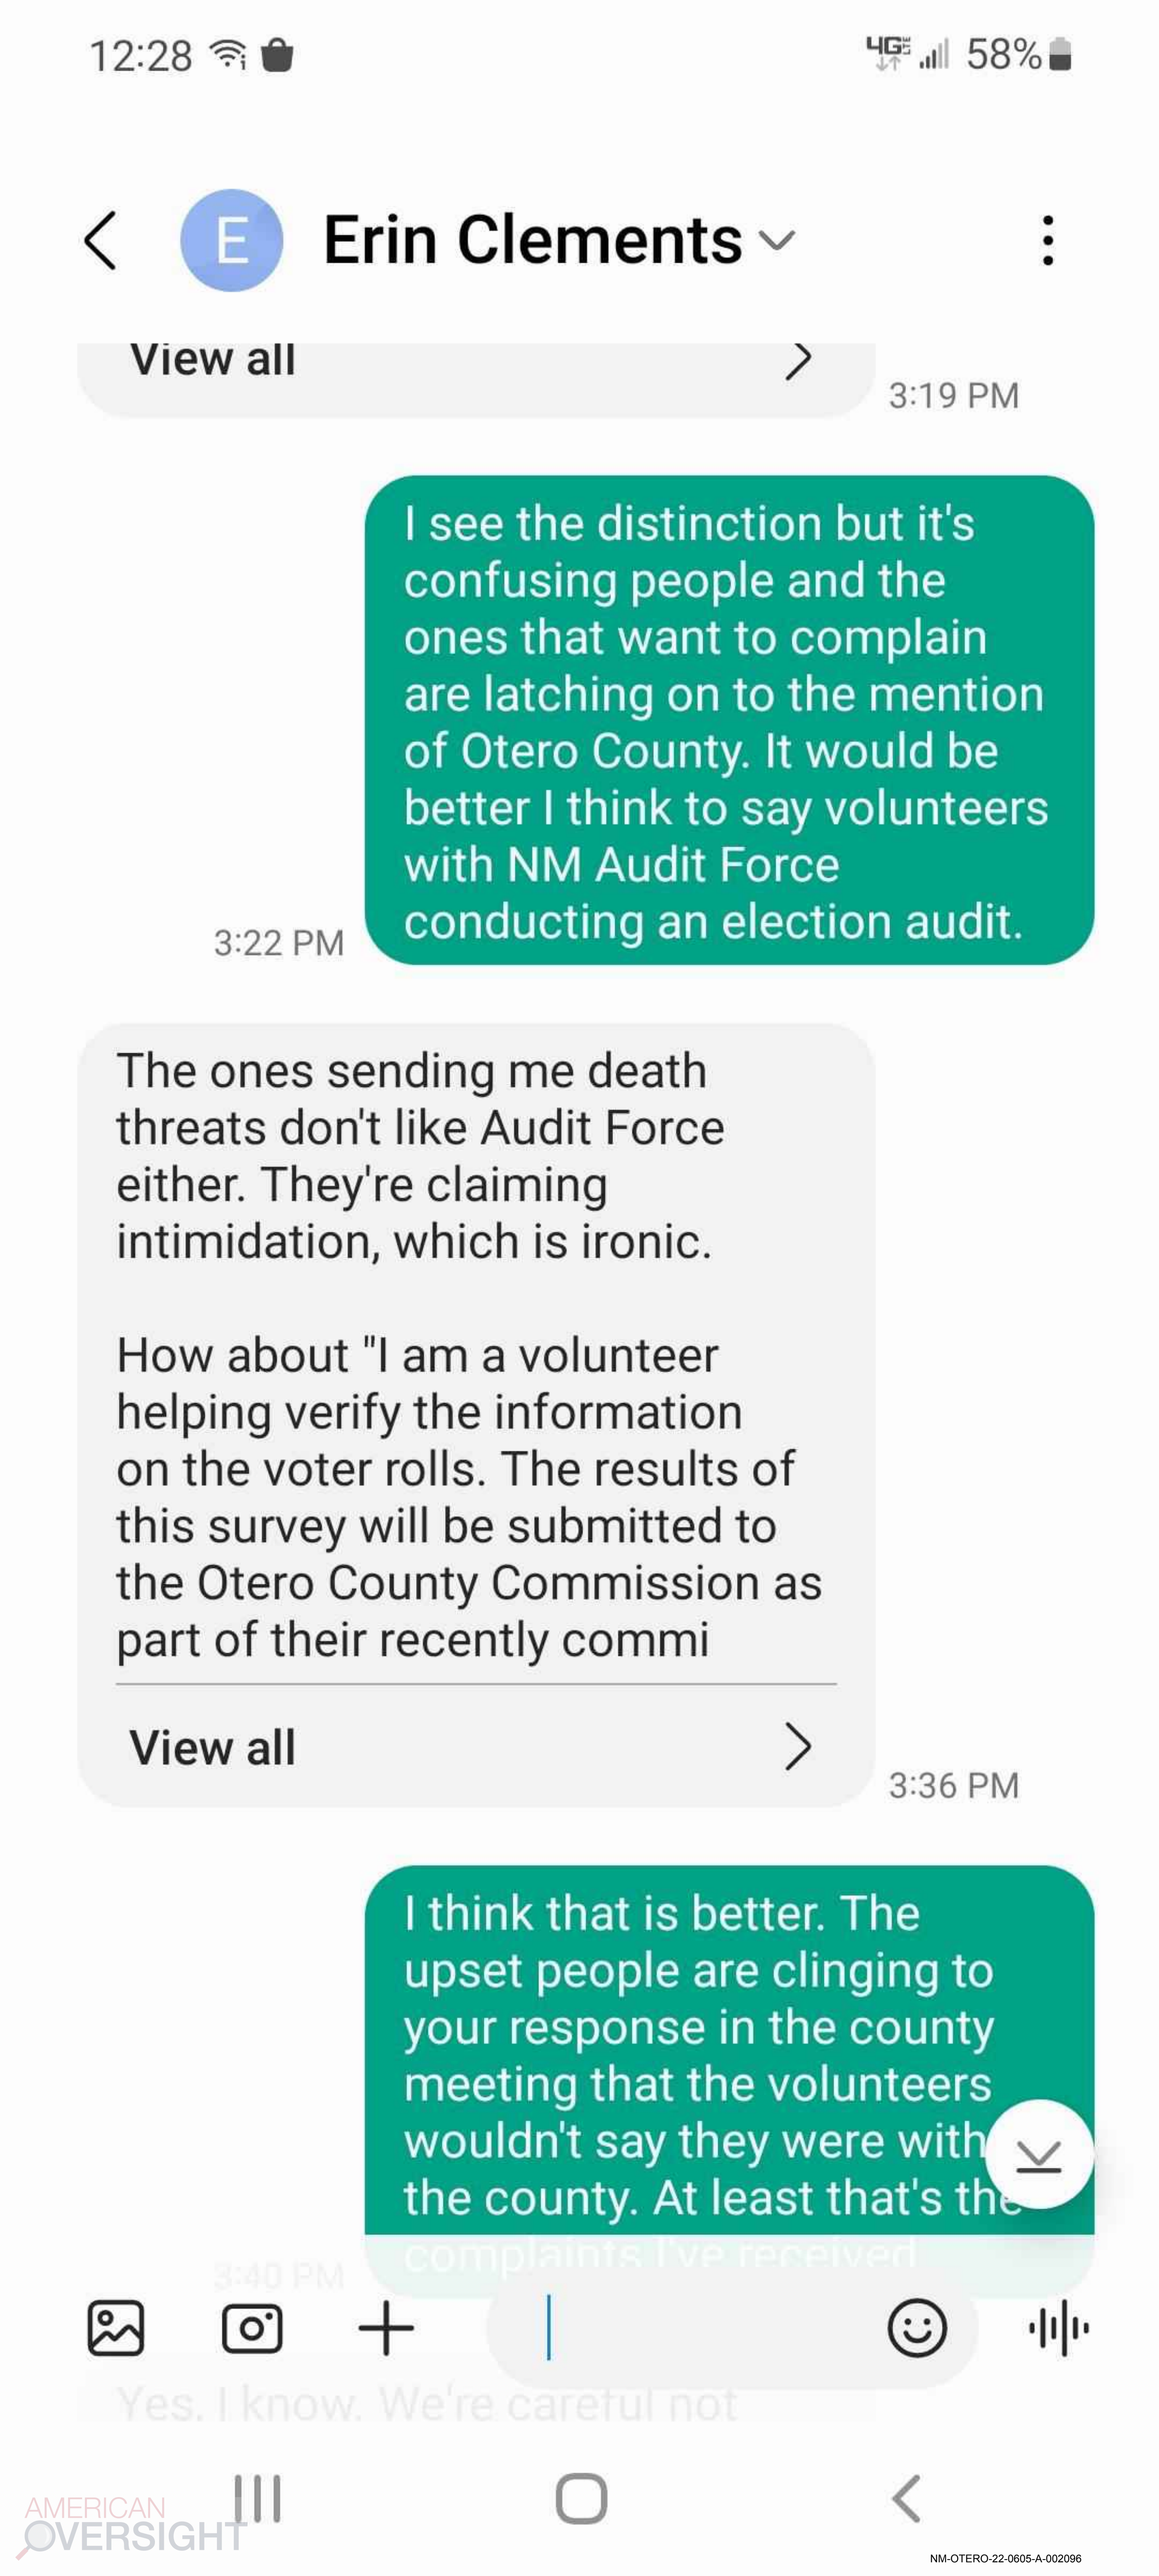
Our canvassers have been introducing themselves this way: "I am a volunteer assisting Otero County who recently commissioned an audit of their elections, including the voter rolls. Would you have a couple minutes to help us verify the information on the voter rolls for this address?"



We're trying to explain why we're there as simply as possible.

Is that language ok?

Dear All:

I hope this email finds you well. I wanted to provide this Status Report to update you on the current state of Schedule A tasks. To review, per our Agreement, EchoMail is to provide two (2) items for the Audit:
(1) Setup of the Integrated Datawarehouse incorporating data from various sources i.e. cvr, ballot images, etc.; and ,
(2) Data Analytics

Status of Project:
Concerning (1), the following has been achieved since February 21, 2022 and to as of today:
a. Receipt of the CVR data from the County
b. Receipt of the Ballot Image data from the County
c. Incorporation of the CVR data into the datawarehouse by EchoMail
d. Incorporation of the ballot image data into the datawarehouse by EchoMail

Concerning (1), relative to outstanding data items
1. Paper Ballot scans have still not been received
2. Envelope Images have still not been received

Concerning (2), I suggest we have a meeting so we can itemize the kinds of analytics the County will want performed.

Administrative Items:
1. EchoMail received first payment from the County pursuant to the Agreement.
2. The press is erroneously reporting that EchoMail has been contracted to perform door-to-door canvassing and is directing NMAF. This is not true. As of now, EchoMail's obligations are pursuant to Schedule A.
3. Setup a follow up project meeting

Next Steps:
1. Set date/time for Zoom meeting for project

Thank you.

Sincerely,
Dr. Shiva Ayyadurai

Subject: Status Report

Hi Dr. Shiva,

Haven't received any response on my previous two emails and wanted to follow up to see when we can schedule a time for a project status update and a discussion
of the data on the Echomail provided USB. Please let us know what options work for you and your staff.

v/r,
RB

Dr. Shiva,

We have received the USB with audit analysis. Please send an invoice for the remaining $24,875. Also, please let us know when you would like to schedule a meeting for
a project update.

v/r,
RB

Hello Mr. Nichols. Have you or other county officials taken any additional steps today regarding the primary election canvass based on the directions of the commissioners/canvass board yesterday? (Such as summoning a precinct board to recount or address discrepancies?)

Thank you.

Morgan

Subject: Associated Press request | cavass board materials

Hello Ms. Holmes

Hoping you are well. Please provide a copy of the written materials provided to the canvassing board this morning. Please also provide a list of people who attended the county's certification/testing of tabulation machines in advance of the June 7 primary. This is a request on behalf of The Associated Press.

Also, are you available this afternoon, perhaps around 2 p.m. or 3 p.m. to talk about today's decision by the canvassing board? Though the discussion was robust at today's cavass board meeting, I'd like to double-check a few things to ensure I understand the proceedings and your position on the county commission's initiative to hand count ballots, remove drop boxes and get rid of tabulation machines in the general election.

Thank you.

Dear Couy,

I respect your efforts and your vote today. But I have no respect for Vicki and Gerald. Those two are a bunch of cowards to me. That's my opinion. I want to move back out there but my family situation is preventing me right now. But I got your back! Because I know that the people of Otero County got your back and that's all we need. So I ain't scared of No State. And Vicki and Gerald are more scared of the State than the People. That's why they are the problem. Believe me, but remember
NO JURY IN OTERO COUNTY WILL EVER CONVICT YOU!
Just get all your money out the bank and remember you lost all you guns in a boating accident!

Sincerely,

Matt Ransome!

This Message has originated outside your organization.

Michael,

Please see attached. Not sure what else I could have said to them. I provided them with the link to your presentation and your slides this week hoping they would review. Oh well. Now to figure how to facilitate a hand recount.

Hope you have a great weekend,
RB

Selina,

There are two more things I would like to request - (1) the number of ballots that were delivered each day from the USPS and (2) could I have three fields out of the voter rolls that you have - the original registration date, and the affiliated party. I wouldn't need names or birthdates or anything else. That would allow me to see if the original registration dates follow a random pattern the way they should - rather than the controlled pattern that is in the registration date field that I have.

Thank you,
Erin

Subject: Re: CVR Report

Thank you so much, Selina.

I attached the spreadsheet of the registrations that I'd really like to get the original registration date, the source of the registration in code. The first tab is a sample of 100 problem entries from the canvass. The second tab has about 200 registrations that show as having registered to vote after election day (many are first time voters), yet they still voted. And the last tab. are the 1,200 registrations that occurred during the early voting/election day period.

I know it's a lot. The first tabs and the first-time voters on the second tab are probably the highest priority if you have time to work through them. Maybe just a sampling from the last tab would be enough.

Thank you again for your time today.

Sincerely,

Erin Clements

Good morning, Commissioner Griffin,

I watched a recent video on the Otero election for 2020. There was a spreadsheet on a slide that showed data that I cannot read, for the counties I lost in 2020 for District 8.

It's extremely difficult for me to read what it said. Think you could pass my contact on to Dr. Clements? I have no interest in pursuing legal recourse in NM courts, as I am now a Texas resident again. Just want to see what others believe happened, because my instincts said it wasn't right.

Subject: Re: Dr. Clements

Thank you so much, Couy. I'll reach out to them.

This may aid you and the commissioners in finding solutions to fixing the election procedures in Otero County so they can be trusted again. We have a statute in NM that requires ballots to be consecutively numbered.

1-10-12. Paper ballots; general requirements.

Paper ballots shall:
A. be numbered consecutively;
B. be uniform in size;
C. be printed on good quality white paper;
D. be printed in plain black type;
E. have the precinct numbers printed on each paper ballot; and
F. be in the form prescribed by the secretary of state.

History: 1953 Comp., § 3-12-78, enacted by Laws 1977, ch. 222, § 47; 1987, ch. 249, § 39; 1991, ch. 105, § 34; § 1-12-44 NMSA 1978, recompiled and amended as § 1-10-12 NMSA 1978 by Laws 2009, ch. 150, § 10.

The poll book/ballot printing system that the SOS is forcing everyone to use does not do this and it violates state law. It is also what leaves the door open to massive cheating in drop boxes and mail-in ballots. All records of how many ballots have been sent out are electronic and can be manipulated. We showed on Monday suing the SOS's own data shows that votes from entire counties can disappear and reappear inside the poll books. Those things are not secure.

Sincerely,
Erin

Yes, of course. See attached and please let us know if you have any questions. I will forward you the backup documentation from the SOS and EAC regarding the lack of certification on the machines in a separate email since it is a large file.

Erin

Morgan,

Attached is the presentation from last night. Also, attached is the presentation NM Audit Force provided in November.

_David Clements has urged the county to overlook potential concerns about litigation or liability and follow his recommendations. Is the county self-insured or uninsured when it comes to legal defense against allegations of misconduct or civil rights violations by county officials and employees. (My understanding is that Otero County is not covered by the New Mexico Counties Insurance Authority pool because of prior issues related to criminal justice facilities.) Perhaps recent audits of county finances outlines the situation?
Otero County is insured by New Mexico Counties Insurance Authority pool except on matters related to our detention facility. As to whether the issues raised by you above would be covered that would be determined on a case-by-case basis.

It would be sudden, but has the county sheriff requested a search warrant to examine election-related machinery or materials? Please provide a copy of any related search warrant requests made between Monday, May 9, and the date this request is fulfilled, 2022.
At this time, the Sheriff has not requested a search warrant.

v/r,
RB

Subject: Otero County Primary
Importance: High

Dear Commissioners:

You have fans here in Ohio! I want to thank you for your courage and ask that you do not back down in the face of tyranny.

The country is watching, the world is watching, in hopes that others follow your lead. We know that these machines are corrupt and Jovan Hutton Pulitzer and team have proven that algorithms were running in Maricopa, AZ by his audit of the paper. Plus the electronic manipulation that has been discovered both in Georgia by VoterGA and in Colorado by Jeff O’Donnell.

The news covers it up, the FBI and SOSs turn and look the other way. We the people have been censored off about every platform while trying to find and spread the truth.

Please, please, please do not give in until hand recounts are performed or you’re able to open the machines and have the source codes investigated by ture IT forensic professionals.

We the people have your back!!!

If there are legal fees you need help with, let Professor Clements know that there are those of us out here that will contribute to the cause. All it would take is a give-send-go account and we WILL crowd source this.

Thanks again and God bless all three of you!!!

In Christ,

David Kray

Sent: Friday, June 17, 2022 2:15 PM
To: stillbrook@co.otero.nm.us
Subject: Public Records Request: Canvassing Board records

Dear Ms. Tillbrook,

Pursuant to the New Mexico Inspection of Public Records Act, 14-2-1 NMSA 1978 et seq, I am requesting the following records:

Copies of any and all emails **sent or received** by Commissioner Gerald Matherly, Commissioner Couy Griffin, and Commissioner Vickie Marquardt between May 31, 2022 and June 17, 2022.

For any emails that contain attachments, please provide the attachment as well.

This request includes all messages in which Mr. Matherly, Mr. Griffin, or Ms. Marquardt appears (whether in the to, from, cc, or bcc field), as well as all prior messages (whether incoming or outgoing) reflected in the responsive correspondence and any attachments thereto.

Please provide the information electronically. I would like to receive the information in a PDF file format if possible.

Please waive any applicable fees. This information is being sought on behalf of ProPublica, an independent non-profit news organization, for dissemination to the general public. This request is not being made for commercial purposes. As a non-profit, non-partisan journalistic entity, ProPublica does not have the same commercial interests of other news organizations.

I am also requesting expedited processing. Release of the information is in the public interest because it will contribute significantly to public understanding of the County Canvassing Board's recent decision to not certify the results of the June 7 primary election.

I look forward to your reply within three business days, as the statute requires. Please don't hesitate to contact me if you have any questions or would like to discuss the request. Thank you very much for your assistance.

Sincerely,
Joshua Kaplan

From: Roger Parloff <roger.parloff@lawfareblog.com>
Sent: Wednesday, June 1, 2022 9:30 AM
To: cgriffin@co.otero.nm.us
Subject: reporter's inquiry

Couy--

I am a senior editor at a publication calledLawfare. I have been following the cases across the country in which candidates and officials have been challenged under Section 3 of the 14th Amendment because of their alleged roles in the January 6 Capitol riot. I am working on an article about the nine cases that (so far as I know) have been filed so far, including the one challenging you.

I had several specific questions about your case:

1. Do you plan to run for reelection to your current position as county commissioner of Otero County when your term ends at the end of this year? My term will end at the end of this year. I will have served one term. I am not running for re-election

2. If you are not yet certain, by when do you have to make that known in order to appear on the relevant ballots?

3. If you do not plan to run for reelection to your current position, do you plan to run for some other office in the immediate future?

My destiny is in the Hand of God Roger and I didn't feel God leading me back thru a political door in 2022. 2024 may be a different story. God only knows.

Thanks for any help you can provide.

Subject: reporter's inquiry

Couy--

I am a senior editor at a publication calledLawfare. I have been following the cases across the country in which candidates and officials have been challenged under Section 3 of the 14th Amendment because of their alleged roles in the January 6 Capitol riot. I am working on an article about the nine cases that (so far as I know) have been filed so far, including the one challenging you.

I had several specific questions about your case:

1. Do you plan to run for reelection to your current position as county commissioner of Otero County when your term ends at the end of this year? My term will end at the end of this year. I will have served one term. I am not running for re-election

2. If you are not yet certain, by when do you have to make that known in order to appear on the relevant ballots?

3. If you do not plan to run for reelection to your current position, do you plan to run for some other office in the immediate future?

My destiny is in the Hand of God Roger and I didn't feel God leading me back thru a political door in 2022. 2024 may be a different story. God only knows.

Thanks for any help you can provide.

Hello Mr. Nichols.

Can you please provide a copy of the slide-deck presentation by Erin and David Clements to the county commission today.

Also, please provide a copy of any and all legal analysis or advice from county staff and/or outside counsel concerning the following June 9 agenda items:

22Request approval to hand counting all ballots cast inside the Dominion Voting System to verify vote count of machine after the June 7th primary.133/2022
23Request approval to remove all election ballot drop boxes from the public square in an attempt to secure our election in 2022.135/2022
24Request approval to discontinue the use of Dominion Voting Machines before the 2022 General Election.

Thank you.

[EXTERNAL]

Morgan,

Attached is the presentation from last night. Also, attached is the presentation NM Audit Force provided in November.

_David Clements has urged the county to overlook potential concerns about litigation or liability and follow his recommendations. Is the county self-insured or uninsured when it comes to legal defense against allegations of misconduct or civil rights violations by county officials and employees. (My understanding is that Otero County is not covered by the New Mexico Counties Insurance Authority pool because of prior issues related to criminal justice facilities.) Perhaps recent audits of county finances outlines the situation?
Otero County is insured by New Mexico Counties Insurance Authority pool except on matters related to our detention facility. As to whether the issues raised by you above would be covered that would be determined on a case-by-case basis.

AMERICAN OVERSIGHT

It would be sudden, but has the county sheriff requested a search warrant to examine election-related machinery or materials? Please provide a copy of any related search warrant requests made between Monday, May 9, and the date this request is fulfilled, 2022.
At this time, the Sheriff has not requested a search warrant.

v/r,
RB

OFFICIAL BALLOT - County Clerk/Escribano del Condado: Robyn Holmes

STATE / ESTATAL

CONSTITUTIONAL AMENDMENT 1
Proposing to amend the Constitution of New Mexico to provide that the Public Regulation Commission consist of three members appointed by the Governor from a list of professionally qualified nominees submitted to the Governor by a nominating committee as provided by law and that the commission is required to regulate public utilities and may be required to regulate other public service companies.

ENMIENDA CONSTITUCIONAL 1
Se propone enmendar la Constitución de Nuevo México para que la Comisión de Regulación Pública consista en tres miembros designados por el Gobernador a partir de una lista de candidatos calificados profesionalmente presentada al Gobernador por un comité designador como lo establece la ley y que la comisión deba regular los servicios públicos y puede exigírsele que regule otras empresas de servicios públicos.

- ● FOR / A FAVOR
- AGAINST / EN CONTRA

CONSTITUTIONAL AMENDMENT 2
Proposing to amend article 20, section 3 of the Constitution of New Mexico to permit the adjustment by law of terms of non-statewide elected officers and to standardize the date an officer begins to serve.

ENMIENDA CONSTITUCIONAL 2
Se propone enmendar el artículo 20, sección 3 de la Constitución de Nuevo México para permitir el ajuste por ley de los mandatos de los funcionarios electos no estatales y para normalizar la fecha en que un funcionario comienza a ejercer sus funciones.

- ● FOR / A FAVOR
- AGAINST / EN CONTRA

BOND QUESTION A
The 2020 Capital Projects General Obligation Bond Act authorizes the issuance and sale of senior citizen facility improvement, construction and equipment acquisition bonds. Shall the state be authorized to issue general obligation bonds in an amount not to exceed thirty-three million two hundred ninety-two thousand one hundred forty-one dollars ($33,292,141) to make capital expenditures for certain senior citizen facility improvement, construction and equipment acquisition projects and provide for a general property tax imposition and levy for the payment of principal of, interest on and expenses incurred in connection with the issuance of the bonds and the collection of the tax as permitted by law?

PREGUNTA DE BONOS A
La Ley de Bonos de Obligación General de Proyectos de Capital de 2020 autoriza la emisión y venta de bonos para la mejora de instalaciones, construcción y la adquisición de equipos para personas mayores. ¿El estado estará autorizado a emitir bonos de obligación general por una cantidad que no exceda los treinta y tres millones doscientos noventa y dos mil ciento cuarenta y un dólares ($33,292,141) para realizar gastos de capital para ciertos proyectos de mejora de instalaciones, construcción y adquisición de equipo para personas de edad avanzada y prever una imposición general de impuestos sobre la propiedad y recaudar el pago del capital, los intereses y los gastos incurridos en relación con la emisión de los bonos y el cobro del impuesto según lo permitido por la ley?

- ● FOR / A FAVOR
- AGAINST / EN CONTRA

STATE / ESTATAL

BOND QUESTION B
The 2020 Capital Projects General Obligation Bond Act authorizes the issuance and sale of library acquisition bonds. Shall the state be authorized to issue general obligation bonds in an amount not to exceed nine million seven hundred fifty-one thousand four hundred thirty-three dollars ($9,751,433) to make capital expenditures for academic, public school, tribal and public library resource acquisitions and provide for a general property tax imposition and levy for the payment of principal of, interest on and expenses incurred in connection with the issuance of the bonds and the collection of the tax as permitted by law?

PREGUNTA DE BONOS B
La Ley de Bonos de Obligación General de Proyectos de Capital de 2020 autoriza la emisión y venta de bonos para la adquisición de artículos académicos. ¿El estado estará autorizado a emitir bonos de obligación general por una cantidad que no exceda los nueve millones setecientos cincuenta y un mil cuatrocientos treinta y tres dólares ($9,751,433) para realizar gastos de capital para la adquisición de recursos académicos para escuelas públicas, tribales y bibliotecas públicas y prever una imposición general de impuestos sobre la propiedad y recaudar el pago del capital, los intereses y los gastos incurridos en relación con la emisión de los bonos y el cobro del impuesto según lo permitido por la ley?

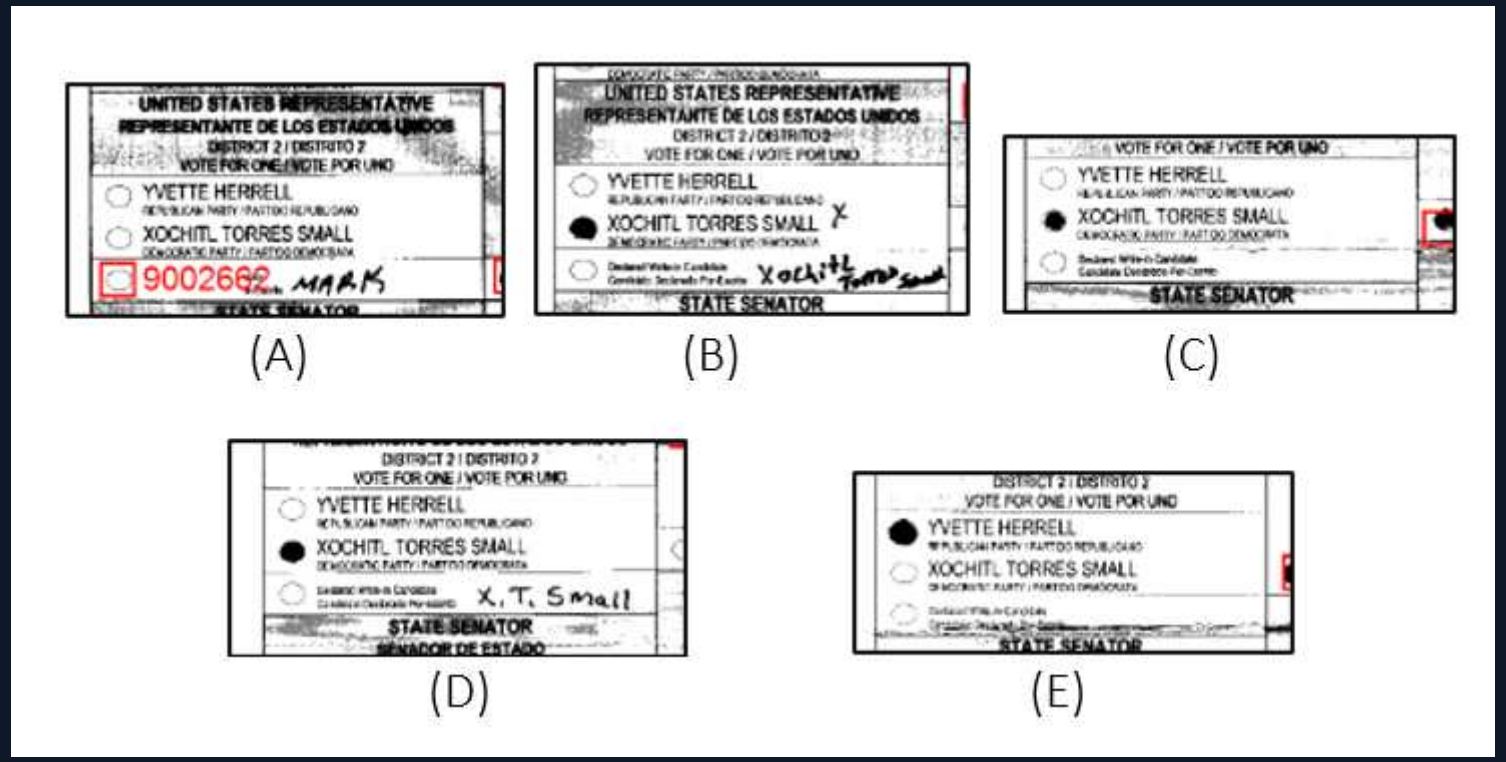
Record Accuracy – Cast Vote Record v Dominion Ballot Images



- By law tabulators can't have more than 1 error in every 125,000 vote opportunities. This translates to no more than 4 misadjudicated votes in Otero County.

- VVSG Section 4.1.5.2: "To ensure accuracy, paper-based systems shall: (d) Detect marks that conform to manufacturer specifications with an error rate that enables satisfaction of the system-level accuracy requirement indicated in Subsection 4.1.1. (e) Ignore, and not record, extraneous perforations, smudges, and folds."

- Tabulators misadjudicated 71 votes, 15 times higher than the allowable limit. These fell into 5 categories:
  - Unexplained misadjudication
  - Paper folds interpreted as votes
  - Voter missed oval
  - Stray marks counted as votes
  - Voter changed mind and clearly indicated intent

Tabulator Warning Messages	
Blank Ballot Warning	The tabulator does not detect any voter selections on the scanned ballot. Please ensure you used a proper marking pen.
Overvote Warning	One or more contests have too many votes. If you choose to cast the ballot as-is, contests with too many votes will not be counted.
Ambiguous Marks Warning	The tabulator detected marks on the ballot but the selections are not clear. The ballot will be returned automatically.
Ballot Misread Warning	The tabulator is unable to recognize the ballot. Check the ballot for damage or stray marks, particularly in the timing mark area. If damaged, spoil the ballot and issue another. If no damage is detected, re-insert the ballot in a different orientation.

AMERICAN OVERSIGHT

Record Accuracy – Voter Changed Mind and Clearly Indicated Intent

Record Accuracy –

- Optical Scanners are not capable of meeting VVSG error tolerances.
- There is no magic way for a machine to tell the difference between a stray mark, a fold, and a vote.
- Tabulator in NM adjudicated a stray ballot from the 2020 election in a logic and accuracy test for the 2021 Local Elections

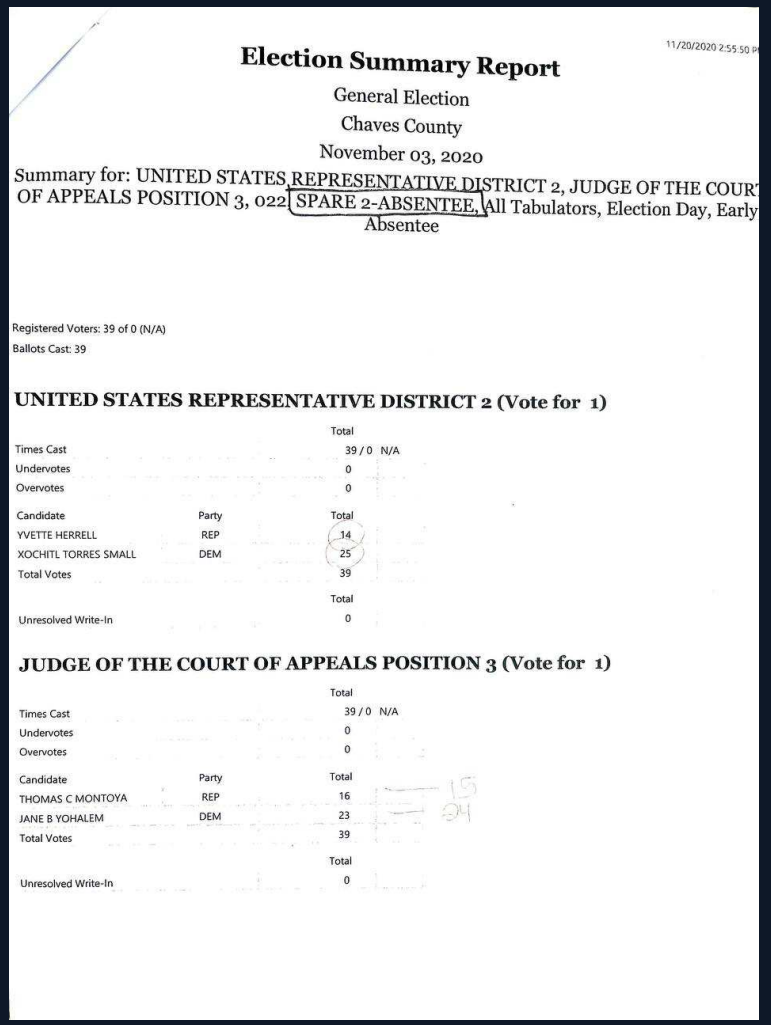
RE: Post-Election Voting System Check for the November 3, 2020 General Election

Dear Mr. Rivera,

Chaves County was selected to participate in the accuracy check of the tabulators used in the 2020 General Election. At this time, we have completed the accuracy check. We were able to locate all the ballots in precinct 22. We hand tallied these ballots for the U.S. Representative District 2 contest and Judge of the Court of Appeals, Position 3 contest and found the following discrepancies:



Tabulator AAFEBEM0046 – Absentee, Spare #2
39 ballots were hand tallied. The discrepancy appears in the Judge of the Court of Appeals, Position 3, contest.
The results from RTR - Dominion Server show to be:
Thomas C. Montoya - 16
Jane B. Yohalem - 23
Undervotes – 0
Overvotes – 0

The hand tally results show to be:
Thomas C. Montoya - 15
Jane B. Yohalem – 24
Undervotes – 0
Overvotes – 0

Attached please find our tally sheets as well as a report from the Dominion system for the tabulator with the discrepancy. Please let me know if you need any additional information.

Thank you,
Cindy Fuller

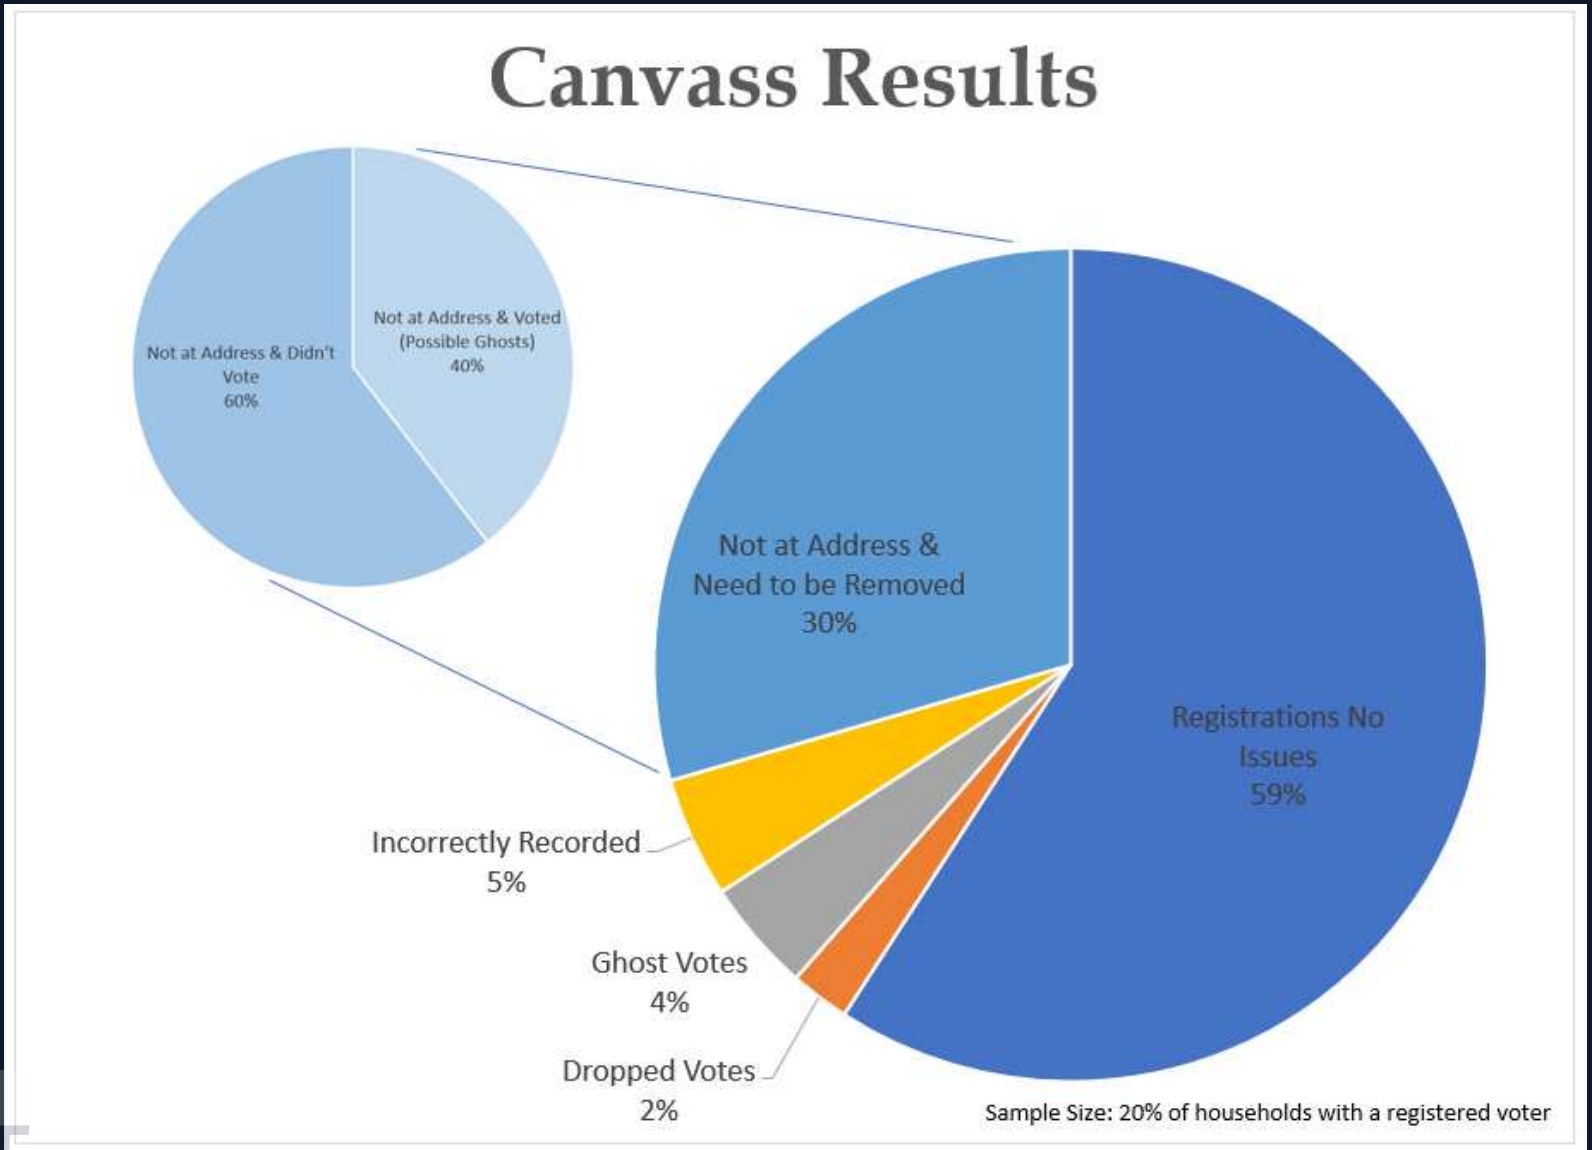
There is statistical evidence that is consistent with ballot-stuffing or manipulating the results from the Early Mail-in (Absentee) Counting Group

Other explanations may be possible since this is not a controlled experiment.

AMERICAN OVERSIGHT

Official Reports Admit Problems with Absentee Voting



- "We gave voters a list of possible illegal election activities and asked, "Which of the following situations did you personally observe in the 2020 general election?" Over three-quarters (77%) of NM voters indicated they did not personally witness any of these election fraud or irregular voting activities. 21% indicated they saw one or more election problems and 3% gave no response. •

- Of these illegal activities, the highest response was for unsolicited absentee ballots that 11 did not belong to anyone in the household arriving at the voter's residence. This occurred 7% of the time, a surprisingly high frequency. "

This Message has originated outside your organization.

Hi Michael,

Heard you presented a really good power point on voting and the machines. Would love to have a copy so I can use as we deal with this in the next
few weeks. And if you need anything from me please let me know.

v/r,
RB

AMERICAN OVERSIGHT

A mix of voting systems in the US

In elections yesterday, Americans used a variety of equipment to cast their votes. About 28.9 percent used electronic machines, while 32 percent used optical scan systems, 18.6 percent used punch cards, and 12.8 pulled levers. fewer than 1 percent used paper ballots, and systems were mixed for 6.79 percent.

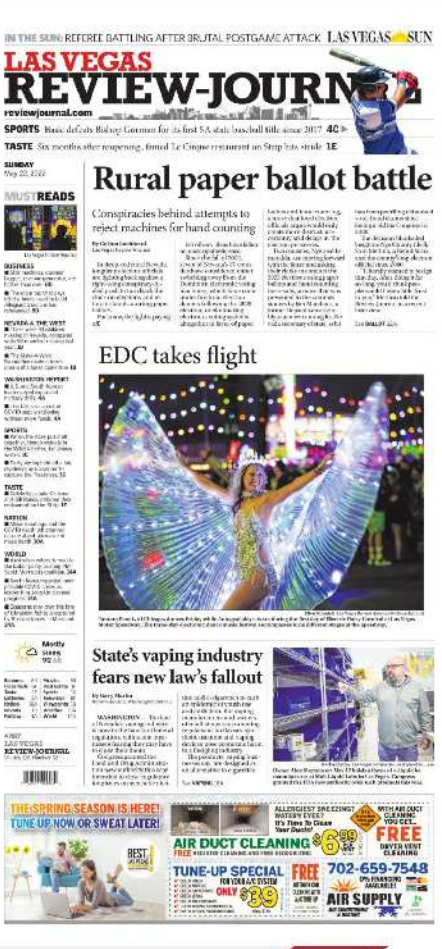
Nevada

Election changes

Since fall of 2021, seven of Nevada's 17 counties have considered either switching to different voting machines or eliminating electronic voting systems altogether in favor of paper ballots and hand counting.

Counties that are switching voting machines:
- Lander

Counties that have requested their clerks to move to paper ballots and hand counting:
- Nye
- Esmeralda



Counties where proposals to move to paper ballots and hand counting or change voting machine vendors have been considered but did not move forward:
- Elko
- Lincoln
- Lyon
- Washoe

Counties that have not taken up proposals to change voting processes:
- Clark
- Carson City
- Humboldt
- Storey
- Churchill
- Douglas
- Mineral
- White Pine
- Eureka
- Pershing

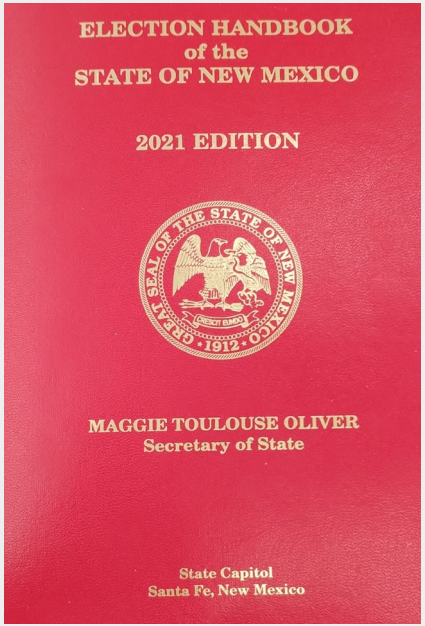
Legislative Powers

- "The legislative has plenary legislative authority limited only by the state and federal constitutions." *Albuquerque Metropolitan Arroyo Flood Control Authority v. Swinburne*, 1964-NMSC-206, ¶19, 74 N.M. 487, 394 P.2d 998.

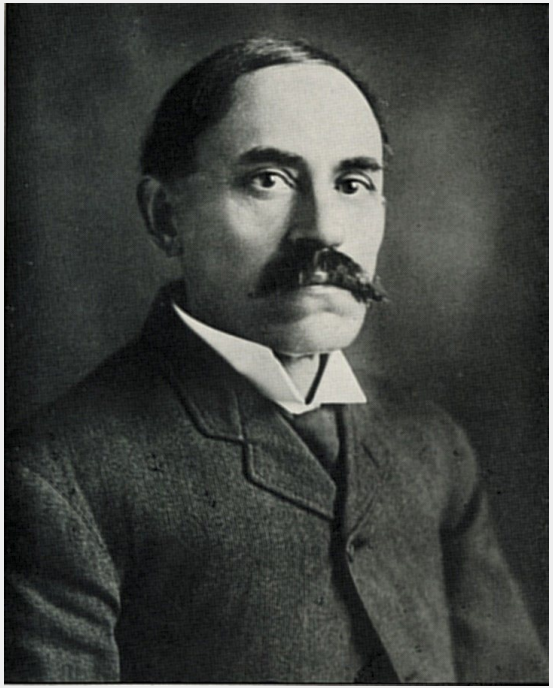


- "Plenary power" means the legislature's power to "enact *any law* that does not conflict with the [state] or United States Constitution." *City of Newburgh Heights v. State*, 2022-Ohio-1642, 2022 WL 1572051, ¶19 (May 19, 2022) (cleaned up).

AMERICAN OVERSIGHT

NMSA 1978, chapter 1

- Election Code, which includes:
  - Voter Registration.
  - Conduct of Elections.
  - Candidacy Requirements.
  - Campaign Finance Reporting.
  - Duties of Secretary of State & County Clerks.



AMERICAN OVERSIGHT

Secretary of State Duties

- NMSA § 1-2-1:
  - Chief elections officer of New Mexico.
  - Obtain and maintain uniformity in application, operation and interpretation of Election Code.
  - Issue regulations to implement Election Code.

- NMSA § 1-2-2:
  - Supervise all elections.
  - Prepare instructions for conduct of elections and registration.

▲Antonio Lucero (1863-1921), first Secretary of State.

AMERICAN OVERSIGHT

Counties in New Mexico

NEW MEXICO COUNTIES

- Created by Legislature.
- "A county is but a political subdivision of the State, and it possesses only such powers as are expressly granted to it by the Legislature, together with those necessarily implied to implement those express powers." *El Dorado at Santa Fe, Inc. v. Santa Fe County Board of County Commissioners*, 1976-NMSC-029, ¶6, 89 N.M. 313, 551 P.2d 1360.

AMERICAN OVERSIGHT

County Commissioners

- “The powers of a county as a body politic and corporate shall be exercised by a board of county commissioners.” NMSA § 4-3-1.

- “All counties are granted the same powers that are granted municipalities . . . Included . . . are those powers necessary and proper to provide for the safety, preserve the health, promote the prosperity and improve the morals, order, comfort and convenience of any county or its inhabitants.” NMSA § 4-37-1.

AMERICAN OVERSIGHT

Commissioners & Other Elected Officials

- Commissioners have no general supervisory powers over the other county officials. N.M. Attorney General's Opinion 87-18 (Apr. 29, 1987).

- "A grant of power by the legislature to an elected local official in itself implies limitations on the power of other local officials with respect to that elected official." *Bernalillo County Board of County Commissioners v. Padilla*, 1990-NMCA-125, ¶15, 111 N.M. 278, 804 P.2d 1097

Absentee Ballots Allowed

- “A voter may vote absentee . . . as if the voter had appeared on the day of the election to vote in person at a polling location.” NMSA § 1-6-3.

► Alice Fujinaga, formerly of Seattle, Washington, voting absentee at the Tule Lake Relocation Center, Newell, California, 1942. She was one of 100,000 American citizens placed in concentration camps by President Roosevelt.

NM-OTERO-22-0605-A-002286

AMERICAN OVERSIGHT

Dropboxes Required

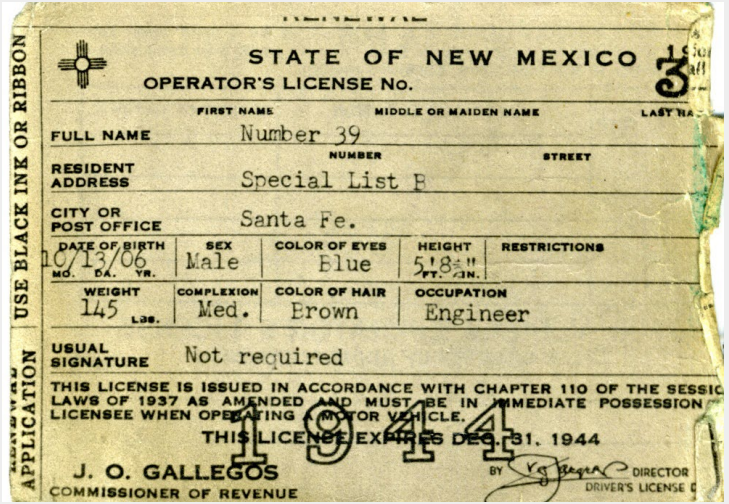
- Absentee ballots may be returned “by depositing . . . in a secured container made available by the county clerk.” NMSA § 1-6-9.

- Required to have one dropbox “per 25,000 registered voters in the county with a minimum of two secured containers required per county.” NMAC 1.10.19.8(A).

- Absentee ballots may be returned to polling places on Election Day. NMSA § 1-12-8.2.

AMERICAN OVERSIGHT

Voter ID (NMSA §1-1-24)



As used in the Election Code, "required voter identification" means any of the following forms of identification as chosen by the voter:

A. a physical form of identification, which may be:

(1) an original or copy of a current and valid photo identification with or without an address, which address is not required to match the voter's certificate of registration; or

(2) an original or copy of a utility bill, bank statement, government check, paycheck, student identification card or other government document, including identification issued by an Indian nation, tribe or pueblo, that shows the name and address of the person, the address of which is not required to match the voter's certificate of registration; or

B. a verbal or written statement by the voter of the voter's name, registration address and year of birth; provided, however, that the statement of the voter's name need not contain the voter's middle initial or suffix.

Voter ID & Registration by Mail (NMSA §1-4-5.1)

A. A qualified elector may apply for registration using the paper form by mail

* * *

I. The [voter registration] form shall also include . . . a statement informing the applicant that:

(a) if the form is submitted by mail by the applicant and the applicant is registering for the first time in New Mexico, the applicant must submit with the form a copy of: 1) a photo identification issued by a government or educational institution; or 2) a current utility bill, bank statement, government check, paycheck, student identification card or other government document, including identification issued by an Indian nation, tribe or pueblo, that shows the name and current address of the applicant; and

(b) if the applicant does not submit the required documentary identification, the applicant will be required to do so when voting in person or absentee . . . .

AMERICAN OVERSIGHT

Preemption in New Mexico

"A local governmental body's ability to regulate in an area may be preempted either expressly, by the language of a statute, or impliedly, due to a conflict between the local body's ordinances and the contents, purposes, or pervasive scheme of the statute." *San Pedro Mining Corp. v. Santa Fe County Board of County Commissioners*, 1996-NMCA-002, ¶9, 121 N.M. 194, 909 P.2d 754.

The Manhattan Project's Richard Feynman says don't do that.

AMERICAN OVERSIGHT

NMSA § 50-4-35(D)

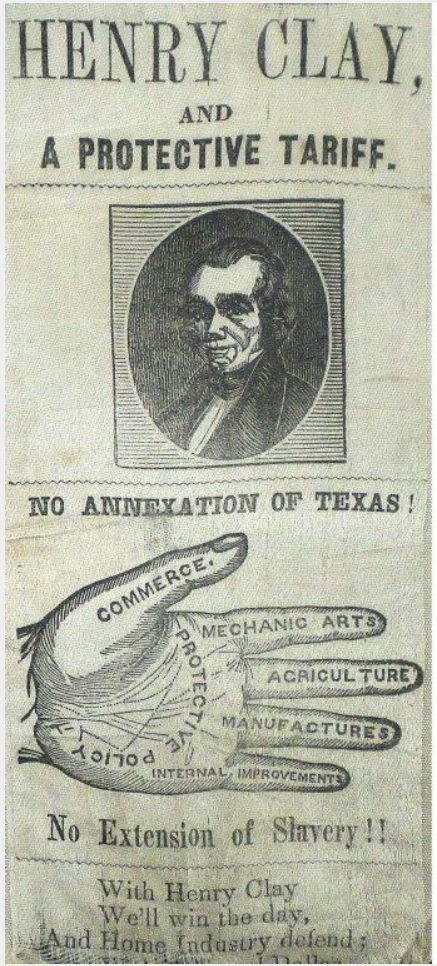
"A city, county, home rule municipality or other political subdivision of the state shall not adopt nor continue in effect any ordinance, rule, regulation, resolution or statute that prohibits the negotiation, execution or application of agreements requiring membership in a labor organization as a condition of employment in New Mexico." Laws of 2019, ch. 81 (H.B. 85).

Alan Keyes
says don't do that.

AMERICAN OVERSIGHT

Implied Pre-Emption

"Even in the absence of express preemption by the legislature, a county ordinance may be preempted if it conflicts with a state statute or regulation, or if the statute demonstrates an intent to occupy the entire field." *San Pedro Mining Corp. v. Santa Fe County Board of County Commissioners*, 1996-NMCA-002, ¶11, 121 N.M. 194, 909 P.2d 754.



Taos resident Donald Rumsfeld says don't do that.

AMERICAN OVERSIGHT

From: Robin Steven Messing <rsm7@cornell.edu>
Sent: Thursday, June 16, 2022 9:14 AM EDT
To: gmatherly@co.otero.nm.us <gmatherly@co.otero.nm.us>; cgriffin@co.otero.nm.us <cgriffin@co.otero.nm.us>; vmarquardt@co.otero.nm.us <vmarquardt@co.otero.nm.us>
Subject: Reading these 9 pages from Dominion Voting System's complaint against Sidney Powell could save you from needlessly going to jail.

Dear Mr. Matherly, Mr. Griffin, and Ms. Marquardt,

You say you are not certifying the Otero County election because you don't trust Dominion Voting System's machines. You are risking jail for your beliefs. Those beliefs are built on a pack of lies. You owe it to yourself to read Dominion Voting System's complaint against Sidney Powell.

https://context-cdn.washingtonpost.com/notes/prod/default/documents/1d2fd01e-de09-473d-9997-0523f7797c65/note/633a5729-658e-409a-b9a0-79490fddb2e1.#page=1

Their complaint is 124 page long. You probably don't have time to read the whole thing. Just concentrate on pages 34 -39 (paragraphs 87 – 95). It looks like Powell or someone working for her doctored an official document to make her case.

It would be a shame if you end up in jail because you were victims of the biggest con in the history of our nation.

SETTLEMENT AGREEMENT AND RELEASE OF ALL CLAIMS

This Settlement Agreement and Release of All Claims is entered into between Otero County, New Mexico ("County"), and EchoMail all of whom may also be referred to collectively as "the Parties."

RECITALS

WHEREAS, the County entered into a Contract with EchoMail as its contractor for the purpose of auditing of the November 2020 General Election ("Project"); and

WHEREAS, on February 24, 2022, the County paid $24,875 to EchoMail pursuant to the Contract;

WHEREAS, on March 17, 2022, Echomail demanded the balance of $24,875 be paid;

WHEREAS, the County disputes whether payment is due and owing; and

WHEREAS, the Parties have agreed to settle claims against one another prior to litigation without admitting or conceding liability as to any matter at issue;

NOW THEREFORE, IN CONSIDERATION OF THE FOREGOING AND IN CONSIDERATION OF THE COVENANTS CONTAINED HEREIN, THE PARTIES AGREE TO THE FOLLOWING:

UNDERLYING SETTLEMENT TERMS

1. In consideration for payment described herein in paragraph 5, EchoMail dismisses, waives, releases, and discharges Otero County, its current and former commissioners, directors, departments, attorneys, representatives, predecessors, insurers, successors, assigns, employees and agents from all manners of liabilities, claims, demands, and causes of action, known or unknown, fixed or contingent, arising in the past, present, or future which EchoMail or anyone claiming through EchoMail may personally have or claim to have against Otero County as a result of the

AMERICAN OVERSIGHT

dispute over the January 25, 2022 Contract with prejudice. This Agreement includes all demands, obligations, actions, claims, damages, costs, or rights EchoMail, its agents, successors, and assigns now have or may have against Otero County that could be related to the Contract between the Parties. This shall be a fully binding and complete settlement between the Parties, and each party's agents, successors and assigns.

2. In consideration for payment described herein, the County dismisses, waives, releases, and discharges EchoMail, its directors, attorneys, representatives, predecessors, insurers, successors, assigns, employees and agents from all manners of liabilities, claims, demands, and causes of action, known or unknown, fixed or contingent, arising in the past, present, or future which the County or anyone claiming through the County may personally have or claim to have against EchoMail as a result of the dispute over the Contract with prejudice. This Agreement includes all demands, obligations, actions, claims, damages, costs, or rights the County, its agents, successors, and assigns now have or may have against EchoMail that could be related to the Contract. This shall be a fully binding and complete settlement between the Parties, and each party's agents, successors and assigns.

3. The Parties understand that this is a general release encompassing all claims against one another arising under federal, state, or local law, including but not limited to claims arising under state and federal statutes, as well as any claims arising under any theory of common law concerning the Contract. Claims released are those of which the Parties are presently aware, and those of which it may be unaware, for breach of contract or otherwise. This general release is binding upon the current and former directors, departments, attorneys, representatives, predecessors, insurers, successors, assigns, and employees of the Parties.

AMERICAN OVERSIGHT

4. It is expressly understood and agreed that the payment of the sum described in the below paragraphs, is not and shall not be construed as an admission of liability by either Party. The Parties are settling and compromising disputed claims as to which they expressly deny any liability.

CONSIDERATION

5. Pursuant to this Settlement Agreement and Release of All Claims, EchoMail agrees to pay the County in settlement of the above dispute, the sum of _____. The aforementioned amount will be made payable to the County within 30-days of execution.

SUPPLEMENTAL DOCUMENTS

6. EchoMail and the County agree to cooperate fully to execute any and all supplementary documents, and take all additional actions that may be necessary to give full force and effect to this Settlement Agreement and Release of All Claims.

FEES

7. Each Party shall bear its own costs and fees, including attorneys' fees associated with the underlying lawsuit.

ADVICE OF COUNSEL

8. The Parties acknowledge they are represented by counsel and have read and understood the effects of this Settlement Agreement and Release of All Claims. The Parties further state they execute this Settlement Agreement and Release of All Claims of their own free will and accord, for the purpose and consideration set forth in this Agreement.

AMERICAN OVERSIGHT

INTEGRATION

9. This Settlement Agreement and Release of All Claims contains the entire understanding between the Parties hereto concerning the subject matter contained herein.

10. EchoMail and the County agree that each paragraph and component of this Settlement Agreement and Release of All Claims is a material term and that failure to comply with any of the provisions contained herein constitutes a material breach of this Agreement.

11. The Parties represent and warrant that there have been no representations or promises made by either Party on which they relied in connection with the Settlement Agreement and Release of All Claims, other than what is set forth herein in writing.

12. The Parties further represent and warrant that it is not being induced to enter into this Agreement by anything other than the written words contained in this Agreement.

13. This Settlement Agreement and Release of All Claims constitutes the entire agreement and understanding between EchoMail and the County and shall not be modified or altered, except in writing, and signed by the Parties to this Settlement Agreement and Release of All Claims.

14. This Settlement and Release of All Claims shall be effective following execution by the Parties. Facsimile signatures shall be acceptable as original for all purposes.

15. The Parties acknowledge that the signatories to this Settlement and Release of All Claims have the necessary authority to bind their respective entities to its terms.

To: Robyn Holmes, Otero County Clerk

From: Couy Griffin, Otero District 2 Commissioner

Date: May 9, 2022

Re: **IPRA Request**

Please provide the following records at your earliest opportunity:

1. The Original Registration Date, Registration Date, Source, and Party Affiliation from the Otero County's voter registration database. Remaining fields do not need to be provided to negate any possibility of release of personal information.
2. Digital record of the dates absentee ballots were requested and returned for the November 2020 election.
3. Results of hand tallied ballots by precinct. This information is required to reconcile the paper ballots to the official results. Precinct results can be combined as necessary so that results will not contain fewer than five ballots as required by NM statute to protect voter privacy.

Commissioner Griffin,

My name's Andrew Beale. I'm writing for Source New Mexico about the Otero County Commission's decision not to certify the primary election results, and the Secretary of State's decision to take action against the commission in the courts. I'd love to speak with you for my article. Would you be available sometime this afternoon?

Thank you,

Andrew Beale

Good afternoon. I'm a reporter for The Washington Post. I was hoping I might get a comment for a story I wrote that's publishing shortly.

• What evidence have you seen that Otero County's elections in 2020 or this year's primary were affected by fraud?
• How do you respond to the lawsuit filed by the state?

Thank you.

Subject: Resign you POS

Dear Asshat,

How dare you call yourself an election official and break both state and federal law to justify your own ideals and opinions? YOU WERE ELECTED TO CARRY OUT THE PEOPLE'S WILL, REGARDLESS OF YOUR OWN BELIEFS. You are not above the people of your county nor the people of the Great State of New Mexico, and you should be ashamed of yourself. I hope you rot in prison like you deserve to, you Un-American piece of shit, never EVER show your face in the county election office because you don't deserve to work in politics in any capacity.

