RE: Right-to-Know request, dated November 4, 2022 (note a 30-day extension invoked November 14, 2022)
Request No. 2022-246

December 1, 2022

Dear Mehreen Rasheed:

Thank you for writing to Butler County with your request for documents pursuant to the Pennsylvania Right-to-Know Law ("RTKL").

Your request of November 4, 2022 (a copy is attached), seeking electronic communications and related records between Commissioner Osche or Commissioner Geyer and various named individuals and entities, is granted in part and denied in part.

The County has identified 43 responsive public records, which we are providing here (see attachment). Some of those records contain, we believe, personal cell phone numbers and/or personal email addresses that are exempt from disclosure under Section 708(b)(6)(i)(A) of the RTKL. These have been redacted in accordance with Section 706 ("If the information which is not subject to access is an integral part of the public record..., the agency shall redact from the record the information which is not subject to access, and the response shall grant access to the information which is subject to access").

Additionally, the County withheld 2 records that pertained to a complaint submitted to an agency, pursuant to Section 708(b)(17)(i) of the RTKL.

You have a right to appeal this denial in writing to Executive Director, Office of Open Records, Commonwealth Keystone Building, 400 North St., 4th Floor, Harrisburg, PA 17120.

If you chose to file an appeal, you must do so within fifteen (15) business days of the mailing date of this response. Please note that a copy of your original Right-to-Know request and this denial letter must be included when filing an appeal. The Law also requires that you state the reasons why the record is a public record and address the reasons given by the County for denying your request. Visit the Office of Open Records Web Site at <http://openrecords.state.pa.us> for further information on filing an appeal.

Please be advised that this correspondence will serve to close this record with our office as permitted by Law. If you have any questions or concerns, please do not hesitate to contact me at the office. Thank you.

Sincerely,

Matthew Vickless

Butler County Right-to-Know Assistant

Subject: RE: Public Records Request (PA-BUTLER-22-1135)

Dear Mehreen Rasheed:

Thank you for writing to Butler County Open Records with your request for records pursuant to Pennsylvania's Right-to-Know Law ("RTKL"), 65 P.S. §§ 67.101 *et seq.* On November 4, 2022 (note the County was closed Friday, November 11 in observance of Veterans Day), we received your requests for electronic communications between Commissioner Osche or Commissioner Geyer and the individuals/entities named in your request.

For your records, this request has been assigned tracking number RTK No. 2022-246.

Pursuant to Section 902(a) of the RTKL, an additional 30 days are required to respond because (check all that apply):

X The request may require redaction in accordance with Section 706 of the RTKL.

☐ The request requires the retrieval of a record stored in a remote location.

☐ A timely response cannot be accomplished due to bona fide staffing limitations.

X A legal review is needed to determine whether the record is subject to access.

☐ The requester has not complied with the Agency's policies regarding access to records.

☐ The requester refuses to pay applicable fees authorized by the RTKL.

☐ The extent or nature of the request precludes a response within the required time period.

Butler County Open Records Office expects to respond to your request on or before December 14, 2022.

Thank you for your understanding.

Sincerely,

Matthew Vickless

Subject: 31 Oct 2022 Hearing coordination.
Date: Wednesday, March 30, 2022 4:28:02 PM

All,

On behalf of Senator Dush please accept our sincere gratitude for your willingness to come before the Committee on such short notice. Everyone has been gracious and helpful and we are looking forward to meeting all of you. Joseph Faust has asked me to assist with your arrival tomorrow so this email is an attempt to make the morning as smooth as possible.

I will be positioned at the State Street entrance to the Capital Bldg just behind security. For those who haven't met me, I'll be the poorly dressed bearded man with a Red Badge on my jacket pocket.

We would recommend arrival at the security entrance around 0925. The process is straight forward and should present no issues. If one should arise, I'll be there to sort it out.

Once we get everyone together I'll escort the group to Senator Dush's office where we can collect ourselves until it is time to head to the hearing.

Parking on State Street is usually available (metered) and it is a short distance right up the steps.

Should anyone have any questions or issue please feel free to contact me on my cell listed below.

