IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Subject: New Caribbean Disturbance - Update #2

The forecast for the area of disorganized showers remains the same; it is still too early to tell if the system will develop further. Regardless of development, heavy rain is expected in our area into the weekend and next week. The Incident Management Team will continue to monitor.

Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>

To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours <u>after</u>* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Subject: Tropical Storm Milton - Update #13

The 2:00 PM Intermediate Update shows that there are no significant changes in the track. The earliest arrival of tropical storm force winds is projected to be 8:00 PM on Tuesday.

These are the stations that are reported to still have gasoline:

- Veronica Shoemaker/Winkler
- Shell station at Hancock and US 41
- BJ's Cape Coral
- 711 Burnt Store and Pine Island has DIESEL only
- Racetrac at South Pointe and College has 93 Only
- Walmart / Murphy's USA in Lehigh
- Santa Barbara and Veterans 7/11

These are the stations that are reported to be currently **out** of gasoline:

- Country Club and Veterans Circle K
- Del Prado Speedway
- Trafalgar and Skyline 7/11
- Rebel US 41 and Del Prado
- 76 at Chiquita and Pine Island
- Walmart/Murphy's Del Prado
- Walmart on Pine Island Road
- Pine Ridge and San Carlos 7/11
- Santa Barbara and Gleason 7/11
- Palm Tree and Cape Coral Pkwy 7/11

AMERICAN OVERSIGHT

- Lee and Gunnery 7/11
- Del Prado Racetrac
- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Subject:	Hurricane Milton - Social Media

Good morning,

The Public Information Office is looking to highlight the great work being done by LCSO in the midst of Hurricane Milton. Our office encourages agency members to send us any photos or video of your enforcement, calls for service, proactivity, citizen encounters, sheltering, etc.

If you're equipped with BWC, email us the CFS of any calls that are notable. This will be especially important post-storm for recovery, looters, etc.

If email service is down, try via text: 239-822-6717.

Before conditions deteriorate today: if you arrive to an incident location that is deemed safe, a PIO will be available to respond to capture footage of our members while working in the field.

Supervisors: If a roadway is blocked or impassible, please send a photo in real-time so an advisory may be completed.

Please email your content to:
piosocialmedia@sheriffleefl.org

Thank you all for your hard work and stay safe.

Anita

LEADING THE NEWS

Investigation Reveals Inherently Stressful Nature Of Police Work

An investigation conducted by the AP (10/8, Patel, Galo) and Arizona State University "revealed the inherently stressful nature of law enforcement work." Police officers "regularly experience traumatic events that, experts say, leave them vulnerable to mental health disorders, including depression and PTSD." But "overcoming the stigma of talking about mental health within police culture and addressing the needs of officers are topics rarely emphasized in the ongoing debate over policing."

POLICING AND POLICY

Law Enforcement In Minnesota Contemplate Tracing Guns Recovered During Crimes Committed By Youth

CBS News Minnesota (10/9, Mayerle) reports that "kids committing crimes is a problem and tracing guns recovered during crimes committed by youth is being looked at as part of a solution," according to authorities. Not "every trace is going to necessarily say the person who bought this gun is the person who gave this juvenile the gun," ATF Special Agent in Charge in St. Paul Travis Riddle said. Riddle added, "But it does give us a lead." The trace can "determine if a gun has been stolen and can offer clues as to how kids are getting their hands on guns — and could help identify patterns."

Baltimore Voters To Consider Measure On Compensating Communities Impacted By Anti-Cannabis Prosecution

The Baltimore Sun (10/8, Russell) reports city residents will next month vote on "whether to create a city fund that would use state money to compensate communities whose residents were disproportionately targeted for arrest or prosecution under Maryland's anti-cannabis laws before the state legalized recreational use last year." The issue is "likely to pass; voters have only rejected one ballot question in 20 years." Yet, local jurisdictions "must pass legislation establishing how they will use the money before they receive their portion of the statewide fund."

Police Department In Alabama Releases New Information About Its Executive Plan

WAFF-TV Huntsville, AL (10/8) reports the Alabama-based Decatur Police Department has "released new information about" its "executive plan." On Tuesday, Police Chief Todd Pinion "said his department will complete a leadership training program within the next 30 days." He also promised to "provide initiatives to meet the mental, physical, spiritual and psychological well-being of all officers in the department." In addition, Pinion said he "started speaking with community organizations."

Tampa Police Helping City's Most Vulnerable Residents Prepare For Approaching Hurricane

The Tampa Bay (FL) Times (10/8, Sullivan) reports that "all day Monday and Tuesday, Tampa police worked the streets, making sure the city's most vulnerable residents knew about the storm and urging those lingering in evacuation zones to go

AMERICAN OVERSIGHT

elsewhere. As routine patrol calls morphed into storm preparations, there was a palpable tension amid words of warning that previous storms were merely a test." Notably, all of the "department's 1,000 officers are expected to work during the storm."

SECURITY, CRIME, AND DRUGS

One Dead, Seven Hospitalized After Suspected Overdoses In Los Angeles Jail

The Los Angeles Times (10/8, Blakinger) reports that "one person died and seven others were hospitalized after a cluster of suspected" drug overdoses in "a downtown Los Angeles jail." The Los Angeles County Sheriff's Department issued a statement that said, "We are optimistic that in the near future we [will] have the use of updated technological solutions, including body and property scanners, that will further assist us in minimizing the threat illegal narcotics pose to our inmate population."

Rival Gangs Responsible For Spate Of Tobacco Shop Arson Attacks, Australian Police Say

The Guardian (UK) (10/9) reports that an "explosion of tobacco shop arson attacks in Victoria occurred after an underworld bid to control the price of illicit products failed, police believe." About a year ago, "Victoria police established the Lunar taskforce to investigate" the fires. And officers eventually "arrested 82 people, many of whom have been charged with serious offences including extortion, arson, firearms offences and aggravated burglary, police said in a statement."

Guatemalan Police Raid Five Save The Children Offices As Part Of Trafficking Investigation

The Telegraph (UK) (10/8) reports that "five Save the Children offices have been raided by Guatemalan police as part of a child trafficking investigation led by a controversial prosecutor." According to Rafael Curruchiche, the raids were "connected to 'possible violations and abuses against Guatemalan children' and...officers had seized potential 'evidence." The charity said it was "'aware of the activity' at its offices and denied the allegations."

Drug Lords In French City Increasingly Hire Teenage Contract Killers

France 24 (10/8, Dodman) reports "successive murders in France's second-largest city have cast a grim light on the growing use of teenage contract killers by rival drug lords in Marseille, the subject of a new book by a trio of French journalists that explores an alarming development in the port city's deadly drug wars." Its release on Wednesday "comes just days after two grisly killings involving teenagers further rattled the Mediterranean port city" of Marseille, where "rival gangs are locked in a deadly turf war for control of the highly profitable drug market." Marseille prosecutor Nicolas Bessone said "both teenagers had been recruited via social media."

TECHNOLOGY

Seattle Approves Use Of New Crime Prevention Technology, Hiring Bonuses For SPD Officers

KING-TV Seattle (10/8) reports that the "Seattle City Council approved two pieces of legislation impacting the Seattle Police Department Tuesday evening." First, local lawmakers "'overwhelmingly' approved legislation to permanently increase hiring bonuses for SPD officers from $30,000 to a maximum of $50,000." The council also "approved the use of new crime prevention technology that will allow the department to install live surveillance video cameras in Seattle neighborhoods they said have the most violent crime."

Police Department In California Acquires Battery Electric Pickup Truck

The Orange County (CA) Register (10/8) reports the California-based "Irvine Police Department unveiled on Tuesday its newest" police vehicle: a battery electric pickup truck. Irvine Police Chief Michael Kent said he "believes it to be the first" such police vehicle in the United States. The vehicle is "capable of responding to emergencies, but the department does not plan to

AMERICAN OVERSIGHT

use the truck for patrols." Instead, it will be "used for community outreach and engagement, police officials said, and will principally be driven by DARE officers to schools."

Optional Attendees:	Kevin Ellis

KPRC 2 News Houston reporter Gage Goulding reached out for a colleague and requested the sheriff live on Zoom. The interview is scheduled for 1030am Wednesday in Rtic. Clear out by 1015.

Updated talking points forthcoming after most recent IMT email is received in the morning. Topics are prep efforts, assets, and how we took on Ian and Helene.

Wednesday update:
Good morning, Sheriff Marceno!

My name is Marcus Gutierrez, and I am the producer of the 9am show on KPRC 2+ Now this morning.

I just wanted to run by you the questions our anchor's Zach Lashway and Haley Hernandez are going to be asking during your interview at 9:30CT this morning:
((**QUESTION**))
WE WERE TALKING TO FORT MYERS BEACH VICE MAYOR -- Jim Atterholt -- ABOUT THE EVACUATION EFFORTS ON THE OFFICIALS SIDE..
HOW HAS IT BEEN FOR YOUR OFFICE MAKING SURE THE EVACUATIONS RUN SMOOTHLY?
WHAT HAS BEEN THE BIGGEST ISSUES?
(**QUESTION**)
AFTER THE STORM COMES THROUGH -- WHAT ARE SOME OF THE RESOURCES YOUR OFFICE HAS FOR SEARCH AND RECOVERY FOR PEOPLE IN NEED..
(**QUESTION**)
WITH ANY SITUATION -- CRIMINALS CAN STILL BE SOMETHING TO WORRY ABOUT.. WHAT ARE YOUR PLANS FOR ANY POTENTIAL LOOTINGS IF THEY HAPPEN..

AMERICAN OVERSIGHT

Let me know if we need to change anything or if you have any questions!

Hear from you soon!
Marcus Gutierrez
News Producer

Hi Sheriff Marceno-

Here is the Zoom links for the interview on Wednesday with KPRC.
Please log on tomorrow at 9:25 a.m. for a soundcheck.

I attached some helpful interview tips.

Link:
https://grahammedia.zoom.us/j/85864560509

Thank you,

Terrance Kelly
Assignment Editor
KPRC 2

Hurricane Milton

Jail Updates:

-The Jail and CORE facilities are 100% staffed.
-All inmates are in hardened structures.
-Water tanks are on standby if needed for drinking and sanitation.
-Kitchen is staffed and has two-weeks of food for inmates and staff.
-Medical staff will maintain 24/7 care.
-Inmates will be evacuated to top floors in case of flooding.
-Both facilities have room and contingency plans if one needs to evacuate to the other. Vehicles and personnel are staged.

LCSO Updates:

AMERICAN OVERSIGHT

-Our new SHERP high-water rescue vehicle arrived today and we are already trained and ready for its immediate use after the storm.

-The Lee County Sheriff's Office Incident Management Team is actively monitoring Hurricane Milton and is FULLY activated.

-Message boards and deputies are located at each entrance and exit to barrier islands informing residents of the Counties evacuation orders, and informing them of dangers if staying.

-All Student Resource Officers (SROs) are assisting with preparing residents on the barrier islands, and assisting Patrol.
-LCSO personnel and heavy equipment are loading four dump trucks to deliver sand for sandbags throughout the county at fire stations to assist county with more locations.
-Marine Unit has moved most of their boats farther inland. Last remaining boats are for heavy weather rescue and will remove when conditions worsen.
-We've ensured there is enough manpower staged and in place right up to, and immediately after the storm.

-Post storm we have multiple layers of communication so at the PUSH OF THE BUTTON we will deploy.

-LCSO is READY! Our Waterbourne Strike Team and Marine Unit, Special Ops are standing by should the need arise to rescue people.

-Four (4) additional shallow water vessels have been obtained for water rescues.

-Additional High-Water Vehicles have been obtained and will be deployed for potential high-water rescues.

-LCSO administrative services at precinct offices will be halted unit after the storm so we can focus on preparation and possible recovery efforts.

-Once we get sustained winds of 45 MPH, emergency response is stopped until it's safe to respond to calls.

AMERICAN OVERSIGHT

-It could take several hours or more for the winds to subside before a deputy is able to respond, once the impacts begin. SHELTER IN PLACE.

-Don't try to drive anywhere in inclement conditions as the roadways are not safe.
-We urge everyone to prepare for this storm! Prepare for the worst, but hope for the best!

-We know what Mother Nature can do! She is unpredictable, which is why we urge everyone NOT to wait until the last minute to have everything that you need.

-Do NOT go outside during the storm as wind and standing water create hazard that can be fatal.

-Remember the three phases of the storm: BEFORE, DURING, and AFTER. Have you plan for all three.

-Continue to monitor your local media for weather updates, as well as the Lee County Sheriff's Office and Lee County Government on social media for the latest updates.

-WE ARE SWFL STRONG and are IN THIS TOGETHER

EOC FLASH REPORT #6 - 10/9/2024

VISIT OUR HURRICANE RESOURCE PAGE

Dear Members and Chamber Friends,

Please read the report below as well as the document links below from our Cape Coral Emergency Operations Center.

The Chamber holds a seat at the Emergency Operations Center and will be communicating with you regularly as the storm progresses. Please take the proper precautions to prepare your employees, businesses and homes as we continue to monitor the storm.

Hurricane Milton Briefing - 7 AM, 10/9/2024 Milton Forecast to make Landfall as a Category 4 Storm. Wednesday, Oct 9, 2024

Situation Overview Hurricane Milton
? This continues to be a historic storm from the Tampa Bay region southward to Charlotte.
?? Hurricane Warning continues for the entire area. Cat 4 (130 mph) forecast at landfall, with the expanding wind field still expected.
? Storm Surge Warning continues for the entire coast except for Levy county. Life-threatening storm surge forecast:
? 10-15 ft AGL for Hillsborough, Manatee, Sarasota, Charlotte
? 9-13 ft AGL Pinellas
? 8-12 ft AGL for Lee
? 4-7 ft AGL for Pasco
? 2-4 ft AGL Hernando, Citrus
? 3-5 ft MSL Levy
? Negative Surge can occur north of the landfall location, but the average forecast error at this time is 40 miles.

? Flood Watch out for the entire area through Thursday evening. Rainfall amounts of 6 to 12 inches, with localized totals up to 18 inches. Many rivers forecast to go into moderate to major flood stage with a few possibly reaching record levels.
? Timing of impacts to the area looks to be as early as this afternoon and continuing as late as Thursday evening.

Subject:	Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
  - First St between Crescent St & Old San Carlos Blvd
  - Second St between Crescent St & Old San Carlos Blvd
  - Third St between Crescent St & Old San Carlos Blvd

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours <u>after</u>* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Subject: Tropical Storm Milton - Update #13

The 2:00 PM Intermediate Update shows that there are no significant changes in the track. The earliest arrival of tropical storm force winds is projected to be 8:00 PM on Tuesday.

These are the stations that are reported to still have gasoline:

- Veronica Shoemaker/Winkler
- Shell station at Hancock and US 41
- BJ's Cape Coral
- 711 Burnt Store and Pine Island has DIESEL only
- Racetrac at South Pointe and College has 93 Only
- Walmart / Murphy's USA in Lehigh
- Santa Barbara and Veterans 7/11

These are the stations that are reported to be currently **out** of gasoline:

- Country Club and Veterans Circle K
- Del Prado Speedway
- Trafalgar and Skyline 7/11
- Rebel US 41 and Del Prado
- 76 at Chiquita and Pine Island
- Walmart/Murphy's Del Prado
- Walmart on Pine Island Road
- Pine Ridge and San Carlos 7/11
- Santa Barbara and Gleason 7/11
- Palm Tree and Cape Coral Pkwy 7/11

AMERICAN OVERSIGHT

- Lee and Gunnery 7/11
- Del Prado Racetrac
- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Subject: New Caribbean Disturbance - Update #2

The forecast for the area of disorganized showers remains the same; it is still too early to tell if the system will develop further. Regardless of development, heavy rain is expected in our area into the weekend and next week. The Incident Management Team will continue to monitor.

From: IMT <IMT@sheriffleefl.org>
Sent: Tuesday, October 1, 2024 10:35 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Electric Vehicles and Hurricane Milton

*** FIRE SAFETY ALERT***

Chief Financial Officer (CFO) and State Fire Marshal Jimmy Patronis issued a warning to residents and first responders about an alarming fire hazard with Lithium-ion batteries, Electric Vehicles (EV), as well as hybrid and fuel cell vehicles in preparation of Hurricane Milton, now a Category 5 storm. The CFO's Division of State Fire Marshal has confirmed 48 lithium-ion battery fires related to storm surge from Hurricane Helene, with 11 of those fires associated with EVs. Consumer items containing lithium-ion batteries include cars, scooters, hover boards, golf carts or children's toys. The CFO also called on EV manufacturers to be pro-active by alerting consumers to place their EVs to higher ground. Finally, the CFO provided tips on Lithium-Ion Battery safety and how to prepare similar devices in areas prone to storm surge flooding.

AMERICAN OVERSIGHT

CFO & State Fire Marshal Jimmy Patronis said, "In the aftermath of Hurricane Helene, we have seen nearly 50 fires caused by lithium-ion batteries with 11 of those fires being caused by EVs. Floridians living on the coastline who own EVs are at risk of those EVs being inundated with saltwater storm surge which presents a dangerous fire threat to Florida families and their homes. If you have one of these vehicles including cars, scooters, hover boards, golf carts or children's toys that have been compromised by flooding, please unplug the vehicle or device, and move it safely away from your home or apartment into a clear open space. If a vehicle needs to be towed, contact a reputable tow company in your area to safely remove it from your property. EVs and lithium-battery powered devices cannot be disposed of in a typical car lot or trash bin, so you will also want to contact your local government on the best locations for safe disposal.

"As Hurricane Milton approaches, I (CFO Patronis) am calling on EV manufactures across the country to take pro-active measures by notifying customers in storm surge areas to relocate their vehicles. As I've stated before, these compromised vehicles and devices are ticking time bombs, and my office will continue to coordinate with federal, state, and local officials to ensure consumers and first responders are aware of these fire hazards following Hurricane Milton. In the meantime, please take heed of the tips below and ensure that you place your EV at a high level in a parking garage or at a higher elevation that possesses a minor risk of flooding. After the storm, if you do have an EV that has been flooded by saltwater and it remains in your garage or near your home, please remove it immediately to a safe location so that you can worry about fixing your home, instead of rebuilding it due to fire."

Follow these fire safety tips if your EV, hybrid, or alternative fuel vehicle is flooded during Hurricane Milton:

- Leave all windows and/or doors open to allow any potentially flammable gases to vent from the passenger compartment.
- If the vehicle is being stored indoors, and can be moved, move it outside into an open-air location. If it cannot be moved, try to keep the storage area open and vented.
- Unplug and do not attempt to charge the vehicle.
- Disable the vehicle by chocking the wheels, placing the gearshift in park, and removing the ignition key and/or disconnecting the 12V battery.
- Avoid contact with the HV battery especially if a vehicle is showing signs of a damaged or overheating HV battery.
- Follow manufacturers recommendations for your specific vehicle.

Additional Resources and Fire Safety Guidance:

From: IMT
Sent: Wednesday, October 9, 2024 10:51 AM
To: All Users
Cc: Christopher Lalor;James Heuglin
Subject: Safety Statement for 10/9/2024

IMT wants to remind everyone of a few things to be cognizant of during storm response operations. It is of the utmost importance to operate as safely as possible. Our goals are to ensure public safety, maintain order, and secure affected areas. Although the coast is a major concern, there will be a multitude of hazards inland during and after Milton's impact.

Things to remember:

- Ensure your GPX and AVL is on and properly functioning - **THIS IS MANDATORY**
- Remain in your designated shelter location until instructed otherwise
- If cellular communication is lost contact IMT via the RTIC channel
- Prepare an emergency kit: Include food, water, medications, and other essentials to last for at least three days
- Be prepared for wet conditions (additional socks, shoes, uniforms, rain jackets, umbrellas..etc.)
- Remember the storm surge will continue to rise after the storm has passed
- Be mindful of standing water, if you do not know how deep the water is, do not drive through it. Water that is flowing can displace a vehicle
- Know the water level that your vehicle can go through safely. Do not traverse standing water. Water should not be over your hood and headlights. This is very unsafe and will cause damage to the vehicle potentially making it inoperable.
- Stay diligent in assessing your egress point during a surge event. Conditions change rapidly and you could quickly be stranded in a location with rising water compromising your safety.
- Beware of flowing water, do not enter water by yourself
- Beware of hidden hazards, i.e. down electrical lines, generators, gas leaks, obstacles not visible in the water.
- Beware of road hazards, fallen trees, power poles, etc.
- Be mindful that flooded areas could have electrical current flowing through. Look around for potential active power sources
- Displaced animals could present a danger
- Let others know where you are and what you are doing

If you are unsure of any situation or have questions, don't be afraid to ask. Continue to monitor emergency information and stay informed.

CHAMBER OF COMMERCE OF
CAPE CORAL

Evacuation Shelter Reminder

VISIT OUR HURRICANE RESOURCE PAGE

Emergency shelters are open throughout the county. Residents should plan to be in a safe location outside of the evacuation zones, but the window of opportunity is closing as severe weather is expected to move into our area this afternoon/evening.

AMERICAN OVERSIGHT

A list of public shelters is available here: **Public Shelters List**.

Remember, once conditions get bad, **emergency services may be suspended and won't be able to assist you until after the storm has passed.** If you stay and later find it's unsafe, emergency crews won't be able to reach you until it's safe to deploy. Waiting until the last minute puts you and your family at risk. So please, do your part—evacuate now if you're in an evacuation zone.

Evacuation Orders
Lee County has issued evacuation orders for Zones A and B. Residents in these zones should make arrangements to evacuate as soon as possible. For more information about evacuation zones, please visit the Lee County flood zone map: **Lee County Flood Zone Map**.

?
Please stay safe and let us know if you need anything. We will continue to send these reports as we receive them.

Thank you, Donna

Hi Sheriff Marceno,
As I am sure the next few days will be quite busy, I wanted to check in early on your availability this weekend to join us on Fox News Live to discuss the aftermath of Hurricane Milton in Florida. We could do Saturday 12-2pm ET or Sunday 1-2pm ET. Let me know if that might work and we could touch base on Friday.

Thank you!

PROGRESSIVE

The Progressive National Catastrophe Response Team is working to address your needs following Hurricane Helene.

We know how significantly your lives have been impacted and we're committed to servicing your claims quickly, accurately, and fairly. We are closely monitoring Hurricane Milton and urge you to follow the advice of local authorities and take any necessary measures to keep you and your family safe. Just as your safety is important to us, so too is the safety of our Progressive family and the vendors we work with. With the formation and impending landfall of Hurricane Milton, we may need to suspend some of our Florida response work this week which also impacts facilities and vendors we work with. We apologize for any delays that these safety protocols may have on the resolution of your claim, and once it is safe to do so, we'll continue to work diligently to help.

In the interim, should you have any questions about coverages or your claim, you may contact us online at progressive.com, through the Progressive App, or by calling 1-800-776-4737.

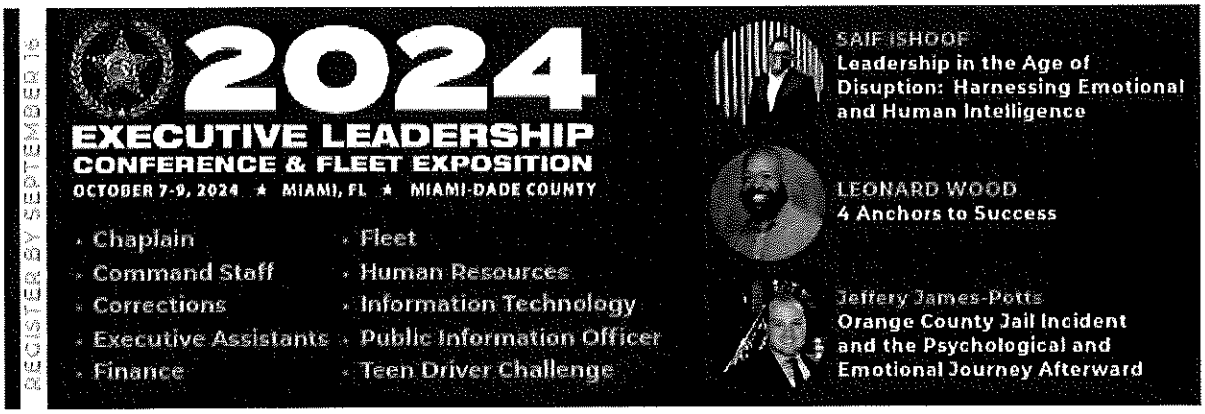
Sheriffs,



Please share with your staff that may be responding post impact for Hurricane Milton:

Law Enforcement Check in locations:

- From the South: Charlotte County, Weigh Station NB I-75 and mm 160
- From the North: Marion County, Wildwood Ocala S/B Weigh Station/Scale I-75 MM# 339
- From the East: Hillsborough County, Florida State Fair Ground; 4800 US HWY 301 N., Tampa FL 33610

These check in locations will be opened once it is safe to do so after the storm. It will be permitted for one member of your deployment to check in your entire team.

Subject: Hurricane Milton - Update #35

As of this update, the latest storm information is as follows:

- Milton is still forecast to make landfall in the Sarasota County area.
- The maximum sustained wind speed is currently 145 mph.
- Hurricane Milton is moving NE at 17 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 931 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 35 miles.
- Tropical-storm-force winds extend outward up to 175 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.
- A rain band is moving through Lee County now.

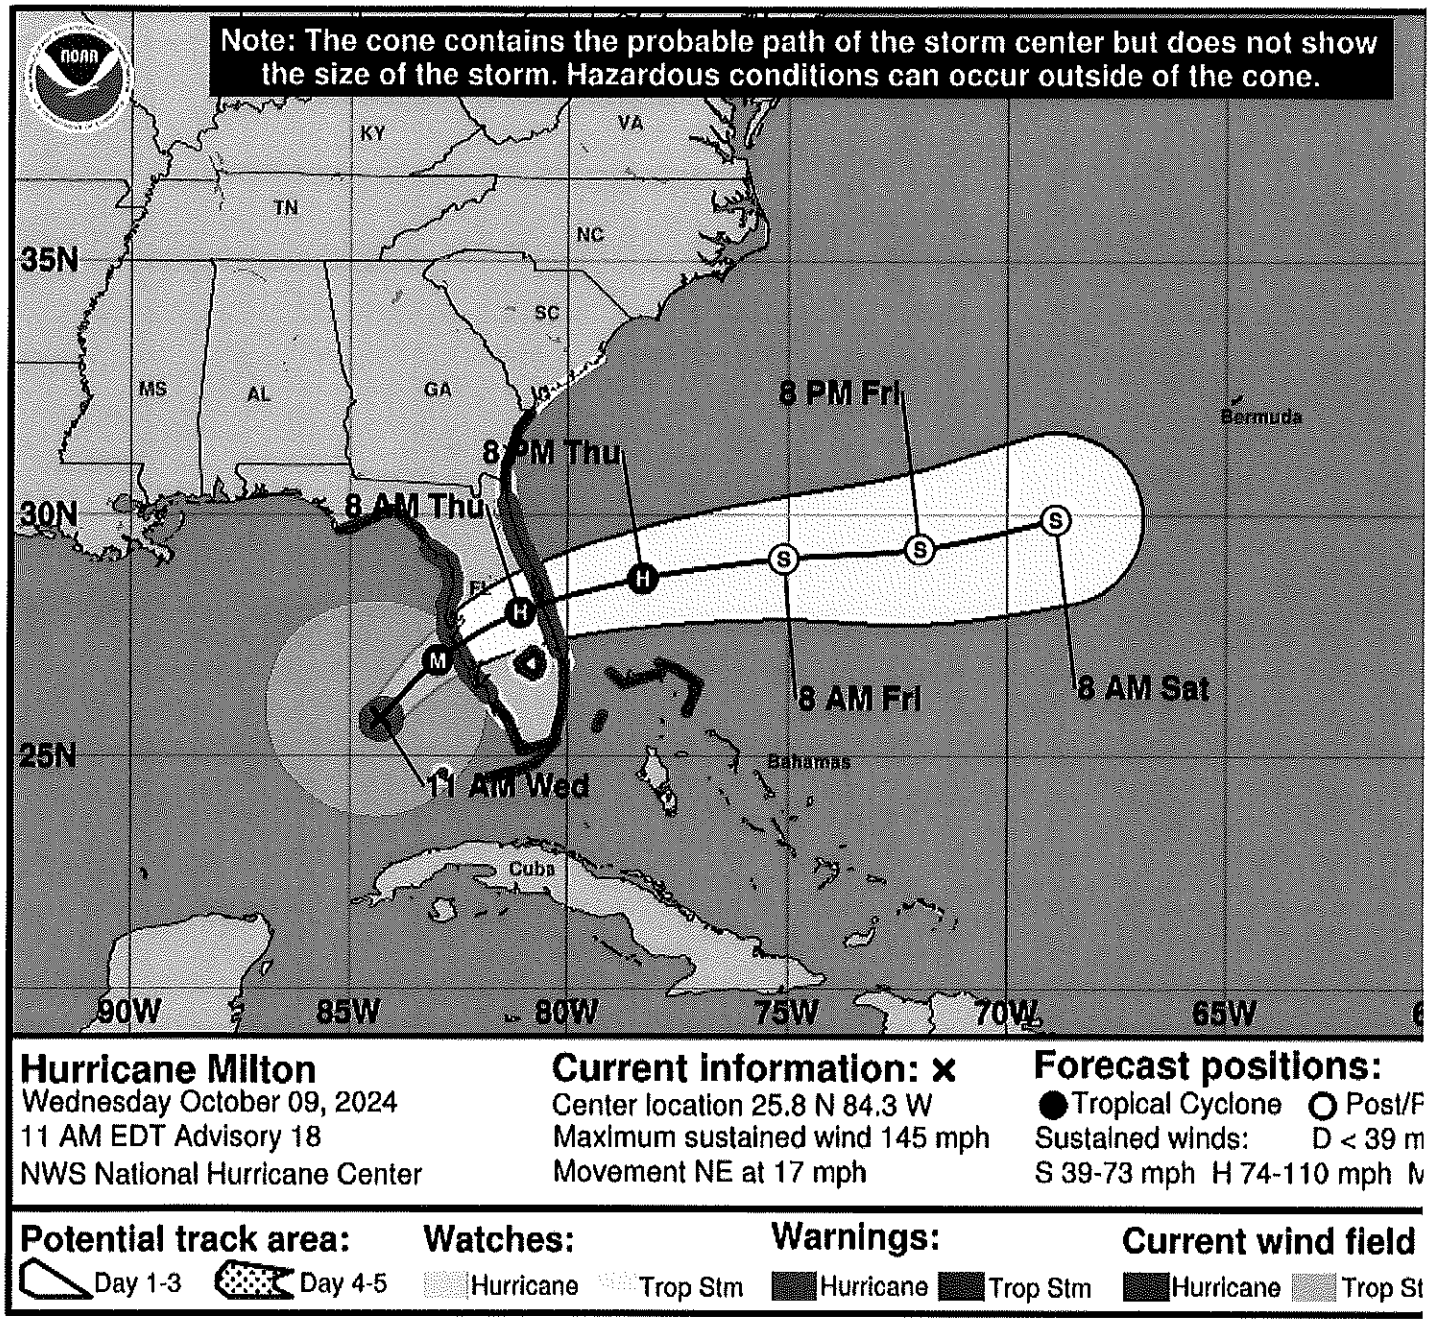
As of this update, new notifications are as follows:

- Rumors are spreading that shelters are full. This is not true. The only shelter that is near capacity is Estero Rec Center. Capacity is approximately 36,000 people and shelters are currently about 15% full.
- The Town of Fort Myers Beach is prepared for post-storm search and rescue, then debris removal.
- Sanibel Police have evacuated the island and the Sanibel Check Station has been dismantled.
- 4th Precinct personnel have been pulled off the barrier islands.
- 3rd Precinct personnel have been pulled off the barrier islands.
- All Message Boards are being moved to safe storage.

Flooding:

- Minor reports of standing water on the road on Estero Island.

Shelters Updates:



- Alico Arena - 174
- Dunbar High School: At Shelter 604, FMPD Covering Shelter
- Estero Recreation Center: Registered - 905, At Shelter - 421
- Hertz Arena: At Shelter - 626
- Island Coast High School: At Shelter - 1,090
- Oak Hammock Middle: At Shelter - 1,200
- Ray Pottorf Elementary: At Shelter - 193, FMPD Covering Shelter
- Tortuga Elementary: At Shelter - 140
- Varsity Lakes Middle: At Shelter - 75
- Gateway High School: At Shelter - 183

AMERICAN OVERSIGHT

- Harns Marsh Elementary: At Shelter - 41
- Harns Marsh Middle: At Shelter - 141
- East Lee County High School: At Shelter - 229
- SOPU Shelter: At Shelter - 8

Gas Station Updates:

- 7-11 at 8920 Colonial Center Dr. in Fort Myers is open for LEO only until the power goes out. There is 4000 gallons left.
- Shell at 13621 N. Cleveland Ave. will be closing at 1:00 PM.

Sent: Wednesday, October 9, 2024 8:43 AM

AMERICAN OVERSIGHT

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
    - First St between Crescent St & Old San Carlos Blvd
    - Second St between Crescent St & Old San Carlos Blvd
    - Third St between Crescent St & Old San Carlos Blvd

Shelters Updates:

- Alico Arena - 137
- Dunbar High School: At Shelter 604, FMPD Covering Shelter
- Estero Recreation Center: Registered - 850, At Shelter - 360
- Hertz Arena: At Shelter - 560
- Island Coast High School: At Shelter - 911
- Oak Hammock Middle: At Shelter - 994
- Ray Pottorf Elementary: At Shelter - 193, FMPD Covering Shelter

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.
- Shelters:
    - Alico Arena - 54
    - Dunbar High School: Occupancy 174, FMPD Covering Shelter

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours <u>after</u>* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Sent: Sunday, October 6, 2024 8:57 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Sent: Tuesday, October 1, 2024 10:35 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Lee County Government mid-day update on Hurricane Milton

Fort Myers, FL, Oct. 9, 2024 – Lee County's daily noon update on Hurricane Milton is available for viewing on the county's YouTube channel, www.youtube.com/@LeeCountyFLBOC. You can view it by clicking here.

Below are highlights from the noon Facebook Live update:

Milton is a powerful Category 4 Major Hurricane. Residents need to be aware that the forecast from the National Hurricane Center (NHC) and Florida Division of Emergency Management includes:

- Sustained tropical storm force winds are coming ashore now.
- Sustained tropical storm-force winds, and sustained hurricane force winds at the peak of our impacts.
- Since last night, the NHC has held our storm surge forecast at 8 to 12 feet.

Everyone needs to be at their shelter-in-place location now. The storm impacts will reach far beyond the cone. It is not safe to be out, or to return to your home if you have evacuated.

As the tropical storm force winds are arriving, the time to shelter in place is now. Do not be on the roads.

A mandatory evacuation order remains in place for Zones A and B in Lee County. The county is monitoring traffic data, reports from municipalities and first responders and is encouraged at the number of people who appear to have evacuated in the last 36 hours. Lee County asks that residents who have evacuated to notify family and friends now of their location in case they lose cellular or internet connectivity.

As of noon, there were more than 6,800 people in 13 shelters in Lee County – the full list can be found at www.leegov.com/storm.

The shelters are:

- Alico Arena
- Dunbar High School
- East Lee County High School

AMERICAN OVERSIGHT

- Estero Recreation Center, approaching capacity; please use another shelter, including Hertz Arena off Ben Hill Griffin Parkway.
- Gateway High School
- Harns Marsh Elementary School
- Harns Marsh Middle School
- Hertz Arena
- Island Coast High School
- Oak Hammock Middle School
- Tortuga Preserve Elementary School
- Treeline Elementary School
- Varsity Lakes Middle School
- Special medical needs shelter, operated with the Florida Department of Health
- Estero Recreation Center, one of the first shelters to open, is approaching capacity. Please use another shelter, including Hertz Arena off Ben Hill Griffin Parkway.

Shelters offer basic life-sustaining necessities, such as protection from the weather; water and basic food; and sanitary services. All shelters are pet friendly. Pets need to be on a leash or in a crate. Owners are responsible for feeding, exercising and cleaning up after their pets.

- County updates:
    - Preparations are being made for damage assessment and immediate recovery actions with our teams and stakeholders
    - 1,285 calls were received by the United Way 211 Emergency Information Hotline before 7 a.m. today and continues to accept questions from the community. You can reach them by dialing 211, or 239 433-3900.
    - All county drawbridges were locked down at 8 a.m.
    - LeeTran operations have been suspended.
    - County office closure has been extended through Friday.
    - The county website had more than 75 million hits in the last 24 hours. Follow Lee County website at leegov.com/storm and Lee County Government on Facebook

- Reminders from the County:
    - First responders will be prevented from responding as sustained windspeeds increase. Law enforcement, fire, and EMS representatives in the Emergency Operations Center (EOC) will coordinate on a plan to halt emergency responses until the weather conditions improve.
        - When fire or EMS calls are queued, 911 callers are re-contacted by phone to continue to assess their situation throughout the storm.
        - Hospitals may also lock down, preventing access for transporting ambulances

Lee County will not physically close bridges. Law enforcement may be staged as a precaution to warn travelers of flooded roads or other hazards. No one should be on the roads when winds reach 40 mph.

If you require additional assistance, you can call the Emergency Information Hotline at 211, or 239 433-3900.

AMERICAN OVERSIGHT

Hurricane Milton Talking Points- During Storm

-The Lee County Sheriff's Office is PREPARED. We are no stranger to what these storms bring.

-Even as it passes through, Milton is still unpredictable.

-Fire departments and the local government have evacuated the barrier islands.

-We are going to be affected by this storm, how bad is up to mother nature.

-We plan for the worst, pray for the best.

- Three parts to a storm: before, during, and after. We are in the 'During'.

-Our Incident Management Team is working alongside the county at the Emergency Operations Center.

-High water rescue vehicles are being moved to be as close as possible to assist after storm passes.

-Shallow water boats have been secured near critical areas that are prone to storm surge and flooding.

-Four additional shallow water boats, 6 high water vehicles, and the SHERP, brought in to be READY.

AMERICAN OVERSIGHT

-The first effects were felt starting at noon. The rain bands extend well away from the Milton and we will have these for hours' after

-We pulled our Deputies off the road when winds exceeded 45 MPH.

-We've ensured there is enough manpower staged and in place right up to, and immediately after the storm.

-Post storm we have multiple layers of communication so at the PUSH OF THE BUTTON we will deploy.

-LCSO is READY! Our Waterborne Strike Team and Marine Unit, Special Ops are standing by should the need arise to rescue people.

-Once the winds allow- WE WILL BE OUT THERE.

-We're asking our great residents to keep the roads clear to let first responders get to emergencies, and set up traffic control.

-Continue to monitor your local media for post storm updates, as well as the Lee County Sheriff's Office and Lee County Government on social media for the most up to date information.

-WE ARE SWFL STRONG and are IN THIS TOGETHER

Subject: Hurricane Milton - Update #36

As of 1:00 PM, the National Hurricane Center states that there is a fairly steady track from the previous forecast cycle. The average error was 25 miles at that time.

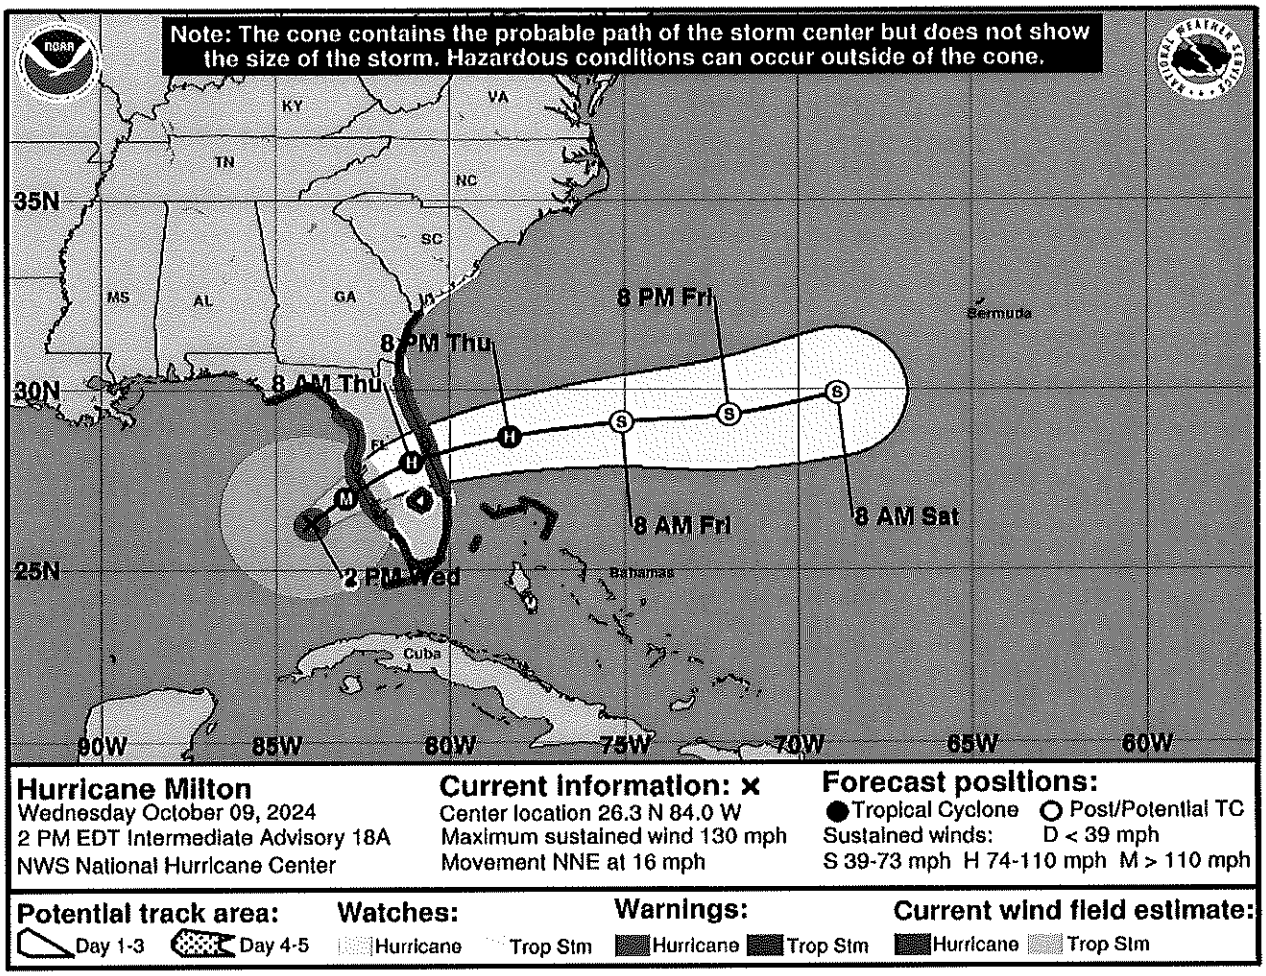
As of this update, the latest 2:00 PM storm information is as follows:

- Milton currently adjacent to Lee County.
- The maximum sustained wind speed is currently 130 mph.
- Hurricane Milton is moving NNE at 16 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 944 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 35 miles.
- Tropical-storm-force winds extend outward up to 250 miles, especially to the north.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- Waterborne Strike Team Units are staged at LeeTran with Jon Boats and the Bearcat for emergency water rescues.
- Pine Island Fire Department, Fort Myers Beach Fire Department, and Sanibel Police Department are no longer responding to calls for service.

Known Roadway Hazards:



- Inlet Dr (off Orange Grove) - Not Passable - knee deep water
- Stipe St. E from Moody Rd - Passable - approx 4" of water
- Seaworthy Rd at Moody Rd - Passable - approx 4" of water
- Betmar Blvd at Jayde Ct - Passable - approx 4" water
- N Tamiami at E. N. Shore - Not Passable - approx 6" water

Shelters Updates:

Subject: Hurricane Milton - Update #35

As of this update, the latest storm information is as follows:

- Milton is still forecast to make landfall in the Sarasota County area.
- The maximum sustained wind speed is currently 145 mph.
- Hurricane Milton is moving NE at 17 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 931 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 35 miles.
- Tropical-storm-force winds extend outward up to 175 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

AMERICAN OVERSIGHT

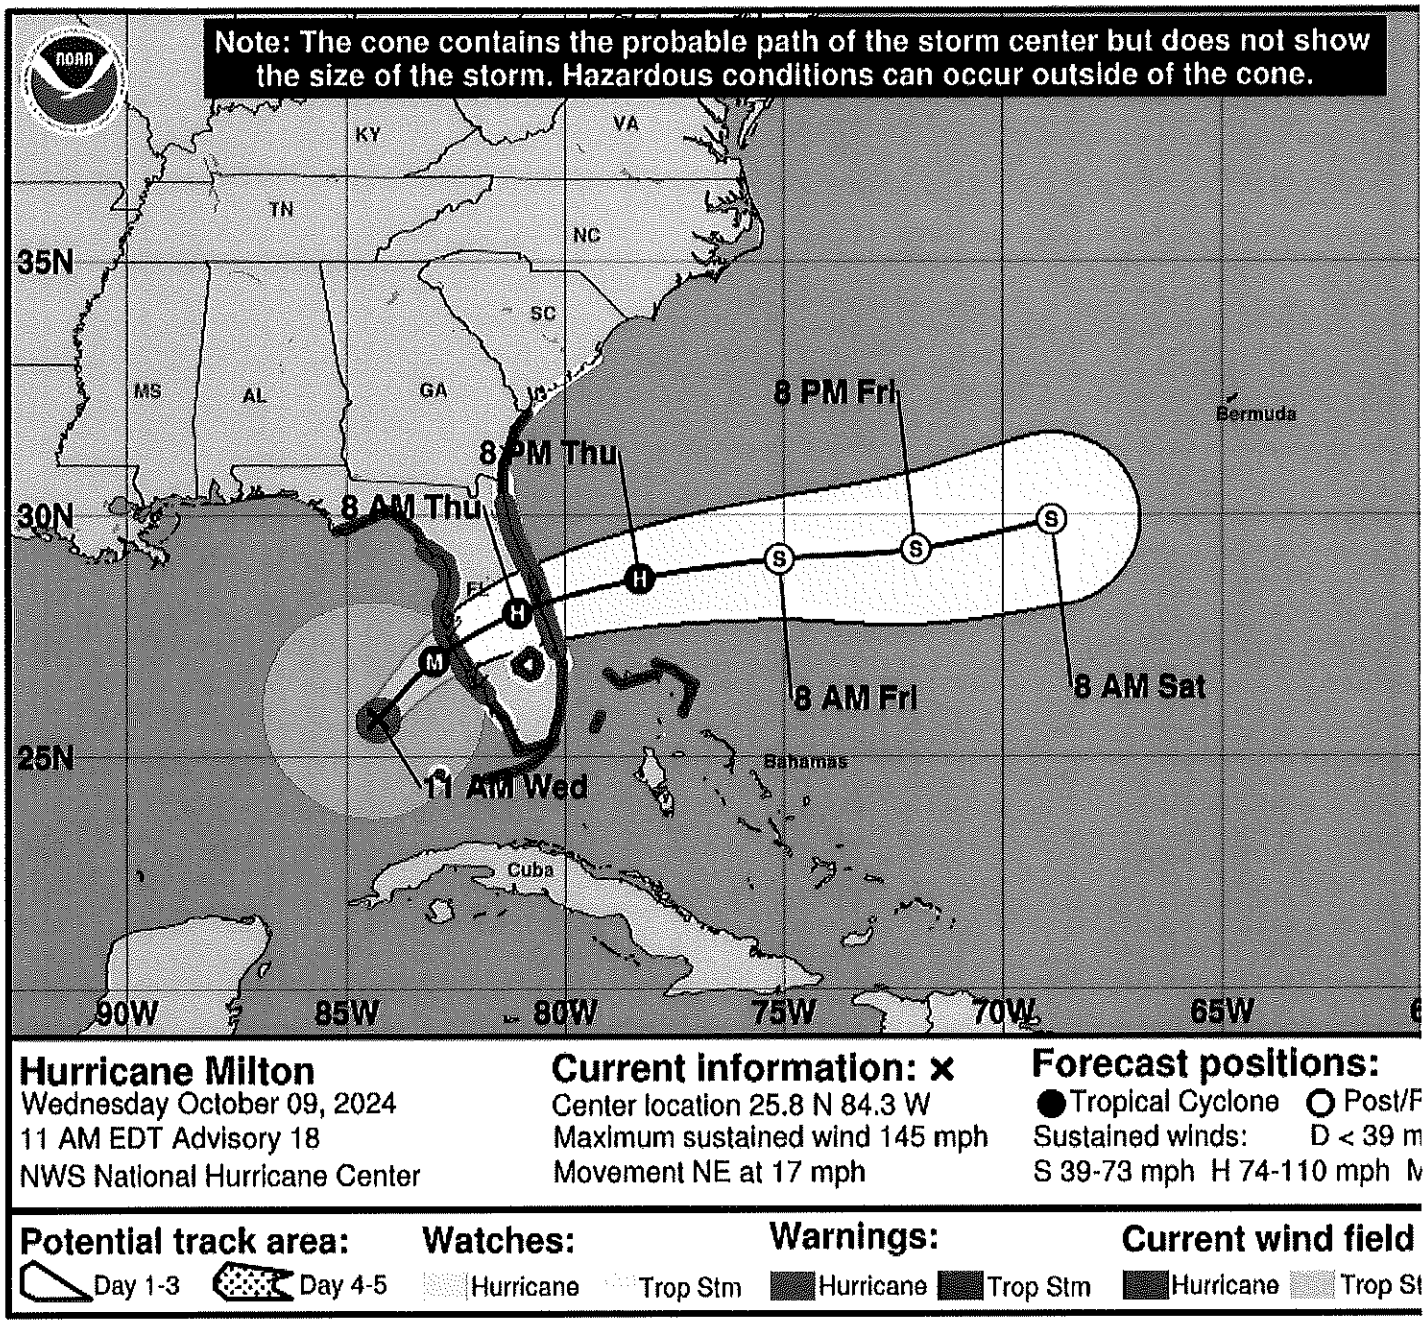
- A rain band is moving through Lee County now.

As of this update, new notifications are as follows:

- Rumors are spreading that shelters are full. This is not true. The only shelter that is near capacity is Estero Rec Center. Capacity is approximately 36,000 people and shelters are currently about 15% full.
- The Town of Fort Myers Beach is prepared for post-storm search and rescue, then debris removal.
- Sanibel Police have evacuated the island and the Sanibel Check Station has been dismantled.
- 4th Precinct personnel have been pulled off the barrier islands.
- 3rd Precinct personnel have been pulled off the barrier islands.
- All Message Boards are being moved to safe storage.

Flooding:

- Minor reports of standing water on the road on Estero Island.



Shelters Updates:

- Alico Arena - 174
- Dunbar High School: At Shelter 604, FMPD Covering Shelter
- Estero Recreation Center: Registered - 905, At Shelter - 421
- Hertz Arena: At Shelter - 626

Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

AMENDED OVERSIGHT

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

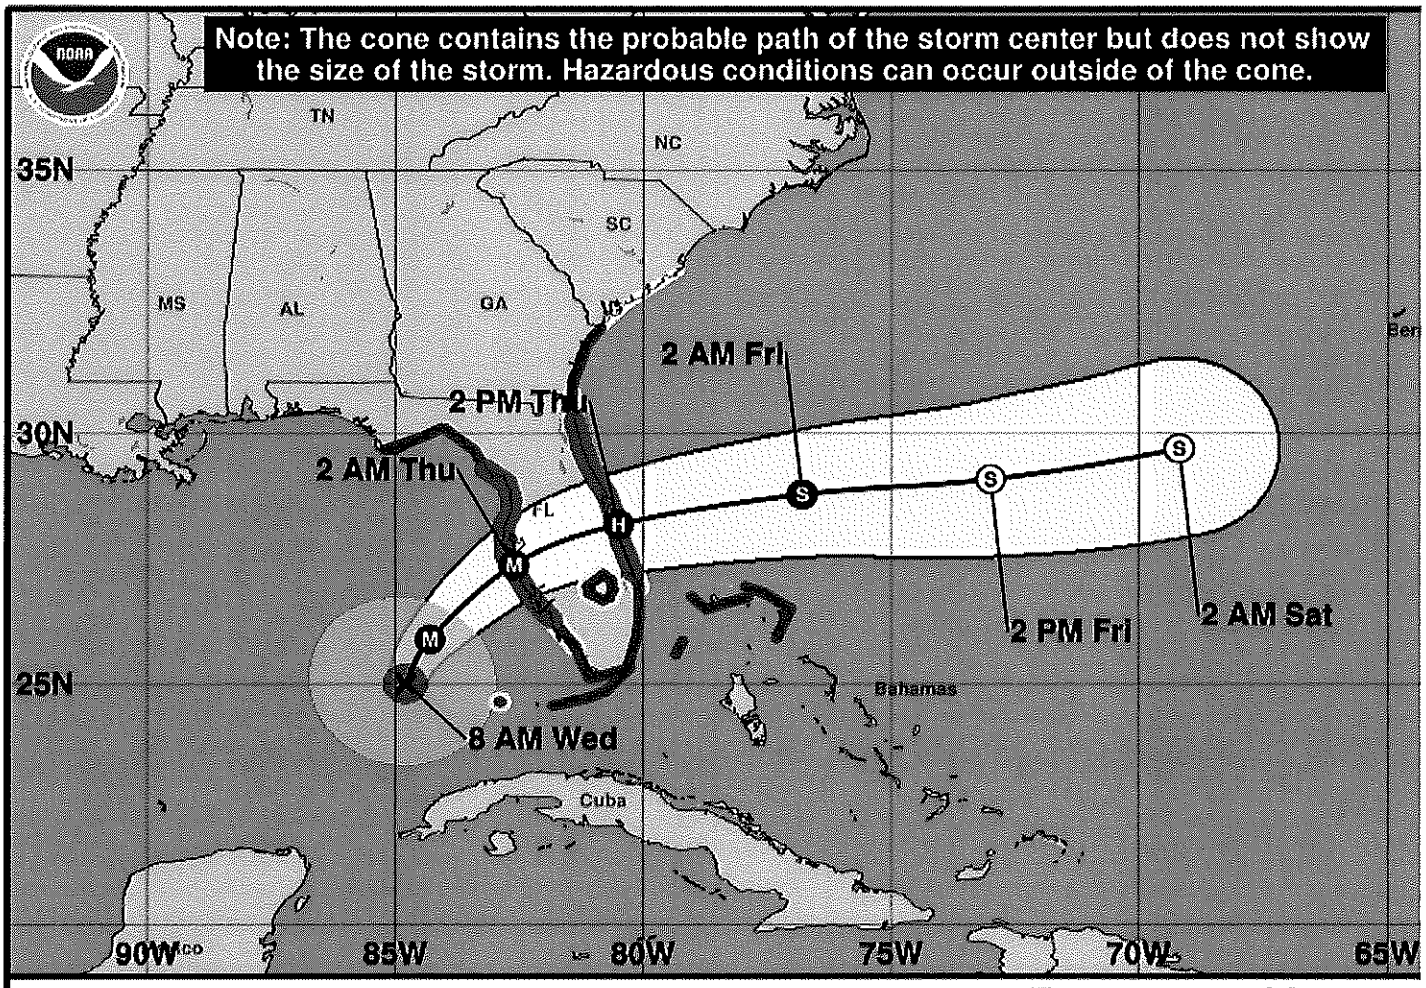
As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
    - First St between Crescent St & Old San Carlos Blvd
    - Second St between Crescent St & Old San Carlos Blvd
    - Third St between Crescent St & Old San Carlos Blvd

Shelters Updates:



- Alico Arena - 137

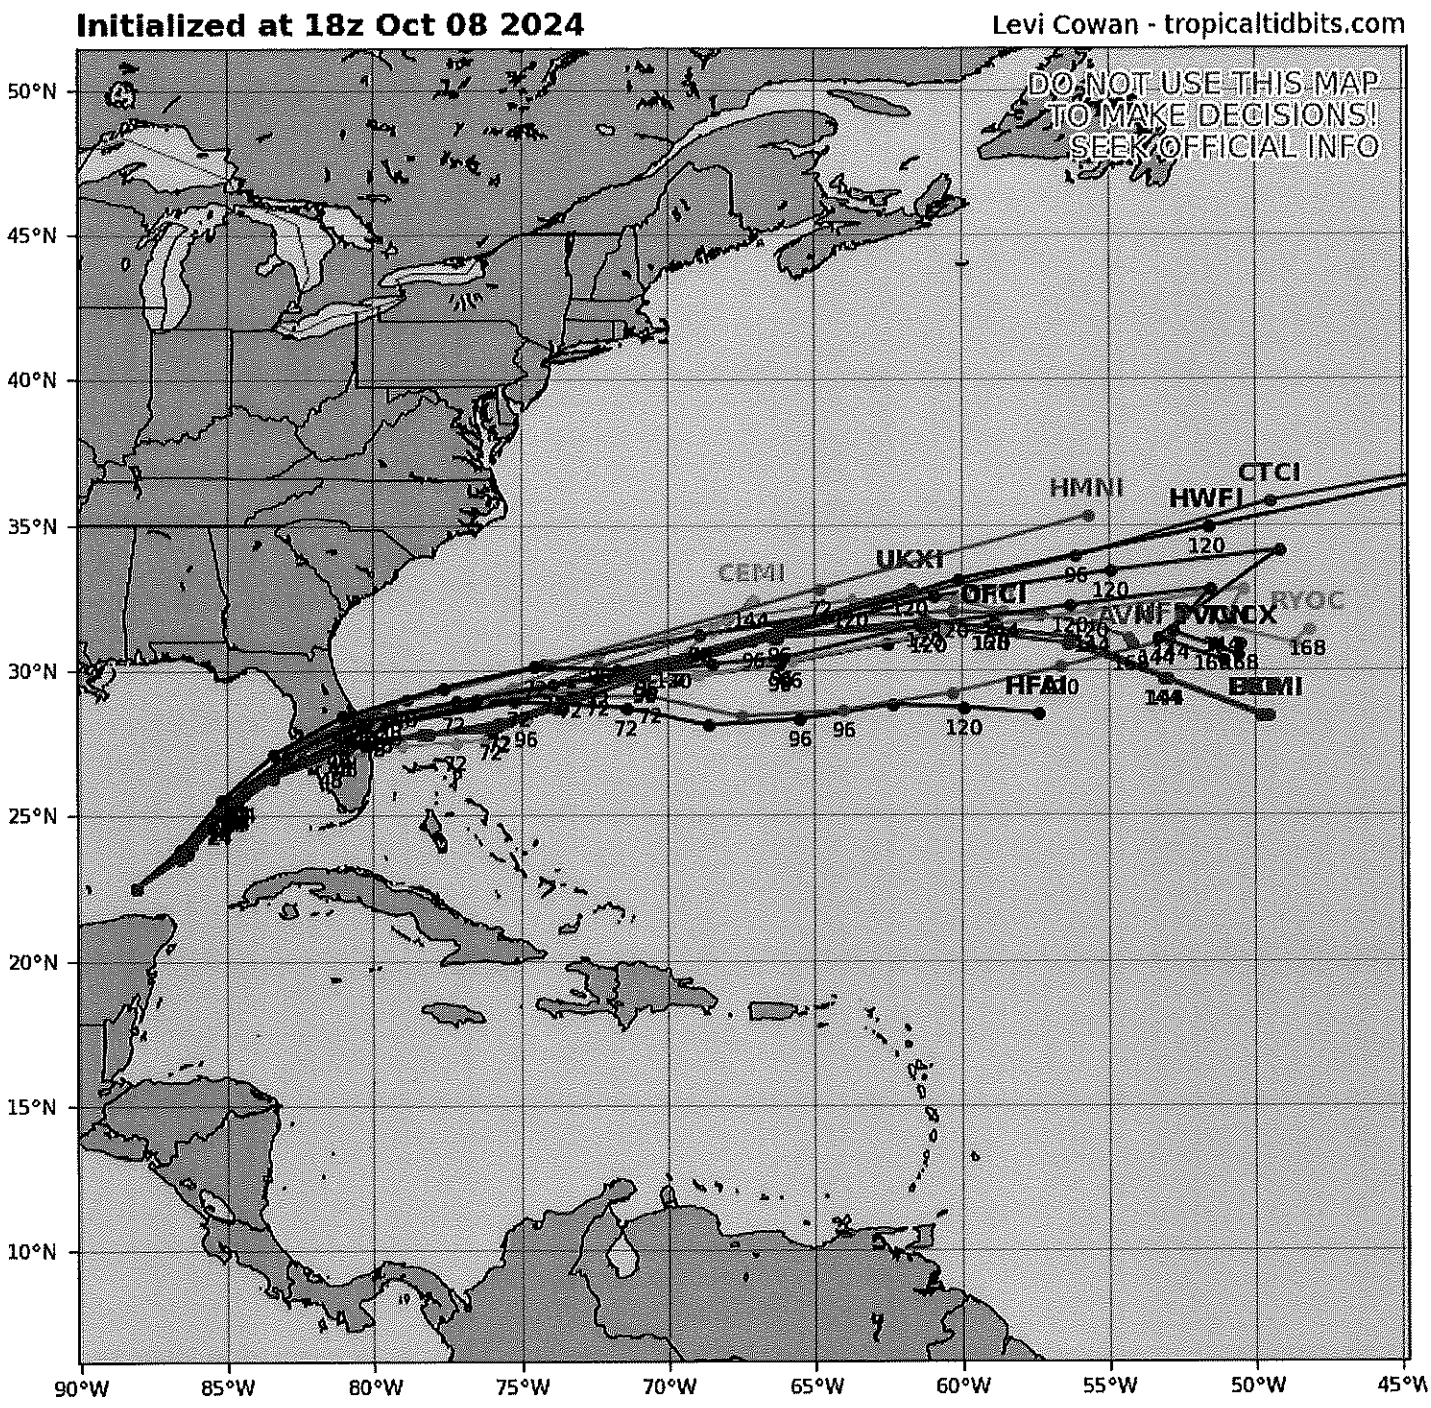
- 7-11 at Gateway is out of gas.



AMERICAN OVERSIGHT

Hurricane Milton
Tuesday October 08, 2024
04 PM CDT Advisory 15
NWS National Hurricane Center

User Notes: Water levels along the immediate coast could reach the following heights above ground level within the indicated areas. Elevated water levels will likely be accompanied by large and destructive waves. Colors are determined by the highest values in the associated forecast peak surge range. Values shown on this graphic are inclusive of tide.

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.
- Shelters:
    - Alico Arena - 54
    - Dunbar High School: Occupancy 174, FMPD Covering Shelter
    - Estero Recreation Center: Registered - 662, At Shelter - 217
    - Hertz Arena: At Shelter - 212
    - Island Coast High School: At Shelter - 311
    - Oak Hammock Middle: At Shelter - 273
    - Ray Pottorf Elementary: Occupancy is 62

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours <u>after</u>* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Subject: Hurricane Milton - Update #16

The 11:00 PM update shows little movement in Hurricane Milton's track. Maximum sustained wind speeds are at 90 mph. Model tracks vary widely on the landfall location along Florida's West Coast. The Incident Management Team will continue to monitor and provide timely updates.

As of this update, new notifications are as follows:

Gas Availability:

- RaceTrac - 15820 Winkler Rd. - Pump 15 & 16 for First Responders - Contact is Tracy
- 7-11 - 12750 Cleveland Ave. - Pump 10 & 12 for First Responders - Contact is Vanilla
- RaceTrac - 5991 South Pointe Blvd. - Pump 19 & 20 for First Responders - Contact is Vince
- Mobil/7-11 - 20391 Summerlin Rd. - Pump 6 for First Responders - Contact is Susan
- Circle K - 20021 Summerlin Rd. - Pump 1 for First Responders - Contact is Kyle
- 7-11 - 15021 McGregor Blvd. - Pump 1 for First Responders - Contact is Jessica
- Mobil/7-11 - 17930 N. Tamiami Trl. - Pump 9 & 10 for First Responders - Contact is Joseph
- Circle K - 6381 Bayshore Rd. - Pump 10 for First Responders - Contact is Elizabeth

AMERICAN OVERSIGHT

- Circle K - 19101 N. Tamiami Trl. - Pump 1 & 2 for First Responders - Contact is Christy
- 7-11 - 100 Delaware in Lehigh Acres - Pump 1 & 2 for First Responders.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Subject: Tropical Storm Milton - Update #13

The 2:00 PM Intermediate Update shows that there are no significant changes in the track. The earliest arrival of tropical storm force winds is projected to be 8:00 PM on Tuesday.

These are the stations that are reported to still have gasoline:

- Veronica Shoemaker/Winkler
- Shell station at Hancock and US 41
- BJ's Cape Coral
- 711 Burnt Store and Pine Island has DIESEL only
- Racetrac at South Pointe and College has 93 Only
- Walmart / Murphy's USA in Lehigh
- Santa Barbara and Veterans 7/11

These are the stations that are reported to be currently **out** of gasoline:

- Country Club and Veterans Circle K
- Del Prado Speedway
- Trafalgar and Skyline 7/11
- Rebel US 41 and Del Prado
- 76 at Chiquita and Pine Island
- Walmart/Murphy's Del Prado
- Walmart on Pine Island Road
- Pine Ridge and San Carlos 7/11
- Santa Barbara and Gleason 7/11
- Palm Tree and Cape Coral Pkwy 7/11

AMERICAN OVERSIGHT

- Lee and Gunnery 7/11
- Del Prado Racetrac
- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Sent: Thursday, October 3, 2024 9:56 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Business Impact and Damage Assessment Survey

Good Afternoon,

As we ride through Hurricane Milton, we are connecting with our state and federal resource partners for business support. We hope you and your team are in a safe place.

When the time is appropriate, please share our Business Impact Assessment Survey to your networks so we can identify the greatest needs and concerns.

We appreciate these partnerships during this time of emergency, please let us know if there is something we can assist you with.

In unity,
Your Lee County Economic Development Team

AMERICAN OVERSIGHT

Please see the noon update from Lee County below with shelter information.

Lee County's daily noon update on Hurricane Milton is available for viewing on the county's YouTube channel, www.youtube.com/@LeeCountyFLBOC. You can view it by clicking here.
Below are highlights from the noon Facebook Live update:
Milton is a powerful Category 4 Major Hurricane. Residents need to be aware that the forecast from the National Hurricane Center (NHC) and Florida Division of Emergency Management includes:

- Sustained tropical storm force winds are coming ashore now.
- Sustained tropical storm-force winds, and sustained hurricane force winds at the peak of our impacts.
- Since last night, the NHC has held our storm surge forecast at 8 to 12 feet.

Everyone needs to be at their shelter-in-place location now. The storm impacts will reach far beyond the cone. It is not safe to be out, or to return to your home if you have evacuated.
As the tropical storm force winds are arriving, the time to shelter in place is now. Do not be on the roads.
A mandatory evacuation order remains in place for Zones A and B in Lee County. The county is monitoring traffic data, reports from municipalities and first responders and is encouraged at the number of people who appear to have evacuated in the last 36 hours. Lee County asks that residents who have evacuated to notify family and friends now of their location in case they lose cellular or internet connectivity.
As of noon, there were more than 6,800 people in 13 shelters in Lee County – the full list can be found at www.leegov.com/storm.
The shelters are:

- Alico Arena

I may be able to do tentative 845 depending on recovery and rescue. Let me talk with the bosses and get back to you

AMERICAN OVERSIGHT

Hurricane Milton Talking Points- During Storm

-The Lee County Sheriff's Office is PREPARED. We are no stranger to what these storms bring.

-Even as it passes through, Milton is still unpredictable.

-Fire departments and the local government have evacuated the barrier islands.

-We are going to be affected by this storm, how bad is up to mother nature.

-We plan for the worst, pray for the best.

- Three parts to a storm: before, during, and after. We are in the 'During'.

-Our Incident Management Team is working alongside the county at the Emergency Operations Center.

-High water rescue vehicles are being moved to be as close as possible to assist after storm passes.

-Shallow water boats have been secured near critical areas that are prone to storm surge and flooding.

-Four additional shallow water boats, 6 high water vehicles, and the SHERP, brought in to be READY.

AMERICAN OVERSIGHT

-The first effects were felt starting at noon. The rain bands extend well away from the Milton and we will have these for hours' after

-We pulled our Deputies off the road when winds exceeded 45 MPH.

-We've ensured there is enough manpower staged and in place right up to, and immediately after the storm.

-Post storm we have multiple layers of communication so at the PUSH OF THE BUTTON we will deploy.

-LCSO is READY! Our Waterborne Strike Team and Marine Unit, Special Ops are standing by should the need arise to rescue people.

-Once the winds allow- WE WILL BE OUT THERE.

-We're asking our great residents to keep the roads clear to let first responders get to emergencies, and set up traffic control.

-Continue to monitor your local media for post storm updates, as well as the Lee County Sheriff's Office and Lee County Government on social media for the most up to date information.

-WE ARE SWFL STRONG and are IN THIS TOGETHER

Phoner with NewsNation. Sheriff to call Executive Producer, Gresham 917-602-0471

UPDATED TALKING POINTS

Sheriff Talking Points Hurricane Milton

-Our Incident Management Team was up all night monitoring the impacts from Hurricane Milton and staying up to date with the latest information.

-While Lee County was spared from landfall, we can report significant damage throughout parts of the county.

-Lee County experienced significant storm surge in our coastal areas, potential tornado touchdowns, and hurricane force winds.

-Damage assessments are still ongoing and will take some time.

-Many of our county roads are flooded or impassible at this time. We urge residents to avoid these areas until the water recedes and storm debris is cleared from the road.

