Re. Right-to-Know Request, dated April 26, 2024
Request No. 2024-060

May 30, 2024

Dear Loree Stark,

Thank you for writing to Butler County Open Records with your request for records pursuant to Pennsylvania's Right-to-Know Law ("RTKL"), 65 P.S. §§ 67.101 et seq. On April 26, 2024, the County received your request for email communications dealing with elections, involving 50 named parties and 19 key words, sent and/or received between May 1, 2023 and April 29, 2024 (the date the search process was initiated).

On May 2, 2024, pursuant to Section 902(a) of the RTKL, the County provided notice that an additional 30 days were required to respond.

Based on a thorough search of records in the possession, custody, or control of the County, and based on legal review of said records, the Request is granted in part and denied in part, for the reasons and in the manner set forth here:

With respect to the portion of the Request seeking "All email communications (including emails, email attachments, complete email chains, calendar invitations, and calendar invitation attachments) between (a) any of the officials listed [...], and (b) any of the external entities and individuals listed [...], and anyone communicating on their behalf (including, but not limited to, at the listed email addresses and domains)" the Request is denied, as permitted by Section 705, as no records exist. As a courtesy, I note that 63 items constituting initial mailings of news clips or other mass-distribution emails were excluded from consideration, at your request. No additional responsive emails were found for this portion of the Request.

With respect to the portion of the Request seeking "All email communications (including emails, email attachments, complete email chains, calendar invitations, and calendar invitation attachments) sent by any of the officials listed above in part 1 and containing any of the key terms listed," that portion is granted in part and denied in part. Certain emails and attachments are protected by the attorney-client privilege and/or the attorney work-product doctrine, and as such are not public records under the RTKL. See 65 P.S. § 67.102 ("Privilege." The attorney-work product doctrine, the attorney-client privilege, the doctor-patient privilege, the speech and debate privilege or other privilege recognized by a court interpreting the laws of this Commonwealth; "Public Record": A record, including a financial record, of a Commonwealth or local agency that . . . is not protected by a privilege"). Additionally, the presumption that records in the possession of the County are public records does not apply to any records protected by privilege. See 65 P.S. § 67.305(a)(2). See also 65 P.S. § 67.506(c), stating that if a record is protected by a privilege, the County cannot exercise its discretion to release an otherwise exempt record).

Additionally, 2 records were found to contain private citizens' addresses, and full dates of birth, which the County finds no public benefit in disclosing. Accordingly, this information is being withheld, in accordance with the right to privacy afforded by the PA Constitution, from two otherwise responsive files that are being provided.

Two attachments were found to have been created by or for a court of the Commonwealth or any other entity or office of the Unified Judicial System, and are therefore not the County's records to provide. Case records can be requested from judicial records custodians pursuant to the Unified Judicial Systems Public Access Policy. More information can be found at <http://www.pacourts.us/public-records/public-records-policies>

As permitted by 708(b)(6)(i), qualifying personal identification information has been redacted from otherwise responsive emails and/or attachments.

Responsive files with are available here: https://butlercountypagov-my.sharepoint.com/:f/g/personal/mvickles_co_butler_pa_us/Ei8udy2AQzVJgf91X-ukKkkBM1Jn1bdAmvdwTsNp0dg0RA?e=7nShVm

You have a right to appeal this denial in writing to: Office of Open Records, 333 Market St., 16th Floor, Harrisburg, PA 17101-2234. Appeals can also be filed online at the Office of Open Records website, <https://www.openrecords.pa.gov>.

If you choose to file an appeal you must do so within 15 business days of the mailing date of the agency's response. See 65 P.S. § 67.1101. Please note that a copy of your original Right-to-Know request and this denial letter must be included when filing an appeal. More information about how to file an appeal under the RTKL is available at the Office of Open Records website, <https://www.openrecords.pa.gov>.

Please be advised that this correspondence will serve to close this record with our office as permitted by Law. If you have any questions or concerns, please do not hesitate to contact me at the office. Thank you.

Good afternoon,

Thank you for reaching out again. Per our previous email responses to you, there is a large request in front of you that we are currently working on fulfilling. Those responses were dated March 6th and March 14th but they appear to be missing from your chain below. If you did not receive those responses, they can be re-sent to you. As we mentioned before, requests are fulfilled in the order in which they are received. As such, the previous request will be fulfilled before your request.

Please keep in mind that the 2024 Presidential Primary Election (the biggest election since 2020) is less than a month away and the Election Bureau is responsible for planning and overseeing the elections in Butler County.

As I'm sure you understand and appreciate, this monumental election has to take up the majority of our resources. We need to ensure an accurate election for all Butler County voters. In order to do this, we process one request at a time around our priority duties (conducting an appropriately staffed, accurate and fair election in 96 precincts countywide as well as maintaining the voter rolls for over 137,000 voters). This takes a considerable amount of time and effort.

We will reach out once we can move forward with your request.

Thank you for your time and understanding in this matter.

Thank you in advance on the status update.

Do hope the time is taken to read through the attached, as well, regarding Pennsylvania (found the other states interesting too).

Good afternoon,

Thank you for submitting your request for information. Your request has been partially approved and partially denied. The Bureau of Elections has record of Judge of Elections, Majority Inspectors, and Minority Inspectors because they are elected or appointed positions. Clerks are not selected by the Election Bureau. Requests are processed in the order they were received. There is currently one large request ahead of yours. However, due to the high election load your request fulfillment may be delayed. Regular workflow resumes after certification of an election, which may take up to thirty (30) days. We will contact you when the information is ready for pickup.

Let us know if you have any questions, thank you.

Chantell,

Please see the email chain below regarding the Right to Know, which was submitted and 'denied'.

The Registered Elector Request form has been completed and signed (2nd attachment).

Is it possible to submit this request via email, with an EXCEL/PDF document of the requested info provided electronically, in lieu of hard copies (in this manner it is costing the taxpayers nothing to obtain, and saving your office time and paper)?

Will wait your response before walking this to the Elections Bureau.

Thank you.

Re: Right-to-Know Request, dated March 4, 2024

Request No. 2024-041

March 5, 2024

Dear Lori Maihle,

Pursuant to Pennsylvania's Right-to-Know Law ("RTKL"), 65 P.S. §§ 67.101 et seq., on March 1, 2024, Butler County Open Records received your Request for names of all Judges of Elections, Majority Inspectors of Elections, Minority Inspectors of Elections, and all Clerks in all precincts in Butler County.

