**Re: Public Records Request**

Dear Public Records Officer:

Pursuant to Article I, section 24(a), of the Florida Constitution, and Florida's public records laws, as codified at Fla. Stat. Chapter 119, American Oversight makes the following request for records.

**Requested Records**

American Oversight requests that your office promptly produce the following:

1. All email communications (including emails, email attachments, complete email chains, calendar invitations, and calendar invitation attachments) between (a) any of the officials listed below, and (b) any of the external entities or individuals listed below or anyone communicating on their behalf (including, but not limited to, at the listed email addresses and domains).

Bradford County Sheriff's Office Officials:

- i. Sheriff Gordon Smith (or anyone communicating on his behalf, such as an assistant, scheduler, or secretary)
- ii. Chief Deputy Brad Smith

External Entities and Individuals:

- a. Border 911 (border911.com)
- b. Donald J. Trump for President 2024 and/or Trump Save America Joint Fundraising Committee (donaldjtrump.com, trump.com, trumphotels.com, donaldtrump.com, 45office.com, djtfp24.com)
- c. Eric Trump
- d. Howard Lutnick
- e. JD Vance
- f. Kristi Noem
- g. Linda McMahon
- h. President-elect Donald Trump
- i. Presidential Transition Team (ptt.gov)
- j. Republican National Committee (gop.com, rnc.org)

- k. South Dakota Governor's Office ([state.sd.us](http://state.sd.us))
- l. Stephen Miller
- m. Susan "Susie" Wiles
- n. Thomas "Tom" Homan
- o. Trump Vance 2025 Transition Inc ([trumpvancetransition.com](http://trumpvancetransition.com))
- p. U.S. Immigration and Customs Enforcement ([ice.dhs.gov](http://ice.dhs.gov))

Please note that American Oversight does not seek, and that this request specifically excludes, the initial mailing of news clips or other mass-distribution emails. However, subsequent communications responding to or forwarding such emails are responsive to this request. In other words, for example, if an official received a mass-distribution news clip email from Border 911, that initial email would not be responsive to this request. However, if the official forwarded that email to another listed individual with their own commentary, that subsequent message would be responsive to this request and should be produced.

- 2. All email communications (including emails, email attachments, complete email chains, calendar invitations, and calendar invitation attachments) sent by any of the officials listed above in part 1 and containing any of the key terms listed below.

Key Terms:

- a. deport
- b. "detention camp"
- c. "expedited removal"
- d. "national emergency"
- e. "mass detention"
- f. "287 g"
- g. 287g
- h. 287(g)
- i. "287 (g)"
- j. Trump
- k. Homan
- l. Kristi
- m. Noem

In an effort to accommodate your office and reduce the number of potentially responsive records to be processed and produced, American Oversight has limited part 2 of this request to emails sent by the specified individuals. To be clear, however, American Oversight still requests that complete email chains be produced, displaying both sent and received messages. This means that both an individual's response to an email and the initial received message are responsive to this request and should be produced.

**For both parts of this request, please provide all responsive records from November 5, 2024, through the date the search is conducted.**

Please notify American Oversight of any anticipated fees or costs in excess of \$100 prior to incurring such costs or fee.

Please search all locations and systems likely to have responsive records regarding official business. **You may not exclude searches of files or emails in the personal custody of your officials, such as personal email accounts.** Emails or texts conducting government business sent or received on the personal account of the government official constitutes a record for purposes of Florida's public records laws.<sup>1</sup>

In addition, American Oversight insists that your agency use the most up-to-date technologies to search for responsive information and take steps to ensure that the most complete repositories of information are searched. American Oversight is available to work with you to craft appropriate search terms. **However, custodian searches are still required; your office may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.**

In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release.

Please take appropriate steps to ensure that records responsive to this request are not deleted by your office before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

To ensure that this request is properly construed, that searches are conducted in an adequate but efficient manner, and that extraneous costs are not incurred, American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your agency can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in electronic format by email or in PDF or TIF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will accelerate release of responsive records to American Oversight, please also provide responsive material on a rolling basis.

### **Section 119.12 Notice**

---

<sup>1</sup> *Cf. State v. City of Clearwater*, 863 So. 2d 149, 154 (Fla. 2003) (“The determining factor is the nature of the record, not its physical location.”).