More information @ www.ButlerPAPatriots.org

All of the people listed on here are SUPPOSEDLY registered republicans as of Thursday March 17th, 2022. (These are all on the list of registered republican voters in the 11th legislative district)

Lyndora: 16045

Only did Bessemer Ave, due to people not home, etc...

-315 Bessemer Ave Lyndora, spoke to "Ronald Dale Rose" he's not registered to vote. Registered voter list has him as a registered republican.

-413 Bessemer Ave Lyndora, spoke with "William John Shaw III", he's not registered to vote. Registered voter list has him as a registered republican.

Sarver: 16055

-311 Primrose Drive Sarver, spoke with a resident. Stated "Hanna Sage Doerr" moved to New York roughly 5 years ago. Registered voter list still has her as a registered republican.

-98 Rambler Drive Sarver, spoke with "Michael Ziacik" he said he switched his party to democrat roughly 2 years ago. Registered voter list still has him listed as a registered republican.

-103 Stratford Drive Sarver, spoke with "Charles E. Counts" he said he is a registered democrat. List says he is registered republican.

-118 Bayberry Drive Sarver, spoke with "Eric Lynn Decroo" states he is a democrat. List says he is a registered republican.

Chicora: 16025

-317 Central Ave Chicora, spoke with "Logan Ruggles", has lived in the house for about 5 years, he is registered at this address. Has requested to be registered as this address countless times. He has been instructed year after year he has to vote in Butler. He is a registered Republican.

-411 Central Ave Chicora, spoke with Landlord, no one lives in the house, Susan Miller is registered republican there. She has lived in "411 B, Central Ave" for decades.

411 Central Ave, Chicora 16025, House has been vacant for 2 years. Reported by nearby resident. 411B Central Ave, Chicora 16025, actual residence of Susan Miller. Reported by a nearby resident (and verified by her daughter).

-320 Central Ave Chicora, spoke with "Virginia L Grossbauer", she said she is not registered republican, would not state if she is a democrat, or independent. List says she is republican.

-401 Central Ave Chicora, spoke to a resident at home, "Benjamin Mann" does not live there, and has not for a while. (current resident did not state their name)

Chicora Continued:

-102 Front Street Chicora, spoke to Kevin Wibert. He has lived there for 5 years, said Jedediah, and Judy Wibert never lived there, and they are registered democrats, he said. They are on the republican list as well.

-123 Green Street Chicora, spoke with Judith Ann Ingram, she said she is not registered republican, and never has been. (still on rolls as a registered republican)

-131 Green Street Chicora, spoke with Mary Ellen Blair, she stated she is not registered republican. (Still on rolls as republican)

-210 Central Ave, Chicora 16025. Sarah Buti , current resident, reports she had to verify her party affiliation 3 times to get it correct.

-210 Central Ave, Chicora 16025, Benjamin Mann has not lived at this address since 2000. Reported by Sarah Buti, current resident.

Butler: 16001

-211 Rural Drive, Butler 16001, Gavin Mulkern reports he is a Democrat.

-223 Rural Drive, Butler 16001, Joshua Cumberland has not lived there for 2 years and actually has been living and voting in Alaska. Reported by his grandmother, Judy Hemphil.

-106 Schenck Lane, Butler 16001, Greg and Donna McCall are registered Democrat. Reported by Natalie Franko who worked the polls in the last primary and noted their party affiliation.

-330 Westbrooke Drive, Butler 16001, Joan McElhancy has not lived there for 5 years. Reported by current unidentified resident.

-341 Westbrooke Drive, Butler 16001, Christina Rajchel has not lived there for 5 months. Reported by current unidentified resident.

-100 Charles Drive, Butler 16001 is a state facility. No voters live there. Employee stated no one lives there who is registered to vote.

-100 Charles Drive, Butler 16001, Alexander Rose does not live here.

-330 First Street, Butler 16001, Rosemary Wagner does not live here. Reported by Democrat living there now.

-136 Sharon Drive. Butler 16001. Chelsea Smith reports she is a Democrat.

155 Sharon Drive, Butler 16001. Carol Schwer reports she is a Democrat.

Subject: Butler County Elections Board Information
Date: Monday, August 29, 2022 3:26:58 PM
Attachments: [Commonwealth Dept Of State Release.pdf](#)

Attached below is the release that was sent out by Deputy Secretary of Elections and Commissions Johnathan Marks.