The Request is denied, for the reasons set forth below.

The Butler County Bureau of Elections has informed me that the records you are describing, if they exist, would be records that are subject to inspection by qualified electors pursuant to the Pennsylvania Election Code (25 P.S. § 2648), the Pennsylvania Voter Registration Act (25 Pa.C.S. § 1101, et seq.), and/or applicable regulations, and therefore must be requested directly from the Bureau of Elections. Access to such records is not available through the RTKL. See 65 P.S. 67.3101.1. and *Butler County v. Cornetti*, Butler Cnty Ct. Com. Pl., AD No. 2022-10259 (Memorandum Opinion dated September 30, 2022).

Accordingly, I refer you to the Butler County Bureau of Elections, which utilizes a separate process for administering access to records governed by the laws and/or regulations cited above. More information for requesting information from the Bureau of Elections is available on [that office's webpage](#).

You have a right to appeal this denial in writing to: Office of Open Records, 333 Market St., 16th Floor, Harrisburg, PA 17101-2234. Appeals can also be filed online at the Office of Open Records website, <https://www.openrecords.pa.gov>.

If you choose to file an appeal you must do so within 15 business days of the mailing date of the agency's response. See 65 P.S. § 67.1101. Please note that a copy of your original Right-to-Know request and this denial letter must be included when filing an appeal. More information about how to file an appeal under the RTKL is available at the Office of Open Records website, <https://www.openrecords.pa.gov>.

Please be advised that this correspondence will serve to close this record with our office as permitted by Law. As always, if you have any questions or concerns, please do not hesitate to contact me at the office. Thank you.

The next thing would be the audits. One is a random selection from the state so we won't know if we're chosen to participate yet and the other is the 2% statistical audit which is this Friday at 9am. You aren't required to attend. We just draw ballots and re-run them through the machine to make sure we get the same numbers and then fill out a form. It starts at 9am and takes approximately 30 minutes to complete. After that, we wait for the Department of State to let us know if there is a recount. If not, the election is certified and we move on to work towards next year. I believe the next board meeting will be with the original board, not the appointed board sometime after their swearing in ceremony at the end of the year.

So, do I have any more duties as the Republican Party's designated rep? I would love to sit in on an Election Board meeting or something in order to gather more information (and, complain a little).

Please let me know. Thank you so much!

1. Which ballots still need counted? How many of those ballots are there? How many provisional ballots were cast?
 - 154 provisionals and about 30 absentee/mail-in ballots
2. When will results be finalized? What goes into that process?
 - The results will be made official by the Department of State. We will submit our results with the provisionals and computation board evaluations on 11/14. There is a five day challenge period starting on that date before we then submit a second set of papers to the Department of State. They will decide whether there needs to be a recount in any statewide race using those numbers from all counties.
3. Anything else I should know?
 - Please keep in mind that all results on the website are Unofficial and are subject to change as the computation board evaluates the remaining ballots.

Hello,

This message is for Chantell.

Could you please take some time today to answer these questions about yesterday's election?

1. Tell me about voter turnout. What was turnout at yesterday's election? How did this compare to previous November elections? How does this compare to Primary Elections? Anything noteworthy about the turnout at this race/at certain precincts? How do you think it will compare to next November's turnout?

2. How did Election Day go at the polling stations and at the office? What issues, if any, came up? How were those resolved?
3. Those results came in fast. Tell me about the efforts that go into reporting election results to the public? What allows that to go smoothly? What if anything was challenging yesterday evening?
4. Which precinct was first to report? Last?
5. Which ballots still need counted? How many of those ballots are there? How many provisional ballots were cast?
6. When will results be finalized? What goes into that process?
7. Anything else I should know?

As of Tuesday evening, state House lawmakers had proposed 16 amendments to the primary bill.

One of the amendments, from state Rep. Malcolm Kenyatta (D., Philadelphia), represents a laundry list of election reforms, many of which tackle gray areas around mail ballots that have been debated in the courts.

Included is the most sought-after change for counties: three days of pre-canvassing. County officials have advocated for more time to process mail ballots before Election Day since Pennsylvania’s no-excuse mail voting law greatly expanded their responsibilities a few years ago.

The amendment also provides a more specific definition for pre-canvassing, which it defines as unfolding and straightening out mail ballots, and putting them through tabulators. Those tabulators, which scan ballots and record each vote, could not be used to total those votes ahead of polls closing on Election Day.

Kenyatta’s proposal would also remove existing requirements for voters to date outer mail ballot envelopes and to return such ballots in an inner secrecy envelope.

The measure would require counties to notify voters of disqualifying mail ballot errors. **The proposed language goes as far as requiring county election offices to send an employee to the home of a voter who cast a flawed ballot if they do not respond to a call, text, or email.**

Already done, I just found out. Now reported from committee by a 13-12 vote to go to the House floor.

For what it's worth, I expect the Senate bill to be amended on the House floor, not passed as currently written.

I have referred him to them multiple times. This last time I indicated that he could contact our office if he's a registered elector of our county but he would have to fill out our request form. I have yet to receive a response from him. I think he's sent at least 3 separate requests.

You are correct that you do not have to create something that does not exist. Be aware that if you let this individual look at them you may either have to redact them for them or make them sign a statement that they will not use the information for anything but an election purpose and not share any information that they receive. If they violate anything you make them sign and you find out about it you would have to sue for them to stop. Just giving my 2cents worth on Friday. matthew

With a request like this....we aren't required to supply something that does not exist. I don't have electronic copies of what they are asking for. But I do have boxes of envelopes.

Can't we just offer to let them come in and look at the boxes of envelopes if that's what they want to see?

I'm not trying to be difficult here. And if the election were a few weeks ago, I'd probably have envelopes sorted and set aside in my vault still where I could get them. In that case, scanning would be time consuming but not the end of the world. But when they want to see 5+ elections worth of specific envelopes...

Those are now all sealed up in boxes offsite. Things are mixed together. And the scope of the request predates literally every employee that we currently have, myself included. If a resident of

the County wants to stop in and look through the boxes, I want to be helpful. But if they want us to sort stuff and scan it from years ago, do we really have to do that?

I think everyone should do the 30 day extension. This will give everyone time to let the solicitors and Right to know person decide what is the proper response. Maybe we can even come up with a Statewide response.