This document provides written notice identifying American Oversight's public records request to your agency's custodian of public records in compliance with Section 119.12(1)(b) of the Florida Statutes. Should your agency fail to comply with its obligations under Florida's public records laws, American Oversight may be prepared to file suit to enforce the provisions of Fla. Stat. Chapter 119.

### **Conclusion**

American Oversight is a 501(c)(3) nonprofit with the mission to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and X (formerly Twitter).<sup>2</sup>

We share a common mission to promote transparency in government. American Oversight looks forward to working with your agency on this request. If you do not understand any part of this request, have any questions, or foresee any problems in fully releasing the requested records, please contact Danny Martinez at [records@americanoversight.org](mailto:records@americanoversight.org) or 202.897.2465.

Sincerely,

**Subject:** Updated Q2 and Q3 data from ICE

Greeting stakeholders:

[ICE enforcement and removal statistics for Q2, Q3 of FY 2024 reflect nearly 70% increase over Q3 of FY 2023 | ICE](#)

U.S. Immigration and Customs Enforcement (ICE) today updated its [Enforcement and Removal Operations statistics page](#) with data from the second and third quarters of Fiscal Year (FY) 2024. In the third quarter, ICE removed nearly 68,000 individual noncitizens — almost 1,000 more than in the second quarter. This reflects a 69% increase over removals during the third quarter in FY 2023 and is more than 140% of ICE removals for all FY 2023. The data demonstrates the agency’s dedication to optimizing its resources to enforce U.S. immigration laws in the U.S. interior and remove individuals and families who have no legal basis to stay in the country. The data in the dashboard is independent from and does not include removals and returns by U.S. Customs and Border Protection (CBP), or expulsions under the Title 42 public health order, which ended in May 2023.

The ICE Enforcement and Removal Operations (ERO) dashboard currently displays enforcement data spanning FY 2021 through the third quarter of FY 2024 and tracks arrests, detention, removals, and enrollments into ICE’s Alternatives to Detention (ATD) program.

The ERO statistics page includes the following information:

- **Arrests:** Arrest data is available based on criminality, including noncitizens with U.S. criminal convictions, those with pending charges, and those with no convictions or pending charges but who have violated U.S. immigration laws. It also includes those who have repeatedly violated U.S. law by reentering after deportation or removal, immigration fugitives with final orders of removal from immigration judges who remain in the United States, and international fugitives wanted for crimes committed abroad.
- **Detention:** Detention data is available by country of citizenship and criminality. Most detained individuals are transferred from CBP custody following their apprehension at the border. Those with final orders of removal who will be imminently removed and those who are in mandatory detention or pose risks to national security or public safety are also in detention.
- **Removals:** ICE removals under Title 8 immigration authority include noncitizens processed by CBP for expedited removal or voluntary return who are turned over to ERO for detention and removal. Removal statistics highlight ERO’s commitment to fulfilling its important national security, public safety, and border security missions, including high-profile removals of fugitives wanted for serious crimes in other countries. ERO is typically made aware of these individuals via Interpol notices. Other high-profile removals include known or suspected terrorists, those involved in counterproliferation crimes and those on the terrorist watch list or the no-fly list.
- **Alternatives to Detention:** The ATD program uses technology and case management to more closely monitor cases assigned to ICE’s non-detained docket. Officials assign participants a supervision level and the appropriate technology based on their current immigration status, criminal history, compliance history, community, or family ties, being a caregiver or provider, and the presence of other humanitarian

factors or medical conditions. ATD data includes technology types assigned to participants, such as proprietary hardware, GPS monitoring, telephonic reporting or, in some cases, no monitoring.

ERO identifies and arrests unlawfully present or otherwise removable noncitizen individuals and families without legal basis to stay in the country. Officers exercise prosecutorial discretion and prioritize enforcement actions based on department and agency priorities and other factors.

Greetings stakeholder:

### **ICE updates policies on use of Special Management Units**

WASHINGTON – U.S. Immigration and Customs Enforcement announced today policy updates for the use of Special Management for detained noncitizens. This update closes out recommendations contained in a 2021 [report](#) by the Department of Homeland Security’s Office of Inspector General.

