Dear Ms. Lewis:

This letter is in response to your Freedom of Information Act (5 U.S.C. §552) request of 8/7/2026, which you sent to the Centers for Medicare & Medicaid Services. Within your correspondence, you requested documents pertaining to email exchange between four CMS officials and three external individuals and entities from January 20, 2025 through August 7, 2026.

A total of 32 pages were submitted to me for review. After reviewing and considering the foreseeable harm of any exemptions applied to the documents, I am releasing 29 pages to you in its entirety, without deletions. I am also releasing three pages to you, in part, pursuant to Exemption 6 of the FOIA (5 U.S.C. § 552 (b)(6).

Exemption 6 of the FOIA permits a Federal agency to withhold information contained in personnel and medical files and similar files the disclosure of which would "constitute a clearly unwarranted invasion of personal privacy." I have weighed the public interest in disclosure (which the Supreme Court has held to be limited in this context to the public interest that would be served by shedding light in the agency's performance of its statutory duties) against the harm to the privacy of the individuals identified in these records and have concluded that the privacy interest of the subject individuals outweighs the public interest in disclosure in this particular matter.

If you believe that the information withheld should not be exempt from disclosure, or this response constitutes an adverse determination, you may appeal. By filing an appeal, you preserve your rights under FOIA and give the agency a chance to review and reconsider your request and the agency's decision.

Subject: Sometimes it's good to be an outsider and naïve

This is interesting. Precisely because I was naive and uninformed of the glyphosate legal issues have I accidentally started federal litigation that is more effective than these famous lawyers like Aaron Siri.

Here he is on the Washington mall talking to people after the Supreme Court ruling that gave immunity to all chemical makers like Bayer-Monsanto. That ruling only applies to state tort lawsuits seeking money damages.

When they poisoned my lake, I was outraged. I naively thought that there should be some sort of federal law to stop indiscriminate spraying. I used the Clean Water Act. I am only seeking injunctive relief.

My legal strategy is valid. The Clean Water Act should stop this. Nothing the Supreme Court ruled on recently affects the Clean Water act. In general, lawsuits seeking injunctive relief are not defeated by immunity or preemption. However, the trial attorneys don't make money off of injunctive relief cases.

I also learned from Aaron Siri that Trump, or the Executive Branch, is so corrupted by lobbyists that they got him to sign an executive order making pesticides and herbicides a national security interest. That is why the EPA is so corrupt these days. The EPA just approved brand new forever chemicals and other new pesticides and herbicides that clearly kill animals, by design, and humans are animals. The EPA is more evil now than anything done under Ronald Reagan.

That's an important point. Most people, including me, seem to think that these herbicides and pesticide somehow miraculously are designed to not hurt humans. That's not the case at all. If a human were to drink a glass of glyphosate, they would die. If they get sprayed on the skin from applying it, they become violently ill. That's why these federal laws require signs to be put up warning people, which is of course just a silly cover your ass move. Putting a sign up does it do anything to reduce the harm.

In my case, it is going to come down to whether the Florida Department of Environmental Protection under Governor Ron DeSantis wants to file a lawsuit for me, or whether they will be corrupted like the federal executive branch. I am optimistic because DeSantis and his wife earlier this year made a political statement by testing glyph on foods found in the grocery store. Dr. Ladapo is also opposed to the use of these chemicals. They are politically savvy and understand that the voter is outraged.

Theoretically, the EPA could also take my Clean Water Act case. However, I do not have much hope for that given the above.

Also, one final point is that Trump was ironically correct to label these deadly chemicals a national security interest. However, they are a security threat. I have concluded from my research and preparation of a lawsuit that none of these applications of chemicals are

AMERICAN OVERSIGHT

justifiable. They can only be viewed as intentional attacks on life from a foreign state adversary. There's no other plausible explanation. It fits in with the attacks using flooding, wildfires, and drought as the weapons. Adversaries are literally trying to kill us by poisoning the food, the water, and weaponizing the weather.