Sincerely,

A Pissed Off American

(P.S. if you have a problem with me, or anything I said, I'm glad my message got through your thick skull)

Dear Mr. Griffin,

In response to your request dated May 9, 2022, our response is as follows:

1. The Original Registration Date, Registration Date, Source, and Party Affiliation from the Otero County's voter registration database. Remaining fields do not need to be provided to negate any possibility of release of personal information.

   This is considered voter data. You will need to fill out an Affidavit of Authorization.

2. Digital record of the dates absentee ballots were requested and returned for the November 2020 election.

   This is considered voter data. You will need to fill out an Affidavit of Authorization.

3. Results of hand tallied ballots by precinct. This information is required to reconcile the paper ballots to the official results. Precinct results can be combined as necessary so that results will not contain fewer than five ballots as required by NM statute to protect voter privacy.

   I have emailed you twice on 5/12/22 and 5/20/22 with no response. I need more clarification on this request before I can process it.

Best Regards,

Selina Maes

SANDOVAL COUNTY
BOARD OF COUNTY COMMISSONERS
RESOLUTION NO. 6-22-22.10

A RESOLUTION CALLING ON THE NEW MEXICO LEGISLATURE TO ENHANCE THE FAITH OF THE VOTING PUBLIC IN ELECTION OUTCOMES THROUGH IMPROVED ELECTION PROCESSES

WHEREAS, faith in our election process is the foundation upon which our democracy rests; and

WHEREAS, the processes around elections should be designed to encourage voter participation while discouraging election fraud; and

WHEREAS, when irregularities are identified in the course of an election, they can undermine the legitimacy of our elected leaders; and

WHEREAS, there have been many changes in election laws over the past decade to increase voter participation; and

WHEREAS, some of these changes have increased the risk of election fraud; and

WHEREAS, other measures such as photo voter identification have been left out of current policy despite being overwhelmingly supported by the public; and

WHEREAS, New Mexico has long struggled to effectively and efficiently remove inactive voters from the voter rolls; and

WHEREAS, allowing those who have either moved or passed away to remain on the voter rolls creates an unacceptable risk that other votes can be nullified through the theft of a previous voter's identity; and

2022017947 06/23/2022 11:36:51 AM
RESOLUTION Pg.1 of 4
Anne Brady-Romero Sandoval Cnty Clerk B: 425 P: 17947

AMERICAN OVERSIGHT

WHEREAS, the distribution of absentee ballots to voters – while necessary to include those who are unable to go to the polls in person due to illness, disability, or military deployment – creates a higher level of risk for voter fraud; and

WHEREAS, some jurisdictions such as the City of Rio Rancho, require a copy of a valid identification when submitting an absentee ballot; and

WHEREAS, requiring photo identification for both in-person and absentee voting has not decreased voter participation in Rio Rancho; and

WHEREAS, the lack of a clear chain of custody that shows who has handled absentee ballots may enable fraud; and

WHEREAS, it is the desire of the Board of County Commissioners of Sandoval County to improve both the actual security of elections, and the perceived security of elections in order to restore and maintain the faith in our election system.

NOW, THEREFORE BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF THE COUNTY OF **COUNTY** that it requests the New Mexico Legislature adopt the following changes to the New Mexico Election Code:

1. **Photo ID**. Voters shall provide a photo identification that may include any identification issued by a government agency, passport, driver's license, student identification card, commercial transaction card, insurance card, union card, a professional association card, or a voter identification card issued by the County Clerk. The law should allow those who cannot provide one of the previous forms of identification to submit an affidavitthat the voter is the person on the registration rolls with the voter's date of birth and the last four (4) digits of the voter's social security number.
2. **Efficient Removal of Inactive Voters.** New Mexico law provides for the removal of inactive voters from the voter rolls after the failure to vote in two consecutive general elections. Inactive voters should be removed from the registered voter rolls prior to the

AMERICAN OVERSIGHT

NM-OTERO-22-0605-A-002343

next municipal, primary, or general election. The Legislature should require the Secretary of State to use, on an on-going basis, data-matching software to find voters who have moved or died and to flag those registrations for review.

3. **Prohibit the Use of Unsupervised Ballot Drop Boxes.** Unattended ballot drop boxes – even those who are electronically surveilled – pose an unacceptable risk to the election process by making illegal ballot harvesting easier and should be prohibited.

4. **Absentee Ballot Chain of Custody and Photo ID.** Voters casting absentee ballots should be subject to the same voter identification requirements as proposed above for in-person voting. There should be an enhanced chain of custody process for returning absentee ballots that includes identifying those who return absentee ballots on behalf of others.

5. **Post-election Audit**. An automatic post-election audit involving at least ten percent (10%) of all of the precincts involved in a given municipal, primary, or general election, prior to canvass certification. Precincts shall be chosen at random and any deviation greater than 2% shall trigger an automatic recount.

DONE THIS 22 DAY OF JUNE, 2022.

AMERICAN OVERSIGHT

STATE OF NEW MEXICO
OFFICE OF THE ATTORNEY GENERAL

HECTOR H. BALDERAS
ATTORNEY GENERAL

June 2, 2022

The Honorable Maggie Toulouse Oliver
Secretary of State
325 Don Gaspar, Suite 300
Santa Fe, New Mexico 87501

Re: Secured Containers for Mailed Ballots

Dear Secretary Toulouse Oliver:

You have requested an opinion regarding a county's obligation to provide secured containers for mailed ballots under Section 1-6-9 of the Absent Voter Act, NMSA 1978, ch. 1, art. 6 (1969, as amended through 2019). In particular, you ask:

1. Does Section 1-6-9(E) require all counties to make available secured containers for voters to return their mailed ballots?

2. Is the rule adopted by the Secretary of State ("SOS") requiring each county to make available "a minimum of two secured containers" permissible?

As discussed below, based on our examination of the applicable constitutional, statutory and case law authority, as well as the information provided in the request, we conclude that: (1) Section 1-6-9(E) obligates all counties to make secured containers available to receive mailed ballots, and (2) the SOS's rule requiring each county to maintain a minimum of two secured containers appears to be reasonable and within her statutory authority.

1. County Clerks' Responsibility for Providing Secured Containers

The Absent Voter Act was amended, along with the Election Code and other statutes related to elections, during the 2019 legislative session. *See* 2019 N.M. Laws, ch. 212. As a result of the amendments, any person who votes in an election covered by the Election Code may vote absentee, i.e., "fill out and return a ballot at a place and time other than a polling location on the day of the election." NMSA 1978, §§ 1-6-1.1(A); 1-6-3.

STREET ADDRESS: 408 GALISTEO STREET - SANTA FE, NEW MEXICO 87501

AMERICAN OVERSIGHT

Section 1-6-9(A) of the Absent Voter Act provides that, after a voter has followed the specified procedures for voting with a mailed ballot, the voter is required to "return the official mailing envelope containing the voted ballot to the county clerk of the voter's county of residence." Prior to the 2019 amendments, a voter was required to "mail or deliver" the official mailing envelope to the appropriate county clerk. *See* NMSA 1978, § 1-6-9 (2015). The current provisions give voters additional options for returning their mailed ballots. Specifically:

> B. The official mailing envelope may be returned by mail ….
>
> C. The official mailing envelope may be returned using a commercial delivery service ….
>
> D. The official mailing envelope may be returned in person to the office of the county clerk or to an alternate voting location, mobile alternate voting location or election day voting location.
>
> E. The official mailing envelope may be returned by depositing the official mailing envelope in a secured container made available by the county clerk to receive voted mailed ballots for that election; provided that:
>
> (1) the location of the containers and the days and times the containers will be available to receive ballots are posted by the county clerk at least ninety days before a statewide election or forty-two days before a special election;
>
> (2) the location of a secured container is considered a polling place for purposes of electioneering too close to the polling place …;
>
> (3) all secured containers shall be monitored by video surveillance cameras and the video recorded by that system shall be retained by the county clerk as a record related to voting …;
>
> (4) signage at the location of a secured container shall inform voters and those dropping off ballots at the location:
>
> (a) that it is a violation of law for any person who is not an immediate family member to collect and deliver a ballot for another person;
>
> (b) that electioneering is prohibited within one hundred feet of the secured container; and
>
> (c) of the dates and approximate time the ballots will be collected; and
>
> (5) at least once a day, the county clerk or a full-time deputy county clerk shall collect the ballots from the secured containers, register the date and time stamp on each official mailing envelope and identify the location of the secured container in the ballot register.

AMERICAN OVERSIGHT

NMSA 1978, § 1-6-9 (2019).

When interpreting a statute, a court first looks to its plain language to determine the intent of the legislature. *State v. Adams*, 2022-NMSC-008, ¶ 10, 503 P.3d 1130. Unless an ambiguity exists, the court "must adhere to the plain meaning of the language." *State v. Maestas*, 2007-NMSC-001, ¶ 14, 149 P.3d 933. "A statute is ambiguous when it can be understood by reasonably well-informed persons in two or more different senses." *State v. Elmquist*, 1992-NMCA-119, ¶ 5, 844 P.2d 131. Courts do not rely on the literal meaning of a statute "when such an application would be absurd, unreasonable, or otherwise inappropriate. *State v. Rivera*, 2004-NMSC-001, ¶ 13, 82 P.3d 939. When language used in a statutory provision is doubtful or ambiguous, courts "read the provision[] … 'in the context of the statute as a whole,' including its purposes and consequences." *Grisham v. Romero*, 2021-NMSC-009, ¶ 23, 483 P.3d 545 (citation omitted).

Looking at Section 1-6-9 as a whole, the evident purpose of Subsections (B) through (E) is to provide all voters who use a mailed ballot several alternative means for returning the ballot to county clerk. That purpose is supported by the words, "The official mailing envelope *may* be returned" at the beginning of each subsection (emphasis added). The only reasonable interpretation of those words in this context is that the legislature intended to provide voters with a choice of four methods for returning their mailed ballots. *See* NMSA 1978, § 12-2A-4(B) (the term "may" in a statute "confers a power, authority, privilege or right").

Subsection (E) gives a voter the option of returning the mailed ballot by depositing it in "a secured container made available by the county clerk." This option necessarily requires a county clerk to provide a secured container. An interpretation leaving the provision of a secured container to the discretion of the county clerk would eliminate the option for returning mailed ballots in Subsection (E) for some voters, contrary to the legislature's intent.

Our conclusion that counties are required to make secured containers available is not affected by Subsection (E)'s use of the term "provided that" before the list of requirements for secured containers. While the term "provided that" can be used in drafting legislation or contracts to denote a condition, *see, e.g., Jacobsen v. Katzer*, 535 F.3d 1373, 1381 (Fed. Cir. 2008), it can also supply "an exception or addition." Black's Law Dictionary 1481 (11th ed. 2019) (definition of "proviso"). *See also* Bryan A. Garner, *Ax these terms from your legal writing*, American Bar Journal (Apr. 2014) (available online at abajournal.com) ("[e]xperts in legal drafting have long agreed that [the phrase "provided that"] is the bane of legal drafting" because, among other things, "its meaning is unclear – it can mean if, except or also …"); Joseph Kimble, *Down with Provided That*, 83 Michigan Bar Journal 40 (July 2004) (citing publications on legal drafting that discuss the use of "provided that").

The five paragraphs following the term "provided that" in Subsection (E) describe a county clerk's responsibilities related to the secured containers, such as posting their locations, retaining video recorded by video surveillance systems, and collecting ballots from the secured containers (¶¶ 1, 3, 5); impose requirements for signs at the locations of secured containers (¶ 4); and define a secured container as a polling place for purposes of the Election Code's restrictions on electioneering (¶ 2). The five paragraphs describe the legal requirements applicable to secured

AMERICAN OVERSIGHT

containers. They cannot readily be interpreted as conditions to a county's obligation to provide secured containers under Section 1-6-9(E). Not only would that interpretation be strained, it would be contrary to the legislature's intent, as discussed above. In our view, the only reasonable interpretation is that, rather than denoting a condition, the phrase "provided that" in Subsection (E) is intended to mean "also" or an additional provision that sets out the legal requirements related to the secured containers.

2. SOS Rule Requiring a Minimum of Two Secured Containers

The Election Code obligates the SOS to "make rules pursuant to the provisions of, and necessary to carry out the purposes of, the Election Code …." NMSA 1978, § 1-2-1(B)(2) (2017). Under this authority, the SOS adopted a rule intended to "provide clear guidance and uniform standards in the application, operation, and interpretation of the law related to secured containers and mailed ballot delivery …." 1.10.19.6 NMAC. In pertinent part, the rule provides:

> To meet the requirement of Subsection E of Section 1-6-9 NMSA 1978, which provides that all voters have the option to use a secured container to return official mailing envelopes, county clerks shall provide one ballot box per 25,000 registered voters in the county with a minimum of two secured containers required per county. County clerks may request a waiver from the secretary of state to the minimum requirement set by the formula with consideration given for special geographic or security constraints.

1.10.19.8(A) NMAC. The terms "ballot box" and "secured container" appear to be used interchangeably in the provision.

In "our modern, regulatory state," it is common for the legislature to delegate the implementation of a law to an administrative agency or officer, such as the SOS. *Unite NM v. Oliver,* 2019-NMSC-009, ¶ 8, 438 P.3d 343. An agency's rules "are presumed valid and will be upheld if reasonably consistent with the statutes that they implement." *Wilcox v. New Mexico Bd. of Acupuncture & Oriental Medicine*, 2012-NMCA-106, ¶ 7, 288 P.3d 902. Actions by the SOS to implement the Election Code are closely analyzed by the courts to ensure that "the right of New Mexico citizens to vote for the candidate of their choice" is protected. *Morper v. Oliver*, 2020-NMSC-012, ¶ 11, 470 P.3d 245 (citation omitted) (holding that the SOS's power to approve the forms and procedures for elections under Section 1-2-1(C) did not authorize her to invalidate nominating petitions that met the Election Code's requirements).

For several reasons, we believe Rule 1.10.19.8(A) is a reasonable exercise of the SOS's authority under Section 1-2-1(B)(2) to make rules necessary to implement the Election Code. First, Section 1-6-9(E) of the Absent Voting Act contemplates that a county clerk may be responsible for making multiple "secured containers" available, *see* NMSA 1978, § 1-6-9(E)(1), (3), (5), but does not provide guidance for determining the appropriate number of containers for a particular county. The rule's requirements for a minimum of two secured containers per county is intended to give voters in each county adequate access to a secured container for returning their mailed ballots, consistent with the letter and intent of Subsection (E). Second, the rule is not absolute. It allows a county clerk to request a waiver from the minimum requirement for secured containers. Finally,

AMERICAN OVERSIGHT

the rule "carr[ies] out" the purposes of Section 1-6-9 to facilitate the use of mailed ballots and, in turn, the exercise by New Mexico citizens of their right "to vote for the candidate of their choice."

Please be advised that our response to your opinion request is a public document and is not protected by attorney-client privilege. If this office may be of further assistance, or if you have any questions regarding this opinion, please let us know.

Sincerely,

Sally Malavé

Subject: SOS seeks writ of mandamus against Otero Commissioners on the election canvass
Attachment(s): "2022-06-14 EMERGENCY SC Writ of Mandamus Compelling the Certification of....pdf"

Dear Colleagues,

This afternoon, the Secretary of State filed in the Supreme Court a petition for a writ of mandamus against the Otero County Commissioners over their failure to approve the canvass of last week's primary. The petition is attached.

Ave,
Michael

AMERICAN OVERSIGHT

Filed
Supreme Court of New Mexico
6/14/2022 3:37 PM
Office of the Clerk

IN THE SUPREME COURT OF THE STATE OF NEW MEXICO

MAGGIE TOULOUSE OLIVER, in her official capacity as Secretary of State of the State of New Mexico,

No. S-1-SC-39426

Petitioner,

vs.

THE OTERO COUNTY COMMISSION

Respondent.

EMERGENCY VERIFIED PETITION FOR WRIT OF MANDAMUS TO COMPEL CERTIFICATION OF ELECTION RESULTS

Submitted by:

Dylan K. Lange
General Counsel
Office of the Secretary of State
325 Don Gaspar, Suite 300
Santa Fe, New Mexico 87501
Attorney for Office of the New Mexico Secretary of State.

AMERICAN OVERSIGHT

NEW MEXICO SECRETARY OF STATE Maggie Toulouse Oliver (the "**Secretary**" or the "**SOS**"), pursuant to Rule 12-504 NMRA, through her General Counsel, respectfully petitions this Court to issue a Writ of Mandamus compelling certification of the election returns against Respondent, the Otero County Commission, acting as the ex officio county canvass board ("Canvassing Board" or "Respondent") who failed to certify the canvass results of the 2022 primary election without any basis in law. As set forth in the body of this Petition, the Canvassing Board met on June 13 and voted not to certify the election results.[1] At the meeting they identified no deficiency in the election results, but rather made unsubstantiated claims about the voting systems in use throughout the state. By the express language of the election code, "the county canvassing board *shall* meet to approve the report of the canvass of the returns and declare the results no sooner than six days and no later than ten days from the date of the election." NMSA 1978, Section 1-13-13(A). The Canvassing Board met on the sixth day and voted to not certify the election results and will not do so without a Writ of Mandamus compelling their action. Therefore, the Secretary requests this Court enter a Writ of Mandamus commanding Respondent to comply with its ministerial duty to certify the election results

[1] *Otero County Declines to Certify New Mexico Primary Election Results, Cites Voter Fraud Concerns*: https://www.alamogordonews.com/story/community/2022/06/13/otero-county-certify-2022-primary-election-results-new-mexico-politics/7609828001/ (last viewed on June 13, 2022).

AMERICAN OVERSIGHT

and otherwise comply with the procedures set forth in the Election Code.[2] We further state that there is a statewide attempt to influence other County Canvassing Boards who are meeting to certify this week and we assume other Counties will be noncompliant with this provision which jeopardizes the general election ballot for all candidates.[3] Indeed, the Torrance County Canvassing Board tabled a vote on certification of the election results on June 13, 2022, over concerns not related to the election returns of the canvass.

INTRODUCTION

Elections are the "bedrock" of our democratic system. *See Lubin v. Parish*, 415 U.S. 709, 714, 94 S. Ct. 1315 (1974). In this dispute, the Respondent has violated its duties under state law to certify the election as mandated by the Legislature. The citizens of Otero County are entitled to have their votes certified and their representatives nominated for the 2022 general election without further delay. The mandatory provisions of certification have not been followed by the Canvassing

[2] **EXPEDITED RELIEF** is required in this case. Otero County has a statutory deadline of June 17 to meet and certify their election results. NMSA 1978, Section 1-13-13(A). The State Canvassing Board is scheduled to meet on June 28, 2022, to approve the report of the canvass and declare the results of the election for all statewide and multi-county candidate contests. They cannot do that without county certified election results. As such, the Secretary requests expedited briefing and relief in this time sensitive matter.

AMERICAN OVERSIGHT

Board, as set forth in the Article 13 of the state Election Code. The relevant facts in this case are that:

1. On June 13, 2022, the Otero County Clerk presented her findings to the County Canvassing Board for the Board's Consideration and approval.
2. The Otero County Clerk recommended certification of the canvass results.[4]
3. After debate the Canvassing Board voted against certifying the election results.
4. The Canvassing Board did not explain their votes in detail, but the discussion before the vote centered around questions about the voting systems or vote tabulators used to canvass the election.
5. The Canvassing Board did not find conclusively any deficiency in the election returns.
6. No summons has been issued directed to any precinct board commanding them to appear and make necessary corrections or supply omissions in the election returns pursuant to NMSA 1978, Section 1-13-5.
7. As of the filing of this Petition, twelve County Canvassing Boards have certified the results of the canvass pursuant to Section 1-13-13.

AMERICAN OVERSIGHT

PARTIES AND STANDING

The Secretary of State is a constitutional officer of the State of New Mexico who has pledged to "support the constitution of the United States and the constitution and laws of [New Mexico], and... faithfully and impartially discharge the duties of [her] office to the best of [her] ability." N.M. Const., Art. XX, § 1. The Secretary is defined by law as the "chief elections officers" who "shall obtain and maintain uniformity in the application, operation and interpretation of the Election Code." NMSA 1978, § 1-2-1. Further, she shall "generally supervise all elections... [and] advise county clerks [and] boards...as to the proper methods of performing their duties prescribed by the Election Code." *See* § 1-2-2 NMSA 1978. The Election Code also provides that "[n]o forms or *procedures* shall be used in any election held pursuant to the Election Code without prior approval of the secretary of state." (*emphasis added*) *Id*.

This action is being brought against Otero County in the name of the Board of County Commissioners of the County of Otero in accordance with NMSA 1978 § 4-46-1. Defendant Board of County Commissioners of Otero County is the governing body of Otero County, New Mexico, a subdivision of the State of New Mexico. Pursuant to NMSA 1978, Section 1-13-1(A), "the board of county commissioners is ex officio the county canvassing board in each county."

AMERICAN OVERSIGHT

The Canvassing Board has failed to comply with its mandatory, non-discretionary duty to certify the 2022 primary election results pursuant to NMSA 1978, Section 1-13-13(A). This jeopardizes all the countywide candidate's placement on the general election ballot and affects the certification of all statewide and multi-county candidates who the State Canvassing Board certify the nomination for. This is because county canvassing boards certify the nominations of county officers, magistrates, and to members of the legislature elected from districts wholly within one county pursuant to Section 1-13-13(C). After certification of these contests, county canvassing boards must send the certified results to the State Canvasing Board for their certification of the statewide and multi-county candidate contests. NMSA 1978, Section 1-13-15(A).

Given the foundational importance of elections in our electoral democracy, and that this case involves a first impression interpretation county certification of election results, the Secretary submits that this matter constitutes a "matter of great public importance." *New Energy Econ., Inc. v. Martinez*, 2011-NMSC-006, ¶ 11, 149 N.M. 207, 247 P.3d 286; *State ex rel. Sugg v. Oliver*, 2020-NMSC-002, ¶ 7-8, 456 P.3d 1065.

JURISDICTION AND VENUE

This Court has original jurisdiction over petitions for writ of mandamus against state officers, boards, or commissions, and the power to issue all other writs

AMERICAN OVERSIGHT

necessary or proper for the complete exercise of its jurisdiction and to hear and determine the same."[5] N.M. Const. art. VI, § 3. This Court has found that: "The right of qualified electors to vote is fundamental to the integrity of state government." *State ex rel. League of Women Voters v. Advisory Comm. to the N.M. Compilation Comm'n*, 2017-NMSC-025, ¶ 10, 401 P.3d 734. N.M. Const. art. VI, § 3 jurisdiction may be exercised even where the district courts have concurrent jurisdiction over the action. *State ex rel. Taylor v. Johnson*, 1998-NMSC-015, ¶ 15, 125 N.M. 343, 961 P.2d 768.

The Court's power to issue writs of mandamus encompasses orders prohibiting public officials from taking unlawful official actions. "Prohibitory mandamus may well have been a part of New Mexico jurisprudence even before statehood." *State ex rel. Clark v. Johnson*, 1995-NMSC-048, ¶ 19, 120 N.M. 562, 904 P.2d 11. "This Court on several occasions has recognized that mandamus is an appropriate means to prohibit unlawful or unconstitutional official action." *Id.*; *see also State ex rel. Edwards v. City of Clovis*, 1980-NMSC-039, ¶ 12, 94 N.M. 136,

[5] Even if the Respondents are not generally deemed a state officer, county clerks and county canvassing boards undeniably exercise the legal power of the state in administering statewide elections and the Respondent's delegated role by the legislature to ensure the constitutional right to vote is protected is a general, public action that may be enjoined by this Court. As the Court discussed in *State ex rel. Ward v. Romero*, 1912-NMSC-011, ¶ 23, 17 N.M. 88, 125 P. 617 (quoting *Burch v. Hardwicke*, 71 Va. 24, 32 (1878)) (finding when a public official's duties are public or general nature, they are considered state officers, whether the Legislature itself makes the appointment or delegates its authority).

AMERICAN OVERSIGHT

607 P.2d 1154 ("Once petitioner showed that there was a valid ordinance in existence and that it was being violated, the duty cast upon the City became ministerial and subject to enforcement by mandamus."). The judicial power to issue writs of mandamus extends to writs against mayors and county clerks. *See, e.g.*, NMSA 1978, Section 1-14-21 (If a county clerk fails to perform any act pertaining recounts, the applicant may apply to the supreme court of New Mexico for Writ of Mandamus to compel performance). Understanding the importance of election certification, the Election Code also allows for the New Mexico Courts to "issue a writ of mandamus to the county canvassing board to compel it to approve the report of the canvass and certify the election." NMSA 1978, Section 1-13-12.

Mandamus lies only to "compel [or prohibit] the performance of a ministerial act or duty that is clear and indisputable." *New Energy Econ., Inc.* 2011-NMSC-006 ¶ 10. "A ministerial act is an act which an officer performs [or is prohibited from performing] under a given state of facts, in a prescribed manner, in obedience to a mandate [or prohibition] of legal authority, without regard to the exercise of his own judgment upon the propriety of the act being done." *Id*.

In these proceedings, a Writ of Mandamus is a proper and a necessary exercise of the Court's jurisdiction. First, Respondent has already acted in nonconformance with a mandatory, ministerial act required in the election code. The Canvassing Board has not approved the report of the county canvass and voted not to certify the

AMERICAN OVERSIGHT

election results. Second, there is little basis for disagreement over the salient facts in this dispute. To wit, that the Canvassing Board has not identified any defective returns that would necessitate not certifying the elections in Otero County. Third, the disputed actions of the Canvassing Board are subject to a clear legal duty, without regard to the exercise of the Canvassing Board's judgement. Fourth, the Election Code's post-election provisions and procedures in Article 13 of the election code govern the certification of the elections, and they must be strictly followed. Finally, this failure to act affects the certification not only of the county and countywide candidate contests but also all statewide and multi-county contests which are statutorily required to be certified on June 28, 2022. § 1-13-15(C) and § 1-13-15(A). Without certification of the county, the Secretary cannot meet her statutory obligation to issue certificates of nomination for any winning candidate or move forward with the preparation of the ballot content for the upcoming General Election. § 1-13-15(C) and NMSA 1978, Section 1-13-16(B).

GROUNDS FOR ISSUING THE WRIT

I. The Plain Language of the Election Code Renders the Board's Action Unlawful.

New Mexico courts generally give the statutory language its "ordinary and plain meaning unless the Legislature indicates a different interpretation is necessary." *Cooper v. Chevron U.S.A., Inc.*, 2002-NMSC-020, ¶ 16, 132 N.M. 382.

AMERICAN OVERSIGHT

The election code is straight forward on how election returns are certified at the county level after an election. First, the county clerk must "prepare the report of the canvass of the election returns by carefully examining the returns of each precinct to ascertain if they contain the properly executed certificates required by the election Code and ascertain whether any discrepancy, omission or error appears on the face of the election returns." NMSA 1978, Section 1-13-4(A). Then, the county clerk "must also present the report of the canvass to the county canvassing board for consideration and approval." § 1-13-4(B).

Then the county canvassing board "shall meet to approve the report of the canvass of the returns and declare the results no sooner than six days and no later than ten days from the date of the election."[6] § 1-13-13(A). Further, the county canvassing board, "immediately upon approval of the report of the canvass of the returns of an election, shall issue a certificate of canvass of the results of the election." § 1-13-13(B). The county canvassing board then will "immediately after completion of the canvass, shall declare the results of the election and of all ballot questions affecting only precincts within the county." § 1-13-13(C).

The only discretionary power the county canvassing board has is to "summon a precinct board to appear before it to correct or supply omissions found" pursuant

[6] NMSA 1978, Section 1-1-3 states "As used in the Election Code… "shall" is mandatory and "mat" is permissive."

AMERICAN OVERSIGHT

to Section 1-13-5(A). This power is limited to a discrepancy within the election returns itself and in the precinct itself. *Id*. Although the Canvassing Board may issue a summons to correct a deficient return, the Canvasing Board must still proceed with the canvass of all correct election returns by at least ten days after the election. § 1-13-5(C), § 1-13-13.

On June 13, 2022, the Otero County Clerk presented the results of the canvass, found no discrepancies in the results, and recommended approval to certify the canvass report. The Canvassing Board did not vote to certify the election results; indeed, they took affirmative action *not* to certify the results. It is important to also remember that the Canvassing Board has issued no summons and has identified no omissions or discrepancies on the face of any election returns. As such, the plain language of the election code commands that the Canvassing Board proceed with the canvass of all correct returns and certify the election results by June 17, 2022.

II. The Existing Statutory Scheme Governing Canvassing an Election Must Hold and Prevail.

As certification was just denied, no written account has been made available of the Canvassing Board's decision, but upon belief and based on the Canvassing Board's comments at the meeting, Respondent has no issue with the election returns in Otero County in the 2022 Primary Election specifically. Rather, they have a general grievance with the voting machines or voting systems themselves and have

AMERICAN OVERSIGHT

directed the County to pursue alternative recount methods before they certify, potentially seeking a hand recount of all election returns. This alternative counting of ballots is not proper in time or in substance and the Canvassing Board not complementing its ministerial duty to certify the election returns is unlawful.

To begin with, our appellate courts recognize that "[d]eparture from the strict letter of a statute should … be undertaken with great caution. In particular, one must be careful not to underestimate the purposes served by strict compliance with the letter of the statute." 1996-NMCA-023, 121 N.M 414, ¶ 18. The admonition to be careful in deviating from the explicit requirements of the statute is especially important when dealing with the Election Code. The rules governing elections must be clear both so that the Secretary can fairly and objectively enforce them and so that candidates, parties, and voters understand how a candidate gets on the ballot.

The election code does not allow for a hand recount of election results at this stage of the election process and the Secretary has not approved such a process. What the election code does allow for is for Candidates to contest or pay for election recounts, and even has an automatic recount process in law. *See generally*, NMSA 1978, Sections 1-14-1 to 24. These are the procedures in place mandated by the Legislature to recount election returns. It goes beyond the legislative authority to perform a hand recount or a recount otherwise at this stage of the election process at

AMERICAN OVERSIGHT

the whim of a county canvassing board with no issue with the election returns specifically.

The New Mexico Constitution is unequivocal that it the "legislature shall have the power to require the registration of the qualified electors as a requisite for voting and shall regulate the manner, time and places of voting." N.M. Const. art. VII, § 1. Further the Constitution states that "[t]he legislature shall enact such laws as will secure the secrecy of the ballot and the purity of elections and guard against the abuse of elective franchise." *Id*. Therefore, the statutory framework of the election code makes clear that election administrators and county canvassing boards must follow the election code, and do not have the power to change its mandatory provisions. *Herrera*, 2009-NMSC-003, ¶ 12, 145 N.M. 563, 203 P.3d 94; *see, e.g.*, § 1-2-1(B) (stating that the Secretary's responsibilities as chief election officer include "obtain[ing] and maintain[ing] uniformity in the application, operation and interpretation of the Election Code" and "mak[ing] rules pursuant to the provisions of, and necessary to carry out the purposes of, the Election Code"); §§ 1-2-2(B)-(D) (stating that the Secretary's election-related duties include "supervis[ing] all elections by administering the Election Code," advising county clerks and election officials and workers "as to the proper methods of performing their duties prescribed by the Election Code," and "report[ing] possible violations of the Election Code" to prosecuting authorities).

AMERICAN OVERSIGHT

Any alternative relief the Respondent seeks to justify their unsubstantiated claims related to the certified voting machines should be dismissed as not relevant; and most importantly, is not a remedy available under the express provisions of the election code. Ordering such relief by the Canvassing Board or Supreme Court counters the legislative mandates and is an improper overreach of the Canvassing Board and the Court. This is because when legislation governs an area of law, the Courts equitable powers are "concurrent or supplemental to the legal remedy created by statute." *Sims v. Sims*, 1996-NMSC-078, ¶ 29, 122 N.M. 618, 624, 930 P.2d 153, 159. In those situations, Courts only fashion remedies that "fill[s] in the interstices" of the legislation "in accordance with those legal concepts, principles, or objectives which may apply to the situation and that are in harmony and legally compatible with" the legislation. *Gunaji*, 2001-NMSC-028, ¶ 21, 130 N.M. 734, 31 P.3d 1008 (internal quotation marks omitted) (quoting *State ex rel. Olson v. Bakken*, 329 N.W.2d 575, 580 (N.D. 1983)).

This Court's equitable powers do not extend so far as to allow it to disregard procedures set forth by statute or to rearrange the Election Code. *State v. Roy*, 1936-NMSC-048, ¶ 73, 40 N.M. 397, 60 P.2d 646 ("We are committed by our Constitution to the doctrine of separation of powers. It is fundamental that no one of the three branches of government can effectively delegate any of the powers which peculiarly

AMERICAN OVERSIGHT

and intrinsically belong to that branch. The power to make law is reserved exclusively to the Legislature.").

Our office believes that any issues raised regarding voting machines, alternative ways to canvass, and procedures for recounts are all specifically addressed in the election code and Respondent interjecting with its own procedures goes against legislative mandates when certifying election results pursuant to Section 1-13-13 and must be prohibited. The existing statutory scheme should hold and prevail and none of these issues potentially raised by the Canvassing Board are germane to the Canvassing Board's mandatory, ministerial duty to certify the election results.

STATEMENT OF RELIEF SOUGHT

As this Petition makes clear, the Canvassing Board has failed to undertake its statutory duty to approve the canvass report and certify the election. Respondent has not pointed to any discrepancies in the election results and have not issued any summons to that effect as mandated by statute.

Pursuant to her duty to "obtain and maintain uniformity in the application, operation and interpretation of the Election Code," § 1-2-1, the Secretary asks this Court to enforce the Legislature's plain language directives in certification of the election results. By so doing, the Court will also safeguard the county and state

AMERICAN OVERSIGHT

election results and set a precedence to all other County Canvasing Boards refusing to certify the election results due to political biases.

Accordingly, the Secretary asks that the Court issue a Writ of Mandamus to Respondent compelling the certification of the 2022 Primary Election in Otero County by July 17, 2022, their statutory deadline, as Respondent has a nondiscretionary duty to follow the election procedures set forth in the Election Code when certifying the election results, and not to deviate from those procedures.

Respectfully Submitted,

Subject: Spam:******, Claims re Dominion Voting Machines

Good morning, Ms Marquardt,

Do you have specific information to support your concern that there are problems with voting machines from Dominion that compromise the results of the recent primary election? If so, please tell me, the citizens of Otero county, and the citizens of New Mexico just what are those concerns. And please tell us what is the reliable source of the information that causes your concern.

If you are serious with your concerns, then I believe it incumbent on you to provide the public with such information since you are interfering with the statutory processes of determining the outcome of an election.

- If your concerns have merit, then I'm certain that the New Mexico Secretary of State will address them.
- If problems are discovered, she will take measures to resolve any resulting problems with the voting process.
- If your concerns don't have merit, then the results of the election will stand.
- If your concerns do not have merit, then it is quite unfortunate that you have caused an unnecessary interference with certification of the election results in a timely manner.

I send this to you because, as a citizen of New Mexico and the U.S., I believe it is time for more transparency on the part of our elected officials. And as an elected official of Otero County, you represent not only the County but also the interests of citizens throughout New Mexico. Your actions reflect on the integrity of not only our laws, but also on the integrity of elected officials and citizens throughout the state.

To uphold the concept of transparency, our elected officials must be willing to publicly stand behind their views by providing supporting and substantiating information directly and promptly to the public. Anything less calls into question their integrity and their loyalty in serving the citizens who expect honest, open leadership.

Thank you for stepping up to represent the citizens of Otero County on the Commission. I look forward to learning more about your objections to certifying the election results.

Respectfully,
george
George Young
Albuquerque, and a citizen of New Mexico

Attachment(s): "Sandoval County election resolution as presented 2022-06-22.pdf"

Dear R.B. & Pamela,

Last night my county commissioners adopted the attached resolution. (They made an insignificant one-word change from the attached document when adopting the final version.) Commissioner Dave Heil plans to send the resolution out to all the county commissioners. So this will be coming your way soon.

Ave,
Michael

Michael Eshleman
Sandoval County Attorney

AMERICAN OVERSIGHT

SANDOVAL COUNTY
BOARD OF COUNTY COMMISSONERS
RESOLUTION NO. 6-22-22.10

A RESOLUTION CALLING ON THE NEW MEXICO LEGISLATURE TO ENHANCE THE FAITH OF THE VOTING PUBLIC IN ELECTION OUTCOMES THROUGH IMPROVED ELECTION PROCESSES

WHEREAS, faith in our election process is the foundation upon which our democracy rests; and

WHEREAS, the processes around elections should be designed to encourage voter participation while discouraging election fraud; and

WHEREAS, when irregularities are identified in the course of an election, they can undermine the legitimacy of our elected leaders; and

WHEREAS, there have been many changes in election laws over the past decade to increase voter participation; and

WHEREAS, some of these changes have increased the risk of election fraud; and

WHEREAS, other measures such as photo voter identification have been left out of current policy despite being overwhelmingly supported by the public; and

WHEREAS, New Mexico has long struggled to effectively and efficiently remove inactive voters from the voter rolls; and

WHEREAS, allowing those who have either moved or passed away to remain on the voter rolls creates an unacceptable risk that other votes can be nullified through the theft of a previous voter's identity; and

AMERICAN OVERSIGHT

WHEREAS, the distribution of absentee ballots to voters – while necessary to include those who are unable to go to the polls in person due to illness, disability, or military deployment – creates a higher level of risk for voter fraud; and

WHEREAS, some jurisdictions such as the City of Rio Rancho, require a copy of a valid identification when submitting an absentee ballot; and

WHEREAS, requiring photo identification for both in-person and absentee voting has not decreased voter participation in Rio Rancho; and

WHEREAS, the lack of a clear chain of custody that shows who has handled absentee ballots may enable fraud; and

WHEREAS, it is the desire of the Board of County Commissioners of Sandoval County to improve both the actual security of elections, and the perceived security of elections in order to restore and maintain the faith in our election system.

NOW, THEREFORE BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF THE COUNTY OF **COUNTY** that it requests the New Mexico Legislature adopt the following changes to the New Mexico Election Code:

1. **Photo ID**. Voters shall provide a photo identification that may include any identification issued by a government agency, passport, driver's license, student identification card, commercial transaction card, insurance card, union card, a professional association card, or a voter identification card issued by the County Clerk. The law should allow those who cannot provide one of the previous forms of identification to submit an affidavitthat the voter is the person on the registration rolls with the voter's date of birth and the last four (4) digits of the voter's social security number.
2. **Efficient Removal of Inactive Voters.** New Mexico law provides for the removal of inactive voters from the voter rolls after the failure to vote in two consecutive general elections. Inactive voters should be removed from the registered voter rolls prior to the

AMERICAN OVERSIGHT

next municipal, primary, or general election. The Legislature should require the Secretary of State to use, on an on-going basis, data-matching software to find voters who have moved or died and to flag those registrations for review.

3. **Prohibit the Use of Ballot Drop Boxes.** Unattended ballot drop boxes – even those who are electronically surveilled – pose an unacceptable risk to the election process by making illegal ballot harvesting easier and should be prohibited.

4. **Absentee Ballot Chain of Custody and Photo ID.** Voters casting absentee ballots should be subject to the same voter identification requirements as proposed above for in-person voting. There should be an enhanced chain of custody process for returning absentee ballots that includes identifying those who return absentee ballots on behalf of others.

5. **Post-election Audit**. An automatic post-election audit involving at least ten percent (10%) of all of the precincts involved in a given municipal, primary, or general election, prior to canvass certification. Precincts shall be chosen at random and any deviation greater than 2% shall trigger an automatic recount.

Attachment(s): "TX GOP Permanent Platform - 16 June 2022.pdf"

_____

Tuesday, 21 June 2022

Dear Friends & Fellow Citizens,

Pray all well! Good evening.

A *Tide of Freedom* now turns,
as do the seasons,
here of a Summer Solstice,
under

Natural Law from Nature's God .

An enormous *Liberty Wave* Crests,
preparing to wash from Our Shores,
all ancient, foreign, polluting
Bank - Comm. doctrine.

Please see below Texas report & attached
yellow highlighted TX GOP

Natural Law Platform.

https://thehill.com/homenews/3529666-texas-gop-adopts-measure-declaring-biden-was-not-legitimately-elected

Texas has now openly repudiated

The Global Election Management Fraud of 2020

calling Joseph Robinette Biden, Jr. *a* ***Fraud***.

Which is correct.

Meanwhile, in the neighboring trough,

AMERICAN OVERSIGHT

Otero County, New Mexico Commissioners
blinked in emotional torpor,
when placed under duress by
New Mexico State Official Fraudsters,
for not certifying the 2022 Primary results,
in the wake of ongoing digital & other fraud
in their county.

Please see,

https://www.alamogordonews.com/story/news/2022/06/18/otero-county-affirms-2022-election-amid-threats-from-state-of-new-mexico/65361512007/

They need but simply recall the

Constitution & the Law of the United States,
in pursuance thereof,

afford them all the protection they need,
in the shadow of local tyrants.

See *Legal Brief & Courtesy Notice* link below,
describing the muscular, physical enforcement
of *Article VI* of the *US Constitution*
to remedy overreach, by arrest of petty tyrants.

See especially the second footnote. **

https://www.badassunclesam.com/_files/ugd/6f3836_002ff1c7d7974a4b8489662fe97758a9.pdf

Once sworn oaths are breached,
officials surrender all effect & power of office,
awaiting naught but arrest & prosecution
for their federal felony civil rights offenses,
their treason & their sedition.

It is not yet too late,
for the Otero Commissioners
to rally their jurisdiction to the Constitution,
and prepare for the
capitulation, capture & arrest
of their state tyrants.

Godspeed thus, in the name of our Lord Jesus,
who compels us to *Stand Fast* in His Liberty. (*Gal.* 5, *KJB*)

Thank you.

Liberty In Christ,

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Preamble

1. Affirming our belief in God, we still hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the Pursuit of Happiness. Throughout the world, people dare to dream of freedom and opportunity. The Republican Party of Texas unequivocally defends that dream. We strive to preserve the freedom given to us by God, implemented by our Founding Fathers, and embodied in the Constitution. We recognize that human nature is immutable. We further recognize that the traditional family is the strength of our nation. It is our solemn duty to protect innocent life and develop responsible citizens. We understand that our economic success depends upon free market principles. If we fail to maintain our sovereignty, we risk losing the freedom to live these ideals.

Principles

2. We, the 2022 Republican Party of Texas, believe in this platform and expect our elected leaders to uphold these truths through acknowledgment and action. We believe in:

3. (1) “The laws of nature and nature’s God,” and we support the strict adherence to the original language and intent of the Declaration of Independence and the Constitutions of the United States and of Texas.

4. (2) The sanctity of innocent human life, created in the image of God, which should be equally protected from fertilization to natural death.

5. (3) Preserving individual, Texan, and American sovereignty and freedom.

6. (4) Limiting government power to those items enumerated in the United States and Texas Constitutions.

7. (5) Personal accountability and responsibility.

8. (6) Self-sufficient families, founded on the traditional marriage of a natural man and a natural woman.

9. (7) Having an educated population, with parents having the freedom of choice for the education of their children.

10. (8) The inalienable right of all people to defend themselves and their property.

11. (9) A free enterprise society unencumbered by government interference or subsidies.

12. (10) Honoring all of those that serve and protect our freedom.

AMERICAN OVERSIGHT

Constitutional Issues

(Preservation of Constitution)

13. Keep Oath to the Constitution: We call for all who swear the oath to support and maintain the limitations and clear meaning of the United States Constitution.

14. Preservation of our Constitutional Republic: We support our constitutional republican form of government as set forth in the Texas Bill of Rights. We further resolve that all amendments to the Texas Constitution require a majority of the voters in at least 191 counties (three-fourths), instead of a simple majority of the votes.

15. Enforce the Constitution Article 4 Section 4: The sovereignty of this state requires the protections afforded under Article 4, Section 4, of the Constitution, and any failing thereof authorizes the Governor of this State or the Legislature to declare an invasion, which shall be met with the full force of this State.

16. No Foreign Law: No foreign law, contract, or judgment arising from any foreign state whose laws violate fundamental constitutional rights shall be honored or enforced by any Texas court.

17. Judicial Overreach: All attempts by the judiciary to rule in areas not constitutionally granted to the judiciary, including abuses of the "commerce clause," the "general welfare clause," and the "supremacy clause," should be nullified. Any federal enforcement activities that do occur in Texas should be conducted under the authority of the county sheriff. (SCOTUS Ruling in 1997 *Mack-Prinz v. US*)

18. Limiting the Power of the Supreme Court: Judges don't define the roles of judges; Article 3, Section 2, defines the roles of judges. We support Congress's limiting the power of the Supreme Court by invoking Article 3, Section 2, Clause 2, by "legislating exceptions and creating regulations" to limit the cases for which the Supreme Court has jurisdiction.

19. Amendments to the US Constitution: We:

a. Support term limits of twelve years for federal and state offices.
b. Oppose "packing" (or enlarging) the United States Supreme Court and supports the pending "Keep Nine Amendment" as filed in the United States Senate and the House of Representatives with bipartisan support.
c. Support repeal of the 16th Amendment (Federal Income Tax)
d. Support restoring state sovereignty with the repeal of the 17th Amendment of the United States Constitution and the appointment of United States Senators by the state legislatures.
e. Support a change to the 14th Amendment to eliminate "birth tourism" or anchor babies by granting citizenship only to those with at least one biological parent who is a US citizen.
f. Support a constitutional amendment making English the official language of the United States, and one of no more than two official languages of all US territories and other possessions.

20. Executive Orders: We oppose all executive orders, whether by a president, a governor, or a local official, that go beyond administration of executive authority and have the effect of legislation. We call upon the Texas Legislature or local lawmakers to nullify such executive orders.

21. Limiting Overreaching State Government: We recognize the sovereignty of this state, and its citizenry

AMERICAN OVERSIGHT

has been imperiled and threatened by the ongoing overreach of state elected officials and agencies. We therefore call for the enforcement of Article 2 of the Texas Constitution and restoration of our liberty by the following:

a. Repeal and replace Texas Code 418.
b. No form of government shall ever again implement mass lockdowns on the people, our businesses, and our churches.
c. We oppose funding or implementation of any form of contact tracing.
d. The State Constitution must be changed to require the Legislature come to session after a declared emergency lasting 30 days or more in five or more counties.
e. The Texas Governor shall no longer use executive orders to create public policy or law, and shall no longer have the power to close businesses or declare some as "essential" or "non-essential."
f. The Governor's authority during an emergency shall not be delegated.

22. Dereliction of Duty: The failure by a public official to discharge any duty shall be a violation of the terms of his or her oath of office, which shall constitute a crime, and upon conviction, this crime shall be punishable by a fine or imprisonment, depending on the nature of the offense. Any entity or person who acts under the color of federal or state law to deprive a Texan of the rights or privileges insured by the federal and state constitutions shall be liable to the injured parties for redress, including monetary damages and injunctive relief, notwithstanding any preexisting immunities.

(Citizen Rights)

23. The Rights of a Sovereign People: We support the historic concept, established by our nation's founders, of limited civil government jurisdiction under the natural laws of God, and we oppose the concept that the state is sovereign over the affairs of men, the family, and the church. We believe that government properly exists by the consent of the governed and must be restrained from intruding into the freedoms of its citizens. The function of government is not to grant rights, but to protect the inalienable, God-given rights of life, liberty, property, and the pursuit of happiness of all, including the unborn.

24. Protecting Constitutional Rights Regarding Age: There should be a single age of majority upon which, when reached, all citizens will be guaranteed their rights, duties, and privileges.

25. National Popular Vote: The National Popular Vote Interstate Compact is a direct violation of Article 1, Section 10, and Article 2, Section 1, of the Constitution and shall be rejected by Texas and all its officials. We support the Electoral College.

26. Recall Elections: We support the right to recall our elected officials.

27. Habeas Corpus: Any federal suspension of the writ of habeas corpus against a Texas citizen shall be violative of the tenth amendment, Texas sovereignty, sovereignty of the individual, and actionable by the state or the citizen.

28. Census: In accordance with the United States Constitution, we support an actual count of only United States citizens ~~only~~, and we oppose Census Bureau estimates and the collection of all other data.

29. Equal Rights Amendment: We call upon the 88th Texas Legislature to adopt a resolution clarifying that the 1972 ratification by the 62nd Texas Legislature of the proposed Equal Rights Amendment to the United States Constitution was valid only through March 22, 1979.

AMERICAN OVERSIGHT

30. Parental Rights: The rights of parents are foundational to Western society and shall be respected, affirmed, and protected by the Texas Constitution and Texas Law. We call upon the Legislature to properly recognize and affirm the fundamental right of parents to make all decisions regarding the upbringing and control of their children in all aspects, especially with regard to the grievous violations of the Texas education system. Any failure to recognize, protect, or honor these fundamental rights shall be actionable. No parent exercising any of these fundamental rights shall be prosecuted as domestic terrorists.

31. Prayer, Bible, and Ten Commandments in Schools: We support prayer, the Bible, and the Ten Commandments being returned to our schools, courthouses, and other government buildings.

32. The Right to Keep and Bear Arms: State and Federal Legislatures shall:

a. Repeal and/or nullify the National Firearms Act of 1934 and the Gun Control Act of 1968.
b. Pass unrestricted Constitutional Carry by amending Article 1, Section 23, of the Texas Constitution by removing, "but the Legislature shall have power, by law, to regulate the wearing of arms, with a view to prevent crime."
c. Nullify any gun laws that violate the 2nd Amendment or rights of due process.
d. Support national reciprocity for gun ownership rights.
e. Recognize the right of License to Carry holders to carry anywhere off-duty or retired law enforcement can carry.

The above legislation shall not be construed as impinging on private property rights.

(State Sovereignty)

33. State Sovereignty: Pursuant to Article 1, Section 1, of the Texas Constitution, the federal government has impaired our right of local self-government. Therefore, federally mandated legislation that infringes upon the 10th Amendment rights of Texas should be ignored, opposed, refused, and nullified. Texas retains the right to secede from the United States, and the Texas Legislature should be called upon to pass a referendum consistent thereto.

34. State Electoral College: The State Legislature shall cause to be enacted a State Constitutional Amendment creating an electoral college consisting of electors selected by the popular votes cast within each individual state senatorial district, who shall then elect all statewide office holders.

35. Unfunded and Under-Funded Mandates: Unfunded mandates and under-funded mandates are unacceptable. The State of Texas must fully fund, at a minimum, the following additional costs to local governments:

a. Indigent criminal defense.
b. Inmate healthcare in jails.
c. Indigent burials and autopsies.
d. Veteran services offices.

36. Equal Protection for the Preborn: We urge lawmakers to enact legislation to abolish abortion by immediately securing the right to life and equal protection of the laws to all preborn children from the moment of fertilization, because abortion violates the US Constitution by denying such persons the equal protection of the law.

37. Article V Convention of States: The Texas Legislature shall extend the call for a Convention of States to limit the power and jurisdiction of the federal government.

AMERICAN OVERSIGHT

Business, Commerce and Transportation

(Energy and Environment)

38. Utilities: We encourage free-market solutions for providing utilities whenever possible.

39. Power Grid: We urge that the Texas Legislature pass legislation to harden the Texas Electric Grid increasing capacity and being prepared for all hazards, including:

a. Cyberattacks on the grid's computerized command and control system.
b. Physical attacks on substations and major high-voltage transformers.
c. Geomagnetic storms created by solar flares from the sun.
d. Electromagnetic Pulse (EMP).
e. Extreme weather events, both cold and hot

40. Carbon Tax: We oppose all efforts to classify carbon dioxide as a pollutant.

41. Midland Not Moscow: We fully support and encourages greater energy production in the Permian Basin and throughout Texas, as well as the necessary policies and infrastructure investment in roads, pipelines, and ports; to support Texas workers and help America's energy security instead of increasing our reliance on foreign governments that do not benefit America or our allies.

42. Environment: We oppose environmentalism that obstructs legitimate business interests and private property use, including the regulatory taking of property by governmental agencies. We oppose the abuse of the Endangered Species Act to confiscate and limit the use of personal property and to infringe on a property owner's livelihood. We support the defunding of "climate justice" initiatives, the abolition of the Environmental Protection Agency, and repeal of the Endangered Species Act, and we oppose the "America the Beautiful" Initiative, also known as the 30 x 30 program.

43. Flooding Mitigation, Hurricane, and Early Warning of Impending Disaster: We support the immediate study, implementation, and construction of projects that will:

a. Address river, bayou, reservoir, and other flood threats to public and private property.
b. Seek the input of those most likely to be affected by a casualty to public and private property, to include infrastructure and facilities that affect national security.
c. Address the risk of storm or tidal surge that affects the critical industries along the Gulf Coast.
d. Create an early warning system that will immediately alert residents to an impending flood, wind, or casualty weather event.
e. Establish regional flood control districts where necessary for counties to resolve joint flooding issues.
f. Provide funds to complete these projects from federal, state, and local funds.
g. Government boards responsible for flood mitigation shall be elected and not appointed.

Governments at all levels must work together to avoid the historical bent to push projects, safety, and implementation into the future. Projects must be of most urgent priority now in order to avoid further trauma; loss of life; loss of personal, government, and business wealth; and diminution of the tax base.

44. Tidelands and Resources: We assert that the State of Texas and all coastal states shall enjoy and maintain jurisdiction and control of their offshore waters up to the international water boundaries as well as

AMERICAN OVERSIGHT

state inland waterways regarding all natural resources therein, and that the federal government shall not set limits on harvesting or taking natural resources therein, nor allow foreign entities to harvest or take such natural resources therein, including minerals, game, fisheries, and hydrocarbons. Also, we demand that no entity shall usurp Texas's original tideland boundaries.

45. Water Resources: While we support the decision by the Texas Supreme Court in preserving individuals' rights to the groundwater under their property and their right to capture it, we support tying surface rights of ownership to groundwater rights of ownership. We support regulations that may put limits on a person's capture and use of groundwater, if such use will negatively impact adjoining owners' use of their groundwater for private wells, their water supply, or agricultural use.

46. Energy Production: We support free-market solutions and immediate removal of government barriers and direct subsidies to the production, transportation, reformulation, refining, and distribution of energy. We oppose federally directed plans and proposals that favor renewable energy sources that may constitute a nuisance, or otherwise have a substantially negative impact on neighboring landowners, including harming property values of our neighborhoods, farms, and ranch areas.

47. Energy Innovation: Texas should take advantage of its independent grid and mines by encouraging providers to build and operate traditional and next-generation nuclear power plants (such as molten salt reactors), free of the red tape they would otherwise incur. To keep the federal government from interfering, Texas should also ensure that the supply chain of components and fuel remains in-state and off federally-claimed land.

(Markets and Regulation)

48. Municipal Preemption: We encourage the Legislature to preempt local government efforts to interfere with the State's sovereignty over business, employees, and property rights. This includes but is not limited to burdensome regulations on short-term rentals, bags, sick leave, trees, and employee criminal screening. We support preemption of city ordinances that dictate sick leave policies to private businesses. This excludes the handling of emergency orders.

49. Licensing: We call upon the Texas Legislature to review all Texas Department of Licenses and Regulations (TDLR), business/professional licensing programs, and associated licensing for the purpose of abolishing or removing as many as reasonably possible and repealing those laws, rules, and regulations.

50. Practice of Law: We support allowing any person to sit for the Texas State Bar Exam regardless of educational background, as long as criminal and ethical background requirements are met. We oppose mandatory State Bar membership for Texas lawyers. We favor restricting those who may file grievances in the legal disciplinary process of Texas to those who have standing. Further, we support sanctions for those who weaponize and politicize the legal disciplinary process of Texas.

51. Reduce Business Regulations: We believe that the following businesses should be minimally regulated at all levels.

Federal Laws:

a. Repeal Minimum Wage Law and Prevailing Wage laws.
b. Repeal Dodd-Frank.
c. Repeal Sarbanes-Oxley.
d. Repeal The Lacey Act.

AMERICAN OVERSIGHT

State Laws:

a. Eliminate Blue laws.
b. Eliminate the three-tier alcohol system (production, distribution, and retail).
c. Allow auto manufacturers to sell directly to consumers.
d. Business licensing.
e. Professional licensing.
f. Purchase of edible products from small farms.
g. Use of hemp as an agricultural commodity.

Local Municipal Laws:

a. Minimum wage waws.
b. Blue laws.
c. Mandatory sick/family leave.

52. Trade Agreements: We support free trade as a necessary component of American capitalism and of the United States' influence in the world. But all trade agreements between the federal government and other nations should strictly adhere to the US Constitution and require approval by 2/3 of the Senate.

53. Origin Labeling: We urge that all food products entering the United States show not only the country of origin, but also the country that processed it and the country that packaged it.

54. Predatory Towing: We urge the Texas Legislature to enact legislation increasing the criminal penalties resulting from predatory towing and decreasing the state-allowed amount that a tower can charge, to disincentivize the practice of predatory towing.

55. Municipal Permitting: We call on the Texas Legislature to continue to streamline the building permitting process to ease burdens and costs on developers and consumers. We encourage the Legislature to monitor implementation of existing legislation that protects property development rights and close loopholes that cities are using to circumvent these laws. We oppose retroactive rulemaking and changing the rules on developments that have already been issued permits.

56. Texas Resistance to the Great Reset: Texas should continue to pass legislation needed to protect the citizens of Texas from corporate violation of their rights in the Great Reset/Environmental, Social, Governance (ESG) scheme as follows:

a. Ban corporations who attempt to suppress funding for Texas industries from doing business with the State of Texas and its subdivisions.
b. Make it illegal for banks and financial institutions operating in Texas to make lending decisions based on anything other than financial concerns. The model for such legislation should be the Fair Access to Financial Services rule promulgated by President Trump's Office of the Comptroller of the Currency, which was immediately suspended by the current occupant of the White House.
c. Add penalties in Texas law for corporations operating in Texas who lead boycotts against Texas due to legislative action to protect the rights of Texans to decline vaccination, protect the unborn, stop the teaching of Critical Race Theory in schools, compete in sports with those of their own biological gender, or to protect children and juveniles against sexual organ mutilation and hormones and puberty blockers designed to fake transition from one gender to another.
d. Add explicit protections for the natural right of Texans to keep and exchange and store their wealth in the mediums of exchange (including digital currency, gold and silver coin, bullion, cash, and scrip) of choice to the Texas Bill of Rights. This will help stop global institutions and the federal government from forcing Texans to use the financial services and currency

AMERICAN OVERSIGHT

dictated by them.

e. Consider the expansion or use of existing Texas anti-trust law to prohibit collusion between woke corporations to cancel/drive others out of business."

57. Patent Protection: We support reversing state and federal legislation and court decisions that have damaged patent rights for Texas independent inventors and startups. This includes abolishing administrative tribunals and restoring injunctive relief, thus restoring the US patent system and driving American back to leading the world technologically, economically, and militarily.

(Retirement, Savings, Unions)

58. Government Accountability: We call upon the Texas Legislature to eliminate all special collective bargaining statutes for public employees and to hold all public servants accountable to taxpayers through existing civil statutes. We oppose any distribution of taxpayer dollars to unions.

59. Social Security Privatization: We support privatization of the Social Security system.

60. Rural and Volunteer Fire Departments: We urge Congress to overturn the rules of the United States Department of Labor restricting volunteerism by paid firefighters and emergency medical technician personnel and to support protections similar to those provided to National Guardsmen for service during declared emergencies.

61. Employee Stock Ownership Plans (ESOPs): Republicans support maximum economic opportunity for all citizens and believe that legal limits on employee ownership of Texas firms by Employee Stock Ownership Plan (ESOP) trusts should be eliminated. We also believe that changes in ownership from private individuals to a majority ownership by an ESOP should not create a disadvantage when doing business with the State of Texas or political subdivisions of the State. We believe the State of Texas should encourage the creation of more ESOPs by making information easily available to businesses located in Texas.

62. Unions: We support legislation requiring labor unions to obtain consent of the union member before that member's dues can be used for political purposes. We oppose card check. Texas should prohibit governmental entities from collecting dues for labor unions through deductions from public employee paychecks. We also encourage the adoption of a National Right to Work Act.

(Transportation)

63. Freedom to Travel: We oppose the Biden Infrastructure and Green Energy Plan that threatens our freedom to travel, imposes a federal mileage tax, as well as Diversity, Equity, and Inclusion (DEI) or other social justice policies on Texas taxpayers and drivers. We oppose anti-car measures that punish those who choose to travel alone in their own personal vehicle, and oppose any measure to impose "road diet" mandates designed to shrink auto capacity and/or intentionally clog vehicle lanes to force deference to pedestrian, bike, and mass transit options (whose users do not pay gas tax). We urge the Texas Legislature to protect drivers from these California-style, anti-driver policies in Texas.

64. Vehicle Taxes: Vehicle registration should only be a one-time occurrence at the point of sale and should only be based on the price actually paid on the vehicle or trailer. Only commercial vehicles should be required to obtain a state safety inspection.

AMERICAN OVERSIGHT

65. Toll Roads: We believe that tolls should come off the road when the debt is retired, and if the debt is ever restructured or refinanced, the pay-off date needs to remain the same.

Public-private partnerships, toll authorities, and construction:

a. We oppose public-private partnerships, specifically regarding toll projects.
b. We oppose conversion of existing roads or lanes to toll roads.
c. We oppose the use of taxpayer money to subsidize any toll projects, and we call upon lawmakers to adequately fund our highways without hidden taxes, tolls, or raiding of emergency funds.

Toll administration and collections:

a. We urge the Legislature to pass a uniform toll collection and billing procedure that prohibits excessive fines and fees, along with other pro-taxpayer reforms such as requiring agencies to:
    i. send out accurate bills prior to adding fines and fees.
    ii. immediately notify drivers if a payment card is not working.
    iii. allow payment plans to be set up prior to being put into collections.
b. We call upon the Legislature to pass legislation to decriminalize the failure to pay tolls.

66. High Speed Rail: Taxpayer money should not fund or subsidize high speed rail, nor should eminent domain be used in the construction of high speed rail.

(COVID Response)

67. COVID-19 Liability: Businesses shall not be held liable for any customer who frequents their business and later is confirmed to test positive for COVID-19.

68. Jobs Are Essential: We urge the Texas State Legislature to adopt legislation that recognizes and establishes all businesses and jobs as essential and a fundamental right. Governments do not have the authority to determine what entities are essential during an emergency.

69. Government Mandates: No government entity may require a business, via financial or legal coercion, to act as an enforcement arm of the state, such as the egregious action when local governments required businesses to enforce mask mandates or be fined or closed.