I would like a response whether Butler County is going to follow the guidance being asked by the Department Of State

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF STATE

July 26, 2022

Dear County Election Officials:

As you are undoubtedly aware, there has been a large amount of litigation surrounding the November 3, 2020 general election. While some of these cases have been disposed of, others continue to work their way through various courts. Further, you may also be aware that Pennsylvania is a member of the Electronic Registration Information Center ("ERIC"). ERIC membership assists in improving the accuracy of Pennsylvania's voter rolls and in performing voter list maintenance activities. As part of its membership in ERIC, Pennsylvania is participating in the Voter Participation Project to assist in identifying any voters who may have cast "improper votes" in the 2020 general election. A review of records for the 2020 general election in conjunction with the Voter Participation Project is currently ongoing. To complete this project, information is required from some counties that has not yet been provided despite requests by the Department of State ("Department").

We are approaching the end of the 22-month document retention requirement for records pertaining to federal elections. *See* 52 U.S.C. § 20701. However, the statute of limitations for federal crimes related to improper voting is five years. In addition, Pennsylvania has a two-year statute of limitations for casting improper votes in an election. Given the Department's current review in connection with the Voter Participation Project, **the Department strongly recommends that all counties continue to maintain all voting records pertaining to the 2020 general election.**

Further, **if your county is involved in any currently pending cases relating to the 2020 election**, all those records should be maintained, notwithstanding any contrary document retention policies your county might have. Even if your county is not currently involved in any such litigation, given the factors mentioned above and in an abundance of caution, we believe it would be prudent to continue to retain 2020 general election records for the time being and request that you do so.

As always, you should consult with your solicitor on this specific and any other document retention issues. Thank you for your anticipated cooperation. Please do not hesitate to contact me with any concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Jonathan Marks".

Jonathan Marks
Deputy Secretary for Elections and Commissions

Subject: Election Commission update request
Date: Wednesday, January 19, 2022 1:27:47 AM

Please provide us updates each meeting regarding what actions you have taken to resolve the issues you addressed in the Election Review Commission Report.

As a reminder, you recommended:

While the Commission submitted many recommendations, the following are the most significant.

1. Provide voters with a "Right to Know" guide explaining all four methods of voting in detail: Election Day, Mail-In, Early In-Person, and Provisional along with the potential consequences associated with each method
2. Change the deadline for mail-in and absentee ballots from 7 days prior to the election to at least 14 days prior.
3. Reverse the provision in Act 12 that allows for surrendering mail-in/absentee ballots at the polls. The Commission recommends only the use of provisional ballots if this act is allowed.
4. Format the poll books as was done in the 2020 Primary using grayed out boxes and no signature lines for voters whose ballots had been returned by mail.
5. Complete a more standard and transparent audit using third parties rather than election staff. Audit a select number of precincts, representative of voter demographic profile, from registrations through tabulation.
6. Adopt legislation that governs changes in election procedure and/or code during a state of emergency that requires approval of both executive and legislative branches with well-defined communication guidelines.
7. Develop a statutory disaster and business continuity plan for elections during a public emergency. The plan should be widely shared and implemented.
8. Adopt and audit a security framework and compliance standards for technology.
9. Implement more robust testing of tabulation software in particular as it relates to the use of data USB flash drives, as Butler County officials experienced a tabulation error that could have affected tabulation totals had the reconciliation process not identified the problem prior to certification of results.

We've been asking for # 5 & 8 for since May 2021. We've seen nothing thus far.

Also, your recommendations to the Bureau of Elections:

Scan and attach applications for mail-in ballots to the voter's record for verification and reference purposes.

Provide voters with a "Right to Know" guide explaining all four methods of voting in detail: Election Day, Mail-In, Early In-Person, and Provisional along with the potential consequences associated with each method.

The Commission supports the County's decision not to use drop boxes because of statutory requirements that indicate a voter may only return "their own" ballot in order to verify the "one person/one vote" process, and to prevent ballot harvesting.

