EXTERNAL SENDER

Good morning,

As a follow-up to our October 25, 2022 email, please find the attached zipped folder containing documents responsive to your request for information under the Public Information Act, Chapter 552 of the Texas Government Code.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under Section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion. See Open Records Decision No. 684 (2009). Thus, this information has been redacted.

We require more time to continue reviewing our records and produce additional responsive information. We will provide you additional responsive documents on a rolling basis—to the extent such information is not excepted from disclosure under state or federal law—with our next production by 5:00 p.m. on December 27, 2022. See Tex. Gov't Code § 552.221(d).

Sincerely,

**Adam Bitter**  
General Counsel  
Office of the Texas Secretary of State

Please see the attached letters, with enclosures, in response to your request for information under Chapter 552 of the Texas Government Code. We have also included the “Packing Slip” receipt for your deposit.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. Chad,

Sorry for the delay. Here is the proposed composition of the team for the initial "Planning and Confirmation" Phase – to be completed in May.

Resource/Role	ITSAC Rate	Hours (May)	TTL Cost
Digital Product Manager	\$193.94	80	\$15,515.20
Data Architect	\$179.60	80	\$14,368.00
Level II Daat Architect	\$160.00	120	\$19,200.00
TOTAL Phase I			\$49,083.20

We reviewed the scope and deliverables against our conversations and believe they remain unchanged as follows:

**The scope** may include, but is not limited to, the following activities:

- Consultant services to be completed on or before June 1st, 2022.
- Activities will focus on defining the optimal business solution components along with any technical and external dependencies. The project will also identify the specific feature/capability requirements to eventually support all 254 counties by establishing a scalable foundation to enable future growth. The analysis and deliverables will support the following four key objectives:
- How to evaluate election integrity in a given jurisdiction and determine how to set up a long term automated solution to do the same;
- Defining a transparent, easy to interpret tool that is secure, inspectable, and auditable;
- Considerably reduce back office and administrative burdens by all constituent parties by providing increased transparency and verifiability of votes cast; and
- Provide a solution implementation roadmap with achievable milestones for the 2022 election year and future election cycles.

The activities and deliverables of this engagement are intended to clearly define the solution from a business perspective while identifying dependencies and validating solution feasibility. Any integration points and core capabilities necessary to deliver the solution will be documented and assessed.

I think that covers the key pieces, but maybe we can hop on a call and confirm? As I'm looking at that, I'm thinking we probably need to make sure we call out the initial counties we plan to work with – Collin, Tarrant, Dallas and Harris.

Best Regards,

Scott

Hey Chad,

Thanks for your time the other day up here in the Metroplex. Another thing I forgot to share with you is the fact that we have a GSA schedule, which has helped us with procurement in other states in the past.

Anyway, we'd love to hop on a call with Adam and chat through an approach... we are very flexible.

Let me know,

Cheers!