-Do not walk in standing water. 1) It could be deep, 2) There could be downed power lines, 3) Other storm hazards present

AMERICAN OVERSIGHT

-Today the main goal is to survey the entire county and figure out what resources are needed to get people the help that they need.

-Right now there are 247,000 residents without power.

-FPL and LCEC are actively out to begin repairing and restoring power.

-In Lee County, 52% of the traffic signals are not functioning

-DOT Crews are out assessing and repairing them as we speak

-Treat all intersections as a 4-way stop if the lights are not functioning.

-We have all of our assets standing by READY to assist including high water rescue vehicles to assist with any rescues.

-The Sanibel Causeway IS passable for emergency vehicles

-Our thoughts and prayers are with our fellow Floridians that felt the full impact from Hurricane Milton.

-I will ensure that we will send resources to them like they did for us in the aftermath of Hurricane Ian.

IMT UPDATES (As of 6:30AM)

-1661 Calls for Service between yesterday into this morning.
301 of those calls have been since midnight
69 of which are wellbeing checks
-Your calls will be answered! We are working on clearing these calls that came in.

JAIL UPDATES (As of 6:00AM)

-1642 total inmates (470 at Main Jail & 1172 at CORE Facility)
-14 new bookings overnight
-Loss of power at both facilities, however power has been restored at the CORE.

AM OVERSIGHT

-Generator power is keeping the facility fully functional.
-One inmate was transported due to altered mental state.

LOOTING

-Following the storm, it's important to protect your home from looters.
-We saw it happen during Hurricane Ian, so you need to prepare.
-Looters will be prosecuted to the fullest extent of the law!
-"Not here in Lee County!"

-Secure all windows and doors.
-Safeguard valuable items.
-Call Law Enforcement to report any looting.

-The best resource right now is to continue following our social media pages for the latest updates on any road closures.

-We are FLORIDA STRONG

He can call into our Executive Producer, Gresham and he will transfer him to the line for the interview: 917-602-0471

Can you send your cell as a backup in case of anything.

Please provide your number. He will call you.

City of Bonita Springs Hurricane Milton Advisory #9:
The City Continues to Monitor the Effects of Hurricane Milton

The City of Bonita Springs continues to monitor the effects of Hurricane Milton. Bonita Springs residents who live near the Imperial River are encouraged to continue to

AMERICAN OVERSIGHT

monitor the water levels. The Imperial River is now at 11.32. To monitor water levels please visit.

Milton is a powerful Category 4 Major Hurricane. Residents need to be aware that the forecast from the National Hurricane Center (NHC) and Florida Division of Emergency Management includes:

-
  - Sustained tropical storm force winds are coming ashore now.
  - Sustained tropical storm-force winds, and sustained hurricane force winds at the peak of our impacts.
  - Since last night, the NHC has held our storm surge forecast at 8 to 12 feet.

Everyone needs to be at their shelter-in-place location now. The storm impacts will reach far beyond the cone. It is not safe to be out, or to return to your home if you have evacuated. As the tropical storm force winds are arriving, the time to shelter in place is now. Do not be on the roads.

A mandatory evacuation order remains in place for Zones A and B in Lee County. The county is monitoring traffic data, reports from municipalities and first responders and is encouraged at the number of people who appear to have evacuated in the last 36 hours. Lee County asks that residents who have evacuated to notify family and friends now of their location in case they lose cellular or internet connectivity.

There are 13 shelters open in Lee County – the full list can be found at www.leegov.com/storm.

The shelters are:

- Alico Arena
- Dunbar High School
- East Lee County High School
- Estero Recreation Center, approaching capacity; please use another shelter, including Hertz Arena off Ben Hill Griffin Parkway.

AMERICAN OVERSIGHT

- Gateway High School
- Harns Marsh Elementary School
- Harns Marsh Middle School
- Hertz Arena
- Island Coast High School
- Oak Hammock Middle School
- Tortuga Preserve Elementary School
- Treeline Elementary School
- Varsity Lakes Middle School
- Special medical needs shelter, operated with the Florida Department of Health
- Estero Recreation Center, one of the first shelters to open, is approaching capacity. Please use another shelter, including Hertz Arena off Ben Hill Griffin Parkway.

Shelters offer basic life-sustaining necessities, such as protection from the weather; water and basic food; and sanitary services. All shelters are pet friendly. Pets need to be on a leash or in a crate. Owners are responsible for feeding, exercising and cleaning up after their pets.

City updates:

- Preparations are being made for damage assessment and immediate recovery actions with our teams and stakeholders.
- City Staff completed going door to door in areas near the Imperial River and handed out flyers in both English and Spanish urging residents to monitor water levels and heed evacuation orders.
- City Staff completed cleaning storm drains and prepared city facilities prior to Hurricane Milton.
- City office closure has been extended through Friday.
- City Communications continue through the storm. To receive city information please visit the City of Bonita Springs Website and follow the City of Bonita Springs on Facebook.
- The city has also created a webpage for Hurricane Milton. Storm-specific information will posted here.

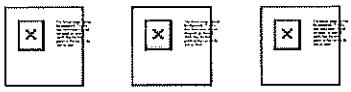
AMERICAN OVERSIGHT

- Residents are encouraged to download the city's free mobile app.

Once the storm passes, residents are urged to stay off the roads. There will be flooding on roadways. It will take the infrastructure time to drain. Please stay off the roadways to allow cleanup crews time to clear the roadways and assess the damage. As soon as its safe, city staff will begin the first push to clear debris.

In conjunction with mandatory evacuation of Zone A, and to aid in protection of potable water supply Bonita Springs Utilities has reduced pressure of the watermain along Bonita Beach Rd. from Imperial Shores Blvd. West to include Little Hickory Island, Big Hickory Island, and Black Island. Boil water notices are in affect for this area.

- Reminders from the County:
    - First responders will be prevented from responding as sustained windspeeds increase. Law enforcement, fire, and EMS representatives in the Emergency Operations Center (EOC) will coordinate on a plan to halt emergency responses until the weather conditions improve.
        - When fire or EMS calls are queued, 911 callers are re-contacted by phone to continue to assess their situation throughout the storm.
        - Hospitals may also lock down, preventing access for transporting ambulances



Lee County will not physically close bridges. Law enforcement may be staged as a precaution to warn travelers of flooded roads or other hazards. No one should be on the roads when winds reach 40 mph.

If you require additional assistance, you can call the Emergency Information Hotline at 211, or 239 433-3900.

Please be aware of permit requirements for repairs after storms. It is very important for residents who may experience wind damage or water intrusion in their homes to

AMERICAN OVERSIGHT

understand that permits are required for repairs in the Special Flood Hazard area. Please contact the Bonita Springs Community Development at 239-444-6150 for assistance with permit requirements and resources. Bonita Springs residents with water intrusion in their homes post-storm may send an email tofloodinfo@cityofbonitaspringscd.org. For additional information, please visit the community development website.

Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:

Subject: Hurricane Milton - Update #29

According to the National Hurricane Center, Milton wobbled earlier today, but the longer-term motion is toward the east-northeast near 9 mph. On the forecast track, the center of Milton will move across the eastern Gulf of Mexico through Wednesday, make landfall along the west-central coast of Florida Wednesday night, and move off the east coast of Florida over the Atlantic Ocean on Thursday.

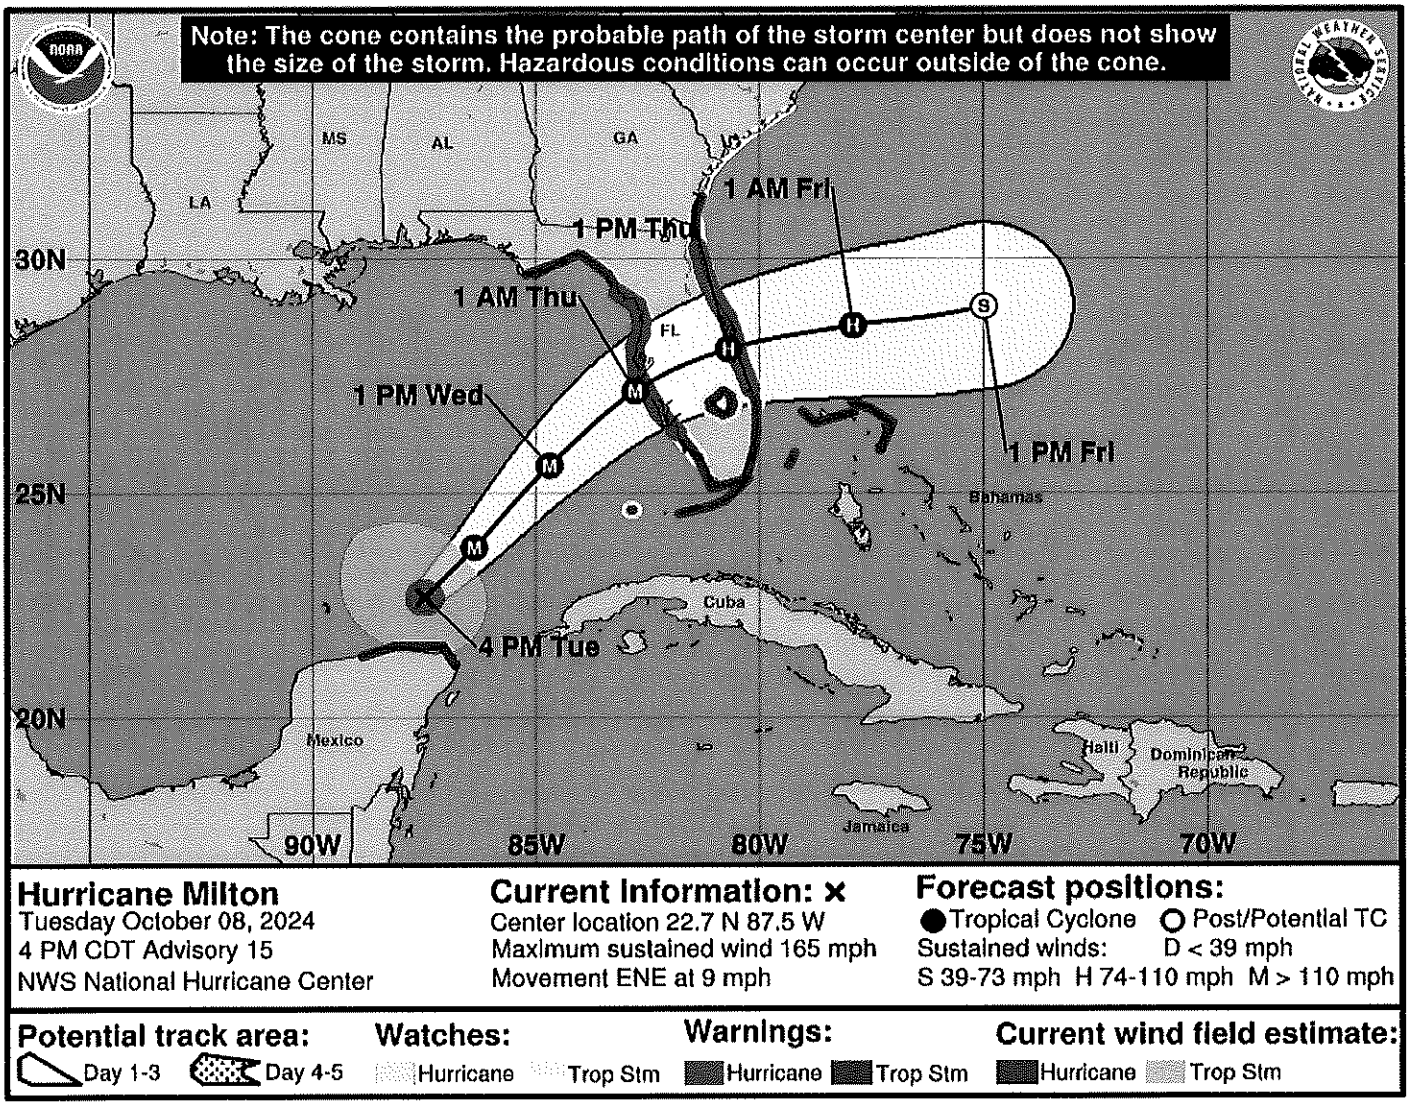
As of this update, the latest storm information is as follows:

- The track for Hurricane Milton has moved south. The center of the track is near the Sarasota/Bradenton area.
- The maximum sustained wind speed has increased to 165 mph (Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 918 mb.

AMERICAN OVERSIGHT

- Hurricane Milton is moving ENE at 9 mph.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 140 miles.
- Storm surge estimates have been raised to 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:



- Animal Control has closed operations due to the State of Emergency.
- Additional canopies are being distributed to the precincts.
- Communications will be receiving their schedules from their supervisors.
- The Incident Management Team will report to the EOC on Wednesday at 1700.
- The Medical Examiner's Office will be available on LCME1. If you cannot get in touch with the ME's Office via phone, ask the Communications Supervisor to patch a channel to LCME1.
- The Town of Fort Myers Beach has issued a Mandatory Evacuation by 10:00 PM on Tuesday, October 8, 2024.
- The Town of Fort Myers Beach has imposed a 24-hour daily curfew to begin at 10:00 PM on Tuesday, October 8, 2024.
- The City of Sanibel has a curfew and Mandatory Evacuation beginning at 10:00 PM.
- Agriculture Unit assets have been secured.

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.
- Shelters:
    - Alico Arena - 54

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours after* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #21

As of this update, the latest storm information is as follows:

- The maximum sustained winds are currently 180 mph, with a Minimum Central Pressure of 905 mb.
- A Storm Surge Warning has been issued for Lee County.
- A Hurricane Warning has been issued for Lee County.
- Hurricane conditions are expected in the next 36 hours.
- The earliest arrival time for tropical-storm-strength winds is now Wednesday around 8:00 AM.

As of this update, new notifications are as follows:

- As the weather deteriorates, please update the GXP app with the locations of flooding and community dangers (closed roads, downed power lines, etc.) with a flag or polygon. It is imperative that you remove the flag when the danger no longer exists. If you are unable to remove a flag, send an e-mail to IMT@sheriffleefl.org to request removal of the flag.
- The special needs shelter is open and at about at 10% capacity.
- LeeTran will be available as needed as long as the wind is under 45 MPH.
- LCEC/FPL has resources staged at the EOC.
- Several nursing homes have closed and have evacuated their residents.
- Charlotte County has closed some hospitals and have transferred their patients to Collier County.

Subject: Hurricane Milton - Update #20

As of this update, the latest storm information is as follows:

- The maximum sustained wind speeds are now at 175 mph (Category 5 is when sustained winds are 157+ mph).
- The timing of impacts to the area looks to be as early as early Wednesday morning and continuing into midday Thursday.
- The model spread in the forecast track remains high, but is beginning to tighten around a Tampa Bay region landfall.
- Hurricane force winds extend out 30 miles.
- Tropical Storm force winds extend out 80 miles.
- Regardless of the path, the wind field will be sufficient that Lee County will at least receive strong Tropical Storm strength winds.
- The tornado threat will be mainly late Tuesday into Wednesday night.

As of this update, new notifications are as follows:

- Effective at 12:00 PM, a Mandatory Evacuation Order has been issued for Evacuation Zones A & B.

Gas Station Updates:

AMERICAN OVERSIGHT

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- 7-11 at 100 Delaware has 6800 gallons of gas for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- 7-11 at 12011 Gateway Blvd. has gas for LEO on Pump 2.
- 7-11 at Corkscrew and Three Oaks has gas for LEO on Pumps 13 - 16.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- 7-11 at 10875 Terminal Access Road has fuel and will reserve Pumps 9 and 10 for First Responders. The clerk can turn on the pump.
- Shell at 13621 N. Cleveland Ave. has LEO gas on Pump 1 & 2.
- Marathon at 14010 North Cleveland Ave. has gas.
- Mobile/7-11 at 17930 North Tamiami Tr. has LEO gas on Pump 11 & 12.
- Murphy Express at 520 Pine Island Rd. has about 3500 gallons of gas.
- Circle K at 4600 Bayline Dr. has 300 gallons for LEO.
- Rocket Gas at 5760 Bayshore Rd. has 3000 regular gas.
- Circle K at 6381 Bayshore Rd. has 500 gallons of gas for LEO.
- Loves at 17308 Park 78 Dr. has gas.
- 7-11 at 18971 Babcock Ranch Rd. has gas and expects another delivery tonight.
- Shell at 402 Del Prado in Cape Coral has gas.
- Shell at 7135 Maida Ln. has gas.
- Speedway at 1365 N. Tamiami Trl. has Premium only.

Sand Updates:

- Sand and sandbags are being distributed by Lee County Sheriff's Office members to bulk distribution sites throughout the county. Individuals will have to go to a bulk distribution site to get sandbags.
    - Current stations with available sand and/or sandbags:
        - Station 102 at 44 Homestead Rd. S. in Lehigh Acres
        - Station 104 at Sunshine and 16th St. SW in Lehigh Acres
        - Tice Fire Buckingham Station at 5850 Buckingham Road
        - San Carlos Park Fire Station 54 at 16900 Oriole Rd.
        - Bayshore Fire at 17350 Nalle Rd.
        - Bonita Springs Fire at 27701 Bonita Grande Dr.
        - Bonita Springs Fire at 8850 W. Terry St. (Truck currently enroute)

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Subject: Hurricane Milton - Update #16

The 11:00 PM update shows little movement in Hurricane Milton's track. Maximum sustained wind speeds are at 90 mph. Model tracks vary widely on the landfall location along Florida's West Coast. The Incident Management Team will continue to monitor and provide timely updates.

As of this update, new notifications are as follows:

Gas Availability:

- RaceTrac - 15820 Winkler Rd. - Pump 15 & 16 for First Responders - Contact is Tracy
- 7-11 - 12750 Cleveland Ave. - Pump 10 & 12 for First Responders - Contact is Vanilla
- RaceTrac - 5991 South Pointe Blvd. - Pump 19 & 20 for First Responders - Contact is Vince
- Mobil/7-11 - 20391 Summerlin Rd. - Pump 6 for First Responders - Contact is Susan
- Circle K - 20021 Summerlin Rd. - Pump 1 for First Responders - Contact is Kyle
- 7-11 - 15021 McGregor Blvd. - Pump 1 for First Responders - Contact is Jessica
- Mobil/7-11 - 17930 N. Tamiami Trl. - Pump 9 & 10 for First Responders - Contact is Joseph
- Circle K - 6381 Bayshore Rd. - Pump 10 for First Responders - Contact is Elizabeth

AMERICAN OVERSIGHT

- Circle K - 19101 N. Tamiami Trl. - Pump 1 & 2 for First Responders - Contact is Christy
- 7-11 - 100 Delaware in Lehigh Acres - Pump 1 & 2 for First Responders.

Sent: Sunday, October 6, 2024 8:57 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Subject: Tropical Storm Milton - Update #13

The 2:00 PM Intermediate Update shows that there are no significant changes in the track. The earliest arrival of tropical storm force winds is projected to be 8:00 PM on Tuesday.

These are the stations that are reported to still have gasoline:

- Veronica Shoemaker/Winkler
- Shell station at Hancock and US 41
- BJ's Cape Coral
- 711 Burnt Store and Pine Island has DIESEL only
- Racetrac at South Pointe and College has 93 Only
- Walmart / Murphy's USA in Lehigh
- Santa Barbara and Veterans 7/11

These are the stations that are reported to be currently **out** of gasoline:

- Country Club and Veterans Circle K
- Del Prado Speedway
- Trafalgar and Skyline 7/11
- Rebel US 41 and Del Prado
- 76 at Chiquita and Pine Island
- Walmart/Murphy's Del Prado
- Walmart on Pine Island Road
- Pine Ridge and San Carlos 7/11
- Santa Barbara and Gleason 7/11
- Palm Tree and Cape Coral Pkwy 7/11

AMERICAN OVERSIGHT

- Lee and Gunnery 7/11
- Del Prado Racetrac
- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Subject: New Caribbean Disturbance - Update #2

The forecast for the area of disorganized showers remains the same; it is still too early to tell if the system will develop further. Regardless of development, heavy rain is expected in our area into the weekend and next week. The Incident Management Team will continue to monitor.

From: IMT <IMT@sheriffleefl.org>
Sent: Tuesday, October 1, 2024 10:35 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Shelter in place as Hurricane Milton is near the Lee County coast

Fort Myers, FL, Oct. 9, 2024 – It is time to shelter in place now that Hurricane Milton is very near to the Lee County coast. It is no longer safe to be on the bridges and roads.

Note, when storm winds reach sustained 45 mph, most emergency responders will shelter in place and not respond to 911 calls for service. When windspeeds drop to less than 45 mph, sustained, fire departments will begin to respond to all 911 calls that were placed in the queue.

The National Weather Service recommends the following when sheltering in place:

- Take refuge in a small interior room, closet, or hallway on the lowest level during the storm. Put as many walls between you and the outside as you can.
- Stay away from windows, skylights, and glass doors.
- If the eye of the storm passes over your area, there will be a short period of calm, but at the other side of the eye, the wind speed rapidly increases to hurricane force winds coming from the opposite direction.

Plan to remain inside even after the storm passes so that first responders can ensure conditions are safe.

Subject:	Hurricane Milton - Update #38

Hurricane Milton has made landfall Siesta Key. We are starting to see storm surge affecting coastal areas of Lee County, with Bonita Beach/Hickory and Fort Myers Beach receiving impassible water over their main roadways. Sustained winds in Lee County still remain under 45 mph. IMT will continue to monitor the sustained winds to determine when or if a shelter order is given.

As of this update, storm information is as follows:

- The maximum sustained wind speed are still at 120 mph (Category 3).
- Hurricane Milton is moving ENE at 15 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 954 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van has suspended service due to weather conditions.
- EMS has made the decision to suspend operations due to weather conditions. An update will be sent out once services are started back up.
- 6th Precinct temporarily suspended the checkpoint operation at the Matlacha Bridge due to weather conditions. As soon as it is safe, they will re-establish the checkpoint. Due to water rising, 6th Precinct has relocated their dump truck to Publix at Pine Island and Burnt Store.
- A GXP audit was completed with all manpower showing.
- Personnel Accountability Reports for each Precinct have been completed.

Known Roadway Hazards:

- Inlet Dr (off Orange Grove) - Now clear
- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- Stipe St. E from Moody Rd - Impassable - approx 2' of water
- Seaworthy Rd at Moody Rd - Now clear.
- Betmar Blvd at Jayde Ct - Now clear.
- N Tamiami at E. N. Shore - Now clear.
- Pondella Rd between Barrett Rd and Forsyth - Roadway open.
- 415 Snead Dr. - Not Passable - Possible tornado debris.
- Skyline Dr. East of Moody - Not Passable - Tree in the road.
- Edison Bridge Base (Both Sides) has 6" of standing water - Passable but rising.
- St. Clair – **Not Passable** – Approx 2' of water

AMERICAN OVERSIGHT

- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy)
- Water levels on canals along the river are rising and may soon flow over the roadways on the south end of Orange Grove Blvd near the river on N. Tamiami Trl.
- Colonial and Fowler - Trees in roadway
- Sanibel Blvd/Oleander - completely underwater and impassable.
- Blind Pass - Water and sand moving in.
- San Carlos and Prescott - several feet of water over the roadway.
- Tween Waters to South Seas - 12" of water on road
- Cajeput / Bay Rd - Flooding from back bay - approximately 6 inches in roadway. Marked on GXP
- Summerlin/John Morris to the causeway - impassible.
- Summerlin/Gladiolus - impassible.
- McGregor to the causeway - impassible.
- Bonita Beach/Hickory is unpassable, so units at the **checkpoint** have relocated to Bonita Beach Road / Imperial Shores.
- Island Park Rd has approximately 1 foot of water, but is passable with high vehicle.
- Briarcliff Road (East of Michael G Rippe) - Passable with 6" of water.
- Mullock Creek Area - Passable with 6" of water.
- Park Road - impassable with 1 to 2 feet of water.
- Broadway West Area has approximately 1 foot of water, but is passable with high vehicle.
- Imperial River Corridor (Pennsylvania - North) has 3 feet of water and is impassable.
- W Terry (South) has 2 feet of water and rising, and is impassable.
- Imperial Shores Area (Tarpon Avenue - Big Bend Road) has 3 feet of water and rising.
- Hickory Island - Kings Kew has 3-5 feet of water and rising, coming close to homes.
- Hickory Island - Mclaughlin Blvd has 3-5 feet of water and rising, coming close to homes.

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

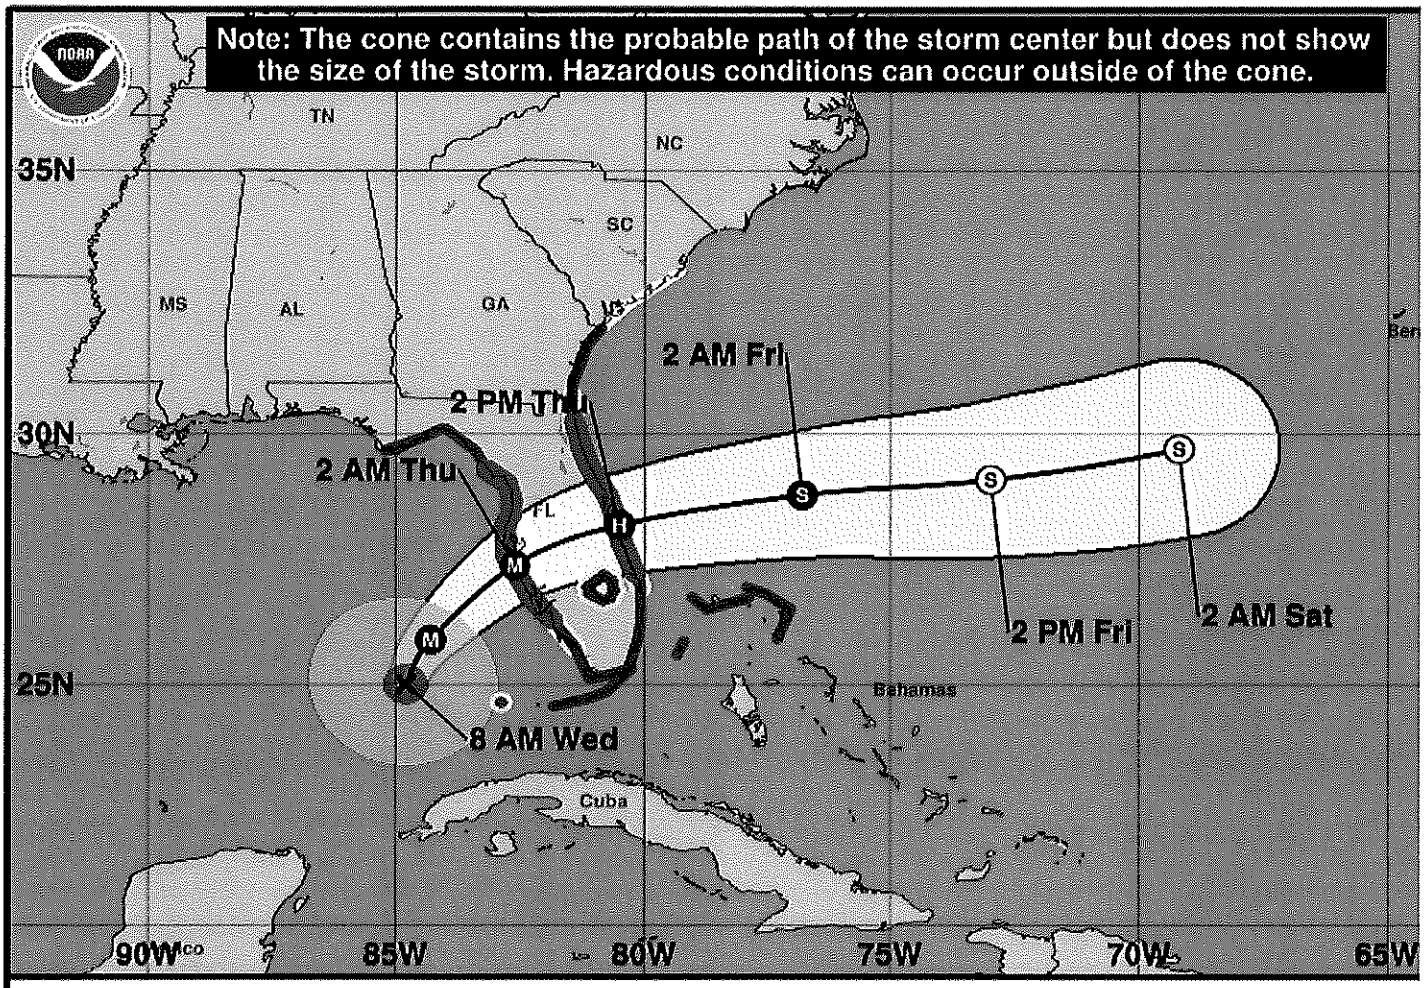
As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
    - First St between Crescent St & Old San Carlos Blvd
    - Second St between Crescent St & Old San Carlos Blvd
    - Third St between Crescent St & Old San Carlos Blvd

Shelters Updates:



- Alico Arena - 137
- Dunbar High School: At Shelter 604, FMPD Covering Shelter
- Estero Recreation Center: Registered - 850, At Shelter - 360
- Hertz Arena: At Shelter - 560

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.
- Shelters:

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours <u>after</u>* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Subject: Hurricane Milton - Update #16

The 11:00 PM update shows little movement in Hurricane Milton's track. Maximum sustained wind speeds are at 90 mph. Model tracks vary widely on the landfall location along Florida's West Coast. The Incident Management Team will continue to monitor and provide timely updates.

As of this update, new notifications are as follows:

Gas Availability:

- RaceTrac - 15820 Winkler Rd. - Pump 15 & 16 for First Responders - Contact is Tracy
- 7-11 - 12750 Cleveland Ave. - Pump 10 & 12 for First Responders - Contact is Vanilla
- RaceTrac - 5991 South Pointe Blvd. - Pump 19 & 20 for First Responders - Contact is Vince
- Mobil/7-11 - 20391 Summerlin Rd. - Pump 6 for First Responders - Contact is Susan
- Circle K - 20021 Summerlin Rd. - Pump 1 for First Responders - Contact is Kyle
- 7-11 - 15021 McGregor Blvd. - Pump 1 for First Responders - Contact is Jessica
- Mobil/7-11 - 17930 N. Tamiami Trl. - Pump 9 & 10 for First Responders - Contact is Joseph
- Circle K - 6381 Bayshore Rd. - Pump 10 for First Responders - Contact is Elizabeth

AMERICAN OVERSIGHT

- Circle K - 19101 N. Tamiami Trl. - Pump 1 & 2 for First Responders - Contact is Christy
- 7-11 - 100 Delaware in Lehigh Acres - Pump 1 & 2 for First Responders.

From: IMT <IMT@sheriffleefl.org>
Sent: Sunday, October 6, 2024 8:57 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Sent: Sunday, October 6, 2024 5:41 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Subject: Tropical Storm Milton - Update #13

The 2:00 PM Intermediate Update shows that there are no significant changes in the track. The earliest arrival of tropical storm force winds is projected to be 8:00 PM on Tuesday.

These are the stations that are reported to still have gasoline:

- Veronica Shoemaker/Winkler
- Shell station at Hancock and US 41
- BJ's Cape Coral
- 711 Burnt Store and Pine Island has DIESEL only
- Racetrac at South Pointe and College has 93 Only
- Walmart / Murphy's USA in Lehigh
- Santa Barbara and Veterans 7/11

These are the stations that are reported to be currently **out** of gasoline:

- Country Club and Veterans Circle K
- Del Prado Speedway
- Trafalgar and Skyline 7/11
- Rebel US 41 and Del Prado
- 76 at Chiquita and Pine Island
- Walmart/Murphy's Del Prado
- Walmart on Pine Island Road
- Pine Ridge and San Carlos 7/11
- Santa Barbara and Gleason 7/11
- Palm Tree and Cape Coral Pkwy 7/11

AMERICAN OVERSIGHT

- Lee and Gunnery 7/11
- Del Prado Racetrac
- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Sent: Thursday, October 3, 2024 9:56 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Subject: New Caribbean Disturbance - Update #2

The forecast for the area of disorganized showers remains the same; it is still too early to tell if the system will develop further. Regardless of development, heavy rain is expected in our area into the weekend and next week. The Incident Management Team will continue to monitor.

From: IMT <IMT@sheriffleefl.org>
Sent: Tuesday, October 1, 2024 10:35 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Lee County Government and Fire Rescue Department partners to help people to check on family and friends after Hurricane Milton post-landfall

Fort Myers, FL, Oct. 9, 2024 – Lee County Government and local Fire Rescue Departments have partnered to provide welfare checks to help out-of-area people check in on family and friends in Lee County after Hurricane Milton passes. The partnership was announced tonight just after the storm made landfall north of Lee County.

People need only to email WelfareStormChecks@leegov.com with the following information about the people they wish to check on:

- Name
- Adress
- Phone number

The email requesting welfare checks will be directed to the local Fire Rescue Departments for follow-up. The number of requests may be significant, so residents are asked to be patient.

To watch a video about the welfare check program, go to Lee County Government's YouTube channel. The video is available in two languages. To watch in English, visit https://youtu.be/d95-3nZMaTY. To watch in Spanish, go to https://youtu.be/DArRBy57eVc.

Subject: Hurricane Milton - Update #38

AMERICAN OVERSIGHT

Hurricane Milton has made landfall Siesta Key. We are starting to see storm surge affecting coastal areas of Lee County, with Bonita Beach/Hickory and Fort Myers Beach receiving impassible water over their main roadways. Sustained winds in Lee County still remain under 45 mph. IMT will continue to monitor the sustained winds to determine when or if a shelter order is given.

As of this update, storm information is as follows:

- The maximum sustained wind speed are still at 120 mph (Category 3).
- Hurricane Milton is moving ENE at 15 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 954 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van has suspended service due to weather conditions.
- EMS has made the decision to suspend operations due to weather conditions. An update will be sent out once services are started back up.
- 6th Precinct has moved to the Publix at Pine Island and Burnt Store due to flooding covering Pine Island Rd at 300 feet from Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed.

Known Roadway Hazards:

- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- Bayshore and Hart Rd has a high power line down across the roadway, causing Bayshore Rd to be shut down (waiting for LCEC to disconnect power).
- Stipe St. E from Moody Rd - **Not Passable** - approx 2' of water
- 415 Snead Dr. - **Not Passable** - Possible tornado debris.
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Edison Bridge Base (Both Sides) has 6" of standing water - Passable but rising.

Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
    - First St between Crescent St & Old San Carlos Blvd
    - Second St between Crescent St & Old San Carlos Blvd
    - Third St between Crescent St & Old San Carlos Blvd

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.
- Shelters:
    - Alico Arena - 54
    - Dunbar High School: Occupancy 174, FMPD Covering Shelter
    - Estero Recreation Center: Registered - 662, At Shelter - 217
    - Hertz Arena: At Shelter - 212
    - Island Coast High School: At Shelter - 311
    - Oak Hammock Middle: At Shelter - 273

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours <u>after</u>* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Subject: Hurricane Milton - Update #16

The 11:00 PM update shows little movement in Hurricane Milton's track. Maximum sustained wind speeds are at 90 mph. Model tracks vary widely on the landfall location along Florida's West Coast. The Incident Management Team will continue to monitor and provide timely updates.

As of this update, new notifications are as follows:

Gas Availability:

- RaceTrac - 15820 Winkler Rd. - Pump 15 & 16 for First Responders - Contact is Tracy
- 7-11 - 12750 Cleveland Ave. - Pump 10 & 12 for First Responders - Contact is Vanilla
- RaceTrac - 5991 South Pointe Blvd. - Pump 19 & 20 for First Responders - Contact is Vince
- Mobil/7-11 - 20391 Summerlin Rd. - Pump 6 for First Responders - Contact is Susan
- Circle K - 20021 Summerlin Rd. - Pump 1 for First Responders - Contact is Kyle
- 7-11 - 15021 McGregor Blvd. - Pump 1 for First Responders - Contact is Jessica
- Mobil/7-11 - 17930 N. Tamiami Trl. - Pump 9 & 10 for First Responders - Contact is Joseph
- Circle K - 6381 Bayshore Rd. - Pump 10 for First Responders - Contact is Elizabeth

AMERICAN OVERSIGHT

- Circle K - 19101 N. Tamiami Trl. - Pump 1 & 2 for First Responders - Contact is Christy
- 7-11 - 100 Delaware in Lehigh Acres - Pump 1 & 2 for First Responders.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Subject: Tropical Storm Milton - Update #13

The 2:00 PM Intermediate Update shows that there are no significant changes in the track. The earliest arrival of tropical storm force winds is projected to be 8:00 PM on Tuesday.

These are the stations that are reported to still have gasoline:

- Veronica Shoemaker/Winkler
- Shell station at Hancock and US 41
- BJ's Cape Coral
- 711 Burnt Store and Pine Island has DIESEL only
- Racetrac at South Pointe and College has 93 Only
- Walmart / Murphy's USA in Lehigh
- Santa Barbara and Veterans 7/11

These are the stations that are reported to be currently **out** of gasoline:

- Country Club and Veterans Circle K
- Del Prado Speedway
- Trafalgar and Skyline 7/11
- Rebel US 41 and Del Prado
- 76 at Chiquita and Pine Island
- Walmart/Murphy's Del Prado
- Walmart on Pine Island Road
- Pine Ridge and San Carlos 7/11
- Santa Barbara and Gleason 7/11
- Palm Tree and Cape Coral Pkwy 7/11

AMERICAN OVERSIGHT

- Lee and Gunnery 7/11
- Del Prado Racetrac
- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Sent: Thursday, October 3, 2024 9:56 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Subject: New Caribbean Disturbance - Update #2

The forecast for the area of disorganized showers remains the same; it is still too early to tell if the system will develop further. Regardless of development, heavy rain is expected in our area into the weekend and next week. The Incident Management Team will continue to monitor.

From: IMT <IMT@sheriffleefl.org>
Sent: Tuesday, October 1, 2024 10:35 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Subject:	Hurricane Milton - Update #40

Hurricane Milton is currently traveling over Orlando as a Category 1 hurricane. Several areas of Lee County that reported areas affected by storm surge are now receding. There are several trees and power lines down, so please travel safely as you begin assessments and patrol operations.

Schedule Update for 10/10/2024

- **Scheduling for Patrol and CIB** - members assigned to dayshift will report to their assigned unit and be available for mission-specific assignments from IMT.
- **Scheduling for Communications:** Dayshift will report to the headquarters at 0500 hours.

As of this update, storm information is as follows:

- The maximum sustained wind speeds are currently at 90 mph (Category 1).
- Hurricane Milton is moving ENE at 16 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 975 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates are at 3' - 5' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van operations are still suspended at this time.
- EMS/Fire operations are still suspended at this time.
- Personnel Accountability Reports for each Precinct have been completed since the last update.

Known Roadway Hazards:

- Matlacha just east of the draw bridge is partially blocked by a house (1 lane available)
- Little Pine Island bridge has a high line power pole leaning across the road at approximately 8 feet above the roadway.
- Inlet Dr (off Orange Grove) – **Not Passable**
- Betmar Blvd at Jayde Ct – **Not Passable**
- Pondella Rd between Barrett Rd and Forsyth - **Not Passable**
- N-Tamiami and Oak – standing water – **Not Passable**
- N-Tamiami at Pondella – standing water – **Not Passable**
- Orange Grove South of Seafan Cir - Standing water – **Not Passable**
  - Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- 415 Snead Dr. - **Not Passable** - Tornado debris
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.

AMERICAN OVERSIGHT

- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy) -
- St. Clair Ave E at Orange Grove – **Not Passable** – Approximately 2' of water
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**
- Lavin Ln at Cardinal Dr. - **Not Passable**
- N Tamiami Trl from Edison Bridge to Cabana 8" of standing water- **Not Passable**

Subject: Hurricane Milton - Update #39

AMERICAN OVERSIGHT

As Hurricane Milton travels east across the state, sustained winds in our area remain steady at around 35 mph. Storm surge continues to affect various areas of Lee County. Hurricane Milton continues to drop wind speed as interacts with land.

As of this update, storm information is as follows:

- The maximum sustained wind speed are currently at 105 mph (Category 2).
- Hurricane Milton is moving ENE at 16 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 960 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van operations are still suspended at this time.
- EMS operations are still suspended at this time.
- 6th Precinct temporarily suspended the checkpoint operation at the Matlacha Bridge due to weather conditions. As soon as it is safe, they will re-establish the checkpoint. Due to water rising, 6th Precinct has relocated their dump truck to Publix at Pine Island and Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed since the last update.

Known Roadway Hazards:

- Inlet Dr (off Orange Grove) – **Not Passable**
- Betmar Blvd at Jayde Ct – **Not Passable**
- Pondella Rd between Barrett Rd and Forsyth - **Not Passable**
- N-Tamiami and Oak – standing water – **Not Passable**
- N-Tamiami at Pondella – standing water – **Not Passable**
- Orange Grove South of Seafan Cir - Standing water – **Not Passable**
- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- 415 Snead Dr. - **Not Passable** - Tornado debris
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy) - **Water level continues to rise and will not be passable very soon.**

Subject: Hurricane Milton - Update #38

Hurricane Milton has made landfall Siesta Key. We are starting to see storm surge affecting coastal areas of Lee County, with Bonita Beach/Hickory and Fort Myers Beach receiving impassible water over their main roadways. Sustained winds in Lee County still remain under 45 mph. IMT will continue to monitor the sustained winds to determine when or if a shelter order is given.

AMERICAN OVERSIGHT

As of this update, storm information is as follows:

- The maximum sustained wind speed are still at 120 mph (Category 3).
- Hurricane Milton is moving ENE at 15 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 954 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van has suspended service due to weather conditions.
- EMS has made the decision to suspend operations due to weather conditions. An update will be sent out once services are started back up.
- 6th Precinct has moved to the Publix at Pine Island and Burnt Store due to flooding covering Pine Island Rd at 300 feet from Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed.

Known Roadway Hazards:

- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- Bayshore and Hart Rd has a high power line down across the roadway, causing Bayshore Rd to be shut down (waiting for LCEC to disconnect power).
- Stipe St. E from Moody Rd - **Not Passable** - approx 2' of water
- 415 Snead Dr. - **Not Passable** - Possible tornado debris.
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Edison Bridge Base (Both Sides) has 6" of standing water - Passable but rising.
- St. Clair and Orange Grove– **Not Passable** – Approx 2' of water
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy)
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**
- Lavin Ln at Cardinal Dr standing water. - **Not Passable**
- N Tamiami Trl from Edison Bridge to Cabana - **Not Passable** 8 " of standing water
- Colonial and Fowler - Trees in roadway.
- Sanibel Blvd/Oleander - completely underwater and **Not Passable.**
- Blind Pass - Water and sand moving in. **Not Passable**
- San Carlos and Prescott - several feet of water over the roadway - **Not Passable.**
- Summerlin/John Morris to the causeway - **Not Passable.**
- Pine Ridge past the Lee Tran station - **Not Passable.**
- Summerlin/Gladiolus - **Not Passable.**
- McGregor to the causeway - **Not Passable.**
- Briarcliff and Wildflower - powerline down.
- Island Park Rd has 3+ feet of water and rising. **Not Passable.**
- Briarcliff Road (East of Michael G Rippe) - Passable with 6" of water.
- Mullock Creek Area has 3+ feet of water. **Not Passable at Parkridge Ct.**
- Park Road with 1 to 2 feet of water. **Not Passable.**
- US41 & Alico - Power poles and lines down - **Not Passable.**
- Broadway West Area has approximately 1 foot of water, but is passable with high vehicle.

AMERICAN OVERSIGHT

- Coconut Road (Spring Creek Area) has 2 feet of water and rising, but is passable with high vehicle.

Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
    - First St between Crescent St & Old San Carlos Blvd
    - Second St between Crescent St & Old San Carlos Blvd
    - Third St between Crescent St & Old San Carlos Blvd

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours <u>after</u>* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

Sent: Monday, October 7, 2024 5:29 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Sent: Sunday, October 6, 2024 8:57 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #9

Employee assistance team members are on standby for employees who may need assistance with boarding windows, minor (quick) repairs for securing homes, and other needs in order to prepare for activation. If you need assistance, please e-mail the Incident Management Team at IMT@sheriffleefl.org with your address, specific need, and any exigent circumstances that would require a priority response (elderly family members, light duty employees who need help, etc.). If you do not have access to e-mail, you may call 239-258-3150. They will relay the message to the Incident Management Team.

Please note that employee assistance members **do not** have plywood/shutters, etc. They can only assist you with the items that you already have.

Supervisors, please relay this information to your employees who may not have access to e-mail.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Subject: Safety Brief: **Post-Hurricane Driving**

Safety Brief for First Responders: Post-Hurricane Driving

Purpose:

To ensure the safety of all first responders driving into work after a hurricane, emphasizing the hazards associated with post-storm conditions.

Key Safety Considerations:

1. **Road Conditions:**
    - **Flooding:** Avoid flooded areas. Assess water depth before crossing, as just a few inches can be dangerous.
    - **Debris:** Watch for fallen branches, power lines, and other debris that may obstruct roads.
    - **Structural Damage:** Be alert for damaged bridges and overpasses; do not drive on any structures that appear compromised.
2. **Visibility:**
    - Use headlights even during daylight hours. Visibility may be reduced due to rain, fog, or debris.
    - Avoid using high beams, which can reflect off rain and hinder visibility further.
3. **Traffic Signals and Signs:**
    - Be cautious at intersections where signals may be out; treat them as four-way stops.
    - Watch for police or emergency personnel directing traffic.
4. **Vehicle Preparedness:**
    - Ensure your vehicle is equipped with a full tank of gas, emergency supplies, and a first aid kit.
    - Check tire pressure and tread; driving conditions may require more traction.
5. **Communication:**
    - Utilize radios or mobile devices to report your location and any hazards encountered.
6. **Personal Safety:**
    - Wear seatbelts at all times.

AMERICAN OVERSIGHT

- Remain calm and avoid distractions while driving.
- Keep emergency contacts informed of your travel plans and estimated arrival time.

7. **Mental Preparedness:**

   - Acknowledge the stress that follows a hurricane; practice stress-reducing techniques if needed.
   - Be aware of your surroundings and ready to respond to unexpected situations.

Action Items:

- **Before Departure:** Review local road conditions and updates from emergency services.
- **During Travel:** Stay alert and adapt to changing conditions; prioritize safety over speed.
- **Upon Arrival:** Report to your assigned post and provide any relevant information regarding your route.

Conclusion:
The safety of first responders is paramount as we navigate post-hurricane conditions. Follow these guidelines to ensure a safe journey to work, ready to assist those in need.

Stay safe, stay alert, and thank you for your service.

Subject: Hurricane Milton - Update #40

AMERICAN OVERSIGHT

Hurricane Milton is currently traveling over Orlando as a Category 1 hurricane. Several areas of Lee County that reported areas affected by storm surge are now receding. There are several trees and power lines down, so please travel safely as you begin assessments and patrol operations.

Schedule Update for 10/10/2024

- **Scheduling for Patrol and CIB** - members assigned to dayshift will report to their assigned unit and be available for mission-specific assignments from IMT.
- **Scheduling for Communications:** Dayshift will report to the headquarters at 0500 hours.

As of this update, storm information is as follows:

- The maximum sustained wind speeds are currently at 90 mph (Category 1).
- Hurricane Milton is moving ENE at 16 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 975 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates are at 3' - 5' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van operations are still suspended at this time.
- EMS/Fire operations are still suspended at this time.
- Personnel Accountability Reports for each Precinct have been completed since the last update.

Known Roadway Hazards:

- Matlacha just east of the draw bridge is partially blocked by a house (1 lane available)

Subject: Hurricane Milton - Update #39

AMERICAN OVERSIGHT

As Hurricane Milton travels east across the state, sustained winds in our area remain steady at around 35 mph. Storm surge continues to affect various areas of Lee County. Hurricane Milton continues to drop wind speed as interacts with land.

As of this update, storm information is as follows:

- The maximum sustained wind speed are currently at 105 mph (Category 2).
- Hurricane Milton is moving ENE at 16 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 960 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van operations are still suspended at this time.
- EMS operations are still suspended at this time.
- 6th Precinct temporarily suspended the checkpoint operation at the Matlacha Bridge due to weather conditions. As soon as it is safe, they will re-establish the checkpoint. Due to water rising, 6th Precinct has relocated their dump truck to Publix at Pine Island and Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed since the last update.

Known Roadway Hazards:

- Inlet Dr (off Orange Grove) – **Not Passable**
- Betmar Blvd at Jayde Ct – **Not Passable**
- Pondella Rd between Barrett Rd and Forsyth - **Not Passable**
- N-Tamiami and Oak – standing water – **Not Passable**
- N-Tamiami at Pondella – standing water – **Not Passable**
- Orange Grove South of Seafan Cir - Standing water – **Not Passable**
- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- 415 Snead Dr. - **Not Passable** - Tornado debris
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy) - **Water level continues to rise and will not be passable very soon.**
- St. Clair Ave E at Orange Grove – **Not Passable** – Approx 2' of water
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**
- Lavin Ln at Cardinal Dr. - **Not Passable** - Standing water
- N Tamiami Trl from Edison Bridge to Cabana - **Not Passable** 8 " of standing water
- Colonial and Fowler - Trees in roadway
- Sanibel Blvd/Oleander - completely underwater and impassable.
- Blind Pass - Water and sand moving in.
- San Carlos and Prescott - several feet of water over the roadway.
- Cajeput / Bay Rd - Flooding from back bay - approximately 6 inches in roadway. Marked on GXP
- Summerlin/John Morris to the causeway - **Not Passable**
- Summerlin/Gladiolus - **Not Passable**
- McGregor to the causeway -**Not Passable**
- Island Park Rd has approximately 1 foot of water, but is passable with high vehicle.
- Briarcliff Road (East of Michael G Rippe) - Passable with 6" of water.

AMERICAN OVERSIGHT

- Mullock Creek Area - Passable with 6" of water.
- Park Road - impassable with 1 to 2 feet of water.
- Broadway West Area has approximately 1 foot of water, but is passable with high vehicle.
- Imperial River Corridor (Pennsylvania - North) has 3 feet of water and is impassable.
- W Terry (South) has 2 feet of water and rising, and is impassable.
- Imperial Shores Area (Tarpon Avenue - Big Bend Road) has 3 feet of water and rising.
- Hickory Island - Kings Kew has 3-5 feet of water and rising, coming close to homes.
- Hickory Island - Mclaughlin Blvd has 3-5 feet of water and rising, coming close to homes.
- Hyatt Regency entrance has 2.5 feet of water.

Traffic Lights Out:

- 41 / S. Airport Rd

Shelter Updates:

- Alico Arena - 322
- Dunbar High School: At Shelter 604, FMPD Covering Shelter
- Estero Recreation Center: At Shelter - 709
- Hertz Arena: At Shelter - 1102
- Island Coast High School: At Shelter - 1772
- Oak Hammock Middle: At Shelter - 1710
- Ray Pottorf Elementary: At Shelter - 193, FMPD Covering Shelter
- Tortuga Elementary: At Shelter - 265
- Varsity Lakes Middle: At Shelter - 185
- Gateway High School: At Shelter - 368
- Harns Marsh Elementary: At Shelter - 140
- Harns Marsh Middle: At Shelter - 141
- East Lee County High School: At Shelter - 349
- SOPU Shelter: At Shelter - 10

Gas Updates:

- Loves on Bayshore will remain open as long as possible. Pump 1 & 2 for LEO.
- Wawa at Santa Barbara/Veterans for LEO only (pumps should be on)
- BP at 2200 Del Prado Blvd for LEO only (pumps should be on)
- Circle K at 1800 Skyline Blvd for LEO only (pumps should be on)

Subject: Hurricane Milton - Update #38

Hurricane Milton has made landfall Siesta Key. We are starting to see storm surge affecting coastal areas of Lee County, with Bonita Beach/Hickory and Fort Myers Beach receiving impassible water over their main roadways. Sustained winds in Lee County still remain under 45 mph. IMT will continue to monitor the sustained winds to determine when or if a shelter order is given.

AMERICAN OVERSIGHT

As of this update, storm information is as follows:

- The maximum sustained wind speed are still at 120 mph (Category 3).
- Hurricane Milton is moving ENE at 15 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 954 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van has suspended service due to weather conditions.
- EMS has made the decision to suspend operations due to weather conditions. An update will be sent out once services are started back up.
- 6th Precinct has moved to the Publix at Pine Island and Burnt Store due to flooding covering Pine Island Rd at 300 feet from Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed.

Known Roadway Hazards:

- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- Bayshore and Hart Rd has a high power line down across the roadway, causing Bayshore Rd to be shut down (waiting for LCEC to disconnect power).
- Stipe St. E from Moody Rd - **Not Passable** - approx 2' of water
- 415 Snead Dr. - **Not Passable** - Possible tornado debris.
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Edison Bridge Base (Both Sides) has 6" of standing water - Passable but rising.
- St. Clair and Orange Grove– **Not Passable** – Approx 2' of water
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy)
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**
- Lavin Ln at Cardinal Dr standing water. - **Not Passable**
- N Tamiami Trl from Edison Bridge to Cabana - **Not Passable** 8 " of standing water
- Colonial and Fowler - Trees in roadway.
- Sanibel Blvd/Oleander - completely underwater and **Not Passable**.
- Blind Pass - Water and sand moving in. **Not Passable**
- San Carlos and Prescott - several feet of water over the roadway - **Not Passable**.
- Summerlin/John Morris to the causeway - **Not Passable**.
- Pine Ridge past the Lee Tran station - **Not Passable.**
- Summerlin/Gladiolus - **Not Passable.**
- McGregor to the causeway - **Not Passable**.
- Briarcliff and Wildflower - powerline down.
- Island Park Rd has 3+ feet of water and rising. **Not Passable.**
- Briarcliff Road (East of Michael G Rippe) - Passable with 6" of water.
- Mullock Creek Area has 3+ feet of water. **Not Passable at Parkridge Ct.**
- Park Road with 1 to 2 feet of water. **Not Passable.**
- US41 & Alico - Power poles and lines down - **Not Passable.**
- Broadway West Area has approximately 1 foot of water, but is passable with high vehicle.

AMERICAN OVERSIGHT

- Coconut Road (Spring Creek Area) has 2 feet of water and rising, but is passable with high vehicle.
- Riverside Park has 3+ feet of water and rising. **Not Passable.**
- Imperial River Corridor (Pennsylvania - North) has 3+ feet of water. **Not Passable.**
- W Terry (South) has 3+ feet of water and rising. **Not Passable.**
- Bonita Beach Park has 2 feet of water and rising. **Not Passable.**
- Imperial Shores Area (Tarpon Avenue - Big Bend Road) has 2+ feet of water and rising. **Not Passable.**
- Imperial Shores/ Bonita Beach Rd has 2.5+ feet of water . **Not Passable.**
- Hickory Island - Kings Kew has 3+ feet of water and rising, coming close to homes. **Not Passable.**
- Hickory Island - Mclaughlin Blvd has 3+ feet of water and rising, coming close to homes. **Not Passable.**
- Hyatt Regency entrance has 2.5 feet of water.

Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
    - First St between Crescent St & Old San Carlos Blvd
    - Second St between Crescent St & Old San Carlos Blvd
    - Third St between Crescent St & Old San Carlos Blvd

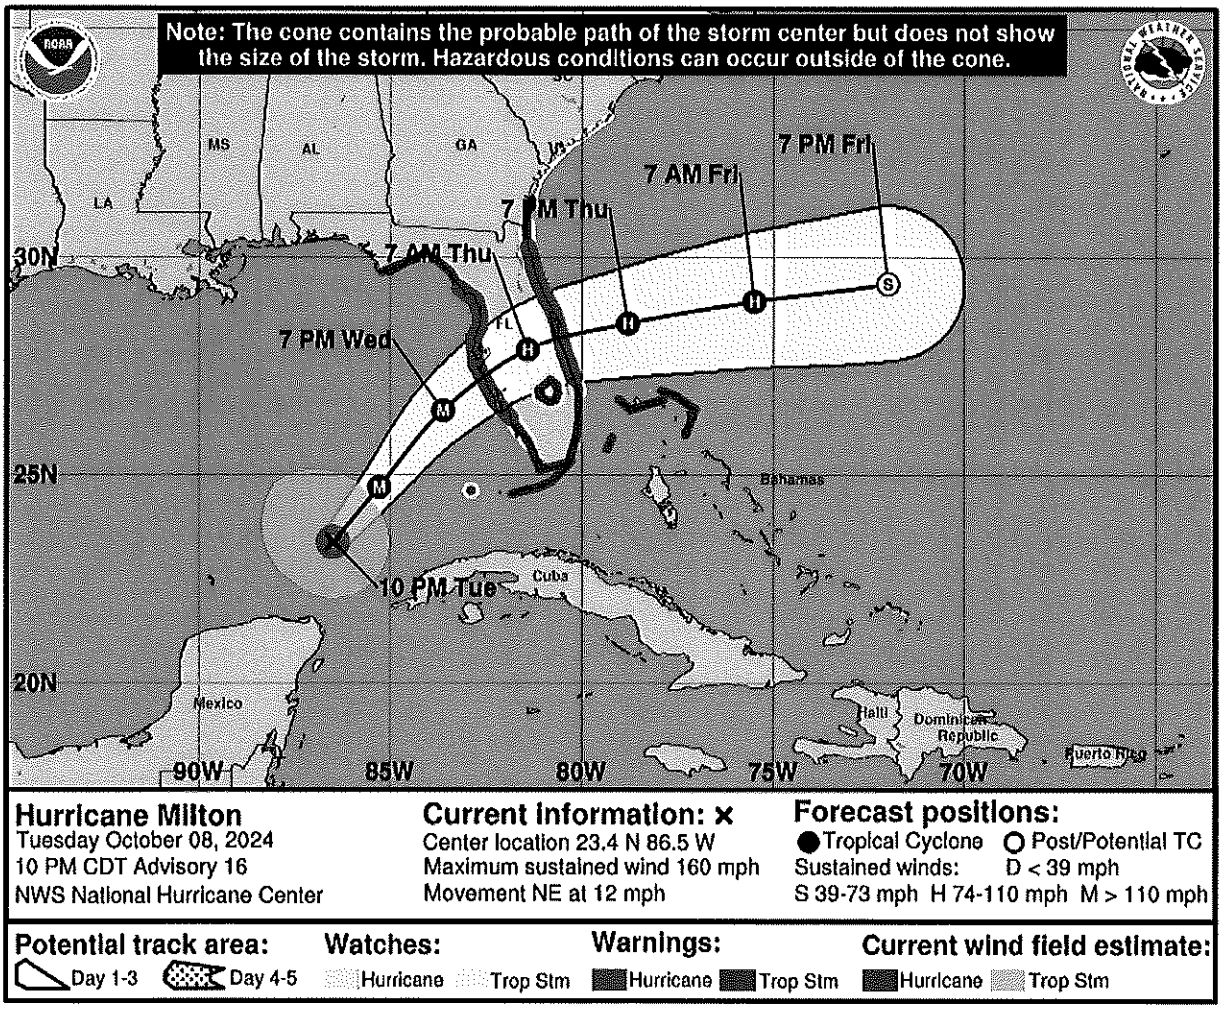
Subject: Hurricane Milton - Update #31

According to the National Hurricane Center, Milton continues to move toward the east-northeast at 12 mph. On the forecast track, the center of Milton will move across the eastern Gulf of Mexico tonight and Wednesday, make landfall along the west-central coast of Florida Wednesday night, and move off the east coast of Florida over the Atlantic Ocean on Thursday. The forecast cone remains consistent with the past two forecasts.

As of this update, the latest storm information is as follows:

- The maximum sustained wind speed has increased to 160 mph (Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 915 mb.
- Hurricane Milton is moving ENE at 12 mph.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 140 miles.
- Storm surge estimates have been raised to 8' - 12' along the Lee County coast.



As of this update, new notifications are as follows:

- **Scheduling for CIB effective October 9, 2024 is as follows**: CIB members assigned to dayshift (0700-1730) will report to their normal CIB unit and be available for mission specific assignments from IMT. CIB members assigned to nightshift (1730-0400) will report to their assigned Precinct and shelter with them once the order is given. Nightshift may be held longer if the conditions are not safe to travel at 0400.
- Fort Myers Beach has implemented a curfew that started at 10 pm.
- Sanibel Island has implemented a curfew that started at 10 pm. The island is currently only open to LEO and Sanibel government officials only.
- There have been reported issues with fuel cards due to increased use. If anyone is running into any issues with their fuel card, please reach out to IMT.
- Communications nightshift (Squad 4) tomorrow will report to the EOC 1700 hours.
- Warrants nightshift will also report tomorrow to the EOC at 1700 hours.
- Shelters:
    - Alico Arena - 109
    - Dunbar High School: At Shelter 604, FMPD Covering Shelter

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.
- Shelters:
    - Alico Arena - 54
    - Dunbar High School: Occupancy 174, FMPD Covering Shelter

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours <u>after</u>* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #22

As of this update, the latest storm information is as follows:

- The maximum sustained winds are currently 180 mph at a speed of 10 mph, with a Minimum Central Pressure of 897 mb.
- A Storm Surge Warning has been issued for Lee County, with an estimated 6-10 ft of surge expected.
- Lee County is also facing a potential for moderate flooding from rain over the next 48 hours.
- The earliest arrival time for tropical-storm-strength winds is still showing as Wednesday around 8:00 AM.

As of this update, new notifications are as follows:

- Island Coast HS Shelter is a designated shelter currently open with approximately 93 present.
- Estero Rec Center is a designated shelter currently open with approximately 75 present.
- Other shelters will be opening tomorrow morning and will be staffed starting at 7am.
- The EOC is currently at a Level 1 Full Activation.
- As of 12pm today, all Lee County Government facilities are closed.
- All LCSO non-essential will remain off duty until notified.
- Employee Assistance teams are finished for the day and will resume again at 0700hrs tomorrow morning.

Gas Station Updates:

- 7-11 at SR 31/SR 80 is currently out of gas. There is no information of when they will be refueled.
- RaceTrac at Six Mile / Michael G. Rippe has fuel on Pump #3 for first responders.

Subject: Hurricane Milton - Update #20

As of this update, the latest storm information is as follows:

- The maximum sustained wind speeds are now at 175 mph (Category 5 is when sustained winds are 157+ mph).
- The timing of impacts to the area looks to be as early as early Wednesday morning and continuing into midday Thursday.
- The model spread in the forecast track remains high, but is beginning to tighten around a Tampa Bay region landfall.
- Hurricane force winds extend out 30 miles.
- Tropical Storm force winds extend out 80 miles.
- Regardless of the path, the wind field will be sufficient that Lee County will at least receive strong Tropical Storm strength winds.
- The tornado threat will be mainly late Tuesday into Wednesday night.

As of this update, new notifications are as follows:

- Effective at 12:00 PM, a Mandatory Evacuation Order has been issued for Evacuation Zones A & B.

Gas Station Updates:

AMERICAN OVERSIGHT

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- 7-11 at 100 Delaware has 6800 gallons of gas for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- 7-11 at 12011 Gateway Blvd. has gas for LEO on Pump 2.
- 7-11 at Corkscrew and Three Oaks has gas for LEO on Pumps 13 - 16.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- 7-11 at 10875 Terminal Access Road has fuel and will reserve Pumps 9 and 10 for First Responders. The clerk can turn on the pump.
- Shell at 13621 N. Cleveland Ave. has LEO gas on Pump 1 & 2.
- Marathon at 14010 North Cleveland Ave. has gas.
- Mobile/7-11 at 17930 North Tamiami Tr. has LEO gas on Pump 11 & 12.
- Murphy Express at 520 Pine Island Rd. has about 3500 gallons of gas.

Subject: Hurricane Milton - Update #19

AM OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Sent: Sunday, October 6, 2024 11:00 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #16

The 11:00 PM update shows little movement in Hurricane Milton's track. Maximum sustained wind speeds are at 90 mph. Model tracks vary widely on the landfall location along Florida's West Coast. The Incident Management Team will continue to monitor and provide timely updates.

As of this update, new notifications are as follows:

Gas Availability:

- RaceTrac - 15820 Winkler Rd. - Pump 15 & 16 for First Responders - Contact is Tracy
- 7-11 - 12750 Cleveland Ave. - Pump 10 & 12 for First Responders - Contact is Vanilla
- RaceTrac - 5991 South Pointe Blvd. - Pump 19 & 20 for First Responders - Contact is Vince
- Mobil/7-11 - 20391 Summerlin Rd. - Pump 6 for First Responders - Contact is Susan
- Circle K - 20021 Summerlin Rd. - Pump 1 for First Responders - Contact is Kyle
- 7-11 - 15021 McGregor Blvd. - Pump 1 for First Responders - Contact is Jessica
- Mobil/7-11 - 17930 N. Tamiami Trl. - Pump 9 & 10 for First Responders - Contact is Joseph
- Circle K - 6381 Bayshore Rd. - Pump 10 for First Responders - Contact is Elizabeth

AMERICAN OVERSIGHT

- Circle K - 19101 N. Tamiami Trl. - Pump 1 & 2 for First Responders - Contact is Christy
- 7-11 - 100 Delaware in Lehigh Acres - Pump 1 & 2 for First Responders.

From: IMT <IMT@sheriffleefl.org>
Sent: Sunday, October 6, 2024 8:57 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Sent: Sunday, October 6, 2024 5:41 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Sent: Thursday, October 3, 2024 9:56 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Sent: Tuesday, October 1, 2024 10:35 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Lee County Emergency Management urges residents to remain in place this morning post-Hurricane Milton

Fort Myers, FL, Oct. 10, 2024 – Lee County Emergency Management urges residents to remain in place this morning, even though Hurricane Milton made landfall north of the county Wednesday night.

Do not drive this morning. There are dangerous, downed powerlines and downed trees. Debris, standing water and other hazards are on roadways. Traffic signals may not be working.

As of 6 a.m. today in Lee County, about 125,000 LCEC customers are without power and 107,000 FPL

The county and its local response partners have started mobilizing crews to assess infrastructure and begin clearing roads.

"We understand everyone's instinct is to get up and go check on their homes because the weather seems calmer and they may have evacuated," Lee County Public Safety Director Benjamin Abes said. "Don't go yet. Stay where you are. Give responders time to do the necessary assessments."

Residents should continue to monitor local media outlets and trusted information sources. Go to www.leegov.com/storm and other Emergency Management partners' sites.

Tune in for today's Hurricane Milton Briefing from the Emergency Operations Center. It will be at noon at www.facebook.com/leecountyflbocc. It also can be viewed on LeeTV and on the Lee County Government YouTube channel.

For additional storm-related information, log on to www.leegov.com/storm. To receive updates from Lee County Government, sign up for the newsletter here: www.leegov.com/resources/newsletters. Follow Lee County Government on Facebook, www.facebook.com/leecountyflbocc.

Additional information:

Government and local Fire Rescue Departments have partnered to provide welfare checks to help out-of-area people check in on family and friends in Lee County after Hurricane Milton passes. The partnership was announced Wednesday night just after the storm made landfall north of Lee County.

People need only to email WelfareStormChecks@leegov.com with the following information about the people they wish to check on:

- Name
- Adress
- Phone number

The email requesting welfare checks will be directed to the local Fire Rescue Departments for follow-up. The number of requests may be significant, so residents are asked to be patient.

To watch a video about the welfare check program, go to Lee County Government's YouTube channel. The video is available in two languages. To watch in English, visit https://youtu.be/d95-3nZMaTY. To watch in Spanish, go to https://youtu.be/DArRBy57eVc.

Receive updates from Lee County Government by subscribing to our newsletter

Please note: Florida has a very broad public records law. Most written communications to or from County Employees and officials regarding County business are public records available to the public and media upon request. Your email communication may be subject to public disclosure.

Under Florida law, email addresses are public records. If you do not want your email address released in response to a public records request, do not send electronic mail to this entity. Instead, contact this office by phone or in writing.

Phoner with NewsNation. Sheriff to call Executive Producer, Gresham 917-602-0471

UPDATED TALKING POINTS

Sheriff Talking Points Hurricane Milton

-Our Incident Management Team was up all night monitoring the impacts from Hurricane Milton and staying up to date with the latest information.

-While Lee County was spared from landfall, we can report significant damage throughout parts of the county.

-Lee County experienced significant storm surge in our coastal areas, potential tornado touchdowns, and hurricane force winds.

-Damage assessments are still ongoing and will take some time.

-Many of our county roads are flooded or impassible at this time. We urge residents to avoid these areas until the water recedes and storm debris is cleared from the road.

-Do not walk in standing water. 1) It could be deep, 2) There could be downed power lines, 3) Other storm hazards present

AMERICAN OVERSIGHT

-Today the main goal is to survey the entire county and figure out what resources are needed to get people the help that they need.

-Right now there are 247,000 residents without power.

-FPL and LCEC are actively out to begin repairing and restoring power.

-In Lee County, 52% of the traffic signals are not functioning

-DOT Crews are out assessing and repairing them as we speak

-Treat all intersections as a 4-way stop if the lights are not functioning.

-We have all of our assets standing by READY to assist including high water rescue vehicles to assist with any rescues.

-The Sanibel Causeway IS passable for emergency vehicles

-Our thoughts and prayers are with our fellow Floridians that felt the full impact from Hurricane Milton.

-I will ensure that we will send resources to them like they did for us in the aftermath of Hurricane Ian.

IMT UPDATES (As of 6:30AM)

-1661 Calls for Service between yesterday into this morning.
301 of those calls have been since midnight
69 of which are wellbeing checks
-Your calls will be answered! We are working on clearing these calls that came in.

JAIL UPDATES (As of 6:00AM)

-1642 total inmates (470 at Main Jail & 1172 at CORE Facility)
-14 new bookings overnight
-Loss of power at both facilities, however power has been restored at the CORE.

