EXTERNAL SENDER

Good afternoon,

As a follow up to our October 9 email, please find attached an additional document responsive to your Request.

The responsive document contains email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.
In addition, certain information has been redacted from today's production in accordance with OR2025-031548.
We have completed the review of our records and do not anticipate any additional production of documents in response to this request.

Kind regards,

Jennifer Williams
Legal Assistant to the General Counsel
Office of the Texas Secretary of State

Subject: RE: Public Information Request (TX-SOS-25-1551) - SOS PIR 25-0612

Good afternoon,

As a follow up to our September 5 email, please follow this link to access an additional production of documents ("10.9.25 Documents") in response to your Request.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general

authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.
In addition, certain information has been redacted from today's production in accordance with OR2025-031548.
We appreciate your patience as we continue to process your request in accordance with the terms of the PIA. We require additional time to review our records and produce additional responsive documents. We will provide you additional responsive documents on a rolling basis—to the extent such information is not excepted from disclosure under state or federal law—with our next production by 5:00 p.m. on November 13, 2025. *See* Tex. Gov't Code § 552.221(d).

Kind regards,

Jennifer Williams
Legal Assistant to the General Counsel
Office of the Texas Secretary of State

Subject: RE: Public Information Request (TX-SOS-25-1551) - SOS PIR 25-0612

Good afternoon,

Please find attached a courtesy copy of OR2025-031548, the open records ruling regarding your request for information under Chapter 552 of the Texas Government Code. The Office of the Attorney General has determined that we may withhold certain responsive information, and must withhold other information, in connection with your request.

As we indicated in our August 21, 2025 email, we will provide you additional responsive documents on a rolling basis—to the extent such information is not excepted from disclosure under state or federal law—with our next production by 5:00 p.m. on October 9, 2025. *See* Tex. Gov't Code § 552.221(d).

Sincerely,

Adam Bitter
General Counsel

Good morning,

As a follow up to our July 31 email, please follow this link to access an additional production of documents ("8.21.25 Documents") in response to your Request.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.

In addition, certain information has been redacted from today's production pending the determination from the Attorney General's Open Records Division on our request for a ruling.

We appreciate your patience as we continue to process your request in accordance with the terms of the PIA. We require additional time to review our records and produce additional responsive documents. We will provide you additional responsive documents on a rolling basis—to the extent such information is not excepted from disclosure under state or federal law—with our next production by 5:00 p.m. on October 9, 2025. *See* Tex. Gov't Code § 552.221(d).

Subject: RE: Public Information Request (TX-SOS-25-1551) - SOS PIR 25-0612

Good afternoon,

As a follow up to our June 26 email, please see the attached letter, with enclosures, in response to your request for information under Chapter 552 of the Texas Government Code. The Open Records Division of the OAG generally issues rulings within 45 business days of receipt of the request for a decision. We will provide you with a courtesy copy of that ruling when we receive it.

Please follow this link to access an initial production of documents ("7.3.25 Documents") in response to your Request. Our Office has set up a file hosting service called "box" to enable us to send large file sizes more efficiently. Please let me know if you are unable to access the files and we can discuss an alternate method of delivery.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.
In addition, the information you requested contains access device numbers that are collected, assembled, or maintained by or for a governmental body. This information is confidential under section 552.136 of the Texas Government Code. Section 552.136 allows us to withhold this specific information without requesting a ruling from the attorney general. You have the right to appeal our decision to withhold this information from you. Instructions for appeal are attached. If you do not want to appeal, you do not need to do anything else.
Finally, the responsive information includes certain computer information, such as usernames, passwords, and other computer programming information, that is not subject to the Public Information Act because it "has no other significance than its use as a tool for the maintenance, manipulation, or protection of public property." Open Records Decision No. 581 at 7 (1990); accord OR2023-07522 at 2-3 (file names, links, usernames, web addresses, and passwords); OR2022-32589 at 2 (usernames, passwords, and other programming information). Accordingly, this information has been redacted from the attached production.
We appreciate your patience as we continue to process your request in accordance with the terms of the PIA. We require additional time to review our records and produce additional responsive documents. We will provide you additional responsive documents on a rolling basis—to the extent such information is not excepted from disclosure under state or federal law—with our next production by 5:00 p.m. on July 31, 2025. *See* Tex. Gov't Code § 552.221(d).