(Privacy, Information Freedom, Internet)

70. Doxing and Swatting: We recommend the State Legislature consider modifying existing state law to take into account the implications of doxing that results in harm to one's person or business, and Swatting, a criminal harassment tactic of deceiving an emergency service into sending a police or emergency response team to another person's address.

71. Regulating the Internet: We oppose efforts to implement net-neutrality on internet service providers.

72. Personal Data Privacy: We demand that all rights to privacy that individuals have in their homes should be extended to all digital data via the use of strong public key encryption technologies. We call upon Texas to prohibit vendors of the State of Texas and its subdivisions from selling or sharing data captured in providing services to Texans. We support laws limiting the ways in which internet providers, electronic applications, websites, schools, government entities, and others may access the electronic communications or documents of all Texans.

AMERICAN OVERSIGHT

73. Social Media Freedom: We call on our Congressional Delegation to push for reform of Section 230 of the Communications Decency Act to limit the ability of online social media platforms to censor the speech of citizens in the new digital town square, which they currently control. We support Texas legislative efforts such as House Bill 20 that afford Texas residents the power to sue Big Tech Companies for targeting and censorship.

74. Cyber Security Self-Defense: We support "hack-backs", defined as counterattacks aimed at disabling or collecting evidence against a perpetrator, as a legitimate form of self-defense of persons and organizations in order to ensure their cyber security. The right to defend oneself in our current era must be expanded in order to preserve the safety, property, and livelihood of Texans.

Finance

(Spending Restraint)

75. Government Spending and Taxation: We in the Republican Party of Texas believe in the principles of constitutionally limited government based on federalist principles. To this end, we encourage our elected officials at all levels of government to work to reverse the current trend of expanding government and the growing tax and debt burdens placed on "We the People." Government spending is out of control at the federal, state, and local levels, and action is needed to reduce spending, and therefore taxation, at all levels.

76. State Fiscal Restraint: Amend the Texas Constitution and State statute with a stricter spending limitation based on US Census population growth plus inflation, as measured by the Consumer Price Index, and apply the new limit to Texas's total government budget. We call on the Texas State Legislature to freeze state spending until wasteful programs have been eliminated, a sustainable size of government has been restored, and substantive property tax relief has been provided to Texas citizens. Any budget surplus should be applied to property tax relief.

77. Economic Stabilization Fund: We oppose the use of the Economic Stabilization Fund (Rainy Day Fund) to expand government. Use of the Economic Stabilization Fund should be limited to its intended purposes of preventing tax increases during economic downturns and responding to unforeseen disasters.

78. Government Pensions: The Texas Legislature shall enact new rules to begin to transition government pensions for public sector employees from a defined benefit pension to a defined contribution retirement plan similar to a 403(b).

79. Gambling: We oppose any expansion of gambling, including legalized casino gambling. We oppose and call for a veto of any budget that relies on expansion of legalized gambling as a method of finance.

80. Truth in Taxation: We urge that taxes established for a particular purpose shall not be used for any other purpose. Tax revenue derived from gasoline taxes and all other taxes/fees on our vehicles (including vehicle sales tax) should only be used for road construction and maintenance, and not be diverted to any other use, including mass transit, rail, restrictive lanes, and bicycle paths.

81. Public Posting: We support all government entities compiling and publicly posting their current debt, future obligations, financial statements, check registers, and all government contracts on their official websites.

82. Repeal Taxes: We support abolishing the following:

AMERICAN OVERSIGHT

a. Estate tax (commonly known as the Death Tax).
b. Inventory taxes.
c. Business franchise taxes.
d. Taxes on phone and internet services.
e. Affordable Care Act Home Sales Tax.

83. Federal Taxes: We support a flat tax or the replacement of the income tax with a consumption tax that reduces the overall tax burden.

84. Let Texans Run Texas: The Texas Legislature should pass legislation that prohibits political subdivisions of Texas and state agencies from accepting federal funds that violate Texas law.

85. Impact Fees: We support the use of impact fees by counties, municipalities and school districts to ensure that new growth pays for the impact on governmental services without forcing the current residents to subsidize newcomers moving in.

86. Higher Education Spending Control: Freeze public spending on State higher education until waste and administrative costs are reduced.

(School Finance and Property Taxation)

87. Defund Big Government, Not the Police: Any large city or county that cuts its police budget by more than 10 percent should be required to cut its property tax revenue by the same or greater percentage.

88. Management Districts: We oppose the creation of management or special purpose districts with the authority to impose taxes and bonded debt, and we oppose the use of eminent domain by these districts.

89. Permanent School Fund: We support saving the Permanent School Fund for future generations and oppose raiding it or using it as a source of additional funding for the state budget. We oppose any effort to remove State Board of Education authority over the Fund, whose constitutionally intended purpose is to fund SBOE-approved instructional materials.

90. Axe the Property Tax: We support replacing the property tax system for businesses and individuals with an alternative other than the income tax and requiring voter approval to increase the overall tax burden. We urge the Legislature to immediately develop and implement a transition plan that is a net tax cut.

91. Property Tax Relief: We support these incremental steps toward the ultimate abolition of property tax:

a. Dedicate surpluses to buy down school district maintenance and operation property tax.
b. Replace the appraisal system with a system that values property at the purchase price.
c. We support requiring appraisal districts to publish the amount of property taxes and appraisals attributable to each rental unit.
d. Close the loophole called the “Unused Increment Rate,” which allows taxing entities to bypass recently added limits to increases in property taxes.

92. Bonds Create Bondage: We urge the Texas Legislature to amend the Texas Election Code to require bond issues be approved by a 2/3 majority of those voting and only if 20% of all registered voters in the district cast ballots. Taxpayer standing must be established to allow taxpayers to hold government entities accountable.

93. Administrative Bloat Is Not Transformative: We call on Texas school administrators to deliver more

AMERICAN OVERSIGHT

education for our dollars, instead of nonstop lobbying for more dollars for education. At a minimum, 65 percent of revenue should be spent in the classroom. We oppose the underhanded strategy of making cuts to visible frontline teaching positions instead of administrators and overhead.

(Opposition to Market-Distorting Tax and Fiscal Subsidies)

94. Property Tax Abatements: We support repealing Tax Code Chapter 312 county and municipal property tax abatements, and we oppose reintroducing school property tax abatements, formerly known as Chapter 313.

95. Bailouts and Subsidies: We encourage government to divest its ownership of all businesses that should be run in the private sector. We oppose all bailouts of and subsidies to domestic and foreign government entities, states, and all businesses, public and private.

96. Eliminate Federal Activity: We call upon the federal government to stop the following:

a. Community Reinvestment Act.
b. Funding for the Corporation for Public Broadcasting.
c. Ownership of or insurance related to Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac), and SLM Corporation (Sallie Mae).

97. Special Funds: We urge the Texas Legislature to abolish the Special Events Trust Fund program, the Texas Enterprise Fund, and the Moving Image Industry Incentive Program.

98. Pro Stadiums: Tax dollars should not be used to fund the building of stadiums for professional or semi-professional sports teams.

(Transparency and Oversight)

99. End the Fed: We support abolishing the Federal Reserve. Until that is accomplished, we support additional accountability and transparency for the Federal Reserve System, including regular performance audits.

100. Right to Use Cash and Cash Substitutes: We support adding the following protection to the Texas Bill of Rights: The right of the people to own, hold, and use a mutually agreed upon medium of exchange, including cash, coin, bullion, digital currency, or scrip, when trading and contracting for goods and services shall not be infringed. No government shall prohibit or encumber the ownership or holding of any form or amount of money or other currency. This amendment shall not be construed to restrain the State of Texas from choosing the mediums of exchange it will accept or reject in payments to it.

Education

(Parents' Rights)

101. School Choice: Texas families should be empowered to choose from public, private, charter, or homeschool options for their children's education, and the funding should follow the student. We also

AMERICAN OVERSIGHT

support tax credits and exemptions for education and choice within the public school system.

102. No Regulation of Homeschooling or Private School Curriculum: We oppose any attempt to regulate homeschooling or the curriculum of private or religious schools.

103. Parents Rights in Education: Parents are the primary educators and disciplinarians of their children, to which all other entities are inferior. The fundamental rights of parents to make decisions regarding the upbringing and control of their children in all aspects, but especially in all aspects of the Texas education system shall be recognized, affirmed, and protected by changes to the Texas Constitution, and Texas Law including codifying the protections currently existing in the Texas Family and Education Codes. No public service entity nor its agents, district personnel, community partners, or District Board of Trustees shall infringe upon these rights.

104. Enforcement of Parental Rights: Parents need more effective mechanisms to enforce their rights in education. We support creation of impartial ombudsmen in both general education and special education. We call on the legislature to establish to allow for appeals beyond the school district when parents file grievances to protect their rights as well as a process to administer penalties to districts and their personnel who violate those rights. Enforcements must include criminal, civil, and other enforcement measures while giving the state and private citizens a right to sue outside of the local grievance process with expedited enforcement. We call for development of a Parent's Right to Know and Consent booklet that contains pertinent state and federal law. The federal Pupil Protection Rights Amendment and the Children's Internet Protection Act should be codified in Texas law and additional state protections for students with disabilities. We call for reforms to the Disciplinary Alternative Education Program (DAEP) placement to protect parents' rights and ensure that placement is reserved only for serious offenses.

105. Sexual Education: We demand the State Legislature pass a law prohibiting the teaching of sex education, sexual health, or sexual choice or identity in any public school in any grade whatsoever, or disseminating or permitting the dissemination by any party of any material regarding the same. All school districts, individual schools, or charter schools are prohibited from contracting with or making any payment to any third party for material concerning any of the above topics. Until this prohibition goes into effect, sexual education shall only utilize sexual risk avoidance programs and promote abstinence outside of marriage. Before a student may be provided with human sexuality or family planning instruction, the district must obtain the written consent of the student's parent or guardian [Opt-In status].

106. Inappropriate and/or Harmful Content: We request that the Texas Legislature pass legislation that requires Texas schools and libraries to filter inappropriate and/or harmful content, such as pornography, for minors. Operators of adult sex entertainment businesses and venues, adult entertainment of any kind, including Drag Queen Story Hour, shall not be part of educational programming in public schools, libraries, or any other taxpayer-funded program for children. We support passage of a law more comprehensive than the Florida law that prohibits instruction in sexual orientation and gender identity in public schools. We advocate for those who violate any of the above to have their educator's certification revoked and be prosecuted to the fullest extent of the law where appropriate.

107. Healthcare in Public Schools: Legislators shall prohibit reproductive healthcare services, including counseling, referrals, and distribution of condoms and contraception through public schools. We support parents' right to choose, without penalty, which medications are administered to their minor children. We support informed consent of parents before any school-based mental health assessments or interventions are performed.

108. Religious Freedom and Public Schools: We urge school administrators and officials not to infringe on Texas school students' and staffs' rights to pray and engage in religious speech, individually or in groups,

AMERICAN OVERSIGHT

on school property without government interference. We urge the Legislature to end censorship of discussion of religion in our founding documents and encourage discussing those documents, including the Bible as their basis. Students have the right to exhibit religious items on school property.

(Curriculum)

109. Instructional Excellence: The educational system should focus on imparting essential academic knowledge, understanding why Texas and America are exceptional and have positively contributed to our world, and while doing so, also offer enrichment subjects that bless students' lives. Curriculum of Instructional Excellence shall include the following:

a. Language arts, with phonics-based reading instruction, spelling, literature, and writing.
b. Civics, which includes passing the US Citizenship and Immigration Services test.
c. Mathematics, which has correct answers and focuses on how to arrive them.
d. Science.
e. Social Studies, including geography, economics, US and World History. Such instruction should focus on American exceptionalism and the benefits of the free-enterprise system and includes instruction on the consistent failures of socialism and communism.

We support education in the arts and music and building critical thinking skills, including logic, rhetoric, and analytical sciences. We support quality vocational educational training that imparts skills needed by local employers and leads to meaningful post-graduation employment.

110. Founding Documents in High School: We support a high school level curriculum (rather than 8th grade level) for the study of American history (pre-1877) that is heavily weighted toward the study of original founding documents, including the Declaration of Independence, the United States Constitution, the Constitutional Convention, the *Federalist Papers,* and Founders' writings.

111. American Identity: We favor strengthening our common American identity, which includes the contribution and assimilation of diverse racial and ethnic groups. We reject Critical Race Theory as a post-Marxist ideology that seeks to undermine the system of law and order itself and to reduce individuals to their group identity alone. We support legislation to remove this ideology from government programs, including education involving race, discrimination, and racial awareness. To facilitate the appreciation of our American identity, the contrast between freedom and the tyrannical history of socialism/communism throughout history must be taught. Students shall pledge allegiance to the United States and Texas flags daily to instill patriotism. Students have the right to display patriotic items on school property. Schools should have the options to display the National Motto "In God We Trust."

112. Scientific Theories: We support objective teaching of scientific theories, such as life origins and climate change. These shall be taught as challengeable scientific theories subject to change as new data is produced. Teachers and students shall discuss the strengths and weaknesses of these theories openly, without fear of retribution or discrimination of any kind.

113. National Core Curriculum: We oppose the use of national or international standards in the State of Texas (i.e., International Baccalaureate, Common Core, TEKS Resource System (formerly CSCOPE), United Nations Inclusion, National Sexuality Education Standards, and SIECUS, etc.) We also oppose the modification of college entrance exams to reflect any national core philosophies. Any school district that violates state law banning the use of a national core curriculum or standards shall lose all state funding until said curricula or standards are removed and no longer utilized in classrooms.

AMERICAN OVERSIGHT

114. Bilingual Education: We encourage non-English-speaking students to transition, via best practices, to English within two years, allowing them to quickly assimilate and succeed in American society.

115. Oversight of Instructional Materials: All instructional materials paid for with state funds should be vetted by the elected State Board of Education, and we oppose appropriation of state funds for instructional content that has not been approved by the SBOE. This approval process must continue to include public review, hearings, and the right to have factual errors corrected. We call on local districts to hold public hearings before deciding which instructional materials they will use including supplemental materials and programs. We call for the repeal of the big tech corporate welfare bill (Senate Bill 6, 82nd Legislature, 1st Called Session), which created a loophole around SBOE approval allowing progressive propaganda and Common Core-based materials into the classroom.

116. Education on Humanity of the Preborn Child: Texas students should learn about the Humanity of the Preborn Child, including life-affirming definitions of life and the study of life, life begins at fertilization, milestones of fetal development at two-week gestational intervals, use of fetal baby models, witnessing of a live ultrasound, viewing the *Miracle of Life* type video, and (for high school students) the contents of the Woman's Right to Know booklet.

(Governance)

117. Abolish Department of Education: Since education is not an enumerated power of the federal government, we believe the Department of Education should be abolished, and the transfer of any of its functions to any other federal agency should be prohibited.

118. Elected SBOE: We believe that the SBOE should continue to be an elected body consisting of fifteen members. Their responsibilities must include:

a. Appointing the Commissioner of Education.
b. Maintaining constitutional authority over the Permanent School Fund.
c. Maintaining sole authority over all curricula content.
d. The state adoption of all educational materials. This process must include public hearings.
e. Granting, revoking, or amending open enrollment school charters.
f. Teacher and administrator certification. We call for the abolition of the State Board for Educator Certification.

The SBOE should be staffed out of general revenue.

119. School Security: We support passage of a statute, which permits local law enforcement to provide handgun safety and proficiency training for all educators, and allows LTC (License to Carry) holders to carry a concealed firearm on the premises of Pre-K-12 schools for security and protection purposes.

120. School Safety: We call for the repeal or revision of Senate Bill 393 (2013). We call for mandatory reporting to law enforcement of school children who have committed violent acts on school property.

121. School Boards: We believe locally-elected school boards have a duty to ensure that the education provided reflects traditional Texas values and have purview over policy, curriculum, and budget. We oppose micromanagement guidelines, trainings, and governance policies that empower appointed superintendents at the expense of elected school boards. We believe university regents should also play an active role in the governance of their institutions and should not rubberstamp what university chancellors and presidents propose.

122. Withdraw from Taxpayer-Funded Lobby Groups Like TASB: Local independent school districts

AMERICAN OVERSIGHT

should sever all ties with taxpayer funded lobby groups including the Texas Association of School Boards (TASB), the Texas Association of School Administrators (TASA), and the Texas Association of Community Schools (TACS). Required training now provided by groups like the above-named organizations would instead be under the auspices of the State Board of Education, with funds appropriated for that purpose.

123. Enforcement of Open Meetings: We support requiring audio or video recording of closed sessions and allowing taxpayers to seek limited civil penalties for school trustees who violate the Texas Open Meetings Act. We believe an open meetings violation should be an affirmative defense to a charge or disrupting a public meeting.

124. Gender Identity: The official position of the Texas schools shall be that there are only two genders: biological male and biological female. We oppose transgender normalizing curriculum and pronoun use. We hold that biological men shall compete against other biological men and biological women shall compete against other biological women in athletics in the public school system of Texas and at the collegiate level.

125. School Health Advisory Councils: Until the legislature removes sex education from the curriculum of public schools, the State of Texas should adopt changes to Texas Education Code 28.004 to:

a. Require every member of the School Health Advisory Council (SHAC) to be appointed by the Board of Trustees.
b. Require at least 50% of the SHAC to be parents of students within the district, who are not related to district employees.
c. Require at least 50% of the parent attendees to be present for business to be conducted and be open to the public.
d. Require every school district to post:
    i. SHAC meeting minutes.
    ii. Full and fair disclosure of the contents of the human sexuality instruction.
    iii. Proposed changes to health education.
e. Close loopholes in order to prohibit contraception distribution and demonstration.
f. Expand the grievance process to cover the entire section of Texas Education Code 28.004.

126. Foreign Charter Schools: Charter schools should have accountability and transparency to local parents, taxpayers, and the State of Texas, as do current public schools. We oppose public funding of charter schools that receive money from foreign entities. We urge the Texas Legislature to enact legislation that requires charter school operators and board members to be eligible Texas voters.

(Higher Education)

127. College Tuition and Student Loan Reform: College costs are out-of-control, and reform is urgently required, including the following:

a. We call for reasonable limits on public university tuition and student loan borrowing commensurate with fiscal responsibility and current earnings in the student's field of education
b. We oppose mass cancellation of student loan obligations but support tax credits and interest rate reductions to ease the burden on students deeply in debt.
c. We support requiring universities to share the risk of guaranteeing student loans, and universities with multi-billion dollar endowments should guarantee their own student loans.
d. We oppose in-state tuition and financial aid for illegal aliens.

AMERICAN OVERSIGHT

e. We oppose Robin Hood schemes that raise tuition for some students to give to others.

128. Fund and Support Western Civilization Instruction, Defund Political Correctness:

a. Like Hillsdale College, we agree that state universities "should value the merit of each unique individual, rather than succumbing to the discriminatory trend of so-called social justice and multicultural diversity, which judges individuals not as individuals, but as members of a group which pits one group against other competing groups in divisive power struggles."
b. We oppose any state formula funding or graduation requirements for divisive curricula inconsistent with the above, including Marxist, anti-American, Critical Race Theory, multiculturalism, or diversity-equity-inclusion courses.
c. We oppose using public funds for homosexuality, transgender, or diversity-equity-inclusion centers.
d. Public universities should be required to create a comprehensive program of instruction in Western Civilization, American Institutions, and free-market liberty principles, with centers and funding dedicated to that task.
e. Public universities should be required to comply with the above before tuition or state appropriations are increased.

129. Campus Speech: We urge the Texas Legislature to recognize the rights of those on college campuses to practice their faith and their right to free speech. We support withdrawal of public funding from any college or university within this state that actively or passively discriminates or permits discrimination against the free speech of either students or guest speakers. Student groups shall have the unfettered right to elect their leaders, choose their members, and set their organization's mission, purpose, and standard of conduct.

130. Tenure: We support abolishing the system of tenure in academia and advocate replacing it with a merit-based system for teacher retention.

131. Equal Access: All Texas students shall have equal access to all state-supported university admissions, grants, scholarships, and loans, based upon measurable academic criteria. We support the suspension of federal funding from universities that prohibit military recruitment on campus. We support allowing homeschool and private school students to compete as individuals in UIL academic competitions and be eligible for associated scholarships.

132. Medical Students' Religious Liberty: All persons have the right of conscience and should be protected under Texas law if they conscientiously object to participate in practices that conflict with their moral or religious beliefs. This includes, but is not limited to, abortion, including any requirement for a medical resident or physician to perform an elective abortion on an Opt Out basis instead of an Opt In basis, the prescription for and dispensing of drugs with abortifacient potential, human cloning, embryonic stem cell research, eugenic screenings, genetic engineering, euthanasia, assisted suicide, harmful futile procedures, vaccines, and the withdrawal of nutrition and hydration.

AMERICAN OVERSIGHT

Health and Human Services

(Mental Health)

133. Caring for Citizens who Are Mentally Disabled: We urge the Legislature to continue funding and operating all state-supported living centers for mentally disabled legal Texas residents, and to continually seek common sense improvements to increase efficiency.

134. Mental Health: We support parents' right to choose or reject, with prior written informed consent and without penalty, each medication and mental health assessment or survey administered to their children.

(Government-funded Health Programs)

135. Parental Safeguard: We support abolishing the Texas Child Mental Health Care Consortium, the trauma-informed care policy, school-based mental health providers, school-based or school-connected mental health interventions, and other public school programs that serve to expand access to minor. Legislators shall prohibit all reproductive healthcare services in public schools.

136. Welfare Reform: We support the abolition of all federal welfare programs, as they are not an appropriate role of the federal government. Until such time, welfare reform should encourage partnerships with faith-based institutions, community, and business organizations to assist individuals in need. We encourage welfare reform in the following areas:

a. Denying benefits to individuals who cannot prove citizenship.
b. Reforming welfare programs to require recipients to work, learn, and train to move toward self-sufficiency.
c. Reforming welfare programs to require recipients to remain substance-abuse free in exchange for temporary benefits not exceeding two years.
d. Requiring all welfare recipients to submit to random drug testing in order to receive benefits.
e. Requiring that money provided through the Supplemental Nutrition Assistance Program (SNAP) be used only for nutritious foods consistent with those included under the WIC program, and be released only with a photo ID of the approved user.
f. Implementing a non-monetary-based assistance program for providing supplemental food benefits.
g. Removing prisoners from welfare rolls.

137. Child Support Related to Welfare: Mothers applying for government financial support, exempting rape victims, should provide the verifiable name and any known contact information of the birth father, which information shall be turned over to the State of Texas Attorney General's Office within 30 days for collection of child support.

138. Oversight of Disability Claims: We call for stronger and more stringent reviews of disability claims to ensure that assistance is provided only to those truly in need.

139. Medicaid Reform: We support Medicaid block grants to the states and returning Medicaid to its original purpose to be a temporary assistance program. We oppose any further expansion of Medicaid.

140. Medicare Reform: Medicare should have a non-penalized opt-out for those who have health insurance through their employer and continue to work.

141. Patient Protection and Affordable Care Act ("Obamacare"): We demand the immediate repeal of the Patient Protection and Affordable Care Act, which we believe to be unconstitutional.

AMERICAN OVERSIGHT

142. Home and Community-Based Services: We call on the Texas Legislature to support Home and Community-Based Services (HCBS) as a pro-life alternative, and as an alternative for children and adults with disabilities.

(Homosexuality and Gender Issues)

143. Homosexuality: Homosexuality is an abnormal lifestyle choice. We believe there should be no granting of special legal entitlements or creation of special status for homosexual behavior, regardless of state of origin, and we oppose any criminal or civil penalties against those who oppose homosexuality out of faith, conviction, or belief in traditional values. No one should be granted special legal status based on their LGBTQ+ identification.

144. Gender Identity: We oppose all efforts to validate transgender identity. For the purpose of attempting to affirm a person age 21 or under if their perception is inconsistent with their biological sex, no medical practitioner or provider may engage in the following practices:

a. Intervene in any way to prevent natural progression of puberty.
b. Administer or provide opposite sex hormones.
c. Perform any surgery on healthy body parts of the underage person.

145. No Taxpayer Funding for Sex Change: We oppose the use of taxpayer funds for any type of medical gender dysphoria treatments or sex change operations and/or treatments. This includes but is not limited to military personnel as well as inmates in federal, state, or local prisons or jails. Inmates must be housed according to their biological sex. No Federal, state, insurance, or probate monies may be allocated for the use of such treatment.

146. Counseling Methods: Therapists, psychologists, and counselors licensed with the State of Texas shall not be forbidden or penalized by any licensing board for practicing Reintegrative Therapy or other counseling methods when counseling clients of any age with gender dysphoria or unwanted same-sex attraction.

(Substance Abuse & Addiction)

147. Addiction: We oppose legalization and decriminalization of illicit natural and/or illegal synthetic drugs, and we support the exercise of a zero-tolerance policy with maximum penalty for illegal drug manufacturers and distributors. We also oppose any needle exchange programs. Faith-based rehabilitation programs should be considered as a part of an overall rehabilitation program.

148. Cannabis Classification: Congress should remove cannabis from the list of Schedule 1 and move to Schedule 2.

149. Pornography Crisis: The State of Texas shall recognize that pornography is a public health-hazard.

150. Ban on Exposing Minors to Pornography Online: We call upon our elected leaders to compel any websites displaying pornographic content in Texas to implement age verification for preventing minors from accessing the content, and to block or punish any such websites that continue to make such material available to minors.

151. Pornography Crisis: The State of Texas shall recognize that pornography and pedophilia are public health hazards.

AMERICAN OVERSIGHT

(Healthcare Independence)

152. Medical Freedom: We call for an addition to the Texas Bill of Rights that explicitly states that Texans have the natural, inalienable right to refuse vaccination or other medical treatment. Therefore, the following are expressly forbidden even in an emergency or in a pandemic:

a. Since informed consent is a basic human right, any attempt to mandate, force, or coerce any medical test, procedure, or product, including vaccines or masks.
b. Our personal healthcare decisions are private; any attempt to use a citizen's perceived health, infection recovery, or vaccination status as a condition to maintain or obtain housing or employment or employee benefits, attend school or childcare, or access state services.
c. Any school, public or private, or any health care provider withholding from a parent or legal guardian information that is relevant to the physical or mental health of the minor, to include information related to a minor's perception that his or her gender or sex Is inconsistent with his or her biological sex.
d. Any mandates by public, private, government, or medical entities for treatment, vaccination, vaccine passports, mask requirements, health insurance surcharges, or use of controlled substances of any kind.
e. Any involuntary isolation or quarantine of anyone not experiencing an active contagious infection.
f. Any withholding of the risks and benefits of a proposed intervention, including quantifiable adverse effects, that must be equally communicated and accessible to the patient or to a minor patient’s parents or guardian.
g. Any prevention of visitation to the ill when risks are acknowledged and mitigated according to patient and visitor choice.
h. Any Nuremberg Code violations—including but not limited to the requirement that use of experimental use medications must provide full knowledgeable consent and be free from any form of coercion or inducement.
i. Any tracing of individuals by cell phones or another means for any reason without an individual court issued warrant. We ask that the Contact Tracing Program, Workforce and Center Programs agreement be rescinded.
j. Any requirement that a nurse practitioner can only provide healthcare to Texans under a delegation agreement with a physician in the State of Texas.
k. Any holding of an individual against their will (or that of their parent or guardian) in a hospital or residential care facility, or preventing an individual from changing their healthcare provider.

153. Texas Medical Practice Act: To protect the rights of both patients and physicians, the Texas Medical Board (TMB) should adopt the following provisions in the Texas Medical Practice Act:

a. Protect the right of patients to choose natural solutions, including chiropractic care, to their health problems, as well as the physician’s right to provide natural solutions for health problems.
b. Protect physicians from interference from the TMB or the Texas State Board of Pharmacy in the physician’s treatment plans or prescriptions.
c. Eliminate confidential complaints against physicians.
d. Eliminate anonymous medical witnesses against physicians.
e. Mandate legal due process in all TMB proceedings.
f. Allow physicians the right to have a complaint against them tried in a state district court, rather than in an administrative law court.
g. Prohibit TMB members from working for insurance, pharmaceutical companies, or hospitals while serving on the board, to prevent conflict of interest.
h. Prohibit intimidation tactics by TMB lawyers against physicians.

AMERICAN OVERSIGHT

154. Medication Manufacturing: Medications and prescription drugs consumed in the US should be manufactured in the US for security, consistency, and reliability of the drug. We strongly encourage our state to promote private entities to initiate and sustain the buildup of the supply chain and manufacturing of the medical and health products in this state to help reduce the costs and increase the availability of medical products to its constituents.

155. Labels on Medications: The labels on all prescription and over-the-counter drugs, supplements, and medical supplies must be required to show the country where manufactured or produced.

156. Medical Records and Informed Consent: We oppose any state or federal medical record computer database that stores personal identifiable records on citizens without their written consent.

157. Right to Try: We urge the Texas State Legislature and Governor to enact laws that protect patient's and their doctor's rights to have access to experimental or off-label medications and procedures that can potentially be lifesaving or improve quality of life without the Medical Board, Pharmacy Board, or Hospital Boards Interfering.

158. Healthcare Savings Accounts: All individuals should be allowed to establish health savings accounts. Individuals should be allowed higher annual contributions to health savings accounts.

159. Texas HSA: We recommend the creation of the State of Texas Health Savings Account, with funds in excess of those needed in the Rainy Day Fund, with the purpose of enabling the state to develop reserves sufficient to exit the federal Medicaid program, which will not expire nor be utilized for any other purpose.

(Environmental Health)

160. Toxic Exposure: We support the immediate implementation of the Toxic Exposure Research Act of 2015, which will ensure that the federal government will establish a database on all exposed veterans and their families.

(Parental Rights)

161. Parental Rights and Responsibilities: We support the fundamental constitutional rights of parents to raise and educate their children, including their rights to direct the care, custody, control, upbringing, moral and religious training, and medical care of their children. Local, state, or federal laws, regulations, or policies that limit parental rights in the rearing of both biological and adopted children shall not be enacted. Parents have the God-given right and responsibility to direct and guide their children's care and moral upbringing.

162. Parental Rights of Dependent Adult Children: As long as parents are responsible for an adult child, through college or the age of 26 when children are on the parents' insurance, the parents must have access to medical information, grades, and other information normally afforded to parents of minor children.

163. Parental Consent: We insist on informed parental consent for all medical care, counseling, etc., for all minors.

AMERICAN OVERSIGHT

(Life-Affirming Health Care Concepts)

164. Conscience Clause: All persons and legal entities have the right of conscience and should be protected under Texas law if they conscientiously object to participate in practices that conflict with their moral or religious beliefs. This includes, but is not limited to, abortion, the prescription for and dispensing of drugs with abortifacient potential, human cloning, embryonic stem cell research, eugenic screenings, genetic engineering, euthanasia, assisted suicide, harmful futile procedures, vaccines, and the withdrawal of nutrition and hydration. We call on the Texas Legislature to enact additional conscience protections for all healthcare professionals, including medical students, that are all-encompassing, enforceable at the state level, and protect against adverse action and retaliation taken against an individual.

165. Fetal Tissue Harvesting and Stem Cell Research: We support legislation prohibiting and criminalizing the harvesting, sale, and experimentation or commercial use of human fetal tissue, including for vaccines, which requires or is dependent upon the destruction of human life. We encourage adult stem cell research using cells from umbilical cords, from adults, and from any other means that does not kill human embryos. We also support elimination of public funding for embryonic stem cell research, research on fetal tissue, or human cloning. All products that use embryonic and fetal tissue in their production shall be labeled in the State of Texas to inform consumers, promote alternatives, and affirm the value of human life.

166. Alternatives to Abortion: We urge the Republican Party of Texas to support programs that provide assistance to pregnant women by:

a. Protecting and increasing funding to Alternatives to Abortion Program.
b. Ensuring women have medical insurance coverage up to one year postpartum, making it safer for pregnant women to give birth in Texas.
c. Safeguarding pregnant and parenting college students from discrimination, ensuring access to educational opportunities, benefits, accommodations, and support services.
d. Utilizing a reformed adoption process.

167. Discriminatory Abortion: We support legislation such as the Preborn Non-Discrimination Act (Pre-NDA) to close existing discriminatory loopholes that fail to protect preborn children suspected of having a "fetal anomaly" or disability, and we support legislation to enact anti-discriminatory language to apply additional protections to preborn children at risk of being aborted because of their sex, race, disability, or age of gestation, in addition to providing families with information about life-affirming social and medical services available to them in Texas, such as perinatal palliative care.

168. Planned Parenthood: We support completely eliminating complete elimination of public funding for, or contracts with, Planned Parenthood and any other abortion providers and all their affiliates. We oppose their digital or physical presence in our schools and other public institutions, as well as the expansion of their facilities in our neighborhoods. We call for a state law prohibiting governmental contracts with abortion providers and their affiliates.

169. Human Embryos: We support the adoption of human embryos and the banning of human embryo trafficking.

170. End-of-Life Patient Protection: We support patients' rights, especially near the end of life, and call for reform of existing legislation so that:

1. Medical personnel may not deny care, change advanced directives, or originate directives for any patient without the informed consent of the patient or the patient's designate.

AMERICAN OVERSIGHT

2. The Advance Directives Act is strengthened by requiring hospitals intending or threatening to withdraw life-sustaining treatment against the patient's wishes or their advance directive to continue all treatment and care for such patients pending transfer to another facility.
3. The discriminatory rationing of healthcare services premised on any aspect of the patient, including a patient's age, race, sex, disability, or perceived quality of life is prohibited.

171. Repeal the Anti-Life 10-Day Rule: We support the pro-life priority as a legislative priority, and include therein a call for the Texas Legislature to repeal the unethical, unconstitutional, unprecedented, and anti-life 10-Day Law in Section 166.046, Health and Safety Code (Texas Advance Directives Act) and replace it with a truly life-affirming law that requires physicians to adhere to a patient's or surrogate's medical decision about life-sustaining treatment and provides for physicians who disagree with the patient's decision to transfer the patient to another physician or facility that will honor the decision to continue life-sustaining treatment; such a law will guarantee due process and the right to life for vulnerable Texas patients.

Criminal and Civil Justice

(Family Law)

172. Equal Parenting: We support legislation providing for equal and consistent parenting (possession and access) for every child, when both parents are fit, willing, and able, as it is in the best interest of the child.

173. Child Protective Services: We support reforming or replacing Child Protective Services, and we ask for any legislation that would support due process in family court proceedings, oversight of the system, and a jury determining the outcome of any case, if requested by either party.

(Law Enforcement)

174. Abortion Homicide Exemption: The physician homicide exemption of the Texas Penal Code Section 19.06 should be modified to apply only to nonelective abortions such as required to save the life of the mother.

175. Capital Punishment: Properly applied capital punishment is legitimate and should be reasonably swift, while respecting all due process.

176. Police, Firefighters, and Other First Responders Appreciation: We express our gratitude and appreciation for police officers, firefighters, and other first responders. We support them in the exercise of their duties. To that end, we support proper funding for robust training programs that provide them with intensive and comprehensive physical and academic training in the classroom and on the ground. We also support funding of proper mental health care and encouragement for officers.

177. Mental Health Support Backup: We support trained mental health personnel backup being provided to peace officers at all hours, day and night, in order to serve the public.

178. Protection from Arbitrary Stops: The Texas Legislature is to enact legislation to protect Texans from arbitrary stops, detentions, or arrests for only openly carrying a firearm.

179. No-Knock Raids: We call upon the Texas Legislature to improve no-knock warrant procedures to protect law enforcement and the community.

AMERICAN OVERSIGHT
NM-OTERO-22-0605-A-002417

180. Oppose Riots: We oppose riots, vandalism, and looting and condemn such conduct. We advocate that each and every said criminal act be dealt with immediate arrest, imprisonment, and prosecution, to the fullest extent of the law and that those who have been found guilty of causing injury or the destruction of property be held financially responsible for restitution including the withholding of any state provided benefits/entitlements if applicable.

181. Political Policing: We believe that laws should be enforced uniformly, that punishment should meet the crime, and that law enforcement should never be used to target individuals for political purposes. We oppose the targeting of police officers by progressive district attorneys. We support automatic and prompt expunction of law enforcement officials' records who are found not guilty in a court of law regarding job-related actions.

(Courts, Prosecutions, Restitution)

182. Court Accountability: We support the right to inform the jurors of their common law power to judge law (jury nullification) as well as the evidence, and to vote on the verdict according to their conscience. Article 3, Section 2 of the Constitution defines the role of judges. We support Congress limiting the powers of the US Federal Court by invoking Article 3, Section 2, and Clause 2, by 'legislating Exceptions, and creating Regulations' to limit the cases for which the US Federal Court have jurisdiction. We believe district attorneys have a duty to seek justice for victims of all forms of crime and oppose policies that systematically decline to prosecute crimes.

183. Frivolous Lawsuits: We support further reform to discourage frivolous lawsuits. We oppose the abusive use of class action lawsuits and any law which allows government agencies to collect lawyer fees from the plaintiff when they win but not have to pay the plaintiff fees when they lose.

184. Bail Reform: We call upon the Texas Legislature to ensure bail in Texas is based only on a person's danger to society, risk of flight, and criminal history.

185. Victims of Human Trafficking: We call upon the Texas Legislature to amend the Code of Criminal Procedure to allow victims of human trafficking to have convictions within the previous five years for prostitution offenses set aside, if they received these convictions as a direct result of being trafficked.

186. Human Trafficking Jurisdiction: The Texas Legislature should pass legislation granting the Texas Attorney General full concurrent jurisdiction over multi-jurisdictional cases, to be limited specifically to those cases involving human trafficking.

187. Rule of Law Enforcement: We support rule of law and enforcement of laws which maintain an ordered republic. We call for independent prosecutorial authority to prosecute crimes that maintain order (such as sedition, riot, official oppression, election integrity, etc.) to be delegated to a statewide officer such as the Attorney General. We oppose the December 2021 opinion of the Court of Criminal Appeals in *State v. Stephens*, which was judicial activism, and encourage the Court to reconsider this ill-advised opinion. We call on the Legislature to ensure that election crimes will be promptly prosecuted, even in counties with progressive district attorneys.

(Rights and Protections)

188. Obscenity Exemption: We urge repeal of the Texas Penal Code "Obscenity Exemption" [43.24(c)], which allows children access to harmful, explicit, or pornographic materials under the guise of education

AMERICAN OVERSIGHT

materials. The State of Texas should repeal all Texas laws based on the fraudulent research by Dr. Alfred Kinsey.

189. Civil Asset Forfeiture: We call upon the Texas Legislature to abolish civil asset forfeiture, independently or in partnership with federal authorities, and to ensure that private property only be forfeited upon a criminal conviction.

190. Government Surveillance: We oppose all forms of warrantless government surveillance of United States citizens and businesses.

191. Location and Data Privacy: We call upon the Texas Legislature to protect citizens' current and historic technologically available location data by requiring a warrant based on probable cause or a legally obtained subpoena.

192. Hate Crimes: We urge the complete repeal of the hate crime laws, since ample laws are currently in effect to punish criminal behavior towards other persons.

193. Marriage Officiation: We believe religious institutions have the freedom to recognize and perform only those marriages that are consistent with their doctrine.

194. Raise the Age: We call upon the Legislature to raise the age of criminal responsibility from 17 to 18 years.

195. Warrant Validity: The filers of search warrants should be held responsible for the validity of the information used to obtain the warrants.

196. Pandemic Business Fines: We support prohibiting fines or imprisonment of business owners for operating their business during pandemics and calls for the legislature to pass these protections into law.

197. Fraudulent Lien Filings: We support legislation designed to reduce fraud by requiring that the identity of the debtor on all liens be confirmed prior to filing by at least three methods, including but not necessarily limited to state ID, county records, and personal contact.

State Affairs Section

(Heritage Preservation)

198. Alamo: The Alamo is a historical event to Texas and as such:

a. Should be remembered and not “reimagined.”
b. Texas’s authority regarding the Alamo shall not be infringed upon by any organization or authority, including but not limited to local governments, the federal government, the United Nations, or UNESCO.
c. Decision-making authority for the Alamo must never be removed from Texas.
d. The custodians of the Alamo must be required to
    i. Affirm and emphasize the intrinsic significance of the 1836 battle in telling the story of the Alamo.
    ii. Maintain transparency in finances and operations of the Alamo.
e. Specific protection shall be afforded the site, including all land and existing monuments, including the Cenotaph, which SHALL NOT be moved from its present site.
f. We oppose any official action from a state-funded institution of higher education that

AMERICAN OVERSIGHT

disrespects the heroic actions that occurred during the Texas Revolution. We call for swift financial and personnel consequences for universities that cancel official Texas Independence Day celebrations or remove “Come and Take It” as an official slogan.

199. Heritage: We call upon governmental entities to protect all symbols of our American and Texan heritage and therefore:

a. We oppose governmental action to remove the public display of the Ten Commandments or other religious symbols.
b. We support the Pledge Protection Act. We urge that the national motto, “In God We Trust,” and the National Anthem be protected from legislative and judicial attack.
c. Penalties should be established for any form of desecration of the American or Texas Flag.
d. We support preservation of Texas history and historical sites.
e. Visitors to the Alamo should conduct themselves with decorum and reverence inside the shrine, out of respect for the sacrifice of the heroes who are honored there.
f. We call for restoration of plaques honoring the Confederate widows’ pension fund contribution, which were illegally removed from the Texas Supreme Court building.
g. We support March 2nd Texas Independence Day being an official state holiday.
h. We support all schools, state agencies, and public offices to celebrate and honor Constitution Day on September 17th of each year or the preceding Friday or following Monday closest thereto.

200. Historical Monuments: We believe that all historical war memorials, including Confederate monuments, in Texas shall be protected from future removal or defacement, and we believe that those monuments that have been removed should be restored to their historical locations. We support the continuing allocation of funds that are necessary to preserve the USS Texas as a permanent monument to the ship, her crew of two world wars, and the history of the State of Texas.

201. Honor Our Flags: We appreciate and honor our flags and what they represent, and we strongly advocate for all public schools to display the US and Texas flags in every classroom and to begin each school day with the pledges to both.

(Individual Rights and Freedoms)

202. Data Privacy: We demand that the Texas legislature protect data privacy by prohibiting the collection and selling of data and the enforcement of data privacy through private right of action. Schools should not consent to data collection of minors on behalf of parents. Schools should protect the confidentiality of students’ identifiable information and codify federal privacy law.

203. Location and Data Privacy: The Texas Legislature should be called upon to expand existing privacy laws and laws protecting identity theft by limiting the ways in which internet providers, schools, government entities both state and federal, and others may access, collect, store, and use the electronic communications, documents, META data and protected information of all Texans.

204. Religious Freedom for Business: We support the removal of laws and regulations that are used to force business owners and employees to violate their conscience, sincerely held beliefs, or core values. Property defining public accommodation as understood in the Civil Rights Act of 1964:

a. Prohibit any change to that legal definition by any federal, state, or local law to expand government control to restrict any First Amendment rights.

AMERICAN OVERSIGHT

b. Proscribe any law that requires any private business or individual to create or provide a custom product or service, or any kind of expressive work, or enter into a contract, or be coerced into any speech that is not their own.

205. Religious Freedom of Speech and Practice: As America is "one nation under God," founded on Judeo-Christian principles, we affirm the constitutional right of all individuals to worship as they choose. We strongly believe in Religious Freedom and Freedom of Speech. Therefore, we demand:

a. The repeal of the Johnson Amendment, which assaults the free speech of pastors and religious organizations.
b. Protection of the First Amendment rights of any citizen to practice their religion and exercise their right to free speech in the public square, as well as in religious organization affiliations.
c. That Texas judges and legislators uphold and defend our God-given unalienable rights of religious liberty and freedom of speech, and we oppose any effort to intimidate and prevent Christians and other people of faith from exercising these rights which the civil government is required, by the First Amendment, to protect.
d. Acknowledgement that the Church is a God-ordained institution with a sphere of authority separate from that of civil government, and thus the Church is not to be regulated, controlled, or taxed by any level of civil government. Nor shall services or other church functions ever again be shut down or suspended by over-reaching civil authorities under any pretext whatever.

206. Gender Identity: We support enacting legislation in the State of Texas ensuring that:

a. No government entity in the state shall be allowed to take it upon itself to define for any private business or private entity how it must segregate its restrooms, changing facilities, or showers.
b. Nor may any government agency be allowed to require businesses to profess, espouse, or adopt specific views on sex, sexuality, gender, or gender identity. We oppose any attempt to criminalize and/or penalize anyone for the wrong use of pronouns.
c. Government agencies must guarantee that views and positions on these matters are not used as a basis to deny access to public accommodations, as defined by the Civil Rights Act of 1964, nor to deny employment, or discriminate in employment decisions, solely on the basis of a person's views on these matters.
d. We recognize that gender identity disorder is a genuine and extremely rare mental health condition and that denial of an immutable gender binary not only denies those with the condition proper mental healthcare but also leads to physically and psychologically abusive "social transitioning" as well as irreversible physical mutilation. We urge the State Legislature to pass legislation that requires adherence to sex identifications on all official documents that will be based upon biological gender, as well as legislation enacting civil penalties and fiscal compensation awarded to de-transitioners who have received "gender affirming surgery" as compensation for malpractice.

(Family and Gender Issues)

207. Human Sexuality: We affirm God's biblical design for marriage and sexual behavior between one biological man and one biological woman, which has proven to be the foundation for all great nations in Western civilization. We oppose homosexual marriage, regardless of state of origin. We urge the Texas Legislature to pass religious liberty protections for individuals, businesses, and government officials who

AMERICAN OVERSIGHT

believe marriage is between one man and one woman. We oppose the granting of special legal entitlements or creation of special status for sexual behavior or identity, regardless of state of origin. We oppose any criminal or civil penalties against those who oppose non-traditional sexual behavior out of faith, conviction, or belief in traditional values.

208. Protect Minors Until Age of Consent: A law should be enacted to protect the rights of the individual until the age of consent is reached.

a. Prohibit sexual transition surgeries, hormonal blockers, social transitioning, or other treatments
b. Protect against predatory sexual behaviors, including but not limited to "Drag Queen Story Hour"
c. Remove immunities or protections from school districts and personnel which participate in the sexualization of our children
d. Require disclosure of the above offenses to parents or guardians

209. Definition of Marriage: We support the definition of marriage as a God-ordained, legal, and moral covenant only between one biological man and one biological woman.

210. State Authority over Marriage: We support withholding jurisdiction from the federal courts in cases involving family law, especially any changes in the definition of marriage.

211. Spousal Benefits: We shall not recognize or grant to any unmarried person the legal rights or status of a spouse, as defined in Principle #6 of the Platform, including granting benefits by political subdivisions.

212. No-Fault Divorce: We urge the Legislature to rescind unilateral no-fault divorce laws and support covenant marriage and to pass legislation extending the period of time in which a divorce may occur to six months after the date of filing for divorce.

213. Nullify Unconstitutional Ruling: We believe the Obergefell v. Hodges decision, overturning the Texas law prohibiting same-sex marriage in Texas, has no basis in the Constitution and should be nullified.

214. Adoption: We encourage the Texas Legislature to remove as many barriers to adoption as possible and make the process less intrusive while protecting children's safety and best interests. We urge the Texas Legislature to adopt the following steps to promote adoption:

a. Expand Community Based Care—increase partnerships with local private and nonprofit charitable organizations to create a safer and more responsive system.
b. Require a Guilty Verdict Before Placing Individuals in the Central Registry—currently an unsubstantiated accusation of abuse or neglect can lead to Texans being listed in a government database and cause them to lose jobs and other penalties without ever being found guilty by a court. In some cases, even those found innocent remain listed on the database. No Texan should be deprived of liberty or their right to earn a living without a fair hearing.
c. Expand Service Options—improve care for families of children at risk of entering foster care by providing more choice and flexibility for family preservation services outside of the current state contracted services.
d. End hidden Foster Care—many families are threatened and coerced into giving up custody of their child without ever going to court. Texas should protect parents' rights and end coercive agreements by limiting CPS's ability to separate families without court oversight.
e. Repeal anonymous reporting—False reporting of families to CPS can lead to great harm and a large waste of resources. False reporting can be prevented while increasing the accuracy of reports to CPS by eliminating the option of anonymous reporting in favor of confidentiality. Professionals who must report suspicious activity should be trained on

AMERICAN OVERSIGHT

alternatives to filing a CPS report and permitted to refer struggling families to community service providers.

We urge communities and people of faith to promote adoption and for those not called to adopt themselves to offer assistance to families that can. We believe that, in the best interests of the family and child, the State of Texas should allow children to be adopted only by married or single heterosexuals.

215. Child Rights: We call on the Texas Legislature to pass legislation to protect privacy in public schools and government buildings as allowed by Title IX of the Education Amendments of 1972, by ensuring that multi-use facilities, including showers, changing rooms, and bathrooms, are designated for and used only by persons based on the person's biological sex.

(Pro-Life Issues)

216. Pro-Life: Until the abolition of abortion is achieved, we support laws that restrict and regulate abortion including, but not limited to:

a. Parental and informed consent, including the elimination of judicial bypass.
b. Prohibition of licensing, liability, and malpractice insurance for abortionists and abortion facilities.
c. Prohibition of financial kickbacks for abortion referrals.
d. Prohibition of late-term abortions.
e. Prohibition of abortions after the time an unborn child's heartbeat is detected.
f. Prohibition of the manufacturing and sale of abortifacients.
g. Elimination of causes of action for "wrongful birth."
h. Health insurance coverage for abortion services and abortifacients, which under Texas law should be considered supplemental coverage and billed to the beneficiary.
i. Criminal penalties be attached to any entity, excluding the mother, convicted of conducting an illegal abortion or selling body parts of aborted children.
j. Extend the private cause of action used in the Texas Heartbeat Act to all pro-life laws and policies in Texas.

217. Abolish Abortion: Since life begins at fertilization, we urge the Texas Legislature to abolish abortion through enacting legislation that would immediately secure the rights to life and would nullify any and all federal statutes, regulations, orders, and court rulings that would deny these rights.

218. Inviolability of Life and Fundamental Right to Life: All innocent human life must be respected and safeguarded from fertilization to natural death; therefore, the unborn, the aged, and the physically or mentally challenged have a fundamental individual right to life, which cannot be infringed. We respect the uniqueness of human life and oppose practices which corrupt human DNA, mix human and animal DNA, or other trans-humanist initiatives that do not respect the sanctity and uniqueness of human life. All humans are endowed by their creator with sovereign rights of ownership of their person and DNA, regardless of any DNA modification, and claims to the contrary are invalid.

(Land Use)

219. Property Annexation: Homeowners and landowners in an area proposed for annexation should have the right to vote to approve or reject the annexation, regardless of the population of the county. No annexation can occur within 45 days of any election.

220. HOA Governance: We support legislation prohibiting HOAs from using "policies" to bypass the

AMERICAN OVERSIGHT

process of residents' voting on changes in deed restrictions. We urge the Texas Legislature to enact legislation allowing a simple majority of property owners within and subject to a homeowners' association to dissolve the association. The Texas Legislature should enact legislation to restrict developers from controlling the Homeowners Association more than 5 years and expanding the properties included beyond contiguous property. We also call upon the Texas Legislature to amend the language of that section of the Open Meetings Act that applies to HOAs to clearly require that every HOA that charges fees to residents be required to comply with every aspect the Texas Open Meetings Act. We oppose HOAs' limiting freedom of speech and assembly imposed on master-planned community homeowners.

221. Property Rights: Property ownership and free enterprise, the foundation of our collective wealth, must not be abridged nor denied by government. We support legislation to protect these bedrock rights. Areas of concern are: annexation, eminent domain (including foreign entities), property forfeiture, extraterritorial jurisdiction, seizure for public or private development, natural resources and conservation easements, groundwater and/or mineral rights, nationalization of lands, and the preservation of our Fourth Amendment right to privacy. Property owners should be notified of their rights with regard to condemnation, annexation, or easement, and the condemner should be required to petition a court of jurisdiction to show public necessity. Taking of property should result in immediate compensation of fair market value to the owner. These issues should be administered by elected officials accountable to voters.

222. Eminent Domain: The use of eminent domain must exclude the seizure of private property for private economic development or increased tax revenue.

(State Governance)

223. Campaign Contribution Limits: We urge immediate repeal of all limits on campaign contributions by American citizens to the candidates or causes of their choice.

224. Texas Independence: We urge the Texas Legislature to pass bill in its next session requiring a referendum in the 2023 general election for the people of Texas to determine whether or not the State of Texas should reassert its status as an independent nation.

225. Prosecution of Election Fraud: We urge the passage of a constitutional amendment that gives the Texas Attorney General concurrent jurisdiction to prosecute election fraud along with the county District Attorneys.

226. Marijuana Remains Illegal: Oppose the legalization of recreational marijuana and offer opportunities for drug treatment before penalties for its illegal possession, use, or distribution.

227. Gun Free Zone in Texas: There shall be no gun free zones in Texas.

Government and Election Integrity

(Government Operations)

228. Sexual Harassment: We believe sexual harassment should not be tolerated. Elected and appointed officials should be held to a higher standard.

229. Government Authority: We believe any government authority that has the ability to levy a tax, fee, or

AMERICAN OVERSIGHT

appraise property on the people should be accountable to those who pay the taxes via the electoral process, from the local level to the federal level.

230. Federal Land in Texas: All federal land should be turned over to its respective state, except for land specifically authorized in the Constitution (military bases, federal buildings, post offices).

231. Tax-Funded Lobbying: We oppose using tax dollars to hire lobbyists or paying tax dollars to associations that lobby the Legislature.

232. Texas Speaker of the House, House Committees and Legislative Quorum:

a. We oppose the use of pledge cards and call for the Republican members to caucus after each November general election to determine, by secure secret ballot, their candidate for Speaker and Speaker Pro-Tempore. We also call for the Republican members to vote as a unified body for their selected Speaker candidate when the Legislature convenes in regular session.
b. Texas House standing committees should advance the conservative grassroots agenda, not that of special interests and lobbyists. The chairman and a majority of members of key committees should support the conservative agenda. Standing Committees should be chaired by the political party in majority.
c. Any legislator who purposely refuses to attend a legally scheduled session for the purpose of denying a quorum shall LOSE any chairmanship, vice-chairmanship, and committee membership to which he/she may have been appointed. Additionally, the individual shall lose any salary for that absence period. Additionally, the individual shall pay back any earnings and cost of living allowances earned during that period.

233. Caucus Priorities: We urge the Texas Senate Republican Caucus and the Texas House Republican Caucus to adopt and publish a list of legislative priorities before convening each regular session of the legislature.

234. Sixty-day Rule: We recommend that the Legislature pass legislation to remove the constitutional provision that the House cannot take action until 60 days after convening.

235. House Calendars Committee: We call for changes to the House Rules that require the House Calendars Committee to vote on a bill within 14 days of receipt, or it is automatically put on the calendar. We also support automatic setting of a bill on the calendar within seven days if it is cosponsored by three-fifths of House members. We call for votes on each bill individually that is not set on the calendar, rather than killing a slate of bills at once.

236. Unelected Bureaucrats: We oppose the appointment of unelected bureaucrats, and we support defunding and abolishing the departments or agencies of the Internal Revenue Service (IRS); Education; Energy; Housing and Urban Development (HUD); Commerce; Health and Human Services (HHS); Labor; Interior (specifically, the Bureau of Land Management); Transportation Security Administration (TSA); Alcohol, Tobacco, Firearms and Explosives (ATF); National Labor Relations Board; Food and Drug Administration (FDA); Centers for Disease Control (CDC); Federal Deposit Insurance Corporation (FDIC); Occupational Safety and Health Administration (OSHA); and any other federal agency or department that is not authorized by the Constitution. In the interim, executive decisions by departments or agencies must be reviewed and approved by Congress before taking effect.

237. Sunset Commission: We support a majority citizen-led Sunset Commission.

AMERICAN OVERSIGHT

(Elections)

238. Bond Elections: State and local bond election ballots should be required to include the amount of debt currently outstanding, current debt service payments, current per capita debt obligations, the amount of new debt being proposed, estimated debt service for the new debt, and estimated per capita burden being proposed. The bond issue must obtain a 2/3 affirmative vote of at least 20 percent of registered voters in the voting jurisdiction. No public funds are to be spent influencing a bond election. We oppose bundling of items on bond election ballots and "rolling polling" for bond and tax rate increase elections.

239. Pay-to-Play Endorsement Slates: We oppose "pay-to-play" endorsement slates and urge Republican primary voters to exercise extreme caution regarding any endorsement or statement made in these slates. Slates shall include notice of the amount that was paid for advertising by the individual candidates so that voters can see that endorsements might be contingent on purchase of advertisement.

240. In-Person Election Voting: In-person voting should be conducted as a single period of time of no more than three days with no time gap between the first day of Early Voting and Election Day.

241. Fair Elections Procedures: We support the right of eligible voters to cast a ballot in each election once, but we oppose illegal voting, illegal assistance, or ineligible persons. We support:

a. Vigorous enforcement of all our election laws as written and oppose any laws, lawsuits, and judicial decisions that make voter fraud very difficult to deter, detect, or prosecute.
b. Voter Photo ID.
c. Prohibition of internet voting for public office and any ballot measure.
d. That mail-in ballots must be requested and only granted to those that cannot physically appear in-person.
e. Increased scrutiny and security in balloting by mail to including removal of Section 87.014 (d-1) of the Texas Election code to require once again full signature verification with the need to rebut regardless of whether paper identification numbers are on the application and ballot carrier envelope.
f. Felony status for willful violations of the election code and increasing penalty for voter fraud from a misdemeanor back to a felony.
g. The constitutional authority of state legislatures to regulate voting, including disenfranchisement of convicted felons.
h. Changes to the appropriate sections of Texas law that would deny or cancel homestead exemptions, driver licenses, and License to Carry, if the addresses on those documents DO NOT match the address on the voter's registration
i. Consolidating elections to primary, run-off, special called, and General Election days and locations
j. Sequentially numbered and signed ballots to deter counterfeiting.
k. Expanding the Attorney General's staff for investigating election crimes and restoring the ability of the Attorney General to prosecute any election crimes.
l. The ability for civil lawsuits to be filed for election fraud or failure of officials to follow the election code.
m. Allowing trained Poll Watchers from anywhere in Texas with local Party or Candidate approval.
n. Creating processes that will allow rapid adjudication of election law violation disputes as they occur and before violations can be successfully perpetrated.
o. Withdrawing from Electronic Registration Information Center (ERIC).

242. Voter Registration: We support restoring integrity to the voter registration rolls and reducing voter

AMERICAN OVERSIGHT

fraud by:

a. repealing all motor voter laws.
b. requiring voters to re-register, if they have not voted in a five-year period.
c. requiring photo ID of all registrants.
d. requiring proof of residency and citizenship along with the voter registration application.
e. retaining the 30-day registration deadline.
f. requiring that a list of certified deaths be provided to the Secretary of State in order for the names of deceased voters be removed from the list of registered voters. periodic checks on the voter rolls to ensure all currently registered voters are eligible.
g. giving the Secretary of State enforcement authority to ensure county registrar compliance with Secretary of State directives.
h. revising Title 19 funding to avoid incentivizing retention of ineligible voters.
i. use any undedicated federal election funds received to improve the security of our online voter registration data.

243. Campaigning at Poll Sites: We encourage free speech at polling sites outside of the existing boundaries. The right to campaign, including the display of signage, with respect to current state law, at an appropriate distance (100 feet) from the polling place, shall not be infringed.

244. Voting Rights: We support equal suffrage for all United States citizens of voting age. We oppose any identification of citizens by race, origin, creed, sexuality, or lifestyle choices, and oppose use of any such identification for purposes of creating voting districts. We urge that the Voting Rights Act of 1965, codified and updated in 1973, be repealed and not reauthorized.

245. Closed Primary: We support protecting the integrity of the Republican Primary Election by requiring a closed primary system in Texas. While we welcome people to join the Republican Party who support limited government and traditional values, we oppose campaigns to get liberal Democrats to cross over and move the Republican Party to the left in the primary.

246. Redistricting: We support drawing districts based on eligible voters, not pure population. We believe districts should be geographically compact when possible. We oppose any redistricting map that is unfair to conservative candidates in the primary or the general election.

247. Republican Party Operations: We support the election of Republican County Chairs by their respective County Executive Committees where they exist. We support removing the Republican Party of Texas from the Election Code.

National Defense and Foreign Affairs

248. Support of Our Armed Forces: The men and women who wear our country's uniform, whether on active duty or in the Reserves or National Guard or Texas State Military are the most important assets in our military arsenal. All current and prior military personnel and their families must have the benefits, healthcare, housing, education, and overall support they need. Injured military personnel deserve the best medical, mental health, and rehabilitative care our country has to offer. Veterans Administration monetary benefits shall match present national price index value in all programs.

249. Eliminate Illegal Immigration Magnets: Texas shall require proof of legal residency for obtaining a Texas driver's license and enrolling in public school and shall require proof of citizenship for obtaining voter registration and public benefits. Texas should require all employers to screen new hires through the

AMERICAN OVERSIGHT
NM-OTERO-22-0605-A-002427

free E-Verify system to prevent the hiring of illegal aliens and of anyone not legally authorized to work in the US, and to protect jobs for American workers. No tax dollars should be provided for social or educational programs for illegal aliens. All existing laws providing for in-state tuition and nonemergency medical care shall be rescinded. All not verifiable foreign-issued identification cards shall be legally invalid in the United States.

250. Military Readiness: We support a military force of sufficient strength and readiness to deter any threat to our national sovereignty or to the safety and freedom of our citizens. We oppose gender norming in the military. Transgendered persons should not serve in the military as a special class; no special considerations or medical treatment shall be required or offered. We are opposed to expanding Selective Service to include women.

251. Cybersecurity: As foreign and domestic threats to cybersecurity evolve, the State of Texas must upgrade systems and system security to meet these threats and share threat intelligence data among levels of government. The integrity of our state and local network infrastructure must be maintained.

252. Defeat Terrorism: We support an aggressive war on terrorism, including radical Islamic terrorists, which consists of cooperating with our allies and sanctioning nations that sponsor terrorists. We support the reasonable use of profiling, the prosecution of national security breaches, and the revision of laws or executive orders that erode our liberties. We call on the federal government to designate the Muslim Brotherhood a foreign terrorist organization, and we call on governmental agencies to avoid and suspend all activities with all radical Islamic organizations, such as the Council on American-Islamic Relations (CAIR).

253. Designate Drug Cartels as Terrorist Organizations: We strongly support H.R.1700—Drug Cartel Terrorist Designation Act—116th Congress (2019-2020), introduced by Rep Chip Roy, which would designate Trans-criminal Crime Organizations (TCO) identified as Drug Cartels as Foreign Terrorist Organizations (FTO) with the intention of enhancing the policing policy related to Drug Cartels. Furthermore, we request that the State of Texas establish a Counter Terrorism Division that could enforce Anti-Terrorist laws to deter the trafficking of drugs, people, and any other illegal activity across our southern border.