AMERICAN OVERSIGHT

-Generator power is keeping the facility fully functional.
-One inmate was transported due to altered mental state.

LOOTING

-Following the storm, it's important to protect your home from looters.
-We saw it happen during Hurricane Ian, so you need to prepare.
-Looters will be prosecuted to the fullest extent of the law!
-"Not here in Lee County!"

-Secure all windows and doors.
-Safeguard valuable items.
-Call Law Enforcement to report any looting.

-The best resource right now is to continue following our social media pages for the latest updates on any road closures.

-We are FLORIDA STRONG

He can call into our Executive Producer, Gresham and he will transfer him to the line for the interview: 917-602-0471

Can you send your cell as a backup in case of anything.

Please provide your number. He will call you.

LeeCountyPIO@leegov.com

Motorists are urged to treat intersections without functioning signals or flashing signals with caution

It's still too early to be on the road, but later today keep this in mind

Fort Myers, FL, Oct. 10, 2024 – Motorists are reminded to treat intersections without functioning signals or flashing signals with caution.

- If a signal is dark: After coming to a complete stop, proceed carefully through the intersection.
- If it's flashing yellow: Proceed with caution.
- If it's flashing red: Treat it as a stop sign.

If law enforcement is on-scene, follow the directions of deputies or officers.

Do not drive into standing water.

Lee County Department of Transportation crews are working to restore signals and clear roadways.

Lee DOT manages the 453 signals throughout the county.

Note: Lee County Emergency Management continues to urge residents to remain in place this morning, even though Hurricane Milton made landfall north of the county Wednesday night. This allows crews to better assess and begin clearing debris and downed powerlines. Please use this traffic signal information after officials have indicated it is safe to drive.

Crews are currently clearing debris from the Sanibel Causeway. It is passable and emergency personnel have made their way to the island. Please see release below from the City of Sanibel for re-entry information

We urge residents and business owners to please not attempt to access the island at this time. Vehicles waiting at the Causeway will hinder debris removal.

FOR IMMEDIATE RELEASE

News Release

Sanibel, Florida

October 10, 2024

Contact: City of Sanibel - City Manager's Office

(239) 472-3700

Hurricane Milton Advisory #7

AMERICAN OVERSIGHT

First responders and City crews are mobilized and have returned to the island to assess the safety of island. First reports from crews on the island indicate that there is substantial water over roadways in excess of three feet in some areas.

The 24-hour curfew is still in place and it is imperative that those who chose to remain on the island continue to shelter in place. It will take time for the water to recede and for crews to clear roadways to make the island safe for travel.

Only first responders and essential personnel may access the island at this time. Please do not attempt to access the Sanibel Causeway. You will be turned away by law enforcement. There is no need to line up at the entrance to the Sanibel Causeway as it will likely be some time before the island is safe for residents and businesses to return.

Thanks to everyone for working together through the evacuation process and for helping each other stay safe. We appreciate your patience as we work to prepare the island for everyone's return.

Reentry information will be provided through City news releases and on the City's website and Facebook page.

Sanibel City Hall and the Sanibel Recreation Center will be closed through Friday, October 11.

The City of Sanibel is currently under a 24-hour a day curfew that will be in effect until further notice.

AMERICAN OVERSIGHT

The City of Sanibel will continue to issue regular updates.

Please continue to monitor City news releases, the National Weather Service, and reports from local meteorologists. Also, if you have not yet registered to receive notifications from Alert Lee, please register by clicking here.

Subject: Hurricane Milton - Update #40

Hurricane Milton is currently traveling over Orlando as a Category 1 hurricane. Several areas of Lee County that reported areas affected by storm surge are now receding. There are several trees and power lines down, so please travel safely as you begin assessments and patrol operations.

Schedule Update for 10/10/2024

- **Scheduling for Patrol and CIB** - members assigned to dayshift will report to their assigned unit and be available for mission-specific assignments from IMT.
- **Scheduling for Communications:** Dayshift will report to the headquarters at 0500 hours.

As of this update, storm information is as follows:

- The maximum sustained wind speeds are currently at 90 mph (Category 1).
- Hurricane Milton is moving ENE at 16 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 975 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates are at 3' - 5' along the Lee County coast.

AMERICAN OVERSIGHT

Subject: Hurricane Milton - Update #38

Hurricane Milton has made landfall Siesta Key. We are starting to see storm surge affecting coastal areas of Lee County, with Bonita Beach/Hickory and Fort Myers Beach receiving impassible water over their main roadways. Sustained winds in Lee County still remain under 45 mph. IMT will continue to monitor the sustained winds to determine when or if a shelter order is given.

As of this update, storm information is as follows:

- The maximum sustained wind speed are still at 120 mph (Category 3).
- Hurricane Milton is moving ENE at 15 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 954 mb.
- We are still under a Storm Surge Warning.

AMERICAN OVERSIGHT

- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van has suspended service due to weather conditions.
- EMS has made the decision to suspend operations due to weather conditions. An update will be sent out once services are started back up.
- 6th Precinct has moved to the Publix at Pine Island and Burnt Store due to flooding covering Pine Island Rd at 300 feet from Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed.

Known Roadway Hazards:

- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- Bayshore and Hart Rd has a high power line down across the roadway, causing Bayshore Rd to be shut down (waiting for LCEC to disconnect power).
- Stipe St. E from Moody Rd - **Not Passable** - approx 2' of water
- 415 Snead Dr. - **Not Passable** - Possible tornado debris.
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Edison Bridge Base (Both Sides) has 6" of standing water - Passable but rising.
- St. Clair and Orange Grove– **Not Passable** – Approx 2' of water
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy)
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**
- Lavin Ln at Cardinal Dr standing water. - **Not Passable**

Subject: Hurricane Milton - Update #35

As of this update, the latest storm information is as follows:

- Milton is still forecast to make landfall in the Sarasota County area.
- The maximum sustained wind speed is currently 145 mph.
- Hurricane Milton is moving NE at 17 mph.

AMERICAN OVERSIGHT

- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 931 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 35 miles.
- Tropical-storm-force winds extend outward up to 175 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.
- A rain band is moving through Lee County now.

As of this update, new notifications are as follows:

- Rumors are spreading that shelters are full. This is not true. The only shelter that is near capacity is Estero Rec Center. Capacity is approximately 36,000 people and shelters are currently about 15% full.
- The Town of Fort Myers Beach is prepared for post-storm search and rescue, then debris removal.
- Sanibel Police have evacuated the island and the Sanibel Check Station has been dismantled.
- 4th Precinct personnel have been pulled off the barrier islands.
- 3rd Precinct personnel have been pulled off the barrier islands.
- All Message Boards are being moved to safe storage.

Flooding:

- Minor reports of standing water on the road on Estero Island.

Shelters Updates:

- Alico Arena - 174
- Dunbar High School: At Shelter 604, FMPD Covering Shelter
- Estero Recreation Center: Registered - 905, At Shelter - 421
- Hertz Arena: At Shelter - 626
- Island Coast High School: At Shelter - 1,090
- Oak Hammock Middle: At Shelter - 1,200
- Ray Pottorf Elementary: At Shelter - 193, FMPD Covering Shelter
- Tortuga Elementary: At Shelter - 140
- Varsity Lakes Middle: At Shelter - 75
- Gateway High School: At Shelter - 183
- Harns Marsh Elementary: At Shelter - 41
- Harns Marsh Middle: At Shelter - 141
- East Lee County High School: At Shelter - 229
- SOPU Shelter: At Shelter - 8

Gas Station Updates:

- 7-11 at 8920 Colonial Center Dr. in Fort Myers is open for LEO only until the power goes out. There is 4000 gallons left.
- Shell at 13621 N. Cleveland Ave. will be closing at 1:00 PM.

Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
    - First St between Crescent St & Old San Carlos Blvd
    - Second St between Crescent St & Old San Carlos Blvd
    - Third St between Crescent St & Old San Carlos Blvd

Shelters Updates:

- Alico Arena - 137

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.
- Shelters:

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours <u>after</u>* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Subject: Tropical Storm Milton - Update #13

The 2:00 PM Intermediate Update shows that there are no significant changes in the track. The earliest arrival of tropical storm force winds is projected to be 8:00 PM on Tuesday.

These are the stations that are reported to still have gasoline:

- Veronica Shoemaker/Winkler
- Shell station at Hancock and US 41
- BJ's Cape Coral
- 711 Burnt Store and Pine Island has DIESEL only
- Racetrac at South Pointe and College has 93 Only
- Walmart / Murphy's USA in Lehigh
- Santa Barbara and Veterans 7/11

These are the stations that are reported to be currently **out** of gasoline:

- Country Club and Veterans Circle K
- Del Prado Speedway
- Trafalgar and Skyline 7/11
- Rebel US 41 and Del Prado
- 76 at Chiquita and Pine Island
- Walmart/Murphy's Del Prado
- Walmart on Pine Island Road
- Pine Ridge and San Carlos 7/11
- Santa Barbara and Gleason 7/11
- Palm Tree and Cape Coral Pkwy 7/11

AMERICAN OVERSIGHT

- Lee and Gunnery 7/11
- Del Prado Racetrac
- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Subject: New Caribbean Disturbance - Update #2

The forecast for the area of disorganized showers remains the same; it is still too early to tell if the system will develop further. Regardless of development, heavy rain is expected in our area into the weekend and next week. The Incident Management Team will continue to monitor.

From: IMT <IMT@sheriffleefl.org>
Sent: Tuesday, October 1, 2024 10:35 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

- If it's flashing red: Treat it as a stop sign.

If law enforcement is on-scene, follow the directions of deputies or officers.

Do not drive into standing water.

AMERICAN OVERSIGHT

As of 6 a.m. today in Lee County, about 125,000 LCEC customers are without power and 107,000 FPL. The county and its local response partners have started mobilizing crews to assess infrastructure and begin clearing roads.

"We understand everyone's instinct is to get up and go check on their homes because the weather seems calmer and they may have evacuated," Lee County Public Safety Director Benjamin Abes said. "Don't go yet. Stay where you are. Give responders time to do the necessary assessments."

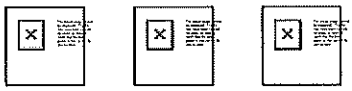
Residents should continue to monitor local media outlets and trusted information sources. Go to www.leegov.com/storm and other Emergency Management partners' sites.

Bonita Springs Community Development asks that any Bonita Springs residents with water intrusion in their homes post-storm send an email to floodinfo@cityofbonitaspringscd.org or call 239-444-6150 for assistance with permit requirements and resources. For additional information regarding flooding, please visit the community development website. To find out flood zone information please click here. Follow the City of Bonita Springs onFacebook.

Visit The City of Bonita Springs Website for post Storm Information.
For more information, visit www.cityofbonitasprings.org. Download the city's free mobile app.
Additional information:

Government and local Fire Rescue Departments have partnered to provide welfare checks to help out-of-area people check in on family and friends in Lee County after Hurricane Milton passes. The partnership was announced Wednesday night just after the storm made landfall north of Lee County.

People need only to email WelfareStormChecks@leegov.com with the following information about the people they wish to check on:



- Name

AMERICAN OVERSIGHT

- Adress
- Phone number

The email requesting welfare checks will be directed to the local Fire Rescue Departments for follow-up. The number of requests may be significant, so residents are asked to be patient.

To watch a video about the welfare check program, go to Lee County Government's YouTube channel. The video is available in two languages. To watch in English, visithttps://youtu.be/d95-3nZMaTY. To watch in Spanish, go to https://youtu.be/DArRBy57eVc.

AMERICAN OVERSIGHT

Sheriff Talking Points Hurricane Milton

-Our Incident Management Team was up all night monitoring the impacts from Hurricane Milton and staying up to date with the latest information.

-While Lee County was spared from landfall, we can report significant damage throughout parts of the county.

-Lee County experienced significant storm surge in our coastal areas, potential tornado touchdowns, and hurricane force winds.

-Damage assessments are still ongoing and will take some time.

-Many of our county roads are flooded or impassible at this time. We urge residents to avoid these areas until the water recedes and storm debris is cleared from the road.

-Do not walk in standing water. 1) It could be deep, 2) There could be downed power lines, 3) Other storm hazards present

-Today the main goal is to survey the entire county and figure out what resources are needed to get people the help that they need.

-Right now there are 247,000 residents without power.

-LCEC – over 50% of customers

-FPL – over 36% of customers

-FPL and LCEC are actively out to begin repairing and restoring power.

AMERICAN OVERSIGHT

-In Lee County, 52% of the traffic signals are not functioning

-DOT Crews are out assessing and repairing them as we speak

-Treat all intersections as a 4-way stop if the lights are not functioning.

-We have all of our assets standing by READY to assist including high water rescue vehicles to assist with any rescues.

-The Sanibel Causeway IS passable for emergency vehicles

-Our thoughts and prayers are with our fellow Floridians that felt the full impact from Hurricane Milton.

-I will ensure that we will send resources to them like they did for us in the aftermath of Hurricane Ian.

-I would like to thank:

Governor Ron DeSantis

Lt. Governor Jeanette Nunez

CFO Jimmy Patronis

Senator Rick Scott

Congressman Byron Donalds

FDLE Commissioner Mark Glass,

FDLS SAC Eli Lawson

We were constant contact and offered their full support for Lee County and the rest of Florida during this dangerous storm.

AMERICAN OVERSIGHT

IMT UPDATES (As of 6:30AM)

-1661 Calls for Service between yesterday into this morning.
301 of those calls have been since midnight
69 of which are wellbeing checks
-Your calls will be answered! We are working on clearing these calls that came in.

JAIL UPDATES (As of 6:00AM)

-1642 total inmates (470 at Main Jail & 1172 at CORE Facility)
-14 new bookings overnight
-Loss of power at both facilities, however power has been restored at the CORE.

-Generator power is keeping the Jail facility fully functional.
-One inmate was transported due to altered mental state.

Dear Steve,

As discussed yesterday, attached is the information regarding the ANDE Fly Team Program to assist our Sheriffs with victim identification, if requested.

Please feel free to push out to the State E.O.C. and any Sheriffs that you deem appropriate.

Our point of contact is:
Pam Jones
Vice President, State and Local Government
507-254-9979
FlyTeam@ande.com

Please feel free to reach out if I can further assist.

Respectfully and Prayerfully,

Sheriff David F. Harvey (Ret.)
President & CEO

ANDE™

Date: October 9, 2024

Memo: Rapid DNA Assistance for Florida Counties Affected by Hurricane Milton

To Whom it May Concern:
As Florida communities feel the impact of Hurricane Milton, the team at ANDE Corporation is offering its assistance -as needed - to swiftly identify human victims in its aftermath. ANDE's Rapid DNA system produces DNA profiles in approximately 90 minutes, enabling timely and effective responses to this crisis in a way that ensures families and authorities have the information they need.

Here is what ANDE will provide -if desired- by agencies serving areas affected by Hurricane Milton and in need of DNA Identification Assistance:

- **An ANDE 6C Rapid DNA Instrument** (if your County does not already have an instrument) will be provided to run hurricane victim and family reference samples.

- **Consumables** (chips and swabs)

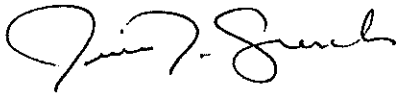
- **ANDE Personnel and Training** – ANDE will send a Rapid DNA subject matter expert to provide support and training to designated Law Enforcement and/or Medical Examiner personnel. The training will include best practices for sample collection, familial reference sample collection, and the overall sample tracking and reporting process. *(Please note sending ANDE personnel may be impacted by the number of Counties requiring assistance from this huge storm. This offer may need to be assessed and coordinated once the impact is known.)*

  In consideration of our offer, we simply ask that ANDE's costs are submitted as part of the County's request for FEMA for reimbursement. ANDE recognizes that such reimbursement is not guaranteed.

About ANDE
Founded in 2004, ANDE is a trusted partner of the Florida Sheriff Association (FSA) and specializes in developing and commercializing Rapid DNA technology for human identification. Our flagship ANDE 6C Rapid DNA instrument, along with its consumables and software, serves as a versatile platform for various human DNA identification and kinship applications. Recognized for our industry innovations, we tailor our solutions to meet the specific needs of law enforcement, military, and government agencies worldwide. ANDE's Rapid DNA technology is designed to enhance the efficacy of DNA identification and is deployed globally. Our system can process DNA samples in under two hours and can be operated by non-scientific personnel with minimal training.

AMERICAN OVERSIGHT

This innovative technology has successfully identified victims in several major incidents, including the 2018 California Camp Fire, the 2019 Conception Dive Boat Fire, the 2023 Maui Wildfire, and Hurricane Ian, which struck Florida in 2022.



"The Conception boat fire...we had victims that had been in the water for quite some time. Most of the victims were severely charred. The body conditions made traditional forms of identification very difficult if not impossible in certain cases. .... In a matter of eight days, we had positively identified all 34 victims. The prospect of what would have been a normal approach to identifying victims through DNA would have taken months not days." ***-Sheriff Bill Brown, Santa Barbara County Sheriff***

"(On the Camp Fire) In the end, 85 people perished in that fire. We used ANDE Rapid DNA to identify a good number of them. Those identifications were able to be made in a relatively short period of time, we didn't have to wait months and months to get the information back. And that was important because when you're dealing with a tragedy of that scale and you're trying to provide information to loved ones." ***-Sheriff Kory Honea, Butte County Sheriff***

Dear Members,

We hope you all fared well during Hurricane Milton. I am still stationed in the Emergency Operations Center and will remain here throughout our recovery process.

The Chamber of Commerce of Cape Coral, in collaboration with the City of Cape Coral's Emergency Operations, has launched the Business Emergency Coordination Center (BECC) to enhance communication with local businesses and residents. Use the links below to update your business status, submit questions, or view a list of open businesses. The BECC will be activated during any emergency to provide the most up-to-date information.

BECC - Submit Your Business Status Report - MILTON

BECC - Submit A Question For The Chamber/EOC

CLICK HERE FOR OPEN BUSINESS LIST (MILTON)

The Business Emergency Coordination Center (BECC) allows businesses to submit real-time status reports post-storm or disaster. These reports will help the Chamber of Commerce of Cape Coral and the Economic & Business Development staff assess the needs of our businesses so we can get them up and running post storm.

The public facing side of the BECC provides the community with updated information about what businesses are operational, what services they offer, and their availability. For example, as grocery stores, gas stations, convenience stores and other services open, that information will be available on the Business Emergency Coordination Center website. ?

AMERICAN OVERSIGHT

Please stay safe and let us know if you need anything. We will continue to send these reports as we receive them.

Thank you, Donna

We hope you are safe! Due to Hurricane Milton, Florida Rural Legal Services (FRLS) has decided to reschedule its Fort Myers Ribbon Cutting event originally planned for this Friday. **The event will now take place on Friday, Oct. 25, 2024, from 11 a.m. to 12:30 p.m.**

Event Agenda Items:
- **Ribbon Cutting Ceremony:** Marking the official opening of our new office.
- **Tours:** A guided tour of our facility.
- **Outstanding Pro Bono Attorneys to be Recognized:** Dedicated lawyers volunteer their time and expertise to serve low-income and vulnerable communities, offering free legal assistance to those who cannot afford it.
- **Client Testimonials:** Hear powerful stories of clients who have benefited from our free legal services.
- **Lunch:** Enjoy a complimentary lite lunch while networking with community partners and co-workers.

This is a great opportunity to be part of a memorable occasion for FRLS. We look forward to seeing you there. Please RSVP for the new date by Friday, Oct. 18 to Denise.Sawyer@frls.org. Thank you for your understanding, and we look forward to seeing you there!

Warm regards,

LeeCountyPIO@leegov.com

Lee County Government update – noon Thursday, post Hurricane Milton

Fort Myers, FL, Oct. 10, 2024 – Hurricane Milton brought damaging storm surge to coastal areas throughout Lee County and tornado and wind damage across the community.

Crews are continuing to assess impacted areas, including barrier islands and coastal communities, including:

- Sanibel, Captiva, Upper Captiva, Boca Grande.
- Fort Myers Beach, coastal Bonita Springs.
- Matlacha and Pine Island.
- Areas impacted by the possible tornadoes.

The county has mobilized Community Coordination Teams to work directly with impacted areas to immediately address issues and needs that arise. This approach was successful following Hurricane Ian.

Residents are reminded that island municipalities may have their own requirements for residents returning and they should check with their local city hall.

The county continues to ask residents to remain in place and avoid travel as much as possible. There are downed powerlines in the roadway, and some are potentially live. Debris is still being removed from the roadways. Power outages are also impacting traffic signals.

About 9,600 people stayed overnight in Lee County shelters and evacuees began leaving this morning. As of 11:30 a.m., 627 remained and that number is expected to vary today as people assess damage at home and may need to come to a shelter. LeeTran will begin offering fare-free trips to people leaving shelters at 1 p.m. today, and some shelters may be consolidated.

AMERICAN OVERSIGHT

Additional updates

Electricity service

Lee County continues to work with partners at the EOC to make service restoration a high priority.

As of earlier today remaining outages were:

- LCEC – 129,000
- FPL – 111,000

Damage Assessments Teams

Staff from multiple county departments are in communities assessing damage. Residents are reminded to:

- Get a permit for work on your home fix storm damage, especially unincorporated residents in coastal areas and areas that typically flood.
    - Residents or businesses within the Special Flood Hazard Area with any damage to their homes or businesses, including water intrusion.
    - You must obtain a permit for all repairs.
- Email FIRMinfo@leegov.com or call 239 533-8948
- If you're in a municipality, contact the appropriate entity for permit assistance.

County offices

- County offices remain closed today and Friday, as previously announced.
- All Lee County libraries will remain closed through the weekend.
- All Lee County Parks & Recreation facilities are closed today – recreation centers, sports complexes, beach sites and boat ramps. Further updates will be provided Friday.

Department of Transportation

Signals

- More than half of the county's 453 traffic signals were not operating as of 8 a.m., due either to no electrical service or physical damage.
- Crews are assessing signals.
- Motorists should approach non-functioning signals with caution
    - If a signal is dark: After coming to a complete stop, proceed carefully through the intersection.
    - If it's flashing yellow: Proceed with caution.
    - If it's flashing red: Treat it as a stop sign.
    - If law enforcement is on-scene, follow the directions of deputies or officers

Bridges

- Bridge inspections began early this morning and the majority of our bridges have been assessed and are safe.
- The Sanibel Causeway remained passable to emergency vehicles this morning. The Florida Department of Transportation and its contractors are clearing the road and coordinating a reopening plan with the City of Sanibel.
- The approach to the Blind Pass Bridge is damaged on the Captiva side. A plan is in place to repair this damage by this afternoon, and the bridge itself is safe.

Operations

- Crews are working on the first pass of all road to clear debris, horticulture and over-washed sand.

Solid Waste

Storm debris

- Crews are assessing debris and checking debris management sites.
- The county is ready to mobilize its contracted debris vendor.
- Before Milton, Solid Waste and the vendor were able to collect about 90% of all Helene debris in Lee County.

AMERICAN OVERSIGHT

Regular trash collections

- Lee County has extended the suspension of residential garbage collection through Friday, Oct. 11.
- Regular service will resume Monday, Oct. 14, following the regular schedule for all accessible routes within the county's franchise areas.
- Only put out trash. Recycling and yard waste collections are delayed until Oct. 21.

Natural Resources

- Water continues to recede.
- High tide has already occurred today.
- Despite the surge, this was not a heavy rainfall event. St. James City recorded 4 inches and the countywide average was 1.1 inches.
- Staff have been monitoring the watershed across the region to the north of Lee County. No sheet flow is anticipated from the north in the coming days.

Lee County Utilities

- Coordinating with Fort Myers Beach to resume water services asap
- All Lee County Utilities treatment facilities are fully operational.
- Water system pressures were maintained, so no broad Boil Water notices are anticipated.
- Check with your individual utility for any specific questions. There may be individual areas with necessary notices in the future.

Lee County Domestic Animal Services

- Animal Services has resumed field operations and is making emergency calls a priority.
- The Lost and Found Center will open Friday, Oct. 11, to reunited owners with lost pets and to take in any stray pets.
- Lee County residents who currently have a Milton foster pet from LCDAS can return them between 8 a.m. and 4 p.m. Friday but anyone able to foster through the weekend would be appreciated.

LeeTran

- LeeTran regular fixed route services remain suspended today it conducts Emergency Operation Center missions and provides fare-free trips from the shelters as well as life-sustaining paratransit trips.
- Regular fixed route service is expected to return no later than Saturday.

Economic Development

- People who own a business in Lee County are asked to take a moment to complete a brief survey from Lee County Economic Development.
- You can find it at Business Impact Assessment Survey.

Reminders

- Continue to stay updated at leegov.com/storm and follow Lee County Government on Facebook, facebook.com/leecountyflbocc.
- The video from the noon update will be posted shortly to the county's YouTube channel.

FOR IMMEDIATE RELEASE
October 10, 2024

DOH-Lee Urges Residents to Avoid Beaches and Pools After Hurricane Milton

Avoid Contact with Contaminated Water and Surrounding Flooded Areas

Contact:
Noelia E. Martinez Irizarry
Lee-PIO@FLHealth.gov
239-332-9653

Lee County, Fla. — The Florida Department of Health in Lee County (DOH-Lee) advises the public not to enter the water due to the increased risk of water-borne illness. Water quality has been affected by Hurricane Milton. Swimming is not recommended.

AMERICAN OVERSIGHT

Public Beaches
Heavy winds and rain can negatively impact coastal waters. Excessive amounts of rain and storm surge can increase the levels of harmful bacteria in these waters. The sources of the bacteria can vary and include failing septic systems, sewer line breaks, overflowing manholes, and wildlife.

Debris brought onto beaches by storm surge and floodwaters can be hazardous and may carry harmful bacteria. No one should handle debris without proper safety equipment.

Residents and visitors should avoid swimming in coastal waters until bacterial testing shows an acceptable level in accordance with state guidelines. Testing will begin as soon as conditions are safe, and areas are accessible. Test results can be accessed at FloridaHealth.gov/HealthyBeaches.

Swimming Pools
Residents and visitors should avoid swimming in any pool until it has been properly cleaned and is fully functional. Public swimming pools need to be approved for opening by DOH-Lee. A fully functional pool has:

- Been cleared of debris that may cause injury
- Operating filtration and chemical treatment equipment
- Life-saving equipment available
- Clear water with visible drain covers on the pool floor
- Properly balanced chemicals with disinfectant and pH at safe levels

Additional information on swimming pool water and safety can be found on the Florida Department of Health's public swimming pool webpage and the WaterSmartFL website.

Subject: Hurricane Milton - Update #39

As Hurricane Milton travels east across the state, sustained winds in our area remain steady at around 35 mph. Storm surge continues to affect various areas of Lee County. Hurricane Milton continues to drop wind speed as interacts with land.

As of this update, storm information is as follows:

- The maximum sustained wind speed are currently at 105 mph (Category 2).
- Hurricane Milton is moving ENE at 16 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 960 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van operations are still suspended at this time.
- EMS operations are still suspended at this time.
- 6th Precinct temporarily suspended the checkpoint operation at the Matlacha Bridge due to weather conditions. As soon as it is safe, they will re-establish the checkpoint. Due to water rising, 6th Precinct has relocated their dump truck to Publix at Pine Island and Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed since the last update.

Subject: Hurricane Milton - Update #38

Hurricane Milton has made landfall Siesta Key. We are starting to see storm surge affecting coastal areas of Lee County, with Bonita Beach/Hickory and Fort Myers Beach receiving impassible water over their main roadways. Sustained winds in Lee County still remain under 45 mph. IMT will continue to monitor the sustained winds to determine when or if a shelter order is given.

As of this update, storm information is as follows:

- The maximum sustained wind speed are still at 120 mph (Category 3).
- Hurricane Milton is moving ENE at 15 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 954 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van has suspended service due to weather conditions.
- EMS has made the decision to suspend operations due to weather conditions. An update will be sent out once services are started back up.
- 6th Precinct has moved to the Publix at Pine Island and Burnt Store due to flooding covering Pine Island Rd at 300 feet from Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed.

Known Roadway Hazards:

- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- Bayshore and Hart Rd has a high power line down across the roadway, causing Bayshore Rd to be shut down (waiting for LCEC to disconnect power).
- Stipe St. E from Moody Rd - **Not Passable** - approx 2' of water
- 415 Snead Dr. - **Not Passable** - Possible tornado debris.
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Edison Bridge Base (Both Sides) has 6" of standing water - Passable but rising.
- St. Clair and Orange Grove– **Not Passable** – Approx 2' of water
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy)
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**
- Lavin Ln at Cardinal Dr standing water. - **Not Passable**
- N Tamiami Trl from Edison Bridge to Cabana - **Not Passable** 8 " of standing water

Subject: Hurricane Milton - Update #35

As of this update, the latest storm information is as follows:

- Milton is still forecast to make landfall in the Sarasota County area.
- The maximum sustained wind speed is currently 145 mph.
- Hurricane Milton is moving NE at 17 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 931 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 35 miles.
- Tropical-storm-force winds extend outward up to 175 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.
- A rain band is moving through Lee County now.

As of this update, new notifications are as follows:

  - Rumors are spreading that shelters are full. This is not true. The only shelter that is near capacity is Estero Rec Center. Capacity is approximately 36,000 people and shelters are currently about 15% full.
  - The Town of Fort Myers Beach is prepared for post-storm search and rescue, then debris removal.
  - Sanibel Police have evacuated the island and the Sanibel Check Station has been dismantled.
- 4th Precinct personnel have been pulled off the barrier islands.
- 3rd Precinct personnel have been pulled off the barrier islands.
- All Message Boards are being moved to safe storage.

Flooding:

- Minor reports of standing water on the road on Estero Island.

Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
  - First St between Crescent St & Old San Carlos Blvd
  - Second St between Crescent St & Old San Carlos Blvd
  - Third St between Crescent St & Old San Carlos Blvd

As of this update, new notifications are as follows:

- Fort Myers Beach has implemented a curfew that started at 10 pm.

AMERICAN OVERSIGHT

- Sanibel Island has implemented a curfew that started at 10 pm. The island is currently only open to LEO and Sanibel government officials only.
- There are still some reported issues with fuel cards due to increased use. If anyone is running into any issues with their fuel card, please contact IMT.

Schedule Reminder:

- Scheduling for CIB for October 9, 2024, is as follows: CIB members assigned to dayshift (0700-1730) will report to their normal CIB unit and be available for mission-specific assignments from IMT. CIB members assigned to night shift (1730-0400) will report to their assigned Precinct and then shelter with them once the order is given. Night shift may be held longer if the conditions are not safe to travel at 0400.
- Scheduling for Communications: Nightshift (Squad 4) tomorrow will report to the EOC 1700 hours.
- Scheduling for Warrants: Night shift will also report tomorrow to the EOC at 1700 hours.

Shelters Updates:

- Alico Arena - 131
- Dunbar High School: At Shelter 604, FMPD Covering Shelter
- Estero Recreation Center: Registered - 835, At Shelter - 403
- Hertz Arena: At Shelter - 500
- Island Coast High School: At Shelter - 851
- Oak Hammock Middle: At Shelter - 980
- Ray Pottorf Elementary: At Shelter - 193, FMPD Covering Shelter
- Tortuga Elementary: At Shelter - 123
- Varsity Lakes Middle: At Shelter - 47
- Gateway High School: At Shelter - 171
- Harns Marsh Elementary: At Shelter - 138
- Harns Marsh Middle: At Shelter - 29
- East Lee County High School: At Shelter - 192
- SOPU Shelter: At Shelter - 6

Gas Station Updates:

- 7-11 at Gateway has Premium fuel only.
- RaceTrac at Goldenwood & Daniels has fuel.
- 7-11 at Treeline and Daniels has fuel for LEO.
- Rebel at 9281 Daniels Pkwy has fuel for LEO on pumps 1 & 2.
- Pilot at 6050 Plaza Dr has fuel & reserved pump 3 for LEO.

Subject: Hurricane Milton - Update #31

According to the National Hurricane Center, Milton continues to move toward the east-northeast at 12 mph. On the forecast track, the center of Milton will move across the eastern Gulf of Mexico tonight and Wednesday, make landfall along the west-central coast of Florida Wednesday night, and move off the east coast of Florida over the Atlantic Ocean on Thursday. The forecast cone remains consistent with the past two forecasts.

As of this update, the latest storm information is as follows:

- The maximum sustained wind speed has increased to 160 mph (Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 915 mb.
- Hurricane Milton is moving ENE at 12 mph.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 140 miles.
- Storm surge estimates have been raised to 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- **Scheduling for CIB effective October 9, 2024 is as follows**: CIB members assigned to dayshift (0700-1730) will report to their normal CIB unit and be available for mission specific assignments from IMT. CIB members assigned to nightshift (1730-0400) will report to their assigned Precinct and shelter with them once the order is given. Nightshift may be held longer if the conditions are not safe to travel at 0400.
- Fort Myers Beach has implemented a curfew that started at 10 pm.
- Sanibel Island has implemented a curfew that started at 10 pm. The island is currently only open to LEO and Sanibel government officials only.
- There have been reported issues with fuel cards due to increased use. If anyone is running into any issues with their fuel card, please reach out to IMT.

AMERICAN OVERSIGHT

- Communications nightshift (Squad 4) tomorrow will report to the EOC 1700 hours.
- Warrants nightshift will also report tomorrow to the EOC at 1700 hours.

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.
- Shelters:

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours after* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #22

As of this update, the latest storm information is as follows:

- The maximum sustained winds are currently 180 mph at a speed of 10 mph, with a Minimum Central Pressure of 897 mb.
- A Storm Surge Warning has been issued for Lee County, with an estimated 6-10 ft of surge expected.
- Lee County is also facing a potential for moderate flooding from rain over the next 48 hours.
- The earliest arrival time for tropical-storm-strength winds is still showing as Wednesday around 8:00 AM.

As of this update, new notifications are as follows:

- Island Coast HS Shelter is a designated shelter currently open with approximately 93 present.
- Estero Rec Center is a designated shelter currently open with approximately 75 present.
- Other shelters will be opening tomorrow morning and will be staffed starting at 7am.
- The EOC is currently at a Level 1 Full Activation.
- As of 12pm today, all Lee County Government facilities are closed.
- All LCSO non-essential will remain off duty until notified.
- Employee Assistance teams are finished for the day and will resume again at 0700hrs tomorrow morning.

Gas Station Updates:

- 7-11 at SR 31/SR 80 is currently out of gas. There is no information of when they will be refueled.
- RaceTrac at Six Mile / Michael G. Rippe has fuel on Pump #3 for first responders.

Subject: Hurricane Milton - Update #20

As of this update, the latest storm information is as follows:

- The maximum sustained wind speeds are now at 175 mph (Category 5 is when sustained winds are 157+ mph).
- The timing of impacts to the area looks to be as early as early Wednesday morning and continuing into midday Thursday.
- The model spread in the forecast track remains high, but is beginning to tighten around a Tampa Bay region landfall.
- Hurricane force winds extend out 30 miles.
- Tropical Storm force winds extend out 80 miles.
- Regardless of the path, the wind field will be sufficient that Lee County will at least receive strong Tropical Storm strength winds.
- The tornado threat will be mainly late Tuesday into Wednesday night.

As of this update, new notifications are as follows:

- Effective at 12:00 PM, a Mandatory Evacuation Order has been issued for Evacuation Zones A & B.

Gas Station Updates:

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

Sent: Monday, October 7, 2024 5:29 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Sent: Sunday, October 6, 2024 11:00 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #16

The 11:00 PM update shows little movement in Hurricane Milton's track. Maximum sustained wind speeds are at 90 mph. Model tracks vary widely on the landfall location along Florida's West Coast. The Incident Management Team will continue to monitor and provide timely updates.

As of this update, new notifications are as follows:

Gas Availability:

- RaceTrac - 15820 Winkler Rd. - Pump 15 & 16 for First Responders - Contact is Tracy
- 7-11 - 12750 Cleveland Ave. - Pump 10 & 12 for First Responders - Contact is Vanilla
- RaceTrac - 5991 South Pointe Blvd. - Pump 19 & 20 for First Responders - Contact is Vince
- Mobil/7-11 - 20391 Summerlin Rd. - Pump 6 for First Responders - Contact is Susan
- Circle K - 20021 Summerlin Rd. - Pump 1 for First Responders - Contact is Kyle
- 7-11 - 15021 McGregor Blvd. - Pump 1 for First Responders - Contact is Jessica
- Mobil/7-11 - 17930 N. Tamiami Trl. - Pump 9 & 10 for First Responders - Contact is Joseph
- Circle K - 6381 Bayshore Rd. - Pump 10 for First Responders - Contact is Elizabeth

AMERICAN OVERSIGHT

- Circle K - 19101 N. Tamiami Trl. - Pump 1 & 2 for First Responders - Contact is Christy
- 7-11 - 100 Delaware in Lehigh Acres - Pump 1 & 2 for First Responders.

From: IMT <IMT@sheriffleefl.org>
Sent: Sunday, October 6, 2024 8:57 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

- Del Prado Racetrac
- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Sent: Thursday, October 3, 2024 9:56 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Subject: New Caribbean Disturbance - Update #2

The forecast for the area of disorganized showers remains the same; it is still too early to tell if the system will develop further. Regardless of development, heavy rain is expected in our area into the weekend and next week. The Incident Management Team will continue to monitor.

From: IMT <IMT@sheriffleefl.org>
Sent: Tuesday, October 1, 2024 10:35 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Hurricane Milton Recovery Efforts

FOR IMMEDIATE RELEASE

October 10, 2024

FMB Strong Announces Hurricane Milton Recovery Efforts

Fort Myers Beach, FL – FMB Strong is thankful to announce that while Hurricane Milton has caused significant challenges, our island community has weathered the storm. However, the path to full recovery is long, and we are calling on our friends, neighbors, and supporters to help in the cleanup and rebuilding efforts.

AMERICAN OVERSIGHT

"We are incredibly grateful for the resilience of Fort Myers Beach, but there is a lot of work ahead of us," said Tim Ryan, Founder of FMB Strong. "Our community has faced adversity before, and we're confident that, with the support of our partners and generous donors, we can recover and rebuild stronger than ever."
FMB Strong has partnered with Beach Talk Radio to kickstart the recovery process, ensuring that vital support reaches the community as quickly as possible.

How You Can Help:

Donate to the Hurricane Milton Recovery Fund: Your financial support will go directly toward immediate relief and cleanup efforts. Contributions can be made at https://donorbox.org/fmb-strong-hurricane-milton.

Send Supplies Through Our Amazon Wish List: Help us gather the necessary items for our community by purchasing supplies from our Amazon Wish List here: https://www.amazon.com/hz/wishlist/ls/3GC522Y18PQFA.

Every donation, no matter the size, makes a huge difference in rebuilding our beloved island. FMB Strong remains committed to supporting Fort Myers Beach through every step of the recovery process.

About FMB Strong:

FMB Strong is a 501(c)(3) non-profit organization founded by survivors of Hurricane Ian to provide ongoing support to the Fort Myers Beach community. The organization offers vital services, including food pantries, supplies, and community engagement, and is now actively involved in disaster recovery efforts.

Lee County consolidates shelter operations

Fort Myers, FL, Oct. 10, 2024 – Lee County is consolidating its shelter operations this afternoon as people return to their homes following a successful evacuation of Zones A and B for Hurricane Milton.

The shelters remaining open are:

- Island Coast High School
- Estero Recreation Center
- Dunbar High School
- Hertz Arena

LeeTran will provide free transportation from the shelters that are closing to these listed available shelters. The county expects to further consolidate some of the remaining shelters Friday.

The county is coordinating with partners to provide support and services to those evacuees impacted by Hurricane Milton during these consolidations.

Subject: *** Sanibel Causeway OPEN TO RESIDENTS Post-Milton 10/10/24, Update #2, 2:40 p.m. ***

External Email Alert

This email has been sent from an account outside of the LCSO Systems network.

Please treat the email with caution, especially if you are requested to click on a link, decrypt/open an attachment, or enable macros. For further information on how to spot phishing, Please contact the Help Desk.

SANIBEL CAUSEWAY is NOW OPEN to Residents and Business Owners ONLY, THURSDAY, 10/10/24.

Motorists are urged to drive with caution as lane closures may be necessary for the contractor backfill shoulder areas that eroded due to the storm. Expect flagging operations to continue.
See below for additional information from the City of Sanibel.

Hurricane Milton Advisory #8 - Sanibel Causeway is Now Open to Residents and Business Owners

The Sanibel Causeway is now open for property owners to return to Sanibel. Hurricane Re-entry Permits or proof of residency will be required for access.

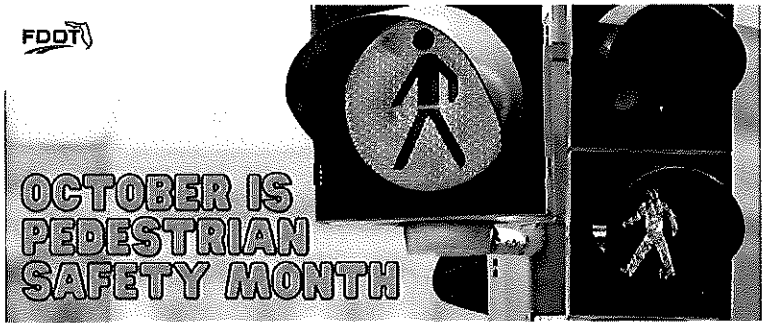
Residents of Sanibel with a green entry pass or a valid government issued photo ID showing a Sanibel address will be granted access.

Business owners with a red reentry pass will be granted access.

There are still portions of roadways with standing water and drivers are encouraged to use caution when returning to their homes and businesses.

A curfew will be in place from 9pm-6am daily until further notice. However, please limit travel throughout the island as much as possible to allow crews to expedite clean up.

AM OVERSIGHT



While at your home or business:

- Do not use the water - the sewer system could back up into your property

- Consider shutting off water when you leave the island

Thank you to our Sanibel community for working together through the evacuation process and for helping each other stay safe through this storm. We also greatly appreciate your patience and cooperation as we work to ensure everyone returns to their properties safely.

Please do not reply to this message.

Dear Residents,

While Hurricane Milton did not make a direct landfall in Lee, Collier, or Hendry counties, the storm surge and wind damages did occur. We hope that any damage to your property is minimal. Our team is currently assessing the overall damages in your communities, and we appreciate your patience during this time.

If there is still standing water in your area, please exercise caution. Here are some important safety tips:

1. **Avoid Standing Water:** Do not walk or drive through standing water, as it may be deeper than it appears and could hide hazards such as debris, sharp objects, or downed power lines.

2. **Watch for Electrical Hazards:** Avoid contact with downed power lines and electrical equipment in wet areas. Report any downed lines immediately to the utility company.

3. **Be Aware of Wildlife:** Floodwaters can displace wildlife, including snakes and alligators. Be alert and cautious when moving around your property.

4. **Prevent Mold Growth:** If water has entered your home, remove wet items and dry out affected areas as soon as possible to prevent mold growth.

5. **Stay Informed:** Monitor local news and weather updates for the latest information on flood conditions and road closures in your area. Local Authorities are asking that people remain in place at this time, as many roadways are flooded, and without operational signals.

AMERICAN OVERSIGHT

Our team will continue to keep you updated on the situation as we assess and address any issues within the community. If you need immediate assistance in regard to common areas, please contact our office. The offices will remain closed to the public until next week, but we are operating remotely. If there is a life-threatening emergency, as always please call 911.

Thank you for your cooperation, and please stay safe as we all try and clean up after Hurricane Milton.

Sincerely,

Kim Glick

AMERICAN OVERSIGHT

Sheriff Talking Points Hurricane Milton

-Our Incident Management Team was up all night monitoring the impacts from Hurricane Milton and staying up to date with the latest information.

-While Lee County was spared from landfall, we can report significant damage throughout parts of the county.

-Lee County experienced significant storm surge in our coastal areas, potential tornado touchdowns, and hurricane force winds.

-Damage assessments are still ongoing and will take some time.

-Many of our county roads are flooded or impassible at this time. We urge residents to avoid these areas until the water recedes and storm debris is cleared from the road.

-Do not walk in standing water. 1) It could be deep, 2) There could be downed power lines, 3) Other storm hazards present

-Today the main goal is to survey the entire county and figure out what resources are needed to get people the help that they need.

-Right now there are 247,000 residents without power.

-LCEC – over 50% of customers

-FPL – over 36% of customers

-FPL and LCEC are actively out to begin repairing and restoring power.

AMERICAN OVERSIGHT

-In Lee County, 52% of the traffic signals are not functioning

-DOT Crews are out assessing and repairing them as we speak

-Treat all intersections as a 4-way stop if the lights are not functioning.

-We have all of our assets standing by READY to assist including high water rescue vehicles to assist with any rescues.

-The Sanibel Causeway IS passable for emergency vehicles

-Our thoughts and prayers are with our fellow Floridians that felt the full impact from Hurricane Milton.

-I will ensure that we will send resources to them like they did for us in the aftermath of Hurricane Ian.

-I would like to thank:

Governor Ron DeSantis

Lt. Governor Jeanette Nunez

CFO Jimmy Patronis

Senator Rick Scott

Congressman Byron Donalds

FDLE Commissioner Mark Glass,

FDLS SAC Eli Lawson

We were constant contact and offered their full support for Lee County and the rest of Florida during this dangerous storm.

AMERICAN OVERSIGHT

IMT UPDATES (As of 6:30AM)

AMERICAN OVERSIGHT

Sheriff Talking Points Hurricane Milton

-Our Incident Management Team was up all night monitoring the impacts from Hurricane Milton and staying up to date with the latest information.

-While Lee County was spared from landfall, we can report significant damage throughout parts of the county.

-Lee County experienced significant storm surge in our coastal areas, potential tornado touchdowns, and hurricane force winds.

-Damage assessments are still ongoing and will take some time.

-Many of our county roads are flooded or impassible at this time. We urge residents to avoid these areas until the water recedes and storm debris is cleared from the road.

-Do not walk in standing water. 1) It could be deep, 2) There could be downed power lines, 3) Other storm hazards present

-Today the main goal is to survey the entire county and figure out what resources are needed to get people the help that they need.

-Right now there are 247,000 residents without power.

-LCEC – over 50% of customers

-FPL – over 36% of customers

-FPL and LCEC are actively out to begin repairing and restoring power.

AMERICAN OVERSIGHT

-In Lee County, 52% of the traffic signals are not functioning

-DOT Crews are out assessing and repairing them as we speak

-Treat all intersections as a 4-way stop if the lights are not functioning.

-We have all of our assets standing by READY to assist including high water rescue vehicles to assist with any rescues.

-The Sanibel Causeway IS passable for emergency vehicles

-Our thoughts and prayers are with our fellow Floridians that felt the full impact from Hurricane Milton.

-I will ensure that we will send resources to them like they did for us in the aftermath of Hurricane Ian.

-I would like to thank:

Governor Ron DeSantis

Lt. Governor Jeanette Nunez

CFO Jimmy Patronis

Senator Rick Scott

Congressman Byron Donalds

FDLE Commissioner Mark Glass,

FDLS SAC Eli Lawson

We were constant contact and offered their full support for Lee County and the rest of Florida during this dangerous storm.

AMERICAN OVERSIGHT

IMT UPDATES (As of 6:30AM)

-1661 Calls for Service between yesterday into this morning.
301 of those calls have been since midnight
69 of which are wellbeing checks
-Your calls will be answered! We are working on clearing these calls that came in.

JAIL UPDATES (As of 6:00AM)

-1642 total inmates (470 at Main Jail & 1172 at CORE Facility)
-14 new bookings overnight
-Loss of power at both facilities, however power has been restored at the CORE.

-Generator power is keeping the Jail facility fully functional.
-One inmate was transported due to altered mental state.

NATIONAL BODY ARMOR
CONCEALED EXPERTS

Hello National Body Armor Fans,

We're happy to report that National Body Armor and our entire team made it through Hurricane Milton with minimal impact! While there are no UPS pickups today, shipments will resume as normal tomorrow.

You might be wondering what happens with body armor after a hurricane. Interestingly, we often see a surge in demand. Why? Private security teams quickly mobilize across Florida to secure hotels, businesses, and other damaged structures, and they all need reliable gear. Plus, officers who were out in the storm often replace vests that were submerged in water.

Living in Florida comes with its challenges, but we wouldn't have it any other way. We're proud to be a Florida-based business and incredibly grateful for your continued support.

As always, if you have a threat, we can protect you. Shop online or give us a call at 561-571-5424.

AMERICAN OVERSIGHT

Thank you for being part of our community!

Stay safe,
The National Body Armor Team

To: The Honorable Carmine Marceno
Sheriff of Lee County

Dear Sheriff Marceno,

The Florida Attorney General's Office received a Hotline call from **Middleburg** resident **Denise Keenan** expressing health concerns for 91-year-old **North Ft. Myers** resident **Jeanne Kostrub**, her mother. She advised her mother uses a walker, has no power, has medical issues and is not able to locate her medicine. She stated she contacted your office today and a well-being check was performed, however, her mother said she is fine.

Additional call notes and Ms. Keenan's contact number are below. In an abundance of caution, we are sharing this information with your office so you are aware of her continued concerns. Please handle as you deem appropriate.

Thank you,

Jack Hagadorn

AMERICAN OVERSIGHT

Denise Keenan said Jeanne Kostrub, her 91-year-old mother, walks with a walker, is diabetic and has high blood pressure. She said Ms. Kostrub lives in Nort Fort Myers. Her mother is at home and because the house has no electricity due to the effects of Hurricane Milton, she is unable to locate her medicine. She does have a whole home generator, however that quit working.

Ms. Keenan said Ms. Kostrub cannot see to get her medication.

Ms. Keenan said she lives more than three hours away and cannot get to her mother. Ms. Keenan said she called Bo's Electric who told her that they cannot get anyone to her mother for a few weeks. They said they could probably get someone out sooner if Ms. Keenan pays them $695.00 up front.

Ms. Keenan said that the power company, LCEC Power, cannot give a time frame on when the electricity will be turned back on.

Ms. Keenan has contacted the Lee County Sheriff's Office around noon today and they did a well check. She states the Sheriff's Office said her mother stated she was fine. She also called the Lee County Emergency Management office.

She is concerned for her mother due to the lack of power and her inability to get her diabetic and high blood pressure medicine.

Her mother's address is:

Jeanne Kostrub
2580 Palo Duro Boulevard
North Ft. Myers, Florida 33917
239-671-2648

Could we possibly do 3pm EST?

AMERICAN OVERSIGHT

Sheriff Talking Points Hurricane Milton

-The Incident Management Team (IMT) remains fully operational but it continuing to demobilize and scale personnel.

-All Dump Trucks have been returned to HQ.

-All Jon Boats have been returned to HQ.

-All Precinct Shelters have been demobilized.

-Deputies assigned to staging were reassigned to Precincts to enhance patrol effectiveness during post-storm operations.

-Damage assessments are still ongoing and will take some time.

-We understand that everyone wants to get out and assess the county on their own, but we're asking you to avoid being out on the roads to allow first responders, linemen, utility and county worker to do their jobs.

-There could still be hazards to include storm debris and downed power lines.

-As of 7:30 AM: there are 247,000 residents without power.

-LCEC –53% of customers (134,477 residents)

-FPL – 22.4% of customers (66,020 residents)

-FPL and LCEC are actively out to begin repairing and restoring power.

-DOT Crews are out assessing and repairing them as we speak

-Treat all intersections as a 4-way stop if the lights are not functioning.

AMERICAN OVERSIGHT

BEACH/ISLAND ACCESS UPDATES (As of 10:30AM)

-At this time the "entrances" to these areas are passable. There are areas on the barrier islands that require a higher profile vehicle or four wheel drive to pass due to sand on the roadway.

-Little Hickory Island & Bonita Springs Causeway: Closed to vehicle traffic due to DOT clearing. Access to RESIDENTS ONLY. can access this area by foot until roads are cleared of sand.

Fort Myers Beach: Access to RESIDENTS ONLY AND CONTRACTORS/WORKERS. Residents are required to enter with pass, but can use their ID.

Sanibel: Access to RESIDENTS, BUSINES OWNERS ONLY, CONTRACTORS/WORKERS. Residents are required to enter with pass, but can use their ID.

Captiva: Access to RESIDENTS.

Boca Grande: Access to Boca Grande is completely blocked off by Charlotte County Roads & Bridges. Working to receive update as to when roads will be passable again.

AMERICAN OVERSIGHT

ROAD UPDATES (As of 8:30AM)

-Blind Pass Bridge is open and can be crossed by vehicles with caution.

- DOT is active in the area with heavy equipment and is currently moving large amounts of sand

-Traffic on Sanibel Captiva Road and Pine Ave are being directed by the Sanibel Police Department because of the road being washed out.

- DOT is active in the area with heavy equipment and is currently moving large amounts of sand.

-Deputies are directing traffic on Captiva Drive in front of Tween waters resort (approximately 700'). One lane open.

- DOT is actively draining the water and filling the washed out areas with materials.

-Gasparilla Road on Boca Grande has multiple areas washed out along the road (45th and 48th Street W) that includes the bike paths. Deputies are directing traffic.

- DOT is actively draining the water and filling the washed out areas with materials. It is estimate that Gasparilla road will be accessible later today.

AMERICAN OVERSIGHT

CURFEWS

Fort Myers Beach 10:00PM – 7:00AM

Bonita Springs 10:00PM – 7:00AM **(will rescind once traffic is allowed back on island)**

Sanibel 9:00PM – 6:00AM

LOOTING (As of 10/11/24)

NO reported looting arrests

-Following the storm, it's important to protect your home from looters.
-We saw it happen during Hurricane Ian, so you need to prepare.
-Looters will be prosecuted to the fullest extent of the law!
-"Not here in Lee County!"

-Secure all windows and doors.
-Safeguard valuable items.
-Call Law Enforcement to report any looting.

-The best resource right now is to continue following our social media pages for the latest updates on any road closures.

10/11/24 Bokeelia Burglary of Conveyance Arrests

-Suspects: Jonathan Hendricks & Ashley Wagner

-Both suspects stole leaf blower from partially enclosed trailer parked on property. The victim confronted the suspects in the act who left on bicycle. Hendricks is former employee of victim.

-Charges: Burglary of Unoccupied Conveyance during State of Emergency, Petit Theft

AMERICAN OVERSIGHT

-Our thoughts and prayers are with our fellow Floridians that felt the full impact from Hurricane Milton.

-I will ensure that we will send resources to them like they did for us in the aftermath of Hurricane Ian.

-I would like to thank:

Governor Ron DeSantis

Lt. Governor Jeanette Nunez

CFO Jimmy Patronis

Senator Rick Scott

Congressman Byron Donalds

FDLE Commissioner Mark Glass,

FDLS SAC Eli Lawson

We were constant contact and offered their full support for Lee County and the rest of Florida during this dangerous storm.

AMERICAN OVERSIGHT

LeeCountyPIO@leegov.com

Lee County consolidates shelter operations

Fort Myers, FL, Oct. 10, 2024 – Lee County is consolidating its shelter operations this afternoon as people return to their homes following a successful evacuation of Zones A and B for Hurricane Milton.

The shelters remaining open are:

- Island Coast High School
- Estero Recreation Center
- Dunbar High School
- Hertz Arena

LeeTran will provide free transportation from the shelters that are closing to these listed available shelters. The county expects to further consolidate some of the remaining shelters Friday.

The county is coordinating with partners to provide support and services to those evacuees impacted by Hurricane Milton during these consolidations.

Check www.leegov.com/storm for Hurricane Milton updates. Follow Lee County Government on Facebook, www.facebook.com/leecountyflbocc.

FOR IMMEDIATE RELEASE
October 10, 2024

DOH-Lee Recommends Post Storm Safety Tips

Contact:
Noelia E. Martinez Irizarry
Lee-PIO@FLHealth.gov
239-332-9653

Lee County, Fla. — The Florida Department of Health in Lee County (DOH-Lee) urges residents to be aware of the health risks following Hurricane Milton.

DOH-Lee recommends the following tips to prevent illness or injury:

Flood Waters

- Basic hygiene is critical. If you are under a boil water notice, use commercially bottled water for mixing baby formula. Wash your hands with soap and either disinfected or boiled and cooled water, especially

AMERICAN OVERSIGHT

before preparing or eating food, after toilet use, after handling a soiled diaper, after participating in flood cleanup activities, and after handling objects contaminated with flood water or sewage.
- Avoid eating or drinking anything that has been contaminated with flood waters.
- Avoid contact with flood waters, especially if you have open cuts or sores.
- If you have any open cuts or sores and come in contact with flood waters, wash the area well with soap to prevent infection. If a wound develops redness, swelling, or drainage, seek immediate medical attention.
- Residents who sustain lacerations and/or puncture wounds are encouraged to contact their primary health care provider to make sure they are current on their tetanus vaccine and possibly get a booster.

Vibrio vulnificus

- **Risk Factors**: Individuals who have compromised immune systems, liver disease, or open wounds are at higher risk for *Vibrio vulnificus*.
- **Symptoms**: Symptoms may include diarrhea, vomiting, abdominal pain, fever, chills, fast or high heart rate, confusion, or disorientation.
- **When to Seek Medical Attention**: Seek medical attention **immediately** if you experience symptoms associated with *Vibrio vulnificus*, especially after exposure to floodwaters.

Carbon Monoxide

- Carbon Monoxide (CO) is an invisible, odorless, and tasteless gas that can be deadly.

- Using generators indoors, including garages, can cause carbon monoxide to build up leading to death. Only use all gas-powered or charcoal burning equipment outside, at least 20 feet away from doors, windows, vents, and air intakes.
- Symptoms of CO poisoning include fatigue, weakness, shortness of breath, stomach pain, vomiting, headaches, confusion, lack of coordination, vision problems, loss of consciousness, chest pains for people with heart disease, and in some cases, death.
- If you suspect CO poisoning, call 911 or the Florida Poison Information Center at 1-800-222-1222.

Mosquito Bite Prevention

DRAIN standing water:

- Drain water from garbage cans, buckets, pool covers, coolers, toys, flowerpots, or any other containers where sprinkler or rainwater has collected.
- Discard old tires, drums, bottles, cans, pots and pans, broken appliances, and other items that aren't being used.
- Empty and clean birdbaths and pets' water bowls at least twice a week.
- Protect boats and vehicles from rain with tarps that don't accumulate water.
- Maintain swimming pools in good condition and appropriately chlorinated. Empty plastic swimming pools when not in use.

COVER your skin:

- If you must be outside when mosquitoes are active, cover up. Wear shoes, socks, long pants, and long sleeves.
- Apply mosquito repellent to bare skin and clothing. Always use repellents according to their labels. Repellents with 10-30% DEET, picaridin, oil of lemon eucalyptus, and IR3535 tend to be most effective.

AMERICAN OVERSIGHT

- Use mosquito netting to protect children younger than 2 months old.

Boil Water Notice

- Once water reaches a boiling point, let it continue to boil for an additional minute.
- Boil tap water even if it is filtered.
- Use clean or bottled water to wash fruits and vegetables or to prepare drinks.
- Brush teeth with boiled or bottled water.

Wildlife

If you're bitten and **not in need** of immediate assistance:

- Wash hands with soap and clean, fresh water.
- Place pressure on the wound with a clean cloth to stop bleeding.
- After bleeding has stopped, pour bottled or clean, running water over the wound and gently clean water.
- Pat dry and use an adhesive bandage or dry, clean cloth to cover the wound.
- Once the wound has been stabilized, seek medical assistance to ensure that no additional treatment is needed.
- Report all bites to Lee County Domestic Animal Services or Lee County Sheriff's Office to ensure rabies prevention follow-up is conducted.

Mold Clean Up

- **Take it out:** Anything that was wet with flood water and can't be cleaned and dried completely within 24 to 48 hours should be taken outside for waste removal.
- **Air out:** Open all doors and windows when you are removing wet or moldy materials, or when cleaning moldy surfaces.
- **Scrub surfaces:** Clean with water and detergent. Remove all mold you can see. Dry right away.
- **Don't cover it, remove it:** Painting or caulking over mold will not prevent mold from growing. Dry it out and remove all the mold before you paint or caulk.
- **Consider your medical status:** Individuals with suppressed or impaired immune systems, mold allergies, asthma, or other chronic lung disease should not clean or remove moldy materials.

City of Bonita Springs Hurricane Milton Advisory #11: Post Hurricane Milton Updates

Hurricane Milton brought damaging storm surge to coastal areas throughout Bonita Springs and tornado and wind damage across the community.

AMERICAN OVERSIGHT

The City continues to ask residents to remain in place and avoid travel as much as possible. There are downed powerlines in the roadway, and some are potentially live. Debris is still being removed from the roadways. Power outages are also impacting traffic signals.

City Staff is out assessing the impact of the storm. The City has a curfew in place for the beach area. The curfew is from 10pm to 7am. For more information, please visit the cityofbonitasprings.org

Bonita Springs Utilities Precautionary Boil Water Notice
Start Date: 10/09/2024
End Date: 10/13/2024
To: Customers of Bonita Springs Utilities Residing on:
4520 – 5500 Bonita Beach Road
All of Bay Point Lane
All of Little Hickory Island
All of Big Hickory Island
All of Black Island

Traffic Lights and Safety: Lee County Government is assessing traffic signals throughout Lee County and working to get them up and running. Motorists should approach non-functioning signals with caution

-
  - If a signal is dark: After coming to a complete stop, proceed carefully through the intersection.
  - If it's flashing yellow: Proceed with caution.
  - If it's flashing red: Treat it as a stop sign.
  - If law enforcement is on-scene, follow the directions of deputies or officers

Power and Light: Florida Power and Light (FPL) is working to restore power throughout Lee County. FPL asks that the public stay far away from flooded areas and

AMERICAN OVERSIGHT

downed power lines. If you see a downed power line, call FPL at 1-800-468-8243 or 911 if it is an emergency. Please report outages on the FPL Mobile App. Download the FPL app by texting the word "App" to MyFPL (69375).

Imperial River Water Levels: The City of Bonita Springs continues to monitor the Imperial River Water Levels. The Imperial River appears to have crested and the water levels are decreasing as compared to at the height of Hurricane Milton. Bonita Springs residents who live near the Imperial River are encouraged to continue to monitor the water levels. The Imperial River is now at 11.63. To monitor water levels please visit.

Generator Safety: If you are planning on using a generator because you are out of power, please use caution. Safety tips for using a generator:

- Do not use indoors
- Keep at least 20 feet away from windows& door
- Never plug the generator into a wall outlet
- Keep the exhaust pointed away from your home

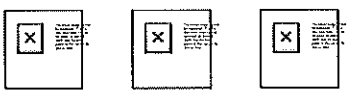
Operational Hours and Facility Closure: City of Bonita Springs City Hall will remain closed through Friday, October 11th,2024. All Bonita Springs Parks & Recreation facilities are closed today. Essential Staff continue to work throughout post-storm efforts.

Storm Debris: Bonita Springs Staff is beginning to assess debris. The City is ready to mobilize its contracted debris vendor.

Lee County Trash Collections: Lee County has extended the suspension of residential garbage collection through Friday, October 11th, 2024. Regular service will resume Monday, October 14th, 2024, following the regular schedule for all accessible routes within the county's franchise areas. Only put out trash. Recycling and yard waste collections are delayed until October 21st,2024.

AMERICAN OVERSIGHT

LeeTran: As of October 10th, 2024, starting at 1:00 PM, LeeTran will only perform life-sustaining trips, county-wide emergency transportation support, and fare-free fixed-route evacuation assistance. LeeTran regular fixed route services remain suspended today and tomorrow as it conducts Emergency Operation Center missions. Regular fixed route service is expected to return no later than Saturday.



Shelters: Lee County is consolidating its shelter operations this afternoon as people return to their homes following a successful evacuation of Zones A and B for Hurricane Milton.

The shelters remaining open are:

- Island Coast High School
- Estero Recreation Center
- Dunbar High School

Permitting: Bonita Springs Community Development asks that any Bonita Springs residents with water intrusion in their homes post-storm send an email to floodinfo@cityofbonitaspringscd.org or call 239-444-6150 for assistance with permit requirements and resources. For additional information regarding flooding, please visit the community development website. To find out flood zone information please click here. Follow the City of Bonita Springs on Facebook.

Connect with us: Residents can stay up to date with City information on the City's Facebook page and website City of Bonita Springs. Visit The City of Bonita Springs Website for post-Storm Information. For more information, visit www.cityofbonitasprings.org. Download the city's free mobile app

Post-Hurricane Milton Museum Update

We hope you and your families remained safe during Hurricane Milton. Our prayers are with those impacted by the storm.

We are relieved to report the Museum made it through the storm with no damage.

At the moment, we are experiencing just a few issues with power and internet, and plan to re-open to the public on Tuesday, October 15th at 1:00pm.

AMERICAN OVERSIGHT

We look forward to seeing you soon!

Subject: Hurricane Milton - Update #44

The Incident Management Team (IMT) is beginning to demobilize some of their operations. Although the quantity of personnel is being scaled back, the IMT remains fully operational and all requests for equipment, personnel, or movement of assets need to go through the IMT.

Much of the water has receded, and the major parts of the rescue operation are concluded, pending additional calls for service or information obtained through our EOC partners.

As of this update, new notifications are as follows:

- The Sherp has been taken to Fleet.
- Radio and cellular communications are very spotty on Boca Grande. BGFD has requested a Starlink.
- An emergency response corridor from the Boca Grande Causeway to Belcher Rd has been opened. This is only passable to high clearance vehicles, ATVs, or side by sides.
- Boca Grande FD does not have a fire apparatus on the island at this time due to road conditions.
- LCDOT has been on Boca evaluating roadways. They are working on clearing sand, broken asphalt, and debris from the roadway.
- A FWC saw crew assisted clearing limbs from the GICIA bike path, currently the only bypass for Gasparilla Rd.
- The rental dump truck had a cracked windshield from flying debris while parked at CCSO District.
- All assets are back at Cape Harbour with the exception of the 25' skiff that is on the trailer in the 4th Precinct parking lot.
- There is no power in Cape Harbour Marina to include the Marine Office and Outreach Center. There is no ETA for repair.
- The 36' Ambar, 33' Impact, 33' LifeProof and the 28' Munsun are in the water at Cape Harbour Marina. These will be the only boats available for service because Tarpon Point Marina has no power for our boat lifts.
- There are currently no marinas in our area that have available fuel.
- The Marine Response Trailer is back at Cape Harbour Marina and in service.

Shelter Updates

- Estero Recreation Center: At Shelter - 38
- Island Coast High School: At Shelter - 43

Subject: Hurricane Milton - Update #43

AM OVERSIGHT

Personnel doing Welfare Checks (17W) should put extensive notes in the call. If you made contact with the person, please state that you made contact, who you made contact with, and whether they needed assistance or not or if you delivered a message to call a family member. If you cannot make contact with the person, please use the template provided by the Criminal Investigations Bureau. You may fill out the template on your MDC, and copy/paste the information into the call. A copy of the template is attached.

As of this update, new notifications are as follows:

- Marine assets are being returned to Cape Harbour Marina.
- Southern checkpoint for Hickory Island at Barefoot Beach/Bonita Beach Road.
- Northern checkpoint for Hickory Island on the north end of the island.
- The City of Bonita Springs will be implementing a curfew that will mirror the Town of Fort Myers Beach, beginning at 10:00 PM.
- Sanibel has opened access to the island for residents, business owners, and other authorized personnel until 9:00 PM. From 9:00 PM to 6:00 AM, there will be an enforced curfew.
- A checkpoint is on the north road to Captiva because of a washed away road in front of Tween Waters.
- The FDLE circuit to Sanibel PD is down. Communications will continue to forward eAgent traffic to LCSO.
- The initial damage assessment of North Captiva is complete. All residents that were on the island are OK. Damage is similar to Helene.
- Side by side delivered to North Captiva.
- Blind Pass bridge on Captiva Island is shut down due to structural issues by DOT.
- Court will reopen on normal business on Monday, October 14.
- Fuel bladder delivered to Captiva Island (limited island access)
- Fuel bladder delivered to Marine.
- Fuel bladder being delivered to Captiva.

Subject: Hurricane Milton - Update #40

Hurricane Milton is currently traveling over Orlando as a Category 1 hurricane. Several areas of Lee County that reported areas affected by storm surge are now receding. There are several trees and power lines down, so please travel safely as you begin assessments and patrol operations.

Schedule Update for 10/10/2024

- **Scheduling for Patrol and CIB** - members assigned to dayshift will report to their assigned unit and be available for mission-specific assignments from IMT.
- **Scheduling for Communications:** Dayshift will report to the headquarters at 0500 hours.

As of this update, storm information is as follows:

- The maximum sustained wind speeds are currently at 90 mph (Category 1).
- Hurricane Milton is moving ENE at 16 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 975 mb.
- We are still under a Storm Surge Warning.

AMERICAN OVERSIGHT

- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates are at 3' - 5' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van operations are still suspended at this time.
- EMS/Fire operations are still suspended at this time.
- Personnel Accountability Reports for each Precinct have been completed since the last update.