The updated Enforcement and Removal Operations policy focuses on how ICE tracks and reports the use of segregation and adds additional emphasis for ensuring the safety and welfare of detained noncitizens and facility staff as well as how the agency records and tracks these placements.

Special Management Units (SMUs) include housing units for noncitizens in administrative, non-punitive segregation or disciplinary segregation at ICE detention facilities.

ICE provides several levels of oversight of SMUs to ensure detained noncitizens reside in safe, secure, and humane environments. All ICE-approved detention facilities are inspected by a third-party inspection team to ensure the applicable detention standards are met. ICE publishes current [detention statistics](#), which includes data for vulnerable and special populations.

## **ICE releases Fiscal Year 2024 Annual Report**

**WASHINGTON** — U.S. Immigration and Customs Enforcement released its Fiscal Year 2024 Annual Report, which highlights the agency’s primary missions of immigration enforcement and combating transnational crime.

In FY 2024, ERO worked to improve its operational efficiency through several modernization initiatives, continued its interior enforcement efforts, cared for all noncitizens in ICE custody, and delivered case management services to those on the non-detained docket while optimizing the agency’s removal capabilities to manage the large influx of border crossers.

“Every year, our workforce faces tremendous challenges — but every year, they meet those challenges head-on,” said ICE Deputy Director and Senior Official Performing the Duties of the Director Patrick J. Lechleitner. “I believe we have one of the most adaptable and agile workforces in the federal government. Our federal law enforcement officers, special agents, mission support staff and others are always tasked with doing more despite having fewer resources at our disposal, and their hard work and dedication to serving the American people truly keep this agency running smoothly.”

### **Enforcement and Removal Operations**

As a result of ICE’s efforts, and despite ongoing resource constraints, in FY 2024, ICE removed more people without legal basis to remain in the United States than it did in any other fiscal year since 2015.

ICE continued to prioritize its enforcement resources by arresting noncitizens with criminal convictions or pending charges. Over 81,312 (71.7%) of the 113,431 arrests were of noncitizens with criminal convictions or pending charges. In contrast, 73,822 (43%) of the 170,590 noncitizens arrested in fiscal year 2023 had criminal histories.

The 81,312 noncitizens with criminal histories arrested had a combined total of 516,050 charges and/or convictions, which include the following serious and violent offenses:

- 57,081 assaults.
- 18,579 sexual assaults and sex offenses.
- 12,895 weapons offenses.
- 11,822 burglaries.
- 5,462 robberies.
- 2,894 homicides.
- 2,766 kidnappings.

During FY 2024, ERO arrested 3,032 criminals and assisted with 3,012 criminal indictments and 3,014 criminal convictions for violations of the U.S. Code, primarily under Title 8.

In the same time period, ERO issued 149,764 [immigration detainers](#) for noncitizens with criminal histories — an increase of 19.5% from fiscal year 2023, when it issued 125,358 detainers. Detainers are critical public safety tools

that ask federal, state and local law enforcement agencies to maintain custody of a noncitizen for up to 48 hours beyond the time they would otherwise be released. This allows ERO to arrest noncitizens in safe, custodial settings.

ERO's limited detention capacity was primarily used to house two populations in FY 2024: Noncitizens U.S. Customs and Border Protection arrested at the southwest border and were subsequently transferred to ERO custody and noncitizens with criminal histories ERO arrested in the U.S. interior. The number of noncitizens in ERO custody increased from 36,845 at the end of FY 2023 to 37,684 at the end of FY 2024.

Of the 271,484 ERO removals, 88,763 (32.7%) had criminal histories. Of the 271,484 ERO removals, 88,763 (32.7%) had criminal histories. These include many serious charges or convictions for offenses, including the following:

- 47,885 assaults.
- 16,552 sexual assaults and sex offenses.
- 10,862 weapons offenses.
- 9,453 burglaries.
- 4,906 robberies.
- 2,699 homicides.
- 2,423 kidnappings.

Of the 271,484 individuals removed, 237 were known or suspected terrorists, a 70.5% increase compared to fiscal year 2023, and eight were human rights violators for an increase of 33.3% compared to fiscal year 2023.

