August 31, 2022

Dear Sir/Madam:

Under the Texas Public Information Act, TEX. GOV'T CODE §552.001 *et seq.*, I am requesting copies (unless otherwise specified, in pdf and in csv data format), or in the alternative the opportunity to inspect, all public records relating to the conduct of the November 2020, election for federal, state and local offices. These include, but are not limited to and without limitation:

1. Paper ballots, including in-person, mail-in and provisional in TIF format
2. Report of Mail Ballots Requested, Mailed and Returned with dates for each, all status changes, and exceptions
3. Ballot and Ballot Application Envelopes in PNG, JPG or similar format
4. Full Voter Turnout by Precinct and Full Voter Turnout by Polling Location
5. List of cancellation of mail-in ballots
6. Daily Early Vote Rosters per Texas Election Code Sec. 87.121
7. Election Day Vote Rosters
8. Final Vote Roster submitted to Texas Secretary of State per Texas Election Code Sec. 18.069
9. Ballot Manifest Report (also called Tabulator Batch Report) that includes Timestamps, Tabulators, Batch ID and Ballot Counts for each batch of ballots
10. Full Cast Ballot Images from both precinct and central scanners with metadata
11. Full Cast Vote Records (row-type record of contests, choices, many other variables) and Ballot Review Report (csv, XML, Excel and JSON format if possible) – Sample instructions to do this are appended at the end of this letter
12. Election result certification documents (pdf)
13. Explicit certifications for all hardware and software versions in use during the election and 2019 and 2020 reports to the Texas Secretary of State showing election systems in use prior to/for the subject election (pdf)
14. Tabulation tapes (both precinct and central counting)
15. Election definition files
16. Listing of all voters qualified to vote in the election
17. Logic and accuracy testing results
18. Log files and reports stored on the Election Management System (EMS)
19. Pollbooks
20. Copies of USB drives from all precincts or vote centers and the data on these portable drives with decryption keys as needed
21. USB final counts
22. Chain of custody documents (pdf)
23. Full description of all software updates applied (including date and time) to any election-related system during any part of the election (pdf)
24. All election forms required under Texas Election Code
25. All contracts/agreements with all vendors/others involved with the election in any manner (pdf)
26. Copies of all other public requests to date for CVRs, paper ballots and/or ballot images for this election (pdf)

27. Documents identifying all existing and pending litigation regarding this election (pdf)
28. Documents showing any waivers/election procedure modifications/deviations from the Texas Election Code approved by/received from the Texas Secretary of State (pdf)

As you may be aware, Attorney General Paxton ruled on August 17, 2022, that voted paper ballots are public records under Texas law, reversing prior advisories to the contrary. This would apply to other records, including those listed above, that are generated, distributed, or received in the course of the administration of an election and required to be maintained for at least 22 months pursuant to TEX. ELEC. CODE § 66.058(a) and 52 U.S.C. § 20701. You are hereby advised that the county may not destroy or otherwise impair the availability of the records requested above unless and until this request has been fully satisfied, either through your voluntary compliance or until the conclusion of litigation and subsequent compliance. Thus, you are under an obligation to preserve these records, without regard to otherwise-applicable document retention policies or statutory rights.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$200. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of how elections are administered. This information is not being sought for commercial purposes.

The Texas Public Information Act requires that you "promptly produce" the requested records unless, within 10 days, you have sought an Attorney General's Opinion. If you expect a delay in responding to this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption you believe justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Thank you for your attention to this request. **Please direct all replies to AFTERProjectTX@gmail.com.**

Mike Wallis

Instructions for Hart and ES&S system users for CVR generation
TX AG Paxton Opinion No KP-0411 Whether a legislator or a member of the public may inspect or obtain copies of anonymous voted ballots

Instructions for Hart and ES&S system users to CVR generation

CVR Generation for Hart:

1. Login, click on icon that says "count"
2. Click on Election Tab, then Election, then County Name.
3. bottom right-hand corner, click on open. (this takes you to the task tab) Click on "Election Night". On Top Right hand "Actions" click on Open.
4. New screen, at the top "results" click on results. on the menu to the left at the bottom click on "Auditing Dashboard".
5. Bottom Right 1. CVR per page or Multiple CVR per page. Choose Multiple CVR's, then export CVR's to a USB jump drive and attach to an email.