Known Roadway Hazards:

- Matlacha just east of the draw bridge is partially blocked by a house (1 lane available)
- Little Pine Island bridge has a high line power pole leaning across the road at approximately 8 feet above the roadway.
- Inlet Dr (off Orange Grove) – **Not Passable**
- Betmar Blvd at Jayde Ct – **Not Passable**
- Pondella Rd between Barrett Rd and Forsyth - **Not Passable**
- N-Tamiami and Oak – standing water – **Not Passable**
- N-Tamiami at Pondella – standing water – **Not Passable**
- Orange Grove South of Seafan Cir - Standing water – **Not Passable**
- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- 415 Snead Dr. - **Not Passable** - Tornado debris
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy) -
- St. Clair Ave E at Orange Grove – **Not Passable** – Approximately 2' of water
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**
- Lavin Ln at Cardinal Dr. - **Not Passable**
- N Tamiami Trl from Edison Bridge to Cabana 8" of standing water- **Not Passable**
- Colonial and Fowler - Trees in roadway
- SB FOWLER AND WINKLER - TREE DOWN IN THE ROAD
- ORANGE RIVER AND CEDAR HAMMOCK - TREE DOWN IN ROADWAY
- UPCOHALL AND SECOND ST - TREE DOWN IN ROADWAY
- E RIVERSIDE AND MIRAMAR - LARGE TREE IN ROADWAY
- 247 GRANADA - POWERLINE IN RD
- San Carlos and Broadway - water over the roadway, but receding. **Not Passable**
- San Carlos has lots of debris to include dumpsters on the roadway.
- Standing water on McGregor from A&W Bulb to McGregor Park Court.
- Summerlin to the causeway still has a lot of debris on the roadway - **Not Passable**
- McGregor at Wilson - tree blocking the entire road.
- COLLEGE PKWY & WHISKEY CREEK DR - TREE DOWN IN ROADWAY
- VICTORIA COVE CT & GLADIOLUS DR - POWERLINES DOWN IN ROADWAY

Subject: Hurricane Milton - Update #39

AMERICAN OVERSIGHT

As Hurricane Milton travels east across the state, sustained winds in our area remain steady at around 35 mph. Storm surge continues to affect various areas of Lee County. Hurricane Milton continues to drop wind speed as interacts with land.

As of this update, storm information is as follows:

- The maximum sustained wind speed are currently at 105 mph (Category 2).
- Hurricane Milton is moving ENE at 16 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 960 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van operations are still suspended at this time.
- EMS operations are still suspended at this time.
- 6th Precinct temporarily suspended the checkpoint operation at the Matlacha Bridge due to weather conditions. As soon as it is safe, they will re-establish the checkpoint. Due to water rising, 6th Precinct has relocated their dump truck to Publix at Pine Island and Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed since the last update.

Known Roadway Hazards:

- Inlet Dr (off Orange Grove) – **Not Passable**
- Betmar Blvd at Jayde Ct – **Not Passable**
- Pondella Rd between Barrett Rd and Forsyth - **Not Passable**
- N-Tamiami and Oak – standing water – **Not Passable**
- N-Tamiami at Pondella – standing water – **Not Passable**
- Orange Grove South of Seafan Cir - Standing water – **Not Passable**
- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- 415 Snead Dr. - **Not Passable** - Tornado debris
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy) - **Water level continues to rise and will not be passable very soon.**
- St. Clair Ave E at Orange Grove – **Not Passable** – Approx 2' of water
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**
- Lavin Ln at Cardinal Dr. - **Not Passable** - Standing water
- N Tamiami Trl from Edison Bridge to Cabana - **Not Passable** 8 " of standing water
- Colonial and Fowler - Trees in roadway
- Sanibel Blvd/Oleander - completely underwater and impassable.
- Blind Pass - Water and sand moving in.
- San Carlos and Prescott - several feet of water over the roadway.
- Cajeput / Bay Rd - Flooding from back bay - approximately 6 inches in roadway. Marked on GXP
- Summerlin/John Morris to the causeway - **Not Passable**
- Summerlin/Gladiolus - **Not Passable**
- McGregor to the causeway -**Not Passable**
- Island Park Rd has approximately 1 foot of water, but is passable with high vehicle.
- Briarcliff Road (East of Michael G Rippe) - Passable with 6" of water.
- Mullock Creek Area - Passable with 6" of water.

AMERICAN OVERSIGHT

- Park Road - impassable with 1 to 2 feet of water.
- Broadway West Area has approximately 1 foot of water, but is passable with high vehicle.
- Imperial River Corridor (Pennsylvania - North) has 3 feet of water and is impassable.
- W Terry (South) has 2 feet of water and rising, and is impassable.
- Imperial Shores Area (Tarpon Avenue - Big Bend Road) has 3 feet of water and rising.

Subject: Hurricane Milton - Update #38

Hurricane Milton has made landfall Siesta Key. We are starting to see storm surge affecting coastal areas of Lee County, with Bonita Beach/Hickory and Fort Myers Beach receiving impassible water over their main roadways. Sustained winds in Lee County still remain under 45 mph. IMT will continue to monitor the sustained winds to determine when or if a shelter order is given.

AMERICAN OVERSIGHT

As of this update, storm information is as follows:

- The maximum sustained wind speed are still at 120 mph (Category 3).
- Hurricane Milton is moving ENE at 15 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 954 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van has suspended service due to weather conditions.
- EMS has made the decision to suspend operations due to weather conditions. An update will be sent out once services are started back up.
- 6th Precinct has moved to the Publix at Pine Island and Burnt Store due to flooding covering Pine Island Rd at 300 feet from Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed.

Known Roadway Hazards:

- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- Bayshore and Hart Rd has a high power line down across the roadway, causing Bayshore Rd to be shut down (waiting for LCEC to disconnect power).
- Stipe St. E from Moody Rd - **Not Passable** - approx 2' of water
- 415 Snead Dr. - **Not Passable** - Possible tornado debris.
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Edison Bridge Base (Both Sides) has 6" of standing water - Passable but rising.
- St. Clair and Orange Grove– **Not Passable** – Approx 2' of water
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy)
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**
- Lavin Ln at Cardinal Dr standing water. - **Not Passable**
- N Tamiami Trl from Edison Bridge to Cabana - **Not Passable** 8 " of standing water
- Colonial and Fowler - Trees in roadway.
- Sanibel Blvd/Oleander - completely underwater and **Not Passable.**
- Blind Pass - Water and sand moving in. **Not Passable**
- San Carlos and Prescott - several feet of water over the roadway - **Not Passable.**
- Summerlin/John Morris to the causeway - **Not Passable.**
- Pine Ridge past the Lee Tran station - **Not Passable.**
- Summerlin/Gladiolus - **Not Passable.**
- McGregor to the causeway - **Not Passable.**
- Briarcliff and Wildflower - powerline down.
- Island Park Rd has 3+ feet of water and rising. **Not Passable.**
- Briarcliff Road (East of Michael G Rippe) - Passable with 6" of water.
- Mullock Creek Area has 3+ feet of water. **Not Passable at Parkridge Ct.**
- Park Road with 1 to 2 feet of water. **Not Passable.**
- US41 & Alico - Power poles and lines down - **Not Passable.**
- Broadway West Area has approximately 1 foot of water, but is passable with high vehicle.
- Coconut Road (Spring Creek Area) has 2 feet of water and rising, but is passable with high vehicle.

AMERICAN OVERSIGHT

- Riverside Park has 3+ feet of water and rising. **Not Passable.**

Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
    - First St between Crescent St & Old San Carlos Blvd
    - Second St between Crescent St & Old San Carlos Blvd
    - Third St between Crescent St & Old San Carlos Blvd

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours after* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.

- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Subject: Hurricane Milton - Update #16

The 11:00 PM update shows little movement in Hurricane Milton's track. Maximum sustained wind speeds are at 90 mph. Model tracks vary widely on the landfall location along Florida's West Coast. The Incident Management Team will continue to monitor and provide timely updates.

As of this update, new notifications are as follows:

Gas Availability:

- RaceTrac - 15820 Winkler Rd. - Pump 15 & 16 for First Responders - Contact is Tracy
- 7-11 - 12750 Cleveland Ave. - Pump 10 & 12 for First Responders - Contact is Vanilla
- RaceTrac - 5991 South Pointe Blvd. - Pump 19 & 20 for First Responders - Contact is Vince
- Mobil/7-11 - 20391 Summerlin Rd. - Pump 6 for First Responders - Contact is Susan
- Circle K - 20021 Summerlin Rd. - Pump 1 for First Responders - Contact is Kyle
- 7-11 - 15021 McGregor Blvd. - Pump 1 for First Responders - Contact is Jessica
- Mobil/7-11 - 17930 N. Tamiami Trl. - Pump 9 & 10 for First Responders - Contact is Joseph
- Circle K - 6381 Bayshore Rd. - Pump 10 for First Responders - Contact is Elizabeth

AMERICAN OVERSIGHT

- Circle K - 19101 N. Tamiami Trl. - Pump 1 & 2 for First Responders - Contact is Christy
- 7-11 - 100 Delaware in Lehigh Acres - Pump 1 & 2 for First Responders.

From: IMT <IMT@sheriffleefl.org>
Sent: Sunday, October 6, 2024 8:57 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Sent: Tuesday, October 1, 2024 10:35 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Subject: Hurricane Milton - Update #45

The Incident Management Team (IMT) is continuing to demobilize some of our operations. Although the quantity of personnel is being scaled back, the IMT remains fully operational and all requests for equipment, personnel, or movement of assets need to go through the IMT.

Much of the water has receded, and the major parts of the rescue operation are concluded, pending additional calls for service or information obtained through our EOC partners.

As of this update, new notifications are as follows:

- The City of Bonita Springs has implemented a curfew. 4th Precinct and Bonita CP have received the Executive Order from city management.
  - Pursuant to state law, please be mindful to permit persons to travel to their places of employment to work, and permit those persons to travel to their residences after work.
- Shift schedules for tonight and tomorrow were reconciled and validated.
- All dump trucks and side-by-sides have returned to HQ from missions in the field today. If needed tomorrow or over the weekend, contact IMT.
- Please discontinue sending road hazards/flooding reports to IMT. Update GXP with any hazards observed. If GXP has a report that is no longer valid, please remove it or contact IMT for assistance with removing it.
- All Precinct Shelters have been demobilized.

The Incident Management Team (IMT) is beginning to demobilize some of their operations. Although the quantity of personnel is being scaled back, the IMT remains fully operational and all requests for equipment, personnel, or movement of assets need to go through the IMT.

Much of the water has receded, and the major parts of the rescue operation are concluded, pending additional calls for service or information obtained through our EOC partners.

AMERICAN OVERSIGHT

As of this update, new notifications are as follows:

- The Sherp has been taken to Fleet.
- Radio and cellular communications are very spotty on Boca Grande. BGFD has requested a Starlink.
- An emergency response corridor from the Boca Grande Causeway to Belcher Rd has been opened. This is only passable to high clearance vehicles, ATVs, or side by sides.
- Boca Grande FD does not have a fire apparatus on the island at this time due to road conditions.
- LCDOT has been on Boca evaluating roadways. They are working on clearing sand, broken asphalt, and debris from the roadway.
- A FWC saw crew assisted clearing limbs from the GICIA bike path, currently the only bypass for Gasparilla Rd.
- The rental dump truck had a cracked windshield from flying debris while parked at CCSO District.
- All assets are back at Cape Harbour with the exception of the 25' skiff that is on the trailer in the 4th Precinct parking lot.
- There is no power in Cape Harbour Marina to include the Marine Office and Outreach Center. There is no ETA for repair.
- The 36' Ambar, 33' Impact, 33' LifeProof and the 28' Munsun are in the water at Cape Harbour Marina. These will be the only boats available for service because Tarpon Point Marina has no power for our boat lifts.
- There are currently no marinas in our area that have available fuel.
- The Marine Response Trailer is back at Cape Harbour Marina and in service.

Known Major Roadway Hazards:

- 1st
    - Inlet Dr (off Orange Grove) – Now Passable.
    - Stipe St. E from Moody Rd – Standing water - Not Passable
    - Seaworthy Rd at Moody Rd – Standing water - Not Passable
    - Betmar Blvd at Jayde Ct – Impassable
    - N Tamiami at E N. Shore – Standing water – Impassable
    - Pondella Rd between Barrett Rd and Forsyth – Impassable
    - 415 Snead Dr. - Not Passable - Tornado debris
    - Skyline Dr. East of Moody - Not Passable - Tree in the road.
    - Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy)
    - St. Clair – Standing water - Not Passable
    - Edison Bridge is now passable.
    - N-Tamiami and Oak – standing water – Impassable
    - N-Tamiami at Pondella – standing water – Impassable
    - Orange Grove South of Seafan Cir. Standing water – Impassable
    - N-Cleveland near the base of the bridge on the northbound side - Tree down blocking 1 lane
    - N-Tamiami and Laurel Southbound blocking 1.5 lanes. - Tree down blocking 1.5 lanes
    - N-Tamiami Just North of Pondella - two Power lines down on road.
    - Donald Rd. at curve - Standing water - Not Passable.
    - Upriver Rd. at end near river - Flooded - Not Passable.
    - Cable lines hanging near entrance of Tara Woods.
- 2nd
    - No reported hazards at this time.
- 3rd
    - San Carlos and Broadway - water over the roadway, but receding. Not Passable
    - San Carlos has lots of debris to include dumpsters on the roadway.
    - Standing water on McGregor from A&W Bulb to McGregor Park Court.
    - Summerlin to the causeway still has a lot of debris on the roadway - Not Passable
    - McGregor at Wilson - tree blocking the entire road.
    - COLLEGE PKWY & WHISKEY CREEK DR - TREE DOWN IN ROADWAY
    - VICTORIA COVE CT & GLADIOLUS DR - POWERLINES DOWN IN ROADWAY
    - SUNSET VISTA DR & MCGREGOR BLVD - TREE DOWN BLOCKING MCGREGOR
    - DEBRIS ON SUMMERLIN SOUTH OF FSW PALMS DOWN SB

AMERICAN OVERSIGHT

- SUMMERLIN / CEDARBEND DR HAS A LARGE BRANCH BLOCKING ROAD
- SAN CARLOS / PINE RIDGE HAS A LARGE WASTE BIN IN CENTER TURN LANE ON SAN CARLOS
- Cape Bridge at Cape Coral Pkwy at Del Prado is closed.
- Power lines and transformers are sparking at John Morris and Kelly Sands.
- Summerlin and Maple has a large tree blocking the right SB lanes.
- Wire down on Palm/Seventh in Pine Manor.
- Fifth between palm and Cypress in Pine Manor has a large tree down blocking the roadway.
- Tree down at Lakewood and Summerlin blocking the road.

- 4th
  - Island Park Rd has approximately 3+ feet of water - Not Passable
  - Briarcliff Road (East of Michael G Rippe) - Passable with 6-12"" of water over the roadway.
  - Mullock Creek Area - approximately 3+ feet of water - Not Passable
  - Park Road - has 3 feet of water.- Not Passable
  - Coconut Road (Spring Creek Area) has 1 to 2 feet - Not Passable
  - W Terry (South) has 3+ feet of water - Not Passable
  - Riverside Park has 3+ feet of water
  - Imperial River Corridor (Pennsylvania - North) has 3+ feet of water - Not Passable
  - Bonita Beach Park has 1 to 2 feet of water.
  - Imperial Shores Area (Tarpon Avenue - Big Bend Road) has 3 feet of water - Not Passable
  - Hickory Island - Kings Kew not Passable due to sand on roadway.

Subject: Hurricane Milton - Update #38

Hurricane Milton has made landfall Siesta Key. We are starting to see storm surge affecting coastal areas of Lee County, with Bonita Beach/Hickory and Fort Myers Beach receiving impassible water over their main roadways. Sustained winds in Lee County still remain under 45 mph. IMT will continue to monitor the sustained winds to determine when or if a shelter order is given.

As of this update, storm information is as follows:

- The maximum sustained wind speed are still at 120 mph (Category 3).
- Hurricane Milton is moving ENE at 15 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 954 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van has suspended service due to weather conditions.
- EMS has made the decision to suspend operations due to weather conditions. An update will be sent out once services are started back up.
- 6th Precinct has moved to the Publix at Pine Island and Burnt Store due to flooding covering Pine Island Rd at 300 feet from Burnt Store.

AMERICAN OVERSIGHT

- Personnel Accountability Reports for each Precinct have been completed.

Known Roadway Hazards:

- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- Bayshore and Hart Rd has a high power line down across the roadway, causing Bayshore Rd to be shut down (waiting for LCEC to disconnect power).
- Stipe St. E from Moody Rd - **Not Passable** - approx 2' of water
- 415 Snead Dr. - **Not Passable** - Possible tornado debris.
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Edison Bridge Base (Both Sides) has 6" of standing water - Passable but rising.
- St. Clair and Orange Grove– **Not Passable** – Approx 2' of water
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy)
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**
- Lavin Ln at Cardinal Dr standing water. - **Not Passable**
- N Tamiami Trl from Edison Bridge to Cabana - **Not Passable** 8 " of standing water
- Colonial and Fowler - Trees in roadway.
- Sanibel Blvd/Oleander - completely underwater and **Not Passable**.
- Blind Pass - Water and sand moving in. **Not Passable**
- San Carlos and Prescott - several feet of water over the roadway - **Not Passable**.
- Summerlin/John Morris to the causeway - **Not Passable**.
- Pine Ridge past the Lee Tran station - **Not Passable.**
- Summerlin/Gladiolus - **Not Passable**.
- McGregor to the causeway - **Not Passable**.
- Briarcliff and Wildflower - powerline down.
- Island Park Rd has 3+ feet of water and rising. **Not Passable**.
- Briarcliff Road (East of Michael G Rippe) - Passable with 6" of water.
- Mullock Creek Area has 3+ feet of water. **Not Passable at Parkridge Ct**.
- Park Road with 1 to 2 feet of water. **Not Passable**.
- US41 & Alico - Power poles and lines down - **Not Passable**.
- Broadway West Area has approximately 1 foot of water, but is passable with high vehicle.
- Coconut Road (Spring Creek Area) has 2 feet of water and rising, but is passable with high vehicle.
- Riverside Park has 3+ feet of water and rising. **Not Passable**.
- Imperial River Corridor (Pennsylvania - North) has 3+ feet of water. **Not Passable**.
- W Terry (South) has 3+ feet of water and rising. **Not Passable**.
- Bonita Beach Park has 2 feet of water and rising. **Not Passable**.
- Imperial Shores Area (Tarpon Avenue - Big Bend Road) has 2+ feet of water and rising. **Not Passable**.
- Imperial Shores/ Bonita Beach Rd has 2.5+ feet of water . **Not Passable**.
- Hickory Island - Kings Kew has 3+ feet of water and rising, coming close to homes. **Not Passable**.
- Hickory Island - Mclaughlin Blvd has 3+ feet of water and rising, coming close to homes. **Not Passable**.
- Hyatt Regency entrance has 2.5 feet of water.

Traffic Lights Out:

- N Cleveland Ave/Stockton
- N Cleveland Ave/Hancock
- N Tamiami Trl/Del Prado
- N Tamiami and N Cleveland
- Verandah and Palm Beach
- N Tamiami & Bayshore Rd

Subject: Hurricane Milton - Update #35

As of this update, the latest storm information is as follows:

- Milton is still forecast to make landfall in the Sarasota County area.
- The maximum sustained wind speed is currently 145 mph.
- Hurricane Milton is moving NE at 17 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 931 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 35 miles.
- Tropical-storm-force winds extend outward up to 175 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.
- A rain band is moving through Lee County now.

As of this update, new notifications are as follows:

- Rumors are spreading that shelters are full. This is not true. The only shelter that is near capacity is Estero Rec Center. Capacity is approximately 36,000 people and shelters are currently about 15% full.
- The Town of Fort Myers Beach is prepared for post-storm search and rescue, then debris removal.
- Sanibel Police have evacuated the island and the Sanibel Check Station has been dismantled.
- 4th Precinct personnel have been pulled off the barrier islands.

AMERICAN OVERSIGHT

- 3rd Precinct personnel have been pulled off the barrier islands.
- All Message Boards are being moved to safe storage.

Flooding:

- Minor reports of standing water on the road on Estero Island.

Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.

AMERICAN OVERSIGHT

- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
  - First St between Crescent St & Old San Carlos Blvd
  - Second St between Crescent St & Old San Carlos Blvd
  - Third St between Crescent St & Old San Carlos Blvd

Subject: Hurricane Milton - Update #29

According to the National Hurricane Center, Milton wobbled earlier today, but the longer-term motion is toward the east-northeast near 9 mph. On the forecast track, the center of Milton will move across the eastern Gulf of Mexico through Wednesday, make landfall along the west-central coast of Florida Wednesday night, and move off the east coast of Florida over the Atlantic Ocean on Thursday.

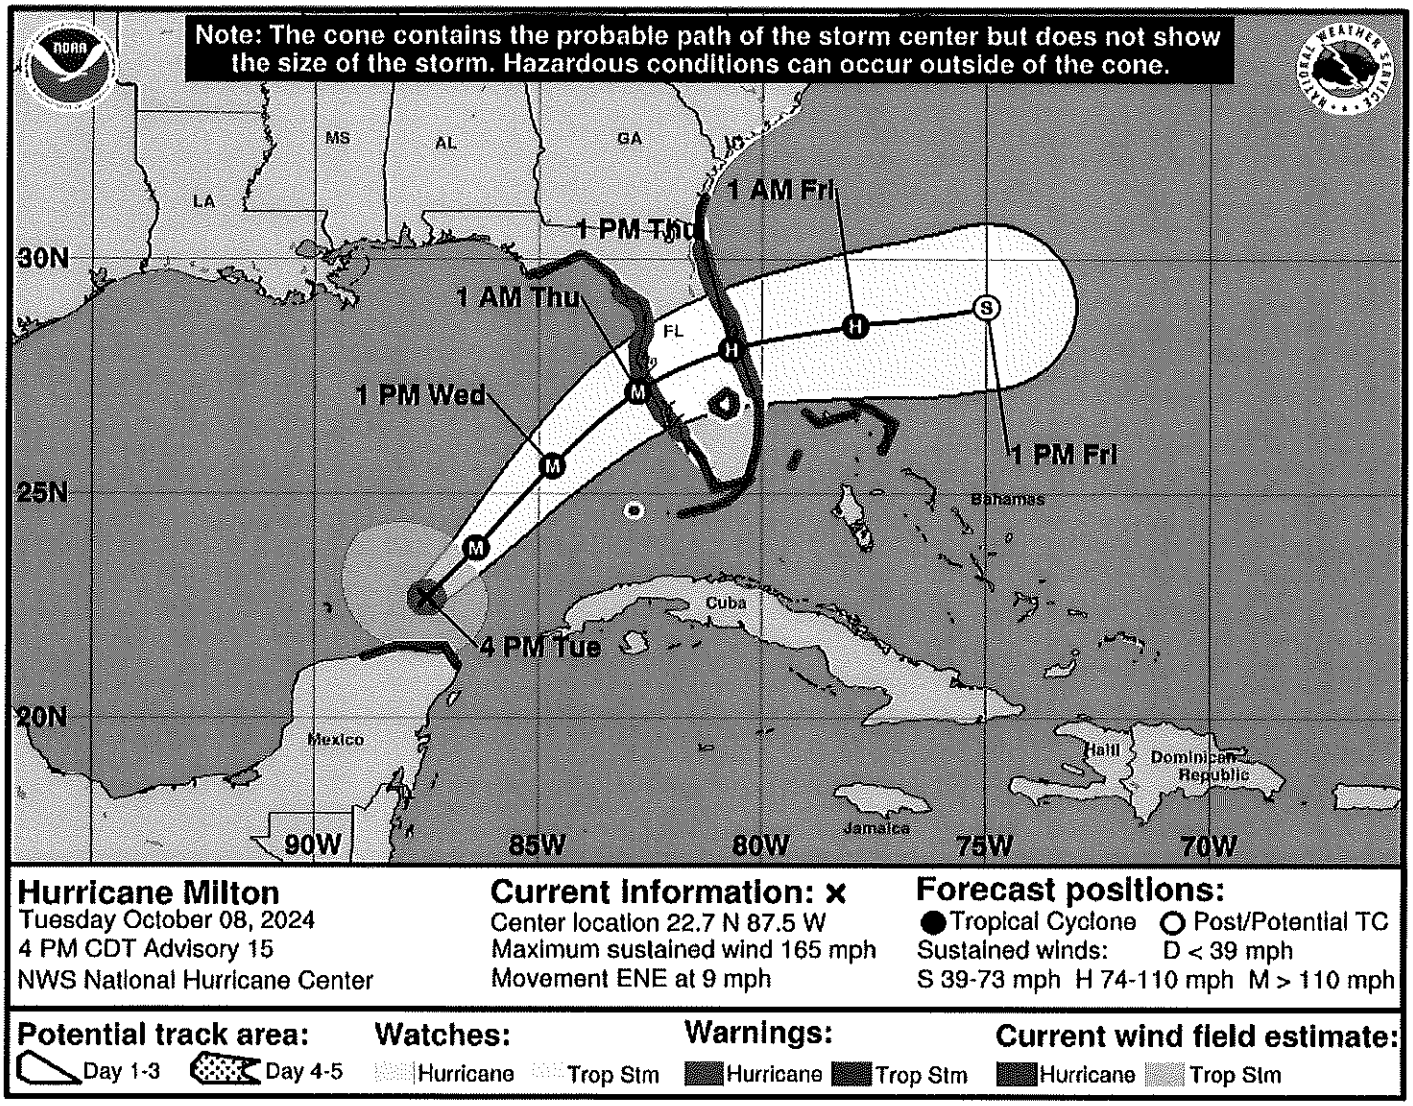
As of this update, the latest storm information is as follows:

- The track for Hurricane Milton has moved south. The center of the track is near the Sarasota/Bradenton area.
- The maximum sustained wind speed has increased to 165 mph (Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 918 mb.

AMERICAN OVERSIGHT

- Hurricane Milton is moving ENE at 9 mph.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 140 miles.
- Storm surge estimates have been raised to 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:



- Animal Control has closed operations due to the State of Emergency.
- Additional canopies are being distributed to the precincts.
- Communications will be receiving their schedules from their supervisors.
- The Incident Management Team will report to the EOC on Wednesday at 1700.
- The Medical Examiner's Office will be available on LCME1. If you cannot get in touch with the ME's Office via phone, ask the Communications Supervisor to patch a channel to LCME1.
- The Town of Fort Myers Beach has issued a Mandatory Evacuation by 10:00 PM on Tuesday, October 8, 2024.
- The Town of Fort Myers Beach has imposed a 24-hour daily curfew to begin at 10:00 PM on Tuesday, October 8, 2024.
- The City of Sanibel has a curfew and Mandatory Evacuation beginning at 10:00 PM.
- Agriculture Unit assets have been secured.
- Shelters:

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.
- Shelters:
    - Alico Arena - 54
    - Dunbar High School: Occupancy 174, FMPD Covering Shelter

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours after* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #20

As of this update, the latest storm information is as follows:

- The maximum sustained wind speeds are now at 175 mph (Category 5 is when sustained winds are 157+ mph).
- The timing of impacts to the area looks to be as early as early Wednesday morning and continuing into midday Thursday.
- The model spread in the forecast track remains high, but is beginning to tighten around a Tampa Bay region landfall.
- Hurricane force winds extend out 30 miles.
- Tropical Storm force winds extend out 80 miles.
- Regardless of the path, the wind field will be sufficient that Lee County will at least receive strong Tropical Storm strength winds.
- The tornado threat will be mainly late Tuesday into Wednesday night.

As of this update, new notifications are as follows:

- Effective at 12:00 PM, a Mandatory Evacuation Order has been issued for Evacuation Zones A & B.

AMERICAN OVERSIGHT

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- 7-11 at 100 Delaware has 6800 gallons of gas for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- 7-11 at 12011 Gateway Blvd. has gas for LEO on Pump 2.
- 7-11 at Corkscrew and Three Oaks has gas for LEO on Pumps 13 - 16.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- 7-11 at 10875 Terminal Access Road has fuel and will reserve Pumps 9 and 10 for First Responders. The clerk can turn on the pump.
- Shell at 13621 N. Cleveland Ave. has LEO gas on Pump 1 & 2.
- Marathon at 14010 North Cleveland Ave. has gas.
- Mobile/7-11 at 17930 North Tamiami Tr. has LEO gas on Pump 11 & 12.
- Murphy Express at 520 Pine Island Rd. has about 3500 gallons of gas.
- Circle K at 4600 Bayline Dr. has 300 gallons for LEO.
- Rocket Gas at 5760 Bayshore Rd. has 3000 regular gas.
- Circle K at 6381 Bayshore Rd. has 500 gallons of gas for LEO.
- Loves at 17308 Park 78 Dr. has gas.
- 7-11 at 18971 Babcock Ranch Rd. has gas and expects another delivery tonight.
- Shell at 402 Del Prado in Cape Coral has gas.
- Shell at 7135 Maida Ln. has gas.
- Speedway at 1365 N. Tamiami Trl. has Premium only.

Sand Updates:

- Sand and sandbags are being distributed by Lee County Sheriff's Office members to bulk distribution sites throughout the county. Individuals will have to go to a bulk distribution site to get sandbags.
    - Current stations with available sand and/or sandbags:
        - Station 102 at 44 Homestead Rd. S. in Lehigh Acres
        - Station 104 at Sunshine and 16th St. SW in Lehigh Acres
        - Tice Fire Buckingham Station at 5850 Buckingham Road
        - San Carlos Park Fire Station 54 at 16900 Oriole Rd.
        - Bayshore Fire at 17350 Nalle Rd.
        - Bonita Springs Fire at 27701 Bonita Grande Dr.
        - Bonita Springs Fire at 8850 W. Terry St. (Truck currently enroute)

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #16

The 11:00 PM update shows little movement in Hurricane Milton's track. Maximum sustained wind speeds are at 90 mph. Model tracks vary widely on the landfall location along Florida's West Coast. The Incident Management Team will continue to monitor and provide timely updates.

As of this update, new notifications are as follows:

Gas Availability:

- RaceTrac - 15820 Winkler Rd. - Pump 15 & 16 for First Responders - Contact is Tracy
- 7-11 - 12750 Cleveland Ave. - Pump 10 & 12 for First Responders - Contact is Vanilla
- RaceTrac - 5991 South Pointe Blvd. - Pump 19 & 20 for First Responders - Contact is Vince
- Mobil/7-11 - 20391 Summerlin Rd. - Pump 6 for First Responders - Contact is Susan
- Circle K - 20021 Summerlin Rd. - Pump 1 for First Responders - Contact is Kyle
- 7-11 - 15021 McGregor Blvd. - Pump 1 for First Responders - Contact is Jessica
- Mobil/7-11 - 17930 N. Tamiami Trl. - Pump 9 & 10 for First Responders - Contact is Joseph
- Circle K - 6381 Bayshore Rd. - Pump 10 for First Responders - Contact is Elizabeth

AMERICAN OVERSIGHT

- Circle K - 19101 N. Tamiami Trl. - Pump 1 & 2 for First Responders - Contact is Christy
- 7-11 - 100 Delaware in Lehigh Acres - Pump 1 & 2 for First Responders.

Sent: Sunday, October 6, 2024 8:57 PM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

FL-LEE-24-2340-A-002564

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Subject: Tropical Storm Milton - Update #13

The 2:00 PM Intermediate Update shows that there are no significant changes in the track. The earliest arrival of tropical storm force winds is projected to be 8:00 PM on Tuesday.

These are the stations that are reported to still have gasoline:

- Veronica Shoemaker/Winkler
- Shell station at Hancock and US 41
- BJ's Cape Coral
- 711 Burnt Store and Pine Island has DIESEL only
- Racetrac at South Pointe and College has 93 Only
- Walmart / Murphy's USA in Lehigh
- Santa Barbara and Veterans 7/11

These are the stations that are reported to be currently **out** of gasoline:

- Country Club and Veterans Circle K
- Del Prado Speedway
- Trafalgar and Skyline 7/11
- Rebel US 41 and Del Prado
- 76 at Chiquita and Pine Island
- Walmart/Murphy's Del Prado
- Walmart on Pine Island Road
- Pine Ridge and San Carlos 7/11
- Santa Barbara and Gleason 7/11
- Palm Tree and Cape Coral Pkwy 7/11

AMERICAN OVERSIGHT

- Lee and Gunnery 7/11
- Del Prado Racetrac
- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

AMERICAN OVERSIGHT

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

Subject: New Caribbean Disturbance - Update #2

The forecast for the area of disorganized showers remains the same; it is still too early to tell if the system will develop further. Regardless of development, heavy rain is expected in our area into the weekend and next week. The Incident Management Team will continue to monitor.

Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>

To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Good morning,

I hope this message finds you well and that the entire LCSO community is safe from Hurricane Milton.

On July 26, 2024, I received an unexpected email informing me that my application had been denied. This was surprising, as I was still in the process of submitting all necessary government documents and had been working on my background investigation. I understand that one of the investigators expressed frustration due to the 31-day wait time for my report from the USCG's IPERMS system.

This position means a great deal to me, as my father served as a homicide investigator with the Collier County Sheriff's Office. Following in his footsteps as a member of the Lee County Sheriff's Office has been my lifelong dream, especially after his passing. I relocated to Lee County specifically to pursue this opportunity, committing myself fully to this career path.

To ensure I remained a strong candidate, I have taken great care to uphold a clean record. I have never engaged in drugs or alcohol, driven solely by my aspiration to serve the community and honor my father's legacy.

Given these circumstances, I would like to formally request an appeal and the assignment of a different background investigator. I am now able to provide the IPERMS report, as the 31-day waiting period has elapsed. So far I have completed and passed the LCSO PAT, the CJBAT, psych evaluation, the polygraph and was in the process of the background investigation.

The last thing I wanted to do was bother this department with an appeal of all things, but this department and opportunity is too important for me to not give my best shot. I have spoken with multiple deputies from 4th and 5th Precinct and they have done nothing but strengthen my desire to serve this department and community.

Thank you for your attention to this matter. I look forward to your response.

Best regards,

Jacob H. Allen

Subject: Hurricane Milton - Update #46

The Incident Management Team (IMT) is continuing to demobilize operations. Although the quantity of personnel is being scaled back, the IMT remains fully operational and all requests for equipment, personnel, or movement of assets need to go through the IMT.

As of this update, new notifications are as follows:

- The black F250 given to 4th Precinct has been returned to HQ.
- All Dump Trucks have been returned to HQ.
- All Jon Boats have been returned to HQ.
- All Precinct Shelters have been demobilized.
- Deputies assigned to staging were reassigned to Precincts to enhance patrol effectiveness during post-storm operations.
- Employee wellness checks conducted via phone. Please do not hesitate to contact IMT if you need employee assistance.
- Continuing to validate asset locations and recall those that have completed their mission(s).

Subject: Hurricane Milton - Update #45

The Incident Management Team (IMT) is continuing to demobilize some of our operations. Although the quantity of personnel is being scaled back, the IMT remains fully operational and all requests for equipment, personnel, or movement of assets need to go through the IMT.

Much of the water has receded, and the major parts of the rescue operation are concluded, pending additional calls for service or information obtained through our EOC partners.

As of this update, new notifications are as follows:

- The City of Bonita Springs has implemented a curfew. 4th Precinct and Bonita CP have received the Executive Order from city management.
  - Pursuant to state law, please be mindful to permit persons to travel to their places of employment to work, and permit those persons to travel to their residences after work.
- Shift schedules for tonight and tomorrow were reconciled and validated.

AMERICAN OVERSIGHT

- All dump trucks and side-by-sides have returned to HQ from missions in the field today. If needed tomorrow or over the weekend, contact IMT.
- Please discontinue sending road hazards/flooding reports to IMT. Update GXP with any hazards observed. If GXP has a report that is no longer valid, please remove it or contact IMT for assistance with removing it.
- All Precinct Shelters have been demobilized.

Shelter Updates

Subject: Hurricane Milton - Update #44

The Incident Management Team (IMT) is beginning to demobilize some of their operations. Although the quantity of personnel is being scaled back, the IMT remains fully operational and all requests for equipment, personnel, or movement of assets need to go through the IMT.

Much of the water has receded, and the major parts of the rescue operation are concluded, pending additional calls for service or information obtained through our EOC partners.

As of this update, new notifications are as follows:

- The Sherp has been taken to Fleet.
- Radio and cellular communications are very spotty on Boca Grande. BGFD has requested a Starlink.
- An emergency response corridor from the Boca Grande Causeway to Belcher Rd has been opened. This is only passable to high clearance vehicles, ATVs, or side by sides.
- Boca Grande FD does not have a fire apparatus on the island at this time due to road conditions.
- LCDOT has been on Boca evaluating roadways. They are working on clearing sand, broken asphalt, and debris from the roadway.
- A FWC saw crew assisted clearing limbs from the GICIA bike path, currently the only bypass for Gasparilla Rd.
- The rental dump truck had a cracked windshield from flying debris while parked at CCSO District.
- All assets are back at Cape Harbour with the exception of the 25' skiff that is on the trailer in the 4th Precinct parking lot.
- There is no power in Cape Harbour Marina to include the Marine Office and Outreach Center. There is no ETA for repair.
- The 36' Ambar, 33' Impact, 33' LifeProof and the 28' Munsun are in the water at Cape Harbour Marina. These will be the only boats available for service because Tarpon Point Marina has no power for our boat lifts.
- There are currently no marinas in our area that have available fuel.
- The Marine Response Trailer is back at Cape Harbour Marina and in service.

Personnel doing Welfare Checks (17W) should put extensive notes in the call. If you made contact with the person, please state that you made contact, who you made contact with, and whether they needed assistance or not or if you delivered a message to call a family member. If you cannot make contact with the person, please use the template provided by the Criminal Investigations Bureau. You may fill out the template on your MDC, and copy/paste the information into the call. A copy of the template is attached.

As of this update, new notifications are as follows:

- Marine assets are being returned to Cape Harbour Marina.
- Southern checkpoint for Hickory Island at Barefoot Beach/Bonita Beach Road.
- Northern checkpoint for Hickory Island on the north end of the island.
- The City of Bonita Springs will be implementing a curfew that will mirror the Town of Fort Myers Beach, beginning at 10:00 PM.
- Sanibel has opened access to the island for residents, business owners, and other authorized personnel until 9:00 PM. From 9:00 PM to 6:00 AM, there will be an enforced curfew.
- A checkpoint is on the north road to Captiva because of a washed away road in front of Tween Waters.
- The FDLE circuit to Sanibel PD is down. Communications will continue to forward eAgent traffic to LCSO.
- The initial damage assessment of North Captiva is complete. All residents that were on the island are OK. Damage is similar to Helene.
- Side by side delivered to North Captiva.
- Blind Pass bridge on Captiva Island is shut down due to structural issues by DOT.
- Court will reopen on normal business on Monday, October 14.
- Fuel bladder delivered to Captiva Island (limited island access)
- Fuel bladder delivered to Marine.
- Fuel bladder being delivered to Captiva.

Subject: Hurricane Milton - Update #38

Hurricane Milton has made landfall Siesta Key. We are starting to see storm surge affecting coastal areas of Lee County, with Bonita Beach/Hickory and Fort Myers Beach receiving impassible water over their main roadways. Sustained winds in Lee County still remain under 45 mph. IMT will continue to monitor the sustained winds to determine when or if a shelter order is given.

As of this update, storm information is as follows:

- The maximum sustained wind speed are still at 120 mph (Category 3).
- Hurricane Milton is moving ENE at 15 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 954 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds still extend outward up to 35 miles.
- Tropical-storm-force winds still extend outward up to 255 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- The Corrections transport van has suspended service due to weather conditions.
- EMS has made the decision to suspend operations due to weather conditions. An update will be sent out once services are started back up.
- 6th Precinct has moved to the Publix at Pine Island and Burnt Store due to flooding covering Pine Island Rd at 300 feet from Burnt Store.
- Personnel Accountability Reports for each Precinct have been completed.

Known Roadway Hazards:

- Sky Villa and N. Cleveland Ave - Live powerline down (waiting for LCEC to disconnect power)
- Bayshore and Hart Rd has a high power line down across the roadway, causing Bayshore Rd to be shut down (waiting for LCEC to disconnect power).
- Stipe St. E from Moody Rd - **Not Passable** - approx 2' of water
- 415 Snead Dr. - **Not Passable** - Possible tornado debris.
- Skyline Dr. East of Moody - **Not Passable** - Tree in the road.
- Edison Bridge Base (Both Sides) has 6" of standing water - Passable but rising.
- St. Clair and Orange Grove– **Not Passable** – Approx 2' of water
- Hancock Bridge / Moody Estates – Passable – 4 inches of water on eastbound lanes (Hancock Bridge Pkwy)
- Edison Bridge Base (Both Sides) has 8" of standing water - **Not Passable**

Subject: Hurricane Milton - Update #35

As of this update, the latest storm information is as follows:

- Milton is still forecast to make landfall in the Sarasota County area.
- The maximum sustained wind speed is currently 145 mph.
- Hurricane Milton is moving NE at 17 mph.
- The minimum central pressure based on Air Force Reserve Hurricane Hunter data is 931 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 35 miles.
- Tropical-storm-force winds extend outward up to 175 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.
- A rain band is moving through Lee County now.

As of this update, new notifications are as follows:

  - Rumors are spreading that shelters are full. This is not true. The only shelter that is near capacity is Estero Rec Center. Capacity is approximately 36,000 people and shelters are currently about 15% full.
  - The Town of Fort Myers Beach is prepared for post-storm search and rescue, then debris removal.
  - Sanibel Police have evacuated the island and the Sanibel Check Station has been dismantled.
- 4th Precinct personnel have been pulled off the barrier islands.
- 3rd Precinct personnel have been pulled off the barrier islands.
- All Message Boards are being moved to safe storage.

Flooding:

- Minor reports of standing water on the road on Estero Island.

Shelters Updates:

Subject: Hurricane Milton - Update #34

All personnel with issued phones MUST have their GXP app on.

Reports of localized flooding are beginning to come in. Please put all flooding and important points (Command Centers, Road Closures, etc.) as a *Marker* on your GXP map. For those that have access to their computer, you may log in to GXP on your MDC by going to lee.gxpopsview.com/opsview. Personnel putting in markers must remove them when the marker no longer applies. If you cannot remove the tag, e-mail the IMT group at IMT@sheriffleefl.org asking them to remove the tag.

As of this update, the latest storm information is as follows:

- Milton is forecast to make landfall as a Category 4 Storm in the Manatee/Sarasota County area.
- The maximum sustained wind speed is currently 155 mph.
- Hurricane Milton is moving NE at 16 mph.
- The minimum central pressure based on NOAA and Air Force Reserve Hurricane Hunter data is 915 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 125 miles.
- Storm surge estimates remain at 8' - 12' along the Lee County coast.

As of this update, new notifications are as follows:

- GXP apps must be turned on when members are on duty.
- Flooding and other markers must be updated in GXP.
- Drawbridges will be locked down at 8:00 AM.
- EMS staffing has increased due to the expected increase in EMS calls.
- Operations have been suspended by LeeTran.

Flooding:

- The below roads on Fort Myers Beach have some areas with approximately 10" of water covering the road. They are currently passable, but that could change with additional heavy rain:
  - First St between Crescent St & Old San Carlos Blvd
  - Second St between Crescent St & Old San Carlos Blvd
  - Third St between Crescent St & Old San Carlos Blvd

Subject: Hurricane Milton - Update #28

As of this update, the latest storm information is as follows:

- The current track continues to be a worst case scenario situation for the Tampa Bay region southward to Sarasota.
- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Rainfall amounts of 5 to 12 inches, with localized totals up to 18 inches are expected. Many rivers are now forecast to go into moderate to major flood stage with a few possibly reaching record levels.
- The current most likely arrival time in Lee County for tropical-storm-force winds is 3:00 PM on Wednesday, with a most likely departure time of 9:00 AM on Thursday.
- Movement is ENE at 8 mph.
- The maximum sustained wind speed has increased to 155 mph (Category 4; Category 5 starts at 157 mph).
- The minimum central pressure based on dropsonde data is 923 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Additional documentation for welfare checks (17w) will be required. Supervisors will be disseminating the information to the affected personnel.
- All Marine assets are secured at JetBlue and the 4th Precinct, and the vessel assets that will be deployed with the Marine Unit will be secured at LeeTran.

As of this update, the latest storm information is as follows:

- The track for Hurricane Milton is still toward the lower Tampa Bay/Bradenton/Sarasota area.
- Movement is ENE at 9 mph.
- The maximum sustained wind speed has increased to 150 mph (Category 4).
- Milton is forecast to expand in size as it approaches the West Coast of Florida.
- The minimum central pressure based on dropsonde data is 929 mb.
- We are still under a Storm Surge Warning.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend outward up to 30 miles.
- Tropical-storm-force winds extend outward up to 105 miles.
- A 6' to 10' storm surge is still expected along the Lee County coast.
- Surf swells generated by Milton are expected to continue to affect much of the Gulf Coast over the next day or two, and are likely to cause life-threatening surf and rip current conditions.

As of this update, new notifications are as follows:

- Corrections B-Side Days and Nights is being activated at 0400 on Wednesday, 10/9/24.
- The Trianon Hotel has advised that LEO is welcome to park in the parking lot and use their facilities if needed.
- Communications is accepting E-Agent responses on behalf of the Sanibel Police Department due to the shutdown of their servers.
- The Town of Fort Myers Beach is currently under evacuation orders
- Water will be shut off to the Town of Fort Myers Beach (Barrier Island) today (10/08) at 12:00 PM.
- Sanibel Island will have an evacuation order as of tonight (10/08) at 10:00 PM.
- Sanibel Island will have a curfew beginning tonight (10/08) at 10:00 PM
- FPL, LCEC, and WastePro are completing staging efforts. WastePro will be closed until Friday, 10/11/24.
- Shelters:
    - Phase 1 shelters opened 10/7/24 at 3:00 PM.
    - Phase 2 shelters opened this morning at 8:00 AM.
    - Phase 3 shelters are opening at 12:00 PM today.
        - Shelter Status
            - Dunbar High School: Occupancy 174, FMPD Covering Shelter
            - Estero Recreation Center: Registered - 495, At Shelter - 117
            - Hertz Arena: At Shelter - 62

AMERICAN OVERSIGHT

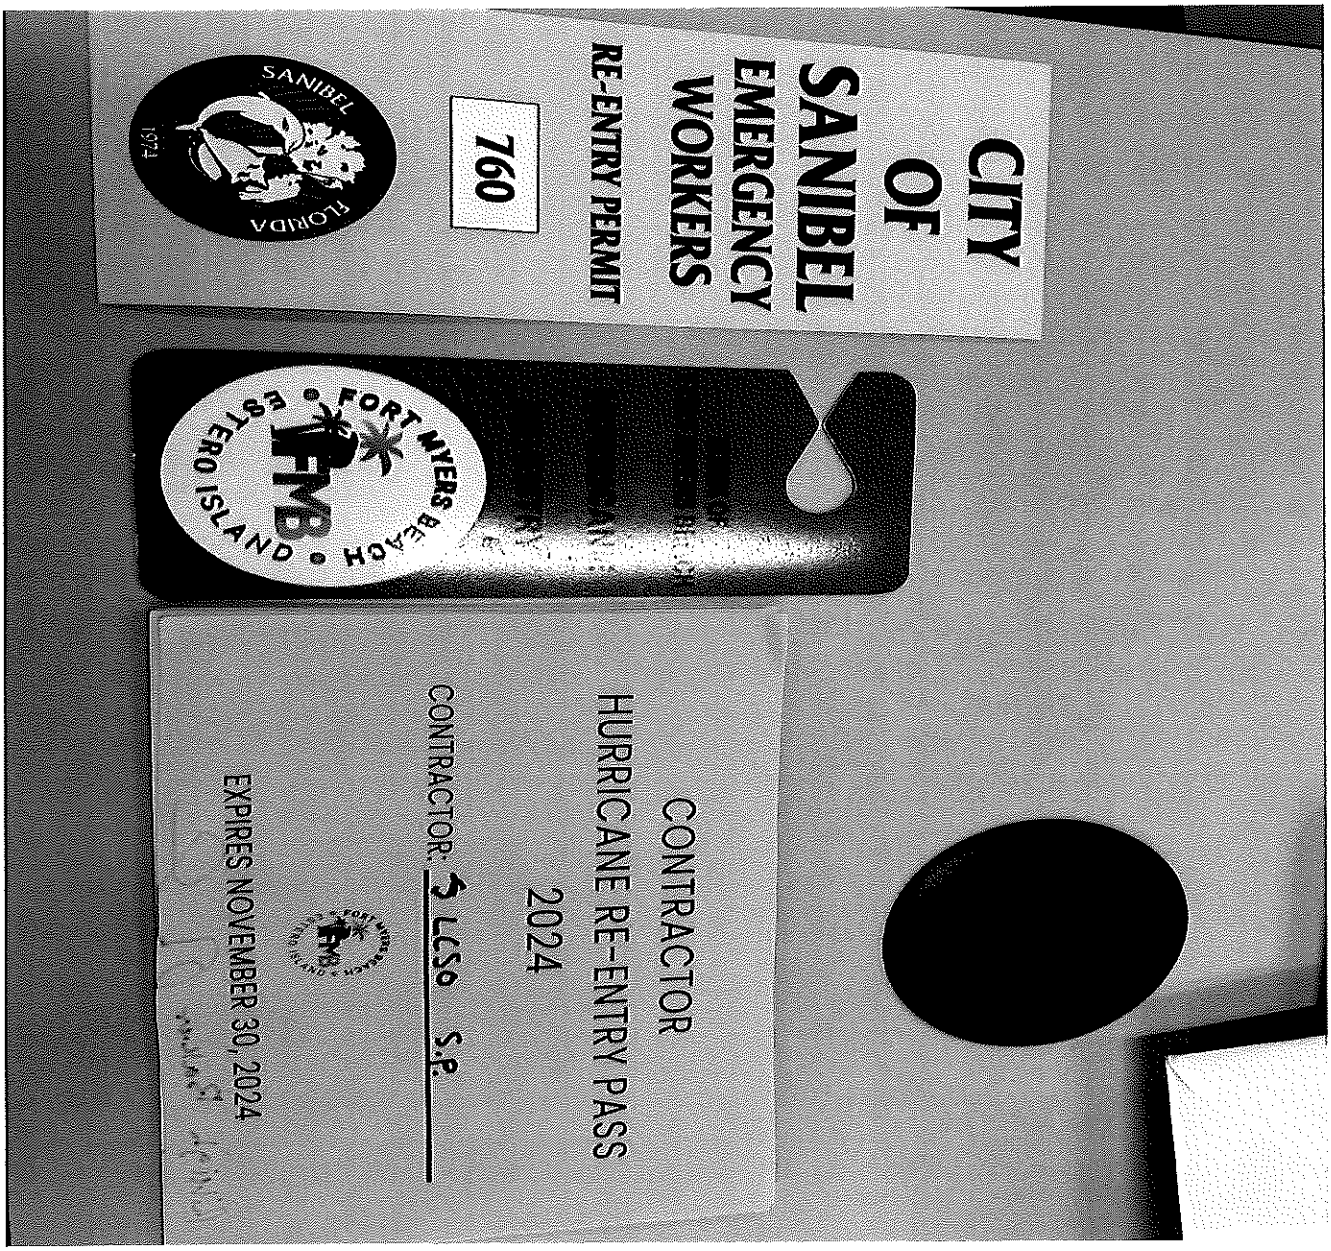
    - Island Coast High School: At Shelter - 173
    - Oak Hammock Middle: At Shelter - 150
    - Ray Pottorf Elementary: Occupancy is 62
    - Tortuga Elementary: At Shelter - 37 + 21 School Staff and 13 County Employees
    - Varsity Lakes Middle: At Shelter - 0
    - Gateway High School: At Shelter - 2
    - Harns Marsh Elementary: Opens at 1:00 PM
    - Harns Marsh Middle: Opens at 1:00 PM
    - East Lee County High School: Opens at 12:00 PM
    - SOPU Shelter: At Shelter - 1
- The Fire Department has two (2) swiftwater teams on standby.
- Charlotte County has closed all of their hospitals, so there may be a potential influx of patients to Lee County.
- Lee Health Urgent Care is closing tonight at 7:00 PM.
- Parks and Rec is responding to the Volleyball Court on Three Oaks Parkway to deter citizens from taking sand.



Gas Station Updates:

- WaWa on Santa Barbara and Veterans in Cape Coral just received a gas delivery. Pump #1 is reserved for First Responders.
- RaceTrac at Six Mile and Michael G. Rippe Parkway has fuel for First Responders on Pump #3 (there is an out of order tag on it).

Hurricane Passes:

- Below are what the Hurricane Passes will look like for Fort Myers Beach and Sanibel:

Subject: Hurricane Milton - Update #26

As of this update, the latest storm information is as follows:

- The current track for Hurricane Milton continues to be a worst-case scenario for the Tampa Bay region southward to Sarasota. It is forecast to make landfall in Florida Wednesday night.
- The current maximum sustained winds are 145 mph. The movement is ENE at 12 mph.
- There is a Hurricane Warning in effect for the entire area. A Category 3 is forecast at landfall, with the expanding wind field still expected.
- The Storm Surge estimate is expected to be 6' - 10'. By comparison, the surge during Hurricane Helene was measured at 5.12 feet above MHHW and was measured at 11:36 PM, *almost 10 hours after* a peak

AMERICAN OVERSIGHT

wind gust of 63 mph taken at Tarpon Point at 1:51 PM. The peak water levels estimated elsewhere along coastal Lee County ranged from 2' to 5' above MHHW.

- There is a 97% chance that the earliest arrival time of tropical-storm-strength winds is 8:00 AM on Wednesday. The likely arrival time for those winds is 12:00 PM on Wednesday. The likely departure time with this update is 7:00 AM on Thursday, with the latest departure time being 12:00 PM on Thursday.
- There is a Flood Watch for the entire area.
- We are still under a Hurricane Warning.
- Hurricane-force winds extend out to 30 miles from the center, and tropical-storm-force winds extend outward up to 105 miles.
- The minimum central pressure based on aircraft dropsonde data is 929 mb.

As of this update, new notifications are as follows:

- Precinct supervisors are finalizing employee shelter arrangements should the need arise.
- VERT (Volunteer Emergency Response Team) members from the Civilian Support Unit (CSU) are on standby to assist with post-storm deployments.
- Florida DOT is reinforcing the Sanibel Causeway with armor stone near the toll plaza and securing the barges and other equipment. Intermittent road closures for equipment movement are being performed by FLDOT.
- Seventeen (17) nursing facilities are closed in Lee County.
- EOC passed out nearly 100,000 sand bags and is out of bags.
- Sand deliveries have stopped and no more sand deliveries are planned by EOC.
- Three county shelters are open and operating:
    - Island Coast HS Shelter has approximately 71 present and 446 registered.
    - Estero Rec Center has approximately 114 present and 132 registered.
    - Dunbar High School is being staffed by Fort Myers Police Department personnel.

Gas Station Updates:

- Loves Travel Station in North Fort Myers is open for First Responders only at this time.
- 7-11 at 24530 S Tamiami Trl has fuel. Pump 2 is for LEO.
- 7-11 at 24651 S Tamiami Trl has fuel. Pump 4 for LEO.
- 7-11/Sunoco at 27990 is out of fuel.
- 7-11/Mobile at 28175 S Tamiami Trl has fuel. Pumps 1 & 2 for LEO.
- 7-11 at 26975 Old 41 Road has fuel and will reserve ALL pumps for LEO.
- Circle K at 10460 Bonita Beach Rd (Old 41 & Bonita Beach Road) has fuel. Pump 1 & 3 for LEO.
- Racetrack at 13050 Bonita Beach Rd (Bonita Beach Road & Bonita Grande) has fuel. Pumps 17 & 18 for LEO.
- RaceTrac at 22350 S Tamiami Trl has other grades of fuel, but is out of regular. Pump 18 for LEO.
- 7-11 at 21850 S Tamiami Trl has fuel. Pump 1 for LEO.
- Rebel at 12030 Bonita Beach Rd SE, will reserve fuel for LEO.
- 7-11 at Terminal Access has fuel. Pumps 9 & 10 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 12011 Gateway Blvd has fuel. Pump 2 for LEO. (must go inside and let the clerk know to turn on the pump)
- 7-11 at 100 Delaware Rd. in Lehigh Acres has two pumps reserved for LEO and EMS.

AMERICAN OVERSIGHT

Definitions:

- MHHW - Mean Higher High Water (MHHW) is the average level of the highest tide for each day computed over a 19-year period.
- Dropsonde - GPS dropsondes measure vertical profiles of atmospheric temperature, pressure, humidity, and wind speed as they fall from the aircraft to the surface. They are equipped with a small parachute that slows their descent and maintains vertical orientation. The dropsonde transmits data by radio four times a second to the aircraft until it reaches the surface of the ocean.

Subject: Hurricane Milton - Update #19

AMERICAN OVERSIGHT

As of this update, the latest storm information is as follows:

- The storm track has shifted north slightly. The movement is not far enough to make a difference in our impacts.
- The earliest reasonable arrival time of tropical-storm-force winds is early Wednesday morning.

As of this update, new notifications are as follows:

- The Hurricane Hotline is now active. Corrections personnel should call 239-477-1258, Law Enforcement personnel should call 239-477-1259, and Communications personnel should call 239-477-1260. Please save these numbers now in your phone. This hotline provides updates for personnel without access to e-mail. For now, all supervisors should relay all pertinent information to their personnel who do not have access to e-mail.
- Mandatory evacuations have been issued for the Town of Fort Myers Beach. Residents are encouraged to evacuate before 3:00 PM today.
- LeeTran at noon today, Monday, Oct. 7, will stop running routes onto Fort Myers Beach. All LeeTran services will convert to off-island transit only. This is to assist with the Town of Fort Myers Beach's request for residents to leave the island.
- Lee County Utilities will shut off water to Fort Myers Beach at noon Tuesday, Oct. 8. This is a precautionary measure to protect infrastructure. It was also implemented during 2022's Hurricane Ian.
- Lee County Sheriff's Office employees are currently in the field distributing sand and sand bags to locations throughout the county.

Gas Station Updates:

- 7-11 at SR 31/SR 80 received a fuel shipment this morning. Pumps 11 and 12 are for LEO. Make contact inside for pumps to be turned on.
- 7-11 at Billy's Creek is out of gas. Expecting shipment today. Will set aside fuel for LEO at Pump #1. Make contact with employee to have pump turned on.
- RaceTrac SR 31/ SR 80 has gas but expect to be out by noon and closed. Next shipment not expected until after the storm. They do not have a pump set aside for LEO.
- Circle K at SR 80/ Old Olga has fixed the pump and have a full tank for LEO. Make contact with employee for which pump to use.
- Sunoco at SR 80 and Buckingham is out of gas but requested shipment. Will pump remaining for LEO. Make contact with employee inside for pump to be turned on.
- Rebel at 6 Mile/Metro currently has 8,000 gallons and will stop pumping at 800 gallons. They do not set aside gas for us. Unknown next shipment.
- RaceTrac at 6 Mile/Michael G Rippe is out of gas but requested shipment. They will set up a Pump #3 for LEO use when they get gas. Make contact with employee for pump to be turned on.
- Race Trac at Daniels/Powers Ct is out of gas. Shipment has been requested. Will set up pump for LEO use. In the past it has been Pump 18.
- 7-11 Daniels/Palomino is out of gas. Expecting shipment today and will contact me when they receive it. Pump 10 will be set aside for LEO.
- Rebel at 9281 Daniels Pkwy is out of gas. Requested shipment for today. Pump 1 will be set aside for LEO. Go inside to have pump turned on.
- Chevron at 13031 Metro is out of gas. Not expecting shipment. Will set a pump aside for LEO if they get gas.
- Circle K at Metro and Crystal is close to running out of gas and starting to shut pumps down. They are setting aside pumps 5-8 for LEO. Meet with employee for which pump to use.

Subject: Hurricane Milton - Update #18

As of the 8:00 AM update, a Hurricane Watch remains in effect for our area.

The IMT Main Number is 239-258-3150 or e-mail at IMT@sheriffleefl.org.

As of this update, the latest storm information is as follows:

- Hurricane Milton is now a major hurricane, with sustained wind speeds of 125 mph.
- Hurricane Milton is expected to have winds of 145 mph at landfall, with some expansion of hurricane-strength winds.
- The model spread in the forecast track remains high, with the entire area within the cone.
- Movement is ESE at 8 mph.
- The current earliest arrival of tropical-storm-strength winds is 1:00 AM on Wednesday, with a likely arrival time at 8:00 AM. This is the arrival of tropical-storm-force winds, not the arrival of the actual storm.
- The storm surge estimate is 5' to 10' for Lee County. It is expected to increase throughout the day on Wednesday and peak early Thursday.
- We are still in a Hurricane Watch, a Storm Surge Watch, and a Flood Watch.
- Many rivers are already in or forecast to go into flood stage.
- The main threat for tornadoes is late Tuesday into Wednesday night.
- Confidence is low on the exact track of the system, with the entire area within the cone. It should be noted that that 72 hour average track error is 100 miles.

As of this updates, new notifications are as follows:

- All personnel must notify IMT of all asset movements and personnel changes.
- Estero Fire Station #54 at Oriole and Alico just got sand delivered.
- Pine Island Fire has sand, but no sandbags.
- North Fort Myers Recreations Center has sand but no sandbags.
- Corrections Transport vehicles have received their staging location and should be in place by 12:00 PM.
- Academy recruits and Youth Services deputies have been deployed to the field.

National Hurricane Center Definitions:

- **Hurricane Watch**: Hurricane conditions (sustained winds of 74 mph or greater) are possible within your area. Because it may not be safe to prepare for a hurricane once winds reach tropical storm force, The NHC issues hurricane watches 48 hours before it anticipates tropical storm-force winds.
- **Hurricane Warning**: Hurricane conditions (sustained winds of 74 mph or greater) are expected somewhere within the specified area. NHC issues a hurricane warning 36 hours in advance of tropical storm-force winds to give you time to complete your preparations. All preparations should be complete. Evacuate immediately if so ordered.
- **Storm Surge Watch**: There is a possibility of life-threatening inundation from rising water moving inland from the shoreline somewhere within the specified area, generally within 48 hours.

AMERICAN OVERSIGHT

- **Extreme Wind Warning**: Extreme sustained winds of a major hurricane (115 mph or greater), usually associated with the eyewall, are expected to begin within an hour. Take immediate shelter in the interior portion of a well-built structure.

Sent: Monday, October 7, 2024 5:29 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: Hurricane Milton - Update #17

The 5:00 AM update shows that the track is largely unchanged; however, models still vary from Naples to North of Tampa, and the intensity is forecast to be stronger, well into the Category 4 range.

As of this update, new notifications are as follows:

- The storm has current maximum winds of 100 mph.
- The current forecast for our coast is an 8' - 12' storm surge.
- The storm has slowed somewhat, so the earliest arrival of Tropical Storm force winds is now in the early Wednesday morning hours.

Subject: Hurricane Milton - Update #15

As of the 8:00 PM National Hurricane Center update, Hurricane Milton is still forecast to rapidly intensify into a major hurricane. The center of the track has shifted further south, and is currently near the Bradenton/Sarasota area at landfall.

There is a Flood Watch for the entire area. Rainfall amounts of 5 to 10 inches, with localized totals of up to 15 inches are expected. The timing of the impacts is as early as late Tuesday and continuing into Thursday morning.

A good deal of uncertainty remains with where the storm will make landfall. It should be noted that the average NHC track error at day 3 is around 100 miles.

As of this update, new notifications are as follows:

- Youth Services and Training personnel have received their assignments and will report according to their schedule tomorrow.
- Court Operations and Civil personnel will receive their schedule tomorrow.
- Employee Assistance personnel are done for the evening. They will resume in the morning.
- IMT will be fully activated beginning at 7:00 AM on Monday, with all personnel reporting or receiving their assignments by then.
- For personnel working overtime, please use *Hurricane Milton* as the reason for the overtime.
- The 7-11 Gas station at 103 Leeland Heights Blvd W in Lehigh Acres is open for LEO. If you need gas, use pumps 3,4,5, or 6 only. Jessica is the contact person there.
- The 7-11 at 100 Delaware Rd. in Lehigh Acres is reserving gas for First Responders. use Pump 3 and 4. Sharon is the contact person there.
    - The 7-11 at 18971 Babcock Ranch Rd is holding gas for first responders but deputies must go inside to request pump to be turned on.
    - The 7-11 at Del Prado and N Tamiami (17930 N Tamiami Trl.) is also holding gas for first responders but deputies must go inside to request the pump be turned on.

All personnel should be ready for a full activation at any time. This is a serious, dangerous storm and all personnel should complete preparations as soon as possible. Models vary in intensity, but most predict *at least* a Category 3, so even if we do not receive a direct hit, we can expect hurricane strength winds or wind gusts and a severe storm surge.

Subject: Hurricane Milton - Update #14

AMERICAN OVERSIGHT

As of the 5:00 PM update, Milton is now a hurricane. Hurricane Milton has maximum sustained winds of 85 mph. The track has shifted slightly, and there is a more northeastern path across our area. Even if we do not

receive a direct hit, we will receive tropical storm and hurricane strength winds, significant storm surge, and dangerous flooding from rainfall, likely much greater that what we received from Hurricane Helene. By tonight, all personnel should have their homes and families secured for the storm, and be prepared for a full activation.

Notifications for this update:

- All agency members deemed non essential during an emergency response will be dismissed tomorrow, October 7th, 2024 starting at **noon**. In order to stay home you will need to advise your immediate supervisor and use your accrued time. You may report for regular duty if you chose to do so. As always, use caution when driving in inclement weather and do not attempt to traverse standing water. IMT will continue to send out updates on our response to TS Milton.

- The Emergency Operations Center (EOC) will transition to a Level 1 at 7:00 AM tomorrow. This means that shelters and countywide operations will be run out of the EOC. The Incident Management Team is your contact for agency needs; do not contact the EOC directly.

Subject: Tropical Storm Milton - Update #13

The 2:00 PM Intermediate Update shows that there are no significant changes in the track. The earliest arrival of tropical storm force winds is projected to be 8:00 PM on Tuesday.

These are the stations that are reported to still have gasoline:

- Veronica Shoemaker/Winkler
- Shell station at Hancock and US 41
- BJ's Cape Coral
- 711 Burnt Store and Pine Island has DIESEL only
- Racetrac at South Pointe and College has 93 Only
- Walmart / Murphy's USA in Lehigh
- Santa Barbara and Veterans 7/11

These are the stations that are reported to be currently **out** of gasoline:

- Country Club and Veterans Circle K
- Del Prado Speedway
- Trafalgar and Skyline 7/11
- Rebel US 41 and Del Prado
- 76 at Chiquita and Pine Island
- Walmart/Murphy's Del Prado
- Walmart on Pine Island Road
- Pine Ridge and San Carlos 7/11
- Santa Barbara and Gleason 7/11
- Palm Tree and Cape Coral Pkwy 7/11

AMERICAN OVERSIGHT

- Lee and Gunnery 7/11
- Del Prado Racetrac
- Terry St Circle K
- Lee and Alvin Racetrac
- Joel Citgo
- N Cleveland and Littleton 7/11

Below are the current updated tasks that IMT has been working on since that last updates:

- Logistics members have scheduled pre-storm deliveries for food and beverages - the arrival time is Tuesday morning.
- Logistics members have scheduled post-storm deliveries from vendors.
- Logistics members have scheduled water deliveries.
- Logistics members have created plans for replenishment of supplies for long-term activations.
- Logistics members have arranged for ice deliveries for the event power is lost.
- Purchasing members have made plans for the procurement of potable water.
- Purchasing and Logistics members have scheduled the delivery of portable bathrooms should they be needed.
- HQ will be the central location for cooking needs post-storm for employees at HQ/IMT, Forensics, MCU, Command Staff, Spec Ops, and Staging personnel.
- Precincts and Corrections facilities will be responsible for their meal preparations.

Subject: Tropical Storm Milton - Update #12

The 11:00 AM update shows a small track shift to the south. Although it is still predicted to directly hit the Tampa Bay Area, the move slightly south may bring higher wind speeds and higher storm surge. The storm is expected to quickly intensify and will likely be a major hurricane upon arrival.

All personnel are encouraged to complete preparations for their homes and their families today.

There is still a high degree of uncertainty in both the tracks and the wind speed upon arrival, so the possibility of a direct strike to our area remains. The cone of uncertainty currently covers most of the Florida peninsula. The Incident Management Team (IMT) will keep you informed, and is making preparations to include schedule planning.

Subject: Tropical Storm Milton - Update #8

The 8:00 AM update shows that Milton is forecast to become a Major Category 3 Hurricane before making landfall. Timing, tracks, and intensity are still unpredictable; however, the National Hurricane Center still shows the track toward the Tampa area.

The current forecast is as follows:

- There is a Flood Watch for the entire area through Thursday.
- Rainfall in the amount of 5" to 8", with localized totals up to 12".
- The timing of the impacts is from late Tuesday through early Thursday morning, but it is expected to make landfall on the West Coast on Wednesday.
- There is great uncertainty about where the storm will make landfall. The average Day 4 track error is around 150 miles, so we are still well within a possible landfall range.
- The current earliest wind time arrival is 4 PM on Tuesday, and the most likely arrival time is 2 AM on Wednesday.

Additional notifications for this update include:

AMERICAN OVERSIGHT

- Personnel should maintain at least ½ tank at all times. Due to current fuel runs, please use any opportunity to make sure your agency vehicle stays full at all times.

- Personnel who must fuel and have no other options may use 89 or 93 Octane fuel.
- Select IMT members have been activated. Please send requests to IMT@sheriffleefl.org.
- The select CRU members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- The asset movement members who were notified individually will report at 10:00 AM to the Headquarters Training Room (1202).
- All units, components, precincts, corrections facilities, and all affected agency departments should fill up all available gas cans and gas tanks.
- Pine Island Fire Department is out of sand. They still have sandbags. They expect to get more sand on Monday.

Subject: Tropical Storm Milton - Update #7

With the 5:00 PM update, Tropical Storm Milton is now expected to arrive as a major hurricane. The track has shifted some to the north; however, some model tracks still show direct hits our our area, and we are still in the cone of uncertainty. Please recall from prior storms that although we are not in the direct path, the effects of the hurricane will still affect us heavily, especially in the areas prone to storm surge. Additionally, the peak storm surge from Helene arrived almost 10 hours after the peak winds, so all personnel should be aware of and consider the effects before, during, and after the storm.

