Board of Elections

Voting Proposal Summary

Submission Process

The Durham County Board of Elections is required to approve an Early Voting Implementation Plan for the 2026 Statewide General Election pursuant to N.C. Gen. Stat. 163-166.35. This is required since the Board has traditionally authorized alternative early voting locations to supplement the Durham County Board of Elections office.

If the implementation plan is unanimous amongst all members of the Board, it will be submitted to the State Board of Elections for review and approval. If the plan is not unanimous amongst all members of the Board, a majority and/or minority plan may be submitted to the State Board of Elections for consideration and potential adoption.

The deadline for submitting the early voting implementation plan to the State Board of Elections for the 2026 Statewide General Election has yet to be determined.

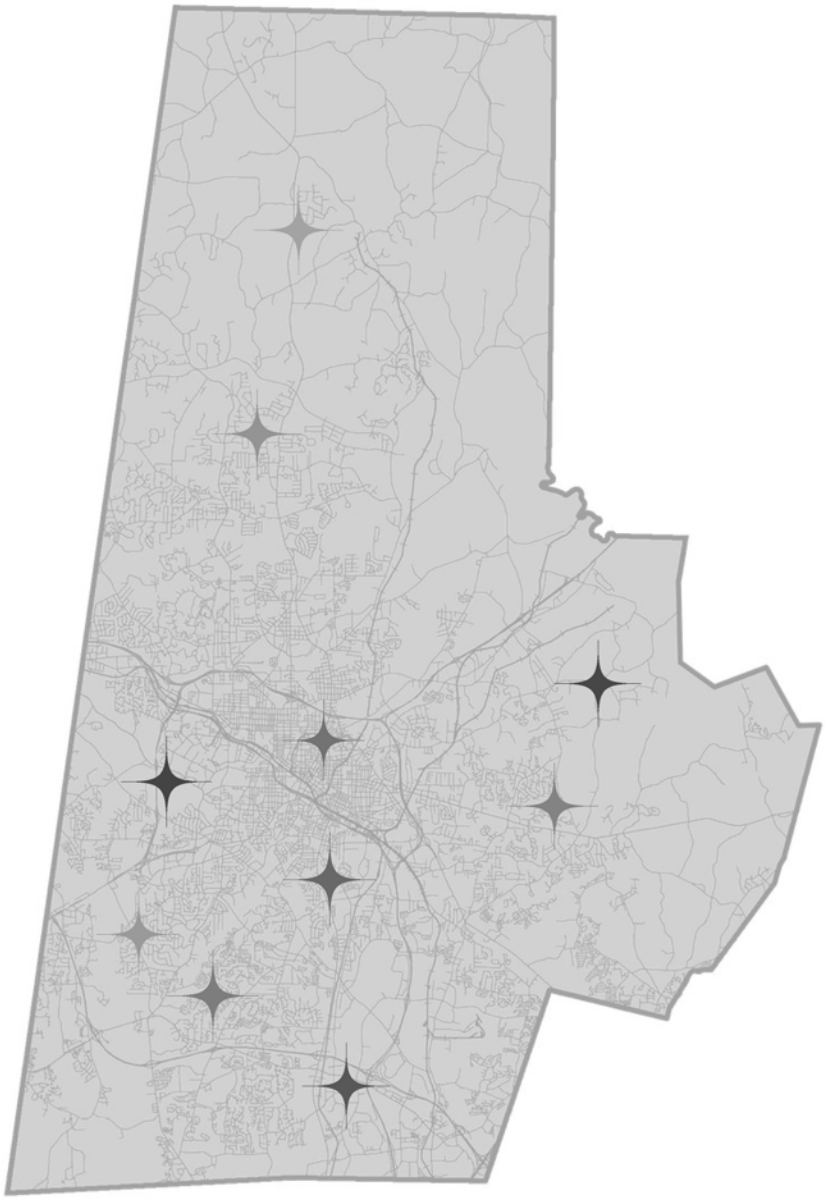

This plan will be considered by the Board at its May 14, 2026, Board of Elections meeting at 5:30 p.m. Members of the public can submit public comments on the proposed early voting plan until May 12, 2026, by clicking **here**.

Proposed Plan

- ☑ Establishes 10 locations throughout Durham County.
- ☑ Establishes 1,670 total hours of voting.
- ☑ Ensures Saturday and Sunday voting at all locations.
- ☑ Ensures all locations are open uniformly for 17 days.
- ☑ Ensures consistent hours on weekdays and weekends.
- ☑ Does not exceed funds requested for the early voting period.

