EXTERNAL SENDER

Good morning,

As a follow up to our July 31 email, please follow this link to access an additional production of documents ("8.21.25 Documents") in response to your Request.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.

In addition, certain information has been redacted from today's production pending the determination from the Attorney General's Open Records Division on our request for a ruling.

We appreciate your patience as we continue to process your request in accordance with the terms of the PIA. We require additional time to review our records and produce additional responsive documents. We will provide you additional responsive documents on a rolling basis—to the extent such information is not excepted from disclosure under state or federal law—with our next production by 5:00 p.m. on October 9, 2025. *See* Tex. Gov't Code § 552.221(d).

Good afternoon,

As a follow up to our June 26 email, please see the attached letter, with enclosures, in response to your request for information under Chapter 552 of the Texas Government Code. The Open Records Division of the OAG generally issues rulings within 45 business days of receipt of the request for a decision. We will provide you with a courtesy copy of that ruling when we receive it.

Please follow this link to access an initial production of documents ("7.3.25 Documents") in response to your Request. Our Office has set up a file hosting service called "box" to enable us to send large file sizes more efficiently. Please let me know if you are unable to access the files and we can discuss an alternate method of delivery.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.
In addition, the information you requested contains access device numbers that are collected, assembled, or maintained by or for a governmental body. This information is confidential under section 552.136 of the Texas Government Code. Section 552.136 allows us to withhold this specific information without requesting a ruling from the attorney general. You have the right to appeal our decision to withhold this information from you. Instructions for appeal are attached. If you do not want to appeal, you do not need to do anything else.
Finally, the responsive information includes certain computer information, such as usernames, passwords, and other computer programming information, that is not subject to the Public Information Act because it "has no other significance than its use as a tool for the maintenance, manipulation, or protection of public

Dear NASS Elections Committee, Communications Directors and IT Directors:

No NASS Elections Committee Call This Thursday

Sorry, I know you're likely devastated, but we won't have a call this Thursday, May 8th.

SAVE Program at USCIS is Now Free and Has Bulk Uploads

The program still has one of the main sticking points, but the team we've been working with at USCIS

AMERICAN OVERSIGHT

has been working hard to deliver some incremental value based on your feedback. They've developed a bulk upload capability that allows those with voter registration and/or voter list maintenance benefit privileges to access and submit multiple cases using a standardized .csv file. It still requires users to have a DHS enumerator such as A# or Natz Certificate # but they are working on allowing for SSN in a future iteration. They plan on sending communications directly to those with a SAVE MOA to start with. If other states would like to enter into a SAVE MOA for voter verification purposes, then you can visit the public website here to get started. See the full announcement at the bottom of this email.

CISA Director Bridget Bean to Testify on Thursday, May 8 at 9AM ET at House Approps Subcommittee on Dept of Homeland Security

House Appropriations Subcommittee on the Department of Homeland Security will hold an oversight hearing on CISA on Thursday, May 8, 2025 at 9:00AM. Bridget Bean is the sole witness.

EAC Board of Advisors Met This Week

The EAC Board of Advisors (BOA) met yesterday and today (May 5-6) in DC to discuss a myriad of issues, including the Executive Order, Voter Registration List Maintenance, Post-Election Audits and Priorities for the BOA for the coming year. Secretary Simon (D-MN) and Secretary Schwab (R-KS) are our representatives to the BOA and Secretary Schwab is now the Chair of the BOA (until May 2026). We will share any notes and documents from the meeting.

H.R. 2968: "Business Over Ballots Act" Passes House Small Business Committee

The bill passed the House Small Business Committee late last week but is not yet scheduled for a floor vote. The bill limits the authority of the US Small Busine4ss Administration to facilitate access to voter registration.

Bulk Case Upload Capability Available for Voter Registration and/or Voter List Maintenance

Following Executive Order 14248, “Preserving and Protecting the Integrity of American Elections,” USCIS is modernizing SAVE’s voter verification services to include a bulk upload capability to create cases. This tool will only be accessible to registered SAVE agencies with legal authority to verify citizenship for voter registration, voter list maintenance, or both as outlined in their Memorandum of Agreement (MOA) with SAVE. Data required for cases entered through the bulk upload tool will mirror the existing SAVE system, however DHS enumerators will be limited to Alien Number and/or Citizenship or Naturalization Certificate Number. This is the first of multiple improvements that USCIS will be initiating in the SAVE System. Future updates will include the ability to submit a case in SAVE for voter verification purposes with other enumerators, such as a Social Security Number (SSN).

To simplify the upload process, SAVE will provide a template with required fields in a standardized data format. Any cases created in SAVE by state agencies individually or in bulk for voter registration or voter list maintenance will be exempt from SAVE transaction fees.

Note that user agencies must institute SAVE additional verification, when required by SAVE, in any voter verification case that does not initially verify as a naturalized or acquired citizen. If SAVE does not verify the case as a naturalized or acquired citizen after additional verification, the user agency is required to contact the individual to obtain proof of citizenship and provide the individual with an opportunity to contact DHS to correct their records prior to a final decision, as well as with any other rights available to the individual under state or other applicable law.