The below preparations remain in effect. The only change for this period is:

- Four (4) additional shallow water vessels have been obtained for water rescues.
- Additional High-Water Vehicles have been obtained and will be deployed to the islands for potential high-water rescues.
- The San Carlos Park Fire Department is out of sand and sandbags.

Subject: Tropical Storm Milton - Update #6

As of a 12:25 PM National Hurricane Center update, Tropical Storm Milton has formed. This storm is forecast to strengthen and bring the risk of life-threatening impacts to portions of the West Coast of Florida next week. The maximum winds are currently estimated at 40 mph with higher gusts. Models range in intensity from a Tropical Storm to a Major Hurricane, so there is tremendous unpredictability in the strength upon arrival.

At this time, the Incident Management Team is preparing for the possibility of a major hurricane affecting our area with impacts beginning on Tuesday and a full impact on Wednesday.

All agency personnel are encouraged to prepare as follows:

- All personnel should review their hurricane plans, and prepare their homes and families for the possibility of a hurricane impact in the middle of next week.

AMERICAN OVERSIGHT

- All precincts should secure their mobile assets (decoy vehicles, arrow boards, trailers, ATVs, etc.) beginning on immediately to be completed by 2:00 PM on Monday.
- All trailers should be brought to storage beginning immediately to be completed by 2:00 PM on Monday.
- All personnel should use the remainder of this weekend to prepare for a possible activation. This plan should include three days worth of food, uniforms, and supplies.
- All personnel should use the remainder of this weekend to prepare their uniforms and equipment (including sufficient batteries for equipment) for a possible activation.
- All specialty units should begin bringing their assets back to their storage areas and secure locations. This should be completed by 2:00 PM on Monday.
- All precincts should secure any items that can be moved by the wind to a secure location starting immediately to be completed by 2:00 PM on Monday.
- All Corrections facilities (including Nan's Ranch) should prepare their facilities for a possible hurricane impact next week.

This is new information as of this update:

- The Waterborne Strike Team is on standby for deployment for water rescues.
- JetBlue Stadium, CenturyLink Stadium, the Lee County Gun Range, and the Andrea Lane and Sivan Road storage buildings are prepared to receive assets if needed.
- The Marine Unit is in contact with the IMT to secure the marine assets.
- Known sandbag locations are as follows:
    - Punta Gorda—Free sandbags will be available at 3130 Cooper St., the last entrance on the left by flag poles.
    - Fort Myers Beach—Sand is located off of Gulf Beach Road, and bags are available at Town Hall, 2731 Oak St. (The location will provide service until 4:30 p.m. on Friday and begin Monday at 8:30 a.m.)
    - Fort Myers— South Trail Fire & Rescue will have sand and sandbags available at station 63, 5531 Halifax Ave., Fort Myers—a maximum of 20 bags per household. UPDATE: South Trail Fire & Rescue is currently out of sand. Empty sandbags only are available.
    - Naples— Sandbags will be available at three public park locations: Big Corkscrew Island Regional Park, 810 39th Ave., North Collier Regional Park, 15000 Livingston Road, in the Sun-N-Fun Lagoon parking lot, and at Donna Fiala Eagle Lakes Community Park, 11565 Tamiami Trail East, in the grassy area between the parking lots. The Naples sandbag locations will begin service at 8 a.m. through dusk on Saturday and Sunday.
    - San Carlos Park—Sand and sandbags are available at San Carlos Park Fire District Station 54, located at 16900 Oriole Road. There is a limit of 10 bags per household. Bags can be picked up at the lobby. Bring your own shovel. Be prepared to fill and load your own sandbags. Make sure your vehicle can transport the weight of the sandbags.
    - North Fort Myers—Sandbags will be located at North Fort Myers Parks and Recreation, 2000 N. Recreation Parkway. Sand will be located in the back of the park, next to the county mulch pile. Please bring your own shovel to fill the bags.
    - Matlacha—Sandbags are available for pickup at Station 1, located at 5700 Pine Island Rd, Bokeelia, FL 33922
- IMT personnel are visiting the precincts, and the storage locations to inventory assets to prepare for both securement and post-storm deployment.
- No schedule changes are expected between now and Monday afternoon; however, all personnel should be prepared for schedule adjustments.
- The Agriculture assets are secured on the Olga site.

Subject: Important Update on a possible impending hurricane impacting our area (Update #5)

Team,

IMT has been working on preparation for a potential Hurricane impacting our area early next week. IMT will continue to send out updates regularly so please monitor your email closely. All agency units need to begin preparations of securing their assigned assets and communicate all movement to IMT. Also, update the major asset application on the intranet. We have secured Jet Blue Park as an asset staging area for Marine and other assets. Agency asset storage facilities to include the gun range are preparing to house assets as well. IMT is securing high water vehicles that will be pre-staged at strategic locations i.e., the barrier islands. IMT members will be in the RTIC today coordinating efforts. Agency extension 239-258-3150 is being setup to communicate to IMT staff. Additional updates to follow.

Be prepared and be safe!

Subject: New Caribbean Disturbance - Update #4

The National Hurricane Center 2:00 PM update shows the possibility of development as the low pressure area in the Gulf of Mexico moves slowly eastward or northeastward. A tropical or subtropical depression or storm could form during the early to middle part of next week if the low remains separate from a frontal boundary that is forecast to extend across the Gulf of Mexico. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula late this weekend into next week. As of this update, the formation chance in the next 48 hours is low at 10 %, and the formation chance through 7 days has increased to 50%.

Current model runs show an arrival time of any potential storm around Wednesday of next week. This represents a slower forward storm speed and later storm arrival than previous model runs, so the timing and impacts are still largely unknown. Regardless of any potential storm, significant rainfall is still expected, and the Incident Management Team will continue to monitor and update all personnel.

Subject: New Caribbean Disturbance - Update #3

The National Hurricane Center has reduced the chance of tropical cyclone development within seven days to 30%. While the system is likely to develop over the Gulf of Mexico late this weekend or early next week, subsequent tropical or subtropical development could be limited by the system's potential interaction with a frontal boundary. Regardless of development, locally heavy rains could occur over portions of the Florida Peninsula next week.

To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance - Update #1

The area of disorganized showers remains at a 40% chance of development. The National Hurricane Center indicates that environmental conditions could support some gradual development of this system, and a tropical depression could form towards the end of this week or this weekend while it moves generally northwestward over the northwestern Caribbean Sea and into the Gulf of Mexico. As of this time, there are no changes, but some long range models show an increased chance of this disturbance affecting our area.

From: IMT <IMT@sheriffleefl.org>
Sent: Monday, September 30, 2024 8:11 AM
To: All Users <AllUsers@sheriffleefl.org>
Subject: New Caribbean Disturbance

The Incident Management Team is monitoring a new area of disorganized showers and thunderstorms over the western Caribbean Sea. The National Weather Center states that the system has a medium chance (40%) of developing towards the middle to latter part of the week as it moves northwestward into the Gulf of Mexico. As this disturbance moves into the gulf, increasing moisture is expected over the Florida Peninsula and elevated rain chances are anticipated from Friday through the weekend, and possibly into early next week.

Unfortunately, long range models show the possibility of direct impacts for Southwest Florida; however, It is too early to determine what, if any, tropical specific impacts can be expected.

The Incident Management Team will continue to monitor the storm, and will continue to provide updates through this very active part of the hurricane season.

Texas Law Enforcement Experts Testify Before Lawmakers About Retail Theft "Crisis"

KXAN-TV Austin, TX (10/10) reports that "Texas lawmakers on Thursday considered new ways to combat retail theft, a growing and often organized, destructive threat facing stores" across the state. Law enforcement "experts described the trend as a 'crisis,' claiming current laws are inadequate to prosecute and deter the crime." Houston has the "third-most retail crime in the nation, behind Los Angeles and San Francisco," data show. But "these are not just statistics, these represent lost jobs, higher prices for consumers and deprived communities," Chief Special Agent for BNSF Railway Police Department Will Johnson testified.

POLICING AND POLICY

Detective With Police Department In California Awarded IACP's 40 Under 40 Award

The Salinas Valley Tribune (CA) (10/10)reports the California-based Greenfield Police Department's Detective Sgt. Justin Mattke "has been awarded the prestigious 40 Under 40 Award by the International Association of Chiefs of Police (IACP)." The award recognizes Mattke's "exemplary leadership and dedication to law enforcement." Before "joining the Greenfield Police Department in 2017, Mattke — a veteran of the US Army — was instrumental at the Monterey County Sheriff's Office, where he spearheaded the creation of a Bakers to Vegas team." During his time with the Greenfield Police Department, "Mattke has continued to excel" by "leading the South Monterey County Task Force and participating in the FBI Monterey Gang Unit and the DEA Gang and Narcotics Task Force."

Law Enforcement Agencies Across Maine Opening More Yellow Flag Cases

WMTW-TV Portland, ME (10/10, Hogan) reports that Maine's yellow flag law took effect "more than three years" ago, but the "vast majority of cases have been filed in just the last 10 months." Usage "varies widely," however. As of Sept. 1, "94 agencies have opened 406 yellow flag cases." The Maine State Police has "opened the most, with 36 cases." The Sanford Police Department and the Sagadahoc County Sheriff's Office "are tied for second, with 17 cases each."

Staffing Shortages Create Issue For Long Island Cold Cases

More than 100 women's bodies have been "found outdoors on Long Island since 1976," according to FBI data and Newsday (NY) (10/11) archives. Some "cases have been solved, but no arrests have been reported in at least 78 of the deaths." Cold cases — such as the Gilgo Beach murders — "can take detectives years to solve. Yet neither the Nassau nor Suffolk police departments have staffed cold-case units in recent years, and both have seen a steady decline in the number of detectives on the job overall." Unfortunately, said Nassau District Attorney Anne Donnelly, "both police departments are shorthanded."

Police Helping With Hurricane Milton Response

USA Today (10/10) reports that "Hurricane Milton slammed into the Florida coast Wednesday evening, bringing torrential rains and tropical storm force winds that tore the roof off of Tropicana Field in St. Petersburg." By Thursday afternoon, the

OVERSIGHT

"storm had also left eight people dead, but amid the damage tales of heroism from first responders throughout the area began to emerge." For instance, "police officers who were sheltering nearby" helped take residents to the "nearest storm shelter" after the weather calmed.

Montreal Police Trying To Curb Teen Involvement In Organized Crime, Surge In Extortion Of Businesses

CBC News (CAN) (10/10) reports Montreal Police Chief Fady Dagher "is urging merchants and parents to work with police to help curb the increasing involvement of young teenagers in organized crime and a surge in extortion of downtown businesses." Francis Renaud, "head of the Montreal police organized crime unit, told reporters that about 40 attempted extortion cases have come across his desk since the summer, primarily in the downtown area." In addition, the gangs responsible for "some of the recent arsons have been recruiting young teenagers to 'do their dirty work.'"

Police In Australia Adopt New Approach To Dealing With Domestic Violence Offenders

AAP News (10/11) reports that a "new and more efficient approach to dealing with domestic violence offenders could help NSW overcome its dire police officer shortage." A "strict electronic monitoring regime came into effect on Friday, which the government says will mean serious alleged offenders will either be behind bars or wearing an ankle bracelet." Deputy Premier Prue Car said the "changes would streamline work for the police force – which is 2300 recruits short of full strength – rather than adding extra pressure."

Police Forces Conduct Anti-Drug Operation In England

BBC News (10/10, Ayres) reports the "Devon and Cornwall Police" force "joined four other police forces" to conduct an anti-drug operation. Operation Scorpion "involved traffic officers using intelligence and licence-plate recognition technology to intercept suspected criminals in the process of moving drugs around" England.

SECURITY, CRIME, AND DRUGS

Moldovan Police Search Homes Of Suspected Russia-Linked Election Meddlers

Reuters (10/10) reports "Moldovan police said on Thursday they searched homes across the country of leaders of a group linked to fugitive pro-Russian businessman Ilan Shor, as part of a criminal investigation into election-meddling." Authorities in the former "Soviet republic of 2.5 million people, which lies between Romania and Ukraine, said tens of thousands of votes were paid off via accounts in a Russian bank to derail the vote." Shor, who is "exiled in Russia, has denied allegations of trying to bribe voters, describing statements from Moldovan authorities as an 'absurd spectacle.'"

Authorities In Philippines Detain Man Accused Of Running Network Of Scam Farms

AFP (10/11) reports that a "Chinese man accused of running an extensive network of scam farms across the Philippines has been arrested," authorities in Manila announced. Lin Xunhan was "detained in Binan city south of Manila late Thursday, amid a government crackdown of online businesses accused of defrauding clients and which have been linked to other crimes including kidnappings, prostitution, human trafficking, torture and murder." The 33-year-old "native of the Chinese province of Fujian is a figure of significant concern within the landscape of organized crime in the Philippines," according to the Presidential Anti-Organized Crime Commission.

OFFICER SAFETY AND WELLNESS

Dallas Police Officers Working To Normalize Mental Health, Wellness Among Law Enforcement

KXAS-TV Dallas (10/10) reports that "several officers inside the Dallas Police Department are working to normalize mental health and wellness among law enforcement." The Wellness Unit was "created almost three years ago when Dallas Police Chief

AMERICAN OVERSIGHT

Eddie Garcia saw a series of complaints with officers." And it has "several officers dedicated to helping their fellow brothers and sisters in blue."

Police In India Launch Project To Help Protect Officers' Mental Well-Being

The Times of India (10/10) reports on the launch of a project meant to help ensure the "mental well-being" of investigating officers who often "encounter distressing incidents." Additional Commissioner of Police Uma Shankar Dash said that "as part of the Me Help initiative, IOs will have the opportunity to participate in debriefing sessions conducted by experienced psychiatrists." In addition, a "phone number will be provided to police officers," and they can use it to "reach out to mental health experts and learn coping strategies."

Tire Amnesty Day event canceled due to Milton

Fort Myers, FL, Oct. 11, 2024 – The Tire Amnesty Day scheduled for Saturday, Oct. 12, has been canceled due to Hurricane Milton.

Lee County Solid Waste and the Lee County Mosquito Control District will look for future opportunities to schedule the event, which was intended to help to rid neighborhoods of discarded tires.

For information about how to properly dispose of tires and other materials, visit www.leegov.com/solidwaste.

Tire Amnesty Day to rid neighborhoods of discarded tires
Old tires are notoriously effective mosquito-breeding habitats

AMERICAN OVERSIGHT

Fort Myers, FL, Oct. 2, 2024 – Lee County Solid Waste is partnering with Lee County Mosquito Control District and Fort Myers East Rotary for Tire Amnesty Day from 10 a.m. to 2 p.m. Saturday, Oct. 12, to rid neighborhoods of discarded tires.

Lee County residents can drop off car tires at the Lee County Mosquito Control District, 15191 Homestead Road, Lehigh Acres, FL 33971.

Tires are an ideal breeding habitat for the mosquito species that can transmit Zika, dengue, yellow fever, chikungunya and even dog heartworm, according to the district. Rainwater collects in tires, which creates the perfect home for the Aedes aegypti mosquito. Once water gets into tires, it does not drain. This wet, hidden environment helps the mosquito to complete its life cycle to become the adult that bites people and animals.

"We are excited about the county's partnership with Mosquito Control for this program," said Mike Greenwell, Lee Board of County Commissioners chairman. "Properly disposing of tires at this event comes at no cost to residents and also provides an alternative to illegal dumping. In the case of tires, illegal dumping is not only unsightly but it's also a public health concern. We encourage residents to take the extra effort and help keep our community safe and clean."

The county and district ask residents to take advantage of this special event to get rid of tires and dump out any standing water around the home.

Residents can bring up to eight car tires each, with or without rims, to the event. Lee County will dispose of the tires at no cost to the residents.

Only on-road vehicle tires will be accepted at this event. For information about how to dispose of off-road, larger tires, call Lee County Solid Waste customer service at 239-533-8000.

Residents who are unable to participate in the Tire Amnesty Day may place up to two standard tires curbside on their weekly waste collection day to be picked up.

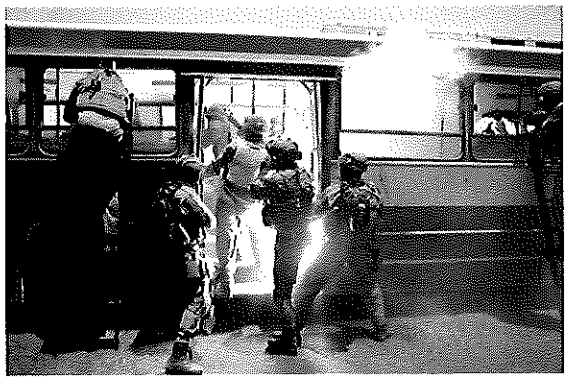
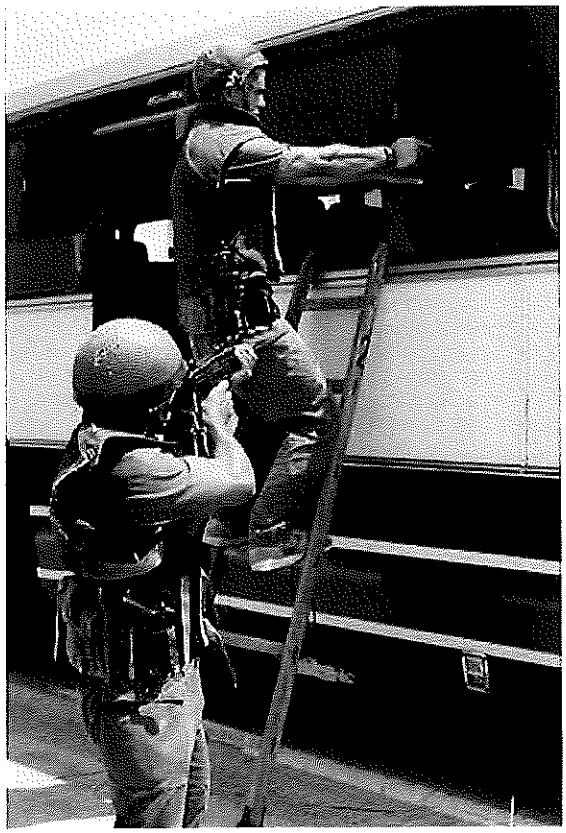
Justice Department, Federal Trade Commission and Consumer Financial Protection Bureau Warn Consumers About Potential Scams and Price Gouging in the Wake of Hurricanes and other Natural Disasters

As the nation braces for another major hurricane, the Justice Department, along with the Federal Trade Commission (FTC) and the Consumer Financial Protection Bureau (CFPB), is warning consumers about those looking to take advantage of natural disasters by engaging in potential fraud, price gouging and collusive schemes.



Scammers quickly exploit weather emergencies and take advantage of people trying to recover or donate to disaster victims. Weather emergencies provide disruptions to the supply chain, which can also provide opportunities for wrongdoers to engage in collusive schemes that inflate prices charged to customers who are under extreme stress and therefore unable to fight back against collusive or anticompetitive prices.



To avoid scams and frauds while you're recovering from a hurricane or another natural disaster, remember only scammers will insist you pay for services by wire transfer, gift card, payment app, cryptocurrency or in cash. Avoid anyone who promises they can help you qualify for relief for a fee. That's a scam. You are not required to pay a fee to get disaster relief. Never sign your insurance check over to someone else. Be sure to research contractors and get estimates from more than one before signing a contract for work. Get a written contract for repairs and read it carefully before signing it.

HotWash Tactical Training News

Advanced Bus (Tubular) Intervention & Hostage Rescue, 3-Day Class.
Who should attend: Experienced SWAT, SORT and any other Special Transportation Teams and Individuals.
At the completion of this module, participants will be able to perform tubular assault for hostage rescue scenario and high risk transportation interdictions.

Busses are favorite targets of terrorists and other hostiles because they offer a small target packed with multiple defenseless passengers that are unable to escape. Unless stopped, the object can be moved to different locations, makes it harder for the entry and negotiation teams.

Speed, timing, mission specific gear and shooting precision are critical. Therefore, the entry team must be the best and equipped with the best. Each team member must be responsible for a specific task. Once the green light to storm the object is given, it should end within seconds. Otherwise, it will end up with a catastrophe for both passengers and the entry team.

This is a performance based training. The course will commence with introduction and principles of tubular intervention and hostage rescue. Following the introduction, Instructors will demonstrate a technique. Participants will follow on dry while the instructor makes all necessary corrections. Once the instructor is satisfied with the performance and safety awareness of the drill by the students, the students will shoot live fire. The course will give an opportunity for snipers and breachers to practice their skills as well. ONE NIGHT DRILL WILL BE INCLUDED.

Course will end with a final and integrated exercise, course summary, hotwash and certification. Texas officers will be eligible for TCOLE hours. This course meets or exceeds national POST standards

For more information, dates and registration, contact ISI Training Center.

TRAIN THE TRAINER AVAILABLE.

Oct. 11, 2024

MEDIA ADVISORY

County officials to offer updates regarding Hurricane Milton in media conference at noon today.

WHAT:

In-person media briefing with the availability for the public and media who cannot attend in person to watch online and on LeeTV. The briefing will be on Facebook Live, available at www.facebook.com/leecountyflbocc. It can also be viewed on LeeTV and on the Lee County Government YouTube channel.

WHO:

Media may attend in person and the public may view online.

WHEN:

Noon today, Oct. 11. Media should arrive by 11:40 a.m.

WHERE:

Lee County Emergency Operations Center, 2675 Ortiz Ave, Fort Myers, FL 33905. The EOC is located on the east side of Ortiz Avenue, about 0.6 miles south of State Road 82. Parking at the EOC is limited due to an ongoing renovation and expansion. Follow directional signs for parking onsite.

The briefing is also available at www.facebook.com/leecountyflbocc. It also can be viewed on LeeTV and on the Lee County Government YouTube channel.

CONTACT:
Betsy Clayton, APR/CPRC

LCSO Family,

Over the last week, we have prepared, been activated, and deployed over the entire county for Hurricane Milton.

I could not be more proud of the work you do every day, but this week every one of you stepped up, left your homes and families, and put OUR COMMUNITY FIRST.

Mother Nature is unpredictable and while we serve up to the last second and redeploy immediately when conditions allow, we all know this is a dangerous profession that puts service above self and for that and for you, I am truly thankful.

AMERICAN OVERSIGHT

Your dedication is what makes the Lee County Sheriff's Office the premiere agency in the state if not the entire country.

FL-LEE-24-2340-A-002775

The residents of Lee County are blessed to have YOU on their side! I am blessed to have YOU ALL as family.

I will continue to fight to make certain you always have the best equipment and compensation possible because it's what you deserve.

From the bottom of my heart, THANK YOU.

AMERICAN OVERSIGHT

Sheriff Talking Points Hurricane Milton

-The Incident Management Team (IMT) remains fully operational but it continuing to demobilize and scale personnel.

-All Dump Trucks have been returned to HQ.

-All Jon Boats have been returned to HQ.

-All Precinct Shelters have been demobilized.

-Deputies assigned to staging were reassigned to Precincts to enhance patrol effectiveness during post-storm operations.

-Damage assessments are still ongoing and will take some time.

-We understand that everyone wants to get out and assess the county on their own, but we're asking you to avoid being out on the roads to allow first responders, linemen, utility and county worker to do their jobs.

-There could still be hazards to include storm debris and downed power lines.

-As of 7:30 AM: there are 247,000 residents without power.

-LCEC –53% of customers (134,477 residents)

-FPL – 22.4% of customers (66,020 residents)

-FPL and LCEC are actively out to begin repairing and restoring power.

-DOT Crews are out assessing and repairing them as we speak

-Treat all intersections as a 4-way stop if the lights are not functioning.

AMERICAN OVERSIGHT

BEACH/ISLAND ACCESS UPDATES (As of 10:30AM)

-At this time the "entrances" to these areas are passable. There are areas on the barrier islands that require a higher profile vehicle or four wheel drive to pass due to sand on the roadway.

-Little Hickory Island & Bonita Springs Causeway: Closed to vehicle traffic due to DOT clearing. Access to RESIDENTS ONLY. can access this area by foot until roads are cleared of sand.

Fort Myers Beach: Access to RESIDENTS ONLY AND CONTRACTORS/WORKERS. Residents are required to enter with pass, but can use their ID.

Sanibel: Access to RESIDENTS, BUSINES OWNERS ONLY, CONTRACTORS/WORKERS. Residents are required to enter with pass, but can use their ID.

Captiva: Access to RESIDENTS.

Boca Grande: Access to Boca Grande is completely blocked off by Charlotte County Roads & Bridges. Working to receive update as to when roads will be passable again.

AMERICAN OVERSIGHT

ROAD UPDATES (As of 8:30AM)

-Blind Pass Bridge is open and can be crossed by vehicles with caution.

- DOT is active in the area with heavy equipment and is currently moving large amounts of sand

-Traffic on Sanibel Captiva Road and Pine Ave are being directed by the Sanibel Police Department because of the road being washed out.

- DOT is active in the area with heavy equipment and is currently moving large amounts of sand.

-Deputies are directing traffic on Captiva Drive in front of Tween waters resort (approximately 700'). One lane open.

- DOT is actively draining the water and filling the washed out areas with materials.

-Gasparilla Road on Boca Grande has multiple areas washed out along the road (45th and 48th Street W) that includes the bike paths. Deputies are directing traffic.

- DOT is actively draining the water and filling the washed out areas with materials. It is estimate that Gasparilla road will be accessible later today.

AMERICAN OVERSIGHT

CURFEWS

Fort Myers Beach 10:00PM – 7:00AM

Bonita Springs 10:00PM – 7:00AM (will rescind once traffic is allowed back on island)

Sanibel 9:00PM – 6:00AM

LOOTING (As of 10/11/24)

NO reported looting arrests

-Following the storm, it's important to protect your home from looters.
-We saw it happen during Hurricane Ian, so you need to prepare.
-Looters will be prosecuted to the fullest extent of the law!
-"Not here in Lee County!"

-Secure all windows and doors.
-Safeguard valuable items.
-Call Law Enforcement to report any looting.

-The best resource right now is to continue following our social media pages for the latest updates on any road closures.

10/11/24 Bokeelia Burglary of Conveyance Arrests

-Suspects: Jonathan Hendricks & Ashley Wagner

-Both suspects stole leaf blower from partially enclosed trailer parked on property. The victim confronted the suspects in the act who left on bicycle. Hendricks is former employee of victim.

-Charges: Burglary of Unoccupied Conveyance during State of Emergency, Petit Theft

AMERICAN OVERSIGHT

-Our thoughts and prayers are with our fellow Floridians that felt the full impact from Hurricane Milton.

-I will ensure that we will send resources to them like they did for us in the aftermath of Hurricane Ian.

-I would like to thank:

Governor Ron DeSantis

Lt. Governor Jeanette Nunez

CFO Jimmy Patronis

Senator Rick Scott

Congressman Byron Donalds

FDLE Commissioner Mark Glass,

FDLS SAC Eli Lawson

We were constant contact and offered their full support for Lee County and the rest of Florida during this dangerous storm.

AMERICAN OVERSIGHT

LOOTING (As of 10/11/24)

NO reported looting arrests

Subject: Hurricane Milton - Social Media

Good morning,

The Public Information Office is looking to highlight the great work being done by LCSO in the midst of Hurricane Milton. Our office encourages agency members to send us any photos or video of your enforcement, calls for service, proactivity, citizen encounters, sheltering, etc.

If you're equipped with BWC, email us the CFS of any calls that are notable. This will be especially important post-storm for recovery, looters, etc.

If email service is down, try via text: 239-822-6717.

Before conditions deteriorate today: if you arrive to an incident location that is deemed safe, a PIO will be available to respond to capture footage of our members while working in the field.

Supervisors: If a roadway is blocked or impassible, please send a photo in real-time so an advisory may be completed.

Please email your content to:
piosocialmedia@sheriffleefl.org

Thank you all for your hard work and stay safe.

Subject: Law and Order Ball Update

Good Morning,

As we continue to recover from the effects of Hurricane Milton, the Rotary Club felt it best to postpone this year's Law and Order Ball and asked me to pass along their sincere appreciation and thanks for all we do as an agency.

The committee does have a date reserved for April and will share that information along with other details shortly, but for now they wish us to be safe during our recovery efforts.

Thank you all for your understanding and we look forward to a great event in 2025!

Subject: Thank YOU!!!

My LCSO Family,

Over the last week, we have prepared, been activated, and deployed over the entire county for Hurricane Milton.

I could not be more proud of the work you do every day, but this week every one of you stepped up, left your homes and families, and put OUR COMMUNITY FIRST.

AMERICAN OVERSIGHT

Mother Nature is unpredictable and while we serve up to the last second and redeploy immediately when conditions allow, we all know this is a dangerous profession that puts service to others before self. For that, I couldn't be more proud.

Your dedication is what makes the Lee County Sheriff's Office the premiere agency in the state, if not the entire country.

The residents of Lee County are blessed to have YOU on their side! I am blessed to call YOU ALL family.

I will continue to fight to make certain you always have the best equipment and compensation possible because it's what you deserve.

From the bottom of my heart, THANK YOU.

AMERICAN OVERSIGHT

FCEH CONFERENCE UPDATE

AMERICAN OVERSIGHT

FloridaCoalition
TO END HOMELESSNESS

2024 FLORIDA CONFERENCE ON ENDING HOMELESSNESS

Event Postponed:
New Dates Announced | November 12 - 14, 2024

Event Postponed:
New Dates Announced | November 12 - 14, 2024

Due to the impending impact of Hurricane Milton, we have made the difficult decision to postpone the upcoming Florida Conference On Ending Homelessness to prioritize the safety and well-being of our attendees, staff, and partners.

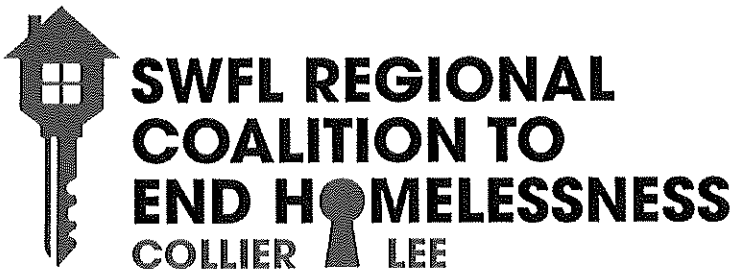
Originally scheduled for October 15-17, the event will now take place from November 12-14 at the Hilton Lake Buena Vista. We sincerely apologize for any inconvenience this may cause and appreciate your understanding as we make adjustments to ensure a safe and successful conference.
Hotel Updates:

If you booked within our official hotel block, your reservation has been automatically canceled. You will need to rebook your hotel room for the new conference dates, a link will be emailed to you as soon as it is available.
If you booked outside of the hotel block or at another hotel, you are responsible for canceling and rebooking your reservations.

We understand that changes like this can be challenging and that recent events have brought tremendous stress and hardship to many in Florida. We invite you to take a reprieve and join us at our upcoming conference. Together, we can focus on addressing the critical issue of homelessness, an ongoing challenge that has only been magnified in times of disaster. Your presence and participation will be vital in creating a stronger,

AMERICAN OVERSIGHT

more resilient Florida.



Thank you for your flexibility and patience during this time. We look forward to welcoming you in November for a successful event, and our team is here to assist you with any questions or concerns regarding your registration, travel, or hotel accommodations.

Lee County consolidates shelter operations to Estero Recreation Center

Fort Myers, FL, Oct. 11, 2024 – Lee County is consolidating its shelter operations this afternoon to the Estero Recreation Center as people return to their homes following a successful evacuation of Zones A and B for Hurricane Milton.

LeeTran will provide free transportation from the shelters that are closing. The county anticipates being able to cease operating Estero Recreation Center as a shelter by noon Saturday.

The county is coordinating with partners to provide support and services to those evacuees impacted by Hurricane Milton.

Check www.leegov.com/storm for Hurricane Milton updates. Follow Lee County Government on Facebook, www.facebook.com/leecountyflbocc.

Dear Foundation Board,

Just checking in to see if everyone came through the storm okay and to see if you need any assistance. I just got off the phone with the Superintendent. He and many others are still assessing the damage, A few schools were under water some and there is damage to the buildings of some schools. Dr. Savage is working hard to assees the situation and get the word out to the community at the end of each day. Thankfully Milton was no Ian but there is still work to be done to return our students and teachers to normalcy (whatever that is!).

I hope you and your families and businesses are doing well. Please let me know if we can do anything.

Stay safe out there!

Regards,

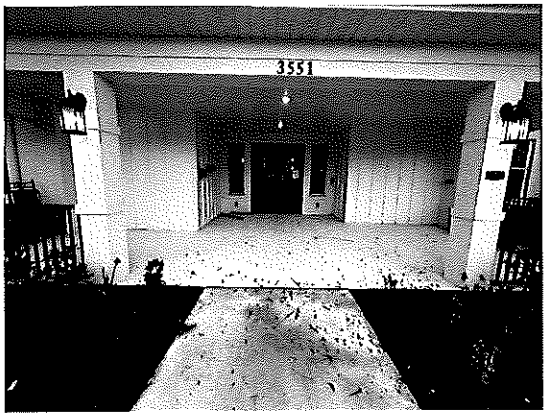
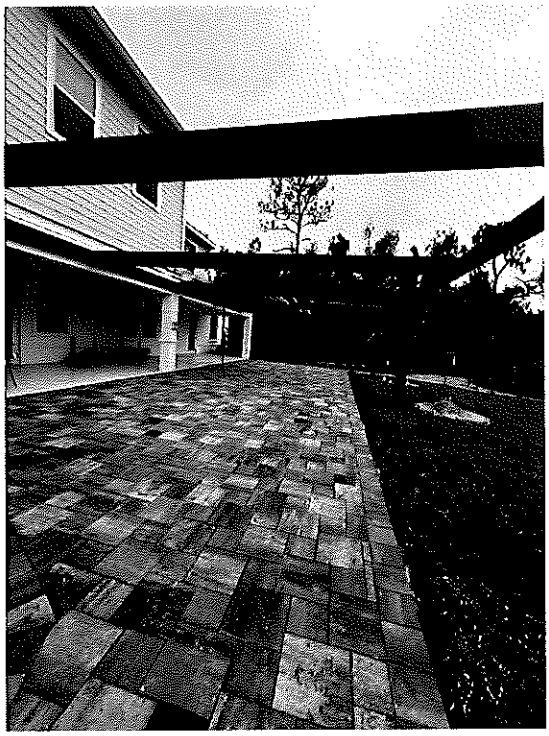
Valerie's House | Where Children Learn Loss Doesn't Have to Limit Their Dreams

AMERICAN OVERSIGHT

Valerie's House Made it Through the Storm



We are grateful to share with you that all of the Valerie's House properties were spared from Milton's wrath and made it through the storm.



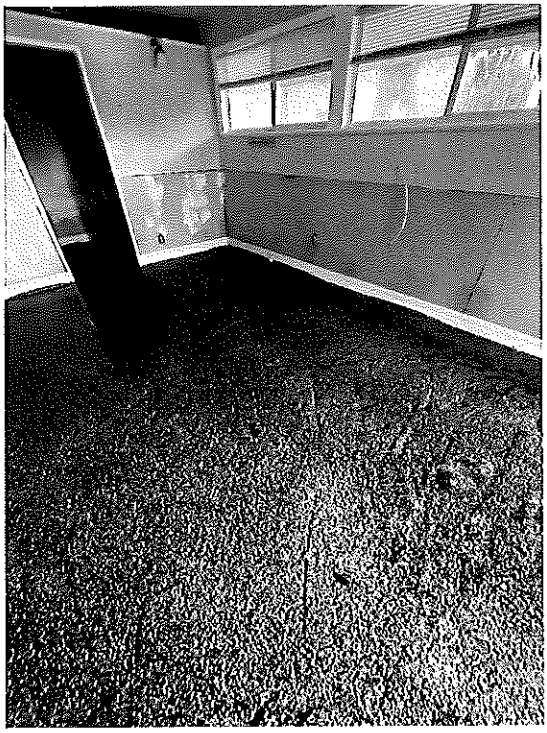
We had some flooding in our Punta Gorda location... again... but the generosity of the community is helping us rebuild today.

We are open for families who need help.

Valerie's House Location Updates:

AMERICAN OVERSIGHT

Fort Myers - Family is Forever Home

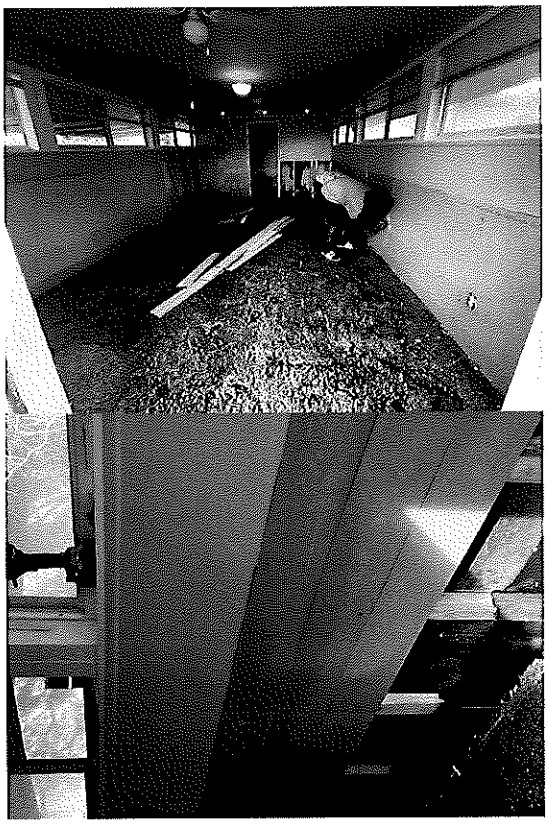


We're happy to report our new Family is Forever Home stood strong through the storm, including a pergola structure that was in the middle of construction.

Our home served as a shelter for some of our staff and families during the storm.

We are grateful this new, sturdy structure continues to be a place of refuge for our families during times of need.

AMERICAN OVERSIGHT

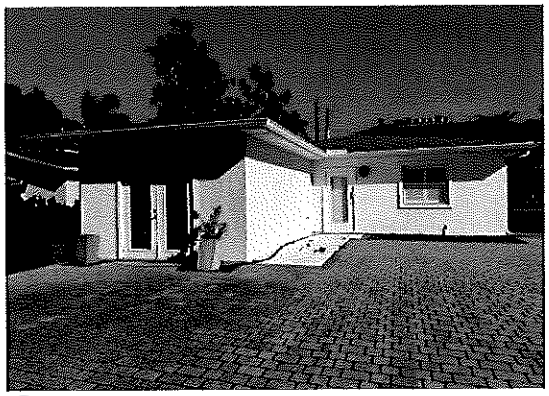


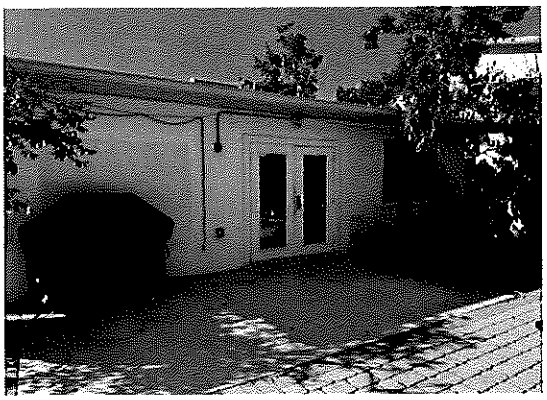
Charlotte County (Downtown Punta Gorda)

Our team shared that the Valerie's House Charlotte County Home came within inches of taking on water but stayed completely dry!

While our **teen and counseling room** did get about 18 inches of water, the good news is that our new floor is intact and just needs cleaning, with some drywall replacement needed. A large tree branch came down but landed safely without hitting any structures.

We are incredibly fortunate to be receiving help from amazing community partners to repair our teen and counseling room at the Punta Gorda home. All of this work is being done **for free**, and they are working tirelessly to ensure we can get back to serving grieving families as soon as possible.





AMERICAN OVERSIGHT

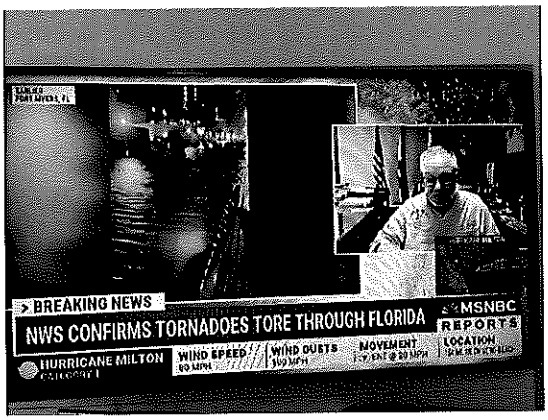
Here are the supporters making it happen:

- **New Era Custom Carpentry LLC** – Handling the new walls and drywall.
- **SIMPLIFIED BUILDING SOLUTIONS LLC** – Donating all of the materials for the new drywall.
- **Frontline Cleaning & Coating** – Handling all of the flooring work.
- **MTY Construction** – Did the original sheetrock after Hurricane Helene.

These companies are coming together to help mitigate damages and ensure that we can continue our important work at our Charlotte County home. They will complete all repairs this weekend. How incredible is that?!

AMERICAN OVERSIGHT

Valerie's House Naples



Our team checked on the Naples location, and we're thankful to report that it's in good shape, though it is still without power. We will continue to monitor the situation and provide updates as we restore services.

Valerie's House is Open:

All of our **Southwest Florida locations**, including **Fort Myers, Punta Gorda, and Naples**, are open today, as staff is checking on families and making sure they have everything they need. Grief Support Groups will resume **Monday**. Your safety remains our top priority, and we are ready to provide the care and support that our Valerie's House family needs.

Leadership and Community:

In the midst of the storm, we were proud to see Valerie's House Board Member and Fort Myers Mayor, **Kevin Anderson**, providing strong leadership during his appearance on MSNBC. We are grateful for his unwavering dedication to our community during these difficult times.

AMERICAN OVERSIGHT

Help Support Grieving Children

Helpful Resources on the Valerie's House website:

We've compiled a list of local resources that may be helpful to you or someone you know:

United Way 211: Call **211** or **239-433-3900** for a variety of resources.

Diapers and Formula: Contact Amanda at amanda@healthystartswfl.com.

FEMA Disaster Assistance: Homeowners and renters with uninsured damage can visit www.DisasterAssistance.gov or call **1-800-621-3362** to apply for assistance.

For more assistance with power restoration, debris removal, or housing, visit our Hurricane Milton Updates & Resources | Valerie's House — Valerie's House (valerieshouse.org) for a comprehensive list of support services. Even if you don't need these resources personally, sharing them could help a neighbor or friend.

AMERICAN OVERSIGHT

Stay Connected:

We will continue to provide updates and additional resources as they become available. Please stay tuned for more information on our locations and services, and don't hesitate to reach out if you need assistance.

Thank you for your ongoing support of Valerie's House. Together, we will get through this.

With love and support,

Could we possibly do 3pm EST?

AMERICAN OVERSIGHT

Sheriff Talking Points Hurricane Milton

-The Incident Management Team (IMT) remains fully operational but it continuing to demobilize and scale personnel.

-All Dump Trucks have been returned to HQ.

-All Jon Boats have been returned to HQ.

-All Precinct Shelters have been demobilized.

-Deputies assigned to staging were reassigned to Precincts to enhance patrol effectiveness during post-storm operations.

-Damage assessments are still ongoing and will take some time.

-We understand that everyone wants to get out and assess the county on their own, but we're asking you to avoid being out on the roads to allow first responders, linemen, utility and county worker to do their jobs.

-There could still be hazards to include storm debris and downed power lines.

-As of 7:30 AM: there are 247,000 residents without power.

-LCEC –53% of customers (134,477 residents)

-FPL – 22.4% of customers (66,020 residents)

-FPL and LCEC are actively out to begin repairing and restoring power.

-DOT Crews are out assessing and repairing them as we speak

-Treat all intersections as a 4-way stop if the lights are not functioning.

AMERICAN OVERSIGHT

BEACH/ISLAND ACCESS UPDATES (As of 10:30AM)

-At this time the "entrances" to these areas are passable. There are areas on the barrier islands that require a higher profile vehicle or four wheel drive to pass due to sand on the roadway.

-Little Hickory Island & Bonita Springs Causeway: Closed to vehicle traffic due to DOT clearing. Access to RESIDENTS ONLY. can access this area by foot until roads are cleared of sand.

Fort Myers Beach: Access to RESIDENTS ONLY AND CONTRACTORS/WORKERS. Residents are required to enter with pass, but can use their ID.

Sanibel: Access to RESIDENTS, BUSINES OWNERS ONLY, CONTRACTORS/WORKERS. **NO BEACH PASS NEEDED**

Captiva: Access to RESIDENTS. **NO BEACH PASS NEEDED**

Boca Grande: Access to Boca Grande is completely blocked off by Charlotte County Roads & Bridges. Working to receive update as to when roads will be passable again.

AMERICAN OVERSIGHT

ROAD UPDATES (As of 8:30AM)

-Blind Pass Bridge is open and can be crossed by vehicles with caution.

- DOT is active in the area with heavy equipment and is currently moving large amounts of sand

-Traffic on Sanibel Captiva Road and Pine Ave are being directed by the Sanibel Police Department because of the road being washed out.

- DOT is active in the area with heavy equipment and is currently moving large amounts of sand.

-Deputies are directing traffic on Captiva Drive in front of Tween waters resort (approximately 700'). One lane open.

- DOT is actively draining the water and filling the washed out areas with materials.

-Gasparilla Road on Boca Grande has multiple areas washed out along the road (45th and 48th Street W) that includes the bike paths. Deputies are directing traffic.

- DOT is actively draining the water and filling the washed out areas with materials. It is estimate that Gasparilla road will be accessible later today.

AMERICAN OVERSIGHT

CURFEWS

Fort Myers Beach 10:00PM – 7:00AM

Bonita Springs 10:00PM – 7:00AM (will rescind once traffic is allowed back on island)

Sanibel 9:00PM – 6:00AM

LOOTING (As of 10/11/24)

NO reported looting arrests

-Following the storm, it's important to protect your home from looters.
-We saw it happen during Hurricane Ian, so you need to prepare.
-Looters will be prosecuted to the fullest extent of the law!
-"Not here in Lee County!"

-Secure all windows and doors.
-Safeguard valuable items.
-Call Law Enforcement to report any looting.

-The best resource right now is to continue following our social media pages for the latest updates on any road closures.

10/11/24 Bokeelia Burglary of Conveyance Arrests

-Suspects: Jonathan Hendricks & Ashley Wagner

-Both suspects stole leaf blower from partially enclosed trailer parked on property. The victim confronted the suspects in the act who left on bicycle. Hendricks is former employee of victim.

-Charges: Burglary of Unoccupied Conveyance during State of Emergency, Petit Theft

AMERICAN OVERSIGHT

-Our thoughts and prayers are with our fellow Floridians that felt the full impact from Hurricane Milton.

-I will ensure that we will send resources to them like they did for us in the aftermath of Hurricane Ian.

-I would like to thank:

Governor Ron DeSantis

Lt. Governor Jeanette Nunez

CFO Jimmy Patronis

Senator Rick Scott

Congressman Byron Donalds

FDLE Commissioner Mark Glass,

FDLS SAC Eli Lawson

We were constant contact and offered their full support for Lee County and the rest of Florida during this dangerous storm.

AMERICAN OVERSIGHT

pace Center for Girls

Hurricane Milton Update

We hope that you and your families are safe after the passing of Hurricane Milton. This storm tore through the middle of our state across the service areas of many of our centers.

As of this morning we have heard from all our Executive Directors to ensure the safety of our girls, their families, and Pace staff in the impacted areas. Once we can safely get to all our affected centers, we will be able to further assess damages from flooding and wind.

This is an evolving situation, and we are continuing to connect with leaders at Pace centers to assess their needs to stabilize and serve the girls and their families in their community. Once we know more, we will follow up next week with ways you can help with the recovery.

AMERICAN OVERSIGHT

Pace girls gain resilience because communities come together to support them. When our resiliency is tested by difficult times like this, we know the only way forward is together.

Pace Center For Girls

LeeCountyPIO@leegov.com

Lee County offers residents updates on Hurricane Milton recovery efforts

Fort Myers, FL, Oct. 11, 2024 – Lee County continues to work with partners throughout the community to restore services to its residents, including electrical power, fuel supply and transportation infrastructure.

Power restoration remains a high priority and the service providers, LCEC and FPL, have substantial resources deployed in Lee County.

As of 1 p.m. Friday:

- 69,990 LCEC customers were without power.
- 65,860 FPL customers were without power.

Residents who are using generators to supply power are reminded to never operate a generator inside a home or garage and keep it well away from the home when it is running. Follow all operating instructions carefully.

Fuel is being delivered to Lee County sites and Public Safety is in constant communication with the Florida Division of Emergency Management's Fuel Desk. To make fuel readily accessible, power must be restored, and internet connectivity is needed for point-of-sale systems.

The Lee County Department of Transportation asks that motorists limit travel as much as possible to allow the power companies to work.

Crews are working to help island residents return home:

- Captiva – Blind Pass Bridge with access to Captiva Drive is open to residents only. Lee County Sheriff's Office and Sanibel Police assisting with traffic control.
- Fort Myers Beach and Bonita Beach – crews continue clearing over-wash sand.
- Boca Grande – Lee County Public Safety and DOT are coordinating with the bridge authority and Charlotte County Sheriff's Office to get the bridge open soon to residents.
    - DOT clearing bicycle/golf cart path for use by emergency vehicles.
    - DOT restoring multiple washed out intersections.
    - Some side streets remain unpassable. Working to establish limited access.

AMERICAN OVERSIGHT

- The measures for drainage that Lee DOT put in place last month during Hurricane Helene have proved effective.

Community Coordination Teams

- County is mobilizing Community Coordination Teams to work directly with the communities in impacted areas and address any issues or needs that arise.
- Teams will all be deployed by Saturday; some are already in place.
- Locations:
  - Boca Grande
  - Pine Island
  - Captiva and Sanibel
  - Outer Islands - Useppa, Upper Captiva
  - Fort Myers Beach

DOT also continues to assess and bring traffic signals throughout the county.

- 70% of system assessed.
- Some signals are running on generators.
- Law enforcement continues to assist.
- Treat non-working signals as a four-way stop

Additional updates

Southwest Florida International Airport reopened today.

- First flight left at 9 a.m.
- Check with your airline for updates.

Shelters

- 111 shelter residents as of 11:30 a.m.
- Shelter consolidation:
  - Lee County is continuing to consolidate its shelter operations.
  - This afternoon the county will close Dunbar High School and Island Coast High School.
  - Working to move from schools so the district can continue its assessments as it works toward preparing schools for students.
  - The Estero Recreation Center is the only remaining shelter today and is anticipated to close Saturday.
- The county is coordinating with partners to provide support and services to shelter evacuees impacted by Hurricane Milton.

LeeTran

- LeeTran will assist with the shelter consolidation operations today and anticipating normal bus service on Saturday.
- Paratransit services are operating to assist with emergency response.
- ULTRA Mobility On Demand services in Bonita Springs and Lehigh Acres are still temporarily suspended.
- Buses can be tracked in real time through the transit app or LeeFare app while emergency services are completed, and regular fixed routes are not running on their normal published schedules.

Solid Waste

- Storm debris pickup will begin at sunrise Monday.
- The most important task is to put Hurricane Milton debris to the curb for collection crews.
- Keep separate piles for yard debris, construction and demolition debris including furniture, appliances and electronics. Visit www.leegov.com/storm for a diagram of proper set out procedures.
- Do not use black plastic bags for Hurricane Milton debris. This is a strict FEMA regulation. Following it will ensure the county can be reimbursed for debris removal, which saves local taxpayer dollars.

AMERICAN OVERSIGHT

- Gated communities must have a current Right of Entry form on file. These must be provided annually. Call 239-533-8000 with any questions.
- Be patient. The county will conduct multiple passes until all debris is collected.
- The county's debris-management sites are being cleared of Helene debris and mobilized for Milton.

Parks and Recreation

- Staff continues to evaluate sites.
- All sites remain closed today, including recreation centers, sports complexes, beach sites and boat ramps.
- Monitor the website – some sites will reopen this weekend. Visit www.leeparks.org and www.leegov.com/storm.
- The start of the popular Fall Festival at Lakes Park has been delayed. This includes the Halloween Express, Pumpkin Patch and Scarecrows in the Park. Monitor the parks website for updates on when it will begin.

Community Development.

- Get a permit for hurricane repairs.
- Especially unincorporated residents in coastal areas and areas that typically flood.
- Residents or businesses within the Special Flood Hazard Area with any damage to their homes or businesses, including water intrusion.
- You must obtain a permit for all repairs.
- Email FIRMinfo@leegov.com or call 239 533-8948
- If you're in a municipality, contact the appropriate entity for permit assistance.
- County staff will be in neighborhoods this weekend.

For a video of today's update from the Emergency Operations Center, go to: https://youtu.be/NBtX3_WD9ko

Check www.leegov.com/storm for Hurricane Milton updates. Follow Lee County Government on Facebook, www.facebook.com/leecountyflbocc.

Subject:	Newsmax Live Zoom
Location:	RTIC HQ
Start:	Fri 10/11/2024 2:00 PM
End:	Fri 10/11/2024 2:30 PM
Show Time As:	Tentative
Recurrence:	(none)
Meeting Status:	Not yet responded
Organizer:	Anita Iriarte
Required Attendees:	Christopher Fine; Sarah Rodriguez; Todd Olmer; Katie Walter; Autumn King; Tara Thrower; Jessie Santero; John Holloway; James Heuglin; Robert DeAngelo; Herbert Ellis; Nestor Montoya; Jonathan Taylor; Mark Shelly; Carmine Marceno
Optional Attendees:	Christopher Lalor

Newsmax interview 215 via zoom.

Link info:

Hi Anita,

Sorry for the wait.

Newsmax Broadcasting is inviting you to a scheduled Zoom meeting.

Topic: National Desk /Sheriff Carmine Marceno
Time: Oct 11, 2024 02:15PM Eastern Time (US and Canada)

Join Zoom Meeting
https://us02web.zoom.us/j/84419049695?pwd=5USlR2tpy88UqjwQek7JKzrYGJQpbi.1

Meeting ID: 844 1904 9695
Passcode: 006723

Update TPs attached – all info verified as of 10:45am

Nice speaking with you. Sheriff Marceno will be in place at 2pm tomorrow for a sound check with a tentative 215pm. Please send me the link via email and our tech team will be in place.

Could we possibly do 3pm EST?

AMERICAN OVERSIGHT

Sheriff Talking Points Hurricane Milton

-The Incident Management Team (IMT) remains fully operational but it continuing to demobilize and scale personnel.

-All Dump Trucks have been returned to HQ.

-All Jon Boats have been returned to HQ.

-All Precinct Shelters have been demobilized.

-Deputies assigned to staging were reassigned to Precincts to enhance patrol effectiveness during post-storm operations.

-Damage assessments are still ongoing and will take some time.

-We understand that everyone wants to get out and assess the county on their own, but we're asking you to avoid being out on the roads to allow first responders, linemen, utility and county worker to do their jobs.

-There could still be hazards to include storm debris and downed power lines.

-As of 7:30 AM: there are 247,000 residents without power.

-LCEC –53% of customers (134,477 residents)

-FPL – 22.4% of customers (66,020 residents)

-FPL and LCEC are actively out to begin repairing and restoring power.

-DOT Crews are out assessing and repairing them as we speak

-Treat all intersections as a 4-way stop if the lights are not functioning.

AMERICAN OVERSIGHT

BEACH/ISLAND ACCESS UPDATES (As of 10:30AM)

-At this time the "entrances" to these areas are passable. There are areas on the barrier islands that require a higher profile vehicle or four wheel drive to pass due to sand on the roadway.

-Little Hickory Island & Bonita Springs Causeway: Closed to vehicle traffic due to DOT clearing. Access to RESIDENTS ONLY. can access this area by foot until roads are cleared of sand.

Fort Myers Beach: Access to RESIDENTS ONLY AND CONTRACTORS/WORKERS. Residents are required to enter with pass, but can use their ID.

Sanibel: Access to RESIDENTS, BUSINES OWNERS ONLY, CONTRACTORS/WORKERS. **NO BEACH PASS NEEDED**

Captiva: Access to RESIDENTS. **NO BEACH PASS NEEDED**

Boca Grande: Access to Boca Grande is completely blocked off by Charlotte County Roads & Bridges. Working to receive update as to when roads will be passable again.

AMERICAN OVERSIGHT

ROAD UPDATES (As of 8:30AM)

-Blind Pass Bridge is open and can be crossed by vehicles with caution.

- DOT is active in the area with heavy equipment and is currently moving large amounts of sand

-Traffic on Sanibel Captiva Road and Pine Ave are being directed by the Sanibel Police Department because of the road being washed out.

- DOT is active in the area with heavy equipment and is currently moving large amounts of sand.

-Deputies are directing traffic on Captiva Drive in front of Tween waters resort (approximately 700'). One lane open.

- DOT is actively draining the water and filling the washed out areas with materials.

-Gasparilla Road on Boca Grande has multiple areas washed out along the road (45th and 48th Street W) that includes the bike paths. Deputies are directing traffic.

- DOT is actively draining the water and filling the washed out areas with materials. It is estimate that Gasparilla road will be accessible later today.

AMERICAN OVERSIGHT

CURFEWS

Fort Myers Beach 10:00PM – 7:00AM

Bonita Springs 10:00PM – 7:00AM (will rescind once traffic is allowed back on island)

Sanibel 9:00PM – 6:00AM

LOOTING (As of 10/11/24)

NO reported looting arrests

-Following the storm, it's important to protect your home from looters.
-We saw it happen during Hurricane Ian, so you need to prepare.
-Looters will be prosecuted to the fullest extent of the law!
-"Not here in Lee County!"

-Secure all windows and doors.
-Safeguard valuable items.
-Call Law Enforcement to report any looting.

-The best resource right now is to continue following our social media pages for the latest updates on any road closures.

10/11/24 Bokeelia Burglary of Conveyance Arrests

-Suspects: Jonathan Hendricks & Ashley Wagner

-Both suspects stole leaf blower from partially enclosed trailer parked on property. The victim confronted the suspects in the act who left on bicycle. Hendricks is former employee of victim.

-Charges: Burglary of Unoccupied Conveyance during State of Emergency, Petit Theft

AM OVERSIGHT

-Our thoughts and prayers are with our fellow Floridians that felt the full impact from Hurricane Milton.

-I will ensure that we will send resources to them like they did for us in the aftermath of Hurricane Ian.

-I would like to thank:

Governor Ron DeSantis

Lt. Governor Jeanette Nunez

CFO Jimmy Patronis

Senator Rick Scott

Congressman Byron Donalds

FDLE Commissioner Mark Glass,

FDLS SAC Eli Lawson

We were constant contact and offered their full support for Lee County and the rest of Florida during this dangerous storm.

AMERICAN OVERSIGHT

Dear Foundation Board,

Just checking in to see if everyone came through the storm okay and to see if you need any assistance. I just got off the phone with the Superintendent. He and many others are still assessing the damage, A few schools were under water some and there is damage to the buildings of some schools. Dr. Savage is working hard to assees the situation and get the word out to the community at the end of each day. Thankfully Milton was no Ian but there is still work to be done to return our students and teachers to normalcy (whatever that is!).

I hope you and your families and businesses are doing well. Please let me know if we can do anything.

Stay safe out there!

Regards,

Dear Foundation Board,

Just checking in to see if everyone came through the storm okay and to see if you need any assistance. I just got off the phone with the Superintendent. He and many others are still assessing the damage, A few schools were under water some and there is damage to the buildings of some schools. Dr. Savage is working hard to assees the situation and get the word out to the community at the end of each day. Thankfully Milton was no Ian but there is still work to be done to return our students and teachers to normalcy (whatever that is!).

I hope you and your families and businesses are doing well. Please let me know if we can do anything.

Stay safe out there!

Regards,

Thank you so much for your kind and caring message, Marshall. We truly appreciate your leadership!

Let me provide a quick update from Your University: FGCU campus fared well during the storm, and we will be back to normal operations on Monday. Resident students are moving back to their rooms today and over the weekend, and academic recovery/make-up plans have been developed.

Together we are strong and better! Our community is so deeply connected, caring, and resilient.

Wings Up and Go Eagles!

Optional Attendees:	James Heuglin; Christopher Lalor

Sheriff to fly to Boca Grande for recovery assessment.

Bloomberg News reporter Mike Smith and photog to accompany.

Aviation X48, one helicopter at headquarters by 11:00 am

Lt. Olmer and Robert to drive to Boca and meet helicopter.

Mike Smith- (786)-717-8476 will be arriving to headquarters by 10:30

Talking Points below: (Updated 10/13)

Boca Grande Assessment and Interview

- Hurricane Milton affected our barrier islands the worst.
- Boca Grande is a true Florida paradise, and a place we're families and Presidents have come to vacation.
- Thankfully, the residents listen to the warning and left the area before the Hurricane. We were incredibly fortunate to have no fatalities.
- The hurricane almost destroyed the only roadway onto the island, washing away the shoulders, buckling the road.
- Our first priority was getting access, and addressing any life-threatening needs.
- We've learned from Hurricane Ian that this much destruction can take time to get roadways clear and assess the infrastructure.
- My heart goes out to residents who want to return right away, and our goal is to make that happen the second we know it is safe enough.
- I communicated constantly with Charlotte County Sheriff Bill Prummell on the needs of the Boca residents.
- Sunday the curfew was lifted and residents and contractors had full access to the island.
- Now our focus is on rebuilding and supporting the residents.

AMERICAN OVERSIGHT

- With houses broken open, we know the residents are concerned about their belongings. Along with the four deputies who are 24/7 assigned to Boca Grande, additional deputies and supervisors have been brought in protect this paradise.
- Our other barrier islands affected by Militon- Pine Island and Matlacha also have post-storm deputies assigned to support the residents.
- Hurricanes are an unfortunate, stressful, and heartbreaking part of our SWFL lives. My LCSO family experiences this side-by-side with our amazing residents and we are here for them in this time of need.

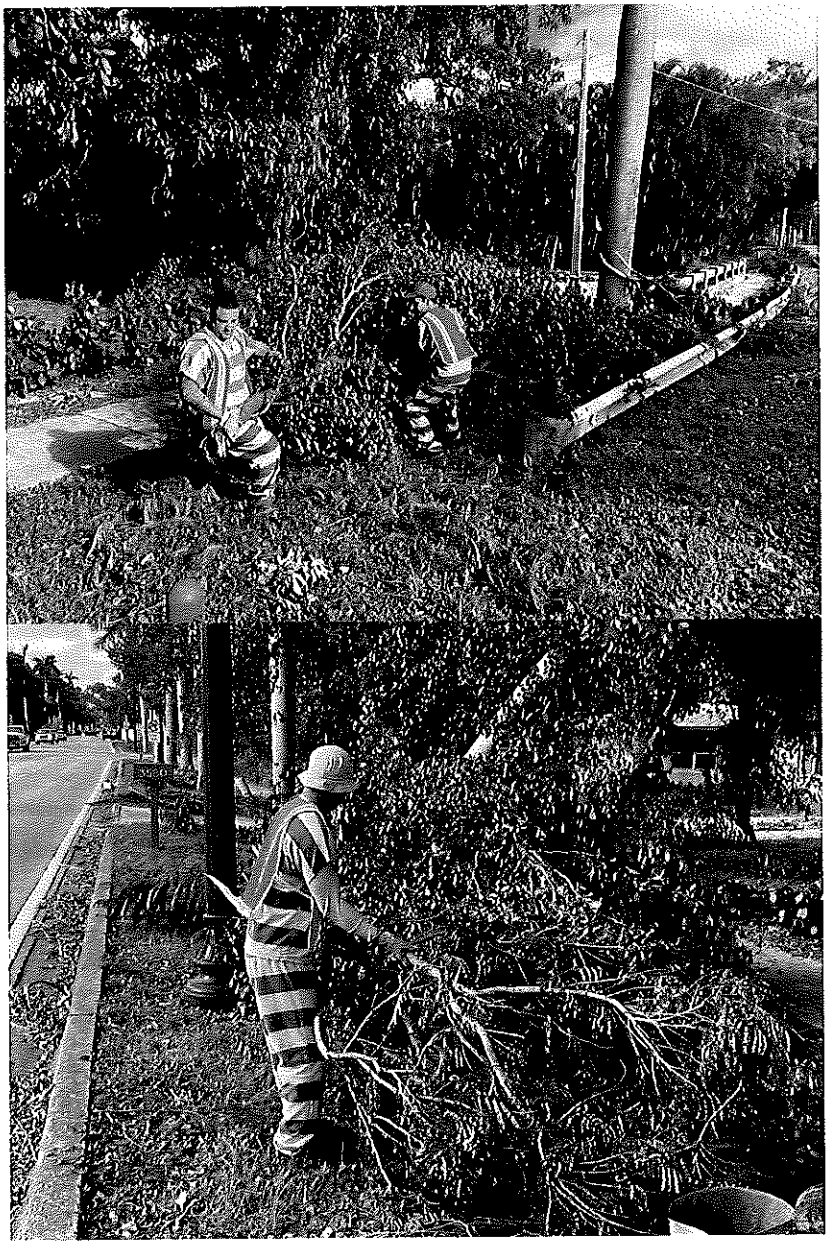
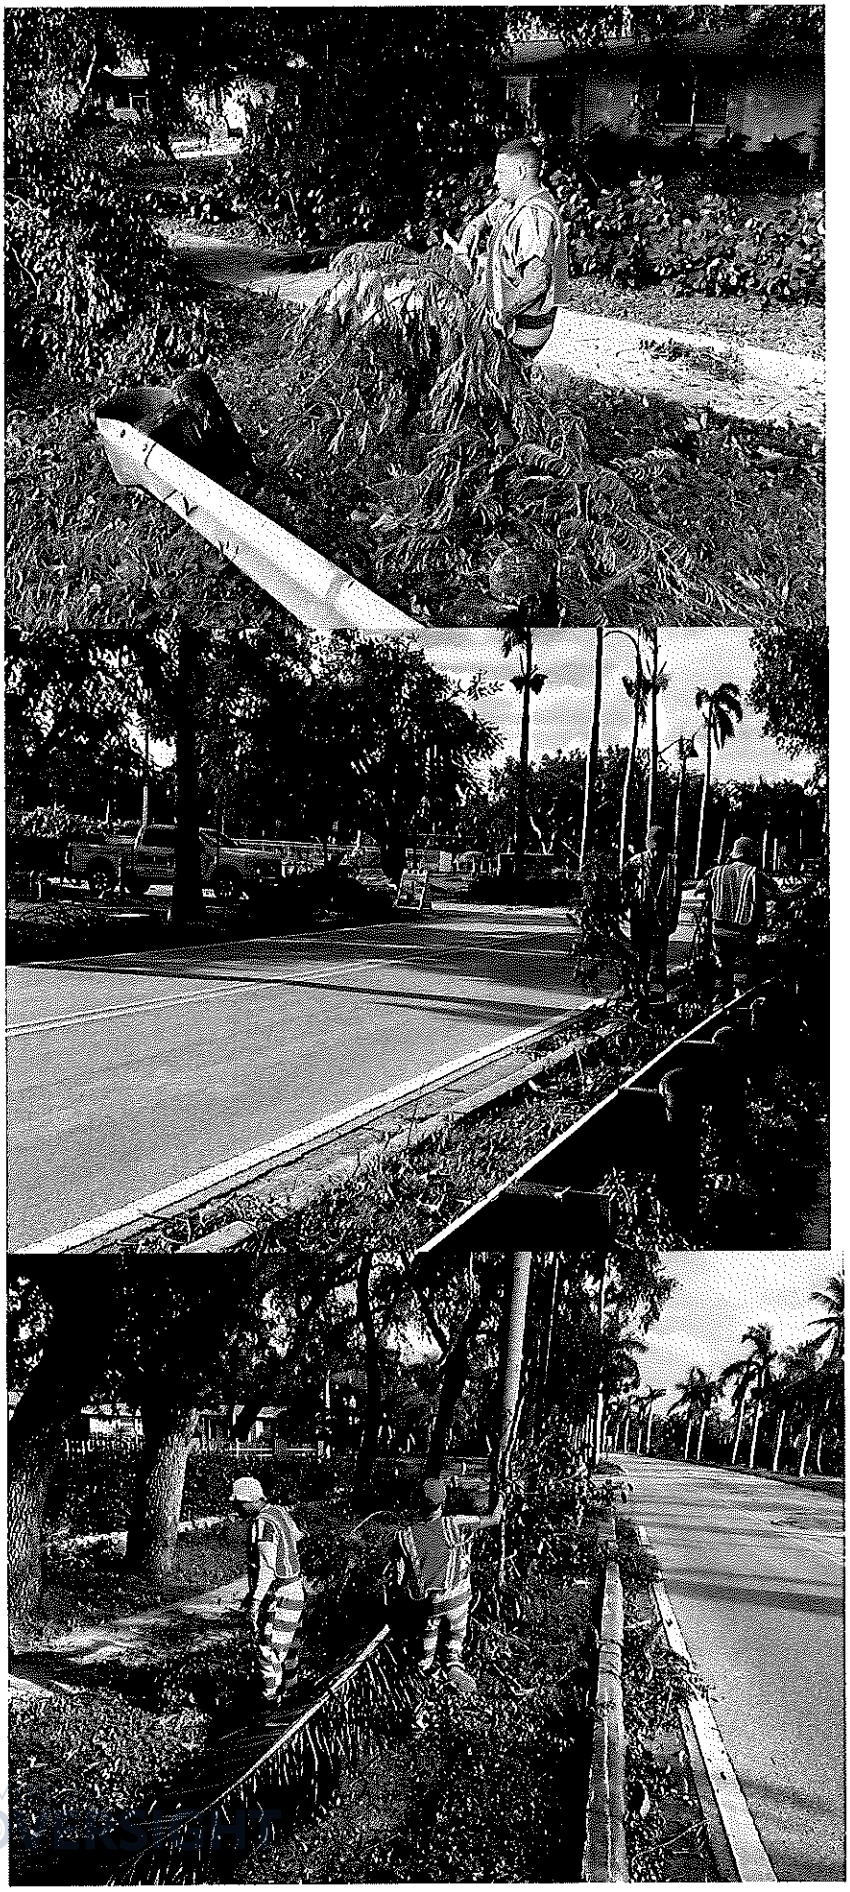
Good afternoon,

Please see the attached past and future schedule for the team.



