Subject: Mondays Bills and Next week Calendar

Members,

Attached are the Bills and COWs that we are going to be voting on Monday March 4th. I have also attached next weeks schedule.

As FYI we will be FLIPPING COWS so please review and be prepared for those.

Please let me know if you have any questions.

Respectfully,

State Representative Teresa Martinez

Majority Whip | Legislative District 16

Louisiana is the first state in the U.S. to pass a bill to end the United Nations, World Health Organization and the World Economic Forum in the state and the globalist organizations to ban rules and mandates.

The Louisiana Senate passed a bill with 37-0 votes to end cooperation between the state and local governments with the UN, the WHO and the WEF. The Senate accuses them of committing a globalist coup and trying to impose their rules and mandates around the world, writes Thepeoplesvoice.

Senator Thomas Pressly and two co-sponsors introduced Senate Bill 133 (SB133SB-133) on February 29. The proposed law states: "The World Health Organization, the United Nations and the World Economic Forum have no jurisdiction or power in the state of Louisiana."

How about it, AZ? Let's become #2!

Thank you,
Al Field

Importance: High

Senator Rogers, Senator Borrelli,

I have reached out to both your offices a number of times and to no avail. Over the last four years about 10-12 times.

Attached are two PDF's. The 1st shows the header information that should be on every ballot that went through the scanners for the 1.8M ballots counted in the 2020 election. There are 165,000 ballots that this not have the correct header information. These facts were provided in 2020 with the audit that took place. The splunk logs would show when this information was recorded and who had access and were the information was recorded. The leadership of the Senate has asked for this information, but to no avail. Why? All of this information was provided in the original audit, however was not read or used. Why?

The 2nd PDF is a copy of HB2787 which passed thru the house on a partisan vote. It's a one paragraph bill that would give back control of the information to the legislature versus MCBOS or the machine vendors. This bill never made it out to the floor of the senate. Why?

I know there has been some issues with the both of you and Jovan Hutton Pulitzer, JHP, because he has called the both of you out on this matter. We are talking about our Republic and we need to get over the petty fighting and follow the facts where they lead.

The audit findings were never fully implemented. Why?

Please answer the questions above and we can move the process forward.

URGENT: We Want the Voting Machines GONE! Listen To Your Constituents and BAN The Cheating Machines!

We are only days away from the 2024 Presidential Election, the single most important election in recent history. However, efforts to silence, detract, and halt the truth about the blatant fraud and corruption within our electoral process are still rampant. Our top priority must be returning the voice of We the People by banning the voting machines and mail-in ballots that actively strip us of our voice. We must direct our attention toward our state elections; we MUST ban the voting machines and mail-in ballots, except for valid reasons, and advocate for hand-counted paper ballots at the precinct level! PPP, Precinct, Paper, People! Restore We the People's voice and let Liberty RING!

The We the People are keenly aware of the rampant election fraud affecting our nation. In 2020, the election was shamelessly snatched from President Trump and handed over to Biden, the deep state's **selected** puppet. Undeniable evidence supports this claim, backed by impartial research and the brave revelations of whistleblowers.

Machines, tied to technologies like Albert sensors and FirstNet, with information supplied by ERIC, have raised serious doubts about the validity of election results. The very methods that were meant to facilitate the voting process have been turned against We the People; our voices have been stolen! We need to investigate this and BAN the machines! What's worse is that recently documents have been released confirming that Dominion hired Serbian employees to code the software of our voting system. **Let me say that again; individuals of another country across the globe, are coding the structure of OUR electoral system. These machines must be BANNED!**

Now, let's look at major whistleblowers like Tina Peters, Stefanie Lambert, Kari Lake, and others who have actually been persecuted for standing up and revealing the major fraud intertwined into our electoral process. Whistleblowers like Julian Assange suffer from this rotted apparatus that steals the voice of We the People, the border still remains open, foreign aid remains at an all-time high, and our congress members and other leaders who may or may not have been elected continue to allow these things to happen.