ERO is committed to keeping people in its custody safe. This includes responding quickly and effectively to the medical needs of those in ICE custody. During fiscal year 2024, the ICE Health Service Corps operating budget approached \$421.5 million, providing medical and dental health services to over 138,000 noncitizens during 1.3 million visits.

Most noncitizens remained on ICE's non-detained docket, which by the end of fiscal year 2024 increased by about 24.6%, from 6.1 million noncitizens at the end of fiscal year 2023 to more than 7.6 million at the end of fiscal year 2024. The non-detained docket includes noncitizens who participate in ERO's Alternatives to Detention-Intensive Supervision Appearance program, which tallied more than 179,000 participants at the end of FY 2024. The ATD-ISAP program provides an additional layer of supervision to ensure compliance with release conditions for certain adult noncitizens.

### **Homeland Security Investigations**

Using its unique border authorities and international partnerships, Homeland Security Investigations made significant contributions to the U.S. government efforts against transnational crime. In fiscal year 2024, HSI made 32,608 arrests, identified and/or assisted 1,783 victims of child exploitation, and assisted 818 human trafficking victims. Additionally, it seized \$886 million in criminally derived currency and assets and over \$192 million in virtual currency, dealing a significant blow to TCO operations and criminals seeking to profit from illicit crimes.

HSI continued to play a key role in the U.S. government's efforts to combat the opioid epidemic and seized more than 1.6 million pounds of narcotics in FY 2024 — including 42,800 pounds of fentanyl, pills and other lethal substances — through law enforcement initiatives such as Operation High Capacity, which resulted in the seizure of over 3,500 pounds of fentanyl and associated chemicals, over 800,000 pills and 13 pill presses. In FY 2024, HSI received three White House Office of National Drug Control Policy awards.

HSI plays a pivotal role in the fight against online child exploitation. In April 2024, the DHS Cyber Crimes Center launched the Know2Protect campaign to prevent and combat online child sexual exploitation and abuse by raising public awareness, providing reporting instructions, and sharing resources for victims. In partnership with several

professional sports leagues and tech companies, K2P made significant progress in raising public awareness of online child exploitation.

HSI continued to disrupt and dismantle the human smuggling networks that exploit and endanger migrants attempting to illegally enter the United States. HSI is the lead agency in nearly all Joint Task Force Alpha-supported human smuggling investigations. JTFA is a law enforcement effort between the Department of Justice and DHS against human smuggling networks. In fiscal year 2024, JTFA efforts resulted in about 68 criminal arrests and 25 convictions, and it seized about \$1.3 million in currency and assets.

HSI also targeted all aspects of transnational criminal organizations by shutting down dark web vendors, denying cartels the firearms and illicit proceeds that fuel their operations, and collaborating with law enforcement partners across the United States and around the world to dismantle the criminal networks.

HSI's partnership with 600 foreign law enforcement personnel assigned to 14 Transnational Criminal Investigative Units in 17 countries resulted in 2,382 criminal arrests and millions seized in illegal narcotics, firearms, real estate, U.S. currency, virtual currency, and other forms of criminal proceeds and assets.

As part of our regular communication on DHS and ICE related matters, below are a few updates that may be of interest to you. We value your partnership and look forward to our continued communication and collaboration.

**ICE Office of Partnership and Engagement (OPE) – OPE Customer Service Management (CSM)**

On December 9<sup>th</sup> ICE OPE released a new communication management tool – OPE CSM.

The ICE OPE Customer Service Management (CSM) is a portal where stakeholders can ask questions, share inquiries, provide feedback, and request engagements and speakers. The (CSM) streamlines communication with a broad range of stakeholders who seek agency/program specific information, collaboration, assistance, partnership, or dialogue/engagement with the U.S. Immigration and Customs Enforcement (ICE) including the Enforcement and Removal Operations (ERO), Homeland Security Investigations (HSI), and the Office of the Principal Legal Advisor (OPLA). It is a modernized process and system for stakeholders to connect with ICE Office of Partnership and Engagement (OPE) at Headquarters or OPE Community Relations Officers located in each ICE Field office, on agency law enforcement priorities policies, processes, procedures, services, programs, and information. The CSM is monitored, and requests are addressed by the Office of Partnership and Engagement (OPE) staff. To access the ICE/OPE CSM please click here: <https://outreach.ice.gov>

### **ICE updates policies on use of Special Management Units**

Special Management Units include housing units for noncitizens in administrative, non-punitive segregation or disciplinary segregation at ICE detention facilities.