Friday, 10/11/2024, the team completed the following tasks in response to Hurricane Milton:

- Cleared debris on McGregor Blvd - Fort Myers Country Club
- VIP request: Transported assets to 6th Precinct - Boca Grande



Monday, 10/14/2024, the team will continue addressing areas affected by Hurricane Milton debris and will be available for any incoming requests.

Have a good weekend, stay safe!

LeeCountyPIO@leegov.com

Preparing Hurricane Milton debris message for residential and gated communities

Fort Myers, FL, Oct. 11, 2024 – Hurricane Milton recovery efforts are underway across Lee County, including gated communities.

The Lee Board of County Commissioners has requested FEMA to authorize collection of debris from gated communities in order to protect the health and safety of residents. FEMA regulations require that private or gated communities have a current Right of Entry and Indemnification form on file with Lee County before any disaster debris recovery crews are allowed to enter the community. Lee County has an easy online process for submitting the necessary paperwork.

Forms are available for communities located within unincorporated Lee County: Click here to access the ROE Form. If you are unsure if your community has a current Right of Entry form on file, call your community association manager or homeowners association president call 239-533-8000.

What do residents of gated communities need to do?

- Get debris to the curb for collection crews.
- Do not collect and consolidate debris in common areas; it may not be eligible for collection unless it remains in front of your home.
- Keep separate piles for yard debris, construction and demolition debris including furniture, appliances and electronics. See www.leegov.com/solidwaste or www.leegov.com/storm for more information and a diagram of proper set out.
- Do not place bagged yard waste in your debris piles.
- It's important to know that the contractor will not collect mixed piles and black-bagged debris.
- Be patient.

Remember, all work done in unincorporated Lee County to repair a storm-damaged structure requires a permit from the Lee County Department of Community Development. Email: FIRMinfo@leegov.com.

Thank you for the update Marshall. We're here to help the Superintendent if needed and hope the damage is minimal and students and teachers can get back to school next week. I can appreciate the complexity of what the district is dealing with right now.

Hope you are personally okay through the storm as Hurricane Ian did a number on you. Wishing the Foundation staff the best too.

Lee Health is up and running (with a few outpatient office exceptions) — and the professionalism from our Emergency Management team and operations leaders was excellent.

Again, thanks for the update and I hope our board members, their families and businesses - along with our district teachers, administrators and students fared as well as possible. Certainly looking forward to the end of hurricane season!

Best regards,
Mike

Dear Foundation Board,

Just checking in to see if everyone came through the storm okay and to see if you need any assistance. I just got off the phone with the Superintendent. He and many others are still assessing the damage, A few schools were under water some and there is damage to the buildings of some schools. Dr. Savage is working hard to assees the situation and get the word out to the community at the end of each day. Thankfully Milton was no Ian but there is still work to be done to return our students and teachers to normalcy (whatever that is!).

I hope you and your families and businesses are doing well. Please let me know if we can do anything.

Stay safe out there!

Lee County Government offices, operations back to regular hours Monday

Fort Myers, FL, Oct. 11, 2024 – Lee County Government department offices will reopen with normal hours Monday, Oct. 14, and will resume normal operations.

The county closed at noon Monday, Oct. 7, in advance of Hurricane Milton. The county continues Hurricane Milton recovery efforts this weekend with key personnel.

For information, visit www.leegov.com/departments. Hurricane Milton operational updates are available at www.leegov.com/storm.

To receive updates from Lee County Government, sign up for the newsletter here: www.leegov.com/resources/newsletters. Follow Lee County Government on Facebook, www.facebook.com/leecountyflbocc.

Marshall,

Thank you for the update. So glad to hear all of the positive feedback from the board members and community.

Please know me and my team are here to assist in any way possible for the board and community. If there is anything anyone needs, please do not hesitate to reach out, even if it's just a hand to carry palm fronds to the curb.

In times like these I feel honored to be able to give our services when our community is in need. So please, don't be too proud to reach out and ask.

Looking forward to our next opportunity to catch up with everyone. Stay safe and stay strong.

Respectfully,

AMERICAN OVERSIGHT

Thanks Marshall for your leadership. The county has been working closely with the school system and we consolidated our shelters so that we make them available for school next week. A special thanks to Commissioner Hamon who was in constant
Communication and at the EOC tirelessly.

Subject: Hurricane Milton

Dear Foundation Board,

Just checking in to see if everyone came through the storm okay and to see if you need any assistance. I just got off the phone with the Superintendent. He and many others are still assessing the damage, A few schools were under water some and there is damage to the buildings of some schools. Dr. Savage is working hard to assees the situation and get the word out to the community at the end of each day. Thankfully Milton was no Ian but there is still work to be done to return our students and teachers to normalcy (whatever that is!).

I hope you and your families and businesses are doing well. Please let me know if we can do anything.

Stay safe out there!

Regards,

Dear Marshall & Board,

I hope you are all well under the circumstances. Thank you for reaching out and thank you for your continued dedication in supporting our students, teachers, and staff. Like you said, Superintendent Savage and his team are working around the clock to get the schools assessed and eventually re-opened. Thank you to them! We are grateful to be receiving tremendous support from our county and local officials as well. For those of that did not receive the message, the School District will be providing a daily release of information on operational issues at around 5:00 p.m. over the next few days (including today). If you have any questions, please feel reach to reach out.

Sincerely,

Sam

Tolls at three Lee County bridges resume tonight

Fort Myers, FL, Oct. 11, 2024 – Lee County will resume tolls at the Midpoint Bridge, Cape Coral Bridge and Sanibel Causeway at midnight.

Tolls were suspended Monday, Oct. 7, when the county announced evacuation orders for Zones A and B. The county this afternoon rescinded its evacuation order. View the evacuation order and the resolution rescinding it at www.leegov.com/storm.

For information about LeeWay and tolls, visit www.leegov.com/tolls.

City of Bonita Springs Hurricane Milton Advisory #12: Post Hurricane Milton Updates

AMERICAN OVERSIGHT

Hurricane Milton caused destructive storm surges in coastal areas of Bonita Springs, along with tornadoes and wind damage throughout the community. City staff have been working to assess the damage.

Operational Hours and Facility Closure: Bonita Springs City Hall will open Monday October 14th for normal business hours 8am-5pm. Staff continues to assess hurricane damage at city parks and facilities. Clean up has been completed at the Bonita Springs Dog Park and Bonita Springs Skate Park. They will be open tomorrow Saturday, October 12th. Click here for more information about city parks. Essential Staff continue to work throughout post-storm efforts.

Permitting: Community Development Offices will reopen for normal business hours on Monday, October 14. The City will be waiving permit fees for hurricane Milton restoration. Bonita Springs Community Development asks that any Bonita Springs residents with water intrusion in their homes post-storm send an email to floodinfo@cityofbonitaspringscd.org or call 239-444-6150 for assistance with permit requirements and resources. For additional information regarding flooding, please visit the community development website. To find out flood zone information please click here. Follow the City of Bonita Springs on Facebook.
Bonita Springs Utilities has rescinded the Precautionary Boil Water Notice

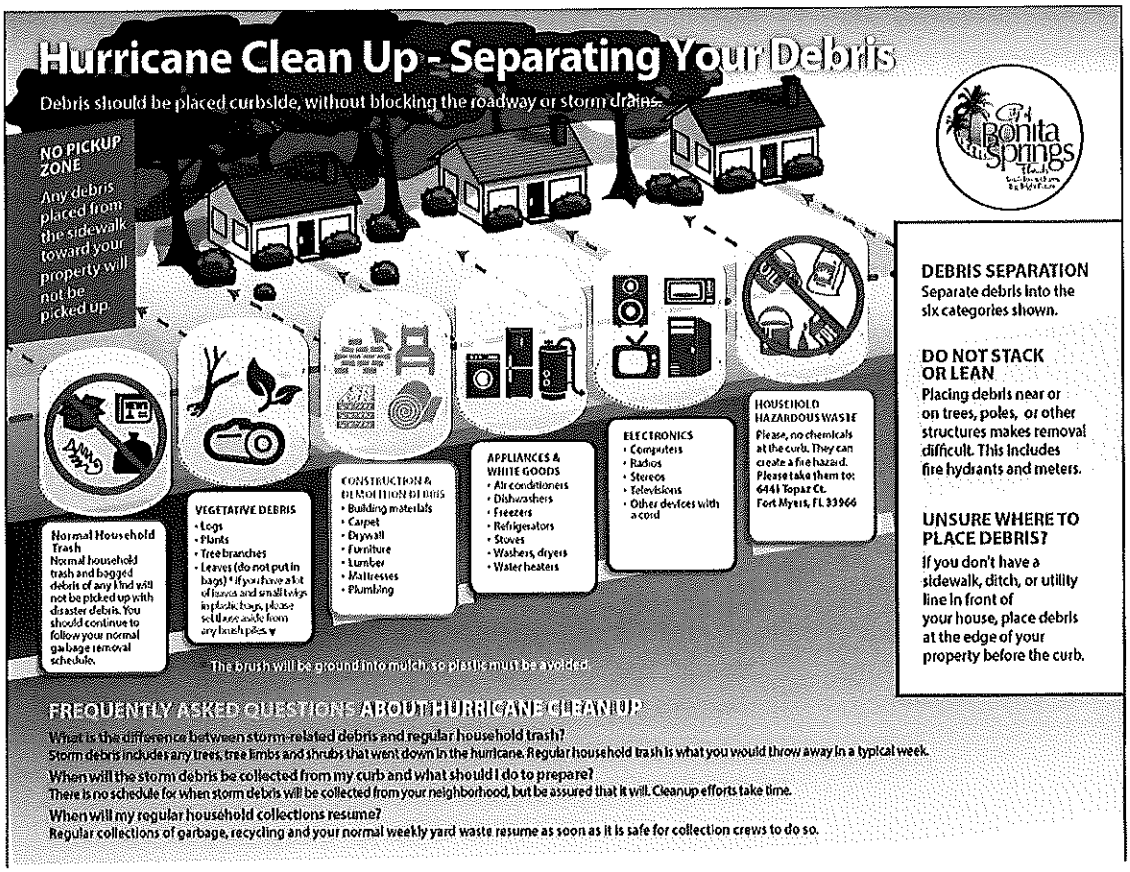
Traffic Lights and Safety: Lee County Government is assessing traffic signals throughout Lee County and working to get them up and running. Motorists should approach non-functioning signals with caution

- If a signal is dark: After coming to a complete stop, proceed carefully through the intersection.
- If it's flashing yellow: Proceed with caution.
- If it's flashing red: Treat it as a stop sign.
- If law enforcement is on-scene, follow the directions of deputies or officers

Power and Light: Florida Power and Light (FPL) is working to restore power throughout Lee County. FPL asks that the public stay far away from flooded areas and downed power lines. If you see a downed power line, call FPL at1-800-468-8243 or

AMERICAN OVERSIGHT

911 if it is an emergency. Please report outages on the FPLMobile App. Download the FPL app by texting the word "App" to MyFPL (69375).



Storm Debris: The City of Bonita Springs has initiated the recovery process following Hurricane Milton. Debris pickup is underway. City residents, who can safely do so, are asked to place any storm-generated debris on the public right-of-way. The public right-of-way is the area of residential property that extends from the street to the sidewalk, ditch, utility pole or easement. Only loose debris will be collected, bagged debris should not be placed on the public right-of-way. Make every attempt to avoid stacking debris below low hanging power or utility lines.

Do not place debris within four feet of:

- Mailboxes
- Water Meters
- Fire Hydrants
- Any other above-ground utility

Only debris placed on the public right-of-way will be eligible for collection until further notice. If all debris is not picked up during the initial pass, please continue to push the remaining debris to the right-of-way for collection on subsequent passes.

AMERICAN OVERSIGHT

Lee County Trash Collections: Regular service will resume Monday, October 14th, 2024, following the regular schedule for all accessible routes within the county's franchise areas. Only put out trash. Recycling and yard waste collections are delayed until October 21st, 2024.

Connect with us: Residents can stay up to date with City information on the City's Facebook page and website City of Bonita Springs. Visit The City of Bonita Springs Website for post-Storm Information. For more information, visit www.cityofbonitasprings.org. Download the city's free mobile app

Post Hurricane Update

Dear Constituents:

I hope that you are safe and well after Hurricane Milton. Collier County was well prepared for the worst potential from Milton. We were fortunate to be south of the ultimate path of this hurricane. For those of you that sustained damage from Hurricane Milton, we are here for you. Please let us know what you need.

I wanted to provide you with information to assist you with any damages you may have experienced.

Hurricane Debris:

Place debris generated by Hurricane Milton curbside, at least three feet apart, in separate piles of yard waste, construction and demolition (furniture, carpet), household hazardous waste, electronic waste, and appliances. Do not mix waste piles. Debris will be collected by a separate hauler than the usual garbage hauler. When placing curbside, avoid blocking the road, driveways, sidewalks, mailboxes, and fire hydrants.

AMERICAN OVERSIGHT

Please visit colliercountyfl.gov/hurricaneprep for instructions on setting out yard waste and hurricane debris at the curb. For information and to request debris removal, call Customer Service at 239-252-2380.

Traffic

We still have many minor intersections without working traffic signals. Please remind everyone to treat each intersection as a 4 -way stop.

We are continuing to monitor the fuel situation, but it appears that gas stations are receiving fuel deliveries (for now).

Hiring Contractors and Emergency Permitting

Residents are urged to use caution when hiring a contractor to perform work. They should make sure they hire a reputable, licensed contractor and are urged to hire the correct type of contractor specific to the type of work that they wish to have performed. Licenses for work are specific, i.e. roof repairs - tile roofs require one type of license and shingle roofs require a different type of license. Residents are encouraged to contact Collier County Contractor Licensing at 239-252-2431 or visit our website before hiring a contractor to verify the company's credentials.

Emergency repair work to secure a building (enclosing doors, windows and roofs) does not require a permit currently. All other repair work is required to have a permit. Roof repairs may only be performed by a licensed roofing contractor.

Collier County will have emergency permitting available beginning at noon today, at the Growth Management Community Development Dept. Office, 2800 N. Horseshoe Drive, Naples, Florida 34104, Heritage Bay Government Services Center, 15450 Collier Blvd., Naples, Florida, 34120 and at the Immokalee Permitting Office at 310 Alachua Street, Immokalee, Florida 34142.

All permitting services will resume on Friday, Oct. 11, 2024, at 8 a.m. For general questions, contact Growth Management Community Development Department customer service at 239-252-2400.

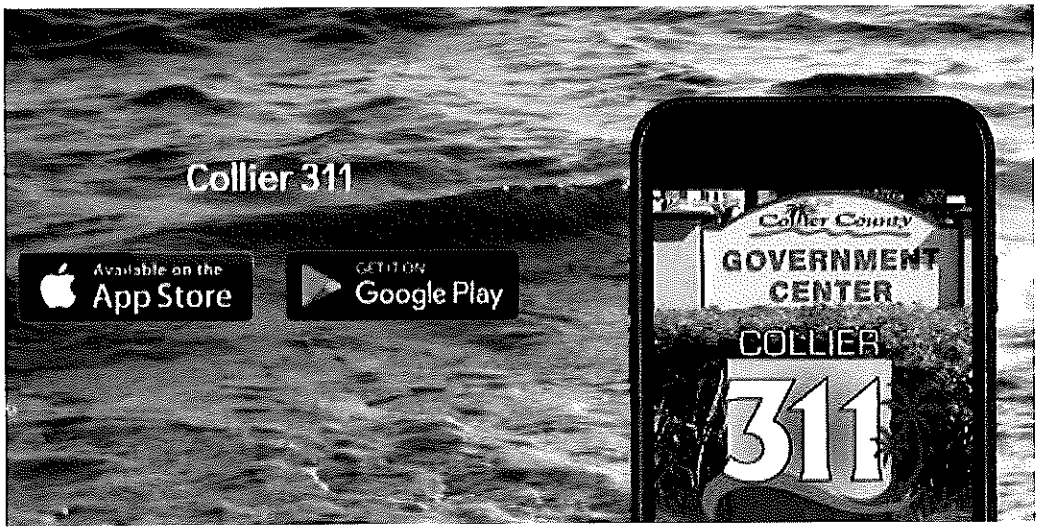
Any companies wishing to perform debris and tree removal services or basic landscape maintenance, are required to have an Occupational License.

Under Florida Statute, unlicensed persons who perform work during a declared State of Emergency are committing a third-degree felony.

Anyone having questions or wanting to report unlicensed activity should contact Collier County Contractor Licensing at (239) 252-2431.

AMERICAN OVERSIGHT

Collier County Public Utilities Restoration Efforts After Hurricane Milton



Collier County Public Utilities crews are working to restore services and ensure the safety and well-being of our community. Water and wastewater teams are in the field, assessing conditions and making necessary repairs. Collier residents are asked to minimize water use.

The loss of electrical power has affected some wastewater pump stations. Generators and other assets are being deployed to critical locations. Customers are urged to minimize water use during this critical period. Please limit toilet flushing and refrain from using dishwashers and washing machines to help reduce the strain on the wastewater system.

"We appreciate the community's cooperation and patience as our crews work to restore services," said Wastewater Director Robert VonHolle. "Conserving water during this time will greatly aid our restoration efforts."

Additionally, customers are reminded not to remove cleanout caps or sewer manhole covers. It's important to maintain stormwater from entering the sewer system to prevent backups into homes.
Residents with questions may call the Collier Information Hotline by dialing 311 within Collier County or 239-252-8444. Information can also be found at colliercountyfl.gov and social media channels including facebook.com/CollierGov and x.com/CollierGov.

Collier 311

If you have any County related issues that need to be resolved, you can dial 311 or (239) 252-8999 and you will be connected to an appropriate Collier County Department staff member. They will respond to your questions immediately and create a service

AMERICAN OVERSIGHT

request that will be responded to by the correct Department based on service need. Benefits of 311:

- 311 acts as a single point of access to Collier County Government
- You can report ANY issue
- You don't have to know which Department or who to call
- It will create a service request
- You can easily track the status of your request
- ...and YOUR voice is heard & ACTION is taken!

When Emergencies Happen in Collier County, Can't Alert You if We Can't Reach You

Collier County encourages all residents to sign up for Alert Collier, the County's new mass notification system. When you sign up with Alert Collier you can enter up to five addresses within the County boundaries that you would like to receive emergency alerts about. Enter your home, work, relative, school or any other address that's important to you.

Should an alert be issued for that location, you will receive a notification.

You can sign up with your cell phone to receive calls and/or text messages, your email address(es), home phone, business phone and hearing impaired device. Collier County encourages you to also download the Everbridge Public Safety app (free in the iOS, Android and Windows app stores), this app will allow you to see all public notifications issued across the State and Country by other Everbridge users. Live in Lee county but work in another County? No problem you can receive their emergency alerts just by having the app installed.

So, create a contact on your phone for Alert Collier: the caller ID our alerts will come from is 239-252-8000, and the short code our texts will come from is 89361 and 87844. Save Alert Collier as a contact today!

Be safe and don't take unnecessary risks!!

Sen. Rick Scott Shares Hurricane Recovery Resources

Dear Fellow Floridian,

As I travel across our state, the devastation from Hurricane Milton and Hurricane Helene is heartbreaking. Recovery begins right now, and it's a long road, but Floridians are resilient. Together, we will get through this. As communities assess their damage, get roads back open and power back on, I remain in constant communication with local leaders to ensure they have everything they need from the federal government. I have also been in constant contact with FEMA to ensure the federal response to Milton is in total collaboration with state and local governments to provide relief to impacted Floridians and ensure complete and total recovery.

AMERICAN OVERSIGHT

I've made a promise to every Floridian working to recover: **I'm going to be there every step of the way to make sure the federal government, including Federal Emergency Management Agency (FEMA), the Small Business Administration (SBA), Department of Housing and Urban Development (HUD), and United States Department of Agriculture (USDA) all SHOW UP as a partner today, tomorrow and every day until Florida is fully recovered.**

I've spoken to President Joe Biden following Hurricane Milton's landfall about our state's response and recovery efforts. I told him I am 100% focused on making sure FEMA, the SBA, HUD and USDA are fully funded for disaster recovery and have boots on the ground until Florida is fully recovered. This follows my meeting with President Biden last week following Hurricane Helene, along with USDA Secretary Tom Vilsack and other leaders in Steinhatchee, where I urged President Biden to fully support the requests of the State of Florida, including USDA block grants for Florida's farmers. See more about our meeting **HERE**. I also called **SBA Administrator** Isabel Casillas Guzman and **FEMA Administrator** Deanne Criswell to reiterate this directly and make sure Floridians are getting the help they need.

I've also **called on** Majority Leader Chuck Schumer to bring Congress back into session as soon as communities assess their needs so we can fund FEMA, the SBA, HUD and the USDA to support recovery, as well as other necessary disaster relief legislation, like my ***Federal Disaster Tax Relief Act.***

I know there may be some concerns about what the process will look like for you as you recover from Milton and continue recovering from Helene. I've spoken to FEMA and want you to know, especially as more counties are approved for individual assistance because of Hurricane Milton, you must apply for assistance for Hurricane Helene and Hurricane Milton separately, meaning if you were impacted by more than one storm, you should treat each storm as an individual occurrence when applying for assistance and reporting damage. For more information on Hurricane Helene individual assistance, click **HERE**. For information on Hurricane Milton, click **HERE**. For more information about Hurricane Debby, click **HERE**.

But remember, you MUST apply for each storm separately. Just because you applied for Helene or Debby assistance does not make you eligible for Milton, so take some time to apply again, and make sure you get every federal resource available to you after this storm, and **if you have any questions at all, please contact my office for help.**

Having been governor and now senator through multiple major hurricanes, I know how devastating storms can be. I have been traveling all around the state, communicating with community leaders and emergency managers about storm preparation and recovery. It is crucial that every agency, federal, state and local, work together to help Floridians unite and recover.

Floridians are resilient, and we will get through this together. My office is committed to making sure Floridians have access to the tools and federal resources necessary to rebuild. If you or someone you know needs help with a federal agency, click **HERE**.

AMERICAN OVERSIGHT

See more about the resources available to you, your family or your businesses as you recover from Hurricane Helene and Hurricane Milton below or click **HERE**.

Sincerely,

Senator Rick Scott

United States Senator

—

To be the first to find out about Senator Scott's actions and statements, follow him on **Twitter**, **Facebook**, **Instagram**, and **LinkedIn**.

—

Si hay algo que sé, es que los floridanos somos resilientes y que juntos superaremos esto. Vea más sobre los recursos disponibles para usted y su familia **AQUÍ**.

HELPFUL RESOURCES

Housing

Any Floridian in need of assistance with housing, please register for BOTH State and FEMA housing assistance through the links below.

1. To apply for State Housing Program: Hope Florida (hopeflorida.com)
Activate Hope Disaster Assistance Form

Serving as the emergency response arm for the Hope Florida initiative, **Activate Hope** pulls together the private sector, nonprofits, and government resources to help Floridians get back on their feet following a natural disaster. Activate Hope helps connect Floridians with outside resources to provide food, household goods, home repairs, and more. Individuals in need of immediate housing assistance, including FDEM temporary housing trailers, can complete **this form** or call **1-833-GET-HOPE**.

2. To apply for FEMA Housing Program
FEMA Assistance: Including Housing Assistance

AMERICAN OVERSIGHT

People with damage to their homes or personal property who live in the designated

Individual Assistance counties should apply for assistance, which may include upfront funds to help with essential items like food, water, baby formula and other emergency supplies. Funds may also be available to repair storm-related damage to homes and personal property, as well as assistance to find a temporary place to stay.

There are three ways apply for FEMA assistance:

- Online by visiting **disasterassistance.gov**.
- Calling **1-800-621-3362**.
- Download and apply on the **FEMA App**.

Homeowners and renters with damage to their home or personal property from previous disasters, whether they received FEMA funds or not, are still eligible to apply for and receive assistance for Hurricane Helene. FEMA has not yet designated counties for Individual Assistance, as of the morning of October 10, 2024.

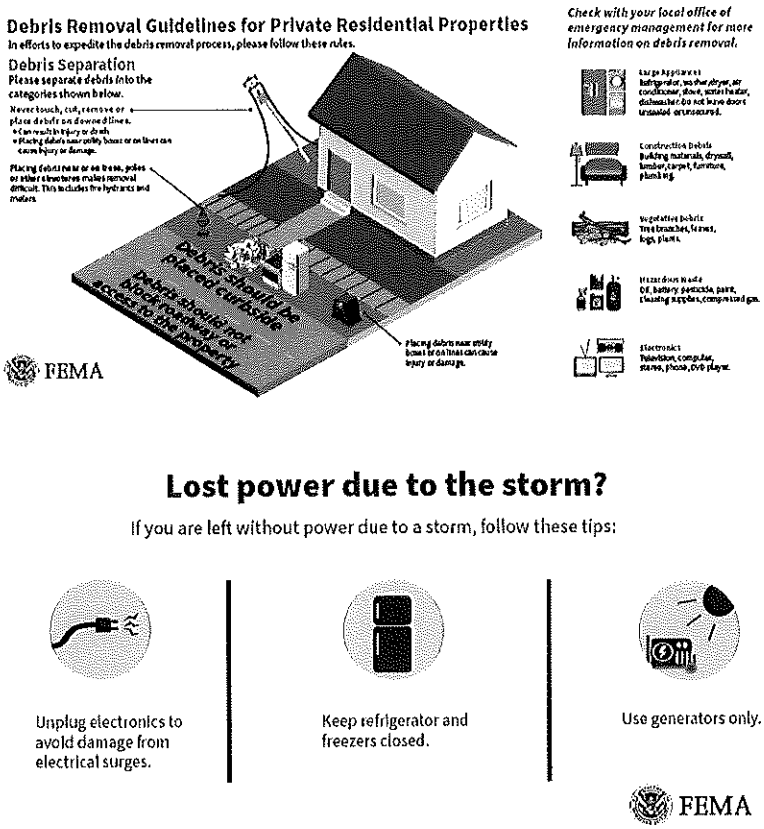
—

Federal Emergency Management Agency

For the latest information about Florida's current disasters, visit **https://www.fema.gov/disaster/current**. Follow FEMA on X at **x.com/femaregion4** or on Facebook at **facebook.com/fema**.

FEMA recommends homeowners and renters affected take the following actions:

- Report any damage to your local emergency management agency.
- Make sure to document any property damage with photos and contact your insurance company for assistance and next steps.
- Keep repair receipts.
- Be aware of safety concerns and separate debris for collection as instructed by local officials.



Beware of Fraud and Scams

After a disaster, scam artists often attempt to take advantage of disaster survivors. We encourage survivors to watch for and report any suspicious activity.

Ways to Report Fraud
Email: StopFEMAFraud@fema.dhs.gov
Call: 1-866-223-0814
Fax: 202-212-4926

For more information visit fema.gov/disaster-fraud FEMA

AMERICAN OVERSIGHT

Lost power due to the storm?

If you are left without power due to a storm, follow these tips:

Unplug electronics to avoid damage from electrical surges.

Keep refrigerator and freezers closed.

Use generators only.

Crisis Cleanup

If you need help with damages caused by Hurricane Helene or Hurriciane Milton, call Crisis Cleanup: **844-965-1386**.

Volunteer Resources

- Disaster Legal Hotline is open to assist and refer callers. The number is **833-514-2940**
- Samaritan's Purse hotline: **1-833-747-1234**
    - Free Assistance for homeowners affected by the disaster.
    - Volunteers may be able to assist with removal of personal property and furniture, flood cleanup, sanitizing with shockwave treatment, chainsaw work & Debris Clean-up, temporary roof tarping.
- **2-1-1** is open and ready to receive calls
    - Individuals can call for up-to-the-minute information including school closures and sandbag distributions.
    - Local Social Services Referral.
- Red Cross Hotline is open to assist survivors: **1-800-Red Cross**
- Florida Baptists Disaster Relief Public Assistance: **904-253-0502** or text Helene to **27123**
    - Free Assistance for homeowners affected by the disaster.
    - Volunteers may be able to assist with Storm Debris Cleanup, Temporary Roof Tarping, Chainsaw work and Muck outs

Activate Hope Disaster Assistance Form

Serving as the emergency response arm for the Hope Florida initiative, **Activate Hope** pulls together the private sector, nonprofits, and government resources to help Floridians get back on their feet following a natural disaster. Activate Hope helps connect Floridians with outside resources to provide food, household goods, home repairs, and more. **Individuals in need of immediate housing assistance, including FDEM temporary housing trailers, can complete this form or call 1-833-GET-HOPE.**

—

Florida Commerce

The **Florida Small Business Emergency Bridge Loan** program provides short-term, zero-interest working capital loans that are intended to "bridge the gap" between the time a disaster impacts a business and when a business has secured

AMERICAN OVERSIGHT

longer term recovery funding such as federally or commercially available loans, insurance claims or other resources.

Loans are available up to $50,000 per eligible applicant.

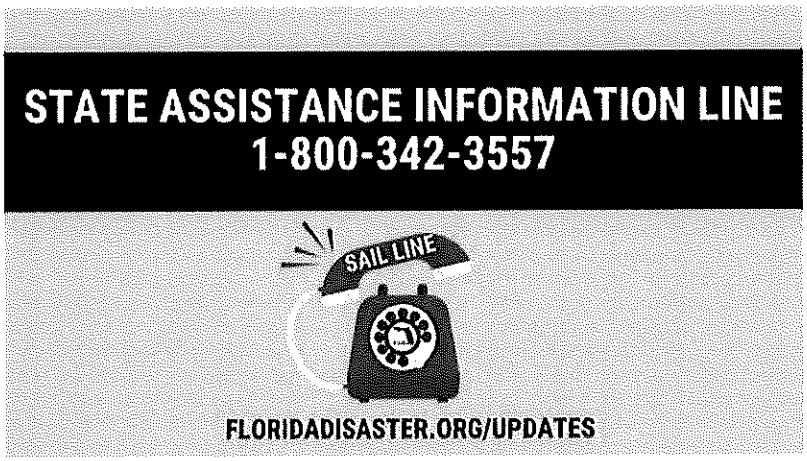
Loans made under this program are short-term, personal loans using State of Florida funds – they are not grants and must be repaid. Florida Small Business Emergency Bridge Loans require repayment by the approved applicant. Owners may utilize funding from longer term financial resources, such as U.S. Small Business Administration economic injury disaster loans, to repay the Emergency Bridge Loan.

—

Florida Department of Agriculture and Consumer Services

—

The Florida Department of Agriculture and Consumer Services (FDACS) provides state resources for post-storm recovery.



As of October 10, 2024, FDACS has not begun accepting or processing applications for Hurricane Milton. However, if you are an agricultural or aquaculture producer who has experienced damage from Hurricane Helene or Hurricane Debby, you can apply for a Disaster Recovery Loan **HERE**. To check your eligibility or status of your application, click **HERE**.

—

Need Assistance?

- Call the Florida State Assistance Information Line for additional resources and updated information: **1-800-342-3557**
    - **In case of an emergency, please hang up and dial 911**
    - There are English, Spanish and Creole speakers available to answer questions.

AMERICAN OVERSIGHT

- Floridians in need of assistance with federal resources following the impacts of Hurricane Helene, Debby or Milton can contact Senator Scott's office at: **www.rickscott.senate.gov/contact/casework**

After a Storm

- If you were advised to evacuate, do not return home until local emergency managers say it is safe to do so.
- Be mindful of debris and down power lines.
- Do not drive or walk around outside if you do not have to.
- Use extreme caution when operating heavy machinery, generators, or while removing debris. Never use generators indoors and keep them away from windows, doors and vents.
- Stay off roads so that emergency workers are able to get through.
- Do not drive or walk through flood waters. Be aware of downed power lines, standing water and other hidden hazards.

—

—

Senator Rick Scott in Charlotte County

AMERICAN OVERSIGHT

Senator Rick Scott joined local officials in Punta Gorda to be briefed and survey the damage in the area. Like so many people, Senator Scott loved visiting and bringing his grandkids to Punta Gorda, and knows this the community will be back stronger than ever. He reassured the community he is going to do everything he can to make sure the federal government keeps showing up, and Floridians get the relief and resources needed to recover.

ON SOCIAL MEDIA

Rick Scott ✓
@SenRickScott

Just spoke to @POTUS about the response & recovery to Hurricane #Milton. I told him I am 100% focused on making sure @fema, @SBAgov, @HUDgov & @USDA are fully funded & have boots on the ground until Florida is fully recovered.

Florida is strong & we will rebuild even stronger.

AMERICAN OVERSIGHT

Rick Scott
@SenRickScott

On Oct. 10, 2018, Hurricane Michael devastated our state, but we came together and rebuilt.

Now, six years later, many of us are experiencing that same loss and hurt as we wake up to the damage Hurricane #Milton caused. But just like then, we will come together and recover stronger than ever.

Rick Scott
@SenRickScott

So many Floridians are waking up to unimaginable damage, but we will get through this together. Florida is strong.

I'm working to make sure the federal government shows up for Florida, but we need you to stay safe. Listen to local officials. It's still dangerous out there.

Dear Carmine,

I sincerely hope that this message finds you and your loved ones safe and well in the wake of Hurricane Milton. We know this storm has caused significant damage across our district, and our thoughts are with those who have been affected. Please know that you are not alone—Rotary is here to respond with the full strength of our community, as quickly and as effectively as we can.

Today we spent time traveling to as many areas as we could with the Disaster Aid USA team. We made great progress in setting up partnerships with local emergency operations centers in several counties and establishing key volunteer locations. Our disaster response efforts are in full swing, with teams dedicated to debris removal, mucking and gutting homes, and distributing essential supplies to those in need. Your team leads and many others have been working hard over the last 48 hours to provide much needed support and relief to those impacted. I want to thank all of those individuals who are out in their communities showing the love Rotary has for others. My hope is that everyone who can join us in this effort. **We need more volunteers** for a variety of roles. Below is a list of our volunteer operation locations as well as the status and leads for each location.

Sanibel Island - Ready for volunteers now
FISH - 2422 Periwinkle Way Sanibel, FL - Check-in at FISH with Maria
Team Lead - Maria Espinoza 239-271-5441

Venice - Ready for volunteers now
Venice Art Center - 390 Nokomis Ave S Venice, FL
Team Lead - Casey Riley 941-525-3158
Team Lead - David Pankiw 717-360-1409

Bonita Springs - Ready for Volunteers this weekend
Team Lead - Robyn DeZego 336-918-7243
No central meeting location. Please contact Robyn for address.

Englewood - Will be ready soon
Lemon Bay Plaza - 1881 Englewood Road Englewood, FL
Teams will be working throughout Englewood. The Rotary 6960 Disaster Trailer is the check-in point.
Team Lead - Carolyn Burk 954-895-3165

AMERICAN OVERSIGHT

Siesta Key - Will be ready soon
William Raveis Office - 6021 Midnight Pass Road Siesta Key, FL
Team Lead Kyna Smith 941-993-4752

Anna Maria Island - Will be ready soon
CrossPointe Church - 86050 Gulf Drive Holmes Beach, FL
Team Lead - Jennifer Fretz Smith 561-346-3676

Cortez - Will be ready soon
12104 Cortez Road Bradenton, FL
Team Lead - Tore Knos 770-316-6900 (alternative contact is Jennifer Fretz Smith)

Areas looking for team leads: Pine Island, Fort Myers Beach, Punta Gorda, Port Charlotte & Palmetto

This is a time for Rotarians to come together and show our support for our friends, neighbors, and communities we serve. Whether you can help clear debris, assist in mucking out homes, or volunteer at one of our volunteer or distribution centers, your presence and service will make a profound impact. Rotary has always been about coming together in service to make a difference, and now, more than ever, we have the opportunity to share that magic—by helping those who need it most.

Please reach out to team leads in your area or the area you want to serve in to get involved. You can also go to RotaryFL.org to register for volunteer opportunities and to let us know of any specific needs in your area. You make a financial contribution on RotaryFL.org as well. Thank you for your compassion, dedication, and commitment to service in this challenging time. Together, we will get through this and help our communities rebuild and recover.

Yours in Rotary Service,

Most, if not all of us, are dealing with the aftermath of these storms. Can we all try to find a two-hour window that we could conduct a Zoom or Teams meeting to go over the proposal? We can then have a more formal discussion sometime during the new Sheriff's school. I just don't think it is feasible for us to travel many hours for a two hour meeting, if that.

AMERICAN OVERSIGHT

We are dealing with a lot right now, but we have a 20-million-dollar project we must move on.

Thank you.

On Oct 11, 2024, at 10:44 AM, Carmine Marceno <CMarceno@sheriffleefl.org> wrote:

My LCSO Family,

Over the last week, we have prepared, been activated, and deployed over the entire county for Hurricane Milton.

I could not be more proud of the work you do every day, but this week every one of you stepped up, left your homes and families, and put OUR COMMUNITY FIRST.

Mother Nature is unpredictable and while we serve up to the last second and redeploy immediately when conditions allow, we all know this is a dangerous profession that puts service to others before self. For that, I couldn't be more proud.

Your dedication is what makes the Lee County Sheriff's Office the premiere agency in the state, if not the entire country.

The residents of Lee County are blessed to have YOU on their side! I am blessed to call YOU ALL family.

I will continue to fight to make certain you always have the best equipment and compensation possible because it's what you deserve.

From the bottom of my heart, THANK YOU.

Subject: Hurricane Milton - Update #47 (Final Update)

Agency Members,

As of 5:00 a.m. on 10/12/24, the Incident Management Team (IMT) has officially demobilized, and the agency has returned to normal operations. All known concerns are being addressed by regular precinct personnel. This will be the final update regarding this storm.

Hurricane 214 Forms:

All personnel *who participated* in storm-related activities must complete a Hurricane 214 Form electronically, which is available on the intranet. Personnel who worked regular patrol without storm-related duties do not need to submit a form.

Examples of those required to submit include:

- Personnel working overtime
- Personnel in the 1st, 3rd, 4th, and 6th Precincts involved in storm-related road closures, rescues, and bridge assessments
- School Resource Officers who were reassigned
- Corrections personnel who delivered equipment

Once completed, the form should be submitted to the immediate supervisor for review and approval.

Mobile Assets:

All mobile assets (trailers, message boards, decoy cars, etc.) may be returned to the field starting today.

Information Updates:

- IMT has demobilized; any further issues should be directed to Precinct Command Staff or the Watch Commander.
- Fleet generator has been refilled with fuel.
- Fort Myers Beach Hurricane Re-entry Pass Program will be lifted effective October 12, 2024, at 7:00 a.m.
- The drone assessment of the affected areas has been completed.
- Current customer with power outages: FPL - 35,230 LCEC - 47,524.
- All employee wellness checks were completed.

Precinct Road Closure Updates:

- 1st Precinct: No issues of concern and normal operations have resumed.
- 2nd Precinct: No issues of concern and normal operations have resumed.

AMERICAN OVERSIGHT

- 3rd Precinct: DOT equipment is causing sporadic traffic delays on Estero Island, but all roads are open.
- 4th Precinct: Checkpoints at Barefoot Beach / Bonita Beach and Lovers Key. Both will be ending on 10/12/2024 at 7:00 a.m.
- 5th Precinct: No issues of concern and normal operations have resumed.
- 6th Precinct: Boca - Gasparilla Rd is still under water in some parts.

Other Updates:

All personnel moving any remaining assets must update the Major Asset List accordingly.
Thank you for your continued efforts throughout this storm.

AMERICAN OVERSIGHT

Lee County announces Hurricane Milton debris public drop-off sites
Sites open Monday, Oct. 14

Fort Myers, FL, Oct. 12, 2024 – Residents who have the ability and desire to self-haul Hurricane Milton debris while waiting for roadside pickup can use public drop-off sites. These sites, which will open Monday, Oct. 14, will be for both vegetative and construction and demolition debris.

Be prepared to show identification and be a resident of unincorporated Lee County. Accepted forms of ID include driver's license, utility bill, rental or lease agreement, or local business license. You will be asked to complete a waiver confirming the debris came from your property. Waivers can be found online at https://www.leegov.com/solidwaste/hurricane, or you can receive a form on site.

For residents:
Only storm debris will be accepted, and you must be prepared to unload your trucks yourself. Four locations open Monday with operating hours 7 a.m. to 5 p.m. daily. No more than 5 cubic yards of debris may be dropped off at a time.

- 5031 Pine Island Road, Bokeelia, FL 33922
- 50 South Road, Fort Myers, FL 33907
- 18078 Cypress Point Road, San Carlos Park, FL 33967
- 13801 Orange River Blvd., Buckingham, FL 33905

For businesses –
Lee County commercial businesses are encouraged to take their storm debris to the Waste-to-Energy Facility, 10500 Buckingham Road, and will be charged by weight. It will be open regular hours from 6 a.m. to 6 p.m.

For landscaping companies –
Landscaping companies hauling vegetative storm debris cleared from residential properties will need a signed declaration from the resident indicating the address where the debris was generated. No debris will be accepted without a signed declaration.

Trash pickup reminder –
Lee County Solid Waste garbage collection will resume Monday on the normally scheduled day for all routes in Lee County franchise areas that are accessible to collection trucks. This collection is for household garbage only – everyday trash items and all spoiled food. Collection of recycling will resume at a later time.

AMERICAN OVERSIGHT

Hazardous Waste:

Residents can drop-off household hazardous waste, free of charge, at the Household Chemical Waste and Electronic Recycling Center located at 6441 Topaz Court, Fort Myers.

AMERICAN★HUMANE
FIRST TO SERVE®

Dear Carmine,

Thanks to your incredible support, American Humane's Rescue Team has been working tirelessly to aid animals impacted by Hurricane Helene—but our job is not done as we head to Florida to help animals affected by Hurricane Milton. Thanks to the support of animal lovers like *you* , we were able to help counties throughout Georgia before our team moved to western North Carolina, where we've been on the ground helping communities recover and providing critical relief to animals in need.

In North Carolina, we:

AMERICAN OVERSIGHT

- Assisted with animal welfare checks and delivered critical supplies like pet food and crates to 60 communities across four counties.
- Coordinated with partners like ASAR and local animal control to ensure safe shelter and transport for animals in need.
- Rescued and transported animals, including a group of 14 dogs and puppies in Avery County, where we provided immediate care and coordinated safe relocation.

We're proud of the work we've been able to accomplish in Georgia and North Carolina, but our mission is not done. Hurricane Milton recently made landfall near Siesta Key, bringing significant storm surge and flooding. We are on our way to Florida to provide much-needed support to animals and communities facing the aftermath of this devastating storm.

Donate today and make TWICE the difference thanks to a generous matching gift. Every dollar you contribute will be matched, up to $50,000*, doubling the impact of your support to help animals in crisis.

Your contribution will help us:

- Deliver lifesaving food, water, and medical supplies to shelters and animals in need.
- Assist in animal search and rescue operations in Florida
- Sustain our broader mission to protect animals across the country, whether during emergencies like Hurricane Helene, or through our ongoing efforts to protect and care for every animal who needs us.

Your matched gift enables us to respond swiftly and effectively, providing vital relief to animals during disasters and ensuring we

AMERICAN OVERSIGHT

remain ready to respond wherever and whenever we are needed most.

Thank you for standing with us during this challenging time. Your generosity is making a real difference for animals in need, and we are deeply grateful for your continued support.

With gratitude,
Josh Cary
National Director, Rescue
American Humane

P.S. Your gift will be matched dollar-for-dollar, doubling your impact and helping us continue our lifesaving work for animals affected by Hurricane Helene, Hurricane Milton, and beyond.

**Campaign contributions will be matched up to $50,000. Limited to U.S. residents only.*

Please note: Any gift received surpassing the $50,000 matching gift will not be doubled but will continue to support all of American Humane's life-changing and impactful programs.

Lee County Parks & Recreation announces reopening of facilities first weekend after Hurricane Milton

Fort Myers, FL, Oct. 12, 2024 – Lee County Parks & Recreation is pleased to announce the reopening of many parks and recreational facilities following the impacts of Hurricane Milton.

The reopened sites have had thorough staff assessments and safety inspections. Staff continue to work throughout the weekend so that sites in addition to the list below can potentially reopen. Continue to monitor www.leeparks.org. The website also lists the addresses, available amenities and hours of operation for the reopened sites.

These locations will be open to the public with regular operating hours starting today, Oct. 12:

Boat Ramps

- Alva Boat Ramp
- Davis Boat Ramp

Recreation

- Kelly Road Soccer Complex
- North Fort Myers Recreation Center
- Veterans Recreation Center
- Wa-Ke Hatchee Recreation Center

Preserves

- Caloosahatchee Creeks Preserve – East and West
- Prairie Pines Preserve
- Pop Ash Creek Preserve
- Telegraph Creek Preserve

Parks

- Charleston Park
- Hickey Creek Mitigation Park
- Hunter Park
- Judd Park

AMERICAN OVERSIGHT

- Karl Drews Community Park
- Kurt Donaldson Park
- Lehigh Acres Trailhead Park
- Nalle Grade Park
- North Fort Myers Park
- Manatee Park
- Mary Moody Park
- Miramar Park
- Olga Park
- Royal Palm Park
- Rutenberg Park
- Schandler Hall Park
- Shores Nature Trail Park
- Veterans Park
- Wa-Ke Hatchee Park
- Waterway Park

Paddlecraft Launches

- Russel Park Paddle Craft Launch
- Telegraph Creek Paddle Craft Launch

Additionally, the Olga Community Center and Buckingham Community Center will be available for rentals beginning Saturday, Oct. 12.

Upcoming reopenings:

- Monday, Oct. 14:
    - Lehigh Acres Senior Center
    - Karl J. Drews Community Center

- Tuesday, Oct. 15:
    - Lehigh Acres Community Pool
    - North Fort Myers Community Pool
    - San Carlos Park Community Pool

Due to heavy impacts to Lee County's coastal areas, the following sites remain closed:

- **Beach sites**: All county beach park locations throughout Lee Couty Parks & Recreation remain closed.
- **Boca Grande**: All county facilities in Boca Grande remain closed.
- **Pine Island**: All county parks and boat ramps in the Matlacha-Pine Island area are closed.

City of Bonita Springs Hurricane Milton Advisory #13: Post Hurricane Milton Updates

AMERICAN OVERSIGHT

Hurricane Milton caused destructive storm surges in coastal areas of Bonita Springs, along with tornadoes and wind damage throughout the community. City staff continue to assess the damage and clean-up efforts are underway.

Operational Hours and Facility Updates: Bonita Springs City Hall will open Monday October 14th for normal business hours 8am-5pm.

The City of Bonita Springs announces the reopening of Parks and Recreation facilities following the impacts of Hurricane Milton.

The reopened sites have had thorough staff assessments and safety inspections. Staff continue to work throughout the weekend so that sites in addition to the list below can potentially reopen. Please continue to monitor the parks website for more information. The website also lists the addresses, available amenities, and hours of operation for the reopened sites.

These locations opened Oct. 11 for regular operating hours:

Bark n Play Dog Park
Skate Park

These locations will be open to the public with regular operating hours starting today, Oct. 12:

Community Park Outdoor Futsal/Basketball Pavilion
Community Park Tennis Courts
Community Park Playground
Community Park Disc Golf Course
Depot Park Playground (restrooms remain closed)
Riverside Park Bandshell (restrooms remain closed)
Island Park
Bonita Nature Place (Trails remain closed)
Oak Creek Preserve

AMERICAN OVERSIGHT

River Park (boardwalks/boat dock/ Kayak launch remain closed)

Bonita Springs Recreation Center will reopen Monday, Oct. 14th for regular operating hours.

Essential Staff continue to work throughout post-storm efforts.

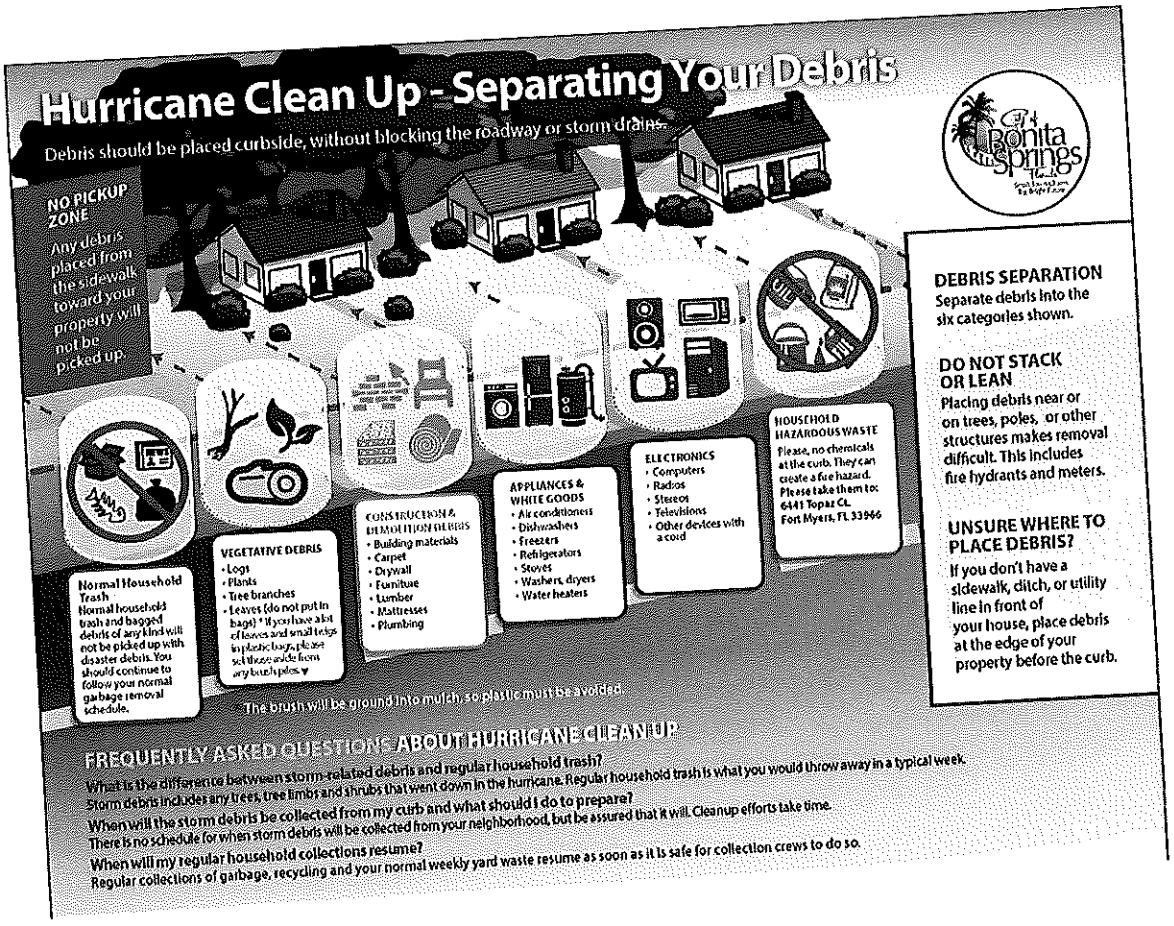
Permitting: Community Development Offices will reopen for normal business hours on Monday, October 14. The City will be waiving permit fees for Hurricane Milton restoration. Bonita Springs Community Development asks that any Bonita Springs residents with water intrusion in their homes post-storm send an email to floodinfo@cityofbonitaspringscd.orgor call 239-444-6150 for assistance with permit requirements and resources. For additional information regarding flooding, please visit the community development website. To find out flood zone information please click here. Follow the City of Bonita Springs on Facebook.

Vehicular access to Hickory Blvd. has been restored. There is still clean up occurring in the Bonita Beach area and motorists should use caution. The City of Bonita Springs has a curfew in place for the Bonita Beach area. The curfew is from 10pm -7am.

Bonita Springs Utilities has rescinded the Precautionary Boil Water Notice

Power and Light: Florida Power and Light (FPL) is working to restore power throughout Lee County. FPL asks that the public stay far away from flooded areas and downed power lines. If you see a downed power line, call FPL at 1-800-468-8243 or 911 if it is an emergency. Please report outages on the FPL Mobile App. Download the FPL app by texting the word "App" to MyFPL (69375).

Storm Debris: The City of Bonita Springs has initiated the recovery process following Hurricane Milton. Debris pickup is underway. City residents, who can safely do so, are asked to place any storm-generated debris on the public right-of-way. The public right-of-way is the area of residential property that extends from the street to the sidewalk, ditch, utility pole or easement. Only loose debris will be collected, bagged



AMERICAN OVERSIGHT

debris should not be placed on the public right-of-way. Make every attempt to avoid stacking debris below low hanging power or utility lines.

Do not place debris within four feet of:

- Mailboxes
- Water Meters
- Fire Hydrant
- Any other above-ground utility

Only debris placed on the public right-of-way will be eligible for collection until further notice. If all debris is not picked up during the initial pass, please continue to push the remaining debris to the right-of-way for collection on subsequent passes.

Lee County announces Hurricane Milton debris public drop-off sites

Sites open Monday, Oct. 14

AMERICAN OVERSIGHT

Residents who have the ability and desire to self-haul Hurricane Milton debris while waiting for roadside pickup can use public drop-off sites. These sites, which will open Monday, Oct. 14, will be for both vegetative and construction and demolition debris.

Be prepared to show identification and be a resident of unincorporated Lee County. Accepted forms of ID include driver's license, utility bill, rental or lease agreement, or local business license. You will be asked to complete a waiver confirming the debris came from your property. Waivers can be found online at https://www.leegov.com/solidwaste/hurricane,or you can receive a form on site.

For residents:

Only storm debris will be accepted, and you must be prepared to unload your trucks yourself. Four locations open Monday with operating hours 7 a.m. to 5 p.m. daily. No more than 5 cubic yards of debris may be dropped off at a time.

- 5031 Pine Island Road, Bokeelia, FL 33922
- 50 South Road, Fort Myers, FL 33907
- 18078 Cypress Point Road, San Carlos Park, FL 33967
- 13801 Orange River Blvd., Buckingham, FL 33905

For businesses –

Lee County commercial businesses are encouraged to take their storm debris to the Waste-to-Energy Facility, 10500Buckingham Road, and will be charged by weight. It will be open regular hours from 6 a.m. to 6 p.m.

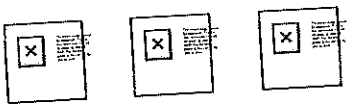
For landscaping companies –

Landscaping companies hauling vegetative storm debris cleared from residential properties will need a signed declaration from the resident indicating the address where the debris was generated. No debris will be accepted without a signed declaration.

AMERICAN OVERSIGHT

Trash pickup reminder –

Lee County Solid Waste garbage collection will resume Monday on the normally scheduled day for all routes in Lee County franchise areas that are accessible to collection trucks. This collection is for household garbage only – everyday trash items and all spoiled food. Collection of recycling will resume at a later time.



Hazardous Waste:

Residents can drop-off household hazardous waste, free of charge, at the Household Chemical Waste and Electronic Recycling Center located at 6441 Topaz Court, Fort Myers.

To receive updates from Lee County Government, sign up for the newsletter here: www.leegov.com/resources/newsletters.Follow Lee County Government on Facebook, www.facebook.com/leecountyflbocc.

Lee County Trash Collections: Regular service will resume Monday, October 14th, 2024, following the regular schedule for all accessible routes within the county's franchise areas. Only put out trash. Recycling and yard waste collections are delayed until October 21st, 2024.

Connect with us: Residents can stay up to date with City information on the City's Facebook page and website City of Bonita Springs. Visit The City of Bonita Springs Website for post-Storm Information. For more information, visit www.cityofbonitasprings.org. Download the city's free mobile app

Sheriffs:
The following are attached:
The Leon S O Sitrep for Taylor County.
The Leon S O Sitrep for Pasco County.
The Watch Log for today is below.

10/12	5:00am D. Brand Sent out the fuel depot location list from last night at 1830 hours. 7:20am Sent out the Leon S O Sitrep for 10/12 AM and the FDLE Sitrep#5 from Friday evening. 7:30am Potential generator donations from New Jersey. Marinoware.com contacted Sheriff Michael Mastronardy, Ocean County Sheriff's Office in New Jersey. Sheriff Mastronardy contacted the FSA via Exec. Director Steve Casey. MMastronardy@co.ocean.nj.us 732-363-8710 Marinowar POC: Clint Valleau Cell: 201-519-3153 cvalleau@marinoware.com ESF-15 contacted at the SEOC. Terri.bennett@em.myflorida.com 917-667-4679 Pasco S O needed information on fuel deliveries. Emergency Manager Andrew Donawa at 727-810-4458. Contacted Mike Wunder at ESF-19 FUELS 786-843-2413 and asked him to call A. Donawa. 8:00am Capt. Kevin Kirkpatrick demobilized the Okaloosa Strike Team from Manatee Mission # 1979/2455 to Hillsborough Mission # 00124. 15 deputies and 4 support personnel. 9:00am Mission # 04282 Diesel fuel delivery to the FSA basecamp at the Tampa Sports Complex at 9330 E. Columbus Dr. Tampa 33619 POC: Major David Baldwin.

AMERICAN OVERSIGHT

Mission # 04282 Wrap-around pump out service for the FSA basecamp facilities located at the Tampa Sports Complex. POC: Major David Baldwin.
TEAMS entry this morning at 6:21am by Major Baldwin (Bay FOT)
BCSO
Via Sheriff Nocco. Arriving fuel trucks for gas stations in Pasco County should call the Pasco S O for directions to the stations. 727-847-5878.

11:20am
The nearest fuel location for the Tampa Airport basecamp is at Raymond James Stadium 4201 N. Dale Mabry Hwy. Tampa
Mission # 04341
Requesting Force Pro for USAR and SWT assets in Pinellas County. 2 alpha and 2 bravo. No FSA strike teams in Pinellas. Reported to the Pinellas S O dispatch. Provided the on-scene POC to dispatch: Dave Carter 954-650-5795.
Update at 1:05pm Pinellas S O Lt. Stibbards called and asked that we call Capt. Matthew, 727-423-1383, to explain what is needed. I walked it over to ESF-4/9, Firefighting, and they will call Capt. Matthew directly. This is one of their Urban Rescue Teams in Pinellas County that is asking for LEOs.
12:15pm The DEM Tropical update for 10/12 was sent out.
1:10pm Jerome Worley, ABT law enforcement chief, 850-508-6059, called and advised that ABT had a new 8-person mobile sleeping quarters trailer for deployment if they are needed. Major Baldwin will check for needs in the FSA areas at their 2:00pm staff meeting.
3:00pm
Mission # 00973. Santa Rosa Strike Team demobilizing from Pasco County and moving to Mission # 00124 in Hillsborough County. Per Major David Baldwin.
4:00pm

Good Morning!

Pelican Bay Weekly Update

The State Of Real Estate in Pelican Bay

AMERICAN OVERSIGHT

Did You Know?

ECONOMY SNAPSHOT.. The S&P 500 and Dow climbed to new highs on Friday, powered by strong earnings results from some of the country's largest financial institutions. The early signs from bank earnings season were reassuring. At both JPMorgan and Wells Fargo, profit fell from a year earlier, but by less than analysts had feared. Both stocks gained more than 4%. While the Federal Reserve's recent rate cut will take time to work its way through the financial system, the results from JPMorgan demonstrated that the nation's biggest bank is motoring along—in turn suggesting the economy is moving at a healthy clip. The banks' reports show that U.S. consumers remain resilient, said Michael Landsberg, chief investment officer of Landsberg Bennett Private Wealth Management. "What you are seeing now is the consumers continue to spend and pay their bills," he said. "That's a good thing for banks and a good thing for the consumer-led economy." Meanwhile, investment heavyweight BlackRock said its assets have grown to a record $11.5 trillion. U.S. indexes rose: The Dow Jones Industrial Average and the S&P 500 climbed to new highs. The Nasdaq Composite gained 0.3%. All three posted weekly gains of more than 1%. (WSJ)

ON TODAY'S DATE... In 1501 Maximilian I of Austria and King of France Louis XII sign the Treaty of Trente. In 1792 "Old Farmer's Almanac" is 1st published and edited by Robert Thomas. In 1960 Opponents of Fidel Castro executed in Cuba. In 1960 Third presidential debate with Nixon in Hollywood & Kennedy in NY. In 1982 IOC Executive Committee approves the reinstatement of Jim Thorpe's

AMERICAN OVERSIGHT

gold medals from the 1912 Olympics. In 2016 American singer-songwriter Bob Dylan is awarded the Nobel Prize for Literature. In 1974 Ed Sullivan American television host (The Ed Sullivan Show), dies of esophageal cancer at 73. In 2021 William Shatner becomes the oldest person to reach space, travelling aboard Blue Origin's New Shepard rocket on a 10 minute flight. (On This Day)

REAL ESTATE NEWS... Click on the link to hear a talk given in 2023 about the general impacts of hurricanes on real estate and the effects in Pelican Bay in Naples. The talk was given after hurricane Ian hit. You will find it very interesting... CLICK HERE TO SEE PRESENTATION

FUN FACT... No number before 1,000 contains the letter A.

QUOTE OF THE DAY... Do one thing every day that scares you. - Eleanor Roosevelt

Your Week in Fort Myers

Sun Oct 13 2024

Wendy Fullerton Powell | VP, Florida Region and Executive Editor
@wendyfullerton

Like me, I am sure many of you had that uneasy feeling as you boarded up and evacuated for Hurricane Milton, not knowing what you'd return to.

That nerve-wracking post-storm drive home is getting old. But I consider myself lucky. I know there were many others who weren't.

AMERICAN OVERSIGHT

This week, we were consumed by coverage of Hurricane Milton, the pre-, the during, and the post-storm impacts.

As I sit here to write this, I have to gush on our team of journalists, who not only covered the storm for you, but lived through it just like you.

As Phil Fernandez reported, it was no Ian, but Milton was a mess nonetheless.

And its effects will linger, not to mention the setbacks it has on the recovery from Hurricane Ian in 2022 and even Helene just a couple weeks before.

It's no wonder there are some who are done, ready to move away.

Doyle Rice explains that this storm had it all: Rain, wind, surge....and tornadoes, lots and lots of tornadoes.

My heart goes out to Liz Kelly. Chad Gillis recounts how she was watching TV in her North Fort Myers mobile home when the roof was ripped off by one of them. It was her son who dove on top of her just before her house crumbled.

And what about Kathryn Tapper? Tom D'Angelo reports that she fled Naples for the east coast thinking she'd be safer and ended up becoming a survivor of a tornado that flipper her car.

Plus, there are the many who lost their lives. We will seek to tell their stories too, as tributes to how they lived their lives as opposed to just that they died in the storm.

AMERICAN OVERSIGHT

These are our family, our friends and neighbors.

We will continue to cover this storm the days and weeks and months ahead.

We'll track the progress of our poor coastal areas who have gotten beaten up again. Visual journalist Ricardo Rolon has been flying the drone in some of the impacted areas and he will have much more to show you in the days ahead.

For many, there is a fight or flight conversation being had. I for one plan to fight for our little piece of paradise. How about you? Email me at wfullert@gannett.com.

All the best,

Wendy Fullerton Powell

USA TODAY Network - Florida Region editor/The News-Press/Naples Daily News

It was no Ian, but Milton a mess nonetheless. Storm surge, power out

AMERICAN OVERSIGHT

Unlike Hurricane Ian, FM Beach reopened for residents within hours after Hurricane Milton left a mess. Water service back on. A lot of clean up to do.

LeeCountyPIO@leegov.com

Lee County Solid Waste reminder for Monday: Hurricane Milton debris cleanup begins and regular garbage pickup resumes

Fort Myers, FL, Oct. 13, 2024 – Lee County Solid Waste garbage collection will resume Monday, Oct. 14, on the normally scheduled day for all routes in Lee County franchise areas that are accessible to collection trucks. This collection is for household garbage only, which includes everyday trash items and all spoiled food.

The county on Monday also will begin Hurricane Milton storm debris pickup throughout the impacted areas of Lee County. Storm debris is collected separately from household garbage. Residents are urged to set out all Milton debris today for the county's contractors to collect.

Use the following guidelines so that work crews can quickly and efficiently remove debris:

- *Most Important* – Please set storm debris at the curb away from your normal weekly garbage service; it will be collected and documented separately.
- Place storm debris at the curb in four separate piles: household garbage, appliances (white goods), yard waste and construction and demolition debris. Federal Emergency Management Agency rules require documentation of the volume and type of debris collected to reimburse the county for storm cleanup, which saves local taxpayer dollars.
- Household garbage must be placed in a 40-gallon can or heavy plastic bag, each weighing no more than 50 pounds. If you have a larger county-provided container for automated garbage collection, you may use that as well.
- Place yard waste in piles that can easily be managed by collection personnel with a claw truck.

AMERICAN OVERSIGHT

- To expedite collection, do not place anything beneath low hanging obstacles like trees or power lines or near anything like fire hydrants or mailboxes.
- Food must be removed from any appliance set at the curb. Inedible food should be placed with your normal weekly garbage.

For private or gated communities –

FEMA regulations require that private or gated communities have a current Right of Entry and Indemnification form on file with Lee County before any disaster debris recovery crews are allowed to enter the community. Lee County has an easy, online process for submitting the necessary paperwork.

Forms are available at for communities located within unincorporated Lee County. If you are unsure if your community has a current Right of Entry form on file, have your community association manager or home-owner association president call 239-533-8000.

Visit www.leegov.com/storm for information and updates. For waste-collection questions, call 239-533-8000.

NOTE TO MEDIA – please continue to share yesterday's Solid Waste release about self-haul debris sites opening to residents Monday. Here it is again below:

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Lee County announces Hurricane Milton debris public drop-off sites

Sites open Monday, Oct. 14

Fort Myers, FL, Oct. 12, 2024 – Residents who have the ability and desire to self-haul Hurricane Milton debris while waiting for roadside pickup can use public drop-off sites. These sites, which will open Monday, Oct. 14, will be for both vegetative and construction and demolition debris.

Be prepared to show identification and be a resident of unincorporated Lee County. Accepted forms of ID include driver's license, utility bill, rental or lease agreement, or local business license. You will be asked to complete a waiver confirming the debris came from your property. Waivers can be found online at https://www.leegov.com/solidwaste/hurricane, or you can receive a form on site.

For residents:

Only storm debris will be accepted, and you must be prepared to unload your trucks yourself. Four locations open Monday with operating hours 7 a.m. to 5 p.m. daily. No more than 5 cubic yards of debris may be dropped off at a time.

- 5031 Pine Island Road, Bokeelia, FL 33922
- 50 South Road, Fort Myers, FL 33907
- 18078 Cypress Point Road, San Carlos Park, FL 33967
- 13801 Orange River Blvd., Buckingham, FL 33905

For businesses –

Lee County commercial businesses are encouraged to take their storm debris to the Waste-to-Energy Facility, 10500 Buckingham Road, and will be charged by weight. It will be open regular hours from 6 a.m. to 6 p.m.

For landscaping companies –

Landscaping companies hauling vegetative storm debris cleared from residential properties will need a signed declaration from the resident indicating the address where the debris was generated. No debris will be accepted without a signed declaration.

Trash pickup reminder –

Lee County Solid Waste garbage collection will resume Monday on the normally scheduled day for all routes in Lee County franchise areas that are accessible to collection trucks. This collection is for household garbage only – everyday trash items and all spoiled food. Collection of recycling will resume at a later time.

AMERICAN OVERSIGHT

Hazardous Waste:

Residents can drop-off household hazardous waste, free of charge, at the Household Chemical Waste and Electronic Recycling Center located at 6441 Topaz Court, Fort Myers.

Monday's Program: The Mighty Mussels

This week, Dan Lauer, VP of Sales and Marketing for the Fort Myers Mighty Mussels professional baseball team will join us to provide an update.

The Fort Myers Mighty Mussels are a Minor League Baseball team of the Florida State League and the Single-A affiliate of the Minnesota Twins. They are located in Fort Myers, Florida, and play their home games at Hammond Stadium, within the Lee Health Sports Complex. The stadium

AMERICAN OVERSIGHT

has a capacity of 7,500 and opened in 1991. The park is also used as the Minnesota Twins' spring training facility.

UPCOMING PROGRAMS AND EVENTS

October 14 - Luncheon - Mighty Mussels and Blood Drive

October 15 - Service Project - Mobile Food Pantry in Pine Manor 9:30am-noon

October 21 - Luncheon - Club Assembly - Membership

October 28 - Molly Deckart - Alliance for the Arts

November 4 - Kari-Jo Koshes - Dutchcrafters

Zoom into our Monday noon club meetings: https://us02web.zoom.us/j/83546451283

Law & Order Ball Postponed to April

LAW & ORDER 2024 BALL

ROTARY CLUB OF FORT MYERS SOUTH

A message from Roger Mercado... As our community recovers from yet another blow by Mother Nature, we find it best to postpone this event. We were looking forward to celebrating the amazing men and women behind the badge but know their attention is on helping our community build back stronger and more resilient than ever. We will have MUCH more to celebrate in 2025!