Comparable Election Review

Comparable Election

In preparing the 2026 Statewide General Election Proposed Early Voting Plan, staff primarily used the approved Early Voting Plan for the 2022 Statewide General Election (11/08/2022) when conducting analysis. These elections are comparable as they have the same contest cycles. Click **here** to see voter history data from the 2022 Statewide General Election.

Hours Comparison

The total number of hours included in the 2026 Statewide General Election Proposed Early Voting Plan (1,670) is an increase over the number of hours offered during the 2022 Statewide General Election Early Voting Period (1,336). The increase in hours is attributable to the addition of two early voting locations. This increase is necessary to accommodate a projected increase in turnout and to ensure equitable site distribution across the county in accordance with N.C. Gen. Stat. 163-166.35(a).

Site Comparison

The total number of sites included in the 2026 Statewide General Election Proposed Early Voting Plan (10) is an increase over the number of sites offered during the 2022 Statewide General Election Early Voting Period (8). This plan adds the Little River Community Complex and Southern High School as supplemental sites.

Days Comparison

The total number of days offered in the 2026 Statewide General Election Proposed Early Voting Plan (17) is equal to the number of early voting days offered during the 2022 Statewide General Election Early Voting Period (17). Under current law, 17 days is the maximum number allowed during the early voting period.

Election Date	Total Days	Total Sites	Total Hours	Total Early Voters

Hi Dallas,
The Durham County Early voting plan is attached. It received unanimous approval at today's Board meeting.

A site in Bahama, the Little River Complex and a site in East Durham, Southern High School were added. Unfortunately, we were not successful in finding a location in the Brier Creek area in which there is a considerable republican presence. Note the yellow area on the Republican Density map.

Let me know of any questions or concerns.

David

We wanted to check in with you to see how things are going with early voting plans and other issues you are seeing.

We especially need to know what counties have passed nonunanimous plans or anticipate they will.

Please send

Hi Dallas,
The Durham County Early voting plan is attached. It received unanimous approval at today's Board meeting.

A site in Bahama, the Little River Complex and a site in East Durham, Southern High School were added. Unfortunately, we were not successful in finding a location in the Brier Creek area in which there is a considerable republican presence. Note the yellow area on the Republican Density map.

Let me know of any questions or concerns.

Hi Courtney and Christian,
Attached you will find a chart containing the early voting turnout statistics and demographics for NCCU and Duke for the 2022 General Elections. Bear in mind that 2022 data is the most recent comparable for the 2026 Statewide General Election.

For context, 20 percent of NCCU and Duke voters fell in the 18 - 25 age bracket for the 2022 early voting period. Presumably, 80 percent of the voters are non-students. The Duke location is easily accessible by hospital and university staff. Note that the vast majority of the EV votes were cast by those over 26 years of age. FYI, there are a few older Democrat voters who claim that they travel to NCCU to cast their Early vote.

Let me know of any questions or if more information is desired.

Regards,

Db

Give Input on Buncombe County 2026 General Election Early Voting Plan

AMERICAN OVERSIGHT

Over 900 Buncombe County neighbors have already shared their feedback on the proposed Early Voting plan. Take a 5-question survey about Buncombe County's hours and locations. Your thoughts will help decide when and where registered voters can cast their ballots during Early Voting.

The Buncombe County Board of Elections will take feedback into consideration when determining the number of locations and weekend hours for early voting.

The survey is open now and closes on Friday, June 19 at 5 p.m.

Take the short survey and see the staff recommendations at engage.buncombecounty.org/2026generalearlyvotingsurvey.

View the Plan and Give Your Feedback

During their meeting on June 23, the Board of Elections will review the survey results and in-person feedback. The board will vote on adoption of the plan in a meeting on July 14.

Subject: Madison County Early voting plan

The Madison County Board of Elections unanimously approved the Early Voting Plan for the November 2026 General Election for our county at their regular meeting yesterday. The approved plan will mirror the early voting plan from the General Election for 2022.

There will be three sites, Beech Glenn, A B Tech, and Hot Springs; regular voting hours required by law (8am-7:30pm: except the last Saturday which will be 8am-3pm); will start on Thursday October 15th and run through Saturday, October 31st. No Saturday or Sunday voting except for October 31st.

We will monitor SB 1084 as it winds it's way through the legislature. If passed in to law, this bill would modify all early voting in North Carolina.

Good morning Ms. White,

If possible, could you please pass along my comments below to Auditor Boliek?

AMERICAN OVERSIGHT

Auditor Boliek,

The topic I planned to discuss with you was training. I have no doubt with the representative group of SEIMS "customers" you have assembled that North Carolina will develop an excellent new SEIMS. However, if users don't know use the new software, it will not be nearly as successful as it could be. A training component focus should be made a priority.