For additional information regarding SAVE’s voter verification services, please review the Voter Registration and Voter List Maintenance Fact Sheet.

AMERICAN OVERSIGHT

Additionally, users with permission to access this tool will also be able to access the SAVE Bulk Upload Tool Instructional Guide to enable ease of use.

Please do not reply to this message.

Dear NASS Elections Committee, IT Directors and Communications Directors,

White House Issues Executive Order on Election Administration
We just received the attached White House Fact Sheet and Executive Order on Election Administration issued this afternoon. It is relatively long and very detailed and contains much of the language of the SAVE Act introduced in the House. We are working on a summary for you which we will share as soon as it's ready. You are sure to get media calls about this!

NASS Call on 3/27/2025 at 2:30PM ET

We have our biweekly Elections Committee call on Thursday, March 27th at 2:30PM ET. Calendar/login info attached. Looks like we will have a lot to talk about! I will try to get someone from the White House to join our call.

AMERICAN OVERSIGHT

Notes from 3/13/2025 Elections Committee Call

Attached you will find our notes from the 3/13 call.

Postmaster General Louis DeJoy Resigned at Close of Business on 3/24/25

From USPS yesterday - "After nearly five years as America's 75th Postmaster General, and after informing the Governors in February of my intention to retire, I have today informed the Postal Service Board of Governors that today will be my last day in this role. I believe strongly that the organization is well positioned and capable of carrying forward and fully implementing the many strategies and initiatives that comprise our transformation and modernization, and I have been working closely with the Deputy Postmaster General to prepare for this transition. While our management team and the men and women of the Postal Service have established the path toward financial sustainability and high operating performance – and we have instituted enormous beneficial change to what had been an adrift and moribund organization – much work remains that is necessary to sustain our positive trajectory. I am confident that Doug will continue our positive momentum during the period when the Governors undertake the important work of identifying and selecting the next Postmaster General. I also have no doubt that the entirety of the Postal Service will aggressively shape its future and become more efficient, capable, and competitive as it continuously changes and improves to best serve the American public.

It is with great pride that I pass the baton to Deputy Postmaster General, Doug Tulino, until the Governors name my permanent successor. The Governors have hired a search firm in support of those efforts, which are well underway. I shall cheer on America's 76th Postmaster General and the 640,000 men and women of the United States Postal Service who I have called my colleagues and friends for close to five years. It has been one of the pleasures of my life and a crowning achievement of my career to have been associated with this cherished institution, the United States Postal Service."

Thanks,
Leslie

AMERICAN OVERSIGHT

EXECUTIVE ORDER

- - - - - - -

PRESERVING AND PROTECTING THE INTEGRITY OF AMERICAN ELECTIONS

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered:

Section 1. Purpose and Policy. Despite pioneering self-government, the United States now fails to enforce basic and necessary election protections employed by modern, developed nations, as well as those still developing. India and Brazil, for example, are tying voter identification to a biometric database, while the United States largely relies on self-attestation for citizenship. In tabulating votes, Germany and Canada require use of paper ballots, counted in public by local officials, which substantially reduces the number of disputes as compared to the American patchwork of voting methods that can lead to basic chain-of-custody problems. Further, while countries like Denmark and Sweden sensibly limit mail-in voting to those unable to vote in person and do not count late-arriving votes regardless of the date of postmark, many American elections now feature mass voting by mail, with many officials accepting ballots without postmarks or those received well after Election Day.

Free, fair, and honest elections unmarred by fraud, errors, or suspicion are fundamental to maintaining our constitutional Republic. The right of American citizens to have their votes properly counted and tabulated, without illegal dilution, is vital to determining the rightful winner of an election.

Under the Constitution, State governments must safeguard American elections in compliance with Federal laws that protect Americans' voting rights and guard against dilution by illegal

AMERICAN OVERSIGHT

voting, discrimination, fraud, and other forms of malfeasance and error. Yet the United States has not adequately enforced Federal election requirements that, for example, prohibit States from counting ballots received after Election Day or prohibit non-citizens from registering to vote.

Federal law establishes a uniform Election Day across the Nation for Federal elections, 2 U.S.C. 7 and 3 U.S.C. 1. It is the policy of my Administration to enforce those statutes and require that votes be cast and received by the election date established in law. As the United States Court of Appeals for the Fifth Circuit recently held in *Republican National Committee v. Wetzel* (2024), those statutes set "the day by which ballots must be both *cast* by voters and *received* by state officials." Yet numerous States fail to comply with those laws by counting ballots received after Election Day. This is like allowing persons who arrive 3 days after Election Day, perhaps after a winner has been declared, to vote in person at a former voting precinct, which would be absurd.

Several Federal laws, including 18 U.S.C. 1015 and 611, prohibit foreign nationals from registering to vote or voting in Federal elections. Yet States fail adequately to vet voters' citizenship, and, in recent years, the Department of Justice has failed to prioritize and devote sufficient resources for enforcement of these provisions. Even worse, the prior administration actively prevented States from removing aliens from their voter lists.