We have a date reserved in April and will share that information, along with additional details soon.

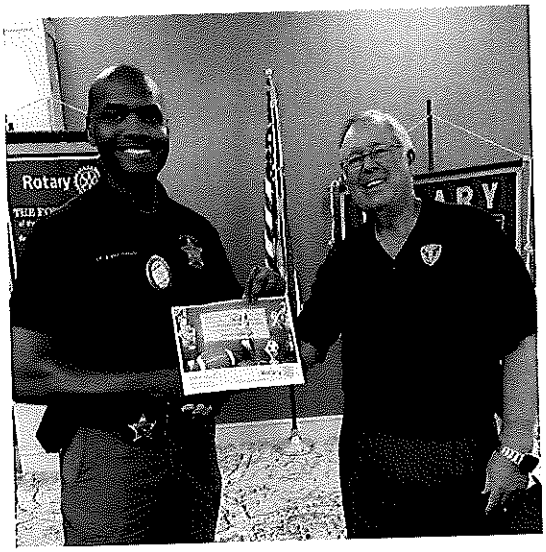
Volunteer and Service Opportunities

Hurricane Milton Relief - District 6960 has identified several areas where volunteers are needed. DG Kelsey Mitchell sent a detailed email on Friday, October 11th outlining what the District's relief efforts have been, and the locations where

AMERICAN OVERSIGHT

you can help. There are two locations within a short distance of South Fort Myers that are ready for volunteers now. The first is located at FISH - 2422 Periwinkle Way, Sanibel. Contact Team Lead - Maria Espinoza 239-271-5441. Also, close by is a Bonita Springs team - no central meeting location. Please contact Team Lead Robyn DeZego 336-918-7243 for address.

Blood Drive, Monday, October 14 - Spend a few minutes of your time and save the life of another person. Your donation through the Lee Health Blood Center will stay in Lee County and benefit local residents and visitors in need. All donors will receive a limited-edition insulated tote bag and wellness checkup including blood pressure, temperature, iron count, and cholesterol screening. CLICK HERE TO SIGN UP. Trouble signing up? Contact Suzi Ward for assistance at 239-834-8643.



Mobile Food Pantry with Community Cooperative, Tuesday, October 15 - We have a service project scheduled on Tuesday, October 14th from 9:30 AM - 12:00 PM. We will be in Pine Manor which is located at 5547 Tenth Avenue, Fort Myers, 33907. Eight (8) or more volunteers are needed. CLICK HERE TO SIGN UP. Contact Suzi Ward with any questions at 239-834-8643.

Roadside Clean Up POSTPONED - The Rotary Road Cleanup which was scheduled for Saturday, October 12, has been postponed to allow the county to remove all the agricultural debris and damaged items following Hurricane Milton. When that is complete, DOT will work with our club to reschedule.

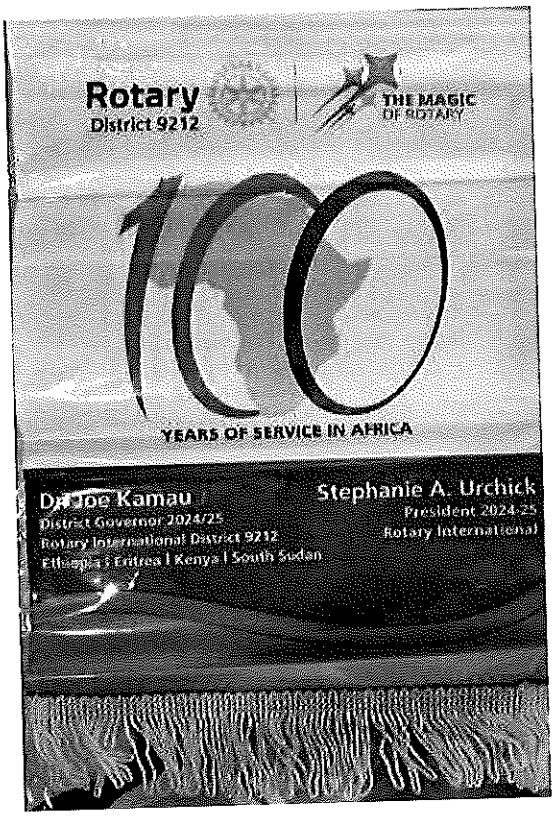
Rotarian of the Month

Congratulations Rotarian of the Month Jevon Matthews! Lt. Matthews is a 16-year veteran with the Lee County Sheriff's Office who coordinates law enforcement relations with local schools. He has also been dedicating many hours recently to volunteering with our Law and Order Ball planning committee.



International Flag Exchange

Our member Dr. Peter Ndiang'ui exchanged our club flag with the Rotary Club of Nairobi Lavington, where it was presented to the President and District Governor. In return, he was sent a Rotary District 9212 flag commemorating 100 years of Rotary service in Africa. If you are traveling and would like one of our club flags to exchange with another club, please check with the front desk at one of our luncheon meetings.

AMERICAN OVERSIGHT

FL-LEE-24-2340-A-003287

Corrections Deputy of the Quarter

Rotary Club of Fort Myers South has recognized LCSO Deputy Jonathan Gerena as Corrections Deputy of the Quarter for going above and beyond his normal duties as a corrections officer. In March 2024, Deputy Gerena was on a transport detail and heard of a bomb threat at Page Field airport. Due to his keen observations skills, he noticed the suspect's vehicle and was able to coordinate with communications. He remained on the scene and rendered assistance resulting in the arrest of the suspect and seizure of weapons, helping avert a potential catastrophe for the citizens of Lee County.

AMERICAN OVERSIGHT

RotaryFL.org District 6960 Disaster Response Website

If you or anyone in your community has been affected, please register any needs you have at RotaryFL.org. This site will also allow you to volunteer to help with relief efforts or make donations when you are able. Your participation is invaluable as we work together to recover and rebuild whatever Hurricane Milton brings.

MISSION AND ESSENCE OF ROTARY

Mission: We provide service to others, promote integrity, and advance world understanding, goodwill, and peace through our fellowship of business, professional, and community leaders.

Core Essence: A worldwide network of inspired individuals who translate their passions into relevant social causes to change lives in communities.

2024-2025 Rotary International President Stephanie Urchick celebrates the magic of Rotary. She says members create that magic with every project completed, every dollar donated, and every new member of Rotary.

Lee County announces additional Hurricane Milton updates for Boca Grande residents

Fort Myers, FL, Oct. 13, 2024 – Lee County Government has additional updates for Boca Grande residents:

- Beginning at noon Monday, Oct. 14, contractors will be able to access Boca Grande. Contractors will need to show identification and some type of documentation that shows they are doing Hurricane Milton-related work for residents.

- Lee County Government asks that residents monitor both Charlotte County and Lee County sheriff's office channels for any updates related to Charlotte County's curfew as it relates to Boca Grande.

- Continue to use caution when driving on Boca Grande.

The county and its partnering agencies appreciate Boca Grande residents' patience as work continues. Questions can be directed to the Lee County Community Coordination Team that is posted on Boca Grande. Email Sergio Perez and Jill Horrom at SPerez@leegov.com or JHorrom@leegov.com. Visit www.leegov.com/storm for more information about Lee County's response to Hurricane Milton.

FOR IMMEDIATE RELEASE

Contact: Betsy Clayton, APR/CPRC
Communications Director
Lee County Government
239-533-0793
LeeCountyPIO@leegov.com

Lee County announces Hurricane Milton updates for Boca Grande residents

Fort Myers, FL, Oct. 12, 2024 – Boca Grande residents are now able to access Gasparilla Island.

The bridge to Boca Grande is safe and has just re-opened, as Lee County DOT and multiple partnering agencies have coordinated to let residents and "home watch" contractors return to the island.

Residents with hurricane tags can cross the bridge to the island. The Lee County Sheriff's Office has staged at the toll plaza monitoring tags and is conducting traffic control. The Boca Grande Fire Control District has personnel at the toll plaza to assist residents who do not have hurricane tags but have documentation (i.e.: utility bills or driver license) to show residency.

In addition to residents and home-watch contractors, those who will be admitted to the island also include county personnel and crews, county repair contractors and emergency personnel.

As motorists return to Boca Grande, the county and its partners urge them to keep in mind this critical information:

- The Boca Grande Causeway has damage to its shoulders on both sides.
  - Use caution and stay in the causeway lanes once you have cleared the toll plaza and bridge.
  - A digital sign has been posted indicating "narrow lanes."
  - It's important to drive carefully on the causeway from the toll plaza toward Boca Grande.
- Many side streets in Boca Grande remain impassable.
  - Main arteries have been drained and cleared as much as possible at this time, and crews continue to work.
  - Many of the side streets and roads contain debris and over-washed sand from Hurricane Milton.
  - Do not drive or walk at night to avoid hazardous conditions that may still exist on some streets.
- Crews need space to work.
  - Once on-island, residents should restrict travel to allow DOT crews and contractors to continue road-clearing and repair work.
- Charlotte County's barrier island curfew impacts Boca Grande.
  - The Charlotte curfew is 9 p.m. to 6 a.m.
  - Lee County Sheriff's deputies will be on site at the toll plaza overnight, and access to the island will be restricted.
  - This will help minimize potential hazards of motorists encountering sand and debris on side streets and some roads.
- Note to residents who live on impassable streets:
  - If your home is on a street that has not yet been cleared and you have to park your car on a main street to walk to your home, be sure to park your vehicle safely off main travel lanes.
  - This will ensure DOT crews and emergency personnel can maintain access for their duties.

The county and its partnering agencies appreciate Boca Grande residents' patience as work continues. Questions can be directed to the Lee County Community Coordination Team that is posted on Boca Grande. Email Sergio Perez or Jill Horrom at SPerez@leegov.com or JHorrom@leegov.com. Visit www.leegov.com/storm for more information about Lee County's response to Hurricane Milton.

Lee County Library System update for Monday: Most libraries to reopen; Hurricane Milton impacts keep three closed

Fort Myers, FL, Oct. 13, 2024 – Lee County Library System operations will reopen for regular business beginning Monday, Oct. 14, although some locations remain unavailable due to storm-related impacts.

The Bonita Springs Public Library, Johann Fust Community Library (Boca Grande) and Captiva Memorial Library remain closed.

Check www.leegov.com/library for available branches and operating hours.

Services at Lee County Library locations include Wi-Fi, computer access, mobile printing and curbside holds pickup service. Patrons are encouraged to call to verify service availability. Due dates and hold pick up dates for physical materials have been extended.

Also resuming service on Monday will be the Telephone and Virtual Reference Services department which can be reached at 239-479-4636 or via live chat, email, and text service. Staff can assist with services, account details and more. Visit Leelibrary.net/help for full contact information.

Visit www.leegov.com/storm for complete Hurricane Milton information. To receive updates from Lee County Government, sign up for the newsletter here: www.leegov.com/resources/newsletters. Follow Lee County Government on Facebook, www.facebook.com/leecountyflbocc.

Optional Attendees:	James Heuglin; Christopher Lalor

Sheriff to fly to Boca Grande for recovery assessment.

Bloomberg News reporter Mike Smith and photog to accompany.

WINK and FOX4 confirmed for meeting Sheriff on ground. Lt. Olmer and Robert driving up and meeting with media at Eldred's Marina to escort onto island.

Aviation X48, one helicopter at headquarters by 11:00 am

Mike Smith- (786)-717-8476 will be arriving to headquarters by 10:30

Talking Points below: (Updated this morning 10/15)

Boca Grande Assessment and Interviews- Talking Points

- Hurricane Milton affected our barrier islands the worst.
- Boca Grande is a true Florida paradise, and a place we're families and Presidents have come to vacation.
- Thankfully, the residents listen to the warning and left the area before the Hurricane. We were incredibly fortunate to have no fatalities.

AMERICAN OVERSIGHT

- The hurricane almost destroyed the only roadway onto the island, washing away the shoulders, buckling the road.
- Our first priority was getting access, and addressing any life-threatening needs.
- We've learned from Hurricane Ian that this much destruction can take time to get roadways clear and assess the infrastructure.
- Multiple utilities like water, sewage, and electricity were exposed and compromised and will need to be repaired/replaced before full road repair.
- Several side streets remain very compromised and closed to vehicle traffic
- My heart goes out to residents who want to return right away, and our goal is to make that happen the second we know it is safe enough.
- I communicated constantly with Charlotte County Sheriff Bill Prummell on the needs of the Boca residents.
- Sunday the curfew was lifted and residents and contractors had full access to the island.
- Now our focus is on rebuilding and supporting the residents.
- With houses broken open, we know the residents are concerned about their belongings. Along with the four deputies who are 24/7 assigned to Boca Grande, 4 additional deputies and supervisors have been brought in protect this paradise.

AMERICAN OVERSIGHT

FL-LEE-24-2340-A-003304

- Our other barrier islands affected by Milton- Pine Island and Matlacha also have post-storm deputies assigned to support the residents.
- Hurricanes are an unfortunate, stressful, and heartbreaking part of our SWFL lives. My LCSO family experiences this side-by-side with our amazing residents and we are here for them in this time of need.

Sen. Rick Scott Shares Hurricane Recovery Resources

Dear Fellow Floridian,

Since Hurricane Milton made landfall on Florida's Gulf Coast and brought massive storm surge, flooding and deadly tornadoes with it, I've traveled across the state to see the damage firsthand, and spoke with families who are starting to pick up the pieces and are just devastated by the damage. Like I told them, you aren't alone and I know this recovery is an all-hands-on-deck approach from our local, state and federal partners. That is why I'm fighting to make sure the **federal government, including the Federal Emergency Management Agency (FEMA), the Small Business Administration (SBA), the Department of Housing and Urban Development**

AMERICAN OVERSIGHT

(HUD), and the United States Department of Agriculture (USDA) all SHOW UP as a partner today, tomorrow and every day until Florida is fully recovered.

On Sunday, I **joined** President Joe Biden and FEMA Administrator Deanne Criswell on the ground in St. Pete Beach, which was completely destroyed by Hurricane Milton. Following Hurricane Helene, I **told** President Biden exactly what is needed to ensure Florida has every federal resource to fully recover from that storm and now Hurricane Milton, I reiterated that in our **call** last week and again today. Here's what I stressed to the president: I'm calling on Schumer to bring the Senate back ASAP when our communities have assessed their needs, which I told the president must be expedited, to pass needed disaster funding for FEMA, SBA and the USDA and approve common sense relief like my ***Federal Disaster Tax Relief Act***.

The president told me he agreed with me on this last week. We must also ensure FEMA opens Disaster Recovery Centers close to the areas hit hardest, so those impacted have easy access to federal resources to recover. Finally, I again stressed to President Biden the importance of USDA immediately approving block grants for our farmers who have been struggling since Ian in 2022. I discussed the same things during my calls on Thursday with **FEMA Administrator** Deanne Criswell and **SBA Administrator** Isabel Casillas Guzman. I'm going to continue fighting like hell to make sure this happens and aid is delivered to families in need.

I know there may be some concerns about what the process will look like for you as you recover from Milton and continue recovering from Helene. I've spoken to FEMA and want you to know, especially as more counties are approved for individual assistance because of Hurricane Milton, you must apply for assistance for Hurricane Helene and Hurricane Milton separately, meaning if you were impacted by more than one storm, you should treat each storm as an individual occurrence when applying for assistance and reporting damage. For more information on the counties available for individual assistance following Hurricane Milton, click **HERE**. For more information on the counties available for individual assistance following Hurricane Helene, click **HERE**. For more information on the counties available for individual assistance following Hurricane Debby, click **HERE**.

There are three ways apply for FEMA assistance:

- **Online by visiting disasterassistance.gov.**
- **Calling 1-800-621-3362.**
- **Download and apply on the FEMA App.**

But remember, you MUST apply for each storm separately. Just because you applied for Helene or Debby assistance does not make you eligible for Milton, so take some time to apply again, and make sure you get every federal resource available to you after this storm, and **if you have any questions at all, please contact my office for help.**

Floridians are resilient, and we will get through this together. My office is committed to making sure Floridians have access to the tools and federal resources necessary to rebuild. If you or someone you know needs help with a federal agency, click **HERE**.

AMERICAN OVERSIGHT

See more about the resources available to you, your family or your businesses as you recover from Hurricane Helene and Hurricane Milton below or click **HERE**.

Sincerely,

Senator Rick Scott

United States Senator

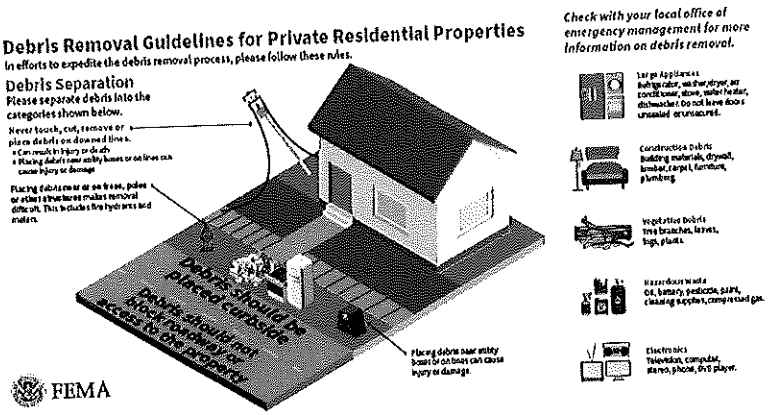
HELPFUL RESOURCES

Federal Emergency Management Agency

On October 11, 2024, President Joseph R. Biden Jr., granted a Major Disaster Declaration for the State of Florida triggering the release of Federal funds to help people and communities recover from Hurricane Milton that began October 5, 2024, and continuing.

For information on Hurricane Milton, click HERE. For information on Hurricane Helene, click HERE. For information on Hurricane Debby, click HERE.



FEMA recommends homeowners and renters affected take the following actions:

- Report any damage to your local emergency management agency.
- Make sure to document any property damage with photos and contact your insurance company for assistance and next steps.
- Keep repair receipts.
- Be aware of safety concerns and separate debris for collection as instructed by local officials.

Housing

Any Floridian in need of assistance with housing, please register for BOTH State and FEMA housing assistance through the links below.

1. To apply for State Housing Program: Hope Florida (hopeflorida.com)
Activate Hope Disaster Assistance Form

Serving as the emergency response arm for the Hope Florida initiative, **Activate Hope** pulls together the private sector, nonprofits, and government resources to help Floridians get back on their feet following a natural disaster. Activate Hope helps connect Floridians with outside resources to provide food, household goods, home repairs, and more. Individuals in need of immediate housing assistance, including FDEM temporary housing trailers, can visit **HERE** or call **1-833-GET-HOPE**.

2. To apply for FEMA Housing Program
FEMA Assistance: Including Housing Assistance

People with damage to their homes or personal property who live in the designated Individual Assistance counties should apply for assistance, which may include upfront funds to help with essential items like food, water, baby formula and other emergency supplies. Funds may also be available to repair storm-related damage to homes and personal property, as well as assistance to find a temporary place to stay.

There are three ways apply for FEMA assistance:

- Online by visiting **disasterassistance.gov**.
- Calling **1-800-621-3362**.
- Download and apply on the **FEMA App**.

AMERICAN OVERSIGHT

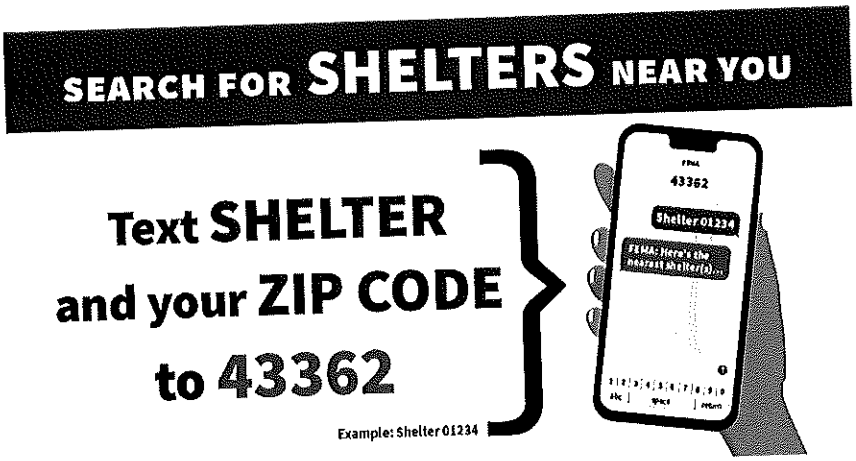
Small Business Administration

Business owners and residents in declared disaster areas can now apply for SBA assistance. To learn more about the disaster assistance available, click **HERE**.

Find a list of SBA's currently active Recovery Centers **HERE**.

Need help with your application?

- Call: **(800) 659-2955**
- Email: **disastercustomerservice@sba.gov**



American Red Cross

If you're searching for a family member affected by the storm, please complete the form at this link for the state where they live: **https://rdcrss.org/3TSmO6K**.

To locate shelters near you, **text "SHELTER" & your zip** to **43362**. You can also visit **http://redcross.org/shelters**.

—

United States Department of Agriculture

The United States Department of Agriculture (USDA) as provided available resources on how to prepare, recover and build long-term resilience during disasters. The Food and Nutrition Service (FNS) has issued flexibilities and waivers to multiple states in response to Hurricanes Milton and Helene, including Florida, which can be found **HERE**.

Agricultural producers are encouraged to contact their local Farm Service Agency county office after they evaluate the impact on their operation. Click **HERE** for resources for farmers, ranchers and other growers who are reporting losses. A list of FSA county offices can be found **HERE**. To learn more about the USDA's response to Hurricane Milton, click **HERE**.

—

Florida Division of Emergency Management

The Florida Division of Emergency Management (FDEM) has outlined all available resources for Floridians and will continue to update as resources become available.

Having a stocked disaster supply kit is vital during Hurricane Season, which runs until November 30th. If you're recovering from Hurricane Milton, please take

AMERICAN OVERSIGHT

advantage of the over 30+ Points of Distributions open in impacted counties! Check locations here: **http://arcg.is/0ff050**.

Visit **HERE** for more information.

Crisis Cleanup

If you need help with damages caused by Hurricane Helene or Hurricane Milton, call Crisis Cleanup: **844-965-1386**.

Volunteer Resources

- Disaster Legal Hotline is open to assist and refer callers. The number is **833-514-2940**
- Samaritan's Purse hotline: **1-833-747-1234**
  - Free Assistance for homeowners affected by the disaster.
  - Volunteers may be able to assist with removal of personal property and furniture, flood cleanup, sanitizing with shockwave treatment, chainsaw work & Debris Clean-up, temporary roof tarping.
- **2-1-1** is open and ready to receive calls
  - Individuals can call for up-to-the-minute information including school closures and sandbag distributions.
  - Local Social Services Referral.
- Red Cross Hotline is open to assist survivors: **1-800-Red Cross**
- Florida Baptists Disaster Relief Public Assistance: **904-253-0502** or text Helene to **27123**
  - Free Assistance for homeowners affected by the disaster.
  - Volunteers may be able to assist with Storm Debris Cleanup, Temporary Roof Tarping, Chainsaw work and Muck outs

Activate Hope Disaster Assistance Form

Serving as the emergency response arm for the Hope Florida initiative, **Activate Hope** pulls together the private sector, nonprofits, and government resources to help Floridians get back on their feet following a natural disaster. Activate Hope helps connect Floridians with outside resources to provide food, household goods, home repairs, and more. **Individuals in need of immediate housing assistance, including FDEM temporary housing trailers, can visit HERE or call 1-833-GET-HOPE.**

—

Florida Commerce

The **Florida Small Business Emergency Bridge Loan** program provides short-term, zero-interest working capital loans that are intended to "bridge the gap" between the time a disaster impacts a business and when a business has secured

AMERICAN OVERSIGHT

longer term recovery funding such as federally or commercially available loans, insurance claims or other resources.

Loans are available up to $50,000 per eligible applicant.

Loans made under this program are short-term, personal loans using State of Florida funds – they are not grants and must be repaid. Florida Small Business Emergency Bridge Loans require repayment by the approved applicant. Owners may utilize funding from longer term financial resources, such as U.S. Small Business Administration economic injury disaster loans, to repay the Emergency Bridge Loan.

—

Florida Department of Agriculture and Consumer Services

The Florida Department of Agriculture and Consumer Services (FDACS) provides state resources for post-storm recovery.

As of October 13, 2024, FDACS has not begun accepting or processing applications for Hurricane Milton. However, if you are an agricultural or aquaculture producer who has experienced damage from Hurricane Helene or Hurricane Debby, you can apply for a Disaster Recovery Loan **HERE**. To check your eligibility or status of your application, click **HERE**.

—

Florida Department of Children and Families

Replacement of Supplemental Nutrition Assistance Program (SNAP) Recipients who lost food due to Hurricane Milton can apply for food replacement by completing the form **HERE**.

To apply, individuals must:

- Be a current SNAP Recipient
- Complete the form by October 19th, 2024.
- Households are required to provide verification of having a power outage of 4 or more hours or damage that caused food loss to their MYACCESS Account, **except for households located** in Charlotte, Citrus, Collier, Desoto, Flagler, Hardee, Hernando, Highlands, Hillsborough, Lake, Lee, Manatee, Pasco, Pinellas, Polk, Putnam, Sarasota, and Volusia.
- **For households in the following counties**, complete the online replacement form and **upload supporting verification** of food loss to your MyACCESS Portal using "Other" as the document type.
    - Brevard, Clay, Duval, Glades, Hendry, Indian River, Marion, Martin, Okeechobee, Orange, Seminole, St. Johns, St. Lucie, and Sumter.

  - Verify contractor licenses by visiting **MyFloridaLicense.com** or call **(866) 532-1440**.

—

After a Storm

- If you were advised to evacuate, do not return home until local emergency managers say it is safe to do so.
- Be mindful of debris and down power lines.
- Do not drive or walk around outside if you do not have to.
- Use extreme caution when operating heavy machinery, generators, or while removing debris. Never use generators indoors and keep them away from windows, doors and vents.

AMERICAN OVERSIGHT

- Stay off roads so that emergency workers are able to get through.
- Do not drive or walk through flood waters. Be aware of downed power lines, standing water and other hidden hazards.

AMERICAN OVERSIGHT

Rick Scott
@SenRickScott

Today, I joined President Joe Biden and FEMA Administrator Deanne Criswell on the ground in St. Pete Beach, which was completely destroyed by Hurricane Milton. Like I said following Hurricane Helene, while I appreciate the president and FEMA Administrator coming to Florida to see the devastation firsthand, Floridians are still hurting from storms years ago, and the federal government needs to show up not just today but every day. Not only did storm surge cause significant issues on the coast, but first responders are still conducting non-stop rescue missions as rising rivers cause inland flooding and tornadoes ripped apart entire communities. This storm, along with Hurricane #Helene, has knocked so many communities down, but Floridians are resilient. Following Hurricane Helene, I told President Biden exactly what is needed to ensure Florida has every federal resource to fully recover from that storm and now Hurricane #Milton, I reiterated that in our call last week and again today. Here's what I stressed to the President: I'm calling on Schumer to bring the Senate back ASAP when our communities have assessed their needs, which I told the president must be expedited, to pass needed disaster funding for FEMA, @SBAgov and the USDA and approve common sense relief like my Federal Disaster Tax Relief Act. The president told me he agreed with me on this last week. We must also ensure FEMA opens Disaster Recovery Centers close to the areas hit hardest, so those impacted have easy access to federal resources to recover. Finally, I again stressed to @POTUS the importance of @USDA immediately approving block grants for our farmers that have been struggling since Ian in 2022. I discussed the same things during my calls on Thursday with @FEMA Administrator @FEMA_Deanne Criswell and SBA Administrator @SBAIsabel Casillas Guzman. I'm going to continue fighting like hell to make sure this happens and aid is delivered to families in need.

Rick Scott
@SenRickScott

Just spoke to @POTUS about the response & recovery to Hurricane #Milton. I told him I am 100% focused on making sure @fema, @SBAgov, @HUDgov & @USDA are fully funded & have boots on the ground until Florida is fully recovered.

Florida is strong & we will rebuild even stronger.

Rick Scott
@SenRickScott

On Oct. 10, 2018, Hurricane Michael devastated our state, but we came together and rebuilt.

Now, six years later, many of us are experiencing that same loss and hurt as we wake up to the damage Hurricane #Milton caused. But just like then, we will come together and recover stronger than ever.

Rick Scott
@SenRickScott

So many Floridians are waking up to unimaginable damage, but we will get through this together. Florida is strong.

I'm working to make sure the federal government shows up for Florida, but we need you to stay safe. Listen to local officials. It's still dangerous out there.

Rick Scott
@SenRickScott

On #NationalFarmersDay, I can't help but think about Florida's farmers and producers all across our state who were impacted by recent hurricanes.

I've been fighting to make sure the @USDA shows up, is fully funded for disaster aid and delivers aid to Florida in block grants for much-needed relief, and I won't stop until we get it done.

Good morning SWFPCA members,

I hope you all did ok during the storm. Naples Police Department has offered their therapy dog if you would like a visit from a 4 legged officer to boost the morale of members in your department. The Punta Gorda Police Department also has a therapy dog and we are extending the same offer. Please let me or Chief Dominguez know if you would like the visit. If anyone needs any other assistance, let me know.

Thanks, Pam

Pam,
I pray you all are recovering well from the storm - Milton. Do you or any of the communities impacted need assistance in the form of a crisis care therapy dog. We have a phenomenal handler, Corporal Jeff Perry and his canine partner crisis care dog Max. We could send up the team and visit with the impacted community/agency offer some support.

Subject: Mission 3070-Manatee (Holmes Beach)

Mission 3070 – ON SCENE - Holmes Beach Police is requesting additional law enforcement resources to supplement their police department for 14 days, A/B shift starting as soon as possible.
Need 3 officers with patrol vehicles for 12-hour shifts for day shift 0600-1800 hrs. These officers would be used to patrol the city and provide additional law enforcement presence.
4 officers with patrol vehicles for nightshift 1800-0600. These officers would be used to patrol the city and provide additional law enforcement presence. One bravo shift officer would be posted at the Manatee Ave bridge checkpoint to keep cars from entering the island after curfew.
Prefer the officers to be self-sufficient but can provide fuel and food and use of the police station. We have portable radios that the officers can use.

AMERICAN OVERSIGHT

We hope you and your loved ones are safe as our community begins the road to recovery following Hurricane Milton. Once again, our strength and resilience are being tested, and our thoughts are with all those affected.

At Cushman & Wakefield | Commercial Property Southwest Florida, we are here to support you during this challenging time. We understand the immediate concerns regarding property damage, operational disruptions, and the safety of your teams. To assist you, we've compiled a list of essential resources to help guide you through the recovery process:

Key Resources for Hurricane Recovery:

- **FEMA Disaster Assistance**: Apply for federal disaster aid for property damage, losses, and repairs.
- **SBA Disaster Loans**: Low-interest disaster loans available for businesses, property owners, and renters.
- **FloridaDisaster.org**: Stay informed with the latest recovery efforts, services, and updates.
- **Emergency Partnerships**: Cushman & Wakefield | CPSWFL is a preferred partner for Fireservice. Fireservice has a 24/7 emergency response team, and they are prepared to assist us will all mitigation needs no matter the size. This means we are top of the list when we call. If you need assistance, we are ready to support you. Please call your property manager if you are in need these services. This partnership along with many more allows us to help you as quickly and as efficiently as possible to get you back to business as usual.

In the wake of Hurricane Milton, our top priority at Cushman & Wakefield | Commercial Property Southwest Florida is to serve you—our valued clients, partners, and the community. We are actively working to assess properties, address repairs, and ensure the safety of all our tenants. Our dedicated team is here to provide support during this challenging time, and we are committed to assisting you every step of the way as we recover and rebuild together.

For any immediate concerns or assistance, please contact us at 239.489.3600 or email us at **info@CPSWFL.com**.

Thank you for your trust and patience as we navigate this recovery process.
We are here for you.

AccuDock

Our hearts are devastated by the loss of so many lives, homes, and businesses from Hurricanes Helene and Milton. Currently our focus is on helping those affected get through this difficult time.

At AccuDock we are prioritizing customers with dock damage and individuals in need of a new dock. We'll be offering a 25% discount on all floating dock and gangway purchases to those who were impacted by the storms or need replacements. Additionally, we are prioritizing these orders in our production schedule to ensure a timely turnaround. Our main goal is to get everyone who has been impacted operational as soon as possible.

We're in this together!

Sheriff to fly to Boca Grande for recovery assessment.

Bloomberg News reporter Mike Smith and photog to accompany.

WINK and FOX4 confirmed for meeting Sheriff on ground. Lt. Olmer and Robert driving up and meeting with media at Eldred's Marina to escort onto island.

Aviation X48, one helicopter at headquarters by 11:00 am

Mike Smith- (786)-717-8476 will be arriving to headquarters by 10:30

Talking Points below: (Updated this morning 10/15)

Boca Grande Assessment and Interviews- Talking Points

- Hurricane Milton affected our barrier islands the worst.
- Boca Grande is a true Florida paradise, and a place we're families and Presidents have come to vacation.
- Thankfully, the residents listen to the warning and left the area before the Hurricane. We were incredibly fortunate to have no fatalities.

AMERICAN OVERSIGHT

- The hurricane almost destroyed the only roadway onto the island, washing away the shoulders, buckling the road.
- Our first priority was getting access, and addressing any life-threatening needs.
- We've learned from Hurricane Ian that this much destruction can take time to get roadways clear and assess the infrastructure.
- Multiple utilities like water, sewage, and electricity were exposed and compromised and will need to be repaired/replaced before full road repair.
- Several side streets remain very compromised and closed to vehicle traffic
- My heart goes out to residents who want to return right away, and our goal is to make that happen the second we know it is safe enough.
- I communicated constantly with Charlotte County Sheriff Bill Prummell on the needs of the Boca residents.
- Sunday the curfew was lifted and residents and contractors had full access to the island.
- Now our focus is on rebuilding and supporting the residents.
- With houses broken open, we know the residents are concerned about their belongings. Along with the four deputies who are 24/7 assigned to Boca Grande, 4 additional deputies and supervisors have been brought in protect this paradise.

AMERICAN OVERSIGHT

- Our other barrier islands affected by Milton- Pine Island and Matlacha also have post-storm deputies assigned to support the residents.
- Hurricanes are an unfortunate, stressful, and heartbreaking part of our SWFL lives. My LCSO family experiences this side-by-side with our amazing residents and we are here for them in this time of need.

Household chemical waste collection event scheduled for Pine Island to assist with Milton cleanup efforts

Fort Myers, FL, Oct. 14, 2024 – Pine Island residents will be able to safely and responsibly dispose of household chemical waste such as leftover paints, cleaners, herbicides, pesticides, automotive fluids and pool chemicals on Saturday, Oct. 19.

The collection event will be held from 9 a.m. to 1 p.m. at Phillips Community Park, 5675 Sesame Drive. Drop-off is an easy, drive-through process available to all residents at no charge.

Businesses that need chemical waste disposal can call MXI Environmental Services at 276-477-0947 to schedule an appointment for the monthly business collection held at the county's permanent Household Chemical Waste drop-off location, 6441 Topaz Court, Fort Myers.

Lee County Solid Waste reminds residents to be aware of proper battery disposal. Please bring all rechargeable or lithium-ion batteries to the collection event or to the Topaz Court facility. Do not throw rechargeable batteries in with your regular garbage service.

An increasing number of products contain lithium-ion batteries, which can be hazardous when disposed of improperly. Lithium-ion batteries are found in these common products along with others:

- Electronic devices, such as mobile phones, laptops, tablets and Bluetooth devices
- Power tools
- Game controllers
- Digital cameras
- Portable power packs
- Greeting cards
- Electric toothbrushes
- Toys
- E-bikes, e-scooters and hover boards

Lee County to open temporary permitting office at Pine Island Public Library

Office will help residents to obtain permits for repairs to Hurricane Helene- and Hurricane Milton-damaged buildings

Fort Myers, FL, Oct. 14, 2024 – The Lee County Department of Community Development will open a temporary, remote permit office at the Pine Island Public Library, 10701 Russell Road, Bokeelia, beginning Oct. 16 to allow residents to obtain permits for repairs to existing buildings damaged by Hurricane Helene and Hurricane Milton.

The remote location means staff will be readily accessible to help island residents navigate the permit process, especially those residents without internet service.

The remote permit office will be open Tuesdays, Wednesdays and Fridays through the end of October. Hours at the remote permit office will be 10 a.m. to 3 p.m. (Note: It will not be open on Tuesday this week, because it does not start until Wednesday, Oct. 16.)

Residents acting as their own contractor can submit permit applications, have them reviewed and – in some cases – issued from the remote office. The applicants need only a description of the work and their address, and staff will walk them through the process.

Hired contractors are asked to continue to use the existing electronic permitting process. Residents seeking a full demolition or complete replacement of a structure still need to visit the main Department of Community Development permitting office at 1500 Monroe St., Fort Myers.

Lee County Government is reminding residents in unincorporated areas to pull permits for work on their homes to repair storm damage caused by Hurricane Helene.

Any unincorporated Lee County residents or businesses within the Special Flood Hazard Area with any damage to their homes or businesses, including water intrusion, must obtain a permit for all repairs. Email FIRMinfo@leegov.com for assistance with permit requirements and resources, and be sure to include the following information:

AMERICA OVERSIGHT

- Contact information
- Property address
- Type of damage
- Height of the water that entered the home

Residents also can find more information at www.leegov.com/dcd/BldPermitServ/disaster-recovery or by calling 239-533-8948.

The county may add additional temporary, remote permitting office locations elsewhere in unincorporated Lee County as needed.

Lee County Commissioners to receive Hurricane Milton update at regularly scheduled meeting

Fort Myers, FL, Oct. 14, 2024 – The Lee Board of County Commissioners will be provided an update regarding Hurricane Milton during the regularly scheduled Lee Board of County Commissioners meeting at 9:30 a.m. Tuesday, Oct. 15.

"Hurricane Milton Update" is listed under County Manager Items on the agenda recap and will be part of the public meeting. The agenda can be found at https://leecofl.portal.civicclerk.com/.

Residents can view the meeting and update various ways:

- Watch live: The meeting will be streamed live on LeeTV, YouTube and Facebook Live. You can also watch it live at www.leegov.com/LeeTV.
- Watch after: The meeting video will be available on YouTube after it ends.
- Attend: Regularly scheduled Board meetings are held in Board Chambers in the Old Lee County Courthouse, 2120 Main St., Fort Myers.

Sheriffs,

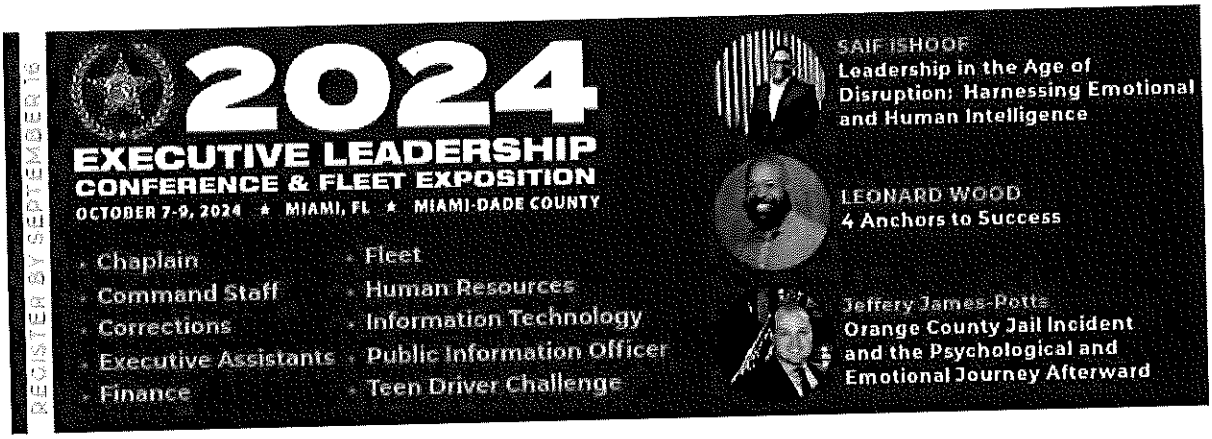
AMERICAN OVERSIGHT



The House Ethics, Elections & Open Government Subcommittee and the Senate Committee on Regulated Industries are conducting a review of ss. 119.071(3)(e) and 286.0113(4), F.S., regarding public record and public meeting exemptions for 911, E911, and public safety radio communication infrastructure, under the Open Government Sunset Review Act (s. 119.15, F.S.). The exemptions under review will automatically repeal on October 2, 2025, unless reenacted by the Legislature. As part of their review, House and Senate staff have jointly drafted the attached questionnaire.

If you could please complete the questionnaire by **October 18, 2024**, House and Senate staff would greatly appreciate it.

Please email the completed questionnaire to Lexi Rando at lexi.rando@myfloridahouse.gov and Kurt Schrader at schrader.kurt@flsenate.gov.

Than you for your assistance.

September 18, 2024

Open Government Sunset Review Questionnaire
(Public Records and Meetings regarding 911, E911, or Public Safety Radio Communication Systems)

PLEASE RETURN THIS QUESTIONNAIRE BY OCTOBER 18, 2024, TO BOTH:

Kurt Schrader
Senior Attorney
Senate Committee on Regulated Industries
Email: Schrader.Kurt@flsenate.gov
Phone: (850) 487-5957

Lexi Rando
Legislative Research Assistant
House Ethics, Elections & Open Government Subcommittee
Email: EthicsElections&OpenGovernmentSubcommittee@myfloridahouse.gov
Phone: (850) 717-4890

The staff of the Senate Regulated Industries Committee and the House of Representatives Ethics, Elections & Open Government Subcommittee are conducting a review under the Open Government Sunset Review (OGSR) Act of ss. 119.071(3)(e) and 286.0113(4), F.S.

In 2020, the Legislature created public record exemptions in s. 119.071(3)(e), F.S., for the following information:

- Building plans, blueprints, schematic drawings, and diagrams, including draft, preliminary, and final formats, which depict the structural elements of 911, E911, or public safety radio communication system infrastructure, including towers, antennae, equipment or facilities used to provide 911, E911, or public safety radio communication services, or other 911, E911, or public safety radio communication structures or facilities owned and operated by an agency.[1]
- Geographical maps indicating the actual or proposed locations of 911, E911, or public safety radio communication system infrastructure, including towers, antennae, equipment or facilities used to provide 911, E911, or public safety radio services, or other 911, E911, or public safety radio communication structures or facilities owned and operated by an agency.

Also, in 2020, the Legislature created a public meeting exemption in s. 286.0113(4), F.S., for any portion of a meeting that would reveal the above information, as well as a public record exemption for any recordings or transcripts of the exempt meetings.

The public record and public meeting exemptions stand repealed on October 2, 2025, unless reviewed and saved from repeal by the Legislature under the OGSR Act (section 119.15, F.S.).

---

[1] Per s. 119.011(2), F.S., an "agency," under Florida's public records law in ch. 119, F.S., includes "any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency."

AMERICAN OVERSIGHT

To assist committee staff as part of their review of these exemptions, please complete this questionnaire. Copies of ss. 119.071(3)(e) and 286.0113(4), F.S., are appended for your convenience.

Name of Agency Completing the Questionnaire:
Name and Title of Person Completing the Questionnaire:
Telephone Number of Person Completing the Questionnaire:
E-mail Address of Person Completing the Questionnaire:

I. Public Record Exemptions regarding 911, E911, or Public Safety Radio Communication Systems

1. Does your agency own and operate 911, E911, or public safety radio communication services? If "*yes*," please describe.

2. Whom does your agency believe these public record exemptions affect?

3. Please describe the information or types of records affected by these public record exemptions.

4. Can the protected information be readily obtained by alternative means? If "*yes,*" please explain.

5. In 2023, SB 1418 was signed into law making significant changes to chapter 365, Florida Statutes— Florida's emergency communications law. In light of these changes, or in light of any technological development or changes in terminology in the industry, does your agency believe that any revisions to the public record exemptions under review should be made?

6. Does any other Florida or federal law protect the information identified in the exemptions? If "*yes*":

   a. Please provide the specific Florida or federal citation for each exemption.

   b. Please explain which exemption your agency relies upon when responding to a public records request that includes the protected information.

   c. In your agency's opinion, could the public record exemptions under review be merged with any other exemption(s)? If *"yes,"* please explain and include the Florida citation of the exemption that could be merged with the public record exemptions under review.

7. Is your agency aware of any ongoing litigation, existing case law, administrative orders, or Attorney General opinions involving the exemptions under review? If "*yes*," please provide the appropriate citation(s).

8. Has your agency, pursuant to s. 119.071(3)(e)3., F.S., ever released the information covered by these public records exemptions? If "*yes,*" please explain.

AMERICAN OVERSIGHT

9. Which of the following actions does your agency recommend the Legislature take regarding the public record exemptions (please select one):

☐ Repeal the public record exemptions
☐ Reenact the public record exemptions as is
☐ Reenact the public record exemptions with changes (*if selected please explain below*)

10. Please provide any additional comments your agency may have regarding the public record exemptions under review.

II. Public Meeting Exemptions for Certain Meetings regarding 911, E911, or Public Safety Radio Communication Systems

1. Does your agency hold meetings in which any of the exempt information discussed in Part I of this questionnaire is discussed?

2. What types of meetings held by your agency are affected by the exemptions?

3. Is your agency aware of any ongoing litigation, existing case law, administrative orders, or Attorney General opinions involving the public meeting exemptions? If "*yes*," please provide the appropriate citation(s).

4. Does any other Florida or federal law protect the meetings described in the exemptions? If "*yes*,":

   a. Please provide the specific Florida or federal citation for each exemption.

   b. Please explain which exemption(s) your agency relies upon when closing a public meeting.

   c. In your agency's opinion, could the public meeting exemptions under review be merged with any other exemption(s)?

5. Which of the following actions does your agency recommend the Legislature take (please select one):

   ☐ Repeal the public meeting exemptions
   ☐ Reenact the public meeting exemptions as is
   ☐ Reenact the public meeting exemptions with changes (*if selected, please explain below*)

6. Please provide any additional comments your agency may have regarding the public meeting exemptions.

AMERICAN OVERSIGHT

2024 Florida Statutes

PUBLIC RECORD AND PUBLIC MEETING EXEMPTIONS UNDER REVIEW

119.071 General exemptions from inspection or copying of public records.

(3)(e)1.a. Building plans, blueprints, schematic drawings, and diagrams, including draft, preliminary, and final formats, which depict the structural elements of 911, E911, or public safety radio communication system infrastructure, including towers, antennae, equipment or facilities used to provide 911, E911, or public safety radio communication services, or other 911, E911, or public safety radio communication structures or facilities owned and operated by an agency are exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

b. Geographical maps indicating the actual or proposed locations of 911, E911, or public safety radio communication system infrastructure, including towers, antennae, equipment or facilities used to provide 911, E911, or public safety radio services, or other 911, E911, or public safety radio communication structures or facilities owned and operated by an agency are exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

2. This exemption applies to building plans, blueprints, schematic drawings, and diagrams, including draft, preliminary, and final formats, which depict the structural elements of 911, E911, or public safety radio communication system infrastructure or other 911, E911, or public safety radio communication structures or facilities owned and operated by an agency, and geographical maps indicating actual or proposed locations of 911, E911, or public safety radio communication system infrastructure or other 911, E911, or public safety radio communication structures or facilities owned and operated by an agency, before, on, or after the effective date of this act.

3. Information made exempt by this paragraph may be disclosed:

a. To another governmental entity if disclosure is necessary for the receiving entity to perform its duties and responsibilities;

b. To a licensed architect, engineer, or contractor who is performing work on or related to the 911, E911, or public safety radio communication system infrastructure, including towers, antennae, equipment or facilities used to provide 911, E911, or public safety radio communication services, or other 911, E911, or public safety radio communication structures or facilities owned and operated by an agency; or

c. Upon a showing of good cause before a court of competent jurisdiction.

4. The entities or persons receiving such information must maintain the exempt status of the information.

5. For purposes of this paragraph, the term "public safety radio" is defined as the means of communication between and among 911 public safety answering points, dispatchers, and first responder agencies using those portions of the radio frequency spectrum designated by the Federal Communications Commission under 47 C.F.R. part 90 for public safety purposes.

6. This paragraph is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2025, unless reviewed and saved from repeal through reenactment by the Legislature.

AMERICAN OVERSIGHT

286.0113 General exemptions from public meetings.

(4) (a) Any portion of a meeting that would reveal building plans, blueprints, schematic drawings, or diagrams, including draft, preliminary, and final formats, which depict the structural elements of 911, E911, or public safety radio communication system infrastructure, including towers, antennae, equipment or facilities used to provide 911, E911, or public safety radio communication services, or other 911, E911, or public safety radio communication structures or facilities made exempt by s. 119.071(3)(e)1.a. is exempt from s. 286.011 and s. 24, Art. I of the State Constitution.

(b) Any portion of a meeting that would reveal geographical maps indicating the actual or proposed locations of 911, E911, or public safety radio communication system infrastructure, including towers, antennae, equipment or facilities used to provide 911, E911, or public safety radio communication services, or other 911, E911, or public safety radio communication structures or facilities made exempt by s. 119.071(3)(e)1.b. is exempt from s. 286.011 and s. 24, Art. I of the State Constitution.

(c) No portion of an exempt meeting under paragraph (a) or paragraph (b) may be off the record. All exempt portions of such meeting shall be recorded and transcribed. Such recordings and transcripts are confidential and exempt from disclosure under s. 119.07(1) and s. 24(a), Art. I of the State Constitution unless a court of competent jurisdiction, after an in camera review, determines that the meeting was not restricted to the discussion of the information made exempt by s. 119.071(3)(e)1.a. or b. In the event of such a judicial determination, only that portion of the recording and transcript which reveals nonexempt information may be disclosed to a third party.

(d) For purposes of this subsection, the term "public safety radio" is defined as the means of communication between and among 911 public safety answering points, dispatchers, and first responder agencies using those portions of the radio frequency spectrum designated by the Federal Communications Commission under 47 C.F.R. part 90 for public safety purposes.

(e) This subsection is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2025, unless reviewed and saved from repeal through reenactment by the Legislature.

AMERICAN OVERSIGHT

Hurricane Milton Update

Dear Friend of Pace,

I hope this message finds you safe and well. As you know, Hurricane Milton recently swept through Florida, just two weeks after Hurricane Helene devastated the state. Our hearts are with those who suffered significant losses from these storms. We are incredibly grateful that all of our Pace team members, girls, and their families are safe and accounted for, and our preparations to protect our Centers proved effective against both Milton and Helene. While many of our staff, girls, and families are still without power, we are thankful that our Centers did not sustain significant damage.

At Pace, we serve thousands of girls across 21 centers in Florida, and we are working tirelessly to support them and their families in the aftermath of these storms. However, the need is overwhelming, and we can't do it alone. That's why we are reaching out to you—your help is crucial in providing immediate relief to those still without basic resources.

Your donation can make an immediate and tangible impact, helping us provide essentials such as food, shelter, and power support to families in need. You can donate directly to support these efforts by visiting **www.pacecenter.org**. Every gift, no matter the size, helps us reach more families and ensures that our girls continue to receive the care and support they need during this challenging time.

In addition to supporting the girls and their families, we have established the **PaceCares Employee Assistance Fund** to help our staff who are also facing difficulties due to the storms. You can contribute to the fund through America's Charities by clicking here: **Donate Now | America's Charities**. Contributions to this fund are completely confidential—Pace is not informed of who applies or donates, ensuring that those in need can receive help anonymously.

Your generosity will bring hope, relief, and critical support to the girls, families, and staff affected by these hurricanes. Together, we can make a meaningful difference in their lives.

Thank you for standing with us in this time of need.

Mary Marx

CENTERSTONE

Ribbon Cutting Postponed

We hope this message finds you safe and well. In light of the challenges many in our community are facing following Hurricane Milton, we've decided to reschedule our ribbon-cutting ceremony. We want to give everyone the time and space they need to focus on recovery and well-being.

We will send out a new invitation once the details are confirmed for the rescheduled date, and we look forward to gathering with you at a better time.

Thank you for your understanding, and we hope you're staying safe.

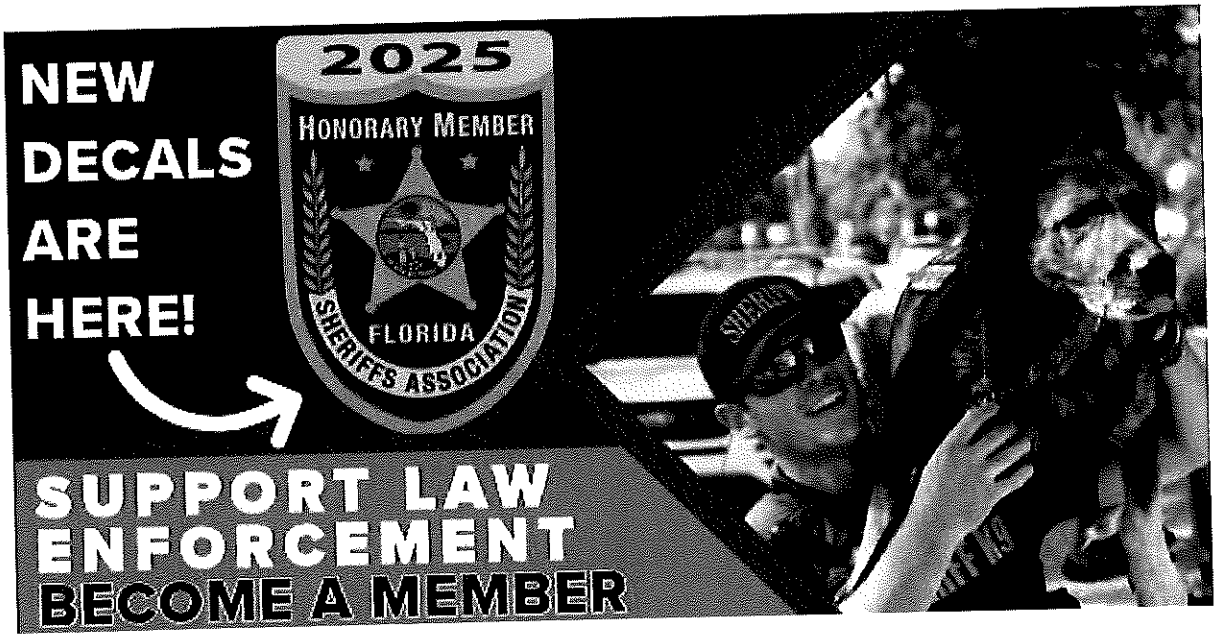
Sheriffs,



Attached is the FDLE Situational Report and below is the daily Watch Log:

10/14	8:00am S. Cole FSA Desk 8:10am contact made with FOT Commander Major Baldwin (Bay SO). • The response teams from Brevard SO, Escambia SO, and Ramsay SO (MN) will work ALPHA Shift and a mundified shortened BRAVO shift in Hillsborough. These 3 agencies will be completed this evening and will demobilize tomorrow 10/15. • Current plan for Bay SO, Okaloosa SO, and Santa Rosa SO is to work ALPHA Shift and a modified BRAVO shift on Tuesday 10/15, and they intend to demobilize on Wednesday 10/16 (unless needs change) • Collier SO and Leon SO are still operating in Pasco County and will reevaluate future needs mid-week. 8:20am Task Force Chair Sheriff Ford reports that he is currently working with the regional chairs to determine the needs in Taylor County from Helene and to provide support if needed. 8:30am Contact was made with Sgt. Pittman from Leon SO and he advises that they are not using the basecamp at Tampa Airport. Both Leon SO and Collier SO are camped at the Land O Lake Recreation Center: 3032 Collier Pkwy, Land O' Lakes, FL 34639 8:40am Field reports distributed: • Leon SO Situational Report from Taylor County • Leon SO Situational Report from Pasco County • Hillsborough Task Force deployment assignment sheet and operational briefing. 9:00am assisted Lieutenant Adam Smotrich from Pinellas Park PD 727-408-1293 with finding a FPCA Mission number relating to a response to Treasure Island PD for Hurricane Helene.

AMERICAN OVERSIGHT

	10:00am FDLE ESF16 Partners Call. Replenishing fuel for the public continues to be an issue and LE escort missions continue. This call will continue daily. 11:00am Mission 04837 was created for Hurricane Helene. Citrus SO will be relieving Leon SO in Taylor County for Law Enforcement support through 10/30. 11:40am Assisted Sheriff Butler (Dixie) with an inquiry he received relating to Mission 04196/Helene. 1:30pm Mission 973, Pasco SO has requested that Leon SO demobilize on Thursday 10/17. Collier SO's assignment will be evaluated and could potentially demobilize on 10/18. 2:20pm Tropical Update Report distributed. 4:00pm Mission Supports missions created for mission 4837 Citrus SO to Taylor, mission 4847 for bunk house and mission 4849 for wrap around services for camp. The camp location will be at: 15360 Beach Road, Perry, FL 32348

Optional Attendees:	James Heuglin; Christopher Lalor

Sheriff to fly to Boca Grande for recovery assessment.

Bloomberg News reporter Mike Smith and photog to accompany.

WINK and FOX4 confirmed for meeting Sheriff on ground. Lt. Olmer and Robert driving up and meeting with media at Eldred's Marina to escort onto island.

Aviation X48, one helicopter at headquarters by 11:00 am

Mike Smith- (786)-717-8476 will be arriving to headquarters by 10:30

Talking Points below: (Updated this morning 10/15)

Boca Grande Assessment and Interviews- Talking Points

- Hurricane Milton affected our barrier islands the worst.
- Boca Grande is a true Florida paradise, and a place we're families and Presidents have come to vacation.
- Thankfully, the residents listen to the warning and left the area before the Hurricane. We were incredibly fortunate to have no fatalities.

AMERICAN OVERSIGHT

- The hurricane almost destroyed the only roadway onto the island, washing away the shoulders, buckling the road.
- Our first priority was getting access, and addressing any life-threatening needs.
- We've learned from Hurricane Ian that this much destruction can take time to get roadways clear and assess the infrastructure.
- Multiple utilities like water, sewage, and electricity were exposed and compromised and will need to be repaired/replaced before full road repair.
- Several side streets remain very compromised and closed to vehicle traffic
- My heart goes out to residents who want to return right away, and our goal is to make that happen the second we know it is safe enough.
- I communicated constantly with Charlotte County Sheriff Bill Prummell on the needs of the Boca residents.
- Sunday the curfew was lifted and residents and contractors had full access to the island.
- Now our focus is on rebuilding and supporting the residents.
- With houses broken open, we know the residents are concerned about their belongings. Along with the four deputies who are 24/7 assigned to Boca Grande, 4 additional deputies and supervisors have been brought in protect this paradise.

AMERICAN OVERSIGHT

- Our other barrier islands affected by Milton- Pine Island and Matlacha also have post-storm deputies assigned to support the residents.
- Hurricanes are an unfortunate, stressful, and heartbreaking part of our SWFL lives. My LCSO family experiences this side-by-side with our amazing residents and we are here for them in this time of need.

LeeCountyPIO@leegov.com

Lee County updates residents on Hurricane Milton debris cleanup efforts

Fort Myers, FL, Oct. 15, 2024 – Debris collection from Hurricane Milton is underway, and the county's disaster debris contractor currently has multiple trucks with loadable trailers on the road.

The first pass to pick up debris began Monday and covered areas of unincorporated Lee County, including North Fort Myers, the Greater Pine Island-Matlacha area and areas along the Caloosahatchee to Olga. Today, the county's contractor will be in Island Park in south Fort Myers as well.

Lee County would like to remind residents:

- Separate your waste into three piles - vegetative debris, construction debris and appliances. Please remove any food from appliances and secure or remove doors before setting curbside. Debris should not be placed in black bags – instead, stack in neat piles or containerize your material.
- Household chemical waste (HCW) should not be set at the curb. Take these materials to the permanent HCW drop-off facility at 6441 Topaz Ct., Fort Myers. Lee County's mobile HCW truck will be located at Phillips Park on Pine Island from 9 a.m. to 1 p.m. Saturday, Oct. 19, for easy resident drop-off.
- Normal garbage collection has resumed and takes place on your regular collection day. The focus this week is to remove wet trash and spoiled food.
- Recycling and yard waste collection are currently suspended. Lee County will announce when regular collections resume by the end of this week.
- Lee County has four public drop-off sites available to residents who would like to self-haul debris or yard waste rather than wait for curbside pickup:
    - 5031 Pine Island Rd., Bokeelia, FL 33922
    - 50 South Rd., Fort Myers, FL 33907
    - 18078 Cypress Point Rd., San Carlos Park, FL 33967
    - 13801 Orange River Blvd., Buckingham, FL 33905

AMERICAN OVERSIGHT

Hi Carmine,

Thank you for being a part of our community. As we continue to expand our resource library – we want to take the time to highlight new content.

Our latest blog post, Tackling Emergency Response When Facing Large Scale Disasters like Hurricane Helene, dives deep into the challenges and solutions for communities grappling with severe weather events.

In this post, we explore:

- **The Growing Threat of Hurricanes**: Understanding the increasing frequency and intensity of storms and their impact on emergency communication.
- **The Need for Modern Technology**: How outdated systems can hinder public safety and the crucial role of mass notification systems in saving lives.
- **Real-Life Challenges**: Insights from officials like Mayor Zeb Smathers of Canton, NC, on the devastating effects of inadequate communication during disasters.

AMERICAN OVERSIGHT

- **Advanced Solutions**: See how innovative technologies can enhance emergency management, streamline evacuations, and improve real-time decision-making.

Read the full blog post here to learn more about how we can build resilience against large-scale disasters.

Stay safe and prepared,

Lucy Temprano

Hurricane Milton Update

Good Afternoon Lee County Businesses,

Lee County is working diligently to help those who have been impacted by Hurricane Milton. Please complete this brief survey to track economic and physical impacts to your business.

Business Impact Assessment Survey

Florida Small Business Emergency Bridge Loan Program

The Florida Small Business Emergency Bridge Loan Program makes $50,000 available per eligible businesses impacted by Hurricane Milton. Florida small business owners in need of assistance are encouraged to visit www.FloridaJobs.org/EBL to apply.

SBA Economic Injury and Physical Damage Loan

AMERICAN OVERSIGHT

You can apply for an SBA Loan at https://lending.sba.gov/search-disaster/ The Economic Injury Disaster Loan (EIDL) and Physical Disaster Loan terms include no payments for 12 months, no interest accrual for the first 12 months, and the interest rate will not exceed 4%.

Application Assistance - Small Business Development Center

The Florida SBDC at FGCU is available to assist small business owners with questions and resources due to the effects of Hurricane Milton. The Florida SBDC at FGCU also offers NO-COST business consulting services to assist with all types of small business needs. Call 239-745-3700 or visit https://floridasbdc.org/request-for-consulting for scheduling.

FEMA Assistance

Apply online at www.DisasterAssistance.gov. You can also apply using the FEMA mobile app or by calling FEMA's helpline toll-free at 800-621-3362.

We appreciate these partnerships during this time of emergency, please let us know if there is something we can assist you with.

In unity,

Your Lee County Economic Development Team

Lee County Commissioners receive comprehensive, multi-departmental update on Hurricane Milton

Fort Myers, FL, Oct. 15, 2024 – Lee County staff updated the Lee Board of County Commissioners on Hurricane Milton during Tuesday's regularly scheduled board meeting.

The 50-minute, multi-departmental update can be viewed here: **https://youtu.be/KPbz9VYMvLw**

After an introduction from Lee County Manager Dave Harner, the following department directors provided updates:

- Benjamin Abes – Public Safety director
- Robert Price – Lee Department of Transportation director
- Doug Whitehead – Solid Waste director
- Mikki Rozdolski – Community Development director
- Ehab Guirguis – Facilities & Construction Management director
- Ashley Mason – Innovation & Technology director, serving as Community Coordination lead
- Nathan Beals – Utilities senior manager
- Roland Ottolini – Natural Resources director
- Mack Young – Parks & Recreation director

Throughout the update, various staff members addressed commissioners' questions and provided comprehensive information.

The county also shared a video highlighting the efforts of staff before, during and after the storm. The video can be viewed here: **https://youtu.be/mzhxXtJ72Mo**

For the most up-to-date information related to Hurricane Milton cleanup and recovery efforts in Lee County, visit www.leegov.com/storm.

To receive updates from Lee County Government, sign up for the newsletter here: www.leegov.com/resources/newsletters. Follow Lee County Government on Facebook, www.facebook.com/leecountyflbocc.

Sheriffs,

Please read the following message from FSA President Sheriff Bill Prummell.

Sheriffs,

As we continue to respond and recover from Hurricane Milton, I would like to thank all the sheriffs, their deputies and staff who assisted the FSA Task Force in responding to those in need. FSA Task Force Chair Sheriff Tommy Ford, our regional task force chairs, and FSA staff who worked in the state EOC once again did a fantastic job. I know the recovery process will take time, but sheriffs were once again there to help each other, and we will continue to be ready to respond if there is more work to be done.

Sheriffs Continue to Educate on Amendment 3
I would also like to thank sheriffs for their continued work on educating citizens about the harms of Amendment 3. With only 21 days to go there continues to be a lot of great work being done. My op-ed on Amendment 3 was published two weeks ago in the Tallahassee Democrat as well as in my local paper. It was also the lead story in FSA's Weekly Insight newsletter: Law enforcement solidly against Amendment 3 | | yoursun.com

In addition, many other sheriffs are posting educational videos and publishing op-eds as well. Here is a link to Polk County Sheriff Grady Judd's educational video on Amendment 3: Sheriff Judd on Amendment 3 (youtube.com)

Here is a link to Volusia County Sheriff Mike Chitwood's op-ed in opposition to Amendment 3: Sheriff Chitwood: Voting No On Amendment 3 (Recreational Marijuana) | VSO (volusiasheriff.gov)

FSA's podcast episode on Amendment 3 continues to break download records and the team at FSA has posted another clip from that popular episode to its social media accounts (see attached).

I encourage you to continue to share these educational materials that FSA is produces from your social media accounts. If you have produced materials and want FSA to share it, please email it to Logan Lewkow at FSA (llewkow@flsheriffs.org) and we are more than happy to share it with our statewide audience. Your work is having a positive impact.

AMERICA OVERSIGHT

Chamber Continues to Advocate on Dangers of Amendment 3
The Florida Chamber of Commerce posted the following video from their President & CEO opposing Amendment 3: No on 3 - A Message from Florida Chamber President & CEO Mark Wilson (youtube.com)

The Chamber website, **www.FLBizAgainstA3.com**, is part of their effort to educate residents and business leaders on the adverse effects of Amendment 3, including the severe consequences for local businesses, public safety, Florida's brand and Florida's quality of life. The new website provides detailed information on how Amendment 3 could impact various industries across Florida. It also includes employer-to-employee educational tools for businesses to get involved in the "No on 3" campaign. The website also includes data on how legalization has affected businesses in other states and quotes from Florida elected officials and leaders opposing Amendment 3.

In addition, we also are in plans to participate in a series of press conferences with the Chamber. As soon as those details are ready, we will share them with all sheriffs.

FSA Educational Toolkit Reminder
FSA's Amendment 3 educational toolkit continues to be in high demand. Attached to this email is the toolkit. The below link will provide you access to our current database of Amendment 3 collateral. It includes:

- VIDEO - A two-minute educational video that you can use on social, for townhall presentations, etc. There are several video sizes on there so that it fits the platform you are trying to share it on.
- PRESENTATION – A slideshow presentation deck that is broken down into specific subjects that Amendment 3 will impact (e.g. public safety, public health, how the amendment got here, etc.). This will allow you to grab certain slides that you want to use for your presentations, or you can use the whole thing.
- GRAPHIC – A simple graphic is also within the database so that you can use if you are posting something about Amendment 3 on your channel to educate the public.

Use this link for the database:
https://www.dropbox.com/scl/fo/kinnirnm54vkmnv5bql97/AKQyBGRlH9o1pZQNHaGE8RI?rlkey=q8ga2srhq63sa7kbn9gzscs4v&st=ud16l2uq&dl=0

If you are unable to access DropBox because of your firewall, please reach out to FSA staff and they will get you access. Logan Lewkow (llewkow@flsheriffs.org) or Casey Grigsby (cgrigsby@flsheriffs.org).

Vote No on 3 New Ads and Recent Positive Polling Data
The Vote No on 3 Campaign has released a series of new ads. Here are the links:

- Not Even One (youtube.com).
- Immunity (youtube.com)
- Smell (youtube.com)

In addition, there continues to be positive polling data that shows support lacking for Amendment 3 to reach the 60% threshold for passage: **Florida pollsters find both recreational pot, abortion access measures short of 60% support (floridapolitics.com)**

Finally, the **Keep Florida Clean** committee behind a Vote No on 3 Campaign has raised nearly $15.4 million to fight the amendment. That group has spent nearly $9.4 million with more than $6 million available for the final weeks of the campaign. We know the other side is spending what seems like unlimited cash, but at the end of the day our citizens are learning more and more about the harms of recreational marijuana legalization and are pushing back. Continue to keep up the great work!

TRAFFIC ADVISORY

Florida Department of Transportation Continues Debris Removal Activities in Hardee County

HARDEE COUNTY, Fla. – The Florida Department of Transportation (FDOT) District One has begun removing debris along state highways and roads throughout Hardee County. It is anticipated the debris removal will take about one week to complete.

Home and business owners are advised to separate vegetation from construction and demolition waste before piling along the right-of-way. This is a tremendous help to the crews because it expedites the debris removal process.