254. Immigration: We demand that state and federal law enforcement officers enforce our immigration laws, implement an entry/exit tracking system for visa holders, and expedite hearings on deporting both violent and non-violent illegal immigrants and visa overstays. Chain migration and the diversity visa lottery should be eliminated. We call for the abolition of the refugee resettlement program. Any form of amnesty with regard to immigration policy should not be granted, including the granting of legal status to persons in the country illegally. Our legal immigration system should be strictly merit based, and the total number of new immigrants should be limited to a level that facilitates assimilation.

(Border Security and Immigration)

255. Border Security Funding: We expect both the Texas Legislature and the United States Congress to make a priority of allocating funds to effectively secure the border through whatever means necessary, including but not limited to barriers, a border wall, and/or fence everywhere along the border where it is feasible and useful, as well as personnel and technology over land, sea, and air. Texas shall seek repayment from the Federal Government for expenses incurred in securing the border.

256. State Self-Defense: We urge the Texas Legislature to invoke Art I, § 10, cl. 3 of the US Constitution, also known as the state self-defense clause, which asserts that under an active invasion (as defined or

AMERICAN OVERSIGHT

declared by the Governor of the State or Texas Legislature), the sovereign state of Texas has the authority and duty to defend Texas citizens against "imminent Danger," not admitting delay, by any and all appropriate measures the sovereign state defines as necessary to defend from such assaults. Immediately equip the Texas Military with the necessary tools and authority to serve and protect Texas State territories and citizens.

257. Interstate Border Compact: We urge the Texas Legislature to establish effective interstate compact(s) with other States for the purpose of securing the US border and enforcing immigration laws.

258. Sanctuary Cities: State and federal funds shall be denied to any public or private entity, including but not limited to sanctuary cities, that are not compliant with immigration laws. Prosecute the responsible elected officials of sanctuary cities/counties/states for obstruction of immigration laws.

259. Border Security and Immigration: We urge the implementation of state and federal laws to require that:

a. Biometric identity of suspected illegal aliens be compared with a database of biometric identites of current and past suspected illegal aliens before further processing.
b. A suspected illegal alien whose biometric identity matches biometric identity captured for a prior attempt at illegal entry shall remain in custody and the case expedited as a probable attempt at second or subsequent illegal reentry.
c. No suspected illegal aliens can be transported across state lines until final determination of immigration status.
d. Additional court resources shall be made available to expedite final determination of immigration status.
e. Suspected illegal aliens of any age must remain in custody until final determination of their immigration status.
f. Suspected illegal aliens whose final immigration status does not make them known legal residents to the US shall immediately be deported and shall remain in custody until physically removed from the US.
g. There shall be no suspected illegal aliens released into the general US public either directly or indirectly.
h. Only persons known to be legal entrants shall be released into the US population.

260. Implement 287(g) Program: The Texas Legislature should prioritize legislation to incentivize and encourage the expansion of the 287(g) program throughout the state.

261. H-1B Visas: We call for the permanent end of the H-1B Foreign Worker Visa program in the interest of protecting American jobs, classified technology, and national security.

262. Aiding and Abetting Illegal Immigrants: We support revoking the 501(c)3 tax exempt status of any organization that breaks state or federal law by knowingly aiding and abetting illegal immigrants. We support disbarring attorneys who knowingly aid and abet illegal immigrants.

263. Texas National Guard Deployment and Benefits: Congress shall not abdicate the war powers to the executive branch except when under imminent threat and not to be used as a preemptive strike unless approved by Congress. The Texas National Guard should only be deployed to overseas combat zones under authorization of Congress through a declaration of war. The legislature shall provide parity of benefits to the Texas National Guard regardless of whether they are activated under state or federal orders. Parity would include but not be limited to the same benefits provided by the Hazelwood Act and also the same benefits as, or equal benefits to, those from the VA that would be provided by federal deployment orders.

AMERICAN OVERSIGHT

(Foreign Affairs)

264. No RFIs from Bad Actors: The Office of Economic Development and Tourism does not accept requests for information (RFIs) from companies from those countries that have a poor human rights record and proven corruption, from communist countries or from those countries sanctioned by the US Government.

265. Trade with China: We support a re-examination of our trading relationship with China based on America's economic and foreign policy interests. America should not be dependent on a communist country for critical medical or technological resources, including prescription drugs like penicillin. Critical infrastructure such as internet or cabling, electrical or power, or water facilities should not be owned by Chinese or communist companies.

266. People's Republic of China Aggression: China's aggression in the South China Sea endangers international trade routes and infringes on allied nations' sovereignty. The cybersecurity threat posed by China continues to grow. We support the people of Hong Kong in their quest for freedom and democracy and call for China to honor its agreements with the United Kingdom.

267. Foreign Policy: We support a foreign policy that relies on peace through strength; putting America first, providing for our national defense, and avoiding foreign deployments or entanglements. We support foreign aid only to America's allies who share our values. We support a free-market economy, private humanitarian aid to developing countries, continued favorable treatment of proven allies, censure of adversarial entities that seek destruction of other countries, and strong policy on confronting terrorists. We strongly oppose religious or ethnic cleansing. We oppose US aid to any foreign entity that consistently votes against our interests or is openly hostile to our nation.

268. Foreign Defense: We oppose any action, military or otherwise, or any other involvement in an undeclared war by the US Congress.

269. Iran and North Korea: We oppose development of nuclear weapons by Iran and North Korea, and we oppose easing sanctions on either country until their hostile behavior and nuclear proliferation cease.

270. Israel: We respect Israel's rights of sovereignty, self-determination, and self-defense and therefore support:

a. The US Embassy in Israel relocation to Jerusalem, Israel's eternal and indivisible capital.
b. Israel's sovereignty over the Golan Heights.
c. Israel's right to exist, right to secure borders, and right to the land secured by practicing self-defense from aggressive enemies.
d. Prohibition of a Palestinian state within the historical borders of Israel, as it would jeopardize Israel's security and it would force Israel to give up land that God gave to the Jewish people as referenced in Genesis.
e. Israel's maintaining a qualitative military edge over any and all adversaries through continued support militarily, financially, and technologically.
f. Prohibition of the anti-Semitic Boycott, Divestment, and Sanctions (BDS) movement as a form of warfare being waged upon Israel, on all levels, including and especially on college campuses, at the United Nations, and by anti-Western nongovernmental organizations.

271. Taiwan: We call upon the United States to move toward full diplomatic recognition of Taiwan as an independent and sovereign nation and to renew our commitment to defend our security and vital economic

AMERICAN OVERSIGHT

interests in the Western Pacific region in the face of China's military provocations, which threaten its neighbors and critical maritime trade routes.

272. One World: The United States is a sovereign nation founded on the principles of freedom. We reject any assertion of authority over our nation or its citizens from foreign individuals or entities, such as the World Economic Forum, World Health Organization, and the United Nations. We reject the concept of a One World Government, or The Great Reset.

273. United Nations: The United Nations is a detriment to the sovereignty of the United States and other countries; because of this we support:

a. Our withdrawal from the current United Nations.
b. The removal of the United Nations from United States soil.
c. The opposition to placement of US troops under command of the United Nations.
d. The rejection of all Agenda 21 and Agenda 2030 policies and programs.
e. The rejection of all related NGOs, councils, and environmental programs.
f. A zero-budget allotment of American tax dollars to any United Nations programs.
g. The opposition to any designation of World Heritage Sites in the United States and especially in Texas.
h. Withdrawal from the UN Arms Trade Treaty.
i. Withdrawal from the corrupt World Health Organization (WHO).
j. Prohibition of any Global Pandemic Treaty, International Health Regulations (IHR), or amendments to IHR that would infringe on our national sovereignty.
k. A credible, impartial, and international investigation into the WHO's and China's actions regarding the COVID-19 pandemic.
l. Withdrawal from the UN International Baccalaureate Organization.
m. The rejection of the ratification of the UN Convention on the Rights of the Child.
n. The rejection of any attempt to allow the United Nations or any other foreign entity to levy taxes on the United States or its citizens.

AMERICAN OVERSIGHT

Resolutions

1. 2020 Election: We believe that the 2020 election violated Article 1 and 2 of the US Constitution, that various secretaries of state illegally circumvented their state legislatures in conducting their elections in multiple ways, including by allowing ballots to be received after November 3, 2020.We believe that substantial election fraud in key metropolitan areas significantly affected the results in five key states in favor of Joseph Robinette Biden Jr.

We reject the certified results of the 2020 Presidential election, and we hold that acting President Joseph Robinette Biden Jr. was not legitimately elected by the people of the United States. We strongly urge all Republicans to work to ensure election integrity and to show up to vote in November of 2022, bring your friends and family, volunteer for your local Republicans, and overwhelm any possible fraud.

2. Resolution against the Gang of 20 Gun Control bill:

Whereas those under 21 are most likely to be victims of violent crime and thus most likely to need to defend themselves.

Whereas "red flag laws" violate one's right to due process and are a pre-crime punishment of people not adjudicated guilty.

Whereas waiting periods on gun purchases harm those who need to acquire the means of self defense in emergencies such as riots.

Whereas all gun control is a violation of the Second Amendment and our God given rights.

We reject the so called "bipartisan gun agreement", and we rebuke Senators John Cornyn (R-Texas), Thom Tillis (R-N.C.), Roy Blunt (R-Mo.), Bill Cassidy (R-La.), Susan Collins (R-Maine), Lindsey Graham (R-S.C.), Rob Portman (R-Ohio), Mitt Romney (R-Utah) and Pat Toomey (R-Pa.).

Subject: Stand strong

As a voting person in the state of New Mexico, I want to thank you for standing strong in your oath to the people and your integrity. Many of us stand with you in not certifying the recent election (or any of the previous ones) in which the Dominion equipment has been used. Clearly the equipment is quite flawed, and, at this time it is not certified according to the state constitution and H.A.V.A standards. Therefore, NONE of the counties in New Mexico should've certified their elections. You all are my heroes. I pray others will follow your lead and forge a way out of the out of control spiral of corruption.

Thank you for your persistence in this.

Respectfully,
Janice Winton
Carlsbad, NM

Subject: Support for your actions

Commissioners,
This is Barry K Brown a resident of Otero County in the Village of Tularosa. I just wanted to say I have attended the meetings regarding the certification of the primary election as well as the earlier meeting on the removal of use of the Dominion or any other electronic voting machines. We need hand count only and voter ID so so badly. I feel my vote is being rendered null and void through the use of fraudulent and illegal means. I was very disappointed to see the actions of the NM SOS as well as the NM supreme court. I wonder where the rule of law and common sense have gone in our state and in our country.

I am not sure where the process will end but I want you to know I am and have been in prayer for each of you and for your families and well being. I pray for you each to be strong and continue the fight.

If we as a society are not able to correct this illegal voting absurdity and return to a Judeo Christian set of values I am afraid we are doomed. As our governmental entities seem unable to make a decision for the best interest of the citizens I pray God will intervene.

Sincerely yours in Christ,
Barry Brown

Jeff here from Los Alamos,

We are all praying for you so that you will maintain resistance against the corrupt judiciary of NM. This corruption goes deeper than I ever imagined, than any of us did. You all have done a superb job of working with David Clements and his wife to expose this toxic corruption and we are eternally grateful.

Make the call to all of NM and I am confident whatever you need to push back will be granted. We stand behind and beside you all!

God Bless,

Jeff

Subject: Surprised...

I haven't heard back from any of you. I typically don't use foul and insulting language, but given (1) you are trumplicans and (2) I've heard at least one of you use some pretty foul language, all bets are off. So what's the deal? Are you all a bunch of pussies and too cowardly to engage someone that is critical of your insurrectionist leanings (not to mention, far more intelligent than any of you; even you, Matherly--if one of my kids had taken a course from you before you were fired I would have demanded a refund of their tuition)? Come on, Cuoy boy, you've got some balls, don't you? Or do you simply hide behind the facade of a big man with a gun on a horse who couldn't get it up if his life depended on it (kind of like the guy you would love to blow if given the chance)? The three of you are pathetic and really need to move to Texas.

On Thursday, June 16, 2022, 02:33:38 PM MDT, Thomas Harris <harristhomas60@yahoo.com> wrote:

...in putting forth a petition for secession of Otero County (land of the stupid, home of idiots) from the State of New Mexico. Further, I will personally write Greg Abbott and ask that he consider annexing Otero County as part of Texas.

But seriously, no chance we're going to be able to carve off this cancer called Otero county from the State of New Mexico so answer this question: What the fuck is wrong with you people?

You (and Otero County for supporting you) are an embarrassment to the State of New Mexico. Sadder yet (as for the many that still support the Big Lie and his Big Fraud), that people of your ilk (is this too fancy of a word for your feeble brains?) were elected by your constituents. Just reinforces that a significant fraction of the electorate in the US (and likely the majority of the electorate in Otero County), are just plain ignorant.

In this regard, I propose that the right to vote in any election (local, state, or national) be contingent on the ability of an individual to pass a civics test and achieve a minimum acceptable score on an IQ test. That should winnow out a large fraction of the idiots that vote for people like you (and, in fact, the three of you would likely not be eligible to vote).

Fucking idiots. About sums up Otero County.

Tom Harris, Ph.D.

(And, by the way, a voting machine cannot be hacked if it is not connected to the internet--just in case you didn't know how these things work.)

Mr. Griffin

My name is Laura Walker and I live in Arizona. I have been following David Clements for about a year and a half and recently heard him speak here last Saturday. I follow all his updates and was dismayed to hear that the SoS had appealed to the New Mexico Supreme Court and they immediately responded by demanding you certify.

Please stand strong!
We have serious concerns about the electronic voting process and have no confidence in our elections system. Your stand was encouraging to me, a resident of Maricopa County, which is a totally unreliable and untrustworthy county.

Thank you. Know that others around our nation are watching and reading about you.
Our prayers are with you.

Subject: Thank you for your courage in your efforts to verify the election results...

Dear Commissioner Matherly, Griffin and Marquardt.

Even though I live in Alabama, we are also very suspicious of our own ES&S voting machines just as you are the Dominion machines. We have a very unpopular Governor here (Kaye Ivey) who magically won her primary election crushing every other candidate even though she refused to attend debates or have open dialogue with the constituents. This woman supports common core, stated “it is time to start blaming the unvaccinated”, raised taxes to list just a few things that do not gain support from conservatives here. She is also in her upper 70s making her the oldest candidate in the group. I voted for Dean Odle here who supposedly only received a few thousand votes state wide? That is highly unlikely to put it mildly. People here on both sides of the isle are noticing things that just do not add up and only wish to verify the outcome of the elections with a full forensic audit of the ballots. Like GA and other states, the powers in charge refuse access to the very ballots that could validate the outcomes of the elections.

Why do people deny access to the ballots, the machines, etc…? I think we all understand that you only hide things that could or will put your legitimacy in jeopardy. Those that allow open transparent investigation to confirm election results are to be commended. Personally, I would not want to win any election where the people voting did not actually vote for me or my platform. If you gained office by such an illicit manor, it would seem over half the people would object to your platform from the beginning and as you performed your election promises, the people would only get more and more angry. Does this sound like anyone else that was recently “elected” into high office to you? Logically, if a candidate won election with over 50% of the vote promising to do x, y and z, that same party should continue to be popular and over 50% approval as they implement x, y and z.

In the end, you are great patriots (political parties do no matter). A patriot loves their county. That’s it. Anyone that loves their country would want free and fair elections.

With a population of 65,000 ish, you have a great chance to uncover either the verification that the results are accurate or possibly that the results are erroneous. In either scenario, you will have honored your country in the effort. We cannot fix problems if we deny they exist.

God bless you for your courage and please know that there are 100s of millions of us that have your back and are praying for you to succeed.

Kindest regards,
Scott Griffith
Independent conservative

Subject: Thank you for your Courage

Hello Commissioners,

My name is Robert Jason Vaillancourt, my friends call me Jason, or Opie.

I was born in ABQ, NM a long time ago, when we were free. ABQ, and NM have changed, and in ways that are awful to watch. I also claim to be from Roswell (where I lived as a kid) and from T or C, (where I spent my freshman year of HS)

I drive through our communities, like Vaugn, Grants, Raton and downtown ABQ, and it breaks my heart.

Our business are gone, and whatever uniqueness these communities had, is drying up also.

I ran for State House in 20 as a Libertarian because I really believe New Mexicans aren't defined by their political party.

We're defined by being New Mexican, and loving our state, our neighbors, and our ways, despite how New Mexican some of our ways are. It just makes us who we are, and we're really good people.

I was a unique candidate in my party, as I ran with 25 other LPNM candidates, and I out raised them all in fundraising, combined.

While most of my counterparts were what we call "Paper Candidates", I managed, and ran a pretty successful campaign, by most political insider standards.

I tell you all this, not to brag, but to ask a simple question, that I believe you all, in your efforts to protect all of us in NM, are going to help me get.

My question is:

I out spent all of my LP candidates, I had events throughout our campaign. I had a decent sign, we knocked doors, we had radio ads, and we still got the exact same percentage of the vote that all the other 3-way-race candidates received.

Why?

Shouldn't my spending, doorknocking, district clean up with campaign shirts on, sign waiving, radio ads on Rock of Talk Radio, effect my outcome, one way, or another?

I would've accepted a lower percentage and thought, my campaigning might have bugged some folks.

But, to get the exact same percentage of the vote as everyone else, seemed manufactured to me.

I apologize for this long email.

I want to thank you commissioners, because I have been fightimg for Election Integrity for 20 something years. It's why I'm a Libertarian, if you want to know the truth.

I am praying for your courage, commending you for looking out for the people who elected you (and the people that didn't), even if they don't know that's what you're doing.

I am a born and bred New Mexican, and I couldn't be more proud of you all, than I am. I am praying for our SOS, and our judges, I'm praying for our AG, and I am praying for the rest of us too. This is what I was taught. Pray for everyone, because we all need it!

You are the epitome of NMTrue (the real one)

Me and my family thank you from the bottom of our hearts.

Subject: Thank you for your integrity

Dear Commissioner Griffin,

We are praying for you three Commissioners (and others, of course!) as you face today's meeting. You are doing important work as you press on to uphold truth in this world that is so full of everything opposed to truth.

Especially praying for you, Mr Griffin, that you would be able to cast a vote by phone but ALSO that you would know God's sustaining mercies as you are back in DC for sentencing. What a grievous state of affairs that is - so much injustice toward so many - and such corruption in "the powers that be." We do know Who rules over all powers and Who will ultimately bring true justice - and so we pray asking Him to give us all endurance as we call on Him. May you know His upholding and sustaining mercies today!

May God give you courage in the face of it all. Know that many are praying - even out here in California!

We thank you for your firm resolve which helps to embolden others (picturing the "great cloud of witnesses" that the Scriptures speak of - the way the faith of those who've stood firm brings encouragement to others who also need to press on).

Sincerely,

Tim and Lori McCracken

Subject: Thank you!

Good morning. My family and I and numerous of our friends reside not in Otero County, but in Grant, and nevertheless wish to express our gratitude for your recent unanimous vote regarding the restoration and maintenance of election integrity in New Mexico, which included the following terms.

1. Approval of hand count of all votes cast after the June 7th Primary
2. Approval of removal of all mail-in drop boxes
3. Approved the removal of all voting machines, including Dominion

NO person of any political persuasion can have an honest reason to fear such a policy or the resulting demonstrably clean outcome. More to the point, anyone stating and advocating otherwise is either dishonest or has been misled, perhaps willingly so.

Thank you.

Subject: Thanks for securing election.

Thank you for standing and holding strong for the integrity of our elections and for holding our vote sacred.

New Mexico Secretary of State embraces Soviet style justice tactics. Threats of criminal prosecution, incarceration and removal from duly elected office are now being used in New Mexico to silence those that question the way elections are being conducted in New Mexico.

Never mind that Dominion tabulators have not been certified in accordance with NM state law. Never mind that Zuckerburg drop boxes have not been authorized by NM legislation. Never mind that Vote Cast records have been destroyed or are mysteriously not available. Never mind that voter registration and records show deceased people voting in our elections.

There is clear and convincing evidence of massive fraud occurring in New Mexico elections. The SOS is demanding the the Otero County Commissioners put their seal of approval and proclaim to the people of Otero County that the results of our elections are trustworthy and accurate, or be removed from office and thrown in prison!

This is what Tyrants do!

Call and write Otero county commissioners and tell them thanks for standing and holding strong for the integrity of our elections and for holding our vote sacred.

Subject: The Validity of the 2020 election

Dear Otero,

The below from the running commentary in the SF New Mexican, which might be of some use. It seems the Democrats have been in violation of the Election Handbook since 2001, in collusion with the SOS. Two major violation; failure to file their Rules as required by law; failure to advertise as required by law. The SOS has approved these violation, which puts the SOS in willful violation of the Election Handbook.

"In fact that election, in Otero County and across the state, should be questioned. The Democratic Party, in violation of 1-7-2.A NMSA, has failed to file its Rules with the Counties since, get this, 2001. As amendments since 2001, per 1-7-5 NMSA, "Amendments shall be filed in the same manner as original party rules and regulations are filed." would seem to mean filing per 1-7-2.A NMSA, then the failure to file the Rules with the Counties would mean the filing was invalid. If invalid, then, per the statute, the Democratic Party isn't "qualified", and shouldn't be on the ballot; see 1-10-4.B NMSA. Does Maggie really want to go there? She is clearly in violation of New Mexico laws. I suggest that this failure, since 2001, to comply with NM laws, should result in the Democratic Party losing it votes for 2020, but also being disqualified for the 2022 ballot as well, and Maggie should pay the penalty prescribed by law for willful violation."

The Republicans were legal on both issues for the 2020 election.

Regards,

Chris Mechels

Subject: Tomorrow's Meeting to Certify of 6/7/2022 Primary Election

Otero County Commissioners,

I am writing to lend my support and congratulate you on your courage to stand strong. Although I realize that if you are calling a special meeting to discuss the recent commandment to certify the election, I know that it is necessary that you consider and respond to the recent request of the Secretary of State to certify.

However, please know that here in Dona Ana County our commissioners also asked the question, "Are we able to actually not certify the election?" to which no one could reply. They voted. And, initially two commissioners, Manny Sanchez, and Shannon Reynolds, having both left and failed to appear back onscreen where they had been attending via Zoom. The call of their name to vote produced only deafening silence. However, eventually Manny Sanchez did finally vote without appearing back onscreen, which felt cowardly at best. The vote carried 4-0, while Shannon Reynolds failed to respond at all. The lack of courage to follow their constituents' pleas was sickening and disgusting.

I congratulate you all to-date for voting your conscience on behalf of your voting and not relenting to pressure. Whatever you decide, we understand there are pressures. Hopefully you are encourated to stand strong. This is the job you were meant to do. Represent your people.

Regards,

Joan E. Scherer, CPC, QPA, QKC, QKA, ERPA

Subject: Victims of Hoax

Trump was able to pull off the biggest hoax ever perpetuated on the American people - the big lie that the election was stolen. And were you were one of his victims, who was snookered, duped, conned, betrayed, outwitted and deceived. Were you one his followers who contributed over $250 million to fight his claims in court. The money went into his pocket.

Most of Trump's inner circle advised Trump that he lost. Attorney General Barr said Trump's claims of voter fraud were bullsh** and that he was "detached from reality." Trump's campaign manager (who said he was part of "Team Normal" as opposed to now disbarred Giuliani) said he didn't think what was happening (Trump's claim of voter fraud) was honest. White House lawyer Herschmann said he thought their pitch that voting machines were programmed to flip votes was "nuts." Trump was out of bounds to the way you sustain democracy. Republican Ben Ginsberg who defended Bush in Bush v Gore said campaign officials didn't believe the claims of fraud because there wasn't evidence to support them. "In all the cases that were brought—60 cases, with more than 180 counts—the simple fact is that the Trump campaign did not make its case.

Get informed. It is called reading. They teach it in the first grade.

Seriously, didn't God create the LBGT community (genetics)? Are the GOPers chastising His creations. Are Republicans fascists considering their allegiance to one man, Trump. Have you read the definition of Socialism. It really doesn't define the Dems. Ask your constituents if they want you to take away safety nets like Social Security and Medicare from their parents.

Why not use your power to speak the truth and educate your constituents? Your legacy may be more rewarding. Did Biden cause the gas prices to increase? No. He didn't invade the Ukraine and didn't cause COVID which caused oil companies to slow production. Consumer providing companies are recording record profits, but won't lower prices. Folks are still traveling and buying. Note to those who don't know but need to know: the cancellation of the Keystone pipeline did not cause of gas prices to increase. Good grief this is the first thing out of GOPers' mouths. Look at yourself GOP. There are 50 of you in the U.S. Senate. Sen. McConnell, leader of your party, is "ruler of the country" not Biden. He decides what can and cannot be done. What are they/you doing to control inflation and gas prices besides criticizing Biden.

Stop the Stop the Steal silliness. Gore and Clinton, who both won the popular vote and who had more of a reason than Trump to challenge the results, didn't incite a riot. Makes one wonder if some GOPers aren't going through some type of "menopause" that lessens their ability to reason and think.

What about the absurdity of the District of Columbia v. Heller decision, which was decided in a 5-4 ruling. Close to half of the Supremes didn't agree. If a less conservative court were seated, it would have been decided another way, which kind of negates the validity of the decision. The term Supreme is becoming a misnomer.

A recent article, "We Clerked for Justices Scalia ad Stevens. America is Getting Heller Wrong," brought thousands of comments:

"If the founding fathers wanted to provide all citizens the right to own arms for self protection, why did the 2nd Amendment begin with the phrase, 'A well regulated Militia, being necessary to the security of a Free State" before concluding, 'the right of the people to keep and bear Arms, shall not be infringed'. These originalists stick to interpretations that serve the political interests of the GOP, making a mockery of our democracy by stacking the courts with judges that serve their interests against the will of the vast majority of U.S. citizens."

"If the SCOTUS were truly originalists, then only single shot muzzle loading firearms would be made available to the public and then only for those serving in the National Guard."

"Former Chief Justice Warren Burger, not exactly a liberal, said it best on PBS Newshour in 1991: "The Gun Lobby's interpretation of the Second Amendment is one of the greatest pieces of fraud, I repeat the word fraud, on the American People by special interest groups that I have ever seen in my lifetime. The real purpose of the Second Amendment was to ensure that state armies – the militia – would be maintained for the defense of the state. The very language of the Second Amendment refutes any argument that it was intended to guarantee every citizen an unfettered right to any kind of weapon he or she desires."

"McConnell and McCarthy are not leaders despite their positions in the GOP. A leader would stand up to their voters and speak truth to power; leaders would stand up for decency and the rule of law; leaders would persuade their base, through oratory and an appeal to their decency, to come to their common senses and give up their fealty to Trump. Leaders would do everything in their power to save the country from a man they clearly despise behind close doors. Instead, they are feckless followers. Being led around by the nose and saying whatever they think their voters want to hear. And no amount of shame, no doubts of conscience, and no Constitution will make them behave otherwise. Their base is in the grips of a cult of personality and McConnell and McCarthy will go along to get along. History will not remember either of them kindly. They are not towering figures of democracy. They are small, weak men fooling themselves into believing they are leaders when in fact they are following a bunch of fools."

Subject: Voting Machine System and Election Fraud Information Sources
Attachment(s): "AZ Preliminary Injunction.pdf","2022-05-22_USEIP_For_Immediate_Release.pdf","Antrim County MI forensics report.pdf","mesa-county-forensic-report-1.pdf","mesa-county-forensic-report-3.pdf"

Commissioner Griffin,
The purpose of this message is to thank you for carving out time to take my unannounced and unscheduled call this afternoon to speak with you about the challenges you and your counterpart Otero County, New Mexico (NM) Commissioners have been dealing with, and to provide you with some information sources that you can review and use to combat NM's Secretary of State (SOS) Attorney General (AG) and Supreme Court.

You all definitely have quite the array of opponents to fight in your quest to preserve free and fair elections.

I have been tracking and gathering 2020 election fraud information since the 26 November Republican caucus public hearing hosted in Gettysburg, Pennsylvania (PA) by PA State Senator Colonel Doug Mastriano. It amazes me how much data exists clearly showing the 2020 Presidential and Arizona (AZ), Georgia (GA), and Michigan (MI) US Senate races were stolen.

The majority of the information I have acquired and reviewed comes from:

The nearly 100 hours of testimony offered at public hearings and/or legislative committee meetings held between 26 November 2020 and 30 December in Arizona, Georgia, Michigan, Nevada, Pennsylvania and Wisconsin;

Peter Navarro's three reports describing how the election theft was in effect death by 1,000 cuts;

Dave Clement's website www.theprofessorsrecord.com;

https://electionfraud20.org;

The US Election Integrity Plan www.USEIP.org

Dr. Douglas Frank's data analysis found at Frank Speech and posted at Rumble. You can find his postings on Rumble searching under "drfrank". Definitely recommend to you watch Dr. Franks mid May Kootenai County, Idaho presentation at: https://rumble.com/v1639mg-election-fraud-in-idaho-dr.-frank-presentation.html

Mike Lindell's news platform www.frankspeech.com; and

True the Vote's www.truethevote.org cellphone ping geotracker data analysis presented in Dinesh D'Souza's documentary 2000 mules, www.2000mules.com

Despite the volumes of data and information that exists it absolutely amazes me how the American public has and continues to be lied to. I hope this all gets resolved before a kinetic conflict begins because if it does not, it is going to leave freedom-loving patriots with no other course of action. Every previous generation in my family has fought to establish and preserve our nation going all the way back to a multiple times great grandfather on my Dad's mother's side of the family who crossed the Delaware River and fought alongside Gen. Washington during the Battle of Trenton to my Dad and Uncle who served in WWII in the Navy and Army, respectively. I will be damned if I am going to sit back and see our Republic stolen and fall under the yoke of tyranny on my watch!

The information I am providing includes the forensic audits completed in Mesa County, CO and Antrim County, MI plus the preliminary injunction filed in AZ by AZ Representative Mark Finchem and gubernatorial candidate "Kari" Lake.

To my knowledge there have only been two counties in the United States where forensic audits have been completed on electronic voting machines: Antrim County, MI and Mesa County, CO. In both cases the forensic audits have clearly shown the Dominion Voting Systems (DVS) are connected to the Internet, easily hacked, and designed to alter voting records.

There is the possibility of a third electronic voting machine system audit occurring here in Oregon, but that examination and any public disclosure hinges on a case that was to have been heard this week that has been postponed. This case was presented in a 19 May Gateway Pundit article:
https://www.thegatewaypundit.com/2022/05/oregon-county-suing-voter-integrity-group-stop-examination-2020-ballots-admits-systems-can-hacked/

I suspect this article can help you because the Oregon AG Ellen Rosenblum is quoted saying "Even when systems are not directly connected to networks, they are vulnerable to attack through physical or wireless access," and "If the Court enters a judgment requiring the release of the ClearBallot database, that judgment would compromise the security of the election systems used in 15 Oregon counties". The AG's comments beg the question if these systems are that vulnerable, not to mention designed to alter vote records, why spend millions of dollars to purchase, maintain, and use them?

AMERICAN OVERSIGHT

The attached Antrim County, Michigan (MI) DVS machine forensic audit was the first forensic analysis effort completed subsequent to the November 2020 election on the DVS machines. This forensic audit/analysis was completed by Allied Security Operations Group, LLC (ASOG) out of Texas at the direction of Portage, MI attorney Matt Deperno. Despite the ASOG report clearly showing the DVS machine software switched votes from President Trump to Biden the night of 3 November, the Antrim County Clerk and MI SOS disputed those conclusions. As I recall Deperno was going to use the Antrim County DVS machine forensic audit as a means to call into question MI's election results and be used as evidence to decertify the MI election results, but the Judge reviewing the case acquiesed to pressure from the SOS. Albeit, the Judge did say something along the lines that the case not moving forward did not mean the plaintiff's allegations were not founded and that no fraud occurred. You can gather and review more information related to Antrim County at Deperno's website at:

https://www.depernolaw.com/dominion.html

In Colorado, Jeff O'Donnell and Dr. Walter Daugherty were the principal forensic audit investigators and authors of the three, pre and post Colorado (CO) SOS Jana Griswoll-ordered DVS "Trusted Build" forensic analysis reports summarizing how the SOS directed her staff and Dominion personnel to delete the 2020 election records thereby committing both Federal and State election crimes. Your corrupt neighbor, CO SOS Jana Griswoll, ordered "Trusted Builds" to be completed in 2021 at 62 of CO's 64 counties that use DVS machines. Fortunately, Mesa County, CO's County Clerk Tina Peters who is a warrior patriot exercised her fiduciary responsibility to the Mesa County citizenry and she captured pre and post-Trusted Build forensic images of Mesa County's DVS machines. She and one other CO County Clerk from Elbert County are the only two clerks to my knowledge in CO who preserved the 2020 election results. SOS Griswoll ordered the Elbert County hard drives to be turned over to her, but hopefully her actions will backfire on her as described in the attached 5 May 2022 Election Integrity Plan news release. The first and third Mesa County, CO audit reports are attached, but the second is a >30MB file that is too large to be emailed. You can downloaded the second Mesa County, CO report at the US Election Integrity Plan website at www.USEIP.org. The third report released on 19 March 2022 clearly describes that the DVS machines are designed with software algorithms to alter vote records. The first and third forensic analysis reports are attached.

Journalist Lara Logan is also releasing a new documentary entitled "Selection Code",www.selectioncode.com, summarizing what occurred in CO and what was revealed in the Mesa County, CO DVS machine audit reports. This documentary is slated for release on or about 20 August.

This past April, AZ gubernatorial and secretary of state candidates Kari Lake and Mark Finchem, respectively filed a preliminary injunction against AZ SOS Hobbs calling for the elimination of all electronic voting machine use in Arizona. That injunction is attached, but without its supporting declarations. You need to read those too. They can be found here: https://frankspeech.com/injunctions

I hope the information I have provided helps Otero County's fight against the NM SOS, AG, and Supreme Court.

I will keep you apprised of our election integrity efforts here in Oregon and please do likewise for yours in NM.

Take care,
Jess Brown
503-828-2820

PS Continue your fight related to J6. Aren't you represented by Sydney Powell?

FOR IMMEDIATE RELEASE

U.S. Election Integrity Plan
Press enquiries
More information: USEIP.org

RELEASE DATE
May 5, 2022

CO SECRETARY OF STATE GRISWOLD WINS IN COURT: JUDGEMENT LIKELY TO BACKFIRE ON GRISWOLD'S AGENDA TO KEEP PUBLIC RECORDS FROM CITIZENS

Elbert County Judge rules 2020 election records be turned over to CO AG Weiser. Citizens immediately submitted open records requests for hard drive data. SecState and AG obligated by law to comply within three days.

[Denver, Colorado, May 5, 2022] – Today, Elbert County Clerk and Recorder turned over two hard drives containing the only remaining copies of Elbert County's 2020 digital election records, including voting system log files to Colorado Secretary of State Griswold. The handoff took place through Attorney General Phil Weiser. In the case, Griswold sued Clerk Schroeder to obtain the backups of Elbert County's 2020 election records. The unfounded premise in Griswold's case was that Schroeder and his election record backups were a threat to election security. A baseless claim given the fact that Schroeder had taken extra measures to preserve the election records on the two hard drives mandated by federal and state election law.

Prior to the hearing, Schroeder agreed to let the SecState inspect both the hard drives one at a time. Griswold declined the option and pursued the case claiming she needed simultaneous possession of both backups to examine either for "evidence" of security breaches. Griswold also claimed that she needed to keep both hard drives post investigation. Griswold offered no reason for her odd demands.

AG Weiser and SecState Griswold are now responsible for the Elbert County 2020 digital election records and have been ordered by the court to preserve and protect the hard drives, the election records, and the election data including all log files. Log files are critical for understanding who accessed the electronic voting equipment, when, and what actions took place. The log files are key to understanding if there was record destruction, manipulation, or mishandling of election records as were found in Mesa County.

By law, Griswold and Weiser are now required to comply with open records requests for the data, given the information on the hard drives is public information that pertains to an essential government function. Citizens have a legal right to request and obtain all the data on the hard drives.

The Department of Justice has confirmed that the Federal statute for preservation of election records applies to digital records. Colorado's state officials are bound by federal standard. The reason the federal law includes electronic records is so a full forensic audit can be conducted at any time after the election, within 22-month Federal minimum requirement for election records preservation. An adequate audit would be conducted by independent experts. By allowing the independent auditor to reconstruct the election process, including investigating every event taking place on the voting systems is the only way

AMERICAN OVERSIGHT

citizens can objectively verify an election was legal, free, and fair according to the law. In a tweet, Griswold made it clear she despised citizens' rights to audit their elections, going so far as to publicly mock the law and election audit process.

It's anticipated that Griswold and Weiser will try to obstruct any open records requests using a range of false claims. The testimony by Griswold's legal team indicated the types of arguments the public can expect. Below is a fact-check of Griswold's and Weiser's likely claims.

1. **There is un-releasable proprietary data on the hard drives**. **FALSE.** Clerk Schroeder explained under oath how he backed up the election records. The technical method Schroeder used made it highly unlikely for any proprietary data from the voting equipment to be transferred to Schroeder's backup hard drives.

   FACT: If there happened to be any data Dominion Voting Systems claimed to be proprietary on the hard drives, the Secretary of State would be obligated to review and release it, under CORA.

2. **Schroeder's backups may include private voter information**. **FALSE**. No private voter data is ever entered into the voting system.

   FACT: In the past election officials have attempted to deny public access to voting records based on the rare situation that a voter ignored ballot instructions and may have written something personally identifiable on their ballot. Those markings may then appear in the scanned ballot images. This can't be used as a reason to prevent public access to the paper ballots or ballot images because marks can be redacted.

3. **Information on the hard drives will expose who a voter voted for. FALSE.** According to Federal and CO law, both the scanned images of cast ballots and paper ballots are election records. Neither has information on them identifying a voter or how they voted. Election records only show the purported votes of Colorado voters.

   FACT: Once a ballot is removed from its mail-in envelope prior to the counting process, it's called a "naked ballot". This means the cast ballot is now anonymous. There is no way to ever connect the identity of the voter to their naked cast ballot - even digitally.

4. **The election data on the hard drives could expose security vulnerabilities. TRUE.** And that's a good thing. The Secretary of State has repeatedly told Colorado voters, the General Assembly, and the press that Colorado elections and election systems are secure. It's incumbent on the SecState to prove her claims. If she's now saying that she believes there may be security vulnerabilities on the voting systems, she should be asked to explain why, under oath in front of the General Assembly and a criminal prosecutor.

   FACT: The public has a right to know if there are any security vulnerabilities in their voting systems, and no obligation to trust a public official's now-questionable assurances.

The question remains, why is Griswold so fixated on obtaining both hard drives *simultaneously* and *keeping* the Elbert County election record backups even after she inspects the drives? The answer likely resides in Mesa County.

The now famous Mesa Forensic Audit Reports generated from the analysis of the Mesa County election records backups exposed a range of problems with the electronic voting system software and hardware used in Mesa County. Evidence includes: Griswold deleting 29,000 election records in Mesa County, CO voting systems are out of regulatory compliance making them illegal to certify in the first place and illegal to use, numerous system security vulnerabilities, a backdoor intentionally built into election machine software, plus 36 wireless devices found embedded in the election equipment. All these issues (many blatantly illegal according to federal and state law) were found by analyzing the hard drives of Clerk Peters' election records backups that were conducted before and after Griswold's Trusted Build.

AMERICAN OVERSIGHT

Griswold and her team haven't yet been able to issue any substantiative or technically accurate response for what was found in the Mesa County voting systems. Griswold has repeatedly issued ineffective and inaccurate talking points through surrogates like the Colorado County Clerks Association. Instead of calling for an independent investigation of the illegal and corrupted voting systems in Colorado proven by the Mesa Technical Reports; Griswold has resorted to attacking Peters and now Schroeder. Curiously they're the only two clerks (that have come forward to this date) who backed up their election records from their election management servers in the most technically robust way.

Griswold claims that Peters and Schroeder had somehow breached election security due to the way they backed up their county election records. However, the facts show the exact opposite.

In the spring of 2021, every county clerk and recorder (CCR) were told by the Secretary of State to back up their election projects, prior to Griswold's Trusted Build. Griswold's only instructions for the clerks were, "Backup any election projects on your voting system to removeable media before our arrival." When questioned about the lack of instruction, training, and tools for the CCRs; The Secretary of State's staff described this guidance as "detailed." To emphasize, there were no specifics for *how* clerks should conduct their backups. This left the CCRs, who have little to no cyber expertise to their own judgement for how to back up their election records to comply with state and federal election laws. It should be noted that Griswold herself has no cyber or technical expertise; yet she speaks publicly as an election security expert including her (now former) leadership position on the National Association of Secretaries of State cyber committee.

Griswold claims the 2020 elections were the safest and most secure. Yet Griswold's actions, are in direct contradiction to her rhetoric. If security was a top priority for Griswold, why then didn't Griswold provide all Colorado clerks with specific backup directions focusing on security and legal compliance before the Trusted Build? Griswold's lack of leadership, direction, and cyber expertise exposes gross violations of her sworn duty as Colorado Secretary of State.

While the judge in Elbert County refused to hear the defense's argument that events and evidence from Mesa County impacted Schroeder's defense, it becomes glaringly obvious the judge either didn't understand or didn't want to understand the full picture. By refusing to entertain the context of the case, including Griswold's own conduct in illegally destroying so many of the Colorado election records that are mandated by law to preserve; the answer to why Griswold is desperate to control Elbert's hard drives remains out of the public record to the detriment of Colorado citizens.

Griswold's legal team is chalking-up the ruling in Elbert as a victory. The reality is that the judgement may end up backfiring on Griswold. Griswold's legal team relied on the argument that Griswold is the Chief Election Official in the state, and that all Colorado County Clerks are subordinate to her. (The judge seemed to miss the fact that County Clerks and Recorders are duly elected officials, and do not report to the Secretary of State). Griswold's lawyers also asserted that Griswold has plenary authority for election security, meaning she has complete and absolute power with no limitations to act on behalf of Colorado's election security. Where this is likely to come back to haunt Griswold is by her own assertions of power, she must bear all responsibility for turning over the election records she is so desperate to keep secret plus answer for the mounting evidence of insecurity and uncertainty in Colorado elections and election systems.

###

AMERICAN OVERSIGHT

Allied Security Operations Group

Antrim Michigan Forensics Report

REVISED PRELIMINARY SUMMARY, v2

Report Date 12/13/2020

Client: **Bill Bailey**

Attorney: **Matthew DePerno**

A. WHO WE ARE

1. My name is Russell James Ramsland, Jr., and I am a resident of Dallas County, Texas. I hold an MBA from Harvard University, and a political science degree from Duke University. I have worked with the National Aeronautics and Space Administration (NASA) and the Massachusetts Institute of Technology (MIT), among other organizations, and have run businesses all over the world, many of which are highly technical in nature. I have served on technical government panels.

2. I am part of the management team of Allied Security Operations Group, LLC, (ASOG). ASOG is a group of globally engaged professionals who come from various disciplines to include Department of Defense, Secret Service, Department of Homeland Security, and the Central Intelligence Agency. It provides a range of security services, but has a particular emphasis on cybersecurity, open source investigation and penetration testing of networks. We employ a wide variety of cyber and cyber forensic analysts. We have patents pending in a variety of applications from novel network security applications to SCADA (Supervisory Control and Data Acquisition) protection and safe browsing solutions for the dark and deep web. For this report, I have relied on these experts and resources.

B. PURPOSE AND PRELIMINARY CONCLUSIONS

1. The purpose of this forensic audit is to test the integrity of Dominion Voting System in how it performed in Antrim County, Michigan for the 2020 election.

2. We conclude that the Dominion Voting System is intentionally and purposefully designed with inherent errors to create systemic fraud and influence election results. The system intentionally generates an enormously high number of ballot errors. The electronic ballots are then transferred for adjudication. The intentional errors lead to bulk adjudication of ballots with no oversight, no transparency, and no audit trail. This leads to voter or election fraud. Based on our study, we conclude that The Dominion Voting System should not be used in Michigan. We further conclude that the results of Antrim County should not have been certified.

AMERICAN OVERSIGHT

3. The following is a breakdown of the votes tabulated for the 2020 election in Antrim County, showing different dates for the tabulation of the same votes.

Date	Registered Voters	Total Votes Cast	Biden	Trump	Third Party	Write-In	TOTAL VOTES for President
Nov 3	22,082	16,047	7,769	4,509	145	14	12,423
Nov 5	22,082	18,059	7,289	9,783	255	20	17,327
Nov 21	22,082	16,044	5,960	9,748	241	23	15,949

4. The Antrim County Clerk and Secretary of State Jocelyn Benson have stated that the election night error (detailed above by the vote "flip" from Trump to Biden, was the result of human error caused by the failure to update the Mancelona Township tabulator prior to election night for a down ballot race. We disagree and conclude that the vote flip occurred because of machine error built into the voting software designed to create error.

5. Secretary of State Jocelyn Benson's statement on November 6, 2020 that "[t]the correct results always were and continue to be reflected on the tabulator totals tape . . . ." was false.

6. The allowable election error rate established by the Federal Election Commission guidelines is of 1 in 250,000 ballots (.0008%). We observed an error rate of 68.05%. This demonstrated a significant and fatal error in security and election integrity.

7. The results of the Antrim County 2020 election are not certifiable. This is a result of machine and/or software error, not human error.

8. The tabulation log for the forensic examination of the server for Antrim County from December 6, 2020consists of 15,676 individual events, of which 10,667 or 68.05% of the events were recorded errors. These errors resulted in overall tabulation errors or ballots being sent to adjudication. This high error rates proves the Dominion Voting System is flawed and does not meet state or federal election laws.

9. These errors occurred after The Antrim County Clerk provided a re-provisioned CF card with uploaded software for the Central Lake Precinct on November 6, 2020. This means the statement by Secretary Benson was false. The Dominion Voting System produced systemic errors and high error rates both prior to the update and after the update; meaning the update (or lack of update) is not the cause of errors.

AMERICAN OVERSIGHT

10. In Central Lake Township there were 1,222 ballots **reversed** out of 1,491 total ballots cast, resulting in an 81.96% rejection rate. All reversed ballots are sent to adjudication for a decision by election personnel.

11. It is critical to understand that the Dominion system classifies ballots into two categories, 1) normal ballots and 2) adjudicated ballots. Ballots sent to adjudication can be altered by administrators, and adjudication files can be moved between different Results Tally and Reporting (RTR) terminals with no audit trail of which administrator actually adjudicates (i.e. votes) the ballot batch. This demonstrated a significant and fatal error in security and election integrity because it provides no meaningful observation of the adjudication process or audit trail of which administrator actually adjudicated the ballots.

12. A staggering number of votes required adjudication. This was a 2020 issue not seen in previous election cycles still stored on the server. This is caused by intentional errors in the system. The intentional errors lead to bulk adjudication of ballots with no oversight, no transparency or audit trail. Our examination of the server logs indicates that this high error rate was incongruent with patterns from previous years. The statement attributing these issues to human error is not consistent with the forensic evaluation, which points more correctly to systemic machine and/or software errors. The systemic errors are intentionally designed to create errors in order to push a high volume of ballots to bulk adjudication.

13. The linked video demonstrates how to cheat at adjudication:

    https://mobile.twitter.com/KanekoaTheGreat/status/1336888454538428418

14. Antrim County failed to properly update its system. A purposeful lack of providing basic computer security updates in the system software and hardware demonstrates incompetence, gross negligence, bad faith, and/or willful non-compliance in providing the fundamental system security required by federal and state law. There is no way this election management system could have passed tests or have been legally certified to conduct the 2020 elections in Michigan under the current laws. According to the National Conference of State Legislatures – Michigan requires full compliance with federal standards as determined by a federally accredited voting system laboratory.

15. Significantly, the computer system shows vote adjudication logs for prior years; but all adjudication log entries for the 2020 election cycle are missing. The adjudication process is the simplest way to manually manipulate votes. The lack of records prevents any form of audit accountability, and their conspicuous absence is extremely suspicious since the files exist for previous years using the same software. Removal of these files violates state law and prevents a meaningful audit, even if the Secretary wanted to conduct an audit. We must conclude that the 2020 election cycle records have been manually removed.

AMERICAN OVERSIGHT

16. Likewise, all server security logs prior to 11:03 pm on November 4, 2020 are missing. This means that all security logs for the day after the election, on election day, and prior to election day are gone. Security logs are very important to an audit trail, forensics, and for detecting advanced persistent threats and outside attacks, especially on systems with outdated system files. These logs would contain domain controls, authentication failures, error codes, times users logged on and off, network connections to file servers between file accesses, internet connections, times, and data transfers. Other server logs before November 4, 2020 are present; therefore, there is no reasonable explanation for the security logs to be missing.

17. On November 21, 2020, an unauthorized user unsuccessfully attempted to zero out election results. This demonstrates additional tampering with data.

18. The Election Event Designer Log shows that Dominion ImageCast Precinct Cards were programmed with new ballot programming on 10/23/2020 and then again after the election on 11/05/2020. These system changes affect how ballots are read and tabulated, and our examination demonstrated a significant change in voter results using the two different programs. In accordance with the Help America Vote Act, this violates the 90-day Safe Harbor Period which prohibits changes to election systems, registries, hardware/software updates without undergoing re-certification. According to the National Conference of State Legislatures – Michigan requires full compliance with federal standards as determined by a federally accredited voting system laboratory.

19. The only reason to change software after the election would be to obfuscate evidence of fraud and/or to correct program errors that would de-certify the election. Our findings show that the Central Lake Township tabulator tape totals were significantly altered by utilizing two different program versions (10/23/2020 and 11/05/2020), both of which were software changes during an election which violates election law, and not just human error associated with the **Dominion Election Management System.** This is clear evidence of software generated movement of votes. The claims made on the **Office of the Secretary of State** website are false.

20. The Dominion ImageCast Precinct (ICP) machines have the ability to be connected to the internet (see Image 11). By connecting a network scanner to the ethernet port on the ICP machine and creating Packet Capture logs from the machines we examined show the ability to connect to the network, Application Programming Interface (API) (a data exchange between two different systems) calls and web (http) connections to the Election Management System server. Best practice is to disable the network interface card to avoid connection to the internet. This demonstrated a significant and fatal error in security and election integrity. Because certain files have been deleted, we have not yet found origin or destination; but our research continues.

AMERICAN OVERSIGHT

21. Because the intentional high error rate generates large numbers of ballots to be adjudicated by election personnel, we must deduce that bulk adjudication occurred. However, because files and adjudication logs are missing, we have not yet determined where the bulk adjudication occurred or who was responsible for it. Our research continues.

22. Research is ongoing. However, based on the preliminary results, we conclude that the errors are so significant that they call into question the integrity and legitimacy of the results in the Antrim County 2020 election to the point that the results are not certifiable. Because the same machines and software are used in 48 other counties in Michigan, this casts doubt on the integrity of the entire election in the state of Michigan.

23. DNI Responsibilities: President Obama signed Executive Order on National Critical Infrastructure on 6 January 2017, stating in Section 1. Cybersecurity of Federal Networks, "The Executive Branch operates its information technology (IT) on behalf of the American people. The President will hold heads of executive departments and agencies (agency heads) accountable for managing cybersecurity risk to their enterprises. In addition, because risk management decisions made by agency heads can affect the risk to the executive branch as a whole, and to national security, it is also the policy of the United States to manage cybersecurity risk as an executive branch enterprise." President Obama's EO further stated, effective immediately, each agency head shall use The Framework for Improving Critical Infrastructure Cybersecurity (the Framework) developed by the National Institute of Standards and Technology." Support to Critical Infrastructure at Greatest Risk. The Secretary of Homeland Security, in coordination with the Secretary of Defense, the Attorney General, the Director of National Intelligence, the Director of the Federal Bureau of Investigation, the heads of appropriate sector-specific agencies, as defined in Presidential Policy Directive 21 of February 12, 2013 (Critical Infrastructure Security and Resilience) (sector-specific agencies), and all other appropriate agency heads, as identified by the Secretary of Homeland Security, shall: (i) identify authorities and capabilities that agencies could employ to support the cybersecurity efforts of critical infrastructure entities identified pursuant to section 9 of Executive Order 13636 of February 12, 2013 (Improving Critical Infrastructure Cybersecurity), to be at greatest risk of attacks that could reasonably result in catastrophic regional or national effects on public health or safety, economic security, or national security (section 9 entities);

    This is a national security imperative. **In July 2018, President Trump strengthened President Obama's Executive Order to include requirements to ensure US election systems, processes, and its people were not manipulated by foreign meddling, either through electronic or systemic manipulation, social media, or physical changes made in hardware, software, or supporting systems.** The 2018 Executive Order. Accordingly, I hereby order:

AMERICAN OVERSIGHT

Section 1. (a) Not later than 45 days after the conclusion of a United States election, the Director of National Intelligence, in consultation with the heads of any other appropriate executive departments and agencies (agencies), shall conduct an assessment of any information indicating that a foreign government, or any person acting as an agent of or on behalf of a foreign government, has acted with the intent or purpose of interfering in that election. The assessment shall identify, to the maximum extent ascertainable, the nature of any foreign interference and any methods employed to execute it, the persons involved, and the foreign government or governments that authorized, directed, sponsored, or supported it. The Director of National Intelligence shall deliver this assessment and appropriate supporting information to the President, the Secretary of State, the Secretary of the Treasury, the Secretary of Defense, the Attorney General, and the Secretary of Homeland Security.

We recommend that an independent group should be empaneled to determine the extent of the adjudication errors throughout the State of Michigan. This is a national security issue.

24. Michigan resident Gustavo Delfino, a former professor of mathematics in Venezuela and alumni of University of Michigan, offered a compelling affidavit [Exhibit 2] recognizing the inherent vulnerabilities in the SmartMatic electronic voting machines (software which was since incorporated into Dominion Voting Systems) during the 2004 national referendum in Venezuela (see attached declaration). After 4 years of research and 3 years of undergoing intensive peer review, Professor Delfino's paper was published in the highly respected "Statistical Science" journal, November 2011 issue (Volume 26, Number 4) with title "Analysis of the 2004 Venezuela Referendum: The Official Results Versus the Petition Signatures." The intensive study used multiple mathematical approaches to ascertain the voting results found in the 2004 Venezuelan referendum. Delfino and his research partners discovered not only the algorithm used to manipulate the results, but also the precise location in the election processing sequence where vulnerability in machine processing would provide such an opportunity. According to Prof Delfino, the magnitude of the difference between the official and the true result in Venezuela estimated at 1,370,000 votes. Our investigation into the error rates and results of the Antrim County voting tally reflect the same tactics, which have also been reported in other Michigan counties as well. This demonstrates a national security issue.

C. PROCESS

We visited Antrim County twice: November 27, 2020 and December 6, 2020.

On November 27, 2020, we visited Central Lake Township, Star Township, and Mancelona Township. We examined the Dominion Voting Systems tabulators and tabulator roles.

AMERICAN OVERSIGHT

On December 6, 2020, we visited the Antrim County Clerk's office. We inspected and performed forensic duplication of the following:

1. **Antrim County Election Management Server** running **Dominion Democracy Suite** 5.5.3-002;

2. **Compact Flash** cards used by the local precincts in their **Dominion ImageCast Precinct;**

3. **USB memory sticks** used by the **Dominion VAT** (Voter Assist Terminals); and

4. **USB memory sticks** used for the Poll Book.

Dominion voting system is a Canadian owned company with global subsidiaries. It is owned by Staple Street Capital which is in turn owned by UBS Securities LLC, of which 3 out of their 7 board members are Chinese nationals. The Dominion software is licensed from Smartmatic which is a Venezuelan owned and controlled company. Dominion Server locations have been determined to be in Serbia, Canada, the US, Spain and Germany.

D. CENTRAL LAKE TOWNSHIP

1. On November 27, 2020, part of our forensics team visited the Central Lake Township in Michigan to inspect the **Dominion ImageCast Precint** for possible hardware issues on behalf of a local lawsuit filed by Michigan attorney Matthew DePerno on behalf of William Bailey. In our conversations with the clerk of **Central Lake Township** Ms. Judith L. Kosloski, she presented to us "two separate paper totals tape" from Tabulator ID 2.

   - One dated "Poll Opened Nov. 03/2020 06:38:48" (Roll 1);

   - Another dated "Poll Opened Nov. 06/2020 09:21:58" (Roll 2).

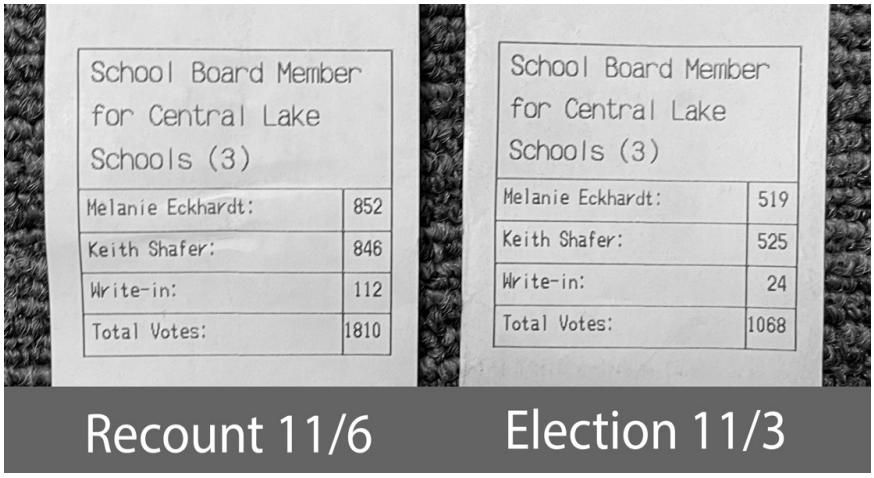
2. We were then told by Ms. Kosloski that on November 5, 2020, Ms. Kosloski was notified by Connie Wing of the County Clerk's Office and asked to bring the tabulator and ballots to the County Clerk's office for re-tabulation. They ran the ballots and printed "Roll 2". She noticed a difference in the votes and brought it up to the clerk, but canvasing still occurred, and her objections were not addressed.

3. Our team analyzed both rolls and compared the results. Roll 1 had **1,494** total votes and Roll 2 had **1,491** votes (Roll 2 had 3 less ballots because 3 ballots were damaged in the process.)

4. "Statement of Votes Cast from Antrim" shows that only **1,491** votes were counted, and the **3** ballots that were damaged were not entered into final results.

AMERICAN OVERSIGHT

5. Ms. Kosloski stated that she and her assistant manually refilled out the three ballots, curing them, and ran them through the ballot counting system - but the final numbers do not reflect the inclusion of those **3** damaged ballots.



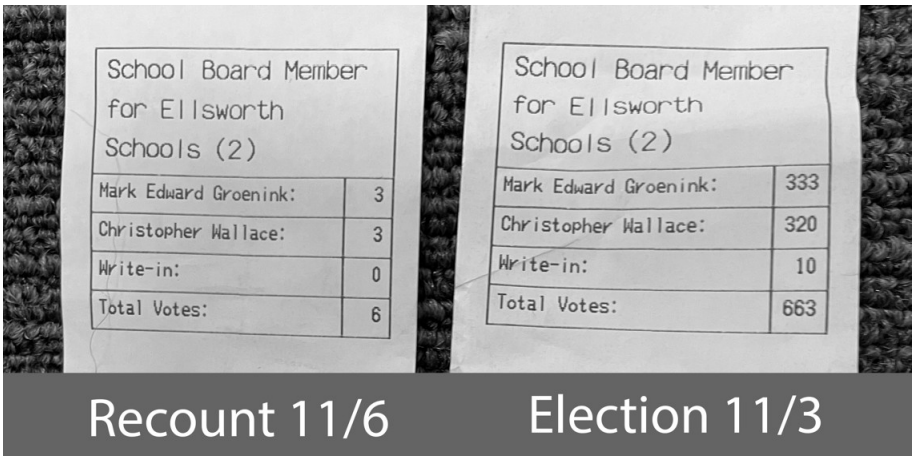
6. This is the most preliminary report of serious election fraud indicators. In comparing the numbers on both rolls, *we estimate **1,474** votes changed* across the two rolls, between the first and the second time the exact same ballots were run through the County Clerk's vote counting machine - *which is almost the same number of voters that voted in total.*

   - ***742** votes were added to* **School Board Member for Central Lake Schools (3)**
   - ***657** votes were removed from* **School Board Member for Ellsworth Schools (2)**
   - **7** votes were added to the total for **State Proposal 20-1 (1)** and out of those there were **611** votes moved between the Yes and No Categories.

7. There were incremental changes throughout the rolls with some significant adjustments between the 2 rolls that were reviewed. This demonstrates conclusively that votes can be and were changed during the second machine count after the software update. That should be impossible especially at such a high percentage to total votes cast.

8. For the **School Board Member for Central Lake Schools (3)** [Image 1] there were **742 votes** added to this vote total. Since multiple people were elected, this did not change the result of both candidates being elected, but one does see a change in who had most votes. If it were a single-person election this would have changed the outcome and demonstrates conclusively that votes can be and were changed during the second machine counting. That should be impossible.

   [Image 1]:



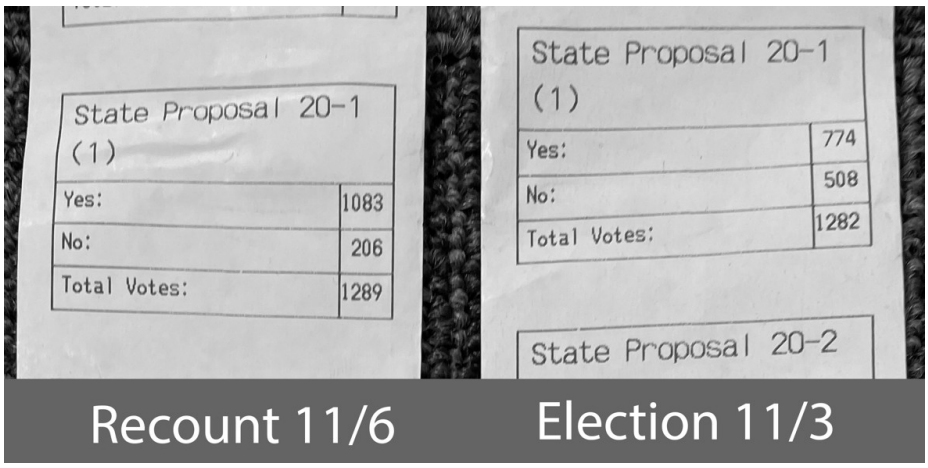
AMERICAN OVERSIGHT

9. For the **School Board Member for Ellsworth Schools (2)** [Image 2]

- Shows ***657*** *votes being removed* from this election.
- In this case, only **3** people who were eligible to vote actually voted. Since there were **2** votes allowed for each voter to cast.
- The recount correctly shows **6** votes.