WASHINGTON – U.S. Immigration and Customs Enforcement announced today policy updates for the use of Special Management for detained noncitizens. This update closes out recommendations contained in a 2021 [report](#) by the Department of Homeland Security's Office of Inspector General. The updated Enforcement and Removal Operations policy focuses on how ICE tracks and reports the use of segregation and adds additional emphasis for ensuring the safety and welfare of detained noncitizens and facility staff as well as how the agency records and tracks these placements. Special Management Units (SMUs) include housing units for noncitizens in administrative, non-punitive segregation or disciplinary segregation at ICE detention facilities. ICE provides several levels of oversight of SMUs to ensure detained noncitizens reside in safe, secure, and humane environments. Press Release: <https://www.ice.gov/news/releases/ice-updates-policies-use-special-management-units>

On November 25, 2024, U.S. Immigration and Customs Enforcement (ICE) today updated its [Enforcement and Removal Operations statistics page](#) with data from the second and third quarters of Fiscal Year (FY) 2024. In the third quarter, ICE removed nearly 68,000 individual noncitizens — almost 1,000 more than in the second quarter. This reflects a 69% increase over removals during the third quarter in FY 2023 and is more than 140% of ICE removals for all FY 2023. The data demonstrates the agency’s dedication to optimizing its resources to enforce U.S. immigration laws in the U.S. interior and remove individuals and families who have no legal basis to stay in the country. The data in the dashboard is independent from and does not include removals and returns by U.S. Customs and Border Protection (CBP), or expulsions under the Title 42 public health order, which ended in May 2023. The ICE Enforcement and Removal Operations (ERO) dashboard currently displays enforcement data spanning FY 2021 through the third quarter of FY 2024 and tracks arrests, detention, removals, and enrollments into ICE’s Alternatives to Detention (ATD) program. ERO identifies and arrests unlawfully present or otherwise removable noncitizen individuals and families without legal basis to stay in the country. Officers exercise prosecutorial discretion and prioritize enforcement actions based on department and agency priorities and other factors. ## **DHS Updates**

### **DHS Announces Permanent Increase of the Automatic Extension Period for Certain Employment Authorization Document Renewal Applicants**

On December 10, 2024 the Department of Homeland Security (DHS) announced a final rule that will support U.S. employers, foster economic growth, and improve access to employment authorization documents (EAD) for eligible individuals by permanently increasing the automatic extension period of employment authorization and employment authorization documentation from up to 180 days to up to 540 days for eligible noncitizens who file a timely request to renew their work authorization. This announcement responds to feedback from the business community to create more certainty for employers. Over the past several years, USCIS has significantly reduced processing times for EAD applications as part of its ongoing efforts to help support the U.S. economy, its employers, and those who Congress has made eligible to work here. This final rule continues these efforts by reducing the likelihood that lapses in employment authorization for eligible noncitizens will occur, while U.S. Citizenship and Immigration Services adjudicates their EAD renewal requests and better ensure continuity of operations for U.S. employers. The need is clear, as USCIS received and processed a record number of EAD applications this year. This is the latest step by the Biden-Harris Administration to keep eligible work-authorized individuals in the workforce, supporting our local economies, businesses, and communities. **S&T’s Year in Review: Building a More Secure Future in 2024 -12/9/24** - Reflecting on how the last 12 months shaped the Science and Technology Directorate’s (S&T) research and development efforts and strengthened our commitment to securing the nation. As years go, 2024 was truly one for the history books. It was a year of elections, with more than half the world’s population going to the polls to elect new leadership, including here in the United States. In industry, American innovation and ingenuity expanded well beyond our borders, reaching as far as flying a helicopter on Mars and landing a private U.S. craft on the moon. Back on Earth, U.S. athletes garnered a treasure trove of medals at the Paris Olympics, where security was silently ensured by international partners, including the Department of Homeland Security (DHS). Through it all, S&T was there—supporting search and rescue operations after [Hurricane Helene](#), response and recovery activities following the [Francis Scott Key bridge collapse](#), and security preparations at the [Super Bowl](#) safeguarding more than 61,000 players and attendees. We never wavered from our core mission to protect the homeland, ensure the safety of our citizens, and save lives should hazards hit. In fact, S&T rose to the many 2024 challenges by creating new innovations through scientific research, successes that strengthen our response capabilities today and will enhance our

