Re: Freedom of Information Act Request

Dear FOIA Officer(s):

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations of your agency, 28 C.F.R. Part 16, American Oversight makes the following request for records.

Federal Bureau of Investigation (FBI) Director Kash Patel's personal travel using FBI resources has been the subject of both media and congressional scrutiny.[1] At the center of this interest are questions over the extent of Mr. Patel's personal travel using FBI resources and whether he has taken steps to obscure his travel.[2]

American Oversight seeks records that may shed light on this matter.

Requested Records

American Oversight requests that the FBI produce the following records within twenty business days:

1. All formal and informal final directives (including informal email communications), guidance, instructions, and/or orders, created by, issued to, or otherwise provided to the FBI regarding the documentation and/or publication

of Mr. Patel's personal travel, including, but not limited to, the publishing of the FBI director's flight logs or travel itineraries.

2. All official and unofficial dissent memoranda and complaints (such as formal memoranda, ethics complaints, or informal email communications) submitted to your agency regarding Mr. Patel's personal travel.

   For part 2 of this request, American Oversight requests all such documents received from employees, appointees, board members, or contractors of the FBI. To be clear, American Oversight is not asking your agency to release the names of any individuals who have submitted responsive documents and does not object to withholding the name of any individual expressing dissent.

   American Oversight believes your office is in the best position to identify where responsive records are likely to reside, but believes a reasonable search should include, at a minimum, the Office of the Director, the Office(s) of the Deputy Director or Co-Deputy Director, the Office of the General Counsel, the Office of Professional Responsibility, the Office of the Ombudsman, and the Critical Incident Response Group.

3. All records reflecting actual, estimated, or projected expenditures, costs, and/or budgets associated with Mr. Patel's personal travel, including, but not limited to, his use of FBI resources and/or funds for air transportation, ground transportation, and security details relating to personal travel.

   To the extent your office has aggregated records sufficient to show all relevant expenses and costs, such as spreadsheets, American Oversight would accept production of such records as sufficient. To the extent your office does not have an aggregated record of these costs, American Oversight requests records reflecting these costs, such as receipts, invoices, charge card or credit card statements, and reimbursement requests.

4. Records reflecting all reimbursements Mr. Patel has paid the U.S. government for personal use of FBI travel resources, including but not limited to, air transportation, ground transportation, and security details relating to travel.

   For all parts of this request, please provide all responsive records from February 21, 2025, through the date the search is conducted.

Fee Waiver Request

In accordance with 5 U.S.C. § 552(a)(4)(A)(iii) and your agency's regulations, American Oversight requests a waiver of fees associated with processing this request for records. The subject of this request concerns the operations of the federal government, and the disclosures will likely contribute to a better understanding of relevant government procedures by the general public in a significant way. Moreover, the request is for non-commercial purposes.

American Oversight requests a waiver of fees because disclosure of the requested information is "in the public interest because it is likely to contribute significantly to public understanding of operations or activities of the government."[3] The public has a significant interest in the use of taxpayer funds for government officials' personal travel.[4] Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of the federal government, including whether and to what extent FBI officials have adhered to policy and law regarding the use of government resources for personal travel. American Oversight is committed to transparency and makes the responses agencies provide to FOIA requests publicly available, and the public's understanding of the government's activities would be enhanced through American Oversight's analysis and publication of these records.

This request "is not primarily in the commercial interest of the requester."[5] In fact, as a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose, and the release of the information requested is not in American Oversight's commercial interest. American Oversight's mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and X (formerly Twitter).[6]

American Oversight has also demonstrated its commitment to the public disclosure of documents and creation of editorial content through regular substantive analyses posted to its website.[7] Examples reflecting this commitment include the posting of records related to the first Trump Administration's contacts with Ukraine and analyses of those contacts;[8] posting records and editorial content about the federal government's response to the COVID-19 pandemic;[9] posting records received as part of American Oversight's "Audit the Wall" project to gather and analyze information related to the first Trump

administration's proposed construction of a barrier along the U.S.-Mexico border, and analyses of what those records reveal;[10] the posting of records related to an ethics waiver received by a senior Department of Justice attorney and an analysis of what those records demonstrated regarding the Department's process for issuing such waivers;[11] and posting records and analysis of federal officials' use of taxpayer dollars to charter private aircraft or use government planes for unofficial business.[12]

Accordingly, American Oversight qualifies for a fee waiver.

Guidance Regarding the Search & Processing of Requested Records

In connection with its request for records, American Oversight provides the following guidance regarding the scope of the records sought and the search and processing of records:

- Please search all locations and systems likely to have responsive records, regardless of format, medium, or physical characteristics.

- In conducting your search, please understand the terms "record," "document," and "information" in their broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind.

- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.

- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files, email accounts, or devices in the personal custody of your officials, such as

personal email accounts or text messages. Records of official business conducted using unofficial systems or stored outside of official files are subject to the Federal Records Act and FOIA.[13] It is not adequate to rely on policies and procedures that require officials to move such information to official systems within a certain period of time; American Oversight has a right to records contained in those files even if material has not yet been moved to official systems or if officials have, by intent or through negligence, failed to meet their obligations.[14]

- Please use all tools available to your agency to conduct a complete and efficient search for potentially responsive records. Agencies are subject to government-wide requirements to manage agency information electronically,[15] and many agencies have adopted the National Archives and Records Administration (NARA) Capstone program, or similar policies. These systems provide options for searching emails and other electronic records in a manner that is reasonably likely to be more complete than just searching individual custodian files. For example, a custodian may have deleted a responsive email from his or her email program, but your agency's archiving tools may capture that email under Capstone. At the same time, custodian searches are still necessary; agencies may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.

- In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.

- Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.