Continue the use of a ballot drop-off station in the Government Center lobby and consider the use of staffed Satellite Election Offices in high density areas which provide a more convenient location for returning a ballot.

Continue the use of Election Bureau extended hours leading up to the election to allow voters more options for returning their ballot.

Establish a procedure for counting Mail-In ballots received in the Bureau of Elections on election day in order to avoid a duplicate vote by a voter who may have surrendered an "inactive" ballot at the polls and voted regularly.

Make the mail-in vote tabulation process more accessible / visible to the public through use of

observation windows and or live video feed.

Identify clearly on the website whether the posted results are complete and / or certified.

Convene an advisory group to investigate and consider the use of electronic poll books for accuracy, efficiency, and voter verification purposes.

Sufficient staff must be trained and available to print and proof poll books in the compressed timeframe that ensures that voters who requested and / or returned a mail-in ballot are recorded and easily identified.

Complete a more standard and transparent audit using third parties rather than election staff to improve voter confidence. Audit a select number of precincts representative of voter demographic profile from registrations through tabulation to allow for identification of irregularities and recommendations for procedural improvements that protects the integrity of the election. This does not preclude participation in Risk Limiting Audits, or the statutory two percent audit, but rather enhances the local audit process.

Provide an expanded analysis of election results; historical data comparisons; or a Bureau of Elections Annual Report as a tool to improve trust.

Are any of these even in the works? Does the Bureau of Elections oversee you or do you oversee the Bureau of Elections? It looks like the former to me.

Most of these are good recommendations, but using electronic pollbooks is an absolutely disastrous idea - we keep telling you any devices that can be connected to the Internet can & will be used for committing voter fraud (this is why ES&S does not want anyone to inspect their garbage, hackable-by-11-year-olds voting scanners & ballot-marking-devices, and electronic pollbooks).

It'd be nice if you were to reach out to us for advice, as we have knowledge on how horrible these devices (& mail-in ballots) are when attempting to conduct a fair, legal election. But all of us that show up demanding a full forensic audit are convinced you do not care about the voters of Butler County, who you swore an oath to serve with fidelity.

And of course, none of your recommendations are of any good if you refuse to act on them. Did you even bother to read any of the many Left-wing articles or watch the videos I sent all of you about how vulnerable ALL of these electronic voting machines are?

Just one more reminder that it is your duty to serve the citizens of Butler County with fidelity, as you swore in your oaths of office. We trusted you to live up to that oath & I do not see that you are taking that oath seriously enough.

I suggest you read the Pennsylvania Constitution, the United States Constitution & research the Doctrine of the Lesser Magistrate in order to fully understand your role & duty to your fellow citizens.

Thanks, Zach Scherer

Intelligence Agencies have confirmed that our election systems are a target for foreign adversaries, yet election vendors continue to sell equipment with known vulnerabilities

The Ranking Members of the Senate Rules, Intelligence, Armed Services, and Homeland Security Committees are requesting information about the security of voting systems

WASHINGTON – U.S. Senator Amy Klobuchar (D-MN), Ranking Member of the Senate Rules Committee with oversight jurisdiction over federal elections, sent a letter to the country's three largest election system vendors with questions to help inform the best way to move forward to strengthen the security of our voting machines. In the U.S., the three largest election equipment vendors—Election Systems & Software, LLC; Dominion Voting Systems, Inc.; and Hart InterCivic, Inc.—provide the voting machines and software used by ninety-two percent of the eligible voting population. However, voting and cybersecurity experts have begun to call attention to the lack of competition in the election vendor marketplace and the need for scrutiny by regulators as these vendors continue to produce poor technology, like machines that lack paper ballots or auditability.

The Threat

“The exploitation of key supply chains by foreign adversaries—especially when executed in concert with cyber intrusions and insider threat activities—represents a complex and growing threat to strategically important U.S. economic sectors and critical infrastructure...”

SEB FOLTZ/BUTLER EAGLE

RALLY FOR UNITY

Views aired at Diamond Park event

By Nathan Bottiger, Eagle Staff Writer

Hundreds gathered during a sunny Sunday afternoon in Butler's Diamond Park in the hopes of making their voices heard.