security tomorrow, come what may. For more information please see: [S&T's Year in Review: Building a More Secure Future in 2024 | Homeland Security](#)

### **DHS to Supplement H-2B Cap with Nearly 65,000 Additional Visas for Fiscal Year 2025**

On November 15, 2024, the Department of Homeland Security (DHS), in consultation with the Department of Labor (DOL), announced that it expects to make an additional 64,716 H-2B temporary nonagricultural worker visas available for Fiscal Year (FY) 2025, on top of the congressionally mandated 66,000 H-2B visas that are available each fiscal year. These additional H-2B visas represent the maximum permitted under the authority provided by Congress and are identical to the additional temporary visas provided in FY 2024. DHS, in coordination with DOL, has authorized supplemental cap numbers in FY 2017, FY 2018, FY 2019, FY 2021, FY 2022, FY 2023, and FY 2024 in accordance with the time-limited statutory authority granted for each of those fiscal years by Congress. ### **DHS Announces \$210 Million of Additional Funds to Protect Faith-Based Institutions and Nonprofit Organizations Against Targeted Attacks**

October 1, 2024 - Funding Available Through Nonprofit Security Grant Program Notice of Funding Opportunity to be Published in Late October.

Today, the United States Department of Homeland Security (DHS) announced that it will distribute \$210 million in Nonprofit Security Grant Program (NSGP) funds through the Federal Emergency Management Agency as the second tranche of additional funding that the Biden-Harris Administration secured to protect faith-based institutions and nonprofit organizations against targeted attacks. This funding will be made available in a Notice of Funding Opportunity to be published in late October. The \$210 million in additional funds are a portion of the \$390 million that were included in the fiscal year 2024 National Security Supplemental, a key priority of the Administration as it continues to intensify its efforts to combat the dramatic increase in hate crimes and other forms of targeted violence against faith-based institutions and nonprofit organizations. The first tranche was [made available in June 2024](#). In total for fiscal year 2024, the Administration has secured \$664 million for the NSGP, more than double last year's \$305 million appropriation. The Notice of Funding Opportunity will be published in late October. For more information visit [FEMA.gov/Grants](#). ### **News Release: DHS S&T Updates Master Question List for Synthetic Opioids**

The Department of Homeland Security (DHS) [Science and Technology Directorate](#) (S&T) released an updated [Master Question List \(MQL\) for Synthetic Opioids](#). The MQL, a reference guide, presents the most critical, scientifically vetted information on the chemical and physical properties of synthetic opioids as well as the hazards they pose in operational settings. First released in 2021, this guide now includes new information about the physical properties of nitazenes, potent opioids that entered illicit drug markets in 2019 and can be 10 times stronger than fentanyl. The list also adds substantial new information about synthetic opioid detection and decontamination methods. This resource summarizes the latest research into synthetic opioids, helping experts identify knowledge gaps to focus investments and provides first responders with science-based guidance to protect themselves from opioid exposure. HS is fighting against cartels and Transnational Criminal Organizations that are flooding communities with illicit synthetic drugs, like fentanyl. Strategy involves enforcement actions, including seizures of fentanyl and precursor chemicals, along with stopping southbound guns and money, and supporting prosecutions to prevent future illicit acts. Together, these efforts led to the arrest of more than 4,800 people and helped seize over 37,000 pounds of illicit fentanyl in Fiscal Year 2024. U.S. Custom and Border Patrol's Office of Field Operations alone has prevented 1.1B doses from reaching American communities. Learn more at [DHS.gov/fentanyl](#). CSAC and S&T's Office of Mission and Capability Support's Opioid Detection Program collaborated with the Hazard Assessment and Characterization Technology Center and the Probabilistic Analysis for National Threats and Hazards and Risks program to develop the Synthetic Opioids MQL. The CSAC lab serves as a national knowledge and resource center for chemical threats and hazards. Related efforts delivered through CSAC include knowledge products used for detection and interdiction of illicit opioids, including a Fentanyl Synthesis Quick Reference Guide and the [Chemical Agent Reactions Database \(CARD\)](#) designed to help law enforcement identify harmful chemicals and what "chemicals of interest" could be produced from them.