Please be aware of workers, trucks, heavy equipment, and possible temporary lane closures along state roads as FDOT continues to prioritize safety for the travelling

AMERICAN OVERSIGHT

public. FDOT stands committed to helping communities recover from Hurricanes Helene and Milton.

For the latest update on road conditions and traffic flow, check www.FL511.com.

FDOT road projects will resume work as soon as it is safe to do so. You can stay abreast of project progress in your area by visiting https://www.swflroads.com/roadwatch/.

Registration for new dates is open.

AMERICAN OVERSIGHT

Great leadership keeps employees happy and productive. It limits turnover and protects the agency. Nothing is more vital!

Advanced Police Concepts would like to invite you to our upcoming Leadership for Front-Line Supervisors course hosted by the TARPON SPRINGS POLICE DEPARTMENT on Monday and Tuesday , December 16-17, 2024. The course will be held at the Tarpon Springs Police Department, 444 South Huey Avenue, Tarpon Springs, FL 34689 from 0830-1700 each day.

This two-day class focuses on how to be the best front-line leader you can be. Leadership is much different than management. Understand that your Sergeant stripes never make you a leader. Your ability to lead is based on your level of dedication to your team and the relationships you build.

INSTRUCTOR: Lt Charlie Nahrworld

The cost is only $279 per student.

QUESTIONS: Email INFO@AdvancedPoliceConcepts.com
or call 866-446-4APC.

AMERICAN OVERSIGHT

Short video describing the course.

LT Charlie Nahrwold has over 18 years of law enforcement experience. Charlie has spent over a decade in the roles of a law enforcement supervisor, leader and trainer. The majority of his career has been focused on supervising and leading personnel from patrol to special investigations. Charlie is also a lead academy instructor in various law enforcement topics ranging from patrol functions, defensive tactics, use of force, de-escalation and line supervision. His experience in position has afforded Charlie with a wealth of knowledge in working with diverse personalities to accomplish performance objectives, developing trusting relationships, and building future supervisors and leaders.

TO END HOMELESSNESS

2024 FLORIDA CONFERENCE ON ENDING HOMELESSNESS

New Dates | November 12 - 14, 2024

The **Florida Conference on Ending Homelessness**, originally scheduled for October 15-17, has been postponed to **November 12-14, 2024** at the Hilton Lake Buena Vista due to the impacts of the recent hurricanes. This decision was made to prioritize the safety and well-being of attendees, staff, and partners. We appreciate your understanding and apologize for any inconvenience caused by this change as we work to ensure a safe and successful conference.

POSTPONEMENT FAQ

Hotel Updates:

If you booked within our official hotel block, your reservation has been automatically

AMERICAN OVERSIGHT

canceled. You will need to rebook your hotel room for the new conference dates using the link below.

REBOOK

If you booked outside of the hotel block or at another hotel, you are responsible for canceling and rebooking your reservations.

We understand that changes like this can be challenging and that recent events have brought tremendous stress and hardship to many in Florida. We invite you to take a reprieve and join us at our upcoming conference. Together, we can focus on addressing the critical issue of homelessness, an ongoing challenge that has only been magnified in times of disaster. Your presence and participation will be vital in creating a stronger, more resilient Florida.

Thank you for your flexibility and patience during this time. We look forward to welcoming you in November. Our team is here to assist you with any questions or concerns regarding your registration, travel, or hotel accommodations.

Our thoughts are with the people of Florida who are recovering from Hurricanes Helene and Milton.

Hi Special Agent in Charge Condon, Sheriff Marceno, Chief Fields, and Special Agent in Charge Fodor,

I hope that you made it through the hurricane safely and that your recovery from the storm is going well.

Earlier this year, I wrote to commend your offices on a trial victory in Fort Myers federal court in a child exploitation prosecution. The defendant has now been sentenced to 40 years in federal prison. This excellent result is due to the amazing teamwork of your offices. This is nothing new. This case is another in a long line of successful child exploitation prosecutions by your offices.

This was a most worthy case for prosecution. The defendant, Richard Edward Brillhart, is a previously convicted federal sexual offender. While on federal supervised release, the defendant distributed and possessed child sexual abuse material. The defendant took the case to trial and attempted to argue that his roommate was the one who had distributed and possessing the child sexual abuse material. Because of the great work of your agencies, this defense went nowhere. The defendant was convicted on both counts in the Indictment, and he now been sentenced to 40 years in federal prison.

It takes a great team to conduct the type of investigation that was required in this case. And that is what we had. The investigators on this case did an outstanding job of providing the prosecutor with everything needed to charge the defendant for the full scope of his crimes and to present a compelling case to the jury and to the Court at sentencing. I would like to commend, again, everyone from your agencies who worked on this case, including the following investigators (I have included comments from the prosecutor on the case, so that you can see the esteem and appreciation that my office has for these investigators):

- **HSI Special Agent Soleil Randall** is the case agent. She located witnesses from all over, including the agent with the Louisiana Bureau of Investigations who investigated and identified the individual who the defendant distributed over 200 CP images and videos to over a two-day period. Special Agent Randall also located the roommate's daughter, who was willing to testify concerning her father's hospitalization in August 2021.

- **HSI Special Agent AJ Brink** recently joined the trial team and offered great assistance. He went to Gulf Coast Medial Center Records Department with trial subpoena in hand and waited for a certified copy of the admittance records for the roommate, which became crucial. He helped with the witnesses, including meeting

AMERICAN OVERSIGHT

with each witness from Yahoo, Google, and Kik as part of their witness preparation. He assisted each day of trial.

- **HSI Computer Forensic Analyst Joshua Turner** offered great assistance in preparing for trial. He analyzed the records provided by Yahoo and Kik, and he analyzed the defendant's cell phone and SD card. He prepared exhibits that established that child sexual abuse material was downloaded on same day and near in time to selfies of the defendant being taken, which was critical evidence. He took the stand twice during the trial.

- **HSI Special Agent Elijah Cook** testified that he searched the defendant's bedroom and located the cell phone charging on the defendant's bed.

- **FBI Task Force Agent Krysten Calhoun** testified that she investigated the Kik cybertip and obtained a search warrant for the account. Task Force Agent Calhoun described the images and videos that were contained in the defendant's Kik account, and she identified the defendant from the selfies found in the account.

- **Former HSI Computer Forensic Analyst Timothy Stewart** testified that he conducted the initial analysis of the defendant's cell phone and located child sexual abuse images and videos on the cell phone and the SD card. He had removed the SD card from the device.

- Additionally, there were retired agents and HSI personnel who were prepared to testify should rebuttal have been necessary:

    - **HSI Task Force Agent Katrina Lee** was prepared to testify regarding the Yahoo and Google cybertips (as she had previously done during the suppression hearing), and regarding possible inconsistent statements, if roommate testified at trial.
    - **HSI Computer Forensic Analyst Justin Gaertner** had analyzed the cell phone belonging to the roommate. He drove down from Tampa in case he was needed to testify.
    - **Retired HSI Special Agent Robert Kastner** was prepared to testify regarding the search of the roommate's bedroom, and his observations during the search warrant if necessary.

Each of these investigators did an incredible job on the investigation and at trial. As evidenced by the across-the-board jury verdict and the 40-year federal prison sentence, it is clear that the jury and the Court were impressed with the outstanding work that the investigators did on this case. The result in this case is a reflection of the quality of work done by these investigators and the fabulous job that they did during the investigation and their trial testimony.

Thank you for letting my office prosecute this case in federal court. The prosecution of child exploitation cases is a top priority of my office, and we truly appreciate getting the chance to prosecute your cases in federal court. I really appreciate our partnership and the good work that we are able to do for our community.

TEAMS meeting: Thursday, October 17th at 10:00am (EST)

On behalf of Sheriff Tommy Ford, Task Force Chair:

Please have your Chief Financial Officers, and other staff assigned to financial services, attend this webinar.

Bay County Sheriff's Office Comptroller Kim Cummings will be conducting a webinar on Thursday, October 17, at 10 am eastern to provide information to assist sheriff's offices that responded to Hurricane Milton with the FDEM reimbursement process. This is for agencies that responded with the task force for mutual aid, and not for agencies that were affected by the hurricane. Agencies affected by the hurricane file their claims through a different process with FEMA. This presentation will be best suited for your finance personnel that will be completing claims through the FDEM Demes portal.

Sheriffs,

Today, Marion County Sheriff Billy Woods (President of the Florida Deputy Sheriffs Association) represented FSA at the Hillsborough County Sheriff's Office with Sheriff Chad Chronister. Governor DeSantis presented Sheriff Woods with a check for $100,000 from Florida's Disaster Fund to the Florida Deputy Sheriffs Association to support first responders impacted by Hurricane Helene and Hurricane Milton.

During the press conference, Governor DeSantis and Sheriff Chronister thanked all the first responders for their dedication and sacrifice in service to their communities. FDSA has been in contact with sheriffs in the impacted areas on the distribution of these funds. Stay safe and have a good evening.

Governor Ron DeSantis Issues Updates on State Response and Recovery Efforts for Hurricane Milton

TALLAHASSEE, Fla.—Today, Governor Ron DeSantis was joined by Florida Division of Emergency Management (FDEM) Executive Director Kevin Guthrie, Florida Department of Highway Safety & Motor Vehicles Executive Director Dave Kerner, Volunteer Florida CEO Josie Tamayo and Major General John D. Haas Adjutant General of Florida at Betmar Acres Mobile Home Park in Zephyrhills and the Hillsborough County Sheriff's Office in Tampa to provide updates on Hurricane Milton recovery efforts.

Today, Governor DeSantis announced the award of $500,000 through the Florida Disaster Fund to support non-profit organizations that operate in Florida and provide free muck-and-gut services, debris removal, tarping, temporary home fixes, and other volunteer services to those whose homes have been damaged or destroyed by a Hurricane.

Each of these organizations have been on-the-ground in Florida following Hurricanes Helene and Milton, and continue to help Floridians who were devastated by the storms. Governor DeSantis awarded $50,000 each to the following organizations:

AMERICAN OVERSIGHT

- Team Rubicon
- Tool Bank USA
- Florida Baptist Convention Disaster Relief
- Faith Responders
- Samaritan's Purse
- Rebuilding Tampa Bay
- SBP
- All Hands and Hearts
- CWS
  Plain Compassion Disaster Response

Governor DeSantis directed the Florida Division of Emergency Management (FDEM) to deploy seven floodwater pumps to Silver Oaks Community here in Zephyrhills, with another 20 pumps on the way for additional support. FDEM also deployed a Human Services Needs Assessment Team to provide support to residents who need to find new housing because of storm damage.

In Hillsborough County, Governor DeSantis announced the award of $400,000 to support Florida's first responders, who have worked tirelessly following recent storms to rescue and help people. Governor DeSantis awarded $100,000 each to the following groups:

- Florida Firefighters Charities Fund
- Florida PBA Heart Fund
- **Florida Sheriffs Association**
- Florida State Lodge FOP Memorial Foundation

As of 6 PM, approximately 127,954 Floridians are without power. The State of Florida has restored 4,042,643 accounts.

Federal Disaster Relief

Governor DeSantis announced that Florida secured approval of a major disaster declaration for Hurricane Milton from the Federal Emergency Management Agency (FEMA). The declaration includes Individual Assistance and Public Assistance (Category B). Individual Assistance, which is assistance to residents and households, is available for Brevard, Charlotte, Citrus, Clay, Collier, DeSoto, Duval, Flagler, Glades, Hardee, Hendry, Hernando, Highlands, Hillsborough, Indian River, Lake, Lee, Manatee, Marion, Martin,

AMERICAN OVERSIGHT

Okeechobee, Orange, Osceola, Palm Beach, Pasco, Pinellas, Polk, Putnam, Sarasota, Seminole, St. Johns, St. Lucie, Sumter and Volusia Counties and the Miccosukee Tribe of Indians of Florida. Public Assistance, which is available for emergency work and the repair or replacement of disaster-damaged facilities, is available for Alachua, Baker, Bradford, Brevard, Broward, Charlotte, Citrus, Clay, Collier, Columbia, Desoto, Dixie, Duval, Flagler, Gilchrist, Glades, Hamilton, Hardee, Hendry, Hernando, Highlands, Hillsborough, Indian River, Lafayette, Lake, Lee, Levy, Madison, Manatee, Marion, Martin, Miami-Dade, Monroe, Nassau, Okeechobee, Orange, Osceola, Palm Beach, Pasco, Pinellas, Polk, Putnam, Sarasota, Seminole, St. Johns, St. Lucie, Sumter, Suwannee, Taylor, Union, and Volusia counties for emergency protective measures, including direct federal assistance.

The State Assistance Information Line is now open and accepting calls 24/7 with English, Spanish and Haitian-Creole speakers available at 1-800-342-3557.

Governor DeSantis issued Executive Order 24-215, amending EO 24-214 and declaring a state of emergency for 51 counties.

To learn more about navigating hurricane season, residents can visit FloridaDisaster.org/Guide. For updates on county resources available visit FloridaDisaster.org/Counties for a list of all 67 county emergency management contacts.

State Response and Recovery Efforts

- The **Florida Division of Emergency Management (FDEM)** has activated the State Emergency Operations Center to Level 1 since Tuesday, September 24, for Hurricane Helene, and is at a Level 1 for Hurricane Milton, leading coordination efforts for the State Emergency Response Team.
- Since landfall, nearly 1,800 individuals and 225 animals have been rescued by Urban Search and Rescue Teams and the Florida National Guard.

AMERICAN OVERSIGHT

- FDEM has nearly 20 Points of Distribution (PODs) and over 60 cooking and feeding sites open in impacted counties. To find locations and hours of operation, visit FloridaDisaster.org/Updates.
- FDEM has more than 578,900 gallons of diesel and nearly 230,000 gallons of emergency fuels on-hand, with 508,600 gallons of diesel and 686,200 gallons of gas deployed in the field supporting operations.
- Public fuel distribution sites will be open tomorrow, Wednesday October 16th:
    - **Tropicana Rail Yard,** 7 am - 7 pm
      1706 9th St E
      Bradenton, FL 34208
    - **St. Pete College Tarpon Springs**, 7 am - 7 pm
      600 E Klosterman Rd
      Tarpon Springs, FL 34689
    - **East Bay Raceway**, 7 am - 7 pm
      6311 Burts Rd
      Tampa, FL 33619
    - **Bradenton Motorsports Park**. 10 am - 7 pm
      21000 E. State Road 64
      Bradenton Fl, 34212
    - **Gulf View Mall** 10 am - 7 pm
      9409 US-19
      Port Richey, FL 34668
    - **Wiregrass Mall** 10 am - 7 pm
      28211 Paseo Drive
      Wesley Chapel, FL 33543
    - **Largo Mary Grizzle State Office** 10 am - 7 pm
      11351 Ulmerton Rd
      Largo, FL 33778
- All open fuel sites: FloridaDisaster.org/Updates.
- The State of Florida partnered with Lyft to provide residents in mandatory evacuation zones free rides returning home from local shelters.
- Lyft has activated the Lyft Up Disaster Response Program to provide free and discounted rides to help those in affected areas travel to and from designated shelters with critical resources. Riders can use code MILTONRELIEF24 for two rides up to $25 to and from state-approved shelters.
- Additionally, residents can find open shelters in their area by visiting FloridaDisaster.org/shelters.

- The **Florida State Fire Marshal's Office's** US&R teams have successfully rescued 349 civilians, 47 pets and provided assistance to 164 others.

- The **Florida State Guard** has completed over 300 rescues in the wake of Hurricane Milton. Florida State Guard teams continue debris clean up

AMERICAN OVERSIGHT

in Pinellas County and plan to remain on mission as needed with skid steers and heavy equipment to assist the Florida Department of Transportation and the Florida National Guard with continued debris clean up from roadways.
- Crisis Response Battalion teams continue assistance at the SLRC supporting distribution of critical supplies.
- The Florida State Guard has completed over 300 rescues in the wake of Hurricane Milton. Florida State Guard teams continue debris clean up in Pinellas County and plan to remain on mission as needed with skid steers and heavy equipment to assist the Florida Department of Transportation and the Florida National Guard with continued debris clean up from roadways.
- Crisis Response Battalion teams continue assistance at the SLRC supporting distribution of critical supplies.
- The Florida State Guard remains on standby in Pasco County, with amphibious vehicles and high-water UTVs, for evacuation and search and rescue operations.
- The Crisis Response Battalion is now operating a point of distribution (POD) in Dade City and in Zephyrhills, providing supplies to 543 vehicles thus far.

- The **Florida National Guard (FLNG)** has activated nearly 5,000 service members for Hurricane Milton response operations and is expected to grow to nearly 7,300 with EMACs from other states for Hurricane Milton operations.
- FLNG is providing immediate response in affected areas with liaison officers, search and rescue, humanitarian assistance, route clearing, ground and air reconnaissance, protection of critical infrastructure, flood mitigation and high wheeled vehicle support with state and local officials.
- FLNG has four rotary wing aircraft, approximately 500 high-wheeled tactical vehicles, including approximately 200 high-wheeled tactical vehicles and over a dozen boats prepared to provide search and response and damage assessment support.

- Over 100 **Florida Fish and Wildlife Conservation Commission (FWC)** officers rapidly deployed high-water vehicles and all other storm response resources to areas of Florida impacted by Hurricane Milton to assist Floridians in need.
- As a result of Hurricane Milton, FWC officers have worked with partner first responder agencies to rescue 993 individuals, 55 pets, and performed 910 welfare checks. They also cleared trees, vessels, and debris from numerous roads, homes, and driveways and distributed water and food.
- FWC officers responded with:
    - 47 boats including airboats and shallow draft boats
    - ATVs/Side-by-sides

AMERICAN OVERSIGHT

    - 132 high-water capable four-wheel drive vehicles
    - 29 high-water capable swamp buggies and UTVs
    - 3 SOG support trailers
    - 4 aerial surveillance drones
    - Self-sustainment equipment, including BERG container units, hygiene trailers, generators and mobile command posts
    - Fuel trucks
    - 1 Skid Steer
- FWC officers are providing enhanced vessel patrols along area rivers to ensure public safety due to riverine flooding.

- The **Florida Department of Law Enforcement's (FDLE)** mutual aid team is managing 65 active law enforcement missions with more than 100 completed. The missions include:
    - Security for fuel depots
    - Fuel escorts
    - Traffic control
- More than 600 law enforcement officers are assigned to missions related to Hurricane Milton.

- The **Florida Department of Veterans' Affairs' (FDVA)** State Veterans' Service Officers are available to take your call at (727) 319-7440 or via email at FDVA.VSO@FDVA.FL.GOV.
- The VISN 8 Clinical Contact Center is operational 24/7/365 for virtual care and tele-emergency care to support Florida Veterans enrolled for VA Health Care. Call 1-877-741-3400.

- All youth and staff in the **Florida Department of Juvenile Justice (DJJ)** facilities are accounted for and safe. DJJ continues to assess its facilities for damage and most facilities have had minimal storm impacts.

Health and Human Services

- The **Florida Department of Health (DOH)** deployed nearly 200 emergency response vehicles (e.g., ambulances, ambulance buses, paratransit vehicles) to support emergency evacuations and patient transport as needed.
- DOH is supporting six special needs shelters, which are accepting clients, located in the following counties: Manatee (1), Pasco (1), Pinellas (2), Polk (1), and Sarasota (1).
- DOH and the Office of Insurance Regulation (OIR) sent information regarding early prescription refills permitted under Executive Order 24-215. This information was sent to the public, health insurers, managed

AMERICAN OVERSIGHT

care organizations, pharmacy benefit managers, pharmacy chains and health care providers.

- The State Surgeon General signed Emergency Order 24-003, which:
  - Waives competitive procurement requirements in order to procure commodities, goods, and services expeditiously in response to the emergency.
  - Permits emergency medical transportation services licensed in other U.S. states, territories, and/or districts to operate in Florida in response to the emergency.
    Permits paramedics, emergency medical technicians, and their medical directors licensed in other U.S. states, territories, or districts to practice in Florida in response to the emergency without penalty.
  - Permits pharmacies and prescription department managers to operate in multiple or mobile locations.
- There are 153 active Boil Water Notices as a result of Hurricane Milton. A comprehensive statewide list of notices for residents to access online can be found here:
  - Charlotte (6), Citrus (4), Collier (1), Flagler (2), Hardee (3), Hernando (6), Highlands (4), Hillsborough (23), Lake (26), Lee (3), Levy (1), Manatee (2), Marion (12), Okeechobee (1), Orange (5), Osceola (4), Pasco (13), Pinellas (1), Polk (17), Putnam (2), Sarasota (3), Seminole (1), St. Lucie (1), Sumter (6), and Volusia (6).
- There have been twenty-four (24) rescinded Boil Water Notice in the following counties:
  - Charlotte(1), Citrus (2), Hernando (1), Hillsborough (1), Lee (3), Manatee (1), Marion (5), Pinellas (2), Polk (1), Putnam (3), Sarasota (3), and St. Lucie (1).
- The State Surgeon General signed Emergency Order 24-004, which:
  - Permits paramedics, emergency medical technicians, and their medical directors, physicians and physician assistants, osteopathic physicians and physician assistants, advanced practice registered nurses, registered nurses, licensed practical nurses, certified nursing assistants, mental health counselors, clinical social workers and marriage and family therapists licensed in other U.S. states, territories, or districts to practice in Florida in response to the emergency without penalty.
  - Waives telehealth registration requirements for physicians and physician assistants, osteopathic physicians and physician assistants, advanced practice registered nurses, mental health counselors, clinical social workers, and marriage and family therapists.

- The **Agency for Health Care Administration (AHCA)** has initiated an event in the Health Facility Reporting System (HFRS). Health care providers have been requested to provide information on census,

AMERICAN OVERSIGHT

available beds, evacuation status, accepting evacuees and generator needs from counties declared under EO-24-114. This information allows AHCA to assist health care providers in transferring patients if needed and ensure that health care providers in impacted areas have the necessary resources and adequate power.
    - 124 health care facilities have reported evacuations. This includes:
    - 13 adult family care homes
    - 68 assisted living facilities
    - 2 crisis stabilization and short term RFTs
    - 2 hospices
    - 4 hospitals
    - 2 hospitals ED
    - 3 intermediate care facilities for the developmentally disabled
    - 15 nursing homes
    - 4 residential treatment centers for children and adolescents
    - 7 residential treatment facilities
    - 4 Transitional living facilities
- As of today, there are 153 health care facilities with loss of power across the state. This includes:
    - 12 adult family care homes
    - 104 assisted living facilities
    - 4 crisis stabilization and short term RFTs
    - 2 hospices
    - 3 hospitals
    - 2 hospitals ED
    - 3 intermediate care facility for the developmentally disabled
    - 14 nursing homes
    - 2 residential treatment centers for children and adolescents
    - 4 residential treatment facilities
    - 3 Transitional living facilities
- AHCA is conducting daily calls with the Florida Hospital Association and Florida Health Care Association.
- The Agency has waived all prior authorization requirements for critical Medicaid services beginning October 7, 2024, until further notice.
- Agency surveyors have completed 684 post storm assessment visits to ensure health care facilities in impacted areas are able to safely care for residents.

- Commissioner of Agriculture Wilton Simpson and the **Florida Department of Agriculture and Consumer Services (FDACS)** launched the Agriculture and Aquaculture Producers Natural Disaster Recovery Loan Program for Florida farmers, ranchers, and growers impacted by Hurricane Milton to apply for interest-free loans. Loans can be used by eligible agriculture and aquaculture producers to restore, repair, or replace essential physical property – including fences,

AMERICAN OVERSIGHT

equipment, greenhouses, and other buildings – or to remove vegetative debris.

- FDACS is working with Florida's ports and fuel industry partners to ensure adequate fuel supplies are available, and with Florida's agricultural partners so producers have adequate resources.
- A total of 42 generators were deployed to commercial agricultural facilities to prevent disruption to food and agricultural critical infrastructure.
- Commissioner of Agriculture Wilton Simpson has approved an emergency order temporarily suspending the intrastate movement requirements for the transportation of animals and livestock fleeing Hurricane Milton. In addition, the following states have waived their interstate import requirements for Florida pets, horses and livestock leaving the state: Alabama, Georgia (does not include livestock), Mississippi, and North Carolina.
- Commissioner Wilton Simpson has issued an emergency order suspending requirements related to the distribution, delivery, storage, and sale of liquid fuels — such as gasoline and diesel — to assist with efforts to ensure adequate distribution and supply of fuel.
- Commissioner Wilton Simpson has issued an emergency rule to aid the distribution of liquefied petroleum gas to disaster response and recovery operations.
- Floridians are encouraged to call 1-800-HELP-FLA to report water-contaminated fuel issues to the department.
  As of Oct. 14, inspectors completed preliminary inspections of 3,055 of an estimated 4,538
- potentially impacted retail fuel stations. Of the 3,055 facilities, 1,985 are open and operating.
    - Additionally, as of Oct. 14, inspectors have completed 7,777 assessments of food establishments in impacted regions. 6,894 facilities are open for business.
- Agricultural partners can request critical assistance for livestock and animals in critical need, please complete this form and send it to DAIOPSAssessment@FDACS.gov, or call 863-993-5460.
- Food safety inspectors are responding to impacted areas to conduct damage assessments and ensure the safe operation of over 36,000 potentially impacted food establishments.
- UF/IFAS is studying the agricultural losses and damages resulting from Hurricane Helene. Producers can share information about impacts experienced at your farm, ranch, or aquaculture operation here.

- The **Department of Elder Affairs (DOEA)** continues to contact all Area Agencies on Aging partners to receive updates. Post-storm call-downs to clients are ongoing and there are currently no unmet needs.

- The **Agency for Persons with Disabilities (APD)** continues its recovery efforts with post Hurricane wellness checks to clients, families,

AMERICAN OVERSIGHT

and Group Homes in affected areas verifying status and resolving immediate need requests.

- APD leadership teams have sourced and compiled sensory kits and delivered over 410 kits, over 100 noise cancelling headphones, and nearly 150 weighted stuffed animals to families in need at Hope Florida distribution sites, group homes, and partners in counties affected by Hurricane Milton.
- Over 100 APD evacuated group home clients have returned to the home.
- APD is working with partners and the State Emergency Response Team overseeing Access and Functional Needs (AFN) emphasizing information sharing, fact finding, and problem solving.
- APD Hope Florida Navigators, and APD emergency recovery teams have deployed to Hope Florida Distribution Centers throughout affected areas today.

- The **Department of Children and Families (DCF)** is in the process of contacting all foster families, group homes, and providers to assess for unmet needs after the storm. So far DCF has contacted families and group homes serving over 22,200 individuals and over 9,900 providers in impacted areas to ensure all children and families served are safe and to determine needs.
- DCF has delivered and served over 371,000 meals, 469,000 bottles of water and other drinks, 42,000 snacks, and 11,000 boxes of food to 22 counties, and has established 30 field kitchens.
- DCF is working with Mercy Chefs and Operation BBQ to serve hot meals throughout the Tampa Bay area and Manatee County.
- Through Emergency Support Function 6 – Mass Care, DCF is supporting 8 shelters in impacted areas.
- The Hope Bus has been stationed in Charlotte, Hillsborough, Lee, Pinellas, and Sarasota counties, and since the storm made landfall, we have served over 18,300 individuals. In addition, Hope Navigators have been deployed to Charlotte, Indian River, Manatee, Martin, Pasco, Saint Lucie, and Sarasota counties to go into neighborhoods directly impacted by the storm and offered resources and support to over 3,000 individuals.
- DCF has deployed Hope Navigators to support individuals and families in shelters.
- Current SNAP recipients who lost food due to Hurricane Milton can apply for food replacement. To learn more, visit myflfamilies.com/milton
- The Department of Children and Families has been approved to allow the purchase of hot foods with SNAP EBT benefits in Highlands, Hillsborough, Indian River, Manatee, Pasco, Pinellas, Sarasota, and Volusia counties to assist individuals affected by Hurricane Milton. This allowance is available at participating retailers in the eligible counties until November 15, 2024. To learn more, visit myflfamilies.com/milton

AMERICAN OVERSIGHT

- All State Mental Health Treatment Facilities and Crisis Stabilization Units are fully operational.
  The Hope Line is available to assist those in need of resources or other assistance after the
- storm. It is now available 24/7 for the next two-plus weeks at 833-GET-HOPE.
  Activate Hope has been deployed to help connect Floridians impacted by the storm with
- needed resources like food, supplies, home repairs, and more. Serving as the emergency response component of the Hope Florida initiative, Activate Hope connects the private sector, nonprofits, and government to help Floridians get back on their feet following a natural disaster. Fill out the form here to request help.

Infrastructure, Roads and State Closures

- The **Florida Department of Transportation (FDOT)** has over 2,000 FDOT team members working directly on storm response.
- FDOT established a field crew base camp in Seffner to be centrally located for emergency response and recovery efforts.
- FDOT has shifted efforts towards debris pickup on state roads. Currently, crews have picked up nearly 35,000 cubic yards of debris.
- Other state DOTs have sent crews to assist with debris pickup missions. Alabama DOT has sent 18 team members, Tennessee DOT is sending 30 team members, and FDOT has been in contact with Louisiana DOT.
- FDOT will perform debris pickup within fiscally constrained counties.
- 99% of traffic signals in the impacted area are operational. Crews continue to deploy generators where needed statewide to temporarily restore power to locations that are non-operational.
- Toll suspensions on facilities in West Florida and Central Florida have been extended. Specific details and facilities can be found here.
- FDOT continues to monitor water levels at low-lying bridges near major river crossings.
- Cut and Toss Operations on state-owned facilities are complete, except for inaccessible areas or roadways with hazards. 486 crew members cleared over 12,000 miles of roadway.
- FDOT completed bridge inspections on all accessible state-owned and locally-owned bridges. Over 150 Bridge Inspectors reviewed and cleared over 2,400 bridges across the impacted areas.
- FDOT completed the removal of debris on barrier islands in Pinellas and Manatee Counties ahead of Hurricane Milton with the Florida National Guard, Florida State Guard, Florida Highway Patrol, Florida Department of Agriculture, amongst others. In total, over 3,000 truckloads removed nearly 55,000 cubic yards of debris.

AMERICAN OVERSIGHT

- FDOT has lifted weight restrictions and is allowing bypass of weigh stations for emergency response vehicles, including utility vehicles staging for rapid response.
- FDOT has coordinated efforts with Georgia and Alabama to allow a bypass of weigh stations for emergency response and supply vehicles.
- For current road and bridge closures and traffic conditions, please download the FL511 app or visit FL511.com.
- **Transportation Modes:**
    - Florida's Seaports, Airports, Rail, Transit, and Spaceports made swift progress in recovery efforts with most services and operations now resumed.
    - Please check with your service providers directly regarding potential service impacts, such as flight schedules, passenger rail service, and transit schedules.
- **Seaports:**
    - Florida Seaports Fuel Supplies are being closely monitored and plans are in place for maintaining adequate supply levels across the state as we work to recover from the storm.
- **Airports:**
    - Commercial airports that remain closed: Sarasota/Bradenton International
- **State-Owned Road & Bridge Closures (As of 2:00 p.m., 10/15/24)**
  State road & bridge closures listed below. For real-time updates, Check FL511.com.
  **Please note some access may be restricted to residents only.*
- **Hernando County**
    - Flooding on Treiman Blvd Southbound from Cortez Blvd to Trilby Rd. All lanes closed.
    - Flooding on US-301 Northbound from Trilby Rd to Cortez Blvd. All lanes closed.
- **Indian River County**
    - Major Road Damage on CR-512 / Fellsmere Road Both Directions 0.71 Mi Beyond 79th Street. All lanes closed.
- **Manatee County**
    - Flooding on Verna Bethany Rd Both Directions 0.48 Mi South of Sr-64 E. All lanes closed.
- **Pinellas County**
    - Emergency vehicles on I-275 South, ramp to Mile Marker 13, Skyway North Rest Area. Off-ramp closed.
    - Emergency vehicles on I-275 North, ramp to Mile Marker 13, Skyway North Rest Area. Off-ramp closed.
- **Volusia County**
    - Flooding on I-4 East, before MM 111/Saxon Blvd. Ramp closed.
    - Emergency road construction on SR-472 East, at N Kentucky Ave. Right lane blocked.
    - Emergency road construction on US-17/92 North, at Saxon Blvd. Left lane blocked.

AMERICAN OVERSIGHT

- Flooding on US-92 East, at LPGA Blvd. Right lane blocked.

- The **Florida Department of Environmental Protection (DEP)** is actively working to provide any needed assistance to drinking water, wastewater and hazardous waste facilities. Outreach to these facilities to determine operational status is ongoing.
- DEP's online portal WaterTracker is live for drinking and wastewater facilities to report their operational status, and staff have begun outreach to facilities. DEP is working with Florida's Water/Wastewater Agency Response Network (FlaWARN), the Florida Rural Water Association and other response agencies to dispatch generators, fuel and pump trucks and other resources to assist drinking and wastewater facilities. DEP has verified the operational status of 97% of water and wastewater systems in the affected counties.
- DEP is conducting visits to emergency operation centers and water and wastewater utilities in impacted areas to provide technical assistance to ensure facilities in affected counties resume operations as quickly as possible.
- DEP has authorized 161 Disaster Debris Management Sites (DDMS) for Hurricane Helene and an additional 251 for Hurricane Milton. These sites are a critical component of expediting clean-up and reducing environmental and public health impacts post-storm. DEP solid waste field staff, supported by U.S. Environmental Protection Agency's (EPA) Landfill Strike Teams, are on the ground in affected counties providing technical assistance at to DDMS's operating as a result of these storms. DEP expedited the approval of an additional five debris staging sites in Manatee and Charlotte counties.
- For counties and local governments in need of additional debris disposal locations, DEP has approved all pending DDMS site activation requests and DEP stands ready to approve the activation of any additional pre-authorized or new DDMSs that may be needed.
- DEP is working in conjunction with the Florida Fish and Wildlife Conservation Commission and the U.S. Coast Guard, are identifying oil spills and hazardous material releases in coastal and inland waterways. Florida's water management districts are actively engaging local governments and drainage
- operators throughout the state to support flood control efforts, including deploying temporary pumps to alleviate localized flooding.
    - The St. Johns River Water Management has deployed two temporary pumps to HCA Florida Lake Monroe Hospital.
    - The Southwest Florida Water Management District (SWFWMD) has deployed one temporary pump in Pasco County.
    - SWFWMD has activated the Tampa Bypass Canal System to help protect the cities of Temple Terrace and Tampa from river flooding. More than 4 million gallons a minute are being moved through this system. This action stops all or part of the flow of the Hillsborough River before it reaches the cities of Temple Terrace

AMERICAN OVERSIGHT

and Tampa and stores it in the Hillsborough Flood Detention Area. The stored water can then be safely moved down to McKay Bay using the Tampa Bypass Canal. The LHFDA water level is down seven inches from the peak and is dropping.
    - The South Florida Water Management District has deployed two temporary pumps to the upper Kissimmee Chain of Lakes to move more water south and provide relief to communities experiencing flooding.
- DEP is coordinating post-storm beach surveys to determine impacts to shorelines and erosion, as well as inspecting damage to beach projects in impacted counties along both coasts.
- Beach teams are performing assessments along the West Coast by collecting aerial oblique videography (AOV) Staff are working to begin desktop assessments to determine what areas of the coast need immediate attention.
- On the East Coast, assessment teams are finishing up. So far, 124 windshield survey reports have been completed in Duval, Flagler, Nassau, St. Johns, Volusia, Brevard and Indian River counties.
- 10 Florida State Parks strike teams have been assembled to assist with assessment and recovery efforts at impacted state parks. Six teams are on the ground today, and other teams and equipment will be deployed as conditions allow and needs are identified.
- 104 state parks have reopened following Hurricane Milton. DEP published a storm updates webpage to keep state park visitors updated of closures: FloridaStateParks.org/StormUpdates. Visitors with existing camping and cabin reservations at closed parks have been notified of their reservation status.
- DEP's Emergency Final Order removes barriers for expediting necessary repair, replacement and restoration of structures, including coastal structures, equipment, surface water management systems, works and other systems that may be damaged by the storm.

- The **Florida Highway Patrol (FHP)** have deployed high-water rescue vehicles to areas impacted by Hurricane Milton.
- FHP Unmanned Aerial Systems Teams are conducting surveys of bridges and hospitals for damage.
- 83 FHP QRF Members mobilized from Camp Blanding to the southwest Florida area to assist with road clearing and emergency relief efforts.
- FHP is escorting fuel trucks to areas critically low on fuel.
- FHP is escorting utility vehicles to expedite power and water restoration efforts.
- FHP is conducting traffic control and site security at Hope Florida distribution sites in Lee,
  Sarasota, Charlotte, Pinellas and Hillsborough.
- FHP is conducting traffic control at Port Tampa Bay to ensure fuel trucks reach their destination without delay.

AMERICAN OVERSIGHT

- FHP is providing security at fueling locations including public fuel sites in Bradenton, St. Petersburg, and Plant City.
- FHP's fleet of 13 skid steers is deployed in affected areas to clear debris, open roadways, and restore order.
  FHP has deployed chainsaw cut teams to remove fallen trees from residences.
- FHP is assisting the Florida Department of Transportation with debris removal in affected areas.

- The **Florida Department of Highway Safety and Motor Vehicles (FLHSMV)** deployed Florida Licensing on Wheels (FLOW) mobiles to Pinellas and Hillsborough Counties to provide mobile driver license and vehicle registration services to those impacted by the storm.

- The **Florida Department of Education (DOE)** is in contact with all school districts following Hurricane Milton and is working with FDEM to address critical needs. Of the 50 traditional school districts that were closed for Hurricane Milton, 49 school districts have reopened today, Tuesday, October 15 For more information on school districts, state colleges, and university reopenings, visit fldoe.org/storminfo.

- The **Florida Department of Corrections (FDC)** is posting storm-related updates to fdc.myflorida.com/weather-updates

Resources for Employees, Businesses and Consumers

- The **Florida Department of Business and Professional Regulation (DBPR)** Division of Hotels and Restaurants inspection teams have conducted more than 200 disaster inspections and outreach calls to impacted licensees in the affected counties.
- DBPR's Division of Alcoholic Beverages and Tobacco has visited more than 350 impacted locations to complete damage assessments.
- DBPR's Division of Regulation teams have conducted unlicensed activity sweeps in impacted communities across Pinellas, Palm Beach, Martin, St. Lucie, Suwannee, Sarasota, and Flagler counties.
- Outback St. Petersburg has served more than 2,500 meals to impacted Floridians.
- McDonalds has deployed its McRig mobile unit to Pinellas County, serving 6,000 free meals per day to impacted Floridians.

- **Volunteer Florida** partner resources:
  - Disaster Legal Hotline is open to assist and refer callers: 833-514-2940
  - 2-1-1 is open and ready to receive calls.
  - Red Cross Hotline is open to assist: 1-800-Red Cross

AMERICAN OVERSIGHT

- New email for hurricane-related inquiries: hurricane@volunteerflorida.org.

- **FloridaCommerce** is communicating and coordinating with more than 200 private sector partners across the state.
- Governor Ron DeSantis activated the Florida Small Business Emergency Bridge Loan Program, making $50 million available for businesses impacted by Hurricane Milton. Florida small business owners in need of assistance, including sole proprietors, are encouraged to visit www.FloridaJobs.org/EBL to apply for the Florida Small Business Emergency Bridge Loan Program. The program provides short-term, zero-interest loans to small businesses that experienced economic injury or physical damage due to Hurricane Milton. Interested applicants can apply now through December 4, 2024, or until all available funds are expended.
- In record time, FloridaCommerce has approved more than $2.3 million in funding through the Florida Small Business Emergency Bridge Loan Program for small businesses impacted by Hurricane Milton. To date, 59 businesses have been approved to receive these funds to bridge the gap while they wait on other funding, such as insurance, with more applications being approved daily. FloridaCommerce has approved more than $10.7 million to 260 small businesses impacted by Hurricane Helene.
- FloridaCommerce and the State Emergency Response Team (SERT) activated the Business Damage Assessment Survey in response to Hurricane Milton. Business owners can self-report physical and economic damage caused by Hurricane Milton. Survey responses will allow the state to expedite Hurricane Milton recovery efforts by gathering data and assessing the needs of impacted businesses. Businesses can complete the survey online by visiting FloridaDisaster.biz and selecting "Hurricane Milton" from the dropdown menu. More than 1,700 Business Damage Assessment Surveys have been completed.
- FloridaCommerce has deployed 50 agency employees into more than 70 communities, business to business canvassing, connecting one on one with business owners, providing information about the state's supports for small businesses including communities in Alachua, Brevard, Broward, Charlotte, Citrus, Collier, DeSoto, Flagler, Gilchrist, Glades, Hendry, Hernando, Highlands, Hillsborough, Indian River, Lake, Lee, Levy, Manatee, Marion, Martin, Okeechobee, Orange, Osceola, Palm Beach, Pasco, Pinellas, Polk, Putnam, Saint Johns, Saint Lucie, Sarasota, Seminole, Sumter and Volusia Counties. Several other teams joined the Hope Florida buses and DBPR, DJJ, and APD in multiple sites across Charlotte County, Hillsborough County, Lee County, Manatee County, Pasco County, Pinellas County and Sarasota County.
- Secretary Kelly joined Lieutenant Governor Jeannette Nuñez and met with hurricane-impacted small business owners in Boca Grande, Pine

AMERICAN OVERSIGHT

Island and Punta Gorda. Business owners shared how Hurricane Milton impacted their businesses and their unmet needs and the FloridaCommerce team was able to provide direct support and discuss the Florida Small Business Emergency Bridge Loan and other small business support programs.

- Florida Housing Finance Corporation (FHFC) has disaster relief resources and information for Floridians in need of housing options and other housing related support. For more information click here. FHFC has also activated FloridaHousingSearch.org to assist hurricane-impacted Floridians in locating an affordable rental property. This free, statewide search platform is being constantly updated to ensure all listings are accurate. Floridians can also call 1-877-428-8844.
- FloridaCommerce continues to work with the Florida Chamber, the Florida Restaurant and Lodging Association and other private sector partners to consistently updates business open/close status at FloridaDisaster.biz. FloridaCommerce staff have made more than 1,200 calls to rural and small businesses to help with this effort.
- FloridaCommerce is working with private sector banking partners to ensure that evacuees have access to banks and are able to withdraw cash.
- FloridaCommerce activated the Private Sector Hotline at (850) 815-4925, open daily 8:00 a.m. to 5:00 p.m. Inquiries may also be emailed to ESF18@em.myflorida.com.
- Briefings will be provided by Emergency Support Functions and private sector partners. For call information email ESF18@em.myflorida.com. FloridaCommerce and CareerSource Florida is hosting daily calls with the
- 21 Local Workforce Development Boards and 38 Community Action Agencies across the state to assist employees and employers after the weather event.
- FloridaCommerce has worked with Walmart, City Furniture, Citrus Springs Industrial Holdings, FloridaMakes, Amazon and TECO to successfully identify and secure sites for debris disposal and additional shelters for evacuees.
- Wawa will be distributing ice and bottled water at various store locations in impacted areas. For more information click here.
  Wawa stores in Florida provide free coffee and fountain beverages to all first responders, including the National Guard in Florida in appreciation for all they are doing to support and serve our communities during hurricane response and recovery efforts.
- Wawa has donated $500,000 to the Florida Disaster Fund to support the state of Florida's private fund established to provide financial assistance to communities as they respond to and recover from times of emergency or disaster.
- The Wawa Community Coffee Truck has been deployed to Sarasota County and is distributing free coffee, water and ice to impacted Floridians.

AMERICAN OVERSIGHT

- Walmart has donated $5,000 in gift cards to HOPE FLORIDA for cleaning supplies, toiletries and water to assist with post-storm deployment in impacted areas.
- Additionally, the Lennar Corporation generously donated $5,000,000 to the Florida Disaster Fund in support of Hurricane Helene and Hurricane Milton recovery efforts.
- Comcast has opened more than 261,000 public Xfinity WiFi hotspots in areas it serves across the state. The free and public hotspots are open for anyone to use, including non-Xfinity customers. For more information visit Finder.wifi.xfinity.com. Comcast is also positioning crews and equipment to immediately respond after the storm, should there be any service interruptions for Comcast Business or Xfinity customers.
- Tesla has available charging stations for those evacuating with electric vehicles available at Tesla.com/findus. The live status and availability of superchargers can also be found in the Tesla app.
- SpaceX has delivered another 400 Starlink kits to the state of Florida to support Hurricane Milton.
- SpaceX has worked with T-Mobile to active Direct to Cell satellites to provide emergency alerts for all cell phones and carriers in affected areas. SpaceX and T-Mobile have enabled basic texting (SMS) via satellite for T-Mobile users in hurricane affected areas
- The AT&T Weather Operations Center has a team of degreed meteorologists delivering
  business-specific weather intelligence, analytics, and forecasts. The FirstNet Response Operations Group™ (ROG) – led by a dedicated team of former first responders – is working around the clock to support public safety's emergency communications and has liaisons engaged with local and federal agencies.
- Spectrum announced it will help residents stay connected by offering free, unlimited access to Spectrum Wi-Fi access points in Florida. A map of locations can be viewed at Spectrum Out-of-Home WiFi Map: Get WiFi Access Anywhere.

- **VISIT FLORIDA** Emergency Accommodation Modules on Expedia and Priceline are available to provide real-time hotel availability and lodging resources for impacted Floridians and visitors.
- Rosen Hotels & Resorts activated its Florida Resident Distress Rates for those in the 51 counties declared as under a state of emergency by Governor Ron DeSantis.
- Scenic Stays Vacation Rentals in Northwest Florida has a 35% discount with promotion code MILTON. Go to myscenicstays.com or call 850-407-2244 to book.
- Sandestin Golf and Beach Resort has extended special offers for Evacuees and First Responders in need of accommodations in the event of an evacuation. Please see the linked pages below for more information.

AMERICAN OVERSIGHT

    - EVACUEES Good for stays through October 31. Book by October 29
    - FIRST RESPONDERS Good for stays through December 31. Book by December 29
- The Florida SBDC Network is coordinating with regional offices and stakeholders to better understand impacts to small businesses and share information about state resources.

- The **Office of Financial Regulation (OFR)** offers online resources to Floridians who may need help finding information about their financial services provider(s), including state-chartered banks and credit unions, mortgage servicers, and other financial businesses and professionals.
- OIR, in coordination with the Florida Department of Health (DOH), sent information regarding early prescription refills permitted under Executive Order 24-215. This information was sent to the public, health insurers, managed care organizations, pharmacy benefit managers, pharmacy chains, and health care providers. Information can be found here.

- The **Department of Revenue (DOR)** has the following update: Florida law allows exporters, petroleum carriers, and importers to request a temporary fuel tax license during a disaster or declared state of emergency. Out-of-state applicants are not required to submit a fee, secure bonding, or undergo a background check if they apply for and receive a temporary fuel tax license. Visit the Florida Fuel Tax webpage for more information on Florida's temporary fuel tax licensing program: floridarevenue.com/taxes/taxesfees/Pages/fuel.aspx

- The **Florida Department of Management Services (DMS)** has deployed 206 Starlinks for Hurricane Milton.

- The **Florida Department of State (DOS)** Division of Elections has been reaching out to Supervisors to assess their needs post storm. The Division is prepared to coordinate communications between county Supervisors of Elections and appropriate disaster agencies, if needed. We have also reached out to United States Postal Service (USPS) regarding concerns about elections information and vote-by-mail ballots during this time. The Florida Department of State will continue to follow up with Supervisors throughout this time as their needs evolve.

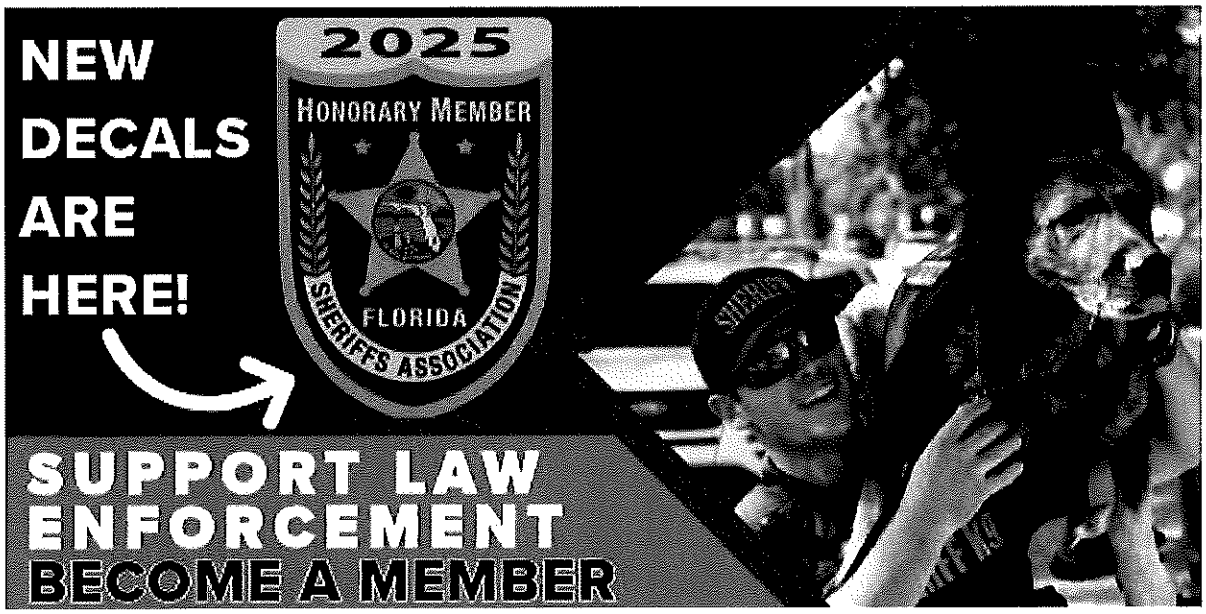
Sheriffs,



Attached is the FDLE Situational Report and the FSA Daily Watch log:

10/15	8:00am S. Cole/FSA Desk Morning update of deployments: • The response teams from Brevard SO, Escambia SO, and Ramsay SO (MN) demobilized this morning from Hillsborough County Mission 0124. • Bay SO, Okaloosa SO, and Santa Rosa SO plan on demobilizing from Hillsborough Mission 0124 tomorrow on 10/16. • Leon SO and Collier SO in Pasco Mission 973 are planning on demobilizing on Tuesday 10/22. • Taylor County Mission 4837, Citrus SO is on scene with 16 sworn and 2 support. • Taylor County Mission 4705, Leon SO will demobilize from this mission this afternoon. 8:50am Tuesday Field Reports distributed. 9:00am Daily IAP distributed. 9:20am Virtual RLECT check in contact provided to Cpt. Lambert/Citrus SO for their deployment. Contact is FDLE SAS Albert Willia (850) 879-3443. 10:00am FDLE ESF16 Partners Meeting. Any assets demobilizing from Milton should check out with the established RLEC either in-person at the base camp at the Tampa Airport of virtually by phone 813-917-0169 or email TBROCRLECT@fdle.state.fl.us. The 10:00am ESF16 partners call is being canceled pushing forward. 11:30am Mission 05034 public fuel site at the Wireglass Mall in Pasco County. FPCA assets from North Miami PD and Biscayne Park arrived to cover this mission when FSA assets were working it for Pasco SO. It was confirmed that these public fuel sites throughout the area were a state mission and had been assigned to FHP and the National Guard. These assignments were turned over to FPCA. Sheriff Nocco was briefed on this.

CAPTAINS FOR CLEAN WATER

Support hurricane recovery and fishing guide relief

AMERICAN OVERSIGHT

Last week, Hurricane Milton caused coast-to-coast damage in Florida, including widespread storm surge, catastrophic tornados, damaging winds, and flooding rains. And in many cases—particularly along the Gulf Coast—areas already devastated by Hurricane Helene two weeks prior were again hit with major impacts.

It's times like this where *community* is more important than ever in supporting each other. Our organization was founded by fishing guides, and we'll always be rooted in the guide community, so supporting guides throughout difficult times like this is deeply important to us.

That's why we've teamed up with Hunter Leavine of the *Captains Collective Podcast* to help elevate his Guide Relief Initiative, which he set up to raise funds for full-time Florida fishing guides who have been severely affected by the storms.

The program not only allows you to give directly to those who have been significantly impacted—losing their homes, boats, and more—but it also allows those funds to get there as quickly as possible.

Head to his page to support fishing guides that have been hit hardest and help get them back on their feet.

AMERICAN OVERSIGHT

Lee County, Fla. — Tests taken after Hurricane Milton show that there is no increased risk of illness from swimming at Lee County beaches at this time.

Tests completed on Monday, October 14, 2024, indicate that the water quality at all Lee County beaches show an acceptable level of *Enterococcus* bacteria established by state guidelines. Test results are available at FloridaHealth.gov/HealthyBeaches.

For more information call 239-252-8200 or visit Lee.FloridaHealth.gov.

genasys

Message from Richard Danforth, CEO, Genasys

Our thoughts are with those recovering from Hurricane Helene and Hurricane Milton. At Genasys, we are committed to enhancing public and personal safety in increasingly complex emergency environments. From data-driven evacuation planning to mass notifications, our solutions are helping communities and people stay informed, manage resources, and coordinate response efforts effectively.

As we continue to expand our public safety coverage, from protecting Puerto Rico's dam systems to providing protective communications for the state of Oregon, our commitment, first and foremost, is to keeping emergency responders and the public safe during these unprecedented weather events.

Stay safe,
Richard Danforth

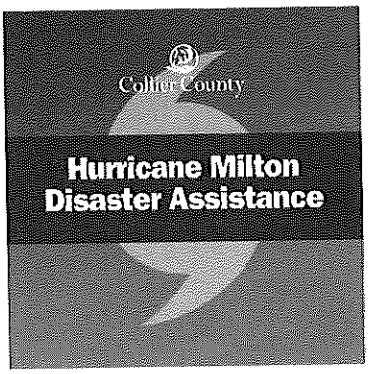
GOVERNMENT UPDATES

Hurricane cleanup efforts in Bonita Springs

GOVERNMENT UPDATES



What do you do with sandbags?

If you do return sand to the beach, make sure it is free of organic or construction debris and take care not to place it over any plants.

GOVERNMENT UPDATES

Post Hurricane Milton recovery resources

AMERICAN OVERSIGHT

FL-LEE-24-2340-A-003938

Debris should be placed on the curbside, without blocking the roadway or storm drains. (Image courtesy of the City of Bonita Springs)

Recovery efforts are underway in the City of Bonita Springs following Hurricane Milton. Residents are asked to place any storm-generated debris on the public right-of-way, which is the area of residential property that extends from the street to the sidewalk, ditch, utility pole or easement. Any debris placed from the sidewalk toward your property will not be picked up.

Separate storm-related debris and regular household trash into these categories:

- Normal household trash
- Vegetative debris
- Construction and demolition debris
- Appliances and white goods
- Electronics
- Household hazardous waste

The city will make multiple passes in order to ensure all debris is collected.

– Emiline Tiburcio, C2 Communications

New Florida laws that went into effect Oct. 1

(Image courtesy of Big Stock Photo)

While cleanup and recovery efforts are underway, it is important to remember that hurricane season is not yet over. Southwest Florida residents should keep their sandbags stacked and out of the sun for potential future use.

In a recent notice from the City of Naples, residents were reminded that sandbags SHOULD NOT be dumped on the beach. However, clean sand that is free of any debris can be returned to the beach without permit according to the Florida Department of Environmental Protection (FDEP).

For additional information, please contact Natalie Hardman, natural resources manager for the City of Naples at (239) 213-1031.

– Emiline Tiburcio, C2 Communications

Homes and businesses impacted by both Hurricane Helene and Milton must report damages and apply for assistance separately. (Image courtesy of Collier County)

Collier County residents impacted by Hurricane Milton are encouraged to take necessary steps for recovery:

- Submit a claim with your insurance provider.
- Complete the unmet needs applications to determine current and eligible resources to help in your recovery.
- Register at Federal Emergency Management Agency (FEMA) if you experienced property damage to your home or business to receive repairs, replacements, temporary housing and other essential services.

Want to help those in need? Financial contributions can be made through the Collier Comes Together Fund. They also welcome individuals and group volunteers to assist in the recovery process.

Request your Vote-by-Mail ballot by Oct. 24!

Don't wait until the last minute to get election ready. To learn more about the General Election, submit a Vote-by-Mail ballot request or check your voter information, visit CollierVotes.gov. (Image courtesy of Collier County Supervisor of Elections)

The Vote-by-Mail ballot request deadline is next week. Individuals who wish to vote by mail for the upcoming election must submit their Vote-by-Mail ballot request by 5 p.m. on Thursday, Oct. 24.

Voted ballots can be mailed to our office or dropped off at a Secure Ballot Intake Station located at our main office, satellite offices or any of our early voting locations during early voting hours.

Early voting will take place from Oct. 21 through Nov. 2. Polls will be open daily from 9 a.m.-6 p.m.

To submit your Vote-by-Mail ballot request, call (239) 252-8683 or visit Colliervotes.gov.

LOCAL BUSINESS FEATURE

From the management of evidence to flood disclosures and motor vehicle registrations, learn more about new laws at CollierClerk.com. (Image courtesy of the Governor's Office)

Since the start of the year, Gov. DeSantis has signed over 180 bills from the 2024 Legislative Session into law that went into effect on July 1.

Notable laws include allowing patriotic organizations in schools, HOA fine limits and transparency, and changes in eviction laws.

In addition to these, 34 new laws have been set into effect starting Oct. 1. These laws range from fiscal policies, governmental oversight and accountability, judiciary, regulated industries, vehicles and more.

In my newsletter, I shared 10 laws related to services that are offered at the Collier County Clerk of Courts and Comptroller's Office. Read more here.

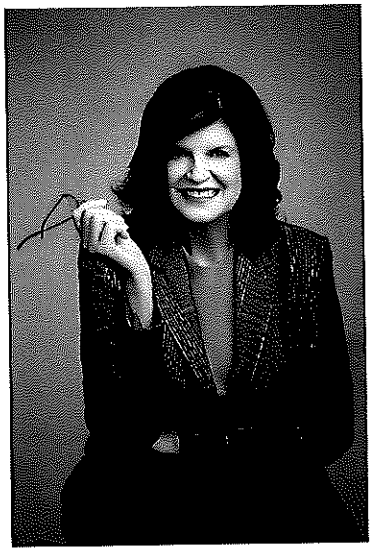
Halloween in the Park in Bonita Springs

"We believe that convenience isn't just a luxury in healthcare; it is a vital part of helping our clients live life to the fullest. Our mission is to provide care that is comprehensive, convenient and collaborative, regardless of where clients are at on their wellness journey." – Dr. Jonathan Marsh. (Image courtesy of Naples Concierge Health)



Naples Concierge Health brings together three physicians and their decades of medical expertise in longevity medicine, executive health, geriatric medicine and coordinating care for patients with complex medical diagnoses.

Over the past year, Dr. Marsh has worked with partner physicians Dr. Soltana Kuliyeva and Dr. Linda Lucombe to chart pathways to success for a broader range of clients that don't feel their needs are being met through a traditional primary care physician. The foundation of each pathway is clearly defining patient lifestyle and personal goals, conducting preventive screenings and collaborating with the client to establish benchmark milestones for measurable progress.

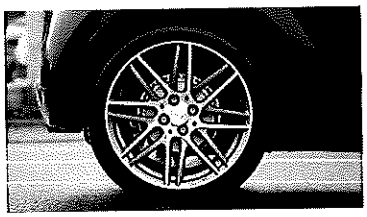
BUSINESS PERFORMANCE

4-day work week



There are many models of four-day work weeks. Take a strategic look at what your business can do to create a better work- life balance while increasing productivity. Check out 4dayweek.com. (Image courtesy of Unsplash)

While the four-day work week has recently gained steam, my dad instituted it for his architectural firm in the 1970s. But unlike today's trend of shortened hours, he set strict criteria. Be at your desk working without interruption from 7:30-10:30 am. with 45 minutes for lunch. Save personal appointments for Fridays, and if a holiday falls during the week, you work on that Friday.

Since COVID, employers

Most overrated 'premium' feature on luxury cars

Big wheels are one of the first things we visually associate with luxury cars – which is funny to me, because in practice they're the antithesis of "luxury." (Image courtesy of Mike Bird via Pexels.com)

Like the jump from Economy to Business Class, luxury cars generally provide a holistic, head-to-toe improvement. You'll get a bigger engine, better performance, comfier seats and more.

But funny enough, the most common luxury car "upgrade" is actually a downgrade in disguise. Big, beautiful 19" wheels may look stunning, but by leaving less rubber between you and the road, they lead to a rougher ride, increased road noise and more expensive tires to replace.

I don't mind because I love the look - but there's no denying that big wheels are the "high heels" of cars, trading comfort for cosmetic appeal.

Lee County offers guidance to reuse or dispose of sandbags following Hurricane Milton

Fort Myers, FL, Oct. 16, 2024 – Residents who picked up sand and sandbags from their local fire department in anticipation of Hurricane Milton are asked to save the sandbags for reuse, use them around their home, or properly dispose of them.

Sandbag do's:

- Sand from bags that were not soiled by stormwater can be emptied in your yard, flowerbeds and planters as a soil supplement.
- Consider keeping sandbags for reuse. Hurricane season doesn't end until Nov. 30. Store them filled if you have space. Or empty the clean sand and store the bags in a dry location away from direct sunlight.
- Place empty bags (but not sand) in your trash can if you don't plan to reuse them.
- Sand or sandbags that cannot be reused can be taken to any of the four Lee County self-haul public debris drop-off sites:
  - 5031 Pine Island Road, Bokeelia, FL 33922
  - 50 South Road, Fort Myers, FL 33907
  - 18078 Cypress Point Road, San Carlos Park, FL 33967
  - 13801 Orange River Blvd., Buckingham, FL 33905

Sandbag don'ts:

- Don't take sandbags back to the fire station – either reuse clean sandbags or discard soiled sandbags properly.
- Don't place empty sandbags in the recycle bin.
- Don't dump sand from bags onto the beach.
  - The sand is different than beach sand. This can cause issues for wildlife.
- Don't dump sand from bags on outdoor sand volleyball pits in county parks.
- Don't dispose of any sand or full sandbags in regular trash or yard waste collection.
  - The sand will not burn in trash incinerators and can damage equipment.
- Don't burn sandbags in outdoor fire pits.
- Don't dump your sandbags on private property or any unauthorized location.
  - This is considered illegal dumping. Anyone found illegally dumping may be fined.

Hurricane Milton Update

During Tuesday's Board meeting, staff provided an update on Hurricane Milton. Here are some highlights:

- Debris collection has begun and four self-haul sites have been opened.
- Shelters provided a safe place for approximately 9,600 evacuees.
- Coordination with more than 100 partnering agencies continues.

We are on the path to recovery with the help of all Lee County staff and our local, state and federal partners. Watch the video on the left and visit ***leegov.com/storm*** for more information on recovery activities.

Transportation Improvements in Lehigh

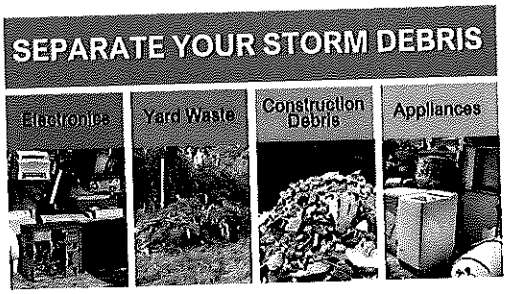
The Lee Board of County Commissioners continued its commitment to improving transportation infrastructure in Lehigh Acres with several votes for projects on Tuesday.

Projects include a 4.2-mile sidewalk project along Bell Boulevard, the expansion of Sunshine Boulevard to four lanes, repaving more than 40 roadway segments (approx. 24.6 miles) in eastern Lehigh Acres and a pedestrian bridge along Bell Boulevard North crossing over Jim Canal.

These projects, all in different phases, will provide improved pedestrian safety and increased connectivity for commuters once complete.

Learn More

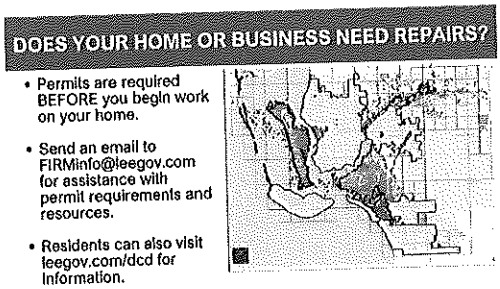
Rutenberg Park Expansion



Rutenberg Park is getting an exciting expansion that will bring additional amenities and accessibility to park-goers.

The $3.2 million contract, awarded Tuesday, includes:

- Eight lighted pickleball courts, four of which will be covered
- Shade structure
- ADA-compliant restrooms
- An office building
- Parking lot improvements
- New sidewalks
- A paved walking trail



Rutenberg Park first opened in 1977. Other facilities at the park include tennis and racquetball courts, football and baseball fields, a playground and a pavilion.

LeeCountyPIO@leegov.com

Lee County to host temporary permitting office in Island Park to help residents to obtain permits for repairs to Hurricane Helene- and Hurricane Milton-damaged buildings

Fort Myers, FL, Oct. 16, 2024 – The Lee County Department of Community Development will open an additional temporary, remote permit office at Rayma C. Page Elementary School, 17000 S. Tamiami Trail, Fort Myers, FL 33908, from 9 a.m. to 3 p.m. Saturday, Oct. 19, to allow Island Park residents to obtain permits for repairs to existing buildings damaged by Hurricane Helene and Hurricane Milton.

The entry into the temporary permit office will be on the south side of the school. The remote location means staff will be readily accessible to help Island Park-area residents navigate the permit process, especially those residents without internet service.

Residents must be Island Park residents to use the temporary location. Residents acting as their own contractor can submit permit applications, have them reviewed and – in some cases – issued from the remote office. The applicants need only a description of the work and their address, and staff will walk them through the process.

Hired contractors are asked to continue to use the existing electronic permitting process. Residents seeking a full demolition or complete replacement of a structure still need to visit the main Department of Community Development permitting office at 1500 Monroe St., Fort Myers.

Lee County Government is reminding residents in unincorporated areas to pull permits for work on their homes to repair storm damage caused by Hurricane Helene or Hurricane Milton.

Any unincorporated Lee County residents or businesses within the Special Flood Hazard Area with any damage to their homes or businesses, including water intrusion, must obtain a permit for all repairs. Email FIRMinfo@leegov.com for assistance with permit requirements and resources, and be sure to include the following information:

- Contact information

AMERICAN OVERSIGHT

- Property address
- Type of damage
- Height of the water that entered the home

Residents also can find more information at www.leegov.com/dcd/BldPermitServ/disaster-recovery or by calling 239-533-8948.

The county may add additional temporary, remote permitting office locations in unincorporated Lee County as needed.

An existing remote operation is set up on Pine Island. Learn more about that location here.

Lakes Park reopens this Friday following Hurricane Milton; Parks & Rec announces rescheduled Fall Festival events

Fort Myers, FL, Oct. 16, 2024 – Lakes Park will reopen at 6 p.m., Friday, Oct. 18, and Hurricane Milton-postponed Fall Festival events will begin.

Reopening updates:

- Park hours: Vary, depending on what you plan to do.
  - 7 a.m. to 9 p.m. for Fall Festival events.
  - 7 a.m. to dusk for other park amenities - regular park operating hours.
- Main Train Playground remains closed due to Hurricane Milton.
- Small playground near Shelter D-1 remains open and closes at dusk.
- Splash pads remain closed due to Hurricane Ian.

Fall Festival events resume:

- The Fall Festival, Oct. 18-31, will include a pumpkin patch, bounce houses, hayrides, Scarecrows in the Park, the very popular Halloween Express train and concessions. Event hours are:
  - **Halloween Express train ride hours:**
    - 6 to 9 p.m., Monday-Friday
    - 10 a.m. to 9 p.m., Saturday & Sunday
    - Ends Thursday, Oct. 31
  - **Pumpkin Patch hours:**
    - 6 to 9 p.m., Monday-Friday
    - 10 a.m. to 9 p.m., Saturday & Sunday
    - Ends Sunday, Oct. 27
  - **Scarecrows in the Park:**
    - 6 to 9 p.m., Monday-Friday
    - 10 a.m. to 9 p.m., Saturday & Sunday
    - Ends Sunday, Oct. 27
  - Parking for the Fall Festival event is $3 per vehicle. Prices vary per activity.

Sheriff Marceno,

If your city was impacted by hurricane Milton, we hope you and your department are doing well after the devastation it caused and that the days ahead bring a speedy recovery.

ADL's Law Enforcement Award nomination process is open and there are only 9 weeks left until the deadline of December 13, 2024.

Attached you will find this year's nomination form which can also be found on our website if you follow the link- 2024 ADL's Excellence in Law Enforcement Nomination Form.

ADL's Excellence in Law Enforcement nominee should have demonstrated an overwhelming commitment and contribution towards one or more of the following:

- Combatting hatred and bigotry proactively and/or reactively by making an impact on victim(s) of hate crimes and/or bias-motivated incidents; providing opportunities for education to reduce hate crimes and bias-motivated activity; and/or using innovative approaches to enforce or prosecute hate crimes laws.

- Fighting extremism and terrorism by identifying and countering emerging threats; applying innovative investigative techniques to disrupt and/or prevent domestic extremism and terror attacks; and/or utilizing current laws in inventive ways to prosecute extremists and terrorists.

- Working to create a more just and inclusive society by making structural change from within law enforcement agencies and departments to make them mirror the communities they serve, embracing the ideals of community policing and breaking down barriers between law enforcement and marginalized peoples.

Let us highlight the outstanding work of your colleagues in law enforcement. The deadline is December 13, 2024

For more information on the award please visit: http://florida.adl.org/initiatives/award/ or email SouthernLE@adl.org
