RE: Right-to-Know Request, received November 4, 2022 (note a 30-day extension was invoked on November 14, 2022)

Request No. 2022-244

November 22, 2022

Dear Mehreen Rasheed:

Thank you for writing to Butler County with your request for documents pursuant to the Pennsylvania Right-to-Know Law ("RTKL").

Your request, for all electronic communications between Commissioners Osche or Geyer and any representatives of Audit the Vote PA (a copy is attached), is granted. The relevant records are attached. Because we were able to provide these records electronically, there is no charge to you.

Noting that your request explicitly excluded initial mailings of news clips or other mass-distribution emails, and to the extent that we understand what qualifies as a mass-distribution email, we have identified two records that we believe are not responsive: an email and attachment that appear to have been sent by Audit the Vote PA to multiple PA county commissioners, including Commissioners Osche and Geyer. However, in the interest of erring toward disclosure, we are providing these 2 records as a courtesy.

Please be advised that this correspondence will serve to close this record with our office as permitted by Law. As always, if you have any questions or concerns, please do not hesitate to contact me at the office. Thank you.

Very truly yours,

Matthew Vickless

Butler County Right-to-Know Assistant

Subject: RE: Public Records Request (PA-BUTLER-22-1133)

Dear Mehreen Rasheed:

Thank you for writing to Butler County Open Records with your request for records pursuant to Pennsylvania's Right-to-Know Law ("RTKL"), 65 P.S. §§ 67.101 *et seq.* On November 4, 2022 (note the County was closed Friday, November 11 in observance of Veterans Day), we received your requests for electronic communications between Commissioner Osche or Commissioner Geyer and any representatives of Audit the Vote PA.

For your records, this request has been assigned tracking number RTK No. 2022-244.

Pursuant to Section 902(a) of the RTKL, an additional 30 days are required to respond because (check all that apply):

- X The request may require redaction in accordance with Section 706 of the RTKL.
- The request requires the retrieval of a record stored in a remote location.
- A timely response cannot be accomplished due to bona fide staffing limitations.
- X A legal review is needed to determine whether the record is subject to access.
- The requester has not complied with the Agency's policies regarding access to records.
- The requester refuses to pay applicable fees authorized by the RTKL.
- The extent or nature of the request precludes a response within the required time period.

Butler County Open Records Office expects to respond to your request on or before December 14, 2022.

Thank you for your understanding.

Sincerely,

Matthew Vickless

Butler County Right-to-Know Assistant

Subject: [Audit The Vote PA County Recommendations](#)
Date: Wednesday, August 17, 2022 12:29:43 PM
Attachments: [County Recommendations PDF.pdf](#)

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes
2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance
6. Automatic Recounts

Read the full report here:

Audit The Vote PA

Report – County Based Recommendations for Election Integrity

August 4th , 2022

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and [canvassing endeavors](#) that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote counts and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have [full authority to administer and run your county's election](#) and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties [must first reconcile the votes cast to voters](#) before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to collaborating with you to help implement the necessary changes.

Regards,

Toni Shuppe

CEO

Audit The Vote PA

www.AuditTheVotePA.com

Ban Ballot Drop Boxes

- True The Vote has uncovered substantial evidence with the [widely used geo-spatial tracking technology](#), combined with surveillance video from the drop boxes themselves, showing that ballot harvesting is occurring and perpetrators are using the drop boxes to submit their harvested ballots. True The Vote showed evidence that this method was abused and the outcome of the 2020 election in Pennsylvania should be called into question, because the illegally submitted ballots in Philadelphia alone span nearly three times Biden's margin of victory.
- Lancaster County chose not to use drop boxes in the May 17th primary [despite being sued by the ACLU](#). We recommend that all counties follow Lancaster's lead in banning ballot drop boxes.
 - [Commissioner Parsons put out a statement that can be used as a template for this initiative](#).

Machine Issues

ATVPA is making a recommendation to not use the electronic voting tabulators or machines for the upcoming November general election. It is well within your scope of authority to make this decision as a County Commissioner.

We will be providing separate guidance on a process to hand count paper ballots at the precinct level. [The recent CISA report details serious vulnerabilities in electronic voting machines](#), specifically Dominion. The simplest way to ensure a free and fair election is with no internet capable equipment, and with a hand count, which prevents hacking and foreign interference.

- For counties not willing to take this step, we recommend the following:
 - Ensure the machines do not have internet connectivity by inspecting the internal infrastructure to make sure there is no modem present or any other device that would allow remote access to the tabulators and machines.
 - Allow concerned citizens with credentials in the tech sector to inspect the machines internet capabilities without accessing any internal or sensitive components.
 - If the machine manufacturer will not allow any such inspections, then we must consider the machines are vulnerable and cease using them.

Handling of Mail-in Ballots

- Mail-in ballots need to go back to the precincts for counting to ensure that as every Judge of Elections signs off on the tally sheets, they are accurately representing an election that they witnessed.
 - As it stands now, the Judge of Elections signs off on a tally that is then updated to reflect the mail-in ballot count AFTER election day. The given Judge is not able to oversee the counting of those ballots which belong in his/her given precinct.

- This is an area of vulnerability and needs addressed before the November election to ensure transparency and accountability.
- Ensure that all “F” type voters (FWAB, FVAP, UOCAVA, etc.) are also simultaneously registered, [as required by PA law](#).
- Mail-in ballots should have to be requested for each election, not automatically sent out.
 - The automated process trades a minor convenience for a potential vector for abuse. Those seeking to harvest ballots in their neighborhood, will seek out those ballots being sent to the addresses of deceased or moved voters.
- Signature verification must occur on all mail-in ballots. Requiring a signature will help to ensure that the registrant is the one requesting their ballot, not some random person online. Reference Section 1302 of the PA Election Code for the statutory requirements on this matter.
 - Without signature verification, every legal voter is disenfranchised by a potential illegal ballot that cannot be proven to have come from a legitimate registered voter.
- Counties should publish a report after each election to include a summary of how many ballots were sent in with valid signatures, invalid signatures, no signatures, and scribble signatures.
- Research mail-in ballot destination addresses to ensure the following:
 - Nobody is stock piling ballots. The 2000 Mules that True the Vote has revealed, show that there are NGO-connected ballot stash houses where ballots are being amassed.
 - Additionally, it was uncovered in the 2022 primary that there was [a scheme being orchestrated in Philadelphia to harvest ballots](#) by getting residents to unknowingly request their mail ballot arrive at a South Philly Ward Leader’s PO Box.
 - The canvassing effort in Allegheny County, specifically Monroeville area, resulted in one resident signing an affidavit indicating that he did not vote in the 2020 election, but according to the SURE system, there was a mail-in ballot cast under his name. This also happened in a long-term care facility in Lancaster County where we surveyed a resident who said she had not voted in at least three years, but there was also a mail-in ballot cast under her name.
 - Ballots must be sent to legal locations so that they cannot be harvested by others.
- More oversight regarding Nursing Home mail-in ballot requests to minimize ballot harvesting.
- Track the mail-in ballot arrival date separate from the scanned date.
 - It is imperative to track the arrival date so that concerned citizens can determine and account for how many mail ballots can be considered to be counted in accordance with the law.

- Some counties are already tracking these fields correctly, however some counties are entering in a date other than the ballots' arrival date, causing computational discrepancies when analyzing expected legal mail ballots.

Process Recommendations

- All ballots must be reconciled prior to the certification of the vote.
 - This is required by law in the PA Election codes, [25 Pa. Stat. § 3031.13](#).
 - There were well over 100,000 unreconciled votes statewide in the 2020 election that were certified, a direct violation of the above law.
 - Any future violations of this law will result in lawsuits.

Voter Roll Maintenance

- Utilize the NCOA (National Change of Address) service, as mandated by the law.
 - [Title 25 § 1901\(b\)\(1\)\(i\)](#) requires counties to use the NCOA database once a year at minimum.
 - Counties should be running their voter rolls against the NCOA database prior to every election and making an effort to reconcile any moves.
 - Programs like ERIC, while helpful, do not remove the requirement for counties to be leveraging the NCOA database at least once a year.
- Implement follow up canvassing to ensure accuracy/cleaning of voter rolls upon an alert of a move.
 - [Title 25 § 1901\(b\)\(2\)](#) grants counties the ability to implement a canvassing program to investigate potential voter moves, and upon confirming, allows the county to immediately cancel the registration.
 - Not performing this canvassing exercise means that in many cases, the registration is left as “inactive” and it takes two+ federal election cycles for it to be removed.
- Ensure that addresses being entered into the system are valid and legal residential addresses.
 - Bad or illegal addresses should be corrected in the system, and efforts should be made to verify upon entry to ensure data integrity.
- Run checks for duplicates against statewide voter rolls to identify and clean up duplicate registrations.
- Reconcile missing information such as DOB or gender.

Automatic Recounts

A risk limiting audit (RLA) does not yield confidence in our electoral process. After the 2020 election, the Department of State stated that of their RLA that, “The results of the sample mirrored the reported presidential election results across the participating counties **within a fraction of a percentage point**, providing confirmation of the accuracy of the vote count.