The Synthetic Opioids MQL focuses on synthetic opioids commonly found in the illicit drug trade. S&T will continue to update the MQL periodically as new knowledge becomes publicly available. To read more about this go to [S&T Updates Master Question List for Synthetic Opioids | Homeland Security](#).

Sheriffs, et al:

We have received intelligence reports of members of the Tren de Aragua cartel, originating from Venezuela, operating in Florida. Many have been arrested but have not yet been sentenced to FDOC. This suggests that they are incarcerated in county jails awaiting trial.  
Please scroll down for registration information for a webinar being presented by Homeland Security regarding their activities.

**CAUTION:** This email originated from outside of FSA. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good morning everyone,

Wanted to share this webinar on: Tren de Aragua (TdA), December 16, 2024, at 2:00 - 3:30 pm ET

Briefings presented by various DHS Agencies to provide information about the current threat, what DHS and our partners are doing to address the increase in presence of TdA, and resources available to law enforcement across the country to combat transnational criminal organizations.

This webinar is for law enforcement officials and those who support law enforcement officials.

To attend open the attachment and click the link to register. Once registered further information will be provided.

Thank you and Happy Friday Eve!

We have received this request for public records from American Oversight. It requires an extensive email search. They advised to let them know if the cost to fulfill the request is expected to be over \$100. Please provide an estimate of what you think your search of our email records will be for this request prior to starting it. I will let you know if we will proceed based on their response. TIA

Sheriffs, et al:

We have received intelligence reports of members of the Tren de Aragua cartel, originating from Venezuela, operating in Florida. Many have been arrested but have not yet been sentenced to FDOC. This suggests that they are incarcerated in county jails awaiting trial.  
Please scroll down for registration information for a webinar being presented by Homeland Security regarding their activities.

Sheriffs,

The Florida Sheriffs Association is excited to announce a celebration event for the first elected sheriff of Miami-Dade County in almost 60 years. During the past few weeks, FSA staff have been working closely with Sheriff-elect Rosie Cordero-Stutz and her transition team and we are pleased to announce details for her swearing-in ceremony as well as an FSA hosted dinner the night before.

FSA has secured a hotel room block at Trump National Doral in Miami. There will be a reception and dinner on Monday January 6<sup>th</sup> beginning at 6:00 p.m. at the hotel. All details

about the dinner and swearing-in ceremony are listed below. Please use the link below to register for this event as well as reserving your hotel room. We look forward to an evening of honoring all your hard work in reestablishing the office of sheriff in Miami-Dade County.

### **Monday, January 6**

Trump National Doral Miami

Sheriffs,

The Florida Sheriffs Association is excited to announce a celebration event for the first elected sheriff of Miami-Dade County in almost 60 years. During the past few weeks, FSA staff have been working closely with Sheriff-elect Rosie Cordero-Stutz and her transition team and we are pleased to announce details for her swearing-in ceremony as well as an FSA hosted dinner the night before.

FSA has secured a hotel room block at Trump National Doral in Miami. There will be a reception and dinner on Monday January 6<sup>th</sup> beginning at 6:00 p.m. at the hotel. All details about the dinner and swearing-in ceremony are listed below. Please use the link below to register for this event as well as reserving your hotel room. We look forward to an evening of honoring all your hard work in reestablishing the office of sheriff in Miami-Dade County.

### **Monday, January 6**

Trump National Doral Miami

1. Reception: 6:00pm – 7:00pm
2. Dinner: 7:00pm – 9:00pm

Hi all,

I'm a reporter with Reuters, based in DC. Is the sheriff available this week to discuss his views on President-elect Trump's deportation effort and whether he intends to cooperate? My cell is 202-450-8633.

Best,

Ted
