Dear Sheriffs Songer, Hargrove, Eberle, West, Johnson, Watts, Noel and Brown,

Sheriff Mack asked me to share this with you immediately.

CSPOA will join with Mike Lindell at the
Moment of Truth Summit, August 20-21 in Springfield, MO

<https://frankspeech.com/momentoftruth>

You are all invited. Travel expenses, food, and hotel will all be provided. Your airfare will be paid for or if you're driving, your gas will be reimbursed to/from Missouri.

Food and beverages will be provided throughout the entire event at the convention center.

We strongly encourage each of you to attend and hope you will participate in this very important Summit event.

Airline reservations and hotel accommodations need to be confirmed at the earliest possible convenience.

Venue: University Plaza Hotel and Convention Center

333 S John Q. Hammons Parkway, Springfield, MO 65806

Lindell has blocks of hotel rooms already allocated at nearby hotels. It would be preferable to get all CSPOA's team in one block, so please let us know the earliest possible if you can make it.

If you have any questions, please advise. Note, this is not a CSPOA event, so we do not have as much flexibility with the timeframe and other things. I will check on the details of airline reservations, but my guess is that you will be reimbursed once you reserve your flight and submit the invoice. There is a small airport, Springfield-Branson National airport about 6 miles from downtown Springfield.

Here is the program outline:

Events Scheduled From 9:00am to 9:00pm Saturday and Sunday

COVID-19 vaccine information breached in Europe

More hacking activity against the COVID-19 vaccine supply chain. More reports about cyber-operations in the Middle East. And the feds get a guilty plea in the Mirai botnet case. This is CyberScoop for Thursday, Dec. 10, 2020.

(Getty Images)

Pfizer-BioNTech vaccine is a target for hackers

The European Medicines Agency (EMA), which is currently helping to roll out two coronavirus vaccines, has been hit by hackers, the organization said Wednesday. Attackers successfully accessed “some documents relating to the regulatory submission for Pfizer and BioNTech’s COVID-19 vaccine candidate,” according to a BioNTech statement. A spokesperson for Moderna, another company working with the EMA on a vaccine candidate, told CyberScoop the firm had not been informed it was affected by the breach. It’s just the latest hacking effort aimed at entities working on coronavirus research, as nation-states and criminals alike seek to steal valuable intellectual property or undermine confidence in vaccines. **Shannon Vavra has more.**

Coordinating a successful identity governance plan

Identity is the fabric of our digital economy, and executives from the private and public sectors are focusing on how to manage and govern identity and access across the lines of business within their organizations. Cyber leaders from Deloitte discuss why identity

WA-KLICKITAT-22-0904-B-000021

management has emerged as a core element to strengthening cybersecurity and how leaders can protect their most exploitable vulnerability. Listen to the conversation.

AI Jazeera anchor files suit in alleged hack-and-leak

An AI Jazeera anchor, Ghada Oueiss, is alleging in a U.S. federal court that the crown princes of Saudi Arabia and the United Arab Emirates helped to coordinate a hack-and-leak operation intended to intimidate and disparage her. The civil lawsuit, filed Wednesday in Miami, says the scheme centered on disseminating manipulated financial documents and photos of the journalist, who has been critical of both countries' alleged human rights abuses. The campaign against her included a breach of her iPhone, court documents say. It's one of several suits filed in the last several years involving journalists and dissidents allegedly ensnared in nation-state cyber-operations meant to intimidate or silence. **Shannon has the court documents.**

MoleRATs group tunnels around the Middle East

An Arabic-speaking hacking group known for exploiting current events to spy on officials in the West Bank is now using Facebook and Dropbox to cover its tracks, security firm Cybereason said Wednesday. MoleRATs isn't alone in this regard. Digital sleuths are increasingly using legitimate tech to avoid detection. **Sean Lyngaas has the details.**

The 6 pillars of zero trust and where to start

IT leaders are coming to terms with the need to apply zero-trust cybersecurity principles not just to their network operations, but to their entire IT operations. However, the challenge for most agencies is how to map out and deploy a zero-trust approach across an entire digital estate, given the scale and scope of the task. A recent Microsoft report aims to help agency executives tackle the questions of where and how to start deploying zero-trust principles. Read more on zero-trust.

Mirai botnet suspect pleads guilty. Remember that one?

The U.S. announced that an unnamed defendant has pleaded guilty in connection with a cyberattack that rocked the internet in 2016. The October 2016 distributed denial-of-service attack affected Dyn, an internet infrastructure company, before rippling out to cause outages for sites including Twitter, Netflix, Spotify, AirBnb and Reddit, among others. The incident had a resounding effect on the cybersecurity community when it occurred just weeks before the 2016 presidential election. **Jeff Stone explains in more detail.**

US, Australia partnering on virtual cyber range

U.S. Cyber Command recently announced that the U.S. and Australia are working together to continuously develop a virtual cyber training range. The Cyber Training Capabilities Project Arrangement will incorporate feedback from the Australian military into the Persistent Cyber Training Environment, Cyber Command's simulated training domain. Officials say the range is a new approach, given that similar efforts by U.S. and its allies in the past

have only been used once. The new setup will be an ongoing program. **FedScoop's Sara Wilson has more.**

More from the debate over the use of ID.me's facial recognition products by government agencies. A closer look at the tools used by the hackers who breached Iranian state TV. And another community college grapples with ransomware. This is CyberScoop for February 18. Editor's note: Due to Monday's federal holiday, our next issue will publish on February 22.