But on election night, there was a major calculation issue:

[Image 2]:



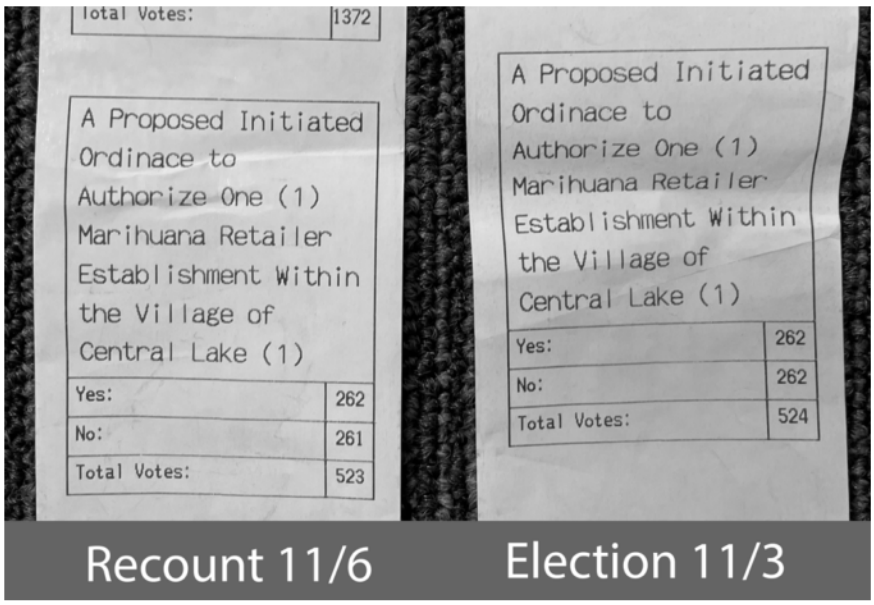
10. In **State Proposal 20-1 (1)**, [Image 3] there is a major change in votes in this category.

- There were **774 votes for YES** during the election, to **1,083 votes for YES** on the recount a change of **309 votes**.
- **7** votes were added to the total for **State Proposal 20-1 (1)** out of those there were **611** votes moved between the Yes and No Categories.

[Image 3]:

AMERICAN OVERSIGHT

11. **State Proposal 20-1 (1)** is a fairly technical and complicated proposed amendment to the Michigan Constitution to change the disposition and allowable uses of future revenue generated from oil and gas bonuses, rentals and royalties from state-owned land. Information about the proposal: https://crcmich.org/publications/statewide-ballot- proposal-20-1-michigan-natural-resources-trust-fund



12. A Proposed Initiated **Ordinance to Authorize One (1) Marihuana (sic) Retailer Establishment Within the Village of Central Lake (1)**. [Image 4]

- On election night, it was a tie vote.
- Then, on the rerun of ballots 3 ballots were destroyed, but only one vote changed on the totals to allow the proposal to pass.

When **3 ballots were not counted** and **programming change on the tabulator was installed** the proposal **passed with 1 vote being removed from the No** vote.

[Image 4]:

AMERICAN OVERSIGHT

13. On Sunday December 6, 2020, our forensics team visited the Antrim County Clerk. There were two USB memory sticks used, one contained the software package used to tabulate election results on November 3, 2020, and the other was programmed on November 6, 2020 with a different software package which yielded significantly different voting outcomes. The election data package is used by the **Dominion Democracy Suite** software & election management system software to upload programming information onto the Compact Flash Cards for the **Dominion ImageCast Precinct** to enable it to calculate ballot totals.

14. This software programming should be standard across all voting machines systems for the duration of the entire election if accurate tabulation is the expected outcome as required by US Election Law. This intentional difference in software programming is a design feature to alter election outcomes.

15. The election day outcomes were calculated using the original software programming on November 3, 2020. On November 5, 2020 the township clerk was asked to re-run the Central Lake Township ballots and was given no explanation for this unusual request. On November 6, 2020 the Antrim County Clerk, Sheryl Guy issued the second version of software to re-run the same Central Lake Township ballots and oversaw the process. This resulted in greater than a 60% change in voting results, inexplicably impacting every single election contest in a township with less than 1500 voters. These errors far exceed the ballot error rate standard of 1 in 250,000 ballots (.0008%) as required by federal election law.

- The original election programming files are last dated 09/25/2020 1:24pm
- The updated election data package files are last dated 10/22/2020 10:27 am.

AMERICAN OVERSIGHT

16. As the tabulator tape totals prove, there were large numbers of votes switched from the November 3, 2020 tape to the November 6, 2020 tape. This was solely based on using different software versions of the operating program to calculate votes, not tabulate votes. This is evidenced by using same the Dominion System with two different software program versions contained on the two different USB Memory Devices.

17. The Help America Vote Act, Safe Harbor provides a 90-day period prior to elections where no changes can be made to election systems. To make changes would require recertification of the entire system for use in the election. The Dominion User Guide prescribes the proper procedure to test machines with test ballots to compare the results to validate machine functionality to determine if the **Dominion ImageCast Precinct** was programmed correctly. If this occurred a ballot misconfiguration would have been identified. Once the software was updated to the 10/22/2020 software the test ballots should have been re-run to validate the vote totals to confirm the machine was configured correctly.

18. The November 6, 2020 note from **The Office of the Secretary of State Jocelyn Benson** states: "The correct results always were and continue to be reflected on the tabulator totals tape and on the ballots themselves. Even if the error in the reported unofficial results had not been quickly noticed, it would have been identified during the county canvass. Boards of County Canvassers, which are composed of 2 Democrats and 2 Republicans, review the printed totals tape from each tabulator during the canvass to verify the reported vote totals are correct."

    - Source: https://www.michigan.gov/sos/0,4670,7-127-1640_9150-544676--,00.html

19. The **Secretary of State Jocelyn Benson's** statement is false. Our findings show that the tabulator tape totals were significantly altered by utilization of two different program versions, and not just the **Dominion Election Management System.** This is the opposite of the claim that the **Office of the Secretary of State** made on its website. The fact that these significant errors were not caught in ballot testing and not caught by the local county clerk shows that there are major inherent built-in vulnerabilities and process flaws in the **Dominion Election Management System**, and that other townships/precincts and the entire election have been affected.

20. On Sunday December 6, 2020, our forensics team visited the Antrim County Clerk office to perform forensic duplication of the **Antrim County Election Management Server** running **Dominion Democracy Suite** 5.5.3-002.

21. Forensic copies of the **Compact Flash** cards used by the local precincts in their **Dominion ImageCast Precinct** were inspected, **USB memory sticks** used by the **Dominion VAT** (Voter Assist Terminals) and the **USB memory sticks** used for the Poll Book were forensically duplicated.

AMERICAN OVERSIGHT

22. We have been told that the ballot design and configuration for the **Dominion ImageCast Precinct** and VAT were provided by **ElectionSource.com** which is which is owned by MC&E, Inc of Grand Rapids, MI.

E. MANCELONA TOWNSHIP

1. In Mancelona township, problems with software versions were also known to have been present. Mancelona elections officials understood that ballot processing issued were not accurate and used the second version of software to process votes on 4 November, again an election de-certifying event, as no changes to the election system are authorized by law in the 90 days preceding elections without re-certification.

2. Once the 10/22/2020 software update was performed on the Dominion ImageCast Precinct the test ballot process should have been performed to validate the programming. There is no indication that this procedure was performed.

F. ANTRIM COUNTY CLERK'S OFFICE

1. Pursuant to a court ordered inspection, we participated in an onsite collection effort at the Antrim County Clerk's office on December 6, 2020. [Image 5]:

Among other items forensically collected, the Antrim County Election Management Server (EMS) with Democracy Suite was forensically collected. [Images 6 and 7].

AMERICAN OVERSIGHT

The EMS (Election Management Server) was a:

Dell Precision Tower 3420.

Service Tag: 6NB0KH2

The EMS contained 2 hard drives in a RAID-1 configuration. That is the 2 drives redundantly stored the same information and the server could continue to operate if either of the 2 hard drives failed. The EMS was booted via the Linux Boot USB memory sticks and both hard drives were forensically imaged.

At the onset of the collection process we observed that the initial program thumb drive was not secured in the vault with the CF cards and other thumbdrives. We watched as the County employees, including Clerk Sheryl Guy searched throughout the office for the missing thumb drive. Eventually they found the missing thumb drive in an unsecured and unlocked desk drawer along with multiple other random thumb drives. This demonstrated a significant and fatal error in security and election integrity.

G. FORENSIC COLLECTION

We used a built for purpose Linux Boot USB memory stick to boot the EMS in a forensically sound mode. We then used Ewfacquire to make a forensic image of the 2 independent internal hard drives.

Ewfacquire created an E01 file format forensic image with built-in integrity verification via MD5 hash.

We used Ewfverify to verify the forensic image acquired was a true and accurate copy of the original disk. That was done for both forensic images.

H. ANALYSIS TOOLS

AMERICAN OVERSIGHT

X-Ways Forensics: We used X-Ways Forensics, a commercial Computer Forensic tool, to verify the image was useable and full disk encryption was not in use. In particular we confirmed that Bit locker was not in use on the EMS.

Other tools used: PassMark – OSForensics, Truxton - Forensics, Cellebrite – Physical Analyzer, Blackbag-Blacklight Forensic Software, Microsoft SQL Server Management Studio, Virtual Box, and miscellaneous other tools and scripts.

I. SERVER OVERVIEW AND SUMMARY

1. Our initial audit on the computer running the Democracy Suite Software showed that standard computer security best practices were not applied. These minimum-security standards are outlined the 2002 HAVA, and FEC Voting System Standards – it did not even meet the minimum standards required of a government desktop computer.

2. The election data software package USB drives (November 2020 election, and November 2020 election updated) are secured with bitlocker encryption software, but they were not stored securely on-site. At the time of our forensic examination, the election data package files were already moved to an unsecure desktop computer and were residing on an unencrypted hard drive. This demonstrated a significant and fatal error in security and election integrity. Key Findings on Desktop and Server Configuration: - There were multiple Microsoft security updates as well as Microsoft SQL Server updates which should have been deployed, however there is no evidence that these security patches were ever installed. As described below, many of the software packages were out of date and vulnerable to various methods of attack.

    a) Computer initial configuration on 10/03/2018 13:08:11:911

    b) Computer final configuration of server software on 4/10/2019

    c) Hard Drive not Encrypted at Rest

    d) Microsoft SQL Server Database not protected with password.

    e) Democracy Suite Admin Passwords are reused and share passwords.

    f) Antivirus is 4.5 years outdated

    g) Windows updates are 3.86 years out of date.

    h) When computer was last configured on 04/10/2019 the windows updates were 2.11 years out of date.

    i) User of computer uses a Super User Account.

AMERICAN OVERSIGHT

3. The hard drive was not encrypted at rest – which means that if hard drives are removed or initially booted off an external USB drive the files are susceptible to manipulation directly. An attacker is able to mount the hard drive because it is unencrypted, allowing for the manipulation and replacement of any file on the system.

4. The Microsoft SQL Server database files were not properly secured to allow modifications of the database files.

5. The Democracy Suite Software user account logins and passwords are stored in the unsecured database tables and the multiple Election System Administrator accounts share the same password, which means that there are no audit trails for vote changes, deletions, blank ballot voting, or batch vote alterations or adjudication.

6. Antivirus definition is 1666 days old on 12/11/2020. Antrim County updates its system with USB drives. USB drives are the most common vectors for injecting malware into computer systems. The failure to properly update the antivirus definition drastically increases the harm cause by malware from other machines being transmitted to the voting system.

7. Windows Server Update Services (WSUS) Offline Update is used to enable updates the computer – which is a package of files normally downloaded from the internet but compiled into a program to put on a USB drive to manually update server systems.

8. Failure to properly update the voting system demonstrates a significant and fatal error in security and election integrity.

9. There are 15 additional updates that should have been installed on the server to adhere to Microsoft Standards to fix known vulnerabilities. For the 4/10/2019 install, the most updated version of the update files would have been 03/13/2019 which is 11.6.1 which is 15 updates newer than 10.9.1

   This means the updates installed were 2 years, 1 month, 13 days behind the most current update at the time. This includes security updates and fixes. This demonstrated a significant and fatal error in security and election integrity.

   - Wed 04/10/2019 10:34:33.14 - Info: Starting WSUS Offline Update (v. 10.9.1)

   - Wed 04/10/2019 10:34:33.14 - Info: Used path "D:\WSUSOFFLINE1091_2012R2_W10\cmd\" on EMSSERVER (user: EMSADMIN)

   - Wed 04/10/2019 10:34:35.55 - Info: Medium build date: 03/10/2019

AMERICAN OVERSIGHT

- Found on c:\Windows\wsusofflineupdate.txt
- *WSUS Offline Update (v.10.9.1) was created on 01/29/2017

*WSUS information found here https://download.wsusoffline.net/

10. Super User Administrator account is the primary account used to operate the **Dominion Election Management System** which is a major security risk. The user logged in has the ability to make major changes to the system and install software which means that there is no oversight to ensure appropriate management controls – i.e. anyone who has access to the shared administrator user names and passwords can make significant changes to the entire voting system. The shared usernames and passwords mean that these changes can be made in an anonymous fashion with no tracking or attribution.

J. ERROR RATES

1. We reviewed the Tabulation logs in their entirety for 11/6/2020. The election logs for Antrim County consist of 15,676 total lines or events.

- Of the 15,676 there were a total of 10,667 critical errors/warnings or a 68.05% error rate.
- Most of the errors were related to configuration errors that could result in overall tabulation errors or adjudication. These 11/6/2020 tabulation totals were used as the official results.

2. For examples, there were 1,222 ballots **reversed** out of 1,491 total ballots cast, thus resulting in an 81.96% rejection rate. Some of which were reversed due to "Ballot's size exceeds maximum expected ballot size".

- According to the NCSL, Michigan requires testing by a federally accredited laboratory for voting systems. In section 4.1.1 of the Voluntary Voting Systems Guidelines (VVSG) Accuracy Requirements a. **All systems shall achieve a report total error rate of no more than one in 125,000**.
- https://www.eac.gov/sites/default/files/eac_assets/1/28/VVSG.1.1.VOL.1.FINAL1.pdf
- In section 4.1.3.2 Memory Stability of the VVSG it states that **Memory devices used to retain election management data shall have demonstrated error free data retention for a period of 22 months**.
- In section 4.1.6.1 Paper-based System Processing Requirements sub-section a. of the VVSG it states "The ability of the system to produce and receive electronic signals from the scanning of the ballot, perform logical and numerical operations upon these data, and reproduce the contents of memory when required **shall** be sufficiently free of **error** to enable

AMERICAN OVERSIGHT

satisfaction of the system-level accuracy requirement indicated in Subsection 4.1.1."

- These are not human errors; this is definitively related to the software and software configurations resulting in error rates far beyond the thresholds listed in the guidelines.

3. A high "error rate" in the election software (in this case 68.05%) reflects an algorithm used that will weight one candidate greater than another (for instance, weight a specific candidate at a 2/3 to approximately 1/3 ratio). In the logs we identified that the RCV or Ranked Choice Voting Algorithm was enabled (see image below from the Dominion manual). This allows the user to apply a weighted numerical value to candidates and change the overall result. The declaration of winners can be done on a basis of points, not votes. [Image 8]:

choice voting results are evaluated on a district per district basis and each district has a set number of points (100). Elimination and declaration of winners is done on basis of points, not votes.

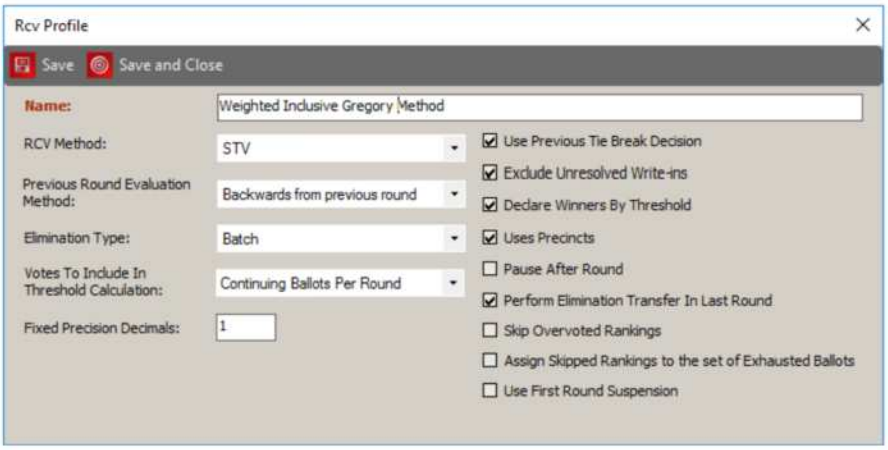


Figure 11-3: RCV Profile screen

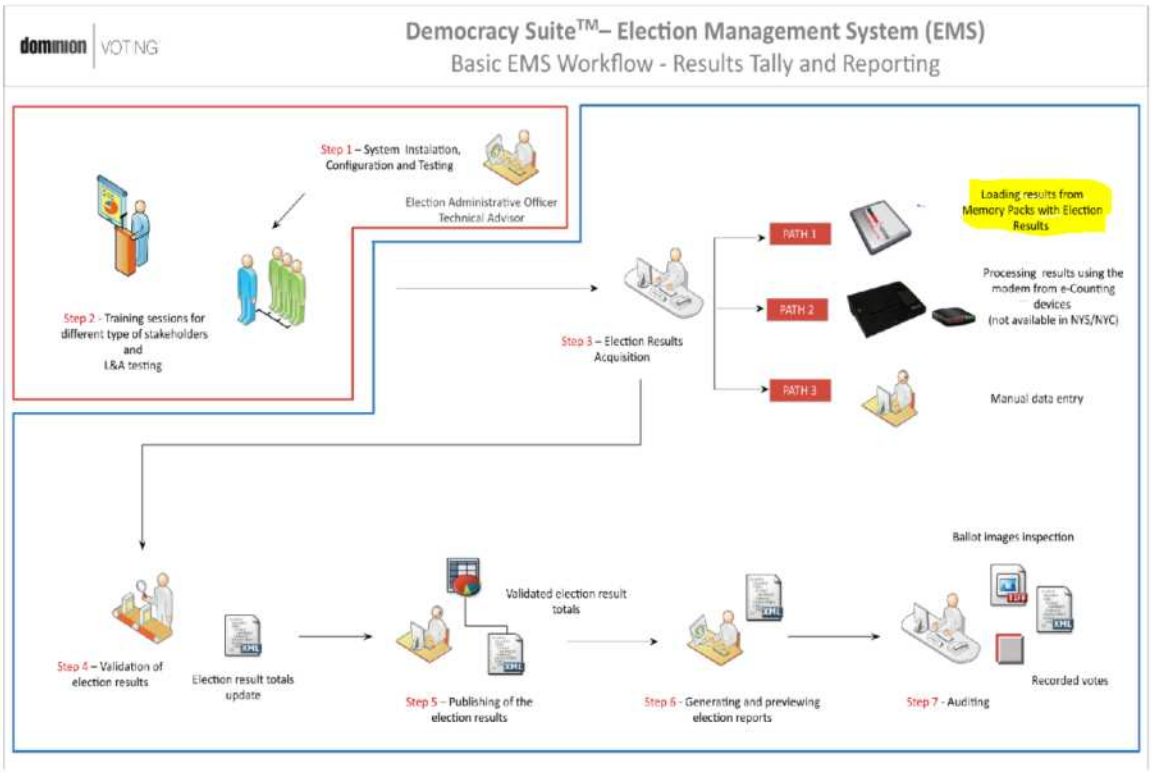
4. The Dominion software configuration logs in the Divert Options, shows that all write-in ballots were flagged to be diverted automatically for adjudication. This means that all write-in ballots were sent for "adjudication" by a poll worker or election official to process the ballot based on voter "intent". Adjudication files allow a computer operator to decide to whom to award those votes (or to trash them).

5. In the logs all but two of the Override Options were enabled on these machines, thus allowing any operator to change those votes. [Image 9]:

AMERICAN OVERSIGHT



6. In the logs all but two of the Override Options were enabled on these machines, thus allowing any operator to change those votes. This gives the system operators carte blanche to adjudicate ballots, in this case 81.96% of the total cast ballots with no audit trail or oversight. [Image 10]:

7. On 12/8/2020 Microsoft issued 58 security patches across 10+ products, some of which were used for the election software machine, server and programs. Of the 58 security fixes 22, were patches to remote code execution (RCE) vulnerabilities. [Image 11]:

AMERICAN OVERSIGHT

8. We reviewed the Election Management System logs (EmsLogger) in their entirety from 9/19/2020 through 11/21/2020 for the Project: Antrim November 2020. There were configuration errors throughout the set-up, election and tabulation of results. The last error for Central Lake Township, Precinct 1 occurred on 11/21/2020 at 14:35:11 System.Xml.XmlException System.Xml.XmlException: The ' ' character, hexadecimal value 0x20, cannot be included in a name. Bottom line is that this is a calibration that rejects the vote (see picture below). [Image 12]:

AMERICAN OVERSIGHT

Notably 42 minutes earlier on Nov 21 2020 at 13:53:09 a user attempted to zero out election results. Id:3168 EmsLogger - There is no permission to {0} - Project: User: Thread: 189. This is direct proof of an attempt to tamper with evidence.

[redacted]

9. The Election Event Designer Log shows that Dominion ImageCast Precinct Cards were programmed with updated new programming on 10/23/2020 and again after the election on 11/05/2020. As previously mentioned, this violates the HAVA safe harbor period.

   Source: C:\Program Files\Dominion Voting Systems\Election Event Designer\Log\Info.txt

   - Dominion Imagecast Precinct Cards Programmed with 9/25/2020 programming on 09/29/2020, 09/30/2020, and 10/12/2020.
   - Dominion Imagecast Precinct Cards Programmed with New Ballot Programming dated 10/22/2020 on 10/23/2020 and after the election on 11/05/2020

   Excerpt from 2020-11-05 showing “ProgramMemoryCard” commands.

Attorneys for Plaintiffs

UNITED STATES DISTRICT COURT

DISTRICT OF ARIZONA

Kari Lake and Mark Finchem,

Plaintiffs,

v.

Kathleen Hobbs, as Arizona Secretary of State; Bill Gates, Clint Hickman, Jack Sellers, Thomas Galvin, and Steve Gallardo, in their capacity as members of the Maricopa County Board of Supervisors; Rex Scott, Matt Heinz, Sharon Bronson, Steve Christy, Adelita Grijalva, in their capacity as members of the Pima County Board of Supervisors,

Defendants.

No. _____

COMPLAINT

(Jury Trial Demanded)

1. This is a civil rights action for declaratory and injunctive relief to prohibit the use of electronic voting machines in the State of Arizona in the upcoming 2022 Midterm Election, slated to be held on November 8, 2022 (the "Midterm Election"), unless and until the electronic voting system is made open to the public and subjected to scientific analysis by objective experts to determine whether it is secure from manipulation or intrusion. The machine companies have consistently refused to do this.

AMERICAN OVERSIGHT

2. Plaintiffs have a constitutional and statutory right to have their ballots, and all ballots cast together with theirs, counted accurately and transparently, so that only legal votes determine the winners of each office contested in the Midterm Election. Electronic voting machines cannot be deemed reliably secure and do not meet the constitutional and statutory mandates to guarantee a free and fair election. The use of untested and unverified electronic voting machines violates the rights of Plaintiffs and their fellow voters and office seekers, and it undermines public confidence in the validity of election results. Just as the government cannot insist on "trust me," so too, private companies that perform governmental functions, such as vote counting, cannot be trusted without verification

3. Defendants each have duties to ensure elections held with a "maximum degree of correctness, impartiality, uniformity and efficiency on the procedures for early voting and voting, and of producing, distributing, collecting, counting, tabulating and storing ballots." A.R.S. § 16-452 (A). Defendants have fallen short of those duties, and they will do so again unless this Court intervenes.

4. For two decades, experts and policymakers from across the political spectrum have raised glaring failures with electronic voting systems. Indeed, just three months ago, a computer science expert in *Curling v. Raffensperger*, Case No. 1:17-cv-02989-AT (U.S. Dist. Ct., N.D. Ga.), identified catastrophic failures in electronic voting machines used in sixteen states, including Arizona. The expert testified that the failures include the ability to defeat all state safety procedures. This caused the Cybersecurity and Infrastructure Security Agency ("CISA") to enter an appearance and urge the federal district court to not allow disclosure of the

AMERICAN OVERSIGHT

expert's report detailing these failures. The district court refused to allow disclosure of that expert report to date. Secrecy destroys public confidence in our elections and election systems that result in secrecy undermine our democratic process.

5. The problems with the electronic voting systems are not only technical, but structural. To date, only three companies collectively provide voting machines and software for 90% of all eligible voters in the United States. Most of those machines are over a decade old, have critical components manufactured overseas in countries, some of which are hostile to the United States, and use software that is woefully outdated and vulnerable to catastrophic cyberattacks. Indeed, countries like France have banned the use of electronic voting machines due to lack of security and related vulnerabilities.

6. Given the limitations and flaws of existing technology, electronic voting machines cannot legally be used to administer elections today and for the foreseeable future, unless and until their current electronic voting system is objectively validated.

7. Through this Action, Plaintiffs seek an Order that Defendants collect and count votes through a constitutionally acceptable process, which relies on tried and true precepts that mandates integrity and transparency. This includes votes cast by hand on verifiable paper ballots that maintains voter anonymity; votes counted by human beings, not by machines; and votes counted with transparency, and in a fashion observable to the public.

8. It is important to note that this Complaint is not an attempt to undo the past. Most specifically, it is not about undoing the 2020 presidential election. It is only about the future – about upcoming elections that will employ voting machines designed and run by private

AMERICAN OVERSIGHT

companies, performing a crucial governmental function, that refuse to disclose their software and system components and subject them to neutral expert evaluation. It raises the profound constitutional issue: can government avoid its obligation of democratic transparency and accountability by delegating a critical governmental function to private companies?

I. INTRODUCTION

9. Defendant Hobbs, as Arizona Secretary of State and the chief election officer in Arizona, has violated state and federal law. Defendant Hobbs' violations include failing to:

- Achieve and maintain the maximum degree of correctness, impartiality, uniformity in elections.
- Ensure that all votes are counted safely, efficiently, and accurately.
- Ensure that all software code, firmware code, and hard-coded instructions on any hardware component used, temporarily or installed in the voting systems, precludes fraud or any unlawful act.
- Revoke the certification of electronic voting systems used in elections in Arizona.
- Demand access to the electronic voting system so that it can be examined by objective experts.

10. Defendant Hobbs intends to commit these same violations up to and during the Midterm Election.

11. Defendants Gates, Hickman, Sellers, Galvin, and Gallardo, as Members of the Maricopa County Board of Supervisors, have caused the use of election systems and equipment in Maricopa County that are rife with potentially glaring cybersecurity vulnerabilities, including

- Operating systems lacking necessary updates;
- Antivirus software lacking necessary updates;
- Open ports on the election management server, allowing for possible remote access;

AMERICAN OVERSIGHT

- Shared user accounts and common passwords;
- Anomalous, anonymous logins to the election management server;
- Unexplained creation, modification, and deletion of election files;
- Lost security log data;
- The presence of stored data from outside of Maricopa County;
- Unmonitored network communications;
- Unauthorized user internet or cellular access through election servers and devices.
- Secret content not subject to objective and public analysis.

12. Pima County uses election equipment and systems that are in substance and defect the same as the equipment and systems used in Maricopa County. Defendants Scott, Heinz, Bronson, Christy, and Grijalvaas, as Members of the Pima County Board of Supervisors, have caused the use of election systems and equipment in Pima County that are rife with the same glaring potential cybersecurity vulnerabilities present in the Maricopa County equipment.

13. Every county in Arizona intends to tabulate votes cast in the Midterm Elections through optical scanners, the vast majority of which are manufactured by Election Systems & Software ("ES&S") or Dominion Voting Systems ("Dominion").

14. After votes are tabulated at the county level using these machines through these companies' proprietary election management systems, the vote tallies will be uploaded over the internet to an election reporting system.

15. Some voters in Arizona will rely on electronic voting systems to cast their votes as well as tabulate them. Voters who may have hearing or visual impairments may cast their votes

AMERICAN OVERSIGHT

with the aid of electronic ballot marking devices manufactured primarily by ES&S or Dominion. These voters' electoral choices are even more vulnerable to attack and manipulation, as ballot marking devices pose significant security risks on their own.

16. Defendant Hobbs, through the website of the Office of the Arizona Secretary of State, has represented that counties throughout Arizona will rely on electronic voting systems in the Midterm Election.

17. Defendant Hobbs on or about November 5, 2019, certified the Dominion Democracy Suite 5.5b voting system for use in elections held in Arizona. This voting system, as well as the component parts identified above, will be used in the Midterm Election.

18. Defendant Hobbs after July 22, 2020, certified the ES&S ElectionWare 6.0.40 voting system, as well as its component parts, for use in elections held in Arizona. This voting system, as well as the component parts identified above, will be used in the Midterm Election.[1]

19. Defendant Hobbs's certification of the Dominion Democracy Suite 5.5b voting system, as well as its component parts, was improper, absent objective evaluation.

20. Defendant Hobbs's certification of the ES&S ElectionWare 6.0.40 voting system, as well as its component parts, was improper.

21. Defendant Hobbs has the authority to revoke the certification of every voting system, including all component parts thereto, certified by the State of Arizona. Defendant Hobbs has improperly failed to exercise that authority.

[1] See https://azsos.gov/elections/voting-election/voting-equipment.

AMERICAN OVERSIGHT

22. All optical scanners and ballot marking devices certified by Arizona, as well as the software on which they rely, have been wrongly certified for use in Arizona. These systems are potentially unsecure, lack adequate audit capacity, fail to meet minimum statutory requirements, and deprive voters of the right to have their votes counted and reported in an accurate, auditable, legal, and transparent process. Using them in the upcoming elections, without objective validation, violates the voting rights of every Arizonan.

23. All electronic voting machines and election management systems, including those slated to be used in Arizona in the Midterm Election, can be manipulated through internal or external intrusion to alter votes and vote tallies.

24. Specific vulnerabilities in the electronic voting machines used by Maricopa County have been explicitly identified and publicized in analyses by cybersecurity experts, even absent access to the systems.

25. Substantially similar vulnerabilities in electronic voting machines in general have been identified and publicized in analyses presented to various congressional committees. All electronic voting machines can be connected to the internet or cellular networks, directly or indirectly, at various steps in the voting, counting, tabulating, and/or reporting process.

26. Voting machines and systems used in Arizona contain electronic components manufactured or assembled in foreign nations which have attempted to manipulate the results of U.S. elections.

AMERICAN OVERSIGHT

27. Electronic voting machines and software manufactured by industry leaders, specifically including Dominion and ES&S, are vulnerable to cyberattacks before, during, and after an election in a manner that could alter election outcomes.

28. These systems can be connected to the internet or cellular networks, which provides an access point for unauthorized manipulation of their software and data. They often rely on outdated versions of Windows, which lack necessary security updates. Both of these common shortcomings leave the systems vulnerable to generalized, widespread-effect attacks.

29. Since 2000, alleged, attempted, and actual illegal manipulation of votes through electronic voting machines has apparently occurred on multiple occasions.

30. Expert testimony demonstrates that all safety measures intended to secure electronic voting machines against manipulation of votes, such as risk limiting audits and logic and accuracy tests, can be defeated.

31. Other countries, including France and Taiwan, have completely or largely banned or limited the use of electronic voting machines due to the security risks they present.

32. Arizona's electronic election infrastructure is potentially susceptible to malicious manipulation that can cause incorrect counting of votes. Despite a nationwide bipartisan consensus on this risk, election officials in Arizona continue to administer elections dependent upon unreliable, insecure electronic voting systems. These officials, including Defendants in Maricopa County, refuse to take necessary action to address known and currently unknown election security vulnerabilities, and in some cases have obstructed court authorized inspections of their electronic voting systems.

AMERICAN OVERSIGHT

33. Plaintiffs seek the intervention of this Court because the Secretary of State and county officials throughout the State have failed to take constitutionally necessary measures to protect voters' rights to a secure and accurately counted election process. The State of Arizona and its officials bear a legal, constitutional, and ethical obligation to secure the State's electoral system, but they lack the will to do so.

I. PARTIES

34. Plaintiff Kari Lake is a candidate for Governor of Arizona, an office she seeks in the Midterm Election.

35. Plaintiff Kari Lake is also a resident of the State of Arizona, registered to vote in Maricopa County, who intends to vote in Arizona in the Midterm Election.

36. Plaintiff Mark Finchem is a sitting member of the Arizona House of Representatives and a candidate for Secretary of State of Arizona, an office he seeks in the Midterm Election.

37. Plaintiff Mark Finchem is also a resident of the State of Arizona, registered to vote in Pima County, who intends to vote in Arizona in the Midterm Election.

38. Plaintiff Lake has standing to bring this action as an intended voter in the Midterm Election and as a "qualified elector" under A.R.S. § 16-121. As a candidate for Governor of Arizona Plaintiff Lake further has standing as an aggrieved person to bring this action.

39. Plaintiff Finchem, in his capacity as a member of the Arizona House of Representatives charged with upholding the Constitution of the United States, has standing to bring this action.

AMERICAN OVERSIGHT

40. Plaintiff Finchem has standing to bring this action as an intended voter in the Midterm Election and as a "qualified elector" under A.R.S. § 16-121. As a candidate for Secretary of State of Arizona Plaintiff Finchem further has standing as an aggrieved person to bring this action.

41. Defendant Hobbs is, through this Complaint, sued for prospective declaratory and injunctive relief in her official capacity as the Secretary of State of Arizona, together with any successor in office automatically substituted for Defendant Hobbs by operation of Fed. R. Civ. P. 25(d).

42. In her official capacity, Defendant Hobbs is the chief election officer for the State of Arizona. Defendant Hobbs is responsible for the orderly and accurate administration of public election processes in the state of Arizona. This responsibility includes a statutory duty to ensure that "satisfactorily tested" voting systems are used to administer public elections, A.R.S. § 16-441, and to conduct any reexaminations of previously adopted voting systems, upon request or at Defendant Hobbs's own discretion.

43. Defendant Hobbs is further required by law to determine the voting equipment that is to be used to cast and count the votes in all county, state, and federal elections in Arizona. A.R.S. §§ 16-446, 16-452.

44. Defendants Bill Gates, Clint Hickman, Jack Sellers, Thomas Galvin, and Steve Gallardo (collectively "Maricopa Defendants") are sued for prospective declaratory and injunctive relief in their official capacities as members of the Maricopa County Board of Supervisors ("Maricopa Board").

AMERICAN OVERSIGHT

45. Defendants Scott, Heinz, Bronson, Christy, and Grijalva (collectively "Pima Defendants") are sued for prospective declaratory and injunctive relief in their official capacities as members of the Pima County Board of Supervisors ("Pima Board").

46. Under A.R.S. § 16-452 (A), the Maricopa Board and the Pima Board are vested with the authority to:

- "[e]stablish, abolish and change election precincts, appoint inspectors and judges of elections, canvass election returns, declare the result and issue certificates thereof…";
- "[a]dopt provisions necessary to preserve the health of the county, and provide for the expenses thereof";
- "[m]ake and enforce necessary rules and regulations for the government of its body, the preservation of order and the transaction of business."

II. JURISDICTION AND VENUE

47. Plaintiffs bring this action under 42 U.S.C. § 1983 and the cause of action recognized in *Ex parte Young*, 209 U.S. 123 (1908), and its progeny to challenge government officers' "ongoing violation of federal law and [to] seek[] prospective relief" under the equity jurisdiction conferred on federal district courts by the Judiciary Act of 1789.

48. This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331, 1343 because this action seeks to protect civil rights under the Fourteenth Amendment to the United States Constitution.

49. This Court has supplemental jurisdiction over Plaintiffs' claims under 28 U.S.C. § 1367.

50. This Court has authority to grant declaratory relief based on 28 U.S.C. §§ 2201 & 2202, and Rule 57 of the Federal Rules of Civil Procedure.

AMERICAN OVERSIGHT

51. This Court has jurisdiction to grant injunctive relief based on 28 U.S.C. § 1343(a)(3) and authority to do so under Federal Rule of Civil Procedure 65.

52. This Court has jurisdiction to award nominal and compensatory damages under 28 U.S.C. § 1343(a)(4).

53. This Court has authority to award reasonable attorneys' fees and costs. 28 U.S.C. § 1920 and 42 U.S.C. § 1988(b).

54. Venue is proper in this Court under 28 U.S.C. § 1391(b) because a substantial part of the events or omissions giving rise to Plaintiff's claims occurred in this District.

55. This Court has personal jurisdiction over all Defendants because all defendants reside and are domiciled in the State of Arizona. Requiring Defendants to litigate these claims in the United States District Court for the District of Arizona does not offend traditional notions of fair play and substantial justice and is permitted by the Due Process Clause of the United States Constitution.

III. FACTUAL ALLEGATIONS

A. Background

56. Arizona intends to rely on electronic voting systems to record some votes and to tabulate *all* votes cast in the State of Arizona in the 2022 Midterm Election, without disclosing the systems and subjecting them to neutral, expert analysis.[2]

[2] https://verifiedvoting.org/verifier/#mode/navigate/map/ppEquip/mapType/normal/year/2022/state/4

AMERICAN OVERSIGHT

57. Prior to 2002, most states, including Arizona, conducted their elections overwhelmingly using relatively secure, reliable, and auditable paper-based systems.

58. After the recount of the 2000 presidential election in Florida and the ensuing *Bush v. Gore* decision, Congress passed the Help America Vote Act in 2002.[3] In so doing, Congress opened the proverbial spigot. Billions of federal dollars were spent to move states, including Arizona, from paper-based voting systems to electronic, computer-based systems.

59. Since 2002, elections throughout the United States have increasingly and largely been conducted using a handful of computer-based election management systems. These systems are created, maintained, and administered by a small number of companies having little to no transparency to the public, producing results that are far more difficult to audit than paper-based systems, and lack any meaningful federal standards or security requirements beyond what individual states may choose to certify. Leaders of both major parties have expressed concern about this lack of transparency, analysis and accountability.

60. As of 2019, Dominion, ES&S, and one other company (Hart InterCivic) supplied more than ninety percent of the nationwide "voting machine market."[4] Dominion and ES&S control even more than that share of the market in Arizona. All three of these providers' electronic voting machines can be hacked or compromised with malware, as has been demonstrated by recognized computer science experts, including experts from the University of

[3] 52 U.S.C. § 20901 *et seq*.

[4] Pam Fessler & Johnny Kauffman, *Trips to Vegas and Chocolate-Covered Pretzels: Election Vendors Come Under Scrutiny*, NPR (May 2, 2019) (https://www.npr.org/2019/05/02/718270183/trips-to-vegas-and-chocolate-covered-pretzels-election-vendors-come-under-scruti).

AMERICAN OVERSIGHT

Michigan, Princeton University, Georgetown University, and other institutions and presented to various congressional committees. All can be, and at various steps in the voting, counting, tabulating, and/or reporting process are designed to be, connected to the internet or cellar networks, directly or indirectly.

61. This small cadre of companies supplies the hardware and software for the electronic voting machines, in some cases manages the voter registration rolls, maintains the voter records, partially manages the elections, programs the vote counting, and reports the election results.

62. Jurisdictions throughout the nation, including Arizona, have functionally outsourced all election operations to these private companies. In the upcoming Midterm Election, over three thousand counties across the United States will have delegated the governmental responsibility for programming and administering elections to private contractors.

63. This includes all counties in Arizona, most of which have contracted with Dominion or ES&S to provide machines, software, and services for the Midterm Election. For example, in Defendant Maricopa County, officials do not possess credentials necessary to validate tabulator configurations and independently validate the voting system prior to an election. Dominion maintains those credentials.

64. By its own account, Dominion provides an "End-To-End Election Management System" that "[d]rives the entire election project through a single comprehensive database."[5] Its

[5] DEMOCRACY SUITE® ELECTION MANAGEMENT SYSTEM, https://www.dominionvoting.com/democracy-suite-ems/ (last visited Apr. 22, 2022).

AMERICAN OVERSIGHT

tools "build the election project," and its technology provides "solutions" for "voting & tabulation," and "tallying & reporting," and "auditing the election." The products sold by Dominion include ballot marking machines, tabulation machines, and central tabulation machines, among others.

65. Dominion, in its normal course of business, including the Midterm Election in Arizona, manufactures, distributes, and maintains voting hardware and software. Dominion also executes software updates, fixes, and patches for its voting machines and election management systems.

66. After votes are tabulated at the county level using Dominion's electronic election management system in the Midterm Election, the vote tallies will be uploaded over the internet to an election reporting system.

67. Dominion's machines and systems range from the "election event designer"—software that creates the ballots voters will mark while voting, as well as programing the tabulators of those votes—to the devices on which voters mark their votes ("ballot marking devices," or "BMDs"), to the machines that tabulate the votes at the precinct level, to the machines that receive and tabulate the various precinct results ("centralized tabulation"), to the systems and options for transmitting those results from the BMD to the precinct tabulator to the central tabulator to, ultimately, the official government authority responsible for certifying the election results. In the Midterm Election, many Arizonans will cast their votes on Dominion BMDs, while nearly *all* Arizonans will have their votes tabulated with Dominion machines.

AMERICAN OVERSIGHT

68. Dominion controls the administration and conduct of the elections in those jurisdictions where its systems are deployed, including Arizona. Any vulnerabilities or weaknesses in Dominion's systems, at the very least, call into question the integrity and reliability of all election results coming from those jurisdictions. Dominion has refused to disclose its software and other parts of its electronic voting systemin order to subject it to neutral expert evaluation.

69. As an example, following the 2020 election an audit of election processes and results in Maricopa County, Arizona was ordered. It was concluded that:

- "The official result totals do not match the equivalent totals from the Final Voted File (VM55). These discrepancies are significant with a total ballot delta of 11,592 between the official canvass and the VM55 file when considering both the counted and uncounted ballots.";

- "…a large number of files on the Election Management System (EMS) Server and HiPro Scanner machines were deleted including ballot images, election related databases, result files, and log files. These files would have aided in our review and analysis of the election systems as part of the audit. The deletion of these files significantly slowed down much of the analysis of these machines. Neither of the 'auditors' retained by Maricopa County identified this finding in their reports."; and

- "Despite the presence of at least one poll worker laptop at each voting center, the auditors did not receive laptops or forensic copies of their hard drives. It is unknown, due to the lack of this production, whether there was unauthorized access, malware present or internet access to these systems."

B. Decades of Evidence Prove Electronic Voting Systems Do Not Provide a Secure, Transparent, or Reliable Vote

70. Over the last two decades the United States has transitioned from a safe, secure, auditable paper-based system to an inherently vulnerable, network-exposed electronic equipment-based system. The transition to increased reliance on electronic systems and

AMERICAN OVERSIGHT

computer technology has created unjustified new risks of hacking, election tampering, and electronic voting fraud.

71. With each passing election the unreliability of electronic voting machines has become more apparent. In light of this experience, the vote tallies reported by electronic voting machines cannot, without objective evaluation, be trusted to accurately show which candidates actually received the most votes.

72. Credible allegations of electronic voting machine "glitches" that materially impacted specific races began to emerge in 2002. *Black Box Voting,* the seminal publication documenting early pitfalls of electronic voting systems, chronicles the following failures:

> In the Alabama 2002 general election, machines made by Election Systems and Software (ES&S) flipped the governor's race. Six thousand three hundred Baldwin County electronic votes mysteriously disappeared after the polls had closed and everyone had gone home. Democrat Don Siegelman's victory was handed to Republican Bob Riley, and the recount Siegelman requested was denied. Six months after the election, the vendor shrugged. "Something happened. I don't have enough intelligence to say exactly what," said Mark Kelley of ES&S.
>
> […]
>
> In the 2002 general election, a computer miscount overturned the House District 11 result in Wayne County, North Carolina. Incorrect programming caused machines to skip several thousand partyline votes, both Republican and Democratic. Fixing the error turned up 5,500 more votes and reversed the election for state representative.
>
> […]
>
> Voting machines failed to tally "yes" votes on the 2002 school bond issue in Gretna, Nebraska. This error gave the false impression that the measure had failed miserably, but it actually passed by a 2 to 1 margin. Responsibility for the errors was attributed to ES&S, the Omaha company that had provided the ballots and the machines.
>
> […]
>
> In the November 2002 general election in Scurry County, Texas, poll workers got suspicious about a landslide victory for two Republican commissioner candidates. Told that a "bad chip" was to blame, they had a new computer chip flown in and also counted

AMERICAN OVERSIGHT

the votes by hand — and found out that Democrats actually had won by wide margins, overturning the election.[6]

73. By 2004, explicit evidence that electronic voting machines were susceptible to intentional manipulation, and that malicious actors sought to exploit this vulnerability, became public. In that year, cyber expert Clint Curtis testified under oath before the House Judiciary Committee that he had previously been hired to create a program that would change the results of an election without leaving any trace of the change. He claimed he wrote this program with ease. Mr. Curtis' testimony can be watched here: https://www.youtube.com/watch?v=JEzY2tnwExs.

74. During the next election cycle, in 2006, a team of computer scientists at Princeton University analyzed the Diebold AccuVote-TS voting machine, then one of the most widely-deployed electronic voting platforms in the United States. They found, "Malicious software running on a single voting machine can steal votes with little risk of detection. The malicious software can modify all of the records, audit logs, and counters kept by the voting machine, so that even careful forensic examination of these records will find nothing amiss. . . . Anyone who has physical access to a voting machine, or to a memory card that will later be inserted into a machine, can install said malicious software using a simple method that takes as little as one minute. . . . AccuVote-TS machines are susceptible to voting machine viruses – computer viruses that can spread malicious software automatically and invisibly from machine to machine during normal pre- and post-election activity." The Princeton team prepared a video demonstration showing how malware could flip votes. In the video, mock election votes were

[6] Available at https://blackboxvoting.org/black-box-voting-book/.

AMERICAN OVERSIGHT

cast in favor of George Washington by a 4 to 1 margin, but the paper print-out that reported the results showed Benedict Arnold prevailing by a margin of 3 to 2. Malicious vote-stealing malware was the sole reason for reallocation of votes. The malware deleted itself after the election, leaving no evidence that the voting machine was ever hijacked or any votes stolen.

75. In 2009 Diebold sold (at a loss) "Premier," its electronic voting systems business unit, which by then was known for its technical problems and unreliable security and accuracy. The Premier intellectual property passed (from ES&S) to Dominion in May 2010. That intellectual property included the GEMS election management system software. Dominion quickly incorporated GEMS into its own products and by 2011 was selling election equipment that had updated GEMS software at its heart. But GEMS was notorious for being, according to Harper's Magazine, "a vote rigger's dream" that "could be hacked, remotely or on-site, using any off-the-shelf version of Microsoft Access, and password protection was missing for supervisor function." Lack of encryption on its audit logs "allowed any trace of vote rigging to be wiped from the record." Computer scientists from Johns Hopkins University and Rice University found GEMS "far below even the most minimal security standards applicable in other contexts" and "unsuitable for use in a general election."

76. In 2015 the Brennan Center for Justice issued a report listing two and a half-pages of instances of issues with voting machines, including a 2014 investigation which found "voters in Virginia Beach observed that when they selected one candidate, the machine would register

AMERICAN OVERSIGHT

their selection for a different candidate."[7] The investigation also found that the Advanced Voting Solutions WINVote machine, which is Wi-Fi-enabled, "had serious security vulnerabilities" because wireless cards on the system could allow "an external party to access the [machine] and modify the data [on the machine] without notice from a nearby location," and "an attacker could join the wireless ad-hoc network, record voting data or inject malicious [data.]"

77. In 2016, following in the footsteps of the Johns Hopkins, Rice, and 2006 Princeton teams, Princeton Professor of Computer Science Andrew Appel told an interviewer how he had purchased a voting machine for $82 on the internet – the Sequoia AVC Advantage, still set to be used in the 2016 election in a number of states – and replaced the machine's ROM chips in mere minutes using little more than a screwdriver, thereby "throw[ing] off the machine's results, subtly altering the tally of votes, never to betray a hint to the voter."[8]

[7] Lawrence Norden and Christopher Famighetti, *America's Voting Machines at Risk*, Brennan Center for Justice, p.13 (Sep. 15, 2014) (available at https://www.brennancenter.org/our-work/research-reports/americas-voting-machines-risk).

[8] Ben Wofford, *How to Hack an Election in 7 Minutes,* Politico (Aug. 5, 2016) (https://www.politico.com/magazine/story/2016/08/2016-elections-russia-hack-how-to-hack-an-election-in-seven-minutes-214144/).

AMERICAN OVERSIGHT

78. During that 2016 election cycle evidence emerged of foreign state actors seeking to affect U.S. voting. "Russian agents probed voting systems in all 50 states, and successfully breached the voter registration systems of Arizona and Illinois."[9] The Robert Mueller report and an indictment of twelve Russian agents later confirmed that Russian hackers had targeted vendors that provide election software, and Russian intelligence officers "targeted employees of [REDACTED], a voting technology company that developed software used by numerous U.S. counties to manage voter rolls, and installed malware on the company network."[10]

79. After these revelations about the 2016 election, Jake Braun, a former security advisor for the Obama administration and organizer of the DEFCON Hacking Conference was

AMERICAN OVERSIGHT

asked in 2017, "Do you believe that right now, we are in a position where the 2020 election will be hacked?" He answered, "Oh, without question. I mean the 2020 election will be hacked no matter what we do."

80. Following a 2017 runoff election in a Georgia congressional race, an advocacy organization and individual voters filed suit in federal district court seeking to set aside the results. They alleged the election "took place in an environment in which sophisticated hackers – whether Russian or otherwise – had the capability and intent to manipulate elections in the United States" and had "easy access" to do so.

81. The Georgia plaintiffs supported their allegations with expert testimony from Logan Lamb, who testified that he freely accessed official Georgia state election files hosted on an "elections.kennesaw.edu" server, including voter histories and personal information of all Georgia voters; tabulation and memory card programming databases for past and future elections; instructions and passwords for voting equipment administration; and executable programs controlling essential election resources. Lamb stated that these sensitive files had been publicly exposed for so long that Google had cached (i.e., saved digital backup copies of) and published the pages containing many of them. Lamb said the publicly accessible files created and maintained on this server were used to program virtually all other voting and tabulation equipment used in Georgia's elections.

82. Another piece of expert evidence in the Georgia litigation is a declaration from Harri Hurst dated August 24, 2020 in which Hursti concludes that "the voting system is being operated in Fulton County in a manner that escalates the security risk to an extreme level."

AMERICAN OVERSIGHT

Hursti based this conclusion in part on his observations that optical scanners would inexplicably reject ballots; that the optical scanners would experience lengthy and unexplained scanning delays; that the vendor, Dominion, failed to ensure a trained technician was on-site to address problems with its equipment; that Dominion employees interfered with Hursti's efforts to observe the upload of memory devices; that Dominion refused to cooperate with county personnel; and that computers running Dominion software were vulnerable due to inadequate "hardening" against a security attack.[11]

83. The Georgia plaintiffs asked the court to enter a preliminary injunction barring Georgia in the 2020 general election from using certain Dominion electronic voting machines. On October 11, 2020, the federal court issued an order finding substantial evidence that the system was plagued by security risks and the potential for votes to be improperly rejected or misallocated. It wrote, "The Plaintiffs' national cybersecurity experts convincingly present evidence that this is not a question of 'might this actually ever happen?' – but 'when it will happen.'"

84. In 2019 a group of election security experts found "nearly three dozen backend election systems in 10 states connected to the internet over the last year," including in "critical swing states" Wisconsin, Michigan, and Florida. Some of the jurisdictions "were not aware that their systems were online" and were "publicly saying that their systems were never connected to

[11] *Curling v. Raffensperger*, Case No. 1:17-cv-02989-AT (U.S. Dist. Ct., N.D. Ga.), ECF Doc. 809-3.

AMERICAN OVERSIGHT

the internet because they didn't know differently."[12] The Associated Press reported that the vast majority of 10,000 election jurisdictions nationwide were still using Windows 7 or older operating systems to create ballots, program voting machines, tally votes, and report counts, which was a problem because "Windows 7 reaches its 'end of life' on Jan. 14 [2020], meaning Microsoft stops providing technical support and producing "patches" to fix software vulnerabilities, which hackers can exploit."[13]

85. In March 2020, the documentary *Kill Chain: The Cyber War on America's Elections* detailed the vulnerability of electronic voting machines. In the film, Hursti showed that he hacked digital election equipment to change votes back in 2005, and said the same Dominion machine that he hacked in 2005 was slated for use in 20 states for the 2020 election. *Kill Chain* also included facts about a Georgia election in which one machine out of seven in a precinct registered a heavy majority of Republican votes, while every other machine in the precinct registered a heavy majority of Democratic votes. Dr. Kellie Ottoboni, Department of Statistics, UC Berkeley, stated the likelihood of this happening by chance was less than one in a million.[14]

AMERICAN OVERSIGHT

C. Electronic Voting Systems Manufacturers Source and Assemble Their Components in Hostile Nations

86. Electronic voting machines are also vulnerable to malicious manipulation through illicit software installed on their component parts during the manufacturing process. The Congressional Task Force on Election Security's Final Report in January 2018 stated, "many jurisdictions are using voting machines that are highly vulnerable to an outside attack," in part because "many machines have foreign-made internal parts." Therefore, "'[A] hacker's point-of-entry into an entire make or model of voting machine could happen well before that voting machine rolls off the production line.'"[15]

87. Computer server security breaches as a result of hardware manufactured in China have been discovered by the U.S. Department of Defense (2010), Intel Corp. (2014), an FBI

[15] CONGRESSIONAL TASK FORCE ON ELECTION SECURITY, FINAL REPORT at 25 (2018) (https://homeland.house.gov/imo/media/doc/TFESReport.pdf).

AMERICAN OVERSIGHT

investigation that affected multiple companies (2015), and a government contractor providing intelligence services (2018).[16]

88. Leading electronic voting machine manufacturers source many parts from China, Taiwan, and the Philippines.[17]

D. State and Federal Lawmakers from Both Parties Have Long Been Aware of the Problems with Electronic Voting Systems

89. As the years passed and the evidence mounted, lawmakers and officials throughout the nation have realized these problems with electronic voting machines cannot be ignored.

90. The Congressional Task Force on Election Security issued a Final Report in January 2018 that identified the vulnerability of U.S. elections to foreign interference:[18] "According to DHS, Russian agents targeted election systems in at least 21 states, stealing personal voter records and positioning themselves to carry out future attacks. . . media also reported that the Russians accessed at least one U.S. voting software supplier . . . in most of the targeted states officials saw only preparations for hacking . . . [but] in Arizona and Illinois, voter registration databases were reportedly breached. . . If 2016 was all about preparation, what more

[17] Ben Popken, Cynthia McFadden and Kevin Monahan, *Chinese parts, hidden ownership, growing scrutiny: Inside America's biggest maker of voting machines*, NBC News (Dec. 19, 2019) (https://www.nbcnews.com/news/all/chinese-parts-hidden-ownership-growing-scrutiny-inside-america-s-biggest-n1104516).

[18] CONGRESSIONAL TASK FORCE ON ELECTION SECURITY, FINAL REPORT (2018) (https://homeland.house.gov/imo/media/doc/TFESReport.pdf).

AMERICAN OVERSIGHT

can they do and when will they strike? . . . [W]hen asked in March about the prospects for future interference by Russia, then-FBI Director James Comey testified before Congress that: '[T]hey'll be back. They'll be back in 2020. They may be back in 2018.'"[19]

91. In a March 21, 2018 hearing held by the Senate Intelligence Committee relating to potential foreign interference in the 2016 election, Senator Ron Wyden warned that:

> Forty-three percent of American voters use voting machines that researchers have found have serious security flaws including backdoors. These companies are accountable to no one. They won't answer basic questions about their cyber security practices and the biggest companies won't answer any questions at all. Five states have no paper trail and that means there is no way to prove the numbers the voting machines put out are legitimate. So much for cyber-security 101… The biggest seller of voting machines is doing something that violates cyber-security 101, directing that you install remote-access software which would make a machine like that a magnet for fraudsters and hackers.

92. Senator Wyden did not see his concerns addressed. On December 6, 2019, he, along with his Democratic colleagues in Congress – Senator Elizabeth Warren, Senator Amy Klobuchar, and Congressman Mark Pocan – published an open letter concerning major voting system manufacturers. In the letter, they identified numerous problems:

- "trouble-plagued companies" responsible for manufacturing and maintaining voting machines and other election administration equipment, "have long skimped on security in favor of convenience," leaving voting systems across the country "prone to security problems."

- "the election technology industry has become highly concentrated ... Today, three large vendors – Election Systems & Software, Dominion, and Hart InterCivic – collectively provide voting machines and software that facilitate voting for over 90% of all eligible voters in the United States."

- "Election security experts have noted for years that our nation's election systems and infrastructure are under serious threat. . . . voting machines are reportedly

[19] *Id*. at 6-7.

AMERICAN OVERSIGHT

falling apart, across the country, as vendors neglect to innovate and improve important voting systems, putting our elections at avoidable and increased risk. . . . Moreover, even when state and local officials work on replacing antiquated machines, many continue to 'run on old software that will soon be outdated and more vulnerable to hackers.'"

- "[J]urisdictions are often caught in expensive agreements in which the same vendor both sells or leases, and repairs and maintains voting systems-leaving local officials dependent on the vendor, and the vendor with little incentive to substantially overhaul and improve its products.[]"

93. Senator Warren, on her website, identified an additional problem: "These vendors make little to no information publicly available on how much money they dedicate to research and development, or to maintenance of their voting systems and technology. They also share little or no information regarding annual profits or executive compensation for their owners."

94. During a Senate Judiciary Committee hearing in June 2018, then-Senator Kamala Harris warned that, in a demonstration for lawmakers at the Capitol, election machines were "hacked" before the lawmakers' eyes. Two months later, Senator Klobuchar stated on national television, "I'm very concerned you could have a hack that finally went through. You have 21 states that were hacked into, they didn't find out about it for a year."

95. While chairing the House Committee on Homeland Security in July of 2018, Republican Congressman Michael McCaul decried, "Our democratic system and critical infrastructures are under attack. In 2016, Russia meddled in our Presidential election through a series of cyber attacks and information warfare. Their goals were to undermine the credibility of the outcome and sow discord and chaos among the American people…."

96. Senator Wyden stated in an interview, "[T]oday, you can have a voting machine with an open connection to the internet, which is the equivalent of stashing American ballots in

AMERICAN OVERSIGHT

the Kremlin. . . . [As] of today, what we see in terms of foreign interference in 2020 is going to make 2016 look like small potatoes. This is a national security issue! . . . The total lack of cybersecurity standards is especially troubling . . . But the lack of cybersecurity standards leads local officials to unwittingly buy overpriced, insecure junk. Insecure junk guarantees three things: a big payday for the election-tech companies, long lines on Election Day, and other hostile foreign governments can influence the outcome of elections through hacks."

97. In March of 2022, White House press secretary Jen Psaki said the Russian government in 2016 "hacked our election here" in the United States.

98. The following month, Dara Lindenbaum, a nominee to serve on the Federal Election Commission, testified before the Senate Rules and Administration Committee. Lindenbaum was asked about her role as an election lawyer representing Stacey Abrams's campaign for governor of Georgia in 2018. Lindenbaum acknowledged she had alleged voting machines were used to illegally switch votes from one candidate to another during the 2018 election in Georgia. [20]

99. Dominion presented its Democracy Suite 5.5-A voting system to the State of Texas for certification to be used in public elections in Texas. In January 2019, the State of Texas rejected Dominion's application and refused to certify Democracy Suite 5.5-A. On October 2 and 3, 2019, Dominion presented Democracy Suite 5.5-A to the State of Texas for examination a second time, seeking certification for use in public elections in Texas. Again,

[20] PN1758 — Dara Lindenbaum — Federal Election Commission, https://www.congress.gov/nomination/117th-congress/1758; https://www.youtube.com/watch?v=wCPLL_D_spc

AMERICAN OVERSIGHT

Democracy Suite 5.5-A failed the test. On January 24, 2020, the Texas Secretary of State denied certification of the system for use in Texas elections.

100. The experts designated by Texas to evaluate Democracy Suite 5.5-A flagged risk from the system's connectivity to the internet despite "vendor claims" that the system is "protected by hardening of data and IP address features," stating, "[T]he machines could be vulnerable to a rogue operator on a machine if the election LAN is not confined to just the machines used for the election . . . The ethernet port is active on the ICX BMD during an election. . . . This is an unnecessary open port during the voting period and could be used as an attack vector." Other security vulnerabilities found by Texas include use of a "rack mounted server" which "would typically be in a room other than a room used for the central count" and would present a security risk "since it is out of sight." In summary, "The examiner reports identified multiple hardware and software issues . . . . Specifically, the examiner reports raise concerns about whether the Democracy Suite 5.5-A system is suitable for its intended purpose; operates efficiently and accurately; and is safe from fraudulent or unauthorized manipulation."

101. The Texas Attorney General explained, "We have not approved these voting systems based on repeated software and hardware issues. It was determined they were not accurate and that they failed — they had a vulnerability to fraud and unauthorized manipulation."

102. Dominion's DVS 5.5-B voting system, set to be used in the Midterm Election in Arizona, is substantially similar to the 5.5-A system that twice failed certification in Texas.

AMERICAN OVERSIGHT

103. Though Texas did certify ES&S electronic voting machines for use in Texas, ES&S voting systems are, like Dominion's voting systems, opaque, easily hacked, and vulnerable to incorporation of compromised components through ES&S's supply chain.

E. Electronic Voting Machine Companies Have Not Been Transparent Concerning Their Systems

104. Election officials and voting system manufacturers have publicly denied that their election equipment is connected to the internet in order to assert the equipment is not susceptible to attack via a networked system.[21]

105. John Poulous, the CEO of Dominion Voting Systems, testified in December 2020 that Dominion's election systems are "closed systems that are not networked meaning they are not connected to the internet." This is false.

106. In a May 2016 interview, Dominion Vice President Goran Obradovic stated, "All devices of the ImageCast series have additional options such as modems for wireless and wired transfer of results from the very polling place…."[22] During the 2020 election Dominion election equipment was connected to the internet when it should not have been.[23] A Dominion representative in Wayne County, Michigan stated that during the voting in the 2020 election

AMERICAN OVERSIGHT

there were irregularities with Dominion's election equipment, including that equipment was connected to the internet and equipment had scanning issues.