As far as Computation Board, I will look into the delay but I may just have them re-issue you a check for that as well since they're issuing you a check for Election Day today. The recount went about as well as could be expected. We got it done.

Good afternoon,

Thank you for reaching out again. Per our previous email responses to you, there is a large request in front of you that we are currently working on fulfilling. Those responses were dated March 6th and March 14th but they appear to be missing from your chain below. If you did not receive those responses, they can be re-sent to you. As we mentioned before, requests are fulfilled in the order in which they are received. As such, the previous request will be fulfilled before your request.

Please keep in mind that the 2024 Presidential Primary Election (the biggest election since 2020) is less than a month away and the Election Bureau is responsible for planning and overseeing the elections in Butler County.

As I'm sure you understand and appreciate, this monumental election has to take up the majority of our resources. We need to ensure an accurate election for all Butler County voters. In order to do this, we process one request at a time around our priority duties (conducting an appropriately staffed, accurate and fair election in 96 precincts countywide as well as maintaining the voter rolls for over 137,000 voters). This takes a considerable amount of time and effort.

We will reach out once we can move forward with your request.

Thank you for your time and understanding in this matter.

Good afternoon,

Thank you for submitting your request for information. Your request has been partially approved and partially denied. The Bureau of Elections has record of Judge of Elections, Majority Inspectors, and Minority Inspectors because they are elected or appointed positions. Clerks are not selected by the Election Bureau. Requests are processed in the order they were received. There is currently one large request ahead of yours. However, due to the high election load your request fulfillment may be delayed. Regular workflow resumes after certification of an election, which may take up to thirty (30) days. We will contact you when the information is ready for pickup.

Re: Right-to-Know Request, dated March 4, 2024

Request No. 2024-041

March 5, 2024

Dear Lori Maihle,

Pursuant to Pennsylvania's Right-to-Know Law ("RTKL"), 65 P.S. §§ 67.101 et seq., on March 1, 2024, Butler County Open Records received your Request for names of all Judges of Elections, Majority Inspectors of Elections, Minority Inspectors of Elections, and all Clerks in all precincts in Butler County.

The Request is denied, for the reasons set forth below.

The Butler County Bureau of Elections has informed me that the records you are describing, if they exist, would be records that are subject to inspection by qualified electors pursuant to the Pennsylvania Election Code (25 P.S. § 2648), the Pennsylvania Voter Registration Act (25 Pa.C.S. § 1101, et seq.), and/or applicable regulations, and therefore must be requested directly from the Bureau of Elections. Access to such records is not available through the RTKL. See 65 P.S. 67.3101.1. and *Butler County v. Cornetti*, Butler Cnty Ct. Com. Pl., AD No. 2022-10259 (Memorandum Opinion dated September 30, 2022).

Accordingly, I refer you to the Butler County Bureau of Elections, which utilizes a separate process for administering access to records governed by the laws and/or regulations cited above. More information for requesting information from the Bureau of Elections is available on [that office's webpage](#).

You have a right to appeal this denial in writing to: Office of Open Records, 333 Market St., 16th Floor, Harrisburg, PA 17101-2234. Appeals can also be filed online at the Office of Open Records

website, <https://www.openrecords.pa.gov>.

If you choose to file an appeal you must do so within 15 business days of the mailing date of the agency's response. See 65 P.S. § 67.1101. Please note that a copy of your original Right-to-Know request and this denial letter must be included when filing an appeal. More information about how to file an appeal under the RTKL is available at the Office of Open Records website, <https://www.openrecords.pa.gov>.

Please be advised that this correspondence will serve to close this record with our office as permitted by Law. As always, if you have any questions or concerns, please do not hesitate to contact me at the office. Thank you.

I'm hoping that while the 'larger' request is being fulfilled (which I'm curious as to what type of request this would be), that there is a staff member who would be able to quickly provide the information I've requested.

Thank you in advance on the status update.

Do hope the time is taken to read through the attached, as well, regarding Pennsylvania (found the other states interesting too).

Good afternoon,

Thank you for submitting your request for information. Your request has been partially approved and partially denied. The Bureau of Elections has record of Judge of Elections, Majority Inspectors, and Minority Inspectors because they are elected or appointed positions. Clerks are not selected by the Election Bureau. Requests are processed in the order they were received. There is currently one large request ahead of yours. However, due to the high election load your request fulfillment may be delayed. Regular workflow resumes after certification of an election, which may take up to thirty (30) days. We will contact you when the information is ready for pickup.

Let us know if you have any questions, thank you.

Chantell,

Please see the email chain below regarding the Right to Know, which was submitted and 'denied'.

The Registered Elector Request form has been completed and signed (2nd attachment).

Is it possible to submit this request via email, with an EXCEL/PDF document of the requested info provided electronically, in lieu of hard copies (in this manner it is costing the taxpayers nothing to obtain, and saving your office time and paper)?

Will wait your response before walking this to the Elections Bureau.

Thank you.

Re: Right-to-Know Request, dated March 4, 2024

Request No. 2024-041

March 5, 2024

Dear Lori Maihle,

Pursuant to Pennsylvania's Right-to-Know Law ("RTKL"), 65 P.S. §§ 67.101 et seq., on March 1, 2024, Butler County Open Records received your Request for names of all Judges of Elections, Majority Inspectors of Elections, Minority Inspectors of Elections, and all Clerks in all precincts in Butler County.

The Request is denied, for the reasons set forth below.

The Butler County Bureau of Elections has informed me that the records you are describing, if they exist, would be records that are subject to inspection by qualified electors pursuant to the Pennsylvania Election Code (25 P.S. § 2648), the Pennsylvania Voter Registration Act (25 Pa.C.S. § 1101, et seq.), and/or applicable regulations, and therefore must be requested directly from the Bureau of Elections. Access to such records is not available through the RTKL. See 65 P.S. 67.3101.1. and *Butler County v. Cornetti*, Butler Cnty Ct. Com. Pl., AD No. 2022-10259 (Memorandum Opinion dated September 30, 2022).

Accordingly, I refer you to the Butler County Bureau of Elections,

which utilizes a separate process for administering access to records governed by the laws and/or regulations cited above. More information for requesting information from the Bureau of Elections is available on [that office's webpage](#).

You have a right to appeal this denial in writing to: Office of Open Records, 333 Market St., 16th Floor, Harrisburg, PA 17101-2234. Appeals can also be filed online at the Office of Open Records website, <https://www.openrecords.pa.gov>.