Attendees milled about in patriotic apparel, some featuring the American flag while others appeared in derogatory messaging about President Joe Biden. A few individuals donned tactical equipment and holstered pistols.

"I'm hoping this opens some eyes," said Tyler Campbell of Cabot.

Campbell said he took a particular interest in the results of the 2020 election, and he believes there should be an audit, a common theme of the event.

"My family is split in half on this," he said. "I'd like for my family to be on one side."

There were food trucks, shirt vendors and other activities to spend time with between speakers and lining the street with signs. Many of the signs demanded to know "the truth" about the election.

Zach Scherer of Chicora helped his organization, the Butler PA Patriots, introduce speakers throughout the evening.

Scherer claims there is evidence

See Rally, Page 5

Rally

From Page 1

showing discrepancies in Butler County election results. He said he and his colleagues have spoken at Butler County commissioners meetings, and commissioners have disregarded their requests for an audit of the county's election results.

"There were issues across Butler County," he said.

There have not been any proven accounts of widespread voter fraud in Pennsylvania.

Scherer said even though an audit may not change much in Butler County, which voted heavily in favor of Trump, it may impact some of the local races, and it would set a precedent for other counties wanting similar audits across the state.

With traffic flowing full-strength past the downtown location, the messaging received many honks of approval every five seconds or so. Some visitors came from Allegheny County, like Victoria Hall and Cindy Haley, both of Gibsonia.

"We need to know there is unity," Hall said. "We need the strength in numbers."

Both women were particularly concerned with the government's decisions regarding the COVID-19 pandemic. Haley said she didn't attend the event for former President Donald Trump's sake.

"This has nothing to do with Trump," Haley said. "It has to do with constitutional rights."

Though topics ranged amidst the speakers, the two heavily favored topics included the audit on the 2020 election results and the mask mandate in schools issued by state Acting Secretary of Health Alison Beam.

Bill Halle, a school board member for the Butler Area School District, said he and his colleagues have taken a pro-choice approach, but other schools have not.

"If the school district is choosing to do that, they are choosing to do that of their own accord," he said. He encouraged people to get active at school board meetings and run for open positions.

There did not appear to be a presence from local police or law enforcement agencies for the event. Most participants largely stayed within the park throughout the rally with brief periods where people lined Main Street with posters and flags.

SEB FOLTZ/BUTLER EAGLE

Protesters try to get cars to honk at Sunday's America First Rally in Diamond Park. Speakers called for election audits, criticized masking and vaccination policies, and called for Americans to fight to protect their freedoms.

Subject: Meeting move request.
Date: Friday, August 27, 2021 1:26:26 PM

Hi Leslie, I'd like to request that the next commissioners meeting be held in a larger room, and if need be another building to accommodate needing a larger room. We cannot have maximum capacities in these meetings, and make people wait outside of the room until a seat opens up. We would like this effective September 1st 2021. Also we would like to bring up the fact that having the meetings in the mornings makes a lot of people in able to attend, we would like to request that the meetings are moved into the evening to accommodate everyone. Thanks.

Date: Thursday, September 8, 2022 3:35:38 PM

A town hall meeting is coming to our area, with former U.S. Senator Rick Santorum, to discuss Election Integrity in Pennsylvania. There will also be discussion about the Constitution's solution - in Article V - to federal overreach that is hurting Pennsylvania's economy and taking away jobs.

As your constituent, I'm asking you to make plans to attend. Here is all the information:

Meadville: Friday, Sept. 9th at 7:00 p.m.
Meadville Italian Civic Club, 869 Water Street

Beaver: Saturday, Sept. 10, 3:00 p.m.
Irvine Park, 799 Corporation Street

Houston: Saturday Sept. 10th, 7:00 p.m.
American Legion, 48 Western Avenue

Date: Sunday, January 30, 2022 6:53:37 AM

Hello,

A recent press release in the Butler Eagle showed County Commissioners and Elections Director, Aaron Sheasley, exchanging emails about major problems with ES&S voting machine software subtracting votes without knowing why.