- The Department of State is openly admitting that their audit results **did not mirror** the certified results but seem to think it is a **fraction of a percentage point** (such as 0.999999 or 0.1) and therefore it is acceptable.
 - Source: <https://www.media.pa.gov/pages/State-details.aspx?newsid=453>
- The inventor of the RLA states that a RLA does not prove the accuracy of the count.
 - “At best, this pilot provided evidence that [President Joe] Biden got more votes than [Donald] Trump in total in the counties that participated in the pilot,” said **Philip Stark, a professor at the University of California at Berkeley who invented risk-limiting audits. “That’s different from showing that any equipment worked properly, that the count was accurate, or that Biden won [Pennsylvania].”**
 - Source: <https://whyy.org/articles/pa-audit-confirms-biden-got-more-votes-than-trump-but-cant-tell-us-much-else/>
- Perform a hand recount of 3+ precincts each election cycle, either chosen at random or in coordination with citizen petitions.
- Allow petitioners access to hand recounts as outlined by [25 Pa § 3261](#) “Cause the entire vote of the election district to be correctly counted **by persons** designated by the court.”

Subject: Election Machine Manipulation

Good afternoon County Commissioners,

This email is going out to all the County Commissioners in the state of Pennsylvania. Attached you will find a report coming out of Mesa County, Colorado showing evidence of election machine manipulation by Dominion Voting Systems after they came in to do a "trusted build" update in the spring of 2021. The report includes data from both the 2020 and 2021 election in Mesa County.

I am writing to you on behalf of Audit The Vote PA to implore you to discontinue the use of these machines. To the best of our knowledge, the following counties have Dominion.

Armstrong
Bedford
Carbon
Clarion
Crawford
Erie
Fayette
Jefferson
Luzerne
Montgomery
Pike
Warren
York

We are not asking you to get into a nasty and expensive battle with Dominion, but rather to cancel your contract with them and explore alternative options. Please consider the fact that these machines are completely insecure and are taking elections away from all of you who work hard to secure them and putting them in the hands of a 3rd party entity who has the ability to control the outcome.

If you have questions or concerns about how to move forward, we are happy to assist you in figuring out the details and getting you volunteers to assist if you need them.

Thank you for your consideration on this important issue.

Kind Regards,

Toni Shuppe
CEO
Audit The Vote PA

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

If my last email sounded like I'm trying to "make a deal", that couldn't be further from the truth. Like you, I consider myself on the RIGHT side of things also. Let's face it. Not everyone is with us. Many legislators and county commissioners across the Commonwealth are still insisting that the 2020 election was the most fair and secure in our nation's history. I strongly disagree and there is plenty of evidence to support that.

I appreciate what Butler County has done thus far, but it's still not enough. The reason I say that is because people still don't have faith in our elections. Until we have maximum transparency where everything is out in the open, there will be doubts and concerns. That's my biggest problem with the machines. There may be nothing going on inside of them with internet connections or algorithms, but the fact that we can't see and no machine manufacturer will let us look is concerning to say the least. That's why I suggest doing a hand recount after the election, prior to certification, to ensure that the machine counts match the paper counts. I'm not trying to make a deal. I'm trying to increase transparency and get to the truth of what's really going on inside the machines.

Did you watch Clint Curtis at the Lindell event? He's a Democrat who admitted to voting for Biden, but he's against using electronic voting machines for every reason I mentioned above. If you haven't seen anything he's done yet, here is a great interview to watch. It's only 15 minutes long.

<https://rumble.com/v1h77rd-shocking-news-election-fraud-confirmed-by-democrat-flashpoint.html>

Also, here is a link to the movie, Selection Code. This is obviously a lot longer, but well worth the time.

<https://selectioncode.com>

I know chucking the machines is not as easy as it sounds, but I'm sure you're aware that there are people circulating a petition in Butler County to get a referendum on the ballot that will let the voters decide on the future of electronic voting, and I hope they are successful in their efforts. Lycoming County was able to get the required amount of signatures on their petition just this week and will be presenting it to their board of elections soon.

Again, this is why I am trying to come up with ways to convince elected officials like you to eliminate the machines or at the very least hand count the paper ballots afterwards so we can make sure the outcome of the election is not being manipulated by something none of us can see.

Can you give me some days/times you have available for a call and I'll get Vico's schedule so that we can set that up?

I appreciate your time. Obviously you care about the future of our country and want free and fair elections. I hope we can work together to Save the Republic and to restore honesty and transparency in our electoral process. What's happening to our country is frightening, to put it mildly, and I don't think this is something the majority voted for.

Thank you again,
Toni Shuppe

On Tue, Aug 30, 2022 at 11:19 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Absolutely willing to set up a zoom. I am not sure who is on the ground, or what side anyone thinks I am on. I would argue I am on the RIGHT side. Remember, it was our Election Commission that suggested the hand count of three random precincts, which we just sampled. But three random races may be possible. We already agreed to a hand count audit of the Middlesex South precinct after Nov.

We are down another staff member in elections, so this could get more challenging as we go. Yes we are inundated with requests, which is in part why staff leave . But I will not make a "deal" in exchange for their withdrawal. I will consider a handcount audit of precincts or races because its the right thing to do.

We were successful in recruiting the judges and inspectors from varying precincts to come participate in our hand count trial of 2020. So I think we could get ample support from elected judges etc in the future as well.

Lets talk about a zoom date and I will ask Commissioner Geyer if she wants to be included.

All that said, you have grassroots who continue to refer to us as corrupt. I grew up, the daughter of a proud WWII Veteran who worked at the VA Hospital my mother was a bookkeeper. They had nothing but a home. I was a girl scout, volunteered in my community all my life, am a longtime church member and contributor. My husband and sons carry the same values. My husband was a steelworker and volunteer fire chief. I worked hard and people put their faith in me for a reason I took care of four parents with cancer and dementia I buried a son who died in a drowning accident, so there is nothing anyone can do to hurt me more. I have faith and peace with my maker. The false accusers don't know me very well. But they will soon learn. In fact their own records will need to speak for themselves.

Give me some dates to schedule zoom. In the meantime I will estimate the time and cost to hand count races. Thank you again.

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

Thank you again for the dialogue. I realize you have a ton on your plate, and let me say I have heard on the ground that you are on our side... by "our side", I'm referring to the grassroots. I do appreciate the support.

I would be happy to share with you the raw results from our canvassing effort in Butler County. Let me know if you are willing to set up a Zoom call with me and my data expert, Vico Bertogli. Having him on the call would be very helpful because he can answer questions on the spot about voter roll issues and we can maybe get to the bottom of some of these things. There might be legitimate answers for some of the things we found, and we won't know that if we don't discuss it.

Just throwing an idea out there - I'm sure your office is inundated with requests for the CVRs since Mike Lindell's Truth Summit, and that's no fun to deal with. One way to put a stop to that would be to agree to do a hand recount immediately after the November 8th election. Let's pick 3 random races and do a full hand recount of all the paper ballots to ensure that the results from the machine match the ballots. If everything matches, that would put a lot of these issues to rest. I'm sure we could provide enough volunteers to make this happen, and it would alleviate you having to deal with angry constituents clogging up your office with RTKs... just a thought.

If you're open to having a discussion via Zoom, please let me know.

Thank you again,
Toni Shuppe

On Tue, Aug 30, 2022 at 10:02 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Sorry I did not respond sooner. First, I want to be clear that we have never agreed to use drop boxes despite intense pressure from many forces in 2020 and years following.

Second, I am assessing what it would take to get to a hand count, but I don't know we can fully implement that in November and have timely results. I would still want to scan as a secondary check. It doesn't mean we can't audit that way though.

Also, still looking back at numbers and am now concerned about the undervotes and how they were handled as was pointed out in our recent hand count review, which no other County did that I am aware of.

Understand that we have many charges in our roles, advancing projects, dealing with workforce shortages, horrible things happening to kids, homeless challenges, energy, transportation and water and sewer issues, so am trying to fit this research in between.

I watched the video from Frankspeech forum. The only way we can address what you

found in your issues through canvassing, is if you actually share the anomalies so that we can investigate and prosecute any false registrations or mail in requests.

Also, are you aware that it is legal to be registered in more than one state, but illegal to vote in more than one state?. I don't trust the concept behind ERIC, but that is the only way to catch voters who try to vote in more than one state. Attended the America First Policy Summit and will continue to seek out resolution to this issue.

Finally, it is conceivable that our many Florida snowbirds were out of state and requested a mail in ballot. They were escaping the Governors shut down. And those who could work from home, chose to travel to warmer climates to escape being trapped. So while the number seems high, it may be real.

Last question, in regard to ballots received after the deadline, does your number reflect those that we were court ordered to count that were postmarked on election day, but arrived by the 6th at 5 pm? Or could it be they were received by the deadline, but envelopes weren't scanned until post election.

Either way, the extension granted by the courts, allowed possible manipulative response. Will look at that count perhaps next.

Thanks for the dialogue.

Leslie,

Thank you for very much fo your response. I am relieved to hear that you will not have drop boxes. Please let us know what we can do to help make your life easier. I am happy to use our reach to get you fully staffed for November,. especially if you need volunteers.

Have you given any thought to sticking the tabulating machines on the shelf and just hand counting the paper ballots? If so, we would be willing to help you figure out what that process could look like to make it smooth and transparent at the same time.

Thank you again for your prompt response!