If you choose to file an appeal you must do so within 15 business days of the mailing date of the agency's response. See 65 P.S. § 67.1101. Please note that a copy of your original Right-to-Know request and this denial letter must be included when filing an appeal. More information about how to file an appeal under the RTKL is available at the Office of Open Records website, <https://www.openrecords.pa.gov>.

Please be advised that this correspondence will serve to close this record with our office as permitted by Law. As always, if you have any questions or concerns, please do not hesitate to contact me at the office. Thank you.

Good afternoon,

Thank you for reaching out again. Per our previous email responses to you, there is a large request in front of you that we are currently working on fulfilling. Those responses were dated March 6th and March 14th but they appear to be missing from your chain below. If you did not receive those responses, they can be re-sent to you. As we mentioned before, requests are fulfilled in the order in which they are received. As such, the previous request will be fulfilled before your request.

Please keep in mind that the 2024 Presidential Primary Election (the biggest election since 2020) is less than a month away and the Election Bureau is responsible for planning and overseeing the elections in Butler County.

As I'm sure you understand and appreciate, this monumental election has to take up the majority of our resources. We need to ensure an accurate election for all Butler County voters. In order to do this, we process one request at a time around our priority duties (conducting an appropriately staffed, accurate and fair election in 96 precincts countywide as well as maintaining the voter rolls for over 137,000 voters). This takes a considerable amount of time

and effort.

We will reach out once we can move forward with your request.

Thank you for your time and understanding in this matter.

**Re: Right-to-Know Request, dated March 4, 2024
Request No. 2024-041**

March 5, 2024

Dear Lori Maihle,

Pursuant to Pennsylvania's Right-to-Know Law ("RTKL"), 65 P.S. §§ 67.101 et seq., on March 1, 2024, Butler County Open Records received your Request for names of all Judges of Elections, Majority Inspectors of Elections, Minority Inspectors of Elections, and all Clerks in all precincts in Butler County.

The Request is denied, for the reasons set forth below.

The Butler County Bureau of Elections has informed me that the records you are describing, if they exist, would be records that are subject to inspection by qualified electors pursuant to the Pennsylvania Election Code (25 P.S. § 2648), the Pennsylvania Voter Registration Act (25 Pa.C.S. § 1101, et seq.), and/or applicable regulations, and therefore must be requested directly from the Bureau of Elections. Access to such records is not available through the RTKL. See 65 P.S. 67.3101.1. and *Butler County v. Cornetti*, Butler Cnty Ct. Com. Pl., AD No. 2022-10259 (Memorandum Opinion dated September 30, 2022).

Accordingly, I refer you to the Butler County Bureau of Elections, which utilizes a separate process for administering access to records governed by the laws and/or regulations cited above. More information for requesting information from the Bureau of Elections is available on [that office's webpage](#).

You have a right to appeal this denial in writing to: Office of Open Records, 333 Market St., 16th Floor, Harrisburg, PA 17101-2234. Appeals can also be filed online at the Office of Open Records website, <https://www.openrecords.pa.gov>.

If you choose to file an appeal you must do so within 15 business days of the mailing date of the agency's response. See 65 P.S. § 67.1101. Please note that a copy of your original Right-to-Know request and this denial letter must be included when filing an appeal. More information about how to file an appeal under the RTKL is available at the Office of Open Records website, <https://www.openrecords.pa.gov>.

Please be advised that this correspondence will serve to close this record with our office as permitted by Law. As always, if you have any questions or concerns, please do not hesitate to contact me at the office. Thank you.

I'm hoping that while the 'larger' request is being fulfilled (which I'm curious as to what type of request this would be), that there is a staff member who would be able to quickly provide the information I've requested.

Thank you in advance on the status update.

Do hope the time is taken to read through the attached, as well, regarding Pennsylvania (found the other states interesting too).

Good afternoon,

Thank you for submitting your request for information. Your request has been partially approved and partially denied. The Bureau of Elections has record of Judge of Elections, Majority Inspectors, and Minority Inspectors because they are elected or appointed positions. Clerks are not selected by the Election Bureau. Requests are processed in the order they were received. There is currently one large request ahead of yours. However, due to the high election load your request fulfillment may be delayed. Regular workflow resumes after certification of an election, which may take up to thirty (30) days. We will contact you when the information is ready for pickup.

Let us know if you have any questions, thank you.

Yep, the request wouldn't be a RTK because it is an elections request. We had him fill out a Registered Elector request and we saw he wasn't registered here so we denied for that reason.

Good morning Lori,
I hope you are reaching out to your state legislators, the creators of the no excuse voting, with the same passion and remarks in regards to Act 77 of 2019, as you do us.
The fact that you suggest this is our FIX for mass mail-ins and ballot harvesting tells us all how much you don't know what you are talking about.
You need to go to Harrisburg and ask them to fix the problem they created for Pennsylvania.

Good afternoon,

Just a couple of things:

- Today is the deadline for objections to the election results. So far, knock on wood, we have none. Barring any objections, the results will be certified in Butler County as of 5pm today.
- We received the official declaration of no recount from the Department of State yesterday afternoon.
- Tomorrow morning the letters to the candidates on the ballot that won, write-in winners, municipalities and school districts will all go out.
- Certificates get mailed to the municipalities and school districts for them to contact the winners for swearing in.
- The write-in winners will have until December 15th to return their acceptance forms and pay any filing fees. They have until December 22nd to return the Statement of Financial Interest Form to their municipalities or their municipalities will declare the positions vacant and appoint someone.

- We received a lot of questions regarding a couple of write-in races. I revamped the website to address those questions. You can see those links [here](#) and [here](#).
- We met with John to go over electrical yesterday for the new office. We're getting really excited!
- I will be reaching out to Court Admin regarding the swearing in ceremony as soon as we're certified. I also will provide them a list of the elected constables from this election.

Subject: Elections Update

Good afternoon,

The Computation Board wrapped up yesterday afternoon. I have attached the current summary results. We have contacted IT to get the links on the website updated to include all provisionals and ballots that were evaluated by the computation board. We had no observers. A summary of their decisions is below:

- Provisionals-Approved 111 ballots
- Military-12 ballots received timely and approved
- Officially declined all no secrecy, no date and no signature ballots as well as some ballots that were found to have a signed secrecy envelope when they were opened on election day.
- A handful of other absentee and mail in ballots were approved (they removed their barcode label so we had to figure out who they were, two voters died after they cast their ballots and the ballots were received in the office, etc)

We will know tomorrow whether we were chosen to participate in the statewide Arlo Audit. We will be conducting our 2% statistical audit here in the office on Friday at 9am. I am sending the party representatives an email here in a couple of minutes to invite them to watch. It will take approximately 30 minutes to complete. If there is no declaration of a recount and no objections, we will be certified on 11/22. Thank you all again for your support and a (mostly) uneventful election.