Additionally, Federal laws, such as the National Voter Registration Act (Public Law 103-31) and the Help America Vote Act (Public Law 107-252), require States to maintain an accurate and current Statewide list of every legally registered voter in the State. And the Department of Homeland Security is required

AMERICAN OVERSIGHT

to share database information with States upon request so they can fulfill this duty. *See* 8 U.S.C. 1373(c). Maintaining accurate voter registration lists is a fundamental requirement in protecting voters from having their ballots voided or diluted by fraudulent votes.

Federal law, 52 U.S.C. 30121, prohibits foreign nationals from participating in Federal, State, or local elections by making any contributions or expenditures. But foreign nationals and non-governmental organizations have taken advantage of loopholes in the law's interpretation, spending millions of dollars through conduit contributions and ballot-initiative-related expenditures. This type of foreign interference in our election process undermines the franchise and the right of American citizens to govern their Republic.

Above all, elections must be honest and worthy of the public trust. That requires voting methods that produce a voter-verifiable paper record allowing voters to efficiently check their votes to protect against fraud or mistake. Election-integrity standards must be modified accordingly.

It is the policy of my Administration to enforce Federal law and to protect the integrity of our election process.

Sec. 2. Enforcing the Citizenship Requirement for Federal Elections. To enforce the Federal prohibition on foreign nationals voting in Federal elections:

(a)(i) Within 30 days of the date of this order, the Election Assistance Commission shall take appropriate action to require, in its national mail voter registration form issued under 52 U.S.C. 20508:

(A) documentary proof of United States citizenship, consistent with 52 U.S.C. 20508(b)(3); and

AMERICAN OVERSIGHT

(B) a State or local official to record on the form the type of document that the applicant presented as documentary proof of United States citizenship, including the date of the document's issuance, the date of the document's expiration (if any), the office that issued the document, and any unique identification number associated with the document as required by the criteria in 52 U.S.C. 21083(a)(5)(A), while taking appropriate measures to ensure information security.

(ii) For purposes of subsection (a) of this section, "documentary proof of United States citizenship" shall include a copy of:

(A) a United States passport;

(B) an identification document compliant with the requirements of the REAL ID Act of 2005 (Public Law 109-13, Div. B) that indicates the applicant is a citizen of the United States;

(C) an official military identification card that indicates the applicant is a citizen of the United States; or

(D) a valid Federal or State government-issued photo identification if such identification indicates that the applicant is a United States citizen or if such identification is otherwise accompanied by proof of United States citizenship.

(b) To identify unqualified voters registered in the States:

AMERICAN OVERSIGHT

(i) the Secretary of Homeland Security shall, consistent with applicable law, ensure that State and local officials have, without the requirement of the payment of a fee, access to appropriate systems for verifying the citizenship or immigration status of individuals registering to vote or who are already registered;

(ii) the Secretary of State shall take all lawful and appropriate action to make available information from relevant databases to State and local election officials engaged in verifying the citizenship of individuals registering to vote or who are already registered; and

(iii) the Department of Homeland Security, in coordination with the DOGE Administrator, shall review each State's publicly available voter registration list and available records concerning voter list maintenance activities as required by 52 U.S.C. 20507, alongside Federal immigration databases and State records requested, including through subpoena where necessary and authorized by law, for consistency with Federal requirements.

(c) Within 90 days of the date of this order, the Secretary of Homeland Security shall, consistent with applicable law, provide to the Attorney General complete information on all foreign nationals who have indicated on any immigration form that they have registered or voted in a Federal, State, or local election, and shall also take all appropriate action to submit to relevant State or local election officials such information.

(d) The head of each Federal voter registration executive department or agency (agency) under the National Voter

AMERICAN OVERSIGHT

Registration Act, 52 U.S.C. 20506(a), shall assess citizenship prior to providing a Federal voter registration form to enrollees of public assistance programs.

(e) The Attorney General shall prioritize enforcement of 18 U.S.C. 611 and 1015(f) and similar laws that restrict non-citizens from registering to vote or voting, including through use of:

(i) databases or information maintained by the Department of Homeland Security;

(ii) State-issued identification records and driver license databases; and

(iii) similar records relating to citizenship.

(f) The Attorney General shall, consistent with applicable laws, coordinate with State attorneys general to assist with State-level review and prosecution of aliens unlawfully registered to vote or casting votes.

Sec. 3. Providing Other Assistance to States Verifying Eligibility. To assist States in determining whether individuals are eligible to register and vote:

(a) The Commissioner of Social Security shall take all appropriate action to make available the Social Security Number Verification Service, the Death Master File, and any other Federal databases containing relevant information to all State and local election officials engaged in verifying the eligibility of individuals registering to vote or who are already registered. In determining and taking such action, the Commissioner of Social Security shall ensure compliance with applicable privacy and data security laws and regulations.

(b) The Attorney General shall ensure compliance with the requirements of 52 U.S.C. 20507(g).

AMERICAN OVERSIGHT

(c) The Attorney General shall take appropriate action with respect to States that fail to comply with the list maintenance requirements of the National Voter Registration Act and the Help America Vote Act contained in 52 U.S.C. 20507 and 52 U.S.C. 21083.