Regards,
Toni Shuppe

On Wed, Aug 17, 2022, 5:13 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Toni:

Many thanks for the report. It is excellent in its form and it seems clear that many of the items we are trying to address here in Butler County have been included in your recommendations. We do not use drop boxes. I have expressed concern with the reconciliation process and we actually had a financial auditor in to examine that. I intend to be sure we have that in place for November. We will also look at how the dates on the mail-in ballot returns are being recorded. You are very much right that the scan date is not necessarily the date they were returned. We will need to make sure we have staff available to get them scanned daily as returned, and particularly in the last days leading up to election day and election day itself. This was a challenge. Obviously you perhaps adopted our recommendation on the audit/hand count of three or more precincts. We just completed testing that process using the 2020 election and now know what resources and time will be required. I wish more people would have turned out to that very public process, after calling for it, but we will continue with that knowing that it is a very transparent and easy to understand audit.

As I argued in the media, by centralizing the count, we have taken away the oversight of our elected judges and inspectors in their precincts. I will read your recommendations further, but I am not certain they will want to hand count that many ballots in their precincts while conducting an in-person election. But, I remain open minded to solutions.

One thing not mentioned in your report, is the process or inconsistency in the adjudication of undervotes or overvotes. We will be making changes to that process as well. My presumption is that is being handled in an extremely inconsistent fashion across the state. That was the major take away from the audit we just finished.

Again, thank you for your diligence. While this has certainly been what feels like an adversarial topic, I think we are breaking through to real change for those of us willing to take it on.

Subject: Audit The Vote PA County Recommendations

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes
2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance

6. Automatic Recounts

Read the full report here:

Leslie,

If my last email sounded like I'm trying to "make a deal", that couldn't be further from the truth. Like you, I consider myself on the RIGHT side of things also. Let's face it. Not everyone is with us. Many legislators and county commissioners across the Commonwealth are still insisting that the 2020 election was the most fair and secure in our nation's history. I strongly disagree and there is plenty of evidence to support that.

I appreciate what Butler County has done thus far, but it's still not enough. The reason I say that is because people still don't have faith in our elections. Until we have maximum transparency where everything is out in the open, there will be doubts and concerns. That's my biggest problem with the machines. There may be nothing going on inside of them with internet connections or algorithms, but the fact that we can't see and no machine manufacturer will let us look is concerning to say the least. That's why I suggest doing a hand recount after the election, prior to certification, to ensure that the machine counts match the paper counts. I'm not trying to make a deal. I'm trying to increase transparency and get to the truth of what's really going on inside the machines.

Did you watch Clint Curtis at the Lindell event? He's a Democrat who admitted to voting for Biden, but he's against using electronic voting machines for every reason I mentioned above. If you haven't seen anything he's done yet, here is a great interview to watch. It's only 15 minutes long.

<https://rumble.com/v1h77rd-shocking-news-election-fraud-confirmed-by-democrat-flashpoint.html>

Also, here is a link to the movie, Selection Code. This is obviously a lot longer, but well worth the time.

<https://selectioncode.com>

I know chucking the machines is not as easy as it sounds, but I'm sure you're aware that there are people circulating a petition in Butler County to get a referendum on the ballot that will let the voters decide on the future of electronic voting, and I hope they are successful in their efforts. Lycoming County was able to get the required amount of signatures on their petition just this week and will be presenting it to their board of elections soon.

Again, this is why I am trying to come up with ways to convince elected officials like you to eliminate the machines or at the very least hand count the paper ballots afterwards so we can make sure the outcome of the election is not being manipulated by something none of us can see.

Can you give me some days/times you have available for a call and I'll get Vico's schedule so that we can set that up?

I appreciate your time. Obviously you care about the future of our country and want free and

fair elections. I hope we can work together to Save the Republic and to restore honesty and transparency in our electoral process. What's happening to our country is frightening, to put it mildly, and I don't think this is something the majority voted for.

Thank you again,
Toni Shuppe

On Tue, Aug 30, 2022 at 11:19 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Absolutely willing to set up a zoom. I am not sure who is on the ground, or what side anyone thinks I am on. I would argue I am on the RIGHT side. Remember, it was our Election Commission that suggested the hand count of three random precincts, which we just sampled. But three random races may be possible. We already agreed to a hand count audit of the Middlesex South precinct after Nov.

We are down another staff member in elections, so this could get more challenging as we go. Yes we are inundated with requests, which is in part why staff leave . But I will not make a "deal" in exchange for their withdrawal. I will consider a handcount audit of precincts or races because its the right thing to do.

We were successful in recruiting the judges and inspectors from varying precincts to come participate in our hand count trial of 2020. So I think we could get ample support from elected judges etc in the future as well.

Lets talk about a zoom date and I will ask Commissioner Geyer if she wants to be included.

All that said, you have grassroots who continue to refer to us as corrupt. I grew up, the daughter of a proud WWII Veteran who worked at the VA Hospital my mother was a bookkeeper. They had nothing but a home. I was a girl scout, volunteered in my community all my life, am a longtime church member and contributor. My husband and sons carry the same values. My husband was a steelworker and volunteer fire chief. I worked hard and people put their faith in me for a reason I took care of four parents with cancer and dementia I buried a son who died in a drowning accident, so there is nothing anyone can do to hurt me more. I have faith and peace with my maker. The false accusers don't know me very well. But they will soon learn. In fact their own records will need to speak for themselves.

Give me some dates to schedule zoom. In the meantime I will estimate the time and cost to hand count races. Thank you again.

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

Thank you again for the dialogue. I realize you have a ton on your plate, and let me say I

have heard on the ground that you are on our side... by "our side", I'm referring to the grassroots. I do appreciate the support.

I would be happy to share with you the raw results from our canvassing effort in Butler County. Let me know if you are willing to set up a Zoom call with me and my data expert, Vico Bertogli. Having him on the call would be very helpful because he can answer questions on the spot about voter roll issues and we can maybe get to the bottom of some of these things. There might be legitimate answers for some of the things we found, and we won't know that if we don't discuss it.

Just throwing an idea out there - I'm sure your office is inundated with requests for the CVRs since Mike Lindell's Truth Summit, and that's no fun to deal with. One way to put a stop to that would be to agree to do a hand recount immediately after the November 8th election. Let's pick 3 random races and do a full hand recount of all the paper ballots to ensure that the results from the machine match the ballots. If everything matches, that would put a lot of these issues to rest. I'm sure we could provide enough volunteers to make this happen, and it would alleviate you having to deal with angry constituents clogging up your office with RTKs... just a thought.

If you're open to having a discussion via Zoom, please let me know.

Thank you again,
Toni Shuppe

On Tue, Aug 30, 2022 at 10:02 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Sorry I did not respond sooner. First, I want to be clear that we have never agreed to use drop boxes despite intense pressure from many forces in 2020 and years following.

Second, I am assessing what it would take to get to a hand count, but I don't know we can fully implement that in November and have timely results. I would still want to scan as a secondary check. It doesn't mean we can't audit that way though.

Also, still looking back at numbers and am now concerned about the undervotes and how they were handled as was pointed out in our recent hand count review, which no other County did that I am aware of.

Understand that we have many charges in our roles, advancing projects, dealing with workforce shortages, horrible things happening to kids, homeless challenges, energy, transportation and water and sewer issues, so am trying to fit this research in between.

I watched the video from Frankspeech forum. The only way we can address what you found in your issues through canvassing, is if you actually share the anomalies so that we can investigate and prosecute any false registrations or mail in requests.

Also, are you aware that it is legal to be registered in more than one state, but illegal to vote in more than one state?. I don't trust the concept behind ERIC, but that is the only way to catch voters who try to vote in more than one state. Attended the America First Policy Summit and will continue to seek out resolution to this issue.

Finally, it is conceivable that our many Florida snowbirds were out of state and requested

a mail in ballot. They were escaping the Governors shut down. And those who could work from home, chose to travel to warmer climates to escape being trapped. So while the number seems high, it may be real.

Last question, in regard to ballots received after the deadline, does your number reflect those that we were court ordered to count that were postmarked on election day, but arrived by the 6th at 5 pm? Or could it be they were received by the deadline, but envelopes weren't scanned until post election.

Either way, the extension granted by the courts, allowed possible manipulative response. Will look at that count perhaps next.

Thanks for the dialogue.

Leslie,

Thank you for very much fo your response. I am relieved to hear that you will not have drop boxes. Please let us know what we can do to help make your life easier. I am happy to use our reach to get you fully staffed for November,. especially if you need volunteers.

Have you given any thought to sticking the tabulating machines on the shelf and just hand counting the paper ballots? If so, we would be willing to help you figure out what that process could look like to make it smooth and transparent at the same time.

Thank you again for your prompt response!

Regards,
Toni Shuppe

On Wed, Aug 17, 2022, 5:13 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Toni:

Many thanks for the report. It is excellent in its form and it seems clear that many of the items we are trying to address here in Butler County have been included in your recommendations. We do not use drop boxes. I have expressed concern with the reconciliation process and we actually had a financial auditor in to examine that. I intend to be sure we have that in place for November. We will also look at how the dates on the mail-in ballot returns are being recorded. You are very much right that the scan date is not necessarily the date they were returned. We will need to make sure we have staff available to get them scanned daily as returned, and particularly in the last days leading up to election day and election day itself. This was a challenge. Obviously you perhaps adopted our recommendation on the audit/hand count of three or more precincts. We just completed testing that process using the 2020 election and now know what resources and time will be required. I wish more people would have turned out to that very public process, after calling for it, but we will continue with that knowing that it is a very transparent and easy to understand audit.

As I argued in the media, by centralizing the count, we have taken away the oversight of our elected judges and inspectors in their precincts. I will read your recommendations further, but I am not certain they will want to hand count that many ballots in their precincts while conducting an in-person election. But, I remain open minded to solutions.

