EXTERNAL SENDER

Douglas County is in receipt of your October 26, 2022 open record request regarding email correspondence to and from Commissioner Ann Guider. There were no records identified by our email archiving system to or from the email extensions/addresses provided in the request for the date span indicated. I have reached out to Commissioner Guider to confirm there are no other records in any other format, and she is working to verify whether there are any records responsive to your request. As soon as I hear back from her office with any records, or with a confirmation that there are no records, I will email you to provide an updated timeline or status. Thanks!