What's in a name

Identity verification technology company ID.me quietly deployed a powerful form of facial recognition on unemployment benefits applicants while encouraging state partners to dispel the idea that the company used the technology, according to Oregon state records that the American Civil Liberties Union shared with CyberScoop. Privacy advocates say the documents raise concerns

about whether states knew what kind of risk ID.me's fraud detection technology held. But ID.me says it fully communicated with states over the differences in its fraud detection and verification systems. **Tonya Riley takes a look at how states are dealing with revelations about the company.**

New technical details from the Iranian state TV hack

An Iranian state television broadcast was hacked Jan. 27, during which a video showed opposition figures and called for the death of the Iranian supreme leader. A group called "Predatory Sparrow" claimed responsibility, without proof, and the hack was just one in a series of incidents seemingly aimed at embarrassing the Iranian government. Check Point Research obtained some of the malware associated with the hack, finding that the incident may have been more destructive than initially assumed. **AJ Vicens has more.**

Not all was lost in ransomware incident at college

A ransomware attack took out a Seattle-area community college's website and some other services this week, but the incident was relatively contained because the institution recently has moved a lot of its digital infrastructure to a cloud-based platform, officials said. "While the attack is clearly challenging and disruptive, we're in a better place to combat it due to changes we implemented over the last two years," Centralia College President Bob Mohrbacher said. Last week [a Northern California community college](#) also dealt with a ransomware incident. **EdScoop's Emily Bamforth explains.**

The SolarWinds hackers' opsec advancements

The SolarWinds attackers were clearly smart, and we're finding out more about it. The Biden administration fields questions about the breach almost immediately. And the new DNI officially gets underway. This is CyberScoop for Thursday, Jan. 21, 2020.

The remarkable opsec of the SolarWinds hackers

The spies who carried out the SolarWinds breaches were bound to cover their tracks. But they went above and beyond. New details from Microsoft's investigation show the lengths the attackers went to protect the crown jewel of the operation from getting burned. There's surely more to learn from the campaign, but this is a big piece of the puzzle. **Sean Lyngaas has more.**

U.S. CyberWeek is a week-long festival with over 10,000 attendees, featuring 100+ community events bringing together leaders from the cybersecurity community, tech, gov and policy who will come together to exchange information, share best practices and discuss the many ways we can revolutionize the way we protect against and overcome cyberthreats facing our nation. Save your spot today!

Biden's first SolarWinds question

At the first White House press briefing of the Biden administration Wednesday evening, Press Secretary Jen Psaki's second question was on the SolarWinds breach. Psaki indicated the U.S. government may be interested in responding to the suspected Russian espionage operation, which has impacted federal agencies and the private sector. "We've spoken about this previously...of course we reserve the right to respond at a time and manner of our choosing to any cyberattack," Psaki told reporters. How the Biden administration reacts — or retaliates — to the campaign will be an early test of the Biden administration's cybersecurity chops. **Our latest SolarWinds coverage.**

Avril Haines confirmed

Avril Haines, the nominee for director of national intelligence, was confirmed Wednesday evening in the Senate. Haines, who is the first official Cabinet member of the Biden administration, told lawmakers during her confirmation hearing that she would provide Congress a threat assessment on QAnon as well as an unclassified intelligence report on who was responsible for the murder of journalist Jamal Khashoggi. Her testimony also touched on SolarWinds. **More on Haines' thoughts on SolarWinds and cybersecurity.**

\$5.1 million penalty in health insurer's data breach

New York health insurer Excellus has agreed to pay a \$5.1 million penalty to the federal government in connection with a data breach

that affected more than 9 million people between late 2013 and May 2015. The fine is for violations of privacy and security rules under the Health Insurance Portability and Accountability Act, according to the Department of Health and Human Services' Office for Civil Rights. The incident happened during an era known for high-profile data breaches — Target, Sony, Home Depot and so on — but the announcement of the fine comes as the feds are continuing to track multiple cyberthreats against health care organizations. **Joe Warminsky has the story.**

Social engineering gains momentum with cyber criminals

Cyber attackers are exploiting the COVID-19 crisis and pose a major security threat for health care organizations. According to Proofpoint's Ryan Witt, there is an uptick in social engineering techniques as threat actors look for more compelling lures to target people. Leaders need to be more focused on security strategies which provide visibility into who is being targeted in their organization. **Read more from Witt.**

A big 'oops' from a phishing campaign

A phishing campaign that targeted multiple industrial sectors in 2020 apparently was messier than the average cybercrime operation, according to cybersecurity company Check Point. The attackers made a "simple mistake in their attack chain," the researchers said, by not securing the pilfered information properly once it was uploaded to websites for temporary storage. In short, not only did people have their email credentials stolen, but they were also posted in a way that Google's search engine could publicly index them. The slip-up could've undermined the attackers' plans in several ways. **Joe explains.**

Hello Patriot -

Apparently I chose the wrong career path. I should have become an illegal immigrant and crossed the border during the Trump Administration.

Why? Because the Biden Administration is about to pay illegals who were separated from their children \$450,000 EACH!

That's a lot more than I make as Sheriff of Pinal County. In fact, it's more than any law enforcement officer I've ever met has ever made in a year.

[We have to stop Joe Biden's Department of Justice from pursuing this settlement. Help us stop them with a \\$45 donation right now.](#)

DONATE TODAY

As a law enforcement officer, I see parents separated from their children all the time - for committing crimes!

It's a tough situation, but it's an inevitable one. Illegal immigrants caught at the border have no right to be treated any differently than American citizens who commit crimes.

The Biden Administration should not be paying these people \$450,000. They committed crimes and they should be charged and tried for those crimes.

[We are not going to let this issue go. Democrats can not be allowed to sweep this under the rug. Help us keep fighting with a quick \\$65 right now.](#)

Paying off illegal immigrants with our tax dollars is unacceptable. Any politician that supports that will be hearing from us next year.

Stand with us today, and we will make that message heard.