One thing not mentioned in your report, is the process or inconsistency in the adjudication of undervotes or overvotes. We will be making changes to that process as well. My presumption is that is being handled in an extremely inconsistent fashion across the state. That was the major take away from the audit we just finished.

Again, thank you for your diligence. While this has certainly been what feels like an adversarial topic, I think we are breaking through to real change for those of us willing to take it on.

Subject: Audit The Vote PA County Recommendations

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes
2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance
6. Automatic Recounts

Leslie,

Thank you for very much fo your response. I am relieved to hear that you will not have drop boxes. Please let us know what we can do to help make your life easier. I am happy to use our reach to get you fully staffed for November,. especially if you need volunteers.

Have you given any thought to sticking the tabulating machines on the shelf and just hand counting the paper ballots? If so, we would be willing to help you figure out what that process could look like to make it smooth and transparent at the same time.

Thank you again for your prompt response!

Regards,
Toni Shuppe

Toni:

Many thanks for the report. It is excellent in its form and it seems clear that many of the items we are trying to address here in Butler County have been included in your recommendations. We do not use drop boxes. I have expressed concern with the reconciliation process and we actually had a financial auditor in to examine that. I intend to be sure we have that in place for November. We will also look at how the dates on the mail-in ballot returns are being recorded. You are very much right that the scan date is not necessarily the date they were returned. We will need to make sure we have staff available to get them scanned daily as returned, and particularly in the last days leading up to election day and election day itself. This was a challenge. Obviously you perhaps adopted our recommendation on the audit/hand count of three or more precincts. We just completed testing that process using the 2020 election and now know what resources and time will be required. I wish more people would have turned out to that very public process, after

calling for it, but we will continue with that knowing that it is a very transparent and easy to understand audit.

As I argued in the media, by centralizing the count, we have taken away the oversight of our elected judges and inspectors in their precincts. I will read your recommendations further, but I am not certain they will want to hand count that many ballots in their precincts while conducting an in-person election. But, I remain open minded to solutions.

One thing not mentioned in your report, is the process or inconsistency in the adjudication of undervotes or overvotes. We will be making changes to that process as well. My presumption is that is being handled in an extremely inconsistent fashion across the state. That was the major take away from the audit we just finished.

Again, thank you for your diligence. While this has certainly been what feels like an adversarial topic, I think we are breaking through to real change for those of us willing to take it on.

Subject: Audit The Vote PA County Recommendations

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes
2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance
6. Automatic Recounts

Read the full report here:

Leslie,

Thank you again for the dialogue. I realize you have a ton on your plate, and let me say I have heard on the ground that you are on our side... by "our side", I'm referring to the grassroots. I do appreciate the support.

I would be happy to share with you the raw results from our canvassing effort in Butler County. Let me know if you are willing to set up a Zoom call with me and my data expert, Vico Bertogli. Having him on the call would be very helpful because he can answer questions on the spot about voter roll issues and we can maybe get to the bottom of some of these things. There might be legitimate answers for some of the things we found, and we won't know that if we don't discuss it.

Just throwing an idea out there - I'm sure your office is inundated with requests for the CVRs since Mike Lindell's Truth Summit, and that's no fun to deal with. One way to put a stop to that would be to agree to do a hand recount immediately after the November 8th election. Let's pick 3 random races and do a full hand recount of all the paper ballots to ensure that the results from the machine match the ballots. If everything matches, that would put a lot of these issues to rest. I'm sure we could provide enough volunteers to make this happen, and it would alleviate you having to deal with angry constituents clogging up your office with RTKs... just a thought.

If you're open to having a discussion via Zoom, please let me know.

Thank you again,
Toni Shuppe

On Tue, Aug 30, 2022 at 10:02 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Sorry I did not respond sooner. First, I want to be clear that we have never agreed to use drop boxes despite intense pressure from many forces in 2020 and years following.

Second, I am assessing what it would take to get to a hand count, but I don't know we can fully implement that in November and have timely results. I would still want to scan as a secondary check. It doesn't mean we can't audit that way though.

Also, still looking back at numbers and am now concerned about the undervotes and how they were handled as was pointed out in our recent hand count review, which no other County did that I am aware of.

Understand that we have many charges in our roles, advancing projects, dealing with workforce shortages, horrible things happening to kids, homeless challenges, energy, transportation and water and sewer issues, so am trying to fit this research in between.

I watched the video from Frankspeech forum. The only way we can address what you found in your issues through canvassing, is if you actually share the anomalies so that we can

investigate and prosecute any false registrations or mail in requests.

Also, are you aware that it is legal to be registered in more than one state, but illegal to vote in more than one state?. I don't trust the concept behind ERIC, but that is the only way to catch voters who try to vote in more than one state. Attended the America First Policy Summit and will continue to seek out resolution to this issue.

Finally, it is conceivable that our many Florida snowbirds were out of state and requested a mail in ballot. They were escaping the Governors shut down. And those who could work from home, chose to travel to warmer climates to escape being trapped. So while the number seems high, it may be real.

Last question, in regard to ballots received after the deadline, does your number reflect those that we were court ordered to count that were postmarked on election day, but arrived by the 6th at 5 pm? Or could it be they were received by the deadline, but envelopes weren't scanned until post election.

Either way, the extension granted by the courts, allowed possible manipulative response. Will look at that count perhaps next.

Thanks for the dialogue.

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

Thank you for very much fo your response. I am relieved to hear that you will not have drop boxes. Please let us know what we can do to help make your life easier. I am happy to use our reach to get you fully staffed for November,. especially if you need volunteers.

Have you given any thought to sticking the tabulating machines on the shelf and just hand counting the paper ballots? If so, we would be willing to help you figure out what that process could look like to make it smooth and transparent at the same time.

Thank you again for your prompt response!

Regards,
Toni Shuppe

Toni:

Many thanks for the report. It is excellent in its form and it seems clear that many of the items we are trying to address here in Butler County have been included in your recommendations. We do not use drop boxes. I have expressed concern with the reconciliation process and we actually had a financial auditor in to examine that. I intend to be sure we have that in place for November. We will also look at how the dates on the mail-in ballot returns are being recorded. You are very much right that the scan date is not necessarily the date they were returned. We will need to make sure we have staff available to get them scanned daily as returned, and particularly in the last days leading up to election day and election day itself. This was a challenge. Obviously you perhaps adopted our recommendation on the audit/hand count of three or more precincts. We just completed testing that process using the 2020 election and now know what resources and time will be required. I wish more people would have turned out to that very public process, after calling for it, but we will continue with that knowing that it is a very transparent and easy to understand audit.

As I argued in the media, by centralizing the count, we have taken away the oversight of our elected judges and inspectors in their precincts. I will read your recommendations further, but I am not certain they will want to hand count that many ballots in their precincts while conducting an in-person election. But, I remain open minded to solutions.

One thing not mentioned in your report, is the process or inconsistency in the adjudication of undervotes or overvotes. We will be making changes to that process as well. My presumption is that is being handled in an extremely inconsistent fashion across the state. That was the major take away from the audit we just finished.

Again, thank you for your diligence. While this has certainly been what feels like an adversarial topic, I think we are breaking through to real change for those of us willing to take it on.

Subject: Audit The Vote PA County Recommendations

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes
2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance
6. Automatic Recounts

Read the full report here:

Leslie,

Thank you for very much fo your response. I am relieved to hear that you will not have drop boxes. Please let us know what we can do to help make your life easier. I am happy to use our reach to get you fully staffed for November,. especially if you need volunteers.

Have you given any thought to sticking the tabulating machines on the shelf and just hand counting the paper ballots? If so, we would be willing to help you figure out what that process could look like to make it smooth and transparent at the same time.

Thank you again for your prompt response!

Regards,
Toni Shuppe

Toni:

Many thanks for the report. It is excellent in its form and it seems clear that many of the items we are trying to address here in Butler County have been included in your recommendations. We do not use drop boxes. I have expressed concern with the reconciliation process and we actually had a financial auditor in to examine that. I intend to be sure we have that in place for November. We will also look at how the dates on the mail-in ballot returns are being recorded. You are very much right that the scan date is not necessarily the date they were returned. We will need to make sure we have staff available to get them scanned daily as returned, and particularly in the last days leading up to election day and election day itself. This was a challenge. Obviously you perhaps adopted our recommendation on the audit/hand count of three or more precincts. We just completed testing that process using the 2020 election and now know what resources and time will be required. I wish more people would have turned out to that very public process, after calling for it, but we will continue with that knowing that it is a very transparent and easy to understand audit.

As I argued in the media, by centralizing the count, we have taken away the oversight of our elected judges and inspectors in their precincts. I will read your recommendations further, but I am not certain they will want to hand count that many ballots in their precincts while conducting an in-person election. But, I remain open minded to solutions.

One thing not mentioned in your report, is the process or inconsistency in the adjudication of undervotes or overvotes. We will be making changes to that process as well. My presumption is that is being handled in an extremely inconsistent fashion across the state. That was the major take away from the audit we just finished.

Again, thank you for your diligence. While this has certainly been what feels like an adversarial topic, I think we are breaking through to real change for those of us willing to take it on.

Absolutely willing to set up a zoom. I am not sure who is on the ground, or what side anyone thinks I am on. I would argue I am on the RIGHT side. Remember, it was our Election Commission that suggested the hand count of three random precincts, which we just sampled. But three random races may be possible. We already agreed to a hand count audit of the Middlesex South precinct after Nov.