These recent discoveries provide concern that Butler County voting practices are not the most sacred, secure, and transparent. ES&S voting machine software and hardware cannot be trusted, and I am demanding an audit of the machines, an immediate removal of the use of voting machines in the county, a return to paper ballots being counted at the precinct level, and NO electronic poll books.

It is also concerning that this information about the software subtracting votes was swept under the rug and not made public. Failure to take action to halt the use of voting machines and not initiate a full forensic audit will imply you are complicit with this activity. I demand you take action, or you will be asked to resign and replaced with new leaders who will make it a priority to secure our elections.

Thank you.

Hey Leslie, just wanted to reach out, from the sounds of things, I feel like you and Kim think I am planning, organizing etc all of these efforts for an audit, etc in butler county. Or in lack of other words being pinned behind it, just want to clear some things up. (Not even sure if you guys think this) First I have been helping people who want to take these measures into consideration in providing emails, phone numbers, or whom to contact, or speak too regarding their thoughts on these issues, I do support some of the efforts, but just wanted to let you know neither Ed or I are the “masterminds” behind all of this stuff going on and coming up in Butler County,

Thanks Zach

All,

On behalf of Senator Dush please accept our sincere gratitude for your willingness to come before the Committee on such short notice. Everyone has been gracious and helpful and we are looking forward to meeting all of you. Joseph Faust has asked me to assist with your arrival tomorrow so this email is an attempt to make the morning as smooth as possible.

I will be positioned at the State Street entrance to the Capital Bldg just behind security. For those who haven't met me, I'll be the poorly dressed bearded man with a Red Badge on my jacket pocket.

We would recommend arrival at the security entrance around 0925. The process is straight forward and should present no issues. If one should arise, I'll be there to sort it out.

Once we get everyone together I'll escort the group to Senator Dush's office where we can collect ourselves until it is time to head to the hearing.

Parking on State Street is usually available (metered) and it is a short distance right up the steps.

Should anyone have any questions or issue please feel free to contact me on my cell listed below.

The Threat

The Threat

“Without effective security processes and practices throughout the life cycle of a system, intentional and unintentional vulnerabilities can be placed into systems. The systems may then be exploited by attackers who insert malicious content, capture data, or take other advantages, resulting in untrustworthy products or services, unanticipated failure rates, or compromise of federal missions and information”

- NIST Information Technology Bulletin, June 2015

<https://csrc.nist.gov/CSRC/media/Publications/Shared/documents/itl-bulletin/itlbul2015-06.pdf>

The Threat

“The exploitation of key supply chains by foreign adversaries—especially when executed in concert with cyber intrusions and insider threat activities—represents a complex and growing threat to strategically important U.S. economic sectors and critical infrastructure...”

ES&S Dominion Unisyn ClearBallot Gp	Dell
Hart InterCivic	HP

37

Intelligence Agencies have confirmed that our election systems are a target for foreign adversaries, yet election vendors continue to sell equipment with known vulnerabilities

The Ranking Members of the Senate Rules, Intelligence, Armed Services, and Homeland Security Committees are requesting information about the security of voting systems

WASHINGTON – U.S. Senator Amy Klobuchar (D-MN), Ranking Member of the Senate Rules Committee with oversight jurisdiction over federal elections, sent a letter to the country's three largest election system vendors with questions to help inform the best way to move forward to strengthen the security of our voting machines. In the U.S., the three largest election equipment vendors—Election Systems & Software, LLC; Dominion Voting Systems, Inc.; and Hart InterCivic, Inc.—provide the voting machines and software used by ninety-two percent of the eligible voting population. However, voting and cybersecurity experts have begun to call attention to the lack of competition in the election vendor marketplace and the need for scrutiny by regulators as these vendors continue to produce poor technology, like machines that lack paper ballots or auditability.

Zach, with limited time, can you tell me where in these segments there is something worth paying attention to? He spends the first 30 minutes talking about his White House experience. At that point I was tired. We are working on EMS who have no paramedics, manufacturers who are trying to compete and upskill, multiple water and sewer projects, homeless challenges working with Butler Township

Good morning Commissioners; (intending upon reading in the morning)

I hope all is well with everyone, I hope you had time to catch some of Mike Lindell's truth summit event. Some certain things caught my eye while I was there and wanted to share it with you folks. If you didn't watch it go to www.FrankSpeech.com

Please let me know if you have any questions or comments regarding the information posted below.