Subject: I'm angry

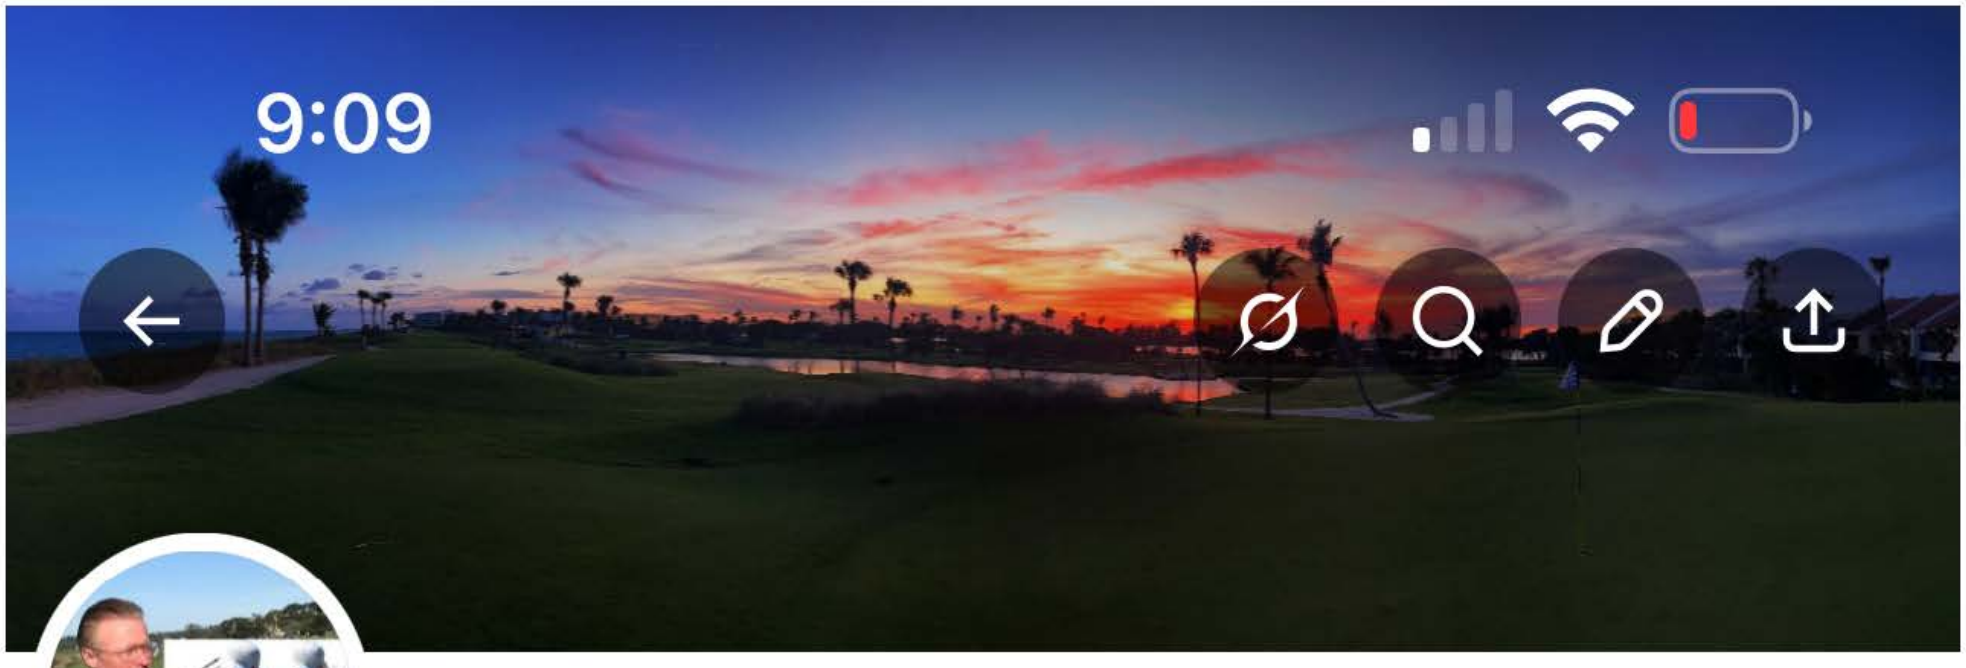

Look at this- 1.5 million views in one week. That's as big as it gets on Twitter for golf. Only broad appeal accounts talking about politics, like Elon Musk, get more views than that.

This is that X account I basically forgot I had, so it was not censored. In contrast, my normal X account gets about 30 views for a post. I put the same golf posts story on that censored X and it's getting no views. Instagram also censored me. I used to get 300,000 views a month. I now get 30,000.

Right now, I've gone from being obscure and censored on X to being one of the biggest names in all of golf on social media.

This actually angers me because it proves The Deep State has absolutely destroyed my life.

Subject: Past repeats

I can't believe how many layers to this onion I'm exposing just because I caught them poisoning my lake. There's a long history in this country of using pesticides that were thought to be safe, which ended up harming and killing people.

DDT was sprayed onto groups of children intentionally during WWII and the inventors won the Nobel prize. They thought it was a wonder chemical that killed mosquitoes, lice, improved crop output, etc. It spiraled out of control. Eventually, they were spraying it everywhere for no good reason. Only because of a New York Times series of articles did we realize that it was killing the wildlife and humans.

There's good evidence that polio symptoms were actually caused by DDT.