The validity, security, and accuracy of our elections are non-negotiable. Regardless of the "political noise" that may cloud our leaders' judgment, our elections constitute our voice. Any semblance of fraud, corruption, or deceit should not be met with hesitation but with the uncompromising resolve to investigate and address. Our electoral process must be purged of tyranny and fraud. This starts with banning the voting machines and mail-in ballots, *except for*

valid reasons, and switching to valid voter ID and hand-counted paper ballots that are counted at the precinct level!

Our leaders, who we elected to hear our voice and respond appropriately, must immediately finalize work on the integrity of our elections! We The People's voice must be heard! Without an accurate, honest election, we cannot consent, we cannot redress our grievances, and our rights are virtually meaningless. We the People elect our leaders to hear and represent us; we pay their salaries, so they better get to WORK! We demand action NOW! Ban electronic voting machines and stop the use of mail-in ballots; no vote without proof of ID is INVALID! We demand hand-counted ballots at the precinct level! Make our Elections Great Again! Let Liberty Ring!

Thank you,
Al Field

KAY,

Ok Kay, I have been working on several election integrity issues, but to no avail as of yet. Here is something we can tackle together. Let's get this easy to read bill, one paragraph, on the Governor's desk. It will be hard for her to veto.

I have voted yes on RTS for this bill and will start reaching out to the Sponsor of the bill Rep Rachel Jones, currently the votes are two to one against. We need to activate our group and others about this bill and encourage RTS thumbs up for this bill. The person behind the bill is Tom Renz. See www.tomrenz.com via JHP, Jovan Hutton Pulitzer.

After you have had a chance to review. Let's schedule a meeting and develop a plan on how to accomplish getting the bill out of committees and on the floor for a vote. Looking forward to working with you.

ARIZONA HOUSE OF REPRESENTATIVES

Fifty-sixth Legislature
Second Regular Session

HB 2787: voting equipment; inspection; elected officials
Sponsor: Representative Jones, LD 17
Committee on Municipal Oversight & Elections

Overview

Allows elected officials accompanied by an expert to inspect all voting equipment used in a jurisdiction.

History

Prior to election day the Board of Supervisors or officer in charge of elections must have the automatic tabulating equipment and programs tested and checked for all offices and measures on the ballot. In elections with state or federal candidates, the Secretary of State is responsible for conducting tests for election day equipment. Tests must be overseen by two election inspectors of different political parties and are open to political party representatives, candidates, press and the public. Procedures and time periods for tests are established by the Secretary of State and repeated immediately before the start of the official count (A.R.S. § 16-449).

Provisions

1. Authorizes any elected official of the state, accompanied by an expert of their choice, to inspect all voting equipment in a jurisdiction, including source codes and other proprietary material relating to voting equipment. (Sec. 1)
2. Specifies that an elected official may conduct an inspection of voting equipment at any time, however they must not disrupt the voting process on election day. (Sec. 1)
3. Stipulates that the elected official and accompanying expert are legally bound to keep all information from the inspection confidential, unless either have a good faith belief that the voting equipment is malfunctioning or is being exploited. (Sec. 1)

Dear Representative,

As you know, mail-in ballots are ripe for fraud and malfeasance. I understand you've been busy negotiating the Timeline Extension Bill, **but**;

PLEASE DO NOT REDUCE THE STANDARDS TO VERIFY SIGNATURES ON THE BALLOT ENVELOPES.

Measures to ensure legitimate signatures on mail-in ballot envelopes should be improved and take effect for the 2024 election cycle!

Thank you,
Al Field

As a Precinct Committeeman in LD28, Desert Sage District Co-Captain, State Committeeman, and current co-chair of our Election Integrity committee in LD28, WE NEED YOUR HELP.

We are getting prepared for the upcoming election. Looking forward to both the MCRC Mandatory Meeting Jan 13th and the State meeting later in the month.

Where are we at regarding all the findings. See attached. How can we help. What are your plans. We are here to help.