Hello Patriot -

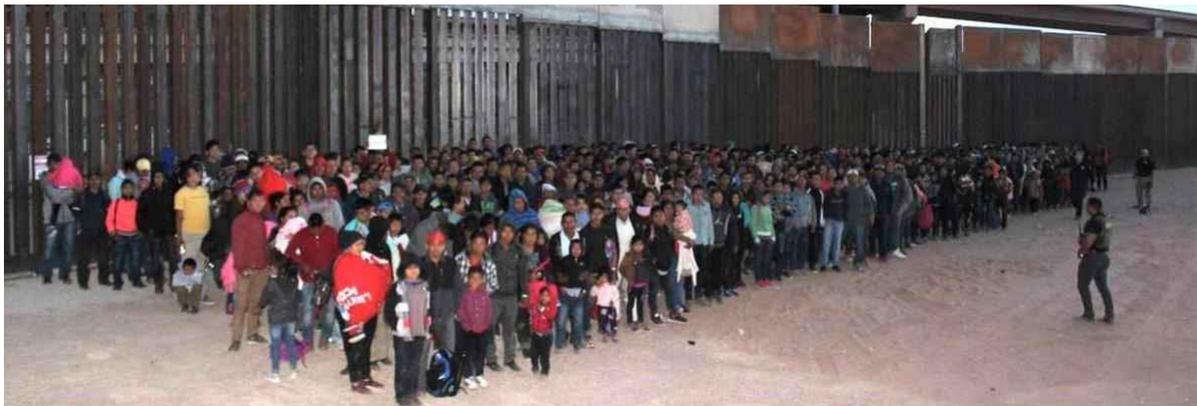

Nearly 300,000 illegal immigrants were released by the U.S. Border Patrol over the past year. 300,000! That's an entire city's worth of people.

Around 100,000 were released with only a piece of paper telling them to report to a local ICE office. They aren't being tracked at all!

This has to end. The Biden Administration must stop releasing illegal immigrants into the interior of our country.

[We're fighting to force Congress to take action. Help us keep up the heat with a quick \\$40 donation right now.](#)

DONATE TODAY

At the very least we ought to be able to expect the government is tracking the criminals THEY released into our own country.

The fact that the Biden Administration isn't even doing the bare minimum says a lot about how serious they are taking this issue.

We can not let them get away with this. We have to make sure every American knows what is being done in their name with their tax dollars.

[Help us get this story into the mainstream with a quick \\$65 donation.](#)

As one of the largest law enforcement lead political organizations in the country, when we speak - the media listens!

But we need your support to get our message out.

Stand with us today, and we will make sure the Biden Administration can't sweep this story under the rug.

Hello Patriot -

U.S. Customs and Border Protection just released their first report of 2022. And it's not good.

Their figures show that more than 2 MILLION illegal immigrants crossed our border in 2021. That is the highest level ever recorded.

The worst part is that breakneck pace showed no sign of slowing in the final quarter. 500,000 illegals crossed from October through December.

[President Biden is allowing an invasion. Help us force him to act today with a quick \\$40 donation to our campaign.](#)

DONATE TODAY

2,000,000 is approximately the population of Nebraska. Our country is adding that many illegal immigrants every year now that the socialists have opened our borders.

The Democrats are permanently changing the makeup of our country. They can't be allowed to get away with it. We have to stop them.

[Biden must be forced to act by strong Republican majorities. Help us defeat the open borders Democrats with a generous donation of \\$70 or more.](#)

Our organization of law enforcement officers will be opposing every Democrat candidate who refuses to hold Biden accountable.

Voters in swing districts will know that the Democrat in their race wants open borders. This issue will be the deciding factor!

Join today and help us flip the seats Republicans need for a majority.

RE: Chris Magnus Nomination for CBP Commissioner

Senator Crapo:

We write today to strongly oppose Chris Magnus for Customs and Border Protection (CBP) Commissioner.

America's Sheriffs are working hard on the front lines to protect their neighbors and communities. Protect America Now believes that the best days of America are still ahead but there are many threats and attempts to make America less safe, less secure, and ultimately less free. Whether the issue is an attempt to trample on our Constitution and reject law and order, infringe on our second amendment rights, tolerate rampant illegal immigration or increasing taxes on working families, all of these issues are attempts to attack our freedoms.

As Police Chief in Tucson, Arizona, Magnus has a proven record of opposing the very mission of the agency to which he is up for consideration. Magnus opposes border protection so much he avoided coordinating with CBP at every turn in his service as Tucson Police Chief.

- "Testifying to a Senate committee in 2018, Magnus called enhancing the border wall a waste of resources better spent on other law enforcement needs."¹
- Magnus is an outspoken opponent of Operation Stonegarden, a federal program that supports state and local law enforcement working along the U.S. border and totaled \$90 million in total funding for fiscal year 2021.²
- "The Border Patrol's union . . . has sparred with Magnus over local enforcement operations as well."²

Customs and Border Protection officials serve on the front lines enforcing the most critical function of our country: border protection. Without a border we are a nation without law and order and taxpayers deserve agencies that implement laws as written. Magnus has made it clear he does not believe in border protection, so we should not bother him with leading an agency whose mission he opposes.

We strongly ask that you oppose Chris Magnus for CBP Commissioner.

Hello Patriot -

I believe our law enforcement officers have the right to make their own medical decisions. We should support that freedom in this country.

Liberals think our officers should be forced to get the coronavirus vaccine in order to keep their jobs. I believe that is wrong.

As Pinal County Sheriff, I trust my deputies to make their own health decisions and I will never mandate they get the coronavirus vaccine.

[Protect America Now will be taking that message nationwide and organizing law enforcement across the country against vaccine mandates. Support our fight with a quick \\$30 donation right now.](#)

DONATE TODAY

Protect America Now is taking a stand against government institutions mandating the covid vaccine as a condition of employment.

We are already seeing covid vaccine mandates in hospitals across the country, and I am afraid that our police departments and sheriff's offices are next.

Backing the blue includes respecting our officers' rights to make their own medical decisions. That should not be a controversial statement!

Stand with us today with a quick \$55 donation right now. Help us protect the rights of our brave men and women whose jobs are at risk.

I am counting on your support today to help us get this message out.

Hello Patriot -

On May 23rd the Biden Administration is going to end Title 42 - the policy that stopped 1.7 million illegals from crossing the border.

If the administration goes through with this plan, they will be deliberately opening the border to millions of illegal immigrants!

We have to take action now before its too late. This is an all hands on deck moment - we need your support today.

[Help us fight back with a generous contribution of \\$35 or more right now.](#)

2 MILLION illegal immigrants have already crossed the border since President Biden took office. That's higher than the population of more than a dozen states.