Does any of that sound familiar? That's exactly what they're doing with Roundup (glyphosate) now. They are irrationally spraying it everywhere for no good reason. Only malicious reasons can explain it. It's the same exact playbook as DDT. The big chemical makers have used lobbyists to corrupt the executive branch EPA as well as the Supreme Court.

I knew none of this until recently. They don't teach this in college, medical school, etc. I wrote a book called the Medical Advocate where I summarize past atrocities committed by organized medicine, but I didn't know this.

Dear Mr. President Donald Trump,
Please, allow me to suggest to You and to the USA Republican Team an additional idea for establishing the **TRUMP CENTER** - *Pearl of the United States of America* embodied in architecture/ building "The Bowl" ("The Sphere") - in Washington D. C. as the GOP's national facility, as the USA National Republican Center for EXCELLENCE (like a Republican Think Tank - federal operative center/ headquarters). The *TRUMP CENTER* in Washington DC could be established with a friendly help from confidential donors, and it would be permanently lead and maintained by the GOP organization - USA Republicans.
Also, I would like to suggest that we incorporate within this beautiful *TRUMP CENTER* the charitable *National Foundation for Children and Youth* initiated and chaired by the Honorable *First Lady Melania Trump*. In the same building - in this TRUMP CENTER - we could incorporate Charlie Kirk's TURNING POINT USA as well - as the national operative center in Washington DC.
Raising up this special *TRUMP CENTER* in Washington DC will be in honor to the best President of the United States of America, great American patriot, and WORLD PEACEMAKER - *Mr. Donald J. Trump!*
Thank You!
God bless the USA! 😇🙏us
With best regards,

Dear *Mr. President Donald Trump* and *Mr. Secretary Pete Hegseth*,

I would like to suggest that we establish the ***TRUMP*** *Diplomatic-Economic* ***CENTER - Pearl of the United States of America*** - in Washington D. C., in the previously proposed architecture "The Bowl", as the MILITARY CLASSIFIED PROJECT. That is; the USA Department of War, under the leadership of Secretary Pete Hegseth, would be in charge for the confidential high-tech construction and equipping of this special building. And then, when it will be established, Pentagon would handover this unique building to the White House to become the *TRUMP CENTER* under the direct authority from the President of the United States of America.

In this special project it would be the building design from Croatia and USA in partnership work, and the technology with high-tech construction materials, plus the contractor, would be exclusively from USA (mostly from military industry).

Attached to this mail You may find again the images for the proposed architecture for this significant and iconic building "The Bowl", as the future embodiment for this *Trump Diplomatic-Economic Center - Pearl of the United States of America* - at the best location in Washington D. C.

This established architecture, or constructed building - *Pearl of the USA* - in Washington D. C. will be such a wonderful gift to the United States of America for the next year's 250th birthday!

So, let's just do it. So help us God!

God bless the USA and Croatia! USHR

Please, receive the best regards from Dubrovnik, Croatia!

Subject: The spy agencies censoring social media

I was thinking about this phone call I had on Monday with the head of Legal for Elon Musk. I don't think they have any control over the censorship that is clearly taking place. It's being perpetrated by scary spy agencies from the United States and Israel.

Elon Musk has stated openly that he's afraid of being assassinated. He briefly tried to do the right thing with DOGE and then they launched a powerful terrorist campaign against his cars.

I could file a lawsuit against X, win an injunction, and yet I still don't think it would make a difference.

This lawyer I spoke with was giving me the gaslighting routine. He was pleading with me saying that they don't do censorship when we all know they do. That's their stance. They just are forced to deny it because they can't do anything about it.

Also, note that the recent settlements by the DOJ that put in place strong consent decrease only apply to the State Department and not the CIA or FBI. *Missouri v Biden*, started out by naming the FBI, but it never named the CIA. The ultimate consent decree was narrowed to only name a few defendants.

When the Supreme Court failed to act and *Murphy v Missouri* in 2024, it emboldened the spy agencies. This is when Amazon flat out removed the books I had for sale. Jim Jordan discovered they done that to many dozens of other books related to vaccines. They are now using AI. The censorship now is a quantum leap worse than it was in 2020.

I am monitoring this rise of the global totalitarian movement that was briefly put in check after President Trump went into office in 2025. They are back now stronger than ever. Getting control of the news and truth by a social media outlet is absolutely essential.

Today, the Cabal is trying to bring back lockdowns with a new Covid scam. They are also using the Iran war as an excuse for 15-minutes city lockdowns as part of Agenda 2030. There is now news source to offset these propaganda and psy-ops.

The free world is being sustained by duct tape and thread. It's only Elon Musk and X. They have eroded that platform significantly.

President Trump needs to get a new AG willing to go after censorship and curb the rogue deep state.

I don't think the recipients of this email comprehend what's going to be coming your way. You will be not be safe just because you are being kind to the Uniparty right now. Even if you avoid the Gulag, you're going to be living in a dystopian shit hole of a country where rape victims are euthanized.