Angelica, Please make sure this gets on Senator Rogers desk and get me on her schedule. Your help is appreciated.

cell

DEC 22ND, 2023

I would like to request a formal meeting with Senator Rogers, Chair of the Elections Committee of the Arizona State Senate. This request is a follow up to my Nov 29th email regarding Senator Rogers Nov 16th 2023, letter to Pinal County Elections Department. I was told by Angelica Rodriguez, Senator Rogers' assistant, that the request for EL52S, EL30A, EL45A were previously requested to Maricopa County Recorder's Office in May of 2023. But to no avail. How can we let this stand? As Chair of the Elections Committee, you have a right to this information. As citizens of Arizona, we have a right to this information. Would like to review the following.

- What are our legal options if Stephen Richer and the MCBOS do not provide the information you have requested? Why is our own party blocking our election integrity efforts? Can we block funding? Can we subpoena?
- What are our legal options for obtaining the routers and spunk logs? Why is the MCBOS not providing this information. During the 2020 audit, all this information was requested. Still to no avail? Richers' current defamation lawsuit of Kari Lake is being paid for by the Protect Democracy Project, which is left-wing organization with Obama attorneys. Why is our own party blocking our election integrity efforts? Thank God Richer is not running for re-election.
- Why are our elected State officials allowing the MCBOS to block our efforts?
- Why are we allowing Runbeck to break the chain of custody on close to 300K ballots on election day? Why are we, the State of Arizona, using Runbeck?
- Why are we still using ERIC? Electronic Registration Information Center. This was supposed to be a way to keep our voter roll clean. Instead has led to voter rolls with thousands of non-voters, dead voters, out of State voters, multiple voters with different middle initials. Currently the ERIC system in Maricopa County has over 250,000 Invalid names on it's rolls. We need to clean this up before the 2024 election. What are you doing? How can we help you in these efforts?
- Senator Rogers when you went on your 38 State tour touting Election Integrity and raised over \$4.0M what happened to all that money?

Over the last 3 years, I have sent 8-9 emails to our Election Integrity officials to no avail. Why?

As a Precinct Committeeman in LD28, Desert Sage District Co-Captain, State Committeeman, and current head of our Election Integrity committee in LD28. We need your help. WE can help here at the precinct level.

Arizona

“That which was originally void, does not by lapse of time become valid.”

- Arizona was called by a margin of 10,457 votes.
- Maricopa County accepted 20,500 mail-in ballots *after* Election Day 2020, including 18,000 – more than the entire election margin – on Nov. 4 picked up from the U.S. Postal Service.⁶⁶ By law, ballots must be received no later than 7 p.m. on Election Day, which was Nov. 3.
- “The 20,000 ballots recorded as incoming from the USPS on and after November 4 were of sufficient quantity to change the result of the 2020 General Election in Arizona,” according to Verity Vote.
- The findings were based on Maricopa County’s official Elections Department records, which were withheld from a public records request for nearly seven months. The records showed 18,000 mail-in ballots received on Nov. 4; 1,000 received on Nov. 5; and 1,500 received on Nov. 6.
- The 18,000 mail-in ballots received on Nov. 4 and subsequently counted represented a significant spike in ballots received, higher than every single day total since Oct. 29, 2020. The receipt of mail-in ballots had steadily declined from 14,500 ballots on Oct. 29 to 10,500 on Oct. 30; 6,000 on Oct. 31; 1,500 on Nov. 1; 1,000 on Nov. 2; and 2,500 on Nov. 3.
- In the 2020 General Election, 420,987 ballots failed signature verification standards, “thus the election was openly vulnerable to fraud,” according to an ongoing analysis conducted by We the People Arizona Alliance and presented to the state legislature.⁶⁷
- The initial analysis of 380,976 ballots, using official state records and official signature verification training techniques, identified 181,378 ballots that should not have been counted, or nearly half of all reviewed.