We are down another staff member in elections, so this could get more challenging as we go. Yes we are inundated with requests, which is in part why staff leave . But I will not make a "deal" in exchange for their withdrawal. I will consider a handcount audit of precincts or races because its the right thing to do.

We were successful in recruiting the judges and inspectors from varying precincts to come participate in our hand count trial of 2020. So I think we could get ample support from elected judges etc in the future as well.

Lets talk about a zoom date and I will ask Commissioner Geyer if she wants to be included.

All that said, you have grassroots who continue to refer to us as corrupt. I grew up, the daughter of a proud WWII Veteran who worked at the VA Hospital my mother was a bookkeeper. They had nothing but a home. I was a girl scout, volunteered in my community all my life, am a longtime church member and contributor. My husband and sons carry the same values. My husband was a steelworker and volunteer fire chief. I worked hard and people put their faith in me for a reason I took care of four parents with cancer and dementia I buried a son who died in a drowning accident, so there is nothing anyone can do to hurt me more. I have faith and peace with my maker. The false accusers don't know me very well. But they will soon learn. In fact their own records will need to speak for themselves.

Give me some dates to schedule zoom. In the meantime I will estimate the time and cost to hand count races. Thank you again.

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

Thank you again for the dialogue. I realize you have a ton on your plate, and let me say I have heard on the ground that you are on our side... by "our side", I'm referring to the grassroots. I do appreciate the support.

I would be happy to share with you the raw results from our canvassing effort in Butler

County. Let me know if you are willing to set up a Zoom call with me and my data expert, Vico Bertogli. Having him on the call would be very helpful because he can answer questions on the spot about voter roll issues and we can maybe get to the bottom of some of these things. There might be legitimate answers for some of the things we found, and we won't know that if we don't discuss it.

Just throwing an idea out there - I'm sure your office is inundated with requests for the CVRs since Mike Lindell's Truth Summit, and that's no fun to deal with. One way to put a stop to that would be to agree to do a hand recount immediately after the November 8th election. Let's pick 3 random races and do a full hand recount of all the paper ballots to ensure that the results from the machine match the ballots. If everything matches, that would put a lot of these issues to rest. I'm sure we could provide enough volunteers to make this happen, and it would alleviate you having to deal with angry constituents clogging up your office with RTKs... just a thought.

If you're open to having a discussion via Zoom, please let me know.

Thank you again,
Toni Shuppe

Sorry I did not respond sooner. First, I want to be clear that we have never agreed to use drop boxes despite intense pressure from many forces in 2020 and years following.

Second, I am assessing what it would take to get to a hand count, but I don't know we can fully implement that in November and have timely results. I would still want to scan as a secondary check. It doesn't mean we can't audit that way though.

Also, still looking back at numbers and am now concerned about the undervotes and how they were handled as was pointed out in our recent hand count review, which no other County did that I am aware of.

Understand that we have many charges in our roles, advancing projects, dealing with workforce shortages, horrible things happening to kids, homeless challenges, energy, transportation and water and sewer issues, so am trying to fit this research in between.

I watched the video from Frankspeech forum. The only way we can address what you found in your issues through canvassing, is if you actually share the anomalies so that we can investigate and prosecute any false registrations or mail in requests.

Also, are you aware that it is legal to be registered in more than one state, but illegal to vote in more than one state?. I don't trust the concept behind ERIC, but that is the only way to catch voters who try to vote in more than one state. Attended the America First Policy Summit and will continue to seek out resolution to this issue.

Finally, it is conceivable that our many Florida snowbirds were out of state and requested a mail in ballot. They were escaping the Governors shut down. And those who could work from home, chose to travel to warmer climates to escape being trapped. So while the number seems high, it may be real.

Last question, in regard to ballots received after the deadline, does your number reflect those that we were court ordered to count that were postmarked on election day, but arrived by the 6th at 5 pm? Or could it be they were received by the deadline, but envelopes weren't scanned until post election.

Either way, the extension granted by the courts, allowed possible manipulative response. Will look at that count perhaps next.

Thanks for the dialogue.

Leslie,

Thank you for very much fo your response. I am relieved to hear that you will not have drop boxes. Please let us know what we can do to help make your life easier. I am happy to use our reach to get you fully staffed for November,. especially if you need volunteers.

Have you given any thought to sticking the tabulating machines on the shelf and just hand counting the paper ballots? If so, we would be willing to help you figure out what that process could look like to make it smooth and transparent at the same time.

Thank you again for your prompt response!

Regards,
Toni Shuppe

Toni:

Many thanks for the report. It is excellent in its form and it seems clear that many of the items we are trying to address here in Butler County have been included in your recommendations. We do not use drop boxes. I have expressed concern with the reconciliation process and we actually had a financial auditor in to examine that. I intend to be sure we have that in place for November. We will also look at how the dates on the mail-in ballot returns are being recorded. You are very much right that the scan date is not necessarily the date they were returned. We will need to make sure we have staff available to get them scanned daily as returned, and particularly in the last days leading up to election day and election day itself. This was a challenge. Obviously you perhaps adopted our recommendation on the audit/hand count of three or more precincts. We just completed testing that process using the 2020 election and now know what resources and time will be required. I wish more people would have turned out to that very public process, after calling for it, but we will continue with that knowing that it is a very transparent and easy to understand audit.

As I argued in the media, by centralizing the count, we have taken away the oversight of our elected judges and inspectors in their precincts. I will read your recommendations further, but I am not certain they will want to hand count that many ballots in their precincts while conducting an in-person election. But, I remain open minded to solutions.

One thing not mentioned in your report, is the process or inconsistency in the adjudication of undervotes or overvotes. We will be making changes to that process as well. My presumption is that is being handled in an extremely inconsistent fashion across the state. That was the major take away from the audit we just finished.

Again, thank you for your diligence. While this has certainly been what feels like an adversarial topic, I think we are breaking through to real change for those of us willing to take it on.

Subject: Audit The Vote PA County Recommendations

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes
2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance
6. Automatic Recounts

Sorry I did not respond sooner. First, I want to be clear that we have never agreed to use drop boxes despite intense pressure from many forces in 2020 and years following.

Second, I am assessing what it would take to get to a hand count, but I don't know we can fully implement that in November and have timely results. I would still want to scan as a secondary check. It doesn't mean we can't audit that way though.

Also, still looking back at numbers and am now concerned about the undervotes and how they were handled as was pointed out in our recent hand count review, which no other County did that I am aware of.

Understand that we have many charges in our roles, advancing projects, dealing with workforce shortages, horrible things happening to kids, homeless challenges, energy, transportation and water and sewer issues, so am trying to fit this research in between.

I watched the video from Frankspeech forum. The only way we can address what you found in your issues through canvassing, is if you actually share the anomalies so that we can investigate and prosecute any false registrations or mail in requests.

Also, are you aware that it is legal to be registered in more than one state, but illegal to vote in more than one state?. I don't trust the concept behind ERIC, but that is the only way to catch voters who try to vote in more than one state. Attended the America First Policy Summit and will continue to seek out resolution to this issue.

Finally, it is conceivable that our many Florida snowbirds were out of state and requested a mail in ballot. They were escaping the Governors shut down. And those who could work from home, chose to travel to warmer climates to escape being trapped. So while the number seems high, it may be real.

Last question, in regard to ballots received after the deadline, does your number reflect those that we were court ordered to count that were postmarked on election day, but arrived by the 6th at 5 pm? Or could it be they were received by the deadline, but envelopes weren't scanned until post election.

Either way, the extension granted by the courts, allowed possible manipulative response. Will look at that count perhaps next.

Thanks for the dialogue.

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

Thank you for very much for your response. I am relieved to hear that you will not have drop boxes. Please let us know what we can do to help make your life easier. I am happy to use our reach to get you fully staffed for November, especially if you need volunteers.

Have you given any thought to sticking the tabulating machines on the shelf and just hand counting the paper ballots? If so, we would be willing to help you figure out what that process could look like to make it smooth and transparent at the same time.

Thank you again for your prompt response!

Regards,
Toni Shuppe

Subject: Audit The Vote PA County Recommendations

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes

2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance
6. Automatic Recounts

Read the full report here:

Toni:

Many thanks for the report. It is excellent in its form and it seems clear that many of the items we are trying to address here in Butler County have been included in your recommendations. We do not use drop boxes. I have expressed concern with the reconciliation process and we actually had a financial auditor in to examine that. I intend to be sure we have that in place for November. We will also look at how the dates on the mail-in ballot returns are being recorded. You are very much right that the scan date is not necessarily the date they were returned. We will need to make sure we have staff available to get them scanned daily as returned, and particularly in the last days leading up to election day and election day itself. This was a challenge. Obviously you perhaps adopted our recommendation on the audit/hand count of three or more precincts. We just completed testing that process using the 2020 election and now know what resources and time will be required. I wish more people would have turned out to that very public process, after calling for it, but we will continue with that knowing that it is a very transparent and easy to understand audit.

As I argued in the media, by centralizing the count, we have taken away the oversight of our elected judges and inspectors in their precincts. I will read your recommendations further, but I am not certain they will want to hand count that many ballots in their precincts while conducting an in-person election. But, I remain open minded to solutions.

One thing not mentioned in your report, is the process or inconsistency in the adjudication of undervotes or overvotes. We will be making changes to that process as well. My presumption is that is being handled in an extremely inconsistent fashion across the state. That was the major take away from the audit we just finished.