Our country is being permanently changed by these levels of immigration. Democrats are doing this on purpose!

It's up to conservatives like you to help us fight back and keep Title 42 in place. We need to have an army behind us.

[Send an urgent donation of \\$75 or more right now to help us fight the Biden Administration. I am counting on your support.](#)

Hello Patriot -

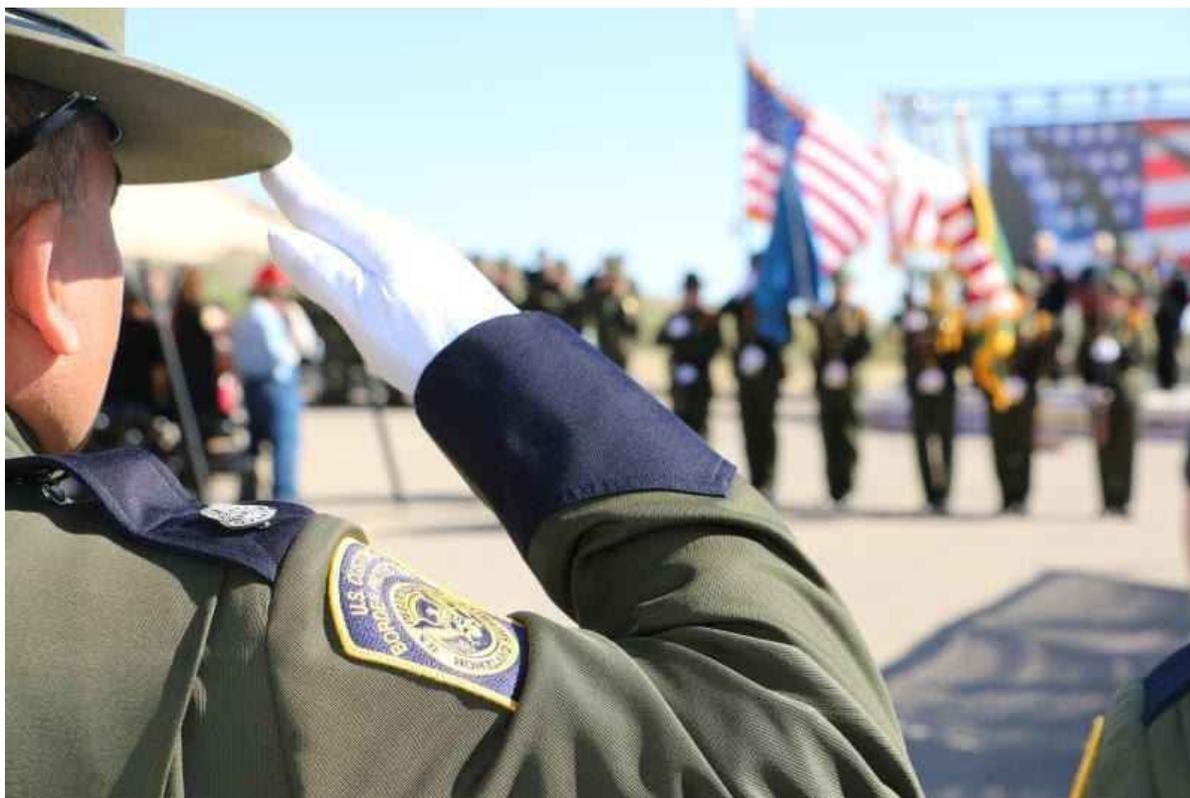

Our Border Patrol agents have a tough job. They deserve our respect and our heartfelt appreciation for their service to our nation.

What these brave agents do not deserve is liberal armchair quarterbacks attacking them for keeping us safe.

President Biden has even dared to threaten our Border Patrol agents for simply doing their jobs to protect our country! He knows no shame.

[These officers jobs may now be at risk. Help us defend them from the Biden Administration with a quick \\$40 donation right now.](#)

DONATE TODAY

The United States Border Patrol is charged with protecting our country from dangerous cartels, illegal immigrants, and human traffickers. They enforce the law fairly and equally, and risk their lives on a daily basis.

We support the brave agents who distinguished themselves protecting our country from tens of thousands of illegal immigrants at the Del Rio bridge in Texas.

President Biden has said "they will pay" for their actions. We have to stand up and demand that these officers are not persecuted for doing their jobs.

[Join our organization today with a quick \\$65 donation to help us defend these brave Border Patrol agents.](#)

As one of the largest law enforcement led organizations in the country, members of Congress will listen when we ask for their help.

The Biden Administration cannot be allowed to attack our law enforcement officers like this. If we let them get away with this, it will never stop!

Support our fight today, and together we can make sure these agents keep their jobs.

Hello Patriot -

Our border is not just open, it's worse than that. We just learned that the Biden Administration has instructed our Border Patrol agents to work with the cartels to import illegals.

The Biden Administration is effectively working hand-in-glove with terrorists to bring illegal immigrants into our country.

Once the illegals are across the border, they will be flown around the country on secret midnight flights and never seen again.

[This is an organized conspiracy to change our country. We have to blow the lid off it. We have to stop it. Send an urgent \\$40 donation right now to help fund our important work.](#)

The *New York Post* is reporting that the border patrol is 'working with cartels' to coordinate drop offs of illegal immigrants.

The fact that our own government is working with terrorist drug cartels to break our own laws shook me to the bone.

No patriotic American will stand for this happening in their name - but they first have to know it is happening! We are working to spread the word but we need your help.

[Send a generous contribution of \\$80 or more today. We need your support to get the message out. Only then can we hope to defeat the Democrats in November.](#)

Hello Patriot -

Vaccine mandates have crossed the line. Forcing people to get the vaccine - without any consideration of natural immunity - is absolutely wrong. It's a policy based in fear, not science.

America's Sheriffs are fighting back. I won't enforce a vaccine mandate in my county, and neither will any of the other Sheriffs who have joined Protect America Now.

We stand with the police officers, sheriffs deputies, airline pilots, and healthcare workers who are standing up to Biden's unconstitutional vaccine mandate.