107. On Monday, November 2, 2020, the day before the 2020 election, Dominion uploaded software updates into election equipment that Dominion had supplied in the United States.[24] These software updates were unplanned and unannounced. In some counties in Georgia, Dominion's software update caused election equipment to malfunction the next day during the election. The supervisor of one County Board of Elections stated that Dominion "uploaded something last night, which is not normal, and it caused a glitch," and "[t]hat is something that they don't ever do. I've never seen them update anything the day before the election." Dominion had earlier publicly denied that any updates just prior to election day were made and that its election equipment was connected to the internet—both of which were false statements.[25]

108. In December 2020, the Department of Homeland Security's Cybersecurity & Infrastructure Agency ("CISA") revealed that malicious hackers had compromised and exploited SolarWinds Orion network management software products.[26] On April 15, 2021, the White

AMERICAN OVERSIGHT

House announced imposition of sanctions on Russia in response to Russian "malicious cyber activities, such as the SolarWinds incident."[27]

109. Dominion CEO John Poulos stated that Dominion did not use SolarWinds.

110. Dominion in fact did use SolarWinds. Dominion's website formerly displayed a SolarWinds logo, but that logo was removed.

111. Dominion refuses to provide access to allow the public to forensically investigate its "proprietary" software, machines, and systems, to determine whether its election equipment is secure, has been hacked, or has malware installed.

112. No electronic voting system to be used in Arizona in the Midterm Election employs "open source" technology, which is electronic equipment for which the details of the components of the system, including its software, is published and publicly accessible. Though Dominion and E&S do not offer open source voting technology, it has been available to Defendants from other vendors for years.

[27] The White House, *Fact Sheet: Imposing Costs for Harmful Foreign Activities by the Russian Government* (Apr. 15, 2021) (https://www.whitehouse.gov/briefing-room/statements-releases/2021/04/15/fact-sheet-imposing-costs-for-harmful-foreign-activities-by-the-russian-government/).

AMERICAN OVERSIGHT

113. Defendants have failed or refused to institute open source voting technologies in Arizona, even though such technology would promote both security and transparency, as voters and office-seekers throughout Arizona would know the specific risks to, or manipulation of, election results.

114. This lack of transparency by electronic voting machine companies has created a "black box" system of voting which lacks credibility and integrity.

F. Irregularities and Evidence of Illegal Vote Manipulations in Electronic Voting Systems During the 2020 General Election Have Been Found

115. Evidence has been found of illegal vote manipulation on electronic voting machines during the 2020 election.

116. Dominion Democracy Suite software was used to tabulate votes in 62 Colorado counties, including Mesa County and Elbert County, during the 2020 election. Subsequent examination of equipment from Mesa County and Elbert County showed the Democracy Suite software created unauthorized databases on the hard drive of the election management system servers. On March 21, 2022, electronic database expert Jeffrey O'Donnell and computer science expert Dr. Walter Daugherty published a report concluding that ballots were manipulated in the unauthorized databases on the Mesa County server during Colorado's November 2020 and April 2021 elections.

117. On February 28, 2022, and after a comprehensive review of the Dominion systems used in Colorado, cybersecurity expert Douglas Gould published a report concluding that the system was "configured to automatically overwrite log files that exceed 20 MB, thereby

AMERICAN OVERSIGHT

violating federal standards that require the preservation of log files," that it was configured "to allow any IP address in the world to access the SQL service port, (1433), which violates 2002 VSS security standards," and that it "uses generic user IDs and passwords and a common shared password, some of which have administrative access," in violation of 2002 VSS security standards.

118. Electronic forensic experts examined equipment used in Michigan to administer voting during the 2020 election and concluded the equipment had been connected to the internet, either by Wi-Fi or a LAN wire, that there were multiple ways the election results could have been modified without leaving a trace; and the same problems have been around for 10 years or more. One expert "examined the forensic image of a Dominion ICX system utilized in the November 2020 election and discovered evidence of internet communications to a number of public and private IP addresses."

119. In Wisconsin, during the voting in the 2020 election, Dominion election equipment that was not supposed to be connected to the internet was connected to a "hidden" Wi-Fi network.[28]

120. In April 2021, the Biden administration announced sanctions against Russia for election interference and hacking in the 2020 United States presidential election.[29]

[28] M.D. Kittle, *Emails: Green Bay's 'Hidden' Election Networks*, Wisconsin Spotlight (Mar. 21, 2021) (https://wisconsinspotlight.com/emails-green-bays-hidden-election-networks/).
[29] Natasha Truak and Amanda Macias, *Biden administration slaps new sanctions on Russia for cyberattacks, election interference*, CNBC (Apr. 16, 2021) (https://www.cnbc.com/2021/04/15/biden-administration-sanctions-russia-for-cyber-attacks-election-interference.html).

AMERICAN OVERSIGHT

121. Following the 2020 election, lawmakers in multiple states initiated investigations and audits of the results.

122. The Arizona Senate hired a team of forensic auditors to review Maricopa County's election process. The auditors issued a partial audit report on September 24, 2021, which found: (1) "None of the various systems related to elections had numbers that would balance and agree with each other. In some cases, these differences were significant"; (2) "Files were missing from the Election Management System (EMS) Server"; (3) "Logs appeared to be intentionally rolled over, and all the data in the database related to the 2020 General Election had been fully cleared"; (4) "Software and patch protocols were not followed"; and (5) basic cyber security best practices and guidelines from the CISA were not followed.[30]

123. Retired Wisconsin Supreme Court Justice Michael Gableman conducted an investigation of the 2020 election in Wisconsin at the direction of the Wisconsin Assembly. Gableman issued a report in March 2022 noting that "at least some machines had access to the internet on election night."[31] He concluded that several machines manufactured by ES&S and used in the 2020 election in Wisconsin were "made with a 4G wireless modem installed, enabling them to connect to the internet through a Wi-Fi hotspot."

[31] Office of the Special Counsel: Second Interim Investigative Report On the Apparatus & Procedures of the Wisconsin Elections System, March 1, 2022, p. 13.

AMERICAN OVERSIGHT

124. During a December 30, 2020 live-streamed hearing held by the Georgia Senate Judiciary Subcommittee on Elections, an expert witness testified that an active Dominion polling pad had been hacked and the intrusion was being maintained even as he was speaking.[32]

G. Arizona's Voting Systems Do Not Comply with State or Federal Standards

125. All voting systems and voting equipment used in Arizona must comply with standards set forth in Federal Election Commission Publication "2002 Voting Systems Standards" ("2002 VSS"). A.R.S. § 16-442(B).

126. The 2002 VSS standards require that all electronic voting systems shall:

> g. Record and report the date and time of normal and abnormal events;
>
> h. Maintain a permanent record of all original audit data that cannot be modified or overridden but may be augmented by designated authorized officials in order to adjust for errors or omissions (e.g. during the canvassing process.)
>
> i. Detect and record every event, including the occurrence of an error condition that the system cannot overcome, and time-dependent or programmed events that occur without the intervention of the voter or a polling place operator;
>
> [VSS, § 2.2.4.1]
>
> …
>
> a. Maintain the integrity of voting and audit data during an election, and for at least 22 months thereafter, a time sufficient in which to resolve most contested elections and support other activities related to the reconstruction and investigation of a contested election; and
>
> b. Protect against the failure of any data input or storage device at a location controlled by the jurisdiction or its contractors, and against any attempt at improper data entry or retrieval.
>
> [VSS, § 4.3]

[32] Hearing of Georgia Senate Judiciary Subcommittee on Elections, Dec. 30, 2020 (https://www.youtube.com/watch?v=D5c034r0RlU beginning at 4:07:58).

AMERICAN OVERSIGHT

127. Defendant Hobbs has statutory duties to test, certify, and qualify software and hardware that is used on county election systems. A.R.S. § 16-442(B). Defendant Hobbs certified Dominion's DVS 5.5-B voting system for use in Arizona on or around November 5, 2019. The DVS 5.5-B system includes the Dominion ImageCast Precent2 ("ICP2").

128. ICP2 does not meet 2002 VSS standards or Arizona's statutory requirements. It is normally configured with cellular wireless connections, Wi-Fi access and multiple wired LAN connections, each of which provide an access point for unauthorized remote connection and thereby make it impossible to know whether improper data entry or retrieval has occurred or whether the equipment has preserved election records unmodified or not, in violation of the standards. The ICP permits software scripts to run which cause the deletion of election log file entries, thereby failing to preserve records of events which the standards require to be recorded. The ICP permits election files and folders to be deleted, in violation of the standards.

129. University of Michigan Professor of Computer Science and Engineering J. Alex Halderman performed a thorough examination of voting equipment used in Georgia, which is also used in Arizona. In a series of expert reports submitted in litigation still pending in the Northern District of Georgia, Professor Halderman stated that this voting equipment can be manipulated "to steal votes," has "numerous security vulnerabilities" that "would allow attackers to install malicious software" through either "temporary physical access (such as that of voters in the polling place) or remotely from election management systems." He stated that these "are not general weaknesses or theoretical problems, but rather specific flaws" which he was "prepared to demonstrate proof-of-concept malware that can exploit them to steal votes."

AMERICAN OVERSIGHT

He also concluded that the equipment "is very likely to contain other, equally critical flaws that are yet to be discovered." He specifically noted that this same equipment, the ICX, will be used in 2022 in "for accessible voting in Alaska and large parts of Arizona . . ."

130. In the Midterm Election, Arizona intends to use, in part, the same software about which Dr. Halderman testified. The ICX fails to meet VSS standards for the reasons stated in Dr. Halderman's reports.

131. By falling short of VSS standards, DVS 5.5-B is noncompliant with Arizona or federal law and should not have been certified for use.

132. By seeking to use DVS 5.5-B in the Midterm Election, Defendant intends to facilitate violations of Arizona law and federal law.

133. By choosing to continue using the non-compliant system in the Midterm Election without taking any meaningful steps to remedy known security breaches affecting Arizona voters, Defendants know that they will cause voters to cast votes in Midterm Election on an inaccurate, vulnerable and unreliable voting system that cannot produce verifiable results and does not .pass constitutional or statutory muster.

H. Arizona's Audit Regime is Insufficient to Negate Electronic Voting Machines' Vulnerabilities

134. Post-election audits do not and cannot remediate the security problems inherent in the use of electronic voting machines.

135. All post-election audit procedures can be defeated by sophisticated manipulation of electronic voting machines.

AMERICAN OVERSIGHT

136. Dr. Halderman stated in a Declaration dated August 2, 2021, that malware can defeat "all the procedural protections practiced by [Georgia], including acceptance testing, hash validation, logic and accuracy testing, external firmware validation, and risk-limiting audits (RLAs)." Dr. Halderman testified that the voting system at issue in Georgia is used in fifteen other states, including Arizona.

137. Electronic voting systems vendors have repeatedly refused to comply with post-election audits, diminishing the audits' ability to yield reliable conclusions about the validity of the election results.

138. On July 26, 2021, Arizona Senate leaders issued subpoenas to Dominion Voting Systems in connection with the Senate's audit of the 2020 election in Maricopa County, Arizona. Among other materials, the July 26 subpoenas sought production of usernames, passwords, tokens, and pins to the ballot tabulation machines the Maricopa County rents from Dominion, including all that would provide administrative access.

139. Dominion flatly refused to comply with this validly-issued legislative subpoena. In a letter to Senate President Karen Fann, Dominion wrongly claimed the subpoena seeking credentials necessary to access the Dominion voting systems to validate an election "violat[ed] [Dominion's] constitutional rights and … exceed[ed] the Legislature's constitutional and statutory authority" and that responding to the subpoena would "cause grave harm" to Dominion.

140. ES&S has similarly flouted legislative subpoenas in Wisconsin. In a letter dated January 21, 2022, ES&S responded to a Wisconsin subpoena with a letter erroneously asserting

AMERICAN OVERSIGHT

it "is under no obligation to respond," despite the fact the subpoena was issued by the state Senate.

141. Any voting system that relies on the hidden workings of electronic devices in the casting and/or counting of the vote is a system of which voters may reasonably be suspicious. Post-election audits are not sufficient to alleviate their reasonable suspicions because voting machine manufacturers have demonstrated that they will not provide the information necessary to audit an election.

142. To restore legitimacy to Arizona's election regime for all voters, regardless of party, and to comply with constitutional and legal requirements, a secure and feasible alternative must supplant reliance on faulty electronic voting systems.

I. Voting on Paper Ballots and Counting Those Votes by Hand Is the Most Effective and Presently the Only Secure Election Method

143. Plaintiffs seek for the Court to Order, an election conducted by paper ballot, as an alternative to the current framework. To satisfy constitutional requirements of reliability, accuracy, and security, the following is a summary of procedures that should be implemented:

- Ballots are cast by voters filling out paper ballots, by hand. The ballots are then placed in a sealed ballot box. Each ballot bears a discrete, unique identification number, which is made known by election officials only to the voter, so that the voter can later verify whether his or her ballot was counted properly. All ballots will be printed on specialized paper to confirm their authenticity.

AMERICAN OVERSIGHT

- Though a uniform chain of custody, ballot boxes are conveyed to a precinct level counting location while still sealed.
- With party representatives, ballot boxes are unsealed, one at a time, and ballots are removed and counted in batches of 100, then returned to the ballot box. When all ballots in a ballot box have been counted, the box is resealed, with a copy of the batch tally sheets left inside the box, and the batch tally sheets carried to the tally center with a uniform chain of custody.
- Ballots are counted, one at a time, by three independent counters, who each produce a tally sheet that is compared to the other tally sheets at the completion of each batch.
- At the tally center, two independent talliers add the counts from the batch sheets, and their results are compared to ensure accuracy.
- Vote counting from paper ballots is conducted in full view of multiple, recording, streaming cameras that ensure a) no ballot is ever touched or accessible to anyone off-camera or removed from view between acceptance of a cast ballot and completion of counting, b) all ballots, while being counted are in full view of a camera and are readable on the video, and c) batch tally sheets and precinct tally sheets are in full view of a camera while being filled out and are readable on the video.
- Each cast ballot, from the time of receipt by a sworn official from a verified, eligible elector, remains on video through the completion of precinct counting and reporting.
- The video be live-streamed for public access and archived for use as an auditable record, with public access to replay a copy of that auditable record.

AMERICAN OVERSIGHT

- Anonymity will be maintained however, any elector will be able to identify their own ballot by the discrete, serial ballot number known only to themselves, and to see that their own ballot is accurately counted

144. Every county in Arizona, regardless of size, demographics, or any other ostensibly unique characteristic, can simply and securely count votes cast on paper ballots without using centralized machine-counting or computerized optical scanners.

145. The recent hand count in Maricopa County, the second largest voting jurisdiction in the United States, offers Defendant Hobbs a proof-of-concept and a superior alternative to relying on corruptible electronic voting systems. Voting jurisdictions larger than any within Arizona, including France and Taiwan, have also proven that hand-count voting can deliver swift, secure, and accurate election results.

J. Past and Threatened Conduct of Defendant Hobbs

146. Defendant Hobbs is, in her capacity as Secretary of State, charged by statute with carrying out the following duties:

- "After consultation with each county board of supervisors or other officer in charge of elections, the secretary of state shall prescribe rules to achieve and maintain the maximum degree of correctness, impartiality, uniformity and efficiency on the procedures for early voting and voting, and of producing, distributing, collecting, counting, tabulating and storing ballots."

A.R.S. § 16-452 (A).

- "The secretary of state shall provide personnel who are experts in electronic voting systems and procedures and in electronic voting system security to field check and review electronic voting systems and recommend needed statutory and procedural changes."

A.R.S. § 16-452 (D).

AMERICAN OVERSIGHT

147. Defendant Hobbs, in her capacity as Secretary of State, is further charged with ensuring that electronic voting systems used throughout Arizona meet the following requirements:

- "Be suitably designed for the purpose used and be of durable construction, and may be used safely, efficiently and accurately in the conduct of elections and counting ballots…"
- "When properly operated, record correctly and count accurately every vote cast…" and
- "Provide a durable paper document that visually indicates the voter's selections, that the voter may use to verify the voter's choices, that may be spoiled by the voter if it fails to reflect the voter's choices and that permits the voter to cast a new ballot."

A.R.S. § 16-446 (B).

148. Defendant Hobbs, in her capacity as Secretary of State, is further charged with ensuring that all computer election programs filed with the office of the Secretary of State shall be used by the Secretary of State or Attorney General to preclude fraud or any unlawful act. A.R.S. § 16-445(D).

149. By certifying deficient electronic voting systems for use in past elections, Defendant Hobbs has failed to meet these duties set forth above.

150. Defendant Hobbs, acting in her official capacity as the Secretary of State, has shown her intention to require the use of electronic voting systems for all Arizona voters in the Midterm Election.

151. In so doing, Defendant Hobbs will violate her duties under A.R.S. § 16-442(B), and violate the Constitutional rights of Plaintiffs and all voters in the State of Arizona.

AMERICAN OVERSIGHT

K. Past and Threatened Conduct of Maricopa Defendants and Pima Defendants

152. The Maricopa Defendants and Pima Defendants, acting in their official capacity, are charged with the duty to:

- "[e]stablish, abolish and change election precincts, appoint inspectors and judges of elections, canvass election returns, declare the result and issue certificates thereof…";
- "[a]dopt provisions necessary to preserve the health of the county, and provide for the expenses thereof";
- "[m]ake and enforce necessary rules and regulations for the government of its body, the preservation of order and the transaction of business."

A.R.S. § 11-251.

153. The Maricopa Defendants and Pima Defendants, acting in their official capacity, are charged with the duty to consult with Defendant Hobbs in order for Defendant Hobbs to "prescribe rules to achieve and maintain the maximum degree of correctness, impartiality, uniformity and efficiency on the procedures for early voting and voting, and of producing, distributing, collecting, counting, tabulating and storing ballots." A.R.S. § 16-452 (A).

154. The Maricopa Defendants and Pima Defendants have, in the past, failed in the duties set forth above by failing to, among other things, ensure that:

- operating systems and antivirus definitions of electronic voting systems were properly updated;
- electronic election files and security logs were preserved;
- election management servers were not connected to the Internet;
- access to election equipment was limited to authorized personnel; and
- communications over the system network were properly monitored.

AMERICAN OVERSIGHT

155. The Maricopa Defendants and Pima Defendants intend to rely on the use of deficient electronic voting systems in the Midterm Election.

L. Imminent Injury

156. Plaintiff Lake seeks the office of Governor of the State of Arizona.

157. To gain that office, Plaintiff Lake must prevail in the Midterm Election, in which all votes will be tabulated, and many votes will be cast, on electronic voting systems.

158. Plaintiff Lake intends to vote in the Midterm Election in Arizona. To do so, she will be required to cast her vote, and have her vote counted, through electronic voting systems.

159. Plaintiff Finchem seeks the office of Secretary of State of the State of Arizona.

160. To gain that office, Plaintiff Finchem must prevail in the Midterm Election, in which all votes will be tabulated, and many votes will be cast, on electronic voting systems.

161. Plaintiff Finchem intends to vote in the Midterm Election in Arizona. To do so, he will be required to cast his vote, and have his vote counted, through electronic voting systems.

162. All persons who vote in the Midterm Election, if required to vote using an electronic voting system or have their vote counted using an electronic voting system, will be irreparably harmed because the voting system does not reliably provide trustworthy and verifiable election results. The voting system therefore burdens and infringes their fundamental right to vote and have their vote accurately counted in conjunction with the accurate counting of all other legal votes, and *only* other legal votes.

AMERICAN OVERSIGHT

NM-OTERO-22-0605-A-002561

163. Any voter who votes using a paper ballot will be irreparably harmed in the exercise of the fundamental right to vote if his or her vote is tabulated together with the votes of other voters who cast ballots using an unreliable, untrustworthy electronic system.

164. Any voter will be irreparably harmed in the exercise of the constitutional, fundamental right to vote if he or she is required to cast a ballot using – or in an election in which anyone will use – an electronic voting system, or if his or her ballot is tabulated using an electronic voting system.

165. Each of the foregoing harms to Plaintiff is imminent for standing purposes because the Midterm Election is set to occur on a fixed date not later than eight months after the date when this action is to be filed.

166. No Plaintiff can be adequately compensated for these harms in an action at law for money damages brought after the fact because the violation of constitutional rights is an irreparable injury.

IV. CLAIMS

COUNT I: VIOLATION OF DUE PROCESS

(*Seeking declaratory and injunctive relief against all Defendants*)

167. Plaintiffs incorporate and each and every preceding paragraph in this Complaint.

168. The right to vote is a fundamental right protected by the Due Process Clause of the Fourteenth Amendment of the U.S. Constitution and Article 2, Section 4 of the Arizona Constitution.

AMERICAN OVERSIGHT

169. The fundamental right to vote encompasses the right to have that vote counted accurately, and it is protected by the Due Process Clause of the Fourteenth Amendment of the U.S. Constitution and Article 2, Section 4 of the Arizona Constitution.

170. Defendants have violated Plaintiffs' fundamental right to vote by deploying an electronic voting equipment system that has:

(a) Failed to provide reasonable and adequate protection against the real and substantial threat of electronic and other intrusion and manipulation by individuals and entities without authorization to do so;

(b) Failed to include the minimal and legally required steps to ensure that such equipment could not be operated without authorization; to provide the minimal and legally required protection for such equipment to secure against unauthorized tampering; to test, inspect, and seal, as required by law, the equipment to ensure that each unit would count all votes cast and that no votes that were not properly cast would not be counted; and to ensure that all such equipment, firmware, and software is reliable, accurate, and capable of secure operation as required by law;

(c) Failed to provide a reasonable and adequate method for voting by which Arizona electors' votes would be accurately counted.

171. By choosing to move forward in using an unsecure system, Defendants willfully and negligently abrogated their statutory duties and abused their discretion, subjecting voters to cast votes on an illegal and unreliable system--a system that must be presumed to be compromised and incapable of producing verifiable results.

AMERICAN OVERSIGHT

172. Despite Defendants' knowledge that electronic voting systems used in Arizona do not comply and cannot be made to comply with state and federal law, Defendants plan to continue to use these non-compliant systems in the Midterm Election.

173. Plaintiffs ask this Court to declare that these Defendants violated the Due Process Clause of the Fourteenth Amendment of the United States Constitution and Article 2, Section 4 of the Arizona Constitution; enjoin Defendants' use of electronic voting systems for future elections; and award attorneys' fees and costs for Defendants' causation of concrete injury to Plaintiffs, whose fundamental right to have their vote counted as cast was thwarted.

COUNT II: VIOLATION OF EQUAL PROTECTION
(*Seeking declaratory and injunctive relief against all Defendants*)

174. Plaintiffs incorporate and reallege all paragraphs in this Complaint.

175. By requiring Plaintiffs to vote using electronic voting systems in the Midterm Election which are unsecure and vulnerable to manipulation and intrusion there will be an unequal voting tabulation of votes treating Plaintiffs who vote in Arizona differently than other, similarly situated voters who cast ballots in the same election.

176. These severe burdens and infringements that Defendants will impose unequally on Plaintiffs who vote through an electronic voting system will violate the Equal Protection Clause of the Fourteenth Amendment.

177. These severe burdens and infringements that will be caused by Defendants' conduct are not outweighed or justified by, and are not necessary to promote, any substantial or compelling state interest that cannot be accomplished by other, less restrictive means, like conducting the Midterm Election using hand counted paper ballots.

AMERICAN OVERSIGHT

178. Requiring voters to be deprived of their constitutional right to equal protection of the laws as a condition of being able to enjoy the benefits and conveniences of voting in person at the polls violates the unconstitutional conditions doctrine.

179. Unless Defendants are enjoined by this Court, then Plaintiffs will have no adequate legal, administrative, or other remedy by which to prevent or minimize the irreparable, imminent injury that is threatened by Defendants intended conduct. Accordingly, injunctive relief against these Defendants is warranted.

COUNT III: VIOLATION OF FUNDAMENTAL RIGHT TO VOTE
(*Seeking declaratory and injunctive relief against all Defendants*)

180. Plaintiffs incorporate and each and every preceding paragraph in this Complaint.

181. The right to vote is a fundamental right protected by the U.S. Constitution. *See, e.g., Reynolds v. Sims*, 377 U.S. 533, 561-62 (1964).

182. The fundamental right to vote encompasses the right to have that vote counted accurately. *See, e.g., United States v. Mosley,* 238 U.S. 383, 386 (1915).

183. Defendants have violated Plaintiffs' fundamental right to vote by deploying an electronic voting equipment system that has:

(a) Failed to provide reasonable and adequate protection against the real and substantial threat of electronic and other intrusion and manipulation by individuals and entities without authorization to do so;

(b) Failed to include the minimal and legally required steps to ensure that such equipment could not be operated without authorization; to provide the minimal and legally required protection for such equipment to secure against unauthorized tampering; to test, inspect,

AMERICAN OVERSIGHT

and seal, as required by law, the equipment to ensure that each unit would count all votes cast and that no votes that were not properly cast would not be counted; and to ensure that all such equipment, firmware, and software is reliable, accurate, and capable of secure operation as required by law;

(c) Failed to provide a reasonable and adequate method for voting by which Arizona electors' votes would be accurately counted.

184. By choosing to move forward in using the non-compliant system, Defendants have abrogated their statutory duties and abused their discretion, subjecting voters to cast votes on an illegal and unreliable system--a system that is unsecure and vulnerable to manipulation and intrusion and incapable of producing verifiable results.

185. Defendants' violation of the Due Process Clause is patently and fundamentally unfair and therefore relief is warranted. Accordingly, Plaintiffs ask this Court to declare that these Defendants violated the Due Process Clause of the Fourteenth Amendment of the United States Constitution and Article 2, Section 4 of the Arizona Constitution; enjoin Defendants' use of electronic voting systems for future elections; and award attorneys' fees and costs for Defendants' causation of concrete injury to Plaintiffs, whose fundamental right to have their vote counted as cast was thwarted.

COUNT IV: CIVIL ACTION FOR DEPRIVATION OF RIGHTS UNDER 42 U.S.C. § 1983

(*Seeking declaratory and injunctive relief against all Defendants*)

186. Plaintiffs incorporate and reallege all paragraphs in this Complaint.

AMERICAN OVERSIGHT

NM-OTERO-22-0605-A-002566

187. The foregoing violations will occur as a consequence of Defendants acting under color of state law. Accordingly, Plaintiffs bring this cause of action for prospective equitable relief against Defendants pursuant to 42 U.S.C. § 1983.

188. By requiring the citizens of Arizona to vote using a system which may miscount their votes, the Defendants will violate the rights of the citizens' under the Constitution of the United States.

189. Unless Defendants are enjoined by this Court, then Plaintiffs will have no adequate legal, administrative, or other remedy by which to prevent or minimize the irreparable, imminent injury that is threatened by Defendants' intended conduct. Accordingly, appropriate damages and injunctive relief against these Defendants is warranted.

COUNT V: VIOLATION OF A.R.S. § 11-251
(Against Maricopa Defendants and Pima Defendants)

190. Plaintiffs incorporate and reallege all paragraphs in this Complaint.

191. Maricopa Defendants and Pima Defendants, as members of the Maricopa Board and the Pima Board, are charged with statutory duties to electors in Arizona, including Plaintiffs, under A.R.S. § 11-251.

192. Maricopa Defendants and Pima Defendants have failed to meet the duties set forth in A.R.S. § 11-251 to adopt provisions necessary to preserve the health of Maricopa County and Pima County.

193. Maricopa Defendants and Pima Defendants have failed to meet the duties set forth in A.R.S. § 11-251 to make and enforce necessary rules and regulations for the government of

AMERICAN OVERSIGHT

NM-OTERO-22-0605-A-002567

Maricopa County and Pima County or to the preserve the of order and the transaction of business.

194. Maricopa Defendants and Pima Defendants intend to continue in their failure to meet these duties through the Midterm Election.

195. Plaintiffs have a private right of action against Maricopa Defendants and Pima Defendants under Arizona law.

196. Unless Maricopa Defendants and Pima Defendants are enjoyed by this Court, then Plaintiffs will have not adequate administrative, or other remedy by which to prevent or minimize the irreparable, imminent injury that is threatened by the intended conduct of Maricopa Defendants and Pima Defendants. Accordingly, injunctive relief against these Defendants is warranted.

COUNT VI: DECLARATORY JUDGMENT - 28 U.S. CODE § 2201
(*Against All Defendants)*

197. Plaintiffs incorporate and reallege all paragraphs in this Complaint.

198. Defendants' conduct will have the effect of violating the rights of the citizens of Arizona, as described above.

199. The Court has the authority pursuant to 28 U.S.C. § 2201 to issue an Order enjoining the State from conducting an election in which the votes are not accurately or securely tabulated.

200. If the State of Arizona is allowed to proceed with an election as described above, it will violate the rights of the citizens of the State by conducting an election with an unsecure, vulnerable electronic voting system which is susceptible to manipulation and intrusion.

AMERICAN OVERSIGHT

201. Because of the above-described issues regarding the election system to be used by Defendants, the Court should issue an Order enjoining the State from using any electronic voting system unless and until the system is made open to the public and subjected to scientific analysis to determine whether it is absolutely secure from manipulation or intrusion.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs respectfully request that this Court:

1. Enter a judgment finding and declaring it unconstitutional for any public election to be conducted using any model of electronic voting system to cast or tabulate votes.

2. Enter a preliminary and permanent injunction prohibiting Defendants from requiring or permitting voters to have votes cast or tabulated using any electronic voting system.

3. Enter an Order directing Defendants to conduct the Midterm Election consistent with the summary of procedures set forth in paragraph 140 of this Complaint.

4. Retain jurisdiction to ensure Defendants' ongoing compliance with the foregoing Orders.

5. Grant Plaintiffs an award of its reasonable attorney's fees, costs, and expenses incurred in this action pursuant to 42 U.S.C. § 1988.

6. Damages suffered by Plaintiffs to be determined at trial.

7. Grant Plaintiff such other relief as the Court deems just and proper.

AMERICAN OVERSIGHT

DEMAND FOR JURY TRIAL

Plaintiffs demand a trial by jury on all counts and issues so triable.

DATED: April 22, 2022.

AMERICAN OVERSIGHT

EXECUTIVE SUMMARY

This report documents initial findings in an ongoing forensic examination of the voting systems of Mesa County, Colorado, used in the November, 2020 General Election. These voting systems represent a portion of overall election systems infrastructure, and this report is limited to the findings of an ongoing investigation. The findings in this report were prepared by the cyber forensic expert retained to advise the County Clerk pursuant to her duties as the county's Chief Election Official as part of the impacted parties' legal team.

Federal law requires the preservation of election records – which includes records in electronic or digital form – for twenty-two months after an election. Colorado law requires the preservation of election records for an additional three months beyond the Federal requirement. The obligation to ensure the integrity of elections and that all election records are preserved pursuant to federal and state law falls to the elected Clerk & Recorder. This report, the first of several, is based on examination of the data obtained from forensic images of the Dominion Voting System EMS server last used in Mesa County for the November, 2020, election, images taken in furtherance of the preservation requirements of federal and state law. Based upon information received by the Clerk's office from various sources in early 2021, the Clerk became concerned that the voting system modifications might jeopardize these preservation and other legal requirements under the responsibility of the County Clerk. For this reason the Clerk ensured a full backup of election records from the County voting systems, both before and after the software modification performed by the vendor and the Secretary of State on May 25-26, 2021, just six months after the November, 2020, election.

Forensic examination[1] found that election records, including data described in the Federal Election Commission's 2002 Voting System Standards (VSS) mandated by Colorado law as certification requirements for Colorado voting systems, have been destroyed on Mesa County's voting system, by the system vendor and the Colorado Secretary of State's office. Because similar system modifications were reportedly performed upon county election servers across the state, it is possible, if not likely, that such data destruction in violation of state and federal law has occurred in numerous other counties.

The extent and manner of destruction of the data comprising these election records is consequential, precluding the possibility of any comprehensive forensic audit of the conduct of any involved election. This documented destruction also undermines the conclusion that these Colorado voting systems and accompanying vendor and Colorado Secretary of State-issued procedures could meet the requirements of Colorado and Federal law, and consequently vitiates the premise of the Colorado Secretary of State certification of these systems for use in Colorado.

Two backup images, using forensic imaging methods, were obtained from the Dominion Voting Systems (DVS) Democracy Suite (D-Suite) Election Management System (EMS) Standard Server in Mesa County, Colorado. The first image was made of that EMS Standard Server in the D-Suite 5.11-CO version configuration, as used in the November, 2020 election. The second image was of the configuration of the EMS Standard Server in the D-Suite 5.13 version configuration, following the modification of the EMS Standard Server by a combined team of DVS vendor personnel and Colorado Secretary of State staff. The forensic information provided in this report is presented using screenshots from forensic analysts' systems running industry-standard forensics software tools. The report includes "before" and "after" screenshots from the forensic tool that shows the differences between the two backup images.

The forensic examination found that numerous logfiles had been deleted or overwritten. These logfiles are required to reconstruct the function of and events taking place on the the voting systems, and based upon information

[1] Many individuals and organizations, some public officials, have made recent claims that no audit performed nor examination conducted on elections or computer-based election systems can be legitimate or credible unless the examiners are "election experts" or accredited election auditors. There is no such thing as an "accredited election auditor," nor are there Federal standards or procedures to credential election auditors.

AMERICAN OVERSIGHT

provided by legal counsel, must, by law, be preserved. By comparing filenames in the two images (before and after the Dominion update on May 25-26, 2021), examination and analysis identified a total of 28,989 files that were deleted. During a software update, some replacement of program files and their related content is normally expected. However the examination found that 695 log and event log files necessary for the determination of election integrity were deleted.

Based upon information provided by legal counsel, Colorado law (Colorado Revised Statute (CRS) § 1-5-601.5) requires that, prior to use in Colorado elections, electronic and computer-based voting systems be certified by the Colorado Secretary of State. This certification is based on the systems' compliance with the requirements of the Federal Electon Commission's 2002 Voting System Standards (VSS), verified by their testing by a Federally-accredited (by vote of the U.S. Election Assistance Commission (EAC)) Voting System Testing Lab (VSTL). While several iterations of newer Voluntary Voting System Guidelines (VVSG) have been issued by the EAC, Colorado's statutory requirement is for compliance with 2002 VSS, which states:

> "Election audit trails provide the supporting documentation for verifying the accuracy of reported election results. They present a concrete, indestructible archival record of all system activity related to the vote tally, and are essential for public confidence in the accuracy of the tally, for recounts, and for evidence in the event of criminal or civil litigation."

The relevant sections of the VSS are cited in Appendix E.

These statutory requirements establish that voting systems are required to generate and preserve, as critical to the ability to determine and reproduce the conditions and details of election conduct using these systems, logfiles of all system functions, including normal activity, connectivity, file and data access, operator- and automated-processes, and errors. Logfiles are critical to the ability to detect improper operation, including the ability to detect malicious intrusions as well as other improper activities and conditions, and configuration changes that could enable alteration of the actual vote count.

Assuming this information to be correct, this forensic examination found that a substantially large number of these requirements have not been met. This examination also found that destruction of critical logfiles has occurred. This destruction is not incidental or minor but is extensive.

The purpose of this initial report is to document these findings and present preliminary evidence demonstrating unacceptable conduct and system defects revealed by the examined images, as necessary for the Chief Election Official to discharge her statutory obligations. The facts and resultant findings support the conclusions that:

1) Election-related data explicitly required to be preserved, as stated in the 2002 VSS criteria referenced in this section, have been destroyed in violation of Federal and State law, and

2) Due to non-compliance with the 2002 VSS requirements, these voting systems and accompanying vendor-provided, Colorado Secretary of state-approved procedures cannot meet the certification requirements of the State of Colorado, and should not have been certified for use in the state.

Comprehensive investigation is required to determine whether these critical failures are the result of malicious intent or negligence, and to what extent the systems may have been compromised or subjected to unauthorized access or operation prior to, during, and after election use. That comprehensive investigation *is beyond the scope of this report*. Subsequent reports will address these issues in detail.

Evidence supporting all of these findings is documented in this report.

AMERICAN OVERSIGHT

Introduction

Election officials, including Secretaries of State, are obligated by law to ensure the integrity of all elections, including the transparency required for citizens to verify that integrity themselves. Modern electronic voting systems are marketed as an efficient solution to streamline the voting process and allow for automated collection, tabulation, and reporting of election results, but the efficiency they promise comes at a cost.

The necessary measures and safeguards to ensure the integrity of the systems and their operation against a severe, mounting and ever-evolving threat from sophisticated nation-state and non-nation-state actors are so complex and dynamic as to outpace the limited capabilities and resources of our government, at all levels. While minimal security safeguards may be within government capacity, modern computer-based voting systems are extremely complex and difficult to secure, even for cybersecurity experts, and since voting systems are not under the direct control of the Federal government's top security experts, any government assurances about the sufficiency of those safeguards can serve only to mislead citizens and policy-makers. Even critical defense systems, relentlessly monitored and defended by highly-trained teams using costly, sophisticated tools, are at risk and are frequently compromised, sometimes before procurement. Earlier generations of voting systems relied on simple, human-scale safeguards, for example "air gaps"– that is – to have no wired network connection to the system. But miniaturized wireless communication technologies and networks have proliferated, with billions of wireless devices installed or in use, and malicious actors have developed sophisticated attacks to bypass air gaps, compromise every kind of hardware, firmware, and software, often before they even come into customer or user possession, and to move laterally through networked systems, often undetected. Supply-chains for these systems, from the initiation of the design of integrated circuits and electronic components, most manufactured overseas with little U.S. insight or oversight, through the fabrication, testing, assembly, integration, and operation of these complex composite systems, are vulnerable and untrustworthy for critical functions of government and lucrative economic and national security targets. For all these reasons logfiles, such as those that have been deleted by the Dominion "Trusted Build" update must be preserved to document the complete operation of the computer system and voting applications, and to be able to verify the authenticity, integrity and accuracy of the vote.

The feature size of individual circuits in the chipsets and components of our voting system computers is at the nanoscale, smaller than the smallest known virus particle, and less than 3/10,000ths of the width of a human hair. So we have lost the ability, if we ever had it, to visually verify what is really happening, even at the physical level, in our computer-based voting system. Regardless of how the systems appear to be configured to authorized users and poll-watchers, the functionality and connectivity in these computers can be enabled and modified remotely and wirelessly, or by the introduction of embedded codes on scanned paper, or triggered by specific unforeseeable and indiscernible predetermined software and hardware conditions, or by specific timing events, or by geographic location, or by the proximity of other devices or combinations of any of these means.

For example, some Colorado voting systems ordered as specified by the voting system vendors, from foreign manufacturing and assembly facilities, have included "Integrated Dell Remote Access Controllers (IDRAC)," which are designed to allow "out-of-band" remote management of those systems, meaning that the computers are explicitly equipped to be controlled by remote automated programs or by individuals other than those logged in locally. Through the IDRAC, voting systems might have any aspect of their Basic Input/Output System (BIOS), operating system, or applications controlled or modified, including the addition and deletion of user accounts, the enabling of communications components like wireless networking cards, and the modification, installation, removal or configuration of software and settings. Like the inclusion of multi-band wireless networking cards, similarly specified and ordered for Colorado voting systems by the vendor, there is no excuse or rational justification for the inclusion of components like these, and the fact that the entirety of U.S. voting system regulatory processes and institutions can apparently neither detect, note, nor address these gross vulnerabilities eviscerates the notion that our computer-based voting systems have been secured.

AMERICAN OVERSIGHT

Faced with incredible miniaturization, the importance of logfiles which are records of operation of a computer system, are more important than ever in managing this technology. When the computer is part of a national critical infrastructure, these operational records become essential, not only for troubleshooting or security alone, but for the integrity of the system itself as a component of the National Critical Infrastructure.

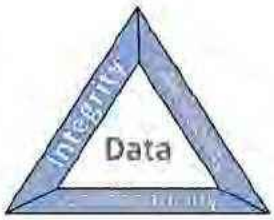
For the purposes of this document and ensuing discussion, two terms are defined to differentiate and clarify the evidentiary findings. *Election Data* is all information regarding Ballot Design, Ballot Marking, Electronic scanning of completed ballots, interpretation of the intention of each voter's choice, including human, machine generated or programatic adjudication in the event that the election system is unable to determine conclusively the correct vote input from any specific ballot, tabulation of the actual vote including the databases used to actually contain the raw vote totals, scanned ballot images and Voter Registration and Voter identification information associated with any specific election, as well as the actual vote totals. This includes a complete record of any realtime changes in databases resident in the cloud such as voter registration data. *Election-Related Data* includes all of the computer log and configuration data that document the complete configuration state and operation of the entire computer system and infrastructure upon which Election Software is executed, as well as the operating system of devices that store log and election data such as Network Attached Storage (NAS). Also included in Election-Related data are logs and configuration of network Routers, Firewalls, Intrusion Detection Systems, Intrusion Prevention Systems, and other network security devices, including VPNs and more[2].

Both Election Data AND Election-Related Data must be preserved as "Election Records" under the law, and this is broadly addressed in both the 2002 VSS and the EAC's successor versions of VVSG.

Securing computer systems is a non-trivial task. It involves a litany of processes, including, but not limited to:

- Engineering systems with a focus on security
- Building systems to meet published high-security standards and applicable regulations
- Patching systems to ensure that vulnerabilities are removed
- Securing networks to ensure highly controlled access
- Logging of all communications, processes, access, system modifications
- Auditing of systems and logs regularly to ensure ongoing compliance
- Adequate training and certification for engineers, administrators, and system users
- Adherence to Industry Best Practices, for example, emphasis on password strength and configured security and group policies

These, among other measures, will help to ensure what is known as the CIA triad. The CIA triad represents the three pillars of information security: confidentiality, integrity, and availability, as follows:



[2] Log and configuration examination of not only the computer system(s) but also all network systems are critical to forensic examination. Compromise of any unrelated information (e.g. plain-text cofiguration data containing normally-encrypted passwords) can be easily prevented, so long as simple, quick forensic examiner and cyber professional industry standards are used to obfuscate private and sensitive data from the network device files.

AMERICAN OVERSIGHT

Confidentiality – preserving authorized restrictions on information access and disclosure, including means for protecting personal privacy and proprietary information

Integrity – guarding against improper information modification or destruction and ensuring information non-repudiation and authenticity

Availability – ensuring timely and reliable access to and use of information

Failure in any of the three pillars can and generally will result in a compromise of the system. Failure in the integrity component can have dire consequences for public perception, election results, the future of our government and our country.

Industry-standard forensics analysis tools were applied to the forensic examination.

Information was forensically evaluated using backup images taken from a Mesa County Election server configured for DVS D-Suite 5.11-CO on Sunday, May 23, 2021, before its modification by Dominion Voting Systems and the Colorado Secretary of State to DVS D-Suite 5.13, and again on Wednesday, May 26, 2021, after the update had been applied. This server was the primary system that was used to process election data in Mesa County for the 2020 general election.The EMS server configuration and administrative standards were prepared by Dominion Voting Systems (DVS), running a combination of COTS and proprietary DVS software, and certified for use by the Colorado Secretary of State. Our conclusions include determining that this system not only failed to meet any reasonable standard or statutory requirement for cybersecurity but was also subject to removal of critical information (data destruction).

Our findings include serious irregularities that resulted in the loss of data integrity on the server, including election data and election-related data.

LEGAL REFERENCES

Several Federal and Colorado state legal standards apply to the preservation and definition of election records, applicable to the data generated by and resident on voting systems. Beginning with 52 USC §20701, retention and preservation of records and papers by officers of elections; deposit with custodian; penalty for violation, which states:

> Every officer of election shall retain and preserve, for a period of twenty-two months from the date of any general, special, or primary election of which candidates for the office of President, Vice President, presidential elector, Member of the Senate, Member of the House of Representatives, or Resident Commissioner from the Commonwealth of Puerto Rico are voted for, all records and papers which come into his possession relating to any application, registration, payment of poll tax, or other act requisite to voting in such election, except that, when required by law, such records and papers may be delivered to another officer of election and except that, if a State or the Commonwealth of Puerto Rico designates a custodian to retain and preserve these records and papers at a specified place, then such records and papers may be deposited with such custodian, and the duty to retain and preserve any record or paper so deposited shall devolve upon such custodian. Any officer of election or custodian who willfully fails to comply with this section shall be fined not more than $1,000 or imprisoned not more than one year, or both.

In addition to 52 USC §20701, multiple sections of Colorado Revised Statutes (CRS) appear applicable, including:

> CRS 1-5-601.5. Compliance with federal requirements (Effective until July 1, 2022)
>
> All voting systems and voting equipment offered for sale on or after May 28, 2004, shall meet the voting systems standards that were promulgated in 2002 by the federal election commission. At his or her discretion, the secretary of state may require by rule that voting systems and voting equipment satisfy voting systems standards promulgated after January 1, 2008, by the federal election assistance commission as long

AMERICAN OVERSIGHT

as such standards meet or exceed those promulgated in 2002 by the federal election commission. Subject to section 1-5-608.2, nothing in this section shall be construed to require any political subdivision to replace a voting system that is in use prior to May 28, 2004.

CRS 1-7-802. Preservation of election records

The designated election official shall be responsible for the preservation of any election records for a period of at least twenty-five months after the election or until time has expired for which the record would be needed in any contest proceedings, whichever is later. Unused ballots may be destroyed after the time for a challenge to the election has passed. If a federal candidate was on the ballot, the voted ballots and any other required election materials shall be kept for at least twenty-five months after the election.

1-13-716. Destroying, removing, or delaying delivery of election records

(1) No person shall willfully destroy, deface, or alter any ballot or any election records or willfully delay the delivery of any such ballots or election records, or take, carry away, conceal, or remove any ballot, ballot box, or election records from the polling location or drop-off location or from the possession of a person authorized by law to have the custody thereof, or aid, counsel, procure, advise, or assist any person to do any of the aforesaid acts.

(2) No election official who has undertaken to deliver the official ballots and election records to the county clerk and recorder shall neglect or refuse to do so within the time prescribed by law or shall fail to account fully for all official ballots and other records in his charge. Informality in the delivery of the ballots and election records shall not invalidate the vote of any precinct if such records are delivered prior to the canvassing of the votes by the county board of canvassers.

(3) Any person who violates any provision of this section is guilty of a misdemeanor and, upon conviction thereof, shall be punished as provided in section 1-13-111.

And several sections of the Code of Colorado Regulations appear applicable, including:

8 CCR 1505-1, Rule 21, 21.4.2: All voting systems must meet the requirements of the 2002 Voting Systems Standards, parts 5 – 7 of article 5 of title 1, CRS, as amended, and this Rule 21.

AMERICAN OVERSIGHT

FORENSIC EXAMINATION AND ANALYSIS REPORT

AMERICAN OVERSIGHT

SYSTEM IDENTIFICATION

The server that was analyzed is capable of operating on a small local area network (LAN). The network consists of several systems, including servers and workstations running in a non-virtualized environment. The server that we evaluated was named EMSSERVER. It is running the Microsoft Windows Server 2016 Standard operating system.

The forensic evaluation and reviews were based upon a forensic image archive collected from the Mesa County Dominion EMS Server. The Before and After forensic images were collected from the same server and same hard drive, as documented below, from the actual acquisition. The serial number of the hard drive shown in each collection data set verifies the data origin to be the same physical device.

AMERICAN OVERSIGHT

Two backup images were obtained, using forensic imaging methods, from the Dominion Voting Systems (DVS) Democracy Suite (D-Suite) Election Management System (EMS) Standard Server in Mesa County, Colorado. The first image was made of that EMS Standard Server in the D-Suite 5.11-CO version configuration, as used in the November, 2020 election on May 23, 2021. The second image was of the configuration of the EMS Standard Server in the D-Suite 5.13 version configuration, following the modification of the EMS Standard Server by a combined team of Dominion Voting System vendor personnel and Colorado Secretary of State (SecState) staff, on May 26, 2021. A forensic image (forensic copy) is a bit-by-bit, sector-by-sector duplicate of a physical storage device using specialized hardware and software; it is a much more comprehensive representation of the state and configuration of the imaged system than could be obtained using simple file backup methods. The images include all files, folders, and unallocated, free, and slack space. These forensic images include not only all the files visible to the server operating system but also deleted files and fragments of files left in the slack and free space but every digital bit of data present on the storage medium, in this case, a SCSI hard disk. When forensic images are acquired, a hash function, also known as a Message Digest, is computed. This hash can be used at any time to validate the integrity of the image to ensure that it has not been edited, modified, or changed in any way. The hash function result from the acquisition of data appears in the text above but also appears inside each respective archive and authenticates the data by demonstrating that it has not changed since it was acquired.

These two images were evaluated to gather technical information, including the integrity of the data stored on the system. No effort was made to reverse-design, de-compile or reverse-engineer the Dominion software. Configuration, which is relevant to the operation of the system, was examined to determine whether improper settings could allow undesirable results and were found to contain such errors. Results relevant to this investigation are documented below. Additional supporting documentation can be found in the appendixes. They include directory listings for many of the directories seen in the screenshots and contain complete filenames, full path names where the files are located, and file hashes.

We have included screenshots that can be used to review and verify these findings. These screenshots were obtained from the forensic images of the Dominion server.

AUTHENTICITY AND CHAIN OF CUSTODY

Digital chain of custody is the record of preservation of digital evidence from collection to presentation in the court of law. This is an essential part of the digital investigation process. The chain of custody is probative that the digital evidence presented to the court remains as originally collected, without tampering. The two images analyzed in this report were obtained through AccessData FTK Imager 4.2.0.13. The serial number on the EMS Server drive on both images match, thus establishing that both images were taken from the same physical drive. I have reviewed the documented chain of custody for both images and have determined that the chain of custody is complete from the forensic operator utilizing FTK Imager through the source from which I directly received these images. (Because of the pending civil litigation and criminal investigation, the written documentation remains in the custody of counsel for later introduction in court proceedings and thus cannot be released as part of this report.) Further confirmation that these are genuine images from the Mesa County EMS Server has been provided by the Colorado Secretary of State's office. See:

https://www.sos.state.co.us/pubs/newsRoom/pressReleases/2021/PR20210817MesaCounty.html

AMERICAN OVERSIGHT

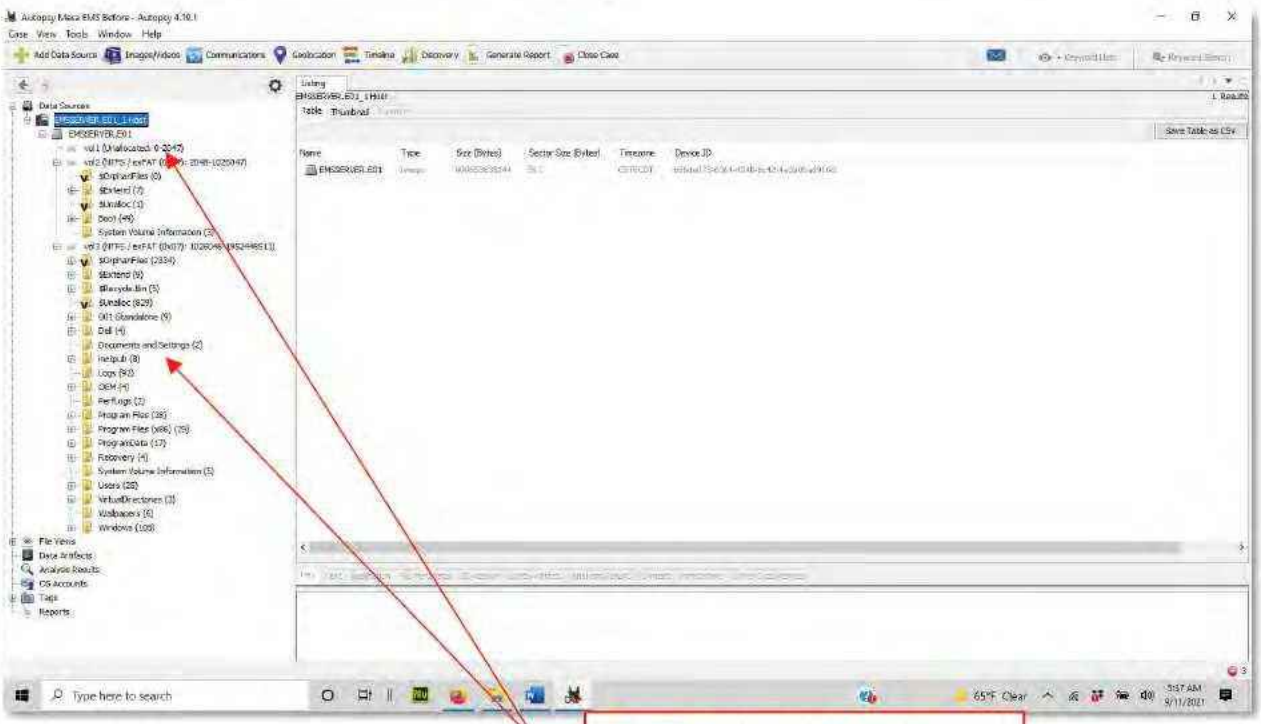
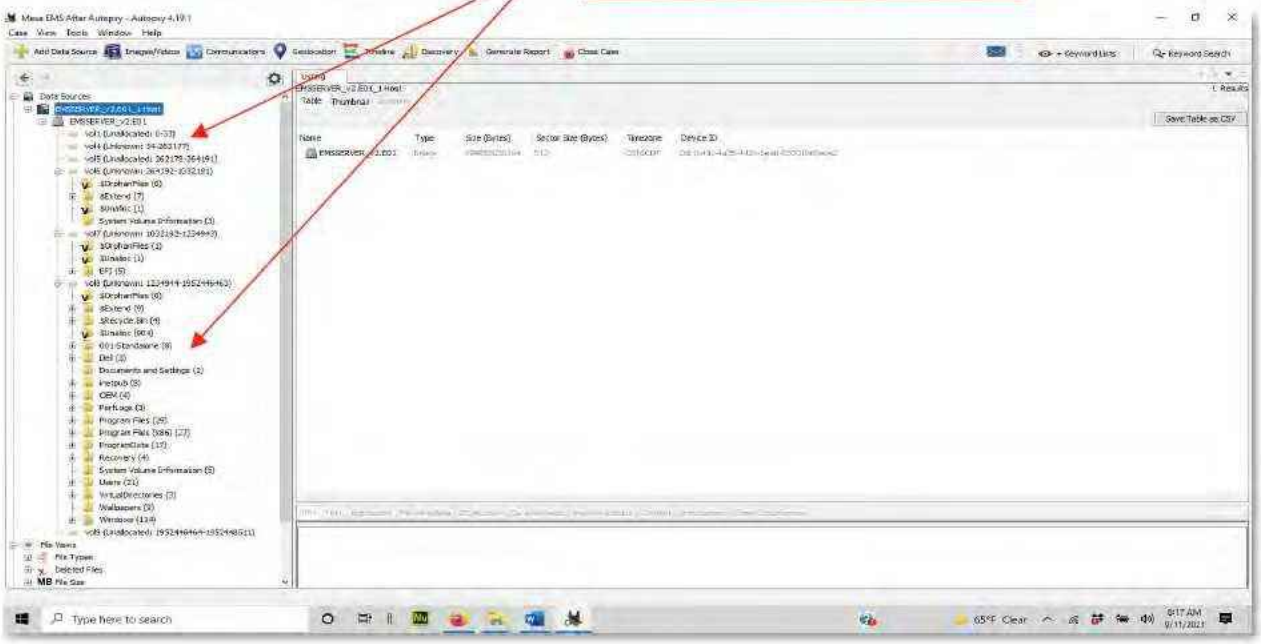
Purpose: *The disk partition structure is the structure of how the hard drive is divided up.*

Figure 5 - EMSSERVER (5.11-CO) Disk Partition Structure Before





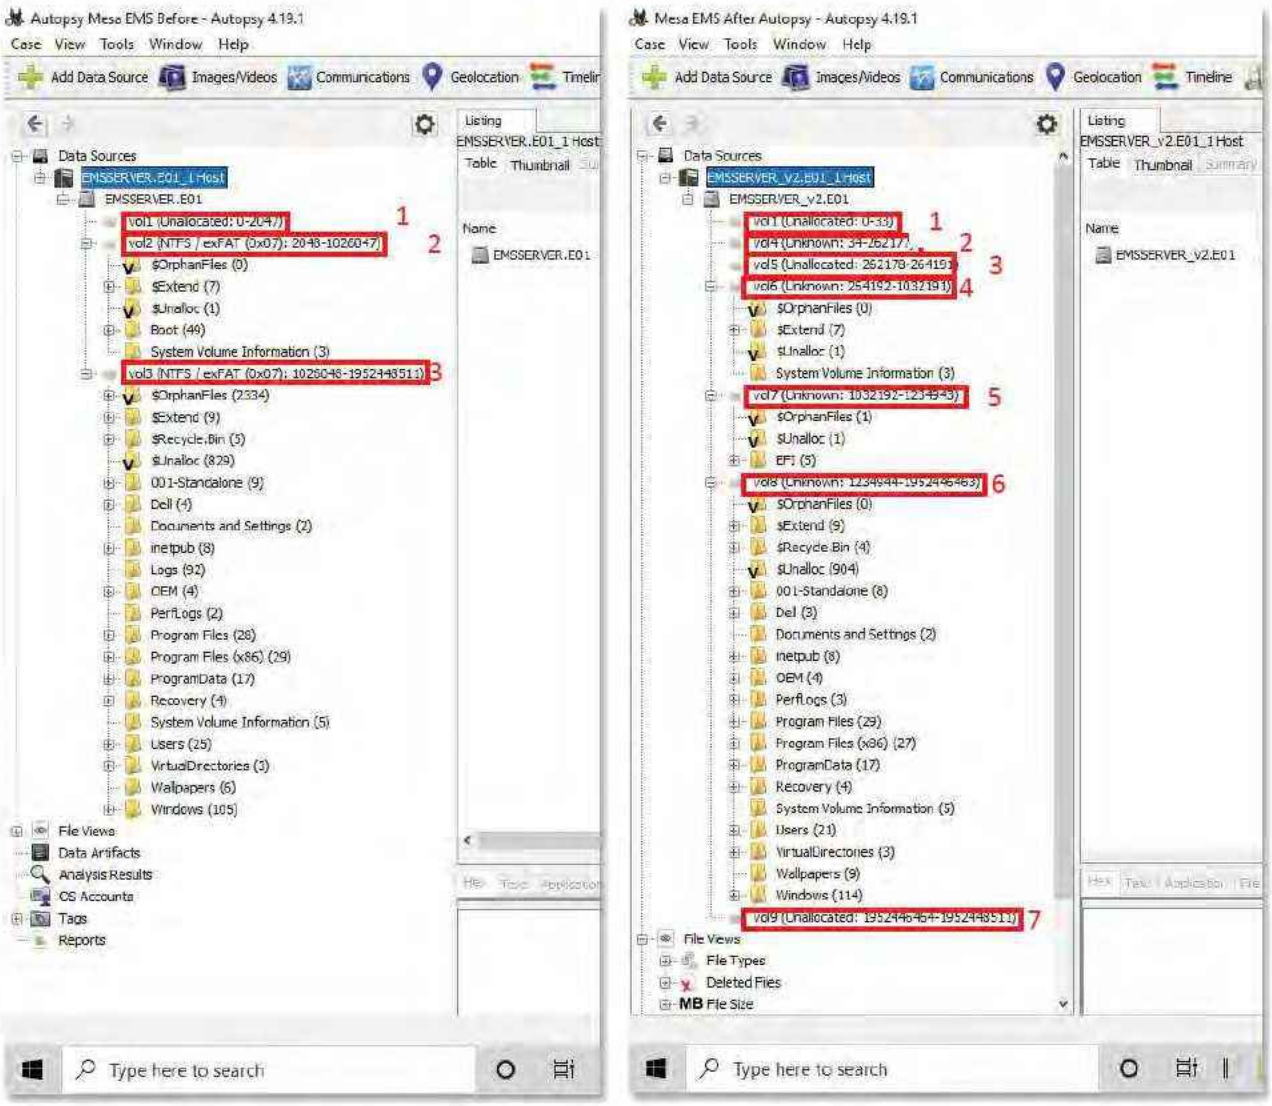


Figure 6- EMSSERVER (5.13) Disk Partition Structure After

AMERICAN OVERSIGHT

Figure 7 - Server Disk Partition and Directory Changes

Before Dominion Update

After Dominion Update

Computer hard disk drives are data storage devices that must be prepared before use – specifically, they must be partitioned into logical disk volumes and then formatted. Partitioning a hard disk drive is the equivalent of scoring horizontal and vertical rule lines onto blank paper, and then numbering each line, preparing that paper for the orderly recording and look-up of information. A disk is partitioned to organize information into sets of related data. A partition creates a logical drive, C:, D:, E:, etc., that the Master Boot Record (MBR) or Globally Unique Identifier (GUID) Partition Table, which are like maps of the partitioned and formatted memory storage locations on the hard drive, can then use to write and read stored data.

Creation of such a partition, if previous partitions are not preserved, destroys the "map" of underlying data and data locations when the partition is formatted. The previous partition data is then only recoverable by forensic techniques, and is vulnerable to complete destruction if overwritten by data stored according to the new partition "map." Note that in the before image above, each disk partition (Labeled "volX," e.g. "vol1," for "volume") is identified together with the addresses of the beginning block and ending block for each volume.

AMERICAN OVERSIGHT

By comparing the images, it is evident that the disk was re-partitioned, reformatted, and the previous data map completely destroyed by overwriting it with new data, rendering the prior data (mostly) unrecoverable.

Forensic examination of the system can reveal remnants of deleted data. When a computer deletes a file, it does not erase the data; it merely changes the first character of the filename to a non-printable character recognized by software that accesses the disk. This first character tells the operating system to no longer display the file as it is marked as a deleted file, and the space occupied by the disk is marked as reusable.