⁶⁶ ‘Long Withheld Records Reveal More than 20,000 Mail Ballots Received After the Legal Deadline’, Verity Vote, 2022, <https://verityvote.us/long-withheld-records-reveal-more-than-20000-mail-ballots-received-after-the-legal-deadline/>

⁶⁷ Arizona House of Representatives Municipal Oversight & Elections, Feb. 1, 2023, <https://www.azleg.gov/videooplayer/?eventID=2023021006>

- This includes: 1,870 blank envelopes, some of which were approved on Nov. 5 and Nov. 8; 542 with a signature other than the voter; 2,104 scribbles; 128 duplicate voters processed; 48,117 unreasonably different control signatures; 1,875 where the signature did not match until *after* the election; 36,034 control signatures that do not match the voter; 4,433 unusable control signatures; 47,366 that failed Secretary of State standards; and 38,909 egregious signature mismatches, where not one point of a signature matched any on file.
- In the case of the 1,875 votes, the ballot envelopes did not have a signature match on Election Day, but “matching” signatures were later put on file for the voter on either Jan. 28, 2021, Feb. 3, 2021, or Feb. 8, 2021. There were 783 signatures digitally inserted on Feb. 3, 2021 alone.
- Since the findings were presented to the Arizona State Legislature, the number of egregious mismatches found has increased to 76,354,⁶⁸ over seven times the election margin. This is an error rate of 9.30 percent of ballot envelopes reviewed.
- Throughout the signature verification analysis, which remains ongoing, analysts have consistently found 20 percent do not meet the Secretary of State’s standards, and 9 percent are egregious violations. Extrapolated to all 1.9 million mail-in ballots in 2020, 176,700 ballots “should have been rejected for improper signature verification due to egregious signature mismatches.”⁶⁹
- Maricopa County has no documented chain of custody for 740,000 ballots from the 2020 Election.⁷⁰
- Out of the 923,000 early vote ballots accepted at vote centers or drop boxes, only 183,406 ballots are accounted for on ballot transport forms. More than 80 percent of the ballot transport forms have no ballot counts.
- Without proper documentation of how many votes were cast at the time they were cast, it is impossible to verify the origin and true total of ballots in a given election. “Without this count, there is no way to determine if the transport staff retrieved one ballot or one thousand ballots,” according to Verity Vote. “Keeping

⁶⁸ Declaration of Shelby Busch, Aug. 30, 2023

⁶⁹ Ibid.

⁷⁰ ‘Maricopa Dropbox Chain of Custody’, Verity Vote, 2022, <https://verityvote.us/maricopa-dropbox-chain-of-custody/>

a proper chain of custody is more than a best practice - it is essential to encouraging trust in our democracy,” according to the Election Assistance Commission.⁷¹

- Of the 1,895 early vote ballot transport forms, 48 did not have the required two witness signatures attesting to the ballot transfer, including some with no witness signatures at all. “As a result, the public is not assured that both parties witnessed the transfer of ballots,” as required.
- Millions of files of 2020 General Election data and security logs were deleted from the Elections Management Server and purged on critical days, including the day before the Arizona audit of the 2020 Election began on Feb. 2, 2021.⁷²
- The Maricopa County Board of Supervisors admitted they purged the system and moved election data after they received a subpoena, in testimony before the U.S. House of Representatives.⁷³
- Two precincts in Pima County had *over* 100 percent turnout for mail-in ballots, and 40 precincts had over 97 percent returned.⁷⁴
- The national mail-in ballot return rate was 71 percent, but in Pima County the mail-in ballot return rate was 15 percent higher, and 19 percent higher than all the counties combined in the entire state of Arizona. One precinct with 99.5 percent mail-in turnout had 9,812 ballots counted. Another precinct with 100.6 percent turnout had 2,182 ballots returned, but only 2,170 mail-ins were ever sent. These two precincts total 11,994 ballots, which alone is more than the margin needed to alter the outcome of the Presidential Election.
- In all, there were 264,000 votes from precincts in Pima County with over 92 percent turnout for mail-in ballots.⁷⁵

⁷¹ Ibid.

⁷² ‘LIVE: Presentation of Maricopa County, Arizona, election audit’, YouTube, Sept. 24, 2021, <https://www.youtube.com/live/AazyTCJ9wrM?si=T8TZLLD-NmNkAZNq&t=3560>, 59:20

⁷³ House holds contentious hearing on results of the Arizona election audit, YouTube, Oct. 8, 2021, https://youtu.be/hO_0fGFQ50I?si=TBp6JqZl4cuavWmS&t=9273, 2:34:33

⁷⁴ ‘The Fish Tail in Pima County. Analysis of Mail-In Ballots Pima County, Arizona’, 2021, <https://yashiva.com/the-fish-tail-in-pima-county-analysis-of-mail-in-ballots-pima-county-arizona/>

⁷⁵ Ibid.