(d) The Secretary of Defense shall update the Federal Post Card Application, pursuant to the Uniformed and Overseas Citizens Absentee Voting Act, 52 U.S.C. 20301, to require:

(i) documentary proof of United States citizenship, as defined by section 2(a)(ii) of this order; and

(ii) proof of eligibility to vote in elections in the State in which the voter is attempting to vote.

Sec. 4. Improving the Election Assistance Commission.

(a) The Election Assistance Commission shall, pursuant to 52 U.S.C. 21003(b)(3)and 21142(c) and consistent with applicable law, take all appropriate action to cease providing Federal funds to States that do not comply with the Federal laws set forth in 52 U.S.C. 21145, including the requirement in 52 U.S.C. 20505(a)(1) that States accept and use the national mail voter registration form issued pursuant to 52 U.S.C. 20508(a)(1), including any requirement for documentary proof of United States citizenship adopted pursuant to section 2(a)(ii) of this order.

(b)(i) The Election Assistance Commission shall initiate appropriate action to amend the Voluntary Voting System Guidelines 2.0 and issue other appropriate guidance establishing standards for voting systems to protect election integrity. The amended guidelines and other guidance shall provide that voting systems should not use a ballot in which a vote is contained within a barcode or quick-response code in the vote counting process except where necessary to accommodate individuals with

AMERICAN OVERSIGHT

disabilities, and should provide a voter-verifiable paper record to prevent fraud or mistake.

(ii) Within 180 days of the date of this order, the Election Assistance Commission shall take appropriate action to review and, if appropriate, re-certify voting systems under the new standards established under subsection (b)(i) of this section, and to rescind all previous certifications of voting equipment based on prior standards.

(c) Following an audit of Help America Vote Act fund expenditures conducted pursuant to 52 U.S.C. 21142, the Election Assistance Commission shall report any discrepancies or issues with an audited State's certifications of compliance with Federal law to the Department of Justice for appropriate enforcement action.

(d) The Secretary of Homeland Security and the Administrator of the Federal Emergency Management Agency, consistent with applicable law, shall in considering the provision of funding for State or local election offices or administrators through the Homeland Security Grant Programs, 6 U.S.C. 603 *et seq.*, heavily prioritize compliance with the Voluntary Voting System Guidelines 2.0 developed by the Election Assistance Commission and completion of testing through the Voting System Test Labs accreditation process.

Sec. 5. Prosecuting Election Crimes. To protect the franchise of American citizens and their right to participate in fair and honest elections:

(a) The Attorney General shall take all appropriate action to enter into information-sharing agreements, to the maximum extent possible, with the chief State election official or multi-member agency of each State. These agreements shall aim

AMERICAN OVERSIGHT

to provide the Department of Justice with detailed information on all suspected violations of State and Federal election laws discovered by State officials, including information on individuals who:

(i) registered or voted despite being ineligible or who registered multiple times;

(ii) committed election fraud;

(iii) provided false information on voter registration or other election forms;

(iv) intimidated or threatened voters or election officials; or

(v) otherwise engaged in unlawful conduct to interfere in the election process.

(b) To the extent that any States are unwilling to enter into such an information sharing agreement or refuse to cooperate in investigations and prosecutions of election crimes, the Attorney General shall:

(i) prioritize enforcement of Federal election integrity laws in such States to ensure election integrity given the State's demonstrated unwillingness to enter into an information-sharing agreement or to cooperate in investigations and prosecutions; and

(ii) review for potential withholding of grants and other funds that the Department awards and distributes, in the Department's discretion, to State and local governments for law enforcement and other purposes, as consistent with applicable law.

(c) The Attorney General shall take all appropriate action to align the Department of Justice's litigation positions with the purpose and policy of this order.

AMERICAN OVERSIGHT

Sec. 6. Improving Security of Voting Systems. To improve the security of all voting equipment and systems used to cast ballots, tabulate votes, and report results:

(a) The Attorney General and the Secretary of Homeland Security shall take all appropriate actions to the extent permitted by 42 U.S.C. 5195c and all other applicable law, so long as the Department of Homeland Security maintains the designation of election infrastructure as critical infrastructure, as defined by 42 U.S.C. 5195c(e), to prevent all non-citizens from being involved in the administration of any Federal election, including by accessing election equipment, ballots, or any other relevant materials used in the conduct of any Federal election.

(b) The Secretary of Homeland Security shall, in coordination with the Election Assistance Commission and to the maximum extent possible, review and report on the security of all electronic systems used in the voter registration and voting process. The Secretary of Homeland Security, as the head of the designated Sector Risk Management Agency under 6 U.S.C. 652a, in coordination with the Election Assistance Commission, shall assess the security of all such systems to the extent they are connected to, or integrated into, the Internet and report on the risk of such systems being compromised through malicious software and unauthorized intrusions into the system.

Sec. 7. Compliance with Federal Law Setting the National Election Day. To achieve full compliance with the Federal laws that set the uniform day for appointing Presidential electors and electing members of Congress:

(a) The Attorney General shall take all necessary action to enforce 2 U.S.C. 7 and 3 U.S.C. 1 against States that violate these provisions by including absentee or mail-in ballots

received after Election Day in the final tabulation of votes for the appointment of Presidential electors and the election of members of the United States Senate and House of Representatives.