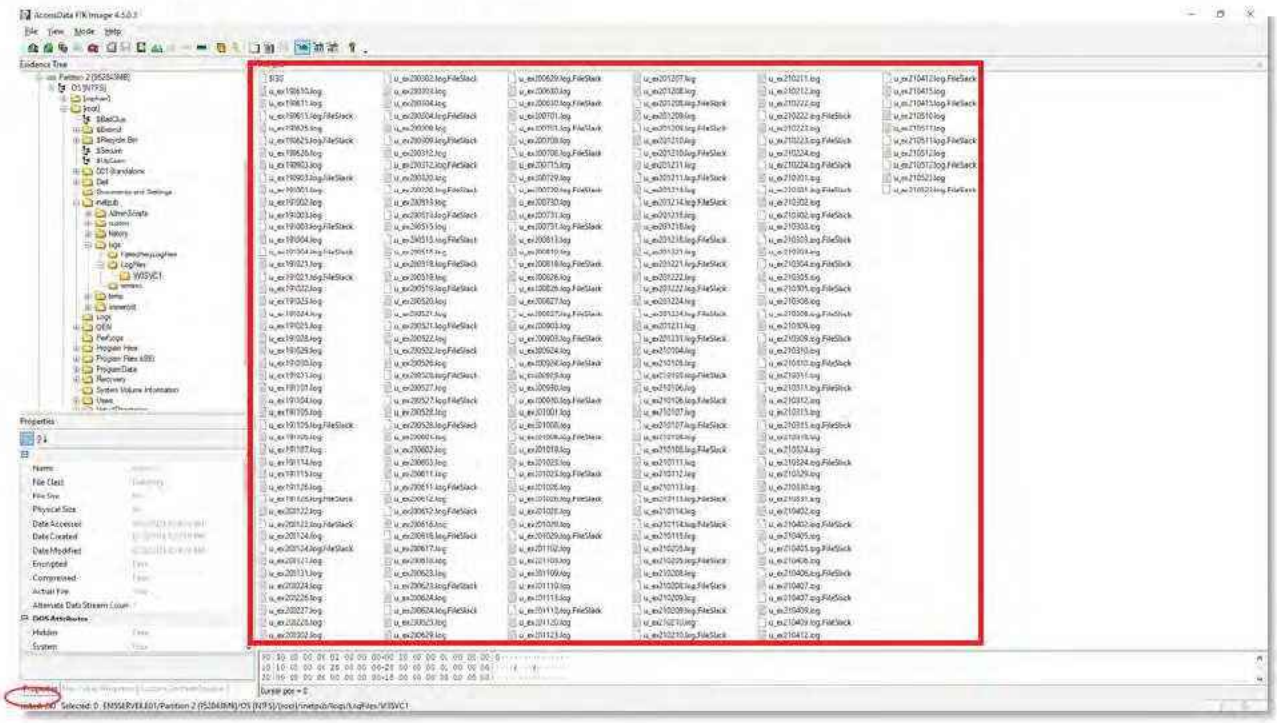
Each block on the disk is the smallest unit of disk space that can be used. The size of all blocks on the disk are determined when the disk is formatted. The smallest disk block size in common use is 512 bytes. Even if a file only occupies 50 bytes of disk space, the entire 512 byte block is marked as "in use".

If a file of 500 bytes is written to the disk, it occupies one block of disk space, with the last 12 bytes (on a newly formatted disk) each containing the numeric value zero (0). If this file is then deleted, and a file of 50 bytes is written to the same disk block, the first 50 bytes of the block contain the new file, and the next remaining 450 bytes of the disk block contain the data from the deleted file that previously occupied the disk block (followed by the 12 null (0) bytes of data). This data remnant is referred to as "File Slack Space" and is defined as any previous remnant data that remains on the disk and is not accessible via the operating system nor allocated as an accessible file.

Special forensic software is required to access file slack space, and the data it contains are partial remnants of previous system data. This data may be of use in forensic investigation, and forensic tools often identify it. File Slack is identified here for clarity and better understanding of these data.

AMERICAN OVERSIGHT

Figure 8 - EMS Server (5.11-CO) Web Server Log Files Before



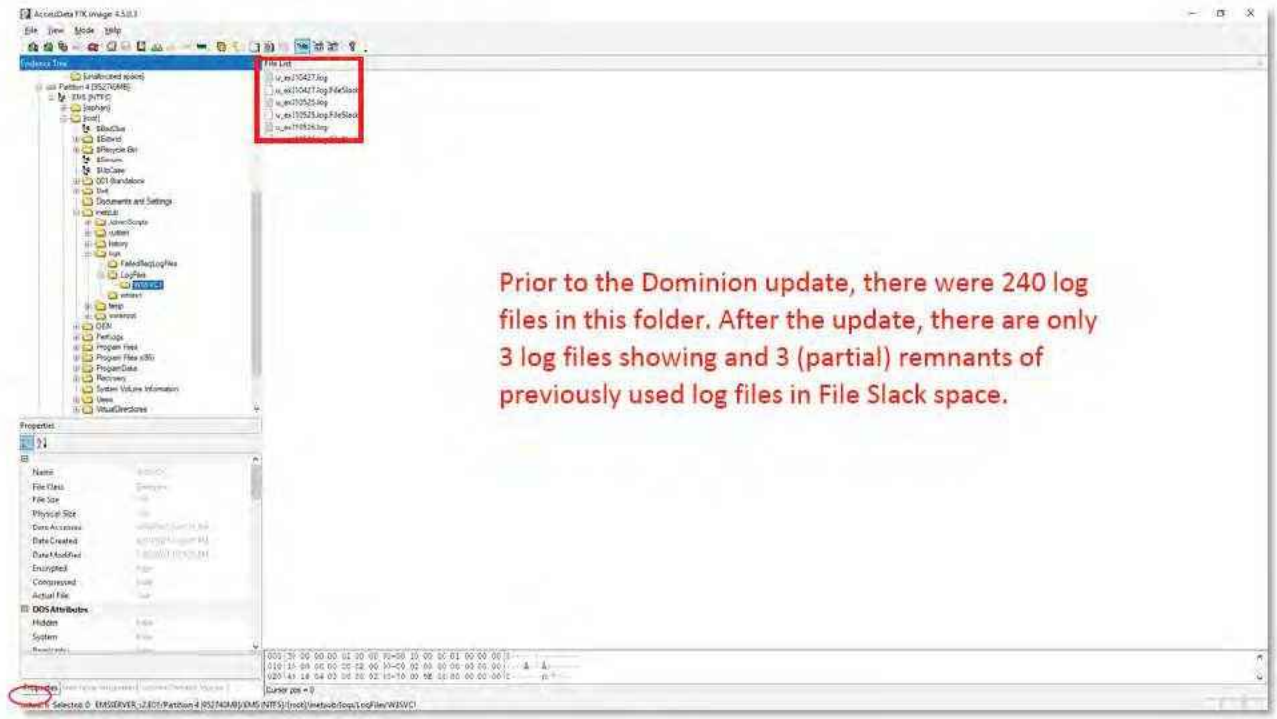


Figure 9 - EMS Server (5.13) Web Server Log Files After

AMERICAN OVERSIGHT

A web server provides information to external web clients (via "web browser" software) using the HyperText Transfer Protocol (HTTP). This information can include both read and write access to databases and static presentation of information.

Some software system designs utilize an Ethernet network interface that is essentially an internal connection to itself, known as a *loopback* interface. Thus the presence of a Web Server, by itself, does not indicate a connection to an external ethernet interface. However, such an external connection may be indicated by the data within web server logs, which are stored by default in Microsoft operating systems with Microsoft Internet Information Services (IIS) installed, in a "logs" subfolder to the "inetpub" folder. That log data would include information regarding what web pages and data were accessed and whether it was accessed from within the server (loopback) or via an external network connection.

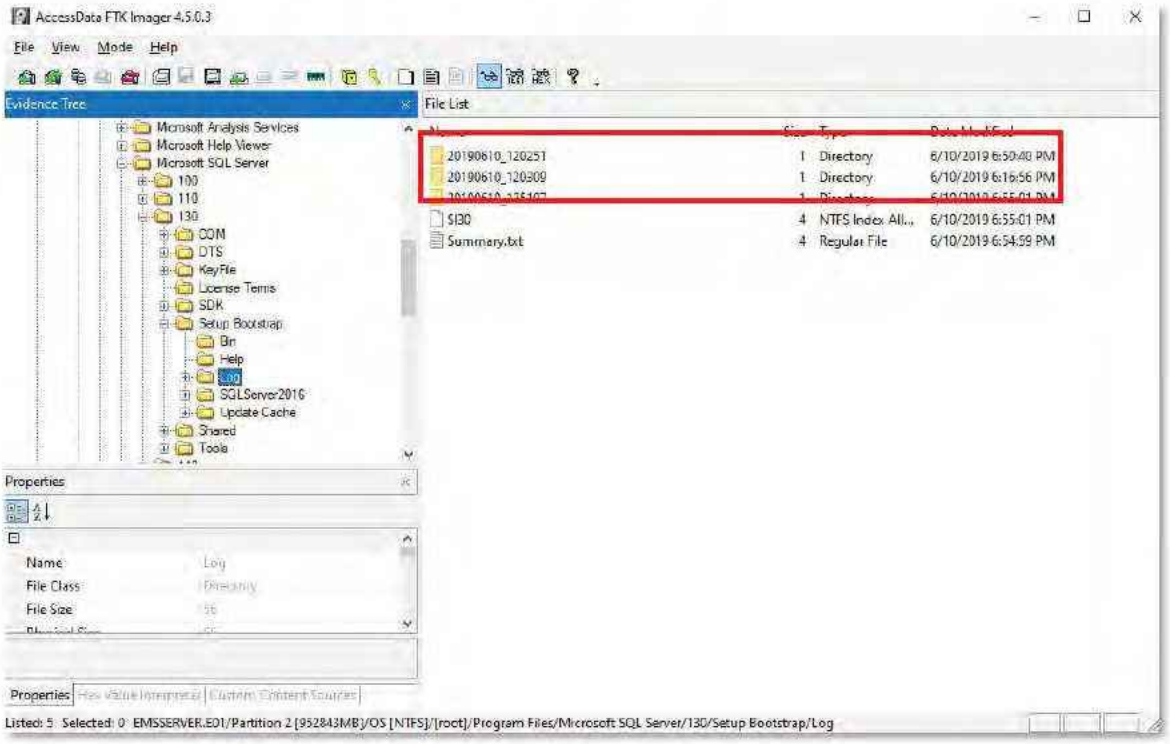
In these before and after views of the same web server directories, it is clear that the web server logs have been destroyed by or during the Dominion/CO Secretary of State DVS D-Suite 5.13 modification.

This log data is required to verify that the election system was not accessed by an external, unauthorized device, but due to the specific and unusual installation method for a critical computing system, chosen by Dominion Voting Systems and endorsed by the CO Secretary of State, these critical data files with election-related data have clearly been destroyed on the Mesa County EMS Standard Server.

AMERICAN OVERSIGHT

Purpose: *The Database Management System that is used to hold actual ELECTION DATA – votes from each ballot. These log files contain information detailing the installation events of SQL Server.*

Figure 10 - EMS Server (5.11-CO) MS SQL Server Installation Log Files Before



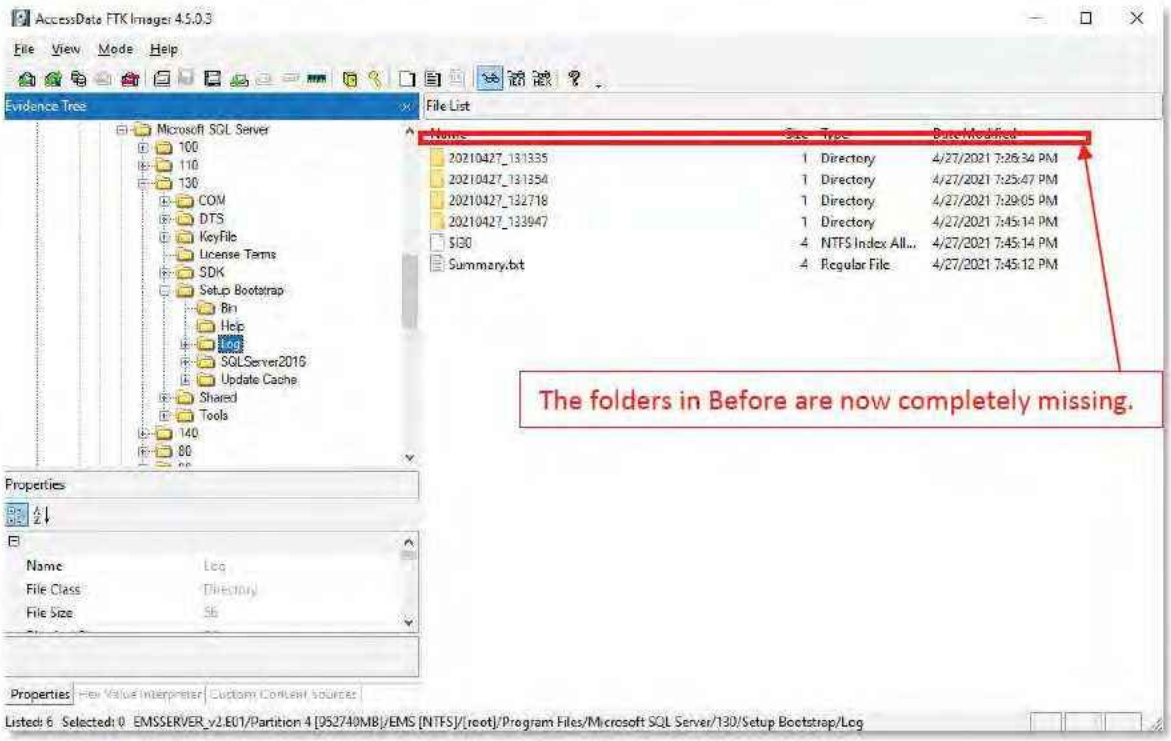


Figure 11 - EMS Server (5.13) MS SQL Server Installation Log Files After

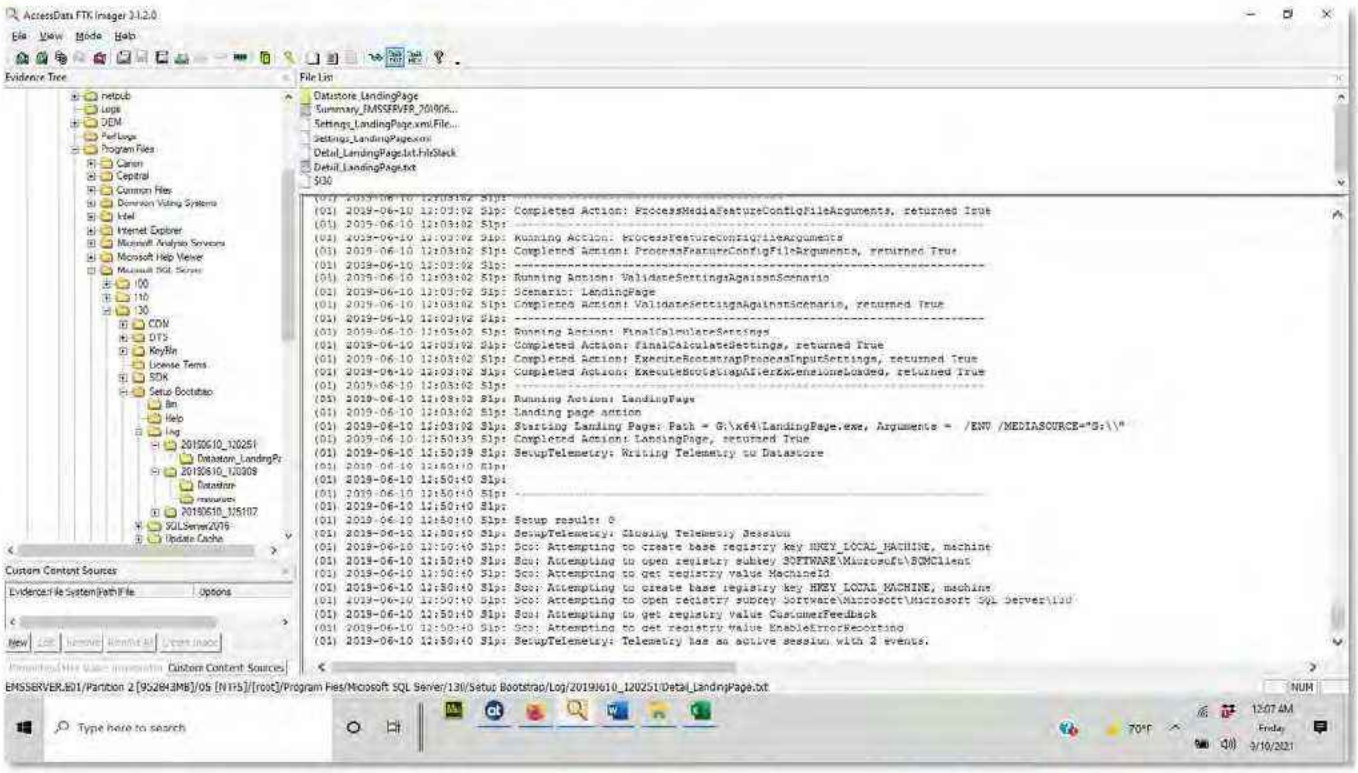

AMERICAN OVERSIGHT

These log files were created by installing the SQL Server Database Management System software and contain data regarding the Initial installation of the software. In a full forensic investigation, these data are part of the information that investigators require to determine a baseline from which can be determined what changes were made, by whom, when the changes were made, and much more on a system with properly configured log recording. Therefore, these data are Election Related as they document not only the configuration but its changes and are relevant to the Integrity of the election.

Figure 12 is an example of log content from the initial software setup. It tells us what (Microsoft) software executes, where data is stored (the G: drive), and it shows us what Registry values have been set during the installation. These are valuable should an investigation of an illegal computer intrusion occur, as they provide a record of the initial configuration during such an investigation.

Figure 12 - Example of Log File Content from EMS Server (5.11-CO) Before

AMERICAN OVERSIGHT

Purpose: *These log files keep track of events that occur within the SQL Server that manages the election databases.*

Figure 13 - EMS Server (5.11-CO) SQL Server Log Files Before

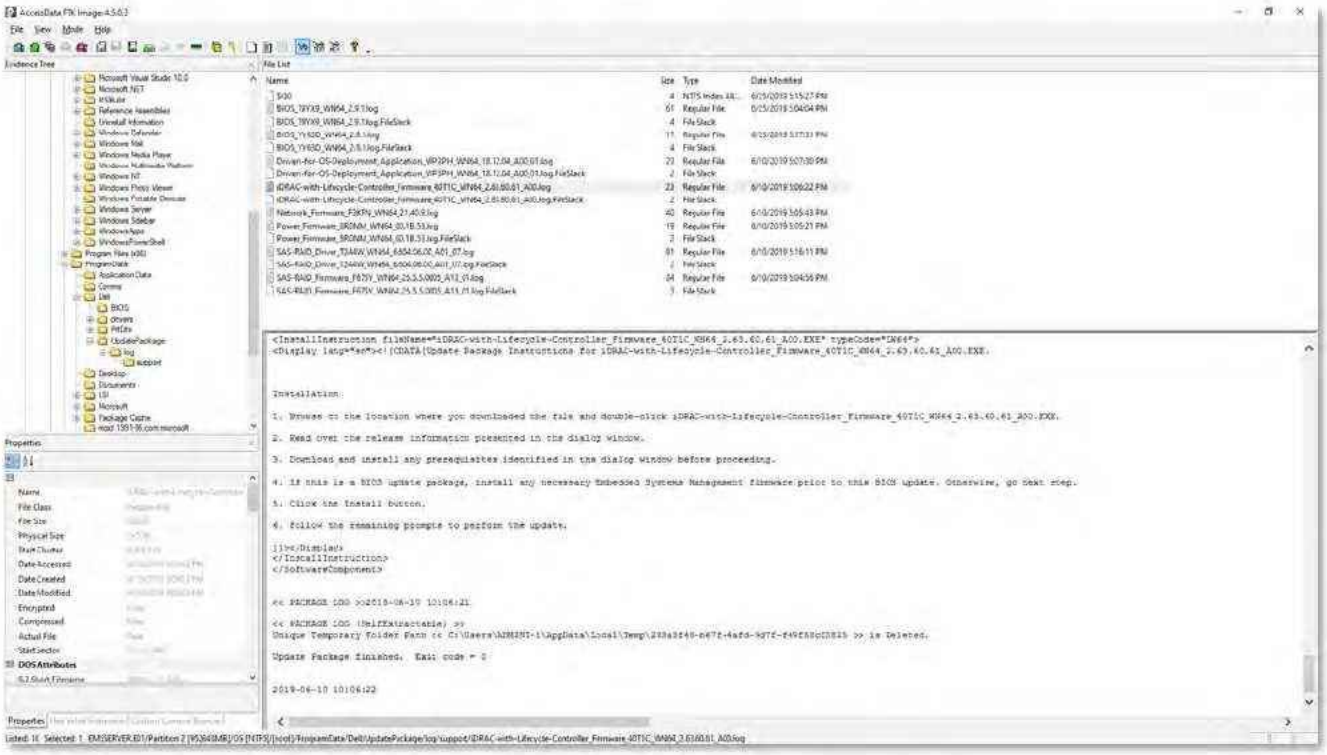
AMERICAN OVERSIGHT

Purpose: *These log files track installation of updates made to the various components of the servers, including updates to software for a remote-access card.*

Figure 15 - EMS Server (5.11-CO) Dell Server Update Files Before



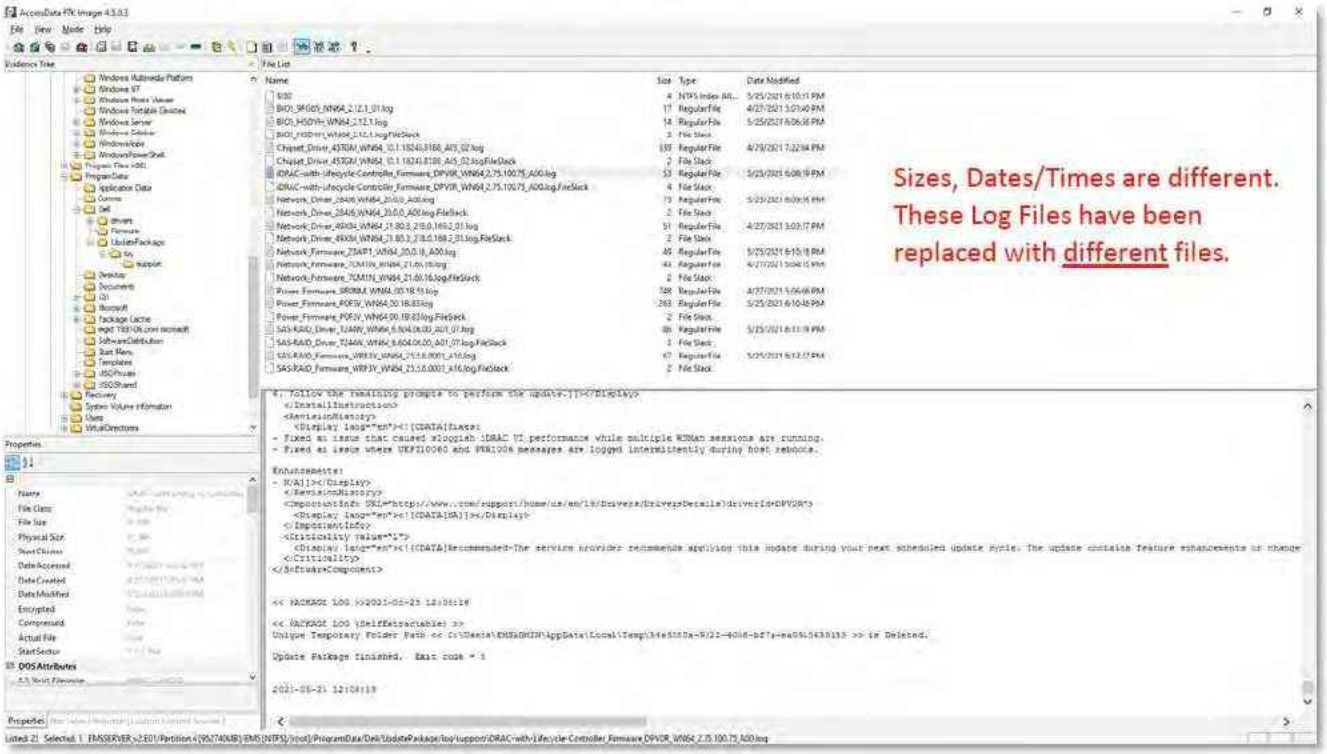


Figure 16 - EMS Server (5.13) Dell Server Update Files After

AMERICAN OVERSIGHT

Several log files of great importance to an investigation are shown in Figure 16. The SAS RAID firmware and drivers logs tell us about the functionality of hard disk controllers (RAID is an acronym for Redundant Array of Independent Disks) and about this storage redundancy's physical capability. Network Firmware logs tell us which hardware devices were updated with new firmware, and the version allows us to trace back to its network (and possibly Internet) functionality. The application of iDRAC controller firmware may indicate the presence of a special hardware controller intended to permit complete remote control of the computer system. This iDRAC controller is often used when a data center must be located an inconvenient distance away from its owner and/or operators, or for example, when such a computer might be physically located at an Internet Service Provider's secure data center. The iDRAC controller permits a remote user to remotely turn on the power to the server, reboot it, access administrative control functions, and make changes to the server, *OUTSIDE THE CONTROL, or even the awareness, of the local computer operator and its operating system.* Among the changes possible via an IDRAC are changes to the BIOS (Basic I/O System) including those firmware settings that include the computer Clock, boot device order, which disks or other data storage devices are used to boot the computer, and some other computer capabilities.

Take note of what files remain following the update.

Not only are the files in an entirely different directory, but the file modification dates have changed, and more importantly, these logs are for DIFFERENT versions of the software, and the previous logs have been overwritten.

Physical examination of the EMS computer system is required to verify the presence or absence of an IDRAC controller, however it is highly irregular for update software to install updates to software for a hardware device that has not been installed.

AMERICAN OVERSIGHT

Purpose: *These log files store information about websites visited, files opened, etc.*

Figure 17 - EMS Server (5.11-CO) Administrator WebCache Log Files Before

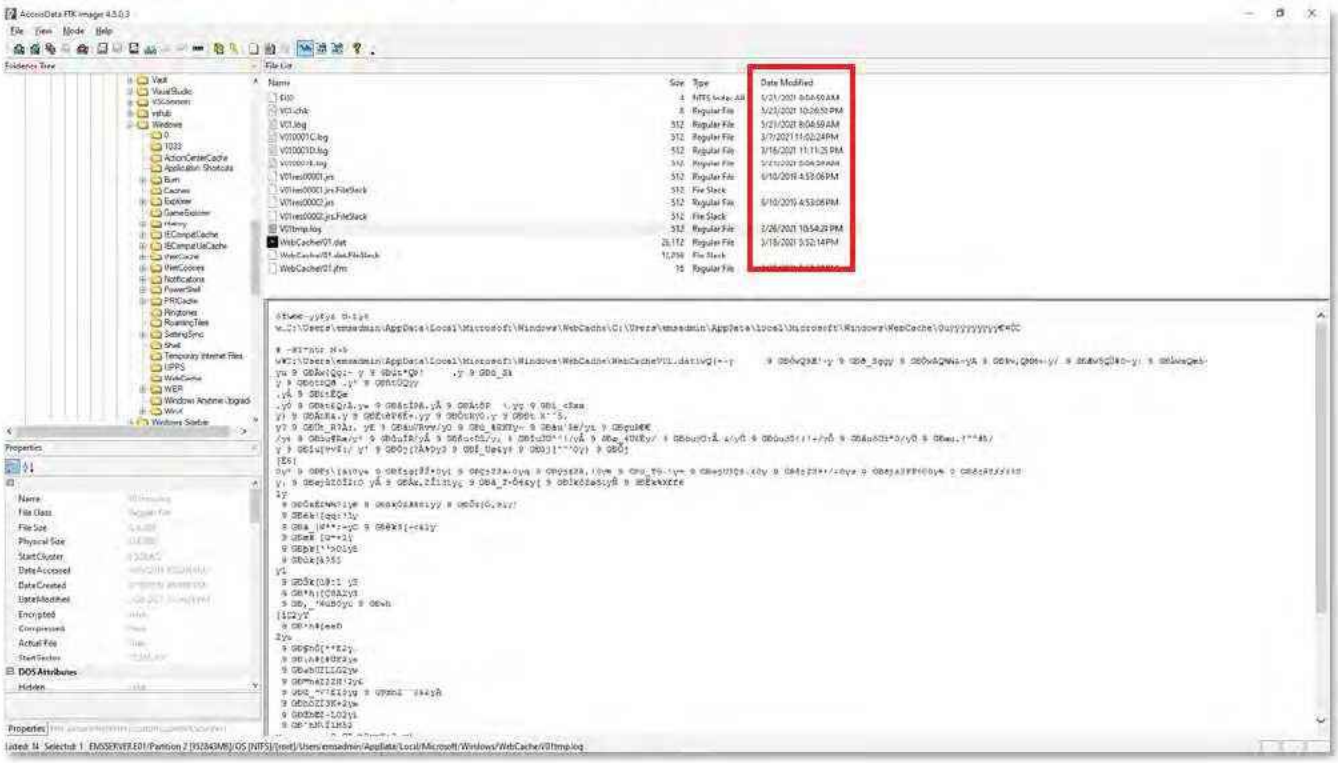
Purpose: *These log files store information about websites visited, files opened, etc.*

Figure 19 - EMS Server (5.11-CO) "emsadmin" WebCache Log Files Before



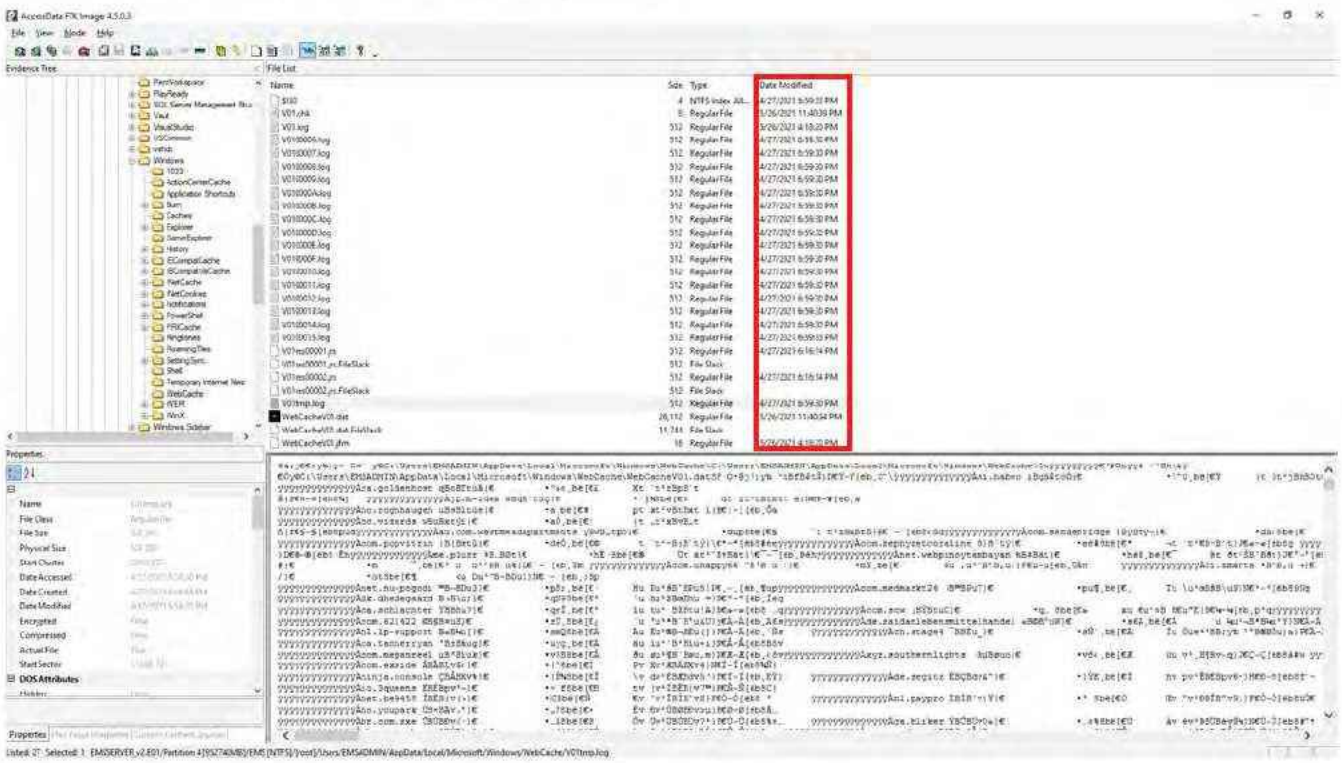


Figure 20 -EMS Server (5.13) "emsadmin" WebCache Log Files After

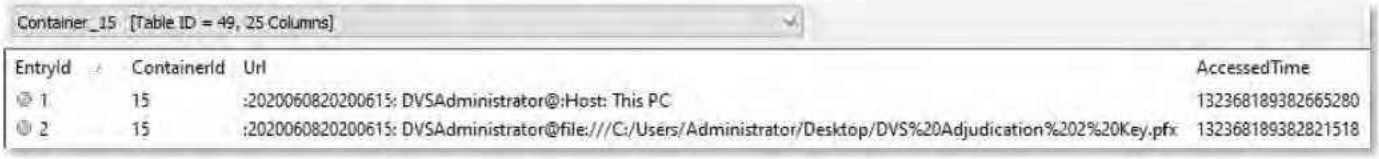
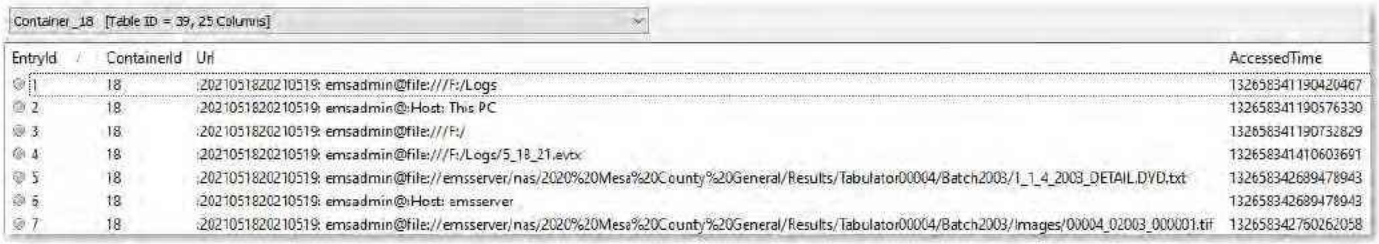


AMERICAN OVERSIGHT

The WebCache log files have been overwritten. IF the computer has been used on the Internet or with ANY webserver (even one on the local network, including this computer's OWN webserver), these WebCache files indicate the connections that were sought, as well as files that were opened. These may provide *critical* evidence that the system has been connected to a network, including networks that have access to the Internet. THESE ARE NOT the same files in the before and after images. They have been deleted and replaced.

Here is a small subset of some of the information that was found on the Before image in these WebCache log files:

Figure 21 - EMS Server (5.11-CO) Webcache Log File Content Before



Container_15 [Table ID = 49, 25 Columns]

EntryId	ContainerId	Url	AccessedTime
1	15	:2020060820200615: DVSAdministrator@:Host: This PC	132368189382665280
2	15	:2020060820200615: DVSAdministrator@file:///C:/Users/Administrator/Desktop/DVS%20Adjudication%202%20Key.pfx	132368189382821518

For instance, the above log file entry seems to show a DVS Adjudication Encryption Key was accessed, where it was stored and accessed from, and when it was accessed.

Figure 22 - EMS SErver (5.11-CO) Webcache Log File Content Before - II

Container_18 [Table ID = 39, 25 Columns]

EntryId	ContainerId	Url	AccessedTime
1	18	:2021051820210519: emsadmin@file:///F:/Logs	132658341190420467
2	18	:2021051820210519: emsadmin@:Host: This PC	132658341190576330
3	18	:2021051820210519: emsadmin@file:///F:/	132658341190732829
4	18	:2021051820210519: emsadmin@file:///F:/Logs/5_18_21.evtx	132658341410603691
5	18	:2021051820210519: emsadmin@file://emsserver/nas/2020%20Mesa%20County%20General/Results/Tabulator00004/Batch2003/1_1_4_2003_DETAIL.DVD.txt	132658342689478943
6	18	:2021051820210519: emsadmin@:Host: emsserver	132658342689478943
7	18	:2021051820210519: emsadmin@file://emsserver/nas/2020%20Mesa%20County%20General/Results/Tabulator00004/Batch2003/Images/00004_02003_000001.tif	132658342760262058

In addition, the above log file entry seems to show several interesting files (a windows 'evtx' log file being opened from an external attached USB flash drive, and a ballot detail file and even a ballot image from Batch 2003 being opened from a Network Attached Storage device)

Without a forensic Before image prior to a Dominion 'Update', this type of potentially critically-important forensic information could be, and likely would be, lost forever.

AMERICAN OVERSIGHT

Purpose: *These log files track the installation of the SQL Server Management Studio, which is used to get into the back-end of the election databases.*

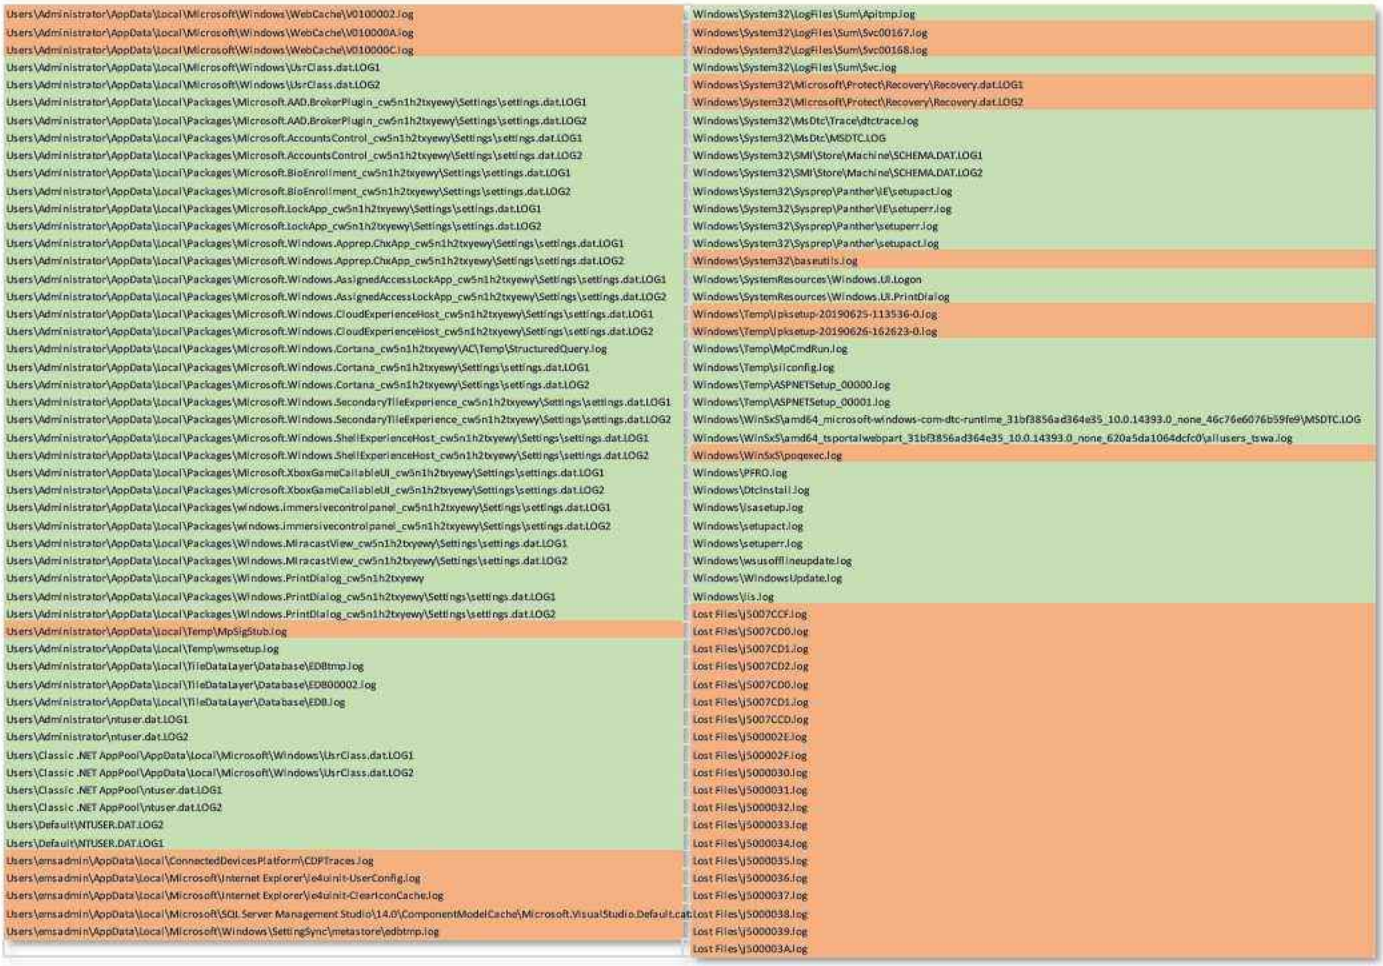
Server List of .log files in Before Image that were Deleted.

This list that follows this paragraph is a comparison of the Before and After forensic images of the Mesa County EMS Server. It is a comparative list of files that were deleted – either deliberately erased or overwritten with disregard for the preservation of these files, some of which contain ELECTION RELATED data.



Each line in the image below is the full path listing to each one of the 807 files that end with the word ".log" found on the EMS Server before the Dominion update was applied.

The Color code shows what happened to them After Dominion's update. Of all the files on the server Before the update – files highlighted in Green are still present on the server after the update, while files highlighted in light red have been overwritten and are deleted and not present in the image taken After the update.

Significant Number of Logfiles Missing

The dataset from which this spreadsheet was created was extracted from the EnCase images of the original evidence on the hard drives of the EMS Server and had a traceable chain of custody. While the images above are too small to be readable, the entire content of this list is reproduced in Appendix A.

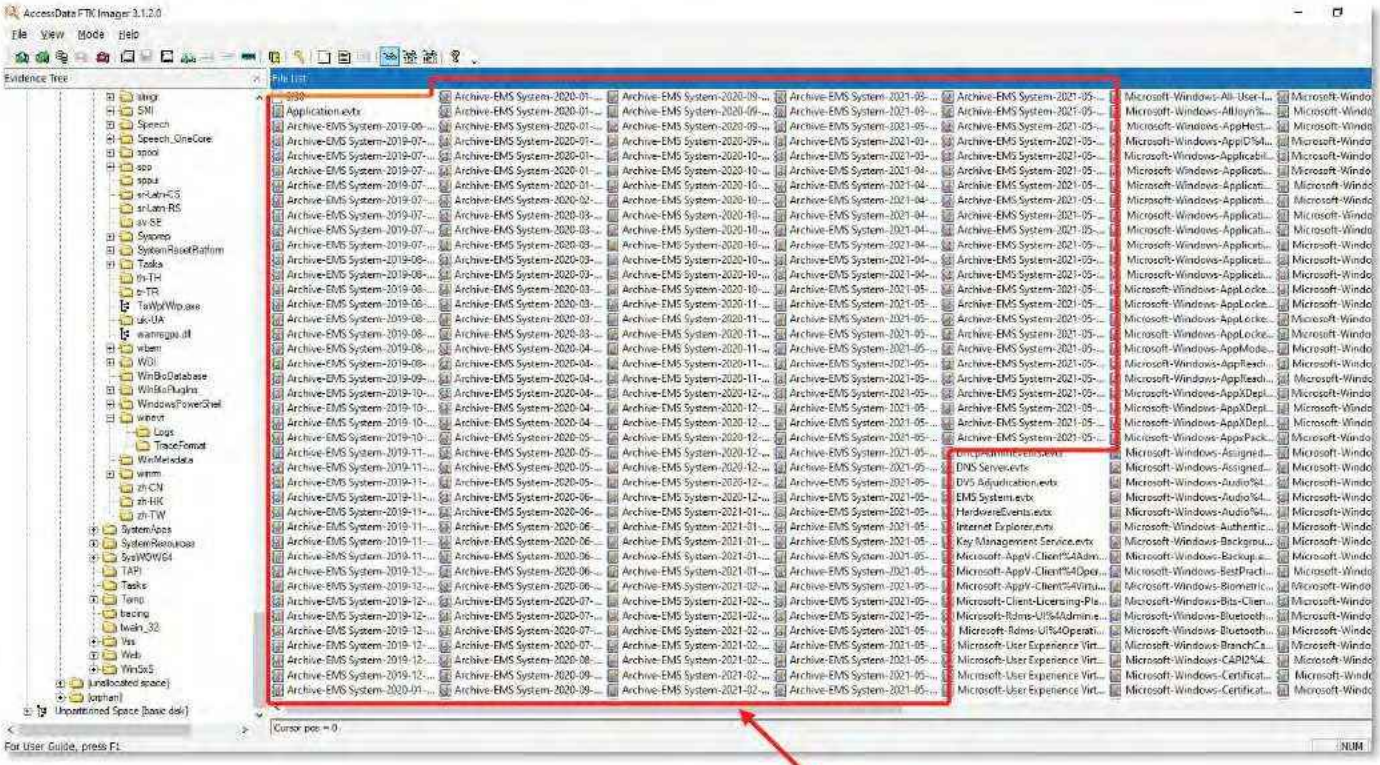
Of the original 807 ".log" files on the EMS Server before Dominion's update, only 302 remain, and 505 ".log" files have been deleted or overwritten.

Of the files *that remain*, the forensic examination has not yet verified whether the content of these files (which have the same filename and Path – e.g., in the same directories) is unchanged. The files that have been deleted DO include files that constitute Election Records and are subject to Federal and State data retention laws.

This list is only 807 files, and the text size is so small that the content is barely readable. The list of files has been broken down into small subsets because the number of files on the entire server totals 363,321 files, many of which are provided by Microsoft as part of the Windows Server 2016 operating system and its associated application programs and are not Election Related and do not contain actual Election Data.

AMERICAN OVERSIGHT

Figure 41 - EMS Server (5.11-CO) List of .evtx Event Log Files Before



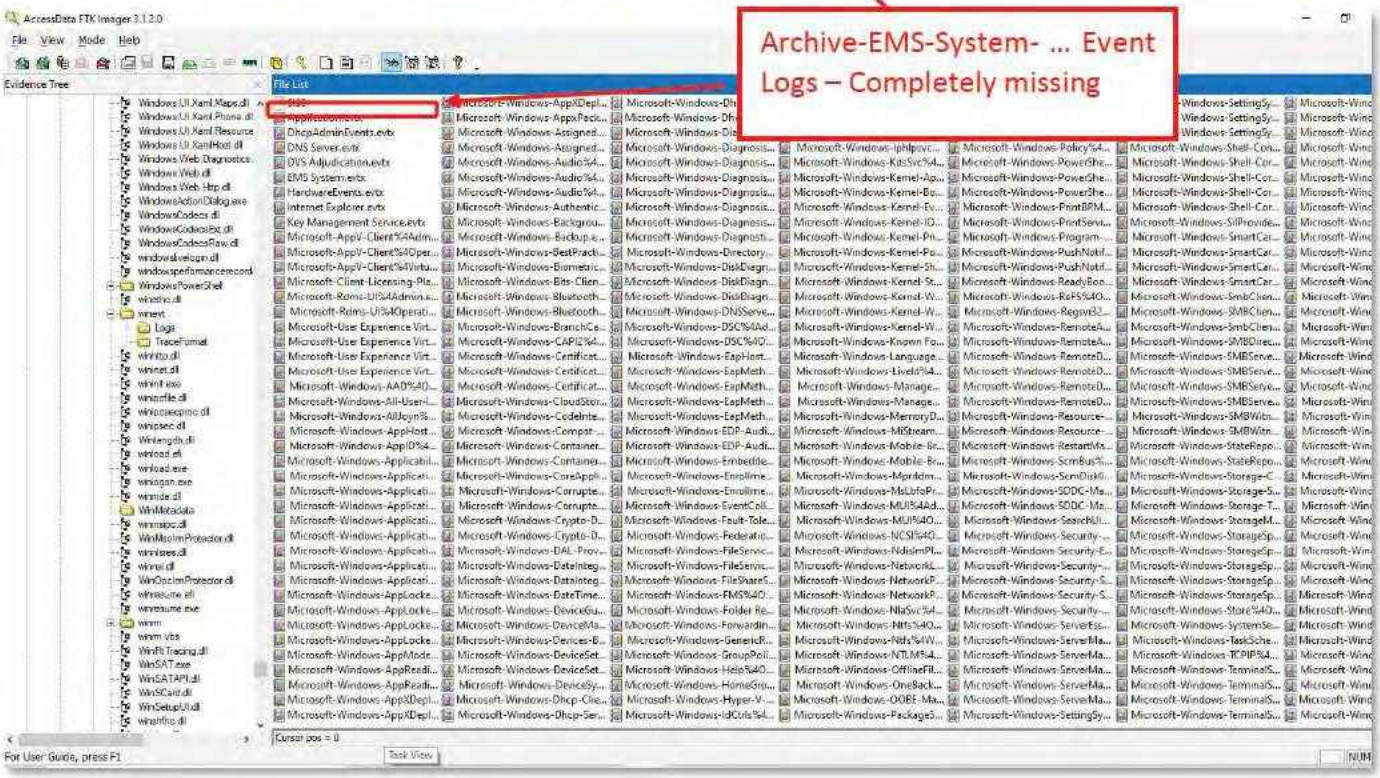


Figure 42 - EMS Server (5.13) List of .evtx Event Log Files After

AMERICAN OVERSIGHT

This list that follows this paragraph is a comparison of the Before and After forensic images of the Mesa County EMS Server. It is a comparative list of files that were deleted – either deliberately erased or overwritten with disregard for the preservation of these files, some of which contain ELECTION RELATED data. A readable list is in Appendix C.

Each line in the image below is the full path listing (e.g., comparision of file names, not content) to each one of the 580 files that end with the word ".evtx" found on the EMS Server before the Dominion update was applied. 190 Event Log Files were deleted.

The Color code shows their status After Dominion's update. Of all the files on the server Before the update – files highlighted in Green are still present (although possibly changed) on the server after the update, while files highlighted in light red have been overwritten and are deleted and not present in the image After the update.

Analysis Summary

Analysis of the Mesa County Dominion Voting Systems EMS server identified that extensive deletion of both election data and election-related data, comprising election records which must and should have been preserved under Federal and Colorado law, has occurred either as a result of or coincident with the vendor's and CO Secretary of State's modification of the system from version 5.11-CO to 5.13. This deleted data is critical to any effort to reconstruct events taking place on the voting systems, and to determine if unauthorized access or operation of the voting systems took place.

Furthermore, the EMS server application logging functions are configured to "Overwrite events as needed" if arbitrarily-selected file storage sizes are exceeded, which could predictably and likely has resulted in the systematic, automated deletion of logfile content comprising election-related data.

This systemic deletion of logfile data requires additional investigation.

CONCLUSION

This forensic examination found that significant election record preservation requirements under the 2002 VSS and Federal and state law HAVE NOT BEEN MET and further that destruction of Election-Related Data, specifically critical logfiles, has occurred. This destruction is not incidental or minor but is *highly significant*.

These findings have been demonstrated in this report and evidence has been presented demonstrating *conclusively to both computer systems experts as well as legal professionals and the general public at large* that the facts in these findings support the conclusions that:

1) Election-related data and election data explicitly required to be preserved, as described in the 2002 VSS criteria referenced in this section, HAS BEEN DESTROYED IN VIOLATION OF THE LAW, and

2) The specific configuration settings of the server examined lead to the understanding that Certification Requirements for Voting Systems have likely not been met despite this system having been certified and thereby approved for use in Colorado by the Colorado Secretary of State.

Further investigation is required to determine the full scope of non-compliance with legal mandates for voting systems and election records, and whether the non-compliance is deliberate or simply negligent.

APPENDIX B. SUPPORTING DOCUMENTATION: FILE DETAILS AND HASH SETS FOR SCREENSHOTS

The files below provide integrity data for the graphic screenshots in this document. Each comma-separated-variable (csv) file listed here contain the file name with its full path (e.g., directory structure) and message digest hash values (MD5 and SHA1 algorithms). Due to the length of the data contained in these files, they are provided in a compact disc (CD) addendum to this report.

AMERICAN OVERSIGHT

APPENDIX C. MICROSOFT EVENT LOG FILES

Files in this list were ALL present in the EMS Server Before image. Files listed in RED were deleted or overwritten. Significantly, from their filenames alone, they are OBVIOUSLY Election-Related Records, "Archive-EMS-System-..."

AMERICAN OVERSIGHT

APPENDIX E. 2002 VOTING SYSTEMS STANDARDS (VSS)

The 2002 VSS explicitly states:

> "2.2.4.1 Common Standards
>
> To ensure system integrity, all system shall:
>
> ...
> g. Record and report the date and time of normal and abnormal events;
>
> h. Maintain a permanent record of all original audit data that cannot be modified or overridden but may be augmented by designated authorized officials in order to adjust for errors or omissions (e.g. during the canvassing process.)
>
> i. Detect and record every event, including the occurrence of an error condition that the system cannot overcome, and time-dependent or programmed events that occur without the intervention of the voter or a polling place operator; and
>
> J. Include built-in measurement, self-test, and diagnostic software and hardware for detecting and reporting the system's status and degree of operability.

Furthermore, in 2.2.5.3, COTS (Commercial Off-The-Shelf) General Purpose Computer System Requirements, the 2002 VSS states:

> Further requirements must be applied to COTS operating systems to ensure completeness and integrity of audit data for election software. These operating systems are capable of executing multiple application programs simultaneously. These systems include both servers and workstations (or "PCs"), including the many varieties of UNIX and Linux, and those offered by Microsoft and Apple. Election software running on these COTS systems is vulnerable to unintended effects from other user sessions, applications, and utilities, executing on the same platform at the same time as the election software.
>
> "Simultaneous processes" of concern include unauthorized network connections, unplanned user logins, and unintended execution or termination of operating system processes. An unauthorized network connection or unplanned user login can host unintended processes and user actions, such as the termination of operating system audit, the termination of electon software processes, or the deletion of election software audit and logging data. The execution of an operating system process could be a full system scan at a time when that process would adversely affect the election software processes. Operating system processes improperly terminated could be system audit or malicious code detection.
>
> To counter these vulnerabilities, three operating system protections are required on all such systems on which election software is hosted.
>
> First, authentication shall be configured on the local terminal (display screen and keyboard) and on all external connection devices ("network cards" and "ports"). This ensures that only authorized and identified users affect the system while election software is running.
>
> Second, operating system audit shall be enabled for all session openings and closings, for all connection openings and closings, for all process executions and terminations, and for the alteration or deletion of any memory or file object. This ensures the accuracy and completeness of election data stored on the system. It also ensures the existence of an audit record of any person or process altering or deleting system data or election data.

AMERICAN OVERSIGHT

Third, the system shall be configured to execute only intended and necessary processes during the execution of election software. The system shall also be configured to halt election software processes upon the termination of any critical system process (such as system audit) during the execution of election software.

And, in 4.3 Data and Document Retention, the 2002 VSS states:

All systems shall:

a. Maintain the integrity of voting and audit data during an election, and for at least 22 months thereafter, a time sufficient in which to resolve most contested elections and support other activities related to the reconstruction and investigation of a contested election; and

b. Protect against the failure of any data input or storage device at a location controlled by the jurisdiction or its contractors, and against any attempt at improper data entry or retrieval.

And the 2002 VSS states, in 4.4.3 In-Process Audit Records:

In-process audit records document system operations during diagnostic routines and the casting and tallying of ballots. At a minimum, the in-process audit records shall contain:

a. Machine generated error and exception messages to demonstrate successful recovery. Examples include, but are not necessarily limited to:

1) The source and disposition of system interrupts resulting in entry into exception handling routines;

2) All messages generated by exception handlers;

3) The identification code and number of occurrences for each hardware and software error or failure;

4) Notification of system login or access errors, file access errors, and physical violations of security as they occur, and a summary record of these events after processing;

5) Other exception events such as power failures, failure of critical hardware components, data transmission errors, or other type of operating anomaly;

b. Critical system status messages other than informational messages displayed by the system during the course of normal operations. These items include, but are not limited to: Diagnostic and status messages upon startup;

2) The "zero totals" check conducted before opening the polling place or counting a precinct centrally;

3) For paper-based systems, the initiation or termination of card reader and communications equipment operation; and

4) For DRE machines at controlled voting locations, the event (and time, if available) of activating and casting each ballot (i.e., each voter's transaction as an event). This data can be compared with the publiccounter for reconciliation purposes;

c. Non-critical status messages that are generated by the machine's data quality monitor or by software and hardware condition monitors; and

d. System generated log of all normal process activity and system events that require operator intervention, so that each operator access can be monitored and access sequence can be constructed.

AMERICAN OVERSIGHT

And secton 6.5.5, Shared Operating Environment, in the the 2002 VSS states:

> Ballot recording and vote counting can be performed in either a dedicated or nondedicated environment. If ballot recording and vote counting operations are performed in an environment that is shared with other data processing functions, both hardware and software features shall be present to protect the integrity of vote counting and of vote data. Systems that use a shared operating environment shall:
>
> a. Use security procedures and logging records to control access to system functions;
>
> b. Partition or compartmentalize voting system functions from other concurrent functions at least logically, and preferably physically as well;:
>
> c. Controlled system access by means of passwords, and restriction of account access to necessary functions only; and
>
> d. Have capabilities in place to control the flow of information, precluding data leakage through shared system resources.

EXECUTIVE SUMMARY

This report documents the findings of an examination of tabulated vote databases based on forensic analysis of the drive image of Mesa County, Colorado's Dominion Voting Systems (DVS) Election Management System (EMS) server. The findings in this report were prepared by the authors as consultants to the legal team representing Tina Peters, the Mesa County Clerk and Recorder, pursuant to her statutory duties as Mesa County's Chief Election Official. The findings provide evidence of unauthorized and illegal manipulation of tabulated vote data during the 2020 General Election and 2021 Grand Junction Municipal Election. Because of this evidence, which led to the vote totals for those elections being impossible to verify, the results and integrity of Mesa County's 2020 General Election and the 2021 Grand Junction Municipal Election are in question.

This analysis was performed using the forensic image of the EMS server, which was backed up before Colorado Secretary of State and DVS overwrote the hard drive with D-Suite version 5.13.

Findings and Implications:

1) There was an unauthorized creation of new election databases during early voting in the 2020 General Election on October 21, 2020, followed by the digital reloading of 20,346 ballot records into the new election databases, making the original voter intent recorded from the ballots unknown. In addition, 5,567 ballots in 58 batches did not have their digital records copied to the new database, although the votes from the ballots in those batches were recorded in the Main election database.

2) The same unauthorized creation of new election databases occurred during the 2021 Grand Junction Municipal Election on March 30, 2021, followed by the digital reloading of 2,974 ballot records, making the original voter intent recorded on those ballots unknown. In addition, 4,458 ballots in 46 batches did not have their digital records copied to the

AMERICAN OVERSIGHT

new database, although the votes from the ballots in those batches were recorded in the Main election database.

3) The absence of secure hash algorithm (.sha) files for each digital ballot image makes the authenticity of each digital ballot image, and the ballot-level record for those ballots, impossible to verify.

4) The true total vote count in Mesa County, Colorado cannot be accurately calculated for the 2020 General Election or the 2021 Grand Junction Municipal Election from records in the databases of the county's voting system.

5) There is no function or feature on the EMS server that could be executed inadvertently or deliberately by a local election official that would cause this combination of events to occur, especially within the time frame that these events occurred. Given the complex sequence of data manipulations and deletions necessary to produce the digital evidence described in this report, this combination of events could not have been the result of either deliberate or inadvertent actions by those officials.

6) Dominion's installation of the Trusted Build update on the EMS in May of 2021, as ordered by the Colorado Secretary of State, destroyed all data on the EMS hard drive, including the batch and ballot records that evidenced the creation of new databases and reprocessing of ballot records described in Findings 1 and 2 above. This destruction of all data by the trusted build is described in the "Mesa County, Colorado Voting Systems Forensic Examination and Analysis Report".

7) The fact that such ballot record manipulation has been shown demonstrates a critical security failure with the DVS EMS wherever it is used. The manipulation would not be identifiable to an election official using the voting systems, nor to an observer or judge overseeing the election conduct, much less to citizens with no access to the voting systems; without both cyber and database management system expertise, and

AMERICAN OVERSIGHT

unfettered access to database records and computer log files (many of which were destroyed by the actions of the Secretary of State) from the EMS server, the manipulation would be undetectable.

INTRODUCTION

The use of computerized election management systems is now nearly universal across counties in the United States. While the use of these systems is touted as "efficient", potentially decreasing manpower costs and time to produce election results, it also greatly reduces the transparency of the election process and exposes our elections to extraordinary vulnerability from both inadvertent and deliberate misconfiguration or misuse. Americans' right to free and fair elections is inalienable, but that right is infringed by lack of transparency, and by whatever lies behind that opaque curtain.

Without free and fair elections and the transparency to see it for themselves, without relying on the assertions of any other person or organization, Americans' consent and the legitimacy of our government, at all levels, is in doubt. If Americans' votes are to be recorded and counted by machines, every aspect of those machines' operation, configuration, and data must be recorded, immediately available at no cost or administrative burden to citizens and their independent examiners and confirmed 100% accurate through that independent verification. The absence or shortfall of any of those three imperatives (recorded, available, and independently verified) should immediately cause the public to distrust both the purported result from those machines, and also anyone who insists that they accept those results.

Numerous Federal and State laws attempt to safeguard our voting rights and the integrity of our elections. Title 52 USC provides for much of the Federal guidance in this area, and Colorado Revised Statute (CRS) Title 1 covers most of the Colorado state guidance.

a) 52 U.S. Code § 10307 prohibits any person acting under color of law to "…willfully fail or refuse to tabulate, count, and report…" the vote of any person entitled to vote.

AMERICAN OVERSIGHT

b) 52 U.S. Code § 10308(a) prescribes penalties for any person depriving or attempting to deprive any person of voting rights under Federal statute.
c) 52 U.S. Code § 10308(c) prescribes penalties for conspiring to violate or interfere with secured voting rights.
d) 52 U.S. Code § 20701 mandates the preservation of all election records for 22 months after an election for Federal offices.[1,2]
e) 52 U.S. Code § 20702 prescribes penalties for theft, destruction, concealment, mutilation, or alteration of § 20701 election records.
f) 52 U.S. Code § 21081 requires that voting systems used in elections for Federal office meet the standards of that section, including that the voting system shall produce a record with an audit capacity for such system, and that "the error rate of the voting system in counting ballots…shall comply with the error rate standards established under section 3.2.1 of…" the Federal Election Commission 2002 Voting System Standards (VSS).[3]
g) CRS §1-5-601.5 requires that voting systems and equipment in Colorado meet 2002 VSS standards, at minimum.
h) CRS §1-7-802 requires the preservation of election records for 25 months after elections.
i) CRS §1-13-111 prescribes penalties for destroying, removing, or delaying delivery of election records.

Title 52 clarifies that the "every officer of election" is responsible for maintaining the election records.