- Significant anomalies were discovered for mail-in ballot returns in Pima County. In precincts with anomalous high turnout of over 92 percent in Pima County, mail-in ballots started flipping from 6 percent Republican for Biden to 40 percent of Republicans voting for Biden.⁷⁶
- The election integrity group True the Vote identified more than 202 ballot traffickers in Maricopa County who made 4,282 individual drop box visits during the 2020 General Election.⁷⁷
- Two individuals were charged and plead guilty for ballot harvesting in Yuma County, Arizona during the 2020 primary election.⁷⁸
- A computer scientist testified that an algorithm similar to what is used in cruise control or self-driving cars was present affecting the early votes in Pima and Maricopa counties in the 2020 General Election, with the ability to “reach and maintain a predetermined setpoint (outcome) despite unplanned disturbances.”⁷⁹
- Walter C. Daugherty, a senior lecturer emeritus in the Department of Computer Science and Engineering at Texas A&M University who developed courses in artificial intelligence, expert systems, programming and software design, analyzed the Cast Vote Records, finding, “ballots in Maricopa County and Pima County were artificially processed through the tabulators tracking a Proportional-Integral-Derivative (PID) type control function in a closed-loop feedback system.”
- Daugherty, who has received over \$2.8 million in grant funding and was previously consulted as a computer expert by the *New York Times*, *Washington Post*, IBM Federal Systems Division, the Texas Department of Agriculture, U.S. Customs Service, as well as classified work, discovered “significant and systematic decline in the cumulative ratio as counting progresses,” in the early mail-in and in-person votes for the Presidential Election results in Maricopa County and Pima County.

⁷⁶ ‘The Real Story - OAN Pima County Audit with Dr. Shiva Ayyadurai’, Rumble, 2021, <https://rumble.com/vo04gk-the-real-story-oan-pima-county-audit-with-dr-shiva-ayyadurai.html>

⁷⁷ Ibid., 8.

⁷⁸ ‘Yuma County Women Sentenced for their Roles in Ballot Harvesting Scheme’, Oct. 14, 2022, <https://www.azag.gov/press-release/yuma-county-women-sentenced-their-roles-ballot-harvesting-scheme>

⁷⁹ Declaration of Walter C. Daugherty, June 8, 2022, Case 2:22-cv-00677-JJT Document 38

- For example, the “first block of ballots being 75 [percent] for a candidate, the next block of ballots being 74 [percent] for a candidate, the next block of ballots being 73 [percent] for a candidate, and so on, systematically declining all the way to Election Day.”
- Daugherty’s expert opinion is that the downward sloping line in the sequence that votes were recorded indicated a strong control. The cumulative ratio of Biden to Trump votes for all cast vote records before Election Day in recorded order for Pima County declines from over 300 percent to 157 percent by Election Day.
- “Such a uniform and predictable pattern is so statistically implausible that it would not occur without artificial manipulation,” according to Daugherty. The data’s lack of independence cannot be explained by the preference of Democrats voting earlier than Republicans.

This video may enlighten or **enrage** you, but here is ammunition to help you decide to begin to stand up to the Feds regarding the illegal immigrant situation. Let's go to work and take a stand before our country is gone!

Please respond. I'm open to know how I can help.

Louisiana is the first state in the U.S. to pass a bill to end the United Nations, World Health Organization and the World Economic Forum in the state and the globalist organizations to ban rules and mandates.

The Louisiana Senate passed a bill with 37-0 votes to end cooperation between the state and local governments with the UN, the WHO and the WEF. The Senate accuses them of committing a globalist coup and trying to impose their rules and mandates around the world, writes Thepeoplesvoice.

Senator Thomas Pressly and two co-sponsors introduced Senate Bill 133 (SB133SB-133) on February 29. The proposed law states: "The World Health Organization, the United Nations and the World Economic Forum have no jurisdiction or power in the state of Louisiana."

