# Memo

To: Commissioners Court and Election Commission  
 From: Michael Scarpello  
 Date: October 19, 2022  
 Re: Update to DCED Presentation to Commissioners Court

Included below are updates to the DCED presentation to Commissioners Court given on October 4, 2022. The updates reference the slide numbers of the original presentation and are sorted by DCED teams.

1. Management of Teams / Tasks

**On Slide 4** of the presentation, I mentioned how DCED is utilizing a new task tracking tool called EDATE (Election Deadline, Assignment, and Task Engine). In conjunction with that tool, DCED and Dallas County IT have now added more functionality by now utilizing Power BI Reports.

Power BI is a Microsoft tool that pulls data from various sources and creates interactive data visualizations. With this tool, DCED staff no longer have to worry about using inaccurate or obsolete data from spreadsheets that were sent via email. Now, they can pull real time data from a single source of truth using Power BI reports.

2. Voting Sites Team

**On Slide 9** of the presentation, I mentioned a new commemorative election pin that we will be passing out to election workers. The pins have arrived, and we will be delivering 25 pins to the Judge and each Commissioner this week to pass out to your staff and constituents.

**On Slide 9** of the spreadsheet, I discussed how we use analytics to determine the allocations of personnel and equipment. The EV and ED allocation spreadsheets are attached. These spreadsheets are complex and therefore are not easily understandable at first glance. If you'd like, our staff can walk you through the spreadsheet to help you better understand the methodology.

**On Slide 10** of the presentation, I provided a status report on Election Workers. Please see updated numbers below.

Description	Need	Confirmed – October 4	Confirmed - October 15
ED Judges (Presiding & Alt)	912	520	*908
Clerks	2,088	708	2,020
Total	3,000	1,228	2,928
Bonus - Student Clerks	456	337	520

\*Not all have signed up or attended training or submitted their lists of clerks & includes backup judges.

Description	Need	Confirmed – October 15
EV Pres. Election Officer	52	52
EV Alt. Election Officer	52	51
EV Clerks	496	576 (some work shifts)
EV Standby Clerk	TBD	43

**On Slide 11 & 12** of the presentation, I discussed the number of EV and ED locations. At that time, we had confirmed 52 EV locations, that number has not changed. We had also confirmed 456 ED locations. That number has changed and now stands at 463, which is the final number of vote centers to be utilized for this election. The lists of EV and ED locations can be found on our website, or we can send you Excel spreadsheets of the locations.

### 3. Central Count

The presentation did not contain any update from the Central Count team. However, there are two significant developments from that team related to write-in candidates, which are rare in Texas and in Dallas County. I'm told that the last time a write-in candidate appeared on a ballot in Dallas was 2018. This infrequent appearance has caused some confusion for voters and election officials.

#### a. District Judge, 301<sup>st</sup> Judicial District

No candidates filed for this office and as a result, the ballot only contains a write-in line. Included with mail ballots and in the voting booth, there is a "List of Declared Write-In Candidates" that contains the names of three candidates. By law, the party affiliation of those candidates is not listed.

The issue with this situation is that counting these write-in ballots will be difficult and time consuming because the computers cannot count the ballots. As a result, they will be hand-counted by a two-person bipartisan team. EV ballots will be sorted, but not tabulated on November 5<sup>th</sup> and 6<sup>th</sup>. Those ballots will be tabulated and reported at 7 pm on Election Day. ED ballots will be tabulated and counted on election night. The totals for that race will not appear in the normal results website and must be reported in a separate write-in candidate pdf report, which will likely be released well into the morning. The final results for the rest of the races will not be affected.

#### b. There were a high number of declared write-in candidates in Texas this year (10 candidates for 7 offices in Dallas County). At least six counties, including Dallas, missed certain write-in lines for various offices on their mail ballots. As a result, Dallas County had to resend approximately 10,000 ballots to mail ballot voters. Those ballots went out in the mail 2 to 3 days after the original ballot and included clear instructions on what, if anything, the voter needed to do (attached). The law is very clear on how these ballots are handled and an extremely low number of voted ballots are expected to be affected.