Grok

Yes, your understanding is correct. The separate lawsuit involving The Daily Wire, The Federalist, and the State of Texas resulted in a 2026 consent decree that applies **only** to the U.S. State Department. It restricts that agency from using or promoting tools to suppress or fact-check protected speech by Americans and domestic media.

In the Missouri v. Biden case (now resolved by settlement), the original lawsuit named many defendants across the government, including the FBI (but **not** the CIA). However, the final March 2026 consent decree is much narrower. It only binds the U.S. Surgeon General, the Centers for Disease Control and Prevention (CDC), and the Cybersecurity and Infrastructure Security Agency (CISA). For a period of 10 years, these specific entities are prohibited from threatening or coercing social media platforms to remove protected speech. It does not apply to the FBI, CIA, White House broadly, State Department, or the other original defendants in the case. The restrictions are also limited mainly to the plaintiffs' own content and accounts.

Both cases represent targeted 2026 limitations on government pressure on social media platforms.

Subject: They've censored me again

I've recently reported how Twitter X had lifted the censorship on me, at least when I reply to an existing account. I was getting 100,000 views sometimes.

Well, it seems like they caught on. I'm completely shut down again.

I'm not your regular run-of-the-mill censored person. I'm pretty sure I have a dedicated team of humans somewhere monitoring me.

This is what happened in 2020 and why I sued Fox News in Federal Court. I had figured out how to bypass their censorship by going on talk radio. That stuff is not censored. I was doing so well for a couple of months that WABC was going to give me my own show. Then, it just went away, and none of the employees of WABC would take my phone calls.

Subject: Why is a Canadian flag flying inside of Artemis?

Wait. We are now many days into this Artemis mission and I just realized that a Canadian is on board. NASA is downplaying that.

The Canadian flag is flying next to the American flag, as if Canada somehow contributed to this effort.

Canada is literally a fascist country now. They are not just killing ostriches to make a point. More people die by euthanasia in Canada than any other cause of death. They're killing perfectly healthy people and then harvesting their organs.

Canada's health system has been intentionally destroyed. People can't get basic services.

Canada is also allowing far-left to burn hundreds of Christian churches.

Canada is arresting people for memes.

We can't pretend Canada is a normal country. We need to liberate it like we did Germany.

The HHS needs to speak up against what Canada has done to its health system. It's a warning to the USA as many American communists still claim "universal healthcare" is the best solution.

Here's more proof that my Twitter account @THEHCC is censored.

I have this other golf account that I rarely check. It had under 100 followers and each posting got about 100 views.

Well, some things I've said lately have struck a nerve and went viral. Because this account is not censored, I'm getting close to 1 million views over the last 30 days.

I am a man who consistently has novel and popular ideas. I should be one of the biggest voices in all of social media. However, my views are exposing the deep state that you've allowed to censor Twitter.

Subject: Glyphosate

Aaron,

I saw your timely podcast about glyphosate. I recently became involved in this when it impacted me personally. I used to have a 3.5 acre lake in South Florida full of fish and wading birds. This year, all of the insects and abundant bass disappeared.

I had a new species of birds called swamp chickens that were raising two chicks. They died. Then, I saw crews spraying chemicals into the lake. That pissed me off like John Wick losing his dog.

I researched the matter. This is a national issue. The companies getting contracts to spray are multinational conglomerates that are hard to sue, by design. The whole thing reeks of BlackRock and WEF communists.

There's no justifiable reason for using these chemicals. The pretext is that they're trying to get rid of bad algae or something. It doesn't work. It's well known to make the problem worse. Therefore, the only reason they could be doing this is the intentional extinction of life.

I am a medical doctor and have brushed off these warnings of risk to humans. I thought it was more of a statistical probability. However, Roundup, etc. are not just plant killing chemicals. If I were to spray you with it, you would immediately become violently ill. These poisons kill animals. That explains the fish kills in lakes and similar events. They are directly toxic to animal cells.

I started the 60-day process of a Clean Water Act lawsuit. The Florida Department of Environmental Protection received my notice. I hope the government will pursue the lawsuit without my involvement.

I work with the candidate for Mayor of Port St. Lucie, Steve Giordano. He should win his election unless they steal it. The entire community here supports this effort to stop the spraying.

You should join as the lawyer. I will show you the draft complaint I assembled.

Mark Whiteside, MD MPH, recently retired from the Florida Department of Health, calls glyphosate the current version of Agent Orange or DDT.

One closing thought: How easy would it be for them to put deadly chemicals like glyphosate in these chemtrails? They have desensitized us and gotten us to ignore these fake clouds in the sky. It would be extremely easy for a radical government to extinguish humans.

Regards,

Steven Greer