[Help us fight back today with a quick \\$35 donation right now.](#)

DONATE TODAY

President Biden has issued an OSHA rule that requires businesses with more than 100 employees to vaccinate their employees or submit them to weekly testing.

OSHA cannot enforce that mandate on their own. They are going to rely on private businesses and local law enforcement to comply.

But if we don't comply, if we refused to enforce the mandate, there is nothing that they can do about it. This rule is unconstitutional and the courts will declare it so - it's only a matter of time.

[Protect America Now is rallying law enforcement agencies around the country to declare they will not assist in enforcing the vaccine mandate. Support that mission with a quick \\$65 donation right now.](#)

It is up to us to hold the line. If we do not fight back now, the vaccine mandate won't be the last unconstitutional power grab that President Biden makes.

Protect America Now opposes Chipman for ATF Director: Protect America Now's Advisory Committee submitted a letter opposing gun control lobbyist David Chipman's nomination for ATF director to be entered into the record for the U.S. Senate's Judiciary Committee. [Read the letter here and share it with your friends.](#)

United States Senator Chuck Grassley
135 Hart Senate Office Building
Washington, DC 20510

May 28, 2021

RE: David Chipman Nomination for ATF Director

Senator Grassley:

We write to you today to discuss one of your most important responsibilities in the United States Senate: confirmations of Presidential appointments. President Biden has hopefully chosen to make a political statement with his choice of David Chipman as Director of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) rather than choose a qualified individual who could win the support of the U.S. Senate and support our constitutional rights.

America's Sheriffs are working hard on the front lines to protect their neighbors and communities. Protect America Now believes that the best days of America are still ahead but there are many threats and attempts to make America less safe, less secure, and ultimately less free. Whether the issue is an attempt to trample on our Constitution and reject law and order, infringe on our second amendment rights, tolerate rampant illegal immigration or increasing taxes on working families, all of these issues are attempts to attack our freedoms.

We have grave concerns that Mr. Chipman's confirmation will erode our taxpayers second amendment freedoms by an unchecked bureaucracy led by a gun control lobbyist. You have undoubtedly already received countless letters and calls informing you about Chipman's service as an anti-gun lobbyist for both Michael Bloomberg's Everytown for Gun Safety and Gabby Giffords' gun control group. You have heard about how he is a documented supporter of an AR-15 ban. We want to express how our concerns here are not just for the protection of our country's constitutional rights, but for community safety.

When Americans are able to defend themselves and protect their homes through the right to keep and bear arms, communities are safer because they are able to defend themselves. Whether it's a widow living alone to garner peace of mind or a rancher protecting his livestock, the second amendment is imperative to the future of our great nation and David Chipman is a staunch opponent to our gun rights.

We ask that you strongly oppose David Chipman for ATF Director.

Respectfully,

The Advisory Committee Sheriffs of Protect America Now
Sheriff Mark Lamb of Pinal County, AZ

RE: David Chipman Nomination for ATF Director

Senator Grassley:

We write to you today to discuss one of your most important responsibilities in the United States Senate: confirmations of Presidential appointments. President Biden has hopefully chosen to make a political statement with his choice of David Chipman as Director of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) rather than choose a qualified individual who could win the support of the U.S. Senate and support our constitutional rights.

America's Sheriffs are working hard on the front lines to protect their neighbors and communities. Protect America Now believes that the best days of America are still ahead but there are many threats and attempts to make America less safe, less secure, and ultimately less free. Whether the issue is an attempt to trample on our Constitution and reject law and order, infringe on our second amendment rights, tolerate rampant illegal immigration or increasing taxes on working families, all of these issues are attempts to attack our freedoms.

We have grave concerns that Mr. Chipman's confirmation will erode our taxpayers second amendment freedoms by an unchecked bureaucracy led by a gun control lobbyist. You have undoubtedly already received countless letters and calls informing you about Chipman's service as an anti-gun lobbyist for both Michael Bloomberg's Everytown for Gun Safety and Gabby Giffords' gun control group. You have heard about how he is a documented supporter of an AR-15 ban. We want to express how our concerns here are not just for the protection of our country's constitutional rights, but for community safety.

When Americans are able to defend themselves and protect their homes through the right to keep and bear arms, communities are safer because they are able to defend themselves. Whether it's a widow living alone to garner peace of mind or a rancher protecting his livestock, the second amendment is imperative to the future of our great nation and David Chipman is a staunch opponent to our gun rights.

We ask that you strongly oppose David Chipman for ATF Director.

RE: Chris Magnus Nomination for CBP Commissioner

Senator Crapo:

We write today to strongly oppose Chris Magnus for Customs and Border Protection (CBP) Commissioner.

America's Sheriffs are working hard on the front lines to protect their neighbors and communities. Protect America Now believes that the best days of America are still ahead but there are many threats and attempts to make America less safe, less secure, and ultimately less free. Whether the issue is an attempt to trample on our Constitution and reject law and order, infringe on our second amendment rights, tolerate rampant illegal immigration or increasing taxes on working families, all of these issues are attempts to attack our freedoms.

As Police Chief in Tucson, Arizona, Magnus has a proven record of opposing the very mission of the agency to which he is up for consideration. Magnus opposes border protection so much he avoided coordinating with CBP at every turn in his service as Tucson Police Chief.

- "Testifying to a Senate committee in 2018, Magnus called enhancing the border wall a waste of resources better spent on other law enforcement needs."¹
- Magnus is an outspoken opponent of Operation Stonegarden, a federal program that supports state and local law enforcement working along the U.S. border and totaled \$90 million in total funding for fiscal year 2021.²
- "The Border Patrol's union . . . has sparred with Magnus over local enforcement operations as well."²

Customs and Border Protection officials serve on the front lines enforcing the most critical function of our country: border protection. Without a border we are a nation without law and order and taxpayers deserve agencies that implement laws as written. Magnus has made it clear he does not believe in border protection, so we should not bother him with leading an agency whose mission he opposes.

We strongly ask that you oppose Chris Magnus for CBP Commissioner.