Report Suspicious

Good Morning Dave,

Thank you for taking the time to meet with me last week. Following our recent discussions on bolstering base camp and deportation operations, I am writing to provide further details about Amentum's comprehensive capabilities in this critical area. With a proven history of delivering rapid, scalable, and compliant solutions to complex government needs, Amentum stands ready to support the pressing requirements of the State of Texas.

Our Approach

Amentum brings unmatched experience in establishing and operating temporary facilities for housing, processing, and caring for large groups of individuals under diverse and demanding conditions. Leveraging lessons learned from Operation Allies Welcome and our LOGCAP V operations, we have developed a detailed framework for supporting deportation operations nationwide.

Capabilities Overview

- **Turnkey Facilities**: Scalable installations capable of housing up to 25,000 detainees across multiple sites with comprehensive life support services.
    - Construction and maintenance
    - Medical services (basic to advanced care)
    - Potable/non-potable water systems
    - Billeting, showers, restrooms, laundry, and waste management
    - Food service tailored to mission requirements
    - IT infrastructure, including biometric and surveillance capabilities
- **Rapid Deployment**: Activation timelines of 15–45 days for Initial Operating Capability, with full capacity achieved within 60–90 days depending on the site.

- **Strategic Locations**:
  - **Fort Bliss, TX**: Existing infrastructure for housing 11,750 individuals, with access to airfields for streamlined transportation.
  - **Joint Base McGuire-Dix-Lakehurst, NJ**: Site capable of supporting 15,000 individuals with full medical and logistical facilities.
  - **Big Springs, TX**: Secure facility for higher-risk populations with co-located airfields.

Demonstrated Success

Our team's unique qualifications were showcased during Operation Allies Welcome, where Amentum:

- Established and operated the largest and most complex refugee camps with full operational capability in under 14 days.
- Provided comprehensive medical care to over 17,000 patients, including emergency services.
- Managed life support and logistical operations for over 13,000 refugees across multiple locations.

These achievements underscore our ability to adapt and excel under urgent and evolving mission requirements.

Urgent and Compelling Need

Given the strategic importance of these operations and the urgency expressed by the administration, Amentum proposes the issuance of an urgent and compelling award. This approach ensures swift mobilization and seamless execution, reducing risks and maximizing operational efficiency from day one.

Next Steps

We invite the opportunity to engage further with your team to discuss these capabilities and tailor a solution that meets the State of Texas' objectives. Please do not hesitate to contact us to schedule a meeting or briefing at your earliest convenience.

Thank you for your continued leadership, commitment, and service to our great State. Amentum is honored to support both the State of Texas, and the United States in achieving its deportation operations objectives, while working to protect our fellow residents.

V/r

Facilities and Installations in Support of Deportation Operations

Amentum Services, Inc and its partner DMG have a unique track record of providing exceptional response to U.S. Government contingencies requiring the housing and care of first responders, military personnel, and refugees. Based on early engagement with the incoming administration on plans for execution of illegal immigrant deportation operations soon after President-elect Trump's term starts, Amentum developed and briefed concepts to furnish up to 25 installations housing up to 1,000 detainees each with full turnkey services across the continental United States. Services at each camp would be scalable and include:

- Installation construction and maintenance.
- Potable/non-potable Water.
- Billeting, showers, restrooms, laundry, waste removal.
- Food service operations tailored to established requirements.
- Medical services (Basic or Advanced).
- Perimeter and interior fencing.
- IT services (internet, biometric stations, interior/exterior surveillance cameras with main operating hub).
- VTC equipped office spaces for USG team on site.
- Larger office spaces to accommodate on site or VTC meetings/legal proceedings.
- Logistics warehouse support.
- Flexibility to add additional services as may be required.