How about it, AZ? Let's become #2!

URGENT: We Want the Voting Machines GONE! Listen To Your Constituents and BAN The Cheating Machines!

We are only days away from the 2024 Presidential Election, the single most important election in recent history. However, efforts to silence, detract, and halt the truth about the blatant fraud and corruption within our electoral process are still rampant. Our top priority must be returning the voice of We the People by banning the voting machines and mail-in ballots that actively strip us of our voice. We must direct our attention toward our state elections; we MUST ban the voting machines and mail-in ballots, except for valid reasons, and advocate for hand-counted paper ballots at the precinct level! PPP, Precinct, Paper, People! Restore We the People's voice and let Liberty RING!

The We the People are keenly aware of the rampant election fraud affecting our nation. In 2020, the election was shamelessly snatched from President Trump and handed over to Biden, the deep state's **selected** puppet. Undeniable evidence supports this claim, backed by impartial research and the brave revelations of whistleblowers.

Machines, tied to technologies like Albert sensors and FirstNet, with information supplied by ERIC, have raised serious doubts about the validity of election results. The very methods that were meant to facilitate the voting process have been turned against We the People; our voices have been stolen! We need to investigate this and BAN the machines! What's worse is that recently documents have been released confirming that Dominion hired Serbian employees to code the software of our voting system. Let me say that again; individuals of another country across the globe, are coding the structure of OUR electoral system. These machines must be BANNED!

Now, let's look at major whistleblowers like Tina Peters, Stefanie Lambert, Kari Lake, and others who have actually been persecuted for standing up and revealing the major fraud intertwined into our electoral process. Whistleblowers like Julian Assange suffer from this rotted apparatus that steals the voice of We the People, the border still remains open, foreign aid remains at an all-time high, and our congress members and other leaders who may or may not have been elected continue to allow these things to happen.

The validity, security, and accuracy of our elections are non-negotiable. Regardless of the "political noise" that may cloud our leaders' judgment, our elections constitute our voice. Any semblance of fraud, corruption, or deceit should not be met with hesitation but with the uncompromising resolve to investigate and address. Our electoral process must be purged of tyranny and fraud. This starts with banning the voting machines and mail-in ballots, *except for*

valid reasons, and switching to valid voter ID and hand-counted paper ballots that are counted at the precinct level!

Our leaders, who we elected to hear our voice and respond appropriately, must immediately finalize work on the integrity of our elections! We The People's voice must be heard! Without an accurate, honest election, we cannot consent, we cannot redress our grievances, and our rights are virtually meaningless. We the People elect our leaders to hear and represent us; we pay their salaries, so they better get to WORK! We demand action NOW! Ban electronic voting machines and stop the use of mail-in ballots; no vote without proof of ID is INVALID! We demand hand-counted ballots at the precinct level! Make our Elections Great Again! Let Liberty Ring!

Dear Representative,

As you know, mail-in ballots are ripe for fraud and malfeasance. I understand you've been busy negotiating the Timeline Extension Bill, but;

PLEASE DO NOT REDUCE THE STANDARDS TO VERIFY SIGNATURES ON THE BALLOT ENVELOPES.

Measures to ensure legitimate signatures on mail-in ballot envelopes should be improved and take effect for the 2024 election cycle!

Thank you,
Al Field

Subject: ESA/School Choice
Date: Sunday, January 21, 2024 12:10:05 PM

Dear Representative Livingston,

As Americans we have the freedom to choose. Please don't take freedom away from parents regarding their school choice. Parents know what's best for their children. Students are failing within the state's school districts. Parents expect their children to thrive and maintain good grades in non-woke classes.

Kay Bateman
SCW-West Area Manager
LD28 Alpaca Precinct Captain

Arizona is the battleground for school choice in our country, and Katie Hobbs, together with the Teacher's Union, would like nothing more than to undo all the progress that has been made.

Competition delivers the best product and our children deserve the best schools. School choice STRENGTHENS all schools.

Will you PLEASE support ESA's and SUPPORT and DEFEND School Choice in Arizona?

Sincerely,

Kay Bateman