Training videos and interactive training will bring a level of expertise to SEIMS that does not exist currently. Staff turnover at the County level is growing. The citizens that serve as Early Voting and Election Day officials only do their jobs a few days a year or maybe every two years. Most Candidate Treasurers have not served in that role before.

I propose not only do we build training into the new SEIMS, but also create statewide training for SOSA and OVRD (the two software programs used to process voters at the polling site) before the 2026 General Election by hiring a professional company to create that training. This also provides for a short term improvement while awaiting the longer term rollout.

The law expects every county to administer elections the same way. That can be challenging when 100 counties train 100 different ways. Some counties may be great administrators, but struggle with being a trainer. A professional training course can provide uniformity for county election administration and bring increased knowledge and retention for pollworkers.

We can build the greatest SEIMS in the world, but if its customers cannot use it easily and accurately, what have we really accomplished. I look forward to working with everyone in the coming months. Should you have any questions, please let me know.

Thank you for your time and your service to North Carolina,

Matt Snyder

Dear Chairs: I hope you had a wonderful Easter and are ready for spring. After a successful primary, we now turn attention to the General Election. We are asking you to update us on early voting plans for November.

We realize you may not know every detail yet, but we want to check in with you to see what your thoughts are. This short quiz/survey is similar to what we sent before

Please click here to respond https://forms.gle/Hbab3o7ry7mTuxFB7

We are asking for some information comparing the 2026 General Election Early Voting Plans to the 2022 General Election. If you need to refer to what your county did in 2022, click the link below.

2022 General Election One-Stop Site List

A couple notes going forward. Please give us a heads up before passing your plans. Just so we know what is happening before it occurs and can ask questions if needed.

We of course want to continue to add early voting sites where we can as appropriate, while managing our resources carefully. We were proud of the fact that on a statewide basis for March, we increased the number of early voting sites and total hours. Worth noting, that

AMERICAN OVERSIGHT

although there was some reduction in under utilized Sunday voting hours, OVERALL we added more weekend hours by adding additional Saturday hours and/or locations.

One legal update:

Many of you continue to express concerns about the availability of staff for early voting. Many of you in counties with some history of Sunday voting have informed us that these days are particularly difficult. We have also listened to your concerns about the high per ballot cast cost of this as well as the burdens on your staff. We hear you.

For March, the NCSBE accepted reductions in Sunday voting hours when overall voting opportunities were increased by extending hours on other days, adding a Saturday or adding new locations.

Thanks for your service. Its important that fill out this survey as soon as possible. Please click here to respond https://forms.gle/Hbab3o7ry7mTuxFB7

Good morning!

I wanted to share with you some comments that have been submitted to the MEDS email address since the last meeting. I have them pinned to the top of the inbox if you'd like to read them, but I also put them into a word doc. I know we mentioned sharing public comment (one of them is from one of the members), so I wanted to send this to you both for awareness.

Comments that have been sent to the MEDS email:

Auditor Boliek,

The topic I planned to discuss with you was training. I have no doubt with the representative group of SEIMS "customers" you have assembled that North Carolina will develop an excellent new SEIMS. However, if users don't know use the new software, it will not be nearly as successful as it could be. A training component focus should be made a priority.

Training videos and interactive training will bring a level of expertise to SEIMS that does not exist currently. Staff turnover at the County level is growing. The citizens that serve as Early Voting and Election Day officials only do their jobs a few days a year or maybe every two years. Most Candidate Treasurers have not served in that role before.

I propose not only do we build training into the new SEIMS, but also create statewide training for SOSA and OVRD (the two software programs used to process voters at the polling site) before the 2026 General Election by hiring a professional company to create that training. This also provides for a short term improvement while awaiting the longer term rollout.

The law expects every county to administer elections the same way. That can be challenging when 100 counties train 100 different ways. Some counties may be great administrators, but struggle with being a trainer. A professional training course can provide uniformity for county election administration and bring increased knowledge and retention for pollworkers.

We can build the greatest SEIMS in the world, but if its customers cannot use it easily and accurately, what have we really accomplished. I look forward to working with everyone in the coming months. Should you have any questions, please let me know.

Thank you for your time and your service to North Carolina,

Thank you for making the Videos of your meetings available.

I personally have been through a major IT transition that took about a year, and the **data MUST Be cleaned up and sorted before merging** into a new system.

Preparing for the new system is one of the largest and **most important** pieces, and I can't stress the importance of this enough.

Sandbox is a must!!