RE: Chris Magnus Nomination for CBP Commissioner

Senator Crapo:

We write today to strongly oppose Chris Magnus for Customs and Border Protection (CBP) Commissioner.

America's Sheriffs are working hard on the front lines to protect their neighbors and communities. Protect America Now believes that the best days of America are still ahead but there are many threats and attempts to make America less safe, less secure, and ultimately less free. Whether the issue is an attempt to trample on our Constitution and reject law and order, infringe on our second amendment rights, tolerate rampant illegal immigration or increasing taxes on working families, all of these issues are attempts to attack our freedoms.

As Police Chief in Tucson, Arizona, Magnus has a proven record of opposing the very mission of the agency to which he is up for consideration. Magnus opposes border protection so much he avoided coordinating with CBP at every turn in his service as Tucson Police Chief.

- "Testifying to a Senate committee in 2018, Magnus called enhancing the border wall a waste of resources better spent on other law enforcement needs."¹
- Magnus is an outspoken opponent of Operation Stonegarden, a federal program that supports state and local law enforcement working along the U.S. border and totaled \$90 million in total funding for fiscal year 2021.²
- "The Border Patrol's union . . . has sparred with Magnus over local enforcement operations as well."²

Customs and Border Protection officials serve on the front lines enforcing the most critical function of our country: border protection. Without a border we are a nation without law and order and taxpayers deserve agencies that implement laws as written. Magnus has made it clear he does not believe in border protection, so we should not bother him with leading an agency whose mission he opposes.

We strongly ask that you oppose Chris Magnus for CBP Commissioner.

Respectfully,

RE: Ed Gonzalez Nomination for ICE Director

Senator Portman:

We appreciate and commend President Biden's selection of an independently elected county Sheriff to serve as ICE Director. America's Sheriffs are working hard on the front lines to protect their neighbors and communities. Protect America Now believes that the best days of America are still ahead but there are many threats and attempts to make America less safe, less secure, and ultimately less free. Whether the issue is an attempt to trample on our Constitution and reject law and order, infringe on our second amendment rights, tolerate rampant illegal immigration or increasing taxes on working families, all of these issues are attempts to attack our freedoms.

Unfortunately, as Sheriff of Harris County, Texas, Ed Gonzalez has served with a legacy that demonstrates very clearly his opposition to enforcing our nation's immigration laws as currently written.¹

- Just one month into office, Gonzalez ended his office's ICE partnership under 287(g) of the Immigration and Nationality Act which the county had participated in since 2008.
- Gonzalez was a fierce opponent of SB4 which banned sanctuary cities in Texas and required local officials to cooperate with federal immigration authorities.
- In 2019 Gonzalez barred his deputies from assisting in immigration raids in Houston.

Immigrations and Customs Enforcement's agents deserve a leader who believes in the mission, not a fierce opponent of immigration enforcement. Without enforcing the rule of law, criminal illegal aliens are undeterred to enter the interior. Sadly, this results in continued human trafficking operations and drug smuggling, enriching transnational drug cartels at the expense of our communities and taxpayers. Ending critical partnerships like 287(g) that some 200 state and local governments rely upon to enforce the rule of law are essential to keep communities safe. Federal, state, and local law enforcement coordination was one of the most important lessons of the 9/11 Commission and it is clear that Ed Gonzalez does not believe in coordination of immigration enforcement to protect our nation from terrorists and drug smugglers.

We strongly ask that you oppose Ed Gonzalez for ICE Director.

RE: Ed Gonzalez Nomination for ICE Director

Senator Portman:

We appreciate and commend President Biden's selection of an independently elected county Sheriff to serve as ICE Director. America's Sheriffs are working hard on the front lines to protect their neighbors and communities. Protect America Now believes that the best days of America are still ahead but there are many threats and attempts to make America less safe, less secure, and ultimately less free. Whether the issue is an attempt to trample on our Constitution and reject law and order, infringe on our second amendment rights, tolerate rampant illegal immigration or increasing taxes on working families, all of these issues are attempts to attack our freedoms.

Unfortunately, as Sheriff of Harris County, Texas, Ed Gonzalez has served with a legacy that demonstrates very clearly his opposition to enforcing our nation's immigration laws as currently written.¹

- Just one month into office, Gonzalez ended his office's ICE partnership under 287(g) of the Immigration and Nationality Act which the county had participated in since 2008.
- Gonzalez was a fierce opponent of SB4 which banned sanctuary cities in Texas and required local officials to cooperate with federal immigration authorities.
- In 2019 Gonzalez barred his deputies from assisting in immigration raids in Houston.

Immigrations and Customs Enforcement's agents deserve a leader who believes in the mission, not a fierce opponent of immigration enforcement. Without enforcing the rule of law, criminal illegal aliens are undeterred to enter the interior. Sadly, this results in continued human trafficking operations and drug smuggling, enriching transnational drug cartels at the expense of our communities and taxpayers. Ending critical partnerships like 287(g) that some 200 state and local governments rely upon to enforce the rule of law are essential to keep communities safe. Federal, state, and local law enforcement coordination was one of the most important lessons of the 9/11 Commission and it is clear that Ed Gonzalez does not believe in coordination of immigration enforcement to protect our nation from terrorists and drug smugglers.

We strongly ask that you oppose Ed Gonzalez for ICE Director.

RE: Ed Gonzalez Nomination for ICE Director

Senator Portman:

We appreciate and commend President Biden's selection of an independently elected county Sheriff to serve as ICE Director. America's Sheriffs are working hard on the front lines to protect their neighbors and communities. Protect America Now believes that the best days of America are still ahead but there are many threats and attempts to make America less safe, less secure, and ultimately less free. Whether the issue is an attempt to trample on our Constitution and reject law and order, infringe on our second amendment rights, tolerate rampant illegal immigration or increasing taxes on working families, all of these issues are attempts to attack our freedoms.