Again, thank you for your diligence. While this has certainly been what feels like an adversarial topic, I think we are breaking through to real change for those of us willing to take it on.

Subject: Audit The Vote PA County Recommendations

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before

proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes
2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance
6. Automatic Recounts

Hi Toni,

Would you be available for a zoom meeting with Commissioner Osche anytime between 1PM and 4PM on Monday, September 19th? If so, let us know what time works and we will get it on the calendar! Thanks!

Maria Malloy

Commissioners' Office Deputy Chief and Assistant to Commissioner Leslie Osche

Butler County Board of Commissioners

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

If my last email sounded like I'm trying to "make a deal", that couldn't be further from the truth. Like you, I consider myself on the RIGHT side of things also. Let's face it. Not everyone is with us. Many legislators and county commissioners across the Commonwealth are still insisting that the 2020 election was the most fair and secure in our nation's history. I strongly disagree and there is plenty of evidence to support that.

I appreciate what Butler County has done thus far, but it's still not enough. The reason I say that is because people still don't have faith in our elections. Until we have maximum transparency where everything is out in the open, there will be doubts and concerns. That's my biggest problem with the machines. There may be nothing going on inside of them with internet connections or algorithms, but the fact that we can't see and no machine manufacturer will let us look is concerning to say the least. That's why I suggest doing a hand recount after the election, prior to certification, to ensure that the machine counts match the paper counts. I'm not trying to make a deal. I'm trying to increase transparency and get to the truth of what's really going on inside the machines.

Did you watch Clint Curtis at the Lindell event? He's a Democrat who admitted to voting for Biden, but he's against using electronic voting machines for every reason I mentioned above. If you haven't seen anything he's done yet, here is a great interview to watch. It's only 15 minutes long.

<https://rumble.com/v1h77rd-shocking-news-election-fraud-confirmed-by-democrat-flashpoint.html>

Also, here is a link to the movie, Selection Code. This is obviously a lot longer, but well worth the time.

<https://selectioncode.com>

I know chucking the machines is not as easy as it sounds, but I'm sure you're aware that there are people circulating a petition in Butler County to get a referendum on the ballot that will let the voters decide on the future of electronic voting, and I hope they are successful in their efforts. Lycoming County was able to get the required amount of signatures on their petition just this week and will be presenting it to their board of elections soon.

Again, this is why I am trying to come up with ways to convince elected officials like you to eliminate the machines or at the very least hand count the paper ballots afterwards so we can make sure the outcome of the election is not being manipulated by something none of us can see.

Can you give me some days/times you have available for a call and I'll get Vico's schedule so that we can set that up?

I appreciate your time. Obviously you care about the future of our country and want free and fair elections. I hope we can work together to Save the Republic and to restore honesty and transparency in our electoral process. What's happening to our country is frightening, to put it mildly, and I don't think this is something the majority voted for.

Thank you again,

Toni Shuppe

On Tue, Aug 30, 2022 at 11:19 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Absolutely willing to set up a zoom. I am not sure who is on the ground, or what side anyone thinks I am on. I would argue I am on the RIGHT side. Remember, it was our Election Commission that suggested the hand count of three random precincts, which we just sampled. But three random races may be possible. We already agreed to a hand count audit of the Middlesex South precinct after Nov.

We are down another staff member in elections, so this could get more challenging as we go. Yes we are inundated with requests, which is in part why staff leave . But I will not

make a "deal" in exchange for their withdrawal. I will consider a handcount audit of precincts or races because its the right thing to do.

We were successful in recruiting the judges and inspectors from varying precincts to come participate in our hand count trial of 2020. So I think we could get ample support from elected judges etc in the future as well.

Lets talk about a zoom date and I will ask Commissioner Geyer if she wants to be included.

All that said, you have grassroots who continue to refer to us as corrupt. I grew up, the daughter of a proud WWII Veteran who worked at the VA Hospital my mother was a bookkeeper. They had nothing but a home. I was a girl scout, volunteered in my community all my life, am a longtime church member and contributor. My husband and sons carry the same values. My husband was a steelworker and volunteer fire chief. I worked hard and people put their faith in me for a reason I took care of four parents with cancer and dementia I buried a son who died in a drowning accident, so there is nothing anyone can do to hurt me more. I have faith and peace with my maker. The false accusers don't know me very well. But they will soon learn. In fact their own records will need to speak for themselves.

Give me some dates to schedule zoom. In the meantime I will estimate the time and cost to hand count races. Thank you again.

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

Thank you again for the dialogue. I realize you have a ton on your plate, and let me say I have heard on the ground that you are on our side... by "our side", I'm referring to the grassroots. I do appreciate the support.

I would be happy to share with you the raw results from our canvassing effort in Butler County. Let me know if you are willing to set up a Zoom call with me and my data expert, Vico Bertogli. Having him on the call would be very helpful because he can answer questions on the spot about voter roll issues and we can maybe get to the bottom of some of these things. There might be legitimate answers for some of the things we found, and we won't know that if we don't discuss it.

Just throwing an idea out there - I'm sure your office is inundated with requests for the CVRs since Mike Lindell's Truth Summit, and that's no fun to deal with. One way to put a stop to that would be to agree to do a hand recount immediately after the November 8th election. Let's pick 3 random races and do a full hand recount of all the paper ballots to ensure that the results from the machine match the ballots. If everything matches, that would put a lot of these issues to rest. I'm sure we could provide enough volunteers to make this happen, and it would alleviate you having to deal with angry constituents clogging up your office with RTKs... just a thought.

If you're open to having a discussion via Zoom, please let me know.

Thank you again,

Toni Shuppe

On Tue, Aug 30, 2022 at 10:02 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Sorry I did not respond sooner. First, I want to be clear that we have never agreed to use drop boxes despite intense pressure from many forces in 2020 and years following.

Second, I am assessing what it would take to get to a hand count, but I don't know we can fully implement that in November and have timely results. I would still want to scan as a secondary check. It doesn't mean we can't audit that way though.

Also, still looking back at numbers and am now concerned about the undervotes and how they were handled as was pointed out in our recent hand count review, which no other County did that I am aware of.

Understand that we have many charges in our roles, advancing projects, dealing with workforce shortages, horrible things happening to kids, homeless challenges, energy, transportation and water and sewer issues, so am trying to fit this research in between.

I watched the video from Frankspeech forum. The only way we can address what you found in your issues through canvassing, is if you actually share the anomalies so that we can investigate and prosecute any false registrations or mail in requests.

Also, are you aware that it is legal to be registered in more than one state, but illegal to vote in more than one state?. I don't trust the concept behind ERIC, but that is the only way to catch voters who try to vote in more than one state. Attended the America First Policy Summit and will continue to seek out resolution to this issue.

Finally, it is conceivable that our many Florida snowbirds were out of state and requested a mail in ballot. They were escaping the Governors shut down. And those who could work from home, chose to travel to warmer climates to escape being trapped. So while the number seems high, it may be real.

Last question, in regard to ballots received after the deadline, does your number reflect those that we were court ordered to count that were postmarked on election day, but arrived by the 6th at 5 pm? Or could it be they were received by the deadline, but envelopes weren't scanned until post election.

Either way, the extension granted by the courts, allowed possible manipulative response. Will look at that count perhaps next.

Thanks for the dialogue.

Leslie,

Thank you for very much fo your response. I am relieved to hear that you will not have drop boxes. Please let us know what we can do to help make your life easier. I am happy to use our reach to get you fully staffed for November,. especially if you need volunteers.

Have you given any thought to sticking the tabulating machines on the shelf and just hand counting the paper ballots? If so, we would be willing to help you figure out what that process could look like to make it smooth and transparent at the same time.

Thank you again for your prompt response!

Regards,

Toni Shuppe

On Wed, Aug 17, 2022, 5:13 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Toni:

Many thanks for the report. It is excellent in its form and it seems clear that many of the items we are trying to address here in Butler County have been included in your recommendations. We do not use drop boxes. I have expressed concern with the reconciliation process and we actually had a financial auditor in to examine that. I intend to be sure we have that in place for November. We will also look at how the dates on the mail-in ballot returns are being recorded. You are very much right that the scan date is not necessarily the date they were returned. We will need to make sure we have staff available to get them scanned daily as returned, and particularly in the last days leading up to election day and election day itself. This was a challenge. Obviously you perhaps adopted our recommendation on the audit/hand count of three or more precincts. We just completed testing that process using the 2020 election and now know what resources and time will be required. I wish more people would have turned out to that very public process, after calling for it, but we will continue with that knowing that it is a very transparent and easy to understand audit.

As I argued in the media, by centralizing the count, we have taken away the oversight of our elected judges and inspectors in their precincts. I will read your recommendations further, but I am not certain they will want to hand count that many ballots in their precincts while conducting an in-person election. But, I remain open minded to solutions.

One thing not mentioned in your report, is the process or inconsistency in the adjudication of undervotes or overvotes. We will be making changes to that process as well. My presumption is that is being handled in an extremely inconsistent fashion across the state. That was the major take away from the audit we just finished.

Again, thank you for your diligence. While this has certainly been what feels like an adversarial topic, I think we are breaking through to real change for those of us willing to take it on.

Subject: Audit The Vote PA County Recommendations

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes
2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance
6. Automatic Recounts

Hi Toni,

Would you be available for a zoom meeting with Commissioner Osche anytime between 1PM and 4PM on Monday, September 19th? If so, let us know what time works and we will get it on the calendar! Thanks!