(b) Consistent with 52 U.S.C. 21001(b) and other applicable law, the Election Assistance Commission shall condition any available funding to a State on that State's compliance with the requirement in 52 U.S.C. 21081(a)(6) that each State adopt uniform and nondiscriminatory standards within that State that define what constitutes a vote and what will be counted as a vote, including that, as prescribed in 2 U.S.C. 7 and 3 U.S.C. 1, there be a uniform and nondiscriminatory ballot receipt deadline of Election Day for all methods of voting, excluding ballots cast in accordance with 52 U.S.C. 20301 *et seq.*, after which no additional votes may be cast.

Sec. 8. Preventing Foreign Interference and Unlawful Use of Federal Funds. The Attorney General, in consultation with the Secretary of the Treasury, shall prioritize enforcement of 52 U.S.C. 30121 and other appropriate laws to prevent foreign nationals from contributing or donating in United States elections. The Attorney General shall likewise prioritize enforcement of 31 U.S.C. 1352, which prohibits lobbying by organizations or entities that have received any Federal funds.

Sec. 9. Federal Actions to Address Executive Order 14019. The heads of all agencies, and the Election Assistance Commission, shall cease all agency actions implementing Executive Order 14019 of March 7, 2021 (Promoting Access to Voting), which was revoked by Executive Order 14148 of on January 20, 2025 (Initial Rescissions of Harmful Executive Orders and Actions), and, within 90 days of the date of this order, submit to the President, through the Assistant to the

AMERICAN OVERSIGHT

President for Domestic Policy, a report describing compliance with this order.

Sec. 10. Severability. If any provision of this order, or the application of any provision to any agency, person, or circumstance, is held to be invalid, the remainder of this order and the application of its provisions to any other agencies, persons, or circumstances shall not be affected thereby.

Sec. 11. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

AMERICAN OVERSIGHT

THE WHITE HOUSE

Fact Sheet: President Donald J. Trump Protects the Integrity of American Elections

RESTORING TRUST IN AMERICAN ELECTIONS: Today, President Donald J. Trump signed an Executive Order to protect the integrity of American elections.

- This Order strengthens voter citizenship verification and bans foreign nationals from interfering in U.S. elections.
    - The Election Assistance Commission will require documentary, government-issued proof of U.S. citizenship on its voter registration forms.
    - Agencies like the Department of Homeland Security (DHS), Social Security Administration and Department of State must provide states with access to Federal databases to verify eligibility and citizenship of individuals registering to vote.
    - The Attorney General will prioritize prosecuting non-citizen voting and related crimes, including through use of DHS records and coordination with state attorneys general.
- Federal election-related funds will be conditioned on states complying with the integrity measures set forth by Federal law, including the requirement that states use the national mail voter registration form that will now require proof of citizenship.
- The Order improves the integrity of elections by directing the updating of the Voluntary Voting System Guidelines 2.0 and security standards for voting equipment and prioritizing federal grant funds accordingly.
    - This includes requiring a voter-verifiable paper ballot record and not using ballots in which the counted vote is contained within a barcode or QR code.
- It directs the Attorney General to enter into information-sharing agreements with state election officials to identify cases of election fraud or other election law violations.
    - Non-compliant states may face prioritized Federal enforcement of election integrity laws and loss of funding given their unwillingness to police fraud.
- The Attorney General and Secretary of Homeland Security shall prevent non-citizens from any involvement in administering elections.
- The Attorney General will fully enforce the voter-list maintenance requirements of the National Voter Registration Act and the Help America Vote Act.
- Given clear Federal law setting a single Election Day deadline, the Attorney General shall take appropriate action against states that count ballots received after Election Day in Federal elections. Federal election funding will be conditioned on compliance.

AMERICAN OVERSIGHT

- The Attorney General will prioritize enforcement of laws prohibiting foreign nationals from contributing to or donating in U.S. elections.
- All agencies must report on compliance with undoing Biden Executive Order 14019, which turned Federal agencies into Democratic voter turnout centers.

SAFEGUARDING THE VOTE: President Trump recognizes that free, fair, and honest elections—unmarred by fraud, errors, or suspicion—are essential to our Constitutional Republic.

- The United States lags behind other nations in enforcing basic and necessary election protections.
    - India and Brazil tie voter identification to a biometric database, while the United States largely relies on self-attestation for citizenship.
    - Germany and Canada require paper ballots when tabulating votes, while the United States has a patchwork of methods that often lack basic chain-of-custody protections.
    - Denmark and Sweden sensibly limit mail-in voting to those unable to vote in person—and late arrivals do not count—while American elections now feature mass voting by mail, even after Election Day.
- Without proper enforcement of Federal laws, illegal voting, discrimination, fraud, and other forms of malfeasance and error dilute the votes of lawful American citizens.
- Federal law establishes a uniform Election Day across the nation for Federal elections, but numerous states fail to comply with those laws by counting ballots received after Election Day.
- The Biden Administration blocked states from removing aliens from voter rolls, while foreign nationals and non-governmental organizations (NGOs) exploited loopholes to pour millions into influencing U.S. elections.