Unfortunately, as Sheriff of Harris County, Texas, Ed Gonzalez has served with a legacy that demonstrates very clearly his opposition to enforcing our nation's immigration laws as currently written.¹

- Just one month into office, Gonzalez ended his office's ICE partnership under 287(g) of the Immigration and Nationality Act which the county had participated in since 2008.
- Gonzalez was a fierce opponent of SB4 which banned sanctuary cities in Texas and required local officials to cooperate with federal immigration authorities.
- In 2019 Gonzalez barred his deputies from assisting in immigration raids in Houston.

Immigrations and Customs Enforcement's agents deserve a leader who believes in the mission, not a fierce opponent of immigration enforcement. Without enforcing the rule of law, criminal illegal aliens are undeterred to enter the interior. Sadly, this results in continued human trafficking operations and drug smuggling, enriching transnational drug cartels at the expense of our communities and taxpayers. Ending critical partnerships like 287(g) that some 200 state and local governments rely upon to enforce the rule of law are essential to keep communities safe. Federal, state, and local law enforcement coordination was one of the most important lessons of the 9/11 Commission and it is clear that Ed Gonzalez does not believe in coordination of immigration enforcement to protect our nation from terrorists and drug smugglers.

We strongly ask that you oppose Ed Gonzalez for ICE Director.

IMMIGRATION

WSJ Opinion: Biden Incentives Encourage Haitian Exodus to Texas Border

WSJ Editorial Board: At last the Biden Administration is furious about tumult on the southern border. Not about the surge of migrants, mind you. The White House is using a single episode to scapegoat law enforcement and deflect criticism from its immigration failure.

The flare-up came Monday, when Reuters published footage of mounted Border Patrol agents facing down about 200 Haitian migrants near Del Rio, Texas. The article, and several that followed, mistook the officers' reins for whips and claimed they'd been wielded against migrants. Democratic Rep. Rashida Tlaib denounced what she called "human rights abuses." [Read more.](#)

RE: Ed Gonzalez Nomination for ICE Director

Senator Portman:

We appreciate and commend President Biden's selection of an independently elected county Sheriff to serve as ICE Director. America's Sheriffs are working hard on the front lines to protect their neighbors and communities. Protect America Now believes that the best days of America are still ahead but there are many threats and attempts to make America less safe, less secure, and ultimately less free. Whether the issue is an attempt to trample on our Constitution and reject law and order, infringe on our second amendment rights, tolerate rampant illegal immigration or increasing taxes on working families, all of these issues are attempts to attack our freedoms.

Unfortunately, as Sheriff of Harris County, Texas, Ed Gonzalez has served with a legacy that demonstrates very clearly his opposition to enforcing our nation's immigration laws as currently written.¹

- Just one month into office, Gonzalez ended his office's ICE partnership under 287(g) of the Immigration and Nationality Act which the county had participated in since 2008.
- Gonzalez was a fierce opponent of SB4 which banned sanctuary cities in Texas and required local officials to cooperate with federal immigration authorities.
- In 2019 Gonzalez barred his deputies from assisting in immigration raids in Houston.

Immigrations and Customs Enforcement's agents deserve a leader who believes in the mission, not a fierce opponent of immigration enforcement. Without enforcing the rule of law, criminal illegal aliens are undeterred to enter the interior. Sadly, this results in continued human trafficking operations and drug smuggling, enriching transnational drug cartels at the expense of our communities and taxpayers. Ending critical partnerships like 287(g) that some 200 state and local governments rely upon to enforce the rule of law are essential to keep communities safe. Federal, state, and local law enforcement coordination was one of the most important lessons of the 9/11 Commission and it is clear that Ed Gonzalez does not believe in coordination of immigration enforcement to protect our nation from terrorists and drug smugglers.

We strongly ask that you oppose Ed Gonzalez for ICE Director.

Respectfully,

The Advisory Committee Sheriffs of Protect America Now

Hello Patriot -

Last year was one of the most violent in recent American history. Murder, theft, and robbery shot through the roof in major cities across the country.

And in response to this, liberals want to fire police officers who decide not to get the coronavirus vaccine! That's crazy.

We need all the officers we can get. Protect America Now is fighting back against vaccine mandates for law enforcement officers.

Tens of millions of Americans have contracted coronavirus and recovered - including myself. I was infected earlier this year but I now have antibodies to protect me from getting infected again.

I don't need to get the coronavirus vaccine because I already have antibody protection. That natural immunity is up to seven times stronger than the immunity conferred by the vaccine!

Despite that, liberal city mayors want to mandate their police officers, including those who already had coronavirus, to get the vaccine. And if they don't get the vaccine, they're threatening to fire them!

Hello Patriot -

When liberal politicians attack our cops, defund our departments, and refuse to order in troops to stop civil unrest, regular Americans step up.

Kyle Rittenhouse stepped up when his government failed to protect his community. He exercised his right to self-defense and a jury of his peers confirmed he committed no crime.

If Democrats are upset with the verdict they need to hire more police to ensure dangerous situations like this don't happen in the first place.

Regular Americans shouldn't be forced into a situation where they alone are responsible for defending their community. That's why we have professional law enforcement officers.

But politicians have to have those officers' backs and let them do their jobs. When they don't, they create situations like Kenosha. They create the need for people to take matters into their own hands.

Protect America Now is taking that message to the liberal cities who have defunded their police departments. We are confronting them with the facts!

[If liberal politicians want to prevent vigilantism, they have to support their cops. Help us take the fight to them with a generous gift of \\$75 or more today.](#)

Fentanyl is a Chinese synthetic opioid that's smuggled across our southern border by Mexican cartels. It's hundreds of times cheaper than traditional heroin, and thousands of times more deadly!

Our local police departments and sheriffs offices are underfunded and unprepared for the opioid epidemic. They need training, medical resources, and more to save lives.

On top of that, our border patrol needs resources to close the border. They need to hire more agents, purchase more vehicles, and expand their technological capabilities to stop fentanyl at its source.

We are working with the Republican and Democratic lawmakers who have the power to get this funding. Help us make the case with a generous donation of \$50 or more right now.

Congressman Henry Cuellar (D-TX) has called for Vice President Kamala Harris to be replaced as Border Czar.

The most frustrating part of the border crisis is how simple the solution is.