[1] U.S. Department of Justice Publication "Federal Law Constraints on Post-Election 'Audits'," July 28, 2021, states that "The materials covered by Section 301 extend beyond 'papers' to include other 'records.' Jurisdictions must therefore also retain and preserve records created in digital or electronic form."
[2] The Federal Election Commission's 2002 Voting System Standards, the standards of which are mandatory minima for certification of voting systems under Colorado state statute § 1-5-601.5., specifies that a voting system which "…provides access to incomplete election returns and interactive inquiries before the completion of the official count…shall: a. …be designed to provide external access to incomplete election returns only if that access for these purposes is authorized by the statutes and regulations of the using agency…b. Use voting system software and its security environment designed such that data accessible to interactive queries resides in an external file, or database, that is created and maintained by the elections software under the restrictions applying to any other output report, namely, that: 1) The output file or database has no provision for write-access back to the system. 2) Persons whose only authorized access is to the file or database are denied write-access, both to the file or database, and to the system," and states that the Standards are "intended to address…risks to the integrity of a voting system...," including "…Changing calculated vote totals;…" and "Preventing access to vote data, including individual votes and vote totals, to unauthorized individuals;…"
[3] 2002 VSS, para 3.2.1 specifies "d. For central-county systems…: Consolidation of vote selection data from multiple counting devices to generate jurisdiction-wide vote counts, including storage and reporting of the consolidated vote data…a target error rate of no more than one in 10,000,000 ballot positions." A ballot position is each and every choice (e.g. a "bubble" which can be marked or filled-in) on a ballot selectable by a voter to convey their voting choices.

AMERICAN OVERSIGHT

Mesa County, Colorado, uses software and hardware provided by DVS and for the 2020 General Election and the 2021 Grand Junction Municipal Election, specifically used "D-Suite 5.11-CO." The primary voting system EMS server, which contains the raw tabulated vote information used to produce official election reports, makes use of Microsoft SQL Server 2016 databases running on the Microsoft Windows Server 2016 operating system. The forensic image used for the analysis, created on May 23, 2021, has been validated as authentic (see "Report #2, Forensic Examination and Analysis Report" by D. Gould for the methods used to validate the forensic image).

DEFINITION OF TERMS

"Ballot": Mesa County used two-sided paper ballots in the November 2020 General Election and the 2021 Grand Junction Municipal Election. A ballot is a device used to cast votes in an election. In Colorado, ballots are pieces of paper defining races and issues, and reflecting the choices of individual voters from among the options available for each race and issue. A digital image of each paper ballot is created by the DVS D-Suite voting system during the processing of ballots, as described below, and that ballot image is stored on the designated "NAS (Network Attached Storage device)" of the D-Suite voting system.

"Adjudication": A term used to describe the process of determining voter intent from a voter's ballot marks, where ballot markings are ambiguous. According to Dominion's Democracy Suite Use Procedure Manual, adjudication is "the process of examining voted ballots to determine, and, in the judicial sense, adjudicate voter intent". In the DVS D-Suite, adjudication refers to the operation and use of a software component called "EMS Adjudication," and the process of using that software component to manually or automatically interpret voter intent from scanned ballot images, and then to record that interpretation as the record of the vote choices for the affected ballots, in both "result files" and ballot images. Depending on software configuration choices, individual ballot images/result files, entire batches of ballot images/result files, or all ballot images/result files can be subjected to automatic or manual adjudication on the basis of "exceptions" or "outstack conditions" (e.g., "overvotes", where too many choices

AMERICAN OVERSIGHT

are marked for a race or issue; or “marginal marks” when ballot choice ovals are not adequately filled in), or by the arbitrary decision of EMS administrators.

“Manual Adjudication”: Either all ballot images, or individual ballot images, or those from particular batches or tabulators, in which voter intent for any race or issue is flagged by the EMS Adjudication software module as not being determinable (or as having “exceptions”), are, in theory, sent to “Manual Adjudication” stations where officials called “Adjudicators” view the digital images of the ballots and decide the voter’s intent. In this Report we sometimes use the terms “manual adjudication” and “machine adjudication” to clearly distinguish the process of human judging of voter intent from the process of the DVS EMS Adjudication software’s determining of voter intent.

“Adjudication database”: The DVS D-Suite version used in Mesa County during the November 2020 and April 2021 elections maintains a separate SQL Server database, called an “AdjudicableBallotStore,” created by DVS software, for each election which contains records of all batches and ballots scanned into the voting system through ImageCast scanning workstations, and any batch and ballot records manually entered. The database maintains critical information about each batch and ballot, most importantly the ballot Adjudication status and the file location of the ballot image. A batch can have any of the following adjudication statuses in the adjudication system: In-Progress, Read Error, Review, Pending Submission, Submitted, or Submission Error.[4] Throughout, “Adjudication database."

“Main election database”: The DVS D-Suite version used in Mesa County during the November 2020 and April 2021 elections maintains a database for each election, called an “ElectionStore” by DVS, which contains information defining an election, including contest, candidate, and ballot definitions as well as aggregated vote information which is used to produce all election reports generated by County officials. Throughout, “Main database.”

[4] In-Progress batches have been acquired by the system (e.g. through scanning at an ICC) and have ballots being served to clients (Adjudication); Read Error batches are those which encounter errors while being loaded into the system; Review are batches with all ballot adjudication complete, including batches with no adjudication required; Pending Submission are batches submitted to tally, but which have not yet completed that transmission to the tally process; Submitted are batches which have completed the transmission to the tally process; Submission Error are batches that were submitted to the tally process, but which were unsuccessfully submitted.

AMERICAN OVERSIGHT

"Tabulation database": The DVS D-Suite version used in Mesa County during the November 2020 and April 2021 elections maintains a database for each election, called a "TabulationStore" by DVS, which contains the timestamps and ballot counts for each batch of ballots, which duplicates that information contained in the Adjudication database. It contains other tables which are not used by Mesa County's elections. Throughout, "Tabulation database."

"Reprocessed": For the purposes of this Report, the term "reprocessed" means that one or more data records which had already been created, presumably by scanning of paper ballots through an ImageCast Central (ICC) workstation, though also technically possible through manual entry of records, within the databases associated with an election, were loaded into the system *again* to a different database, and that this re-loading was not performed in connection within any documented, authorized election-related operations procedure or function. A comparison with the log files of the respective ICC workstations might reveal whether the reprocessed paper ballots were, in fact, rescanned at the ICC, but many of those log files have been destroyed by the Secretary of State's "Trusted Build."

ANALYSIS

I. Evidence of ballot record data manipulation – November 2020 General Election

Our analysis shows manipulation, which was neither initiated nor authorized by Mesa County election clerks, of the batches and ballots processed during the first three days of ballot processing in the November 2020 General Election.

The following timeline of events, beginning October 19, 2020, when Mesa County began processing ballots in the General Election, demonstrates this manipulation of ballots.

October 19, 2020 – October 21, 2020, 2:14 PM

AMERICAN OVERSIGHT

On these first three days of ballot counting in Mesa County, up until 2:14 PM on October 21, 2020, 267 batches, consisting of 25,913 ballots, were physically processed (physically scanned on DVS ICC scanners with voters' choices, in the form of marks on the ballots, scanned and interpreted by software) through three tabulators, internally identified in the Main database as tabulator IDs 4, 7, and 10. Mesa County election clerks reported no unusual activity or errors encountered during the processing of these 267 batches. The Adjudication database used at this time contains records of all batches with a sequential "load order" of 1 to 267, and other tables within it record the information about each ballot, for instance the time it was entered into the database, the tabulator used, and the adjudication status. Those which were selected for Adjudication have the proper status records indicating that the normal adjudication steps occurred.

The initial 10 batches processed through tabulator 10, containing a total of 941 ballots, had timestamps indicating that they were all entered into the database within 47 seconds (total – not 47 seconds per batch, but 47 seconds for 10 batches). (See Appendix A for a list of the batches and their timestamps in the **original** Adjudication database.) The Canon DR-G1130, which according to purchasing documents and Colorado Secretary of State voting equipment inventories is the model of scanners used by Mesa County (see Reference C and the Colorado Secretary of State website[5]), operates at approximately 100 pages per minute (ppm), duplex, meaning that scanning both sides of each ballot would take no less than 0.01 minutes, which is 0.6 seconds, per ballot. 941 ballots at 0.6 seconds per ballot should have taken a minimum of 564 seconds, or slightly under 9 and a half minutes, a significantly longer interval than 47 seconds, which is physically impossible. Mesa County election clerks were unaware of these batch timestamps, or any issue which could explain them.

October 21, 2020 - 2:14 PM

According to the data contained in the EMS SQL Server Database, new Tabulation and Adjudication databases were created on the EMS server at 12:18:50 PM October 01, 2020. These databases initially contained no data records.

5	TabulationStore_2020_Mesa_County_General_2020-10-01_12:18:50

Two Adjudication databases ("AdjudicableBallotStore") and two Tabulation databases ("TabulationStore") are now listed, one set of which had creation times before the date and time ballot scanning and tabulation began in Mesa County on October 19, 2020 and the other set of which the EMS server data indicate were created two and a half days *after* ballot scanning and tabulation began.

It has been observed that a clerk giving the EMS system a command to stop and then restart adjudication in an election again creates new Adjudication and Tabulation databases. Mesa County clerks are very certain that they did not initiate any such action in either the November 2020 or the April 2021 elections. Therefore, it is likely that a procedure internal to the DVS software had to perform a stop and restart of the adjudication services in order to perform the batch and ballot manipulation which occurred later (see below).

AMERICAN OVERSIGHT

There are only a few possibilities which would explain how the database copying process was initiated.

1. **Direct action by Mesa County personnel**
   The client application used by election clerks does give them the ability to stop and restart adjudication, which would create the new databases.

   However, Mesa County personnel are very clear that they did nothing of the sort and explained that they would only do such a thing in an extreme emergency, as the process would have made the production of legally mandated reports very difficult.

2. **Triggered remotely**
   "Report #2, Forensic Examination and Analysis Report" by D. Gould identifies numerous security vulnerabilities in the DVS EMS server. A signal, or external trigger,[6] giving instructions to software inside the EMS server could have been sent to and received through any of the open communication ports, or through the port 80 Web Server port, which has been demonstrated to be open on the server and accepting commands via an application programming interface (API).[7] This signal, along with other information, could have been received via a local network connection (from any device connected to the EMS server's internal network), from a remote network connection (if the EMS server's internal network has been bridged to the external internet), or via an internal cellular modem (if one was installed in any DVS system). If the EMS Server was connected to a wireless network, it is feasible that even a cell phone outside of the

[6] E.g., an "external trigger" most people are familiar with is the function whereby their smartphone's wi-fi connection is turned on in response to detecting the proximity of a saved, pre-approved wi-fi network. The external trigger satisfies the criteria of an internal, saved rule for application behavior, and the application then executes the correlated command or function. We likely don't think of "Do Not Disturb" mode on our smartphones as being similarly controlled by an external trigger, but if our smartphones are configured to "use network time," meaning the time signal transmitted by the cellular carrier network, then our smartphones' "Do Not Disturb" mode isn't turned on at the time we set, per se, but when our cellular carrier tells our phone that the specified time is reached.
[7] An API is a specification for interaction which allows computer applications to communicate with, make requests to, and issue commands to other computer applications. I.e., API enables machine-machine communication, coordination, and command and control, depending on the permissions and allowable exchanges of the specific API specification.

AMERICAN OVERSIGHT

building, but still within the wireless signal radius, could have been used to trigger the events.

This option is plausible but infers a degree of external, time-sensitive control over the DVS equipment in use in Mesa County. This control might be considered undesirable by the perpetrators responsible for manipulating the election data, because it was a possibility that any unauthorized network connections, whether they be via standard ethernet, wireless network connection, or cellular modem, could have been discovered during the election period.

3. **Algorithmically Triggered**
   A software algorithm[8] running inside the DVS computer systems in Mesa County could have made the decision to perform the new database creations and the selected record manipulation which followed based on preprogrammed criteria related to the election results at the time.

   Given that this method requires the least amount of external control and monitoring, this option would seem to be the most likely. The decision to copy the Adjudication and Tabulation databases and re-process the ballot records would be made by software running inside the Dominion EMS (or inside another connected machine running Dominion software) based on unexpected voting patterns.

October 21, 2020, 2:30 PM – 2:34 PM

During this time period, 209 out of the original 267 batches (containing a total of 20,346 ballots) were digitally – not physically – loaded into the new Adjudication and Tabulation databases. Specifically, records for batches with load order 2 through 59 were not reloaded and do not appear in the new

[8] An "algorithm" is simply a set of rules for logical, sequential consideration of inputs (e.g. a contingent variable state, like "the switch is off" or "the switch is on," or the value of field/memory location "X" is "1" or is "Not 1") to produce a consistent, expected output. In this case, a simple, hypothetical algorithm might have been something like "IF ('numberofbatches'>50) AND ("ElectionProjectActive"=TRUE) AND ("EMSAdminUserLoggedIn"=FALSE) AND (VOTETOTAL,"InternalMachineID:01">VOTETOTAL,"InternalMachineID:02") AND (SYSTIME>20201019) AND (SYSTIME<20201103) THEN COPY:BATCHID030010:BATCHID030059 AND INSERTINTO "adjudicableballotstore," etc.

AMERICAN OVERSIGHT

Adjudication database in any form. The timestamps of the 209 batch records (load order 1 and load orders 60 through 267) show an impossibly short processing time (approximately 4 seconds each) for these batches to have been physically processed into the newly created Adjudication and Tabulation databases. As described above, because of the minimum scanning time of one minute per batch for the Canon DR-G1130 scanner-based tabulator, it is not possible for these 20,346 ballots to have been physically rescanned (i.e., the paper ballots were not reloaded into the scanning hardware), but rather the digital batch and ballot records were directly added to the new Adjudication database. This indicates that the batches could only have been loaded into the newly created Adjudication and Tabulation databases by using software code or a script running within the EMS server. See Appendix B for a list of all batches and their timestamps in the new Adjudication database. See Appendix C for a list of all commands executed prior to and after the database copy, which provides a precise timeline of the effects of those commands on the database copy.

It is important to note that this unauthorized procedure only copied the records of selected batches of ballots, indicating that this was an intentional act.

Below is a screenshot of the beginning of the list of batches recorded in the original Adjudication database, sorted by the order that they were loaded:

Figure 3. List of Batches Recorded in the Original Adjudication Database, Sorted by Load Order

AMERICAN OVERSIGHT

While the record of the batch with load order 1 was copied, there is a gap of 58 batches before the second line, which is a record of the batch with load order

AMERICAN OVERSIGHT

60. Batch load order numbers 2 through 59 were *not* copied, and never existed in the new Adjudication database.

The data records describing the batches and the ballots contained within them in the new Adjudication database, specifically the time stamps shown in Appendix B as well as statements by Mesa County election officials, indicate that the paper ballots and batches were not physically re-scanned. Therefore, it appears the process of scanning these ballots was simulated, and the records of the batches and the ballots contained within them were electronically transferred from the original Adjudication database into the new Adjudication database.

For example, below is the sequence of events detailing the processing of batch 4024 (whose ballots and records were *not* copied to the new Adjudication database) and batch 4025 (whose ballots and records were copied to the new Adjudication database). This will illustrate the contrast between copied and uncopied batch and ballot records.

Batch 4024 is recorded in the original Adjudication database as being created at 4:09:34 PM on October 19. It contained 100 ballots and was scanned by tabulator 10. Ten of these ballots from batch 4024 were subsequently manually adjudicated. The ballot numbers in the batch which were manually adjudicated were 4, 8, 13, 14, 30, 48, 63, 87, 88, and 90. Then, the votes contained on all 100 ballots were recorded in the appropriate tables in the Main database (see Reference A for a list of these tables). When the new Adjudication database was created, no records from Batch 4024 were copied to it, and thus there was no reprocessing or physical rescanning of the ballots. Adjudication history for the 10 ballots which were manually adjudicated was no longer available to the Mesa County clerks, and the original voter intent of these ballots is unknown.

In contrast, Batch 4025 is recorded in the original Adjudication database as being processed at 4:12:23 PM on October 19. This batch contained 99 ballots and was also scanned by tabulator 10. Fourteen of these ballots were

AMERICAN OVERSIGHT

subsequently manually adjudicated. The ballot numbers in the batch which were manually adjudicated were 3, 10, 13, 21, 22, 23, 34, 40, 49, 59, 66, 79, 97, and 99. Then, the votes contained on all 99 ballots were recorded in the appropriate tables in the Main database.

After the new Adjudication database was created, a record of Batch 4025 appeared in its tables at 2:20:26 PM on October 21. It is still listed as having 99 ballots and from tabulator 10. In the new Adjudication database, however, only 6 of the batch 4025 ballots (8 less than the first time these batches were entered into the original Adjudication database), were *again* manually adjudicated. The individual ballot numbers were 3, 21, 22, 40, 59, and 66. At this point, the vote records from at least those 6 ballots and possibly all 99 would have been recorded in the appropriate tables in the Main database, replacing the votes which were already in that database from those ballots. Adjudication history for the 14 ballots which were manually adjudicated was no longer available to the Mesa County clerks, and the original voter intent of these ballots is unknown.

The selected batches in the new Adjudication database (batch 1 and batches 60 through 267) appeared in the same serial order that they were loaded into the original Adjudication database, with the same batch numbers, ballot counts, and load order numbers (compare Appendix A and Appendix B).

October 21, 2020, shortly after 2:34 PM

At this point, as reported by Mesa County election officials, some Mesa County adjudication officials began noticing that they were being asked to look at ballots that they had already adjudicated. This is consistent with these ballots and batches being reprocessed in the new Adjudication database. When the new Adjudication database was created, and the selected records described above were copied and reprocessed, there were outstanding ballots from the last set of batches scanned before the event. As some of these ballots were sent to manual adjudication again after the batches were reprocessed, this caused a situation where the same ballot was in the manual adjudication process twice.

AMERICAN OVERSIGHT

This caused confusion among the election staff who were assigned the duty of manual adjudication, since when a ballot was adjudicated the second time the master count of adjudicated ballots, which is displayed by the Dominion system and is used by the election clerks to track the overall adjudication process, did not change. This caused the Adjudication officials to assume that there had been an error and, in some cases, to attempt additional manual adjudications of the same ballot with the same unsatisfactory result.

According to several Mesa County election officials, DVS support was contacted at approximately 4PM on the 21st of October, and while the support representative claimed to not have a solution for the issue Mesa County was seeing, that issue ceased soon afterwards. This indicates that DVS may have performed or caused to be performed an operation unknown to Mesa County election officials (and outside of their control) to address this problem which manifested after the unauthorized database manipulation.

Of the 209 batches which were processed twice (batches 1 and 60 through 267), the ballot counts match between the old and new Adjudication database. However, DVS software marked 2,166 ballots for manual adjudication the first time they were processed in the original Adjudication database, but when reprocessed in the new Adjudication database the software marked only 965 ballots for manual adjudication.

The same ballots run through the same hardware and evaluated by the same software should have had the same resulting ballots marked for adjudication, but they did not. This leads to the logical critical conclusion that not all the ballots in the batches processed after the database copy were the same and had the same votes as the ballots in the same batches processed before the database copy. There is no record remaining of the votes originally recorded from the ballots, and therefore there can be no certainty that the votes now recorded are the same. In essence, the chain of custody has been broken for these votes in the database.

AMERICAN OVERSIGHT

The 58 batches which were *not* duplicated in the new Adjudication database must also be seen as suspect, as their chain of custody has also been broken via the fact that no record of them or their adjudication exists in the Adjudication database in use at the end of the election. A clerk wishing to view the adjudication status of a ballot in any of the 58 batches would be unable to do so, as no information about those batches exists in the new Adjudication database.

Thus, all 25,931 ballot records processed before 2:14 PM on October 21, 2020, comprising over 25% of the County's total over the entire election, cannot be verified and should not have been counted.

II. Evidence of Ballot Manipulation – April 2021 Grand Junction Municipal Election

Our analysis shows a nearly identical manipulation of the batches and ballots processed during the first six days of ballot processing in the April 2021 Municipal Election in Grand Junction, Colorado.

The timeline of events beginning March 24, 2021, when Mesa County Election clerks began processing ballots in the 2021 Grand Junction Municipal Election, follows.

March 24, 2021 – March 30, 2021, 2:43 PM

On these first seven days of counting, up until 2:43 PM on March 30, 2021, 88 batches of ballots, consisting of 8,540 ballots, were processed. County Election clerks report no unusual activity or errors encountered *at any time* during the election counting process. The Adjudication database used at this time contains

AMERICAN OVERSIGHT

records of all batches with a sequential load order of 1 to 88, and other tables within it record each ballot. Those which were selected for Manual Adjudication (339 in total) have the proper status records indicating the normal adjudication steps occurred.

March 30, 2021, 2:58 PM

According to the data contained in the EMS server, new Adjudication and Tabulation databases were created and registered within the DVS system as the associated databases for the election. As in the circumstance previously described in the early voting period for the November 2020 election, these two databases initially contained no data.

See Appendix D for a list of all commands executed prior to and after the database creation in the April 2021 Municipal Election, which provides a precise timeline of the effects of creating the new databases and copying the batch and ballot records.
It is important to note that this unauthorized procedure copied the records of only selected batches of ballots, indicating that this was an intentional act.

Below is a screenshot of the beginning of the list of batches recorded in the original Adjudication database, sorted by the order that they were loaded:

March 30, 2021, 3:00 PM – 3:03 PM

During this three-minute time period, records of 42 batches and the 4,082 ballots contained within them, previously processed into the original Adjudication database, were copied into the new Adjudication database. According to the time stamps, the records of the batches appeared in the new Adjudication database in intervals of a fraction of a second between them, much too quickly for the ballots contained in the batches to have been physically scanned (per the maximum scanning speeds discussed above). Mesa County election clerks state that they did not take any action to reprocess or re-scan any batches on that day, nor did they at any time stop and restart the Adjudication software process. Only 39 ballots in these 42 batches went through manual adjudication after being copied to the new database, and database records indicate that the adjudication process was completed successfully on those 39 ballots.

AMERICAN OVERSIGHT

Unlike what was found in the November 2020 General Election records described above, the records for these 42 batches which were copied to the new database do not appear in the new Adjudication database in exactly the same order as they had originally been loaded; 12 batch records are out of order when the records in the original Adjudication database and the new Adjudication database are compared.

No further anomalies are shown in the Adjudication database records during the Election counting process, nor did Mesa County election clerks encounter any unexpected issues.

Of the 42 batches which were processed twice (batches 45 through 49 and 51 through 88), the ballot counts (total number of ballots) match between the old and new Adjudication databases. However, DVS software sent 339 ballots to manual adjudication the first time they were processed in the original Adjudication database, but when reprocessed in the new Adjudication database the software sent just 39 ballots to manual adjudication.

The same ballots run through the same hardware and evaluated by the same software should have had the same resulting ballots marked for adjudication, but they did not. This leads to the logical critical conclusion that not all the ballots in the batches processed after the database copy were the same and had the same votes as the ballots in the same batches processed before the database copy. There is no record remaining of the votes originally recorded from the ballots, and therefore there can be no certainty that the votes now recorded are the same. In essence, the chain of custody has been broken for these votes in the database.

The 46 batches which were *not* duplicated in the new Adjudication database must also be seen as suspect, as their chain of custody has also been broken via the fact that no record of them or their adjudication exists in the Adjudication database in use at the end of the election. A clerk wishing to view the adjudication status of a ballot in any of these 46 batches would be unable to do

AMERICAN OVERSIGHT

so, as no information about these batches exists in the new Adjudication database.

Thus, all 8,540 ballots processed before 2:58 PM on March 30, 2021, comprising over 49% of the total votes in the entire 2021 Grand Junction Municipal Election, cannot be verified and should not have been counted. These 8,540 ballots represent more than twice the winning margin in any of the four City Council races that occurred in this election.

III. Comparison of the November 2020 General Election Findings and the April 2021 Grand Junction Municipal Election Findings

Comparing the above findings for the two elections shows numerous similarities and also critical differences.

Similarities:

- In both elections, a software process running within the DVS system performed an unauthorized creation of new Adjudication and Tabulation databases.
- In both elections, database records of selected batches and of the ballots within those batches were copied into the new databases and were reprocessed.
- In both elections, selected batches were not copied to the new Adjudication and Tabulation databases, making adjudication information invisible to the Mesa County election clerks.

Differences:

- In the November 2020 General Election, records of a sequential series of batches and the ballots contained within them were copied from the original Adjudication and Tabulation databases to the new Adjudication and Tabulation databases, and the batches were copied in the same order as in the original databases. In the April 2021 Grand Junction Municipal Election, records of a non-sequential series of batches and the ballots contained within

AMERICAN OVERSIGHT

them were copied, and they appear in the new Adjudication database in a different order than in the original database.
- In the April 2021 Grand Junction Municipal Election, the EMS User Logs (which show events and commands which were executed) show reference to a batch 89. As there were 88 batches in the original Adjudication database, this would have logically been the next batch received from the scanners. However, no record of a batch with the load order '89' exists in either Adjudication database, and there are missing load orders between 88 and 114 as well.

The similarities lead to the conclusion that the same method was used to alter the database records in both elections.

The differences lead to the conclusion that there is a degree of control in the method used to alter the database records which used parameters unique to each election.

IV. Summary Impact of Above Findings

This manipulation of batch and ballot records described above is significant for three reasons.

First, when the ballots were reprocessed as described above, including re-adjudication, it is logical to conclude that whatever votes had been initially recorded could well have been replaced by the reprocessed votes in the Main election database. The differences in the Manual Adjudication numbers certainly supports this possible conclusion. Thus, this procedure could change votes in the Main database without leaving any evidence to indicate changes had been made, or any way to determine the nature of the changes or what the original vote data was.

Second, the adjudication status (including the timestamps of adjudication events, the results of the adjudication, and the user who performed the

AMERICAN OVERSIGHT

adjudication) of any ballots in the batches not copied to the new Adjudication database would not be viewable through the DVS client software applications.

Third, an examination of the EMS server which was less rigorous than ours would not likely have caught the fact that the Adjudication and Tabulation databases used at the end of the elections were not the same, nor did they contain the same records, as the databases used at the beginning of the elections. This leads to the possible conclusion that some batches and ballots were excluded from the new databases so as to inhibit the possibility of their being audited or examined.

V. Lack of Referential Integrity in DVS Database Tables

Most modern database designs include a concept called “referential integrity.” For example, if you have one table of data that has information about “people,” and another table that has information about “colleges,” you might have a field in an individual record in the “people’s” table that can contain an id, or pointer, to the college he or she attended. Referential integrity, in this case, would mean that if “John Smith’s” record had a pointer to the “University of Pittsburgh”, the system should give an error if you try to remove the item “University of Pittsburgh” from the “colleges” table. It would not allow you to do this action because a field in “John Smith’s” record refers to the college “University of Pittsburgh” and deleting that entry in the “colleges” table makes “John Smith’s” record invalid.

However, some of the DVS Election Management System data structures have no such referential integrity built into them. Therefore, batch records in one database could be deleted without any consequence to records that point to that batch in another database, and without any detection of the error. This lack of referential integrity means that vote or ballot information could easily be added or removed from one part of the database without any warnings or errors occurring in other parts of the various databases.

It is, for example, possible to change the fields with vote counts in one table of the Main election database without having that change affect any other tables

AMERICAN OVERSIGHT

or cause a referential integrity violation. This is a fundamental and critical breach of sound database design, particularly considering the importance of chain-of-custody and audit trail evidence for the provenance of ballot record and tabulated vote information in a voting system.

Please see Reference D for an example of how the batch and ballot data moves through the various databases and tables in the Dominion EMS.

VI. Digital Ballot Images are Obfuscated and Unverifiable

An attempt was made to investigate the conditions of the digital ballot images to corroborate the findings above. This avenue of research is greatly hindered because the ballot IDs or sequence numbers in the batches are not relatable to their images, not even within the DVS databases themselves. This is an additional example of a lack of referential integrity within the system.

Additionally, the digital ballot images do not have the accompanying ".sha" files which are meant to prove the authenticity of the ballots. Therefore, any findings, including the integrity and authenticity of ballot images, related to the digital ballot images cannot be absolutely validated because there is no proof that the images are the ones created at the time the ballots were first processed.

Finally, code running within the EMS server that has the system access rights to create and alter SQL Server database records could be used to alter the stored digital ballot images themselves. The EMS Adjudication module software already has the capability of altering scanned images and legitimately does so for each manually adjudicated ballot.

DISCUSSION

The events described above show a significant manipulation of a large number of batch, ballot, and vote records in the DVS EMS Database in Mesa County, and there are only a few possible explanations for the manipulation.

AMERICAN OVERSIGHT

1. Human Error

Extensive questioning of Mesa County election clerks has ruled out human error as the reason for the unauthorized creation of election databases on October 21, 2020, followed by reprocessing of 20,346 ballots. These personnel have a strong recollection of the events of October 21, 2020, and because of the timelines established both by their recollection and corresponding database time stamps, it is evident that any and all unusual actions they might have taken on that day were in response to the new database's creation having already occurred, and batch records being copied into the new database, which affected their ability to complete adjudication on some in-process ballots. Similarly, Mesa County election officials have a strong recollection of the events of March 30, 2021. They state that they did not take any steps that would have given rise to the unauthorized creation of new election databases during the 2021 Grand Junction Municipal Election on that day, followed by the reprocessing of 2,974 ballots,.

2. Software Failure

While an error or failure in the DVS EMS server is a possibility, it strains credulity that any error could cause the numerous specific events which are documented above. In particular, the non-sequential reloading of the batches during the 2021 Grand Junction Municipal Election, when compared with the sequential reloading in the November 2020 General Election, makes it inherently impossible for the same error to have caused both chains of events.

However, as noted in the section above labelled "Algorithmically Triggered", the DVS EMS server (or another connected machine running Dominion software) could have been preprogrammed to perform the unauthorized new database creations and the selected record manipulation which followed based on preprogrammed criteria related to the election results at the time. This would be the result of advance planning in the deliberate

AMERICAN OVERSIGHT

design of the software to alter outcomes when unexpected voting patterns were detected.

3. **Network Breach or Pre-Installation of Manipulating Software or Algorithm**

A device external to the DVS D-Suite network could have connected to the DVS D-Suite and to the EMS server, using the open SQL Server port 1433, open Web Services port 80, or through any other open port directly into the DVS Software. As outlined in "Report #2, Forensic Examination and Analysis Report" by D. Gould, there are numerous flaws in the security of the server, many of which could provide an outside entity with direct access to the SQL Server Database or the Application itself. The DVS D-Suite makes use of "SOAP" messaging protocol API calls through its web server, so malicious procedures could be triggered by simple port 80 access.

All Windows log files which would show these network accesses are configured, as specified by DVS manuals published by the Colorado Secretary of State as mandatory technical procedures for County election officials, to keep only a small amount of log entries before they are overwritten. Therefore, no record of external access to the DVS D-Suite is available in Windows logs.

Regardless of whether the voting system was connected to an external network or device, even momentarily, or whether a pre-installed software or algorithm was triggered by an external command or complex set of variable conditions, the execution of manipulating software or algorithm could plausibly be responsible for the results described in our findings.

AMERICAN OVERSIGHT

CONCLUSIONS

1. Unauthorized creation of new Tabulation and Adjudication databases occurred during the counting of the November 2020 General Election, along with the selective copying of batch and ballot records from the original databases to the new ones. This manipulation places all 25,913 initial ballots counted into a state where they cannot be validated – some because it is possible that their vote information was changed, and unverifiable that it was not, and the rest because their "chain of evidence" has been intentionally obfuscated. Even if the count and content of ballot images match the numbers and counts reported by the database, there is no method to validate those ballot images due to missing ".sha" files, which are intended to provide such validation.

2. Unauthorized creation of new Tabulation and Adjudication databases occurred during the 2021 Grand Junction Municipal Election, along with the selective copying of batch and ballot records from the original databases to the new ones. This places all 8,540 initial ballots counted into a state where they cannot be validated – some because it is possible that their vote information was changed and unverifiable that it was not, and some because their "chain of evidence" has been intentionally obfuscated.

3. As we have found evidence that thousands of ballot records have had their validity placed in serious question, none of the election results from the 2020 General or 2021 Grand Junction Municipal Elections in Mesa County can be considered trustworthy. If Mesa County has preserved the respective paper ballots, as they are required to do by law, and those ballots were forensically authenticated with confirmed chain-of-custody from eligible electors to sworn county election officials (not possible retrospectively, nor under current election procedures in Colorado), then a hand-count of paper ballots might support a verifiable, trustworthy conclusion about the county-level results of these two elections.

4. Because the unauthorized methods used to alter batch and ballot-level information described above are available within the DVS EMS server, this

AMERICAN OVERSIGHT

system cannot be considered reliable for use in any election. An investigation, involving all physical and cyber evidence, including a source code audit of the exact, verifiable version of all DVS-supplied executable and library files, is necessary to identify the exact software methods used to produce the manipulation and to determine other potential unauthorized actions that the code is able to cause or enable.

5. The Dominion Voting System's database structure stores actual vote information in only one table, in aggregated form, so alterations made to vote counts or candidates in just that table, create a single point of attack or failure for the entire vote reporting process (see Reference D).

AMERICAN OVERSIGHT

APPENDIX A – BATCHES - ORIGINAL ADJUDICATION DATABASE (WITH TIME BETWEEN BATCHES) – NOVEMBER 2020 ELECTION

AMERICAN OVERSIGHT

APPENDIX C – LOG ENTRIES FROM EMS USER LOG – OCTOBER 2020

Date and Time	Commands / Comments in red
10/21/2020 14:18:01	SubmitBatchCommand (execution duration: 1250ms): Batch 227 - Successfully synchronized results.
10/21/2020 14:18:02	SubmitBatchCommand (execution duration: 1156ms): Batch 226 - Successfully synchronized results.
10/21/2020 14:18:03	SubmitBatchCommand (execution duration: 1297ms): Batch 228 - Successfully synchronized results.
10/21/2020 14:18:05	SubmitBatchCommand (execution duration: 906ms): Batch 229 - Successfully synchronized results.
	The above four commands are the last 4 batches adjudicated and written back to the database before the database copy.
10/21/2020 14:18:14	GetBatchesCommand (execution duration: 16ms): Cast vote record batch list was successfully retrieved (CvrSortOrder greater then 267).
10/21/2020 14:18:33	LoadResultsCommand (execution duration: 2688ms): Result file '1_1_7_3037_DETAIL.DVD' was loaded successfully.
	The above two statements are the Adjudication Module checking for new Batches, and then loading the DVD file from the NAS for the new one it encountered.
	Note that this batch never made it to the old Adjudication database, it eventually made it to the new one. We are at this point 18 seconds from the database copy.
10/21/2020 14:18:39	GetAdjudicationSupportStatusCommand (execution duration: 16ms): Adjudication status retrieved (Adjudication is enabled)
10/21/2020 14:18:52	GetAdjudicationSupportStatusCommand (execution duration: 0ms): Adjudication status retrieved (Adjudication is enabled)
	This is the only time that this command is seen in the log during the election period, and they happened 12 seconds BEFORE the copy and then again 1 second after.
10/21/2020 14:18:57	GetRelevantOutstackConditionsCommand (execution duration: 31ms): Successfully retrieved relevant outstack conditions
10/21/2020 14:19:26	GetRelevantOutstackConditionsCommand (execution duration: 0ms): Successfully retrieved relevant outstack conditions
	Again, the only time this command is seen, and to me it seems that it involves the new database trying to figure out the current adjudication status
10/21/2020 14:20:06	GetBatchesCommand (execution duration: 1156ms): Cast vote record batch list was successfully retrieved (CvrSortOrder greater then 0). Values of CvrSortOrder field for delivered batches are: 1
	This is the Adjudication Module looking for new batches on the NAS drive. As there are currently no batches (the new database was created with no records), it is looking for anything >0
10/21/2020 14:20:07	GetCastVoteRecordsCommand (execution duration: 219ms): Cast vote records for batch '1' successfully retrieved.
	1 Batch was found and retrieved
10/21/2020 14:20:25	GetBatchesCommand (execution duration: 47ms): Cast vote record batch list was successfully retrieved (CvrSortOrder greater then 1). Values of CvrSortOrder field for delivered batches are: 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268
	Now the Adjudication module checks for new batches again. Note that the 1st time it found only one, now it finds ALL the rest from 60 - 267 (no sign of 2-59)
10/21/2020 14:20:26	GetCastVoteRecordsCommand (execution duration: 219ms): Cast vote records for batch '60' successfully retrieved.
10/21/2020 14:20:30	GetCastVoteRecordsCommand (execution duration: 312ms): Cast vote records for batch '61' successfully retrieved.

AMERICAN OVERSIGHT

10/21/2020 14:20:34	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '62' successfully retrieved.
10/21/2020 14:20:38	GetCastVoteRecordsCommand (execution duration: 250ms): Cast vote records for batch '63' successfully retrieved.
10/21/2020 14:20:43	GetCastVoteRecordsCommand (execution duration: 250ms): Cast vote records for batch '64' successfully retrieved.
10/21/2020 14:20:47	GetCastVoteRecordsCommand (execution duration: 344ms): Cast vote records for batch '65' successfully retrieved.
10/21/2020 14:20:51	GetCastVoteRecordsCommand (execution duration: 406ms): Cast vote records for batch '66' successfully retrieved.
10/21/2020 14:20:55	GetCastVoteRecordsCommand (execution duration: 250ms): Cast vote records for batch '67' successfully retrieved.
10/21/2020 14:20:59	GetCastVoteRecordsCommand (execution duration: 250ms): Cast vote records for batch '68' successfully retrieved.
10/21/2020 14:21:04	GetCastVoteRecordsCommand (execution duration: 250ms): Cast vote records for batch '69' successfully retrieved.
10/21/2020 14:21:08	GetCastVoteRecordsCommand (execution duration: 359ms): Cast vote records for batch '70' successfully retrieved.
10/21/2020 14:21:12	GetCastVoteRecordsCommand (execution duration: 250ms): Cast vote records for batch '71' successfully retrieved.
10/21/2020 14:21:16	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '72' successfully retrieved.
10/21/2020 14:21:20	GetCastVoteRecordsCommand (execution duration: 297ms): Cast vote records for batch '73' successfully retrieved.
10/21/2020 14:21:24	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '74' successfully retrieved.
10/21/2020 14:21:28	GetCastVoteRecordsCommand (execution duration: 344ms): Cast vote records for batch '75' successfully retrieved.
	The above log entries are the reloading of the batches 60 - 75
10/21/2020 14:21:29	GetCastVoteRecordImageCommand (execution duration: 0ms): Image for tabulator '10, batch '4001' and session '18' successfully retrieved.
	The Adjudication Module begins processing ballots needing adjudication (4001 = batch 1)
10/21/2020 14:21:33	GetCastVoteRecordsCommand (execution duration: 312ms): Cast vote records for batch '76' successfully retrieved.
10/21/2020 14:21:37	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '77' successfully retrieved.

10/21/2020 14:32:31	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '236' successfully retrieved.
10/21/2020 14:32:36	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '237' successfully retrieved.
10/21/2020 14:32:40	GetCastVoteRecordsCommand (execution duration: 250ms): Cast vote records for batch '238' successfully retrieved.
10/21/2020 14:32:44	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '239' successfully retrieved.
10/21/2020 14:32:48	GetCastVoteRecordsCommand (execution duration: 266ms): Cast vote records for batch '240' successfully retrieved.
10/21/2020 14:32:52	GetCastVoteRecordsCommand (execution duration: 219ms): Cast vote records for batch '241' successfully retrieved.
10/21/2020 14:32:57	GetCastVoteRecordsCommand (execution duration: 313ms): Cast vote records for batch '242' successfully retrieved.
10/21/2020 14:33:01	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '243' successfully retrieved.
10/21/2020 14:33:06	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '244' successfully retrieved.
10/21/2020 14:33:10	GetCastVoteRecordsCommand (execution duration: 297ms): Cast vote records for batch '245' successfully retrieved.
10/21/2020 14:33:14	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '246' successfully retrieved.
10/21/2020 14:33:18	GetCastVoteRecordsCommand (execution duration: 219ms): Cast vote records for batch '247' successfully retrieved.
10/21/2020 14:33:22	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '248' successfully retrieved.
10/21/2020 14:33:26	GetCastVoteRecordsCommand (execution duration: 344ms): Cast vote records for batch '249' successfully retrieved.
10/21/2020 14:33:31	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '250' successfully retrieved.
10/21/2020 14:33:34	GetCastVoteRecordsCommand (execution duration: 219ms): Cast vote records for batch '251' successfully retrieved.
10/21/2020 14:33:38	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '252' successfully retrieved.
10/21/2020 14:33:43	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '253' successfully retrieved.
10/21/2020 14:33:47	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '254' successfully retrieved.
10/21/2020 14:33:51	GetCastVoteRecordsCommand (execution duration: 281ms): Cast vote records for batch '255' successfully retrieved.
10/21/2020 14:33:55	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '256' successfully retrieved.
10/21/2020 14:33:59	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '257' successfully retrieved.
10/21/2020 14:34:03	GetCastVoteRecordsCommand (execution duration: 141ms): Cast vote records for batch '258' successfully retrieved.
10/21/2020 14:34:05	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '259' successfully retrieved.
10/21/2020 14:34:10	GetCastVoteRecordsCommand (execution duration: 344ms): Cast vote records for batch '260' successfully retrieved.
10/21/2020 14:34:13	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '261' successfully retrieved.
10/21/2020 14:34:17	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '262' successfully retrieved.

AMERICAN OVERSIGHT

10/21/2020 14:34:21	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '263' successfully retrieved.
10/21/2020 14:34:25	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '264' successfully retrieved.
10/21/2020 14:34:30	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '265' successfully retrieved.
	The reload is almost complete
10/21/2020 14:34:33	GetCastVoteRecordImageCommand (execution duration: 16ms): Image for tabulator '10, batch '4001' and session '25' successfully retrieved.
	A second ballot from batch 1 goes to adjudication
10/21/2020 14:34:34	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '266' successfully retrieved.
10/21/2020 14:34:38	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '267' successfully retrieved.
	At this point we have reloaded all of the batches from the original database. Time elapsed since copy event: 11 minutes, 47 seconds
	This is 3 seconds (on average) per copied batch, .03 seconds (on average) per ballot.
10/21/2020 14:34:42	GetCastVoteRecordsCommand (execution duration: 234ms): Cast vote records for batch '268' successfully retrieved.
	This is the system actually loading up batch 3037, the last one that was saved before the database copy. (See line 7 above)
	At this point all but 58 batches and their ballots from the original Adjudication database are now copied to the new database

AMERICAN OVERSIGHT

APPENDIX D – LOG ENTRIES FROM EMS USER LOG – MARCH 2021

Date and Time	Command / Comment
03/30/2021 14:57:16	GetCastVoteRecordImageCommand (execution duration: 16ms): Image for tabulator '30, batch '3044' and session '72' successfully retrieved.
	Adjudication Module requesting an image so that it can be adjudicated
03/30/2021 14:57:17	GetBatchesCommand (execution duration: 0ms): Cast vote record batch list was successfully retrieved (CvrSortOrder greater then 88).
03/30/2021 14:57:32	GetBatchesCommand (execution duration: 16ms): Cast vote record batch list was successfully retrieved (CvrSortOrder greater then 88).
03/30/2021 14:57:47	GetBatchesCommand (execution duration: 16ms): Cast vote record batch list was successfully retrieved (CvrSortOrder greater then 88).
03/30/2021 14:58:02	GetBatchesCommand (execution duration: 0ms): Cast vote record batch list was successfully retrieved (CvrSortOrder greater then 88).
	Normal checks for new batches. We are 54 seconds from database copy event
03/30/2021 14:58:41	GetAdjudicationSupportStatusCommand (execution duration: 16ms): Adjudication status retrieved (Adjudication is enabled)
03/30/2021 14:58:57	GetAdjudicationSupportStatusCommand (execution duration: 16ms): Adjudication status retrieved (Adjudication is enabled)
	Like in the November 2020 election these two commands appear right before and right after the copy event.
03/30/2021 14:58:59	GetRelevantOutstackConditionsCommand (execution duration: 47ms): Successfully retrieved relevant outstack conditions
03/30/2021 14:59:15	GetRelevantOutstackConditionsCommand (execution duration: 0ms): Successfully retrieved relevant outstack conditions
	These two commands also were found just after the database copy event
03/30/2021 14:59:52	GetBatchesCommand (execution duration: 156ms): Cast vote record batch list was successfully retrieved (CvrSortOrder greater then 0). Values of CvrSortOrder field for delivered batches are: 45, 46
03/30/2021 14:59:52	GetCastVoteRecordsCommand (execution duration: 406ms): Cast vote records for batch '46' successfully retrieved.
03/30/2021 14:59:56	GetCastVoteRecordsCommand (execution duration: 109ms): Cast vote records for batch '47' successfully retrieved.
	The select batches from the original Adjudication database begin being encountered, although like November 2020, not all at once.
03/30/2021 15:00:14	GetBatchesCommand (execution duration: 16ms): Cast vote record batch list was successfully retrieved (CvrSortOrder greater then 46). Values of CvrSortOrder field for delivered batches are: 48, 49
03/30/2021 15:00:14	GetCastVoteRecordsCommand (execution duration: 78ms): Cast vote records for batch '49' successfully retrieved.
03/30/2021 15:00:18	GetCastVoteRecordsCommand (execution duration: 109ms): Cast vote records for batch '50' successfully retrieved.

AMERICAN OVERSIGHT

03/30/2021 15:00:36	GetBatchesCommand (execution duration: 31ms): Cast vote record batch list was successfully retrieved (CvrSortOrder greater then 49). Values of CvrSortOrder field for delivered batches are: 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88
03/30/2021 15:00:36	GetCastVoteRecordsCommand (execution duration: 94ms): Cast vote records for batch '52' successfully retrieved.
03/30/2021 15:00:40	GetCastVoteRecordsCommand (execution duration: 78ms): Cast vote records for batch '53' successfully retrieved.
03/30/2021 15:00:43	GetCastVoteRecordsCommand (execution duration: 94ms): Cast vote records for batch '54' successfully retrieved.
03/30/2021 15:00:47	GetCastVoteRecordsCommand (execution duration: 78ms): Cast vote records for batch '55' successfully retrieved.
03/30/2021 15:00:51	GetCastVoteRecordsCommand (execution duration: 78ms): Cast vote records for batch '56' successfully retrieved.
03/30/2021 15:00:54	GetCastVoteRecordsCommand (execution duration: 94ms): Cast vote records for batch '57' successfully retrieved.
03/30/2021 15:00:58	GetCastVoteRecordsCommand (execution duration: 78ms): Cast vote records for batch '58' successfully retrieved.
03/30/2021 15:01:01	GetCastVoteRecordsCommand (execution duration: 125ms): Cast vote records for batch '59' successfully retrieved.
03/30/2021 15:01:05	GetCastVoteRecordsCommand (execution duration: 78ms): Cast vote records for batch '60' successfully retrieved.
03/30/2021 15:01:08	GetCastVoteRecordsCommand (execution duration: 94ms): Cast vote records for batch '61' successfully retrieved.
03/30/2021 15:01:11	GetCastVoteRecordsCommand (execution duration: 94ms): Cast vote records for batch '62' successfully retrieved.
03/30/2021 15:01:15	GetCastVoteRecordsCommand (execution duration: 94ms): Cast vote records for batch '63' successfully retrieved.
03/30/2021 15:01:19	GetCastVoteRecordsCommand (execution duration: 125ms): Cast vote records for batch '64' successfully retrieved.
03/30/2021 15:01:22	GetCastVoteRecordsCommand (execution duration: 78ms): Cast vote records for batch '65' successfully retrieved.
03/30/2021 15:01:25	GetCastVoteRecordsCommand (execution duration: 78ms): Cast vote records for batch '66' successfully retrieved.
03/30/2021 15:01:29	GetCastVoteRecordsCommand (execution duration: 94ms): Cast vote records for batch '67' successfully retrieved.
03/30/2021 15:01:33	GetCastVoteRecordsCommand (execution duration: 94ms): Cast vote records for batch '68' successfully retrieved.
03/30/2021 15:01:36	GetCastVoteRecordsCommand (execution duration: 94ms): Cast vote records for batch '69' successfully retrieved.
03/30/2021 15:01:40	GetCastVoteRecordsCommand (execution duration: 94ms): Cast vote records for batch '70' successfully retrieved.

AMERICAN OVERSIGHT

03/30/2021 15:01:44	GetCastVoteRecordsCommand (execution duration: 109ms): Cast vote records for batch '71' successfully retrieved.

03/30/2021 15:04:49	SubmitBatchCommand (execution duration: 141ms): Batch 87 - Successfully synchronized results.
03/30/2021 15:04:49	SubmitBatchCommand (execution duration: 156ms): Batch 88 - Successfully synchronized results.
	Like November 2020, the rest of the batches from the original Adjudication database are copied and reprocessed.
	The order, however, is not the same, and there is a referenced to a batch 89 which does not have a record in either Adjudication database.

AMERICAN OVERSIGHT

REFERENCE A – DATABASES AND TABLES

In order to assist other researchers, who may wish to examine these findings or perform additional analysis, here are the most important databases and tables which were used in this analysis.

Main election databases:

November 2020 General Election:
[2020 Mesa County General-2020-09-05-00-10-20]
MD5 File Hash: a0d14c37dc7a596e0687351314e0c363

April 2021 Municipal Election:
[City of Grand Junction Municipal Election 2021-2021-02-05-16-01-32]
MD5 File Hash: 6a11b07b6c03e45aa66da599d76a37e1

Primary Tables (specifically related to vote totals):
ResultContainer: (Batch level raw vote data)
ResultSplitter: (Vote Data by Polling Location
ChoiceResult: (Raw aggregated vote data)
CastVoteRecord: (Raw per-ballot list)
Choice: (All Candidates/Choices)
Contest: (All contests in Election)
Tabulator: (All defined tabulators)

Stored Procedures (useful for checking final results):
GetContestResults: Displays current results of any or all contests
GetContestStatistics: Displays stats for any or all contests, including undervotes and overvotes

Adjudication databases:

November 2020 General Election:
[AdjudicableBallotStore_2020_Mesa_County_General_2020-10-01_12:18:50] (before copy)
MD5 File Hash: 56c292e893c1ea2782718b7c56d90bd9

[AdjudicableBallotStore_2020_Mesa_County_General_2020-10-21_14:18:51] (after copy)

AMERICAN OVERSIGHT

MD5 Hash: 9c46e48519c88cc4becf519cc3fa9649

April 2021 Municipal Election:
[AdjudicableBallotStore_City_Of_Grand_Junction_Municipal_Election_2021_2021-03-18_10:48:14] (before copy)
MD5 Hash: 901c5945f2abde8101716175a7827000

[AdjudicableBallotStore_City_Of_Grand_Junction_Municipal_Election_2021_2021-03-30_14:58:56] (after copy)
MD5 Hash: 7937423c28f0741d7a9540810783b0c4a2629dc4

Primary Tables:
Batches: Raw batch information
SerializedAdjudicableBallots: Contains one data record for each ballot received.
BallotStatusEvents: Every ballot with Adjudication status. New records for same ballot whenever any change occurs in the status of the ballot.

AMERICAN OVERSIGHT

REFERENCE B – SCANNER SPEED

4.5 Processing Rate

The central scanning device's processing rate also depends on the handling and poll verification activities.

The number of ballots per minute depends on the width or length of the ballot. The following table documents the approximate scanning speed of the ICC scanners.

Scanner	Ballot Size	Pages per Minute (ppm) Scanned
Canon DR-G1130	8.5" x 11"	Approximately 100 ppm, as per Dominion Voting's Quality Assurance test results.
Canon DR-G2140	8.5" x 22"	Aproximately 70 ppm, as per Dominion Voting's Quality Assurance test results.
Canon DR-M160II	8.5" x 11"	Approximately 60 ppm, as per Dominion Voting's Quality Assurance test results.

REFERENCE D – DATA MOVEMENT FROM BATCHES TO VOTES

Below please find an example of how the data moves through the system from the batch to its votes, and how the ballot level vote data is obfuscated in the process. Blank and irrelevant fields are omitted.

When batch 4025 was received in the Mesa County November 2020 election, the following record was created in the *batches* table of the Adjudication database.

Field	Value
TabulatorId	10
BatchId	4025
Name	Tabulator 10 - Batch 4025
LoadOrder	60
CreationTime	10/21/20 2:20 PM
ModificationTime	10/22/20 10:33 AM
BallotCount	99
HasAdjudicatedBallots	1

After all adjudication tasks were complete, a record exists in the Main election database *ResultContainer* table.

Field	Value
Id	60
containerType	CVR
resultState	Published
batchId	4025
fileName	1_1_10_4025_DETAIL.DVD
tabulatorId	10
CvrSortOrder	60
TimeStamp	10/19/20 4:12 PM

This table serves as a record of each individual batch received, and the *batchId* field (4025 in this case) references the *BatchId* of the Adjudication database's *Batches* table, as shown above. This is the first evidence of a break in referential integrity, as there is no database-level relationship between these two tables. In

AMERICAN OVERSIGHT

other words, the *Batches* record in the Adjudication database can be removed or altered without any warning or error being generated by the database.

Of note also is that the number of ballots which exists in each batch is not a part of the *ResultContainer* table. This makes reconciling the data in the Main election database tables much more difficult.

From here, the information goes to three other tables of interest in the Main election database. The first is *CastVoteRecord*, which contains the ballot-level vote data.

AMERICAN OVERSIGHT

There is one record for each ballot in batch 4025, and then an additional record for each ballot which went through the manual adjudication process. The *IsCurrent* field indicates which of the two ballot records is the latest one. No timestamp exists in this table to be able to determine the time the ballot data was entered or modified.

Unlike a “Cast Vote Record” file, this table contains no vote information.

Next is *ResultSplitter*. Batch 4025 was separated into 42 rows in this table:

Id	numberOfValid	pollingDistrictId	resultContainerId	numberOfWriteIns	tabulatorId	ballotId

The 99 ballots in batch 4025 are segregated here by polling district number. No vote information appears in this table, and this table links back to its corresponding record in the *ResultContainer* table through the *resultContainerId* field. Again, this table contains no specific vote information for the ballots.

Next is the table *ChoiceResult*. Because of how the records are aggregated, there are over 1,600 records for batch 4025. For brevity, only the first 49 records are displayed.

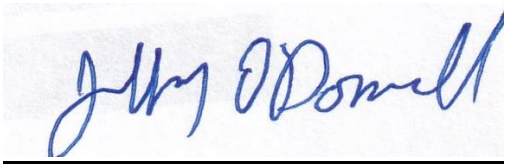
This table, the only table which actually has a record of the vote totals used to produce reports, aggregates the votes by polling district and candidate or issue choice. As an example, the fifth line of data specifies that there are two votes for Donald Trump (*choiceId* 2, which references the *internalMachineId field* of the table *Choice*) from polling district 3075539035 – GJ (*pollingDistrictId* 79, which references the *internalMachineId* field of the table *PollingDistrict*).

From this table, and the associated tables it links to, all reports are generated. As this is the only table which records vote choices, this is a single point of attack

AMERICAN OVERSIGHT



or failure for the entire vote counting process of the Dominion system. Changes can be made to this table by any process, for instance changing the number of votes or the candidate, would be undetectable as such changes do not affect any other records in any other tables. Nor would such changes require alterations of any other records in any other tables.

Additionally, there is no way to consistently link a particular vote shown in the *ChoiceResult* table to its original ballot within the batch.

BIOGRAPHY

Jeffrey O'Donnell is a Full Stack software and database developer and analyst. He holds Bachelor's degrees in Computer Science and Mathematics from the University of Pittsburgh.

Over the last 40 years, Mr. O'Donnell has worked and consulted for numerous private sector corporations, including Rockwell International, Westinghouse Electric Nuclear, General Defense, U.S. Steel, Mellon Bank, IOTA 360, and the Penn State Applied Research Laboratory. For several years he also delivered and created computer science curriculum for the Community College of Allegheny County.

For the last two decades, Mr. O'Donnell has developed numerous "big data" analysis systems, including systems to provide short-term stock market investors with new types of research and predictive analytics.

He currently is President of Qest Development, a full-service software consulting and publishing company, and is Chief Information Officer of Ordros Analytics, which specializes in election analytics of all types.

Dr. Walter C. Daugherity is a computer consultant and also Senior Lecturer Emeritus in the Department of Computer Science and Engineering at Texas A&M University. He graduated from Oklahoma Christian University with a degree in mathematics, and then earned master's and doctor's degrees from Harvard University, which he attended on a Prize Fellowship from the National Science Foundation.

As a computer expert he has consulted for major national and international firms, and for government agencies. He helped develop the national computer keyboard standard and invented integrated user training within computer applications as well as various electronic computer interfaces.

AMERICAN OVERSIGHT

As a computer science and engineering teacher and researcher, he has published 26 research articles from over $2.8 million in funded research projects, plus conference papers and other publications. He taught many areas of computer science and engineering for 37 years (32 years at Texas A&M University), including artificial intelligence, quantum computing, programming and software design, and cyber-ethics.

At Harvard he received the Bowdoin Prize and medal for writing, and in 2015 was named a Distinguished Alumnus of Oklahoma Christian University. He is a life member of the Association for Computing Machinery and American MENSA.

Commissioner Griffin –

Hope you're well.

Reaching out to see if you'd be willing to talk to the Post about your decision to not certify election results.

And I'd love to hear your plans moving forward pertaining to the election.

Best,
Eugene Scott

Subject: We support you!

Dear Commissioner Griffin,

I want to thank you for your courage, along with our other commissioners, to make the right decision in last week's meeting and taking a stand for truth and freedom. We the people who have been paying attention are in full support of your decision and encourage you to continue to stand strong in Friday's meeting.

We thank you for your service, dedication and sacrifice for our cities and towns, our county and country during these trying times. Please know we are praying for you, for God's wisdom, protection and His divine intervention in this and every situation we are facing these days.

We are also praying for you in your own hearing in DC tomorrow, for God to intervene in a mighty way on your behalf and all weapons forged against you to be null and void.

I have attended several county commissioner meetings since moving here in 2020 and have been impressed with the work you all are doing, and so proud you are leading the way for the rest of the nation. We know it is not an easy path but we trust you all to God's care and that He will lead you with his wisdom. We are so proud of you.

God bless you and keep you…

Cindy Maslin

Subject: Why have a Commission...

One more comment...

As reported in the media...

"I'm not planning to move off my position," Otero County Commissioner Couy Griffin said in a telephone interview with CNN on Thursday. "Why have a commission if we just get overridden by the court system?"

The easy answer to that question is that you have (allegedly) sworn to uphold the law.

Let me ask another question: How can someone that does not swear an oath (or abide to that swearing of an oath) to protecting the constitution and the laws governing the nation, states, counties, and municipalities serve in an elected position?

If you can't answer that question, how about this one: What kind of name is Cuoy? If I had a name like that I, too, would likely be a disruptive anarchist.

Tom Harris, Ph.D.

On Thursday, June 16, 2022, 02:33:38 PM MDT, Thomas Harris <harristhomas60@yahoo.com> wrote:

...in putting forth a petition for secession of Otero County (land of the stupid, home of idiots) from the State of New Mexico. Further, I will personally write Greg Abbott and ask that he consider annexing Otero County as part of Texas.

But seriously, no chance we're going to be able to carve off this cancer called Otero county from the State of New Mexico so answer this question: What the fuck is wrong with you people?

You (and Otero County for supporting you) are an embarrassment to the State of New Mexico. Sadder yet (as for the many that still support the Big Lie and his Big Fraud), that people of your ilk (is this too fancy of a word for your feeble brains?) were elected by your constituents. Just reinforces that a significant fraction of the electorate in the US (and likely the majority of the electorate in Otero County), are just plain ignorant.

In this regard, I propose that the right to vote in any election (local, state, or national) be contingent on the ability of an individual to pass a civics test and achieve a minimum acceptable score on an IQ test. That should winnow out a large fraction of the idiots that vote for people like you (and, in fact, the three of you would likely not be eligible to vote).

Fucking idiots. About sums up Otero County.

Tom Harris, Ph.D.

(And, by the way, a voting machine cannot be hacked if it is not connected to the internet--just in case you didn't know how these things work.)

Subject: You are a disgrace, please resign

Please resign for the good of this country. Your pro Trump shenanagins are befitting of a hoodlum, not a county commissioner. I have read about you much earlier and now see you are back in the news. Refusing to certify election results, still hammering away at that ridiculous Dominion voting machines story? I think you could really benefit from psychiatric treatment. How somebody with your mindset and lack of ethics ever got elected to this position boggles my mind, and not a good look for the people who elected you. Do yourself, your family, and your community a big favor and step down; this country has gone through enough without the misplaced agitation and political mischief people like you bring.

To: cgriffin@co.otero.nm.us <cgriffin@co.otero.nm.us>
Subject: Your character

Mr. Griffin,

I have written to you and Cowboys for Trump before when you harassed the Black Lives Matter protestors in Rio Rancho, some of your motley crew carrying guns. What a pathetic bunch a racist whimps, and you, Couy Griffin, are their loud-mouthed, unchristian leader, like the deceptive ant-Christs of whom Jesus warned. You have made your name in recent years as an enemy of our democracy and our electoral form of government.

Any real patriot, any real American who believed in our democracy, would not support a dishonest, real estate racketeer who publicly called on Russia to interfere in our 2016 presidential election two weeks before the election, offering them the bribe of media coverage, with Russians complying and turning the election in Trump's favor, thereby stealing the election from the majority of Americans who did not vote for him. Are Trump supporters, like you, all communists? Do you believe Russians should determine who becomes the president of our nation? Trump should have been disqualified from running.

People like you are gullible idiots, unchristian in your hearts and spirits, driven by a hate mongering racist who has been willing to knowingly lie to Americans by still claiming the election was stolen from him, yet all his claims have been disproven and he knows it. Like a fascist leader, Trump incited unpatriotic, gullible idiots like you to go to the Capitol on January 6, 2021 so that he could rule our country, inciting a terrorist attack on our Capitol to overthrow our democracy and our electoral form of government. He then urgently requested donations repeatedly for a nonexistent legal defense fund (I am on his mailing list) where he bilked naïve followers like you out of over $250,000,000, or a quarter of a billion dollars. It was idiots like you who drove around on 4 wheelers waving huge flags of the sometimes tottering, obese real estate racketeer, Mr. Trump, his head transposed on a Rambo body and carrying a huge military style automatic weapon. The level of arrogant stupidity by Trump followers has been astounding. You act like a bunch of fascist patsies, like the Brown Shirts in Germany during Hitler's rise to power. Mr. Griffin, instead of being some groupie in a demented cult driven by weirdo beliefs such as those espoused by Qanon, whose leader, Mr. trump, sounds like some hate-filled, demented, almost illiterate imbecile while claiming to be a genius, begin caring about our American communities and follow health mandates to protect our citizenry. And do not participate in attempts to overthrow our democracy and our electoral form of government. If you want to follow leaders raised into power by Russian communism, leave this country and go to Russia.

"Now, he lives alone in New Mexico — his wife and child have left. His businesses are shuttered. His fellow county commissioners are publicly calling on him to resign." - You brought this on yourself. Think about it.

Sincerely,

Thomas Burnham French