While the final effect of this error is substantively insignificant, it does highlight a new weakness in DCED's ballot proofing process related to write-ins. Historically, the Central Count team's existing manager and her team have been the most reliable team within the DCED. As a result, their existing proofing procedures were reviewed to assure the elements to be proofed were included, but the detailed proofing procedures were not rebuilt. The focus of our rebuilding processes has been in more poorly performing areas of the organization. However, this minor, but avoidable error has now moved the total revision of the ballot proofing process to the top of the list of revisions in 2023.

#### c. Reporting times

In addition to the two issues related to write-ins above, a third issue will require a change in the Central Counting station's processes on election night. For the last several elections, we have been reporting EV and mail ballots at 7 pm, and then election night results beginning at 9 pm and then every ½ hour thereafter. Because the election definition for this election is so large and the number of votes is expected to be so high, we expect that it will take much longer for our election software to generate reports. As a result, election night results will be reported at 7 pm, as usual, but then only hourly, rather than every ½ hour beginning at 9 pm.

4. Mail Ballot Team

**On Slide 16** of the presentation, I reported that DCED expected up to 50,000 mail ballot applications, but that we had received only 19,000 applications thus far. As of today, the mail ballots statistics are:

Annual MB Applications (Prior to June 18)	13,990
MB Applications since June 18	9,912
Total	23,902
Rejected applications since June 18	531 (5.3%)
• Stated they were out of county, but address provided was in county	125
• Incorrect or missing SSN/TDL	368
• No reason for app provided	2
• No signature	31
• No SSN or TDL in Voter Reg record	4
• Incomplete application	1

As of yesterday, 1,952 voted mail ballots have been returned.

5. Election Hardware Team

**On Slide 17** of the presentation, I reported that DCED had hired a new Election Hardware Manager, Richard Badgett and that he had been doing a great job in his new role. This is the person whose qualifications were questioned by one of the commissioners during the meeting. The following day, Mr. Badgett submitted his resignation. While politicians and department heads are used to the rough-and-tumble of politics, our line staff is not. We had tremendous difficulty filling the position previously and don't expect to fill it quickly. To finish preparing for the election, we've backfilled the position with a temporary employee from GTS.

6. Election Day Operations

**On Slide 20** of the presentation, I discussed DCED's Election Day operations and field support. Since that meeting, we've added a new Inspectors Hotline, so that County Inspectors can have a more direct line to a dedicated hotline staff member. That hotline member will manage a limited number of inspectors and a corresponding limited number of vote centers.

7. Communications Department

**On Slide 23** of the presentation, I discussed a variety of subjects including increased outreach to the community. As part of that outreach, the voter registration outreach team held multiple events throughout the County on the last day of registration on October 11, 2022. The featured event was a drive-through voter registration drive at our new 1460 Round Table Drive location where we were open from 7 am to midnight. On that day, we received 1,430 voter registration applications.

**On Slide 23** of the presentation, I reported that we would be making some website updates to make navigation of the site easier and information easier to find. Those modifications were implemented on October 18. I also stated that we would be providing a new Rumor Control information page on the website, that page will be inserted by October 20<sup>th</sup>.

8. An updated list of Early Voting Presiding Election Officers and Election Day Judges is attached.

## Calculations for Voting Process

Instructions: Collaborate with the training department to determine how many minutes does it take to insert that number in cell B2. You should also work with the training department to determine the number per day and insert those numbers below. Use this same logic for inserting information related to voting Central Counting to determine data for voting machines and vote tabulator is encouraged. Be sure to ensure the center will be open.

Item	# Min Per Voter	# Voters Per Hour	# Voters Per Day @12 Hours
E-Pollbook	2.5	24	288
Voting Machine	10	6	72
Vote Tabulator	0.33	181.8181818	2181.818182
Voting Machine BS	10	6	72

### Production Rates per Item

How much time does it take to prepare a number of devices / resources? This is used to determine the number in a given timeframe.