Send in the National Guard and the illegal immigrant flood is reduced to a trickle. Texas is doing that right now and it's working!

But Texas is only one part of the border. We need to adopt that strategy nationwide if we are going to stop this invasion.

Texas to charge fentanyl dealers with MURDER

Hello Patriot -

Fentanyl is 50 times more powerful than heroin and 100 times more powerful than morphine. It's not a drug, it's a poison!

Governor Greg Abbott of Texas wants to charge drug dealers who push fentanyl with murder because they are knowingly selling poison.

As a law enforcement officer who has seen the effects of fentanyl firsthand, I think this is a great idea.

[Help us support the passage of this new law in Texas and across the country with a quick \\$45 donation to our organization.](#)

[**DONATE TODAY**](#)

3 milligrams of fentanyl is all it takes to kill an average adult male. You can see in the photo above how incredibly small of an amount that is.

Most people who are poisoned by fentanyl did not intend to consume it. Drug dealers deliberately add fentanyl to other drugs to increase their potency and do not tell their consumers.

Dealers are purposefully adding a drug they know to be toxic - and hiding it - in order to increase their profits. They should be charged with murder for that!

[Help us support changing the law today with a generous contribution of \\$70 or more right now. We need you to have our back.](#)

Law enforcement officers have seen how fentanyl destroys families from all walks of life. Over 100,000 people overdosed last year, and 77% of deaths those were from fentanyl.

A Phoenix police officer resigned while on duty this week after "being used, being abused, running on little food, and little sleep".

This story breaks my heart.

This is yet another casualty of the War on Cops. The left has driven thousands of officers to resign which forces the remaining officers to work longer and longer hours.

'A cry for help': Phoenix officer apparently resigns while on the job; cites being overworked, under-appreciated

PHOENIX – Citing being overworked, abused by leadership, and running on little food and sleep, an officer with the Phoenix Police Department...

The worst part about this story is that it's not an isolated incident. Tens of thousand of law enforcement officers have resigned or retired this year.

The City of Phoenix has budgeted for 3,000 sworn officers, but has only been able to retain 2,770. They're missing more than two hundred police officers!

That has consequences across a city of 1.6 million. Crime is rising and there simply aren't enough officers to keep the peace.

Violent crime is on the rise. Property crimes are going unsolved. But it doesn't have to be like this.

We can reverse the trends by hiring more police officers and getting them out on the streets where they belong.

Join us today and help us make that happen.

Hello Patriot -

This November will be one of the most consequential elections in our lifetime. It's the last chance to stop President Biden's socialist agenda.

After what happened in 2020, it is of paramount importance that we do everything possible to secure our elections.

Breaking News: True the Vote and Protect America Now have partnered to launch ProtectAmerica.vote. This is a national effort to equip sheriffs, educate citizens and protect our elections.

The first part of our operations start immediately as we begin holding educational seminars to train local sheriffs on election law!

[Watch the video and help us fund this important work right now with a quick \\$50 donation. We need your help to secure our elections.](#)

Local sheriffs do NOT report to Washington DC they report directly to the people in their county and they are uniquely equipped to help us protect our elections.

We will make sure that local sheriffs are fully briefed on election law in their counties and have the knowledge needed to enforce it.

After they are done with our training sessions, local sheriffs will be able to respond to tips about election fraud and help protect our elections.

[Support this mission today with a generous contribution of \\$75, \\$125, \\$250 or more right now. Our election integrity is up to you.](#)

With your help, we can empower our sheriffs to secure our elections. Join us today.

Hello Patriot -

The Remain in Mexico policy is back! After the worst illegal immigration surge in history, the Biden Administration has renegotiated.

We have been fighting to restore this policy since Joe Biden repealed it on the first day of his presidency. This is a major victory!

But we're not done yet. We have to keep the pressure on the Democrats and force them to bring back the rest of President Trump's immigration platform.

[Help us keep fighting for secure borders today with a quick \\$40 donation.](#)

[**DONATE TODAY**](#)

Joe Biden reinstated the Remain in Mexico policy after red state Democrats began to attack his immigration policy.

This is proof that the administration can be forced to change; but there has to be an incredible amount of pressure.

We are going to keep the heat on and press the Democrats to resume construction of the border wall. We only need to persuade a few House Democrats to force border wall funding into a spending bill.

Red state Democratic representatives listen when our law enforcement leaders speak out. They know they can't win reelection if we put a target on their backs.

Join us today and we'll keep pushing for secure borders together.

Hello Patriot -

There are more than 15 million AR pattern rifles and pistols registered in the United States. And Joe Biden wants to ban every single one of them.

That's why he nominated David Chipman - a career gun control lobbyist - to lead the ATF. Like Biden, he also wants to ban and confiscate your Second Amendment protected firearms.

But we can still stop this! We are working overtime lobbying moderate Senate Democrats to oppose Chipman's nomination.

[Helps us convince red-state Democrats to vote against David Chipman today with a one time donation of \\$25 or more right now.](#)

[DONATE TODAY](#)

The Senate is currently split 50-50 which means it only takes one Democrat to stop one of President Biden's nominees from getting through.

Right now, Senator Kyrsten Sinema (D-AZ), Senator Joe Manchin (D-WV), and Senator John Tester (D-MT) are our targets. As Democrats from red-states, they can't afford to vote with their liberal colleagues from New York and California every time.

We are working hard to convince these Senators that this is one of the times they need to break ranks and vote with Republicans. Voting to stop David Chipman from leading the ATF is one of the most important nomination votes of the year.

[But we need your help to get our message through. Join our organization today with a generous contribution of \\$55 or more to show them we mean business.](#)

We are quickly becoming one of the largest law enforcement lead organizations in the country, and the larger we get, the more impossible it becomes to ignore us.

That is why we need you to join today. Every single donation and membership makes our voice louder in Washington D.C.

I am hoping that you will join our movement today, because this is a critical battle that we need every one of you to take part in. Our Second Amendment protected freedoms are at stake like never before.

Stand with me today, and together we can can stop this gun-grabbing tyrant from running the ATF.
