Janet,

Our Thursday is pretty busy and Friday is a no go for Director Hayes, as he'll be traveling to meetings out of the office. We could do a phone call at 10:00 Thursday, but we'll be on the road. That shouldn't pose any obstacles for us if that's ok with you. This preliminary phone call should be pretty brief and my primary objective is to get an in-person meeting set up, so 10:00 Thursday will work on our end.

Dear Mr LiVecchi,

Thank you for your quick response.

I'd be happy to set up a brief phone conference with you to introduce myself. I'd also like to invite Dr Rick Richards if I may, who is the creator of the software tool called "ELLY" the Elector List.

ELLY would be provided free of charge to the State and Counties. As I mentioned previously, I have been beta-testing this product.

Let me know what works for you. Dr Richards is free after 10am on Thursday, or after 11am on Friday - my schedule is pretty flexible this week.

Best,
Janet Fenstermaker

Ms. Fenstermaker,

Thank you for your email, and for the invitation to demo the tool you recommend. We are always on the lookout for technologies or tools to leverage in the pursuit of accurate voter rolls, and as you know our current system was not designed with the identification and elimination of duplicate registrations as a top-line priority. While we have been doing the best

AMERICAN OVERSIGHT

we can with the tools available and have been developing tools of our own, we welcome input and assistance from the public where possible. Could we set up a brief phone conference to make introductions and get some background, with an eye toward setting up an in-person meeting and demo of the tool? I think I can speak for Director Hayes as well when I say we are very much looking forward to the opportunity, and would be happy to consider any dates and times that are convenient for you.

Best regards,

BPL

Sirs,

AMERICAN OVERSIGHT

In reference to Auditor Boliek's 'X' post regarding non-residential addresses, I'd like to offer you the opportunity to demo a tool that may be useful in identifying invalid addresses and registrations.

I've been beta-testing this tool for some time. While it's still a work in progress, I highly recommend it and believe you'll find it useful.

- If you'd like to see it in action, I'm happy to walk you through a brief demo.

Sincerely

Janet Fenstermaker