Maria Malloy

Commissioners' Office Deputy Chief and Assistant to Commissioner Leslie Osche
Butler County Board of Commissioners

Hello Maria: Could you please look at the calendar and work with Toni to get a date that we could do a Zoom. Toni do we need more than one hour? Let Maria know how much time you think we need. Thanks.

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

If my last email sounded like I'm trying to "make a deal", that couldn't be further from the truth. Like you, I consider myself on the RIGHT side of things also. Let's face it. Not everyone is with us. Many legislators and county commissioners across the Commonwealth are still insisting that the 2020 election was the most fair and secure in our nation's history. I strongly disagree and there is plenty of evidence to support that.

I appreciate what Butler County has done thus far, but it's still not enough. The reason I say that is because people still don't have faith in our elections. Until we have maximum transparency where everything is out in the open, there will be doubts and concerns. That's my biggest problem with the machines. There may be nothing going on inside of them with internet connections or algorithms, but the fact that we can't see and no

machine manufacturer will let us look is concerning to say the least. That's why I suggest doing a hand recount after the election, prior to certification, to ensure that the machine counts match the paper counts. I'm not trying to make a deal. I'm trying to increase transparency and get to the truth of what's really going on inside the machines.

Did you watch Clint Curtis at the Lindell event? He's a Democrat who admitted to voting for Biden, but he's against using electronic voting machines for every reason I mentioned above. If you haven't seen anything he's done yet, here is a great interview to watch. It's only 15 minutes long.

<https://rumble.com/v1h77rd-shocking-news-election-fraud-confirmed-by-democrat-flashpoint.html>

Also, here is a link to the movie, Selection Code. This is obviously a lot longer, but well worth the time.

<https://selectioncode.com>

I know chucking the machines is not as easy as it sounds, but I'm sure you're aware that there are people circulating a petition in Butler County to get a referendum on the ballot that will let the voters decide on the future of electronic voting, and I hope they are successful in their efforts. Lycoming County was able to get the required amount of signatures on their petition just this week and will be presenting it to their board of elections soon.

Again, this is why I am trying to come up with ways to convince elected officials like you to eliminate the machines or at the very least hand count the paper ballots afterwards so we can make sure the outcome of the election is not being manipulated by something none of us can see.

Can you give me some days/times you have available for a call and I'll get Vico's schedule so that we can set that up?

I appreciate your time. Obviously you care about the future of our country and want free and fair elections. I hope we can work together to Save the Republic and to restore honesty and transparency in our electoral process. What's happening to our country is frightening, to put it mildly, and I don't think this is something the majority voted for.

Thank you again,
Toni Shuppe

On Tue, Aug 30, 2022 at 11:19 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Absolutely willing to set up a zoom. I am not sure who is on the ground, or what side anyone thinks I am on. I would argue I am on the RIGHT side. Remember, it was our Election Commission that suggested the hand count of three random precincts, which we just sampled. But three random races may be possible. We already agreed to a hand count audit of the Middlesex South precinct after Nov.

We are down another staff member in elections, so this could get more challenging as we go. Yes we are inundated with requests, which is in part why staff leave. But I will not make a "deal" in exchange for their withdrawal. I will consider a handcount audit of precincts

or races because its the right thing to do.

We were successful in recruiting the judges and inspectors from varying precincts to come participate in our hand count trial of 2020. So I think we could get ample support from elected judges etc in the future as well.

Lets talk about a zoom date and I will ask Commissioner Geyer if she wants to be included.

All that said, you have grassroots who continue to refer to us as corrupt. I grew up, the daughter of a proud WWII Veteran who worked at the VA Hospital my mother was a bookkeeper. They had nothing but a home. I was a girl scout, volunteered in my community all my life, am a longtime church member and contributor. My husband and sons carry the same values. My husband was a steelworker and volunteer fire chief. I worked hard and people put their faith in me for a reason I took care of four parents with cancer and dementia I buried a son who died in a drowning accident, so there is nothing anyone can do to hurt me more. I have faith and peace with my maker. The false accusers don't know me very well. But they will soon learn. In fact their own records will need to speak for themselves.

Give me some dates to schedule zoom. In the meantime I will estimate the time and cost to hand count races. Thank you again.

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

Thank you again for the dialogue. I realize you have a ton on your plate, and let me say I have heard on the ground that you are on our side... by "our side", I'm referring to the grassroots. I do appreciate the support.

I would be happy to share with you the raw results from our canvassing effort in Butler County. Let me know if you are willing to set up a Zoom call with me and my data expert, Vico Bertogli. Having him on the call would be very helpful because he can answer questions on the spot about voter roll issues and we can maybe get to the bottom of some of these things. There might be legitimate answers for some of the things we found, and we won't know that if we don't discuss it.

Just throwing an idea out there - I'm sure your office is inundated with requests for the CVRs since Mike Lindell's Truth Summit, and that's no fun to deal with. One way to put a stop to that would be to agree to do a hand recount immediately after the November 8th election. Let's pick 3 random races and do a full hand recount of all the paper ballots to ensure that the results from the machine match the ballots. If everything matches, that would put a lot of these issues to rest. I'm sure we could provide enough volunteers to make this happen, and it would alleviate you having to deal with angry constituents clogging up your

office with RTKs... just a thought.

If you're open to having a discussion via Zoom, please let me know.

Thank you again,
Toni Shuppe

Sorry I did not respond sooner. First, I want to be clear that we have never agreed to use drop boxes despite intense pressure from many forces in 2020 and years following.

Second, I am assessing what it would take to get to a hand count, but I don't know we can fully implement that in November and have timely results. I would still want to scan as a secondary check. It doesn't mean we can't audit that way though.

Also, still looking back at numbers and am now concerned about the undervotes and how they were handled as was pointed out in our recent hand count review, which no other County did that I am aware of.

Understand that we have many charges in our roles, advancing projects, dealing with workforce shortages, horrible things happening to kids, homeless challenges, energy, transportation and water and sewer issues, so am trying to fit this research in between.

I watched the video from Frankspeech forum. The only way we can address what you found in your issues through canvassing, is if you actually share the anomalies so that we can investigate and prosecute any false registrations or mail in requests.

Also, are you aware that it is legal to be registered in more than one state, but illegal to vote in more than one state?. I don't trust the concept behind ERIC, but that is the only way to catch voters who try to vote in more than one state. Attended the America First Policy Summit and will continue to seek out resolution to this issue.

Finally, it is conceivable that our many Florida snowbirds were out of state and requested a mail in ballot. They were escaping the Governors shut down. And those who could work from home, chose to travel to warmer climates to escape being trapped. So while the number seems high, it may be real.

Last question, in regard to ballots received after the deadline, does your number reflect those that we were court ordered to count that were postmarked on election day, but arrived by the 6th at 5 pm? Or could it be they were received by the deadline, but envelopes weren't scanned until post election.

Either way, the extension granted by the courts, allowed possible manipulative response. Will look at that count perhaps next.

Thanks for the dialogue.

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

Thank you for very much fo your response. I am relieved to hear that you will not have drop boxes. Please let us know what we can do to help make your life easier. I am happy to use our reach to get you fully staffed for November,. especially if you need volunteers.

Have you given any thought to sticking the tabulating machines on the shelf and just hand counting the paper ballots? If so, we would be willing to help you figure out what that process could look like to make it smooth and transparent at the same time.

Thank you again for your prompt response!

Regards,
Toni Shuppe

Toni:

Many thanks for the report. It is excellent in its form and it seems clear that many of the items we are trying to address here in Butler County have been included in your recommendations. We do not use drop boxes. I have expressed concern with the reconciliation process and we actually had a financial auditor in to examine that. I intend to be sure we have that in place for November. We will also look at how the dates on the mail-in ballot returns are being recorded. You are very much right that the scan date is not necessarily the date they were returned. We will need to make sure we have staff available to get them scanned daily as returned, and particularly in the last days leading up to election day and election day itself. This was a challenge.

Obviously you perhaps adopted our recommendation on the audit/hand count of three or more precincts. We just completed testing that process using the 2020 election and now know what resources and time will be required. I wish more people would have turned out to that very public process, after calling for it, but we will continue with that knowing that it is a very transparent and easy to understand audit.

As I argued in the media, by centralizing the count, we have taken away the oversight of our elected judges and inspectors in their precincts. I will read your recommendations further, but I am not certain they will want to hand count that many ballots in their precincts while conducting an in-person election. But, I remain open minded to solutions.

One thing not mentioned in your report, is the process or inconsistency in the adjudication of undervotes or overvotes. We will be making changes to that process as well. My presumption is that is being handled in an extremely inconsistent fashion across the state. That was the major take away from the audit we just finished.

Again, thank you for your diligence. While this has certainly been what feels like an adversarial topic, I think we are breaking through to real change for those of us willing to take it on.

Subject: Audit The Vote PA County Recommendations

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes
2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance
6. Automatic Recounts

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

If my last email sounded like I'm trying to "make a deal", that couldn't be further from the truth. Like you, I consider myself on the RIGHT side of things also. Let's face it. Not everyone is with us. Many legislators and county commissioners across the Commonwealth are still insisting that the 2020 election was the most fair and secure in our nation's history. I strongly disagree and there is plenty of evidence to support that.