MAKING ELECTIONS SECURE AGAIN: Voters deserve elections they can trust, and that confidence is being restored thanks to President Trump.

- President Trump is following through on his promise to secure our elections.
    - President Trump: "We're going to fix our elections so that our elections are going to be honorable and honest and people leave and they know their vote is counted. We are going to have free and fair elections. And ideally, we go to paper ballots, same-day voting, proof of citizenship, very big, and voter ID, very simple."

AMERICAN OVERSIGHT

    - President Trump: "We will secure our elections, and they will be secure once and for all."
- Unlike the Biden Administration, which prioritized political agendas over fair elections, President Trump is putting the American people back in charge.

NASS Elections Committee Webex Meeting
March 13th, 2025

NASS Executive Director Leslie Reynolds introduced Majority and Minority staff from the House Administration Committee to provide an update on Committee activities, including the status of the SAVE Act and upcoming hearings.

Josh Weber from House Administration Majority staff noted that they are planning to hold several hearings this year related to election administration, including a hearing at the end of March to discuss lessons learned from the 2024 election. He added that the hearing will include Secretaries of State as witnesses. He also noted that the majority is currently making some changes to the SAVE Act to fine tune the bill. He added that if members have any questions or feedback about the SAVE Act, NASS can collect that information and share it with the majority staff.

Sarah Nasta from House Administration minority noted that the minority continues to oppose the SAVE Act in its current form. She added that Ranking Member Morelle (D-NY) continues to advocate for federal funding for election administration, and has been working with Senator Padilla (D-CA) to get information about the status of DHS' review of CISA's election security activities. She encouraged members to reach out if they have any input on those issues.

Secretary Bellows indicated that federal agencies may not have systems and procedures in place to allow election officials to verify citizenship status as required under the SAVE Act, and expressed concern that election officials would be penalized for the inaction of federal officials. She asked if the bill could include safeguards to address that. Mr. Weber noted that the SAVE Act requires federal agencies to respond to a citizenship verification request within 24 hours. Secretary Bellows expressed concern about whether DHS has the personnel and systems in place to meet that requirement. Mr. Weber indicated that they have been having conversations with DHS to ensure they are ready to implement the bill. Secretary Bellows recommended that SAVE Act include at least a few hundred million dollars to help states implement the requirements. Mr. Weber indicated that they are having conversations like this to ensure that they have the best bill possible.

Secretary Bellows expressed concern about DHS' decision to terminate funding for the EI-ISAC, including the impact that it will have on local jurisdictions that may lack resources to replace the EI-ISAC services. She noted that that EI-ISAC

Reynolds noted that NASS and USCIS have established a working group to discuss ways to improve the ability of states to utilize the SAVE citizenship information. She added that NASS has principles on federal legislation that address unfunded mandates and sufficient time to implement legislation. She also expressed concern that state officials could get sued for not meeting

AMERICAN OVERSIGHT

deadlines under the SAVE Act due to the bill's private right of action, even it was the result of federal official failing to meet deadlines.

NASS Deputy Director Lindsey Forson provided an update on DHS funding cuts to EI-ISAC and MS-ISAC. She noted that after funding for the EI-ISAC was terminated a few weeks ago, it appeared that many of the core ISAC services would still be available through the MS-ISAC. She added that last week DHS announced $10 million in funding cuts under the MS-ISAC cooperative agreement. She noted that CIS has clarified that certain DHS funded MS-ISAC services will remain available to states, including Albert, MDBR, EDR, NCSR, and SOC operations. She added that other MS-ISAC functions will now be funded by CIS, including threat analysis and threat distribution, incident response services, and certain member engagement activities. She noted that CIS is a 501c3, and the CIS funded activities could be an issue for some states. She added that NASS is seeking additional clarification on the funding changes to MS-ISAC, and encouraged members to reach out to CIS as well if they have questions or concerns.

Reynolds noted that NASS recently received a response from DHS to the Executive Board letter regarding CISA election security activities. She added that the letter encourages NASS to contact Acting CISA Director Bridget Bean for more information, and NASS has reached out to try and arrange a meeting. Reynolds also noted that Sean Plankey was recently nominated to be the Director of CISA, and his nomination will need to be confirmed by the Senate.

Reynolds noted that Senate Judiciary voted to advance the nomination of Harmeet Dhillon as the Assistant Attorney General for the Civil Rights Division. She added that the nomination will now go to the full senate.

Reynolds noted that the House has passed a continuing resolution to fund the federal government through September 30th, 2025. She noted that the bill includes $15 million for election security grants and would fund the EAC at current levels. She indicated that the election security grants would likely be distributed in accordance with the provisions pertaining to the last election security grants in FY 2024. She added that it's not clear yet if the bill will pass the Senate.

Reynolds noted that NASS working group with USCIS will hold a second call on Tuesday, March 18th. She added that USCIS has reviewed the feedback from the first call and will be discussing plans for moving forward. She encouraged members who aren't already on the list of participants to let her know if they would like to participate.

