Required Inputs

List of Ballot Styles and equipment being used in the election.

Printed ballots

Verity Key and V-Drives

Steps

TRC/Voting System Analyst:

1. After all entities have signed off on proofs and all ballot information has been verified, print deck of test ballots.

   The deck should include at least one ballot for each ballot style/precinct and at least one vote vote for each choice on the ballot, one under-vote for each choice on the ballot, and each contest must be over-voted at least once.

2. Run the test deck through the absentee scanners in the Ballot Board room for the Logic and Accuracy Test. Confirm that the above mentioned criteria in Step 1 was met.

4. Create a list of the location given to each technician for referencing later.

5. Place the stack of ballots, a Spoiled Ballot Envelope, and a note with the location each is supposed to be using in the Day 1 folder for each technician.

6. Create a list of the EEC numbers with equipment that the technicians need to test.

Technicians:

1. At the start of Public Test retrieve your Day 1 folder, Verity Key, and V-drives from the TRC office.

2. Reference the EEC list provided to retrieve and set up your first set of equipment.

3. Parent/Child V-drives to the Scan and Controller using the Public Test event.

4. Once the string has booted up, predefine the equipment to the location that the TRC/Voting System Analyst assigned to you.

5. Using a test ballot from the deck provided, issue an access code from the Controller that matches the ballot style.

6. Repeat for each Duo.

7. Enter the access code into the Duo and copy the selections on the pre-marked ballot and print the vote record.

8. After printing, verify that the printed vote record from the Duo matches the pre-marked ballot exactly.

   - If the 2 are an exact match, run the printed vote record through the Scan and place the pre-marked ballot in your completed folder.
   - If the printed vote record does not match, reissue the code and make your selections again. Place the spoiled ballot in the Spoiled Ballot Envelope you were provided with.

9. When a ballot has been cast on each Duo, close the polls on the Scan and Controller.

10. Shut down the string.

11. After the machines have completely shut down, place the V-drives in the bag provided.

12. Place the ballot from the test deck into the Completed Folder.

AMERICAN OVERSIGHT

13. Return the equipment to the appropriate EEC and scan to update the location.

14. Repeat steps 1-13 for each pre-marked ballot you received, using equipment from a new EEC each time.

15. At the end of each day, count the printed vote records and verify that the total matches the total pre-marked ballots in your completed folder.

16. Return completed and not completed ballots, printed vote records and all used V-drive to the TRC office at the end of each day.

TRC/Voting System Analyst:

1. After each technician returns their items for the day, place ballots that still need to be cast as printed vote record and the Spoiled Ballot Envelope in the Day 2 Folder for each technician.

2. Place V-drives and printed vote records in the Tally Room.

3. Run the day's ballots thru Central. Use a different task daily.

4. With the Ballot Board present, run the day's V-drives, including the V-drive from Central into Count. Use a different task daily.

5. Have the Ballot Board compare the results from Count to the L&A results.

6. Show that any variation in the results was a human error by comparing the pre-marked absentee ballot and the printed vote record.

7. Have the Ballot Board members complete the Public Test documents.

8. Once the public test is complete, seal all documentation in regards to Public Test in a ballot canister for storage and seal.

9. Have the Ballot Board members complete the Seal Form and place it in the outside pocket of the ballot canister.

10. Store Public Test results for 36 months.

Output and Validation

After public test has been completed, it should be determined that any errors were made because of human error. Each error must be documented. The final output should show that the programming and equipment worked correctly.

All documents used in the public test must be retained for 36 months: ballots, printed vote records, Count reports and Ballot Board sign offs.

American Oversight has provided identifying information, when possible, but believes your office is best positioned to identify email addresses and phone numbers of the listed external individuals.

2. All records reflecting the substance of any meeting between Tarrant County Clerk Mary Louise Nicholson and any of the external individuals listed above, including, but not limited to: readouts, transcripts, or other records of the meeting's content; and records shared during or in connection with the meeting.

For both parts of this request, please provide all responsive records from November 1, 2021, through the date the search is conducted.

American Oversight seeks all responsive records regardless of format, medium, or physical characteristics. In conducting your search, please understand the term "record" in its broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages and transcripts, notes, or minutes of any meetings, telephone conversations or discussions. Our request includes any attachments to these records. **No category of material should be omitted from search, collection, and production.**

In addition, American Oversight insists that your office use the most up-to-date technologies to search for responsive information and take steps to ensure that the most complete repositories of information are searched. American Oversight is available to work with you to craft appropriate search terms. **However, custodian searches are still required; governmental authorities may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.**

Please search all records regarding official business. **You may not exclude searches of files or emails in the personal custody of your officials, such as personal email accounts.** Emails conducting government business sent or received on the personal account of a governmental authority's officer or employee constitutes a record for purposes of the Texas Public Information Act.[1]

AMERICAN OVERSIGHT

In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release.

Please take appropriate steps to ensure that records responsive to this request are not deleted by your office before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

To ensure that this request is properly construed, that searches are conducted in an adequate but efficient manner, and that extraneous costs are not incurred, American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your office can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in electronic format by email or in PDF or TIF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will accelerate release of responsive records to American Oversight, please also provide responsive material on a rolling basis.

Fee Waiver Request

In accordance with Tex. Code § 552.267(a), American Oversight requests a waiver of fees associated with processing this request for records, because such a waiver "is in the public interest because providing the copy of the information primarily benefits the general public." The requested records are directly related to the work of county officials, with the potential to shed light on alleged efforts to dispute the results of the 2020 presidential election in Tarrant County. This matter is a subject of substantial public interest in Texas.[2] Accordingly, release of records that may help the public understand the operations and activities of county officials is in the public interest.

Release of the requested records will primarily benefit the public.[3] As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the requested records is not in American Oversight's financial interest, but is rather in