Construction Timelines (Soft-Sided Installations)

Installations (1,000 Resident Capacity)	Initial Operating Capability @ 50% Occupancy (Days)	Full Operational Capability (Days)
0-5	**15**	**30**
10-15	**30**	**60**
15-20	**60**	**90**

Concept for expedited operations: Amentum understands the sense of urgency with which the Trump administration seeks to execute the deportation operations and offers that an urgent and compelling award be made to Amentum due to the urgent need for support, nature of the requirement to support these operations and Amentum's and DMG's unique qualifications to fulfill this extensive requirement. Amentum and DMG demonstrated the unique capabilities needed during Operation Allies Welcome, operating the first camp to reach Full Operational Capability, a location which also held the largest camp and the most refugees. Amentum and DMG reached Initial Operating Capability in just 14 days after award, and ultimately provided all personnel, labor, vehicles, supervision, training, tools, equipment, safety equipment and other items necessary to support construction and operation of a temporary camp for 13,000 refugees with the enhanced capacity for 2,000 more. Amentum medical staff saw 17,448 patients and

performed 803 Emergency Medical Service events in just the first few months after award. Market research shows that this rapid execution in response to an urgent and compelling need is unmatched in scale and speed. Amentum also has unique experience providing life support camps at multiple locations simultaneously under LOGCAP.

As an alternative to scaling to 25 camps holding 1,000 detainees each, Amentum and DMG can deploy even more quickly upon notification to two operationally advantageous locations, leveraging our unique experience in having operated at these locations with our partners. These two sites have the infrastructure and site conditions to allow for rapid establishment of fully capable support camps using soft sided structures on secure military bases that have previously hosted large immigrant/refugee operations. We recommend that camps have capacities in the range of 5,000-15,000 persons to allow for consolidation of processing operations and to support higher processing volumes. Proposed sites are:

US Army Base Fort Bliss, TX: Established an installation to support 11,750 unaccompanied minor children plus caseworkers within 30 days following notification. Power, sewer, and slabs for buildings and water lines are still in place and could be quickly re-activated. The location on a military base with controlled access and an adjacent large-airframe capable airfield makes Fort Bliss an ideal location for deportation support operations.

Joint Base McGuire- Dix-Lakehurst, NJ: Established an installation to support 15,000 Afghan refugees to include full-service medical treatment within 30 days following notification. Site preparation, sewer and water lines exist that will allow for quick re-activation. The location on a military base with controlled access and an adjacent large-airframe capable airfield makes JBMDL an ideal location for deportation support operations.

Secure Facility Operations: Amentum has evaluated and developed concepts of operation to provide full life support services at a recently closed prison facility in western Texas. Such a facility provides the Government with the ability to consolidate for deportation persons posing a higher level of security risk. The listed capacity could be activated in 30-45 days:

Facility	Capacity	Airport
Big Springs, TX (near Midland TX)	3,500	Airfield co-located

We believe that our expedited solution offers the government the best option to establish a robust start of operations in this critical effort. However, Amentum remains prepared to deliver support camps at the volume and velocity outlined above in Construction Timelines at other locations identified by the government.

Amentum's Vision, Mission, & Values

Our Mission

Bringing advanced engineering and technology solutions to the most significant challenges in science, security and sustainability

Our Vision

Creating a secure and vibrant future

Our Values

We realize breakthroughs by continuously reinventing

We apply undaunted curiosity, relentless ambition and boundless imagination to challenge convention and drive progress.

We deliver on missions by meeting every commitment

We sweat the details, because success on even the largest projects requires consistently and ethically delivering on our promises with quality and integrity.

We take on challenges with courage

We willingly lean into challenges with the confidence of previous success and with the conviction that, together we can conquer anything we face.

We embrace diversity and collaboration

We actively seek to learn from others, knowing that the most future-ready solutions are built from communities that respect and include the broadest range of perspectives.

We believe safety and well-being are integral to success

Physical and emotional security and development are fundamental principles that govern every Amentum workplace and underpin the commitments we make to our communities and planet.