NASS Senior Director of Communications Maria Benson noted that NASS has been getting a lot of media inquires related to CISA and the ISACs, and encouraged members to ensure that they keep their communication directors informed of how they plan to address any changes impacting the office in order to help communications staff respond to questions from the media.

The call ended at 3:15 PM ET.

Report Suspicious

Good afternoon and good evening,

- NASED Call:
  - Thanks everyone for hopping on today's call! Notes are attached, and I added links to several of the items that came up in today's discussion. We're going to shift the schedule and meet **next Friday, April 18th at noon ET** to avoid the Standards Board meeting and we will restart our every other week schedule starting there (May 2, May 16, etc). I promise to only talk about Paul Revere a little bit next week.
- EAC:
  - I don't have much in the way of updates from the EAC, but attached is the NVRA-prescribed Federal Form consultation letter that the EAC sent out to all Chief Election Officials earlier today.
  - A reminder that, per HAVA, the first step to update the Voluntary Voting System Guidelines (VVSG) is for the Technical Guidelines Development Committee (TGDC) to discuss potential updates for recommendation to the EAC. Although on our call last week, EAC Chair Palmer suggested the TGDC might meet before the Standards Board meets later this month, it's sounding more like the TGDC won't meet until this summer, which also means that the Standards Board won't be considering specific updates to the VVSG at the meeting in Charlotte in a few weeks because they can't.
- Elections Executive Order:
  - Earlier this week, I learned that three of the cases against the Executive Order

AMERICAN OVERSIGHT

consolidated and submitted a motion for a preliminary injunction (memo).
    - I reached out to USCIS earlier today to inquire how election offices can access the SAVE system at no cost as directed in the order.
    - I'm still working to get a connection to the State Department so we can determine how to access their databases, too, as directed in the order.
    - There is a group, Public Rights Project, contacting local election officials and at least some states asking them to sign onto an amicus brief regarding the EO. The request does not include the text of the draft and I believe they're still working on it, so I'm flagging for you as you may have locals sign on before they see what it says.
- Other Presidential Actions:
    - Earlier this week, the President issued a memo about former CISA Director Chris Krebs.
- ISAC:
    - The MS-ISAC will hold another Town Hall meeting on **Tuesday at 3pm ET.** Unlike the previous one, you need to register in advance for it to be on your calendar, they're not proactively sending out a calendar appointment. I know many of you have questions, especially since they didn't answer any elections questions on the last call, but it may be valuable for a representative from your offices join to ask your questions to try to get answers or at least demonstrate that the questions are still out there.
- Congress:
    - The US House passed the Safeguard American Voter Eligibility (SAVE) Act yesterday, 220-208. Senator Mike Lee (R-UT) said in January he was introducing a companion bill, but I'm not seeing it online.
- NASED Conference:
    - I'm not quite ready to open registration for the NASED Summer Conference in Oklahoma City, July 22-24, but I know some of you need time to get your travel approvals cooking. The conference is at the Skirvin Hilton (yes, it's haunted, you're welcome) and the rate is $116/night plus tax, which is federal per diem. I'll send this a few more times and with your registration, but for those of you who want to get started, now you can. As in February, we'll start at 9am on the 22nd and will conclude by 3pm on the 24th. Day 3 is closed session – just states and territories! – and that's usually everyone's favorite part because of the candid discussion.

I think that's it for this week!

AMERICAN OVERSIGHT

NASED Biweekly Call
Friday, April 11

A state asked if others had received an open records request from Strategic Records Research about the open records request from the RNC. Enough states responded affirmatively to suggest this was a nationwide request, including at least one of the states that was not sent the RNC request.

A state asked whether any state had responded to the RNC open records request. One state responded that they've responded to try to work with them on deadlines, since they felt like the applicable deadlines were both state open records law and NVRA. It seems like the requesters hadn't thought about needing to work through this on an individual level with each state. They haven't been that responsive so far, so if they won't work with the state, the state will do it on their own timeline and it will be more expensive for the requester. Several other states said they had not yet responded and were still evaluating it. One state said they'd responded in part and said they would provide additional information at a later date. Another state responded with a price estimate and timeline, which the requesters thought was excessive; they came back with things to prioritize. Finally, a state noted that many of the items requested are publicly available on their website, so they sent an initial response with links.

A state asked whether anyone had heard from the Election Truth Alliance, and noted that they have a substack where they've "investigated" Pennsylvania and other places. They included a graph from a Russian election in one analysis. They have a coming soon page, too. At least one state was familiar with this group.

A state asked if there was any additional information on DNI Gabbard's statements regarding vulnerabilities in voting equipment. Amy shared that she isn't sure specifically where this information came from or why it came out now, but that she's heard it is likely stemming from the report from Alex Halderman in the Curling v. Raffensperger case that was just dismissed a few weeks ago after 7 or 8 years. Halderman's report is public and has been public for several years. As a reminder, here is the CISA advisory that came out of that report – the report itself was submitted to CISA as a vulnerability report during the court case.

Finally, a state shared the link to the Election Science, Reform, and Administration Conference taking place in Tallahassee, FL, June 9-11.