I appreciate what Butler County has done thus far, but it's still not enough. The reason I say that is because people still don't have faith in our elections. Until we have maximum transparency where everything is out in the open, there will be doubts and concerns. That's my biggest problem with the machines. There may be nothing going on inside of them with internet connections or algorithms, but the fact that we can't see and no machine manufacturer will let us look is concerning to say the least. That's why I suggest doing a hand recount after the election, prior to certification, to ensure that the machine counts match the paper counts. I'm not trying to make a deal. I'm trying to increase transparency and get to the truth of what's really going on inside the machines.

Did you watch Clint Curtis at the Lindell event? He's a Democrat who admitted to voting for Biden, but he's against using electronic voting machines for every reason I mentioned above. If you haven't seen anything he's done yet, here is a great interview to watch. It's only 15 minutes long.

<https://rumble.com/v1h77rd-shocking-news-election-fraud-confirmed-by-democrat-flashpoint.html>

Also, here is a link to the movie, Selection Code. This is obviously a lot longer, but well worth the time.

<https://selectioncode.com>

I know chucking the machines is not as easy as it sounds, but I'm sure you're aware that there are people circulating a petition in Butler County to get a referendum on the ballot that will let the voters decide on the future of electronic voting, and I hope they are successful in their efforts. Lycoming County was able to get the required amount of signatures on their petition just this week and will be presenting it to their board of elections soon.

Again, this is why I am trying to come up with ways to convince elected officials like you to eliminate the machines or at the very least hand count the paper ballots afterwards so we can make sure the outcome of the election is not being manipulated by something none of us can see.

Can you give me some days/times you have available for a call and I'll get Vico's schedule so that we can set that up?

I appreciate your time. Obviously you care about the future of our country and want free and fair elections. I hope we can work together to Save the Republic and to restore honesty and transparency in our electoral process. What's happening to our country is frightening, to put it mildly, and I don't think this is something the majority voted for.

Thank you again,
Toni Shuppe

On Tue, Aug 30, 2022 at 11:19 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Absolutely willing to set up a zoom. I am not sure who is on the ground, or what side anyone thinks I am on. I would argue I am on the RIGHT side. Remember, it was our Election Commission that suggested the hand count of three random precincts, which we just sampled. But three random races may be possible. We already agreed to a hand count audit of the Middlesex South precinct after Nov.

We are down another staff member in elections, so this could get more challenging as we go. Yes we are inundated with requests, which is in part why staff leave . But I will not make a "deal" in exchange for their withdrawal. I will consider a handcount audit of precincts or races because its the right thing to do.

We were successful in recruiting the judges and inspectors from varying precincts to come participate in our hand count trial of 2020. So I think we could get ample support from elected judges etc in the future as well.

Lets talk about a zoom date and I will ask Commissioner Geyer if she wants to be included.

All that said, you have grassroots who continue to refer to us as corrupt. I grew up, the daughter of a proud WWII Veteran who worked at the VA Hospital my mother was a bookkeeper. They had nothing but a home. I was a girl scout, volunteered in my community all my life, am a longtime church member and contributor. My husband and sons carry the same values. My husband was a steelworker and volunteer fire chief. I worked hard and people put their faith in me for a reason I took care of four parents with cancer and dementia I buried a son who died in a drowning accident, so there is nothing anyone can do to hurt me more. I have faith and peace with my maker. The false accusers don't know me very well. But they will soon learn. In fact their own records will need to speak for themselves.

Give me some dates to schedule zoom. In the meantime I will estimate the time and cost to hand count races. Thank you again.

Subject: Re: Audit The Vote PA County Recommendations

Leslie,

Thank you again for the dialogue. I realize you have a ton on your plate, and let me say I have heard on the ground that you are on our side... by "our side", I'm referring to the grassroots. I do appreciate the support.

I would be happy to share with you the raw results from our canvassing effort in Butler County. Let me know if you are willing to set up a Zoom call with me and my data expert, Vico Bertogli. Having him on the call would be very helpful because he can answer questions on the spot about voter roll issues and we can maybe get to the bottom of some of these things. There might be legitimate answers for some of the things we found, and we won't know that if we don't discuss it.

Just throwing an idea out there - I'm sure your office is inundated with requests for the CVRs since Mike Lindell's Truth Summit, and that's no fun to deal with. One way to put a stop to that would be to agree to do a hand recount immediately after the November 8th election. Let's pick 3 random races and do a full hand recount of all the paper ballots to ensure that the results from the machine match the ballots. If everything matches, that would put a lot of these issues to rest. I'm sure we could provide enough volunteers to make this happen, and it would alleviate you having to deal with angry constituents clogging up your office with RTKs... just a thought.

If you're open to having a discussion via Zoom, please let me know.

Thank you again,
Toni Shuppe

On Tue, Aug 30, 2022 at 10:02 PM Osche, Leslie <LOsche@co.butler.pa.us> wrote:

Sorry I did not respond sooner. First, I want to be clear that we have never agreed to use drop boxes despite intense pressure from many forces in 2020 and years following.

Second, I am assessing what it would take to get to a hand count, but I don't know we can fully implement that in November and have timely results. I would still want to scan as a secondary check. It doesn't mean we can't audit that way though.

Also, still looking back at numbers and am now concerned about the undervotes and how they were handled as was pointed out in our recent hand count review, which no other County did that I am aware of.

Understand that we have many charges in our roles, advancing projects, dealing with workforce shortages, horrible things happening to kids, homeless challenges, energy, transportation and water and sewer issues, so am trying to fit this research in between.

I watched the video from Frankspeech forum. The only way we can address what you

found in your issues through canvassing, is if you actually share the anomalies so that we can investigate and prosecute any false registrations or mail in requests.

Also, are you aware that it is legal to be registered in more than one state, but illegal to vote in more than one state?. I don't trust the concept behind ERIC, but that is the only way to catch voters who try to vote in more than one state. Attended the America First Policy Summit and will continue to seek out resolution to this issue.

Finally, it is conceivable that our many Florida snowbirds were out of state and requested a mail in ballot. They were escaping the Governors shut down. And those who could work from home, chose to travel to warmer climates to escape being trapped. So while the number seems high, it may be real.

Last question, in regard to ballots received after the deadline, does your number reflect those that we were court ordered to count that were postmarked on election day, but arrived by the 6th at 5 pm? Or could it be they were received by the deadline, but envelopes weren't scanned until post election.

Either way, the extension granted by the courts, allowed possible manipulative response. Will look at that count perhaps next.

Thanks for the dialogue.

Leslie,

Thank you for very much fo your response. I am relieved to hear that you will not have drop boxes. Please let us know what we can do to help make your life easier. I am happy to use our reach to get you fully staffed for November,. especially if you need volunteers.

Have you given any thought to sticking the tabulating machines on the shelf and just hand counting the paper ballots? If so, we would be willing to help you figure out what that process could look like to make it smooth and transparent at the same time.

Thank you again for your prompt response!

Regards,
Toni Shuppe

Toni:

Many thanks for the report. It is excellent in its form and it seems clear that many of the items we are trying to address here in Butler County have been included in your recommendations. We do not use drop boxes. I have expressed concern with the reconciliation process and we actually had a financial auditor in to examine that. I intend to be sure we have that in place for November. We will also look at how the dates on the mail-in ballot returns are being recorded. You are very much right that the scan date is not necessarily the date they were returned. We will need to make sure we have staff available to get them scanned daily as returned, and particularly in the last days leading up to election day and election day itself. This was a challenge. Obviously you perhaps adopted our recommendation on the audit/hand count of three or more precincts. We just completed testing that process using the 2020 election and now know what resources and time will be required. I wish more people would have turned out to that very public process, after calling for it, but we will continue with that knowing that it is a very transparent and easy to understand audit.

As I argued in the media, by centralizing the count, we have taken away the oversight of our elected judges and inspectors in their precincts. I will read your recommendations further, but I am not certain they will want to hand count that many ballots in their precincts while conducting an in-person election. But, I remain open minded to solutions.

One thing not mentioned in your report, is the process or inconsistency in the adjudication of undervotes or overvotes. We will be making changes to that process as well. My presumption is that is being handled in an extremely inconsistent fashion across the state. That was the major take away from the audit we just finished.

Again, thank you for your diligence. While this has certainly been what feels like an adversarial topic, I think we are breaking through to real change for those of us willing to take it on.

Subject: Audit The Vote PA County Recommendations

To All Pennsylvania County Commissioners:

The following report is based on our investigative research and canvassing endeavors that we performed following the 2020 election. We are making these recommendations to ensure that our election process is free, fair, and transparent so that every legal vote is counted and every illegal vote does not disenfranchise the citizens of the Commonwealth who cast their ballot according to the law.

As County Commissioners, you have full authority to administer and run your county's election and can make any necessary process or procedure changes you deem necessary, as long as those changes are not in violation of the PA election code, such as skipping the reconciliation process. Pennsylvania election code establishes that precincts and then counties must first reconcile the votes cast to voters before proceeding to certify their election. While this process was not followed by certain counties in the past, such as in the 2020 election where over 100,000 votes remain unreconciled, please know that Audit The Vote PA plans to challenge counties that move forward with certifying numbers they are unable to reconcile.

Feel free to reach out to us with any questions or comments. We look forward to working alongside you to help implement the necessary changes.

Regards,
Toni Shuppe
CEO
Audit The Vote PA
www.AuditTheVotePA.com

The Report lists specific recommendations in the following six key areas:

1. Ban Ballot Drop Boxes
2. Machine Issue Recommendations
3. Handling of Mail-in Ballots
4. Process Recommendations
5. Voter Roll Maintenance

6. Automatic Recounts