CVR Generation for ES&S:

2 different sets of instructions

FIRST

Some reports indicate that you need to do the Produce module commands first. Export the ballots as a whole block. Next open that file to see the tools menu. Then you can export just the CVR.

1. On the Election Systems and Software EMS computer, open Electionware.
2. Under the Modules menu, select Results, then Produce.
3. (this assumes that the ballots are already stored in the CLCT Data folder from the previous election)
4. Filter, select all types, click Apply Filter at the bottom left.
5. Switch tabs to the Table View or Ballot Table View tab
6. Click on Export, then save file as an .xlsx or CSV file.
7. Open the newly created .xlsx file
8. From the Tools menu select Export Cast Vote Records
9. from the export window, select the names of the contests
10. Select location to save file
11. Please name the file [County-name]_CVR PIRRequestIDAssignedbyCounty

SECOND

1. Tools —> Export Cast Vote Record
2. Produce Module > Ballots - Table View > set filter to "all" > Export

Please note that the file may only allow 20K records to be exported at one time so it may require multiple exports depending on the number of records.

This report includes the following fields: Unique ID for each CVR, Tabulator ID/name/number, Batch ID/name/number, Ballot position within a batch imprinted ID (if applicable), Record of which vote or mark for every contest on each ballot which should contain the name of the contest, candidate, and vote/mark (or override if applicable). Over- and under-vote selections should be used as appropriate.

CAUTION: This email is from OUTSIDE Travis County. Links or attachments may be dangerous. Click the Phish Alert button above if you think this email is malicious.

This request is for information from the General Election held on NOVEMBER 3, 2020

PART 1:

I am requesting a text, comma, or tab delimited file, or a text-based report, listing, in the sequence processed by the county, every ballot, its sequential ID, its timestamp, its method of voting (for example: in-person, mail-in, provisional, absentee, "other", etc. – any and all ballots that were tabulated as part of the 2020 General Election), the specific votes contained for all races, and the batch ID and tabulator ID. Should any fields not be available, please include the fields which are.

I am NOT requesting a summary report of votes, I am requesting a per-ballot report. This set of information is sometimes known as a "Cast Vote Record" (CVR), "ballot log", or a "summary of ballots". If the data exists as multiple files or reports, for instance by batch or by precinct, you do not need to aggregate them, please send the individual files. I specifically do NOT want any information that identifies a specific voter, and I guarantee and stipulate that this information will not be used for that purpose.

A report of this type would have very likely already been created when Travis County audited their election results. If not, and you are not readily familiar with how to generate this report, you can refer to the instructions outlined in the ES&S Electionware Volume V Results User's Guide. You will find the relevant information begins on page 37. Simply select choices for ALL records.

I am hopeful that there is someone within the Elections Division of the Travis County Clerk who will be able to generate the report I am looking for.

Since this request is for information that will be used for educational purposes, and is NOT INTENDED FOR COMMERCIAL USE, I would like to also respectfully request that any fees be waived. Ideally, I would like to receive the reports by email or other electronic transmission method. However, if the data files are too large, and must be copied to a USB drive, I will happily supply the necessary device to the county in order to make that happen.

Thank you in advance for your assistance with my request.

Sincerely,

--

Subject: [CAUTION EXTERNAL] Public Document Request for ES&S Electionware Systems Travis

CAUTION: This email is from OUTSIDE Travis County. Links or attachments may be dangerous. Click the Phish Alert button above if you think this email is malicious.

Good afternoon Ms. Guerrero,

I am writing to request several documents from the November 2020 General Election. Although our reading of the law indicates that these documents should be available to the public at any time, there is no doubt that they should be made available upon the expiration of the 22-month preservation period. This request is for the following documents to be provided as quickly after the expiration of that period as possible (September 3, 2022).

I am requesting the Cast Vote Records from your Election Management Server. Some jurisdictions are not familiar with how to export the report so I have included some instructions below that you may find helpful. We are requesting this report to contain all available fields and be provided in a .CSV or Excel usable format. Some versions may be able to export in a JASON format and that would be ideal if available. Please include the over/under vote information.