Good Morning Commissioner Osche.

Let me first congratulate you, Kim, and Kevin on your recent victories in the recent election.

As you are aware, I have been agitating the commissioners for some time now regarding our voter registration databases. I have finally found a great video that explains the power of fractal computing to accomplish this task. The link below will demonstrate the power of this technology used on some Minnesota and Texas registration databases.

I suggest you watch the complete video as it illustrates the power of this technology to identify possible phantom voters that the county's current technology will never find.

As always, best regards,

Thank you Dennis for reaching out to me. I'm out of the office today and tomorrow. Rather than meet with county commissioners at this time, in which there is a likelihood of a 45% change of county commissioners across PA expected by the November 2023 election. Your efforts may be better served working with Harrisburg as their focus pertaining to elections is an effort to move PAs Primary Date up earlier than it currently is.

Thank you,

Subject: Keschal heat map

Hi Leslie,

Thanks for driving up to Cranberry to meet with Tom and I. We believe it was a productive meeting.

I'm attaching the "Keschel" heat map that we discussed. It can be used to split the precincts into two pools; one containing precincts in the Southwest region of the county and the other in containing precincts in the rest of the county. The heat map shows the "red" areas to be mostly in the Southwest corner of the county. Randomly drawing one precinct from the Southwest region for hand recount will guarantee that a precinct Keschel identifies as being "red" is selected. Regardless of whether or not his analysis is valid, many take it as gospel. This methodology will render the inevitable claims people will make, stating the audited precincts were somehow cherry-picked, as being nonsensical. Furthermore, it puts Tom, Richard and I in a position where we have ammunition to back the county if such type of claims arise.

We want to arrive at a place where everyone understands that Butler county is doing everything in its power to make certain that elections are free and fair, Once the perception issues are addressed, perhaps folks will join us in our respective efforts to place focus on where the real problems lie.

I'll pull together a summary of our meeting when I get some time and send it over to you.

Have a great Easter and thanks for all you do.

Regards,

Chet...

Lori:

They are in the middle of the logic and accuracy testing of the machines which is critically important. Chet Jack and Tom Barrage have been in observing this process in addition to a bipartisan team of two judges who are signing off on all the tapes and watching them seal each machine. Given that there are now 92 (I think) precincts each with at least one or more scanners along with the machines for those who are vision or physically impaired, this is at least a four day process involving 5 of our 7 staff. In addition, we just received the ballots and they have to process 11,000 mail-in envelopes and ballots. It is an extremely hectic time. In addition to the judge information, were you requesting the voter list?

Good afternoon,

Thank you for submitting your request for information. Your request has been partially approved and partially denied. The Bureau of Elections has record of Judge of Elections, Majority Inspectors, and Minority Inspectors because they are elected or appointed positions. Clerks are not selected by the Election Bureau. Requests are processed in the order they were received. There is currently one large request ahead of yours. However, due to the high election load your request fulfillment may be delayed. Regular workflow resumes after certification of an election, which may take up to thirty (30) days. We will contact you when the information is ready for pickup.

Re: Right-to-Know Request, dated March 4, 2024

Request No. 2024-041

March 5, 2024

Dear Lori Maihle,

Pursuant to Pennsylvania's Right-to-Know Law ("RTKL"), 65 P.S. §§ 67.101 et seq., on March 1, 2024, Butler County Open Records received your Request for names of all Judges of Elections, Majority Inspectors of Elections, Minority Inspectors of Elections, and all Clerks in all precincts in Butler County.

The Request is denied, for the reasons set forth below.

The Butler County Bureau of Elections has informed me that the records you are describing, if they exist, would be records that are subject to inspection by qualified electors pursuant to the Pennsylvania Election Code (25 P.S. § 2648), the Pennsylvania Voter Registration Act (25 Pa.C.S. § 1101, et seq.), and/or applicable regulations, and therefore must be requested directly from the Bureau of Elections. Access to such records is not available through the RTKL. See 65 P.S. 67.3101.1. and *Butler County v. Cornetti*, Butler Cnty Ct. Com. Pl., AD No. 2022-10259 (Memorandum Opinion dated September 30, 2022).

Accordingly, I refer you to the Butler County Bureau of Elections, which utilizes a separate process for administering access to records governed by the laws and/or regulations cited above. More information for requesting information from the Bureau of Elections is available on [that office's webpage](#).

You have a right to appeal this denial in writing to: Office of Open Records, 333 Market St., 16th Floor, Harrisburg, PA 17101-2234. Appeals can also be filed online at the Office of Open Records website, <https://www.openrecords.pa.gov>.

If you choose to file an appeal you must do so within 15 business days of the mailing date of the agency's response. See 65 P.S. § 67.1101. Please note that a copy of your original Right-to-Know request and this denial letter must be included when filing an appeal. More information about how to file an appeal under the RTKL is available at the Office of Open Records website, <https://www.openrecords.pa.gov>.

Please be advised that this correspondence will serve to close this record with our office as permitted by Law. As always, if you have any questions or concerns, please do not hesitate to contact me at the office. Thank you.

Good afternoon,

Thank you for reaching out again. Per our previous email responses to you, there is a large request in front of you that we are currently working on fulfilling. Those responses were dated March 6th and March 14th but they appear to be missing from your chain below. If you did not receive those responses, they can be re-sent to you. As we mentioned before, requests are fulfilled in the order in which they are received. As such, the previous request will be fulfilled before your request.

Please keep in mind that the 2024 Presidential Primary Election (the biggest election since 2020) is less than a month away and the Election Bureau is responsible for planning and overseeing the elections in Butler County.

As I'm sure you understand and appreciate, this monumental election has to take up the majority of our resources. We need to ensure an accurate election for all Butler County voters. In order to do this, we process one request at a time around our priority duties (conducting an appropriately staffed, accurate and fair election in 96 precincts countywide as well as maintaining the voter rolls for over 137,000 voters). This takes a considerable amount of time and effort.