Videos and on demand trainings must be available.

This will be a very stressful time for all, so you have my best wishes for a successful transition. 👋

Debbie Dante

All, thank you so much for your work on the campaign finance software replacement. I spoke about a number of things in my presentation to the commission and submitted those via Siobhan. I have a group of about 145 treasurers statewide that communicate regularly. I asked them for additional input.

I received one more that is important and wanted to get it to you. Republicans and Democrats use donation software. Currently on my side, NGP is the only application that automatically receives the donation and all details for the NGP fundraising engine and from ActBlue.

The new software should enable API's to receive and catalog the donations, donor's required information, and maintain a donor record for each Committee to help with tracking campaign finance limits. This will limit manual data entry and support more accurate reporting and tracking.

Dear Chairs: I hope you had a wonderful Easter and are ready for spring. After a successful primary, we now turn attention to the General Election. We are asking you to update us on early voting plans for November.

We realize you may not know every detail yet, but we want to check in with you to see what your thoughts are. This short quiz/survey is similar to what we sent before

We are asking for some information comparing the 2026 General Election Early Voting Plans to the 2022 General Election. If you need to refer to what your county did in 2022, click the link below.

2022 General Election One-Stop Site List

A couple notes going forward. Please give us a heads up before passing your plans. Just so we know what is happening before it occurs and can ask questions if needed.

We of course want to continue to add early voting sites where we can as appropriate, while managing our resources carefully. We were proud of the fact that on a statewide basis for March, we increased the number of early voting sites and total hours. Worth noting, that although there was some

AMERICAN OVERSIGHT

reduction in under utilized Sunday voting hours, OVERALL we added more weekend hours by adding additional Saturday hours and/or locations.

One legal update:

Many of you continue to express concerns about the availability of staff for early voting. Many of you in counties with some history of Sunday voting have informed us that these days are particularly difficult. We have also listened to your concerns about the high per ballot cast cost of this as well as the burdens on your staff. We hear you.

For March, the NCSBE accepted reductions in Sunday voting hours when overall voting opportunities were increased by extending hours on other days, adding a Saturday or adding new locations.

Thanks for your service. Its important that fill out this survey as soon as possible. Please click here to respond

Subject: Madison County Early voting plan

The Madison County Board of Elections unanimously approved the Early Voting Plan for the November 2026 General Election for our county at their regular meeting yesterday. The approved plan will mirror the early voting plan from the General Election for 2022.

There will be three sites, Beech Glenn, A B Tech, and Hot Springs; regular voting hours required by law (8am-7:30pm: except the last Saturday which will be 8am-3pm); will start on Thursday October 15th and run through Saturday, October 31st. No Saturday or Sunday voting except for October 31st.

We will monitor SB 1084 as it winds it's way through the legislature. If passed in to law, this bill would modify all early voting in North Carolina.

Good morning Ms. White,

If possible, could you please pass along my comments below to Auditor Boliek?

Auditor Boliek,

The topic I planned to discuss with you was training. I have no doubt with the representative group of SEIMS "customers" you have assembled that North Carolina will develop an excellent new SEIMS. However, if users don't know use the new software, it will not be nearly as successful as it could be. A training component focus should be made a priority.

Training videos and interactive training will bring a level of expertise to SEIMS that does not exist currently. Staff turnover at the County level is growing. The citizens that serve as Early Voting and Election Day officials only do their jobs a few days a year or maybe every two years. Most Candidate Treasurers have not served in that role before.

I propose not only do we build training into the new SEIMS, but also create statewide training for SOSA and OVRD (the two software programs used to process voters at the polling site) before the 2026 General Election by hiring a professional company to create that training. This also provides for a short term improvement while awaiting the longer term rollout.

The law expects every county to administer elections the same way. That can be challenging when 100 counties train 100 different ways. Some counties may be great administrators, but struggle with being a trainer. A professional training course can provide uniformity for county election administration and bring increased knowledge and retention for pollworkers.

We can build the greatest SEIMS in the world, but if its customers cannot use it easily and accurately, what have we really accomplished. I look forward to working with everyone in the coming months. Should you have any questions, please let me know.

Thank you for your time and your service to North Carolina,

Good morning members,

I am reaching out regarding the scheduled phone calls that each of you signed up for with Auditor Boliek over the last week. We've had some scheduling conflicts arise and unfortunately the Auditor has been unable to make these phone calls. We will be postponing them until further notice, and will be in touch about rescheduling them for a later date. Thank you for your flexibility on this, and we appreciate your time and commitment to this committee! Please don't hesitate to reach out if you have any questions or concerns.

Best,