God Bless;
Zach

Intelligence Agencies have confirmed that our election systems are a target for foreign adversaries, yet election vendors continue to sell equipment with known vulnerabilities

The Ranking Members of the Senate Rules, Intelligence, Armed Services, and Homeland Security Committees are requesting information about the security of voting systems

WASHINGTON – U.S. Senator Amy Klobuchar (D-MN), Ranking Member of the Senate Rules Committee with oversight jurisdiction over federal elections, sent a letter to the country's three largest election system vendors with questions to help inform the best way to move forward to strengthen the security of our voting machines. In the U.S., the three largest election equipment vendors—Election Systems & Software, LLC; Dominion Voting Systems, Inc.; and Hart InterCivic, Inc.—provide the voting machines and software used by ninety-two percent of the eligible voting population. However, voting and cybersecurity experts have begun to call attention to the lack of competition in the election vendor marketplace and the need for scrutiny by regulators as these vendors continue to produce poor technology, like machines that lack paper ballots or auditability.

The Threat

“The exploitation of key supply chains by foreign adversaries—especially when executed in concert with cyber intrusions and insider threat activities—represents a complex and growing threat to strategically important U.S. economic sectors and critical infrastructure...”

Oregon County Suing Voter Integrity Group To Stop Examination Of 2020 Ballots, Admits Systems Can Be Hacked!

Press Room — May 19, 2022

0 0 0 0 0

The state and county are arguing that simply showing the ballot images from the election could somehow compromise the computer systems, and that's why they shouldn't have to show the ballots to the public. **"Even when systems are not directly connected to networks, they are vulnerable to attack through physical or wireless access,"** argues state Attorney General Ellen Rosenblum in her motions, while also saying **"If the Court enters a judgment requiring the release of the ClearBallot database, that judgment would compromise the security of the election systems used in 15 Oregon counties."**

Explain This

784,752 more ballots cast than voters who voted

2000 Mules showed 200k+ ballots illegally cast by mules in Philadelphia alone

72k ballots received late with 38k counted at a minimum

Unreconciled votes (115-120k unreconciled votes from 2020)

16k+ registrations moved out of state at least a month before the election, yet still voted in PA for 2020

Hi Leslie, I'd like to request that the next commissioners meeting be held in a larger room, and if need be another building to accommodate needing a larger room. We cannot have maximum capacities in these meetings, and make people wait outside of the room until a seat opens up. We would like this effective September 1st 2021. Also we would like to bring up the fact that having the meetings in the mornings makes a lot of people in able to attend, we would like to request that the meetings are moved into the evening to accommodate everyone. Thanks.

Thank you for the information. You cannot share this the day before and expect us to be there. Was this last minute? We have the local Republican event tomorrow evening and I have three events already on Saturday. I would love to hear this discussion, but in all cases I committed to constituent organizations here to volunteer my time.

Subject: Please attend this town hall meeting!

A town hall meeting is coming to our area, with former U.S. Senator Rick Santorum, to discuss Election Integrity in Pennsylvania. There will also be discussion about the Constitution's solution - in Article V - to federal overreach that is hurting Pennsylvania's economy and taking away jobs.

As your constituent, I'm asking you to make plans to attend. Here is all the information:

Meadville: Friday, Sept. 9th at 7:00 p.m.
Meadville Italian Civic Club, 869 Water Street

Beaver: Saturday, Sept. 10, 3:00 p.m.
Irvine Park, 799 Corporation Street

Houston: Saturday Sept. 10th, 7:00 p.m.
American Legion, 48 Western Avenue

If other things are coming up, I suggest you send them soon as the days, weekends, and evenings are filling up quickly through Christmas.

Thank you for the information. You cannot share this the day before and expect us to be there. Was this last minute? We have the local Republican event tomorrow evening and I have three events already on Saturday. I would love to hear this discussion, but in all cases I committed to constituent organizations here to volunteer my time.

Good morning, happy Sunday! I have attached below a very good article on a full forensic audit. I urge you to read it!

Thanks