We will reach out once we can move forward with your request.

Thank you for your time and understanding in this matter.

Lori:

They are in the middle of the logic and accuracy testing of the machines which is critically important. Chet Jack and Tom Barrage have been in observing this process in addition to a bipartisan team of two judges who are signing off on all the tapes and watching them seal each machine. Given that there are now 92 (I think) precincts each with at least one or more scanners along with the machines for those who are vision or physically impaired, this is at least a four day process involving 5 of our 7 staff. In addition, we just received the ballots and they have to process 11,000 mail-in envelopes and ballots. It is an extremely hectic time. In addition to the judge information, were you requesting the voter list?

This is a one-week follow up to the request below.

I'm hoping that while the 'larger' request is being fulfilled (which I'm curious as to what type of request this would be), that there is a staff member who would be able to quickly provide the information I've requested.

Thank you in advance on the status update.

Do hope the time is taken to read through the attached, as well, regarding Pennsylvania (found the other states interesting too).

Good afternoon,

Thank you for submitting your request for information. Your request has been partially approved and partially denied. The Bureau of Elections has record of Judge of Elections, Majority Inspectors, and Minority Inspectors because they are elected or appointed positions. Clerks are not selected by the Election Bureau. Requests are processed in the order they were received. There is currently one large request ahead of yours. However, due to the high election load your request fulfillment may be delayed. Regular workflow resumes after certification of an election, which may take up to thirty (30) days. We will contact you when the information is ready for pickup.

Let us know if you have any questions, thank you.

Please see the email chain below regarding the Right to Know, which was submitted and 'denied'.
The Registered Elector Request form has been completed and signed (2nd attachment).
Is it possible to submit this request via email, with an EXCEL/PDF document of the requested info provided electronically, in lieu of hard copies (in this manner it is costing the taxpayers nothing to obtain, and saving your office time and paper)?

Will wait your response before walking this to the Elections Bureau.
Thank you.

Re: Right-to-Know Request, dated March 4, 2024
Request No. 2024-041

March 5, 2024

Dear Lori Maihle,

Pursuant to Pennsylvania's Right-to-Know Law ("RTKL"), 65 P.S. §§ 67.101

et seq., on March 1, 2024, Butler County Open Records received your Request for names of all Judges of Elections, Majority Inspectors of Elections, Minority Inspectors of Elections, and all Clerks in all precincts in Butler County.

The Request is denied, for the reasons set forth below.

The Butler County Bureau of Elections has informed me that the records you are describing, if they exist, would be records that are subject to inspection by qualified electors pursuant to the Pennsylvania Election Code (25 P.S. § 2648), the Pennsylvania Voter Registration Act (25 Pa.C.S. § 1101, et seq.), and/or applicable regulations, and therefore must be requested directly from the Bureau of Elections. Access to such records is not available through the RTKL. See 65 P.S. 67.3101.1. and *Butler County v. Cornetti*, Butler Cnty Ct. Com. Pl., AD No. 2022-10259 (Memorandum Opinion dated September 30, 2022).

Accordingly, I refer you to the Butler County Bureau of Elections, which utilizes a separate process for administering access to records governed by the laws and/or regulations cited above. More information for requesting information from the Bureau of Elections is available on [that office's webpage](#).

You have a right to appeal this denial in writing to: Office of Open Records, 333 Market St., 16th Floor, Harrisburg, PA 17101-2234. Appeals can also be filed online at the Office of Open Records website, <https://www.openrecords.pa.gov>.

If you choose to file an appeal you must do so within 15 business days of the mailing date of the agency's response. See 65 P.S. § 67.1101. Please note that a copy of your original Right-to-Know request and this denial letter must be included when filing an appeal. More information about how to file an appeal under the RTKL is available at the Office of Open Records website, <https://www.openrecords.pa.gov>.

Please be advised that this correspondence will serve to close this record with our office as permitted by Law. As always, if you have any questions or concerns, please do not hesitate to contact me at the office. Thank you.

Yours very truly,

Matthew Vickless

Good morning, Jan,

Thank you for copying us on your request. I don't know that there are going to be responsive documents. I will leave that to our elections department to determine. However, I can assure you that we are printing our poll books regularly so that we can conduct an election in the event of any disruption as we directed our department to prepare for. Please keep in mind that security issues and details in the hands of bad actors can be dangerous. And sometimes the media can create unintended danger and consequences. My father was a WWII veteran and long-time reservist, and my son is in law enforcement, so they've taught me a few things. As such, information on paper will likely be limited. I am glad you are concerned as you should be. If you have any questions, please don't hesitate to call. Thank you.

No Lori. It is not our fix. The law we did not create dictates when and how ballots are cast. This relates to a court order last year that enforced ADA to protect the rights of a disabled voter who could not correct the envelope on her absentee mail in ballot. We do NOT have the power to create same day voting as you suggest, nor the power to reverse mail in voting. However we will continue to advocate for common sense measures we can take to insure the integrity of the process and will implement, as we already have, measures at the local level. And if you haven't caught wind, our party is now advocating use of mail-in ballots to bank votes along with the ability to cure defects on the absentee/ mail in envelope.

There are folks doing good work, who are advocating change, who take the time to come in and talk and learn and we do implement some of their suggestions. But they don't attack....they work with us.

If you want to sit down and talk, give me some time options day or night and I will be happy to do that.

OMG – didn't Paul die not long ago? What happened to Greg?
I'm very sorry, Leslie, to hear about your dog and what's been going on with your son.
So many people have struggles right now, and on top of it all, our country, freedoms, currency, etc. are purposely being tanked.
We have a dementia puppet planted in office and are on the brink of war.....and I have grandbabies who I'm fighting like hell for!

Please forward to anyone inadvertently omitted from this email.

Our elections are going to continue to be stolen unless we remove the mass mail ins (absentee requested ballots ONLY), voter ID, hand count and get rid of all machines – including the tabulators. Some interesting reading for you. We are not election deniers, we are truth finders.

Those believing this was legit, are the deniers.

NONE of this chaos would be an issue in future elections if these voting machines and mass mail in ballots were completely eliminated!

Both are the root of the crime coverup.

So I am late to this party, but want to thank you all as well for your efforts. I am always happy when the phone isn't ringing and there is smooth sailing. We are grateful as Kim said that Mike, Pat and Carol were willing to take on this role. Somehow betting that if this were next year, the answer may have been different. LOL. We are so fortunate to have Chantell as our leader and to have a great team in the bureau. I just wish I had an ounce of her energy! Happy Holidays and blessings to all.