	Companions:	SB 106 Hall, Bob (Identical) 2- 3-25 S Introduced and referred to committee on Senate State Affairs
	Remarks:	SUMMARY: This bill segments federal elections from state elections to bypass the federal prohibition against checking citizenship of voters prior to registration. BACKGROUND: It is unlawful for noncitizens to vote in Texas elections, but there is a federal law that prevents

AMERICAN OVERSIGHT

states from checking citizenship on the front end. Arizona is currently the only state that has a segmented election.

AGENCY IMPACT: This bill will require extensive work for our agency. We will have to essentially conduct 2 separate elections and manage 2 separate registration processes.

AGENCY FISCAL IMPACT: Significant. Will require additional staff and major technology adjustments.

ESTIMATED COST: TBD

LOCAL IMPACT: Here would describe impact to counties.

FOR/AGAINST: Here list groups (not members) that favor/oppose.

STAFF COMMENTS: Here provide information about what we are hearing about the bill's chances. What members support/oppose.

SB 707	King, Phil(R)	Relating to the authority of the legislature to determine that certain federal directives are unconstitutional and to prohibit certain government officers and employees from enforcing or assisting.

Remarks:
Summary: The proposed legislation seeks to empower the Texas legislature to recognize and act against specific federal directives deemed to infringe upon state rights and powers, as delineated by the Tenth Amendment of the United States Constitution.

Agency Impact: No expected impact

Fiscal Impact: TBD

Staff Comments: The bill allows the legislature to authorize actions against federal overreach, enabling it to formally declare a federal directive as unconstitutional through a concurrent resolution. This includes clear stipulations on how resolutions must be filed and what elements they must contain, thereby ensuring transparency and specificity in legislative actions.

Finally, the bill notes that inaction by the legislature does not imply compliance with any federal directive nor does it curtail the Texas attorney general's power to contest such directives' legality.

AMERICAN OVERSIGHT

Agency Impact: applicable to all agencies - will heavily impact PIRs relating to business filings and elections

Fiscal Impact: TBD

Staff Comments: The bill prevents governmental bodies from imposing charges on requestors under certain conditions, thereby facilitating access to public information. This includes cases where a governmental body fails to provide information on time or if the information pertains to specific election reports.

Litigation relating to information requests is also addressed, as requestors who prevail in court are entitled to recover costs and attorney fees, thus creating an incentive for compliance. Furthermore, the bill allows requestors to lodge complaints with the attorney general for failure of governmental bodies to respond to requests, ensuring more stringent compliance and training for such bodies.

Sec. 280.151. PROHIBITING VOTER SUPPRESSION.

(a) No local government may implement, impose, or enforce any election policy or practice that results in, is likely to result in, or is intended to result in, either:

(1) A material disparity in voter participation, access to voting opportunities, or the opportunity or ability to participate in any stage of the political process between protected class members and other members of the electorate; or

Sec. 280.152. PROHIBITING VOTE DILUTION

(a) No local government shall employ (i) an at-large method of election, (ii) a district-based method of election, (iii) a share-based method of election, or (iv) other method of election for any office that has the effect, will likely have the effect, or is motivated in part by the intent, of diluting the vote of protected class members.

(b) A violation of Sec. 280.152 is established if:

(1) Either:

(A) Elections in the local government exhibit racially polarized voting resulting in an impairment of the equal opportunity or ability of protected class members to nominate or elect candidates of their choice; or

(G) The extent to which protected class members are disadvantaged or otherwise bear the effects of public or

(b) To determine whether elections in the local government exhibit racially polarized voting under Sect. 280.152(b)(1)(A):

(1) Racially polarized voting shall be assessed based on relevant election results, which may include but are not limited to elections for offices of the local government; elections held in the local government for other offices, such as state or federal offices; ballot measures; and other electoral choices that bear on the rights and privileges of the protected class.

(A) No set number or combination of elections shall be required to establish the existence of racially polarized voting.

(B) Evidence of non-polarized voting in elections for offices outside the local government shall not preclude a finding of racially polarized voting based on elections for offices of the local government.

(C) Non-statistical or non-quantitative evidence

AMERICAN OVERSIGHT

shall not preclude a finding of racially polarized voting based on statistical or quantitative evidence.

(D) Low turnout or registration rates among protected class members shall not preclude a finding of racially polarized voting.

(2) Racially polarized voting shall be assessed based only on the combined electoral preferences of members of a protected class or classes. There is no requirement that the electoral preferences of each protected class or any subgroup within a protected class be separately polarized from those of other voters.

(3) The causes of or reasons for racially polarized voting, including partisan explanations or discriminatory intent, are not relevant.

(c) When evaluating whether a violation is present:

---------- Skip to Line ----------

(C) The use of an identical or similar election policy or practice in other jurisdictions;

(D) The availability of forms of voting unimpacted by the election policy or practice.

(2) A state interest in preventing voter fraud or bolstering voter confidence in the integrity of elections is not relevant under Sect. 280.151 or Sect. 280.152 unless there is substantial evidence that criminal activity by individual electors has occurred in the local government in substantial numbers and the connection between the election policy or practice and a state interest in preventing voter fraud or bolstering voter confidence in the integrity of elections is supported by substantial evidence.

(3) Evidence concerning the intent of electors, elected