I am also requesting the Ballot Images that were captured by both your precinct and central scanners.

Instructions for exporting the CVR's are below as well as included as an attachment. These have been provided by clerks around the country. There does seem to be some variation in the procedure that may be due to different software versions. If you are familiar with the process, my apologies for being elemental, but we have found that some counties are not aware of the process.

Instructions:

Some reports indicate that you need to do the Produce module commands first. Export the ballots as a whole block. Next open that file to see the tools menu. Then you can export just the CVR.

On the Election Systems and Software EMS computer, open Electionware.

Under the Modules menu, select Results, then Produce.

(This assumes that the ballots are already stored in the CLCTData folder from the previous election)

Filter, select all types, click Apply Filter at the bottom left.

Switch tabs to the Table View or Ballot Table View tab

Click on Export, then save file as an .xlsx or CSV file.

Open the newly created .xlsx file

From the Tools menu select Export Cast Vote Records

from the export window, select the names of the contests

Select location to save file

Name file `_[county][state]CVR PIR_Request`

From another clerk, these are slightly different.

- Tools —> Export Cast Vote Record
- Produce Module > Ballots - Table View > set filter to “all” > Export

Please note that the file may only allow 20K records to be exported at one time so it may require multiple exports depending on the number of records.

This report includes the following fields: Unique ID for each CVR, Tabulator ID/name/number, Batch ID/name/number, Ballot position within a batch imprinted ID (if applicable), Record of which vote or mark for every contest on each ballot which should contain the name of the contest, candidate, and vote/mark (or override if applicable). Over- and under-vote selections should be used as appropriate."

Please reach out if we can provide further information,
Thank you so much for your prompt response to this request.

Sincerely,

Heidi Gunvaldson

I am resubmitting my request for the following information given the AG's Opinion No. KP-0411 on public access to election information before the end of the 22 month retention period;

- 1) Cast Vote Record for the L22 election (including date/time stamp)
- 2) The date and time stamp for the G20 and P22 election Cast Vote Records (this was not included in the CVR data I received previously.
- 3) Explanation of when/what part of the elections process a CRV number is assigned to a vote record (when a voter inserts their ballot in the scanner, when the thumb drives are downloaded at Central Count, when thumb drive tallies are tabulated at Central count, etc).

CVR specifics: a text, comma or tab delimited file, or a text-based report, listing, in the sequence processed by the county, every ballot, it's sequential ID, its timestamp, its method of voting (early in person, absentee, mail-in, in person – whichever apply to the county), the specific votes contained for all races, and the batch id and tabulator id.

Ms. Baron,

Thank you for your new request.

We delivered 2020 General Election (G20) and 2022 Joint Primary Election (P22) Cast Ballot records to you last month in error. The TX SOS has generally treated electronic records of ballots in the same manner as the physical paper records. The records are subject to the same 22-month retention period as the physical paper records.

That said, we have already provided you with all the information you need to satisfy your July 8, 2022 request for additional G20 and P22 records by scrolling right on the appropriate spreadsheets previously delivered.

Regarding your request for 2022 Local Election (L22) data, the records you seek are not available until on or about March 7, 2024 after the 22-month retention period has expired.

Kind regards,

I am requesting the Ballot Manifest Report (also known as the Tabulator Batch Report) for all ballots included the tabulation of the results of the Nov. 3, 2020 general election, the 2022 Primaries and the May 7 2022 local election. This report should include the information that specifies the method by which each ballot was cast. (ie: in-person, by-mail, provisional, absentee, etc.) I am hopeful that there is someone within the Travis County Elections Office who will be able to generate the reports I am looking for. Since this request is for information that will be used for educational purposes, and is NOT INTENDED FOR COMMERCIAL USE, I would like to also respectfully request that any fees be waived.

Ideally, I would like to receive the reports via electronic transmission. However, if the data files are too large, and must be copied to a USB drive, I will happily supply the necessary device to the county in order to make that happen.

I would like to thank you in advance for your assistance with my request.