Good afternoon,

Just a couple of things:

- Today is the deadline for objections to the election results. So far, knock on wood, we have none. Barring any objections, the results will be certified in Butler County as of 5pm today.
- We received the official declaration of no recount from the Department of State yesterday afternoon.
- Tomorrow morning the letters to the candidates on the ballot that won, write-in winners, municipalities and school districts will all go out.
- Certificates get mailed to the municipalities and school districts for them to contact the winners for swearing in.
- The write-in winners will have until December 15th to return their acceptance forms and pay any filing fees. They have until December 22nd to return the Statement of Financial Interest Form to their municipalities or their municipalities will declare the

positions vacant and appoint someone.

- We received a lot of questions regarding a couple of write-in races. I revamped the website to address those questions. You can see those links [here](#) and [here](#).
- We met with John to go over electrical yesterday for the new office. We're getting really excited!
- I will be reaching out to Court Admin regarding the swearing in ceremony as soon as we're certified. I also will provide them a list of the elected constables from this election.

Thank you Richard for sharing this information. We will discuss with the Election Bureau. Fortunately, we now have four registrars as opposed to only two in the past, who are continually working on our election records with attention to issues related to PO Boxes with no street address; or no apartment numbers; etc. As I read through your information, it is clear how difficult it is to maintain records as people are more mobile than ever before and for Counties with college campuses, even more challenging. Students are entitled to register where their college is located if they reside there for most of the year. But as you might imagine, they move every year from dorm to apartment, etc. I do believe there are ways to cross check and the two articles you share are very interesting particularly if our tax records are also connected to GIS coordinates which allows us to map information. Much of the challenge remains with the antiquated SURE database which makes downloading spreadsheets in order to do the relational data mapping extremely difficult. But not impossible. Starting small (such as simply looking at patterns of duplicate addresses) would tell us whether there is merit in the work.

While I have reservations about ERIC myself, mostly because of how it is used, it serves the purpose of cross checking for those who may be registered in more than one state (which is not illegal or in violation according to election code) but moreover catches those who actually voted in more than one state, which has happened and leads to investigation and prosecution in many cases. Not sure how we overcome that without sharing that information.

We did have ballots returned by the post office for problem addresses in the past and had to scramble to call the voters to determine what the problem was. The post office does not forward ballots to forwarding addresses. Again, most often pointing to people moving and forgetting to notify the election bureau or forgetting that they requested a mail-in ballot. We will continue to work through all these challenges among others. Glad that you keep providing information.

Via Electronic Mail

Dear Commissioner Osche,

I recently had the opportunity to visit the Big Butler Fair, a place for good food that is bad for you, buying offensive T-Shirts, and of course riding a Ferris wheel. I was able to strike up a conversation with a farmer from Adams County in the exhibit hall of antique farm equipment. The conversation eventually turned to politics and without prompting he stated "That 2020 election was stolen". Further discussion revealed that he had served in the US Navy for eight years during the Cold War as a submariner. A look of despair was on his face when he said, "At this point I do not know what to do if elections are not fair".

What do we say to this man?

As of 2021 a Quinnipiac poll found that 76% of Republicans, 36% of Independents, and 4% of Democrats believe there that there was rampant fraud in the 2020 election. This comes out to about 55% of the electorate.

I continue to maintain that voter registration databases that are not maintained contribute heavily to absentee mail-in voter fraud. Whereas there has always been evidence of suspicious activity in these registration databases, most notably the large spikes of registrants before an election with their subsequent removal within months afterward, the problem has always been that there was not an easy way to verify the legality of registered voters before an election. **That is until now. Put briefly, there is now a way to electronically canvass the registration database before an election to weed out illegal registrants. This is done by comparing the registrant's address to the county property tax records using fractal computing. As you know, these tax records are the gold standard for the county as it involves money, both for the county and the owner of the property.**

Fractal Technology

I have excerpted some highlights of two recent articles written by Jay Valentine of Omega4America of his organization's work in twenty states as of this date. The full articles can be found here:

https://www.americanthinker.com/articles/2023/06/2024_how_to_outcompute_the_left.html

https://www.americanthinker.com/articles/2023/07/a_line_of_defense_against_mailin_ballot_fraud.html

Ninety percent of current election fraud comes in two buckets: election commissions jacking with voter rolls like Arizona and Wisconsin and mail-in ballots collected and illegally voted like everywhere.

Neither fraud bucket is thwarted by organizational solutions — both can be stopped with real-time compute power.

Let's start with **fraudulent election commissions** — at the state and county levels.

Sketchy election commissions know they can modify voter rolls when mail-in ballots go out by changing ZIP codes (Arizona), adding a fake street (Florida), putting hidden characters in voter IDs (Wisconsin), creating an inventory of nice unvoted mail-in ballots gathered by the U.S. Postal Service (Illinois and Wisconsin) given to leftists — for a fee.

Current relational technology is blind because of [database latency](#).

In one Republican state, our team found 41,000 voters changed from inactive status to active, voted, and then changed back. In Arizona, 107,000 changes, plus 22,000 new voters added in one county alone — days before the 2022 election.

Real-time changes all the rules — it just needs to be applied before the election, not as a data autopsy afterward (Arizona).

In 2024, in 17 counties, let's do real-time voter registration analysis beginning six months before the election.

Download daily, weekly, or monthly copies of voter rolls.

Compare every voter roll with every other, showing every change. Were large numbers of addresses

changed? Were thousands of new voters added 90 days before early voting from ineligible addresses (Houston)?

Now for the phantoms.

There are several kinds of phantoms.

One type signs a voter registration application at a church, the homeless shelter, the gas station and never votes. She may be dead in a tent on an Austin street. Who knows?

Another phantom is a not-too-interested person who registered, lives in a house, but does not vote because it is useless, an effort or a distraction. She is the "I don't care" voter.

There are phantom ballots, not people, collection points.

A large urban apartment building has a mail room, where hundreds of mail-in ballots collect because nobody cares to open them. There is no check inside.

As the junk mail gets tossed, ballots accumulate. They are collected by a vagrant, paid \$25 for each mail-in ballot in that trash can.

Real-time compute makes this a [game two can play](#).

With the [Undeliverable Ballot Database](#), it can be determined where almost every ballot collects.

Message: I am a retired mail man.

I just saw your interview.

I now know where the mules got their ballots. Straight from the post office in returned/undeliverable mail.

While I have zero proof of where they ended up, I had those ballots you were talking about in my mail bag with wrong addresses or lacking apartment numbers or even people that moved and still had ballots delivered to their old apartment.

We put those ballots in a basket and someone came by and picked them up.

Hundreds or even thousands of ballots.

Who picked them up, where did they go?

Now we know why signature match was removed...

Someone needs to investigate the post office and their democratic union run activities.

What are the addresses on those ballots?

- Ballots mailed to vacant lots -- or in Arizona, street corners.
- Ballots sent to apartment buildings without the unit or APT number.
- Ballots sent to college dorms for students registered there for decades.
- Ballots sent to fraternities with a 105-year-old student.
- Ballots sent to churches -- which have no bedrooms, thus cannot be someone's domicile.
- Ballots for the person who moved -- over a year ago.
- Ballots mailed to hotels and casinos.
- Ballots where the address was modified -- by the voter commission (as in Arizona) -- the week those ballots went out, thus missing the recipient.
- Ballots sent to Manchurian restaurants, laundromats, banks, and 7-Elevens -- all of which are not valid addresses for voters.
- Ballots sent to UPS and FedEx boxes -- sometimes to a dozen people living in that little box.
- Ballots sent to the apartment building -- but the address is the clubhouse -- which has no bedrooms.
- Ballots sent to the 22,000 new voters in a single county entered just days before the election -- which were invisible to Arizona Republican candidates in 2022.
- Ballots sent to Mr. Gonzales, Mr. Gonzalez, Mr. Gonzalles, all at the same address with the same date of birth.
- Ballots sent to the Wisconsin college dorm that has 1,000 registered voters but can house only 250 adults.
- Ballots sent to the 11 adults at the single-family Houston home that is 823 square feet with one bedroom and one bathroom.
- Ballots mailed to people registered at an address in 2020 but the building was not built until 2022.
- Ballots sent to the rehab facility for dozens of people who claim it as a residence for years. (Rehab is not a "years" thing.)

Ballots -- which will not land in an eligible recipient's hand - must be identified, months in advance of being mailed.

Welcome to the [Undeliverable Ballot Database](#) .

(Click on this link for a further description : <https://www.omega4america.com/undeliverable-ballot-database-why-bad-data-is-really-good/>)

Most of those ballots, using super-compute technology, can be identified, shown to be illegitimate, and brought to everyone's attention 6 months before election day.

When Harris County (Houston) floods the zone six months before early voting with 240,000 new voters, each needs to be instantly checked, verified, validated, and if necessary challenged - *- before the 2024 election.*

When Arizona and Wisconsin counties change identifiers the week mail-in ballots go out, then change them back, real time compute needs to flag it and ask "why?"

Two state legislatures invited the Fractal team to do a "proof of concept" for their state voter rolls. So, that's what we're doing.

We ingest multiple copies of the voter rolls. We want at least three dates but in one of the states, we will probably do a dozen. Multiple copies of voter rolls shows movement, lights up changes made to the voter rolls that make you say *hmm*.

We compare every copy of the voter roll with every other copy -- every cell against all corresponding cells. If someone's zip code was changed, we flag it. Might be no big deal, but then, might be Arizona where 33,000 zips were changed days before the election.

In a state rep election, for a Republican candidate, a primary, we found 212 people who moved from all over the state to this guy's district. They all voted. Then about a month after the election, they all moved out of the district. Where do you think they moved? Back to their original houses! He won!

We ingest the personal property tax rolls for the county. Those show the type of building, if it is a business, the number of bedrooms, baths, units, year built, square footage of living space, and about 40 other useful attributes.

In Austin, Texas, we add the construction/permit rolls, giving us a closer to real time view of every property improvement.

For these two state legislatures, we want something for the Attorney General.

We bring in the FEC (Federal Election Commission) contribution rolls. With a single click, the AG can see every "contribution mule" in the state. If that's not enough, we bring in the massive Medicaid rolls -- all claims, all providers, and all recipients for dozens of years. At this point, we are in the tens of billions record level -- and guess what we find?

Some of those same sketchy voter addresses -- fake people living in UPS boxes correspond to Medicaid providers -- who are likely fake. We migrated from just cleaning voter rolls to making a state some real dough -- identifying Medicaid fraud.

This is the power of real time super-compute.

Our thesis to state governments is that it isn't just voter fraud. It's identity fraud and it is not just in their voter rolls, identity fraud permeates every state government roll.

While we developed the Undeliverable Ballot Database to identify every address where a ballot will be sent yet not find an eligible recipient, we also created an address and identity database for people who claim one identity in Medicaid, another in WIC and another on the voter roll.

Vast government databases are virtually invisible to current SQL/relational technology. Fractal and other super-computes are delivering real-time visibility to identity fraud lasting decades.

One of the first benefits is the [Undeliverable Ballot Database](#) -- saving the mail carrier all those fake ballots.

Suggestions

I want to make clear that I do not believe that Butler County has a significant problem with their voter registration database. Unfortunately the same cannot be said for either the SURE or ERIC databases utilized by the state. Since my last correspondence to Senator Hutchinson which was copied to you, seven states have discontinued use of ERIC which is a cesspool of potential voter fraud.

There is an old saying amongst tradesmen that goes "If all you have is a hammer everything becomes a nail". We are not currently using tools available to adequately maintain these databases given the lack of voter ID and the ability for people to game the election process through manipulation of the voter databases. It would be virtually impossible for the Election Board to do a comprehensive analysis of our registration database using relational database technology.

I suggest that the Commissioners begin to investigate the use of fractal technology for database analysis. I believe there are several commercial firms that may be able to accomplish this task. I also strongly suggest you share this correspondence with commissioners from like-minded counties who might share the cost of performing such an analysis.

No matter who wins the 2024 Federal election there will be complaints aimed at the Elections Board. Having done the above analysis will quell most if not all claims of suspicious activity. Please also note that this analysis can be performed on any database that relies on the postal system for any benefits provided by the county.

I would like to offer my services to investigate possible candidates to perform this analysis for a fee of \$1.00.

Finally, I believe this is a bipartisan task and to that end would like to congratulate all of the commissioners on their recent primary election wins and continued success in the upcoming fall election.

Best regards,
Richard Wilt
